toward the MBA curriculum requirements. All other requirements to receive either the MBA or MALACS degree must be met. Additional information on the joint degree pathway is available on the Chapman Graduate School of Business and MALACS web sites.

Essential criteria relating to the joint degree pathway are as follows:

(1) Candidates must satisfy all requirements for each degree. Twelve (12) credit hours from the MBA curriculum pre-core and core requirements may count toward the MALACS degree to satisfy MALACS concentration requirements. Nine (9) credit hours from the MALACS course offerings may be applied to satisfy MBA elective requirements. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MALACS courses transferred to meet MBA elective credit must be 6000 or 7000 level courses approved by the University Curriculum Committee and be from the approved MALACS course list in the social science disciplines of anthropology, economics, environmental studies, history, international relations, Latin American and Caribbean Studies (interdisciplinary), political science, or sociology. The Dean of the Chapman Graduate School of Business (or his/her delegate) has final authority on the approval of which courses may be transferred to meet MBA elective requirements.

(2) Based on existing MBA and MALACS curriculums, specifics on the transfer of credits include the following. Participants in the joint degree pathway will obtain a MALACS concentration in International Business. Four MBA pre-core or core courses (12 credits) may be transferred to meet the student's MALACS concentration requirements. Students who have not taken MAN 6910 Research Methods in Management as an MBA elective course will be required to take a MALACS-approved social science research methods course as one of their first MALACS courses. With the 12 credit transfer from the MBA program, to obtain the MALACS degree, the student will be required to take the MALACS gateway interdisciplinary course LAS 6003 Survey of Latin America and the Caribbean (3 credits), the MALACS required data analysis course LAS 6930 Latin American and Caribbean Data Analysis (3 credits), one additional course in the MALACS concentration of International Business (the social science research methods course may meet this requirement) (3 credits), three additional courses in at least two MALACS concentrations other than International Business (9 credits), and a MALACS graduation exit option (6 credits) for a total of 24 MALACS credits. Candidates for the MALACS degree must also meet MALACS language proficiency requirements. With the 9 credit transfer from the MALACS program, to obtain the MBA degree, the student will be required to take all MBA pre-core, core, and professional development seminar courses, plus one MBA elective, for a total of 46 MBA credits. Directors of the MBA and MALACS degree programs may adjust the exact course numbers and titles required for degree completion as a result of future changes to the MBA or MALACS curriculums.

(3) If the joint degree candidate chooses the thesis exit option for the MALACS degree, the thesis must address a Latin American or Caribbean business or management issue. The thesis committee must be chaired by a School of International and Public Affairs faculty member. Furthermore, the thesis committee must have at least one member from both the College of Business and School of International and Public Affairs. Thesis committee co-chairs with faculty members from both academic units are recommended. Candidates selecting a MALACS exit option other than the thesis must follow the procedures established by the MALACS program. MALACS will establish the necessary thesis, internship, independent study, or directed research course numbers to allow Graduate School of Business faculty to participate in MALACS exit options for joint degree students.

(4) Candidates accepted to the joint degree pathway may begin their studies in either program first. All candidates must register for classes during the regular registration period for the respective program. Additionally, joint degree pathway students must register for a course or courses in their second degree no later than the semester commencing the second half of their first degree program.

(5) Joint degree candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate. Subject to prior approval, graduate students are normally allowed six (6) credit hours from graduate level courses offered by other units of the University as counting toward single degrees.

(6) Candidates in the joint degree pathway will be eligible for the graduate teaching assistantships, graduate research assistantships, and scholarships in the Chapman Graduate School of Business and LACC on the same basis as other graduate students, subject to the guidelines and restrictions set by either program.

(7) Future changes to the MBA/MALACS joint degree pathway must be endorsed by the College of Business Faculty Curriculum Committee and Associate Dean of the Chapman Graduate School of Business; the School of International and Public Affairs Faculty Curriculum Committee and Dean of the School of International and Public Affairs; and approved by the University Curriculum Committee, Graduate Council, the Faculty Senate, Dean of the University Graduate School, and the Provost.

For additional information, contact the Evening MBA office at (305) 348-0148 or the Latin American and Caribbean Center (LACC) at (305) 348-2894.

Other Curricular Offering: Professional MBA and MIB Joint Degree Pathway

Type

Completion Requirement

Joint Degree Pathway

The MIB and MBA programs in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University offer a joint degree pathway culminating in both a Master of Business Administration (MBA), and a Master in International Business (MIB). Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have four common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MIB courses transferred to meet MBA elective credit and vice versa must be 6000 level courses approved by the University Curriculum Committee. Directors of the MBA and MIB degree programs may adjust these exact course requirements as a result of future changes to the MBA or MIB curriculums.

Fulfill ALL of the following requirements:

In the PMBA program: 42 credits

To obtain the MIB degree, Professional MBA (PMBA) students must complete the following courses for a total of 66 credit hours as follows:

Earn at least 42 credits from the following:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- FIN6644 - Global Financial Strategy
- MAN6608 - International Business
- QMB6616 - Business Process & Operations Analysis
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- ISM6021 - Management of Information Systems
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Students also must take Professional Development Seminars (PDS).

AND

In the MIB program: 24 credits

Earn at least 24 credits from the following:

- MAN6930 - Master's Seminar in Management
- MAN6635 - Global Strategy and Business Models
- MAN6601 - Global Management Skills
- MAN6679 - Master's Project in International Business
- MAR6158 - International Marketing
- MAN6606 - Fundamentals of International Business

AND

Electives

Complete at least 2 of the following courses:

- MAN6678 - Global Start-ups
- GEB6941C - Graduate Business Internship
- MAN6937 - Special Topics in Business Environment (Inactive)

Joint Degree Pathway

To obtain the Professional MBA (PMBA). MIB degree students must complete a total of 66 credits as follows:

Fulfill ALL of the following requirements:

In the MIB program: 36 credits

Earn at least 36 credits from the following:

- MAN6930 - Master's Seminar in Management
- MAN6606 - Fundamentals of International Business
- ACG6026 - Accounting for Managers
- BUL6850 - International Business Law
- FIN6644 - Global Financial Strategy
- MAN6635 - Global Strategy and Business Models
- MAN6601 - Global Management Skills
- MAN6617 - Managing Global Production and Technology (Inactive)
- MAN6679 - Master's Project in International Business
- MAR6158 - International Marketing

AND

Electives

Complete at least 2 of the following courses:

- MAN6678 - Global Start-ups
- GEB6941C - Graduate Business Internship

- MAN6937 - Special Topics in Business Environment (Inactive)

AND

In the PMBA program: 30 credits

Earn at least 30 credits from the following:

- ACG6175 - Financial Reporting and Analysis
- FIN6406 - Corporate Finance
- QMB6616 - Business Process & Operations Analysis
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Students also must complete Professional Development Seminars (PDS).

Additional Comments:

Notes:

(1) Requirements for the MBA depend on MBA program chosen. If a candidate has elected the option of a specialization, the number of credit hours required and shared for the Flex will be used. Otherwise, the number of credit hours required and shared for the PMBA will be used.

(2) The Executive MBA and Professional MBA in Healthcare Management programs are not included as an option for the joint degree.

(3) Joint degree candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate.

For additional information, contact the MIB office at (305) 348-3279 or the MBA office at (305) 348-0148.

Other Curricular Offering: Professional MBA and MS in Human Resource Management Joint Degree Pathway

Type

Completion Requirement

Joint Degree Pathway

The Department of Global Leadership and Management and the MBA program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University offer a joint degree program culminating in both a Master of Business Administration (MBA) degree and a Master of Science in Human Resource Management (MSHRM) degree. Under the joint degree pathway, a student can obtain both degrees in less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have two - four common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MSHRM courses transferred to meet MBA elective credit must be 6000 level courses approved by the University Curriculum Committee. Directors of the MBA and MSHRM degree programs may adjust these exact course requirements as a result of future changes to the MBA or MSHRM curriculums.

Notes:

(1) Requirements for the MBA depend on the MBA program chosen. If a candidate has elected the option of a specialization, the requirements and shared/common courses for the Flex MBA will be used. Otherwise, the requirements and shared/common courses for the Professional MBA will be used.

(2) The Executive MBA and Professional MBA in Healthcare Management programs are not included as an option for the joint degree pathway.

(3) Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all degree requirements for the first program as if the student had never been a joint degree pathway candidate.

For additional information, contact the MBA office at (305) 348-0148 or the Master of Science in Human Resource Management office at (305) 348-5945.

Fulfill ALL of the following requirements:

In the PMBA program: 42 credits

To obtain the MSHRM degree, Professional MBA students must complete the following courses for a total of 74 credit hours as follows:

Earn at least 42 credits from the following:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- FIN6644 - Global Financial Strategy
- MAN6608 - International Business
- QMB6616 - Business Process & Operations Analysis
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Students also must take Professional Development Seminars (PDS).

AND

In the MSHRM program: 32 credits

Earn at least 32 credits from the following:

- MAN6157 - Wellness Management
- MAN6403 - Employment Law and Human Resource Management

- MAN6327 - High Involvement Human Resource Management
- MAN6626 - International Human Resource Management
- MAN6297 - Labor Issues and Conflict Management
- MAN6359 - Human Resource Knowledge Management
- MAN6316 - Human Resource Analytics
- MAN6385 - Human Resource Strategy and Planning
- MAN6347 - Performance and Talent Management
- MAN6336 - Reward Systems Management
- MAN6365 - Staffing Organizations
- MAN6317 - Critical Thinking in Human Resource Management

Students also must take Professional Development Seminars (PDS) I, II, III.

Joint Degree Pathway

Fulfill ALL of the following requirements:

In the MSHRM program: 38 credits

To obtain the Professional MBA, MSHRM degree students must complete a total of 74 credits as follows:

Earn at least 38 credits from the following:

- MAN6157 - Wellness Management
- MAN6403 - Employment Law and Human Resource Management
- MAN6327 - High Involvement Human Resource Management
- MAN6626 - International Human Resource Management
- MAN6297 - Labor Issues and Conflict Management
- MAN6359 - Human Resource Knowledge Management
- MAN6316 - Human Resource Analytics
- MAN6347 - Performance and Talent Management
- MAN6336 - Reward Systems Management
- MAN6365 - Staffing Organizations
- MAN6317 - Critical Thinking in Human Resource Management

Students also must take Professional Development Seminars (PDS) I, II, III.

AND

In the PMBA program: 36 credits

Earn at least 36 credits from the following:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- BUL6810 - Legal Environment of Business
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- FIN6644 - Global Financial Strategy
- MAN6608 - International Business
- QMB6616 - Business Process & Operations Analysis
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management

- MAR6805 - Marketing Management in the Global Environment
- MAR6816 - Corporate Simulation
- QMB6357 - Business Statistical Analysis

Students also must take Professional Development Seminars (PDS).

Other Curricular Offering: Professional MBA and MS in Information Systems Joint Degree Pathway

Type

Completion Requirement

In the Professional MBA Program: 33 credits

The Master of Science in Information Systems and the MBA program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University are offering a joint degree pathway culminating in both a Master of Business Administration (MBA), and a Master of Science in Information Systems degree (MSIS). Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. The two degrees will have two – four common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MSIS courses transferred to meet MBA elective credit must be 6000 level courses approved by the University Curriculum Committee. Directors of the MBA and MSIS degree programs may adjust these exact course requirements as a result of future changes to the MBA or MSIS curriculums.

To obtain the MSIS/MBA degree through the Professional MBA program, students must complete the following courses for a total of 63 credit hours if they choose the MSIS degree or 66 credit hours if they choose the MSIS in Business Analytics track degree or the MSIS in Business Cybersecurity track degree.

Notes:

1 The Professional MBA for Executives and Professional MBA in Healthcare Management programs are not included as an option for the joint degree pathway.

2 Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree pathway candidate.

For additional information, contact the MBA office at (305) 348-0148 or the MSIS Office at (305) 348-2830.

Earn at least 33 credits from the following:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- QMB6357 - Business Statistical Analysis

Students also must take one elective course in International Business (3 credits) and one elective in legal/regulatory issues (3 credits)

In the MSIS program: 30 credits

Earn at least 30 credits from the following:

- ISM6106 - Systems Analysis
- ISM6205 - Database Management
- ISM6307 - Management of the Information Systems Function
- ISM6208 - Cloud Data Warehousing
- ISM6128 - Business Process Design
- ISM6328 - Information Security Management
- ISM6338 - Information Systems Strategy and Governance
- ISM6316 - Project Management
- ISM6156 - Enterprise Information Systems
- ISM6489 - E-business and Blockchain Applications

Students also must take Professional Development Seminars (PDS) I, II, III.

In the MSIS in Business Analytics track program: 33 credits

Earn at least 33 credits from the following:

- ISM6106 - Systems Analysis
- ISM6205 - Database Management
- ISM6307 - Management of the Information Systems Function
- ISM6128 - Business Process Design
- ISM6328 - Information Security Management
- ISM6338 - Information Systems Strategy and Governance
- ISM6316 - Project Management
- QMB6357 - Business Statistical Analysis
- ISM6208 - Cloud Data Warehousing
- ISM6136 - Business Analytics Applications
- ISM6404 - Business Data Visualization and Reporting

Students also must take Professional Development Seminars (PDS) I, II, III.

In the MSIS in Business Cybersecurity track program: 33 credits

Earn at least 33 credits from the following:

- ISM6106 - Systems Analysis
- ISM6205 - Database Management
- ISM6307 - Management of the Information Systems Function
- ISM6128 - Business Process Design
- ISM6328 - Information Security Management
- ISM6338 - Information Systems Strategy and Governance
- ISM6316 - Project Management
- ISM6325 - Ethical Hacking for Business
- ISM6326 - Information Security and Compliance
- ISM6327 - Protecting and Defending Business Digital Assets
- ISM6575 - Security Risk Management and Organizational Cyber Resilience

Students also must take Professional Development Seminars (PDS) I, II, III.

Other Curricular Offering: Professional MBA in Healthcare Policy and Management and MD Joint Degree Pathway

Type

Completion Requirement

Joint Degree Pathway

The Herbert Wertheim College of Medicine (HWCOM) and the MBA in Healthcare Management program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University have a joint degree pathway culminating in both a Doctorate of Medicine (MD) and a Master of Business Administration degree (MBA). Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

(1) Joint degree pathway students will complete the first three years of coursework in the College of Medicine. Then, beginning in the fourth year, students in the joint pathway will interrupt their medical studies and begin classes for the MBA program. Classes in the MBA program will be taken during fall and spring semesters of the fourth year. During this time, students will complete 33 hours of course work in the MBA program. Nine credits taken in the medical school will count toward the 42 credits required for the MBA degree. At the beginning of the fifth year, students will recommence taking courses in the medical program. Students will graduate with both degrees at the end of the 5 years.

(2) Students will be expected to complete a minimum of 42 credits for the MBA and 189 credits as well as all requirements for the MD degree. Thirty- three of those credits will be taken in the College of Business, with nine HWCOM credits being accepted toward the MBA degree. There is no change in course requirements for the MD degree.

(3) Students begin taking classes in business in the fourth year. The entire fourth year is devoted to classes in the MBA program. The fall semester consists of five courses divided into two quarters. Three of the courses are face to face, and two courses are online. The spring semester consists of six courses, divided into two quarters. Four courses are face to face and two courses are online. There is also a requirement for program residencies (face to face/online) in August and March.

The curriculum in the MD/MBA pathway follows a prescribed course of study shown below. Structure of new joint MD/MBA degree. The proposed schedule is as follows. (HWCOM does not have semesters. Therefore, we have used Period designations.)

-- First Year Period 1 (MI) August to end of March: College of Medicine curriculum

-- Second Year Period 2 (M2) April to end of March: College of Medicine curriculum

-- Third Year Period 3 (M3) April to end of March: College of Medicine: all required clerkships

-- Fourth Year Period 4 (M4) April through July only: medical students start M4 electives, selectives or subinternship Students take USMLE Step 1 May or June. (Medical students must be counseled as to when to take USMLE Step 1 and USMLE Step 2 CK and CS, and which electives, selective or subinternship to engage in prior to taking a leave to pursue the MBA.) The remainder of Period 4 (M4) then consists of MBA courses. That is, from August through end of April.

--Fifth year- Spring semester of the MBA program ends the end of April. Medical students take the remainder of M4 period in the medical school (May through April).

The MBA residency #3 (online) could be taken during the first quarter of Spring term. Therefore, this will allow for the student to have additional time for the M4 year. The Lean Six Sigma Green Belt case offered in May, (listed below) would be optional for the MD/MBA pathway students.

Medical students will be counseled as to which electives, selectives or subinternship to take prior to applying for residency in September of this fifth year.

Below are the courses to be taken for the MBA:

Fulfill ALL of the following requirements:

Fall Course Options

Complete ANY of the following Courses:

- MAN6245 - Organizational Behavior
  AND ACG6026 - Accounting for Managers
- BUL6810 - Legal Environment of Business
  AND FIN6406 - Corporate Finance
  AND MAR6805 - Marketing Management in the Global Environment

AND

Spring Course Options

Complete ANY of the following Courses:

- MAN6098 - Management of Healthcare Finance and Reimbursement
  AND ISM6021 - Management of Information Systems
  AND ACG6175 - Financial Reporting and Analysis
  AND MAN6726 - Strategic Management
- QMB6616 - Business Process & Operations Analysis
  AND MAN6097 - Managerial Decision-Making in Health Economics

Additional Comments:

Courses waived in MBA:

-- MAN6095 Mgmt HCO 21st Century
-- BUL6605 Healthcare Fraud
-- MAN6974 Master's Project

Credits accepted from HWCOM: 9 credits

-- MDR7910 Research Scholarship
-- BMS6880 Clinical Research & EBM I
-- BMS6067 Syst Based Practice
-- BMS6826 Ethical Foundation of Med

Other Curricular Offering: Professional MBA in Healthcare Policy and Management and MS in Health Informatics and Analytics Joint Degree Pathway

Type

Completion Requirement

Joint Degree Pathway

The Master of Science in Health Informatics and Analytics and the Professional Master of Business Administration (MBA) in Healthcare Policy and Management program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University are offering a joint degree pathway culminating in both a Professional MBA in Healthcare Policy and Management and a Master of Science in Health Informatics and Analytics degree. Under the joint degree pathway, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree pathway will use existing faculty, courses, and resources. Important criteria relating to the joint degree pathway are as follows:

Candidates must satisfy all requirements for each degree. To obtain the MSHIA degree, the student will have to fulfill all the MSHIA program requirements. To obtain the MBA degree, the student will have to fulfill all the MBA program requirements. The two degrees will have four common, or overlapping, courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. Directors of the MBA and MSHIA degree programs may adjust these exact course requirements as a result of future changes to the MBA or MSHIA curriculums.

Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree pathway candidate. With the joint degree pathway students will take a total of 60 credit hours to get both degrees. Without the joint degree pathway students will need to take 78 credit hours to get both degrees. Thus, Professional MBA in Healthcare Policy and Management students who have taken twelve credits of MSHIA common courses may obtain an MSHIA degree with an additional 24 credits. MSHIA students who have taken twelve credits of a Professional MBA in Healthcare Policy and Management common courses may obtain an MBA in Healthcare Management degree with only 24 credits.

For additional information, contact the MBA office at (305) 348-3256 or the MSHIA Office at (305) 348- 0594.

Fulfill ALL of the following requirements:

For the MSHIA

To obtain the MSHIA degree, MBA in Healthcare Management students must complete a total of 24 credits as follows.

Earn at least 24 credits from the following:

- HIM6682 - Quality and Outcomes Analytics
- ISM6205 - Database Management
- ISM6326 - Information Security and Compliance
- ISM6136 - Business Analytics Applications
- HIM6685 - Clinical Information Systems
- ISM6305 - Information Systems Planning
- ISM6316 - Project Management
- ISM6128 - Business Process Design

AND

Transferred from Professional MBA in Healthcare Policy and Management

From the Professional MBA in Healthcare Policy and Management program the following 12 credit hours will be transferred:

Complete ALL of the following Courses:

- BUL6810 - Legal Environment of Business
- ISM6021 - Management of Information Systems
- MAN6245 - Organizational Behavior
- MAN6097 - Managerial Decision-Making in Health Economics

Joint Degree Pathway

Fulfill ALL of the following requirements:

For the Professional MBA in Healthcare Policy and Management

To obtain the Professional MBA in Healthcare Policy and Management, MSHIA degree students must complete a total of 24 credits as follows:

Earn at least 24 credits from the following:

- QMB6616 - Business Process & Operations Analysis
- MAN6098 - Management of Healthcare Finance and Reimbursement
- MAR6805 - Marketing Management in the Global Environment
- ACG6026 - Accounting for Managers
- BUL6605 - Healthcare Fraud and Abuse Law and Regulation
- MAN6726 - Strategic Management
- FIN6406 - Corporate Finance
- ACG6175 - Financial Reporting and Analysis

AND

Transferred from MSHIA

From the MSHIA program the following 12 credit hours will be transferred:

Complete ALL of the following Courses:

- HIM5065 - Introduction to Health and Health Informatics
- HIM6019 - Legal and Ethical Aspects of Healthcare
- QMB6357 - Business Statistical Analysis
- MAN6245 - Organizational Behavior
  OR HIM6694 - Consumer Health Informatics

Other Curricular Offering: Master of Public Health (Generalist) and Master of Business Administration (Professional) Joint Degree Pathway

Type

Completion Requirement

Joint Degree Pathway

Public health challenges are becoming increasingly complex, requiring leaders who can navigate both the science of health and the operation of health systems. A joint MBA/MPH program equips graduates with the ability to understand the biological, social, and environmental determinants of health, while also developing the skills to manage resources, lead interdisciplinary teams, oversee finances, and drive strategic initiatives. This combination of expertise is critical for success in today's evolving healthcare landscape.

Candidates must satisfy all requirements for each degree. To meet degree requirements, specific identified courses must be transferred from one degree program to the other in order to count for both degrees. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher.

Fulfill ALL of the following requirements:

Master of Business Administration (Professional -PMBA): 30 credits

Candidates must satisfy all requirements for each degree. To meet degree requirements, specific identified courses must be transferred from one degree program to the other in order to count for both degrees. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher.

Complete ALL of the following Courses:

- ACG6026 - Accounting for Managers
- ACG6175 - Financial Reporting and Analysis
- FIN6406 - Corporate Finance
- FIN6446 - Competitive Strategy
- MAN6245 - Organizational Behavior
- MAN6726 - Strategic Management
- ISM6021 - Management of Information Systems
- MAR6805 - Marketing Management in the Global Environment
- QMB6357 - Business Statistical Analysis
- BUL6810 - Legal Environment of Business
  OR BUL6890 - Special Topics in Business Law
  OR BUL6656C - Business Law for Entrepreneurs

To complete the Professional MBA (PMBA) program, students must complete the three Professional Development Seminars (Professional Development I - Presentation Skills Seminar (PDS 1002), Professional Development II – Building Meaningful Networks, Professional Development III).

AND

Master of Public Health (Generalist): 33 credits

Complete ALL of the following Courses:

- PHC6000 - Epidemiology I: Introduction to Public Health Epidemiology
- PHC6052 - Biostatistics I
- PHC6102 - Health Policy in a Global Context
- PHC6315 - Introduction to Environmental Health Sciences
- PHC6410 - Health Behavior and Public Health
- PHC6055 - Data Management and Epidemiologic Analysis Using SAS/SPSS
- PHC6536 - Health Demography
- PHC6113 - Community Health Promotion Planning and Research
- PHC6600 - Health Promotion Communication Theory and Design
- PHC6104C - Public Health Management and Leadership
- PHC6800 - MPH Practicum Prep
- PHC6945 - Practicum in Public Health
- PHC6930C - Integrative Seminar in Public Health

PROLA:CFI - Undergraduate Certificate in Spanish Language

Overview

Degree Offered
PCRT - Professional Certificate

Program Title
Certificate in Spanish Language

The Undergraduate Professional Certificate in Spanish Language offers an alternative to the Spanish minor, particularly suited for students without prior knowledge. It allows degree-seeking and non-degree-seeking students to develop foundational language skills in Spanish for professional and social purposes such as business, healthcare, hospitality, translation, and intercultural competence in both local and national contexts.

For more information, visit the Steven J. Green School of International and Public Affairs website.

Completion Requirement

Required Courses

Students with prior knowledge of Spanish may be exempted from part or all of the basic or intermediate language sequence by taking a placement test **and** passing the exam of the highest level they test out of **or** interviewing with a faculty in the Spanish program. Any student so exempted will still be required to complete a minimum of 15 credits to complete the Certificate. As the certificate is proficiency-based, those coming in with an intermediate proficiency level or higher are advised to pursue the Spanish minor or major.

Fulfill ALL of the following requirements:

Non-Heritage Speakers Sequence: 18 credits

For non-heritage speakers with a beginner proficiency level, the following sequence is advised:

Complete ALL of the following Courses:

- SPN1130 - Spanish I
- SPN1131 - Spanish II
- SPN2200 - Intermediate Spanish I
- SPN2201 - Intermediate Spanish II

AND

Advanced Language

Complete ALL of the courses in the advanced language sequence:

Complete ALL of the following Courses:

- SPN3301 - Advanced Spanish for Non-Heritage Speakers

Any 3 Elective Credits (1 Course) in Spanish selected from the Departmental Elective Offerings.

Heritage Speakers Sequence: 18 credits

For heritage speakers with limited proficiency, the following sequence is advised:

Fulfill ALL of the following requirements:

Intermediate Language Sequence

Complete ALL of the following Courses:

- SPN2340 - Intermediate Spanish for Heritage Speakers
- SPN2341 - Intermediate Spanish II for Heritage Speakers

AND

Advanced Language Sequence

Complete ALL of the following Courses:

- SPN3343 - Advanced Spanish for Heritage Speakers

9 Elective Credits (3 Courses) in Spanish selected from the Departmental Elective Offerings.

Departmental Elective Course Offerings:

Complete ANY of the following Courses:

- SPN3013 - Language Skills for Professional Personnel

- SPN3031 - Int Spanish Medical (Inactive)
- SPN3401 - Advanced Conversation
- SPN3410 - Advanced Oral Communication
- SPN3413 - Communication Arts
- SPN3422 - Advanced Grammar and Composition I
- SPN3440 - Spanish Business Composition/Correspondence
- SPN3444 - Spanish for Business in Latin America
- SPN3733 - Introduction to Spanish Linguistics
- SPN4520 - Latin American Culture
- SPN4500 - Spanish Culture
- SPN4521 - Topics on Latin American Culture
- SPN4822 - Hispanic-American Socio-linguistics
- SPT4803 - Practica in Legal Translation
- SPT4804 - Practice in Legal Interpretation
- SPT4805 - Translation in Communication Media
- SPT4807 - Prac Business Tran
- SPT4809 - Prac Medical Transl

This is a partial list. Students should consult the certificate advisor regarding additional courses that may be submitted.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

PROPW:CFI - Undergraduate Certificate in Professional and Public Writing

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Professional and Public Writing

The Undergraduate Certificate in Professional and Public Writing is a program firmly grounded in rhetoric, providing students interested in improving their writing skills with the opportunity to prepare for their professional careers and civic responsibilities. Students will be advised to select courses based upon their professional interests. They might focus the certificate in areas such as technical writing, scientific and environmental writing, or community-based writing. Graduates of the program are equipped with the skills necessary to communicate effectively in the professional workplace and the public arena. Students will receive instruction in business, technical, and professional writing, web writing, editing, document design, and or theoretical and practical knowledge about how to engage different audiences in different ways on matters of real importance.

Admissions Requirements

No specific admissions requirements. Contact advisor for additional information.

This certificate is open to degree-seeking students only.

Prerequisites

ENC1101 Writing and Rhetoric I and ENC1102 Writing and Rhetoric II or equivalent. Transfer students who take ENC2304 Writing Transfer Students and an additional 3000 level ENC class (either ENC3311 Adv Writing & Res or ENC3213 Prof and Tech Writing) to fulfill core curriculum ENC requirements must take an additional fifteen hours above core requirements to earn the certificate.

Program Requirements

Student must complete the required 18 credit hours with an average grade of “B” or better. Up to six credit hours of course work may be transferred from other institutions. Students choose 6 courses from the selections below.

Program Credit Hours: 18

Type

Completion Requirement

Required Course: 3 credits

Complete ALL of the following Courses:

- ENC3371 - Rhetorical Theory and Practice

Digital Literacy: 3 credits

Earn at least 3 credits from the following:

- CGS2060 - Introduction to Microcomputers
- CGS2518 - Computer Data Analysis
- COP3835 - Designing Web Pages

Writing Electives: 12 credits

Earn at least 12 credits from the following:

- ENC3213 - Professional and Technical Writing
- ENC3311 - Advanced Writing and Research
- ENC3334 - Introduction to Writing Studies
- ENC3354 - Writing as Social Action
- ENC3363 - Writing About the Environment
- ENC3378 - Writing Across Borders
- ENC3416 - Writing and New Media
- ENC3491 - The Processes of Writing
- ENC4241 - Scientific Writing
- ENC4260 - Topics in Professional Writing
- ENC4331 - Writing, Rhetoric, and Community
- ENC4355 - Writing About Film
- ENC4357 - How To Go Public
- ENC4373 - Alternative Writing and Rhetorics
- ENC4405 - Queer Rhetorics
- CRW4211 - Writing Creative Non-Fiction
- LIN4680 - Mod English Grammar
- ENC4930 - Special Topics in Composition
- SPN3440 - Spanish Business Composition/Correspondence

Additional Comments:

In addition to the courses listed above, other classes may be accepted at the discretion of the certificate directors. The Professional and Public Writing Certificate Program is also available to fully online students.

PSMHL:CFI - Post-Graduate Nurse Practitioner Certificate in Psychiatric-Mental Health

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Psychiatric-Mental Health Nurse Practitioner

The Post Graduate Nurse Practitioner (NP) Certificate in Psychiatric Mental Health equips students with the skills and knowledge necessary for assessing, diagnosing, and treating individuals with mental health disorders across the lifespan. Graduates are trained to provide comprehensive psychiatric care, including psychotherapy and medication management, in various settings (e.g., hospitals, community mental health centers, private practices, telehealth services). The program emphasizes evidence-based practice, interprofessional collaboration, and culturally appropriate care to improve mental health outcomes for diverse populations.

Upon successfully completing the program, graduates will be equipped to practice independently or collaboratively as psychiatric-mental health nurse practitioners in diverse healthcare settings, effectively meeting the needs of a broad range of patient populations.

Graduates will be eligible to take the Psychiatric Mental Health Nurse Practitioner National Certification Exam.

For more information, visit the Nicole Wertheim College of Nursing and Health Sciences website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Graduate Certificate in Psychiatric-Mental Health Nurse Practitioner

(1) A Master of Science in Nursing (MSN) degree from an CCNE, NLNAC, or ACEN accredited program.

(2) A graduate (MSN) grade point average (GPA) of 3.0 or above.

(3) Graduate courses in nursing theory (3 credits) and research (3 credits). advanced pathophysiology (3 credits), advanced health assessment (3 credits), and advanced pharmacology (3 credits). *-If the applicant's coursework in advanced pharmacology, advanced pathophysiology, and advanced health assessment took place more than 3 years ago, they may need to repeat the courses prior to enrollment in specialty courses, following , gap analysis, evaluation of records and professional experience by the admission committee and program chair.*

(4) State of Florida RN and/or APRN licensure. A photocopy of the license must be submitted along with student's application to the Post Graduate Nurse Practitioner Certificate Program.

(5) Pre-admission panel interview with members of the Graduate Nursing Admissions Committee.

(6) Two letters of recommendation.

This certificate is open to non-degree-seeking students only.

Admissions Procedure

STEP 1 - Submit an application to Nursing CAS (The Centralized Application Service for Nursing Programs)

--Complete an online application via Nursing CAS http://www.nursingcas.org and pay appropriate fees. Applications will be accepted from Dec 1 to March 1 for Fall admission.

--Send official academic transcripts from ALL SCHOOLS attended (all Associate, Bachelors, Masters degree, and higher [if applicable] coursework) to Nursing CAS for upload and verification.

--Upload all required supplemental items including professional CV, active Florida RN and/or APRN License, recommendations and Personal Statement to Nursing CAS.

--Complete the required FIU supplemental application and pay the $30 fee.

STEP 2 - Professional Interview

--Following a review of all completed applications a select number of applicants will be offered the opportunity to participate in a panel interview.

--Interview candidates may be instructed to bring additional official transcripts to their interview appointment

Program Requirements

Advanced Practice Nursing Specialty Credit Hours: 25

Type

Completion Requirement

Required Courses

Certificate required completion of 25 credit hours and 770 clinical hours or following individual gap analysis plan.

Complete ALL of the following Courses:

- NGR6538 - Psychopharmacology for Advanced Practice Nursing
- NGR6503 - Advanced Psychiatric-Mental Health Nursing I
- NGR6503L - Advanced Psychiatric-Mental Health Nursing Practicum I
- NGR6504C - Advanced Psychiatric-Mental Health Nursing II
- NGR6504L - Advanced Psychiatric-Mental Health Nursing Practice II
- NGR6744 - Professional Advanced Practice Seminar

Certificate Completion Requirements

(1) Successful completion of a minimum of 25 semester credits of graduate coursework beyond the MSN, including up to 770 direct patient care clinical hours, with required clinical hours and coursework determined by gap analysis.

(2) Achievement of an overall cumulative GPA of 3.0 or above. See Graduate Catalog in University Graduate School Rules and Regulations for information on Academic Warning, Probation, and Dismissal.

(3) Removal of all conditions, deficiencies, and incomplete grades. Credit hours for courses in which the grade is “B-“ or below will not count toward satisfying certificate completion requirements.

PSYC:BA - Bachelor of Arts in Psychology

Overview

Degree Offered
BA - Bachelor of Arts

Program Title
Psychology

The Bachelor of Arts (BA) in Psychology offers excellent training in understanding human behavior using scientifically rigorous methods. A degree in psychology can provide students with a solid foundation of knowledge applicable to such fields as business, education, law, medicine, and social work, as well as graduate study in psychology. Students enrolled in the BA in Psychology have a variety of opportunities to be directly involved in ongoing research, participate in active student organizations, and conduct their own studies through various research labs. BA in Psychology students will be exposed to the following subfields of the discipline:
--Cognitive Psychology/Neuroscience;
--Social Psychology;
--Applied Psychology;
--Clinical/Personality Psychology; and
--Developmental Psychology.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Bachelor of Arts (BA) in Psychology

See general university admissions requirements at admissions.fiu.edu.

Students are strongly urged to contact their Psychology academic advisor for advisement in curriculum planning.

Applied Behavior Analysis Track: Successful completion of EAB 3002 is required for admission to the ABA track.

Admissions Requirements for the BA in Psychology with Honors

Application must be made, and departmental approval granted.

Transfer Credits

Psychology majors are allowed to transfer a maximum of eighteen semester hours in upper division psychology courses. Course substitutions may be approved by the Director of Undergraduate Studies.

Admissions Requirements for the 4+1 BA in Psychology to Master of Public Administration (MPA) Accelerated Degree Pathway

Students accepted into the Accelerated (4+1 degree) BA in Psychology/MPA Degree Pathway may take up to four MPA courses, 12 graduate credits, which will be double counted for their Bachelor's and MPA degrees.

Admissions Requirements for the Accelerated Degree Pathway:

(1) The applicant must have an overall GPA of 3.25 or better.

(2) Letter of recommendation from a faculty member at FIU or from a supervisor.

(3) Current resume.

(4) Letter-of-intent not to exceed three double-spaced pages explaining how earning the MPA is consistent with long-term career goals. Students may also use this letter to discuss their passion for public service or policies and to communicate to the admission committee if they feel that their admission file does not properly reflect their potential to succeed in graduate school.

(5) Students can apply after having completed 75 credits in a bachelor's degree program.

(6) Students must apply prior to the semester in which graduate credits will be counted towards their undergraduate degree program.

Program Requirements

Academic Progression Requirements

Students admitted to the university are admitted directly to their chosen major. Students are expected to make good progress based on critical indicators, such as GPA in specific courses or credits earned. In cases where students are not making good progress, a change of major may be required. Advisors work to redirect students to more appropriate majors when critical indicators are not met.

Lower Division Preparation

Type

Prerequisite

Common Prerequisite Courses Part I

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Complete ALL of the following Courses:

- BSC2023 - Human Biology
- PSY2012 - Introductory Psychology

Common Prerequiste Courses Part II

Complete at least 1 of the following courses:

- DEP2000 - Human Growth and Development: Introductory Developmental Psychology
  OR CLP2001 - Personal Adjustment

OR INP3004 - Introductory Industrial/Organizational Psychology
OR SOP2772 - Psychology of Sexual Behavior
OR PSB2071 - Cognitive Neuroscience in the Media and Pop Culture

Note: PSY XXXX (Or any other lower level Psychology class within the Psychology Inventory (i.e., CLP, DEP, EAB, EXP, INO, PCO, PPE, and PSB prefixes).

Common Prerequisite Courses Part III

Complete at least 1 of the following courses:

- STA2023 - Statistical Methods
  OR STA3111 - Statistics I

Upper Division Credit Hours: 36

Type

Completion Requirement

1. Research Sequence: 10 credits

Students must take these three courses in the following order:

Complete at least 3 of the following courses:

- PSY3211 - Research Methods and Data Analysis in Psychology I
- PSY3215 - Research Methods and Data Analysis in Psychology II
- PSY4931 - Senior Seminar in Psychology
  OR EAB4795 - Senior Seminar in Applied Behavior Analysis

Note: Because the three courses in this component of the program must be taken in sequence, it is recommended that the first course should be taken no later than the first semester of the sophomore year.

For Applied Behavior Analysis Track only: Instead of PSY4931 Senior Seminar students should enroll in EAB4795 Senior Seminar in ABA.(Prerequisites: Research Methods in Psychology or Research Methods and Data Analysis in Psychology II, and Applied Behavior Analysis: Assessment and Intervention).

2. Area Requirement Courses: 15 credits

Students are required to take one course from each area.

Fulfill ALL of the following requirements:

Area A: Cognitive/Neuroscience

Complete at least 1 of the following courses:

- EXP3523 - Memory and Memory Improvement
- EXP4204 - Sensation and Perception
- EXP4604 - Cognitive Processes
- PSB3002 - Introductory Bio-Psychology
- PSB4240 - Neuropsychology
- PSB4250 - Animal Cognition

AND

Area B: Social

Complete at least 1 of the following courses:

- SOP3004 - Introductory Social Psychology
- SOP3015 - Social and Personality Development
- SOP3742 - Psychology of Women
- SOP4731 - Global Psychology: Cross Cultural Perspectives on Psychological Research and Theories

AND

Area C: Applied

Complete at least 1 of the following courses:

- CYP3003 - Introduction to Community Psychology
- EAB3002 - Introduction to the Experimental Analysis of Behavior
- EAB3794 - Principles of Applied Behavior Analysis
- INP4203 - Personnel Psychology
- INP4313 - Organizational Psychology
- PSY4302 - Psychological Testing
- SOP4842 - Legal Psychology

AND

Applied D: Clinical/Personality

Complete at least 1 of the following courses:

- CLP4134 - Childhood Psychopathology
- CLP4146 - Psychopathology
- CLP4314 - Psychology of Health and Illness
- CLP4374 - Psychotherapy
- EAB4764 - Advanced Principles of Applied Behavior Analysis
- PPE3003 - Theories of Personality

AND

Area E: Developmental

Complete at least 1 of the following courses:

- DEP3115 - Development in Infancy: The Basis of Human Knowledge
- DEP3305 - Psychology of Adolescence
- DEP3404 - Psychology of Adulthood
- DEP4164 - Children's Learning
- DEP4464 - Psychology of Aging

3. Psychology Elective Requirements: 9 credits

Students must have at least 36 credits hours in total of upper division hours for the psychology major. Students may, with the permission of the instructor, enroll in PSY4916 Indep Research Independent Research in Psychology, or PSY4914 Honors Research ProjHonors Research Project, or PSY4941 Psychology Internship Experiential Learning/ Internship in Psychology, or PSY 4XXX Research Internship in Psychological Science which are given pass/fail grades.

A maximum of 6 credits of PSY4916 Indep Research, PSY4914 Honors Research Proj,PSY4941 Psychology Internship and /or PSY 4XXX PSY can be used to satisfy Psychology Elective Requirements.

Any upper level (3000 or 4000) psychology courses taken for a letter grade can be used to fulfill the requirement.

4. Career Course Requirement: 2 credits

Complete ALL of the following Courses:

- PSY3024 - Psychology Career Development

Please Note: (1) Students are strongly urged to contact their Psychology academic advisor for advisement in curriculum planning; (2) Psychology majors are allowed to transfer a maximum of eighteen semester hours in upper division psychology courses. Course substitutions may be approved by the Director of Undergraduate Studies.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Applied Behavior Analysis Track

The track in Applied Behavior Analysis (ABA) provides coursework that leads to the Board Certified Assistant Behavior Analyst (BCaBA) certificate. Careers in the field of ABA can include working with individuals with autism spectrum disorder and other disabilities, as well as others seeking assistance to reduce problem behaviors or develop skills.

Students in this track will learn to define behavior as the unit of study, identify functional relationships between behavior and the environment, observe and measure behavior objectively and implement behavior analytic interventions for behavior change.

The ABA track consists of the courses below, which have been designated as a Verified Course Sequence and meet the Behavior Analysist Certification Board coursework requirements for BCaBA certification. Courses in the track may be used to fulfill area requirements for the psychology BA degree, as indicated below.

Applied Behavior Analysis Track: 21 credits

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- EAB3002 - Introduction to the Experimental Analysis of Behavior
- EAB3794 - Principles of Applied Behavior Analysis

- EAB4782 - Ethics in Applied Behavior Analysis
- EAB4764 - Advanced Principles of Applied Behavior Analysis
- EAB4798 - Single Case Research Methods
- EAB4741 - Supervision in Applied Behavior Analysis
- EAB4795 - Senior Seminar in Applied Behavior Analysis

EAB3002 Behavior Analysis satisfies Area C. Students must complete EAB3002 Behavior Analysis with a passing grade (C or higher) prior to adding the track to their degree plan.

EAB3794 Principles of ABA and EAB4798 Single Case Methods count toward Psych Elective.

EAB4764 Advanced Principles ABA satisfies Area D.

EAB4795 Senior Seminar in ABA counts toward Research Sequence

Industrial-Organizational Psychology Track

The track in Industrial-Organizational Psychology is for students interested in applying the principles of psychology to workplace issues. Students completing this track will be able to work with organizations in designing selection systems, validating performance assessment systems and developing/delivering training programs. They will also be able to work with consulting companies that design and market selection and training programs. Students will also be competent for managing (1) leadership development programs, (2) talent management, especially High Potential (HIPO) programs and (3) occupational health and safety initiatives.

Industial-Organizationa Psychology Track: 15 credits

Type

Completion Requirement

Required Courses

INP4313 Organization Psych

Complete ALL of the following Courses:

- INP3004 - Introductory Industrial/Organizational Psychology
- INP4203 - Personnel Psychology
- INP4313 - Organizational Psychology
- PSY4931 - Senior Seminar in Psychology
- PSY4302 - Psychological Testing
  OR INP4210 - Employee Selection
  OR SOP4745 - Women and Leadership

INP3004 Intro. Ind/Org Psy, INP4313 Organization Psych, PSY4302 Psychological Testin, INP4210 Employee Selection and SOP4745 Women and Leadership count toward Psych Electives.

INP4203 Personnel Psychology satisfies Area C.

PSY4931 Senior Seminar counts toward Research Sequence.

Bachelor's Degree with Honors

Students must undertake an independent project, which must be approved by and carried out under the supervision of a full-time faculty member of the Department. Upon completion of an independent project, a satisfactory oral defense of the work must be presented to a Department committee, of at least two members.

Other Curricular Offering: 4+1 BA in Psychology to MPA Accelerated Degree Pathway

The MPA program allows qualified students to earn both their Bachelor's and MPA degrees in a shorter amount of time than typically required for earning degrees sequentially. A student admitted to the Accelerated (4+1 degree) BA in Psychology/MPA Degree Pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships.

Other Curricular Offering: 4+1 BA in Psychology to MPA Accelerated Degree Pathway

Type

Completion Requirement

Required Courses Part 1

Complete ALL of the following Courses:

- PAD6053 - Political, Social and Economic Context of Public Administration

PAD6053 Pol Soc Econ Pub Adm must be taken within the first two semesters after a student is accepted into the combined degree pathway

Required Courses Part 2

Students may select two of the following courses to be double counted:

Complete at least 2 of the following courses:

- PAD6227 - Public Finance and the Budgetary Process
- PAD6306 - Policy Analysis
- PAD6417 - Human Resource Policy and Management
- PAD6434 - Leadership and Decision-making
- PAD6701 - Quantitative Methods in Public Administration
- PAD6726 - Applied Research Methods for Accountability in Public and Nonprofit Organizations
- PAD6718 - Smart Governance

Students may select one additional graduate-level course to be double counted. The course must have a course number of 5000 or higher and have a prefix of PAD, PUP, URP or URS.

Students in the Accelerated (4+1 degree) BA in Psychology/MPA Degree Pathway should consult their advisor regarding substitutions of the courses mentioned above for undergraduate courses in their program.

Students must pass graduate courses with a grade of B or higher to count them toward their MPA degree. Students accepted into the Accelerated Degree Pathway must fulfill all the MPA requirements to receive their MPA degree

Note: PAD6701 Quant Applications is a prerequisite to PAD6726 App Res Acct Pub

PSYC:MS - Master of Science in Psychology

Overview

Degree Offered
MS - Master of Science

Program Title
Psychology

The Master of Science (MS) in Psychology program trains students to become experts in the study of psychology. The primary goal of the program is to equip students with the skills necessary to function as academic scientists or research scientists, or to apply skills in industry or other community or organizational settings. The program provides a rigorous, broad-based graduate education with an emphasis on topic-specific skills in research methodology and data analysis.

Students have the opportunity to apply directly into the following specialized majors: Behavior Analysis; Industrial/ Organizational Psychology; Professional Counseling Psychology; or Organizational Science.

These majors may only be obtained by applying directly into the parallel major in the PhD in Psychology: Applied Social and Cultural Psychology; Child and Adolescent Clinical Science; or Legal Psychology.

For more information, visit the College of Arts, Sciences, and Education website.

Admissions Requirements

Admissions Requirements for the Master of Science (MS) in Psychology (major: Applied Social and Cultural Psychology*)

Students will apply and be admitted directly to the doctoral program in Applied Social and Cultural Psychology based on the following criteria (applications will not be accepted and students will not be admitted for a terminal M.S. degree):

(1) Hold a Bachelor’s degree in a relevant discipline from an accredited college or university.

(2) Have a 3.0 average or higher during the last two years of the undergraduate program.

(3) Arrange to have three letters of recommendation evaluating the applicant’s potential for graduate work sent to the Psychology Graduate Program Director.

(4) Submit a brief essay stating reasons for interest in the program and career goals; include a current resume.

(5) Receive approval from the Departmental Graduate Education Committee.

*These are minimum requirements. Admission is competitive.

Admissions Requirements for the MS in Psychology (major: Behavior Analysis*)

To be admitted into the Master's degree program in Behavior Analysis, a student must:

(1) Hold a Bachelor's degree in a relevant discipline from an accredited college or university.

(2) Have a 3.0 average or higher during the last two years of the undergraduate program.

(3) Arrange to have three letters of recommendation evaluating the applicant's potential for graduate work sent to the Psychology Graduate Program Director.

(4) Submit a brief essay stating reasons for interest in the program and career goals.

(5) Receive approval from the Departmental Graduate Education Committee.

**These are minimum requirements. Admission is competitive.*

Admissions Requirements for the MS in Psychology (major: Clinical Science in Child and Adolescent Psychology*)

Students will apply and be admitted directly to the doctoral program in Clinical Science in Child and Adolescent Psychology based on the following criteria (applications will not be accepted and students will not be admitted for a terminal M.S. degree).

(1) Hold a Bachelor's degree or a Master's degree in psychology or a related field from an accredited college or university.

(2) Have a 3.0 GPA or higher during the last two years of the undergraduate program.

(3) Arrange to have three letters of recommendation evaluating the applicant's potential for graduate work sent to the Psychology Graduate Program Director.

(4) Receive approval from the Department Graduate Education Committee.

**These are minimum requirements. Admission is competitive.*

Admissions Requirements for the MS in Psychology (major: Counseling Psychology*)

To be admitted into the Master's degree program in Counseling Psychology, a student must:

(1) Hold a Bachelor's degree in Psychology or in a relevant discipline from an accredited college or university.

(2) Applicants with an out of field major must have completed four courses in (1) introductory psychology, (2) abnormal psychology or theories of personality, (3) statistics, and (4) psychology research methods.

(3) Have a 3.0 in the last 60 credits of upper-level work. Students with nonpsychology majors may apply for admission if they have completed specific courses.

(4) Arrange to have three letters of recommendation evaluating the applicant's potential for graduate work sent to the Psychology Graduate Program Director. The University Graduate School offers a recommendation form, though this is not required. Letters should be written on letterhead or stationery.

(5) Submission of a CV or Resume is required; and should include previous experience, education, honors, awards, interests, community service and achievements.

(6) Submission of two academic writing samples is required; one must be academic, and the other may be work-related.

(7) International students whose native language is not English must submit acceptable scores verifying English language skills which meet university standards. See FIU Graduate Admissions Requirements for more information.

(8) Submit a brief video statement which includes a discussion of your educational and career objectives and the specific relationship of the master's degree to achieving of those objectives.

**These are minimum requirements. Admission is competitive.*

Admissions Requirements for the MS in Psychology (major: Industrial-Organizational Psychology*)

To be admitted into the Master's degree program in I/O Psychology, a student must:

(1) Hold a Bachelor's degree in a relevant discipline from an accredited college or university.

(2) Have a 3.0 average or higher during the last two years of the undergraduate program.

(3) Arrange to have three letters of recommendation evaluating the applicant's potential for graduate work sent to the Psychology Graduate Program Director.

(4) Send a brief essay stating reasons for interest in the program and career goals to the Psychology Graduate Secretary.

(5) Receive approval from the Departmental Graduate Education Committee.

**These are minimum requirements. Admission is competitive.*

Admissions Requirements for the MS in Psychology (major: Legal Psychology*)

Students will apply to be admitted directly to the doctoral program in Legal Psychology based on the following criteria (applications will not be accepted and students will not be admitted for a terminal degree).

(1) Hold a Bachelor's degree in a relevant discipline from an accredited college of university.

(2) Have strong GPA during their undergraduate program.

(3) Arrange to have three letters of recommendation evaluating the applicant's potential for graduate work sent to the Psychology Graduate Program Director.

(4) Receive approval from the Departmental Graduate Education Committee.

**These are minimum requirements. Admission is competitive.*

Admissions Requirements for the MS in Psychology (major: Organizational Science*)

Admissions will be based on the following criteria:

(1) Hold a Bachelor's degree in a relevant discipline from an accredited college or university.

(2) Have a 3.0 average or higher during the last two years of the undergraduate program.

(3) Arrange to have three letters of recommendation evaluating the applicant's potential for graduate work sent to the Program Director.

(4) Send a brief essay stating reasons for interest in the program and career goals to the program director.

(5) International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 92 on the iBT TOEFL (equivalent to 580 in the TOEFL) is required.

**These are minimum requirements. Admission is competitive.*

Program Requirements

Required Courses

Type
Completion Requirement

Common core courses: 9 credits

Complete ALL of the following Courses:

- PSY5939 - Special Topics in Psychology
- PSY5939 - Special Topics in Psychology
- PSY5246C - Multivariate Analysis in Applied Psychological Research

PSY5939 Spec Topics In Psy must be taken in the following topics: Quantitative Methods I and Quantitative Methods II

Major Requirements

Master of Science in Psychology: Major in Applied Social and Cultural Psychology

The Master of Science in Applied Social and Cultural Psychology (ASCP) will train students to become action scientists, helping to understand and transform the social and cultural systems in which humans interact. Students will receive training in psychological theories and translational methods to understand and intervene on the socio-cultural pathways by which health disparities emerge; to leverage the strengths of diverse communities to ameliorate them; and to assess and impact social settings, systems, and policies. Areas of research can include gender-based violence, reproductive justice, homelessness and poverty, minority stress, mental health, youth development, human service systems, acculturation, global health, and discrimination in educational, workplace, and community settings. Practical components of the program will prepare students to engage in community-partnered and participatory-action research for public benefit by collaborating with local, state, and national organizations and institutions as researchers, and employing effective and culturally-meaningful communication tools to support individual, family, and community well-being.

Degree Requirements

The Master of Science in Psychology, Major in Applied Social and Cultural Psychology, requires a minimum of 48 semester credits of graduate work beyond the baccalaureate, including a non-thesis masters project based on the student's original research. A maximum of 9 credits may be transferred into the Applied Social and Cultural Psychology major from a previously completed master's degree program with the approval of the major director.

Major in Applied Social and Cultural Psychology: 48 credits

Type
Completion Requirement

Required Courses

To obtain their M.S. students enrolled in the doctoral program in Applied Social and Cultural Psychology will be required to complete 9 credits of departmental common core course requirements, 12 credits of specialized ASCP content courses, 9 credits of breadth training (one course from each category: Identity, Social Justice, Methods), and 6 elective credits. Additionally, students are required to complete 12 supervised research credits and an independent master's research project.

Applied Social and Cultural Psychology content courses: 12 credits

Complete ALL of the following Courses:

- CYP6936 - Current Issues in Community Psychology
- PSY6076 - Professional & Personal Development for Doctoral Students
- SOP5058 - Proseminar in Social Psychology
- SOP5316 - Theories and Methods of Cross-Cultural Research

Breadth Requirements: 9 credits

Nine credits drawn from the following list of 3 credit courses, or other courses approved by the major director, to fulfill training in Identity (3 credits); Social Justice (3 credits); and Methods (3 credits).

Fulfill ALL of the following requirements:

Identity

Complete at least 1 of the following courses:

- DEP6046 - Cross Cultural Perspectives of Emerging & Established Adulthood
- WST5936 - Women in Leadership

PSY5939 Spec Topics In Psy in the following topic: Cross Cultural Perspectives of Emerging & Established Adulthood

AND

Social Justice

Complete at least 1 of the following courses:

- CYP6766 - The Psychology of Crosscultural Sensitization in a Multicultural Context
- SOP5726 - Proseminar on the Psychology of Stereotyping, Prejudice, and Discrimination

AND

Methods

Complete at least 1 of the following courses:

- CYP6526 - Psychology Research Methods and Program Evaluation
- PSY5930 - Qualitative Research Methods in Psychology

Electives

Earn at least 2 credits

Supervised Research courses

Earn at least 12 credits

Master's Project

Master of Science in Psychology: Major in Behavior Analysis

The Behavior Analysis area focuses on the experimental, theoretical, methodological, and applied analysis of behaviors of individuals, their antecedents and their consequences, and how the changes are produced that denote different types of learning or learning problems. The processes at issue have become efficient bases for understanding, and for changing, conduct problems and such behavioral disorders as are termed Autism Spectrum Disorder. Students completing the M.S. degree and having received the required amount of supervised fieldwork experience, may qualify to sit for the Board Certified Behavior Analyst (BCBA) examination.

The Behavior Analysis major consists of core, knowledge-based, courses, a selection of seminars and supervised fieldwork. Also encouraged are involvements in program events, regional and national conference attendance and presentations.

Degree Requirements

The Master of Science in Behavior Analysis requires a minimum of 45 semester credits of graduate work beyond the baccalaureate. Students must maintain a minimum overall GPA of 3.0 and earn at least a B- in all courses. If a grade lower than a B- is earned, the student may be allowed to repeat the course, at the discretion of the program.

Major in Behavior Analysis: 45 Credits

Type

Completion Requirement

Required Courses

The Master's requires 45 credit hours beyond the Bachelor's degree. This includes 6 credits of departmental common core requirements for the M.S. degree. Students complete practical experience and an applied research project.

1. Common core (statistics/methodology) courses (6 credits)
2. Behavior analysis content courses

Behavior analysis content courses: 24 credits

Complete ALL of the following Courses:

- EAB5060 - Behavior Analysis Career Development
- EAB5098 - Pro-seminar in the Experimental Analysis of Behavior
- EAB5700 - Concepts and Principles of Behavior Analysis
- EAB5701 - Behavior Assessments
- EAB5785 - Organizational Behavior Management and Supervision
- EAB5797 - Single-Case Research Methods
- EAB6005 - Foundations of Behavior Analysis
- EAB6770 - Behavioral Technologies
- EAB6780 - Ethical Code in Behavior Analysis

Research: combined 9 credits

A combined 9 credits in the courses below:

Complete ALL of the following Courses:

- EAB5917 - Supervised Research in Behavior Analysis
- EAB5060 - Behavior Analysis Career Development

The program will enroll students in the proper number of credits.

Practicum: 9 credits

Complete ALL of the following Courses:

- EAB6941 - Practicum in Applied Behavior Analysis

Master of Science in Psychology: Major in Clinical Science in Child and Adolescent Psychology

The clinical science in child and adolescent psychology major is consistent with the clinical science model of clinical psychology training articulated by the Academy of Psychological Clinical Science. Clinical Science is defined as a “psychological science directed at the promotion of adaptive functioning; at the assessment, understanding, amelioration, and prevention of human problems in behavior, affect, cognition or health; and at the application of knowledge in ways consistent with scientific evidence.” The emphasis on the term "science" underscores the commitment to evidence based approaches to the assessment and treatment of human problems, as well as the integration of research and theory of other relevant sciences. The emphasis on the term "science" also underscores that training students in clinical science focuses on training students for careers in which they skillfully produce, and/or apply scientific knowledge. The focus of the major is on child, adolescent and family clinical psychology within a multicultural context.

Degree Requirements

The Master of Science Major in Clinical Science requires a minimum of 36 semester credits of graduate work beyond the baccalaureate, including a non-thesis research project based upon the student’s original research. A maximum of 6 credits of post-baccalaureate course work may be transferred from another institution with the approval of the Director of Clinical Training.

Major in Clinical Science in Child and Adolescent Psychology: 36 credits

Type

Completion Requirement

Required Courses

In order to obtain their M.S., clinical science doctoral students will be required to complete 6 credits of departmental common core course requirements, along with more specialized content courses and a course involving directed independent effort, as listed below:

Clinical Science core courses: 12 credits

Complete ALL of the following Courses:

- CLP5007 - Psychological Clinical Science: History, Systems, and Current Controversies
- CLP6471 - Assessment and Treatment I: Internalizing Problems
- CLP6472 - Assessment and Treatment II: Externalizing Problems
- PSY6219 - Research Methods in Clinical Child Psychology

Affective Breadth Requirement: 3 credits

Complete ALL of the following Courses:

- CLP6060 - Affective Bases of Behavior

Foundation Practicum: 6 credits

Complete ALL of the following Courses:

- CLP6432 - Foundation Practicum I
- CLP6947 - Foundations Practicum II (Treatment)

Research: 6 credits

Earn at least 6 credits from the following:

- PSY5918 - Supervised Research

Non-thesis Master's Project

Non-thesis Master's Project consisting of an empirical paper based on the student's independent research, approved by the student's mentor and one additional reader, and submitted for publication.

Master of Science in Psychology: Major in Counseling Psychology

The Counseling Psychology Masters major area is designed to prepare students for the independent and licensed professional practice of counseling and psychotherapy. The major offers students a solid foundation in counseling psychology that focuses on evidence-based practices in mental health counseling. Opportunities for specializing in a range of clinical problems and diverse populations are offered through faculty guided and clinical training in the FIU Center for Children & Families and/or supervised clinical experience in community-based clinical settings.

Completion of the major requirements leads to a Master of Science in Psychology and eligibility for a license to practice as a Mental Health Counselor (LMHC) in Florida. The core curriculum is intended to engage students in the advanced study of psychology with a focus on developing applied counseling for working in multicultural environments with populations that range across the life span from childhood to later adulthood.

Degree Requirements

The Master of Science in Counseling Psychology requires a minimum of 60 semester credits of graduate work beyond the baccalaureate. A maximum of 6 credits of post-baccalaureate course work may be transferred from another institution with the approval of the Advisory Committee.

Major in Counseling Psychology: 60 credits

Type

Completion Requirement

Required Courses

The Counseling Psychology curriculum consists of 60 credit hours of graduate study, as required for licensure as a mental health counselor by the Florida Board of Clinical Social Work, Marriage & Family Therapy, and Mental Health Counseling that includes coursework, clinical training, and a passing score on the Counselor Preparation Comprehensive Examination (CPCE).

1. Common core (statistics/methodology/assessment) courses (9 credits)
2. Counseling Psychology content courses

Counseling Psychology content courses

36 credits drawn from the following list of 3 credit courses and approved by the program director.

Earn at least 36 credits from the following:

- CLP5166 - Advanced Abnormal Psychology
- CLP5931 - Ethical Code in Psychological Practice
- CLP6436 - Introduction to Psychological Assessment
- CLP6498 - Diagnosis and Treatment of Sexual Disorders
- CYP5534 - Groups as Agents of Change
- CYP6526 - Psychology Research Methods and Program Evaluation
- CYP6536 - Principles and Methods of Psychological Consultation
- CYP6766 - The Psychology of Crosscultural Sensitization in a Multicultural Context
- CYP6936 - Current Issues in Community Psychology
- DEP5068 - Applied Life Span Developmental Psychology
- PCO5311 - Theory, Treatment, and Research of Addictive Behavior
- PCO6206 - Principles & Practices of Counseling & Psychotherapy
- PSY5939 - Special Topics in Psychology
- PCO6945 - Case Conceptualization for Counselors
- CLP6449 - Career Development in Adolescence and Adulthood
- PSB6247 - Biological Bases of Behavior

Supervised clinical practicum/internship courses

Earn at least 15 credits

Counselor Preparation Comprehensive Examination

Passing score on the Counselor Preparation Comprehensive Examination.

Master of Science in Psychology: Major in Industrial-Organizational Psychology

The Industrial Organizational (I/O) Psychology major focuses on issues such as the psychology of Human Resource Management, Group Behavior, Cultural Diversity in Organizations, Personality, Team Effectiveness, Personnel Selection, Leadership, Organizational Stress, and Training and Development. The major emphasizes a commitment both to research and application as a part of individual specialty area development. Students master a series of core courses designed to provide a thorough grounding in theory, methodology, and content in applied and basic research in psychology. These courses are taught by faculty who are involved in research and practice in the relevant areas.

In addition, seminars reflecting the specialized foci of the Industrial-Organizational area faculty are offered. There are also opportunities for practice and occasional internships for students to gain firsthand experience in the application of psychological knowledge to real challenges of organizations. Students are also encouraged to participate in professional conferences.

Degree Requirements

The Master of Science in Industrial and Organizational Psychology requires a minimum of 36 semester credits of graduate work beyond the baccalaureate. A maximum of 6 credits of post-baccalaureate course work may be transferred from another institution with the approval of the Advisory Committee.

Major in Industrial-Organizational Psychology: 36 credit

Type

Completion Requirement

Required Courses

The Master's in I/O Psychology requires 36 credit hours beyond the Bachelor's degree. This includes 6 credits of departmental common core requirements for the M.S. degree. Students have the option of following either a thesis or a non-thesis option. Students planning to apply to a doctoral program must elect the thesis option.

1. Common core (statistics/methodology) courses plus an additional statistics/methods course (9 credits)
2. I/O content courses.

I/O content courses: 12 credits

Earn at least 12 credits from the following:

- INP5095 - Proseminar in Industrial Psychology
- INP6090 - Applied Psychology and Organizational Consulting
- INP6115 - Psychology of Culture and Organizations
- INP6216 - Personnel Selection
- INP6235 - Applied Psychology of Training and Development
- INP6611 - Organizatonal Stress
- INP6940 - Industrial Psychology Internship/Practicum
- PSY5939 - Special Topics in Psychology
- SOP5058 - Proseminar in Social Psychology
- SOP5616 - Social Psychology of Organizations

Supervised research/internship: 3 credits

Earn at least 3 credits

Electives: 6 credits

Earn at least 6 credits

Thesis or Non-Thesis Option: 6 credits

Earn at least 6 credits from the following:

- PSY6971 - Master's Thesis in Psychology

This requirement may also be fulfilled by additional content courses (non-thesis option) (6 credits).

Master of Science in Psychology: Major in Legal Psychology

Legal psychology is a growing and popular field that sits at the nexus of psychology and law. This program offers students broad training in psychology and in-depth training in legal psychology as well as more traditional concentrations (e.g., social psychology, cognitive psychology). Research, professional, and pedagogical skills are strongly emphasized. Students may also obtain significant field experience in the legal system by participating in applied research, expert witness cases, providing assistance to trial consultants, and through other formal training experiences, such as collaborations with FIU's law school.

Degree Requirements

The Master of Science Major in Legal Psychology requires a minimum of 36 semester credits of graduate work beyond the baccalaureate, including a thesis research project based upon the student's original research.

Students who have already completed a thesis in a relevant area of research while enrolled in another program, with program director approval can have the thesis project requirement waived. 9 credits of common core requirements are included in these requirements in order to meet the Board of Governors' Policy on degree structures.

Major in Legal Psychology: 36 credits

Type

Completion Requirement

Required Courses

In order to obtain their M.S., Legal Psychology doctoral students will be required to complete 36 credit-hours of coursework, as listed below:

1. Common core requirements (9 credits of statistics/methodology courses)

2. Basic Psychology and Applied Legal Psychology courses (12 credits from the following), or as approved by the program director

Basic Psychology and Applied Legal Psychology courses: 12 credits

Earn at least 12 credits from the following:

- EXP5508 - Applied Cognitive Psychology
- SOP6098 - Proseminar in Legal Psychology
- SOP5753 - Wrongful Convictions
- SOP5754 - The Psychology of Eyewitness Identification
- SOP5755 - Development and the Law
- SOP5756 - Investigative Interviewing
- SOP5757 - Interrogation and Deception Detection

Basic Psychology courses: 6 credits

Earn at least 6 credits from the following:

- EXP5099 - Pro-seminar in Experimental Psychology
- SOP5058 - Proseminar in Social Psychology

Supervised Research

A Master's Project consisting of an empirical paper based on the student's independent research, approved by the student's mentor and at least two additional readers.

Earn at least 9 credits from the following:

- PSY5918 - Supervised Research

Master of Science in Psychology: Organizational Science

Organizational Science focus on the cognitive, social and behavioral bases of employee motivation and behavior, and using that knowledge to design effective systems to enhance productivity. By providing a rigorous foundation in theory, research methods, and the practice of I/O psychology, this program prepares students for advanced study in psychology as well as training practitioners and researchers who can function in a wide variety of applied settings. Students are trained to utilize and apply principals of I/O Psychology to issues of critical relevance to organizations including: 1) recruitment, assessment, and personnel selection; 2) training needs assessments and design; 3) performance measurement and talent management; 4) workplace health promotion 5) employee satisfaction, morale, and work-life balance; and 6) team and group dynamics.

Degree Requirements

The Master of Science in Organizational Sciences requires 36 semester credits of coursework at the graduate level and includes a terminal project focused on a workplace issue.

Organizational Science: 36 credits

Type

Completion Requirement

Core Courses: 6 credits

Students will complete 6 credits of coursework based on departmental core course requirements:

Complete ALL of the following Courses:

- PSY5939 - Special Topics in Psychology
- SOP5058 - Proseminar in Social Psychology

PSY5939 Spec Topics In Psy in Quantitative Methods in Psychology I

Content Courses: 30 credits

Complete ALL of the following Courses:

- INP5095 - Proseminar in Industrial Psychology
- SOP5616 - Social Psychology of Organizations
- INP6216 - Personnel Selection
- INP6005 - Strategies & Methods in Psychological Research
- INP6235 - Applied Psychology of Training and Development
- INP6611 - Organizatonal Stress
- INP6940 - Industrial Psychology Internship/Practicum
- INP6115 - Psychology of Culture and Organizations
- INP6090 - Applied Psychology and Organizational Consulting

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

PSYC:PHD - Doctor of Philosophy in Psychology

Overview

Degree Offered
PHD - Doctor of Philosophy

Program Title
Psychology

The Doctor of Philosophy (PhD) in Psychology trains students to become experts in the study of psychology. The primary goal of the program is to equip students with the skills necessary to function as academic and/or research scientists. The program provides a rigorous, broad-based graduate education, with an emphasis on topic-specific skills in research methodology and data analysis. Students have the opportunity to specialize in the following areas: Applied Social and Cultural Psychology; Child and Adolescent Clinical Science; Industrial/Organizational Psychology; or Legal Psychology. For more information, visit the College of Arts, Sciences, and Education website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the PhD in Psychology (major: Applied Social and Cultural Psychology)

Doctoral Admission Requirements

To be admitted into the Applied Social and Cultural Psychology doctoral program, a student must:

(1) Hold a bachelor’s degree in a relevant discipline from an accredited college or university;

(2) Have a 3.0 average or higher during the last two years of the undergraduate program;

(3) Arrange to have three letters of recommendation evaluating the applicant’s potential for graduate work sent to the Psychology Graduate Program Director;

(4) Send a brief essay stating reasons for interest in the program and career goals to the Psychology Graduate Secretary;

(5) Submit a current resume or CV;

(6) Receive approval from the Departmental Graduate Education Committee; and

(7) International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 92 on the iBT TOEFL (equivalent to 580 in the TOEFL) is required.

These are minimum requirements. Admission is competitive. Deadline for review of completed applications is December 1 for fall admission.

Admissions Requirements for the PhD in Psychology (major: Clinical Science in Child and Adolescent Psychology)

To be admitted into the Clinical Science doctoral program, a student must:

(1) Hold a bachelor's or master's degree in psychology or a related field from an accredited college or university;

(2) Have a 3.0 average or higher GPA during the last two years of the undergraduate program, or, for students with a terminal master's degree in psychology, have a minimum 3.5 average or higher GPA;

(3) Arrange for their application to the University Graduate School to be accompanied by three letters of recommendation evaluating potential for graduate work;

(4) Include with their application to the University Graduate School a brief personal statement outlining their experiences, reasons for interest in doctoral training in psychological clinical science, and career goals; and

(5) International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80/550 on the iBT TOEFL or a score of 6.5 on the IELTS is required.

Admission into the Clinical Science Doctoral Program in Child and Adolescent Psychology is competitive. Successful applications have significant research experience and strong letters of recommendation. Enrolled students evidenced interest in psychological clinical science by clear articulation (in personal statement and interviews) of research questions, a desire for a clinical science career, strong record of academic achievement, and professional accomplishment described in personal statement and recommendations from past mentors. Deadline for review of completed applications is December 1 for fall admission.

Admissions Requirements for the PhD in Psychology (major: Industrial-Organizational Psychology)

To be admitted into the Industrial-Organizational Psychology doctoral program, a student must:

(1) Hold a bachelor's degree in a relevant discipline from an accredited college or university;

(2) Have a 3.0 average or higher during the last two years of the undergraduate program;

(3) Have completed an undergraduate or graduate research methods course as a prerequisite:

(4) Arrange to have three letters of recommendation evaluating the applicant's potential for graduate work sent to the Psychology Graduate Program Director:

(5) Send a brief essay stating reasons for interest in the program and career goals to the Psychology Graduate Secretary;

(6) Receive approval from the Departmental Graduate Education Committee; and

(7) International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 92 on the iBT TOEFL (equivalent to 580 in the TOEFL) is required.

These are minimum requirements. Admission is competitive. Deadline for review of completed applications is December 1 for fall admission.

Admissions Requirements for the PhD in Psychology (major: Legal Psychology)

To be admitted into Legal Psychology doctoral program, a student must:

(1) Hold a bachelor's degree in a relevant discipline from an accredited college or university;

(2) Have a 3.0 average or higher during the last two years of the undergraduate program;

(3)Have completed an undergraduate or graduate research methods course as a prerequisite;

(4) Arrange to have three letters of recommendation evaluating the applicant's potential for graduate work sent to the Psychology Graduate Program Director;

(5) Send a brief essay stating reasons for interest in the program and career goals to the Psychology Graduate Secretary;

(6) Receive approval from the Departmental Graduate Education Committee; and

(7) International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 92 on the iBT TOEFL (equivalent to 580 in the TOEFL) is required.

These are minimum requirements. Admission is competitive. Deadline for review of completed applications is December 1 for fall admission.

Program Requirements

Required Courses

Type
Completion Requirement

Common Core Courses: 9 credits

Complete ALL of the following Courses:

- PSY5939 - Special Topics in Psychology
- PSY5939 - Special Topics in Psychology
- PSY5246C - Multivariate Analysis in Applied Psychological Research

PSY5939 Spec Topics In Psy must be taken in Quantitative Methods I and Quantitative Methods II

Graduation Requirements

A grade of "B" or higher must be obtained in all courses with a cumulative average of 3.0 or higher in the 75 credits; the program requirements must be completed, and a dissertation must be completed and accepted by the University.

Major Requirements

Doctor of Philosophy in Psychology: Major in Applied Social and Cultural Psychology

The PhD in Psychology requires a minimum of 75 credits of graduate coursework beyond the baccalaureate, including a dissertation based on the student's original research. A maximum of 9 credits may be transferred into the Applied Social and Cultural Psychology major from a completed master's degree program with the approval of the major director. A student must enroll for dissertation credit after completing all coursework, passing the candidacy examination, and being

advanced for candidacy. Dissertation credits cannot be taken before advancement to candidacy. After a doctoral student is admitted to candidacy, continuous registration for at least three dissertation credits is required until the dissertation requirement is fulfilled.

Applied Social and Cultural Psychology doctoral students are required to complete the 9 credits of departmental core course requirements established across majors in the department, along with more specialized content courses and courses involving directed independent effort, as listed, for a total of 75 credits.

Major in Applied Social and Cultural Psychology

Type

Completion Requirement

Applied Social and Cultural Psychology Content Courses: 12 credits

Complete ALL of the following Courses:

- SOP5058 - Proseminar in Social Psychology
- SOP5316 - Theories and Methods of Cross-Cultural Research
- CYP6936 - Current Issues in Community Psychology
- PSY6076 - Professional & Personal Development for Doctoral Students

Breadth Requirements: 9 credits

9 credits drawn from the following list of 3-credit courses, or other courses approved by the major director, to fulfill training in Identity (3 credits); Social Justice (3 credits); and Methods (3 credits):

Fulfill ALL of the following requirements:

Identity

Complete at least 1 of the following courses:

- DEP6046 - Cross Cultural Perspectives of Emerging & Established Adulthood
- WST5936 - Women in Leadership

PSY5939 Spec Topics In Psy specifically in Cross Cultural Perspectives of Emerging and Established Adulthood

AND

Social Justice

Complete at least 1 of the following courses:

- SOP5726 - Proseminar on the Psychology of Stereotyping, Prejudice, and Discrimination
- CYP6766 - The Psychology of Crosscultural Sensitization in a Multicultural Context

AND

Methods

Complete at least 1 of the following courses:

- PSY5930 - Qualitative Research Methods in Psychology
- CYP6526 - Psychology Research Methods and Program Evaluation

Electives

15 credits, drawn from courses within or outside of the department, approved by the major area director, to facilitate depth of independent research.

Earn at least 15 credits

Supervised research courses

Earn at least 15 credits

Master's Project

Comprehensive Exam

PhD Dissertation

Earn at least 15 credits from the following:

- PSY7980 - Ph.D. Dissertation

Specific Major Requirements

All students must also complete specific major requirements one semester prior to graduation, including:

-- Diversity Statement;

-- Public Psychology paper (which can be the MS project or the additional comprehensive exam paper);

-- Public communication(s), which may include white papers, policy briefs, info-graphics, videos, Op Eds, press releases, community presentations/workshops, etc. These public communication materials may be based on the student's MS project, the additional paper, or on another project led by the student.

Additional public engagement activities for the Applied Social and Cultural Psychology major portfolio will be approved on a case-by-case basis; the approval memo must be signed by a minimum of two core faculty members for activities not listed above.

Doctor of Philosophy in Psychology: Major in Clinical Science in Child and Adolescent Psychology

The clinical science in child and adolescent psychology major is consistent with the training model articulated by the Academy of Psychological Clinical Science. Clinical Science is defined as a "psychological science directed at the promotion of adaptive functioning; at the assessment, understanding, amelioration, and prevention of human problems in behavior, affect, cognition or health; and at the application of knowledge in ways consistent with scientific evidence." Emphasis on the term "science" underscores the commitment to evidence based approaches to the assessment and treatment of child and adolescent problems, as well as the integration of research and theory of other relevant sciences. Emphasis on the term "science" also underscores that training facilities careers in which scientific knowledge is skillfully produce, applied, or both. The focus of the clinical science major is on child, adolescent, and family clinical psychology within a multicultural context.

Students admitted to the major are expected to maintain full-time status and become involved in research from the onset of their entry into the program by participating in faculty research projects and by carrying out individual research under the guidance of one or several faculty members. Students also are guided and encouraged to publish their individual research projects, to seek their own external funding to help support their research, and to present their work at professional conferences. Students receive clinical and teaching opportunities as part of their graduate training within the context of continued student advancement as clinical scientists in child and adolescent psychology.

The PhD in Psychology requires a minimum of 75 credits of graduate coursework beyond the baccalaureate, including a dissertation based on the student's original research. The Clinical Science in Child and Adolescent Psychology major requires an additional 15 credits of clinical practicum (90 credits total) and a year-long internship. We adhere to the University Graduate School policy regarding credit transfer toward a doctoral degree. However, it is policy of the Clinical Science Program to require all students to participate in the core clinical science courses. Students may apply to transfer credits for courses that overlap substantively in learning objectives and content with core analytic courses or breadth requirements. Research and practicum credits may be considered for transfer as well.

All Clinical Science in Child and Adolescent Psychology students are required to complete the 9 credits of departmental core course requirements established across majors in the department, along with more specialized content courses, clinical practicum, and courses involving directed independent effort, as listed, for a total of 90 credits.

Major in Clinical Science in Child and Adolescent Psychology

Type

Completion Requirement

Clinical Science Content Courses: 21 credits

Complete ALL of the following Courses:

- CLP5007 - Psychological Clinical Science: History, Systems, and Current Controversies
- PSY6219 - Research Methods in Clinical Child Psychology
- CLP6471 - Assessment and Treatment I: Internalizing Problems
- CLP6472 - Assessment and Treatment II: Externalizing Problems
- CLP6473 - Assessment and Treatment III: Developmental, Learning and Pediatric Disorders

Breadth Requirements: 9 credits

9 credits drawn from the following list of 3-credit courses, or other courses approved by the major area director, to fulfill training in Biological and Cognitive Aspects of Behavior (3 credits); Affective Aspects of Behavior (3 credits); and Social Aspects of Behavior (3 credits)

Earn at least 9 credits from the following:

- CLP6426 - Neuropsychology
  OR EXP5667 - Cognitive Neuroscience
- CLP6060 - Affective Bases of Behavior
- SOP5058 - Proseminar in Social Psychology

Advanced Analytic Requirement

3 credits drawn from the following list of 3-credit courses or other courses approved by the major area director.

PSY5939 Spec Topics In Psy in the following special topics:

-- Structural Equation Modeling

-- Categorical Data Analysis

-- Longitudinal Health Analysis

-- Multilevel Modeling

Earn at least 3 credits from the following:

- PSY5939 - Special Topics in Psychology

- PSY5939 - Special Topics in Psychology
- PSY5939 - Special Topics in Psychology
- PSY5939 - Special Topics in Psychology

Electives

12 credits drawn from courses within or outside of the department, approved by the major area director, to facilitate depth of independent research; a maximum of 9 credits of supervised research, PSY5918 Supervised Research, can be used to satisfy this requirement.

Earn at least 12 credits

Supervised Clinical Training

Minimum 500 hours and 15 credits, comprised of the following:

Earn at least 15 credits from the following:

- CLP6432 - Foundation Practicum I
- CLP6947 - Foundations Practicum II (Treatment)
- CLP6943 - Advanced Clinical Practicum

Note: CLP6943 Adv Clinical Prac is 9 credits.

Supervised Research

Earn at least 12 credits from the following:

- PSY5918 - Supervised Research

Master's Project submitted for publication

Comprehensive Exam

Comprises a dissertation grant application and candidacy manuscript submitted for publication.

PhD Dissertation

Earn at least 15 credits in residence from the following:

- PSY7980 - Ph.D. Dissertation

Internship

Complete ALL of the following Courses:

- CLP6948 - Clinical Internship

Doctor of Philosophy in Psychology: Major in Industrial-Organizational Psychology

The Industrial-Organizational Psychology major focuses on issues such as the psychology of human resource management, group behavior, cultural diversity in organizations, personality, team effectiveness, personnel selection, leadership, organizational stress, and training and development. Program requirements include core courses that provide a strong knowledge base and a selection of optional seminars that allows specialization and applied experience. Idea exchange and research collaboration among students are goals of many of these courses. These courses are taught by faculty who are involved in research and practice in the relevant areas.

In addition to master's and doctoral dissertation projects, activity in a variety of research projects is highly encouraged. Involvement with Industrial-Organizational program events, applied internships, conference attendance and presentations is also encouraged.

The PhD in Psychology requires a minimum of 75 credits of graduate coursework beyond the baccalaureate, including a dissertation based on the student's original research. A maximum of 36 credits may be transferred from a completed masters degree program with the approval of the Advisory Committee.

All Industrial-Organizational Psychology students are required to complete the 9 credits of departmental core course requirements established across majors in the department, along with more specialized content courses and courses involving directed independent effort, as listed.

Major in Industrial-Organizational Psychology

Type

Completion Requirement

Industrial-Organizational Psychology Content Courses: 21 credits

21 credits drawn from the following 3-credit courses and approved by the program director

Earn at least 21 credits from the following:

- INP5095 - Proseminar in Industrial Psychology
- INP6090 - Applied Psychology and Organizational Consulting
- INP6115 - Psychology of Culture and Organizations
- INP6216 - Personnel Selection
- INP6235 - Applied Psychology of Training and Development
- INP6611 - Organizatonal Stress
- INP6940 - Industrial Psychology Internship/Practicum
- PSY5939 - Special Topics in Psychology
- SOP5058 - Proseminar in Social Psychology
- SOP5616 - Social Psychology of Organizations

Electives

9 credits with approval from program director

Earn at least 9 credits

Supervised research/internship

Earn at least 15 credits

Master's Project

6 credits approved by the program director

Earn at least 6 credits

Comprehensive Exam

PhD Dissertation

Earn at least 15 credits from the following:

- PSY7980 - Ph.D. Dissertation

Doctor of Philosophy in Psychology: Major in Legal Psychology

The Legal Psychology major area is focused on issues related to the overlap between psychology and law, including areas such as: jury decision-making, investigative interviewing, eyewitness memory, and detecting deception. The program is research-oriented with the goal of training students to conduct research in academic, government, or legal consulting settings. Research in this area mostly revolves around three traditional areas of psychology: cognitive, developmental, and social psychology. As such, training is provided in these basic areas of psychology along with training in methodology and statistics, and in related areas of law, most notably, the overlap between law and psychology.

Program requirements include seminar courses in basic psychological processes (e.g., cognition, social psychology), statistics and methodology, and legal psychology. While taking courses, students conduct independent research and collaborate with other faculty and students. Students are encouraged to work on projects with a variety of colleagues. In addition to taking formal courses, students also have the opportunity to participate in weekly, informal research meetings with other students and faculty.

The PhD in Psychology requires a minimum of 75 credits of graduate coursework beyond the baccalaureate, including a dissertation based on the student's original research. A maximum of 36 credits may be transferred from a completed masters degree program with the approval of the Advisory Committee.

All Legal Psychology students are required to complete the 9 credits of departmental core course requirements established across majors in the department, along with more specialized content courses and courses involving directed independent effort, as listed.

Major in Legal Psychology

Type

Completion Requirement

Basic Psychologyand Applied Legal Psychology Courses: 18 credits

6 courses (18 credits) on basic psychology and applied legal psychology approved by the program director.

Complete at least 6 of the following courses:

- DEP5068 - Applied Life Span Developmental Psychology
- DEP5099 - Pro-seminar in Infancy, Childhood, and Adolescence
- EXP5099 - Pro-seminar in Experimental Psychology
- EXP5508 - Applied Cognitive Psychology
- INP5095 - Proseminar in Industrial Psychology
- INP6115 - Psychology of Culture and Organizations
- INP6940 - Industrial Psychology Internship/Practicum
- POS6286 - Judicial Research (Inactive)
- POS6612 - Seminar on U.S. Supreme Court
- PSY5939 - Special Topics in Psychology
- SOP5058 - Proseminar in Social Psychology
- SOP5753 - Wrongful Convictions
- SOP5754 - The Psychology of Eyewitness Identification
- SOP5755 - Development and the Law
- SOP5756 - Investigative Interviewing
- SOP5757 - Interrogation and Deception Detection
- SOP6098 - Proseminar in Legal Psychology

- SOP6752 - Psychology of Juries
- LAW6310 - Alternative Dispute Resolution
- LAW6112 - Criminal Procedure: Investigation
- LAW6114 - Criminal Procedure: Adjudication
- LAW6330 - Evidence
- LAW6710 - Family Law
- LAW6381 - Interviewing and Counseling
- LAW6363 - Trial Advocacy
- LAW7549 - Employment Discrimination
- LAW6714 - Children and the law
- LAW6253 - Comparative Criminal Law
- LAW7308 - Complex Litigation
- LAW6720 - Health Law
- LAW6555 - Law and Economics
- LAW6313 - Negotiation
- LAW6234 - Race and the Law
- LAW6235 - Women and the Law

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

PT:DPT - Doctor of Physical Therapy

Overview

Degree Offered
DPT - Doctor of Physical Therapy

Program Title
Physical Therapy

The Doctor of Physical Therapy (DPT) degree program prepares students--through a combination of an evidence-based curriculum, culturally relevant clinical research, critical thinking, scholarship, and community leadership--to help eliminate health disparities and advance the practice of physical therapy. Students in the program receive a comprehensive education that includes foundational science courses, advanced clinical skills, and extensive fieldwork opportunities, enabling them to provide high-quality care and promote optimal health and wellness in diverse populations.

For more information, visit the Nicole Wertheim College of Nursing and Health Sciences website.

51.2308

Requirements

Simple Requirements

Admissions Requirements

Minimum Admissions Requirements for the Doctor of Physical Therapy

(1) A Bachelor's degree from an accredited institution.

(2) An overall cumulative, pre-requisite, and last 60 hours of Upper Division GPA of 3.0

(3) A score above the 50 percentile on both Verbal and Quantitative sections of the GRE is recommended. A minimum score of 3.5 is recommended for the Analytical portion of the GRE.

(4) A minimum of 60 hours of observation and/or work experience with physical therapists.

(5) Three letters of recommendation two of which must be from a physical therapist.

(6) Completion of the following prerequisites courses:

--Chemistry with Lab (8 credits)

--Developmental Psychology (3 credits)

--General Biology with Lab (4 credits)

--Human Anatomy with Lab (4 credits)

--Human Physiology with Lab (4 credits)

--Physics with Lab (8 credits)

--Psychology (3 credits)

--Statistics (3 credits)

Additional Items

1. Essay which explains why you want to become a physical therapist and why you are interested in attending FIU.
2. A curriculum vitae/resume.
3. Admission into FIU as a graduate student.

Application and Admission Processes

Applying for admission to the DPT program is via the Physical Therapist Centralized Application Service (PTCAS) at **http://www.ptcas.org/FloridaInternational.html**. The applicant also needs to complete a Supplemental Graduate School Online Form at **https://intra.fiu.edu/Facts/PTCAS**.

Admission to the program is highly competitive. The department selects students based primarily on their record of academic performance, although evidence of non-academic outstanding personal qualities is also considered.

Timelines

Final application deadline is mid-January to begin the program the following Fall semester. Qualified applicants will be invited for an interview.

Early Admission

We will review applicants on a monthly basis beginning in September prior to the January deadline. Well qualified students who apply within this time frame will be invited to campus for an early interview. Successful candidates will be offered early admission contingent on completing all admission requirements. Go to the department's website for a full description of the admissions process and prerequisite courses **http://cnhs.fiu.edu/pt/index.html**.

Program Requirements

General Policies and Information

Upon acceptance in to the Doctor of Physical Therapy program, all students will be required to complete a criminal background check and a level II FBI fingerprint background check.

The Director of Clinical Education (DCE) will review these results. In the event that a flagged item appears on either report, the student will be required to meet with the department chair and DCE. The student will be counseled and instructed that he or she will have to disclose this information to the state board upon application for the National Physical Therapy Exam (NPTE), and provide any additional information requested by the state. The student will also have to acknowledge, in writing, that they are aware that the flagged item may result in the inability to sit for the NPTE for licensure.

Academic Warning, Probation and Dismissal

Warning

A DPT student whose cumulative graduate GPA falls below a 3.0 will be placed on warning, indicating academic difficulty. The student may or may not be placed for clinical experience. The final decision will be based on faculty recommendation and decided by department chair and DCE. Not completing a clinical experience in the correct sequence will delay the student's graduation.

Probation

A DPT student on warning whose cumulative graduate GPA remains below 3.0 in the following semester will be placed on probation, indicating serious academic difficulty. The student may or may not be placed for clinical experience. The final decision will be based on faculty recommendation and decided by department chair and DCE. Not completing a clinical experience in the correct sequence will delay the student's graduation.

The department may indicate other conditions, which must be met in order to continue enrollment.

Dismissal

A DPT student on probation whose cumulative and semester GPA fall below a 3.0 will be automatically dismissed from the DPT program and the University.

Dismissal Appeal

Students must follow the University Graduate School Rules and Regulations as published in the University Catalog.

Department Policy - Academic Progression

In addition to the warning, probation, and dismissal policy described above, a student will be dismissed from the Doctor of Physical Therapy program if they receive a grade below a "C" in any course.

Grading Criteria

• A (94-100)

• A- (90-93)

• B+ (87-89)

• B (84-86)

• B- (80-83)

• C+ (77-79)

• C (74-76)

• Below 74 is considered failing grade.

Class Attendance/Participation Policy

In accordance with the FIU Attendance Policy stated in the catalog and in the Physical Therapy Student Handbook, students are expected to be punctual and attend all classes. The program has a required attendance policy recognizing medical/health, family emergencies, inclement weather or religious days as examples of justifiable excused absences. Travel, volunteering, and work are examples of unjustifiable and unexcused absences. In order to receive an excused absence, students must contact the professor in advance of the class that will be missed; documentation may be required. Each unexcused absence may result in a loss of 5% of the total course grade. Three or more unexcused absences is grounds for course failure.

All students are expected to complete/participate in exams, practicals, assignments, class activities, and presentations when these are part of a course. Failure to participate/present without approval from the course instructor is also grounds for course failure." Consistent attendance at scheduled classes and laboratory sessions are considered a prime indicator

of mature and professional behavior and is expected of all students. Failure to follow the attendance policy is grounds for dismissal. If circumstances require a student to be absent, it is the student's responsibility to notify the faculty member in advance and ask to be excused. The student is held responsible for the material covered during that absence.

Any points (exams, quizzes, assignments, participation, etc.) associated with an unexcused absence, will not be eligible for makeup, and will be assigned a **zero**.

A student who must leave class before the scheduled ending time should request permission from the faculty member before the beginning of class. The student is held responsible for the material covered during the time the student is not there.

Punctuality is a demonstration of professional responsibility and the ability to fulfill a commitment on the part of the student. Arriving late to class or laboratory is disruptive and inconsiderate. If a circumstance requires a late arrival, the student should notify the faculty member in advance.

All students are expected to participate in class assignments, activities, and presentations if and when given. Failure to participate/present without approval from the course instructor will lead to course failure. Students are not to schedule any vacations or absences during the designated finals week for the semester. Testing schedules will not be modified.

Absence

A student who finds it necessary to be excused from registration in a graduate degree program for three consecutive terms, or one term in the case of students subject to continuous enrollment, must formally request a leave of absence from the graduate program. Leave time must be requested prior to the beginning of the anticipated leave time and must be approved by the program director or chairperson of the department, the dean of the appropriate school or college and the Dean of the University Graduate School. Leave will generally be granted in cases involving personal hardship, medical concerns, or family need. Academic standing is not considered a reason for granting a leave.

Leave of Absence

A leave of absence will not be granted for students currently enrolled with conditional status. A graduate student who returns from a leave of absence may be required to make changes to their research committee and/or research plan due to changes that have occurred in their absence.

Graduation Requirements

To be eligible for graduation the student must:

--Meet all University Graduate School requirements for graduation.

--Satisfactorily complete all didactic and fieldwork requirements within DPT degree program guidelines.

--Have a minimum graduate GPA of 3.0 in the DPT degree required courses

Degree Program Credit Hours: 113

Type

Completion Requirement

First Fall Semester: 15 credits

Complete ALL of the following Courses:

- PHT5174 - Analysis of Movement and Function
  AND PHT5174L - Analysis of Movement and Function Lab
- PHT5523 - Dimensions of Professional Practice Seminar I
- PHT5070 - Principles of Diagnostic Imaging
- PHT5244C - Principles of Therapeutic Exercise

- PHT5180 - Musculoskeletal Diagnosis and Management I
  AND PHT5180L - Musculoskeletal Diagnosis and Management I Lab

First Spring Semester: 14 credits

Complete ALL of the following Courses:

- PHT5303 - Principles of Pathophysiology in Physical Therapy
- PHT5205 - Clinical Skills
  AND PHT5205L - Clinical Skills Lab
- PHT6353 - Principles of Diagnostics and Pharmacology in Physical Therapy
- PHT5181 - Musculoskeletal Diagnosis and Management II
  AND PHT5181L - Musculoskeletal Diagnosis and Management II Lab

First Summer Semester: 12 credits

Complete ALL of the following Courses:

- PHT5027 - Clinical Education Seminar
- PHT6165C - Applied Clinical Neuroanatomy
- PHT6341 - Diagnosis and Management of Disease
  AND PHT6341L - Diagnosis and Management of Disease Lab
- PHT5182 - Musculoskeletal Diagnosis and Management III
  AND PHT5182L - Musculoskeletal Diagnosis and Management III Lab

Second Fall Semester: 14 credits

Complete ALL of the following Courses:

- PHT6125 - Clinical Biomechanics
- PHT5805 - Clinical Internship I
- PHT6163 - Neurological Diagnosis and Management I
  AND PHT6163L - Neurological Diagnosis and Management I Lab
- PHT6905C - Independent Study
- PHT6625 - Advanced Physical Therapy Clinical Research Methodologies and Design

Second Spring Semester: 12 credits

Complete ALL of the following Courses:

- PHT6164 - Neurological Diagnosis and Management II
  AND PHT6164L - Neurological Diagnosis and Management II Lab
- PHT6381 - Diagnosis and Management of Cardiopulmonary Systems
  AND PHT6381L - Diagnosis and Management of Cardiopulmonary Systems Lab
- PHT6970C - DPT Project I
- PHT6547C - Case Management in Physical Therapy I

Second Summer: 14 credits

Complete ALL of the following Courses:

- PHT5373 - Advanced Therapy Assessment of the Elderly
- PHT6169 - Neurological Diagnosis and Management III
  AND PHT6169L - Neurological Diagnosis and Management III Lab

- PHT6972C - DPT Project II
- PHT6127 - Advanced Pathologic Movement Analysis
- PHT6547C - Case Management in Physical Therapy I

Third Fall Semester: 13 credits

Complete ALL of the following Courses:

- PHT5505C - Physical Therapy Constructs in Health and Wellness
- PHT6009 - Differential Diagnosis in Physical Therapy
- PHT6817 - Clinical Intern II
- PHT6973C - DPT Project III
- PHT6547C - Case Management in Physical Therapy I

Third Spring Semester: 14 credits

Complete ALL of the following Courses:

- PHT6827 - Clinical Intern III
- PHT6725L - Orthopedic Tests and Measures Lab
- PHT6325 - Advanced Clinical Pediatric Physical Therapy
- PHT5524 - Dimensions of Professional Practice Seminar II
- PHT6905C - Independent Study
- PHT5960 - Comprehensive Exam I

Third Summer Semester:5 credits

Complete ALL of the following Courses:

- PHT6828 - Clinical Intern IV
- PHT6905C - Independent Study
- PHT6961 - Comprehensive Exam II

PUBFPC:CFI - Graduate Certificate in Public Finance, Procurement, and Contract Management

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Public Finance, Procurement, and Contract Management

The Graduate Certificate in Public Finance, Procurement, and Contract Management is designed as a specialization for students interested in careers in budgeting, finance, purchasing, and contract management in the public and non-profit sectors. The certificate program will expose students to competencies in areas like contract and project management, public finance and the budgetary process, procurement and ethics, and legal aspects of procurement and public finance.

For more information, visit the Steven J. Green School of International and Public Affairs website.

Requirements

Simple Requirements

Admissions Requirements

Applicants must be actively enrolled in an FIU graduate-degree program and must be in good academic standing (i.e., must have an overall GPA of at least 3.0). This certificate is open to degree-seeking students only.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

This graduate certificate program consists of three required courses and two electives (15 credits total) that are taken for-credit.

Program Credit Hours: 15

Type
Completion Requirement

Required Courses: 9 credits

Complete ALL of the following Courses:

- PAD6209 - Financial Management in Public and Nonprofit Organizations
- PAD6855 - Introduction to Public Procurement
- PAD6856 - Contract and Project Management

Electives: 6 credits

Complete at least 2 of the following courses:

- PAD5256 - Economic Thinking in Policy Making
- PAD5460 - Performance Management
- PAD6229 - Advanced Management Techniques (Inactive)
- PAD6436 - Professionalism and Ethics
- PAD6605 - Administrative Law and Procedures
- PAD6710 - IT and E-government
- PAD5934 - Contemporary Issues in Public Administration
- PAD6946 - Public Administration Internship

Note: Depending on the topic of the course and pending MPA pProgram approval, PAD5934 Contemp Issues Pad may be counted as a certificate elective.

Additional Comments:
Certificate students who are not also MPA students must take PAD6907 Independent Study In as a certificate capstone. If they do, they will only have to take one additional elective course (3 credits).

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

PUBMG:CFI - Graduate Certificate in Public Management and Civic Leadership

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Public Management and Civic Leadership

The Certificate in Public Management and Leadership Studies prepares students for the evolving nature of civic leadership through coursework and practice that emphasizes relationship building, change management, global dynamics, intercultural understanding, and collaboration. The goal of this certificate program is to foster civic leadership and engagement in the FIU student body by encouraging a consideration of leadership from multiple perspectives and contexts. Through involvement with the campus and greater community, students will become engaged in their own professional leadership education and development.

For more information, visit the Steven J. Green School of International and Public Affairs website.

Requirements

Simple Requirements

Admissions Requirements

All applicants must hold a baccalaureate degree from an accredited college or university and have an upper division GPA of at least 3.0. Applicants with GPA lower than 3.0 may be considered if they submit a GRE, LSAT, or GMAT score. Students must be admitted to the certificate program to start taking classes. Admission to a certificate program does not guarantee admission to the Master of Public Administration (MPA) program.

To apply, students should complete a preassessment advising meeting to identify and define aligned professional development, training, and community engagement goals.

Note: Those students who apply for and are admitted to the MPA degree program may have certificate courses credited toward the MPA core. All the credits earned in a graduate certificate program may be used in a master's degree program provided the student is admitted to the master's degree program prior to the completion of no more than 12 graduate certificate credits. Courses with a grade of less than "B" may not count toward MPA program if they were taken as certificate courses.

This is certificate is open to degree-seeking students only.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Program Credit Hours: 15

Type

Completion Requirement

Required Courses: 12 credits

Complete ALL of the following Courses:

- PAD5043 - Equitable and Inclusive Governance
- PAD5416 - Social Equity and Human Resource Management
- PAD6434 - Leadership and Decision-making
- PAD6907 - Independent Study in Public Administration

Electives: 3 credits

Complete at least 1 of the following courses:

- PAD5435 - Gender Equity and Leadership in Public Administration
- PAD6053 - Political, Social and Economic Context of Public Administration
- PAD6156 - Applied Organization Theory and Behavior
- PAD6436 - Professionalism and Ethics
- PAD6209 - Financial Management in Public and Nonprofit Organizations
- PAD6605 - Administrative Law and Procedures
- PAD6710 - IT and E-government
- PAD6807 - Urban and Municipal Government Administration
- PAD6946 - Public Administration Internship

Additional Certificate Requirements

Students will be expected to attend at least six (6) approved FIU student conferences, educational training and/or seminars, and document completion of one community engagement project prior to completion. Students will meet with an advisor at least once a semester to report their progress and prepare a portfolio artifact (e.g. policy memo, website, infographic) to be submitted in their final semester.

Additional Comments:

Students must earn a minimum 3.0 cumulative GPA. All course grades must be "C" or better.

PUBPO:CFI - Undergraduate Certificate in Public Policy Studies

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Public Policy Studies

The Undergraduate Certificate in Public Policy Studies is an interdisciplinary program that enables degree-seeking FIU students to gain a critical understanding of public policy. Besides providing students with a wide range of interdisciplinary perspectives on public policy, the certificate program also provides students with practical experience through internships with public, private, nonprofit and political organizations in South Florida, Tallahassee, and Washington, DC. For those students looking for careers in public policy, in or out of government, this experience is crucial.

For more information, visit the Steven J. Green School of International and Public Affairs website.

This certificate is open to degree-seeking students only.

Recommended Prerequisites

--POS2041 American Government

Program Requirements

Requirements

The certificate program requires completion of 18 semester hours of college credit. All students must then complete a common core of coursework by selecting one course from each of the following three core course categories for a total of nine hours.

Then, the student must complete 9 credits to fulfill the requirements of one of the four internship tracks:

(1) Federal Policy

(2) State Policy

(3) Local Policy

(4) Non-Profit Policy

Program Credit Hours: 18

Type

Completion Requirement

Required Core Courses: 9 credits

Fulfill ALL of the following requirements:

Core Courses Part I

Complete at least 1 of the following courses:

- ECO2023 - Principles of Microeconomics
- ECO2013 - Principles of Macroeconomics

AND

Core Courses Part II

Complete at least 1 of the following courses:

- POS3424 - The Legislative Process
- PAD4223 - Public Sector Budgeting

AND

Core Courses Part III

Select one of the following three (3) credit hour certificate courses listed below. Students are encouraged to take a public policy issues course in their major, if it is offered, to satisfy this requirement.

Certificate Courses

The following courses fulfill certificate requirements for core courses and those exercising the Local Policy or Non-Profit track. This is a partial list. The student should consult with the Jack D. Gordon Institute for Public Policy (JGI) about current course offerings. Other courses may be substituted upon approval of the JGI. Transfer students may only transfer up to two courses from institutions previously attended. The program is intended to expand student options, and complement other certificate programs.

Fulfill ANY of the following requirements:

Biology

Complete ANY of the following Courses:

- PCB3063 - Genetics
- PCB4452 - Introduction to Wetland Ecology and Management

- PCB4467C - Marine Protected Areas
- PCB4553 - General Population Genetics

OR

Business Administration

Complete ANY of the following Courses:

- PAD3003 - Introduction to Public Policy and Administration
- PAD3034 - Policy Development and Implementation
- PAD3803 - Government and Administration of Metropolitan Areas
- PAD4223 - Public Sector Budgeting
- PAD4432 - Administrative Leadership and Behavior

OR

Social Work

Complete ANY of the following Courses:

- SOW3232 - Social Welfare Policy and Services I

- SOW3233 - Social Welfare Policy and Services II
- SOW3203 - Introduction to Social Work
- SOW4654 - Child Welfare: Policy and Practice
- SOW5109 - Crises in the Lives of Women
- SOW5235 - Social Welfare Policy and Services I
- SOW5641 - Understanding the Process of Aging
- SOW5710 - Current Issues in Addiction Practices

OR

Global and Sociocultural Studies

Complete ANY of the following Courses:

- ANT3442 - Urban Anthropology
- SYD4410 - Urban Sociology
- SYD4700 - Racial and Ethnic Relations
- SYD3804 - Sociology of Gender
- SYP3520 - Crime & Society
- SYP3530 - Youth, Crime, and Society
- SYP4730 - Aging in Society
- GEO3602 - Urban Geography
- GEO5415 - Topics in Social Geography

OR

Hospitality and Tourism Management

Complete ANY of the following Courses:

- HFT3701 - Sustainable Tourism Practices
- HFT3713 - International Travel and Tourism
- HFT3735 - Destination and Cultures
- HFT4509 - Tourism Destination Marketing

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

The student must complete 9 credits to fulfill the requirements of one of the four internship tracks:

(1) Federal Policy

(2) State Policy

(3) Local Policy

(4) Non-Profit Policy

Public Policy Tracks

Type

Completion Requirement

Federal Policy Track: 9 credits

This internship involves the student taking an internship with a governmental, nongovernmental, or political organization in the nation's capital. The specifics of the internship are agreed upon by the student and the JGI advisor and the student receives up to six semester hours of credit. Students are responsible for their own room and board, although the institute assists as much as possible in arranging housing and financial aid. The student also takes one (if the internship is worth a full 6 credit hours) or two of the following courses:

Fulfill ANY of the following requirements:

Required Courses

Complete 1 - 2 course(s) and earn credits from the following:

- PUP4004 - Public Policy: U.S. (Inactive)
- PAD3034 - Policy Development and Implementation

OR

Internship in Washington, D.C.

Earn up to 6 credits

Students should register for the internship, field study, or independent study course in their department (e.g., PAD4940 Internship, POS4944 Judicial Internship, POS4941 Legis Internship, POS4945 Executive Intern, ISS3940 ISS Public Policy Intern)

State Policy Track: 9 credits

Students obtain nonpaying internships in State of Florida government agencies in Tallahassee or in South Florida. Advisors from the JGI work with students to determine which agency is most suitable, depending upon the student's interests. Although the students are responsible for their own room and board, the institute helps to arrange housing in Tallahassee and assists in the application for financial aid. The State Policy Internship option is worth a total of 9 semester hours.

Fulfill ANY of the following requirements:

Required Courses

Complete 1 - 2 course(s) and earn credits from the following:

- PUP4004 - Public Policy: U.S. (Inactive)
- PAD3034 - Policy Development and Implementation
- POS4122 - State Government and Politics
- POS4182 - Florida Politics

OR

State Policy Internship

Earn up to 6 credits

Students should register for the internship, field study, or independent study course in their department (e.g., PAD4940 Internship, POS4944 Judicial Internship, POS4941 Legis Internship, ISS3940 ISS Public Policy Intern).

Local Policy Track: 9 credits

This option may be the most viable for those who want to earn the certificate, but who are unable to leave South Florida for an internship. This option is designed to be as flexible as possible. The nature of this option is worked out between the student and the JGI advisor. The student receives three credit hours for whichever courses are completed, including a local internship. Courses must be taken in at least two different disciplines, at least one being outside the student's departmental major. Core courses may not count toward the fulfillment of these requirements.

Fulfill ANY of the following requirements:

Required Courses

Complete 1 - 2 course(s) and earn credits from the following:

- PUP4004 - Public Policy: U.S. (Inactive)
- PAD3034 - Policy Development and Implementation
- SYD4410 - Urban Sociology
- POS3152 - Urban Politics
- POS4188 - Miami Politics

OR

Local Internship

Earn up to 6 credits, depending on the number of internship hours worked.

Students should register for the internship, field study, or independent study course in their department (e.g., PAD4940 Internship, POS4944 Judicial Internship, POS4941 Legis Internship, ISS3940 ISS Public Policy Intern).

Non-Profit Policy Track: 9 credits

Students obtain internship placement in a local private non-profit organization. JGI advisors will work with the student to select a work assignment related to policy issues.

The student may earn up to 6 credits for the internship, depending on the number of internship hours worked. The student will also take one or two courses related to urban issues, non-profit organizations, special interest groups, social policies, or similar issues as determined appropriate by JGI advisors.
The student should register for the internship, field study, or independent study course in their department (e.g., PAD4940 Internship, POS4944 Judicial Internship, POS4941 Legis Internship, ISS3940 ISS Public Policy Intern).

QENVF:CFI - Graduate Certificate in Quantitative Environmental Finance

Overview

Degree Offered
PCRT - Professional Certificate

Program Title
Graduate Certificate in Quantitative Environmental Finance

The Graduate Certificate in Quantitative Environmental Finance gives students the opportunity to explore the crucial intersection of environmental science, financial engineering, and climate policy. This certificate program is designed for individuals seeking to advance their careers in the financial sector, as well as students wishing to integrate scholarship about environment and finance into a coherent master's or PhD program, or as a free-standing program of graduate study. The certificate is open to both degree- and non-degree-seeking students.

For more information, visit the College of Arts, Sciences, and Education website.

Admissions Requirements

Admission Requirements

Students applying for the Graduate Certificate in Quantitative Environmental Finance must meet the following requirements for admission in addition to submitting the application:

1. All students must hold a bachelor’s degree or equivalent from an accredited college or university;
2. All students must submit a current résumé;
3. Non-degree seeking students must have a minimum GPA of 3.0 on a 4.0 scale during the last two years of upper division coursework; and
4. Degree-seeking students must be fully admitted to a graduate program and be in good academic standing.

Admission to the program is competitive. Therefore, meeting these minimum requirements does not guarantee admission. The certificate and its component classes will generally be offered online.

Certificate Requirements Eligibility

All graduate students in a Masters or Ph.D. program at FIU are eligible to apply to this program if permitted by their respective programs. The Environmental Finance & Risk Management program encourages graduate students from all colleges to participate.

Students with a Baccalaureate degree from an accredited university may be admitted to the graduate certificate program as non-degree seeking students.

This is certificate is open to both degree-seeking and non-degree-seeking students.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Certificate candidates must complete a total of 15 credit hours from the approved classes. All students must take the Foundation course, but this requirement can be waived for students with the necessary math background. All students must take the two Core Requirement classes and the Capstone class. Students must complete the fifteen credits with electives from among the list of Elective Courses or an approved alternative.

Students must maintain an average GPA of 3.0 or above and must earn a “C” or above in all courses counting toward the certificate.

Program Credit Hours: 15

Type

Completion Requirement

Foundation Course (3 credits)

Complete ALL of the following Courses:

- MAP5620 - A Primer on the Mathematics of Environmental Financial Engineering

MAP5620 Math Primer for Env Fin can be waived for students who have the necessary math background.

Core Courses (6 credits)

Complete ALL of the following Courses:

- MAP6622 - Quantitative Environmental Finance
- EVR5086 - Advanced Environmental Data Analysis for Environmental Finance

Elective Courses

Complete at least 1 of the following courses:

- LAW6470 - Natural Resources Law
- MET5365 - Techniques for Earth System Modeling and Research
- GLY5457 - Earth and Environmental Data Analysis with Python
- MAP5117 - Math & Stat Modeling

An approved alternative course may be used to fulfill this requirement.

Capstone Course

Complete ALL of the following Courses:

- MAP5629 - Quantitative Capstone in Environmental Finance

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no track, specialization, concentration, area of emphasis, or other curricular offerings associated with this program.

QURST:CFI - Undergraduate Certificate in Queer Studies

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Queer Studies

The Undergraduate Certificate in Queer Studies prepares students to critically examine and engage with issues of sexuality; gender identity; and the experiences of lesbian, gay, bisexual, transgender, and queer (LGBTQ+) individuals across the world. Graduates of the program develop skills in conducting research, effective communication, and the application of interdisciplinary approaches to better understand sexual and gender minorities' role in society. Students learn to interpret and synthesize information from diverse sources, articulate their findings through clear and persuasive writing and presentations, and develop methods of analysis relevant in for-profit and non-profit professional settings.

RDAOL:MS - Master of Science in Research Design and Analysis

Overview

Degree Offered
MS - Master of Science

Program Title
Research Design and Analysis

The fully online Master of Science (MS) in Research Design and Analysis provides students with strong research methods training for applied empirical settings. Students learn about research design, statistics, measurement, and evaluation. Graduates of the program align relevant data with specific problems, design cutting-edge data collection methods, analyze data for practical solutions, and suggest rigorous research techniques to help solve real-world problems in education and related fields, such as health and technology.

For more information, visit the College of Arts, Sciences, and Education website.

To explore more about this program, visit the website below:

Requirements

Simple Requirements

Admissions Requirements

The Master of Science (MS) in Research Design and Analysis (RDA) program is designed to provide students with strong research design and analysis training for applied research settings. RDA master's degree will be an attractive graduate degree for students with a bachelor in various education, social sciences, and business fields.

RDA applicants are required to submit:

(1) An online application to the Office of Graduate Admissions

(2) Two letters of recommendation

(3) An autobiographical statement

Candidates are admitted by the Department's Graduate Admission Committee's decision based on GPA scores in a bachelor's program, quality and source of letters of recommendation, and the candidate's career aspirations and goals.

An applicant must have a bachelor's degree from an accredited institution or be an international student from an institution comparable to or equivalent to U.S. degrees for further study at the graduate level. An applicant must have a GPA of 3.0 or higher for the last 60 hours of upper division of coursework. An applicant with less than a 3.0 GPA may be granted conditional admittance. These applicants must take 12 graduate credits and earn a 3.25 GPA to be considered for full admittance.

Program Requirements

The fully online MS in RDA program requires students to complete 30 credit hours (Core courses make up 21 credit hours, and electives makes up 9 of the 30 credit hours) that are sequentially structured over the course of 12 months. Each semester, students enroll in three to five research methods courses, each covering research design, data collection, data analysis, graphing, and program analysis. Students will gain hands-on research experience through conducting a research practicum to apply their learned knowledge and skills to specific research projects. With the research project, students will learn to organize the analysis outcomes and communicate with researchers and practitioners in other fields with colloquial language. In this way, RDA graduates will generate both research expertise and pragmatic experience which will serve them well as they transition to future employment.

Program Credit Hours: 30

Type

Completion Requirement

Core Research Design and Analysis Courses: 21 credits

Complete ALL of the following Courses:

- EDF5481 - Foundations of Educational Research
- EDF6472 - Research Methods in Education: Introduction to Data Analysis
- EDF6492 - Introduction to Program Evaluation in Education
- EDF6486 - Advanced Data Analysis in Quantitative Educational Research
- EDF6419 - Application of Statistical Models to Education
- EDF6944 - Research Practicum in Education

Note: EDF6944 Research Practicum in Ed, Minimum 6 credits total for 2-3 semesters

Elective Research Design and Analysis Courses: 9 credits

Complete ALL of the following Courses:

- EDF5434 - Measurement and Evaluation in Education
- EDF6414 - Introduction to Statistical Software in Education
- EDF6482 - Application of Measurement and Assessment in Educational Research

Other elective courses approved by Program Director or Department Chair.

EDF6425 Single-sub Res Design Ed - Single-Subject Research Design in Education

Graduation Requirements

Students are expected to complete a minimum of 30 credit hours at the graduate-level while achieving a GPA of at a minimum of 3.0 and completion of all courses required by the program. A student must maintain an overall GPA of 3.0. No grade below "C" will be accepted.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no track, specialization, concentration, area of emphasis, or other curricular offerings associated with this program.

RE:BBA - Bachelor of Business Administration in Real Estate

Overview

Degree Offered
BBA - Bachelor of Business Administration

Program Title
Real Estate

The Bachelor of Business Administration (BBA) in Real Estate prepares students to make decisions in the real estate and real estate finance industries. Students will have the opportunity to explore the financial aspects of all real estate transactions, from residential to commercial to international, and learn about property management and real estate development.

The study of real estate can lead to a variety of career paths, including commercial property management and sales, investment management, brokerage, mortgage banking, leasing, appraisal, and site location and procurement, and residential property management. Commercial real estate brokers provide property tours, negotiate lease and sales terms, market properties, and draw up contracts.

For more information, visit the College of Business website.

Admissions Requirements

Admissions and Progression Requirements for All College of Business Undergraduate Students

Applicants must follow regular University admission procedures and upon admission declare their specific program within the College of Business. In addition, students must:

(1) Complete courses detailed under Required Common Prerequisite Courses, or equivalent coursework, noted below, as part of their 60 credit-hours of lower-division course work.

(2) In their initial 60 credit-hours, earn a GPA of 2.0 or higher to continue pursuing a Bachelor of Business Administration and the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs must comply with the GPA requirement for the respective degree program.

(3) For the set of all Common Prerequisite Course credit hours, earn a GPA of 2.5 or higher to continue pursuing Bachelor of Business Administration degrees and a GPA of 2.75 or higher to pursue the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the 2.5 (or 2.75 Accounting) or higher GPA requirement for the set of Common Prerequisite Course credit hours.

(4) Successfully complete with a C or better each of Common Prerequisite Course within two attempts. Drops after the add/drop period, which result in a DR grade, are considered an unsuccessful attempt at the course, (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the two attempt limit on Common Prerequisite Courses.

(5) Students are expected to make satisfactory progress toward degree completion during their first 60 credit hours of lower-division coursework, consistent with the Common Prerequisite Benchmarks noted below. Students not making good progress, may be redirected to another degree program. All (a) AA Transfers and (b) students changing degree programs to Business from outside the College of Business must demonstrate progress consistent with Common Prerequisite Benchmarks.

Common Prerequisite Benchmarks include the following:

By End of Term / Credit Hours Earned	Coursework for equivalents Completed	Minimum GPA in Common Prerequisites *
1st /15 hours	CGS 2100 (or PHI 2600)	2.25
2nd / 30 hours	ECO 2023 and MAC 2233	2.35 (2.50 Accounting)
3rd / 45 hours	ACG 2021 and ECO 2013	2.5 (2.75 Accounting)
4lh / 60 hours	ACG 3301 and STA 2023	2.5 (2.75 Accounting)

* Applicable to all students pursuing or seeking a change of program plan to a Bachelor of Business Administration degree and the Bachelor of Accounting.

Students eligible for readmission are subject to the University's and the College's degree program's regulations in effect at the time of readmission to include admissions and progression requirements.

Program Requirements

Academic Standards

To earn an undergraduate degree from the College of Business, all students must comply with the following:

(1) Students must earn a grade of "C" or higher in each of the lower-division Common Prerequisite Courses.

(2) Students must earn a grade of "C" or higher in all upper-division major courses.

(3) Students must earn a grade of "C" or higher in all upper-division Business Core Courses. Each of these courses cannot be attempted more than three times. Drops after the add/drop period, which result in a DR grade, are considered an attempt in the course and count as an unsuccessful enrollment.

(4) As a student within the College of Business, each student gets two drops after the add/drop period, which result in "DR" grades, in their first 60 credits attempted. Each College of Business student get two additional drops after the add/drop period, which result in "DR" grades, in the second 60 credits attempted. Unused drops after the add/drop period,

which result in “DR” grades, do not carry over from the first 60 credits attempted to the second 60 credits attempted. Students entering the College of Business as transfer students with an A.A. degree from a Florida public college or with 60 or more transfer credits earned from another college or university only get two drops after the add/drop period, which result in “DR” grades. Students with disabilities who need to drop a course due to disability-related reasons are allowed to petition for additional drops after the add/drop period, which result in “DR” grades. Students who can document extenuating circumstances may petition the College for additional drops. Approval to drop additional courses in excess of those allowed must be obtained from the College of Business

(5) Students are expected to follow degree program Major Map in making satisfactory progress toward degree completion. Students deviating from Major Maps may be redirected to another degree program.

(6) Students must satisfy the requirements of their respective programs of study and satisfy all university requirements for graduation.

(7) Students who (a) have 60 credit hours earned, but (b) have not completed the seven Common Prerequisite Course for Business majors, may register for, and/or complete, no more than 15 credit hours of upper-division Business courses.

(8) Undergraduate students who register for any graduate business course must be formally admitted to a graduate degree program at the university following the university's admission procedures.

(9) Faculty has the discretion to administratively drop students who do not attend the first class of a course.

The College adheres strictly to the university’s dismissal policy. Students should be sure to read and understand FIU policies regarding Academic Warnings, Probation, and Dismissals.

Common Prerequisite Courses

Type

Completion Requirement

Required Common Prerequisite Courses Part I

For the set of all Common Prerequisite Course credit hours, earn a GPA of 2.5 or higher to continue pursuing Bachelor of Business Administration degrees and a GPA of 2.75 or higher to pursue the Bachelor of Accounting degree (a) AA Transfers, (b) Transfers from other SUS institutions, and (c) students changing degree programs to Business from outside the College of Business, must also comply with the 2.5 (or 2.75 Accounting) or higher GPA requirement for the set of Common Prerequisite Course credit hours.

Courses which form part of the statewide articulation between the State University System and the Florida College System will fulfill the Lower Division Common Prerequisites.

Please visit https://cpm.flvc.org for a current list of state-approved common prerequisites.

Earn a minimum grade of C in the following:

- ACG2021 - Accounting for Decisions
- ACG2071 - Managerial Accounting
- ECO2013 - Principles of Macroeconomics
- ECO2023 - Principles of Microeconomics
- MAC2233 - Applied Calculus
- STA2023 - Statistical Methods

Required Common Prerequisite Courses Part II

Students pursuing a Bachelor degree in Accounting, Business Analytics, Finance, Information Systems, International Business, Human Resources Management, Management, Marketing, or Real Estate are also required to achieve a grade of "C" or higher in the following course.

Earn a minimum grade of C in the following:

- CGS2100 - Intro to Microcomputer Applications for Business

Required Common Prerequisite Courses Part III

Students admitted in Fall 2012 or after, as freshman or transfer students with fewer than 30 credit hours earned, are encouraged to take GEB 2011 Introduction to Business during their first year. Students admitted in the Fall 2018 or after, as freshman with fewer than 30 credit hours earned, are required to complete SPC 2608 Public Speaking for their Undergraduate Core Curriculum Arts Requirement.

Additional Comments:

Prerequisite course requirements for entry into upper level courses will be enforced. Students will be administratively dropped from courses when they lack the required prerequisite course or courses and/or required grade.

Note: The programs, policies, requirements, and regulations listed in this catalog are subject to continual review in order to meet the needs of the University's various publics and to respond to the mandates of the Florida Board of Education and the Florida Legislature. Changes may be made without advance notice. For the most current and updated information, refer to the COB and appropriate Schools/Departments websites.

Required Business Core Courses: 24 credit hours

Type

Completion Requirement

Required Core Courses

The Business Core Courses listed below are required for all undergraduate students in the College of Business. Prerequisites for each of the Business Core Courses can be found in the College of Business course descriptions.

Complete ALL of the following Courses:

- ISM3011 - Artificial Intelligence & Information Systems in Organizations
  OR ACG4401 - Accounting Information Systems
- BUL4310 - The Legal Environment of Business
  OR BUL4320 - Business Law I
- FIN3403 - Financial Management
- MAN3025 - Organization and Management
- MAN4720 - Strategic Management
- MAR3023 - Introduction to Marketing
- QMB3200 - Business Statistics and Analysis I
- QMB4680 - Business Statistics and Analysis II

ACG4401 Acctg Info Systems and BUL4320 Bus Law I should **ONLY** be taken by students pursuing a Bachelor of Accounting.

Required Business Professional Development Courses: 3 credit hours

Type

Completion Requirement

Required Courses

The business professional development courses listed below are required for all undergraduate students in the College of Business.

Complete ALL of the following Courses:

- COM3112 - Speech and Writing for Business Communication
- GEB3003 - Career Management

Students admitted before Fall 2011 can take either COM 3150 Advanced Business and Professional Communication **or** COM 3110 Business and Professional Communication.

Degree-Specific Courses: 21 credit hours

Type

Completion Requirement

Courses Required for the BBA in Real Estate Part I

Complete ALL of the following Courses:

- REE3043 - Real Estate Principles
- REE4204 - Real Estate Finance
- REE4303 - Real Estate Invest
- REE4433 - Legal Environment of Real Estate
- REE4956 - International Real Estate

Courses Required for the BBA in Real Estate Part II

Students must also take 6 credits of elective courses specific to the BBA in Real Estate. This includes additional REE classes, FIN classes, and other classes approved by the Department Chair.

Upper Division Business Electives: 12 credit hours

All electives outside the College of Business must receive the approval of the Department Chair. A list of approved courses is available from COB Advising.

Tibor and Sheila Hollo School of Real Estate Academic Standards

The Hollo School of Real Estate requires that students fulfill the following requirements in order to remain in a degree program:

(1) Receive a grade of “C” or higher in each of the courses in their major.

(2) Earn a grade of “C” or higher in each Upper Division business elective.

It is also strongly recommended that Real Estate students join the Real Estate Student Association.

To improve the learning experience, to assure learning and to ensure employers of the quality of a graduate with a Real Estate degree, all Real Estate students will take a comprehensive examination of their knowledge and skills toward the end of their course of study.

READED:MS - Master of Science in Reading/Literacy Education

Overview

Degree Offered
MS - Master of Science

Program Title
Reading/Literacy Education

The Master of Science (MS) in Reading/Literacy Education prepares students to work as reading teachers and literacy experts in the K-12 education setting and beyond. Students in this program may choose from pathways leading to certification in the field or other pathways tailored to a broad knowledge of literacy and instruction. Depending on career and professional goals, graduates are competent to lead in improving reading instruction and preventing reading failure in schools or clinics. Graduates also develop a broad knowledge of literacy instruction and research to assist in school teaching or to work with community literacy agencies.

Admissions Requirements for the Master of Science (MS) in Reading/Literacy Education

Requirements for admission to the Master's program in Reading/Literacy Education are a Bachelor's Degree in Education and possess or be eligible for State of Florida professional teaching certificate, pass State of Florida Certification exams, and a 3.0 GPA or higher for the last 60 hours of upper-division coursework.

Entry to Program

Students are encouraged to meet all admission requirements prior to beginning the program; however, students may take a maximum of twelve (12) semester hours of course work applicable to the program prior to admission. Only courses with a grade of "B" or better taken prior to admission can be included.

Admissions Requirements for the MS in Reading/Literacy Education (track: Literacy Studies)

Requirements for admission to the Master's program in Reading/Literacy Education (Literacy Studies track) are a Bachelor's Degree in Education (recommended), or possess a Bachelor's Degree from an accredited university in a related field. A 3.0 GPA or higher for the last 60 hours of upper-division coursework is required.

Entry to Program

Students are encouraged to meet all admission requirements prior to beginning the program; however, students may take a maximum of nine (9) semester hours of course work applicable to the program prior to admission. Only courses with a grade of “B” or better taken prior to admission can be included.

Completion Requirement

Required sequence of courses:

Complete ALL of the following Courses:

- RED6314 - Theory and Instruction in Literacy
- LAE6319 - Instruction in Integrated Language Arts
- LAE5415 - Children's Literature
- RED6336 - Reading in the Content Areas
- EDF5481 - Foundations of Educational Research
- RED6546 - Diagnosis of Reading Difficulty
- RED6747 - Research In Reading
- RED6540 - Reading Assessment
- RED6805 - Practicum In Reading
- RED6247 - Organization and Supervision of Reading Program

Additional Comments:

Graduation Requirements

Students must have a 3.0 GPA to graduate from the program. No grades of “C-“ or less received in courses that are part of a Master’s program of study will be accepted toward graduation. All candidates must pass all sections of the Florida Teacher Certification Exam (FTCE), which includes the General Knowledge (GK), Professional Education and the Reading Subject Area Exams. All MS in Reading/Literacy Education students must have ESOL Endorsement or have taken TSL 5361C prior to graduation. Also, students must demonstrate successful completion of the Florida Educator Accomplished practices. Students must submit evidence of passing all sections of the FTCE exam prior to the end of the final week of the semester in which they are applying for graduation.

Thesis Option

Students may opt to extend the MS program (6 additional thesis credit hours) by request.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

MS in Reading/Literacy Education (track: Literacy Studies)

The Master of Science in Reading/Literacy Education (Literacy Studies Track) offers educators, as well as other community members interested in literacy positions, opportunities to develop knowledge of literacy instruction as well as issues related to literacy across the lifespan. The graduate is knowledgeable of different areas connected to literacy development, including literacy teaching and learning across

Required Electives

Students must complete six (6) credits of advised electives.

RECTOL:CFI - Undergraduate Certificate in Recreational Therapy

Overview

Degree Offered
PCRT - Professional Certificate

Program Title
Undergraduate Certificate in Recreational Therapy

The Undergraduate Certificate in Recreational Therapy is an online self-supporting program designed to meet the workforce development needs of individuals who already have a bachelor's degree and wish to become a Certified Therapeutic Recreation Specialist (CTRS). The CTRS credential is the nationally recognized credential for the provision of quality recreational therapy services. The CTRS credential is earned through the National Council for Therapeutic Recreation Certification (NCTRC). Details regarding the CTRS certification process are available at: www.nctrc.org. This certificate program is open to non-degree seeking students.

Upon completion of this certificate, students could apply for NCTRC's professional eligibility and sit for the NCTRC exam in order to become a CTRS.

Requirements

Simple Requirements

Admissions Requirements

As part of their application, prospective students must submit the following:

(1). Official academic transcripts confirming the completion of a baccalaureate degree from an accredited institution of higher education with a minimum 2.5 overall GPA,

(2). Current resume or curriculum vitae, and

(3). Statement of Purpose.

The faculty director of the program will schedule an interview with all prospective candidates.

Transfer Credits

Admitted students will be allowed to transfer up to 6 credits into the certificate program.

This certificate is open to non-degree-seeking students only.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

This certificate program operates in a cohort model. Students are required to complete 18 credits in one of two tracks:

(1). Certified Therapeutic Recreation Specialist (CTRS) Clinical Experience Track, or

(2). Certified Therapeutic Recreation Specialist (CTRS) Coursework Equivalency Track.

Please see track requirements section below for details.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Certified Therapeutic Recreation Specialist Clinical Experience Track

Type

Completion Requirement

Required Courses: 18 credits

Courses for the CTRS Clinical Experience Track are offered over two consecutive semesters.

Complete ALL of the following Courses:

- LEI4940 - Fieldwork in Rehabilitation and Recreational Therapy
- LEI4941 - Recreational Therapy Internship

Certified Therapeutic Recreation Specialist Coursework Equivalency Track

Type

Completion Requirement

Required Courses: 18 credits

Courses for the CTRS Coursework Equivalence Track are offered over three consecutive semesters.

Complete ALL of the following Courses:

- LEI3400 - Conditions and Diagnoses in Recreational Therapy
- LEI3703 - Introduction to Recreational Therapy
- LEI4705 - Program Planning in Recreational Therapy
- LEI4711 - Assessment and Documentation in Recreational Therapy
- LEI4712 - Evaluation and Evidence-Based Practice in Recreational Therapy
- LEI4724 - Recreational Therapy Modalities and Techniques

RELST:BA - Bachelor of Arts in Religious Studies

Overview

Degree Offered
BA - Bachelor of Arts

Program Title
Religious Studies

The Bachelor of Arts (BA) in Religious Studies serves as a basis for students who wish to pursue the study of religion or theology as a career; for students preparing for a career in counseling, education, business, law, or medicine; or for students who wish to undertake a dual major in a related field of study. The program is designed to allow students to focus either on comparative topics in a critical approach to understanding religious phenomena and their relation to society in a broader cultural context or on the theory and practice of a specific religious tradition in its historical setting.

For more information, visit the Steven J. Green School of International and Public Affairs website.

Admissions Requirements for the Bachelor of Arts (BA) in Religious Studies

See general university admissions requirements at FIU Admissions.

Admissions Requirements for the Combined BA in Religious Studies to Master of Arts (MA) in Religious Studies Accelerated Degree Pathway

To be considered for admission to the bachelor's/master's accelerated degree pathway, students must have completed at least 75 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the accelerated degree pathway; the application is submitted to Graduate Admissions typically before the student starts the last 30 credits of the bachelor's degree pathway.

Admissions Requirements

--Current enrollment in the bachelor's degree program in Religious Studies, or any humanities major that allows at least 12 hours of electives.

--Current GPA must be 3.4 or higher.

--Two letters of recommendation.

--Approval of the Graduate Committee.

--Submission of acceptable writing sample, complete with bibliography, to Turnitin.com.

Program Requirements

Academic Progression Requirements

Students are admitted directly to their chosen major at the university. Students are expected to make good progress based on critical indicators that include course completion and GPA requirements. In cases where students are not making successful progress, a change of major may be required. Academic advisors work with students to identify an appropriate major where a student will be successful in completing an undergraduate degree.

Common Prerequisite Courses

There are no specified common prerequisites for this degree. All Florida College System students are encouraged to take several religion courses with the REL prefix. All are encouraged to complete the Associate in Arts degree. Recommended Courses: Religion, Philosophy, History, and Anthropology.

For information about state-approved common prerequisites and alternatives for other programs, visit https://cpm.flvc.org.

Degree Program Credit Hours: 120

Type

Completion Requirement

Upper-Division Program: 60 credits

Fulfill ALL of the following requirements:

Required Courses: 36 credits

The major in religious studies requires 36 credit hours with a grade of "C" or better.

Fulfill ALL of the following requirements:

Foundation Course: 3 credits

A course that introduces students to the world's great religious traditions as well as various multicultural approaches and interdisciplinary approaches in the study of religion.

Complete ALL of the following Courses:

- REL2300 - Religions of the World

AND

Area Courses: 12 credits

One course in each of the following areas in order to develop an awareness of the breadth of the field and provide a foundation for more specialized studies:

-- Abrahamic Religions

-- Asian Religions

-- Indigenous and Other Religious Traditions

-- Society, Culture and Ethics

Consult with advisor regarding which courses meet each distribution requirement.

AND

Focus Courses: 18 credits

Including at least 12 or more credits in Religious Studies and up to 6 credits in related studies, aimed at building in depth knowledge of a particular area, theme or tradition. Related studies are selected from courses in Art History, English, History, Humanities, International Relations, Philosophy, Psychology, Sociology/Anthropology, or other appropriate departments.

AND

Capstone Course: 3 credits

A senior or capstone seminar covering advanced methodology in the study of religion.

Complete ALL of the following Courses:

- REL4030 - Methods in the Study of Religion

AND

General Electives: 24 credits

The Steven J. Green School of International and Public Affairs and the College of Arts, Sciences, and Education require for the bachelor's degree that a student take at least nine hours outside the major discipline, of which six hours must be taken outside the major department. Students select their required courses in Religious Studies with the approval of the Undergraduate Program Director. Students are also encouraged to consider a dual major (i.e., simultaneously) to meet the requirements of two academic majors.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Honors Program in Religious Studies (BA)

Requirements:

(a) To earn the BA with Honors in Religious Studies, a student must maintain a 3.5 GPA in religious studies courses.

(b) Candidates for the BA with Honors in Religious Studies will complete the same requirements as for the BA major with one exception: among the “Focus Courses,” 21-semester hours of course work will be taken plus 3 semester hours of “Religious Studies Research,” during which a thesis or honors paper will be proposed, researched, written and defended orally.

(c) In the semester prior to graduation, the student will enroll in REL4912 Research Rel Study, in which he/she will expand a term paper into an honors paper/thesis, or will begin a thesis anew, under the direction of an appropriate member of the Religious Studies faculty.

(d) When the thesis is approved by the faculty member, the coordinator of REL4912 Research Rel Study will organize and schedule a defense of the honors paper/thesis, at which time the student will present his/her research and will respond to questions from faculty and students. This requirement will be deemed to have been met upon a majority positive vote of faculty.

(e) The honors paper/baccalaureate thesis normally would be approximately 25-35 pages, must be presented according to FIU regulations (available in the department office), and will be deposited in the FIU Library. The honors paper/thesis must demonstrate that the student has mastered skills in defining a topic, research, and expository writing, as well as oral skills required for the presentation and defense of the honors paper/thesis.

Other Curricular Offering: Combined BA in Religious Studies to MA in Religious Studies Accelerated Degree Pathway

A student admitted to the BA/MA accelerated degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor’s degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Requirements

Completed BA at FIU including:

--REL4931 Rel Studies Seminar Religious Studies Seminar or REL4030 Methods Study Relig Methods in the Study of Religion

At least two of the following three core courses:

--RLG5038 Advanced Fieldwork Advanced Fieldwork in Religious Studies
--RLG6935 Sem Sacred Texts Seminar in Sacred Texts
--RLG6013 Mod Analysis Relign Modern Analysis of Religion

Three or six additional hours of graduate credit in Religious Studies (for majors, graduate level enrollment in three or six hours of Focus Courses) must also be taken as graduate courses. The total number of graduate hours taken concurrently with the BA should be 12 credit hours.

Required for the MA

The remaining core course (if not already taken).

--A four-course track, either in one religious tradition, or one theme across religious traditions, approved by the Graduate Director.

--Six credits of electives selected from the Religious Studies Graduate Course Offerings.

--Six hours of thesis or six additional hours from the Religious Studies Graduate Course Offerings.

All courses must be completed with a grade of “B” or above.

RELST:MA - Master of Arts in Religious Studies

Overview

Degree Offered
MA - Master of Arts

Program Title
Religious Studies

The Master of Arts (MA) in Religious Studies is designed to give students maximum flexibility in pursuing their research interests, while providing a firm foundation in both the general academic study of religion and the student's area of specialization.

For more information, visit the Steven J. Green School of International and Public Affairs website.

Diploma Title
Master of Arts in Religious Studies

Total Credits
36

Program Length in Years Based on Full-Time Enrollment
2

CIP Code
38.0201

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Master of Arts (MA) in Religious Studies

Application to the MA in Religious Studies program is made through FIU's Graduate Admissions Office. The minimum requirements for admission include:

(1) A baccalaureate degree from an accredited college or university.

(2) A graduate degree in the humanities or social sciences from an accredited college or university
or

(3) A score of 156 or higher on the verbal portion of the Graduate Record Examination (GRE)
or

(4) A GPA of 3.25 in the last 60 credits of undergraduate coursework.

A student who does not meet any of these requirements may qualify for admission with a GPA of 3.0 in the last 60 credits of undergraduate coursework and either:

-- A GPA of at least 3.0 in 9 or more hours of graduate study in departmental courses (as a special student, excluding Independent Study courses)

or

-- A score of at least 152 on the verbal portion of the GRE.

(5) International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the iBT TOEFL or 6.5 overall on the IELTS is required.

Applications for admission are evaluated by the Departmental Graduate Studies Committee.

Admissions Requirements for the MA in Religious Studies and PhD in International Relations Joint Degree Pathway

Applicants must meet the following minimum requirements to be considered for admission

(1) Baccalaureate degree from an accredited institution for higher education (or equivalent);

(2) Minimum cumulative grade point average of 3.2 on a 4.0 scale (or equivalent) for the last two years of undergraduate work and/or a GPA of 3.5 on any previous graduate work;

(3) Official Graduate Record Exam (GRE) scores;

(4) Minimum 156 GRE verbal score or a minimum 3.5 on a 4.0 scale (or equivalent) for the last two years of undergraduate work.

(5) International graduate student applicants whose native language is not English and who have not obtained a degree from an English-speaking academic institution are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 90 on the internet-based TOEFL (equivalent to 575 on the paper-based version) or 6.5 overall on the IELTS is required.

Although admissions decisions typically are made in the spring, decisions for students who have not yet received their bachelor’s degree will be conditional, pending confirmation of the bachelor's degree. Meeting the minimum requirements does not guarantee admission into the program. All applications are subject to review by members of the Department of Politics and International Relations and the Religious Studies Department.

Admissions Procedures

To be accepted into this combined degree pathway, students must submit an application to the PhD in International Relations with a sub-plan for the MA in Religious Studies. This designation will appear in the menu of programs in the graduate application. The application must be submitted by January 15 in the year in which they wish to begin their studies.

The following documents must be submitted as part of the on-line application and will be reviewed by the Admissions Committees from both units.

(1) Online application and application fee;

(2) Official transcripts for all undergraduate and graduate coursework;

(3) Official GRE scores;

(4) Official TOEFL scores, if applicable;

(5) A statement of research interests, including reasons for seeking the M.A./Ph.D., future career goals, and a summary of scholarly preparation for this pathway;

(6) Three letters of reference from academic sources or others able to judge academic abilities and potential; and

(7) A curriculum vitae.

Admissions Requirements for the Combined Bachelor of Arts (BA) in Religious Studies to MA in Religious Studies Accelerated Degree Pathway

To be considered for admission to the BA/MA accelerated degree pathway, students must have completed at least 75 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the accelerated degree pathway; the application is submitted to Graduate Admissions typically before the student starts the last 30 credits of the bachelor's degree pathway.

Admissions Requirements

-- Current enrollment in the BA in Religious Studies program, or any humanities major that allows at least 12 hours of electives.

-- Current GPA must be 3.4 or higher.

-- Two letters of recommendation.

-- Approval of the Graduate Committee.

-- Submission of acceptable writing sample, complete with bibliography, to Turnitin.com.

Admissions Requirements for the MA in Religious Studies and PhD in Global and Sociocultural Studies Joint Degree Pathway

Applicants must meet the following minimum requirements to be considered for admission:

(1) Baccalaureate degree from an accredited institution for higher education (or equivalent);

(2) Minimum cumulative grade point average of 3.2 on a 4.0 scale (or equivalent) for the last two years of undergraduate work and/or a GPA of 3.5 on any previous graduate work;

(3) Official Graduate Record Exam (GRE) scores;

(4) International graduate student applicants whose native language is not English and who have not obtained a degree from an English-speaking academic institution are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the internet based TOEFL (equivalent to 550 on the paper-based version) or a 6.5 overall on the IELTS is required.

Admissions Procedures

To be accepted into this combined degree pathway, students must submit an application to the PhD in Global and Sociocultural Studies with a sub-plan for the MA in Religious Studies. This designation will appear in the menu of programs in the graduate application. To be accepted into this pathway, students must submit an application by March 1 in the year in which they wish to begin their studies.

The following documents must be submitted and will be reviewed by the Admissions Committees from both units.

The following must be submitted as part of the online application:

(1) Online application and application fee;

(2) Official transcripts for all undergraduate and graduate coursework;

(3) Official GRE scores;

(4) Official TOEFL scores, if applicable;

(5) Statement of purpose explaining their interest for enrolling in both the MA in Religious Studies program in the Department of Religious Studies and the PhD in Global and Sociocultrual Studies program. The statement of purpose must clearly address the applicant's academic and professional objectives for enrolling in both fields of inquiry. The statement of purpose must also indicate the intended major (anthropology, geography, or sociology) the applicant plans to select while engaged in the Ph.D. in GSS;

(6) Three letters of recommendation from university professors who are able to comment on the various aspects of the student's academic ability;

(7) A curriculum vitae; and

(8) Writing samples and other relevant professional work that may support their applications.

Program Requirements

Degree Program Credit Hours: 36

Type

Completion Requirement

Degree Requirements

Fulfill ALL of the following requirements:

Prerequisite

Complete ALL of the following Courses:

- REL2300 - Religions of the World

To be completed by the end of the first semester of graduate work.

AND

Core Seminars

Complete ALL of the following Courses:

- RLG6935 - Seminar in Sacred Texts
- RLG6013 - Modern Analysis of Religion: Classic Texts in Religious Studies
- RLG5038 - Advanced Fieldwork in Religious Studies

AND

Focus Courses

Four related courses chosen in consultation with the Graduate Program Director.

AND

Thesis/Non-Thesis Options

Either 9 credits of elective courses and a thesis (involving either 6 thesis credits or 3 thesis and 3 independent research credits), or 15 elective credits and no thesis. Students must register with the Department's Graduate Committee for the thesis option or non-thesis option during the semester in which they will complete 12 credits in the program. Registration for the thesis option will require securing the agreement of a member of the graduate faculty to serve as thesis advisor.

Additional Degree Requirements

All courses must be completed with a grade of "B" or higher. The Department of Religious Studies does not regard the non-thesis track as appropriate preparation for further graduate study in Religious Studies.

Major Requirements

All program requirements can be found under the "Program Requirements" section.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Combined BA in Religious Studies to MA in Religious Studies Accelerated Degree Pathway

A student admitted to the accelerated degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Requirements

Completed BA at FIU including:

-- REL4931 Rel Studies Seminar or REL4030 Methods Study Relig

At least two of the following three core courses:

-- RLG5038 Advanced Fieldwork
-- RLG6935 Sem Sacred Texts
-- RLG6013 Mod Analysis Relign

Three or six additional hours of graduate credit in Religious Studies (for majors, graduate level enrollment in three or six hours of Focus Courses) must also be taken as graduate courses. The total number of graduate hours taken concurrently with the BA should be 12 credit hours.

Required for the MA

The remaining core course (if not already taken).

-- A four-course track, either in one religious tradition, or one theme across religious traditions, approved by the Graduate Director.

-- Six credits of electives selected from the Religious Studies Graduate Course Offerings.

-- Six hours of thesis or six additional hours from the Religious Studies Graduate Course Offerings.

All courses must be completed with a grade of "B" or above.

Other Curricular Offering: MA in Religious Studies and PhD in Global and Sociocultural Studies Joint Degree Pathway

The combined MA in Religious Studies/PhD in Global and Sociocultural Studies degree pathway allows qualified graduate students to pursue both degrees at the same time. Students can develop an expertise in Religious Studies while progressing towards a PhD in one of the three majors in the Global and Sociocultural Studies prgram: geography, sociology, or anthropology. The dissertation may be directed by a qualified professor in either department.

Degree Requirements for MA in Religious Studies

The 36 credits earned for the MA in Religious Studies will count towards the 75 credits required for the PhD in Global and Sociocultural Studies.

Religious Studies Core: 9 credits

-- RLG6935 Sem Sacred Texts; 3 credits
-- RLG6013 Mod Analysis Relign; 3 credits
-- RLG5038 Advanced Fieldwork; 3 credits

Courses Required for Global and Sociocultural Studies Track: 12 credits

-- ISS6346 Theory and Inquiry (Fall)
-- ISS6306 Proposal Writing (Spring)
-- ISS6305 Res Meth and Design (Spring)
-- ISS6317 Soc Res Quant Methods I (Fall)

Electives: 9 or 12 credits (depending on exit option)

9 or 12 credits or elective courses from within the Department of Religious Studies.

MA in Religious Studies Exit Options: 6 or 3 credits

Students may choose any of the exit options offered by the Religious Studies degree.

-- RLG 6971 Thesis (minimum 6 credits). See the Religious Studies program description for more information. The thesis is publicly defended and approved by a committee of three graduate faculty members
-- RLG XXXX (3 credits). Preparation of two directed research papers; both require an oral presentation, defense, and approval by a committee of three graduate faculty members;
-- RLG XXXX Internship and major research paper (3 credits). Supervised internship leading to a major research paper based upon the student's work during the internship. The research paper requires an oral presentation and approval by a committee of three graduate faculty members.

School of International and Public Affairs Language Requirement

Students must demonstrate proficiency in a language other than English according to the nature of their thesis or research paper/proposal and professional interests.

Application for Graduation from the MA in Religious Studies Program

Students should apply for graduation from the MA in Religious Studies program as soon as they have completed all requirements for the degree – including the exit option. Ordinarily, the MA will be conferred before the student advances to candidacy for the PhD in Global and Sociocultrual Studies.

Matriculation to the PhD in Global and Sociocultural Studies Program

All students must undergo a successful MA review upon completion of the MA in Religious Studies program requirements in order to continue toward the PhD in Global and Sociocultrual Studies program. The Global and Sociocultural Studies Graduate Committee, along with an appointee from Religious Department, conducts these reviews.

The purpose of the MA review is to determine the ability of the student to do PhD-level work with the department's faculty. Among the information considered during the review are a students overall performance, grades in courses, and faculty recommendations

Degree Requirements for PhD in Global and Sociocultural Studies

The PhD in Global and Sociocultural Studies program requires a minimum of 75 credits beyond the baccalaureate, including a dissertation based on original research. A maximum of 36 credits of the MA in Religious Studies program will count towards the 75-credit minimum. Thus, a minimum of 39 credits must be earned beyond the MA degree.

Major Requirements: 33 credits

All doctoral students will choose a major in Anthropology, Geography, or Sociology. The following distribution of coursework is required.

(a) Major theory (3 credits)

(b) Additional methods (3 credits)

(c) Major course electives (6 credits minimum)

(d) Exam and dissertation credits

-- Doctoral Exam Preparation (6 credits maximum)

-- Doctoral Dissertation (15 credits minimum)

General Electives: 6 credits

Global and Sociocultural Studies and non-Global and Sociocultural Studies department electives

PhD General Examination

After successfully completing the common core requirements, the major's course requirements, and electives, a student prepares for the PhD General Exam by enrolling in a maximum of six credits of exam preparation for their major. In preparation for the exam, a student forms a dissertation committee according to the regulations published on the University Graduate School web page (**http://gradschool.fiu.edu**). The PhD General Exam addresses the student's anticipated dissertation topic and is conducted according to the University Graduate School Policies and Procedures Manual and the Department's PhD General Examination guidelines.

The Dissertation Proposal and Defense/Candidacy Exam

After passing the PhD General Exam, a student works under the guidance of the dissertation committee to prepare a dissertation proposal and defend it orally before the committee. The chair of the dissertation committee must hold Dissertation Advisor Status from the University Graduate School. The proposal defense serves as the doctoral candidacy exam for the PhD in Global and Sociocultural Studies program. Upon passing the proposal defense, a student is admitted to candidacy status.

The Dissertation and Dissertation Defense

After successfully defending a dissertation proposal, a student conducts the proposed research and completes a dissertation under the guidance of a dissertation committee. Only after successfully defending the dissertation proposal may a student register for dissertation hours (ANG 7980, GEO 7980, or SYA 7980). The PhD program requires a student to be continuously enrolled in a minimum of 3 credits of doctoral dissertation each semester from the time of advancement to candidacy until the completion of the dissertation, including summers. Upon completion of the dissertation manuscript and authorization by the committee, a student defends the dissertation before the committee and the university community. The University Graduate School's regulations governing the dissertation are described at **http://gradschool.fiu.edu**.

Other Curricular Offering: MA in Religious Studies and PhD in International Relations Joint Degree Pathway

The combined MA in Religious Studies/PhD in International Relations degree pathway allows qualified graduate students to pursue both degrees simultaneously. Students must fulfill the requirements for both programs, and up to 36 credits completed as part of the MA in Religious Studies will be counted toward the 75 credits required for the PhD in International Relations.

MA in Religious Studies Degree Requirements: 36 credits

-- RLG6935 Sem Sacred Texts: 3 credits
-- RLG6013 Mod Analysis Relign: 3 credits
-- RLG5038 Advanced Fieldwork: 3 credits

Electives approved by the Graduate Program Director: 12 credits

-- RLG6971 Thesis: 6 credits (or 6 additional elective credits)
-- INR5615 Research Design Inr: 3 credits
-- INR5609 Contemp Dynam INR: 3 credits
-- INR6706 Pol Econ Of Int Rel: 3 credits

Students who choose the thesis exit option must include at least one Politics and International Relations faculty member, though the majority must be from Religious Studies.

PhD in International Relations Degree Requirements

Students will begin study towards the PhD in International Relations immediately following their satisfactory completion of the MA in Religious Studies requirements. A minimum of 39 credits beyond the MA in Religious Studies degree will be necessary to satisfy the requirements of the PhD in International Relations program.

Degree Requirements beyond the MA in Religious Studies are the following:

Core Courses: 9 credits

-- GEO6473 Space/Place/Identit Space, Place and Identity: 3 credits
-- INR6604 Intl Rels Theory I International Relations Theory I: 3 credits
-- INR6608 Contemporary IR Theory Contemporary International Relations Theory: 3 credits

12 Major Field credits in either:

(1) Global Institutions and Issues,

(2) Comparative Area Studies,

(3) Foreign Policy and Security Studies, or

(4) International Law.

With advisor approval, these may include 3 credits taken in satisfaction of the requirements for the MA in Religious Studies.

9 Minor Field credits in either:

(1) A second field from the above major field list, or

(2) A field offered within another PhD program at FIU (with approval of the Graduate Program Director), or

(3) A petition field (with approval of the Graduate Program Director).

With advisor approval, these may include 3 credits taken in satisfaction of the requirements for the MA in Religious Studies.

Elective Credits

Elective credits necessary to bring total credits earned beyond the MA in Religious Studies to a minimum of 24.

Dissertation Credits

15 credits of dissertation research.

Comprehensive Exams

After completing 60 hours of course work (or in the semester in which they expect to do so), students may take their written comprehensive examinations on the core sequence and in both of their fields. Students must sit for these examinations within 6 months of completing the minimum 60 credits of coursework unless granted an extension by the International Relations Graduate Program Director. Before advancing to candidacy, students must also demonstrate an ability to use a foreign language other than English for scholarly purposes.

Dissertation

Within 3 months of passing the comprehensive examinations, students should publicly present a dissertation proposal that is acceptable to a committee of at least four qualified scholars. Three members of the committee, including the dissertation supervisor, must be graduate faculty members of the Department of Politics and International Relations. One must be from outside the department, but inside FIU. Other members must be approved by the International Relations Graduate Program Director. To complete program requirements, PhD degree candidates must enroll for a minimum of 15 dissertation credits and maintain enrollment for 3 credits every semester until the degree is awarded.

RHBREC:BS - Bachelor of Science in Rehabilitation and Recreational Therapy

Overview

Degree Offered
BS - Bachelor of Science

Program Title
Rehabilitation and Recreational Therapy

The Bachelor of Science (BS) in Rehabilitation and Recreational Therapy degree prepares students to become competent entry-level rehabilitation professionals. This degree is designed for students who want to pursue a career in recreational therapy or for students interested in pursuing graduate education in other allied health care programs (e.g., physical therapy, occupational therapy, speech-language pathology, nursing, rehabilitation counseling, athletic training, art therapy, music therapy, or child life). A student may elect to gain competencies in the following tracks: Recreational Therapy or Rehabilitation.

For more information, visit the College of Arts, Sciences, and Education website.

Requirements

Simple Requirements

Admissions Requirements

Freshmen students are admitted directly into the program. See general university admissions requirements at admissions.fiu.edu.

To qualify for admission into the program, transfer students must meet all published admission requirements which include: general university requirements for admission and required program prerequisites. Admission for transfer students into the undergraduate program requires a minimum 2.0 grade point average.

Program Requirements

Lower Division

Type
Completion Requirement

Common Prerequisite Courses: 11 credits

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Complete ALL of the following Courses:

- DEP2000 - Human Growth and Development: Introductory Developmental Psychology
- BSC2085 - Anatomy and Physiology I
  AND BSC2085L - Anatomy and Physiology I Lab
- BSC2086 - Anatomy and Physiology II
  AND BSC2086L - Anatomy and Physiology II Lab

The Rehabilitation and Recreational Therapy degree includes, in addition to the common prerequisites, 30 credits of Core courses and the choice of two Tracks: Recreational Therapy and Rehabilitation Therapy.

Rehabilitation and Recreational Therapy Degree Core: 30 credits

Type
Completion Requirement

Required Core Courses

Complete ALL of the following Courses:

- LEI3400 - Conditions and Diagnoses in Recreational Therapy
- HSC3537 - Medical Terminology
- LEI3703 - Introduction to Recreational Therapy
- LEI3707 - Inclusive Recreation Services
- CLP4146 - Psychopathology
- SDS4403 - Facilitative Communication and Helping Skills
- LEI4705 - Program Planning in Recreational Therapy
- LEI4711 - Assessment and Documentation in Recreational Therapy
- LEI4712 - Evaluation and Evidence-Based Practice in Recreational Therapy
- LEI4724 - Recreational Therapy Modalities and Techniques

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Students must choose one of the tracks below to meet the degree requirements.

Recreational Therapy (RT) Track: 30 credits

Type
Completion Requirement

Track Requirements

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- LEI3001 - Leisure and Recreation in America
- LEI3723L - Recreational Therapy Facilitation Techniques and Modalities Lab
- LEI3723L - Recreational Therapy Facilitation Techniques and Modalities Lab
- LEI3723L - Recreational Therapy Facilitation Techniques and Modalities Lab
- LEI4720 - Management and Supervision in Recreational Therapy
- LEI4940 - Fieldwork in Rehabilitation and Recreational Therapy
- LEI4941 - Recreational Therapy Internship

For LEI3723L Rec Therapy Fac Techs Lab, students are required to take the course three times, each on an assigned topic. After this requirement has been met, additional labs can be taken under different topics as electives.

Students must have a 2.5 GPA to enroll in LEI4940 Fieldwork in Rehab & RT and LEI4941 Rec Therapy Internship. LEI4940 Fieldwork in Rehab & RT internship is a 320-hour internship experience. LEI4941 Rec Therapy Internship internship must be an internship experience in accordance with NCTRC standards.

AND

Electives

Students must take three (3) credits of Advisor Approved Electives

Graduation Requirements

A 2.5 GPA is required to graduate from the Recreational Therapy track.

Rehabilitation Therapy Track: 30 credits

Type

Completion Requirement

Track Requirements

Students in this track must complete the required core courses (30 credits) and may take additional electives to apply toward career goals and/or professional/graduate school prerequisites.

SCHPSY:EDS - Education Specialist in School Psychology

Overview

Degree Offered
EDS - Education Specialist

Program Title
School Psychology, Grades PK-12. State Approved Teacher Education Program.

The Education Specialist (EdS) degree in School Psychology prepares students to deliver comprehensive school psychological services within a variety of settings for the purpose of promoting children's educational and psychological development. Graduates of the program are trained in psychoeducational assessment, academic/behavioral intervention, consultation and collaboration, research and evaluation, and legal/ethical decision making. The program aims to produce graduates who are sensitive to individual, and linguistic differences and who value and protect the interests and welfare of those they serve through advocacy. Upon completion of the program, graduates are eligible for state- and national-level certification as school psychologists.

For more information, visit the College of Arts, Sciences, and Education website.

Requirements

Simple Requirements

Admissions Requirements

For admission into the program, students will be required to:

(1) Submit all transcripts,

(2) Have a 3.2 grade-point average in their last 60 semester hours of upper division coursework,

(3) Have a minimum of 15 semester hours of credits in psychology, including research methods or statistics'

(4) Submit a curriculum vitae/resume,

(5) Write an autobiographical sketch (see website for instructions),

(6) Submit a minimum of three letters of recommendation, preferably from faculty/professors

(7) Submit a writing sample if deemed necessary, and

(8) Participate in an interview with the admissions committee.

Not all candidates who meet these minimum criteria are accepted into the program.

For students entering the program with a Master's degree in School Psychology or a related field, the Ed.S. program may accept a maximum of 27 credits, and must be approved by program faculty on an individual basis.

Program Requirements

The program in School Psychology requires a minimum of 73 semester hours and leads to State of Florida certification as a specialist in School Psychology as well as educational requirements for private practice licensure. This program leads to the Educational Specialist Degree.

The competencies to be demonstrated by the student completing this program are derived from the following: behavioral/educational assessment and planning; counseling and home-school consultation and collaboration with teacher, parents, and school staff; crisis intervention; classroom interventions; liaison referral, program development and evaluation; in-service education; community outreach, responsiveness and advocacy.

Program Credit Hours: 73

Type

Completion Requirement

Psychological Foundations: 12 credits

Complete ALL of the following Courses:

- SPS7195 - Child Psychopathology: Assessment and Intervention in the Schools
- EDF6211 - Psychological Foundations of Education
- EDP6276 - Human Development: Childhood and Adolescence
- SPS7176 - Consultation and Assessment Across Populations

Educational Foundations: 6 credits

Complete ALL of the following Courses:

- EDG5414 - Teaching Environments: Instructional Strategies and Classroom Management
- RED6314 - Theory and Instruction in Literacy

Professional School Psychology: 3 credits

Complete ALL of the following Courses:

- SPS6805 - Professional Problems in School Psychology

Assessment: 12 credits

Complete ALL of the following Courses:

- SPS6190 - Academic Assessment and Intervention in the Schools
- SPS6191 - Psycho-Educational Assessment I: Intellectual
- SPS6192 - Psychoeducational Assessment II: Process
  OR SPS6177 - Bilingual Assessment
- SPS6193 - Psycho-Educational Assessment III: Behavior

Interventions: 15 credits

Complete ALL of the following Courses:

- SPS7407 - Behavioral Intervention in the Schools
- MHS5400 - Counseling Skills and Techniques
- SDS6411 - Counseling Children and Adolescents
- SDS5460 - Crisis Intervention in the Schools
- SPS6199 - Family-School Consultation and Collaboration

Research and Measurement Methodology: 11 credits

Complete ALL of the following Courses:

- EDF5481 - Foundations of Educational Research
- EDF6472 - Research Methods in Education: Introduction to Data Analysis
- EDP7058 - Behavioral Intervention Research and Evaluation in Education
- EDF6944 - Research Practicum in Education

Supervised Field Experience: 14 credits

Complete ALL of the following Courses:

- SPS6941 - Supervised Practicum in School Psychology
- SPS6678 - Supervised Field Experience in School Psychology

For SPS 6678, students are required to enter an internship in School Psychology under the supervision of a field based school psychologist for a period of 1200 clock hours. This internship is a full-time, eight hour day, five day week involvement and students entering the program should plan for it during the final stage of their training. At least 600 hours of the internship must be in a setting from kindergarten to grade 12 in a public school. Other approved internship experiences may include private state approved educational programs or other appropriate mental health-related programs or settings for the education of children and youth.

Co-requisites for Non-Education Majors

Students who have an undergraduate degree in an area other than education must complete an additional six (6) credits of professional education courses covering subject are reading competencies and TESOL. These courses are required to meet certification requirements in the state of Florida. Students who completed these certification courses at the undergraduate level will not be required to take them. Listed are the recommended courses:

Complete ALL of the following Courses:

- RED5339 - Subject - Related Reading
- TSL5361C - TESOL for Secondary Teachers

Graduation Requirements

Students must maintain a GPA of at least 3.0 and have a successful demonstration of the Florida Educator Accomplished Practices (FEAPs). Students must also pass the Florida Department of Subject Area Examination in School Psychology and the Professional Education section of the Florida Teacher Certification Exam

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Diploma Title
Doctor of Philosophy in Social Welfare

Total Credits
75

Program Length in Years Based on Full-Time Enrollment
5

CIP Code
44.0701

Requirements

Simple Requirements

Admissions Requirements

Applicants are required to meet the following requirements:

(1) A master’s degree in Social Work from an accredited school of social work, or in a closely related field;

(2) Evidence of superior academic achievement in undergraduate and graduate education, including a 3.0 (upper division) undergraduate GPA and a 3.5 graduate GPA;

(3) Documentation of completion of courses in statistical methods and research methodology with grades of "B" or better;

(4) Three letters of recommendation (two academic and one professional);

(5) Two examples of written scholarly work;

(6) A personal statement describing the applicant’s research interests and career goals;

(7) International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the iBT TOEFL or overall 6.5 on the IELTS is required.

All applicants must be approved by the Doctoral Committee. Applications for Fall semester admission are due by February 15th of the year of application.

Program Requirements

The PhD in Social Welfare is a 75 semester credit hour program comprised of at least 36 hours of required coursework and 15 semester hours of dissertation study. The balance of the hours (prior to dissertation credits) are made up of electives and/or supervised or independent research courses, in consultation with the student's academic advisor. Additional semester graduate credit hours may be drawn from the student's master's degree.

Degree Requirements

(1) Completion of a minimum of 75 credit hours earned beyond the bachelor's degree (at least 36 credit hours of required coursework taken over the first three consecutive semesters following admission, obtaining at least a grade of "B" for each course, and at least 15 dissertation credits following advancement to candidacy); continuous registration for at least 3 credits of dissertation courses during each semester following advancement to candidacy; maintenance of an overall cumulative grade point average (GPA) of at least 3.0;

(2) Filing, before the end of the fourth semester of study, three major papers, each having obtained a grade of at least "B+" from a three-member Doctoral Candidacy committee (this constitutes the Doctoral Candidacy Examination);

(3) Successful defense of a Dissertation Proposal from a duly constituted Dissertation Committee;

(4) Completion of a dissertation under the guidance of the Dissertation Committee;

(5) Successful defense of the dissertation before the Dissertation Committee and the University community;

(6) Obtaining the PhD degree within nine years of admission into the program.

Degree Program Credit Hours: 75

Type

Completion Requirement

Semester I: 12 credits

Complete ALL of the following Courses:

- SOW7216 - Social Welfare Policy
- SOW7406 - History and Systems of Social Work Research
- SOW7492 - Theory Development and Research Methods in Social Welfare
- SOW7916 - Supervised Research

Semester II: 12 credits

Complete ALL of the following Courses:

- SOW7237 - Micro-Practice Theory and Research
- SOW7238 - Macro-Practice Theory and Research
- PHC6091 - Biostatistics 2
- SOW7916 - Supervised Research

An equivalent course can be taken in place of PHC6091 Biostatistics 2.

In place of SOW7916 Supervised Research, students may complete a graduate elective course

Semester III: 12 credits

Complete ALL of the following Courses:

- SOW7936 - Dissertation Seminar in Social Welfare
- SOW7493 - Research Methods in Social Welfare II
- SOW7916 - Supervised Research
- PHC6500 - Foundations of Public Health Practice

PHC6500 Fnd Public Hld Prac is not required for PhD students who (a) have a graduate degree in Public Health, (b) a joint Master of Social Work/Master of Public Health degree, (c) who have already obtained a grade of "B" or better in PHC 6500 at FIU, or (d) have taken an equivalent graduate level course at another university.

In place of SOW7916 Supervised Research, students may complete a graduate elective course.

Semester IV+

Fulfill ANY of the following requirements:

If Doctoral Candidacy attained:

Complete ALL of the following Courses:

- SOW7980 - Ph.D. Dissertation

Note: A minimum of 15 hours required.

OR

If Doctoral Candidacy not attained:

Complete ALL of the following Courses:

- SOW7916 - Supervised Research
  OR SOW6914 - Independent Research

SOCWK:BS - Bachelor of Science in Social Work

Overview

Degree Offered
BS - Bachelor of Science

Program Title
Social Work

The Bachelor of Science in Social Work (BSSW) prepares students for generalist social work practice with individuals, families, groups, communities, and organizations. Students learn to use critical, ethical thinking while engaging, assessing, and intervening with clients. Students approach diverse populations within the ontext of their social environment, advocating for human rights and social, racial, environmental, and economic justice. The program is accredited by the Council on Social Work Education. For more information, visit the School of Social Work website.

Admissions Requirements

Specialized Admissions Requirements for the Bachelor of Science (BS) in Social Work

Prior to enrollment in the upper division in the social work program, students must have:

(1) Completed 60 semester hours of course work or have completed the Associate in Arts degree or its equivalent;

(2) Satisfied general University requirements for admission including the University's Core Curriculum requirements;

(3) Met the University's lower division requirements;

(4) Completed all of the pre-requisite courses or their equivalent with a grade of "C" or higher. These courses include: college-level courses in biology (including coverage of human biology) and statistics, 12 semester hours in the social and behavioral sciences which must include one course each in sociology, psychology, economics and American government.

(5) Achieved a minimum grade point average of 2.5 or higher.

For additional information regarding the undergraduate social work program of study and degree program requirements, contact the School directly.

Transfer Credits

Criteria for considering upper-level transfer credit include: a review of the prior educational institution's catalog description and syllabi of courses put forth for evaluation, status of the prior institutions with CSWE, and date when the course was taken. Courses that were taken six (6) or more years from the time of admission will not be considered eligible for transfer credit.

A "C" grade is required for a course to be considered eligible for transfer credit; and up to 15 credit hours normally can be transferred toward the degree at the discretion of the BSSW Coordinator. More than 15 upper level transfer credits may be awarded by the BSSW Coordinator to those applicants who present a record of previous study in accredited programs acceptable for substitution.

Program Requirements

General Information

The four semester program includes a sequence of academic courses as well as field education under qualified supervision in social service agencies in South Florida. Students are able to engage in practice behaviors that integrate their knowledge from the classroom into their practice in the field. As part of field education, social work students may also participate with students from the Herbert Wertheim College of Medicine and the Nicole Wertheim College of Nursing and Health Sciences in the Green Family Foundation Neighborhood HELP™, an inter-professional team approach in Miami-Dade communities.

Evening and weekend field placements are extremely limited and are granted only as an exception. The School of Social Work is under no obligation to provide such placements. Consequently, practicum placement cannot be guaranteed for students who require evening and weekend placements.

Students should be aware that courses in this program are sequenced. Students must check with their advisors for pre and corequisite courses. Prerequisite course requirements will be enforced. Students will be administratively dropped from courses when they lack the required prerequisite course or courses. A grade of "C" or higher in all courses required for the major is necessary for graduation. A passing grade in field courses is required for continuation in the program. Field courses cannot be repeated.

Given the critical nature of course content covered for students in the first meeting of all social work courses, students may be administratively dropped from a course if they do not attend the first class session.

Students must pass, with at least a "C" grade, each required social work course within two (2) attempts. Dropping a course counts as an attempt.

For planning your program of study, please meet with your academic advisor. Additional information regarding admission requirements for the BSSW program as well as major maps can be found at ***http://mymajor.fiu.edu/browse/470SOCWKBS***.

Policies

Policy Statement for the Employment Setting Practicum

The field education experience is designed to offer students new learning opportunities in new practice settings. It is possible for BSSW students to complete the practicum in their place of employment with the permission of the BSSW Field Coordinator and if all other program requirements are met. Students must follow the policy for the Employment Setting Practicum. Up-to-date details for students are in the BSSW Field Manuals on the website.

Policy Regarding Credit for Life or Work Experience

The School of Social Work does not grant social work course credit (including field) for life experience or work experience.

Academic Progression Requirements

Students admitted to the university are admitted directly to their chosen major. Students are expected to make satisfactory progress based on critical indicators, such as GPA in specific courses or credits earned. In cases where students are not making satisfactory progress, a change of major may be required. Advisors work to redirect students to more appropriate majors when critical indicators are not met.

Lower Division Preparation

Type

Completion Requirement

Common Prerequisite Courses

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Complete ALL of the following Courses:

- POS2041 - American Government
- BSC2023 - Human Biology
- ECO2013 - Principles of Macroeconomics
  OR ECO2023 - Principles of Microeconomics
- DEP2000 - Human Growth and Development: Introductory Developmental Psychology
  OR PSY2012 - Introductory Psychology
- SYG2000 - Introduction to Sociology
  OR SYG2010 - Social Problems

Additional Degree Requirement

Complete ALL of the following Courses:

- STA2122 - Introduction to Applied Statistics (Inactive)

Upper Division Requirements

Type

Completion Requirement

Required Courses: 54 credits

Block I

Complete ALL of the following Courses:

- SOW3113 - The Social Environment and Human Behavior I
- SOW3232 - Social Welfare Policy and Services I
- SOW3203 - Introduction to Social Work
- SOW3403 - Social Work Research
- PHC3101 - Introduction to Public Health

Block II

Complete ALL of the following Courses:

- SOW3100 - The Social Environment and Human Behavior II

- SOW3233 - Social Welfare Policy and Services II
- SOW3313 - Social Work Practice with Families and Individuals
- SOW3620 - Social Work and Human Diversity
- SOW3350 - Interviewing Techniques Lab

Block III

Complete ALL of the following Courses:

- SOW4322 - Social Work Practice with Groups
- SOW4511L - Practicum I
- SOW4522 - Field Seminar I

Plus one upper division 3 credit elective.

Block IV

Complete ALL of the following Courses:

- SOW4332 - Social Work Practice with Communities and Organizations
- SOW4512L - Practicum II
- SOW4523 - Field Seminar II

Plus one upper division 3 credit elective.

SOCWK:MSW - Master of Social Work

Overview

Degree Offered
MSW - Master of Social Work

Program Title
Social Work

The Master of Social Work (MSW) is designed to prepare students for advanced clinical social work practice with individuals, families, and groups. The curriculum applies a biopsychosocial model within the context of a social systems framework to understand client systems, address problems, and develop interventions. The MSW program is ranked among the top 50 public schools of social work by U.S. News & World Report. The program is accredited by the Council on Social Work Education and the curriculum meets the current educational requirements for clinical licensure in Florida. It is a 60 credit-hour program composed of 30-hours of generalist/foundation content followed by 30-hours of clinical specialization courses. For more information, visit the School of Social Work website.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Master of Social Work (MSW)

Applicants to the MSW program are required to meet the minimum standards set forth by the Florida Board of Education, the University, and the School of Social Work. Students must have a GPA of 3.0 or better in all upper-level courses. Application procedures for admission to graduate study are found in the graduate admission section of this catalog. An application to the University, an application to the Social Work MSW program, a personal narrative, and three letters of reference are required for admission. A personal interview may be requested. All applicants are required to have completed college-level courses in biology (including coverage of Human Biology) and statistics and 12 semester hours in the social and behavioral sciences.

In addition to the College and University policies governing transfer credit, the following regulations apply:

(1) Courses taken in a Master of Social Work program, accredited by the Council on Social Work Education (CSWE), in which the applicant was fully admitted, may be transferred up to a maximum of 6 credits hours.

(2) Graduate courses taken in other than CSWE-accredited Social Work programs may not be transferred.

(3) Required specialization courses (6000 level) are not transferable.

Note: The program's policies, requirements, and regulations listed in this catalog are continually subject to review in order to serve the needs of the University's, College's and School's regulatory and accrediting agencies. Changes may be made without advance notice. The curricula described in this catalog are continually subject to review in order to respond to the mandates of the Florida Department of Education, Board of Governors, the legislature, the Council on Education for Public Health, and the Council on Social Work Education. The School makes every effort to minimize the impact of curriculum changes on currently enrolled students by stipulating that students complete the requirements of their degree program in effect at the time of admission or readmission to the program. In the event that this is not possible due to accreditation standards or the deletion of courses, students may be required to complete alternative degree requirements in order to graduate.

Admissions Requirements for the MSW and Juris Doctor (JD) Joint Degree Pathway

Candidates for the pathway must meet the entrance requirements for and be accepted by both the College of Law and the School of Social Work. Both schools must be informed by the student at the time of application to the second school that the student intends to pursue the joint degree pathway.

The joint degree pathway is not open to students who have already earned one degree.

Admissions Requirements for the MSW and MPH (major: Health Promotion and Disease Prevention) Joint Degree Pathway

--Students will need to apply to and be accepted into each degree program separately in order to qualify for the combined degree pathway. Students will have to meet the regular admissions criteria for each program.

--Applicants must be admitted into both programs for the same term in order to proceed in the combined degree program.

--At the time of admission, the student must notify both programs that they are pursuing the combined degree pathway.

--Applicants cannot have any outstanding prerequisites.

Advanced Standing Status

Applicants with a Bachelor of Social Work degree from a program accredited by the Council on Social Work Education (CSWE) within five years prior to matriculation and a minimum of 3.25 GPA (last 60 hours/upper division of undergraduate studies) **may be considered** for Advanced Standing status. Advanced Standing is **not automatically granted**. All students admitted to the MSW program are required to take 30 credit hours of specialization courses in addition to the course in public health unless they have a BSSW/BSW from FIU or another social work program that is accredited by the Council on Education for Public Health (CEPH). Students that fulfill the criteria can take an additional, 3-credit elective in the place of the public health course. Students who are admitted with Advanced Standing status will not be required to take the graduate generalist courses if they earned a "B" or better in the corresponding course(s) at the bachelor's level. No more than two courses below a grade of "B" at the bachelor's level will be considered for admission into Advanced Standing. If admitted, the corresponding first year graduate course(s) will have to be taken in the first semester of enrollment. Students admitted with Advanced Standing status will not be awarded any transfer credit, substitutions, or exemptions.

Admissions Requirements for the MSW (Advanced Standing Status) and Master of Public Health (MPH) (major: Health Promotion and Disease Prevention)Joint Degree Pathway

Admissions Process

--Students will need to apply to and be accepted into each degree pathway separately in order to qualify for the combined degree pathway.

--Applicants must be admitted into both programs for the same term in order to proceed in the combined degree program.

--At the time of admission, the student must notify both programs that they are pursuing the combined degree pathway.

--Applicants cannot have any outstanding pre-requisites.

Admissions Requirements for the MSW (Advanced Standing Status) (Clinical) and MPH (Generalist) Joint Degree Pathway

Admissions Process

--Students will need to apply to and be accepted into each degree program separately in order to qualify for the combined degree program.

--Applicants must be admitted into both programs for the same term in order to proceed in the combined degree program.

--At the time of admission, students must notify both programs that they are pursuing the combined degree pathway with advanced standing in social work.

--Applicants cannot have any outstanding prerequisites.

--Applicants cannot have less than a “B” in any core, social work courses in their undergraduate program

Admissions Requirements for the MSW (Clinical) and MPH (Generalist) Joint Degree Pathway

--Students will need to apply to and be accepted into each degree program separately in order to qualify for the combined degree program. Students will have to meet the regular admissions criteria for each program.

--Applicants must be admitted into both programs for the same term in order to proceed in the combined degree program.

--At the time of admission, the student must notify both programs that they are pursuing the combined degree pathway.

--Applicants cannot have any outstanding pre-requisites.

Program Requirements

School Policies

Field agencies require the disclosure of conviction records for misdemeanors and/or felonies and current screening for drug use. Therefore, students are required to submit to state and federal background checks and drug screening tests prior to the initiation of the practicum. Findings in the background checks and/or drug screenings tests may affect a student’s ability to participate in field internship and, thus, complete the social work program. Students are further advised that Florida and most other states may restrict or deny social work employment and/or licensure for persons with a felony conviction. **Students with a criminal background must consult with the MSW Program Coordinator before continuing in the program.**

Policy Statement for the Employment Setting Practicum

The field education experience is designed to offer students new learning opportunities in new practice settings. It is possible for MSW students to complete the practicum in their place of employment with the permission of the MSW Field Coordinator and if all other program requirements are met. Students must follow the policy for the Employment Setting Practicum.

For additional information regarding the graduate social work program of study and degree requirements, contact the School of Social Work at (305) 348-5880.

Policy Regarding Credit for Life or Work Experience

The School of Social Work does not grant social work course credit (including field) for life experience or work experience.

Academic Progression Requirements

An overall GPA of 3.0 is required for graduation. Any required course in which a student receives a grade lower than "B" must be retaken. (A grade of "B-" is not acceptable.) However, a grade of "B-" in an elective does not have to be retaken. A passing grade in field practicum courses is required for continuation in the program. Field courses cannot be repeated.

Students must successfully pass, with at least a B grade (3.0), each required social work course within two (2) attempts. Dropping a course counts as an attempt.

A student must successfully complete all work applicable to the MSW program within 48 months from initial admission. In unusual circumstances, and if the reasons warrant it, a student may petition the School Director for an extension of the time limit.

Program Information

The Master of Social Work Program at Florida International University is accredited by the Council on Social Work Education (CSWE). The program is grounded in the core competencies set forth by CSWE. Students are expected to meet all core competencies, including generalist and advanced clinical practice behaviors, by the end of their studies. Students are also provided grounding in basic public health knowledge.

All students will be required to acquire or to possess the core competencies in the areas of professional study considered essential in social work education. The knowledge acquired in the professional courses will be applied in supervised field experiences in social service agencies. As part of field education, social work students may also participate with students from the Herbert Wertheim College of Medicine and the Nicole Wertheim College of Nursing and Health Sciences in the Green Family Foundation Neighborhood HELP™, an inter-professional team approach in Miami-Dade communities.

The program offers a specialization in advanced clinical practice and students complete a field practicum program that supports practice in that specialization. With the help of faculty, students will develop individualized programs in the specialization to meet their educational needs, advanced practice behaviors, and contribute to their professional objectives. The program provides a curriculum which meets the current educational requirements for clinical licensure in Florida.

Evening and weekend field placements are extremely limited and are granted only as an exception. The School of Social Work is under no obligation to provide such placements. Consequently, practicum placement cannot be guaranteed for students who require evening and weekend placements.

Program Requirements

The Master of Social Work program is a 60 credit hour program composed of 30 credits of generalist courses followed by 30 credits of specialization courses in the second year. The Master of Social Work for students with Advanced Standing status is composed of 33 credits of specialization courses.

An overall GPA of 3.0 is required for graduation. Any required course in which a student receives a grade lower than "B" must be retaken. (A grade of ‘B-’ is not acceptable.) However, a grade of ‘B-’ in an elective does not have to be retaken. A passing grade in field practicum courses is required for continuation in the program. Field courses cannot be repeated.

Given the critical nature of course content covered for students in the first meeting of all social work courses, students may be administratively dropped from a course if they do not attend the first class session.

Students must successfully pass, with at least a B grade (3.0), each required social work course within two (2) attempts. Dropping a course counts as an attempt.

A student must successfully complete all work applicable to the MSW program within 48 months from initial admission. In unusual circumstances, and if the reasons warrant it, a student may petition the School Director for an extension of the time limit.

Program Credit Hours: 60

Type

Completion Requirement

Block 1 Generalist Courses

Complete ALL of the following Courses:

- SOW5105 - Human Behavior and the Social Environment I
- SOW5235 - Social Welfare Policy and Services I
- SOW5342 - Social Work Practice with Individuals and Families
- SOW5379L - Interviewing Skills Lab
- SOW5404 - Social Work Research Methodology

Blaock II Generalist Courses

Complete ALL of the following Courses:

- SOW5324 - Theory and Practice With Groups
- SOW5629 - Social Work Practice with Diverse Populations
- SOW5532 - Field Practicum I
- SOW5344 - Theory and Practice with Communities and Organizations
- PHC6500 - Foundations of Public Health Practice

(PHC6500 Fnd Public Hld Prac or SOW Social Work Clinical Practice Elective 3 if student has a BSSW/BSW from FIU or a social work program accredited by CEPH).

Block III Specialization Courses

Complete ALL of the following Courses:

- SOW6125 - Human Behavior and the Social Environment II-Psychopathology
- SOW6236 - Social Welfare Policy and Services II
- SOW6435 - Evidence-Based Social Work Practice
- SOW6425 - Clinical Assessment and Intervention Planning
- SOW6533 - Field Practicum II
- PHC6500 - Foundations of Public Health Practice

Block IV Specialization Courses

Complete ALL of the following Courses:

- SOW6351 - Clinical Intervention in Couple and Family Social Work Practice
- SOW6534 - Field Practicum III

Plus two 3 credit Social Work Clinical Practice Electives (6 credits)

Students are required to complete all of the first-year Generalist Courses and be fully admitted to the MSW program before enrolling into any of the 6000 level Specialization courses.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: MSW and JD Joint Degree Pathway

For law students, enrollment in the M.S.W. program is required no later than the completion of 63 credit hours in the J.D. program. For M.S.W. students, enrollment in the J.D. program is required no later than the completion of 30 credit hours in MSW Program.

A student must satisfy the curriculum requirements for each degree before either degree is awarded. The School of Social Work will allow 6 credit hours of approved law courses to be credited toward both the M.S.W. and J.D. degrees. These 6 credit hours of law classes will be in lieu of Social Work electives and must be selected from an approved list of law classes. Reciprocally, law students may receive 9 hours of credit toward the satisfaction of the J.D. degree for courses taken in the M.S.W. curriculum upon completion of the M.S.W. degree curriculum with a grade point average of 3.0 or higher.

A full-time law student enrolled in the joint degree pathway may spend the first year in either the College of Law or the School of Social Work. A part-time law student enrolled in the joint degree pathway may begin the student's studies in either the College of Law or the School of Social Work, but must take the first three semesters of law study consecutively. Students admitted to one school but electing to begin study in the other school under the joint degree program may enter the second school thereafter without once again qualifying for admission so long as they have notified the second school before the end of the first week of the first semester in the second school and are in good academic standing when studies commence in the second school.

A student enrolled in the joint degree pathway will not receive either degree until the student has satisfied all of the requirements for both degrees, or until the student has satisfied the requirements of one of the degrees as if the student had not been a joint degree pathway candidate.

Other Curricular Offering: MSW and MPH (major: Health Promotion and Disease Prevention) Joint Degree Pathway

Type

Completion Requirement

Required Courses Year 1

The MSW/MPH in Health Promotion and Disease Prevention degree pathway is an interdisciplinary, three-year pathway incorporating knowledge and skills from social work and public health with a specialization in clinical social work and Health Promotion and Disease Prevention. The first year will consist of social work courses, followed by

public health courses in the second year, and a combination of social work and public health courses in the final year. The required credits for the pathway would be 90 credits. Any deviation from the course plan set forth by the program will result in the student no longer being a part of the combined degree pathway. A student enrolled in the joint degree pathway will not receive either degree until the student has satisfied all of the requirements for both degrees, or until the student has satisfied the requirements of one of the degrees as if the student had not been a joint degree pathway candidate.

Fulfill ALL of the following requirements:

Fall: 15 credits

Complete ALL of the following Courses:

- SOW5105 - Human Behavior and the Social Environment I
- SOW5235 - Social Welfare Policy and Services I
- SOW5342 - Social Work Practice with Individuals and Families
- SOW5379L - Interviewing Skills Lab
- SOW5404 - Social Work Research Methodology
  OR PHC6706 - Research Methods in Public Health

AND

Spring: 12 credits

Complete ALL of the following Courses:

- SOW5344 - Theory and Practice with Communities and Organizations
- SOW5324 - Theory and Practice With Groups
- SOW5532 - Field Practicum I
- SOW5629 - Social Work Practice with Diverse Populations

AND

Summer (Part 1): 3 credits

Complete ALL of the following Courses:

- SOW6125 - Human Behavior and the Social Environment II-Psychopathology

AND

Summer (Part 2): 3 credits

3 credits of a social work elective

Required Courses Year 2

Fulfill ALL of the following requirements:

Fall: 9 credits

Complete ALL of the following Courses:

- PHC6052 - Biostatistics I
- PHC6602 - Theoretical Foundations of Health Promotion

- PHC6410 - Health Behavior and Public Health

AND

Spring: 9 credits

Complete ALL of the following Courses:

- PHC6315 - Introduction to Environmental Health Sciences
- PHC6000 - Epidemiology I: Introduction to Public Health Epidemiology
- PHC6102 - Health Policy in a Global Context

AND

Summer: 6 credits

Two public health electives (6 credits)

Required Courses Year 3

Fulfill ALL of the following requirements:

Fall (Part 1): 9 credits

Complete ALL of the following Courses:

- PHC6146 - Health Promotion Program Planning and Intervention Design
- SOW6236 - Social Welfare Policy and Services II
- SOW6435 - Evidence-Based Social Work Practice

AND

Fall (Part 2): 3 credits

3 credits of a social work elective

AND

Spring: 9 credits

Complete ALL of the following Courses:

- SOW6425 - Clinical Assessment and Intervention Planning
- SOW6533 - Field Practicum II
- PHC6750 - Program Development and Evaluation in Health Promotion

AND

Summer: 10 credits

Complete ALL of the following Courses:

- PHC6930C - Integrative Seminar in Public Health
- SOW6534 - Field Practicum III

- SOW6351 - Clinical Intervention in Couple and Family Social Work Practice

Additional Comments:

Substitutions

--SOW6533 Field Practicum II may substitute for PHC6945 Practicum in Pub Health with approval from internship coordinator in public health.

--Students may choose to take either PHC6706 Rsch Methods in PH or SOW5404 Sow Resrch Mthd I.

--Students must take two (2) electives in social work and two (2) electives in HPDP. The two (2) social work electives may substitute for the 3rd and 4th HPDP electives usually required.

--MSW/MPH students do not have to take PHC6500 Fnd Public Hld Prac.

Other Curricular Offering: MSW (Advanced Standing Status) and MPH (major: Health Promotion and Disease Prevention) Joint Degree Pathway

Type

Completion Requirement

Required Courses Year 1

The MSW/MPH in Health Promotion and Disease Prevention with Advanced Standing degree pathway will be an interdisciplinary, two-year accelerated pathway incorporating knowledge and skills from social work and public health with a specialization in clinical social work and Health Promotion and Disease Prevention. Only students who already have an undergraduate degree in social work and meet the criteria for the advanced standing MSW may apply to this accelerated pathway. Both the first and second years of the pathway will involve social work and public health courses. Any deviation from the course plan set forth by the program will result in the student no longer being a part of the combined degree pathway. A student enrolled in the joint degree pathway will not receive either degree until the student has satisfied all of the requirements for both degrees, or until the student has satisfied the requirements of one of the degrees as if the student had not been a joint degree pathway candidate.

The required number of credits for the program is 66.

Fulfill ALL of the following requirements:

Fall: 12 credits

Complete ALL of the following Courses:

- SOW6125 - Human Behavior and the Social Environment II-Psychopathology
- PHC6052 - Biostatistics I
- PHC6146 - Health Promotion Program Planning and Intervention Design
- PHC6410 - Health Behavior and Public Health

AND

Spring: 12 credits

Complete ALL of the following Courses:

- PHC6750 - Program Development and Evaluation in Health Promotion
- PHC6000 - Epidemiology I: Introduction to Public Health Epidemiology

- PHC6102 - Health Policy in a Global Context
- SOW6435 - Evidence-Based Social Work Practice

AND

Summer: 9 credits

Two public health electives (total of 6 credits) and one social work elective (3 credits)

Required Courses Year 2

Fulfill ALL of the following requirements:

Fall: 12 credits

Complete ALL of the following Courses:

- SOW6236 - Social Welfare Policy and Services II
- PHC6602 - Theoretical Foundations of Health Promotion
- PHC6315 - Introduction to Environmental Health Sciences
- PHC6706 - Research Methods in Public Health

AND

Spring (Part 1): 6 credits

Complete ALL of the following Courses:

- SOW6425 - Clinical Assessment and Intervention Planning
- SOW6533 - Field Practicum II

AND

Spring (Part 2): 3 credits

3 credits of a social work elective

AND

Summer: 10 credits

Complete ALL of the following Courses:

- PHC6930C - Integrative Seminar in Public Health
- SOW6534 - Field Practicum III
- SOW6351 - Clinical Intervention in Couple and Family Social Work Practice

Additional Comments:

Substitutions

--SOW6533 Field Practicum II may substitute for PHC6945 Practicum in Pub Health with approval from internship coordinator in public health.

--Students must take two (2) electives in social work and two (2) electives in HPDP. The two (2) social work electives may substitute for the 3rd and 4th HPDP electives usually required.

--MSW/MPH students do not have to take PHC6500 Fnd Public Hld Prac.

Other Curricular Offering: MSW (Clinical) and MPH (Generalist) Joint Degree Pathway

Type

Completion Requirement

Required Courses Year 1

The MSW (Clinical)/MPH (Generalist) with Advanced Standing program will be an interdisciplinary, two-year accelerated program incorporating knowledge and skills from social work and public health. Only students who already have an undergraduate degree in social work and meet the criteria for the advanced standing MSW may apply to this accelerated program.

Both the first and second years of the program will involve social work and public health courses.

Any deviation from the course plan set forth by the program will result in the student no longer being a part of the combined degree pathway. A student enrolled in the joint degree pathway will not receive either degree until the student has satisfied all of the requirements for both degrees, or until the student has satisfied the requirements of one of the degrees as if the student had not been a joint degree pathway candidate.

The required number of credits for the pathway is 60.

Fulfill ALL of the following requirements:

Fall: 12 credits

Complete ALL of the following Courses:

- SOW6125 - Human Behavior and the Social Environment II-Psychopathology
- PHC6000 - Epidemiology I: Introduction to Public Health Epidemiology
- PHC6102 - Health Policy in a Global Context
- PHC6315 - Introduction to Environmental Health Sciences

AND

Spring: 12 credits

Complete ALL of the following Courses:

- SOW6435 - Evidence-Based Social Work Practice
- PHC6065 - Public Health Statistics
- PHC6311 - Environmental Health Risk Assessment
- PHC6410 - Health Behavior and Public Health

Summer (Part 1): 3 credits

Complete ALL of the following Courses:

- PHC6536 - Health Demography

AND

Summer (Part 2): 3 credits

3 credits of a social work elective.

Required Courses Year 2

Fulfill ALL of the following requirements:

Fall (Part 1): 9 credits

Complete ALL of the following Courses:

- PHC6055 - Data Management and Epidemiologic Analysis Using SAS/SPSS
- PHC6113 - Community Health Promotion Planning and Research
- PHC6155C - Health Policy Analysis

AND

Fall (Part 2): 3 credits

3 credits of a social work elective

AND

Spring: 6 credits

Complete ALL of the following Courses:

- SOW6425 - Clinical Assessment and Intervention Planning
- SOW6533 - Field Practicum II

AND

Summer: 10 credits

Complete ALL of the following Courses:

- SOW6534 - Field Practicum III
- SOW6351 - Clinical Intervention in Couple and Family Social Work Practice
- PHC6930C - Integrative Seminar in Public Health

Additional Comments:

Substitutions

--SOW6533 Field Practicum II may substitute for PHC6945 Practicum in Pub Health with approval from internship coordinator in public health.

--PHC6155C Health Policy Analysis may substitute for SOW6236 Sw Policy II.

--Students must take two (2) electives in social work. These electives may substitute for the electives in the MPH Generalist.

--MSW/MPH students do not have to take PHC6500 Fnd Public Hld Prac.

Other Curricular Offering: MSW (Clinical) and MPH (Generalist) Joint Degree Pathway

Type
Completion Requirement

Required Courses: 90 credits

The MSW (Clinical)/MPH (Generalist) program is an interdisciplinary, three-year program incorporating knowledge and skills from social work and public health. The combined degree program consists of a combination of social work and public health courses. Any deviation from the course plan set forth by the program will result in the student no longer being a part of the combined degree pathway. A student enrolled in the joint degree pathway will not receive either degree until the student has satisfied all of the requirements for both degrees, or until the student has satisfied the requirements of one of the degrees as if the student had not been a joint degree pathway candidate.

Fulfill ALL of the following requirements:

Year 1 (Fall): 15 credits

Complete ALL of the following Courses:

- SOW5105 - Human Behavior and the Social Environment I
- SOW5235 - Social Welfare Policy and Services I
- SOW5404 - Social Work Research Methodology
- PHC6000 - Epidemiology I: Introduction to Public Health Epidemiology
- PHC6102 - Health Policy in a Global Context

AND

Year 1 (Spring): 12 credits

Complete ALL of the following Courses:

- SOW5342 - Social Work Practice with Individuals and Families
- SOW5379L - Interviewing Skills Lab
- PHC6052 - Biostatistics I
- PHC6410 - Health Behavior and Public Health

AND

Year 1 (Summer-Part 1): 3 credits

Complete ALL of the following Courses:

- PHC6536 - Health Demography

AND

Year 1 (Summer-Part 2): 3 credits

3 credits of a social work elective

Year 2 Required Courses

Fulfill ALL of the following requirements:

Fall: 12 credits

Complete ALL of the following Courses:

- SOW5344 - Theory and Practice with Communities and Organizations
- SOW5629 - Social Work Practice with Diverse Populations
- PHC6113 - Community Health Promotion Planning and Research
- PHC6315 - Introduction to Environmental Health Sciences

AND

Spring (Part 1): 9 credits

Complete ALL of the following Courses:

- SOW5324 - Theory and Practice With Groups
- SOW5532 - Field Practicum I
- PHC6600 - Health Promotion Communication Theory and Design

AND

Spring (Part 2): 3 credits

3 credits of a social work elective

AND

Summer: 6 credits

Complete ALL of the following Courses:

- SOW6125 - Human Behavior and the Social Environment II-Psychopathology
- PHC6055 - Data Management and Epidemiologic Analysis Using SAS/SPSS

Year 3 Required Courses

Fulfill ALL of the following requirements:

Fall: 9 credits

Complete ALL of the following Courses:

- SOW6435 - Evidence-Based Social Work Practice
- PHC6104C - Public Health Management and Leadership
- SOW6236 - Social Welfare Policy and Services II

AND

Spring: 6 credits

Complete ALL of the following Courses:

- SOW6425 - Clinical Assessment and Intervention Planning
- SOW6533 - Field Practicum II

AND

Summer: 10 credits

Complete ALL of the following Courses:

- SOW6534 - Field Practicum III
- SOW6351 - Clinical Intervention in Couple and Family Social Work Practice
- PHC6930C - Integrative Seminar in Public Health

Additional Comments:

Substitutions

--SOW6533 Field Practicum II may substitute for PHC6945 Practicum in Pub Health with approval from internship coordinator in public health.

--Students must take two (2) electives in social work. These electives may substitute for the electives in the MPH Generalist.

--MSW/MPH students do not have to take PHC6500 Fnd Public Hld Prac

SPAN:BA - Bachelor of Arts in Spanish

Overview

Degree Offered
BA - Bachelor of Arts

Program Title
Spanish

The Bachelor of Arts (BA) in Spanish prepares students to join the Spanish community through in-depth observation and practice of the language, linguistics, literature, translation and interpretation, film, and culture.

Admissions Requirements for the Bachelor of Arts (BA) in Spanish

See general university admissions requirements at admissions.fiu.edu.

Admissions Requirements for the Combined BA in Spanish to Master of Arts (MA) in Spanish Accelerated Degree Pathway

To be considered for admission to the bachelor’s/master’s accelerated degree pathway, students must have completed at least 75 credits in the bachelor’s degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the accelerated degree pathway, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor’s degree program.

Admissions Requirements

--Current enrollment in the BA in Spanish at FIU.

--Current GPA must be 3.5 or higher.

--Completed at least 75 credits of course work.

--Two letters of recommendation.

--A writing sample consisting of a research paper in Spanish of analytical nature – preferably a term paper or thesis – on a literary subject.

--A resume.

--A statement of purpose, addressing the candidate's goal and objectives in pursuing a master's degree in Spanish.

--Approval of the Spanish Graduate Committee.

Program Requirements

Academic Progression Requirements

Students admitted to the university are admitted directly to their chosen major. Students are expected to make satisfactory progress based on critical indicators, such as GPA in specific courses or credits earned. In cases where students are not making satisfactory progress, a change of major may be required. Advisors work to redirect students to more appropriate majors when critical indicators are not met.

Lower Division Preparation

Type

Completion Requirement

Common Prerequisites

Complete ALL of the following Courses:

- SPN1130 - Spanish I
- SPN1131 - Spanish II
- SPN2200 - Intermediate Spanish I

Must demonstrate proficiency in the language by testing or completion of the intermediate level. The intermediate level is SPNX220 or equivalent.

Degree Program Credit Hours: 120

Type

Completion Requirement

Degree Requirements

Fulfill ALL of the following requirements:

Required for Major

To undertake the Spanish degree program, a student must demonstrate a proficiency in the language at the intermediate level. This may be done by an examination administered by the Department, or by completing SPN 2201 – *GL* (non-heritage learners) or SPN 2340 (heritage learners).

Complete ALL of the following Courses:

- SPN2201 - Intermediate Spanish II
  OR SPN2340 - Intermediate Spanish for Heritage Speakers

AND

Core Courses: 12 credits

Complete ALL of the following Courses:

- SPN3301 - Advanced Spanish for Non-Heritage Speakers
  OR SPN3343 - Advanced Spanish for Heritage Speakers
- SPN3422 - Advanced Grammar and Composition I
- SPW3130 - Spanish American Literature
- SPW3820 - Peninsular Spanish Literature

(Students who have advanced proficiency in Spanish may replace the six language credits with electives in Spanish at the 3000 or 4000 level with the written permission of their advisors).

AND

Elective Courses: 18 credits

A total of 18 credits from any of the following areas:

1. SPW literature/cinema and SPN culture/cinema
2. Upper division Spanish linguistics
3. Upper division Spanish translation and interpretation
4. Culture-based advanced conversation (SPN3401 Adv Spn Conver/SPN3410 Advan Oral Communic)
5. Upper division Spanish language

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Combined BA in Spanish to MA in Spanish Accelerated Degree Pathway

Type

Completion Requirement

BA in Spanish Requirements: 33 credits

A student admitted to the accelerated degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Overlap

Nine credits will be taken at the 5000 or 6000 level and may be used to satisfy both the bachelor's and master's degree requirements.

Fulfill ALL of the following requirements:

Required Courses for the BA: Part 1

Complete ALL of the following Courses:

- SPN3301 - Advanced Spanish for Non-Heritage Speakers
  OR SPN3343 - Advanced Spanish for Heritage Speakers
- SPN3422 - Advanced Grammar and Composition I
- SPW3820 - Peninsular Spanish Literature
- SPW3130 - Spanish American Literature
- SPN3733 - Introduction to Spanish Linguistics

Notes: Regarding SPN3301 Adv Spn Non-Herit Spks, SPN3343 Adv Spn Herit Spks, SPN3422 Adv Grammar-Comp I: Students who have advanced proficiency in Spanish may replace the six language credits with electives in Spanish at the 3000 or 4000 level with the written permission of their advisors.

Students may take SPN3733 Intro Span Linguistics or an equivalent.

AND

Required Courses for the BA: Part 2

One additional course in Spanish Linguistics (3 credits)

AND

Required Courses for the BA: Part 3

One additional course in Spanish (3 credits) or Spanish American Literature (3 credits)

AND

Electives

12 credits of electives

Required Courses for the MA in Spanish: 33 credits

Fulfill ALL of the following requirements:

Required Courses for the MA: Part 1

Complete ALL of the following Courses:

- SPW5806 - Methods of Literary Research
- FOL5800 - Foreign Language Teaching Methodology

AND

Required Courses for the MA: Part 2

One course in Medieval Spanish Literature (3 credits) or Literature of the Golden Age (3 credits)

AND

Required Courses for the MA: Part 3

One course in Peninsular Spanish Literature of the 19th or the 20th centuries (3 credits)

AND

Required Courses for the MA: Part 4

Two courses in Spanish American Literature (6 credits)

AND

Electives

Six graduate credits of electives, as follows: 3 in Spanish or Spanish American Literature, and 3 from one or more of the following areas: Spanish or Spanish American Literature, Linguistics, Translation/ Interpretation, or Spanish American Culture.

Comprehensive Exams

The comprehensive examinations should be taken the semester immediately following the completion of all course work.

SPAN:MA - Master of Arts in Spanish

Overview

Degree Offered
MA - Master of Arts

Program Title
Spanish

The Master of Arts (MA) in Spanish features a traditional Hispanic Studies degree framework, and an optional Spanish Language Teaching & Applied Linguistics Major—designed to help students excel as both scholars and educators. Through rigorous coursework, cutting-edge research, and practical teaching experiences, participants gain advanced expertise in their chosen specialization.

Requirements

Simple Requirements

Admissions Requirements

Admissions Requirements for the Master of Arts (MA) in Spanish

To be admitted into the Master's degree program, a student must:

(1) Hold a bachelor's degree in Spanish from an accredited university or college. Special cases, such as holders of a degree in a related field, will be evaluated individually by the department.

(2) Applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. FIU only accepts official test scores or official documentation sent directly from the testing agency or organization to meet these requirements:

TOEFL iBT/PBT: 80/550

IELTS: 6.5

Duolingo English Test: 110

(3) Have attained a minimum 3.0 grade point average (B average) during the last two years of her/his undergraduate program as determined by the FIU Graduate Admissions Office.

(4) Demonstrate the ability to speak and write in Spanish with proficiency at a level of advanced high (CEFR C1). And demonstrate the ability to read English with proficiency at a level of advanced high (CEFR C1). Confirmation of proficiency may be necessary; contact the Graduate Program Director. Students may be required to complete certain coursework before beginning graduate study.

(5) Apply to the Graduate Admissions Office for graduate admission and submit the following documentation: (a) two letters of recommendation from former professors, employers, and/or other, (b) a resume or curriculum vitae, (c) a statement of purpose, in English or Spanish, addressing the candidate's goals and objectives in pursuing a master's degree in Spanish, (d) a writing sample in Spanish, preferably a term paper or thesis.

(6) Receive approval of the departmental graduate committee.

Admission is competitive and meeting all minimum requirements does not guarantee automatic entrance into the program.

Admissions Requirements for the Combined Bachelor of Arts (BA) in Spanish to MA in Spanish Accelerated Degree Pathway

To be considered for admission to the bachelor's/master's accelerated degree pathway, students must have completed at least 75 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the accelerated degree pathway, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program.

Admissions Requirements

--Current enrollment in the BA in Spanish at FIU.

--Current GPA must be 3.5 or higher.

--Completed at least 75 credits of course work.

--Two letters of recommendation.

--A writing sample consisting of a research paper in Spanish of analytical nature – preferably a term paper or thesis – on a literary subject.

--A resume.

--A statement of purpose, addressing the candidate's goal and objectives in pursuing a master's degree in Spanish.

--Approval of the Spanish Graduate Committee.

Program Requirements

A maximum of six credits of graduate course work may be transferred into the program from other institutions, subject to the approval of the departmental graduate committee. Six core courses and three elective courses are required at the 5000 and 6000 level. Some courses have prerequisites which do not count toward the degree.

Degree Program Credit Hours: 30

Type

Completion Requirement

Core Courses: 18 credits

Fulfill ALL of the following requirements:

Part I: 6 credits

Complete at least 2 of the following courses:

- FOL5800 - Foreign Language Teaching Methodology
- LIN5636 - Research Methods in Applied Linguistics
- SPW5806 - Methods of Literary Research
- SPW6825 - Literary Theory and Criticism

AND

Part II: 12 credits

- Two Courses in Peninsular Literature (6 credits): Covering topics from Medieval Spanish Literature through the 21st century.
- Two Courses in Spanish American Literature (6 credits): Covering topics from Medieval Spanish Literature through the 21st century.

Electives: 6 credits

A student must take at least six (6) graduate credits of electives in:

Spanish or Spanish American Literature, Linguistics, Translation/Interpretation, or Culture (focused on Spain, Latin America, or Hispanics in the United States)

Graduation Requirements

To receive the MA in Spanish degree, a student must complete all the course work with a 3.0 GPA or higher and receive a minimum grade of "B" in every course. Upon completion of 24 graduate credits (core and elective courses), students will have the option of writing a thesis (equivalent to six credits) or taking two elective courses and writing a research paper. The thesis will be presented to an ad hoc committee chosen by the student and his or her advisor. The research paper must be submitted to a committee of two professors of the department. Upon completion of 30 credits, the student will be required to take Comprehensive Examinations based on completed course work and the department's Graduate Reading List. Students must pass the exams with a minimum grade of "B"; exams may be taken no more than twice.

Master of Arts in Spanish (en route PhD in Spanish option)

Type

Completion Requirement

Degree Requirements

Only students who have been admitted to the PhD in Spanish program without previously receiving an MA in Spanish or Spanish-American literature are eligible to receive the MA in Spanish while enrolled in the PhD program. The Spanish Graduate Committee, who will determine if the student is making satisfactory progress towards the PhD, must approve of this option. Once the requirements have been met, the Graduate Program Director can submit the necessary paperwork to award the MA in Spanish degree. All course work must be taken at FIU, and students must receive a grade of "B" (3.0) or better.

Core Courses: 18 credits

Fulfill ALL of the following requirements:

Part 1: 6 credits

Complete at least 2 of the following courses:

- FOL5800 - Foreign Language Teaching Methodology
- LIN5636 - Research Methods in Applied Linguistics
- SPW5806 - Methods of Literary Research
- SPW6825 - Literary Theory and Criticism

AND

Part II: 12 credits

- Two Courses in Peninsular Literature (6 credits): Covering topics from Medieval Spanish Literature through the 21st century.
- Two Courses in Spanish American Literature (6 credits): Covering topics from Medieval Spanish Literature through the 21st century.

Electives: 6 credits

A student must take at least six (6) graduate credits of electives in:

Spanish or Spanish American Literature, Linguistics, Translation/Interpretation, or Culture (focused on Spain, Latin America, or Hispanics in the United States)

Graduation Requirements

Upon completion of 30 credits, the student will be required to take Comprehensive Examinations based on completed course work and the department's Graduate Reading List. Students must pass the exams with a minimum grade of "B"; exams may be taken no more than twice.

Once the requirements have been met, the Graduate Program Director can submit the necessary paperwork to award the MA in Spanish degree.

Major Requirements

Master of Arts in Spanish Major in Spanish Language Teaching and Applied Linguistics

Type

SPAN:PHD - Doctor of Philosophy in Spanish

Overview

Degree Offered
PHD - Doctor of Philosophy

Program Title
Spanish

The Doctor of Philosophy (PhD) in Spanish is designed to prepare students to become innovative scholars, researchers, and practitioners in literature, culture, applied linguistics, and language teaching. Through two majors, (1) Applied Linguistics & Spanish Language Teaching and (2) Literature & Culture, students engage in rigorous coursework, original research, classroom teaching, and applied projects addressing real-world needs in multilingual and multicultural communities. Graduates are equipped for careers in higher education; language program coordination; curriculum and assessment design; heritage-language and K–16 education; community-engaged research; and other professional sectors where expertise in Spanish, bilingualism, and intercultural communication is essential. For more information, visit the Steven J. Green School of International and Public Affairs website.

Admissions Requirements

Admissions Requirements for the PhD in Spanish

To be admitted to the doctoral program, a student must:

(1) Hold a bachelor’s degree in Spanish from an accredited college or university. Special cases, such as holders of a degree in a related field, will be evaluated individually by the department.

(2) Demonstrate appropriate levels of language proficiency;

-- Spanish: Applicants should demonstrate advanced to superior proficiency in Spanish.

-- English: Applicants should demonstrate advanced proficiency in English. the ability to speak, understand, read, and write in English with native or near-native proficiency.

(3) In addition, applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. Please refer to the Admissions English Proficiency criteria at https://admissions.fiu.edu/international/graduate-school/english-language-proficiency/index.html.

(4) Have attained a minimum 3.0 grade point average ("B" average) during the last two years of her/his undergraduate program as determined by the FIU Graduate Admissions Office. Applicants with a Master's degree are required to have a graduate GPA of 3.5 in all graduate courses.

(5) Apply to the Admissions Office for graduate admission and submit the following documentation: (a) two letters of recommendation from former professors, employers, and/or other, (b) a resume or curriculum vitae, (c) a statement of purpose in English, addressing the candidate's goals and objectives in pursuing a PhD in Spanish degree, (d) a writing sample in Spanish, preferably a term paper or thesis.

(6) Receive approval of the departmental Graduate Studies Committee

Admission is competitive, and meeting all minimum requirements does not guarantee automatic entrance to the program.

Transfer Credits

Students holding Master of Arts in Spanish or Hispanic Studies degree will be considered for admission and some, or all, of their graduate credits may be counted toward the doctoral degree after being evaluated and approved by the Graduate Studies Committee. Students will be able to transfer a maximum of 36 graduate credits from an earned graduate degree.

Program Requirements

Degree Program Credit Hours: 75

Type

Completion Requirement

Core Courses: 9 credits

All core courses must be taken as graduate courses offered by the university and may not be taken as independent studies.

Complete at least 3 of the following courses:

- FOL5800 - Foreign Language Teaching Methodology
- LIN5636 - Research Methods in Applied Linguistics
- SPW5806 - Methods of Literary Research
- SPW6825 - Literary Theory and Criticism

Distribution Requirement: 15 credits

See specific majors below for courses that fulfill the distribution requirements.

Dissertation: 15 credits minimum

Graduation Requirements

To receive a PhD in Spanish, a student must complete all courses with a GPA of 3.0 or higher and receive a minimum grade of "B" in every course.

Before graduation, students must demonstrate a reading knowledge of a language other than English or Spanish, chosen by the student in consultation with their adviser.

Students must complete a **qualifying milestone**, which may take one of two forms, depending on the student's approved plan of study:

Qualifying Examination – A comprehensive written examination designed to assess mastery of major areas of scholarship relevant to the student's field and evaluated by a faculty committee.

Qualifying Project – An original, substantial, and research-based undertaking such as an empirical study, applied research project, or publishable scholarly article, evaluated by a faculty committee.

Students may select only one qualifying milestone to attempt, either the qualifying exam or the qualifying project, and must pass it with a minimum grade of "B." The chosen milestone may be attempted up to two times, and both attempts must be the same option. Students are formally admitted to doctoral candidacy upon successful completion of this milestone. To graduate, students must also (1) demonstrate proficiency in a language other than English and Spanish and (2) write and successfully defend a doctoral dissertation before a committee of three graduate faculty members from the Department of Modern Languages and an FIU graduate faculty member from a different department.

Major Requirements

Major in Applied Linguistics and Spanish Language Teaching

Type

Completion Requirement

Required Courses

The PhD major in Applied Linguistics & Spanish Language Teaching is a bilingual program focused on advanced study in Spanish linguistics, language pedagogy, and applied research. The program offers flexible pathways that accommodate both students interested in academic research and those who are practicing educators and language professionals.

Fulfill ALL of the following requirements:

Distribution Requirement: 15 credits

a. Two courses in Linguistics (LIN)

b. Two courses in Foreign Language Teaching (FOL)

c. One course in Teaching and Learning (TSL)

AND

Electives

Students may choose graduate courses chosen in consultation with their advisors.

Major in Literature and Culture

Type

Completion Requirement

Required Courses

The Literature and Culture major of the PhD in Spanish prepares students for advanced research and university-level teaching in Spanish and Latin American literary and cultural studies. The program offers interdisciplinary training grounded in cultural studies and literary theory and culminates in a doctoral dissertation based on original research.

Fulfill ALL of the following requirements:

Distribution Requirement: 15 credits

a. One course in Medieval or Golden Age Peninsular Spanish Literature

b. One course in Peninsular Spanish Literature of the 18th-21st centuries

c. One course in Colonial/19th century Spanish American Literature

d. One course in 20th century Spanish American Literature

e. One additional course in Spanish American Literature

AND

Electives:

Students may choose from graduate courses chosen in consultation with their advisors.

SPED:BS - Bachelor of Science in Exceptional Student Education

Overview

Degree Offered
BS - Bachelor of Science

Program Title
Exceptional Student Education

The Special Education, Educational Foundations, and Policy major focuses on preparing students to work effectively with individuals with disabilities across a range of professional settings. Students will learn about the specific cognitive, language, and social/emotional developmental needs of individuals with disabilities across the lifespan. Students will select courses within the major that will provide foundational preparation for employment and advanced degrees in areas that serve individuals with special education, including Board Certified Assistant Behavior Analyst (BCaBA), early childhood, policy advocacy, law, business, health services, mental health, and public administration. This degree also provides the foundation for alternative certification in teaching for K-12 settings.

The program is offered in two modalities (in person and fully online).

Admissions Requirements for the BS in ESE (major: Special Education, Educational Foundations, and Policy)

See general university admissions requirements at admissions.fiu.edu.

Program Requirements

Academic Progression Requirements

Students admitted to the university are admitted directly to their chosen major. Students are expected to make satisfactory progress based on critical indicators, such as GPA in specific courses or credits earned. In cases where students are not making satisfactory progress, a change of major may be required. Advisors work to redirect students to more appropriate majors when critical indicators are not met.

Lower Division Preparation

Type
Prerequisite

Common Prerequisite Courses and Equivalencies

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Fulfill ALL of the following requirements:

Common Prerequisites

Complete ALL of the following Courses:

- EDF1005 - Introduction to Education

**EDF1005 Intro To Education requires clinical experience of 15 hours outside of class time.*

Major Requirements

BS in ESE (major: Special Education, Educational Foundations, and Policy)

The Special Education, Educational Foundations, and Policy major focuses on exposing students to individuals with special needs. Students will learn about the specific cognitive, language, and social/emotional developmental needs for individuals with disabilities.

Degree Requirements

--Have 60 credit hours and have completed the University Core/General Education Requirements or have an A.A. degree from a FL public institution;

--Must have a grade of "C" or better in all courses listed in Part I and Part II;

--Meet the general requirements of Florida International University;

--Minimum GPA of 2.0.

Special Education, Educational Foundations, and Policy Major

Type
Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Part I: Professional Education Courses— Foundation of Special Education Courses: 24 Credits

Complete ALL of the following Courses:

- EEX3012 - Educational Needs of Students with Exceptionalities
- EEX3066 - Instructional Practices in Exceptional Student Education I
- EEX3070 - Teaching Students with Exceptionalities in Inclusive Settings
- EEX3221 - Assessment of Students with Exceptionalities
- EEX3280 - Foundations, Programming and Transition Services for Individuals with Disabilities
- EEX3764 - Instructional and Assistive Technology in Special Education
- EEX4601 - Behavioral Approaches to Learning and Classroom Management I
- EEX3113 - Foundations of Speech, Language, and Literacy

AND

Part II: Professional Education Courses — Educational Foundations Courses: 15 Credits

Earn at least 15 credits from the following:

- EDF1005 - Introduction to Education
- EDF2085 - Teaching Diverse Populations
- EDP3004 - Educational Psychology
- EDG3321 - Managing Teaching Environments: Instructional Decisions and Classroom Management
- EDF3251 - Classroom Management
- EDF3430 - Measurement and Evaluation in the Classroom
- EDF3521 - Education In History
- EDF4604 - Cultural and Social Foundations of Education
- EDF4782 - Education Law, Policy, and Social Justice Issues
- EME2040 - Introduction to Educational Technology
- ESE4322C - Secondary Classroom Management
- STA2023 - Statistical Methods

AND

Part III: Elective Courses 21 Credits

This program provides the student with the option to focus on a specific area of interest depending on their career and advanced degree goals. Suggested electives (below) for the program offer a range of content areas for students. Information regarding the Undergraduate Behavior Analysis courses, which also meet elective requirements, can be found below the list of elective courses.

Students should speak with their Advisor in the Student Success and Advising Center for advisement. Advisors can approve other courses to meet the elective requirement.

Earn at least 21 credits from the following:

- CLP4134 - Childhood Psychopathology
- CLP4146 - Psychopathology
- DEP3404 - Psychology of Adulthood
- EEC3403 - Special Needs of Children and Their Families
- EDP3273 - Child Development
- ENC3213 - Professional and Technical Writing
- ENC3354 - Writing as Social Action
- ENC4331 - Writing, Rhetoric, and Community
- IDS3333 - Diversity of Meaning: Language, Culture, and Gender in Society
- LEI3707 - Inclusive Recreation Services
- PAD4046 - Values, Ethics, and Conflict Resolution
- PAD4414 - Personnel Skills for Administrators
- SSE4380 - Developing a Global Perspective
- SOW4932 - Current Topics in Social Work
- WST3106 - Introduction to Global Diversity
- WST4931 - Women in Leadership
- EEC4211 - Integrated Math and Science in Early Childhood
- MAE4310 - Content and Methods of Teaching Elementary Math

- SCE4310 - Content and Methods of Teaching Elementary Science
- SSE4312 - Content and Methods of Teaching Elementary Social Studies
- TSL3080 - ESOL Principles and Practices I
- RED3313 - Language and Literacy Development
- RED4150 - Content and Methods of Teaching Beginning Literacy
- RED4311 - Content and Methods of Teaching Intermediate and Secondary Literacy
- RED4325 - Subject Area Reading

AND

Part IV

For Students interested in completing the coursework needed to become a Board Certified Assistant Behavior Analyst, may visit the following locations:

Department of Psychology Website and Resources:

https://case.fiu.edu/psychology/students/undergraduate/ba-in-psychology/ https://case.fiu.edu/psychology/resources/index.html.

Any courses completed will count toward the BS in ESE: Special Education, Educational Foundations, and Policy elective requirements. Students interested in completing the behavior analysis course sequence should speak with their Advisor in the Student Success and Advising Center for advisement.

Clinical Experiences

Early Clinical Experiences (Field Hours)
Many courses offered by the Department of Teaching and Learning require completion of a specified number of early clinical experiences (field hours) in approved K–12 school settings. Course descriptions identify those courses that include in-school classroom experiences. These experiences offer guided observation and participation under the supervision of a classroom teacher and a faculty member from the School of Education and Human Development.

Fingerprinting Requirements
In accordance with the Jessica Lunsford Act, all students completing field and clinical experiences in Florida must undergo fingerprinting and a background check at their own expense. Placement requests in approved schools require the district's clearance verification. Students will not be allowed to enter a school campus without the necessary clearance.

School Placements
All early clinical experiences (field hours) must be completed at schools with which Florida International University has established affiliation agreements, including but not limited to Miami-Dade County Public Schools and Broward County Public Schools. All placements are coordinated through the FIU Office of Clinical Experiences. Students may not arrange placements independently.

Additional information about clinical experiences (field hours) is available on the FIU Office of Clinical Experiences website.

For questions, contact the FIU Office of Clinical Experiences at 305-348-2082, email ClinicalExperiences@fiu.edu, or visit the Ziff Education Building (ZEB), Room 130.

SPED:MS - Master of Science in Special Education

Overview

Degree Offered
MS - Master of Science

Program Title
Special Education

The Master of Science (MS) in Special Education contains competencies that are an extension and refinement of those developed through an undergraduate special education curriculum. This program provides special education teachers and related professionals with advanced training to reach students with disabilities. Students can concentrate in autism, early childhood special education, or other areas based on consultation with an advisor. Students in the fully online program must concentrate on autism.

For more information, visit the College of Arts, Sciences, and Education website.

Requirements

Simple Requirements

Admissions Requirements

To qualify for admission to the program, students must have the following:

(1) An undergraduate GPA of 3.0 or higher in the last 60 credit hours of undergraduate study.

(2) A bachelor’s degree in Education or a related field from an accredited institution.

(3) Applicants with a non-Education degree must demonstrate teaching experience.

(4) Three letters of recommendation with at least one from an academic source and one from work or volunteer experiences.

(5) A well written autobiographical statement.

Program Requirements

Students must complete 24 credits of core courses and 12 credits from an area of concentration.

Program Credit Hours: 36

Type
Completion Requirement

Required Courses: 24 credits

Complete ALL of the following Courses:

- EDF5481 - Foundations of Educational Research
- EEX6848 - Seminar in Special Education: Issues and Trends
- EEX6535 - Seminar in Special Ed.: Supervision and Leadership
- EEX6912 - Advanced Theory and Research in Special Education
- EEX6765 - Instructional Technology for Special Education
- EEX6228 - Integration of Curriculum, Assessment and Instruction
- EEX6796 - Culturally and Linguistically Diverse Exceptional Learners
- EEX6756 - Working with Families of Students with Disabilities through Collaborative Approaches

**EEX6912 Adv Thy Rsch Sp Ed is a prerequisite for EEX6228 Int Cur Assmt Instr.*

Area of Concentration: 12 credits

Area of concentration may be selected from an endorsement such as Autism Specialization or Early Childhood Special Education, or other areas as planned and approved by student and advisor.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Master of Science in Special Education: Autism Endorsement Specialization - Fully Online

The online Master of Science in Special Education: Autism Endorsement Specialization is completed in one year and consists of six accelerated eight-week terms. Students enroll in 4 courses (12 credits) each semester and complete two courses each 8-week term in the semester.

A total of 36 credit hours is necessary to complete the program. Students must complete 24 credits in the required core detailed above. The area of concentration for this program is Autism Endorsement which consists of 12 credits.

Autism Endorsement Specialization – Fully Online Requirement

Type
Completion Requirement

Autism Courses

Complete ALL of the following Courses:

- EEX5210 - Assessment and Strategies for Students with Autism Spectrum Disorders

SPHPATH:MS - Master of Science in Speech Language Pathology

Overview

Degree Offered
MS - Master of Science

Program Title
Speech Language Pathology

The Master of Science (MS) in Speech-Language Pathology degree program prepares students to identify, assess, and manage a wide range of communication disorders, including speech, language, cognitive, and swallowing disorders. The program curriculum focuses on developing comprehensive treatment plans for patients of all ages who exhibit communication differences and disorders.

For more information, visit the Nicole Wertheim College of Nursing and Health Sciences website.

Diploma Title
Master of Science in Speech Language Pathology

Total Credits
61

Program Length in Years Based on Full-Time Enrollment
3

CIP Code
51.0204

Requirements

Simple Requirements

Admissions Requirements

Applicants for admission to the master's degree program must meet the current FIU minimum standards for admission to graduate school.

(1) A grade point average of 3.0 in the last 60 hours of undergraduate studyBachelor's degree

(2) International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the iBT TOEFL or 6.5 overall on the IELTS is required.

Additionally, the CSD department requires the following for admission to the graduate program:

(1) Departmental application

(2) FIU Graduate School online application

(3) Statement of purpose summarizing skills and interests in the program

(4) Two letters of recommendation from persons with knowledge of academic performance

(5) Bachelor's degree in Communication Sciences and Disorders or completion of the 10 required prerequisite courses.

(6) Students considered for Masters' SLP admission will be invited for an interview and asked to complete a spontaneous writing sample. Accommodations will be made for invited students who are not able to come to campus.

Program Requirements

The Master of Science in Speech-Language Pathology consists of 61 graduate hours. Full time enrollment is required. Students will complete six semesters in the program. Student progress will be monitored each semester by departmental faculty.

An overall GPA of 3.0 is required for graduation. A grade of "B" or higher is required for all courses in the program of study. If a student receives a grade of "B-" or below, then that course must be retaken; however, only two courses can be repeated. Any student who earns a grade of "B-" or lower in more than two courses will be terminated from the program.

Clinical practicum hours will be obtained in a variety of community settings. A minimum of 400 clinical clock hours are required for graduation. Passing the PRAXIS examination (162 passing score) is required for degree completion.

The program of study provides students with theoretical and clinical education to develop the competencies needed to practice as a speech-language pathologist. Upon completion of the master's degree, the graduate will have met all academic and practicum requirements for applying for the Certificate of Clinical Competence awarded by the American Speech-Language-Hearing Association.

The Master of Science (M.S.) in Speech-Language Pathology at Florida International University is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) of the American Speech-Language-Hearing Association, 2200 Research Blvd, Rockville, MD 20850, (301) 296-5700. Please feel free to contact the CAA if you have any questions about accreditation.

Requirements for students without a bachelor's degree in Communication Sciences and Disorders

Type

Prerequisite

Graduate Certificate in CSD: 28 credits

The Department of Communication Sciences and Disorders requires an individual applying for the master's degree to hold a bachelor's degree in communication disorders or its equivalent. An applicant's undergraduate background influences the time necessary to complete the graduate degree, as there are 10 prerequisite courses required for entrance to the graduate program via the Graduate Certificate program in CSD (28 credits). The following courses or their equivalents are required in the Graduate Certificate in CSD.

Complete ALL of the following Courses:

- SPA5262C - Linguistics for Speech-Language Pathology
  OR LIN5018 - Introduction to Linguistics
- SPA5012C - Introduction to Communication Sciences and Disorders
- SPA5009C - Normal Communication Development and Disorders
- SPA5150C - Acoustics of the Sciences of Speech and Hearing
- SPA5035C - Disorders of Hearing and Audiological Sciences
- SPA5051C - Clinical Observation, Management, and Procedures in Communication Disorders
- SPA5102C - Advanced Human Anatomy and Physiology of Mechanisms of Communication
- SPA5102L - Laboratory in Advanced Human Anatomy and Physiology of Mechanisms of Communication
- SPA5113C - Advanced Applied Phonetics

OR LIN5206 - Phonetics
- SPA6322 - Aural Habilitation and Rehabilitation

Program Credit Hours: 61

Type
Completion Requirement

Speech Courses: 18 credits

Complete ALL of the following Courses:
- SPA5204 - Phonological Disord
- SPA5216 - Vocal and Velopharyngeal Disorders
- SPA5225 - Fluency Disorders
- SPA5107 - Neuro Bases Com
- SPA6232 - Neuromotor Communication Disorders
- SPA6565 - Dysphagia

Language Courses: 18 credits

Complete ALL of the following Courses:
- SPA5402 - Lng Lrn Pre Sch Chl
- SPA5403 - Lng Lrn Sch-Age Chl
- SPA6406 - Dual Language Acquisition and Disorders
- SPA6410 - Aphasia and Related Disorders
- SPA6005 - Assessment & Treatment of the Bilingual Child with Communication Disorders
- SPA6479 - Communication Disorders and Aging in a Bilingual Society

Practical Courses: 16 credits

Complete ALL of the following Courses:
- SPA5553 - Differential Diagnosis of Communicative Disorders
- SPA5935L - Pre-Clinic Seminar
- SPA5500 - Basic Clin Prac
- SPA5502 - Clin Prac Int
- SPA6505 - Advanced Clinical Practicum

SPA6505 Adv Clin Prac must be repeated for a total of 12 credits in clinical practice.

Research Options: 9 credits

Complete at least 1 of the following:

Thesis

Complete ALL of the following Courses:
- SPA5805 - Research Methodology in Communication Disorders
- SPA6971 - Master's Thesis

OR

Non-Thesis

Fulfill ALL of the following requirements:

Non-Thesis Courses: 6 credits

Complete ALL of the following Courses:

- SPA5805 - Research Methodology in Communication Disorders
- SPA6930L - Master's Project

Students will enroll in 1 credit of Master's Project per semester in each of their last 3 semesters in the program.

AND

Non-Thesis Electives: 3 credits

The non-thesis option also mandates the selection of 1 of the following elective courses for an additional 3 credits.

Complete at least 1 of the following courses:

- SPA6322 - Aural Habilitation and Rehabilitation
- SPA6254 - Adult Communication Disorders and Cognition
- SPA6559 - Augmentative and Alternative Communication
- SPA6938 - Topics in Speech Pathology

Students who have not taken SPA6322 Aural Rehab via the Graduate Certificate or in their undergraduate CSD program at another university will be required to take this course for the elective requirement.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

SPIRIT:CFI - Undergraduate Certificate in the Study of Spirituality

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in the Study of Spirituality

The Undergraduate Certificate in the Study of Spirituality combines the study of traditional religion-based spirituality and its practical applications for a wide array of fields, including pre-med, pre-law, psychology, nursing, fine and performing arts, business, journalism, education, and a host of other disciplines for which such a credential would be of professional or personal value.

Admissions Requirements

No specific admissions requirements. Contact advisor for additional information.

This certificate is open to degree-seeking students only.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

The Undergraduate Certificate Program in the Study of Spirituality grounds students in these traditional forms of spirituality through a foundation course, **REL3027 Meditation & Mystic**. This course serves as a grounding in the methods pertinent for the study of spirituality, as well as literacy in the world's traditions of spirituality.

The certificate includes four additional courses (12 credits) in both traditional and "applied" spirituality, selected according to a student's professional goals or personal interests, in consultation with a Program Director. Any FIU course with at least one third (1/3) "spirituality-related" content may be substituted with the Director's approval.

Program Credit Hours: 15

Type

Completion Requirement

Foundation Course: 3 credits

Complete ALL of the following Courses:

SPRTEXI:BS - Bachelor of Science in Sport and Exercise Science

Overview

Degree Offered
BS - Bachelor of Science

Program Title
Sport and Exercise Science

The Bachelor of Science (BS) in Sport and Exercise Science provides a rigorous curriculum encompassing applied biomechanics, exercise physiology, nutrition for sport and exercise metabolism, motor control and behavior, and sport psychology. The program prepares graduates for a wide range of careers in exercise, sports medicine, exercise physiology, sport science, human performance, clinical healthcare, and fitness administration. Graduates of this program are equipped to excel in roles such as athletic trainer, physical therapist, sport coach, strength and conditioning coach, exercise physiologist, personal trainer, physician assistant, medical doctor, sport scientist, university professor, and school teacher. Additionally, they are eligible to sit for board exams in personal training, strength and conditioning, and exercise physiology, all of which are accredited and recognized by the National Commission for Certifying Agencies (NCCA).

For more information, visit the College of Arts, Sciences, and Education website.

Program Title
Undergraduate Certificate in Sports Media

The Sports Media Certificate program is a five-course, deep dive into the world of sports journalism complete with learning opportunities in print, visual and audio sports content. While the curriculum is rooted in the foundational principles of sports journalism that span decades, this program will matriculate students from both the Lee Caplin School of Journalism & Media and other non-journalism majors through the pivotal steps which have made the sports media industry what it is today.

Admissions Requirements

This certificate is open to degree-seeking students only.

Sophomore standing and 2.85 cumulative GPA. Students in the Lee Caplin School of Journalism and Media can complete no more than one of the certificates offered by the school. Students may complete a certificate in another academic unit with prior School of Journalism and Media approval.

Program Requirements

Program Credit Hours: 15

Type
Completion Requirement

Students must take all of the following courses:

Complete ALL of the following Courses:

- JOU3313 - Multiplatform Sports Writing
- JOU3317 - Field Reporting for Sports Broadcast
- MMC3113 - Sports Journalism in Contemporary Society
- MMC3451 - Sports Information Research and Data
- RTV3503 - Sports Broadcasting and Performance

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

STATS:MS - Master of Science in Statistics

Overview

Degree Offered
MS - Master of Science

Program Title
Statistics

The Master of Science (MS) in Statistics is primarily an applied statistics program, offering a balance of statistical theory and statistical methodology. The program offers a thesis option and a non-thesis option. The program equips graduates with the necessary skills to work as statisticians, data analysts, or data scientists in various organizations such as academia, medicine, business, or any other firms. The program seeks applicants who are highly motivated with some statistics undergraduate courses. For more information, visit the College of Arts, Sciences, and Education website.

Requirements

Simple Requirements

Admissions Requirements

To be admitted into the program, applicants must meet the university's graduate admission requirements (see Office of Graduate Admissions in this catalog), all the applicants must also meet the following departmental requirements:

(1) Bachelor's degree in statistics, mathematics, or in a related field from an accredited university or college. A bachelor's degree in some other discipline is also acceptable provided the applicant has a suitable mathematics background.

(2) A 3.0 or higher (on a 4-point scale) GPA in mathematics and statistics courses.

(3) Three letters of recommendation from persons familiar with the applicant's academic qualifications.

(4) Applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. Please refer to the Admissions English Proficiency criteria at https://admissions.fiu.edu/international/graduate-school/english-language-proficiency/index.html

(5) Approval of the departmental graduate committee.

Program Requirements

The program offers a thesis option and non-thesis option. The program requires a total of 36 credit-hours as follows: six core courses (18 hours), four elective courses (12 hours), and either a thesis (6 hours) or one additional elective course and a project (6 hours).

Degree Program Credit Hours: 36

Type

Completion Requirement

Core Courses: 18 credits

Complete ALL of the following Courses:

- STA5206 - Design Of Exper I
- STA5236 - Regression Analysis
- STA6246 - Linear Models
- STA6247 - Data Analysis II
- STA6326 - Mathematical Statistics I
- STA6327 - Mathematical Statistics II

Elective Courses: 12 credits

All electives must be approved by the Graduate Program Director.

Complete ALL of the following Courses:

- STA5507 - Nonparametric Methods
- STA5666 - Advanced Statistical Quality Control
- STA5676 - Reliability Engineering (Inactive)
- STA6176 - Biostatistics
- STA6244 - Data Analysis I
- STA6636 - High Dimension Data Analysis
- STA6746 - Multivariate Statistical Analysis
- STA6870 - Time Series Analysis
- STA6930 - Special Topics

Elective courses from outside of the department must be approved by the Graduate Committee (normally at most one course of 3 credits).

Theses Option: 6 credits

Students opting to write a thesis must enroll in STA6971 Thesis Research for a minimum of 6 credit-hours total.

6 credits

Non-Thesis Option: 6 credits

Students who choose the non-thesis option must take STA5906 Independent Study, and take one additional elective course (6 credit-hours total).

6 credits

Graduation Requirements

Students are required to do the following: 1) Maintain a cumulative GPA of 3.0 or higher in all courses, 2) an average grade of “B” or higher in all core courses, with a minimum grade of “C” or higher in each core

course, and 3) a grade of “C” or higher in each concentration or elective course. A candidate who opts to write a thesis must successfully defend the thesis orally in the graduating semester and have the written thesis approved by his/her thesis committee. A candidate who chooses the non-thesis option must complete a supervised project with a summary report and an oral presentation in the presence of at least two faculty in the graduating semester. Students must follow all regulations of the University Graduate School.

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

STEMCE:CFI - Undergraduate Certificate in FIUteach STEM Research, Communication and Education

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
FIUteach STEM Research, Communication, and Education Certificate

This certificate is designed for STEM majors who want to enhance their communication and research skills without pursuing traditional teaching roles. Through hands-on teaching experiences in local secondary schools, students design and teach STEM lessons while conducting student-driven research projects. The program emphasizes data collection, analysis, and effective communication of research findings. Students gain competencies in STEM outreach, education, and research, preparing them for roles in scientific communication, public outreach, and educational program development across various settings, including medicine, industry, and government

Required Courses: 9 credits

Fulfill ALL of the following requirements:

Choose one of the options below:

Complete 1 or more course(s) and earn credits from the following:

- SMT2044 - Combined STEP 1 & 2: Inquiry-Based Approaches and Lesson Design for Teaching

Mathematics and Science
- SMT2661 - Step 1: Inquiry Approaches to Teaching Mathematics and Science
  AND SMT2662 - Step 2: Inquiry-Based Lesson Design in Mathematics and Science

AND

Choose one of the options below:

Complete 1 or more course(s) and earn credits from the following:
- ISC3941 - STEM Research and Communication Internship
  OR ISC3951 - STEM Serv. & Comm. Engage

ISC3941 STEM Rsch/Comm Intern and ISC3951 STEM Service and Community Eng are variable-credit courses. If students choose either one of these courses, they must complete at least 1 credit.

AND

Choose one of the options below:

Complete 1 or more course(s) and earn credits from the following:
- SMT3100 - Knowing, Learning, and Adolescent Development in Mathematics and Science
- SMT4301 - Classroom Management and Interactions in STEM
  OR SMT4664 - Educational Assessment and Project-Based Instruction in Mathematics and Science

Elective Courses: 6 credits

Complete at least 2 of the following courses:
- SCE4194 - Perspectives in Science and Math Education
  OR MAE4394 - Perspectives on Mathematics and Science Education
- MAT3501 - Numbers, Functions and Modeling for Teachers
- BSC3910 - Research Methods in Biological Sciences
  OR CHM3910 - Research Methods in Chemistry
  OR ISC3523 - Research Methods
  OR PHY3018 - Research Methods in Physics
- EDG4007 - Starting Your Journey: Introduction to the Teaching Profession

SUSENV:BA - Bachelor of Arts in Sustainability and the Environment

Overview

Degree Offered
BA - Bachelor of Arts

Program Title
Sustainability and the Environment

The Bachelor of Arts (BA) degree in Sustainability and the Environment is an interdisciplinary degree covering the varied aspects of environmental sustainability and introduces students to the challenges of managing natural resources needed for today while also conserving them for the future. Students will learn about factors that determine the sustainability of human institutions, organizations, cultures, and technologies in different environments. Since sustainability encompasses many areas of academic interest, students are encouraged to also pursue appropriate minors and certificates that will complement the baccalaureate degree.

For more information, visit the College of Arts, Sciences, and Education website.

Admissions Requirements

Admissions Requirements for the Bachelor of Arts (BA) in Sustainability and the Environment

See general university admission requirements at admissions.fiu.edu.

Admissions Requirements for the Combined BA in Sustainability and the Environment to Master of Sceince (MS) in Environmental Studies Accelerated Degree Pathway

To be considered for admission to the combined bachelor’s/master’s degree pathway, students must have completed at least 75 credit hours including all lower division requirements, typically have at least 30 credit hours remaining in the program, and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree pathway; the application is submitted to Graduate Admissions typically before the student starts the last 30 credits of the bachelor’s degree program. Students must apply prior to the semester in which graduate credits will be counted towards the undergraduate degree program.

Admissions Requirements

(1) Current enrollment in the Bachelor's Degree Program in Sustainability and the Environment at FIU.

(2) Completed at least 75 credits of coursework (including UCC), and typically has at least 30 credits remaining.

(3) Completion of all lower division required courses for the Bachelor's degree.

(4) Current GPA of 3.25 or higher.

(5) Three letters of recommendation.

(6) Approval by the Earth and Environment Graduate Committee.

Program Requirements

Common Prerequisite Courses

There are no specified common prerequisites for this degree. For information about state-approved common prerequisites and alternatives for other programs, visit https://cpm.flvc.org.

Lower Division

Type

Completion Requirement

Lower Division Requirements: 14 credits

Complete ALL of the following Courses:

- IDS1273 - First Year Seminar in Sustainability
- ECO2023 - Principles of Microeconomics
- EVR1001 - Introduction to Environmental Science
- EVR1001L - Introduction to Environmental Science Lab
- MAC1105 - College Algebra
- STA2023 - Statistical Methods
  OR STA2122 - Introduction to Applied Statistics (Inactive)
  OR STA3111 - Statistics I

Upper Division

Type

Completion Requirement

Upper Division Core Courses: 13 credits

Complete ALL of the following Courses:

- EVR3326 - Sustainability Principles and Practice
- EVR3740 - Critical Thinking in Sustainability
- EVR4352 - U.S. Environmental Policy
  OR POS4035 - Environmental Politics
  OR EVR4356 - Coastal and Marine Environmental Policy
  OR EVR4112 - Climate Change Policy
- EVR3723 - Natural Resource Valuation and Economics

OR AEB4131 - Farm Economics and Management

Area of Studies: 21-22 credits

Type

Completion Requirement

Area Core Courses

Select one course from each of the lists of required courses offered in all 3 areas – Sustainable Communities, Sustainable Ecosystems and Sustainable Resource Systems.

Fulfill ALL of the following requirements:

Sustainable Communities

Complete at least 1 of the following courses:

- EVR4411 - Human Organizations and Ecosystem Management
- EVR4415 - Population and Environment Issues
- EVR4112 - Climate Change Policy
- EVR4434 - Sustainable Cities

AND

Sustainable Ecosystems

Complete at least 1 of the following courses:

- EVR3011 - Environmental Resources and Pollution
- EVR3013 - Ecology of South Florida
  AND EVR3013L - Ecology of South Florida Lab
- EVR4594 - Analysis of South Florida Ecosystems
- OCE3014 - Oceanography

AND

Sustainable Resource Systems

Complete at least 1 of the following courses:

- EVR3010 - Energy Flow in Natural and Man-made Systems
- EVR4272 - Agroecology
- EVR4274 - Sustainable Agriculture
- GEO3510 - Earth Resources
- AEB4131 - Farm Economics and Management
- EVR4274 - Sustainable Agriculture
- HOS3012 - Introduction to Horticulture Science
  AND HOS3012L - Horticulture Science Lab
- GEO4354 - Geography of the Global Food System
- AEB4131 - Farm Economics and Management
- EVR3163 - Sustainable Forests

- GIS3043C - Introduction to Geographical Information Systems

Courses not selected as a required Area Core Course can be used to satisfy the 12 credits of electives in the appropriate area. A course cannot be used to satisfy more than one requirement.

Electives

Select 12 credits of courses from elective courses in one of the 3 areas of your choice: Sustainable Communities, Sustainable Ecosystems and Sustainable Resource Systems. Credits are encouraged to be taken in the same area to form a cohesive plan of study. Alternatively, courses from different areas may be combined.

Fulfill ANY of the following requirements:

Sustainable Communities

Earn at least 12 credits from the following:

- GIS3043C - Introduction to Geographical Information Systems
- GLY3034 - Natural Disasters
- GLY4881 - Coastal Hazards
- GLY4734 - Changing Coastlines
- MET3103 - Planetary Climate Change
- EVR4434 - Sustainable Cities
- EVR4411 - Human Organizations and Ecosystem Management
- EVR4415 - Population and Environment Issues
- EVR4112 - Climate Change Policy
- EVR4356 - Coastal and Marine Environmental Policy

OR

Sustainable Ecosystems

Earn at least 12 credits from the following:

- EVR3011 - Environmental Resources and Pollution
- EVR3013 - Ecology of South Florida
  AND EVR3013L - Ecology of South Florida Lab
- EVR4594 - Analysis of South Florida Ecosystems
- GLY3039 - Environmental Geology
  AND GLY3039L - Environmental Geology Lab
- OCE3014 - Oceanography
- MET3103 - Planetary Climate Change
- GIS3043C - Introduction to Geographical Information Systems
- GLY4881 - Coastal Hazards
- EVR4323 - Restoration Ecology
  AND EVR4323L - Restoration Ecology Lab
- EVR4910 - Applied Ecology Field Excursion
- EVR4026 - Ecology of Biotic Resources

OR

Sustainable Resource Systems

Earn at least 12 credits from the following:

- EVR3010 - Energy Flow in Natural and Man-made Systems
- EVR4310 - Energy Resources (Inactive)
- GEO3510 - Earth Resources
- EVR4272 - Agroecology

Additional courses may be accepted as electives with permission of the Undergraduate Program Director.

Capstone Sequence: 6 Credits

Type

Completion Requirement

Capstone Requirement

Complete ALL of the following Courses:

- EVR4321 - Sustainable Resource Development
- IDS4232 - Sustainability in Action

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: Combined BA in Sustainability and the Environment to MS in Environmental Studies Accelerated Degree Pathway

The combined BA/MS degree pathway in Environmental Studies allows qualified students to earn both the BA in Sustainability and the Environment and a non-thesis MS in Environmental Studies, in a shorter amount of time than typically required for earning degrees sequentially. The accelerated pathway is designed for highly qualified undergraduate students in the Department of Earth and Environment.

A student admitted to the combined degree pathway will be considered to have undergraduate status until the student applies for graduation from their bachelor’s degree program. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees. Shared credit is limited to formal coursework, exclusive of independent study. Students may not enroll in graduate level classes until provisionally admitted to the graduate program.

Students must apply for the award of their bachelor's degree the semester the degree requirements will be completed.

The bachelor's degree and master's degree cannot be awarded in the same term. No undergraduate credit may count toward the graduate degree.

General Requirements

(1) Meet the requirements of both the BA in Sustainability and the Environment and the non-thesis MS degree in Environmental Studies.

(2) Overlap of programs: Up to 4 courses (12 credits) may be used in satisfying both the BA and MS degree requirements, which must be at the 5000-level or higher.

SUSTC:CFI - Graduate Certificate in Sustainable Communities

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Sustainable Communities

The Graduate Certificate in Sustainable Communities offers students an introduction to the theoretical and methodological tools necessary to critique and conduct research on society/environment interactions. The objective of the certificate is to prepare students to participate in current environmental debates, whether through scholarship and teaching, non-academic professional activities, or activism.

TCHLRN:PHD - Doctor of Philosophy in Teaching and Learning

Overview

Degree Offered
PHD - Doctor of Philosophy

Program Title
Teaching and Learning

The PhD in Teaching and Learning produces research scholars who are well equipped for empirical and systematic examinations of educational theories, strategies, principles, and practices related to the content and organization of teaching and learning. Students will become engaged in studies within broad historical, social, political, economic, linguistic, and intellectual contexts in the United States and abroad. Students who demonstrate ability, industry, and motivation may serve as apprentices to mentors who are established scholars in their fields of study. Under the supervision of a faculty mentor, students engage in a period of extensive study and investigation that culminates in the demonstrations of expertise, creativity, and originality by means of independent research. Students may specialize in one of six program areas: Curriculum, Cultural and Social Studies; Elementary Education and Early Childhood Education; Kinesiology; Language, Literature, Literacy, and Culture; Science, Technology, Engineering and Mathematics (STEM) Education; or Special Education.

For more information, visit the College of Arts, Sciences, and Education website.

Requirements

Simple Requirements

Admissions Requirements

Minimum admissions requirements for the Ph.D. Program in Teaching and Learning are as follows:

(1) A Bachelor’s Degree from an accredited institution in an appropriate area with a 3.0 GPA on a 4.0 scale on the last 60 hours of undergraduate work or a 3.25 GPA in a completed Master’s Degree from an accredited program.

(2) Applicants from non-English speaking countries, including internationally educated American students, must demonstrate proficiency in English. Please refer to the Admissions English Proficiency criteria at https://admissions.fiu.edu/international/graduate-school/english-language-proficiency/index.html.

(3) Three letters of recommendation addressing the applicant’s academic abilities. Letters and any other supporting documents are to be submitted per instructions on the Graduate Admissions portal to complete the application for admissions.

(4) A letter of intent.

(5) An admissions interview by the Teaching and Learning Admissions Committee.

The Teaching and Learning Admissions Committee will review, interview, and make admissions recommendation for each applicant. The GPA and GRE scores stated above are minimum requirements. Meeting the minimum requirements does not guarantee admission.

A maximum of 24 credits from a completed Master's degree in Teaching and Learning or related field from an accredited institution may be applied toward the Ph.D. with advisor's approval.

Program Requirements

General Information

The Ph.D. Degree requires 75 semester hours beyond the bachelor's degree. Students with a master's degree directly related to the area of specialization must complete a minimum of 51 semester hours at FIU beyond their master's degree; this includes 15 hours of Dissertation credits, directed by a qualified graduate faculty dissertation chair in the appropriate area of: Curriculum, Cultural, and Social Studies; Elementary Education and Early Childhood Education; Kinesiology; Language, Literature, Literacy, and Culture; Science, Technology, Engineering, and Mathematics (STEM) Education; or Special Education.

A maximum of 24 credits from a completed Master's degree in Teaching and Learning or related field from an accredited institution may be applied toward the Ph.D. with advisor's approval.

The Ph.D. program of study includes four required components:

--Teaching and Learning Core (9 credits)

--Research Inquiry and Analysis (12 credits)

--Area of Specialization (39 credits)

--Independent Research and Dissertation (15 credits minimum)

Candidacy Examination and Admission to Candidacy

To be admitted to candidacy, a student must complete all coursework. The student must also successfully pass the candidacy examinations covering course work approved by the Program of Study Committee. Candidates then submit copies of a dissertation proposal, which has been approved by the research committee, to the Dean of the School of Education and Human Development and to the Dean of the University Graduate School.

Ed.S. degree en route

Students enrolled in the Ph.D. program may receive an Ed.S. degree in Teaching and Learning en route to their Ph.D. Doctoral students who have advanced to candidacy, are currently enrolled, in good academic standing, and have completed all requirements for the specialist degree can be recommended for the specialist degree with prior departmental approval. If students enter without a master's degree and have completed 36 credit hours within their area of concentration, those students can be recommended for the master's degree with prior departmental approval.

Degree Program Credit Hours: 75

Type

Completion Requirement

Teaching and Learning Core Courses: 9 credits

Complete ALL of the following Courses:

- EDG7923C - Doctoral Seminar in Curriculum Studies
- EDG7362 - Instruction: Theory and Research
- EDG7692 - Theory, Organization, and Policy in Teaching and Learning

Research Inquiry and Analysis: 12 credits

Select **at least 12** credits with approval of Major Professor/Committee on appropriate course selection.

At least **12** semester hours of advanced coursework to include at least one quantitative and one qualitative methods course related to dissertation and the comprehensive exam component on research.

Area of Specialization: 39 credits

Select at least 39 credits with approval of Major Professor/Committee on appropriate course selection.

All courses must be at the 5000 or higher level.

- Curriculum, Cultural, and Social Studies
- Early Childhood Education and Elementary Education
- Kinesiology
- Language, Literature, Literacy, and Culture
- Science, Technology, Engineering, and Mathematics (STEM) Education
- Special Education

Independent Research and Dissertation: 15 credits

The dissertation will demonstrate the student's ability to conduct research of substantial rigor and contribute to advancing the knowledge base and scholarship in an area within the field of Teaching and Learning.

Complete ALL of the following Courses:

- EDG7980 - Ph.D. Dissertation

Add-on Endorsement in ESOL

Individuals who currently hold or are working toward teacher certification in Elementary, English, Foreign Language Education, or Special Education, may be eligible to receive the Add-on Endorsement in ESOL by completing the following set of courses:

Complete ALL of the following Courses:

- EDG5707 - Cultural and Cross-Cultural Studies
- TSL5142 - Curriculum Development in English as a Second Language
- TSL5245 - Developing ESOL Language and Literacy
- TSL5371 - Special Methods of TESOL
- TSL5938 - Principles of ESOL Testing

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Students must complete 39 credits at the 5000 or higher level in one of the following Areas of Specialization:

--Curriculum, Cultural, and Social Studies

--Early Childhood Education and Elementary Education

--Kinesiology

--Language, Literature, Literacy, and Culture

--Science, Technology, Engineering, and Mathematics (STEM) Education

--Special Education

TEAMGT:CFI - Undergraduate Certificate in Team Management

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Team Management

The Undergraduate Certificate in Team Management offers an interdisciplinary approach to team management, combining courses in decision sciences, management, and marketing. Students will gain the practical skills necessary to be effective team members and team leaders, and learn the fundamentals of organizational behavior, problem-solving, decision-making, project management, and leadership. The certificate is open to all degree-seeking undergraduate students.

TESOL:CFI - Graduate Certificate in TESOL (Teaching English to Speakers of Other Languages)

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in TESOL

The TESOL Certificate Program enables teachers to extend their competence in teaching foreign languages, particularly English. Completion of the TESOL Certificate Program qualifies the candidate to receive a Florida State Endorsement in Teaching English to non-Speakers, grades K-12. The program also assists prospective teachers to receive a professional credential that may assist them in successful employment in other countries.

THEA:BA - Bachelor of Arts in Theatre

Overview

Degree Offered
BA - Bachelor of Arts

Program Title
Theatre

The Bachelor of Arts (BA) in Theatre is a versatile and comprehensive liberal arts degree with courses in all the essential aspects of theatre: acting, directing, all areas of design, stage management, playwriting, and technical direction. The impressive balance of academic, design-technical, and performance courses allows the student to be a Renaissance person while focusing on whatever area of theatre that interests them most. This degree prepares students for professional and graduate work in different theatre disciplines, and beyond.

TRNINT:CFI - Undergraduate Certificate in Translation and Interpretation

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Undergraduate Certificate in Translation and Interpretation

The Undergraduate Certificate in Translation and Interpretation is designed to provide the theoretical basis, skills, techniques, and practical experience to prepare FIU students for the field of Translation and Interpreting (English to Spanish). The core courses cover business practices, work opportunities, and ways of entering the profession, as well as the ethics, standards of practice, techniques, and methods of career development in the field. All courses provide extensive practice in all modes of translation and interpretation.

For more information, visit the Steven J. Green School of International and Public Affairs website.

Requirements

Simple Requirements

Admissions Requirements

Students must be fully bilingual in English and Spanish to start the program. There is no entrance or placement exam. Bilingual and advanced language students are encouraged to register directly in the Core Courses, and then decide if they wish to apply for the certificate program. Depending on the student's performance in the Core Courses, the instructor may advise students to take one or more prerequisites, in order to strengthen their weaker language, before taking more advanced courses in Translation and Interpretation.

This certificate is open to degree-seeking and non-degree seeking students.

Program Requirements

Prerequisite Credit Hours: 6

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- ENC3213 - Professional and Technical Writing
- SPN3343 - Advanced Spanish for Heritage Speakers

Others by approval. The prerequisite courses do not count towards the 18 certificate credit requirements.

This certificate program consists of 18 semester credit hours. These same 18 credits may also count as electives for the Spanish major for students pursuing a B.A. in Spanish.

Program Credit Hours: 18

Type

Completion Requirement

Core Courses: 6 credits

Complete ALL of the following Courses:

- SPT3800 - Foundations to Translation Skills
- SPT3812 - Foundations of Interpreting

Required Courses: 12 credits

Complete at least 4 of the following courses:

- SPT4803 - Practica in Legal Translation
- SPT4804 - Practice in Legal Interpretation
- SPT4805 - Translation in Communication Media
- SPT4806 - Oral Skills for Interpreters
- SPT4807 - Prac Business Tran

URBD:MA - Master of Arts in Urban Design

Overview

Degree Offered
MA - Master of Arts

Program Title
Urban Design

The Master of Arts (MA) in Urban Design is a graduate degree that enables students to pursue interdisciplinary studies in advanced environmental urban design. It combines collaborative design instruction, applied research, and knowledge of urban theory, planning, and economics. The program attracts individuals with a Bachelor or Master of Architecture, a Bachelor or Master of Landscape Architecture, a Bachelor or Master of Interior Architecture, a Bachelor or Master of Science or Arts, and a Bachelor or Master of Public Administration. One year of full-time study in residency is required. This degree is not part of the specialized accreditations of the professional architecture degrees in the School of Architecture. For more information, visit the College of Communication, Architecture, and the Arts website.

Admissions Requirements

Admissions Requirements

All applicants must meet University graduate admissions requirements.

Additional Information for Applicants

Students applying to this program should plan for the financial aspects of a design education. This includes the costs of computer hardware, software, travel and field trips, tools and equipment, drawing and modeling supplies. All students must have continued access to a laptop computer by purchasing, leasing, or other arrangements. For further information contact any of the School of Architecture Advisors.

Program Requirements

One year of full-time study in residency is normally required.

Ownership of Student Work

Student work submitted to the department in satisfaction of course or degree requirements becomes the physical property of the department. However, students retain all rights to the intellectual property of such work. This work may include papers, drawings, models, or other materials. The department assumes no responsibility for safeguarding such materials and at its discretion may retain, return, or discard such materials. Students must petition the department in writing for any deviation from these established policies.

Progression Requirements

No grade below a 'C' will be accepted for graduation in required courses or required electives.

Thesis Requirement

Graduate students in the landscape architecture department are required to undertake a Master's Project or a Master's Thesis as part of their course of study at the Department of Landscape Architecture. Selection of Master's Thesis requires departmental approval.

VISART:MFA - Master of Fine Arts in Visual Arts

Overview

Degree Offered
MFA - Master of Fine Arts

Program Title
Visual Arts

The Master of Fine Arts (MFA) in Visual Arts is the terminal degree in Studio Art. It is an intense, production-oriented studio art program directed toward individual development. Through studio-based practice, the MFA curriculum fosters rigorous critical engagement with contemporary and historical cultural art forms focused on what we make, how, and why we make it. This transdisciplinary, transnational program challenges artists to develop a critical body of work through experimentation, research, and exploration. The program facilitates connections to the highest levels of contemporary art and design discourse. Faculty guide artists in their pursuit of sustained and successful careers in the arts that will shape the future of visual culture. The curriculum is designed for maximum flexibility to accommodate those seeking advanced training in a particular studio area and those whose interests may involve media cross-over. Graduates of the program will be prepared for careers as professional artists.

For more information, visit the College of Communication, Architecture, and the Arts website.

Requirements

Simple Requirements

Admissions Requirements

Application to the MFA in Visual Arts is a two-step process.

First, please complete an FIU Graduate Application form that can be completed online via the following link: https://admissions.fiu.edu/how-to-apply/graduate-applicant/index.html. As part of this application, you will need to provide the following:

(1) Successful completion of the bachelor's degree in art or equivalent;

(2) Certified transcripts of all college level work;

(3) Three (3) letters of recommendation from persons who are in a position to evaluate the applicant’s previous professional, academic, and personal performance, and his or her potential for success in the graduate program;

(4) For international and foreign graduated domestic applicants whose language of instruction for the undergraduate degree was not English, an IELTS score of 6.5 or TEOFL score of 550 paper-based/80 internet-based is required; and

(5) Please note that the Department of Art + Art History does not require GRE test scores.

Secondly, please upload the following to SlideRoom (separate nominal fee charged by SlideRoom):

(1) A written statement of intent (no more than 500 words), which should enhance the Graduate Admissions Committee's understanding of the applicant's creative work and outlined plan for its development in the program;

(2) A portfolio that includes 20 images (300 dpi, jpeg format); and

(3) Your CV.

Program Requirements

Degree Program Credit Hours: 60

Type

Completion Requirement

Studio Art Practice- ART + PGY courses (21 credits)

Complete ALL of the following Courses:

- ARH5482 - Graduate Contemporary Art
- ARH5805 - Critical Studies in the Visual Arts
- ART5933C - MFA Critique Seminar
- ART5907C - Directed Study
- ART5938C - Studio Art Pedagogy
- ART6971 - Graduate Prospectus and Exhibition Preparation

Students must enroll in ART 5933C in every Fall and Spring semester during the program (minimum six times/18 credits).

Electives

ARH 5XXX - Art History Electives (6 credits)

Additional Comments:

Academic Progression/Graduation Requirements

A committee will be formed during the second semester of enrollment and will meet periodically to supervise the candidate's progress during the entire period of study.

Upon completion of twenty hours of course work and prior to the completion of thirty hours, the candidate must submit his/her work to the faculty committee, which will determine the student's progress and capability for continued enrollment in the MFA program. This review will focus on issues such as growth of the student's work, the consistency of production at the graduate level, and the demonstrated ability to fulfill the expectations of a graduate degree. All of the student's work completed by this time will be assembled and reviewed and the student will be questioned about specific issues related to his/her work. Successful completion of this examination is prerequisite for continuing as a candidate for the degree.

In the last semester of enrollment, the candidate will present a graduate exhibition to be displayed in the Patricia and Phillip Frost Art Museum at FIU. Each student's committee will conduct an oral examination with the candidate. This will take place in the exhibition space during the display of the candidate's graduate exhibition. It will focus on the exhibition and the development of the candidate's work. This examination must be completed successfully in order for the candidate to be awarded his/her degree.

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

VISPR:CFI - Undergraduate Certificate in Visual Production

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Visual Production

The Undergraduate Certificate in Visual Production is for students who wish to develop visual communication and storytelling skills, including story development and graphic design concepts. Students will learn how to plan, shoot, and edit short videos for digital platforms and explore ways to apply these skills in journalism, public relations, advertising, or television.

For more information, visit the College of Communication, Architecture, and the Arts website.

Admissions Requirements

To officially pursue a certificate(s), students must complete the requisite paperwork. Please visit the Office of Student Services for more information. Students in the Lee Caplin School of Journalism and Media can complete no more than one of the certificates offered by the school. Students may complete a certificate in another academic unit with prior School of Journalism and Media approval.

This certificate is open to degree-seeking students only.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Program Credit Hours: 15

Type
Completion Requirement

Required Courses Part I : 12 credits

Complete ALL of the following Courses:

- MMC3303 - Global Media and Society
- MMC3123 - Writing for Media
- VIC3400 - Visual Design for Globalized Media
- RTV3531 - Multimedia 1

Required Courses Part II: 3 credits

Complete at least 1 of the following courses:

- ADV3008 - Principles of Advertising
- DIG3001 - Introduction to Digital Media
- IDS2301 - How We Know What We Know
- JOU3003 - Introduction to Journalism
- PUR3000 - Principles of Public Relations
- RTV3007 - Introduction to Television

WATRE:CFI - Graduate Certificate in Water, Environment, and Development Studies

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Water, Environment, and Development Studies

The goal of the Graduate Certificate in Water, Environment, and Development Studies is to provide students with a multidisciplinary education in the occurrence, characteristics, and management of water resources in South Florida and internationally. Students will learn about the natural occurrence and dynamics of surface and ground water, the key biological and chemical factors affecting water resource quality, and the fundamental linkages between water and development. The graduate certificate program promotes an integrated understanding of the theoretical and practical elements of water resources management. This certificate program is open to degree-seeking students only.

For more information, visit the College of Arts, Sciences, and Education website.

Admissions Requirements

No specific admissions requirements. Contact advisor for additional information.

This certificate is open to degree-seeking students only.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

The Graduate Certificate Program requires the successful completion of 15 credit hours of graduate course work. Students must maintain an average GPA of 3.0 or above and must earn a “C” or above in all courses counting toward the certificate.

Program Credit Hours: 15

Type

Completion Requirement

Required Courses

All students in the program are required to take the foundation course and at least one course from both the Natural Science and Social Science lists below. The remaining six (6) credits may be satisfied with any combination of approved courses listed below. Additional courses may be considered with the approval of the Certificate Chair.

Fulfill ALL of the following requirements:

Foundation Course

Complete ALL of the following Courses:

- EVR5332 - Integrated Solutions for Water in Environment and Development

AND

Natural Science, Engineering and Public Health

Complete at least 1 of the following courses:

- PCB4301 - Freshwater Ecology
- EVR5219 - Water Resources Assessment
- GLY5245 - Water-Rock Interaction
- GLY5266 - Stable Isotope Biogeochemistry
- PCB5307 - Limnology
- ISC6153 - Environments of a Changing Planet
- GLY5827 - Hydrogeology
- ENV5666 - Water Quality Management
- GLY5754 - Applied Remote Sensing in the Earth Sciences
- CHM5765 - Aquatic Chemistry
- GLY5826 - Hydrogeologic Modeling
- GLY5827 - Hydrogeology
- GLY5828 - Chemical Hydrogeology and Solute Transport
- EVR7056 - GIS in Water Resources
- CWR5125 - Groundwater Hydrology
- CHM6340 - Organic Geochemistry
- CWR5140C - Ecohydrology (Inactive)
- ENV6615 - Environmental Impact Assessment
- GLY6896 - Advanced Topics in Hydrology
- EVR6268 - Remote Sensing in Hydrology
- EVR5069 - Wetland Ecology and Management

An independent study course from other departments may be substituted for EVR 5905

For ENV5517 Des Wstwater Trea, ENV5666 Water Quality Managm, CHM6340 Organic Geochem, and CWR5140C Ecohydrology: Engineering graduate courses are offered for graduate students with a relevant engineering background or other students meeting needed prerequisites and applicable criteria. Students must confirm their eligibility, in advance to any registration, with either the Civil and Environmental Engineering Graduate Program Director and the responsible instructor.

AND

Social Science and Public Health

Complete at least 1 of the following courses:

- CPO5036 - Politics of Development
- SYD5045 - Population and Society
- INR5352 - Environment and Security
- EVR6377 - Natural Resource Conservation and Policy
- ANG5267 - Environmental Anthropology
- INR5409 - International Law I
- SYP5447 - Development and Post-Development
- INR5507 - International Organizations I
- INR5607 - International Relations and Development
- INR6056 - Environment and Development
- SYD6236 - International Migration and Refugees
- PHC6315 - Introduction to Environmental Health Sciences
- PHC6410 - Health Behavior and Public Health
- PHC6520 - Public Health Aspects of Foodborne Diseases

AND

Other Required Courses

May be satisfied with any combination of approved courses from either Natural Science, Engineering and Public Health or Social Science and Public Health.

Earn at least 6 credits

Seminar Requirements

Students are expected to attend at least five seminars during each semester that they are enrolled in the Certificate Program. Early in each semester, students will be provided with a schedule of water-related seminars offered in departments across campus. The departments of Biology, Chemistry and Biochemistry, Civil and Environmental Engineering, Earth and Environment, Environmental and Occupational Health, Global and Sociocultural Studies, and Politics and International Relations each sponsor seminar series that commonly include water-related topics. Students are also required to give a presentation on a water-related theme in a departmental seminar or professional conference.

Additional Comments:

Students obtaining an MS in Environmental Studies and wishing to obtain a graduate Certificate in Water, Environment and Development Studies and to want the above required courses counted for both the Programs must take at least one additional graduate level course in water related fields different from that used to satisfy the MS degree and this Certificate.

WGSTU:CFI - Graduate Certificate in Women's and Gender Studies

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Graduate Certificate in Women's and Gender Studies

The Graduate Certificate in Women's and Gender Studies provides an advanced, interdisciplinary exploration of feminist theory and methodologies. Core coursework emphasizes theoretical perspectives from leading feminist scholars while developing students' specialized skills in research, analysis, communication, and problem-solving for tasks in professional and/or academic careers across sectors like healthcare, education, business and legal professions, psychology and counseling, and international affairs, among many others.

Admissions Requirements

Certificate Requirements

Eligibility:

(1) All graduate students in an M.A. or Ph.D. program at FIU are eligible to apply to this program. The Center for Women's and Gender Studies encourages graduate students from all colleges to participate.

(2) Students with a Baccalaureate degree from an accredited university may be admitted to the graduate certificate program as a non-degree seeking student.

(3) Undergraduate students in their senior year may take graduate level courses to complete their graduate certificate as a post-baccalaureate certificate.

Admissions Requirements

Students applying for the Graduate Certificate in Women's and Gender Studies must meet the following requirements for admission in addition to submitting the application:

(1) Hold a bachelor's degree or equivalent from an accredited college or university;

(2) Have a minimum GPA of 3.0 on a 4.0 scale during the last two years of upper division coursework;

(3) Statement of intent;

(4) Current resume;

(5) Official academic transcript.

This certificate is open to both degree and non-degree seeking students.

Prerequisites

Contact advisor for information about any prerequisites.

For more information, please visit our website at: **http://cwgs.fiu.edu/**

Program Requirements

Certificate candidates must complete a total of 15 credit hours at the **5000 level or higher.** Students must maintain an average GPA of 3.0 or above and must earn a “C” or above in all courses counting toward the certificate. **6** credit hours from the core requirements + **9** credit hours from the list of graduate level electives = 15 credit hours.

Program Credit Hours: 15

Type

Completion Requirement

Core Requirements: 6 Credits

Choose two of the following courses of from any other graduate level WST courses:

Complete at least 2 of the following courses:

- WST5116 - Gender Violence and the Law: Global Perspectives
- WST5507 - Feminist Theory
  OR LIT5556 - Feminist Theory (Inactive)
- WST5618 - Gender and Genocide
- WST5935 - Special Topics
- WST5946 - Women's Studies Internship
- WST5936 - Women in Leadership
- WST5905 - Independent Study

Graduate Level Electives: 9 Credits

Choose from approved list of graduate level Women’s and Gender Studies electives. These include:

Complete at least 3 of the following courses:

- EDH6050C - Women and Higher Education
- EDH7931 - Seminar on Class, Gender and Race in Higher Education
- INR5088 - Feminism and International Relations
- LBS5155 - Workplace Diversity
- LBS5215 - Women in the Workplace
- SYD5708 - Advanced Race, Gender, Sexuality: Entanglements Across Time and Space

For more options, please see our current full list of approved courses on our website: **http://cwgs.fiu.edu/**.

Students may apply up to three credit hours of thesis or dissertation research to the certificate if the research has a prominent focus on women and gender.

WGSTUD:BA - Bachelor of Arts in Women's and Gender Studies

Overview

Degree Offered
BA - Bachelor of Arts

Program Title
Women's and Gender Studies

The Bachelor of Arts (BA) degree in Women's and Gender Studies prepares students to navigate and succeed in various professional settings by applying interdisciplinary understanding**s** of gendered experiences, and perspectives across local, national, and international contexts. Students have the opportunity to choose coursework from three major areas: (1) Arts & Humanities (2) Health, Society & Violence Prevention (3) Research & Internships. Students develop the knowledge base and gain practical experience needed in psychology**,** healthcare, education, social work, law, and other fields. Graduates will be equipped with strong writing, research, data analysis, and digital literacy skills.

This BA degree allows students to design a program that aligns with their academic interests and professional goals. The degree may be taken face to face or fully online. Women's and Gender Studies is available as a Dual Degree or Second Major (WGSTUD:SM). In addition, CWGS offers the following certificates: WGSTUD:CFI, QURST:CFI, HLTHUM:CFI, and GVILP:CFI.

For more information, visit the Women's and Gender Studies website at cwgs.fiu.edu.

Admissions Requirements for the Bachelor of Arts (BA) in Women's and Gender Studies

See general university admissions requirements at admissions.fiu.edu.

Admissions Requirements for the 4+1 BA in Women's and Gender Studies to Master of Arts (MA) in African and African Diaspora Studies Accelerated Degree Pathway

To be considered for admission to the Accelerated (4+1) BA in WGS/MA in AADS Degree Pathway, students must have completed 75 credits toward the Bachelor’s degree in WGS.

Students may apply as early as the end of their sophomore year. Students need only apply once to the Accelerated (4+1) BA/MA Degree Pathway, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. Advisors can assist with this process.

Admissions Requirements

(1) Current enrollment in the Bachelor's degree program in Women's and Gender Studies.

(2) Current GPA of 3.2 or higher

(3) Students meet all other admissions criteria for the graduate degree program in AADS.

(4) International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IFLTS) A total score of 80 on the IBT TOEFL or 6.3 on the IETS is required.

Program Requirements

Common Prerequisite Courses

No specific courses required; all students transferring from Florida community colleges are encouraged to complete the Associate in Arts degree.

For a list of all state-approved common prerequisites, including alternatives, visit https://cpm.flvc.org.

Academic Progression Requirements

Students admitted to the university are admitted directly to their chosen major. Students are expected to make good progress based on critical indicators, such as GPA in specific courses or credits earned. In cases where students are not making good progress, a change of major may be required. Advisors work to redirect students to more appropriate majors when critical indicators are not met.

Degree Program Hours: 120

Type

Completion Requirement

Upper Division Credit Hours: 30

The major requires 30 hours of 3000- or 4000-level courses, distributed in the areas below.

- **Two WST courses (6 credits) – choose** from Area I (Arts & Humanities) and/or Area II (Health, Society & Violence Prevention)
- **Seven courses (21 credits) – choose any course** from Areas I and/or II, or any WST course to satisfy this requirement
- **One course (3 credits) –** choose from Area III (Research & Internships)

Select two (2) WST courses and seven (7) additional courses (any discipline) from Area I and/or Area II

All courses in the major must be completed with a grade of "C" or better.

Student programs are coordinated with a designated Women's and Gender Studies advisor.

Fulfill ALL of the following requirements:

Area I: Arts & Humanities

Complete ANY of the following Courses:

- WST3015 - Introduction to Global Gender and Women's Studies
- WST3120 - Global Women's Writing: Gendered Experiences Across Societies and Cultures

- WST4940 - Women's Studies Internship

**WST4940 Women Studies Intern: Must be approved by the director. Please visit our website at http://cwgs.fiu.edu} for eligibility criteria and application procedures.*

**WST4905 Independent Study: Off-campus, local, and international locations will be considered.*

Note: In addition to the courses listed above, other classes with sufficient women's and gender studies content may be accepted at the discretion of the program director.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

Other Curricular Offering: 4+1 BA in Women's and Gender Studies to MA in African and African Diaspora Studies Accelerated Degree Pathway

The Accelerated (4+1) BA in WGS /MA in AADS Degree Pathway allows qualified students to earn both their Bachelor's and MA degrees in a shorter amount of time than typically required for earning degrees sequentially. A student admitted to the Accelerated (4+1) BA/MA Degree Pathway will be considered to have undergraduate status until the student applies for graduation from the WGS Bachelor's degree program. No undergraduate credit may count toward the graduate degree. Upon conferral of the Bachelor's degree, students will be granted graduate status and be eligible for graduate assistantships. Only 5000 level or higher courses with at least 50% gender studies content, and no more than four courses (12 credits), may be applied toward both degrees.

General Requirements

The FIU Bachelor's degree in Women's and Gender Studies must be awarded before the Master's degree in African and African Diaspora Studies.

More information about graduate-level requirements is available on the AFNWST:MA catalog page.

WGSTUD:CFI - Undergraduate Certificate in Women's and Gender Studies

Overview

Degree Offered
ACRT - Academic Certificate

Program Title
Certificate in Women's and Gender Studies

The Undergraduate Certificate in Women's and Gender Studies, provides students an interdisciplinary understanding of women's experiences, contributions, and perspectives across historical, cultural, national, and global contexts through coursework that develops feminist theoretical knowledge, critical analysis skills, as well as visual and digital literacies. Certificate holders will be prepared to apply these competencies in a variety of professional settings that value strong research, writing, and analytical abilities. XAEROEG:MN - Minor in Aerospace Engineering

Overview

Program Title
Aerospace Engineering - Minor

This minor provides students the opportunity for study in the area of Aerospace Engineering .

Academic Group
College of Engineering and Computing

Total Credits	Program Length in Years Based on Full-Time Enrollment	CIP Code
17	0	14.1901

Requirements

Simple Requirements

Admissions Requirements

Fully enrolled non-Mechanical Engineering undergraduate students, who have at least a junior status with a cumulative FIU Grade Point Average of 2.2 or better, may apply to the Department of Mechanical and Materials Engineering to request a minor in Aerospace Engineering.

Program Requirements

Program Credit Hours: 17

Type
Completion Requirement

Program Requirements

To earn a minor in Aerospace Engineering students must complete the 17 credit hours work listed below with a minimum grade of “C” in each course.

Complete ALL of the following Courses:

- EAS4105 - Introduction to Flight Mechanics
- EGM5615 - Synthesis of Engineering Mechanics
  OR EAS4200 - Introduction to Design and Analysis of Aerospace Structures
- EMA3702L - Mechanics and Materials Science Lab
- EML4419 - Propulsion Systems
- EML4711 - Gas Dynamics
- EML4930 - Special Topics/Projects

- EGM4350 - Finite Elements in Mechanical Engineering
  OR EML4721 - Introduction to Computational Thermo-Fluid
  OR EAS4712 - Aerodynamic Shape Design

Students must meet the pre-requisite requirements for the above-listed courses.

Additional Program Requirements

Students who have taken any equivalent course(s) to those listed above will be exempted from taking the course(s) again. However, they will need to select courses from the following list to satisfy requirements for the minor:

Complete ANY of the following Courses:

- EMA5295 - Principles of Composite Materials
- EML4220 - Mech Vibrations
- EML5509 - Optimization Algorithms

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

XAEROST:MN - Minor in Aerospace Studies

Overview

Program Title
Aerospace Studies - Minor

Air Force ROTC (AFROTC) is a nationwide program that allows students to pursue commissions (become officers) in the United States Air Force (USAF) or United States Space Force (USSF) while simultaneously attending college. AFROTC classes are held on college campuses throughout the United States and Puerto Rico; students can register through normal course registration processes. AFROTC consists of four years of Aerospace Studies classes (Heritage and Values, Team and Leadership Fundamentals, Leading People and Effective Communication and National Security Affairs/Preparation for Active Duty) and a corresponding Leadership Laboratory for each year (where students apply leadership skills, demonstrate command and effective communication, develop physical fitness during weekly physical training, and practice military customs and courtesies). College students enrolled in the AFROTC program (known as "cadets") who successfully complete both AFROTC training and college degree requirements will graduate and simultaneously commission as Second Lieutenants in the Active Duty Air Force or Active Duty Space Force. The AFROTC program is currently held at the University of Miami, but they have a crosstown agreement that allows our students to enroll in AFROTC and become full-fledged cadet participants. For more information on AFROTC course descriptions, please review University of Miami website. For more information on the AFROTC program, please review University of Miami website.

Academic Group
Military Science

Total Credits	Program Length in Years Based on Full-Time Enrollment	CIP Code
16	0	29.0101

Requirements

Simple Requirements

Admissions Requirements

Enrollment

There is no military obligation to enroll in AFROTC. To enroll students must meet the following criteria:

-- Be a U.S. citizen or resident alien, or be able to become a U.S. citizen prior to attending Field Training the summer following sophomore year;

-- Be full-time college students, enrolled in 12 credits per semester; with at least 3 academic years remaining in undergraduate/graduate level courses.

-- Be able to participate in a demanding physical fitness program;

-- Be able to pass a Department of Defense Medical Examination;

-- Have solid moral character; and

-- Maintain AFROTC minimum required grade point average.

-- Prior to enrolling in Aerospace classes, students should speak with a professor/cadre member at (305) 284-2870 or email: recruitingflightcommander@det155aces.com

Program Requirements

Scholarships

Scholarship opportunities within AFROTC are highly competitive and more than 60% of Air Force ROTC scholarships are awarded to undergraduate students in engineering or other scientific and technical disciplines. However, students in every degree program enjoy scholarship opportunities, as the Air Force seeks to engage students who excel both academically and militarily. Scholarships are awarded in increments of two, three, and four years. Air Force ROTC offers several types of scholarships. Type 1 covers full tuition and most required fees. Type 2 covers tuition and fees, but is capped at $18,000 annually. Type 7 scholarships are designated for in-state tuition-level institutions. All types of awards provide an allowance for books and a monthly non-taxable stipend. All scholarship cadets are required to meet academic, military, and physical fitness standards to earn and maintain scholarship benefits.

Benefits

All AFROTC cadets receive uniforms, books, and equipment for ROTC classes at no cost.

Program Credit Hours: 16

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- AFR1101C - Heritage and Values I
- AFR1121C - Heritage and Values II
- AFR2130C - Team and Leadership Fundamentals I
- AFR2131C - Team and Leadership Fundamentals II
- AFR3220 - Leading People and Effective Communication I
- AFR3230 - Leading People and Effective Communication II
- AFR4201 - National Security, Leadership Res and Com Preparation I
- AFR4210 - National Security, Leadership Res and Com Preparation II

AFR3220 Leadership Studies I, AFR3230 Leading and Comm II, AFR4201 Security, Res & Com Prep I, and AFR4210 Security, Res & Com Prep II are writing courses.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

XAI:MN - Artificial Intelligence Minor

Overview

Program Title
Artificial Intelligence - Minor

The minor provides students an opportunity to gain AI experience in applying many of these concepts and techniques to domain specific applications. The skills obtained in pursuing the AI minor will enhance a student's ability to apply AI techniques to solve challenging problems.

To explore more about this program, visit the website below:
https://appliedai.fiu.edu/degrees/ai-minor-undergrad-students/

Academic Group
College of Engineering and Computing

12	1	11.0102

Requirements

Simple Requirements

Admissions Requirements

All students are required to have taken the course IDC2002 AI for All (AI for all).

Program Requirements

Prerequisite Requirement

Type
Prerequisite

Python programming

Students are required to have completed a Python programming course. Students can take existing courses in ECE or KFSCIS.

Program Requirement

Type
Completion Requirement

Core Courses

Students must select one course from each group (total of 9 Credits)

Fulfill ALL of the following requirements:

Machine Learning

Complete at least 1 of the following courses:

- CNT4153 - Machine Learning in ECE
  OR CAI4105 - Introduction to Machine Learning

OR other approved Courses.

AND

Deep Learning

Complete at least 1 of the following courses:

- CNT4149 - Deep Learning in ECE
  OR CAI4203 - Introduction to Deep Learning

OR other approved course.

AND

Generative AI

Complete at least 1 of the following courses:

- CAI4863 - Generative AI Fundamentals in ECE

OR other approved course.

Elective Courses

Students must complete one course (3 credits) from the Minor in AI website.

Earn at least 3 credits

An important prerequisite for the AI minor is Python programming. Students can take existing courses in ECE or KFSCIS.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

Program Requirements

Program Credit Hours: 15

Type
Completion Requirement

Required Course

Earn at least 3 credits from the following:

- ASN3410 - Introduction to East Asia

This course could be substituted with one of the courses below with the approval from the Director.

Electives

Students must select 12 elective credits from interdisciplinary, upper-division courses with emphasis on Asia. All ASN prefix courses can count towards the minor.

Students are encouraged to take language courses, participate in study abroad programs, and internships.

Earn at least 12 credits from the following:

- ASN3016 - China Then and Now
- ASN3125 - Intro to Spirituality of Japan
- ASN3143 - Corporate Culture of China
- ASN3153 - Topics in Korean Culture
- ASN3154 - Traditional and Modern Korea
- ASN3200 - Asia Through Films
- ASN3202 - Japanese Anime and Manga
- ASN3329 - Women in Asian Society
- ASN3403 - Zen and the Art of Tea Ceremony
- ASN3414 - Pop Culture of East Asia
- ASN3503 - Exploring East Asia: Virtual Reality Travel
- ASN3931 - Special Topics in Asian Studies
- ASN4111 - Japan and The New East
- ASN4404 - Zen and the Art of the Tea Ceremony II
- ASN4810 - East Asian Classics to Cool Writings in Translation

Please note: No more than two courses (6 credits) from the Minor in Asian Studies can be counted towards one of the program's undergraduate certificates.

Additional Comments:

For more information, contact the Asian Studies office, SIPA-I 523. Email: asian@fiu.edu; phone: (305) 348-1914; website: http://asian.fiu.edu.

Complete ALL of the following Courses:

- BSC2010 - General Biology I
  AND BSC2010L - General Biology I Lab
- BSC2011 - General Biology II: Diversity of Life, Organismal Structure and Function
  AND BSC2011L - General Biology Lab II

Additional Required Courses for the Minor

Students must choose one upper division course (3000-level or above) in any of the three out of the four following areas: A. Ecology, B. Organismal Diversity, C. Physiology/Biochemistry, or D. Structure/Development.

Fulfill ANY of the following requirements:

A. Ecology

Complete ANY of the following Courses:

- BOT4601 - General Plant Ecology
  AND BOT4601L - General Plant Ecology Lab
- BSC4303 - Biogeography
- BSC4304 - Environments of the Past
- BSC4363 - Biodiversity in the Caribbean Basin
- MCB4603 - Microbial Ecology
  AND MCB4603L - Microbial Ecology Lab
- OCB3043 - Marine Biology and Oceanography
  AND OCB3043L - Marine Biology and Oceanography Lab
- OCB3264 - Coral Reef Biology
- OCB4004 - Biological Oceanography at Sea I
- OCB4005C - Biological Oceanography at Sea II
- OCB4070 - Coastal Marine Conservation
- OCB4104C - Field Methods in Marine Ecology
- OCB4633 - Marine Community Ecology
- OCB4711 - Fisheries Science
- PCB3043 - Ecology
  AND PCB3043L - Ecology Lab
- PCB3374 - Tropical Ecology
- PCB4401 - Global Change Ecology: How humans changed the face of Earth
- PCB4403C - Urban Vector Biology
- PCB4414 - Behavioral Ecology
- PCB4452 - Introduction to Wetland Ecology and Management
- PCB4462C - Introduction to Landscape Ecology with GIS
- PCB4467C - Marine Protected Areas
- PCB4553 - General Population Genetics
- PCB4932 - Topics in Ecology
- ZOO4513 - Animal Behavior
  AND ZOO4513L - Animal Behavior Laboratory

OR

B. Organismal Diversity

Complete ANY of the following Courses:

- BOT3154 - Local Flora
  AND BOT3154L - Local Flora Lab
- BOT3663 - Tropical Botany
- BOT3810 - Economic Botany
- BOT4402 - Marine Botany
- BOT4404C - Phycology
  AND BOT4404L - Phycology Lab
- BOT4684 - Taxonomy Of Tropical Plants
  AND BOT4684L - Taxonomy of Tropical Plants Lab
- BSC3400 - Wildlife Conservation, Forensic and Crime Science

- BSC4205 - Topics in Organismal Diversity
- BSC4434 - Bioinformatics for Biologists
- ENY4060 - Entomology
  AND ENY4060L - Entomology Lab
- MCB3020 - General Microbiology
  AND MCB3020L - General Microbiology Lab
- MCB4022 - Diversity of Microbes
- OCB4303 - Biology of Marine Mammals
- PCB4674 - Evolution
- ZOO3205C - Invertebrate Zoology
- ZOO3303 - Vertebrate Zoology
  AND ZOO3303L - Vertebrate Zoology Lab
- ZOO4234 - General Parasitology
  AND ZOO4234L - General Parasitology Lab
- ZOO4454 - Fish Biology
- ZOO4462C - Herpetology
- ZOO4484 - Primate Biology
  AND ZOO4484L - Primate Biology Lab

OR

C. Physiology/Biochemistry

Complete ALL of the following Courses:

- BCH3033 - General Biochemistry
  AND BCH3033L - General Biochemistry
- BOT4503 - Plant Physiology
- BOT4503L - Plant Physiology Lab
- BSC4443 - Functional Genomics and Proteomics
- MCB4503 - Virology
- PCB3702 - Intermediate Human Physiology
- PCB3702L - Intermediate Human Physiology Lab
- PCB3703 - Human Physiology I
  AND PCB3703L - Human Physiology Lab I
- PCB3704 - Human Physiology II
  AND PCB3704L - Human Physiology Lab II
- PCB4023 - Cell Biology
- PCB4023L - Cell Biology Lab
- PCB4232 - The Biology of Acquired Immune Deficiency Syndrome (AIDS)
- PCB4233 - Immunology
- PCB4234 - Biology of Cancer
- PCB4524 - Molecular Biology
  AND PCB4524L - Molecular Biology Lab
- PCB4717 - Topics in Physiology/Biochemistry
- PCB4723 - Animal Physiology
- PCB4724 - Comparative Physiology
- PCB4776 - Physiological and Behavioral Ecology of Marine Animals
- PCB4805 - Endocrinology

- PCB4810 - Biology of Stress
- ZOO4744 - Neurobiology
- ZOO4781 - Sensory Systems in Neurobiology

OR

D. Structure/Development

Complete ALL of the following Courses:

- BOT3353 - Morphology of Vascular Plants
  AND BOT3353L - Morphology of Vascular Plants Lab
- BSC4422 - Biotechnology: Applications in Industry, Agriculture and Medicine
- PCB3063 - Genetics
  AND PCB3063L - Genetics Lab
- PCB3660 - Sex, Gender, and Orientation: A Biological Perspective
- PCB4133 - Topics in Structure/Development
- PCB4253 - Developmental Biology
- PCB4561 - Epigenetics
- PCB4663 - General Human Genetics
- ZOO3603 - Embryology
  AND ZOO3603L - Embryology Lab
- ZOO3713C - Comparative Vertebrate Anatomy
- ZOO3731 - Human Anatomy
- ZOO3753 - Histology
- ZOO4733 - Survey of Regional Anatomy
- ZOO4743C - Neuroscience

One of these elective courses must be at the 4000-level or higher and one must include a lab.

Total upper division biology credits must number 10 or more. Grades of ‘C’ or better are required for all courses and labs. The following courses do not count as electives: Student Research Labs (BSC3915 Student Research Lab and BSC4914 Student Research Lab), Biological Sciences Internship (BSC3941 Biology Sci Internship), Workshop Biology Labs (BSC6926 Workshop Biology, etc.); Cooperative Education credits, Forensic Veterinary courses (BSC4480 Intro Medicolegal Invest, BSC4481 Vet Medico Death Invest, BSC4482 Foren Animal Cruelty Inv)and any course for non-science majors (e.g. EVR3013 Ecology Of S. Fla and OCE3014 Oceanography).

Students obtaining a BS in Marine Biology wishing to obtain a minor in Biology must take three electives and an upper division lab different from those used to satisfy the BS in Marine Biology.

Students obtaining a Bachelor degree in a major other than Biology or Marine Biology wishing to obtain both Biology and Marine Biology minors must use different upper division courses for each of the two minors.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no track, specialization, concentration, area of emphasis, or other curricular offerings associated with this program.

XBIOMED:MN - Minor in Biomedical Engineering for Non-Engineering Majors

Overview

Program Title
Biomedical Engineering for non-Engineering Students - Minor

This minor program is designed for students who desire skills in addition to those developed in the basic sciences and is especially intended for biology and chemistry majors. For admission to the minor, students need (1) To be fully admitted to their major; (2) To have a GPA ≥ 3.0. To successfully complete the minor, a grade of “C” or better is required in all courses. The minor requires a minimum of 16 credit hours.

XBUSANL:MN - Minor in Business Analytics

Overview

Program Title
Business Analytics - Minor

The Department of Information Systems and Business Analytics (ISBA) offers a Minor in Business Analytics to non-Business Analytics majors (IS). Additionally, Information Systems (IS) majors with a track in Business Analytics may not pursue a Minor in Business Analytics. The minor affords students the opportunity to learn about the application of statistical methods and techniques through decision support systems (DSS), expert systems (ES), business intelligence (BI) reporting tools, and business analytics (BA) data mining tools. As both public and private sector organizations accumulate everincreasing stores of data, their ability to apply quantitative techniques and tools constitutes an essential skill. While the application of such techniques has historically focused on accounting and financial data, marketing and other fields are increasingly analyzing data to drive new business models and achievement of competitive advantages. Students are required to receive a grade of “C” or higher in each course.

XBUSCOM:MN - Minor in Business Communication

Overview

Program Title
Business Communication - Minor

The Business Communication minor helps students develop a high level of competency in oral and visual communication, which are increasingly recognized as vital to success in business. The minor develops students' communication professionalism through theoretical and workshop courses emphasizing creative, workable solutions to challenging communication problems. The minor promotes the practical use of communication skills in a wide variety of managerial tasks in both profit and non-profit organizations. Key skills taught include facilitating teamwork, managing conflict, interviewing, building employee morale, leadership, public speaking and shaping a company's image. The minor will consist of 15 credits. At least 12 credits must be completed at Florida International University. A grade of "C" or higher is required in all courses in the minor.

XBUSN:MN - Minor in Business for Non-Business Students

Overview

Program Title
Business for Non-Business Students - Minor

This minor provides students the opportunity for study in the area of Business for non-business students.

Academic Group
College of Business

Total Credits	Program Length in Years Based on Full-Time Enrollment	CIP Code
15	0	52.0201

Requirements

Simple Requirements

Admissions Requirements

Admission to all minors offered by the College of Business is set at a 2.5 GPA. All minor students must be fully admitted to their major in another college. Business majors are not eligible for the Business Minor but may pursue one of the other minors offered within the College.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Program Credit Hours: 15

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- ACG3024 - Introduction to Accounting for Managers and Investors
- FIN3005 - Introduction to Business Finance
- ISM3012 - Introduction to Information Systems
- MAN3022 - Introduction to Management
- MAR3024 - Marketing Fundamentals

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

XCHEM:MN - Minor in Chemistry

Overview

Program Title
Chemistry - Minor

This minor provides students the opportunity for study in the area of Chemistry.

Academic Group
College of Arts, Sciences, and Education

Total Credits	Program Length in Years Based on Full-Time Enrollment	CIP Code
21	0	40.0501

Requirements

Simple Requirements

Admissions Requirements

No specific admissions requirements. Contact advisor for additional information.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Program Credit Hours: 21

Type
Completion Requirement

Required Courses

The minor in chemistry requires at least 21 credits from the list below:

Complete ALL of the following Courses:

- CHM1045 - General Chemistry I
  AND CHM1045L - General Chemistry Lab I
- CHM1046 - General Chemistry II
  AND CHM1046L - General Chemistry Lab II
- CHM3120 - Introduction to Analytical Chemistry
  AND CHM3120L - Introduction to Analytical Chemistry Lab
- CHM2210 - Organic Chemistry I
  AND CHM2210L - Organic Chemistry Lab I

- CHM2211 - Organic Chemistry II
  AND CHM2211L - Organic Chemistry Lab II

At least half of the credits to be counted towards the minor must be taken at the University.

Department Policy

The Department of Chemistry does not award credit for courses by examination; it does, however, award credit for AP Chemistry with a score of 3 or higher and with evidence of a suitable laboratory experience. The department does not award credit for life experience.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no track, specialization, concentration, area of emphasis, or other curricular offerings associated with this program.

XCOMMST:MN - Minor in Communication Studies

Overview

Program Title
Communication Studies - Minor

The Communication Studies minor addresses the ways in which people communicate in relationships and in public discourse. Through theory and application, the minor includes the study of the ways in which such processes relate to cultural, gender and racial issues. The degree consists of 15 credits. At least 12 credits must be completed at Florida International University. A grade of 'C' or higher is required in all courses in the minor.

Academic Group
College of Communication, Architecture + The Arts

Completion Requirement

Required Courses

The minor consists of 15 credits. At least 12 credits must be completed at FIU. A grade of 'C' or higher is required in all courses in the minor.

Fulfill ALL of the following requirements:

Part I: At least one of the following theory-based courses:

Complete at least 1 of the following courses:

- SPC3210 - Communication Theory

- SPC3540 - Persuasion

AND

Part II: At least one of the following skills-based courses:

Complete at least 1 of the following courses:

- COM3110 - Business and Professional Communication
  OR COM3150 - Advanced Business and Professional Communication
- COM4346 - Interviewing Principles and Practices
- SPC2608 - Public Speaking
- SPC3602 - Advanced Public Speaking
- COM4940 - Internship in Communication Arts

AND

Part III: Any three upper-division courses with prefixes SPC or COM, including the courses listed above.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

XCOMPSC:MN - Minor in Computer Science

Overview

Program Title
Computer Science - Minor

A minor program is an arrangement of courses enabling a student to develop a degree of expertise and knowledge in an area of study in addition to his or her major academic program of study. A student with a major that has a significant overlap with Computer Science must first obtain permission from a CS advisor.

XCPIANO:MN - Minor in Collaborative Piano

Overview

Program Title
Collaborative Piano - Minor

The Minor in Collaborative Piano is designed exclusively for music majors seeking to enhance their skills as versatile pianists in ensemble and accompaniment settings. This program focuses on developing expertise in vocal and instrumental collaboration, including repertoire study, advanced sight-reading, and ensemble communication.

Participants will gain practical experience through courses in vocal and instrumental accompaniment, chamber music, and opera coaching, preparing them for professional opportunities in collaborative performance.

The minor is an excellent complement to a music major, providing specialized training that enriches both solo and ensemble musicianship.

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MVK2723L - Collaborative Piano Techniques
- MUL3417L - Collaborative Piano Literature
- MUN1460 - Chamber Music

- MUN3463 - Chamber Music

Accompanying Courses

Complete ALL of the following Courses:

- MUN3523L - Vocal Accompanying
- MUN3533L - Instrumental Accompanying

Languages for Collaborative Pianists

Complete ALL of the following Courses:

- MUS2221 - French Diction
- MUS2241 - Italian Diction
- MUS2231 - German Diction
- MUS2211 - English Diction

Specializations

Complete exactly 2 course(s) and earn exactly 4 credits from the following:

- MUO3508L - Opera Workshop Coaching
- MUN3525L - Choral Accompanying
- MVK3474L - Advanced Keyboard Skills for Collaborative Pianists
- MVK3604L - Pedagogy for Collaborative Pianists

Capstone/Performance Requirement

Complete ALL of the following Courses:

- MUS4910 - Research

Students are required to complete one credit of this variable credit course.

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

XDIET:MN - Minor in Nutrition

Overview

Program Title
Nutrition - Minor

A 12-credit nutrition course sequence at the undergraduate level affords students the opportunity to study food and nutrients, their physiological functions, normal nutritional requirements, socioeconomic influences on food choices and other aspects of food technology. The required science foundation courses provide the necessary background of chemistry and biological sciences to understand the physiological and biochemical basis of nutrition, as a multi-disciplinary science with relevance to health. Students minoring in nutrition learn to interpret nutrition research and contemporary claims and theories as a basis for improving food habits. Students interested in entering health professional fields of physical or occupational therapy, schools of medicine, dentistry or veterinary medicine find the nutrition minor relevant to their future careers because of diet and health relationships.

This nutrition minor will not meet licensure requirements for qualifications as a nutritionist in the State of Florida. A license is required to provide nutritional counseling to individuals.

Clinical Experiences

Early Clinical Experiences (Field Hours)

Some of the courses in the minor offered by the Department of Teaching and Learning require completion of a specified number of early clinical experiences (field hours) in approved K–12 school settings. Course descriptions clearly identify those courses that include in-school classroom experiences. These experiences provide guided observation and participation under the supervision of a classroom teacher and a faculty member from the School of Education and Human Development.

Fingerprinting Requirements

In accordance with the Jessica Lunsford Act, all students completing field and clinical experiences in Florida must undergo fingerprinting and a background check at students' own expense. Placement requests in approved schools require the district's clearance verification. Students will not be allowed to enter a school campus without the necessary clearance.

School Placements

All early clinical experiences (field hours) must be completed at schools with which Florida International University has established affiliation agreements, including but not limited to Miami-Dade County Public Schools and Broward County Public Schools. All placements are coordinated through the FIU Office of Clinical Experiences. Students may not arrange placements independently.

For questions, contact the FIU Office of Clinical Experiences at 305-348-2082, email ClinicalExperiences@fiu.edu, or visit the Ziff Education Building (ZEB), Room 130.

Additional Comments

Students may complete an 18-credit minor in education that follows the curriculum below:

Degree Program Credit Hours: 18

Type

Completion Requirement

Education Core: 15 Credits

Complete ALL of the following Courses:

- EDF3430 - Measurement and Evaluation in the Classroom
- EDG3321 - Managing Teaching Environments: Instructional Decisions and Classroom Management
- EDP3004 - Educational Psychology
- RED4325 - Subject Area Reading
- TSL4324 - ESOL Issues and Strategies for Content Area Teachers

Subject Specific Teaching Methods: 3 Credits

Complete ANY of the following Courses:

- ARE4316 - Special Teaching Laboratory: Art in Grades K-5
- ARE4341 - Special Teaching Laboratory: Art in Grades 6-12
- EDF4604 - Cultural and Social Foundations of Education
- EEX3070 - Teaching Students with Exceptionalities in Inclusive Settings
- FLE4314 - Methods of Teaching Foreign Languages in the Elementary School
- FLE4375 - Methods of Teaching Modern Language at the Secondary Level
- LAE4335 - Special Teaching Laboratory English
- SMT3100 - Knowing, Learning, and Adolescent Development in Mathematics and Science
- SSE4384C - Special Teaching Laboratory: Social Studies
- THE4760 - Methods of Teaching Theatre

Additional Comments:

***ARE4316, ARE434, RED4325, TSL4324, SSE4384C *have a co-requisite of clinical experience (field hours) throughout the term.*

Admissions Requirements for the Minor in Health Services Administration

This five course minor in Health Services Administration is available to baccalaureate degree seeking students who have completed 60 lower division hours, and are interested in careers in health services administration or who wish to examine the administrative aspects of health services delivery.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Fifteen hours in Health Services Administration are required: Six required credit hours and nine credit hours of electives. Students seeking a minor in Health Services Administration must earn a minimum grade of “C” in each of the required and elective courses, in addition to a grade of “C” in any course prerequisite.

Program Credit Hours: 15

Type
Completion Requirement

Required Courses: 6 credits

Complete ALL of the following Courses:

- HSA3111 - Introduction to Health Services Systems
- HSA3180 - Leadership and Management for Health Professionals

To be taken in first semester of minor matriculation. These courses are prerequisite for electives and no substitutions or waivers will be granted.

Elective Courses: 9 credits

Earn at least 9 credits from the following:

- HSA4700 - Quality and Evidence-Based Healthcare Services
- HSA4110 - Healthcare Organizational Behavior and Resource Management
- HSA4150 - Global Healthcare Systems and Policy
- HSA4170 - Healthcare Financial Management
- HSA4421 - Legal Aspects of Healthcare

It is the student's responsibility to contact the department from which the student wishes to receive the minor when they apply for graduation. This will ensure that the minor will be posted on their transcript.

XINTCOM:MN - Minor in International Communication

Overview

Program Title
International Communication - Minor

In the contemporary globalized world, where the tempo and intensity of international contacts are continually strengthening, the role of international communication has become increasingly crucial. This minor will help students develop an understanding of cross-linguistic and cross-cultural issues involved in international communication. Since different nations are associated with different languages and cultures, international communication is inseparable from intercultural communication - in the era of ‘global English’ more than ever, because one ‘international English’ can conceal deep differences in cultural assumptions. This minor will explore issues involved in interaction between speakers from different backgrounds and will equip them with conceptual tools to explore those issues. The minor consists of 12 credits. At least 12 credits must be completed at Florida International University. A grade of “C” or higher is required in all courses in the minor.

XLOGSCM:MN - Minor in Logistics and Supply Chain Management

Overview

Program Title
Logistics and Supply Chain Management - Minor

Qualified undergraduate students must apply to the College of Business to request one of the minors offered in Marketing and Logistics. In today's global economy, most organizations require the movement of information, products, supplies, materials, and personnel in order to fulfill organizational serves. This movement of human, physical, and informational capital involves logistics and supply chain management. This minor provides students with a working knowledge of logistics and supply chain concepts, and is designed to complement a student's major field of study and enhance career opportunities. Logistics knowledge can appeal to students in any field, but students in certain fields may be particularly interested, such as those in engineering, politics, architecture, environmental studies, sustainability, economics, international relations, tourism management, hospitality management, health administration, and public administration. Students in fields where they expect to deal with international transportation of physical materials or personnel would also benefit. Students must receive a grade of "C" or higher in each course to be awarded the minor. The minor in Logistics and Supply Chain Management is open to all students except those majoring in Logistics and Supply Chain Management or students formally pursuing the International Logistics certificate.

XMILTSC:MN - Minor in Military Science

Overview

Program Title
Military Science - Minor

Army ROTC, one of the country's top leadership programs, is an elective curriculum students can try for up to two years without any military obligation. The curriculum consists of two parts, the Basic Course and the Advanced Course, and focuses on Army history, organization and structure, tactical operations and principles of leadership and management. Army ROTC electives may also be used by students pursuing the Certificate of Professional Leadership Studies.

To explore more about this program, visit the website below:
Program Website

Academic Group
Military Science

Total Credits	Program Length in Years Based on Full-Time Enrollment	CIP Code
15	0	29.0101

Requirements

Simple Requirements

Admissions Requirements

Enrollment

Enrollment is open to full-time students attending Florida International University and Florida Atlantic University. The Army ROTC program has crosstown agreements that allow students from other universities and colleges (University of Miami, Florida Memorial University, Palm Beach Atlantic University, Broward College, Miami-Dade College, Barry University, Nova Southeastern University) to enroll in Army ROTC and become full-fledged cadet participants. Any students may enroll in MSL 1000 and 2000 level courses in a participation status. Any student enrolling in the MSL 3201/2 and MSL 4301/2 must have the approval of the Department Chairperson.

Instructions and Training

The freshmen and sophomore students will take Basic Military Science and Leadership Courses. There is no military obligation associated with the first two years of the program. These courses introduce students to leadership skills and concepts. The curriculum involves understanding how to communicate, set goals, how and when to make decisions, enhance physical fitness, how to build and operate in a team, and engage in creative problem solving, planning and organization. The curriculum focuses on building character, providing opportunities to apply, practice and experience leadership principles. Courses consist of outdoor/indoor instruction and practical 'hands-on' training on university intramural fields and at various South Florida military training sites. Qualified juniors, seniors, or graduate students may take the Advanced Military Science Courses upon approval from the department chair. The Advanced Course provides intense training for students in simulated leadership positions. Students are taught the fundamentals of serving as an

Army Officer. They will have numerous opportunities to lead small teams in a variety of challenging leadership situations. The seniors manage the ROTC Corps of Cadets, mentor junior cadets, plan and conduct training, management, and fundraising activities.

Program Requirements

Scholarships

Army ROTC offers a number of scholarships that will pay either full tuition and fees or room and board, up to $10,000 per Academic Year, along with a $600 book allowance per semester and a monthly stipend of $420.

Organizations

Ranger Challenge Team - A voluntary organization that is a physically demanding leader development program designed to prepare cadets for state and regional competition against other ROTC units. Cadets train weekly to perfect skills in weapons handling and assembly, marksmanship, orienteering, hand grenade throwing, physical fitness, combat patrolling and combat load road marching.

Color Guard - An elite organization of cadets skilled in drill and ceremony. Members post the colors at university basketball games, baseball games, football games, civic/veteran events and campus functions.

Special Programs

Students who are unable to participate in ROTC during their freshman and sophomore years may qualify for admission to advanced ROTC (junior and senior years) by attending a four-week course at Ft. Knox, KY. Attendees receive pay, travel costs, lodging and food. Students with prior military service must have a valid DD 214 and honorable discharge to qualify for the advanced course program.

Students who want to pursue an advanced degree in certain fields after receiving a baccalaureate may qualify for delayed entry on active duty.

Students interested in pursuing civilian careers after graduation may apply for duty with the Army National Guard or Army Reserve.

Students may enter the Simultaneous Membership Program (SMP) in the Army National Guard or Army Reserve while in college. This allows students to earn valuable experience by serving in the Army National Guard or Army Reserves while enrolled in ROTC. Students continue their regular school curriculum and receive additional financial support from the Army National Guard or Army Reserve as an incentive to serve as officers upon graduation and commissioning.

Special Training

Outstanding Cadets may qualify to attend special Army schools such as Mountain Warfare Training, Northern Warfare School, Air Assault School or Airborne School. Selection is on a competitive basis.

Outstanding Cadets are honored during regular award ceremonies. Scholarship Cadets can fly space-available aboard military aircraft.

Minor in Military Science

XMRKET:MN - Minor in Marketing

Overview

Program Title
Marketing - Minor

All majors need to understand who their customers are, what they look for, and how to properly position a product or service for customer satisfaction. Knowing how to do these things can make a graduate much more valuable in any organization. In this minor, students can explore such areas as product planning and management, distribution, marketing research, retailing, advertising and promotion, consumer behavior, customer relations, and global marketing.

The minor in General Marketing is open to all students except those majoring in Marketing or students formally pursuing any certificate offered by the Department of Marketing and Logistics.

18	0	26.1302

Requirements

Simple Requirements

Admissions Requirements

No specific admissions requirements. Contact advisor for additional information.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Program Credit Hours: 18

Type
Completion Requirement

Required Courses

Students must complete the following courses with a grade of “C” or better

Complete ALL of the following Courses:

- BSC2010 - General Biology I
  AND BSC2010L - General Biology I Lab
- BSC2011 - General Biology II: Diversity of Life, Organismal Structure and Function
  AND BSC2011L - General Biology Lab II
- OCB3043 - Marine Biology and Oceanography
  AND OCB3043L - Marine Biology and Oceanography Lab

Additional Required Courses

Students must also complete at least two courses from among the selection of upper division Marine Electives that meet the BS in Marine Biology requirement. One of these elective courses must be at the 4000-level or higher.
Total upper division biology credits must number 10 or more. The following courses do not count as electives: Student Research Labs (BSC3915 Student Research Lab, BSC4914 Student Research Lab, and BSC 6916), Biological Sciences Research Internship (BSC3941 Biology Sci Internship), Workshop Biology Labs (BSC 5928, PCB5238, BSC6926 Workshop Biology, etc.), Cooperative Education credits (BSC 3949), and any course for non-science majors (e.g., EVR3013 Ecology Of S. Fla and OCE3014 Oceanography).

Students obtaining a BS or BA in Biology wishing to obtain a Minor in Marine Biology must take three electives and an upper division lab different from those used to satisfy the BS or BA in Biology. Students obtaining a bachelor degree in a major other than Biology or Marine Biology wishing to obtain both Biology and Marine Biology minors must use different upper division courses for each of the two minors.

Major Requirements

Admissions Requirements

Admissions Requirements for the Minor in Music

Students majoring in any other discipline may minor in Music.

Students must take a Music Fundamentals Test in order to determine the appropriate initial theory class; unless they choose to begin with MUT1001 Fundamentals Of Mus, for which no test or prerequisite is required. Students must pass an audition at the level of music principal to qualify for the minor in music, whether or not they intend to register for applied lessons or ensembles. It is assumed that students auditioning for applied lessons will have taken private lessons for several years. Music minors registered for applied lessons must register for at least one ensemble every semester they are registered for applied lessons. Admission to applied lessons and participation in ensembles is at the direction of the area advisor.

Prerequisites

Contact advisor for information about any prerequisites.

XPRFSL:MN - Minor in Professional Sales

Overview

Program Title
Professional Sales - Minor

Research shows that more than 50% of college graduates from a wide variety of majors and backgrounds enter a career in sales. Sales drive economic growth in all industries and through all marketing channels. The opportunities for sales careers far outnumber those in any other area. Recruiters in all industries are looking for students who can add value to organizations, internally and/or externally. This value comes from skills in these areas: interpersonal interactions and communications, questioning, listening, objection handling, negotiations, closing and service. This minor prepares students in any academic field with real-world, specialized training in the skills needed to succeed in this career area demanded by today's job market. The minor in Professional Sales is open to all students except those majoring in Marketing or students formally pursuing the certificate in Sales and Customer Relationship Management.

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

XROBOT:MN - Minor in Robotics and Mechatronics

Overview

Program Title
Robotics and Mechatronics - Minor

This minor provides students the opportunity for study in the area of Robotics and Mechatronic.

Academic Group
College of Engineering and Computing

Total Credits	Program Length in Years Based on Full-Time Enrollment	CIP Code
17	0	14.1901

Requirements

Simple Requirements

Admissions Requirements

Fully enrolled non-mechanical engineering undergraduate students, who have at least a junior status with a cumulative FIU Grade Point Average of 2.0 or better, may apply to the Department of Mechanical and Materials Engineering to request a minor in Robotics and Mechatronics.

Prerequisites

Contact advisor for information about any prerequisites.

Program Requirements

Program Credits Hours: 17

Type
Completion Requirement

Program Requirements

To earn a minor in Robotics and Mechatronics students must complete the 17 credit hours work listed below with a minimum grade of “C” in each course.

Complete ALL of the following Courses:

- EGN3311 - Statics
- EGN3321 - Dynamics
- EML3301L - Instrumentation and Measurement Laboratory
- EMA3702 - Mechanics and Materials Science
- EML4804 - Introduction to Mechatronics

- EML4806 - Modeling Of Robots
- EML4930 - Special Topics/Projects

Students must meet the pre-requisite requirements for the above-listed courses.

Additional Program Requirements

Students who have taken any equivalent course(s) to those listed above will be exempted from taking the course(s) again. However, they will need to select courses from the following list to satisfy requirements for the minor:

Complete ANY of the following Courses:

- EML3036 - Simulation Software for Mechanical Engineers
- EML4312 - Automatic Control
- EML4840 - Robot Design
- EML4535 - Mechanical Computer Aided Design

Major Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

XSMUSC:MN - Minor in Sacred Music

Overview

Program Title
Sacred Music - Minor

A minor in Sacred Music is available for students receiving the BM degree or the BA in Music degree and is designed to allow music majors to further develop the skills and expertise needed to work successfully in the area of sacred music

Academic Group
College of Communication, Architecture + The Arts

Total Credits	Program Length in Years Based on Full-Time Enrollment	CIP Code
12	0	50.0901

Requirements

There are no majors associated with this program.

Track, Specialization, Concentration, Area of Emphasis, or Other Curricular Offering Requirements

There are no tracks, specializations, concentrations, areas of emphasis, or other curricular offerings associated with this program.

XSOCEM:MN - Minor in Social Media and E-Marketing Analytics

Overview

Program Title
Social Media and E-Marketing Analytics - Minor

E-marketing and social media have changed the way companies, organizations, and individuals do business. Thus, a new set of skills and competencies are required of students from a diverse set of majors and backgrounds as they engage in the technological future that lies before us. This is not just about how to use social media; this minor prepares students from all majors to utilize social media and e-marketing to engage customers, to communicate and deliver value, to enhance skills needed to gain meaningful employment, and to apply analytical tools for better decision-making with respect to social media and online marketing. The minor in Social Media and E-Marketing Analytics is open to all students except those majoring in Marketing or students formally pursuing the Certificate in Social Media and Digital Marketing Analytics.

XSTEMTC:MN - FIUteach STEM Teaching Minor

Overview

Program Title
FIUteach STEM Teaching - Minor State Approved Professional Training Option.

This FIUteach Teaching Minor prepares STEM majors for teaching careers in secondary education by combining classroom instruction with hands-on teaching experiences. Students design and teach inquiry-based STEM lessons in local schools, fostering critical pedagogical skills. Through reflective practice, participants continuously assess and refine their teaching methods. This program equips future educators with the knowledge, skills, and confidence to inspire and engage students in STEM fields. This program is aligned with the Professional Training Option (PTO), pursuant to F.A.C 6A-4.006 General and Professional Preparation (Amended. 6/23/16) in Florida. This minor in Education is open to all undergraduate students except those majoring in any STEM Education degree track.

AFR4201 - National Security, Leadership Res and Com Preparation I

Overview

Subject code
AFR

Catalog Number
4201

Course Title
Security, Res & Com Prep I

Career
Undergraduate

Course Description
AFR 4201 is basic elements of national security policy and process. The student should comprehend the air and space power operations as well as understand selected roles of the military in society and current domestic and international issues affecting the military profession. Cadets should comprehend the responsibility, authority, and functions of an Air Force commander and selected provisions of the military justice system. The final semester of the course is designed to prepare cadets for life as a second lieutenant. This is a great time for instructors to include any information they feel would help their cadets as they transition from military life to civilian life.

ARC4058 - Fundamentals of Digital Design

Overview

Subject code
ARC

Catalog Number
4058

Course Title
Fund of Digital Design

Career
Undergraduate

Course Description
Introduction to two dimensional and three dimensional computer-aided design. Focus upon skill and knowledge creation through the analysis and representation of case-studies.

Credits

Minimum Credits:
3

Maximum Credits:
3

ARC4114 - Special Projects

Overview

Subject code
ARC

Catalog Number
4114

Course Title
Special Projects

Career
Undergraduate

Course Description
Will focus on the development of adequate drawing skills in relationship to the understanding of a building and a site through sketching, graphic analysis, measured drawings, rendering and presentation. The course consists of site visits and workshops.

ART4642C - TRANSMEDIA: Digital / Analog

Overview

Subject code
ART

Catalog Number
4642C

Course Title
Digital / Analog

Career
Undergraduate

Course Description
Introduces techniques for designing and fabricating art objects that blend digital components with material exploration. Projects emphasize the integration of digital tools and traditional media, encouraging innovative approaches to creation through a combination of analog and digital processes. May be repeated. Prerequisites: ART 1201C, ART 1203C, ART 2300C, ART 2608C, ART 3820

AST1002 - Descriptive Astronomy

Overview

Subject code
AST

Catalog Number
1002

Course Title
Descriptive Astronomy

Career
Undergraduate

Course Description
This course provides a comprehensive look at modern astronomy, emphasizing the use of the scientific method and the application of physical laws to understand the Universe including Earth and its environment. Throughout this course, students will develop the ability to discern scientific knowledge from non-scientific claims by using critical thinking.

BCN5784 - Construction Information Systems

Overview

Subject code
BCN

Catalog Number
5784

Course Title
Const Info Sys

Career
Graduate

Course Description
The application of information management techniques, including computer hardware and software systems, to the analysis and solution of typical problems in the practice of construction management.

BCN5792 - Total Quality Management and Planning in Construction

Overview

Subject code
BCN

Catalog Number
5792

Course Title
TQM and Plng in Cnst

Career
Graduate

Course Description
The application of TQM philosophy and tools developed by Deming, Juran, Crosby and ISO 9000 standards to solving construction industry related problems will be discussed. Strategic planning as it relates to construction will also be covered in this course.

BME4800C - Design of Biomedical Systems and Devices

Overview

Subject code
BME

Catalog Number
4800C

Course Title
Des Biomed Devices

Career
Undergraduate

Course Description
Introduction to BME design with emphasis on materials selection, product and process development, mathematical modeling, and statistical analysis using modern software tools in the device design process. This is the first of a two-course sequence. Students are expected to take BME 4980 during the immediate subsequent semester (which may be summer).

BME6265 - Fluid Mechanics Applications in Physiological Systems

Overview

Subject code
BME

Catalog Number
6265

Course Title
Fluid Mechanics Appl Phys Sys

Career
Graduate

Course Description
Fluid mechanics principles including finite element and finite difference methods as it is applied to the analysis of various physiological systems will be covered. Process flow, diffusion and transport will be discussed in cardiovascular and pulmonary systems. Application of these primarily in the design of heart-lung machines, dialysis units, and heart valves will be discussed.

BMS6016 - Clinical Skills II

Overview

Subject code
BMS

Catalog Number
6016

Course Title
Clinical Skills II

Career
College of Medicine

Course Description
Clinical Medicine is a longitudinal strand throughout the four-year medical school curriculum. The strand is designed to provide students with the foundations of patient care. Clinical Skills II (CS II) will prepare students for their clinical clerkship years and provide them with the tools necessary for a lifetime of clinical competence. CS II continues to develop and foster the basic concepts emphasized during CS I and incorporates more advanced interviewing, communication, and physical examination skills. In addition, CS II focuses on the development and practice of clinical reasoning skills by emphasizing the correlation of findings on history and physical examination with underlying pathophysiology, test results, and the ability to develop and refine a working differential diagnosis. The topics addressed in CS II will be aligned with the course work presented contemporaneously in other courses and strands. For example, the cardiovascular examination will be covered during the cardiovascular organ system module. Prerequisite: Enrolled in the Herbert Wertheim College of Medicine.

BMS6040 - Organ Systems III

Overview

Subject code
BMS

Catalog Number
6040

Course Title
Organ Systems III

Career
College of Medicine

Course Description
This course introduces students to the fundamental principles of gastrointestinal and renal systems. Students will acquire critical thinking skills to develop and prioritize a differential diagnosis, recommend and interpret diagnostic tests, and propose and justify management plans. Case-based approaches, group discussions, simulations, and didactic presentations, with some exposure to clinical skills, will be used to achieve course objectives.This course has two units: The Gastrointestinal System and Nutrition unit introduces students to the structure and function of the digestive system, and their integration with abnormal processes and clinical medicine. The Renal System unit offers a comprehensive introduction to the renal system, and kidney-related disease mechanisms and renal pathophysiology

BMS6041 - Foundations II

Overview

Subject code
BMS

Catalog Number
6041

Course Title
Foundations II

Career
College of Medicine

Course Description
This course is designed to provide students with an overview of microbiology, immunology, pathology and pharmacology, and lays the groundwork that will be useful during the subsequent courses within the Organ Systems modules. The course has four units: The Microbiology unit is an overview of microbes, including bacteria, viruses, fungi, parasites, and prions, important to human disease and disease processes. The Immunology unit is an overview of immune responses and focuses on innate and adaptive immune systems, immunopathology, and the immune response to tumors and transplantation. The Pathology unit is an introduction to general pathology concepts, forensic medicine, laboratory medicine, and pediatric and genetic disorders.The Pharmacology unit is an introduction to the basic principles of pharmacology and the primary classes of drug therapy, including prototypic agents.

BMS6066 - Clinical Research and Evidence-Based Medicine II

Overview

Subject code
BMS

Catalog Number
6066

Course Title
Clin. Research & EBM II

Career
College of Medicine

Course Description
This course is a continuation of the first-year course, emphasizing the advanced application of clinical and epidemiological research and skills for interpreting or conducting research and practicing evidence-based medicine (EBM). The emphasis of the second-year course is on experimental (randomized controlled trials) and integrative research designs (systematic reviews, meta-analysis, and clinical practice guidelines), as well as on the assessment and clinical use of diagnostic tests. This course also introduces the most common complementary and integrative medicine (CIM) therapies used by patients in the U.S. Students interact with CIM practitioners, review patient cases, and discuss clinical applications. Students are required to work on clinical cases, formulate PICO questions, search clinical evidence-based literature (learned in EBM) and apply that knowledge to advise patients on the safety, efficacy, and appropriateness of CIM therapies and OTC medications.

BMS6071 - Community Engaged Physician II

Overview

Subject code
BMS

Catalog Number
6071

Course Title
CEP II

Career
College of Medicine

Course Description
This Community-Engaged Physician I course is part of the Medicine and Society strand and encompasses the Green Family Foundation Neighborhood Health Education Learning Program (NeighborhoodHELP). This service-learning course integrates the community-engaged household visit experiences of NeighborhoodHELP with active learning class sessions. It aims to provide students the skills to assess the social determinants of health while simultaneously providing household-centered care in collaborative interprofessional teams. Students will learn the fundamentals of health education, health promotion, appropriate screening and preventive health services, and chronic disease management while having the opportunity to reflect critically on these activities during their household visits. With its emphasis on community medicine, the course also builds on concepts of population health and health disparities introduced in prior courses and culminates in a community-based group project. Prerequisite: Enrolled in the Herbert Wertheim College of Medicine.

6100

Course Title
Structure of Human Body

Career
College of Medicine

Course Description
This course is designed to introduce first year medical students to essential concepts of the structure of the human body, including early human development, composition of different tissues, and organ morphology. Basic concepts of embryology, histology, and gross anatomy from the microscopic to the organ system level are taught as the foundation for an in-depth understanding of the physiology of the human body and of clinical medicine. Lectures, laboratory sessions, and case presentations will be used to deliver course objectives. Prerequisite: Enrolled in the Herbert Wertheim College of Medicine.

BMS6400 - Pharmacology

Overview

Subject code
BMS

Catalog Number
6400

Course Title
Pharmacology

Career
College of Medicine

Course Description
This course is an introduction to the basic principles of pharmacology and to the primary classes of drug therapy, including the prototypic agents. The main goal of the medical training (curriculum) is to develop the diagnostic and therapeutic skills (competencies) required by a basic doctor. Safe and effective prescribing is a core competency. In addition, learning should provide an appropriate framework fostering the ability to assimilate information about new drug development that will occur throughout a professional career (self-directed learning). The Pharmacology teaching is designed with this final goal (to attain a core competency) in mind and reflects the paradigm shift from a process-focused education to an outcome-oriented education. Prerequisite: Enrolled in the Herbert Wertheim College of Medicine.

BMS6500 - Integrated Functions of the Human Body

Overview

Subject code
BMS

Catalog Number
6500

Course Title
Integrated Function-Human Body

Career
College of Medicine

Course Description
The course is designed to introduce first year medical students to essential concepts of physiology and immunology. The goal is to provide the students with a strong foundation relevant to their understanding of pathological conditions and to their future diagnostic and therapeutic decision making. Physiology is taught using an organ system approach, emphasizing the interplay of molecules, cells, tissues, organs and systems to maintain normal function of the human body. Normal and abnormal functions of the immune system are introduced. Integration of immunology with organ system physiology is emphasized. Prerequisite: Enrolled in the Herbert Wertheim College of Medicine.

BMS6603 - Pathology and Infectious Disease

Overview

Subject code
BMS

Catalog Number
6603

Course Title
Pathology and Infectious Disea

Career
College of Medicine

Course Description
Pathology and Infectious Disease is an introductory course in the study of disease and the general principles of infectious disease. The Pathology component of the course will emphasize the general concepts and vocabulary to lay the groundwork that will be useful during the subsequent courses within the organ systems modules. Areas covered in this course include general concepts of histology, cellular adaptations, necrosis, apoptosis, inflammation, repair, hemodynamic disorders, neoplasia, and pathology as it relates to nutritional / environmental factors, as well as an introduction to forensic medicine and pediatric and genetic disorders. In addition, during this course the students will also receive general concepts relating to clinical laboratory medicine and regulatory organizations allied to the field of medicine and hospital oversight in a 2 hour lecture referred to as fundamentals of laboratory medicine, followed by a one hour practical in the classroom. The Infectious Disease component includes an overview of microbes, including bacteria, viruses, fungi, and parasites, important to human disease and disease processes. Specific topic areas of this component of the course include microbial disease, virulence mechanisms, evasion strategies used by pathogens against the antimicrobial immune response, and innate antimicrobial mechanisms. General concepts (building blocks for comprehending organ-specific pathology presented in Period 2) are emphasized in this introductory course. Prerequisite: Enrolled in the Herbert Wertheim College of Medicine.

BMS6631 - Hematopoietic and Lymphoreticular Systems

Overview

Subject code
BMS

Catalog Number
6631

Course Title
Hematop and Lymph Systems

Career
College of Medicine

Course Description
This course is designed to provide the fundamental ground knowledge as it relates to the understanding of hematologic diseases, the clinical approach to a patient with a hematologic disease and the initial approach to the use of various chemotherapeutic drugs. Discussions related to: the mechanisms of disease with an understanding of the molecular bases that explain the disease process; the clinical features of the different disorders - genetic or acquired - as well as a description of the morphologic features of these diseases based on the most current available and clinically applicable information. Prerequisite: Enrolled in the Herbert Wertheim College of Medicine.

BMS6632 - Endocrine System

Overview

Subject code
BMS

Catalog Number
6632

Course Title
Endocrine System

Career
College of Medicine

Course Description
This Endocrine System course: (1) Introduces medical students to the abnormal processes and principal therapies of endocrine disorders, building upon the specific topics discussed in the course Integrated Functions of the Human Body and Structure of the Human Body; (2) Advances medical students' knowledge and comprehension of the aforementioned disorders and therapeutic modalities, including the influence and effects of gender, ethnicity, and behavior of patients on specific endocrine diseases. To provide an interactive teaching and learning environment, the course includes 'question and answer' sessions interspersed during the lectures as well as case discussions. A solid understanding of normal endocrine processes (including hormone synthesis, secretion, action, and metabolism) and anatomy and function of endocrine organs are required to successfully master this course. Prerequisite: Enrolled in the Herbert Wertheim College of Medicine.

BMS6633 - Organ Systems IV

Overview

Subject code
BMS

Catalog Number
6633

Course Title
Organ Systems IV

Career
College of Medicine

Course Description
This course introduces students to the basic principles of cardiac and pulmonary medicine. Students will acquire critical thinking skills to develop and prioritize a differential diagnosis, recommend and interpret diagnostic tests, and propose and justify management plans. Case-based approaches, group discussions, simulations, and didactic presentations, with some exposure to clinical skills, will be used to achieve course objectives.The cardiovascular unit introduces students to the relationship between structure and function of the cardiovascular system, and their integration with abnormal processes and clinical medicine. The respiratory unit introduces students to normal structure and function of the respiratory system, and their integration with abnormal processes and clinical medicine

BMS6634 - Gastrointestinal System and Medical Nutrition

Overview

Subject code
BMS

Catalog Number
6634

Course Title
Gastro Syst and Med Nutri

Career
College of Medicine

Course Description
This course is designed to introduce second year medical students to the principles of diseases affecting the human body's digestive system. The course will cover conditions affecting the hollow viscera (esophagus, stomach, small intestine and colon) as well as solid organs that are part of the digestive system (liver and pancreas). Clinical cases will be used to introduce students to critical medical thinking and problem-based learning. Integration of anatomy, physiology, immunology and histology will be emphasized. Prerequisite: Enrolled in the College of Medicine.

BMS6635 - Musculoskeletal Systems

Overview

Subject code
BMS

Catalog Number
6635

Course Title
Musculoskeletal Systems

Career
College of Medicine

Course Description
This second year medical school course is designed to provide students the opportunity to learn the normal development, structure, and function of the musculoskeletal system, expanding upon the foundations from the first-year anatomy course. Common congenital and acquired pathologic conditions, as well as interpretation of diagnostic tests and basic treatment options are reviewed. The following areas are emphasized: effects of environment, nutrition, exercise, and aging on bone and joint homeostasis; radiological assessment and correlation with pathoanatomy; infectious, neoplastic, and mechanical disorders affecting the musculoskeletal system; basis of autoimmunity, rheumatologic diseases and inflammatory disorders. The course provides opportunities to learn and assess application of pathophysiologic reasoning as well as clinical, laboratory and radiologic findings to assist in differential diagnosis with review of treatment strategies. Prerequisite: Enrolled in the Herbert Wertheim College of Medicine.

BMS6636 - Nervous System and Behavior I

Overview

Subject code
BMS

Catalog Number
6636

Course Title
Nervous Syst Behavior I

Career
College of Medicine

Course Description
This course provides an integrated, multidisciplinary overview of the structural and functional relationships of the central and peripheral nervous systems under both healthy and diseased conditions. The course covers essential concepts in normal and pathologically altered neurological functions (using neuroanatomy, neurophysiology, neuropharmacology, neuropathology, and clinical neurology). The goal of the course is to give students the skills to develop and prioritize a differential diagnosis, localize lesions based on diagnostic tests and neurological signs, explain the patient's signs and symptoms, as well as propose and interpret diagnostic tests and approaches to therapy. The format of the course includes lectures, laboratory work, small-group case-based discussions, and clinical correlates presented through a variety of application exercises and case discussions. Prerequisite: Enrolled in the Herbert Wertheim College of Medicine.

BMS6826 - Ethical Foundation of Medicine

Overview

Subject code
BMS

Catalog Number
6826

Course Title
Ethical Foundation of Med

Career
College of Medicine

Course Description
This course gives students a foundation in bioethics and the obligations of medical practice as coming from a social contract. It serves as the foundational course to prepare students to make daily ethical decisions related to ethical issues, challenges, and dilemmas they will encounter as students and socially accountable physicians. The course provides historical background on the social and moral foundations of modern medicine. Students review the major medical oaths and codes; work through cases; and analyze the ethical basis of decision-making by focusing on informed consent and advance care planning. They discuss the social and cultural factors in patient-doctor interaction, including implicit bias. Students are also introduced to the role and value of the humanities and arts in medicine. Prerequisite: Enrolled in the Herbert Wertheim College of Medicine.

BMS6827 - Community Engaged Physician I

Overview

Subject code
BMS

Catalog Number
6827

Course Title
CEP I

Career
College of Medicine

Course Description
This course will serve as an introduction to the community engaged physician course series, the longitudinal service-learning program that encompasses the Green Family Foundation Neighborhood Health Education Learning Program (NeighborhoodHELP). It aims to provide a foundation of empirical knowledge for understanding and promoting health in communities and working with vulnerable populations. The course places special emphasis on cultural humility, health equity, and the social determinants of health. Students also begin to develop collaborative skills to work effectively as part of interprofessional teams. Prerequisite: Enrolled in the Herbert Wertheim College of Medicine.

BMS6880 - Clinical Research and Evidence-Based Medicine I

Overview

Subject code
BMS

Catalog Number
6880

Course Title
Clinical Research & EBM I

Career
College of Medicine

Course Description
This course introduces the foundations and methods of clinical and epidemiological research and to the knowledge and the skills for practicing evidence-based medicine (EBM). The main perspective is the use of quantitative methods to address clinical or epidemiological research questions, as well as the use of research to inform the practice of medicine. Concepts from the sciences of clinical epidemiology and biostatistics will be used to complete "EBM steps" including searching clinical evidence, critically appraising the validity and importance of clinical research evidence, and determining the applicability of evidence into practice to help solving clinical problems.

BMS6891 - Professional Identity and Medical Humanism I

Overview

Subject code
BMS

Catalog Number
6891

Course Title
Prof Id & Med Humanism I

Career
College of Medicine

Course Description
This course has two components: Professional Identity and Medical Humanism. Professional Identity is a course within the Professional Development Strand designed to introduce and teach awareness of certain values, emotions, attitudes, behaviors, and helps students develop skills for self-reflection. This courseaims to prepare the future physician emotionally for the many diverse psychological experiences associated with the clinical setting and professional life. It challenges students to have an awareness of their biases, behavioral and personal issues, along with understanding the emotional stress found in practicing medicine, and how these personal stressors can impact patient care and health outcomes.Medical humanism introduces students to mindfulness practice and asks them to reflect on compassion, empathy, the core professional values of medicine, and their own personal values as related to their future and current work in healthcare. Prerequisite: Enrolled in the Herbert Wertheim College of Medicine.

BMS6892 - Professional Identity and Medical Humanism II

Overview

Subject code
BMS

Catalog Number
6892

Course Title
Prof Id & Med Humanism II

Career
College of Medicine

Course Description
This course is a continuation of the Period 1 Professional Identity and Medical Humanism I experience. Where the focus of the course during Period 1 was on self-awareness, Period 2 goes more into depth in the development of self-awareness and the development of the emerging MD Identity. Class sessions are structured using the same approach with the introduction, history, development, and implications of the Values, Emotions, and Attitudes (VEAs) on medical practice. However, the vignettes are more evidence-based and discussions include reflections of the student's clinical experiences as they relate to the VEA. Additionally, the VEAs presented in the class session are more comprehensive andidentify greater implications for the MD. Prerequisite: Enrolled in the Herbert Wertheim College of Medicine.

BMS6893 - Profession of Medicine I

Overview

Subject code
BMS

Catalog Number
6893

Course Title
Profession of Medicine I

Career
College of Medicine

Course Description
This course has four units. Professional Identity & Medical Humanism I introduces the values, emotions, and attitudes essential for medical professionalism. It challenges students to recognize personal biases and how emotional stressors impact patient care.Ethical Foundation of Medicine introduces bioethics and obligations of physicians to prepare students to face ethical dilemmas. It provides historical background on social/moral foundations of medicine and analyzes the ethical basis of decision-making.End-of-Life Care (EOL) addresses basic concepts associated with adult EOL care, emphasizing symptom management, preparation for death, and family support. Strategies for EOL care planning for patients, families, and health care professionals are implemented.Health Systems Science demonstrates how the care of populations is delivered, interdisciplinary teamwork in healthcare, and how the healthcare system can improve patient quality, safety, and value in the delivery of care.

BSC2011 - General Biology II: Diversity of Life, Organismal Structure and Function

Overview

Subject code
BSC

Catalog Number
2011

Course Title
General Biology II

Career
Undergraduate

Course Description
This course explores the question, what is life? Students will critically examine how microbes, plants, and animals are adapted to their environment, how they function, and how they interact with each other. Students will analyze the branches of the tree of life and learn how to reconstruct the evolution of this vast biodiversity, how it benefits us, and how it can be conserved and sustained. Throughout the course, students will develop scientific inquiry skills by analyzing evidence about the natural world. Concurrent registration in both lecture and lab is required.

BSC2921 - QBIC Journal Club I

Overview

Subject code
BSC

Catalog Number
2921

Course Title
QBIC Journal Club I

Career
Undergraduate

Course Description
Topics complement General Biology I Lecture (BSC 1010) and reinforce concepts QBIC students learn in that class through discussion of relevant scientific literature.

Credits

Minimum Credits:
1

Maximum Credits:
1

BSC3400 - Wildlife Conservation, Forensic and Crime Science

Overview

Subject code
BSC

Catalog Number
3400

Course Title
Wildlife Forensics

Career
Undergraduate

Course Description
An interdisciplinary approach to wildlife conservation, critical aspects of conservation strategy as it relates to illegal trafficking and the role of forensics/crime science in its prevention. [B] Prerequisite: BSC2010, BSC2011

Credits

Minimum Credits:
3

Maximum Credits:

BSC3441L - Phage Genomics Lab

Overview

Subject code
BSC

Catalog Number
3441L

Course Title
Phage Genomics Lab

Career
Undergraduate

Course Description
Phage genomics lab introduces students to annotation of complete phage genomes using a variety of bioinformatics programs. Prerequisite: BSC 2010 and BSC 2010L

Credits

Minimum Credits:
1

Maximum Credits:
1

BSC3456L - Python for Biologists Lab

Overview

Subject code
BSC

Catalog Number
3456L

Course Title
Python for Biologists Lab

Career
Undergraduate

Course Description
Python for Biologists Lab introduces the programming skills, statistical methods and conceptual foundations necessary to pursue computational analysis and modeling of biological systems. Prerequisite: BSC 2010 and BSC 2011

Credits

BSC3466L - Make Your Mutant

Overview

Subject code
BSC

Catalog Number
3466L

Course Title
Make Your Mutant

Career
Undergraduate

Course Description
Mutating existing proteins to study their structure/function relationship in their relation to health and disease. Good preparation for going into biotech, biomedical and biopharma fields. Corequisite: PCB 3063 or BCH 3033

Credits

Minimum Credits:
1

BSC3814 - Research in Peer-led Biology learning

Overview

Subject code
BSC

Catalog Number
3814

Course Title
Bio Peer-led learning

Career
Undergraduate

Course Description
This course is a training program designed to prepare PLTL research assistants by focusing on the practical skills needed to contribute to the PLTL research team. Throughout the semester, students will function as a junior research team, developing the collaborative and technical skills essential for their future roles. Prerequisite: BSC 2010 and BSC 2011

BSC3848 - Junior Seminar in Biology: Evidence, Communication, and Careers

Overview

Subject code
BSC

Catalog Number
3848

Course Title
Junior Seminar in Biology

Career
Undergraduate

Course Description
Designed for biology majors in their junior year, this course prepares students for research, advanced coursework, and post-graduation pathways.

Credits

Minimum Credits:
1

Maximum Credits:
1

BSC3910 - Research Methods in Biological Sciences

Overview

Subject code
BSC

Catalog Number
3910

Course Title
Biology Research Methods

Career
Undergraduate

Course Description
Experimental development and design for future biology teachers. Independent biological sciences experiments are designed, conducted and analyzed. Includes statistical analysis techniques. Prerequisite: SMT2662 or SMT2044

Credits

Minimum Credits:
3

Maximum Credits:
3

BSC3930 - CAChE Discovery 2: Professional Pathways in Aquatic and Environmental Science

Overview

Subject code
BSC

Catalog Number
3930

Course Title
CAChE Discovery 2

Career
Undergraduate

Course Description
Explores the options for students to pursue careers and graduate work in STEM fields, through professional development training in resume building and improved written and oral communication skills.

BSC4441L - SEA-GENES

Overview

Subject code
BSC

Catalog Number
4441L

Course Title
SEA-GENES

Career
Undergraduate

Course Description
Students will design, run, and interpret experiments that will uncover the relevance and possible function of phage genes, previously annotated through bioinformatic methods. Prerequisite: BSC 3441L OR PCB 3063

Credits

Minimum Credits:
1

Maximum Credits:

CAI4664 - AI Fairness for Responsible Intelligence

Overview

Subject code
CAI

Catalog Number
4664

Course Title
AI Fairness

Career
Undergraduate

Course Description
Introduces fairness and bias in artificial intelligence systems, emphasizing conceptual understanding and practical application of responsible AI principles, how bias arises in data and algorithms, explores fairness metrics and debiasing methods. and applies these techniques to real-world examples in text, image, and network data.

CAI4775 - Advanced Computational Methods in Health and Biomedical Data

Overview

Subject code
CAI

Catalog Number
4775

Course Title
Adv Comp Meth Biomed Data

Career
Undergraduate

Course Description
Provides a comprehensive introduction to solving complex biomedical data challenges using algorithmic and machine-learning techniques. It blends the fundamental principles of biomedical data generation (Mass Spec, EEG, MRI, PET, EHR) and advanced computational methods to gain useful health insights. Prerequisite: COP3530 or CAP3764

CAI4841 - Introduction to Computer Vision

Overview

Subject code
CAI

Catalog Number
4841

Course Title
Intro to Computer Vision

Career
Undergraduate

Course Description
Computer Vision is a rapidly expanding area and it is becoming progressively easier for developers to make use of this field due to the ready availability of high quality libraries (such as OpenCV 2). This course is intended to facilitate the practical use of computer vision with the goal being to bridge the gap between the theory and the practical implementation of computer vision.

CAI4868 - Fundamentals of AI Security in ECE

Overview

Subject code
CAI

Catalog Number
4868

Course Title
Fund of AI Security

Career
Undergraduate

Course Description
This course introduces the basic topics of applying AI to solve cybersecurity challenges unique to ECE, including the evaluation of machine learning models for detecting attacks and anomalies, conduct cybersecurity tasks such as phishing detection, intrusion detection, and malware classification in low-level, performance-critical platforms. Prerequisite: CNT 4153, CNT 4149

CAI5026 - Artificial Intelligence Ethics

Overview

Subject code
CAI

Catalog Number
5026

Course Title
AI Ethics

Career
Graduate

Course Description
Artificial intelligence (AI) and its applications continue to evolve and expand, informing decision-making and generating new content. However, AI can also raise questions about issues like bias, disinformation, and privacy. Given the potential implications, it is important to consider the role of ethics and the responsibilities of humans. This course will explore the scope of AI, discuss how to anticipate risks and safeguard users rights, and reflect on how choices made could impact society.

CAI5668 - Artificial Intelligence Fairness for Responsible Intelligence

Overview

Subject code
CAI

Catalog Number
5668

Course Title
AI Fairness

Career
Graduate

Course Description
This course introduces algorithmic fairness as a foundation for responsible intelligence, focusing on computational methods to identify and mitigate bias in both traditional and modern AI systems, including large language models (LLMs). It covers fairness definitions, data representation, and societal impact across modalities with case studies.

CAI5738 - Foundations of Blockchain Technologies

Overview

Subject code
CAI

Catalog Number
5738

Course Title
Blockchain Technologies

Career
Graduate

Course Description
This graduate-level course provides a comprehensive study of blockchain systems, distributed consensus, and smart contract development. It explores decentralized applications (DApps), consensus algorithms (Proof-of-Work, Proof-of-Stake, and BFT variants), and blockchain applications across industries. Prerequisite: CIS 5371.

CAI5747 - Artificial Intelligence Security Fundamentals

Overview

Subject code
CAI

Catalog Number
5747

Course Title
AI Security Fundamentals

Career
Graduate

Course Description
This course offers a comprehensive foundation in AI security, covering threats and defenses across the entire AI lifecycle. Emphasizing both theoretical principles and hands-on practice, this course equips students to assess and enhance the security of AI systems while engaging with emerging research topics in the field.

CAI5777 - Advanced Algorithmic and Machine-Learning for Health and Biomedical Data

Overview

Subject code
CAI

Catalog Number
5777

Course Title
Adv Algo ML Biomed Data

Career
Graduate

Course Description
This course explores advanced ML models applied to biomedical and health data. You will engineer multi-modal fusion pipelines for mass spec, proteomics, and neuroimaging to decode complex latent structures and solve clinical and biomedical data problems. Prior undergraduate experience in data structures or advanced data science is preferred.

CCJ2020 - Introduction to Criminal Justice

Overview

Subject code
CCJ

Catalog Number
2020

Course Title
Criminal Justice

Career
Undergraduate

Course Description
Students will gain an understanding of basic social and behavioral concepts and principles through the study of the criminal justice system. Against this backdrop, a range of topics will be covered. For example, police organization and behavior, the courts, the juvenile justice system, corrections, philosophies of punishment, and offender reintegration, are all included in the curriculum for the semester. Emphasis will be placed on how the criminal justice system operates, the different problems with the criminal justice system, and ways in which these problems can be overcome. By the end of this course, you will be able to demonstrate a thorough understanding of the main issues that are directly relevant to criminal justice theory and research.

CEG6017 - Theoretical Geotechnical Mechanics

Overview

Subject code
CEG

Catalog Number
6017

Course Title
Theo Geo Mechanics

Career
Graduate

Course Description
A continuum mechanics interpretation of geotechnical engineering; soil rheology; theories of yielding; failure and plastic stability. Analytical and numerical modeling of non-linear properties. Prerequisites: CEG 4012C and MAP 2302. Suggested corequisite: MAP 4401.

CHM1020 - Chemistry and Society

Overview

Subject code
CHM

Catalog Number
1020

Course Title
Chemistry & Society

Career
Undergraduate

Course Description
This course provides students with an introduction to chemical principles and applications for the non-science major. Students will engage in problem solving and critical thinking while applying chemical concepts. Topics will include the scientific method of problem solving, classification of matter, atomic theory, the periodic table, gases, chemical reactions, energy, and chemical bonds. Prerequisites: One year of high school or college algebra. (Lab fees assessed) (F,S,SS)

CHM1045 - General Chemistry I

Overview

Subject code
CHM

Catalog Number
1045

Course Title
Gen Chemistry I

Career
Undergraduate

Course Description
This course is designed for students pursuing careers in the sciences or who need a more rigorous presentation of chemical concepts than is offered in an introductory course. Students will engage in problem solving and critical thinking while applying chemical concepts. Topics will include the principles of chemistry including atomic theory, electronic and molecular structure, measurement, stoichiometry, bonding, periodicity, thermochemistry, nomenclature, solutions, and the properties of gases. Concurrent registration in both lecture and laboratory is required. (Lab fees assessed)

CHM2097 - General Chemistry for Engineers

Overview

Subject code
CHM

Catalog Number
2097

Course Title
Chemistry for Engineers

Career
Undergraduate

Course Description
This course provides a comprehensive introduction to chemical principles critical to engineering. Topics include atomic and molecular structure, stoichiometry, thermodynamics, kinetics, equilibrium, organic and materials chemistry. Emphasis is placed on analytical and problem-solving skills necessary for solving real-world engineering problems. Prerequisite: MAC1105, MAC1114, MAC1140, or MAC1147 Corequisite: CHS2440L or CHM 1045L

Overview

Subject code
CHM

Catalog Number
3931

Course Title
Cornerstone Seminar Chem

Career
Undergraduate

Course Description
Cornerstone Seminar in Chemistry and Biochemistry (1). For chemistry and biochemistry majors. We explore careerpaths, develop professional skills, review academic and professional pathways available to chemistry and biochemistry majors to allow students to advance their goals. This course is repeatable. prerequisite: Student must be a chemistry or biochemistry major and must have successfully completed CHM 1046 (General Chemistry 2 lecture) and CHM 1046L (General Chemistry 2 lab) with a grade of C or higher. Corequisite: Student must be a chemistry or biochemistry major enrolled in CHM 2210 (Organic Chemistry 1 lecture) and CHM 2210L (Organic Chemistry 1 lab) or any of the upper-level chemistry lecture and corresponding lab.

CHM4220 - Advanced Organic Chemistry

Overview

Subject code
CHM

Catalog Number
4220

Course Title
Adv Org Chem

Career
Undergraduate

Course Description
An intensive examination of the major areas of contemporary organic chemistry. Reactive intermediates, pericyclic reactions, molecular rearrangements, and modern synthetic methods are among the topics covered.

Credits

Minimum Credits:
3

Maximum Credits:
3

CHM4910L - Undergraduate Research in Chemistry

Overview

Subject code
CHM

Catalog Number
4910L

Course Title
Under Res Chem

Career
Undergraduate

Course Description
The student works directly with a professor on a research project. Credit is assigned based on 4 hr/wk laboratory/library work per credit hour. A written report is required. Report must be submitted to the Undergraduate Research Committee for approval. For additional credits of undergraduate research student must register for CHM 4911L.

CHM5138 - Advanced Mass Spectrometry

Overview

Subject code
CHM

Catalog Number
5138

Course Title
Adv Mass Spec

Career
Graduate

Course Description
Intensive examination of the processes and techniques involved in creating, controlling and measuring ionic species by mass spectrometry. Theory of mass spectrometry, methods of ionization, instrumental designs, quantitative mass spectrometry, meta-stable ions, and tandem mass spectrometry. Prerequisites: CHM 4130, CHM 4130L or Permission of Instructor.

CHS5538C - Chemistry and Analysis of Drugs

Overview

Subject code
CHS

Catalog Number
5538C

Course Title
Chem Analysis Drugs

Career
Graduate

Course Description
Introduction to the chemistry of drugs of abuse, including reactivity, synthesis and the principles of analysis from solid doses and from body fluids. Laboratory analysis through the determination of unknown samples. Prerequisites: CHM 4130, CHM 4130L, CHM 4304, CHM 4304L.

CHS5539 - Forensic Toxicology

Overview

Subject code
CHS

Catalog Number
5539

Course Title
Forensic Toxicology

Career
Graduate

Course Description
Provides the basic concepts of forensic toxicology as it applies to drug and body fluid analysis. Prerequisites: CHM 2211+L, CHM 3120+L, CHM 4305+L (BCH 3033+L) or permission of instructor.

CHS5542 - Forensic Chemistry

Overview

Subject code
CHS

Catalog Number
5542

Course Title
Forensic Chemistry

Career
Graduate

Course Description
Advanced analytical methods in Forensic Chemistry for application to the analysis of controlled substances, materials (ie., paint, glass, and fibers), flammable and explosives residues with an emphasis on new methods and method development.

CHS5545 - Chemistry and Analysis of Explosives

Overview

Subject code
CHS

Catalog Number
5545

Course Title
Chem Explosives

Career
Graduate

Course Description
Chemistry and reactivity, including thermochemistry, of modern industrial and military explosives' with an emphasis on the analysis of explosives residues from post-blast debris and from samples of environmental interest. Prerequisites: CHM 4130, CHM 4130L.

CHS5571 - Artificial Intelligence Driven Forensics

Overview

Subject code
CHS

Catalog Number
5571

Course Title
AI Driven Forensics

Career
Graduate

Course Description
A course exploring how artificial intelligence (AI) is transforming various aspects of forensic science. Discusses the capabilities and limitations of AI in forensic analysis methods. Prerequisite: Admission to Forensic Science (PSM) or Forensic Science (MS) or Chemistry (PhD) Forensic Science track or Permission of Instructor.

CHS6946 - Graduate Forensic Internship

Overview

Subject code
CHS

Catalog Number
6946

Course Title
Grad Forens Intern

Career
Graduate

Course Description
Internship in an operational forensic laboratory, contributing in a specific manner on an assigned research project. Six hours a week minimum residence time per credit in the lab under the supervision of a host lab scientist and a faculty member is required. A final written report and presentation required. Prerequisite: Core courses in Forensic M.S. Program.

CLP6426 - Neuropsychology

Overview

Subject code
CLP

Catalog Number
6426

Course Title
Neuropsychology

Career
Graduate

Course Description
Introduces students to basic foundations and some advanced concepts in Neuropsychology, with a focus on clinical applications. Topics covered will include functional neuroanatomy, brain disorders across the lifespan, and assessment of neuropsychological functions. Prerequisite: Permission of the instructor.

COM4958 - Senior Capstone Seminar: Integrated Campaign

Overview

Subject code
COM

Catalog Number
4958

Course Title
Campaigns

Career
Undergraduate

Course Description
The senior capstone seminar synthesizes the major curriculum components through an integrated communication campaigns working with real organizations and evaluated by communication experts. Prerequisite: MMC 3303, MMC 4200, MMC 3123 or COM3714, IDS 3309, VIC 3400, (ADV 3008 or PUR 3000), (MMC 4609 or COM 4310), ADV4323, COM 3520, PUR 4101, and 102 earned credits.

4323

Course Title
Politcs Caribbean

Career
Undergraduate

Course Description
Studies the political system of the major British, French, Dutch, and Spanish areas in the Caribbean basin. Attention is focused on such factors as political party democracies in a non-industrial setting. The paradoxes between modernity and tradition throughout the developing Caribbean, and the relationship between politics, economics, and culture are discussed. The student is helped to understand the dynamics of change in an important area of the world and to compare those dynamics with change in his own country.

CPO4333 - Politics of Central America

Overview

Subject code
CPO

Catalog Number
4333

Course Title
Pol Central America

Career
Undergraduate

Course Description
This course analyzes the historical and contemporary political dynamics of the five countries of Central America. Special attention is given to problems of development and modernization within the context of the region's economic dependence on the United States. Special attention is given to the problem of political restraints on the modernization process and to those regional arrangements which have been created to solve the area's problems. The student will develop a better understanding of a region which has close ties to the United States.

DIG2729 - Game Engine Programming

Overview

Subject code
DIG

Catalog Number
2729

Course Title
Game Engine Programming

Career
Undergraduate

Course Description
This course introduces students to game engine programming using C++, C#, and Unity, learning foundational concepts for game development. By the end of the course, students will be able to create simple games and understand programming logic behind game engines. Prerequisites: DIG 2321, DIG 2461, DIG 2721 or permission from the instructor.

ECH3271 - Introduction to Heat and Mass Transfer

Overview

Subject code
ECH

Catalog Number
3271

Course Title
Intro Heat and Mass Trans

Career
Undergraduate

Course Description
This course provides a foundational understanding of the principles and mechanisms of heat and mass transfer. Focus will be on mass diffusion and convective mass transfer and their interaction with the heat transfer mechanisms of conduction, convection, and radiation. Students will learn how to apply these principles to solve practical engineering problems.

ECH5106 - Chemical Engineering Thermodynamics

Overview

Subject code
ECH

Catalog Number
5106

Course Title
CHE Thermodynamics

Career
Graduate

Course Description
Provides an exploration of advanced thermodynamic principles and their applications in chemical engineering. Topics include advanced equations of state, activity coefficient models, phase equilibrium in complex systems, chemical reaction equilibria in non-ideal conditions, and thermodynamic property estimation for multicomponent systems. Statistical thermodynamics concepts may also be applied through the use of analytical theory and computational molecular modeling. Prerequisite: CHM1045, EGN3343, Or permission by Instructor

ECO2023 - Principles of Microeconomics

Overview

Subject code
ECO

Catalog Number
2023

Course Title
Principles Microeco

Career
Undergraduate

Course Description
Introduction to the analysis of individual and firm behavior in the allocation of resources using basic microeconomic principles. The course draws on theories such as supply and demand, consumer theory, and firm theory to examine how economic agents respond to changes in prices, policies, and external conditions. Students will use evidence-based methods to evaluate theoretical models and apply these insights to various economic issues.

ECO4232 - Monetary Policy and Central Bank Decision Making

Overview

Subject code
ECO

Catalog Number
4232

Course Title
Ctr Bank Monetary Policy

Career
Undergraduate

Course Description
Central banks are essential to modern, fiat-money-based economies. Their rule-based monetary policy ensures sustainable growth and stability. This course explores the science and art of monetary policymaking, using the U.S. Federal Reserve as an example. Students will study the basics of monetary economics, the Fed's structure, and key documents like policy statements and FOMC minutes. The capstone project involves simulating a central bank policy meeting, applying the knowledge gained. P:ECO3202,3203,3223
