EPM:PSM - Professional Science Master in Environmental Policy and Management

Overview

Degree Offered
PSM - Professional Science Master's

Program Title
Environmental Policy and Management

The Professional Science Master's (PSM) in Environmental Policy and Management is an interdisciplinary program designed to prepare students for careers in local, state, and national environmental organizations and agencies. This professional degree is meant primarily for working professionals who wish to pursue the master's degree on an accelerated basis. The skills-based curriculum offers students a wide range of competencies within broader professional areas related to environmental policy and management. Successful graduates of this program are expected to build competency in the practices of environmental management and policy, and the presentation of their work to a variety of stakeholders.

For more information, visit the Professional Science Master's in Environmental Policy and Management, or College of Arts, Sciences, and Education websites.

Requirements

Simple Requirements

Admissions Requirements

To be admitted into the Professional Science Master's in Environmental Policy and Management program, a student must meet the University's graduate admission requirements and have:

(1) A "B" average in upper-level work, which every candidate must take. International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the iBT TOEFL or 6.5 overall on the IELTS is required. International applicants must provide a course-by-course credential evaluation with GPA calculations from a NACES member.

(2) Submitted two letters of recommendation, a one-page statement of career interests, and a copy of all transcripts to the Program Director on or before February 15 for International students and June 1 for Domestic students. All cohorts begin in the Fall.

*International applicants not currently on a valid visa may still apply after the posted deadlines; however, individuals that do so should expect delays in the visa process and may be required to defer their application to a future cohort.

(3) Received approval of the program administration and/or the relevant graduate program committees.

Program Requirements

The PSM in Environmental Policy and Management consists of a total of 31 credits, including an external professional experience. The program is to be completed in four semesters with a course load of 9 credits during the fall and spring semesters and 4 credits in the summer.

Program Credit Hours: 31

Type

Completion Requirement

Core Courses

Complete ALL of the following Courses:

- EVR5320 - Environmental Resource Management
- GIS5050 - Environmental GIS
- MMC5655 - Mass Communication and the Environment
- STA6196 - Statistics for Environmental Sciences

Area Subjects

Complete ALL of the following Courses:

- EVR5355 - Environmental Resource Policy
- EVR5409 - Advanced Conservation Biology
- EVR6322 - Methods of Sustainable Resource Management
- EVR5945 - Professional Practicum in PSM-EPM: Fieldwork
- EVR5946 - Professional Practicum in PSM-EPM: Reflections
- EVR6285 - The Practice of Ecological Restoration
- ESI6455 - Advanced Engineering Project Management

Professional Practicum

Students are required to complete a minimum of 1 credit of professional practical development through a practicum experience, or the like, during the summer semester of the program. During this time, they will work on a relevant project that has been mutually agreed upon by the practicum provider and program administration. In the final term, students will be required to write a report on this project and present it orally as a capstone assessment of their professional development and abilities.

Graduation Requirements

A grade of “B” or higher must be obtained in all core courses. A grade of “C” or higher must be obtained in other courses, with a cumulative GPA of 3.0 or higher in the 31 credits. A practicum (EVR 5945) must be completed under faculty supervision, and it must be presented as part of EVR 5946. This work may be used based on field research, or relevant practical professional development experience (e.g. an internship, externship, employer facilitated development, etc.)

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no track, specialization, concentration, area of emphasis, or other curricular offerings associated with this program.

ERTHSC:BA - Bachelor of Arts in Earth Science

Overview

Degree Offered
BA - Bachelor of Arts

Program Title
Earth Sciences

The Bachelor of Arts (BA) in Earth Science is a program for the student who requires a broad background in earth sciences for a career in science education or public or private administration dealing with Earth and environmental science issues. This program offers a major in Earth Science Education, which leads to teacher certification in Florida.

For more information, visit the College of Arts, Sciences, and Education website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Bachelor of Arts (BA) in Earth Sciences

See general university admission requirements at admissions.fiu.edu.

Admission Requirements for the Earth Sciences Education Major

To qualify for admission to the program, undergraduate candidates must have met ail the lower division requirements including: 60 credit hours of lower-division courses, all general education requirements, lower division GPA of 2.5 or higher, and achieve the competencies of the FTCE General Knowledge Exam (GK). All students must pass the GK Exam by the time they reach 72 credit hours in their program of study. All stated admission requirements are to be considered minimum. A student who meets these minimum requirements is not automatically assured admission. Program admission requirements are subject to change. It is the responsibility of the student to assure that he/she has met the requirements.

Admission Requirements for the Honors Major in Earth Sciences

To be admitted to the major a student must have:

--Arranged to be sponsored by a faculty advisor.
--Completed all lower division courses required for the degree program.
--Taken at least 14 hours of Earth Science courses with a GPA of at least 3.5; 6 hours must be at the 3000 level or

above.
--An overall GPA of 3.5 or higher in 3000 and 4000 level classes.
--Exceptions to these criteria may be granted in special cases through appeal to the Earth and

Environment Undergraduate Committee Application to the program is made by submission of the Honors in Geosciences/Earth Sciences Admission Form to the Earth and Environment Undergraduate Committee. This is usually done in the semester before the student intends to begin the Honors thesis research.

Program Requirements

This program is for the student who requires a broad background in Earth Sciences for a career in science education or public or private administration dealing with Earth and environmental science issues.

Lower Division

Type

Completion Requirement

Common Prerequisite Courses

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Complete ALL of the following Courses:

- ESC1000 - Introduction to Earth Sciences
  AND ESC1000L - Introduction to Earth Sciences Lab
- CHM1045 - General Chemistry I
  AND CHM1045L - General Chemistry Lab I
- CHM1046 - General Chemistry II
  AND CHM1046L - General Chemistry Lab II
- PHY2048 - Physics with Calculus I
  OR PHY2053 - Physics without Calculus I
- PHY2049 - Physics with Calculus II
  OR PHY2054 - Physics W/O Calc II
- PHY2048L - General Physics Laboratory I
- PHY2049L - General Physics Laboratory II
- MAC1114 - Trigonometry
  OR MAC1147 - Pre-Calculus Algebra and Trigonometry
- MAC2311 - Calculus I
  OR STA2023 - Statistical Methods
  OR STA2122 - Introduction to Applied Statistics (Inactive)
  OR STA3111 - Statistics I

Students may choose GLY1010 Physical Geology and GLY1010L Physical Geology Lab or GLY3039 Environ Geology and GLY3039L Envrnmtl Geol Lab as a substitute for ESC1000 Intro to Earth Science and ESC1000L Intro to Earth Science Lab.

Additional Required Lower Division Courses

Complete ALL of the following Courses:

- ISC1056 - First Year Seminar in Earth and Environment

- BSC2011 - General Biology II: Diversity of Life, Organismal Structure and Function
  AND BSC2011L - General Biology Lab II

Upper Division

Type

Completion Requirement

Required Courses: 11 credits

Complete ALL of the following Courses:

- GLY3112 - Earth Through Time
- GLY3202 - Earth Materials
  AND GLY3202L - Earth Materials Lab
- OCE3014 - Oceanography
  OR OCP3002 - Physical Oceanography
- ISC4935 - Senior Seminar in Earth and Environmental Science

MET3502 Synoptic Meteorology and MET3502L Synoptic Meteor Lab may be used as a substitute for GLY3202 Earth Materials and GLY3202L Earth Materials Lab.

For GLY3112 Earth thru Time, may substitute Historical Geology from another institution.

Additional Upper Division Courses I: 9-12 credits

Complete at least 3 of the following courses:

- GLY4300 - Petrology
  AND GLY4300L - Petrology Lab
- GLY4400 - Structural Geology
  AND GLY4400L - Structural Geology Lab
- GLY4511 - Stratigraphy
  AND GLY4511L - Stratigraphy Lab
- GLY4822 - Introduction to Hydrogeology
- MET3003 - General Meteorology
- MET4102 - Physical Climatology
- MET4420 - Physical Meteorology

Additional Upper Division Courses II: 6-8 credits

Complete at least 2 of the following courses:

- EVR3013 - Ecology of South Florida
  AND EVR3013L - Ecology of South Florida Lab
- EVR4211 - Water Resources
  AND EVR4211L - Water Resources Lab
- EVR4310 - Energy Resources (Inactive)
- EVR4592 - Soils and Ecosystems
- GEO3510 - Earth Resources
- GIS3043C - Introduction to Geographical Information Systems
- GLY3034 - Natural Disasters
- GLY4881 - Coastal Hazards

Additional Upper Division Courses III: 6-8 credits

Students take two approved upper division GLY (excluding GLY 3039), MET or EVR courses.

Major Requirements

This program prepares students interested in Earth Sciences and science for certification to teach at the secondary level. Additional science and/or mathematic certifications at the secondary level may be added (below). Students are encouraged to contact the FIUteach program (**FIUteach.fiu.edu**) for opportunities to try out teaching at no cost. Interested students are encouraged to contact the department, the FIUteach program, or the secondary science advisor for additional details and certification requirements.

Additional coursework in science and or mathematics is required to prepare for certification in additional subject areas. Students must contact the FIUteach program or the secondary science advisor for details and requirements.

Earth Science Education Major

Type

Completion Requirement

Lower Division Preparation for the Major

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Common Prerequisites as Detailed Under the BA in Earth Sciences Degree

Additional Lower Division Courses for the Major: 4 credits

Complete ALL of the following Courses:

- AST2003 - Solar System Astronomy
  AND AST2003L - Solar System Astronomy Laboratory
- SMT2661 - Step 1: Inquiry Approaches to Teaching Mathematics and Science
- SMT2662 - Step 2: Inquiry-Based Lesson Design in Mathematics and Science

Students may take SMT2044 STEP 1&2 Lesson Math and Sci as a substitute for SMT2661 STEP 1 Teach Math and Sci and SMT2662 STEP 2 Lesson Math and Sci.

Upper Division Courses for the Major: 47 credits (minimum)

Complete ALL of the following Courses:

- GLY3112 - Earth Through Time
- GLY3202 - Earth Materials
  AND GLY3202L - Earth Materials Lab
- MET3003 - General Meteorology
- OCE3014 - Physical Oceanograph (Inactive)
  OR OCP3002 - Physical Oceanography
- ISC4935 - Senior Seminar in Earth and Environmental Science

For GLY3112 Earth thru Time, may substitute Historical Geology from another institution.

Additional Upper Division Courses for the Major: 3-4 credits

Complete at least 1 of the following courses:

- GLY4300 - Petrology
  AND GLY4300L - Petrology Lab
- GLY4400 - Structural Geology
  AND GLY4400L - Structural Geology Lab
- GLY4511 - Stratigraphy
  AND GLY4511L - Stratigraphy Lab
- GLY4822 - Introduction to Hydrogeology

Other Upper Division Courses for the Major: 3-4 credits

Complete at least 1 of the following courses:

- EVR3013 - Envrn Science III (Inactive)
  AND EVR3013L - Ecology of South Florida Lab
- EVR4211 - Water Resources
  AND EVR4211L - Water Resources Lab
- EVR4310 - Energy Resources (Inactive)
- GEO3510 - Earth Resources
- GIS3043C - Introduction to Geographical Information Systems
- GLY3034 - Natural Disasters
- GLY4881 - Coastal Hazards

Education Courses: 27 credits

Complete ALL of the following Courses:

- ISC3523 - Research Methods
- RED4325 - Subject Area Reading
- SCE4194 - Perspectives in Science and Math Education
- SCE4944 - Student Teaching
- SMT3100 - Knowing, Learning, and Adolescent Development in Mathematics and Science
- SMT4301 - Classroom Management and Interactions in STEM
- SMT4664 - Educational Assessment and Project-Based Instruction in Mathematics and Science
- TSL4324 - ESOL Issues and Strategies for Content Area Teachers

The Honors Major in Earth Sciences provides outstanding students with the opportunity to do original research under a faculty sponsor. To graduate with Honors, the student must carry out a research project, write up the project as an Honors Thesis, and present the results of the research in a Departmental seminar.

Honors Major in Earth Sciences

Type

Completion Requirement

Graduation Requirements

Students must maintain a minimum GPA of 3.5 in courses in 3000 and 4000 level classes and complete all the B.S. requirements in Geosciences or B.A. requirements in Earth Sciences, including GLY 4989L (Honors Research, 3 credits) and GLY 4970 (Honors Thesis, 3 credits). Students must also complete an Honors research in collaboration with an Honors supervisor and present a draft of the Honors thesis to the Earth and

Environment Undergraduate Committee. Deposition of a completed approved copy of the Honors thesis with the Earth and Environment office.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no track, specialization, concentration, area of emphasis, or other curricular offerings associated with this program.

ERTHSY:PHD - Doctor of Philosophy in Earth Systems Science

Overview

Degree Offered
PHD - Doctor of Philosophy

Program Title
Earth Systems Science

The PhD in Earth Systems Science offers concentration in either the geosciences with the Geosciences major, or in environmental sciences, conservation, policy, and management with the Natural Resource Science and Management major. The doctoral program emphasizes a multidisciplinary approach in solving geoscientific and environmental problems and stresses the importance of field observations complemented by laboratory analysis and numerical modeling. Graduates of the program are equipped with the knowledge and skills needed to find sustainable solutions to environmental problems. The program seeks applicants who are highly motivated and capable of meeting the challenges of a rigorous doctoral degree.

For more information, visit the College of Arts, Sciences, and Education website.

Requirements

Simple Requirements

Admissions Requirements

Application Procedures

Admission decisions to the Doctoral Program in Earth Systems Science will be made by the Department's Graduate Committee. To be considered for admission, applicants must submit the following documents prior to the admission deadlines.

(1) FIU Online Graduate Application Form (available at https://admissions.fiu.edu/how-to-apply/graduate-applicant/index.html).

(2) Official transcripts of all college level work. When applicable, a certified English translation must accompany the original.

(3) English proficiency (TOEFL and TSE) exam scores taken within the previous five years, sent from the Education Testing Service.

(4) A resume with pertinent information regarding applicant's previous experience and achievements.

(5) A statement of intent, including a brief discussion (not to exceed 2000 words) of educational goals and career projections, and the name of the prospective advisor. Applicants are urged to contact prospective advisors prior to application. The applicant may also include a copy of previous written scientific work.

(6) Three letters of recommendation from former professors or academic advisors.

(7) Official transcripts and test scores should be submitted following the directions on Graduate Admission portal.

Admission Requirements

To be admitted to the Doctoral Program in Earth Systems Science, a student must meet the following minimum requirements:

(1) Hold a Bachelor's or Master's degree from an accredited college or university in a relevant discipline.

(2) Have a grade point average (GPA) of 3.0 or higher (or equivalent) during the last two years of the undergraduate program, and 3.0 or higher during the Master's degree program.

(3) International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the iBT (internet-based) TOEFL, 550 on the paper-based TOEFL, or 6.5 overall on the IELTS is required. A score of at least 50 on the Test of Spoken English (TSE) or 26 in the speaking section of the iBT TOEFL is required in order to be eligible for a teaching assistantship.

(4) Meet the University's general requirements for admission to graduate programs. All application materials should be submitted by February 1 in order to be considered for Fall term admission and by August 1 for Spring term admission.

Financial Aid

The Earth and Environment Department offers a number of graduate teaching and research assistantships which are awarded on a competitive basis. Teaching assistantships begin only in the fall semester. The assistantships provide a stipend and waiver of tuition. Applicants interested in an assistantship should indicate this in the FIU Graduate Application form and their cover letter. Applicants seeking assistantships should contact individual faculty members in their area of research interest.

Program Requirements

The Doctor of Philosophy in Earth Systems Science is conferred based on satisfactory completion of required course work, a demonstrated mastery of a broad scope of knowledge, and the ability to conduct original and independent research. A minimum of 75 graduate-level credit hours is required. These must include a minimum of 30 credit hours in formal coursework and a minimum of 15 credit hours of Ph.D. Dissertation. A maximum of 36 graduate credit hours of formal lecture courses earned as part of a graduate degree from another accredited program may be transferred with the approval of the major advisor and Graduate Program Director.

Program Credit Hours: 75

Type

Completion Requirement

Required Courses for the Degree

Complete ALL of the following Courses:

- ISC5150 - Introduction to Research in Earth and Environmental Sciences
- ISC5151 - Earth and Environmental Graduate Seminar

- ISC6152 - Earth and Environment Advanced Graduate Seminar
- ISC6153 - Environments of a Changing Planet
- EVR6970 - Supervised Research
  OR GLY6910 - Supervised Research
- GLY7980 - Ph.D. Dissertation
  OR EVR7980 - Ph.D. Dissertation

Students who choose either EVR 6970 or GLY 6910 must earn at least 5 credits to fulfill this requirement.

Students who choose either EVR 7980 or GLY 7980 must earn at least 15 credits to fulfill this requirement.

The remaining credits must include at least 18 credits of non-research, formal coursework. All coursework is selected in consultation with the major advisor. Natural Resource Science and Management majors should complete at least 18 credit hours in formal environmental coursework, so that upon graduation they can be certified as faculty members qualified to teach in that field.

Graduation Requirements

Students must maintain a minimum GPA of 3.0 in all coursework as required for the Ph.D. degree and demonstrate satisfactory performance on the Qualifying Examination covering general geoscientific and/or environmental knowledge and the field of specialization. Students must provide a successful presentation of a research proposal and oral examination before the Dissertation Committee, which together constitute the Candidacy Examination and complete and successfully defend a dissertation.

Major Requirements

The PhD degree program offers concentration in either the geosciences with the Geosciences Major, or in environmental sciences, agroecology, conservation, policy and management with the Natural Resource Science and Management Major. One of the two majors is chosen at the time of application in consultation with the student's prospective advisor, according to the emphasis of the student's research area. The Geosciences Major includes research on the solid Earth (structural geology, tectonics, igneous petrology, geochemistry, economic geology, and geophysics); Earth history, sedimentary rocks, and paleontology (stratigraphy, sedimentology, paleobiology, and paleoecology); Earth surface processes (hydrogeology, coastal geology, environmental biogeoscience, remote sensing and GIS applications, environmental geology, and geologic hazards); and atmospheric science (meteorology and climatology). The Natural Resource Science and Management Major includes research on the environmental sciences as related to environmental policy, agriculture, land use and land cover change, conservation, and natural resource management. Overall, the doctoral program emphasizes a multidisciplinary approach to solving geoscientific and environmental problems and stresses the importance of field observations complemented by laboratory analysis and numerical modeling.

Geosciences Major

Type

Completion Requirement

Fields of Concentration

Fulfill ANY of the following requirements:

Atmospheric Sciences

Researchers focus on hurricane dynamics, hurricane impacts, hurricane boundary layer turbulence

structures, atmospheric convection, atmospheric boundary layer and clouds, and cloud-climate feedbacks.

OR

Environmental Biogeoscience

Research in this concentration applies knowledge of biological, geological, physical, and chemical processes to current threats facing the biosphere, including deteriorating water and air quality, loss of biodiversity and ecosystem function, soil degradation, coastal erosion, and other emerging issues at local or global scales.

OR

Geophysics/Paleomagnetism/Remote Sensing

Geophysical investigative techniques using gravity, magnetism, seismic reflection and refraction, earthquake seismology, thermal properties, and satellite imagery. Land-based geophysical studies of the Caribbean and South American seismicity and crustal structure. Environmental geophysical studies in the South Florida and Caribbean regions.

OR

Hydrogeology/Environmental Geology

Field and modeling approaches to groundwater flow and solute fluxes in subsurface and near subsurface environments. Interaction of surface water and groundwater, solute transport, chemical and isotopic tracing techniques, watershed hydrology in Florida and beyond.

OR

Igneous Petrology/Geochemistry/Economic Geology

Research problems in petrology/geochemistry of igneous and metamorphic rocks with reference to their origin, and relationships in time and space. Origin of hydrothermal and other economic deposits. Field occurrence, geochemistry and petrogenesis of crystalline rocks, forming the continental crust and seafloor. Generation of associated (often, economically significant) hydrothermal deposits. Application of trace element and isotope geochemistry to the study of these petrogenetic associations.

OR

Paleontology

Research applied to taxonomy, phylogeny, evolutionary processes, paleoecology, taphonomy, and biostratigraphy of select microfossil groups. Research may address questions about biodiversity, biogeography, paleoecology, paleoenvironments, response to global climatic changes, and paleooceanography.

OR

Stratigraphy/Sedimentology

Sedimentary petrology, sedimentary environments, paleo-oceanography, sequence stratigraphy, cyclic

stratigraphy, microfacies analysis, and basin analysis. Field and laboratory techniques address evolution of sedimentary basins and their relationships to global and regional tectonics and paleoceanographic change.

OR

Structural Geology – Tectonics

Field-oriented research on methods of structural analysis. Analysis of geologic deformation based upon the principles of mechanics and utilizing research data from laboratory and field investigations of folding, fabrics, fracture, and faulting. Structural geology of the Caribbean and South America.

Natural Resource Science and Management Major

Type

Completion Requirement

Fields of Concentration

Fulfill ANY of the following requirements:

Land and Aquatic System Science

Application of multidisciplinary science and research techniques to managing environmental problems and sustainable use of land and aquatic resources; understanding and quantification of fundamental physical, chemical, and biological processes operating on land and in water, soil and other environments.

OR

Natural Resource Management

Study of the interactions between natural systems and human systems. Research and management problems in the fields of natural resource conservation, ecosystem restoration, agroecology, ecotoxicology, forestry, wildlife, fisheries, and coastal and marine resources.

OR

Environmental Economics and Policy

Analysis of policy effectiveness in managing environmental pollution, sustainable development, energy resources, climate change, food and agriculture, community forests, and local, national and international conservation programs. Research methods in ecosystem service valuation, economic modeling, and ethnographic and other behavioral analyses.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no track, specialization, concentration, area of emphasis, or other curricular offerings associated with this program.

ESPRTM:CFI - Undergraduate Certificate in Esports Marketing

Overview

Degree Offered
PCRT - Professional Certificate

Program Title
Certificate in Esports Marketing

The Undergraduate Certificate in Esports Marketing is designed to enhance a student's knowledge and skills in marketing for esports, one of the fastest-growing segments within sports and entertainment, and to address a skills gap within the industry. Students from any major or background will benefit from enhancing their marketing skills and knowledge, participating in experiential learning activities, and engaging with industry professionals. One of the major components of esports is its diverse revenue streams which include sponsorships, advertising, ticket sales, merchandise, streaming, and media rights. Understanding and leveraging these streams effectively is key to an organization's competitive advantage. Thus, in addition to fundamentals of marketing for the esports industry, students in the certificate will have the opportunity to learn about sales and sponsorships, digital marketing and viewership, consumer behavior insights for esports, and esports marketing strategy.

ETBDAI:CFI - Undergraduate Certificate in Ethics, Big Data, and Artificial Intelligence

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Ethics, Big Data, & Artificial Intelligence

The Undergraduate Certificate in Ethics, Big Data, and Artificial Intelligence offers a course of study in the ethics of big data and artificial intelligence. The program provides opportunities for students to study these technologies and their effects from a variety of perspectives. From computer science, mathematics and statistics, and philosophy, we offer courses that give students the technical grounding they need to understand how big data and artificial intelligence work. From philosophy, we offer courses that give students the foundations they need to understand the ethical significance of these technologies. For more information, visit the College of Arts, Sciences, and Education website.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

(1) The curriculum for the Ethics, Big Data & Artificial Intelligence Certificate consists of six courses (18 credits). It requires a minimum of five (3-credit) courses drawn from the two lists stipulated below:

-- Descriptive Foundations and

-- Normative Foundations

(2) At least one course from each list must be taken.

(3) One must be taken from the following: STA3033 Intro to Prob & Stats for CS, CGS2518 Computr Data Analys, STA4321 Intro To Math Stat I, PHI4130 Symbolic Logic,,PHI2100 Intro To Logic,PHI4161 Phil & Probability.

(4) Keystone course: PHI3681 Ethics, Big Data & AI Ethics, Big Data & Artificial Intelligence in addition to the five other 3-credit courses.

Program Credit Hours: 18

Type

Completion Requirement

Descriptive Foundations

Complete at least 1 of the following courses:

- STA2023 - Statistical Methods
- STA3033 - Introduction to Probability and Statistics for CS
- CGS2518 - Computer Data Analysis
- STA4321 - Introduction to Mathematical Statistics I
- PHI4130 - Symbolic Logic
- PHI2100 - Introduction to Logic
- PHI4161 - Phil & Probability
- STA4322 - Introduction to Mathematical Statistics II
- PHI2010 - Introduction to Philosophy
- PHI3300 - Epistemology
- PHI3320 - Philosophy Of Mind
- PHI3400 - Philosophy of Science
- PHI3500 - Metaphysics
- PHI3500 - Metaphysics
- PHI4230 - Language and Paradox
- PHI4321 - Topics Phil.Mind
- PHI4370 - Topics:Epistemology
- PHI4371 - Truth and Deception
- PHI5931 - Advanced Topics in Philosophy of Mind and Cognitive Science

Nortmative Foundations

Complete at least 1 of the following courses:

- PHI2600 - Introduction to Ethics
- PHI3601 - Ethics
- PHI3638 - Contemporary Ethical Issues
- PHM3200 - Social/Political Phi
- PHM3400 - Philosophy of Law
- PHM4123 - Philosophy and Feminism
- PHM4125 - Philosophy of Gender and Race
- PHM4360 - Topics Pol Phil
- PHM4362 - Global Justice
- PHM4430 - Topics In Phil Law
- PHM5935 - Advanced Topics in Social and Political Philosophy

- PHM5936 - Advanced Topics in Philosophy of Law

Keystone Course

Complete ALL of the following Courses:

- PHI3681 - Ethics, Big Data and Artificial Intelligence

In addition to the five other 3-credit courses.

Major Requirements

There are no majors associated with this program.

EXILE:CFI - Undergraduate Certificate in Exile Studies

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Exile Studies

The Undergraduate Certificate in Exile Studies is deeply rooted in literary studies. By exploring the works of exiled writers through the lenses of scholarly disciplines such as social sciences, arts,and humanities, students in the program examine the far-reaching universal implications of the age-old phenomenon of exile and its consequences. The certificate helps prepare students for careers in teaching, law, editing, and non-profits, as well as in their efforts to pursue graduate degrees. For more information, visit the College of Arts, Sciences, and Education website.

FIN:BBA - Bachelor of Business Administration in Finance

Overview

Degree Offered
BBA - Bachelor of Business Administration

Program Title
Finance

Students pursuing the Bachelor of Business Administration (BBA) in Finance will learn how money is raised and invested, how to manage a company's financial resources, and will gain an understanding of capital markets, corporate finance, investments, and financial institutions. Students will acquire the background to handle an array of financial challenges, including the impact of interest rates, will be able to perform risk analyses, will know how to determine the value and return of investments, and will have an understanding of the regulatory environment. Students who graduate with the BBA in Finance are prepared to enter positions in corporations, financial institutions, brokerage firms, investment banks, and government. They also are prepared for post-graduate study in all areas of business.

For more information, visit the College of Business website.

Admissions Requirements

Admissions and Progression Requirements for All College of Business Undergraduate Students

Applicants must follow regular University admission procedures and upon admission declare their specific program within the College of Business. In addition, students must:

(1) Complete courses detailed under Required Common Prerequisite Courses, or equivalent coursework, noted below, as part of their 60 credit-hours of lower-division course work.

(2) In their initial 60 credit-hours, earn a GPA of 2.0 or higher to continue pursuing a Bachelor of Business Administration and the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs must comply with the GPA requirement for the respective degree program.

(3) For the set of all Common Prerequisite Course credit hours, earn a GPA of 2.5 or higher to continue pursuing Bachelor of Business Administration degrees and a GPA of 2.75 or higher to pursue the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the 2.5 (or 2.75 Accounting) or higher GPA requirement for the set of Common Prerequisite Course credit hours.

(4) Successfully complete with a C or better each of Common Prerequisite Course within two attempts. Drops after the add/drop period, which result in a DR grade, are considered an unsuccessful attempt at the course, (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the two attempt limit on Common Prerequisite Courses.

(5) Students are expected to make satisfactory progress toward degree completion during their first 60 credit hours of lower-division coursework, consistent with the Common Prerequisite Benchmarks noted below. Students not making good progress, may be redirected to another degree program. All (a) AA Transfers and (b) students changing degree programs to Business from outside the College of Business must demonstrate progress consistent with Common Prerequisite Benchmarks.

Common Prerequisite Benchmarks include the following:

By End of Term / Credit Hours Earned	Coursework for equivalents Completed	Minimum GPA in Common Prerequisites *
1st /15 hours	CGS 2100 (or PHI 2600)	2.25
2nd / 30 hours	ECO 2023 and MAC 2233	2.35 (2.50 Accounting)
3rd / 45 hours	ACG 2021 and ECO 2013	2.5 (2.75 Accounting)
4lh / 60 hours	ACG 3301 and STA 2023	2.5 (2.75 Accounting)

* Applicable to all students pursuing or seeking a change of program plan to a Bachelor of Business Administration degree and the Bachelor of Accounting.

Students eligible for readmission are subject to the University's and the College's degree program's regulations in effect at the time of readmission to include admissions and progression requirements.

Program Requirements

Academic Standards

To earn an undergraduate degree from the College of Business, all students must comply with the following:

(1) Students must earn a grade of "C" or higher in each of the lower-division Common Prerequisite Courses.

(2) Students must earn a grade of "C" or higher in all upper-division major courses.

(3) Students must earn a grade of "C" or higher in all upper-division Business Core Courses. Each of these courses cannot be attempted more than three times. Drops after the add/drop period, which result in a DR grade, are considered an attempt in the course and count as an unsuccessful enrollment.

(4) As a student within the College of Business, each student gets two drops after the add/drop period, which result in "DR" grades, in their first 60 credits attempted. Each College of Business student get two additional drops after the add/drop period, which result in "DR" grades, in the second 60 credits attempted. Unused drops after the add/drop period,

which result in “DR” grades, do not carry over from the first 60 credits attempted to the second 60 credits attempted. Students entering the College of Business as transfer students with an A.A. degree from a Florida public college or with 60 or more transfer credits earned from another college or university only get two drops after the add/drop period, which result in “DR” grades. Students with disabilities who need to drop a course due to disability-related reasons are allowed to petition for additional drops after the add/drop period, which result in “DR” grades. Students who can document extenuating circumstances may petition the College for additional drops. Approval to drop additional courses in excess of those allowed must be obtained from the College of Business

(5) Students are expected to follow degree program Major Map in making satisfactory progress toward degree completion. Students deviating from Major Maps may be redirected to another degree program.

(6) Students must satisfy the requirements of their respective programs of study and satisfy all university requirements for graduation.

(7) Students who (a) have 60 credit hours earned, but (b) have not completed the seven Common Prerequisite Course for Business majors, may register for, and/or complete, no more than 15 credit hours of upper-division Business courses.

(8) Undergraduate students who register for any graduate business course must be formally admitted to a graduate degree program at the university following the university's admission procedures.

(9) Faculty has the discretion to administratively drop students who do not attend the first class of a course.

The College adheres strictly to the university’s dismissal policy. Students should be sure to read and understand FIU policies regarding Academic Warnings, Probation, and Dismissals.

Common Prerequisite Courses

Type

Completion Requirement

Required Common Prerequisite Courses Part I

For the set of all Common Prerequisite Course credit hours, earn a GPA of 2.5 or higher to continue pursuing Bachelor of Business Administration degrees and a GPA of 2.75 or higher to pursue the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the 2.5 (or 2.75 Accounting) or higher GPA requirement for the set of Common Prerequisite Course credit hours.

Courses which form part of the statewide articulation between the State University System and the Florida College System will fulfill the Lower Division Common Prerequisites.

Please visit https://cpm.flvc.org for a current list of state-approved common prerequisites.

Earn a minimum grade of C in the following:

- ACG2021 - Accounting for Decisions
- ACG2071 - Managerial Accounting
- ECO2013 - Principles of Macroeconomics
- ECO2023 - Principles of Microeconomics
- MAC2233 - Applied Calculus
- STA2023 - Statistical Methods

Required Common Prerequisite Courses Part II

Students pursuing a Bachelor degree in Accounting, Business Analytics, Finance, Information Systems, International Business, Human Resources Management, Management, Marketing, or Real Estate are also required to achieve a grade of "C" or higher in the following course.

Earn a minimum grade of C in the following:

- CGS2100 - Intro to Microcomputer Applications for Business

Additional Comments:

Prerequisite course requirements for entry into upper level courses will be enforced. Students will be administratively dropped from courses when they lack the required prerequisite course or courses and/or required grade.

Note: The programs, policies, requirements, and regulations listed in this catalog are subject to continual review in order to meet the needs of the University's various publics and to respond to the mandates of the Florida Board of Education and the Florida Legislature. Changes may be made without advance notice. For the most current and updated information, refer to the COB and appropriate Schools/Departments websites.

Required Business Core Courses: 24 credit hours

Type

Completion Requirement

Required Core Courses

The Business Core Courses listed below are required for all undergraduate students in the College of Business. Prerequisites for each of the Business Core Courses can be found in the College of Business course descriptions.

FIN:MSF - Master of Science in Finance

Overview

Degree Offered
MSF - Master of Science in Finance

Program Title
Finance

Repeatedly ranked among the best of its kind in the world, FIU's Master of Science in Finance program offers a comprehensive curriculum empowering students to apply financial strategies to complex, real-world business scenarios. Aligned with the CFA Institute University Affiliation Program, this program provides exceptional preparation for Level I of the Chartered Financial Analyst (CFA) exam, equipping students for a diverse array of advanced financial roles. The program's specialties are vast, encompassing corporate finance, investment advisory services, fund management, mergers and acquisitions, international finance, commercial and investment banking, FinTech, and more. Students may also choose to pursue specialization in international banking, financial management, investments, or financial innovations. This one-year, lock-step program offers the flexibility of on-campus or online learning, maintaining a cohort-based structure. Students embark on the journey alongside their peers and progress through the curriculum together. For more information, visit the College of Business website. As an added benefit, students will attain Bloomberg Certification, gaining proficiency in accessing market data and information through Bloomberg terminals and the Bloomberg Lab. Prepare to excel in the dynamic field of finance with FIU's MSF program.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Master of Science in Finance (MSF)

(1) Hold a Bachelor's degree from an accredited college or university;

(2) Show high promise of success in graduate studies as determined by the faculty based upon academic performance, work experience or a combination of academic and work experience. Evidence include a minimum score of 500 on the Graduate Management Admission Test (GMAT), or an equivalent score on the Graduate Record Examinations (GRE) test, or demonstration of at least four years of Business (finance-affiliated industries such as banking, investment, accounting, insurance, etc.) related work experience, or have an undergraduate business degree with a finance major from FIU or similar accredited school with a minimum grade point average (GPA) of 3.0. If the applicant already

completed a graduate degree from an accredited university with a minimum grade point average (GPA) of 3.0, or is entering a business master's program under a special agreement for admissions with specific foreign universities, he or she would be eligible for a GMAT or GRE waiver at the discretion of the faculty;

(3) Should, in general, have a minimum upper division grade point average (GPA) of 3.0. An applicant with substantial work/industry experience and recommendations will be evaluated based on a combination of his or her academic and industry experience;

(4) International graduate student applicants whose studies were completed outside of the U.S. must demonstrate proficiency of the English language by presenting a minimum score of 80 on the iBT TOEFL (equivalent to 550 on the paper-based version or 213 on the computer based version of the test of English as a Foreign Language) or 6.5 overall on the International English Language Testing System (IELTS). As alternative forms of showing sufficient English proficiency, students may also present the following:

(a) FIU English Language Institute ("ELI") Program Level Six completion: successful completion with passing grades for all content areas;

(b) GRE Verbal Reasoning Score: 151/Analytical Writing Score: 3.5; GMAT Verbal Score: 28/Analytical Writing Score: 4.5;

(c) Graduate students having completed English Composition: Writing and Rhetoric 1 ("ENC 1101") and English Composition: Writing and Rhetoric 2 ("ENC 1102") with passing scores of C or better from an accredited U.S. institution or as part of a signed articulation agreement.

(d) Students applying to FIU under agreements for admissions with foreign universities having demonstrated their programs are taught fully in English and/or that they enforce English proficiency exam requirements for admission considered comparable to FIU English Proficiency requirements are eligible for a TOEFL waiver under terms of the agreement.

(e) International agreements must follow standard approval process through the Office of Academic Planning and Accountability and document applicability of waiver. Undergraduate students meeting the minimum Florida Board of Governors regulation for college readiness scores in the reading and English sections.

(5) Be in good standing with all previously-attended colleges and universities.

Admissions at the graduate level are competitive and meeting minimum requirements does not guarantee admission.

Admissions Requirements for the MSF and Master of Business Administration (MBA) Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree option. Students deciding to pursue the joint degree option after having been admitted to one program will indicate this intention only on their second application.

(2) Applications for a joint degree will not be accepted from candidates who have already completed either degree. MSF or MSIRE students must apply and be admitted prior to or concurrent with the last semester in which they are expected to complete their original degree requirements.

Admissions Requirements for the MSF and Master of International Business (MIB) Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program.

(2) Applications for a joint degree will not be accepted from candidates who have already completed either degree. MIB or MSF students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.

Admissions Requirements for the MSF and Master of Science (MS) in International Real Estate Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree option. Students deciding to pursue the joint degree pathway after having been admitted to one program will indicate this intention only on their second application.

(2) Applications for a joint degree pathway will not be accepted from candidates who have already completed either degree. MSF or MSIRE students must apply and be admitted prior to or concurrent with the last semester in which they are expected to complete their original degree requirements.

Transfer Credits

A student may receive permission to transfer up to a maximum of nine semester hours of graduate credit towards a Master of Science degree program or twelve semester hours of credit for a Master of Business Administration degree program, if:

(1) The courses were taken at the graduate level at an accredited college or university;

(2) The courses were not introductory or survey in nature;

(3) The student earned grades of “B” or higher in the courses;

(4) The courses are judged by the Department Chair, College Dean, Graduate School Dean, and program manager to be relevant to the student’s graduate program;

(5) The credits were completed within six years immediately preceding the College’s awarding of the degree. Credits are not transferable until the student has earned 15 semester hours in a Chapman School graduate degree program.

Program Requirements

College Policies

To be eligible for a Master’s degree, a student must:

(1) Satisfy all University requirements for a Master’s degree;

(2) Satisfy required prerequisites;

(3) Complete the required courses in the specific graduate program in which he/she is enrolled.

(4) Earn a minimum average of “B” (3.0) in all approved courses in the student’s approved course of graduate study.

No courses in which a graduate student earns a grade below “C” may be counted towards any Master’s degree program in the Chapman School. However, all approved undergraduate and graduate course work a graduate student takes will be counted in computing his or her grade point average, including courses in which he or she has earned a “D” or “F” grade.

Faculty have the discretion to administratively drop students who do not attend the first class of a course.

Degree Requirements

Type
Completion Requirement

Core Courses

To earn a Master of Science in Finance (MSF) degree, students must complete a minimum of 36 semester hours (12 courses). The minimum passing grade for any FIN 6000 level courses is “C”. MSF students must maintain an overall grade point average (GPA) of 3.0.

The 36 credit-hour requirement may be reduced to 33 hours for students who have an accredited Master’s degree in Business Administration (MBA). In addition, students may be allowed to transfer three graduate semester hours from an accredited university even if they did not secure an advanced degree.

For more information, contact the program manager (305) 348-4198.

Students are required to have taken a basic accounting course or equivalent by the end of the first semester as prerequisite or co-requisite for the program. The following courses are required for the MSF degree:

Complete ALL of the following Courses:

- FIN6406 - Corporate Finance
- FIN6456 - Quantitative Methods in Financial Analysis
- FIN6515 - Securities Analysis
- FIN6246 - Financial Markets and Institutions
- FIN6525 - Portfolio Management
- FIN6537 - Financial Futures and Fixed Income Investments
- FIN6487 - Financial Risk Management -Financial Engineering
- FIN6644 - Global Financial Strategy
- FIN6465 - Financial Planning and Statement Analysis

Required Electives: Choose Option A, B, or C

Fulfill ANY of the following requirements:

Electives: Option A

Complete ALL of the following Courses:

- FIN6425 - Financial Management Policies
- FIN6436 - Capital Budgeting and Long Term Resource Allocation
- FIN6776 - Financial Software (Inactive)

OR

Electives: Option B

Complete ALL of the following Courses:

- FIN6425 - Financial Management Policies
- FIN6517 - Advanced Investments
- FIN6489 - Advanced Financial Risk Management

Joint Degree Pathway

The Department of Finance and the MBA program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University have a joint degree pathway culminating in both a Master of Business Administration degree (MBA), and a Master of Science in Finance degree (Fast Track-MSF). Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway uses existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have four-five common courses. Courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MSF courses transferred to meet MBA elective credit must be 6000 level courses approved by the University Curriculum Committee. Directors of the MBA and MSF degree programs may adjust these exact course requirements as a result of future changes to the MBA or MSF curriculums.

Fulfill ALL of the following requirements:

In the Flex MBA program: 33 credit hours

To obtain MSF/MBA through the Flex program, students must complete the following courses for a total of 66 credit hours as follows:

Earn at least 33 credits from the following:

- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- QMB6616 - Business Process & Operations Analysis
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Students also must complete Professional Development Seminars (PDS) I, II, III.

AND

In the MSF program: 33 credit hours

Earn at least 33 credits from the following:

- FIN6456 - Quantitative Methods in Financial Analysis
- FIN6515 - Securities Analysis
- FIN6246 - Financial Markets and Institutions
- FIN6537 - Financial Futures and Fixed Income Investments
- FIN6487 - Financial Risk Management -Financial Engineering
- FIN6644 - Global Financial Strategy
- FIN6525 - Portfolio Management
- FIN6465 - Financial Planning and Statement Analysis

AND

Specialty Options

One of the following specialty options, in addition to the core MSF courses, is required for the MSF degree:

Fulfill ANY of the following requirements:

Specialty Option 1: Financial Management

Complete ALL of the following Courses:

- FIN6326 - Commercial Banking
- FIN6436 - Capital Budgeting and Long Term Resource Allocation
- FIN6425 - Financial Management Policies

OR

Specialty Option 2: Investments

Complete ALL of the following Courses:

- FIN6425 - Financial Management Policies
- FIN6489 - Advanced Financial Risk Management
- FIN6517 - Advanced Investments

OR

Specialty Option 3: International Banking

Complete ALL of the following Courses:

- FIN6326 - Commercial Banking
- FIN6625 - International Bank Management
- FIN6346 - Credit Analysis

Additional Comments:

Notes:

(1) Requirements for the MBA depend on the MBA program chosen. If a candidate has elected the option of a specialization, the number of credit hours required and shared for the Flex will be used. Otherwise, the option for a joint degree is not available with the MSF.

(2) The Executive MBA, Professional MBA, and Professional MBA in Healthcare Management programs are not included as an option for the joint degree.

(3) Joint degree candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate.

For additional information, contact the MBA office at (305) 348-0148 or the Master of Science in Finance office at (305) 348-4198.

Other Curricular Offering: MSF and MIB Joint Degree Pathway

Type

Completion Requirement

Joint Degree Pathway

The Department of Finance and the MIB programs in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University are proposing a joint degree pathway culminating in both a Master in International Business (MIB), and a Master of Science in Finance. Under the joint degree pathway, a student can obtain both degrees in less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

(1) Candidates must satisfy all requirements for each degree. The two degrees will have four common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MSF courses transferred to meet MIB elective credit must be 6000 level courses approved by the University Curriculum Committee. Directors of the MSF and MIB degree programs may adjust these exact course requirements as a result of future changes to the MSF or MIB curriculums.

(2) Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree pathway candidate.

(3) With the joint degree pathway students will take a total of 57 credit hours to get both degrees. Without the joint degree pathway students will need to take 69 credit hours to get both degrees. Thus, MIB students who have taken twelve credits of MSF common courses may obtain an MSF degree with an additional 21 credits. MSF students who have taken twelve credits of the MIB classes, may obtain an MIB degree with an additional 24 credits.

Fulfill ALL of the following requirements:

In the MIB program: 24 credits

To obtain the MIB degree, MSF students who have finished their core courses, must complete a total of 36 credit hours as follows:

Earn at least 24 credits from the following:

- MAN6617 - Managing Global Production and Technology (Inactive)
- MAR6158 - International Marketing
- BUL6850 - International Business Law
- MAN6635 - Global Strategy and Business Models
- MAN6679 - Master's Project in International Business
- MAN6601 - Global Management Skills
- MAN6606 - Fundamentals of International Business
- MAN6930 - Master's Seminar in Management

Students must take 3 credits of MAN6930 Masters Seminar Mgt.

AND

From the MSF program

Complete ALL of the following Courses:

- FIN6644 - Global Financial Strategy
- FIN6465 - Financial Planning and Statement Analysis
- MAN6606 - Fundamentals of International Business

AND

Electives

6 credits of FIN 6XXX electives

Joint Degree Pathway

Fulfill ALL of the following requirements:

From the MSF program: 21 credit hours

To obtain the MSF degree, MIB students who have finished their core courses, must complete a total of 33 credits hours as follows:

Earn at least 21 credits from the following:

- FIN6406 - Corporate Finance
- FIN6456 - Quantitative Methods in Financial Analysis
- FIN6246 - Financial Markets and Institutions
- FIN6515 - Securities Analysis
- FIN6525 - Portfolio Management
- FIN6537 - Financial Futures and Fixed Income Investments
- FIN6487 - Financial Risk Management -Financial Engineering

AND

From the MIB program

Complete ALL of the following Courses:

- FIN6644 - Global Financial Strategy

- ACG6255 - International Accounting (Inactive)

AND

Electives

6 credits of FIN 6XXX

Other Curricular Offering: MSF and MS in International Real Estate Joint Degree Pathway

The Department of Finance, Tibor and Sheila Hollo School of Real Estate and the Alvah H. Chapman Jr. Graduate School of Business at Florida International University have a joint degree pathway culminating in both a Master of Science in Finance (MSF), and a Master of Science in International Real Estate (MSIRE) degree. Under the joint degree pathway, a student can obtain both degrees in less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows.

(1) Candidates must satisfy all requirements for each degree. To obtain the MSIRE degree, the student will be required to take ten (10) courses totaling thirty (30) credit hours. This includes the five real estate courses in the MSIRE core, three finance courses in the MSIRE core, plus one real estate (REE prefix) elective and one finance (FIN prefix) elective for a total of 30 credit hours. The Faculty Director of the MSIRE may substitute other suitable courses for these electives at the request of the student. The eight core REE and FIN courses include REE6045 Real Estate Markets, REE6209 Real Estate Finance, REE6305 Adv Re Invest & Val, REE6435 Real Estate Law, REE Seminar in International Real Estate, FIN6406 Corporate Finance, FIN6644 Global Fin Strategy , and FIN6246 Financial Mkts & Ins.

(2) To obtain the MSF degree, the student will have to fulfill all MSF program requirements, including eleven finance courses totaling thirty-three (33) credit hours, eight courses of which are considered part of the core curriculum. The eight core MSF courses are FIN6406 Corporate Finance, FIN6644 Global Fin Strategy , FIN6246 Financial Mkts & Ins, FIN6456 Quan Meth Fin Analys, FIN6515 Securities Analysis, FIN6537 Financial Futr & Fixed Inccome, and FIN6487 Fin Risk Management. The remaining three courses must be taken in one of three specializations approved by the faculty and which include three courses in Corporate Finance, three in Investments, or three in Commercial and International Banking.

(3) The three finance courses in the MSIRE core curriculum correspond to three of the courses in the core MSF program. Therefore, students pursuing the joint degree pathway will be credited for these courses in both programs. In addition, one Real Estate course in the MSIRE curriculum may be counted as one of the three courses required by the MSF specialization. The two degrees then will potentially have 4 common courses.

(4) A minimum of seventeen (17) courses will be required to earn the dual degrees: four common courses, six specific to the MSIRE program, and seven specific to the MSF program. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. The Faculty Directors of the MSIRE and MSF degree programs may adjust these exact course requirements as a result of future changes to the MSIRE or MSF curriculums, subject to the approval of the Dean of the Chapman Graduate School.

(5) Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate.

(6) With the joint degree pathway students will take a total of 51 credit hours to get both degrees. Without the joint degree programs students would need to take 63 credit hours to get both degrees.

FLANGED:MS - Master of Science (MS) in Foreign Language Education

Overview

Degree Offered
MS - Master of Science

Program Title
Foreign Language Education

The Master of Science (MS) degree in Foreign Language Education prepares professionals to teach English flexibly and practically to students who also use other languages. Graduates of the program are prepared to teach and assess in a variety of settings, including PreK-12 (i.e., ESOL), university, adult education, and private language education schools both in the United States and abroad. The program seeks applicants who are highly motivated and capable of working with an ever-evolving diversity of students.

Degree Program Credit Hours: 30

Type
Completion Requirement

Master of Science in Foreign Language Degree Core Courses: 9 Credits

Students in all majors must complete the following core courses (Correct Core Course identified in each Major's 30 credits listed below in the Major Requirements section):

Fulfill ALL of the following requirements:

Foreign Language Education: 3 Credits

Complete ANY of the following Courses:

- FLE6336 - Methods of Teaching Modern Language
- TSL5371 - Special Methods of TESOL

AND

Foreign Language Assessment: 3 Credits

Complete ANY of the following Courses:

- FLE6938 - Seminar in Second Language Testing
- TSL5938 - Principles of ESOL Testing

AND

Applied Linguistics: 3 Credits

Complete ANY of the following Courses:

- TSL5245 - Developing ESOL Language and Literacy

or applied linguistics course.

Major Requirements

Master of Science in Foreign Language Education: Foreign Language Education Major

The Master of Science in Foreign Language: Foreign Language Education Major is designed to provide specialized training and content knowledge for teachers of all levels of foreign language, K through 12, adult education, and community college education.

Prerequisites for Foreign Language Education Major

Type
Prerequisite

Linguistics Course

Complete ANY of the following Courses:

- LIN3010 - General Linguistics
- LIN3013 - General Linguistics

or one course in general linguistics

Foreign Language Education Major

Type

Completion Requirement

Major Requirements: 30 Credits

Fulfill ALL of the following requirements:

Professional Education: 9 Credits

Complete ALL of the following Courses:

- EDF5481 - Foundations of Educational Research
- EDF6211 - Psychological Foundations of Education
- EDF6608 - Socio-Historical Foundations of Education

AND

Program Courses: 6 Credits

Complete ALL of the following Courses:

- FLE6336 - Methods of Teaching Modern Language
- FLE6938 - Seminar in Second Language Testing

AND

Teaching Field: Modern Language: 12 Credits

Grammar/Composition/Syntax (Specialize in target language when possible) (3 credits)

Culture/Civilization (Specialize in culture of target language when possible) (3 credits)

Linguistics (Specialize in target language when possible) (3 credits)

Applied Linguistics (3 credits)

AND

Field Component: 3 Credits

Complete ANY of the following Courses:

- FLE5908 - Directed Study in Foreign Language Education
- FLE6925 - Special Topics in Second Language Education

Additional Comments:

Graduation Requirements

Students must meet all Department, College, Graduate School, and University graduation requirements. Students must have a 3.0 GPA to graduate from the program. No grades of “C-“ or less received in courses that are part of a master’s program of study will be accepted toward graduation.

Thesis Option

Students may opt to extend the MS program (3 to 6 additional thesis credit hours) by request.

Master of Science in Foreign Language Education: TESOL Major

The Master of Science in Foreign Language: Teaching English to Speakers of Other Languages (TESOL) Major is designed to provide specialized training and content knowledge for teachers of all levels of foreign language, K through 12, adult education, and community college education. Student who are state certified teachers may include the five courses required for the Add-on ESOL Endorsement as part of the Master’s program.

The Master of Science in Foreign Language Education: TESOL Major consists of 30 semester hours. A maximum of six semester hours may be transferred into the program from outside the University, subject to the approval of the major advisor. A maximum of six semester hours of graduate level courses taken as an undergraduate may be included in the program provided they have not been used to satisfy degree requirements for an undergraduate program.

Prerequisites for TESOL Major

Type
Prerequisite

Linguistics Course

Introduction to Linguistics is the prerequisite for the Linguistics courses in the program. It may be satisfied with:

Complete ANY of the following Courses:

- LIN3010 - General Linguistics
- LIN3013 - General Linguistics
- LIN5018 - Introduction to Linguistics

TESOL Major

Type
Completion Requirement

Major Requirements: 30 Credits

Fulfill ALL of the following requirements:

Professional Education: 9 Credits

Complete ALL of the following Courses:

- EDF5481 - Foundations of Educational Research
- EDF6608 - Socio-Historical Foundations of Education
- EDF6211 - Psychological Foundations of Education

AND

Program Courses: 18 Credits

Complete ALL of the following Courses:

- TSL5245 - Developing ESOL Language and Literacy
- TSL5371 - Special Methods of TESOL
- TSL5938 - Principles of ESOL Testing
- TSL6908 - Field Component
- LIN5211 - Applied Phonetics

Other Approved Course (consult with advisor regarding course selection)

AND

Electives: 3 Credits

Students will choose three semester hours according to their needs, with the approval of the advisor. To meet state ESOL requirements, certified teachers (K-12) need to include in their electives the following courses: TSL5142 Curr Dev Esl and EDG5707 Cr Cult Stud Ed .

Additional Comments:

Graduation Requirements

To receive the Master of Science in Foreign Language degree in TESOL, the student must complete the required 30 credit hours of course work with a minimum ‘B’ or 3.0 grade point average and no grades of “C-“ or less received in courses that are part of a master’s program of study will be accepted toward graduation.

FLEX:MBA - Flex Master of Business Administration

Overview

Degree Offered
MBA - Master of Business Administration

Program Title
Flex MBA

The College of Business offers several options leading to the Master of Business Administration (MBA) degree: the Professional MBA for Executives (EMBA), the Professional MBA, the Professional MBA in Healthcare Policy and Management, and the International MBA. Each option is designed to meet different student needs. Options are offered in different locations and delivery modes, including online, face-to-face, and blended (i.e., hybrid) modes. The MBA will broaden students' perspectives and transform their understanding of business processes. Additionally, students will develop leadership, problem-solving, and communication skills that are indispensable in today's business world. The Professional MBA offers various specializations: marketing, entrepreneurship, negotiations, business analytics, finance, international business, leadership, and real estate.

Admissions Requirements

Admissions Requirements for the Flex Master of Business Administration (MBA)

The Flex Master of Business Administration (Flex-MBA) program considers students' work experience, industry knowledge, management skills and undergraduate education as strengths in candidate's qualifying portfolio. A candidate's professional maturity, and managerial experience are highly considered in the admission selection process because the Flex-MBA program at FIU fosters students' ability to contribute real-world experiences to add value to the overall student learning in this competitive degree program.

To be eligible for admission to the Flex-MBA program in the Chapman Graduate School of Business, applicants must:

(1) Hold a bachelor degree or equivalent from either a U.S. accredited college or university or the equivalent degree from institutions outside the U.S.; Students coming from programs where the primary degree is at the master level or higher will meet this requirement.

(2) Show high promise of success in graduate studies as determined by the faculty based upon academic performance, work experience or a combination of academic and work experience.

(3) Evidence a minimum score of 500 on the Graduate Management Admission Test (GMAT) or similar Graduate Record Exam (GRE) score. A GMAT waiver at the discretion of the academic director is available for:

(a) Applicants with two years of demonstrative work experience and success in completing other academic programs;

(b) Applicants who have an undergraduate business or related degree (economics, hospitality management, etc.) with an upper division grade point average (GPA) of 3.25, or higher;

(c) Applicants without a business or related degree having an upper division grade GPA of 3.35, or higher;

(d) If the applicant has already completed a graduate degree from an accredited university with a minimum grade point average (GPA) of 3.0, or is entering a business master's program under a special agreement for admissions with specific foreign and domestic universities;

(4) Should, in general, have a minimum upper division grade point average (GPA) of 3.0. An applicant with substantial work experience and industry/work related recommendations will be evaluated based on academic qualifications, work experience, and performance;

(5) Provide a resume describing current and past responsibilities, leadership and management experience highlights and, if any, demonstrated accomplishments in the application of quantitative and analytical skills;

(6) Provide a statement of purpose (short essay) describing how the program fits within your personal and career goals. The essay will be evaluated for applicants' effective and succinct writing skills;

(7) When the applicant's studies were completed in non- English speaking countries, demonstrate proficiency of the English language by presenting a minimum score of 80 on the iBT TOEFL (equivalent to 550 on the paper-based version or 213 on the computer based version of the test of English as a Foreign Language) or 6.5 overall on the International English Language Testing System (IETLS) or other university level English proficiency standards as they are approved;

Applicants are encouraged to provide any additional documentation to strengthen their application portfolio. Examples of documentation include: master degree in any discipline other than an MBA, law degree, professional certifications (i.e. CPA, CFA, SHRM, etc.), GMAT or GRE scores, specialized leadership experience or training documentation that the applicant is part of a "fast track" or "high potential" management group at their organization, or any other similar evidence including letters of reference and recommendations.

Admissions at the graduate level are competitive and meeting minimum requirements does not guarantee admission. For additional information about this value-added program, call the Flex-MBA office at (305) 779-7897 or email **pmba@fiu.edu**.

Admissions Requirements for the MBA and Juris Doctor (JD) Joint Degree Pathway

(1) Candidates for the pathway must meet the entrance requirements for and be accepted by both colleges. The College of Business may accept LSAT scores in lieu of GMAT or GRE scores for candidates from the College of Law as part of the admission requirement in the MBA. Both colleges must be informed by the student at the time of application to the second program that the student intends to pursue the joint degree.

(2) The joint degree pathway is not open to students who have already earned one degree.

Admissions Requirements for the Flex MBA and Master of Arts (MA) in Latin American and Caribbean Studies Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program.

(2) Applications for a joint degree will not be accepted from candidates who have already completed either degree. Business Administration students must apply and be admitted by no later than the semester in which they are expected to complete 18 pre-core and core credit hours in the MBA program. MALACS students must apply and be admitted by no later than the semester in which they are expected to complete 18 credit hours in that program.

Admissions Requirements for the Flex MBA and Master of International Business (MIB) Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree option. Candidates deciding to pursue the joint degree pathway after having been admitted to one program will indicate this intention only on their second application.

(2) Applications for a joint degree pathway will not be accepted from candidates who have already completed either degree. MBA or MIB students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.

Admissions Requirements for the Flex MBA and Master of Science (MS) in Finance Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree option. Candidates deciding to pursue the joint degree option after having been admitted to one program will indicate this intention only on their second application.

(2) Applications for a joint degree pathway will not be accepted from candidates who have already completed either degree. MBA or Fast Track-MSF students must apply and be admitted by no later than the second to last semester in which they are expected to complete their original degree requirements.

Admissions Requirements for the Flex MBA and MS in International Real Estate Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree pathway option. Candidates deciding to pursue the joint degree pathway after having been admitted to one program will indicate this intention only on their second application.

(2) Applications for the joint degree pathway will not be accepted from candidates who have already completed either degree. MBA or MSIRE students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.

Admissions Requirements for the Flex MBA and MS in Human Resource Management Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must submit applications to both programs and notify each Program Manager of desire to pursue the joint degree. Candidates deciding to pursue the joint degree option after having been admitted to one program, must submit a second application to the other program and notify each Program Manager of desire to pursue the joint degree pathway option

(2) Applications to the joint degree pathway will not be accepted from candidates who have already completed either degree. MBA or MSHRM students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.

Transfer Credits

A student may receive permission to transfer up to a maximum of nine semester hours of graduate credit towards a Master of Science degree program or twelve semester hours of credit for a Master of Business Administration degree program, if:

(1) The courses were taken at the graduate level at an accredited college or university;

(2) The courses were not introductory or survey in nature;

(3) The student earned grades of “B” or higher in the courses;

(4) The courses are judged by the Department Chair, College Dean, Graduate School Dean, and program manager to be relevant to the student’s graduate program;

(5) The credits were completed within six years immediately preceding the College’s awarding of the degree. Credits are not transferable until the student has earned 15 semester hours in a Chapman School graduate degree program.

Program Requirements

College Policies

To be eligible for a Master’s degree, a student must:

(1) Satisfy all University requirements for a Master’s degree;

(2) Satisfy required prerequisites;

(3) Complete the required courses in the specific graduate program in which he/she is enrolled.

(4) Earn a minimum average of “B” (3.0) in all approved courses in the student’s approved course of graduate study.

No courses in which a graduate student earns a grade below “C” may be counted towards any Master’s degree program in the Chapman School. However, all approved undergraduate and graduate course work a graduate student takes will be counted in computing his or her grade point average, including courses in which he or she has earned a “D” or “F” grade.

Faculty have the discretion to administratively drop students who do not attend the first class of a course.

Degree Requirements

Type

Completion Requirement

Required Courses

In order to complete the Flex-MBA, students must successfully complete a total of 42 credit hours, 27 credit hours of core and 15 credit hours of electives and three professional development seminars.

The following courses are required:

Complete ALL of the following Courses:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management

- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- QMB6357 - Business Statistical Analysis

Professional Development

Professional development seminars I, II, and III
Each of the seminars will focus on soft skills such as leadership, team building, oral presentation, writing skills and career exploration. Seminars will be mandatory, non-credit.

The MBA academic director in consultation with the Associate Dean for the Chapman Graduate School of Business can substitute up to two required courses.

The MBA academic director can waive a professional development seminar.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Flex MBA and JD Joint Degree Pathway

Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. Essential criteria relating to the joint degree pathway are as follows:

(1) For law students, enrollment in the MBA program is required no later than the completion of 63 credit hours in the JD program. For MBA students, enrollment in the JD program is required no later than the third semester after beginning the MBA program. For purposes of this paragraph, a summer session is counted as half a semester.

(2) A student must satisfy the curriculum requirements for each degree before either degree is awarded. The College of Business will allow 12 credit hours of upper level business and commercial law courses to be credited toward both the MBA and JD degrees. These 12 credit hours of law classes will be in lieu of the Legal Environment of Business course (3 credit hours) and three of the elective courses (totaling 9 credit hours) required for the MBA degree. A student may obtain a concentration in the MBA program in accordance with the College of Business curriculum requirements for concentrations. Reciprocally, law students may receive 9 hours of credit toward the satisfaction of the JD degree for courses taken in the MBA curriculum upon completion of the MBA degree with a grade point average of 3.0 or higher.

(3) A student enrolled in the joint degree pathway may begin the student's studies in either college, but full-time law students must take the first two semesters of law study consecutively and part-time law students must take the first three semesters of law study consecutively. Students admitted to one college but electing to begin study in the other college under the joint degree pathway may enter the second college thereafter without once again qualifying for admission so long as they have notified the second college before the end of the first week of the first semester in the second college and are in good academic standing when studies commence in the second college.

(4) A student enrolled in the joint degree pathway will not receive either degree until the student has satisfied all of the requirements for both degrees, or until the student has satisfied the requirements of one of the degrees as if the student had not been a joint degree pathway candidate.

(5) Students in the joint degree pathway will be eligible for the graduate teaching assistantships and research assistantships in the College of Business on the same basis as other MBA students, subject to the guidelines and restrictions set by the College of Business.

For additional information, contact the Chapman Graduate School of Business at (305) 348-0148 or the Law School Admissions Office at (305) 348-8006.

Other Curricular Offering: Flex MBA and MA in Latin American and Caribbean Studies Joint Degree Pathway

An agreement approved by the University Graduate School, between the FIU Alvah H. Chapman, Jr. Graduate School of Business and the Steven J. Green School of International and Public Affairs allows students to pursue simultaneously the Master's in Business Administration (MBA) and MALACS. In doing so the student will finish both programs much sooner than if they pursue each degree separately. Students must meet the entrance requirements for both the MBA and MALACS programs. Twelve credits from the MBA curriculum will be allowed toward the MALACS program and will constitute a MALACS concentration in International Business. Nine credits from the MALACS program will also count toward the MBA curriculum requirements. All other requirements to receive either the MBA or MALACS degree must be met. Additional information on the joint degree pathway is available on the Chapman Graduate School of Business and MALACS web sites.

Essential criteria relating to the joint degree pathway are as follows:

(1) Candidates must satisfy all requirements for each degree. Twelve (12) credit hours from the MBA curriculum pre-core and core requirements may count toward the MALACS degree to satisfy MALACS concentration requirements. Nine (9) credit hours from the MALACS course offerings may be applied to satisfy MBA elective requirements. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MALACS courses transferred to meet MBA elective credit must be 6000 or 7000 level courses approved by the University Curriculum Committee and be from the approved MALACS course list in the social science disciplines of anthropology, economics, environmental studies, history, international relations, Latin American and Caribbean Studies (interdisciplinary), political science, or sociology. The Dean of the Chapman Graduate School of Business (or his/her delegate) has final authority on the approval of which courses may be transferred to meet MBA elective requirements.

(2) Based on existing MBA and MALACS curriculums, specifics on the transfer of credits include the following. Participants in the joint degree pathway will obtain a MALACS concentration in International Business. Four MBA pre-core or core courses (12 credits) may be transferred to meet the student's MALACS concentration requirements. Students who have not taken MAN 6910 Research Methods in Management as an MBA elective course will be required to take a MALACS-approved social science research methods course as one of their first MALACS courses. With the 12 credit transfer from the MBA program, to obtain the MALACS degree, the student will be required to take the MALACS gateway interdisciplinary course LAS 6003 Survey of Latin America and the Caribbean (3 credits), the MALACS required data analysis course LAS 6930 Latin American and Caribbean Data Analysis (3 credits), one additional course in the MALACS concentration of International Business (the social science research methods course may meet this requirement) (3 credits), three additional courses in at least two MALACS concentrations other than International Business (9 credits), and a MALACS graduation exit option (6 credits) for a total of 24 MALACS credits. Candidates for the MALACS degree must also meet MALACS language proficiency requirements. With the 9 credit transfer from the MALACS program, to obtain the MBA degree, the student will be required to take all MBA pre-core, core, and professional development seminar courses, plus one MBA elective, for a total of 46 MBA credits. Directors of the MBA and MALACS degree programs may adjust the exact course numbers and titles required for degree completion as a result of future changes to the MBA or MALACS curriculums.

(3) If the joint degree candidate chooses the thesis exit option for the MALACS degree, the thesis must address a Latin American or Caribbean business or management issue. The thesis committee must be chaired by a School of International and Public Affairs faculty member. Furthermore, the thesis committee must have at least one member from both the College of Business and School of International and Public Affairs. Thesis committee co-chairs with faculty members from both academic units are recommended. Candidates selecting a MALACS exit option other than the thesis must follow the procedures established by the MALACS program. MALACS will establish the necessary thesis, internship, independent study, or directed research course numbers to allow Graduate School of Business faculty to participate in MALACS exit options for joint degree students.

(4) Candidates accepted to the joint degree pathway may begin their studies in either program first. All candidates must register for classes during the regular registration period for the respective program. Additionally, joint degree pathway students must register for a course or courses in their second degree no later than the semester commencing the second half of their first degree program.

(5) Joint degree candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate. Subject to prior approval, graduate students are normally allowed six (6) credit hours from graduate level courses offered by other units of the University as counting toward single degrees.

(6) Candidates in the joint degree pathway will be eligible for the graduate teaching assistantships, graduate research assistantships, and scholarships in the Chapman Graduate School of Business and LACC on the same basis as other graduate students, subject to the guidelines and restrictions set by either program.

(7) Future changes to the MBA/MALACS joint degree pathway must be endorsed by the College of Business Faculty Curriculum Committee and Associate Dean of the Chapman Graduate School of Business; the School of International and Public Affairs Faculty Curriculum Committee and Dean of the School of International and Public Affairs; and approved by the University Curriculum Committee, Graduate Council, the Faculty Senate, Dean of the University Graduate School, and the Provost.

For additional information, contact the Evening MBA office at (305) 348-0148 or the Latin American and Caribbean Center (LACC) at (305) 348-2894.

Other Curricular Offering: Flex MBA and MIB Joint Degree Pathway

Type

Completion Requirement

Joint Degree Pathway

The MIB and MBA programs in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University offer a joint degree pathway culminating in both a Master of Business Administration (MBA), and a Master in International Business (MIB). Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have four common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MIB courses transferred to meet MBA elective credit and vice versa must be 6000 level courses approved by the University Curriculum Committee. Directors of the MBA and MIB degree programs may adjust these exact course requirements as a result of future changes to the MBA or MIB curriculums.

Fulfill ALL of the following requirements:

In the Flex MBA program: 36 credits

To obtain MIB degree, Flex MBA students must complete the following courses for a total of 63 credit hours as follows:

Earn at least 36 credits from the following:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- QMB6616 - Business Process & Operations Analysis
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Students also have to take Professional Development Seminars (PDS).

AND

In the MIB program: 27 credits

Earn at least 27 credits from the following:

- MAN6930 - Master's Seminar in Management
- MAN6606 - Fundamentals of International Business
- FIN6644 - Global Financial Strategy
- MAN6601 - Global Management Skills
- MAN6617 - Managing Global Production and Technology (Inactive)
- MAN6679 - Master's Project in International Business
- MAR6158 - International Marketing

AND

Electives

Complete at least 2 of the following courses:

- MAN6678 - Global Start-ups
- GEB6941C - Graduate Business Internship
- MAN6937 - Special Topics in Business Environment (Inactive)

Joint Degree Pathway

Fulfill ALL of the following requirements:

In the MIB program: 36 credit hours

Earn at least 36 credits from the following:

- MAN6930 - Master's Seminar in Management
- MAN6606 - Fundamentals of International Business

- ACG6026 - Accounting for Managers
- BUL6850 - International Business Law
- FIN6644 - Global Financial Strategy
- MAN6635 - Global Strategy and Business Models
- MAN6601 - Global Management Skills
- MAN6617 - Managing Global Production and Technology (Inactive)
- MAN6679 - Master's Project in International Business
- MAR6158 - International Marketing

AND

Electives

Complete at least 2 of the following courses:

- MAN6678 - Global Start-ups
- GEB6941C - Graduate Business Internship
- MAN6937 - Special Topics in Business Environment (Inactive)

AND

In the Flex MBA program: 27 credits

Earn at least 27 credits from the following:

- ACG6175 - Financial Reporting and Analysis
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- QMB6616 - Business Process & Operations Analysis
- MAN6245 - Organizational Behavior
- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Students also must take Professional Development Seminars (PDS).

Additional Comments:

Notes:

(1) Requirements for the MBA depend on MBA program chosen. If a candidate has elected the option of a specialization, the number of credit hours required and shared for the Flex will be used. Otherwise, the number of credit hours required and shared for the PMBA will be used.

(2) The Executive MBA and Professional MBA in Healthcare Management programs are not included as an option for the joint degree.

(3) Joint degree candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate.

For additional information, contact the MIB office at (305) 348-3279 or the MBA office at (305) 348-0148.

Other Curricular Offering: Flex MBA and MS in Finance Joint Degree Pathway

Type

Completion Requirement

Joint Degree Pathway

The Department of Finance and the MBA program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University have a joint degree pathway culminating in both a Master of Business Administration degree (MBA), and a Master of Science in Finance degree (Fast Track-MSF). Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway uses existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have four-five common courses. Courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MSF courses transferred to meet MBA elective credit must be 6000 level courses approved by the University Curriculum Committee. Directors of the MBA and MSF degree programs may adjust these exact course requirements as a result of future changes to the MBA or MSF curriculums.

Fulfill ALL of the following requirements:

In the Flex MBA program: 33 credit hours

To obtain MSF/MBA through the Flex program, students must complete the following courses for a total of 66 credit hours as follows:

Earn at least 33 credits from the following:

- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- QMB6616 - Business Process & Operations Analysis
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Students also must complete Professional Development Seminars (PDS) I, II, III.

AND

In the MSF program: 33 credit hours

Earn at least 33 credits from the following:

- FIN6456 - Quantitative Methods in Financial Analysis
- FIN6515 - Securities Analysis
- FIN6246 - Financial Markets and Institutions
- FIN6537 - Financial Futures and Fixed Income Investments
- FIN6487 - Financial Risk Management -Financial Engineering

- FIN6644 - Global Financial Strategy
- FIN6525 - Portfolio Management
- FIN6465 - Financial Planning and Statement Analysis

AND

Specialty Options

One of the following specialty options, in addition to the core MSF courses, is required for the MSF degree:

Fulfill ANY of the following requirements:

Specialty Option 1: Financial Management

Complete ALL of the following Courses:

- FIN6326 - Commercial Banking
- FIN6436 - Capital Budgeting and Long Term Resource Allocation
- FIN6425 - Financial Management Policies

OR

Specialty Option 2: Investments

Complete ALL of the following Courses:

- FIN6425 - Financial Management Policies
- FIN6489 - Advanced Financial Risk Management
- FIN6517 - Advanced Investments

OR

Specialty Option 3: International Banking

Complete ALL of the following Courses:

- FIN6326 - Commercial Banking
- FIN6625 - International Bank Management
- FIN6346 - Credit Analysis

Additional Comments:

Notes:

(1) Requirements for the MBA depend on the MBA program chosen. If a candidate has elected the option of a specialization, the number of credit hours required and shared for the Flex will be used. Otherwise, the option for a joint degree is not available with the MSF.

(2) The Executive MBA, Professional MBA, and Professional MBA in Healthcare Management programs are not included as an option for the joint degree.

(3) Joint degree candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate.

For additional information, contact the MBA office at (305) 348-0148 or the Master of Science in Finance office at (305) 348-4198.

Other Curricular Offering: Flex MBA and MS in Human Resource Management Joint Degree Pathway

Type

Completion Requirement

Joint Degree Pathway

The Department of Global Leadership and Management and the MBA program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University offer a joint degree program culminating in both a Master of Business Administration (MBA) degree and a Master of Science in Human Resource Management (MSHRM) degree. Under the joint degree pathway, a student can obtain both degrees in less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have two - four common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MSHRM courses transferred to meet MBA elective credit must be 6000 level courses approved by the University Curriculum Committee. Directors of the MBA and MSHRM degree programs may adjust these exact course requirements as a result of future changes to the MBA or MSHRM curriculums.

Notes:

(1) Requirements for the MBA depend on the MBA program chosen. If a candidate has elected the option of a specialization, the requirements and shared/common courses for the Flex MBA will be used. Otherwise, the requirements and shared/common courses for the Professional MBA will be used.

(2) The Executive MBA and Professional MBA in Healthcare Management programs are not included as an option for the joint degree pathway.

(3) Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all degree requirements for the first program as if the student had never been a joint degree pathway candidate.

For additional information, contact the MBA office at (305) 348-0148 or the Master of Science in Human Resource Management office at (305) 348-5945.

Fulfill ALL of the following requirements:

In the Flex MBA program: 36 credits

To obtain the MSHRM degree, Flex MBA students must complete the following courses for a total of 68 credit hours as follows:

Earn at least 36 credits from the following:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- QMB6616 - Business Process & Operations Analysis
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management

- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Students also must complete Professional Development Seminars (PDS).

AND

In the MSHRM program: 32 credits

Earn at least 32 credits from the following:

- MAN6157 - Wellness Management
- MAN6403 - Employment Law and Human Resource Management
- MAN6626 - International Human Resource Management
- MAN6297 - Labor Issues and Conflict Management
- MAN6359 - Human Resource Knowledge Management
- MAN6316 - Human Resource Analytics
- MAN6347 - Performance and Talent Management
- MAN6336 - Reward Systems Management
- MAN6365 - Staffing Organizations
- MAN6317 - Critical Thinking in Human Resource Management

Students also must take Professional Development Seminars (PDS) I, II, III.

Joint Degree Pathway

Fulfill ALL of the following requirements:

In the MSHRM program: 38 credits

To obtain the Flex MBA, MSHRM degree students must complete a total of 68 credits as follows:

Earn at least 38 credits from the following:

- MAN6157 - Wellness Management
- MAN6403 - Employment Law and Human Resource Management
- MAN6327 - High Involvement Human Resource Management
- MAN6626 - International Human Resource Management
- MAN6297 - Labor Issues and Conflict Management
- MAN6359 - Human Resource Knowledge Management
- MAN6316 - Human Resource Analytics
- MAN6385 - Human Resource Strategy and Planning
- MAN6347 - Performance and Talent Management
- MAN6336 - Reward Systems Management
- MAN6365 - Staffing Organizations
- MAN6317 - Critical Thinking in Human Resource Management

Students also must take Professional Development Seminars (PDS) I, II, III.

AND

In the Flex MBA program: 30 credits

Earn at least 30 credits from the following:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy

- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Students also must take Professional Development Seminars (PDS).

Other Curricular Offering: Flex MBA and MS in International Real Estate Joint Degree Pathway

Type

Completion Requirement

In the Flex MBA program: 36 credits

The Hollo School of Real Estate and the Master of Business Administration program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University offer a joint degree pathway culminating in both a Master of Business Administration degree (MBA), and a Master of Science in International Real Estate degree (MSIRE). Under the joint degree pathway, a student can obtain both degrees in less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have three – four common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MSIRE courses transferred to meet MBA elective credit must be 6000 level courses. Directors of the MBA and MSIRE degree programs may adjust these exact course requirements as a result of future changes to the MBA or MSIRE curriculums.

To obtain the MSIRE/MBA degrees through the Flex program, students must complete the following courses for a total of 63 credit hours.

Notes:

(1) Requirements for the MBA depend on the MBA program chosen. If a candidate has elected the option of a specialization, the number of credit hours required and shared for the Flex will be used. Otherwise, the option for a joint degree pathway is not available with the MSIRE.

(2) The Executive MBA, Professional MBA, and Professional MBA in Healthcare Management programs are not included as an option for the joint degree pathway.

(3) Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate.

For additional information, contact the Evening MBA office at (305) 348-0148 or the Master of Science in International Real Estate office at (305) 348-4198.

Earn at least 36 credits from the following:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- ISM6021 - Management of Information Systems
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis
- QMB6616 - Business Process & Operations Analysis

Students also must take Professional Development Seminars (PDS).

In the MSIRE program: 27 credits

Earn at least 27 credits from the following:

- REE6045 - Real Estate Markets, Institutions and Practices
- REE6209 - Real Estate Finance
- REE6305 - Advanced Real Estate Investment Valuation
- REE6935 - Seminar in International Real Estate
- REE6435 - Real Estate Law
- REE6715 - Real Estate Development
- REE6147 - Real Estate Market Analysis
- REE6932 - Spec Top Real Estate
- FIN6644 - Global Financial Strategy

FOODS:CFI - Undergraduate Certificate in Food Studies

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Food Studies

The Food Studies Certificate provides an interdisciplinary and trans-disciplinary approach to the study of food scholarship. The certificate is designed to introduce students to the study of food from multiple perspectives, including the social sciences, humanities, environmental studies, philosophy, ethics, nutrition sciences and hospitality studies. The Food Studies Certificate requires a total of 18 credits of coursework.

This certificate program is open to degree-seeking students only.

FRECU:CFI - Undergraduate Certificate in French Language and Culture

Overview

Degree Offered
PCRT - Professional Certificate

Program Title
Professional Certificate in French Language and Culture

The Professional Certificate in French Language and Culture offers an alternative to the French minor, particularly suited for students new to French and for non-degree-seeking students at any proficiency level. It allows degree-seeking and non-degree-seeking students to develop foundational language skills in French for professional and social purposes as well as intercultural competence in both local and international contexts.

Admissions Requirements

No specific admissions requirements. There are no prerequisites to pursue this certificate. Contact advisor or program director for additional information.

This certificate is open to degree-seeking students and independently to non-degree seeking students who already have a Bachelor's degree.

Program Requirements

Program Credit Hours: 18 credits

Type
Completion Requirement

Core Courses: 6 credits

Students with prior knowledge of French will be required to take a test to assess their level of proficiency in the language. Regardless of their placement, they will still need to complete 18 credits to earn the Certificate.

Complete at least 2 of the following courses:

- FRE1130 - French I
- FRE1131 - French II

Required Language Courses: 6 credits

Earn at least 6 credits from the following:

- FRE2200 - Intermediate French
- FRE2241 - Intermediate French Conversation
- FRE2443 - French for Business
- FRE3420 - Advanced Grammar
- FRE3441 - Advanced Business French
- FRE3410 - Advanced French Conversation

Elective Culture Courses: 6 credits

Earn at least 6 credits from the following:

- FRE3413 - Communication Arts
- FRE3421 - Syntax and Composition
- FRE3504 - Language and Culture
- FRE4390 - French and Francophone Cinema
- FRE4501 - Contemporary French Society
- FRE4503 - La Francophonie
- FRW3101 - Introduction to Francophone Literature and Cultural Studies

Additional FRE and FRW courses may be eligible with permission of Program Director

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

FRNSC:CFI - Undergraduate Certificate in Forensic Science

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Forensic Science

The Undergraduate Certificate in Forensic Science seeks to educate students who wish to pursue a laboratory career in the forensic sciences. The field is interdisciplinary and requires significant academic and laboratory training in the natural sciences. This program provides in-depth coursework and hands-on training to facilitate successful entry into a forensic laboratory position. The certificate is available to current Bachelor of Science (BS) and Bachelor of Arts (BA) students and others who have already earned a BS or BA in chemistry, biological sciences, or a natural science.

For more information, visit the College of Arts, Sciences, and Education website.

Admissions Requirements

The field of forensic science is interdisciplinary and requires significant training in the natural sciences.

Upon completion of the prerequisites and the following additional forensic coursework, the student may be awarded the Certificate. The certificate will be awarded at the time of awarding the Bachelor’s degree, or upon completion of this work if the student already has a Bachelor’s degree.

This is certificate is open to both degree-seeking and non-degree-seeking students.

Prerequisites

The prerequisites for admission into the Forensic Science Certificate Program are as follows:

-- One (1) calculus course,

-- One (1) statistics course,

-- One (1) general biology course with lab,

-- Two (2) physics courses with labs,

-- Two (2) general chemistry courses with labs,

-- Two (2) organic chemistry courses with labs,

-- One (1) analytical chemistry course with lab,

-- One (1) biochemistry course.

Program Requirements

The program consists of 19-20 credits as detailed below.

Program Credit Hours: 19-20

Required Courses: 16 credits

Complete ALL of the following Courses:

- CHS2500 - Survey of Forensic Science
- CHS2500L - Survey of Forensic Science Laboratory
- CHS4503C - Forensic Science
- CHS3511C - Forensic Evidence
  OR CHS5535 - Forensic Analysis
- BSC4401 - Principles of Forensic Biology
  OR BSC5406 - Forensic Biology
- CHS4591 - Forensic Science Internship
  OR CHS6946 - Graduate Forensic Internship

Required Electives: 3-4 credits

Please choose from the following courses or others in consultation with the Program Director.

Complete course(s) and earn 3 - 4 credits from the following:

- PCB4524 - Molecular Biology
- PCB4524L - Molecular Biology Lab
- PCB3063 - Genetics
- PCB3063L - Genetics Lab
- BOT1010 - Introduction to Plants
- CHM4130 - Instrumental Analysis
- CHM4130L - Instrumental Analysis Lab
- CHS5539 - Forensic Toxicology
- CHS5538C - Chemistry and Analysis of Drugs
- CCJ2020 - Introduction to Criminal Justice
- CCJ3651 - Drugs and Crime
- CCJ4225 - The Courts and Forensic Science
- GLY3039 - Environmental Geology
- SOP4842 - Legal Psychology

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no track, specialization, concentration, area of emphasis, or other curricular offerings associated with this program.

FRNSC:MS - Master of Science in Forensic Science

Overview

Degree Offered
MS - Master of Science

Program Title
Forensic Science

The Master of Science (MS) in Forensic Science degree equips students with a solid foundation in biology, forensic biology, and chemistry, as well as forensic analysis methods. The goal of this program is to graduate scientists who can work as forensic science practitioners conducting casework examinations or to provide advanced science education to students interested in continuing their education towards a Doctor of Philosophy (PhD) or other terminal degree (e.g., a law degree). This program is designed to meet the requirements of the DNA Advisory Board for DNA analysts in the Technical Leader position (for DNA track students) and meets the criteria of the American Academy of Forensic Sciences (AAFS) for Forensic Science Education Programs Accreditation Commission (FEPAC) accreditation.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Master of Science (MS) in Forensic Science

To be admitted into the MS in Forensic Science program, a student must:

(1) Hold a bachelor’s degree in a relevant discipline from an accredited college or university.

(2) Have a 3.0 GPA in upper-level course work.

(3) Two letters of recommendation of the student’s academic potential.

(4) Be accepted by a faculty sponsor.

(5) Receive approval from the Graduate Committee.

(6) International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the iBT TOEFL or 6.5 overall on the IELTS is required.

Minimum requirement is the equivalent of a bachelor's degree in biology, chemistry, or related science approved by the graduate committee. It is recommended that students have the equivalent of a minor in chemistry before taking the required courses.

Admissions Requirements for the Bachelor of Science (BS) in Chemistry to MS in Forensic Science Accelerated Degree Pathway

To be considered for admission to the combined BS/MS accelerated degree pathway, students must have completed at least 75 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the accelerated degree pathway, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program.

Admissions Requirements

(1) Current enrollment in the BS in Chemistry program at FIU.

(2) Current GPA of 3.2 or higher.

(3) Three letters of recommendation.

(4) Approval of the Chemistry Graduate Committee.

Admissions Requirements for the MS in Forensic Science to PhD in Biology Joint Degree Pathway

For admission into the MS in Forensic Science/PhD in Biology joint degree pathway, students must meet the admission criteria of a PhD student with the understanding that they will have an increased class load of 2-3 classes (e.g., Forensic Biology, Forensic Chemistry, and Forensic Analysis) when compared to the normal PhD applicant but will graduate with two degrees. The requirements will be as follows:

(1) Hold a bachelor's degree in a natural science from a relevant university.

(2) Have a 3.0 GPA during the last two years of the undergraduate program.

(3) Arrange to have three letters of recommendation sent to the Biology graduate program director evaluating the applicant's potential for graduate work.

(4) Be sponsored by a Biology faculty member with Dissertation Advisor Status.

(5) Receive approval from the Department Graduate Program Committee.

(6) International graduate student applicants whose native language is not English are required to submit a score for Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IETLS). A score of 80 on the iBT TOEFL or 6.5 overall on the IETLS is required.

Program Requirements

The MS in Forensic Science consists of a minimum of 32 credits, including a thesis based upon the student's original research or completion of an independent study report option.

A maximum of six credits of post-baccalaureate coursework may be transferred from other institutions, subject to the approval of the Graduate Committee. The Graduate Committee will consist of the Graduate Program Director and a member from each of the following departments: Chemistry and Biochemistry, Biological Sciences, Criminology and

Criminal Justice, and Psychology. The Thesis Committee shall consist of the research advisor (normally the faculty sponsor), and at least two additional committee members who have some expertise in the graduate student's research area. All members must hold graduate faculty status.

Degree Program Credit Hours: 32

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- BSC5406 - Forensic Biology
- CHS5542 - Forensic Chemistry
- CHS5535 - Forensic Analysis
- BSC5931 - Thesis Proposal Seminar
  OR CHM6935 - Graduate Seminar
- BSC5975 - Thesis Defense Seminar
  OR CHM6971 - Master's Thesis
- BSC6971 - Master's Thesis
  OR CHM6970 - Thesis Research

Equivalent courses in the student's area(s) of thesis concentration may be substituted upon approval by the student's committee in consultation with the Graduate Program Director (i.e., CCJ, GLY, PHY, PSY).

Required Electives

At least fifteen (15) credits of additional graduate-level courses, workshops, and laboratories (excluding research and seminar) from participating departments approved by the Thesis Committee in consultation with the Graduate Program Director. Consult the Director for a selected list of Chemistry, Biology, Earth Sciences, Criminal Justice, and Legal Psychology courses.

Graduation Requirement

Graduation requirements include: a grade of "C" or higher in all courses, a cumulative GPA of 3.0/4.0 or higher, and presentation and submission of a satisfactory research thesis to the Thesis Committee.

Additional Comments:

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Report Option

Type
Completion Requirement

Report Option

Students approved for this option can replace “Thesis” with Independent Study in Forensic Science (CHS 6905) or Student Research Lab (BSC 6913) and must also complete two additional elective courses such as CHS 5539 and STA 5664.

Other Curricular Offering: BS in Chemistry to MS in Forensic Science Accelerated Degree Pathway

A student admitted to the accelerated degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor’s degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Completion Requirements

Completed BS in Chemistry degree at FIU.

Required:

(1) BSC5406 Forensic Biology Forensic Biology

(2) CHS5542 Forensic Chemistry Forensic Chemistry

(3) CHS5535 Forensic Analysis Forensic Analysis

(4) Required courses must be completed with an average of “B” or higher, and only one course may receive a grade of less than “B-“.

(5) Electives: 5 courses selected from the Forensic Science Graduate Elective Offerings.

(6) 6 credits of Thesis Research and 1 credit of Thesis.

(7) 1 credit of Colloquium.

(8) Overlap: Up to 3 graduate level courses (9 credits) may be used to satisfy both the Bachelor’s and Master’s degree requirements.

Other Curricular Offering: MS in Forensic Science and PhD in Biology Joint Degree Pathway

Type

Completion Requirement

Required Courses

A student admitted to this joint degree pathway will be enrolled in a continuous enrollment pathway; however, upon completion of all the requirements of the MS in Forensic Science program (report option), students will be awarded the MS degree as they transition towards the PhD degree.

As these candidates will be dually enrolled in two graduate degree programs, candidates must complete a minimum of 32 credit hours towards the MS degree with a grade of ‘C’ or higher and a cumulative GPA of 3.0. The MS in Forensic Science report option must be completed and accepted by the university before full transition towards the PhD degree. Candidates must also complete a total of 75 credits toward the PhD degree with the allowance for credits transferred from the completed MS in Forensic Science degree. The student will be able to earn both degrees in a shorter time frame that it would take to obtain either degree if pursued consecutively.

Students will be required to select a master's defense committee while pursuing the MS in Forensic Science degree as well as a PhD dissertation committee. This committee may or may not be comprised of the same members as those selected for the master's program. The master's proposal should be presented after the second semester of admission and the PhD dissertation defense should be presented after the fourth semester after admission.

Complete ALL of the following Courses:

- BSC6457 - Introduction to Biological Research
- BSC5931 - Thesis Proposal Seminar
- BSC7961 - Dissertation Proposal Seminar
- BSC5975 - Thesis Defense Seminar
- BSC7982 - Dissertation Defense Seminar
- BSC5406 - Forensic Biology
- CHS5535 - Forensic Analysis
- CHS5542 - Forensic Chemistry
- PCB5685 - Population Genetics

Elective Courses

Complete ANY of the following Courses:

- PCB6025 - Molecular and Cellular Biology I
- MCB5116 - Microbial Diversity
- BSC5459 - Advanced Bioinformatics for Biologists
- BOT5852 - Medical Botany
- BOT5727 - Plant Genetics
- STA5507 - Nonparametric Methods

Labs and Workshops

Complete ALL of the following Courses:

- BSC6925C - Workshop: Non-Human DNA Profiling and Analysis
- BSC6926 - Workshop in Biology
- BSC5935 - Topics In Biology

Research

Complete ALL of the following Courses:

- BSC6971 - Master's Thesis
- BSC7980 - Ph.D. Dissertation

FRNSC:PSM - Professional Science Master in Forensic Science

Overview

Degree Offered
PSM - Professional Science Master's

Program Title
Forensic Science

The Professional Science Master (PSM) in Forensic Science program is designed to educate forensic science and laboratory professionals in necessary administrative skills related to managing forensic laboratories. The program provides a cross-cutting curriculum in forensic science, with coursework in business and public administration that is designed to provide professional development opportunities for supervision and management. Students will gain advanced, graduate-level forensic science knowledge and the ability to apply it in an operational forensic organization. The courses use multiple media and case studies in an asynchronous, flexible online delivery format with practical exercises.

For more information, visit the College of Arts, Sciences, and Education website.

Diploma Title
Professional Science Master's in Forensic Science

Total Credits
33

Program Length in Years Based on Full-Time Enrollment
1

CIP Code
43.0406

Requirements

Simple Requirements

Admissions Requirements

To be admitted into the PSM in Forensic Science, a student must:

(1) Hold a Bachelor’s degree in a relevant discipline from an accredited college or university.

(2) Have a 3.0 GPA in upper-level course work.

(3) Be accepted by a faculty sponsor.

(4) Receive approval from the Graduate Committee.

(5) International graduate students applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). Minimum required scores is 550 on the paper-based TOEFL, 80 on the internet-based TOEFL (iBT) or 6.5 overall on the IELTS.

Program Requirements

The program consists of 33 credits; 24 credits will focus on technical forensic science content and 9 credits on professional business content. The program offers two tracks.

Credits transferred need to be graduate level (> 5000) and earned with a grade of “B” or better, and the course(s) cannot have been taken longer than seven years from the term the student begins as a PSM student.

Students will complete the program as a lock-step cohort.

Program Credit Hours: 33

Type

Completion Requirement

Required Core Courses: 18 credits

Complete ALL of the following Courses:

- CHS5535 - Forensic Analysis
- BSC5406 - Forensic Biology
- CHS5542 - Forensic Chemistry
- MAN6245 - Organizational Behavior
- PAD6227 - Public Finance and the Budgetary Process
- PAD6434 - Leadership and Decision-making

Graduation Requirements

It is expected that students will earn grades of “B” or higher in order to maintain a minimum cumulative average of 3.0. If a student is unsuccessful in a class, the student will have to retake that course the next time it is offered, either during the two-year period or as a part-time student after the two-year period. The latter will delay the student's completing the program in two years.

Additional Comments:

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

All students must select either the Forensic Management Track or the Veterinary Forensic Science Investigation Track.

Forensic Management Track: 15 credits

Type

Completion Requirement

Required Courses

The Forensic Management Track (15 credits in addition to degree core requirements) provides the Forensic coursework with a focus on management aspects that include finance, leadership, ethics, and organization

Complete ALL of the following Courses:

- BSC5935 - Topics In Biology
- CHM6949 - Industrial Internship
- CHS5513 - Quality Systems in Forensic Science
- CHS5538C - Chemistry and Analysis of Drugs
- PAD6436 - Professionalism and Ethics

Veterinary Forensic Science Investigation Track: 15 credits

Type

Completion Requirement

Required Courses

The Veterinary Forensic Science Track (15 credits in addition to degree core requirements) provides the Forensic Science coursework with a focus on Animal Medicolegal aspects that include forensic examination, identification, collection, preservation of evidence, and common categories of animal cruelty and neglect including illness or injury.

Complete ALL of the following Courses:

- BSC5485 - Forensic and Veterinary Medicolegal Investigations
- BSC5486 - Advanced Topics in Veterinary Medicolegal Investigations
- BSC5487 - Advanced Forensic and Legal Aspects of Animal Cruelty
- CHM6949 - Industrial Internship
- CHS5513 - Quality Systems in Forensic Science

AI and Digital Forensics Track

Type

Completion Requirement

AI and Digital Forensics Track - 15 Credits

The Professional Science Masters (PSM) in AI and Digital Forensics program is designed to prepare students to meet the growing demand for professionals skilled in applying artificial intelligence, data analytics, and advanced digital investigation techniques to modern forensic challenges

Fulfill ALL of the following requirements:

Core Courses - 18 Credits

Complete ALL of the following Courses:

- CHS5535 - Forensic Analysis
- BSC5406 - Forensic Biology
- CHS5542 - Forensic Chemistry
- MAN6245 - Organizational Behavior
- PAD6434 - Leadership and Decision-making
- CHS5513 - Quality Systems in Forensic Science

AND

AI and Digital Forensics Track Courses- 15 credits

Complete ALL of the following Courses:

- CHM6949 - Industrial Internship
- CHS5571 - Artificial Intelligence Driven Forensics
- EEL6751 - Wavelet Theory Applied to Signal Processing
- EEE6755 - Advanced Mobile Forensics
- EEE6751 - Advanced Image and Video Forensics
- EEL6803 - Advanced Digital Forensics

GACUTE:CFI - Post-Graduate Certificate in Adult-Gerontology Acute Care Nurse Practitioner

Overview

Degree Offered
PCRT - Professional Certificate

Program Title
Post-Graduate Certificate in Adult-Gerontology Acute Care Nurse Practitioner

The Adult-Gerontology Acute Care Nurse Practitioner Certificate will prepare advanced practice nurses to deliver high-quality, evidence-based care to acutely ill patients with complex health conditions. The program emphasizes comprehensive assessments, advanced diagnostics, and the management of emergent, life-threatening conditions. Adult-Gerontology Acute Care graduates are trained to work collaboratively with interprofessional healthcare teams in fast-paced environments, such as intensive care units (ICUs), emergency departments, and specialty care units, providing critical interventions and managing the trajectory of acute illnesses. Graduates will be eligible to take the Adult-Gerontology Acute Care Nurse Practitioner National Certification Exam.

Nicole Wertheim College of Nursing and Health Sciences

Total Credits
25

Program Length in Years Based on Full-Time Enrollment
2

CIP Code
51.3803

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Post-Graduate Nurse Practitioner Certificate in Adult-Gerontology Acute Care

(1) Successful completion of all the admission requirements for graduate education at Florida International University and the Nicole Wertheim College of Nursing & Health Sciences.

(2) Cumulative graduate GPA of 3.0 or greater on a 4.0 scale (GPA calculation inclusive of all academic coursework including courses at the community college level).

(3) Current State of Florida RN or APRN license. Out-of-state students must obtain a license to practice in Florida prior to admission.

(4) Master of Science in Nursing (MSN) from a program accredited by the National League for Nursing Accrediting Commission (NLNAC) or the Commission on Collegiate Nursing Education (CCNE). Applicants from programs without such accreditation will be considered on an individual basis.

(5) Completion of all FIU Graduate Nursing admission paperwork including:

a. NursingCAS application

b. FIU Supplemental Application

c. Written essay: Describe the reasons for applying to the Post Masters AGACNP

d. Certificate program at Florida International University, and how it fits into personal, educational, and professional goals.

e. Three (3) professional reference letter.

f. Curriculum Vitae.

(6) Demonstrate ability in (or potential for) clinical excellence and leadership:

a. A minimum of 1 year of full-time employment in an adult acute care setting as an RN within the last two years is required. Experience in critical care, intermediate care, progressive care, or stepdown is **preferred** or,

b. A minimum of 1 year of APRN experience in the care of adults (i.e., Adult or Family) with prior acute care RN experience **preferred**.

(7) Favorable personal interview with the FIU Graduate Nursing Admission Committee.

(8) Additionally, students must complete a background check, drug screening, and more. Candidates for admission must meet all legal requirements to be licensed to practice nursing in the State of Florida. As such, candidates for admission must disclose any conviction or plea of guilty, nolo contendere, or no contest to a misdemeanor or felony in any jurisdiction (other than minor traffic offenses). All misdemeanors and felonies must be disclosed, even if adjudication was withheld. Driving under the influence (DUI) or driving while impaired (DWI) are not minor traffic offenses for purposes of this disclosure. This certificate is open to non-degree-seeking students only.

(9) Graduate courses in nursing theory (3 credits) and research (3 credits), advanced pathophysiology (3 credits), advanced health assessment (3 credits), and advanced pharmacology (3 credits). *-If the applicant's coursework in advanced pharmacology, advanced pathophysiology, and advanced health assessment took place more than 3 years ago, they may need to repeat the courses prior to enrollment in specialty courses, following, gap analysis, evaluation of records and professional experience by the admission committee and program chair.*

Admissions Procedures

(1) STEP 1 - Submit an application to Nursing CAS (The Centralized Application Service for Nursing Programs)

-- Complete an online application via Nursing CAS http://www.nursingcas.org and pay appropriate fees. Applications will be accepted from Dec 1 to March 1 for Fall admission.

-- Send official academic transcripts from ALL SCHOOLS attended (all Associate, Bachelors, Masters degree, and higher [if applicable] coursework) to Nursing CAS for upload and verification.

-- Upload all required supplemental items including professional CV, active Florida RN and/or APRN License, recommendations and Personal Statement to Nursing CAS.

-- Complete the required FIU supplemental application and pay the $30 fee.

(2) STEP 2 - Professional Interview

-- Following a review of all completed applications a select number of applicants will be offered the opportunity to participate in a panel interview.

-- Interview candidates may be instructed to bring additional official transcripts to their interview appointment

Program Requirements

Advanced Practice Nursing Specialty Credit Hours: 25

Type

Completion Requirement

Adult-Gerontology Acute Care Nurse Practitioner: 25 credits

Complete ALL of the following Courses:

- NGR6210 - Advanced Adult-Gerontology Acute Care Health I
- NGR6210L - Advanced Adult-Gerontology Acute Care Health Practicum I
- NGR6211 - Advanced Adult-Gerontology Acute Care Health II
- NGR6211L - Advanced Adult-Gerontology Acute Care Health Practicum II
- NGR6213 - Advanced Adult-Gerontology Acute Care Health III
- NGR6213L - Advanced Adult-Gerontology Acute Care Health Practicum III
- NGR6744 - Professional Advanced Practice Seminar
- NGR5063C - Diagnostics and Procedures for Acute Care

Certificate Completion Requirements

(1) Successful completion of a minimum of 25 semester credits of graduate coursework beyond the MSN, including up to 770 direct patient care clinical hours, with required clinical hours and coursework determined by gap analysis.

(2) Achievement of an overall cumulative GPA of 3.0 or above. See Graduate Catalog in University Graduate School Rules and Regulations for information on Academic Warning, Probation, and Dismissal.

(3) Removal of all conditions, deficiencies, and incomplete grades. Credit hours for courses in which the grade is “B-“ or below will not count toward satisfying certificate completion requirements.

Diploma Title
Master of Arts in Global Affairs

Total Credits
36

Program Length in Years Based on Full-Time Enrollment
2

CIP Code
30.2001

Requirements

Simple Requirements

Admissions Requirements

(1) Baccalaureate degree from an accredited institution for higher education, or equivalent degree from a foreign institution.

(2) 3.0 GPA in the last 60 upper division credits of undergraduate degree.

(3) Two letters of recommendation (professional and academic recommendations only; at least one letter needs to be from a faculty member; a professional letter should come from a supervisor).

(4) Curriculum Vitae.

(5) A statement of purpose (750 words) describing the candidate’s academic and professional background as well as proposed track of study and career aspirations.

In addition, foreign students must submit official TOEFL scores (Note: unofficial scores will not be taken into consideration)

-- Paper and Pencil: 550

-- Internet-based: 80

The above admission requirements are minimums and not all students meeting them are assured admission. Students with a grade-point average below the above minimums may still apply and request a waiver of those scores. The student must provide a justification as to why the waiver should be approved.

Program Requirements

The MA in Global Affairs program requires a total of 36 credits. Students take 18 credits of Global Affairs Major core courses. The remaining 18 credits of the major are specialty courses associated with each track.

Program Credit Hours: 36

Type

Completion Requirement

Global Affairs Major Core Courses: 18 credits

Complete ALL of the following Courses:

- ISS6216 - Foundations of Globalization
- ECO6025 - Economic Policy Analysis for Global Governance
- ISS6307 - Research Tools for Global Studies
- ISS6387 - Analytical Writing and Presentation Skills
- SYA6655 - Program Design and Evaluation
- PAD6306 - Policy Analysis
- ISS6926 - Capstone

Internships

Global Affairs students are highly encouraged to secure an internship during the summer between year 1 and 2 of the program. The internship should be relevant to the track of study and may take place at a corporation, non-profit organization, international institution, or government agency.

Graduation Requirements

In order to graduate, a student must earn a minimum grade of a "C", maintain a 3.0 GPA, and complete satisfactorily the prescribed curriculum.

Major Requirements

There are no majors associated with this program.

Type
Completion Requirement

International Development

Complete ALL of the following Courses:

- ISS6609 - Quantitative Methods
- ISS6630 - Markets, Governments and Public Policy
- ISS6615 - International Development Policy
- ISS6610 - Global Economy, Finance and Institutions
- ISS6275 - Growth, Development, and Policy
- ISS6660 - International Trade for Global Affairs

Additional courses selected by the program administration may also be included.

International Crime & Justice — Online: 18 credits

Type
Completion Requirement

International Crime & Justice —Online

Complete at least 6 of the following courses:

- CCJ6676 - Transnational Crime and National Security
- CCJ6079 - Geospatial Crime Analysis
- CCJ6040 - Comparative Crime and Criminal Justice Systems
- CCJ6675 - Applied Research on Human Rights and Rule of Law
- CCJ6620 - Immigration and Crime
- CCJ6696 - Human Trafficking
- ISS6640 - Global Financial Crimes
- DSC6020 - Terrorism and Homeland Security

Additional courses selected by the program administration may also be included.

Cybersecurity and Technology Policy — Online: 18 credits

Type
Completion Requirement

Cybersecurity and Technology Policy —Online

Complete ALL of the following Courses:

- CIS5027 - Computer Systems Fundamentals
- ISS5654 - Foundations of Cybersecurity and Technology Policy
- ISS5656 - Cyberspace and Globalization
- ISS6658 - Cyber Warfare and Strategy
- ISS6655 - Issues in Cybersecurity and Technology Policy
- LAW7707 - Cybersecurity and Privacy Law

Additional courses selected by the program administration may also be included.

GBLCTLI:BA - Bachelor of Arts in Global Languages, Cultures, and Literatures

Overview

Degree Offered
BA - Bachelor of Arts

Program Title
Global Languages, Cultures and Literatures

The Bachelor of Arts in Global Languages, Cultures, and Literatures is designed to prepare students for graduate school (i.e., in the humanities, social sciences, education) and professional schools (i.e., journalism, law) or careers in education, translation/interpretation, foreign service, and international business. It provides a competitive advantage for those students seeking careers that require advanced communication skills in foreign languages as well as critical thinking and a cross-cultural understanding of today's globalized world. Beyond the attainment of multilingual competencies, the program prepares students to become engaged global citizens, capable of navigating the multicultural environments of today's world. They will become more sensitive to cultural difference and better at approaching issues from multiple perspectives.

Program Requirements

Academic Progression Requirements

Students admitted to the university are admitted directly to their chosen major. Students are expected to make satisfactory progress based on critical indicators, such as GPA in specific courses or credits earned. In cases where students are not making satisfactory progress, a change of major may be required. Advisors work to redirect students to more appropriate majors when critical indicators are not met.

Common Prerequisites

There are no specified common prerequisites for this degree.

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org

Additional Degree Requirements

Students must choose from the following majors:

--French and Francophone Studies Major

--Portuguese and Lusophone Studies Major

--Dual Language Major

Lower Division Prerequisites

Must demonstrate proficiency by testing or completion of intermediate level for French and Francophone Studies Major or Portuguese and Lusophone Studies Major or must demonstrate proficiency by testing or completion of intermediate level for the first language in the case of the Dual Language major.

Must demonstrate proficiency by testing or completion of beginning level (first two-semester sequence) of the second language in the Dual Language major.

Degree Program Credit Hours: 120

Type

Completion Requirement

Upper Division Program: 60 credits

Minimum of 48 upper division credits

Major requirements: 30 credit hours

· 9 hours Common Core Courses

· 21 hours Major Required Courses

· A minimum of 24 out of the 30 credit hours of Major Requirements must be taken in the target language(s)

· Internship: an internship option is available to interested students. Students enroll in a formal class for zero to three credits. With advisor approval, internship credits may count as an elective in the major. FOL3940 Foreign Lang Internship Internship in Foreign Language (0-3)

Major Requirements: 30 Credits

Fulfill ALL of the following requirements:

Common Core Courses for all three Majors: 9 Credits

Complete ALL of the following Courses:

- FOL3881 - Languages and Technology
  OR LIN3010 - General Linguistics

Language- Area Focused Culture Course: 3 Credits

Language-Area Focused Language Structure Course: 3 Credits

AND

Required Additional Courses

Each Major will require 21 Additional Credits

Major Requirements

Major in French and Francophone Studies: 21 Credits

Type

Completion Requirement

Lower Division Preparation

Must demonstrate proficiency by testing or completion of intermediate level of French.

Fulfill ALL of the following requirements:

Major Core Courses: 6 Credits

Complete ALL of the following Courses:

- FRE3420 - Advanced Grammar
- FRW3101 - Introduction to Francophone Literature and Cultural Studies

AND

Breadth Courses/Francophone Cultural Studies: 9 credits

Select 3 Courses out of the Following List

Fulfill ANY of the following requirements:

FRW Literature Courses

Complete ANY of the following Courses:

- FRW3280 - French 19th Century Novel (Inactive)
- FRW3300 - French Comedies
- FRW3370 - French 19th and 20th Century Short Stories
- FRW4123 - Travel, Exile, and Cross-Cultural Encounters
- FRW4281 - French 20th Century Novel (Inactive)
- FRW4583 - Women Writers
- FRW4751 - Francophone Literature in the Caribbean

OR

Civilization & Culture courses

Complete ANY of the following Courses:

- FRE3500 - History of French Civilization
- FRE3504 - Language and Culture

- FRE4501 - Contemporary French Society
- HAI3500 - Haiti: Language and Culture

OR

FRE Cinema courses

Complete ANY of the following Courses:

- FRE4390 - French and Francophone Cinema
- FRE4391 - French Cinema

OR

FRE Linguistics courses

Complete ALL of the following Courses:

- FRE4503 - La Francophonie
- FRE4791 - French Phonology
- FRE4800 - French Morphology
- FRE4840 - History of the Language I

AND

Advanced Literature: 3 Credits

Complete at least 1 of the following courses:

- FRW3280 - French 19th Century Novel (Inactive)
- FRW3300 - French Comedies
- FRW3370 - French 19th and 20th Century Short Stories
- FRW4123 - Travel, Exile, and Cross-Cultural Encounters
- FRW4281 - French 20th Century Novel (Inactive)
- FRW4583 - Women Writers
- FRW4751 - Francophone Literature in the Caribbean

Other FRW Literature courses will also apply

AND

Major Elective: 3 Credits

Any FRE or FRW course at the 3000 or 4000 level
**Native and near-native French speakers will not be allowed to take FRE 3410 nor FRE 3413.*

Course relevant to the field of French and Francophone Studies, offered outside the Department, with permission of the Director of French and Francophone Studies

A minimum of 6 credit hours in the target language must be at the 4000 level.

Major in Portuguese and Lusophone Studies: 21 credits

Type
Completion Requirement

Lower Division Prerequisite

Must demonstrate proficiency by testing or completion of intermediate level of Portuguese.

Fulfill ALL of the following requirements:

Major Core Courses: 9 Credits

Complete ALL of the following Courses:

- POR3400 - Advanced Oral Communication
- POR3420 - Review Grammar/Writing I
- PRT3800 - Port Translation I

AND

Breadth Courses/Lusophone Cultural Courses: 9 credits

Complete at least 3 of the following courses:

- POR3421 - Review Grammar/Writing II (Inactive)
- POR3440 - Portuguese for Business
- POR3500 - Luso-Brazilian Culture
- POR3930 - Special Topics in Language Linguistics
- POR4480 - Twentieth Century Brazilian Novel
- PRT3401 - Literature in Translation (Inactive)
- POW3284 - Brazilian Short Story
- POW4390 - Brazilian Cinema
- POW4391 - Brazilian Cinema and Human Rights
- POW4701 - Masterworks of Brazilian Literature
- POW4930 - Special Topics

AND

Major Electives: 3 Credits

Any POW, PRT, or POR course at the 3000 or 4000 level
Course relevant to the field of Lusophone studies, offered outside the Department, with permission of the Director of the Portuguese program.

Additional Comments:
(A minimum of 6 credit hours in the target language must be at the 4000 level)

Dual Language Major: 21 Credits

Type
Completion Requirement

Lower Division Prerequisites

Must demonstrate proficiency by testing or completion of beginning level (first two-semester sequence) of the second language in the Dual Language major.

Fulfill ALL of the following requirements:

Major Core Courses: 21 credits

Up to 6 credits of the second language at the intermediate level may apply to the 21 credits of major core courses.
Specific course offerings in this section will depend on the language(s) selected, but these courses (with the exception noted above) should be selected from the advanced elective offerings (3000-4000 level courses) associated with either language of specialization. Students must consult with the undergraduate coordinator to develop the best course of study.

AND

Additional requirement for the Dual Language Major

A minimum of 21 credits at the upper-division (3000-4000 level) is required in the two language areas combined. This includes a minimum of 12 credits in the first language area, and a minimum of 6 credits in the second language area. The two common core courses, Language-Area-Focused Culture and Language Structure Courses, count toward that requirement.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

GBLCYB:CFI - Undergraduate Certificate in Cybersecurity Intelligence and Information Policy

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Cybersecurity Intelligence and Information Policy

The Certificate in Cybersecurity Intelligence and Information Policy at the Steven J. Green School of International and Public Affairs' Institute for Public Policy offers students an opportunity to explore complex, critical and timely topics in cybersecurity policy. In this program students will learn the fundamentals of Cybersecurity, including exposure to prevailing technical and policy considerations facing the US and the international community. Courses will examine the intersection of policy and technology, law, ethics, and international relations.

Admissions Requirements

Offered by the Jack D. Gordon Institute for Public Policy, the certificate may be awarded to degree seeking students who complete the requirements as a complement to a student's discipline or major area of studies.

*Note that students can only enroll in the online professional certificate cohort, if invited to join the Intelligence Fellowship workforce development program. The Department will only enroll students directly into courses for the online professional certificate. Both degree seeking students and non-degree seeking students can apply to the Intelligence Fellowship Program.

This is certificate is open to both degree-seeking and non-degree-seeking students.

Prerequisite Requirements

Contact advisor for information about any prerequisites.

Program Requirements

Certificate Requirements

(1) A total of 18 credit hours of undergraduate course work with a grade of C or higher. Courses must come from the approved UCGCP course listing or be approved by the certificate advisor. Courses may include those in the student's departmental major, but must be selected from at least two disciplines outside the student's departmental major. With the approval of the Director, courses other than those listed herein may be substituted on a case-by-case basis.

(2) Fully Online students must complete their 18 credits from among the Policy and Core Requirement sections.

Cybersecurity Intelligence and Information Policy Certificate Program

Type

Completion Requirement

Global Cybersecurity Policy: 3 credit hours

Earn at least 3 credits from the following:

- ISS3653 - Foundations of Global Cybersecurity Policy
- IDC3603 - Introduction to Cyber Operations & Policy

Core Requirement: 6 credit hours

Select two of the following courses:

Earn at least 6 credits from the following:

- ISS3652 - Cybersecurity and Globalization
- ISS3613 - Issues in Global Cybersecurity Policy
- ISS4669 - Global Cybersecurity Strategies
- ISS4614 - International Cybersecurity Law and Ethics
- ISS4651 - Topics in Global Cybersecurity Policy
- IDC3604 - Cyber Threat Intelligence I
- IDC3605 - Cyber Threat Intelligence II

Electives: 9 credits

Select three of the following courses:

Fulfill ANY of the following requirements:

Business, Finance and Management

Complete ANY of the following Courses:

- FIN4486 - Financial Risk Management-Financial Engineering
- FIN4502 - Securities Analysis
- FIN4744 - Financial Crime
- MAN4064 - Crisis Management
- MAN4613 - International Risk Assessment

OR

Computer Science and Information Security

Complete ANY of the following Courses:

- CGS3095 - Technology in the Global Arena

- CIS4365 - Enterprise Cybersecurity Policies and Practices
- CNT4165 - Network Protocols for Internet of Things
- CNT4182 - Mobile and IoT Cybersecurity Policies and Practices
- CNT4185 - Internet of Things Privacy
- CNT4188 - Internet of Things Forensics
- CNT4403 - Computing and Network Security
- CNT4406 - Network Security and Cryptography (Inactive)
- CNT4504 - Advanced Network Management
- CNT4603 - Windows System Administration
- CNT4713 - Net-centric Computing
- EEL4802 - Introduction to Digital Forensics Engineering
- EEL4804 - Introduction Malware Reverse Engineering
- EEL4806 - Ethical Hacking and Countermeasures

OR

Criminal Justice

Complete ANY of the following Courses:

- CCJ3934 - Contemporary Issues in Criminal Justice
- CCJ4497 - Senior Capstone in Criminal Justice
- CCJ4641 - Organized Crime
- CJE4694 - Cyber Crime
- DSC4012 - Terrorism and Homeland Security

OR

Forensics

Complete ANY of the following Courses:

- CHS2500 - Survey of Forensic Science
- CHS3511C - Forensic Evidence

OR

History

Complete ANY of the following Courses:

- AMH4375 - Technology and American Society
- WOH4223 - History of the Global Economy

OR

Interdisciplinary Social Sciences

Complete ANY of the following Courses:

- ISS3130 - Fundamentals of National Security
- ISS3214 - Fundamentals of Globalization

- ISS3222 - Special Topics in Foreign Policy
- ISS4385 - Effective Governmental Communication
- ISS4930 - Topics in Globalization
- ISS3940 - Interdisciplinary Social Sciences - Public Policy Internship

OR

Politics and International Relations

Complete ANY of the following Courses:

- INR3061 - Conflict, Security and Peace Studies in INR
- INR3081 - Contemporary International Problems
- INR3102 - American Foreign Policy
- INR3133 - Intelligence and National Security
- INR3134 - Writing for Intelligence and National Security
- INR3303 - Foreign Policymaking
- INR4335 - Strategic Studies and National Security
- POS4154 - Topics in Urban Politics and Policy
- POS3703 - Methods of Political Analysis
- PUP4004 - Public Policy: U.S. (Inactive)

OR

Public Policy and Administration

Complete ANY of the following Courses:

- PAD3003 - Introduction to Public Policy and Administration
- PAD3034 - Policy Development and Implementation
- PAD3150 - Digital Transformation and Organizational Innovations (Inactive)
- PAD3803 - Government and Administration of Metropolitan Areas

GBLSOC:MA - Master of Arts in Global and Sociocultural Studies

Overview

Degree Offered
MA - Master of Arts

Program Title
Global and Sociocultural Studies

The Master of Arts (MA) in Global and Sociocultural Studies offers a unique opportunity to advance one's research skills and theoretical training in the disciplinary approaches of anthropology, geography, and sociology. The program provides training opportunities in applied methods for social research widely used in public and private sectors, including Geographic Information Systems (GIS) analysis, survey research, and a wide range of quantitative and qualitative research skills. Students gain a strong grounding in social science theories that are the foundations of all three of our disciplines. Additionally, students can take elective classes in our focal themes, Identities and Inequalities, Migration and Diasporas, and Nature-Society.

For more information, visit the Steven J. Green School of International and Public Affairs website.

Admissions Requirements

Admissions Requirements for the Master of Arts (MA) in Global and Sociocultural Studies

(1) Application form

--Admissions Office: https://fiuonline.fiu.edu/admissions/

(2) Please send to the University's Admission Office:

--Official transcripts from previous undergraduate and graduate programs. The minimum requirements are a cumulative grade point average of 3.2 in undergraduate courses and a cumulative grade point average of 3.5 in any prior graduate courses.

--Applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. Please refer to the Admissions English Proficiency criteria at https://admissions.fiu.edu/international/graduate-school/english-language-proficiency/index.html.

(3) Additionally, please submit through the University's Admissions portal.

--Personal Statement (maximum of two single-spaced pages): describing your background, career goals and why you are interested in pursuing a graduate degree with GSS

--One or more writing samples: course papers, thesis chapters, or other examples of writing and analytical abilities.

--Unofficial (such as photocopied) copies of the academic transcripts, and TOEFL or IELTS scores, if applicable.

(4) Two letters of reference that comment on your potential for success in graduate studies and beyond.

(5) Application Deadline: Students are admitted to begin the program in the fall semester only. The application deadline is June 1.

Transfer of Credits

Credits may be transferred in accordance with the FIU Graduate Policies and Procedures Manual (see https://policies.fiu.edu/policy/128). While a student may transfer credits into the program, the substitution of transferred credits for specific core and substantive area requirements is not generally allowed. A student seeking to transfer credits must submit a written petition to the Graduate Program Director detailing the courses and hours of credit s/he is seeking to transfer. In addition, students requesting substitution of transferred credits for program requirements must include supporting documentation as part of the petition. The screening and initial decision regarding transferring of credit and substitution will be made by the Graduate Program Director and the Graduate Program Committee. Final approval will be made by the University Graduate School.

Program Requirements

Program Credit Hours: 36

Type

Completion Requirement

Common Core Requirements: 15 credit hours

Complete ALL of the following Courses:

- ISS6346 - Theory and Inquiry
- ISS6305 - Research Methods and Design
- ISS6306 - Writing Research Proposals
- ANG6083 - Theory in Anthropology
  OR GEO6118 - Theory in Geography
  OR SYA6018 - Sociocultural Theories A
- ANG6497 - Qualitative Research Methods
  OR SYA6356 - GIS and Social Research

Students have the option to take another approved methods course in lieu of ANG6497 Qual Research Meth or SYA6356 GIS and Soc Research.

Electives: 21 credit hours

Seven elective courses; includes a maximum of one directed studies course (3 credits) and two courses (6 credits) taken in other departments, as approved by the graduate director.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Track in Applied Interdisciplinary Social Science Research

Type

Completion Requirement

Required Courses: 12 credit hours

Students completing the MA degree may choose to complete this track or the traditional MA in Global and Sociocultural Studies degree. The track includes the Common Core Requirements plus additional credits in the interdisciplinary social science research field of study.

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- ISS6346 - Theory and Inquiry
- ISS6305 - Research Methods and Design
- ISS6317 - Social Research Quantitative Methods I

AND

Required Course

ISS 6XXX Directed Research Project in Applied Interdisciplinary Social Science (3 credits)

Theory Course Options: 3 credit hours

Complete ANY of the following Courses:

- ANG6083 - Theory in Anthropology
- GEO6118 - Theory in Geography
- SYA6018 - Sociocultural Theories A

Methods/Research Design Course Options: 9 credit hours

Students must select at least three of the following courses, or other methods/research design courses inside or outside GSS, if approved by the Graduate Program Director.

Complete at least 3 of the following courses:

- ANG6480 - Ethnohistorical Research Methods
- ANG6497 - Qualitative Research Methods
- GIS5935 - Topics in Geographic Information Systems
- ISS6306 - Writing Research Proposals
- SYA5357 - Graduate GIS and Latin American Societies (Inactive)
- SYA6317 - Social Research Quantitative Methods II
- SYA6356 - GIS and Social Research
- SYA6452 - Advanced Topics in GIS and Social Research

Electives: 12 credit hours

Four electives courses; includes a maximum of one directed studies course (3 credits) or 3 additional hours of ISS 6XXX Directed Research Project in Applied Interdisciplinary Social Science.

GBLSOC:PHD - Doctor of Philosophy in Global and Sociocultural Studies

Overview

Degree Offered
PHD - Doctor of Philosophy

Program Title
Global and Sociocultural Studies

The PhD in Global and Sociocultural Studies offers a unique opportunity to integrate the disciplinary approaches of anthropology, geography, and sociology with cross-disciplinary theorizing and research. The program features three overlapping themes: Identities and Inequalities, Migration and Diasporas, and Nature-Society. Utilizing comparative, transnational, diasporic, and global perspectives, students pursue research utilizing a variety of theoretical approaches and employing qualitative, quantitative, and applied research methods. The program resonates with FIU's location in the greater metropolitan area of Miami—a dynamic, hemispheric crossroads of sociocultural, political, economic and environmental forces, bridging the United States with the Caribbean and Latin America, the Atlantic region, and the world at large. Students earning this degree will be well prepared for pursuing careers in higher education, policy-oriented organizations in the public and private sectors (especially those emphasizing health and environmental concerns), government agencies, and international organizations.

For more information, visit the Steven J. Green School of International and Public Affairs website.

Admissions Requirements

Admissions Information for the PhD in Global and Sociocultural Studies (GSS)

(1) Application forms and fees:

(a) Admissions Office: https://fiuonline.fiu.edu/admissions/

(2) Please send to the University's Admission Office:

(a) Official transcripts from previous undergraduate and graduate programs. The minimum requirements are a cumulative grade point average of 3.2 in undergraduate courses and a cumulative grade point average of 3.5 in any prior graduate courses.

(b) Applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. Please refer to the Admissions English Proficiency criteria at https://admissions.fiu.edu/international/graduate-school/english-language-proficiency/index.html.

(3) Additionally, please submit through the University's Admissions portal.

(a) Research Statement (maximum of three single-spaced pages): describing your research interests and a potential research project; prior research/academic experience; and GSS faculty members with whom you would like to work.

(b) Personal Statement (maximum of two single-spaced pages): describing your background, career goals and why you are interested in pursuing a graduate degree with GSS

(c) One or more writing samples: course papers, thesis chapters, or other examples of writing and analytical abilities.

(d) Unofficial (such as photocopied) copies of the academic transcripts, TOEFL or IELTS scores, if applicable.

(4) Three letters of reference that comment on your potential for success in graduate studies and beyond.

Application Deadline: Students are admitted to begin the program in the fall semester only. The application deadline is February 1; January 1 to be considered for funding.

Applicants are reviewed only in the spring term for fall admission. Admissions to the PhD program are competitive. Meeting minimum requirements does not guarantee admission. See the Admissions Process and Requirements for the GSS Graduate Program for full details. Students who originally applied to the Master of Arts (MA) program must apply separately to be admitted into the PhD program. A positive evaluation of the student's performance at the MA level (hereafter called the MA review) will be the most important of the factors considered in evaluating applications to the PhD program. All students, including those who originally applied directly to the PhD program, must undergo a successful MA review upon completion of the master's program requirements in order to continue toward the PhD. The Graduate Committee conducts these reviews. The purpose of the MA review is to determine the ability of the student to do PhD-level work with the department's faculty. Among the information considered during the review are students' performance and grades in courses and faculty recommendations.

Students who have obtained a master's degree at another institution may be admitted directly into the PhD program, but first must undergo the equivalent of the MA review.

Financial Aid Information for Applicants to the PhD in Global and Sociocultural Studies

Applicants to FIU may qualify for one of several different opportunities to finance their studies:

(1) FIU's Presidential Fellowship for outstanding applicants, nominated by the Graduate Program Committee.

(2) Departmental Teaching Assistantships (TAs). Teaching assistantships are allocated on a competitive basis and include a 12-month stipend, tuition waiver, and medical insurance. To be considered for an assistantship, the applicant must make such a request in the online application. The awarding of teaching assistantships will be made by the Graduate Program Committee. Students receiving an assistantship are required to perform approximately 20 hours of teaching related duties per week during the 12-month appointment. TA positions are renewable on a competitive basis by annual evaluation.

(3) There are innumerable additional sources of funding for graduate students best researched by applicants. A good start is the University Graduate School website.

(4) Graduate students are routinely employed as research assistants (RA) on faculty grants. Students in their second or later years are particularly encouraged to seek RA positions to enhance their research skills and career options. The hiring of research assistants is at the discretion of the project's principal investigators. While these arrangements vary, they usually cover the student's tuition and provide a stipend.

Transfer of Credits

Credits may be transferred in accordance with the FIU Graduate Policies and Procedures Manual (see https://policies.fiu.edu/policy/128). While a student may transfer credits into the program, the substitution of transferred credits for specific core and substantive area requirements is not generally allowed. A student seeking to transfer credits must submit a written petition to the Graduate Program Director detailing the courses and hours of credit s/he is seeking to transfer. In addition, students requesting substitution of transferred credits for program requirements must include supporting documentation as part of the petition. The screening and initial decision regarding transferring of credit and substitution will be made by the Graduate Program Director and the Graduate Program Committee. Final approval will be made by the University Graduate School.

Admissions Requirements for the Master of Arts in African and African Diaspora Studies and PhD in Global and Sociocultural Studies Joint Degree Pathway

Applicants must meet the following minimum requirements to be considered for admission.

(1) Baccalaureate degree from an accredited institution for higher education (or equivalent);

(2) Minimum cumulative grade point average of 3.2 on a 4.0 scale (or equivalent) for the last two years of undergraduate work and/or a GPA of 3.5 on any previous graduate work;

(3) Official Graduate Record Exam (GRE) scores;

(4) International graduate student applicants whose native language is not English and who have not obtained a degree from an English-speaking academic institution are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the internet-based TOEFL (equivalent to 550 on the paper-based version) or a 6.5 overall on the IELTS is required.

Admissions Procedures

To be accepted into this program, students must submit an application to the PhD in Global and Sociocultural Studies with a sub-plan for a MA in African & African Diaspora Studies. This designation will appear in the menu of programs in the graduate application. To be accepted into this program, students must submit an application by January 1 in the year in which they wish to begin their studies.

The following documents must be submitted and will be reviewed by the Admissions Committees from both units. The following must be submitted as part of the online application:

(1) Online application and application fee;

(2) Official transcripts for all undergraduate and graduate coursework;

(3) Official GRE scores;

(4) Official TOEFL scores, if applicable;

(5) Statement of purpose explaining his/her interest for enrolling in both the MA in African and African Diaspora Studies program and PhD in GSS program. The statement of purpose must clearly address the applicant's academic and professional objectives for enrolling in both fields of inquiry. The statement of purpose must also indicate the intended major (anthropology, geography, or sociology) the applicant plans to select while engaged in the PhD in GSS program;

(6) Three letters of recommendation from university professors who are able to comment on the various aspects of the student's academic ability;

(7) A curriculum vitae; and

(8) Writing samples and other relevant professional work that may support their applications.

Admissions Requirements for the Master in Arts in Asian Studies and PhD in Global and Sociocultural Studies Joint Degree Pathway

Applicants must meet the following minimum requirements of Global and Sociocultural Studies to be considered for admission:

(1) Baccalaureate degree from an accredited institution for higher education (or equivalent);

(2) Minimum cumulative grade point average of 3.5 on a 4.0 scale (or equivalent) for the last two years of undergraduate work and/or a GPA of 3.5 on any previous graduate work;

(3) Official Graduate Record Exam (GRE) scores;

(4) International graduate student applicants whose native language is not English and who have not obtained a degree from an English-speaking academic institution are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the internet-based TOEFL (equivalent to 550 on the paper-based version) or a 6.5 overall on the IELTS is required.

Admissions Procedures

To be accepted into this joint degree pathway, students must submit an application to the PhD in Global and Sociocultural Studies (GSS) with a sub-plan for a MA in Asian Studies. This designation will appear in the menu of programs in the graduate application. To be accepted into this pathway, students must submit an application by February 1st in the year in which they wish to begin their studies.

The following documents must be submitted and will be reviewed by the Admissions Committees from both units.

The following must be submitted as part of the online application:

(1) Online application and application fee;

(2) Official transcripts for all undergraduate and graduate coursework;

(3) Official GRE scores;

(4) Official TOEFL scores, if applicable;

(5) Statement of purpose explaining his/her interest for enrolling in both the MA in Asian Studies program and PhD in GSS program. The statement of purpose must clearly address the applicant's academic and professional objectives for enrolling in both fields of inquiry. The statement of purpose must also indicate the intended major (international political economy or Asian cultural studies for the MA in Asian Studies; anthropology, geography, or sociology for the PhD in GSS) the applicant plans to select while engaged in the PhD in GSS program;

(6) Three letters of recommendation from university professors who are able to comment on the various aspects of the student's academic ability;

(7) A curriculum vitae or resume; and

(8) Writing samples and other relevant professional work that may support their applications.

Admissions Requirements for the Master of Arts in Latin American and Caribbean Studies and PhD in Global and Sociocultural Studies Joint Degree Pathway

Applicants must meet the following minimum requirements to be considered for admission.

(1) Baccalaureate degree from an accredited institution for higher education (or equivalent);

(2) Minimum cumulative grade point average of 3.2 on a 4.0 scale (or equivalent) for the last two years of undergraduate work and/or a GPA of 3.5 on any previous graduate work;

(3) Official Graduate Record Exam (GRE) scores;

(4) International graduate student applicants whose native language is not English and who have not obtained a degree from an English-speaking academic institution are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the internet-based TOEFL (equivalent to 550 on the paper-based version) or a 6.5 overall on the IELTS is required.

Admissions Procedures

To be accepted into this joint degre pathway, students must submit an application to the PhD in Global and Sociocultural Studies with a sub-plan for a MA in Latin American and Caribbean Studies. This designation will appear in the menu of programs in the graduate application. To be accepted into this pathway, students must submit an application by March 1 in the year in which they wish to begin their studies.

The following documents must be submitted and will be reviewed by the Admissions Committees from both units.

The following must be submitted as part of the on-line application:

(1) Online application and application fee;

(2) Official transcripts for all undergraduate and graduate coursework;

(3) Official GRE scores;

(4) Official TOEFL scores, if applicable.

(5) Statement of purpose explaining his/her interest for enrolling in both the MA in Latin American and Caribbean Studies program and PhD in GSS program. The statement of purpose must clearly address the applicant's academic and professional objectives for enrolling in both fields of inquiry. The statement of purpose must also indicate the intended major (anthropology, geography, or sociology) the applicant plans to select while engaged in the PhD in GSS program;

(6) Three letters of recommendation from university professors who are able to comment on the various aspects of the student's academic ability;

(7) A curriculum vitae; and

(8) Writing samples and other relevant professional work that may support their applications.

Admissions Requirements for the Combined Master of Arts in Religious Studies and PhD in Global and Sociocultural Studies Degree Pathway

Applicants must meet the following minimum requirements to be considered for admission:

(1) Baccalaureate degree from an accredited institution for higher education (or equivalent)

(2) Minimum cumulative grade point average of 3.2 on a 4.0 scale (or equivalent) for the last two years of undergraduate work and/or a GPA of 3.5 on any previous graduate work;

(3) Official Graduate Record Exam (GRE) scores,

(4) International graduate student applicants whose native language is not English and who have not obtained a degree from an English-speaking academic institution are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the internet based TOEFL (equivalent to 550 on the paper-based version) or a 6.5 overall on the IELTS is required.

Admissions Procedures

To be accepted into this joint degree pathway, students must submit an application to the PhD in Global and Sociocultural Studies with a sub-plan for a MA in Religious Studies. This designation will appear in the menu of programs in the graduate application. To be accepted into this pathway, students must submit an application by March 1 in the year in which they wish to begin their studies.

The following documents must be submitted and will be reviewed by the Admissions Committees from both units.

The following must be submitted as part of the online application:

(1) Online application and application fee;

(2) Official transcripts for all undergraduate and graduate coursework;

(3) Official GRE scores;

(4) Official TOEFL scores, if applicable;

(5) Statement of purpose explaining their interest for enrolling in both the MA Religious Studies program in the Department of Religious Studies and the PhD in GSS program. The statement of purpose must clearly address the applicant's academic and professional objectives for enrolling in both fields of inquiry. The statement of purpose must also indicate the intended major (anthropology, geography, or sociology) the applicant plans to select while engaged in the PhD in GSS program;

(6) Three letters of recommendation from university professors who are able to comment on the various aspects of the student's academic ability;

(7) A curriculum vitae; and

(8) Writing samples and other relevant professional work that may support their applications

Program Requirements

General Program Information

In addition to the common core curriculum, each PhD program student declares a major in Geography, Sociocultural Anthropology, or Sociology. Each major consists of the corresponding disciplinary theory course; one additional theory course from the other departmental disciplines; one approved methods course; a minimum of two discipline-based seminars; and a dissertation supervised by a faculty member from the department. A student may declare only one major. As students progress through the program, they increasingly pursue their own research interests by taking elective courses across the disciplines and by working with their committee to prepare a doctoral dissertation. A student takes a minimum of 30 hours of electives.

Academic Progression Requirements

A grade of "B" or higher must be earned in all courses and a cumulative average of 3.0 or higher must be maintained. Students may apply to transfer a maximum of 6 graduate credit hours earned in another program or institution. An exception is made for courses contained within an earned master's or doctoral degree.

In the course of their studies, the student will have met the requirements for, and be awarded, a MA in Global and Sociocultural Studies.

A student should complete the PhD General Exam and defend their dissertation proposal by the end of their third year of study. Then the student prepares a dissertation under the guidance of a faculty committee and defends the dissertation.

Core Courses: 12 credits

Type
Completion Requirement

Required Core Courses

Complete ALL of the following Courses:

- ISS6346 - Theory and Inquiry
- ISS6305 - Research Methods and Design
- ISS6306 - Writing Research Proposals
- ISS6317 - Social Research Quantitative Methods I

General Electives: 30 credits

Students will take 30 credits beyond the common core curriculum and the majors' requirements. This includes a maximum of one directed studies course (3 credits). Students are allowed a maximum of two courses (6 credits) taken in other departments. In some circumstances, such as the case of a student pursuing a graduate certificate, the Graduate Director may approve additional coursework outside of the department.

PhD General Examination

After successfully completing the common core requirements, the major's course requirements, and electives, a student prepares for the PhD General Exam. In preparation for the exam, a student forms a dissertation committee according to the regulations published on the University Graduate School web page (**http://gradschool.fiu.edu**). The PhD General Exam addresses the student's anticipated dissertation topic, and is conducted according to the University Graduate Policies and Procedures Manual and the Department's PhD General Exam guidelines.

Dissertation Proposal and Defense/Candidacy Exam

Concomitant with preparation for the PhD General Exam, a student works under the guidance of the dissertation committee to prepare a dissertation proposal and defend it orally before the committee. The chair of the dissertation committee must hold Dissertation Advisor Status from the University Graduate School. The proposal defense serves as the doctoral candidacy exam for the PhD in Global and Sociocultural Studies program. Upon passing the proposal defense, a student is admitted to candidacy status.

The Dissertation and Dissertation Defense

After successfully defending a dissertation proposal, a student conducts the proposed research and completes a dissertation under the guidance of a dissertation committee. Only after successfully defending the dissertation proposal may a student register for dissertation credits (ANG 7980, GEO 7980, or SYA 7980). The PhD program requires a student to be continuously enrolled in a minimum of 3 credits of Doctoral Dissertation each semester from the time of advancement to candidacy until completion of the dissertation, including summers. Upon completion of the dissertation manuscript and authorization by the committee, a student defends the dissertation before the committee and the university community. The University Graduate School's regulations governing the dissertation are described at **http://gradschool.fiu.edu**.

Major Requirements

Major in Geography

Type
Completion Requirement

Major in Geography Required Courses Part I

Complete ALL of the following Courses:

- GEO6118 - Theory in Geography

Major in Geography Required Courses Part II

Complete ANY of the following Courses:

- SYA6018 - Sociocultural Theories A
- ANG6083 - Theory in Anthropology

Major in Geography Required Courses Part III

Students must select one additional methods course taught within the department, for which GIS may be used.

Complete ANY of the following Courses:

- ANG6480 - Ethnohistorical Research Methods
- ANG6497 - Qualitative Research Methods
- GIS5038 - Remote Sensing (Inactive)
- GIS5935 - Topics in Geographic Information Systems
- SYA5357 - Graduate GIS and Latin American Societies (Inactive)
- SYA6317 - Social Research Quantitative Methods II
- SYA6356 - GIS and Social Research

Major in Geography Electives: 6 credit hours

Complete at least 2 of the following courses:

- GEA6409 - Landscapes of Violence and Healing in the Americas
- GEO5415 - Topics in Social Geography
- GEO5557 - Globalization
- GEO6473 - Space, Place and Identity
- GEO6478 - Critical Geopolitics
- GEO6603 - Cities and Regions in Global Perspective
- GEO5906 - Directed Individual Studies
- GIS5038 - Remote Sensing (Inactive)
- GIS5620 - Surveillance, Intelligence, and International Relations
- GIS5935 - Topics in Geographic Information Systems

Major in Geography Exam Prep: 6 credit maximum

Complete ALL of the following Courses:

- GEO7964 - Preparation: Preliminary Doctoral Exam

Maximum 6 credits

Major in Geography Dissertation: 15 credit minimum

Earn at least 15 credits from the following:

- GEO7980 - Ph.D. Dissertation

Major in Sociocultural Anthropology

Type

Completion Requirement

Major in Sociocultural Anthropology Required Courses Part I

Complete ALL of the following Courses:

- ANG6083 - Theory in Anthropology

Major in Sociocultural Anthropology Required Courses Part II

Complete ANY of the following Courses:

- SYA6018 - Sociocultural Theories A
- GEO6118 - Theory in Geography

Major in Sociocultural Anthropology Required Courses Part III

Students must select one additional methods course taught within the department, for which GIS may be used.

Complete ANY of the following Courses:

- ANG6480 - Ethnohistorical Research Methods
- ANG6497 - Qualitative Research Methods
- GIS5038 - Remote Sensing (Inactive)
- GIS5935 - Topics in Geographic Information Systems
- SYA5357 - Graduate GIS and Latin American Societies (Inactive)
- SYA6317 - Social Research Quantitative Methods II
- SYA6356 - GIS and Social Research

Major in Sociocultural Anthropology Electives: 6 credits

Complete at least 2 of the following courses:

- ANG5267 - Environmental Anthropology
- ANG5396 - Representations of Africa and Africans in Films (Inactive)
- ANG5397 - Advanced African Diaspora Cultures and Performativity (Inactive)
- ANG6303 - Comparative Feminisms (Inactive)
- ANG6339 - Seminar on Latin America
- ANG6472 - Anthropology of Globalization
- ANG6497 - Qualitative Research Methods
- ANT6319 - The African Diaspora: Anthropological Perspectives
- ANT6469 - Graduate Medical Anthropology
- ANT7491 - Contemporary Theory in Social Anthropology

Major in Sociocultural Anthropology Exam Prep: 6 credits maximum

Complete ALL of the following Courses:

- ANG7964 - Preparation: Preliminary Doctoral Exam

Maximum 6 credits

Major in Sociocultural Anthropology Dissertation: 15 credits minimum

Earn at least 15 credits from the following:

- ANG7980 - Ph.D. Dissertation

Major in Sociology

Type

Completion Requirement

Major in Sociology Required Courses Part I

Complete ALL of the following Courses:

- SYA6018 - Sociocultural Theories A

Major in Sociology Required Courses Part II

Complete ANY of the following Courses:

- ANG6083 - Theory in Anthropology
- GEO6118 - Theory in Geography

Major in Sociology Required Courses Part III

Students must select one additional methods course taught within the department, for which GIS may be used.

Complete ANY of the following Courses:

- ANG6480 - Ethnohistorical Research Methods
- ANG6497 - Qualitative Research Methods
- GIS5038 - Remote Sensing (Inactive)

- SYA5357 - Graduate GIS and Latin American Societies (Inactive)
- SYA6317 - Social Research Quantitative Methods II
- SYA6356 - GIS and Social Research

Major in Sociology Electives: 6 credits

Complete at least 2 of the following courses:

- SYA6941 - Internship in Applied Sociology
- SYA5357 - Graduate GIS and Latin American Societies (Inactive)
- SYA7941 - Field Research
- SYG6932 - Special Topics in Disaster Studies (Inactive)
- SYD5045 - Population and Society
- SYD5708 - Advanced Race, Gender, Sexuality: Entanglements Across Time and Space
- SYD6236 - International Migration and Refugees
- SYD6418 - Graduate Seminar in Urban Sociology
- SYD6625 - South Florida Socio-cultural Systems (Inactive)
- SYD6626 - Cuba Seminar
- SYD6796 - Sex, Race, and Power in Colonial Times (Inactive)

- SYD6816 - Advanced Sociological Theories of Gender
- SYO6306 - Political Sociology
- SYO6536 - Comparative and Global Inequality

Major in Sociology Exam Prep: 6 credits maximum

Complete ALL of the following Courses:

- SYA7967 - Preparation: Preliminary Doctoral Exam

Maximum 6 credits

Major in Sociology Dissertation: 15 credits minimum

Earn at least 15 credits from the following:

- SYA7980 - Ph.D. Dissertation

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Master of Arts in African and African Diaspora Studies and PhD in Global and Sociocultural Studies Joint Degree Pathway

The combined MA in African and African Diaspora Studies/PhD in Global and Sociocultural Studies joint degree pathway allows qualified graduate students to develop an expertise in African and African Diaspora Studies by earning an MA in African and African Diaspora Studies while progressing toward a PhD in one of the three major areas in the Global and Sociocultural Studies Department: geography, sociology, or anthropology.

Degree Requirements for MA in African & African Diaspora Studies

This 30-credit, one year, three-semester program occurring over the Fall, Spring, and Summer includes 9 credits of core African and African Diaspora Studies courses, which includes 3 credits for the directed research paper exit option, 9 credits of core Global and Sociocultural Studies courses, and 12 credits of electives. There is also a foreign language requirement.

MA in African and African Diaspora Studies Core: 9 credits

--AFA5005 AAD Studies Theory African & African Diaspora Studies Theory: 3 credits
--AFA5855 Research Methods AADS Research Methods in African and African Diaspora Studies: 3 credits
--AFA6920 AADS Graduate Colloq African & African Diaspora Studies Graduate Colloquium (3 credits: 1 credit over three semesters)

Combined MA in African and African Diaspora Studies/PhD in Global and Sociocultural Studies Core

--ISS6305 Res Meth and Design Research Methods and Design: 3 credits

MA in African and African Diaspora Studies Elective: 15 credits

Nine credits of elective courses with an African and African Diaspora Studies focus must be from the Global and Sociocultural Studies Department. Six credits may be from outside of the department but within the Green School and/or the College of Arts, Sciences, and Education. Students wishing to take courses outside of the Green School and the College of Arts, Sciences, and Education must seek prior approval. Note: Students are advised to take at least 9 of these elective credits in their chosen major discipline for GSS (anthropology, geography, or sociology).

MA in African and African Diaspora Studies Research Proposal option

To graduate from the MA in African and African Diaspora Studies, students enrolled in this combined MA/PhD joint degree pathway must elect to complete either a research proposal or research paper for their exit option. Those who elect to write a research proposal must take AFA 6911 Research Paper/Proposal Writing in African and African Diaspora Studies.

MA in African and African Diaspora Studies Language Requirement

Students must demonstrate proficiency in a language other than English according to the nature of their thesis or research paper/proposal and professional interests.

Application for Graduation from MA in African and African Diaspora Studies

Students should apply for graduation for the MA in African and African Diaspora Studies during the summer term if they are on track for completing all requirements for the degree — including the exit option. Ordinarily, the MA will be conferred before the student advances to candidacy for the PhD in Global and Sociocultural Studies.

Matriculation to PhD in Global and Sociocultural Studies

All students must undergo a successful MA review upon completion of the MA in African and African Diaspora Studies program requirements in order to continue toward the PhD in GSS. The GSS Graduate Committee, along with an appointee from African and African Diaspora Studies, conducts these reviews. The purpose of the MA review is to determine the ability of the student to do PhD-level work with the department's faculty. Among the information considered during the review are students' performances and grades in courses, and faculty recommendations.

Degree Requirements for PhD in Global and Sociocultural Studies

The PhD in Global and Sociocultural Studies requires a minimum of 75 credits beyond the baccalaureate including a dissertation based on original research. 30 credits of the MA in African and African Diaspora Studeis will count toward the 75-credit minimum. Thus, a minimum of 45 credits must be earned beyond the MA.

Major Courses: 33 credits

All doctoral students will choose a major in Anthropology, Geography, or Sociology. The following distribution of coursework is required.

(a) Major theory: 3 credits

(b) Major methods: 3 credits

(c) Major course electives: 6 credits minimum

(d) Exam and dissertation credits

--Doctoral Exam Preparation: 6 credits maximum

--Doctoral Dissertation: 15 credits minimum

General Electives: 12 credits

--GSS and non-GSS department electives

PhD General Examination

After successfully completing the common core requirements, the major's course requirements, and electives, a student prepares for the PhD General Exam by enrolling in a maximum of six credits of exam preparation for their major. In preparation for the exam, a student forms a dissertation committee according to the regulations published on the University Graduate School web page (**http://gradschool.fiu.edu**). The PhD General Exam addresses the student's anticipated dissertation topic, and is conducted according to the University Graduate School Policies and Procedures Manual and the Department's PhD General Exam guidelines.

The Dissertation Proposal and Defense/Candidacy Exam

After passing the PhD General Exam, a student works under the guidance of the dissertation committee to prepare a dissertation proposal and defend it orally before the committee. The chair of the dissertation committee must hold Dissertation Advisor Status from the University Graduate School. The proposal defense serves as the doctoral candidacy exam for the PhDprogram in Global and Sociocultural Studies. Upon passing the proposal defense, a student is admitted to candidacy status.

The Dissertation and Dissertation Defense

After successfully defending a dissertation proposal, a student conducts the proposed research and completes a dissertation under the guidance of a dissertation committee. Only after successfully defending the dissertation proposal may a student register for dissertation hours (ANG 7980, GEO 7980, or SYA 7980). The PhD program requires a student to be continuously enrolled in a minimum of 3 credits of Doctoral Dissertation each semester from the time of advancement to candidacy until completion of the dissertation, including summers. Upon completion of the dissertation manuscript and authorization by the committee, a student defends the dissertation before the committee and the niversity community. The University Graduate School's regulations governing the dissertation are described at **http://gradschool.fiu.edu**.

Other Curricular Offering: Master of Arts in Asian Studies and PhD in Global and Sociocultural Studies Joint Degree Pathway

The combined MA in Asian Studies/PhD in Global and Sociocultural Studies joint degree pathway allows qualified graduate students to pursue both degrees at the same time. Students can develop an expertise in Asian Studies while progressing towards a PhD in one of the three majors in the PhD in Global and Sociocultural Studies: geography, sociology, or anthropology.

Degree Requirements for MA in Asian Studies

(30 credits Thesis Option/30 credits Non-Thesis Option) Up to 30 credits earned for the MA in Asian Studies will count towards the 75 credits required for the PhD in Global and Sociocultural Studies. Exceptions can be made based on the needs of the doctoral program

Core: 6 credits

--ASN5050 Methods in Asian Studies Methods in Asian Studies
--ASN5213 Asian Studies Colloquium Asian Studies Colloquium
--ASN5315 Topics in Modern Asia Topics in Modern Asia
--ASN5910 Ind Research Independent Research in Asian Studies
--ASN6930 Semin Asian Studies Seminar in Asian Studies
--ASN6940 Internship Internship in Asian Studies

Courses required for Global and Sociocultural Studies Track: 12 credits

--ISS6305 Res Meth and Design Research Design and Methods
--ISS6346 Theory and Inquiry Theory and Inquiry
--ISS6317 Soc Res Quant Methods I Social Research Quantitative Methods
--ISS6306 Proposal Writing Writing Research Proposals

Asian Studies Courses: 6 credits

Students must take 6 credits of Asia-specific courses pertaining to main concentration (from courses listed below):

--SYD6418 Grad Seminar in Urban Soc Graduate Seminar in Urban Sociology
--SYD6901 Special Topics Japanese Society in Global Perspective
--SYD4654 Contemp. Chinese Society State and Society in China

Language Requirement

Depending on the research topic students may be required to demonstrate language competency by the Asian Studies Graduate Committee.

MA in Asian Studies Exit Options, Thesis or Non-Thesis Master's Essay

Thesis Exit Option (6 credits):

--ASN6972 Master's Thesis Thesis

Non-Thesis Master's Essay Exit Option (6 credits):

--ASN6912 Master's Essay in AS Master's Essay (3 credits)
--One additional Asia-specific course (3 credits)

Master's Essay can be taken multiple times. Some students may be encouraged to develop their research projects by taking this course.

Application for Graduation from MA in Asian Studies

Students should apply for graduation for the MA in Asian Studies as soon as they have completed all requirements for the degree – including the exit option.

Matriculation to PhD in Global and Sociocultural Studies

All students must undergo a successful MA review upon completion of the MA in Asian Studies program requirements in order to continue toward the PhD in Global and Sociocultural Studies. The Global and Sociocultural Studies Graduate Committee, along with an appointee from Asian Studies, conducts these reviews. The purpose of the MA review is to determine the ability of the student to do PhD-level work with the department's faculty. Among the information considered during the review are student's performances and grades in courses, and faculty recommendations.

Degree Requirements for PhD in Global and Sociocultural Studies

The PhD in Global and Sociocultural Studies requires a minimum of 75 credits beyond the baccalaureate including a dissertation based on original research, up to 30 credits of the MA in Asian Studies will count toward the 75-credit minimum. Thus, a minimum of 42 credits must be earned beyond the MA.

Major Courses: 36 credits

All doctoral students will choose a major in Anthropology, Geography, or Sociology. The following distribution of coursework is required:

-- Major theory methods: 3 credits
-- Major methods: 3 credits
-- Major course electives: 9 credits minimum
-- Doctoral Exam Preparation: 6 credits maximum
-- Doctoral Dissertation: 15 credits minimum

General Electives: 6 credits

--GSS and non-GSS Department electives

PhD General Examination

After successfully completing the common core requirements, the major's course requirements, and electives, a student prepares for the PhD General Exam by enrolling in a maximum of six credits of exam preparation for their major. In preparation for the exam, a student forms a dissertation committee according to the regulations published on the University Graduate School web page (**http://gradschool.fiu.edu**). The PhD General Exam addresses the student's anticipated dissertation topic, and is conducted according to the University Graduate School Policies and Procedures Manual and the Department's PhD General Exam guidelines.

The Dissertation Proposal and Defense/Candidacy Exam

After passing the PhD General Exam, a student works under the guidance of the dissertation committee to prepare a dissertation proposal and defend it orally before the committee. The chair of the dissertation committee must hold Dissertation Advisor Status from the University Graduate School. The proposal defense serves as the doctoral candidacy exam for the PhD in Global and Sociocultural Studies program. Upon passing the proposal defense, a student is admitted to candidacy status.

The Dissertation and Dissertation Defense

After successfully defending a dissertation proposal, a student conducts the proposed research and completes a dissertation under the guidance of a dissertation committee. Only after successfully defending the dissertation proposal may a student register for dissertation hours (ANG 7980, GEO 7980, or SYA 7980). The Ph.D. program requires a student to be continuously enrolled in a minimum of 3 credits of Doctoral Dissertation each semester from the time of advancement to candidacy until completion of the dissertation, including summers. Upon completion of the dissertation manuscript and authorization by the committee, a student defends the dissertation before the committee and the university community. The University Graduate School's regulations governing the dissertation are described at **http://gradschool.fiu.edu**.

Other Curricular Offering: Master of Arts in Latin American and Caribbean Studies and PhD in Global and Sociocultural Studies Joint Degree Pathway

The combined MA in Latin American and Caribbean Studies (LACS)/PhD in Global and Sociocultural Studies joint degree pathway allows qualified graduate students to pursue both degrees at the same time. Students can develop an expertise in Latin American and Caribbean Studies while progressing towards a PhD in one of the three majors in the Global and Sociocultural Studies: geography, sociology, or anthropology.

Degree Requirements for MA in Latin American and Caribbean Studies

The 30 credits earned for the MA in LACC will count towards the 75 credits required for the PhD in Global and Sociocultural Studies.

MA on LACS Core: 9 credits

--LAS6003 Survey Latin America Survey of Latin America
--LAS6934 Lac Research Sem Research Seminar
--ISS6305 Res Meth and Design Research Methods and Design OR ISS6317 Soc Res Quant Methods I Social Research Quantitative Methods I

Dept Courses or Area of Focus: 12 to 15 credits (These must include courses Required for GSS Pathway)

--ISS6346 Theory and Inquiry Theory and Inquiry
--ISS6305 Res Meth and Design Research Methods and Design OR ISS6317 Soc Res Quant Methods I Social Research Quantitative Methods I
--ISS6306 Proposal Writing Writing Research Proposals

Breadth Requirements: 3 credits

Students select three credits from the MA in LACS approved course list.

MA in LACS Research Proposal

To graduate from the MA in LACS program, students enrolled in this combined MA/PhD joint degree pathway must take the proposal writing course, ISS6306 Proposal Writing, during the semester prior to enrolling in the required exit options in the MA in LACS program.

MA in LACS Exit Options: 3 to 6 credits

Students select one of the following options:

--LAS6970 Thesis Thesis: 6 credits (Students complete a thesis paper supervised by three committee members. All members of the committee must have FIU Graduate Faculty status.)

or

--LAS6942 Lac Internship Internship in Latin American and Caribbean Studies: 3 credits (Supervised internship leading to a major research paper in Latin American and Caribbean Studies.)

or

--LAS6905 Lac Dir Rsch Directed Research in Latin American and Caribbean Studies: 3 credits (Students complete one directed research paper of about 35 -40 pages.)

MA in LACS Language Requirement

Students must demonstrate proficiency in a language other than English according to the nature of their thesis or research paper/proposal and professional interests.

Application for Graduation from MA in LACS Program

Students should apply for graduation for the MA in LACS degree as soon as they have completed all requirements for the degree – including the exit option. Ordinarily, the MA will be conferred before the student advances to candidacy for the PhD in Global and Sociocultural Studies.

Matriculation to PhD in Global and Sociocultural Studies

All students must undergo a successful MA review upon completion of the MA in LACS program requirements in order to continue toward the PhD in Global and Sociocultural Studies. The Global and Sociocultural Studies Graduate Committee, along with an appointee from LACC, conducts these reviews. The purpose of the MA review is to determine the ability of the student to do PhD-level work with the department's faculty. Among the information considered during the review are a student's overall performance, grades in courses, and faculty recommendations.

Degree Requirements for PhD in Global and Sociocultural Studies

The PhD in Global and Sociocultural Studies requires a minimum of 75 credits beyond the baccalaureate including a dissertation based on original research. 30 credits of the MA in LACS program will count toward the 75-credit minimum. Thus, a minimum of 45 credits must be earned beyond the MA.

Major Courses: 33 credits

All doctoral students will choose a major in Anthropology, Geography, or Sociology. The following distribution of coursework is required.

(a) Major theory: 3 credits

(b) Major methods: 3 credits

(c) Major course electives: 6 credits minimum

(d) Exam and dissertation credits

--Doctoral Exam Preparation: 6 credits maximum
--Doctoral Dissertation: 15 credits minimum

General Electives: 6 credits

GSS and non-GSS Department electives

PhD General Examination

After successfully completing the common core requirements, the major's course requirements, and electives, a student prepares for the PhD General Exam by enrolling in a maximum of six credits of exam preparation for their major. In preparation for the exam, a student forms a dissertation committee according to the regulations published on the University Graduate School web page (http://gradschool.fiu.edu). The PhD General Exam addresses the student's anticipated dissertation topic, and is conducted according to the University Graduate School Policies and Procedures Manual and the Department's PhD General Exam guidelines.

The Dissertation Proposal and Defense/Candidacy Exam

After passing the PhD General Exam, a student works under the guidance of the dissertation committee to prepare a dissertation proposal and defend it orally before the committee. The chair of the dissertation committee must hold Dissertation Advisor Status from the University Graduate School. The proposal defense serves as the doctoral candidacy exam for the PhD in Global and Sociocultural Studies program. Upon passing the proposal defense, a student is admitted to candidacy status.

The Dissertation and Dissertation Defense

After successfully defending a dissertation proposal, a student conducts the proposed research and completes a dissertation under the guidance of a dissertation committee. Only after successfully defending the dissertation proposal may a student register for dissertation hours (ANG 7980, GEO 7980, or SYA 7980). Upon completion of the dissertation manuscript and authorization by the committee, a student defends the dissertation before the committee and the niversity community. The University Graduate School's regulations governing the dissertation are described at http://gradschool.fiu.edu.

Other Curricular Offering: Combined Master of Arts in Religious Studies and PhD in Global and Sociocultural Studies Degree Pathway

The combined MA in Religious Studies/PhD in Global and Sociocultural Studies joint degree pathway allows qualified graduate students to pursue both degrees at the same time. Students can develop an expertise in Religious Studies while progressing towards a PhD in one of the three majors in the PhD in Global and Sociocultural Studies: geography, sociology, or anthropology. The dissertation may be directed by a qualified professor in either department.

Degree Requirements for MA in Religious Studies

The 36 credits earned for the MA in Religious Studies will count towards the 75 credits required for the PhD in Global and Sociocultural Studies.

Religious Studies Core (9 credits):

--RLG6935 Sem Sacred Texts Seminar in Sacred Sources; 3 credits
--RLG6013 Mod Analysis Relign Modern Analysis of Religious; 3 credits
--RLG5038 Advanced Fieldwork Advanced Fieldwork in Religious Studies; 3 credits

Courses Required for Global and Sociocultural Studies Track (12 credits):

--ISS6346 Theory and Inquiry Theory and Inquiry (Fall)
--ISS6306 Proposal Writing Writing Research Proposals (Spring)
--ISS6305 Res Meth and Design Research Methods and Design (Spring)
--ISS6317 Soc Res Quant Methods I social Research Quantitative Methods I (Fall)

Electives (9 or 12 credits depending on exit option)

9 or 12 credits or elective courses from within the Department of Religious Studies.

MA in Religious Studies Exit Options (6 or 3 credits)

Students may choose any of the exit options offered by the MA in Religious Studies degree.

--RLG 6971 Thesis (minimum 6 credits) See the Religious Studies program description for more information. The thesis is publicly defended and approved by a committee of three graduate faculty members
--RLG XXXX (3 credits) Preparation of two directed research papers. Both papers require an oral presentation, defense and approval by a committee of three graduate faculty members;
--RLG XXXX Internship and major research paper (3 credits). Supervised internship leading to a major research paper based upon the students work during the internship. The research paper requires an oral presentation and approval by a committee of three graduate faculty members.

School of International and Public Affairs Language Requirement

Students must demonstrate proficiency in a language other than English according to the nature of their thesis or research paper/proposal and professional interests.

Application for Graduation from Religious Studies program

Students should apply for graduation for the MA in Religious Studies degree as soon as they have completed all requirements for the degree – including the exit option. Ordinarily, the MA will be conferred before the student advances to candidacy for the PhD in Global and Sociocultural Studies program.

Matriculation to PhD in Global and Sociocultural Studies

All students must undergo a successful MA review upon completion of the MA in Religious Studies program requirements in order to continue toward the PhD in Global and Sociocultural Studies. The Global and Sociocultural Studies Graduate Committee, along with an appointee from Religious Department conducts these reviews. The purpose of the MA review is to determine the ability of the student to do PhD-level work with the department's faculty. Among the information considered during the review are a students overall performance, grades in courses, and faculty recommendations

Degree Requirements for PhD in Global and Sociocultural Studies

The PhD in Global and Sociocultural Studies requires a minimum of 75 credits beyond the baccalaureate including a dissertation based on original research. A maximum of 36 credits of the MA in Religious Studies program will count toward the 75-credit minimum. Thus, a minimum of 39 credits must be earned beyond the MA.

Major Requirements (33 credits)

All doctoral students will choose a major in Anthropology, Geography, or Sociology. The following distribution of coursework is required.

(a) Major theory (3)

(b) Additional methods (3)

(c) Major course electives (6 minimum)

(d) Exam and dissertation credits

-- Doctoral Exam Preparation (6 maximum)

-- Doctoral Dissertation (15 minimum)

General Electives (6 credits)

GSS and non-GSS Department electives

PhD General Examination

After successfully completing the common core requirements, the major's course requirements, and electives, a student prepares for the PhD General Exam by enrolling in a maximum of six credits of exam preparation for their major. In preparation for the exam, a student forms a dissertation committee according to the regulations published on the University Graduate School web page (**http://gradschool.fiu.edu**). The PhD General Exam addresses the student's anticipated dissertation topic, and is conducted according to the University Graduate School Policies and Procedures Manual and the Department's PhD General Exam guidelines.

The Dissertation Proposal and Defense/Candidacy Exam

After passing the PhD General Exam, a student works under the guidance of the dissertation committee to prepare a dissertation proposal and defend it orally before the committee. The chair of the dissertation committee must hold Dissertation Advisor Status from the University Graduate School. The proposal defense serves as the doctoral candidacy exam for the PhD in Global and Sociocultural Studies program. Upon passing the proposal defense, a student is admitted to candidacy status.

The Dissertation and Dissertation Defense

After successfully defending a dissertation proposal, a student conducts the proposed research and completes a dissertation under the guidance of a dissertation committee. Only after successfully defending the dissertation proposal may a student register for dissertation hours (ANG 7980, GEO 7980, or SYA 7980). The PhD program requires a student to be continuously enrolled in a minimum of 3 credits of Doctoral Dissertation each semester from the time of advancement to candidacy until the completion of the dissertation, including summers. Upon completion of the dissertation manuscript and authorization by the committee, a student defends the dissertation before the committee and the university community. The University Graduate School's regulations governing the dissertation are described at **http://gradschool.fiu.edu**.

GBLSTD:BA - Bachelor of Arts in Global Studies

Overview

Degree Offered
BA - Bachelor of Arts

Program Title
Global Studies

The Bachelor of Arts (BA) in Global Studies is the interdisciplinary study of the interconnections among cultural, political, economic, and
ecological dimensions of social life in an age of globalization. The program allows students the opportunity to understand these processes by exploring and integrating subjects usually taught in disciplinary isolation. The curriculum provides rigorous theoretical and methodological training in social science appropriate to the changing global workforce of the 21st century.

For more information, visit the Steven J. Green School of International and Public Affairs website.

CIP Code
30.2001

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Bachelor of Arts (BA) in Global Studies (majors: Anthropology, Geography, Sociology, and Interdisciplinary and Area Studies)

See general university admissions requirements at admissions.fiu.edu.

Admissions Requirements for the BA in Global Studies (major: Geography/Social Studies Education)

To qualify for admission to the program, undergraduate candidates must have met all the lower division requirements including: 60 credit hours of lower-division courses, all general education requirements, lower division GPA of 2.5 or higher, and achieve the competencies of the FTCE General Knowledge Exam (GK).

Program Requirements

Common Prerequisite Courses

The BA in Global Studies has no common prerequisites.

For other degrees, a list of all state-approved common prerequisites, including alternatives, is available at https://cpm.flvc.org.

Academic Progression Requirements

Students admitted to the university are admitted directly to their chosen major. Students are expected to make satisfactory progress based on critical indicators, such as GPA in specific courses or credits earned. In cases where students are not making satisfactory progress, a change of major may be required. Advisors work to redirect students to more appropriate majors when critical indicators are not met.

Major Requirements

Major in Anthropology Credit Hours: 30

Type

Completion Requirement

Introduction to Major: 3 credits

Complete ALL of the following Courses:

- IDS3315 - Gaining Global Perspectives

Core Courses: 9 credits

Complete ALL of the following Courses:

- ANT3212 - World Ethnographies
- GEO3001 - Geographies of Global Change
- SYP3456 - Societies in the World

Theory: 3 credits

Complete ALL of the following Courses:

- ANT3034 - Anthropological Theories

Methods: 6 credits

Complete ALL of the following Courses:

- SYA3300 - Research Methods
- ANT3497 - Introduction to Qualitative Research Methods

Disciplinary Upper Division Electives: 6 credits

Two additional upper-division anthropology courses (ANT).

Other Upper Division Electives: 3 credits

One additional upper-division geography course (GEA/GEO); or one additional upper division sociology course (SYA/SYD/SYG/SYO/SYP)

Major in Geography Credit Hours: 30

Type
Completion Requirement

Introduction to Major: 3 credits

Complete ALL of the following Courses:

- IDS3315 - Gaining Global Perspectives

Core Courses: 9 credits

Complete ALL of the following Courses:

- ANT3212 - World Ethnographies
- GEO3001 - Geographies of Global Change
- SYP3456 - Societies in the World

Theory: 3 credits

Complete ANY of the following Courses:

- GEO3421 - Cultural Geography
- GEO3471 - Political Geography
- GEO3502 - Economic Geography

Methods: 6 credits

Complete ALL of the following Courses:

- SYA3300 - Research Methods
- GIS3048 - Applications of Geographic Information Systems

Disciplinary Upper Division Electives: 6 credits

Two additional upper-division geography courses (GEA/GEO).

Other Upper Division Electives: 3 credits

One additional upper-division anthropology course (ANT); or one additional upper-division sociology course (SYA/SYD/SYG/SYO/SYP).

Major in Sociology Credit Hours: 30

Type
Completion Requirement

Introduction to Major: 3 credits

Complete ALL of the following Courses:

- IDS3315 - Gaining Global Perspectives

Core Courses: 9 credits

Complete ALL of the following Courses:

- ANT3212 - World Ethnographies
- GEO3001 - Geographies of Global Change

- SYP3456 - Societies in the World

Theory: 3 credits

Complete ALL of the following Courses:

- SYA4010 - Sociological Theories

Methods: 6 credits

Complete ALL of the following Courses:

- SYA3300 - Research Methods
- SYA3400 - Introduction to Quantitative Social Research

Disciplinary Upper Division Electives: 6 credits

Two additional upper-division sociology courses (SYA/SYD/SYG/SYO/SYP).

Other Upper Division Electives: 3 credits

One additional upper-division anthropology course (ANT); or one additional upper-division geography course (GEA/GEO).

Major in Interdisciplinary and Area Studies Credit Hours: 33

Type

Completion Requirement

Introduction to Major: 3 credits

Complete ALL of the following Courses:

- IDS3315 - Gaining Global Perspectives

Core Courses: 6 credits

Complete at least 2 of the following courses:

- ANT3212 - World Ethnographies
- GEO3001 - Geographies of Global Change
- SYP3456 - Societies in the World

Theory*: 3 credits

Complete ANY of the following Courses:

- ANT3034 - Anthropological Theories
- GEO3421 - Cultural Geography
- GEO3471 - Political Geography
- GEO3502 - Economic Geography
- SYA4010 - Sociological Theories

*Or any other adviser-approved theory course offered by the Department of Global and Sociocultural Studies or in another department.

Methods†: 6 credits

Complete ALL of the following Courses:

- SYA3300 - Research Methods
- ANT3497 - Introduction to Qualitative Research Methods
  OR SYA3400 - Introduction to Quantitative Social Research
  OR GIS3048 - Applications of Geographic Information Systems

†Or any other adviser-approved research methods course in the Department of Global and Sociocultural Studies or in another department.

Upper Division Thematic Electives: 6 credits

Students must select one of the following themes, and then complete two courses within that theme. The four theme options are reflected below.

Fulfill ANY of the following requirements:

Theme Option 1: Culture, Societies, Identities‡

Complete at least 2 of the following courses:

- AMH4573 - African American History from the Late 19th Century to the Present
- AMH4588 - Introduction to Latina/o History
- AMH4671 - Race, Gender, Science in the Atlantic World
- ANT3241 - Myth, Ritual, and Mysticism
- ANT4473 - Culture and Globalization
- ANT4476 - Indigenous Peoples Today in Global Perspective
- EUH4617 - Race and Migration in Modern Europe (Inactive)
- EUH4675 - History of Islam and Muslims in Europe
- GEO4412 - Geography and Gender
- HIS4264 - Global Imperial - Indigenous Encounters, 1500 to the Present (Inactive)
- LAH4737 - Music, Modernity and Identity in Latin American History
- REL2300 - Religions of the World
- REL3367 - Islamic Faith and Society

‡Or any other adviser-approved thematic course offered by the Department of Global and Sociocultural Studies or in another department.

OR

Theme Option 2: Social Movements, Security, and Conflict‡

Complete at least 2 of the following courses:

- AMH3310 - Social Movements in Modern United States History
- CJE4174 - Comparative Criminal Justice Systems
- EUH3576 - The Russian Revolution and the Soviet Union
- EUH4033 - Nazism and the Holocaust
- GEO3602 - Urban Geography
- GEO4477 - Critical Geopolitics
- HIS3308 - War and Society
- HIS4264 - Global Imperial - Indigenous Encounters, 1500 to the Present (Inactive)

- ISS3130 - Fundamentals of National Security
- ISS4930 - Topics in Globalization
- LBS3001 - Labor and Globalization
- LBS3468 - Introduction to Mediation
- LBS3480 - Introduction to Conflict Resolution
- LBS4154 - Workers and Diversity
- LBS4610 - Cross Cultural Dimensions of Latin American Labor Relations
- LAH3718 - History of U.S.-Latin American Relations (Inactive)
- LAH4750 - Law and Society in Latin American History
- LAH4483 - Cuba Since 1959
- PAD3800 - Managing Global Cities
- PAD3802 - Introduction to Urban and Regional Studies
- PHM4362 - Global Justice
- SYP3300 - Social Movements and Collective Action
- WOH3244 - World War II: A Global History

‡Or any other adviser-approved thematic course offered by the Department of Global and Sociocultural Studies or in another department.

OR

Theme Option 3: Global Health and Environment‡

Complete at least 2 of the following courses:

- ANT3403 - Cultural Ecology
- ANT3462 - Medical Anthropology
- ANT4480 - Anthropological Approaches to Global Health
- AMH3314 - Public Health and Medicine in US History
- EVR4595 - South Florida Environmental Conflicts (Inactive)
- IDS3214 - Our Coastal Environment from the Bay to the World (Inactive)
- GEO4373 - Local Cultures/Global Nature
- GEO4391 - Marine Geography
- GEO4476 - Political Ecology
- HIS4492 - A History of U.S. Health Policy (Inactive)
- LAH4722 - Health, Medicine, and Disease in Latin American Social History
- SYD4604 - Globalization & Sustainability in the Developing World (Inactive)
- SYO3400 - Health & Medicine in Society
- SYO4420 - Comparative Health Systems (Inactive)
- WOH4206 - Global History of Domestic Violence

‡Or any other adviser-approved thematic course offered by the Department of Global and Sociocultural Studies or in another department.

OR

Theme Option 4: Global Markets, Resources, and Development‡

Complete at least 2 of the following courses:

- ECO4713 - International Macroeconomics

- ECS3021 - Women, Culture, and Economic Development
- WOH4223 - History of the Global Economy

‡Or any other adviser-approved thematic course offered by the Department of Global and Sociocultural Studies or in another department.

Upper Division Area Studies Electives: 9 credits

Students also must take three courses substantially grounded in a world area, exemplifying the transnational issues explored in the chosen theme. The world areas are: Africa, Asia, Latin America and the Caribbean, Middle East and Central Asia, and Europe and Eurasia.

Major in Geography/Social Studies Education Credit Hours: 30

Type

Completion Requirement

Introduction to Major: 3 credits

This program prepares students interested in the social sciences for teaching Social Studies at the secondary level. The major incorporates current results from education research, effective curriculum materials, use of technology, and a global perspective in collaborative learning. Program requirements include field experiences and an internship. Interested students are encouraged to contact the department for additional details and information on teacher support programs.

All students must pass the GK Exam by the time they reach 72 credit hours in their program of study. All stated admission requirements are to be considered minimum. A student who meets these minimum requirements is not automatically assured admission. Program admission requirements are subject to change. It is the responsibility of the student to assure that he/she has met the requirements

Complete ALL of the following Courses:

- IDS3315 - Gaining Global Perspectives

Core Courses: 9 credits

Complete ALL of the following Courses:

- ANT3212 - World Ethnographies
- GEO3001 - Geographies of Global Change
- SYP3456 - Societies in the World

Theory: 3 credits

Complete ANY of the following Courses:

- GEO3421 - Cultural Geography
- GEO3471 - Political Geography
- GEO3502 - Economic Geography

Methods: 6 credits

Complete ALL of the following Courses:

- SYA3300 - Research Methods
- GIS3048 - Applications of Geographic Information Systems

Disciplinary Upper Division Electives: 6 credits

Two additional upper-division geography courses (GEA/GEO).

Other Upper Division Electives: 3 credits

One additional upper-division anthropology course (ANT); or one additional upper-division sociology course (SYA/SYD/SYG/SYO/SYP).

Additional Required Courses: 30 credits

Complete ALL of the following Courses:

- EDP3004 - Educational Psychology
- SSE3346 - Social Science Content and Pedagogy
- SSE3853 - Social Science Subject Area Knowledge
- SSE4383 - Perspectives in Social Science Education
- SSE4380 - Developing a Global Perspective
- SSE4384C - Special Teaching Laboratory: Social Studies
- SSE4942 - Student Teaching Internship
- RED4325 - Subject Area Reading
- TSL4324 - ESOL Issues and Strategies for Content Area Teachers

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

GBS:CFI - Undergraduate Certificate in Global Black Studies

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Global Black Studies

The Undergraduate Certificate in Global Black Studies provides degree-seeking FIU students with an interdisciplinary approach to the study of the global, economic, cultural, and historical experiences of people of African descent. The certificate places a strong emphasis on African diasporic cultural expressions in all their regional, temporal, and socioeconomic diversities. It offers coordinated insights into the ongoing challenges that black communities face locally and internationally. It also focuses on the ways in which African diasporic communities and individuals have developed political and creative strategies for survival in the midst of, and resistance to, racism and political, economic, and social oppression.

Program Requirements

Global Black Studies Certificate Program

Type
Completion Requirement

General Requirements: 15 credits

Students requesting an exception from these lists must present a syllabus for the course they would like to enroll in. Not all courses are offered every semester.

Fulfill ALL of the following requirements:

Required Core Course: 3 credits

Complete ALL of the following Courses:

- AFA2004 - Black Popular Cultures: Global Dimensions

AND

Arts and Humanities Courses: 3-9 credits

Earn at least 3 credits from the following:

- AFA4241 - The African Diaspora in Latin America
- AFA4930 - African and African Diaspora Studies Theory
- AFA4931 - Special Topics in African Diaspora Studies
- AFA4933 - Special Topics in Black Transnationalism
- AFA4372 - Race, Gender and Sexuality in Hip Hop
- AFA4351 - Hip Hop Culture, Social Consciousness and Social Entrepreneurship
- AFA4370 - Global Hip Hop
- AFA4905 - Independent Study
- AFH2000 - African Civilizations
- AFS4265 - Latin America and the Caribbean in Africa: South-South Interactions
- AMH4570 - African-American History
- AMH4571 - African American History from the 17th to the late 19th Centuries
- AMH4573 - African American History from the Late 19th Century to the Present
- AML4606 - Studies in 19th-Century African American Literature
- AML4607 - Studies in 20th-Century African American Literature
- AML4612 - Literature of the Harlem Renaissance Period
- AML4624 - African American Women Writers
- AML4621 - Major African American Writers
- DAA3345 - Caribbean Dance
- DAA3346 - Haitian Dance
- DAN4396 - Dance Ethnology
- FRW4751 - Francophone Literature in the Caribbean
- HAI3500 - Haiti: Language and Culture
- HAI3213 - Accelerated Haitian Creole
- HAI3214 - Accelerated Intermediate Haitian Creole
- HAI3370 - Haiti: Study Abroad (Inactive)

GEOGS:CFI - Graduate Certificate in Geographic Information Systems

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Geographic Information Systems

The Graduate Certificate in Geographic Information Systems (GIS) provides students with an interdisciplinary background in GIS. The program consists of graduate level courses in GIS, remote sensing, and related subjects offered by the departments of Biological Sciences, Civil and Environmental Engineering, Computer Science, Earth and Environment, Global and Sociocultural Studies, Public Administration, and Mathematics and Statistics. This certificate program is open to degree-seeking students only.

For more information, visit the College of Arts, Sciences, and Education website.

Requirements

Simple Requirements

Admissions Requirements

Applicants must currently be enrolled in a graduate degree program at FIU and must exhibit basic proficiency with computers.

This certificate is open to degree-seeking students only.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

This certificate program requires 15 graduate level credits (5 courses).

Program Credit Hours: 15

Type
Completion Requirement

Required Courses

Student must earn a grade of “C” or better in all courses. Students are required to choose one (1) course from each of the following three (3) categories:

Fulfill ALL of the following requirements:

Introduction to Geographic Information Systems (GIS)

Complete at least 1 of the following courses:

- CGN5320 - GIS Applications in Civil and Environmental Engineering
- GIS5050 - Environmental GIS

Students who demonstrate prior GIS course work or substantial GIS work experience may substitute this requirement with 3 elective credits from the courses listed below with approval of the Program Director.

AND

Intermediate/Advanced Geographic Information Systems (GIS)

Complete at least 1 of the following courses:

- CGN6325 - Advanced GIS for Civil and Environmental Engineering (Inactive)
- EVR5044 - Advanced GIS and Environmental Data Analysis
- GLY5758 - GIS and Spatial Analysis for Earth Scientists
- SYA6356 - GIS and Social Research

AND

Remote Sensing

Complete ALL of the following Courses:

- GLY5754 - Applied Remote Sensing in the Earth Sciences

An equivalent course may be chosen to fulfill this requirement.

Electives: 6 credits

Earn at least 6 credits from the following:

- CCJ6079 - Geospatial Crime Analysis
- COP6727 - Advanced Database Systems
- EVR5505 - Advanced Precision Agriculture and Environmental Sustainability
- EVR6268 - Remote Sensing in Hydrology
- EVR7056 - GIS in Water Resources
- GIS5620 - Surveillance, Intelligence, and International Relations
- GIS5935 - Topics in Geographic Information Systems
- MET5412 - Remote Sensing in Meteorology
- PCB5328 - Spatial and Landscape Ecology
- PAD6710 - IT and E-government

Additional Comments:

Up to 3 credits of a graduate level statistics or data analysis course may be counted towards the certificate requirements with approval of the Program Director.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no track, specialization, concentration, area of emphasis, or other curricular offerings associated with this program.

GEOSC:BS - Bachelor of Science in Geosciences

Overview

Degree Offered
BS - Bachelor of Science

Program Title
Geosciences

The Bachelor of Science (BS) in Geosciences is a rigorous, broad-based degree program offering a choice of majors in Geological Sciences, Geoinformatics, or Atmospheric Sciences. These majors have been designed to prepare students to gain professional credentials (e.g.,State of Florida Professional Geologist certification, American Meteorological Society certification, GISP Certified GIS Professional certification).

For more information, visit the College of Arts, Sciences, and Education website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Bachelor of Science (BS) in Geosciences

See general university admission requirements at admissions.fiu.edu.

Admissions Requirements for the Honors Major in Geosciences

To be admitted to the major a student must have:

--Arranged to be sponsored by a faculty advisor.
--Completed all lower division courses required for the degree program.
--Taken at least 14 hours of Earth Science courses with a GPA of at least 3.5; 6 hours must be at the 3000 level or above.
--An overall GPA of 3.5 or higher in 3000 and 4000 level classes.
-- Exceptions to these criteria may be granted in special cases through appeal to the Earth and Environment Undergraduate Committee.

Application to the program is made by submission of the Honors in Geosciences/Earth Sciences Admission Form to the Earth and Environment Undergraduate Committee. This is usually done in the semester before the student intends to begin the Honors thesis research.

Admissions Requirements for the Combined BS in Geosciences to Master of Science (MS) in Geosciences Accelerated Degree Pathway

To be considered for admission to the combined bachelor's/master's degree pathway, students must have completed at least 75 credit hours including all lower division requirements, typically have at least 30 credit hours remaining in the program and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree pathway; the application is submitted to Graduate Admissions typically before the student starts the last 30 credits of the bachelor's degree program. Students must apply prior to the semester in which graduate credits will be counted towards the undergraduate degree program.

Admissions Requirements

(1) Current enrollment in the Bachelor of Science program in Geosciences at FIU.

(2)Completed at least 75 credits of coursework (including UCC), and typically has 30 credits remaining.

(3) Completion of all lower division required courses for the bachelors degree.

(4) Minimum GPA of 3.25.

(5) Three letters of recommendation.

(6) Approval by the Earth and Environment Graduate Committee.

Program Requirements

Lower Division

Type

Completion Requirement

Common Prerequisites

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Complete ALL of the following Courses:

- ESC1000 - Introduction to Earth Sciences
  AND ESC1000L - Introduction to Earth Sciences Lab
- CHM1045 - General Chemistry I
  AND CHM1045L - General Chemistry Lab I
- CHM1046 - General Chemistry II
  AND CHM1046L - General Chemistry Lab II
- MAC2311 - Calculus I
- PHY2048 - Physics with Calculus I
  OR PHY2053 - Physics without Calculus I
- PHY2049 - Physics with Calculus II
  OR PHY2054 - Physics W/O Calc II
- PHY2048L - General Physics Laboratory I
- PHY2049L - General Physics Laboratory II

Students in the **Geological Sciences Major** are **strongly recommended** to take GLY1010 Physical Geology and GLY1010L Physical Geology Lab in place of ESC1000 Intro to Earth Science and ESC1000L Intro to Earth Science Lab.

Students may take GLY3039 Environ Geology and GLY3039L Envrnmtl Geol Lab as a substitute for ESC1000 Intro to Earth Science and ESC1000L Intro to Earth Science Lab.

Physics with Calculus is **strongly recommended** for the **Atmospheric Sciences Major.**

The choice of Physics sequence depends on the area of Geology specialization.

Required Lower Division Courses

Complete ALL of the following Courses:

- MAC2312 - Calculus II
- ISC1056 - First Year Seminar in Earth and Environment

Additional Required Lower Division Courses (by Major)

Students must select one of the following course sequences in their preferred major.

Fulfill ANY of the following requirements:

Geological Sciences Major Lower Division Courses

Complete ALL of the following Courses:

- BSC2011 - General Biology II: Diversity of Life, Organismal Structure and Function
  AND BSC2011L - General Biology Lab II

GLY1101 The History Of Life and GLY1101L History Of Life Lab may be used as a substitute for BSC2011 General Biology II and BSC2011L Gen Biology Lab II.

OR

Atmospheric Sciences Major Lower Division Courses

Complete ALL of the following Courses:

- MAC2313 - Multivariable Calc
- MAP2302 - Differential Equations

OR

Geoinformatics Major Lower Division Courses

Complete at least 1 of the following courses:

- STA2023 - Statistical Methods
- STA2122 - Introduction to Applied Statistics (Inactive)
- STA3111 - Statistics I

Upper Division

Type

Completion Requirement

Geoscience Essentials: 13 credits

Complete ALL of the following Courses:

- GLY3112 - Earth Through Time
- GLY4822 - Introduction to Hydrogeology
- MET3003 - General Meteorology
- OCP3002 - Physical Oceanography
- ISC4935 - Senior Seminar in Earth and Environmental Science

For GLY3112 Earth thru Time, students may substitute Historical Geology from another institution

Major Requirements

Geological Sciences Major: 25 Credits

Type

Completion Requirement

Major-specific Courses: 16 credits

Complete ALL of the following Courses:

- GLY3202 - Earth Materials
- GLY3202L - Earth Materials Lab
- GLY4300 - Petrology
- GLY4300L - Petrology Lab
- GLY4400 - Structural Geology
- GLY4400L - Structural Geology Lab
- GLY4511 - Stratigraphy
- GLY4511L - Stratigraphy Lab

Field Experience Courses: 3 credits (minimum)

Earn at least 3 credits from the following:

- GLY3782 - Geology Field Excursion
- GLY3881 - Environmental Geology Field Methods
- GLY4791 - Field Geology and Geologic Mapping

The above courses may be substituted with a 3 or more credit field course from another university

Geo-elective Courses: 6 credits

Earn at least 6 credits from the following:

- EVR4592 - Soils and Ecosystems
- GLY3034 - Natural Disasters
- GLY3759 - Visualizing Our World With GIS (Inactive)
- GLY4660 - Paleoecology
- GLY4730 - Marine Geology
- GLY4734 - Changing Coastlines
- GLY4812 - Introduction to Ore Deposits (Inactive)
- GLY4881 - Coastal Hazards
- GLY4947 - Internship in Geoscience
- GLY4970 - Geology Honors Thesis

- GLY4989L - Geology Honors Research
- ISC4940 - Undergraduate Research Internship in Earth and Environment
- MET3103 - Planetary Climate Change
- MET4304 - Introduction to Boundary Layer Meteorology
- MET4532 - Hurricanes

Students may also select courses from **Field Experience** to satisfy this requirement

Additional Comments:

Any other unused course listed in the upper division requirements of the **Atmosphere Sciences** or **Geoinformatics** majors may also be used for **Geo-elective**s. Other courses approved by the Program Director may also be used.

Atmospheric Sciences Major: 25 Credits

Type

Completion Requirement

Major-specific Courses: 16 credits

Complete ALL of the following Courses:

- MET3502 - Synoptic Meteorology
- MET3502L - Synoptic Meteorology Laboratory
- MET4301 - Dynamic Meteorology I
- MET4302 - Dynamic Meteorology II
- MET4102 - Physical Climatology
- MET4420 - Physical Meteorology

Remote Sensing and Instrumentation Courses: 3 credits

Complete at least 1 of the following courses:

- MET4400 - Meteorological Instrumentation and Observations
- MET4410 - Remote Sensing: Radar and Satellite Meteorology

Additional Weather Forecasting Courses: 2-3 credits

Complete at least 1 of the following courses:

- MET4300 - Severe Weather
- MET4521 - Advanced Forecasting
- MET4520L - Practical Forecasting (Inactive)

MET4520L Practical Forecasting must be taken **twice** to fulfill the requirement of at least 2 credits from **Remote Sensing and Instrumentation**.

Geo-elective Courses: 3 credits

Complete at least 1 of the following courses:

- GLY3034 - Natural Disasters
- GLY3759 - Visualizing Our World With GIS (Inactive)
- GLY4730 - Marine Geology (Inactive)
- GLY4734 - Changing Coastlines

- GLY4812 - Introduction to Ore Deposits (Inactive)
- GLY4881 - Coastal Hazards
- ISC4940 - Undergraduate Research Internship in Earth and Environment
- MET4304 - Introduction to Boundary Layer Meteorology
- MET4532 - Hurricanes
- MET4912L - Meteorology Honors Research
- MET4941 - Internship in Meteorology
- MET4970 - Meteorology Honors Thesis

Students may also choose courses from **Remote Sensing and Instrumentation** or **Additional Weather Forecasting** to satisfy this requirement.

Additional Comments:

Any other unused course listed in the upper division requirements of the Geological Sciences or Atmospheric Sciences majors may also be used for Geo-electives. Other courses approved by the Program Director may also be used.

Geoinformatics Major: 25 Credits

Type

Completion Requirement

GIS Fundamentals: 7 credits

Complete ALL of the following Courses:

- GIS3043C - Introduction to Geographical Information Systems
- GLY3754 - Remote Sensing in the Earth Sciences

Major Specific Courses: 9 credits

Complete at least 3 of the following courses:

- GIS4119 - Building Geodatabases and Geoprocessing Tools for Earth and Environmental Data
- GIS4390 - Advanced Spatial Analysis of Earth and Environmental Data
- GLY4450 - Environmental and Exploration Geophysics
- MET4750 - Techniques for Earth System Modeling
- MET4410 - Remote Sensing: Radar and Satellite Meteorology

Field Methods: 3 credits

Complete at least 1 of the following courses:

- GIS4303 - Geospatial measurement techniques in Earth and Environmental Sciences
- GLY3782 - Geology Field Excursion
- GLY3881 - Environmental Geology Field Methods

Geo-elective Courses: 6 credits

Earn at least 6 credits from the following:

- GLY3034 - Natural Disasters
- GLY3759 - Visualizing Our World With GIS (Inactive)
- GLY4730 - Marine Geology
- GLY4734 - Changing Coastlines

- GLY4812 - Introduction to Ore Deposits (Inactive)
- GLY4881 - Coastal Hazards
- ISC4940 - Undergraduate Research Internship in Earth and Environment
- GLY4947 - Internship in Geoscience
- GLY4970 - Geology Honors Thesis
- GLY4989L - Geology Honors Research
- MET4304 - Introduction to Boundary Layer Meteorology
- MET4532 - Hurricanes

Students may also choose courses from **Major Specific Courses** or **Field Methods** to satisfy this requirement.

Additional Comments:

Any other unused course listed in the upper division requirements of the **Geological Sciences** or **Atmospheric Science**s majors may also be used for Geo-electives. Other courses approved by the Program Director may also be used.

The Honors Major in Geosciences provides outstanding students with the opportunity to do original research under a faculty sponsor. To graduate with Honors, the student must carry out a research project, write up the project as an Honors Thesis, and present the results of the research in a Departmental seminar.

Honors Major in Geosciences

Type

Completion Requirement

Graduation Requirements

Students must maintain a minimum GPA of 3.5 in courses in 3000 and 4000 level classes and complete all the B.S. requirements in Geosciences or B.A. requirements in Earth Sciences, including GLY 4989L (Honors Research, 3 credits) and GLY 4970 (Honors Thesis, 3 credits). Students must also complete an Honors research in collaboration with an Honors supervisor and present a draft of the Honors thesis to the Earth and Environment Undergraduate Committee. Deposition of a completed approved copy of the Honors thesis with the Earth and Environment office.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Combined BS in Geosciences to MS in Geosciences Accelerated Degree Pathway

The combined BS/MS degree pathway in Geosciences allows qualified students to earn both the BS in Geosciences and a non-thesis MS in Geosciences in a shorter amount of time than typically required for earning degrees sequentially. The accelerated pathway is designed for highly qualified undergraduate students in the Department of Earth and Environment.

A student admitted to the combined degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor’s degree program. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Shared credit is limited to formal coursework, exclusive of independent study. Students may not enroll in graduate level classes until provisionally admitted to the graduate program. Students must apply for the award of their bachelor's degree the semester the degree requirements will be completed.

The bachelor's degree and master's degree cannot be awarded in the same term. No undergraduate credit may count toward the graduate degree.

General Requirements

(1) Meet the requirements of both the BS and non-thesis MS degree in Geosciences.

(2) Overlap of programs: Up to 4 courses (12 credits) may be used in satisfying both the BS and MS degree requirements, which must be at the 5000-level or higher.

GEOSC:MS - Master of Science in Geosciences

Overview

Degree Offered
MS - Master of Science

Program Title
Geosciences

The Master of Science (MS) in Geosciences degree program offers opportunities for research in the areas of solid Earth, Earth history, sedimentary rocks, and paleontology, Earth surface processes, and atmospheric science. The program emphasizes a multidisciplinary approach to solving geoscientific problems, stressing the importance of field observations complemented by laboratory analysis and numerical modeling. The program seeks applicants who are highly motivated and capable of meeting the challenges of a rigorous master's degree.

For more information, visit the College of Arts, Sciences, and Education website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Master of Science (MS) in Geosciences

To be admitted into the Master's Program in Geosciences, a student must meet the University's graduate admission requirements and have:

(1) Have a "B" average in upper level work

(2) International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the iBT TOEFL or 6.5 overall on the IELTS is required.

(3) Submit three letters of recommendation, a one-page statement of research interests, and a copy of all transcripts to University Graduate Admissions on or before February 1 for the Fall admissions and August 1 for the Spring admissions.

(4) Receive approval of the departmental Graduate Program Committee.

Admissions Requirements for the Combined Bachelor of Science (BS) in Geosciences to MS in Geosciences Accelerated Degree Pathway

To be considered for admission to the combined bachelor's/master's degree pathway, students must have completed at least 75 credit hours including all lower division requirements, typically have at least 30 credit hours remaining in the program and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree pathway; the application is submitted to Graduate Admissions typically before the student starts the last 30 credits of the bachelor's degree program. Students must apply prior to the semester in which graduate credits will be counted towards the undergraduate degree program.

Admissions Requirements

(1) Current enrollment in the Bachelor of Science program in Geosciences at FIU.

(2)Completed at least 75 credits of coursework (including UCC), and typically has 30 credits remaining.

(3) Completion of all lower division required courses for the bachelors degree.

(4) Minimum GPA of 3.25.

(5) Three letters of recommendation.

(6) Approval by the Earth and Environment Graduate Committee.

Program Requirements

This degree program offers opportunities for research in the same areas as for the Geosciences Major of the Ph.D. in Earth Systems Science (above). It emphasizes a multidisciplinary approach to solving geoscientific problems, stressing the importance of field observations complemented by laboratory analysis and numerical modeling. The application and admission procedures are also the same. Teaching assistantships are not available for the M.S. in Geosciences.

The Master of Science degree is conferred upon successful completion of the requirements of either the Thesis Option or Non-Thesis Option of the degree program. Refer to the **Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements section** below.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Thesis Option: 30 Credits

Type

Completion Requirement

Course Requirements

Fulfill ALL of the following requirements:

Graduate Seminar Courses

Complete at least 1 of the following courses:

- ISC5151 - Earth and Environmental Graduate Seminar
  OR ISC6152 - Earth and Environment Advanced Graduate Seminar

AND

Field of Specialization Courses

Earn 18 credits from courses in field of specialization

AND

Electives

Earn four (4) credits from Electives

AND

Thesis

Earn at least 6 credits from the following:

- GLY6971 - Master's Thesis

Graduation Requirements

Students must maintain a minimum GPA of 3.0 in all coursework counted toward the 30 credits is required for the Master's degree. Student must also work on a project (GLY 6910) and must be completed under faculty supervision, and the project report must be presented as a part of the Graduate Seminar class. This work may be based on a specific field research, or internship of current occupation in the areas of geosciences. Students must demonstrate satisfactory completion and defense of a thesis proposal. An original research thesis is required.

Additional Comments:

Courses in the field of specialization and electives are chosen by the student in close consultation with a faculty advisor. These courses are selected to fit the student's particular professional goals and to ensure sufficient depth and breadth of geological knowledge.

Non-Thesis Option: 30 Credits

Type

Completion Requirement

Course Requirements

Fulfill ALL of the following requirements:

Field of Specialization Courses

Earn 18 credits from courses in field of specialization

AND

Electives

Earn 12 credits from Electives

Electives for the non-thesis option may include at most 3 credits of Supervised Research GLY6910 Supervised Research leading to a research paper

Graduation Requirements

A minimum GPA of 3.0 in all course work counted toward the 30 credits is required for the Master's degree.

Additional Comments:

Doctoral candidates in the Geosciences Major who have filed the D-2 and D-3 forms and accepted by the University Graduate School can receive a Master of Science in Geosciences en route to the PhD after completion of 36 credits of graduate coursework with “non-thesis option” appearing in the transcript.

Other Curricular Offering: Combined BS in Geosciences to MS in Geosciences Accelerated Degree Pathway

The combined BS/MS degree pathway in Geosciences allows qualified students to earn both the BS in Geosciences and a non-thesis MS in Geosciences in a shorter amount of time than typically required for earning degrees sequentially. The accelerated pathway is designed for highly qualified undergraduate students in the Department of Earth and Environment.

A student admitted to the combined degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor’s degree program. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Shared credit is limited to formal coursework, exclusive of independent study. Students may not enroll in graduate level classes until provisionally admitted to the graduate program. Students must apply for the award of their bachelor's degree the semester the degree requirements will be completed.

The bachelor's degree and master's degree cannot be awarded in the same term. No undergraduate credit may count toward the graduate degree.

General Requirements

(1) Meet the requirements of both the BS and non-thesis MS degree in Geosciences.

(2) Overlap of programs: Up to 4 courses (12 credits) may be used in satisfying both the BS and MS degree requirements, which must be at the 5000-level or higher.

GLBCHR:CFI - Graduate Certificate in Global Christianity

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Global Christianity

Program Description

Christianity is the world's largest and most geographically widespread religious tradition, and it has played a formative role in shaping societies across the Near East, Africa, Europe, the Americas, Asia, and Oceania. Across historical periods and cultural settings, Christian ideas and institutions have influenced politics, law, economics, social organization, literature, art, music, philosophy, and contemporary debates over ethics, inequality, and cultural identity. The Graduate Certificate in Global Christianity at Florida International University offers students a rigorous, interdisciplinary framework for the academic study of Christianity as a global, historical, and cultural phenomenon.

From antiquity to the present, Christianity has generated enduring networks of exchange linking regions through trade, diplomacy, intellectual transmission, translation, migration, and missionary activity. Recent scholarship has increasingly emphasized these interconnected and transregional histories, challenging narrowly bounded narratives and highlighting the diverse ways Christianity has taken shape in local contexts around the world. This perspective underscores Christianity as a tradition continually reshaped through encounter, conflict, adaptation, and creativity across multiple cultural and historical settings.

Rooted in the humanities and social sciences, the certificate draws on faculty expertise in Religious Studies and affiliated departments to examine Christianity in a wide range of historical, geographic, social, and cultural contexts. Reflecting FIU's location in a global city and its longstanding strengths in international, hemispheric, and diasporic studies, the program encourages attention to cross-border movements of people, ideas, and religious practices. Students engage Christianity not only as a theological system, but also as a lived and contested social force shaped by empire, colonialism, migration, economic transformation, political power, and cultural exchange.

The program emphasizes multidisciplinary approaches to Christian texts, practices, institutions, and cultural expressions, integrating perspectives from history, anthropology, sociology, political science, literature, music, and the arts. Comparative and transnational approaches are central, enabling students to analyze both regional particularities and broader global patterns in Christian history and practice, as well as the circulation of religious forms across linguistic, cultural, and national boundaries.

Designed to complement graduate degree programs across the university, the certificate is well suited for students and professionals seeking advanced training relevant to careers in education, research, public service, international affairs, cultural institutions, and community engagement. Through a coherent sequence of coursework culminating in advanced research or integrative study, the Graduate Certificate in Global Christianity equips students with the analytical tools needed to understand Christianity's enduring and evolving role in global and multicultural societies.

GLBSTOR:BA - Bachelor of Arts in Global Sustainable Tourism

Overview

Degree Offered
BA - Bachelor of Arts

Program Title
Global Sustainable Tourism

This program is currently suspended and is not accepting new students.

The Bachelor of Arts (BA) in Global Sustainable Tourism degree prepares students to find sustainable solutions to environmental problems in the tourism industry and to succeed through a focus on critical thinking, laboratory work, and holistic learning. This unique, fully online program, offered through the Chaplin School of Hospitality and Tourism Management, is an interdisciplinary collaboration with the Department of Earth and Environment of the College of Arts, Sciences, and Education. The program features a blended curriculum composed of the most relevant existing courses from each department, as well as a host of new courses specifically designed for the degree.

This innovative degree recognizes the importance of sustainable operations in the tourism industry today, its impacts on the planet, and the increasing demand for a more sustainable approach to managing hospitality and tourism businesses throughout the world.

Academic Progression Requirements

Students admitted to the university are admitted directly to their chosen major. Students are expected to make satisfactory progress based on critical indicators, such as GPA in specific courses or credits earned. In cases where students are not making satisfactory progress, a change of major may be required. Advisors work to redirect students to more appropriate majors when critical indicators are not met.

Lower Division Preparation: 60 Credits

To qualify for admission to the hospitality program, FIU transfer students with 60 credits must have a minimum 2.0 GPA and must be otherwise acceptable into the program. Students with less than 60 transfer credits need to meet the freshman criteria established by the University. All University Core Curriculum requirements must be completed prior to graduation from the University.

This degree has no common prerequisites.

GRMLC:CFI - Undergraduate Certificate in German Language and Culture

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in German Language and Culture

The Undergraduate Certificate in German Language and Culture provides students with a broad knowledge and cultural foundation necessary for understanding the cultures and societies of the German-speaking countries (i.e., Germany, Austria, Switzerland, Luxemburg, and Liechtenstein). One cannot really understand the culture without being exposed to the languages that are shaping it, and one cannot understand the political and economic dynamics of a society without knowing its cultural foundations. The cornerstone of the certificate is an expertise in German language and culture. The certificate is designed with an interdisciplinary perspective exposing students to the world of German-speaking countries through history, political science, philosophy, religion, music, cinema, arts, and architecture.

Admissions Requirements

The Certificate in German Language and Culture is awarded by the Department of Modern Languages at FIU.

The Certificate in German Language and Culture requires a total of 23 credits (for students with no prior knowledge of the selected language) or a minimum of 18 credits (for students with no prior knowledge of the selected language).

This certificate is open to degree-seeking students only.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Program Credit Hours: 23

Type
Completion Requirement

Core Language Requirement

Four semesters of language (14 credits maximum may count toward the Certificate). If students test out of some portion of this requirement then they must complete additional credits as approved by the Certificate Director.

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- GER1130 - German I
- GER1131 - German II

AND

Part II

Complete at least 2 of the following courses:

- GER2200 - Intermediate German
- GER2240 - German Intermediate Conversation
- GER2243 - German Oral Communication Skills

Additional Courses

Fulfill ALL of the following requirements:

Part I

Complete ALL of the following Courses:

- GET4560 - Berlin Then and Now
- GER3420 - Review Grammar/Writing I

Students may also choose any other advanced German language or culture course offered by the Department of Modern Languages.

AND

Part II

One additional elective course, offered by any of the following academic areas: (3 credits)

- Art and Art History
- International Relations
- History
- Philosophy
- Political Science
- Religious Studies

- Architecture
- Music

The course must contain content strongly pertaining to German language and culture and be approved by the Certificate Director

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

GVILP:CFI - Undergraduate Certificate in Gender-Based Violence and Prevention

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Undergraduate Certificate in Gender-Based Violence and Prevention

The Undergraduate Certificate in *Gender-Based Violence and Prevention* offered by the Center for Women's and Gender Studies (CWGS) is a 15-credit course of study designed to offer degree-seeking undergraduate students a comprehensive, interdisciplinary understanding of gender-based violence and the strategies necessary to combat it. Drawing on courses from Women's and Gender Studies, Political Science, Health Humanities, Anthropology, Criminal Justice, History, Psychology, Social Work, and International Relations, this program prepares students to critically evaluate the root causes and consequences of gender-based violence at both local and global levels. Students who complete this certificate will develop and implement violence prevention strategies, explore legal frameworks, and build peer leadership skills. The certificate in Gender-Based Violence and Prevention is ideal for students aspiring to careers in criminal justice, law, health services, policy, social work, international development, and other fields that require a deep understanding of gender-based violence, innovative prevention strategies, and leadership skills.

CWGS is located in DM 212, Modesto A. Maidique Campus, (305) 348-2408. Students may contact CWGS at the above location, or via email to wstudies@fiu.edu.

Program Requirements

Students are required to complete five courses (15 credit hours) with no individual course below a "C" grade, 6 credits from core courses, 9 credits from electives. The certificate may be completed fully online. Other related courses may be approved subject to consideration by the program director and committee on a case-by-case basis.

Program Credit Hours: 15

Type
Completion Requirement

Core Courses

Complete at least 2 of the following courses:

- WST3011 - Understanding and Preventing Campus Sexual Assault
- WST3015 - Introduction to Global Gender and Women's Studies
- WST3114 - Sex Trafficking: Building Solutions
- WST3721 - Data Literacy, Health & Violence Prevention
- WST4115 - Gender Violence and the Law: Global Perspectives
- WST4274 - Gender and Migration
- WST4328 - Peer Leadership & Violence Prevention
- WST4332 - Women's Voices under Attack: Navigating Backlash in Europe and the U.S.
- WST4617 - Gender & Genocide
- WST4940 - Women's Studies Internship

WST3011 Campus Sexual Assault is cross-listed with PSY4930 Adv Special Topics Psy.

Elective Courses

Complete at least 3 of the following courses:

- CCJ4694 - Human Trafficking
- CCJ3666 - Victimology
- CCJ4663 - Women, Crime and the Criminal Justice System
- COM3423 - Racism in Communication
- CPO4053 - Political Repression and Human Rights
- CPO4057 - Political Violence and Revolution
- DEP2000 - Human Growth and Development: Introductory Developmental Psychology
- INR3061 - Conflict, Security and Peace Studies in INR
- INR4075 - International Protection of Human Rights
- INR4077 - Gender Equality and Human Rights in Global Perspectives
- INR4085 - Gender Hierarchies in International Relations
- LBS3468 - Introduction to Mediation
- LIN4651 - Gender And Language
- POT4309 - Sex, Power and Politics
- REL3145 - Women and Religion
- REL3148 - Religion and Violence
- REL4081 - Non-Violence and Peace Studies
- SOP3742 - Psychology of Women

Academic Progression Requirements

Courses are to be chosen from the Latin American and Caribbean Center (LACC) Haitian Studies approved course list in consultation with and approval of advisor. A grade of “C” or better is required for all courses.

All students are required to demonstrate proficiency in Haitian Creole language at the Intermediate Level or above. This may be, but is not required to be, achieved by completing the following sequence:

--HAI3213 Accelerated Haitian

--HAI3214 Acc Interm Haitian

All students are required to present a final project to Haitian Studies in Haitian Creole as part of the LACC FLAC (Foreign Languages across Curriculum) Student Seminar. The Seminar will be held each Fall, Spring and Summer and will serve as a forum for students to demonstrate depth of knowledge and serve as a tool for LACC and those members of the committee with Haitian Creole language skills to assess student performance.

Program Credit Hours: 18

Type

Completion Requirement

Requirements

Fulfill ALL of the following requirements:

Core Courses

The following core courses fulfill certificate requirements. As part of the 18 credit hours required for completion of the certificate, students must complete a minimum of 6 credit hours in Haitian Creole language training. A maximum of 3 credit hours in Haitian Creole language Independent Study may be taken and may count towards the 6 credits language course requirement, but the independent study may only be taken with professors whose area of research is Haiti and only with approval from the advisor. The following courses count towards this requirement:

Earn at least 6 credits from the following:

- HAI1130 - Haitian Creole I
- HAI2320 - Haitian Creole: Reading and Composition
- HAI3213 - Accelerated Haitian Creole
- HAI3214 - Accelerated Intermediate Haitian Creole
- HAI3321 - Haitian Creole: Reading and Composition II
- HAI3370 - Haiti: Study Abroad (Inactive)
- HAI3500 - Haiti: Language and Culture

AND

Elective Courses: 12 credits

Up to 12 additional credits may be selected from the following elective courses with an advisor's approval (contingent upon course content/relating to Haiti). These courses should be understood as a partial list; all have 25% or more Haiti-related content, students should consult with advisor of the certificate program about current course offerings.

Complete ANY of the following Courses:

- LAS3002 - Introduction to Latin American and Caribbean Studies
- ECS3431 - Economics of the Caribbean Basin
- LAH4460 - Peoples, Cultures and Politics of Haiti
- LAH4471 - Colonial Caribbean in Comparative Perspective
- GEA3320 - People, Place, and Environment of the Caribbean
- INR3045 - The Global Challenge of Refugees and Migrants
- INR3246 - International Relations of the Caribbean

- CPO4034 - The Politics of Development and Underdevelopment
- CPO4323 - Politics of the Caribbean
- FRE4503 - La Francophonie
- FRW4751 - Francophone Literature in the Caribbean
- AFA4370 - Global Hip Hop
- AFS4265 - Latin America and the Caribbean in Africa: South-South Interactions
- ANT3241 - Myth, Ritual, and Mysticism
- ANT4340 - Caribbean Cultures
- SYD4237 - Immigration and Refugees
- SYD4630 - Latin American and Caribbean Societies
- SYD4700 - Racial and Ethnic Relations
- ARH3676 - Caribbean Art: Myth and Reality
- ARH4512 - African Diaspora Arts

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

HIA:MS - Master of Science in Health Information Analytics

Overview

Degree Offered
MS - Master of Science

Program Title
Health Informatics and Analytics

The Master of Science in Health Information Analytics program readies a broad spectrum of professionals (including information systems experts, healthcare managers, and clinicians) to utilize health data effectively to enhance healthcare quality, safety, outcomes, and cost efficiency.

This 16-month, fully online program integrates health information management with business skills. Through experiential learning and extensive networking opportunities, participants enrich both their personal and professional lives.

With accreditation by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM), the program provides high-quality education in health informatics, preparing graduates for a dynamic healthcare workforce.

For more information, visit the College of Business website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Master of Science (MS) in Health Informatics and Analytics (Major: Health Informatics and Analytics)

To be eligible for admission to the Master of Science in Health Informatics and Analytics (MSHIA) degree program in the Chapman School, prospective students must:

(1) Hold a U.S. Bachelor’s degree or equivalent from an accredited college or university.

(2) Have a minimum of two (2) years professional experience in healthcare and/or information technology fields directly related to the program including:

-- IT professionals

-- Physicians

-- Nurses

-- Pharmacists

-- Healthcare attorneys

-- Healthcare third-party payer professionals

-- Health information managers

-- Other healthcare industry professionals with experience in using health informatics systems

OR have already completed a minimum of nine (9) graduate credit hours in a directly related field (e.g., Health Administration, Health Information Systems, Informatics, Information Systems) from an accredited university with a minimum of a 3.25 grade point average (GPA) or higher. Students may petition for up to six (6) hours of waiver for equivalent classes.

OR if the applicant already completed the BBA in Information Systems or Business Analytics or related undergraduate degree at FIU, or similarly accredited institution, with a minimum upper division grade point average (GPA) of 3.25.

Promising candidates not possessing the above experience or educational background may be directed to pre-requisite courses, particularly in the health informatics or health information systems domain to facilitate program preparation and success.

(3) Have a minimum upper division grade point average (GPA) of 3.0.

(4) Provide a resume entailing, at minimum, past higher education degrees and work experience

(5) Provide a personal statement on the motivation to attend the program, including personal and career goals.

(6) Graduate student applicants whose studies were completed outside of the US must demonstrate proficiency in the English language by presenting a minimum score of 80 on the iBT TOEFL (equivalent to 550 on paper-based version), or 213 on the computer-based TOEFL, or 6.5 overall of the International English Language Testing System (IELTS).

(7) If applicant is a student in the FIU Graduate Certificate in Healthcare Management or FIU Graduate Certificate in Health Informatics and Analytics programs and has completed the first 12 credits with a GPA of 3.25 or higher, he or she may be eligible for admission to the MSHIA program. Appropriate courses from the Certificate program may be transferred into the MSHIA degree program.

(8) Be in good standing with all previously-attended colleges and universities.

Admissions at the graduate level are competitive and meeting minimum program requirements does not guarantee admission.

Admissions Requirements for the MS in Health Informatics and Analytics (Major: Health Informatics and Artificial Intelligence)

To be eligible for admission to the MSHIA degree program, Health Informatics and Artificial Intelligence (MSHIAi) major in the Chapman School, prospective students must:

(1) Hold a U.S. Bachelor’s degree or equivalent from an accredited college or university.

(2) Have a minimum of two (2) years professional experience in healthcare and/or information technology fields directly related to the program including:

-- IT professionals

-- Physicians

-- Nurses

-- Pharmacists

-- Healthcare attorneys

-- Healthcare third-party payer professionals

-- Health information managers

-- Other healthcare industry professionals with experience in using health informatics systems

OR have already completed a minimum of nine (9) graduate credit hours in a directly related field (e.g., Health Administration, Health Information Systems, Informatics, Information Systems) from an accredited university with a minimum of a 3.25 grade point average (GPA) or higher. Students may petition for up to six (6) hours of waiver for equivalent classes.

OR if the applicant already completed the BBA in Information Systems or Business Analytics or related undergraduate degree at FIU, or similarly accredited institution, with a minimum upper division grade point average (GPA) of 3.25. Promising candidates not possessing the above experience or educational background may be directed to pre-requisite courses, particularly in the health informatics or health information systems domain to facilitate program preparation and success.

Promising candidates not possessing the above experience or educational background may be directed to pre-requisite courses, particularly in the health informatics or health information systems domain to facilitate program preparation and success.

(3) Have a minimum upper division grade point average (GPA) of 3.0.

(4) Provide a resume entailing, at minimum, past higher education degrees and work experience and if any, demonstrated accomplishments in the application of quantitative and analytical skills;

(5) Provide a personal statement on the motivation to attend the program, including personal and career goals.

(6) Graduate student applicants whose studies were completed outside of the US must demonstrate proficiency in the English language by presenting a minimum score of 80 on the iBT TOEFL (equivalent to 550 on paper-based version), or 213 on the computer-based TOEFL, or 6.5 overall of the International English Language Testing System (IELTS).

(7) If applicant is a student in the FIU Graduate Certificate in Healthcare Management or FIU Graduate Certificate in Health Informatics and Analytics programs and has completed the first 12 credits with a GPA of 3.25 or higher, he or she may be eligible for admission to the MS Health Informatics and Artificial Intelligence program. Appropriate courses from the Certificate program may be transferred into the MS Health Informatics and Analytics degree program.

(8) Be in good standing with all previously-attended colleges and universities.

Admissions at the graduate level are competitive and meeting minimum program requirements does not guarantee admission.

Admissions Requirements for the MS in Health Informatics and Analytics and Doctor of Medicine (MD) Joint Degree Pathway

HWCOM Medical students in their third year of medical study may apply to the MSHIA program. Each college (College of Medicine and College of Business) will independently review and admit applicants to their programs. Only students admitted to both programs will enroll in classes in the combined program.

Admissions Requirements for the MS in Health Informatics and Analytics and Professional Master of Business Administration (MBA) in Healthcare Policy and Management Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree pathway.

(2) Applications for a joint degree pathway will not be accepted from candidates who have already completed either degree. MBA in Healthcare Management or MSHIA students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.

Transfer Credits

A student may receive permission to transfer up to a maximum of nine semester hours of graduate credit towards a Master of Science degree program or twelve semester hours of credit for a Master of Business Administration degree program, if:

(1) The courses were taken at the graduate level at an accredited college or university;

(2) The courses were not introductory or survey in nature;

(3) The student earned grades of “B” or higher in the courses;

(4) The courses are judged by the Department Chair, College Dean, Graduate School Dean, and program manager to be relevant to the student’s graduate program;

(5) The credits were completed within six years immediately preceding the College’s awarding of the degree. Credits are not transferable until the student has earned 15 semester hours in a Chapman School graduate degree program.

Program Requirements

College Policies

To be eligible for a Master’s degree, a student must:

(1) Satisfy all University requirements for a Master’s degree;

(2) Satisfy required prerequisites;

(3) Complete the required courses in the specific graduate program in which he/she is enrolled.

(4) Earn a minimum average of “B” (3.0) in all approved courses in the student’s approved course of graduate study.

No courses in which a graduate student earns a grade below “C” may be counted towards any Master’s degree program in the Chapman School. However, all approved undergraduate and graduate course work a graduate student takes will be counted in computing his or her grade point average, including courses in which he or she has earned a “D” or “F” grade.

Faculty have the discretion to administratively drop students who do not attend the first class of a course.

Degree Requirements

Type
Completion Requirement

Required Courses

Program Format

Students will complete this program as a cohort. The program will be offered online. Two courses are generally taken each eight-week term within the semester. The students will be considered full time as within a “semester” if they complete 12 graduate credit hours.

Complete ALL of the following Courses:

- HIM6267 - Foundations of Health Informatics & Analytics Administration
- HIM6865 - Healthcare Database Systems
- HIM6527 - Healthcare Information Security and Privacy
- HIM6628 - Health Data Visualization
- HIM5065 - Introduction to Health and Health Informatics
- HIM6685 - Clinical Information Systems
- HIM6124 - Interoperability in Healthcare
- HIM6019 - Legal and Ethical Aspects of Healthcare
- HIM6517 - Healthcare Project Management
- HIM6694 - Consumer Health Informatics

Major Requirements

Major in Health Informatics and Analytics: 9 credits

Type

Completion Requirement

Required Courses

Students must complete mandatory, noncredit residency requirements for graduation – orientation program and 3 online residencies offered through the College of Business.

For more information, please contact the Program Manager at mshia@fiu.edu or (305) 348-0594

Complete ALL of the following Courses:

- QMB6357 - Business Statistical Analysis
- HIM6682 - Quality and Outcomes Analytics
- HIM6125 - Healthcare Informatics and Analytics Capstone
  OR HIM6858 - Health Informatics/Analytics Practicum

Graduation Requirements for the MS in Health Informatics and Analytics (major: Health Informatics and Analytics)

To graduate with the Master’s in Health Informatics and Analytics a student must:

(1) Satisfy all University requirements for a Master’s degree.

(2) Meet the 37 hours required for the Health Informatics and Analytics major “Program of Study.”

(3) Earn an overall “B” (3.0) cumulative Grade Point Average.

(4) No courses in which a graduate student earns a grade “below C” may be counted towards any Master’s degree program in the Chapman School.

(5) Complete online residency MSHIA Orientation program requirements offered through the MSHIA Program as an entry point into the program

(6) Complete 3 online residencies (noncredit) offered through the College of Business.

-- Residency I –Business Career Management.

-- Residency II –Presentation Skills

-- Residency III –Six Sigma Yellow Belt.

Residencies may be changed at the department's discretion .

Major in Health Informatics and Artificial Intelligence Courses: 15 credits

Type

Completion Requirement

Required Courses

The Health Informatics and Artificial Intelligence major will focus on developing health Informatics skills as well as the skills to manage the ethical implementation of AI in the healthcare industry. Courses will cover AI technologies, their development, and application in healthcare with a strong emphasis on ethical considerations to ensure that graduates are well-prepared to implement AI responsibly in healthcare settings. This program will educate effective developers, users, and managers of health information systems. Students will explore the design and use of the health information systems and artificial intelligence health care applications needed by hospital and system executives, government planners, public health officials, and other healthcare professionals. Courses will have both an academic and practical perspective, exposing students to both theoretical approaches and real-world applications.

Students must complete mandatory, noncredit residency requirements for graduation – orientation program and 3 online residencies offered through the College of Business. For more information, please contact the Program Manager at mshia@fiu.edu or (305) 348-0594.

Complete ALL of the following Courses:

- ISM6644 - Python Fundamentals for Business Analytics
- QMB6315 - Quantitative Analytical Methods in Business
- HIM6705 - Machine Learning for Healthcare Applications
- HIM6706 - Integrating Artificial Intelligence in Healthcare: Strategies, Applications, and Ethics
- HIM6950C - Healthcare AI Capstone
  OR HIM6858 - Health Informatics/Analytics Practicum

Graduation Requirements for the MS in Health Informatics and Analytics (major: Health Informatics and Artificial Intelligence)

To graduate with the MSHIAi major, a student must:

(1) Satisfy all University requirements for a Master's degree.

(2) Meet the 43 hours required for the Health Informatics and Artificial Intelligence major "Program of Study."

(3) Earn an overall "B" (3.0) cumulative Grade Point Average.

(4) No courses in which a graduate student earns a grade "below C" may be counted towards any Master's degree program in the Chapman School.

(5) Complete online residency MSHIA Orientation program requirements offered through the MSHIA Program as an entry point into the program

(6) Complete 3 online residencies (noncredit) offered through the College of Business.

-- Residency I –Business Career Management.

-- Residency II –Presentation Skills

-- Residency III –Six Sigma Yellow Belt.

Residencies may be changed at the department's discretion.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: MS in Health Informatics and Analytics and MD Joint Degree Pathway

Type

Completion Requirement

Joint Degree Pathway

The Herbert Wertheim College of Medicine (HWCOM) and the Master of Science in Health Informatics and Analytics (MSHIA) program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University have a combined degree pathway culminating in both a Doctorate of Medicine (MD) and a Master of Science in Health Informatics (MSHIA). Under the combined degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. Important criteria relating to the joint degree pathway are as follows:

(1) Combined degree pathway students will complete the first three years of coursework in the College of Medicine. Then, beginning in the fourth year, students in the combined pathway will interrupt their medical studies and begin classes for the MSHIA program. Classes in the MSHIA program will be taken during fall, spring and summer semesters of the fourth year. During this time students will complete 27 hours of course work in the MSHIA program. Ten credits taken in the medical school will count toward the 37 credits required for the MSHIA degree. At the beginning of the fifth year, students will recommence taking courses in the medical program. Students will graduate with both degrees at the end of the 5 years.

(2) Students will be expected to complete a minimum of 37 credits for the MSHIA and 189 credits as well as all requirements for the MD degree. Twenty-seven of those credits will be taken in the College of Business, with ten HWCOM credits being accepted toward the MSHIA degree. There is no change in course requirements for the MD degree.

(3) Students will apply for the combined MD/MSHIA pathway in the following manner: Medical students in the fall of their third year (prior to December 30) must be in good academic standing and must get approval from the Medical Student Evaluation and Promotions Committee (MSEPC), the Office of Student Affairs (OSA), and the Office of Academic Affairs (OAA), in order to apply for admission to the MSHIA program. Applications will be reviewed by the MSHIA program admissions committee. Applicants to the combined MD/MSHIA pathway will not be required to submit standardized test scores; they must have a minimum GPA of 3.0.

(4) Students begin taking classes in business in the fourth year. The entire fourth year is devoted to classes in the MSHIA program. There is also a mandatory requirement for MSHIA program virtual (online) residencies.

The curriculum in the MD/MSHIA pathway follows a prescribed course of study shown below. The proposed schedule is as follows. (HWCOM does not have semesters. Therefore, we have used Period designations.)

--First Year Period 1 (MI) August to end of March: College of Medicine curriculum

--Second Year Period 2 (M2) April to end of March: College of Medicine curriculum

--Third Year Period 3 (M3) April to end of March: College of Medicine: all required clerkships

--Fourth Year medical students start M4 period in April. Then, in August start the MSHIA courses.

Medical students must be counseled as to when to take USMLE Step I and USMLE Step 2 CK and CS, and which electives, selective or subinternship to engage in prior to taking a leave to pursue the MSHIA program.

The remainder of Year 4 then consists of MSHIA courses. That is, from August through end of June.

--Fifth year- The MSHIA program ends the end of June. Medical students take the remainder of the 5th year, which is the M4 period in the medical school (July through April).

Medical students will be counseled as to which electives, selectives or subinternship to take prior to applying for residency in September of this fifth year.

The following courses are required for the MSHIA program.

Complete ALL of the following Courses:

- HIM6628 - Health Data Visualization
- HIM6865 - Healthcare Database Systems
- HIM6682 - Quality and Outcomes Analytics
- HIM6685 - Clinical Information Systems
- HIM6517 - Healthcare Project Management
- HIM6124 - Interoperability in Healthcare
- HIM6527 - Healthcare Information Security and Privacy
- HIM6858 - Health Informatics/Analytics Practicum

Note: HIM6858 HIA Practicum will be proposed by student and subject to the approval of the department housing the MSHIA program, Information Systems and Business Analytics.

Also, one of the following courses (selected at the Department's discretion for each cohort) is required for the MSHIA degree:

--HIM6694 Consumer Hlth Informatics

--HIM6937 Special Topics

--MSHIA Virtual Residencies I, II, and III

Residencies are mandatory, professional development non-credit requirements (typically include virtual meetings and independent activities, for example Six Sigma).

Additional Comments:

The following courses are waived in MSHIA: 10 credits

HIM5065 Intro Hlt & Hlt Info

HIM6019 Legal & Ethical Aspect Hlthcar

HIM6267 Foundations in HI&A Admin

QMB6357 Business Statistical Anal

Credits accepted from HWCOM: 10 credits

MDR7910 Research Scholarship

BMS6880 Clinical Research & EBM I

BMS6067 Syst Based Practice

BMS6820 Medical Jurisprudence

BMS6826 Ethical Foundation of Med

There are, therefore, 9 courses to be taken in the College of Business, for a total of 27 credits.

Students must earn a minimum GPA of 3.0 in the MSHIA program to be conferred with the MSHIA degree.

Other Curricular Offering: MS in Health Informatics and Analytics and Professional MBA in Healthcare Policy and Management Joint Degree Pathway

Type

Completion Requirement

Joint Degree Pathway

The Master of Science in Health Informatics and Analytics and the Professional Master of Business Administration (MBA) in Healthcare Policy and Management program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University are offering a joint degree pathway culminating in both a Professional MBA in Healthcare Policy and Management and a Master of Science in Health Informatics and Analytics degree. Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. To obtain the MSHIA degree, the student will have to fulfill all the MSHIA program requirements. To obtain the MBA degree, the student will have to fulfill all the MBA program requirements. The two degrees will have four common, or overlapping, courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. Directors of the MBA and MSHIA degree programs may adjust these exact course requirements as a result of future changes to the MBA or MSHIA curriculums.

Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree pathway candidate. With the joint degree pathway students will take a total of 60 credit hours to get both degrees. Without the joint degree pathway students will need to take 78 credit hours to get both degrees. Thus, Professional MBA in Healthcare Policy and Management students who have taken twelve credits of MSHIA common courses may obtain an MSHIA degree with an additional 24 credits. MSHIA students who have taken twelve credits of a Professional MBA in Healthcare Policy and Management common courses may obtain an MBA in Healthcare Management degree with only 24 credits.

For additional information, contact the MBA office at (305) 348-3256 or the MSHIA Office at (305) 348- 0594.

Fulfill ALL of the following requirements:

For the MSHIA

To obtain the MSHIA degree, MBA in Healthcare Management students must complete a total of 24 credits as follows.

Earn at least 24 credits from the following:

- HIM6682 - Quality and Outcomes Analytics
- ISM6205 - Database Management
- ISM6326 - Information Security and Compliance
- ISM6136 - Business Analytics Applications
- HIM6685 - Clinical Information Systems
- ISM6305 - Information Systems Planning

- ISM6316 - Project Management
- ISM6128 - Business Process Design

AND

Transferred from Professional MBA in Healthcare Policy and Management

From the Professional MBA in Healthcare Policy and Management program the following 12 credit hours will be transferred:

Complete ALL of the following Courses:

- BUL6810 - Legal Environment of Business
- ISM6021 - Management of Information Systems
- MAN6245 - Organizational Behavior
- MAN6097 - Managerial Decision-Making in Health Economics

Joint Degree Pathway

Fulfill ALL of the following requirements:

For the Professional MBA in Healthcare Policy and Management

To obtain the Professional MBA in Healthcare Policy and Management, MSHIA degree students must complete a total of 24 credits as follows:

Earn at least 24 credits from the following:

- QMB6616 - Business Process & Operations Analysis
- MAN6098 - Management of Healthcare Finance and Reimbursement
- MAR6805 - Marketing Management in the Global Environment
- ACG6026 - Accounting for Managers
- BUL6605 - Healthcare Fraud and Abuse Law and Regulation
- MAN6726 - Strategic Management
- FIN6406 - Corporate Finance
- ACG6175 - Financial Reporting and Analysis

AND

Transferred from MSHIA

From the MSHIA program the following 12 credit hours will be transferred:

Complete ALL of the following Courses:

- HIM5065 - Introduction to Health and Health Informatics
- HIM6019 - Legal and Ethical Aspects of Healthcare
- QMB6357 - Business Statistical Analysis
- MAN6245 - Organizational Behavior
  OR HIM6694 - Consumer Health Informatics

HIGHED:MS - Master of Science in Higher Education Administration

Overview

Degree Offered
MS - Master of Science

Program Title
Higher Education Administration

The Master of Science (MS) in Higher Education Administration program prepares graduates to understand the shifting landscape of higher education, how colleges and universities function, and the experience of various constituent groups at institutions (e.g., students, staff, and faculty). Students develop as scholar-professionals in the context of one of the largest Hispanic-Serving Institutions in the country and in the diverse setting of South Florida.

For more information, visit the College of Arts, Sciences, and Education website.

To explore more about this program, visit the website below:

Requirements

Simple Requirements

Admissions Requirements

(1) A baccalaureate degree and an undergraduate GPA of 3.0 in the last 60 credit hours of upper-division undergraduate study;

(2) Work experience in higher education such as community college or student affairs areas is preferred but not required;

(3) Two (2) letters of recommendation;

(4) Personal statement;

(5) Resume.

(6) Letters and any other supporting documents are to be sent to the FIU Graduate Admissions Office.

(7) Applicants must choose one of the following majors: Higher Education Administration or International Higher Education.

Note: The GRE is not a requirement for admission into the M.S. in Higher Education Administration program.

Program Requirements

Program Credit Hours: 36

Type
Completion Requirement

Core Courses: 15 Credits

Students in all majors (Higher Education Administration and International Higher Education) complete the following courses:

Complete ALL of the following Courses:

- EDH6633 - Introduction to Higher Education Administration
- EDF5481 - Foundations of Educational Research
- EDH7058 - International Comparative Higher Education
- EDH6634 - Organization and Administration of Student Affairs
- EDH6066 - Contemporary Issues in Higher Education

Major Requirements

Higher Education Administration Major

The higher education administration major is designed for current and future scholar-practitioners seeking administrative and leadership roles in college and university contexts. The major prepares students to better understand contemporary issues in higher education by exploring historical and philosophical origins, applying theory to practice, and reflecting on the ethical considerations of policies and practices. Additionally, the major emphasizes developing higher education programs and initiatives that are inclusive, accessible, and respectful of the various identities, cultures, languages, and perspectives of campus stakeholders (e.g. students, staff, faculty). Special attention is given to the contributions of Minority-Serving Institutions in the United States.

Higher Education Administration Major: 21 Credits

Type
Completion Requirement

Major Courses: 21 Credits

In addition to the 15 hours of core courses (listed above), students take three (3) required courses and four (4) elective courses.

Fulfill ALL of the following requirements:

Required Courses: 9 Credits

Students must take the following three (3) required courses:

Complete ALL of the following Courses:

- EDH6404 - Legal Issues in Higher Education Administration
- EDH6061 - History of Higher Education
- EDH6045 - College Student Development Theory
  OR EDH6047 - College Student Life and Culture

AND

Elective Courses: 12 Credits

Students must choose four (4) elective courses from the list below or from other areas with advisor approval.

Complete at least 4 of the following courses:

- EDH6051C - Leadership in Higher Education
- EDH6637 - Crisis Management in Higher Education
- EDH6935 - Special Topics in Higher Education
- EDH6943 - Practicum in Higher Education Administration
- EDH6085 - Diversity and Social Justice in Higher Education
- EDH6401 - Counseling Skills for Higher Education Professionals
- EDH6041 - Foundations of Academic Advising

Practicum Experiences

A professional degree in university administration should allow for some guided practical experience. The practicum sections allow students the opportunity to earn credit while gaining valuable hands-on experience in a variety of administrative areas. Practicum sections will include an academic component designed by the Higher Education faculty and the section supervisor. Students with less than 2 years of full-time professional experience, or equivalent, working in higher education should take practicum.

International Higher Education Major

The international higher education major is designed for current and future scholar-practitioners seeking internationalization roles on college and university campuses, in departments such as international student and scholar services, education abroad, global learning initiatives, international student admissions, and pathway programs for international students. In addition, students in the International Higher Education major will gain the knowledge and skills to work as scholars, researchers, and practitioners in governmental, non-governmental, and private industries that focus on student and faculty success in higher education settings throughout the world.

International Higher Education Major: 21 Credits

Type

Completion Requirement

Major Courses: 21 Credits

In addition to the 15 hours of core courses (listed above), students take three (3) required courses and four elective courses.

Fulfill ALL of the following requirements:

Complete three (3) required courses:

Complete ALL of the following Courses:

- EDF6850 - Comprehensive Internationalization: Practices and Applications
- EDH6404 - Legal Issues in Higher Education Administration
- EDF6636 - Intercultural Studies: A Qualitative and Quantitative Analysis
  OR EDF6852 - Educational Development Issues in Context: A Multidisciplinary Perspective

AND

Elective courses: 12 Credits

Students must choose four (4) elective courses from the list below or from other areas with advisor approval.

Complete at least 4 of the following courses:

- EDF6365 - Cultural Identities and Conflict
- EDF6608 - Socio-Historical Foundations of Education
- EDF6636 - Intercultural Studies: A Qualitative and Quantitative Analysis
- EDF6658 - Selected Topics in International Development Education: Current Policy Issues and Problems
- EDF6766 - Education, the Environment, and Sustainable Futures
- EDH6045 - College Student Development Theory
- EDH6051C - Leadership in Higher Education
- EDH6085 - Diversity and Social Justice in Higher Education
- EDH6401 - Counseling Skills for Higher Education Professionals
- EDH6637 - Crisis Management in Higher Education
- EDH6935 - Special Topics in Higher Education
- EDH6943 - Practicum in Higher Education Administration

HIGHED:PHD - Doctor of Philosophy in Higher Education

Overview

Degree Offered
PHD - Doctor of Philosophy

Program Title
Higher Education

The PhD in Higher Education program is designed to provide the opportunity for students to enhance analytical and research skills for leadership roles in institutions of higher education. Graduates are prepared for academic and administrative positions, as faculty, or as policy analysts in federal, state, or institutional roles. The program is designed to stimulate research related to higher education, particularly in urban settings.

For more information, visit the College of Arts, Sciences, and Education website.

To explore more about this program, visit the website below:

College of Arts, Sciences, and Education

Diploma Title
Doctor of Philosophy in Higher Education

Total Credits
75

Program Length in Years Based on Full-Time Enrollment
5

CIP Code
13.0406

Requirements

Simple Requirements

Admissions Requirements

Applicants to the program must submit the following records and documents to the Office of Admissions:

(1) A completed online application for Graduate Admission with appropriate fees;

(2) Official transcripts of all higher education institutions attended;

(3) Three letters of reference attesting to the applicant’s ability to succeed in doctoral study;

(4) A current résumé/vitae;

(5) A statement that sets forth the applicant’s research interests and career goals and relates these goals to the completion of the Ph.D. Program in Higher Education; and

(6) A writing sample illustrating research skills (such as a thesis, journal article, paper submitted for academic credit; etc.).

Letters and any other supporting documents are to be provided to the FIU Admissions Office following instructions in the online portal.

No action will be taken on incomplete files. A file is considered incomplete if any of the above is missing.

The application and all supporting documentation are reviewed by program faculty using the criteria noted below. Exceptions to one or more of the stated criteria may be granted on the basis of other compelling evidence that the applicant is likely to be successful in this doctoral program.

(1) A grade point average (GPA) of at least 3.0 (on a 4.0 scale) in upper level undergraduate credits;

(2) A cumulative 3.25 GPA for all graduate work attempted.

(3) International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the iBT TOEFL or 6.5 overall on the IELTS is required.

(4) The evidence from the writing sample that the applicant can perform doctoral-level work.

(5) A possible interview with the Doctoral Admissions Committee.

Members of the program's graduate faculty will constitute the Doctoral Admissions Committee. Upon completion of the review of the applicant's file and the interview, the Doctoral Admissions Committee will make recommendations to the University Graduate School.

As admission to programs is competitive, meeting minimum admission requirements does not assure admission into the program. A candidate for admission to the program will be judged not only on the basis of quantitative criteria but also in relation to prior experience, especially as it relates to future career goals and faculty expertise.

Admission into the doctoral program takes place once a year for entry in the Fall semester. Applicants should prepare all application materials in time for the program faculty and the Office of Admissions to receive them no later than December 1 for the following year's fall admissions.

Program Requirements

Degree Program Requirements

Type

Completion Requirement

Composition of Coursework

A minimum of 75 credits are required for students entering the Ph.D. program without a Master's Degree, 63 credits for students entering the Ph.D. Program with a Master's Degree from an accredited institution in a nonrelated field, or 54 credits for those entering with a Master's Degree in Higher Education or related field from an accredited institution.

Fulfill ANY of the following requirements:

Ph.D. Program with a Master's Degree in Higher Education or Related Field

Coursework for students entering the Ph.D. Program with a Master's Degree in Higher Education or related field are as follows:

1. EDH7666 Doctoral Seminar Doctoral Seminar (3)
2. Research Methods/Methodology (12 credits minimum)
3. Higher Education Core (24 credits minimum)
4. Dissertation (15 credits minimum)

OR

Ph.D. Program with a Master's Degree in a Non-Related Field

Coursework for students entering the Ph.D. Program with a Master's Degree in a non-related field are as follows:

1. EDH7666 Doctoral Seminar Doctoral Seminar (3)
2. Research Methods/Methodology (12 credits minimum)
3. Higher Education Core (33 credits minimum)
4. Dissertation (15 credits minimum)

OR

Ph.D. Program without a Master's Degree

Coursework for students entering the Ph.D. Program without a Master's Degree are as follows:

1. EDH7666 Doctoral Seminar Doctoral Seminar (3)
2. Research Methods/Methodology (12 credits minimum)
3. Higher Education Core (45 credits minimum)
4. Dissertation (15 credits minimum)

Dissertation

All doctoral students must be continuously enrolled in a minimum of three (3) dissertation credits each term following advancement to candidacy until graduation.

Earn at least 15 credits from the following:

- EDH7980 - Ph.D. Dissertation

Dissertation Committee

Prior to defending a proposal, the students must select a dissertation committee, made up of at least 4 faculty members, one of which will be the director (or chair) of the dissertation. The chair/director of the dissertation must have Dissertation Advisor Status. Further information about the dissertation is available from the student's advisor, and the University Graduate School.

Candidacy Examination and Advancement to Candidacy

To advance to candidacy, the student must select a dissertation committee and submit a draft of his or her proposal to the dissertation committees. The dissertation committee will review the proposal and determine, by majority votes, whether or not to advance the student to candidacy and to the proposal defense. This process constitutes the candidacy exam. To continue in the program and barring official approval by the University Graduation School of a leave of absence during this process, the student will have 1 year after completion of all non-dissertation coursework to be admitted to candidacy.

If the dissertation committee advances the student to candidacy. The student will continue to work on their proposal, complete the IRB approval process, if applicable, and successfully defend his or her dissertation proposal. If the dissertation committee does not advance the student to candidacy, the student will be able to submit their proposal a second time. If the dissertation committee does not advance the student to candidacy following the second submission, the student will not be able to continue in the program.

The student will be required to submit all documents and forms related to the advancement to candidacy.

The University Graduate School admits students to candidacy. After advancement to candidacy, students must be continuously enrolled in a minimum of 3 dissertation credits (EDH7980 Ph.D. Dissertation) each term until graduation.

Dissertation Proposal

A student admitted to candidacy must successfully complete and defend a proposal for their dissertation, which constitutes the research plan for the dissertation. More information about the dissertation proposal is available from the student's advisor.

Master of Science in Higher Education Administration

Doctoral candidates in Higher Education who have not previously earned a master's degree in the field, who have completed 36 credits deemed appropriate by the program faculty (up to 6 credits can be applied from a previously master's degree), and whose D-2 has been approved by the University Graduate School, can receive a Master of Science in Higher Education Administration en route to the PhD.

The Dissertation

The dissertation must be an original contribution to knowledge. The doctoral dissertation is the final component of the series of academic experiences that culminate in the awarding of the Ph.D. degree. A successful dissertation is a demonstration of the candidate's ability to use the tools and methods of basic and/or applied research in the field, to organize the findings, and to report them in a literate, logical, and compelling fashion. In addition to EDH7980 Ph.D. Dissertation, students must enroll in EDH7985 Dissertation Defense in the term in which they will defend their dissertation.

Time to Completion

The time to completion, from admission to graduation, is nine (9) years. Students must have completed all coursework and program requirements within that time, including a successful defense of the dissertation. Coursework applied toward completion of program requirements cannot be more than nine years old at the time of graduation, unless the coursework was transferred from a previously-earned graduate degree.

Graduation Requirements

The following is required for successful graduation from the program:

(1) Successful completion of all course work and candidacy exams;

(2) GPA of 3.00 or better; and

(3) Successful completion, defense, and University approval of the dissertation.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

HISAR:CFI - Graduate Certificate in History, Theory and Criticism of Architecture

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in History, Theory and Criticism of Architecture

The Graduate Certificate in History, Theory, and Criticism of Architecture offers exceptional students from the School of Architecture and throughout the university community a chance to follow a rigorous course of study in architectural history, theory, and criticism, including a required seminar devoted to research methodologies. For architecture students, we offer the further option of a pedagogical apprenticeship, where faculty members mentor students seeking to become teachers. The certificate program helps students hone their critical skills as they generate new knowledge and embark on self-directed research.

For more information, visit the College of Communication, Architecture, and the Arts website.

No specific admissions requirements. Contact advisor for additional information.

This certificate is open to degree-seeking students only.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Ownership of Student Work

Student work, submitted to the department in satisfaction of course or degree requirements, becomes the physical property of the department. However, students retain all rights to the intellectual property of such work. This work may include papers, drawings, models, and other materials. The department assumes no responsibility for safeguarding such materials. At its discretion, the department may retain, return, or discard such materials. The department will not normally discard the materials of currently enrolled students without giving the student a chance to reclaim them.

Certificate Requirements

Participants must fulfill the requirements outlined for the Graduate Certificate in History, Theory and Criticism of Architecture and complete each course with a satisfactory grade.

Program Credit Hours: 18

Type

Completion Requirement

Certificate Requirements

Fulfill ALL of the following requirements:

Required Courses: 9 credits

Complete ALL of the following Courses:

- ARC5205 - Advanced Design Theories
- ARC5744 - History of Design from the XIX Century to Present
- ARC6947 - Research Methods

**ARC6947 Research Methods (offered during fall semester)*

AND

Electives: 9 Credits

The nine remaining credits hours may be drawn from a variety of courses. The following list represents examples of elective courses appropriate for the completion of the certificate program. Students should consult with faculty and advisors since new courses are frequently added. Up to six course credits in departments other than architecture may be included, as approved by the graduate advisor.

Earn at least 9 credits from the following:

- ARC5035 - Film and the Architecture of Modern Life
- ARC5396 - Case Studies in Architecture
- ARC5711 - History of Design Antiquity to Middle Ages
- ARC5733 - History of Design Renaissance to XIX Century
- ARC5935 - Special Topics
- ARC5744 - History of Design from the XIX Century to Present
- ARC5745 - Urban Architecture and the 20th Century
- ARC5786 - Urbanism: Social History of the Built Form
- ARC5798 - Hotels: Miami and La Habana at Mid-Century
- ARC5933 - Special Topics
- ARC5776 - Modern Architecture - Projects and Polemics
- ARC5037 - Architecture and Video Media
- ARC5175 - Contemporary Digital Strategies

- ARC5745 - Urban Architecture and the 20th Century
- ARC6947 - Research Methods
- IND5138 - History of Modern Interiors
- LAA5235 - Theory of Landscape Architecture
- LAA5716 - History of Landscape Architecture
- LAA6247 - Modern Landscape Architecture

Additional Comments:

Teaching Opportunities

Full-time graduate students have the opportunity to work as Graduate Assistants in courses related to the student's area of focus, including courses in history, theory and criticism, as well as design studios. Students enrolled in the Pedagogy Seminar discuss teaching methods with faculty members from the School of Architecture and from other disciplines across the university.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

HIST:BA - Bachelor of Arts in History

Overview

Degree Offered
BA - Bachelor of Arts

Program Title
History

The Bachelor of Arts (BA) degree in History is a forward-thinking and relevant course of study that analyzes the complex interactions between the world's cultures and facilitates development of the analytical means that will help students understand the past and change the future.

For more information, visit the Steven J. Green School of International and Public Affairs website.

Admissions Requirements for the Bachelor of Arts (BA) in History

See general university admissions requirements at admissions.fiu.edu.

Admissions Requirements for the Combined BA in History to Master of Arts (MA) in History Accelerated Degree Pathway

(1) At the time of application, students must be scheduled to complete a minimum of 75 credits towards their bachelors' degree by the end of the current semester. These credits must include at least 4 upper-division history courses (preferably at FIU). Students generally begin the application process at the beginning of first semester of their 3rd year.

(2) Students who satisfy the above requirement may submit an application on a rolling basis, but the admission decision will not be finalized until the current semester's grades are posted.

(3) Applicants must have at least a 3.25 upper-division GPA (UG60) and a minimum 3.5 GPA in upper-division FIU history courses. (Upper-division courses not taken at FIU may be considered at the discretion of the Graduate Committee.) These GPA requirements are minimum requirements, and admission is not guaranteed to students who meet those thresholds.

(4) Applicants must provide two letters of recommendation from full-time FIU History faculty. (Letters from full-time faculty not at FIU may be considered at the discretion of the Graduate Committee.)

(5) Applicants must write a statement of purpose and submit a writing sample that is relevant to the discipline.

The History Department's Graduate Committee will make the final decision regarding admission to the program. Students should consult the History Department website and the Graduate Program Director for a more comprehensive discussion of admission and program requirements.

Program Requirements

Academic Progression Requirements

Students are admitted directly to their chosen major at the university. Students are expected to make good progress based on critical indicators that include course completion and GPA requirements. In cases where students are not making successful progress, a change of major may be required. Academic advisors work with students to identify an appropriate major where a student will be successful in completing an undergraduate degree.

Lower Division Preparation

Type

Prerequisite

Common Prerequisites: 6 credits

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Complete at least 2 of the following courses:

- AFH2000 - African Civilizations
- AMH2010 - American History Introductory Survey to 1877
- AMH2020 - American History Introductory Survey Since 1877
- EUH2011 - Western Civilization: Early European Civilization
- EUH2021 - Western Civilization: Medieval to Modern Europe
- EUH2030 - Western Civilization: Europe in the Modern Era
- LAH2020 - Latin American Civilization
- WOH2001 - World Civilization

Check with advisor to determine remaining electives.

Additional Comments:

Major Requirements

BA in History: Social Studies Education Major

This program prepares students interested in Social Studies and social sciences for teaching at the secondary level. The new degree incorporates current results from education research, effective curriculum materials, use of technology, and a global perspective in collaborative learning. Program requirements include field experiences and an internship. Interested students are encouraged to contact the department for additional details and information on teacher support programs.

To qualify for admission to the program, undergraduate candidates must have met all the lower division requirements including: 60 credit hours of lower-division courses, all general education requirements, lower division GPA of 2.5 or higher, and achieve the competencies of the FTCE General Knowledge Exam (GK).

All students must pass the GK Exam by the time they reach 72 credit hours in their program of study. All stated admission requirements are to be considered minimum. A student who meets these minimum requirements is not automatically assured admission. Program admission requirements are subject to change. It is the responsibility of the student to assure that he/she has met the requirements.

Lower Division Preparation for the Social Studies Education Major

Type

Prerequisite

Common Prerequisites: 6 credits

Complete at least 2 of the following courses:

- WOH2001 - World Civilization

- AMH2020 - American History Introductory Survey Since 1877

- SSE4942 - Student Teaching Internship
- RED4325 - Subject Area Reading
- TSL4324 - ESOL Issues and Strategies for Content Area Teachers

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Teacher Certification

Students with a BA in History degree can apply for temporary teacher certification, allowing them to work while applying for full certification. Students who complete the Education Minor will have fulfilled some of the requirements of full certification. Therefore, students are encouraged to minor in Education while they complete the requirements for this major.

Students interested in the Teacher Certification should contact the School of Education and Human Development, Teaching and Learning Department.

Other Curricular Offering: Combined BA in History to MA in History Accelerated Degree Pathway

This accelerated BA/MA degree pathway allows our highly qualified undergraduate students the opportunity to pursue a MA in History degree while they are completing their undergraduate studies. Applicants must meet the admissions criteria for the graduate degree program to which they are applying.

Students who pursue this accelerated degree pathway must complete all requirements for the undergraduate history major, including the prerequisites and the senior seminar, our capstone course. As part of the accelerated degree pathway, students also will enroll in three 5000-level courses (9 credits), which will count towards the BA and MA

degrees. After completing all undergraduate credits, including the double counted courses, students will receive the BA degree. In their final year, students will take a total of 21 credit hours at the graduate level, including a two-semester Research Seminar (6 credits), Historical Methods (3 credits), and graduate seminars (12 credits).

Credit/Course Requirements

Senior Year

In their senior year, students will complete three History courses at the 5000 level (9 credits) and complete the exit requirement for the undergraduate History major, the Senior Seminar, HIS 4935 (3 credits). Students will be advised to take one graduate class and the senior seminar in the first semester of their senior year, and two graduate classes in the second semester of their senior year.

Students must apply for graduation so that they will receive the BA in History degree at the end of their senior year.

Fifth Year

During the fifth year, students will complete 21 hours of graduate level work, including the following:

-- One two-semester; History Graduate: 6 credits

-- Research Seminar (begins in Fall only)
-- HIS6059 Historical Methods: 3 credits
-- Four Courses at the 5000 or 6000 level, 5000-level courses taken in the fifth year may not be cross-listed with 4000-level courses: 12 credits

Students are expected to finish their MA coursework within a year of receiving their BA degree. Students who do not finish within a year may continue in the program at the discretion of the Graduate Program Director.

HIST:MA - Master of Arts in History

Overview

Degree Offered
MA - Master of Arts

Program Title
History

The Master of Arts (MA) in History allows students to gain vital, transferable skills in research, communication, and investigative work as they learn about past societies and correlate these lessons to modern issues. Students engage in cross-cultural comparative work across a wide geographical and temporal range.

For more information, visit the Steven J. Green School of International and Public Affairs website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Master of Arts (MA) in History

Requirements for admission into the Master of Arts (MA) in History degree program are the same regardless of the option selected. Applicants must also satisfy any additional requirements the university sets for admission to graduate work. Applications should include transcripts from any post-secondary institutions attended, two (2) letters of recommendation, a writing sample, and a 2–4-page statement of purpose describing the applicant's academic plans and long-term career goals.

Admissions into the on-campus and online MA programs are generally conducted twice a year (a deadline of September 1 is set for admission to begin the following Spring; a deadline of February 1 is set for admission to begin the following Fall). Completed applications generally receive notification of admission within 6-8 weeks.

(1) Applicants must hold a bachelor’s degree from an accredited institution and have a 3.25 GPA in upper-level work (UG 60). Applicants who believe their applications would be strengthened by high GRE scores may also submit them. The GRE, however, is not required.

(2) Applicants must have completed 12 credits (on the basis of 3-credit courses) in upper division undergraduate courses in History, or the equivalent, as approved in writing by the Graduate Program Director.

Any applicant with fewer than twelve (12) credits of upper division undergraduate courses in the discipline of History, or the equivalent, should consult the Graduate Program Director about the possibility taking at least six (6) graduate credits as a non-degree seeking student (consult the Office of Graduate Admissions). After completing this work with a grade of “B+” or above, the student may apply for regular admission. Other methods may also be pursued with the written permission of the Graduate Program Director.

(3) Applicants should coordinate the timely submission of two letters of recommendation (ideally from university professors who can address the applicant's ability to succeed in graduate school) with waiver forms (which are signed by applicant during the application process).

(4) Applicants should submit a curriculum vitae or resume.

(5) Applicants should submit a statement of purpose (2-4 pages). The statement should provide information about the applicant's areas of historical interest, background in history, and any other details that will help evaluate their suitability for the program.

(6) Applicants should submit a writing/research sample. The single piece of academic writing, ideally in history, should be 5-10 pages in length.

(7) Applicants should submit official post-secondary transcripts (with translations, if not in English).

(8) Applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. Please refer to the Admissions English Proficiency criteria at https://admissions.fiu.edu/international/graduate-school/english-language-proficiency/index.html.

The above admissions criteria are only minimum requirements. All applications are reviewed by the Graduate Committee which makes the final admissions recommendations to the University Graduate School.

Admissions Requirements for the Combined Bachelor of Arts (BA) in History to MA in History Accelerated Degree Pathway

(1) At the time of application, students must be scheduled to complete a minimum of 75 credits towards their bachelors' degree by the end of the current semester. These credits must include at least 4 upper-division history courses (preferably at FIU). Students generally begin the application process at the beginning of first semester of their 3rd year.

(2) Students who satisfy the above requirement may submit an application on a rolling basis, but the admission decision will not be finalized until the current semester's grades are posted.

(3) Applicants must have at least a 3.25 upper-division GPA and a minimum 3.5 GPA in upper-division FIU history courses. (Upper-division courses not taken at FIU may be considered at the discretion of the Graduate Committee.) These GPA requirements are minimum requirements, and admission is not guaranteed to students who meet those thresholds.

(4) Applicants must provide two letters of recommendation from full-time FIU History faculty. (Letters from full-time faculty not at FIU may be considered at the discretion of the Graduate Committee.)

(5) Applicants must write a statement of purpose (2-4 pages) and submit a writing sample (5-10 pages) that is relevant to the discipline.

The Graduate Committee will make the final decision regarding admission to the program. Students should consult the Department of History website and the Graduate Program Director for a more comprehensive discussion of admission and program requirements.

Program Requirements

For all routes, the following limits are placed on accumulating credits towards the MA degree:

· No more than 6 credits of HIS5908 are permitted, unless approved by the Graduate Program Director.

· No more than 3 credits can be taken outside of the History Department towards the degree, unless approved by the Graduate Program Director.

· Students must receive the grade of “B” (3.0) or better in order for any course to count toward the degree.

Report Option

(1) A minimum of 30 credits of course work is needed for the MA degree. The report option does not set requirements for Core or Breadth Areas distribution. Students will design their course work in consultation with the Graduate Program Director and the relevant faculty. All courses must be taken in the Department of History at FIU or be approved in writing by the Graduate Program Director.

(2) Students must complete one two-semester research sequence (6 credits). With the consent of the professor for whom the research paper or "report" was written, students may revise the report and submit it to the Graduate Committee for final approval.

(3) Students must complete Historical Methods, HIS6059 Historical Methods (3 credits)

(4) At least two courses (6 credits) must be comparative. Historical Methods (HIS6059) does not fulfill this requirement. Comparative courses are generally designated under HIS6289, but others with the HIS or WOH prefixes may be approved for this purpose by the Graduate Program Director.

Public History Option

(1) A minimum of 30 credits are required for the degree.

(2) Students must complete Historical Methods, HIS6059 Historical Methods (3 credits).

(3) Students must complete one two-semester research sequence (6 credits).

(4) Students must take at least two courses (6 credits) that are deemed comparative. Historical Methods (HIS6059) does not fulfill this requirement. Comparative courses are generally designated under HIS6289, but others with the HIS or WOH prefixes may be approved for this purpose by the Graduate Program Director.

(5) Students must take at least two courses (6 credits) designated as public history, most often distinct iterations of either HIS5067 or HIS5084. Other appropriate courses may be substituted with permission of the Graduate Program Director.

(6) Students must complete 6 credits of HIS 6942, Public History Internship (3 credits generally equate to the completion of 160 hours of work in the internship; 6 credits generally equate to the completion of 320 hours of work in the internship). Students should work closely with the Public History Coordinator and, as appropriate, the Graduate Program Director, to select and facilitate their work as part of this internship, which helps students gain meaningful experience at cultural institutions such as libraries, archives, museums, historic houses, digital history projects, etc.

MA in History *en route*

Only students who have been admitted to the PhD program without previously receiving an MA in History are eligible to pursue this option.

(1) Completion of 39 credits in graduate history courses. All coursework must be taken at FIU and receive a grade of “B” (3.0) or better.

(2) Completion of one two-semester Research Seminar (6 credits)

(3) Completion of Historical Methods, HIS6059 Historical Methods (3 credits).

(4) Demonstrated reading competency in one language other than English.

(5) Approval of this option by the Graduate Program Director, who will determine if the student is making satisfactory progress towards the PhD.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Combined Bachelor of Arts in History to Master of Arts in History Accelerated Degree Pathway

This accelerated BA/MA degree pathway allows our highly qualified undergraduate students the opportunity to pursue a MA in History degree while they are completing their undergraduate studies. Applicants must meet the admissions criteria for the graduate degree program to which they are applying.

Students who pursue this accelerated degree pathway must complete all requirements for the undergraduate history major, including the prerequisites and the senior seminar, our capstone course. As part of the accelerated degree pathway, students also will enroll in three 5000-level courses (9 credits), which will count towards the BA and MA degrees. After completing all undergraduate credits, including the double counted courses, students will receive the BA degree. In their final year, students will take a total of 21 credits at the graduate level, including a two-semester Research Seminar (6 credits), Historical Methods (3 credits), and graduate seminars (12 credits).

Credit/Course Requirements

Senior Year

In their senior year, students will complete three History courses at the 5000 level (9 credits) and complete the exit requirement for the undergraduate History major, HIS4935 Capstone Research (3 credits). Students will be advised to take one graduate class and the senior seminar in the first semester of their senior year, and two graduate classes in the second semester of their senior year.

Students must apply for graduation so that they will receive the BA in History degree at the end of their senior year.

Fifth Year

During the fifth year, students will complete 21 credits of graduate level work, including the following:

-- Historical Methods (HIS6059): 3 credits

--One two-semester research sequence (begins in Fall only): 6 credits

--Research Seminar (begins in Fall only)

--Four courses at the 5000 or 6000 level, 5000-level courses taken in the fifth year may not be cross-listed with 4000-level courses: 12 credits

Students are expected to finish their MA coursework within a year of receiving their BA degree. Students who do not finish within a year may continue in the program at the discretion of the Graduate Program Director.

HIST:PHD - Doctor of Philosophy in History

Overview

Degree Offered
PHD - Doctor of Philosophy

Program Title
History

The Doctor of Philosophy (PhD) in History offers students opportunities to take courses and gain expertise on Latin America and the Caribbean, Africa, the United States, Europe, and Asia. The program is the nation's first and most experienced doctoral program centering Atlantic histories, offering innovative cross-regional and comparative perspectives and training from pre-colonial times to the modern era. It includes the study of fundamental exchanges of peoples, technologies, and ideas that have defined and challenged communities across wide spans of time and space.

The doctoral program emphasizes **Comparative and Atlantic History** and explores the many dimensions of these exchanges. It is designed around a curriculum that emphasizes comparative and Atlantic frameworks while reflecting the vitality of a cross-disciplinary approach.

Admissions Requirements

Admissions Requirements for the PhD in History

Admission into the PhD program takes place once a year for entry in the Fall semester. Students with a BA are eligible to apply, but they must have at least 12 credit hours (on the basis of 3-credit courses) in upper-division undergraduate courses in the discipline of history. Prospective students who already hold an MA in a cogent field must also meet those requirements.

Applicants should prepare all application materials in time for the Department of History and the Office of Graduate Admissions to receive them no later than December 1 for the following academic year's fall admissions. Applicants are usually notified of the department's recommendation regarding their application no later than March 15.

Every applicant must complete an application form and pay the application fee to the Office of Graduate Admissions.

The online application for the PhD in History includes:

(1) Official transcripts of all prior college-level work (undergraduate bachelor's degree and any graduate transcripts);

(2) Minimum undergraduate GPA of 3.25 in upper-level course work. Applicants with the MA degree are required to have a graduate GPA of at least 3.25;

(3) Curriculum vita/resume;

(4) Writing sample. Applicants should submit a single, article-length (30 pages or fewer) piece of academic writing, preferably demonstrating the use of primary sources and/or analysis and engagement with historiography;

(5) Statement of purpose and research interests (3-5 pages);

(6) At least two letters of recommendation together with the waiver forms (waivers are completed during the application process);

(7) Applicants from non-English speaking countries, including internationally educated students from the United States, must demonstrate proficiency in English. The History Department abides by the Admissions English Proficiency criteria set by the university, which can be found here. FIU only accepts official test scores or official documentation sent directly from the testing agency or organization to meet this requirement. Among the possibilities students can use to demonstrate these criteria are TOEFL iBT/PBT: 80/550 and IELTS: 6.5.

These are the minimum requirements. All applications are reviewed by the Graduate Studies Committee, which makes all final admissions decisions.

In addition to the standalone PhD in History, the Department of History offers three dynamic joint programs with other units at FIU, wherein an MA in a cogent discipline is completed en route to completing the PhD in History:

- PhD in History/MA in African and African Diaspora Studies
- PhD in History/MA in Latin American and Caribbean Studies
- PhD in History/MA in Asian Studies

Applicants seeking admission into a joint program must meet the minimum requirements for the History Department and the other unit or department. Admission requirements for joint programs may differ from one another and are detailed below. When units require the same materials (e.g., official transcripts), applicants do no need to submit them more than once as part of the application. Applicants should decide on their own if other materials (e.g., letters of recommendation, statement of purpose, research sample) are best suited for both programs, or whether sending additional materials tailored to a distinct program is most appropriate.

Admissions Requirements for the Master of Arts (MA) in African and African Diaspora Studies and PhD in History Joint Degree Pathway

Applicants must meet the following minimum requirements to be considered for admission.

(1) Baccalaureate degree from an accredited institution for higher education (or equivalent);

(2) Minimum cumulative grade point average of 3.0 on a 4.0 scale (or equivalent) for the last two years of undergraduate work and/or a GPA of 3.25 on any previous graduate work;

(3) Applicants from non-English speaking countries, including internationally educated U.S. students, must demonstrate proficiency in English. The History Department abides by the Admissions English Proficiency criteria set by the university, which can be found here. FIU only accepts official test scores or official documentation sent directly from the testing agency or organization to meet this requirement. Among the possibilities students can use to demonstrate these criteria are TOEFL iBT/PBT: 80/550 and IELTS: 6.5.

Admissions Procedures

To be accepted into this joint degree pathway, students must submit an application to the PhD in History with a sub plan for a MA in African & African Diaspora Studies. This designation will appear in the menu of programs in the graduate application. Applicants should prepare all application materials in time for the Department of History and the Office of Graduate Admissions to receive them no later than December 1 for the following year's fall admissions. Applicants will be notified of the department's recommendation regarding their application no later than March 15.

The following documents must be submitted as part of the application. They will be reviewed by the Admissions Committee from both units.

(1) Official transcripts of all prior college-level work (undergraduate bachelor's degree and any graduate transcripts);

(2) Official test scores or documentation demonstrating proficiency in English, if applicant is from a non-English country;

(3) A curriculum vita;

(4) A detailed statement of research interests, reasons for seeking the MA/PhD, future career goals, a summary of scholarly and extra-curricular activities, and the names of History Department faculty members who would be appropriate dissertation advisors (Note: Consult the department website for information about faculty members);

(5) A writing sample (such as a seminar paper) which demonstrates the ability to conduct research and write effectively; and

(6) Three letters of reference from academic sources or others able to judge academic abilities and potential.

In addition, discussing your research plans with members of the MA in African and African Diaspora Studies program and/or appropriate faculty in the Department of History prior to submitting your application is highly recommended.

Admissions Requirements for the MA in Asian Studies and PhD in History Joint Degree Pathway

The combined MA in Asian Studies/PhD in History joint degree pathway allows qualified graduate students to pursue both degrees simultaneously.

Admissions Procedures

To be accepted into this joint degree pathway, students must submit an applicant to the PhD in History with a subplan for the MA in Asian Studies. This designation will appear in the menu or programs in the graduate application. Applicants should prepare all application materials in time for the Department of History and the Office of Graduate Admissions to receive them no later than December 1 for the following year's fall admissions. Applicants will be notified of the department's recommendations regarding their application no later than March 15. Applicants must meet the admission eligibility requirements for both programs.

The following documents must be submitted as part of the application. They will be reviewed by the Admissions Committee from both units.

Applicants must meet one of the following minimum requirements for admission to the MA in Asian Studies program:

- A Bachelor's degree from an accredited institution;
- 3.2 GPA in undergraduate degree program;
- 3.0 GPA in undergraduate degree program with appropriate language or study abroad background as determined by examination or evaluated by the program faculty committee.
- A Master's degree in the humanities or social sciences from an accredited institution;

  NOTE: The above admission requirements are minimums and not all students meeting them are assured admission. The GRE is not required.

In addition to the requirements for the History Department PhD program, applicants seeking to apply for this joint program must meet the following requirements for the MA in Asian Studies (MAAS):

(1) Statement of purpose (750 words);

(2) One letter of recommendation;

(3) Transcripts from previous accredited institution(s);(4) International applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the iBT TOEFL or 6.5 overall on the IELTS is required. Certified official proof of diploma/degree is required if an undergraduate degree is earned from a foreign institution. Certified trans*lations* are also required if the original language is not English.

Admissions Requirements for the MA in Latin American and Caribbean Studies and PhD in History Joint Degree Pathway

The combined MA in Latin America and Caribbean Studies/PhD in History joint degree pathway allows qualified graduate students to pursue both degrees simultaneously.

Applicants must meet the following minimum requirements to be considered for admission.

(1) Baccalaureate degree from an accredited institution for higher education (or equivalent);

(2) Minimum cumulative grade point average of 3.0 on a 4.0 scale (or equivalent) for the last two years of undergraduate work and/or a GPA of 3.25 on any previous graduate work;

(3) Applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. Please refer to the Admissions English Proficiency criteria at https://admissions.fiu.edu/international/graduate-school/english-language-proficiency/index.html.

Admissions Procedures

To be accepted into this joint degree pathway, students must submit an application to the PhD in History with a sub plan for the MA in Latin American and Caribbean Studies. This designation will appear in the menu of programs in the graduate application. Applicants should prepare all application materials in time for the Department of History and the Office of Graduate Admissions to receive them no later than December 1 for the following year's fall admissions. Applicants will be notified of the department's recommendation regarding their application no later than March 15.

The following documents must be submitted as part of the application. They will be reviewed by the Admissions Committee from both units.

(1) Official transcripts of all prior college-level work (undergraduate bachelor's degree and any graduate transcripts);

(2) Official English Proficiency Test scores, if applicable;

(3) A curriculum vita;

(4) A detailed statement of research interests, reasons for seeking the MA/PhD, future career goals, a summary of scholarly and extra-curricular activities, and the names of History Department faculty members who would be appropriate dissertation advisors (Note: Consult the department website for information about faculty members);

(5) A writing sample (such as a seminar paper) which demonstrates the ability to conduct research and write effectively;

(6) Two letters of reference from current or former professors.

In addition, discussing your research plans with members of the MA in Latin American and Caribbean Studies program and/or appropriate faculty in the Department of History prior to submitting your application is highly recommended.

Program Requirements

A minimum of 75 credits are required for students entering the PhD program without a MA in History, or 45 for those entering with a MA in History degree from an accredited institution.

Language Requirements

All students must acquire reading competence in two languages other than English. The language requirement may be fulfilled in one of two ways: (1) achieving a High Pass on the departmental examination in one language, and at least a Pass on the second, or by receiving a grade of “B” or “B+” for Pass and “A” or “A-“ for High Pass in an appropriate course approved for this purpose by the Director of Graduate Studies; or (2) achieving a Pass or High Pass on the departmental examination in one language, and competency in digital humanities or a social science quantitative skills demonstrated by receiving a grade of “B” or “B+” for Pass and “A” or “A-“ for High Pass in an appropriate course approved for this purpose by the Graduate Program Director. At least one High Pass must be received. Language requirements vary, according to the concentration fields. Language exams will be graded on a High Pass, Pass, and Fail basis; a High Pass is required in the student’s primary language. Students should check with the department’s Graduate Program Director to determine which languages are appropriate for their program of studies

Composition of Course Work

Course requirements for students entering the PhD program without an MA in History are as follows:

3 credits in Historical Methods (HIS6059);

9 credits in courses designated with a Comparative/Atlantic History focus (HIS6289);

21 credits within a geographical concentration (e.g., AFH, AMH, ASH, EUH, LAH). This must include 6 credits in a two-semester research seminar;

15 credits outside of the geographical concentration area. This can include additional courses designated as Comparative/Atlantic History;

12 credits in elective courses;

No more than 6 credits may be taken outside of the department without permission from the Graduate Program Director;

A minimum of 15 credits of dissertation research (HIS7980)

Total: 75 credit hours

The course requirements listed below presume 30 transfer credits from a completed MA in History:

3 credits in Historical Methods (HIS6059);

6 credits in courses designated with a Comparative/Atlantic History focus (HIS6289);

12 credits within a geographical concentration (e.g., AFH, AMH, ASH, EUH, LAH). This must include 6 credits in a two-semester research seminar;

9 credits outside of the geographical concentration area. This can include additional courses designated as Comparative/Atlantic History;

No more than 3 credits can be taken outside the department without permission from the Graduate Program Director;

A minimum of 15 credits of dissertation research (HIS7980)

Total: 45 credit hours

Comprehensive Examinations and the Dissertation

Following completion of all course work, satisfaction of language requirements, and the constitution of a dissertation committee, students will be required to pass their comprehensive examinations as indicated in the department's guidelines. After the completion of their comprehensive examinations and the approval of a dissertation proposal by their dissertation committee, students will write a doctoral dissertation. The time needed for the research and writing of dissertations in History is variable, although doctoral candidates normally spend one year engaged in continuous field research and a second year in full-time writing.

Restrictions

(1) A grade of "B" or higher is required for graduate credit.

(2) At the end of the second semester of residence, or upon completion of the first 18 credits of coursework, and every year thereafter, PhD students must undergo an annual evaluation as required by the University Graduate School. The Graduate Program Director, the student's primary advisor, the Dissertation Committee, and members of the Graduate Faculty will examine and evaluate the student's progress. Students must meet the minimum standards of the University Graduate School, which can be found here. In addition, if a student is failing to meet the standards of the program and discipline, including receiving an evaluation of "unsatisfactory" or below, the Department of History's Graduate Committee may place the student on probation in the program and, if they see no substantive improvement after setting a clear path with listed objectives for the student to meet, move to dismiss the student from the program.

(3) No more than 6 credits of Topics (course number 5935) courses should be applied toward meeting the degree requirements without written permission of the Graduate Program Director.

(4) No more than 6 credits of HIS5908 should be applied toward meeting the degree requirements without written permission of the Graduate Program Director.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Master of Arts in African and African Diaspora Studies and PhD in History Joint Degree Pathway

The combined MA in African and African Diaspora Studies/PhD in History joint degree pathway allows qualified graduate students to complete the MA in African and African Diaspora Studies en route to the PhD in History. This pathway will train doctoral students within the discipline of History while giving them area studies expertise in African and African Diaspora Studies. In combination, these two programs provide a beneficial synthesis for interdisciplinary and comparative approaches on the African diasporic experience. Applicants must meet the admission eligibility requirements for both programs.

MA in African and African Diaspora Studies Requirements

This 30-credit, one year, three-semester program occurring over the Fall, Spring, and Summer includes 9 credits of core African and African Diaspora courses, which includes 3 credits for the directed research paper exit option, 9 credits of core History courses, and 12 credits of electives. In some instances, proficiency in a foreign language may be required (see details below).

MA in African and African Diaspora Core Courses: 9 credits

-- AFA5005 African and African Diaspora Studies Theory: 3 credits
-- AFA5855 Research Methods in African and African Diaspora Studies: 3 credits
-- AFA6920 African and African Diaspora Studies Graduate Colloquium: 3 credits (1 credit over three semesters)

Combined MA in African and African Diaspora Studies/PhD in History Core Courses: 9 credits

-- HIS6059 Historical Methods (3 credits)
-- 6 credits in any of the following courses, or any other graduate History courses with an African and African Diaspora Studies focus:

AFA6851 Advanced Seminar in African and African Diaspora Studies
AFH5905 Readings in Asian History
AFH5935 Topics in African History
AFH6915 Research in African History
AFH6932 Research Seminar in African History I
AFH6933 Research Seminar in African History II
WOH5236 The Transatlantic Slave Trade and the Making of African Diaspora, 1441-1807
WOH5237 The African Diaspora Since the End of the Slave Trade

MA in African and African Diaspora Studies Electives: 12 credits

-- 12 credits of elective courses with an African and African Diaspora Studies focus, at least 6 credits of which are from within the Department of History (making a total of 15 History credits) such as those on the following list:

AFA6851 Advanced Seminar in African and African Diaspora Studies
AFH5905 Readings in African History
AFH5935 Topics in African History
AFH6915 Research in African History
AFH6932 Research Seminar in African History I
AFH6933 Research Seminar in African History II
WOH5236 The Transatlantic Slave Trade and the Making of African Diaspora, 1441-1807
WOH5237 The African Diaspora Since the End of the Slave Trade

Students wishing to take courses outside of the Green School must seek prior approval from the Graduate Program Directors of the MA and PhD programs.

MA in African and African Diaspora Studies Language Requirement

Students must demonstrate proficiency in a language other than English should it be required or strongly advised based on the nature of their thesis or research paper/proposal and professional interests.

Application for Graduation from MA in African and African Diaspora Studies

Students should apply for graduation for the MA in African and African Diaspora Studies program during the summer term if they are on track for completing all requirements for the degree – including the exit option. Ordinarily, the MA will be conferred before the student advances to candidacy for the PhD in History.

PhD in History Requirements

Students will begin study toward the PhD in History immediately following their satisfactory completion of MA in African and African Diaspora Studies degree requirements. Students are expected to meet all the degree requirements for the PhD in History.

The following courses are required in addition to the degree requirements for the MA in African and African Diaspora Studies (minimum 45 credits):

- 6 credits in courses designated with a Comparative/Atlantic History focus (HIS6289);

· 12 credits within a geographical concentration (e.g., AFH, AMH, ASH, EUH, LAH). This must include 6 credits in a two-semester research seminar;

· 12 credits outside of the geographical concentration area. This can include additional courses designated as Comparative/Atlantic History;

· No more than 3 credits can be taken outside the department without permission from the Graduate Program Director;

· A minimum of 15 credits of dissertation research (HIS7980)

Total: 45 credit hours

Language Requirements

All students must acquire reading competency in two languages other than English. The language requirement may be fulfilled in one of two ways: (1) achieving a High Pass on the departmental examination in one language, and at least a Pass on the second, or by receiving a grade of “B” or “B+” for Pass and “A” or “A-“ for High Pass in an appropriate course approved for this purpose by the Director of Graduate Studies; or (2) achieving a Pass or High Pass on the departmental examination in one language, and competency in digital humanities or a social science quantitative skills demonstrated by receiving a grade of “B” or “B+” for Pass and “A” or “A-“ for High Pass in an appropriate course approved for this purpose by the Graduate Program Director. At least one High Pass must be received. Language requirements vary, according to the concentration fields. Language exams will be graded on a High Pass, Pass, and Fail basis; a High Pass is required in the student’s primary language. Students should check with the department’s Graduate Program Director to determine which languages are appropriate for their program of studies.

Comprehensive Examinations and the Dissertation

Following completion of all course work, satisfaction of language requirements, and the constitution of a dissertation committee, students will be required to pass their comprehensive examination as indicated in the department’s guidelines. After the completion of their comprehensive examinations and the approval of a dissertation proposal by their dissertation committee, students will write a doctoral dissertation. The time needed for the research and writing of dissertations in History is variable, although doctoral candidates normally spend one year engaged in continuous field research and a second year in full-time writing.

Restrictions

(1) A grade of “B” or higher is required for graduate credit.

(2) At the end of the second semester of residence, or upon completion of the first 18 credits of coursework, and every year thereafter, PhD students must undergo an annual evaluation as required by the University Graduate School. The Graduate Program Director, the student’s primary advisor, the Dissertation Committee, and members of the Graduate Faculty will examine and evaluate the student's progress. Students must meet the minimum standards of the University Graduate School, which can be found here. In addition, if a student is failing to meet the standards of the program and discipline, including receiving an evaluation of “unsatisfactory” or below, the Department of History’s Graduate Committee may place the student on probation in the program and, if they see no substantive improvement after setting a clear path with listed objectives for the student to meet, move to dismiss the student from the program.

(3) No more than 6 credits Topics (course number 5935) courses should be applied toward meeting the degree requirements without permission of the Graduate Program Director.

(4) No more than 6 credits of HIS5908 should be applied toward meeting the degree requirements without permission of the Graduate Program Director.

Other Curricular Offering: Master of Science in Asian Studies and PhD in History Joint Degree Pathway

Students must fulfill the requirements for both programs, and up to 36 credits may count for both degrees. To graduate, students must complete the requirements of the PhD in History, including the required 75 hours.

During their first two years of enrollment in this dual degree program, students will enroll in the following coursework which fulfills the MA in Asian Studies requirements:

MA in Asian Studies: 30 credit hours required for both the Thesis and Non-Thesis Options

Core Courses: 24 credits

-- 9 credits of ASN 5000- or 6000-level courses approved by the director
-- 9 credits pertaining to world affairs
-- 6 credits in Asian area studies

MA in Asian Studies offers two exit options: Thesis or Non-Thesis Master's Essay.

Thesis Exit Option: 6 credits

-- ASN6972 Master's Thesis

Non-Thesis Master's Essay Exit Option: 6 credits

-- ASN6912 Master's Essay: 3 credits (can be taken multiple times. Some students may be encouraged to develop their research projects by taking this course)
-- one additional course: 3 credits

Students will begin study towards the PhD in History immediately following their satisfactory completion of MA in Asian Studies degree requirements. Students are expected to meet at the degree requirements for the PhD in History.

PhD in History

Courses required in addition to the degree requirements for the MA in Asian Studies (minimum 45 credits):

· 6 credits in courses designated with a Comparative/Atlantic History focus (HIS6289);

· 12 credits within a geographical concentration (e.g., AFH, AMH, ASH, EUH, LAH). This must include 6 credits in a two-semester research seminar;

· 12 credits outside of the geographical concentration area. This can include additional courses designated as Comparative/Atlantic History;

· No more than 3 credits can be taken outside the department without permission from the Graduate Program Director;

· A minimum of 15 credits of dissertation research (HIS7980)

Total: 45 credit hours

Language Requirements

All students must acquire reading competency in two languages other than English. The language requirement may be fulfilled in one of two ways: (1) achieving a High Pass on the departmental examination in one language, and at least a Pass on the second, or by receiving a grade of “B” or “B+” for Pass and “A” or “A-“ for High Pass in an appropriate course approved for this purpose by the Director of Graduate Studies; or (2) achieving a Pass or High Pass on the departmental examination in one language, and competency in digital humanities or a social science quantitative skills demonstrated by receiving a grade of “B” or “B+” for Pass and “A” or “A-“ for High Pass in an appropriate course approved for this purpose by the Graduate Program Director. At least one High Pass must be received. Language requirements vary, according to the concentration fields. Language exams will be graded on a High Pass, Pass, and Fail basis; a High Pass is required in the student’s primary language. Students should check with the department’s Graduate Program Director to determine which languages are appropriate for their program of studies.

Comprehensive Examinations and the Dissertation

Following completion of all course work, satisfaction of language requirements, and the constitution of a dissertation committee, students will be required to pass their comprehensive examinations as indicated in the department's guidelines. After the completion of their comprehensive examinations and the approval of a dissertation proposal by their dissertation committee, students will write a doctoral dissertation. The time needed for the research and writing of dissertations in History is variable, although doctoral candidates normally spend one year engaged in continuous field research and a second year in full-time writing.

Restrictions

(1) A grade of "B" or higher is required for graduate credit.

(2) At the end of the second semester of residence, or upon completion of the first 18 credits of coursework, and every year thereafter, PhD students must undergo an annual evaluation as required by the University Graduate School. The Graduate Program Director, the student's primary advisor, the Dissertation Committee, and members of the Graduate Faculty will examine and evaluate the student's progress. Students must meet the minimum standards of the University Graduate School, which can be found here. In addition, if a student is failing to meet the standards of the program and discipline, including receiving an evaluation of "unsatisfactory" or below, the Department of History's Graduate Committee may place the student on probation in the program and, if they see no substantive improvement after setting a clear path with listed objectives for the student to meet, move to dismiss the student from the program.

(3) No more than 6 credits Topics (course number 5935) courses should be applied toward meeting the degree requirements without permission of the Graduate Program Director.

(4) No more than 6 credits of HIS5908 should be applied toward meeting the degree requirements without permission of the Graduate Program Director.

Other Curricular Offering: MA in Latin American and Caribbean Studies and PhD in History Joint Degree Pathway

The combined MA in Latin American and Caribbean Studies/PhD in History joint degree pathway allows qualified graduate students to complete the MA in Latin American and Caribbean Studies (LACS) en route to the PhD in History. Capitalizing on the intellectual affinities between the graduate programs in Latin American and Caribbean Studies and in History, the pathway allows students to enroll simultaneously in both programs and to count 30 credits of coursework toward fulfillment of the requirements for both graduate degrees. The MA in LACS program provides a multi-disciplinary perspective on the region as well as deep expertise on the region's history, culture, and political economy, while the PhD in History, focused on Comparative and Atlantic History, is aimed at honing students' skills in historical methods while training them to approach individual nations and regions of Latin America and the Caribbean as sites of broader exchanges along the Atlantic corridor and beyond.

Degree Requirements for MA in Latin America and Caribbean Studies

30 graduate credits are required for the MA in LACS, including 9 credits of core courses, 15 credits within an area of focus, 3 credits of breadth courses, and 3 credits for the directed research paper or internship exit options. There is also a foreign language requirement. The thesis exit option requires 6 credits, but reduces the area of focus requirement to 12 credits.

MA in LACS Core Courses: 9 credits

-- LAS6003 Survey of Latin America
-- LAS6934 Research Seminar
-- HIS6059 Historical Methods

MA in LACS Focus Courses: (12 - 15 credits, depending on the exit option)

-- LAH6932 Research Seminars in Latin American History I
-- LAH6933 Research Seminars in Latin American History II

-- 9 credits from the following list:

LAH5905 Readings in Latin American History

LAH5935 Topics in Latin American History

LAH6906 Advanced Readings in Latin American History

LAH6915 Research in Latin American History

MA in LACS Breadth Courses: 3 credits from other areas

MA in LACS Exit Option for Combined Joint Degree Pathway: 3 to 6 credits

Students select one of the following options:

LAS6970 Thesis: 6 credits (Students complete a thesis paper supervised by three committee members. All members of the committee must have FIU Graduate Faculty status.)

or

LAS6942 Internship in Latin American and Caribbean Studies: 3 credits (Supervised internship leading to a major research paper in Latin American and Caribbean Studies.)

or

LAS6905 Directed Research in Latin American and Caribbean Studies: 3 credits (Students complete one directed research paper of about 35 -40 pages.)

MA in LACS Language Requirement

Each student is required to demonstrate proficiency in either Spanish or Portuguese, or in another language such as French or Haitian Creole when justified by research interests. Proficiency is demonstrated by scoring an advanced level on the ACTFL exam for Spanish, Portuguese, or French administered by FIU's Department of Modern Languages. Other tests of proficiency may be accepted upon approval of the graduate advisor.

Application for Graduation from MA in LACS

Students should apply for graduation for the MA in LACS as soon as they have completed all requirements for the degree – including the exit option. Ordinarily, the MA will be conferred before the student advances to candidacy for the PhD in History.

PhD in History Requirements

Students will begin study towards the PhD in History immediately following their satisfactory completion of MA in LACS degree requirements. Students are expected to meet all the degree requirements for the PhD in History.

Courses required in addition to the degree requirements for the MA in Latin American and Caribbean Studies (minimum 45 credits)

· 6 credits in courses designated with a Comparative/Atlantic History focus (HIS6289);

· 12 credits within a geographical concentration (e.g., AFH, AMH, ASH, EUH, LAH). This must include 6 credits in a two-semester research seminar;

· 12 credits outside of the geographical concentration area. This can include additional courses designated as Comparative/Atlantic History;

· No more than 3 credits can be taken outside the department without permission from the Graduate Program Director;

- A minimum of 15 credits of dissertation research (HIS7980)

Total: 45 credit hours

Language Requirements

All students must acquire reading competency in two languages other than English. The language requirement may be fulfilled in one of two ways: (1) achieving a High Pass on the departmental examination in one language, and at least a Pass on the second, or by receiving a grade of “B” or “B+” for Pass and “A” or “A-“ for High Pass in an appropriate course approved for this purpose by the Director of Graduate Studies; or (2) achieving a Pass or High Pass on the departmental examination in one language, and competency in digital humanities or a social science quantitative skills demonstrated by receiving a grade of “B” or “B+” for Pass and “A” or “A-“ for High Pass in an appropriate course approved for this purpose by the Graduate Program Director. At least one High Pass must be received. Language requirements vary, according to the concentration fields. Language exams will be graded on a High Pass, Pass, and Fail basis; a High Pass is required in the student’s primary language. Students should check with the department’s Graduate Program Director to determine which languages are appropriate for their program of studies.

Comprehensive Examinations and the Dissertation

Following completion of all course work, satisfaction of language requirements, and the constitution of a dissertation committee, students will be required to pass their comprehensive examinations as indicated in the department’s guidelines. After the completion of their comprehensive examinations and the approval of a dissertation proposal by their dissertation committee, students will write a doctoral dissertation. The time needed for the research and writing of dissertations in History is variable, although doctoral candidates normally spend one year engaged in continuous field research and a second year in full-time writing.

Restrictions

(1) A grade of “B” or higher is required for graduate credit.

(2) At the end of the second semester of residence, or upon completion of the first 18 credits of coursework, and every year thereafter, PhD students must undergo an annual evaluation as required by the University Graduate School. The Graduate Program Director, the student’s primary advisor, the Dissertation Committee, and members of the Graduate Faculty will examine and evaluate the student's progress. Students must meet the minimum standards of the University Graduate School, which can be found here. In addition, if a student is failing to meet the standards of the program and discipline, including receiving an evaluation of “unsatisfactory” or below, the Department of History’s Graduate Committee may place the student on probation in the program and, if they see no substantive improvement after setting a clear path with listed objectives for the student to meet, move to dismiss the student from the program.

(3) No more than 6 credits Topics (course number 5935) courses should be applied toward meeting the degree requirements without permission of the Graduate Program Director.

(4) No more than 6 credits of HIS5908 should be applied toward meeting the degree requirements without permission of the Graduate Program Director.

HLTDIS:CFI - Graduate Certificate in Health Disparities

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Health Disparities

This graduate certificate provides specialized training in health disparities. Using multidisciplinary, community-engaged approaches, this Graduate Certificate is designed to train students on social and cultural determinants of health and root causes of communicable and non-communicable health conditions that disproportionately impact underserved local, national, and international populations in South Florida, our neighboring Caribbean region, and beyond.

This certificate is open to degree-seeking students already accepted in doctoral programs within FIU's Robert Stempel College of Public Health & Social Work (i.e., HPDP, Epidemiology, Environmental Health, Biostatistics, Dietetics & Nutrition, and Social Work), Department of Psychology, and Biomedical Sciences Doctoral Program in the Herbert Wertheim College of Medicine.

HLTHUM:CFI - Undergraduate Certificate in Health Humanities

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Health Humanities

The Undergraduate Certificate in Health Humanities provides a curricular structure through which humanities, social science, public health, nursing, pre-med and pre-health professions majors may study medical and health related issues from interdisciplinary perspectives. Students will study health, medicine, and healing in humanities, based on courses already offered in English, Global and Sociocultural Studies, History, The Honors College, Liberal Studies, Philosophy, and Psychology. Students who earn the certificate will develop research and analytical skills, acquire expertise in communicating with diverse populations, and concretize career pathways in professions associated with health humanities and health care. The Certificate in Health Humanities is ideal not only for students who plan to pursue careers in public health, nursing, and medicine, but also for students interested in studying health concerns from historical, literary, anthropological, and other humanities-based perspectives. Admission to this program is limited to degree-seeking students only. For more information, visit the College of Arts, Sciences, and Education website.

HOSP:BS - Bachelor of Science in Hospitality and Tourism Management

Overview

Degree Offered
BS - Bachelor of Science

Program Title
Hospitality and Tourism Management

The Bachelor of Science (BS) in Hospitality and Tourism Management is available both on campus and online. It aims to prepare students with the 21st-century skills required to become hospitality professionals who are ready to excel and assume leadership roles in the dynamic hospitality industry. This sector encompasses hotels, restaurants and bars, cruise companies, events and entertainment venues, theme parks, tourism enterprises, hospitality real estate development and leadership, and so much more.

Through a comprehensive set of core requirements and electives, taught by world-class faculty, and practical experiences, this program provides a solid foundation in hospitality business management, finance, logistics, accounting, operations, marketing, customer service, communications, human resources, and other skills necessary to excel in the business of hospitality management, positioning students to become leaders in the top hospitality and tourism companies in the world.

For more information, visit the Chaplin School of Hospitality and Tourism Management website.

Admissions Requirements for the Combined BS in Hospitality and Tourism Management to Master of Science (MS) in Hospitality Management Accelerated Degree Pathway

To be considered for admission to the bachelor's/master's accelerated degree pathway, students must have completed at least 75 credits in an approved bachelor's degree program and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the accelerated degree pathway; the application is submitted to Graduate Admissions typically before the student starts the last 30 credits of the bachelor's degree program.

Admission Requirements

--Current enrollment in an approved bachelor's Degree program.

--Completed at least 75 credit hours of course work.

--Current GPA must be 3.2 or higher.

Program Requirements

Academic Progression Requirements

Students admitted to the university are admitted directly to their chosen major. Students are expected to make satisfactory progress based on critical indicators, such as GPA in specific courses or credits earned. In cases where students are not making satisfactory progress, a change of major may be required. Advisors work to redirect students to more appropriate majors when critical indicators are not met.

Lower Division Preparation

Type

Prerequisite

Common Prerequisite Courses: 6 credits

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Complete ALL of the following Courses:

- HFT1000 - Introduction to Hospitality and Tourism Management
- ECO2013 - Principles of Macroeconomics
  OR ECO2023 - Principles of Microeconomics

Lower Division Courses: 9 credits

Complete ALL of the following Courses:

- HFT2401 - Accounting for the Hospitality Industry
- HFT2441 - Hospitality Information Technology
- HFT2220 - Human Resources Management for Hospitality Industry

Courses listed can be met by approved courses taken from a transfer institution. If these courses are not taken prior to transferring into program, they may be completed as elective credits as part of the degree program.

Degree Program Credits Hours: 120

Type

Completion Requirement

Hospitality Core Requirements: 27 credits

Complete ALL of the following Courses:

- HFT3453 - Lodging Operations Control
  OR HFT3754 - Introduction to Events Management
- FSS4234C - Advanced Food and Beverage Operations
- HFT3503 - Hospitality Marketing Strategy
  OR HFT4509 - Tourism Destination Marketing
- HFT3603 - Hospitality Industry Law and Ethics
- HFT4413 - Hospitality Analytics
- HFT4464 - Financial Analysis in the Hospitality Industry
- HFT4474 - Management Accounting for the Hospitality Industry
- HFT3292C - Entrepreneurship in the Hospitality and Tourism Industry
- HFT1070 - Pathway to Success I
- HFT3072 - Pathway to Success II
- HFT4295 - Leadership in the Hospitality Industry
  OR HFT3006 - Emotional Intelligence and Soft Skills for the Hospitality Industry
  OR HFT3073 - Social Responsibility in the Hospitality Industry
  OR HFT4545 - Managing High-Functioning Teams

Courses waived in the hospitality/tourism core may be replaced with another course from the hospitality or tourism management program or be used to fulfill University Core Curriculum requirements.

Electives: 15-18 credits

In addition to the major requirements, students are required to complete an additional 15-18 credits of hospitality electives. Substitutions are permitted under advisement with a Chaplin School of Hospitality and Tourism Management academic advisor. This applies to the Beverage Management Major, Restaurant/Culinary Management Major, Event Management Major, Hotel/Lodging Management Major, Entertainment Management Major, Spirits Management Major and Travel and Tourism Major.

Industry Experience Requirement:

A minimum of 500 documented hours of hospitality/tourism related practical training work experience is required. In addition, the student is required to complete one of the two internship options available:

300 hours in HFT4945 Adv Intern Hsptly or 500 hours of hospitality/tourism related practical training work experience in HFT3941 Intern Hsptly Mgmt.

Either of the two internship options must be major related and approved by an advisor. Work experience documentation is required. Students with extensive industry management experience may apply for a waiver of the work experience and advanced internship.

Major Requirements

General Hospitality Management Major: 34 credits

Select 30 credits plus either HFT4945 Adv Intern Hsptly or HFT3941 Intern Hsptly Mgmt, and HFT4296 Proj Mgmt in Hospitality.

Recommend advisement with a Chaplin School academic advisor.

Beverage Management Major: 16 credits

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Combined BS in Hospitality and Tourism Management to MS in Hospitality Management Accelerated Degree Pathway

Type
Completion Requirement

Required Courses: 33 credits

A student admitted to the BS/MS accelerated degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Up to 4 courses (12 credits) may be used to satisfy both the bachelor's and master's degree requirements. Courses must be 5000- or 6000- level School of Hospitality and Tourism Management Graduate Courses and students must earn a grade of a "B" or higher.

General Requirements

--Complete the separate combined degree pathway application.

--Applications should be submitted in the first semester of the student's senior year.

Complete ALL of the following Courses:

- HMG6246 - Organizational Behavior in the Hospitality and Tourism
- HMG6257 - Hospitality and Tourism Industry Research Analysis
- HMG6280 - Global Issues in Hospitality and Tourism
- HMG6296 - Strategic Management for Hospitality and Tourism
- HMG6477 - Accounting and Financial Management
- HMG6476 - Feasibility Studies for the Hospitality Industry
  OR HMG6478 - Restaurant Development
  OR HMG6466 - Hospitality and Tourism Revenue Management
- HMG6697 - Hospitality Law Seminar
- HMG6946 - Graduate Internship
- HMG6586 - Research and Statistical Methods
- HMG6596 - Marketing and Sales in Hospitality and Tourism

Students also must take one 3-credit elective graduate course.

HOSP:MS - Master of Science in Hospitality Management

Overview

Degree Offered
MS - Master of Science

Program Title
Hospitality Management

The Master of Science (MS) in Hospitality Management is a unique, 33-credit hour program designed to provide students (at different stages of their careers in the hospitality industry) with a competitive advantage in leadership, whether students seek to advance within their current organizations or to step into leadership positions within the hospitality and tourism industries. The curriculum is also designed to educate students seeking a new career direction. The program's curriculum focuses on engaged learning, business strategy, and communication skills, and provides opportunities for hands-on experiential learning in Miami's vibrant hospitality industry.

The MS in Hospitality Management provides opportunities for students sharpen their analytical thinking, strengthen their research capability, learn from expert faculty, network with industry leaders, and engage in internship and real-work experiences. Students can choose a general track or may pursue specialization in the fields of real estate, mega events, revenue management, cruise line management; those students eager to conduct research may opt to complete a thesis.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Master of Science (MS) in Hospitality Management

Applicants to the school must submit a graduate application for admission to the university and must follow the regular university admission procedures described in the Admissions section of the catalog.

Applicants must be eligible for admission to the university before admission to the school. Admissions standards for the Master of Science (MS) in Hospitality Management degree are an earned four-year bachelor's degree with either a 3.0 undergraduate upper division grade point average (GPA) or overall undergraduate 3.0 GPA. Graduates of a 3-year bachelor's degree program with a 3.0 GPA on a 4.0 scale may complete a 30-credit pre-master's pathway certificate to be eligible for admission.

Applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. Please refer to the Admissions English Proficiency criteria at https://admissions.fiu.edu/international/graduate-school/english-language-proficiency/index.html.

An applicant with an undergraduate upper division GPA of less than 3.0 should submit scores of Graduate Record Examination (GRE) or Graduate Management Admission Test (GMAT), which will be taken into consideration by the admissions committee in its evaluation of the application. Students who have earned a minimum 3.0 GPA (as evaluated by the University Graduate Admission's office) may be waived from the GRE or GMAT requirement.

Transfer Credits

A maximum of six semester hours of related graduate credit may be transferred from another university or from the graduate programs of this university provided they meet university requirements.

Non-Degree Seeking Students

Individuals who do not have the educational requirements to meet degree admission standards may be interested in enrolling in certain specific courses to improve their skills and to enhance their chances for promotion. A person may register as a non-degree seeking student for a maximum of 12 credit hours. These credits and grades will not be considered for admission to our degree programs.

Admissions Requirements for the 4+1 MS in Hospitality Management Accelerated Degree Pathway

(1) Current enrollment in an approved bachelor’s degree program at FIU.

(2) Completed a minimum of 75 credits.

(3) Current GPA must be 3.2 or higher.

(4) Complete the separate 4+1 application, including signed approval by the director or designee from the graduate program.

Admissions Requirements for the Combined Bachelor of Science (BS) in Hospitality and Tourism Management to MS in Hospitality Management Accelerated Degree Pathway

To be considered for admission to the bachelor’s/master’s accelerated degree pathway, students must have completed at least 75 credits in an approved bachelor’s degree program and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the accelerated degree pathway; the application is submitted to Graduate Admissions typically before the student starts the last 30 credits of the bachelor’s degree program.

Admission Requirements

--Current enrollment in an approved bachelor’s degree program.

--Completed at least 75 credit hours of course work.

--Current GPA must be 3.2 or higher.

Program Requirements

To be eligible for a MS in Hospitality Management degree, a student must:

(1) Satisfy all University requirements for a master’s degree.

(2) Complete a minimum of 33 semester hours of graduate level course work in the MS in Hospitality Management curriculum (Exception: Executive Hospitality Management Major is a total of 30 credits).

(3) Earn a minimum grade point average of "B" (3.0) in all approved courses in the student's graduate program of study.

No courses in which a grade below "C" is earned may be counted toward the MS in Hospitality Management degree. However, all approved work taken as a graduate student will be counted in computing the grade point average, including courses graded "D" or "F".

In addition to completing the degree core requirements, students must complete the set of requirements for one major listed in the Major Requirements section.

Degree Core Requirement: 6 credits

Type
Completion Requirement

Degree Core Courses:

Complete ALL of the following Courses:

- HMG6296 - Strategic Management for Hospitality and Tourism

- HMG6596 - Marketing and Sales in Hospitality and Tourism

- HMG6697 - Hospitality Law Seminar
- HMG6946 - Graduate Internship

AND

Electives: 3 credits

Earn at least 3 credits

Industry Experience Requirement:

Fulfill ALL of the following requirements:

Work Experience Requirement:

Prior to registering for the internship course, students are required to complete and document a minimum of 500 hours, maximum of 2,000 hours of hospitality related practical work experience. Students should begin to accumulate these hours in their first semester.

AND

Internship Course:

While registered for HMG 6946, an additional 300 minimum documented hours must be completed. The internship must be major related and approved by an advisor. Students with extensive industry experience may apply for a waiver of the work experience requirement. If a student provides extensive managerial work experience, the internship course requirement may be waived. If waived, the student will be required to complete an elective course in-lieu of the internship course requirement.

Executive Hospitality Management Major

This program is designed for individuals who currently hold a management position in the hospitality or tourism industry and have five years of hospitality-related management experience.

Executive Hospitality Management

Type

Completion Requirement

Course Requirements: 24 credits

Complete ALL of the following Courses:

- HMG6246 - Organizational Behavior in the Hospitality and Tourism
- HMG6257 - Hospitality and Tourism Industry Research Analysis
- HMG6280 - Global Issues in Hospitality and Tourism
- HMG6446 - Hospitality and Tourism Technology Innovations
- HMG6466 - Hospitality and Tourism Revenue Management
- HMG6476 - Feasibility Studies for the Hospitality Industry
- HMG6596 - Marketing and Sales in Hospitality and Tourism
- HMG6697 - Hospitality Law Seminar

Management Experience

A minimum of five years of hospitality-related management experience is required for acceptance into this major. Applicants must currently hold a management position in the hospitality or tourism industry. A bachelor's degree from an accredited institution is required.

Cruise Line Operations Major (Fully Online)

This major is based on the competencies required of today's cruise line professionals, designed for candidates who want to jump start their careers with an advanced degree in one of the fastest growing sectors in the industry. This specialization will provide students the opportunity to achieve success in cruise line management with an overall goal of improving a wide range of operations.

Cruise Line Operations Major (Fully Online)

Type

Completion Requirement

Course Requirements: 27 credits

Complete ALL of the following Courses:

- HMG6257 - Hospitality and Tourism Industry Research Analysis
- HMG6263 - Logistics and Shoreside Operations
- HMG6261 - Cruise Line Leadership
- HMG6466 - Hospitality and Tourism Revenue Management
- HMG6600 - Cruise Industry Law
- HMG6260 - Sustainability in Cruise Operations
- HMG6446 - Hospitality and Tourism Technology Innovations
- HMG5817 - Cruise Line Food and Beverage Operations
- HMG6946 - Graduate Internship

Mega Events Management Major

This major is for those who are interested in event management and are now looking to prepare themselves for the next step in their career development. Courses focus on festivals, trade shows, major conventions, sports events, and concerts. This specialization will provide interested students the opportunity to achieve success in the growing field of large-scale event management.

Completion Requirement

Course Requirements: 27 credits

Earn at least 27 credits from the following:

- HMG6246 - Organizational Behavior in the Hospitality and Tourism
- HMG6257 - Hospitality and Tourism Industry Research Analysis
- HMG6280 - Global Issues in Hospitality and Tourism
- HMG6586 - Research and Statistical Methods
- HMG6596 - Marketing and Sales in Hospitality and Tourism
- HMG6697 - Hospitality Law Seminar
- HMG6466 - Hospitality and Tourism Revenue Management
  OR HMG6476 - Feasibility Studies for the Hospitality Industry
  OR HMG6478 - Restaurant Development
- HMG6916 - Hospitality Industry Research Project
  OR HMG6972 - Hospitality and Tourism Thesis

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: 4+1 MS in Hospitality Management Accelerated Degree Pathway

With their advisor's approval, students from undergraduate majors other than Hospitality Management may apply to the accelerated 4+1 MS in Hospitality Management pathway. If accepted, students will be allowed to take up to 12 credits of graduate hospitality management courses which will apply towards both their undergraduate degree requirements and the MS in Hospitality Management degree.

Other Curricular Offering: Combined BS in Hospitality and Tourism Management to MS in Hospitality Management Accelerated Degree Pathway

Type
Completion Requirement

Required Courses: 33 credits

A student admitted to the BS/MA accelerated degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Up to 4 courses (12 credits) may be used to satisfy both the bachelor's and master's degree requirements. Courses must be 5000- or 6000- level School of Hospitality and Tourism Management Graduate Courses and students must earn a grade of a "B" or higher.

General Requirements

--Complete the separate combined degree pathway application.

--Applications should be submitted in the first semester of the student's senior year.

Complete ALL of the following Courses:

- HMG6246 - Organizational Behavior in the Hospitality and Tourism
- HMG6257 - Hospitality and Tourism Industry Research Analysis
- HMG6280 - Global Issues in Hospitality and Tourism
- HMG6296 - Strategic Management for Hospitality and Tourism
- HMG6477 - Accounting and Financial Management
- HMG6476 - Feasibility Studies for the Hospitality Industry
  OR HMG6478 - Restaurant Development
  OR HMG6466 - Hospitality and Tourism Revenue Management
- HMG6697 - Hospitality Law Seminar
- HMG6946 - Graduate Internship
- HMG6586 - Research and Statistical Methods
- HMG6596 - Marketing and Sales in Hospitality and Tourism

Students also must take one 3-credit elective graduate course.

HRMGT:BBA - Bachelor of Business Administration in Human Resource Management

Overview

Degree Offered
BBA - Bachelor of Business Administration

Program Title
Human Resource Management

The Bachelor of Business Administration (BBA) in Human Resource Management prepares students to plan, recruit, and select the best talent for a company; design and evaluate training programs; and learn best practices for performance review, feedback, and disciplinary actions. In today's ever-changing business environment, there's a growing demand for human resources specialists. More than ever, many human resources roles are focused equally on contributing strategically and functionally to manage the organization's talent.

Admissions Requirements

Admissions and Progression Requirements for All College of Business Undergraduate Students

Applicants must follow regular University admission procedures and upon admission declare their specific program within the College of Business. In addition, students must:

(1) Complete courses detailed under Required Common Prerequisite Courses, or equivalent coursework, noted below, as part of their 60 credit-hours of lower-division course work.

(2) In their initial 60 credit-hours, earn a GPA of 2.0 or higher to continue pursuing a Bachelor of Business Administration and the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs must comply with the GPA requirement for the respective degree program.

(3) For the set of all Common Prerequisite Course credit hours, earn a GPA of 2.5 or higher to continue pursuing Bachelor of Business Administration degrees and a GPA of 2.75 or higher to pursue the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the 2.5 (or 2.75 Accounting) or higher GPA requirement for the set of Common Prerequisite Course credit hours.

(4) Successfully complete with a C or better each of Common Prerequisite Course within two attempts. Drops after the add/drop period, which result in a DR grade, are considered an unsuccessful attempt at the course, (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the two attempt limit on Common Prerequisite Courses.

(5) Students are expected to make satisfactory progress toward degree completion during their first 60 credit hours of lower-division coursework, consistent with the Common Prerequisite Benchmarks noted below. Students not making good progress, may be redirected to another degree program. All (a) AA Transfers and (b) students changing degree programs to Business from outside the College of Business must demonstrate progress consistent with Common Prerequisite Benchmarks.

Common Prerequisite Benchmarks include the following:

By End of Term / Credit Hours Earned	Coursework for equivalents Completed	Minimum GPA in Common Prerequisites *
1st /15 hours	CGS 2100 (or PHI 2600)	2.25
2nd / 30 hours	ECO 2023 and MAC 2233	2.35 (2.50 Accounting)
3rd / 45 hours	ACG 2021 and ECO 2013	2.5 (2.75 Accounting)
4lh / 60 hours	ACG 3301 and STA 2023	2.5 (2.75 Accounting)

* Applicable to all students pursuing or seeking a change of program plan to a Bachelor of Business Administration degree and the Bachelor of Accounting.

Students eligible for readmission are subject to the University's and the College's degree program's regulations in effect at the time of readmission to include admissions and progression requirements.

Program Requirements

Academic Standards

To earn an undergraduate degree from the College of Business, all students must comply with the following:

(1) Students must earn a grade of "C" or higher in each of the lower-division Common Prerequisite Courses.

(2) Students must earn a grade of "C" or higher in all upper-division major courses.

(3) Students must earn a grade of "C" or higher in all upper-division Business Core Courses. Each of these courses cannot be attempted more than three times. Drops after the add/drop period, which result in a DR grade, are considered an attempt in the course and count as an unsuccessful enrollment.

(4) As a student within the College of Business, each student gets two drops after the add/drop period, which result in "DR" grades, in their first 60 credits attempted. Each College of Business student get two additional drops after the add/drop period, which result in "DR" grades, in the second 60 credits attempted. Unused drops after the add/drop period, which result in "DR" grades, do not carry over from the first 60 credits attempted to the second 60 credits attempted. Students entering the College of Business as transfer students with an A.A. degree from a Florida public college or with 60 or more transfer credits earned from another college or university only get two drops after the add/drop period, which result in "DR" grades. Students with disabilities who need to drop a course due to disability-related reasons are allowed

to petition for additional drops after the add/drop period, which result in “DR” grades. Students who can document extenuating circumstances may petition the College for additional drops. Approval to drop additional courses in excess of those allowed must be obtained from the College of Business

(5) Students are expected to follow degree program Major Map in making satisfactory progress toward degree completion. Students deviating from Major Maps may be redirected to another degree program.

(6) Students must satisfy the requirements of their respective programs of study and satisfy all university requirements for graduation.

(7) Students who (a) have 60 credit hours earned, but (b) have not completed the seven Common Prerequisite Course for Business majors, may register for, and/or complete, no more than 15 credit hours of upper-division Business courses.

(8) Undergraduate students who register for any graduate business course must be formally admitted to a graduate degree program at the university following the university's admission procedures.

(9) Faculty has the discretion to administratively drop students who do not attend the first class of a course.

The College adheres strictly to the university’s dismissal policy. Students should be sure to read and understand FIU policies regarding Academic Warnings, Probation, and Dismissals.

Common Prerequisite Courses

Type

Completion Requirement

Required Common Prerequisite Courses Part I

For the set of all Common Prerequisite Course credit hours, earn a GPA of 2.5 or higher to continue pursuing Bachelor of Business Administration degrees and a GPA of 2.75 or higher to pursue the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the 2.5 (or 2.75 Accounting) or higher GPA requirement for the set of Common Prerequisite Course credit hours.

Courses which form part of the statewide articulation between the State University System and the Florida College System will fulfill the Lower Division Common Prerequisites.

Please visit https://cpm.flvc.org for a current list of state-approved common prerequisites.

Earn a minimum grade of C in the following:

- ACG2021 - Accounting for Decisions
- ACG2071 - Managerial Accounting
- ECO2013 - Principles of Macroeconomics
- ECO2023 - Principles of Microeconomics
- MAC2233 - Applied Calculus
- STA2023 - Statistical Methods

Required Common Prerequisite Courses Part II

Students pursuing a Bachelor degree in Accounting, Business Analytics, Finance, Information Systems, International Business, Human Resources Management, Management, Marketing, or Real Estate are also required to achieve a grade of "C" or higher in the following course.

Earn a minimum grade of C in the following:

- CGS2100 - Intro to Microcomputer Applications for Business

Required Common Prerequisite Courses Part III

Students admitted in Fall 2012 or after, as freshman or transfer students with fewer than 30 credit hours earned, are encouraged to take GEB2011 Intro To Business Introduction to Business during their first year. Students admitted in the Fall 2018 or after, as freshman with fewer than 30 credit hours earned, are required to complete SPC2608 Public Speaking Public Speaking for their Undergraduate Core Curriculum Arts Requirement.

Additional Comments:

Prerequisite course requirements for entry into upper level courses will be enforced. Students will be administratively dropped from courses when they lack the required prerequisite course or courses and/or required grade.

Note: The programs, policies, requirements, and regulations listed in this catalog are subject to continual review in order to meet the needs of the University's various publics and to respond to the mandates of the Florida Board of Education and the Florida Legislature. Changes may be made without advance notice. For the most current and updated information, refer to the COB and appropriate Schools/Departments websites.

Required Business Core Courses: 24 credit hours

Type

Completion Requirement

Required Core Courses

The Business Core Courses listed below are required for all undergraduate students in the College of Business. Prerequisites for each of the Business Core Courses can be found in the College of Business course descriptions.

Students admitted before Fall 2011 can take either COM3150 Advanced Bus Prof Comm Advanced Business and Professional Communication **or** COM3110 Bus And Prof Commun Business and Professional Communication

Degree-Specific Courses: 21 credit hours

Type

Completion Requirement

Courses Required for the BBA in Human Resource Management

Complete ALL of the following Courses:

- MAN4301 - Human Resource Management
- MAN4320 - Recruitment and Staffing
- MAN4322 - Human Resource Information Systems
- MAN4330 - Compensation and Benefits
- MAN4350 - Training and Development
- MAN4410 - Union-Management Relations
- MAN3100 - Happiness at Work
  OR MAN4102 - Managing Diversity
  OR MAN4610 - International Human Resources

Additional Comments:

MAN Prefix Courses

Students should note that not all courses with a MAN prefix are actually management courses. Therefore, they should consult with a College advisor to confirm that their program of study reflects the degree requirements.

Upper Division Business Electives: 12 credit hours

BBA in HR students may take any 3000 level or higher course inside or outside of the College of Business to satisfy their Upper Division Business Elective requirement. All upper division electives outside the College of Business must demonstrate a relationship to the human resources function and receive the approval of the Global Leadership and Management Department Chair.

Students enrolled in a second major or a certificate/minor program must take the courses prescribed in their program.

Internships

Students who are interested in receiving academic credit for an internship are required to submit an internship student application for Department Chair approval. To qualify for academic credit, activities carried out in the internship should be supervised and deemed capable of enhancing the student's business management skills and post-graduation employability. A minimum of 2.75 GPA, junior or senior standing is also required. For further instructions and to download the internship application, please visit our departmental webpage: **http://glam.fiu.edu.**

Department of Global Leadership and Management Academic Standards

The Department of Global Leadership and Management requires that students fulfill the following requirements in order to remain in a degree program:

(1) Receive a grade of “C” or higher in each of the courses in their major.

(2) Receive a grade of “C” or higher in each of the core management courses (MAN3025 Organization & Mgmt and MAN4720 Strategic Management).

(3) Earn a grade of “C” or higher in each Upper Division business elective.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

HRMGT:MS - Master of Science in Human Resource Management

Overview

Degree Offered
MS - Master of Science

Program Title
Human Resource Management

Through the Master of Science (MS) in Human Resource Management program, students can embark on the journey to becoming a distinguished human resource leader in today's diverse and globalized workplace. Students will gain the expertise required to craft strategic staffing visions, shape organizational culture, and drive meaningful organizational change. The MS in Human Resource Management offers flexible options, allowing students to complete their studies through weekend classes in one year (full time) or two years (part time). Students can also enroll in a one-year, fully online option.

Upon reaching graduation, students will emerge well-equipped to tackle the multifaceted challenges encountered by senior human resources practitioners amid global competition and evolving regulations. This comprehensive preparation positions graduates for a range of dynamic HR roles, including human resources director, labor relations manager, compensation and benefits manager, training and development manager, recruiting manager, employee relations manager, and beyond.

Admissions Requirements

Admissions Requirements for the Master of Science (MS) in Human Resource Management

To be eligible for admission to the Master of Science in Human Resource Management (MSHRM) program, applicants must demonstrate academic and professional preparedness. Admissions are based on a portfolio approach:

-- Must hold a bachelor’s degree or equivalent from either a U.S. accredited college or university or the equivalent for institutions outside the U.S. A degree in business is not required.

-- Show high promise of success in graduate studies as determined by the faculty based upon academic performance, work experience, or a combination of academic and work experience. Evidence includes satisfying one or more of the following criteria:

(1) Undergraduate grade point average (GPA) of 3.25 combined with minimum score of 500 on the Graduate Management Admission Test (GMAT) or similar Graduate Record Exam (GRE) test.

(2) Demonstration of at least one year of human resources work experience with a 3.25 undergraduate GPA

(3) Demonstration of two years managerial or supervisory work experience with a 3.25 undergraduate GPA

(4) Have an undergraduate business degree with a human resource major from FIU or similar accredited school with a minimum grade point average (GPA) of 3.25.

(5) Have an undergraduate degree with a 3.25 Graduate degree from an accredited university with a minimum grade point average (GPA) of 3.00.

(6) A Non-degree certification in human resource management may be considered in lieu of work experience with a minimum undergraduate GPA of 3.00. These include but not limited to the following:

(a) FIU's Executive & Professional Human Resource Certificate

(b) Professional in Human Resource Certification (PHR)

(c) SHRM Certified Professional (SHRM-CP)

International graduate student applicants whose studies were completed outside of the U.S. must demonstrate English language proficiency by presenting a minimum score of 80 on the iBT TOEFL (equivalent to 550 on the paper-based version or 213 on the computer-based version of the test of English as a Foreign Language) or 6.5 overall on the International English Language Testing System (IELTS).

Be in good standing with all previously attended colleges and universities.

Interviews may be conducted upon submission of complete portfolio.

Admissions Requirements for the MS in Human Resource Management and Master of Business Administration (MBA) Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must submit applications to both programs and notify each Program Manager of desire to pursue the joint degree. Candidates deciding to pursue the joint degree pathway after having been admitted to one program must submit a second application to the other program and notify each Program Manager of desire to pursue the joint degree pathway option.

(2) Applications to the joint degree pathway will not be accepted from candidates who have already completed either degree. MBA or MSHRM students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.

Transfer Credits

A student may receive permission to transfer up to a maximum of nine semester hours of graduate credit towards a Master of Science degree program or twelve semester hours of credit for a Master of Business Administration degree program, if:

(1) The courses were taken at the graduate level at an accredited college or university;

(2) The courses were not introductory or survey in nature;

(3) The student earned grades of "B" or higher in the courses;

(4) The courses are judged by the Department Chair, College Dean, Graduate School Dean, and program manager to be relevant to the student's graduate program;

(5) The credits were completed within six years immediately preceding the College's awarding of the degree. Credits are not transferable until the student has earned 15 semester hours in a Chapman School graduate degree program.

Program Requirements

College Policies

To be eligible for a Master's degree, a student must:

(1) Satisfy all University requirements for a Master's degree;

(2) Satisfy required prerequisites;

(3) Complete the required courses in the specific graduate program in which he/she is enrolled.

(4) Earn a minimum average of "B" (3.0) in all approved courses in the student's approved course of graduate study.

No courses in which a graduate student earns a grade below "C" may be counted towards any Master's degree program in the Chapman School. However, all approved undergraduate and graduate course work a graduate student takes will be counted in computing his or her grade point average, including courses in which he or she has earned a "D" or "F" grade.

Faculty have the discretion to administratively drop students who do not attend the first class of a course.

Degree Requirements

Type

Completion Requirement

Core Courses

To complete the program successfully, students must maintain a "B" average (3.0 GPA). For further information, please contact the program manager at (305) 348-8433, or visit our web site at http://mshrm.fiu.edu.

The following courses are required for the MSHRM degree:

Complete ALL of the following Courses:

- MAN6297 - Labor Issues and Conflict Management
- MAN6626 - International Human Resource Management
- MAN6347 - Performance and Talent Management
- MAN6157 - Wellness Management
- MAN6316 - Human Resource Analytics
- MAN6403 - Employment Law and Human Resource Management
- MAN6385 - Human Resource Strategy and Planning
- MAN6365 - Staffing Organizations
- MAN6336 - Reward Systems Management

Complete ANY of the following Courses:

- MAN6356 - Professional Development Seminar I
- MAN6946 - Human Resource Management Internship

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: MS in Human Resource Management and Flex MBA Joint Degree Pathway

Type

Completion Requirement

Joint Degree Pathway

The Department of Global Leadership and Management and the MBA program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University offer a joint degree program culminating in both a Master of Business Administration (MBA) degree and a Master of Science in Human Resource Management (MSHRM) degree. Under the joint degree pathway, a student can obtain both degrees in less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have two - four common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MSHRM courses transferred to meet MBA elective credit must be 6000 level courses approved by the University Curriculum Committee. Directors of the MBA and MSHRM degree programs may adjust these exact course requirements as a result of future changes to the MBA or MSHRM curriculums.

Notes:

(1) Requirements for the MBA depend on the MBA program chosen. If a candidate has elected the option of a specialization, the requirements and shared/common courses for the Flex MBA will be used. Otherwise, the requirements and shared/common courses for the Professional MBA will be used.

(2) The Executive MBA and Professional MBA in Healthcare Management programs are not included as an option for the joint degree pathway.

(3) Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all degree requirements for the first program as if the student had never been a joint degree pathway candidate.

For additional information, contact the MBA office at (305) 348-0148 or the Master of Science in Human Resource Management office at (305) 348-5945.

Fulfill ALL of the following requirements:

In the Flex MBA program: 36 credits

To obtain the MSHRM degree, Flex MBA students must complete the following courses for a total of 68 credit hours as follows:

Earn at least 36 credits from the following:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- QMB6616 - Business Process & Operations Analysis

- MAN6726 - Strategic Management
- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Students also must complete Professional Development Seminars (PDS).

AND

In the MSHRM program: 32 credits

Earn at least 32 credits from the following:

- MAN6157 - Wellness Management
- MAN6403 - Employment Law and Human Resource Management
- MAN6626 - International Human Resource Management
- MAN6297 - Labor Issues and Conflict Management
- MAN6359 - Human Resource Knowledge Management
- MAN6316 - Human Resource Analytics
- MAN6347 - Performance and Talent Management
- MAN6336 - Reward Systems Management
- MAN6365 - Staffing Organizations
- MAN6317 - Critical Thinking in Human Resource Management

Students also must take Professional Development Seminars (PDS) I, II, III.

Joint Degree Pathway

Fulfill ALL of the following requirements:

In the MSHRM program: 38 credits

To obtain the Flex MBA, MSHRM degree students must complete a total of 68 credits as follows:

Earn at least 38 credits from the following:

- MAN6157 - Wellness Management
- MAN6403 - Employment Law and Human Resource Management
- MAN6327 - High Involvement Human Resource Management
- MAN6626 - International Human Resource Management
- MAN6297 - Labor Issues and Conflict Management

- MAN6359 - Human Resource Knowledge Management
- MAN6316 - Human Resource Analytics
- MAN6385 - Human Resource Strategy and Planning
- MAN6347 - Performance and Talent Management
- MAN6336 - Reward Systems Management
- MAN6365 - Staffing Organizations
- MAN6317 - Critical Thinking in Human Resource Management

Students also must take Professional Development Seminars (PDS) I, II, III.

AND

In the Flex MBA program: 30 credits

Earn at least 30 credits from the following:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- QMB6616 - Business Process & Operations Analysis
- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Students also must take Professional Development Seminars (PDS).

Other Curricular Offering: MS in Human Resource Management and International MBA Joint Degree Pathway

Type

Completion Requirement

Joint Degree Pathway

The Department of Global Leadership and Management and the MBA program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University offer a joint degree program culminating in both a Master of Business Administration (MBA) degree and a Master of Science in Human Resource Management (MSHRM) degree. Under the joint degree pathway, a student can obtain both degrees in less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have two - four common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MSHRM courses transferred to meet MBA elective credit must be 6000 level courses approved by the University Curriculum Committee. Directors of the MBA and MSHRM degree programs may adjust these exact course requirements as a result of future changes to the MBA or MSHRM curriculums.

Notes:

(1) Requirements for the MBA depend on the MBA program chosen. If a candidate has elected the option of a specialization, the requirements and shared/common courses for the Flex MBA will be used. Otherwise, the requirements and shared/common courses for the Professional MBA will be used.

(2) The Executive MBA and Professional MBA in Healthcare Management programs are not included as an option for the joint degree pathway.

(3) Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all degree requirements for the first program as if the student had never been a joint degree pathway candidate.

For additional information, contact the MBA office at (305) 348-0148 or the Master of Science in Human Resource Management office at (305) 348-5945.

Fulfill ALL of the following requirements:

In the IMBA program: 45 credits

To obtain the MSHRM degree, International MBA students must complete the following courses for a total of 77 credit hours as follows:

Earn at least 45 credits from the following:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6644 - Global Financial Strategy
- ISM6021 - Management of Information Systems
- MAN6245 - Organizational Behavior
- MAN6679 - Master's Project in International Business
- MAN6703 - Colloquium in Managing Organizational Ethics (Inactive)
- MAN6726 - Strategic Management
- MAR6805 - Marketing Management in the Global Environment
- QMB6357 - Business Statistical Analysis
- QMB6616 - Business Process & Operations Analysis

Students also must take Professional Development Seminars (PDS) I, II, III.

AND

In the MSHRM program: 32 credits

Earn at least 32 credits from the following:

- MAN6157 - Wellness Management
- MAN6403 - Employment Law and Human Resource Management
- MAN6626 - International Human Resource Management
- MAN6297 - Labor Issues and Conflict Management
- MAN6359 - Human Resource Knowledge Management
- MAN6316 - Human Resource Analytics
- MAN6347 - Performance and Talent Management
- MAN6336 - Reward Systems Management
- MAN6365 - Staffing Organizations

- MAN6317 - Critical Thinking in Human Resource Management

Students also must take Professional Development Seminars (PDS) I, II, III.

Joint Degree Pathway

Fulfill ALL of the following requirements:

In the MSHRM program: 38 credits

To obtain the International MBA (IMBA), MSHRM degree students must complete a total of 77 credits as follows:

Earn at least 38 credits from the following:

- MAN6157 - Wellness Management
- MAN6403 - Employment Law and Human Resource Management
- MAN6327 - High Involvement Human Resource Management
- MAN6626 - International Human Resource Management
- MAN6297 - Labor Issues and Conflict Management
- MAN6359 - Human Resource Knowledge Management
- MAN6316 - Human Resource Analytics
- MAN6347 - Performance and Talent Management
- MAN6336 - Reward Systems Management
- MAN6365 - Staffing Organizations
- MAN6317 - Critical Thinking in Human Resource Management

Students also must take Professional Development Seminars (PDS) I, II, III.

AND

In the IMBA program: 39 credits

Earn at least 39 credits from the following:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6644 - Global Financial Strategy
- MAN6608 - International Business
- ISM6021 - Management of Information Systems
- MAN6703 - Colloquium in Managing Organizational Ethics (Inactive)
- MAN6679 - Master's Project in International Business
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Students also must take Professional Development Seminars (PDS) I, II, III.

HRPMG:CFI - Graduate Certificate in Human Resource Policy and Management

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Human Resource Policy and Management

The Graduate Certificate in Human Resource Policy and Management is designed to give graduate students a range of policy-analysis and management skills. It provides training in alternative personnel systems, (civil service, collective bargaining, privatization, service contracting), personnel techniques for productivity improvement, current issues, and ethics and professionalism. This certificate emphasizes the application of behavioral science concepts and techniques to employers in a multicultural context.

For more information, visit the Steven J. Green School of International and Public Affairs website.

Requirements

Simple Requirements

Admissions Requirements

Applicants must be actively enrolled in an FIU graduate-degree program and must be in good academic standing (i.e., must have an overall GPA of at least 3.0). This certificate is open to degree-seeking students only.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Program Credit Hours: 15

Type
Completion Requirement

Required Courses: 9 credits

Complete ALL of the following Courses:

- PAD6156 - Applied Organization Theory and Behavior
- PAD5427 - Collective Bargaining in the Public Sector
- PAD6605 - Administrative Law and Procedures

Electives: 6 credits

Certificate Students who are not also MPA students must take PAD6907 Independent Study In as a certificate capstone. If they do, they will only have to take one additional elective course (3 credits).

Complete at least 2 of the following courses:

- PAD5043 - Equitable and Inclusive Governance
- PAD5416 - Social Equity and Human Resource Management
- PAD5435 - Gender Equity and Leadership in Public Administration
- PAD5460 - Performance Management
- PAD5616 - Contracting and Managing Third Party Governments
- PAD6436 - Professionalism and Ethics
- PAD6710 - IT and E-government
- PAD5934 - Contemporary Issues in Public Administration
- PAD6946 - Public Administration Internship

Students may take up to two electives outside the department. These electives must be selected from a list of approved electives or must be approved by certificate co-chairs.

Note: Depending on the topic of the course and pending MPA Program approval, PAD5934 Contemp Issues Pad may be counted as a certificate elective.

Students must earn a minimum 3.0 cumulative GPA. All course grades must be "C" or better.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

HSA2:MHSA - Master of Health Services Administration

Overview

Degree Offered
MHSA - Master of Health Services Administration

Program Title
Health Services Administration

The Master of Health Services Administration (MHSA) program equips students with the skills to implement changes across healthcare systems and organizations by integrating principles from business and health sciences. Students can complete either the fully online or hybrid option. The curriculum highlights the role of technological advancements in enhancing healthcare organization operations, service delivery, governance, and patient outcomes. Our program adopts a comprehensive approach to delivering top-notch health services aimed at reducing health disparities.

For more information, visit the Nicole Wertheim College of Nursing and Health Sciences website.

Program Length in Years Based on Full-Time Enrollment
2

CIP Code
51.0701

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements

Admission to the program will be based upon a combination of the upper-division (last 60 hours) grade point average and a personal statement. Each applicant must have a GPA for the last 60 hours of a 3.0 on a 4.0 scale.

Courses are sequenced to enhance the development of competencies as students progress through the curriculum. Students need to pay attention to course prerequisites and adhere to course sequencing.

Prerequisites

Demonstrated knowledge and ability in the areas of accounting, quantitative analysis, research methods or statistics, economics, and finance as approved by the department.

Program Requirements

Program Credit Hours: 48

Type
Completion Requirement

Foundation Courses: 9 credits

Complete ALL of the following Courses:

- HSA5125 - Introduction to Health Policy and Management
- HSA6185 - Management and Organizational Theory in Health Care
- HSA6176 - Financing & Reimbursement of Health Systems

Health Services Administration Core Courses: 33 credits

Students must complete at least 9 credits of foundation coursework before taking core courses.

Complete ALL of the following Courses:

- HSA6426 - Health Law and Legal Aspects of Management
- HSA6175 - Financial Management of Health Systems
- HSA6186 - Leadership and Organization Behavior in Health Care Systems
- HSA6759 - Quality Assessment and Outcome in Healthcare
- HSA6187 - Managing Human Resources and Health Professions
- HSA6197 - Design and Management of Health Information Systems
- HSA5655 - Ethical Decisions in Health Services Administration
- HSA6149 - Strategic Planning and Marketing of Health Care Services
- HSA6205 - Hospital and Health Facilities Organization
- HSA6156 - Economic and Decision Analysis in Health Services
- HSA5226 - Management of Long-Term Care Systems

Integrative Coursework: 6 credits

Complete ALL of the following Courses:

- HSA6717 - Advanced Health Services Management and Research Seminar
- HSA6875 - Administrative Internship
  OR HSA6597 - Integrative Capstone in Health Services Administration

Administrative Residency

An administrative residency in a health care organization is offered to all students. Students lacking health services administrative experience are encouraged to complete an administrative residency.

The residency is considered an integral part of the educational process. It is designed to provide practical experience with the theories, concepts, and administrative skills the students acquired in academic study. The residency is generally arranged in an agency or institution compatible with the student's area of interest. The student works with an organizational preceptor in the health agency during this period, and the experience is supervised by a faculty preceptor.

Students must apply for the administrative residency, complete an educational plan, be approved and be placed in an agency by the Residency Coordinator the semester before the residency begins.

Graduation Requirements

Graduate students must maintain a cumulative grade point average (GPA) of at least 3.0 on a 4.0 scale, as determined by the University Graduate School. Students enrolled in the program who have a cumulative GPA below 3.0 will be placed on academic warning and then on academic probation. To graduate, students must be in good standing.

Along with completing the 48-credit hour curriculum, the following are the criteria for graduation from the MHSA program:

-- Students may earn no more than two "C" grades (C, or C+) (maximum of 6 credit hours).

-- There are no incomplete grades.

-- Apply for graduation before the university's application deadline.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

HSA:BHSA - Bachelor of Health Services Administration

Overview

Degree Offered
BHSA - Bachelor of Health Services Administration

Program Title
Health Services Administration

The Bachelor of Health Services Administration (BHSA) degree program qualifies graduates for entry-level management positions in a variety of health-related organizations. Both the fully online and hybrid modality are available. The curriculum includes content about systems engineering and financial management of health organizations, health services research, economics, politics and legal aspects of health systems, and program planning and evaluation.

For more information, visit the Nicole Wertheim College of Nursing and Health Sciences website.

Program Requirements

Academic Progression Requirements

Prior to enrolling in the Core Course HSA4170 Hlthcr Fincl Mgt, the completion of the Pre-/Co-requisites for HSA4170 Hlthcr Fincl Mgt and the State Common Prerequisites with a “C” grade or higher must be met.

BHSA courses are sequenced to enhance the development of competencies as student’s progress through the curriculum. Foundation Courses are prerequisites for Core Courses. Core Courses are prerequisites to Integrative Courses. Students must take electives at the 3000/4000 level. A minimum grade of "C" is required for all courses to count towards BHSA.

Students need to pay particular attention to proper sequencing and course prerequisites. Prerequisites are in place to assure you have the appropriate foundation for the capstone coursework. Students who register without completing the appropriate prerequisites may be administratively dropped from courses.

Lower Division Preparation

Type
Prerequisite

Common Prerequisite Courses

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Students must follow regular university admission procedures and upon admission declare their specific major as Health Services Administration. In addition, students must complete the following State Common Prerequisite courses as part of their 60 credit-hours of lower-division course work and achieve a minimum grade of “C”:

Complete ALL of the following Courses:

- ECO2023 - Principles of Microeconomics
- ACG2021 - Accounting for Decisions
- ACG2071 - Managerial Accounting
- CGS2060 - Introduction to Microcomputers
- STA3111 - Statistics I
  OR STA2023 - Statistical Methods

Upper Division Credit Hours: 60

Type
Completion Requirement

Foundation Courses: 18 credits

Foundation Courses are prerequisites to Core Courses. Must earn a grade of “C” or higher to count towards BHSA degree.

Complete ALL of the following Courses:

- HSA3111 - Introduction to Health Services Systems
- HSA3180 - Leadership and Management for Health Professionals
- HSA4431 - Values, Ethics, and Conflict Resolution in Health and Urban Affairs
- HSA3412C - Cultural Competency in Health Sciences
- ENC3213 - Professional and Technical Writing
  OR COM3110 - Business and Professional Communication
- HSC3661 - Communication Theory and Practice for Health Professions

Core Courses: 15 credits

Must earn a grade of “C” or higher to count towards BHSA degree.

Complete ALL of the following Courses:

- HSA4700 - Quality and Evidence-Based Healthcare Services
- HSA4190 - Information and Communication Technology for Health Professionals
- HSA4170 - Healthcare Financial Management
- HSA4110 - Healthcare Organizational Behavior and Resource Management
- HSA4421 - Legal Aspects of Healthcare

Integrative Courses: 15 credits

Must earn a grade of “C” or higher to count towards BHSA degree.

Fulfill ALL of the following requirements:

Part I

Complete ALL of the following Courses:

- HSA4140 - Program Planning and Evaluation
- HSA4150 - Global Healthcare Systems and Policy
- HSA4192 - Healthcare Quality Management
- HSA4113 - Global Issues and Trends in Healthcare

HSA4113 Glbl Issues and Trnds Hlthcr is an integrative capstone course and should be taken during the final semester of the BHSA program.

AND

Part II

Complete ALL of the following Courses:

- HSA4850 - BHSA Administrative Internship
  OR HSA4090 - Career Development for Health Services Administrators

All students will have the opportunity to complete a minimum of 210 clock hours in HSA4850 BHSA Admin Internship BHSA Administrative Internship. Students are required to dedicate three days of the work week to successfully complete the clinical portion of the internship. Due to limited placement space, this competitive internship course cannot accept all applicants that meet the requirements; successful completion of all requirements does not guarantee admission into HSA4850 BHSA Admin Internship. To be considered for the BHSA Administrative Internship, students must:

-- Complete all Foundation and Core course work.

-- Achieve a GPA of 3.25 or higher in all Foundation and Core course work.

-- Complete and submit an internship application.

-- Satisfy all clinical clearance requirements dictated by the contractual agreements between FIU and affiliated community placements the semester prior to registering.

Once accepted into the BHSA Administrative Internship, students must attend an internship information session.

For further information regarding internship requirements, refer to the BHSA website.

Elective Courses: 12 credits

Earn at least 12 credits
Students are encouraged to choose 3000 or 4000 level courses from a suggested list of BHSA electives, as these do not require advisor approval. Please note that suggested courses are not scheduled or managed by the Department of Health Services Administration; if you encounter issues with registration, you must contact the respective department in which the course(s) is/are affiliated. Students may select other 3000 or 4000 level courses not on the suggested elective list with prior approval from an advisor before registration. A grade of “C” or higher is required to count towards the BHSA degree.

Program Graduation Requirements

(1) Satisfy all requirements for the BHSA program including undergraduate student regulations and degree requirements governed by the policies of Florida International University and the State University System.

(2) Complete a minimum of 60 credits of Health Services Administration program required courses.

(3) Complete a minimum of 120 credit hours for graduation.

(4) Earn a minimum cumulative grade point average of 2.0 with a minimum grade of “C” or better in Health Services Administration program required courses. Grade of “C-“ or lower will not count towards the BHSA degree.

(5) Meet with academic advisor to ensure degree requirements are completed prior to applying for graduation.

(6) Apply for graduation online on, or before, the deadline posted in the university's academic calendar.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

HSERM:CFI - Graduate Certificate in Homeland Security and Emergency Management

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Homeland Security and Emergency Management

The Graduate Certificate in Homeland Security and Emergency Management is designed to provide critical analytic skills to first responders and those in related fields. The certificate will help professionals navigate a complex intergovernmental policy framework with an eye to best practice allocation of scarce local and regional resources devoted to preventing or mitigating the potential impacts of natural and manmade perils. Coursework will focus on the roles and responsibilities of public, nonprofit, and private organizations in the context of South Florida's vulnerable operating environment. For more information, visit the Steven J. Green School of International and Public Affairs website.

HUMRPT:CFI - Undergraduate Certificate in Human Rights and Political Transitions

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Human Rights and Political Transitions

The Undergraduate Certificate in Human Rights and Political Transitions introduces degree-seeking students to human rights as a concept of justice in a globalized, increasingly complex world. Students will learn about manifold forms of human rights violations, including crimes against humanity, legal and diplomatic developments of human rights protection, and political transitions as challenging processes of democratic institution building. The certificate is designed as an interdisciplinary learning experience and draws on courses taught in criminal justice, political science, international relations, history, sociology, anthropology, philosophy, literature, women and gender studies, religious studies, economics, and African and African Diaspora Studies.

Type
Completion Requirement

Certificate Requirements

The program requires 18 credit hours. Students take core courses (6 credits) and three elective courses (9 credits). The electives are selected from three of four themes (Law and Diplomacy, Discrimination and Inequalities, Crimes against Humanity/Large Scale Human Rights Violations, and Political Transitions). Students may not take more than 9 credits of core and elective classes from one department in order to ensure the interdisciplinary character of the certificate. Students will undertake a human rights or political transitions related internship OR engage in a similar activity in the context of a study abroad program (3 credits).

Fulfill ALL of the following requirements:

Core Courses Part I: 3 Credits

Complete ALL of the following Courses:

- CPO4737 - Politics of Transition and Human Rights

AND

Core Courses Part II: 3 Credits

Complete at least 1 of the following courses:

- CPO4735 - Democratic Transitions
- INR4075 - International Protection of Human Rights
- CPO4053 - Political Repression and Human Rights

AND

Electives: 9 Credits

Take three courses from three of the four themes (Law and Diplomacy, Discrimination and Inequalities, Crimes against Humanity/Large Scale Human Rights Violations, and Political Transitions). A core course cannot be double counted as an elective course. Additional courses may qualify as electives if approved by the Certificate Director.

AND

Law and Diplomacy

Complete ANY of the following Courses:

- CCJ4361 - Death Penalty
- CCJ4662 - Race, Crime, and Justice
- CCJ4663 - Women, Crime and the Criminal Justice System
- CJE4174 - Comparative Criminal Justice Systems
- INR3030 - Diplomacy
- INR3403 - International Law
- INR3502 - International Organizations
- INR4075 - International Protection of Human Rights
- INR4436 - International Negotiation
- PHM3400 - Philosophy of Law

- PHM4362 - Global Justice
- POS4684 - Politics of Voting Rights

AND

Discrimination and Inequality

Complete ANY of the following Courses:

- AFS3331 - Women and Human Rights in Sub-Saharan Africa
- AMH4571 - African American History from the 17th to the late 19th Centuries
- AMH4573 - African American History from the Late 19th Century to the Present
- AMH4671 - Race, Gender, Science in the Atlantic World
- CPO4034 - The Politics of Development and Underdevelopment
- CPO4053 - Political Repression and Human Rights
- CPO4726 - Ethnicity and Nationalism
- ECP3254 - Women, Men, and Work in the USA
- LIT4536 - Multi-cultural Working Class Women's Literature
- SYD3804 - Sociology of Gender
- SYO4530 - Social Inequalities
- SYD4700 - Racial and Ethnic Relations
- WST3641 - Introduction to LGBTQ+ Studies
- WST3114 - Sex Trafficking: Building Solutions
- WST4115 - Gender Violence and the Law: Global Perspectives

AND

Crimes against Humanity/Large Scale Human Rights Violations

Complete ANY of the following Courses:

- CCJ4694 - Human Trafficking
- CPO4725 - Comparative Genocide
- EUH4033 - Nazism and the Holocaust
- INR3045 - The Global Challenge of Refugees and Migrants
- REL3194 - The Holocaust

- WST4617 - Gender & Genocide

AND

Political Transitions

Complete ANY of the following Courses:

- AMH4130 - The American Revolution
- CPO4057 - Political Violence and Revolution
- CPO4614 - Politics of Eastern Europe
- CPO4735 - Democratic Transitions
- EUH3245 - European History, 1914-1945
- EUH3576 - The Russian Revolution and the Soviet Union

- LIT4364 - Post-Totalitarian Literature
- LIT4382 - Women in Post Communist Eastern Europe (Inactive)

Internship or Study Abroad Component: 3 credits

Students will undertake a human rights or political transitions related internship OR engage in a similar activity in the context of a study abroad program. The internship or activity will be supervised by the student's home department's internship advisor or one Certificate committee member. Students should consult with the Certificate director in advance of pursuing this requirement. Assignments for this requirement may vary but essentially students will be required to draft periodic reflections of their semester experience. Should a student not have the resources to complete the internship credits, they can request to take another elective course instead.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

IBSTUD:CFI - Graduate Certificate in Iberian Studies

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Iberian Studies

The Graduate Certificate in Iberian Students focuses on Iberian cultures in the long-term context of European and Mediterranean history, connecting with Islam and Judaism as well as with the Americas. In particular, the Iberian Peninsula, as well as the Mediterranean, constitute more than just a geopolitical space but rather represent a regional mélange connecting among a variety of cultures.

Requirements

Simple Requirements

Admissions Requirements

Students must be enrolled in a Master or Ph.D. program at FIU. A total of 18 credit hours (6 courses) of graduate course work, with a cumulative GPA of 3.25 and a grade of “B” of higher in all courses applied toward certificate requirements.

Students must be proficient in reading and comprehension of Spanish and/or Portuguese to be able to undertake research.

This certificate is open to degree-seeking students only.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

The Graduate Certificate in Iberian Studies is 18 credits (6 courses). Five (5) courses required, including at least three (3) of the four (4) disciplines represented, meaning that up to three courses can be of one discipline, and the other two (2) must come from two (2) others: History, Art History, Religious Studies, and Modern Languages. Pending the availability of courses, alternative graduate level courses can be chosen by the student in consultation with the director.

Program Credit Hours: 18 credits

Type

Completion Requirement

History Courses

Complete ANY of the following Courses:

- EUH5126 - Readings in European History
- HIS5908 - Independent Study

The Readings course EUH5126 Rdgs In Eur Hist can be repeated with the first enrollment focusing on Early Modern Europe and the second enrollment focusing on Medieval Europe. The Independent Study HIS5908 Independent Studies choice should focus on Medieval and Early Modern Spain.

Religious Studies

Complete ANY of the following Courses:

- RLG5520 - Colonialism, Christianity, Globalization
- RLG5360 - Classical Arabic
- RLG5364 - Advanced Topics in Islamic Mysticism (Sufism)

Modern Languages

Complete ANY of the following Courses:

- SPW5277 - Twentieth Century Spanish Narrative
- SPW5428 - Theatre in Calderon and Lope
- SPW5729 - Major Writers of the Generation of '98
- SPW6335 - Golden Age Poetry (Inactive)
- SPW6216 - Golden Age Prose

The SPW5934 Sp Topics Lang/Lit course can be repeated with the first enrollment focusing on Literature and Cartography of the Caribbean, 1492-1700 and the second enrollment focusing on Cervantes in the Americas.

Art History

Complete ANY of the following Courses:

- ARH5421 - Graduate Enlightenment and Romanticism
- ARH5441 - Graduate Realism, Impressionism, and Post-Impressionism
- ARH5845 - Graduate Spanish Art
- ARH5465 - Modern Art
- ARH5362 - Baroque Art

Electives

The remaining (1) course might be chosen from the electives listed every semester.

History

Complete ANY of the following Courses:

- EUH5935 - Topics in European History

The Topics course should focus on the History of Early Modern Spain.

Modern Languages

Complete ANY of the following Courses:

- SPW5348 - Avant-Garde Spanish Poetry: From Creacionismo to Lorca
- SPW5934 - Special Topics in Language/Literature
- SPW5405 - Medieval Spanish Literature

Religious Studies

Complete ANY of the following Courses:

- RLG5617 - Jews and Muslims in the Middle Ages
- RLG5615 - Medieval Judaism (Inactive)
- RLG5698 - Sephardic and Oriental Jewry Colloquium

Art History

Complete ANY of the following Courses:

- ARH5897 - Special Topics in Art History

The focus of ARH5897 Special Topics should be The Later Italian Renaissance.

IDEAL:CFI - Graduate Certificate in Inclusion, Diversity, Equity, Access and Leadership (IDEAL)

Overview

Degree Offered
PCRT - Professional Certificate

Program Title
Graduate Certificate in Inclusion, Diversity, Equity, Access and Leadership (IDEAL)

The Graduate Certificate in Inclusion, Diversity, Equity, Access, and Leadership (IDEAL) is designed to develop public, private, and nonprofit leaders and enable change makers by equipping them with increased awareness, working knowledge, analytical skills, policy options, and best practices for identifying and overcoming multifaceted disparities in inclusion, diversity, equity, and access. It provides professional training and career preparation for those seeking careers and advancements in the design; implementation; evaluation; and advocacy of inclusion, diversity, equity, and access, as analysts, consultants, public administrators, and elected officials in the local, state, and federal governments. For more information, visit the Steven J. Green School of International and Public Affairs website.

INT:MBA - International Master of Business Administration

Overview

Degree Offered
MBA - Master of Business Administration

Program Title
International MBA

The College of Business offers several options leading to the Master of Business Administration (MBA) degree: the Professional MBA for Executives (EMBA), the Professional MBA, the Professional MBA in Healthcare Policy and Management, and the International MBA. Each option is designed to meet different student needs. Options are offered in different locations and delivery modes, including online, face-to-face, and blended (i.e., hybrid) modes. The MBA will broaden students' perspectives and transform their understanding of business processes. Additionally, students will develop leadership, problem-solving, and communication skills that are indispensable in today's business world. The Professional MBA offers various specializations: marketing, entrepreneurship, negotiations, business analytics, finance, international business, leadership, and real estate.

For more information, visit the College of Business website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the International Master of Business Administration (MBA)

To be eligible for admission to the International MBA Program in the Chapman Graduate School, students must:

(1) Hold a bachelor degree or equivalent from either a U.S. accredited college or university or the equivalent degree from institutions outside the U.S.; Students coming from programs where the primary degree is at the master level or higher will meet this requirement;

(2) Show high promise of success in graduate studies as determined by the faculty based upon academic performance, work experience or a combination of academic and work experience.

(3) Evidence a minimum score of 500 on the Graduate Management Admission Test (GMAT) or similar Graduate Record Exam (GRE) score. A GMAT waiver at the discretion of the academic director is available for:

(a) Applicants with two years of demonstrative work experience and success in completing other academic programs;

(b) Applicants who have an undergraduate business or related degree (economics, hospitality management, etc.) with an upper division grade point average (GPA) of 3.25, or higher;

(c) Applicants without a business or related degree having an upper division grade GPA of 3.35, or higher;

(d) If the applicant has already completed a graduate degree from an accredited university with a minimum grade point average (GPA) of 3.0, or is entering a business master's program under a special agreement for admissions with specific foreign and domestic universities;

(4) Should, in general, have a minimum upper division grade point average (GPA) of 3.0. An applicant with substantial work experience and industry/work related recommendations will be evaluated based on academic qualifications, work experience, and performance;

(5) Provide a resume describing current and past responsibilities, leadership and management experience highlights and, if any, demonstrated accomplishments in the application of quantitative and analytical skills;

(6) Provide a statement of purpose (short essay) describing how the program fits within your personal and career goals. The essay will be evaluated for applicants' effective and succinct writing skills;

(7) When the applicant's studies were completed in non- English speaking countries, demonstrate proficiency of the English language by presenting a minimum score of 80 on the iBT TOEFL (equivalent to 550 on the paper based version or 213 on the computer based version of the test of English as a Foreign Language) or 6.5 overall on the International English Language Testing System (IETLS) or by other university level English proficiency standards as they are approved.

Applicants are encouraged to provide any additional documentation to strengthen their application portfolio. Examples of documentation include: master degree in any discipline other than an MBA, law degree, professional certifications (i.e. CPA, CFA, SHRM, etc.), GMAT or GRE scores, specialized leadership experience or training documentation that the applicant is part of a "fast track" or "high potential" management group at their organization, or any other similar evidence including letters of reference and recommendations.

Admissions at the graduate level are competitive and meeting minimum requirements does not guarantee admission.

Students may also be eligible to pursue joint degree programs with the Master of Science in Finance (MBA/MSF), the Master of Science in Information Systems (MBA/MSIS), the Master of International Business (MBA/MIB), the Master of Science in Human Resource Management (MBA/MSHRM), the Master of Science in International Real Estate (MBA/MSIRE), the College of Law (MBA/JD), and the Master of Arts in Latin American and Caribbean Studies (MBA/MALACS).

For more detailed information about the IMBA program, please contact the program manager at (305) 348-6880 or by email **imba@fiu.edu**.

Admissions Requirements for the International MBA and Juris Doctor (JD) Joint Degree Pathway

(1) Candidates for the pathway must meet the entrance requirements for and be accepted by both colleges. The College of Business may accept LSAT scores in lieu of GMAT or GRE scores for candidates from the College of Law as part of the admission requirement in the MBA. Both colleges must be informed by the student at the time of application to the second program that the student intends to pursue the joint degree.

(2) The joint degree pathway is not open to students who have already earned one degree.

Admissions Requirements for the International MBA and Master of Accounting (MAcc) Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree option.

(2) Applications for a joint degree will not be accepted from candidates who have already completed either degree.

Admissions Requirements for the International MBA and Master of Arts (MA) in Latin American and Caribbean Studies Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program.

(2) Applications for a joint degree will not be accepted from candidates who have already completed either degree. Business Administration students must apply and be admitted by no later than the semester in which they are expected to complete 18 pre-core and core credit hours in the MBA program. MALACS students must apply and be admitted by no later than the semester in which they are expected to complete 18 credit hours in that program.

Admissions Requirements for the International MBA and Master of International Business (MIB) Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree option. Candidates deciding to pursue the joint degree pathway after having been admitted to one program will indicate this intention only on their second application.

(2) Applications for a joint degree pathway will not be accepted from candidates who have already completed either degree. MBA or MIB students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.

Admissions Requirements for the International MBA and Master of Science in Finance (MSF) Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree option. Candidates deciding to pursue the joint degree option after having been admitted to one program will indicate this intention only on their second application.

(2) Applications for a joint degree pathway will not be accepted from candidates who have already completed either degree. MBA or Fast Track-MSF students must apply and be admitted by no later than the second to last semester in which they are expected to complete their original degree requirements.

Admissions Requirements for the International MBA and Master of Science (MS) in Human Resource Management Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must submit applications to both programs and notify each Program Manager of desire to pursue the joint degree. Candidates deciding to pursue the joint degree pathway after having been admitted to one program must submit a second application to the other program and notify each Program Manager of desire to pursue the joint degree pathway option.

(2) Applications to the joint degree pathway will not be accepted from candidates who have already completed either degree. MBA or MSHRM students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.

Admissions Requirements for the International MBA and MS in Information Systems Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree pathway. Candidates deciding to pursue the joint degree pathway after having been admitted to one program will indicate this intention only on their second application.

(2) Applications for the joint degree pathway will not be accepted from candidates who have already completed either degree. MBA or MSIS students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.

Admissions Requirements for the International MBA and MS in International Real Estate Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree option. Candidates deciding to pursue the joint degree option after having been admitted to one program will indicate this intention only on their second application.

(2) Applications for a joint degree will not be accepted from candidates who have already completed either degree. MBA or MSIRE students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.

Transfer Credits

A student may receive permission to transfer up to a maximum of nine semester hours of graduate credit towards a Master of Science degree program or twelve semester hours of credit for a Master of Business Administration degree program, if:

(1) The courses were taken at the graduate level at an accredited college or university;

(2) The courses were not introductory or survey in nature;

(3) The student earned grades of “B” or higher in the courses;

(4) The courses are judged by the Department Chair, College Dean, Graduate School Dean, and program manager to be relevant to the student’s graduate program;

(5) The credits were completed within six years immediately preceding the College’s awarding of the degree. Credits are not transferable until the student has earned 15 semester hours in a Chapman School graduate degree program.

Program Requirements

College Policies

To be eligible for a Master’s degree, a student must:

(1) Satisfy all University requirements for a Master’s degree;

(2) Satisfy required prerequisites;

(3) Complete the required courses in the specific graduate program in which he/she is enrolled.

(4) Earn a minimum average of “B” (3.0) in all approved courses in the student’s approved course of graduate study.

No courses in which a graduate student earns a grade below “C” may be counted towards any Master’s degree program in the Chapman School. However, all approved undergraduate and graduate course work a graduate student takes will be counted in computing his or her grade point average, including courses in which he or she has earned a “D” or “F” grade.

Faculty have the discretion to administratively drop students who do not attend the first class of a course.

Degree Requirements

Type

Completion Requirement

Required Courses

In order to complete the IMBA, students must successfully complete 45 credit hours of course work; including 42 credit hours of core course work; and three-credit hours of elective course work. In addition, Professional Development Seminars are required.

The following courses are required for the IMBA:

Complete ALL of the following Courses:

- QMB6315 - Quantitative Analytical Methods in Business
- ACG6026 - Accounting for Managers
- MAN6608 - International Business
- ISM6021 - Management of Information Systems
- MAN6245 - Organizational Behavior
- FIN6406 - Corporate Finance
- MAN6974 - Master's Project in Management
- QMB6616 - Business Process & Operations Analysis
- MAR6805 - Marketing Management in the Global Environment
- BUL6810 - Legal Environment of Business
- ACG6175 - Financial Reporting and Analysis
- FIN6644 - Global Financial Strategy
- MAN6726 - Strategic Management
- MAR6816 - Corporate Simulation

Elective Options

Complete ANY of the following Courses:

- MAN6930 - Master's Seminar in Management
- GEB6941C - Graduate Business Internship

To fulfill the elective requirement, students may also take any course offered in the Summer term in any of the business disciplines.

Professional Development

Professional Development seminars

Each of the Professional Development Seminars will focus on soft skills such as leadership, team building, oral presentation, writing skills and career exploration. There will be team-building activities which include classroom exercises in group decision-making and problem-solving. Challenging outdoor exercises will be included to help participants build the skills they will need to work together in the program and to succeed in today’s team-based organizations. Students will also work with a presentation and writing skills coach to improve the communication and writing skills that are critical to managerial success.

Professional Development Seminars will be mandatory, non-credit.

Professional Development Seminars include topics such as:

- Team Building
- Career Development
- Presentation Skills
- Writing Skills
- Leadership

The IMBA and MBA academic directors in consultation with the Associate Dean for the Chapman Graduate School of Business can substitute up to six credit hours of required courses.

The IMBA academic director can waive a professional development seminar.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: International MBA and JD Joint Degree Pathway

Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. Essential criteria relating to the joint degree pathway are as follows:

(1) For law students, enrollment in the MBA program is required no later than the completion of 63 credit hours in the JD program. For MBA students, enrollment in the JD program is required no later than the third semester after beginning the MBA program. For purposes of this paragraph, a summer session is counted as half a semester.

(2) A student must satisfy the curriculum requirements for each degree before either degree is awarded. The College of Business will allow 12 credit hours of upper level business and commercial law courses to be credited toward both the MBA and JD degrees. These 12 credit hours of law classes will be in lieu of the Legal Environment of Business course (3 credit hours) and three of the elective courses (totaling 9 credit hours) required for the MBA degree. A student may obtain a concentration in the MBA program in accordance with the College of Business curriculum requirements for concentrations. Reciprocally, law students may receive 9 hours of credit toward the satisfaction of the JD degree for courses taken in the MBA curriculum upon completion of the MBA degree with a grade point average of 3.0 or higher.

(3) A student enrolled in the joint degree pathway may begin the student's studies in either college, but full-time law students must take the first two semesters of law study consecutively and part-time law students must take the first three semesters of law study consecutively. Students admitted to one college but electing to begin study in the other college under the joint degree pathway may enter the second college thereafter without once again qualifying for admission so long as they have notified the second college before the end of the first week of the first semester in the second college and are in good academic standing when studies commence in the second college.

(4) A student enrolled in the joint degree pathway will not receive either degree until the student has satisfied all of the requirements for both degrees, or until the student has satisfied the requirements of one of the degrees as if the student had not been a joint degree pathway candidate.

(5) Students in the joint degree pathway will be eligible for the graduate teaching assistantships and research assistantships in the College of Business on the same basis as other MBA students, subject to the guidelines and restrictions set by the College of Business.

For additional information, contact the Chapman Graduate School of Business at (305) 348-0148 or the Law School Admissions Office at (305) 348-8006.

Other Curricular Offering: International MBA and MAcc Joint Degree Pathway

The School of Accounting and the International Master of Business Administration (IMBA) program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University offer a joint degree pathway culminating in both a Master of Accounting (MACC) and an IMBA. Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

(1) Domestic undergraduate non-accounting degree holders; and international degree holders, regardless of major, will take the following courses, for a saving of 15 credits:

-- 34 credits at the 6000-level from the IMBA

-- 15 credits at the 5000-level from the MACC

-- 30 credits at the 6000-level from the MACC

(2) Domestic undergraduate accounting degree holders from AACSB accredited universities may petition to waive the 5000-level MACC courses, for a saving of an additional 15 credits.

(3) All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. Directors of the MACC and MBA degree programs may adjust these exact course requirements as a result of future changes to the MACC or MBA curriculums.

(4) Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree pathway candidate.

With prior approval of the Director of the School of Accounting, two courses may be substituted for other 6000 level business courses.

Other Curricular Offering: International MBA and MA in Latin American and Caribbean Studies Joint Degree Pathway

An agreement approved by the University Graduate School, between the FIU Alvah H. Chapman, Jr. Graduate School of Business and the Steven J. Green School of International and Public Affairs allows students to pursue simultaneously the Master's in Business Administration (MBA) and MALACS. In doing so the student will finish both programs much sooner than if they pursue each degree separately. Students must meet the entrance requirements for both the MBA and MALACS programs. Twelve credits from the MBA curriculum will be allowed toward the MALACS program and will constitute a MALACS concentration in International Business. Nine credits from the MALACS program will also count toward the MBA curriculum requirements. All other requirements to receive either the MBA or MALACS degree must be met. Additional information on the joint degree pathway is available on the Chapman Graduate School of Business and MALACS web sites.

Essential criteria relating to the joint degree pathway are as follows:

(1) Candidates must satisfy all requirements for each degree. Twelve (12) credit hours from the MBA curriculum pre-core and core requirements may count toward the MALACS degree to satisfy MALACS concentration requirements. Nine (9) credit hours from the MALACS course offerings may be applied to satisfy MBA elective requirements. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MALACS courses transferred to meet MBA elective credit must be 6000 or 7000 level courses approved by the University Curriculum Committee and be from the approved MALACS course list in the social science disciplines of anthropology, economics,

environmental studies, history, international relations, Latin American and Caribbean Studies (interdisciplinary), political science, or sociology. The Dean of the Chapman Graduate School of Business (or his/her delegate) has final authority on the approval of which courses may be transferred to meet MBA elective requirements.

(2) Based on existing MBA and MALACS curriculums, specifics on the transfer of credits include the following. Participants in the joint degree pathway will obtain a MALACS concentration in International Business. Four MBA pre-core or core courses (12 credits) may be transferred to meet the student's MALACS concentration requirements. Students who have not taken MAN 6910 Research Methods in Management as an MBA elective course will be required to take a MALACS-approved social science research methods course as one of their first MALACS courses. With the 12 credit transfer from the MBA program, to obtain the MALACS degree, the student will be required to take the MALACS gateway interdisciplinary course LAS 6003 Survey of Latin America and the Caribbean (3 credits), the MALACS required data analysis course LAS 6930 Latin American and Caribbean Data Analysis (3 credits), one additional course in the MALACS concentration of International Business (the social science research methods course may meet this requirement) (3 credits), three additional courses in at least two MALACS concentrations other than International Business (9 credits), and a MALACS graduation exit option (6 credits) for a total of 24 MALACS credits. Candidates for the MALACS degree must also meet MALACS language proficiency requirements. With the 9 credit transfer from the MALACS program, to obtain the MBA degree, the student will be required to take all MBA pre-core, core, and professional development seminar courses, plus one MBA elective, for a total of 46 MBA credits. Directors of the MBA and MALACS degree programs may adjust the exact course numbers and titles required for degree completion as a result of future changes to the MBA or MALACS curriculums.

(3) If the joint degree candidate chooses the thesis exit option for the MALACS degree, the thesis must address a Latin American or Caribbean business or management issue. The thesis committee must be chaired by a School of International and Public Affairs faculty member. Furthermore, the thesis committee must have at least one member from both the College of Business and School of International and Public Affairs. Thesis committee co-chairs with faculty members from both academic units are recommended. Candidates selecting a MALACS exit option other than the thesis must follow the procedures established by the MALACS program. MALACS will establish the necessary thesis, internship, independent study, or directed research course numbers to allow Graduate School of Business faculty to participate in MALACS exit options for joint degree students.

(4) Candidates accepted to the joint degree pathway may begin their studies in either program first. All candidates must register for classes during the regular registration period for the respective program. Additionally, joint degree pathway students must register for a course or courses in their second degree no later than the semester commencing the second half of their first degree program.

(5) Joint degree candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate. Subject to prior approval, graduate students are normally allowed six (6) credit hours from graduate level courses offered by other units of the University as counting toward single degrees.

(6) Candidates in the joint degree pathway will be eligible for the graduate teaching assistantships, graduate research assistantships, and scholarships in the Chapman Graduate School of Business and LACC on the same basis as other graduate students, subject to the guidelines and restrictions set by either program.

(7) Future changes to the MBA/MALACS joint degree pathway must be endorsed by the College of Business Faculty Curriculum Committee and Associate Dean of the Chapman Graduate School of Business; the School of International and Public Affairs Faculty Curriculum Committee and Dean of the School of International and Public Affairs; and approved by the University Curriculum Committee, Graduate Council, the Faculty Senate, Dean of the University Graduate School, and the Provost.

For additional information, contact the Evening MBA office at (305) 348-0148 or the Latin American and Caribbean Center (LACC) at (305) 348-2894.

Other Curricular Offering: International MBA and MIB Joint Degree Pathway

Type

Completion Requirement

Joint Degree Pathway

The MIB and MBA programs in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University offer a joint degree pathway culminating in both a Master of Business Administration (MBA), and a Master in International Business (MIB). Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have four common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MIB courses transferred to meet MBA elective credit and vice versa must be 6000 level courses approved by the University Curriculum Committee. Directors of the MBA and MIB degree programs may adjust these exact course requirements as a result of future changes to the MBA or MIB curriculums.

Fulfill ALL of the following requirements:

In the IMBA program: 45 credit hours

To obtain the MIB degree, International MBA (IMBA) students must complete the following courses for a total of 69 credit hours as follows:

Complete ALL of the following Courses:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- QMB6616 - Business Process & Operations Analysis
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- MAN6703 - Colloquium in Managing Organizational Ethics (Inactive)
- ISM6021 - Management of Information Systems
- MAN6679 - Master's Project in International Business
- MAR6805 - Marketing Management in the Global Environment
- QMB6357 - Business Statistical Analysis

Students also must take Professional Development Seminars (PDS) I,II, III.

AND

In the MIB program: 24 credit hours

Complete ALL of the following Courses:

- MAN6930 - Master's Seminar in Management
- MAN6635 - Global Strategy and Business Models
- MAN6601 - Global Management Skills
- MAN6617 - Managing Global Production and Technology (Inactive)

- MAN6679 - Master's Project in International Business
- MAR6158 - International Marketing

AND

Electives

Complete at least 2 of the following courses:

- MAN6678 - Global Start-ups
- GEB6941C - Graduate Business Internship
- MAN6937 - Special Topics in Business Environment (Inactive)

Joint Degree Pathway

To obtain the International MBA (IMBA), MIB degree students must complete a total of 69 credits as follows:

Fulfill ALL of the following requirements:

In the MIB program: 36 credit hours

Complete ALL of the following Courses:

- MAN6930 - Master's Seminar in Management
- MAN6606 - Fundamentals of International Business
- ACG6026 - Accounting for Managers
- BUL6850 - International Business Law
- FIN6644 - Global Financial Strategy
- MAN6635 - Global Strategy and Business Models
- MAN6601 - Global Management Skills
- MAN6617 - Managing Global Production and Technology (Inactive)
- MAN6679 - Master's Project in International Business
- MAR6158 - International Marketing

AND

Electives

Complete at least 2 of the following courses:

- MAN6678 - Global Start-ups
- GEB6941C - Graduate Business Internship
- MAN6937 - Special Topics in Business Environment (Inactive)

AND

In the IMBA program: 33 credit hours

Complete ALL of the following Courses:

- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance

- FIN6446 - Competitive Strategy
- QMB6616 - Business Process & Operations Analysis
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- MAN6703 - Colloquium in Managing Organizational Ethics (Inactive)
- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Professional Development Seminars (PDS) I, II, III

Additional Comments:

Notes:

(1) Requirements for the MBA depend on MBA program chosen. If a candidate has elected the option of a specialization, the number of credit hours required and shared for the Flex will be used. Otherwise, the number of credit hours required and shared for the PMBA will be used.

(2) The Executive MBA and Professional MBA in Healthcare Management programs are not included as an option for the joint degree.

(3) Joint degree candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate.

For additional information, contact the MIB office at (305) 348-3279 or the MBA office at (305) 348-0148.

Other Curricular Offering: International MBA and MSF Joint Degree Pathway

Type

Completion Requirement

Joint Degree Pathway

The Department of Finance and the MBA program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University have a joint degree pathway culminating in both a Master of Business Administration degree (MBA), and a Master of Science in Finance degree (Fast Track-MSF). Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway uses existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have four-five common courses. Courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MSF courses transferred to meet MBA elective credit must be 6000 level courses approved by the University Curriculum Committee. Directors of the MBA and MSF degree programs may adjust these exact course requirements as a result of future changes to the MBA or MSF curriculums.

Fulfill ALL of the following requirements:

In the IMBA program: 42 credit hours

To obtain MSF/MBA through the International program, students must complete the following courses for a total of 72 credit hours as follows:

Complete ALL of the following Courses:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6644 - Global Financial Strategy
- QMB6616 - Business Process & Operations Analysis
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- MAN6608 - International Business
- MAN6703 - Colloquium in Managing Organizational Ethics (Inactive)
- ISM6021 - Management of Information Systems
- MAN6679 - Master's Project in International Business
- MAR6805 - Marketing Management in the Global Environment
- QMB6357 - Business Statistical Analysis

Students also must complete Professional Development Seminars (PDS) I, II, III.

AND

In the MSF program: 30 credit hours

Complete ALL of the following Courses:

- FIN6456 - Quantitative Methods in Financial Analysis
- FIN6515 - Securities Analysis
- FIN6246 - Financial Markets and Institutions
- FIN6537 - Financial Futures and Fixed Income Investments
- FIN6487 - Financial Risk Management -Financial Engineering
- FIN6525 - Portfolio Management
- FIN6465 - Financial Planning and Statement Analysis

AND

Specialty Options

One of the following specialty tracks, in addition to the core MSF courses is required for the MSF degree:

Fulfill ANY of the following requirements:

Specialty Option 1: Financial Management

Complete ALL of the following Courses:

- FIN6326 - Commercial Banking
- FIN6436 - Capital Budgeting and Long Term Resource Allocation
- FIN6425 - Financial Management Policies

OR

Specialty Option 2: Investments

Complete ALL of the following Courses:

- FIN6425 - Financial Management Policies
- FIN6489 - Advanced Financial Risk Management
- FIN6517 - Advanced Investments

OR

Specialty Option 3: International Banking

Complete ALL of the following Courses:

- FIN6326 - Commercial Banking
- FIN6625 - International Bank Management
- FIN6346 - Credit Analysis

Additional Comments:

Notes:

(1) Requirements for the MBA depend on the MBA program chosen. If a candidate has elected the option of a specialization, the number of credit hours required and shared for the Flex will be used. Otherwise, the option for a joint degree is not available with the MSF.

(2) The Executive MBA, Professional MBA, and Professional MBA in Healthcare Management programs are not included as an option for the joint degree.

(3) Joint degree candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate.

For additional information, contact the MBA office at (305) 348-0148 or the Master of Science in Finance office at (305) 348-4198.

Other Curricular Offering: International MBA and MS in Human Resource Management Joint Degree Pathway

Type

Completion Requirement

Joint Degree Pathway

The Department of Global Leadership and Management and the MBA program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University offer a joint degree program culminating in both a Master of Business Administration (MBA) degree and a Master of Science in Human Resource Management (MSHRM) degree. Under the joint degree pathway, a student can obtain both degrees in less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have two - four common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MSHRM courses transferred to meet MBA elective credit must be 6000 level courses approved by the University Curriculum Committee. Directors of the MBA and MSHRM degree programs may adjust these exact course requirements as a result of future changes to the MBA or MSHRM curriculums.

Notes:

(1) Requirements for the MBA depend on the MBA program chosen. If a candidate has elected the option of a specialization, the requirements and shared/common courses for the Flex MBA will be used. Otherwise, the requirements and shared/common courses for the Professional MBA will be used.

(2) The Executive MBA and Professional MBA in Healthcare Management programs are not included as an option for the joint degree pathway.

(3) Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all degree requirements for the first program as if the student had never been a joint degree pathway candidate.

For additional information, contact the MBA office at (305) 348-0148 or the Master of Science in Human Resource Management office at (305) 348-5945.

Fulfill ALL of the following requirements:

In the IMBA program: 45 credits

To obtain the MSHRM degree, International MBA students must complete the following courses for a total of 77 credit hours as follows:

Complete ALL of the following Courses:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6644 - Global Financial Strategy
- ISM6021 - Management of Information Systems
- MAN6245 - Organizational Behavior
- MAN6679 - Master's Project in International Business
- MAN6703 - Colloquium in Managing Organizational Ethics (Inactive)
- MAN6726 - Strategic Management
- MAR6805 - Marketing Management in the Global Environment
- QMB6357 - Business Statistical Analysis
- QMB6616 - Business Process & Operations Analysis

Students also must take Professional Development Seminars (PDS) I, II, III.

AND

In the MSHRM program: 32 credits

Complete ALL of the following Courses:

- MAN6157 - Wellness Management
- MAN6403 - Employment Law and Human Resource Management
- MAN6626 - International Human Resource Management

- MAN6297 - Labor Issues and Conflict Management
- MAN6359 - Human Resource Knowledge Management
- MAN6316 - Human Resource Analytics
- MAN6347 - Performance and Talent Management
- MAN6336 - Reward Systems Management
- MAN6365 - Staffing Organizations
- MAN6317 - Critical Thinking in Human Resource Management

Students also must take Professional Development Seminars (PDS) I, II, III.

Joint Degree Pathway

Fulfill ALL of the following requirements:

In the MSHRM program: 38 credits

To obtain the International MBA (IMBA), MSHRM degree students must complete a total of 77 credits as follows:

Complete ALL of the following Courses:

- MAN6157 - Wellness Management
- MAN6403 - Employment Law and Human Resource Management
- MAN6327 - High Involvement Human Resource Management
- MAN6626 - International Human Resource Management
- MAN6297 - Labor Issues and Conflict Management
- MAN6359 - Human Resource Knowledge Management
- MAN6316 - Human Resource Analytics
- MAN6347 - Performance and Talent Management
- MAN6336 - Reward Systems Management
- MAN6365 - Staffing Organizations
- MAN6317 - Critical Thinking in Human Resource Management

Students also must take Professional Development Seminars (PDS) I, II, III.

AND

In the IMBA program: 39 credits

Complete ALL of the following Courses:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6644 - Global Financial Strategy
- MAN6608 - International Business
- ISM6021 - Management of Information Systems
- MAN6703 - Colloquium in Managing Organizational Ethics (Inactive)
- MAN6679 - Master's Project in International Business
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Students also must take Professional Development Seminars (PDS) I, II, III.

Other Curricular Offering: International MBA and MS in Information Systems Joint Degree Pathway

Type

Completion Requirement

In the IMBA program: 39 credits

To obtain the MSIS/MBA degree through the International MBA program, students must complete the following courses for a total of 69 credit hours if they choose the MSIS program or 72 credit hours if they choose the MSIS in Business Analytics track program or the MSIS in Business Cybersecurity track program.

Notes:

1 The Professional MBA for Executives and Professional MBA in Healthcare Management programs are not included as an option for the joint degree pathway.

2 Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree pathway candidate.

For additional information, contact the MBA office at (305) 348-0148 or the MSIS Office at (305) 348-2830.

Earn at least 39 credits from the following:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6644 - Global Financial Strategy
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- MAN6608 - International Business
- MAN6974 - Master's Project in Management
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6616 - Business Process & Operations Analysis
- QMB6357 - Business Statistical Analysis

In the MSIS program: 30 credits

Earn at least 30 credits from the following:

- ISM6106 - Systems Analysis
- ISM6205 - Database Management
- ISM6307 - Management of the Information Systems Function
- ISM6208 - Cloud Data Warehousing
- ISM6128 - Business Process Design
- ISM6328 - Information Security Management
- ISM6338 - Information Systems Strategy and Governance
- ISM6316 - Project Management
- ISM6156 - Enterprise Information Systems

- ISM6489 - E-business and Blockchain Applications

Students also must take Professional Development Seminars (PDS) I, II, III.

In the MSIS in Business Analytics track program: 33 credits

Earn at least 33 credits from the following:

- ISM6106 - Systems Analysis
- ISM6205 - Database Management
- ISM6307 - Management of the Information Systems Function
- ISM6128 - Business Process Design
- ISM6328 - Information Security Management
- ISM6338 - Information Systems Strategy and Governance
- ISM6316 - Project Management
- QMB6357 - Business Statistical Analysis
- ISM6208 - Cloud Data Warehousing
- ISM6136 - Business Analytics Applications
- ISM6404 - Business Data Visualization and Reporting

Students also must take Professional Development Seminars (PDS) I, II, III.

In the MSIS in Business Cybersecurity track program: 33 credits

Earn at least 33 credits from the following:

- ISM6106 - Systems Analysis
- ISM6205 - Database Management
- ISM6307 - Management of the Information Systems Function
- ISM6128 - Business Process Design
- ISM6328 - Information Security Management
- ISM6338 - Information Systems Strategy and Governance
- ISM6316 - Project Management
- ISM6325 - Ethical Hacking for Business
- ISM6326 - Information Security and Compliance
- ISM6327 - Protecting and Defending Business Digital Assets
- ISM6575 - Security Risk Management and Organizational Cyber Resilience

Students also must take Professional Development Seminars (PDS) I, II, III.

Other Curricular Offering: International MBA and MS in International Real Estate Joint Degree Pathway

Type

Completion Requirement

In the IMBA program: 45 credits

The Hollo School of Real Estate and the Master of Business Administration program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University offer a joint degree pathway culminating in both a Master of Business Administration degree (MBA), and a Master of Science in International Real Estate degree

(MSIRE). Under the joint degree pathway, a student can obtain both degrees in less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have three – four common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MSIRE courses transferred to meet MBA elective credit must be 6000 level courses. Directors of the MBA and MSIRE degree programs may adjust these exact course requirements as a result of future changes to the MBA or MSIRE curriculums.

To obtain MSIRE/MBA through the International program, students must complete the following courses for a total of 69 credit hours as follows:

Notes:

(1) Requirements for the MBA depend on the MBA program chosen. If a candidate has elected the option of a specialization, the number of credit hours required and shared for the Flex will be used. Otherwise, the option for a joint degree is not available with the MSIRE.

(2) The EMBA. Professional MBA, and Professional MBA in Healthcare Management programs are not included as an option for the joint degree.

(3) Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate.

For additional information, contact the Evening MBA office at (305) 348-0148 or the Master of Science in International Real Estate office at (305) 348-4198.

Complete ALL of the following Courses:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6644 - Global Financial Strategy
- QMB6616 - Business Process & Operations Analysis
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- MAN6608 - International Business
- MAN6703 - Colloquium in Managing Organizational Ethics (Inactive)
- MAN6679 - Master's Project in International Business
- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Students also must take Professional Development Seminars (PDS) I, II, III.

In the MSIRE program: 24 credits

Complete ALL of the following Courses:

- REE6045 - Real Estate Markets, Institutions and Practices
- REE6209 - Real Estate Finance
- REE6305 - Advanced Real Estate Investment Valuation

- REE6935 - Seminar in International Real Estate
- REE6435 - Real Estate Law
- REE6715 - Real Estate Development
- REE6147 - Real Estate Market Analysis
- REE6932 - Spec Top Real Estate

INTA:MA - Master of Arts in Interior Architecture

Overview

Degree Offered
MA - Master of Arts

Program Title
Interior Architecture

The Master of Arts (MA) program, with a focus on healthcare design, offers post-professional education aimed at enhancing professional qualifications with specialized expertise in healthcare design. Eligible candidates hold an undergraduate degree in Interior Design or Architecture from an accredited professional program. The program requires one and a half years of full-time residency. Students undertake a variety of departmental and interdisciplinary courses grounded in evidence-based practices. The program prepares students who wish to conduct research, teach, and undertake advanced studies in healthcare design. While rooted in design principles, it also encourages students to explore innovative 'what-if' scenarios in healthcare design, challenging and advancing conventional industry models. By immersing themselves in Miami's urban community, students can actively contribute to reshaping and improving healthcare environments.

For more information, visit the College of Communication, Architecture, and the Arts website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for all Graduate Degrees in the Department of Interior Architecture

All applicants must meet university graduate admissions requirements. Applicants to the Department of Interior Architecture degree programs must also submit a portfolio of creative work for department review. The portfolio review examines evidence of creative ability, academic success, and professional achievement. It is an important component of the admissions process. Please contact the Department of Interior Architecture for specific portfolio requirements. The deadline for portfolio submission is January 15th of each year. Portfolios submitted after this date will be considered if studio space is available.

Students who have successfully completed the portfolio review process must also meet the minimum requirements of an undergraduate degree from an accredited college or university with undergraduate grade point average (GPA) of 3.0 on a 4.0 scale, or hold a graduate degree from an accredited institution to be fully admitted in the graduate program. When the academic record is less than 3.0 GPA, the applicant must submit Graduate Record Examination (GRE) scores.

Additional Information for Applicants

Students applying to the department should plan for the financial aspects of a design education. This includes the costs of computers, software, travel and field trips, tools and equipment, and modeling supplies. All students must have continuing access to a laptop computer through purchase, lease or other arrangements.

Program Requirements

One year of full-time study in residency is normally required. However, a part-time study option is available subject to the review and approval of the Program.

Ownership of Student Work

Student work, submitted to the department in satisfaction of course or degree requirements, becomes the physical property of the department. However, students retain all rights to the intellectual property of such work. This work may include papers, drawings, models, and other materials. The department assumes no responsibility for safeguarding such materials. At its discretion, the department may retain, return, or discard such materials. The department will not normally discard the materials of currently enrolled students without giving the student an opportunity to reclaim them.

Health Care Design Program

This program prepares students with a specialized healthcare design expertise. Students will interact with a variety of stakeholders to co-create spatial contexts in partnership with related academic disciplines (nursing, medicine, public health, occupational therapy, computer science and bio-medical engineering), health care design professionals, and healthcare facilities (hospitals and nursing homes). The program is designed to provide students with research expertise, problem-solving skills, health care design thinking and prototyping skills while engaging with a multicultural urban community.

Degree Program Credit Hours: 36

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

First Year (Fall Semester: CORE courses)

Complete ALL of the following Courses:

- IND5939 - Design Thinking and Creative Process
- IND5637 - Design Research Methods
- IND5616 - Environment and Behavior Theory

AND

First Year (Spring Semester)

Complete ALL of the following Courses:

- IND5602 - Healthcare Design 1
- IND5612 - Environmental Systems for Healthcare Environments
- IND5617 - Health Care Theory

Elective (3 credits)

AND

Second Year (Fall Semester)

Complete ALL of the following Courses:

- IND5603 - Healthcare Design Studio 2

Directed Elective (3 credits)

Directed Elective (3 credits)

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

INTA:MIA - Master of Interior Architecture

Overview

Degree Offered
MIA - Master of Interior Architecture

Program Title
Interior Architecture

The Master of Interior Architecture (MIA) is a CIDA-accredited STEM degree devoted to the education of Interior Design professionals. The MIA offers flexible pathways tailored to students' backgrounds. Those with undergraduate design degrees can complete the program in two years, while those with associate's degrees or degrees in other fields complete it in three years. The degree program embraces an educational philosophy that engages Miami's diverse cultural context, addressing such interior typologies as healthcare, hospitality, retail, workplace and residential design. Through this program, students will cultivate a design sensibility to create interior environments that are humane, sustainable, and grounded in evidence-based practices.

The Department of Interior Architecture also offers an Accelerated Master of Interior Architecture for undergraduate students to complete the MIA in a 5-year or 6-year accelerated format. Information on that alternative can be found as the Accelerated Master of Interior Architecture on the catalog program list.

For more information, visit the College of Communication, Architecture, and the Arts website.

The department will not normally discard the materials of currently enrolled students without giving the student an opportunity to reclaim them.

Thesis Requirement

Interior Architecture graduate students in master degree programs are required to undertake a master's project or a master's thesis as part of their course of study at the Department of Interior Architecture.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Three-Year Path

A professional degree for students with a Bachelor of Arts or a Bachelor of Science, or equivalent, from an accredited institution.

Three-Year Path Summer Leveling

Type
Prerequisite

Leveling courses may be required for students without a design background. These are in addition to degree requirements.

Complete ALL of the following Courses:

- IND5319 - Visual Notation for Interior Design
- IND5475 - Computer Applications in Design
- IND5285 - Design Foundations

Three-Year Path Credit Hours: 90

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Fall Semester

Complete ALL of the following Courses:

- IND6255 - Graduate Design 1
- IND5477 - Computer Applications in Design II
- IND5486 - Materials for Interiors
- IND6616C - Interior Architecture Theory I

AND

Spring Semester

Complete ALL of the following Courses:

- IND6256 - Graduate Design 2
- IND5438 - Lighting Design
- IND5645 - Structures 1
- IND5645L - Structures 1 Lab
- IND5325 - Color Theory and Application for the Built Environment

AND

Summer Semester

Complete ALL of the following Courses:

- IND5427 - Construction Documents in Interior Architecture
- IND5629 - Computer Applications in Design III
- IND5138 - History of Modern Interiors

**IND5138 Hist of Mod Interior: online*

AND

Fall Semester

Complete ALL of the following Courses:

- IND6257C - Graduate Design 3
- IND5485C - Advanced Construction Documents in Interior Architecture
- IND5615 - Building Systems for Interiors

AND

Spring Semester

Complete ALL of the following Courses:

- IND6258C - Graduate Design 4
- IND5937 - Special Topics

Directed Elective (3 credits)

AND

Fall Semester

Complete ALL of the following Courses:

- IND6259C - Graduate Design 5
- IND5626 - Project Programming
- IND6639 - Research Methods

AND

Spring Semester

Complete ALL of the following Courses:

- IND6970 - Masters Project
- IND5628 - Sustainable Practices in Interior Architecture
- IND5508 - Professional Practice

Directed Elective (Internship) (3 credits)

Two-Year Path

A professional degree for students with a Bachelor of Arts or a Bachelor of Science, or equivalent, in Architecture or Landscape Architecture from an accredited institution.

Two-Year Path Credit Hours: 63

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

INTAXL:MIA - Accelerated Master of Interior Architecture

Overview

Degree Offered
MIA - Master of Interior Architecture

Program Title
Interior Architecture

The accelerated Master of Interior Architecture program provides a seamless course of study leading from undergraduate freshman year to the conferral of the Professional Master of Interior Architecture degree (MIA). The Accelerated MIA is comprised of 156 credit hours of integrated pre-graduate and graduate coursework. The degree consists of 72 credit hours of pre-graduate coursework which is taken over two years and is followed by 84 credit hours of graduate coursework which can be completed in either three or four years. Students in the accelerated MIA program are awarded the professional Master's degree without first having to earn an undergraduate degree. As such, no Bachelor's degree is awarded.

Admissions Requirements

Admissions for Undergraduate Students

Undergraduate students may apply for admission into the first year or the third year of the program. The department makes admissions decisions once a year in the Spring semester in order for students to begin their coursework in the following Summer or Fall semester. We recommend that interested applicants meet with a member of the college's Student Services and Advising Center during the Fall semester prior to the application deadline. Admission to the department is competitive and is not guaranteed. Admission will be offered based on space availability to those applicants judged by the Department Faculty Committee to have the greatest potential for successful completion of the program.

First-Year Admission Requirements

Applicants must meet the University's admission requirements and submit a design portfolio – please refer to the Design Portfolio Requirements section.

Third-Year Transfer Student Admission Requirements

Applicants for third year admission must meet the University's admission requirements and submit a design portfolio – please refer to the Design Portfolio Requirements section. Students who have completed an AA in interior design or architecture must meet the following requirements: minimum cumulative GPA of 3.0; completed design studio courses 1 through 4 with a grade of 'C' or better; and be judged by the Faculty Admissions Committee to have passed a

competitive portfolio review. Only grades of ‘C’ or higher (2.0 on a 4.0 grading scale) are accepted for transfer of applicable prerequisite and core courses from other institutions. No grade below a ‘C’ will be accepted for graduation in required courses or required electives.

University policy only allows the transfer of 60 lower division credits. Additional upper-division transfer credits may be accepted. Thus, for most transfer students it will be necessary to take a certain number of undergraduate credits at FIU in order to achieve the minimum required to satisfy the degree requirements.

Third-Year Native Student Admission Requirements

FIU undergraduate students who wish to change their major to Interior Architecture should check program requirements and be advised by the college’s undergraduate advisors well in advance of application for admission.

Design Portfolio Requirements

As part of each department’s admission review process, all students are required to submit a design portfolio demonstrating the candidate’s creative abilities as well as their level of design. The design portfolio is evaluated based on a candidate’s demonstrated sense of composition, attention to detail, graphic communication skills, expressive quality, and sense of space, accuracy, and observation. The design portfolio should be formatted on 8.5’’ x 11” sheets, bound or carefully packaged, with a maximum thickness of 3”. Applicants may also include 11’ x 17” sheets provided they are folded to 8.5” x 11”. Design portfolios may include two-dimensional story boards (a sequence of still images that show a story), computer printouts, and photographs of small three-dimensional models/projects.

First-Year Design Portfolio Requirements

All candidates’ design portfolios must include a one-page (maximum) statement outlining intentions, aspirations, and purpose in pursuing a professional degree. Candidates seeking admission into the first year of the curriculum should submit design portfolios that contain three freehand drawings based on accurate observations: (1) a drawing of a stair or stairs, (2) a drawing of a bicycle or bicycles or a part of a bicycle or bicycles, and (3) a drawing of your own choice. These drawings may be in ink, pencil or charcoal. In addition to the three required freehand drawings, the first-year design portfolio may contain reproductions of a two-or-three dimensional work.

Third-Year Design Portfolio Requirements

All candidates’ design portfolios must include a one-page (maximum) statement outlining your intentions, aspirations, and purpose in pursuing a professional degree. The design portfolio should include no more than 10 examples of your design work executed within the past two years. Examples include, but are not limited to, studies of buildings that demonstrate your analytical ability. Recent art and/or design projects that an applicant completed in collaboration with others are acceptable as long as the example contains an explanation of the applicant’s role in the process. Portfolios may not contain samples of architectural or interior design construction documents either by hand or by computer.

Admissions Requirements for all Graduate Degrees in the Department of Interior Architecture

All applicants must meet University graduate admissions requirements. Applicants to the Department of Interior Architecture degree programs must also submit a portfolio of creative work for department review. The portfolio review examines evidence of creative ability, academic success, and professional achievement. It is an important component of the admissions process. Please contact the Department of Interior Architecture for specific portfolio requirements. The deadline for portfolio submission is January 15th of each year. Portfolios submitted after this date will be considered if studio space is available.

Students who have successfully completed the portfolio review process must also meet the minimum requirements of an undergraduate degree from an accredited college or university with undergraduate grade point average (GPA) of 3.0 on a 4.0 scale, or hold a graduate degree from an accredited institution to be fully admitted in the graduate program. When the academic record is less than 3.0 GPA, the applicant must submit Graduate Record Examination (GRE) scores.

Additional Information for Applicants

Students applying to the department should plan for the financial aspects of a design education. This includes the costs of computers, software, travel and field trips, tools and equipment, and modeling supplies. All students must have continued access to a laptop computer through purchase, lease or other arrangements.

Program Requirements

Ownership of Student Work

Student work, submitted to the department in satisfaction of course or degree requirements, becomes the physical property of the department. However, students retain all rights to the intellectual property of such work. This work may include papers, drawings, models, and other materials. The department assumes no responsibility for safeguarding such materials. At its discretion, the department may retain, return, or discard such materials. The department will not normally discard the materials of currently enrolled students without giving the student an opportunity to reclaim them.

Pre-Graduate Preparation

Students should enroll in pre-graduate design courses the first semester they attend FIU or their progress through the curriculum will be prolonged. Seats in pre-graduate design courses are limited and cannot be guaranteed to all students.

Undergraduates admitted with fewer than 36 semester hours must meet all of the Department of Interior Architecture pre-foundation requirements.

Academic Standards and Policies

(1) Progression Requirements: At the conclusion of 72 credit hours of pre-graduate architecture program coursework, students with of an overall cumulative GPA of 3.0 or above move directly to graduate coursework.

(2) All students must maintain a minimum cumulative GPA of 2.75 in all undergraduate ARC/IND courses. Students who fail to meet this minimum GPA requirement are subject to an internal academic review and may be delayed in their progression to graduate coursework.

(3) No grade below a 'C' will be accepted for graduation in required courses or professional electives.

(4) Students must maintain a minimum cumulative 3.0 or higher GPA in graduate level coursework (5000 level or higher).

(5 After three semesters or 30 credits of graduate coursework, students who fail to maintain a minimum cumulative 3.00 GPA are subject to an internal academic review, which may result in dismissal from the program.

Thesis Requirement

Interior Architecture graduate students in master degree programs are required to undertake a master’s project or a master’s thesis as part of their course of study at the Department of Interior Architecture.

Degree Program Credit Hours: 156

Type

Completion Requirement

Pre-Graduate Level Course Requirements: 72 Credits

Fulfill ALL of the following requirements:

INTBS:BBA - Bachelor of Business Administration in International Business

Overview

Degree Offered
BBA - Bachelor of Business Administration

Program Title
International Business

Global trade is growing at unprecedented speed and is affecting all businesses, even those focused on the domestic market. The Bachelor of Business Administration (BBA) in International Business helps students zero in on the steps to success, and provides them with the skills needed to take advantage of emerging opportunities. Students will learn the necessary background concerning global trade and will understand winning strategies used by multinational corporations as they deal with cross-border political, legal, economic, social, and financial issues. Graduates will be prepared to pursue various occupations in operations management.

Admissions Requirements

Admissions and Progression Requirements for All College of Business Undergraduate Students

Applicants must follow regular University admission procedures and upon admission declare their specific program within the College of Business. In addition, students must:

(1) Complete courses detailed under Required Common Prerequisite Courses, or equivalent coursework, noted below, as part of their 60 credit-hours of lower-division course work.

(2) In their initial 60 credit-hours, earn a GPA of 2.0 or higher to continue pursuing a Bachelor of Business Administration and the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs must comply with the GPA requirement for the respective degree program.

(3) For the set of all Common Prerequisite Course credit hours, earn a GPA of 2.5 or higher to continue pursuing Bachelor of Business Administration degrees and a GPA of 2.75 or higher to pursue the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the 2.5 (or 2.75 Accounting) or higher GPA requirement for the set of Common Prerequisite Course credit hours.

(4) Successfully complete with a C or better each of Common Prerequisite Course within two attempts. Drops after the add/drop period, which result in a DR grade, are considered an unsuccessful attempt at the course, (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the two attempt limit on Common Prerequisite Courses.

(5) Students are expected to make satisfactory progress toward degree completion during their first 60 credit hours of lower-division coursework, consistent with the Common Prerequisite Benchmarks noted below. Students not making good progress, may be redirected to another degree program. All (a) AA Transfers and (b) students changing degree programs to Business from outside the College of Business must demonstrate progress consistent with Common Prerequisite Benchmarks.

Common Prerequisite Benchmarks include the following:

By End of Term / Credit Hours Earned	Coursework for equivalents Completed	Minimum GPA in Common Prerequisites *
1st /15 hours	CGS 2100 (or PHI 2600)	2.25
2nd / 30 hours	ECO 2023 and MAC 2233	2.35 (2.50 Accounting)
3rd / 45 hours	ACG 2021 and ECO 2013	2.5 (2.75 Accounting)
4lh / 60 hours	ACG 3301 and STA 2023	2.5 (2.75 Accounting)

* Applicable to all students pursuing or seeking a change of program plan to a Bachelor of Business Administration degree and the Bachelor of Accounting.

Students eligible for readmission are subject to the University's and the College's degree program's regulations in effect at the time of readmission to include admissions and progression requirements.

Admissions Requirements for the Global Business Ambassadors Program

To be admitted to the Global Business Ambassadors program, students must:

(1) first declare an international business major and consult the Global Business Ambassadors program Advisor to submit a completed application form obtained from the Global Business Ambassadors website.

(2) have a minimum GPA of 3.7 and have earned a minimum grade of "B" in MAN3025 Organization & Mgmt to be admitted to the Global Business Ambassadors program.

(3) be interviewed by the faculty director of the Global Business Ambassadors program.

Admission to the Honors College is not required. Upon completion of degree requirements students will receive a BBA degree with a "Global Business Ambassadors" recognition (see https://business.fiu.edu/academics/undergraduate/honors-in-international-business/index.html).

Program Requirements

Academic Standards

To earn an undergraduate degree from the College of Business, all students must comply with the following:

(1) Students must earn a grade of “C” or higher in each of the lower-division Common Prerequisite Courses.

(2) Students must earn a grade of “C” or higher in all upper-division major courses.

(3) Students must earn a grade of “C” or higher in all upper-division Business Core Courses. Each of these courses cannot be attempted more than three times. Drops after the add/drop period, which result in a DR grade, are considered an attempt in the course and count as an unsuccessful enrollment.

(4) As a student within the College of Business, each student gets two drops after the add/drop period, which result in “DR” grades, in their first 60 credits attempted. Each College of Business student get two additional drops after the add/drop period, which result in “DR” grades, in the second 60 credits attempted. Unused drops after the add/drop period, which result in “DR” grades, do not carry over from the first 60 credits attempted to the second 60 credits attempted. Students entering the College of Business as transfer students with an A.A. degree from a Florida public college or with 60 or more transfer credits earned from another college or university only get two drops after the add/drop period, which result in “DR” grades. Students with disabilities who need to drop a course due to disability-related reasons are allowed to petition for additional drops after the add/drop period, which result in “DR” grades. Students who can document extenuating circumstances may petition the College for additional drops. Approval to drop additional courses in excess of those allowed must be obtained from the College of Business.

(5) Students are expected to follow degree program Major Map in making satisfactory progress toward degree completion. Students deviating from Major Maps may be redirected to another degree program.

(6) Students must satisfy the requirements of their respective programs of study and satisfy all university requirements for graduation.

(7) Students who (a) have 60 credit hours earned, but (b) have not completed the seven Common Prerequisite Course for Business majors, may register for, and/or complete, no more than 15 credit hours of upper-division Business courses.

(8) Undergraduate students who register for any graduate business course must be formally admitted to a graduate degree program at the university following the university's admission procedures.

(9) Faculty has the discretion to administratively drop students who do not attend the first class of a course.

The College adheres strictly to the university’s dismissal policy. Students should be sure to read and understand FIU policies regarding Academic Warnings, Probation, and Dismissals.

Common Prerequisite Courses

Type

Completion Requirement

Required Common Prerequisite Courses Part I

For the set of all Common Prerequisite Course credit hours, earn a GPA of 2.5 or higher to continue pursuing Bachelor of Business Administration degrees and a GPA of 2.75 or higher to pursue the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the 2.5 (or 2.75 Accounting) or higher GPA requirement for the set of Common Prerequisite Course credit hours.

Courses which form part of the statewide articulation between the State University System and the Florida College System will fulfill the Lower Division Common Prerequisites.

Please visit https://cpm.flvc.org for a current list of state-approved common prerequisites.

Earn a minimum grade of C in the following:

- ACG2021 - Accounting for Decisions
- ACG2071 - Managerial Accounting
- ECO2013 - Principles of Macroeconomics
- ECO2023 - Principles of Microeconomics
- MAC2233 - Applied Calculus
- STA2023 - Statistical Methods

Required Common Prerequisite Courses Part II

Students pursuing a Bachelor degree in Accounting, Business Analytics, Finance, Information Systems, International Business, Human Resources Management, Management, Marketing, or Real Estate are also required to achieve a grade of "C" or higher in the following course.

Earn a minimum grade of C in the following:

- CGS2100 - Intro to Microcomputer Applications for Business

Required Common Prerequisite Courses Part III

Students admitted in Fall 2012 or after, as freshman or transfer students with fewer than 30 credit hours earned, are encouraged to take GEB2011 Intro To Business Introduction to Business during their first year. Students admitted in the Fall 2018 or after, as freshman with fewer than 30 credit hours earned, are required to complete SPC2608 Public Speaking Public Speaking for their Undergraduate Core Curriculum Arts Requirement.

Additional Comments:

Prerequisite course requirements for entry into upper level courses will be enforced. Students will be administratively dropped from courses when they lack the required prerequisite course or courses and/or required grade.

Note: The programs, policies, requirements, and regulations listed in this catalog are subject to continual review in order to meet the needs of the University's various publics and to respond to the mandates of the Florida Board of Education and the Florida Legislature. Changes may be made without advance notice. For the most current and updated information, refer to the COB and appropriate Schools/Departments websites.

Required Business Core Courses: 24 credit hours

Type

Completion Requirement

Required Core Courses

The Business Core Courses listed below are required for all undergraduate students in the College of Business. Prerequisites for each of the Business Core Courses can be found in the College of Business course descriptions.

Complete ALL of the following Courses:

- ISM3011 - Artificial Intelligence & Information Systems in Organizations
  OR ACG4401 - Accounting Information Systems
- BUL4310 - The Legal Environment of Business
  OR BUL4320 - Business Law I
- FIN3403 - Financial Management

- MAN3025 - Organization and Management
- MAN4720 - Strategic Management
- MAR3023 - Introduction to Marketing
- QMB3200 - Business Statistics and Analysis I
- QMB4680 - Business Statistics and Analysis II

ACG4401 Acctg Info Systems and BUL4320 Bus Law I should **ONLY** be taken by students pursuing a Bachelor of Accounting. Students in the Global Business Ambassadors Program may take INR3403 International Law in lieu of BUL4310 Legal Environ Bus.

Required Business Professional Development Courses: 3 credit hours

Type

Completion Requirement

Required Courses

The business professional development courses listed below are required for all undergraduate students in the College of Business.

Complete ALL of the following Courses:

- COM3112 - Speech and Writing for Business Communication
- GEB3003 - Career Management

Students admitted before Fall 2011 can take either COM3150 Advanced Bus Prof Comm Advanced Business and Professional Communication **or** COM3110 Bus And Prof Commun Business and Professional Communication.

Degree-Specific Courses: 21 credit hours

Type

Completion Requirement

Courses Required for the BBA in International Business Part I

Complete ALL of the following Courses:

- FIN4604 - International Financial Management
- MAN4602 - International Business
- MAR4156 - International Marketing
- MAN4633 - MNC Strategy

Courses Required for the BBA in International Business Part II

Fulfill ANY of the following requirements:

Required Course Option

Complete ALL of the following Courses:

- MAN4442 - International Business Negotiations

OR

Required Course Option

Any 3000 level or higher language course (3 credits) with the prefixes ABT, CHI, FRE, GER, HAI, ITA, JPN, POR, SPN or equivalent.

Courses Required for the BBA in International Business Part III

Complete at least 2 of the following courses:

- ENT4704 - International Entrepreneurship
- MAN4600 - International Management
- MAN4610 - International Human Resources
- MAN4613 - International Risk Assessment
- MAN4660 - Business in Latin America
- MAN4661 - Business in Asia (Inactive)
- MAN4662 - Business in Europe
- MAN4663 - Business in the Caribbean
- MAN4664 - Business in Africa (Inactive)
- MAN4671 - Special Topics in International Business

- MAN4653 - Foreign Direct Investment
- ECO4701 - World Economy
- ECO4704 - International Trade Theory and Policy
- ECO4713 - International Macroeconomics
- FIN4634 - International Banking
- FIN4651 - Latin American Financial Markets and Institutions
- FIN4663 - Global Private Banking
- MAR4144 - Export Marketing
- MAR4203 - Marketing Channels
- MAR4503 - Consumer Behavior
- MAR4733 - Digital Marketing
- REE4956 - International Real Estate
- SCM4291 - Global Logistics

Additional Comments:

MAN Prefix Courses

Students should note that not all courses with a MAN prefix are actually management or international business courses. Therefore, they should consult with a College advisor to confirm that their program of study reflects the degree requirements.

Upper Division Business Electives: 12 credit hours

IB students are required to take 12 credits of upper division electives. Review of this policy and future changes will be the prerogative of the Chair of the IB Department.

IB students may take any 3000 level or higher course inside or outside of the College of Business to satisfy their Upper Division Business Elective requirement. All upper division electives outside the College of Business must demonstrate a relationship to international business and receive the approval of the IB Department Chair.

Students enrolled in a second major or a certificate/minor program must take the courses prescribed in their program.

Department of International Business Academic Standards

The Department of International Business requires that students fulfill the following requirements in order to remain in a degree program:

(1) Receive a grade of “C” or higher in each of the courses in their major.

(2) Receive a grade of “C” or higher in each of the business core courses (MAN3025 Organization & Mgmt and MAN4720 Strategic Management).

(3) Earn a grade of “C” or higher in each Upper Division business elective.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Global Business Ambassadors Program

Type

Completion Requirement

Courses Required for the Global Business Ambassadors Program Part I: 21 credit hours

General Information

The Global Business Ambassadors program attracts highly motivated, focused, and intellectually curious students who have a global perspective. The program provides the opportunity for future leaders in the world economy to develop a global business skill set through international study, travel, and work experiences.

A Global Business Ambassadors student has the opportunity to participate in ceremonies, networking events, honors-dedicated courses, special corporate seminars, and placement services. A Global Business Ambassadors student will graduate with Honors recognition. Students joining the Global Business Ambassadors program are expected to join the IB Honors Society, the community/social responsibility arm of the program that engages students in compelling international service learning projects.

The IB Department faculty highly recommend that students joining the Global Business Ambassadors program pursue a double-major in Marketing or Finance.

Program Highlights

INTERNATIONAL BUSINESS EXPERIENCE: Global Business Ambassadors students are given the opportunity to experience the real world of international business via their participation in an international business activity. This requirement can be filled by enrollment in a study abroad program or an international business internship anywhere in the world.

INTERNATIONAL EXPLORATION: Students in the Global Business Ambassadors will have the opportunity to be exposed to various topics and themes germane to international business through multidisciplinary coursework.

HONORS PROJECT: The Global Business Ambassadors program allows students to fulfill their IB Honors Project by doing an individual thesis, or becoming a member of a team which enters a national case or business plan competition, or by developing an individual business plan.

Global Business Ambassadors Program Academic Standards

Students are required to

(1) Obtain a grade of “B” or higher in each of their major courses,

(2) Obtain a minimum GPA of 3.7 in their program for graduation,

(3) Fulfill all University language requirements, and

(4) Fulfill all other Department, COB and University graduation requirements.

Students interested in participating in the Global Business Ambassadors program should contact the program’s director at (305) 348-2791, or consult the Global Business Ambassadors program website.

Required Upper Division Core Courses

All College of Business undergraduate students must complete the required Business Core Courses listed in the Program Requirements section above. Students in the Global Business Ambassadors Program, however, may complete INR3403 International Law in lieu of BUL4310 Legal Environ Bus.

Complete ALL of the following Courses:

- FIN4604 - International Financial Management
- MAN4442 - International Business Negotiations
- MAN4602 - International Business
- MAN4633 - MNC Strategy
- MAN4970 - International Business Honors Project Seminar
- MAR4156 - International Marketing
- MAN4946 - International Business Internship
  OR MAN4956 - Study Abroad in International Business

Courses Required for the Global Business Ambassadors Program Part II (International Exploration Courses): 3 credit hours

Earn at least 3 credits from the following:

- ENT4704 - International Entrepreneurship
- FIN4634 - International Banking
- FIN4663 - Global Private Banking
- FIN4651 - Latin American Financial Markets and Institutions
- MAN4600 - International Management
- MAN4661 - Business in Asia (Inactive)

- SPN4521 - Topics on Latin American Culture

Courses Required for the Global Business Ambassadors Program Part III (Electives): 9 credit hours

Students in the Global Business Ambassadors Program are required to take three (3) Finance (FIN) or three (3) Marketing (MAR or TRA) 3000- or 4000- level (upper division) business electives.

INTBS:MIB - Master of International Business

Overview

Degree Offered
MIB - Master of International Business

Program Title
International Business

The Master of International Business (MIB) offers students the ability to gain the relevant skills sought after and needed by employers. The MIB curriculum is formulated to match the current reality of the global economy, emphasizing geopolitics, international entrepreneurship, interpersonal and cross-cultural skills, an experiential consulting project, and emerging markets.

Admissions Requirements

Admissions Requirements for the Master of International Business (MIB)

The Master of International Business (MIB) program considers students' work experience, industry knowledge and management skills as strengths in their qualifying portfolio. Candidate’s professional maturity; and managerial experience earn extra points in the admission selection process because the MIB program at FIU fosters students' ability to contribute real-world experiences to add value to the overall student learning outcome (SLO) in this competitive degree program.

To be eligible for admission to the MIB program in the Chapman Graduate School of Business, applicants must meet the following qualifications:

(1) Hold a bachelor’s degree or equivalent from either a U.S. regionally accredited college or university or the equivalent degree from institutions outside the U.S. Students coming from programs where the primary degree is at the master level or higher will meet this requirement;

(2) Show high promise of success in graduate studies as determined by the faculty based upon academic performance, work experience or a combination of academic and work experience.

(3) Provide evidence of a minimum score of 500 on the Graduate Management Admission Test (GMAT) or similar Graduate Record Exam (GRE) score. A GMAT waiver at the discretion of the academic director is available for:

(a) Applicants with two years of demonstrative work experience and success in completing other academic programs;

(b) Applicants who have an undergraduate business or related degree (economics, hospitality management, etc.) with an upper division grade point average (GPA) of 3.25 or higher;

(c) Applicants without a business or related degree having an upper division grade GPA of 3.35 or higher;

(d) If the applicant has already completed a graduate degree from an accredited university with a minimum grade point average (GPA) of 3.0 or is entering a business master's program under a special agreement for admissions with specific foreign and domestic universities.

(4) Should, in general, have a minimum upper division grade point average (GPA) of 3.0. An applicant with substantial work experience and industry/work related recommendations will be evaluated based on academic qualifications, work experience, and performance;

In addition, applicants are required to submit:

(1) A CV/resume describing current and past positions responsibilities, and highlights of leadership and management experience.

(2) A Statement of Purpose (short essay) that describes why you want to obtain an advanced international business education, and how the MIB program fits within your personal and career goals. The essay will be evaluated for applicants' effective and succinct writing skills;

(3) Applicants will be required prior to the final selection, to either 1) participate in an Interview with the MIB leadership team, or 2) submit a five-minute video where the applicant is physically visible throughout the video. Additional instructions for uploading the video and the content to include will be provided at the time of selection. In addition to the video, applicants may also be required to participate in an interview with the MIB leadership team prior to final selection.

Applicants whose studies were completed in non-English speaking countries must demonstrate proficiency of the English language by presenting a minimum score of 80 on the iBT TOEFL (equivalent to 550 on the paper-based version or 213 on the computer-based version of the Test of English as a Foreign Language) or 6.5 overall on the International English Language Testing System (IELTS) or other university level English proficiency standards as they are approved; As alternative forms of showing sufficient English proficiency, students may also present the following:

(a) FIU English Language Institute ("ELI") Program Level Six completion: successful completion with passing grades for all content areas'

(b) GRE Verbal Reasoning Score: 151/Analytical Writing Score: 3.5; GMAT Verbal Score:28/Analytical Writing Score: 4.5;

(c) Graduate students having completed English Composition: Writing and Rhetoric 1 ("ENC 1101") and English Composition: Writing and Rhetoric 2 ("ENC 1102") with passing scores of C or better from a regionally accredited U.S. institution or as part of a signed articulation agreement.

(d) Students applying to FIU under agreements for admissions with foreign universities having demonstrated their programs are taught fully in English and/or that they enforce English proficiency exam requirements for admission considered comparable to FIU English Proficiency requirements are eligible for a TOEFL waiver under terms of the agreement.

(e) International agreements must follow standard approval process through the Office of Academic Planning and Accountability and document applicability of waiver. Undergraduate students meeting the minimum Florida Board of Governors regulation for college readiness scores in the reading and English sections.

Applicants are encouraged to provide any additional documentation to strengthen their application portfolio. Examples of documentation include: Master's degree in any discipline, professional certifications (i.e. CPA, CFA, SHRM, etc.), specialized leadership experience or training, documentation that the applicant is part of a "fast track" or "high potential" management group in their organization, or any other similar evidence.

Admissions at the graduate level are competitive and meeting minimum requirements does not guarantee admission. For additional information about the MIB program please contact the program manager at (305) 348-3279 or by email to **mib@fiu.edu**.

Admissions Requirements for the MIB and Juris Doctor (JD) Joint Degree Pathway

(1) Candidates for the pathway must meet the entrance requirements for and be accepted by both colleges. Both colleges must be informed by the student at the time of application to the second program that the student intends to pursue the joint degree.

(2) The joint degree pathway is not open to students who have already earned one degree.

Admissions Requirements for the MIB and Master of Arts (MA) in International Studies Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree option. Students deciding to pursue the joint degree option after having been admitted to one program will indicate this intention only on their second application.

(2) Applications for the joint degree pathway will not be accepted from candidates who have already graduated with either degree. MIB or MAIS students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements, including the comprehensive examination for the MAIS degree.

Admissions Requirements for the MIB and Master of Business Administration (MBA) Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree option. Candidates deciding to pursue the joint degree pathway after having been admitted to one program will indicate this intention only on their second application.

(2) Applications for a joint degree pathway will not be accepted from candidates who have already completed either degree. MBA or MIB students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.

Admissions Requirements for the MIB and Master of Science in Finance (MSF) Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program.

(2) Applications for a joint degree will not be accepted from candidates who have already completed either degree. MIB or MSF students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.

Transfer Credits

A student may receive permission to transfer up to a maximum of nine semester hours of graduate credit towards a Master of Science degree program or twelve semester hours of credit for a Master of Business Administration degree program, if:

(1) The courses were taken at the graduate level at an accredited college or university;

(2) The courses were not introductory or survey in nature;

(3) The student earned grades of “B” or higher in the courses;

(4) The courses are judged by the Department Chair, College Dean, Graduate School Dean, and program manager to be relevant to the student’s graduate program;

(5) The credits were completed within six years immediately preceding the College’s awarding of the degree. Credits are not transferable until the student has earned 15 semester hours in a Chapman School graduate degree program.

Program Requirements

College Policies

To be eligible for a Master’s degree, a student must complete 10 graduate courses equivalent to 30 graduate credit hours and the completion of a series of Professional Development Seminars and/or an Internship approved by the Faculty Advisor. A student must also:

(1) Satisfy all University requirements for a Master’s degree;

(2) Satisfy required prerequisites;

(3) Complete the required courses in the specific graduate program in which he/she is enrolled.

(4) Earn a minimum average of “B” (3.0) in all approved courses in the student’s approved course of graduate study.

No courses in which a graduate student earns a grade below “C” may be counted towards any Master’s degree program in the Chapman School. However, all approved undergraduate and graduate course work a graduate student takes will be counted in computing his or her grade point average, including courses in which he or she has earned a “D” or “F” grade.

Faculty have the discretion to administratively drop students who do not attend the first class of a course.

Degree Requirements

Type

Completion Requirement

Core Courses: 21 credits

In order to complete the MIB, students must successfully complete a total of 30 credit hours which include the following:

-- Seven (7), three-credit hour core courses

-- Two (2), three-credit hour courses in areas of specialization (approved by the program)

-- three-credit hour international business immersion international trip

-- non-credit MIB Workshop

-- non-credit Professional Development Seminars (PDS)

-- non-credit Career services activities

-- non-credit Guest speaker series and roundtable discussions

The following courses are required for the MIB:

Complete ALL of the following Courses:

- MAN6679 - Master's Project in International Business

- MAN6635 - Global Strategy and Business Models
- MAN6657 - Contextual Intelligence in International Business
- MAN6606 - Fundamentals of International Business
- MAN6678 - Global Start-ups
- MAN6636 - Global Megatrends, Geopolitics, & Political Economy
- MAN6447C - Corporate Negotiations

Business Immersion Trip: 3 credits

Complete ALL of the following Courses:

- MAN6686 - Master's Seminar in International Business

Specialization Electives: 6 credits

Students will be required to select two (2) courses in areas of specialization. One of the two specialization courses can be an internship (GEB 6941C). Elective courses are at the approval of the academic director.

--Specialization 1 and --Specialization 2

Non-Credit Activities: 4 activities for zero credit

--MIB Workshop --Professional Development Seminars --Career Services Activities and --Roundtable discussions and guest speaker series
Prior to the start of their first semester, students will be required to complete the MIB Workshop. This workshop is designed to provide students valuable hands-on, experimental learning early in the process.

The PDS will include oral and written communications skills. The mandatory international trip will be to various destinations abroad each year and will include visits to prominent companies and cultural experiences.

Students will be required to participate in career services activities sponsored and hosted by the COB's Business Career Management Office. These activities will assist students to develop knowledge and skills necessary for their careers and the job market.

Finally, students will be required to attend various roundtable discussions and guest speaker events. These activities are designed to provide students important exposure to, and opportunities to network with businesspersons and FIU alumni. Events will be scheduled sporadically throughout the course of the program.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: MIB and JD Joint Degree Pathway

The faculties of the College of Law and the College of Business at Florida International University have approved a joint degree pathway culminating in both a Juris Doctor (JD) degree, awarded by the College of Law, and a Master of International Business (MIB) degree, awarded by the College of Business. Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. Essential criteria relating to the joint degree pathway are as follows:

(1) For law students, enrollment in the MIB program is required no later than the completion of 63 credit hours in the JD program. For MIB students, enrollment in the JD program is required no later than the time that the student has completed one-half of the MIB curriculum.

(2) A student must satisfy the curriculum requirements for each degree before either degree is awarded. The College of Business will allow 9 credit hours of upper level international and comparative law courses to be credited toward both the MIB and JD degrees. These 9 credit hours of law classes will be in lieu of the International Business Law course (3 credit hours) and any two other courses (totaling 6 credit hours) in the MIB curriculum. Reciprocally, law students may receive 9 hours of credit toward the satisfaction of the JD degree for courses taken in the MIB curriculum upon completion of the MIB degree with a grade point average of 3.0 or higher.

(3) A student enrolled in the joint degree pathway may begin the student's studies in either college, but full-time law students must take the first two semesters of law study consecutively and part-time law students must take the first three semesters of law study consecutively. Students admitted to one college but electing to begin study in the other college under the joint degree pathway may enter the second college thereafter without once again qualifying for admission so long as they have notified the second college before the end of the first week of the first semester in the second college and are in good academic standing when studies commence in the second college.

(4) A student enrolled in the joint degree pathway will not receive either degree until the student has satisfied all of the requirements for both degrees, or until the student has satisfied the requirements of one of the degrees as if the student had not been a joint degree candidate.

(5) Students in the joint degree pathway will be eligible for the graduate teaching assistantships and research assistantships in the College of Business on the same basis as other MIB students, subject to the guidelines and restrictions set by the College of Business.

For additional information, contact the MIB office at (305) 348-3279 or the Law School Admissions Office at (305) 348-8006.

Other Curricular Offering: MIB and MA in International Studies Joint Degree Pathway

Type

Completion Requirement

For the MIB degree

The Department of Politics and International Relations and The Alvah H. Chapman Jr. Graduate School of Business at Florida International University offer a joint degree pathway culminating in both a Master in International Business (MIB), and a Master of Arts in International Studies (MAIS). Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have four common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. Courses transferred to meet elective credits must be 5000 or 6000 level courses. Directors of the MAIS and MIB degree programs may adjust these exact course requirements as a result of future changes to the MAIS or MIB curriculums.

Fulfill ALL of the following requirements:

Required Courses Part 1

To obtain the MIB degree, MAIS students who have successfully completed the required 36 credits must, additionally, complete 24 credit hours in the MIB program as follows:

Complete ALL of the following Courses:

- MAR6158 - International Marketing
- MAN6635 - Global Strategy and Business Models
- MAN6679 - Master's Project in International Business
- MAN6601 - Global Management Skills
- FIN6644 - Global Financial Strategy
- ACG6255 - International Accounting (Inactive)

AND

Required Courses Part 2

Three credits of MAN 6930 Master's Seminar in Management

In order to satisfy the 36 credits hours required by the MIB program, 12 credit hours will be transferred from the MAIS program as follows:

--INR5017 Approaches Area Studies
--INR5409 Int'L Law I
--Elective 1: 3 credits
--Elective 2: 3 credits

For the MAIS degree

To obtain the MAIS degree, MIB students who have successfully completed the required 36 credits must, additionally, complete 24 credit hours in the MAIS program as follows:

Fulfill ALL of the following requirements:

Required Courses Part 1

Complete ALL of the following Courses:

- INR6706 - Political Economy of International Relations
- INR5615 - Research Design in International Relations
- GEO6473 - Space, Place and Identity
- INR5609 - Contemporary Dynamics of International Relations
- INR5017 - Approaches to Area Studies

AND

Required Courses Part 2

Three field courses, for a total of 9 credits

In order to satisfy the 36 credits hours required by the MAIS program, 12 credit hours will be transferred from the MIB program as follows:

--MAN6606 Fund of IB
--BUL6850 Int Business Law
--Elective 1: 3 credits
--Elective 2: 3 credits

Other Curricular Offering: MIB and Flex MBA Joint Degree Pathway

Type
Completion Requirement

Joint Degree Pathway

The MIB and MBA programs in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University offer a joint degree pathway culminating in both a Master of Business Administration (MBA), and a Master in International Business (MIB). Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have four common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MIB courses transferred to meet MBA elective credit and vice versa must be 6000 level courses approved by the University Curriculum Committee. Directors of the MBA and MIB degree programs may adjust these exact course requirements as a result of future changes to the MBA or MIB curriculums.

Fulfill ALL of the following requirements:

In the Flex MBA program: 36 credits

To obtain MIB degree, Flex MBA students must complete the following courses for a total of 63 credit hours as follows:

Complete ALL of the following Courses:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- QMB6616 - Business Process & Operations Analysis
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Students also have to take Professional Development Seminars (PDS).

AND

In the MIB program: 27 credits

Earn at least 21 credits from the following:

- MAN6930 - Master's Seminar in Management
- MAN6606 - Fundamentals of International Business
- FIN6644 - Global Financial Strategy
- MAN6601 - Global Management Skills
- MAN6617 - Managing Global Production and Technology (Inactive)
- MAN6679 - Master's Project in International Business
- MAR6158 - International Marketing

AND

Electives

Complete at least 2 of the following courses:

- MAN6678 - Global Start-ups
- GEB6941C - Graduate Business Internship
- MAN6937 - Special Topics in Business Environment (Inactive)

Joint Degree Pathway

Fulfill ALL of the following requirements:

In the MIB program: 36 credit hours

Complete ALL of the following Courses:

- MAN6930 - Master's Seminar in Management
- MAN6606 - Fundamentals of International Business
- ACG6026 - Accounting for Managers
- BUL6850 - International Business Law
- FIN6644 - Global Financial Strategy
- MAN6635 - Global Strategy and Business Models
- MAN6601 - Global Management Skills
- MAN6617 - Managing Global Production and Technology (Inactive)
- MAN6679 - Master's Project in International Business
- MAR6158 - International Marketing

AND

Electives

Complete at least 2 of the following courses:

- MAN6678 - Global Start-ups
- GEB6941C - Graduate Business Internship
- MAN6937 - Special Topics in Business Environment (Inactive)

AND

In the Flex MBA program: 27 credits

Complete ALL of the following Courses:

- ACG6175 - Financial Reporting and Analysis
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- QMB6616 - Business Process & Operations Analysis
- MAN6245 - Organizational Behavior
- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation

- QMB6357 - Business Statistical Analysis

Students also must take Professional Development Seminars (PDS).

Additional Comments:

Notes:

(1) Requirements for the MBA depend on MBA program chosen. If a candidate has elected the option of a specialization, the number of credit hours required and shared for the Flex will be used. Otherwise, the number of credit hours required and shared for the PMBA will be used.

(2) The Executive MBA and Professional MBA in Healthcare Management programs are not included as an option for the joint degree.

(3) Joint degree candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate.

For additional information, contact the MIB office at (305) 348-3279 or the MBA office at (305) 348-0148.

- MAN6617 - Managing Global Production and Technology (Inactive)
- MAN6679 - Master's Project in International Business
- MAR6158 - International Marketing

AND

Electives

Complete at least 2 of the following courses:

- MAN6678 - Global Start-ups
- GEB6941C - Graduate Business Internship
- MAN6937 - Special Topics in Business Environment (Inactive)

Joint Degree Pathway

To obtain the International MBA (IMBA), MIB degree students must complete a total of 69 credits as follows:

Fulfill ALL of the following requirements:

In the MIB program: 36 credit hours

Complete ALL of the following Courses:

- MAN6930 - Master's Seminar in Management
- MAN6606 - Fundamentals of International Business
- ACG6026 - Accounting for Managers
- BUL6850 - International Business Law
- FIN6644 - Global Financial Strategy
- MAN6635 - Global Strategy and Business Models
- MAN6601 - Global Management Skills
- MAN6617 - Managing Global Production and Technology (Inactive)
- MAN6679 - Master's Project in International Business
- MAR6158 - International Marketing

AND

Electives

Complete at least 2 of the following courses:

- MAN6678 - Global Start-ups
- GEB6941C - Graduate Business Internship
- MAN6937 - Special Topics in Business Environment (Inactive)

AND

In the IMBA program: 33 credit hours

Complete ALL of the following Courses:

- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- QMB6616 - Business Process & Operations Analysis
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- MAN6703 - Colloquium in Managing Organizational Ethics (Inactive)
- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Professional Development Seminars (PDS) I, II, III

Additional Comments:

Notes:

(1) Requirements for the MBA depend on MBA program chosen. If a candidate has elected the option of a specialization, the number of credit hours required and shared for the Flex will be used. Otherwise, the number of credit hours required and shared for the PMBA will be used.

(2) The Executive MBA and Professional MBA in Healthcare Management programs are not included as an option for the joint degree.

(3) Joint degree candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate.

For additional information, contact the MIB office at (305) 348-3279 or the MBA office at (305) 348-0148.

Other Curricular Offering: MIB and Professional MBA Joint Degree Pathway

Type

Completion Requirement

Joint Degree Pathway

The MIB and MBA programs in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University offer a joint degree pathway culminating in both a Master of Business Administration (MBA), and a Master in International Business (MIB). Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have four common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MIB courses transferred to meet MBA elective credit and vice versa must be 6000 level courses approved by the University Curriculum Committee. Directors of the MBA and MIB degree programs may adjust these exact course requirements as a result of future changes to the MBA or MIB curriculums.

Fulfill ALL of the following requirements:

In the PMBA program: 42 credits

To obtain the MIB degree, Professional MBA (PMBA) students must complete the following courses for a total of 66 credit hours as follows:

Complete ALL of the following Courses:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- FIN6644 - Global Financial Strategy
- MAN6608 - International Business
- QMB6616 - Business Process & Operations Analysis
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- ISM6021 - Management of Information Systems
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Students also must take Professional Development Seminars (PDS).

AND

In the MIB program: 24 credits

Complete ALL of the following Courses:

- MAN6930 - Master's Seminar in Management
- MAN6635 - Global Strategy and Business Models
- MAN6601 - Global Management Skills
- MAN6679 - Master's Project in International Business
- MAR6158 - International Marketing
- MAN6606 - Fundamentals of International Business

AND

Electives

Complete at least 2 of the following courses:

- MAN6678 - Global Start-ups
- GEB6941C - Graduate Business Internship
- MAN6937 - Special Topics in Business Environment (Inactive)

Joint Degree Pathway

To obtain the Professional MBA (PMBA). MIB degree students must complete a total of 66 credits as follows:

Fulfill ALL of the following requirements:

In the MIB program: 36 credits

Complete ALL of the following Courses:

- MAN6930 - Master's Seminar in Management
- MAN6606 - Fundamentals of International Business
- ACG6026 - Accounting for Managers
- BUL6850 - International Business Law
- FIN6644 - Global Financial Strategy
- MAN6635 - Global Strategy and Business Models
- MAN6601 - Global Management Skills
- MAN6617 - Managing Global Production and Technology (Inactive)
- MAN6679 - Master's Project in International Business
- MAR6158 - International Marketing

AND

Electives

Complete at least 2 of the following courses:

- MAN6678 - Global Start-ups
- GEB6941C - Graduate Business Internship
- MAN6937 - Special Topics in Business Environment (Inactive)

AND

In the PMBA program: 30 credits

Complete ALL of the following Courses:

- ACG6175 - Financial Reporting and Analysis
- FIN6406 - Corporate Finance
- QMB6616 - Business Process & Operations Analysis
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Students also must complete Professional Development Seminars (PDS).

Additional Comments:

Notes:

(1) Requirements for the MBA depend on MBA program chosen. If a candidate has elected the option of a specialization, the number of credit hours required and shared for the Flex will be used. Otherwise, the number of credit hours required and shared for the PMBA will be used.

(2) The Executive MBA and Professional MBA in Healthcare Management programs are not included as an option for the joint degree.

(3) Joint degree candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate.

For additional information, contact the MIB office at (305) 348-3279 or the MBA office at (305) 348-0148.

Other Curricular Offering: MIB and MSF Joint Degree Pathway

Type

Completion Requirement

Joint Degree Pathway

The Department of Finance and the MIB programs in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University are proposing a joint degree pathway culminating in both a Master in International Business (MIB), and a Master of Science in Finance. Under the joint degree pathway, a student can obtain both degrees in less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

(1) Candidates must satisfy all requirements for each degree. The two degrees will have four common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MSF courses transferred to meet MIB elective credit must be 6000 level courses approved by the University Curriculum Committee. Directors of the MSF and MIB degree programs may adjust these exact course requirements as a result of future changes to the MSF or MIB curriculums.

(2) Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree pathway candidate.

(3) With the joint degree pathway students will take a total of 57 credit hours to get both degrees. Without the joint degree pathway students will need to take 69 credit hours to get both degrees. Thus, MIB students who have taken twelve credits of MSF common courses may obtain an MSF degree with an additional 21 credits. MSF students who have taken twelve credits of the MIB classes, may obtain an MIB degree with an additional 24 credits.

Fulfill ALL of the following requirements:

In the MIB program: 24 credits

To obtain the MIB degree, MSF students who have finished their core courses, must complete a total of 36 credit hours as follows:

Complete ALL of the following Courses:

- MAN6617 - Managing Global Production and Technology (Inactive)
- MAR6158 - International Marketing
- BUL6850 - International Business Law

- MAN6635 - Global Strategy and Business Models
- MAN6679 - Master's Project in International Business
- MAN6601 - Global Management Skills
- MAN6606 - Fundamentals of International Business
- MAN6930 - Master's Seminar in Management

Students must take 3 credits of MAN6930 Masters Seminar Mgt.

AND

From the MSF program

Complete ALL of the following Courses:

- FIN6644 - Global Financial Strategy
- FIN6465 - Financial Planning and Statement Analysis
- MAN6606 - Fundamentals of International Business

AND

Electives

6 credits of FIN 6XXX electives

Joint Degree Pathway

Fulfill ALL of the following requirements:

From the MSF program: 21 credit hours

To obtain the MSF degree, MIB students who have finished their core courses, must complete a total of 33 credits hours as follows:

Complete ALL of the following Courses:

- FIN6406 - Corporate Finance
- FIN6456 - Quantitative Methods in Financial Analysis
- FIN6246 - Financial Markets and Institutions
- FIN6515 - Securities Analysis
- FIN6525 - Portfolio Management
- FIN6537 - Financial Futures and Fixed Income Investments
- FIN6487 - Financial Risk Management -Financial Engineering

AND

From the MIB program

Complete ALL of the following Courses:

- FIN6644 - Global Financial Strategy
- ACG6255 - International Accounting (Inactive)

AND

Electives

6 credits of FIN 6XXX electives

INTENG:BS - Bachelor of Science in Interdisciplinary Engineering

Overview

Degree Offered
BS - Bachelor of Science

Program Title
Interdisciplinary Engineering

Bachelor of Science (BS) in Interdisciplinary Engineering students are exposed to the fundamentals of science and engineering, while also developing their skills as leaders, systems thinkers, and engineering designers through engineering leadership and business courses as well as a project-based course sequence. Rather than focusing exclusively on an existing engineering subfield such as biomedical, civil, environmental, electrical, computer, or mechanical engineering, this is a unique interdisciplinary program with broad flexibility and a student-guided focus. The core vision of the program's design is to provide a customizable degree for students, so they may optimize their opportunities to enter the workforce, including emergent entrepreneurial businesses. It combines a core encompassing math, sciences, business, communication, and engineering courses from all disciplines, along with a secondary field that could include traditional existing engineering areas, or focus on grand challenges such as personalized learning, cybersecurity, and water accessibility.

For more information, visit the College of Engineering and Computing website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Bachelor of Science (BS) in Interdisciplinary Engineering

The qualifications for admissions to the Interdisciplinary Engineering Program are the same as for admission to the College of Engineering and Computing.

Admissions Requirements for the Combined BS in Interdisciplinary Engineering to the Master of Science (MS) in Engineering Management Accelerated Degree Pathway

Students who pursue a BS degree and are in their first semester of the senior year in Interdisciplinary Engineering and have earned at least a 3.2 overall GPA may, upon recommendation from three faculty members, apply to the department to enroll in the combined BSIE/MSEM pathway. Students must also submit an online application to the University Graduate School for admission to the MSEM program. In addition to the admission requirements of the MSEM program,

students must meet all the admission requirements of the University Graduate School. Students need only apply once to the combined degree pathway; the application is submitted to Graduate Admissions typically before the student starts the last 30 credits of the bachelor's degree program.

Students interested in the combined pathway should consult with their undergraduate advisor on their eligibility to the pathway, preferably during their junior year, since appropriate planning of coursework is required in order to achieve the full nine-credit benefit. The student should also meet the MSEM Program Director to learn about the graduate program and available tracks/courses before completing the application form. Final decision for admission to the MSEM program will be made by the University Graduate School upon recommendation by the Engineering Management program director. Applicants will be notified by the Engineering Management Program and the University Graduate School of the decision on their applications.

Program Requirements

CEC Academic Progression Standard

Steady academic progression is expected by the College of Engineering and Computing. Students who are unsuccessful in passing common pre-requisites after two attempts will be advised to change their major into an area where they can be successful. Drops after the add/drop period, which result in a DR grade, are considered an attempt in the course and count as an unsuccessful enrollment.

Students must also meet the Math Progression standard of successfully completing Calculus 1 within three academic terms, not counting summers.

Students will be redirected to a different degree program when completion of the progression standards, including the applicable math progression standard by its stated semester, is no longer feasible.

Lower Division Preparation

These courses include the common prerequisites shown above, and Introduction to Engineering. (EML1533 Intro to CAD for ME Introduction to CAD for Mechanical Engineers is required unless previously taken in high school). In addition, both FIU freshman and transfer students who have not completed their core curriculum at the transfer institution must take the FIU University Core Curriculum Requirements, whose courses also complement the goals and objectives of the College of Engineering and Computing (including economic, environmental, political, and/or social issues). Students must make up any missing prerequisites before they will be allowed to begin taking certain engineering courses (Click on course listing for required pre-/co-requisites).

Lower Division Preparation

Type

Completion Requirement

Common Prerequisite Courses: 32 credit hours

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Complete ALL of the following Courses:

- CHM1045 - General Chemistry I
  AND CHM1045L - General Chemistry Lab I
- MAC2281 - Calculus I for Engineering
- MAC2282 - Calculus II for Engineering

- MAC2283 - Calculus III for Engineering
- MAP2302 - Differential Equations
- PHY2048 - Physics with Calculus I
  AND PHY2048L - General Physics Laboratory I
- PHY2049 - Physics with Calculus II
  AND PHY2049L - General Physics Laboratory II
- EEL2880 - C Programming for Embedded Systems

*EEL2880 C Prog Emb Sys, may substitute with EML-2032, COP-2210/2250, or other department specific equivalents.

Upper Division

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Engineering Foundation: 23 credits

Complete ALL of the following Courses:

- EGS2053 - Foundations of Interdisciplinary Engineering
- CWR3201 - Fluid Mechanics
  AND CWR3201L - Fluid Mechanics Laboratory
- EGN3311 - Statics
- EGN3321 - Dynamics
- EMA5094 - Introduction to Materials for Sustainable Energy
- EML4804 - Introduction to Mechatronics
- ESI3215 - Evaluation of Engineering Data I

*EGS2053 Foundations of IDE: *Students who have taken another project-based introductory sequence (e.g., EGS1006 Intro To Engineering, EGN1002 Engineering Orientation, BME1008C Intro to Biomed Eng) upon entry into the IDE program, can count EGS2053 Foundations of IDE as their Engineering Projects Course Elective.*

*CWR3201 Fluid Mechanics and CWR3201L Fluid Mechanics Lab: *May be substituted via other approved Engineering Science course. If the replacement course is 3 credits the student may take an approved Engineering Lab coupled with an approved ESF course to make up the credit deficiency.*

*ESI3215 Eval Engr Data I: *May substitute STA3033 Intro to Prob & Stats for CS or STA3111 Statistics I.*

AND

Engineering Secondary Field

Students must select twelve credits of additional required or elective courses in a degree-granting ABET-accredited program in the College of Engineering and Computing (CEC) to form a coherent secondary field. At least nine credits must be upper division courses hosted in CEC. A sample list of courses is held by SUCCEED. The undergraduate curriculum committee in SUCCEED will be responsible for reviewing secondary field course requests that are not included on this list.

Earn at least 12 credits

AND

Engineering Business and Leadership: 12 credits

Complete ANY of the following Courses:

- EGS3060 - Engineering Professional Development for a Global Society
- EGN3613 - Engineering Economy
- ENT4113 - Entrepreneurship: New Business Development
- MAN3022 - Introduction to Management
- MAR3023 - Introduction to Marketing

**EGS3060 ENGR Prof. Development: This requirement may be waived. Students may request an alternate pre-approved course by the Undergraduate Program Committee, which is included as part of the student's focused plan of study.*

**ENT4113 Entrepreneur: New Bus Develop, EGS3060 ENGR Prof. Development, MAN3022 Intro to Management, MAR3023 Introduction to Marketing: List held by SUCCEED. Courses may include courses in pedagogy from the FIUTeach teacher certification program.*

AND

Interdisciplinary Project Experiences: 12 credits

Complete ALL of the following Courses:

- EGS2053 - Foundations of Interdisciplinary Engineering
- EGN3910 - Human-centered Design within Systems and Society
- EGN4443 - Interdisciplinary Capstone Design Project I
- EGN4414 - Interdisciplinary Capstone Design Project II

**EGS2053 Foundations of IDE: For students who have taken another approved introductory engineering course from another engineering program, EGS2053 Foundations of IDE serves as a project course. Consult undergraduate program director in SUCCEED for list of approved introductory engineering courses. For students who have not taken another approved introductory engineering course, EGS2053 Foundations of IDE serves the role of an introductory engineering course rather than a project course. In the latter case, students will need to take an additional project course. Project course in engineering (list held by SUCCEED) or approved three-credits of co-op (EGN3945 Coop Ed in Eng) or research- based independent study.*

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Combined BS in Interdisciplinary Engineering to the MS in Engineering Management Accelerated Degree Pathway

A student admitted to the combined degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships.

Students enrolled in the combined degree pathway could count up to three Management Electives toward their twelve "Engineering Business and Leadership" in the BSIE degree program, for a total saving of 9 credit hours.

The combined BSIE/MSEM pathway has been designed to be a continuous program. During this combined BSIE/MSEM pathway, upon completion of all the requirements of the BSIE program, students will receive their BSIE degree. Students may elect to permanently leave the combined pathway and earn only the BSIE degree. Students who elect to leave the combined pathway and earn only the BS degree will have the same access requirements to regular graduate programs as any other student, but will not be able to use the 9 credit hours in both the BSIE and MSEM degrees

For each of the graduate courses counted as credits for both BSIE and MSEM degrees, a minimum grade of "B" is required. Only graduate courses with formal lecture can be counted for both degrees. The students are responsible for confirming the eligibility of each course with their undergraduate advisors.

INTLCJ:PHD - Doctor of Philosophy in International Crime and Justice

Overview

Degree Offered
PHD - Doctor of Philosophy

Program Title
International Crime and Justice

The Doctor of Philosophy (PhD) in International Crime and Justice (ICJ) is considered the first and only doctoral program in international crime and justice in the United States. The curriculum offers a rigorous set of courses to equip students to produce original research that generates insights into criminology issues and their international nexus. Classes focus on providing students with an extensive education in theory, research methods, and statistics. Alumni of the program have careers in an academic setting as faculty, continuing their research and teaching.

For more information, visit the Steven J. Green School of International and Public Affairs website.

Requirements

Simple Requirements

Admissions Requirements

To be considered for admission to the doctoral program, applicants must fulfill these minimum requirements:

(1) A bachelor’s degree from an accredited institution.

(2) A GPA of 3.2 or higher in upper division coursework or a 3.2 or higher for all master’s degree coursework.

(3) Grade of “B” or better in an undergraduate or graduate research methods course.

(4) Two letters of recommendation form professors or employers familiar with your academic and professional qualifications.

(5) A 300- to 500-word statement that describes the student’s interests in pursuing an advanced degree in international crime and justice, including any specific research interests, as well as ultimate career goals.

(6) Completed research paper or thesis that demonstrates writing skills.

Applicants from non-English-speaking countries, including internationally educated domestic students, are required to demonstrate English language proficiency by submitting scores from an approved exam that satisfies university-wide admissions criteria.

Program Requirements

Graduation Requirements

The PhD in International Crime and Justice requires a minimum of 75 credit hours of graduate course work beyond the bachelor's degree, including a comprehensive exam and dissertation based on the student's original research. A maximum of 27 credits are transferrable from a completed master's degree program with the approval of the graduate director. A minimum of 30 credits must be earned in academic courses that are part of the doctoral program (excludes comprehensive exam and dissertation credits). Doctoral degree programs normally include courses at the 6000 level and above. Courses at the 5000 level may be included in a doctoral degree program in appropriate cases. A cumulative GPA of 3.0 or higher is required for graduation. All program requirements, including the dissertation, must be approved by the University Graduate School (UGS).

Award of MS en route to PhD

Students directly admitted into the PhD program may apply to be awarded the MS in Criminal Justice degree. To be eligible, students must have completed all degree requirements of the MS in Criminal Justice, have on file a UGS-approved Dissertation Proposal, and be currently enrolled in good academic standing.

Degree Program Credit Hours:

Type

Completion Requirement

Required Core Courses: 30 credits

Complete ALL of the following Courses:

- CCJ6025 - Criminological Theory
- CCJ6705 - Research Methods in Criminal Justice
- CCJ6706 - Data Analysis in Criminal Justice
- CCJ6741 - Advanced Data Analysis in Criminal Justice
- CCJ6079 - Geospatial Crime Analysis
- CCJ6485 - Criminal Justice Policy Analysis
- CCJ6040 - Comparative Crime and Criminal Justice Systems
- CCJ6727 - Research and Data Processes
- CCJ6676 - Transnational Crime and National Security
- CCJ6815 - Teaching Methods and Strategies

Research Tools Requirement: 9 credits

Classes that may satisfy the research tools requirement include quantitative analysis, legal research, grant writing, qualitative research methods, program evaluation and performance measures, survey research and design, and secondary analysis. This listing is not intended to be exhaustive. Approval of the research tools by the graduate director is required.

International Crime and Justice Electives: 9 credits

Earn at least 9 credits from the following:

- CCJ6047 - International Criminal Justice
- CCJ6620 - Immigration and Crime
- CCJ6696 - Human Trafficking
- CJE6025 - Comparative Policing
- DSC6020 - Terrorism and Homeland Security
- CCJ6675 - Applied Research on Human Rights and Rule of Law

Other course(s) may fulfill this requirement as approved by the graduate director.

General Electives: 9 credits

Any courses taken outside of criminology and criminal justice must be approved by the graduate director.

Comprehensive Exam and Dissertation: 18 credits

Complete ALL of the following Courses:

- CCJ7960 - Comprehensive Exam
- CCJ7980 - Ph.D. Dissertation

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

INTLOG:CFI - Undergraduate Certificate in International Logistics

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in International Logistics

The Undergraduate Certificate in International Logistics is open to all degree-seeking students, regardless of major. This certificate emphasizes the practical approaches to export marketing and marketing strategies used by individual firms to serve foreign markets. The required courses for this certificate detail operational methods of identifying, establishing, and consolidating export markets while using logistic policy and strategy.

INTLRE:MS - Master of Science in International Real Estate

Overview

Degree Offered
MS - Master of Science

Program Title
International Real Estate

The FIU Master of Science (MS) in International Real Estate program stands as Florida's largest real estate program. With a notable distinction as the world's top-ranking program for real estate faculty research by the Journal of Real Estate Literature, the curriculum is tailored for high-level investment real estate transactions from a global perspective.

Offered at FIU Downtown on Brickell, the MS in International Real Estate program can be completed in just 10 to 12 months, featuring live streaming and on-demand recordings for added flexibility to accommodate busy schedules. The curriculum is tailored to foster practical expertise in valuation, investment analysis, real estate markets, performance measurement, corporate asset management, financing techniques, law, technology, and accounting. Moreover, the MS in International Real Estate program provides hands-on training in cutting-edge technology, expands one's professional real estate network, and offers substantial credits toward various industry designations and licenses.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Master of Science (MS) in International Real Estate

To be eligible for admission to the Master of Science in International Real Estate program in the Chapman Graduate School of Business, students:

(1) Must hold a Bachelor’s degree or equivalent from either a U.S. accredited college or university or the equivalent for institutions outside the U.S. A degree in business is not required;

(2) Will show high promise of success in graduate studies as determined by the faculty based upon academic performance, work experience or a combination of academic and work experience. Evidence includes a minimum score of 500 on the Graduate Management Admission Test (GMAT) or similar Graduate Record Exam (GRE) score or demonstrate at least four years of industry (real estate, development, architecture and affiliated industries such as

banking, finance, insurance, etc.) work experience. Applicants who have an undergraduate business degree from Florida International University with an upper division grade point average (GPA) of 3.25, or having a business, economics, engineering, construction management or architecture degree from an accredited school with an upper division grade point average (GPA) of 3.25 are eligible for a GMAT or GRE waiver at the discretion of the faculty director. If the applicant has already completed a graduate degree from an accredited university with a minimum grade point average (GPA) of 3.0, or is entering a business master's program under a special agreement for admissions with specific foreign universities, he or she would be eligible for a GMAT or GRE waiver at the discretion of the faculty director;

(3) Should, in general, have a minimum upper division grade point average (GPA) of 3.0. An applicant with substantial work experience and industry/work related recommendations will be evaluated based on academic and industry performance;

(4) Must, when the applicant's studies were completed outside of the U.S., demonstrate proficiency of the English language by presenting a minimum score of 80 on the iBT TOEFL (equivalent to 550 on the paper-based version) or 6.5 overall on the International English Language Testing System (IETLS);

(5) Can provide any additional documentation to augment and strengthen the application portfolio. For example, a master's degree in any discipline, a degree in Law, professional certifications and specialized industry or leadership experience or training;

(6) Who are enrolled in the Certificate of International Business program and have completed the first 12 graduate credits with a GPA of 3.25 or higher, may be eligible for admission to the program;

(7) Who have been accepted and are successfully completing other Florida International University graduate degrees in business, architecture, construction management, economics, hospitality management, or engineering will be evaluated on their graduate school performance. A minimum graduate grade point average (GPA) of 3.0 in these programs is required; and

(8) Will be in good standing with all previously attended colleges and universities.

Admissions at the graduate level are competitive and meeting minimum requirements does not guarantee admission.

Admissions Requirements for the MS in International Real Estate and Master of Business Administration (MBA) Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree pathway option. Candidates deciding to pursue the joint degree pathway after having been admitted to one program will indicate this intention only on their second application.

(2) Applications for the joint degree pathway will not be accepted from candidates who have already completed either degree. MBA or MSIRE students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.

Admissions Requirements for the MS in International Real Estate and Master of Science in Finance (MSF) Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree option. Students deciding to pursue the joint degree option after having been admitted to one program will indicate this intention only on their second application.

(2) Applications for a joint degree will not be accepted from candidates who have already completed either degree. MSF or MSIRE students must apply and be admitted prior to or concurrent with the last semester in which they are expected to complete their original degree requirements.

Transfer Credits

A student may receive permission to transfer up to a maximum of nine semester hours of graduate credit towards a Master of Science degree program or twelve semester hours of credit for a Master of Business Administration degree program, if:

(1) The courses were taken at the graduate level at an accredited college or university;

(2) The courses were not introductory or survey in nature;

(3) The student earned grades of “B” or higher in the courses;

(4) The courses are judged by the Department Chair, College Dean, Graduate School Dean, and program manager to be relevant to the student’s graduate program;

(5) The credits were completed within six years immediately preceding the College’s awarding of the degree. Credits are not transferable until the student has earned 15 semester hours in a Chapman School graduate degree program.

Program Requirements

College Policies

To be eligible for a Master’s degree, a student must:

(1) Satisfy all University requirements for a Master’s degree;

(2) Satisfy required prerequisites;

(3) Complete the required courses in the specific graduate program in which he/she is enrolled.

(4) Earn a minimum average of “B” (3.0) in all approved courses in the student’s approved course of graduate study.

No courses in which a graduate student earns a grade below “C” may be counted towards any Master’s degree program in the Chapman School. However, all approved undergraduate and graduate course work a graduate student takes will be counted in computing his or her grade point average, including courses in which he or she has earned a “D” or “F” grade.

Faculty have the discretion to administratively drop students who do not attend the first class of a course.

Degree Requirements

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- REE6045 - Real Estate Markets, Institutions and Practices
- REE6435 - Real Estate Law
- FIN6406 - Corporate Finance
- REE6305 - Advanced Real Estate Investment Valuation

- REE6209 - Real Estate Finance
- REE6935 - Seminar in International Real Estate

Electives

Required Electives, which are to be determined under consultation with the Faculty Director of MSIRE Program and the Director of the Hollo School of Real Estate.
Typical electives include REE 6715 Real Estate Development, REE 6932 Special Topics in Real Estate and REE 6306C Corporate Real Estate Management**,** REE 6147 Real Estate Market Analysis, REE 6327 Global Real Estate Capital Markets, REE 6227 Real Estate Modeling and Data Analytics, FIN 6246 Financial Markets and Institutions, and FIN 6644 Global Financial Strategy.

The minimum passing grade for any MSIRE course is “C”. MSIRE students must maintain an overall grade point average (GPA) of 3.0.

For more information, contact the program manager (305) 779-7898.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: MS in International Real Estate and Flex MBA Joint Degree Pathway

Type

Completion Requirement

In the Flex MBA program: 36 credits

The Hollo School of Real Estate and the Master of Business Administration program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University offer a joint degree pathway culminating in both a Master of Business Administration degree (MBA), and a Master of Science in International Real Estate degree (MSIRE). Under the joint degree pathway, a student can obtain both degrees in less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have three – four common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MSIRE courses transferred to meet MBA elective credit must be 6000 level courses. Directors of the MBA and MSIRE degree programs may adjust these exact course requirements as a result of future changes to the MBA or MSIRE curriculums.

To obtain the MSIRE/MBA degrees through the Flex program, students must complete the following courses for a total of 63 credit hours.

Notes:

(1) Requirements for the MBA depend on the MBA program chosen. If a candidate has elected the option of a specialization, the number of credit hours required and shared for the Flex will be used. Otherwise, the option for a joint degree pathway is not available with the MSIRE.

(2) The Executive MBA, Professional MBA, and Professional MBA in Healthcare Management programs are not included as an option for the joint degree pathway.

(3) Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate.

For additional information, contact the Evening MBA office at (305) 348-0148 or the Master of Science in International Real Estate office at (305) 348-4198.

Earn at least 36 credits from the following:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- ISM6021 - Management of Information Systems
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis
- QMB6616 - Business Process & Operations Analysis

Students also must take Professional Development Seminars (PDS).

In the MSIRE program: 27 credits

Earn at least 27 credits from the following:

- REE6045 - Real Estate Markets, Institutions and Practices
- REE6209 - Real Estate Finance
- REE6305 - Advanced Real Estate Investment Valuation
- REE6935 - Seminar in International Real Estate
- REE6435 - Real Estate Law
- REE6715 - Real Estate Development
- REE6147 - Real Estate Market Analysis
- REE6932 - Spec Top Real Estate
- FIN6644 - Global Financial Strategy

Other Curricular Offering: MS in International Real Estate and International MBA Joint Degree Pathway

Type

Completion Requirement

In the IMBA program: 45 credits

The Hollo School of Real Estate and the Master of Business Administration program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University offer a joint degree pathway culminating in both a Master of Business Administration degree (MBA), and a Master of Science in International Real Estate degree

(MSIRE). Under the joint degree pathway, a student can obtain both degrees in less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have three – four common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MSIRE courses transferred to meet MBA elective credit must be 6000 level courses. Directors of the MBA and MSIRE degree programs may adjust these exact course requirements as a result of future changes to the MBA or MSIRE curriculums.

To obtain MSIRE/MBA through the International program, students must complete the following courses for a total of 69 credit hours as follows:

Notes:

(1) Requirements for the MBA depend on the MBA program chosen. If a candidate has elected the option of a specialization, the number of credit hours required and shared for the Flex will be used. Otherwise, the option for a joint degree is not available with the MSIRE.

(2) The EMBA. Professional MBA, and Professional MBA in Healthcare Management programs are not included as an option for the joint degree.

(3) Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate.

For additional information, contact the Evening MBA office at (305) 348-0148 or the Master of Science in International Real Estate office at (305) 348-4198.

Earn at least 45 credits from the following:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6644 - Global Financial Strategy
- QMB6616 - Business Process & Operations Analysis
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- MAN6608 - International Business
- MAN6703 - Colloquium in Managing Organizational Ethics (Inactive)
- MAN6679 - Master's Project in International Business
- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Students also must take Professional Development Seminars (PDS) I, II, III.

In the MSIRE program: 24 credits

Earn at least 24 credits from the following:

- REE6045 - Real Estate Markets, Institutions and Practices
- REE6209 - Real Estate Finance
- REE6305 - Advanced Real Estate Investment Valuation

- REE6935 - Seminar in International Real Estate
- REE6435 - Real Estate Law
- REE6715 - Real Estate Development
- REE6147 - Real Estate Market Analysis
- REE6932 - Spec Top Real Estate

Other Curricular Offering: MS in International Real Estate and the MSF Joint Degree Pathway

The Department of Finance, Tibor and Sheila Hollo School of Real Estate and the Alvah H. Chapman Jr. Graduate School of Business at Florida International University have a joint degree pathway culminating in both a Master of Science in Finance (MSF), and a Master of Science in International Real Estate (MSIRE) degree. Under the joint degree pathway, a student can obtain both degrees in less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows.

(1) Candidates must satisfy all requirements for each degree. To obtain the MSIRE degree, the student will be required to take ten (10) courses totaling thirty (30) credit hours. This includes the five real estate courses in the MSIRE core, three finance courses in the MSIRE core, plus one real estate (REE prefix) elective and one finance (FIN prefix) elective for a total of 30 credit hours. The Faculty Director of the MSIRE may substitute other suitable courses for these electives at the request of the student. The eight core REE and FIN courses include REE6045 Real Estate Markets, REE6209 Real Estate Finance, REE6305 Adv Re Invest & Val, REE6435 Real Estate Law, REE Seminar in International Real Estate, FIN6406 Corporate Finance, FIN6644 Global Fin Strategy , and FIN6246 Financial Mkts & Ins.

(2) To obtain the MSF degree, the student will have to fulfill all MSF program requirements, including eleven finance courses totaling thirty-three (33) credit hours, eight courses of which are considered part of the core curriculum. The eight core MSF courses are FIN6406 Corporate Finance, FIN6644 Global Fin Strategy , FIN6246 Financial Mkts & Ins, FIN6456 Quan Meth Fin Analys, FIN6515 Securities Analysis, FIN6537 Financial Futr & Fixed Inccome, and FIN6487 Fin Risk Management. The remaining three courses must be taken in one of three specializations approved by the faculty and which include three courses in Corporate Finance, three in Investments, or three in Commercial and International Banking.

(3) The three finance courses in the MSIRE core curriculum correspond to three of the courses in the core MSF program. Therefore, students pursuing the joint degree pathway will be credited for these courses in both programs. In addition, one Real Estate course in the MSIRE curriculum may be counted as one of the three courses required by the MSF specialization. The two degrees then will potentially have 4 common courses.

(4) A minimum of seventeen (17) courses will be required to earn the dual degrees: four common courses, six specific to the MSIRE program, and seven specific to the MSF program. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. The Faculty Directors of the MSIRE and MSF degree programs may adjust these exact course requirements as a result of future changes to the MSIRE or MSF curriculums, subject to the approval of the Dean of the Chapman Graduate School.

(5) Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate.

(6) With the joint degree pathway students will take a total of 51 credit hours to get both degrees. Without the joint degree programs students would need to take 63 credit hours to get both degrees.

INTLRL:BA - Bachelor of Arts in International Relations

Overview

Degree Offered
BA - Bachelor of Arts

Program Title
International Relations

The Bachelor of Arts (BA) in International Relations offers an interdisciplinary curriculum designed to prepare students for a wide array of careers. The program is designed to encourage analysis of international relations theories, institutions, and processes within the broader context of the social sciences, and promote interdisciplinary and multidisciplinary approaches to the discipline; provide the opportunity to acquire a fundamental understanding of international relations as a basis for citizenship; prepare for a career in international or non-governmental organizations, foreign service, international trade, international law, or other professional study and service; and stimulate interest in graduate studies in various fields and disciplines.

For more information, visit the Steven J. Green School of International and Public Affairs website.

Admissions Requirements

Admissions Requirements for Bachelor of Arts (BA) in International Relations

See general university admissions requirements at admissions.fiu.edu.

Admissions Requirements for the Combined BA in International Relations to Master of Arts (MA) in International Studies Accelerated Degree Pathway

To be considered for admission to the BA/MA accelerated degree pathway, students must have completed at least 75 credits in the bachelor’s degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the accelerated degree pathway, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor’s degree program. A student admitted to the accelerated degree pathway will be considered to have undergraduate status until the student

applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

To be accepted into the BA/MA accelerated degree pathway, students must submit an MA program application by March 15 in their junior year (to apply, students must already have completed 75 credits in their undergraduate degree program). A complete application requires:

-- Current enrollment in the BA program in International Relations at FIU
-- GRE scores
-- Minimum GPA of 3.5
-- Two letters of recommendation
-- Statement of purpose discussing research interests

All components of the application must be complete by the March 15 application deadline. Students should consult the Politics and International Relations Department website for a more comprehensive discussion of admission requirements. Students in the BA/MA accelerated degree pathway must apply for their undergraduate degree as soon as possible after having satisfied the degree requirements.

Program Requirements

Academic Progression Requirements

Students admitted to the university are admitted directly to their chosen major. Students are expected to make satisfactory progress based on critical indicators, such as GPA in specific courses or credits earned. In cases where students are not making satisfactory progress, a change of major may be required. Advisors work to redirect students to more appropriate majors when critical indicators are not met.

Lower Division Preparation

Common Prerequisites: There are no common prerequisites for this degree. For information about state-approved common prerequisites and alternatives for other programs, visit https://cpm.flvc.org.

Upper Division

Type

Completion Requirement

Required Course: 3 credits

Complete ALL of the following Courses:

- INR2001 - Introduction to International Relations

Core Requirement: 3 credits

Complete at least 1 of the following courses:

- GEA2000 - World Regional Geography
- CPO2002 - Introduction to Comparative Politics
- REL2300 - Religions of the World
- SYP3456 - Societies in the World
- WOH2001 - World Civilization

- EVR1017 - Global Environment and Society

Group I Courses: 12 credits

In addition to the core requirement course, students must take at least one course (3 credits) from each of the following four divisions in Group I. (Note: consult course descriptions to identify which courses fulfill the first three divisions.)

A. International Law/International Organizations (IL)

B. Foreign Policy/Security Studies (FP)

C. International Political Economy (IPE)

D. A fourth course

Fulfill ALL of the following requirements:

International Law/International Organizations Division: 3 credits

Complete at least 1 of the following courses:

- INR3403 - International Law
- INR3502 - International Organizations
- INR4075 - International Protection of Human Rights
- INR4408 - Topics in International Law
- INR4411 - The Laws of War
- INR4412 - International Law of the Sea

AND

Foreign Policy/Security Studies Division: 3 credits

Complete at least 1 of the following courses:

- INR3030 - Diplomacy
- INR3061 - Conflict, Security and Peace Studies in INR
- INR3102 - American Foreign Policy
- INR3223 - Japan and the United States
- INR3303 - Foreign Policymaking
- INR3331 - European Foreign and Security Policy
- INR4204 - Comparative Foreign Policy
- INR4335 - Strategic Studies and National Security
- INR4436 - International Negotiation

AND

International Political Economy Division: 3 credits

Complete ALL of the following Courses:

- INR3703 - International Political Economy

Fourth Group I Course Division

Students can take an additional Group I course with an INR prefix, or a fourth course from among the following:

Complete at least 1 of the following courses:

- CPO3010 - Comparative Politics: Theory and Practice
- CPO3055 - Authoritarians and Democrats
- CPO3104 - Politics of the European Union
- CPO4034 - The Politics of Development and Underdevelopment
- CPO4047 - Politics of North American Cooperation
- CPO4053 - Political Repression and Human Rights
- CPO4057 - Political Violence and Revolution
- CPO4062 - Comparative Judicial Politics (Inactive)
- CPO4072 - Comparative Electoral Behavior
- CPO4394 - Race and Politics in the Americas
- CPO4725 - Comparative Genocide
- CPO4726 - Ethnicity and Nationalism
- CPO4735 - Democratic Transitions
- CPO4737 - Politics of Transition and Human Rights
- CPO4741 - Comparative Political Economy
- CPO4930 - Topics in Comparative Politics
- ECS3021 - Women, Culture, and Economic Development
- ECO4704 - International Trade Theory and Policy
- ECO4733 - Multinational Corporation
- GEO3001 - Geographies of Global Change
- GEO3471 - Political Geography
- GEO3502 - Economic Geography
- GEO4354 - Geography of the Global Food System
- GEO4476 - Political Ecology
- EUH3245 - European History, 1914-1945
- EUH3282 - European History, 1945 to Present
- LAH3718 - History of U.S.-Latin American Relations (Inactive)
- REL3194 - The Holocaust
- SYD4237 - Immigration and Refugees
- SYP4454 - Globalization and Society
- FRW4123 - Travel, Exile, and Cross-Cultural Encounters
- GET4560 - Berlin Then and Now
- POW4391 - Brazilian Cinema and Human Rights
- PRT3510 - Witnessing War in Lusophone Cultures

Group II Courses: 12 credits

Students must also take at least four courses (12 credits) in Group II, including at least one from each of the divisions in Group II. Consult “Course Descriptions” to identify which courses fulfill the first three divisions.

A. Area Studies (AS)*

B. Issues and Problems in International Relations (IP)*

C. A second Area Studies (AS) or Issues and Problems in International Relations (IP) course

D. A fourth course

Fulfill ALL of the following requirements:

Area Studies Division: 3 credits

Complete at least 1 of the following courses:

- INR3223 - Japan and the United States
- INR3224 - International Relations of East Asia
- INR3226 - International Relations of Central Asia and the Caucasus
- INR3227 - International Relations of South Asia
- INR3243 - International Relations of Latin America
- INR3246 - International Relations of the Caribbean
- INR3252 - International Relations of North Africa
- INR3253 - International Relations of Sub-Saharan Africa
- INR3262 - International Relations of Russia and the Former USSR
- INR3274 - International Relations of the Middle East
- INR4232 - International Relations of China
- INR4273 - The International Relations of Iran and the Persian Gulf
- INR4412 - International Law of the Sea
- INR4707 - The Political Economy of China

AND

Issues and Problems in International Relations Division: 3 credits

Complete at least 1 of the following courses:

- INR3403 - International Law
- INR3045 - The Global Challenge of Refugees and Migrants
- INR3081 - Contemporary International Problems
- INR4031 - The Media and International Relations
- INR4054 - World Resources and World Order
- INR4075 - International Protection of Human Rights
- INR4076 - International Relations of Drug Trafficking
- INR4077 - Gender Equality and Human Rights in Global Perspectives
- INR4082 - Islam in International Relations
- INR4084 - Ethnicity in World Politics
- INR4085 - Gender Hierarchies in International Relations
- INR4091 - Ethical Problems in International Relations
- INR4350 - International Environmental Politics
- INR4408 - Topics in International Law
- INR4411 - The Laws of War
- INR4412 - International Law of the Sea
- INR4436 - International Negotiation
- INR4931 - Topics in International Relations
- INR4943 - Internship in International Affairs

AND

Second Area Studies or Issues and Problems in International Relations Division: 3 credits

A second Area Studies (AS) or Issues and Problems in International Relations (IP) course. (Please refer to the courses listed above).

AND

Fourth Group II Course Division: 3 credits

Complete at least 1 of the following courses:

- GEA3320 - People, Place, and Environment of the Caribbean
- GEA3400 - People, Place, and Environment of Latin America
- GEA3500 - People, Place, and Environment of Europe
- GEA3554 - People, Place, and Environment of Russia and Central Eurasia (Inactive)
- GEA3635 - People, Place, and Environment of the Middle East
- GEA3705 - Geography of Central Asia and the Caucasus (Inactive)
- REL3310 - Introduction to Asian Religions
- REL3330 - Religions Of India
- REL3367 - Islamic Faith and Society
- REL3375 - Religions of the Caribbean
- REL4370 - African Religions
- ECS3401 - Brazilian Economy
- ECS3402 - The Political Economy of South America
- ECS3403 - Economics of Latin America
- ECS3431 - Economics of the Caribbean Basin
- ANT4332 - Latin America
- ANT4340 - Caribbean Cultures
- ANT4352 - African Peoples and Cultures
- SYD4451 - Japanese Society in Global Perspective
- SYD4630 - Latin American and Caribbean Societies
- CPO2102 - Politics of Europe
- CPO3204 - African Politics
- CPO2304 - Politics of Latin America
- CPO3403 - Politics of the Middle East
- CPO3502 - Politics of the Far East
- CPO3643 - Russian Politics
- CPO4303 - Politics of South America
- CPO4323 - Politics of the Caribbean
- CPO4333 - Politics of Central America
- CPO4340 - Politics of Mexico
- CPO4360 - Cuban Politics
- CPO4401 - The Arab-Israeli Conflict
- CPO4404 - Iraq: Politics and Society (Inactive)
- CPO4614 - Politics of Eastern Europe
- CPO4507 - Comparative Political Economics of Asia
- CPO4541 - Politics Of China
- CPO4553 - Government and Politics of Japan
- CPO4955 - Politics of the Czech Republic: Study Abroad (Inactive)
- CPO4956 - Constitutional Politics of the Czech Republic: Study Abroad (Inactive)
- CPO4957 - Czech Republic in the Global Arena: Study Abroad
- CHT3502 - Chinese Culture and Society
- FRE4501 - Contemporary French Society
- FRE3500 - History of French Civilization

- HAI3500 - Haiti: Language and Culture
- ITA3500 - Italian Culture and Society
- JPN3500 - Japanese Culture and Society
- GET3003 - German Culture and Society
- SPN4500 - Spanish Culture
- SPN4520 - Latin American Culture

Note: INR4943 Intern Inr Affairs may count as the fourth Group II course as long as the student has completed one course from each of the three divisions above. All internships must be approved at least six weeks before the start of the semester in which a student intends to intern, and are by permission of instructor only.

Group III Courses: 6 Credits

Students must take the following two courses. Please note the prerequisites for each course. Students may not take INR 4013 until they have completed INR 2001 and at least nine (9) credits in INR courses. Students must take INR 4013 before they take INR 4603. The following two courses may not be taken concurrently.

Complete ALL of the following Courses:

- INR4013 - Development of International Relations Thought
- INR4603 - Theories of International Relations

Electives

Students are encouraged to double major or pursue a minor in related fields such as political science, economics, geography, modern languages, history, sociology, anthropology, geography or business. We recommend students take introductory courses in economics and gain fluency in at least one foreign language. Students may also consider appropriate academic certificates such as those in Latin American and Caribbean Studies, Asian Studies, African and African Diaspora Studies, and European Studies.

Graduation Requirement

Students must complete a minimum 36 credits of course work in the department with a grade of "C" or better. Students should be mindful of the further requirement of the Green School that a minimum of 48 upper division (3000 level and above) credits is necessary for graduation. Students also need to pass 9 credits of upper division courses outside International Relations and must satisfy the Green School Foreign Language Requirement. In addition to INR 2001, students must complete the Core Requirement (3 credits), four Group 1 Courses (12 credits), four Group II Courses (12 credits), and two Group III Courses (6 credits).

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Combined BA in International Relations to MA in International Studies Accelerated Degree Pathway

The BA/MA accelerated degree pathway allows highly qualified undergraduate students to pursue an accelerated MA degree in International Studies. Students accepted into this pathway will be able to complete the MA degree as much as one year sooner than would otherwise be possible.

The program gives students the opportunity to take up to 9 credits of graduate coursework in their senior year that will count towards both the BA and the MA degrees. Successful completion of the BA/MA accelerated degree pathway will therefore require a total of 147 credit hours. Students will take three 5000-level graduate courses in their senior year and follow the regular MA curriculum after they earn their BA degree. A typical course of study is as follows:

Undergraduate Junior Year

Apply to the program (March 15 deadline)

Undergraduate Senior Year

--Fall Semester – take 12 credits, including one 5000-level course
--Spring Semester – take 12 credits, including two 5000-level courses

Graduate Program

--Summer – take 3 graduate credits (5000-level or higher)
--Fall – take 9 graduate credits (5000-level or higher)
--Spring – take 9 graduate credits (5000-level or higher)
--Summer – take 6 graduate credits (thesis or comprehensive examination preparation)

Students in the BA/MA accelerated degree pathway must complete all other requirements for the MA in International Studies degree (please consult the Politics and International Relations Department's online graduate handbook).

INTLRL:PHD - Doctor of Philosophy in International Relations

Overview

Degree Offered
PHD - Doctor of Philosophy

Program Title
International Relations

The Doctor of Philosophy (PhD) in International Relations is designed to prepare students for careers as scholars and teachers. It provides students with a solid theoretical foundation to produce original research in the field. The program allows students significant latitude for rigorous research on a wide range of subjects, including foreign policy, security studies, global institutions, and development. For more information, visit the Steven J. Green School of International and Public Affairs website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the PhD in International Relations

To be considered for admission to the PhD program, all applicants must have a bachelor's degree, or its equivalent, from an accredited institution of higher education, or have received a bachelor's degree before they matriculate in the program.

Applicants should have a minimum undergraduate grade point average of 3.2, or its equivalent, a minimum grade point average of 3.5 for all combined graduate work. Applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. Please refer to the Admissions English Proficiency criteria at https://admissions.fiu.edu/international/graduate-school/english-language-proficiency/index.html.

Applications will be reviewed only in the spring term for fall admission. Students who wish to be considered for graduate assistantships must submit an application by January 15 for admission in the following fall semester.

Admissions Requirements for the Master of Arts (MA) in African and African Diaspora Studies and PhD in International Relations Joint Degree Pathway

To be accepted into this joint degree pathway, students must simultaneously submit applications for the MA in African and African Diaspora Studies and the PhD in International Relations by January 15 in the year in which they wish to begin their studies.

To be considered for admission, students must meet the following requirements:

(1) Minimum cumulative grade point average of 3.2 in undergraduate work.

(2) Minimum cumulative grade point average of 3.5 in any prior graduate work.

(3) International graduate student applicants whose native language is not English should please refer to the English-Language Requirements for Graduate School Admission website for minimum English-proficiency levels. Applicants must follow the admission procedures for both programs (see the appropriate sections in this graduate catalog). Only applications to begin studies in the fall semester will be considered. This designation will appear in the menu of programs in the graduate application, and students must indicate their intention to apply for this combined joint degree pathway.

Each applicant must complete an online graduate application form and arrange to send transcripts of all prior college (undergraduate and graduate) work.

Each applicant should also submit a separate statement of purpose, along with copies of the above material. The letter of application should include a statement expressing the applicant's academic and professional objectives. Applicants must include writing samples and other relevant professional work that may support their applications. Applicants must request three letters of recommendation from university professors who are able to comment on the various aspects of the student's academic ability. The letters of recommendation should be sent directly to the Director of the African and African Diaspora Studies Graduate Programs who will photocopy the recommendation letters once they are all in and send them to the International Relations Graduate Program Director.

The application file must be complete before the African and African Diaspora Studies/International Relations Graduate Program Committees will consider the applicant for admission.

Admissions Requirements for the MA in Asian Studies and PhD in International Relations Joint Degree Pathway

The combined MA in Asian Studies/PhD in International Relations joint degree pathway allows qualified graduate students to pursue both degrees simultaneously. To be accepted into this joint degree pathway, students must submit an application for the MA in Asian Studies/PhD in International Relations by January 15 in the year in which they wish to begin their studies. Applicants must meet the admission eligibility requirements and follow the admission procedures for both programs.

Admissions Requirements for MA in Latin American and Caribbean Studies and PhD in International Relations Joint Degree Pathway

Applicants must meet the following minimum requirements to be considered for admission.

(1) Baccalaureate degree from an accredited institution of higher education (or equivalent);

(2) Minimum cumulative grade point average of 3.2 on a 4.0 scale (or equivalent) for the last two years of undergraduate course work and/or a GPA of 3.5 on any previous graduate work;

(3) International graduate student applicants whose native language is not English and who have not obtained a degree from an English-speaking academic institution should please refer to the English-Language Requirements for Graduate School Admission website for minimum English-proficiency levels. Although admissions decisions typically are made in the spring, decisions for students who have not yet received their bachelor’s degree will be conditional, pending

confirmation of the bachelor's degree. Meeting the minimum requirements does not guarantee admission into the program. All applications are subject to review by the members of the Department of Politics and International Relations and the Latin American and Caribbean Studies admissions committees.

Admissions Procedures

To be accepted into this joint degree pathway, students must submit an application to the PhD in International Relations program with a sub-plan for the MA in Latin American and Caribbean Studies. This designation will appear in the menu of programs in the graduate application. The application must be submitted by January 15 in the year in which they wish to begin their studies.

The following documents must be submitted s part of the on-line application and will be reviewed by the Admissions Committees from both units:

(1) Online application and application fee;

(2) Official transcripts for all undergraduate and graduate coursework;

(3) A statement of research interests, including reasons for seeking the MA/PhD joint degree pathway, future career goals, and a summary of scholarly preparation for this pathway;

(4) Three letters of reference from academic sources or others able to judge academic abilities and potential; and

(5) A curriculum vitae.

Admissions Requirements for the Combined MA in Religious Studies and PhD in International Relations Accelerated Degree Pathway

Applicants must meet the following minimum requirements to be considered for admission.

(1) Baccalaureate degree from an accredited institution of higher education (or equivalent);

(2) Minimum cumulative grade point average of 3.2 on a 4.0 scale (or equivalent) for the last two years of undergraduate work and/or a GPA of 3.5 on any previous graduate work;

(3) Official Graduate Record Exam (GRE) scores;

(4) Minimum 156 GRE verbal score or a minimum 3.5 on a 4.0 scale (or equivalent) for the last two years of undergraduate work.

(5) International graduate student applicants whose native language is not English and who have not obtained a degree from an English-speaking academic institution are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 90 on the internet-based TOEFL (equivalent to 575 on the paper-based version) or 6.5 overall on the IELTS is required.

Although admissions decisions typically are made in the spring, decisions for students who have not yet received their bachelor’s degree will be conditional, pending confirmation of the bachelor's degree. Meeting the minimum requirements does not guarantee admission into the program. All applications are subject to review by the members of the Department of Politics and International Relations and the Department of Religious Studies.

Admissions Procedures

To be accepted into this joint degree pathway, students must submit an application to the PhD in International Relations program with a sub-plan for the MA in Religious Studies. This designation will appear in the menu of programs in the graduate application. The application must be submitted by January 15 in the year in which they wish to begin their studies.

The following documents must be submitted as part of the on-line application and will be reviewed by the Admissions Committees from both units:

(1) Online application and application fee;

(2) Official transcripts for all undergraduate and graduate coursework;

(3) Official GRE scores;

(4) Official TOEFL scores, if applicable;

(5) A statement of research interests, including reasons for seeking the MA/PhD joint degree pathway, future career goals, and a summary of scholarly preparation for this pathway;

(6) Three letters of reference from academic sources or others able to judge academic abilities and potential; and

(7) A curriculum vitae.

Program Requirements

The PhD in Internal Relations requires a minimum of 75 credits at the graduate level. Undergraduate courses taken to satisfy prerequisites for graduate courses will not count toward the 75 credit requirement. Students earning a Master of Arts (MA) degree may transfer up to a maximum of 36 credits toward the PhD program. The Graduate Advisory committee may approve the transfer of a maximum of 12 graduate credits earned in a non-degree seeking student at FIU.

Doctoral students who have satisfied all other requirements for the MA degree apart from the exit requirement (i.e., all coursework and the foreign language competency) are eligible to receive an MA degree en route to the PhD degree. Passing the doctoral comprehensive examinations serves as equivalent to the MA comprehensive examination. Doctoral students who have satisfied their requirements should consult with the Graduate Program Director about the necessary paperwork and procedures to receive the MA degree in the course of their PhD studies.

Degree Program Credit Hours: 75

Type

Completion Requirement

Core Sequence: 15 credits

All students must complete a core sequence of five courses (15 credits).

Fulfill ALL of the following requirements:

Part I

Complete ALL of the following Courses:

- INR5609 - Contemporary Dynamics of International Relations
- INR5615 - Research Design in International Relations
- INR6604 - International Relations Theory I
- INR6608 - Contemporary International Relations Theory

AND

Part II

Second methods course from the following list (or another methods course approved by the Graduate Program Director).

Complete at least 1 of the following courses:

- INR5616 - Qualitative and Interpretive Methods in International Relations
- POS5706 - Methodology
- ECO7424 - Econometric Methods I
- ANG6480 - Ethnohistorical Research Methods
- ANG6497 - Qualitative Research Methods
- GIS5935 - Topics in Geographic Information Systems
- PAD7705 - Applied Quantitative Analysis I
- PAD7707 - Applied Quantitative Analysis II
- PAD7703C - Empirical Methods in Public Administration

Gateway Courses: 9 credits

Fields selection:

(a). Global Political Economy and Development

(b). Comparative Area Studies

(c). Foreign Policy and Security Studies

(d). Global Governance, International Law, and International Ethics

Each field has one or two gateway courses. Students take three gateway courses out of four fields.

Complete at least 3 of the following:

Global Political Economy and Development

Complete ANY of the following Courses:

- INR6706 - Political Economy of International Relations

OR

Comparative Area Studies

Complete ANY of the following Courses:

- INR5017 - Approaches to Area Studies

OR

Foreign Policy and Security Studies

Complete ANY of the following Courses:

- INR6338 - Seminar in Security Studies

OR

Global Governance, International Law, and International Ethics

Complete ANY of the following Courses:

- INR5409 - International Law I

OR INR5507 - International Organizations I

Major and Minor Fields: 15 credits

Students must select a major field of study in (1) Global Political Economy and Development, (2) Comparative Area Studies, (3) Foreign Policy and Security Studies, or (4) International Law by completing 9 credits from a list of approved courses. Students must also select a minor field of study consisting of at 6 credits by (a) choosing a second field from the above list, (b) taking a PhD field in some other teaching unit of the university, or (c) creating a field in consultation with the Graduate Program Director and three members of the university faculty.

Electives: 15 credits

Students must take 15 credits of electives, including independent study courses. Students wishing to a course or courses offered elsewhere in the university may do so with permission of the Graduate Program Director. Students must demonstrate the ability to use a foreign language other than English for scholarly purposes.

Comprehensive Exams: 6 credits

Within 6 months of completing the foreign language requirement and 60 hours of course work, students must sit for written comprehensive examinations on the core sequence and in both of their fields. Students may sit for their comprehensive examination during the term in which they complete these requirements.

Dissertation: 15 credits

Within 3 months of passing the comprehensive examinations, students should publicly present a dissertation proposal that is acceptable to a committee of at least four qualified scholars. Three members of the committee, including the dissertation supervisor, must be graduate faculty members of the Department of Politics and International Relations. One must be from outside the department, but inside FIU. Other members must be approved by the Graduate Program Director. To complete program requirements, PhD degree candidates must enroll for a minimum of 15 dissertation credits and maintain matriculation until the degree is awarded.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: MA in African and African Diaspora Studies and PhD in International Relations Joint Degree Pathway

The combined MA in African and African Diaspora Studies/PhD in International Relations joint degree pathway allows qualified graduate students to pursue both degrees at the same time.

Required Credits

Students must fulfill the requirements for both programs. The 30 credits for the MA in African and African Diaspora Studies earned by students will count toward the 75 credits required for the PhD in International Relations.

Language Requirement

Students must demonstrate proficiency in a language other than English according to the nature of their thesis or research paper/proposal and professional interests. The Director of African and African Diaspora Studies Graduate Programs will ask a university faculty member fluent in the language of interest to the student to evaluate the student's fluency by asking her/him to summarize or synthesize the content of a text of between 10 to 20 pages, published in that language, in no more than one page. That exercise will have to take place at the university during a limited period of time. The text will be given to the student at the beginning of the exercise. The chosen text will have some connection to the student's research interest. Once a student has demonstrated proficiency for the MA in African and African Diaspora Studies, that proficiency will be recognized by the PhD in International Relations program. Therefore, proficiency in a foreign language will not be part of the candidacy exam. Credit hours earned in meeting the language requirement will not count towards the 30 credit hours required for the MA degree.

Students should apply for graduation with the MA in African and African Diaspora Studies as soon as they have completed all requirements for the degree – including the exit requirements. Ordinarily, students will complete these requirements and earn their MA before advancing to candidacy in the PhD in International Relations program. The research paper/proposal option is the only option available for students enrolled in this combined MA/PhD joint degree pathway.

MA in African and African Diaspora Studies Requirements

This 30-credit, one year, three semester program occurring over the Fall, Spring, and Summer includes 9 credits of core African and African Diaspora Studies courses, which includes 3 credits for the directed research paper exit option, 6 credits of core International Relations courses, and 15 credits of electives. There is also a Foreign Language Requirement.

MA in African and African Diaspora Studies Core Courses: 9 credits

-- AFA5005 AAD Studies Theory: 3 credits
-- AFA5855 Research Methods AADS: 3 credits
-- AFA6920 AADS Graduate Colloq: 3 credits; 1 semester of graduate colloquium

Combined MA in African and African Diaspora Studies/PhD in International Relations Core Courses: 6 credits

-- INR5609 Contemp Dynam INR: 3 credits
-- INR6706 Pol Econ Of Int Rel: 3 credits

MA in African and African Diaspora Studies in Electives: 15 credits

15 credits of elective courses with an African and African Diaspora Studies focus may be from outside the International Relations Department and within the Green School and/or the College of Arts, Sciences, and Education. Students wishing to take courses outside of the Green School must seek prior approval.

MA in African and African Diaspora Studies Research Proposal or Paper Option

To graduate from the MA in African and African Diaspora Studies, students enrolled in this combined MA/PhD joint degree pathway must elect to complete either a research proposal or research paper for their exit option. Those who elect to write a research proposal must take AFA6911 Prop Writing in AADS.

PhD in International Relations: 75 credits

In addition to the 30 credits required by the MA degree, students must complete the following courses:

-- INR5615 Research Design Inr: 3 credits
-- GEO6473 Space/Place/Identit: 3 credits
-- INR6608 Contemporary IR Theory: 3 credits

Major and Minor Fields: 12 credits

-- Major field of study: 9 credits
-- Minor field of study: 3 credits

Electives: 6 credits

Refer to specific information about elective courses indicated in the INTLRL:PHD section of the catalog.

Comprehensive Examinations

Once students have achieved 60 credits of course work, they must sit for written examinations on the core sequence of their fields indicated in the INTLRL:PHD section of the catalog.

Dissertation: 15 credits

See the INTLRL:PHD section of the catalog for details.

Other Curricular Offering: MA in Asian Studies and PhD in International Relations Joint Degree Pathway

Students must fulfill the requirements for both the MA in Asian Studies and PhD in International Relations programs, and up to 33 credits may count for both degrees. To graduate, students must complete the requirements of the PhD in International Relations, including the required 75 hours.

In addition to the requirements for the two degrees, during the first two years of enrollment in this joint degree pathway, students will enroll in the following course which fulfills the MA in Asian Studies methods requirement:

-- INR5615 Research Design Inr

The following International Relations courses will also be taken by MA in Asian Studies students during the first two years of the program and will count toward the MA degree:

-- INR5609 Contemp Dynam INR
-- INR6706 Pol Econ Of Int Rel

Master of Arts in Asian Studies: 30 credit hours for both the Thesis and Non-Thesis Master's Essay Options

Core Courses: 24 credits

-- 9 credits of ASN 5000- or 6000-level courses approved by the director
-- 9 credits pertaining to world affairs
-- 6 credits in Asian area studies

MA in Asian Studies offers two exit options, Thesis or Non-Thesis Master's Essay

Thesis Exit Option: 6 credits

-- ASN6972 Master's Thesis

Non-Thesis Exit Option: 6 credits

-- ASN6912 Master's Essay in AS: 3 credits (Master’s Essay can be taken multiple times. Some students may be encouraged to develop their research projects by taking this course.)
-- one additional course: 3 credits

PhD in International Relations: 75 credit hours

Core Courses: 15 credits

-- INR5609 Contemp Dynam INR
--INR5615 Research Design Inr
--INR6604 Intl Rels Theory I
--INR6608 Contemporary IR Theory

Second methods course from the following list (or another methods course approved by the Graduate Program Director):

-- INR XXXX Qualitative and Interpretive Methods in International Relations
-- POS5706 Methodology
-- ECO7424 Econometrics Metds I
-- ANG6480 Ethnohistorical Methods
-- ANG6497 Qual Research Meth
-- GIS5935 Topics in GIS
-- PAD7705 Applied Quant Analysis I
-- PAD7707 Applied Quant Analysis II
-- PAD7703C Empirical Methods

Gateway courses: 9 credits

There are four major field of study: (1) Global Political Economy and Development, (2) Comparative Area Studies, (3) Foreign Policy and Security Studies, and (4) Global Governance, International Law and International Ethics. Student must take one gateway course for three of these fields. Gateway courses for each field are:

(1) INR6706 Pol Econ Of Int Rel
(2) INR5017 Approaches Area Studies
(3) INR6338 Security Studies
(4) INR5409 Int'L Law I or INR5507 Int'L Organizat I

Major and Minor Fields: 15 credits

-- 9 credits in major field of study
-- 6 credits in minor field of study

Electives: 15 credits

-- Additional elective coursework

Comprehensive Exams: 6 credits

Once students have achieved 60 credits, they must sit for written examination on the core sequence of their fields.

Dissertation: 15 credits

-- INR7980 PH. D. Dissertation

Other Curricular Offering: MA in Latin American and Caribbean Studies and PhD in International Relations Joint Degree Pathway

The combined MA in Latin American and Caribbean Studies/PhD in International Relations joint degree pathway allows qualified students to pursue graduate degrees in both areas simultaneously rather than sequentially. Students must fulfill the requirements for both programs, and up to 30 credits completed as part of the MA in Latin American and Caribbran Studies will be counted toward the 75 credits required for the PhD in International Relations.

MA in Latin America and Caribbean Studies Degree Requirements: 30 credits

During their first two years of enrollment in the MA/PhD joint degree pathway, students must complete 30 credits for an MA in Latin America and Caribbean Studies with depth or focus courses in International Relations.

MA in Latin America and Caribbean Studies Core Courses: 9 credits

During their first two years of enrollment in this joint degree pathway, students take three core courses as follows:

-- LAS6003 Survey Latin America: 3 credits (first year, fall semester)
-- LAS6934 Lac Research Sem: 3 credits (first year, spring semester)
-- INR5615 Research Design Inr: 3 credits

MA in in Latin America and Caribbean Studies Focus Courses: 12 to 15 credits

Students will take a minimum of 12 to 15 credits within the Department of Politics and International Relations with a Latin American and/or Caribbean focus.

MA in in Latin America and Caribbean Studies Breadth Courses: 3 credits

Student may take courses from other areas.

MA in in Latin America and Caribbean Studies Exit Option for Joint Degree Pathway: 3 to 6 credits

Students select one of the following options:

-- LAS6970 Thesis: 6 credits (Students complete a thesis paper supervised by three committee members. All members of the committee must have FIU Graduate Faculty status.)

or

-- LAS6942 Lac Internship: 3 credits (Supervised internship leading to a major research paper in Latin American and Caribbean Studies.)

or

-- LAS6905 Lac Dir Rsch: 3 credits (Students complete one directed research paper of about 35 -40 pages.)

MA in in Latin America and Caribbean Studies Language Requirement

Each student is required to demonstrate proficiency in either Spanish or Portuguese, or in another language such as French or Haitian Creole when justified by research interests. Proficiency is demonstrated by scoring an advanced level on the ACTFL exam for Spanish, Portuguese, or French administered by FIU's Department of Modern Languages. Other tests of proficiency may be accepted upon approval of the graduate advisor.

Application for Graduation from MA in Latin America and Caribbean Studies

Students should apply for graduation as soon as they have completed all requirements for the MA in Latin America and Caribbean Studies degree – including the exit requirements. Ordinarily, the MA will be conferred before the student advances to candidacy in the PhD in International Relations.

PhD in International Relations Degree Requirements

Students will begin study towards the PhD in International Relations immediately following their satisfactory completion of the MA in Latin America and Caribbean Studies requirements. A minimum of 45 credits beyond the 30 credits required for the MA degree will be necessary to satisfy the requirements of the PhD in International Relations program.

Program Requirements

Core Courses: 15 credits

-- GEO6473 Space/Place/Identit: 3 credits
-- INR6604 Intl Rels Theory I: 3 credits
-- INR6608 Contemporary IR Theory: 3 credits
-- INR5609 Contemp Dynam INR: 3 credits
-- INR6706 Pol Econ Of Int Rel: 3 credits

12 Major Field credits in either:

(1) Global Institutions and Issues,

(2) Comparative Area Studies,

(3) Foreign Policy and Security Studies, or

(4) International Law.

With advisor approval, these 12 credits may include some or all of the coursework (except INR5615 Research Design Inr) taken in satisfaction of the requirements for the MA in Latin America and Caribbean Studies degree.

9 Minor Field credits in either:

(1) A second field from the above major field list, or

(2) A field offered within another PhD program at FIU (with approval of the Graduate Program Director), or

(3) A petition field (with approval of the Graduate Program Director).

With advisor approval, these 9 credits may include some or all of the coursework (except INR5615 Research Design Inr) taken in satisfaction of the requirements for the MA in Latin America and Caribbean Studies degree.

Elective Credits

Elective credits necessary to bring total credits earned beyond the MA in Latin America and Caribbean Studies degree to a minimum of 24.

Dissertation

15 credits of dissertation research.

Comprehensive Exams

After completing 60 credits of course work (or in the semester in which they expect to do so), students may take their written comprehensive examinations on the core sequence and in both of their fields. Students must sit for these examinations within 6 months of completing the minimum 60 credits of coursework unless granted an extension by the International Relations Graduate Program Director.

Dissertation

Within 3 months of passing the comprehensive examinations, students should publicly present a dissertation proposal that is acceptable to a committee of at least four qualified scholars. Three members of the committee, including the dissertation supervisor, must be graduate faculty members of the Department of Politics and International Relations. One must be from outside the department, but inside FIU. Other members must be approved by the International Relations Graduate Program Director. To complete program requirements, PhD degree candidates must enroll for a minimum of 15 dissertation credits and maintain enrollment for 3 credits every semester until the degree is awarded.

Other Curricular Offering: Combined Master of Arts in Religious Studies and PhD in International Relations Accelerated Degree Pathway

The combined MA in Religious Studies/PhD in International Relations joint degree pathway allows qualified graduate students to pursue both degrees simultaneously. Students must fulfill the requirements for both programs, and up to 36 credits completed as part of the MA in Religious Studies will be counted toward the 75 credits required for the PhD in International Relations.

MA in Religious Studies Degree Requirements: 36 credits

-- RLG6935 Sem Sacred Texts: 3 credits
-- RLG6013 Mod Analysis Relign: 3 credits
-- RLG5038 Advanced Fieldwork: 3 credits

Electives approved by the Graduate Program Director: 12 credits

-- RLG6971 Thesis: 6 credits (or 6 additional hours of elective credits)
-- INR5615 Research Design Inr: 3 credits
-- INR5609 Contemp Dynam INR: 3 credits
-- INR6706 Pol Econ Of Int Rel: 3 credits

Students who choose the thesis exit option must include at least one Politics and International Relations faculty member, though the majority must be from Religious Studies.

PhD in International Relations Degree Requirements

Students will begin study towards the PhD in International Relations immediately following their satisfactory completion of MA in Religious Studies requirements. A minimum of 39 credits beyond the MA in Religious Studies degree will be necessary to satisfy the requirements of the PhD in International Relations program.

Degree Requirements beyond the MA in Religious Studies are the following:

Core Courses: 9 credits

-- GEO6473 Space/Place/Identit: 3 credits
-- INR6604 Intl Rels Theory I: 3 credits
-- INR6608 Contemporary IR Theory: 3 credits

12 Major Field credits in either:

(1) Global Institutions and Issues,

(2) Comparative Area Studies,

(3) Foreign Policy and Security Studies, or

(4) International Law.

With advisor approval, these may include 3 credits taken in satisfaction of the requirements for the MA in Religious Studies.

9 Minor Field credits in either:

(1) A second field from the above major field list, or

(2) A field offered within another PhD program at FIU (with approval of the Graduate Program Director), or

(3) A petition field (with approval of the Graduate Program Director).

With advisor approval, these may include 3 credits taken in satisfaction of the requirements for the MA in Religious Studies.

Elective Credits

Elective credits necessary to bring total credits earned beyond the MA in Religious Studies to a minimum of 24.

Dissertation Credits

15 credits of dissertation research.

Comprehensive Exams

After completing 60 credits of course work (or in the semester in which they expect to do so), students may take their written comprehensive examinations on the core sequence and in both of their fields. Students must sit for these examinations within 6 months of completing the minimum 60 credits of coursework unless granted an extension by the International Relations Graduate Program Director. Before advancing to candidacy, students must also demonstrate an ability to use a foreign language other than English for scholarly purposes.

Dissertation

Within 3 months of passing the comprehensive examinations, students should publicly present a dissertation proposal that is acceptable to a committee of at least four qualified scholars. Three members of the committee, including the dissertation supervisor, must be graduate faculty members of the Department of Politics and International Relations. One must be from outside the department, but inside FIU. Other members must be approved by the International Relations Graduate Program Director. To complete program requirements, PhD degree candidates must enroll for a minimum of 15 dissertation credits and maintain enrollment for 3 credits every semester until the degree is awarded.

INTLST:MA - Master of Arts in International Studies

Overview

Degree Offered
MA - Master of Arts

Program Title
International Studies

The Master of Arts (MA) program in International Studies is designed to prepare students for careers in government, the private sector, or international agencies; or for doctoral studies. The program provides a comprehensive theoretical and practical overview of the field of international relations. Students may focus on security and foreign policy, global institutions, or development. For more information, visit the Steven J. Green School of International and Public Affairs website.

To explore more about this program, visit the website below:

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Master of Arts (MA) in International Studies

To be considered for admission to the MA in International Studies program, applicants must have a GPA of 3.0 in upper-level course work, or its equivalent, from an accredited institution of higher education. Applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. Please refer to the Admissions English Proficiency criteria at https://admissions.fiu.edu/international/graduate-school/english-language-proficiency/index.html.

Admissions requirements are minimums and even if the minimums are met, admission is not assured. The application deadline is March 15 for Domestic applicants for Fall semester admission and September 1 for Domestic applicants for Spring semester admission. International applicants should follow the International Graduate Admissions deadlines: https://admissions.fiu.edu/international/graduate-school/

Admissions Requirements for the Combined Bachelor of Arts (BA) in International Relations to MA in International Studies Accelerated Degree Pathway

To be considered for admission to the BA/MA accelerated degree pathway, students must have completed at least 75 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the accelerated degree pathway, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. A

student admitted to the accelerated degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

To be accepted into the BA/MA accelerated degree pathway, students must submit an MA program application by March 15 in their junior year (to apply, students must already have completed 75 credits in their undergraduate degree program). A complete application requires:

-- Current enrollment in the BA in International Relations program at FIU
-- Minimum GPA of 3.5
-- Two letters of recommendation
-- Statement of purpose discussing research interests

All components of the application must be complete by the March 15 application deadline. Students should consult the Politics and International Relations Department website for a more comprehensive discussion of admission requirements. Students in the BA/MA accelerated degree pathway must apply for their undergraduate degree as soon as possible after having satisfied the degree requirements.

Admissions Requirements for the MA in International Studies and Master of International Business (MIB) Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree option. Students deciding to pursue the joint degree option after having been admitted to one program will indicate this intention only on their second application.

(2) Applications for the joint degree pathway will not be accepted from candidates who have already graduated with either degree. Master of International Business or MA in International Studies students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements, including the comprehensive examination for the MA in International Studies degree.

Program Requirements

The MA in International Studies program requires a minimum of 36 credits at the graduate level. Undergraduate courses taken to satisfy prerequisites for graduate courses will not count toward the 36 credit requirement. The Graduate Advisory Committee may approve the transfer of a maximum of six graduate credits earned at another recognized institution of higher education.

Program Credit Hours: 36

Type

Completion Requirement

Core Sequence: 12 credits

Students must complete a core sequence of four courses (12 credits), each of which reflects a distinctive disciplinary point of view. These courses are:

Complete ALL of the following Courses:

- INR6706 - Political Economy of International Relations

- INR5609 - Contemporary Dynamics of International Relations
- INR5615 - Research Design in International Relations
- INR5017 - Approaches to Area Studies

Major Field: 12 credits

Students must select a major field of study in either (1) Global Institutions and Issues or (2) International Relations and Foreign Policy by taking four courses (12 credits) from an extensive list of approved courses in the social sciences. Students must take at least two courses offered by the Department of Politics and International Relations to satisfy the field requirement.

Electives: 6 credits

To satisfy the program's elective requirement, students may take two additional courses (6 credits) from the field lists. Students wishing to take other graduate-level courses offered by the university may do so with permission of the Graduate Program Director.

Thesis and Alternatives: 6 credits

To complete degree requirements, students have the option of (a) writing a thesis or (b) taking a comprehensive examination. Before electing either of these options, students must demonstrate competence in the use of a foreign language other than English.

Any student electing to write a thesis will normally take 6 credits of thesis supervision and prepare a thesis proposal subject to the approval of three members of the university graduate faculty. A graduate faculty member of the Department of Politics and International Relations must chair any thesis committee thus constituted. No thesis may be approved until the student has defended it in a public examination. Any student electing to take a comprehensive examination must have 6 credits of course work in preparation for the exam. One half of the comprehensive examination will cover the core sequence of courses, and the other half will cover the student's major field.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Combined BA in International Relations to MA in International Studies Accelerated Degree Pathway

The BA/MA accelerated degree pathway allows highly qualified undergraduate students to pursue an accelerated MA in International Studies degree. Students accepted into this pathway will be able to complete the MA degree as much as one year sooner than would otherwise be possible.

The program gives students the opportunity to take up to 9 credits of graduate coursework in their senior year that will count towards both the BA and MA degrees. Successful completion of the BA/MA accelerated degree pathway will therefore require a total of 147 credits. Students will take three 5000-level graduate courses in their senior year and follow the regular MA curriculum after they earn their BA degree. A typical course of study is as follows:

Undergraduate Junior Year

Apply to the program (March 15 deadline)

Undergraduate Senior Year

-- Fall Semester – take 12 credits, including one 5000-level course
-- Spring Semester – take 12 credits, including two 5000-level courses

Graduate Program

-- Summer – take 3 graduate credits (5000-level or higher)
-- Fall – take 9 graduate credits (5000-level or higher)
-- Spring – take 9 graduate credits (5000-level or higher)
-- Summer – take 6 graduate credits (thesis or comprehensive examination preparation)

Students in the BA/MA accelerated degree pathway must complete all other requirements for the MA in International Studies degree (please consult the Politics and International Relations Department's online graduate handbook).

Other Curricular Offering: MA in International Studies and MIB Joint Degree Pathway

Type

Completion Requirement

For the Master of International Business degree

The Department of Politics and International Relations and the Alvah H. Chapman Jr. Graduate School of Business at Florida International University offer a joint degree pathway culminating in both a Master in International Business (MIB), and a Master of Arts in International Studies (MAIS). Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have four common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. Courses transferred to meet elective credits must be 5000 or 6000 level courses. Directors of the MAIS and MIB degree programs may adjust these exact course requirements as a result of future changes to the MAIS or MIB curriculums.

Fulfill ALL of the following requirements:

Required Courses Part 1

To obtain the MIB degree, MAIS students who have successfully completed the required 36 credits must, additionally, complete 24 credits in the MIB program as follows:

Complete ALL of the following Courses:

- MAR6158 - International Marketing
- MAN6635 - Global Strategy and Business Models
- MAN6679 - Master's Project in International Business
- MAN6601 - Global Management Skills
- FIN6644 - Global Financial Strategy
- ACG6255 - International Accounting (Inactive)

AND

Required Courses Part 2

Three credits of MAN 6930 Master's Seminar in Management

In order to satisfy the 36 credits required by the MIB program, 12 credits will be transferred from the MAIS program as follows:

-- INR5017 Approaches Area Studies: 3 credits
-- INR5409 Int'L Law I: 3 credits
-- Elective 1: 3 credits
-- Elective 2: 3 credits

For the MAIS degree

To obtain the MAIS degree, MIB students who have successfully completed the required 36 credits must, additionally, complete 24 credit hours in the MAIS program as follows:

Fulfill ALL of the following requirements:

Required Courses Part 1

Complete ALL of the following Courses:

- INR6706 - Political Economy of International Relations
- INR5615 - Research Design in International Relations
- GEO6473 - Space, Place and Identity
- INR5609 - Contemporary Dynamics of International Relations
- INR5017 - Approaches to Area Studies

AND

Required Courses Part 2

Three field courses, for a total of 9 credits

In order to satisfy the 36 credits hours required by the MAIS program, 12 credits will be transferred from the MIB program as follows:

-- MAN6606 Fund of IB: 3 credits
-- BUL6850 Int Business Law: 3 credits
-- Elective 1: 3 credits
-- Elective 2: 3 credits

INTPRO:CFI - Graduate Certificate in Intellectual Property

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Intellectual Property

The Graduate Certificate in Intellectual Property is an opportunity for students to extend their knowledge of -- and preparedness to practice in - the creative economy, an area that is ever more important to national economies, global civil society, and local and global cultures. The certificate provides opportunities for access to personal educational attention as students learn, research, and write about, and sometimes participate in, processes by which authors, inventors, brand managers, and entrepreneurs improve society and the business environment. The program offers core courses in the laws governing U.S. and foreign copyrights, trademarks, patents, trade secrets, rights of publicity (names, images, and likenesses), fashion and designs, the internet, social media, and acts amounting to "misappropriation" (of business ideas and names, timely news, or images and likenesses). Graduates of the certificate program are active in commercial litigation, government agencies, and the private sector. Faculty in the program have an extensive record of publication and public engagement relating to copyright, trademark, and patent law, as well as related areas of law like software contracts, artificial intelligence law, and the laws governing uses of personal names, images, and likenesses. The program is available to full-time and part-time JD students. For more information, visit the College of Law website.

Completion Requirement

Intellectual Property Course List

Earn at least 14 credits from the following:

- LAW6037 - E-Commerce Law
- LAW6233 - Computer and Internet Law
- LAW6550 - Antitrust
- LAW6570 - Intellectual Property
- LAW6572 - Copyright Law
- LAW6573 - Patent Law
- LAW6574 - International Intellectual Property Law
- LAW6576 - Trademarks and Geographical Indications
- LAW6845 - Fashion and Design Law
- LAW6936 - Seminars
- LAW7575 - Entertainment Law
- LAW7844 - Sports and Entertainment Law
- LAW7930 - Special Topics in Law

**LAW6936 can be taken on the following topics:*

-Special Topics in Intellectual Property

- Advanced Topics in Intellectual Property

- Internet Law

- IP and Human Rights

- Advanced Copyright Law

Entrepreneurship Course List

Complete at least 2 of the following courses:

- LAW6520 - Administrative Law
- LAW6310 - Alternative Dispute Resolution
- LAW7085 - Banking Law
- LAW6730 - Admiralty Law
- LAW6052 - Bankruptcy Law
- LAW6060 - Business Organizations

- LAW7308 - Complex Litigation
- LAW6425 - Construction Law
- LAW7064 - The Law of Corporate Finance
- LAW7549 - Employment Discrimination
- LAW6545 - Employment Law
- LAW6471 - Environmental Law
- LAW6280 - European Union Law and Policy
- LAW6302 - Federal Courts
- LAW7511 - First Amendment
- LAW6720 - Health Law
- LAW6261 - International Business Transactions
- LAW6316 - International Commercial Arbitration
- LAW6265 - International Litigation
- LAW7262 - International Trade Law and Policy
- LAW6540 - Labor Law
- LAW6460 - Land Use Planning and Control
- LAW6555 - Law and Economics
- LAW6751 - Law Firm Management
- LAW6821 - Law, Science, and Technology
- LAW7065 - Mergers and Acquisitions
- LAW6305 - Remedies
- LAW6010 - Sales
- LAW6051 - Secured Transactions
- LAW6560 - Securities Regulation
- LAW6936 - Seminars
- LAW6948 - Business, Innovation and Technology Clinic
- LAW6480 - Sports Law

**LAW6936 can be taken on the following topics:*

- Financial Crisis

Additional courses may be added from time to time.

INTSTUD:BA - Bachelor of Arts in Interdisciplinary Studies

Overview

Degree Offered
BA - Bachelor of Arts

Program Title
Interdisciplinary Studies

The Bachelor of Arts (BA) in Interdisciplinary Studies provides a flexible, customized academic path tailored to students' unique interests and career goals. This innovative degree integrates coursework across the professional disciplines, humanities, and social sciences. With fully online and on-campus options, the interdisciplinary curriculum helps students develop critical thinking, entrepreneurial skills, and cross-cutting competencies for success in diverse careers. Students create a cohesive program matching academic preparation to emerging job markets. Graduates are equipped to make meaningful contributions in any field or or to pursue advanced study. The program welcomes self-motivated students from all backgrounds into a personalized, career-focused liberal arts experience. First-year, transfer, and non-traditional learners can maximize their potential through interdisciplinary study.

For more information, visit the College of Arts, Sciences, and Education website.

Requirements

Simple Requirements

Admissions Requirements

See general university admission requirements at admissions.fiu.edu.

Program Requirements

The degree may be taken face to face or entirely online (online course offerings will vary semester-to-semester).

Common Prerequisites

No specific courses required; all students transferring from Florida community colleges are encouraged to complete the Associate in Arts degree.

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Upper Division

Type

Completion Requirement

Degree Program Credit Hours: 120

The 33 hours of upper-division coursework for the BA in Interdisciplinary Studies are to be taken within the College of Arts, Sciences and Education or, as appropriate, from other FIU colleges or schools

Fulfill ALL of the following requirements:

Required Courses: 33

Fulfill ALL of the following requirements:

Core Courses: 6

Complete ALL of the following Courses:

- IDS3073 - Understanding Your Liberal Studies Major
- IDS4890 - Interdisciplinary Studies Capstone: Applying Knowledge

**IDS3073 Understand Lib Stud Major: To be taken at least three semesters before the intended last semester before graduation. Positions students for success in a self-designed, interdisciplinary, non-career-aligned major as they pursue an individualized and focused program of study.*

**IDS4890 IDS Capstone: To be taken at least one semester before the semester of anticipated graduation to solidify degree focus and prepare for post-baccalaureate career or advanced degrees.*

Other Major Requirements: 27

Students must take 27 credit hours of 3000- or 4000-level courses distributed in the areas below. All courses in the major must be completed with a grade of “C” or better.

With assistance from the Interdisciplinary Studies advisors, students build a concentration relevant to their future career or post-BA educational goals. For students admitted into the Honors College, the BA degree requirements for both the Interdisciplinary Studies BA and Honors College upper-division curriculum may be satisfied by taking 12 credit hours of Interdisciplinary Honors (IDH) courses appropriate to the categories below.

Some courses may require prerequisites and labs. When required, lab courses will be counted as an elective and not towards meeting the minimum credits of a specific category. As appropriate, Global Learning courses may count towards the major requirements.

For a full listing of applicable specific courses within the categories and department fields below, consult the Interdisciplinary Studies program advising sheets at http://liberalstudies.fiu.edu/.

Fulfill ALL of the following requirements:

Human Aspirations around the World

Courses in Literature, Philosophy, Religion, History, Art History, Art, Performing Arts (Theater and Music) or for Honors College students IDH3034 Honors Seminar V and IDH4007 Honors Seminar Vii

Earn at least 6 credits

AND

Defining Social Spheres

Courses in Anthropology, Sociology, Psychology, Criminal Justice, International Relations, Political Science, Economics, Management/Public Relations or for Honors College students IDH3034 Honors Seminar V and IDH4007 Honors Seminar Vii

Earn at least 6 credits

AND

Science and its Applications

Courses in Chemistry, Biology, Earth and Environment, Engineering, Computer Science, Biomedical Engineering, or for Honors College students IDH3034 Honors Seminar V and IDH4007 Honors Seminar Vii

Earn at least 6 credits

AND

Expertise Focus, Theory or Applied

Two additional courses from the areas above, in consultation with a program advisor, to build upon subject-matter expertise, or for Honors College students IDH3034 Honors Seminar V and IDH4007 Honors Seminar Vii

Earn at least 9 credits

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no track, specialization, concentration, area of emphasis, or other curricular offerings associated with this program.

INTTI:CFI - Undergraduate Certificate in International Trade and Investment

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in International Trade and Investment

The Undergraduate Certificate in International Trade and Investment is designed for degree-seeking students who want to develop expertise in the international movement of goods and services and the operation of commercial enterprises in foreign locations. Students completing this certificate will gain knowledge in the import and export function, assessing risk in international markets, as well as the nature of foreign direct investment.

Program Credit Hours: 18

Type
Completion Requirement

Required Courses

Students will take six (6) courses each of which is three (3) credit hours for a total of 18 credit hours.

(a) All certificate course work must be completed at FIU;

(b) Students will be required to obtain a grade of “C” or higher in each of the six courses comprising the certificate;

(c) The certificate must be earned concurrently with a Bachelor’s degree at FIU; and

(d) Students will be required to take six courses as follows:

Complete ALL of the following Courses:

- MAN4442 - International Business Negotiations
- MAN4602 - International Business
- MAN4673 - Trade Policy and Business
- MAN4613 - International Risk Assessment
- MAN4653 - Foreign Direct Investment

Elective Courses

Complete at least 1 of the following courses:

- FIN4604 - International Financial Management
- FIN4634 - International Banking
- MAN4600 - International Management
- MAN4633 - MNC Strategy
- MAN4956 - Study Abroad in International Business
- MAR4144 - Export Marketing
- MAR4156 - International Marketing

IOT:MS - Master of Science in Applied AI & Internet of Things

Overview

Degree Offered
MS - Master of Science

Program Title
Applied AI & IoT

The Master of Science (MS) program in Applied Artificial Intelligence (AI) and Internet of Things (IoT) at FIU prepares students to gain the skills, knowledge, and capabilities to position themselves in this rapidly growing and expanding field with increasing opportunities and higher earning potential. Students will learn sought-after technological skills to build on an ecosystem of Applied AI with exposure to hardware, software, and services that turns data into intelligence.

Requirements

Simple Requirements

Admissions Requirements

(1) Applicant must have a bachelor’s degree in engineering, physical sciences, computer science, mathematics or STEM discipline from an accredited institution, or, in the case of foreign students, from an institution comparable or equivalent to a US degree for further study at the graduate level; or, a bachelor’s degree in a related field with programming experience.

(2) Applicant must have an undergraduate GPA of at least 3.0/4.0 in either the last 60 credit hours or the overall undergraduate degree.

(3) Applicant who has not satisfied the above score may be evaluated for conditional admission.

Applicants without the required background are expected to complete background material at the undergraduate level. The required background materials will be determined by the Graduate Program Director and will consist of bridge courses established in the department

Program Requirements

Program Credit Hours: 30

Type
Completion Requirement

Core Courses: 21 credits

Complete ALL of the following Courses:

- EEE5718 - IoT Security and Privacy
- CAI5858 - Advanced Embedded AI
- CAI5867 - Advanced Data Engineering in ECE
- CAI6856 - Advanced Generative AI in ECE
- CNT6156 - Advanced Python Programming in ECE
- CNT6154 - Advanced Machine Learning in ECE
- CNT6150 - Advanced Deep Learning in ECE

Elective Courses: 9 credits (Program Selected)

Earn at least 9 credits from the following:

- CNT5415 - Practical Applied Security
- CNT6144 - Advanced Analytics with Cloud Services in ECE
- CNT6148 - Advanced Big Data Analytics in ECE
- CNT6152 - Advanced Data Visualization in ECE
- EEL5718 - Computer-Communication Network Engineering
- EEL5799 - Advanced Concepts in Computer Engineering
- EEL6787 - Network Security
- TCN5271 - Advanced IoT Communications and Networking

The student is expected to complete 30 credit hours at the graduate level, while achieving a GPA of at least 3.0 earned for courses required by the program. The student must maintain an overall GPA of 3.0. No grade below “C” will be accepted in the graduate program.

Additional Comments:
Students who receive a second C or lower in a course, will be required to meet with the Program Director to determine the feasibility of continuation in the program.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

IT:BA - Bachelor of Arts in Information Technology

Overview

Degree Offered
BA - Bachelor of Arts

Program Title
Information Technology

The Bachelor of Arts (BA) in Information Technology broadens options for students who pursue another undergraduate degree. Available as a second degree, the BA in Information Technology program prepares students with the competencies and business skills essential for a career in information technology. The industry-developed curriculum includes core courses in computer networking, operating systems, website construction, and management, with the opportunity to choose electives to deepen your knowledge in network security, mobile app development, and Unix/Linux. The BA in Information Technology includes hands-on skill development, focusing on becoming proficient in new, innovative technologies. Students will build technical abilities, be prepared for real-life situations, and be able to apply knowledge of computers, programming, and all IT-related tasks to the professional world—from business to government to education to non-profit organizations. The Board of Governors of the State University System of Florida has recognized FIU as a top institution for training tech talent for its innovative approaches in educating the next generation of top computing specialists. Many of our information technology graduates have excelled in positions such as systems administrators, applications support specialists, database administrators, computer programmers, computer analysts, and computer support specialists. Businesses and organizations in every industry rely on computers and networks to create opportunities and solve challenges. With the BA in Information Technology, graduates will have expanded career options in a rapidly expanding job market.

IT:BS - Bachelor of Science in Information Technology

Overview

Degree Offered
BS - Bachelor of Science

Program Title
Information Technology

The Bachelor of Science (BS) in Information Technology prepares graduates to excel in a world increasingly focused on information technology. Students can advance their knowledge and earn one of the most in-demand bachelor's degrees with a curriculum that includes courses in software and database development, cloud computing, application deployment and management, and more. Students learn from top-ranked faculty and industry experts. The BS in Information Technology includes hands-on skill development, focusing on becoming proficient in new, innovative technologies and methodologies. Students will build technical abilities, be prepared for real-life situations, and be able to apply their extensive knowledge of industry computing techniques in the professional world—from business to government to education to non-profit organizations. The Board of Governors of the State University System of Florida has recognized FIU as a top institution for training tech talent for its innovative approaches in educating the next generation of top computing specialists. Our information technology graduates are prepared for positions that include specialties in all aspects of cloud computing, DevOps, application, and database development. With a BS in Information Technology, students will be prepared to be an information technology and development specialists in any type and size of organization in a rapidly changing worldwide technical environment.

Admissions Requirements for the Combined BS in Information Technology to Master of Science (MS) in Engineering Management Accelerated Degree Pathway

Students who pursue a BS degree and are approaching their first semester of the senior year in Information Technology and have earned at least a 3.2 overall GPA may, upon recommendation from three faculty members, apply to the department to enroll in the combined BSIT/MSEM pathway. Students must also submit an online application to the University Graduate School for admission to the MSEM program. In addition to the admission requirements of the MSEM program, students must meet all the admission requirements of the University Graduate School. Students need only apply once to the combined degree pathway the application is submitted to Graduate Admissions typically before the student starts the last 30 credits of the bachelor's degree program.

Students interested in the combined pathway should consult with their undergraduate advisor on their eligibility to the pathway, preferably during their junior year, since appropriate planning of coursework is required in order to achieve the full nine-credit benefit. The student should also meet the MSEM Program Director to learn about the graduate program and available tracks/courses before completing the application form and submitting it to their undergraduate advisor. Final decision for admission to the MSEM program will be made by the University Graduate School upon recommendation by the Engineering Management program director. Applicants will be notified by the Engineering Management Program and the University Graduate School of the decision on their applications.

- CGS4285 - Applied Computer Network
- CGS4854 - Website Construction and Management
- CNT4403 - Computing and Network Security
- COP4703 - Information Storage and Retrieval Concepts
- ENC3249 - Professional and Technical Writing for Computing
  OR ENC3213 - Professional and Technical Writing
- CIS3950 - Capstone I
- CIS4951 - Capstone II
- COP3835 - Designing Web Pages
- CIS3080 - Cloud Essentials
- CIS4526 - IT Project Management
- CIS4641 - Cloud DevOps

Information Technology Electives

Students in both majors must take information technology electives. Details for each major can be found below in the Major Requirements section. KFSCIS maintains two lists of courses for two elective groups: Application Development and System Network (https://www.cis.fiu.edu/academics/degrees/undergraduate/).

Free Electives for Both Majors

All students must complete six additional credits of general electives.

Earn at least 6 credits

Major Requirements

Software Major: 12 Credits

Type
Completion Requirement

Software Major-specific Required Courses

Complete ALL of the following Courses:

- COP3337 - Computer Programming II
- COP3530 - Data Structures
- COP4814 - Component-Based Software Development

Software Major-specific Electives

Students must select two elective courses from the Application Development group: https://www.cis.fiu.edu/academics/degrees/undergraduate/

DevOps Major: 15 credits

Type
Completion Requirement

DevOps Major-specific Required Courses

Complete ALL of the following Courses:

- COP3804 - Intermediate Java Programming
- CIS4651 - Cloud Deployment and Operations

DevOps Major- Specific Electives

Students must complete three elective courses, as follows. Select one course from each group(two courses). Select the third course from either group:

https://www.cis.fiu.edu/academics/degrees/undergraduate/

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Combined BS in Information Technology to MS in Engineering Management Accelerated Degree Pathway

A student admitted to the combined degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Students enrolled in the combined degree pathway could count up to three Management Electives toward their nine "interdisciplinary credits" in the BSIT degree program, for a total saving of 9 credit hours.

--ACG6026 Actg For Managers

--EIN5359 Ind Fin Decisions

--FIN6406 Corporate Finance

--MAN6167 Ldrshp Global Env

--MAN6209 Org Design & Behav

--QMB6616 Process & Oper Analysis

--ISM6021 Mgmt Information Systems

--MAR6805 Mkg Mgt In Glob Env

The combined BSIT/MSEM pathway has been designed to be a continuous enrollment pathway. During this combined BSIT/MSEM pathway, upon completion of all the requirements of the BSIT program, students will receive their BSIT degree. Students may elect to permanently leave the combined pathway and earn only the BSIT degree. Students who elect to leave the combined pathway and earn only the BS degree will have the same access requirements to regular graduate programs as any other student but will not be able to use the 9 credit hours in both the BSIT and MSEM degrees.

For each of the graduate courses counted as credits for both BSIT and MSEM degrees, a minimum grade of "B" is required. Only graduate courses with formal lecture can be counted for both degrees. The students are responsible for confirming the eligibility of each course with their undergraduate advisors.

IT:MS - Master of Science in Information Technology

Overview

Degree Offered
MS - Master of Science

Program Title
Information Technology

The Master of Science (MS) in Information Technology prepares students for the design, maintenance, and management of information technologies that are critical to the success of businesses, organizations, and individuals across industries. This program will help students develop critical skills and explore the many career choices. Information technology is an extensive field that touches all technological aspects around us, including mobile applications, social platforms, virtual reality, cloud services, data centers, and automation. Students will learn to identify and implement technologies needed to help businesses be successful, while also keeping their systems and data secure. Graduates from this program work in a range of industries to develop, adapt, integrate, and manage computing technologies that solve complex problems and enable innovations.

For more information, visit the College of Engineering and Computing website.

To explore more about this program, visit the website below:

College of Engineering and Computing

Diploma Title
Master of Science in Information Technology

Total Credits
30

Program Length in Years Based on Full-Time Enrollment
1

CIP Code
11.0103

Requirements

Simple Requirements

Admissions Requirements

The following are in addition to the University's graduate admissions requirements.

(1) Bachelor's degree from an accredited institution in Information Technology, Computer Science, Computer Engineering, or a similar field or a Bachelor's degree in any field plus 3 years of Information Technology work experience.

(2) Per FIU's Graduate Admission Criteria and Denial Policy # 380.0443, the applicant should have a minimum of a "B" average (3.0 GPA) in the last 60 credits of upper-level undergraduate coursework.

(3) Foreign students whose native language is not English must score at least 550 on the paper-based (or 80 on iBT) in the Test of English as a Foreign Language (TOEFL), 6.5 overall on International English Language Testing System (IELTS), or 110 on Duolingo.

Program Requirements

Program Credit Hours: 30

Type

Completion Requirement

Required Courses

Students in the Master of Science in Information Technology program will be required to take 30 credits of graduate level courses. Included in the program are 9 credits of Information Technology core courses, 6 credits that form a track, and 15 credits of Information Technology elective courses.

Fulfill ALL of the following requirements:

Core Coursework: 9 Credits

Complete ALL of the following Courses:

- CEN5087 - Software and Data Modeling
- CIS5027 - Computer Systems Fundamentals
- CIS5370 - Principles of Cybersecurity

AND

Track Courses: 6 Credits

Student must choose one of the following tracks and complete two courses from a list of courses maintained by the school: Software Track, System Administration Track, Security Track, or Networking Track.

AND

Electives: 15 Credits

Students must choose any four graduate-level courses offered by the Knight Foundation School of Computing and Information Sciences, with the exception of CGS 6834 and COP 6007. Three credits can be earned in either CIS5900 Independent Study or CIS5910 Project Research, but not both. With the approval of the Graduate Program Director, one course not appearing on this list can be substituted for an elective.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Software Track

The Software track prepares students with fundamental methods and cutting-edge technologies for developing and maintaining software systems. Students graduating from the software engineering specialization will have a thorough knowledge of the process and major techniques for modeling, designing, and analyzing software systems. The graduates of this track will be well-prepared to undertake major software systems development projects from major software corporations such as Motorola, Siemens, and IBM.

Software Track: 6 Credits

Type
Completion Requirement

Additional Comments:
Students must choose two courses from a list of courses maintained by the school.

System Administration Track

The System Administration track prepares the student to be able to install, support, and maintain servers or other computer systems, and planning for and responding to service outages and other problems. Other duties may include scripting and basic programming, setting up custom operating system environments, project management for systems-related projects, supervising or training computer operators, and being the consultant for computer problems beyond the knowledge of technical support staff.

System Administration Track: 6 Credits

Type
Completion Requirement

Additional Comments:
Students must choose two courses from a list of courses maintained by the school.

Security Track

The Security track will equip students with fundamental knowledge and skills in information security and privacy, system security, and network security to they become highly qualified workforce in information technology fields.

Security Track: 6 Credits

Type
Completion Requirement

Additional Comments:
Students must choose two courses from a list of courses maintained by the school.

Networking Track

The Networking track is intended to educate individuals seeking employment with hardware and/or software companies, service providers, large user organizations, or regulatory agencies as well as for those who are employed by these companies/organizations and wish to obtain formal, higher-level, specialized training in Networking. This track teaches students how to lead in the ever-changing environment of real-time global information networking, telecommunications, wireless and optical strategies and how to amplify business value through communications, technologies and systems.

Networking Track: 6 Credits

Type
Completion Requirement

Additional Comments:

Students must choose two courses from a list of courses maintained by the school.

ITALAN:CFI - Undergraduate Certificate in Italian Language and Culture

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Italian Language and Culture Professional Certificate

The Undergraduate Certificate in Italian Language and Culture provides students with a broad knowledge and cultural foundation necessary for understanding the culture and society of Italy. One cannot really understand the culture without being exposed to the language that is shaping it, and one cannot understand the political and economic dynamics of a society without knowing its cultural foundations.

Admissions Requirements

No specific admissions requirements. Contact advisor for additional information.

The certificate is open to both degree and non-degree seeking students

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

The Undergraduate Certificate in Jain Studies will require 15 credit hours, including the required foundation course and four elective courses. The certificate is open to both degree and non-degree seeking students. Any FIU course that has at least one-third (1/3) Jainism content may also count toward the certificate. Up to six (6) credit hours of coursework in a relevant Indic language may be applied as electives toward the certificate.

Study Abroad

Students are encouraged to earn credits through study abroad programs with institutes in India. Several programs are offered in summer terms. Students may earn three (3) to six (6) credits for study abroad. Please inquire with the Director or with the Office of Study Abroad about international programs.

Program Credit Hours: 15

Type
Completion Requirement

Foundation Course: 3 credits

Complete ALL of the following Courses:

- REL3310 - Introduction to Asian Religions

Electives: 12 credits

Complete at least 4 of the following courses:

- REL3020 - Meditation and Spiritual Development
- REL3024 - Religion, Life and Vegetarianism (Inactive)
- REL3077 - Sacred Image, Sacred Space in India
- REL3123 - Asian Religions in the Americas
- REL3316 - Healing in Asian Religions
- REL3330 - Religions Of India
- REL3336 - Introduction to Jainism
- REL3453 - Jainism and the Modern World
- REL3454 - Selected Jain Texts
- REL4311 - Religious Classics of Asia
- REL4948 - Field Work in Jain Studies
- ASN3015 - South Asian Cultures (Inactive)
- ASN4510 - Dynamics Of Asia

REL4948 Field Work Jain Studies *(Note: This course may be repeated twice with change in focus)*

Languages

Complete ANY of the following Courses:

- SRK2100 - Sanskrit I - Basic Sanskrit
- SRK2101 - Sanskrit II - Paninian Sanskrit
- SRK3202 - Sanskrit III - Epic Sanskrit
- SRK3203 - Sanskrit IV - Sanskrit Composition

Program Requirements

Program Credit Hours: 18

Type
Completion Requirement

Required Courses: 3 credits

Students must complete **at least one** of the following:

Complete at least 1 of the following courses:

- HBR1130 - Hebrew I
- HBR3100 - Biblical Hebrew I
- JST3505 - Introduction to Jewish Cultures

Language Courses

Up to ten (10) credit hours of Hebrew language courses may be applied toward the Certificate.

Complete ANY of the following Courses:

- HBR1130 - Hebrew I
- HBR1131 - Hebrew II (Inactive)
- HBR2200 - Intermediate Hebrew (Inactive)
- HBR3100 - Biblical Hebrew I
- HBR3101 - Biblical Hebrew II

Electives

The balance of the 18 credit certificate will be drawn from courses listed below.

Complete ANY of the following Courses:

- ENL4412 - Anglo-Jewish Literature: 19th Century to the Present (Inactive)
- EUH3245 - European History, 1914-1945
- EUH4033 - Nazism and the Holocaust
- INR3045 - The Global Challenge of Refugees and Migrants
- INR3274 - International Relations of the Middle East
- JST3505 - Introduction to Jewish Cultures
- LIT3170 - Jewish Literature (Inactive)
- LIT3674 - Literature of the Jewish Immigration Experience (Inactive)
- REL3194 - The Holocaust
- REL3209 - The Dead Sea Scrolls
- REL3220 - Moses And Company
- REL3280 - Biblical Archaeology
- REL3320 - Moses, Jesus, Muham
- REL3392 - Kabbalah and Jewish Mysticism
- REL3607 - Judaism
- REL3625 - Intro To Talmud
- REL3627 - Kabbalah and the Bible (Inactive)
- REL3630 - American-Judaism (Inactive)
- REL3671 - Jews, Sex and Gender (Inactive)
- REL3672 - Religion and Society in Israel/Palestine
- REL3690 - Hasidic Thought (Inactive)
- REL4699 - Holocaust Memorials
- REL4312 - The Jews of Asia and Africa
- WOH3281 - Jewish History to 1750 (Inactive)

These courses represent a partial list; students should consult with an advisor for the certificate program about current course offerings and a full list of courses accepted for the certificate.

Additional Comments:

In addition to the courses listed , relevant special topics, area studies or comparative studies courses may also be applied. All courses must be approved by the director, and all must be passed with "C" or better.

Students are encouraged to attend lectures and workshops sponsored by the Jewish Studies Program.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, and other curricular offerings associated with this program.

JPNST:CFI - Undergraduate Certificate in Japanese Studies

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Japanese Studies

The Undergraduate Certificate in Japanese Studies provides a multidisciplinary approach covering the philosophy, religion, art history, and literature of Japan as well as issues in history, politics, geography, sociology/anthropology, and international relations. The program is intended to enhance degree-seeking students' competitiveness upon graduation.

For more information, visit the Steven J. Green School of International and Public Affairs website.

Admissions Requirements

No specific admissions requirements. Contact advisor for additional information.

This certificate is open to degree-seeking students only.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Program Credit Hours: 18

Type
Completion Requirement

Language Requirement: 12 credits

Students must complete two full years (four semesters) or equivalent of Japanese language. (First year language courses are 5-credits each, for a total of 10, but a maximum of 6 credits will be applied to the certificate). If students test out of some portion of this requirement then they must complete additional credits in studies of Japanese and/or East Asia society and culture.

Earn at least 12 credits from the following:

- JPN1130 - Japanese I
- JPN1131 - Japanese II
- JPN2200 - Intermediate Japanese I
- JPN2201 - Interm Japanese II
- JPN3000 - Japanese Calligraphy
- JPN3140 - Japanese for Business (Inactive)
- JPN3242 - Intermediate Japanese Conversation
- JPN3243 - Advanced Japanese Composition
- JPN3400 - Advanced Japanese I
- JPN3401 - Advanced Japanese II
- JPN3412 - Advanced Japanese Conversation
- JPN3500 - Japanese Culture and Society
- JPN3955 - Foreign Study: Japan

Elective Courses: 6 credits

Two courses in Japanese or East Asian area studies (history, religion, economics, international relations, etc.) must be completed. For a list of electives please consult the list provided with the Asian Studies major in this catalog. However, some courses in that list may not be applicable for this certificate. Therefore, students should consult with an advisor for the certificate program to get approval for specific courses. Relevant special topics, study abroad credits, area studies or comparative studies courses may also be applied. Students are encouraged to earn credits through study abroad in Japan or through internships.

Additional Comments:

Please note: No more than two courses (6 credits) from the Asian Studies BA degree or Minor can be counted towards the certificate.

For more information, or to request additional courses, contact the Asian Studies office, SIPA-I 523. Email: **asian@fiu.edu**; phone: (305) 348-1914; website: **http://asian.fiu.edu**.

KEXSCI:MS - Master of Science in Kinesiology Exercise Science

Overview

Degree Offered
MS - Master of Science

Program Title
Kinesiology and Exercise Science

The Master of Science (MS) in Kinesiology and Exercise Science emphasizes a disciplinary and interdisciplinary scientific approach to the application of kinesiology and exercise science across the lifespan. The program integrates physiological and psychosocial research with real-world applications to prepare students to be scientist-practitioners. The program prepares graduates to pursue careers in the fields of exercise science, strength and conditioning, mental performance, motor behavior, coaching, research, allied health sciences (including physical therapy, athletic training, occupational therapy, and medical school), education, sport science, and human health and wellness. The program is ideal for students with baccalaureate degrees in sports science, education, sport industry, social sciences, psychology, and other areas.

For more information, visit the College of Arts, Sciences, and Education website.

Requirements

Simple Requirements

Admissions Requirements

Students must hold a bachelor’s degree from an accredited university and have a 3.0 GPA for the last 60 hours of upper-division coursework, and include a personal statement addressing career goals and aspirations and three letters of professional recommendation accompanying the application. The published university requirements for admission into the master’s degree programs must be met. Students who do not have an undergraduate major in a movement science related area, must hold a certification accredited by the National Commission for Certifying Agencies (NCAA; e.g., Certified Personal Training, Strength and Conditioning Certification), other certifications may be approved by program advisor.

Program Requirements

A program advisor must be consulted regarding completion of degree requirements.

Program Prerequisites

Type
Completion Requirement

Prerequisites

Students who do not hold appropriate certification or degree are responsible for meeting the prerequisites for any course listed in the program's curriculum, which are listed below. Advisors must approve prerequisite course competency substitutions.

Complete ALL of the following Courses:

- APK3110 - Exercise Physiology I
- PEP4102 - Applied Concepts of Fitness and Health
- APK4141 - Applied Biomechanics in Sport and Exercise Science
- APK3103 - Kinetic Anatomy
- APK4304 - Prevention and Care of Athletic Injuries

Program Credit Hours: 30

Type
Completion Requirement

Core Requirements: 12 Credits

Complete ALL of the following Courses:

- APK5111 - Advanced Exercise Physiology
- PET5216 - Sport and Exercise Psychology
- PET5693 - Athletic Performance Assessment and Exercise Prescription
- PET6597 - Research in Kinesiology

Kinesiology Courses: 12 Credits

Earn at least 12 credits from the following:

- PET5052C - Motor Learning for Sport Performance
- PEP5115 - Strength and Conditioning Techniques for Human Performance
- PET5206 - Youth Sports
- PET5256 - Sociology of Sport
- PET5368 - Exercise, Diet and Weight Management
- PET5391C - Comprehensive Conditioning of Elite Athletes
- PET5936 - Special Topics in Kinesiology
- APK6090 - Professional and Ethical Issues in Kinesiology
- APK6411 - Exercise Psychophysiology and Neuroscience
- APK6713 - Applied Sport and Performance Psychology
- PET6932 - Seminar in Kinesiology
- PET6944 - Supervised Field Experience

Electives: 6 Credits

Potential electives include additional kinesiology courses and EDF research courses. Please consult with an advisor for appropriate courses.

Additional Comments:

Thesis Option

Students may opt to extend the MS program (6 additional thesis credit hours) by request.

Program Credit Hours: 18

Type
Completion Requirement

Core Coures: 12 credits

A. 12 credits focusing on Korean Studies and East Area Studies (history, religion, international relations, sociology, etc.) from the coursework listed below to be chosen with the approval of the Director with a “C” or better, with 6 credits of ASN prefix courses; in addition to the courses listed here, relevant special topics, area studies, or comparative studies courses may also be applied. **These courses represent a partial list; students should consult with an advisor for the certificate program about current course offerings and a full list of courses accepted for the certificate.**

Earn at least 12 credits from the following:

- ASH3280 - Introduction to Korean History
- ASH4300 - East Asian Civilization and Culture
- ASH4384 - History of Women in Asia
- ASN3153 - Topics in Korean Culture
- ASN3154 - Traditional and Modern Korea
- ASN3200 - Asia Through Films
- ASN3202 - Japanese Anime and Manga
- ASN3210 - K-Pop and J-Pop Culture
- ASN3329 - Women in Asian Society
- ASN3403 - Zen and the Art of Tea Ceremony
- ASN3410 - Introduction to East Asia
- ASN3414 - Pop Culture of East Asia
- ASN3503 - Exploring East Asia: Virtual Reality Travel
- ASN3931 - Special Topics in Asian Studies
- ASN4111 - Japan and The New East
- ASN4390 - Modern Asia
- ASN4404 - Zen and the Art of the Tea Ceremony II
- ASN4510 - Dynamics Of Asia
- ASN4810 - East Asian Classics to Cool Writings in Translation
- GEA3704 - People, Place, and Environment of East Asia
- INR3224 - International Relations of East Asia
- SYP3456 - Societies in the World

Language Courses: 6 credits

B. Two semesters (6 credits) of Introductory-level (1000) or higher in Korean Language. (First-year language courses are 5-credits each, for a total of 10, but a maximum of 6 first-year credits will be applied to the certificate). If students test out of some portion of this requirement, they must complete additional credits in Korean and/or East Asia society and culture. Korean language may be substituted by a Korean Studies course if a language course is not available.

Earn at least 6 credits from the following:

- KOR1113 - Korean I
- KOR1132 - Korean II
- KOR2220 - Intermediate Korean I
- KOR2950 - Exploring Korean Language Through Culture

Study Abroad

Students are encouraged to earn credits through a study abroad (summer travel) or student exchange (one or two semesters travel)program with a university in Korea.

Students may earn three to six credits for study abroad and up to fifteen credits for student exchange.

Please inquire with the Director or with the Office of Education Abroad about international programs.

Additional Comments:

Please note: No more than two courses (6 credits) from the Asian Studies BA degree or Minor can be counted towards the certificate.

For more information, or to request additional courses, contact the Asian Studies office, SIPA-I 523. Email: asian@fiu.edu; phone: (305) 348-1914; website: http://asian.fiu.edu.

LABOR:CFI - Undergraduate Certificate in Labor and Employment Relations

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Labor and Employment Relations

The certificate offers an interdisciplinary concentration designed to provide degree-seeking students from diverse backgrounds with an understanding of major issues in the field. This certificate is also suitable for non-degree- individuals who already hold a degree and wish to acquire additional knowledge about various aspects of Labor and Employment Relations within the global work environment. Whether one is pursuing a bachelor’s degree or not, this program stands alone and complements other academic pursuits. A certificate in Labor and Employment Relations typically covers a range of topics related to labor relations, employment law, labor economics, and workplace issues. These skills can be valuable for various roles within labor unions, human resources departments, government agencies, advocacy organizations, and other related fields. In summary, the Certificate in Labor and Employment Relations equips students with insights into the complexities of the workforce, fostering informed and engaged citizens.

Admissions Requirements

This certificate is a stand-alone program that can be completed simultaneously by degree-seeking students pursuing a bachelor's degree or non-degree-seeking students who hold a bachelor's degree.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Program Credt Hours: 18

Type
Completion Requirement

Certificate Requirements

A minimum of 18 credit hours is required. A grade of “C” or better is required for all courses. Courses are to be selected in consultation with an advisor. Other related courses may be accepted or substituted pending approval from the Center’s Academic Director.

Fulfill ALL of the following requirements:

Three Required Core Course: 9 credits

Complete ALL of the following Courses:

- LBS3001 - Labor and Globalization
- LBS4501 - Labor Law
- LBS4654 - Comparative and International Labor Studies

AND

Two Labor Studies Courses: 6 credits

Earn at least 6 credits from the following:

- LBS4101 - Theories of the Labor Movement
- LBS4150 - Contemporary Labor Issues
- LBS4154 - Workers and Diversity
- LBS4210 - Women and Work
- LBS4260 - Union Leadership and Administration
- LBS4401 - Labor Contract Negotiations
- LBS4461 - Labor Dispute Resolution
- LBS4610 - Cross Cultural Dimensions of Latin American Labor Relations

AND

One Electives: 3 hours

The courses listed below should be understood as a partial list of approved electives. Other related courses may be accepted or substituted pending approval from the Center’s Academic Director.

Complete ANY of the following Courses:

- AMH3270 - Contemporary U.S. History
- AMH4500 - United States Labor History
- ECO3101 - Intermediate Microeconomics
- ECO3203 - Intermediate Macroeconomics
- ECO4622 - Economic History of the United States
- ECO4701 - World Economy
- ECP3123 - Economics of Poverty
- ECP3203 - Introduction to Labor Economics
- ECP4204 - Theory of Labor Economics
- INP3004 - Introductory Industrial/Organizational Psychology
- LBS3468 - Introduction to Mediation

- LBS3480 - Introduction to Conflict Resolution
- LBS3482 - Methods of Conflict Resolution
- LBS3943 - Internship in Labor Studies
- LBS4101 - Theories of the Labor Movement
- LBS4110 - Technology and Work
- LBS4150 - Contemporary Labor Issues
- LBS4154 - Workers and Diversity
- LBS4210 - Women and Work

LACR:CFI - Graduate Certificate in Latin American and Caribbean Studies

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Latin American and Caribbean Studies

The Graduate Certificate in Latin American and Caribbean Studies offers interdisciplinary, graduate-level study of Latin America and the Caribbean. Graduate students enjoy the benefits of access to the Kimberley Green Latin American and Caribbean Center's (LACC's) network of faculty experts, policymakers, artists, community leaders, and alumni both in the U.S. and in Latin America and the Caribbean. The certificate is particularly popular with students pursuing advanced degrees in business, public health, education, hospitality management, history, and global and sociocultural studies, among others. Many LACC Graduate Certificate students are professionals working in government agencies, education, disaster management, health and the media, as well as the private sector.

This is certificate is open to both degree-seeking and non-degree-seeking students.

Prerequisite Requirements

Contact advisor for information about any prerequisites.

Program Requirements

Certificate Requirements

(1) A total of 15 credit hours of graduate course work with a grade of "B" or higher. Courses must come from the approved Latin American and Caribbean Center (LAAC) studies course listing or be approved by the certificate faculty advisor. All LACC approved courses are posted at **https://lacc.fiu.edu/academics/courses/graduate/**. All courses listed from 5000 through 7000 series may be applied to the certificate. Courses may include those in the student's departmental major, but must be selected from at least two disciplines outside the student's major. A student may elect to focus on a country, region, or topic for the certificate (such as political science, Cuban studies, international business, art history, migration, etc.) or pursue a broader selection of courses in a variety of disciplines.

(2) Each student is required to demonstrate reading proficiency in either Spanish or Portuguese, or in another regional language such as French, Haitian Creole, or Dutch when justified by research interests. Proficiency is demonstrated by scoring at least 'intermediate-high' on the ACTFL/ETS exam for Spanish, Portuguese, or French. Corresponding tests of proficiency may be accepted upon approval of the graduate advisor.

Note: Intermediate-high on the ACTFL/ETS exam (1-plus on the US government scale) can normally be attained by students with two undergraduate semesters of basic language instruction and at least one undergraduate semester of intermediate (3000/4000 level) instruction. Attainment of the required language proficiency is the responsibility of the student and extra courses to achieve the required proficiency level must be taken outside the certificate curriculum.

Students interested in pursuing a Latin American and Caribbean Studies Graduate Certificate should contact the certificate advisor at (305) 348-2894 or email **lacc@fiu.edu**.

LACRB:CFI - Undergraduate Certificate in Latin American and Caribbean Studies

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Latin American and Caribbean Studies

The Undergraduate Certificate in Latin American and Caribbean Studies provides students with a comprehensive understanding of the region's diverse cultures, history, politics, and socio-economic issues. Whether one is majoring in a related field or simply passionate about Latin American and Caribbean studies, this certificate program offers a valuable interdisciplinary perspective. Furthermore, the Undergraduate Certificate in Latin American and Caribbean Studies prepares students for graduate studies and professional careers. For students pursuing a bachelor's degree, the certificate is designed to complement the student's discipline or major area of study.

Program Requirements

Certificate Requirements

(1) Students must earn a total of 18 credit hours of undergraduate course work with a grade of ‘C’ or higher. Our core course, LAS 3002 Introduction to Latin American and Caribbean Studies is required for all certificate students. Students should take LAS 3002 at the start of the Certificate Program. Other courses must come from the approved Latin American and Caribbean Studies course listing or be approved by the Director of Academic Programs. Students may choose approved courses in their departmental major but must also select at least two courses in disciplines outside the major.

(2) Students are required to take a two-course language sequence at FIU in Spanish, Portuguese, Haitian Creole, or French at the student’s tested level. Tests are administered through a proficiency examination in FIU’s Department of Modern Languages or in LACC. Up to six language credits may be counted towards the fulfillment of the 18 credit hours.

(3) A student may elect to focus on a country, region, or topic for the undergraduate certificate or pursue a broader selection of courses in a variety of disciplines. A country, regional, or topical area of concentration (such as Cuban studies, migration, political science, international business, etc.) may be declared for the undergraduate certificate. At least three courses with significant (100% content on the approved course listing) Latin America or Caribbean content must be completed to obtain a concentration. Students may also petition to create their own concentration, provided there are sufficient courses.

Program Credit Hours: 18

Type

Completion Requirement

Required Core Course: 3 credits

Complete ALL of the following Courses:

- LAS3002 - Introduction to Latin American and Caribbean Studies

LACC Approved Courses: 15 credits

Students are required to take a two-course language sequence at FIU in Spanish, Portuguese, Haitian Creole, or French at the student’s tested level. Tests are administered through a proficiency examination in FIU’s Department of Modern Languages or in LACC. Up to six language credits may be counted towards the fulfillment of the certificate.

The following list of courses may complete the balance of the total 18 credits to earn the certificate.

Complete ANY of the following Courses:

- ANT3034 - Anthropological Theories
- ANT3451 - Anthropology of Race and Ethnicity
- ANT4340 - Caribbean Cultures
- CCJ3651 - Drugs and Crime
- CPO2304 - Politics of Latin America
- CPO4034 - The Politics of Development and Underdevelopment
- ECO4704 - International Trade Theory and Policy
- ECS3013 - Introduction to Economic Development
- ECS3021 - Women, Culture, and Economic Development
- ECS3402 - The Political Economy of South America
- EVR4411 - Human Organizations and Ecosystem Management
- FIN4604 - International Financial Management
- FIN4634 - International Banking
- GEA3400 - People, Place, and Environment of Latin America
- GEO3502 - Economic Geography

- GLY3034 - Natural Disasters
- GLY3039 - Environmental Geology
- HFT3735 - Destination and Cultures
- INR3243 - International Relations of Latin America
- INR3246 - International Relations of the Caribbean
- INR3403 - International Law
- INR3703 - International Political Economy
- INR4931 - Topics in International Relations
- LAH2020 - Latin American Civilization
- LAH3200 - Latin America: The National Period
- LAH3718 - History of U.S.-Latin American Relations (Inactive)
- LBS4930 - Topics in Labor Studies
- MAN4600 - International Management
- MAN4602 - International Business
- MAR4156 - International Marketing
- REL4382 - Latin American Women and Religions in the Americas
- SPN4500 - Spanish Culture
- SPW3130 - Spanish American Literature
- SPW4304 - Latin American Theatre
- SYP3456 - Societies in the World
- SYP4454 - Globalization and Society
- WST4930 - Special Topics

Courses approved for the Latin American and Caribbean Studies Certificate are posted each semester on the LACC website: https://lacc.fiu.edu/academics/courses/undergraduate/

All courses listed from 2000 through 4000 series may be applied to the certificate. Approved courses are also available from the Director of Academic Programs.

Students interested in pursuing a Latin American and Caribbean Studies Certificate should contact the certificate advisor at (305) 348-2894 for an appointment or email lacccert@fiu.edu.

LACRBST:MA - Master of Arts in Latin American and Caribbean Studies

Overview

Degree Offered
MA - Master of Arts

Program Title
Latin American and Caribbean Studies

The Master of Arts (MA) in Latin American and Caribbean Studies is a unique interdisciplinary program that allows students to design their program based on their own research and career interests. The program is particularly valuable to those students whose research and professional interests cannot be accommodated within a single discipline. Alumni are employed in a variety of public and private industries in the U.S. and abroad, serving as research directors, teachers, non-governmental organization administrators, diplomatic representatives, policymakers, and small business owners. Many alumni of the program have also gone on to pursue PhDs and many have excelled in careers in higher education. Students have the opporutuniy to apply to combined programs in related disciplines at FIU.

For more information, visit the Steven J. Green School of International and Public Affairs website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Master of Arts (MA) in Latin American and Caribbean Studies

Applicants must meet the following minimum admissions requirements:

(1) Completed FIU graduate application.

(2) A baccalaureate degree from an accredited institution of higher education, or equivalent.

(3) A grade-point average of at least 3.0 on a 4.0 scale (or equivalent) for the last two years of undergraduate study and for any post baccalaureate study.

(4) A statement of purpose consistent with the goals of the program.

(5) Two letters of recommendation, at least two of which must come from current or former professors.

(6)Applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. Please refer to the Admissions English Proficiency criteria at https://admissions.fiu.edu/international/graduate-school/english-language-proficiency/index.html.

(7) Application for MA assistantship (if applicable).

(8) Approval by the program admissions committee.

Note: The above admission requirements are minimums and not all students meeting them are assured admission. The GRE is not required.

Admissions Requirements for the MA in Latin American and Caribbean Studies and Master of Business Administration (MBA) Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program.

(2) Applications for a joint degree pathway will not be accepted from candidates who have already completed either degree. Business Administration students must apply and be admitted by no later than the semester in which they are expected to complete 18 pre-core and core credit hours in the MBA program. MA in Latin American and Caribbean Studies students must apply and be admitted by no later than the semester in which they are expected to complete 18 credits in that program.

Admissions Requirements for the MA in Latin American and Caribbean Studies and PhD in Global and Sociocultural Studies Joint Degree Pathway

Applicants must meet the following minimum requirements to be considered for admission.

(1) Baccalaureate degree from an accredited institution of higher education (or equivalent);

(2) Minimum cumulative grade point average of 3.2 on a 4.0 scale (or equivalent) for the last two years of undergraduate work and/or a GPA of 3.5 on any previous graduate work;

(3).Official Graduate Record Exam (GRE) scores;

(4) International graduate student applicants whose native language is not English and who have not obtained a degree from an English-speaking academic institution are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the internet-based TOEFL (equivalent to 550 on the paper-based version) or a 6.5 overall on the IELTS is required.

Admissions Procedures

To be accepted into this joint pathway, students must submit an application to the PhD in Global and Sociocultural Studies with a sub-plan for the MA in Latin American and Caribbean Studies. This designation will appear in the menu of programs in the graduate application. To be accepted into this pathway, students must submit an application by March 1 in the year in which they wish to begin their studies.

The following documents must be submitted and will be reviewed by the Admissions Committees from both units.

The following must be submitted as part of the on-line application:

(1) Online application and application fee;

(2) Official transcripts for all undergraduate and graduate coursework;

(3) Official GRE scores;

(4) Official TOEFL scores, if applicable;

(5) Statement of purpose explaining his/her interest for enrolling in both the MA in Latin American and Caribbean Studies program and PhD in Global and Sociocultural Studies program. The statement of purpose must clearly address the applicant's academic and professional objectives for enrolling in both fields of inquiry. The statement of purpose must also indicate the intended major (anthropology, geography, or sociology) the applicant plans to select while engaged in the PhD in Global and Sociocultural Studies program;

(6) Three letters of recommendation from university professors who are able to comment on the various aspects of the student's academic ability;

(7) A curriculum vitae; and

(8) Writing samples and other relevant professional work that may support their applications.

Admissions Requirements for the MA in Latin American and Caribbean Studies and PhD in History Joint Degree Pathway

Applicants must meet the following minimum requirements to be considered for admission.

(1) Baccalaureate degree from an accredited institution of higher education (or equivalent);

(2) Minimum cumulative grade point average of 3.0 on a 4.0 scale (or equivalent) for the last two years of undergraduate work and/or a GPA of 3.25 on any previous graduate work;

(3) Official Graduate Record Exam (GRE) scores or, for International students, a minimum score of 525 on the EXADEP (Spanish version of the GRE); or a minimum of 590 on the GMAT;

(4) International graduate student applicants whose native language is not English and have not obtained a degree from an English-speaking academic institution are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 90 on the IBT TOEFL (equivalent to 575 on the paper-based version, or 232 on the computer-based version of the Test of English as a Foreign Language) is required.

Admissions Procedures

To be accepted into this joint degree pathway, students must submit an application to the PhD in History with a sub plan for the MA in Latin American and Caribbean Studies. This designation will appear in the menu of programs in the graduate application. Applicants should prepare all application materials in time for the Department of History and the Office of Graduate Admissions to receive them no later than December 1 for the following year’s fall admissions. Applicants will be notified of the department’s recommendation regarding their application no later than March 15.

The following documents must be submitted as part of the application. They will be reviewed by the Admissions Committee from both units.

(1) Official transcripts of all prior college-level work (undergraduate Bachelor’s degree and any graduate transcripts);

(2) Official GRE scores or equivalent;

(3) Official TOEFL scores, if applicable;

(4) A curriculum vita;

(5) A detailed statement of research interests, reasons for seeking the MA/PhD joint degree pathway, future career goals, a summary of scholarly and extra-curricular activities, and the names of History Department faculty members who would be appropriate dissertation advisors (Note: Consult the department website for information about faculty members);

(6) A writing sample (such as a seminar paper) which demonstrates the ability to conduct research and write effectively; and

(7) Three letters of reference from academic sources or others able to judge academic abilities and potential.

In addition, an interview (in person or phone) with members of the MA in Latin American and Caribbean Studies program and/or appropriate faculty in the Department of History is highly recommended.

Admissions Requirements for MA in Latin American and Caribbean Studies and PhD in International Relations Joint Degree Pathway

Applicants must meet the following minimum requirements to be considered for admission.

(1) Baccalaureate degree from an accredited institution of higher education (or equivalent);

(2) Minimum cumulative grade point average of 3.2 on a 4.0 scale (or equivalent) for the last two years of undergraduate work and/or a GPA of 3.5 on any previous graduate work;

(3) Verbal and Quantitative Graduate Record Exam (GRE) scores;

(4) International graduate student applicants whose native language is not English and who have not obtained a degree from an English-speaking academic institution are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 90 on the internet-based TOEFL (equivalent to 575 on the paper-based version) or 6.5 overall on the IELTS is required.

Although admissions decisions typically are made in the spring, decisions for students who have not yet received their bachelor’s degree will be conditional, pending confirmation of the bachelor's degree. Meeting the minimum requirements does not guarantee admission into the program. All applications are subject to review by the members of the Department of Politics and International Relations and the MA in Latin American and Caribbean Studies admissions committee.

Admissions Procedures

To be accepted into this joint degree pathway, students must submit an application to the PhD in International Relations with a sub-plan for the MA in Latin American and Caribbean Studies. This designation will appear in the menu of programs in the graduate application. The application must be submitted by January 15 in the year in which they wish to begin their studies.

The following documents must be submitted s part of the on-line application and will be reviewed by the Admissions Committees from both units:

(1) Online application and application fee;

(2) Official transcripts for all undergraduate and graduate coursework;

(3) Official GRE scores;

(4) Official TOEFL scores, if applicable;

(5) A statement of research interests, including reasons for seeking the MA/PhD joint degree pathway, future career goals, and a summary of scholarly preparation for this pathway;

(6) Three letters of reference from academic sources or others able to judge academic abilities and potential; and

(7) A curriculum vitae.

Admissions Requirements for the MA in Latin American and Caribbean Studies and PhD in Political Science Joint Degree Pathway

Applicants must meet the following minimum requirements to be considered for admission.

(1) Baccalaureate degree from an accredited institution of higher education (or equivalent);

(2) Minimum cumulative grade point average of 3.2 on a 4.0 scale (or equivalent) for the last two years of undergraduate work and/or a GPA of 3.25 on any previous graduate work;

(3) Verbal and Quantitative Graduate Record Exam (GRE) scores;

(4) International graduate student applicants whose native language is not English and who have not obtained a degree from an English-speaking academic institution are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the internet-based TOEFL (equivalent to 550 on the paper-based version) or a 6.5 overall on the IELTS is required.

Although admissions decisions typically are made in the spring, decisions for students who have not yet received their bachelor’s degree will be conditional, pending confirmation of the bachelor's degree. Meeting the minimum requirements does not guarantee admission into the program. All applications are subject to review by both the members of the Department of Politics and International Relations and the MA in Latin American and Caribbean Studies Graduate Committee.

Admissions Procedures

To be accepted into this joint degree pathway, students must submit an application to the PhD in Political Science with a sub-plan for the MA in Latin American and Caribbean Studies. This designation will appear in the menu of programs in the graduate application. The application must be submitted by February 1 in the year in which they wish to begin their studies.

The following documents must be submitted and will be reviewed by the Admissions Committees from both units.

(1) Online application and application fee;

(2) Official transcripts for all undergraduate and graduate coursework;

(3) Official GRE scores;

(4) Official TOEFL scores, if applicable;

(5) A statement of research interests, including reasons for seeking the MA/PhD joint degree pathway, future career goals, and a summary of scholarly preparation for this pathway;

(6) Three letters of reference from academic sources or others able to judge academic abilities and potential.

(7) A curriculum vitae; and

(8) A writing sample (such as a seminar paper) which demonstrates the ability to conduct research and write effectively.

Program Requirements

Program Credit Hours: 30

Type

Completion Requirement

Core Courses: 9 credits

The core courses consist of an interdisciplinary overview course in Latin America and the Caribbean and two approved research methods courses. First-year MA students enroll in a required interdisciplinary research methods course. In their second year, students select a research methods course in their depth area from the approved list and/or with the approval of the graduate advisor. The core courses and credits are distributed as follows:

Complete ALL of the following Courses:

- LAS6003 - Survey Latin America
- LAS6934 - Research Seminar in Latin American and Caribbean Studies

Research Methods (3 credits)*

**Research Methods course selected from approved list and/or with the approval of the graduate advisor*

MA in Latin American and Caribbean Studies Depth Courses or Area of Focus: 12-15 credits

Students choose to concentrate on a particular country, region, discipline, or topic that serves as the focus of their study of Latin America or the Caribbean. Disciplinary areas (e.g., business, religious studies, art history, anthropology, history, political science) emphasize training and research within a particular academic department, while topical and regional areas (e.g., migration, Cuban studies, public policy, international relations, and gender studies) cluster coursework and research around specific issues or geographic regions. A primary goal of the coursework is to advance the student's core research area and expertise.

Breadth Requirements: 3 credits

Students select three credits from the MA in Latin American and Caribbean Studies approved course list. All courses to be counted toward the degree must have a minimum of 25% Latin American and/or Caribbean course content.

Foreign Language

Each student is required to demonstrate proficiency in either Spanish or Portuguese, or in another language such as French or Haitian Creole when justified by research interests. Proficiency is demonstrated by scoring an advanced level on the ACTFL exam for Spanish, Portuguese, or French administered by FIU's Department of Modern Languages. Other tests of proficiency may be accepted upon approval of the graduate advisor.

Advanced level on the ACTFL exam (2+ on the US government scale) can normally be attained by students with six undergraduate semesters of language instruction (in basic, intermediate and advanced level). Attainment of the required language proficiency is the responsibility of the student and extra instruction to achieve the required proficiency level must be taken outside the MA Latin American and Caribbean Studies curriculum. Fellowships and scholarships to study Portuguese and Haitian Creole are available to selected students. Opportunities for students to improve their language proficiency is provided in courses offered by the FIU Department of Modern Languages, through special summer institute language programs, and by taking designated Foreign Language Across Curriculum (FLAC) courses. Completion of a FLAC course meets the MA in Latin American and Caribbean Studies language proficiency requirement.

Exit Options: 3-6 credits

Students select one of the following options

Fulfill ANY of the following requirements:

Exit Options Part I

Students complete a thesis paper supervised by three committee members. All members of the committee must have FIU Graduate Faculty Status.

Complete ANY of the following Courses:

- LAS6970 - Thesis

OR

Exit Options Part II

Supervised internship leading to a major research paper in Latin American and Caribbean Studies

Complete ANY of the following Courses:

- LAS6942 - Internship in Latin American and Caribbean Studies

OR

Exit Options Part III

Students complete one directed research paper of about 35-40 pages.

Complete ANY of the following Courses:

- LAS6905 - Directed Research in Latin American and Caribbean Studies

Professional Development Activities

Students must complete a minimum of 39 points of professional development prior to graduation. A short 1-2 page response paper submitted to MA in Latin American and Caribbean Studies graduate directors and/or advisors is required as documentation for participation in the non-research paper activities. Activities may consist of the following:

- Published article (25 pts.)
- Public research proposal presentation at a conference (15 pts. per student conference; 20 pts. for professional conference presentation).
- MALOKA (graduate student organization), University Graduate School, or other approved FIU community service, professional development, or peer mentoring activities (3 pts. per activity).
- Attendance at Latin American and Caribbean Center lectures, symposiums, colloquiums, conferences, or other approved scholarly events (3 pts. per lecture; 6-9 pts. per conference or extended event).

Students should meet with their graduate advisor twice per year to discuss options for the completion of professional development points.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: MA in Latin American and Caribbean Studies and Juris Doctor (JD) Joint Degree Pathway

An agreement approved by the University Graduate School, between the FIU College of Law and the Steven J. Green School of International and Public Affairs allows students to pursue simultaneously the Juris Doctor (JD) and MA in Latin American and Caribbean Studies (LACS) degrees, thereby saving considerable time over pursuing each degree separately. Students must meet the entrance requirements for both the JD and MA in LACS programs. Fifteen credits from the law school curriculum will be allowed toward the MA in LACS program and will constitute a MA in LACS

concentration in International and Comparative Law. Nine credits from the MA in LACS program will also count toward the law school curriculum requirements. All other requirements to receive either the JD or MA in LACS degree must be met. Additional information on the joint degree program is available on the College of Law and MA in LACS web sites.

Other Curricular Offering: MA in Latin American and Caribbean Studies and MBA Joint Degree Pathway

An agreement approved by the University Graduate School, between the FIU Alvah H. Chapman, Jr. Graduate School of Business and the Steven J. Green School of International and Public Affairs allows students to pursue simultaneously the Master's in Business Administration (MBA) and MA in LACS. In doing so the student will finish both programs much sooner than if they pursue each degree separately. Students must meet the entrance requirements for both the MBA and MA in LACS programs. Twelve credits from the MBA curriculum will be allowed toward the MA in LACS program and will constitute a MA in LACS concentration in International Business. Nine credits from the MA in LACS program will also count toward the MBA curriculum requirements. All other requirements to receive either the MBA or MA in LACS degree must be met. Additional information on the joint degree pathway is available on the Chapman Graduate School of Business and MA in LACS web sites.

Essential criteria relating to the joint degree pathway are as follows:

(1) Candidates must satisfy all requirements for each degree. Twelve (12) credit hours from the MBA curriculum pre-core and core requirements may count toward the MA in LACS degree to satisfy MA in LACS concentration requirements. Nine (9) credit hours from the MA in LACS course offerings may be applied to satisfy MBA elective requirements. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MA in LACS courses transferred to meet MBA elective credit must be 6000 or 7000 level courses approved by the University Curriculum Committee and be from the approved MA in LACS course list in the social science disciplines of anthropology, economics, environmental studies, history, international relations, Latin American and Caribbean Studies (interdisciplinary), political science, or sociology. The Dean of the Chapman Graduate School of Business (or his/her delegate) has final authority on the approval of which courses may be transferred to meet MBA elective requirements.

(2) Based on existing MBA and MA in LACS curriculums, specifics on the transfer of credits include the following. Participants in the joint degree pathway will obtain a MA in LACS concentration in International Business. Four MBA pre-core or core courses (12 credits) may be transferred to meet the student's MA in LACS concentration requirements. Students who have not taken MAN6910 as an MBA elective course will be required to take a MA in LACS-approved social science research methods course as one of their first MA in LACS courses. With the 12 credit transfer from the MBA program, to obtain the MA in LACS degree, the student will be required to take the MA in LACS gateway interdisciplinary course LAS6003 Survey Latin America, the MA in LACS required data analysis course LAS6930 Intro Lat Amer Data, one additional course in the MA in LACS concentration of International Business (the social science research methods course may meet this requirement) (3 credits), three additional courses in at least two MA in LACS concentrations other than International Business (9 credits), and a MA in LACS graduation exit option (6 credits) for a total of 24 MA in LACS credits. Candidates for the MA in LACS degree must also meet MA in LACS language proficiency requirements. With the 9 credit transfer from the MA in LACS program, to obtain the MBA degree, the student will be required to take all MBA pre-core, core, and professional development seminar courses, plus one MBA elective, for a total of 46 MBA credits. Directors of the MBA and MA in LACS degree programs may adjust the exact course numbers and titles required for degree completion as a result of future changes to the MBA or MA in LACS curriculums.

(3) If the joint degree candidate chooses the thesis exit option for the MA in LACS degree, the thesis must address a Latin American or Caribbean business or management issue. The thesis committee must be chaired by a School of International and Public Affairs faculty member. Furthermore, the thesis committee must have at least one member from both the College of Business and School of International and Public Affairs. Thesis committee co-chairs with faculty members from both academic units are recommended. Candidates selecting a MA in LACS exit option other than the

thesis must follow the procedures established by the MA in LACS program. MA in LACS will establish the necessary thesis, internship, independent study, or directed research course numbers to allow Graduate School of Business faculty to participate in MA in LACS exit options for joint degree students.

(4) Candidates accepted to the joint degree pathway may begin their studies in either program first. All candidates must register for classes during the regular registration period for the respective program. Additionally, joint degree pathway students must register for a course or courses in their second degree no later than the semester commencing the second half of their first degree program.

(5) Joint degree candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate. Subject to prior approval, graduate students are normally allowed six (6) credit hours from graduate level courses offered by other units of the University as counting toward single degrees.

(6) Candidates in the joint degree pathway will be eligible for graduate teaching assistantships, graduate research assistantships, and scholarships in the Chapman Graduate School of Business and Latin American and Caribbean Center on the same basis as other graduate students, subject to the guidelines and restrictions set by either program.

(7) Future changes to the MA inLACS/MBA joint degree pathway must be endorsed by the College of Business Faculty Curriculum Committee and Associate Dean of the Chapman Graduate School of Business; the School of International and Public Affairs Faculty Curriculum Committee and Dean of the School of International a nd Public Affairs; and approved by the University Curriculum Committee, Graduate Council, the Faculty Senate, Dean of the University Graduate School, and the Provost.

For additional information, contact the Evening MBA office at (305) 348-0148 or the Latin American and Caribbean Center (LACC) at (305) 348-2894.

Other Curricular Offering: MA in Latin American and Caribbean Studies and PhD in Global and Sociocultural Studies Joint Degree Pathway

The combined MA in Latin American and Caribbean Studies (LACS)/PhD in Global and Sociocultural Studies joint degree pathway allows qualified graduate students to pursue both degrees at the same time. Students can develop an expertise in Latin American and Caribbean Studies while progressing towards a PhD in one of the three majors in the PhS in Global and Sociocultural Studies program: geography, sociology, or anthropology.

Degree Requirements for Master of Arts in Latin American and Caribbean Studies

The 30 credits earned for the MA in LACS will count towards the 75 credits required for the PhD in Global and Sociocultural Studies.

MA in LACS Core Courses: 9 credits

-- LAS6003 Survey Latin America
-- LAS6934 Lac Research Sem
-- ISS6305 Res Meth and Design OR ISS6317 Soc Res Quant Methods I

Department Courses or Area of Focus: 12 to 15 credits (These must include courses Required for GSS Pathway)

-- ISS6346 Theory and Inquiry
-- ISS6305 Res Meth and Design OR ISS6317 Soc Res Quant Methods I
-- ISS6306 Proposal Writing

Breadth Requirements: 3 credits

Students select three credits from the MA in LACS approved course list.

MA in LACS Research Proposal

To graduate from the MA in LACS program, students enrolled in this combined MA/PhD joint degree pathway must take ISS6306 Proposal Writing during the semester prior to enrolling in the required exit options in the MA in LACS program.

MA in LACS Exit Options: 3 to 6 credits

Students select one of the following options:

-- LAS6970 Thesis: 6 credits (Students complete a thesis paper supervised by three committee members. All members of the committee must have FIU Graduate Faculty status.)

or

-- LAS6942 Lac Internship: 3 credits (Supervised internship leading to a major research paper in Latin American and Caribbean Studies.)

or

-- LAS6905 Lac Dir Rsch: 3 credits (Students complete one directed research paper of about 35 -40 pages.)

MA in LACS Language Requirement

Students must demonstrate proficiency in a language other than English according to the nature of their thesis or research paper/proposal and professional interests.

Application for Graduation from MA in LACS Program

Students should apply for graduation for the MA in LACS degree as soon as they have completed all requirements for the degree – including the exit option. Ordinarily, the MA will be conferred before the student advances to candidacy in the PhD in Global and Sociocultural Studies program.

Matriculation to PhD in Global and Sociocultral Studies

All students must undergo a successful MA review upon completion of the MA in LACS program requirements in order to continue toward the PhD in Global and Sociocultural Studies. The Global and Sociocultural Studies Graduate Committee, along with an appointee from the Latin American and Caribbean Center, conducts these reviews. The purpose of the MA review is to determine the ability of the student to do PhD-level work with the department's faculty. Among the information considered during the review are a student's overall performance, grades in courses, and faculty recommendations.

Degree Requirements for PhD in Global and Sociocultural Studies

The PhD in Global and Sociocultural Studies requires a minimum of 75 credits beyond the baccalaureate including a dissertation based on original research. 30 credits of the MA in LACS program will count toward the 75-credit minimum. Thus, a minimum of 45 credits must be earned beyond the MA degree.

Major Courses: 33 credits

All doctoral students will choose a major in Anthropology, Geography, or Sociology. The following distribution of coursework is required.

(a) Major theory: 3 credits

(b) Major methods: 3 credits

(c) Major course electives: 6 credits minimum

(d) Exam and dissertation credits

-- Doctoral Exam Preparation: 6 credits maximum
-- Doctoral Dissertation: 15 credits minimum

General Electives: 6 credits

Global and Sociocultural Studies and non-Global and Sociocultural Studies department electives

PhD General Examination

After successfully completing the common core requirements, the major's course requirements, and electives, a student prepares for the PhD General Exam by enrolling in a maximum of six credits of exam preparation for their major. In preparation for the exam, a student forms a dissertation committee according to the regulations published on the University Graduate School web page (http://gradschool.fiu.edu). The PhD General Exam addresses the student's anticipated dissertation topic and is conducted according to the University Graduate School Policies and Procedures Manual and the Department's PhD General Exam guidelines.

The Dissertation Proposal and Defense/Candidacy Exam

After passing the PhD General Exam, a student works under the guidance of the dissertation committee to prepare a dissertation proposal and defend it orally before the committee. The chair of the dissertation committee must hold Dissertation Advisor Status from the University Graduate School. The proposal defense serves as the doctoral candidacy exam for the PhD n Global and Sociocultural Studies program. Upon passing the proposal defense, a student is admitted to candidacy status.

The Dissertation and Dissertation Defense

After successfully defending a dissertation proposal, a student conducts the proposed research and completes a dissertation under the guidance of a dissertation committee. Only after successfully defending the dissertation proposal may a student register for dissertation credits (ANG 7980, GEO 7980, or SYA 7980). The PhD program requires a student to be continuously enrolled in a minimum of 3 credits of Doctoral Dissertation each semester from the time of advancement to candidacy until completion of the dissertation, including summers. Upon completion of the dissertation manuscript and authorization by the committee, a student defends the dissertation before the committee and the university community. The University Graduate School's regulations governing the dissertation are described at http://gradschool.fiu.edu.

Other Curricular Offering: Master of Arts in Latin American and Caribbean Studies and PhD in History Joint Degree Pathway

The combined MA in Latin American and Caribbean Studies/PhD in History joint degree pathway allows qualified graduate students to complete the MA in Latin American and Caribbean Studies (LACS) en route to the PhD in History. Capitalizing on the intellectual affinities between the graduate programs in Latin American and Caribbean Studies and in Atlantic History, the pathway allows students to enroll simultaneously in both programs and to count 30 credits of coursework toward fulfillment of the requirements for both graduate degrees. The MA program provides a multi-disciplinary perspective on the region as well as deep expertise on the region's history, culture, and political economy while the PhD in History with a focus on Atlantic History is aimed at honing students' skills in historical methods while training them to approach individual nations and regions of Latin America and the Caribbean as sites of broader exchanges along the Atlantic corridor.

Degree Requirements for MA in Latin America and Caribbean Studies

Thirty graduate credits are required for the MA in LACS, including 9 credits of core courses, 15 credits within an area of focus, 3 credits of breadth courses, and 3 credits for the directed research paper or internship exit options. There is also a foreign language requirement. The thesis exit option requires 6 credits, but reduces the area of focus requirement to 12 credits.

MA in LACS Core Courses: 9 credits

-- LAS6003 Survey Latin America
-- LAS6934 Lac Research Sem
-- HIS6059 Historical Methods

MA in LACS Focus Courses: (12 to 15 credits total depending on the exit option)

-- LAH6932 Rsch Lat Amer Hist I
-- LAH6933 Rsch Lat Amer Hist II

9 credits from the following list:

-- LAH5905 Rdgs In L.A. Hist
-- LAH5935 Topics In L.A. Hist
-- LAH6906 Adv Rdgs Lat Am His
-- LAH6915 Rsch In L.A. Hist

MA in LACS Breadth Courses: 3 credits from other areas

MA in LACS Exit Option for Combined Degree Pathway: 3 to 6 credits

Students select one of the following options:

-- LAS6970 Thesis: 6 credits (Students complete a thesis paper supervised by three committee members. All members of the committee must have FIU Graduate Faculty status.)

or

-- LAS6942 Lac Internship: 3 credits (Supervised internship leading to a major research paper in Latin American and Caribbean Studies.)

or

-- LAS6905 Lac Dir Rsch: 3 credits (Students complete one directed research paper of about 35 -40 pages.)

MA in LACS Language Requirement

Each student is required to demonstrate proficiency in either Spanish or Portuguese, or in another language such as French or Haitian Creole when justified by research interests. Proficiency is demonstrated by scoring an advanced level on the ACTFL exam for Spanish, Portuguese, or French administered by FIU's Department of Modern Languages. Other tests of proficiency may be accepted upon approval of the graduate advisor.

Application for Graduation from MA in LACS

Students should apply for graduation for the MA in LACS as soon as they have completed all requirements for the degree – including the exit option. Ordinarily, the MA will be conferred before the student advances to candidacy in the PhD in History program.

PhD in History Requirements

Students will begin study towards the PhD in History immediately following their satisfactory completion of MA in LACS degree requirements. Students are expected to meet all the degree requirements for the PhD in History, which requires a total of 75 credits.

Courses required in addition to the degree requirements for the MA in Latin American and Caribbean Studies (minimum 45 credits)

-- HIS6906 Adv Rdgs Atl Civ: 3 credits
-- HIS6918 Rsch Atlantic Civ: 3 credits
-- 3 credits in Latin American and Caribbean Studies
-- 9 credits outside of Latin American and Caribbean Studies and Atlantic Civilization (also excluding Methods), 3 credits of which must be in a comparative course (HIS or WOH prefix)
-- Electives: 12 credits
-- HIS7980 PH.D. Dissertation : 15 credits

Language Requirements

All students must acquire reading competence in two languages other than English. The language requirement may be fulfilled in one of two ways: (1) achieving a High Pass on the department examination in one language, and at least a Pass on the second; or (2) achieving a Pass or High Pass in departmental examination in one language, and competency in social science quantitative skills, demonstrated by receiving a grade of “B” or “B+” for Pass and “A” or “A-“ for High pass in an appropriate course approved for this purpose by the Graduate Program Director. At least one High Pass must be received. Language requirements vary according to the concentration fields. In cases where the dissertation will be in the history of United States or English-speaking countries, one language plus the quantitative skill is sufficient. In Latin American history, either Spanish or Portuguese and a second language appropriate to the student’s field are required. Language exams will be graded on a High Pass, Pass, and Fail basis; a High pass is required in the student’s primary language. Students should check with the department’s Graduate Program Director to determine which languages are appropriate for their program of studies.

Comprehensive Examinations and the Dissertation

Following completion of all course work, satisfaction of language requirements, and the constitution of a dissertation committee, students will be required to pass a written and oral comprehensive examination. After the completion of their comprehensive examinations and the approval of a dissertation proposal by their dissertation committee, students will write a doctoral dissertation. The time needed for the research and writing of dissertations in History is variable, although doctoral candidates normally spend one year engaged in continuous field research and a second year in full-time writing.

Restrictions

(1) A grade of “B” or better is required for graduate credit.

(2) At the end of the second semester of residence, or upon completion of the first 18 credits of course work, the Graduate Committee will examine and evaluate the student’s progress. Professors will provide detailed written evaluations of the work of all first-year PhD students they have taught. Students whose progress is deemed insufficient will be advised to withdraw from the program.

(3) No more than 6 credits of Topics (course number 5935) courses toward meeting the degree requirements, without permission of the Graduate Program Director.

(4) No more than 6 credits of HIS5908 Independent Studies toward meeting the degree requirements, without permission of the Graduate Program Director.

Other Curricular Offering: MA in Latin American and Caribbean Studies and PhD in International Relations Joint Degree Pathway

The combined MA in Latin American and Caribbean Studies (LACS)/PhD in International Relations joint degree pathway allows qualified graduate students to pursue graduate degrees in both areas simultaneously rather than sequentially. Students must fulfill the requirements for both programs, and up to 30 credits completed as part of the MA in MALACS will be counted toward the 75 credits required for the PhD in International Relations.

Masters of Arts in Latin America and Caribbean Studies Degree Requirements: 30 credits

During their first two years of enrollment in the joint degree pathway, students must complete 30 credits for the MA in LACS with depth or focus courses in International Relations.

MA in LACS Core Courses: 9 credits

During their first two years of enrollment in this joint degree pathway, students take three core courses as follows:

-- LAS6003 Survey Latin America: 3 credits (first year, fall semester)
-- LAS6934 Lac Research Sem: 3 credits (first year, spring semester)
-- INR5615 Research Design Inr: 3 credits

MA in LACS Focus Courses: 12 to 15 credits

Students will take a minimum of 12 to 15 credits within the Department of Politics and International Relations with a Latin American and/or Caribbean focus.

MA in LACS Breadth Courses: 3 credits

Student may take courses from other areas.

MA in LACS Exit Option for Joint Degree Pathway: 3 to 6 credits

Students select one of the following options:

-- LAS6970 Thesis: 6 credits (Students complete a thesis paper supervised by three committee members. All members of the committee must have FIU Graduate Faculty status.)

or

-- LAS6942 Lac Internship: 3 credits (Supervised internship leading to a major research paper in Latin American and Caribbean Studies.)

or

-- LAS6905 Lac Dir Rsch: 3 credits (Students complete one directed research paper of about 35 -40 pages.)

MA in LACS Language Requirement

Each student is required to demonstrate proficiency in either Spanish or Portuguese, or in another language such as French or Haitian Creole when justified by research interests. Proficiency is demonstrated by scoring an advanced level on the ACTFL exam for Spanish, Portuguese, or French administered by FIU's Department of Modern Languages. Other tests of proficiency may be accepted upon approval of the graduate advisor.

Application for Graduation from MA in LACS

Students should apply for graduation from the MA in LACS as soon as they have completed all requirements for the degree – including the exit requirements. Ordinarily, the MA will be conferred before the student advances to candidacy in the PhD in International Relations program.

PhD in International Relations Degree Requirements

Students will begin study towards the PhD in International Relations immediately following their satisfactory completion of MA in LACS requirements. A minimum of 45 credits beyond the 30 credits required for the MA in LACS degree will be necessary to satisfy the requirements of the PhD in International Relations program.

Core Courses: 15 credits

-- GEO6473 Space/Place/Identit: 3 credits
-- INR6604 Intl Rels Theory I: 3 credits
-- INR6608 Contemporary IR Theory: 3 credits
-- INR5609 Contemp Dynam INR: 3 credits
-- INR6706 Pol Econ Of Int Rel: 3 credits

12 Major Field credits in either:

(1) Global Institutions and Issues,

(2) Comparative Area Studies,

(3) Foreign Policy and Security Studies, or

(4) International Law.

With advisor approval, these 12 credits may include some or all of the coursework (except INR5615 Research Design Inr) taken in satisfaction of the requirements for the MA in LACS degree.

9 Minor Field credits in either:

(1) A second field from the above major field list, or

(2) A field offered within another PhD program at FIU (with approval of the Graduate Program Director), or

(3) A petition field (with approval of the Graduate Program Director).

With advisor approval, these 9 credits may include some or all of the coursework (except INR5615 Research Design Inr) taken in satisfaction of the requirements for the MA in LACS degree.

Elective Credits

Elective credits necessary to bring total credits earned beyond the MA in LACS degree to a minimum of 24.

Dissertation

15 credits of dissertation research.

Comprehensive Exams

After completing 60 credits of coursework (or in the semester in which they expect to do so), students may take their written comprehensive examinations on the core sequence and in both of their fields. Students must sit for these examinations within 6 months of completing the minimum 60 credits of coursework unless granted an extension by the International Relations Graduate Program Director.

Dissertation

Within 3 months of passing the comprehensive examinations, students should publicly present a dissertation proposal that is acceptable to a committee of at least four qualified scholars. Three members of the committee, including the dissertation supervisor, must be graduate faculty members of the Department of Politics and International Relations. One must be from outside the department, but inside FIU. Other members must be approved by the International Relations Graduate Program Director. To complete program requirements, PhD degree candidates must enroll for a minimum of 15 dissertation credits and maintain enrollment for 3 credits every semester until the degree is awarded.

Other Curricular Offering: MA in Latin American and Caribbean Studies to PhD in Political Science Joint Degree Pathway

The combined MA in Latin American and Caribbean Studies (LACS)/PhD in Political Science joint degree pathway allows qualified students to pursue graduate degrees in both areas simultaneously. Students must fulfill the requirements for both programs, and up to 30 credits completed as part of the MA in LACS will be counted toward the 76 credits required for the PhD in Political Science.

Masters of Arts in Latin America and Caribbean Studies Degree Requirements: 30 credits

During their first two years of enrollment in the joint degree pathway, students must complete 30 credits for the MA in LACS with depth or focus courses in Political Science.

MA in LACS Core Courses: 9 credits

During their first two years of enrollment in this joint degree pathway, students take three core courses as follows:

-- LAS6003 Survey Latin America: 3 credits (first year, fall semester)
-- LAS6934 Lac Research Sem: 3 credits (first year, spring semester)
-- POS5706 Methodology: 3 credits

MA in LACS Focus Courses: 12 to 15 credits

Students will take a minimum of 12 to 15 credits within the Department of Politics and International Relations with a Latin American and/or Caribbean focus.

MA in LACS Breadth Courses: 3 credits

Student can take courses from other areas.

MA in LACS Exit Option for Joint Degree Pathway: 3 to 6 credits

Students select one of the following options:

-- LAS6970 Thesis: 6 credits (Students complete a thesis paper supervised by three committee members. All members of the committee must have FIU Graduate Faculty status.)

or

-- LAS6942 Lac Internship: 3 credits (Supervised internship leading to a major research paper in Latin American and Caribbean Studies.)

or

-- LAS6905 Lac Dir Rsch: 3 credits (Students complete one directed research paper of about 35 -40 pages.)

MA in LACS Language Requirement

Each student is required to demonstrate proficiency in either Spanish or Portuguese, or in another language such as French or Haitian Creole when justified by research interests. Proficiency is demonstrated by scoring an advanced level on the ACTFL exam for Spanish, Portuguese, or French administered by FIU's Department of Modern Languages. Other tests of proficiency may be accepted upon approval of the graduate advisor.

Application for Graduation from MA in LACS

Students should apply for graduation from the MA in LACS as soon as they have completed all requirements for the degree – including the exit requirements. Ordinarily, the MA will be conferred before the student advances to candidacy in the PhD in Political Science program.

PhD in Political Science Degree Requirements

Students will begin study towards the PhD in Political Science immediately following their satisfactory completion of the MA in LACS requirements. A minimum of 46 credits beyond the 30 credits required for the MA in LACS degree will be necessary to satisfy the 76 credits required in the PhD in Political Science program.

Required Courses: 7 credits

-- POS5702 Teaching Pol Sci: 1 credit
-- POS5716 Found Pol Science: 3 credits
-- POS6918 Sem Research Mthds: 3 credits

Common Core Courses: 12 credits

-- CPO5091 Comp Politics: 3 credits
-- INR5007 Sem Int Politics: 3 credits
-- POS5045 Sem Us Politics: 3 credits
-- POT5007 Sem In Pol Theory: 3 credits

12 Credits in Two Examination Fields from the following:

(1) American Politics,

(2) Comparative Politics,

(3) International Politics, and

(4) Political Theory.

With advisor approval, these 12 credits may include some or all of the coursework (except POS5706 Methodology) taken in satisfaction of the requirements for the MA in LACS degree.

9 Credits in Third Area Specialization:

With advisor approval, these 9 credits may include some or all of the coursework (except POS5706 Methodology) taken in satisfaction of the requirements for the MA in LACS degree.

Elective Credits:

Elective credits necessary to bring total credits earned beyond the MA in LACS degree to a minimum of 40.

Dissertation:

24 credits of dissertation research.

Comprehensive Examination

After satisfactory completion of course work, students will take comprehensive exams in their two chosen sub-fields before being admitted to candidacy and defending a dissertation proposal. The comprehensive exams will cover core courses and broad knowledge of the two examination fields. They will be written and oral. Comprehensive examinations are given twice yearly, in mid-September and mid-January.

Dissertation: 24 credits minimum

After being admitted to candidacy, students enroll for dissertation credits under the supervision of their dissertation advisors. Candidates will prepare and defend a dissertation proposal. Upon completion of the dissertation itself, a public defense of the dissertation will be scheduled in accordance with university policy.

LAND:MLA - Master of Landscape Architecture

Overview

Degree Offered
MLA - Master of Landscape Architecture

Program Title
Landscape Architecture

The Master of Landscape Architecture (MLA) is a professional degree accredited by the Landscape Architectural Accreditation Board and STEM-designated by the Department of Homeland Security. The program engages applicants with a range of academic and cultural backgrounds, experiences, and interests. For post-baccalaureate students, the graduate degree can be earned via a 2-year or 3-year pathway. Students complete the program with the knowledge, skills, and competencies necessary to enter the profession of landscape architecture upon graduation. The curriculum emphasizes creativity, innovation, design expression, practical knowledge, and environmental stewardship. It includes courses on design, construction, ecology, history, theory, representation, and communication. Faculty are committed to excellence in teaching, creative activity, research, and scholarship. Graduates are ethically responsible, technically skilled, and creatively driven professionals and leaders who excel in analysis, planning, design, and management of the natural and built environment of tropical and subtropical landscapes.

The Landscape Architecture + Environmental and Urban Design Department also offers an Accelerated Master of Landscape Architecture for entering freshmen undergraduate students to complete the MLA in a 5-year or 6-year accelerated format. Information on that alternative can be found as the Accelerated Master of Landscape Architecture on the catalog program list.

For undergraduate students currently at FIU pursuing a degree program that has the flexibility of electives outside the area of study, see information under Admission Requirements for the Master of Landscape Architecture 4+2 Pathway. The requirements of this Other Curricular Offering can be found in the Requirements section: Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements.

For more information, visit the College of Communication, Architecture, and the Arts website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Master in Landscape Architecture (MLA)

All applicants must meet University graduate admissions requirements. Applicants must also submit a portfolio for departmental review that demonstrates the candidate's creative aptitudes. The design portfolio is evaluated based on a candidate's demonstrated sense of composition, attention to detail, graphic communication skills, expressive quality, and sense of space, accuracy, and observation.

Design portfolios may include two-dimensional storyboards (a sequence of still images that show a story), computer printouts, digital images, and photographs of three-dimensional models/projects.

Digital design portfolios should be formatted to fit on 8.5" x 11" pages within a single, multi-page PDF file. Please refer to the departmental website for submission details.

Portfolios submitted after the Application Deadline will be considered if studio space is available.

Students who have successfully completed the portfolio review process must also meet the minimum requirements of an undergraduate degree from an accredited college or university with undergraduate grade point average (GPA) of 3.0 on a 4.0 scale or hold a graduate degree from an accredited institution to be fully admitted into the graduate program. When the academic record is less than 3.0 GPA, the applicant must submit Graduate Record Examination (GRE) scores. Check the department website for updated application deadlines: http://carta.fiu.edu/landscape/academics/graduate/admissions/

Additional Information for Applicants

Students applying to the LAEUD should plan for the financial aspects of a design education. This includes the costs of computer hardware, software, travel and field trips, tools and equipment, drawing and modeling supplies. All students must have continued access to a laptop computer by purchasing, leasing, or other arrangements. For further information contact any of the School of Architecture Advisors.

Awards and Scholarships

The following scholarships and awards are presented yearly to students fully admitted to the Graduate Program in Landscape Architecture who have demonstrated outstanding achievements in their studies per the criteria noted.

The Savino & Miller Design Studio Diversity + Inclusion Landscape Architecture Endowed Scholarship. The fund advances the College's academic mission by supporting scholarships for students majoring in landscape architecture. The scholarship is awarded to students enrolled in or accepted for admission to the University who are majoring in landscape architecture. Recipients will be chosen principally based on academic performance by maintaining a GPA of 3.0 or higher with the intention of encouraging future Black/African American practitioners with financial need to apply.

The Ernest and Virginia Makemson Memorial Endowed Scholarship Fund. This fund provides support for students who have demonstrated interest and experience in restoring and preserving Florida's natural and cultural environment through the practice of landscape architecture.

The Latin American and Caribbean Graduate Fellowship Program scholarship which promotes international education and research between FIU and the countries of Latin America and the Caribbean and is overseen by the University Graduate School. Students must be a resident of Latin America or the Caribbean (including Puerto Rico and the U.S. Virgin Islands), fully admitted to a graduate degree, in good academic standing with an overall graduate GPA of 3.0 or better, and enrolled full-time.

American Society of Landscape Architects Student Honor and Merit Awards. On nomination by the Program faculty, the American Society of Landscape Architects awards these to the students who have demonstrated a high degree of academic scholarship and of accomplishments in skills related to the art and technology of landscape architecture.

The Olmsted Scholar Award. On nomination by the Program faculty, the Landscape Architecture Foundation recognizes one student from the program based on their past achievements and their future potential to influence the landscape architecture discipline.

The ARCC King Student Medal. Named in honor of the late Jonathan King, this award is given to one student in the FIU School of Architecture and is based upon criteria established by the Architectural Research Centers Consortium that acknowledge innovation, integrity, and scholarship in architectural and/or environmental design research.

Sigma Lambda Alpha Honor Society. Each year, upon nomination by the Program faculty, the Alpha Chi Chapter of the Sigma Lambda Alpha Honor Society inducts the outstanding students in the Program.

Admissions Requirements for the Master of Landscape Architecture 4+2 Pathway

This program is different from the Accelerated MLA for freshmen students found in its own catalog section. This offering is for students in any undergraduate program who plan to complete that degree. These undergraduate students' degree must include space for 12 elective credits to be eligible for the 4+2 degree pathway. Students will apply to the MLA program during their third year of undergraduate studies, after successfully completing 75 undergraduate credits. The undergraduate degree program advisor must confirm that these Landscape Architecture courses will count towards graduation and not result in excess credits.

Applicants must have an undergraduate GPA of 3.2 to be admitted into the 4+2 degree pathway.

Program Requirements

The Master of Landscape Architecture (MLA) provides professional degree paths within a rigorous academic framework intended for individuals with or without pre-professional degrees in landscape architecture. The MLA is structured into two paths, the Three-Year Path (MLA3) and the Two-Year Path (MLA2). Both are fully accredited by The Landscape Architectural Accreditation Board (LAAB), an autonomous committee of the American Society of Landscape Architects.

Ownership of Student Work

Student work submitted to the department in satisfaction of course or degree requirements becomes the physical property of the department. However, students retain all rights to the intellectual property of such work. This work may include papers, drawings, models, or other materials. The department assumes no responsibility for safeguarding such materials and at its discretion may retain, return, or discard such materials. Students must petition the department in writing for any deviation from these established policies.

Progression Requirements

No grade below a ‘C’ will be accepted for graduation in required courses or required electives.

Study Abroad

Study abroad is an important component of an MLA education. Our study abroad center is in Genoa, Italy, and is ideally situated in the historic center of the city in a renovated former convent dating from the 13th century. During the semester abroad option in Italy, students are afforded the opportunity to study artistic, architectural, landscape and interior spaces and artifacts that have long been acknowledged for their exceptional and enduring value. Other travel options are also available for shorter durations and vary by year, but have historically included travel to Spain, France, Mexico, the Bahamas, and Japan. Departmental approval is required for participation.

Thesis Requirement

Graduate students are required to undertake a Master’s Project or a Master’s Thesis as part of their course of study at the Landscape Architecture + Environmental & Urban Design department. Selection of Master’s Thesis requires departmental approval.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Three-Year Path

The Three-Year Path (MLA3) is a professional degree for individuals with a Bachelor of Arts or a Bachelor of Science or equivalent, from an accredited institution.

Three-Year Path Summer Leveling

Type
Prerequisite

Leveling Courses (Summer B Semester)

Leveling courses are required for students without a design background. These are in addition to degree requirements.

Complete ALL of the following Courses:

- LAA5605 - Design Foundations
- LAA5346 - Visual Notation in Landscape Architecture I
- LAA5371 - Computer Practices in Landscape Architecture 1

Three-Year Path Credit Hours: 84

Type
Completion Requirement

Typical Curriculum

Fulfill ALL of the following requirements:

First Year (Fall Semester)

Complete ALL of the following Courses:

- LAA5716 - History of Landscape Architecture
- LAA5374 - Computer Practices in Landscape Architecture 2
- LAA5653 - Landscape Architecture Graduate Design 1

AND

First Year (Spring Semester)

Complete ALL of the following Courses:

- LAA5541 - South Florida Landscapes
- LAA5381 - Computer Practices in Landscape Architecture 3
- LAA6654 - Landscape Architecture Graduate Design 2

AND

First Year (Summer Semester)

Complete ALL of the following Courses:

- LAA6382 - Analysis Methods

Directed Elective (3 credits)

AND

Second Year (Fall Semester)

Complete ALL of the following Courses:

- LAA6521 - Tropical Landscapes
- LAA6655 - Landscape Architecture Graduate Design 3
- LAA5423 - Landscape Construction

AND

Second Year (Spring Semester)

Complete ALL of the following Courses:

- LAA5235 - Theory of Landscape Architecture
- LAA6656 - Landscape Architecture Graduate Design 4
- LAA5422 - Landscape Development

AND

Second Year (Summer Semester)

Complete ALL of the following Courses:

- LAA6916 - Research Methods

Directed Elective (3 credits)

AND

Third Year (Fall Semester)

Complete ALL of the following Courses:

- LAA6910 - Graduate Seminar
- LAA6363 - Landscape Architecture Graduate Design 5

Directed Elective (3 credits)

AND

Third Year (Spring Semester)

Complete ALL of the following Courses:

- LAA5425 - Landscape Documentation
- LAA6215 - Professional Practice and Entrepreneurship in Landscape Architecture
- LAA6970 - Masters Project
  OR LAA6971 - Master's Thesis

**LAA6970 Masters Project or LAA6971 Master's Thesis: 6 credits*

**LAA6971 Master's Thesis: (Departmental Approval Required)*

Two-Year Path

The Two-Year Path (MLA2) is a first professional degree for individuals with an undergraduate degree in landscape architecture or architecture from an accredited program, or with a pre-professional undergraduate degree in landscape architecture or architecture. Admission to the two-year path is contingent upon review of applicant's portfolio and transcripts by department faculty to determine that applicants have demonstrated the knowledge and skills equivalent to students who have completed the first year of the MLA3.

Two-Year Path Credit Hours: 60

Type

Completion Requirement

Typical Curriculum

Typical for holders of Bachelor of Arts in Architecture or Bachelor of Design in Architectural Studies, if 24 credits of advanced standing are granted.

Fulfill ALL of the following requirements:

First Year (Fall Semester)

Complete ALL of the following Courses:

- LAA5716 - History of Landscape Architecture
- LAA5423 - Landscape Construction
- LAA6655 - Landscape Architecture Graduate Design 3

AND

First Year (Spring Semester)

Complete ALL of the following Courses:

- LAA5235 - Theory of Landscape Architecture
- LAA5541 - South Florida Landscapes
- LAA6656 - Landscape Architecture Graduate Design 4
- LAA5422 - Landscape Development

AND

First Year (Summer Semester)

Complete ALL of the following Courses:

- LAA6916 - Research Methods
- LAA6382 - Analysis Methods

Directed Elective (3 credits)

AND

Second Year (Fall Semester)

Complete ALL of the following Courses:

- LAA6521 - Tropical Landscapes
- LAA6910 - Graduate Seminar
- LAA6363 - Landscape Architecture Graduate Design 5

AND

Second Year (Spring Semester)

Complete ALL of the following Courses:

- LAA5425 - Landscape Documentation
- LAA6215 - Professional Practice and Entrepreneurship in Landscape Architecture
- LAA6970 - Masters Project
  OR LAA6971 - Master's Thesis

**LAA6970 Masters Project or LAA6971 Master's Thesis: 6 credits*

**LAA6971 Master's Thesis: (Departmental Approval Required)*

Other Curricular Offering: MLA 4+2 Pathway

Type

Completion Requirement

Leveling Courses (Summer B Semester)

The professionally accredited Master of Landscape Architecture (MLA) degree is 84 credits, of which 12 will be taken during the student's final undergraduate year and will count toward the student's bachelor's degree. Only 5000-level or higher courses are applicable.

For the first semester, students must take 9 credits during the summer between the student’s Junior and Senior years

Complete ALL of the following Courses:

- LAA5605 - Design Foundations
- LAA5346 - Visual Notation in Landscape Architecture I
- LAA5371 - Computer Practices in Landscape Architecture 1

First Year (Fall Semester)

6 Credits, to be taken during the student's final undergraduate year

Complete ALL of the following Courses:

- LAA5653 - Landscape Architecture Graduate Design 1

First Year (Spring Semester)

6 Credits, to be taken during the student's final undergraduate year

Complete ALL of the following Courses:

- LAA6654 - Landscape Architecture Graduate Design 2

First Year (Summer Semester)

Fulfill ALL of the following requirements:

First Year (Summer Semester): Part 1

Complete ALL of the following Courses:

- LAA6382 - Analysis Methods

AND

First Year (Summer Semester): Part 2

Directed elective (3 credits)

Second Year (Fall Semester)

Complete ALL of the following Courses:

- LAA5374 - Computer Practices in Landscape Architecture 2
- LAA5423 - Landscape Construction
- LAA6521 - Tropical Landscapes
- LAA6655 - Landscape Architecture Graduate Design 3

Second Year (Spring Semester)

Complete ALL of the following Courses:

- LAA5235 - Theory of Landscape Architecture
- LAA5381 - Computer Practices in Landscape Architecture 3
- LAA6656 - Landscape Architecture Graduate Design 4
- LAA5422 - Landscape Development

Second Year (Summer Semester)

Fulfill ALL of the following requirements:

Second Year (Summer Semester): Part 1

Complete ALL of the following Courses:

- LAA6916 - Research Methods

AND

Second Year (Summer Semester): Part 2

Directed elective (3 credits)

Third Year (Fall Semester)

Fulfill ALL of the following requirements:

Third Year (Fall Semester): Part 1

Complete ALL of the following Courses:

- LAA5716 - History of Landscape Architecture
- LAA6910 - Graduate Seminar
- LAA6363 - Landscape Architecture Graduate Design 5

AND

Third Year (Fall Semester): Part 2

Directive elective (3 credits)

Third Year (Spring Semester)

Complete ALL of the following Courses:

- LAA5425 - Landscape Documentation
- LAA5541 - South Florida Landscapes
- LAA6215 - Professional Practice and Entrepreneurship in Landscape Architecture
- LAA6970 - Masters Project

LANDXL:MLA - Accelerated Master of Landscape Architecture

Overview

Degree Offered
MLA - Master of Landscape Architecture

Program Title
Landscape Architecture

For students seeking to begin their professional design studies as undergraduates, the Landscape Architecture + Environmental & Urban Design Department offers the accelerated Master of Landscape Architecture (MLA), which provides a seamless course of study leading from undergraduate freshman year to the conferral of the professional Master of Landscape Architecture degree. The Accelerated MLA is comprised of 156 credit hours of integrated pre-graduate and graduate coursework. The degree consists of 72 credit hours of pre-graduate coursework which is taken over two years and is followed by 84 credit hours of graduate coursework which can be completed in either three or four years. The MLA is fully accredited by the Landscape Architectural Accreditation Board (LAAB), an autonomous committee of the American Society of Landscape Architects.

Admissions Requirements

Admissions for Undergraduate Students

Admissions decisions are made on a rolling basis as applications are completed and all supporting documents are received. You may apply as early as July of your senior year. In order to be scholarship eligible you must submit your Fall application by November 1. Check the department website for updated application deadlines: http://carta.fiu.edu/landscape/academics/undergraduate/admissions/

The department admits students once a year to begin their course work in the fall semester; therefore, it is recommended that interested applicants meet with a member of the college's Student Services and Advising Center during the Fall semester prior to the application deadline. Admission to the department is competitive and is not guaranteed. Admission will be offered based on space availability to those applicants judged by the department faculty committee to have the greatest potential for successful program completion.

The department offers professional degrees in Landscape Architecture. The curriculum is composed of two years of foundational, undergraduate coursework followed by three years of focused graduate course work leading to the accredited Master of Landscape Architecture (MLA) professional degree. The department does not award a pre-professional Bachelor's degree.

Undergraduate students may apply for admission into the first year or the third year of the program. Students of the program are considered undergraduate students until they have accumulated 120 credit hours; therefore, freshman and transfer applicants must apply to both FIU's Undergraduate Admissions Office and to the appropriate department as a two-part process via the links below:

- Undergraduate Admissions: http://admissions.fiu.edu

- Department of Landscape Architecture: http://carta.fiu.edu/landscape/

First-Year Admission Requirements

Applicants must meet the University's admission requirements and submit a design portfolio – please refer to the Design Portfolio Requirements section.

Third-Year Transfer Student Admission Requirements

Applicants for third year admission must meet the University's admission requirements and submit a design portfolio – please refer to the Design Portfolio Requirements section. Students who have completed an AA in architectural studies must meet the following requirements: minimum cumulative GPA of 3.0; completed design studio courses 1 through 4 with a grade of 'C' or better, as well as all undergraduate architecture pre-requisites (please refer to the transfer guide or contact an advisor for course equivalences); and be judged by the Faculty Admissions Committee to have passed a competitive portfolio review. Only grades of 'C' or higher (2.0 on a 4.0 grading scale) are accepted for transfer of applicable prerequisite and core courses from other institutions. No grade below a 'C' will be accepted for graduation in required courses or required electives.

Transfer Students: University policy allows the transfer of 60 lower division credits. Additional upper-division transfer credits may be accepted. For most transfer students it will be necessary to take a certain number of undergraduate credits at FIU to achieve the minimum required to satisfy the degree requirements. ART2330C DRAWING 01 may be waived with approved AA in Architectural studies.

Third-Year Native Student Admission Requirements

FIU undergraduate students who wish to change their major to landscape architecture should check program requirements and be advised by the college's undergraduate advisors in advance of applying for admission. Departmental approval is required.

Design Portfolio Requirements

All applicants must meet University admissions requirements. Applicants to the Landscape Architecture + Environmental and Urban Design Department degree programs must also submit a portfolio for departmental review that demonstrates the candidate's creative aptitudes. The design portfolio is evaluated based on a candidate's demonstrated sense of composition, attention to detail, graphic communication skills, expressive quality, and sense of space, accuracy, and observation.

Design portfolios may include two-dimensional storyboards (a sequence of still images that show a story), computer printouts, and photographs of three-dimensional models/projects.

Digital design portfolios should be formatted to fit on 8.5" x 11" pages within a single, multi-page PDF file. Please refer to the departmental website for submission details.

Portfolios submitted after the Application Deadline will be considered if studio space is available.

First-Year Design Portfolio Requirements

All candidates' design portfolios must include a one-page statement outlining your intentions, aspirations, and purpose in pursuing a professional degree in landscape architecture. In addition, all candidates' design portfolios require three freehand drawings based on accurate observations: (1) a drawing of a stair or stairs, (2) a drawing of a bicycle or bicycles or a part of a bicycle or bicycles, and (3) a drawing of your own choice. These drawings may be in ink, pencil, or charcoal. In addition to the three required freehand drawings, the first-year design portfolio may contain reproductions of a two or three-dimensional work.

Third-Year Design Portfolio Requirements

All candidates' design portfolios must include a one-page (maximum) statement outlining your intentions, aspirations, and purpose in pursuing a professional degree in landscape architecture. The design portfolio should include no more than 10 examples of your design work executed within the past five years. Examples include, but are not limited to, studies of buildings or landscapes that demonstrate your analytical ability. Recent art and/or design projects that the applicant completed in collaboration with others are acceptable if the example contains an explanation of the applicant's role in the process. Portfolios should not contain samples of architectural or interior design construction documents either by hand or by computer.

Additional Information for Applicants

Students applying to the LAEUD should plan for the financial aspects of a design education. This includes the costs of computer hardware, software, travel and field trips, tools and equipment, drawing and modeling supplies. All students must have continued access to a laptop computer by purchasing, leasing or other arrangements. For further information contact any of the School of Architecture Advisors.

Program Requirements

For students seeking to begin their professional design studies as undergraduates, the Landscape Architecture Department offers the accelerated Master of Landscape Architecture (MLA), which provides a seamless course of study leading from undergraduate freshman year to the conferral of the professional Master of Landscape Architecture degree, which is fully accredited by the Landscape Architectural Accreditation Board (LAAB), an autonomous committee of the American Society of Landscape Architects.

Ownership of Student Work

Student work submitted to the department in satisfaction of course or degree requirements becomes the physical property of the department. However, students retain all rights to the intellectual property of such work. This work may include papers, drawings, models, or other materials. The department assumes no responsibility for safeguarding such materials and at its discretion may retain, return, or discard such materials. Students must petition the department in writing for any deviation from these established policies.

Study Abroad

Study abroad is an important component of an MLA education. Our study abroad center is in Genoa, Italy, and is ideally situated in the historic center of the city in a renovated former convent dating from the 13th century. During the semester abroad option in Italy, students are afforded the opportunity to study artistic, architectural, landscape and interior spaces and artifacts that have long been acknowledged for their exceptional and enduring value. Other travel options are also available for shorter durations and vary by year, but have historically included travel to Spain, France, Mexico, the Bahamas, and Japan. Departmental approval is required for participation.

Pre-Graduate Preparation

Students should enroll in Lower Division design courses the first semester they attend FIU or their progress through the curriculum will be delayed. Seats for the Pre-Graduate course of study are limited and cannot be guaranteed to all students.

Progression Requirements

No grade below a ‘C’ will be accepted for graduation in required courses or required electives.

Undergraduate to Graduate Standing

Students will be evaluated for matriculation to graduate status based upon their graduate GPA at the end of the spring semester of their 4th year (provided they have earned a minimum of 120 total credits). The criteria listed below must be satisfied:

(1) A minimum of 120 earned credits (counting no more than 60 lower-division transfer credits),

(2) 3.0 or higher GPA in graduate level coursework (5000 level or higher), and

(3) Completion of undergraduate coursework.

No Bachelor's degree is awarded in the accelerated MLA degree path.

Degree Program Credit Hours: 156

Type

Completion Requirement

Pre-Graduate Level Course Requirements: 72 Credits

Fulfill ALL of the following requirements:

Required Courses: Part 1

Complete ALL of the following Courses:

- ARC1131 - Design Graphics 1
- ARC1132 - Design Graphics 2
- ARC1301 - Design Studio 1
- ARC1302 - Design Studio 2
- ARC2303 - Design Studio 3
- ARC2304 - Design Studio 4
- ARC1461 - Materials and Methods of Design
- ARC4586 - Structures 1
- ARC4586L - Structures 1 Lab
- ARC2701 - History of Design from Antiquity to the Middle Ages
- ARC2702 - History of Design from the Renaissance to the XIX Century
- ARC4058 - Fundamentals of Digital Design
- ART2330C - DRAWING 01: Gestures

AND

Required Courses: Part 2 (Communication)

Complete ALL of the following Courses:

- ENC1101 - Writing and Rhetoric I
- ENC1102 - Writing and Rhetoric II
- SPC2608 - Public Speaking

AND

Part 3: Required Courses (Environmental Context)

Complete ALL of the following Courses:

- MAC1114 - Trigonometry
- PHY2053 - Physics without Calculus I
- PHY2048L - General Physics Laboratory I
- EVR1017 - Global Environment and Society

AND

Part 4: Required Courses

In addition to the courses above, students select 14 credit hours from the UCC catalog or electives with Advisor's approval.

Graduate Level Course Requirements: 84 Credits

All accelerated MLA students must complete the following requirements or their equivalent. A minimum of 84 semester hours is required to graduate:

Complete ALL of the following Courses:

- LAA5653 - Landscape Architecture Graduate Design 1
- LAA6654 - Landscape Architecture Graduate Design 2
- LAA6655 - Landscape Architecture Graduate Design 3
- LAA6656 - Landscape Architecture Graduate Design 4
- LAA6363 - Landscape Architecture Graduate Design 5
- LAA5716 - History of Landscape Architecture
- LAA5374 - Computer Practices in Landscape Architecture 2
- LAA5541 - South Florida Landscapes
- LAA5381 - Computer Practices in Landscape Architecture 3
- LAA6382 - Analysis Methods
- LAA6521 - Tropical Landscapes
- LAA5422 - Landscape Development
- LAA5425 - Landscape Documentation
- LAA5235 - Theory of Landscape Architecture
- LAA6916 - Research Methods
- LAA5423 - Landscape Construction
- LAA6910 - Graduate Seminar
- LAA6970 - Masters Project
  OR LAA6971 - Master's Thesis
- LAA6215 - Professional Practice and Entrepreneurship in Landscape Architecture

Directed Electives (9 credits)

**LAA6970 Masters Project or LAA6971 Master's Thesis: 6 credits*

Additional Comments:

LAW:JM - Juris Master

Overview

Degree Offered
JMAST - Juris Master

Program Title
Law

The Juris Master is an advanced degree program in law and compliance for non-lawyers; the program provides specialized knowledge and skills in highly regulated industries. The program's curriculum helps professionals in administrative functions (e.g., compliance, operations, and human resources) better understand the regulatory environment and general business governance in their field of study. Students will develop critical thinking and legal writing skills; gain foundational knowledge of legal principles and how law effects business decisions; and improve professional skills needed for competent and ethical decision-making within their field of study.

For more information, visit the College of Law website.

Requirements

Simple Requirements

Admissions Requirements

Admission to the J.M. program will be based on the following factors:

(1) Undergraduate GPA;

(2) Professional and academic background;

(3) Personal statement (essay or statement of interest);

(4) Professional and academic references; and

(5) Graduate degree or LSAT, GRE, GMAT or MCAT score report.

The candidate for the J.M. degree must have a bachelor's degree from an accredited U.S. institution, or a comparable degree from an international institution, with a minimum 3.0 (on a 4.0 scale) grade point average (GPA) in all work attempted while registered as an upper-division undergraduate student. Alternatively, the candidate must have received a graduate degree from an accredited U.S. institution, or a comparable degree from an international institution. Any international degree would need to be evaluated to be determined equivalent. The J.M. Admission Committee will have

discretion to waive the GPA minimum if the candidate's achievements in activities after receiving the bachelor's degree suggest a high likelihood of success in the J.M. program. Candidates may not have completed or currently be enrolled in a professional law degree program.

Acceptance into the program will be based on the candidate's standardized test scores, academic training and professional background, a personal statement, and professional references. For students from non-English speaking countries, demonstrated proficiency in English (at a level needed to comprehend lectures, class discussion, and reading assignments in law) will be required. TOEFL scores for non-English speakers will be assessed, unless the applicant submits a TOEFL Waiver Request from in order to be evaluated for a waiver to the TOEFL requirement.

Program Requirements

Degree Program Credit Hours: 30

Type
Completion Requirement

Required Core Courses: 17 credits

The full-time J.M. candidate will take 9 credits in the fall, 11 credits in the spring, and 10 credits in the summer, to complete the program within one year. Students may elect to complete the program on a part-time basis by taking fewer credits per semester. The sequence of courses will be as follows:

Complete ALL of the following Courses:

- JRM6300 - Introduction to American Law
- JRM6710 - Legal Analysis and Writing
- JRM6010 - Contracts and Business Law
- JRM6700 - Torts and Criminal Wrongs
- JRM6091 - Introduction to Regulatory Compliance

Choose one concentrations:

Student must choose a concentration. Information about concentrations is included in the "Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements" section.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Choose one of the following concentrations:

Type
Completion Requirement

Advanced Legal Skills and Litigation Management Concentration: 13 credits

Complete ALL of the following Courses:

- JRM6352 - Legal Procedures and the Legal System
- JRM6350 - Litigation Management and Legal Technology
- JRM6401 - Conflict Resolution: Beyond Litigation
- JRM6820 - Discovery and e-Discovery
- JRM6720 - Family Relations Law
  OR JRM6030 - Real Estate Law

Health Law Concentration: 13 credits

Complete ALL of the following Courses:

- JRM6120 - Public Health and the Law
- JRM6100 - Regulation of Medical Institutions
- JRM6110 - Medicare and Medicaid Law
- JRM6070 - Regulation of Health Insurance

Banking & Finance Law Concentration: 13 credits

Complete ALL of the following Courses:

- JRM6080 - Banking and Finance Regulation
- JRM6081 - Bank Secrecy Act and Anti-Money Laundering Law Part I
- JRM6082 - Bank Secrecy Act and Anti-Money Laundering Law Part II
- JRM6083 - Consumer and Commercial Lending Regulations
- JRM6084 - Consumer Financial Services Regulation

Employment & Labor Law Concentration: 13 credits

Complete ALL of the following Courses:

- JRM6402 - Conflict Prevention and Resolution in the Workplace
- JRM6542 - Harassment in the Workplace
- JRM6545 - Legal Issues in the Workplace
- JRM6543 - Remedies in the Workplace

Education Law Concentration: 13 credits

Complete ALL of the following Courses:

- JRM6580 - Legal Developments in Education
- JRM6581 - Education Regulation and Legislation (No Child Left Behind)
- JRM6541 - Legal Developments in Disability Law
- JRM6582 - Student Privacy and Education Records

LAWDAY:JD - Juris Doctor (Day)

Overview

Degree Offered
JD - Juris Doctor

Program Title
Law

The Juris Doctor (JD) degree program delivers a personalized education with access to “real-world” experiences. The rigorous program prepares students to research, analyze, and communicate legal concepts precisely, think critically, and advocate persuasively. The program consists of both a full-time day division and a part-time evening division. In addition to the core courses offered by nearly all U.S. law schools, the College of Law builds on FIU’s international distinction by incorporating important developments in the globalization of both public and private law, including a required first-year course on international and comparative law. Faculty members are actively engaged in research in their respective areas of expertise and are committed to excellence in both teaching and scholarship. The scholarly mission of the College of Law enriches classroom teaching and learning; contributes to the understanding, development, and reform of the law; and promotes the university’s mission as one of the nation’s leading urban public research institutions.

Admissions Requirements

Admissions Requirements for the Juris Doctor (JD)

Application Procedures
Read the following instructions carefully before completing the application. To apply for admission you must provide the following documents before the application deadline. Applications for admission will not be processed more than one year in advance of the date for which entrance is sought.

(1) **Application for Admission:** A completed Application for Admission must be accompanied by a $20.00 nonrefundable application fee. The application must be completed in full and signed. Completed applications will be considered on a rolling basis beginning mid September/early October. The deadline for submission of a completed application is June 30. Applications received or completed after this date will be considered as class space permits.

How to apply:

--Visit LSAC.org and create an account.

--Follow the links to retrieve our application from the list of all ABA accredited law schools.

--Supplemental documents may be attached to your LSAC application. If you need to submit additional electronic documentation after submitting your application, you may do so by emailing them to lawadmit@fiu.edu

--For questions or problems with your account please contact LSAC via e-mail at LSACinfo@LSAC.org or call 215.968.1001.

(2) **Test Scores:** All Applicants seeking admission to FIU Law must take the Law School Admission Test (LSAT) or GRE.

--Admissions Test Scores (LSAT) **–** Applicants can choose to take the Law School Admission Test (LSAT) and register with the LSAC Credential Assembly Service (CAS). FIU Law will not accept LSAT scores earned prior to June 2020. Students must sit for the LSAT no later than June to be considered for admission in August of the same year.

--Admissions Test Scores (GRE): Applicants sitting for the GRE, should select Florida International University College of Law as a recipient of the GRE results using the ETS school code: 4431. Applicants may submit either the LSAT or GRE as part of their application, but not both tests. If an applicant has an existing reportable LSAT score, a GRE score will not be considered in lieu of the existing LSAT. GRE scores may be utilized only when a reportable LSAT does not exist. To register for the GRE, visit their website here. Determine if you qualify for the GRE Fee Reduction Program. If you have any questions about utilizing a fee waiver, please contact GRE Institutional Services at GRE_Fee_Reducation@ets.org or 1-609-771-7092.

If you have already taken a GRE General Test, make sure there is a reportable GRE General Test score in your ETS account and order an Additional Score Report be sent to us. When registering, you may have already designated our College of Law as a recipient and a score report may automatically be sent to us. Students must sit for the GRE no later than June to be considered for admission in August of the same year.

NOTE: The Admissions Committee will consider your highest GRE score, but will see all your reportable scores *(Including the GRE and LSAT)*.

--Optional Test Score (JD Next): Applicants are encouraged to supplement their LSAT or GRE score with their JD-Next course completion. FIU Law will consider successful completion of the JD-Next course as part of the law school's holistic decision-making process. If you plan to include the JD-Next scores as a part of your application, please email us at lawadmit@fiu.edu to hold your application until the scores are received. You can learn more about JD-Next here: https://www.aspenpublishing.com/programs/jd-next

(3) **Official Transcripts:** Official transcript from each undergraduate, graduate and professional school you attended must be sent directly to LSAC. All candidates must have been awarded a baccalaureate degree from an accredited four-year institution prior to enrollment at FIU Law. Prior to matriculation, admitted students must request that their undergraduate, graduate and professional schools submit a final official transcript to FIU Law's Director of Admissions and to LSAC.

(4) **Academic Honors, Extracurricular Activities and Work Experience:** Applicants have the option of submitting a resume/curriculum vitae. Your resume/curriculum vitae should include examples of professional, academic, civic and extracurricular accomplishments (e.g. employment history, honors and awards, community service, extracurricular activities, foreign language proficiencies, military service, etc.).

(5) **Recommendations:** Applicants must submit one letter of recommendation, and may submit an additional letter if they desire. *We recommend that current college students or recent graduates submit an academic recommendation*. Letters of recommendation should attest to the applicant's character and preparedness for law school. FIU Law prefers that all letters of recommendation be submitted through LSAC.

(6) **Personal Statement:** The Admissions Committee requires a personal statement. In no more than three typed, double-spaced pages, please discuss your reasons for pursuing a legal education and your goals or future plans upon graduation. You may discuss any obstacles that you have overcome (for example, English is not your native language, discrimination, economic or family hardship, severe medical condition, etc.).

(7) **Interviews:** Interviews are not required for admission consideration and will not be factored into the Admissions Committee's final decision regarding your application. However, FIU Law encourages you to visit our community. Individual appointments and group informational sessions are scheduled throughout the year. To schedule a visit, please complete the campus visit reservation form.

(8) **Transfer Students:** Students attending an ABA accredited law school may apply for transfer to FIU Law if they are in good standing at their current institutions and their academic rank (if applicable) is in the upper-third of their first-year class. Transfer credit will not be awarded for correspondence courses or for work not done in residence at an ABA accredited law school.

(9) **International Candidates:** Foreign transcripts must be submitted to the Credential Assembly Service of the Law School Admission Council for transcript authentication and evaluation.

Candidates for whom English is not their first language must take the Test of English as a Foreign language (TOEFL). Information on the TOEFL may be found at www.ets.org/toefl.Scores must be sent directly to the FIU College of law Office of Admissions. Candidates who receive a 159 LSAT score or better may request a waiver of the TOEFL examination from the Office of Admissions.

Note: No transfer credit will be granted for previously completed coursework.

(10) **J.D. for Foreign Lawyers: J.D. with Advanced Standing (JDAS):** FIU Law offers the possibility of advanced standing for students who already hold a first degree in law from a country outside the United States. The J.D. with advanced standing program permits students to obtain credit for legal studies they have done elsewhere in the world. Students may receive up to 30 hours of credit towards the J.D. for prior legal studies in another country. Students may also receive credit towards the J.D. for coursework done while completing a graduate degree in law, such as an LL.M. here in the United States at an ABA accredited law school. The total amount of credit towards the J.D. is assessed on an individual basis.

(11) **Residency Classification:** This form (available here) must be completed in full if you claim Florida residency for tuition purposes. If you have any questions about the form or its contents please contact the Office of Admissions at 305.348.8006. **Please NOTE**: residency status will be updated ONLY if the applicant is admitted.

Committee Decision-Making Process

FIU Law's Admissions Committee seeks to enroll a group of students who have demonstrated academic and personal achievement. FIU Law wishes to advance the intellectual growth of its students as well as their development of skills and values useful to the ethical, professional, and effective practice of law.

A prospective student's academic record (undergrad GPA and LSAT or GRE score) weighs heavily in the evaluative process. In addition to these academic markers, the Admissions Committee also considers other factors, including leadership ability, commitment to public service, command of global issues, work history, military service, and any history of criminality or academic misconduct. Evidence of obstacles that an applicant may have overcome (English is not the applicant's native language, discrimination, economic or family hardship, severe medical condition) are also considered. The Admissions Committee encourages each applicant to answer all questions candidly and with specificity.

Qualifications for Admission to the Bar

At FIU Law, every effort is made to admit students of high moral character. FIU Law reserves the right to question an applicant concerning the applicant's prior record and conduct, insofar as it may be relevant to the character of the applicant.

In addition to a bar examination, there are character, fitness, and other qualifications for admission to the bar in every U.S. jurisdiction. Applicants are encouraged to determine the requirements for any jurisdiction in which they intend to seek admission by contacting the jurisdiction. Addresses for all relevant agencies are available through the National Conference of Bar Examiners.

You are *strongly encouraged* to fully disclose – to both FIU Law and to the state bar for which you are applying – any incident(s) which may have a bearing on your eligibility for admission into the College of Law or a state bar respectively. The failure to disclose any incident that may reasonably be deemed to reflect on an applicant's character and fitness to practice law may be viewed by both the Florida Board of Bar Examiners and FIU Law as a serious omission. Such omissions may be treated as a lack of candor on the part of the applicant, and may result in your application being rejected by FIU Law, or exclusions from the Florida Bar and other state bars.

Admissions Requirements for the JD and Master of Business Administration (MBA) Joint Degree Pathway

(1) Candidates for the pathway must meet the entrance requirements for and be accepted by both colleges. The College of Business may accept LSAT scores in lieu of GMAT or GRE scores for candidates from the College of Law as part of the admission requirement in the MBA. Both colleges must be informed by the student at the time of application to the second program that the student intends to pursue the joint degree.

(2) The joint degree pathway is not open to students who have already earned one degree.

Admissions Requirements for the JD and Master of International Business (MIB) Joint Degree Pathway

(1) Candidates for the pathway must meet the entrance requirements for and be accepted by both colleges. Both colleges must be informed by the student at the time of application to the second program that the student intends to pursue the joint degree.

(2) The joint degree pathway is not open to students who have already earned one degree.

Admissions Requirements for the JD and Master of Science (MS) in Construction Management Joint Degree Pathway

(1) Candidates for the pathway must meet the entrance requirements for and be accepted by both Colleges. Both Colleges must be informed by the student at the time of application to the second program that the student intends to pursue the dual degree.

(2) The joint degree pathway is not open to students who have already earned one degree.

Admissions Requirements for the JD and MS in Criminal Justice Joint Degree Pathway

(1) Candidates for the pathway must meet the entrance requirements for and be accepted by both programs. Both programs must be informed by the student at the time of application to the second program that the student intends to pursue the joint degree.

(2) The joint degree pathway is not open to students who have already earned a JD or a MSCJ.

(3) For law students, enrollment in the MSCJ program is required no later than the completion of 63 credit hours in the JD program. For MSCJ students, enrollment in the JD program is required no later than the completion of 24 credit hours in the MSCJ program.

Admissions Requirements for the JD and MS in Environmental Studies Joint Degree Pathway

(1) Candidates for the pathway must meet the entrance requirements for and be accepted by both colleges. Both colleges must be informed by the student at the time of application to the second program that the student intends to pursue the joint degree.

(2) The joint degree pathway is not open to students who have already earned one degree.

Admissions Requirements for the Juris Doctor (JD) and Master of Social Work (MSW) Joint Degree Pathway

(1) Candidates for the pathway must meet the entrance requirements for and be accepted by both the College of Law and the School of Social Work. Both schools must be informed by the student at the time of application to the second school that the student intends to pursue the joint degree pathway.

(2) The joint degree pathway is not open to students who have already earned one degree.

Program Requirements

Program Credit Hours: 90

Type

Completion Requirement

Foundation Curriculum

During the first year of law school, all day division, full-time students will complete 31 credit hours of the Foundation Curriculum as follows:

Fulfill ALL of the following requirements:

Fall semester:

Contracts, Constitutional Law, Torts, and Legal Skills & Values I

Complete ALL of the following Courses:

- LAW5000 - Contracts
- LAW5501 - Constitutional Law
- LAW5700 - Torts
- LAW5792 - Legal Skills & Values I

AND

Spring semester:

Civil Procedure, Criminal Law, Introduction to International and Comparative Law, Property, and Legal Skills and Values II

Complete ALL of the following Courses:

- LAW5300 - Civil Procedure
- LAW5100 - Criminal Law
- LAW5259 - Introduction to International and Comparative Law
- LAW5400 - Property
- LAW5793 - Legal Skills and Values II

Upper-Level Curriculum

After completing the Foundation Curriculum, students must also complete 59 credit hours of upper-level courses. Most of these courses are electives, but students must satisfy several upper-level requirements. These are the requirements that must be met:

Fulfill ALL of the following requirements:

Professional Responsibility:

Students must pass this course with a C or better.

Complete ALL of the following Courses:

- LAW6750 - Professional Responsibility

AND

Litigation and Alternative Dispute Resolution:

Students must take two courses that satisfy the litigation and alternative dispute resolution requirement.

Complete at least 2 of the following courses:

- LAW6106 - Death Penalty Clinic
- LAW6265 - International Litigation
- LAW6302 - Federal Courts
- LAW6305 - Remedies
- LAW6310 - Alternative Dispute Resolution
- LAW6330 - Evidence
- LAW6313 - Negotiation
- LAW6316 - International Commercial Arbitration
- LAW6317 - Conflict Management Practice-Comparative Perspectives of Negotiation
- LAW6361 - Pre-Trial Practice
- LAW6363 - Trial Advocacy
- LAW6372 - Advanced Appellate Advocacy
- LAW6383 - Mediation
- LAW6809 - Transnational Representation and Advocacy
- LAW6905 - Independent Study
- LAW6945 - Criminal Externship Placement
- LAW6948 - Business, Innovation and Technology Clinic
- LAW6949 - Civil Externship Placement
- LAW7225 - Transnational Disputes: Practicing Law in the Era of Globalization
- LAW7303 - Florida Civil Practice
- LAW7308 - Complex Litigation
- LAW7373 - Appellate Procedure
- LAW7510 - Civil Rights
- LAW7954 - Negotiation Competition
- LAW6936 - Seminars
- LAW6723 - Community Lawyering Clinic
- LAW7946 - Advanced Externship Placement
- LAW6947 - Semester in Practice Program
- LAW6713 - Domestic Arbitration

- LAW7942 - Prosecution Innocence Project

AND

International and Comparative Law:

Students must take at least one upper-level course that satisfies the international and comparative law requirement.

Complete at least 1 of the following courses:

- LAW6015 - International and Comparative Sales
- LAW6087 - International Banking
- LAW6103 - International Criminal Law
- LAW6222 - European Legal History
- LAW6226 - Legal History
- LAW6233 - Computer and Internet Law
- LAW6236 - Women and the Law: Comparative and Global Considerations
- LAW6250 - Comparative Law
- LAW6253 - Comparative Criminal Law
- LAW6254 - Comparative Family Law
- LAW6255 - Comparative Law: Constitutions and the Judicial Process
- LAW6260 - Public International Law
- LAW6261 - International Business Transactions
- LAW6263 - International Human Rights Law
- LAW6264 - Immigration Law
- LAW6265 - International Litigation
- LAW6281 - Latin American Private Law
- LAW6291 - Aviation and Space Law
- LAW6295 - International Organizations
- LAW6316 - International Commercial Arbitration
- LAW6317 - Conflict Management Practice-Comparative Perspectives of Negotiation
- LAW6340 - Conflicts of Law
- LAW6550 - Antitrust
- LAW6553 - Law and Development
- LAW6572 - Copyright Law
- LAW6574 - International Intellectual Property Law
- LAW6576 - Trademarks and Geographical Indications
- LAW6730 - Admiralty Law
- LAW6845 - Fashion and Design Law
- LAW6809 - Transnational Representation and Advocacy
- LAW6830 - Comparative Public Law: Government and Judicial Oversight
- LAW6831 - Comparative Property Law
- LAW6935 - Caribbean Law and Development
- LAW7225 - Transnational Disputes: Practicing Law in the Era of Globalization
- LAW7262 - International Trade Law and Policy
- LAW7268 - International Environmental Law
- LAW7285 - Profesion Juridica Comparada (Comparative Legal Profession)
- LAW7930 - Special Topics in Law
- LAW6936 - Seminars

- LAW6824 - International and Foreign Legal Research

AND

Legal Skills and Values III

Complete ALL of the following Courses:

- LAW6797 - Legal Skills and Values III

AND

Seminar:

Students must take a seminar involving a multi-draft writing project.

Complete ALL of the following Courses:

- LAW6936 - Seminars

AND

Community Service:

Students must also perform thirty (30) hours of community service.

AND

Experiential Learning:

Students are required to take at least six credits of experiential learning.

Earn at least 6 credits from the following:

- LAW6106 - Death Penalty Clinic
- LAW6310 - Alternative Dispute Resolution
- LAW6313 - Negotiation
- LAW6317 - Conflict Management Practice-Comparative Perspectives of Negotiation
- LAW6361 - Pre-Trial Practice
- LAW6363 - Trial Advocacy
- LAW6372 - Advanced Appellate Advocacy
- LAW6383 - Mediation
- LAW6723 - Community Lawyering Clinic
- LAW6800 - International Arbitration Competition
- LAW6809 - Transnational Representation and Advocacy
- LAW6943 - Carlos A. Costa Immigration and Human Rights Clinic
- LAW6945 - Criminal Externship Placement
- LAW6947 - Semester in Practice Program

- LAW6984 - Judicial Externship Placement
- LAW7225 - Transnational Disputes: Practicing Law in the Era of Globalization

- LAW7285 - Profesion Juridica Comparada (Comparative Legal Profession)
- LAW7364 - Advanced Trial Advocacy
- LAW7373 - Appellate Procedure
- LAW7942 - Prosecution Innocence Project
- LAW7944 - Advanced Legal Clinic
- LAW7946 - Advanced Externship Placement

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: JD and MA in Latin American and Caribbean Studies Joint Degree Pathway

An agreement approved by the University Graduate School, between the FIU College of Law and the Steven J. Green School of International and Public Affairs allows students to pursue simultaneously the Juris Doctor (JD) and MALACS degrees, thereby saving considerable time over pursuing each degree separately. Students must meet the entrance requirements for both the JD and MALACS programs. Fifteen credits from the law school curriculum will be allowed toward the MALACS program and will constitute a MALACS concentration in International and Comparative Law. Nine credits from the MALACS program will also count toward the law school curriculum requirements. All other requirements to receive either the JD or MALACS degree must be met. Additional information on the joint degree program is available on the College of Law and MALACS web sites.

Other Curricular Offering: JD and MBA Joint Degree Pathway

Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. Essential criteria relating to the joint degree pathway are as follows:

(1) For law students, enrollment in the MBA program is required no later than the completion of 63 credit hours in the JD program. For MBA students, enrollment in the JD program is required no later than the third semester after beginning the MBA program. For purposes of this paragraph, a summer session is counted as half a semester.

(2) A student must satisfy the curriculum requirements for each degree before either degree is awarded. The College of Business will allow 12 credit hours of upper level business and commercial law courses to be credited toward both the MBA and JD degrees. These 12 credit hours of law classes will be in lieu of the Legal Environment of Business course (3 credit hours) and three of the elective courses (totaling 9 credit hours) required for the MBA degree. A student may obtain a concentration in the MBA program in accordance with the College of Business curriculum requirements for concentrations. Reciprocally, law students may receive 9 hours of credit toward the satisfaction of the JD degree for courses taken in the MBA curriculum upon completion of the MBA degree with a grade point average of 3.0 or higher.

(3) A student enrolled in the joint degree pathway may begin the student's studies in either college, but full-time law students must take the first two semesters of law study consecutively and part-time law students must take the first three semesters of law study consecutively. Students admitted to one college but electing to begin study in the other college under the joint degree pathway may enter the second college thereafter without once again qualifying for admission so long as they have notified the second college before the end of the first week of the first semester in the second college and are in good academic standing when studies commence in the second college.

(4) A student enrolled in the joint degree pathway will not receive either degree until the student has satisfied all of the requirements for both degrees, or until the student has satisfied the requirements of one of the degrees as if the student had not been a joint degree pathway candidate.

(5) Students in the joint degree pathway will be eligible for the graduate teaching assistantships and research assistantships in the College of Business on the same basis as other MBA students, subject to the guidelines and restrictions set by the College of Business.

For additional information, contact the Chapman Graduate School of Business at (305) 348-0148 or the Law School Admissions Office at (305) 348-8006.

Other Curricular Offering: JD and MIB Joint Degree Pathway

The faculties of the College of Law and the College of Business at Florida International University have approved a joint degree pathway culminating in both a Juris Doctor (JD) degree, awarded by the College of Law, and a Master of International Business (MIB) degree, awarded by the College of Business. Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. Essential criteria relating to the joint degree pathway are as follows:

(1) For law students, enrollment in the MIB program is required no later than the completion of 63 credit hours in the JD program. For MIB students, enrollment in the JD program is required no later than the time that the student has completed one-half of the MIB curriculum.

(2) A student must satisfy the curriculum requirements for each degree before either degree is awarded. The College of Business will allow 9 credit hours of upper level international and comparative law courses to be credited toward both the MIB and JD degrees. These 9 credit hours of law classes will be in lieu of the International Business Law course (3 credit hours) and any two other courses (totaling 6 credit hours) in the MIB curriculum. Reciprocally, law students may receive 9 hours of credit toward the satisfaction of the JD degree for courses taken in the MIB curriculum upon completion of the MIB degree with a grade point average of 3.0 or higher.

(3) A student enrolled in the joint degree pathway may begin the student's studies in either college, but full-time law students must take the first two semesters of law study consecutively and part-time law students must take the first three semesters of law study consecutively. Students admitted to one college but electing to begin study in the other college under the joint degree pathway may enter the second college thereafter without once again qualifying for admission so long as they have notified the second college before the end of the first week of the first semester in the second college and are in good academic standing when studies commence in the second college.

(4) A student enrolled in the joint degree pathway will not receive either degree until the student has satisfied all of the requirements for both degrees, or until the student has satisfied the requirements of one of the degrees as if the student had not been a joint degree candidate.

(5) Students in the joint degree pathway will be eligible for the graduate teaching assistantships and research assistantships in the College of Business on the same basis as other MIB students, subject to the guidelines and restrictions set by the College of Business.

For additional information, contact the MIB office at (305) 348-3279 or the Law School Admissions Office at (305) 348-8006.

Other Curricular Offering: JD and MS in Construction Management Joint Degree Pathway

Florida International University (College of Engineering and Computing and College of Law) offers a joint degree pathway culminating in both a Juris Doctor degree, awarded by the College of Law, and a Master of Science in Construction Management (MSCM) degree, awarded by the College of Engineering and Computing.

Under this joint degree pathway, a student can obtain expertise in both fields (construction and law) in significantly less time than it would take to obtain both degrees if pursued consecutively.

Essential criteria relating to this joint degree pathway are as follows.

(1) For law students, enrollment in the MSCM program is required no later than the completion of 63 credit hours in the J.D. program. For MSCM students, enrollment in the J.D. program is required no later than the end of the first semester after beginning the MSCM program. (A summer session is counted as a full semester.)

(2) The College of Engineering and Computing will allow 9 credit hours of law courses to be credited toward both the MSCM and J.D. degrees. These [9] credit hours of law classes will be in lieu of the three elective courses required for the MSCM degree. Foundation courses must be completed as required and explained in the catalog and cannot be substituted with any College of Law courses. The students must have a minimum GPA of 3.0 in each of the three law courses for inclusion in their MSCM degree program. Reciprocally, law students may receive 9 hours of credit toward the satisfaction of the J.D. degree for courses taken in the MSCM curriculum upon completion of the MSCM degree curriculum with a grade point average of 3.0 or higher. These 9 credit hours of construction management courses will be in lieu of electives required for the J.D.

(3) A student enrolled in the joint degree pathway may begin the student's studies in either College, but full-time law students must take the first two semesters of law study consecutively and part-time law students must take the first three semesters of law study consecutively. Students enrolled in the MSCM program must be enrolled at least in one course in any given semester during his/her entire course of study. Students admitted to one College but electing to begin study in the other College under the joint degree pathway may enter the second College thereafter without once again qualifying for admission so long as they have notified the second College before the end of the first week of the first semester in the second College and are in good academic standing when studies commence in the second College.

(4) A student enrolled in the joint degree pathway can receive either degree if the student has satisfied all of the requirements for that degree.

Other Curricular Offering: JD and MS in Criminal Justice Joint Degree Pathway

The faculties of the College of Law and the Department of Criminology and Criminal Justice at Florida International University have approved a joint degree pathway culminating in both a Juris Doctor degree (JD), awarded by the College of Law, and a Master of Science in Criminal Justice degree (MSCJ), awarded by the Department of Criminology and Criminal Justice. Under the joint degree program, a student can obtain the degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. Essential criteria relating to the joint degree pathway are as follows:

(1) A student must satisfy the curriculum requirements for each degree before either degree is awarded. The Department of Criminology and Criminal Justice will allow 12 credit hours of College of Law criminal law and jurisprudence courses to be credited toward both the MSCJ and JD degrees. These 12 credit hours of law classes will be in lieu of four elective courses. Reciprocally, law students may receive 9 hours of credit toward the satisfaction of the JD degree for courses taken in the MSCJ curriculum upon completion of the MSCJ degree with a grade point average of 3.0 or higher. Subject to prior approval, law school students are normally allowed 6 credit hours from graduate level courses offered by other units of the University as counting toward the JD degree.

(2) A full-time law student enrolled in the joint degree pathway may spend the first year in either the College of Law or the Department of Criminology and Criminal Justice. A part-time law student enrolled in the joint degree pathway may begin the student’s studies in either program, but must take the first three semesters of law study consecutively. Students admitted to one program may enter the second program thereafter without once again qualifying for admission so long as they have notified the second program before the end of the first week of the first semester in the second program and are in good academic standing when studies commence in the second program.

(3) A student enrolled in the joint degree pathway will not receive either degree until the student has satisfied all of the requirements for both degrees, or until the student has satisfied the requirements of one of the degrees as if the student had not been a joint degree pathway candidates.

Other Curricular Offering: JD and MS in Environmental Studies Joint Degree Pathway

The faculties of the College of Law and the College of Arts, Sciences, and Education at Florida International University offer a joint degree pathway culminating in both a Juris Doctor (JD) degree, awarded by the College of Law, and a Master of Science in Environmental Studies (MS-ES) degree, awarded by the College of Arts, Sciences, and Education. Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. Essential criteria relating to the joint degree pathway are as follows:

(1) For law students, enrollment in the MS-ES program is required no later than the completion of 63 credit hours in the JD program. For MS-ES students, enrollment in the JD program is required no later than the completion of 24 credit hours in MS-ES program.

(2) A student must satisfy the curriculum requirements for each degree before either degree is awarded. For the MS-ES degree, students must meet the requirement of the non-thesis option. The College of Arts, Sciences, and Education will allow 6 credit hours of foundation law courses and up to 9 credit hours of upper level environmental law courses to be credited toward both the MS-ES and JD degrees. These law classes will count toward the non-EVR Environmental Studies elective credits allowed under the MS-ES non-thesis option program. Reciprocally, law students may receive 9 hours of credit toward the satisfaction of the JD degree for courses taken in the MS-ES curriculum upon completion of the MS-ES degree curriculum with a grade point average of 3.0 or higher.

(3) The College of Arts, Sciences and Education will recognize any significant, environment-related law review or research project completed with a letter grade of ‘B’ or better for the JD program toward the 3 credit hour course, EVR5907 Independent Study and the attendant ‘Project’ required for the MS-ES non-thesis option program. For the purpose of this program, a project is defined as a substantial analysis and proposal for change of a real-world environmental problem, and requires preparation of a report and presentation as part of the required Environmental Studies Graduate Seminar class.

(4) A student enrolled in the joint degree pathway may begin the student’s studies in either college, but full time law students must take the first two semesters of law study consecutively and part-time law students must take the first three semesters of law study consecutively. Students admitted to one college but electing to begin study in the other college under the joint degree pathway may enter the second college thereafter without once again qualifying for admission so long as they have notified the second college before the end of the first week of the first semester in the second college and are in good academic standing when studies commence in the second college.

(5) A student enrolled in the joint degree pathway will not receive either degree until the student has satisfied all of the requirements for both degrees, or until the student has satisfied the requirements of one of the degrees as if the student had not been a joint degree candidate.

(6) As non-thesis option MS-ES students, students in the joint degree pathway will not normally be eligible for the graduate teaching assistantships in the Environmental Studies Department.

Other Curricular Offering: JD and MSW Joint Degree Pathway

For law students, enrollment in the M.S.W. program is required no later than the completion of 63 credit hours in the J.D. program. For M.S.W. students, enrollment in the J.D. program is required no later than the completion of 30 credit hours in MSW Program.

A student must satisfy the curriculum requirements for each degree before either degree is awarded. The School of Social Work will allow 9 credit hours of approved law courses to be credited toward both the M.S.W. and J.D. degrees. These 9 credit hours of law classes will be in lieu of Social Work electives and must be selected from an approved list of law classes. Reciprocally, law students may receive 9 hours of credit toward the satisfaction of the J.D. degree for courses taken in the M.S.W. curriculum upon completion of the M.S.W. degree curriculum with a grade point average of 3.0 or higher.

A full-time law student enrolled in the joint degree pathway may spend the first year in either the College of Law or the School of Social Work. A part-time law student enrolled in the joint degree pathway may begin the student's studies in either the College of Law or the School of Social Work, but must take the first three semesters of law study consecutively. Students admitted to one school but electing to begin study in the other school under the joint degree program may enter the second school thereafter without once again qualifying for admission so long as they have notified the second school before the end of the first week of the first semester in the second school and are in good academic standing when studies commence in the second school.

A student enrolled in the joint degree pathway will not receive either degree until the student has satisfied all of the requirements for both degrees, or until the student has satisfied the requirements of one of the degrees as if the student had not been a joint degree pathway candidate.

LAWDAY:LLM - Master of Laws (Day)

Overview

Degree Offered
LL.M. - Master of Laws

Program Title
Master of Laws

The Master of Laws (LL.M) degree provides foreign lawyers with a solid foundation in United States and transnational law, and advanced research and writing skills in English, while also allowing them to tailor their coursework to their own professional goals by designing a personalized academic schedule that serves their needs. Upon completion of the LL.M curriculum, graduates will be equipped to prepare for the Bar exam needed to obtain a license to practice law in certain United States jurisdictions, to gain work experience through an Optional Practical Training (OPT), or to pursue other academic or professional endeavors.

LAWEVE:JD - Juris Doctor (Evening)

Overview

Degree Offered
JD - Juris Doctor

Program Title
Law

The Juris Doctor (JD) degree program delivers a personalized education with access to “real-world” experiences. The rigorous program prepares students to research, analyze, and communicate legal concepts precisely, think critically, and advocate persuasively. The program consists of both a full-time day division and a part-time evening division. In addition to the core courses offered by nearly all U.S. law schools, the College of Law builds on FIU’s international distinction by incorporating important developments in the globalization of both public and private law, including a required first-year course on international and comparative law. Faculty members are actively engaged in research in their respective areas of expertise and are committed to excellence in both teaching and scholarship. The scholarly mission of the College of Law enriches classroom teaching and learning; contributes to the understanding, development, and reform of the law; and promotes the university’s mission as one of the nation’s leading urban public research institutions.

Admissions Requirements

Admissions Requirements for the Juris Doctor (JD)

Application Procedures
Read the following instructions carefully before completing the application. To apply for admission you must provide the following documents before the application deadline. Applications for admission will not be processed more than one year in advance of the date for which entrance is sought.

(1) **Application for Admission:** A completed Application for Admission must be accompanied by a $20.00 nonrefundable application fee. The application must be completed in full and signed. Completed applications will be considered on a rolling basis beginning mid September/early October. The deadline for submission of a completed application is June 30. Applications received or completed after this date will be considered as class space permits.

How to apply:

--Visit LSAC.org and create an account.

--Follow the links to retrieve our application from the list of all ABA accredited law schools.

--Supplemental documents may be attached to your LSAC application. If you need to submit additional electronic documentation after submitting your application, you may do so by emailing them to lawadmit@fiu.edu

--For questions or problems with your account please contact LSAC via e-mail at LSACinfo@LSAC.org or call 215.968.1001.

(2) **Test Scores:** All Applicants seeking admission to FIU Law must take the Law School Admission Test (LSAT) or GRE.

--Admissions Test Scores (LSAT) **–** Applicants can choose to take the Law School Admission Test (LSAT) and register with the LSAC Credential Assembly Service (CAS). FIU Law will not accept LSAT scores earned prior to June 2020. Students must sit for the LSAT no later than June to be considered for admission in August of the same year.

--Admissions Test Scores (GRE): Applicants sitting for the GRE, should select Florida International University College of Law as a recipient of the GRE results using the ETS school code: 4431. Applicants may submit either the LSAT or GRE as part of their application, but not both tests. If an applicant has an existing reportable LSAT score, a GRE score will not be considered in lieu of the existing LSAT. GRE scores may be utilized only when a reportable LSAT does not exist. To register for the GRE, visit their website here. Determine if you qualify for the GRE Fee Reduction Program. If you have any questions about utilizing a fee waiver, please contact GRE Institutional Services at GRE_Fee_Reducation@ets.org or 1-609-771-7092.

If you have already taken a GRE General Test, make sure there is a reportable GRE General Test score in your ETS account and order an Additional Score Report be sent to us. When registering, you may have already designated our College of Law as a recipient and a score report may automatically be sent to us. Students must sit for the GRE no later than June to be considered for admission in August of the same year.

NOTE: The Admissions Committee will consider your highest GRE score, but will see all your reportable scores *(Including the GRE and LSAT)*.

--Optional Test Score (JD Next): Applicants are encouraged to supplement their LSAT or GRE score with their JD-Next course completion. FIU Law will consider successful completion of the JD-Next course as part of the law school's holistic decision-making process. If you plan to include the JD-Next scores as a part of your application, please email us at lawadmit@fiu.edu to hold your application until the scores are received. You can learn more about JD-Next here: https://www.aspenpublishing.com/programs/jd-next

(3) **Official Transcripts:** Official transcript from each undergraduate, graduate and professional school you attended must be sent directly to LSAC. All candidates must have been awarded a baccalaureate degree from an accredited four-year institution prior to enrollment at FIU Law. Prior to matriculation, admitted students must request that their undergraduate, graduate and professional schools submit a final official transcript to FIU Law's Director of Admissions and to LSAC.

(4) **Academic Honors, Extracurricular Activities and Work Experience:** Applicants have the option of submitting a resume/curriculum vitae. Your resume/curriculum vitae should include examples of professional, academic, civic and extracurricular accomplishments (e.g. employment history, honors and awards, community service, extracurricular activities, foreign language proficiencies, military service, etc.).

(5) **Recommendations:** Applicants must submit one letter of recommendation, and may submit an additional letter if they desire. *We recommend that current college students or recent graduates submit an academic recommendation*. Letters of recommendation should attest to the applicant's character and preparedness for law school. FIU Law prefers that all letters of recommendation be submitted through LSAC.

(6) **Personal Statement:** The Admissions Committee requires a personal statement. In no more than three typed, double-spaced pages, please discuss your reasons for pursuing a legal education and your goals or future plans upon graduation. You may discuss any obstacles that you have overcome (for example, English is not your native language, discrimination, economic or family hardship, severe medical condition, etc.).

(7) **Interviews:** Interviews are not required for admission consideration and will not be factored into the Admissions Committee's final decision regarding your application. However, FIU Law encourages you to visit our community. Individual appointments and group informational sessions are scheduled throughout the year. To schedule a visit, please complete the campus visit reservation form.

(8) **Transfer Students:** Students attending an ABA accredited law school may apply for transfer to FIU Law if they are in good standing at their current institutions and their academic rank (if applicable) is in the upper-third of their first-year class. Transfer credit will not be awarded for correspondence courses or for work not done in residence at an ABA accredited law school.

(9) **International Candidates:** Foreign transcripts must be submitted to the Credential Assembly Service of the Law School Admission Council for transcript authentication and evaluation.

Candidates for whom English is not their first language must take the Test of English as a Foreign language (TOEFL). Information on the TOEFL may be found at www.ets.org/toefl.Scores must be sent directly to the FIU College of law Office of Admissions. Candidates who receive a 159 LSAT score or better may request a waiver of the TOEFL examination from the Office of Admissions.

Note: No transfer credit will be granted for previously completed coursework.

(10) **J.D. for Foreign Lawyers: J.D. with Advanced Standing (JDAS):** FIU Law offers the possibility of advanced standing for students who already hold a first degree in law from a country outside the United States. The J.D. with advanced standing program permits students to obtain credit for legal studies they have done elsewhere in the world. Students may receive up to 30 hours of credit towards the J.D. for prior legal studies in another country. Students may also receive credit towards the J.D. for coursework done while completing a graduate degree in law, such as an LL.M. here in the United States at an ABA accredited law school. The total amount of credit towards the J.D. is assessed on an individual basis.

(11) **Residency Classification:** This form (available here) must be completed in full if you claim Florida residency for tuition purposes. If you have any questions about the form or its contents please contact the Office of Admissions at 305.348.8006. **Please NOTE**: residency status will be updated ONLY if the applicant is admitted.

Committee Decision-Making Process

FIU Law's Admissions Committee seeks to enroll a group of students who have demonstrated academic and personal achievement. FIU Law wishes to advance the intellectual growth of its students as well as their development of skills and values useful to the ethical, professional, and effective practice of law.

A prospective student's academic record (undergrad GPA and LSAT or GRE score) weighs heavily in the evaluative process. In addition to these academic markers, the Admissions Committee also considers other factors, including leadership ability, commitment to public service, command of global issues, work history, military service, and any history of criminality or academic misconduct. Evidence of obstacles that an applicant may have overcome (English is not the applicant's native language, discrimination, economic or family hardship, severe medical condition) are also considered. The Admissions Committee encourages each applicant to answer all questions candidly and with specificity.

Qualifications for Admission to the Bar

At FIU Law, every effort is made to admit students of high moral character. FIU Law reserves the right to question an applicant concerning the applicant's prior record and conduct, insofar as it may be relevant to the character of the applicant.

In addition to a bar examination, there are character, fitness, and other qualifications for admission to the bar in every U.S. jurisdiction. Applicants are encouraged to determine the requirements for any jurisdiction in which they intend to seek admission by contacting the jurisdiction. Addresses for all relevant agencies are available through the National Conference of Bar Examiners.

You are *strongly encouraged* to fully disclose – to both FIU Law and to the state bar for which you are applying – any incident(s) which may have a bearing on your eligibility for admission into the College of Law or a state bar respectively. The failure to disclose any incident that may reasonably be deemed to reflect on an applicant's character and fitness to practice law may be viewed by both the Florida Board of Bar Examiners and FIU Law as a serious omission. Such omissions may be treated as a lack of candor on the part of the applicant, and may result in your application being rejected by FIU Law, or exclusions from the Florida Bar and other state bars.

Admissions Requirements for the JD and Master of Business Administration (MBA) Joint Degree Pathway

(1) Candidates for the pathway must meet the entrance requirements for and be accepted by both colleges. The College of Business may accept LSAT scores in lieu of GMAT or GRE scores for candidates from the College of Law as part of the admission requirement in the MBA. Both colleges must be informed by the student at the time of application to the second program that the student intends to pursue the joint degree.

(2) The joint degree pathway is not open to students who have already earned one degree.

Admissions Requirements for the JD and Master of International Business (MIB) Joint Degree Pathway

(1) Candidates for the pathway must meet the entrance requirements for and be accepted by both colleges. Both colleges must be informed by the student at the time of application to the second program that the student intends to pursue the joint degree.

(2) The joint degree pathway is not open to students who have already earned one degree.

Admissions Requirements for the JD and Master of Science (MS) in Construction Management Joint Degree Pathway

(1) Candidates for the pathway must meet the entrance requirements for and be accepted by both Colleges. Both Colleges must be informed by the student at the time of application to the second program that the student intends to pursue the dual degree.

(2) The joint degree pathway is not open to students who have already earned one degree.

Admissions Requirements for the JD and MS in Criminal Justice Joint Degree Pathway

(1) Candidates for the pathway must meet the entrance requirements for and be accepted by both programs. Both programs must be informed by the student at the time of application to the second program that the student intends to pursue the joint degree.

(2) The joint degree pathway is not open to students who have already earned a JD or a MSCJ.

(3) For law students, enrollment in the MSCJ program is required no later than the completion of 63 credit hours in the JD program. For MSCJ students, enrollment in the JD program is required no later than the completion of 24 credit hours in the MSCJ program.

Admissions Requirements for the JD and MS in Environmental Studies Joint Degree Pathway

(1) Candidates for the pathway must meet the entrance requirements for and be accepted by both colleges. Both colleges must be informed by the student at the time of application to the second program that the student intends to pursue the joint degree.

(2) The joint degree pathway is not open to students who have already earned one degree.

Admissions Requirements for the Juris Doctor (JD) and Master of Social Work (MSW) Joint Degree Pathway

(1) Candidates for the pathway must meet the entrance requirements for and be accepted by both the College of Law and the School of Social Work. Both schools must be informed by the student at the time of application to the second school that the student intends to pursue the joint degree pathway.

(2) The joint degree pathway is not open to students who have already earned one degree.

Program Requirements

Program Credit Hours: 90

Type

Completion Requirement

Foundational Curriculum

Part-time, evening students will complete the 31 credit hours during the fall and spring semester of the first year, and the fall semester of the second year as follows:

Fulfill ALL of the following requirements:

Fall semester:

Contracts, Torts, and Legal Skills & Values I

Complete ALL of the following Courses:

- LAW5000 - Contracts
- LAW5700 - Torts
- LAW5792 - Legal Skills & Values I

AND

Spring semester:

Civil Procedure, Property, and Legal Skills and Values II

Complete ALL of the following Courses:

- LAW5300 - Civil Procedure
- LAW5400 - Property
- LAW5793 - Legal Skills and Values II

AND

Fall semester:

Constitutional Law, Criminal Law, and Introduction to International and Comparative Law

Complete ALL of the following Courses:

- LAW5501 - Constitutional Law
- LAW5100 - Criminal Law
- LAW5259 - Introduction to International and Comparative Law

FIU Law will offer summer courses outside the Foundation Curriculum for students who wish to earn credits in the summer after their first year.

Upper-Level Curriculum

After completing the Foundation Curriculum, students must also complete 59 credit hours of upper-level courses. Most of these courses are electives, but students must satisfy several upper-level requirements. These are the requirements that must be met:

Fulfill ALL of the following requirements:

Professional Responsibility:

Students must pass this course with a C or better.

Complete ALL of the following Courses:

- LAW6750 - Professional Responsibility

AND

Litigation and Alternative Dispute Resolution:

Students must take two courses that satisfy the litigation and alternative dispute resolution requirement.

Complete at least 2 of the following courses:

- LAW6106 - Death Penalty Clinic
- LAW6265 - International Litigation
- LAW6302 - Federal Courts
- LAW6305 - Remedies
- LAW6310 - Alternative Dispute Resolution
- LAW6313 - Negotiation
- LAW6316 - International Commercial Arbitration
- LAW6317 - Conflict Management Practice-Comparative Perspectives of Negotiation
- LAW6330 - Evidence
- LAW6361 - Pre-Trial Practice
- LAW6363 - Trial Advocacy
- LAW6372 - Advanced Appellate Advocacy
- LAW6383 - Mediation
- LAW6809 - Transnational Representation and Advocacy
- LAW6943 - Carlos A. Costa Immigration and Human Rights Clinic
- LAW6945 - Criminal Externship Placement
- LAW6948 - Business, Innovation and Technology Clinic
- LAW6949 - Civil Externship Placement
- LAW7225 - Transnational Disputes: Practicing Law in the Era of Globalization
- LAW7303 - Florida Civil Practice
- LAW7308 - Complex Litigation

- LAW7373 - Appellate Procedure
- LAW7510 - Civil Rights
- LAW6936 - Seminars
- LAW6723 - Community Lawyering Clinic
- LAW7946 - Advanced Externship Placement
- LAW6713 - Domestic Arbitration
- LAW6947 - Semester in Practice Program
- LAW7946 - Advanced Externship Placement
- LAW7942 - Prosecution Innocence Project

AND

International and Comparative Law:

Students must take at least one upper-level course that satisfies the international and comparative law requirement.

Complete at least 1 of the following courses:

- LAW6015 - International and Comparative Sales
- LAW6087 - International Banking
- LAW6103 - International Criminal Law
- LAW6222 - European Legal History
- LAW6226 - Legal History
- LAW6233 - Computer and Internet Law
- LAW6236 - Women and the Law: Comparative and Global Considerations
- LAW6250 - Comparative Law
- LAW6253 - Comparative Criminal Law
- LAW6254 - Comparative Family Law
- LAW6255 - Comparative Law: Constitutions and the Judicial Process
- LAW6260 - Public International Law
- LAW6261 - International Business Transactions
- LAW6263 - International Human Rights Law
- LAW6264 - Immigration Law
- LAW6265 - International Litigation
- LAW6281 - Latin American Private Law
- LAW6291 - Aviation and Space Law
- LAW6295 - International Organizations
- LAW6316 - International Commercial Arbitration
- LAW6317 - Conflict Management Practice-Comparative Perspectives of Negotiation
- LAW6340 - Conflicts of Law
- LAW6550 - Antitrust
- LAW6553 - Law and Development
- LAW6572 - Copyright Law
- LAW6574 - International Intellectual Property Law
- LAW6576 - Trademarks and Geographical Indications
- LAW6730 - Admiralty Law
- LAW6845 - Fashion and Design Law
- LAW6809 - Transnational Representation and Advocacy
- LAW6830 - Comparative Public Law: Government and Judicial Oversight

- LAW6831 - Comparative Property Law
- LAW6935 - Caribbean Law and Development
- LAW7225 - Transnational Disputes: Practicing Law in the Era of Globalization
- LAW7262 - International Trade Law and Policy
- LAW7268 - International Environmental Law
- LAW7285 - Profesion Juridica Comparada (Comparative Legal Profession)
- LAW7930 - Special Topics in Law
- LAW6936 - Seminars
- LAW6824 - International and Foreign Legal Research

AND

Legal Skills and Values III

Complete ALL of the following Courses:

- LAW6797 - Legal Skills and Values III

AND

Seminar:

Students must take a seminar involving a multi-draft writing project.

Complete ALL of the following Courses:

- LAW6936 - Seminars

AND

Community Service:

Students must also perform thirty (30) hours of community service.

AND

Experiential Learning:

Students are required to take at least six credits of experiential learning.

Earn at least 6 credits from the following:

- LAW6106 - Death Penalty Clinic
- LAW6310 - Alternative Dispute Resolution
- LAW6313 - Negotiation
- LAW6317 - Conflict Management Practice-Comparative Perspectives of Negotiation
- LAW6361 - Pre-Trial Practice
- LAW6363 - Trial Advocacy
- LAW6372 - Advanced Appellate Advocacy
- LAW6383 - Mediation
- LAW6723 - Community Lawyering Clinic
- LAW6800 - International Arbitration Competition

- LAW6809 - Transnational Representation and Advocacy
- LAW6943 - Carlos A. Costa Immigration and Human Rights Clinic
- LAW6945 - Criminal Externship Placement

- LAW7373 - Appellate Procedure
- LAW7942 - Prosecution Innocence Project
- LAW7944 - Advanced Legal Clinic
- LAW7946 - Advanced Externship Placement

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: JD and MA in Latin American and Caribbean Studies Joint Degree Pathway

An agreement approved by the University Graduate School, between the FIU College of Law and the Steven J. Green School of International and Public Affairs allows students to pursue simultaneously the Juris Doctor (JD) and MALACS degrees, thereby saving considerable time over pursuing each degree separately. Students must meet the entrance requirements for both the JD and MALACS programs. Fifteen credits from the law school curriculum will be allowed toward the MALACS program and will constitute a MALACS concentration in International and Comparative Law. Nine credits from the MALACS program will also count toward the law school curriculum requirements. All other requirements to receive either the JD or MALACS degree must be met. Additional information on the joint degree program is available on the College of Law and MALACS web sites.

Other Curricular Offering: JD and MBA Joint Degree Pathway

Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. Essential criteria relating to the joint degree pathway are as follows:

(1) For law students, enrollment in the MBA program is required no later than the completion of 63 credit hours in the JD program. For MBA students, enrollment in the JD program is required no later than the third semester after beginning the MBA program. For purposes of this paragraph, a summer session is counted as half a semester.

(2) A student must satisfy the curriculum requirements for each degree before either degree is awarded. The College of Business will allow 12 credit hours of upper level business and commercial law courses to be credited toward both the MBA and JD degrees. These 12 credit hours of law classes will be in lieu of the Legal Environment of Business course (3 credit hours) and three of the elective courses (totaling 9 credit hours) required for the MBA degree. A student may obtain a concentration in the MBA program in accordance with the College of Business curriculum requirements for concentrations. Reciprocally, law students may receive 9 hours of credit toward the satisfaction of the JD degree for courses taken in the MBA curriculum upon completion of the MBA degree with a grade point average of 3.0 or higher.

(3) A student enrolled in the joint degree pathway may begin the student's studies in either college, but full-time law students must take the first two semesters of law study consecutively and part-time law students must take the first three semesters of law study consecutively. Students admitted to one college but electing to begin study in the other college under the joint degree pathway may enter the second college thereafter without once again qualifying for admission so long as they have notified the second college before the end of the first week of the first semester in the second college and are in good academic standing when studies commence in the second college.

(4) A student enrolled in the joint degree pathway will not receive either degree until the student has satisfied all of the requirements for both degrees, or until the student has satisfied the requirements of one of the degrees as if the student had not been a joint degree pathway candidate.

(5) Students in the joint degree pathway will be eligible for the graduate teaching assistantships and research assistantships in the College of Business on the same basis as other MBA students, subject to the guidelines and restrictions set by the College of Business.

For additional information, contact the Chapman Graduate School of Business at (305) 348-0148 or the Law School Admissions Office at (305) 348-8006.

Other Curricular Offering: JD and MIB Joint Degree Pathway

The faculties of the College of Law and the College of Business at Florida International University have approved a joint degree pathway culminating in both a Juris Doctor (JD) degree, awarded by the College of Law, and a Master of International Business (MIB) degree, awarded by the College of Business. Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. Essential criteria relating to the joint degree pathway are as follows:

(1) For law students, enrollment in the MIB program is required no later than the completion of 63 credit hours in the JD program. For MIB students, enrollment in the JD program is required no later than the time that the student has completed one-half of the MIB curriculum.

(2) A student must satisfy the curriculum requirements for each degree before either degree is awarded. The College of Business will allow 9 credit hours of upper level international and comparative law courses to be credited toward both the MIB and JD degrees. These 9 credit hours of law classes will be in lieu of the International Business Law course (3 credit hours) and any two other courses (totaling 6 credit hours) in the MIB curriculum. Reciprocally, law students may receive 9 hours of credit toward the satisfaction of the JD degree for courses taken in the MIB curriculum upon completion of the MIB degree with a grade point average of 3.0 or higher.

(3) A student enrolled in the joint degree pathway may begin the student's studies in either college, but full-time law students must take the first two semesters of law study consecutively and part-time law students must take the first three semesters of law study consecutively. Students admitted to one college but electing to begin study in the other college under the joint degree pathway may enter the second college thereafter without once again qualifying for admission so long as they have notified the second college before the end of the first week of the first semester in the second college and are in good academic standing when studies commence in the second college.

(4) A student enrolled in the joint degree pathway will not receive either degree until the student has satisfied all of the requirements for both degrees, or until the student has satisfied the requirements of one of the degrees as if the student had not been a joint degree candidate.

(5) Students in the joint degree pathway will be eligible for the graduate teaching assistantships and research assistantships in the College of Business on the same basis as other MIB students, subject to the guidelines and restrictions set by the College of Business.

For additional information, contact the MIB office at (305) 348-3279 or the Law School Admissions Office at (305) 348-8006.

Other Curricular Offering: JD and MS in Construction Management Joint Degree Pathway

Florida International University (College of Engineering and Computing and College of Law) offers a joint degree pathway culminating in both a Juris Doctor degree, awarded by the College of Law, and a Master of Science in Construction Management (MSCM) degree, awarded by the College of Engineering and Computing.

Under this joint degree pathway, a student can obtain expertise in both fields (construction and law) in significantly less time than it would take to obtain both degrees if pursued consecutively.

Essential criteria relating to this joint degree pathway are as follows.

(1) For law students, enrollment in the MSCM program is required no later than the completion of 63 credit hours in the J.D. program. For MSCM students, enrollment in the J.D. program is required no later than the end of the first semester after beginning the MSCM program. (A summer session is counted as a full semester.)

(2) The College of Engineering and Computing will allow 9 credit hours of law courses to be credited toward both the MSCM and J.D. degrees. These [9] credit hours of law classes will be in lieu of the three elective courses required for the MSCM degree. Foundation courses must be completed as required and explained in the catalog and cannot be substituted with any College of Law courses. The students must have a minimum GPA of 3.0 in each of the three law courses for inclusion in their MSCM degree program. Reciprocally, law students may receive 9 hours of credit toward the satisfaction of the J.D. degree for courses taken in the MSCM curriculum upon completion of the MSCM degree curriculum with a grade point average of 3.0 or higher. These 9 credit hours of construction management courses will be in lieu of electives required for the J.D.

(3) A student enrolled in the joint degree pathway may begin the student's studies in either College, but full-time law students must take the first two semesters of law study consecutively and part-time law students must take the first three semesters of law study consecutively. Students enrolled in the MSCM program must be enrolled at least in one course in any given semester during his/her entire course of study. Students admitted to one College but electing to begin study in the other College under the joint degree pathway may enter the second College thereafter without once again qualifying for admission so long as they have notified the second College before the end of the first week of the first semester in the second College and are in good academic standing when studies commence in the second College.

(4) A student enrolled in the joint degree pathway can receive either degree if the student has satisfied all of the requirements for that degree.

Other Curricular Offering: JD and MS in Criminal Justice Joint Degree Pathway

The faculties of the College of Law and the Department of Criminology and Criminal Justice at Florida International University have approved a joint degree pathway culminating in both a Juris Doctor degree (JD), awarded by the College of Law, and a Master of Science in Criminal Justice degree (MSCJ), awarded by the Department of Criminology and Criminal Justice. Under the joint degree program, a student can obtain the degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. Essential criteria relating to the joint degree pathway are as follows:

(1) A student must satisfy the curriculum requirements for each degree before either degree is awarded. The Department of Criminology and Criminal Justice will allow 12 credit hours of College of Law criminal law and jurisprudence courses to be credited toward both the MSCJ and JD degrees. These 12 credit hours of law classes will be in lieu of four elective courses. Reciprocally, law students may receive 9 hours of credit toward the satisfaction of the JD degree for courses taken in the MSCJ curriculum upon completion of the MSCJ degree with a grade point average of 3.0 or higher. Subject to prior approval, law school students are normally allowed 6 credit hours from graduate level courses offered by other units of the University as counting toward the JD degree.

(2) A full-time law student enrolled in the joint degree pathway may spend the first year in either the College of Law or the Department of Criminology and Criminal Justice. A part-time law student enrolled in the joint degree pathway may begin the student’s studies in either program, but must take the first three semesters of law study consecutively.

Students admitted to one program may enter the second program thereafter without once again qualifying for admission so long as they have notified the second program before the end of the first week of the first semester in the second program and are in good academic standing when studies commence in the second program.

(3) A student enrolled in the joint degree pathway will not receive either degree until the student has satisfied all of the requirements for both degrees, or until the student has satisfied the requirements of one of the degrees as if the student had not been a joint degree pathway candidates.

Other Curricular Offering: JD and MS in Environmental Studies Joint Degree Pathway

The faculties of the College of Law and the College of Arts, Sciences, and Education at Florida International University offer a joint degree pathway culminating in both a Juris Doctor (JD) degree, awarded by the College of Law, and a Master of Science in Environmental Studies (MS-ES) degree, awarded by the College of Arts, Sciences, and Education. Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. Essential criteria relating to the joint degree pathway are as follows:

(1) For law students, enrollment in the MS-ES program is required no later than the completion of 63 credit hours in the JD program. For MS-ES students, enrollment in the JD program is required no later than the completion of 24 credit hours in MS-ES program.

(2) A student must satisfy the curriculum requirements for each degree before either degree is awarded. For the MS-ES degree, students must meet the requirement of the non-thesis option. The College of Arts, Sciences, and Education will allow 6 credit hours of foundation law courses and up to 9 credit hours of upper level environmental law courses to be credited toward both the MS-ES and JD degrees. These law classes will count toward the non-EVR Environmental Studies elective credits allowed under the MS-ES non-thesis option program. Reciprocally, law students may receive 9 hours of credit toward the satisfaction of the JD degree for courses taken in the MS-ES curriculum upon completion of the MS-ES degree curriculum with a grade point average of 3.0 or higher.

(3) The College of Arts, Sciences and Education will recognize any significant, environment-related law review or research project completed with a letter grade of ‘B’ or better for the JD program toward the 3 credit hour course, EVR5907 Independent Study and the attendant ‘Project’ required for the MS-ES non-thesis option program. For the purpose of this program, a project is defined as a substantial analysis and proposal for change of a real-world environmental problem, and requires preparation of a report and presentation as part of the required Environmental Studies Graduate Seminar class.

(4) A student enrolled in the joint degree pathway may begin the student’s studies in either college, but full time law students must take the first two semesters of law study consecutively and part-time law students must take the first three semesters of law study consecutively. Students admitted to one college but electing to begin study in the other college under the joint degree pathway may enter the second college thereafter without once again qualifying for admission so long as they have notified the second college before the end of the first week of the first semester in the second college and are in good academic standing when studies commence in the second college.

(5) A student enrolled in the joint degree pathway will not receive either degree until the student has satisfied all of the requirements for both degrees, or until the student has satisfied the requirements of one of the degrees as if the student had not been a joint degree candidate.

(6) As non-thesis option MS-ES students, students in the joint degree pathway will not normally be eligible for the graduate teaching assistantships in the Environmental Studies Department.

Other Curricular Offering: JD and MSW Joint Degree Pathway

For law students, enrollment in the M.S.W. program is required no later than the completion of 63 credit hours in the J.D. program. For M.S.W. students, enrollment in the J.D. program is required no later than the completion of 30 credit hours in MSW Program.

A student must satisfy the curriculum requirements for each degree before either degree is awarded. The School of Social Work will allow 9 credit hours of approved law courses to be credited toward both the M.S.W. and J.D. degrees. These 9 credit hours of law classes will be in lieu of Social Work electives and must be selected from an approved list of law classes. Reciprocally, law students may receive 9 hours of credit toward the satisfaction of the J.D. degree for courses taken in the M.S.W. curriculum upon completion of the M.S.W. degree curriculum with a grade point average of 3.0 or higher.

A full-time law student enrolled in the joint degree pathway may spend the first year in either the College of Law or the School of Social Work. A part-time law student enrolled in the joint degree pathway may begin the student's studies in either the College of Law or the School of Social Work, but must take the first three semesters of law study consecutively. Students admitted to one school but electing to begin study in the other school under the joint degree program may enter the second school thereafter without once again qualifying for admission so long as they have notified the second school before the end of the first week of the first semester in the second school and are in good academic standing when studies commence in the second school.

A student enrolled in the joint degree pathway will not receive either degree until the student has satisfied all of the requirements for both degrees, or until the student has satisfied the requirements of one of the degrees as if the student had not been a joint degree pathway candidate.

LAWEVE:LLM - Master of Laws (Evening)

Overview

Degree Offered
LL.M. - Master of Laws

Program Title
Master of Laws

The Master of Laws (LL.M) degree provides foreign lawyers with a solid foundation in United States and transnational law, and advanced research and writing skills in English, while also allowing them to tailor their coursework to their own professional goals by designing a personalized academic schedule that serves their needs. Upon completion of the LL.M curriculum, graduates will be equipped to prepare for the Bar exam needed to obtain a license to practice law in certain United States jurisdictions, to gain work experience through an Optional Practical Training (OPT), or to pursue other academic or professional endeavors.

For more information, visit the College of Law website.

LAWTECH:MS - Master of Science in Law of Technology

Overview

Degree Offered
MS - Master of Science

Program Title
Law of Technology

The Master of Science (MS) in the Law of Technology aims to harness technology toward the creation of business efficiencies and up-to-date risk assessments within the practice of law; to develop alternative service delivery models; and to create for the law/business domain a flexible, knowledgeable workforce of “life learners” adaptable to change.
Upon completion of the program, graduates will:
1. Gain practical, hands-on study of current best practices in the law of data privacy (global and domestic), data protection, and cybersecurity fundamentals and compliance.
2. Gain knowledge of, and facility with, the principles of digital business law and the burgeoning variegation within the legal services delivery sector. Topics include law practice management and technology, digital evidence and forensics, consumer internet-of-things protections, supply chain, big data analytics, introduction to artificial intelligence, and technology-related corporate transactions (e.g., mergers and acquisitions).
3. Gain both an understanding of, and a practical application in, Blockchain technology and related disruptive innovations: the digital ledger, cryptography and cryptocurrencies, smart contracts, and machine learning.
4. Demonstrate the ability to address the complex and dynamic legal issues related to the new technologies.

For more information, visit the College of Law website.

College of Law

Diploma Title
Master of Science of Law of Technology

Total Credits
30

Program Length in Years Based on Full-Time Enrollment
1

CIP Code
11.1003

Requirements

Simple Requirements

Admissions Requirements

Admission to the Master of Science in the Law of Technology program will be based on the following factors:

(1) Undergraduate GPA;

(2) Professional and academic background;

(3) Personal statement (essay or statement of interest);

(4) Profession and academic references.

The candidate for the Master of Science in the Law of Technology degree must have a bachelor's degree from an accredited U.S. institution, or a comparable degree from an international institution, with a minimum 3.0 (on a 4.0 scale) grade point average (GPA) in all work attempted while registered as an upper-division undergraduate student. Alternatively, the candidate must have received a graduate degree from an accredited U.S. institution, or a comparable degree from an international institution. Any international degree would need to be evaluated to be determined equivalent. The Master of Science in the Law of Technology Admission Committee will have discretion to waive the GPA minimum if the candidate's achievements in activities after receiving the bachelor's degree suggest a high likelihood of success in the Master of Science in the Law of Technology program.

Acceptance into the program will be based on the candidate's academic training and professional background, a personal statement, and professional references. For students from non-English speaking countries, demonstrated proficiency in English (at a level needed to comprehend lectures, class discussion, and reading assignments in law) will be required.

Program Requirements

The full-time Master of Science in the Law of Technology candidate will take 30 credits to complete the program within three semesters.

Degree Program Credit Hours: 30

Type

Completion Requirement

Pre-Program Boot Camp (optional):

- Workshop United States Law I: Methods, Sources, and Structure
- Workshop Fundamentals of Cybersecurity
- Workshop Python for Lawyers

LIBST:BA - Bachelor of Arts in Liberal Studies

Overview

Degree Offered
BA - Bachelor of Arts

Program Title
Liberal Studies

The Bachelor of Arts (BA) in Liberal Studies offers an innovative, well-rounded education for the 21st century. The interdisciplinary curriculum combines diverse knowledge from the humanities and social sciences with applied skills training. Students select one of four thematic areas to tailor their in-depth studies: Health and Human Concerns; Humanities and Cultural Traditions; Law, Business, and Society; or Education, Policy, and Community. Graduates are equipped with broad perspectives and focused expertise to pursue diverse career paths or advanced study in areas like business, law, public service, education, and more. The program seeks motivated students passionate about making a positive impact through a multidisciplinary liberal arts education.

Upper Division

Type
Completion Requirement

Degree Program Credit Hours: 120

The 42 credit hours of upper-division coursework for the B.A. in Liberal Studies consists of 6 credits of Core, 6 credits of Colloquia, and 30 credits from a Track. Courses should generally be taken within the College of Arts, Sciences and Education; optionally, up to 9 hours of the 42 hours may be taken from other FIU colleges or schools when designated in the tracks below.

Fulfill ALL of the following requirements:

Required Core Courses: 6 Credits

Complete ALL of the following Courses:

- IDS3073 - Understanding Your Liberal Studies Major
- IDS4890 - Interdisciplinary Studies Capstone: Applying Knowledge

**IDS3073 Understand Lib Stud Major: To be taken at least three semesters before the intended last semester before graduation. Positions students for success in a self-designed, interdisciplinary, non-career-aligned major as they pursue an individualized and focused program of study.*

**IDS4890 IDS Capstone: To be taken at least one semester before the semester of anticipated graduation to solidify degree focus and prepare for post-baccalaureate career or advanced degrees.*

AND

Interdisciplinary Colloquia: 6 Credits

Complete at least 2 of the following courses:

- IDS4920 - Liberal Studies Colloquia
- IDS4384 - Psychedelics Today: Science, Therapy, Policy, and Ethics
- IDS3383 - Psychedelic Compound Fundamentals
- HUM2236 - History Of Ideas
- HUM4024 - Plagues and Pandemics: Global Perspectives
- IDS4437 - Qualitative Research Methods for the Social Sciences & Humanities
- PAD3034 - Policy Development and Implementation
- PUP4103 - South Florida Urban Laboratory

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

In addition to the Core Courses, all students must choose one of the tracks below. Each track consists of 30 credits of 3000- or 4000-level courses in the Natural Sciences, Social Sciences, Humanities, and Writing, which should be selected in consultation with their Liberal Studies advisor.

Some courses require prerequisites and labs. As appropriate, Global Learning courses may count towards meeting the major requirements within the tracks below.

Health and Human Concerns Track: 30 Credits

Requirements

Simple Requirements

Admissions Requirements

No specific admissions requirements. Contact advisor for additional information.

This is certificate is open to both degree-seeking and non-degree-seeking students.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

A student can acquire a Certificate in Linguistic Studies by successfully completing at least six courses in linguistics or linguistics-related courses, totaling eighteen credit hours. Students should consult a certificate advisor in selecting courses. All students must complete one introductory course and one structure course from the courses listed below for a total of six credit hours.

Program Credit Hours: 18

Type
Completion Requirement

Introductory Courses

Complete ANY of the following Courses:

- LIN3010 - General Linguistics
- LIN3013 - General Linguistics
- LIN5018 - Introduction to Linguistics

Structure Courses

Complete ANY of the following Courses:

- LIN4680 - Mod English Grammar
- FRE4800 - French Morphology
- SPN4802 - Contrastive Syntax

Four additional courses: (12)

In addition to the required courses stated above, all students must complete an additional four courses totaling twelve credits.

- Any course with an LIN prefix fulfills this requirement.
- Linguistics courses with FOL, FRE, POR, and SPN prefixes also fulfill this requirement. Permission must be received from the Program Director to take courses with these prefixes.
- PHI4220 Philo Of Language (Philosophy of Language) and MHF4302 Math Logic (Mathematical Logic) also fulfill this requirement.

In addition to the requirements noted above, all of the requirements for obtaining a bachelor's degree from the University must be met, or the student must already possess a bachelor's degree.

With the advice of the Coordinating Committee, the student is encouraged to attain some degree of proficiency in a language other than his or her native language. A Coordinating Committee representing various fields advises students and grants the Certificate.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

LINGST:MA - Master of Arts in Linguistics

Overview

Degree Offered
MA - Master of Arts

Program Title
Linguistics

The Master of Arts (MA) in Linguistics focuses on the scientific study of various aspects of human language. Graduates of the program are equipped with the skills for analyzing sound systems, word and sentence structures, and meaning components. As such, graduates are ready to take on work in many applied areas, including language teaching, bilingualism, education, and publishing industries.

For more information, visit the College of Arts, Sciences, and Education website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for Master of Arts (MA) in Linguistics

Applicants must meet the University's Graduate School general admissions requirements; GPA of minimum 3.0, two letters of recommendation, and a statement of purpose on the reasons for pursuing an M.A. in Linguistics. International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL), for the International English Language Testing System (IELTS), or for the Pearson Test of English (PTE). A total score of 100 on the iBT TOEFL (equivalent to 600 on the paper-based version of the TOEFL), or a score of 6.5 on the IELTS, or a minimum score of 53 on the PTE is required.

Admissions Requirements for Combined Bachelor of Arts (BA) in English to MA in Linguistics Accelerated Degree Pathway

To be considered for admission to the combined Bachelor's/Master's degree pathway, students must have completed at least 75 credits in the Bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree pathway; the application is submitted to Graduate Admissions typically before the student starts the last 30 credits of the Bachelor's degree program. A student admitted to the combined degree pathway will be considered to have undergraduate status until the

student applies for graduation from his/her Bachelor's degree program. Upon conferral of the Bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Admission Requirements

--Enrollment in undergraduate program in English, Spanish, French, or Portuguese at FIU.

--Must have completed 75 credits.

--Must have completed LIN 3013/LIN 3010 General Linguistics, LIN 4680 Modern English Grammar, FRE 3780 French Phonetics, or SPN 3733 Introduction to Spanish Linguistics with a grade of "A".

--Current GPA of 3.2 or higher.

--Two letters of faculty recommendation.

--A 2-4 page statement of purpose, explaining academic plans and goals.

Program Requirements

Degree Program Requirements: 36 credits

Type

Completion Requirement

Degree Program Requirements: 36 credits

The Master of Arts in Linguistics requires 36 graduate hours in Linguistics: 18 credits in core required courses, the remainder in electives and completion of a Masters Research Project.

In addition to maintaining an overall 3.0 average in all courses, students must also obtain a minimum of a 'B' in each of the required courses ('B-' is not acceptable in these courses) and a minimum of a 'C' in each elective course ('C-' is not acceptable). Course work is as follows:

Fulfill ALL of the following requirements:

Required Courses: 15 credits

Complete ALL of the following Courses:

- LIN5018 - Introduction to Linguistics
- LIN5206 - Phonetics
- LIN6323 - Phonology
- LIN6510 - Syntax I
- LIN6805 - Semantics

LIN5018 Intro Linguistics *will only be required of those students who have insufficient background in Linguistics. Students with a prior course in linguistics may opt out of this requirement after passing a qualifying exam on the course materials.*

AND

Linguistic Structure Course: 3 credits

A student must fulfill this requirement by taking a structure course on a non-Indo-European Language:

Complete ANY of the following Courses:

- LIN5574 - Languages of the World

AND

Electives

Sufficient credits of electives will complete the degree, along with completion of required courses and the Research Project for Publication.

Masters Research Project

All students will be required to produce a research paper of publishable standard by the end of their second year. (LIN6910 Res Proj for Pub I Research Project for Publication I, may be taken to facilitate completion of this requirement.) The research project must be presented in an open forum at the end of the year.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Combined BA in English to MA in Linguistics Accelerated Degree Pathway

Type

Completion Requirement

Recommended Courses for Students Pursuing the BA in English

The following graduate courses are recommended to BA students. In order to complete their degree requirements, students may double-count up to 12 graduate credits of coursework toward the Bachelor's and M.A. degrees:

Complete ANY of the following Courses:

- LIN5018 - Introduction to Linguistics
- LIN5206 - Phonetics
- LIN5574 - Languages of the World
- LIN6510 - Syntax I
- LIN6602 - Language Contact
- LIN5601 - Sociolinguistics
- LIN5825 - Pragmatics (Inactive)
- LIN5934 - Special Topics in Linguistics

Notes: LIN5018 Intro Linguistics is an MA core requirement and is a prerequisite to all other course requirements.

LIN5206 Phonetics and LIN5574 Languages Of World fulfill the "structure course" requirement of the MA

LIN6510 Syntax I fulfills one of the core requirements of the MA

Recommended Courses for Students Pursuing the BA in Spanish

The following graduate courses are recommended to BA students. In order to complete their degree requirements, students may double-count up to 12 graduate credits of coursework toward the Bachelor's and M.A. degrees:

Complete ANY of the following Courses:

- LIN5018 - Introduction to Linguistics
- SPN5705 - The Structure of Spanish (Inactive)
- SPN5845 - History Of The Lang
- LIN5604 - Spanish in the United States (Inactive)
- SPN5736 - Spanish as a Heritage Language: Acquisition and Development
- LIN5603 - Language Planning: Linguistic Minority Issues (Inactive)
- LIN5601 - Sociolinguistics
- LIN5720 - Second Language Acquisition (Inactive)
- LIN5825 - Pragmatics (Inactive)
- LIN5934 - Special Topics in Linguistics

Note: LIN5018 Intro Linguistics is an MA core requirement and is a prerequisite to all other course requirements.

Recommended Courses for Students Pursuing the Major in French

The following graduate courses are recommended to BA students. In order to complete their degree requirements, students may double-count up to 12 graduate credits of coursework toward the Bachelor's and M.A. degrees:

Complete ANY of the following Courses:

- LIN5018 - Introduction to Linguistics
- FRE5855 - Structure of Modern French (Inactive)
- FRE5845 - History of the Language I
- FRE5846 - History of the Language II (Inactive)
- FRE5508 - La Francophonie (Inactive)
- FRE5735 - Special Topics in Linguistics (Inactive)
- HAI5235 - Haitian Creole Seminar
- LIN5601 - Sociolinguistics
- LIN5825 - Pragmatics (Inactive)
- LIN5720 - Second Language Acquisition (Inactive)
- LIN5934 - Special Topics in Linguistics

Note: LIN5018 Intro Linguistics is an MA core requirement and is a prerequisite to all other course requirements.

Recommended Courses for Students Pursuing the Major in Portuguese

The following graduate courses are recommended to BA students. In order to complete their degree requirements, students may double-count up to 12 graduate credits of coursework toward the Bachelor's and M.A. degrees:

Complete ANY of the following Courses:

- LIN5018 - Introduction to Linguistics
- LIN5601 - Sociolinguistics
- LIN5825 - Pragmatics (Inactive)
- LIN5720 - Second Language Acquisition (Inactive)
- LIN5934 - Special Topics in Linguistics

Note: LIN5018 Intro Linguistics is an MA core requirement and is a prerequisite to all other course requirements.

MA Degree Requirements: 36 credit hours

The BA will be awarded as soon as all BA requirements of the designated undergraduate program are completed. The MA will be awarded after all MA requirements of the Linguistics Program and the BA requirements are completed.

Fulfill ALL of the following requirements:

Required Courses Part 1

Earn a minimum grade of B in the following:

- LIN5018 - Introduction to Linguistics
- LIN5206 - Phonetics
- LIN6323 - Phonology
- LIN6510 - Syntax I
- LIN6805 - Semantics

AND

Required Courses Part 2

Students also must complete one course about the structure of a non-Indo-European language:

Complete ALL of the following Courses:

- LIN5574 - Languages of the World

AND

Electives

Students must complete 5 LIN-prefixed graduate courses (or 6, if LIN 5018 has been waived)

AND

Master's Research Project

Students must complete a Master's Research Project (LIN 6910)

LNGCNA:CFI - Undergraduate Certificate in Languages and Cultures of North Africa

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Languages and Cultures of North Africa

The Undergraduate Certificate in Languages and Cultures of North Africa provides students with a broad knowledge, giving them cultural keys for a better understanding of the Arab World in its global interactions. The certificate is designed with an interdisciplinary and transnational perspective, taking into account the complex dynamics between North Africa and the Arab diaspora in Europe and in the U.S. With a particular emphasis on languages and culture, the certificate exposes students to North Africa through history, political science, gender studies, diaspora studies, literature, and cinema.

Admissions Requirements

No specific admissions requirements. Contact advisor for additional information.

This certificate is open to degree-seeking students only.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

The Certificate in Languages and Cultures of North Africa requires a total of 21 credits (for students with no prior knowledge of the selected language) or a minimum of 18 credits (for students with prior knowledge of the selected language) and includes the following:

Program Credit Hours: 21

Type
Completion Requirement

Core Language Requirement

Four semester sequence of language: (12 credits maximum to count toward the certificate). If students test out of some portion of this requirement then they must complete additional credits as approved by the certificate director.

Fulfill ANY of the following requirements:

Option 1

Complete ALL of the following Courses:

- ARA1130 - Arabic I
- ARA1131 - Arabic II
- ARA2200 - Intermediate Arabic
- ARA2240 - Intermediate Arabic Conversation

OR

Option 2

Complete ALL of the following Courses:

- FRE1130 - French I
- FRE1131 - French II
- FRE2200 - Intermediate French
- FRE2241 - Intermediate French Conversation

Additional Core Requirements

Earn at least 6 credits from the following:

- ABT3502 - Arab Literatures and Cultures in Global Perspective (Inactive)
- ABT3503 - Arabic Language and Culture

Elective Courses

Earn at least 3 credits from the following:

- WST4504 - Feminist Theory
- INR4082 - Islam in International Relations

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

LOGENG:MS - Master of Science in Logistics Engineering

Overview

Degree Offered
MS - Master of Science

Program Title
Logistics Engineering

Logistics Engineering is an in-demand field dedicated to the optimal design and operation of logistics systems that involves forecasting, procurement, transportation, production, warehousing, and distribution of materials and finished goods. The Master of Science (MS) in Logistics Engineering program cultivates industry leaders through structured training in contemporary logistics systems, technology, and operations. Students will also gain expertise in systems engineering tools and new techniques, such as data analysis and artificial intelligence, to better address emerging challenges in the industry.

For more information, visit the College of Engineering and Computing website.

14.2701

Requirements

Simple Requirements

Admissions Requirements

The applicant to the MS program in Logistics Engineering must have a bachelor's degree in industrial engineering, systems engineering, operations research, or a closely related area such as business administration, MIS, SCM, or other engineering disciplines, from an accredited institution with a GPA of at least 3.0/4.0 in either the last 60 credit hours or the overall undergraduate degree, or a graduate degree from an accredited institution.

Applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. Please refer to the Admissions English Proficiency criteria at https://admissions.fiu.edu/international/graduate-school/english-language-proficiency/index.html.

Program Requirements

Degree Program Credit Hours: 30

Type
Completion Requirement

Degree Requirements

The MS program in Logistics Engineering requires 30 credit hours of 10 coursework from three clusters of graduate courses. The first consists of 4 core courses in logistics operations, the second consists of 3 elective courses in systems engineering, and the third consists of 3 elective courses in logistics systems and technology. Additional courses may be considered, subject to approval of the program director.

Fulfill ALL of the following requirements:

Logistics Engineering Core Courses: (4 courses, 12 credits)

Complete ALL of the following Courses:

- ESI5010C - Forecasting and Demand Management
- EIN5346 - Logistics Engineering
- EIN5436 - Regulatory Compliance in Logistics and Supply Chain Management
- EIN6336 - Advanced Production Planning and Control

AND

Elective Systems Engineering Courses: (3 courses, 9 credits)

Complete ANY of the following Courses:

- EIN5226C - Total Quality Management for Engineers
- EIN5332 - Quality Engineering
- EIN5359 - Industrial Financial Decisions
- ESI6316 - Applications of OR in Manufacturing
- ESI6440 - Integer Programming (Inactive)
- ESI6455 - Advanced Engineering Project Management
- ESI6470 - Stochastic Optimization
- ESI6524 - Advanced Industrial Systems Simulation
- ESI6546 - Network Flow Analysis
- EIN6133 - Enterprise Engineering

AND

Elective Logistics Systems and Technology Courses: (3 courses, 9 credits)

Complete ANY of the following Courses:

- EGS5620 - Enterprise Systems Configuration
- EGS5621 - Enterprise Systems Collaboration
- EGS5622 - Enterprise Systems Integration
- EGS5623 - Enterprise Systems Optimization
- EIN5367 - Design of Production Systems
- ESI5522 - Simulation Models of Engineering Systems
- EIN6345 - Inventory Control System
- ESI6324 - Advances in Logistics Technology

Additional Program Requirements

Type
Completion Requirement

Master’s Project and Thesis Options

Students in the Logistics Engineering graduate program may receive permission to conduct a master’s project of three credit hours or a master’s thesis of six credit hours within their chosen track to complete the degree program. The Master’s Project (EIN6916 Master's Project) will replace one graduate elective course. The Master Thesis (EIN6971 Master's Thesis) will replace two graduate elective courses.

Grades and Credits

Students are required to maintain a GPA of 3.0. Courses with a grade below “C” will not be counted toward the Master of Science degree in Logistics Engineering.

Transfer Credit

Students may receive permission to transfer up to a maximum of six semester credits provided that:

(1) The courses were taken at the graduate level at an accredited college or university;

(2) With a grade of ‘B’ or better;

(3) The courses were judged relevant by the program director; and

(4) The credits will be no older than six years at the time of graduation. No more than 12 semester hours taken at FIU as a non-degree seeking student may be counted toward the Logistics Engineering graduate program.

Time Limit

All works applicable to the Master of Science degree in Logistics Engineering, including transfer credits, must be completed within six years of conferral of the degree.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

LOGSCM:BBA - Bachelor of Business Administration in Logistics and Supply Chain Management

Overview

Degree Offered
BBA - Bachelor of Business Administration

Program Title
Logistics and Supply Chain Management

With the Bachelor of Business Administration (BBA) in Logistics and Supply Chain Management, students will be able to provide global organizations with a competitive edge through lean, efficient operations. Students will learn the critical skills and specialized knowledge to reduce inventory costs, streamline processes, improve the customer experience, and enhance profitability.

Logistics management professionals manage, coordinate, and transport products from raw materials to finished goods, and those with a bachelor's degree in the field are primed to step into nearly any industry. Demand for logistics professionals is growing rapidly as firms realize the benefits of increased profitability through improved efficiency. Employment growth will be driven by critical role that logistics and supply chain management play in the transportation of goods in a global economy.

Admissions Requirements

Admissions and Progression Requirements for All College of Business Undergraduate Students

Applicants must follow regular University admission procedures and upon admission declare their specific program within the College of Business. In addition, students must:

(1) Complete courses detailed under Required Common Prerequisite Courses, or equivalent coursework, noted below, as part of their 60 credit-hours of lower-division course work.

(2) In their initial 60 credit-hours, earn a GPA of 2.0 or higher to continue pursuing a Bachelor of Business Administration and the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs must comply with the GPA requirement for the respective degree program.

(3) For the set of all Common Prerequisite Course credit hours, earn a GPA of 2.5 or higher to continue pursuing Bachelor of Business Administration degrees and a GPA of 2.75 or higher to pursue the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the 2.5 (or 2.75 Accounting) or higher GPA requirement for the set of Common Prerequisite Course credit hours.

(4) Successfully complete with a C or better each of Common Prerequisite Course within two attempts. Drops after the add/drop period, which result in a DR grade, are considered an unsuccessful attempt at the course, (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the two attempt limit on Common Prerequisite Courses.

(5) Students are expected to make satisfactory progress toward degree completion during their first 60 credit hours of lower-division coursework, consistent with the Common Prerequisite Benchmarks noted below. Students not making good progress, may be redirected to another degree program. All (a) AA Transfers and (b) students changing degree programs to Business from outside the College of Business must demonstrate progress consistent with Common Prerequisite Benchmarks.

Common Prerequisite Benchmarks include the following:

By End of Term / Credit Hours Earned	Coursework for equivalents Completed	Minimum GPA in Common Prerequisites *
1st /15 hours	CGS 2100 (or PHI 2600)	2.25
2nd / 30 hours	ECO 2023 and MAC 2233	2.35 (2.50 Accounting)
3rd / 45 hours	ACG 2021 and ECO 2013	2.5 (2.75 Accounting)
4lh / 60 hours	ACG 3301 and STA 2023	2.5 (2.75 Accounting)

* Applicable to all students pursuing or seeking a change of program plan to a Bachelor of Business Administration degree and the Bachelor of Accounting.

Students eligible for readmission are subject to the University's and the College's degree program's regulations in effect at the time of readmission to include admissions and progression requirements.

Program Requirements

Academic Standards

To earn an undergraduate degree from the College of Business, all students must comply with the following:

(1) Students must earn a grade of "C" or higher in each of the lower-division Common Prerequisite Courses.

(2) Students must earn a grade of "C" or higher in all upper-division major courses.

(3) Students must earn a grade of "C" or higher in all upper-division Business Core Courses. Each of these courses cannot be attempted more than three times. Drops after the add/drop period, which result in a DR grade, are considered an attempt in the course and count as an unsuccessful enrollment.

(4) As a student within the College of Business, each student gets two drops after the add/drop period, which result in "DR" grades, in their first 60 credits attempted. Each College of Business student get two additional drops after the add/drop period, which result in "DR" grades, in the second 60 credits attempted. Unused drops after the add/drop period,

which result in “DR” grades, do not carry over from the first 60 credits attempted to the second 60 credits attempted. Students entering the College of Business as transfer students with an A.A. degree from a Florida public college or with 60 or more transfer credits earned from another college or university only get two drops after the add/drop period, which result in “DR” grades. Students with disabilities who need to drop a course due to disability-related reasons are allowed to petition for additional drops after the add/drop period, which result in “DR” grades. Students who can document extenuating circumstances may petition the College for additional drops. Approval to drop additional courses in excess of those allowed must be obtained from the College of Business.

(5) Students are expected to follow degree program Major Map in making satisfactory progress toward degree completion. Students deviating from Major Maps may be redirected to another degree program.

(6) Students must satisfy the requirements of their respective programs of study and satisfy all university requirements for graduation.

(7) Students who (a) have 60 credit hours earned, but (b) have not completed the seven Common Prerequisite Course for Business majors, may register for, and/or complete, no more than 15 credit hours of upper-division Business courses.

(8) Undergraduate students who register for any graduate business course must be formally admitted to a graduate degree program at the university following the university's admission procedures.

(9) Faculty has the discretion to administratively drop students who do not attend the first class of a course.

The College adheres strictly to the university’s dismissal policy. Students should be sure to read and understand FIU policies regarding Academic Warnings, Probation, and Dismissals.

Common Prerequisite Courses

Type

Completion Requirement

Required Common Prerequisite Courses Part I

For the set of all Common Prerequisite Course credit hours, earn a GPA of 2.5 or higher to continue pursuing Bachelor of Business Administration degrees and a GPA of 2.75 or higher to pursue the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the 2.5 (or 2.75 Accounting) or higher GPA requirement for the set of Common Prerequisite Course credit hours.

Courses which form part of the statewide articulation between the State University System and the Florida College System will fulfill the Lower Division Common Prerequisites.

Please visit https://cpm.flvc.org for a current list of state-approved common prerequisites.

Earn a minimum grade of C in the following:

- ACG2021 - Accounting for Decisions
- ACG2071 - Managerial Accounting
- ECO2013 - Principles of Macroeconomics
- ECO2023 - Principles of Microeconomics
- MAC2233 - Applied Calculus
- STA2023 - Statistical Methods

Required Common Prerequisite Courses Part II

Students pursuing a Bachelor degree in Logistics are also required to achieve a grade of "C" or higher in the following course.

Earn a minimum grade of C in the following:

- PHI2600 - Introduction to Ethics

Required Common Prerequisite Courses Part III

Students admitted in Fall 2012 or after, as freshman or transfer students with fewer than 30 credit hours earned, are encouraged to take GEB2011 Intro To Business Introduction to Business during their first year. Students admitted in the Fall 2018 or after, as freshman with fewer than 30 credit hours earned, are required to complete SPC2608 Public Speaking Public Speaking for their Undergraduate Core Curriculum Arts Requirement.

Additional Comments:

Prerequisite course requirements for entry into upper level courses will be enforced. Students will be administratively dropped from courses when they lack the required prerequisite course or courses and/or required grade.

Note: The programs, policies, requirements, and regulations listed in this catalog are subject to continual review in order to meet the needs of the University's various publics and to respond to the mandates of the Florida Board of Education and the Florida Legislature. Changes may be made without advance notice. For the most current and updated information, refer to the COB and appropriate Schools/Departments websites.

Required Business Core Courses: 24 credit hours

Type

Completion Requirement

Required Core Courses

The Business Core Courses listed below are required for all undergraduate students in the College of Business. Prerequisites for each of the Business Core Courses can be found in the College of Business course descriptions.

Complete ALL of the following Courses:

- ISM3011 - Artificial Intelligence & Information Systems in Organizations
  OR ACG4401 - Accounting Information Systems
- BUL4310 - The Legal Environment of Business
  OR BUL4320 - Business Law I
- FIN3403 - Financial Management
- MAN3025 - Organization and Management
- MAN4720 - Strategic Management
- MAR3023 - Introduction to Marketing
- QMB3200 - Business Statistics and Analysis I
- QMB4680 - Business Statistics and Analysis II

ACG4401 Acctg Info Systems and BUL4320 Bus Law I should **ONLY** be taken by students pursuing a Bachelor of Accounting.

Required Business Professional Development Courses: 3 credit hours

Type

Completion Requirement

Required Courses

The business professional development courses listed below are required for all undergraduate students in the College of Business.

Complete ALL of the following Courses:

- COM3112 - Speech and Writing for Business Communication
- GEB3003 - Career Management

Students admitted before Fall 2011 can take either COM3150 Advanced Bus Prof Comm Advanced Business and Professional Communication **or** COM3110 Bus And Prof Commun Business and Professional Communication.

Degree-Specific Courses: 21 credit hours

Type

Completion Requirement

Courses Required for the BBA in Logistics and Supply Chain Management

Complete ALL of the following Courses:

- MAR4144 - Export Marketing
- MAR4203 - Marketing Channels
- SCM4443 - Logistics Technology
- SCM4201 - Principles of Logistics
- SCM4354 - Logistics Strategy
- SCM4291 - Global Logistics
- SCM4240 - Principles of Transportation

Upper Division Business Electives: 12 credit hours

All electives outside the College of Business must receive the approval of the Department Chair. A list of approved courses is available from COB Advising.

Department of Marketing and Logistics Academic Standards

The Department of Marketing requires that marketing majors receive a grade of “C” or higher in all marketing major courses and upper division business electives. It is also strongly recommended that marketing majors join the American Marketing Association Student Chapter and participate actively in its events. To improve the learning experience and to assure employers of the quality of a graduate with a marketing major all marketing majors will take a comprehensive examination of their marketing knowledge and capabilities that will be offered at the end of the MAR4804 Marketing Strategy capstone strategy course.

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

LOGSCM:MS - Master of Science in Logistics and Supply Chain Management

Overview

Degree Offered
MS - Master of Science

Program Title
Logistics and Supply Chain Management

The Master of Science (MS) in Logistics and Supply Chain Management program aims to equip students for managerial and executive roles in the logistics and supply chain management industry. Available in two formats, hybrid or fully online, the program accommodates the schedules of working professionals seeking career advancement.

Over a period of 10 months, students engage in a rigorous curriculum focusing on three key areas of logistics: logistics technology, data analytics, and distribution modeling. These components are seamlessly integrated into each course in a cohort-based, lockstep fashion, providing students with a comprehensive understanding of the field.

Equipped with technical expertise, interpersonal skills, and market insight, graduates are well prepared for a variety of employment opportunities, including in roles as logistics analysts, supply chain managers, warehouse operations managers, and more, in today's dynamic job market.

Admissions Requirements

Admissions Requirements for the Master of Science (MS) in Logistics and Supply Chain Management

To be eligible for admission to the Master of Science in Logistics and Supply Chain Management (MSLSCM) program, applicants must demonstrate academic and professional preparedness. Admissions are based on a portfolio approach:

Hold a bachelor’s degree (or equivalent) from an accredited college or university;

-- Show high promise of success in graduate studies as determined by the faculty based upon academic performance, work experience, or a combination of academic and work experience. Evidence may include satisfying one or more of the following criteria:

(1) Have a minimum GPA of 3.0 (on a 4-point scale); in either the last 60 credit hours or the overall undergraduate degree AND have at least 2 years of professional work experience.

(2) Have a minimum GPA of 3.0 (on a 4-point scale) in either the last 60 credit hours or the overall undergraduate degree AND have a score at least 500 on the Graduate Management Admissions Test (GMAT) or the equivalent on the Graduate Record Exam (GRE).

(3) Have a completed a graduate degree from an accredited university with a minimum grade point average (GPA) of 3.0.

(4) Applicant is entering a business master's program under a special agreement for admissions with specific universities with an overall GPA of 3.0 as approved by the College of Business Dean.

(5) Applicants are encouraged to provide any additional documentation to strengthen their application portfolio. Examples of documentation include master degree in any discipline, law degree, and professional certifications as approved by Faculty Director.

-- Applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. Please refer to the Admissions English Proficiency criteria at https://admissions.fiu.edu/international/graduate-school/english-language-proficiency/index.html.

-- Applicants must also be in good standing with all previously attended colleges and universities.

-- Interviews may be conducted upon submission of complete portfolio.

Transfer Credits

A student may receive permission to transfer up to a maximum of nine semester hours of graduate credit towards a Master of Science degree program or twelve semester hours of credit for a Master of Business Administration degree program, if:

(1) The courses were taken at the graduate level at an accredited college or university;

(2) The courses were not introductory or survey in nature;

(3) The student earned grades of "B" or higher in the courses;

(4) The courses are judged by the Department Chair, College Dean, Graduate School Dean, and program manager to be relevant to the student's graduate program;

(5) The credits were completed within six years immediately preceding the College's awarding of the degree. Credits are not transferable until the student has earned 15 semester hours in a Chapman School graduate degree program.

Program Requirements

College Policies

To be eligible for a Master's degree, a student must complete 10 graduate courses equivalent to 30 graduate credit hours and the completion of a series of Professional Development Seminars and/or an Internship approved by the Faculty Advisor. A student must also:

(1) Satisfy all University requirements for a Master's degree;

(2) Satisfy required prerequisites;

(3) Complete the required courses in the specific graduate program in which he/she is enrolled.

(4) Earn a minimum average of "B" (3.0) in all approved courses in the student's approved course of graduate study.

No courses in which a graduate student earns a grade below “C” may be counted towards any Master’s degree program in the Chapman School. However, all approved undergraduate and graduate course work a graduate student takes will be counted in computing his or her grade point average, including courses in which he or she has earned a “D” or “F” grade.

Faculty have the discretion to administratively drop students who do not attend the first class of a course.

Degree Requirements

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- SCM6016 - Supply Chain Management
- MAR6805 - Marketing Management in the Global Environment

MASCOMM:MS - Master of Science in Mass Communication

Overview

Degree Offered
MS - Master of Science

Program Title
Mass CommunicationSchl of Journalism & Mass Comm: ACEJMC Accredi

The Master of Science (MS) in Mass Communication is jointly offered by the **School of Communication** and the **Lee Caplin School of Journalism and Media**. Each school offers unique majors. Please note that the GRE is not required for these programs.

The **School of Communication** has a focus on Global Strategic Communications which is offered both on campus and fully online. With a dual focus on communication management and digital communication, the Global Strategic Communications curriculum reflects the evolving global marketplace, providing an international perspective on such topics as reputation management, branding, social media, crisis communication, and professional ethics, among others. Students are exposed to an audience-focused, data-driven approach to communicating with the public.

To explore the GSC program options:

Global Strategic Communications Major

Global Strategic Communications Major– Fully Online

Global Strategic Communications Creative Major

The **Lee Caplin School of Journalism and Media** offers the Spanish-Language Journalism major, with specializations in multimedia journalism, and Latin American and Caribbean Studies, which allows Spanish- speaking individuals an opportunity to gain professional skills applicable in the Spanish-language media market, and the Advanced News Producing major which equips aspiring journalists with the theoretical and practical expertise to excel in the fast-paced, ever-evolving world of news producing. .

Requirements

Simple Requirements

Admissions Requirements

School of Communication:

Admission Requirements

To be eligible for admission to the graduate program, applicants must meet the following requirements:

(1) All applicants must have a four-year bachelor's degree from an accredited college or university.

(2) All candidates must show promise of success in graduate studies. Applicants must meet the following criteria, in addition to any program-specific requirements:

(a) Meet minimum GPA: Candidates must have a minimum grade point average (GPA) of 3.0 earned during the last 60 hours of upper-level work.

(b) Students applying to the Global Strategic Communications program must submit an essay. Topic should reflect professional goals consistent with the objectives of the master's program.

(c) Students must submit a professional and current resume.

(d) Students must submit 2 letters of recommendation from individuals suited to evaluate their potential as a graduate student.

(3) Applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. Applicants that attended undergraduate institutions that do not teach in English must also meet this requirement, even if the institution is located within the United States. Students should adhere to the Florida International University English-Language Requirements for Graduate School Admission.

Students applying to the Global Strategic Communications – Creative Major program will be subject to a rigorous portfolio review of their creative work for admission.

Application Procedures

A student applying for admission to the graduate program must:

(1) Complete online graduate admissions application available at Graduate Applicant | FIU Admissions.

(a) Have two official copies of transcripts from all colleges or universities attended sent to the Admissions Office. (Copies submitted by applicants will be rejected.)

(b) Submit appropriate test scores and documents to the Admissions Office.

Admissions Deadlines

Students should adhere to the Florida International University graduate admissions deadlines for Fall, Spring and Summer terms. These deadlines are listed at Graduate Applicant | FIU Admissions.

Note that domestic students and international students have different deadlines. Additionally, application deadlines are different for the Global Strategic Communications online program.

Lee Caplin School of Journalism & Media:

Admissions Requirements

To be eligible for admission to the graduate program, applicants must meet the following requirements:

(1) All applicants must have a bachelor's degree from an accredited college or university.

(2) All candidates must show promise of success in graduate studies. Applicants must meet the following criteria, in addition to any program-specific requirements:

(a) Meet minimum GPA: Candidates must have a minimum grade point average (GPA) of 3.0 earned during the last 60 hours of upper-level work.

(b) Students must submit a 500-750 word essay. Topic should reflect why the program is a suitable fit for the applicant's needs.

(c) Students must submit a professional and current resume.

(3) International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the iBT TOEFL or 6.5 overall on the IELTS is required. No minimum TOEFL score for the Spanish-Language Program is required, for candidates that chose the Spanish-Language Multimedia Track. For those that chose the Latin America and Caribbean Track, a minimum score of 500 will be required. Candidates who have taken or passed the TOEFL more than two years before they apply for admission to the program must repeat the test with the required score.

Application Procedures

A student applying for admission to the graduate program must:

(1) Complete online graduate admissions application available at Graduate Applicant | FIU Admissions

(a) Have two official copies of transcripts from all colleges or universities attended sent to the Admissions Office. (Copies submitted by applicants will be rejected.)

(b) Submit appropriate test scores and documents to the Admissions Office.

Admissions Deadlines

Students should adhere to the Florida International University graduate admissions deadlines for Fall, Spring and Summer terms. These deadlines are listed at Graduate Applicant | FIU Admissions.

Note that domestic students and international students have different deadlines. If you have any questions regarding these deadlines, please call the Graduate Admissions office at (305) 348-7000.

Business Journalism Major

Admission to this major is currently suspended.

Spanish-Language Journalism Major

See above admission requirements for the Caplin School of Journalism and Media

Student Media Advising Major

Admission to this major is currently suspended.

Admissions Requirements for the 4+1 MS in Mass Communication (major: Global Strategic Communications) Accelerated Degree Pathway

(1) Current enrollment in an approved bachelor's degree program at FIU

(2) Completed a minimum of 75 undergraduate credits

(3) Current GPA of 3.2 or higher

(4) Complete the separate 4 + 1 application, including signed approval by the director, coordinator or designee of the graduate program.

Admissions Requirements for the 4+1 MS in Mass Communication (major: Spanish-Language Journalism) Accelerated Degree Pathway

(1) Current enrollment in an approved bachelor's degree program at FIU

(2) Completed a minimum of 75 undergraduate credits

(3) Current GPA of 3.2 or higher

(4) Complete the separate 4 + 1 application, including signed approval by the director, coordinator or designee of the graduate program.

Program Requirements

Degree Requirements Plan of Study/Commencement of Program

Upon admission to the graduate program, each student will be advised on their plan of study by a faculty advisor. In most cases, this will be the director of the appropriate graduate program. The advisor will be responsible for developing the student's plan of study, requesting applicable transfer of credit where appropriate, monitoring the student's academic progress, and ensuring the fulfillment of the requirements for the master's degree. This will also include a timetable for completion of the work. Any changes in the plan must be approved by the faculty advisor and the appropriate chairperson.

Competency in Statistics

Competence in the fundamentals of statistics is required of all graduate students. In order to register for MMC5440 Research Seminar, students must demonstrate a knowledge of statistics in one of three ways: by having taken a course in statistics within the last three years, passing an examination in the subject, or taking a special seminar, offered simultaneously with the commencement of the graduate research course.

Professional Experience

Professional experience in a field directly related to the specialization is an advantage. Applicants without such professional experience may be required to complete up to 9 credits of additional undergraduate course work and/or to complete an internship with a professional organization. After an interview with the applicant, the student's faculty advisor will determine the amount of undergraduate work and the undergraduate courses to be completed, if necessary.

Transfer Credit

Students may petition the appropriate advisor to transfer up to six hours of graduate credit toward the degree. To be approved for transfer, the courses must have been previously taken at an accredited college or university; the student's advisor must judge the courses relevant to the student's plan of study; the student must not have used the credits toward another degree; the student must have earned a 'B' or higher in the courses, and meet the University requirements. No transfer courses will substitute for skills courses in any area of specialization in the master's program. All transfer credit must have been completed within the six-year period preceding the date the degree is granted.

Time Limit

All work applicable to the degree, including transfer credit, must be completed within six years of first enrollment in the master's program.

Grades

Students must maintain a minimum GPA of 3.0 in all courses required for the degree. No more than two ‘C’ grades will be allowed.

Professional Project, Thesis

Students complete a professional project in their areas of specialization. Work on the project generally will be completed during the final semester. Students must receive a ‘B’ or higher on the project for it to be accepted. Students may also opt to do a thesis; GPA requirements are the same.

Required Courses (School of Communication: Global Strategic Communications Major & Global Strategic Communications–Creative Major)

To earn the M.S. in Mass Communication, students must meet the following requirements:

(1) Students must take at least 30 hours of acceptable graduate credit. Of those hours, all courses taken toward graduation must be at the graduate level.

(2) At least 27 hours must be taken in the School of Communication, unless otherwise approved by the School Director.

Required Courses (Lee Caplin School of Jornalism and Media Student Media Advising Major, Spanish-Language Journalism Major, & Business Journalism Major)

To earn the M.S. in Mass Communication, students must meet the following requirements:

(1) Students must complete the major requirements of acceptable graduate credit. Of those hours, all courses in the Lee Caplin School of Journalism and Media taken toward graduation must be at the graduate level.

(2) At least 27 hours must be in the Lee Caplin School of Journalism and Media.

Degree Core Requirements: 12 Credits

Type

Completion Requirement

Required Courses

All students must take one course in each of the core areas:

Fulfill ALL of the following requirements:

Communication Theory: 3 Credits

Complete at least 1 of the following courses:

- DIG5367 - Cinematic Story Development & Animatics
- DIG5796 - Game Design Theory & Systems
- PUR6005 - Strategic Communication Theories
- MMC6402 - Theories of Mass Communication
- MMC6108 - Theories of Mass Communication and Writing

AND

Research Methods and Processes: 3 Credits

Complete at least 1 of the following courses:

- COM6318 - Applied Research Methods

- MMC5440 - Applied Research Methods in the Mass Media
- DIG5356 - Real-Time Pipeline Planning

AND

Ethics and Social Responsibility: 3 Credits

Complete at least 1 of the following courses:

- DIG5416 - AI in Cinematic Production
- DIG6655 - AI in Game Development
- JOU6185 - Reporting Social and Ethnic Issues
- MMC6213 - Ethics and Social Responsibility
- PUR6206 - Ethics and Social Responsibility

AND

Professional Project: 3 Credits

Complete at least 1 of the following courses:

- PUR6956 - Professional Project
- MMC6950 - Mass Communication Professional Project
- DIG6724 - Game Engine Post-Production

Major Requirements

Global Strategic Communications Major

This School of Communication major is designed to give students a general background in strategic communications and to help them prepare for advancement in advertising, public relations, and integrated communications careers while providing knowledge and understanding for addressing global, national, and local audiences and communication issues. Most students complete the program in 18 to 24 months. *In addition, this GSC program can be completed fully online in 12 months if taken full time.*

Global Strategic Communications Major Credit Hours: 30

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Core Curriculum: 12 Credits

All students must take the following core courses:

Complete ALL of the following Courses:

- PUR6005 - Strategic Communication Theories
- COM6318 - Applied Research Methods

- PUR6206 - Ethics and Social Responsibility
- PUR6956 - Professional Project

**PUR6956 Prof. Project: (prereq: completion of 24 credit hours)*

AND

Other Required Course: 3 Credits

Complete ALL of the following Courses:

- PUR6607 - Global Strategic Communication Management

AND

GSC Required Electives: 15 Credits

Choose five of the following:

Complete at least 5 of the following courses:

- ADV6805C - Advertising and Public Relations Creative Strategy
- PUR6625 - Digital Media Management
- PUR6117 - Strategic Storytelling and Digital Content Creation
- PUR6508 - Social Media Metrics and Evaluation
- MMC5268 - Communication in the Digital Age
- COM6085 - Communication in the Digital Age
- PUR6115 - Applied Media Skills
- MMC5932 - Special Topics Seminar
- COM6435 - Global Communication
- MMC6135 - Multimedia Production and Design
- ADV6305 - Media Planning
- COM6915 - Independent Studies
- COM6945 - Graduate Internship
- MMC6951C - Professional Project II
- PUR5406 - Multi-Cultural Communications
- PUR6610 - Global Reputation Management
- PUR6477 - Strategic Facilitation
- PUR6806 - Global Account Planning
- PUR6935 - Advanced Communications Seminar
- PUR5476 - Communication for Change Management

**COM6915 Indep. Study and COM6945 Grad Internship: with permission*

Additional Comments:

Students may earn a graduate certificate in CONRE:CFI from the FIU Center for Labor Research and Studies along with the M.S. degree in Global Strategic Communication. To complete this certificate students must take the three LBS electives, and PUR 5690 and PUR 5476, as part of their 30 credits toward the master's degree.

Global Strategic Communications – Creative Major

The School of Communication Global Strategic Communications - Creative Major is a rigorous, five-semester lock-step self-supporting continuing education program that is limited to a select number of qualified students who have shown above average creative potential and wish to combine a theoretical knowledge of communications with a more in-depth exposure to creative concepts.

A portfolio review is required for admission.

The Global Strategic Communications - Creative Major incorporates these features: unique combination of academic and creative courses; interaction with top creative professionals; access to Miami Ad School (M.Ad) faculty and facilities; and optional semester away and internships at top advertising agencies.

Global Strategic Communications – Creative Major Credit Hours: 39

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Part I

Being a lockstep program, all students must take the following core courses: 21 Credits

Complete ALL of the following Courses:

- PUR6005 - Strategic Communication Theories
- COM6318 - Applied Research Methods
- PUR6956 - Professional Project
- PUR6206 - Ethics and Social Responsibility
- PUR6607 - Global Strategic Communication Management
- VIC5205 - Trends in Graphics and Design
- ADV6805C - Advertising and Public Relations Creative Strategy

AND

Part II

In addition, all students must take the following skills courses at partner school, Miami Ad (M.Ad) School: 18 Credits

Complete ALL of the following Courses:

- PUR6935 - Advanced Communications Seminar
- ADV6503 - Seminar in Advanced Creativity

**ADV6503 Advanced Creativity: 15 credits*

Spanish-Language Journalism Major

The Lee Caplin School of Journalism and Media major Spanish-language Multimedia Journalism major is geared toward Spanish-speaking students educated in the United States who wish to expand their professional options in the Spanish-language media market. It is also designed for Latin American students and journalists who need to acquire writing and reporting skills to work for Spanish print or broadcast media.

This a one-of-a-kind program is offered entirely in Spanish, although bilingual students have the option to present their homework and projects in English. The master's specializes in investigative journalism, a concept incorporated in all the skills courses.

The program, designed to start in the fall, may be completed in one year and consists of 36 credits (12 courses of three credits each). One is an elective and can be taken outside of the Lee Caplin School of Journalism & Media. The courses are only offered once a year in the semester indicated below, except for the Final Professional Project, which is offered in the fall, spring and summer terms.

Spanish-Language Journalism Major Credit Hours: 36

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Degree Core Requirements: 12 Credits

Complete ALL of the following Courses:

- MMC6108 - Theories of Mass Communication and Writing
- MMC5440 - Applied Research Methods in the Mass Media
- JOU6185 - Reporting Social and Ethnic Issues
- MMC6950 - Mass Communication Professional Project

AND

Additional Courses: 18 Credits

Complete ALL of the following Courses:

- RTV6309 - Visual Storytelling and Production
- RTV6603 - Visual Storytelling and Production II
- VIC6005 - Web Design and Data Visualization
- JOU6118 - Investigative Journalism
- MMC6213 - Ethics and Social Responsibility
- MMC6257 - Media Management and Entrepreneurship

AND

Electives: 6 Credits

Graduate level approved by the coordinator. May include courses from the above list if not taken to meet that requirement.

Additional Comments:

For additional information about the Spanish-language Journalism program please call (305) 919-4617 or email SCJ@fiu.edu.

Student Media Advising Major

Admission to this major is currently suspended.

The Lee Caplin School of Journalism and Media major is designed primarily for journalism teachers and/or student media advisors on all levels, the program trains teachers/advisors or those aspiring to the profession in areas related to everyday work.

Student Media Advising Major Credit Hours: 36

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Part I

Degree Core Requirements: 12 Credits

All students must take the following core courses:

Complete ALL of the following Courses:

- MMC6402 - Theories of Mass Communication
- MMC5440 - Applied Research Methods in the Mass Media
- MMC6213 - Ethics and Social Responsibility
- MMC6950 - Mass Communication Professional Project

AND

Part II

In addition to the core courses, students in the student media advising specialization must take the following courses: 9 Credits

Complete ALL of the following Courses:

- JOU5806 - Student Media Advising
- VIC5205 - Trends in Graphics and Design

Additional Course (consult with advisor) (3 credits)

AND

Part III

Students must also take two additional three-credit graduate courses in the School of Communication and Journalism in an appropriate area of emphasis. Courses must be approved by the student's advisor.

AND

Part IV

Nine hours must be in a field of concentration outside the Lee Caplin School of Journalism & Media. A minimum of three of those credits have to be at the graduate level (5000 or 6000 level).

Additional Comments:

For additional information about the Student Media Advising program please call (305) 919-5625 or email scj@fiu.edu.

Business Journalism Major

- DIG6550 - Game Production Workflows

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Spanish-language Journalism Major with a Track in Latin American and Caribbean Studies

Latin American and Caribbean Studies is designed for graduate students who are new to journalism, and for those who want to further their knowledge in this field. It also offers them the opportunity to specialize in areas of political science that are fundamental for journalists who want to cover Latin American issues. This interdisciplinary program will enable

students to delve into the political and historical Latin American context of the stories they will cover as reporters. As a result, they have a better understanding of the issues they will be confronted with; they will produce in-depth journalistic work.

The program follows the Spanish-Language Journalism Major (Four Core Courses, and five Additional Courses (three credits each). The Electives requirement must be fulfilled with courses offered through the Latin American and Caribbean Center (LACC) [in English] or approved courses in other Steven J. Green School of International and Public Affairs (SIPA) (12 credits). The professional Project must be completed in Spanish, and it will be supervised and graded by faculty members of Spanish-language Multimedia Journalism Major.

Spanish-Language Journalism/Latin American and Caribbean Studies Track Credit Hours: 36

Type
Completion Requirement

Track Elective Requirement - LACC Course: 12 Credits

Complete ALL of the following Courses:

- LAS6003 - Survey Latin America
- LAH5935 - Topics in Latin American History
- INR6107 - U.S. Foreign Policy: Processes and Institutions

Additional Course (consult with advisor) (3 credits)

Additional Comments:
For additional information about the Spanish-language Journalism program please call (305) 919-4617 or email SCJ@fiu.edu.

Other Curricular Offering: 4+1 MS in Mass Communication (major: Global Strategic Communications) Accelerated Degree Pathway

With advisor approval, students from undergraduate majors in a variety of fields may apply to the 4+1 MS in Mass Communication (major: Global Strategic Communications) Accelerated Degree Pathway. If accepted, students will be allowed to take up to 12 credits of graduate courses which will apply toward both their undergraduate and their master's degree programs.

Other Curricular Offering: 4+1 MS in Mass Communication (major: Spanish-Language Journalism) Accelerated Degree Pathway

With advisor approval, students from undergraduate majors in a variety of fields may apply to the 4+1 MS in Mass Communication (major: Spanish-language Journalism) Accelerated Degree Pathway. If accepted, students will be allowed to take up to 12 credits of graduate courses which will apply toward both their undergraduate and their master's degree programs.

MAT612:CFI - Graduate Certificate in Grades 6-12 Mathematics Teaching

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Grades 6-12 Mathematics Teaching

The 6-12 Mathematics Teaching Certificate Program enables teachers to extend their competence in teaching 6-12 grade mathematics. It will deepen their understanding of mathematics content, problem solving and reasoning and their knowledge of ways of teaching mathematics to 6-12 grade students from diverse and minority backgrounds. Completion of the certificate will better prepare individuals for teaching mathematics in secondary schools.

Requirements

Simple Requirements

Admissions Requirements

All Students completing the BA in Mathematics must complete the Mathematics Education Major (FIUteach).

The following are admission requirements for major.

To qualify for admission to the program, a student must have met all the lower division requirements and must be otherwise acceptable into the program. In addition to the University Core Curriculum, Foreign Language, and Common Prerequisites, requirements include a minimum overall GPA of 2.5 for all lower-division/transfer coursework and achieve the competencies of the FTCE General Knowledge Exam.

All students must pass the GK Exam by the time they reach 72 credit hours in their program of study. All stated admission requirements are to be considered minimum.

A student who meets these minimum requirements is not automatically assured admission. Program admission requirements are subject to change. It is the responsibility of the student to assure that he/she has met the requirements.

All program requirements can be found under the “Program Requirements” section

Program Requirements

Academic Progression Requirements

Students admitted to the university are admitted directly to their chosen major. Students are expected to make satisfactory progress based on critical indicators, such as GPA in specific courses or credits earned. In cases where students are not making satisfactory progress, a change of major may be required. Advisors work to redirect students to more appropriate majors when critical indicators are not met.

Degree Program Credit Hours: 120

Simple Requirements

Admissions Requirements

Entrance requirements are Bachelor’s degree and a 3.0 GPA in the last two years of college work.

This certificate is open to degree-seeking students only.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Program Credit Hours: 15

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MAE5348 - Numbers and Operations for Teaching in Grades K-5
- MAE6357 - Elements of Algebra and Data Analysis for Teaching in Grades K-5

- MAE6358 - Elements of Geometry and Measurement for Teaching in Grades K-5
- MAE6318 - Instruction in Elementary Mathematics
- MAE5945 - Practicum: Mathematics Education

With the approval of the Graduate Program Director, up to 12 graduate credits taken in the graduate certificate may be transferred into a master's degree program. If a certificate student is admitted to a master’s degree program before the student has completed more than 12 graduate credits, all the credits earned in a graduate certificate program may be used toward fulfilling the requirements of the master's degree program.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

MATHSC2:BS - Bachelor of Science in Mathematical Sciences

Overview

Degree Offered
BS - Bachelor of Science

Program Title
Mathematical Sciences

The Bachelor of Science (BS) in Mathematical Sciences emphasizes a deep study of both the theoretical and practical aspects of mathematics, statistics, and data science. Possible occupations that a graduate of this degree program may, depending on the major/track chosen, be prepared for include actuary, operations research analyst, mathematician, statistician, and data scientist. Furthermore, a student who is planning to continue into graduate study in the mathematical sciences should enroll in this degree program.

For more information, visit the College of Arts, Sciences, and Education website.

Admissions Requirements for the Bachelor of Science (BS) in Mathematical Sciences

See general university admissions requirements at admissions.fiu.edu.

Admissions Requirements for the Combined BS in Mathematical Sciences to Master of Science (MS) in Mathematical Sciences Accelerated Degree Pathway

To be considered for admission to the combined bachelor’s/master’s degree pathway, students must have completed at least 75 credits in the bachelor’s degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree pathway, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor’s degree program. A student admitted to the combined degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor’s degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Admission Requirements

(1) Current enrollment in a Bachelor's degree program in mathematics.

(2) Current overall GPA of at least 3.2 and GPA of at least 3.2 in upper division courses.

(3) Completion of 75-90 undergraduate credit-hours.

(4) Verbal and Quantitative GRE scores with a minimum of 151 in the quantitative portion before entering the MS phase of the program.

(5) Approval of the graduate committee.

Program Requirements

Academic Progression Requirements

Students admitted to the university are admitted directly to their chosen major. Students are expected to make satisfactory progress based on critical indicators, such as GPA in specific courses or credits earned. In cases where students are not making satisfactory progress, a change of major may be required. Advisors work to redirect students to more appropriate majors when critical indicators are not met.

Lower Division Requirements

Type

Prerequisite

Common Prerequisite Courses Part I

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Complete ALL of the following Courses:

- MAC2311 - Calculus I
- MAC2312 - Calculus II
- MAC2313 - Multivariable Calc
- MAP2302 - Differential Equations
- COP2210 - Programming I
  OR COP2250 - Java Programming

MAP2302 Differential Equat is not required for Statistics Majors.

Common Prerequisites Part II

Complete at least 1 of the following courses:

- BSC2010 - General Biology I
  AND BSC2010L - General Biology I Lab
- BSC2011 - General Biology II: Diversity of Life, Organismal Structure and Function
  AND BSC2011L - General Biology Lab II
- CHM1045 - General Chemistry I
  AND CHM1045L - General Chemistry Lab I
- CHM1046 - General Chemistry II
  AND CHM1046L - General Chemistry Lab II
- PHY2048 - Physics with Calculus I

AND PHY2048L - General Physics Laboratory I
- PHY2049 - Physics with Calculus II
  AND PHY2049L - General Physics Laboratory II
- GLY1010 - Physical Geology
  AND GLY1010L - Physical Geology Lab

Mathematical Sciences Degree Core

Type
Completion Requirement

Mathematics

All students must select at least **three** courses from the core groups (Mathematics and Statistics) as detailed in each major's requirements below.

Fulfill ALL of the following requirements:

Mathematics

Complete ANY of the following Courses:
- MAS3105 - Linear Algebra
- MAA3200 - Intro To Adv Math

AND

Statistics

Complete ANY of the following Courses:
- STA4321 - Introduction to Mathematical Statistics I
- STA4362 - Statistical Machine Learning

Electives

Once students complete their major, the balance of credits necessary for graduation may be chosen from any courses in the University approved by the student's advisor.
Elective Restrictions for the Mathematical Science or Mathematical Data Science Major

The following courses are not acceptable for credit toward graduation, unless a student has passed the course before declaring a Mathematical Science or Mathematical Data Science as a major: MAC2233 Applied Calculus,STA2122 Intro to Applied Statistics, STA3123 Stat for Behav Scien II, STA2023 Statistical Methods, and QMB3200 Bus Stats & Analysis I (College of Business).

Elective Restrictions for the Statistics Major

The following courses are not acceptable for credit toward graduation, unless a student has passed the course before declaring a Statistics major: MAC2233 Applied Calculus, STA2023 Statistical Methods, STA3033 Intro to Prob & Stats for CS, STA3111 Statistics I, STA3112 Statistics II, STA2122 Intro to Applied Statistics, STA3123 Stat for Behav Scien II, STA3145 Sta Hlth Profession and QMB3200 Bus Stats & Analysis I (College of Business).

Major Requirements

Students must choose one of the following majors:

The major in Mathematics – Comprehensive Track is the traditional Bachelor's degree in mathematics offers students the possibility of learning rigorously and deeply the fundamental ideas and concepts of modern mathematics. This major is mainly designed for students intending to pursue graduate studies in mathematics or graduate schools leading to careers in academia or engineering. Graduates can also enter the work force in fields where analytical skills are needed such as jobs in statistics, actuarial sciences, finance, biotech, and mathematics education.

Major in Mathematics - Comprehensive Track

Type

Completion Requirement

Required Courses Part I

Complete ALL of the following Courses:

- MAD2104 - Discrete Mathematics
- MAS3105 - Linear Algebra
- MAA3200 - Intro To Adv Math
- MAA4211 - Advanced Calculus
- MAS4301 - Algebraic Structures
- STA4321 - Introduction to Mathematical Statistics I
- MAT4934 - Senior Mathematics Seminar

Required Courses Part II

Complete at least 1 of the following courses:

- IDS4174 - Mathematics and Philosophy in Arts
- MHF3404 - History Of Math
- MHF4401 - Methods in the History of Modern Mathematics

Required Courses Part III

Complete at least 3 of the following courses:

- MAD4203 - Intro Combinatorics
- MAA4402 - Complex Variables
- MTG3212 - College Geometry
- MAS4302 - Topics in Algebraic Structures
- MTG4302 - Topology

Required Courses Part IV

Complete at least 3 of the following courses:

- MAP4401 - Advanced Differential Equations
- MAD3301 - Graph Theory
- MAP3103 - Math Model Appl (Inactive)
- STA4322 - Introduction to Mathematical Statistics II
- MAD3401 - Numerical Analysis
- MHF4302 - Math Logic
- MHF4102 - Axiomatic Set Thry

Additional Science Course with Lab

Students must complete one additional Science Course with Lab from the Common Prerequisites Part II list.

The major in Mathematics – Biology Track gives an opportunity to undergraduate mathematics students interested in biology to be exposed to the interplay between the two disciplines. It also provides a firm mathematical foundation necessary for graduate studies in the life sciences. Courses for this major includes mathematics, statistics, and biology.

Major in Mathematics – Applied Math Track

Type

Completion Requirement

Required Courses Part I

Complete ALL of the following Courses:

- MAS3105 - Linear Algebra
- MAD2104 - Discrete Mathematics
- MAA3200 - Intro To Adv Math
- STA4321 - Introduction to Mathematical Statistics I
- MAA4211 - Advanced Calculus
- MAD3401 - Numerical Analysis
- MAP4104C - Topics in Mathematical Modeling

Required Courses Part II

Complete at least 1 of the following courses:

- IDS4174 - Mathematics and Philosophy in Arts
- MHF3404 - History Of Math
- MHF4401 - Methods in the History of Modern Mathematics

Note: Students wishing to go to graduate school in Mathematical Sciences are strongly advised to take MAA 4402 Complex Variables.

Math Elective List

Complete at least 4 of the following courses:

- MAD4203 - Intro Combinatorics
- MAA4402 - Complex Variables
- MAA4212 - Adv Calculus II
- MAS4301 - Algebraic Structures
- MAS4302 - Topics in Algebraic Structures
- MAP4401 - Advanced Differential Equations
- MAD3301 - Graph Theory
- MAD3512 - Theory of Algorithms
- MAD3512 - Theory of Algorithms
- MHF4102 - Axiomatic Set Thry
- MHF4302 - Math Logic
- MAP4634 - Quantitative Risk Management
- MAS4203 - Number Theory

- MAP4215 - Stochastic Differential Equations
- MAP4315 - Nonlinear Dynamics with Applications to Sciences
- MAP3253 - Mathematical Scientific Computation
- MAP4412 - Introduction to Fourier Analysis
- MAA4504 - Functional Analysis
- MAS4310 - Introduction to Algebraic Geometry
- MTG4254 - Differential Geometry
- MTG4302 - Topology
- STA4322 - Introduction to Mathematical Statistics II

The major in Mathematics – Biology Track gives an opportunity to undergraduate mathematics students interested in biology to be exposed to the interplay between the two disciplines. It also provides a firm mathematical foundation necessary for graduate studies in the life sciences. Courses for this major includes mathematics, statistics, and biology.

Students must fulfill the required courses and complete on of the options below.

Major in Mathematics – Biology Track

Type

Completion Requirement

Required Courses Part I

Complete ALL of the following Courses:

- MAS3105 - Linear Algebra
- MAD2104 - Discrete Mathematics
- MAA3200 - Intro To Adv Math
- STA4321 - Introduction to Mathematical Statistics I
- MAD3401 - Numerical Analysis
- MAP4104C - Topics in Mathematical Modeling
- MAP4401 - Advanced Differential Equations
- MAP4315 - Nonlinear Dynamics with Applications to Sciences
- BSC2010 - General Biology I
  AND BSC2010L - General Biology I Lab
- BSC2011 - General Biology II: Diversity of Life, Organismal Structure and Function
  AND BSC2011L - General Biology Lab II
- PCB3063 - Genetics

Required Upper Division Biology Course

One upper division (level 3000 or higher) biology course with the approval of the math advisor

Required Courses Part II

Complete at least 1 of the following courses:

- IDS4174 - Mathematics and Philosophy in Arts
- MHF3404 - History Of Math
- MHF4401 - Methods in the History of Modern Mathematics

Options

Fulfill ANY of the following requirements:

Option 1

Complete ALL of the following Courses:

- STA3163 - Statistical Methods I
- STA3164 - Statistical Methods II

OR

Option 2

Complete at least 2 of the following courses:

- STA4234 - Introduction to Regression Analysis
- STA4202 - Introduction to Design of Experiments
- STA4502 - Introduction to Non-parametric Methods

The major in Mathematics – Business Track gives an opportunity to undergraduate mathematics students interested in business and finance to be exposed to the interplay between mathematics and these two disciplines. It also provides a firm mathematical foundation necessary for graduate studies in finance. Courses needed for this major includes mathematics, statistics, economics, and business.

Major in Mathematics - Business Track

Type

Completion Requirement

Required Courses Part I

Complete ALL of the following Courses:

- ECO2023 - Principles of Microeconomics
- ECO2013 - Principles of Macroeconomics
- MAD2104 - Discrete Mathematics

Required Courses Part II

Complete ALL of the following Courses:

- MAS3105 - Linear Algebra
- MAA3200 - Intro To Adv Math
- STA4321 - Introduction to Mathematical Statistics I
- MAD3401 - Numerical Analysis
- MAP4104C - Topics in Mathematical Modeling
- MAP4634 - Quantitative Risk Management
- MAP4215 - Stochastic Differential Equations
- STA4322 - Introduction to Mathematical Statistics II
- ACG3024 - Introduction to Accounting for Managers and Investors
- FIN3005 - Introduction to Business Finance

Required Courses Part III

Complete at least 1 of the following courses:

- IDS4174 - Mathematics and Philosophy in Arts
- MHF3404 - History Of Math
- MHF4401 - Methods in the History of Modern Mathematics

Required Courses Part IV

Complete at least 1 of the following courses:

- ECO3101 - Intermediate Microeconomics
- ECO3202 - Applied Macroeconomics
- ECO3203 - Intermediate Macroeconomics
- ECO3223 - Money and Banking

The major in Mathematics – Chemistry Track gives an opportunity to undergraduate mathematics students interested in chemistry to be exposed to the interplay between two disciplines. It also provides a firm mathematical foundation necessary for graduate studies in chemistry and the life sciences. Courses needed for this major include offerings from mathematics, statistics, and chemistry.

Major in Mathematics - Chemistry Track

Type

Completion Requirement

Required Courses Part I

Complete ALL of the following Courses:

- MAA3200 - Intro To Adv Math
- MAD2104 - Discrete Mathematics
- MAS3105 - Linear Algebra
- STA4321 - Introduction to Mathematical Statistics I
- MAD3401 - Numerical Analysis
- MAP4104C - Topics in Mathematical Modeling
- MAP4401 - Advanced Differential Equations
- PHY2048 - Physics with Calculus I
  AND PHY2048L - General Physics Laboratory I
- PHY2049 - Physics with Calculus II
  AND PHY2049L - General Physics Laboratory II
- CHM1045 - General Chemistry I
  AND CHM1045L - General Chemistry Lab I
- CHM1046 - General Chemistry II
  AND CHM1046L - General Chemistry Lab II
- CHM2210 - Organic Chemistry I
- CHM3410 - Physical Chemistry I
- CHM3411 - Physical Chemistry II

Required Courses Part II

Complete at least 1 of the following courses:

- IDS4174 - Mathematics and Philosophy in Arts
- MHF3404 - History Of Math
- MHF4401 - Methods in the History of Modern Mathematics

Note: Students wishing to pursue a graduate degree in Mathematical Sciences are strongly advised to take MAA4211 Advanced Calculus and MAS4301 Alg Structures. Students wishing to pursue graduate studies in Biochemistry or Bioinformatics will be encouraged to take Biological Chemistry CHM4304 Biol Chemistry I (the Chemistry Department will waive Organic Chemistry CHM2211 Organic Chem II and Quantitative Analysis CHM3120 Intro Analyt Chem).

The major in Mathematics – Computer Science Track gives an opportunity to undergraduate mathematics students interested in computer science to be exposed to the interplay between the two disciplines. It also provides a firm mathematical foundation necessary for graduate studies in computer science. Courses needed for this major include offerings from mathematics, statistics, and programming.

Major in Mathematics - Computer Science Track

Type

Completion Requirement

Required Courses Part I

Complete ALL of the following Courses:

- MAA3200 - Intro To Adv Math
- MAD2104 - Discrete Mathematics
- MAS3105 - Linear Algebra
- STA4321 - Introduction to Mathematical Statistics I
- MAD3401 - Numerical Analysis
- MAP4104C - Topics in Mathematical Modeling
- MAD3512 - Theory of Algorithms
- COP3337 - Computer Programming II
- COP3530 - Data Structures

Required Courses Part II

Complete at least 1 of the following courses:

- CDA3102 - Computer Architecture
- CDA3103 - Fundamentals of Computer Systems

Required Courses Part III

Complete at least 1 of the following courses:

- IDS4174 - Mathematics and Philosophy in Arts
- MHF3404 - History Of Math
- MHF4401 - Methods in the History of Modern Mathematics

Required Courses Part IV

Complete at least 1 of the following courses:

- MAD3301 - Graph Theory
- MAP3253 - Mathematical Scientific Computation
- MAA4402 - Complex Variables
- STA4322 - Introduction to Mathematical Statistics II

Required Courses Part V

Complete at least 1 of the following courses:

- COP4338 - Systems Programming
- COP4710 - Database Management
- CAP4770 - Introduction to Data Mining
- COP4534 - Algorithm Techniques
- CAP4710 - Principles of Computer Graphics

The major in Mathematics – Economics Track gives an opportunity to undergraduate mathematics students interested in economics to be exposed to the interplay between two disciplines. It also provides a firm mathematical foundation necessary for graduate studies in economics or finance. Courses needed for this major includes mathematics, statistics, and economics.

Major in Mathematics - Economics Track

Type

Completion Requirement

Required Courses Part I

Complete ALL of the following Courses:

- ECO2013 - Principles of Macroeconomics
- ECO2023 - Principles of Microeconomics
- ECO3101 - Intermediate Microeconomics
- ECO3203 - Intermediate Macroeconomics
- MAD2104 - Discrete Mathematics
- MAA3200 - Intro To Adv Math
- MAD3401 - Numerical Analysis
- MAS3105 - Linear Algebra
- MAP4104C - Topics in Mathematical Modeling
- MAA4211 - Advanced Calculus
- MAP4215 - Stochastic Differential Equations
- STA4321 - Introduction to Mathematical Statistics I
- STA4322 - Introduction to Mathematical Statistics II

Required Courses Part II

Complete at least 1 of the following courses:

- IDS4174 - Mathematics and Philosophy in Arts
- MHF3404 - History Of Math
- MHF4401 - Methods in the History of Modern Mathematics

Required Courses Part III

Complete at least 1 of the following courses:

- ECO4400 - Economics of Strategy and Information
- ECO4421 - Introduction to Econometrics
- ECO4933 - Topics In Theory

The major in Mathematics – Physics Track gives an opportunity for undergraduate mathematics students interested in physics to be exposed to the interplay between the two disciplines. It also provides a firm mathematical foundation needed for graduate studies in the physical sciences. Courses needed for this major include offerings from mathematics, statistics, and physics.

Major in Mathematics - Physics Track

Type

Completion Requirement

Required Courses Part I

Complete ALL of the following Courses:

- MAD2104 - Discrete Mathematics
- MAS3105 - Linear Algebra
- MAA3200 - Intro To Adv Math
- MAD3401 - Numerical Analysis
- MAP4104C - Topics in Mathematical Modeling
- MAP4401 - Advanced Differential Equations
- STA4321 - Introduction to Mathematical Statistics I
- PHY3106 - Modern Physics
- PHY3802L - Intermediate Physics Lab

Required Courses Part II

Complete at least 1 of the following courses:

- IDS4174 - Mathematics and Philosophy in Arts
- MHF3404 - History Of Math
- MHF4401 - Methods in the History of Modern Mathematics

Required Courses Part III

(Select any two of the following Course Sequences)

Complete at least 2 of the following:

Course Sequence I

Complete ALL of the following Courses:

- PHY4221 - Introduction to Classical Mechanics
- PHY4222 - Advanced Classical Mechanics

OR

Course Sequence II

Complete ALL of the following Courses:

- PHY4323 - Intermediate Electromagnetism I
- PHY4324 - Intermediate Electromagnetism II

OR

Course Sequence III

Complete ALL of the following Courses:

- PHY4604 - Quantum Mechanics I
- PHY4605 - Quantum Mechanics II

Required Courses Part IV

Complete at least 1 of the following courses:

- MAA4211 - Advanced Calculus
- MAA4402 - Complex Variables
- MAA4504 - Functional Analysis
- MAP4215 - Stochastic Differential Equations
- MAP4315 - Nonlinear Dynamics with Applications to Sciences
- MAP4412 - Introduction to Fourier Analysis
- MAS4301 - Algebraic Structures
- MTG4254 - Differential Geometry
- STA4322 - Introduction to Mathematical Statistics II

This undergraduate major in Mathematical Data Science – Computational Data Science & Analytics Track is designed to help prepare Math/Stat students for careers in Data Science, a field rapidly expanding in the private sector. Because computer programming and machine learning are among the primary components of Data Science, most data scientists currently have been trained as computer scientists. This track emphasizes on integration of core data analytics with advanced computing skills. It covers a core of programming courses but complemented by Math and Statistics courses that make graduates a useful complementary part of a data science team working in the private sector.

Major in Mathematical Data Science – Computational Data Science & Analytics Track

Type

Completion Requirement

Required courses

Fulfill ALL of the following requirements:

Part I- Mathematical Data Science Core

Complete ALL of the following Courses:

- MAS3105 - Linear Algebra

- MAS4107 - Linear Algebra II
  AND MAS4107L - Linear Algebra II Lab
- MAD2104 - Discrete Mathematics
- STA4321 - Introduction to Mathematical Statistics I
- STA4322 - Introduction to Mathematical Statistics II
- STA4234 - Introduction to Regression Analysis
- MAP4202 - Optimization
  AND MAP4202L - Optimization Lab
- STA4362 - Statistical Machine Learning
  AND STA4362L - Statistical Machine Learning Lab
- MAP4950C - Senior Design Project for Mathematical Data Science

AND

Part II - Computational Data Science & Analytics Track

Complete ALL of the following Courses:

- CAP2757 - Introduction to Data Science
- COP2047 - Python Programming I
- COP3045 - Python Programming II
- COP3538 - Data Structures Fundamentals

Major in Mathematical Data Science – Statistical & Mathematical Data Analytics Track

This undergraduate major in Mathematical Data Science – Statistical & Mathematical Data Analytics Track is designed to help prepare Math/Stat students for careers in Data Science, a field rapidly expanding in the private sector. Because computer programming and machine learning are among the primary components of Data Science, most data scientists currently have been trained as computer scientists. The Track focuses on quantitative, mathematical, and statistical techniques and aligns with students who may plan to pursue a graduate math degree.

Major in Mathematical Data Science – Statistical & Mathematical Data Analytics Track

Type

Completion Requirement

Required courses

Fulfill ALL of the following requirements:

Part I - Mathematical Data Science Core

Complete ALL of the following Courses:

- MAS3105 - Linear Algebra
- MAS4107 - Linear Algebra II
  AND MAS4107L - Linear Algebra II Lab
- MAD2104 - Discrete Mathematics
- STA4321 - Introduction to Mathematical Statistics I
- STA4322 - Introduction to Mathematical Statistics II
- STA4234 - Introduction to Regression Analysis

- MAP4202 - Optimization
  AND MAP4202L - Optimization Lab
- STA4362 - Statistical Machine Learning
  AND STA4362L - Statistical Machine Learning Lab
- MAP4950C - Senior Design Project for Mathematical Data Science

AND

Part II – Statistical & Mathematical Data Analytics Track

Complete ALL of the following Courses:

- CAP2757 - Introduction to Data Science
- COP2047 - Python Programming I

AND

Part III

Complete at least 2 of the following courses:

- MAP3253 - Mathematical Scientific Computation
- MAD3301 - Graph Theory
- MAD3512 - Theory of Algorithms

The Statistics major is designed to teach students how to collect, analyze, and interpret data. Graduating students will have the necessary job skills for employment in a variety of fields. However, the courses are rigorous so that students are well prepared to pursue a graduate degree in statistics.

Major in Statistics

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MAS3105 - Linear Algebra
- STA3163 - Statistical Methods I
- STA3951 - Oral Presentations in Statistics
- STA4321 - Introduction to Mathematical Statistics I
- STA4322 - Introduction to Mathematical Statistics II
- STA4202 - Introduction to Design of Experiments
- STA4234 - Introduction to Regression Analysis
- STA4664 - Stat Quality Control
- ENC3213 - Professional and Technical Writing

Additional Required Courses

Six additional credit hours of approved statistics courses. Three additional credit hours in an approved

statistics, mathematics, or computer science course.
A grade of ‘C’ or higher in each of these courses is necessary for the major.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Combined BS in Mathematical Sciences to MS in Mathematical Sciences Accelerated Degree Pathway

Type
Completion Requirement

Required Courses

This pathway will allow strong students in mathematics to complete a bachelor’s degree and a master’s degree in 5 years rather than the usual six. A minimum of 140 credits are required for graduation with both the bachelor’s and the master’s degree. In addition to fulfilling the requirements for the Bachelor’s degree in mathematics, these 140 credits include 30 graduate credits required for the Masters of Science in Mathematical Sciences. A maximum of ten (10) graduate mathematics credits can be concurrently used toward the bachelor’s and master’s degrees.

The graduate courses distribution should follow catalog descriptions of the master’s program requirements. Students must take at least 3 courses from List 1 (below) and at least 3 courses from List 2 (below). The balance of the 140 semester hours required for graduation may be chosen from any courses in the university, a minimum of6 of these should be at the upper division level or higher.

Fulfill ALL of the following requirements:

Required Courses: Years 1 and 2

Complete ALL of the following Courses:

- MAC2311 - Calculus I
- MAC2312 - Calculus II
- MAC2313 - Multivariable Calc
- MAS3105 - Linear Algebra
- MAP2302 - Differential Equations

AND

Required Courses: Year 3

Fulfill ALL of the following requirements:

Year 3 Fall Courses

Complete ALL of the following Courses:

- MAA3200 - Intro To Adv Math
- STA4321 - Introduction to Mathematical Statistics I

AND

Year 3 Spring Courses

Complete ALL of the following Courses:

- MAA4211 - Advanced Calculus
- MAS4301 - Algebraic Structures

AND

Year 3 Summer Courses

One course from List 1 Electives or List 2 Electives (shown below), and 1 graduate course

AND

Year 4 Required Courses

Fulfill ALL of the following requirements:

Year 4 Fall Courses: Part 1

Complete ALL of the following Courses:

- MAA6616 - Real Analysis

AND

Year 4 Fall Courses: Part 2

One course from List 1 Electives or List 2 Electives (shown below)

AND

Year 4 Fall Courses: Part 3

Senior Seminar (1 credit)

AND

Year 4 Spring Courses: Part 1

One graduate course

AND

Year 4 Spring Courses: Part 2

Two courses from List 1 Electives or List 2 Electives (shown below)

AND

Year 4 Summer Courses

Three graduate credits

AND

Year 5 Required Courses

Fulfill ALL of the following requirements:

Year 5 Fall Courses

Nine graduate credits

AND

Year 5 Spring Courses

Nine graduate credits

List 1 Electives

Complete at least 3 of the following courses:

- MAD4203 - Intro Combinatorics
- MAA4402 - Complex Variables
- MTG3212 - College Geometry
- MAS4203 - Number Theory
- MAA4212 - Adv Calculus II
- MAS4302 - Topics in Algebraic Structures
- MTG4302 - Topology

List 2 Electives

Complete at least 3 of the following courses:

- MAP4401 - Advanced Differential Equations
- MAD3301 - Graph Theory
- STA4322 - Introduction to Mathematical Statistics II
- MAD3401 - Numerical Analysis
- MHF4302 - Math Logic
- MHF4102 - Axiomatic Set Thry

MATHSC:MS - Master of Science in Mathematical Sciences

Overview

Degree Offered
MS - Master of Science

Program Title
Mathematical Science

The Master of Science (MS) in Mathematical Sciences is open to all students interested in applied mathematics. It has two majors: Mathematics major, and Risk and Management (RAM) major. The Mathematics major is ideal for students interested in applied mathematics with a focus on understanding the foundations of applied mathematics. The RAM major is ideal for students interested in careers in banking, investment firms, public utilities, or hedge funds and other financial instruments.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Master of Science (MS) in Mathematical Sciences

Admission requires a baccalaureate degree in Mathematics or related fields. In addition, applicants must satisfy conditions 3 through 5 in the admission requirements for our MS in Mathematical Sciences, and have a GPA of at least 3.0 in undergraduate studies. Admission to the program requires applicants to have a firm grasp of mathematics at a high undergraduate level. This means calculus through multivariable calculus, linear algebra, and differential equations. Knowledge in probability, statistics, computer programming, economics, or finance is recommended but not required. A student with promise but lacking prerequisites may be admitted but required to take one or more preparatory courses during their first semester.

Students applying to the MS in Mathematical Sciences must meet the university’s graduate admission requirements in addition to the following:

(1) Bachelor’s degree in mathematics, applied mathematics, or mathematical sciences from an accredited university or college. A bachelor’s degree in some other discipline is also acceptable provided the applicant has sufficient mathematics background. The following courses (or equivalent courses) are required for those whose bachelor’s degrees are not in mathematics, applied mathematics. or mathematical sciences: Advanced Calculus, Linear Algebra, Complex Variables, and Algebraic Structures.

(2) A "B" average or higher in upper division mathematics courses.

(3) Three letters of recommendation concerning the candidate's achievement and potential from persons familiar with the candidate's previous academic performance.

(4) International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the iBT TOEFL or 6.3 overall on the IELTS is required.

(5) Approval of the Graduate Committee.

Transfer Credits

A maximum of six graduate semester hours may be transferred into the program from outside the university, subject to the approval of the Graduate Committee.

Admissions Requirements for the MS in Mathematical Sciences (major: Risk Analysis and Management)

Admission requires a baccalaureate degree in Mathematics or related fields. In addition, applicants must satisfy conditions 3 through 5 in the admission requirements for our MS in Mathematical Sciences and have a GPA of at least 3.0 in undergraduate studies. Admission to the program requires applicants to have a firm grasp of mathematics at a high undergraduate level. This means calculus through multivariable calculus, linear algebra, and differential equations. Knowledge in probability, statistics, computer programming, economics, or finance is recommended but not required. A student with promise but lacking prerequisites may be admitted but required to take one or more preparatory courses during their first semester.

Admissions Requirements for the Combined Bachelor of Science (BS) in Mathematical Sciences to MS in Mathematical Sciences Accelerated Degree Pathway

To be considered for admission to the combined BS/MS accelerated degree pathway, students must have completed at least 75 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the accelerated degree pathway, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. A student admitted to the accelerated degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Admissions Requirements

(1) Current enrollment in a bachelor's degree program in mathematics.

(2) Current overall GPA of at least 3.2 and GPA of at least 3.2 in upper division courses.

(3) Completion of 75-90 undergraduate credit-hours.

(4) GRE is not required.

(5) Approval of the graduate committee.

Program Requirements

Program Credit Hours: 30

Type
Completion Requirement

Core Courses (6)

Complete at least 2 of the following courses:

- MAP5467 - Stochastic Differential Equations and Applications
- MAA6406 - Complex Analysis
- MAS5145 - Applied Linear Algebra
- MAP6631 - Intro to Quantitative Risk Analysis and Management
- MAD5405 - Numerical Methods
- MAP5316 - Ordinary Differential Equations

Students completing the major in RAM must complete MAP5467 Stochastic Diff Eqns and MAP6631 Intro Quant RAM to meet the core requirements.

Students will complete the remaining 24 credits in their chosen major.

Graduation Requirements

All course work must be completed with a 3.0 or higher Grade Point Average (GPA) and a grade of "C" or higher in each course. A total of 30 credit hours is required for graduation.

Major Requirements

Mathematics Major

The Mathematics major is ideal for students interested in applied mathematics with a focus on understanding the foundations of applied mathematics

Mathematics Major: 24 credits

Type
Completion Requirement

Program Options

Option 1: The student must complete a minimum of 18 credits in the Major of Mathematics. This course work must include 3 courses from List A and B**.** with at least 1 from each list, excluding those two courses that the student chose as core courses.

Electives

The remaining course work will be used to enhance a coherent program of study best suited to the student's needs and interest. This requires the prior approval of the Graduate Committee and may be done in one or a combination of the following ways: (a) additional course work work from lists A and B; (b) a maximum of 2 courses of independent study, taken with Mathematical Sciences faculty; or (c) graduate-level course work in Engineering, Physics or Statistics.

Master's Project

The student will complete his or her graduation requirements by writing an expository paper under the direction of a faculty member. The student may earn six credits (MAT5970 Master's Research) in preparing the project. Successful completion of the master's project requires a grade of "B" or higher, as well as approval of a committee consisting of three mathematics faculty (including the director).

Option 2: The student must complete course work that includes 7 courses from List A and B. (No master's project requirement)

Electives

The remaining course work will be used to enhance a coherent program of study best suited to the student's needs and interest. This requires the prior approval of the Graduate Committee and may be done in one or a combination of the following ways: (a) additional course work from lists A and B; (b) a maximum of 2 courses of independent study, taken with Mathematical Sciences faculty; or (c) graduate-level course work in Engineering, Physics or Statistics.

List A

Complete ANY of the following Courses:

- MAA6406 - Complex Analysis
- MAA6616 - Real Analysis
- MAP5316 - Ordinary Differential Equations
- MAS5311 - Graduate Algebra
- MHF5107 - Graduate Set Theory
- MHF5306 - Graduate Mathematical Logic
- MHF5325 - Theory of Recursive Functions
- MTG5326 - Introduction to Algebraic Topology
- MAP5415 - Introduction to Fourier Analysis

List B

Complete ANY of the following Courses:

- MAD5405 - Numerical Methods
- MAP5406 - Introduction to Functional and Applied Analysis
- MAP5236 - Mathematical Techniques of Operations Research
- MAP5467 - Stochastic Differential Equations and Applications
- MAP6326 - Partial Differential Equations
- MAS5145 - Applied Linear Algebra

Additional Comments:

Risk Analysis Management Major: 24 credits

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MAP6635 - Risk Analysis and Management I
- MAP6636 - Risk Analysis and Management II
- MAP5117 - Math & Stat Modeling

- MAP6632 - PDE in Risk Analysis and Management
- CAP5768 - Introduction to Data Science

Elective Courses: 9 credits

Earn at least 9 credits from the following:

- MAA6616 - Real Analysis
- MAD5405 - Numerical Methods
- MAP5204 - Optimization and Linear Algebra
- MAP6637 - Risk Analysis and Management III
- ECO7429 - Topics in Econometrics (Inactive)
- FIN6487 - Financial Risk Management -Financial Engineering
- FIN6515 - Securities Analysis
- CAP5610 - Introduction to Machine Learning
- CAP5771 - Principles of Data Mining
- CAP6619 - Advanced Topics in Machine Learning
- ECP6305 - Advanced Environmental Economics
- ENV6614 - Environmental Risk Assessment
- STA6326 - Mathematical Statistics I

Elective courses are not exhaustive; students interested in other courses are encouraged to pursue them upon approval by the graduate program advisor.

Additional Comments:

Students completing the major in RAM must complete MAP 5467 and MAP 6631 to meet the core requirements in addition to the following 24 credits.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Combined BS in Mathematical Sciences to MS in Mathematical Sciences Accelerated Degree Pathway

Type

Completion Requirement

Required Courses

This accelerated degree pathway will allow strong students in mathematics to complete a BS and MS degree in 5 years rather than the usual six. A maximum of ten (10) graduate mathematics credits can be concurrently used toward the BS and MS degrees.

The graduate courses distribution should follow catalog descriptions of the master’s program requirements. Students must take at least 3 courses from List 1 (below) and at least 3 courses from List 2 (below). The balance of the credits required for graduation with a baccalaureate degree may be chosen from any courses in the university, a minimum of 6 of these should be at the upper division level or higher.

Fulfill ALL of the following requirements:

Required Courses: Years 1 and 2

Complete ALL of the following Courses:

- MAC2311 - Calculus I
- MAC2312 - Calculus II
- MAC2313 - Multivariable Calc
- MAS3105 - Linear Algebra
- MAP2302 - Differential Equations

AND

Required Courses: Year 3

Fulfill ALL of the following requirements:

Year 3 Fall Courses

Complete ALL of the following Courses:

- MAA3200 - Intro To Adv Math
- STA4321 - Introduction to Mathematical Statistics I

AND

Year 3 Spring Courses

Complete ALL of the following Courses:

- MAA4211 - Advanced Calculus
- MAS4301 - Algebraic Structures

AND

Year 3 Summer Courses

One course from List 1 Electives or List 2 Electives (shown below), and 1 graduate course

AND

Year 4 Required Courses

Fulfill ALL of the following requirements:

Year 4 Fall Courses: Part 1

Any graduate course

AND

Year 4 Fall Courses: Part 2

One course from List 1 Electives or List 2 Electives (shown below)

AND

Year 4 Fall Courses: Part 3

Senior Seminar (1 credit)

AND

Year 4 Spring Courses: Part 1 (apply for spring graduation)

One graduate course

AND

Year 4 Spring Courses: Part 2

Two courses from List 1 Electives or List 2 Electives (shown below)

AND

Year 4 Summer Courses (fully admitted to Graduate School)

Three graduate credits

AND

Year 5 Required Courses

Fulfill ALL of the following requirements:

Year 5 Fall Courses

Nine graduate credits

AND

Year 5 Spring Courses

Nine graduate credits

List 1 Electives

Complete at least 3 of the following courses:

- MAD4203 - Intro Combinatorics
- MAA4402 - Complex Variables
- MTG3212 - College Geometry
- MAS4203 - Number Theory
- MAA4212 - Adv Calculus II
- MAS4302 - Topics in Algebraic Structures
- MTG4302 - Topology

List 2 Electives

Complete at least 3 of the following courses:

- MAP4401 - Advanced Differential Equations
- MAD3301 - Graph Theory
- STA4322 - Introduction to Mathematical Statistics II

- MAD3401 - Numerical Analysis
- MHF4302 - Math Logic
- MHF4102 - Axiomatic Set Thry

MCH:CFI - Graduate Certificate in Maternal and Child Health

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Maternal and Child Health

The Graduate Certificate in Maternal and Child Health provides graduate-level instruction in the foundation of maternal and child health. Students will gain skills to implement programs, conduct research, and inform policy to improve the health and well-being of women, children, and families. The MCH certificate program is open to both degree-seeking (in a department other than Health Promotion and Disease Prevention) and non-degree-seeking students. For more information, visit the Department of Health Promotion and Disease Prevention website.

Admissions Requirements

No specific admissions requirements. Contact advisor for additional information.

This is certificate is open to both degree-seeking and non-degree-seeking students.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Program Credit Hours: 15

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- PHC6530 - Principles of Maternal and Child Health

- PHC6537 - Case Studies in Maternal and Child Health Programs, Policies and Research

Additional Required Courses

Complete at least 3 of the following courses:

- HUN6415 - Pediatric Nutrition
- PHC6063C - Health Policy Database Applications I
- PHC6113 - Community Health Promotion Planning and Research
- PHC6531 - Environmental Justice: Contextualizing Maternal and Child, Women, Youth, and Family (WYF) Wellbeing
- PHC6600 - Health Promotion Communication Theory and Design
- PHC6750 - Program Development and Evaluation in Health Promotion
- PHC6754C - Analytic Methods in Maternal and Child Health
- PHC6762 - International Public Health
- SOW5240 - Advanced Interventions in Child Maltreatment

There are no track, specialization, concentration, area of emphasis, or other curricular offerings associated with this program.

MECAS:CFI - Graduate Certificate in Middle East and Muslim World Studies

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Middle East and Muslim World Studies

The Graduate Certificate in Middle East and Muslim World Studies provides students with the opportunity to learn more about the increasingly important region of the Middle East, as well as engage in the broader discourse on Islam and global Muslim communities. The program provides a rich multidisciplinary learning experience, with a choice of courses in the fields of international relations, political science, history, religious studies, geography, sociology/anthropology, global cultural studies, and modern languages, among others. The certificate also provides an overview of the Muslim experience in the West.

For more information, visit the Steven J. Green School of International and Public Affairs website.

05.0103

Requirements

Simple Requirements

Admissions Requirements

Baccalaureate degree from an accredited institution for higher education (or equivalent), with a minimum cumulative grade point average of 3.0 for the last two years of undergraduate work, and current enrollment in an FIU graduate program.

This certificate is open to degree-seeking students only.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

A cumulative GPA of 3.0 and a grade of C or higher in all courses applied toward certificate requirements.

Program Credit Hours: 18

Type
Completion Requirement

Core Requirement: 6 credits

Three credits from each group below:

Fulfill ALL of the following requirements:

Group A: 3 credits

Complete at least 1 of the following courses:

- CPO6407 - Seminar in Politics of the Middle East
- INR5275 - International Relations of the Middle East
- INR5086 - Islam in International Relations
- INR5276 - Graduate Seminar The International Relations of Iran and the Persian Gulf

Group B: 3 credits

Complete at least 1 of the following courses:

- INR5086 - Islam in International Relations
- RLG6097 - Muslim Concepts of War: A Perspective for National Security (Inactive)
- RLG6094 - Seminar in Religious Fundamentalism
- RLG6096 - Advanced Religious Fundamentalism: A Viewpoint for National Security (Inactive)

Students may choose to take additional courses from Groups A and B as “Electives”.

Electives: 12 credits

Complete at least 4 of the following courses:

- ASN5605 - Silk Road: Then and Now (Inactive)
- CPO6084 - War, Peace and the Military
- HIS6289 - Comparative/Atlantic History
- HIS5930 - Special Topics
- INR5352 - Environment and Security
- INR5062 - War, Peace and Conflict Resolution in INR
- INR5276 - Graduate Seminar The International Relations of Iran and the Persian Gulf
- RLG5907 - Independent Study in Sephardic and Oriental Jewry (Inactive)
- INR6266 - Seminar on the International Relations of Russia and Eurasia
- INR6338 - Seminar in Security Studies
- RLG5394 - Jewish Mystical Texts
- RLG5360 - Classical Arabic
- RLG5366 - Advanced Interpretation of the Quran: Gender and Jihad (Inactive)
- RLG5369 - Voice of the Prophet
- RLG5613 - Religion, Culture and Politics in Israel
- RLG5617 - Jews and Muslims in the Middle Ages
- RLG5629 - Kabbalah, Peace and War (Inactive)
- RLG6442 - Religion in the Contemporary World
- SYD5045 - Population and Society
- SYD6236 - International Migration and Refugees
- SYO6536 - Comparative and Global Inequality
- WOH5935 - Topics in World History

*Seminars and Special Topics are appropriate for certificate when dealing with issues of the broader Middle East (Eligibility to be determined by Program Director).

In addition to the courses listed above, new courses (as they become available), relevant special topics, independent studies, study abroad credits, and area studies or comparative studies courses may also be applied with the prior approval of the certificate program director. Students may consult the list of eligible courses announced at the beginning of the academic year or semester through the Jaffer Center at jaffercenter.fiu.edu.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, and other curricular offerings associated with this program.

MECHEG:BS - Bachelor of Science in Mechanical Engineering

Overview

Degree Offered
BS - Bachelor of Science

Program Title
Mechanical Engineering

The Bachelor of Science (BS) in Mechanical Engineering offers a curriculum designed to give the student a thorough understanding of the basic laws of science and simultaneously to stimulate and develop creative thinking, a professional attitude, economic judgment, and environmental consciousness. The aim is to develop the student's potential to the fullest, to prepare the student for superior performance as a mechanical engineer, and to provide the student with the fundamental principles necessary for pursuing advanced study in the diverse fields of engineering, science and business. The program has three main objectives that broadly describe the professional and career aims that our graduates are prepared to achieve 3- 5 years from graduation: Graduates will be employed in mechanical engineering related positions or enrolled in further graduate degree programs. Graduates will work towards successful careers in their chosen field and possible leadership positions. At all stages of their careers, graduates will engage in activities that demonstrate a commitment to and a desire for ongoing personal and professional growth and learning.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Bachelor of Science (BS) in Mechanical Engineering

The qualifications for admissions to the Mechanical Engineering Program are the same as for admission to the College of Engineering and Computing.

Admissions Requirements for the Combined BS in Mechanical Engineering to Master of Science (MS) in Biomedical Engineering Accelerated Degree Pathway

To be considered for admission to the combined bachelor's/master's degree pathway, students must have completed 75 credits in the bachelor's degree program at FIU, have earned at least a 3.25 GPA on both overall and upper division courses, and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program; the application is submitted to Graduate Admissions typically before the student starts the last 30 credits of the bachelor's degree program.

Admissions Requirements for the Combined BS in Mechanical Engineering to MS in Mechanical Engineering Accelerated Degree Pathway

Students, who pursue a BS degree and are in their junior year (completed 75 credits), with at least a 3.20 GPA on both overall and upper division courses may apply to enroll in the combined BS/MS pathway. To be considered for admission to the combined bachelor's/master's degree program, students must have completed at least 75-90 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree pathway; the application is submitted to Graduate Admissions typically before the student starts the last 30 credits of the bachelor's degree program.

Students interested in the pathway should consult with the undergraduate advisor on their eligibility to the pathway. The students should also meet the graduate advisor to learn about the graduate program and available courses before completing the application form and submitting it to the undergraduate advisor. Applicants will be notified by the department and the University Graduate School of the decision on their applications.

Admissions Requirements for the Combined BS in Mechanical Engineering to MS in Engineering Management Accelerated Degree Pathway

Students who pursue a BS degree and have completed 75 credits in the undergraduate program of Mechanical Engineering with an overall GPA of 3.2 or higher may, upon recommendation from three faculty members, apply to the department to enroll in the combined BSME/MSEM pathway. Students must also submit an online application to the University Graduate School for admission to the MSEM program. In addition to the admission requirements of the MSEM program, students must meet all the admission requirements of the University Graduate School.

Students need only apply once to the combined degree pathway; the application is submitted to Graduate Admissions typically before the student starts the last 30 credits of the bachelor's degree program.

Students interested in the combined pathway should consult with their undergraduate advisor on their eligibility to the pathway. The student should also meet the MSEM Program Director to learn about the graduate program and available tracks/courses before completing the application form and submitting it to their undergraduate advisor. Final decision for admission to the MSEM program will be made by the University Graduate School upon recommendation by the Engineering Management program director. Applicants will be notified by the Engineering Management Program and the University Graduate School of the decision on their applications.

Program Requirements

CEC Academic Progression Standard

Steady academic progression is expected by the College of Engineering and Computing. Students who are unsuccessful in passing common pre-requisites after two attempts will be advised to change their major into an area where they can be successful. Drops after the add/drop period, which result in a DR grade, are considered an attempt in the course and count as an unsuccessful enrollment.

Students must also meet the Math Progression standard of successfully completing Calculus 1 within three academic terms, not counting summers.

Students will be redirected to a different degree program when completion of the progression standards, including the applicable math progression standard by its stated semester, is no longer feasible.

Degree Program Hours: 128

The academic program is designed to satisfy the criteria outlined by the Accreditation Board for Engineering and Technology (ABET), as well as to meet the State of Florida's articulation policy. Entering freshmen at FIU should seek advisement from the Mechanical and Materials Engineering advisor's within the College of Engineering and Computing Advising office.

Lower Division Preparation

These courses are detailed below. In addition, transfer students, who have not completed their core curriculum at the transfer institution, and FIU freshman must take the FIU University Core Curriculum Requirements, whose courses also complement the goals and objectives of the College of Engineering and Computing (including economic, environmental, political, and/or social issues). Students must make up any missing prerequisites before they will be allowed to begin taking certain engineering courses (Click on each course for required pre-/co-requisites).

Lower Division Preparation

Type

Completion Requirement

Common Prerequisites: (Math/Science Hours: 29 of 32*)

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Complete ALL of the following Courses:

- CHM1045 - General Chemistry I
  AND CHM1045L - General Chemistry Lab I
- MAC2281 - Calculus I for Engineering
- MAC2282 - Calculus II for Engineering
- MAC2283 - Calculus III for Engineering
- MAP2302 - Differential Equations
- PHY2048 - Physics with Calculus I
  AND PHY2048L - General Physics Laboratory I
- PHY2049 - Physics with Calculus II
  AND PHY2049L - General Physics Laboratory II

**See notation under Mechanical Engineering Curriculum*

Upper Division

Type

Completion Requirement

Mechanical Engineering Curriculum

Engineering Science, Engineering Design, Laboratory and Elective semester credit hour requirements:

Fulfill ALL of the following requirements:

Foundations of Engineering

Complete ALL of the following Courses:

- EEL3110C - Circuit Analysis and Lab
- EGN3311 - Statics
- EGN3321 - Dynamics
- EGN3365 - Materials in Engineering
- EGS1006 - Introduction to Engineering
- EML4551 - Ethics and Design Project Organization
- EML4905 - Senior Design Project

**EEL3110C Circuit Analysis and Lab: This course is four contact hours to include a one hour non-credit tutorial.*

**EGN3311 Statics and EGN3321 Dynamics: Have to earn a passing grade of C or better for statics and dynamics courses.*

**EGS1006 Intro To Engineering: Transfer students with more than 30 credits can substitute with a general elective.*

**EML4551 Ethics Dsn Proj Org and EML4905 Senior Design Proj: The Senior Design Project is taken in two consecutive semesters during the senior year. During the first semester of his/her senior year, the student must register for EML4551 Ethics Dsn Proj Org Ethics and Design Project Organization – GL. The senior project begins during this course. The next semester the student must register for EML4905 Senior Design Proj to complete the project.*

AND

Modern Tools and Skills of a Mechanical Engineer

Complete ALL of the following Courses:

- EGM3311 - Analysis of Engineering Systems
- EML1533 - Introduction to CAD for Mechanical Engineers
- EML2032 - Programming for Mechanical Engineering
- EML3036 - Simulation Software for Mechanical Engineers
- EIN3390 - Manufacturing Processes

**EGM3311 Analysis of Engineering System: Included towards math/science hours*

AND

Core Foundations of Mechanical Engineering

Complete ALL of the following Courses:

- EMA3702 - Mechanics and Materials Science
- EML3500 - Mechanical Design I
- EML3222 - Systems Dynamics
  OR EML4220 - Mech Vibrations
- EML3126 - Transport Phenomena
- EML3301L - Instrumentation and Measurement Laboratory
- EGN3343 - Thermodynamics I
- EML4140 - Heat Transfer
- EMA3702L - Mechanics and Materials Science Lab

OR EML3126L - Transport Phenomena Lab
- EML4501 - Mechanical Design II
  OR EML4706 - Design of Thermal and Fluid Systems

Electives

Students are required to complete six credit hours of Advanced Core electives, three approved design elective credits, and nine credits of general electives.

Courses not selected from the Core Foundations of Mechanical Engineering can also be used as electives.

Fulfill ALL of the following requirements:

Advanced Core Electives

The Advance Core Electives can be chosen from either of the two concentrations available within the Mechanical Engineering program with some of their elective offerings are listed below.

Earn at least 6 credits

AND

Fluids/Thermal Sciences and Energy Systems

Complete ANY of the following Courses:

- EAS4105 - Introduction to Flight Mechanics
- EAS4213 - Introduction to Aeroelasticity
- EAS4712 - Aerodynamic Shape Design
- ECH3271 - Introduction to Heat and Mass Transfer
- ECH4504 - Intro to Chemical Reaction Engineering
- EGM4350 - Finite Elements in Mechanical Engineering
- EGM4370 - Introduction to Meshfree and Alternative Methods in Mechanical Engineering
- EMC4102 - Introduction to Chemical Engineering Thermodynamics
- EML3450 - Energy Systems
- EML4419 - Propulsion Systems
- EML4421 - Internal Combustion Engines
- EML4601 - Principles of Refrigerating and Air Conditioning
- EML4603 - Air Conditioning Design
- EML4608C - Mechanical Systems in Environmental Control
- EML4706 - Design of Thermal and Fluid Systems
- EML4711 - Gas Dynamics
- EML4721 - Introduction to Computational Thermo-Fluid
- EML4046 - Artificial Intelligence in Mechanical Engineering

AND

Materials, Mechanical Systems and Manufacturing

Complete ANY of the following Courses:

- EAS4200 - Introduction to Design and Analysis of Aerospace Structures
- EAS4505 - Introduction to Astrodynamics

- EGM4350 - Finite Elements in Mechanical Engineering
- EGM4370 - Introduction to Meshfree and Alternative Methods in Mechanical Engineering
- EMA3066 - Polymer Science and Engineering
- EML4046 - Artificial Intelligence in Mechanical Engineering
- EML4220 - Mech Vibrations
- EML4501 - Mechanical Design II
- EML4535 - Mechanical Computer Aided Design
- EML4561 - Introduction to Electronic Packaging
- EML4804 - Introduction to Mechatronics
- EML4806 - Modeling Of Robots
- EML4823 - Introduction to Sensors and Signal Processing
- EML4840 - Robot Design

AND

Design Elective

Earn at least 3 credits from the following:

- EAS4200 - Introduction to Design and Analysis of Aerospace Structures
- EAS4712 - Aerodynamic Shape Design
- EGM4350 - Finite Elements in Mechanical Engineering
- EML4501 - Mechanical Design II
- EML4503 - Production Machine Modeling and Design
- EML4535 - Mechanical Computer Aided Design
- EML4561 - Introduction to Electronic Packaging
- EML4603 - Air Conditioning Design
- EML4840 - Robot Design
- EML4706 - Design of Thermal and Fluid Systems
- EML4576 - Design Optimization

AND

General Electives

Earn at Least 9 credits.

Students who would like to explore different areas related to mechanical engineering, may take other elective courses (not listed above) with permission of the Mechanical Engineering Advisor. Students are not restricted to these two concentration areas but may choose courses, with the advisor's consent, that will form a coherent area of study. The courses EML4930 Special Topics/Projects Special Topics and EML4911 UG Research Exp Undergraduate Research Experience may be counted as part of the nine credits of general electives or as an advanced core elective with permission of the Mechanical Engineering Advisor.

Aerospace Engineering Area of Study

If students wish to have a specialized career path in aerospace engineering, we are recommending the following area of study as part of the above two concentrations (Fluids/Thermal Sciences/Energy Systems and Materials, Mechanical/Manufacturing Systems).

Students in this area of study are required to take 9 credits from the list below with at least 3 credits from a course designated as design elective.

Earn at least 9 credits from the following:

- EAS4200 - Introduction to Design and Analysis of Aerospace Structures
- EAS4712 - Aerodynamic Shape Design
- EML4419 - Propulsion Systems
- EML4711 - Gas Dynamics
- EAS4505 - Introduction to Astrodynamics
- EAS4105 - Introduction to Flight Mechanics
- EAS4213 - Introduction to Aeroelasticity

*EAS4200 and EAS4712 are designated as design electives.

Robotics Engineering Area of Study

If students wish to have a specialized career path in Robotics, we are recommending the following area of study as part of the Materials, Mechanical/Manufacturing Systems concentration.

Students in this area of study are required to take 9 credits from the list below with at least 3 credits from a course designated as design elective.

Earn at least 9 credits from the following:

- EML4046 - Artificial Intelligence in Mechanical Engineering
- EML4384 - Data Science Neural Networks and Deep Learning in Mechanical Engineering
- EML4535 - Mechanical Computer Aided Design
- EML4804 - Introduction to Mechatronics
- EML4806 - Modeling Of Robots
- EML4840 - Robot Design

Laboratories

Over and above the laboratory requirements in Physics and Chemistry, the program consists of six semester hours of required engineering laboratory work. The students are assigned two hours of laboratory work (one hour in Instrumentation and Measurement Lab and one hour in either Mechanical and Material Science Lab or Transport Phenomena Lab) which are specifically devoted to solving design problems using experimental methods. The laboratory experience includes the following areas: Machining, Circuits, Fluid Mechanics, Mechanics of Materials and Materials Testing, Applications in Fluid and Thermal Science, and Instrumentation and Measurement.

The elective areas offer the following additional laboratories: Air Conditioning and Refrigeration, Biomedical Engineering, Material Sciences, Computer- Aided Design, and Computer-Integrated Manufacturing.

Graduation Requirements

The minimum requirements for graduation in Mechanical Engineering consist of two parts:

(1) Mathematics, Basic Sciences, Humanities and Social Science requirements; and

(2) Engineering Sciences, Engineering Design, Laboratory and Elective requirements.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Combined BS in Mechanical Engineering to MS in Biomedical Engineering Accelerated Degree Pathway

This five-year pathway seamlessly combines a baccalaureate degree in mechanical engineering with the Master's in biomedical engineering. A student admitted to the combined degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Students enrolled in the pathway may count up to 9 hours of graduate level courses (i.e., 5000 level or higher) as credits for both the undergraduate and graduate degree programs. For each of the courses counted as credits for both BS and MS degree, a minimum grade of 'B' is required. Upon completion of the combined BS/MS pathway, students must have accumulated a minimum of 24 hours of credits at the graduate (5000+) level. Students enrolled in the pathway are encouraged to seek employment with a department faculty member to work as student assistants on sponsored research projects.

Other Curricular Offering: Combined BS in Mechanical Engineering to MS in Mechanical Engineering Accelerated Degree Pathway

A student admitted to the combined degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees. In addition to the admission requirements of the combined BS/MS pathway, students must meet all the admission requirements of the University Graduate School.

Students enrolled in the pathway may count up to nine credit hours of MME graduate courses as credits for both the BS and MS degrees. The combined BS/MS pathway has been designed to be a continuous enrollment pathway. During this combined BS/MS pathway, upon completion of all the requirements of the undergraduate program, students will receive their BS degrees. Students in this pathway have up to three major semesters to complete the master's degree after receipt of the bachelor's degree. Students who fail to meet this three-major-semester post BS requirement or who elect to leave the combined pathway at any time and earn only the BS degree will have the same access requirements to regular graduate programs as any other student, but will not be able to use the nine credits in both the bachelor's and master's degrees.

For each of the graduate courses counted as credits for both BS and MS degree, a minimum grade of "B" is required. Students enrolled in the pathway may count up to nine credit hours of MME graduate courses toward the elective engineering BS requirements as well as toward the MS degree. Only graduate courses with formal lectures can be counted for both degrees. The students are responsible for confirming the eligibility of each course with the undergraduate advisor.

Other Curricular Offering: Combined BS in Mechanical Engineering to MS in Engineering Management Accelerated Degree Pathway

A student admitted to the combined degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Students enrolled in the combined degree pathway could count up to three Mechanical Engineering graduate courses for both the BSME electives and the MSEM electives, for a total saving of 9 credit hours. The following is a list of eligible Mechanical Engineering graduate courses:

-- EGM5346 Computational Engineering Anal

--EGM5354 Fem In Me

--EGM5615 Synth Of Engg. Mech.

--EML5103 Int Thermodynamics

--EML5152 Int Heat Transfer

--EML5505 Smart Mach Des Dev

--EML5509 Optimization

--EML5530 Inter. Cad/Cae

--EML5606C Adv Ref & A/C Syst

--EML5709 Int. Fluid Mech.

The combined BSME/MSEM pathway has been designed to be a continuous enrollment pathway. During this combined BSME/MSEM pathway, upon completion of all the requirements of the BSME program, students will receive their BSME degree. Students may elect to permanently leave the combined pathway and earn only the BSME degree. Students who elect to leave the combined pathway and earn only the BS degree will have the same access requirements to regular graduate programs as any other student, but will not be able to use the 9 credit hours in both the BSME and MSEM degrees.

For each of the graduate courses counted as credits for both BSME and MSEM degrees, a minimum grade of “B” is required. Only graduate courses with formal lecture can be counted for both degrees. The students are responsible for confirming the eligibility of each course with their undergraduate advisors.

MECHEG:MS - Master of Science in Mechanical Engineering

Overview

Degree Offered
MS - Master of Science

Program Title
Mechanical Engineering

The Master of Science (MS) degree in Mechanical Engineering is designed to develop students' skills in the mechanical engineering discipline which, as a major division of the engineering profession, plays a major role in our technologically advanced society. The design and manufacturing of power plants, automobiles, aircrafts, robots to improved methods of transportation and production by industrial robots are but a few important inventions that would not have been realized without the creativity associated with the mechanical engineering profession. The mechanical engineer is a vital ingredient in most industries that require automation, computers, and medical technology, as well as areas as diverse as space exploration, environmental control, and bioengineering. The Mechanical and Materials Engineering Department at FIU takes pride in providing well-educated and technologically competent graduates to serve these industries. The academic program provides a well-balanced curriculum in the following areas of specialization: mechanical systems, mechanics, robotics and mechatronics, thermo/fluid systems, heating-ventilation-and-air-conditioning (HVAC), material characterization, manufacturing and automation systems, materials science and engineering, multidisciplinary design optimization and inverse design, computational analysis and distributed parallel computing, biomechanics, laser and plasma materials processing, nanomaterials, nanotechnology, electronic packaging, optical measurement and diagnostics, waste management, and renewable energy.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Master of Science (MS) in Mechanical Engineering

The following is in addition to the University's graduate admission requirements:

(1) A student seeking admission into the program must have a bachelor's degree in engineering, physical sciences, computer science or mathematics from an accredited institution, or, in the case of foreign students, from an institution recognized in its own country as preparing students for further study at the graduate level.

(2) An applicant must have achieved a “B” average, GPA of 3.0 overall or in upper level undergraduate work.

(3) Applicants who have not satisfied the above will be evaluated for probationary or waiver admission.

(4) Applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. Please refer to the Admissions English Proficiency criteria at https://admissions.fiu.edu/international/graduate-school/english-language-proficiency/index.html

(5) The GPA and TOEFL scores specified above are to be considered minimum requirements for admission. Applicants from science areas other than mechanical engineering will be expected to complete remedial undergraduate courses selected to prepare them for graduate courses in their area of interest. Full admission to the graduate program requires the completion of these background courses with no grades below ‘C’ and a grade point average of 3.0 or better.

Admissions Requirements for the Combined Bachelor of Science (BS) in Mechanical Engineering to MS in Mechanical Engineering Accelerated Degree Pathway

Students, who pursue a BS degree and are in their junior year (completed 75 credits), with at least a 3.20 GPA on both overall and upper division courses may apply to enroll in the combined BS/MS pathway. To be considered for admission to the combined bachelor’s/master’s degree program, students must have completed at least 75-90 credits in the bachelor’s degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree pathway; the application is submitted to Graduate Admissions typically before the student starts the last 30 credits of the bachelor’s degree program.

Students interested in the pathway should consult with the undergraduate advisor on their eligibility to the pathway. The students should also meet the graduate advisor to learn about the graduate program and available courses before completing the application form and submitting it to the undergraduate advisor. Applicants will be notified by the department and the University Graduate School of the decision on their applications.

Program Requirements

Additional Degree Requirements

The Department of Mechanical and Materials Engineering offers both thesis and non-thesis options for the Master’s Degree in Mechanical Engineering. A student seeking the Master’s degree with or without thesis is required to pass a comprehensive oral or written examination.

All work counted for the Master’s degree must be completed during the six years immediately following the date of admission.

Thesis Option

A student shall complete a minimum of 24 semester credit hours of course work, plus a minimum of 6 semester credit hours of EML6971 Masters Thesis, Master’s Thesis Research, and take MME Graduate Seminar.

The course requirements include a minimum of 12 hours of 6000-level course credit including thesis hours. A maximum of 6 credit hours of courses offered by other departments may be included among the 24 course hour minimum. A maximum of three credit hours of approved independent studies, EML6908 Ind Studies, may be counted toward the M.S. thesis degree. A maximum of six graduate credit hours can be transferred from other accredited institutions provided that the courses have not been used for another degree and have a minimum letter grade of ‘B’ and meet university requirements. Transfer courses must be approved by the advisor and Graduate Coordinator.

Early in the program (before the middle of the second term) the student and advisor will complete a study plan that specifies the courses that will comprise the program.

When the thesis research is completed, the student should schedule a defense with an examining committee appointed through the Graduate School consisting of a least three graduate faculty members (at least two of whom should be from the MME Department). The thesis, with an approval cover letter from the advisor, should be given to the examining committee for review not less than four weeks before the scheduled defense. The candidate should prepare to summarize the thesis in the manner of a technical paper using appropriate visual aids in 40 minutes or less. Following the presentation, the candidate will answer questions related to the work from the audience and/or the committee. At the conclusion of the defense, the committee will agree on the outcome -pass or fail- and report the results to the Graduate School. Following the exam the student will implement the committee's suggestions for improving the draft document. Each committee member must sign the approval form in the final document. Copies of the approved thesis must be provided to the advisor, department, and the library. Students should become familiar with the University Graduate School's regulations and deadlines available on line at http://gradschool.fiu.edu.

Degree Program Credits

Type

Completion Requirement

Course Requirements

All MSME degree seeking thesis option students must take two of the following applied/computational mathematics courses offered by MME department plus the MME graduate seminar. Out of 24 semester credit hours of course work a maximum of three credit hours of approved independent studies, may be counted towards the M.S. thesis degree. A minimum of 6 credits of EML6971 Masters Thesis Thesis is also required.

Fulfill ALL of the following requirements:

Applied/Computational Mathematics Courses

Complete at least 2 of the following courses:

- EGM5315 - Intermediate Analysis of Mechanical Systems
- EGM5346 - Computational Engineering Analysis
- EGM5354 - Finite Element Method Applications in Mechanical Engineering
- EGM6355 - Nonlinear Finite Element Analysis
- EGM6422 - Advanced Computational Engineering Analysis
- EML6725 - Comp. Fluid Dynamics

AND

Graduate Seminar

Complete ALL of the following Courses:

- EML6935 - Graduate Seminar

AND

Independent Studies

Complete up to 1 course(s) and earn up to 3 credits from the following:

- EML6908 - Independent Studies

AND

Masters Thesis Requirement

Earn at least 6 credits from the following:

- EML6971 - Masters Thesis

Area of Specialization Course Options

An additional six credit hours of courses must be taken outside the major area of study of the student. The remaining 4 courses should be in the area of the student's specialization or as suggested by the student's major professor and committee.

Fulfill ANY of the following requirements:

Thermo/Fluid

Complete at least 4 of the following courses:

- EAS6721 - Advanced Aerodynamic Shape Design
- EML5103 - Intermediate Thermodynamics
- EML5104 - Classical Thermodynamics
- EML5152 - Intermediate Heat Transfer
- EML5606C - Advanced Refrigeration and Air Conditioning Systems
- EML5615C - Cad - A/C
- EML5708 - Advanced Design of Thermal and Fluid Systems
- EML5709 - Intermediate Fluid Mechanics
- EML6153 - Advanced Heat Transfer
- EML6154 - Conduction Heat Transfer
- EML6155 - Convection Heat Transfer
- EML6157 - Radiation Heat Transfer
- EML6712 - Advanced Fluid Mechanics I
- EML6714 - Advanced Gas Dynamics
- EML6725 - Comp. Fluid Dynamics

OR

Mechanics/Materials

Complete at least 4 of the following courses:

- EAS5221 - Design and Analysis of Aerospace Structures
- EGM5346 - Computational Engineering Analysis
- EGM5354 - Finite Element Method Applications in Mechanical Engineering
- EGM5615 - Synthesis of Engineering Mechanics
- EGM6570 - Fracture Mechanics
- EMA5001 - Physical Properties of Materials
- EMA5106 - Thermodynamics and Kinetics of Materials
- EMA5295 - Principles of Composite Materials
- EMA5507C - Analytical Techniques of Materials Science
- EMA5935 - Advanced Topics in Materials Engineering
- EMA6165C - Polymer Physics and Analytical Techniques

- EML5505 - Smart Machine Design and Development
- EML5509 - Optimization Algorithms
- EML5385 - Identification Techniques of Mechanical Systems
- EML5562 - Advanced Electronic Packaging (Inactive)
- EML6223 - Advanced Mechanical Vibration Analysis
- EML6805 - Advanced Design of Robots

OR

Design and Manufacturing

Complete at least 4 of the following courses:

- EAS5221 - Design and Analysis of Aerospace Structures
- EML5385 - Identification Techniques of Mechanical Systems
- EML5505 - Smart Machine Design and Development
- EML5509 - Optimization Algorithms
- EML5530 - Intermediate CAD/CAE
- EML5562 - Advanced Electronic Packaging (Inactive)
- EGM5615 - Synthesis of Engineering Mechanics
- EML5808 - Control Technology for Robotic Systems
- EML5082 - Advanced Nondestructive Testing and Mechanical Health Monitoring
- EML5825 - Sensors and Applied Machine Intelligence
- EML6223 - Advanced Mechanical Vibration Analysis
- EML6532 - Advanced Computer-Aided Design/ Computer-Aided Engineering
- EGM6570 - Fracture Mechanics
- EML6805 - Advanced Design of Robots

Non-Thesis Option

A student shall complete a minimum of 30 semester credit hours of graduate course work,' and one semester of Graduate Seminar with a GPA ≥3.0.(the minimum successful grade is a 'C'). Non-thesis students are required to do a three-credit project under the independent study course registration. An approved study plan must include at least 9 credits of 6000 level graduate course work, including the project if elected. Up to nine credit hours of graduate course work from other departments may be included among the minimum of 30 credits. A maximum of six graduate credits from other accredited graduate programs completed with a 'B' or better and not counted toward a previous degree may be included in the study plan. Transfer credits must meet university requirements. The advisor and the Graduate Coordinator must approve transfer courses if they are to be included in a study plan. A maximum of three credits of independent study beyond an independent project may be included in a study plan.

Non-thesis students are required to take a final oral comprehensive exam dealing with the objectives of their study plan. If a project has been completed, the student will briefly summarize the project report (20 minutes) as a part of the exam. The examining committee will include a minimum of three faculty members, at least two of whom should be from the department.

Degree Program Credits

Type

Completion Requirement

Course Requirements

All MSME degree seeking non-thesis option students must take two of the following applied/computational mathematics courses offered by MME department plus the MME graduate seminar. One of those courses must be EML 6908 where the students will present their project work. Out of 30 semester credit hours of course work a maximum of six credit hours of approved independent studies, EML 6908, may be counted towards the M.S.

Fulfill ALL of the following requirements:

Applied/Computational Mathematics Courses

Complete at least 2 of the following courses:

- EGM5315 - Intermediate Analysis of Mechanical Systems
- EGM5346 - Computational Engineering Analysis
- EGM5354 - Finite Element Method Applications in Mechanical Engineering
- EGM6355 - Nonlinear Finite Element Analysis
- EGM6422 - Advanced Computational Engineering Analysis
- EML6725 - Comp. Fluid Dynamics

AND

MME Graduate Seminar

Complete ALL of the following Courses:

- EML6935 - Graduate Seminar

AND

Independent Studies

Complete 1 - 2 course(s) and earn 3 - 6 credits from the following:

- EML6908 - Independent Studies

Area of Specialization Course Options

An additional six credit hours of courses must be taken outside the major area of study of the student. The remaining 6 courses should in the area of the student's specialization or as suggested by the student's project professor; one of those courses must be EML6908 Ind Studies where the students will present their project work.

Fulfill ANY of the following requirements:

Thermo/Fluid

Complete at least 6 of the following courses:

- EAS6721 - Advanced Aerodynamic Shape Design
- EML5103 - Intermediate Thermodynamics
- EML5104 - Classical Thermodynamics
- EML5152 - Intermediate Heat Transfer
- EML5606C - Advanced Refrigeration and Air Conditioning Systems
- EML5615C - Cad - A/C
- EML5708 - Advanced Design of Thermal and Fluid Systems
- EML5709 - Intermediate Fluid Mechanics

- EML6153 - Advanced Heat Transfer
- EML6154 - Conduction Heat Transfer
- EML6155 - Convection Heat Transfer
- EML6157 - Radiation Heat Transfer
- EML6712 - Advanced Fluid Mechanics I
- EML6714 - Advanced Gas Dynamics
- EML6725 - Comp. Fluid Dynamics

OR

Mechanics/Materials

Complete at least 6 of the following courses:

- EAS5221 - Design and Analysis of Aerospace Structures
- EGM5346 - Computational Engineering Analysis
- EGM5354 - Finite Element Method Applications in Mechanical Engineering
- EGM5615 - Synthesis of Engineering Mechanics
- EGM6570 - Fracture Mechanics
- EMA5001 - Physical Properties of Materials
- EMA5106 - Thermodynamics and Kinetics of Materials
- EMA5295 - Principles of Composite Materials

- EML5082 - Advanced Nondestructive Testing and Mechanical Health Monitoring
- EML5825 - Sensors and Applied Machine Intelligence
- EML6223 - Advanced Mechanical Vibration Analysis
- EML6532 - Advanced Computer-Aided Design/ Computer-Aided Engineering

- EGM6570 - Fracture Mechanics
- EML6805 - Advanced Design of Robots

Graduation Requirements

The M.Sc. degree will be conferred when the following conditions have been met:

(1) Recommendation of the advisor and faculty of the Department.

(2) Certification provided by the Department Chair, College Dean, and University Graduate School that all degree requirements have been met.

(3) Completion of the two applied/computational mathematics courses offered by the department, two courses outside student's major area and other courses as suggested by the student's major professor and committee.

(4) Completion of undergraduate course deficiencies specified at admission, if any, with no grades below 'C' and a GPA ≥ 3.0.

(5) Thesis option: Successfully completed a minimum of 30 semester hours of graduate course work as specified in an approved study plan containing at least 6 hours of 6000 level courses with a GPA ≥ 3.0 (the minimum successful grade is a 'C'. Not more than six semester hours transferred from another accredited graduate program that was not part of a previously awarded degree may be incorporated in the study plan) plus a minimum of six hours of masters thesis research.

(6) Non-thesis option: Successfully completed a minimum of 30 semester hours of graduate course work as specified in an approved study plan containing at least 9 hours of 6000 level courses with a GPA ≥3.0 (not more than six semester hours transferred from another accredited graduate program that was not part of a previously awarded degree may be incorporated in the study plan).

(7) Thesis option: Successful public oral defense of the thesis. Submission of the approved thesis to the Graduate School.

(8) Non-thesis option: Successful completion of a final oral comprehensive examination covering the general objectives of the study plan.

(9) Students must achieve an overall GPA ≥ 3.0 in all graduate work completed at FIU in their approved study plan.

(10) Students must complete the Graduate Seminar course.

(11) Students must comply with all relevant University policies and regulations.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Robotics for Mechanical Engineers Track

Within the Mechanical Engineering Major, students may choose to complete the 24 credits in the Robotics for Mechanical Engineers Track requirements as well as these specific 6 credits from the Mechanical Engineering Major Math Requirement.

Robotics for Mechanical Engineers Track

Type

Completion Requirement

Required Courses: 30 credits

The Robotics track will require 6 credits as common core, 12 credits of track-specific core courses, and 12 credits of track-elective courses from the ECE and MME Departments, for a total of 30 credits.

Fulfill ALL of the following requirements:

Common Core Courses: 6 credits

Choose 2 of 6 math courses

Complete ANY of the following Courses:

- EGM5315 - Intermediate Analysis of Mechanical Systems
- EGM5346 - Computational Engineering Analysis
- EGM5354 - Finite Element Method Applications in Mechanical Engineering
- EGM6355 - Nonlinear Finite Element Analysis
- EGM6422 - Advanced Computational Engineering Analysis
- EML6725 - Comp. Fluid Dynamics

AND

Track-Specific Courses: 12 credits

Complete ALL of the following Courses:

- EML5808 - Control Technology for Robotic Systems
- EML6805 - Advanced Design of Robots
- EEL5669 - Autonomous Systems and Controls
- EEE6767 - Advanced Embedded Programming for IoT Sensing, Network, Control, and Applications

AND

Track-Elective Courses: 12 credits

Complete ANY of the following Courses:

- EML5505 - Smart Machine Design and Development
- EMC5415 - Digital Control of Mechanical Systems
- EML5825 - Sensors and Applied Machine Intelligence
- EML5530 - Intermediate CAD/CAE
- EEE6765 - Advanced Embedded Systems Design and Implementation for IoT Applications
- EEL6821 - Computer Vision
- EEL6825 - Pattern Recognition
- EEL5813 - Neural Networks
- EEL6812 - Adv In Neural Nets
- EEL6681 - Fuzzy Systems Design

Other Curricular Offering: Combined BS in Mechanical Engineering to MS in Mechanical Engineering Accelerated Degree Pathway

A student admitted to the combined degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees. In addition to the admission requirements of the combined BS/MS pathway, students must meet all the admission requirements of the University Graduate School.

Students enrolled in the pathway may count up to 9 credit hours of MME graduate courses as credits for both the BS and MS degrees. The combined BS/MS pathway has been designed to be a continuous enrollment pathway. During this combined BS/MS pathway, upon completion of all the requirements of the undergraduate program, students will receive their BS degrees. Students in this pathway have up to three major semesters to complete the master's degree after receipt of the bachelor's degree. Students who fail to meet this three-major-semester post BS requirement or who elect to leave the combined pathway at any time and earn only the BS degree will have the same access requirements to regular graduate programs as any other student, but will not be able to use the 9 credits in both the bachelor's and master's degrees.

For each of the graduate courses counted as credits for both BS and MS degree, a minimum grade of "B" is required. Students enrolled in the pathway may count up to 9 credit hours of MME graduate courses toward the elective engineering BS requirements as well as toward the MS degree. Only graduate courses with formal lectures can be counted for both degrees. The students are responsible for confirming the eligibility of each course with the undergraduate advisor.

MECHEG:PHD - Doctor of Philosophy in Mechanical Engineering

Overview

Degree Offered
PHD - Doctor of Philosophy

Program Title
Mechanical Engineering

The PhD in Mechanical Engineering will prepare graduates for industrial and/or academic research as well as for higher-level jobs in mechanical-related industry. The design and manufacturing of power plants, automobiles, aircrafts, robots to improved methods of transportation and production by industrial robots are but a few important inventions that would not have been realized without the creativity associated with the mechanical engineering profession. The mechanical engineering academic program provides a well-balanced curriculum in the following areas of specialization: mechanical systems, mechanics, robotics and mechatronics, thermo/fluid systems, heating-ventilation-and-air-conditioning (HVAC), material characterization, manufacturing and automation systems, materials science and engineering, multidisciplinary design optimization and inverse design, computational analysis and distributed parallel computing, biomechanics, laser and plasma materials processing, nanomaterials, nanotechnology, electronic packaging, optical measurement and diagnostics, waste management, and renewable energy. This program provides an opportunity for students to enhance their technical knowledge and to conduct advanced research that can aid in their professional development and pursuit of research-related employment in the mechanical engineering field.

CIP Code
14.1901

Requirements

Simple Requirements

Admissions Requirements

The requirements for admission to the doctoral program in Mechanical Engineering for applicants having a Bachelor's degree in Mechanical Engineering from an accredited institution are the following:

(1) GPA of at least 3.0/4.0 overall or in the last 60 upper level credit hours.

(2) Three letters of recommendation.

(3) Applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. Please refer to the Admissions English Proficiency criteria at https://admissions.fiu.edu/international/graduate-school/english-language-proficiency/index.html

(4) Applicants having a Master's degree in Mechanical Engineering from an accredited institution must also satisfy the above requirements for admissions to the doctoral program; however a GPA of at least 3.3/4.0 in the Master's program is also required.

Credentials of all other applicants will be examined by the Graduate Admission Committee on a case by case basis.

In addition to the departmental requirements, all students must satisfy the University's Graduate Policies and Procedures.

Program Requirements

Identification of Research Area

Within 4 months upon acceptance into the Ph.D. program, the student having a Master's Degree has to identify an area of research of his or her interest by contacting and being accepted by a professor willing to guide the dissertation research. The student with a Bachelor's degree should identify the area of research by the end of the second semester after acceptance into Ph.D. program. If no professor is obtained, the student will be dismissed from the Ph.D. program. Contact the department for a list of the graduate faculty members and their research interests.

Applicants with a Bachelor's degree in Mechanical Engineering

Applicants having a Bachelor's degree in Mechanical Engineering are required to complete at least 75 credit hours, of which at least 45 hours must be coursework and 15 hours dissertation. The credit hours earned towards the Ph.D. program have the following requirements:

(1) At least 21 credits at the 5000 level or higher, not to include dissertation.

(2) At least 12 credits at the 6000 level or higher, not to include dissertation.

(3) Breadth criteria could be satisfied by taking 3 courses in a field/area outside the student's own field.

(4) Two applied/computational mathematics courses as suggested for M.S. program.

(5) A minimum of 15 credits of dissertation.

(6) A maximum of 6 semester hours of graduate credit earned from another accredited institution that was not used for a previous degree may be transferred as long as the courses were completed within the six years preceding admission to the program and meet university requirements.

(7) EML6908 Ind Studies counts for a maximum of 6 credit hours of coursework.

(8) EML6910 Supervised Research counts for a maximum of 6 credit hours of coursework.

(9) EML6935 Graduate Seminar (zero credits) should be registered every semester until the advancement to candidacy (D-2).

Applicants Entering the PhD program with a Master's degree in Mechanical Engineering

Applicants entering the Ph.D. program with a Masters degree in Mechanical Engineering are required to complete at least 45 credit hours, of which at least 24 hours must be coursework and 15 hours dissertation. The credit hours earned towards the Ph.D. program have the following requirements:

(1) Breadth criteria could be satisfied by taking 3 courses in a field/area outside the student's own field.

(2) A minimum of 12 credits of 6000 higher, not to include dissertation.

(3) A minimum of 15 credits of dissertation.

(4) Additional courses to be determined by candidate's dissertation committee.

(5) EML6908 Ind Studies counts for a maximum of 6 credit hours of coursework.

(6) EML6910 Supervised Research counts for a maximum of 6 credit hours of coursework.

(7) EML6935 Graduate Seminar (zero credits) should be registered every semester until the advancement to candidacy (D-2).

Applicants having a Master's Degree in any other Engineering discipline from an accredited institution may transfer a maximum of 24 semester hours as part of their requirements.

Degree Program Credits

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Applied / Computational Mathematics Courses

Complete at least 2 of the following courses:

- EGM5315 - Intermediate Analysis of Mechanical Systems
- EGM5346 - Computational Engineering Analysis
- EGM5354 - Finite Element Method Applications in Mechanical Engineering
- EGM6355 - Nonlinear Finite Element Analysis
- EGM6422 - Advanced Computational Engineering Analysis
- EML6725 - Comp. Fluid Dynamics

- EML6805 - Advanced Design of Robots

Residency Requirements

The program will provide student access to a wide range of support facilities including research library, cultural events, and other occasions for intellectual growth associated with campus life, significant faculty/student interaction, opportunities for student exposure to and engagement with cognate disciplines and research scholars working in those disciplines, and significant peer interaction among graduate students. Students will be provided with the opportunity for a mentoring apprentice relationship with faculty and students as well as adequate time for in-depth evaluation of the student. To satisfy the residency requirement for the Ph.D. degree, the candidate must complete a minimum of 18 credit hours within a period of 12 months at the University.

PhD Course Breadth Requirements

Breadth criteria could be satisfied by taking 3 courses in a field/area outside student's own field. Examinations and Proposal and Final Defense Student must demonstrate graduate knowledge acquisition in four incremental stages in order to be awarded a Ph.D. in Mechanical Engineering.

Stages of Progression Towards Degree

A student must demonstrate acquisition of graduate knowledge in five incremental stages in order to be awarded a Ph.D. in Mechanical Engineering:

1. **Formation of the Dissertation Committee**
    - Students entering the program with a master's degree must select a dissertation advisor during their first semester of study. These students must also select a dissertation committee and submit the D-1 form during their first semester. Students entering the program with a bachelor's degree must select a dissertation advisor and submit the D-1 form by the end of their second semester.

2. **Comprehensive Exam (CE)**
    - General written exam to test masters level knowledge.
    - A student who is admitted to the Ph.D. program with a bachelors degree must take the CE no later than the beginning of the 4th major semester after admission, and a student who enters the Ph.D. program with a masters degree must take and pass the CE no later than the beginning of the 2nd major semester after admission. Students may petition for exceptions from the departmental graduate committee by one major semester at a time. A student who fails the CE may retake the exam once only.
3. **Admission to Candidacy**
    - Candidacy status indicates that a doctoral student is ready to commence working on the dissertation. A student is admitted to candidacy upon successfully completing all required course work and passing the Comprehensive Examination. After completion of coursework credits and the Comprehensive Exam, form D-2 must be turned in.
4. **Proposal Defense (PD)**
    - The dissertation proposal will be presented by the student in the form of a Graduate Seminar in which he/she must submit a proposal for his/her dissertation.
    - Students must declare their proposal subject within 6 months after taking and passing the Comprehensive Exam. After completion of proposal defense, form D-3 must be turned in.
5. **Final Defense (FD)**
    - There will be a public defense at a graduate seminar. The defense can be failed no more than once.
    - The final defense should be presented no later than the 4th year after the master's degree and no later than the 6th year after the bachelor's degree.
    - Following the successful defense of the dissertation, as determined by a majority vote of the student's examining committee, the dissertation must be forwarded to the Dean of the College of Engineering and Computing and the Dean of the University Graduate School for their approval.
    - All dissertations submitted in fulfillment of the requirements for graduate degrees must conform to University guidelines (see "Regulations for Thesis and Dissertation Preparation Manual"). One final and approved copy of the dissertation must be delivered to the Chairperson of the Department of Mechanical Engineering and one to the advisor, in addition to the copies required by the University Graduate School.

Financial Aid

Consult the Department for information on research and teaching assistantships available for doctoral students.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

MED:MD - Doctor of Medicine

Overview

Degree Offered
M.D. - Doctor of Medicine

Program Title
MD

The 4-year program leading to the Doctor of Medicine (MD) degree is designed to maximize exposure and training in all areas of medical education. The program prepares students for advancement into postgraduate study and for the practice of medicine in any medical specialty or primary care area.

The unique and innovative StepUp curriculum is divided into four successive steps of study incorporating basic medical science, clinical science, clinical skills, research, professionalism, and social accountability. The MD degree program emphasizes patient-centered care, student well-being, and the seamless integration of foundational and clinical sciences.

Clinical training starts during the first year of medical school, and as a community-based medical school, students have the advantage of training with a highly diverse patient population in various public and private inpatient and outpatient clinical settings. Students also gain hands-on, home-based experience observing and caring for families through the Green Family Foundation Neighborhood Health Education Learning Program (NeighborhoodHELP).

For more information, visit the Herbert Wertheim College of Medicine website.

Admissions Requirements

Admissions Requirements for the Doctor of Medicine (MD)

HWCOM participates in the American Medical College Application Service (AMCAS) application process (see https://students-residents.aamc.org/applying-medical-school-amcas/applying-medical-school-amcas). Applications verified by AMCAS are the first step in the HWCOM applicant screening process. Following receipt and verification of the AMCAS application and its data, each applicant is invited to complete the HWCOM Secondary Application. A $30 nonrefundable application fee is required with submission of the HWCOM Secondary Application. The HWCOM Secondary Application provides additional insight into the applicant, exploring the applicant's interest in medicine, and

suitability for HWCOM. Applicants are invited for interviews based on academic factors and nonacademic factors, such as personal experience in several of the following: clinical/patient care exposure, research, commitment to service, leadership, and other enriching qualities.

After the interview, the completed file is reviewed by the Admissions Committee. The Admissions Committee then votes to determine the admission status of the applicant. HWCOM maintains an active waitlist until the first day of Orientation.

Admissions Requirements for the 7-Year Bachelor of Science (BS) in Biology and MD Accelerated Degree Pathway

(1) Must be in the senior year of high school (HS) when applying or have completed HS but did not matriculate to college immediately after HS graduation (First Time in College- FTIC). Transfer students and currently enrolled students are not eligible to apply. Neither are dual enrollment FTICs who enter FIU with an AA degree.

(2) Admissions to FIU and to The Honors College. Prospective students will apply to FIU from HS and indicate the Biology BS. They can then apply to the Honors College. Depending on credentials of the students, they may be invited to the Honors College directly. The students can then accept the Honors College invitation and can then apply for this 3 + 4 program.

(3) Successful interview with The Honors College and HWCOM prior to first semester/Freshman year

(4) US Citizen or US Permanent Resident

(5) SAT score (critical reading and math) of 1350 with no section below 600, or ACT Composite of 31

(6) Unweighted high school GPA of 3.7.

(7) Must have completed four HS units of English and math and at least one HS unit of biology and chemistry at a HS located in the US. Successful completion of Advanced Placement/International Baccalaureate courses is encouraged.

(8) Letter from a HS counselor Once accepted into the program, students meet regularly with their advisors to make sure that yearly milestones of GPA, research, and community service are met in order to continue in the program. The medical school application process is through AMCAS. Students who have met all GPA, MCAT and extra-curricular requirements apply to HWCOM on AMCAS prior to October 1 of their third undergraduate year.

Admissions Requirements for the MD and Professional Master of Business Administration in Healthcare Policy and Management Joint Degree Pathway

HWCOM Medical students in their third year of medical study may apply to the MBA program. Each college (College of Medicine and College of Business) will independently review and admit applicants to their programs. Only students admitted to both programs will enroll in classes in the joint program.

Students will apply for the combined MD/MBA pathway in the following manner: Medical students in the summer or fall of their third year (prior to November first) must be in good academic standing and must get approval from the Medical Student Evaluation and Promotions Committee (MSEPC), the Office of Student Affairs (OSA), and the Office of Academic Affairs (OAA), in order to apply for admission to the MBA program. Applications will be reviewed by the MBA program admission committee. Applicants to the joint MD/MBA pathway will not be required to submit standardized test scores; they must have a minimum GPA of 3.0. However, they are required to have completed two years of experience, which includes volunteering, any internships or clerkships, and any full or part-time employment. All medical students interested in this program should already have at least two years of experience to satisfy this requirement.

Admissions Requirements for the MD and Master of Public Health (Major: Epidemiology) Joint Degree Pathway

Medical students in the summer or fall of their third (M3) year (prior to November 1st) must make a formal application to the COM MPH Application Committee.

This application will include a personal statement. They must also get approval from the MSEPC and the Executive Associate Dean for Academic Affairs prior to applying to the MPH program.

Applications will only then be reviewed by the MPH - Epidemiology program admission committee. Applicants to the combined MD/MPH pathway will not be required to submit GRE scores. MCAT scores will be accepted.

Admissions Requirements for the MD and Master of Science in Health Informatics and Analytics (MSHIA)

Medical students will apply for the combined MD/MSHIA pathway in the following manner: Medical students in the fall of their third year (prior to December 30) must be in good academic standing and must get approval from the Medical Student Evaluation and Promotions Committee (MSEPC), the Office of Student Affairs (OSA), and the Office of Academic Affairs (OAA), in order to apply for admission to the MSHIA program. Applications will be reviewed by the MSHIA program admissions committee. Applicants to the combined MD/MSHIA pathway will not be required to submit standardized test scores; they must have a minimum GPA of 3.0.

Degree Program Requirements

Type

Completion Requirement

Required Courses: 189 credits

Fulfill ALL of the following requirements:

Academic Year I: 52 credits

Complete ALL of the following Courses:

- BMS6001 - Foundations I
- BMS6015 - Clinical Skills I
- BMS6041 - Foundations II
- BMS6042 - Foundations III
- BMS6827 - Community Engaged Physician I
- BMS6880 - Clinical Research and Evidence-Based Medicine I
- BMS6893 - Profession of Medicine I
- BMS6047 - Organ Systems I
- BMS6045 - Organ Systems II

AND

Academic Year 2: 40 credits

Complete ALL of the following Courses:

- BMS6016 - Clinical Skills II
- BMS6066 - Clinical Research and Evidence-Based Medicine II
- BMS6071 - Community Engaged Physician II
- BMS6040 - Organ Systems III

- BMS6633 - Organ Systems IV
- BMS6046 - Organ Systems V
- BMS6894 - Profession of Medicine II

AND

* Academic Year 3: 66-67 credits

Complete ALL of the following Courses:

- BMS7810 - Core Concepts in Medicine
- MDC6102 - Community Engaged Physician III
- MDC7120 - Family Medicine Clerkship
- MDC7180 - Obstetrics and Gynecology Clerkship
- MDC7200 - Internal Medicine Clerkship
- MDC7400 - Pediatrics Clerkship
- MDC7600 - Surgery Clerkship
- MDC7760 - Principles of Radiology
- MDC7800 - Neurology Clerkship
- MDC7830 - Psychiatry Clerkship
- MDR7910 - Research Scholarship

**The number of credits during Academic Year 3 and Academic Year 4 will depend on when student takes MDC7800 Neurology Clerkship Neurology Clerkship.*

AND

* Academic Year 4: 30-31 credits

Complete ALL of the following Courses:

- MDC6103 - Community Engaged Physician IV
- MDC7124 - Geriatrics
- MDE7059 - Community Medicine Practicum
- MDE7067 - Professional Development and Clinical Medicine Capstone
- MDC7800 - Neurology Clerkship
- MDS7710 - Emergency Medicine Clerkship

MDI 7XXX Subinternship (4)

MDE 7XXX Electives (12)

**The number of credits during Academic Year 3 and Academic Year 4 will depend on when student takes MDC7800 Neurology Clerkship Neurology Clerkship.*

Green Family Foundation NeighborhoodHELP

HWCOM, in collaboration with community partners and other FIU colleges, established NeighborhoodHELP as a novel component of medical education; the program aims to improve health outcomes and train future members of the health care workforce to be socially accountable. Through this service-learning experience, students develop an understanding of the social determinants of health, of interprofessional practice, and of important aspects of health systems science. Teams of students, faculty, and outreach workers strive to address the social and health care needs of household

members living in medically underserved neighborhoods in South Florida. After being introduced to important concepts including interprofessional practice, health disparities, and health equity in their first year, medical students then join an interprofessional team for their last three years. These interprofessional teams may include FIU nursing, social work, physician assistant, public health, law, and education students in addition to medical students. Teams apply concepts learned in the classroom during regular visits to these communities, developing individualized and comprehensive plans to improve the health and quality of life of the household members served. Students, supervised by interprofessional faculty, assess, respond to, and collaborate with assigned households to address health issues. Staffed by primary care providers, the program provides integrated primary and behavioral health care in fully equipped mobile health centers stationed in the designated neighborhoods. It also runs a mobile mammography screening program. Through participation in NeighborhoodHELP, students develop cultural humility by helping to address the complex medical, social, and behavioral health needs experienced by diverse patients in dynamic communities.

Clinical Services: FIU Health Care Network (FIU Health)

FIU Health Care Network (branded FIU Health) is the management service organization that manages the university's health system and faculty group practice. FIU Health supports the education and service missions of FIU and HWCOM and provides primary and specialty care services to the community through an integrated, team-based approach.

Research: Biomedical and Clinical

Research universities, and medical schools in particular, perform basic medical research that leads to breakthroughs in detection, diagnosis, treatment, and eradication of disease and other health problems. FIU scientists conduct important disease-related research. One of the objectives of the research program is to foster synergy between teaching, clinical practice, and basic/translational research. FIU medical students are aware of the latest medical developments and work alongside renowned researchers to develop research skills.

The college's internationally recognized scientists, all with substantial research funding, are developing major research programs in basic, translational, and clinical research in glycobiology, environmental science and toxicology, genomic and molecular medicine, immunology and nanotechnology, cancer biology, behavioral health and health disparities and population health.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: 7-Year BS in Biology and MD Accelerated Degree Pathway

The 7-Year BS/MD pathway program is a collaboration between CASE (Department of Biological Sciences), the Honors College, and the Herbert Wertheim College of Medicine. This program allows qualified students to earn both their bachelor's and MD degrees in a shorter amount of time than required for earning both degrees. Matriculated FIU first year undergraduate students meeting eligibility criteria including admission to The Honors College have an opportunity for guaranteed admission to FIU's Herbert Wertheim College of Medicine culminating in an undergraduate and medical degree in seven years, with the proviso that the student meets all of the requirements of the program. The first three years of study are completed as a BS Biology major and an Honors College student. The fourth year will be as a first -year medical student at the FIU Herbert Wertheim College of Medicine. A Bachelor of Science degree in Biological Sciences will be conferred following successful completion of the first year of medical school. Students applying for the

accelerated program must major in Biology (BS in Biological Sciences.) Prior to the fourth year, all BS Biology required courses must be taken, and all other CASE requirements must be met with the exception of the science elective courses (up to 12 credits) that will be taken in the first year at HWCOM. The Honors College, the Biology Department, and HWCOM will provide oversight of the students' progress in meeting course requirements for the first three years of the 3 + 4 program. Students will receive advisement and course schedule planning for each semester from The Honors College. HWCOM will provide oversight of the four-year MD curricular component of the program. The program is targeted to students with a strong academic background, demonstrated leadership, community service, and healthcare experiences.

Other Curricular Offering: MD and Professional MBA in Healthcare Policy and Management Joint Degree Pathway

Type

Completion Requirement

Joint Degree Pathway

The Herbert Wertheim College of Medicine (HWCOM) and the MBA in Healthcare Management program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University have a joint degree pathway culminating in both a Doctorate of Medicine (MD) and a Master of Business Administration degree (MBA). Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

(1) Joint degree pathway students will complete the first three years of coursework in the College of Medicine. Then, beginning in the fourth year, students in the joint pathway will interrupt their medical studies and begin classes for the MBA program. Classes in the MBA program will be taken during fall and spring semesters of the fourth year. During this time, students will complete 33 hours of course work in the MBA program. Nine credits taken in the medical school will count toward the 42 credits required for the MBA degree. At the beginning of the fifth year, students will recommence taking courses in the medical program. Students will graduate with both degrees at the end of the 5 years.

(2) Students will be expected to complete a minimum of 42 credits for the MBA and 189 credits as well as all requirements for the MD degree. Thirty- three of those credits will be taken in the College of Business, with nine HWCOM credits being accepted toward the MBA degree. There is no change in course requirements for the MD degree.

(3) Students begin taking classes in business in the fourth year. The entire fourth year is devoted to classes in the MBA program. The fall semester consists of five courses divided into two quarters. Three of the courses are face to face, and two courses are online. The spring semester consists of six courses, divided into two quarters. Four courses are face to face and two courses are online. There is also a requirement for program residencies (face to face/online) in August and March.

The curriculum in the MD/MBA pathway follows a prescribed course of study shown below. Structure of new joint MD/MBA degree. The proposed schedule is as follows. (HWCOM does not have semesters. Therefore, we have used Period designations.)

-- First Year Period 1 (MI) August to end of March: College of Medicine curriculum

-- Second Year Period 2 (M2) April to end of March: College of Medicine curriculum

-- Third Year Period 3 (M3) April to end of March: College of Medicine: all required clerkships

-- Fourth Year Period 4 (M4) April through July only: medical students start M4 electives, selectives or subinternship Students take USMLE Step 1 May or June. (Medical students must be counseled as to when to take USMLE Step 1 and USMLE Step 2 CK and CS, and which electives, selective or subinternship to engage in prior to taking a leave to pursue the MBA.) The remainder of Period 4 (M4) then consists of MBA courses. That is, from August through end of April.

--Fifth year- Spring semester of the MBA program ends the end of April. Medical students take the remainder of M4 period in the medical school (May through April).

The MBA residency #3 (online) could be taken during the first quarter of Spring term. Therefore, this will allow for the student to have additional time for the M4 year. The Lean Six Sigma Green Belt case offered in May, (listed below) would be optional for the MD/MBA pathway students.

Medical students will be counseled as to which electives, selectives or subinternship to take prior to applying for residency in September of this fifth year.

Below are the courses to be taken for the MBA:

Fulfill ALL of the following requirements:

Fall Course Options

Complete ANY of the following Courses:

- MAN6245 - Organizational Behavior
  AND ACG6026 - Accounting for Managers
- BUL6810 - Legal Environment of Business
  AND FIN6406 - Corporate Finance
  AND MAR6805 - Marketing Management in the Global Environment

AND

Spring Course Options

Complete ANY of the following Courses:

- MAN6098 - Management of Healthcare Finance and Reimbursement
  AND ISM6021 - Management of Information Systems
  AND ACG6175 - Financial Reporting and Analysis
  AND MAN6726 - Strategic Management
- QMB6616 - Business Process & Operations Analysis
  AND MAN6097 - Managerial Decision-Making in Health Economics

Additional Comments:

Courses waived in MBA:

-- MAN6095 Mgmt HCO 21st Century Management of Healthcare Organizations in the 21st Century
-- BUL6605 Healthcare Fraud Healthcare Fraud and Abuse Law & Regulation
-- MAN6974 Master's Project Master's Project in Management

Credits accepted from HWCOM: 9 credits

-- MDR7910 Research Scholarship Research Scholarship
-- BMS6880 Clinical Research & EBM I Foundations of Clinical Epidemiology & Quantitative Research
-- BMS6067 Syst Based Practice US Healthcare Delivery System
-- BMS6826 Ethical Foundation of Med Ethical Foundations of Medicine

Other Curricular Offering: MD and MPH (Major: Epidemiology) Joint Degree Pathway

The Herbert Wertheim College of Medicine (HWCOM) and the Robert Stempel College of Public Health and Social Work (Stempel College) offer a combined degree pathway of a Master's of Public Health with a major in Epidemiology and a Doctor of Medicine.

An MPH is a professional public health degree emphasizing the understanding of population health and disease. The MD degree is a clinical medicine degree focusing on patient-centered clinical care.

Students may apply to the combined pathway in their third year of medical study. Each College will independently review and admit applicants to their programs. Only students admitted to both programs will enroll in classes in the combined program. Students will be expected to complete 45 credits for the MPH and all requirements for the MD degree.

Combined degree pathway students complete the first three years of coursework in the MD degree program at HWCOM. At the beginning of the fourth period of study of the MD degree program curriculum, students admitted to the combined degree pathway pause their medical studies and begin classes as part of the MPH program. Classes in the MPH program are taken during the fall, spring, and summer semesters of the medical student's fourth year of study. During this time, students complete 36 hours of course work in the MPH program. Nine credits taken through HWCOM count toward the 45 credits required for the MPH degree.

At the beginning of the fifth year, students resume study in Period 4 of the MD degree program curriculum. Students who successfully complete all requirements graduate with both degrees at the end of the 5 years.

Other Curricular Offering: MD and MSHIA Joint Degree Pathway

Type

Completion Requirement

Joint Degree Pathway

The Herbert Wertheim College of Medicine (HWCOM) and the Master of Science in Health Informatics and Analytics (MSHIA) program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University have a combined degree pathway culminating in both a Doctorate of Medicine (MD) and a Master of Science in Health Informatics (MSHIA). Under the combined degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. Important criteria relating to the joint degree pathway are as follows:

(1) Combined degree pathway students will complete the first three years of coursework in the College of Medicine. Then, beginning in the fourth year, students in the combined pathway will interrupt their medical studies and begin classes for the MSHIA program. Classes in the MSHIA program will be taken during fall, spring and summer semesters of the fourth year. During this time students will complete 27 hours of course work in the MSHIA program. Ten credits taken in the medical school will count toward the 37 credits required for the MSHIA degree. At the beginning of the fifth year, students will recommence taking courses in the medical program. Students will graduate with both degrees at the end of the 5 years.

(2) Students will be expected to complete a minimum of 37 credits for the MSHIA and 189 credits as well as all requirements for the MD degree. Twenty-seven of those credits will be taken in the College of Business, with ten HWCOM credits being accepted toward the MSHIA degree. There is no change in course requirements for the MD degree.

(3) Students begin taking classes in business in the fourth year. The entire fourth year is devoted to classes in the MSHIA program. There is also a mandatory requirement for MSHIA program virtual (online) residencies.

The curriculum in the MD/MSHIA pathway follows a prescribed course of study shown below. The proposed schedule is as follows. (HWCOM does not have semesters. Therefore, we have used Period designations.)

--First Year Period 1 (MI) August to end of March: College of Medicine curriculum

--Second Year Period 2 (M2) April to end of March: College of Medicine curriculum

--Third Year Period 3 (M3) April to end of March: College of Medicine: all required clerkships

--Fourth Year medical students start M4 period in April. Then, in August start the MSHIA courses.

Medical students must be counseled as to when to take USMLE Step I and USMLE Step 2 CK and CS, and which electives, selective or subinternship to engage in prior to taking a leave to pursue the MSHIA program.

The remainder of Year 4 then consists of MSHIA courses. That is, from August through end of June.

--Fifth year- The MSHIA program ends the end of June. Medical students take the remainder of the 5th year, which is the M4 period in the medical school (July through April).

Medical students will be counseled as to which electives, selectives or subinternship to take prior to applying for residency in September of this fifth year.

The following courses are required for the MSHIA program.

Complete ALL of the following Courses:

- HIM6628 - Health Data Visualization
- HIM6865 - Healthcare Database Systems
- HIM6682 - Quality and Outcomes Analytics
- HIM6685 - Clinical Information Systems
- HIM6517 - Healthcare Project Management
- HIM6124 - Interoperability in Healthcare
- HIM6527 - Healthcare Information Security and Privacy
- HIM6858 - Health Informatics/Analytics Practicum

Note: HIM6858 HIA Practicum will be proposed by student and subject to the approval of the department housing the MSHIA program, Information Systems and Business Analytics.

Also, one of the following courses (selected at the Department's discretion for each cohort) is required for the MSHIA degree:

--HIM6694 Consumer Hlth Informatics

--HIM6937 Special Topics

--MSHIA Virtual Residencies I, II, and III

Residencies are mandatory, professional development non-credit requirements (typically include virtual meetings and independent activities, for example Six Sigma).

MGT:BBA - Bachelor of Business Administration in Management

Overview

Degree Offered
BBA - Bachelor of Business Administration

Program Title
Management

Whether one's goal is to manage people, lead a business unit, or shape a company's strategy, the Bachelor of Business Administration (BBA) in Management provides a solid foundation for success. Graduates will emerge ready to effectively plan and organize and to fulfill leadership roles. Graduates are well prepared to pursue a career as a management analyst, and demand for qualified professionals in this area is expected to grow as organizations seek ways to improve efficiency and control costs.

For more information, visit the College of Business website.

Admissions Requirements

Admissions and Progression Requirements for All College of Business Undergraduate Students

Applicants must follow regular University admission procedures and upon admission declare their specific program within the College of Business. In addition, students must:

(1) Complete courses detailed under Required Common Prerequisite Courses, or equivalent coursework, noted below, as part of their 60 credit-hours of lower-division course work.

(2) In their initial 60 credit-hours, earn a GPA of 2.0 or higher to continue pursuing a Bachelor of Business Administration and the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs must comply with the GPA requirement for the respective degree program.

(3) For the set of all Common Prerequisite Course credit hours, earn a GPA of 2.5 or higher to continue pursuing Bachelor of Business Administration degrees and a GPA of 2.75 or higher to pursue the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the 2.5 (or 2.75 Accounting) or higher GPA requirement for the set of Common Prerequisite Course credit hours.

(4) Successfully complete with a C or better each of Common Prerequisite Course within two attempts. Drops after the add/drop period, which result in a DR grade, are considered an unsuccessful attempt at the course, (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the two attempt limit on Common Prerequisite Courses.

(5) Students are expected to make satisfactory progress toward degree completion during their first 60 credit hours of lower-division coursework, consistent with the Common Prerequisite Benchmarks noted below. Students not making good progress, may be redirected to another degree program. All (a) AA Transfers and (b) students changing degree programs to Business from outside the College of Business must demonstrate progress consistent with Common Prerequisite Benchmarks.

Common Prerequisite Benchmarks include the following:

By End of Term / Credit Hours Earned	Coursework for equivalents Completed	Minimum GPA in Common Prerequisites *
1st /15 hours	CGS 2100 (or PHI 2600)	2.25
2nd / 30 hours	ECO 2023 and MAC 2233	2.35 (2.50 Accounting)
3rd / 45 hours	ACG 2021 and ECO 2013	2.5 (2.75 Accounting)
4lh / 60 hours	ACG 3301 and STA 2023	2.5 (2.75 Accounting)

* Applicable to all students pursuing or seeking a change of program plan to a Bachelor of Business Administration degree and the Bachelor of Accounting.

Students eligible for readmission are subject to the University's and the College's degree program's regulations in effect at the time of readmission to include admissions and progression requirements.

Program Requirements

Academic Standards

To earn an undergraduate degree from the College of Business, all students must comply with the following:

(1) Students must earn a grade of "C" or higher in each of the lower-division Common Prerequisite Courses.

(2) Students must earn a grade of "C" or higher in all upper-division major courses.

(3) Students must earn a grade of "C" or higher in all upper-division Business Core Courses. Each of these courses cannot be attempted more than three times. Drops after the add/drop period, which result in a DR grade, are considered an attempt in the course and count as an unsuccessful enrollment.

(4) As a student within the College of Business, each student gets two drops after the add/drop period, which result in "DR" grades, in their first 60 credits attempted. Each College of Business student get two additional drops after the add/drop period, which result in "DR" grades, in the second 60 credits attempted. Unused drops after the add/drop period, which result in "DR" grades, do not carry over from the first 60 credits attempted to the second 60 credits attempted. Students entering the College of Business as transfer students with an A.A. degree from a Florida public college or with 60 or more transfer credits earned from another college or university only get two drops after the add/drop period, which result in "DR" grades. Students with disabilities who need to drop a course due to disability-related reasons are allowed

to petition for additional drops after the add/drop period, which result in “DR” grades. Students who can document extenuating circumstances may petition the College for additional drops. Approval to drop additional courses in excess of those allowed must be obtained from the College of Business.

(5) Students are expected to follow degree program Major Map in making satisfactory progress toward degree completion. Students deviating from Major Maps may be redirected to another degree program.

(6) Students must satisfy the requirements of their respective programs of study and satisfy all university requirements for graduation.

(7) Students who (a) have 60 credit hours earned, but (b) have not completed the seven Common Prerequisite Course for Business majors, may register for, and/or complete, no more than 15 credit hours of upper-division Business courses.

(8) Undergraduate students who register for any graduate business course must be formally admitted to a graduate degree program at the university following the university's admission procedures.

(9) Faculty has the discretion to administratively drop students who do not attend the first class of a course.

The College adheres strictly to the university’s dismissal policy. Students should be sure to read and understand FIU policies regarding Academic Warnings, Probation, and Dismissals.

Common Prerequisite Courses

Type

Completion Requirement

Required Common Prerequisite Courses Part I

For the set of all Common Prerequisite Course credit hours, earn a GPA of 2.5 or higher to continue pursuing Bachelor of Business Administration degrees and a GPA of 2.75 or higher to pursue the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the 2.5 (or 2.75 Accounting) or higher GPA requirement for the set of Common Prerequisite Course credit hours.

Courses which form part of the statewide articulation between the State University System and the Florida College System will fulfill the Lower Division Common Prerequisites.

Please visit https://cpm.flvc.org for a current list of state-approved common prerequisites.

Earn a minimum grade of C in the following:

- ACG2021 - Accounting for Decisions
- ACG2071 - Managerial Accounting
- ECO2013 - Principles of Macroeconomics
- ECO2023 - Principles of Microeconomics
- MAC2233 - Applied Calculus
- STA2023 - Statistical Methods

Required Common Prerequisite Courses Part II

Students pursuing a Bachelor degree in Accounting, Business Analytics, Finance, Information Systems, International Business, Human Resources Management, Management, Marketing, or Real Estate are also required to achieve a grade of "C" or higher in the following course.

Earn a minimum grade of C in the following:

- CGS2100 - Intro to Microcomputer Applications for Business

Required Common Prerequisite Courses Part III

Students admitted in Fall 2012 or after, as freshman or transfer students with fewer than 30 credit hours earned, are encouraged to take GEB2011 Intro To Business Introduction to Business during their first year. Students admitted in the Fall 2018 or after, as freshman with fewer than 30 credit hours earned, are required to complete SPC2608 Public Speaking Public Speaking for their Undergraduate Core Curriculum Arts Requirement.

Additional Comments:

Prerequisite course requirements for entry into upper level courses will be enforced. Students will be administratively dropped from courses when they lack the required prerequisite course or courses and/or required grade.

Note: The programs, policies, requirements, and regulations listed in this catalog are subject to continual review in order to meet the needs of the University's various publics and to respond to the mandates of the Florida Board of Education and the Florida Legislature. Changes may be made without advance notice. For the most current and updated information, refer to the COB and appropriate Schools/Departments websites.

Required Business Core Courses: 24 credit hours

Type

Completion Requirement

Required Core Courses

The Business Core Courses listed below are required for all undergraduate students in the College of Business. Prerequisites for each of the Business Core Courses can be found in the College of Business course descriptions.

Complete ALL of the following Courses:

- ISM3011 - Artificial Intelligence & Information Systems in Organizations
  OR ACG4401 - Accounting Information Systems
- BUL4310 - The Legal Environment of Business
  OR BUL4320 - Business Law I
- FIN3403 - Financial Management
- MAN3025 - Organization and Management
- MAN4720 - Strategic Management
- MAR3023 - Introduction to Marketing
- QMB3200 - Business Statistics and Analysis I
- QMB4680 - Business Statistics and Analysis II

ACG4401 Acctg Info Systems and BUL4320 Bus Law I should **ONLY** be taken by students pursuing a Bachelor of Accounting.

Required Business Professional Development Courses: 3 credit hours

Type

Completion Requirement

Required Courses

The business professional development courses listed below are required for all undergraduate students in the College of Business.

Complete ALL of the following Courses:

- COM3112 - Speech and Writing for Business Communication
- GEB3003 - Career Management

Students admitted before Fall 2011 can take either COM3150 Advanced Bus Prof Comm Advanced Business and Professional Communication **or** COM3110 Bus And Prof Commun Business and Professional Communication.

Degree-Specific Courses: 21 credit hours

Type

Completion Requirement

Courses Required for the BBA in Management Part I

Complete ALL of the following Courses:

- MAN4151 - Organizational Behavior
- MAN4301 - Human Resource Management
- MAN4771 - Executive Skills Development

Courses Required for the BBA in Management Part II

Complete at least 2 of the following courses:

- MAN3100 - Happiness at Work
- MAN4164 - Leadership
- MAN4102 - Managing Diversity
- MAN4120 - Managing Virtual Teams
- ENT4113 - Entrepreneurship: New Business Development
- GEB4110 - Writing the Business Plan
- MAN4065 - Business Ethics
- MAN4600 - International Management

Courses Required for the BBA in Management Part III

Students must take two additional 3000 and/or 4000 level courses offered by any department in the College of Business (6 credit hours).

Additional Comments:

MAN Prefix Courses

Students should note that not all courses with a MAN prefix are actually management courses. Therefore, they should consult with a College advisor to confirm that their program of study reflects the degree requirements.

Upper Division Business Electives: 12 credit hours

Management students may take any 3000 level or higher course preferably inside of the College of Business to satisfy their Upper Division Business Elective requirement. All upper division electives outside the College of Business must demonstrate a relationship to business and receive the approval of the Global Leadership and Management Department Chair.

Management students can meet their Major and Upper Division Elective Requirements by pursuing one of the Certificates offered by the College of Business (e.g., Team Management, Banking, Sales and Customer Relationship Management, Social Media and E-Marketing Analytics, Import-Export and Supply Chain Management) or by pursuing a

minor offered by the College of Business so long as the certificate/minor does not extend time to graduation or extend total credit hours to beyond 120 credit hours. Although pursuing a certificate is not required, certificates increase the employability of the students by allowing them to acquire specific, in-demand skills.

Internships

Students who are interested in receiving academic credit for an internship are required to submit an internship student application for Department Chair approval. To qualify for academic credit, activities carried out in the internship should be supervised and deemed capable of enhancing the student's business management skills and post-graduation employability. A minimum of 2.75 GPA, junior or senior standing is also required. For further instructions and to download the internship application, please visit our departmental webpage: **http://glam.fiu.edu.**

Department of Global Leadership and Management Academic Standards

The Department of Global Leadership and Management requires that students fulfill the following requirements in order to remain in a degree program:

(1) Receive a grade of "C" or higher in each of the courses in their major.

(2) Receive a grade of "C" or higher in each of the core management courses (MAN3025 Organization & Mgmt and MAN4720 Strategic Management).

(3) Earn a grade of "C" or higher in each Upper Division business elective.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

MGTSY:BBA - Bachelor of Business Administration in Information Systems

Overview

Degree Offered
BBA - Bachelor of Business Administration

Program Title
Information Systems

Students pursuing the Bachelor of Business Administration (BBA) in Information Systems will gain a solid foundation in the design, use, and management of databases, enterprise systems, information security, and telecommunication technology. The program provides students with the background needed to give informational support for decision making through business analytics and to understand complex project management initiatives. Graduates will be prepared for entry-level positions in the information systems field, either in user- or system-oriented departments.

For more information, visit the College of Business website.

Simple Requirements

Admissions Requirements

Admissions and Progression Requirements for All College of Business Undergraduate Students

Applicants must follow regular University admission procedures and upon admission declare their specific program within the College of Business. In addition, students must:

1. Complete courses detailed under Required Common Prerequisite Courses, or equivalent coursework, noted below, as part of their 60 credit-hours of lower-division course work.

2. In their initial 60 credit-hours, earn a GPA of 2.0 or higher to continue pursuing a Bachelor of Business Administration and the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs must comply with the GPA requirement for the respective degree program.

3. For the set of all Common Prerequisite Course credit hours, earn a GPA of 2.5 or higher to continue pursuing Bachelor of Business Administration degrees and a GPA of 2.75 or higher to pursue the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the 2.5 (or 2.75 Accounting) or higher GPA requirement for the set of Common Prerequisite Course credit hours.

4. Successfully complete with a C or better each of Common Prerequisite Course within two attempts. Drops after the add/drop period, which result in a DR grade, are considered an unsuccessful attempt at the course, (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the two attempt limit on Common Prerequisite Courses.

5. Students are expected to make satisfactory progress toward degree completion during their first 60 credit hours of lower-division coursework, consistent with the Common Prerequisite Benchmarks noted below. Students not making good progress, may be redirected to another degree program. All (a) AA Transfers and (b) students changing degree programs to Business from outside the College of Business must demonstrate progress consistent with Common Prerequisite Benchmarks.

Common Prerequisite Benchmarks include the following:

By End of Term / Credit Hours Earned	Coursework for equivalents Completed	Minimum GPA in Common Prerequisites *
1st /15 hours	CGS 2100 (or PHI 2600)	2.25
2nd / 30 hours	ECO 2023 and MAC 2233	2.35 (2.50 Accounting)
3rd / 45 hours	ACG 2021 and ECO 2013	2.5 (2.75 Accounting)
4lh / 60 hours	ACG 3301 and STA 2023	2.5 (2.75 Accounting)

* Applicable to all students pursuing or seeking a change of program plan to a Bachelor of Business Administration degree and the Bachelor of Accounting.

Students eligible for readmission are subject to the University's and the College's degree program's regulations in effect at the time of readmission to include admissions and progression requirements.

Admissions Requirements for BBA in Information Systems (Business Information Security Track) to MS in Information Systems (Business Cybersecurity Track) Accelerated Degree Pathway

1. Students must be enrolled in the BBA in Information Systems/ Business Information Security Track degree program.
2. Students must have completed at least 75, but no more than 90, credits of coursework.
3. Students must have completed ISM 4220 and ISM 4323 with a B or better.
4. Students must have an overall (transfer and FIU) GPA of 3.34 or higher.
5. Students must have two letters of recommendation, with at least one from a member of the FIU Department of Information Systems and Business Analytics.

Program Requirements

Academic Standards

To earn an undergraduate degree from the College of Business, all students must comply with the following:

1. Students must earn a grade of "C" or higher in each of the lower-division Common Prerequisite Courses.

2. Students must earn a grade of “C” or higher in all upper-division major courses.

3. Students must earn a grade of “C” or higher in all upper-division Business Core Courses. Each of these courses cannot be attempted more than three times. Drops after the add/drop period, which result in a DR grade, are considered an attempt in the course and count as an unsuccessful enrollment.

4. As a student within the College of Business, each student gets two drops after the add/drop period, which result in “DR” grades, in their first 60 credits attempted. Each College of Business student get two additional drops after the add/drop period, which result in “DR” grades, in the second 60 credits attempted. Unused drops after the add/drop period, which result in “DR” grades, do not carry over from the first 60 credits attempted to the second 60 credits attempted. Students entering the College of Business as transfer students with an A.A. degree from a Florida public college or with 60 or more transfer credits earned from another college or university only get two drops after the add/drop period, which result in “DR” grades. Students with disabilities who need to drop a course due to disability-related reasons are allowed to petition for additional drops after the add/drop period, which result in “DR” grades. Students who can document extenuating circumstances may petition the College for additional drops. Approval to drop additional courses in excess of those allowed must be obtained from the College of Business

5. Students are expected to follow degree program Major Map in making satisfactory progress toward degree completion. Students deviating from Major Maps may be redirected to another degree program.

6. Students must satisfy the requirements of their respective programs of study and satisfy all university requirements for graduation.

7. Students who (a) have 60 credit hours earned, but (b) have not completed the seven Common Prerequisite Course for Business majors, may register for, and/or complete, no more than 15 credit hours of upper-division Business courses.

8. Undergraduate students who register for any graduate business course must be formally admitted to a graduate degree program at the university following the university's admission procedures.

9. Faculty has the discretion to administratively drop students who do not attend the first class of a course.

The College adheres strictly to the university’s dismissal policy. Students should be sure to read and understand FIU policies regarding Academic Warnings, Probation, and Dismissals.

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Track in Business Information Security

Type

Completion Requirement

Required Track Courses

The Department of Information Systems and Business Analytics (ISBA) offer a Business Information Security Track to students pursuing a degree in Information Systems (IS). The track focuses on developing the key skills needed to pursue careers as information security, or cyber-security analysts or specialists within modern business organizations. Information security analysts plan, implement, and monitor security measures to protect organizations' information systems and key data assets. Given the ever-increasing number of incidents plaguing business organizations, their responsibilities are continually expanding and changing. The Business Information Security Track consists of 21 credit hours. Students are required to receive a grade of “C” or higher in each course.

Complete ALL of the following Courses:

- ISM4113 - Systems Analysis and Design
- ISM3230 - Business Application Programming
- ISM4323 - Information Systems Security
- ISM4314 - Project Management
  OR MAN4583 - Project Management
- EEL4806 - Ethical Hacking and Countermeasures
- EEL4802 - Introduction to Digital Forensics Engineering
- EEL4804 - Introduction Malware Reverse Engineering

Track in Business Systems

Type

Completion Requirement

Required Track Courses

The Department of Information Systems and Business Analytics (ISBA) offer a Business Systems Track to students pursuing a degree in Information Systems (IS). The track focuses on developing the necessary skills required to pursue careers as business/systems analysts within IS departments or consulting organizations. Systems analysts study organizations' current information and computer systems as well as procedures, subsequently designing information systems solutions that help organizations operate more efficiently and effectively. These professionals bring business and information technology together by understanding the needs and limitations of both. The Business Systems Track consists of 7 courses (21 credit hours). Students are required to receive a grade of "C" or higher in each course.

Complete ALL of the following Courses:

- ISM3230 - Business Application Programming
- ISM4113 - Systems Analysis and Design
- ISM4220 - Business Telecommunication Systems
- ISM4323 - Information Systems Security
- ISM4314 - Project Management
  AND MAN4583 - Project Management
- ISM4053 - Interface Design for Business Applications (Inactive)
- ISM4054 - Web Application Development (Inactive)
- ISM4154 - Business Application Integration (Inactive)

Other Curricular Offering: BBA in Information Systems (Business Information Security Track) to MS in Information Systems (Business Cybersecurity Track) Accelerated Degree Pathway

The Combined Bachelor of BBA in Information Systems/Business Information Security Track/Master of Science in Information Systems/Business Cybersecurity Track Degree Pathway (BIS/MSIS-Cybersecurity) is designed for outstanding undergraduate students interested in continuing studies beyond their baccalaureate degree. The Degree Pathway provides a strong base of knowledge and skills in business cybersecurity, and at the same time accelerates completion of the Master of Science in Information Systems/Business Cybersecurity Track degree. Students may take advantage of the overlap of courses in the Bachelor of Business Administration in Information Systems/ Business Information Security Track and MSIS/ Business Cybersecurity Track programs to receive their MSIS/Business Cybersecurity Track degree in a shorter period than might otherwise be possible.

A student admitted to the Degree Pathway will be considered to have undergraduate status until conferral of their BBA in IS/Business Information Security Track degree. Upon conferral of their undergraduate degree, the student will be granted graduate status.

General Requirements

1. Students must maintain a GPA of 3.0 or greater to remain in the Degree Pathway.

2. BBA in Information Systems / Business Information Security Track degree must be awarded before the Master of Science in Information Systems/Business Cybersecurity Track degree.

3. No grade below “C” will be accepted in any course taken to satisfy graduate program requirements.

4. Grade requirements for the Master of Science in Information Systems/Business Cybersecurity Track apply to courses counted toward the Master of Science in Information Systems/Business Cybersecurity Track degree.

5. Up to 4 courses (12 credits) may be used in satisfying both the BBA in Information Systems/ Business Information Security Track and Master of Science in Information Systems/Business Cybersecurity Track degree requirements.

6. Students must fulfill the degree requirements of both the BBA in Information Systems/ Business Information Security Track and Master of Science in Information Systems/Business Cybersecurity Track degree programs, with all overlapping courses approved by both graduate program director and undergraduate advisors before students enroll in such courses.

MGTSY:MS - Master of Science in Information Systems

Overview

Degree Offered
MS - Master of Science

Program Title
Information Systems

The Master of Science in Information Systems (MSIS) prepares professionals to lead in the age of AI-driven digital transformation. This STEM-designated program blends technical expertise with strategic management, offering specialized tracks in Artificial Intelligence, Business Analytics, Business Cybersecurity, or Digital Transformation. Taught by expert faculty, the curriculum features AI-infused courses culminating in capstone courses designed to drive real-world impact. Graduates are prepared for high-level leadership roles, such as chief information officers, chief information security officers, chief artificial intelligence officers, IT directors, information security administrators, business analysts, IT project managers, artificial intelligence analysts, artificial intelligence product managers and cybersecurity systems analysts.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Master of Science (MS) in Information Systems

To be eligible for admission to the MSIS degree program in the Chapman School, prospective students must:

(1) Hold a 4-year U.S. equivalent Bachelor’s degree from an accredited college or university.

(2) Submit a competitive score on the Graduate Management Admission Test (GMAT) or Graduate Record Exam (GRE). Waiver of the requirement could be considered at the Department's discretion if either a) the applicant has a minimum of four (4) years of professional experience directly related to the program or b) if the applicant already completed a graduate degree in a directly related field from an accredited university with a minimum of a 3.0 cumulative grade point average (GPA), or is entering a business master’s program under a special agreement for admissions with specific foreign universities, or c) if the applicant already completed the BBA in Information Systems or Business Analytics or related undergraduate degree at FIU, or similarly accredited institution, with a minimum upper division grade point average (GPA) of 3.25.

(3) Have a minimum upper division grade point average (GPA) of 3.0.

(4) Provide a personal statement on the motivation to attend the program, including personal and career goals.

(5) Graduate student applicants whose studies were completed outside of the US must demonstrate proficiency in the English language by presenting a minimum score of 80 on the iBT TOEFL (equivalent to 550 on paper-based version) or 6.5 overall of the International English Language Testing System (IELTS).

(6) If applicant is a student in the FIU Graduate Certificate in Business Analytics program or in the FIU Graduate Certificate in Business Cybersecurity program, and has completed the first 12 credits with a GPA of 3.25 or higher, he or she may be eligible for admission to the MSIS degree program. Appropriate courses from the Certificate program may be transferred into the MSIS degree program.

(7) Be in good standing with all previously attended colleges and universities.

Admissions at the graduate level are competitive. Meeting minimum program requirements does not guarantee admission.

Admissions Requirements for the Combined Bachelor of Business Administration (BBA) in Business Analytics to MS in Information Systems - Business Analytics Track Accelerated Degree Pathway

(1) Students must be enrolled in the BBA in Business Analytics (BA) degree program.

(2) Students must have completed at least 75, but no more than 90, credits of coursework.

(3) Students must have completed ISM 4400 or equivalent with a B or better.

(4) Student must have an overall (transfer and FIU) GPA of 3.34 or higher.

(5) Students must have two letters of recommendation, with at least one from a faculty member of the FIU Department of Information Systems and Business Analytics.

Admissions Requirements for the MS in Information Systems and Master of Accounting (MAcc) Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on their initial application their intention to pursue the joint degree option.

(2) Applications for a joint degree will not be accepted from candidates who have already completed either degree.

(3) Domestic undergraduate non-accounting degree holders and international degree holders, regardless of major, will take the following courses, for a saving of 15 credits:

-- 24 credits at the 6000-level from the MSIS

-- 15 credits at the 5000-level from the MACC

-- 30 credits at the 6000-level from the MACC

Admissions Requirements for the MS in Information Systems and Master of Business Administration (MBA) Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree pathway. Candidates deciding to pursue the joint degree pathway after having been admitted to one program will indicate this intention only on their second application.

(2) Applications for the joint degree pathway will not be accepted from candidates who have already completed either degree. MBA or MSIS students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.

Admissions Requirements for the BBA in Information Systems - Business Information Security Track to MS in Information Systems - Business Cybersecurity Track Accelerated Degree Pathway

(1) Students must be enrolled in the BBA in Information Systems/ Business Information Security Track degree program.

(2) Students must have completed at least 75, but no more than 90, credits of coursework.

(3) Students must have completed ISM 4220 and ISM 4323 with a B or better.

(4) Students must have an overall (transfer and FIU) GPA of 3.34 or higher.

(5) Students must have two letters of recommendation, with at least one from a faculty member of the FIU department of Information Systems and Business Analytics.

Transfer Credits

A student may receive permission to transfer up to a maximum of nine semester hours of graduate credit towards a Master of Science degree program or twelve semester hours of credit for a Master of Business Administration degree program, if:

(1) The courses were taken at the graduate level at an accredited college or university;

(2) The courses were not introductory or survey in nature;

(3) The student earned grades of “B” or higher in the courses;

(4) The courses are judged by the Department Chair, College Dean, Graduate School Dean, and program manager to be relevant to the student’s graduate program;

(5) The credits were completed within six years immediately preceding the College’s awarding of the degree. Credits are not transferable until the student has earned 15 semester hours in a Chapman School graduate degree program.

Program Requirements

College Policies

To be eligible for a Master’s degree, a student must:

(1) Satisfy all University requirements for a Master’s degree;

(2) Satisfy required prerequisites;

(3) Complete the required courses in the specific graduate program in which he/she is enrolled.

(4) Earn a minimum average of “B” (3.0) in all approved courses in the student’s approved course of graduate study.

No courses in which a graduate student earns a grade below “C” may be counted towards any Master’s degree program in the Chapman School. However, all approved undergraduate and graduate course work a graduate student takes will be counted in computing his or her grade point average, including courses in which he or she has earned a “D” or “F” grade.

Faculty have the discretion to administratively drop students who do not attend the first class of a course.

Degree Requirements

Type

Completion Requirement

Required Courses

To complete the MSIS degree, students need to successfully complete all 10, three-credit hour courses for a total of 30 credit-hours, maintain a B average (3.0 GPA), complete mandatory Professional Development Seminars, and satisfy all University requirements for a Master's degree. Students who fail more than one class may be dismissed from the MSIS degree program.

Program Format

Students will complete the program in 12 - 14 months with classes on Saturdays. Students will complete this program as a cohort. The program offers almost all classes in 8-week terms, with two to three courses each term. Students will be considered full time during a "semester", or two terms in the cohort, if they complete at least 12 graduate credit hours.

Complete ALL of the following Courses:

- ISM6205 - Database Management
- ISM6316 - Project Management
- ISM6106 - Systems Analysis
- ISM6128 - Business Process Design
- ISM6307 - Management of the Information Systems Function
- ISM6338 - Information Systems Strategy and Governance
- ISM6328 - Information Security Management

Elective Courses

To complete the MSIS degree students may take three courses selected at the Department's discretion for each cohort from the list of elective courses below. One of these electives must have a business application development component.

Complete ANY of the following Courses:

- ISM6024 - Managing Distributed Architectures (Inactive)
- ISM6136 - Business Analytics Applications
- ISM6156 - Enterprise Information Systems
- ISM6208 - Cloud Data Warehousing
- ISM6251 - Emerging Information Technologies
- ISM6489 - E-business and Blockchain Applications
- ISM6930 - Special Topics in Management Information Systems
- ISM6942 - MIS Internship
- QMB6357 - Business Statistical Analysis

Optional Elective

Complete ALL of the following Courses:

- ISM6942 - MIS Internship

Professional Development

Professional Development Seminars

Seminars will focus on soft skills such as leadership, team building, oral presentation, and career exploration. There will be team-building activities, including classroom exercises in group decision-making and problem-solving. Challenging outdoor exercises help students build the skills they will need to work together in the program and to succeed in today's team-based organizations. Students will also work with a presentation skills coach to improve the communication skills that are critical to managerial success.

Professional Development Seminars I, II, and III will focus on improving student's soft skills. Seminars will be mandatory, non-credit. Topics of Professional Development Seminars are subject to change based on industry trends and demands.

For additional information, please visit **http://msis.fiu.edu** or contact the Program Manager at (305) 348-0594 or **msis@fiu.edu**.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Track in Business Analytics

Type
Completion Requirement

Required Track Courses: 18 credits

The Business Analytics Track of the Master of Science in Information Systems degree prepares students for careers such as business analysts, data analysts or business analytics managers. The Business Analytics Track provides students with a clear designation of their concentration in the field. The Business Analytics Track consists of 12 courses (36 credit hours) within the MSIS degree.

To complete the MSIS degree, Business Analytics Track, students need to successfully complete all 12, three credit-hour courses for a total of 36 credit-hours, maintain a B average (3.0 GPA), complete mandatory professional development seminars, and satisfy all University requirements for a Master's degree.

Complete ALL of the following Courses:

- ISM6644 - Python Fundamentals for Business Analytics
- QMB6315 - Quantitative Analytical Methods in Business
- ISM6208 - Cloud Data Warehousing
- ISM6418 - Business Data Exploration and Visualization
- ISM6642 - Machine Learning for Business Applications
- ISM6569 - Business Analytics Capstone

Track in Business Artificial Intelligence

Type
Completion Requirement

Required Track Courses: 18 credits

The Business Artificial Intelligence Track of the Master of Science in Information Systems degree prepares students for careers such as artificial intelligence / business analytics managers, AI business analyst, machine learning business analyst, AI specialist, , AI/ information technology manager/director, data analyst, IT project manager, and consultants in AI, business analytics, IT, management and digital transformation. The Business Artificial Intelligence Track provides students with a clear designation of their concentration in the field.

The Business Artificial Intelligence Track consists of 12 courses (36 credit hours) within the MSIS degree.

To complete the MSIS degree, Business Artificial Intelligence Track, students need to successfully complete all 12, three credit- hour courses for a total of 36 credit-hours, maintain a B average (3.0 GPA), complete mandatory professional development seminars, and satisfy all University requirements for a Master's degree.

Complete ALL of the following Courses:

- ISM6644 - Python Fundamentals for Business Analytics
- QMB6315 - Quantitative Analytical Methods in Business
- ISM6642 - Machine Learning for Business Applications
- ISM6422 - Business Artificial Intelligence Applications
- ISM6427 - Artificial Intelligence Strategy
- ISM6429 - Business AI Capstone

Track in Business Cybersecurity

Type

Completion Requirement

Required Track Courses: 18 credits

The Business Cybersecurity Track of the Master of Science in Information Systems degree prepares students for careers such as chief security officer, cybersecurity manager, cybersecurity analyst or privacy officer. The Business Cybersecurity Track provides students with a clear designation of their concentration in the field. The Business Cybersecurity Track requires students to complete 12 courses (36 credits) within the MSIS degree.

Students are required to complete all six of the following courses in the field of business cybersecurity (18 credit hours).

To complete the MSIS degree, Business Cybersecurity Track students need to successfully complete all 12, three-credit hour courses for a total of 36 credit-hours, maintain a B average (3.0 GPA), complete mandatory professional development seminars, and satisfy all University requirements for a Master’s degree.

Complete ALL of the following Courses:

- ISM6575 - Security Risk Management and Organizational Cyber Resilience
- ISM6325 - Ethical Hacking for Business
- ISM6327 - Protecting and Defending Business Digital Assets
- ISM6326 - Information Security and Compliance
- ISM6267 - Secure Cloud Computing and Virtualization Management
- ISM6914 - Business Cybersecurity Capstone

Track in Digital Transformation

Type

Completion Requirement

Required Track Courses: 18 credits

The Digital Transformation Track of the Master of Science in Information Systems degree prepares students for careers such as chief information officer, information technology manager/director, IT project manager, and consultants in IT, management and digital transformation. The Digital Transformation Track provides students with a clear designation of their concentration in the field. The Digital Transformation Track requires students to complete 12 courses (36 credits) within the MSIS degree.

Students are required to complete all six of the following courses in the Digital Transformation Track (18 credit hours).

To complete the MSIS degree, Digital Transformation track students need to successfully complete all courses, maintain a B average (3.0 GPA), complete mandatory professional development seminars, and satisfy all University requirements for a Master's degree.

Complete ALL of the following Courses:

- ISM6489 - E-business and Blockchain Applications
- ISM6208 - Cloud Data Warehousing
- ISM6156 - Enterprise Information Systems
- ISM6267 - Secure Cloud Computing and Virtualization Management
- ISM6427 - Artificial Intelligence Strategy
- ISM6349 - Digital Transformation Capstone

Other Curricular Offering: Combined BBA in Information Systems - Business Information Security Track to MS in Information Systems - Business Cybersecurity Track Accelerated Degree Pathway

The Combined Bachelor of BBA in Information Systems/Business Information Security Track/Master of Science in Information Systems/Business Cybersecurity Track Degree Pathway (BIS/MSIS-Cybersecurity) is designed for outstanding undergraduate students interested in continuing studies beyond their baccalaureate degree. The Degree Pathway provides a strong base of knowledge and skills in business cybersecurity, and at the same time accelerates completion of the Master of Science in Information Systems/Business Cybersecurity Track degree. Students may take advantage of the overlap of courses in the Bachelor of Business Administration in Information Systems/ Business Information Security Track and MSIS/Business Cybersecurity Track degree in a shorter period than might otherwise be possible.

A student admitted to the Degree Pathway will be considered to have undergraduate status until conferral of their BBA in IS/Business Information Security Track degree. Upon conferral of their undergraduate degree, the student will be granted graduate status.

General Requirements

(1) Students must maintain a GPA of 3.0 or greater to remain in the Degree Pathway.

(2) BBA in Information Systems/Business Information Security Track degree must be awarded before the Master of Science in Information Systems/Business Cybersecurity Track Degree.

(3) No grade below "C" will be accepted in any course taken to satisfy graduate program requirements.

(4) Grade requirements for the Master of Science in Information Systems/Business Cybersecurity Track apply to courses counted toward the Master of Science in Information Systems/ Business Cybersecurity Track degree.

(5) Up to 4 courses (12 credits) may be used in satisfying both the BBA in Information Systems/Business Information Security Track and Master of Science in Information Systems/Business Cybersecurity Track degree requirements.

(6) Students must fulfill the degree requirements of both the BBA in Information Systems/Business Information Security Track and Master of Science in Information Systems/Business Cybersecurity Track degree programs, with all overlapping courses approved by both graduate program director and undergraduate advisors before students enroll in such courses.

Other Curricular Offering: MS in Information Systems and MAcc Joint Degree Pathway

The School of Accounting and the Master of Science in Information Systems (MSIS) program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University offer a joint degree program culminating in both a Master in Accounting (MACC) and a Master of Science in Information Systems (MSIS). Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

(1) Domestic undergraduate accounting degree holders from AACSB accredited universities may petition to waive the 5000-level MACC courses, saving an additional 15 credits.

(2) All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. Directors of the MACC and MSIS degree programs may adjust these exact course requirements as a result of future changes to the MACC or MSIS curriculums.

(3) Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first-degree program requirements as if the student had never been a joint degree candidate.

Other Curricular Offering: MS in Information Systems and Professional MBA Joint Degree Pathway

Type

Completion Requirement

In the Professional MBA Program: 33 credits

The Master of Science in Information Systems and the MBA program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University are offering a joint degree pathway culminating in both a Master of Business Administration (MBA), and a Master of Science in Information Systems degree (MSIS). Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have two – four common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MSIS courses transferred to meet MBA elective credit must be 6000 level courses approved by the University Curriculum Committee. Directors of the MBA and MSIS degree programs may adjust these exact course requirements as a result of future changes to the MBA or MSIS curriculums.

To obtain the MSIS/MBA degree through the Professional MBA program, students must complete the following courses for a total of 63 credit hours if they choose the MSIS degree or 66 credit hours if they choose the MSIS in Business Analytics track degree or the MSIS in Business Cybersecurity track degree.

Notes:

1 The Professional MBA for Executives and Professional MBA in Healthcare Management programs are not included as an option for the joint degree pathway.

2 Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree pathway candidate.

For additional information, contact the MBA office at (305) 348-0148 or the MSIS Office at (305) 348-2830.

Earn at least 33 credits from the following:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- QMB6357 - Business Statistical Analysis

Students also must take one elective course in International Business (3 credits) and one elective in legal/regulatory issues (3 credits)

In the MSIS program: 30 credits

Earn at least 30 credits from the following:

- ISM6106 - Systems Analysis
- ISM6205 - Database Management
- ISM6307 - Management of the Information Systems Function
- ISM6208 - Cloud Data Warehousing
- ISM6128 - Business Process Design
- ISM6328 - Information Security Management
- ISM6338 - Information Systems Strategy and Governance
- ISM6316 - Project Management
- ISM6156 - Enterprise Information Systems
- ISM6489 - E-business and Blockchain Applications

Students also must take Professional Development Seminars (PDS) I, II, III.

In the MSIS in Business Analytics track program: 33 credits

Earn at least 33 credits from the following:

- ISM6106 - Systems Analysis
- ISM6205 - Database Management
- ISM6307 - Management of the Information Systems Function
- ISM6128 - Business Process Design
- ISM6328 - Information Security Management
- ISM6338 - Information Systems Strategy and Governance
- ISM6316 - Project Management
- QMB6357 - Business Statistical Analysis
- ISM6208 - Cloud Data Warehousing
- ISM6136 - Business Analytics Applications
- ISM6404 - Business Data Visualization and Reporting

Students also must take Professional Development Seminars (PDS) I, II, III.

In the MSIS in Business Cybersecurity track program: 33 credits

Earn at least 33 credits from the following:

- ISM6106 - Systems Analysis
- ISM6205 - Database Management
- ISM6307 - Management of the Information Systems Function
- ISM6128 - Business Process Design
- ISM6328 - Information Security Management
- ISM6338 - Information Systems Strategy and Governance
- ISM6316 - Project Management
- ISM6325 - Ethical Hacking for Business
- ISM6326 - Information Security and Compliance
- ISM6327 - Protecting and Defending Business Digital Assets
- ISM6575 - Security Risk Management and Organizational Cyber Resilience

Students also must take Professional Development Seminars (PDS) I, II, III.

Other Curricular Offering: MS in Information Systems and International MBA Joint Degree Pathway

Type

Completion Requirement

In the IMBA program: 39 credits

To obtain the MSIS/MBA degree through the International MBA program, students must complete the following courses for a total of 69 credit hours if they choose the MSIS program or 72 credit hours if they choose the MSIS in Business Analytics track program or the MSIS in Business Cybersecurity track program.

Notes:

1 The Professional MBA for Executives and Professional MBA in Healthcare Management programs are not included as an option for the joint degree pathway.

2 Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree pathway candidate.

For additional information, contact the MBA office at (305) 348-0148 or the MSIS Office at (305) 348-2830.

Earn at least 39 credits from the following:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6644 - Global Financial Strategy
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- MAN6608 - International Business
- MAN6974 - Master's Project in Management
- MAR6805 - Marketing Management in the Global Environment

- MAR6816 - Corporate Simulation
- QMB6616 - Business Process & Operations Analysis
- QMB6357 - Business Statistical Analysis

In the MSIS program: 30 credits

Earn at least 30 credits from the following:

- ISM6106 - Systems Analysis
- ISM6205 - Database Management
- ISM6307 - Management of the Information Systems Function
- ISM6208 - Cloud Data Warehousing
- ISM6128 - Business Process Design
- ISM6328 - Information Security Management
- ISM6338 - Information Systems Strategy and Governance
- ISM6316 - Project Management
- ISM6156 - Enterprise Information Systems
- ISM6489 - E-business and Blockchain Applications

Students also must take Professional Development Seminars (PDS) I, II, III.

In the MSIS in Business Analytics track program: 33 credits

Earn at least 33 credits from the following:

- ISM6106 - Systems Analysis
- ISM6205 - Database Management
- ISM6307 - Management of the Information Systems Function
- ISM6128 - Business Process Design
- ISM6328 - Information Security Management
- ISM6338 - Information Systems Strategy and Governance
- ISM6316 - Project Management
- QMB6357 - Business Statistical Analysis
- ISM6208 - Cloud Data Warehousing
- ISM6136 - Business Analytics Applications
- ISM6404 - Business Data Visualization and Reporting

Students also must take Professional Development Seminars (PDS) I, II, III.

In the MSIS in Business Cybersecurity track program: 33 credits

Earn at least 33 credits from the following:

- ISM6106 - Systems Analysis
- ISM6205 - Database Management
- ISM6307 - Management of the Information Systems Function
- ISM6128 - Business Process Design
- ISM6328 - Information Security Management
- ISM6338 - Information Systems Strategy and Governance
- ISM6316 - Project Management
- ISM6325 - Ethical Hacking for Business
- ISM6326 - Information Security and Compliance
- ISM6327 - Protecting and Defending Business Digital Assets

- ISM6575 - Security Risk Management and Organizational Cyber Resilience

Students also must take Professional Development Seminars (PDS) I, II, III.

Other Curricular Offering: BBA in Business Analytics to MS in Information Systems - Business Analytics Track Accelerated Degree Pathway

The combined Bachelor of Business Administration in Business Analytics/Master of Science in Information Systems-Business Analytics Track Degree Pathway (BA/MSIS-BA) is designed for outstanding undergraduate students interested in continuing studies beyond their baccalaureate degree. The pathway provides a strong base of knowledge and skills in business analytics, and at the same time accelerates completion of the Master of Science in Information Systems degree. Students may take advantage of the overlap of courses in the BA and MSIS – BA programs to receive their MSIS degree in a shorter period than might otherwise be possible.

A student admitted to the Degree Pathway will be considered to have undergraduate status until conferral of their BBA in Business Analytics degree. Upon conferral of their undergraduate degree, the student will be granted graduate status.

General Requirements

(1) Students must maintain a GPA of 3.0 or greater to remain in the Degree Pathway.

(2) BBA in Business Analytics (BA) degree must be awarded before the Master of Science in Information Systems – Business Analytics Track degree.

(3) No grade below “C” will be accepted in any course taken to satisfy graduate program requirements.

(4) Grade requirements for the Master of Science Information Systems – Business Analytics Track apply to courses counted toward the Master of Science Information Systems – Business Analytics Track degree.

(5) Up to 4 courses (12 credits) may be used in satisfying both the BBA in Business Analytics and Master of Science in Information Systems – Business Analytics Track degree requirements.

(6) Students must fulfill the degree requirements of both the BBA in Business Analytics and Master of Science in Information Systems – Business Analytics Track degree programs, with all overlapping courses approved by both graduate program director and undergraduate advisors before students enroll in such courses.

MIECA:CFI - Undergraduate Certificate in Middle East and Muslim World Studies

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Middle East and Muslim World Studies

The Undergraduate Certificate in Middle East and Muslim World Studies provides students with the opportunity to learn more about the increasingly important region of the Middle East, as well as the broader discourse on Islam and global Muslim communities. The program provides a rich multidisciplinary learning experience, with a choice of courses in the fields of international relations, political science, history, religious studies, geography, sociology/anthropology, global cultural studies, and modern languages, among others. The certificate also provides an overview of the Muslim experience in the West.

For more information, visit the Steven J. Green School of International and Public Affairs website.

Admissions Requirements

No specific admissions requirements. Contact advisor for additional information.

This certificate is open to degree seeking students only.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Program Credit Hours: 18

Type
Completion Requirement

Core Requirements at FIU: 6 credits

Fulfill ALL of the following requirements:

Core Requirement Part I

Complete at least 1 of the following courses:

- INR3274 - International Relations of the Middle East
- GEA3635 - People, Place, and Environment of the Middle East
- CPO3403 - Politics of the Middle East
- ASH3223 - History of the Middle East 1800-present

AND

Core Requirement Part II

Complete at least 1 of the following courses:

- INR4082 - Islam in International Relations
- REL3367 - Islamic Faith and Society
- REL3320 - Moses, Jesus, Muham
- REL4369 - Voice of the Prophet
- REL4364 - Interpreting the Quran: Gender and Jihad

AND

Language Requirement at FIU

Earn at least 6 credits

Students are required to obtain two semesters or the equivalent of a Middle Eastern language. Exemption from this requirement may be obtained through a proficiency examination administered by the FIU Department of Modern Languages or Middle East Studies (MES). Note: Students exempted from the language requirement, however, should take 6 credits from other fields to fulfill the 18 credits required to receive the Certificate.

AND

Elective Courses at FIU

Complete at least 2 of the following courses:

- ANT4930 - Topics in Anthropology
- ABT3503 - Arabic Language and Culture
- CPO3403 - Politics of the Middle East
- CPO4930 - Topics in Comparative Politics
- CPO4401 - The Arab-Israeli Conflict
- GEA3554 - People, Place, and Environment of Russia and Central Eurasia (Inactive)
- GEA3635 - People, Place, and Environment of the Middle East
- ASH3223 - History of the Middle East 1800-present
- HIS3314 - Women and Gender in Medieval Eurasia (Inactive)
- HIS4930 - Special Topics
- INR3226 - International Relations of Central Asia and the Caucasus

- INR3252 - International Relations of North Africa
- INR3262 - International Relations of Russia and the Former USSR
- INR3274 - International Relations of the Middle East
- INR4082 - Islam in International Relations
- REL3220 - Moses And Company
- REL3314 - Religion on the Silk Road
- REL3320 - Moses, Jesus, Muham
- REL3367 - Islamic Faith and Society
- REL3672 - Religion and Society in Israel/Palestine
- REL4361 - Women in Islam
- REL4312 - The Jews of Asia and Africa
- REL4610 - Jews of Arab Lands in the Middle Ages
- REL4369 - Voice of the Prophet
- REL4937 - Special Topics
- REL4364 - Interpreting the Quran: Gender and Jihad

In addition to the courses listed above, new courses (as they become available), relevant special topics, independent study, study abroad credits, and area studies or comparative studies courses may also be applied with the prior approval of the certificate program director. Students must consult the list of eligible courses announced at the beginning of the academic year or semester through the Jaffer Center at jaffercenter.fiu.edu.

Additional Comments:

Note: In addition to the two core courses selected from each category above, students may choose to take additional courses from this list as "Electives". These courses are thus listed below as part of the "Electives".

Dual Certificate Agreement with the American University in Dubai (AUD)

Students in FIU's Certificate program can take the opportunity of obtaining a Dual Certificate offered by FIU and the American University in Dubai (AUD). To obtain the Dual Certificate, students will need to spend one full term at AUD.

For more information contact the Mohsin and Fauzia Jaffer Center for Muslim World Studies at the Steven J. Green School of International and Public Affairs, SIPA 528. Email: jaffercenter@fiu.edu; Phone: (305) 348-1792; Website: jaffercenter.fiu.edu.

MOLBS:CFI - Graduate Certificate in Molecular and Biomedical Sciences

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Molecular and Biomedical Sciences

The Graduate Certificate in Molecular and Biomedical Sciences at FIU Herbert Wertheim College of Medicine is uniquely suited to boost your qualifications for acceptance into the MD or MPAS programs.

The Graduate Certificate in Molecular and Biomedical Sciences reinforces basic science concepts through examples of human disease and experimental data and is fundamental for a better understanding of clinical sciences. The curriculum includes eight graduate-level courses, consisting of six courses in biomedical sciences and two professional skills courses. Classes are taught by College of Medicine faculty and cover similar material seen in the first year of medical school.

For more information, visit the Herbert Wertheim College of Medicine website.

Requirements

Simple Requirements

Admissions Requirements

Students applying for the Graduate Certificate in Molecular and Biomedical Sciences must meet the following requirements for admission:

(1) Completed University Graduate School application.

(2) Completed graduate certificate application.

(3) Bachelor’s degree.

(4) All HWCOM pre-medical course requirements completed:

--General Biology with laboratory - 2 semesters

--General Chemistry with laboratory - 2 semesters

--Organic Chemistry with laboratory (satisfied by either Organic Chemistry 1 and 2 or Organic Chemistry 1 and Biochemistry) - 2 semesters

--Physics with laboratory - 2 semesters

--Mathematics - 2 semesters of College Mathematics

--College English - 2 semesters of College English

(5) International graduate student applicants whose native language is not English are required to submit a score for the TOEFL or for the IELTS. A total score of 80 on the internet-based TOEFL or 6.5 overall on the IELTS is required.

This certificate is open to non-degree-seeking students only.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Program Credit Hours: 20

Type

Completion Requirement

Fulfill ALL of the following requirements:

Biomedical Science Courses

Complete at least 6 of the following courses:

- BMS6013 - Medical Cell Biology and Biochemistry
- BMS6004 - Medical Molecular Biology
- BMS6301 - Medical Microbiology and Immunology
- BMS6501 - Medical Physiology
- BMS6130 - Pathology and Medical Histology
- BMS6003 - Medical Genetics
- BMS6404 - Medical Pharmacology
- GMS6615 - Descriptive Human Anatomy for the Biomedical Sciences

AND

Professional Skills in Medical Sciences Courses

Complete ALL of the following Courses:

- GMS6922 - Professional Skills in Medical Sciences I
- GMS6923 - Professional Skills in Medical Sciences II

Major Requirements

There are no major associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

MRKET:BBA - Bachelor of Business Administration in Marketing

Overview

Degree Offered
BBA - Bachelor of Business Administration

Program Title
Marketing

Through the Bachelor of Business Administration (BBA) in Marketing, students will learn how to influence buyer behavior, analyze markets, develop marketing strategies, create marketing plans, calculate pricing, and interpret market research. Students will gain a solid understanding of all business activities under the marketing umbrella—from the identification and selection of target markets, to the development, pricing, placement and promotion of goods and services, and the management of relationships among business partners and their customers. Graduates will be job-ready to pursue careers in sales, advertising, distribution and logistics, and international marketing.

Admissions Requirements

Admissions and Progression Requirements for All College of Business Undergraduate Students

Applicants must follow regular University admission procedures and upon admission declare their specific program within the College of Business. In addition, students must:

(1) Complete courses detailed under Required Common Prerequisite Courses, or equivalent coursework, noted below, as part of their 60 credit-hours of lower-division course work.

(2) In their initial 60 credit-hours, earn a GPA of 2.0 or higher to continue pursuing a Bachelor of Business Administration and the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs must comply with the GPA requirement for the respective degree program.

(3) For the set of all Common Prerequisite Course credit hours, earn a GPA of 2.5 or higher to continue pursuing Bachelor of Business Administration degrees and a GPA of 2.75 or higher to pursue the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the 2.5 (or 2.75 Accounting) or higher GPA requirement for the set of Common Prerequisite Course credit hours.

(4) Successfully complete with a C or better each of Common Prerequisite Course within two attempts. Drops after the add/drop period, which result in a DR grade, are considered an unsuccessful attempt at the course, (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the two attempt limit on Common Prerequisite Courses.

(5) Students are expected to make satisfactory progress toward degree completion during their first 60 credit hours of lower-division coursework, consistent with the Common Prerequisite Benchmarks noted below. Students not making good progress, may be redirected to another degree program. All (a) AA Transfers and (b) students changing degree programs to Business from outside the College of Business must demonstrate progress consistent with Common Prerequisite Benchmarks.

Common Prerequisite Benchmarks include the following:

By End of Term / Credit Hours Earned	Coursework for equivalents Completed	Minimum GPA in Common Prerequisites *
1st /15 hours	CGS 2100 (or PHI 2600)	2.25
2nd / 30 hours	ECO 2023 and MAC 2233	2.35 (2.50 Accounting)
3rd / 45 hours	ACG 2021 and ECO 2013	2.5 (2.75 Accounting)
4lh / 60 hours	ACG 3301 and STA 2023	2.5 (2.75 Accounting)

* Applicable to all students pursuing or seeking a change of program plan to a Bachelor of Business Administration degree and the Bachelor of Accounting.

Students eligible for readmission are subject to the University's and the College's degree program's regulations in effect at the time of readmission to include admissions and progression requirements.

Program Requirements

Academic Standards

To earn an undergraduate degree from the College of Business, all students must comply with the following:

(1) Students must earn a grade of "C" or higher in each of the lower-division Common Prerequisite Courses.

(2) Students must earn a grade of "C" or higher in all upper-division major courses.

(3) Students must earn a grade of "C" or higher in all upper-division Business Core Courses. Each of these courses cannot be attempted more than three times. Drops after the add/drop period, which result in a DR grade, are considered an attempt in the course and count as an unsuccessful enrollment.

(4) As a student within the College of Business, each student gets two drops after the add/drop period, which result in "DR" grades, in their first 60 credits attempted. Each College of Business student get two additional drops after the add/drop period, which result in "DR" grades, in the second 60 credits attempted. Unused drops after the add/drop period, which result in "DR" grades, do not carry over from the first 60 credits attempted to the second 60 credits attempted. Students entering the College of Business as transfer students with an A.A. degree from a Florida public college or with 60 or more transfer credits earned from another college or university only get two drops after the add/drop period, which result in "DR" grades. Students with disabilities who need to drop a course due to disability-related reasons are allowed

to petition for additional drops after the add/drop period, which result in “DR” grades. Students who can document extenuating circumstances may petition the College for additional drops. Approval to drop additional courses in excess of those allowed must be obtained from the College of Business.

(5) Students are expected to follow degree program Major Map in making satisfactory progress toward degree completion. Students deviating from Major Maps may be redirected to another degree program.

(6) Students must satisfy the requirements of their respective programs of study and satisfy all university requirements for graduation.

(7) Students who (a) have 60 credit hours earned, but (b) have not completed the seven Common Prerequisite Course for Business majors, may register for, and/or complete, no more than 15 credit hours of upper-division Business courses.

(8) Undergraduate students who register for any graduate business course must be formally admitted to a graduate degree program at the university following the university's admission procedures.

(9) Faculty has the discretion to administratively drop students who do not attend the first class of a course.

The College adheres strictly to the university’s dismissal policy. Students should be sure to read and understand FIU policies regarding Academic Warnings, Probation, and Dismissals.

Common Prerequisite Courses

Type

Completion Requirement

Required Common Prerequisite Courses Part I

For the set of all Common Prerequisite Course credit hours, earn a GPA of 2.5 or higher to continue pursuing Bachelor of Business Administration degrees and a GPA of 2.75 or higher to pursue the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the 2.5 (or 2.75 Accounting) or higher GPA requirement for the set of Common Prerequisite Course credit hours.

Courses which form part of the statewide articulation between the State University System and the Florida College System will fulfill the Lower Division Common Prerequisites.

Please visit https://cpm.flvc.org for a current list of state-approved common prerequisites.

Earn a minimum grade of C in the following:

- ACG2021 - Accounting for Decisions
- ACG2071 - Managerial Accounting
- ECO2013 - Principles of Macroeconomics
- ECO2023 - Principles of Microeconomics
- MAC2233 - Applied Calculus
- STA2023 - Statistical Methods

Required Common Prerequisite Courses Part II

Students pursuing a Bachelor degree in Accounting, Business Analytics, Finance, Information Systems, International Business, Human Resources Management, Management, Marketing, or Real Estate are also required to achieve a grade of "C" or higher in the following course.

Earn a minimum grade of C in the following:

- CGS2100 - Intro to Microcomputer Applications for Business

Required Common Prerequisite Courses Part III

Students admitted in Fall 2012 or after, as freshman or transfer students with fewer than 30 credit hours earned, are encouraged to take GEB2011 Intro To Business during their first year. Students admitted in the Fall 2018 or after, as freshman with fewer than 30 credit hours earned, are required to complete SPC2608 Public Speaking for their Undergraduate Core Curriculum Arts Requirement.

Additional Comments:

Prerequisite course requirements for entry into upper level courses will be enforced. Students will be administratively dropped from courses when they lack the required prerequisite course or courses and/or required grade.

Note: The programs, policies, requirements, and regulations listed in this catalog are subject to continual review in order to meet the needs of the University's various publics and to respond to the mandates of the Florida Board of Education and the Florida Legislature. Changes may be made without advance notice. For the most current and updated information, refer to the COB and appropriate Schools/Departments websites.

Required Business Core Courses: 24 credit hours

Type

Completion Requirement

Required Core Courses

The Business Core Courses listed below are required for all undergraduate students in the College of Business. Prerequisites for each of the Business Core Courses can be found in the College of Business course descriptions.

Complete ALL of the following Courses:

- ISM3011 - Artificial Intelligence & Information Systems in Organizations
  OR ACG4401 - Accounting Information Systems
- BUL4310 - The Legal Environment of Business
  OR BUL4320 - Business Law I
- FIN3403 - Financial Management
- MAN3025 - Organization and Management
- MAN4720 - Strategic Management
- MAR3023 - Introduction to Marketing
- QMB3200 - Business Statistics and Analysis I
- QMB4680 - Business Statistics and Analysis II

ACG4401 Acctg Info Systems and BUL4320 Bus Law I should **ONLY** be taken by students pursuing a Bachelor of Accounting.

Required Business Professional Development Courses: 3 credit hours

Type

Completion Requirement

Required Courses

The business professional development courses listed below are required for all undergraduate students in the College of Business.

Complete ALL of the following Courses:

- COM3112 - Speech and Writing for Business Communication
- GEB3003 - Career Management

Students admitted before Fall 2011 can take either COM3150 Advanced Bus Prof Comm **or** COM3110 Bus And Prof Commun.

Degree-Specific Courses: 21 credit hours

Type

Completion Requirement

Courses Required for the BBA in Marketing Part I

Complete ALL of the following Courses:

- MAR4400 - Professional Selling
  OR MAR4411 - Esports Sales
- MAR4503 - Consumer Behavior
  OR MAR4504 - Esports Consumer Behavior Insights
- MAR4613 - Marketing Research and Analysis
- MAR4804 - Marketing Strategy

Courses Required for the BBA in Marketing Part II

Earn at least 9 credits

Any upper-division courses with the MAR prefix offered by the Department of Marketing and Logistics.

Upper Division Business Electives: 12 credit hours

All electives outside the College of Business must receive the approval of the Department Chair. A list of approved courses is available from COB Advising.

Department of Marketing and Logistics Academic Standards

The Department of Marketing requires that marketing majors receive a grade of “C” or higher in all marketing major courses and upper division business electives. It is also strongly recommended that marketing majors join the American Marketing Association Student Chapter and participate actively in its events. To improve the learning experience and to assure employers of the quality of a graduate with a marketing major all marketing majors will take a comprehensive examination of their marketing knowledge and capabilities that will be offered at the end of the MAR4804 Marketing Strategy capstone strategy course.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

MRKET:MS - Master of Science in Marketing

Overview

Degree Offered
MS - Master of Science

Program Title
Marketing

The Master of Science (MS) in Marketing program at FIU Business stands out with its specialized focus on three key strategic areas essential for navigating today's dynamic business environment: digital marketing, brand development, and marketing analytics. Whether pursued on a full-time or part-time basis (with program durations of 10 or 16 months), students have the flexibility to tailor their education to fit their schedules. Additionally, the program offers both hybrid and fully online formats, providing further convenience and accessibility for working professionals. Throughout the program, students delve deep into these strategic areas, gaining comprehensive knowledge and practical skills. With a curriculum designed to foster technical proficiency, analytical acumen, and adaptability, graduates emerge well prepared to assume leadership roles in the marketing field. Upon completion of the program, graduates are equipped to embark on diverse career paths, ranging from marketing managers and account executives to digital media specialists, brand managers, marketing analysts, and social media directors. With a solid foundation and hands-on experience gained from the program, graduates are ready to make a significant impact in the ever-evolving world of marketing. For more information, visit the College of Business website.

Program Website

Academic Group
College of Business

Diploma Title
Master of Science in Marketing

Total Credits
30

Program Length in Years Based on Full-Time Enrollment
2

CIP Code
52.1401

Requirements

Simple Requirements

Admissions Requirements

To be eligible for admission to the program, students must:

(1) Hold a bachelor's degree (or equivalent) from an accredited college of university;

(2) Have a minimum GPA of 3.0 (on a 4-point scale) in all of their upper division course work or have earned a graduate degree with a minimum of a 3.0 GPA;

(3) Provide three letters of recommendation from professional supervisors and/or former faculty that attest to the applicant's educational background, motivation, and analytical skills;

(4) Provide a series of personal statements regarding their motivation to attend the program, personal and career goals, and contributions that they will bring to their colleagues and fellow students;

(5) Have at least 3 years of professional work experience or score at least 500 on the Graduate Management Admissions Test (GMAT) or the equivalent on the Graduate Record Exam (GRE);

(6) Complete an interview with one of the faculty advisors or the director of the program;

(7) Applicants who studies were completed outside of the US must demonstrate proficiency in the English language by presenting a minimum score of 80 on the iBT TOEFL (equivalent to 550 on the paper-based version) or 6.5 overall on the International English Language Testing System (IELTS); and

(8) Be in good standing at all previously attended colleges and universities.

Admissions at the graduate level are competitive and meeting the minimum program requirements does not guarantee admission.

Transfer Credits

A student may receive permission to transfer up to a maximum of nine semester hours of graduate credit towards a Master of Science degree program or twelve semester hours of credit for a Master of Business Administration degree program, if:

(1) The courses were taken at the graduate level at an accredited college or university;

(2) The courses were not introductory or survey in nature;

(3) The student earned grades of “B” or higher in the courses;

(4) The courses are judged by the Department Chair, College Dean, Graduate School Dean, and program manager to be relevant to the student’s graduate program;

(5) The credits were completed within six years immediately preceding the College’s awarding of the degree. Credits are not transferable until the student has earned 15 semester hours in a Chapman School graduate degree program.

Program Requirements

College Policies

To be eligible for a Master’s degree, a student must complete 10 graduate courses equivalent to 30 graduate credit hours and the completion of a series of Professional Development Seminars and/or an Internship approved by the Faculty Advisor. A student must also:

(1) Satisfy all University requirements for a Master’s degree;

(2) Satisfy required prerequisites;

(3) Complete the required courses in the specific graduate program in which he/she is enrolled.

(4) Earn a minimum average of “B” (3.0) in all approved courses in the student’s approved course of graduate study.

No courses in which a graduate student earns a grade below “C” may be counted towards any Master’s degree program in the Chapman School. However, all approved undergraduate and graduate course work a graduate student takes will be counted in computing his or her grade point average, including courses in which he or she has earned a “D” or “F” grade.

Faculty have the discretion to administratively drop students who do not attend the first class of a course.

Degree Requirements

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MAR6805 - Marketing Management in the Global Environment
- MAR6722 - E-Marketing
- MAR6506 - Buyer Psychology and Behavior
- MAR6646 - Marketing Research
- MAR6880 - Social Media Marketing
- MAR6336 - Integrated Marketing Communication
- MAR6675 - Marketing Analytics
- MAR6838 - Brand Management
- MAR6735 - Digital Marketing Strategies
- MAR6936 - Special Topics in Marketing
  OR MAR6075 - Current Issues in Marketing I

Professional Development Seminars and/or an appropriate internship will be required.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

MRKTRA:CFI - Undergraduate Certificate in Marketing Research and Analysis

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Marketing Research and Analysis

The Undergraduate Certificate in Marketing Research and Analysis is open to all degree-seeking students, regardless of major. The program helps students develop an in-depth understanding of the role of data in customer and market analysis. The program is designed to teach students how to use data analysis to detect trends, exceptions, and business opportunities, all while using the latest marketing analytic tools.

MRNBIO:BS - Bachelor of Science in Marine Biology

Overview

Degree Offered
BS - Bachelor of Science

Program Title
Marine Biology

The Bachelor of Science (BS) in Marine Biology provides students with a strong foundation of knowledge and skills in diverse areas to show the interconnected nature between ecology, genetics, evolution, organismal diversity, and oceanography. This degree is ideal for students who plan to pursue graduate studies and careers in marine biology, marine botany, zoology, ecology, molecular and cellular biology, natural resource management, conservation management, and nonprofit organizations. This program allows students to explore upcoming methods of research through data science, and hands-on experience utilizing technology such as drones and autonomous vehicles. Students are able to form their specialization through course curriculum, and encouraged to explore realms of science they may not have considered before. A BS in Marine Biology with Honors is available. Pre-health and pre-vet curricula and advising for students planning to go into healthcare-related careers is also available.

For more information, visit the College of Arts, Sciences, and Education website.

Admissions Requirements

Admissions Requirements for the Bachelor of Science (BS) in Marine Biology

See general university admission requirements at admissions.fiu.edu.

Marine Biology Program activities and upper-division coursework will be concentrated at the Biscayne Bay Campus, although some course requirements may be met elsewhere at FIU.

Continuity in academic advisement is an objective in this specialized degree program. Students in the BS Marine Biology Program will be advised by a dedicated Marine Biology Advising Office. Faculty in Biological Sciences, including Marine Biology faculty, also are available to provide academic and career advice for students in the Marine Biology Program.

Admissions Requirements for the BS with Honors in Marine Biology

(1) Permission of the department. Application should be made by letter to the Honors Committee from the applicant after completion of two semesters at the University and prior to two semesters before graduation. The letter should state the intended research problem and be countersigned by the Thesis Committee (advisor and mentor).

(2) A minimum GPA of 3.5 in biology, chemistry, physics, geology, and mathematics courses.

Program Requirements

Lower Division Preparation

Type

Completion Requirement

Common Prerequisites

The Lower Division component of the Marine Biology Bachelor of Science is similar to that of the BS in Biological Sciences, in which common prerequisites in Biological Sciences, Chemistry1, Physics, Calculus, and Statistics must be met. All requirements for completion of the lower division in Biological Sciences apply to the BS in Marine Biology, including the grade of “C” or better in required courses, the lower division physics, calculus, and statistics requirements, options, and acceptable substitutions.

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Complete ALL of the following Courses:

- BSC2010 - General Biology I
  AND BSC2010L - General Biology I Lab
- BSC2011 - General Biology II: Diversity of Life, Organismal Structure and Function
  AND BSC2011L - General Biology Lab II
- CHM1045 - General Chemistry I
  AND CHM1045L - General Chemistry Lab I
- CHM1046 - General Chemistry II
  AND CHM1046L - General Chemistry Lab II
- CHM2210 - Organic Chemistry I
  AND CHM2210L - Organic Chemistry Lab I
- PHY2048 - Physics with Calculus I
  OR PHY2053 - Physics without Calculus I
- PHY2048L - General Physics Laboratory I
- CHM2211 - Organic Chemistry II
  AND CHM2211L - Organic Chemistry Lab II
- PHY2049 - Physics with Calculus II
  OR PHY2054 - Physics W/O Calc II
- PHY2049L - General Physics Laboratory II
- MAC2311 - Calculus I
- MAC2312 - Calculus II
  OR STA2023 - Statistical Methods

For common prerequisites, students must complete either the organic chemistry sequence or the physics sequence. Chemistry I & II or Physics I & II are not sufficient to meet the requirements for the degree. Students must complete both Organic Chemistry and Physics sequences to fulfill degree requirements.

CAP2752 Data Science for All can be used to substitute for *either* Organic Chemistry II (CHM2211 Organic Chem II plus CHM2211L Organic Chem Lab II) or Physics II (PHY2054 Physics W/O Calc II or PHY2049 Physics W/Calc II plus PHY2049L General Phys Lab II), but not both sciences and labs.

FIU does not accept MAC2233 Applied Calculus as a substitute for MAC2311 Calculus I

MAC2311 Calculus I and STA3111 Statistics I alone are not sufficient to meet the requirements for the degree.

STA3111 Statistics I and STA3112 Statistics II may be substituted for STA2023 Statistical Methods and STA3123 Stat for Behav Scien II

Additional Degree Requirements

IMPORTANT! The following common prerequisite courses must be taken, in addition to the courses below, to fulfill this requirement: CHM2210 Organic Chem I & CHM2210L Org Chem Lab I; PHY2048 Physics W/Calculus I or PHY2053 Physics W/O Calc I and PHY2048L General Phys Lab I; CHM2211 Organic Chem II & CHM2211L Organic Chem Lab II; PHY2049 Physics W/Calc II or PHY2054 Physics W/O Calc II and PHY2049L General Phys Lab II

Complete ALL of the following Courses:

- OCB1930 - Marine Biology at FIU
- STA3123 - Statistics for Behavioral and Social Sciences II

All freshman and first-year transfer students entering the Marine Biology major are required to complete a one-semester course (OCB1930 Marine Biology at FIU) introducing the degree program

Students are required to complete both Organic Chemistry I & II and Physics I & II. Students may complete either sequence as part of the Lower Division Common Prerequisites and must complete the other sequence as a requirement for the degree.

The Organic Chemistry sequence CHM2210 Organic Chem I & CHM2210L Org Chem Lab I **and** CHM2211 Organic Chem II & CHM2211L Organic Chem Lab II may be fulfilled by taking the following courses: CHM2200 Survey Organic Chem & CHM2200L Survey Org Chem Lab **and** CHM3120 Intro Analyt Chem & CHM3120L Intr Analyt Chm Lab **and** CHS4600 Marine Chemistry.

STA3123 Stat for Behav Scien II is required only for students who did not take MAC2312 Calculus II.

Upper Division

Type

Completion Requirement

Marine Biology Core Courses

The upper-division requirements for the BS in Marine Biology include a selection of six common requirements, one required laboratory, and a choice of four marine electives, including selections from among the physical sciences. The Marine Biology Distribution Requirement provides for disciplinary breadth in Marine Biology electives.

Complete ALL of the following Courses:

- BSC3848 - Junior Seminar in Biology: Evidence, Communication, and Careers
- PCB3043 - Ecology
- PCB3063 - Genetics
- PCB4674 - Evolution
- OCB3043 - Marine Biology and Oceanography
- OCB3043L - Marine Biology and Oceanography Lab

- OCP3002 - Physical Oceanography

Upper Division Electives

Students are required to choose at least 15 credits spread among the following four areas. At least 1 class per area needs to be taken plus one additional class from any of the four categories for a total of 15 credits. Biology and Physiology of Marine Organisms; Marine Ecology and Conservation Biology; Field Marine Biology Experience; Marine Cellular and Molecular Biology:

Fulfill ALL of the following requirements:

Biology and Physiology of Marine Organisms

Complete at least 1 of the following courses:

- ZOO3205C - Invertebrate Zoology
- BOT4402 - Marine Botany
- BOT4404C - Phycology
- OCB4303 - Biology of Marine Mammals
- OCB4632 - Marine Microbial Ecology (Inactive)
- ZOO4454 - Fish Biology
- PCB4723 - Animal Physiology
  OR PCB4724 - Comparative Physiology
  OR PCB4776 - Physiological and Behavioral Ecology of Marine Animals

ZOO3205C Invert Zoology may count for Biology and Physiology of Marine Organisms or Field Marine Biology Experience but not both.

AND

Marine Ecology and Conservation Biology

Complete at least 1 of the following courses:

- OCB4070 - Coastal Marine Conservation
- OCB3264 - Coral Reef Biology
- OCB4633 - Marine Community Ecology
- OCB4711 - Fisheries Science
- PCB4467C - Marine Protected Areas
- PCB4414 - Behavioral Ecology
- PCB4401 - Global Change Ecology: How humans changed the face of Earth

AND

Field Marine Biology Experience

Complete at least 1 of the following courses:

- OCB4104C - Field Methods in Marine Ecology
- OCB4004 - Biological Oceanography at Sea I
  OR OCB4005C - Biological Oceanography at Sea II
- BSC4473C - Introduction to Scientific Diving
- OCB3075C - Mariculture for Conservation and Restoration

- ZOO3205C - Invertebrate Zoology
- BSC3915 - Student Research Lab I
- BSC4970 - Honors Thesis

BSC4473C Scientific Diving does not count as lab.

ZOO3205C Invert Zoology may count for Biology and Physiology of Marine Organisms or Field Marine Biology Experience but not both.

For BSC3915 Student Research Lab, independent study with a Marine Biology faculty member, requires permission of Marine Biology Director.

BSC4970 Honors Thesis requires permission of Marine Biology Director.

AND

Marine Cellular and Molecular Biology

Complete at least 1 of the following courses:

- PCB4023 - Cell Biology
- PCB4524 - Molecular Biology
- BSC4434 - Bioinformatics for Biologists
- PCB4233 - Immunology
- PCB4553 - General Population Genetics
- PCB4561 - Epigenetics

Laboratory Requirement: 3 credits

In addition to OCB 3043L Marine Biology and Oceanography Lab, students must complete three (3) other upper division biology laboratories.

General Electives: 11-12 credits

Students must complete 11 to 13 additional credits of general electives.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Bachelor of Science with Honors in Marine Biology

Type

Completion Requirement

Graduation Requirements

Students must maintain a minimum GPA of 3.5 in biology, chemistry, physics, geology, and mathematics courses. Students must also complete the following: 1) Completion of the BS requirements in Biology or Marine Biology, and Honors Research Lab (BSC 4915L, 1 to 3 credits, and Honors Thesis (BSC 4970, 3

credits); 2) Completion of Honors research in collaboration with a two-person Honors Committee, consisting of the honors advisor and one other member. The honors advisor must be a tenured or tenure-earning member of the department. The research results must be written in the form of an honors thesis and approved by the Honors Committee. 3) Deposit two completed approved copies of the Honors Thesis with the Department's Office: one copy to be kept in the department and the other to be deposited in the Library and 4) Presentation of the results of the Honors Research in a departmental seminar.

Additional Comments:

Graduation Requirements for the Bachelor of Science with Honors in Marine Biology program

1. A minimum GPA of 3.5 in biology, chemistry, physics, geology, and mathematics courses.

2. Completion of the BS requirements in Marine Biology, and Honors Research Lab (BSC 4915L, 1 to 3 credits, and Honors Thesis (BSC 4970, 3 credits).

3. Completion of Honors research in collaboration with a two-person Honors Committee, consisting of the honors advisor and one other member. The honors advisor must be a tenured or tenure-earning member of the department. The research results must be written in the form of an honors thesis and approved by the Honors Committee.

4. Deposit two completed approved copies of the Honors Thesis with the Department's Office: one copy to be kept in the department and the other to be deposited in the Library.

5. Presentation of the results of the Honors Research in a departmental seminar.

MTECH:CFI - Undergraduate Certificate in Music Technology

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Music Technology Certificate

The Certificate in Music Technology program offers cutting-edge instruction in music technology, including electronic music and digital instrument design. Students dive into the innovative world of sound synthesis, explore the possibilities of electronic compositions, and unravel the art of crafting digital instruments that push the boundaries of musical expression. At the intersection of music and technology, this program provides hands-on experience in harnessing the power of technology to shape the future of music.

Degree Offered
MS - Master of Science

Program Title
Materials Science and Engineering

The Master of Science (MS) degree in Materials Science and Engineering aims to enhance students understanding of the Materials Science field that is very dynamic and is constantly adapted to address industry's needs. Advanced materials are the foundation of manufactured products and many of the technological advances of this century were enabled by the development of new materials. The program offers specialization in metallurgy, ceramics, electronic materials, nanomaterials, and biomaterials. There is an increasing demand for graduates in materials science and engineering, with high technology industries leading the need for graduates. In fact, many of the companies needing materials scientists and engineers did not exist 20 years ago. Because everything is made of materials and new materials, such as nanomaterials, are rapidly being developed, materials science and engineering is a growth field in engineering. This program provides an opportunity for students to enhance their technical knowledge and to conduct research that can aid in their professional development.

Requirements

Simple Requirements

Admissions Requirements

The following is in addition to the University's graduate admission requirements:

(1) A student seeking admission into the program must have a bachelor's degree in engineering, physical sciences, computer science or mathematics from an accredited institution, or, in the case of foreign students, from an institution recognized in its own country as preparing students for further study at the graduate level.

(2) An applicant must have achieved a "B" average, GPA of 3.0 overall or in upper level undergraduate work. If a student is requesting financial assistance, Graduate Record Examination (GRE) with the following minimum scores on the individual components: verbal ≥143 and quantitative ≥151 is also required.

(3) Applicants who have not satisfied the above will be evaluated for conditional admission.

(4) Applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. Please refer to the Admissions English Proficiency criteria at https://admissions.fiu.edu/international/graduate-school/english-language-proficiency/index.html

(5) The GPA, GRE, and TOEFL scores specified above are to be considered minimum requirements for admission. Applicants from science areas other than materials science and engineering will be expected to complete undergraduate courses selected to prepare them for graduate courses in their area of interest. Full admission to the graduate program requires the completion of these background courses with no grades below 'C' and a grade point average of 3.0 or better.

Program Requirements

Areas of Specialization

--Metals and Alloys

--Electronic Materials

--Ceramics

--Polymers and Biomaterials

--Nanomaterials

Degree Program Credit Hours: 30

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Common Core Courses:

All MSMSE degree seeking students must take the following three courses or equivalent plus one seminar as common core courses:

Complete ALL of the following Courses:

- EMA5106 - Thermodynamics and Kinetics of Materials
- EMA5001 - Physical Properties of Materials
- EMA5507C - Analytical Techniques of Materials Science
- EML6935 - Graduate Seminar

The remainder of the courses shall be chosen from the electives with consultation of the student's advisor. Additionally, up to six hours may be taken from courses offered by other departments.

AND

MSMSE Elective Courses

Complete ANY of the following Courses:

- EGM5354 - Finite Element Method Applications in Mechanical Engineering
- EGM6355 - Nonlinear Finite Element Analysis

- EGM6570 - Fracture Mechanics
- EML5103 - Intermediate Thermodynamics
- EML5509 - Optimization Algorithms
- EML5562 - Advanced Electronic Packaging (Inactive)
- EMA5140 - Introduction to Ceramic Materials
- EMA5295 - Principles of Composite Materials
- EMA5200 - Nanomechanics and Nanotribology
- EMA5015 - Introduction to Nanomaterials Engineering
- EMA5104 - Advanced Mechanical Properties of Materials
- EMA5016 - Nanoelectronic Materials
- EMA5017 - Nanoparticle Technology
- BME5105 - Biomaterial Science
- EMA5646 - Ceramic Processing
- EMA5605 - Fundamentals of Materials Processing
- EMA6516 - Crystallography and X-ray Diffraction
- EMA6518 - Transmission Electron Microscopy
- EMA6665 - Polymer Processing and Engineering
- EMA6264 - Mechanical Properties of Polymers
- EMA6165C - Polymer Physics and Analytical Techniques
- EEE6399C - Electronic Prop Mat
- EEE6315 - Advanced Solid-State Electronics
- EEE6332 - Thin Film Engineering
- EMA6584 - Introduction of Biomolecular Structure and Engineering
- GLY5287C - Scanning Electron Microscopy with EDS Analysis
- PHZ5405 - Solid State Physics
- PHZ6437C - Surface Physics
- PHZ6426 - Advanced Solid State Physics

AND

Independent Studies

Non-thesis students *must* enroll in 3 credits to complete their project; a maximum of 6 credits of EML6908 Ind Studies may be taken.

Thesis students may take a maximum of 3 credits.

Complete up to 2 course(s) and earn up to 6 credits from the following:

- EML6908 - Independent Studies

Additional Degree Requirements

The Department of Mechanical and Materials Engineering offers both thesis and non-thesis options for the Master's Degree. A student seeking the Master's degree with or without thesis is required to pass a comprehensive oral or written examination.

All work counted for the Master's degree must be completed during the six years immediately following the date of admission.

Thesis Option

A student shall complete a minimum of 24 semester credit hours of course work, plus a minimum of 6 semester credit hours of EML6971 Masters Thesis, Master's Thesis, and MME Graduate Seminar.

A maximum of 6 credit hours of courses offered by other departments may be included among the 24 course hour minimum. A maximum of three credit hours of approved independent studies, EML6908 Ind Studies, may be counted toward the M.S. thesis degree. A maximum of six graduate credit hours can be transferred from other accredited institutions provided that the courses have not been used for another degree and have a minimum letter grade of 'B'. Transfer courses must be approved by the advisor and Graduate Coordinator. Early in the program (before the end of the second term) the student and advisor will complete a study plan that specifies the courses that will comprise the program.

When the thesis research is completed, the student should schedule a defense with an examining committee appointed through the University Graduate School consisting of a least three graduate faculty members (at least two of whom should be from the department). The thesis, with an approval cover letter from the advisor, should be given to the examining committee for review not less than four weeks before the scheduled defense. The candidate should prepare to summarize the thesis in the manner of a technical paper using appropriate visual aids in 40 minutes or less.

Following the presentation, the candidate will answer questions related to the work from the audience and/or the committee. At the conclusion of the defense, the committee will agree on the outcome -pass or fail- and report the results to the Graduate School. Following the exam the student will implement the committee's suggestions for improving the draft document. Each committee member must sign the approval form in the final document. Hardcover bound copies of the approved thesis must be provided to the advisor and the department. Students should become familiar with the University Graduate School's regulations and deadlines available on line at http://gradschool.fiu.edu.

Non-Thesis Option

A student shall complete a minimum of 30 semester credit hours of graduate course work, and one semester of Graduate Seminar with a GPA ≥3.0. (the minimum successful grade is a 'C'). Non-thesis students are required to do a three-credit project under the independent study course registration. Up to nine credit hours of graduate course work from other departments may be included among the minimum of 30 credits. A maximum of six graduate credits from other accredited graduate programs completed with a 'B' or better and not counted toward a previous degree may be included in the study plan. The advisor and the Graduate Coordinator must approve transfer courses if they are to be included in a study plan. A maximum of three credits of independent study beyond an independent project may be included in a study plan.

Non-thesis students are required to submit a formal report and presentation of the project, with the report and presentation evaluated by an examining committee that will include a minimum of three faculty members, at least two of whom should be from the department.

Graduation Requirements

The degree will be conferred when the following conditions have been met:

(1) Recommendation of the advisor and faculty of the Department.

(2) Certification provided by the Department Chair, College Dean, and University Graduate School that all degree requirements have been met.

(3) Completed the three department core course requirements plus the elective courses in the student's major area.

(4) Completed undergraduate course deficiencies specified at admission, if any, with no grades below 'C' and a GPA ≥ 3.0.

(5) Thesis option: Successfully completed a minimum of 30 semester hours of graduate course work as specified in an approved study plan containing at least 6 hours of 6000 level courses with a GPA ≥ 3.0 (the minimum successful grade is a ‘C’; not more than six semester hours transferred from another accredited graduate program that was not part of a previously awarded degree may be incorporated in the study plan) plus a minimum of six hours of masters thesis.

(6) Non-thesis option: Successfully completed a minimum of 27 semester hours of graduate course work as specified in an approved study plan containing at least 9 hours of 6000 level courses and a 3 credit hour project with a GPA ≥3.0 (not more than six semester hours transferred from another accredited graduate program that was not part of a previously awarded degree may be incorporated in the study plan).

(7) Thesis degree: Successful public oral defense of the thesis. Submission of the approved thesis to the Graduate School.

(8) Non-thesis degree: Successful completion of a formal report and presentation.

(9) Students must achieve an overall GPA ≥ 3.0 in all graduate work completed at FIU in their approved study plan.

(10) Completed one semester of the Graduate Seminar course.

(11) Complied with all relevant University policies and regulations.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

MTSCEG:PHD - Doctor of Philosophy in Materials Science and Engineering

Overview

Degree Offered
PHD - Doctor of Philosophy

Program Title
Materials Science and Engineering

The PhD in Materials Science and Engineering will prepare graduates for industrial and/or academic research, as well as for higher-level jobs in materials-related industry. Advanced materials are the foundation of manufactured products and many of the technological advances of this century were enabled by the development of new materials. The Materials Science and Engineering program offers specialization in metallurgy, ceramics, electronic materials, nanomaterials, and biomaterials. Because everything is made of materials and new materials, such as nanomaterials, are rapidly being developed, materials science and engineering is a growth field in engineering. This program provides an opportunity for students to enhance their technical knowledge and to conduct advanced research that can aid in their professional development and pursuit of research-related employment in the material science field.

Requirements

Simple Requirements

Admissions Requirements

The requirements for admission to the doctoral program in Materials Science and Engineering for applicants having a Bachelor’s degree in Materials Science and Engineering or in a related field, e.g. Mechanical Engineering, Electrical Engineering, Physics, Chemistry, and Geophysics from an accredited institution are the following:

(1) GPA of at least 3.0/4.0 overall or in the last 60 credit hours attempted.

(2) Three letters of recommendation.

(3)Applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. Please refer to the Admissions English Proficiency criteria at https://admissions.fiu.edu/international/graduate-school/english-language-proficiency/index.html

(4) Applicants having a Master's degree in Materials Science and Engineering from an accredited institution must also satisfy the above requirements for admissions to the doctoral program; however, a GPA of at least 3.3/4.0 in the Master's program is also required.

Credentials of all other applicants will be examined by the Graduate Admission Committee on a case-by-case basis. In addition to the departmental requirements, all students must satisfy the University's Graduate Policies and Procedures.

Program Requirements

The Ph.D. in Materials Science and Engineering will prepare graduates for industrial and/or academic research as well as for higher level jobs in materials related industry in one (or more) of five areas of specialization:

--Electronic Materials

--Nanotechnology

--Metals and Alloys

--Ceramics

--Polymer Science and Biomaterials

Applicants with a Bachelor's Degree

Applicants with a Bachelor's Degree are required to complete at least 75 credit hours, out of which at least 45 hours must be coursework and 15 hours dissertation. The credit hours earned towards the Ph.D. program have the following requirements:

(1) At least 21 credits at the 5000 level or higher, not to include dissertation.

(2) At least 12 credits at the 6000 level or higher, not to include dissertation.

(3) EML6908 Ind Studies counts for a maximum of 6 credit hours of coursework.

(4) EML6910 Supervised Research counts for a maximum of 6 credit hours of coursework.

(5) EML6935 Graduate Seminar (zero credits) should be registered every semester until the advancement to candidacy (D-2).

Applicants with a Master's Degree in Materials Science, Materials Engineering, and Metallurgical Engineering

Applicants having a Master's Degree in Materials Science, Materials Engineering, and Metallurgical Engineering are required to complete at least 45 credit hours, out of which at least 24 hours must be coursework and 15 hours dissertation. The credit hours earned towards the Ph.D. program have the following requirements:

(1) At least 12 credits at the 6000 level or higher, not to include dissertation.

(2) EML6908 Ind Studies counts for a maximum of 6 credit hours of coursework.

(3) EML6910 Supervised Research counts for a maximum of 6 credit hours of coursework.

(4) EML6935 Graduate Seminar (zero credits) should be registered every semester until the advancement to candidacy (D-2).

Applicants having a Master's Degree in any other Engineering discipline from an accredited institution may transfer a maximum of 24 semester hours from their previous course of study.

Degree Program

Type

Completion Requirement

Materials Science and Engineering Fundamentals Courses

These 3 or equivalent courses should be taken by all PhD students in Materials Engineering

Complete ALL of the following Courses:

- EMA5001 - Physical Properties of Materials
- EMA5106 - Thermodynamics and Kinetics of Materials
- EMA5507C - Analytical Techniques of Materials Science

Elective Courses

Possible elective courses from the Materials Engineering department include:

Fulfill ANY of the following requirements:

Metals and Alloys

Complete ANY of the following Courses:

- EMA5104 - Advanced Mechanical Properties of Materials
- EMA5295 - Principles of Composite Materials
- EGM6570 - Fracture Mechanics

OR

Electronic Materials

Complete ANY of the following Courses:

- EEE6315 - Advanced Solid-State Electronics
- EEE6399C - Electronic Prop Mat
- EMA5016 - Nanoelectronic Materials
- PHZ6426 - Advanced Solid State Physics
- PHZ5405 - Solid State Physics

OR

Ceramics

Complete ANY of the following Courses:

- EMA5140 - Introduction to Ceramic Materials
- EMA5646 - Ceramic Processing

OR

Polymers

Complete ANY of the following Courses:

- EMA6165C - Polymer Physics and Analytical Techniques
- EMA6264 - Mechanical Properties of Polymers
- EMA6584 - Introduction of Biomolecular Structure and Engineering
- EMA6665 - Polymer Processing and Engineering

OR

Analytical Techniques in Materials Science

Complete ANY of the following Courses:

- EMA6516 - Crystallography and X-ray Diffraction
- EMA6518 - Transmission Electron Microscopy
- GLY5287C - Scanning Electron Microscopy with EDS Analysis
- PHZ6437C - Surface Physics

OR

Nano Structured Materials

Complete ANY of the following Courses:

- EEE6315 - Advanced Solid-State Electronics
- EEE6332 - Thin Film Engineering
- EMA5015 - Introduction to Nanomaterials Engineering
- EMA5016 - Nanoelectronic Materials
- EMA5017 - Nanoparticle Technology
- EMA5018 - Nanoscale Modeling of Materials
- EMA5200 - Nanomechanics and Nanotribology

OR

Other Materials and Mechanical Courses

Complete ANY of the following Courses:

- EGM5354 - Finite Element Method Applications in Mechanical Engineering
- EGM6355 - Nonlinear Finite Element Analysis
- EMA5605 - Fundamentals of Materials Processing
- EML5103 - Intermediate Thermodynamics
- EML5562 - Advanced Electronic Packaging (Inactive)

Additional Comments:

It is important that there will be three 6000 level courses developed for each specialization.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

MUSBU:CFI - Undergraduate Certificate in Music Business

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Music Business

The Undergraduate Certificate in Music Business is tailored to students seeking a focused and immersive experience in understanding the dynamic intersection of music and business. Students dive into the essentials of the music business, learn the art of crafting compelling concert tours, and gain hands-on expertise in live concert production. The certificate offers a condensed yet comprehensive curriculum, providing a fast-track to the insights and practical skills needed to thrive in the business of the music industry.

MUSIC:BA - Bachelor of Arts in Music

Overview

Degree Offered
BA - Bachelor of Arts

Program Title
Music

The Bachelor of Arts (BA) degree in Music prepares student for careers in music with a flexible course curriculum allowing for academic music opportunities and areas of study such as music history, music theory, and advance studies in musicology. The degree program provides a more liberal arts approach to the study of music. For more information, visit the College of Communication, Architecture, and the Arts website.

Requirements

Simple Requirements

Admissions Requirements

Specialized Admissions for the Bachelor of Arts (BA) in Music

Freshman/Sophomore Admission

Freshman admission requires an audition and placement test in Music Theory. Contact the School of Music at (305) 348-2896 for an audition appointment.

Transfer Admission

To qualify for admission to the program, FIU undergraduates must meet all the lower division requirements, complete 60 semester hours, and be otherwise acceptable into the program. Music students at the University come from a wide variety of academic backgrounds from Florida, other states, and countries. Because of this diversity, the faculty of music gives basic preliminary examinations in order to assist the student in eliminating any deficiencies: 1. Music History - consisting of all periods of history. 2. Music Theory - consisting of sightsinging, melodic and harmonic dictation and written harmonization and analysis. All transfer music majors entering Fall 2011 or later must satisfy the FIU Global Learning requirement by taking IDS3336 Artistic Expression and MUH2512 Music Of The World.

Program Requirements

Academic Progression Requirements

Students admitted to the university are admitted directly to their chosen major. Students are expected to make satisfactory progress based on critical indicators, such as GPA in specific courses or credits earned. In cases where students are not making satisfactory progress, a change of major may be required. Advisors work to redirect students to more appropriate majors when critical indicators are not met.

Entrance Requirements

(1) Successful instrumental or vocal audition.

(2) Students must pass MUT1001 Fundamentals Of Mus with a minimum grade of “C” or be placed into MUT1111 Music Theory I prior to taking any academic music courses.

Exit Requirements

Successful completion of significant research paper (e.g. 30 pages) and presentation approved by a School of Music committee of two or three full-time faculty member.

Lower-Division Preparation

Type

Prerequisite

Common Prerequisite Courses

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Complete ALL of the following Courses:

- MUT1111 - Music Theory I
- MUT1112 - Music Theory II
- MUT2116 - Music Theory III
- MUT2117 - Music Theory IV
- MUT1221 - Sightsinging I
- MUT1222 - Sightsinging II
- MUT2226 - Sightsinging III
- MUT2227 - Sightsinging IV

Secondary Piano – Proficiency by examination (*or MVKX111 & MVKX112 & MVKX121 & MVKX122 OR MVKX111r & MVKX111r & MVKX121r & MVKX121r & MVKX211 & MVKX221 as needed to achieve piano proficiency.*)

MUN (Ensemble) and MVX (Applied Performance) requirements will transfer based on the required audition.

Additional Comments:

University Core Curriculum (33 credits)

Degree Program Credit Hours: 120

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Music Theory: 12 Credits

Complete ALL of the following Courses:

- MUT1111 - Music Theory I
- MUT1112 - Music Theory II
- MUT2116 - Music Theory III
- MUT2117 - Music Theory IV

**MUT2117 Music Theory IV may be substituted with a jazz theory course*

AND

Sightsinging: 4 Credits

Complete ALL of the following Courses:

- MUT1221 - Sightsinging I
- MUT1222 - Sightsinging II
- MUT2226 - Sightsinging III
- MUT2227 - Sightsinging IV

**MUT2227 Sightsinging IV may be substituted with MUT3363L Jazz Ear Training*

AND

Ethnomusicology: 3 Credits

Complete ALL of the following Courses:

- MUH2512 - Music Of The World

AND

Class Piano: 4 Credits

Complete ALL of the following Courses:

- MVK1111L - Class Piano I
- MVK1112L - Class Piano II
- MVK2121L - Class Piano III
- MVK2122L - Class Piano IV

**MVK2121L Class Piano III and MVK2122L Class Piano IV may be substituted with MVK3135 Cls Jazz Pno I and MVK3136 Cls Jazz Pno II.*

AND

Music History: 12 Credits

Complete ALL of the following Courses:

- MUH3211 - Music History Survey I
- MUH3212 - Music Hist II

Music History or Literature Elective (Choose any two upper-division MUH or MUL course in consultation with area coordinator) (6 credits)

AND

Music Technology: 2 Credits

Complete ALL of the following Courses:

- MUS1342L - Music Technology Fundamentals

AND

Music Business: 3 Credits

Complete ALL of the following Courses:

- MUM4301 - Business of Music

AND

Recital Attendance: 0 Credits

Complete ALL of the following Courses:

- MUS1010 - Recital Attendance
- MUS3040 - Recital Attendance

**MUS1010 Recital Attendance: required each semester enrolled in applied lessons at the freshman/sophomore level*

**MUS3040 Recital Attendance: required each semester*

AND

Principal Applied Lessons: 8 Credits

4 semesters at 2 credits each

AND

Ensembles: 4 Credits

1 credit for every semester enrolled in lessons

AND

Internship: 0 Credits

Complete ALL of the following Courses:

- MUM4940 - Music Internship

AND

Other Required Courses:

Complete ALL of the following Courses:

- MUH3912C - Basic Music Research and Bibliography
- MUS4910 - Research

Restricted Electives (12)

**MUH3912C Mus Research Bib: With approval of area coordinator (s) most closely associated with student's area(s) or research, may substitute another course as preparation for the Senior Project.*

**MUS4910 Research: Students must complete a significant research paper (e.g. 30 pages) and give a presentation for successful completion of Senior Research project to two or three full-time instructors.*

**Restricted Electives: Courses chosen in close consultation with area coordinator(s) most closely associated with student's area(s) or research. These electives should support the student's Senior Project or form a coherent program of study, such as a minor.*

MUSIC:BM - Bachelor of Music

Overview

Degree Offered
BM - Bachelor of Music

Program Title
Music

The Bachelor of Music (BM) offers an array of majors, each tailored to unleash students' unique musical talent, setting them on a path to success in the dynamic music industry. As instrumental or vocal performance majors, students will sharpen their skills under the guidance of accomplished faculty, preparing for a virtuoso performance career. In the world of music business, they will become versatile artists as they refine their performance skills and learn the intricacies of studio recording and live concert production. Our composition major will help students fine-tune their theory skills and develop their unique voices as composers. Students can explore cutting-edge music technology or immerse themselves in the magic of musical theatre, where they will polish performance skills and gain expertise as a music director, composer, and musical theatre producer. Our music therapy major provides a comprehensive path to becoming a board-certified music therapist. At FIU, we provide opportunities, experiences, and a vibrant community that will shape students into well-rounded musicians ready to conquer the diverse landscapes of the music industry.

- MUT1111 - Music Theory I
- MUT1112 - Music Theory II
- MUT2116 - Music Theory III
- MUT2117 - Music Theory IV

**Students in Jazz Performance major replace MUT2117 Music Theory IV with MUT3171C Jazz Theory II*

AND

Sightsinging

Complete ALL of the following Courses:

- MUT1221 - Sightsinging I
- MUT1222 - Sightsinging II

- MUT2226 - Sightsinging III
- MUT2227 - Sightsinging IV

**Students in Jazz Performance major replace MUT2227 Sightsinging IV with MUT3363L Jazz Ear Training*

AND

Music History

Complete ALL of the following Courses:

- MUH3211 - Music History Survey I
- MUH3212 - Music Hist II

AND

Ethnomusicology

Complete ALL of the following Courses:

- MUH2512 - Music Of The World

AND

Class Piano

Complete ALL of the following Courses:

- MVK1111L - Class Piano I
- MVK1112L - Class Piano II
- MVK2121L - Class Piano III
- MVK2122L - Class Piano IV

**Students in Jazz Performance major replace MVK2121L Class Piano III and MVK2122L Class Piano IV with MVK3135 Cls Jazz Pno I and MVK3136 Cls Jazz Pno II.*

AND

Music Technology

Complete ALL of the following Courses:

- MUS1342L - Music Technology Fundamentals

AND

Music Business

Complete ALL of the following Courses:

- MUM4301 - Business of Music

AND

Recital Attendance

Complete ALL of the following Courses:

- MUS1010 - Recital Attendance
- MUS3040 - Recital Attendance

**MUS1010 Recital Attendance: required each semester enrolled in applied lessons at the freshman/sophomore level*

**MUS3040 Recital Attendance: required each semester enrolled in applied lessons at the junior/senior level*

Additional Comments:

Total University & Music Core (67 Credits)

Major Requirements

Majors in the Bachelor of Music Degree

The following majors represent various areas of study for music students. All students must choose one major and admission to each major is by faculty approval. The majors are detailed below with the requirements beyond the Music Degree Core of 67 credits.

Instrumental Performance Major Credit Hours: 53

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Music Theory/History

Complete ALL of the following Courses:

- MUT3611 - Form And Analysis

Upper Division MUT or MUH course (3 credits)

AND

Ensembles

One major ensemble every semester enrolled in lessons (8 credits)

Additional ensembles (Placement will be determined by area coordinator) (8 credits)

AND

Major Applied Lessons

Lower-Division Major Applied Lessons (Four semesters, 2 credits each semester)

Upper-Division Major Applied Lessons (Four semesters, 3 credits each semester)

AND

Literature

Music Literature (MUL) course (3 credits)

**To be chosen in consultation with Area Coordinator. Guitarist should take* MUL4400 Keyboard Lit I *and string players should take* MUL4500 Symphonic Lit*. Wind players should take* MUL3551 Wind Literature *and are strongly encouraged to take* MUL4500 Symphonic Lit *as well.*

AND

Music Internship

MUM Music Internship

AND

Conducting

Complete ALL of the following Courses:

- MUG4101L - Basic Conducting
- MUG4302L - Instrumental Conduct

AND

Recitals

Junior Recital

Senior Recital

AND

Electives

Music Electives (6 credits)

Jazz Performance Major Credit Hours: 53

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Music Theory/History

Complete ALL of the following Courses:

- MUT2641 - Jazz Improvisation I
- MUT2642 - Jazz Improvisation II
- MUT3170C - Jazz Theory I
- MUT3171C - Jazz Theory II
- MUT3363L - Jazz Ear Training
- MUH3801 - Jazz History
- MVK3135 - Class Jazz Piano I
- MVK3136 - Class Jazz Piano II
- MUT4353 - Jazz Arranging

**MUT3171C Jazz Theory II, MUT3363L Jazz Ear Training, MVK3135 Cls Jazz Pno I, MVK3136 Cls Jazz Pno II: (music core)*

AND

Ensembles

Two credits each semester (16 credits)

AND

Major Applied Lessons

Lower-Division Major Applied Lessons (Four semesters, 2 credits each semester)

Upper-Division Major Applied Lessons (Four semesters, 3 credits each semester)

AND

Music Internship

MUM Music Internship

AND

Recitals

Junior Recital

Senior Recital

AND

Electives

Music Electives (5 credits)

Organ Performance Major Credit Hours: 53

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Music Theory/History

Complete ALL of the following Courses:

- MUT3611 - Form And Analysis

Upper-Division MUT or MUH course (3 credits)

AND

Literature

Complete ALL of the following Courses:

- MUL4490 - Survey of Organ Literature

AND

Ensembles

Major Ensembles (2 semesters minimum) (2 credits)

Ensembles assigned by the keyboard area coordinator (6 credits)

AND

Accompanying

Complete ALL of the following Courses:

- MUN2510L - Accompanying
- MUN4513L - Accompanying

**MUN2510L Accompanying (4 semesters)*

**MUN4513L Accompanying (2 semesters)*

AND

Keyboard Harmony

Complete ALL of the following Courses:

- MVK2180L - Keyboard Harmony

AND

Major Applied Lessons

Lower-Division Major Applied Lessons (Four semesters, 2 credits each)

Upper-Division Major Applied Lessons (Four semesters, 3 credits each)

AND

Pedagogy

Complete ALL of the following Courses:

- MVK4640 - Keyboard Pedagogy

AND

Music Internship

MUM Music Internship (Advisor approval required)

AND

Conducting

Complete ALL of the following Courses:

- MUG4101L - Basic Conducting
- MUG4202 - Choral Conducting

AND

Recitals

Complete ALL of the following Courses:

- MVK3970L - Junior Recital Keyboard
- MVK4971L - Senior Recital Keyboard

AND

Electives

Applied Piano (Principal) (4 credits)

Music Electives (1 credit)

Piano Performance Major Credit Hours: 53

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Music Theory/History

Complete ALL of the following Courses:

- MUT3611 - Form And Analysis

Upper-Division MUT or MUH course (3 credits)

AND

Literature

Complete ALL of the following Courses:

- MUL4400 - Keyboard Literature I
- MUL4401 - Keyboard Literature II

AND

Ensembles

Major ensembles (2 semesters) (2 credits)

Ensembles assigned by the Keyboard Area Coordinator (6 credits)

AND

Accompanying

Complete ALL of the following Courses:

- MUN2510L - Accompanying
- MUN4513L - Accompanying

**MUN2510L Accompanying (four semesters) (4 credits)*

**MUN4513L Accompanying (two semesters) (2 credits)*

AND

Keyboard Harmony

Complete ALL of the following Courses:

- MVK2180L - Keyboard Harmony

AND

Major Applied Lessons

Lower-Division Major Applied Lessons (Four semesters, 2 credits each semester)

Upper-Division Major Applied Lessons (Four semesters, 3 credits each semester)

AND

Piano Pedagogy

Complete ALL of the following Courses:

- MVK4640 - Keyboard Pedagogy

AND

Recitals

Complete ALL of the following Courses:

- MVK3970L - Junior Recital Keyboard
- MVK4971L - Senior Recital Keyboard

AND

Electives

Organ (Principal) (2 credits)

**2 credits of Organ can be substituted for 2 credits of additional ensembles and/or Accompanying, as determined by the Keyboard area coordinator.*

AND

Music Internship

MUM Music Internship (Advisor approval required)

AND

Conducting

Complete ALL of the following Courses:

- MUG4101L - Basic Conducting
- MUG4302L - Instrumental Conduct

Bachelor of Music: Music Business & Production Major

A Bachelor of Music: Music Business & Production Major allows for students to learn the live concert and studio recording aspects of the music business. Students have a set of courses covering the music business standards and can then choose from a variety of courses in the curriculum for a varied academic experience.

Music Business & Production Major Credit Hours: 53

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Ensembles

Seven (7) ensembles of 1 credit each

AND

Applied Lessons

Seven (7) lessons of 2 credits each

AND

Recital

Junior Recital

AND

Music Business & Production Major: Part I

Complete ALL of the following Courses:

- MUM3743C - Music Business: Agents, Managers, Legal & Finance
- MUM3744C - Career Development for Artists
- MUM3742L - Music Production
- MUM4302 - Business of Music II
- MUM4803 - Concert Funding Strategy
- MUM4814C - Leadership in the Arts
- MUS4910 - Research
- MUM4940 - Music Internship

**MUS4910 Research (1 credit)*

**MUM4940 Music Internship (3 credits)*

AND

Music Business & Production Major: Part II

Earn at least 10 credits from the following:

- MUM3651L - Studio Recording Techniques I
- MUM4652L - Studio Recording Techniques II
- MUM3685L - Audio Mixing Techniques I
- MUM4686L - Audio Mixing Techniques II
- MUM4631L - Digital Music Production
- MUM3734C - Concert Promoter and Venue Management
- MUM4724C - Concert Touring
- MUS3333 - Sound Reinforcement
- MUS4910 - Research

Music Composition Major Credit Hours: 53

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Music Theory/History

Complete ALL of the following Courses:

- MUT3401 - Counterpoint
- MUT3611 - Form And Analysis
- MUT4311 - Orchestration

AND

Ensembles

Lower level – 4 credits (1 per semester freshman and sophomore years to be selected by principal instrument/voice area director)

Upper level – 2 credits (Junior and senior years 2 semesters of New Music Ensemble; others to be selected by principal instrument/voice area director)

AND

Conducting

Complete ANY of the following Courses:

- MUG4202 - Choral Conducting
- MUG4302L - Instrumental Conduct

AND

Principal Applied Lessons

Lower-Division Principal Applied Lessons (Four semesters, 2 credits each)

Upper-Division Principal Applied Lessons (Two semesters, 2 credits each)

AND

Composition

Complete ALL of the following Courses:

- MUC1101 - Basic Music Composition
- MUC2221 - Composition Seminar I
- MUC2222 - Composition Seminar II
- MUC3231 - Composition III
- MUC3232 - Composition IV
- MUC4241 - Composition Sem V
- MUC4932 - Composition Forum

**MUC4932 Composition Forum (4 semesters)*

AND

Electronic Music

Complete ALL of the following Courses:

- MUC2301L - Introduction to Electronic Music
- MUC3303L - Digital Instrument Design

AND

Recitals

Complete ALL of the following Courses:

- MUS4910 - Research

Senior Recital (voice instrument)

**MUS4910 Research (2 credits)*

**Composition students must present a 45-minute recital of their work and a 30-minute performance recital. A final oral exam administered after the composition recital must also be successfully completed. Composition students must earn a "B" or better in all theory, composition, and electronic music courses.*

AND

Interdisciplinary Course Electives

Earn at least 3 credits from the following:

- MUC4611C - Documentary Film and Media Scoring Fundamentals
- MUS4650 - Experimental Music and Arts
- MUC4610 - Film Scoring Fundamentals

AND

Music Internship

MUM Music Internship

Bachelor of Music: Music Education Major

The Bachelor of Music: Music Education Major leads to K-12 Professional Teaching Certification in Music in the State of Florida.

Music Education Major Credit Hours: 53

Type

Completion Requirement

Music Education Core

Fulfill ALL of the following requirements:

Principal Applied Lessons

Principal Applied Lower-Division Lessons (8 credits)

Principal Applied Upper-Division Lessons (4 credits)

AND

Ensembles

Music Education majors are required to enroll in 1 ensemble each semester enrolled in applied lesson (6 credits)

AND

MUE Forum

MUE X390 required each semester enrolled prior to internship.

AND

Recital

Junior Recital

AND

Conducting

Complete ALL of the following Courses:

- MUG4101L - Basic Conducting
- MUG4302L - Instrumental Conduct
  OR MUG4202 - Choral Conducting

AND

Music Education Foundations: 27 Credits

Complete ALL of the following Courses:

- MUE2040 - Introduction to Music Education
- MUE3340 - Elementary School Teaching Methods
- MUE3744 - Assessment and Evaluation in Music Education
- MUE3395 - Music in Special Education
- RED4325 - Subject Area Reading
- TSL4324 - ESOL Issues and Strategies for Content Area Teachers
- MUE4940 - Student Teaching in Music Education
- MUE3411C - Choral Methods
  OR MUE3332 - Secondary Instrumental Music Methods

**MUE3340 Elem Sch Tch Meth: Prerequisite: Passing scores on all four (4) parts of the General Knowledge FTCE. Certification field hours required. Recommended co-requisite.*

**MUE3744 Assessment in Music Ed: Prerequisite: Passing scores on all four (4) parts of the General Knowledge FTCE. Certification field hours required. Recommended co-requisite.*

**MUE3395 Music in Spec Ed: Prerequisite: Passing scores on all four (4) parts of the General Knowledge FTCE. Certification field hours required.*

**RED4325 Subj Area Reading: Prerequisite: Passing scores on all four (4) parts of the General Knowledge FTCE. Certification field hours required.*

**TSL4324 ESOL Content Areas: Prerequisite: Passing scores on all four (4) parts of the General Knowledge FTCE. Certification field hours required.*

**MUE3411C Choral Methods OR MUE3332 Sec Instr Methods: Certification field hours required.*

AND

Music Technique Emphasis

Earn at least 6 credits from the following:

- MVV3630 - Vocal Pedagogy
- MVS1116 - Guitar Skills
- MUE2440C - String Techniques
- MUE2450L - Woodwind Techniques
- MUE2460L - Brass Techniques
- MUE2470L - Percussion Tech
- MUE2346 - Vocal Techniques
- MUE4480 - Marching Band Techniques
- MUS2211 - English Diction
- MUS2221 - French Diction
- MUS2231 - German Diction
- MUS2241 - Italian Diction

**Techniques may be substituted at discretion of Area Coordinator and Advisor.*

Music Technology Major Credit Hours: 53

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Music Technology

Complete ALL of the following Courses:

- MUC2301L - Introduction to Electronic Music
- MUC3303L - Digital Instrument Design
- MUS3333 - Sound Reinforcement
- MUC3304L - Audio Digital Signal Processing
- MUC4404L - Advanced Topics in Music Technology
- MUS4910 - Research

- MUM4940 - Music Internship

**MUS4910 Research (4 credits)*

AND

Ensembles

Complete ALL of the following Courses:

- MUN3024 - Laptop and Electronic Arts Ensemble

Major ensemble for four semesters (4 credits)

**MUN3024 Laptop Ensemble (for minimum of three semesters)*

AND

Principal Applied Lessons

Lower-Division (Four semesters, 2 credits each semester)

Upper-Division (Two semesters, 2 credits each semester)

AND

Conducting

Complete ALL of the following Courses:

- MUG4101L - Basic Conducting

AND

Other Music Courses

Chosen with consultation of advisor

Complete at least 2 of the following courses:

- MUS2501 - Introduction to Digital Audio Production
- MUC4611C - Documentary Film and Media Scoring Fundamentals
- MUS4650 - Experimental Music and Arts

AND

Coursework Outside of Music

Complete ALL of the following Courses:

- PHY3465 - Physics of Music

**or one Computer Science elective selected in consultation with advisor.*

AND

Electives

Selected in consultation with Advisor (9 credits)

Musical Theatre Major Credit Hours: 53

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Music Theory

Complete ALL of the following Courses:

- MUT4006L - Songwriting II

AND

Conducting

Complete ALL of the following Courses:

- MUG4111L - Musical Theatre Conducting

AND

Sightsinging

Complete ALL of the following Courses:

- MUT3281L - Ear Training for Musical Theatre I
- MUT4282L - Ear Training for Musical Theatre II

AND

Secondary Instruments

Complete ALL of the following Courses:

- MVK2171L - Musical Theatre Piano Techniques
- MVK2221 - Secondary Applied Piano
- MVS1116 - Guitar Skills
- MVS2226 - Secondary Applied Guitar

AND

Ensembles

Complete ALL of the following Courses:

- MUO2001L - Musical Theatre Workshop

- MUN2640L - Musical Theatre Ensemble
- MUN1310 - Concert Choir
  OR MUN1380L - University Singers
- MUN3313 - Concert Choir
  OR MUN3383L - University Singers
- MUN4643L - Musical Theatre Ensemble

NOTE: The Musical Theatre Workshop courses must be taken eight times: (MUO2001L Musical Theatre Workshop, or other substitute)

NOTE: The Musical Theatre Ensemble courses must each be taken four times: (MUN2640L Musical Theatre Ensemble , MUN4643L Musical Theatre Ensemble)

AND

Pedagogy

Complete ALL of the following Courses:

- MVV3630 - Vocal Pedagogy
- MUO3015L - Musical Theatre Audition Repertoire

AND

Music Business

Complete ALL of the following Courses:

- MUM3651L - Studio Recording Techniques I

One additional Music Business course with MUO prefix

Bachelor of Music: Music Therapy Major

Students in this major will allow students to learn about Music Therapy concepts and aspects of the profession. Students have a set of courses preparing them to become music therapists.

Music Therapy Major Credit Hours: 53

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Music Therapy Core

Complete ALL of the following Courses:

- MVS1116 - Guitar Skills
- MUE2346 - Vocal Techniques

- MUE2470L - Percussion Tech
- MUY2000 - Introduction to Music Therapy
- MUY3400 - Music Therapy Pre-Practicum
- MUY3401 - Music Therapy Techniques I
- MUY3402 - Music Therapy Techniques II
- MUY3403 - Music Therapy Techniques III
- MUY3613 - Music Therapy Instrumental Skills I
- MUY3614 - Music Therapy Instrumental Skills II
- MUY3941 - Music Therapy Practicum I
- MUY3942 - Music Therapy Practicum II
- MUY3943 - Music Therapy Practicum III
- MUY3944 - Music Therapy Practicum IV
- MUY3945 - Music Therapy Practicum V
- MUY4004 - Psychology of Music
- MUY4803 - Research Methods in Music Therapy
- MUY4940 - Music Therapy Internship

AND

Other Requirements

Applied Lessons (12 credits)

Ensembles (8 credits)

Bachelor of Music: Vocal Performance Major

In addition to the UCC requirements, the common requirements for all music degrees, and the required courses for the Vocal Performance major listed below, all voice majors must satisfy the following foreign language requirements.

Students must demonstrate competency at the level of the first semester of an intensive college language sequence or beyond in two of the following languages: French, German, and Italian. Each of these two requirements may be met by:

--Successfully completing with a grade of ‘C’ or better (C- does not count): the first semester or higher of a foreign language sequence at FIU from the list of accepted languages.

--Completing the equivalent at another college, or

--Presenting acceptable scores in the Advanced Placement Exam, the SAT II, the CLEP exam, or other approved instruments. Recommended equivalencies are available at https://transfer.fiu.edu/transfer-101/credit-options/credit-by-exam-tables/index.html.

Elective credits may be used to fulfill the foreign language requirement.

Vocal Performance Major Credit Hours: 53

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Music Theory

Complete ALL of the following Courses:

- MUT3611 - Form And Analysis

Upper Division MUT or MUH course (3 credits)

AND

Ensembles

Complete ALL of the following Courses:

- MUN1310 - Concert Choir
  OR MUN1340 - University Chorale
- MUN3313 - Concert Choir
  OR MUN3343 - University Chorale

**For each semester of lower-division applied voice, 1 credit hour of "major choral ensemble" (MUN1310 Concert Choir or MUN1340 University Chorale) as assigned by Director of Choral Studies (4 credits)*

**For each semester of upper-division applied voice, 1 credit hour of "major applied ensemble" (MUN3313 Concert Choir or MUN3343 University Chorale) as assigned by the Director of Choral Studies (4 credits)*

AND

Major Applied Lessons

Four semesters; 3 credits each semester

AND

Upper-Division Major Applied Lessons

Four semesters, 3 credits each

AND

Conducting

Complete ALL of the following Courses:

- MUG4101L - Basic Conducting
- MUG4202 - Choral Conducting

AND

Recitals

Complete ALL of the following Courses:

- MVV3970L - Junior Recital Voice
- MVV4971L - Senior Recital Voice

AND

Diction for Singers

Complete ALL of the following Courses:

- MUS2211 - English Diction
- MUS2221 - French Diction
- MUS2231 - German Diction
- MUS2241 - Italian Diction

**1 credit each*

AND

Vocal Pedagogy

Complete ALL of the following Courses:

- MVV3630 - Vocal Pedagogy

AND

Opera Workshop

Complete ALL of the following Courses:

- MUO4502 - Opera Workshop

**per semester of upper-division applied voice (4 credits)*

AND

Internship

Complete ALL of the following Courses:

- MUM3942 - Music Internship Experience

AND

Literature

Complete ALL of the following Courses:

- MUL3600 - Art Song Literature

AND

Electives

Electives (4 credits)

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Combined BM in Music (major: Music Business and Production) to MM in Music (major: Music Business and Production) Accelerated Degree Pathway

Type

Completion Requirement

Ensembles

Students must complete seven ensembles of 1 credit each

Applied Lessons

Students must complete seven lessons of 2 credits each

Junior Recital

Students must complete the Junior Recital

Requirements for Senior Year

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- MUM5745C - Career Development for Artists
- MUS5512 - Sound Reinforcement
- MUS5711 - Music Bibliography
- MUM5795 - Music Production Laboratory I

AND

Exit Requirement

In their fourth year, students will also complete the exit requirement for the undergraduate junior recital.

AND

Application for Graduation

Students must apply for graduation so that they will receive the B.M. at the end of their senior year.

Fifth Year

During their fifth year, students will complete 26 hours of graduate-level work, including the following:

Complete ALL of the following Courses:

- MUM5725 - Live Music Operations I
- MUM5809 - Music Production Seminar
- MUM5808 - Concert Funding Strategy
- MUS5910 - Research
- MUM5885C - Music Administration History & Analysis
- MUM5653L - Studio Recording Techniques I
- MUM5654L - Studio Recording Techniques II
- MUM5687L - Audio Mixing Techniques I

- MUM5688L - Audio Mixing Techniques II
- MUM5635L - Digital Music Production
- MUM5946 - Performance Arts Internship
- MUM5745L - Music Management & Production Capstone

All students must complete the M.M credits within one year of receiving the B.M. in Music at FIU.

Other Curricular Offering: Combined BM in Music (major: Music Composition) to MM in Music (major: Music Composition) Accelerated Degree Pathway

Senior Year

In the combined degree pathway students will count up to 12 credits of graduate level courses in both the B.M. and M.M degrees. Students must complete the final oral exit requirement, and Senior Composition Recital (MUS4910 Research). Students must apply for graduation so that they will receive the B.M. at the end of their senior year.

Graduate Program Requirements

All combined degree pathway student graduate credits completed as part of the B.M. will be transferred into the graduate program and counted for completion for the M.M (total 36 credits). No more than 12 credits can be applied to both degrees.

Other Curricular Offering: Combined BM in Music (major: Musical Theatre) to MM in Music (major: Musical Theatre) Accelerated Degree Pathway

Type

Completion Requirement

Year 1 Required Courses

Complete ALL of the following Courses:

- MVV1411 - Major Applied Voice
- TPP1110 - Acting I
- MUS1010 - Recital Attendance
- MUT1111 - Music Theory I
- MUT1221 - Sightsinging I
- MVV1411 - Major Applied Voice
- MUS1010 - Recital Attendance
- MUT1112 - Music Theory II
- MUT1222 - Sightsinging II

Students also must take 2 credits of MUN Ensemble.

Year 2 Required Courses

Complete ALL of the following Courses:

- TPP2111 - Acting II
- MUT2116 - Music Theory III
- MUT2226 - Sightsinging III
- MVV2421 - Major Applied Voice
- MUS1010 - Recital Attendance

- MUT2117 - Music Theory IV
- MUT2227 - Sightsinging IV
- MVV2421 - Major Applied Voice
- MUS1010 - Recital Attendance
- MUO2001L - Musical Theatre Workshop
- MUH2512 - Music Of The World

Students also must take 2 credits of MUN Ensemble.

Year 3 Required Courses

Complete ALL of the following Courses:

- MVV3431 - Major Applied Voice
- MUS3040 - Recital Attendance
- MUM4301 - Business of Music
- MUH3211 - Music History Survey I
- MVK1111L - Class Piano I
- MUG4101L - Basic Conducting
- MVV3431 - Major Applied Voice
- MVK1112L - Class Piano II
- MUS3040 - Recital Attendance
- MUH3212 - Music Hist II
- MVV3970L - Junior Recital Voice

Students also must take 2 credits of MUN Ensemble.

Year 4 Required Courses

In their senior year, students will compete 5000 level courses, the vocal exit requirements, and Senior Recital. Students must apply for graduation so that they will receive the B.M. at the end of their senior year. All students must complete the M.M credits within one year of receiving the B.M. in Music at FIU.

Complete ALL of the following Courses:

- MUH5656C - History of Musical Theatre
- MVV5451 - Major Applied Voice
- MUS1342L - Music Technology Fundamentals
- MVK2121L - Class Piano III
- MUN5648L - Musical Theatre Ensemble
- MUS3040 - Recital Attendance
- MUG4111L - Musical Theatre Conducting
- MVV5651 - Graduate Vocal Pedagogy I
- MVK2122L - Class Piano IV
- MVV5451 - Major Applied Voice
- MUO5007L - Musical Theatre Workshop-Voice
- MUS3040 - Recital Attendance
- MVV4971L - Senior Recital Voice
- DAA1500 - Jazz Dance Technique I
  OR DAA1200 - Ballet Techniques I
  OR DAA5008C - Dance for Musical Theatre
  OR TPP2160 - Theatre Voice and Movement I

Notes: DAA5008C Dance for Musical Theatre has pre-requisites; please see music advisor for two DAA pre-requisites required for this course. TPP2160 Theatre Voice Mov I has a pre-requisite; please see music advisor for pre-requisite access and information.

Year 5 Required Courses

During their fifth year, students will complete 20-23 hours of graduate-level work, including the following:

Complete ALL of the following Courses:

- MVV5451 - Major Applied Voice
- MUN5648L - Musical Theatre Ensemble
- MUS5711 - Music Bibliography
- MUS5906 - Master's Recital
- MUT5629 - Analytical Techniques
- MUH6937 - Special Topics in Music History

Students must also take 1-5 credits of music electives.

Other Curricular Offering: Combined BM in Music (major: Vocal Performance) to MM in Music (major: Vocal Performance) Accelerated Degree Pathway

Type

Completion Requirement

Requirements for Senior Year

Fulfill ALL of the following requirements:

Course Requirements

Complete four 5000-level courses (10 credits)

AND

Senior Recital

Complete ALL of the following Courses:

- MVV4971L - Senior Recital Voice

AND

Application for Graduation

Students must apply for graduation so that they will receive the B.M. at the end of their senior year.

Requirements for the Fifth Year

Complete ALL of the following Courses:

- MVV5451 - Major Applied Voice
- MVV5652 - Graduate Vocal Pedagogy II
- MUO5505 - Opera Workshop
- MUS5711 - Music Bibliography

- MUH6937 - Special Topics in Music History
- MUS5906 - Master's Recital

Students also must complete MUN 5XXX Elective Ensemble (2 semesters/1credit each).

Additional Comments:

All students ***must*** complete the M.M credits within one year of receiving the B.M. in Music at FIU.

MUSIC:MM - Master of Music

Overview

Degree Offered
MM - Master of Music

Program Title
Music

The Master of Music (MM) program builds on the foundation of the Bachelor of Music program. This advanced degree opens doors to opportunities in the music landscape. Students can tailor their academic journeys by choosing from a diverse range of specializations, including instrumental or vocal performance, music management, composition, or music technology. Master of Music students delve deeper into their chosen field, working closely with world-class faculty to refine their craft and expand their horizons. FIU's Master of Music program provides the mentorship, resources, and community to propel students towards their goals. Admissions Requirements

Admissions Requirements for the Master of Music (MM) in Music

All students entering the graduate programs in the School of Music must possess an undergraduate Bachelor of Music degree from an accredited institution or the equivalent with a 3.0 GPA in the last 60 credits of study. The only exception to this requirement is found in the Music Management and Production and Music Technology areas, where students with undergraduate degrees in other related areas may be accepted, as long as they can demonstrate a sufficient musical background. In addition to the on-line application and documentation required by the University Graduate School, the School of Music graduate programs require an audition or interview and additional supporting materials. Please visit the Graduate Admissions website for School of Music admission requirements by degree and majors.

Applicants who feel the earned GPA is not indicative of their ability to be successful in a graduate degree program may also submit scores on the Graduate Record Examination, which will be taken into consideration by the admission committee in its evaluation of the application.

--Wind/Percussion Performance: audition on instrument (and interview when feasible) – recordings acceptable

--String/Guitar Performance: audition on instrument (and interview when feasible) – recordings acceptable

--Keyboard/Organ Performance: audition on instrument (and interview when feasible) – recordings acceptable

--Vocal Performance: audition on voice (and interview when feasible) – recordings acceptable

--Conducting (choral, wind, orchestral): conducting audition (and interview when feasible) – video acceptable

--Jazz: audition on instrument (and interview when feasible) – recordings acceptable

--Composition: review of portfolio of scores (and interview when feasible)

--Music Management and Production: interview required

--Music Technology: portfolio of music or software, interview, CV, personal statement

Admissions Requirements for the Combined Bachelor of Music (BM) in Music (major: Music Composition) to MM in Music (major: Music Composition) Accelerated Degree Pathway

(1) Current overall GPA of 3.2 or better

(2) Completed at least 75 credit hours

(3) In good standing as a Music Composition Major at FIU

(4) Submission of request in writing for admission into the graduate program with justification and future plans.

(5) Approval from the Music Composition Program Director (undergraduate and Graduate)

Admissions Requirements for the Combined BM in Music (major: Musical Theatre) to MM in Music (major: Musical Theatre) Accelerated Degree Pathway

(1) Current overall GPA of 3.0 or better.

(2) Completed at least 75 credit hours

(3) Two letters of recommendation from FIU Faculty

(4) Submission of acceptable writing sample, complete with bibliography to vocal performance area coordinator at music@fiu.edu.

Admissions Requirements for the Combined BM in Music (major: Vocal Performance) to MM in Music (major: Vocal Performance) Accelerated Degree Pathway

(1) Current overall GPA of 3.2 or better.

(2) Completed at least 75 credit hours

(3) Two letters of recommendation from FIU Faculty

(4) Submission of acceptable writing sample, complete with bibliography to vocal performance area coordinator at music@fiu.edu.

Program Requirements

Music Degree General Requirements

--Music Theory (MUT5629 Analytical Techs required in all areas except jazz, music technology, music education, and music management production) - 3 Credits

--Music History/Literature* (see each major for specific courses) - 3 Credits

--Ensembles/applied/conducting (see each major for specific courses) - 2 Credits

The above eight credits are included in the 36 credits required for most majors.

*A placement exam is required before students are allowed into these courses. Remedial work may be required before these courses are taken. A grade of “B” or better must be earned in order for a course to count towards the MM in Music or the MS in Music Education.

Major Requirements

Music Composition Major Credit Hours: 36

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MUC6251 - Graduate Music Composition
- MUT5629 - Analytical Techniques
- MUH6937 - Special Topics in Music History
- MUS5711 - Music Bibliography

Composers Forum (4 semesters - 1 credit each)

Electronic Music (2 semesters - 2 credits per semester – beyond MIDI Tech class)

Graduate Electives to be selected in consultation with the composition area director (5 credits)

Thesis/Recital (includes private lessons and 45 minute recital of student’s compositions during last semester - 6 credits)

**MUC6251 Grad Mus Comp (3 semesters – 3 credits each)*

**MUH6937 Special Topics (3 credits)*

Applied Piano Major Credit Hours: 36

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MVK5451 - Major Applied Piano
- MUN5515L - Accompanying
- MUS5906 - Master's Recital
- MUT5629 - Analytical Techniques
- MUL5405 - Keyboard Literature I
- MUL5406 - Keyboard Literature II
- MVK5651 - Piano Pedagogy
- MUS5711 - Music Bibliography
- MUH6937 - Special Topics in Music History

Chamber Music (2 semesters - 1 credit each)

Major Ensemble (2 semesters - 1 credit each)

**MVK5451 Major Applied Piano (3 semesters - 3 credits each)*

**MUN5515L Accompanying (2 semesters - 1 credit each)*

**MUS5906 Master's Recital (includes private lessons and recital during last semester - 6 credits)*

**MUH6937 Special Topics (2 credits)*

Piano Accompanying Major Credit Hours: 36

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MUS5906 - Master's Recital
- MUT5629 - Analytical Techniques
- MUS5711 - Music Bibliography
- MUH6937 - Special Topics in Music History

Applied Piano (3 semesters - 3 credits each)

Instrumental Accompanying (2 credits)

Vocal Accompanying (2 credits)

Chamber Music (2 semesters - 1 credit each)

2 music literature courses to be chosen in consultation with advisor (6 credits)

Major Ensemble (2 semesters - 1 credit each)

**MUS5906 Master's Recital (includes private lessons and recital during last semester - 6 credits)*

**MUH6937 Special Topics (2 credits)*

Applied Organ Major Credit Hours: 36

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MUT5629 - Analytical Techniques
- MUS5711 - Music Bibliography
- MUH6937 - Special Topics in Music History
- MUS5906 - Master's Recital

Applied Organ (3 semesters – 3 credits each)

Accompanying (2 semesters – 1 credit each)

Organ Pedagogy (2 credits)

Organ Literature I and II (6 credits)

Choral Conducting or Instrumental Conducting (2 credits)

Major Ensemble (2 semesters – 1 credit each)

**MUH6937 Special Topics (2 credits)*

**MUS5906 Master's Recital (includes private lessons and recital during last semester - 6 credits)*

Applied Woodwinds, Brass, Percussion Major Credit Hours: 36

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MUN5465 - Chamber Music
- MUS5906 - Master's Recital
- MUT5629 - Analytical Techniques
- MUL5505 - Symphonic Literature
  OR MUL5456 - Wind Instrument Literature
- MUH6937 - Special Topics in Music History
- MUS5711 - Music Bibliography

Applied Instruction (3 semesters - 3 credits each)

Elective Ensembles (from orchestra/ wind/brass/percussion ensembles) (6 ensembles - 1 credit each)

Graduate Music Electives (2 credits)

**MUN5465 Chamber Music (2 semesters - 1 credit each)*

**MUS5906 Master's Recital (includes private lessons and recital during last semester - 6 credits)*

**MUH6937 Special Topics (3 credits)*

Applied Strings Major Credit Hours: 36

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MUN5215 - Orchestra
  OR MUN5485 - Guitar Ensemble
- MUN5465 - Chamber Music
- MUS5906 - Master's Recital
- MUT5629 - Analytical Techniques
- MUL5505 - Symphonic Literature
  OR MUL5435 - Guitar Literature
- MUH6937 - Special Topics in Music History

- MUS5711 - Music Bibliography

Applied Strings (3 semesters - 3 credits each)

Graduate Music Electives (2 credits)

**MUN5215 Orchestra or MUN5485 Guitar Ensemble (4 semesters - 1 credit each)*

**MUN5465 Chamber Music (4 semesters - 1 credit each)*

**MUS5906 Master's Recital (includes private lessons and recital during last semester - 6 credits)*

**MUH6937 Special Topics (3 credits)*

Applied Voice Major Credit Hours: 36

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MVV5451 - Major Applied Voice
- MUO5505 - Opera Workshop
- MVV5651 - Graduate Vocal Pedagogy I
- MUL5671 - Opera Literature
- MUL5609 - Survey of Art Song Literature
- MUT5629 - Analytical Techniques
- MUH6937 - Special Topics in Music History
- MUS5711 - Music Bibliography
- MUS5906 - Master's Recital

Elective Ensembles (3 semesters - 1 cr. each) (to be chosen in consultation with Director of Vocal Studies)

**MVV5451 Major Applied Voice (3 semesters - 3 credits each)*

**MUO5505 Opera Workshop (4 semesters - 1 credit each)*

**MUH6937 Special Topics (1 credit)*

**MUS5906 Master's Recital (includes private lessons and recital during last semester - 6 credits)*

Musical Theatre Major Credit Hours: 36

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MUH5656C - History of Musical Theatre
- MVV5451 - Major Applied Voice
- MUN5648L - Musical Theatre Ensemble
- MVV5651 - Graduate Vocal Pedagogy I

- MUO5007L - Musical Theatre Workshop-Voice
- MUS5711 - Music Bibliography
- MUT5629 - Analytical Techniques
- MUH6937 - Special Topics in Music History
- MUS5906 - Master's Recital

Music Electives (4-6 credits)

**MVV5451 Major Applied Voice (9 credits)*

**MUS5906 Master's Recital (6 credits)*

**MUH6937 Special Topics (1-3 credits)*

Choral Conducting Major Credit Hours: 36

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MUG5205 - Graduate Applied Choral Conducting
- MUS5906 - Master's Recital
- MUT5629 - Analytical Techniques
- MUL5645 - Choral Literature
- MUH6937 - Special Topics in Music History
- MUS5711 - Music Bibliography
- MVV5651 - Graduate Vocal Pedagogy I

Choir Ensemble Electives (4 semesters - 1 credit each)

Secondary Applied Lessons (2 credits)

Graduate Music Electives (2 credits)

**MUG5205 Grad Choral Cond (3 semesters – 3 credits each)*

**MUS5906 Master's Recital (includes private conducting lessons and recital during last semester - 6 credits)*

**MUH6937 Special Topics (3 credits)*

**Graduate Music Electives (Must include a vocal diction course if placement test suggests need for further training in this area. Choral conducting candidates must take placement tests in diction. Depending on the results of these tests, two of these elective credits may have to be replaced with diction courses.*

Instrumental (Wind) Conducting Major Credit Hours: 36

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MUG5307 - Graduate Applied Wind Conducting
- MUS5906 - Master's Recital
- MUT5629 - Analytical Techniques
- MUL5456 - Wind Instrument Literature
- MUH6937 - Special Topics in Music History
- MUS5711 - Music Bibliography

Ensemble Electives (4 semesters - 1 credit each)

Graduate Music Electives (6 credits)

**MUG5307 Appl Wind Conducting (3 semesters – 3 credits each)*

**MUS5906 Master's Recital (includes private conducting lessons and recital during last semester - 6 credits)*

**MUH6937 Special Topics (3 credits)*

Orchestral Conducting Major Credit Hours: 36

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MUG6309 - Graduate Applied Orchestral Conducting
- MUS5906 - Master's Recital
- MUT5629 - Analytical Techniques
- MUL5505 - Symphonic Literature
- MUH6937 - Special Topics in Music History
- MUS5711 - Music Bibliography

Elective Ensembles (4 semesters – 1 credit each)

Graduate Music Electives (6 credits)

**MUG6309 App Orch Conducting (3 semesters -3 credits each)*

**MUS5906 Master's Recital (includes private conducting lessons and recital during last semester - 6 credits)*

**MUH6937 Special Topics (3 credits)*

Jazz Performance Major Credit Hours: 36

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MVJ5150 - Jazz Piano Techniques
- MUS5711 - Music Bibliography
- MUT5646 - Advanced Jazz Techniques I
- MUT5647 - Advanced Jazz Techniques II

- MUH6937 - Special Topics in Music History
- MUS5906 - Master's Recital

Applied Music (major instrument) (3 semesters - 3 credits each)

Ensembles (from Studio Jazz Band/Combo/Latin Jazz Ensemble) (4 semester - 1 credit each)

Music Technology Elective (to be chosen in consultation with advisor - 2 credits)

Graduate Music Electives (3 credits)

**MVJ5150 Jazz Piano Tech (2 semesters - 1 credit each; not required of Jazz Piano principals who take 2 credits of Classical Piano instead)*

**MUH6937 Special Topics (2 credits; may substitute MUH5815 Jazz Hist: Innovator)*

**MUS5906 Master's Recital (includes private conducting lessons and recital during last semester - 6 credits)*

Music Management and Production Major Credit Hours: 36

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MUM5725 - Live Music Operations I
- MUM5795 - Music Production Laboratory I
- MUS5512 - Sound Reinforcement
- MUM5809 - Music Production Seminar
- MUM5705 - Advanced Business of Music
- MUM5808 - Concert Funding Strategy
- MUS5910 - Research
- MUM5946 - Performance Arts Internship
- MUS5711 - Music Bibliography
- MUM5885C - Music Administration History & Analysis
- MUM5745C - Career Development for Artists
- MUM5653L - Studio Recording Techniques I
- MUM5654L - Studio Recording Techniques II
- MUM5687L - Audio Mixing Techniques I
- MUM5688L - Audio Mixing Techniques II
- MUM5635L - Digital Music Production
- MUM5745L - Music Management & Production Capstone

**MUM5705 Adv Bus Of Music (prerequisite: MUM4301 Business Of Music or equivalent)*

**MUS5910 Research (2 credits)*

**MUM5946 Perform Arts Intern (4 credits)*

Music Technology Major Credit Hours: 36

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MUC6405 - Electronic Music Lab III
- MUC5406 - Electronic Music IV
- MUC5635 - Computer Music Seminar I
- MUC5636 - Computer Music Seminar II
- MUS5711 - Music Bibliography
- MUS5512 - Sound Reinforcement
- PHY5466 - The Physics of Music
- MUT5629 - Analytical Techniques
- MUH6937 - Special Topics in Music History
- MUS6971 - Thesis
- MUM5946 - Performance Arts Internship

**MUT5629 Analytical Techs (may substitute MUT5051 Grad Theory Survey)*

**MUH6937 Special Topics (1 credit)*

**MUS6971 Thesis (6 credits)*

**MUM5946 Perform Arts Intern (1-9 credits)*

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Combined BM in Music (major: Music Business and Production) to MM in Music (major: Music Business and Production) Accelerated Degree Pathway

Type

Completion Requirement

Ensembles

Students must complete seven ensembles of 1 credit each

Applied Lessons

Students must complete seven lessons of 2 credits each

Junior Recital

Students must complete the Junior Recital

Requirements for Senior Year

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- MUM5745C - Career Development for Artists
- MUS5512 - Sound Reinforcement
- MUS5711 - Music Bibliography
- MUM5795 - Music Production Laboratory I

AND

Exit Requirement

In their fourth year, students will also complete the exit requirement for the undergraduate junior recital.

AND

Application for Graduation

Students must apply for graduation so that they will receive the B.M. at the end of their senior year.

Fifth Year

During their fifth year, students will complete 26 hours of graduate-level work, including the following:

Complete ALL of the following Courses:

- MUM5725 - Live Music Operations I
- MUM5809 - Music Production Seminar
- MUM5808 - Concert Funding Strategy
- MUS5910 - Research
- MUM5885C - Music Administration History & Analysis
- MUM5653L - Studio Recording Techniques I
- MUM5654L - Studio Recording Techniques II
- MUM5687L - Audio Mixing Techniques I
- MUM5688L - Audio Mixing Techniques II
- MUM5635L - Digital Music Production
- MUM5946 - Performance Arts Internship
- MUM5745L - Music Management & Production Capstone

All students must complete the M.M credits within one year of receiving the B.M. in Music at FIU.

Other Curricular Offering: Combined BM in Music (major: Music Composition) to BM in Music (major: Music Composition) Accelerated Degree Pathway

Senior Year

In the combined degree pathway students will count up to 12 credits of graduate level courses in both the B.M. and M.M degrees. Students must complete the final oral exit requirement, and Senior Composition Recital (MUS4910 Research). Students must apply for graduation so that they will receive the B.M. at the end of their senior year.

Graduate Program Requirements

All combined degree pathway student graduate credits completed as part of the B.M. will be transferred into the graduate program and counted for completion for the M.M (total 36 credits). No more than 12 credits can be applied to both degrees.

Other Curricular Offering: Combined BM in Music (major: Musical Theatre) to MM in Music (major: Musical Theatre) Accelerated Degree Pathway

Type

Completion Requirement

Year 1 Required Courses

Complete ALL of the following Courses:

- MVV1411 - Major Applied Voice
- TPP1110 - Acting I
- MUS1010 - Recital Attendance
- MUT1111 - Music Theory I
- MUT1221 - Sightsinging I
- MVV1411 - Major Applied Voice
- MUS1010 - Recital Attendance
- MUT1112 - Music Theory II
- MUT1222 - Sightsinging II

Students also must take 2 credits of MUN Ensemble.

Year 2 Required Courses

Complete ALL of the following Courses:

- TPP2111 - Acting II
- MUT2116 - Music Theory III
- MUT2226 - Sightsinging III
- MVV2421 - Major Applied Voice
- MUS1010 - Recital Attendance
- MUT2117 - Music Theory IV
- MUT2227 - Sightsinging IV
- MVV2421 - Major Applied Voice
- MUS1010 - Recital Attendance
- MUO2001L - Musical Theatre Workshop
- MUH2512 - Music Of The World

Students also must take 2 credits of MUN Ensemble.

Year 3 Required Courses

Complete ALL of the following Courses:

- MVV3431 - Major Applied Voice
- MUS3040 - Recital Attendance
- MUM4301 - Business of Music
- MUH3211 - Music History Survey I
- MVK1111L - Class Piano I
- MUG4101L - Basic Conducting
- MVV3431 - Major Applied Voice
- MVK1112L - Class Piano II
- MUS3040 - Recital Attendance
- MUH3212 - Music Hist II
- MVV3970L - Junior Recital Voice

Students also must take 2 credits of MUN Ensemble.

Year 4 Required Courses

In their senior year, students will compete 5000 level courses, the vocal exit requirements, and Senior Recital. Students must apply for graduation so that they will receive the B.M. at the end of their senior year. All students must complete the M.M credits within one year of receiving the B.M. in Music at FIU.

Complete ALL of the following Courses:

- MUH5656C - History of Musical Theatre
- MVV5451 - Major Applied Voice
- MUS1342L - Music Technology Fundamentals
- MVK2121L - Class Piano III
- MUN5648L - Musical Theatre Ensemble
- MUS3040 - Recital Attendance
- MUG4111L - Musical Theatre Conducting
- MVV5651 - Graduate Vocal Pedagogy I
- MVK2122L - Class Piano IV
- MVV5451 - Major Applied Voice
- MUO5007L - Musical Theatre Workshop-Voice
- MUS3040 - Recital Attendance
- MVV4971L - Senior Recital Voice
- DAA1500 - Jazz Dance Technique I
  OR DAA1200 - Ballet Techniques I
  OR DAA5008C - Dance for Musical Theatre
  OR TPP2160 - Theatre Voice and Movement I

Notes: DAA5008C Dance for Musical Theatre has pre-requisites; please see music advisor for two DAA pre-requisites required for this course. TPP2160 Theatre Voice Mov I has a pre-requisite; please see music advisor for pre-requisite access and information.

Year 5 Required Courses

During their fifth year, students will complete 20-23 hours of graduate-level work, including the following:

Complete ALL of the following Courses:

- MVV5451 - Major Applied Voice
- MUN5648L - Musical Theatre Ensemble
- MUS5711 - Music Bibliography
- MUS5906 - Master's Recital
- MUT5629 - Analytical Techniques
- MUH6937 - Special Topics in Music History

Students must also take 1-5 credits of music electives.

Other Curricular Offering: Combined BM in Music (major: Vocal Performance) to MM in Music (major: Vocal Performance) Accelerated Degree Pathway

Type

Completion Requirement

Requirements for Senior Year

Fulfill ALL of the following requirements:

Course Requirements

Complete four 5000-level courses (10 credits)

AND

Senior Recital

Complete ALL of the following Courses:

- MVV4971L - Senior Recital Voice

AND

Application for Graduation

Students must apply for graduation so that they will receive the B.M. at the end of their senior year.

Requirements for the Fifth Year

Complete ALL of the following Courses:

- MVV5451 - Major Applied Voice
- MVV5652 - Graduate Vocal Pedagogy II
- MUO5505 - Opera Workshop
- MUS5711 - Music Bibliography
- MUH6937 - Special Topics in Music History
- MUS5906 - Master's Recital

Students also must complete MUN 5XXX Elective Ensemble (2 semesters/1credit each).

Additional Comments:

All students ***must*** complete the M.M credits within one year of receiving the B.M. in Music at FIU.

MUSIED:MS - Master of Science in Music Education

Overview

Degree Offered
MS - Master of Science

Program Title
Music Education

The Master of Science (MS) in Music Education program at the Wertheim School of Music is an immersive experience, providing students with personalized mentorship and guidance to unlock their full potential as educators and musicians. Students engage in hands-on learning, cutting-edge research, and dynamic ensemble experiences that will expand and enrich their capacity. Music Education students will discover a myriad of opportunities, from collaborating with talented peers to participating in innovative projects that bridge theory and practice.

For more information, visit the College of Communication, Architecture, and the Arts website.

Admissions Requirements

Admissions Requirements for Music Education Major

To be admitted into the program, a student must:

(1) Hold a bachelor’s degree in music from an accredited university or college;

(2) Have a ‘B’ (3.0) average or higher in all junior and senior year course work for the bachelor’s degree;

(3) Exhibit classroom teaching experience;

(4) Submit two (2) letters of recommendation, a writing sample, and a video of classroom teaching;

(5) Complete an interview with music education faculty in place of an applied audition.

Admission Requirements for Music Education: Certification Major

To be admitted into the major, a student must:

(1) Hold a bachelor’s degree in music from an accredited university of college;

(2) Have a ‘B’ (3.0) average or higher in all junior and senior year course work for the bachelor’s degree;

(3) Show passing scores on all portions of the Florida Department of Education General Knowledge Exam;

(4) Submit two (2) letters of recommendation and a writing sample;

(5) Complete an interview with music education faculty in place of an applied audition.

Program Requirements

Specific requirements for Music Education Major and Music Education: Certification Major are listed under **Major Requirements**.

Major Requirements

Music Education Major

The Music Education Major is a research-oriented program designed for practicing music educators.

Music Education Major Credit Hours: 30

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Music Education: 12 Credits

Complete ALL of the following Courses:

- MUE6938 - Seminar in Music Education
- MUE6815 - Psychological Foundations of Music Behavior
- MUE6785 - Research in Music Education
- MUE6190 - Curriculum and Policy Design in Music Education

AND

Music Courses/Common Core: 6 Credits

Complete ALL of the following Courses:

- MUT5629 - Analytical Techniques
  OR MUT5051 - Graduate Theory Survey

Graduate Music History Elective (3 credits)

AND

Personal Focus Courses: 9 Credits

Complete the following courses:
General Electives/Cognate Area (9 credits)

AND

Research: 3 Credits

Complete ALL of the following Courses:

- MUE6910 - Directed Research

Thesis Option:

Students may opt to extend their program by adding MUE6971 Thesis Music Ed (2-6 credits) to their MS in Music Education.

Music Education: Certification Major

The Music Education: Certification Major is a professional education degree designed for those who have studied music and wish to become a licensed music educator.

Music Education: Certification Major Credit Hours: 35

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Music Education: 9 Credits

Complete ALL of the following Courses:

- MUE6938 - Seminar in Music Education
- MUE6815 - Psychological Foundations of Music Behavior
- MUE6190 - Curriculum and Policy Design in Music Education

AND

Music Courses/Common Core: 6 Credits

Complete ALL of the following Courses:

- MUT5629 - Analytical Techniques
  OR MUT5051 - Graduate Theory Survey

Graduate Music History Elective (3 credits)

AND

Personal Focus Courses: 14 Credits

Complete ALL of the following Courses:

- MUE6316 - Instruction in Elementary Music
- MUE6396 - Music in Special Education
- RED5339 - Subject - Related Reading

- TSL5361C - TESOL for Secondary Teachers

MUE 5XXX/5XXX - Instruction in Secondary Instrumental/Choral Music (2 credits)

AND

Capstone Experience: 6 Credits

Complete ALL of the following Courses:

- MUE5945 - Practicum: Music Ed

*The culminating project for this degree is a full-time teaching internship within MUE5945 Practicum: Music Ed. Completion of the degree and passing the Florida Department of Education Professional Knowledge and Music Subject Area exams will ensure students meet the eligibility requirements to apply to the FLDOE for a Florida Professional Teaching Certificate .

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

MUSMS:CFE - Graduate Certificate in Museum Studies

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Museum Studies

The Certificate in Museum Studies prepares students for professional employment in museums and historic sites. The program offers graduate-level courses appropriate for those intersted in museum careers. It is designed to give a broad overview of museum history, as well as a solid grounding in museological theory and practice. Two core courses and an internship are required. This certificate program is open to both degree- and nondegree seeking students.

For more information, visit the College of Communication, Architecture, and the Arts website.

Degree Offered
BA - Bachelor of Arts

Program Title
Natural and Applied Sciences

The Bachelor of Arts (BA) in Natural and Applied Sciences offers an interdisciplinary science, technology, engineering, and mathematics (STEM) education tailored to students' diverse interests. The innovative curriculum integrates coursework across multiple science departments, providing a strong foundation in the natural sciences, applied sciences, and quantitative methods. Graduates are prepared for careers in fields such as health advocacy, research, or data analytics, or to pursue graduate and professional studies in medicine, engineering, or other STEM areas. The program seeks self-motivated students excited to take an integrative, cross-disciplinary approach in addressing real-world challenges through the applied sciences.

For more information, visit the College of Arts, Sciences, and Education website.

Requirements

Simple Requirements

Admissions Requirements

See general university admission requirements at admissions.fiu.edu.

Program Requirements

The primary version of the Natural & Applied Sciences major offers a flexible degree that requires students to take 30 hours of upper-division coursework within CASE and other FIU colleges or schools as appropriate. A 3-credit capstone course helps students choose a pathway to a career or postgraduate education.

Common Prerequisites

No specific courses required; all students transferring from Florida community colleges are encouraged to complete the Associate in Arts degree.

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Upper Division

Type

Completion Requirement

Degree Program Credit Hours: 120

Students must take 21 credits of 3000- or 4000-level courses distributed in the areas below (in special cases, exceptions may be made for the more challenging lower division science courses).

With assistance from the Natural and Applied Sciences CASE advisors, students build a concentration relevant to their future career or post-BA educational goals. Some courses may require prerequisites and labs.

Fulfill ALL of the following requirements:

Required Courses: 30

All courses in the major must be completed with a grade of “C” or better.

For a full listing of applicable specific courses within the categories and department fields below, consult the Interdisciplinary Studies program advising sheets at http://liberalstudies.fiu.edu/.

Students will take 21 hours of upper-level STEM courses, across these following areas:

Fulfill ALL of the following requirements:

Physical Sciences

Choose courses from any of the following: Astronomy, Chemistry, Earth Sciences, Geology, Systemic Geography, Meteorology, General and Chemical Oceanography, Physics, Physical Sciences courses.

In addition, IDS3212 Science and Global Life may also be taken to fulfill this requirement.

Earn at least 6 credits

AND

Life and Health Sciences

Choose courses from any of the following: Biology, Botany, Biochemistry, Process Biology, Biological Oceanography, Environmental Science, Entomology, Health Information Management, Health Sciences (HSC3537 Medical Terminology) and (HSC4553 Fundamentals Of Path), Human Nutrition, Occupational Therapy, Public Health, Science Education, Zoology courses.

In addition, IDS3189 Global Public Health Develop and IDS4232 Sustainability in Action may also be taken to fulfill this requirement.

Earn at least 6 credits

AND

Applied Sciences

Choose courses from any of the following: Building Construction, Biomedical Engineering, Computer Applications, Civil Construction Engineering, Computer Design Architecture, Computer Engineering, Computer General Studies, Civil Engineering, Computer Science, Computer Networks, Computer Theory, Computer Programming, Computer Technology and Skills, Civil Water Resources, Engineering Science, Electrical

Engineering, Engineering Support, Industrial Engineering, Materials Engineering, Mechanical and Chemical Engineering, Environmental Engineering, Geography Information Science, Interdisciplinary Computing, Calculus, Discrete Mathematics, Mathematics Education, Applied Mathematics, Algebraic Structures, Statistics courses.

In addition, IDS3214 Our Coastal Environment and IDS4174 Math/Philosophy in Arts may also be taken to fulfill this requirement.

Earn at least 6 credits

AND

Expertise Focus

An additional course, in consultation with a program advisor, to build upon subject-matter expertise in any of the areas listed above.

Earn at least 3 credits

Other Degree Requirements: 12 credits

Fulfill ALL of the following requirements:

Communication in STEM

A 3000/4000 level course with the following prefix: ENC, COM, SPC, or IDS4949 Internship in LS/IDS

Earn at least 3 credits

AND

Capstone and Professional Development

Complete ALL of the following Courses:

- IDS3073 - Understanding Your Liberal Studies Major
- IDS4890 - Interdisciplinary Studies Capstone: Applying Knowledge

**IDS3073 Understand Lib Stud Major to be taken at least three semesters before the intended last semester before graduation. This course positions students for success in a self-designed, interdisciplinary, non-career-aligned major as they pursue an individualized and focused program of study.*

**IDS4890 IDS Capstone to be taken at least one semester before the semester of anticipated graduation to solidify degree focus and prepare for post-baccalaureate career or advanced degrees. A comparable course may be used as a substitute.*

Major Requirements

Major in Computer Science and Biology

This is an alternative to the primary major with coursework focused on interdisciplinary of computer science and biology. Students will be provided with foundational background in both disciplines, followed by an integrated curriculum that explicitly pursues problems involving interdependencies between disciplines, communication across disciplines, and modern interdisciplinary topics and trends.

Major in Computer Science and Biology

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Lower Division

Complete ALL of the following Courses:

- MAC1147 - Pre-Calculus Algebra and Trigonometry
- COP2047 - Python Programming I
- CAP2757 - Introduction to Data Science
- BSC2010 - General Biology I
  AND BSC2010L - General Biology I Lab
- BSC2011 - General Biology II: Diversity of Life, Organismal Structure and Function
  AND BSC2011L - General Biology Lab II
- STA2023 - Statistical Methods
- IDS2916 - Vertically Integrated Projects - A

AND

Upper Division

Complete ALL of the following Courses:

- COP3045 - Python Programming II
- COP3538 - Data Structures Fundamentals
- COT3100 - Discrete Structures
- COP3410 - Computational Thinking
- CAI4002 - Artificial Intelligence
- PCB3043 - Ecology
- PCB3063 - Genetics
- IDS3917 - Vertically Integrated Projects - B
- IDS4918 - Vertically Integrated Projects - C

AND

Electives (CS)

Complete at least 1 of the following courses:

- CAP4830 - Fundamentals of Modeling & Simulations
- COP4534 - Algorithm Techniques
- CIS4203 - Principles and Practices of Digital Forensics Science
- COT4521 - Introduction to Computational Geometry
- CGS3095 - Technology in the Global Arena
- CAI4304 - Natural Language Processing

AND

Electives (BIO)

Students may take any 3-credit 3000/4000 level Biology course with prefix BCH, BOT, BSC, ENY, MCB, OCB, PCB, ZOO. Below is a list of recommended courses

Complete at least 1 of the following courses:

- PCB4462C - Introduction to Landscape Ecology with GIS
- BSC4422 - Biotechnology: Applications in Industry, Agriculture and Medicine
- BSC4401 - Principles of Forensic Biology
- BSC4443 - Functional Genomics and Proteomics
- PCB4561 - Epigenetics
- PCB4674 - Evolution
- PCB4663 - General Human Genetics
- ZOO4781 - Sensory Systems in Neurobiology
- BSC3400 - Wildlife Conservation, Forensic and Crime Science
- OCB4711 - Fisheries Science
- PCB4932 - Topics in Ecology

Students must take at least two additional BIO labs beyond those listed in lower and upper division requirements. Accompanying labs in elective courses can be used to satisfy this requirement.

Major in Computer Science and Psychology

This is an alternative to the primary major with coursework focused on the interdisciplinary of computer science and psychology. Students will be provided with foundational background in both disciplines, followed by an integrated curriculum that explicitly pursues problems involving interdependencies between disciplines, communication across disciplines, and modern interdisciplinary topics and trends.

Major in Computer Science and Psychology

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Lower Division

Complete ALL of the following Courses:

- MAC1147 - Pre-Calculus Algebra and Trigonometry
- COP2047 - Python Programming I
- CAP2757 - Introduction to Data Science
- PSY2012 - Introductory Psychology
- STA2023 - Statistical Methods
- IDS2916 - Vertically Integrated Projects - A

AND

Upper Division

Complete ALL of the following Courses:

- COP3045 - Python Programming II
- COP3538 - Data Structures Fundamentals
- COT3100 - Discrete Structures
- COP3410 - Computational Thinking
- IDS3917 - Vertically Integrated Projects - B
- IDS4918 - Vertically Integrated Projects - C

AND

Psychology Areas

PSY Area A* - Cognitive Neuroscience Course

PSY Area B* - Social Science Course

PSY Area D* - Clinical Psychology Course

PSY Area E* - Developmental Psychology Course

AND

Electives (CS)

Students must take one of the following courses:

Complete at least 1 of the following courses:

- CEN3721 - Introduction to Human-Computer Interaction
- CIS4203 - Principles and Practices of Digital Forensics Science
- CAI4304 - Natural Language Processing
- CAI4203 - Introduction to Deep Learning
- COP4534 - Algorithm Techniques

Students must take three additional credits of any 3000/4000 level PSY course with prefix CLP, CYP,DEP, EAB,EXP, INP,PSB, PPE,PSY, SOP

Second Major in Medical Sciences

This track lets students in sciences or humanities build medical knowledge and skills, preparing for med school or another health-related career. Students complete pre-medical requirements as part of a second major, complementing the first major of their choice.

Second Major Credit Hours

Type

Completion Requirement

Common Prerequisites: 31-33 credits

Complete ALL of the following Courses:

- BSC2010 - General Biology I

AND BSC2010L - General Biology I Lab
- BSC2011 - General Biology II: Diversity of Life, Organismal Structure and Function
  AND BSC2011L - General Biology Lab II
- CHM1045 - General Chemistry I
  AND CHM1045L - General Chemistry Lab I
- CHM1046 - General Chemistry II
  AND CHM1046L - General Chemistry Lab II
- CHM2210 - Organic Chemistry I
  AND CHM2210L - Organic Chemistry Lab I
- CHM2211 - Organic Chemistry II
  AND CHM2211L - Organic Chemistry Lab II
- MAC2311 - Calculus I
  OR STA3111 - Statistics I
- MAC2312 - Calculus II
  OR STA3112 - Statistics II
  OR STA3123 - Statistics for Behavioral and Social Sciences II

BOT1010 Introduction to Plants and BOT1010L Introduction to Plants Lab may be used as a substitute for BSC2011 General Biology II and BSC2011L Gen Biology Lab II

PHY2048 Physics W/Calculus I or PHY2053 Physics W/O Calc I and PHY2048L General Phys Lab I may be used as a substitute for CHM2210 Organic Chem I and CHM2210 Organic Chem I

PHY2049 Physics W/Calc II or PHY2054 Physics W/O Calc II and PHY2049L General Phys Lab II may be used as a substitute for CHM2211 Organic Chem II and CHM2211L Organic Chem Lab II

Students who plan to apply for a graduate health program will need to take BSC2011 General Biology II and BSC2011L Gen Biology Lab II.

Students must select a course **not** already taken as Common Prerequisite. For example, if student took PHY2048 Physics W/Calculus I and PHY2048L General Phys Lab I as a common prerequisite, they should take CHM2210 Organic Chem I and CHM2210L Org Chem Lab ICHM 2210L for the Physical Science requirement.

Second Major Required Courses: 39-40 credits

Fulfill ALL of the following requirements:

Physical Sciences: 12-13 credits

Complete ALL of the following Courses:
- CHM2210 - Organic Chemistry I
  AND CHM2210L - Organic Chemistry Lab I
- CHM2211 - Organic Chemistry II
  AND CHM2211L - Organic Chemistry Lab II
- BCH3033 - General Biochemistry
  OR CHM4304 - Biological Chemistry I

PHY2048 Physics W/Calculus I or PHY2053 Physics W/O Calc I and PHY2048L General Phys Lab I may be used as a substitute for CHM2210 Organic Chem I and CHM2210 Organic Chem I

PHY2049 Physics W/Calc II or PHY2054 Physics W/O Calc II and PHY2049L General Phys Lab II may be used as a substitute for CHM2211 Organic Chem II and CHM2211L Organic Chem Lab II

Students must select a course **not** already taken as Common Prerequisite. For example, if student took PHY2048 Physics W/Calculus I and PHY2048L General Phys Lab I as a common prerequisite, they should take CHM2210 Organic Chem I and CHM2210L Org Chem Lab I for the Physical Science requirement.

AND

Life and Health Sciences: 9 credits

Complete ALL of the following Courses:

- PCB3702 - Intermediate Human Physiology
  OR PCB3703 - Human Physiology I
  OR PCB4724 - Comparative Physiology
- PCB3063 - Genetics
- PCB4023 - Cell Biology

AND

Communication in STEM

Select any 3000/4000 level with the following prefix: ENC, COM, SPC

Earn at least 3 credits

AND

Capstone/Professional Development: 6 credits

Complete ALL of the following Courses:

- IDS4890 - Interdisciplinary Studies Capstone: Applying Knowledge
- IDS4949 - Internship in Liberal Studies/Interdisciplinary Studies

IDS4890 IDS Capstone is to be taken at least one semester before the semester of anticipated graduation to solidify degree focus and prepare for post-baccalaureate career or advanced degrees. A comparable course may be used as a substitute.

Other research, internship or a professional development credit-earning opportunity may be used as a substitute for IDS4949 Internship in LS/IDS.

AND

Expertise Focus

An additional three (3) credits from any of the areas above and six (6) credits in any 3000/4000 level course with the following prefix: PSY, SOP, DEP, CLP, EXP, PSB, SYG, SYO, SYA, SYP

Earn at least 9 credits

Major in Computer Science and Marine Science

This is an alternative to the primary major with coursework focused on interdisciplinary of computer science and marine sciences. Students will be provided with foundational background in both disciplines, followed by an integrated curriculum that explicitly pursues problems involving interdependencies between disciplines, communication across disciplines, and modern interdisciplinary topics and trends.

Major in Computer Science and Psychology

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Lower Division

Complete ALL of the following Courses:

- MAC1147 - Pre-Calculus Algebra and Trigonometry
- COP2047 - Python Programming I
- CAP2757 - Introduction to Data Science
- BSC2010 - General Biology I
  AND BSC2010L - General Biology I Lab
- BSC2011 - General Biology II: Diversity of Life, Organismal Structure and Function
  AND BSC2011L - General Biology Lab II
- STA2023 - Statistical Methods
- IDS2916 - Vertically Integrated Projects - A

AND

Upper Division

Complete ALL of the following Courses:

- COP3045 - Python Programming II
- COP3538 - Data Structures Fundamentals
- COT3100 - Discrete Structures
- COP3410 - Computational Thinking
- CAI4002 - Artificial Intelligence
- PCB3043 - Ecology
  AND PCB3043L - Ecology Lab
- PCB3063 - Genetics
  AND PCB3063L - Genetics Lab
- OCB3043 - Marine Biology and Oceanography
- IDS3917 - Vertically Integrated Projects - B
- IDS4918 - Vertically Integrated Projects - C

AND

Elective (CS)

Complete at least 1 of the following courses:

- CAP4830 - Fundamentals of Modeling & Simulations
- COP4534 - Algorithm Techniques
- CIS4203 - Principles and Practices of Digital Forensics Science
- COT4521 - Introduction to Computational Geometry
- CGS3095 - Technology in the Global Arena
- CAI4304 - Natural Language Processing
- CDA4625 - Introduction to Mobile Robotics

AND

Electives (MARINE)

Students may take any 3-credit 3000/4000 level Biology courses with prefix BCH,BOT,BSC,ENY,MCB,OCB,PCB,ZOO. Below is a list of recommended courses.

Complete ALL of the following Courses:

- ZOO3205C - Invertebrate Zoology
- BOT4402 - Marine Botany
- OCB4303 - Biology of Marine Mammals
- ZOO4454 - Fish Biology
- PCB4723 - Animal Physiology
- PCB4776 - Physiological and Behavioral Ecology of Marine Animals
- OCB4070 - Coastal Marine Conservation
- OCB3264 - Coral Reef Biology
- OCB4633 - Marine Community Ecology
- PCB4414 - Behavioral Ecology
- OCB4711 - Fisheries Science
- PCB4467C - Marine Protected Areas
- PCB4401 - Global Change Ecology: How humans changed the face of Earth
- OCB4104C - Field Methods in Marine Ecology
- OCB4004 - Biological Oceanography at Sea I
- BSC4473C - Introduction to Scientific Diving
- OCB3075C - Mariculture for Conservation and Restoration
- PCB4553 - General Population Genetics

Requirements

Simple Requirements

Admissions Requirements

Note that students can only enroll in the online professional certificate cohort if invited to join the Intelligence Fellowship workforce development program. Both degree-seeking and non-degree seeking students can apply to the Intelligence Fellowship Program. The department will only enroll students directly into courses for the online professional certificate.

This is certificate is open to both degree-seeking and non-degree-seeking students.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

(1) A total of 18 credit hours of undergraduate course work with a grade of "C" or higher. Courses must come from the approved UCNSS course listing or be approved by the certificate advisor. Courses may include those in the student’s departmental major, but must also be selected from at least two disciplines outside the student’s departmental major. With the approval of the Director, courses other than those listed herein may be substituted on a case by case basis.

(2) A two-course introductory language sequence at FIU with a grade of "C" or higher. Exemption from this requirement may be obtained through a proficiency examination administered by the FIU Department of Modern Languages. Language courses may not be counted toward the fulfillment of requirement #1 above.

Note*:* Intermediate-high on the ACTFL exam (1-plus on the US government scale) can normally be attained by students with two undergraduate semesters of basic language instruction and at least one undergraduate semester of intermediate (3000/4000) instruction. Attainment of the required language proficiency is the responsibility of the student, and extra courses to achieve the required proficiency level must be taken outside the UCNSS curriculum.

Program Credit Hours: 18

Type

Completion Requirement

Skill Requirement: 3 credits

Complete at least 1 of the following courses:

- POS4784 - Analytic Writing in Political Science
- ISS4385 - Effective Governmental Communication
- INR3134 - Writing for Intelligence and National Security

Core Requirements

Fulfill ALL of the following requirements:

Core Requirement Part I: 3 credits

Complete at least 1 of the following courses:

- ISS4364 - Introduction to Structured Analytic Methods
- GIS3048 - Applications of Geographic Information Systems
- SYA3300 - Research Methods
- CCJ4700 - Research Methods and Analysis

AND

Core Requirement Part II: 3 credits

Complete at least 1 of the following courses:

- INR3061 - Conflict, Security and Peace Studies in INR
- INR3081 - Contemporary International Problems
- INR3102 - American Foreign Policy
- INR3303 - Foreign Policymaking
- INR4335 - Strategic Studies and National Security
- ISS3222 - Special Topics in Foreign Policy

National Security Studies: 3 credits

Complete at least 1 of the following courses:

- ISS3130 - Fundamentals of National Security
- INR3133 - Intelligence and National Security

Electives: 6 credits

Select ***two*** of the following courses:

Fulfill ANY of the following requirements:

Business, Finance & Management

Complete ANY of the following Courses:

- FIN4651 - Latin American Financial Markets and Institutions
- MAN4660 - Business in Latin America
- MAN4930 - Special Topics in Management (Inactive)
- MAN4613 - International Risk Assessment
- MAN4702 - Emergency and Disaster Management (Inactive)
- MAN4930 - Special Topics in Management (Inactive)
- SCM4291 - Global Logistics

OR

Criminal Justice

Complete ANY of the following Courses:

- CJE3110 - Policing in Society
- CCJ4641 - Organized Crime
- DSC4012 - Terrorism and Homeland Security
- CJE4174 - Comparative Criminal Justice Systems
- CJL4064 - Criminal Justice and the Constitution

OR

Economics

Complete ANY of the following Courses:

- ECO3203 - Intermediate Macroeconomics
- ECO4400 - Economics of Strategy and Information
- ECP3123 - Economics of Poverty
- ECS3013 - Introduction to Economic Development
- ECS3200 - Economics Of Asia
- ECS3402 - The Political Economy of South America
- ECS3403 - Economics of Latin America
- ECO3703 - International Economics
- ECS4011 - Development Economics I
- ECS4014 - Development Economics II
- ECO4701 - World Economy
- ECO4704 - International Trade Theory and Policy

- INR4232 - International Relations of China
- INR4204 - Comparative Foreign Policy
- INR4273 - The International Relations of Iran and the Persian Gulf
- INR4411 - The Laws of War

OR

Religious Studies

Complete ANY of the following Courses:

- ASN4510 - Dynamics Of Asia
- ASN5315 - Topics in Modern Asia
- REL3148 - Religion and Violence
- REL3170 - Ethics in World Religion
- REL2300 - Religions of the World
- REL3310 - Introduction to Asian Religions
- REL3367 - Islamic Faith and Society
- REL3443 - Liberation Theology (Inactive)
- REL3672 - Religion and Society in Israel/Palestine
- REL4351 - Religion and Japanese Culture (Inactive)
- REL4370 - African Religions

OR

Forensics

Complete ANY of the following Courses:

- CHS2500 - Survey of Forensic Science
- CHS4503C - Forensic Science

OR

Interdisciplinary Social Sciences

Complete ANY of the following Courses:

- ISS3280 - Canadian Government, Politics and Policy
- ISS3940 - Interdisciplinary Social Sciences - Public Policy Internship
- ISS3214 - Fundamentals of Globalization
- ISS4930 - Topics in Globalization

OR

Global and Sociocultural Studies

Complete ANY of the following Courses:

- ANT3212 - World Ethnographies
- ANT3451 - Anthropology of Race and Ethnicity
- ANT4332 - Latin America
- ANT4340 - Caribbean Cultures
- ANT4352 - African Peoples and Cultures
- ANT4343 - Cuban Culture and Society
- ANT4477 - Area Studies (Inactive)
- SYD4237 - Immigration and Refugees
- SYD4630 - Latin American and Caribbean Societies
- SYO4300 - Political Sociology

- SYO4530 - Social Inequalities
- SYP3300 - Social Movements and Collective Action
- SYP3456 - Societies in the World
- SYP3520 - Crime & Society

NMEDAUA:CF - Graduate Certificate in Core Clinical Clerkships

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate Core Clinical Clerkships

The Graduate Certificate in Core Clinical Clerkships program offers clinical training to qualified third-year medical students from qualified, approved foreign medical schools through established contractual partnerships. To be admitted to the certificate program, applications must be reviewed and approved by the program's admissions committee. Students rotate through six clinical core disciplines under the supervision of a preceptor who is licensed and has expertise in their respective specialties and have been approved by a peer committee at HWCOM and at sites that have an MOU with FIU.

The clinical rotations include internal medicine (twelve weeks), family medicine (six weeks), obstetrics and gynecology (six weeks), surgery (twelve weeks: eight weeks of core and four weeks of elective in surgery), psychiatry (six weeks), and pediatrics (six weeks) for a total of 48 weeks.

Prior to the program's start date, students must attend a mandatory orientation and fulfill all the requirements as approved by FIU. At each orientation, the program's leaders and administrators introduce themselves, and the program's expectations, policies, and regulations are reviewed with the students. After orientation, students receive a student handbook that includes students' professional expectations and the program guidelines and policies.

For more information, visit the Herbert Wertheim College of Medicine website.

Admissions Requirements

This certificate is open only to qualified third-year medical students from qualified, approved foreign medical schools through established contractual partnerships. To be admitted to the certificate program, applications must be reviewed and approved by the program's admissions committee. Students who enroll in the program have non-degree-seeking status.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Program Credit Hours: 48

Type

Completion Requirement

Required Courses

Students complete six clinical clerkships in these disciplines: internal medicine (12 weeks), family medicine (6 weeks), obstetrics and gynecology (6 weeks), surgery (12 weeks), psychiatry (6 weeks), and pediatrics (6 weeks) for a total of 48 weeks.

Complete ALL of the following Courses:

- MDC7200 - Internal Medicine Clerkship
- MDC7120 - Family Medicine Clerkship
- MDC7180 - Obstetrics and Gynecology Clerkship
- MDC7600 - Surgery Clerkship
- MDC7830 - Psychiatry Clerkship
- MDC7400 - Pediatrics Clerkship

Students are supervised by faculty members who are licensed and have expertise in their respective specialties. Performance is evaluated at the bedside and in other clinical settings.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

NSCMLT:CFI - Graduate Certificate in National Security and Military Law

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in National Security and Military Law

The National Security and Military Certificate Program seeks to provide graduate-level instruction in the field of National Security and Military Law. Specifically, the Certificate Program will provide law students with in-depth study and training in issues directly related to national security, like the sources of national security powers, the law associated with intelligence collection, proceedings involving classified evidence, the Foreign Intelligence Surveillance Court, and domestic responses to emergencies. The Certificate Program will also allow students to study emerging fields that implicate national security, like artificial intelligence, cyber security, drones, human trafficking, and resource competition. Further, the Certificate Program will provide students with in-depth study on legal issues involving the military, like the American military justice system, the initiation of armed conflict, the use of force within conflict, and the treatment of non-combatants.

Admissions Requirements

Applicants who are not degree-seeking at Florida International University, can be either enrolled in an American Bar Association (ABA) accredited Juris Doctorate program in good academic standing or have completed the JD Degree at an ABA accredited institution.

Applicants who are enrolled at the Florida International University Juris Doctorate Program, must be in good academic standing.

This certificate is open to both degree-seeking and non degree-seeking students.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Requirements include a credit minimum of 15 graduate credits, including 6 credits from two required courses, and at least 9 credits from elective courses. In addition, students must earn a GPA of 2.7 over their law school career, as well as a GPA of 3.0 in the courses on the National Security and Military Law course list.

Program Credit Hours: 15

Type

Completion Requirement

Required Courses

Earn a minimum G.P.A. of 3.0 in the following:

- LAW6507 - National Security Law and the Constitution
- LAW6741 - Military Justice

Elective Courses

Students may earn 5 out of 9 of the elective credits from the related course list.

Fulfill ANY of the following requirements:

Elective Courses

Earn at least 9 credits from the following:

- LAW6730 - Admiralty Law
- LAW6743 - Veterans Law
- LAW6291 - Aviation and Space Law
- LAW6742 - Law of Armed Conflict

OR

Related Courses

Complete course(s) and earn up to 5 credits from the following:

- LAW6520 - Administrative Law
- LAW6302 - Federal Courts
- LAW6263 - International Human Rights Law
- LAW6103 - International Criminal Law
- LAW7475 - Ocean and Coastal Law
- LAW6880 - Artificial Intelligence and the Law
- LAW7707 - Cybersecurity and Privacy Law
- LAW6471 - Environmental Law
- LAW6506 - Foreign Relations and National Security Law
- LAW6821 - Law, Science, and Technology
- LAW6267 - Refugee and Asylum Law

The Program Director may approve related courses for credit toward certification requirements from the other departments or schools at FIU, and, for visiting students, may approve equivalent elective courses taken at other accredited institutions.

NURAN:DNP - Doctor of Nursing Practice - Nurse Anesthesia

Overview

Degree Offered
DNP - Doctor of Nursing Practice

Program Title
Nurse Anesthesiology

The Doctor of Nursing Practice in Nurse Anesthesiology (DNP-NA) degree program is designed to prepare students to become Certified Registered Nurse Anesthetists (CRNAs) to safely administer anesthetics to patients in hospitals, surgical centers, physicians' offices, and other healthcare settings. The program focuses on developing advanced competencies in evidence-based practice, leadership, healthcare policy, technology integration, innovation, and interprofessional collaboration to improve anesthesia practice. The curriculum emphasizes the application of research to clinical practice, leveraging technological advancements to transform healthcare delivery and enhance patient care. Graduates will be eligible to take the National Certification Examination to become a Certified Registered Nurse Anesthetist (CRNA), as well as apply for the Advanced Registered Nurse Practitioner (ARNP) credential with a specialization as a nurse anesthetist from the Florida Board of Nursing. For more information, visit the Nicole Wertheim College of Nursing and Health Sciences website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Doctor of Nursing Practice (DNP)

Application Process

Applicants must complete the following steps in order to be considered for admission:

STEP 1 – Submit an application to Nursing CAS (the Centralized Application Service for Nursing Programs)

(1) Complete an online application via Nursing CAS http://www.nursingcas.org and pay the appropriate fee to Nursing CAS.

(2) Complete the required FIU supplemental application and pay the $30 fee. The direct link to the supplemental application may be found in the Anesthesiology Nursing Program website.

(3) Send official transcripts from ALL SCHOOLS attended (all Associates & Bachelors degree coursework) to Nursing CAS for upload and verification.

(4) Upload all required supplemental items including three (3) professional nursing references, professional CV, copy of an active Florida RN License, and Personal Statement to Nursing CAS.

STEP 2 – Professional Interview

(1) Following a review of all completed applications a select number of applicants will be offered the opportunity to participate in a panel interview. The program Admissions Committee makes final recommendations for admission.

Admissions Requirements for the Post-BSN-to-DNP Nurse Anesthesiology

Admission to the Post-BSN-to-DNP Nurse Anesthesiology program is competitive. It is based on evaluations of the applicant's abilities, past performance, recommendations, and match of FIU's DNP program goals with the applicant's professional practice goals. In addition to the general FIU graduate admission requirements, applicants to the DNP-NA Program must meet the following requirements:

(1) Successful completion of all the admission requirements for graduate education at Florida International University, the Nicole Wertheim College of Nursing and Health Sciences, and the Department of Nurse Anesthesiology (DNP-NA).

(2) Baccalaureate or Graduate degree in Nursing (BSN, MSN, DNP) from a National League for Nursing Accrediting Commission (NLNAC) or the Commission on Collegiate Nursing Education (CCNE) accredited nursing program and from an accredited institution.

(3) Cumulative undergraduate GPA of 3.0 or greater on a 4.0 scale and a minimum GPA of 3.0 for upper division coursework (UG 60).

(4) An unencumbered license as a registered professional nurse and/or an APRN in the United States or its territories or protectorates. Out-of-state students must obtain a license to practice in Florida before starting clinical rotations in the third program semester.

(5) An applicant must be actively employed as a registered nurse in a critical care setting at the time of application submission with a minimum of 1-year full-time work experience, or its part-time equivalent. The applicant must have developed as an independent decision-maker capable of using and interpreting advanced monitoring techniques based on knowledge of physiological and pharmacological principles. Critical care experience must be obtained in a critical care area within the United States, its territories, or a US military hospital outside the United States within the most recent five years of the date of application. A critical care area is defined as one where, on a routine basis, the registered professional nurse manages one or more of the following: invasive hemodynamic monitors (e.g., pulmonary artery, central venous pressure, and arterial catheters), cardiac assist devices, mechanical ventilation, and vasoactive infusions. Examples of critical care units may include but are not limited to: surgical intensive care, cardiothoracic intensive care, coronary intensive care, medical intensive care, pediatric intensive care, and neonatal intensive care. Those who have experiences in other areas may be considered, provided they can demonstrate competence with managing unstable patients, invasive monitoring, ventilators, and critical care pharmacology.

(6) Certification as a Direct Care Critical Care Registered Nurse (CCRN-Adult, Pedi, Neonatal)

(7) Completion of the NWCNHS DNP-NA Program Application.

(8) Essay (500 words)

(9) Three professional (not academic) recommendations, such as from an employment supervisor, charge nurse, manager, or medical director, who may attest to clinical performance.

(10) Curriculum Vitae.

((11) Successful personal interview with the DNP-NA admissions committee.

Program Requirements

Academic Standing

Good Standing: To achieve and maintain the classification of good standing, the student must maintain a minimum G.P.A. of 3.0 in the courses required for the MSN and DNP degrees. Full-time enrollment is required in Nurse Anesthesiology Program.

Progression in the Program

The Florida Board of Nursing and clinical agencies require the disclosure of conviction records for misdemeanors and/or felonies; therefore, this information will be required at the time of application. Applicants are required to submit to criminal background checks and drug testing. Expenses associated with background checks and drug testing (including repeat testing) are the responsibility of the student. Findings may affect a student's ability to participate in clinical experiences and complete the program, and/or obtain advanced licensure/ certification.

The student must maintain a cumulative GPA of 3.0 in required graduate courses with a minimum of a "B" (85%) in all courses.

If a student earns less than an 85 in any course, the course must be repeated and earn a grade of "85" or better. If this course is a pre-requisite to a subsequent course, the student will not be allowed to enroll in that subsequent course until satisfactory completion of the pre-requisite course is achieved but may be allowed to enroll in other courses if applicable to the program. Only one-course repeat in the program will be allowed. Therefore, a student who earns a grade below 85 in more than one course will be dismissed from the program.

Students may not have a cumulative GPA below 3.0 for more than two semesters. If the cumulative GPA is below 3.0 for a third semester, the student will be dismissed.

BSN-to-DNP Anesthesiology Nursing Program students are not allowed to fail clinical residency courses as a clinical failure is an immediate program dismissal.

A student will be dismissed from the **BSN-to-DNP Anesthesiology Nursing Program** if he or she fails two didactic courses or one clinical resident course. Voluntary withdrawal or withdrawal with cause from any didactic or clinical course in the curriculum plan will be considered a failed course attempt. No more than two attempts are allowed for any didactic course, one attempt on a clinical course, regardless of withdrawals, and/or failures, as the timeline for degree completion is four years.

DNP Scholarly Project

The DNP Scholarly Project is a program culminating with an evidence-based scholarly project which unfolds in a 3 - course series that provides the DNP students with mentored opportunities to identify, develop, implement, evaluate, and disseminate an independent, analytic scholarly project within the domain of advanced nursing practice. DNP students enter the DNP Scholarly Project series upon successful completion of all established DNP coursework and are required to submit a formal proposal, obtain approval by the DNP Project Team, submit and obtain approval from the Institutional Review Board (IRB), implement and evaluate their respective evidence based scholarly project commensurate with doctoral education during this course series. A successful public presentation of scholarly project outcomes and defense is also required. Enrollment in the DNP Scholarly Project Course series, NGR7940C DNP Project I, NGR7941C DNP Project II, NGR7942C DNP Project III, NGR7943 DNP Project Completion (with a minimum of 1 credit), provides eligibility for DNP students to be considered "enrolled half- time equivalent" to meet financial aid qualification.

Notice Regarding Changes to Catalog Programs, Policies, Requirements, and Regulations

The programs, policies, requirements, and regulations listed in this catalog are continually subject to review in order to serve the needs of the University's and College's various publics and to respond to the mandates of the Florida Department of Education, Board of Governors, the Legislature, and other regulatory and accrediting agencies. Changes may be made without advance notice. Please refer to the General Information section for the University's policies, requirements, and regulations. Please refer to the College's website for updated information in nursing.

Requirements for the Post-BSN-to-DNP Nurse Anesthetist Program

The Doctorate of Nursing Practice – Nurse Anesthetist requires the completion of all required courses and clinical experience requirements and a Quality Improvement Project. DNP-NA students will be expected to progress in their plan of study and demonstrate satisfactory attainment of course objectives and terminal program competencies. All course work must be completed with a minimum grade of “B” or “Pass” for non-letter grade courses. Clinical performance in residency must be evaluated at a satisfactory level and completed with a minimum letter grade of “B.” The Quality Improvement Project must be approved by the DNP Project Committee. A successful public presentation and defense of the DNP Project is also required.

Post-BSN-to-DNP Nurse Anesthesiology Program

- NGR7716C - Fundamentals of Clinical Education

Graduation Requirements

To be eligible for graduation the student must:

(1) Meet all University Graduate School requirements for graduation.

(2) Satisfactorily complete all didactic and fieldwork requirements within degree program guidelines.

(3) Have a minimum graduate GPA of 3.0 in the degree required courses.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

NURHS:PHD - Doctor of Philosophy in Nursing and Health Sciences

Overview

Degree Offered
PHD - Doctor of Philosophy

Program Title
Nursing and Health Sciences

The PhD in Nursing & Health Sciences at the Florida International University Nicole Wertheim College of Nursing & Health Sciences is cultivating the next generation of nursing and health sciences leaders who will create and apply the evidence-based science necessary to guide the future of nursing and health sciences practice, education, and research.

We also graduate leaders who advocate for the development and application of healthcare policies to address the needs of our society at every level, especially for minority and vulnerable populations.

Our distinguished faculty create a collaborative and challenging environment coupled with a stimulating and creative research experience for students through a curriculum combining evidence-based practice, cutting-edge science and diverse clinical proficiencies.

The FIU PhD in Nursing and Health Science program fully prepare graduates for leadership roles and research careers in academia, the healthcare industry, government entities, and other public and private organizations focused on the delivery of healthcare services.

A doctorate from FIU Nursing and Health Sciences will greatly expand career opportunities, providing the scientific foundation and leadership skills to shape the standards of nursing and health sciences' practice and education, contribute to the growth of our health scholars' community, and advocate for improved healthcare delivery.

Degrees & Programs

FIU Nursing and Health Sciences offers research-focused doctorate majors to prepare you as a leader in the health academia, industry, conduct breakthrough research, influence health policy, and more through an individualized course of study under the mentorship of research-active faculty.

Nursing Major: BSN-to-PhD

This plan of study is for students who demonstrate outstanding undergraduate academic accomplishment and an intentional desire to advance their nursing education to its highest level (PhD).

Nursing Major: MSN-to-PhD

This plan of study is for students who have already obtained a master's degree in nursing.

Health Sciences Major: HSc-to-PhD

This plan of study is for students who have already obtained a master's or doctoral degree in a health science discipline such as Occupational Therapy, Physical Therapy, Communication Sciences and Disorders, or Athletic Training.

Admissions Requirements

Admissions Requirements for the MSN to PhD Program

A prospective student must meet all admission requirements stipulated in the University's Graduate Policies and Procedures. Additional requirements are as follows:

(1) A master's degree in nursing from an accredited institution.

(2) A master's program grade point average (GPA) of 3.0/4.0 or higher.

(3) Curriculum Vitae

(4) Three letters of recommendation from academic and professional references.

(5) Applicants whose native language is not English, must meet the FIU University Graduate School English-Language proficiency requirements (TOEFL. IELTS, Duolingo, ENC 1101 and ENC 1102, AA or BA from a U.S. school). Please note that this applies to all applicants with foreign MD credentials except English Proficiency Test Exempt Countries.

(6) A statement of the applicant's goals for pursuing the PhD degree in nursing. This statement must be typed, double-spaced, in a narrative format of no more than 500 words, using Times New Roman or Arial 12 Font.

(7) Current Registered Nurse (RN) licensure or RN licensure with Advanced Registered Nurse Practitioner (APRN) certification in the State of Florida if applicable. The license must remain current throughout the program. Registered Nurse (RN) licensure in Florida is waived for international students.

(8) Current professional liability insurance. The graduate student must maintain liability insurance throughout the program.

(9) A satisfactory interview by members of the College's Doctoral Program Admissions Committee. The Committee will examine the credentials of all applicants.

Admissions Requirements for the BSN to PhD Program

Prospective student must meet all admissions requirements stipulated in the University's Graduate Policies and Procedures. Additional requirements are as follows:

(1) An overall undergraduate GPA of 3.0 on a 4.0 scale.

(2) Curriculum Vitae

(3) Demonstrated computer proficiency in word processing and electronic library searches

(4) Applicants whose native language is not English, must meet the FIU University Graduate School English-Language proficiency requirements (TOEFL. IELTS, Duolingo, ENC 1101 and ENC 1102, AA or BA from a U.S. school). Please note that this applies to all applicants with foreign MD credentials except English Proficiency Test Exempt Countries.

(5) Three letters of recommendation from academic and professional references.

(6) A statement of the applicant's goals for pursuing the Ph.D. degree in nursing. This statement must be typed, double-spaced, in a narrative format of no more than 500 words, using Times New Roman or Arial 12 Font.

(7) Current Registered Nurse (RN) licensure in the State of Florida. License must remain current throughout the program.

(8) Current professional liability insurance. The graduate student must maintain liability insurance throughout the program.

(9) A satisfactory interview by members of the College's Doctoral Program Admissions Committee. The Committee will examine the credentials of all applicants.

Admissions Requirements for the Health Sciences Major

As a prospective student to the health sciences major of the PhD in Nursing and Health Sciences program at Florida International University, you must meet all admission requirements stipulated in the Graduate Catalog, in addition to the admission requirements specific to the doctoral program.

Requirements and Instructions as an applicant with domestic HSc credentials:

(1) Complete required online FIU Application -and pay appropriate fee to FIU Graduate School

(2) A minimum of a master's degree in a health sciences discipline or related field (e.g., Occupational Therapy, Physical Therapy, Communication Sciences and Disorders, or Athletic Training) from an accredited institution.

(3) Submit official transcripts from ALL SCHOOLS attended for college credit (all associate and bachelor's degree coursework) for review and verification. EXCEPTION: Graduates with foreign HSc credentials see section below.

(4) Submit three (3) letters of recommendation from academic and/or professional references.

(5) Submit a professional CV.

(6) Submit a statement of the applicant's goals for pursuing the Ph.D. degree in Nursing and Health Sciences. This statement must be typed, double-spaced, in a narrative format of no more than 500 words.

(7) A satisfactory interview by members of the College's Doctoral Program Admissions Committee. The Committee will examine the credentials of all applicants.

Requirements and instructions as an applicant with foreign HSc credentials:

In Addition to the requirements listed earlier for applicants with domestic HSc you must:

(1) Turn into FIU Graduate School

(2) Professional Transcript Evaluation and Translation for educational purposes with U.S. Equivalent Grades, Credits & GPA from a member of the National Association of Credential Evaluation Services.

(3) Applicants, whose native language is not English, must meet the University Graduate School English-language proficiency requirements.

(4) Comply with all requirements as per International Student & Scholar Services, if applicable.

Application Process

Applicants must complete the following steps in order to be considered for admission:

(1) Complete two on-line applications as indicated include all identified supporting documents to these.

--Complete the FIU NWCNHS-PhD Application for Admission via NursingCAS (The Centralized Application Service for Nursing Programs) at **https://nursingcas.liaisoncas.com/applicant-ux/#/login**.

--Complete a graduate admissions application online available at **https://admissions.fiu.edu/how-to-apply/graduate-applicant/index.html**

(2) Request an official transcript of records from each college or university attended for undergraduate and graduate work. Transcripts must be sent to both 1) FIU, Office of Admissions, P.O. Box 659004, Miami, Florida 33265-9004 and 2) uploaded to your NursingCAS profile.

(3) Submit the required documents (transcripts, FIU University Graduate School English-Language proficiency requirements, letters of recommendation, statement of goals, RN licensure, liability insurance) for admission evaluation. The application and required documents do not have to be sent to the University Graduate Admissions Office or the College Admissions Office as one package; however, all required documents MUST be received on or before the deadline date.

(4) The application file must be complete before the College's Doctoral Program Committee will consider the applicant for admission. The application and supporting documents must be received on or before June 1 for Fall admission. If the application and supporting documents are not received by the appropriate deadline, the application will be considered for admission for the following term.

Program Requirements

General Degree Requirements

(1) Achievement of an overall cumulative GPA of 3.0 or above. A cumulative GPA of less than 3.0 will place the student on probation per University Graduate School policy 380.044.

(2) Removal of all conditions, deficiencies, and incomplete grades. With the exception of doctoral dissertation courses, students are expected to register for courses with letter grades. Credit hours for courses in which the grade is "B-" or below will not count toward satisfying graduate degree requirements.

(3) Complete curriculum components as outlined by the individual plan of study and the Nicole Wertheim College of Nursing and Health Sciences.

(4) Student is expected to complete the dissertation five (5) years from the date of advancement to candidacy (i.e., successful completion of written and oral examinations, favorable recommendation of supervisory/guidance committee, and an approved dissertation proposal.

(5) All requirements must be completed within nine years of first enrollment in the doctoral program.

MSN to PhD Program

The MSN to PhD program requires completion of 60 credit hours of coursework and dissertation credits. The program can be completed in 4 years of full-time study.

The program requires completion of the following courses: A research sequence (1 course on knowledge development, 2 courses in research methods and design, 2 courses in statistics, and 2 courses on grantsmanship); research in health care for multicultural, diverse and vulnerable populations; academic, health care and political systems: function, structure, leadership and survival; accessing, managing, and packaging information; and a minimum of 2 cognate courses in a specific knowledge area.

Examinations

A student must successfully complete the following written examination and oral defenses in partial fulfillment of requirements for the Ph.D. degree in Nursing and Health Sciences:

(1) Candidacy Examination: The purpose of the Candidacy Examination is to demonstrate the student's ability to 1) synthesize knowledge in the student's research (substantive and methods) and cognate areas; 2) visualize the long-term development of a program of research in the defined area; and 3) place the planned Dissertation research in the context of that program of research and the area of knowledge. Upon successfully passing the written and oral Candidacy Examination and completing all required coursework, the student is admitted to Dissertation Candidacy. The Candidacy Examination is held after completion of course work requirements as represented in the student's Plan of Study, and prior to the Defense of the Dissertation Proposal.

(2) Dissertation Proposal Defense: The proposal defense must be completed after the student has identified the major substantive and methodological issues of the research problem and the proposal is written in excellent form. The Proposal should consist of:

--An introduction to research problem, with a statement of the research question or hypothesis;

--A review of relevant literature sufficient to provide context for the research problem as well as a review of literature focused on the specific question to be examined;

--A description of the research methods to be utilized in answering the research question, including a complete definition of the data to be collected and extant data bases that could be used; and

--A list of references.

(3) The proposal oral defense must be successfully completed and approved by the Dissertation Committee prior to the defense of the dissertation.
Dissertation Defense: All Committee members must preliminarily approve the Dissertation document before the student can apply for Dissertation Defense. By their signatures, Committee members certify that the Dissertation is ready for Defense.

The student should consult with his/her Chairperson on the format and the time parameters of the oral Defense. After the Committee determines that the Defense was successful, the student should obtain signatures of all Committee members on the required form. Students should become familiar with the Nicole Wertheim College of Nursing and Health Sciences Policies and Procedures at **http://cnhs.fiu.edu/** and the University Graduate School's regulations and deadlines at **http://gradschool.fiu.edu**.

Major Requirements

MSN to PhD Program Credit Hours: 60

Type

Completion Requirement

Core Knowledge: 12 credits

Complete ALL of the following Courses:

- NGR6123 - Knowledge Development in Nursing Science
  OR IHS6516 - Knowledge Development in Health Sciences
- NGR7736 - Academic Health Care and Political Systems: Function, Structure Leadership and Survival.
  OR IHS7212 - Academic Health Care and Political Systems: Function, Structure Leadership and Survival
- NGR7830 - Research in Health Care for Multicultural Diverse and Vulnerable Populations
  OR IHS7512 - Research in Health Care for Multicultural Diverse and Vulnerable Populations
- NGR7873 - Accessing, Managing and Packaging Information
  OR IHS7509 - Accessing, Managing and Packaging Information

Research Methods and Design: 9 credits

Complete ALL of the following Courses:

- NGR6800 - Advanced Nursing Research Methods I: Design and Sampling
- NGR6801 - Advanced Nursing Research Methods II: Measurement and Dissemination
- NGR6815 - Qualitative Methods

Statistics: 6 credits

Complete ALL of the following Courses:

- NGR6851 - Empirical Evidence for Clinical Research and Practice II
- NGR6857 - Empirical Evidence for Clinical Research and Practice III

Graduate Level Cognate Electives: 6 credits

Electives by advisement.
Students recommended to take NGR6850 Clin Research Evidence I if no Statistics has been taken in the last 3 years.

Candidacy Examination: 3 - 9 credits

Complete ALL of the following Courses:

- NGR7982 - Candidacy Examination

Dissertation: 18 credits

Complete ALL of the following Courses:

- NGR7980 - Dissertation I

BSN to PhD Program

The BSN to PhD program builds on student's general nursing knowledge and skills at the baccalaureate level and provides a course of study for advanced nursing practice at the master's level. The curriculum includes master's level courses designed to prepare students for advanced practice roles and provide the foundation from which students can engage in a program of intellectual inquiry at the doctoral level. Students can choose from five advanced practice roles. Clinical focus: Adult-Gero Primary Care Nurse Practitioner, Family Nurse Practitioner, Pediatric Primary Care Nurse Practitioner, Psychiatric Mental Health Nurse Practitioner or a Nonclinical focus: Nurse Educator. If a student in the BSN-PhD track desires specialty certification (e.g., adult nurse practitioner), all required course work and clinical practice must be completed for that clinical specialty. Students on this track will receive the MSN degree upon completion of their required courses as outlined on their individual plan of study. The program can be completed in 4 ½ - 5 years of full-time study.

The BSN- PhD in Nursing program requires a minimum of 91 credits, including 12 credits of MSN core, 10 credits of APN (Advanced Practice Nursing) core; 12-16 credits of nursing specialty or 16 credits of Nurse Educator core; 4 credits of role development; 12 credits of core knowledge (scientific inquiry & nursing science, cultural competence in research), 6 credits of statistics, 9 credits of advanced research methods, 6 credits of grantsmanship, 6 credits of graduate level cognate electives, and a minimum of 18 credit hours of dissertation.

BSN to PhD Program Credit Hours: Minimum 94

Type
Completion Requirement

MSN Core: 12 credits

Complete ALL of the following Courses:

- NGR5110 - Theories in Nursing
- NGR5131 - Culture and Advanced Nursing Practice
- NGR5810 - Research Methods in Nursing
- NGR6910C - Research Project

APN Core: 10 credits

Complete ALL of the following Courses:

- NGR5141 - Pathophysiologic Basis of Advanced Nursing Practice
- NGR6002C - Advanced Health Assessment
- NGR6172 - Pharmacology and Pharmacotherapeutics in Advanced Nursing Practice

Nurse Educator Specialty: 16 credits

Complete ALL of the following Courses:

- NGR6713 - Curriculum Development in Nursing
- NGR6714C - Clinical Teaching Strategies for Nursing
- NGR6715 - Instructional Technology in Nursing and Health Sciences
- NGR6718 - Testing and Evaluation in Nursing Education
- NGR6708C - Classroom Teaching Strategies for Nursing
- NGR6710L - Clinical Specialty Practicum for the Nurse Educator

Clinical Nursing Specialty: 12- 16 credits

AGPCNP/PPCNP/PMHNP/FNP clinical program courses.
Family Nurse Practitioner (FNP) and Nurse Anesthesia tracks require greater than 12 clinical track credits to meet accreditation and certification requirements for clinical contact hours.

Role Development: 4 credits

Complete ALL of the following Courses:

- NGR6700L - Role Synthesis in Advanced Adult-Gerontology Nursing Practice
  OR NGR6337L - Role Synthesis in Advanced Child Health Nursing Practice
  OR NGR6505L - Role Synthesis in Advanced Psychiatric-Mental Health Nursing Practice
  OR NGR6619L - Role Synthesis in Advanced Family Health Nursing Practice

Core Knowledge: 12 credits

Complete ALL of the following Courses:

- NGR6123 - Knowledge Development in Nursing Science
  OR IHS6516 - Knowledge Development in Health Sciences
- NGR7736 - Academic Health Care and Political Systems: Function, Structure Leadership and Survival.
  OR IHS7212 - Academic Health Care and Political Systems: Function, Structure Leadership and Survival
- NGR7830 - Research in Health Care for Multicultural Diverse and Vulnerable Populations
  OR IHS7512 - Research in Health Care for Multicultural Diverse and Vulnerable Populations

- NGR7873 - Accessing, Managing and Packaging Information
  OR IHS7509 - Accessing, Managing and Packaging Information

Statistics: 6 credits

Complete ALL of the following Courses:

- NGR6851 - Empirical Evidence for Clinical Research and Practice II
- NGR6857 - Empirical Evidence for Clinical Research and Practice III

Research Methods and Design: 9 credits

Complete ALL of the following Courses:

- NGR6800 - Advanced Nursing Research Methods I: Design and Sampling
- NGR6801 - Advanced Nursing Research Methods II: Measurement and Dissemination
- NGR6815 - Qualitative Methods

Grantsmanship: 6 credits

Complete ALL of the following Courses:

- NGR6917 - Grantsmanship I
- NGR6918 - Grantsmanship II

Graduate Level Cognate Electives: 6 credits

Electives by advisement.
Students recommended to take NGR6850 Clin Research Evidence I if no Statistics has been taken in the last 3 years.

Candidacy Examination: 3-9 credits

Complete ALL of the following Courses:

- NGR7982 - Candidacy Examination

Dissertation: 18 credits

Complete ALL of the following Courses:

- NGR7980 - Dissertation I

HSc to PhD Program

The HSc to PhD program requires completion of 60 credit hours of coursework and dissertation credits (with 15 graduate credits being transferred in from previous degree). The program can be completed in 4 years of full-time study.

The program requires completion of the following courses: A research sequence (1 course on knowledge development, 2 courses in research methods and design, 2 courses in statistics, and 2 courses on grantsmanship); research in health care for multicultural, diverse and vulnerable populations; academic, health care and political systems: function, structure, leadership and survival; accessing, managing, and packaging information; and a minimum of 2 cognate courses in a specific knowledge area.

HSc to PhD Program Credit Hours: 60 (with 15 graduate credits being transferred in from previous degree)

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

NURS:DNP - Doctor of Nursing Practice

Overview

Degree Offered
DNP - Doctor of Nursing Practice

Program Title
Nursing Practice

The Doctor of Nursing Practice (DNP) degree program is designed to prepare nursing students for the highest level of clinical nursing practice, incorporating cutting-edge elements of technology and innovation. The program focuses on developing advanced competencies in evidence-based practice, leadership, healthcare policy, technology integration, innovation, and interprofessional collaboration to improve healthcare outcomes. The curriculum emphasizes the application of research to clinical practice, leveraging technological advancements to transform healthcare delivery and enhance patient care. Graduates are equipped to assume roles as nurse practitioners, clinical nurse specialists, nurse administrators, and healthcare leaders in various settings.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Doctor of Nursing Practice (DNP)

Application Process

Applicants must complete the following steps in order to be considered for admission:

STEP 1 – Submit an application to Nursing CAS (the Centralized Application Service for Nursing Programs)

(1) Complete an online application via Nursing CAS http://www.nursingcas.org and pay the appropriate fee to Nursing CAS.

(2) Complete the required FIU supplemental application and pay the $30 fee. The direct link to the supplemental application may be found in the Anesthesiology Nursing Program website.

(3) Send official transcripts from ALL SCHOOLS attended (all Associates & Bachelors degree coursework) to Nursing CAS for upload and verification.

(4) Upload all required supplemental items including three (3) professional nursing references, professional CV, copy of an active Florida RN License, and Personal Statement to Nursing CAS.

STEP 2 – Professional Interview

(1) Following a review of all completed applications a select number of applicants will be offered the opportunity to participate in a panel interview. The program Admissions Committee makes final recommendations for admission.

Admissions Requirements for the Post-Masters-to-DNP program

Admission to the DNP Program is competitive and is based on evaluations of the applicant's abilities, past performance, recommendations and match of FIU's DNP Program goals with the applicant's professional practice goals. In addition to the general FIU graduate admission requirements, applicants to the DNP Program must meet the following requirements:

(1) Completed Master of Science in Nursing (preferred) or Master's Degree related discipline (e.g., MPH, MBA, etc.) from an accredited institution (preferably CCNE or ACEN) with minimum cumulative GPA of 3.25.

(2) Current licensure with no restrictions as an APRN or RN in your state of residence;

(3) Completion CNHS DNP Program Application;

(4) Essay (500 words) addressing desired focus and areas of interest for practice in DNP program;

(5) Three (3) professional recommendations describing the applicant's ability to be successful in a DNP program;

(6) Curriculum Vitae;

(7) Successful personal Interview with the Graduate Admissions Committee.

Admissions Requirements for the Post-BSN-to-DNP Adult-Gerontology Primary Care Nurse Practitioner-MSN/DNP

(1) Successful completion of all the admission requirements for graduate education at Florida International University and the Nicole Wertheim College of Nursing and Health Sciences.

(2) Cumulative undergraduate GPA of 3.0 or greater on a 4.0 scale (CUM GPA is a calculation inclusive of all academic coursework including courses at the community college level.)

(3) UG 60 GPA of 3.0 or greater in Bachelor of Nursing upper division coursework.

(4) Current State of Florida RN license. Out-of-state students must obtain a license to practice in Florida prior to admission.

(5) Baccalaureate degree in Nursing (BSN) from a program accredited by the Commission on Collegiate Nursing Education (CCNE) or by the Accreditation Commission for Education in Nursing (ACEN) formerly known as the National League for Nursing Accrediting Commission (NLNAC). Applicants from Programs without such accreditation will be considered on an individual basis.

(6) Completion of all admission paperwork including the NursingCAS application, a written essay, Recommendations, and Curriculum Vitae

(7) Essay (500 words) addressing desired focus and areas of interest for practice in The Post-BSN-to-DNP program.

(8) Three (3) professional recommendations describing ability to be successful in a MSN-DNP program.

(9) Curriculum Vitae.

(10) Successful personal Interview with The Post-BSN-to-DNP admissions committee.

In order to advance to the DNP Scholarly Project course series component of this track, students must meet the following requirements upon conferral of MSN degree:

(1) Maintain good academic standing as defined in the FIU Student Handbook

(2) Current licensure with no restrictions as an APRN in your state of residence;

(3) Proof of Advanced Practice Specialty National Board Certification in the specialty of conferred MSN (i.e., AGNP, FNP, PNP, PMHNP)

Admissions Requirements for the Post-BSN-to-DNP Pediatric Primary Care Nurse Practitioner-MSN/DNP

(1) Successful completion of all the admission requirements for graduate education at Florida International University and the Nicole Wertheim College of Nursing and Health Sciences.

(2) Cumulative undergraduate GPA of 3.0 or greater on a 4.0 scale (CUM GPA is a calculation inclusive of all academic coursework including courses at the community college level).

(3) UG 60 GPA of 3.0 or greater in Bachelor of Nursing upper division coursework.

(4) Current State of Florida RN license. Out-of-state students must obtain a license to practice in Florida prior to admission.

(5) Baccalaureate degree in Nursing (BSN) from a program accredited by the Commission on Collegiate Nursing Education (CCNE) or by the Accreditation Commission for Education in Nursing (ACEN) formerly known as the National League for Nursing Accrediting Commission (NLNAC). Applicants from Programs without such accreditation will be considered on an individual basis.

(6) Completion of all admission paperwork including the NursingCAS application, a written essay, Recommendations, and Curriculum Vitae

(7) Essay (500 words) addressing desired focus and areas of interest for practice in Post-BSN-to-DNP program.

(8) Three (3) professional recommendations describing ability to be successful in a MSN-DNP program.

(9) Curriculum Vitae.

(10) Successful personal Interview with the Graduate Admissions Committee.

In order to advance to the DNP Scholarly Project course series component of this track, students must meet the following requirements upon conferral of MSN degree:

(1) Maintain good academic standing as defined in the FIU Student Handbook

(2) Current licensure with no restrictions as an APRN in your state of residence;

(3) Proof of Advanced Practice Specialty National Board Certification in the specialty of conferred MSN (i.e., AGNP, FNP, PNP, PMHNP)

Admissions Requirements for the Post-BSN-to-DNP Family Nurse Practitioner- MSN/DNP

(1) Successful completion of all the admission requirements for graduate education at Florida International University and the Nicole Wertheim College of Nursing and Health Sciences.

(2) Cumulative undergraduate GPA of 3.0 or greater on a 4.0 scale (CUM GPA is a calculation inclusive of all academic coursework including courses at the community college level.)

(3) UG 60 GPA of 3.0 or greater in Bachelor of Nursing upper division coursework.

(4) Current State of Florida RN license. Out-of-state students must obtain a license to practice in Florida prior to admission.

(5) Baccalaureate degree in Nursing (BSN) from a program accredited by the Commission on Collegiate Nursing Education (CCNE) or by the Accreditation Commission for Education in Nursing (ACEN) formerly known as the National League for Nursing Accrediting Commission (NLNAC). Applicants from Programs without such accreditation will be considered on an individual basis.

(6) Completion of all admission paperwork including the NursingCAS application, a written essay, Recommendations, and Curriculum Vitae

(7) Essay (500 words) addressing desired focus and areas of interest for practice in Post-BSN-to-DNP program.

(8) Three (3) professional recommendations describing ability to be successful in a MSN-DNP program.

(9) Curriculum Vitae.

(10) Successful personal Interview with Graduate Admissions Committee.

In order to advance to the DNP Scholarly Project course series component of this track, students must meet the following requirements upon conferral of MSN degree:

(1) Maintain good academic standing as defined in the FIU Student Handbook

(2) Current licensure with no restrictions as an APRN in your state of residence;

(3) Proof of Advanced Practice Specialty National Board certification in the specialty of conferred MSN (i.e., AGNP, FNP, PNP, PMHNP)

Admissions Requirements for the Post-BSN-to-DNP Psychiatric-Mental Health Nurse Practitioner-MSN/DNP

(1) Successful completion of all the admission requirements for graduate education at Florida International University and the Nicole Wertheim College of Nursing and Health Sciences.

(2) Cumulative undergraduate GPA of 3.0 or greater on a 4.0 scale (CUM GPA is a calculation inclusive of all academic coursework including courses at the community college level.)

(3) UG 60 GPA of 3.0 or greater in Bachelor of Nursing upper division coursework.

(4) Current State of Florida RN license. Out-of-state students must obtain a license to practice in Florida prior to admission.

(5) Baccalaureate degree in Nursing (BSN) from a program accredited by the Commission on Collegiate Nursing Education (CCNE) or by the Accreditation Commission for Education in Nursing (ACEN) formerly known as the National League for Nursing Accrediting Commission (NLNAC). Applicants from Programs without such accreditation will be considered on an individual basis.

(6) Completion of all admission paperwork including the NursingCAS application, a written essay, Recommendations, and Curriculum Vitae

(7) Essay (500 words) addressing desired focus and areas of interest for practice in the Post-BSN-to-DNP program.

(8) Three (3) professional recommendations describing ability to be successful in a MSN-DNP program.

(9) Curriculum Vitae.

(10) Successful personal Interview with the Graduate Admissions Committee.

In order to advance to the DNP Scholarly Project course series component of this track, students must meet the following requirements upon conferral of MSN degree:

(1) Maintain good academic standing as defined in the FIU Student Handbook

(2) Current licensure with no restrictions as an APRN in your state of residence;

(3) Proof of Advanced Practice Specialty National Board Certification in the specialty of conferred MSN (i.e., AGNP, FNP, PNP, PMHNP)

Program Requirements

Academic Standing

Good Standing: To achieve and maintain the classification of good standing, the student must maintain a minimum G.P.A. of 3.0 in the courses required for the MSN and DNP degrees.

Progression in the Program

The Florida Board of Nursing and clinical agencies require the disclosure of conviction records for misdemeanors and/or felonies; therefore, this information will be required at the time of application. Applicants are required to submit to criminal background checks and drug testing. Expenses associated with background checks and drug testing (including repeat testing) are the responsibility of the student. Findings may affect a student's ability to participate in clinical experiences and complete the program, and/or obtain advanced licensure/ certification.

The student must maintain a cumulative GPA of 3.0 in required graduate courses with a minimum of a "B" (85%) in all courses.

If a student earns less than an 85 in any course, the course must be repeated and earn a grade of "85" or better. If this course is a pre-requisite to a subsequent course, the student will not be allowed to enroll in that subsequent course until satisfactory completion of the pre-requisite course is achieved but may be allowed to enroll in other courses if applicable to the program. Only one-course repeat in the program will be allowed. Therefore, a student who earns a grade below 85 in more than one course will be dismissed from the program.

Students may not have a cumulative GPA below 3.0 for more than two semesters. If the cumulative GPA is below 3.0 for a third semester, the student will be dismissed.

DNP Scholarly Project

The DNP Scholarly Project is a program culminating with an evidence-based scholarly project which unfolds in a 3 - course series that provides the DNP students with mentored opportunities to identify, develop, implement, evaluate, and disseminate an independent, analytic scholarly project. DNP students enter the DNP Scholarly Project series upon successful completion of all established DNP coursework and are required to submit a formal proposal, obtain approval by the DNP Project Team, submit and obtain approval from the Institutional Review Board (IRB), implement and evaluate their respective evidence-based scholarly project commensurate with doctoral education during this course series. A successful public presentation of scholarly project outcomes and defense is also required. Enrollment in the DNP Scholarly Project Course series, NGR7940C DNP Project I, NGR7941C DNP Project II, NGR7942C DNP Project III, provides eligibility for DNP students to be considered "enrolled half- time equivalent" to meet financial aid qualification.

Notice Regarding Changes to Catalog Programs, Policies, Requirements, and Regulations

The programs, policies, requirements, and regulations listed in this catalog are continually subject to review in order to serve the needs of the University's and College's various publics and to respond to the mandates of the Florida Department of Education, Board of Governors, the Legislature, and other regulatory and accrediting agencies. Changes may be made without advance notice. Please refer to the General Information section for the University's policies, requirements, and regulations. Please refer to the College's website for updated information in nursing.

Graduation Requirements

To be eligible for graduation the student must:

(1) Meet all University Graduate School requirements for graduation.

(2) Satisfactorily complete all didactic and fieldwork requirements within degree program guidelines.

(3) Have a minimum graduate GPA of 3.0 in the degree required courses.

Major Requirements

Requirements for the Post-Masters-to-DNP program

The Doctor of Nursing Practice program requires completion of a minimum of 36 credits (beyond a Master's degree) and a DNP Scholarly Project. DNP students will be expected to progress in their plan of study and demonstrate satisfactory attainment of course objectives and terminal program competencies. All course work must be completed with a minimum grade of “B” or “Pass” for non-letter grade courses. Clinical performance in residency/preceptorship experiences must be evaluated at a satisfactory level and completed with a grade of “Pass.” The DNP Scholarly Project must be approved by the DNP Scholarly Project Team. A successful public presentation and defense of the DNP Scholarly Project is also required.

Post Masters-to-DNP Program

Type

Completion Requirement

Doctoral Nursing Practice Core: 36 credits

Complete ALL of the following Courses:

- NGR7121 - Scientific and Theoretical Foundations for Advanced Nursing Practice
- NGR7769 - Patient Safety and Quality Improvement in Healthcare
- NGR7891 - Healthcare Finance and Economics in Advanced Clinical Practice
- NGR7871 - Healthcare Informatics
- NGR7854 - Analytical Methods for Evidence-Based Clinical Practice
- NGR7892L - Health Policy Practicum
- NGR7733 - Organizational Dynamics of Health Systems
- NGR7853 - Translational Research
- NGR7940C - DNP Project I
- NGR7941C - DNP Project II
- NGR7942C - DNP Project III

NGR7892L Health Policy ***Note:*** 60 Clinical hours

Requirements for the Post-BSN-to-DNP Adult-Gerontology Primary Care Nurse Practitioner-MSN/DNP

The Post-BSN-to-DNP is a program of graduate doctoral study for registered nurses. The Post-BSN-to-DNP program of study builds upon the initial clinical training of entry level nurses prepared at the baccalaureate level. This program will include the study of: advanced specialty practice; systematic practice and program outcome evaluation; application of health information resources; development of safe, equitable, and cost effective health policy; innovation, implementation and evaluation of care delivery models; leadership development in healthcare delivery and clinical expertise for

advanced nursing practice education. Graduates of this program will be eligibility for certification as an Adult-Gerontology Primary Care Nurse Practitioner. The goals of the Post-BSN-to-DNP program are to prepare nurses for leadership roles in a specialized area of advanced nursing practice with an emphasis on: philosophical, ethical, and scientific principles that provide the foundation for leadership in professional nursing care; continued acquisition of knowledge and clinical skills in an area of advanced practice specialization; and leadership and clinical expertise in healthcare delivery, evaluation, quality improvement and advanced practice nursing education.

Requirements

(1) Successful completion of 78 credits in post-BSN-to-DNP program required courses and all specialty clinical experience requirements; as well as satisfactory attainment of specialty program competencies (exit examination) prior to conferral of MSN degree.

(2) Successful completion of a DNP Project public presentation and defense are required for conferral of DNP degree.

(3) Achievement of an overall cumulative GPA of 3.0 or above. See Graduate Catalog in University Graduate School Rules and Regulations for information on Academic Warning, Probation, and Dismissal.

(4) Removal of all conditions, deficiencies, and incomplete grades. Credit hours for courses in which the grade is "B- or below will not count toward satisfying graduate degree requirements.

(5) With the exception of DNP Project courses, students are expected to register for courses with letter grades.

Post-BSN-to-DNP Adult-Gerontology Primary Care Nurse Practitioner Program: 78 total credit hours as outlined below

Type

Completion Requirement

Doctor of Nursing Practice Core: 36 credits

Complete ALL of the following Courses:

- NGR7121 - Scientific and Theoretical Foundations for Advanced Nursing Practice
- NGR7769 - Patient Safety and Quality Improvement in Healthcare
- NGR7891 - Healthcare Finance and Economics in Advanced Clinical Practice
- NGR7871 - Healthcare Informatics
- NGR7854 - Analytical Methods for Evidence-Based Clinical Practice

- NGR7942C - DNP Project III

Advanced Practice Nursing Core: 14 credits

Complete ALL of the following Courses:

- NGR6002C - Advanced Health Assessment
- NGR5141 - Pathophysiologic Basis of Advanced Nursing Practice
- NGR6172 - Pharmacology and Pharmacotherapeutics in Advanced Nursing Practice
- NGR5064C - Diagnostic and Therapeutics in Advanced Nursing Practice
- NGR6743 - Advanced Practice Nursing Clinical Education Seminar

Graduate Nursing Core: 8 credits

Complete ALL of the following Courses:

- NGR5131 - Culture and Advanced Nursing Practice
- NGR5810 - Research Methods in Nursing
- NGR6703 - Role Development of the Advanced Practice Nurse

Adult-Gerontology Primary Care Nurse Practitioner Specialty Credit Hours: 20

Complete ALL of the following Courses:

- NGR6201C - Advanced Adult-Gerontology Nursing I
- NGR6201L - Advanced Adult-Gerontology Nursing Practice I
- NGR6202C - Advanced Adult-Gerontology Nursing II
- NGR6202L - Advanced Adult-Gerontology Nursing Practice II

Requirements for the Post-BSN-to-DNP Pediatric Primary Care Nurse Practitioner-MSN/DNP

The Post-BSN-to-DNP is a program of graduate doctoral study for registered nurses. The Post-BSN-to-DNP program of study builds upon the initial clinical training of entry level nurses prepared at the baccalaureate level. This program will include the study of: advanced specialty practice; systematic practice and program outcome evaluation; application of health information resources; development of safe, equitable, and cost effective health policy; innovation, implementation and evaluation of care delivery models; leadership development in healthcare delivery and clinical expertise for advanced nursing practice education. Graduates of this program will be eligibility for certification as a Pediatric Primary Care Nurse Practitioner. The goals of Post-BSN-to-DNP program are to prepare nurses for leadership roles in a specialized area of advanced nursing practice with an emphasis on: philosophical, ethical, and scientific principles that provide the foundation for leadership in professional nursing care; continued acquisition of knowledge and clinical skills in an area of advanced practice specialization; and leadership and clinical expertise in healthcare delivery, evaluation, quality improvement and advanced practice nursing education.

Requirements

(1) Successful completion of 78 semester credits in post-BSN-to-DNP program required courses and all specialty clinical experience requirements; as well as satisfactory attainment of specialty program competencies (exit examination) prior to conferral of MSN degree.

(2) Successful completion of a DNP Project public presentation and defense are required for conferral of DNP degree.

(3) Achievement of an overall cumulative GPA of 3.0 or above. See Graduate Catalog in University Graduate School Rules and Regulations for information on Academic Warning, Probation, and Dismissal.

(4) Removal of all conditions, deficiencies, and incomplete grades. Credit hours for courses in which the grade is "B- or below will not count toward satisfying graduate degree requirements.

(5) With the exception of DNP Project courses, students are expected to register for courses with letter grades.

Post-BSN-to-DNP Pediatric Primary Care Nurse Practitioner Program- 78 total credit hours as outlined below:

Type

Completion Requirement

Doctor of Nursing Practice Core: 36 credits

Complete ALL of the following Courses:

- NGR7121 - Scientific and Theoretical Foundations for Advanced Nursing Practice
- NGR7769 - Patient Safety and Quality Improvement in Healthcare
- NGR7891 - Healthcare Finance and Economics in Advanced Clinical Practice
- NGR7871 - Healthcare Informatics
- NGR7854 - Analytical Methods for Evidence-Based Clinical Practice
- NGR7892L - Health Policy Practicum
- NGR7733 - Organizational Dynamics of Health Systems
- NGR7853 - Translational Research
- NGR7940C - DNP Project I
- NGR7941C - DNP Project II
- NGR7942C - DNP Project III

Advanced Practice Nursing Core: 14 credits

Complete ALL of the following Courses:

- NGR6002C - Advanced Health Assessment
- NGR5141 - Pathophysiologic Basis of Advanced Nursing Practice
- NGR6172 - Pharmacology and Pharmacotherapeutics in Advanced Nursing Practice
- NGR5064C - Diagnostic and Therapeutics in Advanced Nursing Practice
- NGR6743 - Advanced Practice Nursing Clinical Education Seminar

Graduate Nursing Core: 8 credits

Complete ALL of the following Courses:

- NGR5131 - Culture and Advanced Nursing Practice
- NGR5810 - Research Methods in Nursing
- NGR6703 - Role Development of the Advanced Practice Nurse

Pediatric Primary Care Nurse Practitioner Specialty Credit Hours: 20

Complete ALL of the following Courses:

- NGR6301C - Advanced Child Health Nursing I
- NGR6301L - Advanced Child Health Nursing Practice I
- NGR6302 - Advanced Child Health Nursing II
- NGR6302L - Advanced Child Health Nursing Practice II
- NGR6303 - Advanced Pediatric Primary Care Nursing III
- NGR6303L - Advanced Pediatric Primary Care Nursing Practicum III

Post-BSN-to-DNP Family Nurse Practitioner- MSN/DNP

The Post-BSN-to-DNP is a program of graduate doctoral study for registered nurses. The Post-BSN-to-DNP program of study builds upon the initial clinical training of entry level nurses prepared at the baccalaureate level. This program will include the study of: advanced specialty practice; systematic practice and program outcome evaluation; application of health information resources; development of safe, equitable, and cost effective health policy; innovation, implementation and evaluation of care delivery models; leadership development in healthcare delivery and clinical expertise for advanced nursing practice education. Graduates of this program will be eligibility for certification as a Family Nurse Practitioner. The goals of the Post-BSN-to-DNP program are to prepare nurses for leadership roles in a specialized area of advanced nursing practice with an emphasis on: philosophical, ethical, and scientific principles that provide the

foundation for leadership in professional nursing care; continued acquisition of knowledge and clinical skills in an area of advanced practice specialization; and leadership and clinical expertise in healthcare delivery, evaluation, quality improvement and advanced practice nursing education.

Requirements

(1) Successful completion of 80 credits in post-BSN-to-DNP program required courses and all specialty clinical experience requirements; as well as satisfactory attainment of specialty program competencies (exit examination) prior to conferral of MSN degree.

(2) Successful completion of a DNP Project public presentation and defense are required for conferral of DNP degree.

(3) Achievement of an overall cumulative GPA of 3.0 or above. See Graduate Catalog in University Graduate School Rules and Regulations for information on Academic Warning, Probation, and Dismissal.

(4) Removal of all conditions, deficiencies, and incomplete grades. Credit hours for courses in which the grade is "B- or below will not count toward satisfying graduate degree requirements.

(5) With the exception of DNP Project courses, students are expected to register for courses with letter grades.

Post-BSN-to-DNP Family Nurse Practitioner Program - 80 total credit hours as outlined below:

Type

Completion Requirement

Doctor of Nursing Practice Core: 36 credits

Complete ALL of the following Courses:

- NGR7121 - Scientific and Theoretical Foundations for Advanced Nursing Practice
- NGR7769 - Patient Safety and Quality Improvement in Healthcare

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

NURS:MSN - Master of Science in Nursing

Overview

Degree Offered
MSN - Master of Science in Nursing

Program Title
Nursing

The Master of Science in Nursing (MSN) degree encompasses two majors: Nurse Educator and Generalist Leadership.

The Nurse Educator major is a direct admission program. Graduates are eligible to sit for national certification and is recommended for individuals who plan to teach in academic and/or clinical settings.

The Generalist Leadership major is not a direct admission program but planned to be awarded to Doctor of Nursing Practice - Nurse Anesthetist Program (DNP-NA) students as they progress through their DNP-NA program of study in recognition of meeting certain content milestones.

The following advanced practice specialties are offered as MSN, post-BSN to DNP, post-BSN to PhD, post-graduate certificates and combined degree pathways (RN to BSN/MSN and FEP BSN to MSN):

- Adult-Gerontology Acute Care Nurse Practitioner (MSN or post-graduate certificate only)
- Adult-Gerontology Primary Care Nurse Practitioner
- Family Nurse Practitioner
- Pediatric Primary Care Nurse Practitioner
- Pediatric Acute Care Nurse Practitioner (post-graduate certificate only)
- Psychiatric Mental Health Nurse Practitioner

The Advanced Practice role specialties are found under each of its own catalog sections: Family Nurse Practitioner, Pediatric Primary Care Nurse Practitioner, Psychiatric Mental Health Nurse Practitioner, Adult-Gerontology Primary Care Nurse Practitioner, and Adult-Gerontology Acute Care Nurse Practitioner. Upon completion of these programs, graduates are eligible to sit for certification examinations in their respective specialty areas.

Admissions Requirements for the Master of Science in Nursing

Application Process

Applicants must complete the following steps in order to be considered for admission:

STEP 1 – Submit an application to Nursing CAS (the Centralized Application Service for Nursing Programs)

(1) Complete an online application via Nursing CAS **http://www.nursingcas.org** and pay the appropriate fee to Nursing CAS.

(2) Complete the required FIU supplemental application and pay the $30 fee.

(3) Send official transcripts from **ALL SCHOOLS attended** (all Associates & Bachelors degree coursework) to Nursing CAS for upload and verification. **EXCEPTION:** Foreign transcripts, along with their official evaluations (grades, credits, and GPA in U.S. terms), should be sent directly to the college at the following address: Nicole Wertheim College of Nursing & Health Sciences, AHC-3, Room 121, 11200 S.W. 8th Street, Miami, FL, 33199.

(4) Upload all required supplemental items including three (3) professional nursing references, professional CV, copy of an active Florida RN License, and Personal Statement to Nursing CAS.

STEP 2 – Professional Interview

(1) Following a review of all completed applications a select number of applicants will be offered the opportunity to participate in a panel interview.

(2) Interview candidates may be instructed to bring an additional set of official transcripts to their interview appointment.

Admissions Requirements for the Combined RN to BSN/MSN Accelerated Degree Pathway

- Bachelor of Science in Nursing - RN to BSN/MSN Combined Degree Pathway

Admissions Requirements for the Combined BSN/MSN for Foreign-Educated Physician Accelerated Degree Pathway

Type
Completion Requirement

For description, admissions, completion requirements

Complete ALL of the following Requirement Set:

- Combined BSM/MSN Foreign -Education Physicians Accelerated Pathway

Program Requirements

Program Policies

Nursing students are responsible for transportation expenses related to clinical experiences. They are required to carry health and accident insurance. To safeguard the health of clients, nursing students are required to submit proof of immunizations upon entry to into the nursing program. Students must submit proof of basic cardiopulmonary resuscitation (CPR) certification (American Heart Association) prior to entering clinical courses in the nursing major. This CPR certification must cover the period of enrollment in the degree program.

The College reserves the right to terminate a student from the nursing program for reasons related to the inability to safely carry out professional responsibilities.

Academic Standing

Good Standing: To achieve and maintain a classification of good standing, the student must maintain a minimum G.P.A. of 3.0 in the courses required for the MSN and DNP degrees

Progression in the Program

The student must maintain a cumulative GPA of 3.0 in required graduate courses with a minimum of a "B" (85%) or better in all required courses.

If a student earns less than an 85 in any course, the course must be repeated and earn a grade of “85” or better. If this course is a pre-requisite for another course, the student will not be allowed to continue enrollment for that course and may be allowed to enroll in other courses if applicable to the program. Only one course repeat in the program will be allowed. Therefore, a student who earns a grade below an 85 in more than one course will be dismissed from the program.

Students may not have a cumulative GPA below 3.0 in the courses for more than two semesters. If the cumulative GPA for required coursework is below 3.0 for a third semester, the student will be dismissed from the program.

Graduation Requirements

To be eligible for graduation the student must:

--Meet all University Graduate School requirements for graduation.

--Satisfactorily complete all didactic and fieldwork requirements within degree program guidelines.

--Have a minimum graduate GPA of 3.0 in the degree required courses.

Major Requirements

Master of Science in Nursing – Generalist Leadership Major

This major is not a direct admission program but planned to be awarded to Doctor of Nursing Practice - Nurse Anesthetist Program (DNP-NA) students as they progress through their DNP-NA program of study in recognition of meeting certain content milestones.

The Generalist Leadership major is designed to recognize RN's clinical experience and build upon prior knowledge while focusing on the core knowledge, skills, and abilities that are essential to meet the complexities of advanced health care. The generalist leadership curriculum provides a foundation for the advanced nursing practice – nurse anesthesiology role. The program includes coursework in the following areas: Graduate Nursing Core, Advanced Practice Nursing (APN) Core, and Functional Role Fundamentals - Generalist Leadership.

Generalist Leadership Major

Type

Completion Requirement

Graduate Core: 12 credits

Fulfill ALL of the following requirements:

Theoretical Underpinning and Research Process: 6 credits

Complete ALL of the following Courses:

- NGR7121 - Scientific and Theoretical Foundations for Advanced Nursing Practice
- NGR5810 - Research Methods in Nursing

AND

Applications of Research and Evidence-Based Clinical Practice: 6 credits

Complete ALL of the following Courses:

- NGR7854 - Analytical Methods for Evidence-Based Clinical Practice
- NGR7853 - Translational Research

APN Core: 10 credits

Complete ALL of the following Courses:

- NGR6172 - Pharmacology and Pharmacotherapeutics in Advanced Nursing Practice
- NGR6002C - Advanced Health Assessment
- NGR5141 - Pathophysiologic Basis of Advanced Nursing Practice

Functional Role - Generalist Leadership: 16 credits

Complete ALL of the following Courses:

- NGR5131 - Culture and Advanced Nursing Practice
- NGR6407 - Technology And Physics in Anesthesiology Nursing
- NGR6492 - Professional Aspects of Anesthesiology Nursing
- NGR7769 - Patient Safety and Quality Improvement in Healthcare
- NGR7892L - Health Policy Practicum
- NGR7942C - DNP Project III

Additional Comments:

Degree Requirements (MSN-Generalist Leadership)

The Master of Science – Generalist Leadership major requires successful completion of 40 semester credits in the BSN-to-DNP Nurse Anesthetist program, as outlined in the plan of study. DNP-NA students will be expected to progress in their plan of study and demonstrate satisfactory attainment of course objectives and program competencies. All course work must be completed with a minimum grade of “B” or “Pass” for non-letter grade courses. Conferral of the MSN-Generalist Care Leadership occurs en-route to DNP-Nurse Anesthetist degree. Completion of the MSN-Generalist Leadership alone DOES NOT prepare students to meet educational eligibility requirements to sit for the National Board of Certification and Recertification for Nurse Anesthetist (NBCRNA) National Certification Exam (NCE) nor any other Advanced Practice Registered Nurse (APRN), direct care focus Certification Board examination at the MSN level.

Master of Science in Nursing – Nurse Educator Major

The Nurse Educator Major provides a unique combination of courses to prepare the graduate in the pedagogical competencies essential to teach nursing in an increasingly complex health care environment. The technologically enhanced plan of study builds advanced professional nursing competencies and emphasizes the use of a variety of assessment, instructional, curricular development and evaluative strategies that facilitate learning in culturally diverse populations.

Nurse Educator Major

Type

Completion Requirement

MSN Level Common Core Requirements: 22 credits

Fulfill ALL of the following requirements:

Graduate Nursing Core: 9 credits

Complete ALL of the following Courses:

- NGR5110 - Theories in Nursing
- NGR5131 - Culture and Advanced Nursing Practice
- NGR5810 - Research Methods in Nursing

AND

Advanced Practice Nursing Core - Direct Care Core: 10 credits

- NGR5141 - Pathophysiologic Basis of Advanced Nursing Practice
- NGR6172 - Pharmacology and Pharmacotherapeutics in Advanced Nursing Practice

Nursing Educator Course Requirements: 16 credits

Complete ALL of the following Courses:

- NGR6713 - Curriculum Development in Nursing
- NGR6715 - Instructional Technology in Nursing and Health Sciences
- NGR6714C - Clinical Teaching Strategies for Nursing
- NGR6708C - Classroom Teaching Strategies for Nursing
- NGR6718 - Testing and Evaluation in Nursing Education

- NGR6710L - Clinical Specialty Practicum for the Nurse Educator

Requirements for the Master of Science in Nursing (major: Nurse Executive)

Note: A moratorium has been placed on the Nurse Executive Major .

(1) Completion of 43 semester credits. Minimum of 36-40 credits in nursing and 3-6 credits of non-nursing electives. The non-nursing electives are restricted to supporting courses for the specialty area.

(2) Completion of a thesis (6 credits), a master's paper (3 credits), or a research project (3 credits). Students electing a master's paper or research project must complete an additional three hours of cognate course(s).

(3) Achievement of an overall cumulative GPA of 3.0 or above. See Graduate Catalog in University Graduate School Rules and Regulations for information on Academic Warning, Probation, and Dismissal.

(4) Removal of all conditions, deficiencies, and incomplete grades. Credit hours for courses in which the grade is "B-" or below will not count toward satisfying graduate degree requirements.

(5) With the exception of thesis courses, students are expected to register for courses with letter grades. Electives may be taken as pass/fail subject to the approval of the advisor.

NURSA:BSN - Bachelor of Science in Nursing - Accelerated Option Program

Overview

Degree Offered
BSN - Bachelor of Science in Nursing

Program Title
Nursing

The Bachelor of Science in Nursing (BSN) - Accelerated Option Program is designed for students with a completed baccalaureate degree in another area of study. It prepares students to become professional licensed registered nurses capable of providing high-quality care in a variety of healthcare settings. The program combines rigorous academic coursework in nursing theory and practice with hands-on clinical experiences in diverse healthcare environments. Graduates of the BSN program are well-equipped with the knowledge, affective and psychomotor skills, and competencies necessary to excel in the nursing profession and to meet the healthcare needs of diverse populations.

For more information, visit the Nicole Wertheim College of Nursing and Health Sciences website.

Requirements

Simple Requirements

Admissions Requirements

Specialized Admissions Requirements for the Accelerated Option of the Bachelor of Science in Nursing (BSN)

The Accelerated Option (AO)-BSN degree requires a minimum of 120 credits, comprised of 62 lower division credits transferable from prior baccalaureate or graduate degree, that must include all nursing prerequisites.

A criterion-based point system is used for admission evaluation of applicants to the A.O. BSN program. Contact an advisor for information on the point system. Applicants must apply by the published deadline to be considered for admission. Once a class is filled, there are no deferred admissions. Previous applicants who wish to be considered for admission in the next application cycle must submit a new application, along with any supporting documentation.

Applicants to the Accelerated Option (A.O.) Program must submit an application for admission to the University and must follow the regular University procedures. Applicants must also complete an A.O. college application. Applicants must be admitted to the University before admission to the A.O. nursing major. All admission documents must be submitted, and courses must be completed by the posted college application deadline preceding the admission for A.O. students.

Students interested in the A.O. program should contact the College to make an appointment with the Office of Student Services advisors as early as possible. The College is located on the Modesto A. Maidique Campus, (305) 348-7709, or call the Biscayne Bay Campus (305) 919-4421

The Accelerated Option (A.O.) Program is a specialized admissions status program; and therefore, admission is competitive based on previous academic performance, utilizing a holistic student approach, and additional criteria for entry into the BSN Program. A criterion-based point system is used for the admission evaluation of applicants to the A.O. program.

To be admitted to the A.O. Program, applicants must:

(1) Have earned a baccalaureate degree from an (US Department of Education recognized accrediting agency) accredited college or university with a minimum GPA of 3.0; (62 transferable credits)

(2) Have completed all nursing prerequisites with a minimum of a “C” grade;

(3) Have a minimum GPA of 3.25 for all nursing prerequisites;*

(4) Have completed all required prerequisite science courses within the last 10 years;

(5) Have met entry requirements for computation and reading skills; and

(6) Be recommended for admission by the Undergraduate Nursing Admissions Committee.

Admissions Requirements for Foreign-Educated Physicians (FEPs) Seeking a BSN Degree

Applicants must:

(1) Have a minimum 2.5 cumulative GPA

(2) Have a Doctor of Medicine degree from an accredited medical school outside of the U.S. shown through the completion of a course by course evaluation obtained through a NACES accredited evaluation company (naces.org). Student must provide translations of their Doctor of Medicine transcript from a NACES (naces.org) accredited company. FIU will review all college/university transcripts in-house at no additional charge to students.

(3) Have a minimum of 550 on Paper-Based TOEFL exam, or 80 on the Internet-Based Test (TOEFL), or minimum of 6.5 IELTS band score, or completion of ENC 1101 and 1102 from a regionally accredited college or university. *TOEFL Paper-Based Exam is offered at the FIU English Language Institute (eli.fiu.edu).

(4) Applicant cannot have previously obtained an RN license.

(5) Applicant must apply to FIU Undergraduate Admissions (admissions.fiu.edu), the Nursing AO-BSN Program and Nursing CAS by no later than the posted deadline.

(6) Applicant must have successfully completed the following nursing prerequisites (with grade of ‘C’ or above): statistics, human growth & development across the life span, and human nutrition. Transcripts will be evaluated by NWCNHS.

(7) Applicant must complete all prerequisite courses no later than the SUMMER A term of the year in which they are applying for; bachelor’s degree must be conferred no later than the SPRING term of the year in which they are applying; AND have been completed within the last 10 years. If older than 10 years, they must be repeated.

(8) Applicant must provide a copy of their social security card and ensure they are in compliance with Board of Nursing requirements for licensure.

(9) The Florida Board of Nursing and clinical agencies require the disclosure of arrest and conviction records for misdemeanors and/or felonies; therefore, this information will be required at the time of application. Applicants are required to submit to criminal background checks and drug testing. Expenses associated with background checks and drug testing (including repeat testing) are the responsibility of the student. Findings may affect a student’s ability to participate in clinical experiences and complete the program, and/or obtain registered nurse licensure.

FEP applications require the following prerequisites ONLY:

-- STA2023 Statistical Methods

--DEP2000 Human Growth Dev

--HUN2201 Principls Nutrition

Program Requirements

Program Objectives

Upon completion of the BSN, graduates will be able to:

(1) Synthesize knowledge from nursing and related disciplines in the provision of care to clients within the health-illness continuum throughout the life span.

(2) Utilize creative leadership to promote quality health care and patient safety in a rapidly changing multicultural, multiethnic, and global environment.

(3) Synthesize and apply evidence and research findings from nursing and from other disciplines to improve or change nursing practice.

(4) Use appropriate and current technology and skills in the delivery of safe and effective patient care.

(5) Function as an advocate and change agent in influencing healthcare policies, delivery, economics, and health disparities to improve the quality of health for diverse populations.

(6) Collaborate and communicate with members of the health care team in the delivery of individualized, cost-effective and ethical health care services.

(7) Demonstrate an understanding of accountability, responsibility, values, and standards of moral, ethical, and legal conduct that impact on the role and practice of the professional nurse.

(8) Utilize theoretical knowledge and clinical competencies in caring for culturally diverse populations in a variety of clinical settings.

Program Policies

Students who enter FIU without an Associate of Arts (AA) degree, transfer from out-of-state, or transfer from a private community college must meet the FIU core curriculum requirements. See a nursing advisor (305) 348-7703 in the Office of Student Services for admission information.

Nursing students are responsible for transportation expenses related to clinical experiences. They are required to carry health and accident insurance. To safeguard the health of clients, nursing students are required to submit proof of health examination and immunizations upon entry into the nursing program. Students must submit proof of basic cardiopulmonary resuscitation (CPR) certification (American Heart Association) prior to entering clinical courses in the nursing major. This CPR certification must cover the period of enrollment in the program.

The Florida Board of Nursing and clinical agencies require the disclosure of arrest and conviction records for misdemeanors and/or felonies; therefore, this information will be required at the time of application. Applicants are required to submit to criminal background checks and drug testing. Expenses associated with background checks and drug testing (including repeat testing) are the responsibility of the student. Findings may affect a student's ability to participate in clinical experiences and complete the program, and/or obtain registered nurse licensure.

In addition to undergraduate tuition and fees, nursing students may be charged a fee for courses with an "L" suffix for laboratory supplies.

Students who request a transfer from another nursing program must provide a letter of good standing from the nursing program in which they were enrolled.

The College reserves the right to terminate a student from the nursing program for reasons related to the inability to carry out professional responsibilities safely.

Note: The programs, policies, requirements, and regulations listed in this catalog are continually subject to review in order to serve the needs of the University's and College's various publics and to respond to the mandates of the Florida Department of Education, Board of Governors, the Legislature, and other regulatory and accrediting agencies. Changes may be made without advance notice. Please refer to the General Information section for the University's policies, requirements, and regulations. Please refer to the College's website for updated information on nursing.

NURSF:BSN - Bachelor of Science in Nursing - Foreign Educated Physician

Overview

Degree Offered
BSN - Bachelor of Science in Nursing

Program Title
Nursing

The Bachelor of Science in Nursing (BSN) - Foreign Educated Physician Program is designed for individuals who have completed a medical degree outside of the United States. Currently this program is offered as a Combined Degree Pathway which incorporates after completion of the BSN a transition into the MSN. The program combines rigorous academic coursework in nursing theory and practice with hands-on clinical experiences in diverse healthcare environments. Graduates of the program are well-equipped with the knowledge, affective and psychomotor skills, and competencies necessary to excel in the nursing profession and to meet the healthcare needs of diverse populations.

For more information, visit the Nicole Wertheim College of Nursing and Health Sciences website.

Requirements

Simple Requirements

Admissions Requirements

Specialized Admissions Requirements for the Combined BSN/MSN for Foreign-Educated Physicians Accelerated Degree Pathway

The Combined BSN/MSN program is a pathway for foreign-educated physicians (FEPs) from culturally diverse backgrounds to:

--obtain the BSN degree

--become Registered Nurses (RNs)

--attain the MSN degree

--become eligible to take the Advanced Registered Nurse Practitioner (APRN) or Certified Nurse Educator (CNE) national certification exam

The combined BSN/MSN Degree Pathway is an accelerated program that builds upon the knowledge and skills of the social and physical sciences from a prior BS degree. It is comprised of 60 upper division credits and 35-45 graduate credits (depending on program selection and/or StopOut Option), totaling 95-108 credit hours. Admission to the MSN component is contingent upon meeting the MSN admission requirements.

The Combined BSN/MSN Degree Pathway for Foreign Educated Physician Program is a specialized admissions status program; and therefore, admission is competitive based on previous academic performance, utilizing a holistic student approach, and additional criteria for entry into the BSN Program. A criterion-based point system is used for the admission evaluation of applicants to the Combined BSN/MSN Degree Pathway for Foreign-Educated Physician Program.

To be admitted to the combined BSN/MSN Degree Pathway program, students must:

(1) Have a minimum 2.50 cumulative GPA;

(2) Applicant cannot have previously obtained an RN license.

(3) Have completed a medical degree from an accredited non-US university;

(4) Have transcripts evaluated by Josef Silny & Associates or by an equivalent transcript evaluation company;

(5) Applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. Applicants that attended undergraduate institutions that do not teach in English must also meet this requirement, even if the institution is located within the United States. Applicants must meet the FIU University Graduate School English-Language proficiency requirements (TOEFL, IELTS, Duolingo, ENC 1101 and ENC 1102, AA or BA from a U.S. school). Please note that this applies to all applicants with foreign MD credentials except English Proficiency Test Exempt Countries.

(6) Meet nursing entry requirements for computation and reading skills;

(7) Meet the admission criteria to be admitted to the University and to the College of Nursing and Health Sciences; and

(8) Successfully complete the following nursing prerequisites (with grade of ‘C’ or above): statistics, human growth & development across the life span, human nutrition, anatomy & physiology, microbiology, chemistry. Transcripts will be evaluated by NWCNHS.

(9) Prerequisites must be completed within the last 10 years. If older than 10 years, then prerequisites must be repeated.

(10) The Florida Board of Nursing and clinical agencies require the disclosure of arrest and conviction records for misdemeanors and/or felonies; therefore, this information will be required at the time of application. Applicants are required to submit to criminal background checks and drug testing. Expenses associated with background checks and drug testing (including repeat testing) are the responsibility of the student. Findings may affect a student’s ability to participate in clinical experiences and complete the program, and/or obtain registered nurse licensure.

(11) Upon admission into the BSN/MSN program, students will be provided with a plan of study for the area of concentration/pathway selected.

To advance to the MSN component of this program, (Semesters V-VIII), students must:

(1) Have a cumulative GPA of 3.2 or above for Semesters I to IV; and

(2) Be licensed as a Florida Registered Nurse (RN) by the end of Semester V.

Program Requirements

See Other Curricular Offerings.

Major Requirements

See Other Curricular Offerings.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Combined BSN/MSN for Foreign-Educated Physician Accelerated Degree Pathway

Degree Conferrals

Students enrolled in the MSN component must apply to graduate with the BSN during the 4th week of semester VI; BSN degree will be posted at the end of semester VI. Students will graduate with the MSN at the end of semester VIII.

BSN Stop-Out Options

(1) Low GPA Stop-out Option: Students with <3.2 cumulative GPA for Semesters I to IV will take NUR 4636C (Care of Communities: Community Health Nursing, 2 credits) and NUR 4945L (Senior Clinical Practicum, 4 credits) in Semester V OR VI. BSN degree will be awarded at the end of semester V or semester VI depending on clinical space availability of NUR 4945L. Students must apply for graduation of the BSN component by the 4th week of the semester they intend to graduate.

(2) Failure to Pass NCLEX Stop-out Option: Students not passing NCLEX-RN (on the first attempt) by the end of Semester V will take NUR 4945L (Senior Clinical Practicum, 4 credits) in Semester VI. BSN degree will be awarded at the end of Semester VI. Students must apply for graduation of the BSN component by the 4th week of the semester they intend to graduate.

(3) Stop out students will graduate with BSN and will be discontinued from the combined BSN-MSN Degree Pathway.

- NUR3666 - Evidence-Based Nursing and Research in Global Health Care
- NUR4667 - Nursing in Global Health Care Systems
- NUR4940 - Senior Nursing Synthesis
- NGR5110 - Theories in Nursing
- NGR5141 - Pathophysiologic Basis of Advanced Nursing Practice

NGR5110 Theories In Nsg ***Note:*** This course is part of the MSN Requirement and Not required for the BSN.

NGR5141 Patho Anp ***Note:*** This course is part of the MSN Requirement.

Low GPA Stop-out Option: Students with <3.2 cumulative GPA for Semesters I to IV will take NUR4636C Community Nursing (Care of Communities: Community Health Nursing, 2 credits) and NUR4945L Senior Practicum (Senior Clinical Practicum, 4 credits) in Semester V or VI, and end with a BSN degree.

Year III: 14 credits (2 UG/10 Grad)

Complete ALL of the following Courses:

- NUR4636C - Care of Communities: Community Health Nursing
- NGR5131 - Culture and Advanced Nursing Practice
- NGR5810 - Research Methods in Nursing
- NGR6002C - Advanced Health Assessment

NGR5131 Cul & Adv Nsg Prac ***Note:*** This course is part of the MSN Requirement and Not required for the BSN.

NGR5810 Res Meth In Nsg ***Note:*** This course is part of the MSN Requirement.

NGR6002C Adv. Health Assessment ***Note:*** This course is part of the MSN Requirement and Not required for the BSN.

Failure to Pass NCLEX Stop-out Option: Students must pass the NCLEX on first attempt during semester V. Students not passing the NCLEX-RN on first attempt by the end of the semester V will take NUR4945L Senior Practicum(Senior Clinical Practicum, 4 credits) in semester VI and will be eligible for a BSN degree at the end of semester VI. (+4 UG credits for Stop Out Students only)

MSN Progression

MSN Level Course Requirements begin in Semester V and vary in length depending on the role specialty plan of study selected (i.e., across semesters V to VII for the Nurse Educator track or V to IX for Nurse Practitioner tracks). Upon admission into the BSN/MSN program, students will be provided with a plan of study for the concentration/pathway selected.

Clinical Education Seminar and Role Development of the APN: 3 credits

Nurse Practitioner tracks only.

Complete ALL of the following Courses:

- NGR6743 - Advanced Practice Nursing Clinical Education Seminar
- NGR6703 - Role Development of the Advanced Practice Nurse

Advanced Nursing Practice Role: Select one Specialty

Fulfill ANY of the following requirements:

Nursing Educator: 16 credits

Complete ALL of the following Courses:

- NGR6713 - Curriculum Development in Nursing
- NGR6715 - Instructional Technology in Nursing and Health Sciences
- NGR6714C - Clinical Teaching Strategies for Nursing
- NGR6708C - Classroom Teaching Strategies for Nursing
- NGR6718 - Testing and Evaluation in Nursing Education
- NGR6710L - Clinical Specialty Practicum for the Nurse Educator

OR

Adult-Gerontology Primary Care Nurse Practitioner: 19 credits

Complete ALL of the following Courses:

- NGR6201C - Advanced Adult-Gerontology Nursing I

- NGR6201L - Advanced Adult-Gerontology Nursing Practice I
- NGR6202C - Advanced Adult-Gerontology Nursing II
- NGR6202L - Advanced Adult-Gerontology Nursing Practice II
- NGR6209 - Clinical Decision Making in Advanced Adult-Gerontology Nursing
- NGR6700L - Role Synthesis in Advanced Adult-Gerontology Nursing Practice

OR

Pediatric Primary Care Nurse Practitioner: 19 credits

Complete ALL of the following Courses:

- NGR6301C - Advanced Child Health Nursing I
- NGR6301L - Advanced Child Health Nursing Practice I
- NGR6302 - Advanced Child Health Nursing II
- NGR6302L - Advanced Child Health Nursing Practice II
- NGR6337 - Clinical Decision Making in Advanced Child Health Nursing
- NGR6337L - Role Synthesis in Advanced Child Health Nursing Practice

OR

Psychiatric-Mental Health Nursing: 22 credits

Complete ALL of the following Courses:

- NGR6503 - Advanced Psychiatric-Mental Health Nursing I
- NGR6503L - Advanced Psychiatric-Mental Health Nursing Practicum I
- NGR6504C - Advanced Psychiatric-Mental Health Nursing II
- NGR6504L - Advanced Psychiatric-Mental Health Nursing Practice II
- NGR6538 - Psychopharmacology for Advanced Practice Nursing
- NGR6560 - Advanced Psychiatric Mental Health Clinical Decision Making
- NGR6505L - Role Synthesis in Advanced Psychiatric-Mental Health Nursing Practice

OR

Family Nurse Practitioner: 23 credits

Complete ALL of the following Courses:

- NGR6601C - Advanced Family Health Nursing I
- NGR6601L - Advanced Family Health Nursing Practice I
- NGR6602C - Advanced Family Health Nursing II
- NGR6602L - Advanced Family Health Nursing Practice II
- NGR6748 - Clinical Decision Making in Advanced Family Nursing Practice
- NGR6619L - Role Synthesis in Advanced Family Health Nursing Practice

Additional Comments:

Eligible to take ARNP or Certified Nurse Educator National Certification Exam after completion of semester VIII.

Students must apply for graduation from MSN at the beginning of semester VIII.

*All students must have a majority of ARNP preceptors in all NP practicum courses.

Repeating Nursing Courses and Dismissal

A grade of “C” or higher in all NUR courses and a grade of “B” or higher in all NGR courses is necessary for continuing in the combined BSN/MSN Degree Pathway. A course in the BSN/MSN Degree Pathway can be repeated only once. If a student fails the same NUR course twice, or two NUR clinical and/or clinical-related courses, or two NGR courses, he/she will be dismissed from the BSN/MSN for FEP track.

NURSG:BSN - Bachelor of Science in Nursing - Traditional Program

Overview

Degree Offered
BSN - Bachelor of Science in Nursing

Program Title
Nursing

The Bachelor of Science in Nursing (BSN) - Traditional Program is designed for students completing their first undergraduate degree. This highly competitive program prepares students to become professional licensed registered nurses capable of providing high-quality care in a variety of healthcare settings. The program combines rigorous academic coursework in nursing theory and practice with hands-on clinical experiences in diverse healthcare environments. Graduates of the BSN program are well-equipped with the knowledge, affective and psychomotor skills, and competencies necessary to excel in the nursing profession and to meet the healthcare needs of diverse populations.

For more information, visit the Nicole Wertheim College of Nursing and Health Sciences website.

Requirements

Simple Requirements

Admissions Requirements

Specialized Admissions Requirements for the Bachelor in Science in Nursing (Traditional Program)

Applicants for the Traditional Nursing Program must submit an application for admission to the University and must follow the regular University procedures. Applicants must also complete a Bachelor of Science in Nursing Program application.

All admission documents must be submitted, and courses must be completed by the end of the semester prior to the semester in which the student is applying. Students interested in the nursing program should contact the Nicole Wertheim College of Nursing Health Sciences to make an appointment with the Office of Student Services as early as possible. The College's main office is located on the Modesto A. Maidique Campus, (305) 348-7703, and assistance is available on the Biscayne Bay Campus, (305) 919-4421.

The Traditional Program is a specialized admissions status program; and therefore, admission is competitive based on previous academic performance, utilizing a holistic student approach, and additional criteria for entry into the BSN Program. A criterion-based point system is used for the admission evaluation of applicants to the traditional RN-BSN program.

To be admitted to the Traditional Program, applicants must:

(1) Have an overall GPA of 3.25 or higher

(2) Have completed science courses within the past 10 years;

(3) Have met all the lower division requirements, including a “C” or better grade for all nursing pre-requisite courses. Students earning a grade of “C minus” or below in any science prerequisite course may repeat that course only once. A student who earns a grade of “C minus” or below in any science pre-requisite course for a second time will be redirected to another major within FIU. Advisement relative to other majors/options will be provided;

(4) Completed a minimum of 54 semester hours;

(5) Be recommended for admission by the Undergraduate Nursing Admissions Committee.

(6) The Florida Board of Nursing and clinical agencies require the disclosure of arrest and conviction records for misdemeanors and/or felonies; therefore, this information will be required at the time of application. Applicants are required to submit to criminal background checks and drug testing. Expenses associated with background checks and drug testing (including repeat testing) are the responsibility of the student. Findings may affect a student’s ability to participate in clinical experiences, complete the program, and/or obtain registered nurse licensure.

Applicants must apply by the published deadline to be considered for admission. Once a class fills, there are no deferred admissions. Previous applicants wishing to be considered for admission in the following application cycle must submit a new application, along with any supporting documentation. For applicants to the AO program and the RN-BSN program, these programs have separate catalog program sections that include admission requirements.

Program Requirements

Program Objectives

Upon completion of the BSN, graduates will be able to:

(1) Synthesize knowledge from nursing and related disciplines in the provision of care to clients within the health-illness continuum throughout the life span.

(2) Utilize creative leadership to promote quality health care and patient safety in a rapidly changing multicultural, multiethnic, and global environment.

(3) Synthesize and apply evidence and research findings from nursing and from other disciplines to improve or change nursing practice.

(4) Use appropriate and current technology and skills in the delivery of safe and effective patient care.

(5) Function as an advocate and change agent in influencing healthcare policies, delivery, economics, and health disparities to improve the quality of health for diverse populations.

(6) Collaborate and communicate with members of the health care team in the delivery of individualized, cost-effective and ethical health care services.

(7) Demonstrate an understanding of accountability, responsibility, values, and standards of moral, ethical, and legal conduct that impact on the role and practice of the professional nurse.

(8) Utilize theoretical knowledge and clinical competencies in caring for culturally diverse populations in a variety of clinical settings.

Program Policies

Students who enter FIU without an Associate of Arts (AA) degree, transfer from out-of-state, or transfer from a private community college must meet the FIU core curriculum requirements. See a nursing advisor (305) 348-7703 in the Office of Student Services for admission information.

Nursing students are responsible for transportation expenses related to clinical experiences. They are required to carry health and accident insurance. To safeguard the health of clients, nursing students are required to submit proof of health examination and immunizations upon entry into the nursing program. Students must submit proof of basic cardiopulmonary resuscitation (CPR) certification (American Heart Association) prior to entering clinical courses in the nursing major. This CPR certification must cover the period of enrollment in the program.

The Florida Board of Nursing and clinical agencies require the disclosure of arrest and conviction records for misdemeanors and/or felonies; therefore, this information will be required at the time of application. Applicants are required to submit to criminal background checks and drug testing. Expenses associated with background checks and drug testing (including repeat testing) are the responsibility of the student. Findings may affect a student's ability to participate in clinical experiences and complete the program, and/or obtain registered nurse licensure.

In addition to undergraduate tuition and fees, nursing students may be charged a fee for courses with an "L" suffix for laboratory supplies.

Students who request a transfer from another nursing program must provide a letter of good standing from the nursing program in which they were enrolled.

The College reserves the right to terminate a student from the nursing program for reasons related to the inability to carry out professional responsibilities safely.

Note: The programs, policies, requirements, and regulations listed in this catalog are continually subject to review in order to serve the needs of the University's and College's various publics and to respond to the mandates of the Florida Department of Education, Board of Governors, the Legislature, and other regulatory and accrediting agencies. Changes may be made without advance notice. Please refer to the General Information section for the University's policies, requirements, and regulations. Please refer to the College's website for updated information on nursing.

Scholastic Requirements

To remain in good academic standing students must:

(1) Achieve a grade of 'C' or higher in nursing courses. A student who earns less than a 'C' in any nursing course will be required to repeat the course in order to progress in the nursing program. A student may repeat a course one time only. Students who have failed two nursing courses or have two failures in the same nursing course will be dismissed from the program.

(2) Pass required examinations: Traditional program students are required to take specific nursing achievement examinations (To be announced at the beginning of each academic term). In addition, students are required to pass a nursing synthesis (exit) exam as a BSN graduation requirement. This examination is given during the last semester of the program.

Lower Division Preparation

Type

Prerequisite

Common Prerequisite Courses

Transfer students who have been awarded an Associate of Arts degree from a Florida (public) college or a baccalaureate degree or higher from an accredited institution or FIU freshmen students must successfully complete the following prerequisites for academic progression into the upper division FIU nursing program.

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Complete ALL of the following Courses:

NURSM:BSN - Bachelor of Science in Nursing - RN to BSN/MSN Combined Degree Pathway

Overview

Degree Offered
BSN - Bachelor of Science in Nursing

Program Title
Nursing

The Bachelor of Science in Nursing (BSN) - RN to BSN/MSN Combined Degree Pathway Program is designed for high achieving individuals with an Associate Degree in Nursing and an active Florida RN License. Currently this program is offered as a Combined Degree Pathway which incorporates after completion of the BSN a transition into the MSN. Students select one of the following MSN concentration tracks: a) nurse educator, b) adult-gerontology primary care nurse practitioner, c) family nurse practitioner, d) pediatric primary care nurse practitioner, or e) psychiatric-mental health nurse practitioner. This combined degree pathway program combines rigorous academic coursework in nursing theory and practice with hands-on clinical experiences in diverse healthcare environments. Graduates of the RN to BSN/MSN pathway are well-equipped with knowledge, psychomotor skills, and competencies necessary to excel in the nursing profession.

Upon completion of the MSN, student will be eligible to sit for national certification for their chosen specialty.

Admissions Requirements

Specialized Admissions Requirements for the Combined RN to BSN/MSN Accelerated Degree Pathway

Degree seeking applicants with fewer than 60 semester hours of transfer credit must satisfy the same admission requirements as beginning freshmen. Visit the information website for this program at http://rn2bsn.fiu.edu/ for program information.

The RN to BSN/MSN Program is a specialized admissions status program; and therefore, admission is competitive based on previous academic performance, utilizing a holistic student approach, and additional criteria for entry into the BSN Program. A criterion-based point system is used for the admission evaluation of applicants to the RN to BSN/MSN program.

For admission to the RN-to-BSN/MSN program a student must have:

(1) Active, unencumbered Florida RN license or enhanced licensure through the Nurse Licensure Compact (eNLC)

(2) Cumulative 3.2 GPA (no prerequisite grade below a ‘C’) from an ACEN (Accreditation Commission for Education in Nursing, formerly NLNAC) accredited ASN program.

(3) Minimum 60 transferable lower division college credits,

(4) Meet:

--Florida mandated Gordon Rule requirements;

--University Core Curriculum requirements; and

--University foreign language requirement. These requirements can be met with an Associate in Arts (AA) from a Florida College System or non-nursing Bachelor’s degree in another field from an accredited institution.

(5) Applicants with foreign degrees that have Florida RN licensure can apply if degree earned is evaluated to be equivalent to a Bachelor’s degree or Doctorate in Medicine degree at an accredited U.S. institution,

(6) RN-BSN applicants who have taken BSN courses at another accredited institution and are requesting a transfer into the NWCHNS RN-BSN Program must have all coursework evaluated by FIU Nursing Faculty to determine course equivalency and are allowed a maximum of 6 transfer upper division Nursing credits and,

(7) Approved transferred nursing coursework must be completed within 5 years of enrollment at the time of admission.

(8) See Traditional BSN for program policies related to background checks, immunizations, health requirements, and CPR.

Program Requirements

See Other Curricular Offerings.

Major Requirements

See Other Curricular Offerings.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Combined RN to BSN/MSN Accelerated Degree Pathway

The RN-to-BSN/MSN Combined Degree Pathway is for students currently licensed to practice as a Registered Nurse (RN). The RN-to-BSN/MSN option allows an RN with an associate degree in nursing from an ACEN (Accreditation Commission for Education in Nursing, formerly NLNAC) accredited institution to:

--obtain the BSN degree

--attain the MSN degree

--become eligible to take national certification exam associated with the selected advanced practice role of preparation

The RN-to-BSN/MSN Combined Degree Pathway requires a minimum of 120 credits for completion of the BSN portion, comprised of 33 upper division and graduate credits, 27 Prior Learning Assessment (PLA) credits (granted upon evaluation of clinical proficiency), and 60 lower division credits that must include:

--human anatomy & lab 4 credits

--human physiology & lab 4 credits

--microbiology & lab 4 credits

--chemistry & lab 4 credits

--human growth & development 3 credits

--statistics 3 credits

--psychology 3 credits

--nutrition 3 credits

No more than six (6) transferable credits from other nursing baccalaureate programs will be accepted for the BSN portion of the program of study.

Each applicant's educational record is individually evaluated by the nursing unit.

To progress through the curriculum, the RN must successfully complete prerequisite, co-requisite and required courses for the curriculum plan in effect at the time of admission.

Upon admission with a 3.2 Cumulative GPA in the RN-to BSN/MSN in the BSN program, students select one of the following MSN concentration tracks: a) nurse educator, b) adult-gerontology primary care nurse practitioner, c) family nurse practitioner, d) pediatric primary care nurse practitioner, or e) psychiatric-mental health nurse practitioner; and enroll in a prescribed set of core courses central to all undergraduate and graduate nursing roles as well as courses specific to their concentration.

Students must complete the University Core Curriculum, an evaluation of prior learning, and be provisionally admitted to the MSN Program prior to enrollment in Level III courses. Applicants must have a 3.2 cumulative GPA to be provisionally admitted to the MSN Program and progress to Level III. Students with less than a 3.2 GPA will be transferred to the RN-BSN Program to complete their baccalaureate.

Admission to the Master of Science in Nursing (MSN) program is contingent upon meeting Graduate Nursing and University Graduate School (UGS) admission requirements.

The MSN degree prepares the RN for advanced nursing roles. Upon admission in the MSN program, students select one of the following: a) nurse educator, b) adult-gerontology primary care nurse practitioner, c) family nurse practitioner, d) pediatric primary care nurse practitioner, or e) psychiatric-mental health nurse practitioner; and enroll in a prescribed set of core courses central to all graduate nursing roles as well as courses specific to their concentration.

Successful completion of the nurse practitioner program qualifies students to take appropriate national certification examinations and apply for licensure as an APRN in Florida and other states. Nurse Educator graduates are eligible for national certification from the National League of Nursing, and the American Association of the Colleges of Nursing. Note that all the above concentration programs lead to the APRN eligibility except the nurse educator program.

Students must be provisionally admitted to the MSN program prior to taking graduate level NGR5141 Patho Anp, NGR5131 Cul & Adv Nsg Prac, and NGR6002C Adv. Health Assessment courses. RNs must have one-year of clinical nursing experience and obtain professional liability insurance prior to registering for clinical/practicum courses.

Advanced Placement of RNs

Advanced placement in both nursing and non-nursing courses is facilitated by earning credits through examination, i.e., challenge or equivalency exams such as CLEP, or Excelsior College examinations (Psychiatric-Mental Health Nursing, Adult Health Nursing, and Maternal-Child Nursing) with a grade of 'C' or higher, or completion of Prior Learning Assessment (PLA) of clinical competencies*

Up to 27 PLA credits towards completion of the BSN at FIU can be awarded through FIU faculty-led evaluation of competency* in specific subjects within the nursing curricula (i.e. Adult Health, Psychiatric-Mental Health, and Obstetrics/Pediatrics).

**Upon admission into the program, students will be provided with the steps to complete this process.

RNs who are provisionally admitted to the MSN program complete three graduate level courses (Advanced Health Assessment, Pathophysiological Basis of ANP and Culture & Advanced Nursing Practice) while taking BSN courses.

Repeating Nursing Courses and Dismissal

A grade of 'C' or higher in all NUR courses and a grade of 'B' or higher in all NGR courses is necessary for continuing in the RN-to-BSN/MSN Combined Degree Pathway. A course in the RN-to-BSN/MSN can be repeated only once. If a student fails the same NUR/NGR course twice, or two different NUR/NGR courses, they will be dismissed from the RN-to-BSN/MSN Program.

Degree Conferral

Students enrolled in the RN-to-BSN/MSN must apply to graduate with the BSN and meet University Graduation application deadlines for semester IV. Students must apply to graduate with the MSN and meet University Graduation application deadlines for semester VIII [Nurse Educator track] or semester IX [Nurse Practitioner tracks].

BSN Level Course Requirements

Type

Completion Requirement

Level I

Complete ALL of the following Courses:

- NUR3821 - Professional Nursing Leadership: Concepts and Issues
- NUR3805 - Professional Nursing I: Socialization

Upper Division Elective (3 credits)

NUR3805 Pro Nursing: Social ***Note:*** Up to 27 PLA* credits

Upper Division Elective to be approved by Academic Advisor

**Prior Learning Assessment (PLA) process is integrated as part of this 3-credit course, designed to support RN-BSN nursing students' transition and socialization to the role of BSN prepared professional nurses, as well signal students' success in demonstrating mastery of prior learning in specific nursing subject areas (i.e., Adult Health, Psychiatric-Mental Health, and Obstetrics/Pediatrics).*

Level II: 8 credits

Complete ALL of the following Courses:

- NUR3666 - Evidence-Based Nursing and Research in Global Health Care
- NUR4667 - Nursing in Global Health Care Systems
- NUR3119 - Professional Nursing: Concepts and Issues

Students must apply to the MSN program at this point; Applicants must have a 3.2 GPA to be provisionally admitted to the MSN program. See University catalog/nursing advisor for pre-and-corequisite courses.

Level III: 8 credits

Complete ALL of the following Courses:

- NGR5141 - Pathophysiologic Basis of Advanced Nursing Practice
- NGR5131 - Culture and Advanced Nursing Practice
- NUR4636C - Care of Communities: Community Health Nursing

Level IV: 8 credits

Complete ALL of the following Courses:

- NUR4945L - Senior Clinical Practicum
- NGR6002C - Advanced Health Assessment

BSN degree awarded at the completion of Level IV and students will be fully admitted to the MSN.

MSN Progression

MSN Level Course Requirements begin in Semester V and vary in length depending on the role specialty plan of study selected (i.e., across semesters V to VII for the Nurse Educator track or V to IX for Nurse Practitioner tracks). Upon admission into the MSN program, students will be provided with a plan of study for the pathway selected.

MSN Level Course Requirements

Type

Completion Requirement

Graduate Nursing Core: 9 credits

Complete ALL of the following Courses:

- NGR5110 - Theories in Nursing
- NGR5131 - Culture and Advanced Nursing Practice
- NGR5810 - Research Methods in Nursing

NGR5131 Cul & Adv Nsg Prac ***Note:*** This course taken during BSN enrollment, Level III.

Direct Care Core

Complete ALL of the following Courses:

- NGR6002C - Advanced Health Assessment
- NGR5141 - Pathophysiologic Basis of Advanced Nursing Practice
- NGR6172 - Pharmacology and Pharmacotherapeutics in Advanced Nursing Practice
- NGR5064C - Diagnostic and Therapeutics in Advanced Nursing Practice

NGR6002C Adv. Health Assessment ***Note:*** This course taken during BSN enrollment, Level IV.

NGR5141 Patho Anp ***Note:*** This course taken during BSN enrollment, Level III.

NGR5064C Diag & Therap In Anp ***Note:*** This course required **only for Nurse Practitioner tracks**.

Clinical Education Seminar and Role Development of the APN: 3 credits

Nurse Practitioner tracks only

Complete ALL of the following Courses:

- NGR6743 - Advanced Practice Nursing Clinical Education Seminar
- NGR6703 - Role Development of the Advanced Practice Nurse

Advanced Nursing Practice Role: Select one Specialty

Fulfill ANY of the following requirements:

Nursing Educator: 16 credits

Complete ALL of the following Courses:

- NGR6713 - Curriculum Development in Nursing
- NGR6715 - Instructional Technology in Nursing and Health Sciences
- NGR6714C - Clinical Teaching Strategies for Nursing
- NGR6708C - Classroom Teaching Strategies for Nursing
- NGR6718 - Testing and Evaluation in Nursing Education
- NGR6710L - Clinical Specialty Practicum for the Nurse Educator

OR

Adult-Gerontology Primary Care Nurse Practitioner Specialty Credit Hours : 22

Complete ALL of the following Courses:

- NGR6201C - Advanced Adult-Gerontology Nursing I
- NGR6201L - Advanced Adult-Gerontology Nursing Practice I
- NGR6202C - Advanced Adult-Gerontology Nursing II
- NGR6202L - Advanced Adult-Gerontology Nursing Practice II
- NGR6744 - Professional Advanced Practice Seminar

OR

Pediatric Primary Care Nurse Practitioner Specialty Credit Hours: 22

Complete ALL of the following Courses:

- NGR6301C - Advanced Child Health Nursing I
- NGR6301L - Advanced Child Health Nursing Practice I
- NGR6302 - Advanced Child Health Nursing II
- NGR6302L - Advanced Child Health Nursing Practice II
- NGR6303 - Advanced Pediatric Primary Care Nursing III
- NGR6303L - Advanced Pediatric Primary Care Nursing Practicum III
- NGR6744 - Professional Advanced Practice Seminar

OR

Psychiatric-Mental Health Nursing Specialty Credit Hours: 22

Complete ALL of the following Courses:

- NGR6503 - Advanced Psychiatric-Mental Health Nursing I
- NGR6503L - Advanced Psychiatric-Mental Health Nursing Practicum I

- NGR6504C - Advanced Psychiatric-Mental Health Nursing II
- NGR6504L - Advanced Psychiatric-Mental Health Nursing Practice II
- NGR6538 - Psychopharmacology for Advanced Practice Nursing
- NGR6744 - Professional Advanced Practice Seminar

OR

Family Nurse Practitioner Specialty Credit Hours: 24

Complete ALL of the following Courses:

- NGR6601C - Advanced Family Health Nursing I
- NGR6601L - Advanced Family Health Nursing Practice I
- NGR6602C - Advanced Family Health Nursing II
- NGR6602L - Advanced Family Health Nursing Practice II
- NGR6744 - Professional Advanced Practice Seminar

NURSR:BSN - Bachelor of Science in Nursing - RN to BSN Program

Overview

Degree Offered
BSN - Bachelor of Science in Nursing

Program Title
Nursing

The Bachelor of Science in Nursing (BSN) - RN to BSN Program is designed for individuals with an Associate Degree in Nursing and an active Florida RN License. It prepares already professional licensed registered nurses to assume higher leadership roles in a variety of healthcare settings. Graduates of the RN to BSN program are well-equipped to excel in the nursing profession and to meet the healthcare needs of diverse populations.

For more information, visit the Nicole Wertheim College of Nursing and Health Sciences website.

Admissions Requirements

Specialized Admissions Requirements for BS in Nursing (RN-BSN)

The RN-BSN Program is a specialized admissions status program; and therefore, admission is competitive based on previous academic performance, utilizing a holistic student approach, and additional criteria for entry into the BSN Program. A criterion-based point system is used for the admission evaluation of applicants to the traditional RN-BSN program.

To be admitted to the RN-BSN Program, applicants must have:

(1) Unencumbered Florida Registered Nurse License,

(2) 2.75 Cumulative GPA (no prerequisite grade below a C) from an ACEN (Accreditation Commission for Education in Nursing, formerly NLNAC) accredited ASN or Diploma Nursing program. You may verify your nursing program's accreditation at the following link: **http://www.acenursing.us/accreditedprograms/programsearch.htm**,

(3) Minimum 60 transferable lower division college credits,

(4) Meet a) Florida mandated Gordon Rule requirements; b) University Core Curriculum requirements; and c) University foreign language requirement. These requirements can be met with an Associate in Arts (AA) from a Florida State College System or non-nursing Bachelor's degree in another field from an accredited institution.

(5) Applicants with foreign degrees that have Florida RN licensure could apply if degree earned is evaluated to be equivalent to a Bachelor's degree or Doctorate in Medicine degree at an accredited U.S. institution,

(6) RN-BSN applicants who have taken BSN courses at another institution and are requesting a transfer into the NWCHNS RN-BSN Program must have all coursework evaluated by FIU Nursing Faculty to determine course equivalency and are allowed a maximum of 6 transfer upper division Nursing credits and,

(7) Approved transferred nursing coursework must be completed within 5 years of enrollment at the time of admission.

(8) The Florida Board of Nursing and clinical agencies require the disclosure of arrest and conviction records for misdemeanors and/or felonies; therefore, this information will be required at the time of application. Applicants are required to submit to criminal background checks and drug testing. Expenses associated with background checks and drug testing (including repeat testing) are the responsibility of the student. Findings may affect a student's ability to participate in clinical experiences and complete the program, and/or obtain registered nurse licensure.

Prior to admission, degree seeking applicants without an Associate in Arts degree from a Florida State Institution must satisfy the same current admission Undergraduate Catalog Nicole Wertheim College of Nursing and Health Sciences requirements as beginning freshmen. Graduates of diploma nursing programs who do not have transferable college credit will be required to complete the FIU lower division credit requirements prior to admission. Visit the website at:**http://www.fiuonline.com/programs/online-undergraduate-degrees/rntobsn/** for program information.

Program Requirements

Program Objectives

Upon completion of the BSN, graduates will be able to:

(1) Synthesize knowledge from nursing and related disciplines in the provision of care to clients within the health-illness continuum throughout the life span.

(2) Utilize creative leadership to promote quality health care and patient safety in a rapidly changing multicultural, multiethnic, and global environment.

(3) Synthesize and apply evidence and research findings from nursing and from other disciplines to improve or change nursing practice.

(4) Use appropriate and current technology and skills in the delivery of safe and effective patient care.

(5) Function as an advocate and change agent in influencing healthcare policies, delivery, economics, and health disparities to improve the quality of health for diverse populations.

(6) Collaborate and communicate with members of the health care team in the delivery of individualized, cost-effective and ethical health care services.

(7) Demonstrate an understanding of accountability, responsibility, values, and standards of moral, ethical, and legal conduct that impact on the role and practice of the professional nurse.

(8) Utilize theoretical knowledge and clinical competencies in caring for culturally diverse populations in a variety of clinical settings.

Program Policies

Students who enter FIU without an Associate of Arts (AA) degree, transfer from out-of-state, or transfer from a private community college must meet the FIU core curriculum requirements. See a nursing advisor (305) 348-7703 in the Office of Student Services for admission information.

Nursing students are responsible for transportation expenses related to clinical experiences. They are required to carry health and accident insurance. To safeguard the health of clients, nursing students are required to submit proof of health examination and immunizations upon entry into the nursing program. Students must submit proof of basic cardiopulmonary resuscitation (CPR) certification (American Heart Association) prior to entering clinical courses in the nursing major. This CPR certification must cover the period of enrollment in the program.

The Florida Board of Nursing and clinical agencies require the disclosure of arrest and conviction records for misdemeanors and/or felonies; therefore, this information will be required at the time of application. Applicants are required to submit to criminal background checks and drug testing. Expenses associated with background checks and drug testing (including repeat testing) are the responsibility of the student. Findings may affect a student's ability to participate in clinical experiences and complete the program, and/or obtain registered nurse licensure.

In addition to undergraduate tuition and fees, nursing students may be charged a fee for courses with an "L" suffix for laboratory supplies.

Students who request a transfer from another nursing program must provide a letter of good standing from the nursing program in which they were enrolled.

The College reserves the right to terminate a student from the nursing program for reasons related to the inability to carry out professional responsibilities safely.

Note: The programs, policies, requirements, and regulations listed in this catalog are continually subject to review in order to serve the needs of the University's and College's various publics and to respond to the mandates of the Florida Department of Education, Board of Governors, the Legislature, and other regulatory and accrediting agencies. Changes may be made without advance notice. Please refer to the General Information section for the University's policies, requirements, and regulations. Please refer to the College's website for updated information on nursing.

Scholastic Requirements

To remain in good academic standing, students must achieve a grade of 'C' or higher in nursing courses. A student who earns less than a 'C' in any nursing course will be required to repeat the course in order to progress in the nursing program. A student may repeat a course one time only. Students who have failed (C- or lower) two nursing courses or have two failures in the same nursing course will be dismissed from the program.

Degree Credit Hours: 120

Type

Completion Requirement

Lower Division and Prior Learning Assessment (PLA): 87 credits

- 60 transferable lower division credits, including:
  - Human anatomy & lab (4 credits)
  - Human physiology & lab (4 credits)
  - Microbiology & lab (4 credits)
  - Survey of chemistry & lab (4 credits)
  - Human growth & development (3 credits)
  - Statistics (3 credits)
  - Intro to Psychology (3 credits)

    - Nutrition (3 credits)
- 27 credits of clinical proficiency evaluation awarded through a FIU nursing faculty-led Prior Learning Assessment (PLA) course
- 33 credits in RN-BSN curriculum (must be taken at FIU)
    - 24 credits of upper division nursing courses
    - 9 credits of upper division electives (any 3000 or 4000 level courses)

No more than six (6) transferable credits from other nursing baccalaureate programs will be accepted for the RN-BSN program of study, and nursing prerequisites must be completed at an accredited institution. Students must complete at least 30 upper division credits at FIU.

Each applicant's educational record is individually evaluated by the nursing unit. To progress through the curriculum, the RN must successfully complete prerequisite, co-requisite and required courses for the curriculum plan in effect at the time of admission. It is possible to complete the nursing sequence in one year of full-time study after all prerequisites and PLA have been completed and the RN has been fully admitted to the program.

Admitted RN-BSN students who have not enrolled in any FIU course for three (3) or more consecutive terms will be required to apply for readmission to FIU and the NWCNHS. The applicant must meet the RN-BSN program admission requirements, including the program of study, in effect at the time of readmission. Upon readmission, RN-BSN coursework already completed will be evaluated by the Chair of Undergraduate Nursing or designee. Readmitted RNs may be required to repeat or take additional courses to complete degree requirements.

It is preferred that RNs have one-year of clinical nursing experience and must obtain professional liability insurance prior to registering for NUR4636C Community Nursing and NUR4945L Senior Practicum. Students must achieve the competencies of PLA prior to enrollment in Level IV courses.

Advanced Placement and Progression of Registered Nurses

Progression within the RN -BSN program can now be achieved through FIU faculty-led Prior Learning Assessment (PLA). Up to 27 PLA credits can be awarded through examinations adopted, created, and/or facilitated by FIU's undergraduate nursing unit. The examination is constructed to allow the student to demonstrate mastery of the learning outcomes of specific subjects within the nursing curricula (i.e. Adult Health, Psychiatric-Mental Health, and Obstetrics/ Pediatrics). Each subject area examination is integrated as part of a 3-credit course designed to support RN-BSN nursing students' transition and socialization to the role of BSN prepared professional nurses, as well signal students' successful achievement of PLA.

RN-BSN Curriculum: 33 credits

Fulfill ALL of the following requirements:

Level I: 10 credits

Complete ALL of the following Courses:

- NUR3805 - Professional Nursing I: Socialization
- NUR3821 - Professional Nursing Leadership: Concepts and Issues
- NUR3066C - Health Assessment and Promotion in Nursing Practice

Note: (PLA) Prior Learning Assessment Course: NUR3805 Pro Nursing: Social

AND

Level II: 8 credits

Complete ALL of the following Courses:

- NUR3666 - Evidence-Based Nursing and Research in Global Health Care

NURXXXX - Upper Division Elective (in Nursing) - 3 credits
Upper Division Elective - 3 credits

Elective Needs to be approved by Academic Advisor

Note: Statistics is a prerequisite for this course: NUR3666 Ev Bsd Nsg and Res Gbl Hlth

AND

Level III: 9 credits

Complete ALL of the following Courses:

- NUR4667 - Nursing in Global Health Care Systems

Upper Division Elective - 3 credits
Upper Division Elective - 3 credits

AND

Level IV: 6 credits

Complete ALL of the following Courses:

- NUR4636C - Care of Communities: Community Health Nursing
- NUR4945L - Senior Clinical Practicum

Additional Comments:

See University catalog/nursing advisor for pre-and-corequisite courses.

NURSV:BSN - Bachelor of Science in Nursing - Veterans Medic to BSN Program

Overview

Degree Offered
BSN - Bachelor of Science in Nursing

Program Title
Nursing

The Bachelor of Science in Nursing (BSN) - Veterans Medic to BSN Program program prepares students to become professional licensed registered nurses capable of providing high-quality care in a variety of healthcare settings. The program combines rigorous academic coursework in nursing theory and practice with hands-on clinical experiences in diverse healthcare environments. Graduates of the BSN program are well-equipped with the knowledge, affective and psychomotor skills, and competencies necessary to excel in the nursing profession and to meet the healthcare needs of diverse populations.

Simple Requirements

Admissions Requirements

Note: A moratorium has been placed on admissions to the Veterans Medic to Nurse.

Applicants to the Veterans Medic to Nurse BSN (VBSN) must submit an application for admission to the University and must follow the regular University procedures. Applicants must complete a Veterans Medic to Nurse application. Applicants must be admitted to the University before applying for admission to the nursing program. All admission documents must be submitted by the posted college application deadline preceding the Fall and Spring admission for VBSN students. Students interested in the VBSN program should contact the College to make an appointment with the VBSN advisor as early as possible. The College is located on the Modesto A. Maidique Campus, AHC3-232, (305) 348-4725.

The VBSN Program is a specialized admissions status program; and therefore, admission is competitive based on previous academic performance, utilizing a holistic student approach, and additional criteria for entry into the VBSN Program. A criterion-based point system is used for the admission evaluation of applicants to the VBSN program.

To be admitted to the VBSN Program, applicants must:

(1) Be a veteran from any branch of United States military service, an active duty reservist, or a National Guard member with military medical training and service experience OR with Paramedic certification;

(2) Have a minimum cumulative GPA of 2.5 in all lower division coursework;

(3) Have met all lower division requirements including a minimum grade of a “C” for all nursing prerequisite courses;*

(4) Completed a minimum of 54 semester hours;

(5) Have completed all required prerequisite science courses within the last 10 years;

(6) Have met entry requirements for computation and reading skills through the specified nursing entrance exam; and

(7) Be recommended for admission by the Undergraduate Admissions Committee.

*Required nursing prerequisites include the following courses: 4 credits each of human anatomy & lab, human physiology & lab, microbiology & lab, and survey of chemistry & lab; and 3 credits each of human growth & development, statistics, psychology, and principles of nutrition.

Program Requirements

Program Objectives

Upon completion of the BSN, graduates will be able to:

(1) Synthesize knowledge from nursing and related disciplines in the provision of care to clients within the health-illness continuum throughout the life span.

(2) Utilize creative leadership to promote quality health care and patient safety in a rapidly changing multicultural, multiethnic, and global environment.

(3) Synthesize and apply evidence and research findings from nursing and from other disciplines to improve or change nursing practice.

(4) Use appropriate and current technology and skills in the delivery of safe and effective patient care.

(5) Function as an advocate and change agent in influencing healthcare policies, delivery, economics, and health disparities to improve the quality of health for diverse populations.

(6) Collaborate and communicate with members of the health care team in the delivery of individualized, cost-effective and ethical health care services.

(7) Demonstrate an understanding of accountability, responsibility, values, and standards of moral, ethical, and legal conduct that impact on the role and practice of the professional nurse.

(8) Utilize theoretical knowledge and clinical competencies in caring for culturally diverse populations in a variety of clinical settings.

Program Policies

Students who enter FIU without an Associate of Arts (AA) degree, transfer from out-of-state, or transfer from a private community college must meet the FIU core curriculum requirements. See a nursing advisor (305) 348-7703 in the Office of Student Services for admission information.

Nursing students are responsible for transportation expenses related to clinical experiences. They are required to carry health and accident insurance. To safeguard the health of clients, nursing students are required to submit proof of health examination and immunizations upon entry into the nursing program. Students must submit proof of basic cardiopulmonary resuscitation (CPR) certification (American Heart Association) prior to entering clinical courses in the nursing major. This CPR certification must cover the period of enrollment in the program.

The Florida Board of Nursing and clinical agencies require the disclosure of arrest and conviction records for misdemeanors and/or felonies; therefore, this information will be required at the time of application. Applicants are required to submit to criminal background checks and drug testing. Expenses associated with background checks and drug testing (including repeat testing) are the responsibility of the student. Findings may affect a student's ability to participate in clinical experiences and complete the program, and/or obtain registered nurse licensure.

In addition to undergraduate tuition and fees, nursing students may be charged a fee for courses with an "L" suffix for laboratory supplies.

Students who request a transfer from another nursing program must provide a letter of good standing from the nursing program in which they were enrolled.

The College reserves the right to terminate a student from the nursing program for reasons related to the inability to carry out professional responsibilities safely.

Note: The programs, policies, requirements, and regulations listed in this catalog are continually subject to review in order to serve the needs of the University's and College's various publics and to respond to the mandates of the Florida Department of Education, Board of Governors, the Legislature, and other regulatory and accrediting agencies. OCCT:CFI - Undergraduate Certificate in Occupational Therapy Prerequisite

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Occupational Therapy Pre-Requisite Certificate

The Undergraduate Certificate in Occupational Therapy Prerequisite program provides undergraduate-level instruction for the completion of the prerequisites needed to become eligible to apply to the Master of Science (MS) in Occupational Therapy program. The certificate will enable students to complete coursework required to apply to the accredited professional Master of Science in Occupational Therapy program while concurrently completing the requirements for a Bachelor of Arts (BA) or Bachelor of Science (BS) degree offered at FIU. Additionally, students already holding a BA or BS degree are eligible to apply for this certificate program to complete the required coursework for admission to the entry-level professional MS in Occupational Therapy program. For more information, visit the Nicole Wertheim College of Nursing and Health Sciences website.

To explore more about this program, visit the website below:

Requirements

Simple Requirements

Admissions Requirements

Any student in good academic standing (with a minimum 3.0 cumulative GPA) completing the requirements for a Bachelor of Arts (BA)/Bachelor of Science (BS) degree offered at FIU or any student already holding a BA or BS degree who has a 3.0 GPA in the last 60 credits of the undergraduate degree is eligible to apply for this certificate program. A minimum grade of “C” or better is required for all certificate courses.

To meet the minimum criteria for application into the Occupational Therapy graduate program a grade of a “B” or higher must be earned for Physiology, OTH4418 Imp Neuro on Perf, and Human Anatomy.

This certificate is open to both degree-seeking and non-degree-seeking students.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Academic Progression Requirement

To remain in the Occupational Therapy Prerequisite Certificate program, students must maintain a 3.00 cumulative GPA or higher in certificate coursework. To be awarded the Occupational Therapy Prerequisite Certificate, the student must achieve a 3.00 cumulative GPA or higher in undergraduate coursework.

Program Credit Hours: 26

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- BSC2010 - General Biology I
  AND BSC2010L - General Biology I Lab
- CLP4146 - Psychopathology
- DEP2000 - Human Growth and Development: Introductory Developmental Psychology
- HSC3537 - Medical Terminology
- HSC3549 - Clinical Physiology for Health Professionals
- OTH4418 - Impact of Neurological Dysfunction on Human Performance
- STA2023 - Statistical Methods
- ZOO3731 - Human Anatomy
  AND ZOO3731L - Human Anatomy Demonstration

OT:MS - Master of Science in Occupational Therapy

Overview

Degree Offered
MS - Master of Science

Program Title
Occupational Therapy

The Master of Science (MS) in Occupational Therapy program prepares students to become skilled entry-level occupational therapists. The curriculum emphasizes occupational performance, culture and diversity, research and evidence-based practices, and community engagement. This intensive, in-person hands-on program equips students with the knowledge, and skills to promote health, wellness, and occupational performance throughout the lifespan. Graduates of the MSOT program are eligible candidates for certification by the National Board of Certification in Occupational Therapy (NBCOT) . The program is accredited by the Accreditation Council in Occupational Therapy Education (ACOTE), located at 7501 Wisconsin Avenue, Suite 510E, Bethesda, MD 20814; (301) 652-6611.

For more information, visit the Nicole Wertheim College of Nursing and Health Sciences website.

Admissions Requirements

Admissions Requirements for the Master of Science (MS) in Occupational Therapy (OT)

Admission to the Professional Master of Science in Occupational Therapy is highly competitive. Successful candidates are admitted-for the **fall semester of each academic year**. The department selects students based on their record of academic excellence, outstanding personal qualities and achievements.

To be considered for admission to the Professional Master's degree program students must:

(1) Hold a bachelor’s degree from a regionally accredited college or university.

(2) Have a minimum of 3.0 GPA average based on a 4.0 scale in upper division courses of the bachelor’s degree.

(3) Complete the following prerequisite courses prior to the start of the fall admission term with a minimum grade of “C”: a). Abnormal Psychology; b) Human Growth & Development; c) Biology with Lab; d) Statistics; and e) Medical Terminology. Required cumulative GPA for all prerequisite courses is 3.0 on a 4.0 scale.

(4) A grade of “B” or above must be earned in the following three courses: a) Anatomy and Anatomy Lab; b) Physiology; and c) Neuroscience. Applicants with at least two of the three courses completed by the application deadline will be given priority for review and potential admission.

(5) Complete the OTCAS application. Provide 3 letters of reference, a personal essay of professional and educational goals, work experience, activities, accomplishments and recognitions. These documents are submitted directly with your application. Admission is competitive and meeting the minimum requirements for admission does not guarantee admission into the program.

(6) Meet admissions requirements of the OT department, FIU’s Admission Office and pay the FIU Admissions Office application fee.

(7) International students must have a bachelor's degree equivalent of a US baccalaureate degree from an institution recognized in their own country as preparing students for graduate level study. International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). Minimum required scores is 550 on the paper-based TOEFL, 80 on the internet-based TOEFL (iBT) or 6.5 overall on the IELTS.

(8) A departmental interview is required.

All incoming students are required to be competent users of online educational technology. These competencies include the ability to access, navigate, and interact within a Learning Management System. Other technology competencies include, but are not limited to, the ability to communicate (i.e., sending/receiving email), work productively (access, complete, and submit assignments and take exams), engage in research/scholarly activities and course presentation requirements. Students must be able to meet performance standards with or without reasonable accommodations. Performance standards are consistent with those required of entry-level occupational therapists and can be accessed on our website.

Prerequisites for the Professional MS degree

(1) Biology and lab (4 credits)

(2) Human Physiology (3 credits) or Anatomy/Physiology I and II with labs *(students who have completed Anatomy/ Physiology I and II with labs have met the prerequisites for Anatomy and Physiology) (*8 credits)

(3) Abnormal Psychology (3 credits)

(4) Human Growth and Development (3 credits)

(5) Statistics (3 credits)

(6) Human Anatomy with lab1 (4 credits)

(7) Medical Terminology (1-3 credits)

(8) Neuroscience (3 credits)

Human Anatomy with lab 1 and **Neuroscience** from the list above must be numbered 3000 or above.

Background Checks and Drug Screenings

All admitted and incoming students, as part of the admission process, must comply with the Nicole Wertheim College of Nursing and Health Sciences [NWCNHS] policy for health and immunization screening and background check.

The health and immunization screening includes the following requirements:

(1) Immunization and /or titers of:

--Varicella, Rubeola and Rubella, Mumps or MMR vaccine

--Tetanus Toxoid booster; diphtheria; pertussis, or ADACEL vaccine

--Hepatitis B Vaccine (3 doses)

--PPD- 2 step-if 1st time taker

(2) Medical history and Physical Exam

(3) CPR/BLS – for health care providers from AHA

(4) Proof of major medical health insurance coverage

(5) 7 year employment verification

(6) Pass a drug screening

Florida International University- NWCNHS utilizes *Complio* as the background clearing house, and for tracking student immunization records.

The background check includes social security number search (residency history, state and year SSN issued), criminal search (7 years), sex offender search, federal criminal search, and healthcare exclusion list.

Program Requirements

Academic Progression Requirements

The student must maintain a cumulative GPA of 3.0 in required OT graduate courses with a minimum of a "C+" (77%) or better in all required OT courses.

If a student earns less than a C+ in any course, the course must be repeated and earn a grade of “B” or better. If this course is a pre-requisite for another course, the student will not be allowed to continue enrollment. Only one course repeat in the program will be allowed. Therefore, a student who earns a grade below a C+ in more than one course will be dismissed from the OT program.

Students may not have a cumulative GPA below 3.0 in the OT didactic courses for more than two semesters (this encompasses semesters one through four). If the cumulative GPA for required coursework is below 3.0 for a third semester, the student will be dismissed from the program.

A cumulative GPA of 3.0 is required to enroll in semesters five and six (OTH5845 and OTH5846 fieldwork courses).

NOTE: The programs, policies, requirements, and regulations listed in this catalog are continually reviewed in order to serve the needs of the University’s and College’s various policies and to respond to the mandates of the Florida Department of Education, Board of Governors, the Legislature, and other regulatory and accrediting agencies. Changes may be made without advance notice. Please refer to the *Policies and Processes* tab in this University Catalog for the University’s policies, requirements, and regulations. Please refer to https://cnhs.fiu.edu/academics/occupational-therapy/index.html for latest information on the OT program, policies, and procedures.

Additional Degree Requirements

Good Standing: To achieve and maintain a classification of good standing, the student must maintain a minimum GPA of 3.0 in the courses required for the OT degree. The OT Program consists of 67 graduate credits. Full time enrollment is required. Students will complete six semesters in the program.

Degree Program Credit Hours: 67

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- OTH5011 - Foundations of Occupational Therapy Practice
- OTH5162 - Therapeutic Approaches in Occupational Therapy
  AND OTH5162L - Therapeutic Approaches in Occupational Therapy - Lab
- OTH5202 - Occupational Development: Infancy Throughout Adolescence
  AND OTH5202L - Occupational Development: Infancy Through Adolesence
- OTH5414 - Analysis & Adaptation in Human Motion
  AND OTH5414L - Analysis & Adaptation in Human Motion Lab
- OTH6195 - Assistive Technology and the Environment
- OTH6772 - Evidence Based Practice and Critical Appraisal
- OTH5430 - Biomechanical and Rehabilitative Approaches in Occupational Therapy I
  AND OTH5430L - Biomechanical and Rehabilitative Approaches in Occupational Therapy I - Lab
- OTH5217 - Occupational Engagement Throughout the Continuum of Care
  AND OTH5217L - Occupational Engagement Throughout the Continuum of Care Lab
- OTH5301 - Adaptation of Human Occupation and Environment for Psychosocial Practice I
  AND OTH5301L - Adaptation of Human Occupation and Environment for Psychosocial Practice I Lab
- OTH5524 - Occupation-based Intervention for Pediatric Populations
  AND OTH5524L - Occupation-based Intervention for Pediatric Populations Lab
- OTH6972 - Master's Project Development
- OTH6431 - Biomechanical and Rehabilitative Approaches in Occupational Therapy II
  AND OTH6431L - Biomechanical and Rehabilitative Approaches in Occupational Therapy II Lab
- OTH5438 - Adult Neurorehabilitative Approaches in Occupational Therapy
  AND OTH5438L - Adult Neurorehabilitative Approaches in Occupational Therapy - Lab
- OTH5843C - Adaptation of Human Occupation and Environment for Psychosocial Practice II
- OTH5725 - Management and Community Based Practice in Occupational Therapy
- OTH6973 - Master's Project Implementation
- OTH5845 - Level II Fieldwork I
- OTH5846 - Level II Fieldwork II

Graduation Requirements

To be eligible for graduation the student must:

(1) Meet all University Graduate School requirements for graduation.

(2) Satisfactorily complete all didactic and fieldwork requirements within OT degree program guidelines.

(3) Have a minimum graduate GPA of 3.0.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no track, specialization, concentration, area of emphasis, or other curricular offerings associated with this program.

PA:MPA - Master of Public Administration

Overview

Degree Offered
MPA - Master of Public Administration

Program Title
Public Administration

The Master of Public Administration (MPA) degree is designed for professionals with experience working in public and nonprofit organizations and those aiming to launch start their careers in the public sector.

For more information, visit the Steven J. Green School of International and Public Affairs website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Master of Public Administration (MPA)

(1) Bachelor’s degree from an accredited institution.

(2) GPA of 3.0 or better in all upper division (undergraduate) course work.

(3) Submit three academic or professional letters of recommendation from faculty members at their undergraduate institution or from employment supervisors.

(4) Submit a current resume.

(5) Demonstrate graduate level writing competency and interest in public service values by submitting a letter-of-intent not to exceed three double-spaced pages explaining how earning the MPA degree is consistent with long-term career goals. Students may also use this letter to discuss their passion for public issues or policies and to communicate to the Admissions Committee if they feel that their admission file does not properly reflect their potential to succeed in graduate school.

All above documents must be submitted by the stated application deadline.

Admissions Requirements for the Accelerated 4+1 Master of Public Administration Degree Pathway

(1) The applicant must have an overall GPA of 3.25 or better.

(2) Letter of recommendation from a faculty member at FIU or from a supervisor.

(3) Current resume.

(4) Letter-of-intent not to exceed three double-spaced pages explaining how earning the MPA is consistent with long-term career goals. Students may also use this letter to discuss their passion for public service or policies and to communicate to the admission committee if they feel that their admission file does not properly reflect their potential to succeed in graduate school.

(5) Students can apply after having completed 75 credits in a bachelor's degree program.

(6) Students must apply prior to the semester in which graduate credits will be counted towards their undergraduate degree program.

Admissions Requirements for the Accelerated 4+1 Bachelor of Arts in Psychology to Master of Public Administration Degree Pathway

Students accepted into the Accelerated 4+1 BA in Psychology/MPA degree pathway may take up to four MPA courses, 12 graduate credits, which will be double counted for their BA and MPA degrees.

Admissions Requirements for the Accelerated Degree Pathway:

(1) The applicant must have an overall GPA of 3.25 or better.

(2) Letter of recommendation from a faculty member at FIU or from a supervisor.

(3) Current resume.

(4) Letter-of-intent not to exceed three double-spaced pages explaining how earning the MPA is consistent with long-term career goals. Students may also use this letter to discuss their passion for public service or policies and to communicate to the admission committee if they feel that their admission file does not properly reflect their potential to succeed in graduate school.

(5) Students can apply after having completed 75 credits in a bachelor's degree program.

(6) Students must apply prior to the semester in which graduate credits will be counted towards their undergraduate degree program.

Admissions Requirements for the Accelerated 4+1 Bachelor of Science in Crime Science to Master of Public Administration Degree Pathway

(1) The applicant must have an overall GPA of 3.25 or better.

(2) Letter of recommendation from a faculty member at FIU or from a supervisor.

(3) Current resume.

(4) Letter-of-intent not to exceed three double-spaced pages explaining how earning the MPA is consistent with long-term career goals. Students may also use this letter to discuss their passion for public service or policies and to communicate to the admission committee if they feel that their admission file does not properly reflect their potential to succeed in graduate school.

(5) Students can apply after having completed 75 credits in a bachelor's degree program.

(6) Students must apply prior to the semester in which graduate credits will be counted towards their undergraduate degree program.

Admissions Requirements for the Accelerated 4+1 Bachelor of Science in Criminal Justice to Master of Public Administration Degree Pathway

(1) The applicant must have an overall GPA of 3.25 or better.

(2) Letter of recommendation from a faculty member at FIU or from a supervisor.

(3) Current resume.

(4) Letter-of-intent not to exceed three double-spaced pages explaining how earning the MPA is consistent with long-term career goals. Students may also use this letter to discuss their passion for public service or policies and to communicate to the admission committee if they feel that their admission file does not properly reflect their potential to succeed in graduate school.

(5) Students can apply after having completed 75 credits in a bachelor's degree program.

(6) Students must apply prior to the semester in which graduate credits will be counted towards their undergraduate degree program.

Admissions Requirements for the Bachelor of Public Policy and Service to Master of Public Administration Accelerated Degree Pathway

(1) Overall GPA of 3.25 or better.

(2) Letter of recommendation from a faculty member at FIU or from a supervisor.

(3) Current resume.

(4) Letter-of-intent not to exceed three double-spaced pages explaining how earning the MPA is consistent with long-term career goals. Students may also use this letter to discuss their passion for public issues or policies and to communicate to the admission committee if they feel that their admission file does not properly reflect their potential to succeed in graduate school.

(5) Students can apply after having completed 75 credit hours in the BPPS program.

(6) Students must apply prior to the semester in which credits will be counted towards their BPPS degree program.

Admissions Requirements for the Master of Public Administration and Master of Science in Criminal Justice Joint Degree Pathway

(1) Candidates in the joint degree pathway must meet the admission requirements established by each individual program. Candidates must indicate in the application their intention to pursue the joint degree option. Students deciding to pursue the joint degree option after having been admitted to one program will indicate this intention only on their second application.

(2) Applicants for a joint degree pathway will not be accepted from candidates who have already completed either degree. MS in Criminal Justice or MPA students must apply and be admitted by no later than the second to last semester in which they are expected to complete their original degree requirements.

Program Requirements

The MPA program requires 42 credits. Students with less than three years of public service (public or non-profit sectors) experience in positions with some management or project management responsibilities may be required to complete a public service internship. PAD6946 Pad Internship may be used as an elective toward satisfaction of the 42 credit requirement for program completion.

Program Credit Hours: 42

Type

Completion Requirement

Core Courses: 27 credits

Core courses may be restricted to degree-seeking or certificate-seeking graduate students in the Department of Public Policy and Administration. All other students must seek approval of department.

Complete ALL of the following Courses:

- PAD6053 - Political, Social and Economic Context of Public Administration
- PAD6056 - The Practice of Public Management
- PAD6227 - Public Finance and the Budgetary Process
- PAD6417 - Human Resource Policy and Management
- PAD6306 - Policy Analysis
- PAD6701 - Quantitative Methods in Public Administration
- PAD6434 - Leadership and Decision-making
- PAD6726 - Applied Research Methods for Accountability in Public and Nonprofit Organizations
- PAD6718 - Smart Governance

Note: PAD6726 App Res Acct Pub requires successful completion of PAD6701 Quant Applications as a prerequisite.

Electives: 15 credits

Five (5) elective courses required.

Grading, Sequencing, and Substitution Policy

PAD6053 Pol Soc Econ Pub Adm, PAD6701 Quant Applications, and PAD6726 App Res Acct Pub must be taken during the first 18 credits of coursework (Note: PAD6701 Quant Applications is a prerequisite for PAD6726 App Res Acct Pub).

PAD6056 Practice Pub Mgmt is a capstone experience for the program and must be taken after the successful completion of the MPA core or last semester of coursework. The program reserves the right to withhold the awarding of credit for coursework taken out of sequence and without appropriate prerequisites.

Any core course, with the exception of PAD6056 Practice Pub Mgmt, may be waived through petition to the MPA program director or designee. The petitioner must demonstrate the equivalence of the previous coursework, and prove that their performance met or exceeded core requirements.

Students must maintain a 3.0 cumulative graduate GPA to graduate. A grade of "C" or better is required for every core course. Note: a grade of "C-" is not acceptable.

Major Requirements

Executive Master of Public Administration Major

The Executive MPA builds upon the extensive knowledge base that experienced public service professionals possess. The Executive MPA curriculum provides hands-on and in-depth exposure to the leadership, managerial, and analytic skills critical to advanced public sector professionals. The core courses are the same courses required by the traditional MPA program. The difference between this major and the traditional MPA is the pedagogical approach, delivery format, scheduling, facility, and the executive-level cohort.

Admission Requirements

(1) Bachelor's degree from an accredited institution;

(2) GPA of 3.0 or better in all upper division (undergraduate) course work;

(3) Graduate Record Examination (GRE) if their GPA in the upper division 60 credits is less than 3.0, and submit the score by the application deadline; LSAT and GMAT Scores are also accepted as substitutes for the GRE Score. Students with more than 18 credits of graduate-level coursework with grades of "B" or better may be exempted from the GRE requirement by the MPA program director;

(4) Submit three academic or professional letters of recommendation from faculty members at their undergraduate institution or from employment supervisors;

(5) Submit a current resume showing five to ten years of cumulative experience with public or non-profit organizations and at least three years of middle-to-upper level managerial experience; and

(6) Demonstrate graduate level writing competency and interest in public service values by submitting a letter-of-intent not to exceed three double-spaced pages explaining how earning the MPA is consistent with long-term career goals. Students may also use this letter to discuss their passion for public issues or policies and to communicate to the admission committee if they feel that their admission file does not properly reflect their potential to succeed in graduate school.

Degree Requirements

The Executive MPA major requires 36 credits. The credit requirement is differentiated from that of the traditional MPA program because of students' extensive and/or managerial work experience in the public sector.

Executive Master of Public Administration

Type

Completion Requirement

Core Courses: 27 credits

Core courses may be restricted to degree-seeking or certificate-seeking graduate students in the Department of Public Policy and Administration. All other students must seek approval of department.

Complete ALL of the following Courses:

- PAD6053 - Political, Social and Economic Context of Public Administration
- PAD6056 - The Practice of Public Management
- PAD6227 - Public Finance and the Budgetary Process
- PAD6417 - Human Resource Policy and Management
- PAD6306 - Policy Analysis
- PAD6701 - Quantitative Methods in Public Administration
- PAD6434 - Leadership and Decision-making
- PAD6726 - Applied Research Methods for Accountability in Public and Nonprofit Organizations
- PAD6718 - Smart Governance

Note: PAD6726 App Res Acct Pub requires successful completion of PAD6701 Quant Applications as a prerequisite.

Electives: 9 credits

Three (3) elective courses required.

Grading, Sequencing, and Substitution Policy

The Executive MPA major is a cohort program. Classes are dynamically scheduled to meet on one weekday evening and Saturdays. The program is designed with several weekends off in each semester. The Executive MPA is accelerated in that students can finish the entire program in 12 months.

Any core course, with the exception of PAD 6056, may be waived through petition to the MPA program director or designee. The petitioner must demonstrate the equivalence of the previous coursework, and prove that their performance met or exceeded core requirements.

Students must maintain a 3.0 cumulative graduate GPA to graduate. A grade of "C" or better is required for every core course. Note: A grade of "C-" is not acceptable.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Accelerated 4+1 Master of Public Administration Degree Pathway

Type

Completion Requirement

Required Courses Part 1

The MPA program allows qualified students to earn both their bachelor's and MPA degrees in a shorter amount of time than typically required for earning degrees sequentially. A student admitted to the accelerated 4+1 MPA degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Students accepted into the accelerated 4+1 MPA degree pathway may take up to four MPA courses, 12 graduate credits, which will be double counted for their bachelor's and MPA degrees.

The accelerated 4+1 MPA degree pathway is open to FIU undergraduate students from all bachelor's degree programs except the PPS:BPPS (BPPS); students should refer to the catalog description for the BPPS/MPA accelerated degree pathway.

Undergraduate students from PSYC:BA, CRMJST:BS, and CRMSCI:BS should consult with their academic advisors on details of their program-specific accelerated 4+1 MPA degree pathways. These program-specific pathways have the same admission and completion requirements, but offer streamlined admission, student service, advising, and program completion.

-- Accelerated 4+1 BA in Psychology/MPA Degree Pathway
-- Accelerated 4+1 BS in Criminal Justice/MPA Degree Pathway
-- Accelerated 4+1 BS in Crime Science/MPA Degree Pathway

Students admitted into the accelerated 4+1 MPA degree pathway should take up to four courses from the list below toward satisfying both their bachelor's and MPA degree requirements:

Complete ALL of the following Courses:

- PAD6053 - Political, Social and Economic Context of Public Administration

PAD6053 Pol Soc Econ Pub Adm must be taken within the first two semesters after a student is accepted into the accelerated degree pathway

Required Courses Part 2

Students may select at least two of the following courses to be double counted (students may select three courses):

Complete at least 2 of the following courses:

- PAD6227 - Public Finance and the Budgetary Process
- PAD6306 - Policy Analysis
- PAD6417 - Human Resource Policy and Management
- PAD6434 - Leadership and Decision-making
- PAD6701 - Quantitative Methods in Public Administration
- PAD6726 - Applied Research Methods for Accountability in Public and Nonprofit Organizations
- PAD6718 - Smart Governance

If only two courses are selected from the above list, students may select one additional graduate-level course to be double counted. The course must have a course number of 5000 or higher and a prefix of PAD, PUP, URP, or URS.

Students in the accelerated 4+1 MPA degree pathway should consult their advisor regarding substitutions of the courses mentioned above for undergraduate courses in their program.

Students must pass graduate courses with a grade of "B" or higher to count them toward the MPA degree. Students accepted into the accelerated 4+1 MPA degree pathway must fulfill all MPA requirements to receive the MPA degree.

Note: PAD6701 Quant Applications is a prerequisite to PAD6726 App Res Acct Pub

Other Curricular Offering: Accelerated 4+1 Bachelor of Arts in Psychology to Master of Public Administration Degree Pathway

Type

Completion Requirement

Required Courses Part 1

The MPA program allows qualified students to earn both their bachelor's and MPA degrees in a shorter amount of time than typically required for earning degrees sequentially. A student admitted to the accelerated 4+1 BA in Psychology/ MPA degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships.

Complete ALL of the following Courses:

- PAD6053 - Political, Social and Economic Context of Public Administration

PAD6053 Pol Soc Econ Pub Adm must be taken within the first two semesters after a student is accepted into the combined degree pathway

Required Courses Part 2

Students may select two of the following courses to be double counted:

Complete at least 2 of the following courses:

- PAD6227 - Public Finance and the Budgetary Process
- PAD6306 - Policy Analysis
- PAD6417 - Human Resource Policy and Management
- PAD6434 - Leadership and Decision-making
- PAD6701 - Quantitative Methods in Public Administration

Students must pass graduate courses with a grade of "B" or higher to count them toward the MPA degree. Students accepted into the accelerated 4+1 degree pathway must fulfill all MPA requirements to receive the MPA degree.

Note: PAD6701 Quant Applications is a prerequisite to PAD6726 App Res Acct Pub

Other Curricular Offering: Bachelor of Public Policy and Service to Master of Public Administration Accelerated Degree Pathway

Type

Completion Requirement

Required Courses Part 1

The Department of Public Policy and Administration allows qualified students to earn both Bachelor of Public Policy and Service (BPPS) and MPA degrees in a shorter amount of time than typically required for earning degrees sequentially. A student admitted to the accelerated degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships.

Courses Counted Toward both Degree Programs

Students accepted into the accelerated degree pathway may count no more than 4 MPA courses (maximum of 12 credits) listed below toward satisfying both the BPPS and MPA degree requirements:

Complete ALL of the following Courses:

- PAD6053 - Political, Social and Economic Context of Public Administration

PAD6053 Pol Soc Econ Pub Adm must be taken within the first two semesters after a student is accepted into the accelerated degree pathway

Required Courses Part 2

Complete at least 2 of the following courses:

- PAD6227 - Public Finance and the Budgetary Process
- PAD6306 - Policy Analysis
- PAD6417 - Human Resource Policy and Management
- PAD6434 - Leadership and Decision-making
- PAD6701 - Quantitative Methods in Public Administration
- PAD6726 - Applied Research Methods for Accountability in Public and Nonprofit Organizations
- PAD6718 - Smart Governance

If only two courses are selected from the above list, students may select one additional graduate-level course to be double counted. The course must have a course number of 5000 or higher and a prefix of PAD, PUP, URP, or URS.

With advisor approval, students in the accelerated degree pathway can substitute these graduate courses for the equivalent required or any elective BPPS courses listed in the program catalog, with the exception of PAD4934 Integrative Sem Public Po, which must be taken by all BPPS majors. Students must pass graduate courses with a grade of "B" or higher to count them toward the MPA degree.

Students accepted into the accelerated degree pathway must complete all of the requirements of the MPA to receive the MPA degree.

Notes: PAD4723 App Res Meth is a prerequisite to PAD6701 Quant Applications; PAD6701 Quant Applications is a prerequisite to PAD6726 App Res Acct Pub

Other Curricular Offering: Master of Public Administration and Master of Science in Criminal Justice Joint Degree Pathway

The Department of Criminology and Criminal Justice and the Department of Public Policy and Administration have a joint degree pathway culminating in both a Master of Science (MS) in Criminal Justice and a Master of Public Administration (MPA). The joint degree pathway prepares graduate students for overlapping careers in criminal justice and public management. It is intended to prepare students for positions in public, private, and nonprofit organizations that require both criminal justice and management knowledge. Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively.

Degree Requirements

The joint degree pathway requires a total of 20 courses (60 credits) as follows:

(1) Nine core courses (27 credits) from MPA.

(2) Six core courses (18 credits) from MS in Criminal Justice.

(3) Five electives (15 credits). Of the five electives, 2 (6 credits) must be from MS in Criminal Justice and 2 (6 credits) must be from MPA. The remaining elective course (3 credits) can be selected from either program.

Award of Degrees

Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree pathway candidate.

PA:PHD - Doctor of Philosophy in Public Affairs

Overview

Degree Offered
PHD - Doctor of Philosophy

Program Title
Public Affairs

The Doctor of Philosophy (PhD) in Public Affairs equips students with critical thinking and research capacity on urban and comparative international governance issues. It broadly encompasses public administration, management, policy, and service and prepares students for research and analytic positions in universities, public agencies, and nonprofit organizations. For more information, visit the Steven J. Green School of International and Public Affairs website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the PhD in Public Affairs

Generally, applicants must have a master's degree prior to program enrollment, though outstanding applicants may also be considered with only a baccalaureate degree. Admission is not restricted to students with prior course work in Public Administration. The program encourages applicants with diverse academic backgrounds, with preference given to those with grounding in the policy or administrative sciences.

To be admitted to the PhD program, an applicant must submit the following materials:

(1) Complete FIU application for doctoral programs;

(2) Transcripts (applicants must demonstrate excellence in prior academic work by an earned GPA of 3.25 or better in either the undergraduate degree or the graduate degree);

(3) A personal statement describing the applicant's background, career goals, and the reasons for pursuing a PhD in Public Affairs. The statement should also indicate how research and career interests fit with those of current faculty;

(4) A current resume;

(5) Three references using the program's recommendation form;

(6) At least one writing sample.

International applicants whose native language is not English are required to demonstrate English language proficiency through one of the following:

-- 80 on the iBT TOEFL (equivalent to 550 on the paper-based version of the Test of English as a Foreign Language);

-- 6.5 overall on the International English Language Testing System (IELTS);

-- 53 Pearson Test of English - Academic;

-- Cambridge English - Advanced;

-- 110 Duolingo English Test – Combined;

-- English Language Institute certification of satisfactory completion of all content areas with at least level six (6) proficiency;

-- Applicants who hold an undergraduate or graduate degree from an accredited institution where the language of instruction is English.

All students living within a 50-mile radius of FIU are strongly encouraged to interview with the PhD director during the admissions process. Telephone interviews may be arranged for students living outside a 50-mile radius.

The admission process is competitive and the program considers all of the evidence in the application file in making its decision. Meeting the minimum requirements does not guarantee admission and applicants failing to meet the minimum requirements may be admitted based on other evidence of potential, such as prior research or senior executive status.

Admitted students may transfer a maximum of 12 credits from other institutions towards PhD degree requirements, subject to the approval of the Doctoral Committee. Admitted students must demonstrate knowledge of American political institutions, basic theories of public administration, social science research methods, and substantive areas of the student's research interest. Students with deficiencies in any of the above-mentioned areas may be assigned additional specific coursework.

Financial Aid

The objective of financial aid is to provide direct assistance to those students who require financial assistance to complete the doctoral program, and to enhance the reputation of the program by attracting an outstanding cadre of students.

To receive financial aid from university and program sources, doctoral students must be enrolled full-time (9 credits during the term in which they receive financial aid). Students having graduate assistantships cannot hold other employment.

The exact amount of financial assistance depends upon funding provided by the university and the legislature. Assistantships do not cover additional student fees such as health, parking, athletic, and per credit fees.

Assistantships are awarded in one-year blocks, and are generally provided for up to four years of the student's doctoral study.

The university has a variety of other financial aid opportunities including graduate grants, scholarships, loans, work-study programs, and targeted scholarships. Information on these and other opportunities are available through the university's financial aid office. To apply for assistance, students should notify the PhD director of their intent at the time of application. For matriculation fee waivers and university assistance, students must file the university's Financial Aid Form (FAF) and other university aid documents. Information on the university's procedures is available through the Financial Aid office.

Program Requirements

Degree Requirements

To obtain the PhD degree, admitted students must complete at least 63 credits beyond the master's degree or its equivalent, including 48 credits of approved course work and 15 credits of dissertation work after advancing to candidacy. In addition, there is a residency requirement of at least 18 credits in three consecutive semesters of study during the first year of enrollment in the PhD program and a minimum of six credits required in all subsequent semesters.

Successful completion of course work and passing scores on the comprehensive examination are required before students can advance to candidacy for the PhD degree. After advancing to candidacy, students must defend a dissertation proposal. Students are advised to consult the doctoral program handbook for any additional information regarding benchmarks for student progress in grade point average, course completion, comprehensive examinations, and dissertation work. The student handbook provides an overview of all satisfactory progress requirements that students need to meet and explains the program's probation and dismissal processes.

Program of Study

The PhD in Public Affairs requires 63 credits beyond the master's degree, with eleven required courses (33 credits), three specialization elective courses (9 credits), a comprehensive examination (6 credits), and dissertation research (15 credits). Students without a master's degree (i.e., those with a bachelor's degree only) will need to take a minimum of 75 credits in the doctoral program.

During the first semester of the program, students are required to select, with the assistance and approval of the PhD director, an advisor who is a full-time faculty member in the program. By the end of the first year, students are required to develop a program of study with the assistance and approval of their advisor and the PhD director. The advisor may not necessarily be the same as the student's Dissertation Committee Chair at the later stage.

Program Credit Hours: 63

Type

Completion Requirement

Principal Core Curriculum: 27 credits

Complete ALL of the following Courses:

- PAD7277 - Public Administration and the American Political Economy
- PAD7155 - Organizational Development and Change in Public and Nonprofit Organizations
- PAD7703C - Empirical Methods in Public Administration
- PAD7705 - Applied Quantitative Analysis I
- URS7156 - Research Practicum
- PAD7707 - Applied Quantitative Analysis II
- PAD7055 - Scope and Theory of Public Administration
- PAD7929 - Summer Research Paper
- PAD6915 - Professional Development Workshop

Flexible Core Courses: 6 credits

Complete at least 2 of the following courses:

- PAD7026 - Special Topics in Public Affairs
- PAD7808 - Economic Development and Urban Management
- PAD7865 - Global Policy Challenges and Solutions
- PAF7002 - Foundations of Policy Analysis
- URS7644 - Managing Public Financial Resources

- URS7380 - Public Management and Behavioral Public Administration
- URS7157 - Special Topics in Research Methods

Specialization Courses: 9 credits

Students are required to take three courses in an area of specialization to be designed with the advisor. The courses must be at the 5000, 6000, or 7000 level and may be taken within the university. These specialization electives may also be especially designed courses developed in conjunction with the student's advisor and with approval of the PhD director. Specialization areas may include sub-fields within the discipline of Public Administration (e.g., human resource management; sub-national administration and policy) or may involve cognate disciplines (e.g., health services administration; criminal justice administration; environmental management).

In developing a specialization and program of studies, students may consult with Public Policy and Administration faculty (and faculty in their major's department, if appropriate). If the student's principal area of interest is in a cognate discipline outside of Public Administration or the major's department, the student and PhD director should consult with appropriate faculty in designing the program of study.

Comprehensive Examination: 6 credits

Subsequent to completion of course work, students are required to pass a two-part comprehensive examination. The first component of the comprehensive examination is a written examination testing for knowledge of the PhD core and related material. The second component is the submission of a research proposal that outlines the dissertation research problem, its significance, and the research method.

Students who fail the Comprehensive Examination on the first attempt must retake it at its next offering. Students who fail the examination twice are automatically dismissed in accordance with general university policy.

Dissertation: 15 credits

In consultation with the PhD director and the advisor, students should identify a Dissertation Committee Chair during the first two years of the program. The student should also form the Dissertation Committee before the comprehensive examination. Upon successful completion of the comprehensive examination, students should defend their dissertation proposal. Students are expected to defend the proposal before the end of the first semester subsequent to passing the Comprehensive Examination.

Upon the public defense and approval of the proposal, the students will initiate formal work on the dissertation. During this time, the students are expected to make appropriate progress toward completing the dissertation, and to enroll continually (see continuous enrollment policy) until the degree is completed. Upon completion of the dissertation, candidates will formally defend the research at a meeting conducted by the Dissertation Committee. The degree will be awarded upon a positive recommendation of the Committee and compliance with all policies and procedures required by the university.

Additional Comments:

Award of master's degree en route to PhD candidates: Under certain circumstances, individuals directly admitted into the Ph.D. program following completion of their bachelor's degree, may be awarded a Master's degree in Public Administration. To be eligible, a student must complete four out of the following core courses in the master's program – PAD6227 Pub Fin & Bdgt Prcs, PAD6306 Policy Analysis,PAD6417 Hum Res Pol & Man, PAD6434 Lead And Decision, PAD6718 Smart Governance, PAD6726 App Res Acct Pub – as well as two electives. Ph.D.-level equivalents of said core classes and electives, indicated through a history of cross-listings between a Ph.D.-level and a master's level course, fulfill the requirement. Upon certification by the student's advisor that this requirement has been met, the MPA Director will approve the award of the master's degree. The en route Master's degree is awarded after the student has passed the comprehensive examination and advanced to candidacy.

PADM:BPPA - Bachelor of Public Policy and Administration

Overview

Degree Offered
BPPA - Public Policy and Administration

Program Title
Public Policy and Administration

The Bachelor of Public Policy and Administration (BPPA) degree is offered for students interested in a public service career upon completion of their undergraduate work and for those who wish to continue in public administration at the graduate level.

For more information, visit the Steven J. Green School of International and Public Affairs website.

Admissions Requirements

Admissions Requirements for the Bachelor of Public Policy and Administration (BPPA)

See general university admissions requirements at admissions.fiu.edu.

Admissions Requirements for the Combined BPPA to Master of Public Administration (MPA) Accelerated Degree Pathway

(1) Overall GPA of 3.25 or better.

(2) Letter of recommendation from a faculty member at FIU or from a supervisor.

(3) Current resume.

(4) Letter-of-intent not to exceed three double-spaced pages explaining how earning the MPA is consistent with long-term career goals. Students may also use this letter to discuss their passion for public issues or policies and to communicate to the admission committee if they feel that their admission file does not properly reflect their potential to succeed in graduate school.

(5) Students can apply after having completed 75 credit hours in the BPPS program.

(6) Students must apply prior to the semester in which credits will be counted towards their BPPA degree program.

Program Requirements

Academic Progression Requirements

Students are admitted directly to their chosen major at the University. Students are expected to make good progress based on critical indicators that include course completion and GPA requirements. In cases where students are not making successful progress, a change of major may be required. Academic advisors work with students to identify an appropriate major where a student will be successful in completing an undergraduate degree.

Lower Division Preparation

Type
Completion Requirement

Common Prerequisites

It is required that students complete a course in American Government, Principles of Economics, and Computer Fundamentals for Business. For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Complete ALL of the following Courses:

- POS2041 - American Government
- ECO2013 - Principles of Macroeconomics
  OR ECO2023 - Principles of Microeconomics
- CGS2060 - Introduction to Microcomputers
  OR CGS2100 - Intro to Microcomputer Applications for Business
  OR CGS2518 - Computer Data Analysis

Additional Comments:

Upper Division

Type
Completion Requirement

Upper Division

Students must complete 30 credits of coursework comprised of 10 core courses.

Students must earn a grade of "C" or higher in each of the core courses.

Students are required to enroll in PAD3003 Intro Public Policy Admin during the first 12 credits of upper-division coursework.

Fulfill ALL of the following requirements:

Core Courses: 30 credits

Core Courses may be restricted to Degree-seeking students in the Department of Public Policy and Administration. All other students must seek approval of Department.

Complete ALL of the following Courses:

- PAD3003 - Introduction to Public Policy and Administration
- PAD3034 - Policy Development and Implementation

- PAD3800 - Managing Global Cities
- PUP4042 - Analytical Tools for Public Service
- PUP4033 - Public Service Leadership and Management
- PUP4110 - Public Service Budgeting and Financial Management
- PUP4103 - South Florida Urban Laboratory
- PUP4834 - Urban Resilience and Sustainability Policies in a Global Context
- PUP4214 - Global Perspectives on Urban Inequality, Poverty, and Economic Development
- PAD4934 - Integrative Seminar in Public Policy and Service

Concentration Electives: 6 credits

Students are required to take 6 credits of upper-division coursework from any Department within SIPA.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Combined Bachelor of Public Policy and Administration (BPPA) to Master of Public Administration (MPA) Accelerated Degree Pathway

Type

Completion Requirement

Required Courses Part 1

The Department of Public Policy and Administration allows qualified students to earn both BPPA and MPA degrees in a shorter amount of time than typically required for earning these degrees sequentially. A student admitted to the combined degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships.

Courses Counted Toward both Degree Programs

Students accepted into the combined degree pathway may count no more than 4 MPA courses (maximum of 12 credits) listed below toward satisfying both the BPPA and MPA degree requirements:

Complete ALL of the following Courses:

- PAD6053 - Political, Social and Economic Context of Public Administration

PAD6053 Pol Soc Econ Pub Adm must be taken within the first two semesters after a student is accepted into the combined degree pathway

Required Courses Part 2

Complete at least 2 of the following courses:

- PAD6227 - Public Finance and the Budgetary Process
- PAD6306 - Policy Analysis
- PAD6417 - Human Resource Policy and Management

- PAD6434 - Leadership and Decision-making
- PAD6701 - Quantitative Methods in Public Administration
- PAD6726 - Applied Research Methods for Accountability in Public and Nonprofit Organizations
- PAD6718 - Smart Governance

If only two courses are selected from the above list, students may select one additional graduate-level course to be double counted. The course must have a course number of 5000 or higher and have a prefix of PAD, PUP, URP or URS.

With advisor approval, students in the combined degree pathway can substitute these graduate courses for the equivalent required or any elective BPPS courses listed in the catalog, with the exception of PAD4934 Integrative Sem Public Po, which must be taken by all BPPS majors. Students must pass graduate courses with a grade of "B" or higher to count them toward the MPA degree.

Students accepted into the combined degree pathway must complete all of the requirements of the MPA to receive the MPA degree.

Notes: PAD4723 App Res Meth is a prerequisite to PAD6701 Quant Applications; PAD6701 Quant Applications is a prerequisite to PAD6726 App Res Acct Pub

PAS:MPAS - Master in Physician Assistant Studies

Overview

Degree Offered
MPAS - Master in Physician Assistant Studies

Program Title
Physician Assistant Studies

The Master in Physician Assistant Studies (MPAS) degree provides comprehensive and advanced graduate medical education, designed to train highly skilled physician assistants in primary care medicine. The MPAS program equips individuals to collaborate effectively with physicians and other medical professionals in delivering patient care across the healthcare spectrum. Upon completion of the program, graduates will possess the requisite knowledge, skills, and clinical experience to excel in diverse clinical settings, with the versatility to serve in primary care, underserved communities, and specialized areas.

For more information, visit the Herbert Wertheim College of Medicine website.

The MPAS program is currently implementing curriculum changes to better serve the learning needs and outcomes of our students. Please refer to the program's website (https://medicine.fiu.edu/academics/master-in-physician-assistant-studies-mpas/curriculum/website) to view the specific program of study for your admitted cohort.

To explore more about this program, visit the website below:

Requirements

Simple Requirements

Admissions Requirements

The MPAS program adheres to the general admission procedures outlined by the FIU University Graduate School (UGS). Completed applications are evaluated by an Admissions Committee designated by the program director, who is appointed by the Dean of the Herbrt Wertheim College of Medicine. In addition, applicants must meet the following criteria for admission to the master's program:

(1) Be a citizen or permanent resident of the United States;

(2) Hold a Bachelor's degree or its equivalent from an accredited college or university. Baccalaureate degrees must be completed by the spring semester prior to matriculation;

(3) Earn overall and prerequisite grade point averages-(GPAs) of at least 3.0 (on a 4-point scale);

(4) Complete all prerequisite courses within ten years of the application deadline. All prerequisite courses must be completed by the application deadline (i.e., courses completed after the application deadline will not be acknowledged). Applicants must earn grades of “C” or higher in all prerequisite courses. (refer to the MPAS website for more information);

(5) Submit official PA-CAT scores. Scores must be dated within 5 years of the application deadline. Scores should be sent by the Educational Testing Service directly to the Central Application Service for Physician Assistants, code 0554;

(6) Submit three letters of recommendation from physicians, physician assistants, nurse practitioners, professors, or any individual with whom the applicant has worked in a professional or educational environment;

(7) For international graduate student applicants whose native language is not English, a total score of 80 on the internet-based Test of English as a Foreign Language (TOEFL) (equivalent to a total score of 550 on the paper-based TOEFL) or 6.5 overall on the International English Language Testing System (IELTS) is required.

Program Requirements

The program is divided into two phases, didactic and clinical; the duration of the didactic phase is 15 months, and the duration of the clinical phase is 12 months.

The MPAS program is currently implementing curriculum changes to better serve the learning needs and outcomes of our students. Please refer to the program’s website (https://medicine.fiu.edu/academics/master-in-physician-assistant-studies-mpas/curriculum/website) to view the specific program of study for your admitted cohort.

Program Credit Hours: 92

Type

Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Fall Semester 1

Complete ALL of the following Courses:

- PAS6022 - Human Anatomy
- PAS6014 - Physiology
- PAS6040 - History and Physical Examination I
- PAS6184 - Medical Microbiology and Infectious Disease
- PAS6050 - The Role of the PA in Clinical Practice

AND

Spring Semester 2

Complete ALL of the following Courses:

- PAS6031 - Lab Medicine and Diagnostic Procedures
- PAS6015 - Pathophysiology
- PAS6011 - Clinical Medicine I
- PAS6023 - Pharmacology I

- PAS6090 - Evidence-Based Medicine I
- PAS6041 - History and Physical Examination II

AND

Summer Semester 3

Complete ALL of the following Courses:

- PAS6012 - Clinical Medicine II
- PAS6026 - Pharmacology II
- PAS6016 - Integration of Clinical Concepts I
- PAS6085 - Health Promotion and Disease Prevention
- PAS6043 - History and Physical Examination III

AND

Fall Semester 4

Complete ALL of the following Courses:

- PAS6005 - Psychiatry and Behavioral Medicine
- PAS6013 - Clinical Medicine III
- PAS6017 - Integration of Clinical Concepts II
- PAS6032 - Skills and Procedures
- PAS6044 - History and Physical Examination IV
- PAS6091 - Evidence-Based Medicine II

AND

Clinical Year Rotations

Complete ALL of the following Courses:

- PAS6103 - Internal Medicine Clerkship
- PAS6400 - Family Medicine Clerkship
- PAS6200 - Surgery Clerkship
- PAS6500 - Women's Health (OB-GYN) Clerkship
- PAS6300 - Pediatric Clerkship
- PAS6600 - Emergency Medicine Clerkship
- PAS6125 - Psychiatry Clerkship

AND

Elective Clinical Rotations

Complete ALL of the following Courses:

- PAS6940 - Elective Clinical Rotation I
- PAS6941 - Elective Clinical Rotation II

Graduation Requirements

To be awarded a Master in Physician Assistant Studies degree, each student must:

(1) Pass each required course/rotation with a grade of “C” (75%) or higher and maintain an overall GPA of 3.0;

(2) Pass summative written and practical examinations;

(3) Complete a minimum of 92 credits;

(4) Submit and obtain faculty endorsement of a signature paper/capstone project;

(5) Complete the Physician Assistant Clinical Knowledge Rating and Assessment Test (PACKRAT) for self-assessment;

(6) Comply with program standards of conduct and guidelines for ethical conduct;

(7) Complete the program’s Physician Assistant Board Review Course.

PEDNTR:CFI - Graduate Certificate in Pediatric Nutrition

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Pediatric Nutrition

This is a fully online program offered to students at the post-baccalaureate level to pursue an interdisciplinary concentration in the study of pediatric nutrition. The certificate empowers dietitians/nutritionists and other health care professionals to integrate nutrition into health care in public health settings with pregnant, and lactating women, infants and children. For more information, visit the Department of Dietetics and Nutrition website.

PH:MPH - Master of Public Health

Overview

Degree Offered
MPH - Master of Public Health

Program Title
Public Health

The Master of Public Health (MPH) degree prepares students to become effective public health practitioners, researchers and educators. Students select one of nine majors (concentration areas): Biostatistics; Brain, Behavior and Environment; Environmental Health Sciences; Epidemiology; Infectious Disease Epidemiology; Global Health; Health Promotion and Disease Prevention; Maternal and Child Health or Generalist On-Line. In addition to mastering foundational public health knowledge and competencies in evidence-based approaches to public health, public health and health care systems, planning and management to promote health, policy in public health, leadership, communication, interprofessional practice and systems thinking, required of all majors, students attain competencies specific to their chosen major (concentration). In addition, we offer MPH combined with other degrees: MD/MPH in Epidemiology, Master of Social Work (MSW)/ MPH in Health Promotion and Disease Prevention; , MSW/MPH in Health Promotion and Disease Prevention (HPDP) with MSW Advanced Standing Status, MSW/MPH Generalist with MSW Clinical as well as Advanced Standing, and MBA/MPH Generalist Online. Furthermore, there are Accelerated 4+1 Degree Pathways with most of the MPH majors for which undergraduate students may apply. For more information, visit the website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Master of Public Health (MPH)

Applicants for the MPH program must submit an application and supporting documents through SOPHAS: https://sophas.org/.

Applicants must meet the University's general graduate admission requirements:

(1) A Bachelor's degree or equivalent from an accredited college or university or, in the case of foreign students, an institution recognized in its own country as preparing students for further study at the graduate level.

Additional educational requirements per **MPH major**:

Environmental Health Sciences: A Bachelor's (or Master's) degree in biology, chemistry, physics, nursing, medicine, engineering, or other appropriate field with at least one (1) undergraduate biology, and one (1) undergraduate chemistry course.

Brain, Behavior and the Environment: A Bachelor's (or Master's) degree in biology, chemistry, physics, nursing, medicine, engineering, or other appropriate field with at least one (1) undergraduate biology, and one (1) undergraduate chemistry course.

Biostatistics: Preference will be given to applicants having completed coursework in mathematics through calculus.

(2) A minimum 3.0 GPA on the last 60 undergraduate hours.

(3) In addition, applicants are required to submit:

--a current resume;

--a written statement of purpose (career goals);

--three letters of recommendation.

(4) International graduate student applicants whose native language is not English are required to submit a standardized proficiency of English test score which meet FIU requirements.

Admission Requirements for the 4 + 1 BA-BS/MPH degree pathways

Eligibility

The Accelerated 4+1 MPH Degree Pathways are generally open to qualified currently enrolled FIU undergraduate students from all bachelor's degree programs. **Note additional educational requirements per specific MPH major below**.

The undergraduate degree program in which the student is currently enrolled must have the flexibility to use electives outside of the degree department. Check with academic advisor before applying to the specific MPH major accelerated degree pathway

Program application and admission requirements

1. Students can apply after having completed 75 credits in a bachelor's degree program. Students should choose the MPH major of their choice in submitting the application.

2. Overall GPA of 3.2 or better. Students must have a minimum of a 3.0 Grade Point Average (GPA) on a 4.0 scale in the previous 15 credits of undergraduate upper-division hours.

3. Students must apply prior to the semester in which graduate credits will be counted towards the undergraduate degree program. See specific majors below for appropriate semesters for application acceptance.

4. Students must apply through MyFIU and must submit the following documents:

· Statement of Purpose

· Three letters of recommendation

· Resume/CV

5. A $30 application dee is paid via the MyFIU portal.

6. Students may not enroll in graduate level classes until they are admitted to the graduate program.

Designated Semester for Admittance per MPH major:

1.Brain, Behavior and the Environment; Environmental Health Sciences; Epidemiology; Global Health; and Health Promotion and Disease Prevention: Fall semester only (students must meet the University Graduate School deadline for admittance in the fall semester).

2.Generalist Online: Fall or Spring semester (students must meet the University Graduate School deadline for either admittance in the fall or spring semester).

3.Biostatistics, Infectious Disease Epidemiology, and Maternal and Child Health do not currently offer 4+1 MPH degree pathways.

Additional educational requirements per specific MPH major:

1.Brain, Behavior and the Environment: Students must be enrolled in a Bachelor's degree program in biology, chemistry, physics, nursing, engineering, or other appropriate field with completion of at least one (1) undergraduate course in biology, and one (1) undergraduate course in chemistry.

2.Environmental Health Sciences: Students must be enrolled in a Bachelor's degree program in biology, chemistry, physics, nursing, engineering, or other appropriate field with completion of at least one (1) undergraduate course in biology, and one (1) undergraduate course in chemistry.

3.Epidemiology: Students must have a 3.0 (B) or higher grade in College Algebra , Statistics, or higher level math course.

Tuition and Fees:

• Any graduate courses taken as an undergraduate student will be charged at the FIU Graduate School rate.

• Qualifying students can receive financial aid to cover the undergraduate credit hours of their 4+1 enrollment. The difference in cost for the graduate-level credits is not covered by traditional financial aid. Students who have scholarships, grants, and other funding in their student financials account can apply these funds to the cost of the graduate credit hours.

Admissions Requirements for the MPH (major: Epidemiology) and Doctor of Medicine (MD) Joint Degree Pathway

--Medical students in the summer or fall of their third (M3) year (prior to November 1st) must make a formal application to the COM MPH Application Committee.

--This application will include a personal statement. They must also get approval from the MSEPC and the Executive Associate Dean for Academic Affairs prior to applying to the MPH program.

--Applications will only then be reviewed by the MPH - Epidemiology program admission committee. Applicants to the combined MD/MPH pathway will not be required to submit GRE scores. MCAT scores will be accepted.

Admissions Requirements for the MPH (major: Health Promotion and Disease Prevention) and Master of Social Work (MSW) Joint Degree Pathway

--Students will need to apply to and be accepted into each degree program separately in order to qualify for the combined degree pathway. Students will have to meet the regular admissions criteria for each program.

--Applicants must be admitted into both programs for the same term in order to proceed in the combined degree program.

--At the time of admission, the student must notify both programs that they are pursuing the combined degree pathway.

--Applicants cannot have any outstanding prerequisites.

Admissions Requirements for the MPH (major: Health Promotion and Disease Prevention) and MSW (Advanced Standing Status) Joint Degree Pathway

Admissions Process

--Students will need to apply to and be accepted into each degree pathway separately in order to qualify for the combined degree pathway.

--Applicants must be admitted into both programs for the same term in order to proceed in the combined degree program.

--At the time of admission, the student must notify both programs that they are pursuing the combined degree pathway.

--Applicants cannot have any outstanding pre-requisites.

Admissions Requirements for the MPH (Generalist) and MSW (Advanced Standing Status) (Clinical) Joint Degree Pathway

Admissions Process

--Students will need to apply to and be accepted into each degree program separately in order to qualify for the combined degree program.

--Applicants must be admitted into both programs for the same term in order to proceed in the combined degree program.

--At the time of admission, students must notify both programs that they are pursuing the combined degree pathway with advanced standing in social work.

--Applicants cannot have any outstanding prerequisites.

--Applicants cannot have less than a “B” in any core, social work courses in their undergraduate program

Admissions Requirements for the MPH (Generalist) and MSW (Clinical) Joint Degree Pathway

--Students will need to apply to and be accepted into each degree program separately in order to qualify for the combined degree program. Students will have to meet the regular admissions criteria for each program.

--Applicants must be admitted into both programs for the same term in order to proceed in the combined degree program.

--At the time of admission, the student must notify both programs that they are pursuing the combined degree pathway.

--Applicants cannot have any outstanding pre-requisites.

Admissions Requirements for the Master of Business Administration (Professional) and MPH (Generalist) Joint Degree Pathway

Candidates for the pathway must meet the entrance requirements for and be accepted by both the College of Business and the Robert Stempel College of Public Health and Social Work. Both colleges must be informed by the student at the time of application to the second college that the student intends to pursue the joint degree pathway.

The joint degree pathway is not open to students who have already earned one degree.

Program Requirements

Masters of Public Health Curriculum: 42 Credit Hours

Type
Completion Requirement

Core Curriculum: 15 credits

Complete ALL of the following Courses:

- PHC6000 - Epidemiology I: Introduction to Public Health Epidemiology
- PHC6052 - Biostatistics I
- PHC6102 - Health Policy in a Global Context
- PHC6315 - Introduction to Environmental Health Sciences
- PHC6410 - Health Behavior and Public Health

Students must earn at least a grade of B in four of the five core courses. Students must earn at least a grade of B minus in one core course.

Only grades of C or higher in the major or electives will count toward degree completion.

Practicum and Culminating Experience: 3 credits

PHC6945 Practicum in Pub Health (Practicum) and PHC6930 Integrative Sem Pub Hlth (culminating experience) are both required for all MPH students. The Practicum may be taken after completing a minimum of 30 hours, including all core courses. The Practicum may be waived if the student has at least 3 years of relevant practice experience working in a public health practice setting. The waiver request is prepared and submitted by the student, through their Faculty Advisor and Department Chair, for final approval/disapproval by the Academic Public Health Director. If the Practicum requirement is waived, the student will need to substitute additional approved hours so that the total curriculum hour requirement of 42 is met. MPH students are expected to complete PHC6930 Integrative Sem Pub Hlth Integrative Seminar in Public Health during their last semester in the program.

Complete ALL of the following Courses:

- PHC6945 - Practicum in Public Health
- PHC6930C - Integrative Seminar in Public Health

Major Requirements

Major in Biostatistics

Biostatistics is a field that facilitates the conduct of health and medical research through a focus on designing sound experiments and studies relevant to human health and through the process of collecting, managing, analyzing and interpreting data. Biostatisticians collaborate in the identification and refinement of important research questions and in the methods and procedures required to obtain high quality and reliable answers to these questions. There remains a shortage of professional biostatisticians and the field provides meaningful and rewarding careers for those interested and able to go down this path.

Major in Biostatistics: 24 credits

Type
Completion Requirement

Biostatistics Core Courses: 15 credits

Complete ALL of the following Courses:

- PHC6056 - Longitudinal Health Data Analysis
- PHC6064 - Applied Statistical Methods for Discrete Data
- PHC6080 - SAS Computing for the Health Sciences
- PHC6091 - Biostatistics 2
- PHC6059 - Survival Data Analysis

Electives for Biostatistics: 9 credits

Complete at least 3 of the following courses:

- PHC6055 - Data Management and Epidemiologic Analysis Using SAS/SPSS
- PHC6099 - R for Applied Biostatistical Methods
- PHC7719 - Multivariate Methods in Health Sciences Research
- PHC6067 - Probabilistic Graphical Models
- PHC6907 - Independent Study: Public Health
- PHC6931 - Special Topics in Biostatistics

Students may take other advisor approved graduate level courses.

Major in Brain, Behavior and the Environment

The Brain, Behavior and the Environment (BBE) MPH major is a rigorous program that emphasizes emerging themes in neuroscience, pharmacology, neurotoxicology, imaging, psychology and psychiatry, alongside environmental exposures to prepare students for medical, industrial, research, and government careers. The program provides students with the unique perspective of integrating environmental influences into understanding and combating complex neurobiological disorders.

Major in Brain, Behavior and the Environment: 24 credits

Type

Completion Requirement

Environmental Health Sciences Core Courses: 12 credits

Complete ALL of the following Courses:

- PHC6310 - Environmental Toxicology
- PHC6311 - Environmental Health Risk Assessment
- PHC6355 - Environmental and Occupational Health and Safety
- PHC6374 - Environmental Disasters and Human Health

Brain, Behavior and the Environment Required Courses: 12 credits

Complete ALL of the following Courses:

- PHC6380 - Introduction to Neurotoxicology
- PHC6730C - Neurotoxicology Research Methods
- PHC6382C - Neuropharmacology
- PHC6383C - Neurobehavioral Techniques

Major in Environmental Health Sciences

The graduate training programs in the Environmental Health Sciences are both interdisciplinary and interdepartmental. The Department of Environmental Health Sciences performs high quality mechanism- and evidence-based translational research, which impacts our teaching and training for future Environmental Health leaders. Our multidisciplinary EHS Faculty conduct world class research to investigate and prevent human diseases caused by environmental exposure, that goes beyond the traditional focus on hazardous agents.

Major in Environmental Health Sciences: 24 credits

Type

Completion Requirement

Environmental Health Sciences Core Courses: 12 credits

Complete ALL of the following Courses:

- PHC6310 - Environmental Toxicology
- PHC6311 - Environmental Health Risk Assessment
- PHC6355 - Environmental and Occupational Health and Safety
- PHC6374 - Environmental Disasters and Human Health

Environmental Health Sciences Electives :12 credits

Complete at least 4 of the following courses:

- PHC6312C - Health Impacts of Air, Water, and Land Pollution
- PHC6422 - Regulatory Aspects of Environmental Health Sciences
- PHC6538 - Gene & Environment Interaction
- PHC6662 - Global One Health
- PHC6907 - Independent Study: Public Health
- PHC6920 - Special Topics in Environmental Health Sciences
- PHC6380 - Introduction to Neurotoxicology
- PHC6730C - Neurotoxicology Research Methods
- PHC6382C - Neuropharmacology
- PHC6383C - Neurobehavioral Techniques

Students may take other advisor approved graduate level courses.

Major in Epidemiology

The Master of Public Health major in Epidemiology courses prepare students to investigate the distribution of diseases and health conditions in the population, disease outbreaks, and the factors determining the distribution.

Major in Epidemiology: 24 credits

Type

Completion Requirement

Epidemiology Core Courses: 15 credits

Complete ALL of the following Courses:

- PHC6002 - Infectious Disease Epidemiology
- PHC6003 - Chronic Disease Epidemiology

OR PHC6008 - Cardiovascular Disease Epidemiology
OR PHC6007 - Cancer Epidemiology

- PHC6013 - Epidemiology II: Observational Design
- PHC6016 - Social Epidemiology
  OR PHC6441 - Epidemiology of Health Disparity
- PHC6091 - Biostatistics 2
  OR PHC6080 - SAS Computing for the Health Sciences

Epidemiology Electives: 9 credits

Complete at least 3 of the following courses:

- PHC6007 - Cancer Epidemiology
- PHC6009 - AIDS Epidemiology and Control
- PHC6012 - Current Research in Epidemiology
- PHC6014 - Behavioral Epidemiology
- PHC6020 - Clinical Epidemiology
- PHC6055 - Data Management and Epidemiologic Analysis Using SAS/SPSS
- PHC6062 - Systematic Reviews and Meta-Analysis
- PHC6064 - Applied Statistical Methods for Discrete Data
- PHC6251 - Disaster and Emergency Epidemiology
- PHC6443 - Ethical Issues in Public Health
- PHC6510 - Advanced Infectious and Tropical Disease Epidemiology
- PHC6536 - Health Demography
- PHC6591 - Reproductive Health Epidemiology
- PHC6703 - Epidemiology Methods: Experimental Design
- PHC6715 - Survey Research in Public Health (Inactive)
- PHC6762 - International Public Health
- PHC6907 - Independent Study: Public Health
- PHC6934 - Scientific Writing and Oral Presentation in Epidemiology
- PHC6595 - Genetic Epidemiology

or any other advisor-approved elective, including those offered as Major in Epidemiology Core Courses.

Major in Public Health Generalist

The Major in Public Health Generalist prepares students for interdisciplinary public health positions that investigate the distribution of diseases, as well as determinants of social and environmental health among diverse populations. Students also learn how to use existing health policies and influence policies in support of optimizing population health.

Major in Public Health Generalist: 24 credits

Type

Completion Requirement

Public Health Generalist Core Courses: 15 credits

Complete ALL of the following Courses:

- PHC6055 - Data Management and Epidemiologic Analysis Using SAS/SPSS
- PHC6536 - Health Demography

- PHC6113 - Community Health Promotion Planning and Research
- PHC6600 - Health Promotion Communication Theory and Design
- PHC6104C - Public Health Management and Leadership
- PHC6800 - MPH Practicum Prep

Public Health Generalist Elective Courses: 9 credits

Students are required to take three courses (3-credits per course) for 9-credits of the following graduate public health electives. Students may take other advisor approved 6000 level courses to meet the 9-credit requirement.

Earn at least 9 credits from the following:

- PHC6009 - AIDS Epidemiology and Control
- PHC6091 - Biostatistics 2
- PHC6374 - Environmental Disasters and Human Health
- PHC6412 - Health Promotion in Culturally Diverse Communities
- PHC6355 - Environmental and Occupational Health and Safety

Major in Global Health

The Masters of Public Health degree with a Major in Global Health trains students to apply global health principles to both domestic and international challenges, with a focus on identifying and addressing health inequities. The program leverages a transdisciplinary approach to prepare technically skilled and cross-culturally competent professionals to overcome challenges in a continually-shifting and complex landscape, to analyze the impact of translational problems, to apply an integrative approach to contemporary health issues, to diplomatically function within and in conjunction with international agencies, to advocate as ethical leaders, and to work, communicate, and excel across diverse global and local settings. Graduates are positioned to start or advance careers in global health practice, research, education, or policy.

Major in Global Health: 24 credits

Type

Completion Requirement

Global Health Core Courses: 15 credits

Complete ALL of the following Courses:

- PHC6660 - Global Burden of Disease
- PHC6673 - Comparative Health Systems
- PHC6605 - Global Healthcare Quality and Safety
- PHC6663 - Global Mental Health
- PHC6306 - Intersections Between Human and Planetary Health
- PHC6941 - Global Health Practicum Prep

Global Health Electives: 9 credits

Global health-specific elective courses are listed below. Other courses relevant to global health may be substituted with advisor approval.

Complete ALL of the following Courses:

- PHC6609 - Healthy Aging for Global Populations

- PHC6662 - Global One Health
- PHC6661 - Global Health Governance

Major in Health Promotion and Disease Prevention

The courses prepare students to develop and implement health promotion/health education programs in various sites. This program of study is concerned with personal and public health lifestyles, identification of risk factors and behavioral change strategies that promote positive health behaviors of individuals, groups, and community. See also Graduate Certificates in Health Promotion and Maternal and Child Health, which do not require enrollment in the MPH degree program.

Major in Health Promotion and Disease Prevention: 24 credits

Type

Completion Requirement

Health Promotion and Disease Prevention Core: 12 credits

Complete ALL of the following Courses:

- PHC6146 - Health Promotion Program Planning and Intervention Design
- PHC6602 - Theoretical Foundations of Health Promotion
- PHC6706 - Research Methods in Public Health
- PHC6750 - Program Development and Evaluation in Health Promotion

Health Promotion and Disease Prevention Electives: 12 credits

Students may select four from the following list of Health Promotion and Disease Prevention courses. Students must consult with a faculty advisor for approval prior to selecting courses not on this list.

Complete at least 4 of the following courses:

- PHC5009 - AIDS: Contemporary Issues
- PHC6113 - Community Health Promotion Planning and Research
- PHC5415 - Public Health in Minority/Urban Population
- PHC6412 - Health Promotion in Culturally Diverse Communities
- PHC6443 - Ethical Issues in Public Health
- PHC6504 - Introduction to Public Health Education and Wellness
- PHC6530 - Principles of Maternal and Child Health
- PHC6580 - Contemporary Issues in Health Promotion
- PHC6589 - Health Promotion in Institutional Settings
- PHC6600 - Health Promotion Communication Theory and Design
- PHC6715 - Survey Research in Public Health (Inactive)
- PHC6751 - Community Organization for Health Promotion
- PHC6762 - International Public Health

Major in Infectious Disease Epidemiology

The Master’s of Public Health major in Infectious Disease Epidemiology (INFDISEPI) is designed to prepare students to address the challenge of emerging and reemerging infectious diseases, especially for tropical locations such as Miami and South Florida.

Major in Infectious Disease Epidemiology: 24 credits

Type

Completion Requirement

Epidemiology Core Courses: 15 credits

Complete ALL of the following Courses:

- PHC6002 - Infectious Disease Epidemiology
- PHC6003 - Chronic Disease Epidemiology
  OR PHC6008 - Cardiovascular Disease Epidemiology
  OR PHC6007 - Cancer Epidemiology
- PHC6013 - Epidemiology II: Observational Design
- PHC6016 - Social Epidemiology
  OR PHC6441 - Epidemiology of Health Disparity
- PHC6091 - Biostatistics 2
  OR PHC6080 - SAS Computing for the Health Sciences

Infectious Disease Epidemiology Required Courses: 9 credits

Complete ALL of the following Courses:

- PHC6009 - AIDS Epidemiology and Control
- PHC6510 - Advanced Infectious and Tropical Disease Epidemiology
- PHC6591 - Reproductive Health Epidemiology
  OR PHC6039 - Healthcare Epidemiology and Infection Control

Major in Maternal and Child Health

The Master's in Public Health major in Maternal and Child Health provides graduate- level instruction in the foundation of MCH. Students will gain skills to implement programs, conduct research, and inform policy to improve the health and well-being of women, children, and families.

Major in Maternal and Child Health: 24 credits

Type

Completion Requirement

Health Promotion and Disease Prevention Core Courses: 12 credits

Complete ALL of the following Courses:

- PHC6146 - Health Promotion Program Planning and Intervention Design
- PHC6602 - Theoretical Foundations of Health Promotion
- PHC6706 - Research Methods in Public Health
- PHC6750 - Program Development and Evaluation in Health Promotion

Maternal and Child Health Required Courses: 6 credits

Complete ALL of the following Courses:

- PHC6530 - Principles of Maternal and Child Health
- PHC6537 - Case Studies in Maternal and Child Health Programs, Policies and Research

Maternal and Child Health Elective Courses: 6 credits

Electives may be selected from the following list of Maternal and Child Health courses. Students must consult with a faculty advisor for approval prior to selecting elective courses not on this list.

Complete at least 2 of the following courses:

- SOW5240 - Advanced Interventions in Child Maltreatment
- PHC6063C - Health Policy Database Applications I
- PHC6531 - Environmental Justice: Contextualizing Maternal and Child, Women, Youth, and Family (WYF) Wellbeing
- PHC6591 - Reproductive Health Epidemiology
- PHC6504 - Introduction to Public Health Education and Wellness
- PHC6762 - International Public Health
- PHC6754C - Analytic Methods in Maternal and Child Health
- HUN6415 - Pediatric Nutrition

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: MPH (major: Health Promotion and Disease Prevention) and MSW Joint Degree Pathway

Type

Completion Requirement

Required Courses Year 1

The MSW/MPH in Health Promotion and Disease Prevention degree pathway is an interdisciplinary, three-year pathway incorporating knowledge and skills from social work and public health with a specialization in clinical social work and Health Promotion and Disease Prevention. The first year will consist of social work courses, followed by public health courses in the second year, and a combination of social work and public health courses in the final year. The required credits for the pathway would be 88 credits. Any deviation from the course plan set forth by the program will result in the student no longer being a part of the combined degree pathway.

Fulfill ALL of the following requirements:

Fall: 15 credits

Complete ALL of the following Courses:

- SOW5105 - Human Behavior and the Social Environment I
- SOW5235 - Social Welfare Policy and Services I
- SOW5342 - Social Work Practice with Individuals and Families
- SOW5379L - Interviewing Skills Lab
- SOW5404 - Social Work Research Methodology
  OR PHC6706 - Research Methods in Public Health

AND

Spring: 12 credits

Complete ALL of the following Courses:

- SOW5344 - Theory and Practice with Communities and Organizations
- SOW5324 - Theory and Practice With Groups
- SOW5532 - Field Practicum I
- SOW5629 - Social Work Practice with Diverse Populations

AND

Summer (Part 1): 3 credits

Complete ALL of the following Courses:

- SOW6125 - Human Behavior and the Social Environment II-Psychopathology

AND

Summer (Part 2): 3 credits

3 credits of a social work elective

Required Courses Year 2

Fulfill ALL of the following requirements:

Fall: 9 credits

Complete ALL of the following Courses:

- PHC6052 - Biostatistics I
- PHC6602 - Theoretical Foundations of Health Promotion
- PHC6410 - Health Behavior and Public Health

AND

Spring: 9 credits

Complete ALL of the following Courses:

- PHC6315 - Introduction to Environmental Health Sciences
- PHC6000 - Epidemiology I: Introduction to Public Health Epidemiology
- PHC6102 - Health Policy in a Global Context

AND

Summer: 6 credits

Two public health electives (6 credits)

Required Courses Year 3

Fulfill ALL of the following requirements:

Fall (Part 1): 9 credits

Complete ALL of the following Courses:

- PHC6146 - Health Promotion Program Planning and Intervention Design
- SOW6236 - Social Welfare Policy and Services II
- SOW6435 - Evidence-Based Social Work Practice

AND

Fall (Part 2): 3 credits

3 credits of a social work elective

AND

Spring: 9 credits

Complete ALL of the following Courses:

- SOW6425 - Clinical Assessment and Intervention Planning
- SOW6533 - Field Practicum II
- PHC6750 - Program Development and Evaluation in Health Promotion

AND

Summer: 10 credits

Complete ALL of the following Courses:

- PHC6930C - Integrative Seminar in Public Health
- SOW6534 - Field Practicum III
- SOW6351 - Clinical Intervention in Couple and Family Social Work Practice

Additional Comments:

Substitutions:

--SOW6533 Field Practicum II Field Practicum II may substitute for PHC6945 Practicum in Pub Health Practicum in Public Health with approval from internship coordinator in public health.

--Students may choose to take either PHC6706 Rsch Methods in PH Research Methods in Public Health or SOW5404 Sow Resrch Mthd I Social Work Research Methodology.

--Students must take two (2) electives in social work and two (2) electives in HPDP. The two (2) social work electives may substitute for the 3rd and 4th HPDP electives usually required.

--MSW/MPH students do not have to take PHC6500 Fnd Public Hld Prac Foundations in Public Health.

Other Curricular Offering: MPH (major: Health Promotion and Disease Prevention) and MSW (Advanced Standing Status) Joint Degree Pathway

Type

Completion Requirement

Required Courses Year 1

The MSW/MPH in Health Promotion and Disease Prevention with Advanced Standing degree pathway will be an interdisciplinary, two-year accelerated pathway incorporating knowledge and skills from social work and public health with a specialization in clinical social work and Health Promotion and Disease Prevention. Only students who already have an undergraduate degree in social work and meet the criteria for the advanced standing MSW may apply to this accelerated pathway. Both the first and second years of the pathway will involve social work and public health courses. Any deviation from the course plan set forth by the program will result in the student no longer being a part of the combined degree pathway.

The required number of credits for the program is 64.

Fulfill ALL of the following requirements:

Fall: 12 credits

Complete ALL of the following Courses:

- SOW6125 - Human Behavior and the Social Environment II-Psychopathology
- PHC6052 - Biostatistics I
- PHC6146 - Health Promotion Program Planning and Intervention Design
- PHC6410 - Health Behavior and Public Health

AND

Spring: 12 credits

Complete ALL of the following Courses:

- PHC6750 - Program Development and Evaluation in Health Promotion
- PHC6000 - Epidemiology I: Introduction to Public Health Epidemiology
- PHC6102 - Health Policy in a Global Context
- SOW6435 - Evidence-Based Social Work Practice

AND

Summer: 9 credits

Two public health electives (total of 6 credits) and one social work elective (3 credits)

Required Courses Year 2

Fulfill ALL of the following requirements:

Fall: 12 credits

Complete ALL of the following Courses:

- SOW6236 - Social Welfare Policy and Services II
- PHC6602 - Theoretical Foundations of Health Promotion
- PHC6315 - Introduction to Environmental Health Sciences
- PHC6706 - Research Methods in Public Health

AND

Spring (Part 1): 6 credits

Complete ALL of the following Courses:

- SOW6425 - Clinical Assessment and Intervention Planning
- SOW6534 - Field Practicum III

AND

Spring (Part 2): 3 credits

3 credits of a social work elective

AND

Summer: 10 credits

Complete ALL of the following Courses:

- PHC6930C - Integrative Seminar in Public Health
- SOW6534 - Field Practicum III
- SOW6351 - Clinical Intervention in Couple and Family Social Work Practice

Additional Comments:

Substitutions:

--SOW6533 Field Practicum II Field Practicum II may substitute for PHC6945 Practicum in Pub Health Practicum in Public Health with approval from internship coordinator in public health.

--Students must take two (2) electives in social work and two (2) electives in HPDP. The two (2) social work electives may substitute for the 3rd and 4th HPDP electives usually required.

--MSW/MPH students do not have to take PHC6500 Fnd Public Hld Prac Foundations in Public Health.

Other Curricular Offering: MPH (Generalist) and MSW (Advanced Standing Status) (Clinical) Joint Degree Pathway

Type

Completion Requirement

Required Courses Year 1

The MSW (Clinical)/MPH (Generalist) with Advanced Standing program will be an interdisciplinary, two-year accelerated program incorporating knowledge and skills from social work and public health. Only students who already have an undergraduate degree in social work and meet the criteria for the advanced standing MSW may apply to this accelerated program.

Both the first and second years of the program will involve social work and public health courses.

Any deviation from the course plan set forth by the program will result in the student no longer being a part of the combined degree pathway.

The required number of credits for the pathway is 60.

Fulfill ALL of the following requirements:

Fall: 12 credits

Complete ALL of the following Courses:

- SOW6125 - Human Behavior and the Social Environment II-Psychopathology
- PHC6000 - Epidemiology I: Introduction to Public Health Epidemiology
- PHC6102 - Health Policy in a Global Context
- PHC6315 - Introduction to Environmental Health Sciences

AND

Spring: 12 credits

Complete ALL of the following Courses:

- SOW6435 - Evidence-Based Social Work Practice
- PHC6065 - Public Health Statistics
- PHC6311 - Environmental Health Risk Assessment
- PHC6410 - Health Behavior and Public Health

AND

Summer (Part 1): 3 credits

Complete ALL of the following Courses:

- PHC6536 - Health Demography

AND

Summer (Part 2): 3 credits

3 credits of a social work elective.

Required Courses Year 2

Fulfill ALL of the following requirements:

Fall (Part 1): 9 credits

Complete ALL of the following Courses:

- PHC6055 - Data Management and Epidemiologic Analysis Using SAS/SPSS
- PHC6113 - Community Health Promotion Planning and Research
- PHC6155C - Health Policy Analysis

AND

Fall (Part 2): 3 credits

3 credits of a social work elective

AND

Spring: 6 credits

Complete ALL of the following Courses:

- SOW6425 - Clinical Assessment and Intervention Planning
- SOW6533 - Field Practicum II

AND

Summer: 10 credits

Complete ALL of the following Courses:

- SOW6534 - Field Practicum III
- SOW6351 - Clinical Intervention in Couple and Family Social Work Practice
- PHC6930C - Integrative Seminar in Public Health

Additional Comments:

Substitutions:

--SOW6533 Field Practicum II Field Practicum II may substitute for PHC6945 Practicum in Pub Health Practicum in Public Health with approval from internship coordinator in public health.

--PHC6155C Health Policy Analysis Health Policy Analysis may substitute for SOW6236 Sw Policy II Social Welfare Policy Services II.

--Students must take two (2) electives in social work. These electives may substitute for the electives in the MPH Generalist.

--MSW/MPH students do not have to take PHC6500 Fnd Public Hld Prac Foundations in Public Health.

Other Curricular Offering: MPH (Generalist) and MSW (Clinical) Joint Degree Pathway

Type

Completion Requirement

Required Courses: 90 credits

The MSW (Clinical)/MPH (Generalist) program is an interdisciplinary, three-year program incorporating knowledge and skills from social work and public health. The combined degree program consists of a combination of social work and public health courses. Any deviation from the course plan set forth by the program will result in the student no longer being a part of the combined degree pathway.

Fulfill ALL of the following requirements:

Year 1 (Fall): 15 credits

Complete ALL of the following Courses:

- SOW5105 - Human Behavior and the Social Environment I
- SOW5235 - Social Welfare Policy and Services I
- SOW5404 - Social Work Research Methodology
- PHC6000 - Epidemiology I: Introduction to Public Health Epidemiology
- PHC6102 - Health Policy in a Global Context

AND

Year 1 (Spring): 12 credits

Complete ALL of the following Courses:

- SOW5342 - Social Work Practice with Individuals and Families
- SOW5379L - Interviewing Skills Lab
- PHC6052 - Biostatistics I
- PHC6410 - Health Behavior and Public Health

AND

Year 1 (Summer-Part 1): 3 credits

Complete ALL of the following Courses:

- PHC6536 - Health Demography

AND

Year 1 (Summer-Part 2): 3 credits

3 credits of a social work elective

Year 2 Required Courses

Fulfill ALL of the following requirements:

Fall: 12 credits

Complete ALL of the following Courses:

- SOW5344 - Theory and Practice with Communities and Organizations
- SOW5629 - Social Work Practice with Diverse Populations
- PHC6113 - Community Health Promotion Planning and Research
- PHC6315 - Introduction to Environmental Health Sciences

AND

Spring (Part 1): 9 credits

Complete ALL of the following Courses:

- SOW5324 - Theory and Practice With Groups
- SOW5532 - Field Practicum I
- PHC6600 - Health Promotion Communication Theory and Design

AND

Spring (Part 2): 3 credits

3 credits of a social work elective

AND

Summer: 6 credits

Complete ALL of the following Courses:

- SOW6125 - Human Behavior and the Social Environment II-Psychopathology
- PHC6055 - Data Management and Epidemiologic Analysis Using SAS/SPSS

Year 3 Required Courses

Fulfill ALL of the following requirements:

Fall: 9 credits

Complete ALL of the following Courses:

- SOW6435 - Evidence-Based Social Work Practice
- PHC6104C - Public Health Management and Leadership
- SOW6236 - Social Welfare Policy and Services II

AND

Spring: 6 credits

Complete ALL of the following Courses:

- SOW6425 - Clinical Assessment and Intervention Planning
- SOW6533 - Field Practicum II

AND

Summer: 10 credits

Complete ALL of the following Courses:

- SOW6534 - Field Practicum III
- SOW6351 - Clinical Intervention in Couple and Family Social Work Practice
- PHC6930C - Integrative Seminar in Public Health

Additional Comments:

Substitutions:

--SOW6533 Field Practicum II Field Practicum II may substitute for PHC6945 Practicum in Pub Health Practicum in Public Health with approval from internship coordinator in public health.

--Students must take two (2) electives in social work. These electives may substitute for the electives in the MPH Generalist.

--MSW/MPH students do not have to take PHC6500 Fnd Public Hld Prac Foundations in Public Health.

Other Curricular Offering: Accelerated 4 + 1 degree pathway BS-BA/MPH - Brain, Behavior, and the Environment (BBE)

Type

Completion Requirement

Requirements

The Accelerated 4+1 Degree Pathway allows undergraduate students interested in the MPH -Brain, Behavior and Environment to enroll in graduate courses while obtaining their bachelor's degree. This pathway facilitates completion of the MPH degree in less time.

Fulfill ALL of the following requirements:

Public Health Courses

Admitted students can take up to 12 credits (4 courses) from the Public Health Core courses which will count both towards the bachelor's degree and the MPH. Students must earn at least a B in each of the courses. These should be selected from the following courses (students should consult with the public health advisor):

Complete ALL of the following Courses:

- PHC6052 - Biostatistics I
- PHC6000 - Epidemiology I: Introduction to Public Health Epidemiology
- PHC6410 - Health Behavior and Public Health
- PHC6102 - Health Policy in a Global Context
- PHC6315 - Introduction to Environmental Health Sciences

For this pathway, students should select PHC6000 Epi I: Intro PH Epi, PHC6052 Biostatistics I, PHC6315 Intro to Env Hlth Sci and either PHC6102 Health Policy or PHC6410 Hlth Beh & Pub Hlth. If less than four MPH courses are taken as an undergraduate, then the MPH degree may take longer to complete.

AND

Graduate Status

• Students must apply for the award of their bachelor's degree the semester the degree requirements will be completed.

• The bachelor's degree and master's degree cannot be awarded in the same term.

• No undergraduate credit may count toward the graduate degree.

• Upon receiving the undergraduate degree, students will be fully admitted into graduate status in the MPH degree and all graduate courses with a B or higher grade will be transferred into the specific major of the degree program.

• See the catalog section for MPH - Brain, Behavior and Environment for all degree requirements.

Other Curricular Offering: Accelerated 4 + 1 degree pathway BS-BA/MPH - Environmental Health Sciences (EHS)

Type

Completion Requirement

Requirements

The Accelerated 4+1 Degree Pathway allows undergraduate students interested in the MPH - Environmental Health Sciences to enroll in graduate courses while obtaining their bachelor's degree. This pathway facilitates completion of the MPH degree in less time.

Fulfill ALL of the following requirements:

Admitted Students

Admitted students can take up to 12 credits (4 courses) from the Public Health Core courses which will count both towards the bachelor's degree and the MPH. Students must earn at least a B in each of the courses. These should be selected from the following courses (students should consult with the public health advisor):

Complete ALL of the following Courses:

- PHC6052 - Biostatistics I
- PHC6000 - Epidemiology I: Introduction to Public Health Epidemiology
- PHC6410 - Health Behavior and Public Health
- PHC6102 - Health Policy in a Global Context
- PHC6315 - Introduction to Environmental Health Sciences

For this pathway, students should select PHC 6000, PHC 6052, PHC 6315, and either PHC 6102 or PHC 6410. If less than four MPH courses are taken as an undergraduate, then the MPH degree may take longer to complete.

AND

Graduate Status

• Students must apply for the award of their bachelor's degree the semester the degree requirements will be completed.

• The bachelor's degree and master's degree cannot be awarded in the same term.

• No undergraduate credit may count toward the graduate degree.

• Upon receiving the undergraduate degree, students will be fully admitted into graduate status in the MPH degree and all graduate courses with a B or higher grade will be transferred into the specific major of the degree program.

• See the catalog section for MPH - Environmental Health Sciences for all degree requirements.

Other Curricular Offering: Accelerated 4 + 1 degree pathway BS-BA/MPH - Epidemiology

Type

Completion Requirement

Requirements

The Accelerated 4+1 Degree Pathway allows undergraduate students interested in the MPH - Epidemiology to enroll in graduate courses while obtaining their bachelor's degree. This pathway facilitates completion of the MPH degree in less time.

Fulfill ALL of the following requirements:

Admitted Students

Admitted students can take up to 12 credits (4 courses) from the Public Health Core courses which will count both towards the bachelor's degree and the MPH. Students must earn at least a B in each of the courses. These should be selected from the following courses (students should consult with the public health advisor):

Complete ALL of the following Courses:

- PHC6052 - Biostatistics I
- PHC6000 - Epidemiology I: Introduction to Public Health Epidemiology
- PHC6410 - Health Behavior and Public Health

- PHC6102 - Health Policy in a Global Context
- PHC6315 - Introduction to Environmental Health Sciences

Two of these must be PHC 6000 and PHC 6052. If less than four MPH courses are taken as an undergraduate, then the MPH degree may take longer to complete.

AND

Graduate Status

- Students must apply for the award of their bachelor's degree the semester the degree requirements will be completed.
- The bachelor's degree and master's degree cannot be awarded in the same term.
- No undergraduate credit may count toward the graduate degree.
- Upon receiving the undergraduate degree, students will be fully admitted into graduate status in the MPH degree and all graduate courses with a B or higher grade will be transferred into the specific major of the degree program.
- See the catalog section for MPH - Epidemiology for all degree requirements.

Other Curricular Offering: Accelerated 4 + 1 degree pathway BS-BA/MPH - Generalist Online

Type

Completion Requirement

Requirements

The Accelerated 4+1 Degree Pathway allows undergraduate students interested in the MPH - Generalist Online to enroll in graduate courses while obtaining their bachelor's degree. This pathway facilitates completion of the MPH degree in less time.

Fulfill ALL of the following requirements:

Admitted Students

Admitted students can take up to 12 credits (4 courses) from the Public Health Core courses which will count both towards the bachelor's degree and the MPH. Students must earn at least a B in each of the courses. These should be selected from the following courses (students should consult with the public health advisor):

Complete ALL of the following Courses:

- PHC6052 - Biostatistics I
- PHC6000 - Epidemiology I: Introduction to Public Health Epidemiology
- PHC6410 - Health Behavior and Public Health
- PHC6102 - Health Policy in a Global Context
- PHC6315 - Introduction to Environmental Health Sciences

AND

Graduate Status

• Students must apply for the award of their bachelor’s degree the semester the degree requirements will be completed.

• The bachelor’s degree and master’s degree cannot be awarded in the same term.

• No undergraduate credit may count toward the graduate degree.

• Upon receiving the undergraduate degree, students will be fully admitted into graduate status in the MPH degree and all graduate courses with a B or higher grade will be transferred into the specific major of the degree program.

• See the catalog section for MPH - Generalist Online for all degree requirements.

Other Curricular Offering: Accelerated 4 + 1 degree pathway BS-BA/MPH – Global Health

Type

Completion Requirement

Requirements

The Accelerated 4+1 Degree Pathway allows undergraduate students interested in the MPH - Global Health to enroll in graduate courses while obtaining their bachelor's degree. This pathway facilitates completion of the MPH degree in less time.

Fulfill ALL of the following requirements:

Admitted Students

Admitted students can take up to 12 credits (4 courses) from the Public Health Core courses which will count both towards the bachelor’s degree and the MPH. Students must earn at least a B in each of the courses. These should be selected from the following courses (students should consult with a public health graduate advisor):

Complete ALL of the following Courses:

- PHC6052 - Biostatistics I
- PHC6000 - Epidemiology I: Introduction to Public Health Epidemiology
- PHC6410 - Health Behavior and Public Health
- PHC6102 - Health Policy in a Global Context
- PHC6315 - Introduction to Environmental Health Sciences

If less than four MPH courses are taken as an undergraduate, then the MPH degree may take longer to complete.

AND

Graduate Status

- Students must apply for the award of their bachelor’s degree the semester the degree requirements will be completed.
- The bachelor’s degree and master’s degree cannot be awarded in the same term.
- No undergraduate credit may count toward the graduate degree.

- Upon receiving the undergraduate degree, students will be fully admitted into graduate status in the MPH degree and all graduate courses with a B or higher grade will be transferred into the specific major of the degree program.
- See the catalog section for MPH - Generalist Online for all degree requirements.

Other Curriculum Offering: Accelerated 4 + 1 degree pathway BS-BA/MPH - Health Promotion and Disease Prevention

Type

Completion Requirement

Requirements

The Accelerated 4+1 Degree Pathway allows undergraduate students interested in the MPH - Health Promotion and Disease Prevention to enroll in graduate courses while obtaining their bachelor's degree. This pathway facilitates completion of the MPH degree in less time.

Fulfill ALL of the following requirements:

Admitted students

Admitted students can take up to 12 credits (4 courses) from the Public Health Core courses which will count both towards the bachelor’s degree and the MPH. Students must earn at least a B in each of the courses. These should be selected from the following courses (students should consult with the public health advisor):

Complete ALL of the following Courses:

- PHC6410 - Health Behavior and Public Health
- PHC6000 - Epidemiology I: Introduction to Public Health Epidemiology
- PHC6102 - Health Policy in a Global Context
- PHC6315 - Introduction to Environmental Health Sciences
  OR PHC6052 - Biostatistics I

If less than four MPH courses are taken then the MPH degree may take longer to complete.

AND

Graduate Status

• Students must apply for the award of their bachelor’s degree the semester the degree requirements will be completed.

• The bachelor’s degree and master’s degree cannot be awarded in the same term.

• No undergraduate credit may count toward the graduate degree.

• Upon receiving the undergraduate degree, students will be fully admitted into graduate status in the MPH degree and all graduate courses with a B or higher grade will be transferred into the specific major of the degree program.

• See the catalog section for MPH - Generalist Online for all degree requirements.

Other Curricular Offering: Master of Business Administration (Professional) and MPH (Generalist) Joint Degree Pathway

Type
Completion Requirement

Requirements

Public health challenges are becoming increasingly complex, requiring leaders who can navigate both the science of health and the operation of health systems. A joint MBA/MPH program equips graduates with the ability to understand the biological, social, and environmental determinants of health, while also developing the skills to manage resources, lead interdisciplinary teams, oversee finances, and drive strategic initiatives. This combination of expertise is critical for success in today's evolving healthcare landscape.

Candidates must satisfy all requirements for each degree. To meet degree requirements, specific identified courses must be transferred from one degree program to the other in order to count for both degrees. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher.

Fulfill ALL of the following requirements:

Master of Public Health (Generalist): 33 credit hours

Complete ALL of the following Courses:

- PHC6000 - Epidemiology I: Introduction to Public Health Epidemiology
- PHC6052 - Biostatistics I
- PHC6102 - Health Policy in a Global Context
- PHC6315 - Introduction to Environmental Health Sciences
- PHC6410 - Health Behavior and Public Health
- PHC6055 - Data Management and Epidemiologic Analysis Using SAS/SPSS
- PHC6536 - Health Demography
- PHC6113 - Community Health Promotion Planning and Research
- PHC6600 - Health Promotion Communication Theory and Design
- PHC6104C - Public Health Management and Leadership
- PHC6800 - MPH Practicum Prep
- PHC6945 - Practicum in Public Health
- PHC6930C - Integrative Seminar in Public Health

AND

Master of Business Administration (Professional - PMBA): 30 credit hours

Complete ALL of the following Courses:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- QMB6357 - Business Statistical Analysis
- BUL6810 - Legal Environment of Business
  OR BUL6890 - Special Topics in Business Law
  OR BUL6656C - Business Law for Entrepreneurs

To complete the Professional MBA (PMBA) program, students must complete the three Professional Development Seminars (Professional Development I - Presentation Skills Seminar (PDS 1002), Professional Development II – Building Meaningful Networks, Professional Development III).

Other Curricular Offering: MPH (major: Epidemiology) and MD Joint Degree Pathway

Type

Completion Requirement

Requirements

The Herbert Wertheim College of Medicine (HWCOM) and the Robert Stempel College of Public Health and Social Work (Stempel College) offer a combined degree pathway of a Master's of Public Health with a major in Epidemiology and a Doctor of Medicine.

An MPH is a professional public health degree emphasizing the understanding of population health and disease. The MD degree is a clinical medicine degree focusing on patient-centered clinical care.

Students may apply to the combined pathway in their third year of medical study. Each College will independently review and admit applicants to their programs. Only students admitted to both programs will enroll in classes in the combined program. Students will be expected to complete 42 credits for the MPH and all requirements for the MD degree.

Combined degree pathway students complete the first three years of coursework in the MD degree program at HWCOM. At the beginning of the fourth period of study of the MD degree program curriculum, students admitted to the combined degree pathway pause their medical studies and begin classes as part of the MPH program. Classes in the MPH program are taken during the fall, spring, and summer semesters of the medical student's fourth year of study. During this time, students complete 33 hours of course work in the MPH program. Nine credits taken through HWCOM count toward the 42 credits required for the MPH degree.

At the beginning of the fifth year, students resume study in Period 4 of the MD degree program curriculum. Students who successfully complete all requirements graduate with both degrees at the end of the 5 years.

PH:PHD - Doctor of Philosophy in Public Health

Overview

Degree Offered
PHD - Doctor of Philosophy

Program Title
Public Health

The Ph.D. program in Public Health prepares students for independent research, scholarship and teaching in the academia, industry and governmental agencies. The Ph.D. in Public Health offers six majors (concentrations) where students learn and apply research methods, engage in research and contribute to the body of knowledge in the areas of Biostatistics and Data Analytics; Epidemiology; Environmental Toxicology; Brain, Behavior and the Environment; Health Promotion and Disease Prevention or Health Disparities. For more information, visit the Public Health website.

To explore more about this program, visit the website below:

Academic Group
Robert Stempel College of Public Health and Social Work

Diploma Title
Doctor of Philosophy in Public Health

Total Credits
75

Program Length in Years Based on Full-Time Enrollment
5

CIP Code
51.2201

Requirements

Simple Requirements

Admissions Requirements

Applicants for the Ph.D. in public health must submit an application and supporting documents through SOPHAS: https://sophas.org/.

Applicants must meet the University's general graduate admission requirements:

(1) A four-year bachelor's degree or equivalent from a nationally accredited institution or, in the case of foreign students, from a well-established institution of higher learning that is authorized to grant degrees by appropriate authorities in that country.

(2) A minimum of a 3.0 GPA, “B” average, in the last 60 upper-division undergraduate coursework, or a graduate degree from a nationally accredited institution.

(3) Official GRE scores (scores must be no more than five years old) only for the major in Biostatistics and Data Analytics.

(4) International graduate student applicants whose native language is not English are required to submit a standardized proficiency of English test score which meet FIU requirements.

The College also requires:

(1) A current resume.

(2) Three letters of recommendation.

(3) A writing sample (master's thesis or project, published manuscript, or other).

(4) A personal statement of interest.

Potential applicants are strongly encouraged to contact individual faculty to discuss common research interests since admission decisions may require identification of a potential faculty mentor.

Program Requirements

Doctoral Requirements

A student may enroll for dissertation credits after completing all coursework, passing the candidacy examination, and being advanced to candidacy. Dissertation credits cannot be taken before advancement to candidacy.

The candidacy examination will be prepared and graded by a committee consisting of a minimum of three faculty members. Admission to candidacy requires that a majority of the committee members agree that the student passed the examination. A candidacy examination may not be passed conditionally. A “Pass” on the examination cannot be made contingent upon other factors such as the completion of additional coursework or the preparation of extra research projects. Students will be allowed only two attempts to pass the candidacy examination.

After a doctoral student is admitted to candidacy, continuous registration for at least 3 dissertation credit hours each semester (including the summer term) is required until the dissertation requirement is fulfilled.

Doctor of Philosophy in Public Health

Type

Completion Requirement

Shared Core Courses: 12 credits

Complete ALL of the following Courses:

- PHC6601 - Emerging Issues in Public Health
- PHC6091 - Biostatistics 2
- PHC7705 - Methods in Evidence-Based Public Health
- PHC7981 - Research Concepts and Proposal Development

Major Requirements

Biostatistics and Data Analytics

The Doctor of Philosophy (Ph.D.) in Public Health is available with a major in Biostatistics and Data Analytics. Students will be expected to demonstrate significant research capacity beyond the Master’s degree and through the writing of an original dissertation.

A minimum of 48 credit hours which include 12 hours in Biostatistics Core Courses, 36 hours in Biostatistics Elective Courses or appropriate other electives as determined by the doctoral mentor, and 0 credits of doctoral seminar (Department reserves the right to offer seminar for credit).

Additional Admission Requirements

In addition to the admission information stated above the Department of Biostatistics requires:

(1) The calculus course sequence

(2) Linear or matrix algebra

The Department of Biostatistics prefers:

(1) Competency in a computing language

(2) Upper division statistics course

(3) Upper division mathematical logic course

Additional Doctoral Requirements

The candidacy/qualifying examination requires both a written and an oral examination. The examination should be completed after a minimum of 33 credits in residence and no later than the sixth term of study (including the summer term). The student must meet the University's registration requirements at the time they take the exam. The student should register in the term in which they plan to take the qualifying examination.

Major in Biostatistics and Data Analytics

Type

Completion Requirement

Biostatistics and Data Analytics Core Courses: 12 credits

Complete ALL of the following Courses:

- PHC7050 - Advanced Biostatistics I
- PHC7051 - Advanced Biostatistics II
- PHC7054 - Advanced Biostatistics III
- PHC6099 - R for Applied Biostatistical Methods
  OR PHC6080 - SAS Computing for the Health Sciences

Biostatistics and Data Analytics Elective Courses: 36 credits

Earn at least 36 credits from the following:

- PHC6056 - Longitudinal Health Data Analysis
- PHC6059 - Survival Data Analysis
- PHC6060 - Principles and Approaches to Biostatistical Consulting
- PHC6064 - Applied Statistical Methods for Discrete Data
- PHC6067 - Probabilistic Graphical Models
- PHC6080 - SAS Computing for the Health Sciences
- PHC6084 - Introduction to Bayesian Inference
- PHC6099 - R for Applied Biostatistical Methods
- PHC6701 - R for Health Data Science
- PHC6931 - Special Topics in Biostatistics
- PHC7083 - Advanced Bayesian Inference
- PHC7719 - Multivariate Methods in Health Sciences Research
- PHC7982 - Public Health Pre Dissertation Research

36 credit hours from the list of elective courses OR other advisor-approved electives are allowed.

Doctoral Seminar: 0-6 credits

Students will be required to participate in the doctoral seminar every fall and spring semester from the start of the program. Seminar attendance carries 0 credits unless offered for credit by the department.

Complete ALL of the following Courses:

- PHC7933 - Seminar in Biostatistics

Dissertation Requirements: 15 credits

Earn at least 15 credits from the following:

- PHC7980 - Dissertation

Major in Brain, Behavior, and the Environment

The Doctor of Philosophy (Ph.D.) in Public Health is available with a major in Brain, Behavior and the Environment (BBE). Students will be expected to demonstrate significant research capacity by completing 60 credits beyond the Master's degree and through the writing of an original dissertation.

This major requires 9 hours of EHS Core Courses; 12 hours of major courses; 9 hours each of content and secondary field courses, and 9 hours pre-doctoral research. Overall, this must include a minimum of 9 hours at the 7000 level.

Additional Doctoral Requirements

Students will be allowed only two attempts to pass the candidacy examination.

Major in Brain, Behavior and the Environment

Type

Completion Requirement

Environmental Health Sciences Core Courses: 9 credits

Complete ALL of the following Courses:

- PHC6328 - Molecular and Cellular Toxicology
- PHC6329 - Biomarkers
- PHC7732C - Research Ethics & Scientific Integrity
- PHC6921 - Environmental Health Sciences Seminar

Brain Behavior and the Environment Courses:12 credits

Complete ALL of the following Courses:

- PHC7381C - Neuroscience
- PHC7731C - Advanced Neurotoxicology Research Methods
- PHC7384 - Advanced Neurotoxicology
- PHC7385C - Emerging Issues in Neurotoxicology

Content Courses: a minimum of 9 credits

At least 9 credit hours of approved content courses which best fit the major of Brain, Behavior and the Environment. Content courses may be selected from the list of EHS courses identified below OR other advisor-approved content courses are allowed.

Earn at least 9 credits from the following:

- PHC6310 - Environmental Toxicology
- PHC6311 - Environmental Health Risk Assessment
- PHC6312C - Health Impacts of Air, Water, and Land Pollution
- PHC6355 - Environmental and Occupational Health and Safety
- PHC6374 - Environmental Disasters and Human Health
- PHC6442 - Global Environmental Public Health
- PHC6422 - Regulatory Aspects of Environmental Health Sciences
- PHC6538 - Gene & Environment Interaction
- PHC6907 - Independent Study: Public Health
- PHC6914L - Current Topics in Environmental Health Sciences Research Lab
- PHC6920 - Special Topics in Environmental Health Sciences
- PHC6380 - Introduction to Neurotoxicology
- PHC6730C - Neurotoxicology Research Methods
- PHC6382C - Neuropharmacology
- PHC6383C - Neurobehavioral Techniques
- PHC7300 - Biological Basis of Environmental Diseases
- PHC7327 - Emerging Issues in Environmental Health Sciences
- PHC7374C - Organ-Specific Toxicology
- PHC7713 - Advanced Environmental Toxicology Research Methods
- PHC7381C - Neuroscience
- PHC7731C - Advanced Neurotoxicology Research Methods
- PHC7384 - Advanced Neurotoxicology
- PHC7385C - Emerging Issues in Neurotoxicology

Secondary Field Courses: a minimum of 9 credits

At least 9 credit hours of approved secondary field courses. Secondary field courses may be selected from approved graduate school courses in consultation with the student's academic advisor.

Earn at least 9 credits

Pre-Doctoral Research Requirement: 9 credits

Earn at least 9 credits from the following:

- PHC7917 - Environmental and Occupational Health Sciences Pre Doctoral Research

Dissertation Requirements: a minimum of 15 credits

Earn at least 15 credits from the following:

- PHC7980 - Dissertation

Major in Environmental Toxicology

The Doctor of Philosophy (Ph.D.) in Public Health is available with a major in Environmental Toxicology (ET). Students will be expected to demonstrate significant research capacity by completing 60 credits beyond the Master's degree and through the writing of an original dissertation.

This major requires 9 hours of EHS Core Courses; 12 hours of major courses; 9 hours each of content and secondary field courses, and 9 hours pre-doctoral research. Overall, this must include a minimum of 9 hours at the 7000 level.

Additional Doctoral Requirements

Students will be allowed only two attempts to pass the candidacy examination.

Major in Environmental Toxicology

Type

Completion Requirement

Environmental Health Sciences Core Courses: 9 credits

Complete ALL of the following Courses:

- PHC6328 - Molecular and Cellular Toxicology
- PHC6329 - Biomarkers
- PHC7732C - Research Ethics & Scientific Integrity
- PHC6921 - Environmental Health Sciences Seminar

Environmental Toxicology Major: 12 credits

Complete ALL of the following Courses:

- PHC7300 - Biological Basis of Environmental Diseases
- PHC7327 - Emerging Issues in Environmental Health Sciences
- PHC7374C - Organ-Specific Toxicology
- PHC7713 - Advanced Environmental Toxicology Research Methods

Content Courses: a minimum of 9 credits

At least 9 credit hours of approved content courses which best fit the major of Environmental Toxicology. Content courses may be selected from the list of EHS courses identified below OR other advisor-approved content courses are allowed.

Earn at least 9 credits from the following:

- PHC6310 - Environmental Toxicology
- PHC6311 - Environmental Health Risk Assessment
- PHC6312C - Health Impacts of Air, Water, and Land Pollution
- PHC6355 - Environmental and Occupational Health and Safety
- PHC6374 - Environmental Disasters and Human Health
- PHC6442 - Global Environmental Public Health
- PHC6422 - Regulatory Aspects of Environmental Health Sciences
- PHC6538 - Gene & Environment Interaction
- PHC6907 - Independent Study: Public Health
- PHC6914L - Current Topics in Environmental Health Sciences Research Lab
- PHC6920 - Special Topics in Environmental Health Sciences
- PHC6380 - Introduction to Neurotoxicology
- PHC6730C - Neurotoxicology Research Methods
- PHC6382C - Neuropharmacology
- PHC6383C - Neurobehavioral Techniques
- PHC7300 - Biological Basis of Environmental Diseases
- PHC7327 - Emerging Issues in Environmental Health Sciences
- PHC7374C - Organ-Specific Toxicology
- PHC7713 - Advanced Environmental Toxicology Research Methods
- PHC7381C - Neuroscience

- PHC7731C - Advanced Neurotoxicology Research Methods
- PHC7384 - Advanced Neurotoxicology
- PHC7385C - Emerging Issues in Neurotoxicology

Secondary Field Courses: a minimum of 9 credits

At least 9 credit hours of approved secondary field courses. Secondary field courses may be selected from approved graduate school courses in consultation with the student's academic advisor.

Earn at least 9 credits

Pre-Doctoral Research Requirement: 9 credits

Earn at least 9 credits from the following:

- PHC7917 - Environmental and Occupational Health Sciences Pre Doctoral Research

Dissertation Requirements: a minimum of 15 credits

Earn at least 15 credits from the following:

- PHC7980 - Dissertation

Major in Epidemiology

The Doctor of Philosophy (Ph.D.) in Public Health is available with a major in Epidemiology. Students will be expected to demonstrate significant research capacity by completing 60 credits beyond the Master's degree and through the writing of an original dissertation.

A minimum of 27 hours which include a minimum of 15 hours in methods courses and 12 hours (with a minimum of 9 at the 7000 level) in content courses.

Major in Epidemiology

Type

Completion Requirement

Methods Courses Part I: 6 Credits

Complete ALL of the following Courses:

- PHC7011 - Advanced Current Research in Epidemiology
- PHC7015 - Advanced Research Methods-Experimental Design

Methods Courses Part II: 9 Credits

Complete at least 3 of the following courses:

- PHC6056 - Longitudinal Health Data Analysis
- PHC6059 - Survival Data Analysis
- PHC6064 - Applied Statistical Methods for Discrete Data
- PHC6080 - SAS Computing for the Health Sciences
- PHC6099 - R for Applied Biostatistical Methods
- PHC7719 - Multivariate Methods in Health Sciences Research

Content Courses: 12 credit hours

12 credit hours from the list of content courses OR other advisor-approved content courses are allowed.

Earn at least 12 credits from the following:

- PHC6000 - Epidemiology I: Introduction to Public Health Epidemiology
- PHC6002 - Infectious Disease Epidemiology
- PHC6003 - Chronic Disease Epidemiology
- PHC6007 - Cancer Epidemiology
- PHC6008 - Cardiovascular Disease Epidemiology
- PHC6009 - AIDS Epidemiology and Control
- PHC6013 - Epidemiology II: Observational Design
- PHC6014 - Behavioral Epidemiology
- PHC6016 - Social Epidemiology
- PHC6020 - Clinical Epidemiology
- PHC6062 - Systematic Reviews and Meta-Analysis
- PHC6251 - Disaster and Emergency Epidemiology
- PHC6441 - Epidemiology of Health Disparity
- PHC6443 - Ethical Issues in Public Health
- PHC6510 - Advanced Infectious and Tropical Disease Epidemiology
- PHC6536 - Health Demography
- PHC6591 - Reproductive Health Epidemiology
- PHC6715 - Survey Research in Public Health (Inactive)
- PHC6762 - International Public Health
- PHC6907 - Independent Study: Public Health
- PHC6934 - Scientific Writing and Oral Presentation in Epidemiology
- PHC7017 - Advanced Epidemiology for Health Disparity
- PHC7162 - Grant Writing in Public Health
- PHC7982 - Public Health Pre Dissertation Research
- PHC6595 - Genetic Epidemiology
- PHC7606 - Tobacco Use: Causes, Consequences, and Control

Secondary Field Courses: 12 credits required

At least 12 credit hours of approved secondary field courses. Secondary field courses are selected from approved graduate school courses in consultation with academic advisor.

Earn at least 12 credits

Dissertation Requirements: a minimum of 15 dissertation credit hours

Earn at least 15 credits from the following:

- PHC7980 - Dissertation

Major in Health Disparities

The Doctor of Philosophy (Ph.D.) in Public Health is available with a major in Health Disparities. Students will be expected to demonstrate significant research capacity by completing 60 credits beyond the Master's degree and through the writing of an original dissertation.

A minimum of 30 hours which include a minimum of 12 hours in Methods Courses and 18 hours (with minimum of 9 at the 7000 level) in Content Courses.

Major in Health Disparities

Type

Completion Requirement

Methods Courses: 12 credits

Major advisor and the program committee for the student will identify 12 credits of appropriate methods courses, which may include the following:

Complete ALL of the following Courses:

- PHC6701 - R for Health Data Science
  OR PHC6099 - R for Applied Biostatistical Methods
  OR PHC6080 - SAS Computing for the Health Sciences
- PHC7198 - Advanced Qualitative Methods in Public Health
- PHC7723 - Survey Research in Public Health
- PHC7702 - Advanced Measurement in Public Health

Content Courses: 18 credits

Complete ALL of the following Courses:

- PHC6443 - Ethical Issues in Public Health
- PHC6934 - Scientific Writing and Oral Presentation in Epidemiology
- PHC7017 - Advanced Epidemiology for Health Disparity
- PHC7584 - Advanced Research Designs
- PHC7588 - History and Foundations of Public Health
- PHC7932 - Health Disparities Training and Development Seminar

18 credit hours from the list of content courses OR other advisor-approved content courses are allowed.

Secondary field courses or Additional Content courses: 9 credits

Complete ALL of the following Courses:

- PHC7466 - Policy and Advocacy in Global Health Disparities
- PHC7733 - Theoretical Paradigms in Health Disparities Research
- PHC6907 - Independent Study: Public Health

Pre- Dissertation Research and/or Electives (in any combination): 9 credits

Complete ANY of the following Courses:

- PHC7982 - Public Health Pre Dissertation Research

To meet this requirement, students may take PHC7982 PH Pre Dissertation Res or other electives.

Dissertation Requirements: 15 credits

Earn at least 15 credits from the following:

- PHC7980 - Dissertation

Major in Health Promotion and Disease Prevention

The Doctor of Philosophy (Ph.D.) in Public Health is available with a major in Health Promotion and Disease Prevention. Students will be expected to demonstrate significant research capacity by completing 60 credits beyond the Master's degree and through the writing of an original dissertation.

A minimum of 30 hours which include a minimum of 12 hours in Methods Courses and 18 hours (with minimum of 9 at the 7000 level) in Content Courses.

Major in Health Promotion and Disease Prevention

Type

Completion Requirement

Methods Courses: 12 credits

Major advisor and the program committee for the student will identify 12 credits of appropriate methods courses, which may include the following:

Complete ALL of the following Courses:

- PHC6701 - R for Health Data Science
  OR PHC6099 - R for Applied Biostatistical Methods
  OR PHC6080 - SAS Computing for the Health Sciences
- PHC7723 - Survey Research in Public Health
- PHC7702 - Advanced Measurement in Public Health
- PHC7198 - Advanced Qualitative Methods in Public Health

Content Courses: 18 credits

Complete ALL of the following Courses:

- PHC6443 - Ethical Issues in Public Health
- PHC7162 - Grant Writing in Public Health
- PHC7583 - Policy and Practice in Health Promotion
- PHC7584 - Advanced Research Designs
- PHC7587 - Theory Development in Health Promotion
- PHC7588 - History and Foundations of Public Health

18 credit hours from the list of content courses OR other advisor-approved content courses are allowed.

Secondary field courses or Additional Concentration Outside of Major: 9 credits

Courses to be selected in consultation with advisor from University offerings in a focused area appropriate to public health.

Earn at least 9 credits

Pre- Dissertation Research and/or Electives (in any combination): 9 credits

Complete ANY of the following Courses:

- PHC7982 - Public Health Pre Dissertation Research

To meet this requirement, students may take PHC7982 PH Pre Dissertation Res or other electives.

Dissertation Requirements: 15 credits

Earn at least 15 credits from the following:

- PHC7980 - Dissertation

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with the PhD in Public Health, beyond the majors listed above.

PHIL:BA - Bachelor of Arts in Philosophy

Overview

Degree Offered
BA - Bachelor of Arts

Program Title
Philosophy

The Bachelor of Arts (BA) in Philosophy emphasizes effective and critical reading, writing and speaking. The study of philosophy deals with the interpretation of texts, the balanced exposition and examination of issues, the construction and appraisal of arguments and explanations, and the criticism of doctrines and thoughts commonly taken for granted.

For more information, visit the College of Arts, Sciences, and Education website.

To explore more about this program, visit the website below:

Admissions Requirements for the Bachelor of Arts (BA) in Philosophy

See general university admissions requirements at admissions.fiu.edu

Admissions Requirements for the BA in Philosophy with Honors

This option is open only to Honor’s Program students who are Philosophy majors and who must apply for it during the spring semester of the Junior year.

Eligible students may apply for the Thesis Option by submitting an Honors Thesis Proposal to the department Chairperson provided they have met the following minimal conditions:

(1) they must have a cumulative FIU GPA of at least 3.5,

(2) they must have completed (by the end of that semester) at least five upper division philosophy courses,

(3) they must have completed (by the end of that semester) at least one upper division philosophy in the area in which they intend to write their Thesis, and

(4) they must have identified a faculty member who would be willing to supervise the Thesis and the two three-credit independent study courses which are associated with it.

Students considering pursuing the Thesis Option should read the recommendations regarding Independent Study in the Philosophy Brochure.

Transfer Credits

The Philosophy Department allows a maximum of 15 hours of philosophy transfer credit for a major (6 hours for a minor) subject to the following restrictions: at most one of PHI2100 Intro To Logic , PHI2103 Critical Thinking, or their equivalents may be used to fulfill major requirements, and be counted toward the degree. Such transfer credit can only be awarded by a philosophy advisor, and students who wish to apply for it are advised to discuss their course of studies with an advisor early in their career at FIU.

Program Requirements

Academic Progression Requirements

Students admitted to the university are admitted directly to their chosen major. Students are expected to make satisfactory progress based on critical indicators, such as GPA in specific courses or credits earned. In cases where students are not making satisfactory progress, a change of major may be required. Advisors work to redirect students to more appropriate majors when critical indicators are not met.

Degree Program Credit Hours: 120

Type

Completion Requirement

Common Prerequisite Courses

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

No specific courses are required; transfer students are encouraged to complete the Associate of Arts degree.

Degree Requirements

The following requirements apply to all three tracks.

(i) any course taken to fulfill a requirement for the major may not be taken with the “pass/fail” option (with the exception of , Internship in Philosophy) and must be passed with a grade of “C” or better,

(ii) no more than 6 (six) hours of Independent Study may be used to fulfill major requirements,

(iii) at most, one of or , or their equivalents, may be used to fulfill major requirements, and at most six other hours of lower division philosophy courses may be counted toward the degree,

(iv) after completing at least 24 hours of philosophy courses, all majors are required to take the one hour course PHI4911 Research Paper (Research Paper).

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

The General Track is designed to serve students with a broad interest in philosophy.

The General Track

Type

Completion Requirement

The General Track: 34 credits

Complete at least 1 of the following courses:

- PHI2100 - Introduction to Logic
- PHI2103 - Critical Thinking
- PHI4130 - Symbolic Logic
- PHI4161 - Phil & Probability

The remaining 31 hours may include any philosophy courses (except that the requirements applying to all three tracks must be met). Students are strongly encouraged to discuss their course selections with their advisor.

After completing at least 24 hours of philosophy courses, all majors are required to take the one hour course PHI4911 Research Paper (Research Paper).

The Professional Track is designed for students considering philosophy as a professional discipline. It is especially appropriate for those considering graduate work in philosophy and those with an interest in a thorough and systematic study of the full range of philosophical thought.

The Professional Track

Type

Completion Requirement

Requirements

The Professional Track is designed for students considering philosophy as a professional discipline. It is especially appropriate for those considering graduate work in philosophy and those with an interest in a thorough and systematic study of the full range of philosophical thought. After completing at least 24 hours of philosophy courses, all majors are required to take the one hour course PHI4911 Research Paper .

- Logic/Probability* (3 credits)
- Epistemology/Metaphysics (6 credits)
- Value Theory (6 credits)
- History of Philosophy** (9 credits)
- Non-Western Philosophy (3 credits)
- Other Philosophy Courses (3 credits)
- Philosophy Seminar (3 credits)
- Research Paper (1 credit)

(see department for list of courses which satisfy these requirements)

*Neither PHI2100 Intro To Logic nor PHI2103 Critical Thinking fulfills the Logic/Probability requirement for this track; however, one may be included as a Philosophy elective.

**Must include 3 hours in the area of Ancient Philosophy.

The Specialized Track is designed for students who are interested in philosophical reflection on a specific discipline or area such as law, religion, or psychology. It is especially appropriate for pre-law students and for dual majors who are interested in the relationship between philosophy and their other major discipline.

The Specialized Track

Type

Completion Requirement

Requirements

An approved Individualized Plan of Study will meet the requirements for this track. Such plans are designed by the Philosophy advisor in consultation with the student so that they can be tailored to the student's specific interests and goals. Students pursuing the Specialized Track must secure prior written approval of their course selections from their advisor.

The proposed course selections must present a clear, focused, and coherent plan of study. The Philosophy Program Brochure (available in the Department on either campus) includes several models of such plans of study, including Pre-Law Studies, Western Philosophy and Its Historical Context, Social and Political Philosophy, Philosophy and Religious Thought, Philosophy and Difference, Philosophy and Psychology, and Philosophy and the Arts.

Each such plan must include 34 semester hours, and the courses taken in accord with the plan must be passed with a grade of 'C' or better.

Complete at least 1 of the following courses:

- PHI2100 - Introduction to Logic
- PHI2103 - Critical Thinking
- PHI4130 - Symbolic Logic
- PHI4161 - Phil & Probability

After completing at least 24 hours of philosophy courses, all majors are required to take the one hour course PHI4911 Research Paper (Research Paper). With the prior written approval of a Philosophy advisor, up to nine semester hours from other programs may be counted toward the 34 hour major.

BA in Philosophy with Honors

A policy for Philosophy majors who wish to exercise the Thesis Option within the Honors College: This option is open only to Honor's Program students who are Philosophy majors and who must apply for it during the spring semester of the Junior year. To receive Honors via the Thesis Option:

--students must enroll in one three-credit Honors Thesis Independent Study course in Philosophy in each of the Fall and Spring semesters of their Senior year,

--be approved by both their Thesis Advisor (who directs the independent studies) and the Departmental Chairperson.

PHLTF:CFI - Graduate Certificate in Public Health Foundations

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Public Health Foundations

The Graduate Certificate in Public Health Foundations program is open to non-degree-seeking students. The certificate provides foundational public health knowledge and skills in core areas of public health, including epidemiology, biostatistics, environmental health, global health policy, and health promotion and disease prevention. For more information, visit the School of Social Work website.

PHY:BA - Bachelor of Arts in Physics

Overview

Degree Offered
BA - Bachelor of Arts

Program Title
Physics

The Bachelor of Arts (BA) in Physics program prepares students who are interested in physics and who plan to enter professional schools in business, education, journalism, law, and medicine. It also offers a curriculum for liberal arts students who desire a strong background in physical science but who have career objectives in other areas. The flexible program offers the opportunity for parallel studies in another discipline and/or pre-professional preparation. Students wishing to pursue careers as professional physicists or graduate study in physics should pursue the Bachelor of Science (BS) degree in Physics.

For more information, visit the College of Arts, Sciences, and Education website.

Academic Progression Requirements

Students admitted to the university are admitted directly to their chosen major. Students are expected to make satisfactory progress based on critical indicators, such as GPA in specific courses or credits earned. In cases where students are not making satisfactory progress, a change of major may be required. Advisors work to redirect students to more appropriate majors when critical indicators are not met.

Mathematics Progression Milestone Requirements

Students in the BA in Physics must meet the following mathematics progression milestone:

· Students are required to enroll in a mathematics course in both the Fall and Spring terms and in the Summer term as needed to remain on track with program milestones.
· Students admitted in the Fall or Summer terms must successfully complete MAC 1105 with a grade of C or better by the end of their first Spring term.
· Students admitted in the Spring term must successfully complete MAC 1105 with a grade of C or better by the end of their first Fall term.
· No more than two attempts in MAC 1105 is permitted.

Students who do not meet this mathematics progression milestone will be redirected to a more appropriate academic program

Common Prerequisite Courses

For information about state-approved common prerequisites and alternatives for other programs, visit https://cpm.flvc.org.

See below for the list of FIU courses which meet the common prerequisite requirements.

Degree Program Credit Hours: 120

Type

Completion Requirement

Required Common Prerequisites Courses: 30 credits

Complete ALL of the following Courses:

- CHM1045 - General Chemistry I
  AND CHM1045L - General Chemistry Lab I
- CHM1046 - General Chemistry II
  AND CHM1046L - General Chemistry Lab II
- MAC2311 - Calculus I
- MAC2312 - Calculus II
- MAC2313 - Multivariable Calc
- PHY2048 - Physics with Calculus I
  AND PHY2048L - General Physics Laboratory I
- PHY2049 - Physics with Calculus II
  AND PHY2049L - General Physics Laboratory II

Additional Required Courses: 4 credits

Complete ALL of the following Courses:

- PHY1033 - Physics Pathways
- MAP2302 - Differential Equations

Degree Required Core Courses: 16 credits

All students completing the B.A. in Physics must complete the following core courses:

Complete ALL of the following Courses:

- PHY3106 - Modern Physics
- PHY3802L - Intermediate Physics Lab

- PHY3513 - Thermodynamics
  OR PHZ3113 - Methods in Theoretical Physics
- PHY4221 - Introduction to Classical Mechanics
- PHY4821L - Advanced Physics Lab

Required Courses for Non-Concentration

For students not completing a major/concentration, earn 15 credits

Upper Division Physics Electives

Students must earn 15 credits in Upper Division Electives

Major Requirements

Physics Education Major (FIUteach)

This program prepares students interested in physics careers and certification to teach physics. Additional science and/or mathematic certifications at the secondary level may be added (below). Students are encouraged to contact the FIUteach program (**FIUteach.fiu.edu**) for opportunities to try out teaching at no cost. Interested students are encouraged to contact the department, the FIUteach program, or the secondary science advisor for additional details and certification requirements.

Additional coursework in science and/or mathematics is required to prepare for certification in additional subject areas.

Students in the Physics Education Major must complete all the Physics degree common prerequisites, and Degree Required Core Courses (16) in addition to the following courses:

Early Clinical Experiences (Field Hours)

Many courses offered by the Department of Teaching and Learning require completion of clinical experiences (field hours) in approved K–12 school settings under the supervision of a classroom teacher and FIU faculty member. See course descriptions for specific details. In accordance with the Jessica Lunsford Act, students completing clinical experiences must undergo fingerprinting and a background check at the students' own expense. Students will not be allowed to enter a school campus without the necessary clearance. All clinical experiences and the Student Teaching internship must be completed at schools affiliated with FIU, including but not limited to Miami-Dade County Public Schools and Broward County Public Schools. Placements are coordinated through the FIU Office of Clinical Experiences. Students may not arrange placements independently.

Student Teaching

Student Teaching is the semester-long, full-time, culminating clinical experience for candidates in Initial Teacher Preparation Programs. Placements are made in the fall and spring semesters and are contingent upon successful completion of all required coursework and Florida Teacher Certification Examinations. More information about clinical experiences (field hours) and the Student Teaching application process, including deadlines and the online application, is available on the Clinical Experiences | FIU College of Arts, Sciences & Education website. Students must pass all four sections of the FTCE General Knowledge Test to be eligible to apply. The test may be waived if the student achieves qualifying scores, as set by the state, on approved alternative assessments (SAT, ACT, GRE, or CLT). Students should contact their academic advisor to verify their eligibility for a waiver.

For questions, contact the FIU Office of Clinical Experiences at 305-348-2082, email ClinicalExperiences@fiu.edu, or visit the Ziff Education

Physics Education Major (FIUteach) Credit Hours: 44

Type

Completion Requirement

Additional Lower Division Courses: 6 credits

Students in the Physics Education Major must complete all the Physics degree common prerequisites, and Degree Major Required Core Courses (16) in addition to the following courses.

Complete ALL of the following Courses:

- BSC2010 - General Biology I
  AND BSC2010L - General Biology I Lab
- SMT2661 - Step 1: Inquiry Approaches to Teaching Mathematics and Science
  AND SMT2662 - Step 2: Inquiry-Based Lesson Design in Mathematics and Science

Student may enroll in SMT2044 STEP 1&2 Lesson Math and Sci as a substitution for both SMT2661 STEP 1 Teach Math and Sci and SMT2662 STEP 2 Lesson Math and Sci.

Required Physics Education Major Courses: 38 credits

Complete ALL of the following Courses:

- PHY3107 - Advanced Modern Physics
- PHY3018 - Research Methods in Physics
- SMT3100 - Knowing, Learning, and Adolescent Development in Mathematics and Science
- SMT4301 - Classroom Management and Interactions in STEM
- SCE4194 - Perspectives in Science and Math Education
- SCE4944 - Student Teaching
- RED4325 - Subject Area Reading
- TSL4324 - ESOL Issues and Strategies for Content Area Teachers

Physic Electives

Students must earn 8 credits in Physics Electives

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Students can choose to pursue the B.A. in Physics without selecting a concentration. The following concentration can be chosen in order to specialize in the specific field of study below:

Biophysics Concentration

This program prepares students interested in physics and planning to enter professional schools in medicine, biomedical engineering, and biomechanics as well as entry level biotechnology positions in industry and government. The flexible program offers the opportunity for parallel studies in another discipline. Students satisfying the degree requirements of this program will also have satisfied the course requirement for admission to medical schools. Interested students should consult the Pre-Health advisor https://case.fiu.edu/pre-health/index.html.

Students in the Biophysics Concentration must complete all the Physics degree common prerequisites, Additional Required Courses (4 credits), and Degree Required Core Courses (16 credits) in addition to the following courses.

Biophysics Concentration: 44 credits

Type
Completion Requirement

Additional Lower Division Courses: 17 credits

Complete ALL of the following Courses:

- BSC2010 - General Biology I
  AND BSC2010L - General Biology I Lab
- BSC2011 - General Biology II: Diversity of Life, Organismal Structure and Function
  AND BSC2011L - General Biology Lab II
- CHM2210 - Organic Chemistry I
  AND CHM2210L - Organic Chemistry Lab I
- CHM2211 - Organic Chemistry II
  AND CHM2211L - Organic Chemistry Lab II

Required Concentration Courses: 27 credits

Complete ALL of the following Courses:

- PHZ4710 - Introduction to Biophysics

Physics Elective

Earn 12 credits in Physics Electives

Biology and Chemistry Electives

Earn 12 credits in Biology and Chemistry Electives

Additional Comments:
NOTE: Pre-Med Students are strongly encouraged to take the following courses: BCH3033 Gen. Biochemistry & BCH3033L General Biochemistry **OR** CHM4304 Biol Chemistry I & CHM4304L Biol Chem I Lab. PCB3063 Genetics & PCB3063L Genetics Lab **AND** PCB3702 Interm Human Physiol & PCB3702L Interm Human Phy Lab

PHY:BS - Bachelor of Science in Physics

Overview

Degree Offered
BS - Bachelor of Science

Program Title
Physics

The Bachelor of Science (BS) program in Physics prepares students for careers as professional physicists in industry or government; it also prepares students for graduate study in physics, engineering, or material science, and for teaching careers.

Admissions Requirements

Admissions Requirements for the Bachelor of Science (BS) in Physics

See general university admissions requirements at admissions.fiu.edu.

Admissions Requirements for the BS with Honors in Physics

To be admitted to the Honors Program a student must:

--Be admitted to the BS Physics Degree program with a lower division GPA of at least 3.5 in science and math courses and an overall GPA of at least 3.2.

--Have completed at least 12 hours of physics courses.

--Have arranged to be sponsored by a faculty researcher.

--Submit a letter to the Physics Department requesting permission to pursue the honors course of study.

Program Requirements

Academic Progression Requirements

Students admitted to the university are admitted directly to their chosen major. Students are expected to make good progress based on critical indicators, such as GPA in specific courses or credits earned. In cases where students are not making good progress, a change of major may be required. Advisors work to redirect students to more appropriate majors when critical indicators are not met.

Mathematics Progression Milestone Requirements

Students in the BS in Physics must meet the following mathematics progression milestone:

· Students are required to enroll in a mathematics course in both the Fall and Spring terms and in the Summer term as needed to remain on track with program milestones.
· Students admitted in the Fall or Summer terms must successfully complete MAC 1105 with a grade of C or better by the end of their first Spring term and complete MAC 1147 with a grade of C or better by the end of their second Fall term.
· Students admitted in the Spring term must successfully complete MAC 1105 with a grade of C or better by the end of their first Fall term and complete MAC 1147 with a grade of C or better by the end of their second Spring term.
· No more than two attempts in either course is permitted.

Students who do not meet this mathematics progression milestone will be redirected to a more appropriate academic program

Lower Division Preparation

Type

Prerequisite

Common Prerequisite Courses: 30 credits

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Complete ALL of the following Courses:

- EML3450 - Energy Systems
- EML3500 - Mechanical Design I
- EML4501 - Mechanical Design II
- EML4140 - Heat Transfer
- EML4706 - Design of Thermal and Fluid Systems

Electives: 12 credits

Students must earn 12 credits in Physics, Math or Engineering Electives

Health Physics Concentration

The Health Physics Concentration program is designed for those students who have interests in nuclear physics and the practical application of nuclear physics to modern society. This program prepares undergraduate students for careers as a nuclear worker in university, industrial, medical, and government laboratory settings. Students successfully completing this degree program will have satisfied the standard undergraduate requirements for admission to graduate programs in physics, medical physics, and health physics.

Students in the Health Physics Concentration must complete all the Physics degree common prerequisites, Additional Required Courses (4), and Degree Major Required Core Courses (22) in addition to the following courses.

Health Physics Concentration: 33 credits

Type

Completion Requirement

Additional Lower Division Courses: 4 credits

Complete ALL of the following Courses:

- BSC2010 - General Biology I
  AND BSC2010L - General Biology I Lab

Concentration Required Courses: 21 credits

Complete ALL of the following Courses:

- PHZ3113 - Methods in Theoretical Physics
- PHY4324 - Sem Electromagntism (Inactive)
- PHZ3360 - Introduction to Radiation Protection
- PHY4605 - Quantum Mechanics II
- PHZ3308 - Applications of Nuclear Physics
- PHZ3361 - Radiation Detection and Measurement
- PHZ4731 - Introduction to Health Physics

Recommended Electives: 19 credits

Earn 19 credits in Electives

Recommended Electives: PHZ4710 Intro To Biophysics, PCB3063 Genetics, PCB3063L Genetics Lab or PCB4023 Cell Biology

BS with Honors in Physics

The Honors program in Physics provides outstanding students with the opportunity to do original research with a faculty sponsor.

Bachelor of Science with Honors in Physics

Type

Completion Requirement

Graduation Requirements

To graduate with Honors, the student must carry out a research project, write up the project as an Honors Thesis, and present the research results in a departmental seminar.

Students must complete the following: 1) Completion of all requirements for the BS Physics degree with a minimum GPA of 3.5 in science and math courses and overall GPA of 3.2.; 2) Completion of honors research project in collaboration with a faculty advisor. The results of the research project must be written in the form of an honors thesis which is written in American Physical Society-style publication format. The faculty advisor and curriculum committee must judge the thesis as suitable in style and content; 3) Submission of two completed and approved copies of the Honors Thesis must be presented to the Physics department office; one copy is to be kept in the department and the second copy is to be housed in the University library; and 4) The results of the research project must be presented orally to an audience of peers and faculty members in a departmental seminar.

PHY:MS - Master of Science in Physics

Overview

Degree Offered
MS - Master of Science

Program Title
Physics

The Master of Science (MS) in Physics enables a student to learn advanced topics in physics beyond what is taught at the undergraduate level. It prepares students for careers as professional physicists in industry, government, or graduate study in physics, engineering, or material science. It also prepares students for teaching careers that require completion of courses at the master's level.

For more information, visit the College of Arts, Sciences, and Education website.

Diploma Title
Master of Science in Physics

Total Credits
32

Program Length in Years Based on Full-Time Enrollment
2

CIP Code
40.0801

Requirements

Simple Requirements

Admissions Requirements

For admission to the MS in Physics, a bachelor's degree in physics is required with a minimum undergraduate GPA of 3.0. International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the iBT TOEFL or 6.5 overall on the IELTS is required.

Program Requirements

The MS in Physics is a 32 credit hour program. There are two options for obtaining a terminal master's degree.

Option 1: This option consists of coursework at the 5000 and 6000 level and a master's research project conducted under the supervision of one or more of the faculty members in the unit. The research project culminates in a master's thesis. Students entering the program must have a bachelor's degree or equivalent course work in physics.

Option 2: This option focuses on coursework at the 5000 or 6000 level and does not require the completion of a master's research project.

Doctoral candidates who have filed the D-2 and D-3 forms with the University Graduate School can receive a MS in Physics en route to the PhD degree after completion of 32 credits of graduate course work.

Program Credit Hours: 32

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- PHY5115 - Mathematical Physics I
- PHY5240 - Advanced Classical Mechanics
- PHY5346 - Advanced Electromagnetic Theory I
- PHY5347 - Advanced Electromagnetic Theory II
- PHY6645 - Advanced Quantum Mechanics I
- PHY6646 - Advanced Quantum Mechanics II
- PHY6936 - Advanced Topics in Physics
- PHY6524 - Statistical Physics
- PHY6935 - Grad Research Sem
  OR PHY5930 - Seminar in Physics

Students who choose either **PHY 5930** or **PHY 6935** must earn at least 2 credits to fulfill this requirement.

Additional Required Courses

Two additional 3-credit courses at the graduate level (5000 or higher) within Physics or another unit with the approval of the Graduate Program Director are required.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

PHY:PHD - Doctor of Philosophy in Physics

Overview

Degree Offered
PHD - Doctor of Philosophy

Program Title
Physics

The Doctor of Philosophy (PhD) in Physics prepares students for a wide range of careers in physics and related fields. The program provides students with basic and specialized knowledge as well as the technical expertise necessary to advance in careers that are at the cutting edge. The program consists of internationally recognized research in many of the major areas of physics. Students complete approximately two years of advanced coursework beyond the undergraduate level, followed by research that culminates in a dissertation project done in close consultation with graduate faculty. Project results are published in peer-reviewed journals and disseminated through international conferences. The PhD in Physics prepares students to be the next generation of intellectual and scientific pioneers. For more information, visit the College of Arts, Sciences, and Education website.

- PHY6935 - Grad Research Sem
  OR PHY5930 - Seminar in Physics

Students who choose either PHY 5930 or PHY 6935 must earn at least **2 credits** to fulfill this requirement

Additional Required Courses

Three (3) additional 3-credit courses at the graduate level (5000 or higher) within Physics or another unit with the approval of the Graduate Program Director.

PhD Comprehensive Exam

All doctoral candidates must take a PhD comprehensive exam. This exam is designed to test general knowledge of physics at the advanced undergraduate and first-year graduate level and must be passed no later than the beginning of the third year enrolled in the program.

Research and Advisor Requirement

Within two years of entering the program, students must submit to the Graduate Committee their choices of research and advisor. Course work and research programs shall be planned with the advice and approval of the advisor.

Candidacy Exam Requirement

After passing the comprehensive exam and prior to, or during, the first semester of the fourth year enrolled in the program, students must take a candidacy exam which tests the ability to conduct research in a particular field as well as the ability to present the results of that research in an organized and coherent manner.

Dissertation Credits: 15 minimum

Complete ALL of the following Courses:

- PHY7981 - PH.D. Dissertation

PHYT:CFI - Undergraduate Certificate in Physical Therapy Prerequisite

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Physical Therapy Pre-Requisite Certificate

The Undergraduate Certificate in Physical Therapy Prerequisite program provides undergraduate-level instruction for the completion of the prerequisites needed to become eligible to apply to the Doctorate in Physical Therapy (DPT). The certificate will enable students to complete coursework required to apply to the DPT program while concurrently completing the requirements for a Bachelor of Arts (BA) or Bachelor of Science (BS) degree offered at FIU. Additionally, students already holding a BA or BS degree are eligible to apply for this certificate program to complete the required coursework for application to the DPT.

For more information, visit the Nicole Wertheim College of Nursing and Health Sciences website.

Academic Group
Nicole Wertheim College of Nursing and Health Sciences

Requirements

Simple Requirements

Admissions Requirements

Any student in good academic standing (with a minimum 3.0 cumulative GPA) completing the requirements for a Bachelor of Arts (BA)/Bachelor of Science (BS) degree offered at FIU or any student already holding a BA or BS degree is eligible to apply for this certificate program.

This certificate is open to degree-seeking students only.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Academic Progression Requirement

To remain in the Physical Therapy Prerequisite Certificate Program students must maintain a **3.00** cumulative GPA or higher in certificate coursework. To be awarded the Physical Therapy Prerequisite Certificate Program the student must achieve a **3.00** cumulative GPA or higher in undergraduate coursework.

Program Credit Hours: 40

Type

Completion Requirement

Required Courses Part I

Complete ALL of the following Courses:

- BSC2010 - General Biology I
  AND BSC2010L - General Biology I Lab
- PSY2012 - Introductory Psychology
- DEP2000 - Human Growth and Development: Introductory Developmental Psychology
- STA2023 - Statistical Methods
- CHM1045 - General Chemistry I
  AND CHM1045L - General Chemistry Lab I
- CHM1046 - General Chemistry II
  AND CHM1046L - General Chemistry Lab II
- HSC3537 - Medical Terminology
- ZOO3731 - Human Anatomy

Required Courses Part II

Complete ALL of the following Courses:

- PHY2048 - Physics with Calculus I
  AND PHY2048L - General Physics Laboratory I
  AND PHY2049 - Physics with Calculus II
  AND PHY2049L - General Physics Laboratory II

Required Courses Alternative Part II

Students can either complete PHY2048 Physics W/Calculus I and PHY2049 Physics W/Calc II with Labs or the following sequence of Physics courses.

Complete ALL of the following Courses:

- PHY2053 - Physics without Calculus I
  AND PHY2048L - General Physics Laboratory I
  AND PHY2054 - Physics W/O Calc II
  AND PHY2049L - General Physics Laboratory II

Required Courses Part III

Complete at least 1 of the following courses:

- HSC3549 - Clinical Physiology for Health Professionals
  OR PCB3702 - Intermediate Human Physiology

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, and other curricular offerings associated with this program.

PLWSPV:CFI - Undergraduate Certificate in Pre-Law Skills and Professional Values

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Pre-Law Skills and Professional Values

The Undergraduate Certificate in Pre-Law Skills and Professional Values provides undergraduate students with foundational knowledge about the legal profession and its core values and helps them develop the academic skills and work ethic needed to be competitive in law school and the legal profession.

For more information, visit the Steven J. Green School of International and Public Affairs website.

No specific admissions requirements. Contact advisor for additional information.

This certificate is open to degree-seeking students only.

Prerequisites Credit Hours: 6

Type
Completion Requirement

Recommended Prerequisites: 6 credits

Students are encouraged to complete the following two courses prior to enrolling in certificate courses.

Complete ALL of the following Courses:

- POS2041 - American Government
- SPC2608 - Public Speaking

Program Requirements

Students are required to take two core courses (6 credits) and five skills courses (15 credits): two in Writing Skills and one each in Analytical, Legal, and Verbal Skills. Requests to apply transfer credit must be made in writing and approved by the Certificate Director. Course substitution requests should be rare and must be approved in writing by the Certificate Director in advance. All Certificate courses must be completed with a grade of “C” or better.

Program Credit Hours: 21

Type

Completion Requirement

Core Courses: 6 credits

All students must take POS3652 Law and Legal Profession and one of the following two courses listed below.

Complete ALL of the following Courses:

- POS3652 - Law and the Legal Profession
- CJL3512 - The Courts
  OR POS3283 - The Judicial Process

Skills Courses: 15 credits

Take one course in Analytical Skills (3 credits), one course in Legal Skills (3 credits), one course in Verbal Skills (3 credits), and two courses in Writing Skills (6 credits) from the listing below:

Fulfill ALL of the following requirements:

Analytical Skills: 3 credits

Complete ANY of the following Courses:

- PHI2100 - Introduction to Logic
- PHI2103 - Critical Thinking
- PHI4130 - Symbolic Logic

AND

Legal Skills: 3 credits

Complete ANY of the following Courses:

- POS3603 - Constitutional Law: Powers
- POS3604 - Constitutional Law: Limitations

AND

Verbal Skills: 3 credits

Complete ANY of the following Courses:

- COM4462 - Conflict Management
- SPC2237 - Rhetorical Communication: A Theory of Civil Discourse
- SPC3513 - Argumentation and Debate

- SPC3602 - Advanced Public Speaking
- SPC3540 - Persuasion

AND

Writing Skills: 6 credits

Complete at least 2 of the following courses:

- ENC3311 - Advanced Writing and Research
- ENC3354 - Writing as Social Action
- ENC3371 - Rhetorical Theory and Practice
- ENC4331 - Writing, Rhetoric, and Community
- ENC3465 - Legal Writing
- POS4784 - Analytic Writing in Political Science

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, and other curricular offerings associated with this program.

PMNUR:CFI - Post-Master's Certificate in Nursing Education

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Nursing Education

The Post-Master's Certificate in Nursing Education degree program caters to nurses with a Master of Science in Nursing (MSN) degree who aim to specialize in nursing education. This program offers advanced training in curriculum development, teaching strategies, assessment and evaluation, and the integration of technology in education. Graduates emerge prepared to assume roles as nurse educators in academic settings, healthcare institutions, and community organizations. In these roles, they play a pivotal part in shaping the development of future nursing professionals and elevating the quality of nursing education.

For more information, visit the Nicole Wertheim College of Nursing and Health Sciences website.

Requirements

Simple Requirements

Admissions Requirements

(1) Master’s degree in Nursing from a nationally accredited education institution.

(2) GPA of 3.0 in MSN

(3) Letters of recommendation from prior faculty member and nursing supervisor.

(4) Statement of personal goals including personal philosophy of teaching and learning.

(5) Graduate course in culture and advanced practice nursing (3 credits)

This certificate is open to non-degree-seeking students only.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Program Credit Hours: 16

Type

Completion Requirement

Required: 16 credits

Complete ALL of the following Courses:

- NGR6708C - Classroom Teaching Strategies for Nursing
- NGR6710L - Clinical Specialty Practicum for the Nurse Educator
- NGR6713 - Curriculum Development in Nursing
- NGR6714C - Clinical Teaching Strategies for Nursing
- NGR6715 - Instructional Technology in Nursing and Health Sciences
- NGR6718 - Testing and Evaluation in Nursing Education

NGR6710L Clin. Spec. Practicum NE ***Note***: **Prior Learning Assessment (PLA) –** The PLA process is integrated as part of this 1-credit/60-hour clinical practicum course, designed to award credit to Nurse Educator Certificate students who are Board-Certified Advanced Practice Registered Nurse (APRN) providers, based on the evaluation of the individual's direct-patient advanced practice care gained in the clinical setting, as a practicing nurse practitioner. Direct-patient care knowledge, skills, and competencies, at the advanced practice level, can be demonstrated by producing an electronic portfolio to include evidence of the following items:

1. Active Unencumbered APRN license,
2. Active Board Certification in an APRN specialty role,
3. Current APRN employment verification within the last 5 years,
4. Current clinical experience within the last 5 years, and a
5. Reflective Writing Assignment

All Nurse Educator Certificate students must enroll in NGR 6710L and complete the course requirements to pass the course. Students who submit the electronic portfolio to satisfy the PLA (approval at the discretion of the faculty), will be exempt from the 60-hour clinical practicum requirement.

Students who are unable to produce the electronic portfolio requirements, will have to complete at least 60 practicum hours of precepted direct-patient care at a FIU-approved clinical site.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

PMODC:CFI - Undergraduate Certificate in Pre-Modern Cultures

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Pre-Modern Cultures

The Undergraduate Certificate in Pre-Modern Cultures enables students to gain an interdisciplinary concentration in various aspects of pre-modern culture (before 1700 CE). This certificate is designed to enhance an undergraduate's understanding of the pre-modern cultures of the globe, and particularly to complement that student's major courses of study in fields such as anthropology, English, history, humanities, modern languages, philosophy, religious studies, and visual arts by familiarizing them with additional disciplinary approaches. The certificate permits the in-depth exploration of one cultural area during pre-modernity, while developing a familiarity with analogous eras in other parts of the world, providing the student with both transtemporal and cross-cultural comparative perspectives.

PMSFH:CFI - Post-Graduate Nurse Practitioner Certificate in Family Nurse Practitioner

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Family Nurse Practitioner

The Post-Graduate Nurse Practitioner (NP) Certificate in Family Health Nursing program prepares students to deliver comprehensive primary healthcare services to individuals and families across the lifespan, including perinatal care. The curriculum emphasizes advanced nursing practice in a variety of ambulatory and community-based settings, focusing on wellness, disease prevention, episodic care, and the management of chronic illnesses through a person and family-centered approach.

Upon successful completion of the program, graduates are be eligible to take the Family Nurse Practitioner National Certification Exam and will be equipped to practice independently or collaboratively as family nurse practitioners.

For more information, visit the Nicole Wertheim College of Nursing and Health Sciences website.

Requirements

Simple Requirements

Admissions Requirements

(1) A Master of Science in Nursing (MSN) degree from an CCNE, NLNAC, or ACEN accredited program.

(2) A graduate (MSN) grade point average (GPA) of 3.0 or above.

(3) Graduate courses in nursing theory (3 credits) and research (3 credits). advanced pathophysiology (3 credits), advanced health assessment (3 credits), and advanced pharmacology (3 credits). *-If the applicant's coursework in advanced pharmacology, advanced pathophysiology, and advanced health assessment took place more than 3 years ago, they may need to repeat the courses prior to enrollment in specialty courses, following, gap analysis, evaluation of records and professional experience by the admission committee and program chair.*

(4) State of Florida RN and/or APRN licensure. A photocopy of the license must be submitted along with student's application to the Post Graduate Nurse Practitioner Certificate Program.

(5) Pre-admission panel interview with members of the Graduate Nursing Admissions Committee.

(6) Two letters of recommendation.

This certificate is open to non-degree-seeking students only.

Admissions Procedure

STEP 1 - Submit an application to Nursing CAS (The Centralized Application Service for Nursing Programs)

--Complete an online application via Nursing CAS http://www.nursingcas.org and pay appropriate fees. Applications will be accepted from Dec 1 to March 1 for Fall admission.

--Send official academic transcripts from ALL SCHOOLS attended (all Associate, Bachelors, Masters degree, and higher [if applicable] coursework) to Nursing CAS for upload and verification.

--Upload all required supplemental items including professional CV, active Florida RN and/or APRN License, recommendations and Personal Statement to Nursing CAS.

--Complete the required FIU supplemental application and pay the $30 fee.

STEP 2 - Professional Interview

--Following a review of all completed applications a select number of applicants will be offered the opportunity to participate in a panel interview.

--Interview candidates may be instructed to bring additional official transcripts to their interview appointment

Program Requirements

Advanced Practice Nursing Specialty Credit Hours: 24

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- NGR6601C - Advanced Family Health Nursing I
- NGR6601L - Advanced Family Health Nursing Practice I
- NGR6602C - Advanced Family Health Nursing II
- NGR6602L - Advanced Family Health Nursing Practice II
- NGR6744 - Professional Advanced Practice Seminar

Additional Comments:

Certificate Completion Requirements

(1) Successful completion of a minimum of 24 semester credits of graduate coursework beyond the MSN, including up to 770 direct patient care clinical hours, with required clinical hours and coursework determined by gap analysis.

(2) Achievement of an overall cumulative GPA of 3.0 or above. See Graduate Catalog in University Graduate School Rules and Regulations for information on Academic Warning, Probation, and Dismissal.

(3) Removal of all conditions, deficiencies, and incomplete grades. Credit hours for courses in which the grade is “B-“ or below will not count toward satisfying certificate completion requirements.

POLSC:BA - Bachelor of Arts in Political Science

Overview

Degree Offered
BA - Bachelor of Arts

Program Title
Political Science

The Bachelor of Arts (BA) in Political Science provides a broad education that will equip students for a wide variety of careers. The program is designed to encourage analysis of political theories, institutions, and processes within the broader context of the social sciences; increase appreciation of political science as a discipline; develop a continuing and responsible interest in political participation and public affairs; provide the opportunity to acquire a fundamental understanding of political science as a basis for citizenship; prepare for a career in politics or public service, law, governmental relations, or other professional study and service; and stimulate interest in graduate studies in various fields and disciplines.

Admission Requirements for the BA in Political Science: Social Studies Education Major

To qualify for admission to the program, undergraduate candidates must have met all the lower division requirements including:

-- 60 credits of lower-division courses

-- All general education requirements

-- A lower division GPA of 2.5 or higher

-- Achieve the competencies of the FTCE General Knowledge Exam (GK).

All students must pass the GK Exam by the time they reach 72 credit hours in their program of study. A student who meets these minimum requirements is not automatically assured admission.

Admissions Requirements for the Combined BA in Political Science to Master of Arts (MA) in Political Science Accelerated Degree Pathway

To be considered for admission to the BA/MA accelerated degree pathway, students must have completed at least 75 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the accelerated degree pathway, the application is submitted to Graduate Admissions typically before the student starts the last 30 credits of the bachelor's degree program. A student admitted to the accelerated degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Admissions Requirements

(1) Students must have completed 75 credit hours.

(2) Students must have been admitted to the Green School.

(3) A 3.5 GPA overall in college work, and a 3.75 GPA in Political Science courses taken at FIU are required.

(4) Three letters of recommendation, at least two of which must be from FIU Political Science faculty, are required.

(5) Students must meet admissions requirements for the MA in Political Science.

(6) Finally, a favorable decision into the pathway by the Political Science graduate committee is required.

(7) Students will be awarded the BA in Political Science degree upon completion of the BA requirements, prior to completing the requirements for the MA degree.

Program Requirements

Academic Progression Requirements

Students admitted to the university are admitted directly to their chosen major. Students are expected to make satisfactory progress based on critical indicators, such as GPA in specific courses or credits earned. In cases where students are not making satisfactory progress, a change of major may be required. Advisors work to redirect students to more appropriate majors when critical indicators are not met.

Curriculum for Political Science Majors

A minimum of 30 credits of upper division (3000 level and above) coursework is required for a major in Political Science. A maximum of 6 credits may be in independent study and internship courses.

In addition, three 2000-level courses are required for a student to meet the department's prerequisite requirements for majors, including two state-mandated common prerequisites (see below). These courses should be taken as early as possible in preparation for upper division coursework in the major. POS2041 American Government (or its equivalent) is required of all Political Science majors. This course will also meet one of the two state-mandated common prerequisites. The second common prerequisite may be fulfilled by taking either CPO2002 Intro Comp Pol or INR2001 Intro To Intl Rels (or their equivalents). The department additionally requires a third 2000-level course (see below). These requirements can normally be met through coursework at the community college level or taken at FIU. Students should be mindful of

the further requirement of the Green School that a minimum of 48 upper division (3000 level and above) credits is necessary for graduation. Students also need to pass 9 credits of upper division courses outside Political Science and must satisfy the Green School Foreign Language Requirement.

No specific upper division courses are required. Rather, courses in Political Science must be distributed so that eight courses meet the Breadth Requirement and two other courses meet the Political Science Electives Requirement.

The student must earn a grade of "C" or better in all Political Science courses to be credited toward the major.

Lower Division Preparation

Type

Completion Requirement

Common Prerequisites and Departmental Requirements

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Fulfill ALL of the following requirements:

Common Prerequisites and Departmental Requirements Part I

Complete ALL of the following Courses:

- POS2041 - American Government

AND

Common Prerequisites and Departmental Requirements Part II

Complete at least 2 of the following courses:

- CPO2002 - Introduction to Comparative Politics
- INR2001 - Introduction to International Relations
- POT2002 - Introduction to Political Theory

These courses do not count toward the 30 credits of upper division coursework required for the major.

Additional Lower Division Course for the Social Studies Education Major

Complete ALL of the following Courses:

- GEA2000 - World Regional Geography

Upper Division

Type

Completion Requirement

Breadth Requirement: 24 credits

This is designed to acquaint all majors with the four general fields of Political Science. Two 3-credit courses must be taken in each of the following sub-fields for a total of 24 credits. These courses may not include independent studies, internships, or POS4784 PS Analytic Writing.

Fulfill ALL of the following requirements:

American Politics: 6 credits

Any two 3000-level or above courses with a POS prefix (except POS4784 PS Analytic Writing) or PUP4004 Public Policy: Us

Complete at least 2 of the following courses:

- POS3283 - The Judicial Process
- POS3064 - Federalism and Intergovernmental Relations
- POS3152 - Urban Politics
- POS3258 - Politics on Film
- POS3413 - The Presidency
- POS3424 - The Legislative Process
- POS3443 - Political Parties
- POS3603 - Constitutional Law: Powers
- POS3604 - Constitutional Law: Limitations
- POS3652 - Law and the Legal Profession
- POS3703 - Methods of Political Analysis
- POS4034 - Political Change in America
- POS4035 - Environmental Politics
- POS4070 - Race and Politics in the United States
- POS4071 - Corporate Power and American Politics
- POS4072 - Women In Politics
- POS4073 - The Military and the Citizen
- POS4074 - Latino Politics
- POS4122 - State Government and Politics
- POS4152 - Conflict and Change in American Cities (Inactive)
- POS4154 - Topics in Urban Politics and Policy
- POS4173 - Politics in the American South
- POS4182 - Florida Politics
- POS4188 - Miami Politics
- POS4205 - American Political Culture
- POS4233 - Public Opinion
- POS4284 - Judicial Behavior (Inactive)
- POS4314 - American Ethnic Politics
- POS4463 - Interest Group Politics
- POS4605 - Gender Justice
- POS4606 - The U.S. Supreme Court
- POS4622 - Race and Law in the U.S. (Inactive)
- POS4627 - Equality and the Constitution
- POS4684 - Politics of Voting Rights
- POS4930 - Topics in Public Law
- POS4931 - Topics in Politics
- POS4935 - Honors Seminar (Inactive)
- PUP4004 - Public Policy: U.S. (Inactive)

AND

Political Theory: 6 credits

Any two 3000-level or above courses with a POT prefix.

Complete at least 2 of the following courses:

- POT2010 - Classical Political Theory
- POT3054 - Modern Political Theory
- POT3304 - Feminist Political Theory
- POT3064 - Contemporary Political Theory
- POT3204 - American Political Thought
- POT3302 - Political Ideologies
- POT4309 - Sex, Power and Politics
- POT4311 - Problems of Democracy
- POT4344 - Class, Race and Sports (Inactive)
- POT4621 - Theories Of Justice
- POT4930 - Topics in Political Theory

AND

International Politics: 6 credits

Any two 3000- level or above courses with an INR prefix.

Complete at least 2 of the following courses:

- INR3030 - Diplomacy
- INR3043 - Population and Society
- INR3045 - The Global Challenge of Refugees and Migrants
- INR3061 - Conflict, Security and Peace Studies in INR
- INR3081 - Contemporary International Problems
- INR3102 - American Foreign Policy
- INR3214 - International Relations of Europe
- INR3223 - Japan and the United States
- INR3224 - International Relations of East Asia
- INR3226 - International Relations of Central Asia and the Caucasus
- INR3227 - International Relations of South Asia
- INR3243 - International Relations of Latin America
- INR3246 - International Relations of the Caribbean
- INR3252 - International Relations of North Africa
- INR3253 - International Relations of Sub-Saharan Africa
- INR3262 - International Relations of Russia and the Former USSR
- INR3274 - International Relations of the Middle East
- INR3303 - Foreign Policymaking
- INR3331 - European Foreign and Security Policy
- INR3403 - International Law
- INR3502 - International Organizations
- INR3703 - International Political Economy
- INR4013 - Development of International Relations Thought
- INR4031 - The Media and International Relations
- INR4054 - World Resources and World Order
- INR4075 - International Protection of Human Rights
- INR4076 - International Relations of Drug Trafficking

- INR4077 - Gender Equality and Human Rights in Global Perspectives
- INR4082 - Islam in International Relations
- INR4084 - Ethnicity in World Politics
- INR4085 - Gender Hierarchies in International Relations
- INR4091 - Ethical Problems in International Relations
- INR4204 - Comparative Foreign Policy
- INR4232 - International Relations of China
- INR4273 - The International Relations of Iran and the Persian Gulf
- INR4335 - Strategic Studies and National Security
- INR4350 - International Environmental Politics
- INR4408 - Topics in International Law
- INR4411 - The Laws of War
- INR4412 - International Law of the Sea
- INR4436 - International Negotiation
- INR4501 - Multinational Organizations
- INR4521 - Politics of Regional Integration
- INR4603 - Theories of International Relations
- INR4707 - The Political Economy of China
- INR4931 - Topics in International Relations
- INR4933 - Topics in International Politics
- INR4937 - Honors Seminar 1: Advanced Writings in International Relations
- INR4970 - Honors Thesis (Inactive)

AND

Comparative Politics: 6 credits

Any two 3000-level or above courses with a CPO prefix.

Complete at least 2 of the following courses:

- CPO3010 - Comparative Politics: Theory and Practice
- CPO3055 - Authoritarians and Democrats
- CPO2102 - Politics of Europe
- CPO3104 - Politics of the European Union
- CPO3204 - African Politics
- CPO2304 - Politics of Latin America
- CPO3403 - Politics of the Middle East
- CPO3502 - Politics of the Far East
- CPO3643 - Russian Politics
- CPO4034 - The Politics of Development and Underdevelopment
- CPO4053 - Political Repression and Human Rights
- CPO4057 - Political Violence and Revolution
- CPO4062 - Comparative Judicial Politics (Inactive)
- CPO4072 - Comparative Electoral Behavior
- CPO4047 - Politics of North American Cooperation
- CPO4303 - Politics of South America
- CPO4323 - Politics of the Caribbean
- CPO4333 - Politics of Central America

- CPO4340 - Politics of Mexico
- CPO4360 - Cuban Politics
- CPO4394 - Race and Politics in the Americas
- CPO4401 - The Arab-Israeli Conflict
- CPO4404 - Iraq: Politics and Society (Inactive)
- CPO4507 - Comparative Political Economics of Asia
- CPO4541 - Politics Of China
- CPO4553 - Government and Politics of Japan
- CPO4614 - Politics of Eastern Europe
- CPO4725 - Comparative Genocide
- CPO4726 - Ethnicity and Nationalism
- CPO4735 - Democratic Transitions
- CPO4741 - Comparative Political Economy
- CPO4930 - Topics in Comparative Politics

Political Science Electives: 6 credits

Two upper division courses with POS, CPO, INR, or POT prefixes for a total of 6 credits. Independent studies, internships, and/or POS 4784 can be applied toward the Political Science Electives Requirement.

Major Requirements

BA in Political Science: Social Studies Education Major

This program prepares students interested in Social Studies and social sciences for teaching at the secondary level. The major incorporates current results from education research, effective curriculum materials, use of technology, and a global perspective in collaborative learning. Program requirements include field experiences and an internship. Interested students are encouraged to contact the department for additional details and information on teacher support programs.

Social Studies Education Major

Type

Completion Requirement

Upper Division

Fulfill ALL of the following requirements:

Part I: 30 credits

Fulfill ALL of the following requirements:

Required Courses Part I

Complete ALL of the following Courses:

- POS3413 - The Presidency
  OR POS3424 - The Legislative Process
- CPO2102 - Politics of Europe
  OR CPO2304 - Politics of Latin America

- POT2010 - Classical Political Theory
- INR3102 - American Foreign Policy
- PUP4004 - Public Policy: U.S. (Inactive)

PUP4004 Public Policy: Us can be replaced with a POS 3xxx/4xxx Elective course

AND

3xxx/4xxx Elective with CPO prefix

Earn at least 3 credits

AND

3xxx/4xxx Elective with POT prefix

Earn at least 3 credits

AND

3xxx/4xxx Elective with INR prefix

Earn at least 3 credits

AND

Political Science Electives

Two Political Science Electives (3 credits each) at 3000-level or above

Earn at least 6 credits

AND

Part II: 30 credits

Complete ALL of the following Courses:

- EDP3004 - Educational Psychology
- SSE4383 - Perspectives in Social Science Education
- SSE3346 - Social Science Content and Pedagogy
- SSE4380 - Developing a Global Perspective
- SSE4384C - Special Teaching Laboratory: Social Studies
- SSE4942 - Student Teaching Internship
- SSE3853 - Social Science Subject Area Knowledge
- RED4325 - Subject Area Reading
- TSL4324 - ESOL Issues and Strategies for Content Area Teachers

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Bachelor of Arts (BA) in Political Science to Master of Arts (MA) in Political Science Accelerated Degree Pathway

Common Prerequisites and Departmental Requirements: 3 courses/9 credits

The common prerequisites are required introductory courses for the undergraduate major and should be among the first Political Science courses taken. The department requires one additional 2000-level course beyond the common prerequisites. In order to conform with both state and departmental requirements, students must take the following:

-- POS2041 American Government (or its equivalent)

and two of the following three courses:

-- CPO2002 Intro Comp Pol (or its equivalent)
-- INR2001 Intro To Intl Rels (or its equivalent)
-- POT2002 Intro To Pol Theory (or its equivalent)

Some transfer students will have already taken these or equivalent courses at other institutions, and should not repeat them at FIU. Students with questions about course equivalencies should contact the Associate Director of Undergraduate Studies.

Breadth Requirement: 24 credits

The Breadth Requirement is intended to expose majors to each of the four major sub-fields of Political Science. Two 3-credit courses must be taken in each of the following sub-fields for a total of 24 credit hours. These courses may not include independent studies, internships, or POS4784 PS Analytic Writing.

-- **American Politics** - Any two 3000-level or above courses with a POS prefix, except POS4784 PS Analytic Writing. PUP4004 Public Policy: Us may be used as one of the required two American Politics courses. (6 credits)

-- Comparative Politics - Any two 3000-level or above courses with a CPO prefix. (6 credits)

-- International Politics - Any two 3000-level or above courses with an INR prefix. (6 credits)

-- Political Theory - Any two 3000-level or above courses with a POT prefix. (6 credits)

Political Science Electives Requirement: 6 credits

Two upper division courses with POS, CPO, INR, or POT prefixes for a total of 6 credits. Independent studies, internships, and/or POS4784 PS Analytic Writing can be applied toward the Political Science Electives Requirement.

Political Science Graduate/Undergraduate Electives Requirement: 9 credits

Students in the program will take three 3-credit graduate Political Science courses at the 5000-level to satisfy this requirement. Students must be advised by the departmental Graduate Program Director before enrolling in these 5000-level courses.

The 9 graduate credits taken to satisfy the undergraduate Political Science major requirement will also count as 9 credits toward the 30 credits of graduate courses required for the MA degree.

MA Courses

A total of 30 credits of graduate-level courses is required for the successful completion of the MA degree. Nine of these 30 credits will have been completed at the undergraduate level by students in the 4+1 program.

Required Core Graduate Courses

-- POS5706 Methodology
-- POS5716 Found Pol Science
-- POS6976 Research Seminar (to be taken during last term)

Secondary Core Graduate Courses – Choose three of the following:

-- CPO5091 Comp Politics
-- INR5007 Sem Int Politics
-- POS5045 Sem Us Politics
-- POT5007 Sem In Pol Theory

Electives

Four 5000- or 6000-level Political Science courses for a total of 12 credits. Two courses (6 credits) may be taken from outside the Department, with prior approval from the Graduate Program Director.

Research Project

A final research project must be completed in POS6976 Research Seminar under the supervision of a Politics and International Relations faculty member. MA candidates are required to formally present the results of their research to faculty and peers at the end of the semester. The MA project will be evaluated by a three-member faculty panel.

POLSC:MA - Master of Arts in Political Science

Overview

Degree Offered
MA - Master of Arts

Program Title
Political Science

The Master of Arts (MA) program in Political Science is designed to prepare students for careers in government, the business sector, non-governmental organizations, or international agencies; or for doctoral work in the social sciences and humanities. The MA degree program draws on the expertise of departmental faculty in the areas of American politics, comparative politics, international relations, and political theory. Faculty interests range from comparative political institutions, American political institutions, foreign policy, international political economy, and national security, to contemporary global issues such as democratization, globalization, the environment, human rights, refugees, and social movements. For more information, visit the Steven J. Green School of International and Public Affairs website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Master of Arts (MA) in Political Science

Admission to the MA in Political Science program is competitive. Meeting the minimum requirements does not guarantee acceptance. The minimum requirements for admission to the MA program include:

(1) A baccalaureate degree from an accredited college or university.

(2) A minimum 3.2 GPA (on a 4.0 scale) during the last two years of a student's undergraduate program (students with graduate or professional course work will be evaluated individually).

(3) Graduates of non-U.S. institutions must be academically eligible for further study in the country where the degree was earned.

(4) Applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. Please refer to the Admissions English Proficiency criteria at https://admissions.fiu.edu/international/graduate-school/english-language-proficiency/index.html.

Admissions Procedures for the MA in Political Science

Applicants seeking admission for the Fall semester must submit all application materials by March 15th (February 15 for international students). Incomplete applications cannot be considered by the Graduate Admissions Committee. Admission decisions will be announced no later than April 15th. Applicants must apply online using the website of the FIU University Graduate School. The following items should be submitted to the FIU University Graduate School:

(1) Official transcripts of all university-level work, including undergraduate or professional school courses.

(2) For international graduate student applicants whose native language is not English, please refer to the English-Language Requirements for Graduate School Admission website for minimum English-proficiency levels.

Note: It is advised to send copies of the above items to the Political Science Graduate Admissions Committee at the following address: Department of Politics and International Relations, Modesto A. Maidique Campus, 11200 S.W. 8th Street, SIPA 436, Miami, Florida 33199.

In addition, applicants must submit the following directly to the Political Science Graduate Admissions Committee:

(1) Two letters of reference from former instructors who are able to evaluate the applicant's potential for graduate study. Applicants should ensure that each letter is signed by the author along the sealed flap of the envelope.

(2) A personal statement of intent, including a discussion of education and career objectives and the specific relationship of a master's degree in Political Science to the achievement of those objectives. The personal statement should not exceed three typewritten, double-spaced pages.

Admissions Requirements for the Combined Bachelor of Arts (BA) in Political Science to MA in Political Science Accelerated Degree Pathway

To be considered for admission to the Ba/MA accelerated degree pathway, students must have completed at least 75 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the accelereated degree pathway, the application is submitted to Graduate Admissions typically before the student starts the last 30 credits of the bachelor's degree program. A student admitted to the accelerated degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Admissions Requirements

(1) Students must have completed 75 credits.

(2) Students must have been admitted to the Green School.

(3) A 3.5 GPA overall in college work, and a 3.75 GPA in Political Science courses taken at FIU are required.

(4) Three letters of recommendation, at least two of which must be from FIU Political Science faculty, are required.

(5) Students must meet admissions requirements for the MA in Political Science.

(6) Finally, a favorable decision into the pathway by the Political Science graduate committee is required.

(7) Students will be awarded the BA in Political Science degree upon completion of the BA requirements, prior to completing the requirements for the MA degree.

Program Requirements

The course of study for the MA in Political Science requires 30 credit hours. A final research project and research seminar are required components.

Program Credit Hours: 30

Type

Completion Requirement

Required Courses: 9 credits

Complete ALL of the following Courses:

- POS5716 - Foundations of Political Science
- POS5706 - Methodology
- POS6976 - Research Seminar

Core Courses: 9 credits

Complete at least 3 of the following courses:

- POS5045 - Seminar in American Politics
- CPO5091 - Seminar in Comparative Politics
- INR5007 - Seminar in International Politics
- POT5007 - Seminar in Political Theory

Electives: 12 credits

Students are required to take four elective courses. A student may take a maximum of six credit hours in a cognate field or in an approved cognate program. Note: Consult with program director or advisor regarding course selection.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Combined BA in Political Science to MA in Political Science Accelerated Degree Pathway

Common Prerequisites and Departmental Requirements: 9 credits

The common prerequisites are required introductory courses for the undergraduate major and should be among the first Political Science courses taken. The department requires one additional 2000-level course beyond the common prerequisites. In order to conform with both state and departmental requirements, students must take the following:

-- POS2041 American Government (or its equivalent)

and two of the following three courses:

-- CPO2002 Intro Comp Pol (or its equivalent)
-- INR2001 Intro To Intl Rels (or its equivalent)
-- POT2002 Intro To Pol Theory (or its equivalent)

Some transfer students will have already taken these or equivalent courses at other institutions, and should not repeat them at FIU. Students with questions about course equivalencies should contact the Associate Director of Undergraduate Studies.

Breadth Requirement: 24 credits

The breadth requirement is intended to expose students to each of the four major sub-fields of Political Science. Two courses (6 credits) must be taken in each of the following sub-fields, for a total of 24 credits. These courses may not include independent studies, internships, or POS4784 PS Analytic Writing.

-- **American Politics** - Any two 3000-level or above courses with a POS prefix, except POS4784 PS Analytic Writing. PUP4004 Public Policy: Us may be used as one of the required two American Politics courses. (6 credits)

-- Comparative Politics - Any two 3000-level or above courses with a CPO prefix. (6 credits)

-- International Politics - Any two 3000-level or above courses with an INR prefix. (6 credits)

-- Political Theory - Any two 3000-level or above courses with a POT prefix. (6 credits)

Electives Requirement: 6 credits

Two upper division courses with POS, CPO, INR, or POT prefixes for a total of 6 credits. Independent studies, internships, and/or POS4784 PS Analytic Writing can be applied toward the Political Science electives requirement.

Political Science Graduate/Undergraduate Electives Requirement: 9 credits

Three graduate Political Science courses at the 5000-level for a total of 9 credits. Students must be advised by the departmental Graduate Program Director before enrolling in these 5000-level courses.

The 9 graduate credits taken to satisfy the undergraduate Political Science major requirement will also count as 9 credits toward the 30 credits required for the MA degree.

MA in Political Science Courses

A total of 30 graduate-level credits are required for the successful completion of the MA degree. Nine of these 30 credits will have been completed at the undergraduate level by students in the accelerated 4+1 degree pathway.

Required Core Graduate Courses: 9 credits

-- POS5706 Methodology
-- POS5716 Found Pol Science
-- POS6976 Research Seminar(to be taken during last term)

Secondary Core Graduate Courses: 9 credits - Choose three of the following:

-- CPO5091 Comp Politics
-- INR5007 Sem Int Politics
-- POS5045 Sem Us Politics
-- POT5007 Sem In Pol Theory

Electives: 12 credits

Any 5000- or 6000-level Political Science courses. Two courses (6 credits) may be taken from outside the department, with prior approval from the Graduate Program Director.

Research Project

A final research project must be completed in POS6976 Research Seminar under the supervision of a Politics and International Relations faculty member. Candidates for the MA degree are required to formally present the results of their research to faculty and peers at the end of the semester. The MA project will be evaluated by a three-member faculty panel.

POLSC:PHD - Doctor of Philosophy in Political Science

Overview

Degree Offered
PHD - Doctor of Philosophy

Program Title
Political Science

The Doctor of Philosophy (PhD) in Political Science program offers rigorous methodological training combined with breadth and depth across four fields, including American politics, comparative politics, political theory, and international politics. Doctoral students have entered this program from many countries around the world, including Argentina, Brazil, Colombia, Ecuador, Haiti, Iran, Jamaica, Japan, Romania, South Korea, and Turkey. Faculty areas of specialty include American political institutions, American political thought, the comparative politics of democratization, international political economy, international relations theory, security studies, and U.S. foreign policy. Faculty also have regional interests that range across Africa, Central Asia, East Asia, Europe, Latin America and the Caribbean, the Middle East, and Russia. For more information, visit the Steven J. Green School of International and Public Affairs website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the PhD in Political Science

Admission to the PhD in Political Science program is competitive. Meeting minimum requirements does not guarantee acceptance. The minimum requirements for admission include:

(1) A baccalaureate degree from an accredited college or university;

(2) An undergraduate GPA of 3.2 and/or a graduate GPA of 3.25;

(3) Graduates of non-U.S. institutions must be academically eligible for further study in the country where the degree was earned; and

(4) International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the iBT TOEFL or 6.5 overall on the IELTS is required.

Financial Aid

The program has a limited number of graduate assistantships available for qualified students. Assistantships are awarded on a competitive basis only to full-time students. Students applying for full-time status are considered automatically for these awards. Assistantships are renewable each year for up to four years based on satisfactory progress and performance.

Admissions Requirements for the Master of Arts (MA) in African and African Diaspora Studies and PhD in Political Science Joint Degree Pathway

To be accepted into this joint degree pathway, students must simultaneously submit applications for the MA in African and African Diaspora Studies and the PhD in Political Science by January 15 in the year in which they wish to begin their studies. To be considered for admission, students must meet the following requirements:

(1) Minimum cumulative grade point average of 3.2 in undergraduate work.

(2) Minimum cumulative grade point average of 3.5 in any prior graduate work.

(3) International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 90 on the iBT TOEFL (equivalent to 575 on the paper-based version of the Test of English as a Foreign Language) is required.

Applicants must follow the admission procedures for both programs (see the appropriate sections in this graduate catalog). Only applications to begin studies in the fall semester will be considered. This designation will appear in the menu of programs in the graduate application, and students must indicate their intention to apply for this combined degree pathway.

Each applicant must complete an online graduate application form and arrange to send transcripts of all prior college (undergraduate and graduate) work and official reports of the Graduate Records Exam (GRE) and TOEFL (if applicable) to FIU's Office of Graduate Admissions.

Each applicant should also submit a separate statement of purpose, along with copies of the above material. The letter of application should include a statement expressing the applicant's academic and professional objectives. Applicants must include writing samples and other relevant professional work that may support their applications. Applicants must request three letters of recommendation from university professors who are able to comment on the various aspects of the student's academic ability. The letters of recommendation should be sent directly to the Director of the African and African Diaspora Studies Graduate Programs who will photocopy the recommendation letters once they are all in and send them to the International Relations Graduate Program Director.

The application file must be complete before the African and African Diaspora Studies/International Relations Graduate Program Committees will consider the applicant for admission. We encourage applicants to send their application material sooner.

Admissions Requirements for the MA in Latin American and Caribbean Studies and PhD in Political Science Joint Degree Pathway

Applicants must meet the following minimum requirements to be considered for admission.

(1) Baccalaureate degree from an accredited institution for higher education (or equivalent);

(2) Minimum cumulative grade point average of 3.2 on a 4.0 scale (or equivalent) for the last two years of undergraduate work and/or a GPA of 3.25 on any previous graduate work;

(3) International graduate student applicants whose native language is not English and who have not obtained a degree from an English-speaking academic institution are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the internet-based TOEFL (equivalent to 550 on the paper-based version) or a 6.5 overall on the IELTS is required.

Although admissions decisions typically are made in the Spring, decisions for students who have not yet received their bachelor's degree will be conditional, pending confirmation of the BA degree. Meeting the minimum requirements does not guarantee admission into the program. All applications are subject to review by both the members of the Department of Politics and International Relations and the MA Latin American and Caribbean Studies Graduate Committee.

Admissions Procedures

To be accepted into this pathway, students must submit an application to the PhD in Political Science with a sub-plan for the MA in Latin American and Caribbean Studies. This designation will appear in the menu of programs in the graduate application. The application must be submitted by February 1 in the year in which they wish to begin their studies. The following documents must be submitted and will be reviewed by the Admissions Committees from both units.

(1) Online application and application fee;

(2) Official transcripts for all undergraduate and graduate coursework;

(4) Official TOEFL scores, if applicable.

(5) A statement of research interests, including reasons for seeking the MA/PhD joint degree pathway, future career goals, and a summary of scholarly preparation for this pathway;

(6) Three letters of reference from academic sources or others able to judge academic abilities and potential;

(7) A curriculum vitae; and

(8) A writing sample (such as a seminar paper) which demonstrates the ability to conduct research and write effectively.

Program Requirements

The PhD in Political Science is conferred based on satisfactory completion of required coursework, a demonstrated mastery of a broad field of knowledge, and successful completion and defense of the dissertation. The degree provides graduates with a solid foundation in the basic theories and methodologies of Political Science in conjunction with specialization in traditional sub-fields. Students will, in consultation with their faculty advisors, determine the contents of their course work. Students will specialize in two examination fields drawn from the four principal sub-fields of Political Science: American politics, Comparative politics, international politics, and political theory. Students also have the option of a minor field in research methods where students are required to take four research methods courses.

Students' proposed programs must be approved by their advisors and the Political Science Graduate Studies Committee.

Students who have satisfied all other requirements for the MA apart from the exit requirement (i.e., all coursework and the foreign language competency) are eligible to receive an MA degree. Passing the doctoral comprehensive examinations serves as equivalent to the MA comprehensive examination. Students who have satisfied these requirements should consult with the Graduate Program Director about the necessary paperwork and procedures to receive the MA degree in the course of their PhD studies.

Program Credit Hours: 76

Type

Completion Requirement

Part I

Required Courses: 13 credits

Complete ALL of the following Courses:

- POS5702 - Teaching Political Science
- POS5706 - Methodology
- POS5716 - Foundations of Political Science
- POS6918 - Seminar in Political Science Research Methods

Part II

Methodology Courses

Students are required to take three methods courses; two required courses during the first year being POS5706 Methodology and POS6918 Sem Research Mthds, and one course among the following:

Complete at least 1 of the following courses:

- POS6725 - Formal Political Modeling
- PAD7707 - Applied Quantitative Analysis II
- SYA6317 - Social Research Quantitative Methods II
- ANG6497 - Qualitative Research Methods
- POS5745 - Quantitative Content Analysis

Note: The third method course requirement can be waived for students with Political Theory as their major field.

Doctoral students wishing to pursue research methods as their second examination field would, in addition to the three required courses in methods (POS5706 Methodology, POS6918 Sem Research Mthds, and one course from the above list), also take a fourth methods course from this list and pass a minor-field comprehensive exam in research methods.

Common Core Courses: 12 credits

Complete ALL of the following Courses:

- CPO5091 - Seminar in Comparative Politics
- INR5007 - Seminar in International Politics
- POS5045 - Seminar in American Politics
- POT5007 - Seminar in Political Theory

Two Examination Fields: minimum 12 credits

Consult with graduate program director regarding course selection.

Approved Electives: minimum 9 credits

Consult with graduate program director regarding course selection.

Required Research Skills (to be taken during first two years of Ph.D. program):

Complete ALL of the following Courses:

- POS5785 - Writing Professionally in Political Science
- POS6976 - Research Seminar

Language Requirement

The PhD in Political Science program requires competency in one foreign language or demonstrated competency in computer and methodological techniques when considered more appropriate. Language competency must be demonstrated prior to taking the comprehensive examinations.

Comprehensive Examination

After satisfactory completion of course work, students will take comprehensive exams in their two chosen sub-fields before being admitted to candidacy and defending a dissertation proposal. The comprehensive exams will cover core courses and broad knowledge of the two examination fields. They will be written and oral.

Comprehensive examinations are given twice yearly, in mid-September and in mid-January.

Dissertation: minimum 15 credits

After passing the comprehensive exams, students are admitted to candidacy and enroll for dissertation credits under the supervision of their dissertation advisors. Candidates will prepare and defend a dissertation proposal. Upon completion of the work, a public defense of the dissertation will be scheduled in accordance with university policy.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: MA in African and African Diaspora and PhD in Political Science Joint Degree Pathway

Type

Completion Requirement

MA in African and African Diaspora Studies Requirements

The combined MA in African and African Diaspora Studies/PhD in Political Science joint degree pathway allows qualified graduate students to pursue both degrees at the same time.

Required Credits

Students must fulfill the requirements for both programs. The 30 credits for the MA in African and African Diaspora Studies program will count toward the required coursework for the PhD program.

This 30-credit, one year, three semester program occurring over the Fall, Spring, and Summer terms includes 9 credits of core African and African Diaspora Studies courses, which includes 3 credits for the directed research paper exit option, 6 credits of core Political Science courses, and 12 credits of electives. Students are encouraged to select eligible Political Science courses to fulfill their MA elective requirements and must seek advanced approval from the Political Science Graduate Program Director to have these credits applied to the PhD course requirements. There is also a Foreign Language Requirement.

Fulfill ALL of the following requirements:

MA in African and African Diaspora Studies Core Courses: 9 credits

Complete ALL of the following Courses:

- AFA5005 - African and African Diaspora Studies Theory
- AFA5855 - Research Methods and Scholarly Writing in Africana Studies
- AFA6920 - African and African Diaspora Studies Graduate Colloquium

AFA6920 AADS Graduate Colloq is taken as 1 credit over three semesters for a total of 3 credits

AND

Combined MA in African and African Diaspora Studies/PhD in Political Science Core Courses: 6 credits

Complete ALL of the following Courses:

- POS5706 - Methodology
- POS5716 - Foundations of Political Science

AND

MA in African and African Diaspora Studies Electives: 15 credits

15 credits of elective courses with an African and African Diaspora Studies focus are required. Students are encouraged to select courses from within the Political Science Department. If students wish to take electives from outside the Political Science Department and within the Green School and/or the College of Arts, Sciences, and Education, they must seek prior approval from the Graduate Program Directors of both African and African Diaspora Studies and Political Science.

Earn at least 15 credits from the following:

- AFA5932 - Special Topics in African and African Diaspora Studies
- AFA6245 - The African Diaspora in Latin America
- AFA5600 - National and Transnational Policy Analysis: The African Diaspora (Inactive)
- AFA5341 - Health Issues in the African World (Inactive)
- AFA6217 - Sex, Race, and Power in European Colonialisms (Inactive)
- ANG6473 - Diasporas, Migration, and Globalization
- POS5728 - Comparative Racial Politics
- CPO5325 - Politics of the Caribbean
- CPO6350 - Seminar in Brazilian Politics
- ECS5406 - Latin American Economies
- ECS7435 - Economics of the Caribbean (Inactive)
- HIS5930 - Special Topics
- INR5087 - Ethnicity and the Politics of Development
- INR5255 - Seminar in African Development
- INR6936 - Seminar in Inter-American Politics
- ISS6317 - Social Research Quantitative Methods I
- LAW6234 - Race and the Law
- RLG5488 - Theology and Liberation Movements (Inactive)
- SYD6705 - Comparative Analysis of Ethnicity and Race
- WOH5236 - The Transatlantic Slave Trade and the Making of African Diaspora, 1441-1807
- WOH5237 - The African Diaspora Since the End of the Slave Trade (Inactive)

MA in African and African Diaspora Studies Research Proposal or Paper Option

To graduate from the MA in African and African Diaspora Studies, students enrolled in this combined MA/PhD joint degree pathway must elect to complete either a research proposal or research paper for their exit option. Those who elect to write a research proposal must take AFA6911 Prop Writing in AADS.

Language Requirement

Students must demonstrate proficiency in a language other than English according to the nature of their research paper/proposal and professional interests. The Director of African and African Diaspora Studies Graduate Programs will ask a university faculty member fluent in the language of interest to the student to evaluate the student's fluency by asking her/him to summarize or synthesize the context of a text of between 10 to 20 pages, published in that language, in no more than one page. That exercise will have to take place at the university during a limited period of time. The text will be given to the student at the beginning of the exercise. The chosen text will have some connection to the student's research interest. Once a student has demonstrated proficiency for the MA in African and African Diaspora Studies, that proficiency will be recognized by the PhD in Political Science program. Therefore, proficiency in a foreign language will not be part of the candidacy exam. Credits earned in meeting the language requirement will not count towards the 30 credits required for the MA degree.

Students should apply for graduation with the MA in African and African Diaspora Studies as soon as they have completed all requirement for the degree — including the exit requirements. Ordinarily, students will complete these requirements and earn the MA before advancing to candidacy for the PhD in Political Science. The research paper/proposal option is the only option available for students enrolled in this combined MA/PhD joint degree pathway.

Doctor of Philosophy in Political Science: 76 credits

Fulfill ALL of the following requirements:

Required Courses

The following courses are required for the PhD in Political Science degree. The MA earned credits that are eligible to be applied to the PhD must be approved in advanced by the Political Science Graduate Program Director.

Complete ALL of the following Courses:

- POS5702 - Teaching Political Science
- POS6918 - Seminar in Political Science Research Methods
- CPO5091 - Seminar in Comparative Politics
- INR5007 - Seminar in International Politics
- POS5045 - Seminar in American Politics
- POT5007 - Seminar in Political Theory

AND

Examination Fields

12 credits (minimum) of Two Examination Fields.
Consult with graduate program director regarding course selection.

AND

Electives

9 credits (minimum) of Approved Electives
Consult with graduate program director regarding course selection.

Required Research Skills (to be taken during first two years of Ph.D. program):

POS5785 POS Writing Prof

POS6976 Research Seminar

Language Requirement

The PhD in Political Science program requires competency in one foreign language or demonstrated competency in computer and methodological techniques when considered more appropriate. Language competency must be demonstrated prior to taking the comprehensive examinations.

Comprehensive Examinations

After satisfactory completion of course work, students will take comprehensive exams in two chosen sub-fields before admitted to candidacy and defending a dissertation proposal. The comprehensive exams require a demonstration of broad knowledge of the two examination fields.

Comprehensive examinations are given twice yearly, in mid-September and in mid-January.

Dissertation: 15 credits minimum

After passing the comprehensive exams, students are admitted to candidacy and enroll for dissertation credits under the supervision of their dissertation advisors. Candidates will prepare and defend a dissertation proposal. Upon completion of the work, a public defense of the dissertation will be scheduled in accordance with university policy.

Other Curricular Offering: MA in Latin American and Caribbean Studies to PhD in Political Science Joint Degree Pathway

The combined MA in Latin American and Caribbean Studies/PhD in Political Science accelerated degree pathway allows qualified students to pursue graduate degrees in both areas simultaneously. Students must fulfill the requirements for both programs, and up to 30 credits completed as part of the MA in Latin American and Caribbean Studies will be counted toward the 76 credits required for the PhD in Political Science.

MA in Latin America and Caribbean Studies Degree Requirements: 30 credits

During their first two years of enrollment in the accelerated degree pathway, students must complete 30 credits for the MA in Latin America and Caribbean Studies with depth or focus courses in Political Science.

MA in Latin American and Caribbean Studies Core Courses: 9 credits

During their first two years of enrollment in this combined degree pathway, students take three core courses as follows:

-- LAS6003 Survey Latin America: 3 credits (first year, fall semester)
-- LAS6934 Lac Research Sem: 3 credits (first year, spring semester)
-- POS5706 Methodology: 3 credits

MA in Latin American and Caribbean Studies Focus Courses: 12 to 15 credits

Students will take a minimum of 12 to 15 credits within the Department of Politics and International Relations with a Latin American and/or Caribbean focus.

MA in Latin American and Caribbean Studies Breadth Courses: 3 credits

Student can take courses from other areas.

MA in Latin American and Caribbean Studies Exit Option for Accelerated Degree Pathway: 3 to 6 credits

Students select one of the following options:

-- LAS6970 Thesis: 6 credits (Students complete a thesis paper supervised by three committee members. All members of the committee must have FIU Graduate Faculty status.)

or

-- LAS6942 Lac Internship: 3 credits (Supervised internship leading to a major research paper in Latin American and Caribbean Studies.)

or

-- LAS6905 Lac Dir Rsch: 3 credits (Students complete one directed research paper of about 35 -40 pages.)

MA in Latin American and Caribbean Studies Language Requirement

Each student is required to demonstrate proficiency in either Spanish or Portuguese, or in another language such as French or Haitian Creole when justified by research interests. Proficiency is demonstrated by scoring an advanced level on the ACTFL exam for Spanish, Portuguese, or French administered by FIU's Department of Modern Languages. Other tests of proficiency may be accepted upon approval of the graduate advisor.

Application for Graduation from MA in Latin American and Caribbean Studies

Students should apply for graduation from the MA in Latin American and Caribbean Studies as soon as they have completed all requirements for the degree – including the exit requirements. Ordinarily, the MA will be conferred before the student advances to candidacy for the PhD in Political Science.

PhD in Political Science Degree Requirements

Students will begin study towards the PhD in Political Science immediately following their satisfactory completion of the MA in Latin American and Caribbean Studies requirements. A minimum of 46 credits beyond the 30 credits required for the MA degree will be necessary to satisfy the requirements of the PhD in Political Science program.

The total of 76 credits for a PhD in Political Science include the following:

Required Courses: 7 credits

-- POS5702 Teaching Pol Sci: 1 credit
-- POS5716 Found Pol Science: 3 credits
-- POS6918 Sem Research Mthds: 3 credits

Common Core Courses: 12 credits

-- CPO5091 Comp Politics: 3 credits
-- INR5007 Sem Int Politics: 3 credits
-- POS5045 Sem Us Politics: 3 credits
-- POT5007 Sem In Pol Theory: 3 credits

12 Credits in Two Examination Fields from the following:

(1) American Politics,

(2) Comparative Politics,

(3) International Politics, and

(4) Political Theory.

With advisor approval, these 12 credits may include some or all of the coursework (except POS5706 Methodology) taken in satisfaction of the requirements for the MA in Latin American and Caribbean Studies degree.

Approved Electives: minimum 9 credits

Elective credits necessary to bring total credits earned beyond the MA in Latin American and Caribbean Studies degree to a minimum of 40 credits.

Required Research Skills (to be taken during first two years of Ph.D. program):

POS5785 POS Writing Prof

POS6976 Research Seminar

Comprehensive Examination

After satisfactory completion of course work, students will take comprehensive exams in their two chosen sub-fields before being admitted to candidacy and defending a dissertation proposal. The comprehensive exams will cover core courses and broad knowledge of the two examination fields. They will be written and oral. Comprehensive examinations are given twice yearly, in mid-September and mid-January.

Dissertation: 15 credits minimum

After being admitted to candidacy, students enroll for dissertation credits under the supervision of their dissertation advisors. Candidates will prepare and defend a dissertation proposal. Upon completion of the dissertation itself, a public defense of the dissertation will be scheduled in accordance with university policy.

PORFA2:CFI - Graduate Certificate in Portrait and Figurative Art

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Portrait and Figurative Art

The Certificate in Portrait and Figurative Art is designed to give interested graduate students the knowledge and skills necessary for a successful professional career in portrait and figurative art. Only students admitted to a graduate degree program in the Department of Art and Art History may enroll in this certificate program.

For more information, visit the College of Communication, Architecture, and the Arts website.

Requirements

Simple Requirements

Admissions Requirements

This certificate is offered as an alternative to the Portuguese minor. With a primary focus on an intermediate proficiency level for professional and social purposes, it is particularly suited for students without prior knowledge

This certificate is open to degree-seeking and non-degree seeking students.

Prerequisites

There are no prerequisites to pursue this certificate. Contact advisor for more information.

Program Requirements

Program Credit Hours: 15

Type
Completion Requirement

Required Courses

Students with prior knowledge of Portuguese may be exempted from part of the Basic or Intermediate Language sequence by taking a placement test **and** passing the exam of the highest level they test out of **or** interviewing with a faculty in the Portuguese program. Any student so exempted will still be required to complete a minimum of 15 credits to complete the Certificate. As the certificate is proficiency-based, fluent heritage speakers and those with intermediate proficiency are advised to pursue the Portuguese Minor.

Fulfill ANY of the following requirements:

Basic and Intermediate Language Part I

Complete ALL of the following Courses:

- POR1130 - Portuguese I
- POR1131 - Portuguese II
- POR2200 - Intermediate Portuguese

Please note in addition: Two Elective Courses in Portuguese chosen among the departmental offerings.

OR

Basic and Intermediate Language Option II

Complete ALL of the following Courses:

- POR1142 - Portuguese for Spanish Speakers I
- POR1143 - Portuguese for Spanish Speakers II

In addition: Three elective courses in Portuguese, chosen among the departmental offerings.

Elective Course Offerings:

Complete ANY of the following Courses:

- POR3400 - Advanced Oral Communication
- POR3420 - Review Grammar/Writing I
- POR3421 - Review Grammar/Writing II (Inactive)
- POR3440 - Portuguese for Business
- POR3441 - Portuguese for Global Careers
- POR3500 - Luso-Brazilian Culture
- POR3503 - Digital Humor in Portuguese
- POR3504 - Language and Identity in Brazil
- POR3930 - Special Topics in Language Linguistics
- PRT3800 - Port Translation I
- POR3500 - Luso-Brazilian Culture
- POW3284 - Brazilian Short Story
- POW4930 - Special Topics

Additional Comments:

All courses must be taught in Portuguese and students must receive a grade of "B-" or higher in each course to receive credit for the certificate. Elective courses below POR 3000 will not count.

Substitutions for the above courses will be considered only under special circumstances, such as a course not being available. Such substitutions must be authorized in writing by a memorandum in the student's file signed by the program director or advisor.

PPACNP:CFI - Post-Graduate Certificate in Pediatric Acute Care Nurse Practitioner

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Post-Graduate Certificate in Pediatric Acute Care Nurse Practitioner

The pediatric acute care nurse practitioner certificate will prepare advanced practice nurses to deliver high-quality, evidence-based care to acutely ill pediatric patients with complex health conditions. The program emphasizes comprehensive assessments, advanced diagnostics, and the management of emergent, life-threatening conditions. Pediatric acute care graduates are trained to work collaboratively with interprofessional healthcare teams in fast-paced environments, such as intensive care units (ICUs), emergency departments, and specialty care units, providing critical interventions and managing the trajectory of acute illnesses. Graduates will be eligible to take the pediatric acute care nurse practitioner national certification exam.

To explore more about this program, visit the website below:
https://cnhs.fiu.edu/

Academic Group
Nicole Wertheim College of Nursing and Health Sciences

Total Credits
25

Program Length in Years Based on Full-Time Enrollment
2

CIP Code
51.3809

Requirements

Simple Requirements

Admissions Requirements

Admissions requirements for the Graduate Certificate in Pediatric Acute Care Nurse Practitioner:

1-Successful completion of all the admission requirements for graduate education at Florida International University and the Nicole Wertheim College of Nursing & Health Sciences.

2-Cumulative graduate GPA of 3.0 or greater on a 4.0 scale (GPA calculation inclusive of all academic coursework including courses at the community college level).

3-Current State of Florida RN or APRN license. Out-of-state students must obtain a license to practice in Florida prior to admission.

4-Master of Science in Nursing (MSN) or Doctor of Nursing Practice (DNP) from a program accredited by the National League for Nursing Accrediting Commission (NLNAC) or the Commission on Collegiate Nursing Education (CCNE). Applicants from programs without such accreditation will be considered on an individual basis.

5-Completion of all FIU Graduate Nursing admission paperwork including:

a. Nursing CAS application

b. FIU Supplemental Application

c. Personal Statement/Essay: Describe the reasons for applying to the Post Masters Pediatric Acute Care Nurse Practitioner (PACNP) Certificate program at Florida International University, and how it fits into personal, educational, and professional goals.

d. Three (3) Professional Recommendation Letters must be signed and printed on official letterhead (e.g. Professor/ Nurse educator, Nurse manager/Supervisor, APRN or RN colleague (limit of 1)

e. Curriculum Vitae (CV) or Resume

6- Demonstrate ability in (or potential for) clinical excellence and leadership:

a. A minimum of 1 year of full-time employment in the direct care of pediatric patients in acute care settings as an RN within the last two years is required. Experience in critical care, intermediate care, progressive care, or stepdown is preferred or,

b. A minimum of 1 year of APRN experience in the direct care of pediatric patients within 2 years of application.

c. Preference will be given to applicants currently practicing as an APRN in a pediatric acute care setting and/or those with an extensive RN background in a pediatric critical care or stepdown setting.

7- A favorable personal interview with the FIU Graduate Nursing Admission Committee

8- Complete clinical requirements (background check, fingerprinting, drug screening, immunization records and more). Candidates for admission must meet all legal requirements to be licensed to practice nursing in the State of Florida. As such, candidates for admission must disclose any conviction or plea of guilty, nolo contendere, or no contest to a misdemeanor or felony in any jurisdiction (other than minor traffic offenses). All misdemeanors and felonies must be disclosed, even if adjudication was withheld. Driving under the influence (DUI) or driving while impaired (DWI) are not minor traffic offenses for purposes of this disclosure.

*** This certificate is open to non-degree-seeking students only.

Admissions Procedures

1. STEP 1 - Submit an application to Nursing CAS (Centralized Application Service) for Nursing Programs

--Complete an online application via NursingCAS http://www.nursingcas.org and pay appropriate fees. Applications will be accepted from Dec 1 to March 1 for Fall admission.

-- Send official academic transcripts from ALL SCHOOLS attended (all Associate, Bachelors, Master's degree, and higher [if applicable] coursework) to NursingCAS for upload and verification.

-- Upload all required supplemental items including professional CV, active Florida RN and/or APRN License, recommendations and Personal Statement to NursingCAS.

--Complete the required FIU supplemental application and pay the $30 fee.

2. STEP 2 - Professional Interview

-- Following a review of all completed applications a select number of applicants will be offered the opportunity to participate in a panel interview.

--Interview candidates may be instructed to bring additional official transcripts to their interview appointment.

Prerequisites:

Recency of critical knowledge for the certificate must be established by a transcript showing the following courses were completed in the last three years before admission. As such, they are not counted toward the certificate's required credits.

PRADV:BS - Bachelor of Science in Public Relations and Advertising

Overview

Degree Offered
BS - Bachelor of Science

Program Title
Bachelor of Science in Public Relations and Advertising

The Bachelor of Science (BS) in Public Relations, and Advertising, allows students to take courses in both public relations and advertising disciplines, as well as other types of communication, including public speaking, communication studies, and digital media. Public relations and advertising students will learn to develop critical-thinking and strategic communication skills for both a local and global landscape. Graduates will be prepared for exciting professional opportunities, such as content creator, communications specialists, public relations specialists, and much more. For more information, visit the College of Communication, Architecture, and the Arts

Specialized Admissions Requirements for the Bachelor of Science in Public Relations and Advertising

In order to be eligible to take all major-specific requirements, first time in college and transfer students seeking this degree must successfully pass ENC1101 Writing and Rhetoric I and ENC1102 Writing and Rhetoric II with a C, and have a minimum cumulative GPA of 2.75, including any transfer work.

Program Requirements

Common Prerequisite Courses

There are no specified common prerequisites for this degree. For information about state-approved common prerequisites and alternatives for other programs, visit https://cpm.flvc.org.

Academic Progression Requirements

Students are admitted directly to their chosen major at the University. Students are expected to make good progress based on critical indicators that include course completion and the GPA requirements. In cases where students are not making successful progress, a change of major may be required. Academic advisors work with students to identify an appropriate major where a student will be successful in completing an undergraduate degree.

Degree Program Credit Hours: 120

Type

Completion Requirement

Core Degree Courses: 15 Credits

Complete ALL of the following Courses:

- ADV4201 - Advertising and Society
- COM3714 - Fundamentals of Written and Visual Communication
- MMC3303 - Global Media and Society
- MMC4200 - Law And Ethics
- PUR1951 - PRAAC Orientation
- VIC3400 - Visual Design for Globalized Media

Degree-Specific Requirements: 21 Credits

In order to be eligible to take the advanced (4000-level) degree-specific requirements, first time and transfer students seeking this degree must successfully pass PUR1951 PRAAC Orientation and have a minimum cumulative GPA of 2.75, including all transfer work in addition to at least 15 hours of FIU work.

Complete ALL of the following Courses:

- ADV3008 - Principles of Advertising
  OR PUR3000 - Principles of Public Relations
- ADV4323 - Strategic Branding and Social Media
- COM3520 - Designing Communication Strategies
- COM4310 - Research Methods in Communication
- PUR4101 - Digital Editing and Design
- COM4958 - Senior Capstone Seminar: Integrated Campaign
- PUR4100 - Writing for Public Relations

Specialization Courses: 12 Credits

Students will take four courses (12 credits) that are critical to the advertising, public relations or applied communication area in which they decide to specialize.

Complete at least 4 of the following courses:

- ADV3008 - Principles of Advertising
- ADV3200 - Creative Concepts
- ADV4101 - Advanced Concepts in Advertising Copy and Design
- ADV4201 - Advertising and Society
- ADV4300 - Media Planning
- ADV4322 - Mobile Communication and Advertising Strategies

- ADV4323 - Strategic Branding and Social Media
- ADV4411 - Multicultural Marketing Communication
- ADV4601 - Account Planning
- ADV4711 - Advanced Creativity: Portfolio Workshop
- ART2608C - DIMENSIONS: Time
- ART2648C - TECHNOLOGY 01: Networks
- COM3110 - Business and Professional Communication
- COM3471 - Social Media's Impact on Communication
- COM4022 - Health Communication
- COM4930 - Special Topics in Communication Arts
- DIG3001 - Introduction to Digital Media
- DIG4800 - Digital Theories
- IDS3917 - Vertically Integrated Projects - B
- JOU3003 - Introduction to Journalism
- MMC4302 - Social Media and Audience Analysis
- MMC4304 - Strategic Communication Seminar: Multicultural Marketing Communication
- MMC4631 - Audience Analysis, Public Opinion and New Media
- PGY4611C - Digital Photography and Social Media
- PUR3000 - Principles of Public Relations
- PUR4100 - Writing for Public Relations
- PUR4106 - Advanced Public Relations Writing for Multimedia Platforms
- PUR4108 - Strategic Presentation of Data
- PUR4940 - Practicum: BOLD Agency
- RTV3007 - Introduction to Television
- SPC3210 - Communication Theory
- SPC4445 - Communication for Effective Leadership

**COM4930 Spec Topics in Comm Arts or Study Abroad*

Graduation Requirements

Students must pass with a C or better the following three Core required courses that are built into the upper-level 60 credit program requirements:

--MMC3303 Global Media and Society (which also satisfies one Global Learning requirement),

--COM3714 Fnd. of Comm.

--IDS2301 How We Know What We Know (which also satisfies the FIU Humanities core requirement and one Global Learning requirement).

Before taking degree-specific courses, students must pass MMC3303 Global Media and Society, COM3714 Fnd. of Comm., and IDS2301 How We Know What We Know with a "C" or better in order to take the remaining upper-division courses, usually at the start of their third semester for first-time students and second semester for transfers.

Students must complete Core (15), Degree-Specific (21), Specialization (12), and Concentration (12) credit requirements. See the Track, Specialization, Concentration Requirements section below for Concentration recommendations. Students need a minimum of 120 credit hours to be eligible for a Bachelor’s degree. To be eligible for graduation, a student must have a minimum 2.75 GPA in all courses required for the degree.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Area of Concentration

To complete the Public Relations and Advertising degree, students must select or design a 12-hour concentration in a discipline outside the degree. The concentration allows students to develop deeper expertise in an area of interest that will supplement and enrich their career aspirations. Several suggested areas are outlined below, but students also may design their own with permission of the School Director. NOTE**:** CARTA courses used toward specialization as part of the degree may not also be applied to an area of concentration.

Business Communication Concentration Credit Hours: 12

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- COM3110 - Business and Professional Communication
- SPC3602 - Advanced Public Speaking
- SPC4445 - Communication for Effective Leadership
- COM4462 - Conflict Management

Communication Arts Concentration Credit Hours: 12

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- COM4510 - Political Communication
- SPC2237 - Rhetorical Communication: A Theory of Civil Discourse
- SPC3602 - Advanced Public Speaking
- SPC3540 - Persuasion

Social Media and E-Marketing Concentration Credit Hours: 12

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MAR3023 - Introduction to Marketing
- MAR4733 - Digital Marketing

- MAR4233 - Social Media Marketing
- MAR4674 - Marketing Analytics

Marketing Concentration Credit Hours: 12

- HFT4509 - Tourism Destination Marketing

Digital Photography Concentration Credit Hours: 12

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- PGY2800C - Beginning Digital Photography
- PGY3822C - Intermediate Digital Photography
- PGY4611C - Digital Photography and Social Media
- PGY4823C - Advanced Digital Photography I

Graphic Design Concentration Credit Hours: 12

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- ART2608C - DIMENSIONS: Time
- GRA2106C - TYPOGRAPHY 01: Structure + Meaning
- GRA2151C - DESIGN: Illustration

Additional Course (consult with advisor) (3 credits)

Social Psychology Concentration Credit Hours: 12

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- SOP3004 - Introductory Social Psychology
- SOP3015 - Social and Personality Development
- SOP4731 - Global Psychology: Cross Cultural Perspectives on Psychological Research and Theories

Additional Course (consult with advisor) (3 credits)

Information Technology Concentration Credit Hours: 12

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- CGS3095 - Technology in the Global Arena
- CEN3721 - Introduction to Human-Computer Interaction
- CGS3767 - Computer Operating Systems
  OR CGS4285 - Applied Computer Network

- CGS4854 - Website Construction and Management

PREMST:CFI - Undergraduate Certificate in Pre-Master's Pathway Hospitality Management

Overview

Degree Offered
PCRT - Professional Certificate

Program Title
Certificate in Pre-Master's Pathway Hospitality Management

This certificate provides an opportunity for international students who have completed their undergraduate degree in three years. As FIU requires an equivalent of a 120 credit undergraduate degree to be eligible to apply to graduate programs, this certificate will meet the missing 30 credits as well as provide an opportunity for stellar students to enroll in a limited number of graduate courses to complete the certificate.

Requirements

Simple Requirements

Admissions Requirements

Students need to meet FIU's admission criteria for English proficiency to be accepted into the pre-master's pathway certificate program.

(1) In addition to the certificate, students interested in applying for the master's degree program in Hospitality Management at Florida International University must have a 3.0 grade point average from their **prior** undergraduate degree program to be admissible to FIU's graduate program. The grades from this certificate program will not count towards the GPA needed for admission.

(2) Students **may** take up to 12 credits (4 graduate courses) in this certificate program that will transfer to the master's degree program. Only courses with a grade of a B (3.0) or higher are eligible to count towards the master's degree.

This certificate is open to non-degree-seeking students only.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Program Credit Hours: 30

Type

Completion Requirement

Required Courses Part I

Complete ALL of the following Courses:

- HFT3503 - Hospitality Marketing Strategy
- HFT4413 - Hospitality Analytics
- HFT4464 - Financial Analysis in the Hospitality Industry
- HFT4474 - Management Accounting for the Hospitality Industry

Required Courses Part II

Any two of the following courses if taking 4 graduate courses; any six of the following courses if not taking graduate courses:

Complete ANY of the following Courses:

- HFT4295 - Leadership in the Hospitality Industry
- HFT3006 - Emotional Intelligence and Soft Skills for the Hospitality Industry
- HFT3073 - Social Responsibility in the Hospitality Industry
- HFT4545 - Managing High-Functioning Teams
- HFT4247 - Diversity and Inclusion in the Hospitality Industry
- HFT3754 - Introduction to Events Management
- HFT3713 - International Travel and Tourism
- HFT3453 - Lodging Operations Control
- HFT3701 - Sustainable Tourism Practices
- HFT3263 - Dining Services Management

Optional Required Courses Part III

If interested in applying for the master's program in Hospitality Management, the following four graduate courses can be part of this certificate and later transferred towards the graduate degree. To transfer a course, a grade of B or higher must be earned. Students must meet all admission criteria for acceptance into the master's degree program.

Complete ALL of the following Courses:

- HMG6280 - Global Issues in Hospitality and Tourism
- HMG6697 - Hospitality Law Seminar
- HMG6477 - Accounting and Financial Management

Plus any graduate hospitality course approved by the graduate academic advisor

Major Requirements

There are no majors associated with this program.

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

PROF:MBA - Professional Master of Business Administration

Overview

Degree Offered
MBA - Master of Business Administration

Program Title
Professional MBA

The College of Business offers several options leading to the Master of Business Administration (MBA) degree: the Professional MBA for Executives (EMBA), the Professional MBA, the Professional MBA in Healthcare Policy and Management, and the International MBA. Each option is designed to meet different student needs. Options are offered in different locations and delivery modes, including online, face-to-face, and blended (i.e., hybrid) modes. The MBA will broaden students' perspectives and transform their understanding of business processes. Additionally, students will develop leadership, problem-solving, and communication skills that are indispensable in today's business world. The Professional MBA offers various specializations: marketing, entrepreneurship, negotiations, business analytics, finance, international business, leadership, and real estate.

For more information, visit the College of Business website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Professional Master of Business Administration (MBA)

The Professional Master of Business Administration (PMBA) program considers students' work experience, industry knowledge, management skills and undergraduate education as strengths in candidate's qualifying portfolio. Candidate's professional maturity, and managerial experience are highly considered in the admission selection process because the PMBA program at FIU fosters students' ability to contribute real-world experiences to add value to the overall student learning in this competitive degree program.

To be eligible for admission to the PMBA program in the Chapman Graduate School of Business, applicants must:

(1) Hold a bachelor degree or equivalent from either a U.S. accredited college or university or the equivalent degree from institutions outside the U.S.; Students coming from programs where the primary degree is at the master level or higher will meet this requirement;

(2) Show high promise of success in graduate studies as determined by the faculty based upon academic performance, work experience or a combination of academic and work experience.

(3) Evidence a minimum score of 500 on the Graduate Management Admission Test (GMAT) or similar Graduate Record Exam (GRE) score. A GMAT waiver at the discretion of the academic director is available for:

(a) Applicants with two years of demonstrative work experience and success in completing other academic programs;

(b) Applicants who have an undergraduate business or related degree (economics, hospitality management, etc.) with an upper division grade point average (GPA) of 3.25;

(c) Applicants without a business or related degree having an upper division GPA of 3.35;

(d) If the applicant has already completed a graduate degree from an accredited university with a minimum grade point average (GPA) of 3.0, or is entering a business master's program under a special agreement for admissions with specific foreign and domestic universities;

(4) Should, in general, have a minimum upper division grade point average (GPA) of 3.0. An applicant with substantial work experience and industry/work related recommendations will be evaluated based on academic qualifications, work experience, and performance;

(5) Provide a resume describing current and past responsibilities, leadership and management experience highlights and, if any, demonstrated accomplishments in the application of quantitative and analytical skills;

(6) Provide a statement of purpose (short essay) describing how the program fits within your personal and career goals. The essay will be evaluated for applicants' effective and succinct writing skills;

(7) When the applicant's studies were completed in non-English speaking countries, demonstrate proficiency of the English language by presenting a minimum score of 80 on the iBT TOEFL (equivalent to 550 on the paper based version or 213 on the computer based version of the test of English as a Foreign Language) or 6.5 overall on the International English Language Testing System (IETLS) or by other university level English proficiency standards as they are approved.

Applicants are encouraged to provide any additional documentation to strengthen their application portfolio. Examples of documentation include: master degree in any discipline other than an MBA, law degree, professional certifications (i.e. CPA, CFA, SHRM, etc.), GMAT or GRE scores, specialized leadership experience or training documentation that the applicant is part of a "fast track" or "high potential" management group at their organization, or any other similar evidence including letters of reference and recommendations.

Admissions at the graduate level are competitive and meeting minimum requirements does not guarantee admission. For additional information about this value-added program, please contact the PMBA office at (305) 779-7897 or email pmba@fiu.edu

Admissions Requirements for the Professional MBA in Healthcare Policy and Management

To be eligible for admission to the Professional MBA/HPM Program in the Chapman Graduate School, students must:

(1) Hold a Bachelor's degree from an accredited college or university;

(2) Have a minimum upper division grade point average (GPA) of 3.0;

(3) Demonstrate at least two years of professional work experience;

(4) Graduate student applicants whose studies were completed outside of the US must demonstrate proficiency of the English language by presenting a minimum score of 80 on the iBT TOEFL (equivalent to 550 on the paper-based version) or 6.5 overall on the International English Language Testing System (IETLS);

(5) Provide two letters of recommendation from professional contacts;

(6) Provide a personal statement on the motivation to attend the program, including personal and career goals;

(7) Be in good standing with all previously-attended colleges and universities.

Admissions at the graduate level are competitive and meeting minimum requirements does not guarantee admission. For more information about this program, please contact the Healthcare MBA office at (305) 779-7900 or visit **http://healthcaremba.fiu.edu**.

Admissions Requirements for the Professional MBA and Juris Doctor (JD) Joint Degree Pathway

(1) Candidates for the pathway must meet the entrance requirements for and be accepted by both colleges. The College of Business may accept LSAT scores in lieu of GMAT or GRE scores for candidates from the College of Law as part of the admission requirement in the MBA. Both colleges must be informed by the student at the time of application to the second program that the student intends to pursue the joint degree.

(2) The joint degree pathway is not open to students who have already earned one degree.

Admissions Requirements for the Professional MBA and Master of Arts (MA) in Latin American and Caribbean Studies Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program.

(2) Applications for a joint degree will not be accepted from candidates who have already completed either degree. Business Administration students must apply and be admitted by no later than the semester in which they are expected to complete 18 pre-core and core credit hours in the MBA program. MALACS students must apply and be admitted by no later than the semester in which they are expected to complete 18 credit hours in that program.

Admissions Requirements for the Professional MBA and Master of International Business (MIB) Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree option. Candidates deciding to pursue the joint degree pathway after having been admitted to one program will indicate this intention only on their second application.

(2) Applications for a joint degree pathway will not be accepted from candidates who have already completed either degree. MBA or MIB students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.

Admissions Requirements for the Professional MBA and Master of Science (MS) in Human Resource Management Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must submit applications to both programs and notify each Program Manager of desire to pursue the joint degree. Candidates deciding to pursue the joint degree option after having been admitted to one program, must submit a second application to the other program and notify each Program Manager of desire to pursue the joint degree pathway option

(2) Applications to the joint degree pathway will not be accepted from candidates who have already completed either degree. MBA or MSHRM students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.

Admissions Requirements for the Professional MBA and MS in Information Systems Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree pathway. Candidates deciding to pursue the joint degree pathway after having been admitted to one program will indicate this intention only on their second application.

(2) Applications for the joint degree pathway will not be accepted from candidates who have already completed either degree. MBA or MSIS students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.

Admissions Requirements for the Professional MBA in Healthcare Policy and Management and Doctor of Medicine (MD) Joint Degree Pathway

HWCOM Medical students in their third year of medical study may apply to the MBA program. Each college (College of Medicine and College of Business) will independently review and admit applicants to their programs. Only students admitted to both programs will enroll in classes in the joint program.

Students will apply for the combined MD/MBA pathway in the following manner: Medical students in the summer or fall of their third year (prior to November first) must be in good academic standing and must get approval from the Medical Student Evaluation and Promotions Committee (MSEPC), the Office of Student Affairs (OSA), and the Office of Academic Affairs (OAA), in order to apply for admission to the MBA program. Applications will be reviewed by the MBA program admission committee. Applicants to the joint MD/MBA pathway will not be required to submit standardized test scores; they must have a minimum GPA of 3.0. However, they are required to have completed two years of experience, which includes volunteering, any internships or clerkships, and any full or part-time employment. All medical students interested in this program should already have at least two years of experience to satisfy this requirement.

Admissions Requirements for the Professional MBA in Healthcare Policy and Management and MS in Health Informatics and Analytics Joint Degree Pathway

(1) Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree pathway.

(2) Applications for a joint degree pathway will not be accepted from candidates who have already completed either degree. MBA in Healthcare Management or MSHIA students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.

Transfer Credits

A student may receive permission to transfer up to a maximum of nine semester hours of graduate credit towards a Master of Science degree program or twelve semester hours of credit for a Master of Business Administration degree program, if:

(1) The courses were taken at the graduate level at an accredited college or university;

(2) The courses were not introductory or survey in nature;

(3) The student earned grades of “B” or higher in the courses;

(4) The courses are judged by the Department Chair, College Dean, Graduate School Dean, and program manager to be relevant to the student’s graduate program;

(5) The credits were completed within six years immediately preceding the College’s awarding of the degree. Credits are not transferable until the student has earned 15 semester hours in a Chapman School graduate degree program.

Program Requirements

College Policies

To be eligible for a Master's degree, a student must:

(1) Satisfy all University requirements for a Master's degree;

(2) Satisfy required prerequisites;

(3) Complete the required courses in the specific graduate program in which he/she is enrolled.

(4) Earn a minimum average of "B" (3.0) in all approved courses in the student's approved course of graduate study.

No courses in which a graduate student earns a grade below "C" may be counted towards any Master's degree program in the Chapman School. However, all approved undergraduate and graduate course work a graduate student takes will be counted in computing his or her grade point average, including courses in which he or she has earned a "D" or "F" grade.

Faculty have the discretion to administratively drop students who do not attend the first class of a course.

Degree Requirements

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- QMB6357 - Business Statistical Analysis

Professional MBA in Healthcare Policy and Management Requirements

Type

Completion Requirement

Required Courses

Other Curricular Offering: Professional MBA in Healthcare Policy and Management

Designed for the early to mid-level working professional with a minimum of two years professional work experience, the Professional MBA in Healthcare Policy and Management program offers a fast-paced, intense program in which you gain the necessary skills for a management career in various health services organizations.

The PMBA/HPM program incorporates these unique features:

Complete the MBA in approximately eighteen months;

-- Study in convenient locations: FIU Downtown on Brickell, or online;

--Study with, learn from and network with a diverse group of peers in lock-step program;

--Strengthen critical thinking, leadership, team building and interpersonal skills;

-- Enjoy a high level of customer service, catering to the needs of participating professionals;

-- Have access to personalized career services

Complete ALL of the following Courses:

- BUL6810 - Legal Environment of Business
- MAN6095 - Management of Healthcare Organizations in the 21st Century
- QMB6616 - Business Process & Operations Analysis
- MAN6245 - Organizational Behavior
- MAN6098 - Management of Healthcare Finance and Reimbursement
- MAR6805 - Marketing Management in the Global Environment
- ISM6021 - Management of Information Systems
- ACG6026 - Accounting for Managers
- BUL6605 - Healthcare Fraud and Abuse Law and Regulation
- MAN6726 - Strategic Management
- FIN6406 - Corporate Finance
- MAN6097 - Managerial Decision-Making in Health Economics
- MAN6974 - Master's Project in Management
- ACG6175 - Financial Reporting and Analysis

Professional Development

Each of the Professional Development Seminars will focus on soft skills such as leadership, team building, oral presentation, writing skills, health analytics, and career development. There will be team-building activities which include classroom exercises in group decision-making and problem-solving. Students will also work with a presentation and writing skills coach to improve the communication and writing skills that are critical to managerial success.

Seminars will be mandatory, non-credit.

Professional Development Seminars I, II, III
Team Building, Writing Skills, Presentation Skills, Oral Communications, Excel and Statistics Fundamentals, Accounting Boot Camp, Quantitative Methods, Leadership, Lean Enterprise Training and Certification

Additional Comments:

Other Curricular Offering: Professional MBA and JD Joint Degree Pathway

Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. Essential criteria relating to the joint degree pathway are as follows:

(1) For law students, enrollment in the MBA program is required no later than the completion of 63 credit hours in the JD program. For MBA students, enrollment in the JD program is required no later than the third semester after beginning the MBA program. For purposes of this paragraph, a summer session is counted as half a semester.

(2) A student must satisfy the curriculum requirements for each degree before either degree is awarded. The College of Business will allow 12 credit hours of upper level business and commercial law courses to be credited toward both the MBA and JD degrees. These 12 credit hours of law classes will be in lieu of the Legal Environment of Business course (3 credit hours) and three of the elective courses (totaling 9 credit hours) required for the MBA degree. A student may obtain a concentration in the MBA program in accordance with the College of Business curriculum requirements for concentrations. Reciprocally, law students may receive 9 hours of credit toward the satisfaction of the JD degree for courses taken in the MBA curriculum upon completion of the MBA degree with a grade point average of 3.0 or higher.

(3) A student enrolled in the joint degree pathway may begin the student's studies in either college, but full-time law students must take the first two semesters of law study consecutively and part-time law students must take the first three semesters of law study consecutively. Students admitted to one college but electing to begin study in the other college under the joint degree pathway may enter the second college thereafter without once again qualifying for admission so long as they have notified the second college before the end of the first week of the first semester in the second college and are in good academic standing when studies commence in the second college.

(4) A student enrolled in the joint degree pathway will not receive either degree until the student has satisfied all of the requirements for both degrees, or until the student has satisfied the requirements of one of the degrees as if the student had not been a joint degree pathway candidate.

(5) Students in the joint degree pathway will be eligible for the graduate teaching assistantships and research assistantships in the College of Business on the same basis as other MBA students, subject to the guidelines and restrictions set by the College of Business.

For additional information, contact the Chapman Graduate School of Business at (305) 348-0148 or the Law School Admissions Office at (305) 348-8006.

Other Curricular Offering: Professional MBA and MA in Latin American and Caribbean Studies Joint Degree Pathway

An agreement approved by the University Graduate School, between the FIU Alvah H. Chapman, Jr. Graduate School of Business and the Steven J. Green School of International and Public Affairs allows students to pursue simultaneously the Master's in Business Administration (MBA) and MALACS. In doing so the student will finish both programs much sooner than if they pursue each degree separately. Students must meet the entrance requirements for both the MBA and MALACS programs. Twelve credits from the MBA curriculum will be allowed toward the MALACS program and will constitute a MALACS concentration in International Business. Nine credits from the MALACS program will also count
