History of Lehman College

Lehman College was established as an independent unit of The City University of New York on July 1, 1968, following a decision by the University's Board of Trustees to create a comprehensive senior college in the Bronx with its own faculty, curriculum, and administration.

The College took over the campus that, since 1931, had served as the Bronx branch of Hunter College, known as Hunter-in-the-Bronx. Adjacent to the historic Jerome Park Reservoir, the first four buildings in the plan-Gillet and Davis halls, the Music Building, and the Gymnasium-were completed in 1931 by the New York State WPA. The original campus plan called for nine buildings, but the Great Depression delayed construction, and the ambitious plan was later abandoned by Mayor Fiorello H. LaGuardia.

For a decade before the entry of the United States in the Second World War, only women students attended, taking their first two years of study at the Bronx campus and then transferring to Hunter's Manhattan campus to complete their undergraduate work.

Shortly after U.S. entry into the war, the students and faculty vacated the campus and turned over the facilities to the U.S. Navy, which used them as a training station for the newly organized WAVES (Women Accepted for Volunteer Emergency Service). To commemorate this period, the Navy later installed a ship's bell from the U.S.S. Columbia on the campus.

In 1946 the campus won a niche in world history when it was made available to the United Nations at the urging of New York City officials. From March to August 1946, the first American meetings of the Security Council were held in the Gymnasium Building where intercollegiate basketball, archery, swimming, and other sports had been played. During festivities marking the 40th anniversary of the United Nations in 1986, the Southern New York State Division of the United Nations Association presented the College with a commemorative plaque, now displayed outside the Gymnasium Building. The College participated in the United Nations' 50th anniversary activities in 1995-96.

Normal collegiate activity resumed at the campus in 1947, but, in addition to women, the Bronx branch began accepting former servicemen, who studied in separate classes. In 1951 the campus became fully coeducational, and a four-year curriculum was introduced. The process of separating the Bronx campus from Hunter College into a separate unit began in 1967.

Dr. Leonard Lief, chairman of the English Department, was named provost and made responsible for overseeing the transition. On July 1, 1968, Lehman College began an independent existence, with Dr. Lief as president.

The Board of Higher Education named the new college after Herbert H. Lehman, in recognition of his commitment to public service exemplified by the four-time governor of New York State who later became a U.S. Senator and was the first director-general of UNRRA (the United Nations Relief and Rehabilitation Administration). The College was formally dedicated on March 28, 1969, the 91st anniversary of Governor Lehman's birth. Each year, on or about March 28, the College commemorates the double anniversary by inviting a distinguished speaker to deliver the Herbert H. Lehman Memorial Lecture.

Much has occurred at the colleges of the City University since 1968. A national leader in social mobility and the only CUNY senior college of SUNY in the borough and southern Westchester County, Lehman College has adapted to meet changing conditions and respond to new needs and challenges.

On the undergraduate level, Lehman's General Education Curriculum is designed to provide a broad knowledge of the achievements and methods of the liberal arts and sciences and to develop student abilities to participate responsively in informed inquiry into subjects of both public and personal concern. It requires a series of core courses in writing, mathematics, foreign language, and natural sciences and two designated Lehman (LEH) courses dedicated to improving critical thinking. Students must also complete flexible core courses; at least one from five areas: Individuals and Society; World Cultures and Global Issues; US Experience in Its Diversity; Creative Expression; and Scientific World. Major and minor fields of study are also required.

On the graduate level, the College has developed professional programs in a wide range of areas, including: nursing, teacher and counselor preparation, accounting, business, computer science, health services, organizational leadership, public health, social work, speech-language pathology, and more. The College also offers strong traditional liberal arts graduate programs in art, biology, English, history, Spanish and mathematics.

For half a century, Lehman has deepened its involvement with the surrounding community. The opening of the Lehman Center for the Performing Arts in 1980 and the Lehman College Art Gallery in 1984 has made the College a cultural center for the region. Together with Lehman Stages and the Department of Music, Multimedia, Theatre and Dance, every semester, they present dozens of concerts, plays, dance performances, and exhibitions that are mostly free for the whole community.

The Art Gallery is housed in the Fine Arts Building, which was designed by the renowned architect Marcel Breuer - as was Shuster Hall, which houses the College's administrative offices. The Center for Performing Arts, the adjacent Lehman College Library, and the two Breuer buildings offer a striking contrast to the Tudor-Gothic architecture of the original College buildings, providing an environment of considerable architectural interest.

Anchoring the campus on its northern end is the APEX, designed by the internationally acclaimed architect Rafael Violy. Inside are facilities for swimming, basketball, racquetball, weight training, track and field, and dance as well as new offices for security and academic departments.

Completed in 2012, the Lehman Science Hall is a $70 million science facility with updated, versatile classrooms, labs, and instrumentation; a rooftop teaching and research greenhouse; and environmentally sustainable technologies. The new building stands adjacent to Gillet Hall and is accessible from the older building through a third-floor catwalk.

Another facility, the Child Care Center, opened its doors in fall 2013. The center features six classrooms; a multipurpose room that can function as a playroom, after-school space or additional classroom; and a natural playground incorporating greenery, boulders and garden space, along with traditional playground equipment.

The newest building on campus, the Nursing Education, Research, and Practice Center opened in 2024. Designed by Urbahn Architects, the $95 million, award-winning design, houses 52,000 square feet of hands-on labs, a simulated hospital floor, ICU, Birthing Suite, Apartment for Daily Living and instructional and office space.

Lehman College also provides a variety of community services. The Institute for Literacy Studies sponsors classes to teach adults fundamentals of reading and writing, while the Speech and Hearing Center offers comprehensive evaluations and services for a wide range of hearing and speech-language disorders affecting everyone from newborns to senior citizens. Opened in 2025, the Bronx Telehealth Counseling Center, under the supervision of a Licensed Clinical Social Worker and Licensed Psychologist, offers free counseling to people in the Bronx community.

The CUNY Mexican Studies Institute (MSI) and CUNY Institute for Health Equity (CIHE) are both housed at Lehman College. Both engage in numerous programs strongly linked to The Bronx, New York City and Beyond. MSI celebrate and supports Mexican and Mexican-American culture, history, research, and education, while CIHE supports and sustains research, health network building, and links to care that address health care disparities that impact New Yorkers.

There is close collaboration between the College's teacher and counselor education programs and Bronx school districts:

• The New York City Writing Project supports workshops for teachers of writing as well as research at all educational levels.

• The Center for School/College Collaboratives receives external funding for projects that focus on increasing educational success for Bronx students and their families and preparing the students to enter and complete higher education. The Center works with the entire school community - administrators, teachers, students, and parents - and collaborates with the Bronx Regional Offices of the New York City Department of Education.

• The Bronx Institute, funded with private and government grants, is helping more than 12,000 Bronx schoolchildren become academically successful.

In addition, in Fall 2003, the High School of American Studies at Lehman College opened on the Lehman campus. One of New York City's specialized high schools and the only one to focus on American history, the school represents a collaboration among Lehman College, the New York City Department of Education, and the Gilder-Lehrman Foundation. It is listed every year by U.S. News and World Report as one of the nation's top 100 public high schools, most recently (2024-25) as #8 in New York City and #76 in the nation.

After more than 20 years as President, Dr. Leonard Lief, the founding president of Lehman College, was succeeded by Dr. Ricardo R. Fernández on September 1, 1990. Throughout his more than 25-year tenure as president, Dr. Fernández affirmed both the College's strong commitments to access to higher education for the economically disadvantaged and educational excellence.

On August 15, 2016, Dr. José Luis Cruz began his tenure as the third president of Lehman College. Almost three years later, on May 1, 2019, Dr. Cruz was appointed executive vice chancellor and university provost for CUNY. CUNY Chancellor Félix V. Matos Rodríguez appointed Dr. Daniel Lemons, a faculty member and administrator with CUNY for more 30 years, as interim president on July 1, 2019. Two years later, in July 2021, Dr. Lemons was appointed interim executive vice chancellor and university provost for CUNY.

On July 1 of 2021, Dr. Fernando Delgado was appointed as the fourth president of Lehman College. Dr. Delgado came to Lehman with more than 20 years of public college administrative experience in the Midwest and Arizona, including five years as executive vice chancellor for academic affairs at the University of Minnesota, Duluth, which serves approximately 10,000 students through its four academic colleges. Prior to that he served as vice chancellor for academic affairs and provost at the University of Wisconsin-River Falls. He has also held roles as an academic dean at Minnesota State University, Mankato and Hamline University in St. Paul. His academic career began at Arizona State University, where he also began his work as a university administrator.

The son of immigrants—his father is from Mexico and his mother from Spain—Dr. Delgado, like more than 60 percent of Lehman's students, was also a first-generation college student. He holds a bachelor's degree in political science from San José University and a master's degree and Ph.D. in communication studies from the University of Iowa.

History of Lehman College

Mission, Vision, and Values Statements

Mission Statement

Lehman College serves the Bronx and surrounding region as an intellectual, economic, and cultural center. Lehman College provides undergraduate and graduate studies in the liberal arts and sciences and professional education within a dynamic research environment, while embracing diversity and actively engaging students in their academic, personal, and professional development.

Vision Statement

Lehman College has entered a new era in its history as an institution of higher education. Already known for its outstanding faculty, dedicated staff, superb library, art gallery, theaters, speech and hearing clinic, and athletic facilities, the College is now building a new state-of-the-art, environmentally "green" science facility that will invigorate faculty and student research as well as prepare Lehman students for science-based careers.

Supported by the University's expanding technological resources, the College will promote creative teaching strategies, greater access to courses through online learning, off-campus access to library resources and enhanced student services. The new Multimedia Center will stimulate technological innovation in all areas of communications and the arts for both the College and the region.

Lehman has always been a commuter campus that prides itself on its diversity and commitment to multicultural understanding. Now, the College looks forward to providing a residential experience to attract a wider range of students and lead to the development of new learning communities to enhance student success.

Lehman College will prepare students to live and work in the global community through new interdisciplinary programs, such as environmental studies and international business, along with study abroad and experiential learning opportunities. The College's geographic information systems and numerous partnerships with schools, hospitals, social service and governmental agencies, small businesses, major corporations, and cultural and scientific institutions will contribute to the economic development of the region. Service learning and internship opportunities will be further developed to foster the engaged citizenship and commitment to public service embodied in its namesake, Herbert H. Lehman.

Recognized for small classes, close interaction between students and faculty, a successful Teacher Academy and Honors College, and a caring and supportive environment, Lehman College will celebrate its fiftieth anniversary in 2018 as the college of choice in the region, committed to preparing students for graduate studies, professional careers, and lifelong learning.

Values Statement

Lehman College is committed to providing the highest quality education in a caring and supportive environment where respect, integrity, inquiry, creativity, and diversity contribute to individual achievement and the transformation of lives and communities.

History of Lehman College

The City University of New York

TODAY'S City University of New York dates back to the 1847 founding of the Free Academy by Townsend Harris, an early champion of public education and a pioneering diplomat who was the United States' first ambassador to Japan. With an inaugural class of 143 academically qualified young men, the Academy set upon a mission to, in Harris' words, "let the children of the rich and the poor take their seats together and know of no distinction save that of industry, good conduct, and intellect." The Academy quickly grew in reputation and enrollment and, as a new century approached, plans were approved for an expansive neo-Gothic campus uptown for what became known as the College of the City of New York. Twenty years after the first young men entered the Academy, a separate school for the education of teachers, the Female Normal and High School, later renamed Hunter College in honor of its founder Thomas Hunter, offered the same higher education opportunities to women.

Fueled by an immigration boom in the early 20th century, City College and Hunter expanded to include evening session branches in Brooklyn and Queens. In 1926, the state Legislature established a Board of Higher Education to oversee the growing municipal college system and expand public access in the city's outer boroughs. Over the next decade, Brooklyn College and Queens College were founded, and Hunter established a Bronx campus, which decades later would become Lehman College.

Despite the city's limited resources, demand for public higher education continued to grow during the Great Depression era. The colleges created night divisions that charged affordable tuition while offering students the opportunity to work toward their degrees or raise their grades to the levels required to enter the colleges' free baccalaureate programs. In the ensuing post-World War II years, another dramatic enrollment boom led to the creation of several community colleges, including one on Staten Island. In 1961, the state Legislature formally established The City University of New York, uniting what by then had become seven municipal colleges into a formally integrated system, and authorizing the new University to offer doctoral programs. Demand increased further during the 1960s, leading to a six-year period when tuition was briefly eliminated and senior college admission was given to any city resident with a high school diploma or equivalency degree. Today, the senior colleges have selective admission requirements. Community colleges continue to serve as portals to opportunity for applicants with a high school or GED diploma.

Since 2000, billions of dollars have been reinvested to rebuild, enhance and expand the University's 24 campuses. The CUNY Graduate School of Journalism, CUNY School of Public Health, the Macaulay Honors College and the innovative Guttman Community College are among the colleges and graduate schools recently established. This greatly expanded University, serving record enrollments, offers tuition-free education to nearly six in 10 full-time undergraduates thanks to federal, state and CUNY financial aid. In contrast to the crushing debt other students typically carry at many public and private institutions, 85 percent of CUNY's full-time students are student loan debt free.

The University's 21st century mission remains true to its founding principles of academic excellence, scholarship and opportunity for all. CUNY boasts 12 Nobel laureates and the tradition of high academic achievement continues as CUNY students prestigious Rhodes, Fulbright, National Science Foundation, Truman and Goldwater scholarships. With a flourishing reputation among students and educators alike, CUNY is defining value by providing the opportunity of a lifetime: a high-quality, competitive and remarkably affordable college education. It's an education that delivers in the marketplace, producing job-ready graduates with respected academic credentials. It's a 21st-century education, taught by top scholars on upgraded campuses, that is transforming the student experience, bringing jobs to New York and stimulating economic development.

That's why more high-achieving students, and more students of all backgrounds and abilities, are choosing to study in vibrant New York City, at the City University of New York.

History of Lehman College

College Governance

The Lehman College system of campus governance consists of the College Senate. The Lehman College Senate is a unicameral body of 102 members, representing the faculty, students, and administration of the College, and is presided over by the College president. Subject to the authority of the Bylaws of the Board of Trustees of the City University of New York, the College Senate is responsible for the formulation of academic policy and for legislative and advisory functions related to the programs, standards, and goals of the College.

History of Lehman College

College Accreditation and Affiliations

Lehman College is accredited by the Commission on Higher Education of the Middle States Association of Colleges and Schools. Degree programs are registered by the New York State Education Department. Some degree programs are also accredited by professional associations.

The baccalaureate degree program in Nursing/master's degree in Nursing are accredited by the Commission on Collegiate Nursing Education (**http://www.ccneaccreditation.org**). The social work program is accredited by the Council on Social Work Education. The College also offers nutrition programs approved by the American Dietetic Association. Lehman's B.S. degrees in chemistry are certified by the American Chemical Society. The graduate program in speech-language pathology is accredited by the American Speech-Language-Hearing Association. All educator preparation programs offered by the College's School of Education are accredited by the Council for the Accreditation of Educator Preparation (CAEP). In addition, the School of Education's counselor education program in school counseling offered by the Department of Counseling, Leadership, Literacy, and Special Education is nationally accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

Lehman's B.S. and M.S. programs in accounting provide the educational preparation required for licensure as a Certified Public Accountant in New York State. The College offers State-approved teacher education programs that can lead to New York State provisional or permanent certification. Graduates of the undergraduate nursing program are eligible to take the Registered Nurse licensure examination.

Lehman College has chapters of Phi Beta Kappa, Sigma Xi, and Golden Key National Honor Society. Individual disciplines have their own honor societies with national affiliations. The College is a member of the National Collegiate Athletic Association and the Eastern Collegiate Athletic Conference.

Mission, Vision, and Values Statements

Mission

Lehman College, an urban public institution and economic and cultural catalyst in the Bronx, is a national engine for social mobility and a vibrant center of discovery and creative work, providing a transformative educational experience while advancing equity, inclusion, and social justice.

Vision

Lehman College will be a nationally recognized leader in educational attainment and the expansion of knowledge through innovative curriculum and pedagogy, original research and scholarship, and enhanced digital solutions. The College will be a model of engaged citizenship and a leading force for a more just and sustainable world.

Values

Lehman College is committed to providing the highest quality education in a caring and supportive environment where respect, integrity, inquiry, creativity, and diversity contribute to individual achievement and the transformation of lives and communities.

Inspired by the life and legacy of our namesake, Herbert H. Lehman, we are committed to the following values:

• Social Justice: Advocating for human rights, honoring differences, and working towards equality and equity for all.

• Excellence: Pursuing innovative teaching, research, and scholarship to produce a diverse pipeline of leaders and change agents committed to novel and sustainable solutions and igniting new possibilities.

• Ethics: Upholding the principles of academic freedom, and demonstrating honesty, integrity, respect, and care in our interactions with others.

• Diversity & Inclusion: Fostering a campus environment that respects and values diverse perspectives and identities and where all members of the Lehman community experience a remarkable sense of belonging.

• Service: Empowering the local and international community through the increased engagement of faculty, staff, students, and alumni in outreach and partnerships contributing to individual achievement, economic development, and the common good.

The City University of New York

TODAY'S City University of New York dates back to the 1847 founding of the Free Academy by Townsend Harris, an early champion of public education and a pioneering diplomat who was the United States' first ambassador to Japan. With an inaugural class of 143 academically qualified young men, the Academy set upon a mission to, in Harris' words, "let the children of the rich and the poor take their seats together and know of no distinction save that of industry, good conduct, and intellect." The Academy quickly grew in reputation and enrollment and, as a new century approached, plans were approved for an expansive neo-Gothic campus uptown for what became known as the College of the City of New York. Twenty years after the first young men entered the Academy, a separate school for the education of teachers, the Female Normal and High School, later renamed Hunter College in honor of its founder Thomas Hunter, offered the same higher education opportunities to women.

Fueled by an immigration boom in the early 20th century, City College and Hunter expanded to include evening session branches in Brooklyn and Queens. In 1926, the state Legislature established a Board of Higher Education to oversee the growing municipal college system and expand public access in the city's outer boroughs. Over the next decade, Brooklyn College and Queens College were founded, and Hunter established a Bronx campus, which decades later would become Lehman College.

Despite the city's limited resources, demand for public higher education continued to grow during the Great Depression era. The colleges created night divisions that charged affordable tuition while offering students the opportunity to work toward their degrees or raise their grades to the levels required to enter the colleges' free baccalaureate programs. In the ensuing post-World War II years, another dramatic enrollment boom led to the creation of several community colleges, including one on Staten Island. In 1961, the state Legislature formally established The City University of New York, uniting what by then had become seven municipal colleges into a formally integrated system, and authorizing the new University to offer doctoral programs. Demand increased further during the 1960s, leading to a six-year period when tuition was briefly eliminated and senior college admission was given to any city resident with a high school diploma or equivalency degree. Today, the senior colleges have selective admission requirements. Community colleges continue to serve as portals to opportunity for applicants with a high school or GED diploma.

The City University of New York is the nation’s leading urban public university. Founded in 1847, CUNY counts 13 Nobel Prize and 26 MacArthur “genius” grant winners among its alumni. CUNY students, alumni and faculty have garnered scores of other prestigious honors over the years in recognition of historic contributions to the advancement of the sciences, business, the arts and myriad other fields. The University comprises 25 institutions: 11 senior colleges, seven community colleges, William E. Macaulay Honors College, CUNY Graduate Center, Craig Newmark Graduate School of Journalism, CUNY School of Labor and Urban Studies, CUNY School of Law, CUNY School of Professional Studies and CUNY Graduate School of Public Health and Health Policy. The University serves more than 240,000 undergraduate and graduate students and awards 50,000 degrees each year.

College Governance

The Lehman College system of campus governance consists of the College Senate. The Lehman College Senate is a unicameral body of 102 members, representing the faculty, students, and administration of the College, and is presided over by the College president. Subject to the authority of the Bylaws of the Board of Trustees of the City University of New York, the College Senate is responsible for the formulation of academic policy and for legislative and advisory functions related to the programs, standards, and goals of the College.

College Accreditation and Affiliations

Lehman College is accredited by the Middle States Commission on Higher Education (MSCHE). Degree programs are registered by the New York State Education Department. Some degree programs are also accredited by professional associations.

The Baccalaureate and Master’s degree programs in Nursing are accredited by the Commission on Collegiate Nursing Education (http://www.ccneaccreditation.org). The Baccalaureate and Master’s degree programs in social work program is accredited by the Council on Social Work Education (https://www.cswe.org/). The Master’s degree program in Speech-Language-Hearing Sciences is accredited by the American Speech-Language-Hearing Association (https://www.asha.org/). The B.S. program in Dietetics, Foods & Nutrition is accredited by the Accreditation Council for Education in Nutrition and Dietetics (https://www.eatrightpro.org/acend). The B.S. program in Chemistry is certified by the American Chemical Society (https://www.acs.org/). The Master’s program in Geographic Information Science is accredited by Professional Science Masters (https://professionalsciencemasters.org/).

All educator preparation programs offered by the College's School of Education are accredited by the Council for the Accreditation of Educator Preparation (CAEP) (https://caepnet.org/). In addition, numerous School of Education programs are individually accredited (https://www.lehman.cuny.edu/institutional-effectiveness/accreditation.php#program).

Lehman's B.S. and M.S. programs in accounting provide the educational preparation required for licensure as a Certified Public Accountant in New York State. The College offers State-approved teacher education programs that can lead to New York State provisional or permanent certification. Graduates of the undergraduate nursing program are eligible to take the Registered Nurse licensure examination.

Lehman College has chapters of Phi Beta Kappa, Sigma Xi, and Golden Key National Honor Society. Individual disciplines have their own honor societies with national affiliations. The College is a member of the National Collegiate Athletic Association and the Eastern Collegiate Athletic Conference.

Undergraduate Curriculum

Lehman College offers undergraduates a wide choice of major programs in both the liberal arts and sciences and in the professions. The College offers the degrees of Bachelor of Arts (B.A.), Bachelor of Science (B.S.), Bachelor of Fine Arts (B.F.A.), Bachelor of Business Administration (B.B.A.), Bachelor of Arts-Master of Arts (B.A.-M.A.), Bachelor of Science-Master of Science (B.S.-M.S.), and Certificates (CERT). Majors are either departmental or interdepartmental.

Graduate Curriculum

The College offers a choice of more than forty master's degree programs in arts and sciences, health fields, and teacher education. Advanced certificates are offered in some areas. The degrees offered are the Master of Arts (M.A.), Master of Science (M.S.), Master of Science in Education (M.S. Ed.), Master of Arts in Teaching (M.A.T.), Master of Fine Arts (M.F.A.) in Art, and Master of Social Work (M.S.W.), Master of Science in Geographic Information Science (M.S. GISc), Doctor of Education (E.D.D.), and Doctor of Philosophy (Ph.D.). In addition, more than seventy-five Lehman College faculty members participate in City University doctoral programs.

Academic Organization

The College's academic departments and programs are divided into five schools:

School of Arts and Humanities

Departments

Africana Studies

Art

English

History

Journalism, and Media Studies

Languages and Literatures

Latin American and Latino Studies

Music, Multimedia, Theatre, and Dance

Philosophy

Interdisciplinary Programs

Aging (Minor)

Classical Civilization and Classical Tradition (Minor)

Comparative Literature (BA and Minor)

Data Science Methods and Applications (Minor)

Disability Studies (Minor)

Human Rights and Peace Studies (Minor)

Humanities (Minor)

Irish Studies (Minor)

Linguistics (BA and Minor)

Middle Eastern Studies (Minor)

Program for Professional Communications (Minor)

Reasoning and Exposition (Minor)

Urban Studies (Minor)

Women's and Gender Studies (Minor)

Institutes

Institute for Irish-American Studies

The Jaime Lucero Mexican Studies Institute

Collaboratives

Research Institutes and Community Resources

The Bronx Institute

The mission of the Bronx Institute at Lehman College is to foster faculty research relevant to the improvement of education and the quality of life in the Bronx; and to provide a forum to discuss, analyze, and identify potential solutions to contemporary educational, social, political, cultural, and economic challenges facing the Bronx community, in particular, and other urban areas at large. As a community resource, the Bronx Institute is committed to act in cooperation with other academic institutions, community groups, and organizations to develop joint projects, especially those that enrich the educational needs of all Bronx students. The vision of the Institute is to foster and promote equity and excellence in the education and learning of Bronx students in grades K-16 by involving administrators, teachers, parents, and the students themselves in high-quality programs that support and enhance the educational opportunities of the students.

Bronx Telehealth

The Bronx Telehealth Counseling Center (BTCC) is the first of its kind Virtual Telehealth Center at Lehman College that provides behavioral and mental health counseling. Clinical trainees from the Department of Social Work and Counselor Education: Clinical Mental Health Counseling Graduate Program provide clinical services under the supervision of a Licensed Clinical Social Worker and a Licensed Psychologist.

BTCC offers free, compassionate, high quality, and evidence-based behavioral and mental health services for Individuals, families, couples, and groups. The clinic helps with parenting, relationships, stress, mental health, career success, and more. The clinic has flexible hours on evenings and weekends. The Bronx Telehealth Counselling Center serves as a training environment for undergraduate and graduate students for Social Work and Clinical Mental Health Counseling students using the Interprofessional Educational model to provide services to clients in the greater Bronx area.

The Center for School/College Collaboratives

The Center for School/College Collaboratives (CSCC) at Lehman College aims to strengthen partnerships between the School of Education and Bronx schools, improving educational outcomes for local residents. CSCC offers enriching experiences for Bronx middle and high school students, especially those in STEM fields or interested in teaching careers. It supports teacher candidates through mentorship, training, fieldwork, and funding.

CSCC also advances research on effective teacher preparation and retention, focusing on high-need areas like special education and STEM. It promotes residency programs and embedded clinical fieldwork to improve teacher retention and success.

By fostering a coordinated presence in K-12 education, CSCC works to enhance education policies and outcomes for Bronx students, aiming to increase college readiness, graduation rates, and long-term success.

Center for Human Rights and Peace Studies

The Center for Human Rights and Peace Studies advances social justice and human dignity in an interdisciplinary fashion through active involvement of faculty, students, and community in research and teaching. The Center builds on the College's unique history: the drafting of the Universal Declaration of Human Rights began at Lehman College when the United Nations met at the College. Lehman College students, often immigrants and the first in their families to access higher education, engender a broad understanding of human rights. The Center unites student and faculty engagement on local and global rights issues in New York and the greater world community. Currently the Center offers a minor in Human Rights and Peace Studies.

Child Care Center

The Lehman College Student Child Care Center is committed to providing the children and families of matriculated Lehman students with the highest quality early child care programs and support possible.

CUNY Institute for Health Equity

The CUNY Institute for Health Equity provides a home for interdisciplinary population-based research and training across CUNY campuses, and with community organizations in The Bronx, Manhattan and Brooklyn. Faculty affiliates from other campuses, and student interns, are actively engaged in applied research and programs to address the social determinants of health, and health equity in under-served communities of color. Collaboration with CUNY public health programs and school, and external organizations support the goal of achieving health equity and social justice within neighborhoods where CUNY campuses are located.

The CUNY Mexican Studies Institute

The CUNY Mexican Studies Institute (MSI) is comprised of all the faculty, students, staff, and affiliated community-based organizations working on research, advocacy, and services related to Mexico and Mexicans in the United States. Among the goals of MSI are promoting the creation of courses, majors, minors, and programs of study in campuses across the CUNY system; promoting enrollment, retention, and graduation of Mexican and Mexican-American students in CUNY; sponsoring an annual academic conference as well as film series, lectures, workshops on Mexican topics; serving as liaison, resource, and epicenter for the coming together of Community-Based Organizations (CBOs) for the promotion of cultural, educational, and social programming for the larger Mexican community and all of New York City; supporting undergraduate and graduate students through internships, research assistantships, and other service-learning opportunities with cultural, diplomatic, social, and economic institutions working with the Mexican population in New York City.

The Institute for Literacy Studies

The Institute for Literacy Studies, founded in 1984, is a research unit of The City University of New York. The Institute's mission - reforming and improving urban education - has deep significance in its home borough of the Bronx as well as throughout New York City and the nation. The Institute defines urban education in its broadest, most inclusive meaning to comprise the complex web of systems, settings, and relationships that foster learning. It works to advance research, articulate theory, and implement effective practice in literacy and mathematics education through initiatives in a variety of educational settings K-16, including schools, community-based organizations, adult literacy programs, and CUNY campuses. Through its Adult Learning Center, the Institute offers basic education, English language instruction, and preparation for the high-school equivalency exam and college transition to members of the community who are not enrolled in school or college.

Speech and Hearing Center

The Speech and Hearing Center at Lehman College provides state of the art diagnostic and therapeutic services to individuals in the NYC Metropolitan area and to members of the Lehman community who have speech, language, hearing, feeding, and swallowing deficits. Services are delivered by graduate-student clinicians under the close supervision of Clinical Educators, who are speech-language pathologists certified by ASHA (the American Speech-Language-Hearing Association) and licensed by New York State.

The Speech and Hearing Center also serves as a laboratory for undergraduate and graduate students in Speech-Language and Hearing Sciences and faculty doing applied clinical research in the area of aphasia treatment, bilingualism, language and literacy, and early childhood intervention.

The Audiology Center provides Hearing Screenings and Auditory Processing Screenings.

Deira Pereyra, *Dir. Enterprise Application Services (Comp. Syst. Mngr.):* A.S. Bronx Comm., B.S. Lehman Coll., M.S. Pace Univ.

Distinguished Professors

The Board of Trustees designates full professors in The City University of New York as "distinguished" for a body of work that has advanced understanding and defined new directions of inquiry or creativity. Lehman College is proud the following faculty have achieved this selective rank, reserved for a very small group of highly influential scholars and artists.

Timoth Alborn

Distinguished Professor, History

Laird W. Bergad

Distinguished Professor, Latin American, Latino & Puerto Rican Studies

Eugene Chudnovsky

Distinguished Professor, Physics & Astronomy

John P. Corigliano

Distinguished Professor, Music

Joseph W. Dauben

Distinguished Professor, History

Victor Pan

Distinguished Professor, Mathematics & Computer Science

Naomi Zack

Distinguished Professor, Philosophy

Permanent Instructional Staff (Teaching)

Updated as of: September 14, 2026

Abi-Hanna, Rabab, *Asst. Prof., Middle & High School Ed.:* B.S., M.S., Ed.D., Montclair State Univ.

Aguilar, Lizette, *Asst. Prof., Middle & High School Ed.:* B.A., Binghamton Univ., M.Ed., Univ. of Massachusetts at Amherst; M.Ed., Bank Street Coll. of Education; M.Phil, Ph.D., CUNY Grad. Cent.

Adams, Maeve, *Assoc. Prof., Engl.:* B.A., Smith Coll.; M.A., Univ. of Kent; M.A., Ph.D., New York Univ.

Financial Aid

Attendance/Academic Requirements for Recipients of Student Financial Aid

Regulations of both New York State (TAP) and Federal programs of student financial aid require regular class attendance. Funds will not be delivered to students who do not maintain satisfactory attendance records. Financial aid regulations also require that students make satisfactory progress toward a degree. Students should be aware that all financial assistance awards are subject to student compliance with Federal, State, and/or College regulations concerning satisfactory academic progress and standing. Students withdrawing from courses should report to the Financial Aid Office for information on their eligibility for aid. Students on probation who make satisfactory progress will continue to be eligible for financial aid. All Federal undergraduate financial aid is limited to 150 percent of the credits required for the bachelor's degree. Minimum standards in satisfactory progress by students, adopted by the City University, are indicated in the charts in this section of the Bulletin. *For more information, visit* ***www.lehman.edu/financial-aid***.

Financial Aid is available, in various forms, to full- and part-time undergraduate degree students. Information on application procedures and eligibility requirements may be obtained in the Financial Aid Office, located in Room 136 of Shuster Hall. Call 718-960-8545 or e-mail ***financialaid@lehman.cuny.edu***.

The City University of New York Policy on Withholding Student Records

Students who are delinquent and/or in default in any of their financial accounts with the College, the University, or an appropriate State or Federal agency for which the University acts as either a disbursing or certifying agent, and students who have not completed exit interviews as required by the Federal Perkins Loan Program, the Federal Family Education Loan Programs, the William D. Ford Federal Direct Loan Program, and the Nursing Student Loan Program, are not to be permitted to complete registration, or issued a copy of their grades, a transcript of academic record, certificate, or degree, nor are they to receive funds under the Federal campus-based student assistance programs or the Federal Pell Grant Program unless the designated officer, in exceptional hardship cases and consistent with Federal and State regulations, waives in writing the application of this regulation.

Students who have not met all their financial obligations to the College will not be issued a transcript, certificate, degree, or grade until they have made all outstanding payments. Students will not be allowed to register for a new semester unless they have satisfied all previous financial obligations to the College.

New York State Programs (HESC)

Tuition Assistance Program (TAP)

Applicants must apply annually to the New York State Higher Education Services Corporation (HESC), Albany, NY 12255. The Higher Education Services Corporation determines the applicant's eligibility and mails an award certificate indicating the amount of the grant directly to the applicant.

The Tuition Assistance Program (TAP) is an entitlement program: awards are noncompetitive, and any student who meets the criteria for eligibility will receive funds. The applicant must:

1. be a New York State resident and an eligible U.S. citizen or permanent resident alien;
2. be enrolled full time (12 or more credits/equated credits) and matriculated. Equated credits, applicable to certain courses, are the number of scheduled hours of course meetings in excess of the credits that may be earned in that course;
3. be in good academic standing and meet TAP Progress and Pursuit Requirements
4. officially declare a major once 60 credits have been completed. Students may initiate a request online via iDeclare. Instructions on initiating a request may be found here.
5. Students who are eligible for New York State financial aid (TAP) are required to register for 12 credit-hours of courses per semester that satisfy their degree requirements (General Education, writing-intensive, major, minor, and appropriate electives).

All income data are subject to verification by the New York State Department of Taxation and Finance. Undergraduate students may generally receive TAP awards for eight semesters of study. The amount of the TAP award is based on tuition charges and the student's New York State net taxable family income. To apply for TAP, students should complete a Free Application for Federal Student Aid (FAFSA) and the CUNY TAP/APTS Supplement Form. Applications are required annually. The Lehman College TAP code is 1412. For more information, visit https://www.lehman.edu/registrar/tap.php

Part-Time TAP

Part-Time TAP is a program from New York State that allows for partial TAP payments for students taking 6 to 11 credits. This program is available to CUNY students who meet the specified requirements. To apply you must complete a FAFSA and a TAP application.

o To receive Part-Time TAP you must meet the following requirements:

- Be a New York State resident
- Be admitted into a degree program
- Maintain a cumulative Grade Point Average of 2.0 or higher
- Register for at least three credit hours, but less than 12 credits
- Maintain good academic standing
- Meet income eligibility limitations set by the program administrator, NY State Higher Education Services Corporation (HESC)
- For more information, please visit https://www.lehman.edu/financial-aid/programs/new-york-state-aid/

Course Repeat Rule for New York State Financial Aid

As of May 1987, if a student repeats a course in which a passing grade acceptable to the institution has already been received, the course cannot be included as part of the student's minimum full-time or part-time course load for financial aid purposes. When such courses are included in meeting the minimum requirement, they render the student ineligible for a State award. In the following instances, repeated courses may count toward full-time or part-time study: (1) when a failed course is repeated; (2) when a course may be repeated and credit earned each time.

Area of Concentration (Major)

Undergraduates who have earned at least 60 credits must declare a major via iDeclare in order to receive any New York State awards. Instructions on initiating a request may be found here.

Vietnam Veterans and Persian Gulf Veterans Tuition Award (VVTA and PGVTA)

VVTA and PGVTA are awards for full-time or part-time New York State resident undergraduate or graduate degree students who served in the Vietnam or Persian Gulf wars. Full-time students receive $1,000 per semester or the amount of tuition, whichever is less. Part-time students receive $500 per semester or tuition, whichever is less. Total awards received cannot exceed $5,000. Recipients must also apply for the Tuition Assistance Program and Pell Grant awards. Applications are available in the Financial Aid Office.

Regents Awards for Children of Deceased or Disabled Veterans

A special application must be filed with the New York State Higher Education Services Corporation, Albany, NY 12255. Documentary evidence to establish eligibility is required with the application. The applicant must be:

1. the child of a veteran who died, or who has a current disability of 50 percent or more, or who had such disability at the time of death resulting from U.S. military service during one of the following periods:
2. April 16, 1917-November 11, 1918
   December 7, 1941-December 31, 1946
   June 25, 1950-July 27, 1953
   October 1, 1961-March 29, 1973
3. a legal resident of New York State. Legal residence in New York State is also required of the parent at the time of entry into military service, or at death resulting from military service. The amount of the award is $450 per year, for up to five years.

New York State Aid to Native Americans

Application forms may be obtained from the Native American Education Unit, New York State Education Department, Albany, NY 12230. The applicant must be a member of one of the Native American tribes within New York State and a New York State resident. The award is $1,100 per year for a maximum of four years of full-time study (or five years, where a fifth year is required for completion of degree requirements). Students must submit semester grades at the end of each semester.

SEEK (Search for Education, Evaluation, and Knowledge)

Application may be made by filing the City University Freshman Application and indicating an interest in being considered for the program in section four of the SEEK/CD Opportunity Programs section. The amount of financial assistance and other support provided to SEEK participants is based on need and fiscal availability. SEEK students must maintain full-time day matriculated status.

The applicant must:

1. be a resident of New York State;
2. be academically eligible (assessed by the University Application Admission Center;
3. be economically eligible (guidelines established by New York State);
4. be an applicant for admission to one of the senior colleges of the City University;
5. File a Free Application for Federal Student Aid (FAFSA) annually.

Vocational Rehabilitation

Handicapped persons may be eligible for benefits under State rehabilitation programs. New York State residents should apply to VESID (Vocational and Educational Services for Individuals with Disabilities), New York State Education Department, 99 Washington Avenue, Albany, NY 12234, or any of its local offices.

For TAP Purposes Only

Received FIRST TAP Award 2010-2011 and Later

Federal Programs

Federal Pell Grant

The Pell Grant Program is an entitlement program for first degree undergraduate students who are U.S. citizens or eligible noncitizens: awards are noncompetitive and any student who meets the eligibility criteria will receive funds. The student must complete the Free Application for Federal Student Aid (FAFSA) ***https://studentaid.gov/h/apply-for-aid/fafsa***. Lehman College's Federal Title IV code is 007022. Students are required to enroll in one or more actual or equivalent credits in a degree granting program. One must maintain good academic standing and make satisfactory progress towards completing a degree. A student enrolled in an undergraduate program may only receive a maximum of 6 years of full time Pell award. This equates to 600% of Lifetime Eligibility Used. Once a student reaches the 600% limit of the Pell award they are no longer eligible.

To determine a student's eligibility, the U.S. Department of Education uses a standard formula to evaluate the information reported on the FAFSA. This formula produces a Student Aid Index (SAI) number. The Student Aid Report (SAR) will contain this number and will inform students whether they may be eligible for Pell. Students can only receive one Pell Grant per award year, from one college at a time. How much Pell is received depends on the student's SAI, their cost of attendance and whether the student attends school for a full academic year or less. Students selected for verification must provide the Financial Aid Office with certain documents to verify the accuracy of the information reported.

For more information, visit https://www.lehman.edu/financial-aid/.

The Peter F. Vallone Academic Scholarship

The Peter F. Vallone Academic Scholarship (formally known as the New York City Council Merit Scholarship) rewards New York City high school graduates who have proven their ability to succeed academically while they were in high school. Students may receive $700 per year ($350 per semester). Funding is determined by the New York City Council and the Scholarship award amount is subject to change based upon an allocation provided each academic year. Once a college has reached their allocation amount, no additional recipients can be awarded.

Application Form

There is no separate application for the scholarship. Students are automatically considered for the award when they apply for admission to CUNY.

To qualify you must:

· Be a U.S. citizen, eligible non-citizen, Temporary Protective Status, T-Visa, U-Visa or without lawful immigration status (similar to DREAM Act eligibility) along with domicile within NYC (Kings, Richmond, Bronx, New York and Queens).

· You graduated from a NYC high school with at least a B average within a year of your initial enrollment as a first-time freshman in a college of The City University of New York System. Students enrolled at CUNY who are already receiving the Vallone Scholarship must continue to meet the criteria listed below.

Pursuit and Progress

· You must maintain continuous full-time (12 credits) enrollment within the City University of New York system

· You must maintain a cumulative GPA of at least 3.0 which is calculated once a year at the end of the Spring semester

· Students pursuing their first associate's degree may receive the Peter F. Vallone Academic Scholarship for a maximum of six semesters. Those seeking their first bachelor's degree are limited to eight semesters of eligibility

· The award is not restored once it has been lost

· You are NOT required to submit a Free Application for Federal Student Aid (FAFSA) however, it is recommended.

Federal Supplemental Educational Opportunity Grants (FSEOG)

FSEOG is a campus-based program, which is available to undergraduate students with exceptional need. This fund is awarded to undergraduate students, enrolled in their first bachelor's degree program who are also eligible for a Pell Grant. FSEOG is awarded based on the availability of funds. Priority is given to students who meet the general eligibility requirements and those who complete the financial aid application process entirely, including but not limited to providing additional requested documentation to the Financial Aid Office. For more information, visit https://www.lehman.edu/financial-aid/programs/grants/

Federal Direct Student Loan

Direct Subsidized Loans and Direct Unsubsidized Loans are federal student loans offered by the U.S. Department of Education (ED) to help eligible students cover the cost of higher education. Direct Subsidized Loans and Direct Unsubsidized Loans are also referred to as Stafford Loans or Direct Stafford Loans. For more information, visit https://www.lehman.edu/financial-aid/loans/.

Federal Parent Loans for Undergraduate Students (PLUS)

These are loans parents may obtain to help pay the cost of education for their dependent undergraduate. The maximum that can be borrowed is equal to the cost of attendance minus any other financial aid received. Interest accrues while the student is in school. There is an origination fee that will be deducted proportionately from each loan disbursement. There is no grace period. For more information, visit https://studentaid.gov/understand-aid/types/loans/plus/parent

Federal Work/Study Program

The Federal Work Study Program provides jobs for Undergraduate and Graduate students with financial need, allowing them to earn money to help pay education expenses. The program encourages community service work and work related to their course of study. In order to be placed for a Federal Work Study job for the current Academic Year, students must have Received and Accepted their Federal Work Study Offer. This is part of the Financial Aid Award Offer Letter. The applicant must also be matriculated and enrolled in courses totaling at least 6 credits/equated credits per term. Students may work up to 20 hours per week. Jobs are available on and off campus. For more information, visit https://www.lehman.edu/financial-aid/programs/work-study/.

U.S. Bureau of Indian Affairs Aid to Native Americans

Application forms may be obtained from: U.S. Department of the Interior; Bureau of Indian Affairs; New York Liaison Office; Federal Building, Room 523; 100 South Clinton Street; Syracuse, NY 13260. To be eligible, the applicant must:

1. be at least one-fourth American Indian, Eskimo, or Aleut;
2. be an enrolled member of a tribe, band, or group recognized by the Bureau of Indian Affairs;
3. be enrolled or accepted for enrollment at Lehman College; and
4. have financial need.

Veterans Administration (VA) Educational Benefits

Application forms are available at all Veterans Administration (VA) offices, active duty stations, and American embassies. Completed forms are submitted to the nearest VA office. In New York City, the VA is located at 252 Seventh Avenue (at 24th Street), New York, NY 10001. Eligibility requirements, entitlements, time limits, and programs of education vary. Veterans with questions may inquire in the Office of Veterans and Military Affairs (Shuster Hall, Room 201 A/B).

Scholarships and Awards

Lehman College supports academic excellence with a growing network of scholarship programs and paid research positions for outstanding students. Inquiries about scholarships are welcomed in the Office of Scholarships & Awards, T3 Building, Room 115; contact phone number 718.960.8596; or using Lehman Navigate.

New Students

An Academic Achievement Scholarship Program is available for freshmen who are applying to Lehman College. Scholarships from $1,000 to a maximum of $5,000 per year are available to new students entering in the Fall semester. All freshmen who are admitted to Lehman are considered for Academic Achievement Awards.

All academically worthy students can apply for scholarships in person, online, or by telephone.

The selection process is competitive, and awards are made on the basis of an outstanding academic record. Freshman students are evaluated on the strength of their high school record and/or their score on the SATs.

The award is renewable for up to four years of full-time undergraduate study. With Lehman's full-time annual tuition of $3,760.40 a semester, this scholarship, in combination with the New York City Merit Scholarship Award, the New York State Tuition Assistance Program (TAP), and the Federal Pell Grant, should provide many students with the opportunity to complete their bachelor's degrees virtually free of charge and permit family education funds to be reserved for graduate and professional studies.

Potential recipients must file a City University Freshman Application and list Lehman as a college choice. The filing deadline for Fall semester consideration is in mid-March. Only those students who have been admitted to Lehman are considered for these awards.

Enrolled Students

As students' progress in their studies at Lehman, they may apply for a Lehman College Scholarship using the Lehman One Access included in the Lehman360 account and selecting "Scholarship Application."

Students may also receive *Departmental Awards:* offered for excellence in specific academic subjects and varying in amount and criteria for selection.

Tuition and Fees

Tuition and fees are subject to change by action of the Board of Trustees of The City University of New York. Please consult the Bursar's Office, the Director of Admissions, or the Vice President of Student Affairs for a current schedule.

Board of Trustees of the City University of New York Guidelines

All fees and tuition charges listed in this Bulletin and in any registration material issued by the College are subject to change by action of the Trustees of the City University of New York without prior notice.

In the event of any increase in the fees or tuition charges, payments already made to the College will be treated as a partial payment, and notification will be given of the additional amount due and the time and method of payment.

The undergraduate Student Activity Fee or any part thereof is not refundable at any time, except when the student's registration is cancelled because of a withdrawal of a course or courses by the College.

A resident student is a U.S citizen who has had his or her principal place of abode in the State of New York for a period of at least 12 consecutive months immediately preceding the first day of classes for the semester for which the residency determination is made and who states his or her intention permanently to live and maintain his or her principal place of abode in New York State.

A full-time undergraduate student is one who is enrolled for at least 12 credits or equivalent. (See below, under "Full-Time Status," for important exceptions.) A part-time student is one who is enrolled for fewer than 12 credits or equivalent.

For each student, the tuition and fees due depend on whether he/she will attend full- or part-time, whether or not he/she resides in New York State, and whether he/she is or is not matriculated.

All fees, tuition charges, credits, and course hours listed are subject to correction in the event of error. All fees, calculations, and repeat billings are subject to correction in the event of error. Students will be obligated to pay the correct amount.

The schedule of tuition fees applies to all scheduled semesters, regardless of duration, subject to such special tuition fee rates as may be established by the Board of Trustees of the City University of New York. The same policy applies to summer session, except that there is no maximum tuition. Summer session students must pay for all credits or credit equivalents taken. A child of a member of the permanent staff of the City University of New York, or a child of a deceased or retired member of such staff who had served for more than five years on an annual salary, or a child of an employee of the City of New York or of a City agency who is required to live outside the State of New York in the performance of his or her official duties shall be charged resident rates. The resident rate shall be applicable to a student of another college or university, that grants, in exchange, resident rates to a student of a college within the City University of New York. Evidence of satisfactory educational qualifications must be presented, and the approval of the president of such college within the City University is required.

All recipients of financial aid should be aware that this aid is based on the personal and financial information that the student provides to Lehman College. In the event that a student is determined not to be eligible, in whole or in part, for any expected financial aid for which he or she has applied, he or she will be held fully responsible for payment of any monies that are due the College for registration. If students withdraw, either officially (by filling out a withdrawal form in the Registrar's Office) or unofficially (by no longer attending classes) from any course or courses for which they have registered and a reduction in aid occurs, the student will be held personally responsible for payment of any monies due to the College.

Material Fees

Some courses impose a fee to cover the costs of special materials, film rental charges, lab materials, art materials, transportation, field trip expenses, or other non-instructional costs. Material fees are subject to change and are nonrefundable.

Tuition

Legal Residents of New York State

Matriculated full-time students: $3,465 per semester, plus $239.60*

Matriculated part-time students: $305 per credit, plus $144.10 **

Non-degree students: $445 per credit, plus $239.60 *(for 12 or more credits) or $144.10** (for fewer than 12 credits)

** Includes $98.15 Student Activity Fee, $15.00 Consolidated Fee, $125.00 Technology Fee and $1.45 Student Senate Fee per semester.*
*** Includes $65.15 Student Activity Fee, $15.00 Consolidated Fee, and $62.50 Technology, and $1.45 Student Senate Fee per semester.*

Out-of-State Residents, Including Foreign Students

Matriculated full-time students: $620 per credit, plus $239.60*

Matriculated part-time students: $620 per credit, plus $144.10**

Non-degree students: $915 per credit, plus $239.60 *(for 12 or more credits) or $144.10** (for fewer than 12 credits).

** Includes $98.15 Student Activity Fee, $15.00 Consolidated Fee, $125.00 Technology Fee and $1.45 Student Senate Fee per semester.*
*** Includes $65.15 Student Activity Fee, $15.00 Consolidated Fee, and $62.50 Technology, and $1.45 Student Senate Fee per semester.*

Full-Time Status

- TAP students who register for 12 or more credits or credit equivalents that count toward the degree, including at least 6 credits exclusive of credit equivalent hours, are considered by the College to be full-time (see "**Courses with Credit Equivalent Hours**" in this section of the Bulletin). This applies to all students except first-time freshmen. New freshmen must be enrolled for at least 3 credits exclusive of credit equivalent hours.
- Full-time status for Pell Grants is defined as 12 credits or Pell credit equivalents (see "Courses with Credit Equivalent Hours" in this section of the Bulletin).
- Students receiving veterans' benefits must have 12 credits to be considered full-time.
- Students registering for student teaching courses are considered by the College to be full-time students irrespective of the actual number of credits they attempt.

All students who attend full-time, as defined above, pay tuition at the full-time rate.

Payment Procedures

Students may pay their tuition and fees with the following options: cash, money order, credit/debit card, bank check, traveler's check, or personal check. Payment can be made in person or by mail. The College will not accept a personal check from any student who has previously tendered a check that was returned by his/her bank.

Pay via mail using a check or money order; make the check or money order payable to ***Lehman College*** and mail to:

Lehman College
Bursar's Office, SH-031
250 Bedford Park Blvd. West
Bronx, NY 10468

Pay in person by cash, check, and money order at the Bursar's Office.

Pay online through **CUNYfirst** with an Electronic Funds. Please have all the necessary information ready when making an online payment including your bank account and routing numbers for EFT payments.

E-Check – No service fee. Payments are withdrawn directly from your checking or savings account using your routing and account numbers.

Debit/Credit Card – Subject to a service fee. Major credit cards are accepted for tuition and fee payments through CUNYfirst.

Payment Plan

The Payment Plan provides students and their families the option of paying their tuition and fees over a period of up to six months or three months (Summer term). This flexibility enables everyone to reduce the burden of paying all tuition and fees prior to the start of the academic term. This deferred payment plan continues to be an interest-free benefit for students and their families. The Enrollment Fee for the Payment Plan will be $25 per term.

Students may enroll using either an e-check or a credit/debit card. Please note that a 2.75% service fee applies to all credit/debit card payments. There is no service fee for payments made via e-check.

For more detailed information regarding the payment plan, please visit the link below:
Lehman College CUNY – MyCollegePaymentPlan

This resource outlines step-by-step guidance on:

- Enrolling in an interest-free, monthly payment plan through Nelnet.
- Required down payments and enrollment fees.
- Accepted payment methods (e-check or credit/debit card, with applicable service fees).
- Deadlines and timing options for semester plans.

For further assistance, you can also contact Nelnet directly at **1-888-470-6014**.

Applying Financial Aid to Outstanding Debt

If a student has an outstanding financial obligation that may be owed to Lehman College or any of its affiliated corporations, Lehman College officers or their designees are authorized to act as the student's agent to endorse and negotiate any checks that he/she may be entitled to receive from any source of financial aid: Federal, State, City, public or private, College or other, to the extent that such authorization shall be used to fulfill this obligation. This authorization is effective as long as there is an outstanding balance owed for any semester.

What Happens When College Bills Go to Collections

Students who do not make full payment on their tuition and fees and other College bills, and whose accounts are sent to a collection agency, will be responsible for all collection costs, including agency fees, attorney fees, and court costs, in addition to whatever amounts the student owes the College. In addition, non-payment or a default judgment against the account may be reported to a credit bureau and reflected in the student's credit report.

Financial Aid Recipients & Payment Responsibilities

Matriculated students who are recipients of financial aid must present proof of their awards at the time of registration. They will be required to pay any difference if the financial aid does not fully cover the amount due. All recipients of financial aid should be aware that if they fall below full-time enrollment because of withdrawal or cancellation of a course or courses, they may no longer be entitled to their financial aid. Students who use TAP, Pell Grant funds, or any other financial aid toward meeting their financial obligation should consult with the Financial Aid Office about any impact on their current semester entitlement and future semester awards. Students who are not eligible for financial aid must pay tuition and fees in full on the day of registration.

Employer Voucher

Students who anticipate using an employer voucher for payment of their registration should verify with the Bursar's Office the acceptability of the voucher prior to registration. Vouchers must provide for immediate payment when billed and cannot be dependent on grades received for the term in question.

Employer voucher can be handed in person at the Bursar Office (Shuster Hall, Room 031) or emailed directly to the Office of Bursar at bursar.department@lehamn.cuny.edu. Please make sure to include your EMPLID before submitting the voucher.

Refunds

Refunds of Tuition

Withdrawal requests should be made in the Office of the Registrar (Shuster Hall, Room 114). The date on which this form is completed and filed, not the student's LAST day in class, is the official date of withdrawal that serves as the basis for computing a refund. Withdrawals don’t constitute refunds; you may qualify for a refund contingent upon the drop date.

Non-attendance in classes does not waive the tuition liability a student incurs at registration. Any student who is unable to file for withdrawal from a course in person can through Student Center found on CUNYFIRST.

Students dropping courses will be refunded according to the dates within this schedule. Students may receive a 100% tuition refund for voluntarily dropping from a class up to, and not including, the first day of classes. The first day of classes is not the first day of THE STUDENT'S class but, rather, the College's opening day of classes for the semester or session.

As a result of the Higher Education Reauthorization Act, students who are recipients of Federal financial aid are subject to one of the following Federal Refund Policies *(subject to change)*

Withdrawals and the Return of Federal Financial Aid

Federal student aid is awarded with the expectation that you will attend school for the entire period for which your financial aid was awarded. To establish eligibility for any federal financial aid payments, you must complete the college's registration and bill payment process and begin attending your classes. It is strongly advised that you consult with the Financial Aid Office if you drop or withdraw from a class(es). [Note: if you receive a financial aid payment for a class or classes you have never attended, you must return that payment immediately to the college.]

Once you start attending classes, the federal government requires that you "earn" your financial aid awards in direct proportion to the number of days in the semester that you do attend. If you completely withdraw from school before completing the term, the school must calculate according to a federally approved formula the portion of financial aid you have earned and are therefore entitled to receive up to the time you withdrew.

For additional information please visit the following page Withdrawal & Refunds | Lehman College

All other students are subject to the following tuition refund schedule approved by the Board of Trustees:

Withdrawal (Fall/Spring)	***Refund***	***Summer***
Before the first day of classes	*100%*	
Withdrawal to register at another CUNY college	*100%*	
Through first week of classes	*75%*	*50%*
Through second week of classes	*50%*	*25%*
Through third week of classes	*25%*	*None*
After the end of the third week of classes	*None*	

Estimated Other Expenses

COA or Cost of attendance pertaining to indirect cost is calculated by the Office of Financial Aid.

Non-Instructional Fees

Application Fees

Non-refundable, but payable only once at the time of filing an application for admission to any City University college:

Matriculating freshmen	$65
Transfer Students	$70
Non-degree Undergraduate Students	$65
Non-degree Graduate Students	$75
Consolidated Fee	$15

per semester or session (payable by all students, including senior citizens).

Technology Fee	$62.050 (for fewer than 12 credits)
	$125.00 (for 12 or more credits)
Change of Program Fee	$18

Fee charged to students who change their schedule of classes after it has been approved and recorded.

ID Card Replacement	$10
Late Registration Fee	$25
Readmission Fee	$20

Students who apply to return to the College after an absence of three semesters or more (exclusive of summer session) are required to pay this fee to be readmitted to the same unit. The charge is applicable whether or not a student has taken a formal leave of absence.

Payment Reprocessing Fee	$20

Charge for those students who have previously submitted checks payable to the College that were not honored by their banks: students who do not make a check good by a given date will be required to satisfy their obligations and pay the applicable reprocessing fee plus a non-payment service fee.

Special Examination Fees

When make-up final exam for one course is taken after scheduled final class exam	$25
When make-up final exams for two courses are taken	$30
When make-up final exams for three courses are taken	$35

Credits	**Fee**
Duplicate Diploma Fee	$30
Transcript Fee	$9.30

For issuance of a certificate of graduation to students who request a replacement for a lost diploma.

Cooperating Teachers Fee	$25

Cooperating teachers may be granted tuition waivers of up to 6 credits (two valid certificates) per semester, limited to three successive terms. For courses for which tuition is waived, charges for excess contact hours are also waived. Tuition waivers may be granted to residents and non-residents and are applicable to graduate courses and undergraduate courses.

Cooperating teachers who take credits in excess of those waived are required to pay tuition at applicable regular rates for the additional credits. Cooperating teachers enrolled in courses for which tuition is waived (plus any number of courses for which tuition is not waived) are required to pay the Cooperating Teacher Fee of $25, the $15 Consolidated Fee, an Application Fee of $125, and a Technology Fee of $37.50.

Miscellaneous Fees

Parking Fees

Cars/Motorcycles:

All Day: $75 per semester

Evening Session: $55 per semester

Purchase parking in Shuster Hall, Room 031 (Cash, check, money order only) or Online via Lehman 360 (credit/debit card)

After purchasing parking, hang tags can be picked up at Room 078.

Breakage: As per damage

Loss of Key: $1.50 (Shuster Hall, Room 031)

Loss of Equipment/Supplies: List Price

Bursar's Receipt

Students can generate their e-bills by logging into CUNYfirst, navigating to their Student Center, and selecting the Financial Account tile. The e-bill link will appear in the left-hand menu. Students should ensure that pop-up blockers are disabled so the bill displays properly when the link is clicked.

Student e-bills can be provided to a third party, used as documentation for financial aid or scholarships, and kept for personal records.

Application Fees

Non-refundable, but payable only once at the time of filing an application for admission to any City University college:

Matriculating freshmen	$65
Transfer Students	$70
Non-degree Undergraduate Students	$65
Non-degree Graduate Students	$75
Consolidated Fee	$15

per semester or session (payable by all students, including senior citizens).

Technology Fee	$62.50 (for fewer than 12 credits)
	$125.00 (for 12 or more credits)
Change of Program Fee	$18

Fee charged to students who change their schedule of classes after it has been approved and recorded.

ID Card Replacement	$10
ID Card Replacement (proximity/dual access)	$15
Late Registration Fee	$25

Penalty fee charged to students if they are delinquent in making payment of any amount due after the scheduled due date.

Readmission Fee	$20

Students who apply to return to the College after an absence of one semester or more (exclusive of summer session) are required to pay this fee to be readmitted to the same unit. The charge is applicable whether or not a student has taken a formal leave of absence.	

Parking Fees

Cars/Motorcycles:

Day Parking - $75.00 per semester

Evening Parking - $55.00 per semester

Log in to Lehman 360, go to the section where you see your picture, and click on link payment Parking.

After payment is made go to Shuster 078 to pick up decal and activate your ID card.

Admissions

General Information

Lehman College accepts both entering freshmen and transfer students. The admission categories fall into two classifications: degree students (matriculants) and non-degree students (non-matriculants). A matriculant is a student who is admitted to a program leading to a degree. Undergraduate matriculants at Lehman, either full-time or part-time, may attend classes during any hours in which the College is in session. A non-degree student may enroll in credit-bearing courses on a space-available basis, but is not officially registered in a degree program and is not a candidate for a degree. Credits earned by such students may later be transferred to a degree program. All students must file their applications through the University Application Processing Center (UAPC) year-round.

Applicants who wish to receive admission information should consult the following offices:

Lehman College

Undergraduate Office of Admissions

Shuster Hall, Room 161

Phone: 1-877-LEHMAN-1

Email: Admissions@cuny.edu

CUNY Welcome Center

217 East 42nd Street

between 2nd & 3rd Avenues

New York, NY 10017

New York State Resident Tuition Rate

For the most up-to-date residency guidelines, please review the Tuition and Fee Manual on the CUNY website:

http://www2.cuny.edu/about/administration/offices/legal-affairs/university-tuition-fee-manual/iv-residency/

Residency forms and a list of the documents that may be used to prove residency can be obtained in the Office of Admissions, Shuster Hall, Room 161.

New York State Resident Tuition Rate

For the most up-to-date residency guidelines, please review the Tuition and Fee Manual on the CUNY website:

http://www2.cuny.edu/about/administration/offices/legal-affairs/university-tuition-fee-manual/iv-residency/

Residency forms and a list of the documents that may be used to prove residency can be obtained in the Office of Admissions, Shuster Hall, Room 161.

Freshmen

Freshmen admission decisions are based on a student’s high school GPA, academic subject averages and total academic units.

The SEEK Program

SEEK (Search for Education, Elevation, and Knowledge) is a New York State sponsored higher education opportunity program of CUNY. The program's special admission standards provide access to Lehman College and other City University senior colleges to talented and motivated high school graduates who do not meet traditional admission requirements. Students must also meet specific low-income requirements.

SEEK students receive specialized support services to enrich their academic career and personal development. Services include intensive instructional support, including tutoring, computer-assisted-instruction, study skills training, and small-group course reviews (supplemental instruction); academic counseling support; and a small amount of supplemental financial aid for college-related expenses, including college fees, books, and supplies. The amount of SEEK financial aid is based on individual need and fiscal availability. SEEK students are eligible for up to ten semesters of TAP assistance, if needed.

Admitted SEEK freshmen are required to participate in a four-to-six-week enrichment pre-freshman summer program at the College before they enroll for their first semester of study. Once enrolled, they are required to maintain full-time matriculated day status, sustain a satisfactory academic standing, and participate in all recommended program support activities. SEEK students are eligible for up to ten semesters of S.E.E.K. sponsorship while working toward their bachelor's degree.

Freshman applicants who wish to be admitted under the Lehman College SEEK Program should file a CUNY Freshman Application and complete section four, entitled "SEEK/CD Opportunity Programs." Freshman applicants should have no prior college experience. Freshman admission to SEEK occurs mostly in the fall semester. Transfer student applicants - those students who have attended another college, university, or post-secondary institution - may be eligible for admission as SEEK students if they have previously participated in SEEK/CD, EOP, or HEOP at CUNY, SUNY or New York state private institutions respectively. Transfer applicants should contact the SEEK Program.

Inquiries about the SEEK. Program at Lehman College may be made to the SEEK Program Office at 718-960-7979 or ***seek@lehman.cuny.edu***. More information about the program is available on the Lehman College website: ***www.lehman.edu***.

Testing Requirements

CUNY Proficiency Requirements

The City University of New York (CUNY) requires all students to demonstrate proficiency in English (reading and writing) and math in order to enroll in credit-bearing courses in the associated subject. Applicants may establish proficiency in a variety of ways, including, but not limited to, meeting benchmark scores on the SAT, ACT, and New York State Regents exams.

Applicants who do not meet benchmark scores will be assessed using a proficiency index to determine English and math course placement. The proficiency index combines overall high school grade point average with SAT and/or Regents exam scores. There are separate proficiency indexes for English and math. More information can be found in the FAQs.

English as a Second Language (ESL) Placement

Applicants who have spent at least six months or more in an institution where English is not the primary language of instruction, or took ESL classes in high school, are flagged as potential ESL via the CUNY admissions process. ESL applicants who meet the CUNY benchmark scores on the New York State Regents will be deemed proficient in English and/or math, regardless of where they attended high school. ESL applicants who do not meet the benchmark scores in math will be assessed via the proficiency index in math; for English proficiency, ESL applicants will be evaluated in the following way:

· ESL applicants who do not have a New York State English Regents score will not be assessed via the English proficiency index. Applicants will be required to take Accuplacer ESL to determine reading and writing proficiency and appropriate course placement.

· ESL applicants who have a New York State English Regents score will be assessed via the English proficiency index. Applicants who do not meet the English proficiency index benchmark score will be required to take Accuplacer ESL to determine appropriate course placement.

Test Preparation Resources

Prepare for the Accuplacer tests listed below by reviewing the materials available in the Test Preparation Resources page and by accessing the official FREE ACCUPLACER Study App that includes sample questions and answer explanations.

· **Accuplacer ESL Tests:** Designed for English language learners, the test results will be used to determine proficiency and placement to help support students be successful in their courses.

· **Ability to Benefit (ATB) Tests:** New York State residents who have a foreign high school diploma are required to meet Ability to Benefit (ATB) test standards for NY State Financial Aid eligibility.

· **Accuplacer Math Tests:** The Accuplacer Quantitative Reasoning, Algebra, and Statistics (QAS) and/or the Advanced Algebra and Functions (AAF) test(s) may be used by your college to help determine placement into math courses.

More information can be found in the FAQs.

Transfer Students

Transfer student applicants - -those students who have attended another college, university, or postsecondary institution - are admitted through the University Application Processing Center (UAPC). Transfer students can access the online application at ***www.cuny.edu***. Transfer applications require a $70.00 non-refundable application fee. This fee may be waived if you are transferring from a CUNY to CUNY college without a gap in enrollment.

Transfer applicants must submit their high school transcripts and all official college and other postsecondary educational transcripts. Students who fail to provide all transcripts are subject to penalty.

In addition to meeting the minimum requirements for admission, all applicants must be proficient in College level English and Math.

Transfer Admission Policies

The minimum requirements for transfer students are as follows:

- Students transferring fewer than 12 college credits must satisfy Lehman's freshman admission criteria.
- Applicants transferring from 12 up to 24 college credits must satisfy either the freshman admission criteria or present a minimum 2.75 cumulative Grade Point Average.
- Students without an A.A., A.S. or A.A.S. degree and with 24 or more credits must have a minimum cumulative Grade Point Average of 2.3.
- Students who earned an A.A., A.S., or A.A.S. degree and have not completed any credits thereafter must have a minimum 2.0 cumulative Grade Point Average or better from the school where they earned their degree.
- Students who have earned an A.A, or A.S. or A.A.S. degree, and earned credits after its completion must have a minimum cumulative GPA of 2.00 from the college where they earned their degree and any colleges attended thereafter.

These admission criteria are subject to change. Inquiries and appeals may be directed to the Office of Admissions and Recruitment, located in Shuster Hall, Room 161.

Testing Requirements for Incoming Freshmen, Transfer Students, and Information Regarding CUNY Assessment Tests Exemptions

For testing requirements for Incoming Freshmen, Transfer Students, and Information Regarding CUNY Assessment Tests Exemptions, please visit the Testing website:

http://www.lehman.cuny.edu/academic-testing/index.php

Community College Graduates

To earn the bachelor's degree at Lehman, Associate Degree graduates from any accredited college need to complete the courses required for the major, two upper-division General Education Integration (College Option) courses, two writing-intensive courses, and elective courses as needed to meet the minimum 120-credit requirement. These students will generally need only 60 credits to complete the Lehman bachelor's degree.

Students transferring fewer liberal arts and science credits to Lehman from their Associate Degree programs may need more than 60 Lehman credits to complete requirements for a bachelor's degree. Students transferring without a degree from CUNY Associate Degree programs will receive General Education credit for courses taken which meet Pathways requirements. All transfer students must meet New York State education regulations which mandate a minimum of 90 liberal arts and sciences credits for the B.A., 60 credits for the B.S., and 30 for the B.F.A. and B.B.A.

Community College Graduates Writing Requirement Prior to Spring 2020

Second Degree Students Transferring to Lehman

Students who previously have earned a bachelor's degree or higher from an accredited program verified by CUNY are deemed skills proficient. Only students who document the degree at the time of application for admission to the College they currently attend are entitled to this exemption.

Prohibition on Submission of Fraudulent Admission Documents

The submission of documents in support of applications for admission, such as transcripts, diplomas, test scores, references, or the applications themselves, that are forged, fraudulent, altered from the original, obtained under false pretenses, or otherwise deceptive is prohibited and is punishable by a five-year ban on applying for admission or five-year suspension from CUNY. A second violation is punishable by a lifetime ban on applying for admission or expulsion from CUNY.

Admission of Students Who May Pose a Risk to the College

The College reserves the right to deny admission to any student if in its judgment, the presence of that student on campus poses an undue risk to the safety or security of the College or the college community. That judgment will be based on an individualized determination taking into account any information the College has about a student's criminal record and the particular circumstances of the college, including the presence of a child care center, a public school or public school students on the campus. In addition, the College may consider factors such as the amount of time since the crime was committed; the amount of jail time served by the student; the number of years the student was on probation or parole; whether the student has satisfied probation or parole requirements at the time of the student's application; whether the student has completed drug, alcohol, sex offender or other treatment; and what work or educational experience the student has had after the conviction. Finally, if the student is known to have been assisted by a CUNY-sponsored or other re-entry program or initiative, the college will consult with a counselor or representative from said program.

Special Admission Categories

Applicants for the Bachelor of Arts (B.A.) in Social Work

Students who wish to apply to the B.A. in Social Work Program at Lehman College must meet the following minimum eligibility criteria at the time of application: completion of at least 54 college credits, including SWK 237: Introduction to Social Work and SOC 166: Fundamentals of Sociology, and a minimum cumulative GPA of 2.7 (with a recommended GPA of 2.9). Applicants should also demonstrate proficient writing ability, strong oral communication skills, and a drive to enhance these competencies, as they are essential for becoming an effective and ethical social work professional.

In addition to being admitted to Lehman College, applicants must complete a separate application to the Social Work Program. The application typically opens each year from March through June. Students interested in the program may contact the Office of the Director of the Undergraduate Social Work Program in Carman Hall, Room B-18, at 718-960-8192 for more information.

The Social Work Admissions Committee reserves the right to make exceptions to the published admissions criteria and makes final decisions on each applicant’s suitability for the program. This flexibility allows the committee to take a holistic view of each candidate, particularly in cases where a student demonstrates strong potential but may fall slightly short of a specific requirement.

Applicants for The Bachelor of Science (B.S.) in Nursing

Prenursing

All students who wish to become candidates for the B.S. in nursing degree are required to take a prenursing sequence of courses in which they must achieve a minimum of a 2.75 index in the required science courses, attain basic skills levels set by the Department of Nursing, be in good academic standing in the College, and meet any other criteria established by the Department of Nursing. Students are admitted at the start of their junior year to the B.S. in Nursing Program on a space-available basis. All candidates for the Program in Nursing *must review the program requirements and admissions process on the department* ***website.***

Freshmen

Freshman applicants to Prenursing are admitted through the University Application Processing Center (UAPC) by the usual City University admission procedure. UAPC determines eligibility by the uniform admission standards applied to all Lehman freshman applicants.

Registered Nurses

City University A.A.S. nursing graduates are allocated by the University Application Processing Center (UAPC) to Lehman College on the basis of space availability, Grade Point Average, and success on the National Council Licensing Examination (NCLEX). Other transfer students must satisfy these same eligibility requirements. Applicants who attended a hospital school of nursing and have earned no previous college credits should file the transfer application through UAPC. Those who have earned previous college credits, in addition to having attended a hospital school of nursing, should also file a transfer application through UAPC. To earn credit for courses taken at a hospital school of nursing, students must (1) present a license to practice as a registered nurse and (2) earn credits from Excelsior College (formerly Regents College) by examination in specific nursing courses.

Readmission to Lehman College

Effective Spring 2024: Students who stopped attending for more than one year (Fall and Spring or Spring and Fall) who want to return to Lehman must file a readmit application with the Office of Admissions. The completed application and a $20.00 non-refundable fee are required; official transcripts of any coursework completed during the absence must also be submitted with the application in order to be evaluated for readmission and transfer of credits. Students who have attended any institution since last attending Lehman must have earned a minimum GPA of 2.3 for any coursework completed during their absence. Students will be readmitted into their most recent academic standing and must settle all holds on their account prior to registration.

Students who stop-out for one year or less maintain their active status and academic standing at the college. During this period students should remain in contact with their academic departments and advisors. Active status does not guarantee access to all campus facilities and services.

Students who left Lehman on academic dismissal must contact the Office of Academic Standards and Evaluation for next steps.

Non-Degree Students

The admission requirements for non-degree students are the same as the admission requirements for matriculants. (See "**Admission Requirements for Freshmen**" and "**Admission Requirements for Transfer Students**.") Non-degree students (non-matriculants) must apply directly to the Lehman College Admissions Office. The deadline for all non-degree admissions is the last day of registration.

Visiting Students

CUNY students who are pursuing a degree at another CUNY college who wish to take courses at Lehman on a non-degree basis must request a CUNY e-permit online via CUNYfirst from their home college in order to attend Lehman. Tuition for courses taken at Lehman is paid at the student's home college. The student will not be required to submit any fees to Lehman College.

Non-CUNY students who are attending a non-CUNY college must submit an unofficial copy of their college transcript or a letter from their primary college to the Lehman Admissions Office that verifies their current enrollment and good academic standing. Visiting students must file an application for Visiting College Students and pay a $65 application processing fee. Returning visiting students will pay a $10 readmission fee.

Permission to register as a visiting student is valid for only one semester at a time. Students who wish to renew their status as visiting students must submit new documentation from their primary colleges for each succeeding semester.

International Student Admissions

International students who are neither U.S. citizens nor permanent residents must file the appropriate freshman or transfer student application and meet the corresponding admission requirements. (See "**Admission Requirements for Freshmen**" and "**Admission Requirements for Transfer Students**" in this Bulletin.) In addition, those students who were educated in a language other than English are required to submit a minimum TOEFL score of 500 on the paper exam.

Once the student has been admitted to Lehman by the University Admissions Processing Center (UAPC), he or she will be asked to submit financial and other documents that will satisfy the requirements for the I-20 form. Once the I-20 form is sent, the student must present the form to the American embassy or consulate in his or her home country in order to obtain an F-1 visa.

All applicants, including those who are U.S. citizens and permanent residents, may be classified as international students for admissions-processing purposes if their education has taken place outside the United States. These applicants must submit their applications and transcripts through UAPC; they may not apply directly through the College during Direct Admissions periods. All non-English transcripts must be accompanied by an official translation into English as defined by City University guidelines.

Veterans

The City University maintains a special outreach program for returning veterans who might not be familiar with the opportunities for college study open to them.

Veterans desiring to avail themselves of the benefits provided under Public Law 89-358 may register at Lehman as matriculants, paying tuition and fees. If they matriculate, the College may allow them up to eight credits for United States Armed Forces Institute courses in which they have passed final examinations.

Matriculated veterans of the U.S. armed forces who (a) have paid tuition and fees, (b) are upper-division students (an upper-division student is one who has received passing grades in courses representing 61 or more credits), and (c) have satisfactorily completed a minimum of 30 credits at Lehman will be awarded credit, but must file an application in order to receive it.

The Veterans Counseling Service (Shuster Hall, Room 238) advises veterans on the benefits for which they are eligible. The application form for benefits to be paid by the Veterans Administration may be obtained in the Office of Veterans and Military Affairs (Shuster Hall, Room 201 A/B).

Candidates for a Second Undergraduate Degree

Lehman College accepts candidates for a second undergraduate degree when the second degree represents preparation discrete from the first bachelor's degree. Candidates must complete a minimum of 30 credits in residence (see the definition of residence credits under the heading of "Credit Requirements" in this Bulletin). Second-degree applicants must file the City University Transfer Student Application.

College Now for High School Students

College Now is a collaborative initiative of the City University of New York and the New York City Department of Education. Its primary goals are to improve the academic achievement of high school students and to help New York City public high school students meet or exceed the requirements for high school graduation and the admissions requirements for baccalaureate degree programs at the City University of New York. College Now also seeks to provide underprepared high school students with the enriched instruction and enhanced support services they need to do well in high school and to be prepared for college.

In most cases, a public high school partners with a CUNY college to design a program of academic and preparatory courses and workshops. College Now also offers two summer programs and professional development opportunities for teachers.

High school students can attend a variety of on-campus activities and, depending on their qualifications, choose from the following courses and workshops:

- introductory-level college credit courses; and/or
- non-credit preparatory courses and workshops; and/or
- specially developed high school credit classes.

Each college/high school partnership develops its own course offerings based on the needs of the student population at a particular school and the strengths and resources of the institutions involved. Students who enroll in college credit courses must pass the ELA or Math A/B Regents examinations with grades of 75 or better, or achieve a 480 (or equivalent on the revised test) on the SAT verbal and math sections.

Senior Citizens

New York State residents 60 years and older as of the first day of classes are permitted to enroll as auditors in Lehman College undergraduate courses on a space-available basis, tuition-free; proof of age is required for admission to the program. Individuals enrolling under this program are charged a $65 fee per semester plus the $15 Consolidated Fee. Applications can be obtained and filed in Shuster Hall, Room 161. Senior citizens who wish to enroll for credit must pay full tuition and fees.

Immunization Registration Requirement

Students who do not submit proof of measles, mumps, and rubella (MMR) immunization or who fail to return the meningococcal meningitis response form within a statutory grace period shall be prohibited from attending the institution. For additional information, contact the Health Services Center located in Room 188 of the T-3 Building at 718-960-8900.

Public Health Law 2165 requires that postsecondary students be immunized against measles, mumps, and rubella (MMR).

All registered full-time students and part-time students born on or after January 1, 1957 who are enrolled for at least six, but fewer than twelve semester hours (or equivalent) per semester in an approved degree program or registered certificate program must submit proof of MMR immunization. Students may be exempt from the required MMR immunizations for religious or medical reasons. To qualify for a religious exception, students must submit a signed statement, or in the event the student is a minor (under 18), a signed statement from their parent or guardian, that they hold sincere and genuine religious beliefs that prohibit immunization. To qualify for a medical exception, students must submit a written statement from a licensed physician or nurse practitioner indicating that such immunization may be detrimental to their health.

Public Health Law 2167 requires that postsecondary institutions provide written information about meningococcal meningitis to its students and that students complete, sign, and return a meningococcal meningitis response form. Public Health Law 2167 does *not* require that students be immunized against meningitis.

Public Health Law 2167 requires colleges to distribute written information about meningococcal meningitis disease and vaccination and students to complete, sign, and return to the college, a meningococcal meningitis response form that: (a) confirms that the college has provided the information about meningococcal meningitis; and (b) indicates that either: (1) the student has received immunization against meningococcal meningitis within the ten years preceding the date of the response form; or (2) the student has decided against receiving the vaccination. This law applies to students who are enrolled in at least six semester hours (or the equivalent) per semester. No student may be exempt from receiving information or returning the response form.

Academic Advisement Services

Welcome to Advisement at Lehman College! Lehman offers a variety of advisement services aimed at supporting students as they progress toward the completion of their degree. Please visit the appropriate advising department website below to find out more information, including contact information for your advisor(s).

Onboarding Advisement Office – The Onboarding Advisement Office provides personalized support to entering, returning, and non-degree undergraduate students preparing to begin their first semester at Lehman. Onboarding Academic Advisors offer academic advisement for first-semester registration and connect students to campus resources to support a successful transition into the Lehman community.

Office of Undergraduate Academic Advisement – General Academic Advisors guide and support continuing students as they progress through their first semester toward the successful completion of their degrees.

Graduation Specialist Unit – Graduation Specialists provide advisement and support during the final year of degree completion.

Major and Minor Advising - Major and Minor Advisors offer guidance to students pursuing completion of programs within their discipline. To connect with a major or minor advisor, visit our **Student Services** page and scroll to the appropriate department. A Navigate icon under the department name indicates that advisors in the department can be booked by visiting Lehman Navigate.

Pre-Graduate School Advising – Pre-Graduate School Advising at Lehman College offers a range of services such as assistance with writing personal statement, how to get strong letters of recommendation, how to build a competitive record and how to find and apply to graduate school programs.

Pre-Health Advising – Pre-Health Advisors provide information, advising, coaching, and support for students who are interested in applying to and entering accredited health professional programs.

Pre-Nursing Advising – Pre-Nursing advisors provide information and advisement on Nursing prerequisite courses and assist students in preparing their applications to the Nursing program.

Advising in Specialized Programs

Adult Degree Program (ADP) – The Adult Degree Program (ADP) at Lehman College supports adults aged 24 and older who are pursuing their first bachelor's degree. As Lehman College students, those in ADP can pursue any major, including our own Bachelor of Liberal and Interdisciplinary Studies (BLIS). We provide additional benefits such as personalized academic advising, flexible scheduling, credit for prior learning, and extended office hours to accommodate busy lives. ADP fosters an empowering environment where adult students can thrive and achieve their goals.

Lehman College ASAP Program (ASAP) – The ASAP Program at Lehman College is a comprehensive program designed to help students complete their academic journey to the bachelor's degree within two years (transfer) or four years (freshmen).

The Percy Ellis Sutton SEEK Program (SEEK) – The SEEK Program promotes the academic, personal, and career development of SEEK students at Lehman College by admitting a historically underrepresented population and providing an array of specialized support and enrichment programs and activities dedicated to encouraging student's learning, performance, persistence and graduation.

Macaulay Honors College (MHC) and The Lehman Scholars Program (LSP) – The William E. Macaulay Honors College at Lehman chooses students from a highly competitive field of applicants who demonstrate exceptional academic skills and are then challenged to continue their record of achievement and to prepare for top graduate programs as well as leadership positions in both their professions and their communities.

Tutoring Programs

The Lehman Tutoring Center (LTC)

The Lehman Tutoring Center (LTC), located in the Old Gym Building, Room 205, offers students a range of activities designed to support classroom learning. Students at any skill level can participate in individual, small group, and/or workshop sessions to improve their proficiency in writing, reading, research, and particular academic subject areas. In addition, the LTC offers support to students who need to pass the CUNY entrance exams in writing and reading. Computer-assisted writing/language tutorial programs are also available.

English as a Second Language

Tutoring in writing for all ESL students.

Freshman Year Initiative

Tutoring in writing for all Freshman Year Initiative students.

The SEEK Learning Center

The SEEK Learning Center offers a variety of academic support services including individual and small group tutoring in most subject areas, academic coaching, critical thinking workshops, and peer mentoring. The Center is located in the Old Gym Building, Room 212.

The Computer Science Lab (CS Lab)

Located in Gillet Hall, Room 222, the CS Lab offers drop-in group tutoring, computer access, and academic support for computer science students at Lehman. The lab fosters collaborative learning and hosts review sessions tailored to student needs.

The Mathematics & Statistics Student Success Center (MS3C)

Located in Gillet Hall, Room 233, The Mathematics & Statistics Student Success Center (MS3C) offers tutoring, advisement, and support materials for math and math-related courses.

The Science Learning Center (SLC)

The Science Learning Center (SLC), located in Gillet Hall, Room 133, provides tutoring in the natural and computer sciences. Students meet with tutors individually and in group sessions. Software for computer-assisted learning in several subjects, such as organic chemistry and anatomy and physiology, is also available.

Library Tutors

Available in the Library, these tutors offer help with Library resources and computers.

Office of the Registrar

ACADEMIC CALENDAR: Please visit **http://www.lehman.cuny.edu/registrar/calendars.php** for all up-to-date academic deadlines, refund percentages, and holiday closings.

AUTHENTICATION/APOSTILLE: Transcripts and/or diplomas that need to have the Apostille process and/or notary may be obtained from the Office of The Registrar – located in Shuster Hall 102. **In the event that the original diploma has been lost or destroyed, students may place a diploma reorder online through their Parchment account. An additional fee will be required for the duplicate diploma.** Transcripts and/or diplomas that have been submitted for authentication and/or notary will be available within 24 to 48 hours for pick-up from Shuster Hall room 186. There is a $3.00 notary fee per document.

CHANGE OF NAME, ADDRESS, AND NATIONAL ID: Students must contact our office via email at **records.transcripts@lehman.cuny.edu** to initiate a change of name using the **Personal Data Change Request Form** and by providing two (2) types of appropriate legal documentation. The below outlines the types of documents that can be submitted as valid documents. All documents and identification presented must have the current legal name.

- Marriage- Marriage License and government issued ID
- Divorce- Divorce Decree/ Annulment and government issued ID

- Naturalization- Certificate of Naturalization and government issued ID
- Court ordered- Final Court order and government issued ID
- Adoption- Adoption order and government issued ID

Currently enrolled students can view or update their address (Home, Mailing and Billing) and phone number in CUNYfirst Student Center. For instructions on how to update your address or phone number in CUNYfirst, **click here**.

To update the Permanent address or National ID, students may submit their request by email from their Lehman College email account. Former students or alumni can complete the **Personal Data Change Request Form** and submit by email. Changes or correction of National ID must be accompanied by a completed **Personal Data Change Request Form** and an original, signed Social Security Card or Taxpayer Identification Number (if student does not have a Social Security number) and government issued Photo ID. All requests can be emailed to **records.transcripts@lehman.cuny.edu**.

First semester students should contact the Admissions Office via email at **undergraduate.admissions@lehman.cuny.edu**, to change their address and/or national ID.

SCHEDULE BUILDER ENROLLMENT: All continuing Undergraduate, Graduate, and Doctoral students register for courses in Schedule Builder during their assigned enrollment appointment times. Assigned enrollment (registration) appointments provide students access to enrollment via Schedule Builder. Students are not required to attend in-person registration. Registration information is communicated via email to students' Lehman email addresses. Please note, if you are unable to enroll, kindly check your Student Service Center for any holds on your record. All negative holds must be cleared before enrollment.

DECLARATION OF PLANS AND/OR SUBPLANS (Majors, Minors, Advanced Certificates, Tracks, Concentrations, and Specializations): iDeclare is the online Declaration of Academic Plan and/or Sub Plan workflow. This process allows students to initiate a request to declare, change, or drop their major and/ or minor online. Requests submitted online are reviewed by the appropriate departmental officials for approval and processing. **Click here** for instructions on how to initiate an iDeclare request.

Students can also check the status of a submitted request by logging onto iDeclare and click the *"Status"* option in the menu or checking their Lehman College email for confirmation and alerts regarding their requests. iDeclare is now available to all undergraduate students, including second degree students.

Students who need to drop a major and/ or minor can do so by submitting a request in iDeclare. Students can drop additional majors or any minors declared on their record. Students cannot drop their only major on record, as all students must have one declared major on their record. You can opt to change your major.

Please Note: Some departments may require students to make a virtual advising appointment before the iDeclare request is approved.

GENERAL COURSE SCHEDULING INFORMATION: The Office of the Registrar is responsible for scheduling all classes by ensuring the timely submission of academic department course offerings on a semester basis. We ensure that all course offerings include course attributes and are posted by the first day of classes. We are also responsible for classroom and non-class event assignments. The emphasis in classroom assignment is placed first on academic classes, then on class exams and support meetings, and finally on other departmental meetings and events

GRADUATION: Lehman College conducts several commencement ceremonies annually: one in January/February, and distinct Undergraduate and Graduate ceremonies in May/June. A student will only be eligible to apply if they will be completing all degree requirements by the end of the term in which the application is being submitted for.

For details on undergraduate graduation requirements, students may refer to the **Graduation Information for Undergraduate Students** webpage.

For details on graduate graduation requirements, students may refer to the **Graduation Information for Graduate Students** webpage.

*If you will graduate in Absentia you must obtain permission from the Office of Academic Standards and Evaluations located in Shuster Hall 116 or at academic.standards@lehman.cuny.edu

NEW YORK STATE RESIDENCY: To be eligible for the tuition rate of a New York State resident, a student must have had his/her principal place of residence in the state of New York for twelve consecutive months prior to the first day of classes for the semester. Continuing students who think they may be eligible for this rate may apply in Shuster Hall 102. Entering students should go to the Office of Admissions in Shuster Hall 161.

TRANSCRIPT INFORMATION: All transcript orders (official and unofficial) can be requested exclusively online. Students are advised to plan ahead and submit your transcript request orders to meet your upcoming deadlines. We process transcript requests for all alumni, current and former students of our college. You may request a copy of your academic transcript from Lehman College by using our online service, available on our **website**. For currently active students, unofficial transcripts can be requested in **Self Service** in CUNYfirst.

Verification of Student Enrollment Policy

Federal Title IV regulations require that a student begin attendance to qualify for Title IV aid. The College must be able to document verification of enrollment in each course or participation in an academically related event connected to that course. A student is considered to have begun attendance if the student attends at least one day of class or is otherwise active and participating in the course or academically related activity (e.g. by submitting assignments, attending a required study group, academic conference or tutorial) for each course used to determine Title IV eligibility. Academically related activities include, but are not limited to:

· physically attending a class where there is an opportunity for direct interaction between the instructor and students;

· submitting an academic assignment;

· taking an exam, an interactive tutorial or computer-assisted instruction;

· attending a study group that is assigned by the school;

· participating in an online discussion about academic matter;

· engaging in an online academically related activity, or initiating contact with the instructor to ask a question about the academic subject studied in the course or ask a course-related question. *Note: Logging into an online class is not sufficient, by itself, to demonstrate participation in an academically related activity by the student.*

A course for which the College is unable to document that the student ever attended cannot be included as a course eligible for the disbursement of federal aid.

Faculty members at all schools and colleges of The City University of New York are to be provided a census date roster at the end of the program adjustment period/ census date of each term/session including winter and summer. **Faculty and instructors are required to indicate on the rosters verification of enrollment for students enrolled in the class. VOE rosters will be made available on the 8th day and will remain available until the 21st day of instruction.** At that point in

time, submission of the roster will effectively certify that the listed students noted as present are enrolled and have attended & participated at least once in the class indicated on this roster (i.e., began attending classes and/or pursuing the prescribed course work or is otherwise active and participating in the course, e.g. by submitting assignments, attending a required study group, academic conference or tutorial).

The College will effectively process administrative withdrawals (WN) for students who have been reported as never participated in an academically related activity, i.e. have not begun attending. **Daily attendance rosters or grade books will not be required for the purpose of processing WN grades.**

The College will effectively process administrative withdrawals (WN) for students who have been reported as never participated in an academically related activity, i.e. have not begun attending. CUNY is a non-attendance taking institution as defined by Title IV regulation 34 CFR 668.22 (b)(3)(i). Daily attendance records are not collected by the College Registrars. CUNY does not require professors to take attendance, and any attendance records are taken for the professors' own purposes.

Where the College cannot establish that the student began attendance or participated in an academically related activity, federal grants and loan funds need to be returned. **Federal regulations require that the College return federal funds no later than 30 days after the College becomes aware that the student did not begin attendance.** At an institution that is not required to take attendance but that has a census date on which it reports its enrollment levels to a state, local jurisdiction or outside agency, once the institution has determined that a student has or has not begun attendance, it would be reasonable to expect the institution to return funds as soon as possible, but no later than 30 days following the census date.

Applying for Student Teaching

Undergraduate students who seek New York State initial certification must successfully meet the New York State Education Department (NYSED) student teaching requirement. The School of Education Director of Clinical Practice & Partnerships (CPP) located in Carman Hall, Room B-33, coordinates school site placements and provides prospective student teachers information and support. Student teachers must be prepared to student-teach every day for the duration of one college semester (5 full days/14 weeks or 70 days). Prospective student teachers are urged to plan their course of study so they can devote a semester exclusively to their student teaching. Student teachers should have fulfilled their other education course requirements, including content area methods courses, before applying for student teaching. Further requirements for student teachers are detailed in the respective program's course of study.

Applications must be filed the semester prior to student teaching and requires permission from the program coordinator or faculty advisor, who will review transcripts and determine readiness for the student teaching semester. Application due dates are April 1 for the fall semester and November 1 for the spring semester. Any candidate found to be in violation of any of the conduct guidelines detailed in the Lehman College Student Handbook and/or the candidate's discipline-specific code of ethics, may not be recommended for the student teaching. The Lehman College Student Handbook can be found on the College website at **http://www.lehman.cuny.edu/campus-life/**. Information about student teaching is posted on the School of Education's website at **lehman.edu/academics/education/**.

Teacher Certification

Teacher certification is obtained through the (NYSED) New York State Education Department - Office of Teaching Initiatives. The state governs all certification requirements and they reserve the right to make changes anytime.

It is the responsibility of any Lehman School of Education students to seek out consultation with the Lehman Certification Office for guidance on their personal state certification requirements based on the education area they will graduate from. Students should contact the Certification Office by emailing: ***teacher.certification@lehman.cuny.edu***

For more information, visit their webpage at: ***https://www.lehman.edu/academics/education/certificates-exams/***

Additionally, the (**NYSED**) New York State Education Department maintains a website of **all current** state educator regulations at ***www.highered.nysed.gov/tcert***.

Examination Requirements for Initial Certification

Lehman School of Education students who will seek their first **initial certification** from the (**NYSED**) New York State Education Dept. will most likely be required to pass the following exams: the [**EAS** #201] Educating All Students, [**CST** - specific to their certification subject area concentration] Content Specialty Test; more than one CST may be required, depending on the subject area.

The certification exams website is: ***www.nystce.nesinc.com*** The website is managed by a private company called **Pearson** on behalf of the NYSED. Pearson create the exams, and they review and score them. Pearson will automatically submit exam scores to student's personal email and to their NY state TEACH Online Services accounts. The exams website provides all information about each of the exams, registration to take the exams, preparation materials and practice tests.

The state also requires the completion of the following three mandated workshops: the **Child Abuse Identification & Reporting**, the **School Violence Prevention**, and the **(DASA) Dignity for All Students Act- Anti-Bullying & Discrimination** workshops. There is a fourth workshop called the **Needs of Students with Autism** but only additionally required for anyone seeking certification in **Special Ed or in Speech & Language Disabilities** [TSSLD].

The mandated workshops are offered online at Lehman College through the (SCPS) **School of Continuing and Professional Studies Dept**. Visit their link at: ***https://www.lehman.edu/academics/continuing-education/learn-more/mandated-workshops/*** or call them at (718) 960-8512 for more information.

Bilingual Education Assessments (BEA)

The Bilingual Education Assessment (BEA) is required of candidates seeking a bilingual education extension to a certificate. Preparation guides for these examinations can be viewed or downloaded for free at **www.nystce.neinc.com**. The BEAs consist of both multiple-choice questions and constructed-response assignments; the BEAs include audiotaped listening and speaking components in English and in the target language, and reading and writing components in the target language.

Applying for Teacher Certification

School of Education students who successfully **graduate** from their teacher preparation program and complete any additional certification requirements needed such as exams, fingerprints or content core coursework, should then be ready to apply for their initial certification with the New York State Education Dept. The certification process is as follows:

1. During their **first semester** of their teacher preparation program, students should consult with their Program Coordinator/ Advisor regarding their coursework plan to graduate. They should also contact the Certification Office (*teacher.certification@lehman.cuny.edu*) to learn about their personal New York State certification requirements based on their teaching program area. These requirements are intertwined based on their program area but also separate and additional from earning their degree.
2. The Certification Office will provide a personalized certification checklist based on a student's teacher program area. The checklist should be used as a reference to mark off all the requirements a student should have completed by the time they graduate from their teacher program. This will ensure their readiness to obtain their initial certification from the New York State Education Dept after they graduate.
3. After all certification requirements are completed including official graduation, students should contact the Certification Office to request a college recommendation submission to the state for their initial certification. The office will review their requirements to see if they qualify to receive it. The office will then submit the recommendation into their New York State TEACH Online Services account and provide the next steps to apply for the initial certification.
4. After a student qualifies and receives the college recommendation, they should then apply for their initial certification through their New York State TEACH Online Services account using the program code provided by the college.
5. The state takes over their application and conducts their own final review before they approve the initial certificate online. Only the state has final review and approval over all teaching certificates. Certificates are only issued online.

Academic Honors

Dean's List

At the end of each Fall and Spring semester, the Office of Undergraduate Studies publishes a list of matriculated students who meet the qualifications for placement on the Dean's List.

Full-time students will be placed on the Dean's List each fall and spring semester in which they have earned twelve or more credits in residence at Lehman College with a GPA of 3.5 or above. Part-time students will be placed on the Dean's List on each occasion in which they have completed twelve or more new credits in residence at Lehman College in two consecutive semesters with a GPA of 3.5 or above. In either case, no WU or INC grades are allowed even if twelve credits are completed with a 3.5 GPA.

Presidential Scholar

This designation is bestowed upon students who have met all of the qualifications for Dean's List and have exceeded the GPA requirement for Dean's List by earning a 3.9 GPA or higher. This honor supersedes placement on the Dean's List.

Departmental Honors

Graduation with departmental honors requires that, in addition to any other departmental specification, a student achieve a cumulative index of 3.2 and an index of 3.5 in the major or in an interdisciplinary program for a minimum of 24 credits.

College Latin Honors

Effective fall, 2019, students are eligible for College Latin honors at graduation if they have completed at least 50 indexable credits in residence at Lehman College, with a minimum cumulative index of 3.5. (See definition of credits in residence under the heading "Credit Requirements" in the section on "Degree Requirements" in this Bulletin.) The following Latin honors may be awarded:

Cum laude	Index of 3.5-3.74
Magna cum laude	Index of 3.75-3.84
Summa cum laude	Index of 3.85-4.0

Second degree students are not eligible for College Latin Honors.

College Honors Prior to Fall 2019

Election to Honor Societies

Phi Beta Kappa

Phi Beta Kappa, the nation's oldest liberal arts honor society, founded in 1776, granted a charter that established Chi Chapter of New York at Lehman College in 1970. Membership in Phi Beta Kappa is an honor conferred by invitation in recognition of scholarly achievement in the liberal arts and sciences. Election to the Chapter is based on high scholarship in a broad liberal arts curriculum as distinct from a vocationally oriented course of study. To be eligible for election, a student must have completed a year of college-level study in mathematics or a natural science or a semester of each, have completed two years of foreign language at the college level or its equivalent, and have a minimum 3.6 GPA with 90 credits in liberal arts courses.

Sigma XI

Sigma Xi, the national honor society in scientific research, founded in 1886, granted a charter to establish a chapter at Lehman College on November 2, 1974. The Lehman chapter can elect to membership students who have demonstrated outstanding ability in the field of scientific research. The chapter provides an opportunity for the presentation of undergraduate and graduate student research papers, as well as for attendance at the chapter's annual dinner and scientific lecture.

Other Honor Societies

The following honor societies at Lehman College encourage students to take an active interest in independent and advanced study:

Alpha Kappa Delta (sociology), Alpha Sigma Lambda (Adult Degree), Beta Beta Beta (biology), Chi Alpha Epsilon (SEEK), Chi Sigma Iota (counseling), Kappa Delta Pi (education), Phi Alpha Theta (history), Phi Sigma Tau (philosophy), Pi Delta Phi (French), Pi Mu Epsilon (mathematics), Pi Sigma Alpha (political science), Psi Chi (psychology), Sigma Delta Pi (Spanish), Sigma Theta Tau (nursing).

Flexible Grading Policy

CR/NC Flexible Grading Policy for Fall 2020

http://www.lehman.edu/crncpolicy/Special COVID-19 Flexible Grading Policy for the Spring 2020 Semester

Special COVID-19 Flexible Grading Policy for the Spring 2020 Semester

As part of The City University of New York's response to the COVID-19 pandemic, during the Spring 2020 semester, all students shall have the option to convert any or all of the (A-F) letter grades they earn in their classes, to Credit/No Credit (CR/NC) grading.

1. During the Spring 2020 semester, all students shall have the option to convert any or all of the (A-F) letter grades, including plus or minus variations, they earn in their classes, to Credit/No Credit grading.
2. Students shall be able to make this decision up to 20 business days after the University's final grade submission deadline. Once selected, the Credit/No Credit option cannot be cannot be reversed.
3. If a student chooses to exercise this option, a passing letter grade (A, B, C, or D including +/-) will convert to 'CR' with credit for the class being awarded, while a failing grade (F) will convert to 'NC', with no credit awarded. Credit/No Credit grades will not impact the student's GPA.
4. Courses taken for a letter grade will continue to be included in the semester and general GPA, while courses taken for a Credit/Non-credit grade will be excluded, just as is the case with such courses taken at a student's home institution.
5. If a student exercises the option of Credit/No Credit, the Credit (CR) grade will not negatively impact the student's satisfactory progress toward degree completion.
6. Students with Credit/No Credit grades will be able to transfer those courses across colleges within CUNY, per current CUNY policy.
7. The Special COVID-19 Flexible Grading Policy shall apply to coursework completed on Permit and will not affect Board of Trustees Policy 1.14 – Policy on Coursework Completed on Permit.
8. Students placed on academic probation by their institution at the start of the Spring 2020 semester shall not be penalized with academic dismissal based upon their grades earned this semester.
9. The Special COVID-19 Flexible Grading Policy shall not affect the University standards of student retention and progress in accordance with Board of Trustees Policy 1.26.
10. Before choosing this grading option for one or more of their classes, students shall consult with their academic and financial aid advisors regarding potential impact to their financial aid, licensure requirements, and graduate school admissions.
11. The Special COVID-19 Flexible Grading Policy shall supersede and override all undergraduate and graduate program-level grading policies currently in effect at CUNY colleges and schools, including those related to required and elective courses within the major, minor, general education (Pathways), pre-requisite courses, honors courses, courses taken on permit and maximum number of credits that a student can earn with Credit/No Credit grades.
12. The grade glossary, attached to each transcript, will be updated to include a notation denoting that all Spring 2020 grades, including CR or NC, were earned during a major disruption to instruction as a result of the COVID-19 pandemic.
13. The Special COVID-19 Flexible Grading Policy shall apply to all CUNY colleges and schools, except the School of Law and the School of Medicine, which may develop their own Pass/Fail policies, subject to approval of the Board of Trustees, to conform to norms in legal and medical education.
14. The Special COVID-19 Flexible Grading Policy, which shall be effective April 1, 2020, applies to the Spring 2020 semester only and that the Chancellor, may, in his discretion, to meet public health emergency policies and practices, extend this policy to future semesters, if necessary and report such extension to the Board of Trustees immediately.
15. The Special COVID-19 Flexible Grading Policy shall be codified in the Manual of General Policy as Policy 1.4. and cannot be overwritten by any individual units of the University, including presidents, provosts, or college councils.

The policy will remain in effect for the Spring 2020 semester and will be reviewed by the Chancellor and extended as necessary to meet public health emergency policies and practices.

Special COVID-19 Flexible Grading Policy for the Spring 2020 Semester

Credit and Course Loads

Lehman and CUNY policies and regulations in regard to credit hours adhere to all guidelines of the New York State Education Department, whose guidelines, in turn, adhere to all guidelines of the United States Department of Education (NYSED). All courses and programs are submitted to and are approved by NYSED.

Semester credit hour means a credit or unit granted for the satisfactory completion of a course, which requires at least 15 hours (of 50 minutes each) of instruction and at least 30 hours of supplementary assignments. This basic measure shall be adjusted proportionately to translate the value of other academic calendars and formats of study in relation to the credit granted for studying the two semesters that constitute an academic year. Following CUNY guidelines, Lehman operates on an academic year divided into two equal semesters of 15 weeks duration (which runs from late August through the end of May), various shortened fall/spring sessions, a winter intersession of three weeks, and various shortened summer sessions. Lehman offers a full range of undergraduate and graduate courses on a day, evening, weekend, hybrid, and online schedule.

Consistent with codes and regulations of the State of New York (NYSED) and CUNY, the actual amount of academic work that is required of a single semester credit hour is calculated as follows:

- *Lecture, seminar, discussion, recitation*
  A semester credit hour is an academic unit earned for fifteen 50-minute sessions of classroom instruction with a normal expectation of two hours of outside study for each class session. Typically, a three-credit-hour course meets three 50-minute sessions a week for fifteen weeks for a total of 45 sessions.
- *Laboratory, practicum, workshop, studio*
  A semester credit hour is awarded for the equivalent of fifteen periods of such activity in which each activity is 150 minutes or more in duration with little or no outside preparation expected. Forty-five 50-minute sessions of such activity also normally earn one semester credit hour. Where such activity involves substantial outside preparation by the student, the equivalent of fifteen periods of 100 minutes duration each earns one semester credit hour.
- *Fully online and hybrid course*
  Credit hours are based on the same formula as above. A course that is fully online or partially online (hybrid) requires the same amount of direct computer-based work as the time spent in the class. The amount of student preparation is equivalent to the standard course models above.
- *Sessions*
  Credit hours are earned in short sessions (e.g., summer sessions, winter intersessions) proportionately to those earned for the same activity during a regular session of the institution. Required minutes are divided over the number of days in the shortened session.

Based on a 50-minute credit hour, minutes for all course sections are computed according to the following table used by the Registrar's Office:

Class Hours	Minimum Minutes for Semester	Minutes per Class Once per week (15 weeks)	Minutes per Class Twice per week (15 weeks)	Minutes per Class Three times per week (15 weeks)	Minutes per Class Four time per week
1	**750**	50			
2	**1500**	100	50		
3	**2250**	150	75	50	
4	**3000**	200	100	67	50
5	**3750**	250	125	84	63
6	**4500**	300	150	100	75

Classes follow the college's “bell schedule” to ensure minimum contact hour requirements are met and classroom space is maximized. These bell schedules may be found on the Office of the Registrar Scheduling Information webpage.

ePermit: Lehman College Credit for Attendance at Other Institutions

ePermit: Lehman College Credit for Attendance at Other Institutions

The following regulations apply to Lehman College matriculants who wish to attend other colleges or universities for Lehman College credit:
Eligibility Requirements:

- First-time freshman (except those in Macaulay Honors College, CUNY BA, Lehman Scholars Program and ROTC) must have completed one semester of twelve credits at Lehman.
- A student must have a minimum cumulative GPA of at least 2.00; be pursuing a degree; have no holds on records; and, must meet residency and immunization requirements.

E-Permit CUNY:

- To be assured full transfer credit for CUNY courses, students must follow the e-permit procedures.
- Each permit request is for a single course. Thus, students need to complete a permit request for each equivalent course they would like to take at other colleges.
- An e-permit or permit does not automatically register a student for a course, nor does issuance of any permit guarantee enrollment at the HOST college. Once a student has enrolled at the HOST College, cancellation of the permit does not delete the course registration.
- If a student does not obtain permission in advance, including departmental approval for courses that have not already been evaluated, transfer credit may be withheld.
- Transcripts for CUNY e-permit courses will automatically be forwarded to the home college.

Non-CUNY Permit:

- To receive transfer credit for non-CUNY courses, students must visit the Registrar’s Office and follow the procedures for a non-CUNY permit.
- If a student does not obtain permission in advance, including departmental approval, transfer credit may be withheld.
- A student is responsible for having transmitted to the College a record of all courses taken at a non-CUNY institution for Lehman credit while a matriculated student at the College.
- Grades of D earned outside the City University of New York are not transferable.

Regulations for E-Permit and Non-CUNY:

- Courses taken on permit must meet degree requirements.
- A student may not be enrolled simultaneously at Lehman College and another institution for more than the maximum number of credits under Lehman College rules.
- A student may not transfer more than 70 credits from community colleges.
- To earn a Lehman College degree, a student must complete at least 30 credits in residence at Lehman College and at least half of the credits in the major or in an interdisciplinary program, minor or certificate. (See the definition of credits in residence in the section on "Degree Requirements" in this Bulletin under the heading of "Credit Requirements.")
- With special permission, a student who has satisfied Lehman College residence requirements may attempt the final 21 credits at another accredited senior college or university, provided that all other requirements for graduation will have been satisfied. Students wishing to graduate in absentia must obtain permission from their designated academic advisement office.

ePermit Prior to Fall 2020

Excess Credit

The eExcess Credits Request process allows students to initiate a request to register for more than the maximum number of allowable credits for a semester or term. eECR becomes available in Lehman 360 the morning after students enroll for courses.

Students are eligible to submit an eECR request only if they meet all of the following criteria:

1. Minimum of 2.7 GPA OR a minimum of 90 credits completed OR a first semester student at Lehman

AND

2. No outstanding INC grades on the record

AND

3. Completion of ENG 121 (taken at Lehman or transferred) OR the completion of an Associate's or Bachelor's Degree

If you do not meet the above criteria, you will not be able to submit a request using this system. Please contact your general academic advisor for an exception.

Full-Time and Part-Time Matriculants

Full-Time Matriculants

Courses and credit loads for full-time matriculants are as follows:

- To be a full-time student, he/she may attempt a minimum of 12 credits per semester.
- A student may attempt a maximum of 18 credits per semester.

Part-Time Matriculants

Courses and credit loads for part-time matriculants are as follows:

- In order to make progress toward the degree, a part-time matriculated student is expected to carry each semester a minimum of two courses totaling five to seven credits or one course totaling at least five (5) contact hours.
- To be a part-time student, he/she may attempt up to 11.5 credits.

Heritage and Foreign Transfer Students Policy

Foreign Language Requirement for Students with Preexisting Foreign Language Skills

In general, students who began a language in high school or elsewhere and plan to continue the study of that language must take the placement test. Students are urged to take the placement test the semester prior to starting foreign language study. The test may be taken according to the schedule posted by the Department of Languages and Literatures. Please contact the Department of Languages & Literatures (Carman Hall, Room 257, telephone 718.960.8215) to schedule your placement exam. The test may be taken only once and the result is binding. Results are generally posted within a week after taking the test.

- In general, students who have taken a language in High School will not be allowed to take the equivalent course at Lehman unless they are placed there by the Department.
- Students who have begun a language at another college will not be permitted to take an equivalent course for credit.
- Students may take equivalent foreign language courses for credit at other CUNY colleges through ePermit (Lehman ePermit, also https://epermit.cuny.edu) or at non-CUNY colleges (visit the Registrar’s office for a non-CUNY permit).

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Spanish Heritage Speakers

Spanish heritage speakers are those who speak Spanish at home. Often this is their first language and mastery of the language in both spoken and written forms varies considerably. Spanish heritage speakers cannot take language courses in their home or native language intended for non-heritage speakers (courses numbered 111, 112, 201, 202). Spanish heritage speakers will be placed by examination and/or interview with a Languages Department advisor. There are special courses for Spanish heritage speakers (**SPA 113**-**SPA 114** and **SPA 203**-**SPA 204**).

Foreign Transfer Students

Foreign transfer students often enter Lehman with college credit for coursework completed in a language other than English. Foreign transfer students cannot take language courses in their home or native language (courses numbered 111, 112, 201, 202). Foreign students will be placed by examination and/or interview with a Languages Department advisor.

Foreign transfer students who have completed college coursework in a foreign language may request a waiver from taking a foreign language. If the waiver is granted, the student is required to substitute Foreign Language Option courses to complete the language requirement.

Student Classification

Group	Credits Completed
8 Upper Senior	106-120
7 Lower Senior	91-105
6 Upper Junior	76-90
5 Lower Junior	61-75
4 Upper Sophomore	46-60
3 Lower Sophomore	31-45
2 Upper Freshman	16-30
1 Lower Freshman	0-15

Summer Session

Students may take no more than 16 credits overall throughout the summer session. Summer session N, which runs for 11 weeks, has a credit limit of 12 credits. The other summer sessions (A-D) have a credit limit of 8 credits each. Students may submit an excess credit request to enroll over the limit of an individual summer session, but enrollment over the 16 credit overall limit will not be permitted.

Students should consult with their assigned academic advisor before enrolling or submitting an excess credit request.

Transfer Credit

The following rules govern the evaluation of transfer credit:

- Credit is usually granted for a course from a college or university accredited by one of the following accrediting bodies if the description of that course matches that of a similar course offered by Lehman College: Middle States Association of Colleges and Schools/Commission on Higher Education; New England Association of Schools and Colleges/ Commissions on Institutions of Higher Education; North Central Association of Colleges and Schools; Northwest Association of Schools and Colleges; Southern Association of Colleges and Schools/Commission on Colleges; Western Association of Schools and Colleges/ Accrediting Commission for Community and Junior Colleges; Western Association of Schools and Colleges/ Accrediting Commission for Senior Colleges and Universities; Accrediting Commission for Community and Junior Colleges; Accreditation Commission for Education in Nursing, Commission for Nursing Accreditation Education and accreditation by the New York State Board of Regents and the Commissioner of Education of the colleges currently listed on the NYSED college accreditation site.
- Credit for a course at a postsecondary institution not accredited by one of the above-mentioned accrediting bodies, whose description matches that of a similar course offered by Lehman College may be granted with departmental approval.
- Courses from non-accredited institutions that do not have a Lehman equivalent will not transfer.
- Courses completed outside the City University system with a grade of D or below will not be credited by Lehman College. They will be included, however, in the cumulative index to determine an applicant's eligibility for admission.
- Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College. (See the definition of credits in residence in the section on "Degree Requirements" in this Bulletin, under the heading "Credit Requirements.")

Undergraduate Certificates

Effective fall 2019, undergraduate certificate programs (not including certificates offered by Continuing Education) shall follow the policies and procedures in effect for minors. To view the policy in effect for minors, please review the Degree Requirements page.

Graduate Courses for Undergraduate Credit

Undergraduate students with a declared major who are not registered for a dual degree program, have completed at least 90 credits with a cumulative GPA of 3.0 or above and who satisfy necessary pre-requisites may enroll in a total of twelve graduate credits during their senior year.

Graduate courses may not count towards Pathways requirements or the residency requirement for the major/minor. Graduate courses will be counted towards the calculation of Dean's List, Presidential Scholars, and departmental honors.

Grading will occur on the following system: A, A-, B+, B, B-, C+, C, and F.

Tuition will be charged in accordance with the tuition and fee manual. Full-time undergraduate students who receive permission to take graduate courses will be charged the undergraduate tuition rate for graduate courses which are applicable to the student's undergraduate degree. (within the 120 credits required for graduation). If the student is part-time, the graduate rate will be charged for graduate courses and the undergraduate rate for undergraduate courses. Students receiving financial aid in the form of grants and/or loans should confirm that the additional charges will be covered by their aid by speaking to a Financial Aid Counselor.

Students who meet the eligibility requirements must get approval from the graduate program advisor and the Office for Graduate Studies.

Withdrawal from Courses

Drop/Add Period. Students may adjust their programs during the Drop/Add period at the beginning of each semester, provided there is space in a newly selected course and they maintain the minimum credit load for their status.

Withdrawals after Drop/Add. The grade of W, withdrawal without penalty, is awarded only when it is clear that a student has a good and sufficient reason for withdrawing from a course and is doing so at a time when he or she is doing passing work in the course. Applications for withdrawal are accepted through the tenth week of each semester.

Students desiring to drop a course in their major must obtain a recommendation from the chair or the adviser of the appropriate department program. No faculty member or counselor may withdraw a student from a course.

The following grades govern official and unofficial withdrawals after the Drop/Add period. The deadline dates are published each semester by the Registrar's Office.

	Grade
Official withdrawal without penalty	W
Never Attended, without penalty	WN
Unofficial withdrawal without penalty	WU
NOTE: Although W, WN, and WU grades carry no index penalty, they are credits attempted for the purpose of measuring satisfactory academic progress.	

Students receiving financial aid should discuss in advance with the Office of Financial Aid the consequences of withdrawing from a course.

Credit by Examination

External Examination Programs (AP, CLEP, CPEP)

Students who have participated in any one of the three external examination programs approved by the College - the Advanced Placement Program (AP), the College Level Examination Program (CLEP), and the College Proficiency Examinations Program (CPEP) - may receive advanced placement depending on the scores achieved and criteria set by the College. Sophomore standing will be awarded to those who have earned four full Advanced Placement course credits.

Credit by Departmental Examination

All departments at Lehman College may offer credits by means of a departmental examination, provided the individual departments are convinced that the student, through previous study and/or work, is qualified to take the examination in a specific course. The department may assign either credit (representing a grade of C or better) or no credit to the examination. Students who fail this examination may not repeat it. Students requesting credit by departmental examination must pay the Qualifying Examination Fee as listed in the section on "**Noninstructional Fees**" in the chapter on "**Tuition and Fees**" in this Bulletin.

The maximum number of credits students may earn through external examinations and life-experience credit (awarded through the Adult Degree Program), exclusive of Advanced Placement examinations, is 30. (For further information, consult the Office of Academic Standards and Evaluation, Shuster Hall, Room 116 or at academic.standards@lehman.cuny.edu)

Graduate Courses for Undergraduate Credit

Undergraduate students with a declared major who are not registered for a dual degree program, have completed at least 90 credits with a cumulative GPA of 3.0 or above and who satisfy necessary pre-requisites may enroll in a total of twelve graduate credits during their senior year.

Graduate courses may not count towards Pathways requirements or the residency requirement for the major/minor. Graduate courses will be counted towards the calculation of Dean's List, Presidential Scholars, and departmental honors.

Grading will occur on the following system: A, A-, B+, B, B-, C+, C, and F.

Tuition will be charged in accordance with the tuition and fee manual. Full-time undergraduate students who receive permission to take graduate courses will be charged the undergraduate tuition rate for graduate courses which are applicable to the student's undergraduate degree. (within the 120 credits required for graduation). If the student is part-time, the graduate rate will be charged for graduate courses and the undergraduate rate for undergraduate courses. Students receiving financial aid in the form of grants and/or loans should confirm that the additional charges will be covered by their aid by speaking to a Financial Aid Counselor.

Students who meet the eligibility requirements must get approval from the graduate program advisor and the Office for Graduate Studies.

Audited Courses

All students, matriculant and non-degree, may audit any course other than a laboratory, provided attendance in the course does not involve the use of consumable material and/or equipment. Auditors will be charged regular tuition. Audited courses cannot be used to qualify for full-time or part-time status, financial aid, or veteran's benefits. AUD-graded courses carry no credits, but auditors must fulfill the instructor's requirements for auditors. AUD-graded courses should not be confused with courses graded "No Credit." To register as an auditor, prior written permission of the instructor and the appropriate department chair is required. No change from regular registration to auditing, nor from auditing to regular registration, will be permitted after the regular registration period has ended.

Degree Requirements

The requirements for an undergraduate degree at Lehman College are those in effect during the student's first semester of matriculation, with the exception that, as of the 1996 fall semester, the number of credits required to earn a degree is 120 for all students, provided all other requirements have been satisfied.

Effective fall 2019, when the requirements of an undergraduate program change, students currently enrolled in that program may elect to change from the requirements in place when they declared that program to the new program requirements. Readmitted students must complete the program requirements in effect when they are readmitted. In exceptional circumstances, determined by departmental advisors, a readmitted student may be allowed to remain under the original program requirements. All students enrolled in fall and summer 2019 whose program underwent revision prior to fall 2019 may take advantage of this policy.

Basic Skills Proficiency

Degree seeking students enrolling at Lehman College must demonstrate readiness in reading, writing and mathematics as defined by City University of New York prior to admission to the college. Students may demonstrate proficiency prior to enrolling at Lehman College by passing the appropriate CUNY Assessment Test(s).

The CUNY Assessment Tests (CATs) and the Mathematics Placement Test are administered in the Lehman College Testing Center. For additional information about CUNY Assessments please visit the Testing Center’s website at http://www.lehman.edu/academic-testing/.

Program in English as a Second Language

Students whose native language is not English and who have failed the CUNY Reading and/or Writing Assessment Test are administered an ESL Placement Test and placed in the ESL sequence or referred to the CUNY Language Immersion Program (CLIP). (For a detailed description of ESL courses, see the information contained under "Academic Departments and Programs" later in this Bulletin.)

Credit Requirements

To earn a bachelor's degree at Lehman College, students must earn a minimum of 120 credits. All students must complete at least thirty credits in residence at Lehman, including at least half of the credits of their chosen major and minor (if required). Credits in residence are defined as credits earned in Lehman College course work.

Majors, Minors, and Undergraduate Certificates

Major Field Requirement

All candidates for a baccalaureate degree must select a major field of study and complete all requirements for that major.

Each department, departmental section, or interdisciplinary program at the College is responsible for determining the content and requirements of the majors it offers. The requirements for each major are listed under the alphabetical listings of departments in this Bulletin. Students must select a major by the time they have earned 60 college credits and must record their choices in the Office of the Registrar (Shuster Hall, Room 102). Students are advised to consult with prospective departments about a major as soon as possible.

Restrictions for the B.A. degree: No more than 42 credits may be required within one department. No more than 64 credits may be required as a major.

Restrictions for the B.S. and B.F.A. degrees: No more than 64 credits may be required within one department. No more than 85 credits may be required as a major.

Note: Students may take no more than 60 credits in any one department.

Double Majors

To graduate with a double major, a student must fulfill the requirements for both majors and must earn at least 24 discrete credits in each major field, i.e., none of the 24 credits applied toward one major shall be applied toward the other major.

Optional Minor (12 Credits or more credits)

Effective fall 2020, a minor, which normally consists of twelve credits of related courses beyond the 100 level in a department or approved program (including professional programs, such as teacher education), is not required for graduation (except as may be required for a specific major). Students may nonetheless declare a minor field of concentration, which will become part of their official program. Normally, at least six of the twelve credits must be taken in 300- and 400-level courses. At least 50% of the courses taken to fulfill the requirements of a minor must be discrete, that is, at least 50% must be different from the courses used to fulfill the requirements of the student’s major or other minors/certificates.

Undergraduate Certificates

Effective fall 2019, undergraduate certificate programs (not including certificates offered by Continuing Education) shall follow the policies and procedures in effect for minors.

Graduation Requirements

To qualify for graduation with a Lehman College baccalaureate degree, students must complete the following requirements:

1. completion of at least 120 credits, including all degree requirements;

2. completion of at least 30 credits in coursework at Lehman, including at least half the number of credits in the student's major and half in the minor or half of the credits in an interdisciplinary program;

3. a minimum Lehman College cumulative index of 2.0; and

4. either a minimum grade of C or an overall index of 2.0 in all courses taken in the major and minor departments or in an interdisciplinary program.

Undergraduate Grading Systems and Related Policies

Attendance

Attendance

Individual instructors, as well as departments or degree programs, may establish specific attendance requirements. Instructors have the right to weigh attendance and class participation in determining grades. It is the student's responsibility to ascertain the effect attendance may have on the grade in a course. Students receiving financial aid must be certified or attend classes regularly to continue eligibility.

Undergraduate Grading Systems and Related Policies

Change of Grade Process

Change of Grade Process

The purpose of this memorandum is to establish guidelines for change of grade and associated deadline and thereby facilitating timely progress to degree completion and compliance with financial aid requirements that all courses taken contribute to degree completion. This policy is intended to reflect the University's commitment to the student success goals and the requirements of New York State's Regulations of the Commissioner of Education.

Application for a change of grade, assigned by a member of the faculty, may be made at any time **within one year from the end of the semester in which the course was taken**. Either the student or the instructor may make this request according to campus procedure. The procedures outlined below apply to the change of passing **letter grades, PEN, F, FIN, WU**. **Grades cannot be changed once a student has graduated and their academic record is closed.**

Change of Final Grade

Faculty members who initiate such a change must file a **Change of Grade Form** (paper or secure online form), including the reason for the change, follow campus changes of grade approval process, and forward the completed form to the Office of the Registrar, who will process the change and notify the student and faculty.

Grade change request over **one academic year** requires approval as defined by the campus.

Change of INC to Administrative FIN

Campus Registrar assigns the grade of FIN when an INC (Incomplete) remains unresolved at the **end of the semester following the semester in which the course was taken** (exclusive of Summer Term.)

Incompletes unresolved in the above-mentioned time period will become FIN in students' record.

1. The student or the instructor may appeal this administrative action or request for an extension as defined by campus.
2. Appeals, if permitted by the campus, must be filed within thirty calendar days of FIN grade assignment in CUNYfirst (excluding faculty annual leave period).

Change of PEN to Final Letter Grade

The "PEN" grade is a temporary grade awarded when the disposition of the final grade requires further evaluation and when the absent or incomplete grades are inappropriate. 'PEN' is also used to facilitate the implementation of the Procedures for Imposition of Sanctions whereby colleges must hold a student's grade in abeyance pending the outcome of the academic review process. Final determination of a grade will depend on final evaluation by the instructor or the outcome of the college's academic review process. PEN grade must be resolved to letter grade by the **end of the semester following the semester in which the course was taken.**

Student Final Grade Appeal for grades other than INC, FIN, PEN

Students are strongly encouraged to first communicate with the professor of the course. If that conversation does not remedy the situation, or if students choose to not follow that route, then students who think that a final grade was issued erroneously may file a grade appeal using campus appeal process and deadline.

The complete memorandum for the CUNY Uniform Grade Symbols and Guidelines may be **found here**.

Undergraduate Grading Systems and Related Policies

College Now Program Grading Policy

College Now Program Grading Policy

College Now is a University wide initiative to offer college level courses to NYC's public high school students. Students take credit-bearing courses that are part of the regular curriculum at any one of the participating CUNY colleges. Since these are actual college courses a transcript can be generated for all participating students who enroll in these courses.

Currently the same letter grade system that is used on CUNY campuses is used in these courses. Upon matriculation in any of CUNY colleges other than the one sponsoring the course, the course is treated like transfer credit. The earned letter grade is not entered on the transcript at the receiving school.

If the student matriculates at the same college that sponsored their College Now course, the course appears on the transcript as a regular course with a letter grade and GPA. Because the same rules that apply to students transferring within CUNY are used for College Now students, if a student gets a passing grade in the course, the course will transfer. If, however, the student attends the college that sponsored the course, the letter grade and its corresponding GPA are calculated into the student's record. This is fine for students earning a "C" or better, but students earning a letter grade lower than a "C" start their academic career when entering college, on probation. In some cases, their financial aid may be impacted.

Effective Fall 2021, in all College Now programs the only passing grades permitted will be iterations of A through C. Lower passing grades such as C-, D+, D and D- will automatically convert to the grade of CR (credit) and the F, WD, WU, W, WN grade will convert to NC (No Credit). CR will carry academic credit and NC will not. College Now grades will not impact the student's GPA. Upon matriculation, NC grades earned during College Now program, will not impact students financial aid status.

The complete memorandum for the CUNY Uniform Grade Symbols and Guidelines may be **found here**.

Undergraduate Grading Systems and Related Policies

Cumulative Index

Cumulative Index

A cumulative index may not be computed by averaging the semester indices. Students should check their computation against their official transcripts. Grades and Credits in the cumulative index include: All grades earned at the College, grades earned in courses taken at Lehman or CUNY (i.e study-abroad programs, permit out). Grades and Credits to be excluded are those grades earned in any previous institution.

Undergraduate Grading Systems and Related Policies

Departmental Grade Appeals

Departmental Grade Appeals

When a student considers a grade unjust, he/she should first confer with the instructor. **Students are required to initiate grade appeals before the end of the eighth week of a semester following the entry of a permanent grade.** If a student is not satisfied with the outcome, he/she may appeal in writing to the department chair.

1. The chair will appoint a review committee of at least two department members who, with the chair, will review the appeal. The committee will examine all materials relevant to the appeal, submitted by both the instructor and the student, and will prepare a written report of its findings, either sustaining the original grade or recommending a change.
2. The chair will notify the student, the instructor, and the Office of Academic Standards and Evaluation of the committee's decision. If the committee recommends a grade change, the chair will initiate an e-Grade correction.
3. The decision of the review committee will be binding on both parties.

Undergraduate Grading Systems and Related Policies

Discontinued Grades & Grade Symbols

Discontinued Grades & Grade Symbols

The following symbols have been implemented as prefixes to grades in the student system to identify repeated courses including the application of the F grade repeat policy and Board approved variance, as well as to indicate a grade's impact on GPA and credit accumulation. CUNYfirst College have retired the use of these prefixes as they went live in CUNYfirst. Converted records will continue to display with the legacy prefix designation in CUNYfirst.

Prefix	Explanation
&	Repeated course which counts in the GPA but does not count in credits completed
*	Course does not count in the GPA and does not count in credits completed
#	Replacement grade, F grade policy, does not count in cumulative GPA
@	Repeat F grade policy, does not count in GPA, does count in credits completed

The following grades are no longer in use and have been removed from the legend of grade symbols. Colleges may not use any symbol which is no longer in use and therefore not included in the glossary. Values have been defined in this document for historical purposes of computation on existing transcripts.

Grade	Explanation	Quality Points	Effective Date
*	Current course registration/course in progress	-	04/1980
ABS	Absent from the final; make-up exam permitted.	-	09/2008
E	Excellent. (At LaGuardia Community College only)	4.00	09/1976
FAB	F from absent –used when the ABS grade reverts to an F grade.	0.00	09/2008
FPN	F from pending –used when the PEN grade reverts to an F grade.	0.00	09/2008
G	Good. (At LaGuardia Community College only)	3.00	09/1976
H	Honors. (Used only at Richmond College and only for students who began in Spring 1975 or earlier.)	4.00	09/1976
J	Failure for non-academic reasons.	0.00	09/1976
K	Condition course completed. (This is not a grade.)	-	09/1976
NF	Failure in a non-academic course. (At York College only)	0.00	09/1976
WF	Withdrew Failing. Student participated in an academically related activity at least once	0.00	01/2015
WP	Withdrew passing.	-	09/1976
X	Non-punitive failure	-	09/1976
Z	No grade submitted by the instructor – a temporary grade which is assigned by the registrar pending receipt of the final grade from the instructor	-	05/2018

The complete memorandum for the CUNY Uniform Grade Glossary, Policies, and Guidelines may be **found here.**

Undergraduate Grading Systems and Related Policies

F Repeat Policy

F Repeat Policy

When an undergraduate student receives the earned academic grade of “F” or an administrative failing grade, and the student subsequently retakes that course and receives a grade of “C-” (at the same institution) or better, the initial “F” will no longer be computed into the Grade Point Average (GPA). The “F” will remain on the transcript. The number of failing credits that can be deleted from the GPA shall be limited to 16 for the duration of the student’s undergraduate enrollment in the institutions of the City University of New York. This policy shall be effective September 1, 1990, at all colleges of the City University of New York. Students replacing grades of “F” earned before September 1st, 1984, must receive the approval of the appropriate faculty committee.

1. This policy is applicable only to grades of “F” and to those administrative grades that cause zero quality points to be averaged into the calculation of the cumulative GPA: F, WU, and FIN. *As of Fall 2021, WU grades no longer carry a punitive impact on a student’s GPA*
2. In order for a grade of “C-” or better to replace a grade of “F” in the calculation of the cumulative GPA, repetition of the course must take place at the same college where the failing grade was originally received.
3. A failing grade may not be partially deleted from the calculation of the cumulative GPA. (For example, if a student has used 14 credits of the 16-credit limit and subsequently earns a grade of “C-” or better to replace a failing grade in a 3-credit course, the original “F” grade will continue to be calculated in the cumulative GPA; however, if that student subsequently earns a grade of “C-” or better to replace a failing grade in a 2-credit course, the original “F” may be deleted from the calculation of the cumulative GPA).
4. Whether a student remains at a single college or transfers from one CUNY college to another, no more than 16 credits of failing grades may be replaced in the calculation of their cumulative GPA.
5. If a student has received two or more “F”s for the same course and subsequently earns a “C-” or better, the initial “F”s will, subject to the 16-credit limit, be deleted from the calculation of the cumulative GPA, and the total number of credits of “F” deleted will be charged against the 16-credit limit.
6. When a student, by choice, has taken a course on a pass/fail basis and earned an “F” for that course, the student must subsequently receive a grade within the range of “C-” to “A” in order for the initial “F” to be deleted form the calculation of the cumulative GPA.
7. When course numbers or titles have changed in the period between the student’s earning the initial “F” and repeating the course, but the content of the course remains the same, routine campus procedures should be followed for deleting the “F” from the calculation of the cumulative GPA. When course content has changed (as indicated in the Bulletin) in the period between earning the initial “F” and repeating the course, or when students have been permitted to substitute an equivalent course for the one originally failed, the declaration of course equivalency for the purpose of deleting the “F” from the cumulative GPA will be at the discretion of the appropriate departmental or college committee.

The complete memorandum for the CUNY Uniform Grade Glossary, Policies, and Guidelines may be **found here.**

Undergraduate Grading Systems and Related Policies

Final Examinations

Final Examinations

Final examinations for the term should be given in accordance with the timetable provided by the Office of the Registrar. A make-up exam date will be scheduled every term. The instructor must report the student's final grade in the course to the Office of the Registrar no later than the date advertised in the term Academic Calendar. Kindly visit our website at **http://www.lehman.cuny.edu/registrar/calendars.php** for all up-to-date Academic Calendars.

Undergraduate Grading Systems and Related Policies

Grade Appeals

Grade Appeals

Students dissatisfied with a grade received in a course should first consult the instructor involved. It is the instructor's sole judgment that determines the grade recorded in the Office of the Registrar. The instructor's first judgment is always taken. Second and later judgments resulting from personal appeals and hardship claims are never honored. Occasional errors do occur, and these are always corrected promptly when properly certified by the instructor to the Office of Academic Standards and Evaluation.

Undergraduate Grading Systems and Related Policies

Grade Glossary

Grade Glossary

The following glossary of uniform grading symbols shall be employed according to the interpretation provided below. Grades are assigned based on the definitions contained herein. Individual units of the University need not employ all symbols but must adhere to the following interpretation for those employed and may not use any symbol that is not included in the glossary. Quality points are to be used to calculate the grade point average (GPA) or index. A dash “--” indicates that the grade does not carry a numerical value and is not to be included in the GPA. Plus (“+”) and minus (“-”) grades shall be interpreted as equivalent to “+0.3” and “-0.3”, except as noted.

Grade	Explanation	Quality Points
A+	Exceptional	4.00
A	Excellent	4.00
A-	Excellent	3.70
AUD	Auditor, Listener	-
B+	Good	3.30
B	Good	3.00
B-	Good	2.70
C+	Satisfactory	2.30
C	Satisfactory	2.00
C-	Satisfactory	1.70
CR	Credit Earned	-
D+	Passing	1.30
D	Passing	1.00
D-	Passing	0.70
F	Failure/Unsuccessful Completion of Course	0.00
FIN	F from incomplete. *To be used when INC grade lapses to an F grade*	0.00
H	Honor. Hunter College School of Social Work only	-
INC	Term's work incomplete (temporary grade)	-
NC	No credit granted	-
NRP	No Record of Progress. Exclusive to Dissertation Supervision at the Graduate Center Only	-
P	Pass	-
PEN	Grade pending (temporary grade)	-
R	Course must be repeated; minimum level of proficient not attained. *Restricted to noncredit, remedial, and to developmental courses*	-
S	Satisfactory	-
SP	Satisfactory progress. *Restricted to thesis and research courses requiring more than one semester for completion (temporary grade)*	-
U	Unsatisfactory	0.00
W	Withdrew. *Student participated in an academically related activity at least once*	-
WA	Administrative Withdrawal. *Non-punitive grade assigned to students who had registered for classes at the beginning of the term but did not provide proof of immunization by compliance date*. Student participated in an academically related activity at least once	-
WD	Withdrew Drop (Dropped after FA cert date during the program adjustment period. Student participated in an academically related activity at least once)	-
WN	Never participated in an academically related activity	-
WU	**Withdrew Unofficially. Student participated at least once in an academically related activity**	-
Y	Year or longer course of study must continue to completion (temporary grade)	-

The complete memorandum for the CUNY Uniform Grade Glossary, Policies, and Guidelines may be **found here.**

Undergraduate Grading Systems and Related Policies

Incomplete Courses

Incomplete Courses

For an instructor to grant an INC, the student must have met the instructor's attendance requirements in the course and have a passing semester average. The INC grade covers any failure to complete all requirements for a course, such as submitting a paper or taking a final examination. The grade of INC is awarded only when the course requirement has not been completed for good and sufficient reasons and when there is a reasonable expectation that the student can successfully complete the requirements of the course. The student must complete the missing work by the **end of the 14th week of the following semester** and the instructor has to the end of the term to submit the eGrade Correction. However, if the student is eligible and has applied for graduation, the eGrade Correction must be submitted prior to the term conferral date. If the instructor is not available, the student must consult with the department chair. INC grades not completed by the deadline will become a grade of "FIN."

Undergraduate Grading Systems and Related Policies

Index Computation Formula

Index Computation Formula

To learn to compute the cumulative index, assume that the accompanying table represents grades earned and proceed as follows:

1. Multiply the total number of credits for each grade by the quality points assigned to that grade and total the product obtained.
2. Total the number of credits attempted.

3. Divide the results obtained in Item One by the result obtained in Item Two. This number becomes the Lehman College cumulative index. The index must be computed to three decimal places. (See the accompanying table.)
4.

Grade Symbols		**Quality Points**
A	Excellent	4.0
A-		3.7
B+	Good	3.3
B		3.0
B-		2.7
C+	Satisfactory	2.3
C		2.0
C-		1.7
D+*	Poor	1.3
D*		1.0
F*****	Failure	0.0
P	Pass	-
NC**	No Credit	-
NP	No Pass	-
R**	Course must be repeated until minimum level of proficiency is attained	-
INC***	Incomplete	-
FIN	An incomplete that has been turned to an F	0.0
W	Withdrawal without Penalty	-
WD	Withdrawal Drop	-
WN	Never Attended	0.0
WU****	Unofficial Withdrawal	0
WF	Withdrawal with Penalty	0
AUD	Audited Course	-
Z	Registrar's grade when a grade sheet has not been submitted by the instructor	-
#	Repeat for better grade, removed from index	-
&	Repeat for better grade, remains in index	-
*	Repeat/Repeat of transfer credit/No credit when credit earned in XXX999	-

* Students, if they wish, may repeat, one time only, courses in which they have earned D grades. The D grade will stand, and the new grade will be averaged in the cumulative index, but the course will be credited only once.

**Undergraduate students may remove up to 16 credits worth of F penalty grades from their Grade Point Average by repeating the course in which the penalty grade was received and earned a grade of C- or better as long as the original penalty grade was earned in the Fall 1984 or thereafter and the course was repeated in the Fall 1990 or thereafter. The original F penalty grade remains on the transcript. If students repeat course(s) in which they have received a grade of C- or higher, the repeated course(s) will neither be credited nor counted in the students' total earned credits or cumulative indices.

*** The NC and the R are earned academic grades for courses in which the use of these grades have been approved. The NC or the R grade is given when a student has completed a course, but has not earned a minimum grade of C. In order to receive credit for a course in which an NC or an R grade has been earned, a student must retake and satisfactorily complete the course.

**** An Incomplete grade is turned to an FIN when the work has not been satisfactorily completed within the established deadline.

*****A grade of **WN** denotes that the student “NEVER ATTENDED.” The grade **WN** was issued as per “COA” (Commencement of Attendance Rosters) submitted by the faculty after the end of the third week of classes.

****** WU grades- Faculty may assign the grade of **WU** if the student attended at least once. This grade may be assigned to a student that “unofficially withdrew” (stopped attending; work performance cannot be evaluated to **EARN** a grade).

******* An F grade is a failure grade given to a student who completed the class and failed. This grade is assigned for work that in the judgment of the instructor does not deserve college credit.

Grade	Quality Points		Credits Attempted		Quality Points
A	4.0	x	6	=	24.0
A-	3.7	x	4	=	14.8
B+	3.3	x	3	=	9.9
B	3.0	x	2	=	6.0
B-	2.7	x	5	=	13.5
C+	2.3	x	3	=	6.9
C	2.0	x	2	=	4.0
C-	1.7	x	4	=	6.8

D	1.0	x	3	=	3.0
F, WF, or WU	0.0	x	6	=	0.0
			41		92.8

Number of credits taken = 41

Division of 92.8 (sum of quality points) by 41 = 2.26 (index)

Undergraduate Grading Systems and Related Policies

Pass/No Credit Option

Pass/No Credit Option

Students may elect P/NC grades for a maximum of 12 credits in their degree program under the following conditions:

1. The course for P/NC must be outside (a) the General Education requirements, (b) the Major, Minor, or Interdisciplinary program, (c) Certification/Licensing requirements, (d) and the courses offered by Lehman's Teacher Education departments, except for those education courses that have Pass/Fail or Pass/No Credit grading basis.
2. Up to two P/NC courses may be elected in any semester, with the exception for those courses that have a P/F grading basis.
3. The P/NC choice may not be changed after the end of Week 7 (and is allowed in Fall/Spring semesters only).
4. Advising is mandatory for students opting into the P/NC policy; only advisors can make the selection and begin a workflow that will be verified by Financial Aid as well.
5. This policy only applies to courses taken at Lehman College by the student.

WU and F Grades Policy

WU and F Grades Policy

A withdrawal after the financial aid certification date or program adjustment period is assigned the grade of “WD” (Dropped) or “WN” (Never Participated), or “W” (Withdrew) or “WU” (Withdrew Unofficially). Currently WD, W, WN are not academically punitive grade i.e., these grades do not impact student GPA. For Title IV purpose University uses our Grading policy for compliance with R2T4 regulations.

Effective Fall 2021, the WU grade will not have punitive impact on a student’s GPA. The WU grade will continue to be used to denote Unofficial Withdrawal. This Policy shall supersede and override all undergraduate and graduate program-level grading change policies currently in effect at CUNY colleges and schools.

If a student wishes to receive credit for a course in which a WU grade was received, it must be repeated with a passing grade of a C- or higher; however, the "WU" grade remains on the transcript.

A grade of "F" is a failure grade given to a student who completed the class and failed. This grade is assigned for work that in the judgment of the instructor does not deserve college credit. This grade is calculated in the GPA as zero and no credit will be earned. If a student wishes to receive credit for the course, it must be repeated with a passing grade of C- or higher; however, the "F" grade remains on the transcript.

The complete memorandum for the CUNY Uniform Grade Glossary, Policies, and Guidelines may be **found here.**

Academic Integrity

While honest scholarship is time-consuming and often requires hard work, it is also the primary process by which students learn to think for themselves. Faculty members must teach respect for methods of inquiry within the various disciplines and make assignments that will encourage honest scholarship; students in turn must uphold a standard of honesty within the College, thereby affirming the value and integrity of their Lehman degree. The following definitions and procedures govern cases involving undergraduate student work.

Academic dishonesty is prohibited in The City University of New York. Penalties for academic dishonesty include academic sanctions, such as failing or otherwise reduced grades, and/or disciplinary sanctions, including suspension or expulsion.

Definitions and examples of academic dishonesty

1. **Cheating** is the unauthorized use or attempted use of material, information, notes, study aids, devices, artificial intelligence (AI) systems, or communication during an academic exercise. Example of cheating include:

· Copying from another person or from a generative AI system or allowing others to copy work submitted for credit or a grade. This includes uploading work or submitting class assignments or exams to third party platforms and websites beyond those assigned for the class, such as commercial homework aggregators, without the proper authorization of a professor. Any use of generative AI tools must be in line with the usage policy for specific assignments as defined in the course of the syllabus and/or communicated by the course instructor.

· Using artificial intelligence tools to generate content for assignments or exams, including but not limited to language models or code generators, without written authorization from the instructor.

· Unauthorized collaboration on assignments or examinations.

· Taking an examination or completing an assignment for another person or asking or allowing someone else to take an examination or complete an assignment for you, including exams taken on a home computer.

· Submitting content generated by another person or an AI tool or any other source as solely your own work as your own, including, but not limited to, material obtained in whole or in part from commercial study or homework help websites, or content generated or altered by AI or digital paraphrasing tools without proper citation.

· Fabricating and/or falsifying data (in whole or in part).

· Giving assistance to acts of academic misconduct/dishonesty.

· Altering a response on a previously graded exam or assignment and then attempting to return it for more credit or a higher grade without permission from the instructor.

· Submitting substantial portions of a paper or assignment to more than one course for credit without permission from each instructor.

· Unauthorized use during an examination of notes, prepared answers, or any electronic devices such as cell phones, computers, smart watches, or other technologies to copy, retrieve, generate or send information.

1. **Plagiarism** is the act of presenting ideas, research or writing that is not your own as your own. Examples of plagiarism include:

· Copying another person's or an AI tool's actual words or images without the use of quotation marks and citations attributing the words to their source.

· Presenting another person's ideas or theories in your own words without acknowledging the source.

· Failing to acknowledge collaborators on homework and laboratory assignments.

· Internet plagiarism, including submitting downloaded term papers or parts of term papers, paraphrasing or copying information from the internet without citing the source, or "cutting & pasting" from various sources without proper attribution.

· Unauthorized use of AI-generated content; or use of AI-generated content, whether in whole or in part, even when paraphrased, without citing the AI as the source.

1. **Obtaining Unfair Advantage** is any action taken by a student that gives that student an unfair advantage in his/her academic work over another student, or an action taken by a student through which a student attempts to gain an unfair advantage in his or her academic work over another student. Examples of obtaining unfair advantage include:

Intentionally obstructing or interfering with another student's work.

· Stealing, reproducing, circulating or otherwise gaining advance access to examination materials.

· Depriving other students of access to library materials by stealing, destroying, defacing, or concealing them.

· Retaining, using or circulating examination materials which clearly indicate that they should be returned at the end of the exam.

1. **Falsification of Records and Official Documents**

Examples of falsification include:

· Forging signatures of authorization.

· Falsifying information on an official academic record.

· Falsifying information on an official document such as a grade report, letter of permission, drop/add form, ID card, or other college document.

· Falsifying medical documentation that has a bearing on campus access or the excuse of absences or missed examinations and assignments.

Thereafter, a faculty member who concludes that there has been an incident of academic dishonesty sufficient to affect the student's final course grade shall report such incident on a Faculty Report Form which is attached to this Policy and shall submit the Form to the college's Academic Integrity Officer who is Dr. Conrad Walker, Assistant Vice President, Student Affairs & Dean of Students. His office is in Shuster Hall room 204 and he can be reached at 718-960-8242, **Conrad.Walker@lehman.cuny.edu**.

The Academic Integrity Officer shall update the Faculty Report Form after a suspected incident has been resolved to reflect that resolution. Unless the resolution exonerates the student, as described in Section 4.4, the Academic Integrity Officer shall place the Form in a confidential academic integrity file created for each student alleged to have violated the Academic Integrity Policy and shall retain each Form for the purposes of identifying repeat offenders, gathering data, and assessing and reviewing policies. Unless the student is exonerated, written decisions on academic integrity matters after adjudication also shall be placed in the student's academic integrity file. The Academic Integrity Officer shall be responsible for maintaining students' academic integrity files.

Procedures for Imposition of Sanctions

Determination on academic vs. disciplinary sanction

The Academic Integrity Officer shall determine whether to seek a disciplinary sanction in addition to an academic sanction. In making this determination, the Academic Integrity Officer shall consult with the faculty member who initiated the case and may consult with student affairs and/or academic affairs administrators as needed. Before determining which sanction(s) to seek, the Academic Integrity Officer also shall consult the student's confidential academic integrity file, if any, to determine whether the student has been found to have previously committed a violation of the Academic Integrity Policy, the nature of the infraction, and the sanction imposed or action taken. Prior violations include both violations at the student's current college and violations that occurred at any other CUNY college. In making the determination on prior violations, the Academic Integrity Officer .shall determine whether the student previously attended any other CUNY colleges and, if so, shall request and be given access to the academic integrity files, if any, at such other CUNY colleges.

The Academic Integrity Officer should seek disciplinary sanctions only if (i) there is a substantial violation; or (ii) the student has previously violated the Policy; or (iii) academic sanctions are unable to be imposed because the student has timely withdrawn from the applicable course. Examples of substantial violations include but are not limited to forging a grade form or a transcript; stealing an examination from a professor or a university office; having a substitute take an examination or taking an examination for someone else; having someone else write a paper for the student or writing a paper for another student; sabotaging another student's work through actions that prevent or impede the other student from successfully completing an assignment; and violations committed by a graduate or professional student or a student who will seek professional licensure. The college also should consider any mitigating circumstances in making this determination.

Procedures in Cases Involving Only Academic Sanctions

Student Admits to the Academic Dishonesty and Does Not Contest the Academic Sanction

If a faculty member wishes to seek only an academic sanction (i.e., a reduced grade) and the student does not contest either his/her guilt or the particular reduced grade the faculty member has chosen, then the student shall be given the reduced grade, unless the Academic Integrity Officer decides to seek a disciplinary sanction. The reduced grade may apply to the particular assignment as to which the violation occurred or to the course grade, at the faculty member's discretion. A reduced grade may be an "F" or another grade that is lower than the grade that the student would have earned but for the violation.

The faculty member shall inform the Academic Integrity Officer of the resolution via email and the Officer shall update the applicable Faculty Report Form to reflect that resolution.

Student Admits to the Academic Dishonesty but Contests the Academic Sanction

In a case where a student admits to the alleged academic dishonesty but contests the particular academic sanction imposed, the student may appeal the academic sanction through the college's grade appeal process. The student shall be allowed, at a minimum, an opportunity to present a written position with supporting evidence. The committee reviewing the appeal shall issue a written decision explaining the justification for the academic sanction imposed.

Student Denies the Academic Dishonesty

In a case where a student denies the academic dishonesty, a fact-finding determination shall be made, by the Student-Faculty Disciplinary Committee established under Article XV of the CUNY Bylaws. The Student-Faculty Disciplinary Committee shall issue written decisions and send copies of their decisions to the college's Academic Integrity Officer. The Academic Integrity Officer may not serve on a college's Academic Integrity Committee.

Procedures in Cases Involving Disciplinary Sanctions

If the college decides to seek a disciplinary sanction, the case shall be processed under Article XV of the CUNY Bylaws. If the case is not resolved through mediation under Article XV, it shall be heard by the college's Faculty-Student Disciplinary Committee.

If the college seeks to have both a disciplinary and an academic sanction imposed, the college shall proceed first with the disciplinary proceeding and await its outcome before addressing the academic sanction. The student's grade shall be held in abeyance by using the PEN grade established for this purpose, pending the Committee's action. If the Faculty-Student Disciplinary Committee finds that the alleged violation occurred, then the faculty member may reflect that finding in the student's grade. The student may appeal the finding in accordance with Article XV procedures and/or may appeal the grade imposed by the faculty member in accordance with section 4.2.2. If the Faculty-Student Disciplinary Committee finds that the alleged violation did not occur, then no sanction of any kind may be imposed.

Where a matter proceeds to the Faculty-Student Disciplinary Committee, the Academic Integrity Officer shall promptly report its resolution to the faculty member and file a record of the resolution in the student's confidential academic integrity file, unless, as explained below, the suspected violation was held to be unfounded.

Required Action in Cases of No Violation

If the Faculty-Student Disciplinary Committee finds that no violation occurred, the Academic Integrity Officer shall remove all material relating to that incident from the student's confidential academic integrity. file and destroy the material.

Faculty Report Form

It is necessary to complete the following form to report an incident of suspected and/or resolved academic dishonesty: **https://lehman-cuny-advocate.symplicity.com/public_report/index.php/pid718553?rep_type=1001**. You should also make a copy for your records and submit your report to the Dean of Students, Dr. Conrad Walker. Dr. Walker can also be reached in Shuster Hall 204, email: **conrad.walker@lehman.cuny.edu**, ph: 718.960.8242.

Academic Standards Policy

Students are expected to achieve and maintain a minimum GPA requirement during their enrollment at Lehman College. In order to remain in good academic standing, students must attain a minimum GPA of 1.5 for the first 12 attempted credits, 1.75 for the first 24 attempted credits, and a 2.0 cumulative GPA thereafter.

Total number of credits attempted include all indexable grades (A-F and FIN) as well as CR, INC, NC, P, R, W, WA, WD, WF, WN, WU*, and all transfer credits.

*WU grades earned prior to Fall ’21 are punitive indexable credits that negatively impact the GPA

Total Credits Attempted	Minimum Lehman College Cumulative GPA
0-12	1.5
>12-24	1.75
>24	2.00

Students who fail to meet the required cumulative GPA are automatically placed on academic warning for the following semester. During the academic warning semester, students may register without credit restriction.

Students who do not meet the required cumulative GPA by the end of the academic warning semester will be placed on either full-time or part-time probation for the following semester. The determination of full-time or part-time probation status is based on students’ performance during the academic warning semester:

- Full-Time Probation: Cumulative GPA <2.0, term index > 2.3
- Part-Time Probation: Cumulative GPA <2.0, term index < 2.3

In order to regain good academic standing, students must meet the required cumulative GPA by the end of a probation semester.

- Students on full-time probation who do not meet the required cumulative GPA but who meet the required term index (2.3) will remain on full-time probation for the following semester.
- Students on full-time probation who do not meet either the required cumulative GPA or the required term index (2.3) will be placed on part-time probation for the following semester.
- Students on part-time probation who do not meet the required cumulative GPA but who meet the required term index (2.3) will remain on part-time probation for the following semester.
- Students on part-time probation who do not meet either the required cumulative GPA or the required term index (2.3) will be dismissed.

Students who are dismissed will not be permitted to continue their studies at Lehman College for a minimum of one semester and will be dropped from the following semester courses (not including winter or summer session courses). Students will be permitted to enroll for the winter or summer sessions immediately following their dismissal in an attempt to regain good academic standing. Students who choose to enroll for the winter or summer sessions will not have their courses dropped until five business days prior to the start of the upcoming semester.

Students may appeal their dismissal to the Committee on Admission and Standing for consideration of readmission. Dismissed students may only be readmitted for the Fall or Spring semesters and must successfully complete an assigned and approved academic intervention prior to their return.

Dismissed students who have met the readmission conditions will be placed on a parttime probation status (maximum of 8 credits). Students will be required to maintain the minimum term index of 2.3 for every semester thereafter until they regain good academic standing. Students who fail to meet the 2.3 term index will be placed on final dismissal. Students placed on final dismissal are subject to the readmission in accordance with the Lehman College Fresh Start policy.

This new academic standing policy will take effect as of the Fall ’23 semester and will impact students on academic warning as of that semester. Students whose academic standing was determined under the prior policy will remain under its terms until they either regain good academic standing or are dismissed.

The Fresh Start Program

The Fresh Start Program offers eligible undergraduate students seeking readmission to Lehman College the opportunity to begin their GPA anew. Under the policy, students will have their previous Lehman College coursework no longer included in the computation of their grade point average.

Eligible students must have earned no more than 60 indexable credits during their initial enrollment at the College, must have a Lehman GPA below a 2.0, and must not have previously been granted a Fresh Start.

In order to apply, the student must also meet one of the following requirements:

• Completion of an associate’s degree; or

• Completion of 45 credits at an accredited institution following their initial enrollment at the College with a minimum GPA of 2.5; or

• Non-attendance in any college or university for 5 or more years.

Terms of the policy:

• Students must submit a Fresh Start appeal along with supplemental materials to be considered for a Fresh Start.

• Eligibility for Fresh Start is at the discretion of the Appeals Committee, housed within the Office of Academic Standards and Evaluation. Decisions are final and may not be appealed.

• Students granted a Fresh Start will be readmitted to the college under the Adult Degree Program (ADP) and must adhere to the Fresh Start Policy Contract.

• Prior to registration, students must review this contract with an ADP advisor and agree to meet with their advisor at least once per semester.

• Upon the Fresh Start being applied, all previously earned grades will be removed from the calculation of the index and will be converted to Pass/No Credit grades. A notation will indicate both a students’ enrollment in the Fresh Start Policy and previous grades earned.

• Fresh Start Policy participants must comply with all graduation requirements, including residency requirements and completion of major courses with a passing letter grade. Grades of Pass (P) do not count towards major or minor requirements.

• There is no Fresh Start for financial aid. All financial aid utilized previously will continue to contribute towards the lifetime eligibility usage and will not reset.

• Students who fail to meet the academic standards of the College following their Fresh Start will be subject to the policies governing dismissal as outlined in the undergraduate College Bulletin.

Graduation Requirements

To qualify for graduation with a Lehman College baccalaureate degree, students must complete the following requirements:

1. completion of at least 120 credits, including all degree requirements;
2. completion of at least 30 credits in coursework at Lehman, including at least half the number of credits in the student's major and half in the minor or half of the credits in an interdisciplinary program;
3. a minimum Lehman College cumulative index of 2.0; and
4. either a minimum grade of C or an overall index of 2.0 in all courses taken in the major and minor departments or in an interdisciplinary program.

The Undergraduate General Education Curriculum

Lehman College offers undergraduates the opportunity to deepen their self-knowledge and their understanding of the world by engaging in a thorough study of the liberal arts and sciences. The Undergraduate General Education Curriculum is a structured program of courses designed to provide training in a range of essential skills as well as a broad understanding of the achievements and methods of the liberal arts and sciences, all of which allow informed inquiry into subjects of both public and personal concern.

The curriculum requires a series of courses in writing, mathematics, foreign language, and natural science. Students must also complete courses from a list of Distribution areas. These Distribution areas are different, depending on whether they belong to the **Pre-2013** or the **CUNY 2013 (Pathways) Programs** (see the Navigation Links at the side). In addition, students must complete two upper-division interdisciplinary courses, **LEH 351**-**LEH 355**, chosen from five areas: **Scientific and Applied Perspectives, Literature, the Arts, Historical Studies, and Philosophy, Theory and Abstract Thinking.** Of these upper-division courses students receive General Education credit for taking two of the four that are not in their chosen major. To develop writing skills, students must complete four course sections designated as writing-intensive.

Opting in or out of Pathways

- Students who enter Lehman in Fall 2013 or thereafter, either as first-time freshmen or as transfer students from another CUNY college or from a non-CUNY college, will automatically be enrolled in the Pathways curriculum.
- Students who first enrolled at Lehman before Fall 2013, stop out for more than one semester, and reenroll in Fall 2013 or later will be required to follow the Pathways curriculum. However, such students who completed the prior general education curriculum in its entirety will not be subject to any of the Pathways general education requirements.
- Students who reenroll, as well as any other students who feel they need to complete additional requirements under the new curriculum due to their particular course histories, may petition for a variance to continue to be held to the general education requirements that were in effect before Fall 2013.
- Continuing students may choose to opt in to the Pathways curriculum.

Detailed information on the requirements of the General Education Curriculum can be found in this section of the Bulletin, under the headings "**2013 CUNY General Education Program (Pathways)**" and "**Pre-2013 General Education Program**."

Pre 2013 General Education Program (Required Courses)

Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

General Education includes subjects comprising the shared intellectual heritage of our diverse culture. It teaches critical thinking and encourages accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who entered Lehman College before the fall 2013 semester must meet the Pre-2013 General Education Requirements. There are four categories of required courses: Foundation, Distribution, Integration, and Writing Intensive. For a list of the Pre-2013 General Education courses in each category, select the links in the navigation panel.

Foundation Courses

The Foundation Courses comprise requirements in English Composition (6 credits), Mathematics (3-4 credits), Natural Science (8-10 credits), and Foreign Language (3-9 credits).

English Composition Requirement (6 Credits)

All students must successfully complete a six-credit sequence in English composition (ENG111 English Composition I-ENG121 English Composition II). Every student should enroll in an English composition course each semester until ENG121 English Composition II is passed. Students who are placed in English as a Second Language courses must complete these courses before taking English Composition. Entering students who have completed equivalent English composition coursework will be placed in the appropriate course by the English Department.

Mathematics Requirement (3-4 Credits)

Unless exempted, all students are required to successfully complete one three- or four-credit college-level mathematics course numbered 125 or higher, or three one-credit mathematics courses numbered between 180 and 199.

Natural Science Requirement (8-10 Credits)

All students are required to successfully complete two courses in laboratory science from a specified list. The list of approved courses is available from the Academic Information and Advisement Center (Shuster Hall, Room 280) and in the Schedule of Classes distributed prior to registration each semester. The following list is approved for the Fall 2013 semester, and may change for subsequent semesters:

Foreign Language Requirement (3-9 Credits)

Students with no more than one year of high school credit in a foreign language are required to take a sequence of two language courses for nine credits at the 100 level or the equivalent three-course sequence for nine credits.

Students with more than one year of high school credit in a foreign language may fulfill the requirement with one of the following options:

According to placement by the Languages and Literatures Department, either:

- successfully complete one 200- or 300-level foreign language course;
- successfully complete the final course of a 100-level sequence; or
- successfully complete a sequence of two courses for a total of nine credits at the 100 level in a new language, or the equivalent three-course sequence.

Students for whom English is a second language may fulfill the requirement by:

- successfully completing two courses in ESL at the ESL103 Eng As 2nd Lang-Int. level or above;
- after placement by the Languages and Literatures Department, successfully completing one course at the 200 or 300 level in the native language; or
- successfully completing two courses for a total of 9 credits in a new language at the 100 level, or the equivalent three-course sequence.

Transfer students who have completed a year of foreign language study at the college level have satisfied the language requirement.

Distribution Courses (7 Courses, 21 Credits)

Every student must complete successfully one course from a specified list in each of the seven areas listed below. The list of approved courses is available at the Academic Information and Advisement Center (Shuster Hall, Room 280) and in the Schedule of Classes, distributed prior to registration each semester. (The list of Distribution Courses is approved each year. The following list is approved for the Fall 2013 semester and may change for subsequent semesters.) No more than two courses from the same department may be used to satisfy the Distribution Requirement.

Integration Courses (2 Courses, 6 Credits)

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two different LEH courses in topics outside their major from four of the following five courses. The restrictions for each course are provided in Note 2 for each course. (Students who completed LEH100 Freshman Seminar, LEH101 The Liberal Arts, or LEH110 The Liberal Arts prior to Fall 2008 may substitute this course for one of the LEH351 Stds Scientific&App Perspec-LEH355 Stds Philo,Theory & Abst Think requirements.) Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

LEH351 Stds Scientific&App Perspec. Studies in Scientific and Applied Perspectives. *3 hours, 3 credits* (may be repeated for credit with a different topic). Selected topics in the social sciences, life and physical sciences and applied perspectives. PREREQ: official selection of a major and either completion of 60 General Education credits or an Associate's Degree.

NOTE 1: In general, students should expect writing assignments and computer –based work along with research involving the library and the Internet.

NOTE 2: This course grants general education credit towards graduation for students in all major concentrations except Accounting, Anthropology, Anthropology (interdisciplinary concentration), Biology, Business Administration, Chemistry, Computer Graphics and Imaging, Computer Information Systems, Computer Science, Dietetics, Food, and Nutrition, Economics, Exercise Science, Geography, Health Education and Promotion, Health Education N-12, Health Services Administration, Italian American Studies, Mathematics, Nursing, Physics, Political Science, Psychology, Recreation Education, Social Work, Sociology, Speech Pathology and Audiology.

LEH352 Studies in Literature .Studies in Literature. *3 hours, 3 credits* (may be repeated for credit with a different topic). Selected topics in literature. PREREQ: official selection of a major and either completion of 60 General Education credits or an Associate's Degree.

NOTE 1: In general, students should expect writing assignments and computer –based work along with research involving the library and the Internet.

NOTE 2: This course grants general education credit towards graduation for students in all major concentrations except Comparative Literature, English, French, Italian, Latin, and Spanish.

LEH353 Studies in the Arts Studies in the Arts. *3 hours, 3 credits* (may be repeated for credit with a different topic). Selected topics in the arts. PREREQ: official selection of a major and either completion of 60 General Education credits or an Associate's Degree.

NOTE 1: In general, students should expect writing assignments and computer –based work along with research involving the library and the Internet.

NOTE 2: This course grants general education credit towards graduation for students in all major concentrations except Art, Dance, and Music.

LEH354 Studies in Historical Studies Studies in Historical Studies. *3 hours, 3 credits* (may be repeated for credit with a different topic). Selected topics in historical studies. PREREQ: official selection of a major and either completion of 60 General Education credits or an Associate's Degree.

NOTE 1: In general, students should expect writing assignments and computer –based work along with research involving the library and the Internet.

NOTE 2: This course grants general education credit towards graduation for students in all major concentrations except Africana Studies, History, Latin American and Caribbean Studies, Latino Studies.

LEH355 Stds Philo,Theory & Abst Think. Studies in Philosophy, Theory and Abstract Thinking. *3 hours, 3 credits* (may be repeated for credit with a different topic). Selected topics in philosophy, theory and abstract thinking. PREREQ: official selection of a major and either completion of 60 General Education credits or an Associate's Degree.

NOTE 1: In general, students should expect writing assignments and computer –based work along with research involving the library and the Internet.

NOTE 2: This course grants general education credit towards graduation for students in all major concentrations except Philosophy.

College Writing Requirement (4 Course Sections)

Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

2013 CUNY General Education Program (Pathways): Required Courses

Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Foundation Courses (6 Courses, 18-21 Credits)

Foundation courses include CUNY's Required Common Core plus Foreign Language in CUNY's College Option.

The Foundation Courses comprise requirements in **English Composition (6 credits), Mathematical and Quantitative Reasoning (3-4 credits), a Lab Science: Life and Physical Science (3 credits), and Foreign Language (6 credits)**. Students may substitute STEM variants for the mathematics and science courses.

English Composition Requirement (6 Credits)

All students must successfully complete a six-credit sequence in English composition (ENG111 English Composition I-ENG121 English Composition II). Honors students complete (ENG113 Honors English Composition I-ENG123 Honors English Composition II). Every student should enroll in an English composition course each semester until ENG121 English Composition II is passed. Students who are placed in English as a Second Language courses must complete these courses before taking English Composition. Entering students who have completed equivalent English composition coursework will be placed in the appropriate course by the English Department.

Mathematical and Quantitative Reasoning Requirement (3-4 Credits)

All students are required to successfully complete either MAT126 Quantitative Reasoning: Quantitative Reasoning or MAT128 Foundations of Data Science: Foundations of Data Science. Students may substitute one of the mathematics courses in the list of STEM Variants.

Life and Physical Science Requirement (3-5 Credits)

All students are required to successfully complete one course in a laboratory science from the following list of courses.

		Credits
ANT120 Human Evolutionary Biology	Human Evolutionary Biology	3
AST102 Introduction to the Universe	Introduction to the Universe	3
BIO173 Concepts of Human Biology	Concepts of Human Biology	3
CHE137 Elements of Chemistry I	Elements of Chemistry I	3
CMP168 Programming Methods II	Programming Methods II	4
PHY131 Conceptual Physics	Conceptual Physics	3
PHY141 Sound, Speech and Music	Sound, Speech and Music	3
PHY151 Energy and the Environment	Energy and the Environment	3

CHE137 Elements of Chemistry I*: Has a Corequisite in Distribution Courses: Scientific World* CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants (see the left navigation panel access this list).

Foreign Language Requirement (6 Credits)

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course). The following courses comprise the Foreign Language Option:

		Credits

(These courses cannot also serve to meet Common Core requirements.)

Foreign Language Requirement Prior to Fall 2020

Distribution Courses (6 Courses, 18-20 Credits)

Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Area I: World Cultures and Global Issues (3 credits)

Integration Courses (2 Courses, 6 Credits)

Integration Courses are part of the College Option in CUNY General Education.

Students must complete TWO “LEH” (“L” “E” “H”) COURSES:

EITHER

LEH250 First-year Seminar and ONE course chosen from LEH 351, 352, 353, 354 or 355 that is outside of their major (see notes on each course).

OR

TWO different LEH courses chosen from LEH 351, 352, 353, 354 or 355 that are outside of their major (see notes on each course).

LEH courses are variable topics courses, in which each section covers a specific topic. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

LEH250 First-year Seminar: First-year Seminar. 3 hours, 3 credits. Selected topics in the social sciences, life and physical sciences, humanities or applied perspectives. Nature and value of the liberal arts and sciences, critical thinking within a disciplinary area, goals and objectives of General Education, technological tools for education, campus services and supports, and links between the disciplinary area and careers. Pre- requisite: Completion of 30 credits or fewer.

LEH 351-355: Students must select upper-division LEH courses (LEH 351, 352, 353, 354 or 355) that are outside of their major (see the notes below). Pre-requisite for all of the upper-division LEH courses: Completion of 45 credits or an Associate's Degree and an official declaration of major.

LEH351 Stds Scientific&App Perspec: Studies in Scientific and Applied Perspectives. *3 hours, 3 credits* (may be repeated for credit with a different topic). Selected topics in the social sciences, life and physical sciences and applied perspectives. Prerequisites: official selection of a major and either completion of 45 General Education credits or an Associate's Degree.

NOTE 1: In general, students should expect writing assignments and computer –based work along with research involving the library and the Internet.

NOTE 2: This course grants general education credit towards graduation for students in all major concentrations except Accounting, Anthropology, Anthropology, Biology, Biology Teacher Grades 7-12, Biology BS/MS Dual Degree, Chemistry, Biology, Business Administration, Chemistry, Computer Graphics and Imaging, Computer Information Systems, Computer Science, Dietetics, Foods, and Nutrition, Earth Science, Economics, Economics and Mathematics, Environmental Science, Exercise Science, Geography, Geology, Health Education and Promotion, Health Education N-12, Health Services Administration, Italian American Studies, Linguistics, Mathematics, Nursing, Physics, Political Science, Psychology, Recreation Education, Social Work, Sociology, Speech Pathology and Audiology, Therapeutic Recreation.

LEH352 Studies in Literature: Studies in Literature. *3 hours, 3 credits* (may be repeated for credit with a different topic). Selected topics in literature. Prerequisites: official selection of a major and either completion of 45 General Education credits or an Associate's Degree.

NOTE 1: In general, students should expect writing assignments and computer –based work along with research involving the library and the Internet.

NOTE 2: This course grants general education credit towards graduation for students in all major concentrations except Comparative Literature, English, French, French Teacher Education 7-12, Italian, Italian Teacher Education 7-12, Latin, Russian, Spanish and Spanish Teacher Education 7-12.

LEH353 Studies in the Arts: Studies in the Arts. *3 hours, 3 credits* (may be repeated for credit with a different topic). Selected topics in the arts. Prerequisites: official selection of a major and either completion of 45 General Education credits or an Associate's Degree.

NOTE 1: In general, students should expect writing assignments and computer –based work along with research involving the library and the Internet.

NOTE 2: This course grants general education credit towards graduation for students in all major concentrations except Art, Art History, Dance, Dance-Theatre, Film and Television Studies, Journalism, Media Communications Studies, Multimedia Performing Arts, Music, Theatre.

LEH354 Studies in Historical Studies: Studies in Historical Studies. *3 hours, 3 credits* (may be repeated for credit with a different topic). Selected topics in historical studies. Prerequisites: official selection of a major and either completion of 45 General Education credits or an Associate's Degree.

NOTE 1: In general, students should expect writing assignments and computer –based work along with research involving the library and the Internet.

NOTE 2: This course grants general education credit towards graduation for students in all major concentrations except Africana Studies, American Studies, History, History (Teacher Education), Latin American and Caribbean Studies, Latino Studies.

LEH355 Stds Philo,Theory & Abst Think: Studies in Philosophy, Theory and Abstract Thinking. *3 hours, 3 credits* (may be repeated for credit with a different topic). Selected topics in philosophy, theory and abstract thinking. Prerequisites: official selection of a major and either completion of 45 General Education credits or an Associate's Degree.

NOTE 1: In general, students should expect writing assignments and computer –based work along with research involving the library and the Internet.

NOTE 2: This course grants general education credit towards graduation for students in all major concentrations except Philosophy.

College Writing Requirement

Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

College Writing Requirement Prior to Spring 2020

STEM Variant Courses

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation), in Life and Physical Sciences (Foundation), or Scientific World (Distribution Courses). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

For Quantitative and Mathematical Reasoning

		Credits
CMP 232	Discrete Mathematics	4

Macaulay Honors College at Lehman

The Macaulay Honors College at Lehman College admitted its first class in September 2002. Member of the Honors College are designated "University Scholars." They receive full tuition, stipends, laptop computers, and an opportunities fund for academic enrichment experiences, such as study abroad. A "Cultural Passport" provides entree to concerts, the theater, museums, and other cultural institutions in New York City. Passport activities will also put students in contact with people active in many facets of city life, the arts, government, business, and science.

Criteria for selection include the student's high school academic record, SAT/ACT scores, an essay, two letters of recommendation, and an interview.

Students intending to apply for Macaulay must apply directly from high school; Macaulay does not accept transfers from any institution. Students wishing to apply should consult the Macaulay homepage through the CUNY Portal at ***www.cuny.edu*** and select "Apply Online." The curriculum of the Honors College is seminar based, and the program offers rich opportunities for academic enhancement and intellectual growth, supplemented by study abroad, internships, preparation for graduate school, and global engagement.

The Lehman Scholars Program

Academic Director: Dr. Maurice Vann (Library, Room 315A)

The Lehman Scholars Program (LSP) is designed for capable and highly motivated students who have the desire and ability to pursue a somewhat more independent liberal arts course of study as they complete their major and other general college requirements. The program offers the advantages of a small, intimate college that includes special seminars and academic counseling.

The Lehman Scholars Program offers the following special features:

-The LSP Seminars

Students take 4 honors seminars during their academic career. Seminars are limited to 18 or fewer students and are unique offerings from faculty across the departments. These seminars are not lectures and do not exist in the regular Undergraduate Bulletin. They are only offered inside of LSP and completely new seminars are offered each semester. These discussion-based courses provide the core of the LSP experience as all students participate actively in them.

These seminars additionally can be used to meet the Pathways flexible core requirements.

By taking these rewarding seminars, students are also exempt from General Education upper-division Integration Requirements (CUNY College Option, i.e. LEH300 Stdy in Humanites & Soc Sci courses).

Students will of course meet course prerequisites and requirements for their major.

Mentoring

-Each student entering the program will receive personalized advising and mentoring from one or more of the LSP faculty staff members. The mentor will advise the student in the areas of program planning and academic and career goals.

Other Special Programming Unique to LSP

-Students will take Honors versions of the required English Composition Courses, namely ENG113 (freshman year) and ENG123 Sophomore year. These can not be replaced by College Now courses or similar. Students who enter LSP after freshman year and who have taken ENG111 do not need to take 113 but must take ENG123 (honors), not ENG121.

-Two years of the same foreign language or its equivalent; students may opt to take one year and 2 additional LSP seminars.* Further exceptions may apply and can be discussed at the interview.

-Completion of a capstone project, begun in the second semester of junior year and submitted by November 1 or April 1 of the student's last semester (or semester of graduation).

Application Procedure: Students who have earned 45 or fewer college credits may apply for either September, June, or January admission. Send an email to Miguel Brito: **Miguel.brito1@lehman.cuny.edu** and copy Honors Director Alice Augustine: **alice.augustine@lehman.cuny.edu** to arrange for an interview with the LSP faculty. The application forms are emailed to candidates upon their request.

The Lehman Scholars Program Prior to Fall 2020

The Lehman Scholars Program Prior to Fall 2019

The Adult Degree Program (ADP)

The Adult Degree Program (ADP)

The Adult Degree Program (ADP) is designed for incoming Lehman students who are 24 years of age and older. ADP provides academic and student services designed especially to support returning adult students.

Both freshman and transfer students may apply for admission to Lehman College directly through the Adult Degree Program. Eligibility is determined via a holistic application process that includes consideration of prior academic history, length of time out of school, work history, and a written essay. Students who apply to Lehman College through main admissions and are denied, may reapply to Lehman through ADP. Likewise, accepted Lehman students and those who are readmitting may also apply for admission to ADP. Currently enrolled students who have completed more than two semesters, as well as those who have already earned a bachelor's degree, are not eligible for admission to ADP.

Adult Degree Program students must complete all Lehman General Education requirements and meet the minimum overall and major grade point average (GPA) required for graduation by the College. ADP students have some flexibility with the College Option that allows students additional choices to fulfill those requirements. ADP students may choose any major the College offers or create their own through the program's Bachelor of Liberal and Interdisciplinary Studies (BLIS).

More information about the Adult Degree Program can be found at lehman.edu/adult

Adult Degree Program Bachelor of Arts or Sciences in Liberal and Interdisciplinary Studies (BLIS)

The Bachelor of Arts or Sciences in Liberal and Interdisciplinary Studies (BLIS) is designed especially for returning adult students who may have a variety of academic interests, transfer credits, significant professional experience, and prefer to design a course of study that best reflects their future goals.

The major is 30-36 credits and has two required courses, IBA 301 and IBA 482. The remaining 24-30 credits of the major are chosen by the student as part of a proposal developed during IBA 301, in consultation with ADP faculty/advisors. The proposal must reflect a minimum of two or more disciplines and must be approved by the ADP faculty/advisors.

These are just a few examples of programs of study that BLIS students have designed:

- The Business of Theater (Business, Accounting, and Theater)
- Healthcare and Health Concerns in Communities of Color (Health Education, Latino Studies, Africana Studies)
- Cultural Reflections of Latina Women in Art (Art, Art History, Latino Studies)
- Professional Writing on Health and Healthcare (Health Education, Health Sciences, English Writing, Media Communication Studies, Journalism)
- Expressive Therapies (Art, Music, Dance, Exercise Science, Psychology, Recreation Education, Disability Studies, Theater)
- Non-profit Services for Children with Special Needs (Recreation Education, English Writing, Psychology, Disability Studies, Business, Accounting)

The major concludes with IBA 482, Capstone, in which the student creates a project, paper, or presentation about the focus of their studies.

More information about BLIS can be found in the undergraduate catalog. More information about ADP can be found at lehman.edu/adult

Bachelor of Arts-Master of Arts (B.A.-M.A.) Program

The Bachelor of Arts-Master of Arts (B.A.-M.A.) Program is an option for entering freshmen with superior academic backgrounds. Students may arrange with departments offering both the B.A. and M.A. a suitable course of study that, at the end of four years, will lead to simultaneous awarding of the degrees. To be eligible, entering freshmen must have high school averages of better than 90 and scores of at least 600 in the verbal and mathematics sections, respectively, of the Scholastic Aptitude Test. Matriculated students who wish to be considered must have achieved a cumulative index of at least 3.4 in no more than fifty-four earned credits. The B.A.-M.A. Program requires attendance in at least one Lehman College summer session, preferably between the junior and senior years or after completion of ninety credits.

Second Undergraduate Degree Program

Lehman College accepts candidates for a second undergraduate degree when specific professional purposes dictate the need and when the second degree represents preparation discrete from the preparation identified by the first bachelor's degree. Candidates must complete a minimum of thirty credits in residence (see the definition of residence credits under the heading of "**Credit Requirements**" later in this chapter) and must fulfill all the requirements for the new major and/or interdisciplinary program. Students must take the English Transfer Placement Exam and complete the College writing requirement as determined by that examination.

CUNY Baccalaureate Program

Lehman participates in the CUNY Baccalaureate Program, which allows students the opportunity to earn up to thirty credits through internship, research, or work experience (fifteen of which may be earned for prior work experience) and to take courses at other senior colleges within CUNY. For further information, consult the Academic Information and Advisement Center (Shuster Hall, Room 280).

Interdisciplinary and Interdepartmental Programs

Lehman offers students the opportunity to earn a bachelor's degree in one of these interdisciplinary or interdepartmental programs: Anthropology (Physical), Biology, and Chemistry; Comparative Literature; Computer Graphics & Imaging; Computer Information Systems; Economics and Mathematics; Environmental Science; Italian-American Studies; Latin American & Caribbean Studies; Linguistics and Multimedia Performing Arts. Interdisciplinary and interdepartmental courses are also offered in the Humanities, the Natural and Social Sciences, Urban Studies, Women's Studies, and World Classics.

Professional and Preprofessional Programs

Pre-Health

The Lehman College Office of Pre-Health Programs is designed to facilitate the successful transition of Lehman College undergraduate, graduate, and non-matriculated students to careers in the health professions. The health professions that are targeted include:

- Dentistry
- Genetic Counseling
- Medicine
- Occupational Therapy
- Optometry
- Pharmacy
- Physical Therapy
- Physician Assistant
- Veterinary Medicine

The Office of Pre-Health Programs is committed to providing support that is needed to prepare students for the rigorous demands of the health professions. These goals are met by building a strong science background in students, assisting students in finding clinical and research opportunities, building a sense of civic duty to their communities, and empowering them to become involved with members of their respective desired health professions.

Students preparing for any of the previously listed careers should use the Pre-Health Hub (lehman.edu/prehealthhub) to request an appointment with a pre-health advisor.

Prelaw

Students considering careers in the law have many opportunities at Lehman College. Legal educators recommend that students preparing for law school follow a course of study that develops a critical understanding of the institutions and values with which the law deals, the ability to think analytically, to conduct independent research, and to write and speak effectively. A comprehensive liberal arts education —including a major stressing these essential skills, courses in philosophy, such as critical thinking and the philosophy of law, and courses in English such as advanced expository writing —offers the best foundation for law school. A minor in political science is helpful. Students interested in law school should meet with the College's prelaw adviser for information and counseling. For referral to the prelaw adviser, see the Academic Information and Advisement Center (Shuster Hall, Room 280).

Professional Option

In addition to specific “3+4” agreements with several professional schools, Lehman College offers a professional option that may allow students to complete the undergraduate degree at an accredited professional school in their senior year. To apply for this option, students must have fulfilled all general education requirements for the degree, at least half of their major and any minor they have declared, and ninety or more credits, with at least thirty earned at Lehman. With departmental approval, the major and minor (if declared) may be completed at the professional school. This option is open to students for accredited professional programs such as dental, medical, pharmacy, veterinary medicine, and law school. Information is available from the Office of Undergraduate Academic Advisement (Shuster Hall, Room 275B).

Pre-Engineering Transfer Program

Lehman College offers a Pre-engineering Transfer Program, administered by the Department of Physics and Astronomy. Students study at Lehman for two years before transferring to the School of Engineering at City College. (For more information, consult the pre-engineering adviser in Gillet Hall, Room 131.)

The only complete engineering program in CUNY is at City College. Students at Lehman College can transfer to the School of Engineering at City College after completing twenty-four credits, including two semesters of calculus and one semester of a calculus based general physics course. (Applicants to the Computer Science program may substitute this with a general chemistry or biology course.) Although a well-prepared student can complete these requirements in two semesters, it is strongly recommended that a student entering this program should plan to spend three semesters at Lehman College, taking the following courses:

English

		Credits
ENG111 English Composition I	English Composition I	3
	And	
ENG121 English Composition II	English Composition II	3

Mathematics

		Credits
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4
	And	
MAT226 Vector Calculus	Vector Calculus	4

Physics

		Credits
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

Chemistry

		Credits
CHE166 General Chemistry I	General Chemistry I	4
CHE167 General Chemistry Laboratory I	General Chemistry Laboratory I	1.5
CHE168 General Chemistry 2	General Chemistry II	4
CHE169 General Chemistry Lab II	General Chemistry Laboratory II	1.5

Teacher Education Programs

Teacher preparation at Lehman is based on a firm foundation in the liberal arts and sciences. Students who plan to teach at the early childhood, childhood, or middle and secondary levels must major in one of the liberal arts, physical or social sciences, or mathematics. Prospective teachers also enroll in an appropriate education sequence in one of the following two departments:

The Department of Early Childhood and Childhood Education prepares candidates for initial New York State certification to teach children at the early childhood (Birth-Grade 2) and childhood (Grades 1-6) levels, including children whose primary languages and cultures are not English.

The Department of Middle and High School Education prepares candidates for initial New York State certification to teach academic and special subjects (English, science, mathematics, social studies, and foreign languages) in secondary schools, grades 7-12.

Lehman College's educator preparation programs have been accredited by the Council for the Accreditation of Educator Preparation (CAEP). The Counselor Education program has been accredited by the Council for the Accreditation of Counseling and Related Education Programs (CACREP). CAEP and CACREP accredit only teacher and counselor education programs of the highest quality.

Middle and High School

Students seeking the initial certificate as a middle and high school teacher of academic or special subjects will complete the major area of concentration appropriate for the particular certificate, as well as the sequence of professional courses leading to the certificate. Approved areas of concentration are as follows:

Adolescence EDUC-English Education (English 7-12)

Adolescence EDUC-Language Other Than English (Spanish 7-12)

Adolescence EDUC-Mathematics 5-9 or 7-12

Adolescence EDUC-Biology 7-12

Adolescence EDUC-Chemistry 7-12

Adolescence EDUC-Physics 7-12

Adolescence EDUC-Social Studies 7-12

Earth Science 7-12

SPECIAL SUBJECTS:

Art N-12

Health Education N-12*

Music Teacher N-12

Additional recommended concentrations may be added after the printing of this Bulletin; students need to see an adviser in the Department of Middle and High School Education (Carman Hall, Room 29-A) to find out which additional recommended majors are available.

*These programs are discontinued and will no longer accept new candidates.

Internship and Field Experience Opportunities

Lehman College recognizes the importance of work experience as a significant element of a liberal arts education. Many departments and programs in the College offer such learning experiences, usually off campus. Internships are generally carried out in conjunction with classroom learning, often involving a seminar about the fieldwork. These internships may earn college credit and provide the student with "hands-on" experience, frequently the first step toward successful entry into a career. For specific information on areas of interest, students should apply to individual departments. For majors that does not include an internship as an academic requirement, consult with the Internship Specialist at the Career Exploration & Development Center (CEDC) , 718-960-8366 (Shuster Hall, Room 254). The CEDC Internship Program provides students with assistance in researching, identifying, and applying for internship opportunities through on and off campus events, online resources, and referrals and incorporates both virtual and in-person programming. Students are also invited to engage with employers at the annual Internship Fair held on campus every October. For general information regarding internships, student teaching, and field experience requirements in teacher education, contact the Professional Development Network Coordinator, 718-960-8004 (Carman Hall, B-33).

Study Abroad Opportunities

Study Abroad Opportunities

Lehman College encourages all students, regardless of their discipline, to participate in study abroad opportunities. Students can choose to study abroad for a year or a semester. For those who prefer short-term study programs, there are numerous opportunities to study abroad during the summer, winter intersessions, or spring break.

Where Can I Go?

You can go anywhere! Lehman students have studied in diverse locations worldwide, including Argentina, Austria, Australia, Barbados, Brazil, Canada, Chile, China, Cuba, Dominican Republic, Ecuador, Egypt, England, France, Germany, Ghana, Guyana, Ireland, Italy, Jamaica, Japan, Korea, Malawi, Mexico, Nigeria, Puerto Rico, South Africa, South Korea, Spain, Trinidad, and Venezuela. Additional programs are continually being developed to offer a wider geographical and content choice.

Do I Need to Speak Another Language?

Not necessarily! Short-term programs are often open to students without foreign language training. However, year-long programs in countries where instruction is not in English may require some background in the relevant language.

Will Studying Abroad Delay My Graduation?

Not at all! Students who study abroad may earn part-time credits (3-6 credits) or full-time credits (12-18 credits) toward their degrees, although not all study abroad programs are credit-bearing. Some faculty-led study abroad opportunities are embedded in courses, ensuring that travel does not conflict with other coursework.

How Do I Pay to Study Abroad?

Lehman students can finance their study-abroad experiences in several ways, including financial aid, loans, scholarships, and fellowships. Students may be eligible to use TAP, PELL, and loan awards to help finance their study abroad. Additionally, students interested in studying abroad on credit-bearing programs can apply for the Chancellor's Global Scholarship, a CUNY-funded scholarship that can partially fund program costs.

In recent years, a growing number of Lehman students have received prestigious scholarships, including the Fulbright, Benjamin Gilman, Freeman Asia, and the Chancellor's Global Scholarship, for their studies abroad.

For further information, visit the Office of International Programs and Community Engagement, Carman Hall, Room 337; call 718-960-8345; or email IPCE.Office@Lehman.cuny.edu.

Lehman Exchange Programs

Lehman Exchange Programs

Students participating in Lehman Exchange Programs must be registered at Lehman College for a minimum of twelve study-abroad credits (STABD). Credits earned abroad will be applied toward students' degrees after evaluation by the appropriate department at Lehman. Students from all departments are invited to apply. To begin the online permit process, students must visit the Office of International Programs and Community Engagement (IPCE).

The Lehman/Sungshin University Exchange Program

The Lehman/Sungshin University Exchange Program is open to all CUNY students. Participants can choose to spend either one semester or one year studying at Sungshin University, a prestigious institution in Seoul, South Korea. The university offers courses in Korean language and culture, as well as over fifty courses across various disciplines in English. For more information, click here.

Lehman/Sugiyama University Exchange Program

The Lehman/Sugiyama University Exchange Program is open to all CUNY students. Participants can choose to spend one or two semesters studying at Sugiyama University in Nagoya, Japan. Students can enroll in courses on Japanese culture and language. A minimum of intermediate proficiency in Japanese (equivalent to three semesters) is required. For more information, click here.

Lehman/University of Montpellier Exchange Program

The Lehman/University of Montpellier Exchange Program is open to all CUNY students. Participants can choose to spend one or two semesters studying at the University of Montpellier in Montpellier, France. Students can enroll in courses across all subjects, with a specific emphasis on business courses. Courses are offered in both English and French; for French-taught courses, students must have intermediate to advanced proficiency. For more information, click here.

Lehman/Paderborn University Exchange Program

The Lehman/Paderborn University Exchange Program is open to all CUNY students. Participants can choose to spend either one semester or one year studying at Paderborn University in Paderborn, Germany. The university offers courses in Business and Economics as well as Arts and Humanities, all taught in English. For more information, click here.

Lehman/Osaka Metropolitan University (OMU) Exchange Program

The Lehman/Osaka Metropolitan University (OMU) Exchange Program is open to all CUNY students. Participants can spend the fall semester at OMU in Osaka, Japan. The university offers a Social Innovation curriculum focusing on global social issues and resolutions, including courses on Japanese culture and practices. For more information, click here.

Lehman/University of Birmingham Exchange Program

The Lehman/University of Birmingham Exchange Program is open to all CUNY students. Participants can choose to spend one or two semesters studying at the University of Birmingham in Birmingham, England. Students can enroll in courses in Arts and Law, Engineering and Physical Sciences, Life and Environmental Sciences, and Social Sciences. For more information, click here.

Lehman/Tenri University Exchange Program

The Lehman/Tenri University Exchange Program is open to all CUNY students. Participants can choose to spend either one semester or one year studying at Tenri University in Nara, Japan. Students can enroll in courses across all subjects, with a focus on Arts and Humanities. There is no language requirement, as many courses are offered in English. Additionally, students can enroll in courses on Japanese culture and language. For more information, click here.

Lehman/Nanyang Polytechnic Exchange Program

The Lehman/Nanyang Polytechnic Exchange Program is open to all CUNY students. Participants can choose to spend one or two semesters studying at Nanyang Polytechnic in Singapore. Students can enroll in courses in Business, Marketing, Accounting, Communications, Sports & Exercise Science, Media, and more. Courses are conducted in English.

For further information, visit the Office of International Programs and Community Engagement at Carman Hall, Room 337; 718-960-8345; IPCE.Office@Lehman.cuny.edu.

Experimental Course or Program

A Department may offer as an experiment one or more courses or a program of study that falls outside the bounds of existing courses or programs of study with the approval of the Departmental Curriculum Committee, the College's Curriculum Committee, and the College's Committee on Academic Standards and Evaluation.

The Leonard Lief Library

Named for the founding President of Lehman College, the Leonard Lief Library is a state-of-the-art research facility housed in a modern, four-story building. The collections, library faculty and staff, and programs support Lehman's undergraduate and graduate curriculum. Reference librarians provide research support to students, faculty, and visitors, and offer bibliographic instruction. In addition to the Reference Desk and instructional support, library faculty is available by appointment for individual consultation.

The library website [**http://www.lehman.cuny.edu/library/**] is a dynamic information portal with links to Alma's OneSearch library catalog, 300 online databases, numerous electronic journals, plus recommended authoritative Research Guides. These electronic resources are available to the Lehman community both onsite and off-campus. An open stacks book collection of 682,848 volumes is supplemented by a microfilm collection and growing multimedia holdings. The Library is a designated Federal depository for government documents, open to community members by appointment.

CUNY students and faculty may borrow books from all CUNY libraries, and Interlibrary Loan services are available to faculty and graduate students. A continually updated Reserve collection includes textbooks, journal articles, and course materials.

Library collections and services include the following:

- State-of-the-art laboratory classrooms, equipped with audiovisual technology and computer resources, are used for research training by library faculty. These open labs provide students with Internet access and academic program software.
- Access and Technology Center, located on the first floor, provides assistive equipment and software for students with special needs.
- Graduate Research Room on the second floor contains computer resources reserved for this special constituency.
- The Education collection, supporting the School of Education, holds journals, K-12 curriculum materials, a special instructional collection of multicultural children's books, as well as computer access.
- Special Collections encompasses College records, rare books, digital resources, and Bronx Institute Archives (local oral histories, monographs, atlases, photographs, and documents).
- Group Study Rooms can be reserved for individual and small student group use.

The Library publishes a **newsletter**, prides itself on the active scholarship of its faculty, and offers Readings Series, exhibits, and related events to Lehman and the surrounding community. We regard ourselves part of the Bronx, international library, and global communities.

Computer and Instructional Technology Facilities

The Division of Information Technology oversees the development of IT infrastructure and the coordination of IT operations and services across the campus. Technology support for students, staff, and faculty is provided by a College-wide IT support team and specialists in department labs, school offices, and the central IT facilities. IT Division staff members provide consulting, documentation, technical assistance, and related support to the Lehman community.

The Division of Information Technology Resources provides access to centralized computing and related technologies in support of the College's instructional, research, and administrative activities. Lehman's Information Technology Center (ITC) is located on the plaza level of Carman Hall. The facility houses eight PC and Macintosh computer labs for course instruction, an open lab with over 100 computers for student use, shared printing facilities, a dedicated faculty lab, and a help desk. The IT Division also operates a satellite help desk in the Library.

The campus is networked on a high-speed backbone providing access to the Internet as well as CUNY and campus resources. These include electronic mail services, the Lehman Connect campus intranet, CUNY-wide systems including the CUNY Portal and, the Blackboard online learning management system; CUNYfirst for online course registration and related administrative functions; and remote library and specialized departmental resources. Wireless access to the network is also available throughout the campus.

Approximately 200 of Lehman's lecture halls and classrooms are technology-enhanced or smart classrooms, and facilities for video conferencing and distance learning are available, assisted through the Multimedia Center, Media Technology Services, housed in Carman Hall, provides equipment and technical support for classroom use, college events and media presentations. Other specialized services and facilities include a media conversion lab to assist faculty in developing electronic-based course materials.

The College makes available specialized equipment for students with disabilities. All rooms are accessible by persons with disabilities, and specialized hardware and software for visually or hearing-impaired persons are provided. Students may also use the facilities of the Assistive Technology Center, located in the Library.

In addition to the centralized facilities, IT and other departments operate computer labs to support discipline-specific applications, such as a graphics-based computer lab and a 3-D printing facility in the Department of Anthropology; three Computer Graphics and Imaging Labs in the Department of Art; a Laboratory of Geographic Information Technologies in the Department of Earth, Environmental, and Geospatial Sciences; a multimedia language laboratory in the Department of Languages and Literatures; multiple facilities for radio, television, and film productions in the Department of Journalism, Communication, and Theatre; and specialized computer labs in the School of Education, the School of Continuing and Professional Studies, the Departments of Biological Sciences, Economics and Business, Mathematics and Computer Science, Nursing, Sociology, and Social Work. The Library, the Academic Support Center, the Science Learning Center, the CUNY Macaulay Honors College at Lehman, and the Student Life Building also have computer resources available.

Students may request information about IT resources and services, including IT Center hours of operation and technical assistance, by visiting the IT website at **www.lehman.edu/itr**, sending an e-mail **to helpdesk@lehman.cuny.edu**, or visiting in-person at the ITR Open Center (Carman Hall, Room 111).

The Language Center

The Language Center, located in Carman Hall Room B-37, is a dedicated space for language learning and cultural exploration. Designed with flexibility and accessibility in mind, the Center accommodates up to 28 individuals with modular seating that can be easily rearranged to support a wide range of language- and culture-related events and activities. A dedicated workstation ensures wheelchair users have a fully accessible and integrated space in any configuration. Complementing the main area, a comfortable lounge with sofas provides a welcoming setting for informal study and conversation.

The Center supports a variety of activities, including tutoring, cultural events, film screenings, study abroad information sessions, and more. It is equipped with five laptops featuring Antidote software, a HyFlex classroom system, wireless internet, and headsets available upon request. A variety of language-learning resources—including board games, books, and online tools—are available to students, faculty, and staff.

Advanced Imaging Labs

The Art Department has established three advanced imaging labs in the Fine Arts building. One lab (in Fine Arts, Room 047) contains twenty up-to-date Mac Studio workstations, a new Canon MF743Cdw Color All-In-One Laser Printer, access to 20 Wacom Tablets for Animation students, as well as a Stop Motion Animation Studio with 5 workstations equipped with cameras, lights, tripods, and additional accessories. A second lab (in Fine Arts, Room 006) also contains twenty up-to-date Mac Studio workstations and a Canon MF743Cdw Color All-In-One Laser Printer. The third lab (in Fine Arts, Room 004) is dedicated to advanced students and faculty, equipped with several Mac Studio workstations, an iMac Pro, a Wacom Display tablet, an Epson Stylus Pro 9880 Large Format Printer, an Ultimaker 3D printer, a Monoprice Maker Select Plus 3D Printer, a Shining3D EinScan 3D Scanner, and a new Alienware Laptop. These instructional labs allow students to learn and practice skills in digital imaging, graphic design, web page design, digital and stop-motion animation, advanced 3-D modeling and animation, digital photography, and various other multimedia design disciplines.

Instructional Support Services Program

The Instructional Support Services Program (ISSP) is dedicated to facilitating the academic development of Lehman students at the graduate level. The ISSP provides individual and group tutoring in addition to other instructional programming through the Academic Center for Excellence (ACE), located in the Old Gym Building, Room 205, and the Science Learning Center (SLC), located in Room 133 of Gillet Hall. See ***www.lehman.edu/issp***.

New York Botanical Garden

Under an agreement with CUNY, a number of staff members of the New York Botanical Garden offer courses in Lehman's Department of Biological Sciences. This arrangement makes specialized material, equipment, and collections available to Lehman students and provides facilities for research under exceptionally favorable conditions. The Museum of the Botanical Garden contains a library of about 65,000 volumes; a herbarium with some three million specimens, which provides excellent opportunities for research in taxonomy, ecology, and phytogeography; and special rooms for the cryptogamic collections. The collection of living plants on the grounds and in the greenhouses provides a wealth of material, with approximately 12,000 species represented.

The Bookstore

The Lehman Bookstore is a one-stop, online shop to get all your textbooks and course materials Go tolehman.textbookx.com to order and ship your course materials to your home or to purchase digital items.

Created in partnership with Akademos by VitalSource and powered by TextbookX, the Online Bookstore offers:

● A personalized website experience when you log in with your CUNYfirst account

● A quick ordering process – place an order in just 5 minutes

● New, used, ebook, & rental textbook formats
● An average savings of 60% off list price on marketplace items
● Price match guarantee on new books
● Ability to pay for textbooks with approved financial aid
● Year-round student support with 24/7 availability during the back-to-school season
● Free shipping on retail orders over $79 (exclusions may apply).
● Post and sell textbooks on the Valore Marketplace — get an instant quote

Order early to take advantage of great savings opportunities and free delivery options.

Need Help? Visit: lehman.textbookx.com/help

For Faculty:

● Log in with your CUNYfirst account to see a personalized page showing only the courses you are assigned to teach or oversee
● Search for and assign texts by ISBN or title or view previously adopted textbooks for easy reselection
● Indicate whether traditional course materials, OER materials, or other non-textbook items are used
● See real-time pricing and availability information
● Easily create low-cost, highly-tailored coursepacks
● Communicate with a dedicated Akademos Client Success team
● View enhanced reporting and analytics

Fine and Performing Arts Facilities

Lehman Center for the Performing Arts

Lehman Center for the Performing Arts' 2,310-seat Concert Hall is the borough's premier performance space. Critics have called it "acoustically perfect." With a modern 2,400-square foot stage and a hydraulic orchestra pit, the Center presents outstanding classical, popular, and folk/ethnic dance, music, and theatre companies from around the world. Special, culturally diverse community celebrations enhance the Center's offerings. The Center has also served as the site of numerous public programs and debates of national interest. Lehman students are offered discounted tickets for most events, as well as opportunities to work as ushers and apprentice stagehands. Examples of artists who have recently performed at the Center include El Gran Combo, Virsky Ukrainian National Dance Company, Smokey Robinson, Jimmy Cliff, Trinity Irish Dance Company, Nickelodeon's Blues Clues Live, and the gospel musical "Your Arms Too Short to Box With God."

Lehman Stages

Lehman Stages is a performance and rehearsal facility at Lehman College, comprised of the Lovinger Theatre, the Studio Theatre, the Student Experimental Theatre (or "SET"), and the Dance Lab @ *Lehman*.

Part of the Bronx for over two decades, the facilities that comprise Lehman Stages have served as an invaluable cultural resource for the Bronx and the larger New York City community. Lehman Stages is dedicated to the creation and presentation of performing arts programming of all disciplines, with a special focus on education and cultural diversity. Lehman Stages aspires to be an artistic touchstone for emerging artists of all backgrounds and a training facility for the College's theatre and dance program. The facilities also provide low-cost rehearsal, performance, and conference space for arts, civic, and government organizations throughout the metropolitan area.

Recital Hall

The Music Building features a 135-seat Recital Hall (MU-306), which is used by students and faculty throughout the academic year, along with individual practice rooms for music majors, minors, and other Lehman students. The large Hearth Room (MU-330) accommodates ensembles such as the Lehman College and Community Band, the Lehman College and Community Chorus, the Latin Jazz Ensemble, and the Celia Cruz Bronx High School Concert Band. The Recital Hall and Hearth Room host a variety of free, public events, including student, faculty, and guest recitals, master classes, and workshops. Recent events have featured performances by the Lehman Chamber Players, Jazz Ensemble, and Afro-Caribbean Percussion Ensemble, as well as guest artists such as the Concordian Dawn Early Music Ensemble, and the Jazz Power Community Workshop. All events are free and open to the public.

Lehman College Art Gallery

The Lehman College Art Gallery is located in the Fine Arts Building designed by renowned architect Marcel Breuer. The Gallery presents innovative contemporary art in two striking exhibition spaces. Education is an integral component of exhibition programming and provides the basis for the Gallery's outreach - from young students to senior citizens. New technologies offer a means of reaching audiences internationally as well as locally and provide creative new venues for artists. The Gallery's website, featuring Bronx Public Art, highlights an extraordinary collection of public art from the WPA to contemporary projects.

Board of Trustees Rules and Regulations on Campus Conduct

Rules and Regulations for the Maintenance of Public Order Pursuant to Article 129-A of the Education Law

The tradition of the University as a sanctuary of academic freedom and center of informed discussion is an honored one, to be guarded vigilantly. The basic significance of that sanctuary lies in the protection of intellectual freedoms: the rights of professors to teach, of scholars to engage in the advancement of knowledge, of students to learn and express their views, free from external pressures or interference. These freedoms can flourish only in an atmosphere of mutual respect, civility, and trust among teachers and students, only when members of the University community are willing to accept self-restraint and reciprocity as the condition upon which they share in its intellectual autonomy.

Academic freedom and the sanctuary of the University campus extend to all who share these aims and responsibilities. They cannot be invoked by those who would subordinate intellectual freedom to political ends, or who violate the norms of conduct established to protect that freedom. Against such offenders the University has the right, and indeed the obligation, to defend itself. We accordingly announce the following rules and regulations to be in effect at each of our colleges which are to be administered in accordance with the requirements of due process as provided in the *Bylaws* of the Board of Higher Education.

With respect to enforcement of these rules and regulations we note that the Bylaws of the Board of Trustees provide that:

"The president, with respect to his education unit, shall:

Have the affirmative responsibility of conserving and enhancing the educational standards of the college and schools under his jurisdiction;

Be the advisor and executive agent of the Board and of his respective College Committee and as such shall have the immediate supervision with full discretionary power in carrying into effect the Bylaws, resolutions, and policies of the Board, the lawful resolutions of the several faculties;

Exercise general superintendence over the concerns, officers, employees, and students of his educational unit."

I. Rules

1. A member of the academic community shall not intentionally obstruct and/or forcibly prevent others from the exercise of their rights. Nor shall he interfere with the institution's educational processes or facilities, or the rights of those who wish to avail themselves of any of the institution's instructional, personal, administrative, recreational, and community services.
2. Individuals are liable for failure to comply with lawful directions issued by representatives of the University/college when they are acting in their official capacities. Members of the academic community are required to show their identification cards when requested to do so by an official of the college.
3. Unauthorized occupancy of University/college facilities or blocking access to or from such areas is prohibited. Permission from appropriate college authorities must be obtained for removal, relocation, and use of University/college equipment and/or supplies.
4. Theft from or damage to University/college premises or property, or theft of or damage to property of any person on University/college premises is prohibited.
5. Each member of the academic community or an invited guest has the right to advocate his position without having to fear abuse, physical, verbal, or otherwise from others supporting conflicting points of view. Members of the academic community and other persons on the college grounds shall not use language or take actions reasonably likely to provoke or encourage physical violence by demonstrators, those demonstrated against, or spectators.
6. Action may be taken against any and all persons who have no legitimate reason for their presence on any campus within the University/college, or whose presence on any such campus obstructs and/or forcibly prevents others from the exercise of their rights or interferes with the institution's educational processes or facilities, or the rights of those who wish to avail themselves of any of the institution's instructional, personal, administrative, recreational, and community services.
7. Disorderly or indecent conduct on University/college-owned or controlled property is prohibited.
8. No individual shall have in his possession a rifle, shotgun, or firearm or knowingly have in his possession any other dangerous instrument or material that can be used to inflict bodily harm on an individual or damage upon a building or the grounds of the University/college without the written authorization of such educational institution. Nor shall any individual have in his possession any other instrument or material which can be used and is intended to inflict bodily harm on an individual or damage upon a building or the grounds of the University/college.
9. Any action or situation which recklessly or intentionally endangers mental or physical health or involves the forced consumption of liquor or drugs for the purpose of initiation into or affiliation with any organization is prohibited.
10. The unlawful manufacture, distribution, dispensation, possession, or use of illegal drugs or other controlled substances by University students or employees in the workplace is prohibited. Employees of the University must also notify the College Personnel Director of any criminal drug statute conviction for a violation occurring in the workplace not later than five (5) days after such conviction.
11. The unlawful possession, use, or distribution of alcohol by students or employees on University/college premises or as part of any University/college activities is prohibited.

II. Penalties

1. Any student engaging in any manner of conduct prohibited under substantive Rules 1 to 11 shall be subject to the following range of sanctions as hereafter defined: admonition, warning, censure, disciplinary probation, restitution, suspension, expulsion, ejection, and/or arrest by the civil authorities.
2. Any tenured or non-tenured faculty member, or other member of the instructional staff, or member of the classified staff engaging in any manner in conduct prohibited under substantive Rules 1 to 11 shall be subject to the following range of penalties: warning, censure, restitution, fine not exceeding those permitted by law or by the Bylaws of the City University of New York, or suspension with/without pay pending a hearing before an appropriate College authority, dismissal after a hearing, ejection, and/or arrest by the civil authorities, and, for engaging in any manner in conduct prohibited under substantive rule 10, may, in the alternative, be required to participate satisfactorily in an appropriately licensed drug treatment or rehabilitation program. A tenured or non-tenured faculty member, or other member of the instructional staff, or member of the classified staff engaging in any manner in conduct prohibited under substantive Rules 1 to 11, shall be entitled to be treated in accordance with applicable provisions of the Education Law, or the Civil Service Law, or the applicable collective bargaining agreement, or the Bylaws or written policies of the City University of New York.
3. Any visitor, licensee, or invitee engaging in any manner in conduct prohibited under substantive Rules 1 to 11 shall be subject to ejection, and/or arrest by the civil authorities.
4. Any organization which authorizes the conduct prohibited under substantive rules 1-11 shall have its permission to operate on campus rescinded.

Penalties 1-4 shall be in addition to any other penalty provided by law or the City University Trustees.

Sanctions Defined:

1. Admonition. An oral statement to the offender that he has violated University rules.
2. Warning. Notice to the offender, orally or in writing, that continuation or repetition of the wrongful conduct, within a period of time stated in the warning, may be cause for more severe disciplinary action.
3. Censure. Written reprimand for violation of specified regulation, including the possibility of more severe disciplinary sanction in the event of conviction for the violation of any University regulation within a period stated in the letter of reprimand.
4. Disciplinary Probation. Exclusion from participation in privileges or extracurricular University activities as set forth in the notice of disciplinary probation for a specified period of time.
5. Restitution. Reimbursement for damage to or misappropriation of property. Reimbursement may take the form of appropriate service to repair or otherwise compensate for damages.

6. Suspension. Exclusion from classes and other privileges or activities as set forth in the notice of suspension for a definite period of time.
7. Expulsion. Termination of student status for an indefinite period. The conditions of readmission, if any is permitted, shall be stated in the order of expulsion.
8. Complaint to Civil Authorities.
9. Ejection. Bylaw Section 15.6

Suspension or Dismissal.

The Board of Trustees reserves full power to dismiss or suspend a student, or suspend a student organization for conduct which impedes, obstructs, or interferes with the orderly and continuous administration and operation of any college, school, or unit of the university in the use of its facilities or in the achievement of its purposes as an educational institution.

The Chancellor or Chancellor's designee, a president or any dean may in emergency or extraordinary circumstances, temporarily suspend a student, or temporarily suspend the privileges of a student organization or group for cause, pending an early hearing as provided in bylaw section 15.3 to take place within not more than seven (7) school days. Prior to the commencement of a temporary suspension of a student, the College shall give such student oral or written notice of the charges against him/her and, if he/she denies them, the College shall forthwith give such student an informal oral explanation of the evidence supporting the charges and the student may present informally his/her explanation or theory of the matter. When a student's presence poses a continuing danger to person or property or an ongoing threat of disrupting the academic process, notice and opportunity for denial and explanation may follow suspension, but shall be given as soon as feasible thereafter.

Equal Opportunity and Notice of Non-Discrimination

Herbert H. Lehman College is committed to providing equal opportunities for all individuals and fostering a safe and inclusive environment, free from discrimination.

It is the policy of Lehman College to recruit, employ, retain, promote, and provide benefits to employees (including paid and unpaid interns) and to admit and provide services for students without regard to race, color, creed, national origin, ethnicity, ancestry, religion, age, sex (including pregnancy, childbirth and related conditions), sexual orientation, gender, gender identity, marital status, partnership status, disability, genetic information, alienage, citizenship, military or veteran status, status as a victim of domestic violence/stalking/sex offenses, unemployment status, or any other legally prohibited basis in accordance with federal, state and city laws.

It is also the Lehman's policy to provide reasonable accommodations when appropriate to individuals with disabilities, individuals observing religious practices, employees who have pregnancy or childbirth-related medical conditions, or employees who are victims of domestic violence/stalking/sex offenses.

This Policy also prohibits retaliation for reporting or opposing discrimination, or cooperating with an investigation of a discrimination complaint.

To access the City University of New York's Policy on Non-Discrimination and Equal Employment, please visit the link below:

Equal Opportunity and Non-Discrimination Policy – The City University of New York (cuny.edu)

Maritza Rivera serves as the Director of Compliance and Diversity and is the Affirmative Action Officer. She is also the College coordinator for the Americans with Disabilities Act and Section 504, which prohibit discrimination on the basis of disability. She can be reached at extension x8110 and her office is located in Shuster Hall, Room 352.

Christine McGrath is the Title IX Coordinator, responsible for addressing gender discrimination in Federally assisted education programs. She can be found in Shuster Hall, Room 386, and her extension is x8426.

If you have any concerns or questions related to discrimination or equal opportunity, please don't hesitate to reach out to the appropriate individuals mentioned above.

If you wish to make a report, please visit the links below:

CUNY University-Wide Discrimination and Retaliation Reporting Portal – The City University of New York

The Office of Compliance and Diversity

The City University of New York Policy on Sexual Misconduct/ Title IX

POLICY STATEMENT

CUNY students, employees and visitors deserve the opportunity to live, learn and work free from Sexual Misconduct. Accordingly, CUNY is committed to:

1. Defining conduct that constitutes Sexual Misconduct;

2. Providing clear guidelines for students, employees and visitors on how to report incidents of Sexual Misconduct;

3. Providing ongoing assistance and support to all parties after allegations of Sexual Misconduct have been made;

4. Promptly and respectfully responding to and investigating allegations of Sexual Misconduct, pursuing disciplinary action when appropriate and taking action to investigate and address any allegations of retaliation;

5. Providing awareness and prevention information on Sexual Misconduct, including widely disseminating this Policy, as well as a "Students' Bill of Rights" and implementing training and educational programs on Sexual Misconduct to college constituencies;

6. Gathering and analyzing information and data that will be reviewed in order to improve safety, reporting, responsiveness and the resolution of allegations of Sexual Misconduct;

7. Distinguishing between the specific conduct defined as Title IX Sexual Harassment by the USDOE and the broader definition of Sexual Misconduct prohibited by this Policy; and

8. Ensuring compliance with the federal regulations under Title IX, and other federal, state and local laws.

This is CUNY's sole policy to address Sexual Misconduct and it is applicable at all CUNY colleges and units. This Policy will be interpreted in accordance with the principles of academic freedom adopted by CUNY's Board of Trustees.

The CUNY community should also be aware of the following CUNY policies:

The CUNY Policy on Equal Opportunity and Nondiscrimination prohibits discrimination on the basis of numerous protected characteristics in accordance with federal, state and local law. That policy addresses sex discrimination other than Sexual Misconduct covered by this policy.

The CUNY Campus and Workplace Violence Prevention Policy addresses workplace violence.

The CUNY Domestic Violence and the Workplace Policy addresses domestic violence in or affecting employees in the workplace.

The CUNY Procedures for Implementing Reasonable Accommodations and Academic Adjustments addresses the procedures CUNY will follow when there is a request for a reasonable accommodation or academic adjustment.

In addition, campus crime statistics, including statistics relating to sexual violence, which CUNY is required to report under the Jeanne Clery Act, are available on each college's Public Safety website.

SCOPE OF THIS POLICY

This Policy governs the conduct of CUNY students, employees and visitors. Visitors may report a violation of this Policy and may also be subject to restrictions for failing to comply with this Policy.

This Policy prohibits Sexual Misconduct that occurs on CUNY property and conduct that occurs off CUNY property but has a reasonable connection to CUNY.

PROHIBITED CONDUCT AND DEFINITIONS

This Policy prohibits Sexual Misconduct (addressed in this section), Retaliation (addressed in Section VII-G and defined below), knowingly submitting false statements or information (defined below) and certain intimate relationships between students and faculty members/employees (addressed in Section XIV).

The following behaviors constitute Sexual Misconduct prohibited under this Policy:

Dating Violence is violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. Dating violence can be a single act or a pattern of behavior, based on the frequency, nature, and severity of the conduct. Dating violence includes the threat of sexual assault or physical abuse. The existence of such a relationship is determined based on a consideration of the following factors: (1) The length of the relationship; (2) The type of relationship and (3) The frequency of interaction between the persons involved in the relationship. A relationship may be romantic or intimate regardless of whether the relationship was sexual in nature.

Domestic Violence includes felony or misdemeanor crimes of violence committed by a current or former spouse or intimate partner of the victim by a person with whom the victim shares a child, by a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner, by a person similarly situated to a spouse of the victim under applicable domestic or family violence laws, or by any other person against an adult or youth victim who is protected from that person's acts under applicable domestic or family violence laws. Domestic violence can be a single act or a pattern of behavior, based on the frequency, nature, and severity of the conduct.

Sexual Assault: Contact is any sexual contact, including sexual touching for the purpose of sexual gratification of either party or degrading or abusing such person, without a person's consent. Sexual touching includes contact under or over clothing with another person's anus, breasts, buttocks, genitals, groin or inner thigh; touching another person anywhere with any of these body parts; making another person touch any of these body parts under or over clothing; or the emission of ejaculate on the clothing or body of another person.

Sexual Assault: Penetration is any form of vaginal, anal, or oral penetration or attempted penetration, however slight, by a penis, object, tongue, or finger without a person's consent. This term includes incest and statutory rape.

Sexual Harassment is unwelcome verbal or physical behavior based on a person's sex (including sexual orientation, gender, gender expression and gender identity, including transgender status). Conduct is considered "unwelcome" if the individual did not request or invite it and considered the conduct to be undesirable or offensive. This includes unwelcome conduct when: (1) a CUNY employee conditions the provision of an aid, benefit, or service of CUNY on an individual's participation in unwelcome sexual conduct (quid pro quo); and/or (2) such conduct alters the conditions of, or has the effect of interfering with, an individual's educational or work experience by creating an intimidating, hostile or offensive environment (hostile environment). The effect will be evaluated based on the perspective of a reasonable person in the position of a complainant. While it is not possible to list all circumstances that might constitute Sexual Harassment, the following are some examples of conduct that might constitute such harassment:

· Suggestive body language or inappropriate or unwelcome physical contact that does not qualify as Sexual Assault: Contact;

· Verbal abuse or offensive comments of a sexual nature, including sexual slurs, persistent or pervasive sexually explicit statements, questions, jokes or anecdotes, degrading words regarding sexuality or gender, suggestive or obscene letters, notes, or invitations;

· Making lewd or sexual comments about an individual's appearance, body, or clothing;

· Visual displays or distribution of sexually explicit drawings, pictures, or written materials;

· Undue and unwanted attention, such as repeated inappropriate flirting, staring, or making sexually suggestive gestures; or

· Offensive comments regarding a person's sexual orientation, gender identity or gender expression, such as persistent mocking or disparagement of a person based on a perceived lack of stereotypical masculinity or femininity.

Stalking means engaging in a course of conduct directed at a specific person that would cause a reasonable person to: (1) fear for their safety or the safety of others or (2) suffer substantial emotional distress. This Policy addresses stalking that is based on sex (including sexual orientation, gender, gender expression and gender identity, including transgender status). All other stalking will be addressed under other applicable policies.

Title IX Sexual Harassment is a subset of the broader definition of Sexual Harassment above. It is defined by the USDOE to mean conduct on the basis of sex7 that occurs in CUNY's education program or activity against a person in the United States and that satisfies one or more of the following: (1) a CUNY employee conditioning the provision of an aid, benefit, or service of CUNY on an individual's participation in unwelcome sexual conduct; (2) unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to CUNY's education program or activity; or (3) Sexual Assault, Dating Violence, Domestic Violence, or Stalking as defined in this Policy.

Voyeurism is unlawful surveillance and includes acts that violate a person's right to privacy in connection with their body and/or sexual activity such as:

Viewing another person's sexual activity, intimate body parts, or nakedness in a place where that person would have a reasonable expectation of privacy, without that person's consent.

· Recording images (e.g. video, photograph) or audio of another person's sexual activity, intimate body parts, or nakedness where that person would have a reasonable expectation of privacy, without that person's consent;

· Disseminating images (e.g. video, photograph) or audio of another person's sexual activity, intimate body parts, or nakedness where that person would have a reasonable expectation of privacy, if the individual distributing the images or audio knows or should have known that the person depicted in the images or audio did not consent to such disclosure; or

· Using or installing, or permitting the use or installation of a device for the purpose of recording another person's sexual activity, intimate body parts or nakedness in a place where the person would have a reasonable expectation of privacy without that person's consent.

Other important terms and concepts addressed in this Policy:

Consent means affirmative consent.

Affirmative Consent is a knowing, voluntary and mutual decision among all participants to engage in sexual activity. Consent can be given by words or actions, as long as those words or actions create clear permission regarding willingness to engage in the sexual activity. Silence or lack of resistance, in and of itself, does not demonstrate consent. The definition of consent does not vary based upon a participant's sex, sexual orientation, gender identity or gender expression.

· Consent to any sexual act or prior consensual sexual activity between or with any party does not necessarily constitute consent to any other sexual act.

· In order to give consent, one must be of legal age (17 years or older in New York).

· Consent is required regardless of whether the person initiating the act is under the influence of drugs and/or alcohol.

· Consent cannot be given when a person is incapacitated, which occurs when an individual lacks the ability to knowingly choose to participate in sexual activity. Incapacitation may be caused by lack of consciousness or being asleep, being involuntarily restrained, or if the individual otherwise cannot consent. Depending on the degree of intoxication, someone who is under the influence of alcohol, drugs, or other intoxicants may be incapacitated and therefore unable to consent.

· Consent cannot be given when it is the result of any coercion, intimidation, force, or threat of harm.

· Consent may be initially given but withdrawn at any time. When consent is withdrawn or can no longer be given, sexual activity must stop.

Sexual Act/Sexual Activity is

i. Any form of vaginal, anal, or oral penetration or attempted penetration, however slight, by a penis, object, tongue or finger.

ii. Any sexual contact, including sexual touching. Sexual touching includes contact under or over clothing with another person's anus, breasts, buttocks, genitals, groin or inner thigh; touching another person anywhere with any of these body parts; making another person touch any of these body parts under or over clothing; or the emission of ejaculate on the clothing or body of another person.

Complainant refers to the individual who alleges that they have been the subject of Sexual Misconduct, and may be a CUNY student, employee (including all full-time and part-time faculty and staff and paid/unpaid interns) or visitor. Under this Policy, the alleged incident(s) may have been brought to the college's attention by someone other than the complainant.

Confidentiality is the commitment not to share any identifying information with others, except as required by law in emergency circumstances (such as risk of death or serious bodily harm). Confidentiality may only be offered by individuals who are not required to report known incidents of Sexual Misconduct to college officials. Licensed mental health counselors, medical providers and pastoral counselors may offer confidentiality. See additional discussion in Section VI.

Day Whenever this Policy refers to a "day," it means a calendar day other than a Saturday, Sunday or federal or state holiday.

Knowingly submitting false statements or information means knowingly making false statements or submitting false information in connection with any allegation of Sexual Misconduct (as opposed to providing information which, even if erroneous, is provided in good faith). Anyone who knowingly makes false statements or submits false information in connection with any allegation of Sexual Misconduct will be subject to disciplinary action in accordance with CUNY Bylaws, policies and collective bargaining agreements.

Non-Title IX Sexual Misconduct Matter is the term used to describe allegations of Sexual Misconduct that do not meet the definition of Title IX Sexual Harassment and therefore will be resolved, investigated and adjudicated pursuant to the procedures outlined in Section XII.

Party is a complainant or respondent.

Preponderance of evidence is the standard of evidence used during the investigation and adjudication of Sexual Misconduct allegations under this Policy. A preponderance of the evidence means whether it is more likely than not that the Sexual Misconduct occurred.

Privacy is the assurance that an individual or the college will only reveal information about allegations of Sexual Misconduct to those who need to know the information in order to carry out their duties or responsibilities or as otherwise required by law. Individuals who are unable to offer the higher standard of confidentiality under law, but who are still committed to not disclose information more than necessary, may offer privacy. See additional discussion in Section VI.

Respondent refers to the individual who is alleged to have committed Sexual Misconduct against a CUNY student, employee, or visitor.

Retaliation is adverse treatment of an individual as a result of that individual's reporting Sexual Misconduct, assisting someone to report Sexual Misconduct, opposing in a reasonable manner an act or policy believed to constitute Sexual Misconduct, or participating in any manner (or refusing to participate) in an investigation or resolution under this Policy. Adverse treatment includes intimidation, threats, coercion or discrimination for the purpose of interfering with any right or privilege secured by this Policy. All individuals are prohibited from engaging in retaliation, including complainants, respondents and others, such as friends or relatives of the parties.

Title IX Formal Complaint is a document filed by a complainant or signed by the Title IX Coordinator alleging Title IX Sexual Harassment against a respondent and requesting that the college investigate the allegations. The Title IX Coordinator may sign a Title IX Formal Complaint with or without a complainant's desire to participate in a grievance process.

Title IX Sexual Harassment Matter is the term used to describe allegations of Sexual Misconduct that meet the definition of Title IX Sexual Harassment and therefore must be resolved, investigated and adjudicated pursuant to the Title IX grievance procedures required by the USDOE and outlined in Section XI.

Visitor is any person other than a CUNY student or employee who interacts with the CUNY community. CUNY alumni are considered visitors under this Policy.

Writing Whenever this Policy requires a "writing," electronic mail satisfies the writing requirement.

TITLE IX COORDINATOR

Each college or unit of CUNY has an employee who has been designated as the Title IX Coordinator. This employee is responsible for compliance with Title IX of the Education Amendments of 1972, 20 U.S.C. chapter 38, which prohibits sex discrimination in education programs (including Title IX Sexual Harassment as it is defined above), New York State Law Article 129-B ("Enough is Enough") and other federal, state and local laws pertaining to sex discrimination and sexual misconduct. The Title IX Coordinator has overall responsibility for implementing this Policy, including overseeing the investigation of allegations of Sexual Misconduct at their college or unit (including Title IX Sexual Harassment matters and Non-Title IX Sexual Misconduct matters) and carrying out the other functions of that position set forth in this Policy. All Title IX Coordinators will receive annual training as required by Title IX, the Clery Act, Enough is Enough, and other civil rights laws. The name and contact information for all Title IX Coordinators at CUNY can be found on CUNY's dedicated Title IX website. Title IX Coordinator training obligations are discussed in Section XIII.

RESOURCES AND INFORMATION FOR INDIVIDUALS AFFECTED BY SEXUAL MISCONDUCT

CUNY is committed to providing assistance, support and resources to those affected by Sexual Misconduct. This Section discusses a complainant's option of reporting Sexual Misconduct to outside law enforcement, the differences between CUNY's process and procedures and those of outside law enforcement and how to obtain immediate medical attention and emotional support.

Reporting to Outside Law Enforcement

Students, employees and other community members may choose to report Sexual Misconduct to local law enforcement and/or state police ("outside law enforcement"). However, CUNY does not require that a complainant report Sexual Misconduct to outside law enforcement; nor will CUNY do so without the complainant's agreement, except in exceptional circumstances. The college may report Sexual Misconduct to outside law enforcement without the complainant's consent when the college determines that the respondent poses a serious continuing threat to the physical safety of the complainant or another person.

If a student, employee or other community member chooses to report Sexual Misconduct to outside law enforcement, CUNY will provide assistance. Each college Public Safety office must have an appropriately trained employee available at all times to provide the complainant with information regarding options to proceed, including information regarding the criminal justice process and the preservation of evidence. Campus Public Safety officers can also assist the complainant with reporting allegations both on and off-campus and in obtaining immediate medical attention and other services.

Additional information is available on CUNY's Title IX website.

Differences between CUNY's Process and Procedures and Those of Outside Law Enforcement

In cases where the complainant reports allegations to outside law enforcement authorities as well as to the college, the college must determine what actions to take based on its own investigation. The college may coordinate with outside law enforcement authorities in order to avoid interfering with their activities and, where possible, to obtain information regarding their investigation. Neither a law enforcement determination whether to prosecute a respondent, nor the outcome of any criminal prosecution, is dispositive of whether the respondent has committed a violation of this Policy.

Students, employees and other community members should be aware that CUNY procedures and standards differ from those of criminal law. When CUNY investigates allegations of Sexual Misconduct or brings disciplinary proceedings for violations of this Policy, the issue is whether the respondent violated CUNY policy. The standard applied in making this determination is whether the preponderance of the evidence supports a finding of responsibility, or, stated another way, whether it is more likely than not that the alleged conduct occurred. An individual found to have violated this Policy may be sanctioned by the college and CUNY. In the criminal justice system, on the other hand, the issue is whether the accused violated criminal law. The standard applied is proof beyond a reasonable doubt and an individual found guilty of a crime is subject to criminal penalties, such as incarceration, probation and fines. More information about relevant criminal laws is available in "A Plain Language Explanation of Distinction Between the New York Penal Law and the College Disciplinary Processes."

Obtaining Immediate Medical Attention and Emotional Support

CUNY encourages anyone who has experienced Sexual Assault, Domestic Violence or Dating Violence to seek medical attention as soon as possible. Medical resources can provide treatment for injuries, preventative treatment for sexually transmitted diseases, emergency contraception and other health services. They can also assist in preserving evidence or documenting any injuries. Taking these steps promptly after an incident can be helpful if an individual later decides to pursue criminal charges or a protective order.

Individuals who have experienced or witnessed Sexual Assault, Domestic Violence or Dating Violence are also encouraged to seek emotional support, either on or off-campus.

On campus resources may include nurses and/or nurse practitioners at campus health offices and counselors at campus counseling centers. Counselors are trained to provide crisis intervention and provide referrals for longer-term care as necessary.

CUNY also maintains a list of off-campus emergency contacts and resources, including rape crisis centers, available throughout New York City on its dedicated web page. This includes a list of local hospitals designated as SAFE (Sexual Assault Forensic Examiner) hospitals, which are specially equipped to handle sexual assaults and trained to gather evidence from such assaults.

IMPORTANT INFORMATION ABOUT REPORTING/CONFIDENTIALITY OBLIGATIONS OF COLLEGE AND CUNY EMPLOYEES

CUNY values the privacy of its students, employees and visitors and recognizes that they should be able to seek the assistance they need without fear that the information they provide will be shared more broadly. An individual who speaks to a college or CUNY employee about Sexual Misconduct should be aware that employees fall into three categories:

Confidential Employees have an obligation to maintain a complainant's confidentiality regarding allegations of Sexual Misconduct and will not share any identifying information with others, except as required by law in emergency circumstances;

Responsible Employees are required to report allegations of Sexual Misconduct to the Title IX Coordinator but will protect an individual's privacy to the greatest extent possible and share information with other staff only on a need-to-know basis; and

All other employees are strongly encouraged, but not required to report allegations of Sexual Misconduct to the Title IX Coordinator. These employees are otherwise encouraged to protect an individual's privacy to the greatest extent possible and share information only with the Title IX Coordinator.

Note: Under the Clery Act, the College is required to maintain records, advise the government about reports of certain crimes and issue timely warnings when there is a serious, continuing threat to the community. Such reports and warnings do not disclose identifying information.

Confidential Employees

For Students. Students who wish to speak to someone who will keep the communications confidential should speak to one of the following:

· Counselor or other staff member at their college counseling center;

· Nurse, nurse practitioner or other college health office staff member;

· Pastoral counselor (a person associated with a religious order or denomination, recognized by that order or denomination as someone who provides confidential counseling and identified by CUNY as functioning within the scope of that recognition); or

· Designated staff member, if any, in a women's or men's center, if one exists at their college.

These individuals will not report the allegations to the college's Title IX Coordinator or other college employees without the student's permission. The only exception is in the case where there is an imminent threat of serious injury to the complainant or any other person.

If a student speaks solely to a confidential employee, the college will rarely be able to conduct an investigation into the allegations or pursue disciplinary action against the respondent. Confidential employees will assist students in obtaining other necessary support.

For Employees. Although CUNY does not directly employ individuals to whom CUNY employees can speak on a confidential basis regarding Sexual Misconduct, free confidential support services are available through CUNY's Work/Life Program, which is administered by an outside company. Confidential community counseling resources are also available throughout New York City.

Complainants may use these confidential resources even if they decide not to report allegations of Sexual Misconduct or participate in an investigation, CUNY resolution process or the criminal justice process. A complainant who first speaks to a confidential resource may later decide to report allegations to the college or with outside law enforcement.

Responsible Employees

Individuals designated as responsible employees have a duty to report allegations of Sexual Misconduct, including all relevant details, to the Title IX Coordinator. These employees are not permitted to maintain a complainant's confidentiality, but will maintain a complainant's privacy to the greatest extent possible, and information reported to them will be shared only with the Title IX Coordinator and other people responsible for handling the college's response to the report.

To the extent possible, before a complainant reveals any information to a responsible employee, the employee should advise the complainant of the employee's reporting obligations—and if the complainant wants to maintain confidentiality, direct the complainant to confidential resources.

CUNY has designated the following individuals as responsible employees:

- University Title IX Director
- College Title IX Coordinator and staff
- Office of Public Safety employees
- Vice President for Student Affairs or Dean of Students and all staff housed in those offices (other than staff that are designated as confidential employees)
- Residence Life staff in CUNY owned or operated housing, including Resident Assistants
- Directors and Deputy Directors of Human Resources
- College President, Vice Presidents and Deans
- Athletics Staff
- Department Chairpersons/Executive Officers
- CUNY Office of the General Counsel attorneys and College/unit attorneys
- College/unit labor designee
- Faculty and staff members at times when they are leading or supervising students on off- campus trips
- International Education Liaisons/Study Abroad Campus Directors and Field Directors
- All employees at Hunter College Campus Schools
- College Childcare Center staff
- Managers or supervisors, regarding alleged Sexual Misconduct involving people who report to them

o **Managers** are employees who have authority to make tangible employment decisions with regard to other employees, including the authority to hire, fire, promote, compensate or assign significantly different responsibilities.

o **Supervisors** are employees who are not managers, but have a sufficient degree of control over the working conditions of one or more employees, which might include evaluating their performance and making recommendations for changes in employment status that are given particular weight.

Special Rules Concerning Public Awareness and Advocacy Events

CUNY supports public awareness events that help provide its community with information about Sexual Misconduct and how it can be addressed and prevented. In order to preserve the ability to participate freely in public awareness and advocacy events, if an individual discloses information about Sexual Misconduct at such event (for example, Take Back the Night gatherings, candlelight vigils, or protests) the college will not treat the disclosure as triggering an obligation to commence an investigation based on that information. Such individuals are encouraged to report Sexual Misconduct to college officials so that the college can provide resources and assistance.

REPORTING SEXUAL MISCONDUCT TO THE COLLEGE

In order for CUNY to address allegations of Sexual Misconduct, it has to learn about the allegations. Accordingly, CUNY strongly encourages individuals who have experienced Sexual Misconduct to report allegations to a designated campus official, as set forth in "Where to Report Allegations of Sexual Misconduct on Campus" below. The designated officials are trained to receive allegations of Sexual Misconduct, to ensure they are investigated in accordance with this Policy and to help complainants get necessary assistance. Students, employees and visitors are encouraged to report allegations of Sexual Misconduct to campus officials, regardless of whether they have reported the incident to outside law enforcement authorities and regardless of where the incident took place.

Complainant's Rights

Individuals who have experienced Sexual Misconduct have the right to report allegations to the college or to decide not to do so. Students who report Sexual Misconduct have all of the rights contained in the Students' Bill of Rights (copy attached).

Complainants also have these rights:

- To notify campus Public Safety and/or outside law enforcement, or to choose not to report.
- To have emergency access to a college official trained to interview victims of sexual assault and able to provide certain information, including reporting options and information about confidentiality and privacy. The official will, where appropriate, advise about the importance of preserving evidence and obtaining a Sexual Assault Forensic Examination ("SAFE") as soon as possible. The official will also explain that the criminal process uses different standards of proof and evidence, and that any questions about whether an incident violated criminal law should be addressed to a law enforcement official or a district attorney's office.
- To disclose the incident to a college representative who can offer confidentiality or privacy and assist in obtaining services. See Section VI, above.
- To describe the incident only to those campus officials who need the information in order to properly respond and to repeat the description as few times as practicable (subject to the procedures outlined in Sections XI and XII).
- To have allegations of Sexual Misconduct investigated in accordance with CUNY policy.

· To have privacy preserved to the extent possible.

· To receive assistance and resources on campus, including confidential and free on-campus counseling, and to be notified of other services available on and off campus, including the New York State Office of Victim Services.

· To disclose the incident to the college's Human Resources Director or designee (if the respondent is a college employee) or request that a confidential or private resource assist in doing so.

· To disclose the incident confidentially and obtain services from state and local governments.

· To receive assistance from the campus or others in filing a criminal complaint, initiating legal proceedings in family court or civil court, and/or seeking an Order of Protection or the equivalent. In New York City, this assistance is provided by Family Justice Centers located in each borough.

· To receive assistance with effecting an arrest when an individual violates an Order of Protection, which may be provided by assisting local law enforcement in effecting such an arrest.

· To withdraw allegations or involvement from the process at any time.

Where to Report Allegations of Sexual Misconduct on Campus

Students, employees and visitors who experience Sexual Misconduct and wish to report the allegations to the college/CUNY, should notify one of these campus officials/ offices:

· Title IX Coordinator;

· Office of Public Safety;

· Office of Vice President for Student Affairs or Dean of Students;

· Residence Life staff in CUNY owned or operated housing; or

· Human Resources Director.

Contact information for these officials can be found at CUNY's Title IX Website. Complainants are encouraged, but not required, to complete the CUNY Sexual Misconduct Allegation Form. After the form is filled out, it should be brought to one of the offices listed above or submitted electronically through the college's Title IX website (where available) or by email. The college will also respond to allegations made without the form, whether oral or written.

When any of the officials or offices above is notified of allegations of Sexual Misconduct, they will provide a copy of this Policy to the complainant and coordinate with appropriate college offices to address the matter in accordance with this Policy, including providing appropriate supportive measures (addressed in Section VIII, below). These officials and offices will maintain a complainant's privacy to the greatest extent possible, and all information in connection with the allegations, including the identities of the complainant and the respondent, will be shared only with those who have a legitimate need for the information.

Request that the College Maintain a Complainant's Anonymity or Not Conduct an Investigation

Whether a college may maintain a complainant's anonymity or request to not conduct an investigation, depends on whether the allegations will proceed as a Title IX Sexual Harassment matter or a Non-Title IX Sexual Misconduct matter (See Section X).

If the allegations will proceed as a Title IX Sexual Harassment matter, the Title IX Coordinator must inform the complainant that the complainant's identity may not be kept anonymous if the complainant wishes to proceed with a Title IX Formal Complaint, and that the notice to the respondent will reveal the complainant's identity. The complainant may choose whether to file a Title IX Formal Complaint when so informed. If the complainant chooses not to file a Title IX Formal Complaint, their identity will not be disclosed to the respondent.

If the allegations will proceed as a Non-Title IX Sexual Misconduct matter, a complainant may request: (a) that the matter be investigated only to the extent possible without further revealing their identity or revealing further details and/or (b) that no investigation into a particular incident be conducted. If a complainant makes such a request, the Title IX Coordinator will weigh the complainant's request against the college's obligation to provide a safe, non-discriminatory environment for all students, employees and visitors, including the complainant. Factors used to determine whether to honor such a request include, but are not limited to: (a) whether the respondent has a history of violent behavior or is a repeat offender; (b) whether the incident represents escalation of unlawful conduct by the accused from previously noted behavior; (c) any increased risk that the accused will commit additional acts of violence, (d) whether the accused used a weapon or force; (e) whether the complainant is a minor; (f) whether the college possesses other means to obtain evidence such as security footage and (g) whether available information reveals pattern of misconduct at a given location or by particular group.

The college's decision to maintain the complainant's anonymity does not mean that anonymity can be guaranteed in all circumstances; rather, the college will make reasonable efforts to keep information confidential consistent with law. Of course, a college's ability to meaningfully investigate the incident and pursue disciplinary action may be limited by such a request for anonymity. Notwithstanding the decision of the Title IX Coordinator regarding the scope of any investigation, the college will provide the complainant with ongoing assistance and support, including, where appropriate, the supportive measures and accommodations set forth in Section VIII of this Policy.

Filing External Complaints

Individuals who feel that they have been subjected to Sexual Misconduct have the right to avail themselves of any and all of their rights under law, including but not limited to filing complaints with one or more of the outside agencies listed below:

a. U.S. Department of Education, Office for Civil Rights

b. U.S. Equal Employment Opportunity Commission

c. New York State Division of Human Rights

d. New York City Commission on Human Rights

In certain circumstances, the college or unit may close an investigation upon the filing of an external complaint. When this happens, the outside agency takes over the investigation and the college or unit will cooperate with the investigation conducted by the outside agency. If a college or unit closes an investigation for this reason, the Title IX Coordinator must notify the parties in writing.

Action by Bystanders

CUNY encourages employees, students and visitors to take reasonable and prudent actions to prevent or stop an act of Sexual Misconduct that they may witness, unless doing so would pose a safety risk to themselves or others. Although these strategies will depend on the circumstances, they may include direct intervention, calling law enforcement or seeking assistance from a person in authority.

In addition, CUNY encourages employees, students and visitors to report any incident of Sexual Misconduct that they observe or become aware of to the Title IX Coordinator or the offices referenced in Section VII-B, above. Individuals who take action in accordance with this paragraph will be supported by the college, and anyone who retaliates against them will be subject to discipline.

Amnesty for Drug and Alcohol Use

The health and safety of every student at CUNY is of the utmost importance. CUNY recognizes that students who have been drinking and/or using drugs (whether such use is voluntary or involuntary) at a time that Sexual Misconduct occurs may be hesitant to report such incidents due to fear of potential consequences for their own conduct. CUNY strongly encourages students to report Sexual Misconduct to college officials. A bystander or complainant acting in good faith who discloses any incident of Sexual Misconduct to college officials or law enforcement will not be subject to discipline under CUNY's Policy on Drugs and Alcohol18 for violations of alcohol and/or drug use policies occurring at or near the time of the Sexual Misconduct.

Reporting Retaliation

An individual may report allegations of retaliation to the Title IX Coordinator if the individual has been subject to retaliation, as defined in Section III. All retaliation allegations will be investigated in accordance with the investigation procedures set forth in this Policy, and individuals who are found to have engaged in retaliation will be subject to disciplinary action.

SUPPORTIVE MEASURES AND ACCOMMODATIONS

Supportive measures and accommodations are non-disciplinary, non-punitive individualized services designed to restore or preserve equal access to education and to ensure safety, prevent retaliation and avoid an ongoing hostile environment. Supportive measures and accommodations are available to complainants, respondents and other affected parties. Supportive measures are available when a college becomes aware of allegations of Sexual Misconduct (including both Title IX Sexual Harassment matters and Non-Title IX Sexual Misconduct matters), whether or not a complainant chooses to move forward with an investigation and/or resolution. Supportive measures may be provided on an interim or continuing basis. The college may also take reasonable measures to ensure the safety of the college community at large.

The Title IX Coordinator is responsible for coordinating and ensuring the effective implementation of supportive measures and accommodations. When a college learns of allegations of Sexual Misconduct, the Title IX Coordinator will promptly contact a complainant to discuss the availability of supportive measures and accommodations, discuss the complainant's wishes with respect to supportive measures and accommodations and inform complainant that supportive measures and accommodations are available even if the complainant does not wish to proceed with an investigation and/or resolution of the allegations. Requests for supportive measures and accommodations should be made to the Title IX Coordinator.

The Title IX Coordinator will work with the Chief Student Affairs Officer19 to identify a trained staff member to assist students to obtain supportive measures and accommodations. The Title IX Coordinator will work with the Human Resources Director to assist employees to obtain supportive measures and accommodations.

Range of Supportive Measures and Accommodations

Possible supportive measures and accommodations may include:

- Making appropriate changes to academic programs, including changes in class schedule, accommodations to permit students to take an incomplete or drop a course or courses without penalty, permitting students to attend a class via videoconference platform or other alternative means, providing an academic tutor, or extending deadlines for assignments;
- Making appropriate changes to residential housing situations or providing assistance in finding alternate housing;
- Changing an employee's work assignment or schedule;
- Providing an escort to and from class or campus work location;
- Arranging appropriate transportation services to ensure safety;
- Offering counseling services through the college Counseling Center or other appropriate office, or referral to an off-campus agency;
- Enforcing an Order of Protection issued by a court;
- Issuing a No Contact Order whereby continued intentional contact would be a violation of CUNY Policy and subject to disciplinary action (see discussion below); and
- Emergency removal of a respondent when they pose an imminent threat to the physical health or safety of any person (see discussion below).

No Contact Orders

A No Contact Order is a directive issued by a college prohibiting intentional contact or communication between specified parties. An individual who intentionally violates a No Contact Order is in violation of CUNY Policy and will be subject to disciplinary action. No Contact Orders may be issued for both complainants and respondents, as well as other individuals as appropriate. No Contact Orders are issued by the Chief Student Affairs Officer (for students) and the Director of Human Resources (for employees).

Emergency Removal

In exceptional circumstances, where a respondent presents an immediate threat to the physical health or safety of any student or other individual arising from a report of Sexual Misconduct, the college may effectuate an emergency removal of a student or take similar emergency measures against an employee, consistent with applicable CUNY Bylaws and policies.

Prior to emergency removal under this Section, the President or their designee will, in cooperation with the appropriate campus officials, conduct an individualized safety and risk analysis to determine whether a respondent presents an immediate threat to the physical health or safety of any person arising from a report of Sexual Misconduct. The college will give the student respondent notice and an opportunity to challenge the decision immediately following the removal (see Section VIII-D, below). Both parties will be notified at the same time and in the same manner of the emergency removal and if or when the emergency removal is lifted.

Process for Review of Supportive Measures and Accommodations, Including No Contact Orders and Emergency Removal

Parties may request a prompt review of the need for and terms of supportive measures that directly affect them, including No Contact Orders and emergency removal. Issues that may be raised include possible modification or discontinuance of a No Contact Order.

If either party is a student, a request for review must be made to the college's Chief Student Affairs Officer. If neither party is a student, a request for review must be made to the college's Human Resources Director. If a case involves both a student and an employee, the Chief Student Affairs Officer will consult with the Human Resources Director before making a decision. Requests for review must be in writing and parties may submit evidence to support their request. All requests will be reviewed within seven (7) days after receipt.

EVALUATION OF INITIAL ALLEGATIONS OF SEXUAL MISCONDUCT

Upon learning of allegations of Sexual Misconduct, the Title IX Coordinator will evaluate whether the alleged behavior falls within the scope of Title IX Sexual Harassment. If the alleged Sexual Misconduct meets these criteria, it must proceed as a Title IX Sexual Harassment matter:

a. the allegations, if true, meet the definition of Title IX Sexual Harassment as defined above in Section III; and

b. at the time the allegations are made, the complainant is participating in, or attempting to participate in an education program or activity at CUNY.

If the alleged Sexual Misconduct does not meet the above criteria, the allegations will proceed as a Non-Title IX Sexual Misconduct matter. For allegations that involve multiple incidents of Sexual Misconduct, some of which qualify as a Title IX Sexual Harassment matter and some of which qualify as a Non-Title IX Sexual Misconduct matter, the allegations will proceed as a Title IX Sexual Harassment matter. Allegations of discrimination covered by CUNY's Equal Opportunity and Non-Discrimination Policy will continue to be referred to the Chief Diversity Officer and handled pursuant to separate procedures outlined in that policy.

Rights and procedures that apply to all Sexual Misconduct matters are addressed in Section X. Procedures for the investigation, resolution and/or adjudication of Title IX Sexual Harassment matters are addressed in Section XI. Procedures for the investigation, resolution and/or adjudication of Non-Title IX Sexual Misconduct matters are addressed in Section XII.

RIGHTS AND PROCEDURES THAT APPLY TO ALL SEXUAL MISCONDUCT MATTERS

The following rights and procedures apply to all allegations of Sexual Misconduct, regardless of whether the allegations will proceed as a Title IX Sexual Harassment matter or a Non-Title IX Sexual Misconduct matter.

Rights of Parties during any Investigation and Resolution

Parties will have the following rights when an investigation or resolution is initiated under either Section XI or XII of this Policy:

· To an investigation and process that is fair, impartial, timely, thorough and provides a meaningful opportunity to be heard;

· To have the allegations investigated and/or adjudicated by individuals who receive annual training in conducting investigations of sexual violence, the effects of trauma, impartiality, and the rights of the respondent, including the right to a presumption that the respondent is "not responsible" until any finding of responsibility;

· To have the allegations investigated, resolved and/or adjudicated by individuals who are free from a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent;

· To have the college's judicial or conduct process run concurrently with any criminal justice investigation and proceeding, except for temporary delays requested by external municipal entities while law enforcement gathers evidence. Temporary delays should not last more than ten (10) days except when law enforcement specifically requests and justifies a longer delay;

· To an investigation process where the burden of proof and burden of gathering evidence sufficient to reach a determination regarding responsibility rests on the college and not on the parties;

· To receive reasonable advance written notice of any meeting they are required to or eligible to attend;

· To exclude their own prior sexual history with persons other than the other party in the investigation or conduct process and their own mental health diagnosis and/or treatment, subject to certain exceptions described in Sections XI and XII;

· To offer evidence during the investigation;

· To have irrelevant evidence excluded from any hearing;

· To review documents and tangible evidence, consistent with the Family Educational Rights and Privacy Act ("FERPA") and other laws (see Sections XI or XII for additional details);

· To be accompanied by an advisor of their choice (who may be an attorney), who may assist and advise throughout the process, including during all related meetings and hearings.

Advisors must comply with applicable CUNY policies and procedures;

· To simultaneous notice of the outcome of proceedings, including written notice of findings of fact, decisions and sanctions if any, as well as the rationale for the decision and any sanction;

· To access to a full and fair record of any hearing;

· To protection against retaliation as defined in Section III; and

· To protection against the provision of false statements and evidence, as defined in Section III.

Informal Resolution

Informal Resolution is an alternative to the formal investigation and adjudication procedures outlined in Sections XI and XII and may include administrative resolution (such as a mutual agreement to abide by a No Contact Order), acceptance of responsibility and penalty, mediation or other alternative dispute resolution. In some cases, informal resolution may represent a beneficial outcome for both parties by providing an alternative to the formal investigation and adjudication process.

This informal resolution process is available in matters proceeding as Title IX Sexual Harassment matters and Non-Title IX Sexual Misconduct matters, except in cases involving Title IX Sexual Harassment allegations by a student against an employee.

Informal resolution may take place at any point prior to a determination of responsibility. For Title IX Sexual Harassment matters, informal resolution is available after a Title IX Formal Complaint is filed. The Title IX Coordinator must consider every eligible case for informal resolution. When the Title IX Coordinator determines that it is appropriate to refer a matter for informal resolution, the Title IX Coordinator will provide the parties with written notice that an informal resolution is being offered to resolve the allegations. This written notice will include:

· A description of the allegations;

· The requirements of the informal resolution process, including the circumstances under which an informal resolution will preclude the parties from resuming an investigation and formal resolution arising from the same allegations;

· Potential consequences resulting from participating in the informal resolution process, including what records will be maintained or could be shared with the other party; and

· Notice that either party has the right to withdraw from the informal resolution process and resume an investigation and formal resolution process at any time prior to agreeing to an informal resolution.

Both parties must agree to begin the informal resolution process. The time frame for investigations will be tolled while the parties engage in the informal resolution process. The Title IX Coordinator must reevaluate the parties' progress towards informal resolution every thirty (30) days and has the discretion to terminate the informal resolution process and resume the investigation at any time.

Upon referral by the Title IX Coordinator, the informal resolution process is conducted by a qualified staff or faculty member designated by the Title IX Coordinator, in coordination with the Chief Student Affairs Officer or a designated Human Resources representative, as applicable. Either party has the right to end the informal resolution process at any time prior to finalizing an informal resolution agreement.

Any agreement reached through informal resolution must be acceptable to both parties and the college. If a resolution is reached, the parties will be notified in writing, and a written memorandum will memorialize the agreed upon resolution. Both parties must provide their voluntary, written consent before an informal resolution agreement is finalized. Once finalized, the obligations in the agreement will be binding and the allegations of Sexual Misconduct (and for Title IX Sexual Harassment matters, the Title IX Formal Complaint) will be deemed resolved. Once finalized, this memorandum will be maintained for seven (7) years, in compliance with recordkeeping requirements outlined in Section X-J.

Information learned as a direct result of the informal resolution process will not be documented in an investigatory report or subsequent adjudication. However, information learned from another source will not be excluded from an investigatory report or subsequent adjudication merely because it was discussed or raised during the informal resolution process. The staff or faculty member conducting the informal resolution process is precluded from participating as a witness in the investigation or participating as a witness or presenter in a subsequent adjudication. Violations of informal resolution agreements will be referred for discipline or other appropriate action in accordance with CUNY Bylaws, policies and collective bargaining agreements.

CUNY-wide Sexual Misconduct Panel and Committee Structure

CUNY will constitute a CUNY-wide Sexual Misconduct Panel ("the Panel") comprised of faculty members, Higher Education Officer series employees ("HEO"), and students from its constituent campuses, from which members will be drawn to serve as the decision-maker at hearings (Adjudication Committee) and the decision-maker of appeals (Appeal Committee) for both Title IX Sexual Harassment matters and Non-Title IX Sexual Misconduct matters. CUNY will consult with each College President to help constitute the Panel. When selecting faculty members, the President shall consult with the faculty member who is the head of the appropriate campus governance body or where the President is the head of the governance body, the faculty members of its executive committee. Each Panel member should be specially trained annually on the relevant law and this Policy.

Each Adjudication and Appeal Committee shall be comprised of three members of the Panel. Panel members will be selected on a rotation basis and will serve CUNY-wide, but will not serve on cases from their home campus. For cases in which the respondent is a student, each Committee will consist of one (1) faculty member or one (1) HEO, one (1) student member and a chairperson, who will be a faculty member or HEO. For cases in which the respondent is a faculty member, each committee will consist of two (2) faculty members and a chairperson, who may be a faculty member or HEO. For cases in which the respondent is an HEO, each committee will consist of two (2) HEOs and a chairperson, who may be a faculty member or HEO. For all other cases in which the respondent is an employee, each committee will consist of two (2) faculty members or one (1) faculty member and one (1) HEO and a chairperson, who may be either a faculty member or HEO.

The chairperson of each Committee will preside at all meetings and decide and make all procedural rulings for the Committee. The Committee will collectively decide by majority vote whether the respondent is responsible for the alleged Policy violation(s). Hearings will be scheduled promptly (including during the summers) at a convenient time and efforts must be made to ensure full student and faculty representation.

In the event that any Committee member, including the chairperson, cannot continue, the University Title IX Director will appoint another Committee member from the Panel to fill the vacant seat.

Panel members will not participate in a case if they have been involved in the investigation, will be participating in the hearing as a witness or if they have a direct interest in the outcome of the matter. Panel members will not serve on a Committee if they have previously participated in a case involving the same parties.

Conflict/Bias

If a party believes that any individual involved in the investigation, resolution, adjudication or appeals process has a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent, either party may make a request to have that conflicted or biased individual removed from the process. Requests for removal must be made in writing within five (5) days of the notification that the individual is to be involved and include a detailed description of the conflict or bias. Requests for removal of a member of the Adjudication Committee must be made at least one (1) day before a hearing. All requests for removal must be directed to the University Title IX Director. After receiving a request for removal, the University Title IX Director will ask the individual with the alleged conflict or bias to provide a short, written response to the request for removal and consider that response before making a determination. If a conflict or bias exists, the University Title IX Director will take immediate steps to replace that investigator, informal resolution facilitator or Committee member to ensure an impartial and fair process.

If any administrator designated by this Policy to participate in the investigation or resolution of Sexual Misconduct allegations is the respondent, the College President will appoint another college administrator to perform such person's duties under this Policy. If the President is the respondent, the investigation will be handled by the University Title IX Director or designee. In other appropriate cases in which a high-level administrator is the respondent, the investigation may be referred for investigation to the University Title IX Director or designee.

Appeals From the Adjudication Committee's Determination of Responsibility

A party may appeal the Adjudication Committee's determination of responsibility and/or the penalty imposed on the following grounds:

- Procedural irregularity that affected the outcome of the matter
- New evidence that was not reasonably available at the time of the hearing, which could affect the outcome of the matter
- The Title IX Coordinator, investigator or Adjudication Committee had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter; or
- The disproportionate nature of the penalty.

The Appeal Committee may modify the penalty or remand the matter for a new hearing.

Parties intending to appeal under this section must send a written Notice of Appeal to the University Title IX Director within fifteen (15) days after the delivery of the written determination of responsibility. The University Title IX Director will notify the non-appealing party in writing within five (5) days of receipt of the Notice of Appeal and will instruct the college to provide the hearing recording to the parties. The college will provide the hearing recording to the parties in a timely manner.

The appealing party must submit their written appeal to the University Title IX Director within fifteen (15) days after the delivery of the hearing recording. The University Title IX Director will provide the appealing party's submission to the non-appealing party within five (5) days of submission. The non-appealing party will have the opportunity to submit a written response to the appeal, due within fifteen (15) days after the delivery of the appealing party's submission.

The University Title IX Director will facilitate the composition and scheduling of the Appeal Committee, which will be comprised of members of the CUNY-wide Sexual Misconduct Panel. The composition of the Appeal Committee is described above in Section X-C. Panel members that served on the Adjudication Committee will not serve on the Appeal Committee for the same matter.

The Appeal Committee will review the hearing materials and written submissions of the parties. The Appeal Committee will issue a written decision that indicates the final outcome and rationale for that decision within fifteen (15) days of receipt of the non-appealing party's written submission or failure to provide a submission. The written decision will be provided simultaneously to both parties.

Hearing Recording

The college shall make a recording of each hearing by some means such as a stenographic transcript, an audio recording or the equivalent. No other recording of the proceedings is permitted. A respondent who has been found responsible after a hearing is entitled upon request to a copy of such a record without cost upon the condition that it is not to be disseminated except to the respondent's advisor. In the event of an appeal, the parties will be provided a copy of such a record without cost, upon the condition that it is not to be disseminated except to their advisors.

Prohibition on Unauthorized Copying or Recording

The parties are prohibited from recording any part of the investigation and grievance process and from unauthorized copying of documents or materials. Copying includes but is not limited to: audio or video recording, streaming, photographing, scanning, transcribing, or any other form that conflicts with the spirit of this directive. Allegations of non-compliance will be reviewed by the Office of Student Affairs, or Human Resources, as appropriate, and may result in disciplinary action.

Student Respondent Withdrawal Before Allegations are Resolved

A student who withdraws from CUNY shall not be exempt from a Sexual Misconduct investigation or adjudication that commenced prior to withdrawal. When a student respondent withdraws from CUNY with a Sexual Misconduct investigation or adjudication pending, the respondent will be barred from attending any other college, school, or unit of CUNY until the investigation and/or adjudication is complete or the allegations are otherwise resolved. If the respondent fails to appear at a subsequent hearing, the college may proceed in absentia, and any decision and sanction shall be binding, pending appeal.

When a college is notified of a respondent's withdrawal, the college must place a notation on the respondent's transcript that the respondent "withdrew with conduct charges pending." If the respondent is subsequently found not responsible at a hearing, the transcript notation will be removed. If the respondent is subsequently found responsible at a hearing and the penalty is either suspension or expulsion, the transcript notation will be adjusted in accordance with Section X-I, below.

When a student respondent transfers colleges within CUNY while an investigation is pending, the college that instituted the investigation must complete the investigation before transferring the matter to the respondent's new institution for adjudication.

Transcript Notations

When a student respondent is found responsible and the penalty is either suspension or expulsion, the college must place a notation on the respondent's transcript stating that respondent "was suspended [or expelled] after a finding of responsibility for a code of conduct violation."

For all other cases, after four years from the date of the conclusion of the disciplinary proceeding, or one year after the conclusion of any suspension, whichever is later, the respondent has the right to request that a transcript notation from a finding of responsibility be removed. In cases where a student respondent was expelled as a result of a Clery Act crime of violence, including but not limited to sexual assault, the notation will not be removed. If a finding of responsibility is vacated for any reason, the notation must be removed.

Recordkeeping

All records related to a college's response to allegations of Sexual Misconduct must be maintained by the college for 7 years from the last action on a matter, unless such records must be maintained for a longer period of time pursuant to CUNY's Records Retention and Disposition Schedule. These records include: records of any actions, including any supportive measures or accommodations taken in response to allegations of Sexual Misconduct; investigation records, materials, and documents; determinations regarding responsibility and disciplinary sanctions; remedies provided to a complainant designed to restore or preserve equal access to CUNY's education program or activity; any appeals and the result; any informal resolution and the result; and any recordings or transcripts of hearings.

CUNY's Records Retention and Disposition Schedule requires that student disciplinary records be maintained permanently.

PROCEDURES FOR TITLE IX SEXUAL HARASSMENT MATTERS

The following procedures apply only to Title IX Sexual Harassment matters.

Requirement of a Title IX Formal Complaint

The Title IX Coordinator will determine if the manner in which the initial allegations were reported meets the criteria of a Title IX Formal Complaint, which is required to initiate a grievance process or resolution.

A Title IX Formal Complaint is a document filed by a complainant or signed by the Title IX Coordinator alleging Title IX Sexual Harassment (as defined in Section III) against a respondent and requesting that the college investigate the allegations. The Title IX Coordinator may sign a Title IX Formal Complaint with or without a complainant's desire to participate in a grievance process. A Title IX Formal Complaint may be a physical document, email or electronic submission through a campus online form, so long as it contains the complainant's physical or digital signature, or otherwise indicates that the complainant is the person filing the complaint.

If the manner in which the initial allegations were reported does not meet the criteria of a Title IX Formal Complaint, the Title IX Coordinator will contact the complainant to explain how to file a Title IX Formal Complaint and notify them that a Title IX Formal Complaint is required to resolve the allegations.

If no Title IX Formal Complaint is received within a reasonable time, the Title IX Coordinator may administratively close the matter. A complainant may file a Title IX Formal Complaint at any time thereafter.

Initiation of Title IX Grievance Procedure

Upon receipt of a Title IX Formal Complaint, the Title IX Coordinator will notify the known parties that the college is commencing a Title IX grievance procedure. The notice will be in writing and will include the following:

· CUNY's Policy on Sexual Misconduct;

· Notice of the allegations, including sufficient details known at the time notice is sent, including the date, time and location of the alleged behavior, the identity of the parties and the specific act or acts that are alleged to violate the Policy's prohibition of Title IX Sexual Harassment, defined in Section III;

· A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the grievance process;

· A statement that the allegations outlined in the notice may not be the final allegations considered by the college, and notice that if the college decides to investigate additional allegations, the college will provide notice of the additional allegations in a timely manner and with sufficient time for the parties to prepare for any hearing;

· Notice that the parties may have an advisor of their choice, who may be an attorney;

· Notice that parties may inspect and review evidence, as outlined in Section XI-E-b;

· Notice that the parties are entitled to written notice of the date, time, location, participants and purpose of all hearings, investigative interviews, or other meetings, with sufficient time for the party to prepare to participate in any hearing, investigative interview or meeting;

· Notice that the burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rest on the college and not on the parties;

· CUNY's prohibition on knowingly making false statements or knowingly submitting false information during the grievance process, as defined in Section III; and

· CUNY's prohibition on retaliation, as defined in Section III.

This notice will be provided at least five (5) days before any initial interview unless a party consents to a shorter period.

Informal Resolution

A Title IX Formal Complaint may be resolved through an informal resolution process (Section X- B).

Dismissal of Title IX Formal Complaint Prior to Resolution

Mandatory Dismissals - If, at any time after receipt of a Title IX Formal Complaint, it becomes clear that the allegations, if true, do not meet the definition of Title IX Sexual Harassment, the Title IX Coordinator must dismiss the Title IX Formal Complaint.

Discretionary Dismissals - The Title IX Coordinator may dismiss a Title IX Formal Complaint, or any allegations therein, if:

· The complainant notifies the Title IX Coordinator in writing that the complainant would like to withdraw the Title IX Formal Complaint or any allegations therein;

· The respondent is no longer enrolled or employed by CUNY; or

· Specific circumstances exist that prevent the college from gathering evidence sufficient to reach a determination as to the Title IX Formal Complaint or allegations therein.

Process following dismissal of Title IX Formal Complaint - Upon mandatory or discretionary dismissal of a Title IX Formal Complaint, the Title IX Coordinator must determine whether the allegations will proceed as a Non-Title IX Sexual Misconduct matter. The parties will be notified of the dismissal in writing and provided an opportunity to appeal, as discussed in Section XI-D-d. This notice will include:

· The basis for the dismissal;

· Whether the allegations will proceed as a Non-Title IX Sexual Misconduct matter; and

· The parties' right to appeal the dismissal and the procedures to do so.

Appeal - Either party may appeal the dismissal of a Title IX Formal Complaint on the following grounds:

· A procedural irregularity affected the outcome of the matter;

· New evidence that was not reasonably available at the time the dismissal was made, that could affect the outcome of the matter; and/or

· The Title IX Coordinator had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent, that affected the outcome of the matter.

Appeals under this section must be directed to the University Title IX Director in writing within five (5) days after the delivery of the written dismissal notice.

The University Title IX Director will notify the non-appealing party in writing within five (5) days of the receipt of any appeal under this section, and will notify the non-appealing party of their opportunity to submit a written statement in support of, or challenging the dismissal of the Title IX Formal Complaint, due within five (5) days after the delivery of written notice from the University Title IX Director. The University Title IX Director will issue a written decision describing the result of the appeal and the rationale for the result within fifteen (15) days of the receipt of the appeal or within fifteen (15) days of the receipt of the opposing party's submission, whichever is longer. The University Title IX Director will provide the written decision simultaneously to both parties.

A Title IX Coordinator must wait until an appeal under this section is decided by the University Title IX Director before taking any further action as a Non-Title IX Sexual Misconduct matter.

Formal Resolution and Investigation

Rights of the Parties

When a Title IX Formal Complaint proceeds to formal resolution and investigation, the parties have the following rights in addition to those outlined in Section X-A:

· To have the Title IX Formal Complaint investigated, resolved and/or adjudicated by individuals who receive training as required by federal regulation;

· To an evaluation of all relevant evidence, including both inculpatory and exculpatory evidence and credibility determinations that are not based on a person's status as a complainant, respondent or witness;

· To receive reasonable advance written or electronic notice of allegations, including the date, time, location and general description of the allegations, as well as the specific conduct rule or law violated and the possible sanction;

· To exclude questions and evidence about their own sexual predisposition or prior sexual behavior, unless such questions and evidence are offered to prove that someone other than the respondent committed the conduct alleged by the complainant, or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent (complainant only);

· To exclusion (including the college's access, consideration, disclosure or other use) of a party's records that are made or maintained by a physician, psychiatrist, psychologist or other recognized professional or paraprofessional, and which are made and maintained in connection with the provision of treatment to the party, unless the college obtains the party's voluntary, written consent;

· To offer evidence during the investigation, including both fact and expert witnesses and other inculpatory and exculpatory evidence;

· To an investigative report that fairly summarizes relevant evidence;

· To inspect and review any evidence obtained as part of the investigation that is directly related to the allegations raised in a Title IX Formal Complaint, including inculpatory or exculpatory evidence whether obtained from a party or other source, consistent with FERPA and other law; and to submit a written response within ten (10) days of receiving said evidence and to have that written response considered by the Title IX Coordinator prior to the investigative report being finalized;

· To review the investigative report at least ten (10) days prior to any hearing and to respond in writing prior to a hearing or other time of determination regarding responsibility; and

· To a live hearing and cross examination; CUNY will provide an advisor to any party who does not have one, for the limited purpose of conducting cross examination at a hearing.

Investigation

The Title IX Coordinator is responsible for conducting investigations in a prompt, thorough, and impartial manner. Whenever an investigation is conducted, the Title IX Coordinator must:

· Inform the parties that a Title IX grievance procedure and investigation is being commenced and their rights during such investigation, as outlined in Sections X-A and XI- E-a;

· Coordinate investigative efforts with other appropriate offices;

· Ensure that the burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rest on the college and not on the parties; and

· Interview witnesses who might reasonably be expected to provide information relevant to the allegations, and review relevant documents and evidence.

The college must make reasonable efforts to ensure that the investigation is carried out within a reasonably prompt timeframe. While some allegations may require more extensive investigation, when possible, the investigation of a Title IX Formal Complaint must be completed within one hundred-twenty (120) days of receipt of the Title IX Formal Complaint (including the evidence review process, completion of the investigative report and report review process, as discussed below).

If there is a delay in completing the investigation, the Title IX Coordinator must notify the parties in writing and indicate the reason for the delay. The Title IX Coordinator should also note the reason for delay and projected timeline for completing the investigation in their case file. The reason for extension of the time frame of an investigation may include, but is not limited to: compliance with a request by law enforcement; a limited accommodation for the availability of parties, their advisors and witnesses; students on leave; exam periods, school breaks or vacations; and accounting for the complexities of a specific investigation, including the number of witnesses and volume of information provided by the parties.

Post Investigation Review of Relevant Documents and Materials

Prior to the completion of the investigative report (discussed below), the Title IX Coordinator will send the parties (either in hard copy or electronic form) all of the relevant documents and materials gathered during the investigation that are directly related to the allegations raised in the Title IX Formal Complaint. These materials include any evidence upon which the Title IX Coordinator does not intend to rely when making a determination regarding responsibility and inculpatory or exculpatory evidence, whether obtained from a party or another source. The parties may submit a written response, due within ten (10) days after the materials are provided, which will be considered by the Title IX Coordinator prior to finalizing the investigative report.

The parties and their advisors must sign an agreement not to disseminate any of the evidence subject to inspection and review or use such evidence for any purpose unrelated to the Title IX grievance process.

The parties will have access to use and refer to these documents and materials during a hearing.

Investigative Report

Upon completion of the investigation, the Title IX Coordinator must prepare an investigative report, which will fairly summarize all relevant evidence gathered during the investigation. The investigative report must include:

· Procedural history of the case;

· Alleged Policy violations;

· A list of individuals interviewed;

· A list of exhibits;

· A list of additional documents and materials (not included as an exhibit) obtained as part of the investigation and directly related to the allegations, including inculpatory or exculpatory evidence; and

· A summary of party and witness statements and other relevant evidence, including a summary of relevant evidence pertaining to each allegation.

Review of Investigative Report

Upon completion of the investigative report, and atleast ten (10) days prior to any hearing, the Title IX Coordinator will send the report to each party (and the party's advisor, if applicable) for their review and written response. A party's written response to the report is due within ten (10) days after the report is provided, and will be shared with the Adjudication Committee and other party prior to a hearing.

Live Hearing

Following the completion of the investigation and investigative report, as outlined above in Section XI-E-b, all Title IX Sexual Harassment matters will proceed to a live hearing. The same process and procedures will apply regardless of whether the respondent is a student or employee, although specific information regarding employee penalties is included in Section XI-E-c-ii-3 and Section XI-E-f.

When possible, the live hearing must be completed within sixty (60) days after completion of the investigation.

Live hearings pursuant to this section may be conducted with all parties physically present in the same geographic location or, at the college's discretion, any or all parties, witnesses, and other participants may appear at the live hearing virtually, with technology enabling participants to see and hear each other simultaneously.

Pre-hearing procedures

Referral for Hearing

Following the conclusion of the investigative process, the Title IX Coordinator will notify the following parties that the matter is ready for a hearing before the Adjudication Committee:

· For student respondents: University Title IX Director and college Office of Student Affairs.

· For employee respondents: University Title IX Director; college Office of Human Resources and college Labor Designee.

The University Title IX Director will facilitate the selection and scheduling of the Adjudication Committee, which will be comprised of members of the CUNY-wide Sexual Misconduct Panel (See Section X-C). The University Title IX Director will determine an appropriate physical location for the hearing on a case by case basis. After the Adjudication Committee is selected and the hearing is scheduled, the college Office of Student Affairs or college Office of Human Resources will coordinate the hearing, including, for example, providing a location, facilitating a remote platform, recording the hearing and arranging for presenters and advisors, as needed.

Issuance of Notice of Hearing

The college Office of Student Affairs or Office of Human Resources/Labor Relations will issue the Notice of Hearing to both parties, which will include the date, time and location of the hearing and notice of the allegations identified in the investigative report. The Notice of Hearing must be sent by both first-class mail (or overnight mail) to the physical address or P.O. box address appearing on the records of the college and email using the party's CUNY email address, and any other email address known to the college. Notice of at least seven (7) days will be provided.

The parties are permitted one adjournment each, for a reasonable amount of time under the circumstances, without specifying a reason. Additional requests for an adjournment must be made at least five (5) days prior to the hearing date, and shall be granted or denied at the discretion of the chairperson of the Adjudication Committee. If either party fails to respond to the notice, appear on the adjourned date, or request an extension, the college may proceed without their presence, and any determinations of responsibility will be final, subject to appeal.

The Notice of Hearing must contain the following:

· A complete and itemized statement of the allegations against the respondent, including the policy the respondent is charged with violating, and the possible penalties for such violation; and

· A statement that the parties have the right to attend and participate fully in the hearing including the right:

o To present their side of the story;

o To present witnesses and evidence on their behalf;

o To be represented by an advisor (who may be an attorney, at their own expense) and if the respondent or the complainant does not have an advisor at the hearing, the college must provide an advisor for the limited purpose of cross examination.

o For their advisor to cross-examine witnesses presenting evidence;

o For the respondent to remain silent without assumption of responsibility; and

o A warning that anything said may be used at a non-college hearing.

Review of Evidence before Hearing

At least five (5) days prior to the commencement of a hearing, the college will provide the parties and their advisors:

· A list of documents or other tangible evidence that the college intends to use at the hearing. In the event the college intends to use documents or other tangible evidence at the hearing that was not provided to the parties during the investigation phase, the college must provide those materials to the parties and their advisors at least five (5) days prior to commencement of a hearing; and

· A copy of the other party's written response to the investigative report.

At least five (5) days prior to the commencement of a hearing, the college will provide the members of the Adjudication Committee the following:

· The investigative report, including exhibits; and

· The parties' written responses to the investigative report.

Hearing Procedures

All hearings pursuant to this Policy are closed hearings, meaning that participation and observation is limited to the parties, their advisors, witnesses, the Adjudication Committee, the college presenter and any college or CUNY staff required to coordinate the hearing.

Roles and Responsibilities

The participants at the hearing are the college, the respondent and the complainant.

Adjudication Committee

The Adjudication Committee, discussed in Section X-C, serves as the decision-maker at the hearing. Prior to the hearing, the Adjudication Committee will review the investigative report, exhibits and the parties' written responses to the investigative report. During the hearing, the Adjudication Committee will listen to the testimony, review and consider evidence and ask questions of the witnesses. After the hearing, the Adjudication Committee will consider all of the information and evidence reviewed, make a decision as to responsibility and penalty (if applicable) and issue a written determination of responsibility.

Adjudication Committee Chairperson

The chairperson must preside at all hearing sessions and meetings. At the commencement of the hearing, the chairperson must inform the parties of the charges, the hearing procedures, and their rights. The chairperson must then ask the respondent to state whether they are responsible or not responsible for the conduct. The chairperson shall exclude from the hearing room all persons who are to appear as witnesses, except the respondent and the complainant.

The chairperson must rule on the admissibility of evidence and must exclude irrelevant questioning, testimony and evidence.

College Presenter

The college will be represented by a presenter. Each academic year, the Chief Student Affairs Officer of each campus, must appoint/identify one or more campus college employees to serve as presenters for hearings against student respondents involving their campuses. Similarly, the College Labor Designee, Director of Human Resources or a designee must appoint/designate one or more campus college employees to serve as presenters against employee respondents involving their campuses. This list should be forwarded to the University Title IX Director and the Office of the Vice Chancellor for Student Affairs prior to the first day of the academic year.

Advisors

The parties may be accompanied by an advisor of their choice (who may be an attorney) who may fully participate at the hearing, including advising and representing a party. In the event a party does not have an advisor present at the hearing, the college must provide an advisor for the limited purpose of conducting cross-examination on behalf of that party.

Advisors must treat all hearing participants, including the Adjudication Committee, parties and witnesses, with respect. Advisors must also abide by the Rules of Decorum promulgated by CUNY. Any party intending to appear with an attorney must give the college five (5) days' notice of the attorney's name and contact information.

Responsibility Phase

The college bears the burden of proving the allegations by a preponderance of the evidence.

Presentation of Evidence

Evidence will be presented in the following order: college, complainant and respondent. The parties have an equal opportunity to present relevant evidence, including fact and expert witnesses and other inculpatory and exculpatory evidence to the Adjudication Committee. If a party submits documentary evidence during a hearing that was not previously shared during the investigation, the chairperson may, at the request of any other party grant and adjournment of the hearing as necessary in the interest of fairness, to permit the requesting party time to review the newly produced evidence.

Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged by the complainant, or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent.

Questions and evidence of the mental health diagnosis and/or treatment of any party may not be introduced, unless that party provided their voluntary and written consent for such materials to be made part of the investigation and the information is directly related to the allegations raised in the Title IX Formal Complaint.

Cross Examination

Each party's advisor will be permitted to ask the other party and any witnesses all relevant questions and follow-up questions, including those challenging credibility. A party may not conduct cross-examination personally, but must do so through their advisor. In the event a party does not have an advisor and the case proceeds to a hearing, the college must provide an advisor for the limited purpose of conducting cross-examination on behalf of that party.

Before a complainant, respondent, or witness answers a cross-examination or other question, the Adjudication Committee Chairperson must first determine whether the question is relevant and explain any decision to exclude a question as not relevant.

If a party or witness does not submit to cross examination at the live hearing, the Adjudication Committee must not rely on any statement of that party or witness in reaching a determination regarding responsibility; provided, however, that the Adjudication Committee cannot draw an inference about the determination regarding responsibility based solely on a party's or witness's absence from the live hearing or refusal to answer cross examination or other questions.

Penalty Phase

If a respondent is found responsible for violating the Policy, the Adjudication Committee will determine the penalty to be imposed; except that if the respondent is a represented employee whose discipline is subject to a collective bargaining agreement with CUNY or an employee with disciplinary rights under the New York State Civil Service Law, there will be no penalty phase, and a determination that the respondent is responsible will be referred for discipline under the applicable collective bargaining agreement or Civil Service Law.

Following the responsibility phase of the hearing, the complainant, respondent, and college, will have the opportunity to introduce evidence and make arguments related to what the appropriate penalty should be, in the event the respondent is found responsible for violating the Policy. The complainant, respondent and college will also have the opportunity to introduce evidence of and comment on the respondent's character, including any past findings of responsibility for Domestic Violence, Stalking, Sexual Assault or any other Sexual Misconduct, and submit a statement regarding the impact of the conduct.

The college may also introduce a copy of the respondent's previous disciplinary records, if any, from any CUNY institution the respondent has attended, provided the respondent was shown a copy of the records prior to the commencement of the hearing.

The Adjudication Committee will consider the disciplinary records, as well as any documents or character evidence introduced by the respondent, the complainant, or the college, in determining an appropriate penalty.

If either party chose not to participate in the responsibility phase of hearing, they still have the opportunity to introduce evidence and make arguments related to what the appropriate penalty should be and to provide or make an impact statement.

a. Determination of Responsibility

Following the hearing, the Adjudication Committee will determine whether there is a preponderance of evidence that the respondent violated the Policy, which may be based on information contained in the investigative report and the testimony and evidence presented at the hearing.

The Committee will issue a written Determination of Responsibility, which must include the following:

· Identification of the allegations potentially constituting Sexual Misconduct;

· A description of the procedural steps taken from the receipt of the Title IX Formal Complaint through the determination, including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather other evidence, and hearings held;

· Findings of fact supporting the determination;

· Conclusions regarding the application of this Policy to the facts;

· A statement of, and rationale for, the result as to each allegation, including a determination regarding responsibility;

· If a student respondent is found responsible, any disciplinary sanctions that will be imposed on the respondent or, if an employee is found responsible, a statement that the matter will be referred for discipline under the applicable collective bargaining agreement or Civil Service Law, as applicable;

· A statement of whether remedies designed to restore or preserve equal access to CUNY's education program or activity will be provided to the complainant; and

· Procedures and permissible bases for the parties to appeal.

The college will send the written determination of responsibility to the parties simultaneously, within fifteen (15) days of the conclusion of the hearing. The determination of responsibility will be sent by both first-class mail (or overnight mail) to the physical address or P.O. box address appearing on the records of the college and email using the party's CUNY email address, and any other email address known to the college. In cases involving two or more complainants or respondents, the college has twenty (20) days from the conclusion of the hearing to send the decision. The decision is final subject to any appeal.

Remedies for Complainants

In the event the respondent is found responsible for violating the Policy, the Title IX Coordinator will implement remedies for the complainant, designed to restore or preserve equal access to the recipient's education program or activity. Such remedies may include a continuation of the same supportive measures and accommodations described in Section VIII, but need not be non- disciplinary or non-punitive and need not avoid burdening the respondent.

Sanctions for Respondents Range of Sanctions for Student Respondents

Sanctions for student respondents range from a warning to suspension or expulsion from CUNY. When a disciplinary hearing results in a penalty of expulsion or suspension for one term or more, the respondent must be barred from admission to, or attendance at, any other unit of CUNY while the penalty is being served.

Students may also be subject to CUNY's policy on transcript notations which is discussed in Section X-I.

Range of Sanctions for Employees

As discussed above in Section XI-E-c-ii-3, there will be no penalty phase for employees who is subject to a disciplinary process contained in a collective bargaining agreement with CUNY or an employee with disciplinary rights under the New York State Civil Service Law; instead, a determination that the respondent is responsible will be referred for discipline under the applicable collective bargaining agreement or Civil Service Law. For all other employees, sanctions range from a reprimand to suspension to termination of employment.

PROCEDURES FOR NON-TITLE IX SEXUAL MISCONDUCT MATTERS

The following procedures will apply to Non-Title IX Sexual Misconduct matters.

When the college becomes aware that Sexual Misconduct may have been committed by or against a student, employee or visitor, the college must conduct an investigation unless the information provided is insufficient to permit an investigation or the complainant has requested that the college refrain from such an investigation and the college has determined that refraining from an investigation will not result in a continuing threat to the college community. See Section VII-C.

Rights of the Parties

Whenever an investigation of Non-Title IX Sexual Misconduct takes place, the parties have the rights described in Section X-A.

Informal Resolution

A Non-Title IX Sexual Misconduct matter may be resolved through an informal resolution process (Section X-B).

Investigation

The Title IX Coordinator is responsible for conducting any investigation in a prompt, thorough, and impartial manner. Whenever an investigation is conducted, the Title IX Coordinator must:

· Coordinate investigative efforts with other appropriate offices;

· Provide the parties written notice that an investigation is being commenced, including notice of the allegations and sufficient details known at the time notice is sent, including the date, time and location of the alleged behavior and the specific act or acts that are alleged to violate the Policy's prohibition on Sexual Misconduct;

· Interview witnesses who might reasonably be expected to provide information relevant to the allegations, and review relevant documents and evidence. Both the complainant and respondent must be informed that they have the right to provide relevant documents and to propose witnesses whom they reasonably believe can provide relevant information. A respondent employee who is covered by a collective bargaining agreement may consult with and have a union representative present at any interview of that employee conducted as part of such investigation; and

· Create an investigative report that fairly summarizes relevant evidence and makes findings as to whether, in the investigator's opinion, there is a preponderance of evidence that the respondent is responsible for the allegation(s).

The college must make reasonable efforts to ensure that the investigation and resolution of allegations of Sexual Misconduct are carried out within reasonably prompt timeframes. While some allegations may require more extensive investigation, when possible, the investigation of allegations of Sexual Misconduct (including completion of the investigative report) must be completed within one hundred-twenty (120) days of the receipt of the allegations.

If there is a delay in completing the investigation, the Title IX Coordinator must notify the parties in writing and indicate the reason for the delay. The Title IX Coordinator should also note the reason for delay and projected timeline for completing the investigation in their case file. The reason for extension of the time frame of an investigation may include, but is not limited to: compliance with a request by law enforcement; a limited accommodation for the availability of parties, their advisors and witnesses; students on leave; exam periods, school breaks or vacations; and accounting for the complexities of a specific investigation, including the number of witnesses and volume of information provided by the parties.

Upon completion of the investigation, the Title IX Coordinator must prepare an investigative report, which will fairly summarize and evaluate relevant evidence gathered during the investigation. The investigative report will include:

· Procedural history of the case;

· Alleged Policy violations;

· A list of individuals interviewed;

· A list of exhibits;

· Summary of party and witness statements and other relevant evidence;

· Analysis of evidence, including credibility assessments; and

· Factual findings regarding whether, in the investigator's opinion, there is a preponderance of evidence that the respondent is responsible for the allegation(s).

Action Following the Investigation or Termination of an Investigation

Students

If the complainant is a student, the Title IX Coordinator must provide the investigative report to both parties within five (5) days of the completion of the report. If the allegations are unsubstantiated, in whole or in part, the student complainant has the right to appeal the Title IX Coordinator's determination to an Appeal Committee. Appeals may be based on the following grounds:

· Procedural irregularity that affected the outcome of the matter

· New evidence that was not reasonably available at the time of the investigation, which could affect the outcome of the matter; or

· The Title IX Coordinator had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter.

The complainant must submit their written appeal to the University Title IX Director within fifteen (15) days after the delivery of the investigative report. The University Title IX Director will provide the complainant's appeal to the respondent within five (5) days of submission. The respondent will have the opportunity to submit a written response to the appeal, due within fifteen (15) days after the delivery of the complainant's appeal.

The University Title IX Director will facilitate the composition and scheduling of the Appeal Committee, which will be comprised of members of the CUNY-wide Sexual Misconduct Panel, as outlined in Section X-C. The Appeal Committee will review the investigative report, the Complainant's appeal and the respondent's response, if any. The Appeal Committee will issue a written decision within fifteen (15) days of receipt of the respondent's written submission or failure to provide a submission. The written decision will be provided simultaneously to both parties.

If the Appeal Committee grants the appeal, it may remand the matter for appropriate action, which may include, but is not limited to, the evaluation of new evidence or a new investigation.

Following the appeal, if any, the Title IX Coordinator shall send the investigative report, as well as any decision on appeal, to the College President. If either party is a student, the investigative report must also be sent to the Chief Student Affairs Officer. A copy of the report and any decision on appeal must be maintained in the files of the Title IX Coordinator.

Following receipt of the investigative report, the College President must, when warranted by the facts, authorize such action as they deem necessary, including action to correct the effects of the conduct investigated or prevent further harm to an affected party or others similarly situated. This may include a recommendation that disciplinary action be commenced against a respondent, as set forth in Section XII-E below, or for unsubstantiated findings, authorization to close the matter.

Within thirty (30) days following the termination of an investigation (for example, because it was resolved by informal resolution or the complainant withdrew cooperation); the Title IX Coordinator will summarize for the file the actions taken in response to the allegations and the basis on which the investigation was closed.

Employees

The Title IX Coordinator must provide the investigative report to the College President. Following receipt of the investigative report, the College President must, when warranted by the facts, authorize such action as they deem necessary, including action to correct the effects of the conduct investigated or prevent further harm to an affected party or others similarly situated. This may include a recommendation that disciplinary action be commenced against a respondent, as set forth in Section XII-E below, or for unsubstantiated findings, authorization to close the matter.

Within thirty (30) days following the termination of an investigation (for example, because it was resolved by informal resolution or the complainant withdrew cooperation); the Title IX Coordinator will summarize for the file the actions taken in response to the allegations and the basis on which the investigation was closed.

Disciplinary Process and Procedures

Disciplinary Action

The following procedures apply when the College President recommends that disciplinary action be commenced against a respondent student or employee for violations of this Policy:

Discipline Against Students

When a College President recommends discipline against a student for violations of this Policy, the matter is referred to the college Office of Student Affairs and action must be taken in accordance with Section XI-E-b/c, below.

Sanctions for student respondents following a disciplinary hearing range from a warning to suspension or expulsion from CUNY. When a disciplinary hearing results in a penalty of expulsion or suspension for one term or more, the respondent must be barred from admission to, or attendance at, any other unit CUNY while the penalty is being served. Students may also be subject to CUNY's policy on transcript notations, discussed in Section X-I.

In addition to the rights described in Section X–A, the parties have the following rights at a disciplinary hearing:

· To receive notice of the charges, including the date, time, location and factual allegations, concerning alleged violation of this Policy;

· To receive notice of the specific provisions alleged to have been violated and possible sanctions;

· To make an impact statement at the point when the Adjudication Committee is deliberating on appropriate sanctions;

· To choose whether to disclose or discuss the outcome of a conduct or judicial process;

· To appeal a determination of responsibility before a panel that is fair and impartial and does not include individuals with conflicts of interest;

· To have all information obtained during the conduct process protected from public release until a decision-maker on appeal makes a final determination, unless otherwise required by law.

Discipline Against Employees

In cases where the College President recommends discipline against an employee, the matter is referred for disciplinary action in accordance with the applicable CUNY policies, rules and collective bargaining agreements. Penalties for employees include, depending on the employee's title, reprimand, suspension, demotion, fine, or termination of employment following applicable disciplinary procedures. For many respondent employees, these procedures may include a hearing before a non-CUNY fact-finder, as required by the applicable collective bargaining agreement.

For additional information on the disciplinary process in specific cases, parties should consult their campus Title IX Coordinator, who will work with campus Human Resources Director or Labor Designee to provide information. Respondents may also consult with their union representative, if any.

Action Against Visitors

In cases where the person accused of Sexual Misconduct is not a CUNY student or employee, the college's ability to take action against the respondent is usually limited. However, the college will take appropriate actions within its control, such as restricting the visitor's access to campus.

No Disciplinary Action

In cases where the College President decides not to bring disciplinary action, the Title IX Coordinator must inform the parties of that decision at the same time, in writing, and must offer any appropriate support services, including counseling, to both.

Student Discipline – Pre Hearing Procedures

Referral of Violation for Disciplinary Action

If the College President decides that discipline is warranted, the President will refer the matter to the Chief Student Affairs Officer for further action. The Chief Student Affairs officer may rely on the investigation and determination of the Title IX Coordinator and prefer disciplinary charges.

In instances where a respondent is alleged to have violated this Policy as well as other CUNY policies, rules or bylaws, the entire matter will be heard before the Adjudication Committee and will follow the rules and procedures outlined in this Policy.

Issuance of Notice of Charges and Hearing

Notice of the charge(s) and of the time and place of the hearing must be sent by both first-class mail (or overnight mail) to the physical address or P.O. box address appearing on the records of the college and email using the party's CUNY email address, and any other email address known to the college.

The hearing must be scheduled within a reasonable time following the filing of the charges or the mediation conference. Notice of at least seven (7) days must be given to the parties in advance of the hearing unless the respondent consents to an earlier hearing. The parties are permitted one adjournment each, for a reasonable amount of time under the circumstances, without specifying a reason. Additional requests for an adjournment must be made at least five (5) days prior to the hearing date, and shall be granted or denied at the discretion of the chairperson of the Adjudication Committee. If either party fails to respond to the notice, appear on the adjourned date, or request an extension, the college may proceed without that party present, and any determination of responsibility or sanction will be binding.

The Notice of Charges and Hearing must contain the following:

· A complete and itemized statement of the charge(s) being brought against the respondent including the policy, rule and/or bylaw the respondent is charged with violating, and the possible penalties for such violation; and

· A statement that the parties have the right to attend and participate fully in the hearing including the right:

· To present their side of the story;

· To present witnesses and evidence on their behalf;

· To cross-examine witnesses presenting evidence, the exception being that the complainant and respondent may not cross-examine each other as discussed below;

· For the respondent to remain silent without assumption of responsibility;

· To be represented by an advisor or legal counsel at their expense; if the respondent or the complainant requests it, the college shall assist in finding a legal counsel or advisor; and

A warning that anything said may be used at a non-college hearing.

Review of Evidence before Hearing

At least five (5) days prior to the commencement of a hearing, the college must provide the parties (and their advisors, if applicable), with similar and timely access to review documents or other tangible evidence that the college intends to use at the disciplinary hearing, consistent with the restrictions imposed by FERPA. If a party submits documentary evidence during the hearing, the chairperson may, at the request of any other party, adjourn the hearing as necessary in the interest of fairness, to permit the requesting party time to review the newly produced evidence.

Admission & Acceptance of Penalty

After the charges have been preferred by the Chief Student Affairs Officer, but prior to the commencement of a hearing, the respondent may admit to the charges and accept the penalty that the Chief Student Affairs Officer determines to be appropriate to address the misconduct. Before resolving allegations in this manner, the Chief Student Affairs Officer, or designee, must first consult with the complainant and provide the complainant with an opportunity to object to the proposed resolution, orally and/or in writing. If a resolution is reached over the complainant's objection, the Chief Student Affairs Officer must provide the complainant with a statement of the reasons supporting such resolution, and the complainant may appeal the resolution to the Appeal Committee.

Student Discipline - Hearing Procedures

The participants at the hearing are the college, the respondent and the complainant. All hearings pursuant to this Policy are closed hearings, meaning that participation and observation is limited to the parties, their advisors, witnesses, the Adjudication Committee, the college presenter and any college or CUNY staff required to coordinate the hearing.

Roles and Responsibilities Adjudication Committee

The Adjudication Committee serves as the decision-maker at the hearing and is comprised of members of the CUNY-wide Sexual Misconduct Panel. The role of the Adjudication Committee is to listen to the testimony, ask questions of the witnesses, review the testimony and evidence presented at the hearing and the papers filed by the parties and make a decision as to responsibility.

In the event the respondent is found responsible for the conduct, the committee must then determine the penalty to be imposed.

Adjudication Committee Chairperson

The chairperson must preside at the hearing. At the commencement of the hearing, the chairperson must inform the parties of the charges, the hearing procedures, and their rights. The chairperson must then ask the respondent to state whether they are responsible or not responsible for the conduct. Prior to accepting testimony at the hearing, the chairperson must rule on any motions regarding the adequacy of the notice of the charge(s). Subsequent thereto, the chairperson must rule on any motions regarding the admissibility of evidence and must exclude irrelevant, unreliable or unduly repetitive evidence. The chairperson must exclude from the hearing room all persons who are to appear as witnesses, except the respondent and the complainant.

The chairperson must preside at all hearing sessions and meetings and make all procedural rulings for the panel. The chairperson has discretion to limit the number of witnesses and the length of testimony for the presentations by any party and/or their representative.

College Presenter

The college will be represented by a presenter. Each academic year, the Chief Student Affairs Officer of each campus, must appoint/identify one or more campus college employees to serve as presenters for hearings against student respondents involving their campuses. This list must be forwarded to the University Title IX Director and the Office of the Vice Chancellor for Student Affairs prior to the first day of the academic year.

Advisors

The parties may be accompanied by an advisor of their choice (who may be an attorney) who may fully participate at a hearing, including advising and representing a party. Advisors may not give testimony as a witness at the hearing. Any party intending to appear with an attorney must give the college five (5) days' notice of the attorney's name and contact information. Advisors must treat all hearing participants, including the Adjudication Committee, parties and witnesses, with respect. Advisors must also abide by the Rules of Decorum promulgated by CUNY.

Responsibility Phase

The college bears the burden of proving the charge(s) by a preponderance of the evidence.

The parties will present evidence in the following order: college, complainant and respondent. At the conclusion of the college's presentation, the respondent may move to dismiss the charges. If a party submits documentary evidence during a hearing that was not previously shared during the investigation, the chairperson may, at the request of any other party, adjourn the hearing as necessary in the interest of fairness, to permit the requesting party time to review the newly produced evidence.

Evidence of the mental health diagnosis and/or treatment of a complainant, respondent, or witness may not be introduced. Evidence of either party's prior sexual history may not be introduced except that evidence of prior sexual history between complainant and respondent is admissible at any stage of the hearing to prove consent.

A party may not conduct cross-examination personally, but must do so through their advisor. In the event a party does not have an advisor and the case proceeds to a hearing, the college may assist them to find an advisor for the purpose of conducting cross-examination on behalf of that party.

Penalty Phase

If the panel finds the respondent responsible for the conduct, then the complainant, respondent, and college, will have the opportunity to introduce evidence and make arguments related what the appropriate penalty should be. The complainant, respondent and college will also have the opportunity to introduce evidence of and comment on the respondent's character, including any past findings of a respondent's responsibility for Domestic Violence, Stalking, Sexual Assault or any other Sexual Misconduct, and submit a statement regarding the impact of the conduct.

The College may also introduce a copy of the respondent's previous disciplinary records, if any, from any CUNY institution the respondent has attended, provided the respondent was shown a copy of the records prior to the commencement of the hearing. The previous disciplinary record must be submitted to the panel in a sealed envelope, bearing the respondent's signature across the seal, and must only be opened if the respondent has been found responsible for the conduct charged. The Adjudication Committee, to determine an appropriate penalty, must use the disciplinary records, as well as any documents or character evidence introduced by the respondent, the complainant, or the college.

If either party chose not to participate in the hearing, they still have the opportunity to introduce evidence and make arguments related what the appropriate penalty should be and to provide or make an impact statement.

Decision

The Adjudication Committee must issue a written decision, which must be based solely on the testimony and evidence presented at the hearing, including the penalty phase. The college must send the written decision to the parties within seven (7) days of the conclusion of the hearing, by regular mail (or overnight mail) and e-mail to the address appearing on the records of the college. In cases involving two or more complainants or respondents, the college has fourteen (14) days of the conclusion of the hearing to send the panel's decision. The decision is final subject to any appeal.

COLLEGE OBLIGATIONS UNDER THIS POLICY

In addition to addressing allegations of Sexual Misconduct, colleges/units of CUNY have the following obligations:

Dissemination of Policies, Procedures, and Notices

The Title IX Coordinator, in coordination with the Office of Student Affairs, Office of Public Safety, Human Resources Department and other appropriate offices, is responsible for the wide dissemination of the following on their campus: (i) this Policy; (ii) CUNY's Notice of Non- Discrimination; (iii) the Title IX Coordinator's name, phone number, office location, and email address and (iv) contact information for the campus Public Safety Office. Such dissemination includes posting the documents and information on the college website, and including it in residence life materials and training and educational materials.

The Students' Bill of Rights, which is appended to and made a part of this Policy, must be distributed to any individual reporting an incident of Sexual Misconduct at the time the report is made. It must also be distributed annually to all students, made available on the college's website and posted in college campus centers and in CUNY owned and operated housing.

Training and Educational Programming

CUNY is responsible for providing training to Title IX Coordinators, investigators, CUNY-wide Sexual Misconduct Panel members and anyone who facilitates informal resolutions.

The Title IX Coordinator, in coordination with other applicable offices, including Public Safety, Human Resources and Student Affairs, is responsible for ensuring that the college provides training to college employees on their obligations under this Policy; provides education on this Policy and on Sexual Misconduct (including Domestic Violence, Dating Violence, Stalking and Sexual Assault) to new and continuing students; and promotes awareness and prevention of Sexual Misconduct among all students and employees. Specific required trainings include the following:

Training For Responsible and Confidential Employees

The college must provide training to all employees who are required to report incidents of Sexual Misconduct under this Policy, as well as those employees who have been designated as confidential employees.

Training For Title IX Coordinators, investigators, CUNY-wide Sexual Misconduct Panel members, and any person who facilitates an informal resolution

CUNY will provide training on the topics below to Title IX Coordinators, investigators, CUNY- wide Sexual Misconduct Panel members, and any person who facilitates an informal resolution process. Training for Title IX Coordinators and investigators will be at least annual.

- The definition of Sexual Misconduct, including Sexual Harassment, Title IX Sexual Harassment, Dating Violence, Domestic Violence and Stalking;
- How to conduct an investigation;
- How to create an investigative report that fairly summarizes relevant evidence;

· The grievance process, including hearings, appeals and informal resolution processes, as applicable;

· Impartiality, including avoiding prejudgment of the facts, conflicts of interest, and bias;

· Relevance of questions and evidence, including the fact that sexual predisposition or prior sexual acts with individuals other than the parties are generally not relevant, the rights of the respondent, including the right to a presumption that the respondent is "not responsible" until a determination regarding responsibility is made at the conclusion of the applicable processes;

· The scope of the college's education programs and activities;

· The effects of trauma;

· Other relevant CUNY policies and procedures; and

· Any technology to be used at a live hearing.

Student Onboarding and Ongoing Education

Each college must adopt a comprehensive student onboarding and ongoing education campaign to educate students about Sexual Misconduct, including Domestic Violence, Dating Violence, Stalking, and Sexual Assault. During the student onboarding process, all new first-year and transfer students must receive training on this Policy and on a variety of topics relating to Sexual Misconduct. In addition, each college shall offer and administer appropriate educational programming to residence hall students, athletes, and student leaders. Each college must also provide such educational programming to any other student groups which the college determines could benefit from education in the area of Sexual Misconduct. The college must also share information on Domestic Violence, Dating Violence, Stalking and Sexual Assault prevention with parents of enrolling students. This may be done by linking to http://www1.cuny.edu/sites/title- ix/information-for-parents-and-families/campus/university/.

Campus Climate Assessments

Each college of CUNY must conduct, no less than every other year, a climate assessment using an assessment instrument provided by CUNY's central office, to ascertain its students' general awareness and knowledge of CUNY's Policy and procedures regarding sexual misconduct, including but not limited to student experiences with and knowledge of reporting, investigation and disciplinary processes. The assessment instrument must include all topics required to be included under applicable law, including Section 129-B of the New York State Education Law. CUNY will publish the results of the surveys on its Title IX web page. The published results will not contain any information which would enable a reader to identify any individual who responded to the climate assessment.

RULES REGARDING INTIMATE RELATIONSHIPS BETWEEN EMPLOYEES AND STUDENTS

Relationships Between Faculty or Employees and Students

Sexual activity or amorous or dating relationships ("intimate relationships"), even when apparently consensual, are inappropriate when they occur between a faculty member or employee and any student for whom they have a professional responsibility. Those relationships are inappropriate because of the unequal power dynamic between students and faculty members and between students and employees who advise or evaluate them, such as athletic coaches or workplace supervisors. Such relationships necessarily involve issues of student vulnerability and have the potential for coercion. In addition, conflicts of interest or perceived conflicts of interest may arise when a faculty member or employee is required to evaluate the work or make personnel or academic decisions with respect to a student with whom they are having an intimate relationship.

Therefore, faculty members and other employees are prohibited from engaging in intimate relationships with students for whom they have a professional responsibility, including undergraduates, graduate and professional students and postdoctoral fellows.

For purposes of this Section, professional responsibility for a student means responsibility over any academic matters, including teaching, counseling, grading, advising for a formal project such as a thesis or research, evaluating, hiring, supervising, coaching, making decisions or recommendations that confer benefits such as admissions, registration, financial aid, other awards, remuneration, or fellowships, or performing any other function that might affect teaching, research, or other academic opportunities.

Relationships Between Supervisors and Employees

Many of the concerns about intimate relationships between faculty members or employees and students also apply to relationships between supervisors and employees they supervise. Those relationships therefore are strongly discouraged. Supervisors must disclose any such relationships to their supervisors in order to avoid or mitigate conflicts of interest in connection with the supervision and evaluation of the employees with whom they have an intimate relationship. Mitigation may involve the transfer of either the supervisor or employee, reassigning the responsibility to evaluate the employee to a different supervisor, or other appropriate action.

For purposes of this Section, supervising an employee means supervising in an employment setting, including hiring, evaluating, assigning work, or making decisions or recommendations that confer benefits such as promotions, raises or other remuneration, or performing any other function that might affect employment opportunities.

IMPLEMENTATION

This Policy will become effective on August 14, 2020 and will apply to Sexual Misconduct that allegedly occurred on or after August 14, 2020. Sexual Misconduct that allegedly took place before the effective date of this Policy will be handled in accordance with the CUNY Policy on Sexual Misconduct that was in effect at the time the behavior occurred.

Should any portion of the 2020 Title IX Regulations be stayed or held invalid by a court of law, or should the Title IX Final Regulations be withdrawn or modified to not require the elements of this Policy, the invalidated elements of this Policy (including, but not limited to Sections IX and XI), will be deemed revoked as of the publication date of the opinion or order. Should this Policy's Title IX-specific procedures be revoked in this manner, any Sexual Misconduct covered under Section XI, including any elements of the process that occur after the revocation date if a case is not complete by that date of revocation, shall be investigated, resolved and/or adjudicated under Section XII without further action by CUNY.

The City University of New York Students' Bill of Rights

For CUNY students who experience Sexual Violence, including Sexual Assault; Domestic Violence, Dating Violence, Stalking or Voyeurism:

All students have the right to

· Make a report to local law enforcement and/or state police;

· Have disclosures of domestic violence, dating violence, stalking, and sexual assault treated seriously;

· Make a decision about whether or not to disclose a crime or violation and participate in the judicial or conduct process and/or criminal justice process free from pressure by the institution;

· Participate in a process that is fair, impartial, and provides adequate notice and a meaningful opportunity to be heard;

· Be treated with dignity and to receive from the institution courteous, fair, and respectful health care and counseling services, where available;

· Be free from any suggestion that the reporting individual is at fault when these crimes and violations are committed, or should have acted in a different manner to avoid such crimes or violations;

· Describe the incident to as few institutional representatives as practicable and not be required to unnecessarily repeat a description of the incident;

· Be protected from retaliation by the institution, any student, the accused and/or the respondent, and/or their friends, family and acquaintances within the jurisdiction of the institution;

· Have access to at least one level of appeal of a determination;

· Be accompanied by an advisor of choice who may assist and advise a reporting individual, accused, or respondent throughout the judicial or conduct process including during all meetings and hearings related to such process; and

· Exercise civil rights and practice of religion without interference by the investigative, criminal justice, or judicial or conduct process of the institution.

This *Student Bill of Rights* was established by the "Enough is Enough" Law, New York State Education Law Article 129-B, effective October 7, 2015.

For more information about preventing and addressing Sexual Violence at CUNY see http://www1.cuny.edu/sites/title-ix/campus-websites.

Information about filing a report, seeking a response, and options for confidential disclosure is available also available CUNY's Title IX web page.

Questions about CUNY's Sexual Misconduct policy and procedures may be directed to your campus Title IX Coordinator.

Lehman College Records Policy

Prohibition on Submission of Fraudulent Admission Documents:

The submission of documents in support of applications for admission such as transcripts, diplomas, test scores, references, or the applications themselves, that are forged, fraudulent, altered from the original, materially incomplete, obtained under false pretenses, or otherwise deceptive (collectively referred to as fraudulent documents) is prohibited and is punishable by a five-year bar on applying for admission or five year suspension from CUNY. A second violation is punishable by a lifetime ban on applying for admission or expulsion from CUNY.

When fraudulent admissions documents are discovered prior to an applicant's enrollment, sanctions will be imposed centrally. A first offense will be punishable by a five-year bar on applying for admission and a second offense will result in a lifetime ban. The accused applicant will have the opportunity to appeal to the Vice Chancellor for Student Development.

If the fraudulent admissions document is discovered after the student completes registration or begins classes at a college, the student shall be suspended for five years with the right to appeal through the college student disciplinary process. A second offense results in expulsion.

If the fraudulent admissions document is discovered after the student has already graduated, the graduate shall be notified in writing and shall be entitled to a disciplinary hearing under Article 15 of the Board Bylaws. If the disciplinary committee sustains the charges, the committee may impose a five-year suspension and in addition recommend the revocation of the degree. A second violation results in expulsion. Any recommendation to revoke a degree is subject to the approval by the Board of Trustees after considering the recommendation of the faculty of the college.

Family Educational Rights and Privacy Act (F.E.R.P.A)

LEHMAN COLLEGE, THE CITY UNIVERSITY OF NEW YORK NOTIFICATION OF STUDENT RIGHTS CONCERNING EDUCATION RECORDS AND DIRECTORY INFORMATION

The Family Educational Rights and Privacy Act (FERPA) gives students certain rights with respect to their education records.

The FERPA rights of students are:

(1) The right to inspect and review your education records.

Students should submit written requests that identify the specific record(s) they wish to inspect to Lehman's Office of the Registrar. If the records are not maintained by the Registrar, the Registrar will advise you of the correct official to whom the request should be addressed.

All requests shall be granted or denied in writing (which may be by e-mail) within 45 days of receipt. If the request is granted, you will be notified of the time and place where the records may be inspected. If the request is denied or not responded to within 45 days, you may appeal to the college's FERPA Appeals Officer. Additional information regarding the appeal procedures will be provided to you if a request is denied.

(2) The right to request amendment of your education records that you believe are inaccurate, misleading or otherwise in violation of your privacy rights under FERPA.

You may ask the college to amend a record that you believe is inaccurate, misleading or otherwise in violation of your privacy rights under FERPA. You should write to the college official responsible for the record, clearly identify the part of the record you want changed, and specify why it is inaccurate or misleading.

If the college decides not to amend the record as you request, the college will notify you of the decision and advise you of your right to a hearing before the college's FERPA Appeals Officer regarding the request for amendment. Additional information regarding the hearing procedures will be provided to you when notified of your right to a hearing.

(3) The right to consent before the college discloses personally identifiable information ("PII") contained in your education records, except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by Lehman College or the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the college or University has contracted as its agent to provide a service instead of using University employees or officials; a person serving on the Board of Trustees; a student serving on an official committee, such as a disciplinary committee; or an individual assisting another school official in performing his or her tasks. A school official also includes a contractor, consultant, volunteer or other party to whom the college or the University has outsourced services or functions that would be otherwise performed by employees, as well as the State Comptroller and his or her agents and representatives for the purpose of conducting audits.

A school official has a legitimate educational interest if access is reasonably necessary in order to fulfill his or her professional responsibilities for the college.

Upon request, the college discloses education records without consent to officials of another college or school in which a student seeks or intends to enroll or has enrolled.

(4) The right to appeal the alleged denial of FERPA rights to the

General Counsel and Vice Chancellor for Legal Affairs

City University of New York
205 East 42nd Street
New York, New York 10017

(5) The right to file a complaint with the S. Department of Education concerning alleged failures by the college to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office

U.S. Department of Education

400 Maryland Avenue, SW
Washington, D.C. 20202-5920

Directory Information: The college will make this "directory information" concerning current and former students available to parties having a legitimate interest in the information: name, attendance dates (semesters and sessions, not daily records), photograph, 8-digit student ID number (but only if the identifier cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user's identity), enrollment status (full or part-time, undergraduate or graduate, etc.), level of education (credits completed), degree enrolled for and major field of study, participation in official recognized activities and sports (teams), height and weight (for members of athletic teams only), degrees, honors, and awards received. A current and former student's address, email address, and telephone number constitute directory information but disclosure of this information can only be made to employees of the University and its constituent colleges for the purpose of conducting legitimate University business, and it cannot be shared with individuals and organizations outside the University. By filing a form with the Registrar's Office, you may request that directory information not be released without your prior written consent. This form is available in the Registrar's Office and may be filed, withdrawn, or modified at any time.

Disclosure without prior consent: FERPA permits (and sometimes requires) the disclosure of PII from students' education records, without consent, if the disclosure meets certain conditions found in the FERPA regulations. Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the student, § 99.32 of FERPA regulations requires the institution to record the disclosure. Eligible students have a right to inspect and review the record of disclosures.

In addition to school officials with legitimate educational interests and officials at certain other schools, the college may, consistent with more detailed guidance and limitations from FERPA, disclose PII from the education records without obtaining prior written consent -

- To the U. S. Comptroller General, Attorney General, or Secretary of Education.
- To certain State and Local educational authorities.
- In connection with an audit or evaluation of Federal- or State-supported education programs, or for the enforcement of or compliance with Federal legal requirements that relate to those programs.
- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary to determine eligibility for the aid, the amount of the aid, or the conditions of the aid, or to enforce the terms and conditions of the aid.
- To organizations conducting studies for, or on behalf of, the school, in order to: (a) develop, validate, or administer predictive tests; (b) administer student aid programs; or (c) improve instruction.
- To accrediting organizations to carry out their accrediting functions.
- To the student's parents if the student is a dependent for IRS tax purposes.
- To comply with a judicial order or lawfully issued subpoena.
- To appropriate officials in connection with a health or safety emergency.
- To a victim of an alleged perpetrator of a crime of violence or a non-forcible sex offense.
- To the general public, the final results of a disciplinary proceeding, if the college determines the student is an alleged perpetrator of a crime of violence or non-forcible sex offense and has committed a violation of the college's policies with respect to these allegations.
- To parents of a student under age 21 regarding the student's violation of any law or college rule governing the use or possession of alcohol or a controlled substance if the college determines the student committed a disciplinary violation.

New York State Education Law Section 224-A

Students unable because of religious beliefs to register or attend classes on certain days:

1. No person shall be expelled from or be refused admission as a student to an institution of higher education for the reason that he is unable, because of his religious beliefs, to register or attend classes or to participate in any examination, study, or work requirements on a particular day or days.
2. Any student in an institution of higher education who is unable, because of his religious beliefs, to attend classes on a particular day or days shall, because of such absence on the particular day or days, be excused from any examination or any study or work requirements.
3. It shall be the responsibility of the faculty and of the administrative officials of each institution of higher education to make available to each student who is absent from school, because of his religious beliefs, an equivalent opportunity to register for classes or make up any examination, study, or work requirements which he may have missed because of such absence on any particular day or days. No fees of any kind shall be charged by the institution for making available to the said student such equivalent opportunity.

4. If registration, classes, examinations, study, or work requirements are held on Friday after four o'clock post meridian or on Saturday, similar or makeup classes, examinations, study, work requirements, or opportunities shall be made available on other days, where it is possible and practicable to do so. No special fees shall be charged to the student for these classes, examinations, study, or work requirements, or registration held on other days.
5. In effectuating the provisions of this section, it shall be the duty of the faculty and of the administrative officials of each institution of higher education to exercise the fullest measure of good faith. No adverse or prejudicial effects shall result to any student because of his availing himself of the provisions of this section.
6. Any student, who is aggrieved by the alleged failure of any faculty or administrative officials to comply in good faith with the provisions of this section, shall be entitled to maintain an action or proceeding in the Supreme Court of the county in which such institution of higher education is located for the enforcement of his rights under this section.

College Policies, Procedures and Regulations

Lehman College, like most institutions of higher learning, has regulations and policies governing academic standards and procedures, class attendance, final examinations, grade records, personal health, and conduct. They have been established in accordance with the *Bylaws* of the Board of Trustees, and on recommendation of the College's governance body - the Lehman College Senate. Specific policies and regulations are enumerated in this *Bulletin* and in the *Student Guide*, available in the Office of the Vice President of Student Affairs, the Division of Adult and Continuing Education, and the Office of Academic Advisement.

Conduct

Article XV, Section 15.1 (Conduct Standard Defined) of the *Bylaws* of the Board of Trustees of The City University of New York reads as follows:

Each student enrolled or in attendance in any college, school, or unit under the control of the Board and every student organization, publication, club, or chapter shall obey the laws of the City, State, and Nation, and the published rules, regulations, and orders of the Board of Higher Education and the duly established college authorities. Application to Lehman College constitutes acceptance of the foregoing provisions as well as of the detailed rules set forth in the Appendix.

The City University of New York Computer User Responsibilities

NOTE: The city University of New York Computer User Responsibilities is a statement originally prepared by the University's Computer Policy Committee. It underwent review by the University Faculty Senate and the CUNY Office of the Vice Chancellor for Legal Affairs.

Introduction

CUNY's computer resources are dedicated to the support of the university's mission of education, research, and public service. In furtherance of this mission, CUNY respects, upholds, and endeavors to safeguard the principles of academic freedom, freedom of expression, and freedom of inquiry.

CUNY recognizes that there is a concern among the university community that because information created, used, transmitted, or stored in electronic form is by its nature susceptible to disclosure, invasion, loss, and similar risks, electronic communications and transactions will be particularly vulnerable to infringements of academic freedom. CUNY's commitment to the principles of academic freedom and freedom of expression includes electronic information. Therefore, whenever possible, CUNY will resolve doubts about the need to access CUNY computer resources in favor of a user's privacy interest.

However, the use of CUNY computer resources, including for electronic transactions and communications, like the use of other university-provided resources and activities, is subject to the requirements of legal and ethical behavior. This policy is intended to support the free exchange of ideas among members of the CUNY community and between the CUNY community and other communities, while recognizing the responsibilities and limitations associated with such exchange.

Applicability

This policy applies to all users of CUNY computer resources, whether affiliated with CUNY or not, and whether accessing those resources on a CUNY campus or remotely. This policy supersedes the CUNY policy titled "CUNY Computer User Responsibilities" and any college policies that are inconsistent with this policy.

Definitions

"CUNY Computer resources" refers to all computer and information technology hardware, software, data, access and other resources owned, operated, or contracted by CUNY. This includes, but is not limited to, personal computers, handheld devices, workstations, mainframes, minicomputers, servers, network facilities, databases, memory, and associated peripherals and software, and the applications they support, such as e-mail and access to the Internet. "E-mail" includes point-to-point messages, postings to newsgroups and listservs, and other electronic messages involving computers and computer networks.

Rules for Use of CUNY Computer Resources

1. **Authorization.** Users may not access a CUNY computer resource without authorization or use it for purposes beyond the scope of authorization. This includes attempting to circumvent CUNY computer resource system protection facilities by hacking, cracking, or similar activities, accessing or using another person's computer account, and allowing another person to access or use the user's account. This provision shall not prevent a user from authorizing a colleague or clerical assistant to access information under the user's account on the user's behalf while away from a CUNY campus or because of a disability. CUNY computer resources may not be used to gain unauthorized access to another computer system within or outside of CUNY. Users are responsible for all actions performed from their computer account that they permitted or failed to prevent by taking ordinary security precautions.
2. **Purpose.** Use of CUNY computer resources is limited to activities relating to the performance by CUNY employees of their duties and responsibilities. For example, use of CUNY computer resources for private commercial or not-for-profit business purposes, for private advertising of products or services, or for any activity meant solely to foster personal gain, is prohibited. Similarly, use of CUNY computer resources for partisan political activity is also prohibited.
3. Except with respect to CUNY employees other than faculty, where a supervisor has prohibited it in writing, incidental personal use of computer resources is permitted so long as such use does not interfere with CUNY operations, does not compromise the functioning of CUNY computer resources, does not interfere with the user's employment or other obligations to CUNY, and is otherwise in compliance with this policy.

4. **Compliance with Law.** CUNY computer resources may not be used for any purpose or in any manner that violates CUNY rules, regulations, or policies, or federal, state, or local law. Users who engage in electronic communications with persons in other states or countries or on other systems or networks may also be subject to the laws of those other states and countries, and the rules and policies of those other systems and networks. Users are responsible for ascertaining, understanding, and complying with the laws, rules, policies, contracts, and licenses applicable to their particular use.
5. Examples of applicable federal and state laws include the laws of libel, obscenity, and child pornography, as well as the following:
   Family Educational Rights and Privacy Act
   Electronic Communications Privacy Act
   Computer Fraud and Abuse Act
   New York State Freedom of Information Law
   New York State Law with respect to the confidentiality of library records
   Examples of applicable CUNY rules and policies include the following:
   Sexual Harassment Policy
   Policy on Maintenance of Public Order
   Web Site Privacy Policy
   Gramm-Leach-Bliley Information Security Program
   University Policy on Academic Integrity
   Information Security policies
6. **Licenses and Intellectual Property.** Users of CUNY computer resources may use only legally obtained, licensed data or software and must comply with applicable licenses or other contracts, as well as copyright, trademark, and other intellectual property laws.
7. Much of what appears on the internet and/or is distributed via electronic communication is protected by copyright law, regardless of whether the copyright is expressly noted. Users of CUNY computer resources should generally assume that material is copyrighted unless they know otherwise, and not copy, download, or distribute copyrighted material without permission unless the use does not exceed fair use as defined by the federal Copyright Act of 1976. Protected material may include, among other things, text, photographs, audio, video, graphic illustrations, and computer software.
8. **False Identity and Harassment.** Users of CUNY computer resources may not employ a false identity, mask the identity of an account or computer, or use computer resources to engage in abuse of others, such as sending harassing, obscene, threatening, abusive, deceptive, or anonymous messages within or outside CUNY.
9. **Confidentiality.** Users of CUNY computer resources may not invade the privacy of others by, among other things, viewing, copying, modifying, or destroying data or programs belonging to or containing personal or confidential information about others, without explicit permission to do so. CUNY employees must take precautions to protect the confidentiality of personal or confidential information encountered in the performance of their duties or otherwise.
10. **Integrity of Computer Resources.** Users may not install, use, or develop programs intended to infiltrate or damage a computer resource, or which could reasonably be expected to cause, directly or indirectly, excessive strain on any computing facility. This includes, but is not limited to, programs known as computer viruses, Trojan horses, and worms. Users should consult with the IT director at their college before installing any programs that they are not sure are safe.
11. **Disruptive Activities.** CUNY computer resources must not be used in a manner that could reasonably be expected to cause or does cause, directly or indirectly, unwarranted or unsolicited interference with the activity of other users. This provision explicitly prohibits chain letters, virus hoaxes, or other intentional e-mail transmissions that disrupt normal e-mail service. Also prohibited are spamming, junk mail or other unsolicited mail that is not related to CUNY business and is sent without a reasonable expectation that the recipient would welcome receiving it, as well as the inclusion on e-mail lists of individuals who have not requested membership on the lists, other than the inclusion of members of the CUNY community on lists related to CUNY business. CUNY has the right to require users of CUNY computer resources to limit or refrain from other specific uses if, in the opinion of the IT director at the user's college, such use interferes with efficient operations of the system, subject to appeal to the President or, in the case of central office staff, to the Chancellor.
12. **CUNY Names and Trademarks.** CUNY names, trademarks, and logos belong to the university and are protected by law. Users of CUNY computer resources may not state or imply that they speak on behalf of CUNY or use a CUNY name, trademark, or logo without authorization to do so. Affiliation with CUNY does not, by itself, imply authorization to speak on behalf of CUNY.
13. **Security.** CUNY employs various measures to protect the security of its computer resources and of users' accounts. However, CUNY cannot guarantee such security. Users are responsible for engaging in safe computing practices, such as guarding and not sharing their passwords, changing passwords regularly, logging out of systems at the end of use, and protecting private information, as well as for following CUNY's Information Security policies and procedures. Users must report incidents of Information Security policy non-compliance or other security incidents to CUNY's Chief Information Officer and Chief Information Security Officer, and the IT director at the affected user's college.
14. **Filtering.** CUNY reserves the right to install spam, virus, and spyware filters and similar devices if necessary in the judgment of CUNY's Office of Information Technology or a college IT director to protect the security and integrity of CUNY computer resources. Notwithstanding the foregoing, CUNY will not install filters that restrict access to e-mail, instant messaging, chat rooms, or websites based solely on content.
15. **Confidential Research Information.** Principal investigators and others who use CUNY computer resources to store or transmit research information that is required by law or regulation to be held confidential or for which a promise of confidentiality has been given, are responsible for taking steps to protect confidential research information from unauthorized access or modification. In general, this means storing the information on a computer that provides strong access controls (passwords) and encrypting files, documents, and messages for protection against inadvertent or unauthorized disclosure while in storage or in transit over data networks. Robust encryption is strongly recommended for information stored electronically on all computers, especially portable devices such as notebook computers, Personal Digital Assistants (PDAs), and portable data storage (e.g., memory sticks) that are vulnerable to theft or loss, as well as for information transmitted over public networks. Software and protocols used should be reviewed and approved by CUNY's Office of Information Technology.
16. **CUNY Access to Computer Resources.**
17. CUNY does not routinely monitor, inspect, or disclose individual usage of its computer resources without the user's consent. In most instances, if the university needs information located in a CUNY computer resource, it will simply request it from the author or custodian. However, CUNY IT professionals and staff do regularly monitor general usage patterns as part of normal system operations and maintenance and might, in connection with these duties, observe the contents of web sites, e-mail, or other electronic communications. Except as provided in this policy or by law, these individuals are not permitted to seek out contents or transactional information, or disclose or otherwise use what they have observed. Nevertheless, because of the inherent vulnerability of computer technology to unauthorized intrusions, users have no guarantee of privacy during any use of CUNY computer resources or in any data in them,

whether or not a password or other entry identification or encryption is used. Users may expect that the privacy of their electronic communications and of any materials contained in computer storage in any CUNY electronic device dedicated to their use will not be intruded upon by CUNY except as outlined in this policy.

CUNY may specifically monitor or inspect the activity and accounts of individual users of CUNY computer resources, including individual login sessions, e-mail, and other communications, without notice, in the following circumstances:

1. when the user has voluntarily made them accessible to the public, as by posting to Usenet or a web page;
2. when it is reasonably necessary to do so to protect the integrity, security, or functionality of CUNY or other computer resources, as determined by the college chief information officer or his or her designee, after consultation with CUNY's chief information officer or his or her designee;
3. when it is reasonably necessary to diagnose and resolve technical problems involving system hardware, software, or communications, as determined by the college chief information officer or his or her designee, after consultation with CUNY's chief information officer or his or her designee;
4. when it is reasonably necessary to protect CUNY from liability, or when failure to act might result in significant bodily harm, significant property loss or damage, or loss of significant evidence, as determined by the college president or a vice president designated by the president, after consultation with the Office of General Counsel and the Chair of the University Faculty Senate (if a CUNY faculty member's account or activity is involved) or Vice Chair if the Chair is unavailable;
5. when there is a reasonable basis to believe that CUNY policy or federal, state, or local law has been or is being violated, as determined by the college president or a vice president designated by the president, after consultation with the Office of General Counsel and the Chair of the University Faculty Senate (if a CUNY faculty member's account or activity is involved) or Vice Chair if the Chair is unavailable;
6. when an account appears to be engaged in unusual or unusually excessive activity, as indicated by the monitoring of general activity and usage patterns, as determined by the college president or a vice president designated by the president and the college chief information officer or his or her designee, after consultation with CUNY's chief information officer or his or her designee, the Office of General Counsel, and the Chair of the University Faculty Senate (if a CUNY faculty member's account or activity is involved) or Vice Chair if the Chair is unavailable; or
7. as otherwise required by law.

In those situations in which the Chair of the University Faculty Senate is to be consulted prior to monitoring or inspecting an account or activity, the following procedures shall apply: (i) the college president shall report the completion of the monitoring or inspection to the Chair and the CUNY employee affected, who shall also be told the reason for the monitoring or inspection, except where specifically forbidden by law; and (ii) if the monitoring or inspection of an account or activity requires physical entry into a faculty member's office, the faculty member shall be advised prior thereto and shall be permitted to be present to observe, except where specifically forbidden by law.

A CUNY employee may apply to the General Counsel for an exemption from some or all of the circumstances under which CUNY may inspect and monitor computer resource activity and accounts, pursuant to subparagraphs (a)-(f) above, with respect to a CUNY computer resource used solely for the collection, examination, analysis, transmission, or storage of confidential research data. In considering such application, the General Counsel shall have the right to require the employee to affirm in writing that the computer resource will be used solely for the confidential research. Any application for exemption should be made prior to using the computer resource for the confidential research.

CUNY, in its discretion, may disclose the results of any general or individual monitoring or inspection to appropriate CUNY personnel or agents, or law enforcement or other agencies. The results may be used in college disciplinary proceedings, discovery proceedings in legal actions, or otherwise as is necessary to protect the interests of the University.

In addition, users should be aware that CUNY may be required to disclose to the public under the New York State Freedom of Information Law communications made by means of CUNY computer resources in conjunction with University business.

Any disclosures of activity of accounts of individual users to persons or entities outside of CUNY, whether discretionary or required by law, shall be approved by the General Counsel and shall be conducted in accordance with any applicable law. Except where specifically forbidden by law, CUNY employees subject to such disclosures shall be informed promptly after the disclosure of the actions taken and the reasons for them.

The Office of General Counsel shall issue an annual statement of the instances of account monitoring or inspection that fall within categories (d) through (g) above. The statement shall indicate the number of such instances and the cause and result of each. No personally identifiable data shall be included in this statement.

See CUNY's Web Site Privacy Policy for additional information regarding data collected by CUNY from visitors to the CUNY website at ***www.cuny.edu***.

18. **Enforcement.** Violation of this policy may result in suspension or termination of an individual's right of access to CUNY computer resources, disciplinary action by appropriate CUNY authorities, referral to law enforcement authorities for criminal prosecution, or other legal action, including action to recover civil damages and penalties.
19. **Violations** will normally be handled through the university disciplinary procedures applicable to the relevant user. For example, alleged violations by students will normally be investigated, and any penalties or other discipline will normally be imposed, by the Office of Student Affairs.

    CUNY has the right to temporarily suspend computer use privileges and to remove from CUNY computer resources material it believes violates this policy, pending the outcome of an investigation of misuse or finding of violation. This power may be exercised only by the President of each college or the Chancellor.
20. **Additional Rules.** Additional rules, policies, guidelines and/or restrictions may be in effect for specific computers, systems, or networks, or at specific computer facilities at the discretion of the directors of those facilities. Any such rules which potentially limit the privacy or confidentiality of electronic communications or information contained in or delivered by or over CUNY computer resources will be subject to the substantive and procedural safeguards provided by this policy.
21. **Disclaimer.** CUNY shall not be responsible for any damages, costs, or other liabilities of any nature whatsoever with regard to the use of CUNY computer resources. This includes, but is not limited to, damages caused by unauthorized access to CUNY computer resources, data loss, or other damages resulting from delays, non-deliveries, or service interruptions, whether or not resulting from circumstances under the CUNY's control.
22. Users receive and use information obtained through CUNY computer resources at their own risk. CUNY makes no warranties (expressed or implied) with respect to the use of CUNY computer resources. CUNY accepts no responsibility for the content of web pages or graphics that are linked from CUNY web pages, for any advice or information received by a user through use of CUNY computer resources, or for any costs or charges incurred by a user as a result of seeking or accepting such advice or information.

    CUNY reserves the right to change this policy and other related policies at any time. CUNY reserves any rights and remedies that it may have under any applicable law, rule, or regulation. Nothing contained in this policy will in any way act as a waiver of such rights and remedies.

Office of the Vice President for Student Affairs

The Division of Student Affairs assists students with social, personal, and emotional development with the goal of encouraging intellectual and ethical growth through programs, initiatives, clubs, leadership activities, and various community events. The Division of Student Affairs is comprised of five subgroups: 1) Transitions and Retention 2) Health, Wellness, and Inclusion 3) Leadership and Engagement 4) Career Exploration and Professional Development 5) Varsity Athletics, Intramurals, and the APEX that house the following units/departments: Veterans and Military Affairs, CUNY EDGE, Child Care Center, Career Exploration and Development Center, New Student Orientation, Campus Life, Urban Male Leadership Program and CREAR Futuros, Health and Wellness Services, Student Disability Services, Counseling Center, Athletics/APEX, and the Basic Needs Center.

For more information about the Division of Student Affairs visit: https://www.lehman.edu/student-affairs/

Also, please feel free to contact us via email at student.affairs@lehman.cuny.edu, by phone at (718) 960-8242 or stop by Shuster Hall, Suite 204.

Freedom of Speech

Freedom of speech is an essential tradition of any academic community. All members of the Lehman community must be vigilant in exercising their rights of expression so as not to preclude other persons' guaranteed right to give and receive expression as part of the deliberative process of the academic community. Preservation of this right on campus requires the scrupulous use of means of communication. Public-address systems and all other amplification devices are prohibited.

Smoking

Smoking is prohibited in all buildings owned, leased, or operated by the City University of New York. Effective no later than September 4, 2012, the following shall be prohibited at The City University of New York: (1) the use of tobacco on all grounds and facilities under CUNY jurisdiction, including indoor locations and outdoor locations such as playing fields; entrances and exits to buildings; and parking lots; (2) tobacco industry promotions, advertising, marketing, and distribution of marketing materials on campus properties; and (3) tobacco industry sponsorship of athletic events and athletes.

Drug and Alcohol Usage

The use of illegal drugs will subject the individual to the penalties provided by law. Individual problems with drugs may be discussed in strict confidence with the counseling faculties of the College. The use of legal drugs that are nevertheless injurious to the health is not condoned. The use of alcohol by anyone under 21 years of age is illegal and prohibited.

Identification Cards

Identification cards, issued by the College, must be carried at all times. Students are required to present their I.D. cards upon the request of any College official. Any guest of a student visiting the campus must obtain a pass from Campus Security (The APEX, Room 109) and must present it upon request.

Attendance and Absences

Students in basic skills courses are required to attend classes. Students in all other courses are expected to attend classes regularly, and instructors are required to record attendance for grading and counseling purposes. Individual instructors, as well as departments or degree programs, may establish specific attendance requirements. Instructors have the right to weigh attendance and class participation in determining grades. It is the student's responsibility to ascertain the effect attendance may have on the grade in a course. Students receiving financial aid must be certified as attending classes regularly for continuing eligibility.

Petitioning

For a petition to be circulated by any student or student group, two copies shall be filed with the Office of Campus Life. All copies of the petition must bear the name of the group or groups circulating the petition.

Solicitation on Campus

No student or nonstudent may use any part of the College buildings and grounds (including Bulletin boards) for soliciting or selling any merchandise or service without the express permission of the Vice President of Student Affairs. Lehman College and the City University of New York do not sponsor any products, merchandising schemes, or tours. Advertising appearing in student publications does not imply the sponsorship of the College.

Representing the College

No student or student organization may be a self-appointed representative of Lehman College or any division thereof, nor of The City University of New York.

Extracurricular Activities and Programs

Group Activities

The College offers a wide range of extracurricular activities and programs. These include departmental, religious, social, political, and athletic activities; creative events, such as art displays and literary, musical, and dramatic performances; and extracurricular lectures on varied topics. Students publish newspapers and other publications and have the opportunity to join a variety of clubs.

Policy on Guest Speakers

Student groups have the right to hear speakers of their choice in accordance with the rules set by the College. It may not, however, be assumed that speakers invited by students represent the views of the College.

Student Government

Student Government exists to provide governance and advocacy on behalf of the student body. Governing involves making decisions and recommending policies that affect the student body as well as working with faculty, and administrators in various committees to ensure responsible decision making on behalf of the student body. All students are elected for one-year terms during the Spring Semester. Intention forms are available at the Office of Campus Life.

Participation in College Governance

Students shall comprise a permanent one-third of the total membership of the Senate, based upon combining the total number of voting faculty and voting administration representatives. Senate meetings are open to all students and staff at the College. Students are also represented on College committees. The student senators comprise the Student Conference.

Notification of Student Immunization Requirements

Students who do not submit proof of measles, mumps, and rubella (M.M.R.) immunization or who fail to return the meningococcal meningitis response form within a statutory grace period shall be prohibited from attending the institution. For additional information, contact the Student Health Center located in the T-3 Building, Room 118 at the following phone number: 718-960-8900.

Public Health Law 2165 requires that postsecondary students be immunized against measles, mumps, and rubella (M.M.R.).

All registered full-time students and part-time students born on or after January 1, 1957 who are enrolled for at least six, but fewer than twelve semester hours (or equivalent) per semester in an approved degree program or registered certificate program must submit proof of M.M.R. immunization. Students may be exempt from the required M.M.R. immunizations for religious or medical reasons. To qualify for a religious exception, students must submit a signed statement, or in the event the student is a minor (under 18), a signed statement from their parent or guardian, that they hold sincere and genuine religious beliefs that prohibit immunization. To qualify for a medical exception, students must submit a written statement from a licensed physician or nurse practitioner indicating that such immunization may be detrimental to their health.

Public Health Law 2167 requires that postsecondary institutions provide written information about meningococcal meningitis to its students and that students complete, sign, and return a meningococcal meningitis response form. Public Health Law 2167 does **not** require that students be immunized against meningitis.

Public Health Law 2167 requires colleges to distribute written information about meningococcal meningitis disease and vaccination and students to complete, sign, and return to the college, a meningococcal meningitis response form that: (a)Â confirms that the college has provided the information about meningococcal meningitis; and (b) indicates that either: (1) the student has received immunization against meningococcal meningitis within the 10 years preceding the date of the response form; or (2) the student has decided against receiving the vaccination. This law applies to students who are enrolled in at least six semester hours (or the equivalent) per semester. No student may be exempt from receiving information or returning the response form.

Freedom of Information Law Notice

Requests to inspect public records at the college should be made to https://www.cuny.edu/foil/. Public records are available for inspection and copying by appointment only at a location to be designated. You have a right to appeal a denial of a request for access to records to the CUNY General Counsel and Vice Chancellor for Legal Affairs. Copies of the CUNY Procedures for Public Access to Public Records Pursuant to Article 6 of the Public Officers Law and the appeal form are available at the Reference Desk of the Library and on the College website.

CUNY Policy on Academic Integrity

Academic Dishonesty is prohibited in The City University of New York and is punishable by penalties, including failing grades, suspension, and expulsion, as provided herein.

Definitions and Examples of Academic Dishonesty

Cheating is the unauthorized use or attempted use of material, information, notes, study aids devices, or communication during an academic exercise.

The following are some examples of cheating, but by no means is it an exhaustive list:.

- Copying from another student during an examination or allowing another to copy your work.
- Unauthorized collaboration on a take-home assignment or examination.
- Using notes during a closed-book examination.
- Taking an examination for another student, or asking or allowing another student to take an examination for you.
- Changing a graded exam and returning it for more credit.
- Submitting substantial portions of the same paper to more than one course without consulting with each instructor.
- Preparing answers or writing notes in a blue book (exam booklet) before an examination.
- Allowing another to research and write assigned papers or do assigned projects, including use of commercial term paper services.
- Giving assistance to acts of academic misconduct/dishonesty.
- Fabricating data (all or in part).
- Submitting someone else's work as your own.
- Unauthorized use during an examination of any electronic devices, such as cell phones, palm pilots, computers, or other technologies to retrieve or send information.
- Plagiarism is the act of presenting another person's ideas, research or writings as your own.

The following are some examples of plagiarism, but by no means is it an exhaustive list:

- Copying another person's actual words without the use of quotation marks and footnotes attributing the words to their source.
- Presenting another person's ideas or theories in your own words without acknowledging the source.
- Using information that is not common knowledge without acknowledging the source.
- Failing to acknowledge collaborators on homework and laboratory assignments.

Internet Plagiarism includes submitting downloaded term papers or parts of term papers, paraphrasing or copying information from the Internet without citing the source, and "cutting & pasting" from various sources without proper attribution.

Obtaining Unfair Advantage is any activity that intentionally or unintentionally gives a student an unfair advantage in his/her academic work over another student.

The following are some examples of obtaining an unfair advantage, but by no means it is an exhaustive list:

- Stealing, reproducing, circulating, or otherwise gaining advance access to examination materials.
- Depriving other students of access to library materials by stealing, destroying, defacing, or concealing them.
- Retaining, using, or circulating examination materials which clearly indicate that they should be returned at the end of the exam.
- Intentionally obstructing or interfering with another student's work.

Falsification of Records and Official Documents

The following are some examples of falsification, but by no means is it an exhaustive list:

- Forging signatures of authorization.
- Falsifying information on an official academic record.
- Falsifying information on an official document, such as a grade report, letter of permission, drop/add form, ID card, or other College document.

Procedures for Imposition of Sanctions for Violations of CUNY Policy on Academic Integrity

Introduction

As a legal matter, in disciplining students for violations of policies of academic integrity, CUNY, as a public institution, must conform to the principles of due process mandated by the Fourteenth Amendment to the United States Constitution - generally speaking, to provide notice of the charges and some opportunity to be heard. In the context of court-litigated violations, questions as to how much and what kind of process was "due" turn on the court's judgment whether the decision on culpability was "disciplinary" (a question of fact) or "academic" (a question of the instructor's expert judgment). This distinction has proved difficult to apply on campus. Accordingly, these procedures provide for alternative approaches depending on the severity of the sanction(s) being sought. If the instructor desires solely an "academic" sanction, that is, a grade reduction, less process is due than if a "disciplinary" sanction, such as suspension or expulsion, is sought.

A faculty member who suspects that a student has committed a violation of the CUNY or the College Academic Integrity Policy shall review with the student the facts and circumstances of the suspected violation whenever possible. The decision whether to seek an academic sanction only, rather than a disciplinary sanction or both types of sanctions, will rest with the faculty member in the first instance, but the college retains the right to bring disciplinary charges against the student. Among the factors the College should consider in determining whether to seek a disciplinary sanction are whether the student has committed one or more prior violations of the Academic Integrity Policy and mitigating circumstances, if any. It is strongly recommended that instance of suspected violation should be reported to the Academic Integrity Official on a form provided by the College. Among other things, this reporting will allow the College to determine whether it wishes to seek a disciplinary sanction even where the instructor may not wish to do so.

Procedures in Cases Where the Instructor Seeks an Academic Sanction Only

1. Student Accepts Guilt and Does Not Contest the Academic Sanction
2. If the faculty member wishes to seek only an academic sanction (i.e., a reduced grade1 only), and the student does not contest either his/her guilt or the particular reduced grade the faculty member has chosen, then the student shall be given the reduced grade, unless the College decides to seek a disciplinary sanction. The reduced grade may apply to the particular assignment as to which the violation occurred or to the course grade, at the faculty member's discretion.
3. Student Denies Guilt and/or Contests the Academic Sanction

4. If the student denies guilt or contests the particular grade awarded by the faculty member, then the matter shall be handled using the College's grade appeals process, including departmental grading committees where applicable, or the Academic Integrity Committee. In either case, the process must, at a minimum, provide the student with an opportunity to be heard and to present evidence.

Procedures in Cases Where a Disciplinary Sanction Is Sought

If a faculty member suspects a violation and seeks a disciplinary sanction, the faculty member shall refer the matter to the College's Academic Integrity Official using the Faculty Report form, to be adjudicated by the College's Faculty-Student Disciplinary Committee under Article 15 of the CUNY Bylaws. As provided for therein, the Faculty-Student Disciplinary Committee may, among other things, investigate, conciliate, or hear evidence on cases in which disciplinary charges are brought.2 Under certain circumstances, College officials other than the Academic Integrity Official may seek disciplinary sanctions following the procedures outlined above. If a reduced grade is also at issue, then that grade should be held in abeyance, pending the Faculty-Student Disciplinary Committee's action.

Procedures in Cases in Which Both a Disciplinary and an Academic Sanction Are Sought

If a faculty member or the College seeks to have both a disciplinary and an academic sanction imposed, it is not advisable to proceed on both fronts simultaneously lest inconsistent results ensue. Thus, it is best to begin with the disciplinary proceeding seeking imposition of a disciplinary sanction and await its outcome before addressing the academic sanction. If the Faculty-Student Disciplinary Committee finds that the alleged violation occurred, then the faculty member may reflect that finding in the student's grade. If the Faculty-Student Disciplinary Committee finds that the alleged violation did not occur, then no sanction of any kind may be imposed. The decision whether to pursue both types of sanctions will ordinarily rest with the faculty member.

Reporting Requirements

1. By the Faculty Member to the Academic Integrity Official
2. In cases where a violation of academic integrity has been found to have occurred (whether by admission or a fact-finding process), the faculty member should promptly file with the Academic Integrity Official a report of the adjudication in writing on a Faculty Report form provided by the College as described above. The Academic Integrity Official shall maintain a confidential file for each student about whom a suspected or adjudicated violation is reported. If either the grade appeals process or the Faculty-Student Disciplinary Committee finds that no violation occurred, the Academic Integrity Official shall remove and destroy all material relating to that incident from the student's confidential academic integrity file. Before determining what sanction(s) to seek, the faculty member or the Academic Integrity Official may consult the student's confidential academic integrity file, if any, to determine whether the student has been found to have previously committed a violation of the Academic Integrity Policy, the nature of the infraction, and the sanction imposed or action taken.
3. By the Academic Integrity Official to the Faculty Member
4. Where a matter proceeds to the Faculty-Student Disciplinary Committee, the Academic Integrity Official shall promptly report its resolution to the faculty member and file a record of the resolution in the student's confidential academic integrity file, unless, as indicated above, the suspected violation was held to be unfounded, in which case all reporting forms concerning that suspected violation shall be destroyed.

Procedures for Handling Student Complaints about Faculty Conduct in Academic Settings

1. **Introduction.** The University and its Colleges have a variety of procedures for dealing with student-related issues, including grade appeals, academic integrity violations, student discipline, disclosure of student records, student elections, sexual harassment complaints, disability accommodations, and discrimination. One area not generally covered by other procedures concerns student complaints about faculty conduct in the classroom or other formal academic settings. The University respects the academic freedom of the faculty and will not interfere with it as it relates to the content or style of teaching activities. Indeed, academic freedom is and should be of paramount importance. At the same time the University recognizes its responsibility to provide students with a procedure for addressing complaints about faculty treatment of students that are not protected by academic freedom and are not covered by other procedures. Examples might include incompetent or inefficient service, neglect of duty, physical or mental incapacity, and conduct unbecoming a member of the staff.
2. **Determination of Appropriate Procedure.** If students have any question about the applicable procedure to follow for a particular complaint, they should consult with the chief student affairs officer. In particular, the chief student affairs officer should advise a student if some other procedure is applicable to the type of complaint the student has.
3. Informal Resolution. Students are encouraged to attempt to resolve complaints informally with the faculty member or to seek the assistance of the department chairperson or campus ombudsman to facilitate informal resolution.
4. **Formal Complaint.** If the student does not pursue informal resolution, or if informal resolution is unsuccessful, the student may file a written complaint with the department chairperson or, if the chairperson is the subject of the complaint, with the academic dean or a senior faculty member designated by the college president. (This person will be referred to below as the "Fact Finder.")
5. The complaint shall be filed within 30 calendar days of the alleged conduct unless there is good cause shown for delay, including but not limited to delay caused by an attempt at informal resolution. The complaint shall be as specific as possible in describing the conduct complained of.
6. The Fact Finder shall promptly send a copy to the faculty member about whom the complaint is made, along with a letter stating that the filing of the complaint does not imply that any wrongdoing has occurred and that a faculty member must not retaliate in any way against a student for having made a complaint. If either the student or the faculty member has reason to believe that the department chairperson may be biased or otherwise unable to deal with the complaint in a fair and objective manner, he or she may submit to the academic dean or the senior faculty member designated by the college president a written request stating the reasons for that belief; if the request appears to have merit, that person may, in his or her sole discretion, replace the department chairperson as the Fact Finder.
7. The Fact Finder shall meet with the complaining student and faculty member, either separately or together, to discuss the complaint and to try to resolve it. The Fact Finder may seek the assistance of the campus ombudsman or other appropriate person to facilitate informal resolution.
8. If resolution is not possible, and the Fact Finder concludes that the facts alleged by the student, taken as true and viewed in the light most favorable to the student, establish that the conduct complained of is clearly protected by academic freedom, he or she shall issue a written report dismissing the complaint and setting forth the reasons for dismissal and send a copy to the complaining student, the faculty member, the chief academic officer, and the chief student affairs officer. Otherwise, the Fact Finder shall conduct an investigation. The Fact Finder shall separately interview the complaining student, the faculty member, and other persons with relevant knowledge and information and shall also consult with the chief student affairs officer and, if appropriate, the college ombudsman. The Fact Finder shall not reveal the identity of the complaining student and the faculty member to others except to the extent necessary to

conduct the investigation. If the Fact Finder believes it would be helpful, he or she may meet again with the student and faculty member after completing the investigation in an effort to resolve the matter. The complaining student and the faculty member shall have the right to have a representative (including a union representative, student government representative, or attorney) present during the initial meeting, the interview, and any post-investigation meeting.

9. At the end of the investigation, the Fact Finder shall issue a written report setting forth his or her findings and recommendations, with particular focus on whether the conduct in question is protected by academic freedom, and send a copy to the complaining student, the faculty member, the chief academic officer, and the chief student affairs officer. In ordinary cases, it is expected that the investigation and written report should be completed within 30 calendar days of the date the complaint was filed.
10. **Appeals Procedure.** If either the student or the faculty member is not satisfied with the report of the Fact Finder, the student or faculty member may file a written appeal to the chief academic officer within 10 calendar days of receiving the report. The chief academic officer shall convene and serve as the chairperson of an Appeals Committee, which shall also include the chief student affairs officer, two faculty members elected annually by the faculty council or senate, and one student elected annually by the student senate. The Appeals Committee shall review the findings and recommendations of the report, with particular focus on whether the conduct in question is protected by academic freedom. The Appeals Committee shall not conduct a new factual investigation or overturn any factual findings contained in the report unless they are clearly erroneous. If the Appeals Committee decides to reverse the Fact Finder in a case where there has not been an investigation because the Fact Finder erroneously found that the alleged conduct was protected by academic freedom, it may remand to the Fact Finder for further proceedings. The committee shall issue a written decision within 20 calendar days of receiving the appeal. A copy of the decision shall be sent to the student, the faculty member, the department chairperson, and the president.
11. **Subsequent Action.** Following the completion of these procedures, the appropriate college official shall decide the appropriate action, if any, to take. For example, the department chairperson may decide to place a report in the faculty member's personnel file or the president may bring disciplinary charges against the faculty member. Disciplinary charges may also be brought in extremely serious cases even though the college has not completed the entire investigative process described above; in that case, the bringing of disciplinary charges shall automatically suspend that process. Any action taken by a college must comply with the bylaws of the University and the collective bargaining agreement between the University and the Professional Staff Congress.
12. **Campus Implementation.** Each campus shall implement these procedures and shall distribute them widely to administrators, faculty members, and students and post them on the college website.
13. **Board Review.** During the spring 2009 semester, the Chancellery shall conduct a review of the experience of the colleges with these procedures, including consultation with administrators, faculty, and students, and shall report the results of that review to the Board of Trustees, along with any recommended changes.

1 A reduced grade can be an "F," a "D-," or another grade that is lower than the grade that would have been given but for the violation.

2 Typically, disciplinary sanctions would be sought in cases of the most egregious, or repeated, violations, for example: infraction in ways similar to criminal activity (such as forging a grade form; stealing an examination from a professor or a university office; or forging a transcript); having a substitute take an examination or taking an examination for someone else; sabotaging another student's work through actions designed to prevent the student from successfully completing an assignment; dishonesty that affects a major or essential portion of work done to meet course requirements. [These examples have been taken from a list of violations compiled by Rutgers University.]

The City University of New York Campus and Workplace Violence Policy

Policy Statement

The City University of New York (the "University" or "CUNY") is committed to the prevention of workplace violence and will respond promptly to any threats and/or acts of violence. For purposes of this Policy, Workplace Violence is defined as any physical assault or acts of aggressive behavior occurring where an employee performs any work-related duty in the course of his or her employment, including but not limited to:

1. An attempt or threat, whether verbal or physical, to inflict physical injury upon an employee;
2. Any intentional display of force which would give an employee reason to fear or expect bodily harm;
3. Intentional and wrongful physical contact with an employee without his or her consent that entails some injury;
4. Stalking an employee in a manner which may cause the employee to fear for his or her physical safety and health when such stalking has arisen through and in the course of employment.

Workplace Violence presents a serious occupational safety hazard to CUNY and its employees. The University will respond promptly to threats and/or acts of violence. All employees are responsible for helping to create an environment of mutual respect and for assisting in maintaining a safe and secure work environment and will participate in the annual Workplace Violence Prevention Training Program. . Individuals who violate this Policy may be removed from University property and are subject to disciplinary and/or personnel action up to and including termination, consistent with University policies, rules and collective bargaining agreements, and/or referral to law enforcement authorities for criminal prosecution

Complaints involving Workplace Violence will not be ignored and will be given the serious attention they deserve. 2 Employees are responsible for reporting any incidents of Workplace Violence of which they become aware. Such reports should be made to the employee's immediate supervisor or the Director of Public Safety on their campus.

The University, at the request of an employee or student, or at its own discretion, may prohibit members of the public, including family members, from seeing an employee or student on University property unless necessary to transact University-related business. This policy particularly applies when an employee or student anticipates that an act of violence may result from an encounter with said individual(s).3

Employee participation in the implementation of this Policy will be provided through their authorized employee representatives, who will be invited to participate in: (1) the annual physical risk assessment site evaluation(s) to determine the presence of risk factors which may place employees at risk of workplace violence; (2) the development and annual review of a Workplace Violence Prevention Program promulgated by each College for the implementation of the Policy; (3) the annual review of the Campus Workplace Violence Incidents Report prepared annually by each College; and (4) as appropriate, following a serious incident of Workplace Violence.

2 Complaints of sexual harassment are covered under the University's Policy Against Sexual Harassment.

3 Students are not directly covered by this Policy, but they should contact the Department of Public Safety to report concerns about workplace violence.

Notice of Access to Campus Crime Statistics, the Campus Security Report, and Information on Registered Sex Offenders

The College Advisory Committee on Campus Safety will provide upon request all campus crime statistics as reported to the U.S. Department of Education, as well as the annual campus security report. The campus security report includes:

1. the campus crime statistics for the most recent calendar year and the two preceding calendar years;
2. campus policies regarding procedures and facilities to report criminal actions or other emergencies on campus;
3. policies concerning the security of and access to campus facilities;
4. policies on campus law enforcement;
5. a description of campus programs to inform students and employees about campus security procedures and practices and to encourage students and employees to be responsible for their own security and the security of others;
6. campus crime prevention programs;
7. policy concerning the monitoring through the police of criminal activity at off-campus locations of students organizations officially recognized by the college;
8. policies on illegal drugs, alcohol, and underage drinking;
9. where information provided by the State on registered sex offenders may be obtained (also see below); and
10. policies on campus sexual assault programs aimed at the prevention of sex offenses and procedures to be followed when a sex offense occurs. This information is maintained pursuant to the federal Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act.

The campus crime statistics and the annual campus security report are available at the Reference Desk of the library and the College website at ***https://www.lehman.edu/public-safety/reports/Clery-Report/***. If you wish to be mailed copies of the campus crime statistics and the annual campus security report, contact Fausto Ramirez, director of public safety, at 718-960-8593, and copies will be mailed to you within 10 days. The U.S. Department of Education's website address for campus crime statistics is: ***https://ope.ed.gov/campussafety/#/institution/search***.

In accordance with the federal Campus Sex Crimes Prevention Act, registered sex offenders now are required to register the name and address of any college at which he or she is a student or employee. The New York State Division of Criminal Justice maintains a registry of convicted sex offenders and informs the college's chief security (public safety) officer of the presence on campus of a registered sex offender as a student or employee. You may contact Fausto Ramirez, director of public safety, in Room 109 of the APEX (718-960-8593) to obtain information about Level 2 or Level 3 registered sex offenders on campus. To obtain information about Level 3 offenders, visit the Division's registry website at ***www.criminaljustice.ny.gov/nsor/*** and then click on "Search for Level 3 Sex Offenders" or access the directory at the College's public safety department or police precinct. To obtain information about Level 2 offenders, contact the public safety department, the local police precinct in which the offender resides or attends college, or the Division's sex offender registry at 800-262-3257.

Athletic Program Participation Notice

Lehman College files an annual report with the U.S. Secretary of Education on intercollegiate athletics that includes information on the participation of males and females on its teams, and the expenditures and revenues of those teams. The Equity in Athletics Disclosure Act (EADA) report can be found here: https://ope.ed.gov/athletics/#/.

Accounting Department

The Department offers two undergraduate degree programs - B.A. in Accounting and B.S. in Accounting - as well as M.S. in Accounting (MSA).

Career Opportunities: The degree programs are designed to equip students with the necessary competencies for successful careers in corporations, government or non-profit organizations, education, and research.

Preparation for Graduate Study: Students planning graduate study in accounting should contact the Graduate Adviser in Accounting.

Programs

Accounting - ACC-BA

General

HEGIS Code
0502.00

CIP Code
52.0301

Program Description
Completion of this major qualifies students for positions in private and public accounting.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Arts

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 90 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4
BIO167 Principles of Bio: Organisms	Principles of Biology: Organisms	4
BIO181 Anatomy and Physiology I	Anatomy and Physiology I	4
BIO182 Anatomy and Physiology II	Anatomy and Physiology II	4
BIO183 Human Biology	Human Biology	4
CHE114 Essntls of Gen Chemistry-Lec And CHE115 Essntls of Gen Chemistry-Lab	Essentials of General Chemistry Lecture And Essentials of General Chemistry Laboratory	3 And 1.5
CHE166 General Chemistry I And CHE167 General Chemistry Laboratory I	General Chemistry I And General Chemistry Laboratory I	4 And 1.5
CHE168 General Chemistry 2 And CHE169 General Chemistry Lab II	General Chemistry II And General Chemistry Laboratory II	4 And 1.5
GEO101 Dynamic Earth	Dynamic Earth	3
GEO167 Earth Evolution	Earth Evolution	3
GEP204 Basic Map: Applctns & Analysis	Basic Mapping: Applications and Analysis	3
PHY135 Fund Concepts&Methods Physics	Fundamental Concepts and Methods of Physics	4
PHY140 The Physics of Sound	The Physics of Sound	3.5
PHY166 General Physics I	General Physics I	5
PHY167 General Physics II	General Physics II	5
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4

PHY167 General Physics II	General Physics II	5

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 44 credits.

Additional Comments:
- **This major has been registered with the New York State Department of Education as one in which a minimum of 50% of major courses can be completed online.**

Major Requirements - Core Courses

Type
Completion Requirement

Business Economics

Earn at least 6 credits from the following:
- ECO 166 - Introduction of Macroeconomics
- ECO 167 - Introduction to Microeconomics

Accounting

Earn at least 30 credits from the following:
- ACC 171 - Principles of Accounting I
- ACC 272 - Principles of Accounting II
- ACC 334 - Intermediate Accounting I
- ACC 335 - Intermediate Accounting II
- ACC 342 - Advanced Accounting
- ACC 348 - Computer-Based Accounting
- ACC 439 - Cost Accounting I
- ACC 440 - Cost Accounting II
- ACC 441 - Auditing

- ACC 442 - Introduction to Federal Taxation

Law

Earn at least 6 credits from the following:

- BBA 336 - Business Law I
- BBA 337 - Business Law II
  OR BBA 339 - Commercial Transactions
- BBA 340 - Internet Law

Finance

Earn at least 6 credits from the following:

- BBA 207 - Principles of Finance
- BBA 308 - Corporation Finance
  OR BBA 310 - Security and Investment Analysis

Quantitative Methods for Business

Earn at least undefined credits from the following:

- ECO 302 - Economic and Business Statistics
- BBA 400 - Business Analytics

Business Writing

Earn at least 3 credits from the following:

- ENW 300 - Business Writing

Cooperative Education

Earn at least 2 credits from the following:

- CED 201 - Business Career Exploration: Self-Assessment, Discovery and Preparation
- CED 301 - Business Career Goals, Networking and Strategies

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Accounting - ACC-BS

General

HEGIS Code	CIP Code
0502.00	52.0301

Program Description

To earn the B.S. in Accounting, a student must complete a total of 120 credits, 60 of which must be in liberal arts.

Effective Fall 2009, college CPA programs registered with the New York State Education Department must offer a curriculum consisting of a minimum of 150 credit hours. In line with this change, as of Fall 2009, the Department of Economics and Business offers, in addition to the B.S. in Accounting, an M.S. in Accounting program for those students who choose to take the additional 30 credits toward this graduate degree. However, specific admission requirements are in place to gain admittance to the M.S. in Accounting program. Contact the Department for details.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 60 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:

- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:

- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:

- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:

- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:

- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 65 credits

Additional Comments:

- All students are admitted to this major on a provisional basis. The B.S. in Accounting major is designed to help students prepare for professional certification in Accounting. To enroll and/or maintain matriculation in the B.S. in Accounting major, students must attain a minimum cumulative index of 2.7 (B-) in the first four required Department courses completed at Lehman College that count toward the major. Only the first grades earned in each course are counted in computing the index. Students who fail to attain and maintain this minimum index will not be allowed to enter or continue in the B.S. in Accounting major but can enroll in, or change to, the B.A. in Accounting major or a minor in Accounting.
- **This major has been registered with the New York State Department of Education as one in which a minimum of 50% of major courses can be completed online.**

Major Requirements - Professional Credits

Type
Completion Requirement

Economics

Earn at least 6 credits from the following:

- ECO 166 - Introduction of Macroeconomics
- ECO 167 - Introduction to Microeconomics

Accounting

Earn at least 36 credits from the following:

- ACC 171 - Principles of Accounting I
- ACC 272 - Principles of Accounting II
- ACC 334 - Intermediate Accounting I
- ACC 335 - Intermediate Accounting II
- ACC 342 - Advanced Accounting
- ACC 348 - Computer-Based Accounting
- ACC 439 - Cost Accounting I
- ACC 440 - Cost Accounting II
- ACC 441 - Auditing
- ACC 442 - Introduction to Federal Taxation
- ACC 444 - Advanced Accounting Problems
- ACC 445 - Forensic Accounting
  OR ACC 446 - Nonprofit and International Accounting
  OR ACC 449 - Taxation of Business Entities

Law

Earn at least 6 credits from the following:

- BBA 336 - Business Law I
- BBA 337 - Business Law II

Finance

Earn at least 6 credits from the following:

- BBA 207 - Principles of Finance
- BBA 308 - Corporation Finance
  OR BBA 310 - Security and Investment Analysis

Quantitative Methods for Business

Earn at least 6 credits from the following:

- ECO 302 - Economic and Business Statistics
- BBA 400 - Business Analytics

Business Writing

Earn at least 3 credits from the following:

- ENW 300 - Business Writing

Cooperative Education

Earn at least 2 credits from the following:

- CED 201 - Business Career Exploration: Self-Assessment, Discovery and Preparation
- CED 301 - Business Career Goals, Networking and Strategies

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Accounting - ACC-MIN

General

CIP Code
52.0301

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 12 credits

Minor Requirements - Core Courses

Type
Completion Requirement

Complete ALL of the following Courses:

- ACC 272 - Principles of Accounting II
- ACC 334 - Intermediate Accounting I
- ACC 335 - Intermediate Accounting II

Complete at least 1 course in the following course sets:

- Accounting 300 or 400 Level

Blockchain and Crypto - BLCCRP-MIN

General

CIP Code
52.0301

Program Description
The blockchain and crypto minor is designed to equip accounting, finance and other students with an introduction and exposure to both concepts, as well as the implications that these tools will have on the accounting and related professions. The courses that make up this minor provide a foundation for both accounting and non-accounting majors to establish a foundation of accounting knowledge that can then be applied to the fast-moving spaces of blockchain and cryptoassets. After completing the minor, students will have the necessary knowledge to discuss and articulate trends in the blockchain and crypto world, as well as the expertise to explain how financial services will continue to be impacted by these developments.

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 12 credits

Minor Requirements - Core Courses

Type
Completion Requirement

Complete ALL of the following Courses:

- ACC 171 - Principles of Accounting I
- ACC 272 - Principles of Accounting II
- ACC 361 - Blockchain Introduction & Applications
- ACC 362 - Cryptoassets & Accounting Implications

Courses

ACC 171 - Principles of Accounting I (3 cr)

General

Course Title
Principles of Accounting I

Catalog Description
Financial accounting as means of recording, classifying and reporting financial data, including accounting cycle and preparation of financial statements for sole proprietorships, the underlying theoretical foundations of accounting concepts, assumptions, and principles.

Africana Studies Department

Africana Studies is a body of knowledge that records, describes, and analyzes the experience of people of African descent in all parts of the world, but especially in Africa, the Caribbean, and the Americas. Africana Studies appraises the past, examines the present, and seeks to shape the future by highlighting the cultural, historical, philosophical, and political contributions of Black people in Africa and their descendants throughout the African diaspora.

Programs

Africana Studies - AAS-BA

General

HEGIS Code
2211.00

CIP Code
05.0201

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Arts

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 90 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4

PHY166 General Physics I	General Physics I	5
PHY167 General Physics II	General Physics II	5
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4

PHY167 General Physics II	General Physics II	5

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 36 credits

Additional Comments:
- Departmental Honors
  - Students who wish to qualify for Departmental honors are required to take AAS 481: Honors Project.
- Satisfaction of the College Foreign Language Requirement
  - The College requirement in foreign language may be satisfied by earning 10 credits in either Swahili or Yoruba.
- Teacher Certification
  - Students interested in obtaining New York State teacher certification should consult the Office of the Dean of Education
- Women's Studies Options
  - See the description of this program contained later in this Bulletin.

Major Requirements - Core Courses

Type
Completion Requirement

Earn at least 21 credits from the following:

- AAS 166 - Introduction to African and African American Studies
- AAS 232 - African Civilizations
  OR AAS 248 - African History
- AAS 235 - Caribbean Societies
- AAS 241 - Literature of the English & Francophone Caribbean
  OR AAS 214 - Literature of the Caribbean and the Caribbean Diaspora
  OR AAS 242 - African Literature
  OR AAS 267 - African-American Literature
- AAS 245 - History of African Americans
- AAS 330 - The Civil Rights Movement
  OR AAS 342 - African-Americans in the Political System
- AAS 390 - Research Methods
  OR AAS 470 - Fieldwork in the African American Community

- Students in the Early Childhood and Childhood teaching certification sequence may substitute the courses in the ECCE certification, ECE 480 and ECE 483, which are student teaching and the accompanying seminar (6 credits) for AAS 470: Fieldwork in the African American Community.

Additional Comments:
100% of the courses to complete the major may be taken online.

Major Requirements - Electives

Type
Completion Requirement

Earn at least 15 credits from the following:
- Africana Studies 300 or 400 Level

Additional Comments:
100% of the courses to complete the major may be taken online.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Anthropology Department

The discipline of Anthropology utilizes a four-field approach to the study of human beings in the world. Archaeology traces cultural evolution of past human societies from their beginnings to the development of complex societies. Linguistics explores languages cross-culturally, including topics such as language structure and sociocultural dimensions of language use. Cultural Anthropology focuses on cultural variation and social structure around the world in the realm of law, politics, media, magic, art, religion, science and technology. Biological anthropology includes the study of humans and their primate relatives in terms of evolution, biology, and behavior as well as Forensic Anthropology and Genetics. The Department offers a major in anthropology; an interdisciplinary major in anthropology (biological), biology, and chemistry; and a 12-credit minor in Anthropology and the inter-disciplinary Human Rights and Peace Studies program.

Programs

Interdepartment Concentration in Anthropology - ABC-BS

General

HEGIS Code
2202.00

CIP Code
30.0101

Program Description
The required credits are divided into tracks:

Track I for specializations in Biological Anthropology (such as Human Origins, Human Genetics, Human Growth, Human Adaptation, and Forensic Anthropology).

Track II for specialization in Criminalistics and for students interested in health-professional careers (these students are advised to visit the pre-health office before choosing their electives); students in this track may take any three courses from MAT 175-MAT 176 (Calculus I and II) and PHY 166-PHY 167 (General Physics I and II) as elective credits within the major.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 60 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4
BIO167 Principles of Bio: Organisms	Principles of Biology: Organisms	4
BIO181 Anatomy and Physiology I	Anatomy and Physiology I	4
BIO182 Anatomy and Physiology II	Anatomy and Physiology II	4
BIO183 Human Biology	Human Biology	4
CHE114 Essntls of Gen Chemistry-Lec And CHE115 Essntls of Gen Chemistry-Lab	Essentials of General Chemistry Lecture And Essentials of General Chemistry Laboratory	3 And 1.5
CHE166 General Chemistry I And CHE167 General Chemistry Laboratory I	General Chemistry I And General Chemistry Laboratory I	4 And 1.5
CHE168 General Chemistry 2 And CHE169 General Chemistry Lab II	General Chemistry II And General Chemistry Laboratory II	4 And 1.5
GEO101 Dynamic Earth	Dynamic Earth	3
GEO167 Earth Evolution	Earth Evolution	3
GEP204 Basic Map: Applctns & Analysis	Basic Mapping: Applications and Analysis	3
PHY135 Fund Concepts&Methods Physics	Fundamental Concepts and Methods of Physics	4
PHY140 The Physics of Sound	The Physics of Sound	3.5
PHY166 General Physics I	General Physics I	5
PHY167 General Physics II	General Physics II	5

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 60 credits

Major Requirements - Track I

Type
Completion Requirement

Earn at least 60 credits

Biology

Earn at least 8 credits from the following:
- BIO 166 - Principles of Biology: Cells and Genes
- BIO 167 - Principles of Biology: Organisms

Biological Anthropology

Earn at least 8 credits from the following:
- ANT 171 - Introduction to Human Evolution
- ANT 269 - Introduction to Human Variation

Chemistry

Earn at least 9 credits from the following:
- CHE 114 - Essentials of General Chemistry Lecture
- CHE 115 - Essentials of General Chemistry Laboratory
- CHE 120 - Essentials of Organic Chemistry Lecture I
- CHE 121 - Essentials of Organic Chemistry Laboratory II

Quantitative Methods

Earn at least 3 credits from the following:

- ANT 322 - Analyzing Anthropological Data Quantitatively **OR** MAT 132 - Introduction to Statistics

0-14 Credits in Enhanced Scientific and Analytic Competency

Complete ANY of the following Courses:

- CMP 167 - Programming Methods I
- CMP 168 - Programming Methods II
- MAT 128 - Foundations of Data Science
- MAT 172 - Precalculus
- PHY 166 - General Physics I
- PHY 167 - General Physics II

Elective credits

Earn at least 17 credits

- Elective credits (17-35)
- To total at least 60-63 when added to the number of required credits taken. Students interested in Forensic Anthropology should include ANT 303 (Human Osteology, 4.5 credits, 6 hours). Any course in the list that follows may be taken for elective credit.

Major Requirements - Track II

Type
Completion Requirement

Earn at least 65 credits

Biology

Earn at least 8 credits from the following:

- BIO 166 - Principles of Biology: Cells and Genes
- BIO 167 - Principles of Biology: Organisms

Biological Anthropology

Earn at least 8 credits from the following:

- ANT 171 - Introduction to Human Evolution
- ANT 269 - Introduction to Human Variation

Chemistry

Earn at least 23 credits from the following:

- CHE 166 - General Chemistry I
- CHE 167 - General Chemistry Laboratory I
- CHE 168 - General Chemistry 2
- CHE 169 - General Chemistry Laboratory II
- CHE 232 - Organic Chemistry Lecture I
- CHE 233 - Organic Chemistry Laboratory I
- CHE 234 - Organic Chemistry Lecture II
- CHE 235 - Organic Chemistry Laboratory II

Earn at least 7 credits from the following:

- MAT 172 - Precalculus
- ANT 322 - Analyzing Anthropological Data Quantitatively **OR** MAT 132 - Introduction to Statistics
- MAT 172: pre-requisite for CHE 166.
- MAT 172: may also be satisfied by either successful completion of MAT 108 and MAT 171 or placement into MAT 175 by the Department of Mathematics.

Elective credits

Earn at least 18 credits

- Elective credits (18-22)
- To total at least 65-68 when added to the number of required credits taken. Any course in the list that follows may be taken for elective credit. Those interested in Criminalistics should consider extra Chemistry courses. As noted above, students in this track only may also include MAT 175-MAT 176 (Calculus I and II) and PHY 166-PHY 167 (General Physics I and II) as elective credits within the major.

Major Requirements - Electives

Type
Completion Requirement

Courses Acceptable for Elective Credit

Complete ANY of the following Courses:

- ANT 206 - The Anthropology of Gender
- ANT 211 - Cultural Anthropology
- ANT 212 - Ancient Peoples and Cultures
- ANT 300 - Human Variation
- ANT 301 - Human Origins
- ANT 302 - Primate Behavior and Ecology
- ANT 303 - Human Osteology
- ANT 305 - Forensic Anthropology
- ANT 306 - Survey of Forensic Science
- ANT 307 - The Anthropology of Growth
- ANT 309 - Human Genetics
- ANT 310 - Evolution of the Primates
- ANT 323 - Methods and Philosophies in Paleoanthropology (Inactive)
- ANT 332 - Kinship, Marriage, and the Family
- ANT 334 - Mind and Culture
- ANT 341 - Medical Anthropology
- ANT 360 - Humans and the Environment
- ANT 370 - Excavation of the Lehman College Site
- ANT 371 - Field and Laboratory Research in Archaeology
- ANT 489 - Independent Research in Anthropology
- BIO 181 - Anatomy and Physiology I
- BIO 182 - Anatomy and Physiology II
- BIO 183 - Human Biology
- BIO 184 - Plants and People
- BIO 226 - Human Physiology
- BIO 227 - Mammalian Histology
- BIO 228 - Mammalian Physiology
- BIO 230 - Microbiology
- BIO 238 - Genetics
- BIO 241 - Evolution, Species, and Biogeography
- BIO 267 - Comparative Anatomy of Vertebrates
- BIO 268 - Vertebrate Embryology
- BIO 302 - Biogeography
- BIO 331 - Experimental Microbiology
- BIO 333 - Endocrine Physiology
- BIO 339 - Ecology
- BIO 400 - Biological Chemistry
- BIO 401 - Biological Systematics
- BIO 432 - Biological Fine Structure
- BIO 433 - Techniques in Electron Microscopy
- CHE 232 - Organic Chemistry Lecture I
- CHE 233 - Organic Chemistry Laboratory I
- CHE 234 - Organic Chemistry Lecture II
- CHE 235 - Organic Chemistry Laboratory II

- CHE 244 - Introduction to Biochemistry
- CHE 245 - Biochemistry Laboratory
- CHE 249 - Quantitative Analysis
- CHE 332 - Introductory Physical Chemistry I
- CHE 334 - Introductory Physical Chemistry II
- CHE 335 - Introductory Physical Chemistry of Biosystems Laboratory
- CHE 444 - Biochemistry I
- CHE 446 - Biochemistry II
- GEH 320 - Population Geography
- GEH 335 - Problems in Human Ecology
- GEO 167 - Earth Evolution
- GEO 242 - Introductory Paleontology
- GEO 303 - Stratigraphy and Sedimentology
- GEO 342 - Micropaleontology
- GEP 204 - Basic Mapping: Applications and Analysis
- GEP 205 - Principles of Geographic Information Science
- GEP 321 - Introduction to Remote Sensing
- PSY 166 - General Psychology
- PSY 217 - Child Psychology
- PSY 248 - Introduction to Primate Behavior Studies
- PSY 310 - Psychology of Learning
- PSY 316 - Physiological Psychology
- PSY 318 - Comparative Psychology and Ethology

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Anthropology - ANT-BA

General

HEGIS Code	CIP Code
2202.00	45.0201

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Arts

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 90 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4

PHY167 General Physics II	General Physics II	5

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:

- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:

- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:

- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:

- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:

- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 34 credits

Major Requirements - Core Courses

Type
Completion Requirement

Complete ALL of the following Courses:
- ANT 211 - Cultural Anthropology
- ANT 212 - Ancient Peoples and Cultures
- ANT 171 - Introduction to Human Evolution
  OR ANT 269 - Introduction to Human Variation
- ANT 228 - Language and Culture
  OR ANT 326 - Anthropological Linguistics

Major Requirements - Additional Courses

Type
Completion Requirement

21 credits in other courses in Anthropology at the 200 or above and at least 9 credits at the 300-400 level.

Earn at least 21 credits

Major Requirements - Departmental Honors

Type
Completion Requirement

Additional Comments:
To qualify for Departmental Honors, students must have an overall GPA of at least 3.2, an Anthropology GPA of at least 3.5, and are required to take either ANT489 Indep Res-Anthropol: Independent Research in Anthropology or ANT493 Honors Research in Anthro: Honors Research in Anthropology.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Anthropology - ANT-MIN

General

CIP Code
45.0201

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 12 credits

Minor Requirements - Required Courses

Type
Completion Requirement

The minor in Anthropology requires 12 ANT credits beyond the 100 level, of which at least 6 credits must be at or above the 300 level.

Human Rights and Peace Studies - HRPS-MIN

General

CIP Code
44.0504

Program Description
The Minor in Human Rights and Peace Studies provides students with a unique, holistic, and interdisciplinary approach to the protection of fundamental human entitlements and the development of peaceful social relations. It is a key curricular endeavor of the Center for Human Rights and Peace Studies at Lehman College. Although the Minor is particularly valuable for those majoring in fields related to society and the law, such as Political Science, Philosophy, Sociology, Anthropology, and History, it also complements various professional programs dealing with fundamental human interests and cross-border interactions. The Minor will be housed in the Department of Anthropology.

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 15 credits
Students will complete the Minor by choosing five of the courses listed below, all of which are substantially concerned with human rights and/or peace studies, for a total of 15 credits. All students must take the introductory course, HRP218 Fundamentals of Human Rights (PHI218 Fundamentals of Human Rights) (POL218 Fundamentals of Human Rights) Fundamentals of Human Rights and Peace.

Minor Requirements - Required Course

Type
Completion Requirement

Fulfill ALL of the following requirements:

Core

Complete ALL of the following Courses:

- HRP 218 - Fundamentals of Human Rights and Peace
  OR PHI 218 - Fundamentals of Human Rights and Peace
  OR POL 218 - Fundamentals of Human Rights and Peace

AND

Electives

Earn at least 12 credits from the following:

- PHI 173 - Justice and Society
- AAS 305 - African Philosophical Thought
  OR PHI 305 - African Philosophical Thought
- DST 336 - Disability, Ethics & the Body
  OR PHI 336 - Disability, Ethics and the Body
- POL 369 - Global Justice
  OR PHI 369 - Global Justice
- ANT 238 - Selected Studies in Societies and Culture: Latin American

OR LAC 238 - Selected Studies in Societies and Cultures (Latin America)

- ANT 3500 - Anthropology and Human Rights
  OR HRP 3500 - Anthropology and Human Rights
- SOC 309 - Social Inequality
- LAC 210 - Women in Latin America
  OR ANT 210 - Women in Latin America
  OR WST 210 - Women in Latin America
- LAC 312 - Latino Migrations
  OR LAC 232 - Family and Gender Relations Among Latinos
- HIU 318 - History of American Foreign Relations, 1912-Present
- HIU 330 - The Civil Rights Movement
  OR AAS 330 - The Civil Rights Movement
- POL 230 - Immigration and Citizenship
- POL 315 - Politics of American Poverty
- POL 339 - Human Rights
- POL 343 - International and Regional Organizations
- POL 344 - International Law
- POL 347 - The Law of Diplomacy, Treaties, and War
- POL 348 - International Conflict and Conflict Resolutions
- POL 367 - Political Economy of Development
- POL 368 - Global Environmental Politics
- POL 4720 - Model United Nations
- HRP 3520 - Special Topics in Human Rights and Peace Studies
  OR ANT 3520 - Special Topics in Human Rights and Peace Studies
- POL 3520 - Special Topics in Human Rights and Peace Studies
- HRP 4730 - Internship in Human Rights and Peace Studies
  OR ANT 4730 - Internship in Human Rights and Peace Studies
  OR POL 4730 - Internship in Human Rights and Peace Studies
- SOC 323 - Social Movements, Social Inequality and Public Policy
- SOC 325 - Society, Economy, and Polity in the Middle East (Inactive)
- ENW 345 - Writing and Social Issues

Courses

ANT 120 - Human Evolutionary Biology (3 cr)

General

Course Title
Human Evolutionary Biology

Catalog Description
An introduction to the scientific study of the evolutionary origins of the human species, providing an overview of the scientific method, evolutionary theory, the natural history of primates, the human fossil record, and variation within and between living human populations. NOTE: Students intending to major in Anthropology or Anthropology/Biology/Chemistry should take ANT 171 and/or ANT 269. This course cannot be used by Anthropology or Anthropology/Biology/Chemistry majors to satisfy any requirement for those majors.

Art Department

The Department of Art conducts courses, and offers undergraduate degree programs plus minors in Art Studio (ART-BA and ART-BFA), Art History (ARH-BA) and Computer Graphics and Imaging (CGI-BS). ART-BA and ART-BFA studio art degree majors select one area of specialization from these options: Animation, Ceramics, Design, Digital Imaging, Drawing, Painting, Photography, Printmaking, and Sculpture.

Career Opportunities:

Art degree students prepare for exciting futures in any number of art-related careers —animation, art studio (exhibition and sales), arts management (galleries and museums), arts publications, art teaching, ceramics, design (graphics and other), art organization education, digital imaging, photojournalism, and many others.

Programs

Art History - ARH-MIN

General

CIP Code
50.0701

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 12 credits

Minor Requirements - Required Courses

Type
Completion Requirement

Prerequisite to the minor

- One 100-level ARH Course

Required

- Twelve credits in ARH courses at the 300-level or above.

Additional Comments:
Several 100-level ARH courses can be used to satisfy General Education requirements. Students who complete a 100-level ARH course before declaring the minor must complete only the remaining 12 credits.

Art - ART-BA

General

HEGIS Code
1002.00

CIP Code
50.0701

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Art

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 90 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 42 credits

Major Requirements - Core Courses

Type
Completion Requirement

Fulfill ALL of the following requirements:

Foundation Requirements

Earn at least 15 credits from the following:
- ART 100 - Basic Drawing
- ART 101 - Introduction to Two-Dimensional Design
- ART 102 - Introduction to Three-Dimensional Design
- ART 112 - Introduction to Digital Imaging
- ARH 167 - Tradition and Innovation in the Art of the West

AND

General Art History Requirements

Earn at least 6 credits from the following:
- ARH 135 - Introduction to the History of Asian Art-Islamic, Buddhist, and Hindu Cultures
- ARH 137 - Introduction to the History of the Arts of Africa, the Americas, and the South Pacific
- ARH 139 - Introduction to Topics in Global Art
- ARH 141 - Introd to the History of Modern Art of the 19th

& 20th Centuries in Europe & the US
- ARH 143 - Introduction to the History of Latin American Art

AND

Earn at least 9 credits

Earn at least 9 credits from the following:
- Art 100, 200 or 300 Level

The 100-level course in most specializations is counted here. The 200, 300 level ART courses for the Core Courses are art courses outside of the declared specialization.

ART486 Independent Study: *May be counted in this category.*

Major Requirements - Art Specialization

Type
Completion Requirement

Earn at least 12 credits
A sequence of 200- and 300-level courses in one of the following disciplines: Animation, ceramics, computer imaging, design, drawing, painting, photography, printmaking, or sculpture. Students should consult the Department for specific courses that constitute a sequence. Note: the 100-level course in a specialization is counted in either core courses or foundation courses.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Art - ART-BFA

General

HEGIS Code	CIP Code
1002.00	50.0702

Program Description

The B.F.A. program is open to students who wish to pursue an intensive program in studio art. Upon declaring the major, students are required to schedule a meeting with the BFA Program Coordinator for advising.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Fine Arts

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 30 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:
- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:
- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4
BIO167 Principles of Bio: Organisms	Principles of Biology: Organisms	4
BIO181 Anatomy and Physiology I	Anatomy and Physiology I	4
BIO182 Anatomy and Physiology II	Anatomy and Physiology II	4
BIO183 Human Biology	Human Biology	4
CHE114 Essntls of Gen Chemistry-Lec And CHE115 Essntls of Gen Chemistry-Lab	Essentials of General Chemistry Lecture And Essentials of General Chemistry Laboratory	3 And 1.5
CHE166 General Chemistry I And CHE167 General Chemistry Laboratory I	General Chemistry I And General Chemistry Laboratory I	4 And 1.5
CHE168 General Chemistry 2 And CHE169 General Chemistry Lab II	General Chemistry II And General Chemistry Laboratory II	4 And 1.5
GEO101 Dynamic Earth	Dynamic Earth	3
GEO167 Earth Evolution	Earth Evolution	3
GEP204 Basic Map: Applctns & Analysis	Basic Mapping: Applications and Analysis	3
PHY135 Fund Concepts&Methods Physics	Fundamental Concepts and Methods of Physics	4
PHY140 The Physics of Sound	The Physics of Sound	3.5
PHY166 General Physics I	General Physics I	5
PHY167 General Physics II	General Physics II	5

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:

- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:

- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:

- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:

- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:

- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 60 credits

Major Requirements - Core Courses

Type
Completion Requirement

Foundation Requirement

Earn at least 18 credits from the following:
- ART 100 - Basic Drawing
- ART 101 - Introduction to Two-Dimensional Design
- ART 102 - Introduction to Three-Dimensional Design
- ART 108 - Introduction to Photography
- ART 112 - Introduction to Digital Imaging
- ARH 167 - Tradition and Innovation in the Art of the West

General Art History

Earn at least 9 credits from the following:
- Art History Courses
- at least one of which must be at the 100 level.
- ARH 167: Cannot be counted toward this requirement.

General Studio Work

Earn at least 9 credits from the following:
- Art 100, 200 or 300 Level

Major Requirements - Art Specialization

Type
Completion Requirement

Earn at least 15 credits
- A sequence of 200-, 300-, and 400-level courses (ART (CGI) 451, ART (CGI) 480, ART (CGI) 481, ART 486, ART 487 may be counted in this category, pending approval by faculty in area of specialization) in one of the following disciplines: animation, ceramics, computer imaging, design, drawing, painting, photography, printmaking, or sculpture. Students should consult the Department for specific courses that constitute a sequence.
- The printmaking course ART 313 The Artist's Multiple may be counted as a specialization course in all of these specializations: computer imaging, design, drawing, painting, photography and printmaking.

Practicum

Earn at least 3 credits from the following:
- ART 488 - Professional Practices in the Visual Arts

Thesis

Earn at least 6 credits from the following:
- ART 494 - Bachelor of Fine Arts Thesis I
- ART 496 - Bachelor of Fine Arts Thesis II

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute "Writing Intensive" when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative
All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

50.0703

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Arts

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 90 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4

PHY167 General Physics II	General Physics II	5
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 30 credits

Major Requirements - Core Courses

Type
Completion Requirement

Foundation Requirement

Earn at least 6 credits from the following:
- ARH 135 - Introduction to the History of Asian Art-Islamic, Buddhist, and Hindu Cultures
- ARH 137 - Introduction to the History of the Arts of Africa, the Americas, and the South Pacific
- ARH 139 - Introduction to Topics in Global Art
- ARH 141 - Introd to the History of Modern Art of the 19th & 20th Centuries in Europe & the US
- ARH 167 - Tradition and Innovation in the Art of the West

General Requirement

Earn at least 12 credits
- Selected from ARH 100- and 300-level courses.

Art History Requirement

Earn at least 9 credits
- Selected from ARH 300-level courses.

Advanced Work

Earn at least 3 credits from the following:

- ARH 451 - Seminar
- ARH 477 - Intership in Art History
- ARH 489 - Research in Art History

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Art Teacher - ARTTE-BA

General

HEGIS Code	CIP Code
1002.00	13.1302

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Arts in Art Teaching

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least undefined credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Complete at least 1 of the following courses:
- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Complete ALL of the following Courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4
BIO167 Principles of Bio: Organisms	Principles of Biology: Organisms	4

PHY166 General Physics I	General Physics I	5
PHY167 General Physics II	General Physics II	5

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:

- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:

- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:

- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:

- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:

- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Preparation for Teaching Art

Type
Completion Requirement

There is no certification for teaching art at the early childhood/elementary level. Students who wish to teach studio art must select the Art Teacher program offered by the Department of Middle and High School Education, which leads to certification from kindergarten through the twelfth grade. See the section on Program Requirements for Undergraduate Secondary Teacher Education of Middle and High School Education in this Bulletin.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

CIP Code
50.0409

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 60 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4
BIO167 Principles of Bio: Organisms	Principles of Biology: Organisms	4
BIO181 Anatomy and Physiology I	Anatomy and Physiology I	4
BIO182 Anatomy and Physiology II	Anatomy and Physiology II	4
BIO183 Human Biology	Human Biology	4
CHE114 Essntls of Gen Chemistry-Lec And CHE115 Essntls of Gen Chemistry-Lab	Essentials of General Chemistry Lecture And Essentials of General Chemistry Laboratory	3 And 1.5
CHE166 General Chemistry I And CHE167 General Chemistry Laboratory I	General Chemistry I And General Chemistry Laboratory I	4 And 1.5
CHE168 General Chemistry 2 And CHE169 General Chemistry Lab II	General Chemistry II And General Chemistry Laboratory II	4 And 1.5
GEO101 Dynamic Earth	Dynamic Earth	3
GEO167 Earth Evolution	Earth Evolution	3
GEP204 Basic Map: Applctns & Analysis	Basic Mapping: Applications and Analysis	3
PHY135 Fund Concepts&Methods Physics	Fundamental Concepts and Methods of Physics	4
PHY140 The Physics of Sound	The Physics of Sound	3.5
PHY166 General Physics I	General Physics I	5
PHY167 General Physics II	General Physics II	5
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 61 credits

Major Requirements - Core Courses

Type
Completion Requirement

Art

Earn at least 18 credits from the following:
- ART 100 - Basic Drawing
- ART 101 - Introduction to Two-Dimensional Design
- ART 102 - Introduction to Three-Dimensional Design **OR** ART 106 - Introduction to Sculpture
- ART 108 - Introduction to Photography
- ART 112 - Introduction to Digital Imaging
- ARH 167 - Tradition and Innovation in the Art of the West **OR** ARH 141 - Introd to the History of Modern Art of the 19th & 20th Centuries in Europe & the US

ART/CGI

Earn at least 24 credits from the following:
- ART 221 - Applied Imaging and Applications to the World Wide Web I
- ART 222 - Introduction to Animation
- ART 321 - Computer Modeling and Design I
- ART 322 - Computer Modeling and Design II
- ART 325 - Digital Multimedia
- ART 421 - Computer Animation I

- ART 422 - Computer Animation II
- ART 223 - Drawing for Animation
  OR ART 336 - Advanced Stop Motion Animation
  OR ART 441 - Broadcast Design
  OR ART 480 - Senior Project
  OR ART 487 - Professional Experience in the Fine Arts
- ART 487 - maximum 6 credits

Computer Science

Earn at least 14 credits from the following:

- CMP 167 - Programming Methods I
- CMP 157 - Programming Methods I Lab
- CMP 168 - Programming Methods II
- CMP 158 - Programming Methods II Lab
- CMP 343 - Full Stack Web Development
  OR CMP 342 - Internet Programming

Mathematics

Earn at least 5 credits from the following:

- MAT 155 - Calculus I Laboratory
- MAT 175 - Calculus I

Biological Sciences Department

The undergraduate curricula of the Department of Biological Sciences are designed to provide potential biologists with a solid background based on the substantial new information comprising modern Biology and to meet the needs of students with different career goals and scientific interests. The Department offers students the opportunity to earn the Bachelor of Science degree in Biology or the Bachelor of Arts degree in Biology for schoolteachers. Students have the opportunity to pursue either a four-year BS or a five-year BS-MS dual degree.

Career Preparation: With the opportunity to take coursework and have hands-on training related to all aspects of the life sciences, a Bachelor of Science (BS) degree in biological sciences from Lehman College readies students for a wide range of exciting and in-demand careers. The BS degree is a popular choice among Lehman students pursuing medicine, dentistry, pharmacy, optometry, physical therapy, veterinary medicine, and other healthcare-related fields as the pre-requisite coursework for these professional programs is embedded within the major. Students can also use this degree to prepare for a career in basic or applied biology research in an academic setting or the private sector, especially by taking advantage of the opportunity to perform mentored research within the department. Former graduates have additionally pursued careers in science policy, medical illustration, public health, pharmaceutical and biotech sales, and many more.

The Bachelor of Arts (BA) degree in biological sciences is specifically designed for students interested in becoming middle and high school biology teachers. Such students should consult with an adviser in both the Department of Biological Sciences and the Department of Middle and High School Education to get an idea for the breadth of coursework they will need to pursue. Students preparing for elementary teaching should instead consult the Department of Early Childhood and Childhood Education.

Graduate Study: Students who plan to attend graduate school should consult the Departmental adviser early in their college careers. They should examine the Lehman College Graduate Bulletin and the bulletins of various graduate schools for specific entrance requirements. A reading knowledge of foreign languages is sometimes required. In special cases, graduating seniors meeting the prerequisites may be permitted to offer credit from graduate courses listed in the College's Graduate Bulletin toward their undergraduate degrees.

Programs

Biology - BIMHSE-BA

General

HEGIS Code
0401.00

CIP Code
13.1322

Program Description
This major sequence in Biology is appropriate only for students planning to teach in middle and high school. The required education sequence in middle and high school education must be completed for all students selecting this major in Biology. As part of their overall training students in science, students will be required to take ESC419 Tchng Sci in Middle & HS.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Arts

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 90 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Communication Skills

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Quantitative Skills

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Laboratory Science

Complete ALL of the following Courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

World Cultures and Global Issues

Complete at least 1 course in the following course sets:

- Flexible Core World Cultures and Global Issues

AND

US Experience in Its Diversity

Complete at least 1 course in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Creative Expression

Complete at least 1 course in the following course sets:

- Flexible Core Creative Expression

AND

Individual and Society

Complete at least 1 course in the following course sets:

- Flexible Core Individual and Society

AND

Scientific World

Complete at least 1 course in the following course sets:

- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 55 credits

Major Requirements - Required Courses

Type
Completion Requirement

Fulfill ALL of the following requirements:

Biology

Earn at least 12 credits from the following:
- BIO 166 - Principles of Biology: Cells and Genes
- BIO 167 - Principles of Biology: Organisms
- BIO 238 - Genetics
- BIO 239 - Genetics Laboratory
- BIO166 Princip of Biology:Cells&Genes and BIO167 Principles of Bio: Organisms: Both courses count towards Pathways General Education requirements. Both are prerequisites to all other Biology courses at the 200-level or higher.

AND

Physics

Earn at least 5 credits from the following:
- PHY 166 - General Physics I

AND

Chemistry

Complete ALL of the following Courses:

- CHE 166 - General Chemistry I
- CHE 167 - General Chemistry Laboratory I
- CHE 168 - General Chemistry 2
- CHE 169 - General Chemistry Laboratory II
- CHE 232 - Organic Chemistry Lecture I
- CHE 233 - Organic Chemistry Laboratory I

AND

Mathematics

Earn at least 3 credits from the following:

- MAT 128 - Foundations of Data Science

AND

At least 18 credits in advanced biology courses from 3 Areas:

Fulfill ALL of the following requirements:

Cellular Biology

Complete at least 1 of the following courses:

- BIO 268 - Vertebrate Embryology
- BIO 311 - Parasitology
- BIO 312 - Parasitology Laboratory
- BIO 320 - Neural Development: From Genes and Cells to Brains
- BIO 321 - Neural Development Laboratory
- BIO 331 - Experimental Microbiology
- BIO 338 - Human Genetics
- BIO 350 - Introduction to Immunology
- BIO 351 - Immunology Laboratory
- BIO 400 - Biological Chemistry
- BIO 406 - Cancer and Cellular Differentiation
- BIO 415 - Medical Microbiology
- BIO 420 - Molecular Biology
- BIO 438 - Genomics and Human Health

AND

Organismic Biology

Complete at least 1 of the following courses:

- BIO 228 - Mammalian Physiology
- BIO 229 - Astrobiology: Life and Health Beyond Earth
- BIO 267 - Comparative Anatomy of Vertebrates
- BIO 317 - Drugs, Brain and Behavior
- BIO 330 - Plant Physiology
- BIO 333 - Endocrine Physiology
- BIO 340 - Human Body and Brain
- BIO 341 - Human Body and Brain Laboratory
- BIO 431 - Comparative Animal Physiology
- BIO 435 - Neurophysiology

AND

Population Biology

Complete at least 1 of the following courses:

- BIO 241 - Evolution, Species, and Biogeography
- BIO 242 - Flowering Plants
- BIO 336 - Marine Biology Lectures
- BIO 339 - Ecology

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 60 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
The maximum total number of credits that may be transferred towards the degree at Lehman College from Associate degree granting institutions is 70. Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

No transfer student may be granted more than 90 credits toward the degree. Students must satisfy the requirement that 30 credits as well as one-half the credits in the major and half in the minor or half the credits in an interdisciplinary program be completed in residence at Lehman.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4
BIO167 Principles of Bio: Organisms	Principles of Biology: Organisms	4
BIO181 Anatomy and Physiology I	Anatomy and Physiology I	4
BIO182 Anatomy and Physiology II	Anatomy and Physiology II	4
BIO183 Human Biology	Human Biology	4
CHE114 Essntls of Gen Chemistry-Lec And CHE115 Essntls of Gen Chemistry-Lab	Essentials of General Chemistry Lecture And Essentials of General Chemistry Laboratory	3 And 1.5
CHE166 General Chemistry I And CHE167 General Chemistry Laboratory I	General Chemistry I And General Chemistry Laboratory I	4 And 1.5
CHE168 General Chemistry 2 And CHE169 General Chemistry Lab II	General Chemistry II And General Chemistry Laboratory II	4 And 1.5
GEO101 Dynamic Earth	Dynamic Earth	3
GEO167 Earth Evolution	Earth Evolution	3
GEP204 Basic Map: Applctns & Analysis	Basic Mapping: Applications and Analysis	3
PHY135 Fund Concepts&Methods Physics	Fundamental Concepts and Methods of Physics	4
PHY140 The Physics of Sound	The Physics of Sound	3.5
PHY166 General Physics I	General Physics I	5
PHY167 General Physics II	General Physics II	5

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:

- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:

- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:

- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:

- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4

PHY167 General Physics II	General Physics II	5
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:

- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 33 credits

Additional Comments:
BS To M.S. Dual Credit Opportunity
Undergraduate Students Majoring In Biology With 90 Or More Credits And A Minimum (3.0) Cumulative Index And (3.5) Index In The Major May Be Permitted To Enroll In Up To 8 Credits Of Graduate Coursework In Preparation For The M.S. Degree In Biology. The Student Must Receive Permission From The Department To Take Graduate Courses Prior To Registration.

Major Requirements - Core Courses

Type
Completion Requirement

Prerequisites

Earn at least 29 credits from the following:
- BIO 166 - Principles of Biology: Cells and Genes
- BIO 167 - Principles of Biology: Organisms
- CHE 166 - General Chemistry I
- CHE 167 - General Chemistry Laboratory I
- CHE 168 - General Chemistry 2
- CHE 169 - General Chemistry Laboratory II
- PHY 166 - General Physics I
- PHY 167 - General Physics II

*BIO 166 and BIO 167 can be used to fulfill general education requirements. Both are prerequisites to all other biology courses.

Students can complete MAT 172, 4 credits or the combined substitute (MAT 171 (4) and MAT 108) (2)

** BIO 240 has MAT 175 and MAT 155 as prerequisites. MAT 328 has MAT 128 as a prerequisite.

Students who complete BIO 181 and BIO 182 can use those courses in place of BIO 228.

Students who complete any or all of the pre-requisite courses before declaring the major may complete the major in less than 77 credits.

A grade of C or higher is recommended for all courses in the prerequisite list.

Complete at least 1 of the following:

Complete ALL of the following Courses:
- MAT 172 - Precalculus

OR

Complete ALL of the following Courses:
- MAT 171 - Elements of Precalculus
- MAT 108 - Trigonometry

Foundation**

Complete ALL of the following Courses:
- BIO 238 - Genetics
- BIO 239 - Genetics Laboratory
- BIO 240 - Biostatistics.
  OR MAT 328 - Techniques in Data Science

** BIO 240 has MAT 175 and MAT 155 as prerequisites. MAT 328 has MAT 128 as a prerequisite.

Organic Chemistry

Complete ALL of the following Courses:
- CHE 232 - Organic Chemistry Lecture I
- CHE 233 - Organic Chemistry Laboratory I
- CHE 234 - Organic Chemistry Lecture II
- CHE 235 - Organic Chemistry Laboratory II

Additional Comments:
At least 21-22 credits in one of the following tracks:

Major Requirements - Biomedical Sciences Track

Type
Completion Requirement

Biomedical Sciences at least 21 credits

Select courses from lists: A, B, and C

List A

Earn at least 12 credits from the following:
- BIO 228 - Mammalian Physiology
- BIO 267 - Comparative Anatomy of Vertebrates
- BIO 303 - Data Mining and Bioinformatics
- BIO 331 - Experimental Microbiology
- BIO 333 - Endocrine Physiology
- BIO 350 - Introduction to Immunology
- BIO 351 - Immunology Laboratory

- BIO 400 - Biological Chemistry
- BIO 410 - Cell Physiology and Biochemistry
- BIO 411 - Principles of Virology
- BIO 415 - Medical Microbiology
- BIO 420 - Molecular Biology
- BIO 431 - Comparative Animal Physiology

List B

Earn at least 8 credits from the following:

- BIO 229 - Astrobiology: Life and Health Beyond Earth
- BIO 241 - Evolution, Species, and Biogeography
- BIO 242 - Flowering Plants
- BIO 268 - Vertebrate Embryology
- BIO 311 - Parasitology
- BIO 312 - Parasitology Laboratory
- BIO 317 - Drugs, Brain and Behavior
- BIO 320 - Neural Development: From Genes and Cells to Brains
- BIO 321 - Neural Development Laboratory
- BIO 330 - Plant Physiology
- BIO 336 - Marine Biology Lectures
- BIO 338 - Human Genetics
- BIO 339 - Ecology
- BIO 340 - Human Body and Brain
- BIO 341 - Human Body and Brain Laboratory
- BIO 403 - Medicinal Plants
- BIO 406 - Cancer and Cellular Differentiation
- BIO 425 - Ichthyology
- BIO 426 - Ichthyology Laboratory
- BIO 435 - Neurophysiology
- BIO 438 - Genomics and Human Health
- BIO 465 - Microbial Physiology and Genetics

List C

Earn at least 1 credits from the following:

- BIO 440 - Biology Journal Review
- BIO 450 - Biology Seminar
- BIO 471 - Research In Molecular Microbio
- BIO 489 - Introduction to Experimental Biology
- BIO 490 - Honors in Biological Sciences

- BIO 489 may be repeated for a maximum 3 credits

Major Requirements - Organismic Sciences Track

Type
Completion Requirement

Organismic Sciences at least 21 credits

Select courses from lists A, B, and C

List A

Earn at least 12 credits from the following:

- BIO 229 - Astrobiology: Life and Health Beyond Earth
- BIO 241 - Evolution, Species, and Biogeography
- BIO 242 - Flowering Plants
- BIO 268 - Vertebrate Embryology
- BIO 317 - Drugs, Brain and Behavior
- BIO 311 - Parasitology
- BIO 312 - Parasitology Laboratory
- BIO 320 - Neural Development: From Genes and Cells to Brains
- BIO 321 - Neural Development Laboratory
- BIO 330 - Plant Physiology
- BIO 336 - Marine Biology Lectures
- BIO 338 - Human Genetics
- BIO 339 - Ecology
- BIO 340 - Human Body and Brain
- BIO 341 - Human Body and Brain Laboratory
- BIO 403 - Medicinal Plants
- BIO 406 - Cancer and Cellular Differentiation
- BIO 425 - Ichthyology
- BIO 426 - Ichthyology Laboratory
- BIO 435 - Neurophysiology
- BIO 438 - Genomics and Human Health
- BIO 465 - Microbial Physiology and Genetics

List B

Earn at least 8 credits from the following:

- BIO 228 - Mammalian Physiology
- BIO 267 - Comparative Anatomy of Vertebrates
- BIO 303 - Data Mining and Bioinformatics
- BIO 331 - Experimental Microbiology
- BIO 333 - Endocrine Physiology
- BIO 350 - Introduction to Immunology
- BIO 351 - Immunology Laboratory
- BIO 400 - Biological Chemistry
- BIO 410 - Cell Physiology and Biochemistry
- BIO 411 - Principles of Virology
- BIO 415 - Medical Microbiology
- BIO 420 - Molecular Biology
- BIO 431 - Comparative Animal Physiology

List C

Earn at least 1 credits from the following:

- BIO 440 - Biology Journal Review
- BIO 450 - Biology Seminar
- BIO 471 - Research In Molecular Microbio
- BIO 489 - Introduction to Experimental Biology
- BIO 490 - Honors in Biological Sciences

- BIO 489 may be repeated for a maximum 3 credits

Major Requirements - Brain Sciences Track

Type
Completion Requirement

Brain Sciences At Least 21 Credits

Select courses from lists: A, B, and C

List A

Earn at least 14 credits from the following:

- BIO 228 - Mammalian Physiology
- BIO 317 - Drugs, Brain and Behavior
- BIO 320 - Neural Development: From Genes and Cells to Brains
- BIO 321 - Neural Development Laboratory
- BIO 340 - Human Body and Brain
- BIO 341 - Human Body and Brain Laboratory
- BIO 400 - Biological Chemistry
- BIO 420 - Molecular Biology
- BIO 435 - Neurophysiology

List B

Earn at least 1 credits from the following:

- BIO 440 - Biology Journal Review
- BIO 450 - Biology Seminar
- BIO 471 - Research In Molecular Microbio
- BIO 489 - Introduction to Experimental Biology
- BIO 490 - Honors in Biological Sciences

- BIO 489 may be repeated for a maximum 3 credits

List C

Earn at least 6 credits from the following:

- PSY 166 - General Psychology
- PSY 308 - Motivation and Emotion
- PSY 310 - Psychology of Learning
- PSY 312 - Psychology of Memory
- PSY 314 - Cognitive Psychology
- PSY 317 - Psychology of Sensation and Perception
- PSY 366 - Clinical Neuropsychology

- PSY 166 can be used to fulfill General Education requirements and is a prerequisite to all other PSY courses. Students who complete PSY 166 before declaring the major only need to complete 6 credits in this area.

Major Requirements - Bio-Data Sciences Track

Type
Completion Requirement

Bio-Data Sciences At Least 22 Credits

Select courses from lists: A, B, and C

List A

Earn at least 12 credits from the following:

- BIO 241 - Evolution, Species, and Biogeography
- BIO 242 - Flowering Plants
- BIO 270 - Invertebrate Zoology
- BIO 271 - Invertebrate Zoology Laboratory
- BIO 303 - Data Mining and Bioinformatics
- BIO 330 - Plant Physiology
- BIO 331 - Experimental Microbiology
- BIO 336 - Marine Biology Lectures
- BIO 339 - Ecology
- BIO 400 - Biological Chemistry
- BIO 403 - Medicinal Plants
- BIO 420 - Molecular Biology
- BIO 425 - Ichthyology
- BIO 426 - Ichthyology Laboratory
- BIO 503 - Topics in Urban Ecology

List B

Earn at least 1 credits from the following:

- BIO 440 - Biology Journal Review
- BIO 450 - Biology Seminar
- BIO 471 - Research In Molecular Microbio
- BIO 489 - Introduction to Experimental Biology
- BIO 490 - Honors in Biological Sciences

- BIO 489 may be repeated for a maximum 3 credits

List C

Fulfill ALL of the following requirements:

9 Credits in Geospatial, Environmental and Data Science From List C:

Earn at least 3 credits from the following:

- GEP 205 - Principles of Geographic Information Science
- GEP 3060 - Raster Applications
- GEP 375 - Data Acquisition and Integration Methods for GIS Analysis
- GEO 340 - Natural Hazards and Disasters: A Multidisciplinary Approach
- ENV 235 - Conservation of the Environment

AND

Earn at least 6 credits from the following:

- GEH 245 - Introduction to Quantitative Methods of Geography
- SOC 348 - Reasoning with Data
- DAT 310 - Data Visualization

Additional Comments:
Students that take MAT 128, MAT 328 to satisfy the math requirement and take GEH 245, SOC 348, and DAT 310 to satisfy List C for the Bio-Data Sciences track would earn a minor in Data Science.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Year	Semester	Actual Credits	Progress Credits

Biology - BIO-BSMS

General

HEGIS Code
0401.00

CIP Code
26.0101

Program Description

The Five-Year Biology B.S./M.S. degree offers qualified students the opportunity to earn both a Bachelor of Science and a Master of Science degree in Biology, which may be completed in as little as five years.

Effective: Fall 2019. Students whose major declaration for this program is effective beginning in the Fall of 2019 or thereafter must follow these requirements. Students whose declarations were for previous semesters follow the requirements that were in effect at the time of declaration. See link below for the most recent requirements prior to Fall 2019. Please refer to DegreeWorks or consult an advisor to review your requirements and track your progress.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science/Master of Science

Type
Completion Requirement

Earn at least 120 credits
120 credits towards B.S. in Biological Sciences

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 30 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Earn at least 30 credits
30-32 credits towards M.S. degree

Additional Comments:
The maximum total number of credits that may be transferred towards the degree at Lehman College from Associate degree granting institutions is 70. Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

No transfer student may be granted more than 90 credits toward the degree. Students must satisfy the requirement that 30 credits as well as one-half the credits in the major and half in the minor or half the credits in an interdisciplinary program be completed in residence at Lehman.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Complete ALL of the following Courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4
BIO167 Principles of Bio: Organisms	Principles of Biology: Organisms	4

BIO182 Anatomy and Physiology II	Anatomy and Physiology II	4
BIO183 Human Biology	Human Biology	4
CHE114 Essntls of Gen Chemistry-Lec And CHE115 Essntls of Gen Chemistry-Lab	Essentials of General Chemistry Lecture And Essentials of General Chemistry Laboratory	3 And 1.5
CHE166 General Chemistry I And CHE167 General Chemistry Laboratory I	General Chemistry I And General Chemistry Laboratory I	4 And 1.5
CHE168 General Chemistry 2 And CHE169 General Chemistry Lab II	General Chemistry II And General Chemistry Laboratory II	4 And 1.5
GEO101 Dynamic Earth	Dynamic Earth	3
GEO167 Earth Evolution	Earth Evolution	3
GEP204 Basic Map: Applctns & Analysis	Basic Mapping: Applications and Analysis	3
PHY135 Fund Concepts&Methods Physics	Fundamental Concepts and Methods of Physics	4
PHY140 The Physics of Sound	The Physics of Sound	3.5
PHY166 General Physics I	General Physics I	5
PHY167 General Physics II	General Physics II	5
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Fulfill ALL of the following requirements:

Earn at least 120 credits
in Biological Sciences

AND

Winter and Summer Sessions must be used

AND

Complete ALL of the following Courses:
- BIO 489 - Introduction to Experimental Biology

Must be taken twice .

AND

Complete ALL of the following Courses:
- BIO 490 - Honors in Biological Sciences

Should be taken in the senior year.

Major Requirements - Prerequisite Courses

Type
Prerequisite

Complete ALL of the following Courses:

- BIO 166 - Principles of Biology: Cells and Genes
- BIO 167 - Principles of Biology: Organisms
- CHE 166 - General Chemistry I
- CHE 167 - General Chemistry Laboratory I
- CHE 168 - General Chemistry 2
- CHE 169 - General Chemistry Laboratory II
- PHY 166 - General Physics I
- PHY 167 - General Physics II
- MAT 175 - Calculus I
- MAT 155 - Calculus I Laboratory

*BIO166 Princip of Biology:Cells&Genes *and* BIO167 Principles of Bio: Organisms *can be used to fulfill General Education requirements. Both are prerequisites to all other Biology courses.*

MAT175 Calculus I*: Depending on Mathematics placement, students may need to complete the pre-requisite* MAT172 Precalculus*, 4 credits.*

Students who complete any or all of the pre-requisite courses before declaring the major may complete the major in less than 77 credits.

Major Requirements - Foundation Courses

Type
Completion Requirement

Fulfill ALL of the following requirements:

Biology

Complete ALL of the following Courses:

- BIO 238 - Genetics
- BIO 240 - Biostatistics.

AND

Organic Chemistry

Complete ALL of the following Courses:

- CHE 232 - Organic Chemistry Lecture I
- CHE 233 - Organic Chemistry Laboratory I
- CHE 234 - Organic Chemistry Lecture II
- CHE 235 - Organic Chemistry Laboratory II

AND

At least 20-21 credits in one of the following tracks:

Complete at least 1 of the following:

Biomedical Sciences Track

Fulfill ALL of the following requirements:

List A

Earn at least 12 credits from the following:

- BIO 228 - Mammalian Physiology
- BIO 267 - Comparative Anatomy of Vertebrates
- BIO 331 - Experimental Microbiology
- BIO 333 - Endocrine Physiology
- BIO 350 - Introduction to Immunology
- BIO 400 - Biological Chemistry
- BIO 410 - Cell Physiology and Biochemistry
- BIO 411 - Principles of Virology
- BIO 415 - Medical Microbiology
- BIO 420 - Molecular Biology

AND

List B

Earn at least 8 credits from the following:

- BIO 241 - Evolution, Species, and Biogeography
- BIO 268 - Vertebrate Embryology
- BIO 311 - Parasitology
- BIO 312 - Parasitology Laboratory
- BIO 320 - Neural Development: From Genes and Cells to Brains
- BIO 321 - Neural Development Laboratory
- BIO 330 - Plant Physiology
- BIO 336 - Marine Biology Lectures
- BIO 338 - Human Genetics
- BIO 339 - Ecology
- BIO 340 - Human Body and Brain
- BIO 341 - Human Body and Brain Laboratory
- BIO 401 - Biological Systematics
- BIO 406 - Cancer and Cellular Differentiation
- BIO 431 - Comparative Animal Physiology
- BIO 435 - Neurophysiology
- BIO 438 - Genomics and Human Health
- BIO 465 - Microbial Physiology and Genetics

AND

List C

Earn at least 1 credits from the following:

- BIO 440 - Biology Journal Review
- BIO 450 - Biology Seminar
- BIO 489 - Introduction to Experimental Biology
- BIO 490 - Honors in Biological Sciences

Select courses from Lists: A, B, and C

OR

Organismic Sciences Track

Fulfill ALL of the following requirements:

List A

Earn at least 12 credits from the following:

- BIO 241 - Evolution, Species, and Biogeography
- BIO 268 - Vertebrate Embryology
- BIO 311 - Parasitology
- BIO 312 - Parasitology Laboratory
- BIO 320 - Neural Development: From Genes and Cells to Brains
- BIO 321 - Neural Development Laboratory
- BIO 330 - Plant Physiology
- BIO 336 - Marine Biology Lectures
- BIO 338 - Human Genetics
- BIO 339 - Ecology
- BIO 340 - Human Body and Brain
- BIO 341 - Human Body and Brain Laboratory
- BIO 401 - Biological Systematics
- BIO 406 - Cancer and Cellular Differentiation
- BIO 431 - Comparative Animal Physiology
- BIO 435 - Neurophysiology
- BIO 438 - Genomics and Human Health
- BIO 465 - Microbial Physiology and Genetics

AND

List B

Earn at least 8 credits from the following:

- BIO 228 - Mammalian Physiology
- BIO 267 - Comparative Anatomy of Vertebrates
- BIO 331 - Experimental Microbiology
- BIO 333 - Endocrine Physiology
- BIO 350 - Introduction to Immunology
- BIO 400 - Biological Chemistry
- BIO 410 - Cell Physiology and Biochemistry
- BIO 411 - Principles of Virology
- BIO 415 - Medical Microbiology
- BIO 420 - Molecular Biology

AND

List C

Earn at least 1 credits from the following:

- BIO 440 - Biology Journal Review
- BIO 450 - Biology Seminar
- BIO 489 - Introduction to Experimental Biology
- BIO 490 - Honors in Biological Sciences

Select courses from Lists: A, B, and C

OR

Brain Sciences Track

Fulfill ALL of the following requirements:

List A

Earn at least 13 credits from the following:

- BIO 228 - Mammalian Physiology
- BIO 320 - Neural Development: From Genes and Cells to Brains
- BIO 321 - Neural Development Laboratory
- BIO 340 - Human Body and Brain
- BIO 341 - Human Body and Brain Laboratory
- BIO 435 - Neurophysiology

AND

List B

Earn at least 1 credits from the following:

- BIO 440 - Biology Journal Review
- BIO 450 - Biology Seminar
- BIO 489 - Introduction to Experimental Biology
- BIO 490 - Honors in Biological Sciences

AND

List C

Earn at least 9 credits from the following:

- PSY 166 - General Psychology
- PSY 308 - Motivation and Emotion
- PSY 310 - Psychology of Learning
- PSY 312 - Psychology of Memory
- PSY 314 - Cognitive Psychology
- PSY 317 - Psychology of Sensation and Perception
- PSY 366 - Clinical Neuropsychology

PSY166 General Psychology *can be used to fulfill General Education requirements and is a prerequisite to all other PSY courses. Students who complete* PSY166 General Psychology *before declaring the major only need to complete 6 credits in this area.*

Select courses from Lists: A, B, and C

OR

Bioenvironmental Sciences Track

Fulfill ALL of the following requirements:

List A

Earn at least 14 credits from the following:

- BIO 241 - Evolution, Species, and Biogeography
- BIO 246 - Growth and Development of Higher Plants
- BIO 270 - Invertebrate Zoology
- BIO 271 - Invertebrate Zoology Laboratory
- BIO 330 - Plant Physiology
- BIO 331 - Experimental Microbiology
- BIO 336 - Marine Biology Lectures
- BIO 339 - Ecology
- BIO 400 - Biological Chemistry
- BIO 420 - Molecular Biology

AND

List B

Earn at least 1 credits from the following:

- BIO 440 - Biology Journal Review
- BIO 450 - Biology Seminar
- BIO 489 - Introduction to Experimental Biology
- BIO 490 - Honors in Biological Sciences

AND

Either at least 6 credits in Geospatial Sciences from List C

Earn at least 6 credits from the following:

- GEO 101 - Dynamic Earth
  AND GEH 101 - An Introduction to Geography
- GEP 204 - Basic Mapping: Applications and Analysis
  AND GEP 205 - Principles of Geographic Information Science
- GEP 321 - Introduction to Remote Sensing
  AND GEP 3750 - Data Acquisition and Integration Methods for GIS Analysis

AND

Or 6 credits from List D

Earn at least 6 credits from the following:

- POL 366 - Global Political Economy
- POL 368 - Global Environmental Politics
- POL 343 - International and Regional Organizations

MISSING: POL 350

Select courses from Lists: A, B, and C or D

(Years 1-4) 120-credit B.S. in Biological Sciences. Winter and Summer Sessions must be used. BIO489 Intro Experimntl Bio must be taken twice and BIO490 Honors in Biological Sciences should be taken in the senior year.

(Years 1-2) Students must take the biology, math, chemistry, and physics prerequisites.

(Year 3) Research advisor chosen in Spring term.

(Year 4) Three M.S. courses taken for credit in both degrees (12 credits total). Must take BIO489 Intro Experimntl Bio in the Fall and BIO489 Intro Experimntl Bio and BIO490 Honors in Biological Sciences in the Spring. Graduation in June with Honors, having completed a research project under faculty sponsor.

Major Requirements - M.S. Courses

Type
Completion Requirement

Year 4

Fulfill ALL of the following requirements:

Earn at least 12 credits from the following:
- BIO 489 - Introduction to Experimental Biology
- BIO 489 - Introduction to Experimental Biology **AND** BIO 490 - Honors in Biological Sciences
- Must take **BIO 489** in the Fall and **BIO 489** and **BIO 490** in the Spring.
- Graduation in June with Honors, having completed a research project under faculty sponsor.

AND

Year 5

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- BIO 7991 - Thesis Research **AND** BIO 7992 - Thesis Research
- BIO 7993 - Thesis Research
- With possibility of **BIO 7993**. Defense of thesis and graduation by September 1.
- Enrolled in M.S. program in thesis track (30 course credits) 12 of which are satisfied in Year 4.

AND

Earn at least 30 credits

AND

Year 4

Earn at least 12 credits from the following:
- BIO 634 - Cell Biology and Electron Microscopy

AND

Year 5

Earn at least 12 credits
- Students must take three to four M.S. courses in Year 5.

AND

Earn at least 6 credits
Three Thesis Research Courses

Additional Comments:
- *Note 1: This program will allow students to finish 1-2 years earlier than they would if they did a separate B.S. followed by a M.S. Additionally, this program provides students with extensive research experience, which will make them more competitive for jobs, doctoral programs and medical programs.*
- *Note 2: To be eligible for the fifth-year program, all students must demonstrate an interest in, achievement in, or affinity for biology. This will be determined by having a minimum of 48 semester hours of mathematics and sciences study, including **MAT 175** with a GPA of 3.0. Candidates must apply to the program no later than the first semester of their junior year and may apply as early as the second semester of their sophomore year.*
- The accelerated pace of this program is made possible by offering qualified students the opportunity to take masters level courses during their final year of undergraduate work. Students qualify by demonstrated attainment of a GPA of 3.0 in mathematics and science coursework as well as a GPA of 3.25 in the major through the first three years of study, and by completing all of the necessary prerequisites for those courses, which will ensure that they are prepared for graduate-level work.

Degree Maps

Biology - BIOL-MIN

General

CIP Code
26.0101

Program Description
Effective: Fall 2019. Students whose minor declaration for this program is effective beginning in the Fall of 2019 or thereafter must follow these requirements. Students whose declarations were for previous semesters follow the requirements that were in effect at the time of declaration. See link below for the most recent Biology Minor requirements prior to Fall 2019. Please refer to Degree Works or consult an advisor to review your requirements and track your progress.

A minor in Biology will familiarize students with concepts and research tools that scientists use to understand the living world and solve real-world problems. By minoring in biology, students from various disciplines such as business, computer science, psychology, and health sciences can combine their expertise with their knowledge of the natural world to enhance their career options.

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 20 credits

Minor Requirements - Required Courses

Type
Prerequisite

Complete ALL of the following Courses:
- BIO 166 - Principles of Biology: Cells and Genes
- BIL 167 - Principio De Bio 1 (Inactive)

Complete at least 3 of the following courses:
- BIO 238 - Genetics
- One 200 level BIO course (BIO 230 is not accepted) 4 credits
- One 300 or 400 level BIO course 4 credits

Additional Comments:
- BIO 166 and BIO 167 are prerequisites to all other advanced biology courses and are STEM variants that students can use to satisfy their General Education requirements. Students who complete BIO 166 and BIO 167 before declaring the minor must complete only the remaining 12 credits.

Biology Teacher 7-12 - BIOT-MIN

General

CIP Code
13.1322

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Admission Requirements

Type
Prerequisite

- Bachelor's degree (or its equivalent) from an accredited college or university.
- Demonstrate the ability to pursue graduate study successfully. (Above-average academic achievement in general and in the teaching specialization is required.)
- Students in the program for Secondary School Teachers of Biology and General Science must have completed a major in the life sciences. The preparation must include at least 24 credit hours in the biological sciences (appropriately distributed), including an introduction to genetics. Additional required preparation on the college level consists of one year each of chemistry, physics, and mathematics. Advisable college-level preparation includes one year of earth sciences, one course in probability and statistics, and one course in organic chemistry. The candidate must also have completed 12 credits in secondary education courses and one semester of student teaching (or its equivalent).
- If conditionally admitted, students must make up not more than 12 credits of specified undergraduate coursework, starting in the first semester and finishing in no more than three consecutive semesters.
- Up to three letters of recommendation.

Minor Requirements - Degree Requirements

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 4 courses in the following course sets:
- Biology Courses

AND

Complete at least 1 course in the following course sets:
- Chemistry Courses

AND

Complete at least 1 course in the following course sets:
- Physics Courses

AND

Earn at least 9 credits from the following:

- ESC 700 - Psychology in Education, Group Dynamics
- ESC 701 - Advanced Educational Psychology
- ESC 702 - Foundations of Education
- ESC 703 - School and Community
- ESC 772 - Evaluation and Assessment of Student Learning

Additional Comments:

- Students who have not completed one year of undergraduate earth sciences will take either geology, astronomy, or both.
- Additional courses are listed under the Departments of Chemistry, Earth, Environmental, and Geological Sciences, and Physics and Astronomy. A minimum total of 30 credits must be completed to earn the degree.

Health Careers Preparation - HTHCP-CERT

General

HEGIS Code
4902.00

CIP Code
30.0101

Program Description

The Health Careers Preparation Post-Baccalaureate Certificate Program (HealthBridge) is aimed primarily at bachelor degree holders who decided to pursue a career in the health professions (medicine, dentistry, pharmacy, optometry, physical therapy, genetic counseling, physician assistant studies, or veterinary medicine) while still undergraduates, but did not complete all of the required prerequisites. For some, this is because they have long had a dream of work in the health professions, but chose to defer it during their undergraduate work only to come back to it later in their lives. For others, they have made the decision to pursue a career in the health professions late in their undergraduate study, perhaps as seniors, leaving them insufficient time to complete their coursework. The program will also serve “career-changers,” that is, bachelor degree holders who did not pursue preparation for the health professions as undergraduates, but make the decision subsequent to graduation.

Students pursuing the HealthBridge certificate must choose one of eight tracks, based on their eventual career goal:

- Bridge to Medicine
- Bridge to Physician Assistant
- Bridge to Physical Therapy
- Bridge to Dental
- Bridge to Pharmacy
- Bridge to Optometry
- Bridge to Veterinary Medicine
- Bridge to Genetic Counseling

Regardless of track, the HealthBridge certificate is divided into two phases, the Foundational phase and the In Depth phase. It is not necessary to complete the Foundational phase in order to apply for admission to the In Depth phase. Students admitted to the Foundational phase must apply for admission to the In Depth phase once they meet those requirements. The certificate is awarded following successful completion of the In Depth phase.

Requirements

Simple Requirements

(No Requirement Levels)

Certificate Requirements - Admission Requirements

Type
Prerequisite

Admissions to both the Foundational and In Depth phases are competitive.

The *minimum* standards for admission to the Foundational phase are:

- A bachelor’s degree (or its equivalent) from an accredited college or university
- Cumulative undergraduate grade point average (GPA) dependent on track:

o 2.6 for Bridge to Pharmacy

o 2.7 for Bridge to Dentistry or Bridge to Veterinary Medicine

o 2.9 for Bridge to Optometry, Bridge to Physical Therapy, Bridge to Genetic Counseling, or Bridge to Physician Assistant

o 3.0 for Bridge to Medicine

- Placement in to MAT171 Elements of Precalculus (Elements of Precalculus) or higher
- Personal statement indicating suitability and motivation for the program
- Letter of recommendation
- Interview

The *minimum* standards for admission to the In Depth phase are:

- A bachelor's degree (or its equivalent) from an accredited college or university
- Cumulative undergraduate grade point average (GPA) dependent on track:

o 2.8 for Bridge to Pharmacy

o 2.9 for Bridge to Dentistry or Bridge to Veterinary Medicine

o 3.0 for Bridge to Optometry, Bridge to Physical Therapy, Bridge to Genetic Counseling, or Bridge to Physician Assistant

o 3.1 for Bridge to Medicine

- Placement in to calculus (this can be achieved by completion of MAT 171+108 or MAT172 Precalculus with a C or higher)
- Completion of ENG111 English Composition I (first semester English composition) or equivalent
- For Bridge to Medicine, Physician Assistant, Dentistry, Genetic Counseling, Pharmacy, Optometry, and Veterinary Medicine: completion of CHE168 General Chemistry 2 and CHE169 General Chemistry Lab II (second semester General Chemistry lecture and laboratory) or equivalent
- For Bridge to Physician Assistant, Physical Therapy, and Pharmacy: completion of BIO181 Anatomy and Physiology I (first semester Anatomy and Physiology with laboratory) or equivalent
- For Bridge to Medicine, Physician Assistant, Physical Therapy, Dentistry, Genetic Counseling, Pharmacy, and Optometry: completion of PSY 166 (General Psychology) or equivalent
- Personal statement indicating suitability and motivation for the program
- Letter of recommendation
- Interview
- It is not necessary for a student to enroll in the Foundational phase in order to apply for the In Depth phase
- Students admitted to the Foundational phase are not guaranteed admission to the In Depth phase unless they meet the minimum standards specified above

Certificate Requirements - Overall

Type
Completion Requirement

Earn at least 36 credits
Residency in the Certificate

Students must complete at least 18 credits of the certificate in residence at Lehman during the Foundational and/or In Depth phases. Credits earned prior to matriculation in the certificate cannot be applied to the 18-credit minimum, even if they were earned at Lehman College.

Students must also complete at least 50% of the minimum credits required for their track in residency at Lehman, but this requirement can be satisfied in part by courses taken prior to matriculation in to the Certificate.

Example: the Bridge to Optometry track is 39-61 credits, so at least 19.5 credits (50% of 39, the minimum for the track) must be taken in residency at Lehman. At least 18 of those must be taken after matriculation in to either the Foundational or In Depth phase of the certificate program. The remaining 1.5 credits for residency must have been taken at Lehman, but could have been taken prior to matriculation in to the certificate program; for example, during the course of completion of a first degree at Lehman College. The balance of the 39 credits required for the Bridge to Optometry track within the certificate could come from any combination of eligible transfer credits, eligible credits taken in residency prior to matriculation in to the certificate program, and credits taken during the certificate program.

Exceptions to Grade Policy

If a student begins the In Depth phase and does not receive C's or greater in all of the courses required for the certificate, they may apply to the Program for a waiver for up to two courses with grades lower than C. If that is not sufficient to allow awarding of the certificate (e.g. they withdrew from one or more required courses), they have one year to take or retake up to 12 credits, paying appropriate tuition, in order to earn the certificate.

Change of Tracks

At any time, students have the option to apply for a change of track. Approval of changes is at the discretion of the program, but is more likely to be granted for a student requesting a change to a goal with lower minimum GPA requirements (e.g. Bridge to Optometry to Bridge to Dentistry) than for those requesting a change to a goal with higher GPA requirements, even if they meet the higher requirements.

Certificate Requirements - Bridge to Medicine Track

Type
Completion Requirement

Fulfill ALL of the following requirements:

Prerequisites to the Track

Earn at least 20 credits from the following:

- CHE 166 - General Chemistry I
- CHE 167 - General Chemistry Laboratory I
- CHE 168 - General Chemistry 2
- CHE 169 - General Chemistry Laboratory II
- ENG 111 - English Composition I
- ENG 121 - English Composition II
- MAT 171 - Elements of Precalculus
  AND MAT 108 - Trigonometry
- PSY 166 - General Psychology

*MAT171 Elements of Precalculus and MAT108 Trigonometry, or MAT172 Precalculus, or placement in to MAT175 Calculus I

AND

Certificate Requirements

Earn at least 39 credits from the following:

- BIO 166 - Principles of Biology: Cells and Genes
- BIO 167 - Principles of Biology: Organisms
- CHE 232 - Organic Chemistry Lecture I
- CHE 233 - Organic Chemistry Laboratory I
- CHE 234 - Organic Chemistry Lecture II
- CHE 235 - Organic Chemistry Laboratory II
- BIO 400 - Biological Chemistry
  OR CHE 444 - Biochemistry I
- PHY 166 - General Physics I
  OR PHY 168 - Physics I Scientists and Engineers
- PHY 167 - General Physics II
  OR PHY 169 - Physics II for Scientists and Engineers
- NSS 350 - Pre-Professional Seminar
- NSS 350 - Pre-Professional Seminar
- NSS 352 - The Medical School Admissions Process

NSS350 Pre-Professional Seminar *is taken in two semesters: fall and spring.*

- To earn the certificate in the Bridge to Medicine track, the above courses must be completed, with a grade of C or higher, by the end of the In Depth phase.

Additional Comments:
Completion of the above courses, or equivalents, are required for the Bridge to Medicine track of the Health Careers Preparation certificate. In many cases, students will have completed some or all of these courses prior to matriculation in to the certificate program; in such cases, those courses may fulfill this requirement but are not counted as credits toward completion of the certificate. Any courses from this list taken subsequent to matriculation in to the certificate program will be counted toward the credits earned for the certificate.

Certificate Requirements - Bridge to Physician Assistant Track

Type
Completion Requirement

Fulfill ALL of the following requirements:

Prerequisites to the Track

Earn at least 28 credits from the following:

- BIO 181 - Anatomy and Physiology I
- BIO 182 - Anatomy and Physiology II
- CHE 166 - General Chemistry I
- CHE 167 - General Chemistry Laboratory I
- CHE 168 - General Chemistry 2
- CHE 169 - General Chemistry Laboratory II
- ENG 111 - English Composition I
- ENG 121 - English Composition II
- MAT 171 - Elements of Precalculus
  AND MAT 108 - Trigonometry
- PSY 166 - General Psychology

*MAT171 Elements of Precalculus and MAT108 Trigonometry, or MAT172 Precalculus, or placement in to MAT175 Calculus I

AND

Certificate Requirements

Earn at least 34 credits from the following:

- BIO 166 - Principles of Biology: Cells and Genes
- BIO 167 - Principles of Biology: Organisms
- CHE 232 - Organic Chemistry Lecture I
- CHE 233 - Organic Chemistry Laboratory I
- CHE 234 - Organic Chemistry Lecture II
- CHE 235 - Organic Chemistry Laboratory II
- BIO 400 - Biological Chemistry
  OR CHE 444 - Biochemistry I
- BIO 238 - Genetics
- BIO 239 - Genetics Laboratory
- BIO 230 - Microbiology
  OR BIO 331 - Experimental Microbiology
- NSS 350 - Pre-Professional Seminar
- NSS 350 - Pre-Professional Seminar

NSS350 Pre-Professional Seminar *is taken in two semesters: fall and spring.*

- To earn the certificate in the Bridge to Physician Assistant track, the above courses must be completed, with a grade of C or higher, by the end of the In Depth phase.

Additional Comments:
Completion of the courses, or equivalents, are required for the Bridge to Physician Assistant track of the Health Careers Preparation certificate. In many cases, students will have completed some or all of these courses prior to matriculation in to the certificate program; in such cases, those courses may fulfill this requirement but are not counted as credits toward completion of the certificate. Any courses from this list taken subsequent to matriculation in to the certificate program will be counted toward the credits earned for the certificate.

**Additional credits to bring the certificate total to at least 36 must be selected from the list of Additional Eligible Courses below.*

Certificate Requirements - Bridge to Physical Therapy Track

Type
Completion Requirement

Fulfill ALL of the following requirements:

Prerequisites to the Track

Earn at least 25 credits from the following:

- BIO 166 - Principles of Biology: Cells and Genes
- BIO 167 - Principles of Biology: Organisms
- BIO 181 - Anatomy and Physiology I
- BIO 182 - Anatomy and Physiology II
- ENG 111 - English Composition I
- ENG 121 - English Composition II
- MAT 171 - Elements of Precalculus
  AND MAT 108 - Trigonometry
- PSY 166 - General Psychology

*MAT171 Elements of Precalculus and MAT108 Trigonometry, or MAT172 Precalculus, or placement in to MAT175 Calculus I

AND

Certificate Requirements

Earn at least 23 credits from the following:

- CHE 166 - General Chemistry I
- CHE 167 - General Chemistry Laboratory I
- CHE 168 - General Chemistry 2
- CHE 169 - General Chemistry Laboratory II
- PHY 166 - General Physics I
  OR PHY 168 - Physics I Scientists and Engineers
- PHY 167 - General Physics II
  OR PHY 169 - Physics II for Scientists and Engineers
- NSS 350 - Pre-Professional Seminar
- NSS 350 - Pre-Professional Seminar

NSS350 Pre-Professional Seminar *is taken in two semesters: fall and spring.*

- To earn the certificate in the Bridge to Physical Therapy track, the above courses must be completed, with a grade of C or higher, by the end of the In Depth phase.

Additional Comments:
Completion of the above courses, or equivalents, are required for the Bridge to Physical Therapy track of the Health Careers Preparation certificate. In many cases, students will have completed some or all of these courses prior to matriculation in to the certificate program; in such cases, those courses may fulfill this requirement but are not counted as credits toward completion of the certificate. Any courses from this list taken subsequent to matriculation in to the certificate program will be counted toward the credits earned for the certificate.

**Additional credits to bring the certificate total to at least 36 must be selected from the list of Additional Eligible Courses below.*

Certificate Requirements - Bridge to Dentistry Track

Type
Completion Requirement

Fulfill ALL of the following requirements:

Prerequisites to the Track

Earn at least 20 credits from the following:

- CHE 166 - General Chemistry I
- CHE 167 - General Chemistry Laboratory I
- CHE 168 - General Chemistry 2
- CHE 169 - General Chemistry Laboratory II
- ENG 111 - English Composition I
- ENG 121 - English Composition II
- MAT 171 - Elements of Precalculus
  AND MAT 108 - Trigonometry
- PSY 166 - General Psychology

*MAT171 Elements of Precalculus and MAT108 Trigonometry, or MAT172 Precalculus, or placement in to MAT175 Calculus I

AND

Certificate Requirements

Earn at least 36 credits from the following:

- BIO 166 - Principles of Biology: Cells and Genes
- BIO 167 - Principles of Biology: Organisms
- CHE 232 - Organic Chemistry Lecture I
- CHE 233 - Organic Chemistry Laboratory I
- CHE 234 - Organic Chemistry Lecture II
- CHE 235 - Organic Chemistry Laboratory II
- BIO 400 - Biological Chemistry
  OR CHE 444 - Biochemistry I
- PHY 166 - General Physics I
  OR PHY 168 - Physics I Scientists and Engineers
- PHY 167 - General Physics II
  OR PHY 169 - Physics II for Scientists and Engineers
- NSS 350 - Pre-Professional Seminar
- NSS 350 - Pre-Professional Seminar

NSS350 Pre-Professional Seminar *is taken in two semesters: fall and spring.*

- To earn the certificate in the Bridge to Dentistry track, the above courses must be completed, with a grade of C or higher, by the end of the In Depth phase.

Additional Comments:
Completion of the above courses, or equivalents, are required for the Bridge to Dentistry track of the Health Careers Preparation certificate. In many cases, students will have completed some or all of these courses prior to matriculation in to the certificate program; in such cases, those courses may fulfill this requirement but are not counted as credits toward completion of the certificate. Any courses from this list taken subsequent to matriculation in to the certificate program will be counted toward the credits earned for the certificate.

Certificate Requirements - Bridge to Pharmacy Track

Type
Completion Requirement

Fulfill ALL of the following requirements:

Prerequisites to the Track

Earn at least 32 credits from the following:

- BIO 181 - Anatomy and Physiology I
- BIO 182 - Anatomy and Physiology II
- CHE 166 - General Chemistry I
- CHE 167 - General Chemistry Laboratory I
- CHE 168 - General Chemistry 2
- CHE 169 - General Chemistry Laboratory II
- ENG 111 - English Composition I
- ENG 121 - English Composition II
- MAT 171 - Elements of Precalculus
  AND MAT 108 - Trigonometry
- MAT 175 - Calculus I
- PSY 166 - General Psychology

*MAT171 Elements of Precalculus and MAT108 Trigonometry, or MAT172 Precalculus, or placement in to MAT175 Calculus I

AND

Certificate Requirements

Earn at least 35 credits from the following:

- BIO 166 - Principles of Biology: Cells and Genes
- BIO 167 - Principles of Biology: Organisms
- BIO 230 - Microbiology
  OR BIO 331 - Experimental Microbiology
- CHE 232 - Organic Chemistry Lecture I
- CHE 233 - Organic Chemistry Laboratory I
- CHE 234 - Organic Chemistry Lecture II
- CHE 235 - Organic Chemistry Laboratory II
- BIO 400 - Biological Chemistry
  OR CHE 444 - Biochemistry I
- PHY 166 - General Physics I

OR PHY 168 - Physics I Scientists and Engineers
- NSS 350 - Pre-Professional Seminar
- NSS 350 - Pre-Professional Seminar

NSS350 Pre-Professional Seminar *is taken in two semesters: fall and spring.*

- To earn the certificate in the Bridge to Pharmacy track, the above courses must be completed, with a grade of C or higher, by the end of the In Depth phase.

Additional Comments:
Completion of the above courses, or equivalents, are required for the Bridge to Pharmacy track of the Health Careers Preparation certificate. In many cases, students will have completed some or all of these courses prior to matriculation in to the certificate program; in such cases, those courses may fulfill this requirement but are not counted as credits toward completion of the certificate. Any courses from this list taken subsequent to matriculation in to the certificate program will be counted toward the credits earned for the certificate.

**Additional credits to bring the certificate total to at least 36 must be selected from the list of Additional Eligible Courses below.*

Certificate Requirements - Bridge to Optometry Track

Type
Completion Requirement

Fulfill ALL of the following requirements:

Prerequisites to the Track

Earn at least 24 credits from the following:
- CHE 166 - General Chemistry I
- CHE 167 - General Chemistry Laboratory I
- CHE 168 - General Chemistry 2
- CHE 169 - General Chemistry Laboratory II
- ENG 111 - English Composition I
- ENG 121 - English Composition II
- MAT 171 - Elements of Precalculus
  AND MAT 108 - Trigonometry
- MAT 175 - Calculus I
- PSY 166 - General Psychology

*MAT171 Elements of Precalculus and MAT108 Trigonometry, or MAT172 Precalculus, or placement in to MAT175 Calculus I

AND

Certificate Requirements

Earn at least 40 credits from the following:
- BIO 166 - Principles of Biology: Cells and Genes
- BIO 167 - Principles of Biology: Organisms
- BIO 230 - Microbiology
  OR BIO 331 - Experimental Microbiology
- CHE 232 - Organic Chemistry Lecture I
- CHE 233 - Organic Chemistry Laboratory I
- CHE 234 - Organic Chemistry Lecture II
- CHE 235 - Organic Chemistry Laboratory II
- BIO 400 - Biological Chemistry
  OR CHE 444 - Biochemistry I
- PHY 166 - General Physics I
  OR PHY 168 - Physics I Scientists and Engineers
- PHY 167 - General Physics II
  OR PHY 169 - Physics II for Scientists and Engineers
- NSS 350 - Pre-Professional Seminar
- NSS 350 - Pre-Professional Seminar

NSS350 Pre-Professional Seminar *is taken in two semesters: fall and spring.*

- To earn the certificate in the Bridge to Optometry track, the above courses must be completed, with a grade of C or higher, by the end of the In Depth phase.

Additional Comments:
Completion of the above courses, or equivalents, are required for the Bridge to Optometry track of the Health Careers Preparation certificate. In many cases, students will have completed some or all of these courses prior to matriculation in to the certificate program; in such cases, those courses may fulfill this requirement but are not counted as credits toward completion of the certificate. Any courses from this list taken subsequent to matriculation in to the certificate program will be counted toward the credits earned for the certificate.

Certificate Requirements - Bridge to Veterinary Medicine Track

Type
Completion Requirement

Fulfill ALL of the following requirements:

Prerequisites to the Track

Earn at least 21 credits from the following:
- CHE 166 - General Chemistry I
- CHE 167 - General Chemistry Laboratory I
- CHE 168 - General Chemistry 2
- CHE 169 - General Chemistry Laboratory II
- ENG 111 - English Composition I
- ENG 121 - English Composition II
- MAT 171 - Elements of Precalculus
  AND MAT 108 - Trigonometry
- MAT 175 - Calculus I

*MAT171 Elements of Precalculus and MAT108 Trigonometry, or MAT172 Precalculus, or placement in to MAT175 Calculus I

AND

Certificate Requirements

Earn at least 36 credits from the following:
- BIO 166 - Principles of Biology: Cells and Genes
- BIO 167 - Principles of Biology: Organisms
- CHE 232 - Organic Chemistry Lecture I
- CHE 233 - Organic Chemistry Laboratory I
- CHE 234 - Organic Chemistry Lecture II
- CHE 235 - Organic Chemistry Laboratory II
- BIO 400 - Biological Chemistry
  OR CHE 444 - Biochemistry I
- PHY 166 - General Physics I
  OR PHY 168 - Physics I Scientists and Engineers
- PHY 167 - General Physics II
  OR PHY 169 - Physics II for Scientists and Engineers

Any courses from this list taken subsequent to matriculation in to the certificate program will be counted toward the credits earned for the certificate.

Certificate Requirements - Bridge to Genetic Counseling Track

Type
Completion Requirement

Fulfill ALL of the following requirements:

Prerequisites to the Track

Earn at least 20 credits from the following:

- CHE 166 - General Chemistry I
- CHE 167 - General Chemistry Laboratory I
- CHE 168 - General Chemistry 2
- CHE 169 - General Chemistry Laboratory II
- ENG 111 - English Composition I
- ENG 121 - English Composition II
- MAT 171 - Elements of Precalculus
  AND MAT 108 - Trigonometry
- PSY 166 - General Psychology

*MAT171 Elements of Precalculus and MAT108 Trigonometry, or MAT172 Precalculus, or placement in to MAT175 Calculus I

AND

Certificate Requirements

Earn at least 30 credits from the following:

- BIO 166 - Principles of Biology: Cells and Genes
- BIO 167 - Principles of Biology: Organisms
- CHE 232 - Organic Chemistry Lecture I
- CHE 233 - Organic Chemistry Laboratory I
- CHE 234 - Organic Chemistry Lecture II
- CHE 235 - Organic Chemistry Laboratory II
- BIO 400 - Biological Chemistry
  OR CHE 444 - Biochemistry I
- BIO 238 - Genetics
- BIO 239 - Genetics Laboratory
- NSS 350 - Pre-Professional Seminar
- NSS 350 - Pre-Professional Seminar

NSS350 Pre-Professional Seminar *is taken in two semesters: fall and spring.*

- To earn the certificate in the Bridge to Genetic Counseling track, the above courses must be completed, with a grade of C or higher, by the end of the In Depth phase..

Additional Comments:

Any courses from this list taken subsequent to matriculation in to the certificate program will be counted toward the credits earned for the certificate.

**Additional credits to bring the certificate total to at least 36 must be selected from the list of Additional Eligible Courses below.*

Certificate Requirements - Additional Eligible Courses

Type
Completion Requirement

Complete ANY of the following Courses:

- BIO 181 - Anatomy and Physiology I
- BIO 182 - Anatomy and Physiology II
- BIO 230 - Microbiology
- BIO 233 - Human Physiology
- BIO 238 - Genetics
- BIO 239 - Genetics Laboratory
- BIO 268 - Vertebrate Embryology
- BIO 331 - Experimental Microbiology
- BIO 400 - Biological Chemistry
- BIO 420 - Molecular Biology
- BIO 435 - Neurophysiology
- BIO 501 - Topics in Genetics
- CHE 232 - Organic Chemistry Lecture I
- CHE 233 - Organic Chemistry Laboratory I
- CHE 234 - Organic Chemistry Lecture II
- CHE 235 - Organic Chemistry Laboratory II
- CHE 444 - Biochemistry I
- CHE 446 - Biochemistry II
- CHE 447 - Biochemistry Laboratory
- DST 311 - Social Scientific Perspectives on Health and Disability
- DST 336 - Disability, Ethics & the Body
- ECO 167 - Introduction to Microeconomics
- ENG 228 - Literature and Medicine
- ENW 307 - Health and Science Writing
- ENW 345 - Writing and Social Issues
- MAT 108 - Trigonometry
- MAT 128 - Foundations of Data Science
- MAT 132 - Introduction to Statistics
- MAT 155 - Calculus I Laboratory
- MAT 171 - Elements of Precalculus
- MAT 172 - Precalculus
- MAT 175 - Calculus I
- MCS 200 - Oral Communication
- PHI 341 - Medical Ethics
- PHI 434 - Neuroethics
- PHY 166 - General Physics I
- PHY 167 - General Physics II
- PHY 168 - Physics I Scientists and Engineers
- PHY 169 - Physics II for Scientists and Engineers
- POL 211 - Public Policy
- POL 318 - Politics of Health
- PSY 166 - General Psychology
- PSY 217 - Child Psychology
- PSY 218 - Psychology of Adolescence
- PSY 219 - Psychology of Adulthood and Aging
- SOC 166 - Fundamentals of Sociology

Regardless of track, it is necessary to earn no fewer than 36 credits within the certificate. For any track, additional credits to satisfy the certificate, or for purposes of establishing residency at Lehman or in the certificate, may be drawn from the above list of courses, under the guidance and with the approval of a program advisor.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Interdisciplinary Minor in Quantitative Biology - QSB-MIN

General

CIP Code

24.0101

Program Description

This interdisciplinary minor provides training in computer and mathematical modeling of complex biological systems. The minor will be jointly housed by the Department of Biological Sciences and Mathematics and Computer Scienc

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 16 credits
There are three tracks depending upon your major.

Minor Requirements - Required Course

Type
Completion Requirement

If you are a Biology or Biochemistry major you will be required to follow Track 1:

Complete ALL of the following Courses:

- CMP 232 - Discrete Mathematics
- CMP 444 - Modeling Cellular Networks
- CMP 446 - Computational Tools for Bioinformatics

If you are a Computer Science Major you will be required to follow Track 2:

Complete ALL of the following Courses:

- BIO 166 - Principles of Biology: Cells and Genes
- BIO 238 - Genetics
- CMP 444 - Modeling Cellular Networks
- CMP 446 - Computational Tools for Bioinformatics

All other Majors are required to follow Track 3:

Complete ALL of the following Courses:

- BIO 166 - Principles of Biology: Cells and Genes
- BIO 238 - Genetics
- CMP 232 - Discrete Mathematics
- CMP 446 - Computational Tools for Bioinformatics

- *NOTES: No course can be used for both the minor and major. The level of math needed for successful completion for the minor is either **MAT 175** and **MAT 176** or **MAT 175** and **BIO 240**.*

Courses

BIO 166 - Principles of Biology: Cells and Genes (4 cr)

General

Course Title
Principles of Biology: Cells and Genes

Catalog Description
Introduction to the principles of biology governing the unity and diversity of living organisms, with special emphasis on molecular, subcellular and cellular levels of organization in plants and animals, and on genetics and evolution. Laboratory exercises consist of experimental procedures illustrating basic concepts of biology.Note: This course satisfies either Life & Physical Science or Scientifice World requirement in the CUNY 2013 Gen Ed requirements at Lehman.

Course Attributes
MEBI - ME_BIOL_1 (Intro Bio Molecular & Cellular), UTBI - UT_BIOL_1 (Molecular and Cellular Biology), SPCF - SPCF (Supplemental Course Fees)

BIO 167 - Principles of Biology: Organisms (4 cr)

General

Course Title
Principles of Biology: Organisms

Catalog Description
Introduction to the principles of biology governing the unity and diversity of living organisms, with special emphasis on biological diversity, physiological mechanisms involved in the coordination of activity in plants and animals, and ecology. Laboratory exercises consist of experimental procedures illustrating basic concepts of biology.
Note: This course satisfies either Life & Physical Science or Scientific World requirement in the CUNY 2013 Gen Ed requirements at Lehman.
Prerequisite: BIO 166

Course Attributes
MEBI - ME_BIOL_2 (Intro Bio Organismic), UTBI - UT_BIOL_2 (Organismic Biology), SPCF - SPCF (Supplemental Course Fees)

BIO 175 - Explorations in Biology Media (3 cr)

General

Course Title
Explorations in Biology Media

Catalog Description
Fundamental biological concepts and communication of those and other complex scientific ideas to the public using a variety of multimedia digital platforms. Evaluate scientific claims using quantitative literacy skills; explore how science informs policy making; and, assess how the impact of science on society influences life in the U.S. and globally.

BIO 181 - Anatomy and Physiology I (4 cr)

General

Course Title
Anatomy and Physiology I

Catalog Description
Study of human anatomy and physiology. Lecture topics include cell structure and function, tissues, and the study of the skeletal, muscular, nervous, and endocrine systems. Laboratory workshops apply knowledge with the us of a workbook for problem-solving models, and animal preparations.

Note: Students majoring in Biology who have completed BIO 181 and BIO 182 can use those courses in place of BIO 228.
Note 2: This course satisfies either Life & Physical Science or Scientific World requirement in the CUNY 2013 Gen Ed requirements at Lehman.

Course Attributes

BIO 182 - Anatomy and Physiology II (4 cr)

General

Course Title
Anatomy and Physiology II

Catalog Description
Continuation of BIO 181. Lecture topics include the cardiovascular, respiratory, digestive, renal, endocrine, and reproductive systems. Emphasis is given to the physiological functioning of these systems. Laboratory workshops apply knowledge with the use of workbook for problem-solving, models, and animal preparations. Prerequisite: Bio 181, Grade of C or higher

Note: Students majoring in Biology who have completed BIO 181 and BIO 182 can use those courses in place of BIO 228.
Note 2: This course satisfies either Life & Physical Science or Scientific World requirement in the CUNY 2013 Gen Ed requirements at Lehman.

Course Attributes

BIO 183 - Human Biology (4 cr)

General

Course Title
Human Biology

Catalog Description
(closed to students majoring in Biology). Introduction to the structure and function of the human body, with emphasis on the physiological mechanisms in health and disease. Topics include: the molecules of life; cells and tissues; the skeleton; muscles; the heart; blood; skin; the eye; the ear; reproduction theory; brain; genetics; infectious disease; the immune system; cancer; nutrition.

Course Attributes

BIO 228 - Mammalian Physiology (4 cr)

General

Course Title
Mammalian Physiology

Catalog Description
Study of the basic principles of mammalian physiology. Various organ systems will be presented to illustrate their mechanisms of operation, their nervous and hormonal control, and their interrelationships with other organ systems in maintaining homeostasis. Emphasis will be given to the cardiovascular, neuromuscular, renal, and respiratory systems.Prerequisite: BIO 166 and BIO 167 and CHE 168 and CHE 169.

BIO 229 - Astrobiology: Life and Health Beyond Earth (4 cr)

General

Course Title
Astrobiology: Life and Health Beyond Earth

Catalog Description
Introduction to the emerging field of Astrobiology which is concerned with the origin, evolution, and distribution of life in the Universe. Topics include the molecular and cellular structures of life, the co-evolution of life and a planet, the habitability of planetary bodies, and the search for extraterrestrial life. The course also examines the impact of spaceflight on human health and physiology, as well as the role of space exploration research and technologies in advancing medicine, plant science, and environmental studies. Laboratory exercises complement lecture topics and teach basic laboratory skills and techniques.

Prerequisite: BIO 166 and BIO 167

Course Attributes

BIO 230 - Microbiology (4 cr)

General

Course Title
Microbiology

Catalog Description
A survey of microbes and their structure, chemical composition, cultivation, ecology, and metabolism; special emphasis on applied aspects (infectious diseases and human resistance, food and industrial microbiology, biotechnology). PREREQ: Two semesters of 100-level biology, Grade of C or higher

Note: The course cannot fulfill any requirements within the BIO major or BIO minor).

Course Attributes

BIO 233 - Human Physiology (4 cr)

General

Course Title
Human Physiology

Catalog Description
A survey of the human physiological functions at the molecular, cellular, histological, and organ system levels for biology majors. Laboratory exercises include experimental approaches to understanding the human body functions, clinical case studies, and presentation skills. Note: The course is NOT open to nursing majors as a substitute for BIO 181 or BIO 182. Note: The course is NOT open to biology majors who have completed BIO 228.

BIO 238 - Genetics (2 cr)

General

Course Title
Genetics

Catalog Description
Basic principles of genetics and modern developments in the field, with their theoretical and practical implications: the inheritance, structure, and mode of action of the genetic material in microorganisms, plants and animals, including man. Prerequisite: BIO 166 and BIO 167.

Course Attributes

BIO 239 - Genetics Laboratory (2 cr)

General

Course Title
Genetics Laboratory

Catalog Description
Laboratory work in genetics consists of exploration of chromosomes, cell division, Mendelian inheritance patterns, pedigree analysis, gene linkage maps, gene annotation using current molecular techniques and software.

BIO 240 - Biostatistics. (3 cr)

General

Course Title
Biostatistics.

Catalog Description
Data analysis and construction of tables, figures and paragraphs suitable for publication in biological journals. Experimental design informed by power analysis of preliminary data. Introduction to randomization, bootstrap and Monte Carlo in biological research; and coverage of traditional topics in biostatistics. Computer programming of biological algorithms in JSL (SAS) and R.

BIO 241 - Evolution, Species, and Biogeography (3 cr)

General

Course Title
Evolution, Species, and Biogeography

Catalog Description
This course will explore the three major themes of Evolution, Species, and Biogeography from their historical antecedents to modern ideas. The course will provide the student with a full understanding of the ideas that shape current thinking in organismic biology and advance the dialogue in systematics, ecology, biodiversity, and conservation. The structure of the course will be a web based asynchronous course, which will lead the student to the discovery of ideas based on extensive but guided readings and interpretation of key primary and secondary literature on the three interrelated themes. Important guiding ideas will be presented in forum format in which the student will be an active participant. Guiding principles will include the notion of the biological species concept and that the species has a unique ecological role and longevity, and may occupy a specific geographic region. This concept will be linked to the evolutionary ideas of descent with modification, monophyletic taxa, and the attempt to understand both the current and historic distribution of the world's flora and fauna. At least two models, dispersion and vicariance, will be used to

BIO 244 - Growth and Development of Lower Plants (4 cr)

General

Course Title
Growth and Development of Lower Plants

Catalog Description
Algae, fungi, liverworts, and mosses are cultured and studied macroscopically and microscopically through all phases of their life cycles. Emphasis is on growth and differentiation, reproductive processes, and the phylogenetic interrelationships among groups.Laboratory work will be supplemented by field trips.

BIO 256 - The Evolution of Female and Male Behavioral Preferences (3 cr)

General

Course Title
The Evolution of Female and Male Behavioral Preferences

Catalog Description
This course will critically evaluate Darwin's theory of sexual selection as it applies to humans, we will examine whether many female-typical and male-typical behaviors are partly controlled by the genes. The course will first review Darwin's theory of evolution by natural selection as well as the associated theory of sexual selection, which describes the evolution of female/male mating strategies and the different types of evidence used to evaluate genetic contributions to human behavior. Sexual selection theory will be examined to determine if it adequately describes female/male differences in mating strategies, parental care, jealousy, aggression, and other behaviors. Finally the moral implications of genetic control over human behaviors will be explored.Pre-requisite: BIO 166/167

BIO 265 - Space Biology and Medicine (4 cr)

General

Course Title
Space Biology and Medicine

Catalog Description
How biological systems respond to the space environment, including health and physiological effects. Research in drug development, preventative measures, and clinical applications to mitigate health risks associated with spaceflight, as well as on-earth applications. Laboratory reinforces lecture content. Note: Closed to students who have completed BIO 229.

BIO 338 - Human Genetics (4 cr)

General

Course Title
Human Genetics

Catalog Description
Principles of human genetics and their significance in the health sciences. Lecture topics include genome annotation, chromosomal abnormalities and sequence variations, animal models, genetic approaches, genetic/genomic testing, and gene therapy. Laboratory work includes heritability estimation, karyotyping, structural and functional annotations of genome, genome-wide association studies, and genome editing.
Note: Closed to students who have completed BIO 438.

BIO 401 - Biological Systematics (4 cr)

General

Course Title
Biological Systematics

Catalog Description
A study of the theoretical basis and methodologies of each of the current schools of systematics, and the arguments used by each school in uncovering the phylogenetic relationships among organisms. Topics to be covered will include Aristotelian essentialism, evolutionary systematics, phenetics, cladistics (phylogenetic systematics), transformed (pattern) cladistics, monophyly, paraphyly, polyphyly, parsimony, homology, homoplasy, character state analysis, and polarity.Prerequisite: BIO 166 and BIO 167 and two BIO courses at 200 level or above (NOT BIO 230).

BIO 402 - Bioinformatics (3 cr)

General

Course Title
Bioinformatics

Catalog Description
This course will be an interactive workshop with lecture and in class computer activities to introduce students to the field of bioinformatics. The course will introduce students to bioinformatics tools being used in the analysis of DNA, protein, and cellular activities. Students will learn how to apply bioinformatic analyses to develop testable hypotheses for new research avenues.Prerequisite: Genetics (BIO 238), Biological Chemistry (BIO 400 or CHE 446), and Molecular Biology (BIO 420).

Course Attributes
EXPR - EXPR (Experimental)

BIO 403 - Medicinal Plants (4 cr)

General

Course Title
Medicinal Plants

Catalog Description
Review of plant biology with a focus on natural products and their impact on human health. Students will explore plant structure, function, and the natural compounds that contribute to both plant and human well-being. Discussions will also cover the cultural and historical significance of medicinal plants.

BIO 404 - Plant Biochemistry (4 cr)

General

Course Title
Plant Biochemistry

Catalog Description
Biochemical activities of plants, including photosynthesis, respiratory pathways, sulfate and nitrate reduction, and cell-wall metabolism will be discussed. The biosynthesis by plants of drugs of pharmacological significance such as alkaloids and vitamins will also be considered. Laboratory work will include techniques for fractionating plant cells and isolating intermediates and products' metabolic pathways.Prerequisite: BIO 166 and BIO 167 and two BIO courses at 200 level or above (NOT BIO 230) and CHE 234 and CHE 235.

BIO 406 - Cancer and Cellular Differentiation (3 cr)

General

Course Title
Cancer and Cellular Differentiation

Catalog Description
The regulatory mechanisms controlling the changing of cells from a pre-existing condition to one of increased complexity and specialization will be considered. Evidence for biochemical interaction between the nucleus and cytoplasm in normal, hybrid, and cancer cells will be presented, and hypotheses suggested by specific experiments discussed.

BIO 410 - Cell Physiology and Biochemistry (4 cr)

General

Course Title
Cell Physiology and Biochemistry

Catalog Description
Consideration of structure in relation to function in the intact cell system. Metabolic regulation and the properties of cell membranes, the cytoplasm, the nucleus, and the genes are discussed in terms of some of the integrated activities of the living cell, including permeability, active transport, excitation, conduction, contraction, differentiation, and aging.Prerequisite: BIO 166 and BIO 167 and two BIO courses at 200 level or above (NOT BIO 230) and CHE 234 and CHE 235.

BIO 431 - Comparative Animal Physiology (4 cr)

General

Course Title
Comparative Animal Physiology

Catalog Description
Comparative aspects of cellular and organ physiology, the evolutionary basis for development of homeostatic mechanisms, and structure-function correlation within the animal kingdom. Laboratory work includes the use of modern techniques to elucidate and illustrate the principles discussed in the lectures.Prereq BIO 166 and BIO 167 and two BIO courses 200 level or above (not BIO 230) and CHE 234 and CHE 235.

BIO 432 - Biological Fine Structure (3 cr)

General

Course Title
Biological Fine Structure

Catalog Description
Detailed description of cell structure at the macromolecular level as revealed by modern methods of fine-structure analysis, especially by electron microscopy. Emphasis on structure-function relationships in cell components. Demonstration of the various methods used in fine-structure analysis.Prereq BIO 166 and BIO 167 and two BIO courses 200 level or above (not BIO 230) and coreq BIO 433.

BIO 438 - Genomics and Human Health (4 cr)

General

Course Title
Genomics and Human Health

Catalog Description
In-depth analysis of genomes in humans, rodents, and primates, and covers the current understanding of genetic and genomic mechanisms in relation to human health. Topics include gene identification and functional genomic studies in cancer, ageing, infertility, and behavior; development and evaluation of genetic testing and biopharming; and social/ethical/legal issues related to genetic and genomic advances. Note: Closed to students who have completed BIO 338. Prerequisite: BIO 166, BIO 167 and BIO 238

BIO 465 - Microbial Physiology and Genetics (4 cr)

General

Course Title
Microbial Physiology and Genetics

Catalog Description
The organization of physiological processes in microorganisms including structure, energy yielding mechanisms, macromolecular biosynthesis, growth, and regulation. The genetics of microorganisms including the organization, maintenance, and expression of genetic information, cell growth and differentiation, and genetic engineering.Prereq BIO 166 and BIO 167 and BIO 331.

BIO 471 - Research In Molecular Microbio (2 cr)

General

Course Title
Research In Molecular Microbio

Catalog Description
A project-based laboratory course that trains students in applying their knowledge of biology and chemistry to develop independent research skills used in academia or industry. Students will learn to develop an experimental protocol based on scientific journal articles, carry out experiments, interpret data, and communicate their results. Prerequisites: BIO 166, BIO 167, BIO 238, BIO 331, CHE 232, and CHE 233

BIO 489 - Introduction to Experimental Biology (1-3 cr)

General

Course Title
Introduction to Experimental Biology

Catalog Description
Individual laboratory investigation for advanced students, under the guidance of a faculty member. The course will provide cognitive and technical skills to prepare students for independent laboratory investigation. Sponsorship of a faculty member is required. (may be repeated for a maximum 3 credits). Prerequisites: Departmental permission and 15 BIO credits.

BIO 490 - Honors in Biological Sciences (3 cr)

General

Course Title
Honors in Biological Sciences

Catalog Description
Independent laboratory investigation for advanced students, under the guidance of a faculty member (minimum of 90 hours). Students are required to create and present a poster of their research at annual meetings that are held either within or outside of Lehman College. Prerequisites: GPA of 3.0 or better, 18 BIO credits, and department permission

Note: Required for Honors in Biological Sciences, Sponsorship of a faculty member.

Chemistry Department

The Department of Chemistry offers degree programs designed to prepare students for advanced study and careers in chemistry, biochemistry, and related fields, including medicine and dentistry. For students majoring in other science or science-related fields, the Department offers courses needed to pursue careers in science teaching, medicine, dentistry, nursing, and nutrition. For non-science majors, courses are offered that present the concepts and facts of chemistry useful in understanding and appreciating present-day scientific knowledge and its application to everyday life. The B.S. in Chemistry and Chemistry with a specialization in Biochemistry are accredited by the American Chemical Society (ACS).

Departmental Honors

In order for students to receive departmental honors they must satisfy the College requirements for departmental honors and must complete CHE491 Chemical Research *with a grade of B+ or greater.*

Programs

Chemistry - CHE-BS

General

HEGIS Code
1905.00

CIP Code
40.0501

Program Description

The Chemistry BS is comprised of a core of 32-42 credits and an area of concentration in chemistry or biochemistry. This major is recommended for those students in chemistry who are preparing for (1) graduate study in chemistry, biochemistry, molecular biology, or clinical chemistry and (2) research careers in chemistry, biochemistry or biomedicine in hospitals, medical schools, or the chemical industry. The B.S. program is accredited by the Committee on Professional Training of the American Chemical Society (A.C.S.).

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 60 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY166 General Physics I	General Physics I	5
PHY167 General Physics II	General Physics II	5

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking

- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking

- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 67 credits
- 67-80 Credits for Major

Major Requirements - Core Courses

Type
Completion Requirement

Chemistry

Complete at least 1 of the following courses:
- CHE 166 - General Chemistry I
  AND CHE 167 - General Chemistry Laboratory I
- CHE 114 - Essentials of General Chemistry Lecture
  AND CHE 115 - Essentials of General Chemistry Laboratory

- CHE114 Essntls of Gen Chemistry-Lec, CHE115 Essntls of Gen Chemistry-Lab only with departmental permission.

Complete ALL of the following Courses:
- CHE 168 - General Chemistry 2
- CHE 169 - General Chemistry Laboratory II
- CHE 232 - Organic Chemistry Lecture I
- CHE 233 - Organic Chemistry Laboratory I
- CHE 234 - Organic Chemistry Lecture II
- CHE 235 - Organic Chemistry Laboratory II
- CHE 450 - Chemistry Seminar

- CHE 450 may be repeated for a total of 4 credits.

Mathematics

Complete ALL of the following Courses:

- MAT 175 - Calculus I
- MAT 176 - Calculus II

Physics

Complete ALL of the following Courses:

- PHY 168 - Physics I Scientists and Engineers
- PHY 169 - Physics II for Scientists and Engineers

Major Requirements - Chemistry Concentration

Type
Completion Requirement

Earn at least 35 credits from the following:

- CHE 249 - Quantitative Analysis
- CHE 342 - Physical Chemistry Course in Quantum Chemistry
- CHE 344 - Physical Chemistry Course in Kinetics and Thermodynamics
- CHE 345 - Physical Chemistry Laboratory in Quantum Chemistry
- CHE 347 - Physical Chemistry Laboratory in Kinetics and Thermodynamics
- CHE 442 - Inorganic Chemistry
- CHE 443 - Advanced Inorganic Chemistry
- CHE 444 - Biochemistry I
- CHE 449 - Instrumental Analysis
- MAT 226 - Vector Calculus

Major Requirements - Biochemistry Concentration

Type
Completion Requirement

Earn at least 38 credits from the following:

- CHE 249 - Quantitative Analysis
- CHE 342 - Physical Chemistry Course in Quantum Chemistry
- CHE 344 - Physical Chemistry Course in Kinetics and Thermodynamics
- CHE 345 - Physical Chemistry Laboratory in Quantum Chemistry
- CHE 442 - Inorganic Chemistry
- CHE 443 - Advanced Inorganic Chemistry
- CHE 444 - Biochemistry I
- CHE 446 - Biochemistry II
- CHE 447 - Biochemistry Laboratory
- BIO 166 - Principles of Biology: Cells and Genes
- BIO 167 - Principles of Biology: Organisms

Chemistry - CHE-MIN

General

CIP Code
40.0501

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 24 credits

Minor Requirements - Required Course

Type
Completion Requirement

General Chemistry

Earn at least 11 credits from the following:

- CHE 166 - General Chemistry I
- CHE 167 - General Chemistry Laboratory I
- CHE 168 - General Chemistry 2
- CHE 169 - General Chemistry Laboratory II

Organic Chemistry

Earn at least 10 credits from the following:

- CHE 232 - Organic Chemistry Lecture I
- CHE 233 - Organic Chemistry Laboratory I
- CHE 234 - Organic Chemistry Lecture II
- CHE 235 - Organic Chemistry Laboratory II
- CHE 450 - Chemistry Seminar

One Elective

Complete at least 1 of the following courses:

- CHE 244 - Introduction to Biochemistry
- CHE 249 - Quantitative Analysis
- CHE 342 - Physical Chemistry Course in Quantum Chemistry
- CHE 344 - Physical Chemistry Course in Kinetics and Thermodynamics
- CHE 442 - Inorganic Chemistry

Additional Comments:

- Any other 3 credit (or more) Chemistry course at the 200 level or above excluding CHE 391 and CHE 491 may be considered for the elective with departmental consent.

Chemistry - CHEM-BA

General

HEGIS Code
1905.00

CIP Code
40.0501

Program Description
The Chemistry BA is comprised of a core of 32-42 credits and an area of concentration in chemistry or biochemistry. This major is recommended for those students in chemistry who are preparing for (1) admission to medical, veterinary, or dental school; (2) certification as secondary school teachers of chemistry; or (3) positions in the chemical industry.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Arts

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 90 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY167 General Physics II	General Physics II	5

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:

- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:

- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:

- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:

- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:

- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 54 credits
- 54-67 Credits for Major

Major Requirements - Core Courses

Type
Completion Requirement

Chemistry

Complete at least 1 of the following courses:
- CHE 166 - General Chemistry I
  AND CHE 167 - General Chemistry Laboratory I
- CHE 114 - Essentials of General Chemistry Lecture
  AND CHE 115 - Essentials of General Chemistry Laboratory
- CHE114 Essntls of Gen Chemistry-Lec, CHE115 Essntls of Gen Chemistry-Lab only with departmental permission.

Complete ALL of the following Courses:
- CHE 168 - General Chemistry 2
- CHE 169 - General Chemistry Laboratory II
- CHE 232 - Organic Chemistry Lecture I
- CHE 233 - Organic Chemistry Laboratory I
- CHE 234 - Organic Chemistry Lecture II
- CHE 235 - Organic Chemistry Laboratory II
- CHE 450 - Chemistry Seminar
- CHE 450 may be repeated for a total of 4 credits

Mathematics

Complete ALL of the following Courses:
- MAT 175 - Calculus I
- MAT 176 - Calculus II

Physics

Complete at least 1 of the following courses:
- PHY 166 - General Physics I
  AND PHY 167 - General Physics II
- PHY 168 - Physics I Scientists and Engineers
  AND PHY 169 - Physics II for Scientists and Engineers

Major Requirements - Chemistry Concentration

Type
Completion Requirement

Chemistry

Fulfill ALL of the following requirements:

Earn at least 15 credits from the following:
- CHE 249 - Quantitative Analysis
- CHE 342 - Physical Chemistry Course in Quantum Chemistry
- CHE 344 - Physical Chemistry Course in Kinetics and Thermodynamics
- CHE 345 - Physical Chemistry Laboratory in Quantum Chemistry
- CHE 347 - Physical Chemistry Laboratory in Kinetics and Thermodynamics

AND

Earn at least 3 credits
- One 3-5 credit elective Chemistry course at the 200 level or above, excluding 391 and 491.

Mathematics

Earn at least 4 credits from the following:
- MAT 226 - Vector Calculus

Major Requirements - Biochemistry Concentration

Type
Completion Requirement

Chemistry

Fulfill ALL of the following requirements:

Earn at least 13 credits from the following:
- CHE 342 - Physical Chemistry Course in Quantum Chemistry
  OR CHE 344 - Physical Chemistry Course in Kinetics and Thermodynamics
- CHE 444 - Biochemistry I
- CHE 446 - Biochemistry II
- CHE 447 - Biochemistry Laboratory

AND

Earn at least 3 credits

- One Chemistry course at the 200 level or above, excluding 391 and 491.

Biology

Earn at least 8 credits from the following:

- BIO 166 - Principles of Biology: Cells and Genes
- BIO 167 - Principles of Biology: Organisms

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Courses

CHE 1 - Preparation for General Chemistry (0 cr)

General

Course Title
Preparation for General Chemistry

Catalog Description
Practice in handling mathematical problems in physical science and an introduction to certain fundamental topics in chemistry, for students who have had insufficient high school training in the physical sciences.

Credit Hours

Minimum:
0

Max:
0

Contact Hours

Contact Hours:

Total Completions Allowed:
1

Total Units Allowed:
0

Requirement Designation
Regular Non-Liberal Arts

CHE 114 - Essentials of General Chemistry Lecture (3 cr)

General

Course Title
Essentials of General Chemistry Lecture

Catalog Description
A brief presentation of the essentials of chemistry and their applications to inorganic chemistry.PRE or COREQ: MAT 104 or MAT 132 or MAT 105 or MAT 171 or MAT 172 or satisfaction of requirements for placement into precalculus (MAT 172).

Credit Hours

Minimum:
3

Max:
3

Requirement Designation
RLA_RC_Life&PhysicalSci

CHE 115 - Essentials of General Chemistry Laboratory (1.5 cr)

General

Course Title
Essentials of General Chemistry Laboratory

Catalog Description
Introduction to laboratory experimentation to familiarize students with scientific measurements and practical chemical reactions.PREREQ or COREQ: CHE 114.Note: This course satisfies either Life & Physical Science or Scientific World requirement in the CUNY 2013 Gen Ed requirements at Lehman.

Course Attributes
SPCF - SPCF (Supplemental Course Fees)

Credit Hours

CHE 121 - Essentials of Organic Chemistry Laboratory II (1.5 cr)

General

Course Title
Essentials of Organic Chemistry Laboratory II

Catalog Description
Study of practical organic laboratory techniques and preparations to illustrate the lectures in CHE 120. PREREQ or COREQ: CHE 120.

Course Attributes
SPCF - SPCF (Supplemental Course Fees)

Credit Hours

Minimum:
1.5

Max:
1.5

CHE 136 - Elements of Chemistry (4 cr)

General

Course Title
Elements of Chemistry

Catalog Description
Basic principles of chemistry through laboratory and other discovery experiences together with lectures and workshops. The course covers basic topics such as combustion, chemical reactions, atoms and molecules, ions, acids and bases, and the periodic table.Note: Cannot be used to satisfy the chemistry requirement for any major or program that requires a chemistry course

Course Attributes
SPCF - SPCF (Supplemental Course Fees)

CHE 137 - Elements of Chemistry I (3 cr)

General

Course Title
Elements of Chemistry I

Catalog Description
Basic principles of chemistry centering on laboratory and other discovery experiences together with lectures and workshops. Topics include combustion, chemical reactions, atoms and molecules, and the development of the Periodic Table. COREQ CHE 138 Note: Cannot be used to satisfy the chemistry requirement for any major or program that requires a chemistry course.

CHE 138 - Elements of Chemistry II (3 cr)

General

Course Title
Elements of Chemistry II

Catalog Description
Basic principles of chemistry centering on laboratory and other discovery experiences together with lectures and workshops. Topics include. the relationship of chemistry to electricity, ions, acids and bases, acid rain, electronic structure of atoms and rules of chemical bonding. COREQ CHE 137 Note: Cannot be used to satisfy the chemistry requirement for any major or program that requires a chemistry course.

CHE 209 - Clinical Chemistry (4 cr)

General

Course Title
Clinical Chemistry

Catalog Description
PREREQ: Either CHE 120-121 or 168-169. Study of the fundamentals of analytical methods used in the clinical laboratory, including standard clinical procedures and their application to the analysis of body fluids. Metabolic pathways and their relation to normal and pathological conditions will be discussed. PREREQ: Either CHE 120-121 or 168-169.

CHE 244 - Introduction to Biochemistry (3 cr)

General

Course Title
Introduction to Biochemistry

Catalog Description
(Closed to students majoring in Chemistry.) Introductory course emphasizing the study of the structure, reactions, and syntheses of biological compounds; mechanism of enzyme-catalyzed reactions and biochemical genetics.PREREQ: CHE 120. Note: No student may receive credit for both CHE 244 and 444 or 446.

CHE 332 - Introductory Physical Chemistry I (3 cr)

General

Course Title
Introductory Physical Chemistry I

Catalog Description
Fall term only. (Intended for students majoring in Biochemistry or Biology.) An introduction to the principles of thermodynamics, kinetics, and molecular structure fundamental to the understanding of living systems. Applications of principles will include such topics as physical properties of proteins and nucleic acids, membrane transport, diffusion, enzyme kinetics, x-ray diffraction, and molecular spectroscopy. PREREQ: CHE 168-169, MAT 175, and PHY 166. PRE- or COREQ: MAT 176 and PHY 167.

CHE 444 - Biochemistry I (4 cr)

General

Course Title
Biochemistry I

Catalog Description
Fall term only. Study of amino acids, protein structure and conformation, kinetic and molecular basis of enzyme action, lipids, and membrane structure, carbohydrates and intermediary metabolism, regulatory mechanisms, elementary thermodynamics in biochemical equilibria, and relationships between structure and function of biological macromolecules. PREREQ: CHE 234. Departmental Permission required for students who have previously taken CHE 244.

CHE 447 - Biochemistry Laboratory (3 cr)

General

Course Title
Biochemistry Laboratory

Catalog Description
Spring term only. Techniques for the study of large molecules of biological importance; physical and chemical methods of isolation, characterization, structure determination, sequence, and biosynthesis of macromolecules; and kinetics and mechanism of enzyme-catalyzed reactions. Laboratory work will include the application of the following methods to the study of biological molecules: spectrophotometry, chromatography (thin layer, ion exchange, and column), gradient centrifugation, electrophoresis, and radiochemical assays. CHE 491 - Chemical Research (1-3 cr)

General

Course Title
Chemical Research

Catalog Description
This course is designed to enable the advanced student to pursue an investigation of a topic of common interest to the student and a faculty member of the Department. A written research report is required each semester. Note: Satisfactory completion of 3 credits of CHE 491 is one of the requirements for Departmental honors and it is highly encouraged that students complete at least 1 semester of CHE 391 before requesting permission to register for CHE 491. The total credits received for CHE 491 may not exceed 9.Department Permission required.

Computer Science Department

The Department of Computer Science offers undergraduates degree programs in Computer Science and Computer Information Systems and the opportunity to select a minor in these fields. Students can pursue programs leading to the Bachelor of Arts degree in Computer Science and to the Bachelor of Science degree in either Computer Science or Computer Information Systems. These programs prepare students both for graduate study and for careers in industry, education, government, and the non-profit sector.

Programs

Computer Information Systems - CIS-BS

General

HEGIS Code

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 60 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 60 credits

Major Requirements - Core Courses

Type
Completion Requirement

Computer Science

Complete ALL of the following Courses:
- CMP 128 - Programming through Web Development
- CMP 157 - Programming Methods I Lab
- CMP 167 - Programming Methods I
- CIS 212 - Microcomputer Architecture
- CIS 213 - Microcomputer Architecture Lab
- CIS 234 - Computer Group Productivity Tools
- CIS 244 - Introduction to Database Management
- CIS 247 - Practical Operating System Programming and Administration
- CIS 331 - Network Introduction
- CIS 344 - Database Design and Programming
- CIS 345 - Operating Systems
- PHI 221 - Ethical Issues in Computing and Technology **OR** POL 299 - Law, Computers and the Internet: The Politics of Information Technology
- MAT 132 - Introduction to Statistics
- MAT 174 - Elements of Calculus
- MAT 301 - Applied Statistics and Data Analysis
- MAT 348 - Mathematical Methods for Management

Students considering graduate work should take MAT 175, MAT 176 instead of MAT 174.

Elective Tracks

Fulfill ANY of the following requirements:

Web Development Track

Complete ALL of the following Courses:

- CMP 158 - Programming Methods II Lab
- CMP 168 - Programming Methods II
- CMP 343 - Full Stack Web Development
- CIS 346 - E-Commerce

OR

Programming Track

Complete ALL of the following Courses:

- CMP 158 - Programming Methods II Lab
- CMP 168 - Programming Methods II
- CMP 232 - Discrete Mathematics
- CMP 269 - Programming Methods III
- CMP 338 - Data Structures and Algorithms

OR

Hardware Track

Complete ALL of the following Courses:

- CIS 341 - Computer System Fundamentals
- CMP 232 - Discrete Mathematics
- CMP 334 - Computer Organization

OR

Business Track

Complete ALL of the following Courses:

- ECO 166 - Introduction of Macroeconomics
- ECO 167 - Introduction to Microeconomics
- ACC 171 - Principles of Accounting I
  OR ACC 185 - Introduction to Accounting for Non-Accounting Majors

OR

CGI Track

Complete ALL of the following Courses:

- ART 112 - Introduction to Digital Imaging
- CGI 221 - Applied Imaging and Applications to the World Wide Web I
- CGI 321 - Computer Modeling and Design I
- CGI 421 - Computer Animation I

Additional Comments:
At least 1 Elective Track is required for all CIS majors. However, students may choose to add additional track(s) if they wish.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Computer Applications - CMPAP-MIN

General

CIP Code
11.0601

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 19 credits

Minor Requirements - Required Courses

Type
Completion Requirement

Complete ALL of the following Courses:

- CMP 157 - Programming Methods I Lab
- CMP 167 - Programming Methods I
- CIS 212 - Microcomputer Architecture
- CIS 213 - Microcomputer Architecture Lab

*MAT104 College Algebra - College Algebra or higher is a prerequisite for CIS212 Microcomputer Architecture

Two courses at the 200-level or above

One CIS course at the 300 level or above

Note:

CMP courses of equal level can be substituted for CIS courses at the department's discretion.

Grading Policy:

Students must earn a C or above in all courses for the minor. If the grade is lower, the student must repeat the course.

Computer Science - CMPSI-MIN

Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4
BIO167 Principles of Bio: Organisms	Principles of Biology: Organisms	4
BIO181 Anatomy and Physiology I	Anatomy and Physiology I	4
BIO182 Anatomy and Physiology II	Anatomy and Physiology II	4
BIO183 Human Biology	Human Biology	4
CHE114 Essntls of Gen Chemistry-Lec And CHE115 Essntls of Gen Chemistry-Lab	Essentials of General Chemistry Lecture And Essentials of General Chemistry Laboratory	3 And 1.5
CHE166 General Chemistry I And CHE167 General Chemistry Laboratory I	General Chemistry I And General Chemistry Laboratory I	4 And 1.5
CHE168 General Chemistry 2 And CHE169 General Chemistry Lab II	General Chemistry II And General Chemistry Laboratory II	4 And 1.5
GEO101 Dynamic Earth	Dynamic Earth	3
GEO167 Earth Evolution	Earth Evolution	3
GEP204 Basic Map: Applctns & Analysis	Basic Mapping: Applications and Analysis	3
PHY135 Fund Concepts&Methods Physics	Fundamental Concepts and Methods of Physics	4
PHY140 The Physics of Sound	The Physics of Sound	3.5
PHY166 General Physics I	General Physics I	5
PHY167 General Physics II	General Physics II	5
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4

PHY167 General Physics II	General Physics II	5

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:

- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Admission

Type
Prerequisite

The B.A. in Computer Science is reserved for students completing a double major or pursuing a second bachelor's degree. Before students can declare the B.A. in Computer Science they must first consult an advisor in the Department of Computer Science to obtain permission to declare this major as well as receive important guidance concerning how to proceed. Students must not delay arranging for this consultation with the department advisor.

Notes:

1. All students interested in a Software Engineering career or considering graduate studies in Computer Science after completing their undergraduate education should enroll in the Computer Science B.S. Program.
2. For Departmental honors, see an adviser in the Department of Computer Science.
3. Students who do not meet the admission requirements are encouraged to major in Bachelor of Science in Computer Science.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 58 credits

Earn a minimum grade of C

Earn a minimum grade of C in all required courses. Students must repeat required courses in which they earn below C.

Computer Science, B.A. (58-62 Credit Major)

Type
Completion Requirement

Complete ALL of the following Courses:

- MAT 175 - Calculus I
- MAT 176 - Calculus II
- MAT 313 - Elements of Linear Algebra
- CMP 157 - Programming Methods I Lab
- CMP 158 - Programming Methods II Lab
- CMP 167 - Programming Methods I
- CMP 168 - Programming Methods II
- CMP 232 - Discrete Mathematics
- CMP 269 - Programming Methods III
- CMP 334 - Computer Organization
- CMP 338 - Data Structures and Algorithms
- CMP 426 - Operating Systems
- CMP 405 - Introduction to Networks
- CMP 420 - Database Systems

MAT 175 Prerequisite MAT 172 with a grade of C or better or MAT 171 and MAT 108 with a grade of C or better or placement by the Mathematics Department co-requisite MAT 155.

MAT 176 Co-requisite MAT 156 with a grade of C or better in MAT 175.

Completion requirement:

Students may obtain Credit by Examination for CMP 157 and CMP 158. Students must earn a minimum of 80% on the exam to receive credit. See a Department of Computer Science advisor for details.

Major Requirements - Electives

Type
Completion Requirement

Three advanced CMP electives: At 300- or 400-level.

Complete at least 3 courses in the following course sets:

- CMP 300- or 400-level

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.
