Computer Science - COMSC-BS

General

HEGIS Code
0701.00

CIP Code
11.0701

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least undefined credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
CMP232 Discrete Mathematics	Discrete Mathematics	4
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4

PHY140 The Physics of Sound	The Physics of Sound	3.5
PHY166 General Physics I	General Physics I	5
PHY167 General Physics II	General Physics II	5
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and

professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY167 General Physics II	General Physics II	5
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 78 credits

Major Requirements - Core Courses

Type
Completion Requirement

Complete ALL of the following Courses:
- MAT 175 - Calculus I
- MAT 176 - Calculus II
- MAT 226 - Vector Calculus
- MAT 313 - Elements of Linear Algebra
- CMP 157 - Programming Methods I Lab
- CMP 158 - Programming Methods II Lab
- CMP 167 - Programming Methods I
- CMP 168 - Programming Methods II
- CMP 232 - Discrete Mathematics
- CMP 269 - Programming Methods III
- CMP 334 - Computer Organization
- CMP 338 - Data Structures and Algorithms
- CMP 340 - Introduction to Probability for Computer Science
- CMP 410 - Design and Analysis of Algorithms

Tracks: Three Advanced CMP courses in a single track

Complete at least 1 of the following:

• While students must complete at least one of the following tracks, they may pursue additional tracks if they wish.

• Tracks are to be selected in consultation with the department advisor.

Systems Track

Complete ALL of the following Courses:
- CMP 426 - Operating Systems
- CMP 405 - Introduction to Networks
- CMP 420 - Database Systems

OR

Web Development Track

Complete ALL of the following Courses:
- CMP 405 - Introduction to Networks
- CMP 342 - Internet Programming
- CMP 343 - Full Stack Web Development

OR

Software Engineering Track

Complete ALL of the following Courses:
- CMP 346 - Object Oriented Techniques
- CMP 428 - Video Game Programming
- CMP 408 - Software Engineering

OR

Mobile Programming Track

Complete ALL of the following Courses:
- CMP 346 - Object Oriented Techniques
- CMP 431 - Mobile Programming for Android Devices
- CMP 432 - Mobile Programming for iOS

OR

Artificial Intelligence Track

Complete ALL of the following Courses:
- CMP 414 - Artificial Intelligence
- CMP 333 - Data Management and Analysis
- CMP 415 - Machine Learning

Electives

Complete at least 4 of the following:
- Four Advanced CMP courses (300 or 400 Level) 16 PHY 305 can be substituted for one of these courses.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Data Science and Artificial Intelligence - DATSCAI-BS

General

HEGIS Code	CIP Code
0701.00	30.7001

Program Description

The Bachelor of Science in Data Science and Artificial Intelligence is an undergraduate program that equips students with the foundational knowledge and hands-on skills required to thrive in the rapidly evolving fields of data science and AI. The curriculum is rooted in programming, mathematics, statistics, and machine learning. Students also explore advanced topics such as Machine Learning, Data Visualization, and Database Management.

The program offers four specialized concentrations:

· **Data Science Theory**: Focuses on advanced mathematical and computational techniques such as linear programming, convex algebraic geometry, and algorithmic design.

· **Data Analytics**: Emphasizes statistical methods and real-world applications in fields such as business, economics, and sociology.

· **Artificial Intelligence**: Delves into AI technologies, including courses on Artificial Intelligence and Machine Learning, preparing students for roles in cutting-edge AI development.

· **Spatial Data Science**: Combines GIS (Geographic Information Science) techniques with data science, preparing students to work with spatial data in fields like urban planning and environmental analysis.

Students will graduate with a robust skillset that spans theoretical foundations, data handling, and applied machine learning, preparing them for careers in AI development, data analytics, or specialized roles in sectors like healthcare, finance, and geographic information science. Additionally, the program prioritizes ethical data use, ensuring graduates are prepared to address the societal challenges posed by data-driven technologies.

Students are assigned an academic advisor early in the program, who works closely with them to develop a personalized academic plan.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits in residence
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 60 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4

BIO181 Anatomy and Physiology I	Anatomy and Physiology I	4
BIO182 Anatomy and Physiology II	Anatomy and Physiology II	4
BIO183 Human Biology	Human Biology	4
CHE114 Essntls of Gen Chemistry-Lec And CHE115 Essntls of Gen Chemistry-Lab	Essentials of General Chemistry Lecture And Essentials of General Chemistry Laboratory	3 And 1.5
CHE166 General Chemistry I And CHE167 General Chemistry Laboratory I	General Chemistry I And General Chemistry Laboratory I	4 And 1.5
CHE168 General Chemistry 2 And CHE169 General Chemistry Lab II	General Chemistry II And General Chemistry Laboratory II	4 And 1.5
GEO101 Dynamic Earth	Dynamic Earth	3
GEO167 Earth Evolution	Earth Evolution	3
GEP204 Basic Map: Applctns & Analysis	Basic Mapping: Applications and Analysis	3
PHY135 Fund Concepts&Methods Physics	Fundamental Concepts and Methods of Physics	4
PHY140 The Physics of Sound	The Physics of Sound	3.5
PHY166 General Physics I	General Physics I	5
PHY167 General Physics II	General Physics II	5
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5

PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:

- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:

- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:

- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:

- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:

- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 60 credits

Major Requirements - Core Courses

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- CMP 157 - Programming Methods I Lab
- CMP 158 - Programming Methods II Lab
- CMP 167 - Programming Methods I
- CMP 168 - Programming Methods II
- CMP 232 - Discrete Mathematics
- CMP 338 - Data Structures and Algorithms
- CMP 340 - Introduction to Probability for Computer Science **OR** MAT 330 - Probability and Statistics
- CMP 420 - Database Systems
- DAT 310 - Data Visualization
- MAT 155 - Calculus I Laboratory
- MAT 155 - Calculus I Laboratory
- MAT 175 - Calculus I
- MAT 176 - Calculus II
- MAT 226 - Vector Calculus
- MAT 313 - Elements of Linear Algebra
- MAT 327 - Statistical Inference
- SOC 348 - Reasoning with Data

Complete at least 1 of the following courses:

- CMP 415 - Machine Learning
- MAT 128 - Foundations of Data Science **AND** MAT 328 - Techniques in Data Science

CMP415 Machine Learning satisfies both this and the AI concentration

Choose from one of the following concentrations:

Fulfill ANY of the following requirements:

Data Science Theory Concentration

Earn at least 11 credits from the following:

- CMP 269 - Programming Methods III
- CMP 410 - Design and Analysis of Algorithms
- CMP 447 - Linear Programming and Operations Research
- CMP 485 - Independent Study
- MAT 347 - Linear Programming and Convex Algebraic Geometry
- MAT 430 - Advanced Probability and Applications
- MAT 452 - Topics in Statistics
- MAT 485 - Independent Study

(cannot take both CMP485 Independent Study and MAT485 Independent Study)

OR

Data Analytic Concentration

Fulfill ALL of the following requirements:

Earn at least 11 credits

AND

Complete at least 1 of the following courses:

- BBA 303 - Business Statistics I
- BIO 240 - Biostatistics.
- ECO 302 - Economic and Business Statistics
- GEH 245 - Introduction to Quantitative Methods of Geography
- HSD 269 - Fundamentals of Biostatistics
- PSY 226 - Statistical Methods in Psychology
- SOC 345 - Quantitative analysis of Sociological Data

AND

Complete at least 2 of the following courses:

- BBA 403 - Intermediate Business Statistics II
- CMP 414 - Artificial Intelligence
- DAT 351 - Special Topics in Data Science
- DAT 481 - Advanced Tutorial in Data Science Methods and Applications
- ECO 402 - Econometrics
- GEP 205 - Principles of Geographic Information Science
- SOC 339 - American Demography

BBA303 Business Statistics I - Prereq: ECO166 Introduction of Macroeconomics and MAT132 Introduction to Statistics or MAT171 Elements of Precalculus or MAT172 Precalculus or MAT174 Elements of Calculus or MAT175 Calculus I
BIO240 Biostatistics. - Prereq: BIO166 Princip of Biology:Cells&Genes & BIO167 Principles of Bio: Organisms &

MAT175 Calculus I
HSD269 Fundamentals of Biostatistics - Prereq: MAT132 Introduction to Statistics
PSY226 Statistical Methods in Psychol - Prereq: PSY166 General Psychology and MAT132 Introduction to Statistics or MAT172 Precalculus or MAT174 Elements of Calculus or MAT175 Calculus I and Upper Junior status
SOC345 Quantitative Analysis Soc Data - Prereq: SOC301 Methods of Social Research
BBA403 Intermediate Bus. Stats II - Prereq: SOC301 Methods of Social Research with a grade of C- or better
ECO402 Econometrics - Prereq: ECO302 Economic & Business Statistics
SOC339 American Demography - Prereq: SOC301 Methods of Social Research

OR

Artificial Intelligence Concentration

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- CMP 414 - Artificial Intelligence

AND

Complete at least 2 of the following courses:

- CMP 333 - Data Management and Analysis
- CMP 464 - Topics in Computer Science
- CMP 485 - Independent Study
- MAT 347 - Linear Programming and Convex Algebraic Geometry
- CMP 447 - Linear Programming and Operations Research

OR

Spatial Data Science Concentration

Fulfill ALL of the following requirements:

Complete at least 1 of the following courses:

- GEP 204 - Basic Mapping: Applications and Analysis
- GEP 205 - Principles of Geographic Information Science

AND

Earn at least 8 credits from the following:

- GEP 362 - Introduction to Programming for GISc
- GEP 364 - Spatial Database Management
- GEP 3060 - Raster Applications
- GEP 310 - Geography of Urban Health
- GEP 321 - Introduction to Remote Sensing
- GEP 330 - Spatial Statistics and Advanced Quantitative Methods in Geography
- GEP 350 - Special Projects in Geographic Information Systems
- GEP 360 - Geovisualization and Analytic Cartography
- GEP 375 - Data Acquisition and Integration Methods for GIS Analysis
- GEP 380 - Emerging Methods and Techniques in Geographic Information Science (GISc)
- GEP 470 - Seminar and Internship Program in Geography
- GEH 490 - Honors in Geography

GEP362 Intro to Programming for GISc - Prereq: GEP205 Prin Geogrp Info Sci
GEP310 Geography of Urban Health - Prereq: GEP204 Basic Map: Applctns & Analysis or GEP205 Prin Geogrp Info Sci

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Digital Technology and Electronics - DTE-CERT

General

HEGIS Code	CIP Code
5310.00	15.0303

Program Description

The Certificate in Digital Technology and Electronics consists of 23 course credits covering electronics and computer programming and organization. The courses, offered by the Department of Physics and Astronomy and the Department of Computer Science, lead to a culminating internship or research experience. The Certificate is intended for

- Science majors, especially those interested in experimental science who need a working knowledge of electronic technology
- Computer science majors who want hands-on experience with electronic circuits and their use in computer architecture and engineering
- Students in the sciences and in other fields interested in careers involving digital technology and electronic devices

The Certificate provides students with a working knowledge of analog and digital circuit design, computer architecture and engineering, and both high-level and machine-level computer programming. Students are given the hands-on experience of working in teams to design, construct and program a functioning computer system.

Requirements

Simple Requirements

(No Requirement Levels)

Program Requirements - Overall

Type
Completion Requirement

Earn at least 23 credits

Program Requirements - Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 6 of the following courses:

- PHY 165 - Applied Physics
- PHY 305 - Analog Circuits
- PHY 315 - Digital Circuits and Systems
- CMP 167 - Programming Methods I
- CMP 168 - Programming Methods II
- CMP 334 - Computer Organization

PHY165 Applied Physics*: Students may take* PHY167 General Physics II *or* PHY169 PHY II Scientists & Engineers *in place of* PHY165 Applied Physics.

AND

Complete at least 1 of the following courses:

- CMP 487 - Internship in Computer Science
  OR PHY 487 - Internship in Physics

OR PHY 489 - Honors Course

CIS 212 - Microcomputer Architecture (4 cr)

General

Course Title
Microcomputer Architecture

Catalog Description
Architecture of microcomputer systems and its supporting system software. Various microprocessor systems, expansion bus design, memory design and management, secondary storage technologies and management, peripherals, and telecommunication technologies.Prerequisite: MAT 104 or higherCo-Requisite: CIS 213

CIS 220 - Introduction to Cybersecurity (3 cr)

General

Course Title
Introduction to Cybersecurity

Catalog Description
The ubiquity of sensitive personal and financial data transmitted across insecure devices and networks poses a significant risk to our students, and our community businesses. This one-semester course is designed to equip students with the essential knowledge, skills, and the mindset required to protect themselves and their community from common cyberthreats.

NOTE: This course is taught as a lecture with lab exercises to reinforce the concepts.

CIS 243 - Introduction to Operating Systems (3 cr)

General

Course Title
Introduction to Operating Systems

Catalog Description
Overview of operating systems (OS) from both a theoretical and a systems manager point of view. Process management and multitasking, memory management, resource management, file management, I/O management, command interpreter/shell and shell scripts will be covered. Large networked systems will be discussed from a systems point of view.

CMP 320 - Quantum Computer Science (3 cr)

General

Course Title
Quantum Computer Science

Catalog Description
Quantum information science and quantum computing for majors in computer science, physics, and mathematics, topics include: the linear algebra of quantum mechanics, bits versus qubits, quantum cryptography, quantum teleportation, quantum gates and quantum computing, the Grover search algorithm.PREREQ: MAT 313

Course Attributes
EXPR - EXPR (Experimental)

CMP 326 - Programming Methods II (4 cr)

General

Course Title
Programming Methods II

Catalog Description
Continuation of parameter passing with a focus on devising function definitions and tracing recursive calls. Sorting and searching algorithms and a comparison of their performance. GUI programming. Exceptions and Exception Handling. Object Oriented Programming techniques. Designing, developing, and debugging programs using commercial IDEs.Prerequisites: CMP 157, CMP 167 Grade of B- or betterCorequisite: CMP 158

Cross Listed Courses
CMP 168 Programming Methods II

Course Attributes
MECI - ME_COIS_3 (Programming II), UTCO - UT_COSC_2 (Programming II)

CMP 332 - Numerical Methods (3 cr)

General

Course Title
Numerical Methods

Catalog Description
Computer methods of approximate calculation. Topics chosen from polynomial approximation and interpolation, orthogonal polynomials, finite difference methods, splines and least square approximations; numerical differentiation and integration; numerical solutions of equations by iterative methods and matrix inversion; eigenvalue computations; sparse matrix methods.PREREQ: CMP 326 and MAT 226 and MAT 313.

CMP 334 - Computer Organization (4 cr)

General

Course Title
Computer Organization

Catalog Description
Introduction to digital logic-expressions, gates, flip-flops, adders. busses, multiplexers Introduction to assembly language and assembly level organization - data representation, instruction formats, addressing modes, interrupts. Memory systems - caches (mapping and management policies) and memory hierarchies, latency and bandwidth, virtual memory (pagetables, TLB). Input/Output- buses, channels and DMA. Performance considerations- pipelining, RISC architecture, branch prediction, introduction to instruction level parallelism.
Prerequisites: CMP 167, CMP 157 and CMP 232.

CMP 335 - Computer Organization Laboratory (1 cr)

General

Course Title
Computer Organization Laboratory

Catalog Description
A practical course applying principles taught in CMP 334. Construction and operation of the separate hardware components; system software installation.PRE or COREQ: CMP 334. Note: Not allowed as one of the electives in the Computer Science B.S. or B.A. degrees; however, if both CMP 335 and CMP 406 are taken, the combination can be used as one of the electives for the Computer Science B.S. degree.

CMP 338 - Data Structures and Algorithms (4 cr)

General

Course Title
Data Structures and Algorithms

Catalog Description
Abstract characterizations as well as the design and implementation of data structures such as arrays, stacks, queues, linked lists, binary search trees, heaps, hash tables and graphs along with algorithms that make use of such structures including algorithms for sorting as well as searching will be studied. Algorithms will be analyzed for their asymptotic behavior in terms of time and space complexity. Implementation issues will be considered and students will write programs that embody these data structures and algorithms. Prerequisites: CMP 232, CMP 157, CMP 158, and CMP 168

CMP 339 - Programming Languages (4 cr)

General

Course Title
Programming Languages

Catalog Description
Design, evaluation and implementation of programming languages. Syntax and semantics of language constraints. Control structures, including branching, selection, iteration, procedure calls and recursion; data types and data structures, and operations on them; name structures, binding, environments, dynamic and static scoping; parameter passing. PREREQ: CMP 334 and CMP 338.

CMP 340 - Introduction to Probability for Computer Science (4 cr)

General

Course Title
Introduction to Probability for Computer Science

Catalog Description
Introductory probability theory with applications to computer science. Axioms of probability, conditional probability, discrete and continuous random variables, expectation, variance and covariance, law of large numbers, central limit theorem.Prerequisites: MAT 226 and CMP 338

Credit Hours

Minimum:

CMP 405 - Introduction to Networks (4 cr)

General

Course Title
Introduction to Networks

Catalog Description
Introduction to network protocols and algorithms. Intensive study of the most important protocols at each layer. Examination of their strengths and weaknesses. Basic algorithms for identifying primary servers, constructing forwarding and broadcasting trees, and determining routing tables. Writing a simple networking service at the I.P. layer or higher. Lab exercises include building and testing small networks.Prerequisite CMP 334 and CMP 338

CMP 406 - Network Systems Lab (2 cr)

General

Course Title
Network Systems Lab

Catalog Description
Introduction to installation and configuration of networking equipment, network monitoring and trouble-shooting, and network management. Use of typical networking equipment. Some programming in Java or C will be required.PREREQ: CMP 338. PRE- or CO-REQ: CMP 405. Note: Not allowed as one of the electives in the Computer Science B.S. or B.A. degrees; however, if both CMP 335 and CMP 406 are taken, the combination can be used as one of the electives for the Computer Science B.S. degree.

CMP 407 - Compiler Construction (4 cr)

General

Course Title
Compiler Construction

Catalog Description
Compilation of simple expressions and statements. Organization of a compiler, including compile-time and run-time symbol tables, lexical scan, object code generation, error diagnostics, object-code optimization techniques such as register allocation via graph coloring, and method in-lining. Use of compiler writing languages and bootstrapping. Note: Students will work on a compiler for a small language. PREREQ: CMP 339.

CMP 409 - Cybersecurity for Networked Systems (4 cr)

General

Course Title
Cybersecurity for Networked Systems

Catalog Description
Introduction to attack and defense in network security. Basic tools for both attacking and defending networks and their use. NOTE: Students will be required to work with a variety of network attack and defense tools in a sandbox or virtual network.

Credit Hours

CMP 425 - System Programming Languages (4 cr)

General

Course Title
System Programming Languages

Catalog Description
Assembly language for one machine language. Projects to illustrate programming techniques in assembly language including, loops, procedure and subroutine call and return, parameter passing, call stacks, data structures. Introduction to the C language- including the C preprocessor, macros, and syntax. Data types, structures, pointers and pointers to functions. PREREQ: CMP 326 and CMP 334.

CMP 428 - Video Game Programming (4 cr)

General

Course Title
Video Game Programming

Catalog Description
General game architecture, asynchronous input, animated sprites, action oriented A.I., collision detection, scrolling, sound clips, 3D graphics. Student projects involving development of several video games, both individually and in teams. Note: Students should expect to devote a great deal of time working both individually and in teams to produce several video games written in Java. This is a Programming Intensive course.Prerequisite CMP 338Prerequisite or Corequisite MAT 313

Counseling, Leadership, Literacy & Special Edu Department

The Department of Counseling, Leadership, Literacy, and Special Education offers programs leading in the following areas: counselor education (school counseling), special education, educational leadership (school building and district leader), organizational leadership (higher education, non-profit, corporate, hospital leadership) and literacy. Students interested in such coursework and in preparation for New York State certification and New York City licensure should contact a faculty advisor in the department. Programs are also offered in dual certification for Childhood and Special Education, Early Childhood and Special Education, Literacy and Special Education, and advanced certification in Special Education. Several programs also have a bi-lingual option and students need to speak with an advisor for further information.

Teacher Certification

Teacher certification and licensure is carried out by the New York State Education Department. The public schools of the City of New York have separate licensure procedures and requirements. At both the State and City levels, certification requirements are subject to change without notice. The information about certification contained in this Bulletin is the most up-to-date available at press time, but may become obsolete after publication. It is the responsibility of the student or graduate to consult periodically with a Departmental advisor to keep informed about the latest certification requirements.

ESS 490 - Honors Course in Research in Special Educational Services (3 cr)

General

Course Title
Honors Course in Research in Special Educational Services

Catalog Description
(maximum 6 credits). Opportunity for individual research in education for a limited number of students.PREREQ: Satisfactory completion of 12 credits in ESS or related fields, including ECE 301 or ESC 301. NOTE: No student may receive credit for both ESS 490 and ECE 490 or ESC 490.NOTE: Changes in program requirements designated by the New York State Education Department for Teacher, Counselor, and/or Administrator certifications occur from time to time. As such, students are advised to consult the Office of the School of Education, Room B-33 of Carman Hall, to determine the most current program requirements for certification. Students not seeking an institutional recommendation but who intend to apply independently for certification should consult with a departmental advisor prior to registration so that a course of study fulfilling State requirements may be planned. New York State may at some point end the independent transcript review route to certification. Students should consult the New York State Education Department website for updates or may check with the School of Education's Certification Office to determine if a change in this policy has been adopted.

Early Childhood & Childhood Education Department

The Department of Early Childhood and Childhood Education (ECCE) offers teaching certification programs for students who plan to seek a Lehman endorsement for an initial teaching certificate. The ECCE Undergraduate B.A. Program (Dual Major) offers initial teaching certificates through the following tracks:

- Track 1: Early Childhood, Birth-Grade 2
- Track 2: Early Childhood, Birth-Grade 2, with a Bilingual Extension
- Track 3: Childhood, Education, Grades 1-6
- Track 4: Childhood Education, Grades 1-4. with a Bilingual Extension

This program is appropriate for students beginning their studies at Lehman College as a college freshman, for students transferring to Lehman with associate's degrees from CUNY community colleges and Westchester Community College, as well as students in the Macaulay Honors College.

ECCE also offers a 12-credit minor for any student who is interested in learning about the field of urban education in childhood and early childhood, as well as an Infant Toddler 12-credit certificate for those providing care for infants and toddlers, for students who need credits to meet the residency requirement for the 12-credit minor in early childhood education, as well as for NY State-certified early childhood education teachers looking for additional courses specific to infant-toddler development and pedagogy.

The Lehman Urban Transformative Education (LUTE) Conceptual Framework that guides these teacher education programs was developed by faculty to provide a philosophical base for the faculty's work as teacher educators. It delineates what is valued by the Department as well as how teaching practices within the Department reflect those values. The ECCE Department aims to infuse contemporary humanizing and critical theories of learning that embrace culturally responsive and sustaining practices. The Department's mission is to prepare competent, qualified, ethical, and reflective professionals for service to diverse communities. Within CUNY's tradition of access and excellence and Lehman's mission of service to the urban community, it is expected that teachers who study in these programs will bring respect for knowledge, diversity, caring, and justice to their work with children, families, colleagues, and local organizations that comprise the Lehman community.

Program Description
The Department of Early Childhood and Childhood Education offers two options for a minor: (1) a minor for students who would like to seek teaching certification in Early Childhood or Childhood Education that allows them to complete pre-requisites for a master's program specifically designed for them that leads to a NYS teaching certification (OPTION 1) and (2) a minor for students who want an ECCE minor but do not intend on seeking NYS certification in Early Childhood or Childhood education (OPTION 2).

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 12 credits

Minor Requirements - Option 1: ECCE Minors for Students Seeking NYS Teaching Certification

Type
Completion Requirement

Admission Requirements

A student must meet the following requirements to be admitted into one of two "Minor to Master's" tracks:

- Completion of ECE301 Child-HisPolSoccltCntxt B-Gr6, ECE302 Chldren,Fam,Comm&School B-Gr6, ECE304 Fdns Erly Lang&Ltrcy Dev B-Gr2 and ECE311 Teaching Profess-Birth to Gr 6 with minimum 3.0 grade point average
- Senior status with a minimum overall grade point average of 3.0 for all undergraduate coursework
- Satisfactory completion of undergraduate 300 level minor courses
- Two letters of recommendation, one must be from the student's ECE304 Fdns Erly Lang&Ltrcy Dev B-Gr2 instructor
- An interview with program faculty and an interview in Spanish for students who will be taking the bilingual extension
- An on-site writing sample in English
- Completion of the College's general education requirements
- A grade of C or better in NYSED core liberal arts categories required for certification (many of these, but not all, are covered under the general education requirements):

  1. Written Expression: two courses in English (generally ENG111 English Composition I and ENG121 English Composition II or equivalent)

  2. Math: Two courses in Mathematics approved by an ECCE program coordinator

  3. Scientific Processes: Two courses in natural science

  4. Concepts of Social Science & History: Two courses in the Social Sciences

  5. One course in an optional NYSED liberal arts core. NYSED optional core categories include: foreign language, artistic expression, humanities, communication, and information retrieval.

Students interested in beginning a Minor to Master's program track

Complete ALL of the following Courses:

- ECE 301 - The Child in Historical, Political & Sociocultural Contexts: Child Study & Dev.-Birth to Grade 6
- ECE 302 - Children, Families, Communities&Schools in Historical, Political&Sociocultural Contxts-Birth to Gr 6
- ECE 304 - Foundations of Early Lang & Lit Development in Hist, Pol & Sociocultural Contexts, Birth to Grade 2
- ECE 311 - The Teaching Profession in Historical, Political and Sociocultural Contexts-Birth to Sixth Grade

NOTE: ECE301 Child-HisPolSoccltCntxt B-Gr6, ECE302 Chldren,Fam,Comm&School B-Gr6, ECE311 Teaching Profess-Birth to Gr 6: May be taken in any order; however, to register for ECE304 Fdns Erly Lang&Ltrcy Dev B-Gr2, students must declare the minor in Early Childhood and Childhood Education and have completed ECE301 Child-HisPolSoccltCntxt B-Gr6.

Track 1: ECCE Minor For Students Interested in Pursuing Certification in Childhood Education or Childhood Education with a Bilingual Extension

Complete ALL of the following Courses:

- ECE 435 - Bilingualism for Classroom Teachers, Birth to Grade Six
- ECE 427 - Methodology of Teaching English as a New Language, Birth to Grade Six
- DEC 436 - Art Methods in Childhood, Grades 1-6
- DEC 437 - Methods of Math in Childhood Settings, Grades 1-6
- 12 Credits of 400 -Level ECCE Coursework.
- The following courses are to be taken in the senior year.

Track 2: ECCE Minor For Students Interested in Pursuing a Certification in Early Childhood Education or Early Childhood Education with a Bilingual Extension

Complete ALL of the following Courses:

- ECE 435 - Bilingualism for Classroom Teachers, Birth to Grade Six
- ECE 427 - Methodology of Teaching English as a New Language, Birth to Grade Six
- ECE 436 - The Young Child and the Arts, Birth to Grade 2
- ECE 438 - The Young Child and Music, Birth to Grade 2
- 12 Credits of 400-Level ECCE Coursework.
- The following courses are to be taken in the senior year.

Additional Comments:
The Department of Early Childhood and Childhood Education offers undergraduate minor programs that allow students to complete many of the prerequisites required for graduate programs that lead to NYS initial

teaching certification in: Childhood Education (Grades 1-6), Childhood Education (Grades 1-6) with a Bilingual Extension, Early Childhood Education, Early Childhood Education with a Bilingual Extension.

These programs are referred to as "Minor to Master's" programs and offer qualified students the opportunity to earn both a Bachelor of Arts degree and a Master of Science in Education degree in five and a half years. At the undergraduate level, students can meet many of the requirements for NYS teaching certification in childhood or in early childhood education while completing their bachelor's degree. Upon satisfactory completion of the minor, they may apply for a "fast track" 30 credit graduate program specifically designed for them that will lead to state teaching certification if they meet program continuation requirements.

Each Minor to Master's program is composed of four ECCE 300 level courses (12 credits), four 400 level courses (12 credits) completed during the senior year of the undergraduate program, 46-66 credits of NYS and college liberal arts requirements, and an academic major (variable credits).

Candidates who apply to a Minor to Master's program in the final semester of their junior year may be qualified to pursue either a 30 credit graduate program in Childhood Education with or without a Bilingual Extension or a 30 credit graduate program in Early Childhood Education with or without a Bilingual Extension.

Minor Requirements - Option 2: ECCE Minor for Students Not Seeking NYS Teaching Certification in through a Minor to Master's program

Type
Completion Requirement

Complete ALL of the following Courses:

- ECE 301 - The Child in Historical, Political & Sociocultural Contexts: Child Study & Dev.-Birth to Grade 6
- ECE 302 - Children, Families, Communities&Schools in Historical, Political&Sociocultural Contxts-Birth to Gr 6
- ECE 304 - Foundations of Early Lang & Lit Development in Hist, Pol & Sociocultural Contexts, Birth to Grade 2
- ECE 311 - The Teaching Profession in Historical, Political and Sociocultural Contexts-Birth to Sixth Grade
- Students who wish to register for the 12-credit ECCE minor and are not interested in pursuing a teacher certification program can complete the following.

Infant Toddler - INFNT-CERT

General

HEGIS Code
0801.00

CIP Code
13.1210

Program Description
The Infant/Toddler Certificate Program will provide 12 credits towards professional development needed for those providing care for infants and toddlers, for NY state certified early childhood education teachers looking for additional courses specific to infant toddler development and pedagogy or for students who need credits to meet the residency requirement minor in early childhood education. The program will focus on Cognitive Development, Social Emotional Development, Language Development and the needs and development of the exceptional learner ages 0-3.

Program to be offered in-person and/or online.

Mandatory Professional Licensure Disclosure

Type
Completion Requirement

New York State prides itself in the high quality of its licensed and certified professionals. For the protection of its citizens, each license and certificate has requirements that individuals must meet in order to be licensed or certified in New York State. CUNY's academic programs leading to licensure or certification are carefully designed to meet and

exceed these State requirements. This is a role CUNY plays in protecting the public. Other states frequently have their own requirements, so if your goal is to practice in another state, this disclosure will help you check to see what that state requires.

Per U.S. Federal Regulations, §668.14 and §668.43, and in compliance with the SARA Policy Manual, CUNY Lehman College provides the following disclosure related to the educational requirements for professional licensure and certification.

This Disclosure is strictly limited to the CUNY Lehman College determination of whether this academic program, that if successfully completed, would be sufficient to meet the educational licensure or certification requirements in a State for Professional Certification in Early Childhood Education. CUNY Lehman College cannot provide verification of an individual's ability to meet licensure or certification requirements unrelated to its educational programming. Such individual determinations are made by state licensing boards and are fact-specific determinations.

This disclosure does **not** provide any guarantee that any particular state licensure or certification entity will approve or deny your application. Furthermore, this disclosure does **not** account for changes in state law or regulation that may affect your application for licensure and occur after this disclosure has been made. Enrolled students and prospective students are strongly encouraged to contact their state's licensure entity using the links provided to review all licensure and certification requirements imposed by their state(s) of choice.

CUNY Lehman College has determined this academic program curricula, if successfully completed, **is sufficient to meet** the licensure and certification requirements for Early Childhood Education in the following states:

New York State: New York State: New York State Education Department Teacher Certification

CUNY Lehman College has determined that the curricula is **insufficient to meet** the licensure and certification requirements for Early Childhood Education in the following states:

Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute "Writing Intensive" when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

The Young Child and the Arts, Birth to Grade 2

Catalog Description
Exploration of ways in which young children, including young children who are learning English as a second language, and young children with special needs, develop aesthetic appreciation of and experiences in the arts in family, neighborhood, early care, and school settings. Documentation and assessment of children's artistic development and expressions of ideas through art using multiple artistic modalities. Integration of appropriate technology tools consistent with National and State Standards and the needs of children with disabilities. Visits to early childhood settings with diverse populations and development of an academic portfolio. 10 hours of fieldwork required. PREREQ: Admission to a Minor to Master's track in Early Childhood Education or Early Childhood Education with a Bilingual Extension

ECE 444 - Music in the Elementary School (N-VI) (3 cr)

General

Course Title
Music in the Elementary School (N-VI)

Catalog Description
Exploration of the musical literature appropriate for children in this age group. Development of the ability to learn new songs independently and to transcribe simple original melodies. Methods and materials of instruction in a program, including singing, playing, dancing, listening, music reading, creating, and the use of instruments. Students will participate in supervised field experiences.PREREQ: Either BBE 301, ECE 301, or 321. Note: No student may receive credit for both ECE 444 and ECE 443.

Earth, Environmental and Geospatial Sciences Department

The Department of Earth, Environmental, and Geospatial Sciences (EEGS) is interdisciplinary in nature, integrating concepts from three related areas: Earth Science, Environmental Science, and Geography and GISc (Geographic information Science).

The three distinct disciplines share a common thread of study related to our home, planet Earth. From developing an understanding of the physical structure and makeup of the planet and analysis of associated data with Earth Science, to learning about the conditions and surroundings we live in and how we impact them in Environmental Science, to exploring the spatial relationships between the disparate elements of our world through Geography and GISc, students can pursue a course of study that fits their area of interest.

Bachelor's programs and minors are available in each area of study, with GISc also offering certificate programs and a Master of Science in GISc degree.

Our students build careers in a wide range of fields, from Environmental Advocacy and Education to Pollution Analysis, Conservation to Surveying, Forestry to Parks Management, and Business to Public Health and Medicine. Our graduates can be found in both public and private sector jobs, in and around the NYC region, across the country, and around the world.

Program Description

The Interdisciplinary Program in Earth Science, B.A. is a 38-credit major recommended for earth data users, analysts, programmers and developers.

The core of the interdisciplinary undergraduate program in Earth Science is a sequence of basic and advanced courses from EEGS and Computer Science and Math.

The Interdisciplinary Program in Earth Science offers courses to prepare students: (1) for the use and analysis of the earth (lithosphere, hydrosphere and atmosphere) data; (2) to meet the demands of local, state, and federal governmental agencies, private consulting, and industry in using earth data to solve societal problems, such as climate change, impact of natural hazards, agriculture, water supply and many others; (3) to pursue advanced degrees in earth data science and information technology.

Requirements

Simple Requirements

(No Requirement Levels)

Major Requirements - Overall

Type
Completion Requirement

Earn at least 38 credits

Major Requirements - Required Courses

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- GEO 170 - Earth Science and Society
- GEO 280 - Earth Observation Information
- GEO 360 - Earth Data Models and Analysis
- GEP 204 - Basic Mapping: Applications and Analysis
- GEP 321 - Introduction to Remote Sensing
- MAT 128 - Foundations of Data Science
- MAT 328 - Techniques in Data Science
- SOC 348 - Reasoning with Data

- GEO170 Earth Science and Society is a prerequisite for GEO280 Earth Observation Information & GEO360 Earth Data Models & Analysis.
- GEP204 Basic Map: Applctns & Analysis is a prerequisite for GEP321 Introduction to Remote Sensing.
- MAT128 Foundations of Data Science is a prerequisite for MAT328 Techniques in Data Science & SOC348 Reasoning with Data

AND

At least 3 credits must be 300-level or above to be chosen from the following:

Earn at least 12 credits from the following:

- GEO 101 - Dynamic Earth
- GEO 102 - Dynamic Earth Laboratory
- GEO 228 - Weather and Climate
- GEO 229 - Weather and Climate Laboratory
- GEO 340 - Natural Hazards and Disasters: A Multidisciplinary Approach
- GEO 341 - Natural Hazards and Disasters Laboratory
- GEO 345 - Environmental Hydrology
- GEO 490 - Honors in Geology
- GEO 3750 - Data Acquisition and Integration Methods for GIS Analysis
- GEP 205 - Principles of Geographic Information Science
- GEP 330 - Spatial Statistics and Advanced Quantitative Methods in Geography
- GEP 350 - Special Projects in Geographic Information Systems
- CMP 128 - Programming through Web Development
- CMP 167 - Programming Methods I
  AND CMP 157 - Programming Methods I Lab
- CMP 168 - Programming Methods II
  AND CMP 158 - Programming Methods II Lab
- CMP 338 - Data Structures and Algorithms
- CMP 415 - Machine Learning
- CMP 414 - Artificial Intelligence
- CMP 343 - Full Stack Web Development
- CIS 333 - Cybersecurity for Networked Systems CIS

- GEP204 Basic Map: Applctns & Analysis is a prerequisite for GEO3750 Data Acquisition&Integrat Mtds
- GEP204 Basic Map: Applctns & Analysis or GEP205 Prin Geogrp Info Sci is a prerequisite for GEP330 Spat Stats & Adv Quant Mthds
- GEP205 Prin Geogrp Info Sci is a prerequisite for GEP350 Special Proj in Geo Info Sys
- CMP232 Discrete Mathematics and CMP326 Programming Methods II or CMP168 Programming Methods II are prerequisites for CMP338 Data Structures and Algorithms
- CMP158 Programming Methods II Lab, CMP168 Programming Methods II, and MAT313 Elements of Linear Algebra are prerequisites for CMP415 Machine Learning
- CMP338 Data Structures and Algorithms is a prerequisite for CMP414 Artificial Intelligence
- CMP338 Data Structures and Algorithms and CMP168 Programming Methods II are prerequisites for BIO462 Modeling Cellular Networks

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Course Requirement Group

Course Requirement Group (Free Text)	We strongly recommend clustering 12- 15 elective credits to obtain a minor or certificate that complements your general and major field of study. The choice of the minor or certificate depends on your interest and should be coordinated with advisors. Check out more information on Minors or Certificates with your advisor.

Interdisciplinary Environmental Science - ES-BS

General

HEGIS Code	CIP Code
0420.00	03.0103

Program Description

The Interdisciplinary Program in Environmental Science, B.S. is a 46-credit major.

The core of the interdisciplinary undergraduate program in Environmental Science is a sequence of basic and advanced science courses from four participating science departments. Students select a specialization area in Ecology, Urban Environmental Management, Environmental Geology, or Environmental Analysis.

The Interdisciplinary Program in Environmental Science offers courses to prepare students (1) for environmental science careers, and to become active proponents for their communities in the scientific and policy processes surrounding environmental issues, (2) to meet the environmental science employment demands of local, state, and federal governmental agencies, private consulting, and industry, and (3) to pursue advanced degrees in environmental/ physical sciences.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 60 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Complete ALL of the following Courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4
BIO167 Principles of Bio: Organisms	Principles of Biology: Organisms	4
BIO181 Anatomy and Physiology I	Anatomy and Physiology I	4
BIO182 Anatomy and Physiology II	Anatomy and Physiology II	4
BIO183 Human Biology	Human Biology	4
CHE114 Essntls of Gen Chemistry-Lec And CHE115 Essntls of Gen Chemistry-Lab	Essentials of General Chemistry Lecture And Essentials of General Chemistry Laboratory	3 And 1.5
CHE166 General Chemistry I And CHE167 General Chemistry Laboratory I	General Chemistry I And General Chemistry Laboratory I	4 And 1.5
CHE168 General Chemistry 2 And CHE169 General Chemistry Lab II	General Chemistry II And General Chemistry Laboratory II	4 And 1.5
GEO101 Dynamic Earth	Dynamic Earth	3
GEO167 Earth Evolution	Earth Evolution	3
GEP204 Basic Map: Applctns & Analysis	Basic Mapping: Applications and Analysis	3
PHY135 Fund Concepts&Methods Physics	Fundamental Concepts and Methods of Physics	4
PHY140 The Physics of Sound	The Physics of Sound	3.5
PHY166 General Physics I	General Physics I	5
PHY167 General Physics II	General Physics II	5

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:

- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:

- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:

- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:

- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY167 General Physics II	General Physics II	5
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:

- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 46 credits

Major Requirements - Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- ENV 210 - Introduction to Environmental Science
- ENV 211 - Intoduction to Environmental Science Laboratory
- GEH 245 - Introduction to Quantitative Methods of Geography
  OR MAT 132 - Introduction to Statistics
  OR BIO 240 - Biostatistics.
- PHY 151 - Energy and the Environment
- ENV 330 - Environmental Impact Assessment
- ENV 420 - Natural Resource Management: Senior Seminar

MAT132 Introduction to Statistics*: This course requires the completion of the College's requirement in mathematics.*

BIO240 Biostatistics. *or equivalent: This course has prerequisites that are not a part of the major.*

ENV330 Environmental Impact Assessmen, ENV420 Nat Rsrce Mgmt: Sr Semi*: These courses have prerequisites that are a part of the major.*

AND

Biological Sciences

Complete at least 1 of the following courses:

- BIO 166 - Principles of Biology: Cells and Genes
- BIO 167 - Principles of Biology: Organisms

AND

GEOSciences

Complete at least 1 of the following courses:

- GEO 101 - Dynamic Earth
- GEO 102 - Dynamic Earth Laboratory
- GEP 228 - Weather and Climate
- GEP 229 - Weather and Climate Laboratory
- ENV 270 - Environmental Pollution

AND

GEOSpatial Analysis

Complete at least 1 of the following courses:

- GEP 205 - Principles of Geographic Information Science
- GEP 321 - Introduction to Remote Sensing

AND

Chemistry

Complete at least 1 of the following courses:

- CHE 136 - Elements of Chemistry
- CHE 166 - General Chemistry I
- CHE 167 - General Chemistry Laboratory I

CHE166 General Chemistry I, CHE167 General Chemistry Laboratory I*:These courses require the completion of the College's requirement in mathematics.*

Elective Courses

Students choose 12-15 credits in electives to meet the 46 credit requirement in consultation with a departmental advisor. It is recommended that students choose courses that are grouped in one of the following specialization areas:

Fulfill ANY of the following requirements:

Ecology Electives

Complete ANY of the following Courses:

- BIO 167 - Principles of Biology: Organisms
- BIO 184 - Plants and People
- BIO 242 - Flowering Plants
- BIO 302 - Biogeography
- BIO 330 - Plant Physiology
- BIO 336 - Marine Biology Lectures
- BIO 339 - Ecology
- ENV 235 - Conservation of the Environment
- ENV 255 - Regional Topics and Field Methods in

Environmental Sciences
- CHE 168 - General Chemistry 2
- CHE 169 - General Chemistry Laboratory II
- CHE 244 - Introduction to Biochemistry

BIO302 Biogeography, BIO330 Plant Physiology, BIO336 Marine Biology Lectures, BIO339 Ecology, CHE244 Introduction to Biochemistry*: These courses have prerequisites that are not a part of the major.*

CHE168 General Chemistry 2, CHE169 General Chemistry Lab II*: These courses have prerequisites that are a part of the major.*

OR

Urban Environmental Management Electives

Complete ANY of the following Courses:
- GEP 205 - Principles of Geographic Information Science
- GEP 230 - Urban Environmental Management
- GEP 310 - Geography of Urban Health
- GEP 350 - Special Projects in Geographic Information Systems
- GEP 360 - Geovisualization and Analytic Cartography
- GEP 375 - Data Acquisition and Integration Methods for GIS Analysis
- GEH 240 - Urban Geography
- ENV 235 - Conservation of the Environment
- ENV 255 - Regional Topics and Field Methods in Environmental Sciences
- ENV 270 - Environmental Pollution
- ENV 326 - Environmental Policy
- HEA 301 - Environmental Health

GEP350 Special Proj in Geo Info Sys, HEA301 Environmental Health*: These courses have prerequisites that are a part of the major.*

OR

Environmental Geology Electives

Complete ANY of the following Courses:
- GEO 101 - Dynamic Earth
- GEO 102 - Dynamic Earth Laboratory
- GEO 236 - Environmental Geology
- GEO 245 - Earth Materials
- GEO 340 - Natural Hazards and Disasters: A Multidisciplinary Approach
- GEO 341 - Natural Hazards and Disasters Laboratory
- GEO 345 - Environmental Hydrology
- GEO 350 - Topics in Regional Geology and Mapping Techniques
- GEO 375 - Field Problems in Geology
- GEO 410 - Environmental Biogeochemistry
- GEP 228 - Weather and Climate
- GEP 229 - Weather and Climate Laboratory
- GEP 321 - Introduction to Remote Sensing
- ENV 255 - Regional Topics and Field Methods in Environmental Sciences

GEO236 Environmental Geology, GEO245 Earth Materials, GEO375 Field Problems in Geology, GEO410 Environmental Biogeochemistry*: These courses have prerequisites that are a part of the major.*

OR

Environmental Analysis Electives

Complete ANY of the following Courses:
- GEP 205 - Principles of Geographic Information Science
- GEP 228 - Weather and Climate
- GEP 229 - Weather and Climate Laboratory
- GEP 302 - Biogeography
- GEP 310 - Geography of Urban Health
- GEP 321 - Introduction to Remote Sensing
- GEO 340 - Natural Hazards and Disasters: A Multidisciplinary Approach
- GEO 341 - Natural Hazards and Disasters Laboratory
- GEP 350 - Special Projects in Geographic Information Systems
- GEP 360 - Geovisualization and Analytic Cartography
- GEP 375 - Data Acquisition and Integration Methods for GIS Analysis
- ENV 235 - Conservation of the Environment
- ENV 255 - Regional Topics and Field Methods in Environmental Sciences
- ENV 270 - Environmental Pollution
- CHE 168 - General Chemistry 2
- CHE 169 - General Chemistry Laboratory II
- CHE 232 - Organic Chemistry Lecture I
- CHE 233 - Organic Chemistry Laboratory I
- CHE 249 - Quantitative Analysis

GEP302 Biogeography, GEP350 Special Proj in Geo Info Sys, GEP360 Geovisual&Analytic Cartography, CHE168 General Chemistry 2, CHE169 General Chemistry Lab II, CHE232 Organic Chemistry Lecture I, CHE233 Organic Chemistry Laboratory I, CHE249 Quantitative Analysis*: These courses have prerequisites that are a part of the major.*

CHE168 General Chemistry 2, CHE169 General Chemistry Lab II, CHE249 Quantitative Analysis*: These courses require the completion of the College's requirement in mathematics.*

OR

Other Elective Courses

Complete ANY of the following Courses:
- GEP 204 - Basic Mapping: Applications and Analysis
- GEP 470 - Seminar and Internship Program in Geography
- PHY 166 - General Physics I
  OR PHY 168 - Physics I Scientists and Engineers
- PHY 167 - General Physics II
  OR PHY 169 - Physics II for Scientists and Engineers

PHY166 General Physics I, PHY168 PHY I Scientists & Engineers, PHY167 General Physics II, PHY169 PHY II Scientists & Engineers*: These courses require the completion of the College's requirement in mathematics.*

Earth Science - ES-CERT

General

HEGIS Code	CIP Code
1914.00	40.0601

Requirements

Simple Requirements

(No Requirement Levels)

Program Requirements - Overall

Type
Completion Requirement

Earn at least 30 credits

Program Requirements - Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Earn at least 22 credits from the following:
- GEO 167 - Earth Evolution
- GEO 168 - Earth Evolution Laboratory
- GEO 228 - Weather and Climate
- GEO 229 - Weather and Climate Laboratory
- GEO 245 - Earth Materials
- GEO 301 - Earth Science for Educators
- GEO 4500 - Topics in Earth Science
- AST 117 - Astronomy of Stellar Systems

AND

Earn at least 8 credits from the following:
- GEO 236 - Environmental Geology
- GEO 340 - Natural Hazards and Disasters: A Multidisciplinary Approach
- GEO 341 - Natural Hazards and Disasters Laboratory
- GEO 345 - Environmental Hydrology
- GEO 370 - Intro Oceanography (Inactive)
- GEO 448 - Plate Geotectonics
- GEO 490 - Honors in Geology

Other courses may be substituted with department permission.

Earth Science - ES-MIN

General

CIP Code
40.0601

Geology - GEO-MIN

General

CIP Code
40.0601

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 12 credits

Minor Requirements - Required Courses

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- GEO 167 - Earth Evolution
- GEO 245 - Earth Materials

AND

Electives

Earn at least 4 credits from the following:

- Geology 300 or 400 Level

Geography - GEOG-BA

General

HEGIS Code
2206.00

CIP Code
45.0701

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Arts

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 90 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 28 credits

Major Requirements - Core Courses

Type
Completion Requirement

Earn at least 6 credits from the following:
- GEH 101 - An Introduction to Geography
  OR GEH 102 - World Regional Geography
- GEP 204 - Basic Mapping: Applications and Analysis

Earn at least 4 credits from the following:
- GEP 470 - Seminar and Internship Program in Geography
  OR GEH 490 - Honors in Geography
- GEP 470 - may be repeated for a total of 8 credits
- GEH 490 - One semester, 2, 3, or 4 credits (may be repeated for a maximum of 6 credits)

Earn at least 3 credits from the following:
- GEH 267 - The New York Metropolitan Region
- GEH 281 - Geography of the United States and Canada
- GEH 283 - Geography of Western Europe
- GEH 285 - Regional Geography of Asia
- GEH 287 - Regional Geography of Africa
- GEH 289 - Regional Geography of Latin America
- GEH 291 - Regional Geography of Eastern Europe and the

Former Soviet Republics

Earn at least 15 credits

- Selected from other Geography courses
- To be determined by the student's objectives in consultation with a Geography adviser.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Geographic Information Science - GEOSC-MIN

General

CIP Code
45.0702

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 14 credits

Minor Requirements - Required Course

Type
Completion Requirement

Complete ALL of the following Courses:
- GEP 204 - Basic Mapping: Applications and Analysis
- GEP 205 - Principles of Geographic Information Science
- GEP 350 - Special Projects in Geographic Information Systems
- GEP 470 - Seminar and Internship Program in Geography **OR** GEH 490 - Honors in Geography
- Course GEP 470 - 4 credits (may be repeated for a total of 8 credits.)
- Course GEH 490 - One semester, 2, 3, or 4 credits (may be repeated for a maximum of 6 credits).

Geography - GEP-MIN

General

CIP Code
45.0701

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 12 credits

Minor Requirements - Required Courses

Type
Completion Requirement

Earn at least 12 credits from the following:

- Geography 200 - 400 Level
- At least 6 credits must be taken at 300/400 level.

Geographic Information Science - GIS-CERT

General

HEGIS Code
5399.00

CIP Code
45.0702

Program Description
Geographic Information Science (GISc) is a fast-growing computer technology field involving mapping and analysis of spatial data. Geographic Information Systems (GIS) enable us to assess and manage existing conditions, and also help predict future conditions, ranging from monitoring disease occurrences to endangered species preservation, managing water supplies, tracking real estate values, and crime solving.

GIS is used today in fields as diverse as law enforcement, marketing, economic development, public health administration, environmental analysis, ecology, urban planning, real estate, government, education, geology, anthropology, and archaeology. GISc is an expanding field with good career opportunities, and GIS professionals are in high demand in many fields. People with GIS skills can also be more marketable as managers and analysts in their own fields. A certificate in GISc can be advantageous by itself or in augmenting a bachelor's or associate's degree.

Requirements

Simple Requirements

(No Requirement Levels)

Major Requirements - Overall

Type
Completion Requirement

Earn at least 17 credits

Major Requirements - Core Courses

Type
Completion Requirement

Earn at least 14 credits from the following:

- GEP 204 - Basic Mapping: Applications and Analysis
- GEP 205 - Principles of Geographic Information Science
- GEP 350 - Special Projects in Geographic Information Systems
- GEH 490 - Honors in Geography
- GEH 490 - One semester, 2, 3, or 4 credits (may be repeated for a maximum of 6 credits).

Geography Elective

Earn at least 3 credits from the following:

- GEH 101 - An Introduction to Geography
- GEH 230 - Human Geography
- GEH 235 - Conservation of the Environment
- GEH 240 - Urban Geography
- GEH 266 - Geography of Development
- GEP 230 - Urban Environmental Management
- *Other courses may be substituted for the elective requirement with the Department's permission.*

Courses

ENV 210 - Introduction to Environmental Science (3 cr)

General

Course Title
Introduction to Environmental Science

Catalog Description
Overview of environmental systems and issues. Topics include ecosystems, species and biodiversity, soil conservation, water and waste management, and environmental pollution.

Credit Hours

Minimum:
3

Max:
3

Contact Hours

Contact Hours:
3

Academic Progress Units

Academic Progress Units:
3

Financial Aid Progress Units

Total Completions Allowed:
1

Total Units Allowed:
3

Requirement Designation
RLA_FC_ScientificWorld

ENV 211 - Intoduction to Environmental Science Laboratory (1 cr)

General

Course Title
Intoduction to Environmental Science Laboratory

Catalog Description
Basic laboratory skills in environmental analysis/science such as water quality analyses and field observations of ecosystems.

Credit Hours

Minimum:
1

Max:
1

Contact Hours

Contact Hours:
2

Requirement Designation
Regular Liberal Arts

ENV 235 - Conservation of the Environment (3 cr)

General

Course Title
Conservation of the Environment

Catalog Description
The impact of human activities on natural resources and environmental quality. Topics will include soil, forests, water, wildlife, outdoor recreation, and energy resources.

Credit Hours

Minimum:
3

Max:
3

Contact Hours

Contact Hours:

GEH 230 - Human Geography (3 cr)

General

Course Title
Human Geography

Catalog Description
Study of the approach, key concepts, and methods of human geography. Emphasis will be given to the cultural landscape and location analysis within a systematic framework. The contribution of these concepts to an understanding of societal problems. PREREQ: GEH 101 or Departmental permission.

Credit Hours

Minimum:

GEH 330 - The History of Geographic Thought (3 cr)

General

Course Title
The History of Geographic Thought

Catalog Description
The history of explorations, of discovery, and of the growth of knowledge and communications. Geography as an intellectual discipline and the systematic organization of our knowledge of the world. Course also covers the variety of specialties and careers in the field.

GEO 448 - Plate Geotectonics (4 cr)

General

Course Title
Plate Geotectonics

Catalog Description
Plate Tectonics as a unifying theory: the driving mechanisms of crustal deformation. Evidence supporting sea-floor spreading and plate motions: geophysical and geologic data. Description and comparison of active and ancient tectonic belts. Implications of plate tectonics, continental drift, and mountain building, the role of plate tectonic cycle in renewal of Earth?s surface, and relation with other biogeochemical cycles. Readings from original papers. Laboratories include geologic map study of older tectonic belts and techniques of measuring, plotting, and interpreting structural data of deformed rocks.PREREQ: GEO 166 OR 101 AND 167.

GEO 470 - Summer Oceanographic Research Cruise (3 cr)

General

Course Title
Summer Oceanographic Research Cruise

Catalog Description
(Between spring and summer sessions.) Study of 3 oceangraphic regimes: estuary, sound, and open ocean. Students will learn contemporary techniques by gathering and analyzing hydrographic, biologic, and geologic datdata from a series of stations in each of the three regimes. The entire instructional program will take place on board the CUNY OCeangraphic Research Vessel. The student will live on board ship for 10 days. Analysis and reporting data on board ship will constitute a lab notebook to be turned in at the end of the cruise.PREREQ: Either GEO (BIO) 332 or BIO 335. NOTE: Students should consult either Department before registering for this course.

GEO 490 - Honors in Geology (2-4 cr)

General

Course Title
Honors in Geology

Catalog Description
(may be repeated for a maximum of 6 credits). Individual research, including reading and, in some cases, laboratory or field investigations. Carried out under the individual guidance of a staff member. The results must be embodied in an honors essay or other suitable presentation. PREREQ: Departmental permission.

GEO 3750 - Data Acquisition and Integration Methods for GIS Analysis (3 cr)

General

Course Title
Data Acquisition and Integration Methods for GIS Analysis

Catalog Description
The techniques and science of data acquisition and creation for spatial analysis in a geographic information system (GIS); includes field data collection. Students will be instructed in the use GPS devices, mobile GIS, workstation GIS, as well as data from other sources including remotely sensed data. Prerequisite: GEP 204 or GEP 205

GEP 199 - Cartography and Graphic Presentation I (4 cr)

General

Course Title
Cartography and Graphic Presentation I

Catalog Description
Use of drawing instruments; free-hand and mechanical lettering in the construction of maps, diagrams, graphs, and charts. Elements of distance, direction, and position. Study of map projections and their use; construction of some simpler projections. Methods of enlarging and reducing maps; drawing of profiles and traverse made by students in the field. Practice in the transformation of data of various kinds into effective types of charts and graphs.

GEP 310 - Geography of Urban Health (3 cr)

General

Course Title
Geography of Urban Health

Catalog Description
A geographical examination of urban health. Topics include the historical perspective of health, place, and society; mapping and measuring health and health impacts; the social and spatial patterning of health; the geography of health inequalities and disparities; health and social/spatial mobility; and the effects of urban segregation, overcrowding, and poverty on disease. Geographic Information Science will be used in the laboratory exercises to illustrate the theoretical concepts and to produce worked examples of health geography.

GEP 312 - Quantitative and Qualitative Methods in Historical and Cultural GISc (3 cr)

General

Course Title
Quantitative and Qualitative Methods in Historical and Cultural GISc

Catalog Description
A cross-cultural and longitudinal study of how maps have been used in society and how maps have shaped history. How to analyze and interpret historical events using maps, charts, and graphs, and to create simple maps pertaining to historic events, changes over time, and cultural distributions. How to use archival maps and other historic documents to create new data sets and maps within the framework of geographic information systems (GIS).Prerequisite: Instructor's Permission

GEP 330 - Spatial Statistics and Advanced Quantitative Methods in Geography (3 cr)

General

Course Title
Spatial Statistics and Advanced Quantitative Methods in Geography

Catalog Description
A focus on geospatial statistics and the application of advanced quantitative techniques to real-world geographic problems. Concepts and application of exploratory spatial data analysis (ESDA), traditional statistics, and geospatial statistics within various software packages. PREREQ: GEP 204 or GEP 205 or instructor's permission. An introductory course in descriptive statistics is recommended.

GEP 650 - Topics in Regional Geography and Applied Analysis (4 cr)

General

Course Title
Topics in Regional Geography and Applied Analysis

Catalog Description
This field-based course will teach students basics of field data investigation and analysis using Geographic Information Systems (GIS) and Global Positioning System (GPS) within the context of the local (regional) geographic settings. Students will select the topic of regional investigation and use both, literature and local (regional) resources to conduct their own applied geographic study. Use of GIS for mapping and data entry will provide students with necessary skills for practical work with collected terrain data and satellite imagery. Labs will use field data and datasets from NASA, USGS, NOAA and local sources (universities, data portals, etc.)

English Department

The Department of English offers students the opportunity to gain a thorough knowledge of literatures written in English; to develop expertise in literary exposition and criticism; to learn the fundamentals of linguistics; to develop rhetorical competency in multimedia writing and publication, both expository and creative; and to acquire professional skills in writing, editing, and proofreading. The specializations that students in the Department may choose are Literature, Professional Writing, or Creative Writing. English majors minor in Early Childhood and Childhood Education or Middle and High School Education, as well as many other disciplines in the Arts and Sciences. The Department participates in interdisciplinary programs in Comparative Literature, Disability Studies, Human Rights and Peace Studies, Humanities, Irish, Linguistics, Professional Communications, and Women's Studies.

Programs

Business and Entrepreneurship for Creative Arts Professionals - BECAP-MIN

General

CIP Code
13.1303

Program Description
The BECAP Minor provides students with the practical and applied business, professional writing, marketing, communications, and accounting skills necessary to succeed professionally. Knowledge of industry-specific regulations, opportunities, and skills (Group A) is paired with courses from a variety of disciplines to offer a wide-ranging and career-ready selection of learning opportunities. After completing this Minor, students should be ready to manage their own business as an independent artist-owner (e.g., recording artist, stage or screen performer, visual artist or designer, or writer).

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 15 credits

Minor Requirements - Required Courses

Type
Completion Requirement

A. Entrepreneurship in the Discipline

Complete at least 1 of the following courses:

- MSH 280 - Entrepreneurship in the Music Industry
- DNC 449 - Working in the Performing Arts
  OR THE 449 - Working in the Performing Arts
- ART 488 - Professional Practices in the Visual Arts
- MCS 300 - Corporate Communication
- ENW 346 - Entrepreneurship for Writers

B. Business Practices

Complete ALL of the following Courses:

- BBA 332 - Marketing Management
- ACC 185 - Introduction to Accounting for Non-Accounting Majors
- BBA 336 - Business Law I

C. Professional Communications

Complete at least 1 of the following courses:

- ENW 300 - Business Writing
- ENW 334 - Grant and Proposal Writing
- ENW 333 - Marketing and PR Writing
  OR MCS 333 - Public Relations and Marketing
- ENW 318 - Writing for New Media
- MCS 347 - Advertising
- ART 334 - Digital Media Production: Theory and Practice
  OR CGI 334 - Digital Media Production: Theory and Practice
- DNC 324 - Social Media for the Creative Arts Professional
  OR THE 324 - Social Media for the Creative Arts Professional

Additional Comments:
*DNC449 Working in the Performing Arts/THE449 Working in the Performing Arts, BBA332 Marketing Management, ENW300 Business Writing, ENW334 Grant and Proposal Writing, ENW333 Marketing and PR Writing/MCS333 Public Relations and Marketing, ENW318 Writing for New Media, DNC324 Social Media-CreativeArtProf/THE324 Social Media-CreativeArtProf
**ART488 Professional Pract-Visual Arts, MCS300 Corporate Communication

***Permission of the department required**
****Pre-requisite course required**

The BECAP Minor is a program in the School of Arts and Humanities. The Departments of English, Economics and Business, Music Multimedia Theatre and Dance, Art, and Journalism and Media Studies share responsibility for its development and curriculum. The Minor is housed in the English Department. The Director is a Professional Writing instructor in the English Department.

Steering Committee: the Dean of the School of Arts and Humanities; the Associate Dean of the School of Arts and Humanities; the Chairs of the Departments of English; Economics and Business; Music Multimedia Theatre and Dance; Art; and Journalism and Media Studies.

English - ENG-BA

General

HEGIS Code
1501.00

CIP Code
23.0101

Program Description

The English Major consists of 40-44 credits consisting of a required CORE plus courses taken in one of three specializations: Literature, Professional Writing, or Creative Writing. The total number of credits depends on what courses students take and whether they participate or not in the English Honors Program. English courses numbered below the 300-level do not qualify toward the Major. With the exception of ENW 318 and ENW 320 non-Majors/Minors who wish to take 300- or 400-level courses must obtain permission from the Department.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Arts

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 90 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
The maximum total number of credits that may be transferred towards the degree at Lehman College from Associate degree granting institutions is 70. Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

No transfer student may be granted more than 90 credits toward the degree. Students must satisfy the requirement that 30 credits as well as one-half the credits in the major and half in the minor or half the credits in an interdisciplinary program be completed in residence at Lehman.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 40 credits

Additional Comments:
- ENG 358 (Topics in Latinx Literature) may be taken instead of the ENG 339 survey. May also be taken in addition to ENG 339 as an additional elective.
- ENG 359 (Topics in African American and Black Diasporic Literature) may be taken instead of the ENG 340 survey. [May also be taken in addition to ENG 340 as an additional elective.

Major Requirements - Core Courses

Type
Completion Requirement

Earn at least 16 credits from the following:
- ENG 300 - Unsettling English Studies: Introduction to the Major
- ENG 339 - Latinx Literature
- ENG 340 - African American and Black Diasporic Literatures
- ENW 399 - Research, Rhetoric, and Writing Studies
- ENG 350 - Senior Seminar

Additional Comments:
- ENG 358 (Topics in Latinx Literature) may be taken instead of the ENG 339 survey. May also be taken in addition to ENG 339 as an additional elective.

- ENG 359 (Topics in African American and Black Diasporic Literature) may be taken instead of the ENG 340 survey. [May also be taken in addition to ENG 340 as an additional elective.]

Major Requirements - Literature Specialization

Type
Completion Requirement

In addition to the 16-credit English CORE requirements, Literature Majors are expected to take Required and Elective courses within their specialization.

Complete at least 1 of the following courses:

- ENG 301 - Early Modern English Literature
- ENG 302 - Eighteenth-Century British Literature
- ENG 305 - History of the English Language
- ENG 311 - Chaucer
- ENG 312 - Shakespeare in Context
- ENG 314 - Milton
- ENG 321 - Early American Literature
- ENG 323 - Early Women Writers
- FRE 322 - Renaissance and Pre-Classical French Literature
- FRE 323 - Seventeenth-Century French Literature I: Theatre
- FRE 324 - Seventeenth-Century French Literature II: Fiction, Essays, and Poetry
- FRE 325 - Eighteenth-Century French Literature: The Age of the Enlightenment
- ITA 320 - Italian Short Story from Its Origins to the Sixteenth Century
- ITA 322 - Disguises and Revelations: The Italian Comedy as a Genre
- ITA 327 - Petrarca's Love Poetry
- ITA 329 - Renaissance Prose Writers
- ITA 330 - Love as Escape in Renaissance Chivalric Poetry
- ITA 337 - Literature of the Seventeenth and Eighteenth Centuries, from the Baroque through the Enlightenment
- ITA 447 - Dante's Divina Commedia: Inferno
- ITA 448 - Dante's Divina Commedia: Purgatorio and Paradiso
- LAC 333 - Spanish American Literature of the Conquest
- RUS 330 - Russian Literature from the Middle Ages to the Eighteenth Century
- SPA 301 - Spanish Literature from the Middle Ages to 1700
- SPA 323 - Spanish Novel and Lyric Poetry of the Golden Age
- SPA 331 - Cervantes's Don Quixote
- SPA 333 - Spanish American Literature of the Conquest
- SPA 340 - Spanish Literature of the Middle Ages
- SPA 341 - Spanish Comedia of the Golden Age
- THE 326 - History of the Theatre I
- THE 440 - Shakespeare on Stage
- THE 445 - Studies in Restoration and 18th Century Theatre

Literature Electives

Earn at least 21 credits

- Choose from among any ENG 300/400-level courses (including additional pre-1800 courses from the list above). Total credits must add up to at least 21 credits in 7 courses for Literature Majors and at least 22 credits in 8 courses for Honors Literature Majors.
- Students may substitute HUM 470 (Humanities Internship (5 credits) for one ENG elective, up to two ENW 300/400-level courses (up to 6 credits) for up to two ENG electives.
- Students may substitute up to two ENW 300/400-level courses (up to 6 credits) for up to two ENG electives.
- ENG 371, 386, 389, 702 or any 300/400/700-level course centered on critical or cultural theory (with departmental permission): Required for Honors Literature; recommended for all students
- ENG 481: Required for Honors Literature (3 credits); English honors students only
- ENG 482: Required for Honors (1 credit); English honors students only

Major Requirements - Professional Writing Specialization

Type
Completion Requirement

In addition to the 16-credit English CORE requirements, Professional Writing Majors are expected to take Required and Elective courses within their specialization.

Complete ALL of the following Courses:

- ENW 305 - Principles of Professional Writing
- ENW 315 - Editing for Style and Flow
- ENW 318 - Writing for New Media

Professional Writing Electives

Earn at least 15 credits

- Choose courses from 300-400-level ENW Professional Writing courses: ENW 300, 304, 306, 307, 313, 314, 316, 319, 320, 322, 323, 324, 325, 326, 332, 333, 334, 335, 345, 346, 365, 366, 381, 462, 463. Total credits must add up to at least 15 credits in 5 courses for Professional Writing Majors and at least 16 credits in 6 courses for Honors Professional Writing Majors.
- Students may substitute any 300/400-level ENG or ENW course (3 credits), or HUM 470 (Humanities Internship, 5 credits) for one Professional Writing Elective (3 credits).
- ENW 481: Required for Honors Professional Writing (3 credits); English honors students only.
- ENG 482: Required for Honors (1 credit); English honors students only.

Major Requirements - Creative Writing Specialization

Type
Completion Requirement

In addition to the 16-credit English CORE requirements, Creative Writing Majors are expected to take Required and Elective courses within their specialization.

Complete ALL of the following Courses:

- ENW 310 - Principles of Creative Writing

Choose three; repeatable for credit; must take at least two different genres. ENW 310 is prerequisite for all workshops.

Complete at least 3 of the following courses:

- ENW 301 - Workshop in Poetry
- ENW 302 - Workshop in Fiction

- ENW 303 - Workshop in Creative Nonfiction
- ENW 308 - Workshop in Playwriting
  OR THE 308 - Playwriting
- ENW 309 - Workshop in Screenwriting

Complete this course at least twice:

Course topics vary. Choose two; repeatable for credit; no prerequisite.

- ENW 364 - Topics in Creative Writing

Creative Writing Electives

Earn at least 6 credits

- Choose any two 300- or 400-level ENG or ENW courses. Students may take a fourth Workshop and/or a third ENW 364 as electives. Total credits must add up to at least 6 credits in 2 courses for Creative Writing Majors and at least 7 credits in 3 courses for Honors Creative Writing Majors.
- Students may substitute HUM 470 (Humanities Internship, 5 credits) for one ENG or ENW elective.
- Students interested in Digital Storytelling are encouraged to take THE 309 (Digital Storytelling). Note: THE/DNC 225 (Tools of Digital Storytelling) is a prerequisite for THE 309 but does not count toward the English major in Creative Writing.
- ENG 481: Required for Honors Creative Writing (3 credits); English honors students only
- ENG 482: Required for Honors (1 credit); English honors students only

Major Requirements - English Honors Program (EHP)

Type
Completion Requirement

The English Honors Program offers capable students an opportunity to push their critical and creative boundaries. EHP students in Literature, Creative Writing, and Professional Writing have access to the Department's honors room, participate in academic and cultural events on and off campus, enjoy honors advisement, work individually with a faculty mentor on a senior honors thesis in the Fall Term prior to graduation, and collaborate in colloquia and mini-conferences. Interested students who have a 3.7 GPA in at least two 300-level English courses, and an overall GPA of 3.5+ may contact the EHP Director about this demanding but rewarding program.

Major Requirements - English MA

Type
Completion Requirement

English Majors who have completed 90 or more credits and who have a cumulative GPA of at least 3.3 may request permission to take up to 12 credits of coursework in the English MA program for undergraduate credit. Graduate classes taken as an undergraduate count towards English Major or Minor requirements. Students who are later accepted into the English MA program may count Lehman English graduate coursework taken for undergraduate credit toward the MA degree. Students may, however, need to complete additional credits to satisfy the MA credit requirement.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Course Requirement Group

Course Requirement Group (Free Text)	We strongly recommend clustering 12- 15 elective credits to obtain a minor or certificate that complements your general and major field of study. The choice of the minor or certificate depends on your interest and should be coordinated with advisors. Education Minors who receive certification as undergraduates may pursue an M.A. in English. Education Minors who do not receive certification as undergraduates may pursue an M.S. in Education. Students interested in becoming teachers should consult the Office of the Dean of Education for the latest information on New York State requirements for teacher certification. The Department of English highly recommends that students complete a minor. Check out more information on available minors and certificates with your advisors.

Course Requirement Group	
Course Requirement Group (Free Text)	We strongly recommend clustering 12- 15 elective credits to obtain a minor or certificate that complements your general and major field of study. The choice of the minor or certificate depends on your interest and should be coordinated with advisors. Education Minors who receive certification as undergraduates may pursue an M.A. in English. Education Minors who do not receive certification as undergraduates may pursue an M.S. in Education. Students interested in becoming teachers should consult the Office of the Dean of Education for the latest information on New York State requirements for teacher certification. The Department of English highly recommends that students complete a minor. Check out more information on Minors or Certificates with your advisor.

Course Requirement Group	
Course Requirement Group (Free Text)	We strongly recommend clustering 12- 15 elective credits to obtain a minor or certificate that complements your general and major field of study. The choice of the minor or certificate depends on your interest and should be coordinated with advisors. Education Minors who receive certification as undergraduates may pursue an M.A. in English. Education Minors who do not receive certification as undergraduates may pursue an M.S. in Education. Students interested in becoming teachers should consult the Office of the Dean of Education for the latest information on New York State requirements for teacher certification. The Department of English highly recommends that students complete a minor. Check out more information on Minors or Certificates with your advisor.

English: Creative Writing - ENGCW-MIN

General

CIP Code
23.0101

Program Description
ENG 111/113 and ENG 121/123 do not count toward the Minor in English. The English Minor is open to all majors (except English).

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 12 credits

Minor Requirements - Required Course

Type
Completion Requirement

Students must take ENW 210 (3 credits) or ENW 310 (3 credits), plus any three 300/400-level Creative Writing courses (9 credits), for a total of four courses (12 credits). Creative Writing courses include ENW 301, 302, 303, 308, 309, 310, 323, 324, 326, 364, 366, 461. Students who take ENW 210 first may take ENW 310 as one of their three 300/400-level Creative Writing courses. Note: ENW 310 is a prerequisite for all Workshops (ENW 301, 302, 303, 308, 309). One 300/400-level ENG or ENW course may be substituted for a 300/400-level ENW course in Creative Writing.

English Teacher - ENGED-BA

General

HEGIS Code
1501.00

CIP Code
13.1305

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Arts

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 90 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:

- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:

- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:

- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:

- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:

- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 40 credits

Major Requirements - Core

Type
Completion Requirement

Teacher of English

English Majors who are also Minors in Early Childhood and Childhood Education (ECCE) or Middle and High School Education (MHSE) must fulfill the requirements of the 40-44-credit English Major in Literature, Professional Writing, or Creative Writing, regardless of whether or not they are pursuing certification.

Education Minors who receive certification as undergraduates may pursue an M.A. in English. Education Minors who do not receive certification as undergraduates may pursue an M.S. in Education. Students interested in becoming teachers should consult the Office of the Dean of Education for the latest information on New York State requirements for teacher certification.

English: Literature - ENGLM-MIN

General

CIP Code
23.0101

Program Description

Type
Completion Requirement

Students must take ENW 201 and/or ENW 217 (3-6 credits), plus two or three ENW 300/400-level ENW courses in Professional Writing (6-9 credits), for a total of four courses (12 credits). Professional Writing courses include ENW 300, 304, 305, 306, 307, 313, 314, 315, 316, 318, 319, 320, 322, 323, 324, 325, 326, 332, 333, 334, 335, 345, 346, 365, 366, 381, 462, 463. One 300/400-level ENG or ENW course may be substituted for a 300/400-level ENW course in Professional Writing.

Professional Communications - PROCOM-MIN

General

CIP Code
09.0101

Program Description
In addition to the 12-credit English Minors in Literature and Professional Writing, and the 12 credit English Minor in Creative Writing, students have the option of the 12-credit Interdisciplinary Minor in Professional Communications. The Professional Communications Minor provides students from all departments with a career-boosting opportunity to develop their writing skills in various multimedia venues. The Minor is open to all Majors (including English Literature and Creative Writing but not Professional Writing Majors).

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 12 credits

Minor Requirements - Required Course

Type
Completion Requirement

Exercise Sciences and Recreation Department

The Department of Exercise Sciences and Recreation offers several options that will open many career doors as well as creating numerous opportunities for advancement. We offer a Bachelor of Science in Exercise Science, a Bachelor of Science in Recreation Education, and a Bachelor of Science in Therapeutic Recreation.

B.S. in Exercise Science:

The B.S. in Exercise Science offers three options: 1) Exercise and Movement Science, and; 2) Pre-Physical Therapy, and 3) Pre-Occupational Therapy.

Career Opportunities: The Pre-Physical Therapy option is for students who desire to pursue a career in physical therapy. The courses offered fully prepare students for entry into Doctor of Physical Therapy programs that are required for practice in this field. The Pre-Occupational Therapy For students who desire to pursue a career in occupational therapy. The courses offered fully prepare students for entry into M.S. of Occupational Therapy Programs. Alternatively, the Exercise and Movement Science option is for students who wish to pursue other careers in the fitness field including personal training, exercise physiology, strength and conditioning and other related disciplines.

B.S. in Recreation Education:

The B.S. in Recreation Education offers two options: 1) Recreation Management, and: 2) Exercise and Sport.

Career Opportunities: The Recreation Management option is for students who desire to pursue a career in the leisure and recreation field. The courses offered fully prepare students for entry positions in municipal state parks and recreation agencies, non-profit organizations, community recreation centers, camps, and sports associations. The Exercise and Sport option is for students who desire to pursue a career in the sports and fitness field. The courses offered fully prepare students for entry positions in sports and fitness programs as programmers, fitness trainers, group exercise leaders, and youth sports.

B.S. in Therapeutic Recreation:

The B.S. in Therapeutic Recreation is for students who desire to pursue a career in the therapeutic recreation field.

Career Opportunities: The degree requirement meets the eligibility requirements for taking the national certification exam for Certified Therapeutic Recreation Specialist (CTRS), upon graduation. The courses offered fully prepare students for entry positions in clinical settings such as rehabilitation centers, nursing homes, psychiatric facilities, and other agencies that address a wide array of health concerns.

Preparation for Graduate Study: The department offers a Master of Science (M.S.) in Human Performance and Fitness and a Master of Science in Education (M.S.Ed.) in Recreation Education. Students planning graduate study in Exercise Science and Recreation Education should contact the Graduate Program Directors.

B.S. to M.S. Dual Credit Option:

The B.S. in Exercise Science and the B.S. in Recreation Education programs offer a dual credit option where undergraduate students may take up to 12 credit hours in graduate coursework during their final academic year if they intend to enroll in the graduate programs. See specific details in either undergraduate program descriptions or ask your faculty adviser for further information.

Program Description

Department Grading Policy
Students must earn a C- or above in all courses for the major and the minor. If the grade is lower, the student must repeat the course.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least undefined credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
The maximum total number of credits that may be transferred towards the degree at Lehman College from Associate degree granting institutions is 70. Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

No transfer student may be granted more than 90 credits toward the degree. Students must satisfy the requirement that 30 credits as well as one-half the credits in the major and half in the minor or half the credits in an interdisciplinary program be completed in residence at Lehman.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Exercise and Movement Science

Earn at least 60.5 credits
The major field requirements include the completion of 42 credits in Exercise Science core courses; 12.5 credits in science courses; 3 credits in Health Sciences; and 3 credits in a Major Elective course

Pre-Physical Therapy

Earn at least 62 credits
The major field requirements include the completion of 33 credits in Exercise Science core courses; 29 credits in science courses.

Pre-Occupational Therapy

Earn at least 63.5 credits
The major field requirements include the completion of 33 credits in Exercise Science core courses; 21.5 credits in Science courses; and 9 credits in Psychology courses.

Major Requirements - Exercise and Movement Science

Type
Completion Requirement

Exercise Science (45 credits)

Complete ALL of the following Courses:
- EXS 240 - Nutrition and Health
- EXS 264 - Introduction to Exercise Science

- EXS 265 - Behavioral Aspects of Physical Activity
- EXS 315 - Kinesiology and Biomechanics
- EXS 316 - Motor Learning
- EXS 323 - Exercise Physiology
- EXS 326 - Exercise Testing and Prescription for General & Special Populations
- EXS 342 - Sports Nutrition
- EXS 366 - Prevention & Care of Athletic Injuries
- EXS 423 - Exercise Physiology II
- EXS 424 - Principles and Practices of Fitness and Wellness Management
- EXS 425 - Theory and Methods of Strength and Conditioning
- EXS 430 - Research Methods and Statistics in Exercise Science
- EXS 470 - Pre-Internship Seminar in Exercise Science
- EXS 471 - Internship in Exercise Science 1

Science (12.5 credits)

Complete ALL of the following Courses:

- BIO 181 - Anatomy and Physiology I
- BIO 182 - Anatomy and Physiology II
- CHE 114 - Essentials of General Chemistry Lecture
- CHE 115 - Essentials of General Chemistry Laboratory

Major Electives

Earn at least 3 credits
Select from EXS, REC, REH and THR, courses with approval of the adviser.

General Electives

Sufficient credits to reach a total of 120 credits required for graduation.

Additional Comments:

BS to MS Dual Credit Opportunity

Undergraduate students majoring in Exercise Science with 60 or more credits and a minimum of a (3.0) cumulative index and (3.0) index may be permitted to enroll in up to 12 credits of graduate coursework for the College's M.S in Human Performance & Fitness. The following graduate courses may be taken in place of related undergraduate courses: EXS 504 for EXS326 Exercise Testing &Prescription; EXS 505 for EXS342 Sports Nutrition; EXS 615 for EXS315 Kinesiology and Biomechanics: EXS 616 for EXS316 Motor Learning. The student must receive permission from the department prior to registration.

Major Requirements - Pre-Physical Therapy

Type
Completion Requirement

Pre-requisites (4-6 credits)

- MAT172 Precalculus; or MAT171 Elements of Precalculus and MAT108 Trigonometry; or placement into calculus (MAT175 Calculus I) is required in order to enroll in several courses required for the major. MAT171 Elements of Precalculus or MAT172 Precalculus can be used to fulfill the College Mathematical and Quantitative Reasoning Requirement.

Exercise Science (33 credits)

Complete ALL of the following Courses:

- EXS 264 - Introduction to Exercise Science
- EXS 265 - Behavioral Aspects of Physical Activity
- EXS 315 - Kinesiology and Biomechanics
- EXS 316 - Motor Learning
- EXS 323 - Exercise Physiology
- EXS 326 - Exercise Testing and Prescription for General & Special Populations
- EXS 423 - Exercise Physiology II
- EXS 425 - Theory and Methods of Strength and Conditioning
- EXS 430 - Research Methods and Statistics in Exercise Science
- EXS 470 - Pre-Internship Seminar in Exercise Science
- EXS 471 - Internship in Exercise Science 1

Science (29 credits)

Complete ALL of the following Courses:

- BIO 181 - Anatomy and Physiology I
- BIO 182 - Anatomy and Physiology II
- CHE 166 - General Chemistry I
- CHE 167 - General Chemistry Laboratory I
- CHE 168 - General Chemistry 2
- CHE 169 - General Chemistry Laboratory II
- PHY 166 - General Physics I
- PHY 167 - General Physics II

General Electives

Sufficient credits to reach a total of 120 credits required for graduation. BIO166 Princip of Biology:Cells&Genes and BIO167 Principles of Bio: Organisms, MAT172 Precalculus, PSY166 General Psychology and PSY217 Child Psychology are recommended electives.

Additional Comments:

BS to MS Dual Credit Opportunity

Undergraduate students majoring in Exercise Science with 60 or more credits and a minimum of a (3.0) cumulative index and (3.0) index may be permitted to enroll in up to 12 credits of graduate coursework for the College's M.S in Human Performance & Fitness. The following graduate courses may be taken in place of related undergraduate courses: EXS 504 for EXS326 Exercise Testing &Prescription; EXS 505 for EXS342 Sports Nutrition; EXS 615 for EXS315 Kinesiology and Biomechanics: EXS 616 for EXS316 Motor Learning. The student must receive permission from the department prior to registration.

Major Requirements - Pre-Occupational Therapy

Type
Completion Requirement

Pre-requisites (4-6 credits)

MAT172 Precalculus; or MAT171 Elements of Precalculus and MAT108 Trigonometry; or placement into calculus (MAT175 Calculus I) is required in order to enroll in several courses required for the major. MAT171 Elements of Precalculus or MAT172 Precalculus can be used to fulfill the College Mathematical and Quantitative Reasoning Requirement.

Exercise Science Courses (33 credits)

Complete ALL of the following Courses:

- EXS 240 - Nutrition and Health
- EXS 264 - Introduction to Exercise Science
- EXS 265 - Behavioral Aspects of Physical Activity

- EXS 315 - Kinesiology and Biomechanics
- EXS 316 - Motor Learning

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute "Writing Intensive" when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Recreation Education - REC-BS

General

HEGIS Code	CIP Code
0835.00	31.0101

Program Description

The Bachelor of Science (B.S.) in Recreation Education is a fully online, 100% distance education program designed to prepare students for entry into the parks, recreation, and leisure services profession. This online program enables students to complete their studies from any location within the United States. Recreation and leisure services are provided in a variety of settings serving people of all ages in carefully planned and organized recreation programs. Students may concentrate in recreation management or exercise and sport.

Students in the recreation management concentration are employed in public park and recreation agencies, not-for-profit organizations, community recreation centers, camps, and sports associations.

Students in the exercise and sport concentration can work as programmers, fitness trainers, group exercise leaders or coaches, in sports and fitness programs in a variety of settings. Students are prepared to obtain various fitness certifications from several national organizations.

Fieldwork and internship experiences are important components of the major, which give students the opportunity to apply theory to practice in an actual work setting under the supervision of a qualified professional.

Students in this major that have met the academic requirements, upon graduation, and complete at least 1 year of full-time experience in the field are eligible to sit for the national certifying examination for the Certified Park and Recreation Professional (CPRP), administered by the National Recreation and Park Association.

Students may complete 100% of courses online.

Honors in Recreation Education:

Departmental honors in Recreation Education may be awarded to a student who has maintained an index of 3.5 in a minimum of 24 credits in all courses required for the major.

- Please note that this online program is not available to students studying on an F1 Visa.

Departmental Grading Policy
Students must earn a C- or above in all Departmental courses required for the major and the minor.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 60 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Communication Skills

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Quantitative Skills

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Laboratory Science

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4

PHY167 General Physics II	General Physics II	5
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

World Cultures and Global Issues

Complete at least 1 course in the following course sets:

- Flexible Core World Cultures and Global Issues

AND

US Experience in Its Diversity

Complete at least 1 course in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Creative Expression

Complete at least 1 course in the following course sets:

- Flexible Core Creative Expression

AND

Individual and Society

Complete at least 1 course in the following course sets:

- Flexible Core Individual and Society

AND

Scientific World

Complete at least 1 course in the following course sets:

- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4

PHY167 General Physics II	General Physics II	5

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 52 credits

Major Requirements - Recreation Education

Type
Completion Requirement

Earn at least 27 credits from the following:
- REC 200 - History and Philosophy of Recreation
- REC 210 - Recreation Leadership
- REH 230 - Introduction to Youth Studies
- REC 240 - Inclusive Recreation Service
- REC 260 - Selected Topics in Recreation
- REC 266 - Principles of Travel and Tourism
- REC 302 - Administration of Recreation Services
- REC 407 - Research and Evaluation in Recreation Service
- REC 422 - Program Planning in Recreation

Major Requirements - Concentration Options

Type
Completion Requirement

12 credits in one of two concentrations:

Complete at least 1 of the following:

Recreation Management

Earn at least 12 credits from the following:

- REH 330 - Management of Youth Serving Organizations
- REC 361 - Outdoor Recreation and Sustainable Management
- REC 405 - Facility Management in Recreation Service
- REC 410 - Advanced Financial and Human Resource Management in Recreation Service

OR

Exercise and Sport

Earn at least 12 credits from the following:

- EXS 264 - Introduction to Exercise Science
- EXS 265 - Behavioral Aspects of Physical Activity
- EXS 316 - Motor Learning
- EXS 424 - Principles and Practices of Fitness and Wellness Management

Major Requirements - Departmental Courses

Type
Completion Requirement

Earn at least 6 credits

- 6 credits selected from REC, THR, REH, and/or EXS courses with departmental approval.

Major Requirements - Recreation Internship

Type
Completion Requirement

Earn at least 7 credits from the following:

- THR 400 - Pre-Internship Seminar in Recreational Therapy and Recreation Education
- REC 470 - Recreation Education Internship

Major Requirements - BS-M.S.Ed Dual Credit Option in Recreation Education (Option A Only)

Type
Completion Requirement

Undergraduate students majoring in Recreation Education with 60 or more credits and a minimum of a (3.0) cumulative index and (3.0) index in the major may be permitted to enroll in up to 12 credits of graduate coursework for the College's M.S.Ed. in Recreation Education Option A: Recreation and Park Administration. The following graduate courses may be taken in place of these undergraduate courses: REC 702 (in place of REC422 Program Planning in Recreation), REC 706 (in place of REC361 Outdoor Recreation and Sustain), REC 680 (in place of REC240 Inclusive Recreation Service), and REC 680 (in place of any other 300-level elective). The student must receive permission from both the academic undergraduate and graduate advisors.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute "Writing Intensive" when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative
All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Program Description
The B.S. in Therapeutic Recreation is designed to prepare students for entry into the therapeutic recreation profession and meets the eligibility requirements for taking the national certification exam for Certified Therapeutic Recreation Specialist (CTRS), upon graduation. Certified Therapeutic Recreation Specialists are employed in a wide range of agencies servicing people of all ages with illnesses, disabilities, and related health concerns. The CTRS is responsible for assessing the needs of their clients, planning and implementing a variety of individual and group therapeutic recreation services in conjunction with a person-centered approach, and, documenting and evaluating the efficacy of the services as a member of the interdisciplinary team.

About the CTRS:

The National Council for Therapeutic Recreation Certification (NCTRC) serves as a professional certification organization acting in the public interest by establishing and enforcing education, examination, experience, and ethics requirements for the therapeutic recreation profession. Currently, the CTRS designation is represented in all 50 states and throughout Canada and nine other countries.

Recreation therapists with the CTRS certification have demonstrated a unique set of competencies, abilities, and skills for practice in a wide variety of health care and human service settings.

Entry-level professionals who seek the CTRS designation need to complete a defined set of requirements that include:
• A Bachelor's degree or higher in the concentrated area of Recreation Therapy/ Therapeutic Recreation
• Completion of a minimum 14 week, 560-hour internship under the supervision of a CTRS
• Successful completion of the NCTRC Certification exam

Students who complete the B.S. in Therapeutic Recreation program meet the eligibility requirements to sit for the NCTRC Certification Exam.

Departmental Grading Policy
Students must earn a C- or above in all Departmental courses required for the major and the minor. A D grade is acceptable in only one of the following: BIO 181, PSY 166, PSY 234 and HIN 268 for therapeutic recreation majors. If a student earned a D in more than one of those courses, the student may choose which course to repeat. D grades in those courses transferred in from another institution as part of a completed degree program are acceptable.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits

In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 60 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4

PHY167 General Physics II	General Physics II	5
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4

PHY167 General Physics II	General Physics II	5

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 53 credits
Honors in Therapeutic Recreation
Departmental honors in Therapeutic Recreation may be awarded to a student who has maintained an index of 3.5 in a minimum of 24 credits in all courses required for the major.

Major Requirements - Recreation Education

Type
Completion Requirement

Complete ALL of the following Courses:
- REC 200 - History and Philosophy of Recreation
- REC 210 - Recreation Leadership
- REC 302 - Administration of Recreation Services
- REC 407 - Research and Evaluation in Recreation Service

Major Requirements - Therapeutic Recreation

Type
Completion Requirement

Complete ALL of the following Courses:
- THR 221 - Introduction to Recreational Therapy
- THR 322 - Assessment in Recreational Therapy
- THR 324 - Recreational Therapy and Pediatrics
- THR 325 - Recreational Therapy and Geriatrics
- THR 421 - Program Planning in Recreational Therapy

- THR 425 - Processes and Techniques of Recreational Therapy

Major Requirements - Recreation Internship

Type
Completion Requirement

Complete at least 10 of the following courses:
- THR 400 - Pre-Internship Seminar in Recreational Therapy and Recreation Education
- THR 471 - Recreational Therapy Internship

Major Requirements - Supportive Coursework

Type
Completion Requirement

Earn at least 13 credits from the following:
- BIO 181 - Anatomy and Physiology I
- HIN 268 - Growth and Development
- PSY 166 - General Psychology
- PSY 234 - Abnormal Psychology

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Therapeutic Recreation - TRE-BS

General

HEGIS Code
2199.00

CIP Code
51.2309

Program Description

The B.S. in Therapeutic Recreation is designed to prepare students for entry into the therapeutic recreation profession and meets the eligibility requirements for taking the national certification exam for Certified Therapeutic Recreation Specialist (CTRS), upon graduation. Certified Therapeutic Recreation Specialists are employed in a wide range of agencies servicing people of all ages with illnesses, disabilities, and related health concerns. The CTRS is responsible for assessing the needs of their clients, planning and implementing a variety of individual and group therapeutic recreation services in conjunction with a person-centered approach, and, documenting and evaluating the efficacy of the services as a member of the interdisciplinary team.

About the CTRS:

The National Council for Therapeutic Recreation Certification (NCTRC) serves as a professional certification organization acting in the public interest by establishing and enforcing education, examination, experience, and ethics requirements for the therapeutic recreation profession. Currently, the CTRS designation is represented in all 50 states and throughout Canada and nine other countries.

Recreation therapists with the CTRS certification have demonstrated a unique set of competencies, abilities, and skills for practice in a wide variety of health care and human service settings.

Entry-level professionals who seek the CTRS designation need to complete a defined set of requirements that include:
• A Bachelor's degree or higher in the concentrated area of Recreation Therapy/ Therapeutic Recreation
• Completion of a minimum 14 week, 560-hour internship under the supervision of a CTRS
• Successful completion of the NCTRC Certification exam

Students who complete the B.S. in Therapeutic Recreation program meet the eligibility requirements to sit for the NCTRC Certification Exam.

Departmental Grading Policy
Students must earn a C- or above in all Departmental courses required for the major and the minor. A D grade is acceptable in only one of the following: BIO 181, PSY 166, PSY 234 and HIN 268 for therapeutic recreation majors. If a student earned a D in more than one of those courses, the student may choose which course to repeat. D grades in those courses transferred in from another institution as part of a completed degree program are acceptable.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 60 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Complete at least 1 of the following courses:
- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Complete ALL of the following Courses:
- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems

- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4

PHY167 General Physics II	General Physics II	5

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:

- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:

- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:

- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:

- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY167 General Physics II	General Physics II	5
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:

- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 53 credits
Honors in Therapeutic Recreation
Departmental honors in Therapeutic Recreation may be awarded to a student who has maintained an index of 3.5 in a minimum of 24 credits in all courses required for the major.

Major Requirements - Recreation Education

Type
Completion Requirement

Earn at least 12 credits from the following:
- REC 200 - History and Philosophy of Recreation
- REC 210 - Recreation Leadership
- REC 302 - Administration of Recreation Services
- REC 407 - Research and Evaluation in Recreation Service

Major Requirements - Therapeutic Recreation

Type
Completion Requirement

Earn at least 18 credits from the following:
- THR 221 - Introduction to Recreational Therapy
- THR 322 - Assessment in Recreational Therapy
- THR 324 - Recreational Therapy and Pediatrics
- THR 325 - Recreational Therapy and Geriatrics
- THR 421 - Program Planning in Recreational Therapy
- THR 425 - Processes and Techniques of Recreational Therapy

Major Requirements - Recreation Internship

Type
Completion Requirement

Earn at least 10 credits from the following:
- THR 400 - Pre-Internship Seminar in Recreational Therapy and Recreation Education
- THR 471 - Recreational Therapy Internship

Major Requirements - Supportive Coursework

Type
Completion Requirement

Earn at least 13 credits from the following:
- BIO 181 - Anatomy and Physiology I
- HIN 268 - Growth and Development
- PSY 166 - General Psychology
- PSY 234 - Abnormal Psychology

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 12 credits

Minor Requirements - Required Course

Type
Completion Requirement

Complete at least 4 of the following courses:

- REH 230 - Introduction to Youth Studies
- REC 210 - Recreation Leadership
- REH 370 - Practicum in Youth Services
- THR 324 - Recreational Therapy and Pediatrics
- EXS 304 - Coaching Sports
- REH 330 - Management of Youth Serving Organizations
- PSY 217 - Child Psychology
  OR PSY 218 - Psychology of Adolescence
- ECE 301 - The Child in Historical, Political & Sociocultural Contexts: Child Study & Dev.-Birth to Grade 6
  OR ESC 201 - Psychological Foundations of Middle and High School

Courses

EXS 240 - Nutrition and Health (3 cr)

General

Course Title
Nutrition and Health

Catalog Description
Nutrition as it relates to health and disease. Includes functions of nutrients; factors affecting nutrient intake, absorption, and utilization; and nutrient needs during the life cycle and illness. Basic knowledge in making personal dietary decisions, food safety and reasons for hunger at home and abroad.

Course Attributes
MENF - ME_NUFS_1 (Fundamentals of Nutrition)

REC 470 - Recreation Education Internship (3-6 cr)

General

Course Title
Recreation Education Internship

Catalog Description
Supervised placement in a recreation setting under supervision of both academic internship advisor and internship site supervisor.Notes: Recreation Education students are required to complete a 400-hour internship. They may choose to complete 200 hours at two different internship sites over two semesters. Students must be registered for at least 3 credit hours of REC 470 each semester they are completing internship hours.1) Students who choose to complete 400 hours in one semester should enroll in REC 470 for 6 credit hours.2) Students who choose to complete 200 hours at two internship sites over two semesters should enroll in REC 470 for 3 credit hours each semester. PREREQ: 12 credits from Recreation Education core courses and 6 credits from the chosen concentration. THR 400

THR 400 - Pre-Internship Seminar in Recreational Therapy and Recreation Education (1 cr)

General

Course Title
Pre-Internship Seminar in Recreational Therapy and Recreation Education

Catalog Description
This course prepares students for either REC 470 Recreation Education Internship or THR 471 Recreational Therapy Internship. Topics for the seminar include but not limited to the following: Internship site selection, application preparation, interviewing skills, and other professional and ethical issues. Note: Students should register for THR 400 in the semester immediately before they plan to begin their internship (THR 471 or REC 470) PREREQ: Departmental permission

THR 471 - Recreational Therapy Internship (1-9 cr)

General

Course Title
Recreational Therapy Internship

Catalog Description
Supervised placement in a recreational therapy setting under the supervision of a Certified Therapeutic Recreation Specialist in which the student will receive advanced training in recreational therapy. (Recreational Therapy students are required to complete a 560-hour internship under the supervision of a CTRS at an approved agency. Students must be registered for at least 1 credit hour of REC 471 each semester they are completing internship hours.) Note: 1) Students who work as a full-time intern working 40 hours a week have to register 9 credits. 2) Students who work as a part-time intern working less than 40 hours a week can repeat REC 471 up to three semesters for a maximum of 9 credit hours. 3) Students are strongly recommended to complete supportive courses, HIN 268, BIO 181, PSY 166, and PSY 234 before enrolling REC 471. Finance, Information Systems and Economics Department

The Department offers two undergraduate majors: B.A. in Economics and B.S. in Economics and Mathematics.

Career Opportunities: The degree programs are designed to equip students with the necessary competencies for successful careers in corporations, government or non-profit organizations, education, and research.

Programs

Economics - ECO-BA

General

HEGIS Code
2204.00

CIP Code
45.0601

Program Description
This major provides an understanding of the structures, processes, and trends in the private and public economy and offers academic and technical training in the analysis and handling of economic issues and problems

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Arts

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 90 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 37 credits
- Complete 37 credits

Type
Completion Requirement

Economic Analysis

Earn at least 12 credits from the following:
- ECO 166 - Introduction of Macroeconomics
- ECO 167 - Introduction to Microeconomics
- ECO 300 - Intermediate Macroeconomics
- ECO 301 - Intermediate Microeconomics

Quantitative Methods

Earn at least 11 credits from the following:
- ECO 302 - Economic and Business Statistics
- ECO 402 - Econometrics
- MAT 174 - Elements of Calculus
  OR MAT 175 - Calculus I
- MAT 155 (1 credit) is a co-requisite of MAT 175.

Major Requirements - Elective Courses

Type
Completion Requirement

Earn at least 12 credits from the following:

- ECO 305 - Consumer Economics
- ECO 306 - Money and Banking
- ECO 311 - Public Economics
- ECO 320 - History of Economic Thought.
- ECO 322 - Economic History of Developing Countries
- ECO 323 - Economic Development in Latin America
- ECO 324 - International Economics
- ECO 326 - Labor Economics
- ECO 331 - Industrial Organization and Regulation
- ECO 338 - Law and Economics (Inactive)
- ECO 344 - Economic Evaluation of Health Programs
- ECO 345 - Health Economics
- ECO 347 - International Macroeconomics and Financial Markets
- ECO 401 - Introduction to Mathematical Economics
- ECO 431 - Managerial Economics
- BBA 310 - Security and Investment Analysis

Cooperative Education

Complete at least 2 credits

Earn at least 2 credits from the following:

- CED 201 - Business Career Exploration: Self-Assessment, Discovery and Preparation
- CED 301 - Business Career Goals, Networking and Strategies

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Economics - ECO-MIN

General

CIP Code

45.0601

Program Description

Effective: Spring 2019. Students whose minor declaration for this program is effective beginning in the Spring of 2019 or thereafter must follow these requirements. Students whose declarations were for previous semesters follow the requirements that were in effect at the time of declaration. See link below for the most recent Economics minor requirements prior to Spring 2019. Please refer to Degree Works or consult an advisor to review your requirements and track your progress.

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 12 credits

Minor Requirements - Required Course

Type
Completion Requirement

Complete ALL of the following Courses:

- ECO 300 - Intermediate Macroeconomics
- ECO 301 - Intermediate Microeconomics
- ECO 302 - Economic and Business Statistics

Electives

One elective course: 300-and 400-level with ECO prefix. ECO 302: Students majoring in Accounting and Business Administration must substitute BBA 403 for ECO 302.

Economics and Mathematics - ECOMATH-BA

General

HEGIS Code
2204.00

CIP Code
45.0601

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Arts

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 90 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4

PHY166 General Physics I	General Physics I	5
PHY167 General Physics II	General Physics II	5
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 59 credits
- Complete 59 credits

Major Requirements - Core Courses

Type
Completion Requirement

Foundation Courses

Earn at least 23 credits from the following:
- ECO 166 - Introduction of Macroeconomics
- ECO 167 - Introduction to Microeconomics
- ECO 302 - Economic and Business Statistics
- ECO 402 - Econometrics
- MAT 175 - Calculus I
- MAT 176 - Calculus II
- MAT 155 (1 credit) is a co-requisite of MAT 175 and MAT 156 (1 credit) is a co-requisite of MAT 176.

Requirements

Earn at least 24 credits from the following:
- ECO 300 - Intermediate Macroeconomics
- ECO 301 - Intermediate Microeconomics
- ECO 401 - Introduction to Mathematical Economics
- MAT 226 - Vector Calculus
- MAT 301 - Applied Statistics and Data Analysis

- MAT 313 - Elements of Linear Algebra
- MAT 330 - Probability and Statistics

Major Requirements - Electives

Type
Completion Requirement

Complete at least 1 of the following courses:
- MAT 323 - Ordinary Differential Equations
- MAT 327 - Statistical Inference
- MAT 347 - Linear Programming and Convex Algebraic Geometry
- MAT 349 - Operations Research
- MAT 364 - Financial Mathematics
- MAT 424 - Partial Differential Equations and Applications
- MAT 430 - Advanced Probability and Applications
- MAT 464 - Advanced Financial Mathematics and Applications

Complete at least 2 of the following courses:
- ECO 305 - Consumer Economics
- ECO 306 - Money and Banking
- ECO 311 - Public Economics
- ECO 320 - History of Economic Thought.
- ECO 322 - Economic History of Developing Countries
- ECO 324 - International Economics
- ECO 326 - Labor Economics
- ECO 331 - Industrial Organization and Regulation
- ECO 338 - Law and Economics (Inactive)
- ECO 344 - Economic Evaluation of Health Programs
- ECO 345 - Health Economics
- ECO 347 - International Macroeconomics and Financial Markets
- ECO 431 - Managerial Economics

Cooperative Education

Complete at least 2 credits

Earn at least 2 credits from the following:
- CED 201 - Business Career Exploration: Self-Assessment, Discovery and Preparation
- CED 301 - Business Career Goals, Networking and Strategies

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Health Promotion and Nutrition Sciences Department

The Department of Health Promotion and Nutrition Sciences offers three undergraduate degrees in: a) Health Education and Promotion (BS), and b) Nutrition and Dietetics (BS), and c) Culinary & Community Nutrition (BS).

The Health Education and Promotion major prepares students for careers focused on health education, program planning, community outreach, advocacy, and policy development around healthy living, disease prevention, and removing barriers to health equity. Graduates and eligible senior-year students can take the Certified Health Education Specialist (CHES) exam, a nationally-recognized certification in health education and promotion, as well as pursue graduate education including Lehman's fully-online MA degree in Health Education and Promotion.

The Nutrition and Dietetics major is designed to prepare students for entry-level employment in nutrition and food-related positions in healthcare facilities, community agencies, cooperative extension, food service operations, culinary or nutrition education, and/or the food industry. Students are also prepared for post-graduate education in nutrition and food-related fields. The Nutrition and Dietetics option complies with the requirements for a DPD and is accredited by Accreditation Council for Education in Nutrition and Dietetics (ACEND). The Culinary and Community Nutrition major prepares graduates to work in culinary nutrition education and in nutrition-oriented food service facilities. Graduates of this major are eligible to become certified dietary managers (CDM) via the Association of Nutrition and Foodservice Professionals (AFNP).

Program Description

The Culinary and Community Nutrition major prepares graduates to work in culinary nutrition education and in nutrition-oriented food service facilities. Graduates of this major are eligible to become certified dietary managers (CDM) via the Association of Nutrition and Foodservice Professionals (AFNP).

Program Overview
Lehman College of the City University of New York now offers a Bachelor of Science in Culinary and Community Nutrition. This program is non- accredited and is not a pathway to become a registered dietitian. The Culinary and Community Nutrition program provides a unique experience for students interested in the culinary and food services aspects of nutrition and provides a pathway for students who do not want to become a registered dietitian.

Admission Information
A minimum GPA of 2.5 is required for Culinary and Community Nutrition major. This GPA must be maintained. If it is not maintained, students will be placed on academic probation for one semester after which time, if the GPA requirement is not met, students dropped from the Culinary and Community Nutrition program.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 60 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Communication Skills

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Quantitative Skills

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Laboratory Science

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

World Cultures and Global Issues

Complete at least 1 course in the following course sets:

- Flexible Core World Cultures and Global Issues

AND

US Experience in Its Diversity

Complete at least 1 course in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Creative Expression

Complete at least 1 course in the following course sets:

- Flexible Core Creative Expression

AND

Individual and Society

Complete at least 1 course in the following course sets:

- Flexible Core Individual and Society

AND

Scientific World

Complete at least 1 course in the following course sets:

- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 64 credits

Earn a minimum GPA of 2.5

Major Requirements - Required Courses

Type
Completion Requirement

Fulfill ALL of the following requirements:

Biological Sciences

Complete ALL of the following Courses:
- BIO 181 - Anatomy and Physiology I
- BIO 182 - Anatomy and Physiology II

Chemistry

Complete ALL of the following Courses:
- CHE 114 - Essentials of General Chemistry Lecture
- CHE 115 - Essentials of General Chemistry Laboratory
- CHE 120 - Essentials of Organic Chemistry Lecture I
- CHE 121 - Essentials of Organic Chemistry Laboratory II

Mathematics

Complete ALL of the following Courses:
- MAT 132 - Introduction to Statistics

Core DFN Courses

Complete ALL of the following Courses:

- DFN 200 - ServSafe Certification
- DFN 215 - Introduction to Nutrition
- DFN 221 - Social and Cultural Determinants of Food and Health
- DFN 248 - Nutrition in Health Care
- DFN 321 - Food Science and Microbiology
- DFN 340 - Community Nutrition and Food Justice
- DFN 341 - Nutrition Throughout the Life Cycle
- DFN 369 - Research Methods in Nutrition
- DFN 430 - Management of Food and Nutrition Services
- DFN 437 - Nutrition Education & Counseling
- DFN 441 - Seminar in Professional Practice of Nutrition and Dietetics
- DFN 469 - Critical Issues in Food and Nutrition
  OR DFN 472 - Field Experience in Food and Nutrition

Laboratory Courses

Earn at least 3 credits from the following:

- DFN 120 - Laboratory Special Topics I
- DFN 220 - Laboratory Special Topics II
- DFN 250 - Food Science Laboratory
- DFN 260 - Food Culture Laboratory
- DFN 270 - Lifecycle and Therapeutic Foods Laboratory
- DFN 280 - Food Production and Management Laboratory
- DFN 290 - Sustainability In Food and Food Systems Laboratory

Culinary and Community Nutrition major specific courses

Complete ALL of the following Courses:

- DFN 347 - Introduction to Diet Therapy
- DFN 435 - Community Engagement and Leadership in Foods and Nutrition
- DFN 447 - Advanced Community Nutrition

Additional Comments:
Additional Comments

Some students may be eligible to complete > 50% of the DFN major online. Ineligible students include those who: 1. Do not have access to a kitchen/ cooking facilities to complete the online culinary laboratory courses of the degree; or 2. Students completing the Didactic Program in Dietetics.

BS to MS Dual Credit Opportunity

Undergraduate students, majoring in Culinary and Community Nutrition with 90 or more credits and a minimum of a 3.0 cumulative GPA and a minimum GPA of 3.0 in the major may be permitted to enroll in up to 12 credits of graduate coursework for the College's M.S. degree in Nutrition. The following graduate courses may be taken in place of related undergraduate courses: DFN 521 for DFN 321, DFN 622 for DFN 221, DFN 637 for DFN 437, DFN 641 for DFN 435, DFN 642 for DFN 342, DFN 791 for DFN 369. The student must receive permission from the department prior to registration.

Mandatory Professional Licensure Disclosure

Type
Completion Requirement

Additional Comments:
New York State prides itself in the high quality of its licensed and certified professionals. For the protection of its citizens, each license and certificate has requirements that individuals must meet in order to be licensed or certified in New York State. CUNY's academic programs leading to licensure or certification are carefully designed to meet and exceed these State requirements. This is a role CUNY plays in protecting the public. Other states frequently have their own requirements, so if your goal is to practice in another state, this disclosure will help you check to see what that state requires.

Per U.S. Federal Regulations, §668.14 and §668.43, and in compliance with the SARA Policy Manual, CUNY Lehman College provides the following disclosure related to the educational requirements for professional licensure and certification.

This Disclosure is strictly limited to the CUNY Lehman College determination of whether this academic program, that if successfully completed, would be sufficient to meet the educational licensure or certification requirements in a State for Teaching. CUNY Lehman College cannot provide verification of an individual's ability to meet licensure or certification requirements unrelated to its educational programming. Such individual determinations are made by state licensing boards and are fact-specific determinations.

This disclosure does **not** provide any guarantee that any particular state licensure or certification entity will approve or deny your application. Furthermore, this disclosure does **not** account for changes in state law or regulation that may affect your application for licensure and occur after this disclosure has been made. **Enrolled students and prospective students are strongly encouraged to contact their state's licensure entity using the links provided to review all licensure and certification requirements imposed by their state(s) of choice.**

CUNY Lehman College has determined this academic program curricula, if successfully completed, **is sufficient to meet** the licensure and certification requirements for an initial teaching certification license in the following states:

New York State: New York State Education Department Teacher Certification

CUNY Lehman College has made no determination that the curricula is **insufficient to meet** the licensure and certification requirements for initial teaching certification in any of the 50 states and territories. After making all reasonable efforts, CUNY Lehman College **cannot determine** whether its educational programs curricula for this academic program, if successfully completed, is sufficient to meet the licensure and certification requirements for certification in the following states:

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute "Writing Intensive" when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Program Description

This program is designed to prepare students for careers that focus on health education, program planning, outreach, advocacy, and policy development around healthy living, disease prevention, and removing barriers to health equity. Graduates are employed in many professional sectors including community agencies, hospitals, government and health departments, schools, and universities.

The program includes two options: Community Health Specialization (Option 1) and Community Health and Nutrition Specialization (Option 2). Graduates (and eligible seniors) can sit for the Certified Health Education Specialist (CHES) exam, a nationally-recognized certification awarded by the National Commission for Health Education Credentialing.

Eligible majors can participate in the Dual-Credit Option and take up to 15 graduate-level credits towards the College's fully online, 33-credit M.A. degree in Health Education and Promotion.

Departmental Grading Policy:
Students must earn a C- or above in all courses required for the major and the minor. If a grade is lower, the student must repeat the course. D grades in courses for the major that are transferred in from another institution are acceptable.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 60 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
The maximum total number of credits that may be transferred towards the degree at Lehman College from Associate degree granting institutions is 70. Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

No transfer student may be granted more than 90 credits toward the degree. Students must satisfy the requirement that 30 credits as well as one-half the credits in the major and half in the minor or half the credits in an interdisciplinary program be completed in residence at Lehman.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4

PHY167 General Physics II	General Physics II	5
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 54 credits
- Option 1: Community Health Specialization (54-58 credits)
- Option 2: Community Health and Nutrition Specialization (63 credits)

Major Requirements - Core Courses

Type
Completion Requirement

Department

Complete ALL of the following Courses:
- HSD 266 - The United States Health Care Delivery System

Health Education and Promotion

Earn at least 30 credits from the following:
- HEA 249 - Foundations of Health
- HEA 267 - Human Behavior and Health
- HEA 300 - Equity in Public Health
- HEA 320 - Health Counseling
- HEA 330 - Health Communication and Advocacy
- HEA 350 - Health Literacy and Numeracy
- HEA 400 - Program Planning and Evaluation
- HEA 437 - Strategies in Community Health and Nutrition Education
- HEA 440 - Seminar in Community Health Professional

Preparation
- HEA 470 - Field Experience in Community Health

Additional Comments:
- *Courses to be taken by all program majors (33 credits)*

Major Requirements - Option 1: Community Health Specialization (54-58 credits)

Type
Completion Requirement

Health Education and Promotion

Earn at least 17 credits from the following:
- HEA 266 - Research Techniques in Health Education
- HEA 450 - CHES Exam Preparation

HEA Electives

Earn at least 12 credits
HEA electives: Chosen in consultation with the Advisor.

Biological Sciences

Complete at least 1 of the following:

Complete ALL of the following Courses:
- BIO 183 - Human Biology

OR

Complete ALL of the following Courses:
- BIO 181 - Anatomy and Physiology I
- BIO 182 - Anatomy and Physiology II

BIO181 Anatomy and Physiology I, BIO182 Anatomy and Physiology II, and BIO183 Human Biology: These courses also satisfy a General Education requirement.

Additional Comments:
Additional courses to be taken (21-25 credits)

Major Requirements - Option 2: Community Health and Nutrition Specialization (63 credits)

Type
Completion Requirement

Health Education and Promotion

Earn at least 3 credits
HEA electives

HEA Electives

Earn at least 3 credits
HEA electives: Chosen in consultation with the Advisor.

Dietetics, Foods, and Nutrition

Earn at least 14.5 credits from the following:
- DFN 200 - ServSafe Certification
- DFN 120 - Laboratory Special Topics I
  OR DFN 220 - Laboratory Special Topics II
  OR DFN 250 - Food Science Laboratory
  OR DFN 260 - Food Culture Laboratory
- DFN 221 - Social and Cultural Determinants of Food and Health
- DFN 215 - Introduction to Nutrition
- DFN 340 - Community Nutrition and Food Justice
- DFN 341 - Nutrition Throughout the Life Cycle

Chemistry

Earn at least 4.5 credits from the following:
- CHE 114 - Essentials of General Chemistry Lecture
- CHE 115 - Essentials of General Chemistry Laboratory
- CHE 114, CHE 115: These courses also satisfy a General Education requirement.

Biological Sciences

Earn at least 8 credits from the following:
- BIO 181 - Anatomy and Physiology I
- BIO 182 - Anatomy and Physiology II
- BIO 181, BIO 182: These courses also satisfy a General Education requirement.

Additional Comments:
Additional courses to be taken (30 credits)

Major Requirements - Dual Credit Option

Type
Completion Requirement

Undergraduate students majoring in Health Education and Promotion with 72 or more credits and a minimum of a (3.0) cumulative index may be permitted to enroll in up to 12 graduate credits in the College's 33-credit Fully Online M.A. degree in Health Education and Promotion. The following graduate courses may be taken in place of undergraduate courses with a maximum of 12 credits: HEA 620 (for HEA 320), any 500- or 600-level HEA elective that is offered simultaneously at the 300-level, HEA 623 (for HEA 400), HEA 670 (for HEA 470), and HEA 675 (for HEA 437). Written permission from both the academic undergraduate and graduate advisors must be secured by the student prior to registration.

Nutrition and Dietetics - NTRDIET-BS

General

HEGIS Code
1306.00

CIP Code
19.0501

Program Description
Nutrition and Dietetics is designed to prepare students for entry-level employment in nutrition and food-related positions in healthcare facilities, community agencies, cooperative extension, food service operations, culinary or nutrition education, and/or the food industry. Students are also prepared for post-graduate education in nutrition and food-related fields.

GPA Requirements
A minimum GPA of 3.3 is required for admission into Nutrition and Dietetics major. GPA must be maintained. If they are not maintained, students will be placed on academic probation for one semester after which time, if the GPA requirement is not met, students dropped from the Nutrition and Dietetics program.

Admission Information
All students interested in Nutrition and Dietetics major will first be enrolled in the Culinary and Community Nutrition major. Students interested in the Nutrition and Dietetics major are required to earn a B- or higher grade in DFN 215, DFN 321, and DFN 341 courses with an overall minimum GPA of 3.3 before taking a pre-entry examination to assess aptitude for the Nutrition and Dietetics Major. Upon successful completion of the pre-entry examination (earning a minimum score of 80%), students may apply for the Nutrition and Dietetics major.

Nutrition and Dietetics major
The Nutrition and Dietetics major complies with the requirements for a DPD and is accredited by Accreditation Council for Education in Nutrition and Dietetics (ACEND):

120 South Riverside Plaza
Suite 2190
Chicago, IL 60606-6995
(800) 877-1600, ext. 5400
ACEND@eatright.org

DPD Verification
Students fulfilling all requirements for successful completion of the ACEND-accredited DPD are eligible for a Verification Statement and can apply for supervised practice in an ACEND-accredited dietetic internship (DI), which enables the student to take the CDR examination to become a registered dietitian nutritionist (RDN). The DPD Verification Statement also provides the opportunity to take the examination to become a Nutrition and Dietetic Technician, Registered (NDTR). To obtain a Verification Statement, students must successfully complete the following:

1. All required DPD courses with a minimum GPA of 3.3
2. PSY 166, which satisfies a General Education Requirement
3. ServSafe Food Handler Certification
4. The University of Indiana Plagiarism tutorial (available here)
5. Earn a score of 75% or better on the DPD Verification examination

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 60 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Communication Skills

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Quantitative Skills

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Laboratory Science

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

World Cultures and Global Issues

Complete at least 1 course in the following course sets:

- Flexible Core World Cultures and Global Issues

AND

US Experience in Its Diversity

Complete at least 1 course in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Creative Expression

Complete at least 1 course in the following course sets:

- Flexible Core Creative Expression

AND

Individual and Society

Complete at least 1 course in the following course sets:

- Flexible Core Individual and Society

AND

Scientific World

Complete at least 1 course in the following course sets:

- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:

- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 64 credits

Earn a minimum GPA of 3.3

Major Requirements - Required Courses

Type
Completion Requirement

Fulfill ALL of the following requirements:

Biological Sciences

Complete ALL of the following Courses:
- BIO 181 - Anatomy and Physiology I
- BIO 182 - Anatomy and Physiology II

AND

Chemistry

Complete ALL of the following Courses:
- CHE 114 - Essentials of General Chemistry Lecture
- CHE 115 - Essentials of General Chemistry Laboratory
- CHE 120 - Essentials of Organic Chemistry Lecture I
- CHE 121 - Essentials of Organic Chemistry Laboratory II
- CHE 114, CHE 115: These courses also satisfy a General Education requirement.

Math

Complete ALL of the following Courses:
- MAT 132 - Introduction to Statistics

Core DFN Courses

Complete ALL of the following Courses:
- DFN 200 - ServSafe Certification
- DFN 215 - Introduction to Nutrition
- DFN 221 - Social and Cultural Determinants of Food and Health
- DFN 248 - Nutrition in Health Care
- DFN 321 - Food Science and Microbiology
- DFN 340 - Community Nutrition and Food Justice
- DFN 341 - Nutrition Throughout the Life Cycle
- DFN 369 - Research Methods in Nutrition
- DFN 430 - Management of Food and Nutrition Services
- DFN 437 - Nutrition Education & Counseling
- DFN 441 - Seminar in Professional Practice of Nutrition and Dietetics
- DFN 471 - Field Experience in Clinical Nutrition

Laboratory Courses

Earn at least 3 credits from the following:
- DFN 120 - Laboratory Special Topics I
- DFN 220 - Laboratory Special Topics II
- DFN 250 - Food Science Laboratory
- DFN 260 - Food Culture Laboratory
- DFN 270 - Lifecycle and Therapeutic Foods Laboratory
- DFN 280 - Food Production and Management Laboratory
- DFN 290 - Sustainability In Food and Food Systems Laboratory

Nutrition and Dietetics major specific courses

Complete ALL of the following Courses:
- DFN 348 - Nutrition in the Management of Disease I
- DFN 445 - Nutritional Biochemistry
- DFN 448 - Nutrition in the Management of Disease II

Additional Comments:
Some students may be eligible to complete > 50% of the DFN major online. Ineligible students include those who: 1. Do not have access to a kitchen/ cooking facilities to complete the online culinary laboratory courses of the degree; or 2. Students completing the Didactic Program in Dietetics.

BS to MS Dual Credit Opportunity
Undergraduate students, majoring in Nutrition and Dietetics with 90 or more credits and a minimum of a 3.0 cumulative GPA and a minimum GPA of 3.0 in the major may be permitted to enroll in up to 12 credits of graduate coursework for the College's M.S. degree in Nutrition. The following graduate courses may be taken in place of related undergraduate courses: DFN 521 for DFN 321, DFN 622 for DFN 221, DFN 637 for DFN 437, DFN 641 for DFN 435, DFN 642 for DFN 342, DFN 791 for DFN 369. The student must receive permission from the department prior to registration.

Mandatory Professional Licensure Disclosure

Type
Completion Requirement

Additional Comments:
New York State prides itself in the high quality of its licensed and certified professionals. For the protection of its citizens, each license and certificate has requirements that individuals must meet in order to be licensed or

certified in New York State. CUNY's academic programs leading to licensure or certification are carefully designed to meet and exceed these State requirements. This is a role CUNY plays in protecting the public. Other states frequently have their own requirements, so if your goal is to practice in another state, this disclosure will help you check to see what that state requires.

Per U.S. Federal Regulations, §668.14 and §668.43, and in compliance with the SARA Policy Manual, CUNY Lehman College provides the following disclosure related to the educational requirements for professional licensure and certification.

This Disclosure is strictly limited to the CUNY Lehman College determination of whether this academic program, that if successfully completed, would be sufficient to meet the educational licensure or certification requirements in a State for Teaching. CUNY Lehman College cannot provide verification of an individual's ability to meet licensure or certification requirements unrelated to its educational programming. Such individual determinations are made by state licensing boards and are fact-specific determinations.

This disclosure does **not** provide any guarantee that any particular state licensure or certification entity will approve or deny your application. Furthermore, this disclosure does **not** account for changes in state law or regulation that may affect your application for licensure and occur after this disclosure has been made. **Enrolled students and prospective students are strongly encouraged to contact their state's licensure entity using the links provided to review all licensure and certification requirements imposed by their state(s) of choice.**

CUNY Lehman College has determined this academic program curricula, if successfully completed, **is sufficient to meet** the licensure and certification requirements for an initial teaching certification license in the following states:

New York State: New York State Education Department Teacher Certification

CUNY Lehman College has made no determination that the curricula is **insufficient to meet** the licensure and certification requirements for initial teaching certification in any of the 50 states and territories. After making all reasonable efforts, CUNY Lehman College **cannot determine** whether its educational programs curricula for this academic program, if successfully completed, is sufficient to meet the licensure and certification requirements for certification in the following states:

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute "Writing Intensive" when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Dietetics, Foods and Nutrition - NUTR-BS

General

HEGIS Code	CIP Code
1306.00	51.3101

Program Description

The programs in Dietetics, Foods, and Nutrition (DFN) include two options: Option I (Didactic Program in Dietetics or DPD) and Option II (Culinary Nutrition and Food Service) and are designed to prepare students for entry-level employment in nutrition and food-related positions in healthcare facilities, community agencies, cooperative extension, food service operations, culinary or nutrition education, and/or the food industry. Students are also prepared for post-graduate education in nutrition and food-related fields.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 60 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Communication Skills

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Quantitative Skills

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning

- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Laboratory Science

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4
BIO167 Principles of Bio: Organisms	Principles of Biology: Organisms	4
BIO181 Anatomy and Physiology I	Anatomy and Physiology I	4
BIO182 Anatomy and Physiology II	Anatomy and Physiology II	4
BIO183 Human Biology	Human Biology	4
CHE114 Essntls of Gen Chemistry-Lec And CHE115 Essntls of Gen Chemistry-Lab	Essentials of General Chemistry Lecture And Essentials of General Chemistry Laboratory	3 And 1.5
CHE166 General Chemistry I And CHE167 General Chemistry Laboratory I	General Chemistry I And General Chemistry Laboratory I	4 And 1.5
CHE168 General Chemistry 2 And CHE169 General Chemistry Lab II	General Chemistry II And General Chemistry Laboratory II	4 And 1.5
GEO101 Dynamic Earth	Dynamic Earth	3
GEO167 Earth Evolution	Earth Evolution	3
GEP204 Basic Map: Applctns & Analysis	Basic Mapping: Applications and Analysis	3
PHY135 Fund Concepts&Methods Physics	Fundamental Concepts and Methods of Physics	4
PHY140 The Physics of Sound	The Physics of Sound	3.5
PHY166 General Physics I	General Physics I	5
PHY167 General Physics II	General Physics II	5

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

World Cultures and Global Issues

Complete at least 1 course in the following course sets:

- Flexible Core World Cultures and Global Issues

AND

US Experience in Its Diversity

Complete at least 1 course in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Creative Expression

Complete at least 1 course in the following course sets:

- Flexible Core Creative Expression

AND

Individual and Society

Complete at least 1 course in the following course sets:

- Flexible Core Individual and Society

AND

Scientific World

Complete at least 1 course in the following course sets:

- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4

PHY166 General Physics I	General Physics I	5
PHY167 General Physics II	General Physics II	5
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:

- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn a minimum GPA of 3.0

Option I: Dietetics, Foods, and Nutrition

Earn at least 63.5 credits

Option II: Food Service and Culinary Nutrition

Earn at least 49.5 credits

Additional Comments:
BS to MS Dual Credit Opportunity:

- Second degree students, majoring in Dietetics, Foods, and Nutrition with 90 or more credits and a minimum of a 3.0 cumulative GPA and a minimum GPA of 3.0 in the major may be permitted to enroll in up to 12 credits of graduate coursework for the College's M.S. degree in Nutrition. The following graduate courses may be taken in place of related undergraduate courses: DFN 520 for DFN 120; DFN 621 for DFN 220; DFN 620 for DFN 341; and DFN 637 for DFN 437. The student must receive permission from the department prior to registration.

Major Requirements - Required Courses

Type
Completion Requirement

Fulfill ALL of the following requirements:

Health Sciences

Complete ALL of the following Courses:
- EXS 240 - Nutrition and Health
- HSD 266 - The United States Health Care Delivery System

AND

Dietetics, Foods, and Nutrition

Complete ALL of the following Courses:
- DFN 120 - Laboratory Special Topics I
- DFN 220 - Laboratory Special Topics II
- DFN 330 - Quantity Food Procurement, Production, and Service
- DFN 341 - Nutrition Throughout the Life Cycle
- DFN 430 - Management of Food and Nutrition Services

AND

Nutrition Education and Counseling

Complete ALL of the following Courses:
- DFN 437 - Nutrition Education & Counseling

AND

Biological Sciences

Complete ALL of the following Courses:
- BIO 230 - Microbiology

AND

Chemistry

Complete ALL of the following Courses:
- CHE 114 - Essentials of General Chemistry Lecture
- CHE 115 - Essentials of General Chemistry Laboratory
- CHE 114, CHE 115: These courses also satisfy a General Education requirement.

Major Requirements - Option I: Dietetics, Foods, and Nutrition

Type
Completion Requirement

Fulfill ALL of the following requirements:

Health Sciences

Complete ALL of the following Courses:
- HSD 269 - Fundamentals of Biostatistics

AND

Dietetics, Foods, and Nutrition

Complete ALL of the following Courses:
- DFN 445 - Nutritional Biochemistry
- DFN 348 - Nutrition in the Management of Disease I
- DFN 441 - Seminar in Professional Practice of Nutrition and Dietetics
- DFN 448 - Nutrition in the Management of Disease II

- DFN 470 - Dietetic Services Field Experience
  OR DFN 471 - Field Experience in Clinical Nutrition
  OR DFN 472 - Field Experience in Food and Nutrition

AND

Biology

Complete ALL of the following Courses:

- BIO 228 - Mammalian Physiology
- BIO 228: BIO 181-BIO 182 (8 credits) may be substituted.

AND

Chemistry

Earn at least 9 credits from the following:

- CHE 120 - Essentials of Organic Chemistry Lecture I
  AND CHE 121 - Essentials of Organic Chemistry Laboratory II
- CHE 244 - Introduction to Biochemistry
  AND CHE 245 - Biochemistry Laboratory
- DFN 244 - Nutritional Biochemistry
  AND DFN 245 - Nutritional Biochemistry Laboratory

Additional Comments:

- To receive a statement verifying completion of the Didactic Program in Dietetics (DPD) accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND), students must successfully complete all courses required for Option I, and demonstrate computer literacy. Students must also successfully complete PSY 166, which satisfies A General Education Requirement. More information on the Didactic Program in Dietetics can be found in the DPD Handbook.

Major Requirements - Option II: Food Service and Culinary Nutrition

Type
Completion Requirement

Fulfill ALL of the following requirements:

Dietetics, Foods, and Nutrition

Complete ALL of the following Courses:

- DFN 470 - Dietetic Services Field Experience

AND

Biological Sciences

Complete ALL of the following Courses:

- BIO 181 - Anatomy and Physiology I
- BIO 182 - Anatomy and Physiology II

AND

Accounting

Complete ALL of the following Courses:

- ACC 185 - Introduction to Accounting for Non-Accounting Majors

AND

Elective

Earn at least 3 credits

- 3 credits of an Elective in DFN, EXS, HEA, HSA, HSD, and REC.

Courses

DFN 120 - Laboratory Special Topics I (1.5 cr)

General

Course Title
Laboratory Special Topics I

Catalog Description
Laboratory in the Nature and Science of Food or Cultural Foods. Can be repeated for up to 3 credits

DFN 200 - ServSafe Certification (1 cr)

General

Course Title
ServSafe Certification

Catalog Description
Content includes food safety and proper food handling techniques. This course utilizes the ServSafe materials prepared by the National Restaurant Association Education Foundation to prepare students for a national examination.

Note: Course is available only on a pass/no credit basis. 'Pass' is earned upon the successful completion of the ServSafe exam (earning a score of 70 or higher) during the semester in which a student is enrolled in the course. After studying the required materials, there will be two options to take the exam.
1. Online Proctor - Access to high-speed internet is required for students who choose to take the course via ServSafe online proctoring.
2. In person: An in-person option at Lehman will also be offered for students who choose to take it in a proctored computer classroom.

If a passing grade (70 or higher) is not earned, students can retake the examination up to two times within 30 days. If students don't pass the exam on the second attempt, they must wait 60 days from the most recent attempt before taking the exam again. No more than four attempts are allowed within a 12-month period. Students will need to purchase a new Exam Answer Sheet to retake a print exam or purchase a new Exam Access Code to re-take an online exam. More information is available online at the National Restaurant Association Educational Foundation website.

Health, Administration, Research and Technology Department

Bachelor of Science in Health Services Administration

The program in Health Services Administration provides an economically and culturally diverse undergraduate student population with the critical knowledge and skills needed by health services managers. Students will work with clinicians to manage health care delivery systems, hospitals, organized physician groups, community health facilities (including ambulatory care facilities), nursing homes, extended care facilities, financing and insurance agencies, managed care organizations, and other organizations which either directly provide critical personal health care services or support the provision of those services. Students who are pursuing a degree in Health Services Administration may also pursue the Nursing Home Administration certificate, which is approved by New York state. Courses are offered in various modalities (online synchronous, hyflex, and in-person).

This program serves several purposes:

1. To give students an enhanced capacity and opportunity to seek and obtain challenging administrative positions which allow them to plan, implement, and manage a wide variety of health services which are delivered in a comprehensive range of health services organizations and settings.

2. To provide students with an educational background which helps them to pursue a variety of health services career options, including certification and licensure options: for instance, an HSA major can help students meet the professional requirements which will make them eligible for admission to the New York State Licensing Examination for Nursing Home Administrators.

3. To prepare students for graduate study in Health Services Administration.

Nursing Home Administration Certificate (NHA – Certificate)

This certificate provides the required courses for individuals planning to pursue New York State licensure in nursing home administration. The certificate consists of the five three-credit courses required to prepare students to sit for the New York State licensure exam. Students will apply for the Administrator-in-Training internship directly with the New York Department of Health. These fifteen credits are recognized by the NYS Department of Health in their listing of Accredited Educational institutions. Students must complete the following courses:

• Human Resources Management and Labor Relations in Health Services (HSA 301)

• Financial Aspects of Health Care Administration (HSA 304)

• Nursing Home Administration (HSA 325)

• Legal Issues in Healthcare (HSD 308)

• Health and Aging (HEA 310)

Health Services Administration Minor

Students must complete 12 credits of the following courses:

• The United States Health Care Delivery System (HSD 266)

• Management of Health Organizations (HSA 267)

• Two HSA/HSD classes above the 300 level

Bachelor of Science in Public Health

The Bachelor of Science in Public Health (BSPH) is a rigorous 59-64 credit major designed to prepare students for meaningful careers and continued study in the rapidly evolving field of public health. The program combines a broad interdisciplinary foundation with opportunities for students to pursue focused study through the Public Health Science, Social Justice and Global Health, or Urban Public Health track, selected in consultation with an academic advisor. Grounded in anti-racism and social justice, the program connects classroom learning to contemporary public health challenges and opportunities for community and societal impact. Flexible course scheduling, including online synchronous and in-person courses offered during weekdays and evenings, supports students with diverse academic and professional commitments.

This program serves several purposes:

- Prepare future public health professionals to advance health and health equity through a rigorous, interdisciplinary education grounded in the social, environmental, behavioral, biological, and structural determinants of health and applicable across major public health domains, including global health, urban public health, and public health sciences.
- Develop critical thinkers and evidence-informed problem solvers who can interpret public health data and scientific evidence, identify and address complex health problems and misinformation, and apply ethical, analytical, and interdisciplinary approaches to develop, implement, evaluate, and advocate for effective public health solutions.
- Prepare students for successful careers and advanced degree programs by developing the scientific knowledge, statistical literacy, data and surveillance skills, communication competencies, and practical experience necessary to translate public health knowledge into meaningful action through practice, research, policy, and community engagement.

Upon completion of the Lehman College BS in PUBLIC HEALTH, students will be trained in:

1. the history of public health as a discipline and practice

2. social justice and health equity as foundational public health principles

3. determinants of health: environmental, socioeconomic, behavioral, and other factors

4. concepts and application of public health ethics

5. biological science (e.g., introductory anatomy and physiology)

6. scientific underpinnings of chronic and infectious disease: e.g., etiology of disease, environmental effects and interactions)

7. fundamental characteristics of the U.S. health system in comparison with other nations

8. global health concepts (e.g., differing disease burdens, global health agencies, intersections with human rights, resource-specific challenges)

9. public health statistical literacy (e.g., preparing descriptive statistics, reading and interpreting public health statistical data and evidence, using relevant software (e.g., Excel), mastering terminology to communicate and collaborate with other professionals on data)

10. public health data collection and surveillance (e.g., common methods, challenges in real-world data collection, assessing data quality and limitations)

11. planning, implementing, and evaluating evidence-based interventions (e.g., community needs assessment; program delivery; process, formative, and summative evaluation)

12. critical thinking to define and address problems in public health practice (e.g., problem solving to address implementation challenges; applying basic public health frameworks, models, and theories; identifying misinformation)

13. legislative and governmental processes relevant to public health policy and advocacy

14. policy analysis (e.g., health in all policies, concepts of feasibility and impact)

Public Health Interdisciplinary Minor

The interdisciplinary public health minor is for students in any discipline interested in improving health outcomes in the U.S. and beyond, as well as acquiring the skills needed to work towards health equity. Students will complete 15 approved credits to earn this minor.

Program Description

The program in Health Services Administration provides an economically and culturally diverse undergraduate student population with the critical knowledge and skills needed by health services managers who will work with clinicians to manage health care delivery systems, hospitals, organized physician groups, community health facilities (including ambulatory care facilities), nursing homes, extended care facilities, financing and insurance agencies, managed care organizations, and other organizations which either directly provide critical personal health care services or support the provision of those services.

This program serves a number of purposes:

- To give students an enhanced capacity and opportunity to seek and obtain challenging administrative positions which allow them to plan, implement, and manage a wide variety of health services which are delivered in a comprehensive range of health services organizations and settings.
- To provide students with an educational background which helps them to pursue a variety of health services career options, including certification and licensure options: for instance, an HSA major can help students meet the professional requirements which will make them eligible for admission to the New York State Licensing Examination for Nursing Home Administrators.
- To prepare students for graduate study in Health Services Administration.

Departmental Grading Policy
Health Services Administration: Students must earn a C- or above in all courses for the major and the minor. If the grade is lower, the student must repeat the course. The Program will accept a total of one (1) transferred course with a D grade from the following list of Lehman College equivalent courses: PSY166 General Psychology, ECO166 Introduction of Macroeconomics, ECO167 Introduction to Microeconomics, ACC171 Principles of Accounting I, or ACC185 Intro to Acc Non-Acc Majors.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 60 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

Degree Requirements - Admission Requirements

Type
Prerequisite

Earn a minimum GPA of 2.5
An application for admission to the program in Health Services Administration requires a cumulative index of 2.5 for admission.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Communication Skills

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Quantitative Skills

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses (2 Courses, 6 Credits)

Integration Courses are part of the College Option in CUNY General Education.

Students must complete TWO “LEH” (“L” “E” “H”) COURSES:
EITHER
LEH250 First-year Seminar and ONE course chosen from LEH351 Stds Scientific&App Perspec, LEH352 Studies in Literature, LEH353 Studies in the Arts, LEH354 Studies in Historical Studies or LEH355 Stds Philo,Theory & Abst Think that is outside of their major (see notes on each course).
OR
TWO different LEH courses chosen from LEH351 Stds Scientific&App Perspec, LEH352 Studies in Literature, LEH353 Studies in the Arts, LEH354 Studies in Historical Studies or LEH355 Stds Philo,Theory & Abst Think that are outside of their major (see notes on each course).

LEH courses are variable topics courses, in which each section covers a specific topic. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

LEH 250: First-year Seminar. 3 hours, 3 credits. Selected topics in the social sciences, life and physical sciences, humanities or applied perspectives. Nature and value of the liberal arts and sciences, critical thinking within a disciplinary area, goals and objectives of General Education, technological tools for education, campus services and supports, and links between the disciplinary area and careers. Prerequisite: Completion of 30 credits or fewer.

LEH 351-355
Students must select upper-division LEH courses (LEH351 Stds Scientific&App Perspec, LEH352 Studies in Literature, LEH353 Studies in the Arts, LEH354 Studies in Historical Studies or LEH355 Stds Philo,Theory & Abst Think) that are outside of their major (see the notes below). Prerequisite for all of the upper-division LEH courses: Completion of 45 credits or an Associate’s Degree and an official declaration of major.

LEH351 Stds Scientific&App Perspec: Studies in Scientific and Applied Perspectives. 3 hours, 3 credits (may be repeated for credit with a different topic). Selected topics in the social sciences, life and physical sciences and applied perspectives. Prerequisites: official selection of a major and either completion of 45 credits or an Associate's Degree.

NOTE 1: In general, students should expect writing assignments and computer-based work along with research involving the library and the Internet.

NOTE 2: This course grants general education credit towards graduation for students in all major concentrations except Accounting, Anthropology, Anthropology, Biology, Biology Teacher Grades 7-12, Biology BS/MS Dual Degree, Chemistry, Biology, Business Administration, Chemistry, Computer Graphics and Imaging, Computer Information Systems, Computer Science, Dietetics, Foods, and Nutrition, Earth Science, Economics, Economics and Mathematics, Environmental Science, Exercise Science, Geography, Geology, Health Education and Promotion, Health Education N-12, Health Services Administration, Italian American Studies, Linguistics, Mathematics, Nursing, Physics, Political Science, Psychology, Recreation Education, Social Work, Sociology, Speech Pathology and Audiology, Therapeutic Recreation.

LEH352 Studies in Literature: Studies in Literature. 3 hours, 3 credits (may be repeated for credit with a different topic). Selected topics in literature. Prerequisites: official selection of a major and either completion of 45 credits or an Associate's Degree.

NOTE 1: In general, students should expect writing assignments and computer-based work along with research involving the library and the Internet.

NOTE 2: This course grants general education credit towards graduation for students in all major concentrations except Comparative Literature, English, French, French Teacher Education 7-12, Italian, Italian Teacher Education 7-12, Latin, Russian, Spanish and Spanish Teacher Education 7-12.

LEH353 Studies in the Arts: Studies in the Arts. 3 hours, 3 credits (may be repeated for credit with a different topic). Selected topics in the arts. Prerequisites: official selection of a major and either completion of 45 credits or an Associate's Degree.

NOTE 1: In general, students should expect writing assignments and computer-based work along with research involving the library and the Internet.

NOTE 2: This course grants general education credit towards graduation for students in all major concentrations except Art, Art History, Dance, Dance-Theatre, Film and Television Studies, Journalism, Media Communications Studies, Multimedia Performing Arts, Music, Theatre.

LEH354 Studies in Historical Studies : Studies in Historical Studies. 3 hours, 3 credits (may be repeated for credit with a different topic). Selected topics in historical studies. Prerequisites: official selection of a major and either completion of 45 credits or an Associate's Degree.

NOTE 1: In general, students should expect writing assignments and computer-based work along with research involving the library and the Internet.

NOTE 2: This course grants general education credit towards graduation for students in all major concentrations except Africana Studies, American Studies, History, History (Teacher Education), Latin American and Caribbean Studies, Latino Studies.

LEH355 Stds Philo,Theory & Abst Think: Studies in Philosophy, Theory and Abstract Thinking. 3 hours, 3 credits (may be repeated for credit with a different topic). Selected topics in philosophy, theory and abstract thinking. Prerequisites: official selection of a major and either completion of 45 credits or an Associate's Degree.

NOTE 1: In general, students should expect writing assignments and computer-based work along with research involving the library and the Internet.

NOTE 2: This course grants general education credit towards graduation for students in all major concentrations except Philosophy.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 58 credits
- Students who declared the Health Services Administration (HSA) Major **prior to September 15, 2017** must now follow the 58-credit subplan.
- Students who declare an HSA Major **after September 14, 2017** will follow the required curriculum for the 54 Credit Subplan as indicated in the current catalog.
- Students who declared the Health Services Administration (HSA) Major after August 24, 2024, must follow the 58-credit subplan.

Additional Comments:
- The major has been registered with the New York State Department of Education as one in which a minimum of 50% of major courses can be completed online.

Distribution of Required Courses and Credits

The distribution of courses and credits to be earned by majors pursuing the general program in Health Services Administration is as follows (58 credits):

Major Requirements - Departmental Courses

Type
Completion Requirement

Complete ALL of the following Courses:
- HSD 266 - The United States Health Care Delivery System
- HSD 269 - Fundamentals of Biostatistics
- HSD 306 - Epidemiology

Major Requirements - Health Services Administration Courses

Type
Completion Requirement

Complete ALL of the following Courses:
- HSA 267 - Management of Health Organizations
- HSA 301 - Human Resources Management and Labor Relations in Health Services
- HSA 307 - Research Methodology in Health Services Administration
- HSA 304 - Financial Aspects of Health Care Administration
- HSA 312 - Managed Health Care
- HSA 402 - Healthcare Program Planning and Evaluation
- HSA 403 - Strategic Management: Health Planning in a Competitive Environment

Major Requirements - Health Services Administration Internship

Type
Completion Requirement

Complete ALL of the following Courses:
- HSA 469 - Health Services Administration Pre-Internship Seminar
- HSA 470 - Health Services Administration Internship
- *Departmental permission required to waive internship. Applications for waiver must be submitted 60 days prior to the semester the internship will take place.*

Major Requirements - Psychology

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- PSY 166 - General Psychology

Major Requirements - Health Economics, Accounting, and Math

Type
Completion Requirement

Earn at least 10 credits from the following:
- MAT 132 - Introduction to Statistics
- ACC 185 - Introduction to Accounting for Non-Accounting Majors
  OR ACC 171 - Principles of Accounting I
- HSA 240 - Health Economics

Major Requirements - Electives

Type
Completion Requirement

Fulfill ANY of the following requirements:

Earn at least 9 credits
Chosen from HPI, HSA, and/or HSD with approval of the adviser, or:

OR

Complete ANY of the following Courses:
- BBA 336 - Business Law I
- BIO 181 - Anatomy and Physiology I
- ENW 300 - Business Writing
- ENW 307 - Health and Science Writing
- HIN 268 - Growth and Development
- HSA 302 - Computer Applications in Health Services Administration
- HSA 401 - Quality Improvement in Health Services Organizations
- PHE 301 - Foundations of Public Health Knowledge
- PHE 304 - Fundamentals of Global Health
- PHE 401 - Environmental and Occupational Health
- PHE 403 - Health Policy and Advocacy
- PHE 405 - Environmental Justice Applications
- PHE 410 - Public Health Leadership and Management
- PHE 411 - Health Equity, Communication, and Advocacy
- PHE 412 - Designing and Evaluating Public Health Interventions
- PHE 413 - Designs, Concepts, and Methods in Public Health Research
- PHE 414 - Quantitative and Qualitative Data Analysis Methods in Public Health Research

- PHE 444 - Gender and Health Across the Globe
- PHI 330 - Business Ethics
- PHI 341 - Medical Ethics
- PSY 335 - Health Psychology
- REC 302 - Administration of Recreation Services
- SOC 240 - Death, Dying, and Bereavement
- SOC 305 - Sociology of Health Care

- ENW300 Business Writing (Formerly ENW 204) (Need English Department Approval)
- ENW307 Health and Science Writing (Need English Department Approval)
- PHI330 Business Ethics (PREREQS: BBA 204 or Philosophy Department Approval)
- SOC305 Sociology of Health Care (SOC 166 or any 200 level SOC course)
- PSY335 Health Psychology (May count as an HSA Major Elective)
- HIN268 Growth and Development (Requires Nursing Department Approval)

Mandatory Professional Licensure Disclosure

Type
Completion Requirement

New York State prides itself in the high quality of its licensed and certified professionals. For the protection of its citizens, each license and certificate has requirements that individuals must meet in order to be licensed or certified in New York State. CUNY's academic programs leading to licensure or certification are carefully designed to meet and exceed these State requirements. This is a role CUNY plays in protecting the public. Other states frequently have their own requirements, so if your goal is to practice in another state, this disclosure will help you check to see what that state requires.

Per U.S. Federal Regulations, §668.14 and §668.43, and in compliance with the SARA Policy Manual, CUNY Lehman College provides the following disclosure related to the educational requirements for professional licensure and certification.

This Disclosure is strictly limited to the CUNY Lehman College determination of whether this academic program, that if successfully completed, would be sufficient to meet the educational licensure or certification requirements in a State for Health Services Administration. CUNY Lehman College cannot provide verification of an individual's ability to meet licensure or certification requirements unrelated to its educational programming. Such individual determinations are made by state licensing boards and are fact-specific determinations.

This disclosure does **not** provide any guarantee that any particular state licensure or certification entity will approve or deny your application. Furthermore, this disclosure does **not** account for changes in state law or regulation that may affect your application for licensure and occur after this disclosure has been made. Enrolled students and prospective students are strongly encouraged to contact their state's licensure entity using the links provided to review all licensure and certification requirements imposed by their state(s) of choice.

CUNY Lehman College has determined this academic program curricula, if successfully completed, is sufficient to meet the licensure and certification requirements for Health Services Administration licensure in the following states:

- **New York State:** New York State Education Department Office of the Professions

CUNY Lehman College has determined that the curricula is insufficient to meet (or has not been verified to meet) the licensure and certification requirements for Health Services Administration in the following states:

Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute "Writing Intensive" when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Nursing Home Administration - NHA-CERT

General

HEGIS Code	CIP Code
1202.00	51.3802

Program Description

This certificate provides the required courses for individuals planning to pursue New York State licensure in nursing home administration. The certificate consists of the five three-credit courses required to prepare students to sit for the New York State licensure exam. Students apply for the Administrator-in-Training internship directly with the New York Department of Health. These fifteen credits are recognized by the NYS Department of Health in their listing of Accredited Educational institutions.

Requirements

Simple Requirements

(No Requirement Levels)

Certificate Requirements - Admission Requirements

Type
Prerequisite

Additional Comments:
- The admission requirement for the certificate program is either an earned bachelor's degree or current Lehman students may enroll if they have a 2.5 GPA and have successfully completed HSA 267, HSA 312, and ACC 171 or ACC 185.

Certificate Requirements - Overall

Type
Completion Requirement

Earn at least 15 credits

Earn a minimum grade of C-

Certificate Requirements - Required Courses

Type
Completion Requirement

Complete ALL of the following Courses:
- HEA 310 - Health and Aging
- HSA 301 - Human Resources Management and Labor Relations in Health Services
- HSA 304 - Financial Aspects of Health Care Administration
- HSA 325 - Nursing Home Administration
- HSD 308 - Legal Issues in Health Care

- HSA 304 has the following pre-requisites Twelve credits of HSA and/or HSD courses. Students who have earned a healthcare-related Bachelor's degree, or relevant coursework or professional experience, are not required to take the prerequisites for HSA 304.

- At least 50% of this program can be completed online.

Mandatory Professional Licensure Disclosure

Type
Completion Requirement

New York State prides itself in the high quality of its licensed and certified professionals. For the protection of its citizens, each license and certificate has requirements that individuals must meet in order to be licensed or certified in New York State. CUNY's academic programs leading to licensure or certification are carefully designed to meet and exceed these State requirements. This is a role CUNY plays in protecting the public. Other states frequently have their own requirements, so if your goal is to practice in another state, this disclosure will help you check to see what that state requires.

Per U.S. Federal Regulations, §668.14 and §668.43, and in compliance with the SARA Policy Manual, CUNY Lehman College provides the following disclosure related to the educational requirements for professional licensure and certification.

This Disclosure is strictly limited to the CUNY Lehman College determination of whether this academic program, that if successfully completed, would be sufficient to meet the educational licensure or certification requirements in a State for Nursing Home Administration. CUNY Lehman College cannot provide verification of an individual's ability to meet licensure or certification requirements unrelated to its educational programming. Such individual determinations are made by state licensing boards and are fact-specific determinations.

This disclosure does **not** provide any guarantee that any particular state licensure or certification entity will approve or deny your application. Furthermore, this disclosure does **not** account for changes in state law or regulation that may affect your application for licensure and occur after this disclosure has been made. Enrolled students and prospective students are strongly encouraged to contact their state's licensure entity using the links provided to review all licensure and certification requirements imposed by their state(s) of choice.

CUNY Lehman College has determined this academic program curricula, if successfully completed, **is sufficient to meet** the licensure and certification requirements for Nursing Home Administration in the following states:

New York State: New York State Education Department Office of the Professions

CUNY Lehman College has determined that the curricula is **insufficient to meet** the licensure and certification requirements for Nursing Home Administration in the following states:

Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute "Writing Intensive" when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Public Health - PH-BS

General

HEGIS Code	CIP Code
1214.00	51.2201

Program Description

The Bachelor of Science in Public Health (BSPH) is a competitive 59-64 credit major that challenges students to think critically about public health issues and propose solutions using social justice frameworks. Students learn to analyze behavioral, social, and structural determinants of health. Students may choose from the public health science, social justice and global health, or urban public health concentrations in consultation with an academic advisor.

At least 50% of this program can be completed online; however, the public health practicum is a required component which cannot be completed online.

Departmental Grading Policy

Students must earn a C- or above in all courses for the major and the minor. If the grade is lower, the student must repeat the course.

Dual Credit Option

Public Health majors interested in pursuing an MPH at the CUNY Graduate School of Public Health and Health Policy (CUNY SPH) through an articulation agreement can earn 12 credits to be used for both undergraduate and graduate programs of study. Students interested in this pathway must be conditionally accepted as matriculating students in the CUNY SPH graduate program.

Undergraduate students majoring in Public Health with 60 or more credits and a minimum of a 3.0 cumulative grade point average may be permitted to enroll in up to 12 credits of graduate coursework at CUNY SPH. The student must speak with the faculty advisor to determine courses that will satisfy the undergraduate and graduate degree requirements.

The student conditionally admitted to CUNY SPH must commit to the program once admitted and must graduate from Lehman College with a Bachelor's degree to be fully admitted as a graduate student. The student must also receive permission from the program and/or dean’s office prior to registration.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least undefined credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Complete ALL of the following Courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:

- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:

- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:

- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:

- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:

- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 59 credits
Distribution of credits for the Public Health major:

- **Core Courses:** 38
- **Public Health Science Concentration, Social Justice and Global Health Concentration, OR Urban Public Health Concentration:** 15-20
- **Practicum and Capstone:** 6
- **Total Credits:** 59-64

Major Requirements - Admission Requirements

Type
Completion Requirement

To be considered for admission to the B.S. in Public Health, an applicant must have a minimum “B-” GPA (2.7 to 2.9, including all prior courses).

Major Requirements - Core Courses

Type
Completion Requirement

Foundational Core Courses

Complete ALL of the following Courses:

- MAT 132 - Introduction to Statistics
  OR MAT 172 - Precalculus
  OR MAT 175 - Calculus I
- BIO 181 - Anatomy and Physiology I
  OR BIO 166 - Principles of Biology: Cells and Genes
- HSD 266 - The United States Health Care Delivery System
- PHE 301 - Foundations of Public Health Knowledge
- PHE 302 - Social, Behavioral, and Commercial Determinants of Health
- PHE 304 - Fundamentals of Global Health

Advanced Core Courses

Complete ALL of the following Courses:

- HSD 269 - Fundamentals of Biostatistics
- HSD 306 - Epidemiology
- PHE 303 - Research Methods
  OR PHE 414 - Quantitative and Qualitative Data Analysis Methods in Public Health Research
- PHE 306 - Health Inequity in Global Disease Burden
- PHE 402 - Program Planning and Evaluation
- PHE 403 - Health Policy and Advocacy

Practicum and Capstone Courses

Complete ALL of the following Courses:

- PHE 470 - Public Health Practicum
- PHE 472 - Public Health Capstone

Departmental permission required to waive practicum. Applications for waiver must be submitted 60 days prior to the semester the practicum will take place.

Major Requirements - Concentrations

Type
Completion Requirement

Complete 1 of the concentrations below:

Fulfill ANY of the following requirements:

Public Health Science Concentration Courses

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- BIO 182 - Anatomy and Physiology II
  OR BIO 183 - Human Biology
  OR BIO 167 - Principles of Biology: Organisms
- BIO 230 - Microbiology
  OR CHE 166 - General Chemistry I
- CHE 114 - Essentials of General Chemistry Lecture
  OR CHE 168 - General Chemistry 2
- CHE 120 - Essentials of Organic Chemistry Lecture I
  OR CHE 232 - Organic Chemistry Lecture I

Note: CHE 114, CHE 120, CHE 166, CHE 168, and CHE 232 also require lab courses.

AND

Earn at least 3 credits from the following:

- HIN 268 - Growth and Development
  OR BIO 238 - Genetics
  OR BIO 400 - Biological Chemistry

OR CHE 234/235 Organic Chemistry II/Lab

Chosen from HPI, HIN, HSA, HSD, PHE, BIO, CHE, PSY and/or PHY with approval of the adviser.

OR

Social Justice & Global Health Concentration Courses

Complete ALL of the following Courses:

- PHE 340 - Food Security, Human Rights, and Global Health
- PHE 401 - Environmental and Occupational Health
- PHE 404 - Climate Change and Global Migration
- PHE 405 - Environmental Justice Applications

AND PHE 300- or 400-level elective

OR

Urban Public Health Concentration Courses

Complete ALL of the following Courses:

- PHE 410 - Public Health Leadership and Management
- PHE 411 - Health Equity, Communication, and Advocacy
- PHE 412 - Designing and Evaluating Public Health Interventions
- PHE 413 - Designs, Concepts, and Methods in Public Health Research
- PHE 444 - Gender and Health Across the Globe

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Public Health Interdisciplinary - PUBH-MIN

General

CIP Code
51.2201

Program Description
The interdisciplinary public health minor is for students in any discipline interested in improving health outcomes in the U.S. and beyond, as well as acquiring the skills needed to work towards health equity.

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 15 credits

Minor Requirements - Core Courses

Type
Completion Requirement

Complete ALL of the following Courses:
- HSD 269 - Fundamentals of Biostatistics
- HSD 306 - Epidemiology
- PHE 301 - Foundations of Public Health Knowledge

Minor Requirements - Electives

Type
Completion Requirement

Complete course(s) and earn 6 - 8 credits from the following:
- DAT 181 - Intro to Data Analytics with R
- DAT 182 - Intro: Data Analytics with Python
- DAT 184 - Introduction to SQL (Structured Query Language)
- DAT 310 - Data Visualization
- GEH 245 - Introduction to Quantitative Methods of Geography
- GEP 204 - Basic Mapping: Applications and Analysis
- PHE 302 - Social, Behavioral, and Commercial Determinants of Health
- PHE 306 - Health Inequity in Global Disease Burden
- PHE 340 - Food Security, Human Rights, and Global Health
- PHI 247 - Environmental Ethics

Minor Requirements - Advanced Electives

Type
Completion Requirement

Students may also choose to complete elective credits from these advanced research courses if they have completed the prerequisite(s):

Complete course(s) and earn credits from the following:
- DFN 369 - Research Methods in Nutrition
- GEH 230 - Human Geography
- GEP 205 - Principles of Geographic Information Science
- PHE 303 - Research Methods
- PHE 401 - Environmental and Occupational Health
- PHE 402 - Program Planning and Evaluation
- PHE 403 - Health Policy and Advocacy
- PHE 404 - Climate Change and Global Migration
- PHE 405 - Environmental Justice Applications
- PHE 444 - Gender and Health Across the Globe
- POL 331 - Methods of Social Research.
- PSY 226 - Statistical Methods in Psychology
- SOC 301 - Methods of Social Research
- SOC 303 - Advanced Methods of Social Research
- SOC 344 - Field and Interpretative Methods
- SOC 345 - Quantitative analysis of Sociological Data

Minor Requirements - Conditional Admission

Type
Completion Requirement

Students conditionally admitted to the Lehman College / CUNY Graduate School of Public Health and Health Policy (SPH) 4+1 Program may take the following electives in consultation with their academic advisor(s):

Complete course(s) and earn credits from the following:
- PHE 410 - Public Health Leadership and Management
- PHE 411 - Health Equity, Communication, and Advocacy
- PHE 412 - Designing and Evaluating Public Health Interventions
- PHE 413 - Designs, Concepts, and Methods in Public Health Research
- PHE 444 - Gender and Health Across the Globe

Courses

HPI 101 - US Healthcare: Careers in a Unique System (3 cr)

General

Course Title

History Department

The Department of History offers a variety of courses that cover the ancient world, European civilization, the United States, and non-Western civilizations. Students learn how to interpret the human experience through economic, social, political, and cultural lenses, and to think critically about the ways in which historical events affect their own lives. The Department participates in the interdisciplinary programs in African and African American Studies, Classical Culture, Latin American and Puerto Rican Studies, Women's Studies, and American Studies. The faculty members in the Department are committed to excellence in narrative and analytical historical research, reading and writing. They offer a variety of learning opportunities for students who wish to gain knowledge about the past and improve their critical thinking, writing, reading and research skills. Students may also study with members of the faculty on independent reading or research projects.

Career Opportunities: History majors frequently enter careers in areas such as education, law, politics, business, library science, and government. History students who wish to discuss career opportunities or advanced studies in graduate school should consult with the Department Chair.

Programs

The Classical Civilization and Tradition - CCT-MIN

General

CIP Code
24.0101

Program Description
The Minor in Classical Civilization and the Classical Tradition provides students with an interdisciplinary approach to the literature, culture, history, politics, philosophy, mythology, and archaeology of the ancient Greek and Roman civilizations. The program is offered as a minor field that complements a wide variety of majors. It is particularly valuable for students whose major field of study is in the Arts and Humanities, including English, History, Languages and Literatures, and Philosophy, as well as for certain majors in the Social Sciences, including Anthropology, Political Science, and Psychology. Ancient Greek and Latin languages are not required for the minor.

Degree Requirements
Students who minor in Classical Civilization and the Classical Tradition conduct their course of study in consultation with the Minor's Coordinator. They satisfy the College requirement of a minor field by taking four courses (12 credits), at least two of which must be at the 300-level.

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 12 credits

Additional Comments:
- Students who minor in Classical Civilization and the Classical Tradition conduct their course of study in consultation with the Minor's Coordinator. They satisfy the College requirement of a minor field by taking four courses (12 credits), at least two of which must be at the 300-level.

Minor Requirements - Required Course

Type
Completion Requirement

Introductory Courses

Earn at least 3 credits from the following:
- HIS 246 - Civilizations of the Ancient World
  OR ACU 266 - Classical Myth and the Human Condition

Category I: Classical Literature and Classical Culture

Complete at least 1 of the following courses:
- ACU 305 - Greek Literature in Translation
- ACU 307 - The Greek and Roman Epic in English Translation
- ACU 308 - Greek and Roman Tragedy in English Translation
- HIA 311 - Women in Antiquity
- HIA 314 - Classical Myth and Society

- Students choose one course from Category I, one course from category II, and a third course from either category.
- Students who have completed ACU 266 will not receive credit for HIA 314.

Category II. Classical History and Classical Archaeology

Complete at least 1 of the following courses:
- HIA 306 - History of Religions in the Ancient World
- HIA 316 - Greek Archaeology of the Classical Period
- HIA 318 - Roman Archaeology and Topography
- HIA 320 - Greek History
- HIA 321 - History of Rome

- Students may replace an elective with ACU 350 and/or HIA 350 (Special Topics) or ACU 381 and/or HIA 381 (Individual Tutorial), but only if their chosen course is not offered in a given semester.

History - HIS-BA

General

HEGIS Code
2205.00

CIP Code
54.0101

Program Description
For all students who are not enrolled in Middle and High School Education Social Studies certification sequence, the History major consists of 36 credits. History courses numbered below the 300-level do not qualify toward the major.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Arts

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 90 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 36 credits

Major Requirements - Core Courses

Type
Completion Requirement

Earn at least 9 credits
- **HIA** - History of Ancient and Medieval Civilization
- **HIE** - History of Modern Europe

Earn at least 12 credits
- **HIS** - Comparative History
- **HIW** - Asian, African, and Latin-American History

Earn at least 12 credits
- **HIU** - History of the United States

Earn at least 3 credits
- Any of the five subject codes.

Additional Comments:
- *Of these 36 credits, at least 6 credits must be taken in research-intensive courses, designated with an R in the section number.*

Degree Map Narrative

Students complete a variety of courses from 5 course requirement groups: HIA (Ancient and Medieval); HIE (Modern Europe); HIU (United States History); HIS (Special and Comparative) and HIW (World History).

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

All Lehman History majors must complete two Research Intensive (RI) courses to graduate. These courses are specific to Lehman and the Department.

Program Description
History is an approved major for students wishing to become middle or high school social studies teachers. Students interested in becoming teachers should meet with the History Department Undergraduate Advisor to plan their program as soon as possible in their academic career. They should also consult with the Office of the Dean of Education (Carman Hall, B-33, 718-960-4972) for the latest information on State requirements for teacher certification.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Arts

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 60 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Communication Skills

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Quantitative Skills

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Laboratory Science

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4

PHY166 General Physics I	General Physics I	5
PHY167 General Physics II	General Physics II	5
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

World Cultures and Global Issues

Complete at least 1 course in the following course sets:

- Flexible Core World Cultures and Global Issues

AND

US Experience in Its Diversity

Complete at least 1 course in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Creative Expression

Complete at least 1 course in the following course sets:

- Flexible Core Creative Expression

AND

Individual and Society

Complete at least 1 course in the following course sets:

- Flexible Core Individual and Society

AND

Scientific World

Complete at least 1 course in the following course sets:

- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 30 credits
- This specialization should be taken only by students in Middle and High School Education's Social Studies Education certification sequence.
- *Of these 30 credits, at least 6 credits must be taken in research-intensive courses, designated with an R in the section number.*

Major Requirements - Required Courses

Type
Completion Requirement

Fulfill ALL of the following requirements:

Earn at least 9 credits from the following:
- History of Ancient and Medieval Civilization 300 Level
- History of Modern Europe 300 Level

AND

Earn at least 9 credits from the following:
- Comparative History 300 Level
- Asian, African, and Latin-American History 300 Level

AND

Earn at least 3 credits from the following:

- HIU 348 - History of New York: City and State

AND

Earn at least 9 credits from the following:

- History of the United States 300 Level

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Middle Eastern Studies - MIDE-MIN

General

CIP Code
05.0108

Program Description
This interdisciplinary program is designed to introduce students to a variety of topics and issues in the history, politics, languages, societies and cultures of the Middle East and to give them the opportunity to study the Middle East using the tools of several different disciplines. The program is offered as a minor field that complements a wide array of majors. It is particularly valuable for students who wish to combine an interest in the Middle East with majors such as History, Anthropology, Sociology, or Political Science in preparation for graduate work in Middle Eastern Studies or for professional careers in education, business, government, foreign service, law, and journalism, among others.

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 12 credits

Minor Requirements - Required Course

Type
Completion Requirement

Complete ALL of the following Courses:

- MES 245 - Introduction to Middle Eastern Studies

The other three may be chosen from any courses in Middle Eastern Studies. Some additional courses, including language tutorials and relevant topics courses, may be counted toward the Minor with the Coordinator's approval.

- Two of the four courses taken as part of the minor must be at the 300 level or above.
- Students may take no more than two courses with the same alpha code other than MES.
- Courses from a student's major department may be taken as part of the Minor, but the credits cannot count toward both.

Courses

HIA 302 - Biblical History and Archaeology (3 cr)

General

Course Title
Biblical History and Archaeology

Catalog Description
Study of biblical history in the light of archaeological research. Readings from ancient Hebrew sources in translation in relation to major archaeological discoveries in Israel and the Near East.

HIS 321 - Contemporary History: The Crises of Our Time (3 cr)

General

Course Title
Contemporary History: The Crises of Our Time

Catalog Description
Since World War II, Western Civilization has generated a series of crises: the population explosion, the irreversible depletion of fossil energy resources, the revolution of rising expectations, the threat of nuclear holocaust. All of these challenge the economic, political, ideological, and moral foundations of our civilization. The origin and nature of these crises will be examined, and attempts will be made to examine the prospects for Western man and his civilization.

Individualized Study Programs Department

Dean of The School of Continuing and Professional Studies: Dr. Jane Mackillop

Interim Dean of The School of Continuing and Professional Studies: Dr. Kimberly Kendall

Director, Adult Degree Program: Pamela S. Hinden, LMSW

The Adult Degree Program (ADP)

The Adult Degree Program (ADP) is designed for Lehman students who are 25 years old or older. ADP provides academic and student services designed especially for returning adult students. More information and applications are available on the program website: www.lehman.edu/adult.

Eligibility

Students, age 25 and over, both freshman and transfer, may apply for admission to Lehman College directly through the Adult Degree Program. Students who have been admitted to the College through main admissions, or are readmitting to the College after a significant absence, may also be considered for admission to ADP. Currently enrolled students who have completed more than two semesters, and those who have already earned a Bachelor's degree, are not eligible for admission to ADP. Eligibility is determined via an application process that includes consideration of prior academic history, length of time out of school, work history, and a written essay.

Degree Requirements

Adult Degree Program students must successfully complete all CUNY and Lehman requirements including the Pathways General Education Common Core. ADP has its own Integration Requirements which can be used to fulfill the College Option requirements. ADP students must complete a major and meet the minimum overall and major grade point average (GPA) required for graduation by the College.

Adult Degree Program IBA Courses

IBA courses are designed to introduce ADP students to various aspects of a liberal arts education. IBA courses are open only to ADP students, by permission. A list of these courses can be found on the program website: www.lehman.edu/adult. Students may take up to 12 credits of 100 and 200 level IBA courses.

Major

ADP students may choose to complete any Lehman College major as described in the Undergraduate Bulletin (e.g., History, Biology, Business, Nursing, etc.). Alternatively, ADP students may opt to complete the requirements for the major in Liberal and Interdisciplinary Studies. See Bachelor (B.A. or B.S.) Degree in Liberal and Interdisciplinary Studies for more information.

Credit for Prior Learning/Prior Learning Assessment (CPL/PLA)

Students in the Program may apply for up to 15 credits for prior learning. Students do not automatically qualify for these credits. They are eligible to apply via portfolio for an evaluation of learning gained through employment or volunteer activities when this learning is relevant to a Lehman College course or department. Credits for Prior Learning may count as electives toward the 120 credits needed for graduation. Credit for Prior Learning may also be awarded for a specific course when the student is able to demonstrate that they have met at least 70% of the course's learning objectives. Prior learning is evaluated by faculty and credit decisions are final.

Programs

Liberal and Interdisciplinary Studies - BLIS-BA

General

HEGIS Code
4901.00

CIP Code
24.0101

Program Description

The Bachelor of Arts (B.A.) in Liberal and Interdisciplinary Studies (BLIS) allows ADP students to create an interdisciplinary focus that follows their own academic goals. The credit range, 30-36, is to ensure that students are able to include any prerequisite courses needed for their studies. The B.A. will require that 90 of the 120 credits earned will be designated as liberal arts. More information is available on the program website: **www.lehman.edu/adult**.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Arts

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 90 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Degree Requirements - Overall

Type
Completion Requirement

Earn at least 30 credits
The Liberal and Interdisciplinary Studies major requires a minimum of 30-36 credits, of which 18 must be at the 300 level or higher.

Degree Requirements - Eligibility

Type
Prerequisite

All ADP students are eligible.

Degree Requirements - Required Courses

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- IBA 301 - Liberal and Interdisciplinary
- IBA 482 - Capstone Seminar

Note:

- **IBA301 Liberal and Interdisciplinary** intended to be completed during the first semester of participation in the major but after the student has completed a minimum of 24 overall credits.

- **IBA482 Capstone Seminar** to be completed after the student has earned at least 27 credits in the major courses.

AND

Earn at least 24 credits
The remaining 24-30 credits of the major are chosen by the student as part of a proposal developed during **IBA301 Liberal and Interdisciplinary**, in consultation with ADP faculty/advisors. The proposal must reflect a minimum of two or more disciplines and will be approved by the ADP Advisory Board or by faculty/advisors from the primary disciplines.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Liberal and Interdisciplinary Studies - BLIS-BS

General

HEGIS Code
4901.00

CIP Code
24.0101

Program Description

The Bachelor of Sciences (B.S.) in Liberal and Interdisciplinary Studies (BLIS) allows ADP students to create an interdisciplinary focus that follows their own academic goals. The credit range, 30-36, is to ensure that students are able to include any prerequisite courses needed for their studies. The B.S. will require that 60 of the 120 credits earned will be designated as liberal arts. More information is available on the program website: **www.lehman.edu/adult**.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Science

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 60 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4
BIO167 Principles of Bio: Organisms	Principles of Biology: Organisms	4
BIO181 Anatomy and Physiology I	Anatomy and Physiology I	4
BIO182 Anatomy and Physiology II	Anatomy and Physiology II	4
BIO183 Human Biology	Human Biology	4
CHE114 Essntls of Gen Chemistry-Lec And CHE115 Essntls of Gen Chemistry-Lab	Essentials of General Chemistry Lecture And Essentials of General Chemistry Laboratory	3 And 1.5
CHE166 General Chemistry I And CHE167 General Chemistry Laboratory I	General Chemistry I And General Chemistry Laboratory I	4 And 1.5
CHE168 General Chemistry 2 And CHE169 General Chemistry Lab II	General Chemistry II And General Chemistry Laboratory II	4 And 1.5
GEO101 Dynamic Earth	Dynamic Earth	3
GEO167 Earth Evolution	Earth Evolution	3
GEP204 Basic Map: Applctns & Analysis	Basic Mapping: Applications and Analysis	3
PHY135 Fund Concepts&Methods Physics	Fundamental Concepts and Methods of Physics	4
PHY140 The Physics of Sound	The Physics of Sound	3.5
PHY166 General Physics I	General Physics I	5
PHY167 General Physics II	General Physics II	5
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY167 General Physics II	General Physics II	5

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Degree Requirements - Overall

Type
Completion Requirement

Earn at least 30 credits
The Liberal and Interdisciplinary Studies major requires a minimum of 30-36 credits, of which 18 must be at the 300 level or higher.

Degree Requirements - Eligibility

Type
Prerequisite

All ADP students are eligible.

Degree Requirements - Required Courses

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- IBA 301 - Liberal and Interdisciplinary
- IBA 482 - Capstone Seminar

Note:

- **IBA301 Liberal and Interdisciplinary** intended to be completed during the first semester of participation in the major but after the student has completed a minimum of 24 overall credits.

- **IBA482 Capstone Seminar** to be completed after the student has earned at least 27 credits in the major courses.

AND

Earn at least 24 credits
The remaining 24-30 credits of the major are chosen by the student as part of a proposal developed during **IBA301 Liberal and Interdisciplinary**, in consultation with ADP faculty/advisors. The proposal must reflect a minimum of two or more disciplines and will be approved by the ADP Advisory Board or by faculty/advisors from the primary disciplines.

Degree Map Narrative

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Italian-American Studies Department

Cooperating Departments: Anthropology, Art, English, History, Languages and Literatures, Music, Political Science, and Sociology

The program in Italian-American Studies is an interdisciplinary major that focuses on Italian-American experiences as they relate to both the Italian and American contexts. The program provides the student with the opportunity to investigate the social, cultural, psychological, historical, and esthetic dimensions of the Italian-American experience. The major in Italian-American Studies offers an area of specialization for students who plan graduate training in ethnic studies, and for those who expect to teach in urban areas where there are large numbers of Italian-Americans.

For those students who will pursue advanced degrees in the arts, the humanities, or in the various social and behavioral sciences, a major in both the field of their choice and in Italian-American Studies, a dual major, permits a specialty within the academic discipline. The curriculum has practical applicability to teaching at all levels, and to the service-oriented professions (medicine, psychology, social work, law, etc.). A dual major is required of all students majoring in Italian-American Studies, except those preparing to qualify for an Initial Certificate in education. In most instances, 12 credits from the second major may serve as part of the Italian-American Studies major as well (see the outline of requirements below).

In consultation with a member of the Italian-American Studies Committee, each student will formulate an individual program of study, without reference to traditional departmental fields. The program thus offers the opportunity to investigate those features of Italian-American culture that match student interests. Special courses emphasizing research and critical thought, such as seminars and tutorials taught by participating faculty, will be provided to synthesize the work of each student in the major.

Program Procedure

Each semester the Committee on Italian-American Studies will advise students in the program of the appropriate courses to be offered in the ensuing semester by departments participating in the program, as well as of courses to be offered by the Italian-American Studies program. Each student majoring in Italian-American Studies must receive the Committee's approval before registering for any course to be credited toward the major.

NOTE: Cross-listed courses may be taken for credit in either IAS or in the department in which the course originates.

Programs

Italian-American Studies - IAS-MIN

General

CIP Code
05.0126

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 12 credits

Minor Requirements - Required Course

Type
Completion Requirement

Students should arrange their program with the Italian-American Studies Committee. In order to satisfy the requirements for a minor, students must earn 12 credits, of which 6 credits must be in 300- or 400-level courses.

Italian American Studies - IASS-BA

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Arts

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 90 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 36 credits

Major Requirements - Core Courses

Type
Completion Requirement

Complete ALL of the following Courses:
- HIU 324 - The History of Italian-Americans
- IAS 250 - The Italian-American Community

Earn at least 12 credits from the following:
- ITA 233 - Italo-American Contributions
- PSY 336 - The Psychology of Ethnicity
- MSH 239 - Italian Opera
- ARH 332 - Art of the Early Renaissance
- ARH 333 - Art of the High Renaissance and the Later Sixteenth Century
- IAS 245 - Italy Today
- IAS 450 - Topics in Italian-American Studies
- IAS 481 - Tutorial in Italian-American Studies (Inactive)
- IAS 495 - Special Project in Italian-American Studies
- No more than three history courses may be included
- IAS 495: Or other appropriate courses as approved by the program coordinator.

Earn at least 12 credits

- In a single discipline related to the student's academic and professional interests and goals. With the approval of the program coordinator, credits from the dual major may be applied to this requirement, where appropriate.
- IAS 481, IAS 495: No more than a total of 6 credits may come from IAS 481 and IAS 495.

Journalism and Media Studies Department

Ask the questions, be a storyteller and build an audience.

Journalism and Media Studies prepares students to succeed in a wide range of creative, journalistic, and industry roles in the media and communications field.

The major and minors—Multimedia Journalism, Film and TV Studies, and Media Communication Studies—each cultivate critical thinking, curiosity, and hard skills. Prioritizing real-world experience, the department helps students secure their first internships and build their professional portfolios.

Multimedia Journalism (JRN)
Multimedia Journalism majors and minors figure out what's true and tell stories that matter. In this hands-on degree program, students learn to use video, podcasts, photography, data visualization, and the written word to report in the real world about real issues. Internships with local and prestige media outlets can take students from classroom to career.

Media Communication Studies (MCS)

MCS majors and minors explore the history and evolution of communications in formats ranging from newspapers and the telegraph to the mobile apps and future innovations. They critically examine industry structures, ownership, and regulation; mass media's global impact; and the power of cultural and ethnic representation. The MCS major is ideal preparation for academic paths in the arts, humanities, and social sciences; or areas in advertising, public relations, marketing, and public policy.

Film and TV Studies (FTS)

FTS majors and minors learn both the theory and the practice of cinema, television, and other moving image media. They study film history, film genres, and methods while engaging in close analysis of cinematic works. This academic approach is complemented by hands-on experience through courses in camera work, lighting, editing, and audio production. This major is ideal for those interested in pursuing graduate studies or careers in the moving image industries, including advanced degrees in cinema studies.

Programs

Film and TV Studies - FILMTV-BA

General

HEGIS Code
0601.00

CIP Code
09.0102

Program Description

The Film and TV Studies major consists of 42-43 credits in one of two concentrations: Film or TV. Students must complete all core requirements before taking area of concentration courses. The total number of credits (42 or 43) depends on whether students participate in the Film and TV Studies Honors Program.

Note: Students must complete FTS 491 and its COREQ FTS 492 in order to be eligible for Departmental Honors upon graduation.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Arts

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 90 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 42 credits

Major Requirements - Core Courses

Type
Completion Requirement

Earn at least 21 credits from the following:
- FTS 209 - History of Cinema I
  OR FTS 210 - History of Cinema II
- FTS 212 - Introduction to Film and Television
- FTS 215 - Camera and Lighting
- FTS 224 - Editing
- FTS 226 - Audio Production
- JRN 211 - Introduction to Multilingual Media
- MCS 214 - Introduction to Media and Digital Culture

Students must complete the following courses before proceeding to the concentration

Capstone

Earn at least 3 credits from the following:
- FTS 481 - Independent Project in Film and TV Studies
  OR FTS 491 - Honors Tutorial in Film and TV Studies

- FTS 492 - Honors Colloquium in Film and Television Studies
- To enroll in the honors capstone courses, FTS 491 and FTS 492, students must have earned at least 90 credits, have a 3.5 GPA in the major, and have department permission. FTS 491 and FTS 492 must be taken together.
- Note: Only students who complete FTS 491 and its COREQ FTS 492 will be eligible for Departmental Honors upon graduation.

Major Requirements - Film Concentration

Type
Completion Requirement

Earn at least 15 credits from the following:
- FTS 218 - Animation and Anime Narrative
- FTS 258 - Film & TV Analysis
- FTS 309 - Screenwriting
- FTS 316 - Film and Media Production 1
- FTS 420 - Cinema Aesthetics and Criticism

Earn at least 3 credits
- **Elective**: To be chosen after consultation with advisor

Complete ANY of the following Courses:
- FTS 481 - Independent Project in Film and TV Studies
- FTS 491 - Honors Tutorial in Film and TV Studies **AND** FTS 492 - Honors Colloquium in Film and Television Studies
- To enroll in the honors capstone courses, FTS 491 and FTS 492, students must have earned at least 90 credits, have a 3.5 GPA in the major, and have department permission. FTS 491 and FTS 492 must be taken together.
- Note: Only students who complete FTS 491 and its COREQ FTS 492 will be eligible for Departmental Honors upon graduation.

Major Requirements - TV Concentration

Type
Completion Requirement

Earn at least 15 credits from the following:
- FTS 258 - Film & TV Analysis
- FTS 316 - Film and Media Production 1
- FTS 317 - Writing for Broadcast TV and Radio
- FTS 352 - Multi Camera Production
- FTS 371 - TV and Cultivation Theory

Earn at least 3 credits
- **Elective**: To be chosen after consultation with advisor

Capstone

Complete ANY of the following Courses:
- FTS 481 - Independent Project in Film and TV Studies
- FTS 491 - Honors Tutorial in Film and TV Studies **AND** FTS 492 - Honors Colloquium in Film and Television Studies
- To enroll in the honors capstone courses, FTS 491 and FTS 492, students must have earned at least 90, have a 3.5 GPA in the major, and have department permission. FTS 491 and FTS 492 must be taken together.
- Note: Only students who complete FTS 491 and its COREQ FTS 492 will be eligible for Departmental Honors upon graduation.

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Course Requirement Group

Course Requirement Group (Free Text)	We strongly recommend clustering 12- 15 elective credits to obtain a minor or certificate that complements your general and major field of study. The choice of the minor or certificate depends on your interest and should be coordinated with advisors. Check out more information on Minors or Certificates with your advisor.

Film and TV Studies - FILMTV-MIN

General

CIP Code
09.0102

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 12 credits

Minor Requirements - Required Course

Type
Completion Requirement

Film & TV Studies Minor is distributed as follows

Complete ALL of the following Courses:

- FTS 209 - History of Cinema I
  OR FTS 210 - History of Cinema II
- One FTS 200-level course
- One FTS 300-level course
- One FTS 400-level course
- Choose one from each level to complete 12

Journalism - JRN-MIN

General

CIP Code
09.0401

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 12 credits

Minor Requirements - Required Course

Type
Completion Requirement

Journalism Minor is distributed as follows

Complete ALL of the following Courses:

- JRN 211 - Introduction to Multilingual Media

One JRN 200-level course

Two JRN 300-level or JRN 400-level courses

Media Communication Studies - MCS-BA

General

HEGIS Code
0601.00

CIP Code
09.0102

Program Description

The Media Communications Studies major consists of 42-43 credits. Students must complete all core requirements before taking required courses. The total number of credits (42 or 43) depends on whether students participate in the Media Communications Studies Honors Program.

Note: All 300 and 400-level Media Communications Studies courses have either a specific course prerequisite, or require completion of 60 credits and department permission.

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Arts

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 90 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY167 General Physics II	General Physics II	5

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 42 credits

Major Requirements - Core Courses

Type
Completion Requirement

Students must first complete the following courses:

Complete ALL of the following Courses:
- FTS 212 - Introduction to Film and Television
- JRN 211 - Introduction to Multilingual Media
- MCS 210 - Global Cinema
- MCS 214 - Introduction to Media and Digital Culture
- MCS 220 - Introduction to Public Relations
- MCS 244 - Communication in Society
- MCS 307 - Media Industries I

Specialized Requirements

Complete ALL of the following Courses:
- MCS 300 - Corporate Communication
- MCS 308 - Media Industries II
- MCS 334 - The Documentary
- MCS 347 - Advertising
- FTS 420 - Cinema Aesthetics and Criticism

Elective

Earn at least 3 credits

- *3 credit Elective: To be chosen after consultation with advisor.*

Capstone

Complete at least 1 of the following courses:

- MCS 481 - Independent Project in Media Communications Studies
- MCS 491 - Honors Tutorial in Media Communications Studies
  AND MCS 492 - Honors Colloquium in Media Communications Studies
- To enroll in the honors capstone courses, MCS 491 and 492, students must have earned at least 90 credits, have a 3.5 GPA in the major, and have department permission. MCS 491 and MCS 492 must be taken together.
- Only students who complete MCS 491 and its COREQ MCS 492 will be eligible for Departmental Honors upon graduation.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Media Communications Studies - MCS-MIN

General

CIP Code
09.0102

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 12 credits

Minor Requirements - Required Course

Type
Completion Requirement

Media Communications Studies Minor is distributed as follows

Complete ALL of the following Courses:

- MCS 214 - Introduction to Media and Digital Culture
- One MCS 200-level course
- One MCS 300-level course
- One MCS 400-level course
- Choose one from each level to complete 12 credits

Multimedia Journalism - MMJ-BA

General

HEGIS Code
0699.00

CIP Code
09.0499

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Arts

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 90 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:

- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:

- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:

- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:

- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:

- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 42 credits

Major Requirements - Core Courses

Type
Completion Requirement

Earn at least 27 credits from the following:
- JRN 211 - Introduction to Multilingual Media
- FTS 212 - Introduction to Film and Television
- JRN 219 - Digital Media Literacy: Disinformation and Misinformation
- JRN 221 - Fundamentals of Multimedia Reporting
- JRN 222 - Interactive and Emerging Media
- JRN 223 - Journalism Ethics
- FTS 226 - Audio Production
- JRN 301 - Fundamentals of Video Storytelling
- JRN 321 - Advanced Multimedia Investigations: Exposing Inequity

Major Requirements - Journalism Concentration

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- JRN 323 - Feature Writing
- JRN 300 - Bronx Journal Multimedia Newsroom

AND

Earn at least 6 credits from the following:
- JRN 320 - Audio Storytelling
- JRN 355 - Advanced Video Storytelling
- JRN 356 - Digital Photojournalism
- JRN 470 - Internship II

AND

Fulfill ANY of the following requirements:

Earn at least 3 credits from the following:
- JRN 481 - Independent Project in Journalism
- JRN 488 - Reporting Democracy: Bronx Public Square Initiative

OR

Earn at least 3 credits from the following:
- JRN 491 - Honors Tutorial in Journalism
  AND JRN 492 - Honors Colloquium in Journalism

JRN491 Honors Tutorial in Journalism and JRN492 Honors Colloquium-Journalism are Honors capstone courses. To enroll in them, students must have earned 90 credits or more, have a 3.5 GPA in the major and have Departmental Permission. JRN491 Honors Tutorial in Journalism and JRN492 Honors Colloquium-Journalism must be taken together. Students who are eligible for the Honors Capstone may substitute JRN491 Honors Tutorial in Journalism and JRN492 Honors Colloquium-Journalism for JRN481 Ind Project in Journalism.

Note: Students must complete JRN491 Honors Tutorial in Journalism and its COREQ JRN492 Honors Colloquium-Journalism to be eligible for Departmental Honors upon graduation.

Major Requirements - Multilingual Media Concentration

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- JRN 323 - Feature Writing
- JRN 300 - Bronx Journal Multimedia Newsroom

AND

Foreign language component. Students must select a target language other than English and complete two of the following types of courses on translation, advanced writing, and phonetics in that language. For example, the student completes two courses from one target language group:

Fulfill ANY of the following requirements:

French

Earn at least 6 credits from the following:

- FRE 307 - Advanced Translation
- FRE 306 - Advanced Composition
- FRE 308 - Theory and Practice of French Phonetics

OR

Italian

Earn at least 6 credits from the following:

- ITA 307 - Advanced Translation
- ITA 303 - Advanced Grammar and Composition
- ITA 308 - Theory and Practice of Italian Phonetics

OR

Spanish

Earn at least 6 credits from the following:

- SPA 307 - Translation
- SPA 306 - Advanced Spanish Composition
- SPA 308 - Spanish Phonetics and Diction

Students may complete courses in another target language as approved by the Department.

AND

Fulfill ANY of the following requirements:

Earn at least 3 credits from the following:

- JRN 470 - Internship II
- JRN 481 - Independent Project in Journalism
- JRN 488 - Reporting Democracy: Bronx Public Square Initiative

OR

Earn at least 3 credits from the following:

- JRN 491 - Honors Tutorial in Journalism
  AND JRN 492 - Honors Colloquium in Journalism

JRN491 Honors Tutorial in Journalism and JRN492 Honors Colloquium-Journalism are Honors capstone courses. To enroll in them, students must have earned 90 credits or more, have a 3.5 GPA in the major and have Departmental Permission. JRN491 Honors Tutorial in Journalism and JRN492 Honors Colloquium-Journalism must be taken together. Students who are eligible for the Honors Capstone may substitute JRN491 Honors Tutorial in Journalism and JRN492 Honors Colloquium-Journalism for JRN481 Ind Project in Journalism.

Note: Students must complete JRN491 Honors Tutorial in Journalism and its COREQ JRN492 Honors Colloquium-Journalism to be eligible for Departmental Honors upon graduation.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Languages and Literatures Department

The Department of Languages and Literatures offers a wide variety of language and literature courses in Arabic, Chinese, French, Irish, Italian, Latin, Japanese, and Spanish. The Department also offers courses in literature and culture conducted in these languages, and other content courses conducted in English, some of which satisfy the distribution requirement. In addition, a special Spanish-language sequence is offered for heritage speakers of Spanish to enable them to preserve and enhance their knowledge of Spanish. Students may major in French, Italian, or Spanish. Students wishing to major in Irish or Japanese may avail of the Comparative Literature program. In addition to Comparative Literature, the Department also participates in three other interdisciplinary programs in Latin American and Caribbean Studies, Linguistics, and Multimedia Journalism. For students majoring in fields with international or global goals, the Department offers courses in phonetics, business, translation, reading in the arts and sciences, and health professions. Students may also declare a minor in language programs that offer intermediate and advanced level courses. Minors in the Department consist of 12 credits above the 100 level. A minimum of two courses must be taken at the 300 or 400 level. The Department currently offers minors in Arabic, Chinese, French, Irish, Italian, Japanese, Latin, and Spanish.

Placement in Courses: The Department places entering students on the basis of proficiency shown on tests administered before registration, in addition to an approximate placement based on a certain number of years of language study in high school. A Departmental adviser is available throughout the summer registration period.

Teaching and Other Careers: A student majoring in a language will receive a solid foundation for graduate study and may look forward to a career in many areas of business, industry, government service, and mass communication as well as in teaching at all levels from elementary school to college. Students planning to teach a language in secondary school should consult their major advisers, as well as the Office of the Dean of Education (Carman Hall, Room B-33, 718-960-4972) regarding requirements for New York State teacher certification.

Opportunities for Study Abroad: The Department encourages students to develop linguistic proficiency and first-hand cultural knowledge by participating in credit-bearing programs of study abroad. Lehman students have received credit for study in many places, including Argentina, Australia, Canada, Chile, China, the Dominican Republic, Ecuador, England, France, Greece, India, Ireland, Italy, Japan, Jordan, South Korea, Puerto Rico, Russia and Spain. Additional programs are being developed to offer a wider geographical and content choice. Students need not be language majors or minors to study abroad.

Bachelor of Arts Degrees offered by the Department

- French
- Italian
- Spanish

Minors offered by the Department

- Arabic
- Chinese
- French
- Irish
- Italian
- Japanese
- Latin
- Spanish

Bachelor of Arts Degrees offered through Interdisciplinary Programs

- Comparative Literature, specializations in Irish or Japanese among other possibilities.
- Latin American and Caribbean Studies
- Linguistics
- Multilingual Journalism

Other Offerings

Courses in:

- Arabic

In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 90 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Complete ALL of the following Courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 30 credits

Major Requirements - Core Courses

Type
Completion Requirement

Fulfill ALL of the following requirements:

Foundation Courses

Complete at least 1 of the following courses:
- IDW 211 - Classics of the Western World: Ancient and Medieval
  AND IDW 212 - Classics of the Western World II: Renaissance and Modern
- ENG 347 - Western Traditions--Narrative
  AND ENG 348 - Western Traditions--Drama

AND

Complete ALL of the following Courses:
- IDW 213 - Classics of the Asian World

AND

Introduction to Literary Studies

Earn at least 3 credits from the following:

- SPA 300 - Introduction to Literary Studies
- FRE 300 - Introduction to French Literature and Literary Criticism
- IRI 300 - Introduction to Literary Studies
  OR ITA 300 - Introduction to Literary Studies

Students should select a course directly relevant to the advanced literature courses chosen in the 9-credit section below. For example, students planning to take 300- or 400-level courses in English Literature and Spanish Literature should take either ENG 300 or SPA300 Intro To Lit Studies *to satisfy this requirement.*

AND

Complete at least 2 of the following courses:

- SPV 246 - Introduction to Linguistics
- ENG 304 - The Structure of Modern English
- FRE 310 - Comparative Grammar
- ITA 310 - Comparative Grammar
- POR 310 - Comparative Grammar
- SPA 310 - Comparative Grammar
- GER 310 - Comparative Grammar
- RUS 310 - Comparative Grammar
- JAL 310 - Comparative Grammar
- IRI 3100 - Comparative Grammar

AND

9 credits in Elective Courses:
The three courses must be chosen from advanced 300-400-level literature courses read in the original language. These courses must be in no more than two languages. Students should select courses that enable them to concentrate on a particular historical period (e.g., the nineteenth century), a literary genre (e.g., the novel), or a geographical area (the Caribbean, Latin America, etc.). Honors students must take CLT481 Honors Tutorial as one of their three elective courses. For students minoring in Early Childhood and Childhood Education, one of these elective courses must deal with children's literature.

AND

Earn at least 3 credits from the following:

- CLT 360 - Variable Topics in Comparative Literature

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

Comparative Literature - COMNT-BA

General

HEGIS Code	CIP Code
1503.00	16.0104

Requirements

Simple Requirements

(No Requirement Levels)

Degree Requirements - Bachelor of Arts

Type
Completion Requirement

Earn at least 120 credits

Earn at least 30 credits
In Residence at Lehman College

Credits in residence are defined as credits earned in Lehman College course work.

Earn at least 90 credits
Liberal Arts and Sciences Content Courses

Earn a minimum GPA of 2.0

Additional Comments:
Students must satisfy the requirement that at least 30 credits as well as at least half of the credits in the major or in an interdisciplinary program, minor or certificate be completed at Lehman College.

General Education - Foundation/Required Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

English Composition

Complete ALL of the following Courses:
- ENG 111 - English Composition I
  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:
- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits

PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:

- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:

- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:

- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:

- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:

- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:

- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 30 credits

Major Requirements - Core Courses

Type
Completion Requirement

Foundation

Complete at least 1 of the following courses:
- IDW 211 - Classics of the Western World: Ancient and Medieval
  AND IDW 212 - Classics of the Western World II: Renaissance and Modern
- ENG 347 - Western Traditions--Narrative
  AND ENG 348 - Western Traditions--Drama

Complete ALL of the following Courses:
- IDW 213 - Classics of the Asian World

Introduction to Literary Studies

Complete at least 1 of the following courses:
- ENG 300 - Unsettling English Studies: Introduction to the Major
- FRE 300 - Introduction to French Literature and Literary Criticism
- IRI 300 - Introduction to Literary Studies
- ITA 300 - Introduction to Literary Studies
- SPA 300 - Introduction to Literary Studies
- Students should select a course directly relevant to the advanced literature courses chosen in the 9-credit section below. For example, students planning to take 300- or 400-level courses in English Literature and Spanish Literature should take either ENG 300 or SPA 300 to satisfy this requirement.

Language

Complete at least 2 of the following courses:
- ENG 304 - The Structure of Modern English
- FRE 310 - Comparative Grammar
- GER 310 - Comparative Grammar
- IRI 3100 - Comparative Grammar
- ITA 310 - Comparative Grammar
- JAL 310 - Comparative Grammar
- POR 310 - Comparative Grammar
- RUS 310 - Comparative Grammar
- SPA 310 - Comparative Grammar
- SPV 246 - Introduction to Linguistics

Major Requirements - Electives

Type
Completion Requirement

Earn at least 9 credits
- The three courses must be chosen from advanced 300-400-level literature courses read in the original language. These courses must be in no more than two languages. Students should select courses that enable them to concentrate on a particular historical period (e.g., the nineteenth century), a literary genre (e.g., the novel), or a geographical area (the Caribbean, Latin America, etc.). Honors students must take CLT 481 as one of their three elective courses. For students minoring in Early Childhood and Childhood Education, one of these elective courses must deal with children's literature.

Comparative Literature - COMPL-MIN

General

CIP Code
13.1210

Program Description
The minor in Comparative Literature allows a student to build an interdisciplinary concentration of courses focused on a specific historical period, literary genre, or geographical area.

Requirements

Simple Requirements

(No Requirement Levels)

Minor Requirements - Overall

Type
Completion Requirement

Earn at least 12 credits

Minor Requirements - Coursework

Type
Completion Requirement

To satisfy requirements for the Comparative Literature minor:

- Students must complete four courses (12 credits) selected from the participating departments and programs two at the 200 level or above, and two at the 300 level or above.
- At least two of these courses (including one course above the 200 level) must be literature courses.
- The minor must include works from more than one national literature.
- Courses should be selected to allow concentration on a specific historical period, literary genre, or geographical area.
- One course may be from the student's major department, but the credits must be separate from credits counted for the major. Each student's plan of study must be approved by a Comparative Literature adviser.

Literature Majors

Literature majors are encouraged to take:

Complete ALL of the following Courses:

- ENG 463 - Seminar in Literature

Literature majors may use the minor to study works in a second language read in the original language or in translation, or to enrich their study of literature in their major by adding relevant courses from participating departments and programs, such as African and African American Studies, Anthropology, English, History, Languages and Literatures, Philosophy, Theatre, or Women's Studies.

Non-literature Majors

Non-literature majors are encouraged to take:

Complete ANY of the following Courses:

- IDW 211 - Classics of the Western World: Ancient and Medieval
  AND IDW 212 - Classics of the Western World II: Renaissance and Modern
- ENG 347 - Western Traditions--Narrative
  AND ENG 348 - Western Traditions--Drama

Non-literature majors may use the minor as a way of studying literature, read in the original language or in translation, from both literary and interdisciplinary perspectives.

PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 30 credits

Major Requirements - Core Courses

Type
Completion Requirement

Earn at least 9 credits from the following:
- FRE 300 - Introduction to French Literature and Literary Criticism
- FRE 301 - French Literature from the Middle Ages through the Seventeenth Century
  OR FRE 302 - French Literature from the Eighteenth Century to the Present
- FRE 303 - Advanced French Grammar

Earn at least 21 credits
- 21 credits selected from other 300- or 400-level FRE courses.

Additional Comments:
Students who anticipate graduate work in French should take at least 18 credits of French literature.

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.

  OR ENG 113 - Honors English Composition I
- ENG 121 - English Composition II
  OR ENG 123 - Honors English Composition II

AND

Mathematical and Quantitative Reasoning

Complete at least 1 of the following courses:

- MAT 126 - Quantitative Reasoning
- MAT 128 - Foundations of Data Science

Students may substitute courses from this list of required courses in mathematics and laboratory science for the required courses in Mathematical and Quantitative Reasoning (Foundation). These STEM (Science, Technology, Engineering, Mathematics) courses will meet the General Education Requirements in the appropriate areas.

		Credits
MAT128 Foundations of Data Science	Foundations of Data Science	3
MAT132 Introduction to Statistics	Introduction to Statistics	4
MAT171 Elements of Precalculus	Elements of Precalculus	4
MAT172 Precalculus	Precalculus	4
MAT174 Elements of Calculus	Elements of Calculus	4
MAT175 Calculus I	Calculus I	4
MAT176 Calculus II	Calculus II	4

AND

Life and Physical Sciences

Complete at least 1 of the following courses:

- ANT 120 - Human Evolutionary Biology
- AST 102 - Introduction to the Universe
- BIO 173 - Human Biology of Systems
- CHE 137 - Elements of Chemistry I
- PHY 131 - Conceptual Physics
- PHY 141 - Sound, Speech and Music
- PHY 151 - Energy and the Environment

CHE137 Elements of Chemistry I: Has a Corequisite in Distribution Courses: Scientific World CHE138 Elements of Chemistry II.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

		Credits
ANT171 Intro to Human Evolution	Introduction to Human Evolution	4
ANT269 Introd to Human Variation	Introduction to Human Variation	4
AST117 Astronomy of Stellar Systems	Astronomy of Stellar Systems	4
BIO166 Princip of Biology:Cells&Genes	Principles of Biology: Cells and Genes	4

PHY167 General Physics II	General Physics II	5
PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Earn at least 6 credits from the following:

- General Education Foreign Language Option

Students are required to take two foreign language courses in the same language (including American Sign Language). This is part of the CUNY Pathways College Option.

Only students who transfer into Lehman with an associate's degree are exempt from the Foreign Language Requirement.

Students who continue in a foreign language previously studied in high school or college must be placed in the proper sequential course by the Languages and Literatures Department. If a student completes one semester of a foreign language at the intermediate level or above (numbered 201 or higher), one Foreign Language Option course may be substituted for the second required language course with the permission of the Languages and Literatures Department (if a language course is chosen it cannot be the same language as the student's 200-level course).

(These courses cannot also serve to meet Common Core requirements.)

Additional Comments:
Lehman College provides undergraduates with not only a major specialization but also training in a range of basic skills and general subjects on beginning, intermediate, and advanced levels. In this way, a bachelor's degree represents both training in a special field and the skills and knowledge to meet life's varied challenges responsibly, intelligently, and creatively.

Beginning in fall 2013, CUNY instituted a common General Education structure (called "Pathways") whose purpose is to improve the ability of students to transfer within the university. Lehman's 2013 CUNY General Education Program (Pathways) conforms to the new CUNY structure. The college's General Education categories remain the same, but the individual course requirements in some cases have changed. Lehman's categories represent the following parts of the CUNY Pathways structure:

- Foundation = CUNY Required Core (plus the College Option in Foreign Language)
- Distribution = CUNY Flexible Core
- Integration = CUNY College Option

Lehman's courses in the 2013 CUNY General Education Curriculum include subjects comprising the shared intellectual heritage of our diverse culture. They teach critical thinking and encourage accurate and effective communication. General Education supports the integration, synthesis, and application of knowledge, and includes proficiency in information literacy. Undergraduate education offers not only specialized knowledge and professional skills but also the multiple views and general intellectual abilities developed by the study of liberal arts and sciences that provide a foundation for independent, responsible living.

Students who enter Lehman College in the fall 2013 semester or later must meet the 2013 CUNY General Education Requirements. There are four categories of required courses: Foundation ("Required Core" plus "College

Option,") Distribution ("Flexible Core"), Integration ("College Option"), and Writing Intensive. For a list of the 2013 CUNY General Education courses in each category, select the links in the navigation side panel.

(NOTE: The Foreign Language and Integration Requirements are waived for students in the Lehman Scholars Program and the Macaulay Honors College, which have their own requirements in these areas.)

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Distribution/Flexible Core

Type
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 course in the following course sets:
- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 course in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 course in the following course sets:
- Flexible Core Creative Expression

AND

Complete at least 1 course in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 course in the following course sets:
- Flexible Core Scientific World

CHE138 Elements of Chemistry II: Has a Corequisite in Foundation Courses: Life and Physical Science CHE137 Elements of Chemistry I.

Students may substitute for any of these courses one of the science courses in the list of STEM Variants:

PHY168 PHY I Scientists & Engineers	Physics I for Scientists and Engineers	5
PHY169 PHY II Scientists & Engineers	Physics II for Scientists and Engineers	5

AND

Complete at least 1 course in the following course sets:
- Flexible Core - Any Area

Additional Comments:
Distribution courses are the Flexible Common Core in CUNY General Education.

Every student must choose and successfully complete one course from these Distribution courses in each of the five areas listed below, and a sixth course from any of the areas. No more than two courses from the same discipline may be used to satisfy the Distribution Requirement.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

General Education - Integration/College Option

Type
Completion Requirement

Complete at least 1 of the following:

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:
- LEH 250 - First-year Seminar

AND

Complete at least 1 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

OR

Complete at least 2 of the following courses:
- LEH 351 - Studies in Scientific and Applied Perspectives
- LEH 352 - Studies in Literature
- LEH 353 - Studies in the Arts
- LEH 354 - Studies in Historical Studies
- LEH 355 - Studies in Philosophy, Theory and Abstract Thinking
- that is outside of their major

Additional Comments:
Integration Courses are the College Option in CUNY General Education.

This requirement applies only to students in the upper division, i.e. juniors and seniors. After earning a minimum of 60 credits or earning an Associate's Degree, and officially selecting a major, all upper-division students must complete two LEH courses. The two are to be chosen in topics outside their major from four of the following five variable topics courses. Each semester, a series of topics for these courses will be announced in the Schedule of Classes.

Transfer students may not be required to complete all of the requirements listed. Please refer to the appropriate general education checklist or visit the Transfer Students information page.

Degree Requirements - College Writing

Type
Completion Requirement

Earn at least 12 credits
Students must complete four courses designated as writing-intensive, three prior to earning the 60th credit and one following. Individual sections of courses will be designated as writing-intensive, and students may take writing-intensive sections of courses in General Education, major, minor, and elective courses.

Additional Comments:
Transfer students who have completed less than 30 college credits must complete four courses designated as writing-intensive; those who have completed at least 30 but less than 60 college credits must complete three courses designated as writing-intensive; those who have completed 60 or more college credits must complete two courses designated as writing-intensive.

Major Requirements - Overall

Type
Completion Requirement

Earn at least 30 credits

Additional Comments:
- Declare a minor in the Department of Middle and High School Education in Foreign Language Education after completing 50% of your required courses in the major.
- Students should seek advisement each semester from both the Chair of the Department of Languages and Literatures and the Undergraduate Coordinator of the Department of Middle and High School Education.

Major Requirements - Core Courses

Type
Completion Requirement

Earn at least 15 credits from the following:
- FRE 300 - Introduction to French Literature and Literary Criticism
- FRE 301 - French Literature from the Middle Ages through the Seventeenth Century
  OR FRE 302 - French Literature from the Eighteenth Century to the Present
- FRE 303 - Advanced French Grammar
- FRE 3180 - French Dialectology and Sociolinguistics
- FRE 319 - Francophone Cultures

Earn at least 15 credits

- Selected from other 300- or 400-level FRE courses

Degree Map Narrative

All Lehman College students must complete Writing Intensive (WI) courses, which are offered in General Education, major, minor, and elective areas. Students may find these classes by looking for the attribute “Writing Intensive” when scheduling their classes in Schedule Builder.

The number of Writing Intensive course requirements varies by status:

- **Entering freshmen** and students with **fewer than 30 transfer credits** must complete **four** WI courses at Lehman.
- Students with **30 to 59 transfer credits** must complete **three** WI courses at Lehman.
- Students with an associate degree or **60 or more credits** must complete **two** WI courses at Lehman.
