About UWSP

About UWSP

This is UW-Stevens Point

Located in central Wisconsin, UW-Stevens Point is home to more than 8,300 students at our four-year Stevens Point campus and two-year Marshfield and Wausau campuses. Students at UW-Stevens Point choose from more than 100 program options in 80 bachelor's degree programs and 17 graduate programs. Wausau and Marshfield offer both associate and bachelor's degrees, as well as seamless transfer within the UW System.

UW-Stevens Point is well known for hands-on, interdisciplinary and career-focused majors in natural resources, education, business, health care, biology and the arts. Affordable tuition and small class sizes, paired with engaging professors and diverse opportunities, make the three campuses ideal places to discover your purpose.

Equal Opportunity/Affirmative Action Policy

We at UW-Stevens Point affirm your right to equal opportunity in education. We make all our university programs and activities equally available to all. In our educational programs, activities and employment policies, we don't discriminate on the basis of age, race, creed or religion, color, handicap, sex, national origin, ancestry, pregnancy, marital status, parental status, sexual orientation, disability, political affiliation, arrest or conviction record, membership in the National Guard, state defense force or other reserve component of the military forces of the United States or this state.

UW-Stevens Point is an affirmative action/equal opportunity employer and encourages applications from members of ethnic/racial minorities, women, and persons with disabilities. If you have a question or concern about our compliance with state or federal laws or if you have a discrimination complaint, write or bring the question or complaint to our Equity and Affirmative Action Office, Room 210, Main Building, or phone 715-346-2002. https://www.uwsp.edu/equity-diversity-inclusion/

Mission Statements

UW System Mission Statement

UW-Stevens Point shares in the mission of the University of Wisconsin System. The mission of this system is to develop human resources, to discover and disseminate knowledge, to extend knowledge and its application beyond the boundaries of its campuses, and to serve and stimulate society by developing in students heightened intellectual, cultural, and humane sensitivities; scientific, professional, and technological expertise; and a sense of purpose. Inherent in this broad mission are methods of instruction, research, extended education, and public service designed to educate people and improve the human condition. Basic to every purpose of the system is the search for truth.

As an institution of the University of Wisconsin System, UW-Stevens Point shares the following core mission with other universities. Each university shall:

1. offer associate and baccalaureate degree level and selected graduate programs within the context of its approved mission statement,

2. offer an environment that emphasizes teaching excellence and meets the educational and personal needs of students through effective teaching, academic advising, counseling, and through university-sponsored cultural, recreational, and extracurricular programs,

3. offer a core of liberal studies that supports university degrees in the arts, letters, and sciences, as well as specialized professional/technical degrees at the associate and baccalaureate level,

4. offer a program of preprofessional curricular offerings consistent with the university's mission,

5. expect scholarly activity, including research, scholarship, and creative endeavor, that supports its programs at the associate and baccalaureate degree level, its selected graduate programs, and its approved mission statement,

6. promote the integration of the extension function, assist the University of Wisconsin-Extension in meeting its responsibility for statewide coordination, and encourage faculty and staff participation in outreach activity,

7. participate in inter-institutional relationships in order to maximize educational opportunity for the people of the state effectively and efficiently through the sharing of resources,

8. serve the needs of women, minority, disadvantaged, disabled, and nontraditional students and seek racial and ethnic diversification of the student body and the professional faculty and staff, and

9. support activities designed to promote the economic development of the state.

UW-Stevens Point Select Mission

In addition to the Core Mission of the University Cluster Institutions, the select mission of UW-Stevens Point is to provide programs that help communities become more vibrant, healthy, prosperous, and sustainable. We accomplish this by providing a broad foundation in the fine arts, humanities, natural sciences, and social sciences for associate and baccalaureate degrees.

Our commitment to helping communities thrive requires that we provide education, research and outreach in a wide array of disciplines, with particular emphases at the baccalaureate level in integrated natural resources management and environmental education; in the performing and visual arts; and in areas such as business, health and wellness professions, communicative disorders, design, select engineering programs, family and consumer sciences, information science, paper science, social work, and teacher education.

UW-Stevens Point provides select master's programs in business, communication, communicative disorders, health care, health promotion, natural resources, teacher education, wellness, and other select areas clearly associated with this university's undergraduate emphases. UW-Stevens Point provides a clinical doctoral program in audiology, as well as professional doctoral programs in select areas of strength at the master's level.

UW-Stevens Point puts special emphasis on promoting inclusivity, advancing human wellness, providing excellent academic support resources, offering extensive study abroad and international programs, and providing a robust array of UW-Extension programs.

Mission Statement and Values

Through the discovery, dissemination and application of knowledge, UW-Stevens Point fosters intellectual growth, provides a broad-based education, models community engagement and prepares students for success in a diverse and sustainable world.

The Stevens Point Community

Stevens Point is a city of about 26,000 in a metropolitan area of nearly 67,000. Located on the banks of the Wisconsin River, it offers a wide range of recreational opportunities including the 27-mile Green Circle Trail, cross-country ski trails, year-round fishing on the river and in nearby lakes and downhill skiing at Standing Rocks County Park. There are also facilities for sports such as baseball, curling, hockey and disc golf. It has a vibrant arts and music scene, including art galleries, a sculpture garden and numerous live music and theater performances.

Because of UW-Stevens Point's central location, students have many options to quickly become part of the city of Stevens Point. Residence halls, nearby student apartments and house rentals blend into the community. A variety of volunteer opportunities and collaborations, including a strong local foods movement, bring campus and community together.

The local economy depends on UW-Stevens Point students as part-time employees and numerous internship options are available, and students have access to free city bus transportation. The police and fire departments, a hospital, a county library, shopping and the riverfront all are within easy access. A safe city with a low crime rate, Stevens Point police work closely with university police, providing an added measure to security for student residents.

Having the corporate headquarters of several businesses, including Delta Dental of Wisconsin, Berkshire Hathaway Travel Protection, Sentry Insurance, Skyward, Gamber-Johnson and AIG, located in Stevens Point offers many cultural and economic opportunities that are unusual for a Midwestern city of this size. Other major employers include Ascension St. Michael's Hospital and Ministry Medical Group, Aspirus Stevens Point Clinic, Stevens Point Public Schools, Del Monte, McCain Foods USA, Portage County and Worzalla Publishing.

Stevens Point lies midway between Milwaukee and Minneapolis at the intersection of Interstate 39/Highway 51 and U.S. Highway 10. It is served by several airlines through the Central Wisconsin Airport.

Accreditation

The University of Wisconsin-Stevens Point is institutionally accredited by The Higher Learning Commission to offer undergraduate college programs leading to the bachelor's degree and graduate programs leading to master's and select doctoral degrees. They can be reached at:

The Higher Learning Commission
30 North LaSalle Street, Suite 2400
Chicago, Illinois 60602-2504

312-263-0456; 800-621-7440; Fax 312-263-7462

https://www.hlcommission.org/

Individual departments and programs within UW-Stevens Point are also accredited by discipline-specific accreditors. For more information on these accredited programs, see the Academic Affairs website.

Office of Admissions and Recruitment

2108 4th Avenue
UW-Stevens Point
Stevens Point WI 54481-3897
Phone: 715-346-2441
Email: admiss@uwsp.edu
Web: www.uwsp.edu/admissions

Admission Application Procedure

You may apply for admission to UW-Stevens Point by submitting the UW System electronic application, the paper application form available at: https://apply.wisconsin.edu, or through the Common app at: https://www.commonapp.org/.

New Freshman Admission Policy

Admission to the University of Wisconsin-Stevens Point is competitive. All applications are reviewed on an individual basis with both academic and non-academic factors considered. The university will give strong consideration to applicants with successful academic backgrounds who have demonstrated achievement both inside and outside the classroom. The potential to contribute to a diverse educational community is also considered.

A. You must graduate from a recognized high school or the equivalent.

1. A recognized high school is one which either (a) is accredited by a regional accrediting association or state university or (b) is recognized or accredited by a state department of public instruction or equivalent.

2. An applicant who has not graduated from a recognized high school must provide evidence of ability to begin college work. Such evidence may include but is not limited to: transcripts verifying completion of a home-schooled educational program, GED/HSED test scores **(unofficial high school transcripts will be accepted for admission consideration. Cumulative grade point average can be self-reported)**, ACT/SAT scores **(optional and self-reported for admissions consideration, but may be required for scholarship consideration)**, and/or transcripts of coursework completed in high school. Additional documents, testing, and a personal interview may be required.

B. Academic Unit Requirements

		Minimum Required	Recommended
	English	4 units	4 units
	Mathematics	3 units	4 units
	Social Science	3 units	4 units
	Natural Science	3 units	4 units
	Foreign Language	0 units	2-4 units
	Electives*	4 units	4 units

*At least two of the elective credits must be from foreign language, fine arts, computer science, English, math, social science, or natural science.

For acceptable courses in each academic area, please visit "Admission Criteria" on the First-Year Student Admissions website.

C. Academic Criteria

1. Class rank

2. Test scores: ACT or SAT (UW-Stevens Point does not require the ACT Writing Test.) **(optional and self-reported for admissions consideration, but may be required for scholarship consideration)**

3. Cumulative high school grade point average (GPA) **(unofficial high school transcripts will be accepted for admission consideration. Cumulative grade point average can be self-reported)**

4. Rigor of high school courses

5. Trend in grades: the pattern of grades including the pattern in academic courses

D. Non-academic Criteria

In addition to academic achievement, the following non-academic factors will be considered: demonstrated leadership; involvement through work experience, extracurricular activities, and volunteerism; personal characteristics and accomplishments including honors, awards, special talents and abilities, and personal qualities; diversity in background and experience; and life circumstances.

While non-academic qualifications are considered in the comprehensive review process, they will not necessarily make an applicant with a weak academic background a strong candidate for admission.

Admission requirements and criteria are subject to change.

First-year Orientation

As a first-year student at UW-Stevens Point, you participate in a one-day orientation event. During this event, you learn how to quickly and easily adapt to university life by getting to know UW-Stevens Point's customs, traditions, curricula, policies, and services.

We encourage guests to attend orientation with you. Your guests receive presentations by UW-Stevens Point faculty and staff on a variety of topics to assist aiding in your transition to campus. You and your guests will also get to enjoy lunch in our dining facility at no additional cost to you. For more information, please contact us by email or call us at 715-346-2441. You may also visit the Office of Admissions and Recruitment located in the Welcome Center - 2108 Fourth Ave.

If you are a transfer student or nontraditional student, you may get additional information about our Transfer Orientation events by emailing our office or calling us at 715-346-2441.

Non-degree Students

If you are a high school graduate and want to take a limited number of courses, and you are not seeking a degree, you may apply through the UW System Special Student Application.

High School Students

If you are a qualified high school student who wishes to take university courses while still enrolled in high school, you may be permitted to do so on a space-available basis. You will need to submit a UW-Stevens Point Early College Credit Program (ECCP) application and an official high school transcript. Additional information is available on the Admissions website. You may also contact your high school counselor or the UW-Stevens Point Office of Admissions and Recruitment for more information.

Returning UW-Stevens Point Students

Complete and submit the UW System admission application. We encourage all students to apply online or download a copy here*. You may also request a copy from the UW System HELP Office (800-442-6459) or the UWSP Office of Admissions and Recruitment.

If you have taken college courses since you last attended UWSP, ask each college you have attended to send an official copy of your transcript to the UWSP Office of Admissions and Recruitment, 2108 Fourth Ave., UW-Stevens Point, Stevens Point WI 54481-3897. (Please Note: We do accept electronic transcripts.)

Students who have served their term of suspension may apply for re-admission by following the same process for re-entry students. No appeal is required as part of the application process.

* To download this application, you will need to have a copy of Adobe Acrobat Reader installed on your computer. This software may be downloaded for free from Adobe Acrobat.

Academic Forgiveness

If you have a UWSP cumulative GPA of 1.99 or below and have not attended UWSP for at least one year, you may be eligible for academic forgiveness. The Academic Forgiveness Policy permits students who have experienced prior academic difficulty at UWSP to have a single opportunity to have all previous UWSP grades excluded from the calculation of the cumulative grade point average (GPA). For more information, see the Academic Forgiveness Policy.

Admission of Transfer Students

Follow the instructions under **Admission Application Procedure** to apply for admission to UW-Stevens Point. You will need to submit the UW System application form and have official transcripts from your high school and each college you have attended forwarded directly to the UW-Stevens Point Office of Admissions and Recruitment.

Admission to the University of Wisconsin-Stevens Point is competitive. Our Office of Admissions and Recruitment reviews all transfer applicants on an individual basis, considering both academic and non-academic factors. We pay particular attention to college-level course work you have completed, including your cumulative grade point average, the rigor of your course work, and grade trends and patterns. We also consider non-academic factors that demonstrate how you will enrich our campus community, including your extracurricular and employment experiences, personal characteristics and accomplishments, special talents and abilities, and life circumstances. While non-academic factors are considered, they will not make an academically weak applicant admissible.

Admission is subject to program capacity limits and institutional enrollment limits. For further information regarding admission eligibility and enrollment, please contact the Office of Admissions and Recruitment, 715-346-2441, admiss@uwsp.edu.

Transferring Credit to UW-Stevens Point

To transfer credits you have earned at another institution to UW-Stevens Point, ask each college you have attended to send an official transcript of your credits to UW-Stevens Point's Office of Admissions and Recruitment. The Office of Admissions and Recruitment determines whether credits earned at another institution will transfer to UW-Stevens Point and how those credits will apply toward the UW-Stevens Point General Education Program. Please note the following in regard to credit transfer:

- An official evaluation of your transfer credits will be completed after you are admitted and have confirmed your intention to enroll at UW-Stevens Point.
- Credit is generally awarded for college-level courses completed with grades of D or higher at institutions accredited by a regional or national accrediting organization recognized by the Council for Higher Education Accreditation (CHEA). Courses must be similar in nature, level, and content to course work in our undergraduate curriculum. Continuing education courses and courses that are remedial, technical, vocational, or doctrinal in nature are not transferable.
- The appropriate academic department will determine which credits apply to your major and/or minor.
- We accept a maximum of 72 credits from two-year colleges. There is no limit on credits accepted from four-year universities.
- Credits transferred from other institutions are not used in calculating the UW-Stevens Point grade point average. The UW-Stevens Point grade point average is determined only by credits and grade points earned at UW-Stevens Point. However, transfer credits and grades ARE included in the calculation of the grade point average in most majors and minors, the combined (UWSP & Transfer) GPA, and in the determination of graduation honors.
- If your previous institution awarded "split" grades (AB, BC, etc.), those grades will appear on your UW-Stevens Point degree progress report as follows: AB = B+, BC = C+, CD = D+.
- To graduate from UW-Stevens Point, you must earn at least 30 of the total number of credits required for graduation in residence at this university. For more information on graduation requirements, see the **Graduation** section of this catalog.

Transferring Credit from another UW System Institution or Wisconsin Technical College

If you earned an approved bachelor or associate degree from another UW System institution or an approved associate degree from a Liberal Arts Transfer program at one of the Wisconsin technical colleges, you will automatically satisfy the UW-Stevens Point General Education Program requirements.

Transferring Credit from Wisconsin Technical Colleges

If you have been enrolled in the Wisconsin Technical College System (WTCS) and wish to continue your education at UW-Stevens Point, you may be eligible to transfer credits toward your bachelor's degree in the following ways:

- If you are transferring from a WTCS accredited liberal arts/collegiate transfer program, you may be eligible to transfer up to 72 credits toward your baccalaureate degree.
- You may be eligible to transfer approved general education courses (i.e., in communications, social sciences, behavioral sciences, mathematics and natural science) offered within a WTCS applied associate degree program. You also may be eligible to transfer certain technical support or occupational credits if they have been approved for transfer by our academic departments or if there is an approved program-to-program articulation agreement between a WTCS associate degree program that you have completed, and a program offered at UW-Stevens Point.
- You also may be eligible for credit by earning appropriate scores on national standardized examinations and/or UW-Stevens Point test-out programs that are described later in this section of the catalog.

We recommend that you consult the UW System's online Transfer Wisconsin website for information on specific WTCS/UW-Stevens Point course equivalencies and articulation agreements, or contact the Office of Admissions and Recruitment, 715-346-2441 or admiss@uwsp.edu.

Transferology/Transfer Wisconsin

Students transferring from another UW System school or the Wisconsin Technical College System should consult Transferology to determine exactly how the credits will transfer to UW-Stevens Point. We also encourage you to log in to Transfer Wisconsin, your online source of information about credit transfer, course equivalencies, academic requirements, and general UW System information. If you are currently a UW-Stevens Point student, Transferology is an online tool to view course equivalencies that you may find helpful if you plan to take a summer course at another UW System school and transfer it back to UW-Stevens Point.

Transfer Credit Appeal Procedure

Here is the appeal procedure you can follow if you do not agree with the way we applied your transfer credits to the general education requirements.

1. Ask a transfer counselor in the Office of Admissions and Recruitment to explain the basis for the current evaluation.

2. If you earned the credits at an institution that is not part of the UW System, submit:

a. A copy of the transcript and the UW-Stevens Point evaluation.

b. A copy of the course description from the time you took the course. (For example, Iowa State's course description for SOC 105 in 2003.)

c. A written request for the action you desire.

3. If you are still not satisfied with our transfer credit evaluation and believe you have sufficient grounds for an appeal, send a written request to the Transfer Credit Appeal Committee, c/o Registrar, UW-Stevens Point. Explain why you feel credit should be granted toward UW-Stevens Point general education requirements. Include copies of the materials listed in 2 above along with the transfer counselor's response. You must file this appeal at least one semester before you expect to graduate.

Alternative Credit Opportunities

In addition to traditional classroom instruction, there are a number of opportunities available at UW-Stevens Point for receiving college credit or meeting course requirements. These opportunities could allow you to graduate sooner than normal or take advantage of additional coursework outside of your major. If you are a self-learner, have substantial preparation in certain subject matter, or have applicable life experiences, you are encouraged to pursue one or more of the following opportunities.

Advanced Placement Program (AP)

If you are currently a high school student, you may earn college credit if your school participates in the College Board AP Program. High schools participating in the AP program offer college level courses for which examinations are given each May. UW-Stevens Point grants credit for scores of 3, 4 and 5 on all AP exams. AP courses are currently offered in humanities, mathematics, natural sciences and social sciences. If you are awarded credit, it will be entered on your permanent record after you enroll at UW-Stevens Point. Contact your high school counselor or our Office of Admissions and Recruitment at 715-346-2441, or see https://www.uwsp.edu/admissions/Pages/applying/Credit-By-Exam.aspx.

College-Level Examination Program (CLEP)

CLEP, also offered by the College Board, offers general examinations covering broad areas such as humanities, natural science and social science, as well as subject areas such as accounting, biology, American history, and psychology. UW-Stevens Point grants credit for acceptable scores on many of the CLEP examinations. Credit will be entered on your permanent record after you enroll at UW-Stevens Point. Contact our Office of Admissions and Recruitment at 715-346-2441 or Testing Services (Third Floor, Delzell Hall, 715-346-4472) for additional information, or see www.uwsp.edu/admissions/Pages/Applying/CLEP.aspx.

Prior Learning Assessment Program

If you have had experiences that have provided you skills and knowledge that are equivalent to college-level learning which relate to course outcomes at UW-Stevens Point, you may be eligible to receive college credit for these experiences. For example, you might be eligible to receive academic credit for prior learning from the competencies, knowledge, and skills you gained through past employment, volunteer work, publications, or your participation in seminars, workshops, job-related training programs, or military training programs.

Prior Learning Assessment (PLA)

Sally Cayan, Coordinator
Phone: 715-346-2764
Email: scayan@uwsp.edu

Prior Learning Assessment (PLA) allows you to receive credit for college-level learning obtained outside the traditional academic setting. Credit is not granted simply for experience, but rather for the demonstrated skills and learning obtained from the experience. The learning is judged by faculty in a discipline to be equivalent to knowledge you would gain through UW-Stevens Point coursework.

Prior learning may be evaluated by techniques such as an interview, demonstration, portfolio assessment, or other methods where appropriate for assessing achievement of specific course outcomes.

For the purpose of institutional policy, you may be awarded up to a maximum of 15 college credits through the PLA procedure outlined below. Credits awarded through the PLA process will appear on your transcript and will be identified as awarded through PLA.

After you have been formally admitted to the university you can request an evaluation of prior learning for credit. Please follow this procedure:

1. Contact the Prior Learning Assessment (PLA) Coordinator who will help you identify the competencies and skills you have acquired and decide which credits might be sought by prior learning assessments and/or by more traditional means. Have transcripts that certify formal educational experience sent to the Office of Admissions and Recruitment.

2. After you and the PLA Coordinator have determined which credits are to be sought, you will need to consult with the chair(s) of the involved department(s) concerning the preparation and documentation of the necessary materials relating to your prior learning experiences. You will want to consult with your academic adviser and may consult with the PLA Coordinator as you develop the materials requested by the involved department(s) concerning the competencies you believe you have already acquired.

3. Following preparation of the portfolio(s), take the materials to the chair(s) of the involved department(s). This begins the evaluation phase of the process. The chair may assign a faculty member and/or a committee to assess your portfolio.

4. After the evaluation is complete, a written recommendation for or against the award of credit, the amount of credit, and the level of credit will be submitted to the chair of the appropriate department for review. The chair will forward the material and final recommendation to the PLA Coordinator.

5. The PLA Coordinator will notify you and the Records Office of the award of credit, which will be entered into your permanent record. A fee of $50 for 12 or fewer credits, or $100 for 13 or more credits will be assessed.

Evaluation of prior learning takes time. Please do not assume that the evaluation can be completed during the semester you apply. It may take several weeks.

Advanced Standing/Retroactive Credit

Some departments administer placement tests when you first enroll. If the test results indicate that you should start at a higher level than the entering freshman course, you may have the opportunity to earn retroactive credit for the course. In world language, for example, you can earn up to 16 retroactive credits if you place into 313 and earn a grade of B- or better. Check the departmental listings in this catalog or contact the department chair for additional information.

Departmental Credit-by-Exam

Check the departmental listings in this catalog or contact the department chair for information about this option.

Test-Out

You may test out and/or receive credit-by-exam for any General Education Program (GEP) course at UW-Stevens Point, except for Writing Emphasis courses. See **Test-Out and Credit-by-Exam Policy** under the **General Education** section of this catalog or contact individual departments for more information about their test-out opportunities.

Additional Information and General Limitations to AP, Credit-by-Exam, and Test-Out

1. Credits earned through the above policies:

a. Are recorded on your academic record.

b. Have full academic value and apply toward graduation and all other requirements as if you had completed the course through regular enrollment.

c. Are not assigned grades, are not calculated in your grade point average and are not included in your semester credit load.

d. Do not count toward the minimum 30 credit residency requirement.

2. You may count 32 credits earned under the above policies toward the 120 credits required for graduation or 16 credits toward an associate degree.
3. You may be charged a nominal fee for departmentally administered test-out and credit examinations.
4. The methods for testing and standards for awarding credit or test-out in departmentally administered tests are determined by the department.
5. Individual departments may have additional limitations to these programs which will be identified in the department's section of this catalog.

Faculty and Staff

Financial Aid & Fees

Financial Aid and Veteran Services

Susan Johnson, Director
Student Services Center, Room 103
1108 Fremont Street
Stevens Point, WI 54481-3897
Phone: 715-346-4771
Email: finaid@uwsp.edu
Web: www.uwsp.edu/finaid

How to Apply for Financial Aid

The way to apply for financial aid is to complete the Free Application for Federal Student Aid (FAFSA) form available online at StudentAid.gov. You, and your parents if you are a dependent student, will need an FSA ID to electronically sign your FAFSA. An FSA ID consists of a username and password, and you will be prompted to apply for one when you fill out the FAFSA. Because it may take up to three days to get an FSA ID, go to studentaid.gov/fsa-id/create-account/launch to obtain one prior to completing the FAFSA. Keep your FSA ID credentials safe because you will need them again for making changes to your FAFSA, filling out future FAFSAs, and signing promissory notes.

Apply early: Applications received after May 1 may be awarded less aid as funding becomes depleted.

Financial Aid Eligibility

Financial Aid and Veteran Services administers UW-Stevens Point's various federal, state institutional, and private financial assistance programs that help students pay their college expenses. Awards are made based on your family's income and assets, the size of your family, the number of family members in college, and other information which you provide on your FAFSA form. To be eligible for most types of assistance, you must:

- Demonstrate a financial need,
- Be admitted to a UW-Stevens Point degree program or teacher certification program,
- Not be in default on a student loan,
- Not owe a repayment on a student grant, and
- Be enrolled at least half time (except for Pell Grant recipients).

If you enroll less than full time, your financial aid may be reduced. Also, if you fail to make satisfactory academic progress, you will NOT be eligible to receive financial aid even though you may continue enrollment. You are eligible to receive financial aid only ONCE for a previously passed course (up to three attempts). Note that audited courses do NOT count toward credit load for financial aid eligibility.

You may be eligible for some types of aid (loans or scholarships) whether or not you demonstrate financial need.

Satisfactory Academic Progress for Financial Aid

In order to be eligible to receive federal financial aid, you must demonstrate "Satisfactory Academic Progress" (SAP) which is a function of the following three components:

Grade Point Average (GPA):

If you are an undergraduate student receiving financial aid, you must maintain a minimum 2.0 UWSP cumulative GPA (all coursework transferred in is considered into this cumulative GPA), while if you are a graduate student receiving financial aid, you must maintain a UWSP minimum cumulative GPA of 3.0. **Note:** Standards of satisfactory academic progress for financial aid are different from the University's probation/suspension requirements listed in the UWSP Catalog. Additionally, academic forgiveness is not counted when calculating SAP.

Pace (67% Rule):

As a full-time or part-time undergraduate or graduate student at UWSP who receives financial aid, you must stay on pace to graduate on time. Pace is calculated by dividing the total credits you completed by the total number of credits you have attempted. When this calculation falls below 67%, you are no longer on pace to graduate on time and are ineligible to receive financial aid. Transfer credits are considered within this pace calculation as credits attempted and credits earned.

Maximum Time Frame (150% Rule):

As an eligible undergraduate, graduate, or second degree-seeking student, you can receive federal financial aid while attempting up to, but not exceeding, 150% of the university's degree completion length. Credits transferred to UWSP and any credits attempted at UWSP, with or without the benefit of financial aid, must be taken into consideration. As an example, if you are a student who is required to earn 120 credits to graduate with a baccalaureate degree, the maximum time frame would be 180 credits (120 x 150% = 180).

Evaluation Process

The GPA, Pace and Maximum Time Frame requirements are evaluated by the Financial Aid and Veteran Services Office after every term (Summer/Fall/Spring), once grades are posted. If you do not meet the GPA, Pace, or Maximum Time Frame requirement(s), you will be ineligible to receive future financial aid. Your options are to:

1. Choose to continue to enroll in classes without financial aid until you earn an academic standing that meets the minimum criteria for financial aid purposes, i.e., bring the cumulative GPA up to at least a 2.0 if you are an undergraduate student or 3.0 if you are a graduate student and/or successfully complete 67% of accumulative attempted credits. Once you have corrected the SAP deficiency of Pace/GPA, it is possible for aid to be reinstated.

2. Provide documentation to Financial Aid and Veteran Services to correct any errors made, and/or

3. Submit an appeal that explains the extenuating circumstances that prevented successful Satisfactory Academic Progress (SAP) and specific steps on how you will reach SAP by the next evaluation period. This appeal requires the development and submission of an academic plan.

Appeal Process

If you did not meet SAP for financial aid and are currently ineligible to receive financial aid, you may appeal for reinstatement of eligibility by completing an Appeal for Reinstatement of Financial Aid Eligibility form. This form must include a clear explanation of why you failed to meet SAP and specifically, what steps you plan to take to meet SAP by the next evaluation. Additional supporting documentation confirming the appealed situation may also be required.

All appeals must also include an academic plan identifying dates by which you will meet all aspects of the SAP policy. If the appeal is approved, you are subsequently placed on Academic Plan Status for one term, after which, you must be meeting SAP or be following your approved academic plan. If you are not meeting SAP and/or not following your approved academic plan at the next evaluation, you will not receive Financial Aid until you are once again in compliance.

If you had extenuating circumstances that prevented you from making SAP, you have the right to appeal your situation to Financial Aid and Veteran Services. Extenuating circumstances include, but are not limited to, personal injury or illness, death of a relative or other reasons resulting in undue hardship to you. You must submit the *Appeal for Reinstatement of Financial Aid Eligibility* form, a copy of your Degree Progress Report (DPR), an Adviser/Chair (or designee)-approved academic plan, and any other related documentation that supports the appeal (see additional information on supporting documentation). Per Federal regulations, an appeal may only be approved if you show that you will be able to meet SAP by the next evaluation, or your academic plan ensures SAP by a specific point in time. The authorized Financial Aid Counselor(s) will serve as the final arbiter of appeals and will inform you of the decision regarding your appeal and the status of your financial aid eligibility. All decisions are final and are not subject to further appeal.

If denied, you may attend UWSP, without financial aid, and either re-appeal at a later date or regain eligibility for financial aid after all components of SAP are met. If you appeal and the appeal is approved, you are placed on Financial Aid Probation Status for one term, after which, you must be meeting SAP or be following your approved academic plan. If you are not meeting SAP or following your academic plan at the next evaluation, you will be ineligible to receive financial aid until you comply with all SAP requirements.

Academic Plan

All appeals require an academic plan identifying dates by which you will meet all aspects of the SAP policy. You should meet with your Academic Adviser in the Academic and Career Advising Center (ACAC) or your faculty adviser from your major to create an individualized academic plan. In the absence of a faculty adviser, you may meet with your Department Chair (or their designee).

Types of Financial Aid

When you apply for financial aid, you are considered for all programs listed below that are based upon need. You may also apply for other forms of assistance.

Grants, Need-Based

Federal Pell Grant: Awards up to $6,495 to undergraduates. Eligibility is determined by completing the FAFSA and based on the Student Aid Index (SAI). The specific award amount depends upon credit load.

Federal Supplemental Educational Opportunity Grant: Awards up to $2,000 to exceptionally needy undergraduate students.

Lawton Minority Retention Grant: Awarded to Wisconsin undergraduate diversity students with sophomore standing and a minimum 2.00 GPA.

Wisconsin Hearing and Visually Handicapped Grant: Awards up to $1,800 per year for ten semesters for undergraduate Wisconsin residents who show financial need and have a profound hearing or visual impairment.

Wisconsin Grant: Provides awards based on financial need to undergraduate, Wisconsin residents enrolled at least half-time in a degree or certificate program. Awards are up to $3150 per academic year and are limited to ten semesters.

Wisconsin Talent Incentive Program: Awards from $600 to $1,800 to the most financially needy and educationally disadvantaged Wisconsin resident students. Eligibility cannot exceed ten semesters.

Wisconsin Indian Assistance: State awards up to $1,100 to Wisconsin residents who are at least 25% Native American and are enrolled in a degree or certificate program. These awards are based on financial need and have a limit of ten semesters of eligibility.

Pointer Partnership Grant: Awarded to undergraduate degree-seeking students enrolled at least half time, who meet the need criteria.

Pointer Incentive Grant: This state, need-based grant is administered by the UW-Stevens Point Office of Financial Aid. The grant is awarded to undergraduate students with financial need who are Wisconsin residents enrolled at least half-time.

Loans, Need-Based

Federal Direct Subsidized Loan: No interest is charged while the student is enrolled at least half-time in a degree-seeking, undergraduate program. Annual loan limits are $3,500 the first year, $4,500 the second, and up to $5,500 in subsequent years, to an undergraduate maximum of $23,000.

Loans, NOT Need-Based

Federal Unsubsidized Direct Loan: The maximum amount that you may borrow as a dependent student is governed by the same limits as the need-based Subsidized Direct loan plus $2, 000. The limits are higher for independent students: using the same limits as the need-based Subsidized Direct loan + $6,000 for freshmen and sophomores; + $7,000 for juniors and seniors; and $20,500 for graduates.

Federal PLUS or Graduate PLUS Loan: Loans up to the cost of education less all other aid. These loans require a separate application found at studentaid.gov.

Private Educational Loans: Loans from commercial lenders to help cover the cost of attendance. These are last resort loans, which should only be considered if needed after receiving federal financial assistance.

Scholarships

There are several places you can go to get information about scholarships:

Information about scholarships for incoming students can be found at https://www.uwsp.edu/admissions-aid/new-student-scholarships and https://www.uwsp.edu/finaid/Pages/firstyrscholarships.aspx.

Check with curricular department offices for awards available for majors in specific courses of study. For a list of majors and minors visit: https://give.uwsp.edu/scholarship-directory

For all-inclusive scholarship information, please visit https://www.uwsp.edu/finaid/Pages/scholarships.aspx.

Military Scholarships

Army ROTC Scholarship: Army ROTC offers opportunities for merit based scholarships at UW-Stevens Point. The scholarships will pay either full tuition & fees or room & board. Contracted scholarship cadets will also receive a $1,200 per year book allowance and $420 per school month for living expenses. High school students may compete for a four-year scholarship online at www.goarmy.com/rotc. On-campus students should contact the Scholarship & Enrollment Officer to determine their eligibility for a two, three, or four-year scholarship. Additional adventure training like airborne or air assault is also available to contracted cadets. For more information contact the Military Science Department, Room 159 Marshfield Clinic Health System Champions Hall (MCCH), phone 715-346-3821, email rotc@uwsp.edu, or go to www.uwsp.edu/rotc.

Simultaneous Member Program (SMP): This program allows you to participate in ROTC and the Army Reserve or National Guard as "officer trainees" to gain even more experience. In addition to the educational benefits that you already receive, SMP cadets may be eligible for MGIB "kickers", increases in drill pay, and scholarships. For more information contact the Military Science Department, Room 159 Marshfield Clinic Health System Champions Hall (MCCH), phone 715-346-3821, email rotc@uwsp.edu, or go to www.uwsp.edu/rotc.

Basic Camp (BC): This ***obligation free***, 28-day summer camp is held in Fort Knox, Kentucky. It is a "catch-up" program for students who have not taken the first two years of ROTC classes. Upon completion of BC, you can receive eight elective credits; you may also be eligible for a contracting bonus, as well as an opportunity to earn a two-year scholarship. For more information contact the Military Science Department, Room 159 Marshfield Clinic Health System Champions Hall (MCCH), phone 715-346-3821, email rotc@uwsp.edu, or go to www.uwsp.edu/rotc.

Jobs for Students

Need a job? Campus Activities and Student Engagement (CASE), located at 050 Dreyfus University Center, 715-346-4700, works to connect students and employers. CASE lists jobs online which are viewable only by current UW-Stevens Point students, including Marshfield and Wausau campuses. CASE can assist you with the following employment programs:

- Federal Work Study Program: Eligibility is based on financial need. Jobs include on-campus lab assistants, office staff, and intramural officials. You can view open positions at the CASE website.
- Non-Work Study Jobs: Over half of the on-campus positions are NOT work study, with many more opportunities off campus. Visit the CASE website for listings of current positions.

Return to Wisconsin Tuition Discount

Nonresident children and grandchildren of UW-Stevens Point alumni may be eligible for a discount of 25 percent off the regular nonresident tuition rate. Contact the Office of Admissions and Recruitment, 715-346-2441, for more information.

Military Service Benefits

Veterans, active National Guard members, and Reservists, and dependents of veterans may be eligible for monetary educational benefits while attending school. Please contact the Veterans Services Coordinator located in the Financial Aid and Veterans Services Office, Room 103, Student Services Center or by calling 715-346-4771. The Portage County Veterans Service Officer (CVSO), 715-346-1310, can also provide information regarding these benefits.

Financial Appeals for Tuition and Fees

If you wish to appeal charges resulting from a withdrawal from the University, you may file a request for a Tuition Appeal Form with the Student Financial Services office.

Tuition appeals are processed at least monthly. Appeals are reviewed in accordance with University of Wisconsin System Refund Policies and the Department of Education regulations relating to Title IV. UW-Stevens Point will refund tuition and fees based on the published tuition refund schedule. In limited circumstances, the university will consider an appeal for exception to the refund schedule. Appeals are heard by the Tuition Appeals Committee for extenuating circumstances and require appropriate documentation. Documentation requirements are listed on the Tuition Appeals Form, available on the Student Financial Services website.

Wisconsin Residency Requirements

Section 36.27(2) of the Wisconsin State Statutes (below) lists all the requirements for Wisconsin residency for tuition purposes. It is your responsibility to register correctly as a resident or nonresident. Contact the Office of Admissions and Recruitment, admiss@uwsp.edu or 715-346-2441, for interpretation and further information about your proper residency classification. If you wish to request a change in your residency classification, contact the Office of Admissions and Recruitment for the proper forms.

Minnesota Residents: If you meet Minnesota residency requirements at a public institution in Minnesota, you may be eligible to pay the established reciprocity fee for coursework taken at UW-Stevens Point. Contact the UW-Stevens Point Office of Admissions and Recruitment, admiss@uwsp.edu, for more information or go to www.ohe.state.mn.us.

Midwest Exchange Program

The Midwest Student Exchange Program (MSEP) was established by the Midwestern Higher Education Compact to provide qualified students with a more affordable means of attending an out-of-state institution. Students who are residents of a participating state may apply to attend UW-Stevens Point at a significantly reduced tuition rate. To participate, students must be a legal resident of Indiana, Kansans, Missouri, Nebraska, North Dakota, or Ohio. For more information, see http://www.uwsp.edu/admissions/Pages/Affordability/midwestStudentExchangeProgram.aspx.

Wisconsin Statutes Section 36.27(2):

(a) Students qualifying under any of the following categories, while they continue to be residents of this state, are entitled to exemption from nonresident tuition but not from incidental or other fees:

Adult students: Any adult student who has been a bona fide resident of the state for 12 months next preceding the beginning of any semester or session for which such student registers at an institution, OR any adult student who is a dependent of his or her parents under 26 USC 152(a) if one or both of the student's parents have been bona fide residents of this state for at least 12 months next preceding the beginning of any semester or session for which the student registers at an institution.

Minors: Any minor student, if one or both of the student's parents have been bona fide residents of this state for at least 12 months next preceding the beginning of any semester or session for which the student registers at an institution; OR any minor student who has resided substantially in this state during the years of minority and at least 12 months next preceding the beginning of any semester or session for which such student registers at an institution.

Minors under guardianship: Any minor student under guardianship in this state whose legal guardian has been a bona fide resident of this state for at least 12 months next preceding the beginning of any semester or session for which such student registers at an institution.

Migrant workers: Any adult student who has been employed as a migrant worker for at least two months each year for three of the five years next preceding the beginning of any semester or session for which the student registers at an institution, or for at least three months each year for two of the five years next preceding the beginning of any semester or session for which the student registers at an institution; any adult student whose parent or legal guardian has been so employed while the student was a minor and any minor student whose parent or legal guardian has been so employed. In this subdivision, "migrant worker" has the meaning specified in s. 103.90(5).

Refugees: (am) Any person who is a refugee, as defined under 8 USC 1101(a)(42), who moved to this state immediately upon arrival in the United States and who has resided in this state continuously since then is entitled to the exemption under par. (a) if he or she demonstrates an intent to establish and maintain a permanent home in Wisconsin according to the criteria under par. (e).

Armed forces, nonresident: (b) Nonresident members of the armed forces and persons engaged in alternative service who are stationed in this state on active duty and their spouses and children are entitled to the exemption under par. (a) during the period that such persons are stationed in this state.

Armed forces, resident: (b) Members of the armed forces, who reside in this state and are stationed at a federal military installation located within 90 miles of the borders of this state, and their spouses and children, are entitled to the exemption under par. (a).

Veterans: Nonresident persons who served in active duty in the U.S. armed forces for at least 10 years, who were honorably discharged from such service within four years before registering at an institution, and who filed state income taxes for at least 8 of the last 10 years of active duty in the U.S. armed forces, and their spouses and children are entitled to exemption under par. (a). A person who was a resident of this state at the time of entry into active duty, who is a resident of and living in this state at the time of registering at an institution, and who is a veteran, as defined in s.45.01(12), is entitled to the exemption under par. (a).

Graduates of Wisconsin high schools: (c) Any student who is a graduate of a Wisconsin high school and whose parents are bona fide residents of this state for 12 months next preceding the beginning of any semester or session for which the student registers at an institution or whose last surviving parent was a bona fide resident of this state for the 12 months preceding death is entitled to the exemption under par. (a).

Relocate for employment purposes: (cm) Any person continuously employed full time in this state, who was relocated to this state by his or her current employer or who moved to this state for employment purposes and accepted his or her current employment before applying for admission to an institution and before moving, and the spouse and dependents of any such person, are entitled to the exemption under par. (a) if the student demonstrates an intent to establish and maintain a permanent home in Wisconsin according to the criteria under par. (e). In this paragraph, "dependents" has the meaning given in 26 USC 152 (a).

General residency information: (d) Any person who has not been a bona fide resident of the state for 12 months next preceding the beginning of any semester or session for which such person registers at an institution, except as provided in this subsection, is not exempt from the payment of the nonresident tuition.

Determining eligibility to pay resident fees: (e) In determining bona fide residence at the time of the beginning of any semester or session and for the preceding 12 months, the intent of the person to establish and maintain a permanent home in Wisconsin is determinative. In addition to representations by the student, intent may be demonstrated or disproved by factors including, but not limited to, timely filing of a Wisconsin income tax return of a type that only full-year Wisconsin residents may file, voter registration in Wisconsin, motor vehicle registration in Wisconsin, possession of a Wisconsin operator's license, place of employment, self-support, involvement in community activities in Wisconsin, physical presence in Wisconsin for at least 12 months preceding the beginning of the semester or session for which the student registers, and, if the student is not a U.S. citizen, possession of a visa that permits indefinite residence in the United States. Notwithstanding par. (a), a student who enters and remains in this state principally to obtain an education is presumed to continue to reside outside this state and such presumption continues in effect until rebutted by clear and convincing evidence of bona fide residence.

Appeals: (2m) APPEALS. Any body designated by the board to determine nonresident tuition exemptions under sub. (2) may require a student who has been granted such an exemption to submit information from which the body may determine the student's eligibility for the exemption the student's eligibility for a different exemption, or the student's residency status.

New Student and Degree Completion Fees (formerly Matriculation Fee)

The New Student Fee & Degree Completion Fee has replaced the Matriculation Fee, effective with the Fall 2020 term. If you have already been assessed a Matriculation Fee, these fees will not apply. For the New Student and Degree Completion Fees visit: www.uwsp.edu/stuaffairs/Pages/segregatedFees.aspx.

Billing and Payment of Tuition/Fees

Payment Plan Options:

For information on payment options and payment plan details please visit: http://www.uwsp.edu/SFS/Pages/Pay-My-Bill.aspx.

For billing dates and deadlines visit: https://www.uwsp.edu/SFS/Pages/Billing%20Information.aspx.

Finance Charges

For information regarding finance charges visit: https://www.uwsp.edu/SFS/Pages/Billing%20Information.aspx.

E-Billing

UW-Stevens Point electronic billing is the official means of generating tuition bills for all enrolled students. You will receive a notice in your university email account when your UW-Stevens Point E-Bill is ready to be viewed online. A UW-Stevens Point logon and password are required to access the billing statement which details the amount due (tuition, fees, housing, and other university charges) and the payment due date.

Credit Agreement

For information regarding the credit agreement please visit: https://www.uwsp.edu/SFS/Pages/Billing%20Information.aspx.

Billing Errors

If you think your bill is wrong, write us a note about the error within 60 days of receiving your billing statement. Be sure to include your name, your student ID number, the amount of the error, and a brief explanation of why your bill is wrong. Email the note to: Student.Financial.Services@uwsp.edu or mail the note to: Student Financial Services, Room 003, Student Services Center, UW-Stevens Point, Stevens Point, WI 54481. If only part of your bill is wrong, then pay the correct portion of the bill by the due date.

Refund Schedule for Tuition and Fees

For information regarding direct deposit for refunds, financial aid refunds, tuition refunds and other fees and miscellaneous refunds visit: https://www.uwsp.edu/SFS/Pages/Student-Refunds.aspx.

On-Campus Living (Housing and Food)

At UW-Stevens Point, you are required to live in residence halls until you have been out of high school two years past your graduation date. This is a UW System Board of Regents policy. If you are married, have a dependent child, are a veteran, are living with your parents, or receive a special exemption because you have been out of high school two years or more, you need not comply with this requirement. Accommodations in the Suites@201 are contracted for an entire academic year with billing on a semesterly basis.

Refunds:

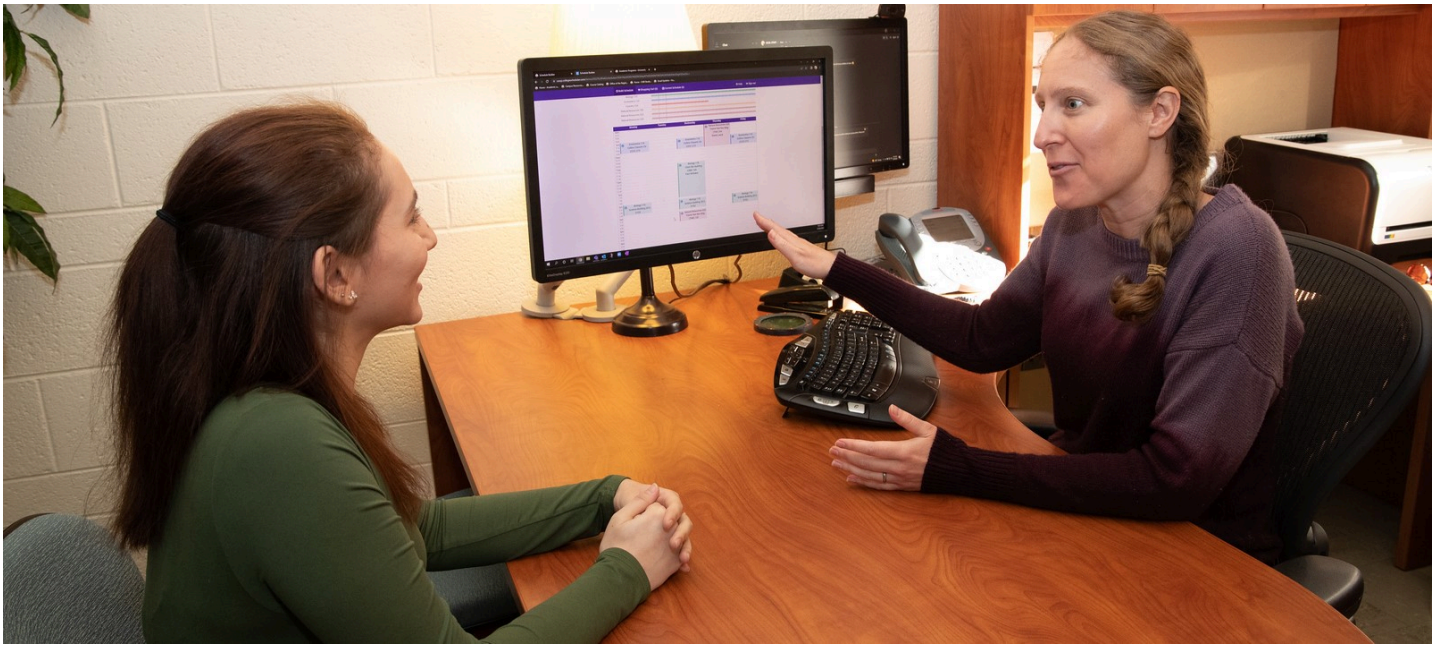
For housing contracts that start for the fall semester, housing contract termination requests must be received, via the housing portal, on or before July 1 and approved by Residential Living. Termination requests received and approved by the above deadline do not face a cancellation termination fee. Termination requests for fall semester received and approved after July 1, may face a $150 termination fee if you remain enrolled at the University of Wisconsin-Stevens Point main campus.

For housing contracts that start for the spring semester, housing contract termination requests must be received, via the housing portal, on or before December 15 and approved by Residential Living. Termination requests received and approved by the above deadline do not face a cancellation termination fee. Termination requests for spring semester received and approved after December 15, may face a $150 termination fee if you remain enrolled at the University of Wisconsin-Stevens Point main campus.

If you get married, become a parent, student teach, or participate in curricular programs which require off-campus living outside of a 40-mile radius from Stevens Point, you may request release from your residence hall agreement. To do this, contact or visit Residential Living or submit a cancellation request in your UWSP Housing Portal.

If you withdraw from UW-Stevens Point, you must also terminate your residence hall agreement and properly check-out of your residence hall space. Please see your specific housing contract by visiting https://www.uwsp.edu/residential-living/Pages/applying/contracts.aspx for an explanation of the housing refund schedule based on your check-out date.

Academic and Career Advising Center



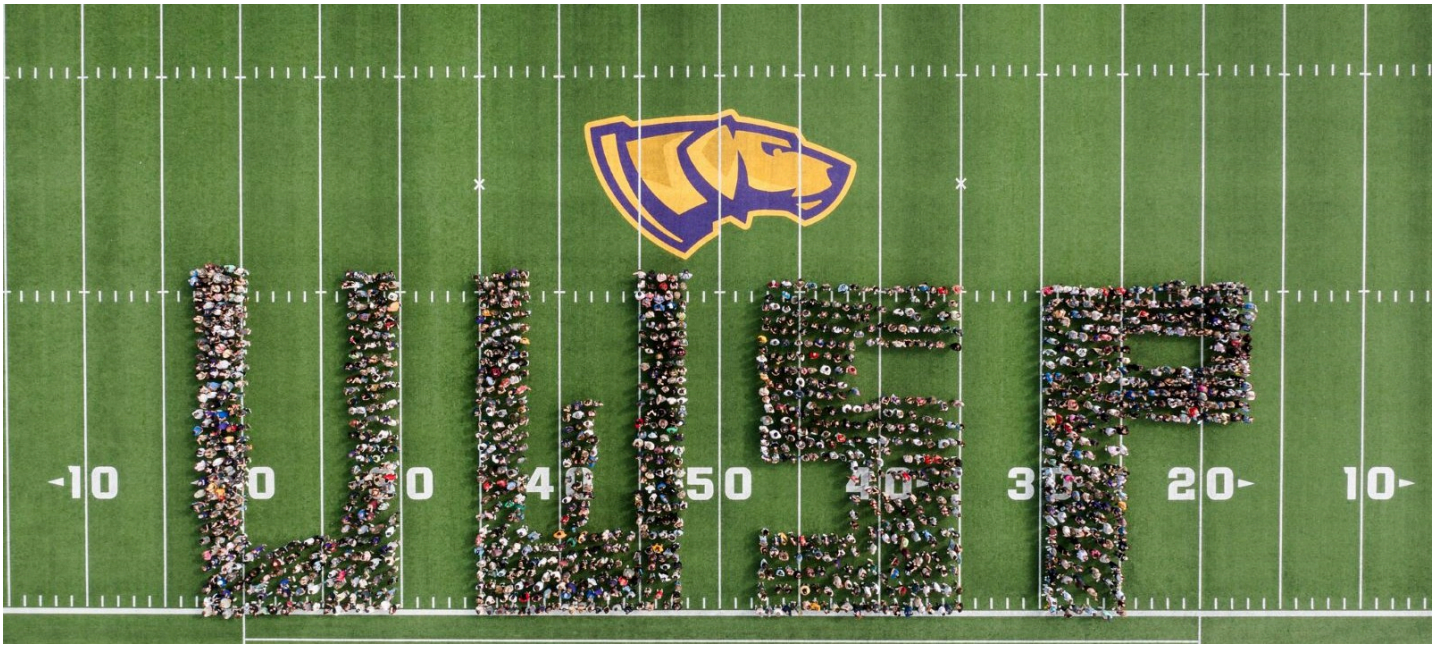
Academic and Career Advising Center

The Academic and Career Advising Center at UWSP is your go-to hub for academic and career advising. Whether you're a student or a recent alum, they offer invaluable support in choosing the right major, enrolling in the right classes, learning how to navigate your degree and understanding how it can pave the way for your future career.

Looking for internships? They've got you covered! Need to network with local employers? They can help with that too! Plus, they provide expert advice on building a standout resume and navigating your career or graduate school search.

Don't forget, all UWSP students have access to a fantastic career platform to explore internship and job opportunities. For personalized assistance, visit the Academic and Career Advising Center in Room 209 of the Collins Classroom Center, give them a call at 715-346-3226, or shoot them an email at acac@uwsp.edu. Your future starts here!

Athletics



Athletics

Brad Duckworth, Director of Athletics
Room 0127, Marshfield Clinic Health System Champions Halls (MCCH)
Phone: 715-346-2694
Email: bduckwor@uwsp.edu
Web: http://athletics.uwsp.edu

UW-Stevens Point offers twenty-six (26) varsity sports, all of which are affiliated with the National Collegiate Athletic Association (NCAA) Division III. Men's sports include football, cross country, wrestling, ice hockey, basketball, swimming and diving, indoor and outdoor track and field, golf, tennis, volleyball, soccer, and baseball. Women's sports include soccer, cross country, ice hockey, volleyball, basketball, swimming and diving, tennis, indoor and outdoor track and field, softball, wresting, lacrosse, and golf. All Pointer teams participate in the Wisconsin Intercollegiate Athletic Conference (WIAC). For more information call 715-346-4494 or visit the UW-Stevens Point official Athletics website.

This division falls under Student Affairs. Coaches and student-athletes strive to embrace a spirit of teamwork and togetherness to fulfill the motto of **26 sports, 750+ student-athletes, 1 POINT.**

Campus Policies

Safety and Health Policy

It is the policy of the University of Wisconsin System to provide and maintain adequate facilities for a safe and healthy learning environment. Faculty and staff will comply with state and federal safety laws and educate their students on practices and procedures that ensure safety for all members of the university.

Certain courses and research projects may require you to work with hazardous materials. Your instructor will inform and train you on procedures that will maintain your personal health and safety and provide you with information on the hazards of materials you may be using. Before using hazardous materials and equipment, you should review the procedures and information, and discuss any concerns with your instructor.

Smoking and Tobacco

As of August 25, 2014, the University of Wisconsin-Stevens Point will be a tobacco-free campus. For more information, please visit the tobacco-free section of our website, or call the Center for Prevention and Health Promotion at 715-346-2789.

Sustainability

UW-Stevens Point is committed to sustainability and its practice in our daily operations. Sustainability is the human enterprise of living to meet today's needs without compromising the needs of future generations, and to be ecologically sound, socially just, culturally affirming, politically doable, and economically viable. We demonstrate our commitment to sustainability through such measures as resource recovery (recycling), composting food wastes, energy reduction and continually exploring ideas to promote and support sustainability initiatives.

Career Services

Career Services

The Academic and Career Advising Center provides career service and support to our current students and alumni. Career Development Coordinators in the Academic and Career Advising Center provide guidance and resources to help students develop their professional credentials and build their professional resume.

They also help you find intern opportunities, career employment following graduation, and assist with identifying/applying to graduate or professional school. Information on their services and follow-up studies of recent graduates are available on their website. For assistance, stop by their office in Room 209, Collins Classroom Center (CCC) or call 715-346-3226, or e-mail acac@uwsp.edu.

Continuing Education and Outreach is the regional center of lifelong learning and professional development at the Stevens Point, Marshfield and Wausau campuses. The three locations offer programs and services for individuals and organizations in business and industry, education, government, and for individuals seeking personal enrichment in arts and leisure. As a regional outreach provider, Continuing Education and Outreach provides business counseling, certificate programs, conferences, conference and event planning services, customized trainings, educational travel, online degrees, summer camps, and an array of personal enrichment non-credit professional/talent development opportunities delivered both virtually and in-person. CE facilitates the following programs and services:

Conference Planning: Services include planning and administering professional development conferences or workshops from initial planning to final wrap-up.

Continuing Education Units: CEUs are offered through Continuing Education and Outreach for professional development programs.

Customized Training and Talent Development Programming: Customized trainings, workshops, and non-credit and graduate certificates designed to meet non-profit, government, and business and industry needs. Certificate programming offers in-depth training for leadership, management and inclusive excellence.

Community Programming: The offices in Stevens Point, Marshfield and Wausau offer general interest programming in the arts, theater, music and a myriad of personal interests. This programming is a touchpoint for the residents with the campuses and enhances the quality of life in the community.

Online Collaborative Degree and Certificate Programs: Fully online, semester-based programs at both the undergraduate and graduate level taught in partnership with various University of Wisconsin campuses through UW Extended Campus. They offer quality education for personal and professional development of returning adult and/or graduate students.

Learning for Older Adults: The Learning is Forever program (LIFE) is a membership-based program for adult learners, providing an opportunity to share experiences, promote intellectual and cultural enrichment, and encourage lifelong learning.

Small Business Development Center (SBDC): Provides no cost, confidential advising and resources as well as fee-based workshops/conferences to both startup and existing businesses throughout nine counties - Adams, Langlade, Lincoln, Marathon, Oneida, Portage, Vilas, Waupaca, and Wood.

Youth Camps: Opportunities for students in grades 5 - 12 to explore a variety of topics both virtually and in-person.

Travel: Includes *Adventure Tours* and *Multi-day Cultural Excursions*: Take a few days to experience and enjoy the food, people and places you will visit with us; Weekend Retreat: Step out of your everyday and escape with us for a weekend retreat to revitalize yourself; Daycation: Experience a day trip away from the ordinary. Trips leave from all three campuses.

UWSP - STEAM Point Days: STEAM is an approach to learning that uses science, technology, engineering, the arts, and mathematics through hands-on workshops and activities. These one-day conferences, presented by UW-Stevens Point faculty, staff and professionals in various fields, are designed for 7th and 8th grade experiential learners.

Dean of Students

The Office of the Dean of Students works with students, faculty, and staff to provide resources, assistance, and care. The Dean of Students staff works collaboratively with several departments to coordinate the care and case management process for students in need, as well as oversee the University's student conduct process to ensure student success and promote a thriving learning environment for all.

As a student at the University of Wisconsin-Stevens Point, the Dean of Students staff are here to support your overall success. We also expect that you make decisions in line with all university guidelines, rules, and policies. If your actions conflict with the welfare and integrity of UW-Stevens Point or disregard the rights of other members of the university community, including guests and visitors to the university, you may face student conduct disciplinary proceedings as outlined in UWSP Chapters 14, 17, and/or 18.

The conduct process is intended to be educational and provide an opportunity for growth, development, and reflection. You will find copies of the University of Wisconsin System disciplinary procedures at UW-Stevens Point's institutional policies under these procedures (Chapter UWSP 17) on the web. We urge you to read UWSP Chapters 14, 17, and 18, which is part of our contract with you, since it describes what constitutes violations of appropriate conduct as a student. If you have questions or concerns, know that we are here to help.

Degree Progress Report

A Degree Progress Report (DPR) is an advising tool that evaluates your progress toward meeting your graduation requirements at UW-Stevens Point. Access to this document is available to both students and academic advisers through accesSPoint. The DPR is for internal use and for information purposes only. It in no way substitutes for regular meetings and guidance from your academic adviser.

A **DPR** provides detailed information on how completed courses at UW-Stevens Point and/or other institutions are applied toward degree requirements at UW-Stevens Point and identifies any requirements that remain incomplete. The DPR also includes a major GPA, a UW-Stevens Point GPA, and an overall GPA comprising of both UW-Stevens Point and transfer course credits. For information on how repeated courses grades are calculated and reported, see the **Repeating Courses** policy.

Every attempt has been made to keep your degree and program requirements up to date. If you have questions or detect discrepancies on the report, please direct questions or concerns as follows:

- Major/Minor - if the question or concern is related to your major/minor, please consult with your adviser or the Chair of the Department of that major/minor.
- GEP - if the question or concern is related to the General Education Program requirements, please consult with your adviser or email the Office of the Registrar at registrar@uwsp.edu.

NOTE: The DPR is not a transcript. A **transcript** is an official, certified copy of your academic records that shows a complete history of all courses attempted at UW-Stevens Point, including grades received, academic standing, degrees earned, majors, minors, and certificates. A transcript reports courses in semester order and your semester and cumulative grade point averages (GPA's) are shown after each term. Unlike the DPR, courses repeated at another institution will not replace a grade on your UW-Stevens Point transcript or be used to recalculate the cumulative grade point average on your transcript. For more information on how repeated course grades are calculated and reported, see the **Repeating Courses** policy.

Disability Resource Center

Room 108, Collins Classroom Center
Phone: 715-346-3365
Email: drc@uwsp.edu
Web: https://www.uwsp.edu/disability-resource-center/

The Disability Resource Center (DRC primary mission is the facilitation of academic accommodations and the establishment of auxiliary services and supports to ensure equitable access in the classroom, laboratory, studio, and other instructional settings. The DRC is committed to an accessible and inclusive learning environment.

Eligible students receive support through formal academic accommodations, assistive technology resources, and referrals to other campus partners. Students are encouraged to contact the DRC in advance of their enrollment for information on application and documentation processes.

Office of International Education (OIE)

Office of International Education (OIE)

Brad Van Den Elzen, Director
Room 203, Dreyfus University Center
Phone: 715-346-2717
Email: oie@uwsp.edu
Web: http://www.uwsp.edu/oie

The Office of International Education (OIE) is home to International Student & Scholar Services (ISSS) and Study Abroad/National Student Exchange (SA/NSE). Our mission is to help lead the university's development of global awareness, promote international and intercultural understanding, and enrich the academic and co-curricular environment of UWSP by facilitating the exchange of people and ideas.

ISSS provides comprehensive and longitudinal support to UWSP's international students and exchange program participants. We assist our constituents to be productive and contributing members of the University of Wisconsin-Stevens Point community while encouraging campus and community utilization of the vast cultural resources embodied in the university's international student population. To these ends, we strive for excellence in providing international students and visiting scholars with immigration services as well as dedicated academic & co-curricular advising.

Study abroad can help you complete general education and major program requirements without lengthening your time to degree. Foreign language skills are not a prerequisite for participation in many programs, and you may apply federal and state financial aid to all Office of International Education programs.

UW-Stevens Point offers semester programs in Australia, Britain, France, Germany, Hungary, Ireland, New Zealand, Poland, and Spain. Pointers who participate in semester-abroad programs earn 12-18 credits. Summer and Winterim programs feature varying locations and themes around the world. UWSP's short-term programs abroad range from 2-5 credits depending on duration and content.

We encourage you to plan ahead and apply early. Your academic adviser can help you set up a long-term course schedule that will combine study abroad with efficient completion of degree requirements. Most student travelers consider their time spent abroad as the best experience of their college careers. For more information, visit OIE, email us, or check out our website.

Courses

National Student Exchange Program

- 1161361 - Missing course

Text Rental

Text Rental

The primary textbook usage at UW-Stevens Point is through Textbook Rental, a self-supporting service financed through student text rental fees. The Text Rental service is available to undergraduate students and is similar to a library system, where you check out most of your course books and return them at end of the semester. (*The rental fee is included in the undergraduate tuition.*) A UW-Stevens Point PointCard I.D. is required to check books out and in. (*UW-Stevens Point has been operating a "text rental" service since its beginning in 1894.*) Additional supplemental books and materials for courses are generally "purchase" items for students; i.e., study guides, workbooks, consumable items, etc.

Transcripts

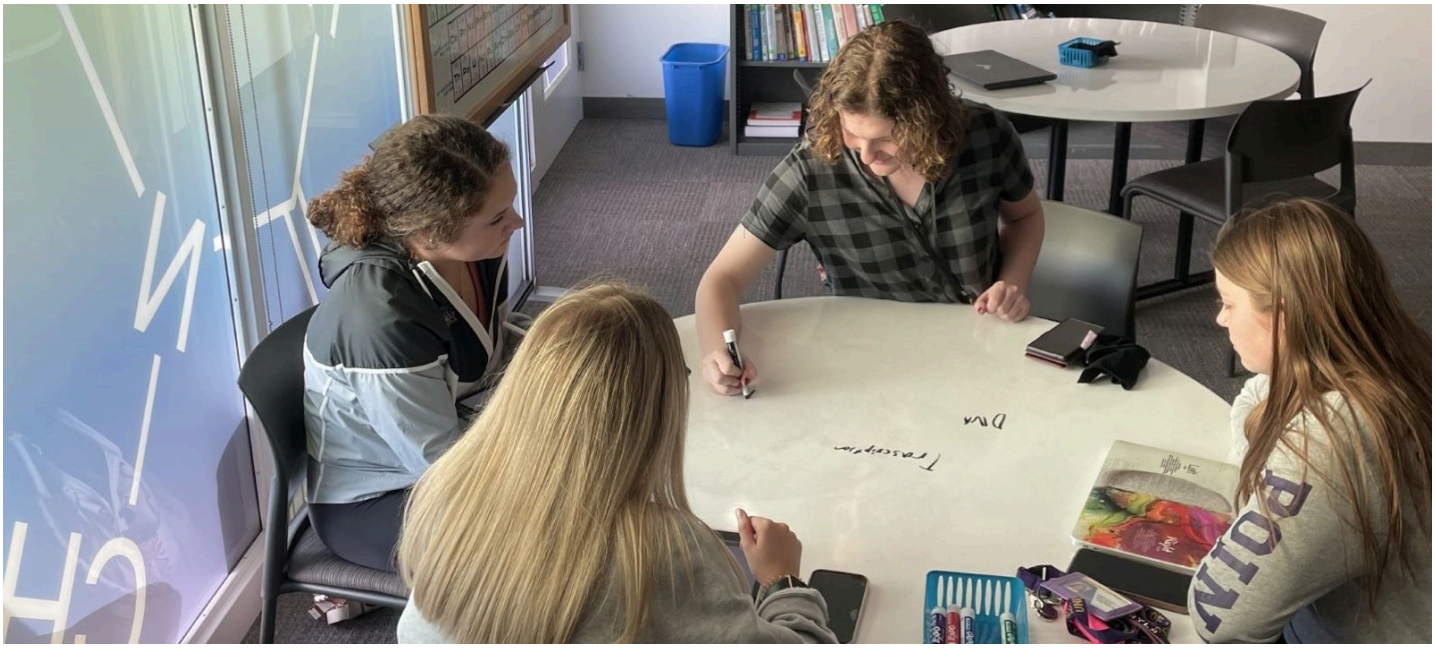
Transcripts

Your transcript is an official, certified copy of your academic record at UW-Stevens Point. It shows all the courses that you have attempted; all credits, grades, and degrees you have earned; and whether you have been placed on academic or non-academic suspension.

The transcript combines all of your UW–Stevens Point enrolled activity in one document. If you attended for an undergraduate and graduate degree, these are all included in your transcript and cannot be separated out by degree. Transcripts, like diplomas, are official legal documents verified by the University and signed by the University Registrar.

You may order copies of your transcript online through the Office of the Registrar.

Tutoring-Learning Center (TLC)



Tutoring-Learning Center (TLC)

Stevens Point Campus: Room 234, Collins Classroom Center (Main Office)
Wausau Campus: Library
Marshfield Campus: Library
Phone: 715-346-3568
Email: tlctutor@uwsp.edu
Web: https://www.uwsp.edu/tlc/Pages/default.aspx

The Tutoring-Learning Center (TLC) helps students in all disciplines become more effective, confident learners. We believe all learners benefit from sharing work with knowledgeable, attentive tutors. The TLC offers four tutoring services **at no additional cost to UWSP students:**

TLC Programs and Services

- **Academic Coaching:** Build skills in studying, time management, test-taking, online learning, and more.
- **Course Content:** Practice problems, deepen understanding, and prepare for exams in natural resources, STEM, World Languages, and more.
- **Reading/Writing:** Brainstorm and refine papers, essays, lab reports, citations, résumés, scholarship applications, personal writing, and more.
- **Tech Essentials:** Develop computer literacy and learn to use UWSP-related applications such as Canvas, Microsoft 365, and Zoom.

TLC Courses

The TLC also offers classes in a wide range of topics:

- **English 57:** Develop writing of any genre individually based on student needs and personal objectives through weekly meetings with a TLC tutor.
- **Post Secondary Learning (PSL):** Cultivate college success skills and habits including credit recovery, study skills, time management, and more.
- **Reading in the Disciplines:** One credit pass/fail aligned with history, psychology, philosophy and religious studies courses focused on discussion and deeper understanding of course material.

For more information about specific offerings each semester, visit our website.

Advisers

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
2019-2020	Spring 2019	Fall 2025	Academic Affairs Committee

Policy

Each degree-seeking UW-Stevens Point student has an academic adviser. Incoming students are assigned a professional academic adviser in the University College Academic and Career Advising Center who will help you make the transition to college and develop an academic plan that enables you to reach your educational and professional goals. Students are then transitioned to faculty advisers in their majors, typically after three semesters. The chair of your major department assigns you your faculty adviser. If you have more than one major you should have a faculty adviser for each program.

Your adviser will inform you of academic requirements, policies, and procedures; assist you in identifying and pursuing your educational and career goals; review and monitor your progress toward those goals; and make appropriate referrals to university programs and services.

Ultimately, however, it is your responsibility to meet all university requirements, rules, and regulations.

You must meet with your adviser each semester to discuss your course of study. Your adviser must also approve and electronically authorize your course choices for the upcoming semester so that you can register for classes.

Undecided/Undeclared/Dropped from Major/Exploring Options: If you have not yet declared a major, your professional adviser in the University College Academic and Career Advising Center will help you to explore your choices. If you have been transitioned to a faculty adviser and find yourself in one of the situations below, go to the Academic and Career Advising Center (ACAC), Room 209, Collins Classroom Center (CCC) to be assigned an adviser. ACAC advisers assist you in examining major alternatives if you

- are questioning your choice of major and need help in exploring your options (see Undecided/Undeclared section later in this catalog);
- have not yet gained entrance into or have been dropped from your major (e.g., audition, GPA requirement, portfolio review, etc.);

• are listed as "in transition" in accesSPoint.

Office of the Registrar
Room 101, Student Services Center (SSC)

Attendance

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
2015-2016	Spring 2015	Fall 2025	Academic Affairs Committee

Attend all your classes regularly. We do not have a *system* of permitted "cuts."

If you decide to drop the class, please do so using accesSPoint or visit the Office of the Registrar. Changes in class enrollment will impact your tuition and fees balance, financial aid award and veterans educational benefit.

During the first eight days of the regular 16 week term, your instructor will take attendance. If you are not in attendance, you may be dropped from the class. You are responsible for dropping any of your enrolled classes.

If you must be absent during the term, tell your instructor prior to the class you will miss. If you cannot reach your instructor(s) in an emergency, contact the Dean of Students office, 212 Main, Phone: 715-346-2611, Email: DOS@uwsp.edu.

If you are dropped from a class due to non-attendance, you may only be reinstated to the class section using the class add process. Reinstatement to the same section or course is not guaranteed.

Your instructors will explain their specific attendance policies to be followed at the beginning of each course.

If you take part in an off-campus trip by an authorized university group such as an athletic team, musical or dramatic organization, or a class, make appropriate arrangements in advance with the instructor of each class you will miss. If you are absent from classes because of emergencies, off-campus trips, illness, or the like, your instructors will give you a reasonable amount of help in making up the work you have missed.

If you enroll in a course and cannot begin attending until after classes have already started, you must first get permission from the department offering the course. Otherwise, you may be required to drop the course.

If you do not make satisfactory arrangements with your instructors regarding excessive absences, you may be dismissed. If you are dismissed from a class, you will receive an F in that course. If you are dismissed from the University, you will receive an F in all enrolled courses.

Absences due to Military Service

You will not be penalized for class absence due to unavoidable or legitimate required military obligations, or medical appointments at a VA facility, not to exceed two (2) weeks unless special permission is granted by the instructor. You are responsible for notifying faculty members of such circumstances as far in advance as possible and for providing documentation to the Office of the Dean of Students to verify the reason for the absence. The faculty member is responsible to provide reasonable accommodations or opportunities to make up exams or other course assignments that have an impact on the course grade. For absences due to being deployed for active duty, please refer to the Military Call-Up Instructions for Students.

Catalog Year Requirements

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
2019-2020	Spring 2019	Spring 2026	Academic Affairs Committee

While you typically complete general education requirements and the requirements for your major and minor currently in effect at the time of your initial enrollment, there are additional options available to you:

• complete the general education requirements currently in effect at the time of the initial enrollment but select a more recent set of requirements for the major or minor (which requires the approval of the chairperson of the major/minor department), or

• complete the requirements for the major or minor currently in effect at the time of initial enrollment but select a more recent set of general education requirements (which requires you to request this intention at the Office of the Registrar).

Office of the Registrar
Room 101, Student Services Center (SSC)

Classification by Credits Earned

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
2019-2020	Spring 2019	Spring 2026	Academic Affairs Committee

You may determine your classification (year in school) by totaling the number of credits you have earned toward your degree. Include your credits-by-exam as well as any credits you transferred from other institutions. Do not count credit earned in courses numbered 001-099.

Classification	Credits Earned
Freshman	0-29
Sophomore	30-59
Junior	60-89
Senior	90+

In this catalog "upper class students" refers to those who have earned 60 credits or more (juniors and seniors). Students pursuing an associate degree will be considered to be in "sophomore" classification once they earn 30 credits and until they graduate.

Office of the Registrar
Room 101, Student Services Center (SSC)
1108 Fremont Street
Phone: 715-346-4301

Web: **www.uwsp.edu/regrec/**

Course Information

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
Fall 2023	Spring 2023	Spring 2028	Academic Affairs Committee

Undergraduate Course Numbers

0-99	**Precollegiate.** These courses do not carry college-level credit and do not count toward the credit requirements for associate (60 credits) or baccalaureate (120 credits) degree programs.
100-199	**Freshman level.** These courses are open to all students without restriction, if no other prerequisite is listed.
200-299	**Sophomore level.** The basic prerequisite for these courses is "sophomore standing" which means that you have already earned 29 college credits. Also meet any other prerequisites that are listed.
300-399	**Junior level.** The basic prerequisite for these courses is "junior standing" which means you have already earned 59 college credits. Also meet any other prerequisites that are listed.
400-499	**Senior level.** The basic prerequisite for these courses is "senior standing" which means you have already earned 89 college credits. Also meet any other prerequisites that are listed.

Prerequisites

If you register for any class when you do not have the required class standing and/or haven't met the stated prerequisites, the department may, at its discretion in the first eight days of the semester, require you to drop that class. However, if you are permitted to continue, you must realize that you accept full responsibility for the grade you earn in that class.

Upper-level Coursework Rule

To receive a bachelor's degree, you must earn at least 32 credits in courses numbered 300-499.

Graduate Courses

Courses numbered 300/500-399/599 and 400/600-499/699 are offered at two levels. You may take them at the 300- or 400-level for undergraduate credit or at the 500- or 600-level for graduate credit. Realize that only graduate students may enroll for graduate credit. Courses numbered 700-999 are offered only at the graduate level.

Pass/Fail Courses

You can register for some or certain sections of courses on a "Pass/Fail" basis. For information on which courses are offered pass-fail, go to the Office of the Registrar homepage and then click on "Class Search." The link for Pass/Fail Grading is on the top of that page. See the section in the catalog titled Pass/Fail Grading for all the regulations pertaining to pass/fail grading.

Abbreviations

The following abbreviations may appear in the course descriptions.

so st	sophomore standing

Course Waivers and Substitutions

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
2025-2026	Spring 2025	Spring 2030	Academic Affairs Committee

The requirements for degrees, majors and certificates represent the faculty's judgment of the minimum standards for knowledge and skills that you must meet in that academic field. On occasion, a waiver or substitution for a requirement may be appropriate under particular conditions unique to a specific student.

If you believe that your situation may warrant a waiver or substitution, you should first contact your academic adviser. Ultimately, all waivers and/or substitutions of major or minor requirements must be approved by the chair/head of your major/minor department.

The Authorization to Adjust GEP Requirements eform is generated by a student's advisor and then submitted to the Associate Dean of University College for consideration.

In a doubtful case, the Associate Dean will contact the Dean, Chair, advisor, and/or instructor of the course before deciding to approve or deny the request. The completed eform will then be submitted to the Office of the Registrar and a copy sent to the chair or head of the department or equivalent unit of the student's major.

Waivers and/or substitutions may be granted only with adequate cause and if they are consistent with UW-Stevens Point GEP guidelines. A waiver of part or all of a requirement does not reduce the total credits required for graduation.

Credit Hour Calculation

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
Fall 2025	Spring 2025	Spring 2030	Academic Affairs Committee

The semester credit hour is used to determine a student's study load. One semester credit hour typically represents 50 minutes of classroom instruction, or the equivalent in other instructional formats, per week for the duration of a standard semester. Two to three hours of laboratory work are generally considered equivalent to one hour of classroom instruction. One credit is awarded for the successful completion (grade of D or better) of one semester credit hour of work.

Credits taken at the graduate level as an undergraduate

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
Fall 2022	Spring 2022	Spring 2027	Academic Affairs Committee

At the discretion of the department offering the course(s) or program, select undergraduate students may be permitted, while still an undergraduate, to enroll in courses at the graduate level.

For the purpose of undergraduate degree requirements, you may apply up to 15 credits of coursework taken at the graduate level toward undergraduate program, elective, and overall degree requirements. Specifically, up to 15 credits of graduate coursework can be applied toward the 120 total credits required for a baccalaureate degree, and up to 15 credits of graduate coursework may also be counted toward the 32 required credits at the 300/400 level.

Drop/Add/Withdrawal Procedures

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
2014-2015	Fall 2013	Spring 2025	Academic Affairs Committee

Registration

You may register at UW-Stevens Point or add additional courses online through the add/drop period of each session. For full-semester classes, the add/drop period is 8 days. Shorter sessions have shorter add/drop periods. After the eighth day of classes, authorization will be required to add or drop courses.

You are expected to complete the courses for which you register. If you decide you do not want to take a course, you MUST follow the procedures established by the university to OFFICIALLY DROP the course. If you never attend or stop attending a course and fail to officially drop, you will receive an F in the course at end of the semester.

You are expected to attend the first meeting of class or have permission from the instructor or chair of the department to be absent. Those who do not attend the first two days of class may be required to drop if there are others who wish to add the course. It is the student's responsibility to officially drop the course through accesSPoint or the Office of the Registrar.

Adds/Drops DURING first eight days of the semester.

You are permitted unlimited adds and drops during the first eight (8) days of the semester (for full-semester courses). Courses dropped during the first eight days will not appear on your transcript. If you decide to drop the class, please do so using accesSPoint or visit the Office of the Registrar, 101 SSC. Changes in class enrollment may impact your tuition and fees balance, financial aid award, and veterans educational benefits.

During the first eight days of the regular 16 week term, your instructor will take attendance. If you are not in attendance, you may be dropped from the class. You are responsible for dropping any of your enrolled classes.

Adds/Drops AFTER the eighth day of the semester.

You may not ADD a class after the eighth day except for extenuating circumstances and only when approved by the department chair, instructor, and your adviser.

You may DROP a course after the eighth day and through the tenth week of the semester, after obtaining written authorization from the instructor, your adviser, and in some cases, the department chair of the course(s). You will receive a W on your transcript for all courses OFFICIALLY dropped after the eighth day of the semester and through the tenth week of the semester. (Note: this timeline applies to courses that meet for the full fall or spring term; other sessions have shorter deadlines). If you stop attending a course without dropping it, you will receive an F in the course.

You may request an appeal to drop a course after the tenth week for extenuating circumstances, such as serious illness, personal duress, or factors beyond your control (documentation will be required). Appeal information can be found on the Office of the Registrar website (https://www.uwsp.edu/regrec/Pages/forms.aspx).

Forms and instructions for drops/adds are available in the Office of the Registrar. You can also find them online on the Office of the Registrar website (https://www.uwsp.edu/regrec/Pages/forms.aspx). Follow the procedures established and retain a copy of all of your drop/add transactions.

Drop and withdrawal deadlines for courses that meet less than the full term can be viewed on the Office of the Registrar website.

Students dropping all classes after the first day of classes should see the section on *Withdrawing from the University.*

Withdrawing from UW-Stevens Point.

Withdrawing from the University

• You should discuss the decision with your academic adviser or a college adviser.

• Complete the Cancellation/Withdrawal form and submit to the Office of the Registrar. The date the completed paperwork is received by the Office of the Registrar (or the next business day if received on a Saturday, Sunday, or holiday) will be your official withdrawal date. All grades earned and tuition/fee calculations will be based on this date.

• The Office of the Registrar will give you a Withdrawal Checklist which will assist you in making sure you complete any necessary steps associated with your withdrawal. You will also be given an Exit Survey which can be completed on paper in the office or emailed to you to be completed electronically.

If you withdraw during the first eight days of the semester, only the date of withdrawal will appear on your transcript. After the eighth day and through the tenth week, you will receive a W for each course. After the tenth week you may withdraw with a valid reason for withdrawal such as serious illness or personal issues that are clearly beyond your control. Requests to withdraw after the deadline must be directed to the Office of the Registrar. If you withdraw from the University after the tenth week with a valid reason, grades of W will be assigned to your courses. You will receive grades for courses completed prior to your withdrawal and you are responsible for any costs associated with those classes.

Students without a valid reason for dropping after the tenth week will receive a grade of F. If you stop attending school and do not officially withdraw, you will receive an F for those courses in which you are still registered and will be responsible for the related tuition and fees.

Repeated occurrences of W may affect your ability to maintain standards of academic progress and may jeopardize your financial aid eligibility. See Satisfactory Academic Progress for Financial Aid in the Finances section of the catalog to determine the effect of courses not successfully completed.

Withdrawal deadlines for courses that meet less than the full term can be viewed on the Office of the Registrar website.

Earning Multiple Degrees, Minors, and Certificates

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
Fall 2025	Spring 2025	Spring 2030	Academic Affairs Committee

Earning Multiple Degrees

Associate Degree Prior to a Bachelor's Degree

- Students may earn an associate degree before completing a bachelor's degree.
- An associate degree cannot be awarded in the same term as a bachelor's degree or after a bachelor's degree has been conferred.

Earning Multiple Baccalaureate Degrees Concurrently

- Students may earn more than one distinct baccalaureate degree type (e.g., Bachelor of Arts and Bachelor of Science) at the same time, provided all requirements for both degrees are completed.
- A separate diploma will be issued for each distinct degree type.
- Students who complete multiple majors with the same degree type (e.g., two majors within a Bachelor of Arts) will earn one degree and receive one diploma.

Returning for an Additional Baccalaureate Degree

- Students who have previously earned a baccalaureate degree may return as postbaccalaureate degree-seeking students to complete a second baccalaureate degree. They will be awarded a second degree and a new diploma, regardless of their initial baccalaureate degree type.
- Courses completed during the first degree may be applied toward the second degree as appropriate.

Transcription of Multiple Degrees

- When multiple degrees are earned concurrently or through re-enrollment, all degrees will be reflected in the degree earned section of the official transcript.

Earning Additional Minors or Certificates After Graduation

Students who have already earned an associate or bachelor's degree may return as postbaccalaureate non-degree seeking undergraduate students to pursue additional minors and/or certificates without completing another degree.

Eligibility and Requirements

- Students must meet the current academic standards and requirements for the desired minor or certificate.
- Courses completed during a prior degree may be applied to the new minor or certificate, as applicable
- Students may not earn a minor in the same discipline as a previously completed major. (i.e. a student may not earn a biology major and then return for a biology minor).

Completion and Transcript Updates

- It is the responsibility of the academic department to notify the Office of the Registrar that the non-degree seeking student has completed the requirements of a minor or certificate.
- The official transcript will be updated with transcript text during the next degree conferral period. The minor or certificate will be noted below the term in which it was completed.

Finals

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
2011-2013	Spring 2011	Spring 2026	Academic Affairs Committee

No final or last exam will be given during the final week of classes. All instructors must meet with their classes during the final examination period at the time and place scheduled.

There is no final exam period scheduled on campus for courses taught 100% distance learning, courses for which no campus visit is required at any time. Instructors of partial distance learning courses, courses of which 75% or more is delivered via distance learning and have at least one required campus visit, may at their own discretion determine if a final examination meeting on campus is warranted. An instructor may change the time or place of a final exam only with the approval of the appropriate dean.

If, due to illness or an emergency, an instructor is unable to give a scheduled examination, the instructor notifies the department chair and the dean and provides a make-up examination. If the university must declare an official emergency during the final examination period, the exams that are postponed will be rescheduled on the next available date, after the exam period has ended, as determined by the Chancellor or his/her designee. Rescheduled exams due to a university emergency will be held in the same rooms and at the same times as their originally scheduled date.

If you have three or more examinations on the same day, or if you have other problems with the examination schedule, you may request that your instructors change the schedule for you.

Graduation

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
Spring 2024	Fall 2023	Fall 2028	Academic Affairs Committee

If you are an undergraduate, apply for graduation at least one full semester prior to the term in which you will complete your degree. You can apply for graduation by selecting the "Graduation" tile from your accesSPoint homepage.

It is your responsibility to make sure your majors and minors are declared in the departments of each program prior to applying for graduation. For additional information on graduation, go to the Office of the Registrar.

To be eligible for the bachelor's degree, you must:

• Complete all the general requirements for your degree.

• Earn a cumulative grade point average of 2.00 in all courses attempted at UW-Stevens Point.

• Earn a minimum 2.00 GPA in all courses required for a major, except in those programs requiring a higher GPA, and complete all the requirements for the major. In some programs, you must also complete an approved minor.

• Earn a cumulative GPA of 2.00 overall (includes both UW-Stevens Point and transfer credits).

• Earn at least 120 credits, which include the general requirements for your degree and the requirements for at least one major. You may need to take some elective credits. Some majors require more than 120 credits.

• Earn at least 32 credits in courses numbered 300 or above.

• Residency Requirement: Earn at least 30 of your total required credits in courses from any UW-Stevens Point campus, either in-person or online. Credits earned through experience, advanced placement, or examination programs do not apply.

To be eligible for an associate degree, you must:

• Complete all the general requirements for your degree.

• Earn a cumulative grade point average of 2.00 in all courses attempted at UW-Stevens Point.

• Earn a cumulative GPA of 2.00 overall (includes both UW-Stevens Point and transfer credits).

• Earn at least 60 credits which include the general requirements for your degree. You may need to take some elective credits.

• Residency Requirement: Earn at least 15 of your total required credits in courses from any UW-Stevens Point campus, either in-person or online. Credits earned through experience, advanced placement, or examination programs do not apply.

If you are a graduate student, follow the instructions listed in the Admission section of this catalog.

Major or Minor Declaration

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
2019-2020	Spring 2019	Fall 2025	Academic Affairs Committee

The academic departments decide whom they will accept as majors and minors. As soon as you decide on a major and/or minor, you and your adviser will complete a form that will be sent to the department for approval. The department will determine your "status" as a major or minor and enter it into your computer record. Do this for each major and minor you intend to study.

If you have not yet decided on a major, work with an adviser in the Academic and Career Advising Center (ACAC), 209 Collins Classroom Center, to be assigned an adviser. ACAC advisers will assist you in the development of your educational plans, in the decision-making process for selecting a major, and in the clarification of the relationship between educational plans and career goals.

It is up to you to be sure that you complete all the requirements for your major and minor. Check regularly with an adviser in each department in which you have majors and minors to make sure you are meeting all of the requirements. You must have a cumulative grade point average of 2.00 in your major(s)/minor(s), including prescribed collateral courses, in order to be eligible for departmental approval to graduate with the major(s)/ minor(s), unless the department requires a higher grade point average. To see the current requirements for each major and minor, check the requirements on the Academic Programs page.

Your department may discontinue you as a major candidate before you complete two-thirds of the credits required for your major and before you begin your senior year. To do so, they notify you in writing. If you are in good standing as a major during your junior year but do not continue to meet your department's standards during your senior year, your department may discontinue you then as well.

Your department may also conditionally accept or retain you as a major candidate for your senior year. To do so, at the time they accept you, they notify you in writing of the specific conditions you must meet. If you fail to satisfy these written conditions during your senior year, they may notify you in writing to discontinue you as a candidate.

Dropped from Major

If you have been dropped from your major due to enrollment management policies or because you cannot reach or maintain the academic standards set by your desired major, you may either declare a different major or meet with the staff in the Academic and Career Advising Center, Room 209, Collins Classroom Center (CCC), 715-346-3226. ACAC staff can assist you in examining major alternatives, in developing of your educational plans, in the decision-making process for selecting a major, and in the clarification of the relationship between educational plans and career goals.

Military Student Priority Registration

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
2019-2020	Fall 2018	Fall 2026	Academic Affairs Committee

UW-Stevens Point provides service members, veterans, and ROTC students priority registration each semester in compliance with Wisconsin Act AB201 and Section 303 of the Harry W. Colmery Veterans Educational Assistance Act of 2017. Registration appointment times are based on student status or credits earned. Military students are given appointment times for the next level greater than their current status. For example, a freshman will receive appointment times based on sophomore status.

Records (Privacy and Access)

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
Spring 2022	Fall 2021	Fall 2026	Academic Affairs Committee

The Family Education Rights and Privacy Act of 1974 as amended entitles you to review "official records, files, and data directly related" to you which the university maintains. You may also request a hearing regarding any alleged "inaccurate, misleading, or inappropriate" information. In most circumstances, the university will not release information from your records to third parties without your consent or notice to you. An interpretation of the law is printed below. Copies are available at the Office of the Registrar, 101 SSC.

The Family Education Rights and Privacy Act of 1974, as amended, requires that you be advised of your rights concerning your education records and of certain categories of public information which the university has designated "directory information." This notice, in question and answer format, satisfies this requirement of the act.

As a student on the Stevens Point campus, what rights do I have regarding my university records?

You have the right to inspect and review all your records which meet the act's definition of "education records."

What is the definition of "education records?"

Education records are all the records maintained by the university about you. There are six exceptions:

- Personal notes of UW-Stevens Point staff and faculty.
- Employment records.
- Medical/counseling records used solely for treatment.
- Financial records of your parents.
- Confidential letters, statements or recommendations placed in your records prior to January 1, 1975.
- Confidential letters and statements or recommendations for admission, employment, or honorary recognition placed in your records after January 1, 1975, for which you have waived the right to inspect and review.

Is there any situation in which the university may insist that I waive my rights?

Under no condition may you be required to waive your rights under this act before receiving university service or benefits.

Where are my records kept?

Records are not maintained in a central location on the campus. Requests to review your records must be made separately to each office which maintains your records. Your request must be made in writing and presented to the appropriate office. That office will have up to 45 days to honor your request. For most students, these offices will include those of the registrar, your school or college dean, your major department, University Police and Security Services, and any other campus office with which you have been in contact, such as Student Financial Aid or Residential Living.

What if I do not agree with what is in my records?

You may challenge any information contained in your "education records" which you believe to be inaccurate, misleading, or inappropriate. This right does not extend to reviewing grades unless the grade assigned by your professor was inaccurately recorded in your records. You may also insert a statement in your record to explain any such material from your point of view. If you wish to challenge information in your file, you must make a written request for a hearing to the dean or director of the appropriate office. In most cases, the decision of the dean or director will be final. However, you may elect to file an appeal in writing to the Vice Chancellor for Student Affairs who will review the decision only if a significant question of policy or compliance with the law appears to be raised by the case.

May I determine which third parties can view my education records?

Under the act, your prior written consent must be obtained before information may be disclosed to third parties unless they are exempted from this provision. Exceptions include:

- Requests from the University of Wisconsin-Stevens Point faculty and staff with a legitimate educational "need to know."
- Requests in accordance with a lawful subpoena or court order.
- Requests from representatives of agencies or organizations from which you have received financial aid.
- Requests from officials of other educational institutions in which you intend to enroll.
- Requests from other persons specifically exempted from the prior consent requirement of the act (certain federal and state officials, organizations conducting studies on behalf of the university, accrediting organizations).
- Requests for "directory information" (please refer to the next question for an explanation).

What is meant by the term "directory information?"

The university, in accordance with the act, has designated the following categories of information about you as public unless you choose to exercise your right to have any or all of this information withheld. This information will be routinely released to any inquirer unless you request that all or part of this be withheld.

These categories are:

- Name.
- Home address.
- Home telephone number.
- Local address. (Keep your local address current in accesSPoint.)
- Local telephone number.
- Email address.

- Place of birth.
- Major/minor field of study, and college.
- Participation in officially recognized university activities and sports.
- Weight and height of members of athletics teams.
- Attendance (including beginning, ending, registration and withdrawal dates; credits carried in a term; current classification; and graduation dates).
- Degrees and awards received (type of degree and date granted).
- The most recent previous educational agency or institution attended.
- Name of parents or guardian.
- High school from which you graduated.

What kinds of inquiries does the university receive for "directory information?"

The university receives many inquiries for "directory information" from a variety of sources including friends, parents, relatives, prospective employers, graduate schools, honor societies, licensing agencies, government agencies, and news media.

What if I don't want "directory information" released?

Please consider very carefully the consequences of any decision by you to remove these items from the list of "directory information." Should you decide to inform the university not to release any or all of this "directory information," any future request for such information from non-university persons or organizations will be refused. For example, the university could not release your telephone number and address to a family member wishing to notify you of a serious illness or crisis in the family. A prospective employer requesting confirmation of your major field of study or address would also be denied access to such items, should you withdraw them from the list of "directory information." The university will honor your request to withhold any of the items listed above but cannot assume responsibility to contact you for subsequent permission to release them. Regardless of the effect upon you, the university assumes no liability of honoring your instructions that such information be withheld.

If you wish to file a form withdrawing some or all of the information in the "directory" classification, you should report to the Office of the Registrar, 101 SSC, and complete the necessary form.

Where can I find out more information about the provisions of the act?

If you have any questions regarding the provisions of the act, you may contact the Office of the Registrar, 101 SSC, 715-346-4301.

Whom should I contact if I wish to make a complaint?

If you believe that the university is not complying with the act, please direct your comment to the Associate Vice Chancellor for Teaching, Learning, and Strategic Planning, 715-346-4250.

Religious Beliefs Accommodation

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
Fall 2021	Spring 2021	Spring 2026	Academic Affairs Committee

It is UW System policy to reasonably accommodate your sincerely held religious beliefs with respect to all examinations and other academic requirements.

1. You will be permitted to make up an exam or other academic requirement at another time or by an alternative method, without any prejudicial effect, if:

a. There is a scheduling conflict between your sincerely held religious beliefs and taking the exam or meeting the academic requirements; and

b. You have notified your instructor within the first three weeks of the beginning of classes (first week of summer or interim courses) of the specific days or dates that you will request relief from an examination or academic requirement.

2. Your instructor will accept the sincerity of your religious beliefs at face value and keep your request confidential.

3. Your instructor will schedule a make-up exam or requirement before or after the regularly scheduled exam or requirement.

4. You may file any complaints regarding compliance with this policy with the Affirmative Action Officer in Human Resources.

Remedial Coursework

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
2009-2010	Spring 2009	Fall 2026	Academic Affairs Committee

If you are placed into a remedial course in mathematics, your academic adviser will encourage and help you restrict your coursework to a level that will allow you to succeed.

You must receive written permission from your adviser to enroll in more than 16 credits during any semester in which you are taking remedial courses. If you want to take more than 17 credits during a semester that includes remedial courses, you must get written permission from the dean of your college. Decisions about the number of credits you can take in one semester while doing remedial coursework are based on such things as your ACT score, high school class rank, overall high school record, university grade point average, and demands on your time from coursework, extracurricular activities and employment.

If you enter UW-Stevens Point and are placed into a remedial math course, you must complete it before you earn 30 credits toward graduation. If you fail to complete the remedial coursework before earning 30 credits, you will be restricted to a maximum of 12 credits a semester, including the remedial course, until the requirement is met.

Study Load

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
Spring 2024	Fall 2023	Fall 2028	Academic Affairs Committee

The typical study load is 14-16 credits per semester (including courses at other universities and through distance education). You may take 17 credits with the permission of your adviser. Study loads of 18, 19, or 20 credits must be approved BEFORE you register. For the appropriate authorizing official for your department/program, go to the Office of the Registrar homepage and click on "A-Z Policies." From there, click on "Study Load" under "S."

The dean of your college must approve study loads of 21 credits or more. We grant requests only for extraordinary reasons and only for students with outstanding academic records.

Note that you will be limited to 12 credits per semester if you do not complete required remedial courses before you earn 30 credits.

Check with the Office of the Registrar if you wish to appeal this restriction.

In order to qualify for either Social Security benefits or full Veterans Benefits (Public Law 550), you must carry at least 12 credits (semester hours) of courses.

Special Sessions

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
Spring 2022	Fall 2021	Fall 2026	Academic Affairs Committee

Interim Sessions

The university offers a number of short sessions at various times during the year. There is a January "winterim" between the fall and spring semesters, a three-week interim session after the spring semester, and sessions of one to eight weeks in length during the summer. You may complete no more than one credit per week. For further information on interim sessions contact the Office of the Registrar at 715-346-4301.

Summer Sessions

From mid-May to mid-August you may take part in undergraduate or graduate summer school courses lasting from one to eight weeks. Classes generally meet Monday through Thursday. You may also take part in any of several summer session camp programs. Ask your adviser if credits in one of these would apply toward your requirements. You can view the summer session class schedule using the online Timetable.

Winterim

Winterim is a short session that occurs during the three weeks preceding each spring semester. A variety of courses are offered to help you accelerate degree completion or catch up on a few credits.

Transfer Credits

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
Fall 2022	Spring 2022	Spring 2027	Academic Affairs Committee

You may use credits with grades of D or better that transferred from an accredited institution toward graduation. Transfer credits may satisfy general education requirements, prerequisites for other classes, and/or requirements in a major. Grades of D- and F will transfer as part of your academic record and will count towards your combined GPA, but do not fulfill requirements

Direct any questions about the transfer of your credits to the Office of Admissions and Recruitment, Welcome Center, 2108 Fourth Ave.

If you earn the last credits toward your degree at another college or university, have an official transcript of these credits sent to the Office of the Registrar, UW-Stevens Point, 1108 Fremont Street, Stevens Point WI 54481-3897, within 30 days after the date of the UW-Stevens Point graduation. If you fail to meet this deadline, your degree will not be awarded until the next graduation term.

Also see Transferring Credit to UW-Stevens Point.

Academic Forgiveness Policy

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
Fall 2024	Spring 2024	Spring 2029	Academic Affairs Committee

The Academic Forgiveness Policy permits students who have experienced prior academic difficulty at UW-Stevens Point (UWSP) to have a single opportunity to have all previous UWSP grades excluded from the calculation of the cumulative grade point average (GPA). The Academic Forgiveness Policy provides the opportunity for the calculation of a new grade point average for all subsequent coursework for students being readmitted to UWSP. Upon conferral of academic forgiveness, a student's previous suspension, probation, or academic warning status due to low cumulative GPA is removed. Applicants who intend to use or apply for financial aid should contact the Office of Financial Aid to identify how academic forgiveness may affect financial aid eligibility. Additionally, those wanting to use Military benefits should contact the Veteran certifying official in Financial Aid and Veteran Services.

Restrictions and Explanations

1. Students may only apply for Academic Forgiveness a single time during study at UWSP.

2. Eligibility: At the time of readmission, a student must have a UWSP cumulative GPA of 1.99 or below and have not attended UWSP for at least one year.

3. Students must apply for forgiveness within the first two semesters following readmission. The deadline to submit an application is the final day of classes of second semester following readmission. Academic Forgiveness applications must be approved by the University Registrar.

4. If forgiveness is granted:

a. All UWSP courses taken and the grades received will continue to appear on the student's record, but the student's UWSP cumulative GPA will be based solely on credits earned after readmission to UWSP.

b. All credit hours of a grade of "D" or better:

i. may be used to satisfy degree requirements

ii. will apply toward pre-requisites and general education requirements, but not necessarily toward the student's major or minor GPA.

c. A student's UWSP cumulative grade point average will be calculated from the courses taken after being readmitted, except in determining graduation honors. Graduation honors includes all the grades earned at UW-Stevens Point and other institutions regardless of academic forgiveness.

5. To graduate after electing academic forgiveness, students must earn a minimum of 30 additional in-residence credits for bachelor's degree-seeking students and a minimum of 15 additional in-residence credits for associate degree-seeking students, with at least an overall grade point average of 2.00.

6. All other UWSP policies remain in effect and are not changed by the granting of academic forgiveness.

7. This policy applies only to undergraduate students seeking their first bachelor's or associate degree.

8. This policy is effective starting fall semester, 2021-2022

Applicants who intend to use or apply for financial aid should contact the Office of Financial Aid to identify how academic forgiveness may affect financial aid eligibility. Additionally, those wanting to use Military benefits should contact the Veteran certifying official in Financial Aid and Veteran Services.

UW-Stevens Point's Academic Forgiveness policy is an institutional policy and may not necessarily be recognized by future universities evaluating transcripts.

Office of the Registrar

Academic Requirements

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
Spring 2024	Fall 2023	Spring 2029	Academic Affairs Committee

Your adviser and others at UW-Stevens Point are happy to help you plan your academic program. **However, you are responsible for following UW-Stevens Point's regulations and successfully completing all your academic requirements.**

In general, you are required to complete the general education ***academic requirements current at the time you first enroll***. However, you may choose to complete a more recent set of requirements by declaring your intent to the Office of the Registrar, 101 SSC. You may also choose to complete a more recent set of requirements in one or more of your majors and minors with the approval of the chair of the department. If you choose to meet the more recent set of major/minor requirements, you do not have to choose the more recent set of general education requirements.

Here are some special situations:

1. If an external agency changes the requirements, meet the new requirements. For example, if the Department of Public Instruction changes the requirements for teacher certification, fulfill the new requirements.

2. If you re-enter UW-Stevens Point after being gone for two or more semesters, meet the requirements when you re-enter. Note that if you enroll and then withdraw within the first two weeks of the semester, you are considered as not enrolled for that semester.

a. If you have earned more than two-thirds of the credits toward your general education requirements by the time you re-enter (not counting electives and courses toward your major/minor), you may ask to complete the requirements when you first registered. Your dean approves such a request.

b. If you have completed more than half of the credits to fulfill your major/minor requirements by the time you re-enter, you may ask to complete the major/minor requirements in effect when you first registered. The chair of your department approves such a request.

3. If you transfer from another UW System institution, this policy applies in the same manner as if you had originally enrolled at UW-Stevens Point.

Office of the Registrar

Academic Standing

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
Fall 2022	Spring 2022	Spring 2027	Academic Affairs Committee

Degree- and non-degree-seeking undergraduate students are required to meet the university's academic standards to be eligible to continue their studies.

The academic standard is a semester grade point average of 2.00 or higher and a cumulative UWSP grade point average of 2.00 or higher. Students who have met these standards are considered to be in **Good Standing**.

Students who do not meet these standards at the end of a semester will be allowed to continue their studies but will be placed on **Warning or Probation** depending on their semester GPA.

Students on Warning who do not meet these standards at the end of a subsequent semester will be placed on **Probation or Suspension** depending on their semester GPA. Students on Probation who are not making progress toward meeting academic standards will be placed on **Suspension** and may not continue their studies as a degree-seeking student until re-admitted after serving term of suspension or re-instated on appeal. Students may only continue their studies as a non-degree student in limited circumstances.

Requirements for each academic standing are as follows:

Standing at beginning of semester	Earns Semester GPA	Resulting in Cumulative GPA	Standing at end of semester
Good Standing or No Standing	2.00 or higher	2.00 or higher	Good Standing
		Lower than 2.00	Warning
	1.00-1.99	2.00 or higher	Warning
		Lower than 2.00	Warning
	Lower than 1.00	2.00 or higher	Probation
		Lower than 2.00	Probation
Warning	2.00 or higher	2.00 or higher	Good Standing
		Lower than 2.00	Warning
	1.00-1.99	2.00 or higher	Warning
		Lower than 2.00	Probation
	Lower than 1.00	2.00 or higher	Probation
		Lower than 2.00	Suspension
Probation	2.00 or higher	2.00 or higher	Good Standing
		Lower than 2.00	Probation
	1.00-1.99	2.00 or higher	Probation
		Lower than 2.00	Suspension
	Lower than 1.00	2.00 or higher	Probation
		Lower than 2.00	Suspension

**Returning students may see "Probation 1" in lieu of "Warning" and "Probation 2" in lieu of "Probation"*

GRADE POINT AVERAGES RELEVANT TO ACADEMIC STANDING

Only UW-Stevens Point grades factor into the determination of academic standing.

STANDINGS FOR NEW, RE-ENTRY, RE-ADMITTED FROM SUSPENSION, AND RE-INSTATED FROM SUSPENSION STUDENTS

New freshmen and transfer students are admitted with no standing.

Re-entry students whose standing at end of last term of attendance was Good, Warning, or Probation will be admitted to the same standing.

Students readmitted from suspension after serving a term of suspension are placed on Warning.

Students reinstated from suspension on appeal are placed on Probation.

EVALUATION AND RECORDING OF STANDINGS

Academic Standing is calculated each term on students who have attempted at least six credits.

Students' academic standings are evaluated at the end of the Fall, Spring, and Summer semesters, but not at the end of Winterim.

The only academic standing recorded on the student's official transcript is Suspension.

A student readmitted after a term of suspension will have their recording statement changed to "Suspension-Readmitted on Warning."

A student reinstated based on appeal will have their recording statement changed to "Suspension-Reinstated on Probation."

EXPECTATIONS OF STUDENTS

UW-Stevens Point provides students Warning and Probation standings to provide them opportunities to make changes in their academic practices so they can meet academic standards. Students who receive these standings are expected to engage in self-reflection and be proactive in seeking guidance from faculty, their academic advisors, and academic success staff.

SUSPENSION

The purpose of suspension is to give students sufficient time to develop a new plan for academic success. Students with the standing of Suspension may not continue their studies as non-degree-seeking or degree-seeking students for a specified period of time. The terms of suspension are as follows:

If Suspended at End of:	May Not Attend:	May Apply for Re-admission for:
Fall	Winterim, Spring, Summer	Fall
Spring	Summer, Fall, Winterim	Spring
Summer	Fall and Winterim	Spring

Once a standing of suspension has been finalized by the Registrar, students will be notified in writing of their standing and the policy and procedure to appeal. Students who do not appeal by the deadline and students whose appeals are denied will be administratively withdrawn from course registrations for all subsequent semesters except Summer or Winterim, see below.

Students who have served their term of suspension may apply for re-admission for the indicated term following standard procedures of the Office of Admissions for re-entry students. No appeal is required as part of the application process.

Suspended students may stay enrolled in Summer and Winterim classes as a special/non-degree-seeking student if they are registered for those classes at the time of Suspension. If a student's UWSP cumulative GPA is over a 2.00 after that upcoming semester, they will be automatically readmitted on Warning for the following term.

ACADEMIC STANDING CORRECTIONS AND APPEALS

Corrections

Students may apply to the Registrar for an immediate correction of academic standing of Warning, Probation, and Suspension based on approved grade changes. If no immediate correction is made, the grade changes will be factored into the next semester's evaluation of academic standings.

Appeals

Students may appeal only a standing of Suspension.

Suspension appeals are limited to those based on unforeseen circumstances that occurred during the Probationary period that prevented the student from earning a semester grade point average of 2.00 or higher. Unforeseen circumstances include but are not limited to serious injury or illness of the student or a family member, death of a family member, or similarly disrupting experiences.

Students make an appeal by submitting an appeal packet consisting of a signed appeal form, a personal statement, and documentation of the unforeseen circumstances. Appeal packets are received at the Registrar's Office and are reviewed by the University Academic Appeals Committee.

Students may appeal the decisions of the University Academic Appeals Committee to the Provost or their delegate. The decision of the Provost or their delegate is final.

Auditing

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
Spring 2024	Fall 2023	Fall 2028	Academic Affairs Committee

"Auditing" means you attend class regularly without having to take exams, do laboratory work, participate in class discussions, or do any other classwork except listen. You may audit as many courses as you wish, up to five credits beyond the normal maximum study load. (See **Study Load**.) You receive no academic credit for auditing a course, but you may take the course again for credit.

To audit a course:

1. Receive the instructor's permission, and be sure that there is enough space in the class.
2. Register for the course as you would for any course.
3. Between the first and eighth day of class, fill out an audit form, and have it signed by both the instructor and the department chair.
4. Attend classes regularly, just as you would a credit course. (See **Attendance**.)
5. Follow all university regulations, just as you would if you were attending a course for credit.
6. If you meet these conditions, your student record will show "audit" for the course.

Note that you may not change a course from "audit" to "credit" or change it from "credit" to "audit" after the eighth day of classes. After auditing a course, you may seek credit by examination for some courses if you are enrolled at UW-Stevens Point at the time of the examination and pay the examination fee.

Fees for audited courses are as follows:

• If you are a Wisconsin resident enrolled only for audit, you will be assessed 30 percent of the normal academic fees for a resident.

• If you are a nonresident enrolled only for audit, you will be assessed 50 percent of the normal academic fees for a nonresident.

• If you are enrolled for credit and audit, you will be assessed 100 percent of the normal academic fees for your residency.

• You will not be assessed segregated fees if you are only enrolled for audit, but you may only have access to those university facilities normally available to the general public such as the library and student union.

• You will be assessed any special fees, per credit distance education fees for online courses, and the cost of textbooks or materials for course instruction, if there are any.

• The general policy for refund of academic fees applies.

• Audited courses do NOT count toward credit load for financial aid purposes.

• Wisconsin residents at least 60 years of age may audit classes free of charge provided there is space available in the class and the instructor approves. Those who qualify may register on or after the first day of the term. Proof of age and residence will be requested. 60+ Audit Course Registration Form.

• Wisconsin residents receiving disability benefits under the Social Security (SSDI) or Supplemental Social Security (SSI) are not assessed fees.

Grade Change Deadlines

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
Spring 2024	Fall 2023	Spring 2029	Academic Affairs Committee

As a general policy, recorded grades may not be changed after the conclusion of the academic term immediately following the term in which the original grade was awarded.

June 1 is the deadline for grade change requests for grades awarded in the summer and fall terms of the previous calendar year.

December 31 is the deadline for grade change requests for grades awarded in Winterim and spring terms of the same calendar year.

Exceptions to this general policy include the following:

1. Cases where the grade "Graduate Progress" (GP) was originally awarded
2. Requests for extension of the grade "Incomplete"
3. Grade change requests resulting from the grade appeal process (*University Handbook, 5.9*)
4. Grade change requests vie E-forms that have been initiated by the instructor and approved by both the department chair and the dean.

Grade Review

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
Pre-2001-2003	Spring 2025	Spring 2030	Academic Affairs Committee

If an instructor does not give you, by the end of the second week of class, a written statement of how grades are determined, or if you feel that your instructor does not assign grades as described on that written statement, you may appeal the grade you receive in the course.

First talk with your instructor about your concerns. If, after doing so, you are not satisfied, write a statement of the problem and request that your grade be reviewed. Send this to the coordinator for grade review in the Provost/Vice Chancellor for Academic Affairs Office, Room 202 Old Main. You may submit this appeal up until the end of the fourth week of classes in the following semester.

After the coordinator receives your request, the following things take place:

1. You meet with the coordinator and discuss your grounds for appeal, the appeal process, and the options available to the Grade Review Subcommittee if the appeal is sustained.

2. The coordinator gives a copy of your appeal to your instructor and asks the instructor to respond to it in writing within 20 working days.

3. After 20 working days, the coordinator evaluates the allegations and determines if your appeal is valid.

4. Then, if the coordinator concludes that a grade change may be warranted, or if the instructor has failed to respond in writing, the coordinator gives the Grade Review Subcommittee of the Academic Affairs Committee all relevant information and directs the members of the committee to investigate your allegations and determine whether they are valid.

The subcommittee usually reaches a decision by the end of the semester in which you make the appeal. If, however, one of the parties is not on campus that semester, it may take longer.

If the subcommittee or the instructor determines that special academic expertise is needed, the subcommittee solicits an independent evaluation in writing from three impartial experts appointed by the chair of the instructor's department in consultation with the instructor and the subcommittee chair. The subcommittee accepts the evaluation and recommendations of the impartial experts on matters of academic content whenever it asks for them.

After investigating your grievance, the subcommittee will inform both you and your instructor of its decision in writing. If it finds that a change of grade is warranted, it will also recommend to your instructor the appropriate grade change. If your instructor refuses to make the recommended grade change within 10 school days after being notified, the subcommittee will do one or more of the following to protect your interests:

1. Attach to your permanent record and transcript a statement of the recommended change of grade and the reasons your instructor did not change the grade.

2. Exempt the challenged grade from being included in your grade point average, unless you want the grade to be included.

3. Authorize your graduation minus the credit hours represented by the challenged grade, if that grade was F.

Office of the Registrar
Room 101, Student Services Center (SSC)

Grades

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
2018-2019	Spring 2018	Fall 2025	Academic Affairs Committee

For every course you take, you receive a letter grade.

Grade	Points	Grade	Points
A	4.00	C	2.00
A-	3.67	C-	1.67
B+	3.33	D+	1.33
B	3.00	D	1.00
B-	2.67	F	0.00
C+	2.33		

To determine your **grade point average** (GPA):

1. Multiply the number of semester hours for each course you have taken times the point value of the grade you have received in each course.
2. Add the products for all your courses.
3. Divide this sum by the number of semester hours you have taken excluding P and I grades.

We use your GPA to determine whether you are eligible for honors; for admission to certain majors, colleges, and curricula; and for determining your eligibility for membership in those university organizations for which scholastic achievement is a criterion.

You may see and print your grades for each term by clicking on the *"Academic Record"* tile from your Homepage in accesSPoint. Then click *"Print Grade Report"* on the left and choose the appropriate term from the list to the right.

Besides the grades listed above, you may also receive the following designations on your grade reports, none of which carry a point value:

AU	Audit
CE	Credit by exam
DR	Dropped
EX	Experiential learning
I	Your work in a course is incomplete, and you have obtained your instructor's permission to complete the course (See **Incompletes** later in this section)
GP	Graduate progress
IP	Course in progress
MC	Credit for military experience
NC	No credit
NR	Grade not reported
P	You passed a pass/fail course and received credit for it. If you fail such a course, you receive an F and earn no credit. (See **Pass/Fail Grading** later in this section)
RC	Retroactive credit
S	You satisfactorily completed a noncredit course
TO	Exemption/test out
W	You withdrew from a course after the end of the eighth day of classes. If you drop a course before then, the course does not appear on your record.
WV	Waiver

If you voluntarily stop attending a class at any time without completing the prescribed change of program procedure, you are considered as still registered, and you receive an F in the course at the end of the semester.

Honors

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
2007-2009	Spring 2007	Fall 2025	Academic Affairs Committee

Graduation Honors

You may receive undergraduate graduation honors on the basis of your grade point average for all the courses you have attempted, including college level work you attempted elsewhere and any courses taken at UW-Stevens Point before the declaration of academic forgiveness. In the commencement ceremony you are recognized on the basis of the work which you complete before your final term. On your transcript, you are recognized on the basis of all the work you have done, including your final term.

Summa cum laude is awarded for a grade point average of 3.90 or above. *Magna cum laude* is awarded for a grade point average of 3.75 to 3.89. Cum laude is awarded for a grade point average of 3.50 to 3.74.

If you are eligible to wear an honors cord at the commencement ceremony, it will be issued to you when caps and gowns are distributed at the University Store. If you have earned summa cum laude honors, you will have the distinction of having your name announced at the commencement ceremony.

Semester Honors-Dean's List

UW-Stevens Point faculty have established semester honors as part of their program to recognize undergraduate students for outstanding academic achievement. To be eligible for semester honors, complete at least 12 semester hours of work with passing grades.

Semester highest honors are awarded for a grade point average of 3.90 or above; high honors are awarded for a grade point average of 3.75 to 3.89; and honors are awarded for a grade point average of 3.50 to 3.74. Semester honors are printed on your transcript.

You will receive an honors certificate and be placed on the dean's list in the Colleges of Fine Arts and Communication, Letters and Science, and Professional Studies when you earn a semester grade point average of above 3.75. The College of Natural Resources awards dean's list certificates to undergraduate students in their college who earn a grade point average of 3.5 or above.

In addition to these honors all undergraduate students who obtain a semester grade point average of 3.9 or above receive an honors certificate from the Vice Chancellor for Academic Affairs.

Department Honors Program

Some departments provide departmental honors programs which involve 9 credits of work or more. Contact individual departments for further information on their programs.

Incompletes

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
Spring 2024	Fall 2023	Fall 2028	Academic Affairs Committee

If you are unable to complete your work in a course due to extenuating circumstances or if you need to extend your research or performance beyond the normal limits of a term, you may ask the instructor for an "incomplete" in the course. An "incomplete" should be reserved for the completion of a definable amount of work (for example, one term paper or one exam) that occurs near the end of the semester. An "incomplete" is not to be used for making up in-class work; therefore, do not expect to sit in the class in a subsequent semester. If your request for an "incomplete" is approved, the instructor will inform you and the department chair of the work you need to complete and the due date.

You will have until the end of the next semester (excluding summer session) to complete the work unless your instructor gives you an earlier deadline. Failure to complete the work prior to the appropriate deadline will result in a grade of F. If, for reasons beyond your control, you are unable to make up the "incomplete" by the deadline, you may ask the instructor and department chair to extend this time limit one time. However, any further extension of time will require the approval of the dean of the college.

DO NOT register for a course in which you received an "incomplete." If you do, the incomplete will be changed to an F. Instead, arrange with your instructor to complete the work remaining in the course. When you have completed the work satisfactorily, your instructor will report the removal of the "incomplete" to the Office of the Registrar who will notify you that your record has been updated. If you do not receive notification after a reasonable waiting period, you should contact your instructor. Your final grade will not change any prior academic status.

Minimum Requirements for Good Academic Standing

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
Fall 2025	Spring 2025	Spring 2030	Academic Affairs Committee

A student is considered to be in good academic standing when both the semester and cumulative grade point average (GPA) are 2.00 (C) or higher. Maintaining a GPA at or above this threshold indicates that the student meets the minimum academic standards of the University of Wisconsin–Stevens Point and is not subject to academic warning or probation.

Office of the Registrar
Room 101, Student Services Center (SSC)
1108 Fremont Street
Phone: 715-346-4301
Email: **registrar@uwsp.edu**
Web: **www.uwsp.edu/regrec/**

Pass/Fail Grading

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
Spring 2024	Fall 2023	Spring 2027	Academic Affairs Committee

Through the pass/fail grading program, you gain the opportunity to secure a broader, more diverse academic experience than is usually possible under the traditional, many-stepped grading program. As a result, you may choose to take courses which are personally or intellectually attractive to you, without the concern about how your performance might negatively affect your grade point average. You may take courses of value outside your major in which your expected performance is not great enough to sustain a high letter grade. You may, in other words, experience learning for its own sake.

Please note, however, not all courses are available for the pass/fail grading option and departments must provide final approval for students to take a department's course under the pass/fail grading option. Additional restrictions and considerations apply to the pass/fail-grading option for courses. First, you may not take courses in your major that fulfill your major program requirements with a pass/fail grade option unless specifically directed and approved by your major department. Second, you should be aware that pass/fail graded courses may not fulfill the requirements for admission into many professional programs (e.g., nursing or athletic training) and you should discuss your plans with your adviser to be sure a pass/fail graded course will fulfill the requirements for your planned career path. Third, even pass-graded courses may not fulfill the prerequisites for other courses at the university.

Because of the complexities and potential consequences associated with changing a course grade basis to pass/fail, prior to requesting a change to pass/fail grade basis you are strongly encouraged to confer with your advisers to understand the implications (especially to professional program and major requirements) of a pass/fail grade option for a particular course. After discussing with your adviser, using the electronic request form in accesSPoint you may choose the pass/fail option for a course before the end of the eighth day of classes for a full-semester course in a term. Shorter sessions (e.g., 4-week, 8-week, etc.) have a pro-rated deadline that coincide with the end of the Add/Drop Schedule. Requests will be electronically routed for approval by adviser, instructor, and department offering the course. Appeals for late pass/fail grade option requests after the deadline will be evaluated by the Academic Appeals Committee only after all other approvals have been electronically granted and a specific appeal is submitted.

To earn a pass (P) in your pass/fail graded course, you must earn the letter grade equivalent of a C- or better. A P grade means you have passed the course and are granted credit for it. We do not include a grade of P in calculating your grade point average; however, we do apply the credit you earn toward your degree.

If you earn less than a C- grade, you have failed the course and a grade of F will be recorded as your official grade. We do include a grade of F in calculating your grade point average.

At the undergraduate level, you may select up to five pass/fail credits of coursework each semester.

If you are on probation, you may take a course on a pass/fail basis only if the course is offered as pass/fail only.

Repeating Courses

EFFECTIVE CATALOG	DATE OF LAST REVIEW	DATE OF NEXT REVIEW	APPROVED BY
Spring 2024	Fall 2023	Spring 2027	Academic Affairs Committee

1. **Repeating a course at UW-Stevens Point that was originally taken at UW-Stevens Point.**

If you are an undergraduate student completing the first repeat of a course in which you received a D+, D, or F, you may do so without approval. If you are a graduate student and need to repeat a graduate course, you must have the authorization of your Program Director.

A second repeat of a course in which you received a D+, D, or F requires authorization from your adviser and the department chair (or equivalent) in which the course is offered, BEFORE you register for the course. **Important Note: Repeating course work has an impact on financial aid - see policy below in Section D**.

Adviser and department chair (or equivalent) permission is required to repeat any class in which you received a C- or better. Repeats of a C- or higher are typically reserved for extenuating circumstances. Repeat permission must be obtained BEFORE you register for the course. Important Note: Repeating course work has an impact on financial aid - see policy below in **Section D.**

If you repeat a course at UW-Stevens Point, which you had initially completed at UW-Stevens Point:

• The credit(s) and grade you earn in your most recent attempt will replace the previously earned credit(s) and earned grade.

• **GPA Impact:** Your UWSP GPA (cumulative GPA), UWSP & Transfer GPA (overall GPA) and any major, minor or certification GPAs impacted by the repeat will be recalculated using only the grade earned in the most recent attempt.

• **Degree Progress Report (DPR):** All GPAs impacted (see above) by the repeat will be updated on the DPR. The original and repeat grades will both appear on the DPR, under the Course History section.

• **Transcript:** The UWSP cumulative GPA will only include the grade earned in the most recent attempt. The original and repeat grades will both appear on the transcript, under the term in which the attempts were taken.

Any required repeat approvals should be authorized prior to registering for the course. Failure to obtain required repeat approval prior to registering may result in being unenrolled from the course.

B. Repeating a course at another institution that was originally taken at UW-Stevens Point.

• UWSP courses in which you received grades of D or better, that you repeat at another institution, will not be accepted as transferable courses at UW-Stevens Point.

• UWSP courses in which you received a grade of F may be repeated at another institution and will be accepted as transferable courses. The credit(s) and grade you earn in your most recent attempt will replace the previously earned credit(s) and earned F grade.

• **GPA Impact:** The original F grade will be removed from the UWSP GPA (cumulative GPA), UWSP & Transfer GPA (overall GPA) and any major, minor or certification GPAs. The earned grade from the repeat will be included in the UWSP & Transfer GPA (overall GPA) and any major, minor or certification GPAs. The grade earned in the repeat attempt will not be included in the UWSP GPA (cumulative GPA) since the repeated course was not taken at UW-Stevens Point.

• **Degree Progress Report (DPR):** All GPAs impacted (see above) by the repeat will be updated on the DPR. The original and repeat grades will both appear on the DPR, under the Course History section.

• **Transcript:** Courses repeated at another institution will not appear on your UWSP transcript. The UWSP GPA (cumulative) will be recalculated to exclude the original F grade. The original course and grade will appear, under the term it was completed.

C. Repeating a course at UW-Stevens Point that was originally taken at another institution.

• Grades earned at another institution may be repeated at UW-Stevens Point provided you follow the same approval process as if the original grade was earned at UW-Stevens Point.

• **GPA Impact:** Your UWSP GPA (cumulative GPA), UWSP & Transfer GPA (overall GPA) and any major, minor or certification GPAs impacted by the repeat will be recalculated using only the grade earned in the most recent attempt.

• **Degree Progress Report (DPR):** All GPAs impacted (see above) by the repeat will be updated on the DPR. The original and repeat grades will both appear on the DPR, under the Course History section. The original attempt will be statistically removed from the total number of transfer credits earned.

• **Transcript:** The UWSP cumulative GPA will only include the grade earned in the most recent attempt. Only the repeat grade will appear on the transcript, under the term it was completed. The original attempt will be statistically removed from the total number of transfer credits earned.

D. Repeated Courses and Financial Aid.

In some cases, repeated courses will not be funded by federal financial aid. Department of Education regulations specify the types of repeated coursework that are allowed for financial aid. The U.S. Department of Education defines a D or above as a passing grade and will fund only one additional attempt for a repeated course above a grade of D. (See the chart below for specifics). If you withdraw from a course you are repeating, the W received will count toward the calculation of Satisfactory Academic Progress. For the purposes of calculating repeated coursework funding and Satisfactory Academic Progress for Financial Aid, all repeats of courses are considered, whether taken at UW-Stevens Point with a grade received or transferred credit from another institution applied toward the completion of a degree.

	1st Attempt	2nd Attempt	3rd Attempt
Grade Received on Attempt and with Aid Status	D	D or Better	No Financial Aid for Attempt
	D	F	No Financial Aid for Attempt
	F	D or Better	Last Attempt Financial Aid will Fund Regardless of grade received
	F	F	Financial Aid will fund attempt

Associate Degree General Education

For Associate Degree General Education Approved **Courses** - navigate to Courses and filter using the "**GEP/AD Designations**" options on the left.	• Knowledge of Human Cultures (HC) • Knowledge of the Natural World (NW) • Critical and Creative Thinking (CCT) • Effective Communication (EC) • Intercultural Knowledge and Competence (IK) • Individual, Social, and Environmental Responsibility (SER) • Depth Requirement • Quantitative Literacy (QL-AD) • Laboratory Science (LS) • Diversity in the US (DUS) • DEPTH COURSE COMBINATIONS HERE

Aaron Steffen, Associate Degree Coordinator
Wausau: Room 381
Email: asteffen@uwsp.edu

The Associate Degree General Education categories provide the basis for all Associate Degree options.

General Education Breadth Requirements

You must complete general education coursework in a variety of different disciplines based on breadth categories established by the UW System shared learning goals. You must complete coursework in six different breadth categories. Each course is limited to only one breadth category.

Knowledge of Human Cultures (HC) (AAS: 9-12 credits; AS: 9 credits)

Knowledge of Human Cultures (HC) courses focus on analysis of the human condition, culture, and society. This typically includes coursework that requires you to engage with and analyze human interaction and culture, social organization and institutions, historical contexts, and/or complex interdependent systems. The HC requirement typically includes coursework in social sciences, humanities, fine arts, and world languages. If you are in HC courses you can expect to:

• Describe and evaluate existing knowledge of human cultures

• Interpret and analyze data, texts, and/or artifacts; and/or

• Apply concepts across disciplines.

Knowledge of the Natural World (NW) (AAS: 9-12 credits; AS: 12 credits)

Knowledge of the Natural World (NW) courses focus on concepts and applications related to the natural and physical sciences and mathematics. The NW requirement typically includes coursework in the sciences and mathematics. If you are in NW courses you can expect to:

• Describe and evaluate existing knowledge of the natural world

• Interpret, analyze and communicate data, results, and conclusions; and/or

• Apply concepts across disciplines.

Critical and Creative Thinking (CCT) (AAS: 3 credits; AS: 6 credits)

Critical and Creative Thinking (CCT) courses extend your ability to analyze issues and produce responses that are both systematic and innovative. The CCT requirement can be fulfilled with qualifying coursework in any discipline. If you are in CCT classes you can expect to:

• Identify and investigate problems;

• Execute analytical or creative tasks; and/or

• Combine or synthesize existing ideas, images, or expertise in ways that result in a unique and identifiable product.

Effective Communication (EC) (AAS: 6 credits; AS: 6 credits)

Effective communication courses support and assess your development of proficiencies in reading, listening, speaking, information literacy, and/or writing proficiencies.

Satisfied by:

• ENGL 150 or ENGL 202 (3 credits) with a grade of C or higher.

• Three (3) additional credits of EC coursework.

Intercultural Knowledge and Competence (IK) (AAS: 3 credits; AS: 3 credits)

Intercultural Knowledge and Competence (IK) courses prepare you to live and work in diverse contexts. Courses with this degree designation focus on building cross-cultural communication, interaction, and empathy with people from diverse backgrounds and cultures. The IK requirement typically includes coursework in the social sciences, humanities, fine arts, world languages, and ethnic studies. If you are in IK courses you can expect to:

- Develop cultural self-awareness in the context of diverse human cultures; and/or
- Develop strategies for effectively and appropriately negotiating intercultural interactions

Individual, Social, and Environmental Responsibility (SER) (AAS: 6 credits; AS: 6 credits)

Individual, Social, and Environmental Responsibility (SER) courses provide the foundation for lifelong learning and the intellectual tools for engaging ethically as members of society. The SER requirement can be fulfilled with qualifying coursework in any discipline and often includes high impact teaching practices or other active learning strategies. If you are in SER courses you can expect to:

- Engage in active learning to explore ethical, social, and/or environmental issues; and/or
- Apply knowledge and skills for the purpose of civic engagement.

Depth Requirement (AAS: 2 courses of 3 or more credits each; AS: 2 courses of 3 or more credits each)

The UW System Associate Degree Standards require each student to complete "a two-course sequence in which the first course provides the foundation for the second." You fulfill this requirement by taking a disciplinary depth sequence identified by an academic department or program. One or both courses may be transferred in from another institution.

Sets of courses in a depth sequence must meet the following criteria:

- Both courses are at least three credits.
- Learning from one course lays a foundation for learning in the other course. However, the foundation course does not need to be a prerequisite for the second course.
- The depth requirement does not include skills courses that lay a foundation for academic literacy (developmental education, non-degree ESL, and ENGL 101) or lecture forum courses.

Quantitative Literacy (QL-AD) (AAS: 0-3 credits; AS: 0-3 credits)

You must fulfill at least one of these requirements:

- Complete at least three credits of quantitative literacy coursework (or an equivalent transfer coursework) with a grade of C or higher.
- Complete a mathematics course that has an QL-AD course as a prerequisite with a grade of C or higher, or
- Have a math placement of PC, TRIG, or CALC. See the Mathematical Sciences department page for more information on placement testing.

You may take more than one course to complete the required three credits. Quantitative literacy courses may fulfill breadth and depth degree requirements.

Quantitative literacy is knowledge of and confidence with basic mathematical/analytical concepts and operations required for problem-solving, decision-making, economic productivity and real-world applications. Such skills are essential for citizens living in today's global society. All Quantitative Literacy courses have a prerequisite of MATH 90 or higher.

Upon completing this requirement, you will be able to:

- Select, analyze, and interpret appropriate numerical data used in everyday life in numerical and graphical format.
- Identify and apply appropriate strategies of quantitative problem solving in theoretical and practical applications.
- Construct a conclusion using quantitative justification.

Laboratory Science (LS) (AAS: 1 course; AS: 1 course)

You must complete at least one laboratory science course. LS courses are typically natural or physical science courses that fulfill another general education breadth requirement. If you are in LS courses, you can expect to::

- Use scientific methods and tools for investigation, experimentation, and/or observation; and/or
- Analyze and interpret data, using scientific/quantitative methods to solve a problem or answer a question, and draw appropriate conclusions.

Diversity in the US (DUS) (AAS: 1 course; AS: 1 course)

You must complete one Diversity in the US course. Diversity in the US (DUS) courses are designed to consider the role of diversity in American life, where diversity is defined to include both individual differences (e.g. personality, learning styles, and life experiences) and other group and social differences (e.g. race, gender, ethnicity, country of origin, class, sexual identity/orientation, religion, ability, or other affiliations). Fulfilling this requirement will prepare you to act thoughtfully and responsibly within the U.S. and within a global society. In DUS courses, you can expect to:

- Describe how people or institutions in the United States have constructed diverse identities and cultures based on ability, ethnicity, gender, language, nationality, race, religion, sexuality, socio-economic status, etc. and/or
- Explain how individuals or groups in the United States have responded to the experience of discrimination and inequality; and/or
- Demonstrate understanding of and empathetic insight about diverse cultural perspectives in the United States.

Bachelor Degree General Education

For General Education Program (GEP) Approved **Courses** - navigate to Courses and filter using the "**GEP/AD Designations**" options on the left.	• Foundational Skills and Dispositions • Human Cultures and the Sciences • Social and Environmental Responsibility • Test-Out and Credit-by-Exam Policy

Shanny Luft, Associate Dean, General Education and Honors
Room 439 CCC
Phone: 715-346-4023
Email: sluft@uwsp.edu

Web: http://www.uwsp.edu/gep/Pages/default.aspx

The General Education Program (GEP) provides the framework of a liberal education, equipping you with the knowledge and skills to facilitate intellectual and personal growth, pursue your advanced studies, and improve the world in which you live.

For information on past General Degree Requirements, please refer to the 2019-20 Catalog.

Relationship Between GEP and Degree Types

The GEP applies to all Baccalaureate degree types. See the Bachelor's Degrees section of this Catalog.

GEP Learning Outcomes

The General Education Program seeks to develop these qualities of global citizenship in three distinct ways. After completing the general education curriculum, you will:

- Demonstrate critical thinking, quantitative, and communication skills necessary to succeed in a rapidly changing global society.
- Demonstrate broad knowledge of the physical, social, and cultural worlds as well as the methods by which this knowledge is produced.
- Recognize that responsible global citizenship involves personal accountability, social equity, and environmental sustainability.

Foundational Skills and Dispositions (10-13 credits)

Courses listed under this category are intended to provide you with the basic skills necessary for intellectual development and to succeed in your studies at UW-Stevens Point, including critical thinking, quantitative literacy, information literacy, written and oral communication, and wellness. All requirements in the Foundational Skills and Dispositions are intended to be completed before you reach 60 credits. You will complete 10-13 credits in this area, depending on your Written Communication placement. The subcategories are as follows:

Written Communication (3-6 credits depending on placement)

Introductory writing classes provide an essential foundation of communication skills on which you can build throughout the rest of your university careers and beyond. They develop your skills in analyzing audience, structuring written documents, and understanding and applying the conventions of effective writing. Subsequent writing courses build upon these skills by helping you learn to locate sources, critically analyze information, and synthesize your ideas with those of others to write well-supported academic arguments. They also provide an essential starting point for the more specialized writing you will be expected to do in the future within your field of study.

The Written Communication outcomes are typically satisfied by ENGL 101 - Academic Reading and Writing and ENGL 202 - Academic Writing and Research. Students with a high school GPA of 3.00 or higher and an ACT English sub score of 24 or above or that have a high school GPA of 3.50 or higher and an ACT English sub score of 23 will instead satisfy the Written Communication requirement by completing ENGL 150 - Accelerated Reading, Writing, and Research. ENGL 101 should be taken during your first year. ENGL 202 should be taken during your sophomore year and will have a prerequisite of ENGL 101.

Upon completing this requirement, you will be able to:

- Compose an articulate, thoughtful, grammatically correct, and logically organized piece of writing with properly documented and supported ideas, evidence, and information suitable to the topic, purpose, genre, and audience.
- Apply your understanding of elements that shape successful writing to critique and improve your own and others' writing through effective and useful feedback.

Critical Thinking (3 credits)

Critical Thinking is an essential part of a liberal education. Learning to think critically requires looking beyond the knowledge claims that characterize a subject to appreciate the justifications that are given for those knowledge claims. Critical Thinking courses taken early in a student's college career help students develop a skill set that they will use throughout their college career, and beyond.

Upon completing this requirement, you will be able to:

- Recognize critical thinking as a process of identifying, analyzing, evaluating, and constructing reasoning in deciding what conclusions to draw (argumentation) or actions to take (decision-making and problem-solving).
- Identify, analyze, evaluate, and construct reasoning as it is applied to general or discipline-specific questions or issues.
- Communicate the analysis, evaluation, or construction of reasoning orally, visually, or in writing.

Quantitative Literacy (0-3 credits depending on placement)

Quantitative literacy is knowledge of and confidence with basic mathematical/analytical concepts and operations required for problem-solving, decision-making, economic productivity and real-world applications. Such skills are essential for citizens living in today's global society.

All Quantitative Literacy courses have a prerequisite of MATH 90 or higher. If you have a math placement of PC, TRIG, or CALC, your placement satisfies the Quantitative Literacy requirement and no coursework is required. See the Mathematical Sciences department page for more information on placement testing.

Upon completing this requirement, you will be able to:

- Select, analyze, and interpret appropriate numerical data used in everyday life in numerical and graphical format.
- Identify and apply appropriate strategies of quantitative problem solving in theoretical and practical applications.
- Construct a conclusion using quantitative justification.

Wellness (1 credit)

Wellness is a dynamic process of becoming aware of and making conscious choices toward a more balanced and healthy lifestyle. It is multi-dimensional and holistic, encompassing lifestyle, mental and spiritual well being, and the environment. Wellness is an essential attribute of a well-rounded, liberally educated person and of strong societies. Understanding the dimensions of wellness and their impact on individuals, families, and societies is essential to being a responsible global citizen. Wellness is a one credit requirement but can be satisfied by a two or three credit course with the Wellness designation.

Upon completing this requirement, you will be able to:

- Assess your own wellness in each of the seven dimensions of wellness and explain how the dimensions and the interactions among them impact your overall personal health and well-being.
- Develop an individual plan for healthy living that demonstrates an understanding of the principles of wellness.

Human Cultures and the Sciences (24 credits)

Building on the skills and knowledge from the Foundational Skills and Dispositions, courses listed under this category are meant to encourage students to acquire broad knowledge of the world in which they live, as well as the various disciplinary methods by which this knowledge is produced. All courses at the Human Cultures and the Sciences Level should be designed to serve one of two student populations:

I. Survey courses designed to serve all students regardless of major; such courses do not presume academic or disciplinary preparation beyond the Foundational Skills and Dispositions Level.

II. Courses designed to serve students in specific majors; such courses presume more advanced background preparation appropriate to the discipline.

Students must complete 24 credits in Human Cultures and the Sciences, comprised of approved General Education courses in Arts, Humanities, Historical Perspectives, Social Science, and Natural Science. All students must take a minimum of three credits in each subcategory, and can count a maximum of nine credits from any one subcategory toward the 24-credit total. Ordinarily, courses in the Human Cultures and the Sciences Level will not have prerequisites beyond the Foundational Level.

Arts (3-9 credits)

The arts celebrate the human capacity to imagine, to create, and to transform ideas into expressive forms. The arts provide us with a rich record of human cultures and values throughout time. They enable us to understand and enjoy the experience of our senses and to sharpen our aesthetic sense. Courses in the arts examine the process of creativity and explore the artistic imagination or the relationship between artists, their works, and the societies in which their works are produced. The arts challenge us to understand creativity and the distinctive intellectual process of the human imagination.

Upon completing this requirement, you will be able to:

• Describe, analyze, or critique creative works or cultural artifacts that reflect the human desire for beauty, order, or meaning.

• Do at least ONE of the following:

o Identify and explain the relationship between particular traditions or genres of creative expression and their social, historical, or cultural contexts.

o Demonstrate an understanding of creative expression by producing or performing a creative work.

Humanities (3-9 credits)

The humanities courses explore the fundamental ideas and values shaping cultures and civilization, in life and as represented in the written word, using scholarly approaches that are primarily analytical, critical, or interpretive. By introducing you to concepts and beliefs within and outside your own perspectives, courses in the humanities help you to understand and critically engage a variety of worldviews and the ideas that give them meaning.

Upon completing this requirement, you will be able to:

• Read closely, think critically, and write effectively about texts or cultural artifacts that reflect on perennial questions concerning the human condition (such as the search for truth and meaning, the confrontation with suffering and mortality, or the struggle for justice, equality, and human dignity).

• Investigate and thoughtfully respond to a variety of ideas, beliefs, or values held by persons in situations other than one's own.

Historical Perspectives (3-9 credits)

An understanding of the past and the methods by which people seek to explain it are essential to finding meaning in the present. By exploring the evolution of human societies-their institutions, ideas, and values-you gain a framework for understanding yourself and the world; and you learn to make connections between history and the natural sciences, the social sciences, the arts, and the humanities.

Upon completing this requirement, you will be able to:

• Use primary sources as evidence to answer questions about historical change.

• Describe differences among interpretations of the past.

• Analyze institutional and cultural changes in one or more human societies over time.

Social Sciences (3-9 credits)

The social sciences provide you with an understanding of humans and their behavior as individuals and within communities, institutions, and social structures. Courses in this category equip you to contribute to public discourse and function as responsible citizens of your profession and community.

Upon completing this requirement, you will be able to:

• Explain or apply major concepts, methods, or theories used in the social sciences to investigate, analyze, or predict human behavior.

• Examine and explain how social, cultural, or political institutions influence individuals or groups.

Natural Sciences (3-9 credits)

As the progress of our society becomes more dependent on science and technology, our future becomes increasingly dependent upon a scientifically literate population. Individuals today must be sufficiently knowledgeable about scientific facts, science applications, and the process of scientific inquiry in order to make reasoned decisions concerning their use in addressing society's problems. Courses in this area must contain a laboratory component to help you develop an understanding of scientific inquiry.

Upon completing this requirement, you will be able to:

• Interpret information, solve problems, and make decisions by applying natural science concepts, methods, and quantitative techniques.

• Explain major concepts, methods, or theories used in the natural sciences to investigate the physical world.

• Describe the relevance of some aspect of the natural science to your life and society.

Social and Environmental Responsibility (9 credits)

Courses listed in this area are meant to foster greater awareness of cultural and environmental issues that currently shape today's world as a means of better preparing you for responsible citizenship. In some cases, courses offered in the Human Cultures and the Sciences category will simultaneously satisfy a requirement within this category.

Three credits are required in each area of the Social and Environmental Responsibility categories (Global Awareness, U.S. Diversity, and Environmental Responsibility) unless concurrently fulfilled by a Human Cultures and the Sciences course.

Global Awareness (3 credits)

Global Awareness courses examine the unique cultural, political, economic, intellectual, and/or religious components of societies, countries, regions, and peoples that are distinct from those found within the United States. By learning about these cultures, you can appreciate the key differences and similarities between diverse modes of human life and reach a better understanding of the human condition on a global scale. Moreover, this understanding will prepare you to act thoughtfully and responsibly in a global society.

Upon completing this requirement, you will be able to:

• Identify the key components found within one or more cultures that are distinct from those found in predominantly English-speaking cultures.

• Analyze key forces or processes that contribute to global interconnectedness, and their implications.

• Demonstrate curiosity and empathetic insight about diverse cultural perspectives.

U.S. Diversity (3 credits)

U.S. Diversity courses are designed to consider the role of diversity in American life, where diversity is defined to include both individual differences (e.g. personality, learning styles, and life experiences) and other group and social differences (e.g. race, gender, ethnicity, country of origin, class, sexual identity/orientation, religion, ability, or other affiliations). Satisfaction of this requirement will prepare you to act thoughtfully and responsibly as a U.S. citizen in a global society.

Upon completing this requirement, you will be able to:

• Describe how people or institutions in the United States have constructed diverse identities and cultures based on ability, ethnicity, gender, language, nationality, race, religion, sexuality, socio-economic status, etc.

• Explain how individuals or groups in the United States have responded to the experience of discrimination and inequality.

• Demonstrate understanding of and empathetic insight about diverse cultural perspectives in the United States.

Environmental Responsibility (3 credits)

Maintaining a sustainable natural environment is necessary to the long-term survival of all organisms, including humans. An understanding of the individual, social, cultural, and natural factors that influence and contribute to environmental sustainability and ecosystem function is, therefore, essential to responsible global citizenship.

Upon completing this requirement, you will be able to:

• Identify interactions between human society and the natural environment.

• Analyze the individual, social, cultural, and ecological factors that influence environmental sustainability.

• Evaluate competing claims that inform environmental debates.

Test-Out and Credit-by-Exam Policy

In addition to Quantitative Literacy (Department of Mathematical Sciences) and Written Communication (Department of English), individual departments may offer test-out and/or credit-by-exam for courses that fulfill GEP requirements. Each department that offers test-out and/or credit-by-exam for GEP courses has its own testing policy for those courses.

When you pass an approved test in a GEP category course, the requirements to enroll in the course is waived. You do not earn degree credit when you test out, but the test applies toward fulfillment of that GEP requirement and other program (major, minor, certificate, etc.) requirements.

Departments will devise their own exams. You must check with each department and follow its specific requirements for testing out and/or receiving credit-by-exam for GEP requirement courses. Academic departments may charge a fee per request to test-out or receive credit-by-exam for GEP courses. If you receive test-out or credit-by-exam approval for a course that meets multiple GEP requirements, passing the test will satisfy all GEP requirements that are designated for that course. This excludes Communication in the Major and Capstone Experience in the Major for students under the 2014-2020 GEP.

Undergraduate Degree Types Offered at UW-Stevens Point

UW-Stevens Point offers five distinct baccalaureate degrees and two associate's degrees.

Bachelor's Degree Types

The following baccalaureate degrees are available. Additional information about degree requirements can be found on the bachelor's degree types page of the catalog.

• Bachelor of Arts (BA)

• Bachelor of Science (BS)

• Bachelor of Fine Arts (BFA)

• Bachelor of Music (BM)

• Bachelor of Science in Nursing (BSN)

Associate Degrees Types

The following associate degrees are available. Additional information about degree requirements can be found on the associate degree types page of the catalog.

• Associate of Arts and Science (AAS)

• Associate of Science (AS)

Bachelor's Degrees available at UW-Stevens Point

UW-Stevens Point offers five distinct baccalaureate degrees. Each degree-type is generally defined below. Individual academic programs have the flexibility to determine which degrees are offered through their major and the specific requirements. Academic programs have the responsibility to do so within the framework of the general definitions below and in support of UW-Stevens Point's general education mission to equip you with the knowledge and skills to facilitate intellectual and personal growth, pursue your advanced studies, and improve the world in which you live.

The requirements below are common to all baccalaureate degrees at UW-Stevens Point:

• Complete the General Education Program (GEP) requirements

• Complete the requirements of a major

• Earn a minimum of 30 credits in residence at UW-Stevens Point

• Earn at least 32 credits at the 300 level or above

• Earn a minimum of 120 credits

• Earn a minimum 2.0 GPA in credits attempted at UW-Stevens Point

• Earn a minimum 2.0 GPA overall, including both UW-Stevens Point and transfer credits

Each academic program will build on the foundation provided by the General Education Program by developing its own mission, goals, and program learning outcomes. In doing so, programs will comply with the following degree requirements, which must be assessed within each major.

Bachelor of Arts (BA)

The BA is a liberal arts degree intended to develop skills and talents essential to succeeding in a global society. It combines study of the arts, humanities, historical perspectives, and the natural and social sciences with advanced critical inquiry and an in-depth knowledge in an academic discipline (major). The program develops cultural, social, and political literacy, including the abilities to communicate effectively and clearly in writing and in speech, and to understand on a basic level a world language other than one's own.* In so doing, it fosters the ability to understand and actively participate in discourses both within and beyond the field of your major (such as a minor or second major), and it promotes engagement with cultural, social, and political difference.

* A two-semester sequence of university entry level world language courses (101, 102) is required. The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, then you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this foreign language requirement.

Bachelor of Science (BS)

The BS is a liberal arts degree intended to develop skills and talents essential to professional work. It combines study of the arts, humanities, historical perspectives, and the natural and social sciences with advanced critical inquiry and an in-depth knowledge in a specific academic discipline (major). The program develops an understanding of empirical analysis, scientific methodology and protocols, and mathematics and quantitative techniques. In so doing, it equips you for continued engagement in professional research within your chosen field.

Bachelor of Fine Arts (BFA) and Bachelor of Music (BM)

The BFA and BM are professional degrees focusing intensive study and practice in the fine arts, performing arts, and design fields through a specific academic discipline (major). Essential artistic and intellectual development is achieved through building practical experience, repertoire, and mastery within the chosen discipline and through critical inquiry into cultural, historical, and technical aspects relevant to the defined profession. Standards for the BFA and BM are established by national accreditation agencies and implemented in the major at the department level.

Bachelor of Science in Nursing (BSN)

The BSN provides a baccalaureate degree option for nursing professionals who are currently licensed in the State of Wisconsin to explore a greater variety of professional roles and responsibilities. At UW-Stevens Point, this degree program is a degree completion program for registered nurses who possess an Associate or Diploma Degree from a nationally accredited nursing program. The BSN degree requires completion of General Education Program (GEP) requirements and additional coursework in nursing and related disciplines.

Associate Degrees available at UW-Stevens Point

UW-Stevens Point offers two associate's degrees. Each degree is generally defined below. The requirements for the associate's degree are the same for all students at UW-Stevens Point.

The requirements below are common to both associate degrees at UW-Stevens Point:

- Complete all the general requirements for your degree.
- Earn a cumulative grade point average of 2.00 in all courses attempted at UW-Stevens Point.
- Earn a cumulative GPA of 2.00 overall (includes both UW-Stevens Point and transfer credits).
- Earn at least 60 credits which include the general requirements for your degree. You may need to take some elective credits.
- Residency Requirement: Earn at least 15 of your total required credits in courses from any UW-Stevens Point campus, either in-person or online. Credits earned through experience, advanced placement

Associate of Arts and Science (AAS)

The AAS fulfills our institutional mission of providing access to higher education and a pathway to degree attainment for the residents of Wisconsin. The AAS is transferable to institutions across the UW System and provides you with a liberal arts general education and a breadth of intellectual and practical skills.

Associate of Science (AS)

The AS fulfills our institutional mission of providing access to higher education and a pathway to degree attainment for the residents of Wisconsin. The AS is transferable to institutions across the UW System and provides you with a liberal arts general education and a breadth of intellectual and practical skills.

You may earn an AS in Human Services, Leadership and Project Management, and Pre-engineering.

For more information about the AAS and AS requirements, please visit:

Academic and Career Advising Center
Room 209, Collins Classroom Center (CCC)
Phone: 715-346-3226
Email: acac@uwsp.edu

Certificate Programs

Certificate Programs

Certificate programs are groupings of courses that are usually interdisciplinary and are different from any specific UW-Stevens Point major or minor. Certificate programs are recognized by various professional organizations and industries. They are designed to enhance your career goals and/or eligibility for membership in some professional organizations. Contact your adviser, Continuing Education and Outreach, or the appropriate academic department for more details.

Transferred Credits

Transferred Credits

We use only the credits and grade points you earn at UW-Stevens Point in determining your cumulative grade point average. However, transfer credits and grades are included in the calculation of the grade point average in most majors and minors and in the determination of graduation honors.

You may use credits with grades of D or better that transferred from an accredited institution toward graduation. You may also use them to meet your requirements and prerequisites for specific courses, but not necessarily toward your major.

Because different institutions use different course numbering systems, we may not consider a course numbered 300 or above at another institution to be equivalent to a course we number 300 or above here. Direct any questions about the transfer of your credits to the Admissions Office, Room 102, Student Services Center.

If you earn the last credits toward your degree at another college or university, have a transcript of these credits sent to the Office of the Registrar, UW-Stevens Point, 1108 Fremont Street, Stevens Point WI 54481-3897, within 30 days after the date of the UW-Stevens Point graduation. If you fail to meet this deadline, your degree will not be awarded until the next graduation.

Graduate Study

GRADUATE STUDY HOME	GRADUATE POLICIES AND PROCESSES	ACADEMIC INFORMATION FOR GRADUATE STUDY

Graduate Studies

At UW-Stevens Point you may select among accredited programs leading to these graduate degrees:

- ABT-MS
- ALDM-MBA
- AT-MS
- CSD-MS
- CSD-T-MS
- COL-MS
- CNS-LD-MNR
- CYB-RESP
- DIG-FOR
- GOV-LEAD
- SEC-ARCH
- DATA-MS
- CSD-AUD (with UW-Madison)
- EDUC-MSE
- EDUC-EDD
- HWM-MS
- HCA-MS
- ITM-MS
- CLASSROOM
- STUDIO
- NRES-MS
- PT-DPT
- SW-MSW
- SUS-FD-MS

You may also take part in programs offered through UW-Stevens Point's cooperative arrangements with UW-Superior that lead to the:

Master of Science in Education-Educational Administration or **Specialist in Education-Educational Administration**

UW-Stevens Point College and School Hierarchy

COLLEGE OF FINE ARTS AND COMMUNICATION

School of Design and Communication

- Art and Art History
- Communication
- Graphic Design
- Interior Architecture
- Media Studies

School of Performing Arts

- Arts Management
- Dance
- Music
- Theatre

COLLEGE OF LETTERS OF SCIENCE

School of Behavioral and Social Sciences

- Geography and Geology
- Organizational Leadership
- Political Science
- Psychology
- Sociology and Social Work

School of Humanities and Global Studies

- English
- History and International Studies
- Philosophy and Religious Studies

Which Catalog Should I Choose?

Future Pointers: Use the catalog that corresponds with your first term of enrollment.

Current Students: Use the catalog that corresponds to your academic program term requirements, found on page one of the .pdf version of your Degree Progress Report. Generally:

o Degree and General Education Program (GEP) requirements are defined by the catalog of your first term of enrollment.

o Major, minor, and certificate requirements are defined by the catalog of the term you declared the program.

o Academic policies, unless otherwise noted in the catalog, are defined by the current term catalog.

o Students unsure of which catalog to use should consult with their academic adviser.

Art and Art History Department

This area is in the School of Design and Communication within the College of Fine Arts and Communication.

Cortney Chaffin, Area Coordinator **Office:** Room 192, Noel Fine Arts Center **Email:** cchaffin@uwsp.edu **Web:** https://www.uwsp.edu/schoolofdesign/Pages/major/Art.aspx
FACULTY AND ACADEMIC STAFF
J Ables-Playl, L Brennan, C Chaffin, A Gambrell, J Jo, S Kelly, A LaRocca.

The Art and Art History Area offers students a rich range of fine-art-focused experiences and technical, formal, and conceptual approaches to making and researching creative work. The programs are steeped in a formal studio background, with the ability to explore and combine a variety of media and investigative methodologies to examine and explore topics across 2D, 3D, and 4D (time based) studio practice. The Art & Art History Area encourages innovative and transdisciplinary thinking and making for students interested in alternative and innovative practices.

Accreditation: The Art & Art History Area is an accredited member of the National Association of Schools of Art and Design (NASAD). It is one of five such accredited programs in the UW System.

Enrollment Management Plan

The Art & Art History Area is a limited enrollment program. Students admitted to the university are accepted into the Art & Art History Area in order of application. We encourage you to apply as early as possible.

Professional Opportunities in Art & Art History

Programs of study in the Art & Art History Area prepare you for careers or graduate study in the visual arts, museums/galleries, private studio practice, education, arts administration, and many other possible art-related fields.

Recommended High School Preparation

In addition to the university requirements for admission and entry into any of the art and art history programs, high school courses in art and design are highly recommended. If you are planning to enter the professional Art BFA (Bachelor of Fine Arts) program, four years of English, one year of algebra, two years of foreign language, and two years of science in high school are recommended.

General Requirements for Art & Art History

Study in a variety of areas of knowledge is required of all undergraduates, and these requirements vary depending on the particular major. The Art & Art History Area offers the Bachelor of Arts and the Bachelor of Fine Arts degrees. Additionally, the Art & Art History Area offers an Art History Minor and Art Minor. See the previous section of this catalog entitled General Education

Courses for Non-Art Majors

Subject to availability, courses in the Art & Art History Area are open to all students who meet the prerequisites and secure School permission. You do not need prior consent for courses that are open to non-art majors.

Exhibition Material

The Art & Art History Area reserves the right to retain examples of student work for exhibition purposes.

Visiting Artist and Scholar Program, and Edna Carlsten Gallery

The Art & Art History Area also maintains an ongoing program of visiting artists and scholars to supplement the curriculum, and a cooperative schedule of operations and exhibitions with the Edna Carlsten Gallery, housed in the Noel Fine Arts Center. The gallery regularly displays traveling shows and exhibits for student and public viewing.

Course Fees for Art & Art History

Fees are charged for certain courses to cover the cost of models and consumable materials.

Transfer credits

Please refer to the university policy on transferred credits in the Transfer Credits section of this catalog.

Entry status

All entering art majors (freshmen, changes of major, and transfers) are accepted into the art program as BA majors. Acceptance into the BFA is achieved by passing the BFA Portfolio Review.

Test-Out and Credit-by-Exam Policy for Art & Design

The Art & Art History Area has test-out and credit-by-exam procedures for all General Education Program Requirement art courses. If you wish to test out and receive credit-by-exam, you must first confer with the faculty member who teaches the course about requirements for the exam and grading procedures. If you pass the exam, the GEP requirement will be waived, you will receive credit for the course, and the course may count toward an art major and/or minor if appropriate.

The cumulative exam will consist of a specific exercise or series of exercises different from those used in the existing course. In a course with a significant research component, you may be required to do an appropriate project. You may take a test-out/credit-by-exam test only once.

Academic Appeal

You may appeal any action taken by the School of Design & Communication that is based on School requirements and policies that are set forth in this catalog. You must appeal in writing to the assistant dean within 30 days of notification of the action taken. The assistant dean will determine whether a review is appropriate.

Accommodations for Students with Disabilities

The School of Design & Communication works cooperatively with the Disability Resource Center to ensure that qualified students with disabilities are provided equal access and accommodations appropriate to their disability in their academic programs and pursuits.

Students with an art and art history major who have a documented disability may qualify for services through the UW-Stevens Point Disability Resource Center. Depending on the student's individual needs as related to their disability, they may utilize accommodations that could include, but not limited to, classroom, testing, reading and writing accommodations as appropriate. Inquiry or referral for accommodation services should be directed to the Coordinator of the Disability Resource Center.

Biology Department

This area is in the School of Biology, Chemistry, and Biochemistry within the College of Letters and Science.

Brian Barringer, Chair
Office: Room 302, Chemistry Biology Building (CBB)
Phone: 715-346-2159
Email: biology@uwsp.edu
Web: www.uwsp.edu/biology

FACULTY AND ACADEMIC STAFF

S Alger, B Barringer, K Bodensteiner, J Bray, L Dresang, D Graf, C Hartleb, J Hubbard, T Huspeni, V Ianaiev, A Impullitti, R Jadin, R Koch, S LaVake, L Lee, J Liu, S Lyon, M Mergendahl, S Orlofske, K Prahl, M Rogge, J Sipiorski, K Slemmons, M Steury, Q Sun, P Whitaker.

Biology is the scientific study of life. From simple, single-celled bacteria to complex, multicellular plants, animals, and fungi, biologists study how life works. Genetics, anatomy, physiology, development, ecology, evolution, and behavior of organisms fall within the work of the biologist as does the study of populations and communities of organisms.

Notes for Biology

The biology major offers a Bachelor of Science degree from the College of Letters and Science. However, if you are accepted in the Education program, you may graduate from either the College of Letters and Science or from the College Professional Studies. If you have a double major, such as biology and natural resources, you may graduate from the College of Letters and Science or the College of Natural Resources.

Courses in biology are open to all students who meet the prerequisites.

Teacher Certification

Please contact the department early for entrance requirements and application procedures. Also see information about the Professional Education Program in the section of this catalog, and information about Secondary Education for teacher certification in the Secondary/K-12 Education Curriculum for Teacher Certification section of this catalog.

Advanced Placement (AP) Exams: If you wish, you may use a score of 5 on the biology AP exam as a substitute for either BIOL 110 or BIOL 130 or BIOL 160. Biology majors starting at the Stevens Point campus are recommended to substitute BIOL 110. See the chair or advising coordinator to exercise this option. You may use a score of 3 or 4 on the AP exam as a substitute for BIOL 101.

NOTE: The tab above labeled 'Programs' include Pre-Professional programs. Further guidance can be found within the Human and Animal Health emphasis. See academic standards pertaining to the GPA requirement for this emphasis.

Summer Field Program

Marine Biology

NOTE: The University of Southern Mississippi's Gulf Coast Research in Ocean Springs, Mississippi is an affiliate of the University of Wisconsin-Stevens Point. You may transfer the credits to UW-Stevens Point. Contact the School of Biology, Chemistry, and Biochemistry office for more information, or visit the GCRL website.

The Sentry School of Business and Economics offers an MBA in Applied Leadership and Decision-Making. The 36 credit program can be completed on a full-time basis in one year, and in two years on a part-time schedule.

Programs

Applied Leadership and Decision-Making (MBA) - Accredited by AACSB
Applied Management Certificate
Applied Management Graduate Certificate
Business Administration Major (BS) - Accredited by AACSB
Credit Analysis Certificate
Community and Economic Impact Graduate Certificate
International Business Certificate
Business Administration Minor
Professional Selling Certificate
Real Estate Certificate
Wellness Leadership Graduate Certificate
Applied Finance Emphasis (AAS)
Finance Major (BS) - Accredited by AACSB
Leadership and Project Management Emphasis (AS)
Management Major (BS) - Accredited by AACSB
Marketing Major (BS) - Accredited by AACSB

Courses

BUS 100 - Introduction to Business - 1 Credits
BUS 110 - Personal Financial Literacy - 3 Credits
BUS 201 - Writing and Presenting for Business - 3 Credits
BUS 221 - The Entrepreneurial Path - 3 Credits
BUS 275 - AI and Technology in Business - 1 Credits
BUS 293 - Internship in China - 3 Credits
BUS 299 - Special Work - 1 - 15 Credits
BUS 301 - Building Relationships for Business - 3 Credits
BUS 304 - Developing Skills to Lead and Manage - 3 Credits
BUS 305 - Strategic Career-Planning Seminar - 1 Credits
BUS 320 - Principles of Management - 3 Credits
BUS 321 - Entrepreneurship - 3 Credits
BUS 322 - Business Leadership for Managers - 3 Credits
BUS 323 - Organizational Strategy - 3 Credits
BUS 324 - Human Resource Management - 3 Credits
BUS 325 - Organizational Behavior - 3 Credits
BUS 326 - Organizational Theory - 3 Credits
BUS 327 - Managing Global Organizations - 3 Credits
BUS 328 - Training and Development - 3 Credits
BUS 329 - Project Management - 3 Credits
BUS 330 - Principles of Marketing - 3 Credits
BUS 331 - Marketing Research - 3 Credits
BUS 332 - Marketing Platforms and Systems - 3 Credits
BUS 333 - Digital Marketing - 3 Credits
BUS 334 - Sports Marketing - 3 Credits
BUS 335 - Retailing - 3 Credits
BUS 336 - Professional Selling - 3 Credits
BUS 337 - Buyer Behavior - 3 Credits
BUS 338 - Brand and Product Management - 3 Credits
BUS 339 - International Marketing - 3 Credits
BUS 340 - Business Law and Ethics - 3 Credits
BUS 341 - Legal Concepts in Branding, Marketing, and the Creative Economy - 3 Credits
BUS 342 - International Business Law - 3 Credits
BUS 343 - Principles of Insurance - 3 Credits
BUS 344 - Insurance Operations - 3 Credits
BUS 350 - Principles of Finance - 3 Credits
BUS 351 - Real Estate Principles - 3 Credits
BUS 352 - Financial Management - 3 Credits
BUS 353 - Investments - 3 Credits
BUS 354 - Financial Planning - 3 Credits
BUS 355 - Real Estate Investments - 3 Credits
BUS 356 - Corporate Risk Management - 3 Credits
BUS 357 - International Corporate Finance - 3 Credits
BUS 358 - Managing Budgets - 3 Credits
BUS 360 - Principles of Production-Operations Management - 3 Credits
BUS 365 - Applying Lean Six Sigma - 3 Credits
BUS 370 - Management Information Systems - 3 Credits
BUS 375 - Advanced Spreadsheet Applications - 3 Credits
BUS 380 - Principles of Business Analytics - 3 Credits
BUS 390 - Ethics in Business - 3 Credits
BUS 421 - Entrepreneurship in Action - 3 Credits
BUS 435 - New Product Marketing - 3 Credits
BUS 436 - Advanced Sales Management - 3 Credits
BUS 438 - Marketing Strategy - 3 Credits
BUS 455 - Applied Corporate Finance - 3 Credits
BUS 480 - Management Capstone - 3 Credits
BUS 490 - Special Topics in Business Administration - 1 - 15 Credits
BUS 493 - Internship in China - 3 Credits
BUS 496 - Internship in Business Administration - 1 - 2 Credits
BUS 497 - Internship in Business Administration - 3 - 15 Credits
BUS 498 - International Internship in Business Administration - 1 - 12 Credits
BUS 499 - Special Work - 1 - 15 Credits
BUS 504 - Developing Skills to Lead and Manage - 3 Credits
BUS 558 - Managing Budgets - 3 Credits
BUS 565 - Applying Lean Six Sigma - 3 Credits
BUS 575 - Advanced Spreadsheet Applications - 3 Credits
BUS 699 - Special Work - 1 - 15 Credits
BUS 701 - Professional Leadership Development: Group and Individual Assessment - 1 Credits
BUS 702 - Professional Leadership Development: Coaching and Influencing Stakeholders - 1 Credits
BUS 703 - Professional Leadership Development: Leading Across Boundaries and Values - 1 Credits
BUS 710 - Financial Leadership Through Applied Decision-Making - 3 Credits
BUS 720 - Marketing Leadership through Applied Decision-Making - 3 Credits
BUS 730 - Managerial Leadership through Applied Decision-Making - 3 Credits
BUS 731 - Creative, Critical and Design Thinking - 3 Credits
BUS 732 - NeuroLeadership: Mastering Resilience and High Performance - 3 Credits
BUS 733 - Project Management - 3 Credits
BUS 734 - Organizational Wellness - 3 Credits
BUS 740 - Effective Communication in Business Leadership - 3 Credits
BUS 750 - Applied Data Analytics in Business Leadership - 3 Credits
BUS 751 - Data Visualization for Decision Making - 3 Credits
BUS 752 - Data Mining Methods for Business Leaders - 3 Credits
BUS 760 - Analysis of Macroeconomic Conditions for Business Leadership - 3 Credits
BUS 770 - Analysis of Economic Development - 3 Credits
BUS 780 - Community and Economic Impact Leadership Seminar - 3 Credits
BUS 790 - Special Topics in Business Administration - 1 - 6 Credits
BUS 795 - Graduate Internship in Business Administration - 1 - 9 Credits
BUS 796 - Graduate Research in Business Administration - 1 - 9 Credits

Chemistry and Biochemistry Department

This area is in the School of Biology, Chemistry, and Biochemistry within the College of Letters and Science.

Dave Snyder, Chair **Office:** Room 445, Chemistry Biology Building (CBB) **Phone**: 715-346-4253 **Email**: chemistry@uwsp.edu OR dasnyder@uwsp.edu **Web**: www.uwsp.edu/chemistry
FACULTY AND ACADEMIC STAFF
R Adams, N Bowling, J Christenson, L Cole, D Haagenson, A Jonsson, J Lawrence, K McGarry, J Mondloch, S Riha, D Snyder, E Speetzen, K Stindt, D Szpunar, R Tanke, P Workman

Chemistry

Chemistry is an experimental science that involves the study of matter, the chemical and physical changes that matter undergoes, and the energy changes that accompany these phenomena.

Notes for Chemistry:

1. You may choose only ONE chemistry major.
2. Several of the chemistry courses listed below are designed as service courses or for non-chemistry majors. They do not count toward the chemistry major. In the case of such courses numbered 300 and over, the course description includes this restriction.
3. You can replace a grade of F in a 100 level chemistry course with a subsequent grade in another 100 level chemistry course if you have the consent of the department chair. (See the Grade-related Policies section of this catalog for the policy on repeating courses.)
4. You cannot receive credit toward graduation for a course after you have already completed a more advanced or similar course in the same area. The following restrictions hold:

IF YOU HAVE RECEIVED CREDIT FOR	YOU CANNOT RECEIVE CREDIT FOR
CHEM 100	CHEM 101
CHEM 101	CHEM 100
CHEM 105	CHEM 100, CHEM 101
CHEM 325	CHEM 221
CHEM 365	CHEM 260

5. If you are taking CHEM 105 and plan to continue on with CHEM 106, you should take MATH 107 concurrently with CHEM 105 if you have not already completed that math course or higher.

Test-Out and Credit-by-Exam Policy for Chemistry

An Advanced Placement (AP) Chemistry Exam score of 3 or 4 gives you credit for CHEM 105 (5 credits) and places you into CHEM 106. An AP Chemistry Exam score of 5 gives you credit for CHEM 105 (5 credits) and CHEM 106 (5 credits).

Biochemistry

Brian Barringer, Chair of Biology
Office: Room 302, Chemistry Biology Building (CBB)
Phone: 715-346-2159
Email: biology@uwsp.edu
Web: www.uwsp.edu/biology

Dave Snyder, Chair of Chemistry
Office: Room 445, Chemistry Biology Building (CBB)
Phone: 715-346-4253
Email: chemistry@uwsp.edu or dasnyder@uwsp.edu
Web: www.uwsp.edu/chemistry

Biochemistry combines knowledge of biology and chemistry to explain life processes in terms of molecular structure and chemical reactions within living cells.

Notes for Biochemistry:

1. Please read all the NOTES under the biology AND chemistry sections of this catalog. All items under both sections apply to the biochemistry major.
2. The biochemistry major is the same regardless of the college from which you graduate. If you have a single major (biochemistry), you will graduate from the College of Letters and Science. If you are in education, you may graduate from either the College of Letters and Science or from the College of Professional Studies. If you have a double major, such as biochemistry and natural resources, you may graduate from the College of Letters and Science or the College of Natural Resources.
3. Courses in biology and chemistry are open to all students who meet the prerequisites.

Test-Out and Credit-by-Exam Policy

The credit-by-exam and Advanced Placement (AP) exam policies of the Biology Department pertain to biology courses. The credit-by-exam policies of the Chemistry and Biochemistry Department apply to chemistry courses. You may take a test-out exam only once.

Programs

Biochemistry Major (BS)
Chemistry Major - ACS Certified (BS)
Chemistry for Educators Certificate
Environmental Chemistry Minor
Chemistry Minor

Courses

CHEM 100 - Chemistry for the Citizen - 3 Credits
CHEM 101 - Basic Chemistry - 5 Credits
CHEM 103 - Fundamental Chemistry Co-Requisite Support - 1 Credits
CHEM 105 - Fundamental Chemistry - 5 Credits
CHEM 106 - Fundamental Chemistry - 5 Credits
CHEM 112 - Foundations of Chemistry - 2 Credits
CHEM 117 - General Chemistry Principles - 5 Credits
CHEM 199 - Introduction to the Chemistry and Biochemistry Majors - 1 Credits
CHEM 203 - Survey of Biochemistry - 3 Credits
CHEM 204 - Applied Survey of Biochemistry - 4 Credits
CHEM 211 - Biochemistry Laboratory - 1 Credits
CHEM 220 - Survey of Organic Chemistry - 4 Credits
CHEM 221 - Survey of Organic Chemistry Lecture - 3 Credits
CHEM 222 - Survey of Organic Chemistry Lab - 1 Credits
CHEM 246 - Quantitative Analysis - 2 Credits
CHEM 247 - Quantitative Analysis Lab - 2 Credits
CHEM 248 - Quantitative Analysis - 4 Credits
CHEM 250 - Review and Updates in Chemistry and Biochemistry - 3 Credits
CHEM 260 - Elementary Biochemistry - 4 Credits
CHEM 298 - Special Topics in Chemistry - 1 - 3 Credits
CHEM 299 - Introduction to Research - 1 Credits
CHEM 325 - Organic Chemistry - 4 Credits
CHEM 326 - Organic Chemistry - 4 Credits
CHEM 329 - Advanced Synthesis Laboratory - 2 Credits
CHEM 333 - Biophysical Chemistry - 3 Credits
CHEM 335 - Physical Chemistry - Thermodynamics and Kinetics - 4 Credits
CHEM 336 - Physical Chemistry - Quantum Chemistry and Spectroscopy - 3 Credits
CHEM 339 - Physical Chemistry Laboratory - Spectroscopy - 1 Credits
CHEM 348 - Special Topics in Instrumental Analysis - 3 Credits
CHEM 352 - Organic Chemistry Laboratory - 2 Credits
CHEM 355 - Intermediate Inorganic Chemistry - 4 Credits
CHEM 363 - Introduction to Drug Discovery and Pharmacokinetics - 3 Credits
CHEM 365 - Biochemistry I - 4 Credits
CHEM 366 - Biochemistry II - 3 Credits
CHEM 371 - Introduction to the Chemistry of Materials - 1 Credits
CHEM 375 - Solid State Chemistry - 4 Credits
CHEM 382 - Fundamentals of Atmospheric and Air Pollution Chemistry - 3 Credits
CHEM 387 - Spectral Identification of Organic Compounds - 1 Credits
CHEM 391 - Seminar for Chemistry Majors in Teacher Education - 1 Credits
CHEM 395 - Seminar I - 1 Credits
CHEM 399 - Special Work - 1 - 3 Credits
CHEM 420 - Protein Purification Workshop - 1 Credits
CHEM 425 - Advanced Organic Chemistry - 3 Credits
CHEM 435 - Advanced Physical Chemistry - 3 Credits
CHEM 446 - Instrumental Analysis - 4 Credits
CHEM 455 - Advanced Inorganic Chemistry - 3 Credits
CHEM 492 - Seminar for Chemistry Majors in Teacher Education - 1 Credits
CHEM 495 - Capstone Undergraduate Research Experience - 2 Credits
CHEM 499 - Independent Research - 1 - 3 Credits
CHEM 535 - Physical Chemistry - Thermodynamics and Kinetics - 4 Credits
CHEM 536 - Physical Chemistry - Quantum Chemistry and Spectroscopy - 3 Credits
CHEM 539 - Physical Chemistry Laboratory - Spectroscopy - 1 Credits
CHEM 565 - Biochemistry - 4 Credits
CHEM 582 - Fundamentals of Atmospheric and Air Pollution Chemistry - 3 Credits
CHEM 625 - Advanced Organic Chemistry - 3 Credits
CHEM 635 - Advanced Physical Chemistry - 3 Credits
CHEM 646 - Instrumental Analysis - 4 Credits
CHEM 655 - Advanced Inorganic Chemistry - 3 Credits

College of Fine Arts and Communication Department

Stuart Benkert, Dean
Office: Room 101C, Noel Fine Arts Center
Phone: 715-346-4920
Email: cofac@uwsp.edu OR sbenkert@uwsp.edu
Web: https://www.uwsp.edu/cofac/

The College of Fine Arts & Communication consists of the School of Design and Communication and the School of Performing Arts.

The College of Fine Arts & Communication is committed to a broad understanding of the arts, the humanities, and communication as a basis for reasoned, intelligent, and sensitive individuals interacting with society. The college is also committed to a broad understanding of the many aspects of the arts and communication as they relate to a changing world with its dynamic and diverse cultures. Most importantly, the college is committed to excellence in training communication, visual arts, and performing arts professionals. Through its students, faculty, and programs both on and off campus, the College of Fine Arts & Communication inspires, creates, and achieves.

Curriculum in Fine Arts and Communication

Educational experiences and courses for fine arts & communication majors, minors, and general student needs include:

- History, criticism, theory, and practice in fine arts and communication.
- Practical applications in the arts and communication through laboratory, studio, internship and other experiences.
- Production and performance experiences through art exhibitions, music recitals/concerts, plays, musicals, dance productions, master classes, film, radio and television broadcasting, and various other forms of communication.

You may choose a professional program in a specific field or a more broadly based curriculum with a wide variety of choices. You may choose one of the majors listed below or a minor in the college with a major from another area.

There are two schools offering degree programs within the college:

- The School of Design and Communication has units in Art and Art History, Graphic Design, Interior Architecture, Media Studies, and Communication.
- The School of Performing Arts has two main Departments:
  - The Department of Music with units in Jazz Studies, Music Education, and Performance; and
  - The Department of Theatre and Dance with units in Acting, Arts Management, Dance, Drama, Design & Technology, and Musical Theatre.

The college maintains national accreditation with all four fine arts accrediting associations: Art & Design (National Association of Schools of Art & Design), Music (National Association of Schools of Music), Theatre (National Association of Schools of Theatre), and Dance (National Association of Schools of Dance) in addition to the Council for Interior Design Accreditation. UW-Stevens Point is one of 30 such universities in the country to carry this designation.

Majors in Fine Arts and Communication

Degrees offered are:

School of Design and Communication

1. Bachelor of Arts: ART-BA, and MSTU-BA
2. Bachelor of Science: PCOM-BS, and MSTU-BS
3. Bachelor of Fine Arts: ART-BFA, GD-BFA, and IA-BFA

School of Performing Arts

1. Bachelor of Arts: ARTM-BA, DNCE-BA, THEA-BA, and MUS-BA
2. Bachelor of Fine Arts: THEA-BA, ACTING, DESGN-TECH, MUS-THEA
3. Bachelor of Music: MUS-JZZ-BM, MUED-BM, INSTRUMENT, PNO, VOICE, and MwDYStC8HO1WhSVeCgZt - Missing program

Refer to the degree requirements listed in each school's section of this catalog.

To earn your degree, successfully complete the Bachelor Degree General Education Program (GEP) requirements, requirements for your major, and approved electives totaling no less than 120 credits. To graduate, you must earn at least 32 credits in courses numbered 300 or above.

If you wish to meet teacher certification requirements in music, consult the Education section of this catalog for additional courses required through the College Professional Studies.

Minors in Fine Arts and Communication

Minors are available in:

School of Design & Communication: ART-MN, ART-HI-MN, mstu-mn, and PCOM-MN

School of Performing Arts: ARTM-MN, DNCE-MN, MUS-JZZ-MN, and MUS-MN

College Honors - Fine Arts and Communication

Undergraduate, full-time majors in the College of Fine Arts & Communication who have achieved a semester grade point average over 3.75 are awarded the Dean's Distinguished Achievement Award.

Affiliated Centers/Programs in Fine Arts and Communication

Faculty and staff members from the College of Fine Arts & Communication are involved in a variety of other programs that benefit the students of the university as well as the Central Wisconsin regional community. These programs include:

- Aber Suzuki Center
- American Suzuki Institute
- Central Wisconsin Symphony Orchestra
- COFAC Creates
- Continuing Education Programs: Camp COFAC, Central Wisconsin Youth Symphony Orchestra, LIFE
- Edna Carlsten Gallery
- Festivals: Band, Jazz, Chorus, Orchestra, All-State Music, American Dance, WI Theatre
- Great Artists, Great Speakers Series
- Monteverdi Master Chorale
- SPTV
- The Pointer
- UWSP Recital/Concert Series
- UWSP University Theatre
- Very Young Composers' Program
- WWSP 90FM Radio

Graduate Programs in Fine Arts and Communication

Graduate programs are available in music education and communication. See the Graduate Study section of this catalog for details.

College of Letters and Science Department

Joshua Hagen, Dean
Office: Room 200, Chemistry Biology Building (CBB)
Phone: 715-346-4224
Email: cols@uwsp.edu
Web: www.uwsp.edu/cols

The College of Letters and Science consists of the

- School of Behavioral and Social Sciences including the Departments of
  - Geography and Geology
  - Political Science
  - Psychology
  - Sociology and Social Work
- School of Biology, Chemistry, and Biochemistry including the Departments of
  - Biology
  - Chemistry and Biochemistry

- School of Humanities and Global Studies including the Departments of
    - English
    - History and International Studies
    - Philosophy and Religious Studies
    - World Languages and Literatures
- School of Mathematics, Computing, Physics, and Astronomy including the Departments of
    - Computing and New Media Technologies
    - Mathematical Sciences
    - Physics and Astronomy

The college's varied programs and classes will help you to:

- Understand, effectively use, and appreciate the process of learning.
- Recognize the complexity of problems and improve your ability to develop creative solutions.
- Increase the breadth and depth of your understanding of the humanities, sciences, and social sciences.
- Succeed in your studies and in preparing for a career.
- Join a community of teachers, scholars, and students who strive for high standards of academic achievement.

Majors in Letters and Science

In the College of Letters and Science, you may pursue the following majors:

- **School of Behavioral and Social Sciences**
    - **Geography and Geology:** COM-SUS-BS, GEOSP-BS
    - **Political Science:** POLI-BA, POLI-BS
    - **Psychology:** ORGL-BS, PSYC-BS, HUM-SERV
    - **Sociology and Social Work:** SW-BA, SW-BS, SOC-BA, SOC-BS
- **School of Biology, Chemistry, and Biochemistry**
    - **Biology:** BIOL-BS, BOTANY-PLT, HUM-ANIMAL, NTSC-BS
    - **Chemistry and Biochemistry:** BIOCHEM-BS, CHEM-C-BS
- **School of Humanities and Global Studies**
    - **English:** ENGL-T-BA, ENGL: LIT, ENGL: WEP
    - **History and International Studies:** HIST-BA, HIST-BS, HIS-SSE-BA, HIS-SSE-BS, INTL-BA
    - **Philosophy and Religious Studies**: PHIL-BA, PHIL-BS, EN-ETH-BA, EN-ETH-BS, LAW-JUS-BA, LAW-JUS-BS, REL-ST-BA, REL-ST-BS
    - **World Languages and Literatures:** GERM-BA, GERM-T-BA, SPAN-BA, SPAN-T-BA
    - GENERAL-BA, GENERAL-BS, TECHMGT-BA, TECHMGT-BS
- **School of Mathematics, Computing, Physics and Astronomy**
    - **Computing and New Media Technologies:** APC-BS, APP-DEV-BA, APP-DEV-BS, CYBER-BS, NETWORK-BA, NETWORK-BS, SEC-STD-BA, WD-BA, WD-BS
    - **Mathematical Sciences:** MATH, ACTUARIAL, MATH-T-BS
    - **Physics and Astronomy:** PHYS-BS, ELECTR-BS, MECHNC-BS, PE-32-BS

Before declaring a major, read the sections of this catalog that deal with departments of greatest interest to you. Also see the student handbooks of these departments to see descriptions of their majors, minors, and courses of study.

Declare your major by the time you have earned 56 academic credits (excluding required wellness). Please go to the school office of the major of your choice and the staff in that office will help you complete this process. Ordinarily, a school will accept you for major study. However, they may refuse to accept or have you continue in the major if your academic record does not satisfy their regulations. (See the section of this catalog entitled Major or Minor Declaration under Academic Policies).

College Honors - Letters and Science

The College of Letters and Science Dean's List consists of undergraduate students who complete at least 12 credits in any semester with a grade point average of 3.76 or above.

Minors in Letters and Science

In the College of Letters and Science you may select from the following minors:

- **School of Behavioral and Social Sciences**
    - **Geography and Geology:** GEOG-ER-MN, GEOG-EV-MN, GIS-MN, GEO-PLN-MN
    - **Political Science:** POLI-LP-MN, PAX-MN, POLI-MN, PB-POL-MN
    - **Psychology:** PSYC-NB-MN, PSYC-MN
    - **Sociology and Social Work:** CRM-JUS-MN, SOC-HBS-MN, SOC-MN, SUB-ADD-MN
- **School of Biology, Chemistry, and Biochemistry**
    - **Biology:** BIOL-AQ-MN, BIOL-MN, NTSC-BD-MN
    - **Chemistry and Biochemistry:** CHEM-MN, CHEM-EV-MN
- **School of Humanities and Global Studies**
    - **English:** ENGL-CW-MN ENGL-MN, ENGL-LN-MN, ENGL-PW-MN
    - **History and International Studies:** ENVR-MN, HIST-MN, INTL-MN, HIST-MU-MN, HIST-RE-MN, HIST-ST-MN
    - **Philosophy and Religious Studies:** PHIL-LJ-MN, PHIL-MN, PHIL-RS-MN
    - **World Languages and Literatures:** ENGL-SL-MN, ENG-SLT-MN, GERM-MN, SPAN-MN, WGS-MN
- **School of Mathematics, Computing, Physics and Astronomy**
    - **Computing and New Media Technologies:** CIS-MN, WD-MN
    - **Mathematical Sciences:** MATH-AP-MN, MATH-MN, MATH-MD-MN
    - **Physics and Astronomy:** ASTR-MN, PHYS-MN

If you declare a major, it may be within or outside the College of Letters and Science. The only program in Letters and Science that requires you to declare a minor is computer information systems. The staff in the school office of the minor of your choice will help you complete this process. Ordinarily, a school will accept you for minor study. However, they may refuse to accept or have you continue in the minor if your academic record does not satisfy their regulations.

Certificates in the College of Letters and Science

In the College of Letters and Science you may select from the following certificates:

- **School of Behavioral and Social Sciences**
    - **Geography and Geology:** GIS-PRF-CT

- **Political Science:** INT-REL-CT
- **Sociology and Social Work:** SW-CAS-CT, SOC-SJE-CT

- **School of Biology, Chemistry, and Biochemistry**
  - **Biology:** BIOL-CT, BREWING-CT, BIOL-CS-CT, LIFESCI-CT
  - **Chemistry and Biochemistry:** CHEM-CT

- **School of Humanities and Global Studies**
  - **English:** ENGL-ED-CT, LANG-ST-CT
  - **History and International Studies:** ENV-JUS-CT, NAIS-CT
  - **Philosophy and Religious Studies:** ENV-ETH-CT
  - **World Languages and Literatures:** SEC-LAN-CT, WLCP-CT

- **School of Mathematics, Computing, Physics and Astronomy**
  - **Computing and New Media Technologies:** INFO-SC-CT, SOF-DEV-CT, USER-EX-CT
  - **Mathematical Sciences:** MATH-ED-CT, STEM-CT
  - **Physics and Astronomy:** ESS-CT, PHYS-CT

Pre-Professional Study

Before entering many professional schools, you must complete part of your college work. If you wish to enter one of these schools, you may register in the College of Letters and Science and then begin working with an adviser familiar with the requirements of the profession you plan to enter. Your adviser can help you plan your studies within either the Bachelor of Arts or Bachelor of Science program.

In the following paragraphs, you will find information on how to prepare for some professions. If you would like more specific information or suggestions, we would be happy to send them to you.

Different schools training people for the same profession sometimes have different entrance requirements. Generally, entrance requirements have grade point restrictions on your cumulative GPA. However, this may vary from institution to institution. At UW-Stevens Point you may repeat a course for which you earned a D+ or less. You may not repeat a course in which you earned a grade above D+.

Make sure you know the requirements of the school you plan to enter, and frequently review your progress with your adviser. Your adviser, assistant dean, and the staff in the office of the Dean of the College of Letters and Science will be happy to help you. But remember that it is up to you to meet all college and university requirements, rules, and regulations.

Dentistry

UW-Stevens Point has an excellent pre-dental program with a diversity of courses and options that will permit you to meet or surpass the admission requirements for most of the dental schools in the United States. Most dental schools require a minimum of three years (90 semester credits) of pre-dental education. The pre-dentistry course requirements may be integrated into the requirements for almost any major offered at UW-Stevens Point. Many students accepted into dental school have a major in biology, chemistry, or both. All dental schools require candidates to take the Dental Admission Testing Program exam given in October and April. Consult regularly with the dentistry adviser on campus as you plan your undergraduate curriculum, so that you stay informed of changes in requirements and recommended courses at specific dental schools.

Education

If you have not yet determined the subjects you would like to teach, talk with your adviser or the advising office in the School of Education. If you seek a certificate to teach at the secondary level, with a major offered in the College of Letters and Science, you may either complete your general requirements for your BA or BS degree in the College of Professional Studies or the College of Letters and Science. See the Education section later in this catalog for complete information on your education requirements.

Engineering

Requirements for the UW-Stevens Point pre-engineering program vary from one specialization to another. However, if you plan to pursue a career in engineering, you will need to concentrate on mathematics and the sciences. Most likely you may complete two years of preparation at UW-Stevens Point. See the Department of Paper Science and Chemical Engineering for details about pre-chemical engineering. For pre-engineering in preparation for mechanical, civil, electrical and other areas of engineering, see the School of Mathematics, Computing, Physics, and Astronomy

Law

Normally, you must complete a Bachelor of Arts or Bachelor of Science degree before applying to a law school. Since you will face stiff competition for admission to law school, work to maintain a high grade point average. All law schools require candidates to take the Law School Admission Test (LSAT). High scores on this test are necessary for admission to the better law schools. Most law schools also require that candidates submit letters of reference from individuals familiar with their qualifications and aptitude. You should speak to your adviser about developing a list of references. Law schools do not require that you take a particular undergraduate major.

UW-Stevens Point pre-law advisers in the School of Behavioral and Social Sciences and the School of Humanities and Global Studies stress a broad undergraduate program. In such a program you learn philosophical and social science approaches to problem solving. We at UW-Stevens Point take pride in our excellent record for placing superior students in outstanding law schools.

Medicine

If you are preparing for a career in medicine, register as a candidate for either the Bachelor of Science or Bachelor of Arts degree. You may integrate your premedical course requirements with those for a degree in almost any other major field. However, most students accepted into medical schools have a major in biology, chemistry, or both. All medical schools recommend, but do not require, that you take calculus, humanities, and psychology. You will face stiff competition for admission to a medical school.

Medical schools will decide whether to admit you based on whether you have:

1. B+ average.
2. Above average scores on New Medical College Admissions Test (New MCAT), 9-10 average score out of 15.
3. Relevant work experience.
4. Strong recommendations.
5. A successful interview.

Pick up a registration form for the New MCAT from the premedical adviser. Since the New MCAT assumes you have taken college level chemistry, physics, biology, and mathematics, take this exam in April of your junior year. If you are not successful, you may take it a second time in September of your senior year. UW-Stevens Point graduates have an excellent record of acceptance by medical schools.

Pharmacy

Take the following courses during your freshman and sophomore years: CHEM117 General Chemical Principles (or CHEM105 Fundamental Chemistry and CHEM106 Fundamental Chemistry), CHEM325 Organic Chemistry, CHEM326 Organic Chemistry; MATH225 Calculus I; PHYS203 College Physics I and PHYS204 College Physics II. For additional requirements and suggested electives, see a pre-pharmacy adviser.

Other Fields

If you want to prepare for a professional field not listed here, the College of Letters and Science will assist you in finding an adviser to help you plan your program. Make sure you thoroughly understand all requirements of the school you plan to enter, and meet often with your adviser.

Graduate Curriculum in Letters and Science

For information on requirements for a master's degree, see the General Requirements for Master's Degrees and Doctorate Degrees section of this catalog.

Graduate Programs in the College of Letters and Science

- ABT-MS
- CYB-RESP
- DIG-FOR
- GOV-LEAD
- SEC-ARCH
- DATA-MS
- ENGL-MST
- HIST-MST
- ITM-MS
- SW-MSW

Graduate Certificates in the College of Letters and Science

- AP-BIOL-CT
- BIOL-CG-CT
- ITM-EI-GCT
- GIS-PRF-CT
- ITM-L-GCT
- ITM-O-GCT
- SEC-LN-GCT

Affiliated Centers

Faculty and staff from the College of Letters and Science contribute to a variety of programs across campus which benefit the students as well as the surrounding Central Wisconsin community. These programs include:

- Allen F. Blocher Planetarium
- Arthur J. Pejsa Observatory
- Center for Athletic Scheduling
- Center for the Small City
- Cornerstone Press
- Freckmann Herbarium
- Geographic Information Systems Center
- Northern Aquaculture Demonstration Facility
- Olson Museum of Natural History
- Tropical Conservatory
- Wisconsin Association for Critical Thinking

Programs

Associate of Arts and Science
Multidisciplinary Major (BA): General Option
Multidisciplinary Major (BA): Technology Management Option
Multidisciplinary Major (BS): General Option
Multidisciplinary Major (BS): Technology Management Option

Courses

RSCH 798 - Continuation of Thesis - - Credits
UWX AN100 - Introduction to Anthropology - 3 Credits
UWX AR104 - Introduction to Graphic Design and Digital Art - 3 Credits
UWX AR175 - Worlds of Art - 3 Credits
UWX AS100 - Survey of Astronomy - 3 Credits
UWX BL101 - Concepts of Biology - 4 Credits
UWX BL285 - Anatomy and Physiology I - 4 Credits
UWX BL286 - Anatomy and Physiology II - 4 Credits
UWX BU101 - Introduction to Business - 3 Credits
UWX CH114 - Chemistry in the Kitchen - 4 Credits
UWX CH140 - General Chemistry Laboratory - 1 Credits
UWX CH144 - General Chemistry I Lecture - 4 Credits
UWX CM101 - Introduction to Public Speaking - 3 Credits
UWX CM114 - Interpersonal Communication - 3 Credits
UWX CM213 - Intercultural Communication - 3 Credits
UWX CS130 - Introduction to Programming - 3 Credits
UWX EC203 - Macroeconomics - 3 Credits
UWX EC204 - Microeconomics - 3 Credits
UWX ED230 - Educational Psychology - 3 Credits
UWX EN098 - Introduction to College Writing - 3 Credits
UWX EN101 - College Writing and Critical Reading - 3 Credits
UWX EN102 - Critical Writing and Research - 3 Credits
UWX EN203 - Creative Writing - 3 Credits
UWX EN210 - Business Communication - 3 Credits
UWX EN250 - Introduction to Literature - 3 Credits
UWX EN278 - Multicultural Literature in the United States - 3 Credits
UWX ES105 - Introduction to Environmental Studies - 3 Credits
UWX FN210 - Personal Finance - 3 Credits
UWX GE100 - Physical Geography and the Environment - 3 Credits
UWX GE170 - Disasters - Living on the Edge - 4 Credits
UWX GS101 - Introduction to Gender, Sexuality, and Women's Studies - 3 Credits
UWX GS231 - Sex, Power, and Public Policy - 3 Credits
UWX HE106 - Lifetime Wellness and Self Growth - 3 Credits
UWX HE209 - Nutrition and Weight Management - 3 Credits
UWX HS102 - U.S. History Since 1877 - 3 Credits
UWX HS127 - The World in the 20th Century - 3 Credits
UWX LB103 - Diversity in the U.S. - 3 Credits
UWX MA091 - Elementary Algebra - 3 Credits
UWX MA093 - Intermediate Algebra - 3 Credits
UWX MA108 - Quantitative Reasoning - 3 Credits
UWX MA113 - Trigonometry - 2 Credits
UWX MA116 - College Algebra - 3 Credits
UWX MA117 - Elementary Statistics - 4 Credits
UWX MA221 - Calculus I - 5 Credits
UWX MU278 - Rock and Roll Roots - 3 Credits
UWX PH121 - Critical Thinking - 3 Credits

UWX PH237 - Technology, Values, and Society - 3 Credits
UWX PL104 - Introduction to American Government and Politics - 3 Credits
UWX PS101 - General Psychology - 3 Credits
UWX PS250 - Lifespan Psychology - 3 Credits
UWX RE101 - Introduction to Religion - 3 Credits
UWX SC101 - Introduction to Sociology - 3 Credits
UWX SC222 - Race and Ethnicity - 3 Credits
UWX SC231 - Crime and Criminal Justice - 3 Credits
UWX SP101 - First Semester Spanish - 4 Credits
UWX SP102 - Second Semester Spanish - 4 Credits
UWX SP236 - Cultures and Civilizations of the Spanish Speaking Americas - 3 Credits
UWX SS310 - Social Media, Fake News, and You: Why Media Literacy Matters - 3 Credits
UWX SW150 - Social Advocacy and the Social Work Experience - 3 Credits

College of Natural Resources Department

Brian Sloss, Dean
Brenda Lackey, Associate Dean for Academic Affairs
Office: Room 100, Trainer Natural Resources Building
Phone: 715-346-4617
Email: cnr@uwsp.edu
Web: www.uwsp.edu/cnr
CNR Student Success Center, TNR 122, 715-346-4081, cnrssc@uwsp.edu, https://www3.uwsp.edu/cnr/ssc/Pages/default.aspx

Majors in Natural Resources

In the College of Natural Resources, you may work toward a Bachelor of Science degree in any of six disciplines:

Environment and Society

Within environment and society you may choose from:

- CCP-BS
- CLE-BS
- EEI-BS
- WLDLF-EDUC
- PHYSCL-SCI
- SOCIAL-SCI

Fisheries and Water Resources

In fisheries and water resources you select from options in:

- FISH-AQUA
- HYDROLOGY
- WATER-RES

These prepare you for a career or graduate study in fishery science or management, aquatic biology, hydrology, hydrogeology (groundwater), laboratory analysis of water and environmental samples, aquatic toxicology, and the assessment and management of water resources.

Forestry

In the forestry program you integrate the study of forestry with the study of other resource disciplines, so that you have a solid background for forest ecosystem management. Through your forestry degree you prepare for management positions with public agencies or private industry. Select one of these five options:

- FOR-MANG

- ECOSYS-MGT
- RECREATION
- URBAN

The Society of American Foresters accredits this program.

Paper Science and Engineering

In the CHM-ENG-BS and PSEN-BS programs, you become well versed in the physical and engineering sciences and learn the relationships among these disciplines. You also prepare yourself to apply what you have learned as an industrial scientist or engineer and ultimately as a manager in the paper industry or an allied industry.

Soil and Waste Resources

Two options are available in this major:

- SOIL-MGT blends coursework in soils with courses in the basic sciences and other natural resources disciplines
- WASTE-MGT blends coursework in waste management, the basic sciences, and natural resources. When you complete these options you can meet requirements for a soil scientist as defined by the United States Department of Agriculture and for a soil or waste resource manager for private or public sector employment.

Wildlife Ecology and Management

In the WLDL-BS curriculum, you integrate the study of wildlife ecology and management with other resource disciplines as you prepare yourself for graduate school or a management position. The curriculum also includes mathematics, biological, physical, and social sciences. When you graduate, you have met the curricular requirements for a certified wildlife biologist as established by The Wildlife Society.

Minors in the College of Natural Resources

- ENV-LAW-MN, ENV-COM-MN, ENV-INT-MN, ENV-EDT-MN, INT-RM-MN, and RE-MGT-MN
- FOR-EH-MN, FOR-MGT-MN, FOR-REC-MN, and FOR-TGM-MN
- SOIL-MN and WSTE-MN
- WATR-MN
- WL-CAP-MN, CNSV-BI-MN, and WLDL-MN

Certificates in the College of Natural Resources

- CLM-CH-CT, ENRG-PL-CT, ENV-ED-CT, and ENV-SCI-CT
- FIRESCI-CT, FORHLTH-CT, TIMBER-CT, and TGM-CT
- SOIL-MG-CT
- INVSV-CT and WETLND-CT

Academic Standards for the College of Natural Resources

You must apply for official acceptance as a College of Natural Resources major before the beginning of your junior year. You must be accepted as a major before you enroll in the Summer Field Experience or internships. Requirements for acceptance to the fisheries and water resources, forestry, wildlife, resource management (in the Environment and Society discipline) or soil and waste resources major are:

1. Complete 45 university credits.

2. Have at least a 2.00 grade point average in courses required for the major.

3. Complete an application to the College of Natural Resources. We will notify you within four weeks of your application, and if accepted will assign an adviser. Certain 300-400 level courses are restricted to approved CNR and/or biology majors. Nonmajors must have written consent of instructor to enroll.

4. If you are transferring to UW-Stevens Point to major in the College of Natural Resources, Wildlife Ecology excepted, you must have a cumulative grade point average of at least 2.00. To be accepted as a CNR major, complete steps 1-3 above.

To be retained as a major or minor and to be approved for graduation, you must meet the minimum grade point average established for your discipline in all UW-Stevens Point courses taken within the major or minor (2.75 to student teach in resource management), including transfer courses, regardless of any declaration of academic forgiveness. Minimum GPA by discipline:

a. 2.0 GPA for paper science and engineering and chemical engineering.

b. 2.25 GPA for all major options and minors in the the CNR with the exception of the Forest Ecosystem Restoration and Management option in forestry, and Wildlife Ecology.

c. 2.50 GPA for Wildlife Ecology and the Forest Ecosystem Restoration and Management option in forestry.

Test-Out and Credit-by-Exam Policy for the College of Natural Resources

The College of Natural Resources offers credit-by-exam for all of its courses. The comprehensive exam for each course will be written and drawn from lecture and/or lab topics normally covered in the course.

If you wish to take an exam for credit, first confer with the CNR associate dean for academic affairs. Then confer with the faculty member who most recently taught the course. The faculty member will notify you in writing with any pertinent information about the exam including the required minimum passing score before you take the exam. You will receive your grade in writing within two weeks after taking the exam. Results will be forwarded to the Office of the Registrar if credit-by-exam is granted. You may take a test-out exam only once.

Graduate Programs in CNR

If you qualify, you may work toward the CNS-LD-MNR or NRES-MS with an emphasis in any of these areas: environmental education/interpretation, fisheries, soil and waste resources, water resources, wildlife management, forest ecology and management, urban forestry, forest business, international resource management, environmental resources extension programming, land use planning, or youth programming. For details, see the CNR graduate coordinator.

In the Graduate Study section of this catalog you will find information that will be useful if you wish to pursue a Master of Science degree in the College of Natural Resources.

CNR Summer Field Experience

Most CNR majors require participation in a six week field techniques or the eight week European environmental studies seminar after you complete your sophomore year. Through the field experience you gain at the CNR Summer Field Experience in forestry, soils, water, and wildlife, you prepare yourself for the intensive studies of your junior and senior years.

International Experiences

The College of Natural Resources offers a variety of opportunities to study abroad. Our European environmental studies seminar takes students to Germany, Poland and several other European countries to provide an opportunity to study resource management issues. This experience in conjunction with a semester-long seminar and a two-week field course at our Central Wisconsin Environmental Station can substitute for the field techniques in natural resources requirement in the college. In addition, CNR students can take advantage of opportunities to study in Costa Rica, Mexico, Belize, Guatemala, Africa, Australia, and New Zealand. These experiences have a specific environmental studies focus and are in addition to the many international programs offered through UW-Stevens Point International Programs.

Teaching in Natural Resources Fields

If you seek a certificate to teach at the secondary school level with a major offered in the College of Natural Resources, you may either:

1. Complete the requirements for your BS degree in the College Professional Studies, or
2. Complete the requirements for your BS degree in the College of Natural Resources.

See the Education section in this catalog for complete information on your education requirements.

College Honors - Natural Resources

College of Natural Resources majors who attain a semester grade point average of 3.5 or above are placed on the Dean's List and recognized for their accomplishment.

Graduation Requirements

To graduate from the College of Natural Resources, you must achieve the minimum grade point required for your major (varies by discipline) in the courses required for your major, including collateral courses and CNR Summer Field Experience.

Field Stations

Central Wisconsin Environmental Station

At the Environmental Station on Sunset Lake you can gain valuable practical experience in natural resources and environmental education while you earn college credit. Located 17 miles east of the UW-Stevens Point campus, the Environmental Station is sponsored by the UWSP Foundation and the College of Natural Resources.

The station covers over 300 acres of diverse landscape, including such ecological communities as coniferous and deciduous forests, ponds, and kettle lakes. It also has classrooms, dining facilities, dormitory and log cabin housing for youth and adult groups, nature trails, a challenge course, amphitheater, and a complete waterfront. For more information, call 715-824-2428, write the Central Wisconsin Environmental Station, 10186 County Road MM, Amherst Junction, WI 54407, or email: cwes@uwsp.edu. Web: www.uwsp.edu/cnr-ap/cwes/Pages/default.aspx.

Schmeeckle Reserve

Schmeeckle Reserve is a 275-acre natural area on campus where you can hike, jog, ski, or just enjoy nature on the miles of wood chipped trails and boardwalks. Many university classes are taught here. At the public visitor center you can gain experience to apply toward a major in forest recreation, environmental education/interpretation, or other natural resource fields, or get involved in any number of artistic or outdoor projects. This building houses the Wisconsin Conservation Hall of Fame that includes exhibits on distinctive natural features of Schmeeckle Reserve. For more information call 715-346-4992, write Schmeeckle Reserve, College of Natural Resources, or email schmeeckle@uwsp.edu. Web: www.uwsp.edu/cnr-ap/schmeeckle/Pages/home.aspx.

Treehaven Field Station

Treehaven is a natural resource center which meets the needs of the CNR Summer Field Experience. Here, 80 miles north of Stevens Point, near Tomahawk, you live and study in a modern facility yet have access to over 1,200 acres of diverse habitat for natural resource education and management demonstrations.

Treehaven's classroom center, dining lodge, and living centers are fully winterized and host many conferences, courses, and workshops. As an undergraduate or graduate student, you may take courses on such subjects as winter ecology and wild edibles. Treehaven is sponsored by the UWSP Foundation and the College of Natural Resources. For more information, call 715-453-4106, write the Director of Treehaven, W2540 Pickerel Creek Avenue, Tomahawk, WI 54487, or email treehaven@uwsp.edu. Web: www.uwsp.edu/cnr/treehaven

Programs

Natural Resources Major (BS + MNR) (4+1 Track)

College of Professional Studies Department

Rebecca Sommer, Dean
Office: Room 110, College of Professional Studies Building
Phone: 715-346-3777
Email: cps@uwsp.edu
Web: www.uwsp.edu/cps

The College of Professional Studies consists of the Sentry School of Business and Economics, School of Education, School of Health Sciences and Wellness, and Department of Military Science (Army ROTC).

In the College of Professional Studies you:

- prepare for your chosen profession by studying theory and then actively demonstrating your professional skills in a supervised classroom or clinic;
- gain the knowledge and experience you need in order to meet the standards of your profession;
- gain professional experience in internships and externships at hospitals, physician's offices, community clinics, schools, business and industrial sites;
- associate with other students interested in providing a professional service to humankind;
- acquire critical thinking skills so you may fully meet the needs of the people you will serve;
- work on basic and applied research projects;
- work with faculty who are attuned to people, events, trends, and politics of the professional workplace;
- discover that we are proactive, resourceful, connected, and caring.

Undergraduate Programs in Professional Studies

In the College of Professional Studies you may work toward bachelor's degrees from the:

- Sentry School of Business and Economics
  - Majors: ACCT-BS, BUS-BS, BECON-BS, DATA-AN-BS, FIN-BS, MGT-BS and MKTG-BS
  - Minors: ACCT-MN, BUS-MN, ECON-MN, and DATA-AN-MN
- School of Education
  - Majors: ECE-BS, ELEM-ED-BS, PHY-ED-BS and SPC-ED-BS with certifications in learning disabilities, emotional behavioral disabilities, cognitive disabilities and cross-categorical special education
  - Minors: ECE-SPL-MN, HLTH-ED-MN, and SE-MN
- School of Health Science and Wellness
  - Majors: CSD-BS, CSD-T-BS - Missing program, DIETET-BS, DIET-41-BS, CYF-BS, FCS-T-BS, MANG-BS, TECHN-BS, HSW-BS (with an option in pre-athletic training), CYTOTECH, HISTOTECH, MEDTECH, MLT-MLS, NURS-BSN, SUSFD-BA, SSFD-41-BA,
  - Minors: CH-YTH-MN, CM-HLTH-MN
- Department of Military Science
  - Minor: MIL-MN

College Honors - Professional Studies

The College of Professional Studies Dean's List consists of undergraduate students who complete at least 12 credits and achieve a grade point average of above 3.75 the previous semester.

Graduate Programs in Professional Studies

In the College of Professional Studies you may work toward advanced degrees in:

- ALDM-MBA
- AT-MS
- CSD-AUD (Clinical Doctorate joint program with UW-Madison)
- CSD-MS
- COL-MS
- EDUC-EDD
- EDUC-MSE
- Education, MSE - Student Affairs Emphasis
- HCA-MS
- HWM-MS
- PT-DPT
- SUS-FD-MS

Communication Department

This area is in the School of Design and Communication within the College of Fine Arts and Communication.

John Blakeman, Area Coordinator **Office:** Room D337, Science Building **Email:** jblakema@uwsp.edu **Web:** https://www3.uwsp.edu/schoolofdesign/Pages/major/Professional-Communication.aspx
FACULTY AND ACADEMIC STAFF
T Bodor, S Hill

Test-out, Credit-by-Exam, and Retroactive Credit Policy

If you think you qualify for the above, contact the Professional Communication Area coordinator who will determine whether the exam will be for test-out, credit-by-exam, and/or retroactive credit. A designated instructor will administer a written exam that evaluates your level of ability with the content of the course. A grade of B or better will qualify for test-out.

Courses that involve applied skills and/or oral performance may also require a second performance exam if you score well enough on the written exam.

Programs

Communication Major (BS): Professional Communication Option
Communication (MA)
Professional Communication Minor

Courses

COMM 100 - Orientation to Professional Communication - 1 Credits
COMM 101 - Fundamentals of Oral Communication - 3 Credits
COMM 103 - Introduction to Communication and Culture - 3 Credits
COMM 110 - How to Win an Argument - 3 Credits
COMM 130 - Introduction to Public Relations - 3 Credits
COMM 140 - Introduction to Communication Technologies Management - 1 Credits
COMM 180 - Foundations of Workplace Communication - 3 Credits
COMM 201 - Communication Research - 3 Credits
COMM 212 - Writing for Professional Communication - 3 Credits
COMM 334 - Public Relations Writing - 3 Credits
COMM 336 - Communication and Promotional Strategies - 3 Credits
COMM 338 - Topics in Public Relations - 3 Credits
COMM 345 - Small Group Communication - 3 Credits
COMM 355 - History of Broadcasting - 3 Credits
COMM 377 - Communication and Aging - 3 Credits
COMM 385 - Workplace Communication Laboratory - 3 Credits
COMM 387 - Interviewing - 3 Credits
COMM 388 - Topics in Workplace Communication - 3 Credits
COMM 390 - Seminar - 3 Credits
COMM 391 - Persuasion - 3 Credits
COMM 393 - Political Campaigns - 3 Credits
COMM 394 - Business and Professional Communication - 3 Credits
COMM 395 - Special Topics - 1 - 3 Credits
COMM 399 - Practicum in Professional Communication - 1 Credits
COMM 430 - Professional Communication Capstone - 3 Credits
COMM 480 - Internship in Professional Communication - 1 - 12 Credits
COMM 485 - Externship in Professional Communication - London - 6 Credits
COMM 499 - Special Work - 1 - 3 Credits
COMM 538 - Topics in Public Relations - 3 Credits
COMM 545 - Small Group Communication - 3 Credits
COMM 588 - Topics in Workplace Communication - 3 Credits
COMM 590 - Seminar - 3 Credits
COMM 591 - Persuasion - 3 Credits
COMM 593 - Political Campaigns - 3 Credits
COMM 595 - Special Topics - 1 - 3 Credits
COMM 780 - Project Credit - 1 - 3 Credits
COMM 790 - Seminar - 3 Credits
COMM 796 - Independent Study - 1 - 3 Credits
COMM 797 - Colloquium - 1 Credits
COMM 799 - Thesis Credit - 1 - 6 Credits

Communication Sciences and Disorders Department

This area is in the School of Health Sciences and Wellness is within the College Professional Studies.

Contact: Sondra Reynolds, Associate Clinical Professor, CSD Program Director
Office: Room 038, College of Professional Studies Building
Phone: 715-346-4816
Email: csd@uwsp.edu
Web: www.uwsp.edu/health/Pages/Major/csd.aspx

Communication sciences and disorders is the study of human communication processes with application to a variety of speech, language and hearing disorders. You acquire an academic base and clinical practicum experience for careers in speech-language pathology or audiology.

When you major in communication sciences and disorders you have two options: (1) **a major leading to educational certification**, and (2) a **major which does NOT lead to educational certification**. No minor is available. The CSD coordinator of undergraduate programs will advise you.

Speech, Language, and Hearing Clinic

Contact: Sondra Reynolds, Director of Clinical Services - Speech and Language Pathology

Email: rcraig@uwsp.edu

The Speech, Language, and Hearing Clinic offers speech-language diagnostic and therapy services as well as comprehensive hearing evaluations for children and adults. Assessment and treatment can be provided for numerous communication and swallowing concerns that may be secondary to cleft palate, cerebral palsy, autism, laryngectomy, hearing loss, cognitive disorders, learning disabilities, stroke, traumatic brain injury, or other neurological disorders.

The Speech, Language, and Hearing Clinic is a clinical training facility with a reputation for excellence in serving the university and Central Wisconsin by providing clinical services as part of the professional preparation of undergraduate and graduate students.

Credit-by-Exam and Test-Out Policy for Computer Information Systems

You may receive **credit by exam** for Advanced Placement Computer Science exams as follows:

- AP Computer Science Principles exam with a score of 3 or higher: CNMT 101 (3 credits)
- AP Computer Science A exam with a score of 3 or higher: CNMT 110 (4 credits). In addition, you will receive retroactive credit for CNMT 101.

Test-Out Policy

If you have appropriate programming experience but did not take an Advanced Placement exam, you may petition the department chairperson for permission to test out of CNMT 101 or CNMT 110. The request must be submitted no later than the first day of the fall or spring term during which you are enrolled to take the course you wish to test out of.

The test out exam will be written by the department chairperson and faculty member(s) who have most recently taught the course. The exam will contain questions pertaining to both programming and computing concepts and programming problems, as relevant to the learning objectives of the course. To pass, you must earn at least 70% of the available points in the exam.

Any course(s) that you successfully test out of will award credit for the corresponding course.

Dance Department

This area is in the School of Performing Artswithin the College of Fine Arts and Communication.

Michael Estanich, Dance Program Coordinator
Office: Room 140, Noel Fine Arts Center
Phone: 715-346-2500
Email: dance@uwsp.edu
Web: www.uwsp.edu/theatre-dance/Pages/Major/Dance.aspx

FACULTY AND ACADEMIC STAFF

M Estanich, L Golda, J Hanlin, M Hanson, C Hill, J Hill, P Luedtke, T Marchant, G Olsen, S Ross, L Schmeling, S Trovillion Smith, K Sneshkoff, J Strassburg

About the Department

UW-Stevens Point offers five theatre and dance degree tracks, including three highly competitive BFA programs in Musical Theatre, Acting, and Design & Technology. In addition, we offer two liberal arts degrees: the BA Dance Major and minor with coursework in ballet, modern, jazz, tap and theoretical studies, and the BA Drama Major which allows students to study multiple focused areas such as playwriting, dramaturgy, directing, design, and acting. These excellent academic and production programs have established UW-Stevens Point as a primary undergraduate center in Wisconsin for students interested in the performing arts.

Our alumni are working in all areas of the business, including:

- Broadway
- Film & Television
- Regional Theatres
- Cruise Ships
- National & International Tours and Stages
- Studio Owners and Entrepreneurs

Admission to all Theatre and Dance programs is by audition/interview only.

Credit-by-Exam Policy

The Theatre and Dance Department offers credit-by-exam for specific courses. If you wish to take the test-out exam, contact the department chair to arrange an exam with the appropriate faculty member. If credit is granted, results will be forwarded to the Office of the Registrar.

Transferring Credits

You may apply transfer credits to the major or minor with the approval of the department chair.

Annual Meetings

All theatre and dance majors and minors are required to attend the department orientation meeting held on the first Saturday of the fall semester.

Advising

Incoming theatre and dance majors and minors are assigned an adviser with the Academic and Career Advising Center for three semesters. After that, you will be assigned a Theatre and Dance faculty adviser.

Course Fees

Fees are charged in specified courses to cover the cost of materials.

Scholarships

The department awards scholarships to entering majors in all five programs based on theatre and dance admission auditions and interviews. All students auditioning for UW-Stevens Point's major program on each of our audition dates will be considered for an incoming major scholarship; there is not a separate scholarship application or an additional scholarship audition process. Several additional scholarships are available for returning students.

The department offers several scholarships based on ability and potential to entering students in dance, drama, acting, design/technology, and musical theatre. Several additional scholarships are available for returning students. All students auditioning for UW-Stevens Point's major programs on each of our audition dates will be considered for an incoming major scholarship; there is not a separate scholarship application or an additional scholarship audition process.

Performance and choreography

Each year the dance program provides multiple opportunities for you to perform and choreograph including in Afterimages, the student directed fall concert; Danstage, the spring concert featuring choreography by faculty and guest artists; Players Student Artistic Alliance, forums and events; repertory projects; composition course showings; camera dance projects; and all main stage and studio theatre productions.

Employment opportunities

The interdisciplinary focus of our dance program trains you to be innovative in creating and finding employment opportunities. Recent graduates perform on Broadway; with national and international dance companies; and in television, commercials and film. Others become dance videographers, form and direct dance companies, open private studios, and develop dance and related arts programs for school districts.

Courses for general university students

DNCE 103, DNCE 105, DNCE 114, and DNCE 115 are introductory courses open to all university students. You may apply one credit of DNCE 103 and DNCE 114 toward the General Education Program (GEP) Wellness requirement.

Dance courses for the community

Those outside the university who wish to enroll in selected dance courses must first contact the UW-Stevens Point Office of Admissions and Recruitment to determine eligibility to enroll as a special student. Registration is based on seat availability, technical placement, and permission of the dance faculty are also required.

Programs

Dance Major (BA)
Dance Minor

Courses

DNCE 103 - Modern IA - 2 Credits
DNCE 104 - Modern IB - 3 Credits

English Department

This area is in the School of Humanities and Global Studies within the College of Letters and Science.

Rebecca Stephens, Chair
Office: Room 486A, Collins Classroom Center
Phone: 715-346-3208
Email: restephe@uwsp.edu
Web: www.uwsp.edu/english

FACULTY AND ACADEMIC STAFF

D Arnold, J Berry, G Blume, M Bowman, I Clark Zavodoski, E Felt, L Gantz, M Gullickson, D Kuzmanovic, R Lorenz-Schumacher, L Ludwig, W Mahon, J Marshall, F McKee, L Morgan, E Ringelspaugh, D Roloff, R Sirabian, J Siegel, J Snowbarger, S Stella, R Stephens, J Stukenberg, R Tangedal, R Tanski, J Verona, J White, C Williams

English encompasses the study of literature, language, writing, and culture.

English Placement Procedure

For the General Education Program's (GEP) Written Communication requirement, you will be placed into ENGL 101 or ENGL 150 depending on your ACT score or Wisconsin English Placement Test scores and high school GPA.

Notes for English

1. English majors in all areas should take ENGL 200 as early as possible.
2. Sophomores may take 300 level courses with approval of the department chair. English majors may take 200 level courses once they have completed English 101 or 150.
3. ENGL 345, ENGL 375, and ENGL 381 count toward the English major/minor and the writing minor ONLY for those seeking teacher certification, or for those who need them as collateral requirements in other departments, or by department exception.
4. ENGL 274 and ENGL 275 will count for the English major/minor for teacher certification ONLY if you need them as collateral requirements in another area such as elementary education.

English Honors

English Honors provides outstanding English majors the opportunity to demonstrate their ability to produce scholarly, creative, or pedagogical work comparable with that published in discipline-appropriate academic journals. To graduate with the designation "English Honors" you must:

1. Have a 3.5 GPA in the English major.
2. Complete the requirements for the English major including ENGL 496 - Senior Honors Project: Product (3 credits) and its prerequisite, ENGL 495 (3 credits pass/fail which do not count toward the major).

Contact the English Department for application procedures and complete requirements for the two-semester honors project.

Credit-by-Exam Policy for English

If you wish to obtain credit-by-exam for any English general education course other than ENGL 101, contact the English Department chair. The faculty member who most recently taught the course will confer with you regarding date, site, question format, exam length, materials allowable (or necessary) during the exam, etc.

The written comprehensive exam will be based on material normally covered in the course. The faculty member will administer the exam and notify you in writing of your score within two weeks of taking the exam. A passing score is a B- or better. You may not take an exam for credit more than once for the same course. A nominal fee may be charged for administrative purposes.

Linguistics Minor AND Linguistics and Language Study Interdisciplinary Certificate

James Berry, Coordinator
Office: Room 441, Collins Classroom Center
Phone: 715-346-2385
Email: jberry@uwsp.edu

Graduate Programs

Rebecca Stephens, Graduate coordinator
Office: Room 486, Collins Classroom Center
Phone: 715-346-4757
Email: rstephe@uwsp.edu

In the English Department you may work toward the Master of Science in Teaching - English. If you seek to teach English or reading, you can gain advanced knowledge and training through these programs.

Programs

English Major (BA): Literature Option
English Major (BA): Writing, Editing, and Publishing Option
Biomedical Writing Minor
Creative Writing Minor
English for Educators Certificate
Linguistics Minor
English Minor
English (MST)
Professional Writing Minor
English Major (BA): Education Option
Linguistics and Language Study Interdisciplinary Certificate

The College of Natural Resources offers two different graduate degrees:

Master of Science (MS) in Natural Resources:

This is a thesis-based program leading to the MS degree with an emphasis in one of the following areas: forestry, wildlife, fisheries, water resources, environmental education/interpretation, soil science or waste management. This degree will prepare you for a research or management career, or for further study leading to a PhD.

Master of Natural Resources (MNR):

This is a non-thesis program offered completely online. The MNR is for advanced practitioners in natural resource management (and related fields) who are seeking a terminal degree to develop research, leadership, administrative, and communication skills. The degree is intended to assist participants in pursuing management roles within their current organizations and to enhance their professional abilities for promotion consideration. This degree will prepare you for a career in natural resources management.

Post Baccalaureate Concentration in Environmental Studies (for teacher licensure)

If you are a teacher with a license in secondary science you may receive licensure in environmental studies after completion of this concentration. Additional requirements include completion of Praxis II, Professional Development Portfolio, and student teaching at the appropriate developmental range and certification area. For more information, contact the School of Education at 715-346-2040.

Programs

Conservation and Community Planning Major (BS)
Conservation Law Enforcement Major (BS)
Climate Change Certificate
Conservation and Leadership (MNR)

Family and Consumer Science Department

This area is in the School of Health Sciences and Wellness within the College Professional Studies.

Family and Consumer Sciences

Contact: Cuiting Li, Retention Specialist
Office: Room 238, College of Professional Studies Building
Phone: 715-346-4082
Email: cli@uwsp.edu

Ideal for you if you are interested in helping individuals and families using a family lens. Typical graduates pursue a wide variety of careers helping children, youth, and families in community agencies and settings, including child life specialist. With additional graduate education, you can further broaden your options such as working in student affairs or as a marriage and family therapist (MFT).

Child Life Specialist Preparation Certificate

Contact: Cuiting Li, Retention Specialist
Office: Room 238, College of Professional Studies Building
Phone: 715-346-4082
Email: cli@uwsp.edu

Graduate Programs

CHILD LIFE SPECIALIST PREPARATION GRADUATE CERTIFICATE

Contact: Cuiting Li, Retention Specialist
Office: Room 238, College of Professional Studies Building
Phone: 715-346-4082

FAMILY AND CONSUMER SCIENCES TEACHING GRADUATE CERTIFICATION

Susan Turgeson, Professor, FCS Certified Teacher Education Program Director
Office: Room 302, College of Professional Studies
Phone: 715-346-2263
Email: sturgeso@uwsp.edu

The Graduate Teaching Certification in Family and Consumer Sciences provides opportunities for licensed teachers to add a new license in the area of family and consumer sciences (FCS). In addition, people who hold a non-teaching bachelor's degree can gain coursework for initial teacher licensure in FCS, in a condensed format. Pre-licensure students may need to take requisite undergraduate courses to qualify for the FCS graduate licensure program. See additional information about this program at www.uwsp.edu/health/Pages/graduate/FCS-certification.aspx.

Programs

Child, Youth and Family Studies Minor
Child Life Specialist Preparation Certificate
Child Life Specialist Preparation Graduate Certificate
Family Adversity and Adaptation Certificate
Family and Consumer Sciences Major (BS): Child Life and Family Studies Option
Families and Health Certificate
Family and Consumer Sciences Major (BS): Education Option

Courses

FCS 166 - The Family: Continuing Concerns - 3 Credits
FCS 190 - Developing Human Services Professionals - 3 Credits
FCS 295 - Ethics and Professional Development in Human Services - 3 Credits
FCS 340 - Clothing, Textiles, and Housing - 3 Credits
FCS 381 - Course Construction for Vocation Education - 2 Credits
FCS 382 - Techniques for Teaching Vocational Education - 2 Credits
FCS 383 - Evaluation in Vocational Education - 2 Credits
FCS 385 - Introduction to Vocational Guidance - 2 Credits
FCS 390 - Adult Education - 3 Credits
FCS 391 - Curriculum and Methods in Family and Consumer Sciences - 3 Credits

FCS 392 - Program Planning and Assessment in Family and Consumer Sciences - 3 Credits
FCS 394 - Principles of Career and Technical Education - 2 Credits
FCS 396 - Cooperative Occupational Education Program - 1 Credits
FCS 397 - Field Work - 1 - 12 Credits
FCS 398 - Student Teaching - 1 - 16 Credits
FCS 400 - Seminar for Student Teachers and Interns - 1 - 2 Credits
FCS 444 - Family Life Coaching - 3 Credits
FCS 498 - Intern Teaching - 1 - 16 Credits
FCS 540 - Clothing, Textiles, and Housing - 3 Credits

FCS 791 - Curriculum in Family and Consumer Sciences - 3 Credits
FCS 792 - Nutrition and Food Preparation for Healthy Living - 4 Credits
FCS 793 - Development and Guidance of Children and Adolescents - 3 Credits
FCS 797 - Student Teaching in K-12 Family Consumer Sciences Programs - 1 - 6 Credits
FCS 798 - Graduate Intern Teaching for Family and Consumer Sciences Certification - 3 Credits

Fisheries and Water Resources Department

This discipline is within the College of Natural Resources.

Kyle Herrman, Discipline Coordinator **Office**: Room 263, Trainer Natural Resources Building **Phone:** 715-346-4832 **Email:** kherrman@uwsp.edu OR cnr@uwsp.edu **Web:** https://www.uwsp.edu/cnr/college-of-natural-resources/fisheries-and-water-resources/
FACULTY AND ACADEMIC STAFF
K Clancy, K Herrman, J Homola, D Isermann, J Raabe, B Sloss, J Studinski, J VanDeHey

In fisheries and water resources, you select from options in fisheries and aquatic sciences, hydrology, or water resources. These prepare you for a career or graduate study in fishery science or management, aquatic biology, hydrology, hydrogeology (groundwater), laboratory analysis of water and environmental samples, aquatic toxicology, and the assessment and management of water resources.

Test-Out and Credit-by-Exam Policy for the College of Natural Resources

The College of Natural Resources offers credit-by-exam for all of its courses. The comprehensive exam for each course will be written and drawn from lecture and/or lab topics normally covered in the course.

If you wish to take an exam for credit, first confer with the CNR associate dean for academic affairs. Then confer with the faculty member who most recently taught the course. The faculty member will notify you in writing with any pertinent information about the exam including the required minimum passing score before you take the exam. You will receive your grade in writing within two weeks after taking the exam. Results will be forwarded to the Office of the Registrar if credit-by-exam is granted. You may take a test-out exam only once.

Programs

Fish and Water Resources Major (BS): Fisheries and Aquatic Sciences Option
Fish and Water Resources Major (BS): Hydrology Option
Fish and Water Resources Major (BS): Water Resources Option
Invasive Species Management Certificate
Water Resources Minor
Wetland Science Certificate
Water Resources and Policy Graduate Certificate

Courses

WATR 150 - Introduction to Water Resources and Fisheries - 3 Credits
WATR 200 - Preparing for a Career in Fisheries and Water Resources - 1 Credits
WATR 220 - Global Climate Change and Water Resources: Present-10th Century - 3 Credits
WATR 320 - Techniques in Fisheries and Aquatic Sciences - 3 Credits
WATR 324 - Invasive and Exotic Species - 3 Credits
WATR 338 - Phycology - 4 Credits
WATR 347 - Aquatic Plant Taxonomy - 2 Credits
WATR 350 - Current Issues in Water Resources - 1 - 3 Credits
WATR 353 - Fish Population Dynamics - 4 Credits
WATR 360 - Wetlands Ecology and Management - 3 Credits
WATR 361 - Aquatic Invertebrate Zoology - 3 Credits
WATR 366 - Wetland Soils and Wetland Delineation - 3 Credits
WATR 380 - Field Experience in Aquatic Ecosystem Evaluation - 1 Credits
WATR 381 - Internship in Water - 1 - 12 Credits
WATR 382 - Water and Wastewater Treatment - 3 Credits
WATR 383 - Hydrogeology - 3 Credits
WATR 384 - Life History of Fishes - 3 Credits
WATR 386 - Fish Culture - 3 Credits
WATR 388 - Aquatic Ecology - 3 Credits
WATR 389 - Hydrology - 3 Credits
WATR 390 - Water Chemistry and Analysis - 4 Credits
WATR 391 - GIS Applications in Natural Resources - 3 Credits
WATR 405 - Advanced Stream Field Techniques - 2 Credits
WATR 420 - Stream Hydrology, Habitat, and Restoration - 3 Credits
WATR 454 - Design of Constructed Wetlands - 1 Credits
WATR 456 - Erosion Control and Slope Stabilization - 1 Credits
WATR 462 - Environmental Biogeochemistry - 3 Credits
WATR 482 - Assessment of Aquatic Systems - 3 Credits
WATR 483 - Fisheries Research - 3 Credits
WATR 484 - Fisheries Management - 3 Credits
WATR 487 - Groundwater Geochemistry - 3 Credits
WATR 488 - Aquatic Insects - 3 Credits
WATR 492 - Advanced Techniques of Environmental Analysis - 3 Credits
WATR 493 - Advanced Hydrologic Analysis - 3 Credits
WATR 494 - Environmental Toxicology and Risk Assessment - 3 Credits
WATR 499 - Special Work - 1 - 3 Credits
WATR 520 - Techniques in Fisheries and Aquatic Sciences - 3 Credits
WATR 538 - Phycology - 4 Credits
WATR 547 - Aquatic Plant Taxonomy - 2 Credits
WATR 553 - Fish Population Dynamics - 4 Credits
WATR 560 - Wetlands Ecology and Management - 3 Credits
WATR 561 - Aquatic Invertebrate Zoology - 3 Credits
WATR 566 - Wetland Soils and Wetland Delineation - 3 Credits
WATR 581 - Internship in Water - 1 - 12 Credits
WATR 582 - Water and Wastewater Treatment - 3 Credits
WATR 583 - Hydrogeology - 3 Credits
WATR 584 - Life History of Fishes - 3 Credits

WATR 694 - Environmental Toxicology and Risk Assessment - 3 Credits
WATR 750 - Water Resources in Society - 1 - 3 Credits
WATR 755 - Multivariate Statistics in Fish and Wildlife Research - 3 Credits
WATR 760 - Water Resources and the Science, Policy and Politics of Climate Change - 3 Credits
WATR 777 - Ecology and Management of the Great Lakes - 3 Credits
WATR 781 - Recent Advances in Pollution Ecology - 3 Credits
WATR 784 - Advanced Studies in Fish Management - 3 Credits
WATR 786 - Indicator Organisms in Pollution Biology-Plant - 3 Credits

Forestry Department

This discipline is within the College of Natural Resources.

Melinda Vokoun, Discipline Coordinator
Office: Room 376, Trainer Natural Resources Building
Phone: 715-346-2342
Email: mvokoun@uwsp.edu
Web: https://www.uwsp.edu/cnr/college-of-natural-resources/forestry/

FACULTY AND ACADEMIC STAFF

L Anderson McIntyre, M Demchik, S Hubbard, H Petrillo, A Stefanski, M Tiller, J Tomaszewski, M Vokoun

Forestry is the science, art, and practice of creating, managing, using, and conserving forests and associated resources. Biological, quantitative, managerial, and social sciences are applied to forest management and conservation in urban and rural environments.

Accreditation: The educational programs in forest management, forest recreation, urban and community forestry and forest ecosystem restoration and management leading to the bachelor of science professional degree in forestry are accredited by the Society of American Foresters (SAF).

Objectives of the Forestry Program

1. To provide a sound undergraduate program of forestry education. The core of required forestry courses is based on standards for professional training established by the Society of American Foresters. Our program adds flexibility to help meet your professional objectives through the selection of collateral courses and specialized training.
2. To support and enhance the other majors in the College of Natural Resources and other academic programs of the university. The philosophy of the College of Natural Resources emphasizes the oneness of the environment. To that end all majors in the college require training in forestry, soils, water, and wildlife. You can combine minors or concentrations in these other disciplines with your forestry major to enhance your qualifications as a forestry professional.
3. To pursue new knowledge. Research is the basis of the graduate program. Research primarily in applied forestry is allied to the undergraduate program.
4. To apply contemporary forestry knowledge through continuing education and extension. The forestry program serves as a center for the exchange of knowledge through sponsorship of symposia, workshops, and seminars on contemporary subjects for forestry professionals and forest landowners.
5. To develop professionalism and an esprit de corps among students, alumni, and faculty. The faculty encourages continuing participation in professional and university activities by coordinating activities with the Society of American Foresters, the student chapter, local chapters, sections of the society, and the university alumni association.

Forestry Transfer Students

If you are transferring here from an accredited institution to pursue a degree in forestry, you must complete at least 21 credits of 300 and 400 level UW-Stevens Point forestry courses.

Programs

Fire Science Certificate
Forestry Major (BS): Ecosystem Management Option
Forestry Major (BS): Forest Management Option
Forestry Major (BS): Forest Recreation Option
Forestry Major (BS): Urban and Community Forestry Option
Forest Ecology and Health Minor
Forest Management Minor
Forest Recreation Minor
Trees and Greenspace Management Minor
Forest Health Certificate
Trees and Greenspace Management Certificate
Timber Marking Certificate

Courses

FOR 120 - Preparing for a Career in Forestry - 1 Credits
FOR 123 - Analytical Skills in Forestry - 2 Credits
FOR 125 - Lumberjack-jill Sports as a Path to Wellness - 1 Credits
FOR 224 - Fire Operations - 1 Credits

FOR 232 - Dendrology and Silvics - 3 Credits
FOR 305 - Pulpcut - Chainsaw Safety and Use I - 1 Credits
FOR 306 - Pulpcut - Chainsaw Safety and Use II - 1 Credits
FOR 310 - Mechanical and Physical Properties of Wood - 3 Credits
FOR 319 - Land Surveying - 1 Credits
FOR 320 - Field Experience in Forest Measurements - 1 Credits
FOR 321 - Natural Resources Data Analysis - 4 Credits

Geography and Geology Department

This area is in the School of Behavioral and Social Sciences within the College of Letters and Science.

Doug Miskowiak, Chair **Office**: Room B307, Science Building **Phone**: 715-346-4789 **Email**: geoggeol@uwsp.edu **Web**: www.uwsp.edu/geo
FACULTY AND ACADEMIC STAFF
S Kaplan, E Larsen, D Miskowiak, I Odogba, L Siewert

Geography is the study of spatial patterns to the earth's physical and human environments, and the art and science of map making. Geographers study where things are located on the surface of the earth and why. They also study how places differ from one another, and how people interact with the environment.

Geology is the scientific study of the history, structure, and composition of the earth, the natural processes that alter the earth's surface, and the resources and hazards associated with the geologic environment.

The geospatial sciences major prepares you for careers or graduate study in geospatial analytics, field and mapping technologies, environmental science and consulting, geospatial intelligence, geographic information systems, remote sensing, planning and geodesign.

Recent graduates from our program have obtained employment in a variety of positions within:

- public and private land management with consulting firms and various governmental agencies at city, county, state, regional and federal level;
- environmental, civil, and geological engineering firms;
- urban and regional planning agencies;
- mapping and photogrammetric firms;
- natural resource management agencies (private and public);
- sustainability and energy companies; and
- resource extraction corporations.

Abbreviations:

GIS = Geographic Information Systems

Test-Out and Credit-by-Exam Policy for Geography and Geology

1. The Department of Geography and Geology will offer test-out examinations for all of its general education courses. If you wish to take a test-out examination, first confer with the department chair. Then confer with the faculty member who most recently taught the course.
2. The comprehensive written exam will be based on material normally covered in the course. The faculty member will notify you in writing before you take the exam of the required minimum passing score. You will receive your grade in writing within two weeks after taking the exam.
3. Credit will not be granted for GEOG 100 and GEOL 100, but you will receive a waiver for the corresponding General Education Program (GEP) requirement. You may take a test-out exam only once.

Programs

Community Sustainability Major (BS)
Urban Planning and Geodesign Minor
Earth Science Minor
Environmental Geography Minor
Geospatial Sciences Major (BS)
Geographic Information Systems and Spatial Analysis Minor
Geographic Information Systems (GIS) Professional Graduate Certificate
Geographic Information Systems (GIS) Professional Certificate

Courses

GEOG 100 - Human Impacts on the Physical Environment - 3 Credits
GEOG 105 - The Dynamic Earth - 3 Credits
GEOG 108 - Introduction to Meteorology - 3 Credits
GEOG 115 - World Regional Geography - 3 Credits
GEOG 120 - Human Geography - 3 Credits
GEOG 141 - The Geospatial Revolution - 3 Credits
GEOG 170 - Disasters - Living on the Edge - 4 Credits
GEOG 198 - Reading in the Discipline - 1 Credits
GEOG 208 - Weather and Climate - 3 Credits
GEOG 215 - North America - 3 Credits
GEOG 230 - Introduction to Regional Planning and Geodesign - 3 Credits
GEOG 260 - Introduction to Cartography: Map Conceptualization and Development - 3 Credits
GEOG 303 - Processes of Environmental Degradation - 3 Credits
GEOG 308 - Climate: Past, Present and Future - 3 Credits
GEOG 312 - Geomorphology - 3 Credits
GEOG 315 - Wisconsin - 2 - 3 Credits
GEOG 317 - Africa - 3 Credits
GEOG 330 - Urban and Regional Planning Analysis - 3 Credits
GEOG 331 - Planning Theory and Ethics - 3 Credits
GEOG 333 - Foundations of Geodesign - 3 Credits
GEOG 341 - Geographic Information Systems I - 3 Credits
GEOG 342 - GIS Database Design and Data Modeling - 3 Credits
GEOG 343 - Geographic Information Systems II - 3 Credits
GEOG 361 - Dynamic Cartography - 3 Credits
GEOG 377 - Remote Sensing I - 3 Credits
GEOG 390 - Applied Statistics in Geography - 3 Credits
GEOG 391 - Special Topics - 1 - 3 Credits
GEOG 393 - Field Trip in Geography - 1 - 3 Credits
GEOG 395 - Directed Study - 1 - 3 Credits
GEOG 399 - Research - 1 - 3 Credits
GEOG 430 - Advanced Urban and Regional Planning Analysis - 3 Credits
GEOG 433 - GIS and Geodesign for Sustainability and Resiliency - 3 Credits
GEOG 441 - GIS Programming and Customization - 3 Credits
GEOG 445 - GIS Environmental Modeling and Management Techniques - 3 Credits
GEOG 447 - GIS Web Server Applications and Administration - 3 Credits
GEOG 477 - Remote Sensing II - 3 Credits
GEOG 480 - Internship in Geography - 1 - 12 Credits
GEOG 485 - Practicum in Geography - 1 - 3 Credits
GEOG 490 - Senior Research - 3 Credits
GEOG 491 - Senior Thesis - 3 Credits
GEOG 496 - Community Development Practices - 3 Credits
GEOG 497 - Geographic Information Science Capstone - 3 Credits
GEOG 503 - Processes of Environmental Degradation - 3 Credits
GEOG 508 - Climate: Past, Present, and Future - 3 Credits
GEOG 512 - Geomorphology - 3 Credits
GEOG 517 - Africa - 3 Credits
GEOG 530 - Urban and Regional Planning Analysis - 3 Credits
GEOG 531 - Planning Theory and Ethics - 3 Credits
GEOG 533 - Foundations of Geodesign - 3 Credits
GEOG 541 - Geographic Information Systems I - 3 Credits
GEOG 561 - Dynamic Cartography - 3 Credits
GEOG 577 - Remote Sensing I - 3 Credits
GEOG 591 - Special Topics - 1 - 3 Credits
GEOG 593 - Field Trip in Geography - 1 - 3 Credits
GEOG 595 - Directed Study - 1 - 3 Credits
GEOG 599 - Research - 1 - 3 Credits
GEOG 630 - Advanced Urban and Regional Planning Analysis - 3 Credits
GEOG 633 - GIS and Geodesign for Sustainability and Resiliency - 3 Credits
GEOG 641 - GIS Programming and Customization - 3 Credits
GEOG 645 - GIS Environmental Modeling and Management Techniques - 3 Credits
GEOG 677 - Remote Sensing II - 3 Credits
GEOG 696 - Community Development Practices - 3 Credits
GEOG 731 - Geodesign Methods - 3 Credits
GEOG 733 - Geospatial Approaches to Conservation Design and Adaptation - 3 Credits
GEOG 734 - Geodesign Capstone - 3 Credits
GEOG 742 - GIS Database Design and Modeling - 3 Credits
GEOG 743 - Advanced Geospatial Techniques - 3 Credits
GEOG 779 - Geographic Techniques for Educators and Professionals - 1 - 3 Credits
GEOL 100 - Geology and Science - 3 Credits
GEOL 104 - Physical Geology - 4 Credits
GEOL 105 - Historical Geology - 4 Credits
GEOL 106 - Earth History - 1 Credits
GEOL 150 - Planetary Geology - 3 Credits
GEOL 170 - Disasters - Living on the Edge - 4 Credits
GEOL 198 - Reading in the Discipline - 1 Credits
GEOL 230 - Environmental Geology - 3 Credits
GEOL 308 - Climate: Past, Present, and Future - 3 Credits
GEOL 312 - Geomorphology - 3 Credits
GEOL 370 - Glacial Geology - 3 Credits
GEOL 383 - Hydrogeology - 3 Credits
GEOL 390 - Environmental Policy and Geology - 3 Credits
GEOL 391 - Special Topics - 1 - 3 Credits
GEOL 393 - Field Trip in Geology - 1 - 3 Credits
GEOL 395 - Directed Study - 1 - 3 Credits
GEOL 399 - Research - 1 - 3 Credits
GEOL 480 - Internship in Geology - 1 - 12 Credits
GEOL 485 - Practicum in Geology - 1 - 3 Credits
GEOL 487 - Groundwater Geochemistry - 3 Credits
GEOL 490 - Senior Research - 3 Credits
GEOL 491 - Senior Thesis - 3 Credits
GEOL 508 - Climate: Past, Present, and Future - 3 Credits
GEOL 512 - Geomorphology - 3 Credits
GEOL 570 - Glacial Geology - 3 Credits
GEOL 583 - Hydrogeology - 3 Credits
GEOL 593 - Field Trip in Geology - 1 - 3 Credits
GEOL 595 - Directed Study - 1 - 3 Credits
GEOL 687 - Groundwater Geochemistry - 3 Credits
GEOL 730 - Environmental Geology for Educators - 1 Credits
SUST 100 - Sustainability as a Profession - 1 Credits
SUST 299 - Sustainability and Community Engagement - 1 Credits
SUST 499 - Seminar in Applied Sustainability - 1 Credits

Graphic Design Department

This area is in the School of Design and Communication within the College of Fine Arts and Communication.

Stuart Morris, Area Coordinator **Office:** Room 163A, Noel Fine Arts Center **Email:** stmorris@uwsp.edu **Web:** https://www3.uwsp.edu/schoolofdesign/Pages/major/Graphic%20Design.aspx
FACULTY AND ACADEMIC STAFF
T McLean, S Morris

Accreditation: The Graphic Design Area is an accredited member of the National Association of Schools of Art and Design (NASAD). It is one of five such accredited programs in the UW System.

Enrollment Management Plan

The Graphic Design Area is a limited enrollment program. Students admitted to the university are accepted into graphic design in order of application. We encourage you to apply as early as possible.

Professional Opportunities in Graphic Design

Programs of study in the Graphic Design Area prepare you for careers in corporate & not for profit in house positions, ad and design agencies, freelance opportunities, consulting work, or developing your own business.

Recommended High School Preparation

In addition to the university requirements for admission and entry into the graphic design program, high school courses in art and design are highly recommended. If you are planning to enter the professional graphic design (Bachelor of Fine Arts) program, four years of English, one year of algebra, two years of foreign language, and two years of science in high school are recommended.

General Requirements for Graphic Design

The Graphic Design Area offers the Bachelor of Fine Arts degrees. See the previous section of this catalog entitled General Education.

Courses for Non- Graphic Design Majors

Subject to availability, courses in the graphic design Area are open to all students who meet the prerequisites and secure School permission. You do not need prior consent for courses that are open to non-art majors.

Exhibition Material

The Graphic Design Area reserves the right to retain examples of student work for exhibition purposes.

Visiting Artist and Scholar Program, and Edna Carlsten Gallery

The Graphic Design Area also maintains an ongoing program of visiting artists and scholars to supplement the curriculum, and a cooperative schedule of operations and exhibitions with the Edna Carlsten Gallery, housed in the Noel Fine Arts Center. The gallery regularly displays traveling shows and exhibits for student and public viewing.

Course Fees for Graphic Design

Fees are charged for certain courses to cover the cost of consumable materials.

Transfer credits

Please refer to the university policy on transferred credits in the Transfer Credits section of this catalog.

Entry status

All entering graphic design majors (freshmen, changes of major, and transfers) are accepted into the graphic design program. Acceptance into the graphic design BFA is achieved by passing the BFA Portfolio Review, as described below.

Test-Out and Credit-by-Exam Policy for Art & Design

The Graphic Design Area has test-out and credit-by-exam procedures for all General Education Program Requirement art courses. If you wish to test out and receive credit-by-exam, you must first confer with the faculty member who teaches the course about requirements for the exam and grading procedures. If you pass the exam, the GEP requirement will be waived, you will receive credit for the course, and the course may count toward an art major and/or minor if appropriate.

The cumulative exam will consist of a specific exercise or series of exercises different from those used in the existing course. In a course with a significant research component, you may be required to do an appropriate project. You may take a test-out/credit-by-exam test only once.

Academic Appeal

You may appeal any action taken by the School of Design & Communication that is based on School requirements and policies that are set forth in this catalog. You must appeal in writing to the assistant dean within 30 days of notification of the action taken. The assistant dean will determine whether a review is appropriate.

Accommodations for Students with Disabilities

The School of Design & Communication works cooperatively with the Disability Resource Center to ensure that qualified students with disabilities are provided equal access and accommodations appropriate to their disability in their academic programs and pursuits.

Students with a graphic design major who have a documented disability may qualify for services through the UW-Stevens Point Disability Resource Center. Depending on the student's individual needs as related to their disability, they may utilize accommodations that could include, but not limited to, classroom, testing, reading and writing accommodations as appropriate. Inquiry or referral for accommodation services should be directed to the Coordinator of the Disability Resource Center.

Programs

Graphic Design Major (BFA)

Courses

DSN 101 - Foundation Studio: Drawing and Visualization - 3 Credits
DSN 102 - Foundation Studio: Surface and Concept - 3 Credits
DSN 103 - Foundation Studio: Space, Form, and Function - 3 Credits
DSN 104 - Foundation Studio: Color, Light, and Perception - 3 Credits
GD 201 - Professional Practice I: Processes and Tools - 3 Credits
GD 202 - Professional Practice II: Processes and Systems - 3 Credits
GD 210 - Visual Culture I: Representation - 3 Credits
GD 220 - Visual Culture II: Narrative - 3 Credits
GD 301 - Professional Practice III: Type and Image - 3 Credits
GD 302 - Professional Practice IV: Industry and Identity - 3 Credits
GD 310 - Visual Culture III: Motion and Space - 3 Credits
GD 320 - Problem Solving I: Branding and Marketing Campaigns - 3 Credits
GD 330 - Graphic Design and Contemporary Culture - 3 Credits
GD 401 - Professional Practice V: Design Research Methods - 3 Credits
GD 402 - Professional Practice VI: Design Internship - 1 - 4 Credits
GD 410 - Problem Solving II: Systems and Strategies - 3 Credits
GD 420 - Problem Solving III: Identity Systems and Marketing Strategies - 3 Credits
GD 430 - Professional Practice VII: Graphic Design Portfolio - 3 Credits

Health Science and Wellness Department

This area is in the School of Health Sciences and Wellness within the College Professional Studies.

Health Information Management and Technology (HIMT)

Contact: Aysha Hussain, Academic Director, HIMT Program Director
Office: Room D143 Science Building
Phone: 715-346-2508
Email: dmccarty@uwsp.edu or ahussain@uwsp.edu

Accreditation: UW-Stevens Point HIMT program is accredited through the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM).

Health Science and Wellness

Contact: Beth Kinslow, Assistant Professor, Program Director
Office: Room B137, Science Building
Email: bkinslow@uwsp.edu

PROGRAM ASSOCIATES
S Clark, T Firkus

A physical therapist is a movement expert dedicated to improving quality of life through prescribed exercise, hands-on care, and patient education. Physical therapists diagnose and treat individuals of all ages and care for people who want to become healthier and prevent future movement related problems.

Abbreviations:

- CAPTE = Commission on Accreditation in Physical Therapy Education
- DPT = Doctor of Physical Therapy

- FSBPT = Federation of State Boards of Physical Therapy
- PT = Physical Therapist

Accreditation: Graduation from a physical therapist education program accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 3030 Potomac Ave., Suite 100, Alexandria, Virginia 22305-3085; phone: 703-706-3245; accreditation@apta.org is necessary for eligibility to sit for the licensure examination, which is required in all states.

The University of Wisconsin-Stevens Point is seeking accreditation of a new physical therapist education program from CAPTE. On November 22, 2021, the program submitted an Application for Candidacy, which is the formal application required in the pre-accreditation stage. Submission of this document does not assure that the program will be granted Candidate for Accreditation status. Achievement of Candidate for Accreditation status is required prior to implementation of the professional phase of the program; therefore, no students may be enrolled in professional courses until Candidate for Accreditation status has been achieved.. Further, though achievement of Candidate for Accreditation status signifies satisfactory progress toward accreditation, it does not assure that the program will be granted accreditation. [1]

[1] CAPTE Rules of Practice and Procedure 7.8 (f) Page 51 December 2018

Transfer Students

The DPT program will consider candidates for transfer on a case-by-case basis with Admissions decisions and conditions of transfer made by the Admissions Committee. If you are requesting transfer from another DPT program, you should contact the Program Director and be prepared to provide:

1. A cover letter stating reasons for transfer;
2. A copy of transcripts from all institutions attended;
3. A copy of GRE scores from the most recently taken GRE;
4. A copy of TOEFL scores if required.

You may not transfer in more than one year equivalent of course credits (no more than 45 credits). This may require you to repeat coursework that has already been successfully completed on another campus. If you are admitted through transfer, you will develop an individualized plan of study approved by the Admissions Committee prior to matriculating into the DPT program.

Required Courses

For list of required courses, please see www.uwsp.edu/dpt

HEALTH AND WELLNESS COACHING GRADUATE CERTIFICATE

Brian Krolczyk, Assistant Professor, HWC Program Director
Office: Room 242B, College of Professional Studies
Phone: 715-346-4801
Email: bkrolczy@uwsp.edu

HEALTH SCIENCE EDUCATION GRADUATE CERTIFICATE

Susan Turgeson, Professor, FCS Certified Teacher Education Program Director
Office: Room 302, College of Professional Studies
Phone: 715-346-2263
Email: sturgeso@uwsp.edu

SENIOR LIVING AND SERVICES LEADERSHIP GRADUATE CERTIFICATE

Jodi Olmsted, Professor, MS-HCA Academic Program Director
Office: Room 144D, Science Building

History and International Studies Department

This area is in the School of Humanities and Global Studies within the College of Letters and Science.

Brett Barker, Chair **Office**: Room 477B, Collins Classroom Center **Phone**: 715-346-4478 **Email**: bbarker@uwsp.edu **Web**: www.uwsp.edu/history
FACULTY AND ACADEMIC STAFF
B Barker, V Barske, C Haala, J Harper, E Jessee, J Leigh, R Lowe, M Moua, N Prendergast, L Willis, L Wood

History Honors Program

The History Honors Program provides history majors with the opportunity to undertake a significant research project as a capstone experience. To graduate in the History Honors Program:

1. Have a 3.5 GPA.
2. Complete the requirements for history major including 6 credits of HIST 495 normally taken in two consecutive semesters. History minors may complete the honors program with permission of department chair.
3. In consultation with your thesis adviser and the department chair, select at least one other reader from the History Department faculty.
4. Defend a prospectus of your thesis topic before your adviser and reader(s) during the first 3 credits of HIST 495.
5. Defend a 40-60 page thesis before your adviser and reader(s) in the second 3 credits of HIST 495.

Test-Out and Credit-by-Exam Policy for History

You may test-out and/or receive credit-by-exam for all General Education Program (GEP) history courses. You may receive credit-by-exam for HIST 176, HIST 177, HIST 256, and HIST 257 by passing the appropriate Advanced Placement Program Examination (AP) or College Level Examination Program (CLEP) Subject Examination through the UW-Stevens Point Testing Service. The minimum score for an AP exam is 3 and for CLEP it is the 50th percentile.

To test-out but not receive credit for all other GEP history courses, first consult with the department chair. A comprehensive written exam based on materials normally covered in the course will be administered by the faculty member who teaches the course. The minimum required score for all such exams is a B- or its numerical equivalent. You may take an exam for credit or test-out only once.

Abbreviation: INTL = International Studies

International Studies Honors Program

The International Studies Honors Program provides additional opportunity and challenge to students interested in a particular research problem. To graduate with the Honors Program in International Studies you must:

1. Have a 3.5 GPA.
2. Complete the requirements for the International Studies major or minor.

3. Submit a written proposal for a two-semester research project that meets the approval of the International Studies coordinator and a thesis adviser who is selected in consultation with the International Studies coordinator.
4. Complete and successfully defend a thesis of 40-60 pages by enrolling in two semesters of INTL 495.

Test-Out and Credit-by-Exam Policy for International Studies

You may test-out or receive credit-by-exam for all General Education Program (GEP) requirement courses. If you wish to test-out or receive credit-by-exam for courses in the international studies major/minor, you must make arrangements with the appropriate department. Consult with the international studies coordinator. A comprehensive written exam based on materials covered in a course will normally be administered by the faculty member who teaches the course. The minimum required score for all such exams is a B- or its numerical equivalent. You may take an exam for credit or test-out only once.

Resources for History Graduate Program

In the government publications division of Albertson Hall (ALB) you will find a rich collection of public documents on international and national as well as state and local topics. As an Area Research Center, the ALB collects U.S. government publications and Wisconsin government publications. It also has a growing collection of public documents and private papers. With these materials, you may research such areas as 20th century diplomatic and military history, English history, 18th and 19th century United States history, and American Indian history.

Interior Architecture Department

This area is in the School of Design and Communication within the College of Fine Arts and Communication.

Katja Marquart, Area Coordinator **Office**: Room 187, Noel Fine Arts Center **Email:** Interior.architecture@uwsp.edu or kmarquar@uwsp.edu **Web:** https://www.uwsp.edu/schoolofdesign/Pages/major/Interior-Architecture.aspx
FACULTY AND ACADEMIC STAFF
B Burnette, C Burch, A Kadoch, K Marquart, L Schade-Stroik, C Von Gnechten

Test-Out and Credit-by-Exam Policy for Interior Architecture

The Division of Interior Architecture will offer credit-by-exam for the following GEP courses: IA 120, IA 130, IA 150, and IA 160. Material normally covered in the courses forms the basis of the comprehensive written exams.

If you wish to take an exam for credit, first confer with the IA division head. Then meet with the faculty member who most recently taught the course who will, prior to administering the exam, inform you in writing of the required minimum passing score. The results will be provided in writing within two weeks of taking the exam. You may take an exam for credit only once for each course.

Transfer Policy for Interior Architecture

In order to transfer art or design credits from other institutions, you must submit a portfolio of previous work and grade transcripts, syllabi, and requested supporting course documentation. Acceptance of transfer credit depends on successful portfolio evaluation and placement.

If you wish to transfer into the interior architecture major through an approved articulation agreement with another institution, you must successfully meet the requirements as put forth in the agreement. Contact the Division of Interior Architecture to make any credit transfer requests.

Programs

Interior Architecture Major (BFA)

Courses

IA 100 - Orientation to the Profession - 1 Credits
IA 101 - Design Fundamentals I - 3 Credits
IA 104 - Presentation Techniques I - 3 Credits
IA 117 - Introduction to Interior Architecture - 3 Credits
IA 120 - Human Behavior and Built Environments - 3 Credits
IA 130 - Architectural Environments - 3 Credits
IA 150 - Cross Cultural Survey of Applied Design - 3 Credits
IA 160 - Survey of Creative Expression: U.S. Diversity, Identity and Material Culture - 3 Credits
IA 200 - Introduction to Professional Development - 1 Credits
IA 201 - Design Fundamentals II - 3 Credits
IA 204 - Digital Design and Presentation Techniques I - 3 Credits
IA 210 - History of Architecture and Design: European Influences - 3 Credits
IA 217 - Interior Architecture I - 3 Credits
IA 301 - Design Charrette - 1 Credits
IA 304 - Digital Design and Presentation Techniques II - 3 Credits
IA 305 - Store Planning and Design - 3 Credits
IA 306 - History of Architectural Design in the Americas - 3 Credits
IA 310 - History of Architecture and Design: Non-European Influences - 3 Credits
IA 312 - Applied Advanced History and Theory of Architectural Design and Decorative Arts - 3 Credits
IA 315 - Sustainable Design - 3 Credits
IA 317 - Interior Architecture II - 3 Credits
IA 322 - Architectural Systems I - 3 Credits
IA 324 - Architectural Systems II - 3 Credits
IA 326 - Lighting Design - 3 Credits
IA 331 - Architectural Watercolor - 3 Credits
IA 378 - People, Interfaces and Environments - 4 Credits
IA 391 - Study Tour - 1 - 6 Credits
IA 393 - Comprehensive Design Study Tour - 1 Credits
IA 394 - Field Experience - 3 Credits
IA 396 - Advanced Field Experience - 1 - 12 Credits
IA 399 - Special Work - 1 - 3 Credits
IA 400 - Professional Development - 1 Credits
IA 404 - Digital Design and Presentation Techniques III - 3 Credits
IA 410 - Professional Practice - 3 Credits
IA 415 - Problems in Interior Architecture - 2 - 4 Credits
IA 417 - Interior Architecture Advanced Studio I - 4 Credits
IA 418 - Interior Architecture Advanced Studio II - 4 Credits
IA 420 - Interior Architecture Senior Portfolio and Exhibition - 3 Credits
IA 470 - Advanced Computer Applications in Interior Architecture - 3 Credits
IA 490 - Special Topics - 1 - 4 Credits
IA 591 - Study Tour - 1 - 6 Credits
IA 690 - Special Topics - 1 - 4 Credits

Mathematical Sciences Department

This area is in the School of Mathematics, Computing, Physics, and Astronomy within the College of Letters and Science.

Daniel Harnett, Chair **Office**: Room D353, Science Building **School Office Phone:** 715-346-2120 **Email**: mathsci@uwsp.edu **Web**: www.uwsp.edu/mathsci
Kavita Bhatia, Coordinator of Mathematics Service Courses **Office**: Room 207B Leopold, Marshfield Campus **School Office Phone**: 715-346-2120 **Email**: kbhatia@uwsp.edu
FACULTY AND ACADEMIC STAFF
G Adams, K Bhatia, S Budak, A Felt, H Gonchigdanzan, D Harnett, E Herman, C Hoppe, J Juedes, S Kanbir, L Kennedy, G Kopitzke, R Kreczner, M Lee, S Liang, S Maity, C McCabe, D Rohm, T Rood, K Schoenecker, A Schuller, J Strick, B Tirel, D Urbina, M Veum, T Zhang

Mathematics is the study of quantity, form, arrangement and magnitude. It is the study of the measurement, properties, and relationships of quantities, using numbers and symbols.

Mathematics Placement Test

The mathematics placement test is given to all new freshmen as they enter the university. The test covers the material found in the usual four-year high school mathematics program (two years of algebra, geometry, and precalculus) and the scoring varies according to the amount of mathematics you have taken. The test results are used to place you at the appropriate level of mathematics at UW-Stevens Point. At some of these levels you will be able to choose from several courses after examining their prerequisites. If you did not take the test at the time you entered the university, you may arrange for it at the department office.

MATH PLACEMENT CODE	HAS COMPLETED WORK EQUIVALENT TO	HAS COMPLETED PREREQUISITES FOR (OR HAS PLACED INTO)	QUANTITATIVE LITERACY NOTES
Code CALC	MATH 90, MATH 95, MATH 107, MATH 118 and MATH 119	MATH 225	QL requirement is satisfied
Code TRIG	MATH 90, MATH 95, MATH 107 and MATH 118	MATH 119 and other course with a MATH 107 prerequisite	QL requirement is satisfied
Code PC	MATH 90, MATH 95, MATH 107 and MATH 119	MATH 118 and other course with a MATH 107 prerequisite	QL requirement is satisfied
Code CL20	MATH 90, MATH 95 and MATH 107	MATH 109, MATH 111, MATH112, MATH 118, MATH 119	Student needs a QL course
Code CL10	MATH 90 and MATH 95	MATH 107, MATH 228, MATH 255	Student needs a QL course
Code DEV20	MATH 90	MATH 95, MATH 105	Student needs a QL course
Code DEV10	No UWSP Course	MATH 90	Student needs a QL course

Test-Out and Credit-by-Exam Policy for Mathematics

The principal test-out procedure for mathematics is the UW System Mathematics Placement Exam. You are placed in math courses based on that exam and may place out of the mathematics requirement.

1. If you do not feel the placement test has accurately reflected your ability, you may retake the test once, OR you may take the final exam for any General Education Program (GEP) requirement math course. If you score 70% or higher, you will be exempt from that course.
2. You may also use AP (Advanced Placement) scores to receive advanced placement and credit-by-exam. If you score a 3 or higher on the AP Calculus AB exam, you can receive credit for MATH 225. If you score a 3 or higher on the AP Calculus BC exam, you can receive credit for both MATH 225 and MATH 226.
3. If you took calculus in high school but did not take the AP exam, you may be placed directly into MATH 226 at the discretion of the department chair. If you earn a grade of B or better in MATH 226, you will receive retroactive credit for MATH 225.

Media Studies Department

This area is in the School of Design and Communication within the College of Fine Arts and Communication.

Alex Ingersoll, Area Coordinator
Office: Room 309, Communication Arts Center
Email: aingerso@uwsp.edu
Web: https://www3.uwsp.edu/schoolofdesign/Pages/major/Media-Studies.aspx

FACULTY AND ACADEMIC STAFF

C Elza, L Fakazis, A Ingersoll, K Obsatz, K Wilz

Test-out, Credit-by-Exam, and Retroactive Credit Policy

If you think you qualify for the above, contact the Media Studies Area coordinator who will determine whether the exam will be for test-out, credit-by-exam, and/or retroactive credit. A designated instructor will administer a written exam that evaluates your level of ability with the content of the course. A grade of B or better will qualify for test-out.

Courses that involve applied skills and/or oral performance may also require a second performance evaluation if you score well enough on the written exam.

Programs

Medical Laboratory Science Department

This area is in the School of Health Sciences and Wellness within the College Professional Studies.

Contact: Dawn Barten, MLS Program Director
Office: Room D147 Science Building
Phone: 715-346-2509
Email: dbartenhealth@uwsp.edu

Medical laboratory science consists of (1) medical technology for performing lab tests used in preventing, diagnosing, and monitoring diseases; (2) cytotechnology for examining tissues and fluids microscopically to distinguish cancerous from normal cells; and (3) histotechnology for preparing slides for microscopic examination using complex processing and staining techniques. Professionals in these fields study microbiology, hematology, clinical chemistry, immunology, blood bank and more.

Accreditation: UW-Stevens Point MLS-Medical Technology program is accredited through the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS).

Affiliation agreements

This university has affiliation agreements with medical facilities to provide clinical practicum education for seniors. Additional clinical training fee is required. The director and the educational coordinators of the affiliated clinical laboratories are given courtesy appointments as university honorary associate faculty.

(Also see listings here)

Six-month Clinical

- Aspirus Howard Young Medical Center, Woodruff
- Aspirus Rhinelander Hospital, Rhinelander
- Aspirus Stevens Point Hospital, Stevens Point
- Aspirus Langlade Hospital, Antigo
- Aspirus Riverview Hospital, Wisconsin Rapids
- Aurora Health Care/ACL Laboratories, West Allis {includes Grafton, Green Bay, Kenosha, Milwaukee, Oshkosh, Sheboygan and Summit)

FACULTY AND ACADEMIC STAFF

CPT Olivia Logan, MSG Ben Will, SFC Nick Kenton, SFC Cedric Gustave

The Military Science Department, through the Army's Reserve Officers' Training Corps (ROTC), offers you an opportunity to receive a commission as a second lieutenant in the U.S. Army, Army Reserve or Army National Guard. While not an academic major, the military science program (MSL) is taken in conjunction with and supports your undergraduate or graduate degree. The MSL curriculum provides you with the necessary skills, attributes and experience to successfully lead in a civilian and/or military career. Courses and training are conducted on campus, in the local area or at military training facilities. Army ROTC also offers a variety of scholarships and financial incentives if you choose to commit to military service as an officer. MSL is divided into a basic course and an advanced course.

MSL Basic Course, 9 credits: Freshman level courses MSL 101 , MSL 102, and MSL 111 introduce you to the Army profession and military leadership. Sophomore level courses MSL 201 and MSL 202 focus on an experiential examination of leadership, decision making and group dynamics. This basic course will give you a basic understanding of the unique aspects of the officer corps, fundamentals of leadership and decision making, Army institutional values, and principles of individual fitness and healthy lifestyles. Lessons emphasize practical classroom exercises, inspire intellectual curiosity, and stimulate self-study. These classes can be taken during study abroad.

MSL Advanced Course, 16 credits: Prerequisite for the advanced course is the basic course or advanced placement credit. Components of the advanced course are: (1) junior level courses MSL 301 and MSL 302 for advanced leadership and decision-making development; (2) Leader Development and Assessment Course (LDAC) described below; and (3) senior level courses MSL 401 and MSL 402 with experiential learning to guide you through transition from cadet to Army officer. The lessons are sequenced, linked and progressive to target development of key officer/leader competencies. Cadets hold leadership positions throughout the semester and have significant responsibilities in planning and leading training. You must maintain a 2.0 GPA to receive a commission.

Advanced Placement Credit: You may request placement into the advanced course from the department chair provided you have completed either the Leader's Training course (LTC) described below or a basic training course with Military Occupational Skills assignment in one of the armed services. If approved you will receive a total of 8 credits with the completion of either MSL 101, MSL 102, or MSL 301 with a grade of C or better. If you are not intending to complete the ROTC program, you should take MSL 101 or MSL 102. If you are intending to complete ROTC, you should see the department prior to registering for a class.

Internships: Military Science offers two types of internships that may, with consent of the department chair and the department chair of your academic major, fulfill other academic internship requirements.

1. Leader's Training Course (LTC) (no military obligation incurred). This paid, four-week course held at Fort Knox, Ky., is open to sophomores and juniors with four semesters of undergraduate study remaining who have not already completed a basic military training course in any of the armed services or the MSL basic course. The high adventure, activity-based training develops leadership, decision-making and management skills. Prerequisites are motivation, initiative and a drive for adventure. Upon completion you receive 8 credits and have the opportunity to enter the MSL advanced course to pursue a commission as a second lieutenant in the Army.
2. Leader Development and Assessment Course (LDAC) (military service obligation required). This internship provides the single most important block of training and evaluation in the progression of an Army cadet. Throughout LDAC's 29 training days at Joint Base Lewis-McChord, Wash., you encounter stress-inducing physical and mental obstacles to challenge you as an individual and leader. You are immersed in an experiential learning environment with cadets from over 270 universities. LDAC uses small unit tactical training as the vehicle for further developing self-confidence and evaluating your leadership abilities and potential to serve as a commissioned officer. Prerequisites are completion of the MSL basic course, MSL 301, MSL 302 and an Army contractual obligation for future service as a commissioned officer in the active Army, Army Reserve or Army National Guard.

Programs

Military Science Minor

Courses

MSL 101 - Introduction to Military Leadership I - 1 Credits
MSL 102 - Introduction to Military Leadership II - 1 Credits
MSL 111 - Fall Leadership Lab - 1 Credits

Mission Statement for Music

To provide a dynamic environment where innovation and leadership in creativity, teaching, performance, and advocacy set a new standard for education through music.

Professional Opportunities in Music

Our music programs prepare you for professional careers in a variety of areas including teaching, performance, composition, music business, music technology, music management, and other music-related occupations. The Bachelor of Music degree program offers three areas of emphasis: music education, music performance (with emphases in instrumental, piano, and vocal), and jazz studies. The Bachelor of Arts degree program offers a nondisciplinary music degree that incorporates studies in other disciplines for careers in many music-related professions.

Notes for Music

1. Admission to the Department of Music as an undergraduate music major or minor is by audition. You must complete the music theory diagnostic test, and if you wish to major in music, you must be evaluated by piano faculty for placement.

2. Special music scholarships are available to high school seniors with outstanding talent in musical performance. These scholarships are awarded each spring on the basis of special auditions held before members of the music faculty. Contact the Music Department for dates, times, and other details.

3. Every music major must enroll, participate, and receive a passing grade in a major ensemble every semester except the student teaching semester.

4. String music education majors and string applied majors need four semesters of chamber ensemble.

5. See the Music Department "Silent Adviser" for recital attendance requirements.

6. Music department ensembles are open to all students regardless of major by audition. Audition not required for Campus Choir, Campus Band, and Campus Orchestra.

Test-Out, Credit-by-Exam, and Music Placement for Music

If you are seeking advanced placement in music general degree requirement courses by testing out of a course or by gaining credit through exam, see the coordinator of the specific area in which the course is offered.

If you are transferring from another UW campus, while not required, we strongly encourage you to take the placement exams in musicianship and musicology to determine the proper course you should take in those areas. If you are transferring from institutions outside the UW System, you are required to take musicianship and musicology exams.

We require all music education students to apply for admission to the Professional Program with the School of Education and to meet with the coordinator of music education before registering for upper level music education courses.

Nursing Department

Nursing

Contact: Lorraine Zoromski, Nursing Program Director
Office: Room D141, Science Building
Phone: 715-346- 2803
Email: lzoromski@uwsp.edu

Accreditation: UW-Stevens Point RN to BSN Nursing completion program is accredited through the American Association of Colleges of Nursing (CCNE).

Pre-Nursing

Contact: Becky Konietzki, Student Success Center Director
Office: Room 240, College of Professional Studies Building
Phone: 715-346-3233
Email: health@uwsp.edu

You may complete a Bachelor of Science in nursing degree by initially completing pre-nursing courses through UWSP and applying to nursing programs in the area that have cooperative agreements with UWSP. These programs include:

- Mid-State Technical College, Nicolet College, or Northcentral Technical College. All have collaborative partnership agreements with UWSP that allows pre-nursing students a smooth transition to their nursing programs via our 1+2+1 Nursing Partnership program.
- If you complete an Associate Degree in nursing in any of the Technical College programs, you are eligible to complete your Baccalaureate Degree in Nursing at UWSP.

Programs

Nursing Major (BSN)

Courses

NURS 100 - Pre-Nursing 1+2+1 Preparation Course - 1 Credits
NURS 310 - Professional Essentials - 1 Credits
NURS 399 - Special Work - 1 - 3 Credits
NURS 407 - Foundations of Professional Nursing Practice (BSN@home) - 3 Credits

NURS 486 - Selected Topics in Nursing - 3 Credits

Nutrition Department

Dietetics

Jasia Steinmetz, Professor, Didactic Program in Dietetics Director
Office: Room 202, College of Professional Studies Building
Phone: 715-346-3766
Email: health@uwsp.edu

Accreditation: The Dietetics program at UW-Stevens Point is granted accreditation by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics, 120 South Riverside Plaza, Suite 2000, Chicago IL 60606, 312-899-0040. This professional organization for dietetics practitioners is the advocate of the dietetics profession, serving the public through the promotion of optimal nutrition, health and well-being.

Sustainable Food and Nutrition

Jasia Steinmetz, Professor, Didactic Program in Dietetics Director
Office: Room 202, College of Professional Studies Building
Phone: 715-346-3766
Email: health@uwsp.edu

Graduate Programs

Community and Organizational Leadership - Master of Science

Lindsay Bernhagen, Lecturer, COL & SRSF Interim Program Director
Office: Room D1027, Science Building
Email: shsw.building.a.better.community@uwsp.edu
Web: www.uwsp.edu/health

Abbreviations

- COL - Community & Organizational Leadership
- FCS = Family and Consumer Sciences
- FN = Food and Nutrition
- HD = Human Development
- HPW = Health Promotion/Wellness

You may earn the MS degree in Community & Organizational Leadership or the MS degree in Sustainable and Resilient Food Systems. In both programs you have an opportunity for graduate teaching and research assistantships as well as for in-depth community practitioner experiences.

Sustainable Food and Resilient Food Systems - Master of Science

Lindsay Bernhagen, Lecturer, COL & SRSF Interim Program Director

Chemical Engineering Major (BS)
Process Control Engineering Graduate Certificate
Paper Science and Engineering Major (BS)

Courses

PSEN 103 - Paper, Society and the Environment - 3 Credits
PSEN 105 - Freshman Forum - 1 Credits
PSEN 110 - Introduction to Environmental Engineering - 3 Credits
PSEN 115 - Pulp and Paper Laboratory Methods - 3 Credits
PSEN 215 - Introduction to Process Engineering Calculations - 4 Credits
PSEN 216 - Engineering Statistical Design and Analysis - 3 Credits
PSEN 300 - Mill Internship - 1 Credits
PSEN 316 - Engineering Economics and Project Management - 3 Credits
PSEN 320 - Fluid Mechanics and Hydraulics - 3 Credits
PSEN 326 - Heat Transfer Operations - 3 Credits
PSEN 340 - Chemical Kinetics and Reactor Design - 3 Credits
PSEN 350 - Pulping and Chemical Manufacturing Technology - 4 Credits
PSEN 355 - Paper and Fiber Physics - 4 Credits
PSEN 365 - Colloid and Surface Phenomena - 3 Credits
PSEN 382 - Water and Wastewater Treatment - 3 Credits
PSEN 385 - Systems Engineering and Simulation - 3 Credits
PSEN 390 - Special Topics in the Chemical Processing Industry - 1 - 3 Credits
PSEN 399 - Research Problem - 1 - 3 Credits
PSEN 420 - Air Pollution Control and Engineering - 3 Credits
PSEN 430 - Mass Transfer Operations - 3 Credits
PSEN 440 - Industrial Thermodynamics - 3 Credits
PSEN 445 - Paper Coating and Converting - 3 Credits
PSEN 450 - Renewable Fuels Production - 3 Credits
PSEN 452 - Renewable Fuels Laboratory - 3 Credits
PSEN 460 - Process Dynamics and Control - 3 Credits
PSEN 475 - Paper Machine Operations - 4 Credits
PSEN 484 - Senior Design Project: Paper Science and Engineering - 3 Credits
PSEN 486 - Senior Design Project: Chemical Engineering - 3 Credits

PSEN 489 - Industrial Environmental Management - 3 Credits
PSEN 582 - Water and Wastewater Treatment - 3 Credits
PSEN 590 - Special Topics in the Chemical Processing Industry - 1 - 3 Credits
PSEN 700 - Basic Operations of Smart Manufacturing - 3 Credits
PSEN 702 - Electrical Systems - 3 Credits
PSEN 704 - Electric Motor Control Systems - 3 Credits
PSEN 706 - Programmable Controller Systems - 3 Credits
PSEN 708 - Process Control Systems - 3 Credits

Philosophy and Religious Studies Department

This area is in the School of Humanities and Global Studies within the College of Letters and Science.

Chris Diehm, Chair **Office**: Room 488C, Collins Classroom Center **Phone**: 715-346-2334 **Email**: philosophy@uwsp.edu **Web**: www.uwsp.edu/philosophy

PHILOSOPHY FACULTY AND ACADEMIC STAFF
C Diehm, C Horn, P Miller, D Warren, J Zinser
RELIGIOUS STUDIES FACULTY AND ACADEMIC STAFF
A Keefe, S Luft, R O'Leary, L Whitmore

Mission: The Department of Philosophy and Religious Studies, housing the disciplines of philosophy and religious studies, trains you in the skills of critical thinking, ethical reasoning, written and oral communication, and empathetic engagement with diverse worldviews and religions. The training we offer equips you with the skills needed for a wide variety of professional careers and with the ability to adapt to the inevitable changes and challenges they will face after graduation.

Philosophy Honors Program

The Department of Philosophy and Religious Studies offers an honors program for students majoring in philosophy, philosophy with a concentration in environmental ethics, or philosophy with a concentration in religious studies. To apply for admission:

1. Have at least 30 university credits.
2. Have 6 credits in philosophy or religious studies with a GPA of 3.5 or higher.
3. Contact the department chair or department honors adviser.

Requirements for philosophy honors are:

1. Complete all the requirements for the major with a GPA of at least 3.5 for courses in the major.

2. Complete a minimum of 6 honors credits in philosophy and/or religious studies courses with a grade of "A Honors."
3. Complete one credit "Independent Study: Honors Project" in PHIL 399 or REL 399.

Test-out Policy for Philosophy

You may apply to test out of any course in philosophy or religious studies that meets one or more of the General Education Program (GEP) requirements. The department chair will make arrangements for the test. You will work with a designated faculty member who will confer with you regarding date, site, question format, etc. The faculty member will prepare a comprehensive written exam, grade it and inform you in writing of your grade within two weeks of taking the exam. If you receive a grade of B or higher, the corresponding GEP requirement will be waived.

The department assumes no responsibility for preparing you for test-out examinations. You may not apply to test out of a course in which you are currently enrolled. You may not attempt to test out of a course more than once.

Physics and Astronomy Department

This area is in the School of Mathematics, Computing, Physics, and Astronomy within the College of Letters and Science.

Mark Holdhusen, Chair
Room 381-D Wausau
Room 433 Marshfield
Room B-109 Science Building, Stevens Point
Phone: 715-346-3508
Email: physastr@uwsp.edu
Web: www.uwsp.edu/physastr

FACULTY AND ACADEMIC STAFF

P Banerjee, A Durbala, M Farzaneh, B Hinaus, M Holdusen, M Lee, K Menningen, A Steffen, C Verzani, S Zamfir

Astronomy investigates the nature of celestial objects such as stars, planets, and galaxies, including their magnitudes, motions, distances and periods of revolution.

Engineering applies the knowledge of the mathematical and natural sciences to develop ways to use the materials and forces of nature for the benefit of society.

Physics is the branch of science that investigates the laws of motion and properties of matter. It is often divided into the sub-disciplines of mechanics, heat, sound, electricity, magnetism, optics, atomic and nuclear physics.

Notes for Astronomy:

1. You may not take both ASTR 100 and ASTR 311 for credit.
2. If you take ASTR 205 or ASTR 206, you may not subsequently take ASTR 100 for credit.
3. You may take both ASTR 205 and ASTR 206 for GEP credit.

Notes for Physics:

1. To major or minor in physics, you should register with the school office, B246 Science Building.
2. PHYS 300, PHYS 315, PHYS 320, PHYS 335, PHYS 370, PHYS 383, PHYS 384, PHYS 385, PHYS 405, PHYS 435, and PHYS 470 are not offered every semester. See course description for details.
3. You will not receive credit for a course if you have already successfully completed a similar or more advanced course in the same area. The following restrictions apply:

IF YOU RECEIVED CREDIT FOR:	YOU CANNOT RECEIVE CREDIT FOR:
PHYS 100	PHYS 101
PHYS 101	PHYS 100
PHYS 240	PHYS 100, PHYS 101, PHYS 201, PHYS 203
PHYS 201	PHYS 100, PHYS 101, PHYS 240, PHYS 203
PHYS 202	PHYS 100, PHYS 101, PHYS 204, PHYS 250
PHYS 203	PHYS 100, PHYS 101, PHYS 201
PHYS 204	PHYS 100, PHYS 101, PHYS 202, PHYS 250
PHYS 250	PHYS 100, PHYS 101, PHYS 202, PHYS 204
PHYS 275	PHYS 300
PHYS 300	PHYS 275

Test-Out and Credit-by-Exam Policy for Physics and Astronomy

We will offer test-out examinations for all General Education Program (GEP) requirement physics and astronomy. The exams will cover both lecture and laboratory topics.

If you wish to take a test-out exam, confer with the department chair who will arrange for a faculty member to administer and grade a comprehensive written exam. A passing grade will be at least five percent above the most recent class average. You will be informed of the required passing score before taking the exam. Results will be evaluated and (if appropriate) credit granted by the departmental Educational Policies Committee. You may not take an exam more than once.

Course credit can be granted for ASTR 205, ASTR 206, ASTR 311; PHYS 116, PHYS 240, PHYS 203, PHYS 204, PHYS 250. Credit will NOT be granted for ASTR 100 or PHYS 100 or PHYS 101, but the GEP requirement will be waived.

Political Science Department

This area is in the School of Behavioral and Social Sciences within the College of Letters and Science.

Jennifer N. Collins, Chair
Office: Room D339, Science Building
Phone: 715-346-2883
Email: polisci@uwsp.edu
Web: https://www.uwsp.edu/programs/degree/political-science/

FACULTY AND ACADEMIC STAFF
J Blakeman, J Collins, G. Gunderson, B Mapes-Martins, S Park

Political science is the study of the government and politics of the United States, other nations, and international relations.

Law and Policy is an interdisciplinary minor, administered by the Political Science Department. For students interested in law school or law-related careers.

Peace Studies is an interdisciplinary minor, administered by the Political Science Department. For students interested in peace and justice issues and activism.

International Relations is a certificate, administered by the Political Science Department. For students interested in international and global affairs and related career paths.

Public administration and policy analysis is an interdisciplinary minor, administered by the Political Science Department. For students interested in public service or graduate education.

Credit-by-Exam Policy for Political Science

You may test-out and/or receive credit-by-exam for POLI 101 and POLI 160 by passing the appropriate Advanced Placement Program Examination (AP) or College Level Examination Program (CLEP) Subject Examination through the UW-Stevens Point Testing Service. You must score 3 or higher on AP exams to receive credit, and you must score in the 50th percentile or higher for CLEP exam credit.

You may test out of other GEP courses offered by the Political Science Department. You will not receive academic credit for those courses. To take a GEP course test, first consult with the department chair. The chair will then consult with the faculty member or members who have most recently taught the course and they will prepare a comprehensive written exam. You must receive a B or higher on the exam to have the GEP requirement waived. You may take the exam only once.

The Political Science Department assumes no responsibility for preparing you for test-out examination. Faculty may give you access to course syllabi, but it is your responsibility to access course readings and other relevant materials. You may not apply to test out of a course in which you are currently enrolled.

P Conley, J Council, D Dodson, M Ferguson, J Lewis, E Meier, H Molenda-Figueira, S Mooney-Leber, R Nemeth, S Neumann, J Wang, E Weisgram, C Wendorf

Psychology is the scientific study of the mind and behavior. It examines the biological, cognitive, emotional, social, cultural, and environmental processes underlying human and animal behavior in order to enhance psychological knowledge and its application within a variety of settings (such as families, schools, clinics, and workplaces).

Credit-by-Exam Policy for Psychology

An Advanced Placement (AP) Psychology Exam score of 3 or higher gives you credit for PSYC 110. Credit-by-exam is available for PSYC 110 and PSYC 260 if you receive a score that is equal to or greater than the 50th percentile on the General Psychology and Developmental Psychology CLEP examinations. CLEP testing is done in the Testing Center in Delzell Hall.

Programs

Psychology Major (BS)
Psychology Major (BS): Human Services Option
Psychology Minor
Neuroscience and Behavior Minor

Courses

PSYC 110 - Introduction to Psychology - 3 Credits
PSYC 198 - Reading in the Discipline - 1 Credits
PSYC 200 - Research Methods in Psychology - 3 Credits
PSYC 240 - Psychology of Gender - 3 Credits
PSYC 250 - Psychology of Adjustment - 3 Credits
PSYC 255 - Psychology of Sexual Behavior - 3 Credits
PSYC 260 - Introduction to Developmental Psychology - 3 Credits
PSYC 270 - Positive Psychology - 3 Credits
PSYC 295 - Career Development in Psychology - 1 Credits
PSYC 300 - Statistics for Psychologists - 4 Credits
PSYC 301 - Personality Psychology - 3 Credits
PSYC 315 - The Psychology of Adolescence - 3 Credits
PSYC 320 - Social Psychology - 3 Credits
PSYC 321 - Environmental Psychology - 3 Credits
PSYC 322 - Psychology and Culture - 3 Credits
PSYC 325 - Behavioral Neuroscience - 3 Credits
PSYC 330 - Perception - 3 Credits
PSYC 331 - Cognitive Psychology - 3 Credits
PSYC 333 - Animal Cognition - 3 Credits
PSYC 345 - Industrial Organizational Psychology - 3 Credits
PSYC 350 - Psychological Assessment - 3 Credits
PSYC 351 - Psychopathology - 3 Credits
PSYC 360 - Child and Adolescent Psychopathology - 3 Credits
PSYC 370 - Emotion - 3 Credits
PSYC 375 - Learning - 3 Credits
PSYC 377 - Evolutionary Psychology - 3 Credits
PSYC 385 - Health Psychology - 3 Credits
PSYC 388 - Animal Behavior - 3 Credits
PSYC 390 - Psychoactive Drugs and Behavior - 3 Credits
PSYC 393 - Genocide: Psycho-Historical Foundations - 3 Credits
PSYC 395 - Selected Topics in Psychology - 3 Credits
PSYC 397 - Field Experience - 1 - 6 Credits
PSYC 398 - Directed Readings - 1 - 6 Credits
PSYC 399 - Directed Research - 1 - 6 Credits
PSYC 400 - Advanced Research Methods in Psychology - 3 Credits
PSYC 401 - Introduction to Counseling and Psychotherapy - 3 Credits
PSYC 402 - Practicum in Counseling and Psychotherapy - 3 Credits
PSYC 480 - Applied Theories of Behavioral and Cognitive Therapies - 3 Credits
PSYC 490 - Seminar: Topics in Psychology - 3 Credits
PSYC 491 - Workshop - 1 - 5 Credits
PSYC 494 - Human Services Internship - 1 - 6 Credits
PSYC 495 - Human Services Internship Seminar - 2 Credits
PSYC 500 - Statistics for Psychologists - 4 Credits
PSYC 521 - Environmental Psychology - 3 Credits
PSYC 550 - Psychological Assessment - 3 Credits
PSYC 551 - Psychopathology - 3 Credits
PSYC 560 - Child and Adolescent Psychopathology - 3 Credits
PSYC 575 - Learning - 3 Credits

PSYC 585 - Health Psychology - 3 Credits
PSYC 588 - Animal Behavior - 3 Credits
PSYC 590 - Psychoactive Drugs and Behavior - 3 Credits
PSYC 599 - Independent Study - 1 - 6 Credits
PSYC 601 - Introduction to Counseling and Psychotherapy - 3 Credits
PSYC 602 - Practicum in Counseling and Psychotherapy - 3 Credits
PSYC 680 - Applied Theories of Behavioral and Cognitive Therapies - 3 Credits
PSYC 691 - Workshop - 1 - 5 Credits
PSYC 796 - Special Work - 1 - 6 Credits

School of Behavioral and Social Science Department

This school is in the College of Letters and Science

Wisconsin Teaching Standards

To receive a license to teach in Wisconsin, you must complete an approved program and demonstrate proficient performance in the knowledge, skills and dispositions under the following 10 standards. The standards have been grouped into four general categories to help users organize their thinking about the standards:

The Learner and Learning

Teaching begins with the learner. To ensure that each student learns new knowledge and skills, teachers must understand that learning and developmental patterns vary among individuals, that learners bring unique individual differences to the learning process, and that learners need supportive and safe learning environments to thrive. Effective teachers have high expectations for each and every learner and implement developmentally appropriate, challenging learning experiences within a variety of learning environments that help all learners meet high standards and reach their full potential. Teachers do this by combining a base of professional knowledge, including an understanding of how cognitive, linguistic, social, emotional, and physical development occurs, with the recognition that learners are individuals who bring differing personal and family backgrounds, skills, abilities, perspectives, talents, and interests. Teachers collaborate with learners, colleagues, school leaders, families, members of the learners' communities, and community organization to better understand their students and maximize their learning. Teachers promote learners' acceptance of responsibility for their own learning and collaborate with them to ensure the effective design and implementation of both self-directed and collaborative learning.

Standard #1: Learner Development.

The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard #2: Learning Differences.

The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard #3: Learning Environments.

The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Content

Teachers must have a deep and flexible understanding of their content areas and be able to draw upon content knowledge as they work with learners to access information, apply knowledge in real world settings, and address meaningful issues to assure learner mastery of the content. Today's teachers make content knowledge accessible to learners by using multiple means of communication, including digital media and information technology. They integrate cross-disciplinary skills (e.g., critical thinking, problem solving, creativity, communication) to help learners use content to propose solutions, forge new understandings, solve problems, and imagine possibilities. Finally, teachers make content knowledge relevant to learners by connecting it to local, state, national, and global issues.

Standard # 4: Content Knowledge.

The teacher understands that central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Standard #5: Application of Content.

The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Instructional Practice

Effective instructional practice requires that teachers understand and integrate assessment, planning, and instructional strategies in coordinated and engaging ways. Beginning with their end or goal, teachers first identify student learning objectives and content standards and align assessments to those objectives. Teachers understand how to design, implement and interpret results from a range of formative and summative assessments. This knowledge is integrated into instructional practice so that teachers have access to information that can be used to provide immediate feedback to reinforce student learning and to modify instruction. Planning focuses on using a variety of appropriate and targeted instructional strategies to address diverse ways of learning, to incorporate new technologies to maximize and individualize learning, and to allow learners to take charge of their own learning and do it in creative ways.

Standard #6: Assessment.

The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard #7: Planning for Instruction.

The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard #8: Instructional Strategies.

The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Professional Responsibility

Creating and supporting safe, productive learning environments that result in learners achieving at the highest levels is a teacher's primary responsibility. To do this well, teachers must engage in meaningful and intensive professional learning and self-renewal by regularly examining practice through ongoing study, self-reflection, and collaboration. A cycle of continuous self-improvement is enhanced by leadership, collegial support, and collaboration. Active engagement in professional learning and collaboration results in the discovery and implementation of better practice for the purpose of improved teaching and learning. Teachers also contribute to improving instructional practices that meet learners' needs and accomplish their school's mission and goals. Teachers benefit from and participate in collaboration with learners, families, colleagues, other school professionals, and community members. Teachers demonstrate leadership by modeling ethical behavior, contributing to positive changes in practice, and advancing their profession.

Standard #9: Professional Learning and Ethical Practice.

The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Standard #10: Leadership and Collaboration.

The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Professional Education Program (PEP) Admission Procedures

If you are interested in any teacher certification program, you must officially declare your teaching intent by making an appointment with the School of Education, Academic and Career Advising Center, 715-346-2040. You must apply for conditional admission to the Professional Education Program after you complete 24 credits. University approved credits for Advanced Placement (AP), CLEP, and test out may apply toward the 24 credits. Applications are available from the School of Education Academic and Career Advising Center, Room 469 CPS Building. Applications are processed two times each year, February 22 and September 22. Applications received after the deadline will be processed during the next deadline period.

In order to enroll in junior and senior level early childhood education courses, physical education, and PEX courses, as well as some methods courses in other departments, you must be admitted to the PEP.

You must have completed the following minimum criteria and have passing scores on file in the School of Education Academic and Career Advising Center to be eligible to apply for admission to PEP. Criteria may change at any time.

1. Earn a 2.60 cumulative grade point average (GPA) from all accredited institutions attended. The School of Education honors academic forgiveness and UW-Stevens Point course repeat policies at the time of admission to the PEP, but you must have a 2.75 GPA overall and a 2.75 GPA in your major, minor, concentration, and teacher certification coursework for student teaching, regardless of academic forgiveness or GPA requirement waiver. If you declare academic forgiveness, you must have at least a 2.60 GPA in 24 credits of courses you complete after declaring academic forgiveness and any courses taken at other institutions.
2. Freshman English Requirement:
    1. Receive a B- or better in ENGL 101 or ENGL 150
       -OR-
    2. Receive a 2.50 in ENGL 101/ENGL 202
       -OR-
    3. Test out of ENGL 101 and ENGL 202
       -OR-
    4. Receive a grade of B- or better in ENGL 250
       -OR-
    5. Complete at least five, ½ hour appointments with the UWSP Tutoring Learning Center Writing Lab, since the completion of either English 101 or 150
       -OR-
    6. A completed bachelor's degree
    7. Be currently enrolled in ENGL 101 or ENGL 150 (If you apply using this criteria, you will be admitted to the Program and must receive a B- or better in ENGL 101 or ENGL 150 by the end of the semester for full admission to the Program, or complete at least five 1/2 hour tutoring sessions with a writing lab tutor in the Tutoring-Learning Center by the end of the following semester or admission to the program will be rescinded).
3. Criminal Background Check: You must submit with the PEP application the results from a mandatory criminal background check dated within the 6 months prior to the date of application.
4. See the department of your major or minor for additional requirements and enrollment cap policies. All secondary/K-12 programs have additional requirements to apply.
    - If you meet the following criteria you may apply for an exception of the 2.75 grade point requirements by using the formal Exceptions Application available in the School of Education Academic and Career Advising Center. If granted, this exception allows you to apply to the Professional Education Program without meeting the requirements.
    - Deadlines for exception requests are September 11 and February 7. If a deadline falls on a weekend, the applications are due the Friday prior.
    - The Department of Public Instruction limits us to granting exceptions to 10% of our PEP admitted student population.
        1. You will be ranked using overall GPA.
        2. Final exception decisions will be determined by the SOE Exceptions Committee. Exception approvals are not appealable.
           Exception Applications can be found outside 469 CPS, or online at: http://www.uwsp.edu/education/Pages/CurrentUndergrad/UndergraduateAdvise/waiverpolicy.aspx.

EXCEPTION TYPE	EXCEPTION REQUIREMENTS
Grade Point Exception Requirement	1. You have completed at least 24 credits with a grade point average of 2.60 **OR** better. 2. You earn a 3.00 or higher semester GPA over the previous two consecutive semesters. 3. You have **attached** a letter explaining reasons for requesting an exception.

5. ***Disposition Expectations:*** If you are admitted to the Professional Education Program, you will be expected to meet disposition expectations throughout the academic program.

Transfer Student Admission Procedure

If you are a transfer student or have an undergraduate degree from an accredited institution, you may be admitted to the Professional Education Program (PEP) if you have met the application requirements above, are admitted to UW-Stevens Point, and have paid the required deposit. You must attach proof of admission to UW-Stevens Point when you apply.

Student Teaching

Kelly Seefeldt, Office of Field Experiences Manager
Office: Room 464, College of Professional Studies Building
Phone: 715-346-2449
Email: field.experiences@uwsp.edu

In this final step in your preparation for teaching, you demonstrate practical competence in one of many schools that cooperate with UW-Stevens Point in providing field experiences. As a student or intern teacher you will be assigned to a cooperating school system within our service area depending upon your personal preferences and the availability of qualified cooperating teachers.

The Office of Field Experiences and the cooperating school administration arrange all assignments. Please do NOT initiate contact with a cooperating teacher to arrange an assignment. Student Teaching will require additional fees. Please don't plan to student teach in a school where your child is enrolled or where a relative is currently employed as an administrator or serves on the school board.

For most program areas, when student or intern teaching for initial certification, you are limited to a maximum of two assignments per semester (e.g. elementary and middle, or high school and middle). The semester before you student teach, you must attend an orientation meeting to get information about the requirements for student teaching.

Eligibility and General Requirements to Student Teach

1. Be admitted to the Professional Education Program. Apply at the School of Education Advising, Recruitment and Retention Office, Room 469, CPS Building.
2. Complete at least 12 credits at UW-Stevens Point prior to student teaching.
3. Earn a 2.75 overall GPA as well as a 2.75 GPA in your major, minor, concentration, and education courses to student teach. Earn a 3.00 GPA for teaching intern. NOTE: Some teaching majors/minors may require a higher GPA.
4. You must complete all teaching major, teaching minor and teaching methods/techniques courses BEFORE you student teach.
5. If you are seeking a teaching license in French, German, or Spanish, you are required to submit passing scores on the ACTFL OPIC and WPT exams, regardless of your major/minor GPA.
6. The semester before you student teach, you must attend an application meeting and submit your completed application forms by the date set by the Office of Field Experiences. These include written recommendations from the department chair or associate dean and the School of Education Advising Coordinator, a medical statement indicating that you have been examined and are free from tuberculosis, and a Conduct & Competency affidavit, including papers for a background check to be administered by the UW-Stevens Point Office of Field Experiences.
7. You must register for student teaching in appropriate sections and for credits as your advisers approve.
8. You will spend a full semester student teaching according to the daily schedule and semester calendar of an approved cooperating school. You will be asked to return to campus for seminars to confer with UW-Stevens Point instructors.

Student Teaching Options

Full Semester Student Teaching

You must student teach in your major. You will remain in the placement for the entire school district semester.

Split-Semester Student Teaching

You must student teach in your major in order to request another student teaching assignment. You must obtain written approval from both major and minor programs where applicable. If approved, additional assignments take place during the student teaching semester in sequences and locations coordinated by the Office of Field Experiences. Typically, assignments change at the end of the school district quarter.

Internships

You may be recommended to apply as an intern teacher at any one of many levels. As an intern you are a licensed and contracted member of a school staff and you will spend an entire semester or year in that school system. During this time, you will be involved in a team providing educational services. Internships are determined by local agency requirements. To be considered for an internship program, you must earn a cumulative GPA of 3.00 or better, a 3.00 or better in your major, and a 3.00 GPA in your minor if you want to be certified in it.

Teacher Certification/Academic Standards

Breanna Cychosz, Karla Landwer, Teacher Certification Officers
Office: Room 469, College of Professional Studies Building
Phone: 715-346-2040
Email: bcychosz@uwsp.edu or klandwer@uwsp.edu

Notes for Teacher Certification:

1. You must receive a grade of C- or better in all required Early Childhood, Education, Health Education and Physical Education courses that are required for a teaching major, teaching minor, or teacher certification requirements.
2. Early Childhood Education, Education, Health Education, Adapted Physical Education, and Physical Education courses taken more than 10 years prior to student teaching may not be applied to the program requirements. You may appeal the currency of courses. The Assistant Dean, School of Education (ADSOE) will convene a review panel of appropriate faculty/advising staff to make a decision about that appeal.
3. Achieve a 2.75 overall GPA. This overall GPA requirement may be appealed through the School of Education DPI approved policy. In addition, you must earn at least a 2.75 GPA in major, minor, concentration, and education courses before student teaching. Some majors and minors require higher major/minor GPAs.
4. Earn a grade of "pass" in all areas of student teaching. You CANNOT be certified if you do not pass student teaching in your major.
5. State teacher licensing rules may change at any time due to legislative or licensing changes.
6. For initial licensure in Wisconsin:
    1. Demonstrate content knowledge following policy approved by the state superintendent which include the Wisconsin Standards. You must earn a 3.00 GPA in all teaching majors and teaching minors or pass the appropriate content test. NOTE: If you are seeking a teaching license in French, German, or Spanish, you are required to pass the ACTFL OPIC and WPT exams in your language, regardless of your major/minor GPA.
    2. Receive a passing score on the Foundations of Reading Test if you are being licensed in early childhood, elementary, reading teacher, reading specialist, or any area of special education. Special Education Majors only: you may complete a DPI approved UWSP Alternate to this requirement.
7. Applications for initial licensure are processed only after you complete all degree and certification requirements and your degree is conferred.

Undergraduate Requirements: Secondary/K-12 Education Curriculum for Teacher Certification

State and Federal Reporting

To comply with mandates of Section 207 of Title II of the Higher Education Act, www.uwsp.edu/education/Pages/default.aspx lists the number of students in teacher education, the number of student teachers, numbers of several kinds of supervisors of student teachers, and a student/faculty ratio. More statistics related to teacher certification and licensure will be included on the website as they become available.

UWSP Teaching Majors and Minors

AREA	MAJOR	MINOR
Bilingual/Bicultural Education		Certificate = requires ESL minor
*Communication Science and Disorders License: Speech Language Pathology K-12th grade	Undergraduate major - *requires master's degree for license	
Early Childhood Education License: birth - 3rd grade regular education	X	
Early Childhood Special Education License - birth-3rd grade		X
Elementary Education License: K-9th grade regular education including 4 year old kindergarten	X	
English License: English and Language Arts 4th-12th grade - license allows the teacher to teach all areas of English and language arts	X	
English as a Second Language - License: ESL K-12		X
Family and Consumer Science License: K-12th grade	X	
German License: K-12th grade	X	
Health Education License: K-12th grade		X
History and Social Studies License: Social Studies 4th-12th grade - license allows the teacher to teach all areas of history and social studies	X	
Mathematics License: Mathematics 4th-12th grade	X	X
Music Education - Chorale, General and Instrumental - License: Music grades K-12th grade - license allows the teacher to teach all areas of music	X	
Natural Science - Earth, Physical and Life - License: Science 4th-12th grade - license allows the teacher to teach all areas of science	X	
Physical Education License: Physical Education K-12th grade Optional License: Adaptive Physical Education -6 additional credits	X	
Spanish License: K-12th grade	X	
Special Education License: K-12 Cross Categorical Special Education - does not include 4year old kindergarten	X	X

NOTES: Teaching minors or second majors - licensure grade level will match the grades of the initial major.

Graduate Programs

Polly Manske, Director of Graduate Programs
School of Education Office of Graduate Studies & Professional Development

The School of Education offers the following graduate programs:

- Education, MSE (Master of Science in Education)
- Educational Sustainability EdD
- Equity and Inclusion in Education Graduate Certificate
- Trauma and Resilience Graduate Certificate

You may also work toward:

- Graduate level certification (for those who are already certified teachers): Adaptive Physical Education (860); English as a Second Language (395); Family and Consumer Sciences (210); Gifted/Talented (014); Health Education (910); Reading Teacher (316); Reading Specialist (17); Special Education including: Cross Categorical Special Education (801); Early Childhood Special Education (809).
- Master of Science in Education: For more information, contact SOE Office of Graduate Studies & Professional Development, 715-346-2048.

Graduate Certification Programs - School of Education

The School of Education works with the Wisconsin Department of Instruction to offer graduate teacher certifications for initial teaching licenses and add-on teacher licenses for those who are already certified teachers. Applicants should forward a letter of intent, along with copies of your Wisconsin teaching license (if applicable) and transcripts from every college or technical school attended, to SOE Office of Graduate Studies & Professional Development indicating which certification you wish to pursue. A certification outline will be established for you and an adviser assigned.

- Adapted Physical Education
- Elementary Education
- English as a Second Language
- Family and Consumer Sciences
- Gifted and Talented Certification
- Health Education (910) Certification
- Reading Teacher (316 license)
- Reading Specialist (317 license)
- Special Education

School of Health Sciences and Wellness Department

This school is within the College Professional Studies.

Academic Standards for the School of Health Sciences and Wellness

1. You may declare a major in the School of Health Sciences and Wellness at any time. Some majors utilize "premajors" and/or specified requirements for acceptance into the professional components of the major. You must maintain a 2.75 cumulative GPA through graduation for dietetics, family and consumer sciences-teacher education option, and sustainable food and nutrition majors. For these same majors, transfer students must have a 2.75 cumulative GPA to enter.
2. See additional major-specific requirements listed by program.
3. See the Grade-related Policies section of this catalog for the policy on repeating courses.

Test-Out Policy for School of Health Sciences and Wellness

The School of Health Sciences and Wellness will offer test-out for all its General Education Program Approved Courses. The comprehensive written examinations will be based on materials normally covered in the course. Grading will be pass/fail with the minimum passing grade equivalent to the most recent class average grade.

If you wish to take a test-out exam, first confer with the School of Health Sciences and Wellness assistant dean. Then confer with the faculty member who most recently taught the course who will inform you in writing of the required minimum passing score prior to administering the exam and provide the results to you in writing within two weeks of taking the exam. You may take a test-out exam only once.

School of Humanities and Global Studies Department

This school is within the College of Letters and Science.

Tobias Barske, Assistant Dean
Office: Room 489A, Collins Classroom Center

The Sentry School of Business and Economics (Sentry School) offers programs in (1) accounting, (2) business administration, (3) business economics, (4) data analytics, (5) finance, (6) management, and (7) marketing.

Faculty members of the school participate in research related to their areas of academic interest. In addition, each of us is involved in professional development activities through active memberships in professional societies and associations and community agencies.

To further enhance your career preparation when you major or minor in accounting, business administration, economics, finance, management, or marketing we encourage you to expand your classroom work through active participation in student and professional clubs, societies, associations, and volunteer work related to your area of study. We also encourage you to participate in internships for experience in actual business environments.

We in the Sentry School of Business and Economics make every effort to notify current and prospective majors of new program standards. Depending on the nature of the program change, we may do so using email, Web pages, orientation sessions, the Sentry School advising office, faculty advisers, the catalog, and letters.

Abbreviations:

- ACCT = Accounting
- BUS = Business
- DAB = Data Analytics: Business
- DAC = Data Analytics: Computing
- ECON = Economics
- Sentry School = Sentry School of Business and Economics

Admission to the Sentry School of Business and Economics Majors

All our majors (accounting, business administration, business economics, data analytics, finance, management, and marketing) have a formal admission policy noted below.

You must apply for formal admission to your selected Sentry School major before completing 18 credits in the major. We recommend you declare your intent to pursue your Sentry School major:

1. when you apply for admission to UW-Stevens Point
2. when attending a freshman registration meeting
3. when attending a transfer-student registration meeting

As an intended major, you can receive specialized advising from the Sentry School Advising Office and regular updates on events and deadlines.

If you wish to request consideration of exceptional circumstances, do so in writing to the Sentry School Admissions Committee.

We have designed the admission policies for the Sentry School of Business and Economics to support your success in your major. See the descriptions of specific majors for admissions requirements. See the Sentry School of Business & Economics Advising Office and website for application procedures, forms, and deadlines.

To switch majors or to pursue a second major within the school, apply for that major. See the descriptions of specific majors for admissions requirements. If you are switching majors within the Sentry School or adding a second Sentry School major, you may apply even if you already have over 18 credits in the new major, as long as you have met all other admission requirements.

Academic Standards for the Sentry School of Business and Economics

The following academic standards apply to all school majors (accounting, business administration, economics, finance, management, and marketing).

1. **In-major GPA**: If you have a major in our school (accounting, business, economics, finance, management, or marketing), your in-major GPA is calculated based on **all courses** counting toward your major; this includes courses from other departments as well as from the Sentry School.
    - If you switch from one Sentry School major or minor to another, only courses applicable to the new program are included in your new in-major GPA calculation. If you are a transfer student, all your grades (including grades of D and F) earned at another university for all classes required for a Sentry School major are included in the calculation of your in-major GPA.
2. **Satisfactory Progress:** As a student enrolled in a Sentry School major GPA standard (2.5 for Accounting, Business Administration, Business Economics, Finance, Management or Marketing) by the time you have completed 18 credits in your major.
    - Also maintain reasonable and satisfactory progress in completing the requirements of the major. Issues related to reasonable progress will be decided by the school head.
    - If you have not attained the required in-major GPA by the time you have completed 18 credits in the major, you will be dropped from the major and will not be allowed to re-declare the major.
    - After you have completed 18 credits in your major, maintain your in-major GPA in good standing. If your in-major GPA drops below that major's standard for two consecutive regular semesters, you will be dropped from the major and will not be allowed to re-declare that major.
3. If you are dropped from your Sentry School major, you may submit a written petition for reinstatement to the Admissions Committee. If you are having trouble maintaining an adequate GPA, we encourage you to seek additional assistance from the Tutoring-Learning Center (TLC).
4. **Repeating courses:** You may request up to three courses in your Sentry School major in which you earn a D+, D, or an F. To do so, obtain on-line authorization to repeat from your adviser and the school head in which the courses are offered BEFORE registering for the courses. If you repeat a course at UW-Stevens Point, only the last grade is used in GPA calculations. Permission to repeat a Sentry School course is only granted after the close of the regular registration period.
    - See the policy on repeating courses in the Grade-related Policies section of this catalog.
    - NOTE: You may repeat, at other institutions, courses in which you received a grade of F but NOT courses in which you received a grade of D. The repeated course taken at another institution will satisfy the requirement left unsatisfied by the F. The original F will remain on your transcript.
5. **Pass/fail courses:** Any courses you take as pass/fail do not count toward any Sentry School major or minor.
6. **Degree and Major Requirements:** In addition to the requirements of your selected major(s), satisfy the General Education Program requirements (GEP) for your degree. See the General Education Program section of this catalog for information on the requirements for each degree. Regardless of the type of degree earned, the requirements for any Sentry School major are the same.

Test-Out and Credit-by-Exam Policy for Sentry School of Business and Economics

You may earn credit-by-exam for ECON 110 and ECON 111 through the appropriate CLEP examination. Register and pay fees for CLEP exams through the UW-Stevens Point Testing Service. To receive credit, score in the 50th percentile or higher on the appropriate exam.

For all other courses in the Sentry School of Business and Economics you may test-out, but not receive course credit. After you confer with the school head, a faculty member who teaches the course will prepare a comprehensive exam and inform you of the criteria for passing before you take the exam. A passing grade is at least five percent above the most recent class average. You may take a test-out exam only once. You are not eligible for test-out if you are currently enrolled in the course.

The Sentry School of Business and Economics consists of the following departments:

- Accounting
- Analytics
- Business
- Economics

Sociology and Social Work Department

This area is in the School of Behavioral and Social Sciences within the College of Letters and Science.

Amy Zlimen Ticho, Chair

FACULTY AND ACADEMIC STAFF

T Anderson, D Barry, M Y Bohm-Jordan, J Bowers, D Campbell, M Chunyu, D DeBoer, o Gerrish, C Hanten, A Herda-Rapp, K Kipp, M Kubek, A Zlimen Ticho

Social Work is a profession designed to assist individuals, families, groups, institutions, and communities to restore or enhance their capacity for social functioning, while creating societal conditions favorable to their goals (National Association of Social Workers, 2010).

Sociology is the systematic study of human societies and social groups. Sociologists study the workings of social organizations, institutions, and cultures, as well as their influence on the social behavior of individuals.

Accreditation: The B.A. and B.S. majors in Social Work are accredited by the Council on Social Work Education (CSWE).

Soil and Waste Resources Department

This discipline is within the College of Natural Resources.

Jacob Prater, Discipline Coordinator
Office: Room 274, Trainer Natural Resources Building
Phone: 715-346-4180
Email: jprater@uwsp.edu OR cnr@uwsp.edu
Web: https://www.uwsp.edu/cnr/college-of-natural-resources/soil-and-waste-resources/

FACULTY AND ACADEMIC STAFF

D Keymer, R Michitsch, J Prater, B Scharenbroch

The Soil and Waste Resources program provides comprehensive training in the inventory, scientific principles, and management of soil and waste resources. Graduates qualify for potential career opportunities in the fields of soil conservation, soil mapping and classification, nutrient management in agriculture, wastewater treatment, solid and hazardous waste management, recycling, septic systems, and wetlands.

Programs

Soil and Waste Resources Major (BS): Soil Science and Land Management Option
Soil and Waste Resources Major (BS): Waste Management and Environmental Protection Option
Managed Grazing Certificate
Soil Science Minor
Waste Resources Minor

Courses

SOIL 199 - Reading in the Discipline - 1 Credits
SOIL 350 - Selected Topics in Soil and Waste Resources - 1 - 3 Credits
SOIL 359 - Soil Conservation and Watershed Inventory Techniques - 1 Credits
SOIL 360 - Field Experience in Soil Inventory Methods - 1 Credits
SOIL 361 - Forest Soils - 3 Credits
SOIL 362 - Soil Genesis, Morphology and Classification - 3 Credits
SOIL 363 - Soil Profile Description Writing - 1 Credits
SOIL 364 - Soil and Plant Analysis - 3 Credits
SOIL 365 - Soil Quality Assessment and Soil Survey Interpretation - 3 Credits

Theatre Department

This area is in the School of Performing Artswithin the College of Fine Arts and Communication.

Michael Estanich, Chair **Office**: Room 161, Noel Fine Arts Center **Phone**: 715-346-4429 **Email**: theatre-dance@uwsp.edu **Web**: www.uwsp.edu/theatre-dance
FACULTY AND ACADEMIC STAFF
A Brackett, E Bustamante, D Dancho, M Estanich, S Grimsled, M Hanson, J Hill, E Lotz, P Luedtke, T Marchant, S Olson, G Pragel, S Ross, L Schmeling, C Sickler, A Warren

About the Department

UW-Stevens Point offers five theatre and dance degree tracks, including three highly competitive BFA programs in Musical Theatre, Acting, and Design & Technology. In addition, we offer two liberal arts degrees: the BA Dance Major and minor, with coursework in ballet, modern, jazz, tap and theoretical studies, and the BA Drama major which allows students to study multiple focused areas such as playwriting, dramaturgy, directing, design, and acting. These excellent academic and production programs have established UW-Stevens Point as a primary undergraduate center in Wisconsin for students interested in the performing arts.

Our alumni are working in all areas of the business, including:

- Broadway
- Film & Television
- Regional Theatres
- Cruise Ships
- National & International Tours and Stages
- Studio Owners and Entrepreneurs

Credit-by-Exam Policy

The Theatre and Dance Department offers credit-by-exam for specific courses. If you wish to take the test-out exam, contact the department chair to arrange an exam with the appropriate faculty member. If credit is granted, results will be forwarded to the Office of the Registrar.

Transferring Credits

You may apply transfer credits to the major or minor with the approval of the department chair.

Annual Meetings

All theatre and dance majors and minors are required to attend the department orientation meeting held on the first Saturday of the fall semester.

Advising

Incoming theatre and dance majors and minors are assigned an adviser with the Academic and Career Advising Center for three semesters. After that, you will be assigned a Theatre and Dance faculty adviser.

Course Fees

Fees are charged in specified courses to cover the cost of materials.

Scholarships

The department awards scholarships to entering majors in all five programs based on theatre and dance admission auditions and interviews. All students auditioning for UW-Stevens Point's major program on each of our audition dates will be considered for an incoming major scholarship; there is not a separate scholarship application or an additional scholarship audition process. Several additional scholarships are available for returning students.

The department offers several scholarships based on ability and potential to entering students in dance, drama, acting, design/technology, and musical theatre. Several additional scholarships are available for returning students. All students auditioning for UW-Stevens Point's major programs on each of our audition dates will be considered for an incoming major scholarship; there is not a separate scholarship application or an additional scholarship audition process.

University College provides effective services and programs that foster student success in and out of the classroom. The college assists students in making a successful transition into the university, achieving their educational goals, building strong study and research skills, and realizing their potential in their first year and beyond.

Academic Departments within University College include:

- University Library

Mindy King, Library Director **Office**: Room 465 Collins Classroom Center **Phone**: 715-346-2321 **Email**: mking@uwsp.edu **Web**: www.uwsp.edu/library
FACULTY AND ACADEMIC STAFF
D Dettman, T Espe, J Huffman, M King, Y Liao, K Neill, N Nelson, T Reich, M Sonnenberg

Departments within University College include:

- Academic and Career Advising Center (ACAC)
- Center for Critical Thinking
- Center for Inclusive Teaching and Learning (CITL)
- Disability Resource Center (DRC)
- General Education Program
    - Associate Degree General Education
    - Bachelor Degree General Education
- Office of International Education
- Tutoring-Learning Center (TLC)
- University Honors Program
- UW-Stevens Point at Marshfield
- UW-Stevens Point at Wausau

Courses

LRES 101 - Information Literacy Skills for College-Level Research - 1 Credits
LRES 102 - Information Literacy Skills for College-Level Research - 1 Credits
LRES 150 - Critical Approaches to Information Research - 3 Credits
LRES 380 - Internship in Academic Librarianship - 1 - 3 Credits
PSL 100 - College Success Skills - 1 Credits
PSL 101 - Academic Recovery - 3 Credits

WGS 105 - Introduction to Women's and Gender Studies - 3 Credits
WGS 130 - Biology of Women - 3 Credits
WGS 203 - Women in Popular Culture - 3 Credits
WGS 204 - Introduction to Masculinities - 3 Credits
WGS 210 - Women's Health and Sexuality in Society - 3 Credits
WGS 247 - Latin American and Latina Women - 3 Credits
WGS 300 - Topics in Women's and Gender Studies - 3 Credits
WGS 301 - Women and Feminism in the Modern World - 3 Credits
WGS 396 - Practicum - 1 - 3 Credits
WGS 490 - Seminar - 3 Credits
WGS 499 - Special Work - 1 - 3 Credits
WGS 500 - Topics in Women's and Gender Studies - 3 Credits

World Languages and Literatures Department

This area is in the School of Humanities and Global Studies within the College of Letters and Science.

Vera Klekovkina, Chair
Office: Room 488A, Collins Classroom Center
Phone: 715-346-3232
Email: wlang@uwsp.edu
Web: www.uwsp.edu/wlang

FACULTY AND ACADEMIC STAFF

T Barske, R Craig-Odders, V Klekovkina, T Leek, A Toumi

The Department of World Languages and Literatures offers courses in Chinese, French, German, Japanese, Russian, and Spanish, and Teaching English as a Second Language.

Placement/Advanced Standing

When you enter UW-Stevens Point as a first-year or transfer student and elect to take courses in French, German, Russian, or Spanish, you are required to take the UW System placement examination. It works out best if you make arrangements with your guidance office to take this exam before your assigned registration day.

After you take the exam, you will be placed in the appropriate world language course according to the following rules.

1. On the basis of the placement exam the department will grant up to 16 credits for foreign language courses you completed in high school. Then you must complete the course into which you are placed with a grade of B- or better to receive the retroactive credits.
2. The department may also grant credit for language proficiency you have gained through nonacademic means. After you take the placement exam you must complete the course into which you are placed with a grade of B- or better to receive credit for prerequisite courses which you have not taken formally.

Please realize that the department will not recommend granting credit for high school work or other language proficiency until AFTER you have completed a world language course on this campus.

There may be other situations where students who demonstrate proficiency in a world language will be placed in the appropriate world language course by the department.

All Programs

Applied Biotechnology (MS)

Requirements

Simple Requisites

Curriculum
This graduate program is administered by the Department of Biology within the College of Letters and Science.

The MS in Applied Biotechnology is a collaborative online degree program. UW-Green Bay, UW-Madison, UW-Oshkosh, UW-Parkside, UW-Platteville, UW-Stevens Point, UW-Stout, and UW-Whitewater offers the program jointly. The program offers six core courses, three concentration or track courses, a Capstone preparation course, and a project-based Capstone course. You may complete more than one program track. The required Capstone course, which represents the culminating experience in the program, will provide you with the opportunity to apply skills acquired from coursework through a project-based experience in your concentration area.

Consists of 31 credits.

Program Requirements
Type
Completion Requirement

Core Courses, 18 Credits

Complete ALL of the following Courses:

- ABT 700 - Introduction to Biotechnology - 3 Credits
- ABT 705 - Ethics, Safety, and Regulatory Environment in Biotechnology - 3 Credits
- ABT 710 - Professional and Technical Communication in Biotechnology - 3 Credits
- ABT 715 - Principles and Techniques in Biotechnology - 3 Credits
- ABT 720 - Experimental Design and Analysis in Biotechnology - 3 Credits
- ABT 725 - Organizational Leadership in Biotechnology - 3 Credits

Choose at least one track:

Fulfill ANY of the following requirements:

Quality Assurance and Compliance Track, 9 Credits

Complete ALL of the following Courses:

- ABT 735 - Quality Control and Validation - 3 Credits
- ABT 740 - Regulatory Practices and Compliance - 3 Credits
- ABT 745 - Industrial Applications in Regulatory Affairs - 3 Credits

OR

Business Management Track, 9 Credits

Complete ALL of the following Courses:

- ABT 750 - Biotechnology Marketing and Entrepreneurship - 3 Credits
- ABT 755 - Global Operations and Supply Chain Management - 3 Credits
- ABT 760 - Quality and Project Management - 3 Credits

OR

Research and Development Track, 9 Credits

Complete ALL of the following Courses:

- ABT 765 - Assessing Innovation in Biotechnology - 3 Credits
- ABT 770 - Product Development - 3 Credits
- ABT 775 - Tools for Data Analysis - 3 Credits

You may take more than one track

Capstone Courses, 4 Credits

Complete ALL of the following Courses:

- ABT 789 - Pre-capstone - 1 Credits
- ABT 790 - Capstone - 3 Credits

Additional Comments:

No Requirement Level

Standards

Admission Standards
To ensure a high-quality graduate student group, all graduate students must have an undergraduate degree from a recognized institution and meet the criteria provided below. The GMAT or GRE are not required.

• A bachelor's degree from an accredited university and a minimum grade point average (GPA) of 3.0. Students with a GPA less than 3.0 may be considered for provisional admission and should contact the academic director for more information.

• Official college transcripts.

• Prerequisite coursework: two semesters college-level lab coursework in biology and/or chemistry. To satisfy the prerequisite you must have completed either two semesters of biology, two semesters of chemistry, or one semester each of biology and chemistry, and all coursework must have a lab component.

• Your resume.

• Two letters of recommendation.

• A personal statement of up to 1,000 words describing your motivation to pursue this degree and what you will bring to the biotechnology field.

Need to complete a prerequisite course before applying? Online courses are available through UW Independent Learning. If you are not sure whether you meet these requirements, or which courses you need to take to satisfy prerequisites, please contact the academic adviser.

Submit your complete application to the UW-Stevens Point Office of Admissions and Recruitment, which will forward the application to the biology academic director.

Academic Standards
Minimum GPA requirement for this program is 3.00.

Pay close attention to the following provisions:

1. The Department of Biology determines whether graduate credits taken before admission to a graduate degree program will apply toward the fulfillment of requirements of the UW-Stevens Point degree program. Graduate courses taken as a special student at UW-Stevens Point also fall under this provision. You may not use more than 9 graduate credits earned before graduate admission to satisfy requirements for the degree program.

2. A grade of incomplete automatically becomes an F unless it is removed before the end of the next semester or summer session in which you are registered. For an incomplete to be granted, you and the instructor must agree on the specific requirements, including a firm date for the completion of the work and removal of the incomplete.

3. No credits with pass/fail grades will be accepted toward the degree.

4. To receive a graduate degree, you must apply for graduation online through accesSPoint at the beginning of the term in which you expect to receive the degree and not later than the end of the third week of a semester or first week of a summer session. Graduate degrees are conferred only in May and December. If you apply for graduation and do not complete the degree requirements, please contact the Graduation Auditor in the Office of the Registrar, 715-346-4301, to change your expected graduation date.

5. You must meet at least once per year with your academic adviser.

About this Program
UW-Stevens Point offers a Master of Science in Applied Biotechnology This 100% online program is a collaborative partnership of the University of Wisconsin-Stevens Point, University of Wisconsin Extended Campus, and five other University of Wisconsin campuses.. The Department of Biology administers the program through the academic director.

The program represents a comprehensive, multidisciplinary curriculum that prepares students to advance their careers and pursue their academic ambitions through leadership and management positions within the growing biotechnology field. Defined core courses provide students with a solid foundation in biotechnology, leadership, ethics, research, communications, product development, quality control, and regulatory and compliance practices. In addition, the program offers three unique tracks to assist students in tailoring their coursework to meet their career goals: quality assurance and compliance; business management; and research and development. Students will develop advanced knowledge and skills that will enable them to serve an important function and role within the biotechnology workforce.

Curriculum of the Applied Biotechnology Program

The online Master of Science in Applied Biotechnology curriculum is designed and taught by the same UW faculty who teach at each campus.

You will acquire a foundation in biotechnology principles and techniques through six required core courses. Then, you will choose one or more specialization tracks-Quality Assurance and Compliance, Business Management, or Research and Development. Each specialization track has three required courses and students may complete more than one track. You'll finish your degree by completing a capstone project.

You are required to complete, at minimum, eleven courses (31 credits) to earn your degree: six required core courses (3 credits each), one specialization track consisting of three courses (3 credits each), capstone prep (1 credit), and the capstone course (3 credits).

UW Master of Science in Applied Biotechnology courses are completed online, a natural fit for working adults. Students in other UW Extended Campus degree programs often say the online format is a big factor in their ability to earn a degree. You can watch lectures, participate in online forums with your classmates, and do homework whenever it's convenient for you-all course content is accessible online from any device.

Accounting Major (BS) - Accredited by AACSB

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Accounting in the Sentry School of Business and Economics.

Successfully complete a minimum of 82 credits in the categories below.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: ECON 110, ECON 111, ECON 200, MATH 109, MATH 111, MATH 225, MATH 255, ECON 243, FOR 321, HSW 301, MATH 354, MATH 357, PSYC 300, and SOC 351.

Program Requirements
Type
Completion Requirement

Foundation, 18-19 credits

Complete **BEFORE** taking any additional 300-400 level courses, including "core" courses.

Fulfill ALL of the following requirements:

Required, 8 Credits

Complete ALL of the following Courses:
- ACCT 210 - Introductory Financial Accounting - 3 Credits
- ACCT 211 - Introductory Managerial Accounting - 3 Credits
- BUS 100 - Introduction to Business - 1 Credits
- CIS 102 - Practicum in Computing - 1 Credits

CIS 102 should be taken with the *Excel* topic

AND

Required Economics, 6 Credits

Fulfill ANY of the following requirements:

Economics Option 1

Complete ALL of the following Courses:
- ECON 110 - Principles of Macroeconomics - 3 Credits
- ECON 111 - Principles of Microeconomics - 3 Credits

OR

Economics Option 2

Complete ALL of the following Courses:
- ECON 200 - Principles of Economics - 3 Credits

AND
- an additional 3 credits in 200-400 level Economics coursework. You may not take ECON 497 or ECON 498 to satisfy this requirement. Classes you take as part of other requirements of the major do not satisfy this requirement.

AND

Required Math, 4-5 Credits

Complete ANY of the following Courses:
- MATH 109 - Mathematics for the Social and Management Sciences - 4 Credits
- MATH 111 - Applied Calculus - 4 Credits
- MATH 225 - Calculus I - 5 Credits

Note: If you anticipate doing advanced study in a field such as Actuarial Science, you should take MATH 225.

Accounting Core, 24 Credits

Complete ALL of the following Courses:
- ACCT 310 - Intermediate Financial Accounting I - 3 Credits
- ACCT 311 - Intermediate Financial Accounting II - 3 Credits
- ACCT 321 - Cost Accounting - 3 Credits
- ACCT 330 - Federal Individual Income Taxes - 3 Credits
- ACCT 331 - Federal Business Income Taxes - 3 Credits
- ACCT 370 - Accounting Information Systems - 3 Credits
- ACCT 410 - Advanced Financial Accounting - 3 Credits
- ACCT 450 - Auditing - 3 Credits

Electives, 6 Credits

Earn at least 6 credits from the following:
- ACCT 390 - Ethics in Accounting and Business - 3 Credits
- ACCT 411 - Not for Profit Accounting - 3 Credits
- BUS 341 - Legal Concepts in Branding, Marketing, and the Creative Economy - 3 Credits
- BUS 352 - Financial Management - 3 Credits
- BUS 353 - Investments - 3 Credits
- BUS 354 - Financial Planning - 3 Credits

Internship, 3 Credits

Earn at least 3 credits from the following:
- ACCT 497 - Internship in Accounting - 1-15 Credits
- BUS 497 - Internship in Business Administration - 3-15 Credits
- ECON 497 - Internship in Economics - 1-15 Credits

Additional Comments:

No Requirement Level

Standards

Admission Standards
You must apply for admission to the Accounting major before you complete 18 credits toward the major. You must be admitted to the accounting major to register for some upper-level courses and to graduate with an accounting major.

• Once you are accepted as an accounting major, you can receive specialized, one-on-one advising from school faculty or staff.

• Minimum requirements: We encourage you to apply as soon as you have completed at least 10 credits toward the major.

• If you are a transfer student: Apply before you complete 18 credits in the accounting major OR during your first semester at UW-Stevens Point.

• Exceptions: If you wish to request consideration of exceptional circumstances, do so in writing to the Sentry School Admissions Committee.

Academic Standards
To graduate with a major or minor in accounting, successfully complete all required courses in the major or minor and achieve a cumulative grade point average of 2.5 or higher in all major/minor required courses. See Academic Standards for the Sentry School of Business and Economics for more information on GPA requirements and for the Sentry School of Business & Economics repeat policy.

About this Program

About this Program
Majoring in accounting positions you for a challenging career in a changing global business environment. As an accounting student you may desire to work in the accounting department of an organization in industry, or choose public accounting. You may take a position in public accounting firms providing tax, auditing, and consulting services to your clients. If employed by a corporation or non-profit organization, you may work as part of the management team involved in decision-making and tax analysis to provide reliable financial data.

If you desire to become a Certified Public Accountant (CPA), you must complete 150 credit hours of education to qualify to sit for the CPA exam. The additional credits may be either undergraduate or graduate credits.

In the accounting major, you complete courses in core accounting content and methodology, as well as courses in business and economics. Upon completing the accounting major, you will be prepared to work professionally in accounting and the business world.

Learning Outcomes

Program Learning Outcomes (UWSP)
Evidence of graduates' level of preparation will be found in your ability to:

1. Analyze and solve business and economics problems

a. you will be able to apply core concepts, models, and methods from business, accounting, and economics in identifying and solving problems

2. Demonstrate the intercultural competencies necessary to thrive in an increasingly global marketplace

a. you will be able integrate global perspectives and competencies in business interactions

3. Appreciate the importance of behaving professionally and ethically

a. you will be able to recognize and analyze an ethical dilemma, applying an appropriate ethical framework

b. you will be able to work effectively with others in team settings

4. Communicate effectively

a. you will be able to craft and present an effective professional oral presentation

b. you will be able to successfully write an effective professional report

5. Absorb concepts in areas of core business knowledge

a. demonstrate literacy in accounting, economics, marketing, management, production, finance, information systems, and business law

b. demonstrate proficiencies in the core areas of Accounting

Accounting Minor

Requirements

Artificial Intelligence Major (BS)

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of Computing and New Media Technologies within the College of Letters and Science.

Consists of a minimum of 62 credits.

Program Requirements
Type
Completion Requirement

Core Requirements, 17 credits

Complete ALL of the following Courses:

- CNMT 110 - Object-Oriented Programming - 4 Credits
- CNMT 211 - Programming for Artificial Intelligence and Machine Learning - 3 Credits
- CNMT 410 - Professional IT Communication - 3 Credits
- CNMT 479 - Senior Project Preparation - 1 Credits
- CNMT 480 - Applied Development Project - 3 Credits
- DAC 111 - Python Programming for Data Analytics - 4 Credits

Mathematics Courses, 12 credits

Complete ALL of the following Courses:

- MATH 109 - Mathematics for the Social and Management Sciences - 4 Credits
- MATH 209 - Mathematics for the Information Sciences - 4 Credits
- MATH 255 - Elementary Statistical Methods - 4 Credits

Concentration Courses, 30 credits

Complete ALL of the following Courses:

- AI 230 - Foundations of Artificial Intelligence - 3 Credits
- AI 320 - Deep Learning and Neural Networks - 3 Credits
- AI 321 - Artificial Intelligence for Cybersecurity - 3 Credits
- AI 323 - Introduction to Natural Language Processing - 3 Credits
- AI 324 - Reinforcement Learning - 3 Credits
- AI 331 - Artificial Intelligence in the Cloud - 3 Credits
- CIS 120 - Data Structures and Algorithms - 4 Credits
- CIS 210 - Database Design and Implementation - 4 Credits
- DAC 310 - Machine Learning and Data Mining - 4 Credits

Elective, 3-4 credits

Complete ANY of the following Courses:

- AI 322 - Computer Vision - 3 Credits
- AI 348 - Advanced Topics in Artificial Intelligence - 3-4 Credits
- AI 445 - Big Data and High-Performance Computing - 3 Credits
- CIS 345 - Alternate Programming Language - 3-4 Credits
- CIS 346 - Contemporary Topics in Computing - 3-4 Credits
- MATH 309 - Optimization Modeling - 3 Credits

Additional Comments:

No Requirement Level

Standards

Academic Standards
1. Courses taken pass/fail do not count for the major.

2. You may petition the department chair to accept coursework done at other institutions, but no more than one-half of the credits applied to your major may be earned outside UW-Stevens Point.

3. To maintain admitted status, you must maintain a GPA of at least 2.5 in all courses taken at UW-Stevens Point that count for the Artificial Intelligence major.

4. If you are not admitted to the Artificial Intelligence major, the only department courses for which you will be allowed to register are those required to complete a minor or certificate in the department.

5. Admission to department classes may be limited in any semester and may be determined in part by your Artificial Intelligence GPA.

6. The department chair may allow exceptions to these standards.

Standards

Admission Standards

Admission to UW-Stevens Point M.B.A. in Applied Leadership and Decision Making is open to those who have completed an undergraduate program at an accredited U.S. college or its equivalent in another country.

To be admitted to the MBA in Applied Leadership and Decision Making you need to:

• Apply for graduate study at UW-Stevens Point by submitting:

o Submitting a UWSP Graduate Student Application

o Paying an application fee

o Submitting official transcripts

• Apply to the MBA in the Sentry School of Business and Economics by:

o Completing a Sentry School of Business and Economics MBA application

o Submitting official or unofficial transcripts

o Submitting scores for the GMAT or GRE examination or completing a waiver request

o Submitting a resume

o Writing a letter of intent

o Requesting recommendations

The Admission Committee bases its decision on:

• GPA: A bachelor's degree completed with a satisfactory GPA.

• Transcripts: Official college transcripts.

• Examination: A satisfactory score on the Graduate Management Admission Test (GMAT) or the Graduate Record Exam (GRE). Applicants may request that the graduate admission test be waived.

• Recommendations: Two recommendations from a current or past employer, professor or professional colleague.

• Resume and Letter of Intent: A personal resume and letter of intent, including background qualifications, professional development, and career goals.

• Business Literacy: Evidence of business literacy demonstrated through professional experience or business coursework.

Applicants may request that the graduate admission test requirement (GMAT or GRE) be waived. Applicants must submit this request in writing to the Admission Committee before admission.

Academic Standards

Minimum GPA requirement for this program is 3.00.

Learning Outcomes

Program Learning Outcomes (UWSP)
Upon completion of the Master of Business Administration degree, you will be able to:

1. **Developing and Enhancing Applied Leadership Skills** - Communicate professionally. You will be able to demonstrate professionalism, self-awareness and deliver effective oral and written reports and presentations

2. **Conduct Data Analysis** - Collect, manage, and analyze data and use insights gained to influence business decisions and goals

3. **Integrate Financial Analysis** - Integrate quantitative and qualitative analyses to recommend financial decisions

4. **Lead People, Projects, and Organizations** - Influence individuals, teams, and organizations to achieve goals and manage change

5. **Influence Marketing Strategy and Initiatives** - Apply marketing principles and tools to make sound marketing recommendations and decisions

6. **Identifying Regional Business Opportunities and Conduct Economic Analysis** - Analyze regional economic indicators and use insights gained to influence business decisions and goals

7. **Facilitate Economic Development** - Analyze regional economic development initiatives and influence business decisions and goals

8. **Influence Regional Strategy and Initiatives** - Integrate finance, marketing, data analysis, leadership, and communication skills to influence strategy

Applied Bioinformatics Graduate Certificate

Requirements

Simple Requisites

Curriculum
This graduate certificate is administered by the Department of Biology within the College of Letters and Science (offered through the established collaborative online M.S. in Applied Biotechnology Program).

Consists of 12 credits.

Program Requirements
Type
Completion Requirement

Required, 12 Credits

Complete ALL of the following Courses:

- ABT 720 - Experimental Design and Analysis in Biotechnology - 3 Credits
- ABT 730 - Python for Bioinformatics - 3 Credits
- ABT 780 - Bioinformatic Inquiry - 3 Credits
- ABT 785 - Applications for Bioinformatics - 3 Credits

Additional Comments:

No Requirement Level

Standards

Admission Standards
Admission requirements for the Graduate Certificate in Applied Bioinformatics program will include a Bachelor's degree and a 3.0 undergraduate GPA. Program prerequisite will include General Biology with lab.

Academic Standards
Minimum GPA requirement for this program is 3.00.

About this Program

Coordinator Contact Information
Brian Barringer
Room 302, Chemistry Biology Building (CBB)
Phone: 715-346-2159
Email: biology@uwsp.edu
Web: www.uwsp.edu/biology

About this Program
The Graduate Certificate in Applied Bioinformatics is offered through the established collaborative online MS in Applied Biotechnology and includes both existing and new courses. The degree represents a fully online, asynchronous curriculum comprised of 12 credits to include four courses. As is the case with the MS in Applied Biotechnology degree, UW-Green Bay, UW-Oshkosh, UW-Parkside, UW-Platteville, UW-Stevens Point, and UW-Whitewater will offer the certificate jointly. The program serves as both an in-program learning opportunity and additional credential for MSABT degree-seeking students as well as a freestanding certificate program for non-degree (certificate-only) seeking students who may or may not elect to continue to the MS degree program. You will select and enroll at a home campus from which you will receive academic supports and the certificate is conferred.

- GD 310 - Visual Culture III: Motion and Space - 3 Credits
- GD 320 - Problem Solving I: Branding and Marketing Campaigns - 3 Credits

BA Capstone

Complete BA Capstone
Satisfied by the completion of a formal exhibition and essay in year of graduation

World Language Courses, 0-8 credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

Additional Comments:

No Requirement Level

Standards

Academic Standards
As an art and art history student you must first meet the academic entrance requirements of the university. Since individual development is an expectation, you should be prepared to present a portfolio of artwork for review and evaluation periodically throughout the program as requested.

BA Requirement

In order to complete the BA program, you must maintain a 2.67 or higher GPA, including transfer credits, regardless of any declaration of academic forgiveness.

Contact the School of Design & Communication for further details. The assistant dean may make exceptions to the above entrance and retention criteria under unusual circumstances.

Credits in Residence

Any student transferring into art and art history from another institution must complete a minimum of 21 credits within the department for the BFA degree and 15 credits within the department for the BA degree.

Art Foundation Requirement

You need a 2.67 or higher GPA in the art foundation (Studio Art Foundation and Art History Foundation combined), including transfer credits and regardless of any declaration of academic forgiveness, to maintain your status as an art major and to qualify for the BFA Portfolio Review. The foundation consists of DSN 101, DSN 102, DSN 103, ART 201, and 6 credits of Art History ART 111 & ART 112.

Probation for Art Major

If your GPA is below the minimum requirement, you will receive a warning that your academic status is unsatisfactory. If your GPA falls below the minimum requirement for two consecutive semesters, you will be dismissed as a major. The School of Design & Communication's policy on repeating courses and academic forgiveness requires prior School authorization, but is otherwise the same as general university policy, except where higher School GPA requirements apply.

BFA Portfolio Review, 0 credits

Pass Portfolio Review

BFA Portfolio Review:

Passing the BFA Portfolio Review is required for admission into the BFA (professional) program. This review is conducted by art and art history faculty. You must have completed DSN 101, DSN 102, DAN 103, ART 201, and a choice of six credits from other art studio courses.

The review must take place before you complete 24 studio art credits. If you complete 24 studio art credits during the fall semester, you must complete the review the following spring semester. You may attempt the BFA Portfolio Review only once.

If you do not pass the BFA Portfolio Review, you may maintain BA status in Art & Art History Area. Graduating with a BA degree is contingent upon meeting the specific major requirements of the BA degree.

BFA Portfolio Review Appeals Process:

You may appeal any action taken by the Art & Art History Area that is based on the School's requirements and policies that are set forth in this catalog. You must appeal in writing to the assistant dean within 30 days of notification of the action taken. The assistant dean will determine whether a review is appropriate. If so, a review team, composed of a faculty member appointed by the assistant dean and a faculty member that you select, will review the matter, and give a recommendation to the assistant dean.

BFA Review - Reconsideration Review:

You may be reconsidered for acceptance into the BFA after the School's Academic Appeal 30-day limit has passed. This appeal must be made to the assistant dean and must include three letters of support from art and art history or graphic design faculty who have worked with the student in the classroom. The appeal will automatically trigger a new BFA review by a review team made up of faculty members from the Art & Art History Area. The new review must take place within 30 days of receiving the final letter of support. A reconsideration review may be attempted once.

Art and Design History, Theory, Criticism, 12 credits

Fulfill ALL of the following requirements:

Required, 6 credits

Complete ALL of the following Courses:

- ART 111 - Introduction to Global Art History I - 3 Credits
- ART 112 - Introduction to Global Art History II - 3 Credits

AND

Electives, 6 credits

At least 3 credits must have an Art designation

Earn at least 6 credits from the following:

- ART 367 - Art of the Ancient Mediterranean - 3 Credits
- ART 368 - History of Roman Art - 3 Credits
- ART 369 - Medievalism in Art - 3 Credits
- ART 370 - Early Chinese Art and Archaeology - 3 Credits
- ART 371 - Early Imperial Chinese Art - 3 Credits
- ART 372 - Late Imperial Chinese Art - 3 Credits
- ART 373 - The Rise of Modernism in Chinese Art - 3 Credits
- ART 375 - History of Japanese Painting and Woodblock Prints - 3 Credits
- ART 378 - Art Along the Ancient Silk Roads - 3 Credits

- THEA 352 - Theatre History from 1660 to 1915 - 3 Credits
- THEA 452 - Modern and Contemporary Theatre History from 1915 - 3 Credits

Senior Exhibition, 3 credits

Complete ALL of the following Courses:

- ART 491 - Senior Art Exhibition - 3 Credits

Additional Comments:

No Requirement Level

Standards

Admission Standards

Academic Standards

As an art and art history student you must first meet the academic entrance requirements of the university. Since individual development is an expectation, you should be prepared to present a portfolio of artwork for review and evaluation periodically throughout the program as requested.

BFA Requirement

To complete the BFA program, you must satisfy the art foundation requirements, pass the BFA Portfolio Review, and maintain a 2.67 or higher GPA in all art courses. This includes transfer credits and applies regardless of any declaration of academic forgiveness. For graduation, you must also successfully pass ART 491.

Credits in Residence

Any student transferring into art and art history from another institution must complete a minimum of 21 credits within the department for the BFA degree and 15 credits within the department for the BA degree.

Art Foundation Requirement

You need a 2.67 or higher GPA in the art foundation (Studio Art Foundation and Art History Foundation combined), including transfer credits and regardless of any declaration of academic forgiveness, to maintain your status as an art major and to qualify for the BFA Portfolio Review. The foundation consists of DSN 101, DSN 102, DSN 103, ART 201, and 6 credits of Art History ART 111 & ART 112.

Probation for Art Major

If your GPA is below the minimum requirement, you will receive a warning that your academic status is unsatisfactory. If your GPA falls below the minimum requirement for two consecutive semesters, you will be dismissed as a major. The School of Design & Communication's policy on repeating courses and academic forgiveness requires prior School authorization, but is otherwise the same as general university policy, except where higher School GPA requirements apply.

About this Program

The Art, BFA major is designed specifically for you if you are interested in working with a variety of media and approaches to making creative work. The skillsets gained in these studies prepare you for a variety of maker based professional opportunities.

Once enrolled in the program, you are steeped in a formal studio background, with the ability to explore and combine a variety of media and investigative methodologies to examine and explore topics across 2D, 3D, and 4D (time based) studio practice. The program encourages innovative thinking and making for you if you are interested in alternative and innovative

practices. Following enrollment in a common Foundation set of courses, you will work closely with faculty mentors to guide you in your unique development. Course offering come from Art, Graphic Design, Theater, Media Arts, Theater Tech, Dance and Music.

Learning Outcomes

Program Learning Outcomes (UWSP)

1. You will demonstrate knowledge of a variety of studio disciplines.
2. You will assess works of art through critique and art criticism.
3. You will analyze art in historical and cultural context.
4. You will produce a unified exhibition of studio work.
5. You will evaluate your professional practices.

Art History Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the area of Art and Art History in the School of Design and Communication.

Consists of 24 credits.

Program Requirements
Type
Completion Requirement

Required Art, 9 Credits

Fulfill ALL of the following requirements:

Global Art History, 6 Credits

Complete ALL of the following Courses:

- ART 111 - Introduction to Global Art History I - 3 Credits
- ART 112 - Introduction to Global Art History II - 3 Credits

AND

Asian Art, 3 Credits

Complete ANY of the following Courses:

- ART 170 - Survey of Asian Art I - 3 Credits
- ART 171 - Survey of Asian Art II - 3 Credits

Art History, 12-15 Credits

Take 15 credits from the following distribution of 300- or 400-level art history courses, or take 12 credits from 300-400 level art history if 6 credits of ART 170 and ART 171 were taken in the required category above.

Fulfill ALL of the following requirements:

Prior to the 19th Century

Earn at least 3 credits from the following:

- ART 367 - Art of the Ancient Mediterranean - 3 Credits
- ART 368 - History of Roman Art - 3 Credits
- ART 369 - Medievalism in Art - 3 Credits
- ART 370 - Early Chinese Art and Archaeology - 3 Credits
- ART 371 - Early Imperial Chinese Art - 3 Credits
- ART 372 - Late Imperial Chinese Art - 3 Credits
- ART 373 - The Rise of Modernism in Chinese Art - 3 Credits
- ART 375 - History of Japanese Painting and Woodblock Prints - 3 Credits

Arts Management Major (BA)

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Arts Management in the School of Performing Arts.

Consists of a minimum of 52-60 credits (depending upon language placement).

Program Requirements
Type
Completion Requirement

Arts Management, 19 Credits

Fulfill ALL of the following requirements:

Required, 13 Credits

Complete ALL of the following Courses:

- ARTM 195 - Fundamentals of Arts Management - 3 Credits
- ARTM 280 - Internship in Arts Management I - 2 Credits
- ARTM 330 - Fundraising and Institutional Advancement - 3 Credits
  OR ARTM 360 - The Community and the Arts - 3 Credits
- ARTM 380 - Internship in Arts Management II - 2 Credits
- ARTM 400 - Artistic Planning, Presentation, and Promotion - 3 Credits

AND

Capstone, 6 Credits

Fulfill ANY of the following requirements:

Capstone Option 1

Earn at least 6 credits from the following:

- ARTM 480 - Arts Management Capstone: Externship in Arts Management - 6-12 Credits

Note: If 12 credits of ARTM 480 are selected, only 6 credits of ARTM 480 will count toward the requirements of the Arts Management, BA and the major GPA

OR

Capstone Option 2

Earn at least 12 credits from the following:

- ARTM 485 - Arts Management Capstone: Externship in Arts Management - London - 6 Credits

AND

- 6 additional credits will need to be selected in consultation with the International Programs Office to fulfill the requirements of a U.K. student visa)

Business, 12 Credits

Complete ALL of the following Courses:

- ACCT 210 - Introductory Financial Accounting - 3 Credits
- BUS 320 - Principles of Management - 3 Credits
- BUS 330 - Principles of Marketing - 3 Credits
- BUS 340 - Business Law and Ethics - 3 Credits

Communication, 6 Credits

Complete ALL of the following Courses:

- COMM 130 - Introduction to Public Relations - 3 Credits
- COMM 212 - Writing for Professional Communication - 3 Credits
  OR MSTU 107 - Foundations of Media Writing - 3 Credits

Creative Arts, 15 Credits

6 credits must be 300 level or higher

College of Fine Arts and Communication

At least 9 credits must come from Art (ART), Theatre (THEA), Dance (DNCE), Interior Architecture (IA), Graphic Design (GD), Medida Studies (MSTU), Music (MUS), or Professional Communication (COMM) courses. You may apply a maximum of 3 repeated course credits toward this requirement for courses which can be repeated multiple times for credit (e.g. music ensemble).

Remaining Electives

Remaining electives may come from additional Art (ART), Theatre (THEA), Dance (DNCE), Interior Architecture (IA), Graphic Design (GD), Media Studies (MSTU), Music (MUS), or Professional Communication (COMM) courses; or from the following:

Fulfill ANY of the following requirements:

Arts Management

Complete ANY of the following Courses:

- ARTM 300 - Topics in Arts Management - 3 Credits
- ARTM 330 - Fundraising and Institutional Advancement - 3 Credits
- ARTM 360 - The Community and the Arts - 3 Credits

OR

Museum Studies

Complete ANY of the following Courses:

- BIOL 322 - Museum Methods - 3 Credits
- HIST 296 - History and the Public - 3 Credits
- HIST 390 - Museum Exhibits - 3 Credits
- HIST 391 - Historical Documentaries - 3 Credits
- HIST 397 - Historic Preservation - 3 Credits

OR

Media Arts

Complete ANY of the following Courses:

- WD 100 - Introduction to Human-Centered Design - 4 Credits

OR

Literary Arts

Complete ANY of the following Courses:

- ENGL 200 - Introduction to the Study of Literature - 3 Credits
- ENGL 211 - English Literature I - 3 Credits
- ENGL 212 - English Literature II - 3 Credits
- ENGL 213 - American Literature I - 3 Credits
- ENGL 214 - American Literature II - 3 Credits
- ENGL 275 - Children's Literature - 3 Credits
- ENGL 279 - Chicano and Chicana Literature - 3 Credits
- ENGL 280 - American Indian Literature - 3 Credits
- ENGL 282 - Black Literature - 3 Credits
- ENGL 283 - Mythology in Literature - 3 Credits
- ENGL 284 - Introduction to Ethnic Literature of the United States - 3 Credits
- ENGL 285 - Women in Literature - 3 Credits
- ENGL 286 - Literature and Film - 3 Credits
- ENGL 287 - Gay and Lesbian Literature - 3 Credits
- ENGL 288 - The Literature of Human Love and Sexuality - 3 Credits

- ENGL 329 - The American Renaissance - 3 Credits
- ENGL 330 - Chaucer (British) - 3 Credits
- ENGL 333 - Early Shakespeare - 3 Credits
- ENGL 334 - Later Shakespeare - 3 Credits
- ENGL 336 - Milton (British) - 3 Credits
- FREN 340 - Introduction to French Literature - 3 Credits
- GERM 340 - Introduction to German Literature - 3 Credits
- SPAN 340 - Introduction to Literature - 3 Credits
- PHIL 303 - Philosophy of Art - 3 Credits

- ARTM 300 maybe repeated for credit with different topics
- ARTM 330 and ARTM 360 may only be used if not taken above

World Language Courses, 0-8 Credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

Additional Comments:

Standards

Academic Standards

Arts Management Major/Minor

1. You must maintain a grade point average of 2.75 for all courses in the major/minor, regardless of a declaration of academic bankruptcy, to continue in the major and for graduation.

2. Once you complete 12 credits toward your arts management major/minor, you must maintain a 2.75 GPA for your major coursework. If your arts management major/minor GPA falls below a 2.75 GPA will be placed on probation for one semester. If you fail to regain a 2.75 GPA after the next semester in which you complete a course counting toward the arts management major/minor, you will be dismissed from the major/minor.

3. Courses with a grade below C- DO NOT fulfill major/minor requirements; however, grades for those courses will be calculated into your major/minor GPA.

4. Transfer credit policy: Certain courses taken at other universities may substitute for courses in the major/minor. Credits from these courses will be counted when calculating your GPA in arts management.

About this Program

About this Program
If you are interested in declaring an arts management minor, you must meet with a division representative. Contact the Theatre or Dance office to make an appointment.

Within this minor, you will explore the interrelationships of formal and informal structures needed for financing, producing, promoting, and marketing of the arts. Even if you intend to become a practicing artist, this course of study will expose you to skills you will need to make a successful career.

Curriculum
This graduate program is administered by the area of Health Science and Wellness.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)
The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

This program meets the certification/licensure requirements in the following states/territories:
Alabama, Alaska, Arizona, Arkansas, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming

This program either does not meet certification/licensure requirements in the following states/territories or the following states/territories do not license or regulate athletic training:
American Samoa, California, Federated States of Micronesia, Guam, Northern Mariana Islands, Puerto Rico, Republic of Palau, Republic of the Marshall Islands, U.S. Virgin Islands

You must complete all of the required coursework in the MS-AT for successful completion of the program. Program Director endorsement for the Board of Certification Examination will not be granted to any student who does not meet retention standards or does not complete all required course work.

Consists of 63 credits.

Program Requirements
Type
Completion Requirement

Required, 63 Credits

Complete ALL of the following Courses:

- AT 700 - Foundations of Professional Practice in Athletic Training - 3 Credits
- AT 701 - Emergency Response to Injury and Illness - 3 Credits
- AT 710 - Evaluation and Analysis of the Lower Kinetic Chain - 4 Credits
- AT 711 - Evaluation and Analysis of the Upper Kinetic Chain - 4 Credits
- AT 712 - Evaluation and Analysis of the Spine - 2 Credits
- AT 720 - Therapeutic Interventions I - 3 Credits
- AT 721 - Therapeutic Interventions II - 2 Credits
- AT 722 - Therapeutic Interventions III - 2 Credits
- AT 723 - Physiology, Exercise, Nutrition - 2 Credits
- AT 755 - Health Conditions and Medical Interventions - 3 Credits
- AT 770 - Health Care Systems and Management Strategies - 3 Credits
- AT 775 - Humanistic Aspects of Healthcare - 3 Credits
- AT 780 - Clinical Education I - 3 Credits
- AT 781 - Clinical Education II - 3 Credits
- AT 782 - Clinical Skill Practicum - 2 Credits
- AT 783 - Clinical Education III - 5 Credits
- AT 784 - Clinical Education IV - 5 Credits
- AT 785 - Clinical Immersion - 2 Credits
- AT 790 - Evidence Based Practice I - 3 Credits
- AT 791 - Evidence Based Practice II - 3 Credits
- AT 792 - Evidence Based Practice III - 3 Credits

Culminating Experience

Complete Culminating Experience
Completion of clinical rotations as assigned by the Clinical Education Coordinator in conjunction with AT 780, AT 781, AT 782, AT 783, AT 784 and AT 785.

Completion of a research project in conjunction with AT 791 and AT 792.

Additional Comments:

No Requirement Level

Standards

Admission Standards
1. UW-Stevens Point application for graduate study.

Academic Standards
In order to maintain good standing within the MS-AT, you must:

1. Maintain a 3.0 GPA in major.

2. Application to the MS-AT graduate program via ATCAS Central (www.caate.net/apply-now). The ATCAS application requires:

• a written essay,

• two letters of recommendation,

• evidence of 20 hours of athletic training observation with a certified AT.

• a listing of complete or in-progress prerequisite coursework, and

• completion of the Technical Standards Form for the MS-AT program.

3. TOEFL or IELT scores (international applicants only). Minimum of 80 or 7 respectively.

4. Official transcripts of all college work.

5. Attain a minimum cumulative GPA of 3.0 on all coursework prior to application. If your GPA is under 3.0, you can still apply and request a review of your application.

• Prerequisite courses for the MS-AT program are: biology, chemistry, physics, human anatomy, human physiology, exercise physiology, kinesiology, psychology, nutrition, medical terminology, and statistics. Specific UWSP equivalents and required credits can be found on the website at www.uwsp.edu/msat.

Additional Notes about Applying to the Master of Science - Athletic Training (MS-AT):

1. Application deadline: Application deadlines for early admission and the regular decision cycle are published on the MS-AT website at www.uwsp.edu/msat

2. Qualified applicants will be contacted by the AT Admission Committee upon receipt of completed application. Meeting or exceeding the minimum requirements for eligibility to apply does not guarantee acceptance into the MS-AT.

3. A final review of applications will be conducted prior to the start of the first summer term in the MS-AT to ensure any outstanding coursework was completed and admission requirements are met.

Upon Acceptance to the Master of Science - Athletic Training (MS-AT), you must:

1. Provide verification of current physical examination by an approved health care provider (MD, DO, PA, CNP) confirming you meet the physical and mental abilities required of an athletic trainer.

2. Provide current records of: immunization history (including MMR, Hepatitis B, Varicella, adult dTap); tuberculosis (TB) test within the past 12 months.

3. Provide documentation of annual TB test updates.

4. Obtain antibody titers and/or influenza vaccine depending on requirements of assigned clinical sites.

5. Complete a healthcare provider background check as required by regulations in Wisconsin Administrative Code Chapter HFS 12.

2. Maintain 3.0 average evaluation score (4-point scale) on clinical evaluation. If you fail to meet either criteria listed above, you will be on academic probation in the MS-AT for one semester. If you do not attain the retention criteria during the probation semester, you may not continue in the major. You are only allowed one probationary semester during your time in the MS-AT.

Notes for Master of Science -Athletic Training (MS-AT) Students

1. All requirements for the AT program must be complete, or in the process of being completed, before the program director will endorse your application for the Board of Certification examination.

2. All students in the MS-AT are responsible for arranging travel to off-site clinical rotations. You will also be responsible for the cost of travel. There will also be some additional expenses incurred for uniforms and learning resources.

3. Updated information will be provided in the Athletic Training Educational Handbook and the program website.

4. If you are denied acceptance into the program, you may contact the assistant dean of the School of Health Sciences and Wellness for appeal procedures. Appeals are handled by the School of Health Sciences and Wellness Appeals Committee.

6. Supply verification of personal healthcare provider liability insurance.

7. Submit all health-related documentations/ verifications to the Clinical Education Coordinator prior to the start of each semester.

About this Program

About this Program
Athletic Trainers are health care professionals who provide service and treatment in the areas of injury/illness prevention, emergency care, clinical diagnosis, therapeutic intervention and rehabilitation of injuries and medical conditions.

The Master of Science in Athletic Training (MS-AT) degree is a professional athletic training program that prepares you for certification as an athletic trainer. There are two tracks for admission: Traditional - completed undergraduate degree or the accelerated Athletic Training 3 + 2 Option (BS in Health Sciences and Wellness, MS in Athletic Training).

Owner
Health Science and Wellness

Learning Outcomes

Program Learning Outcomes (UWSP)
Upon completion of the M.S. degree in Athletic Training, you will be prepared to:

1. Demonstrate mastery of skills and abilities necessary of a successful athletic training professional as outlines by the CAATE Professional Standards and the BOC Role Delineation Study

2. Demonstrate and apply critical thinking and decision-making skills for competent professional practice

3. Demonstrate the ability to interpret and implement evidence-based practice in athletic training and health care

4. Exhibit effective interpersonal skills, communication skills, and professional and ethical behaviors with patients, professionals, and all individuals involved in providing education and proper health care to the active individual

5. Demonstrate attitudes, behaviors and practices that support life-long learning and professional engagement

Business Economics Major (BS) - Accredited by AACSB

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Economics in the Sentry School of Business and Economics.

Successfully complete a minimum of 77 credits with a cumulative GPA of 2.50 or higher.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: MATH 109, MATH 111, MATH 225, ECON 110, ECON 111, ECON 200, MATH 255, ECON 243, FOR 321, HSW 301, MATH 354, MATH 357, PSYC 300, SOC 351, and ECON 310.

In general, try to complete the core classes in approximately this sequence. The courses near the beginning of the list serve as prerequisites for courses near the end of the list.

Program Requirements
Type
Completion Requirement

Calculus, 3-5 Credits

Complete ANY of the following Courses:
- MATH 109 - Mathematics for the Social and Management Sciences - 4 Credits (Inactive)
- MATH 111 - Applied Calculus - 4 Credits
- MATH 225 - Calculus I - 5 Credits

Note: If you anticipate doing advanced study in a field such as Actuarial Science, you should take MATH 225

Economics, 6 Credits

Fulfill ANY of the following requirements:

Economics Option 1

Complete ALL of the following Courses:
- ECON 110 - Principles of Macroeconomics - 3 Credits
  AND ECON 111 - Principles of Microeconomics - 3 Credits

OR

Economics Option 2

Earn at least 6 credits from the following:
- ECON 200 - Principles of Economics - 3 Credits

AND an additional 3 credits in 200-400-level Economics coursework. You may not take ECON 497 or ECON 498 to satisfy this requirement. Classes you take as part of other requirements of the major do not satisfy this requirement.

Accounting, 6 Credits

Complete ALL of the following Courses:
- ACCT 210 - Introductory Financial Accounting - 3 Credits
- ACCT 211 - Introductory Managerial Accounting - 3 Credits

Statistics, 3-4 Credits

Complete ANY of the following Courses:
- ECON 243 - Economic and Business Statistics - 3 Credits
- FOR 321 - Natural Resources Data Analysis - 4 Credits
- HSW 301 - Fundamentals of Biostatistics - 3 Credits
- MATH 255 - Elementary Statistical Methods - 4 Credits
- MATH 354 - Applied Statistics - 4 Credits
- MATH 357 - Probability and Statistics II - 3 Credits
- PSYC 300 - Statistics for Psychologists - 4 Credits
- SOC 351 - Social Statistics - 4 Credits

Business, 32 Credits

Complete ALL of the following Courses:
- BUS 100 - Introduction to Business - 1 Credits
- BUS 201 - Writing and Presenting for Business - 3 Credits
- BUS 275 - AI and Technology in Business - 1 Credits
- BUS 301 - Building Relationships for Business - 3 Credits
- BUS 325 - Organizational Behavior - 3 Credits
- BUS 330 - Principles of Marketing - 3 Credits
- BUS 340 - Business Law and Ethics - 3 Credits
- BUS 350 - Principles of Finance - 3 Credits
- BUS 360 - Principles of Production-Operations Management - 3 Credits
- BUS 370 - Management Information Systems - 3 Credits
- BUS 380 - Principles of Business Analytics - 3 Credits
- BUS 480 - Management Capstone - 3 Credits

Note: If you are completing an Accounting major, you may substitute ACCT 370 in place of BUS 370

Internship, 3 Credits

Complete ANY of the following Courses:

- ACCT 497 - Internship in Accounting - 1-15 Credits
- BUS 497 - Internship in Business Administration - 3-15 Credits
- ECON 497 - Internship in Economics - 1-15 Credits

Additional Comments:

Economics Requirement
Type
Completion Requirement

Required Economics, 12 Credits

Complete ALL of the following Courses:

- ECON 310 - Introductory Econometrics - 3 Credits
- ECON 350 - Microeconomic Theory - 3 Credits
- ECON 360 - Money and Financial Markets - 3 Credits
- ECON 361 - Macroeconomic Theory - 3 Credits

Economics Electives, 12 Credits

Complete Economics Electives
Complete 12 credits in additional economics courses, NOT including ECON 100, ECON 200, ECON 497, or ECON 498

Note that BUS 323, BUS 352, and BUS 353 count as economic electives

Additional Comments:

No Requirement Level

Standards

Admission Standards
You must apply for admission to the Economics major before you complete 18 credits toward the major. You must be admitted to the economics major to register for some upper-level courses and to graduate with an economics major.

Once you are accepted as an economics major, you can receive specialized, one-on-one advising from school faculty or staff.

Minimum requirements: We encourage you to apply as soon as you have completed at least 10 credits toward the major.

If you are a transfer student: Apply before you complete 18 credits in the economics major OR during your first semester at UW-Stevens Point.

Exceptions: If you wish to request consideration of exceptional circumstances, do so in writing to the Sentry School Admissions Committee.

Academic Standards
To graduate with a major or minor in economics, successfully complete all required courses in the major or minor and achieve a cumulative grade point average of 2.50 or higher in all your major/minor courses. See Academic Standards for the Sentry School of Business and Economics for more information on GPA requirements and for the Sentry School of Business and Economics repeat policy.

About this Program

About this Program
In the economics major, you complete courses in core economic content and methodology, as well as courses in basic mathematical techniques and advanced economic statistics. Upon completing the economics major, you will be prepared to work in economics and the business world.

Learning Outcomes

Program Learning Outcomes (UWSP)
Evidence of Business Economics graduates' level of preparation will be found in your ability to:

1. Analyze and solve business and economics problems

a. you will be able to apply core concepts, models, and methods from business, accounting, and economics in identifying and solving problems

2. Demonstrate the intercultural competencies necessary to thrive in an increasingly global marketplace

a. you will be able to integrate global perspectives and competencies in business interactions

3. Appreciate the importance of behaving professionally and ethically

a. you will be able to recognize and analyze an ethical dilemma, applying an appropriate ethical framework

b. you will be able to work effectively with others in team settings

4. Communicate effectively

a. you will be able to craft and present an effective professional oral presentation

b. you will be able to successfully write an effective professional report

5. Absorb concepts in areas of core business knowledge

a. demonstrate literacy in accounting, economics, marketing, management, production, finance, information systems, and business law

b. demonstrate proficiencies in the core areas of Business Economics

Biochemistry Major (BS)

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of Chemistry and Biochemistry within the College of Letters and Science.

Consists of a minimum of 82 total credits (77 credits if taking CHEM 117).

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 105, CHEM 106, CHEM 117, MATH 225, MATH 255, PHYS 240, and PHYS 250.

Program Requirements
Type
Completion Requirement

Biology, 23 Credits

Complete ALL of the following Courses:

- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits
- BIOL 210 - Principles of Genetics - 3 Credits
- BIOL 314 - Cell Biology - 4 Credits
- BIOL 320 - Molecular Biology - 4 Credits
- BIOL 490 - Senior Seminar - 2 Credits
  OR BIOL 495 - Capstone Undergraduate Research Experience - 2 Credits
  OR CHEM 495 - Capstone Undergraduate Research Experience - 2 Credits

Chemistry, 5-10 Credits

Fulfill ANY of the following requirements:

Chemistry Option 1

Complete ALL of the following Courses:

- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits

OR

Chemistry Option 2

Complete ALL of the following Courses:

- CHEM 117 - General Chemistry Principles - 5 Credits

Required Chemistry, 22 Credits

Complete ALL of the following Courses:

- CHEM 248 - Quantitative Analysis - 4 Credits
- CHEM 325 - Organic Chemistry - 4 Credits
- CHEM 326 - Organic Chemistry - 4 Credits
- CHEM 333 - Biophysical Chemistry - 3 Credits
- CHEM 365 - Biochemistry I - 4 Credits
- CHEM 366 - Biochemistry II - 3 Credits

Mathematics, 9 Credits

Complete ALL of the following Courses:

- MATH 225 - Calculus I - 5 Credits
- MATH 255 - Elementary Statistical Methods - 4 Credits

Physics, 10 Credits

Fulfill ANY of the following requirements:

Physics Option 1

Complete ALL of the following Courses:

- PHYS 203 - College Physics I - 5 Credits
- PHYS 204 - College Physics II - 5 Credits

OR

Physics Option 2

Complete ALL of the following Courses:

- PHYS 240 - University Physics I - 5 Credits
- PHYS 250 - University Physics II - 5 Credits

Required Electives, 8 Credits

Earn at least 8 credits from the following:

- BIOL 311 - Population Genetics and Evolution - 3 Credits
- BIOL 312 - Human Genetics - 4 Credits
- BIOL 313 - Cancer Biology - 3 Credits
- BIOL 315 - Virology - 3 Credits
- BIOL 317 - Developmental Biology - 4 Credits
- BIOL 333 - General Microbiology - 4 Credits
- BIOL 351 - Plant Physiology - 4 Credits
- BIOL 370 - Comparative Vertebrate Anatomy - 4 Credits
- BIOL 381 - Animal Physiology - 4 Credits
- BIOL 382 - Endocrinology of Mammals - 3 Credits
- BIOL 385 - Human Physiology - 4 Credits
- BIOL 387 - Human Anatomy - 4 Credits
- BIOL 389 - Immunology - 3 Credits
- BIOL 390 - Neurobiology - 3 Credits
- BIOL 391 - Essentials of Python for Bioinformatics - 2 Credits
- BIOL 398 - Introduction to Experimental Design - 2 Credits
- BIOL 399 - Independent Studies - 1-2 Credits
- BIOL 400 - Communication in Research - 1 Credits
- BIOL 487 - Survey in Human Dissection - 2 Credits
- BIOL 498 - Selected Topics in Biology - 1-4 Credits
- BIOL 499 - Internship in Biology - 1-4 Credits
- CHEM 329 - Advanced Synthesis Laboratory - 2 Credits
- CHEM 355 - Intermediate Inorganic Chemistry - 4 Credits
- CHEM 363 - Introduction to Drug Discovery and Pharmacokinetics - 3 Credits
- CHEM 387 - Spectral Identification of Organic Compounds - 1 Credits
- CHEM 399 - Special Work - 1-3 Credits
- CHEM 425 - Advanced Organic Chemistry - 3 Credits
- CHEM 499 - Independent Research - 1-3 Credits
- MATH 226 - Calculus II - 5 Credits
- MATH 227 - Calculus III - 4 Credits

Note: These courses may apply to one of the emphasis areas below.

Additional Comments:

Optional
Type
Completion Requirement

Areas of Emphasis (Optional)

You may use these recommended course groupings to personalize your program after consulting with your adviser.

Fulfill ANY of the following requirements:

Biochemistry/Chemistry/Biophysics

Complete ALL of the following Courses:

- CHEM 335 - Physical Chemistry - Thermodynamics and Kinetics - 4 Credits
- CHEM 336 - Physical Chemistry - Quantum Chemistry and Spectroscopy - 3 Credits
- CHEM 363 - Introduction to Drug Discovery and Pharmacokinetics - 3 Credits
- MATH 226 - Calculus II - 5 Credits
- MATH 227 - Calculus III - 4 Credits

OR

Biotechnology/Molecular Biology/Genetics

Complete ALL of the following Courses:

- BIOL 312 - Human Genetics - 4 Credits
- BIOL 313 - Cancer Biology - 3 Credits
- BIOL 333 - General Microbiology - 4 Credits
- BIOL 389 - Immunology - 3 Credits
- BIOL 495 - Capstone Undergraduate Research Experience - 2 Credits **OR** CHEM 495 - Capstone Undergraduate Research Experience - 2 Credits

Additional Comments:

No Requirement Level

Standards

Academic Standards
Admittance and status as a biochemistry major depends on the following factors:

1. To be admitted, retained, and approved for graduation as a biochemistry major, you must:

· apply for acceptance into the major through the Department of Chemistry and Biochemistry office no later than the first semester of your junior year.

· maintain a minimum grade point average of 2.50 for all courses taken within the major and regardless of a declaration of academic forgiveness, (including UWSP and transferred credits that are accepted into the major).

2. When you apply for the biochemistry major, you are conditionally admitted with an "intended" status, BIOL 110, BIOL 111, and CHEM 105 and CHEM 106 must be completed within three semesters of application to the major.

3. Initial advising for intended majors will be conducted through the COLS Advising Center. After a minimum of 45 credits have been earned, the introductory biology courses (BIOL 110, BIOL 111) and general chemistry courses (CHEM 105 and CHEM 106) have been completed, and the minimum biochemistry major GPA has been met, the status will be changed to "accepted" and a Biology or Chemistry faculty adviser will be assigned.

4. Accepted students with a GPA in the biochemistry major of less than 2.50 are changed to "provisional" and are allowed two semesters in which to reach the minimum GPA or be dropped from the major. If you are dropped from the major, you may reapply only once.

5. No more than six credits of D work in any courses in the major will be counted toward the completion of the biochemistry major. All grades of D or F in required core, collateral, and elective courses are used to compute the cumulative GPA in the major. If you repeat a course, the last grade earned is the grade used in your GPA calculation. Courses with grades of D or F may be repeated (only if a seat is available after the regular registration period) only with approval of the appropriate department chair and your adviser.

About this Program
This multidisciplinary major has a chemistry-based curriculum coupled with a significant biology component. The role of a biochemist is to work for understanding of organismal function and diversity in the principles and concepts of chemistry and physics, as well as in the structure, mechanisms and chemical processes that are common to all organisms. The biochemistry major links biological sciences like molecular biology and genetics to physical sciences like chemistry and physics. In addition, the biochemistry major combines the multidisciplinary foundation inherent to biochemistry with all the advantages of a liberal arts education.

Learning Outcomes

Program Learning Outcomes (UWSP)
Upon completion of the Biochemistry program, you will be able to :

1. Describe the foundational principles of physics, chemistry and biology related to the molecular dynamics of living organisms

2. Describe the flow and balance of energy in biological system, including metabolic pathways across multiple levels of complexity within an organism

3. Apply the concepts of the transfer of information from nucleic acids to protein and their phenotypic expression (i.e., the central dogma of biology) and its impact on society

4. Demonstrate skills in biochemical and molecular biology laboratory techniques and apply theory to analyze results

5. Critically evaluate and synthesize biochemical information from multiple sources, including the primary scientific literature, and communicate scientific knowledge to both professional and non-professional audiences.

Biofuels Engineering Minor

Requirements

Simple Requisites

Curriculum

Entry of new students into this program has been suspended as of Spring 2021.

This minor is administered by the Department of Paper Science and Engineering.

Consists of a minimum of 18 credits.

Program Requirements
Type
Completion Requirement

Chemistry, 5-10 Credits

Fulfill ANY of the following requirements:

Chemistry Option 1

Complete ALL of the following Courses:

- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits

OR

Chemistry Option 2

Complete ALL of the following Courses:

- CHEM 117 - General Chemistry Principles - 5 Credits

Organic Chemistry, 4 Credits

Complete ANY of the following Courses:

- CHEM 220 - Survey of Organic Chemistry - 4 Credits
- CHEM 325 - Organic Chemistry - 4 Credits

Required, 9 Credits

Complete ALL of the following Courses:

- NRES 341 - Introduction to Sustainable Energy Policy - 3 Credits
- PSEN 450 - Renewable Fuels Production - 3 Credits
- PSEN 452 - Renewable Fuels Laboratory - 3 Credits

Aquaculture - Fish Culture Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the Department of Biology within the College of Letters and Science.

A minor in Aquaculture - Fish Culture consists of a minimum of 39 credits from the following courses:

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 105, CHEM 106, and CHEM 117.

Program Requirements
Type
Completion Requirement

Biology, 5-10 Credits

Fulfill ANY of the following requirements:

Biology Option 1

Complete ALL of the following Courses:

- BIOL 101 - General Biology - 5 Credits

OR

Biology Option 2

Complete ALL of the following Courses:

- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits

OR

Biology Option 3

Complete ALL of the following Courses:

- BIOL 160 - Introduction to Animal Biology - 5 Credits

Chemistry, 5-10 Credits

Fulfill ANY of the following requirements:

Chemistry Option 1

Complete ALL of the following Courses:

- CHEM 105 - Fundamental Chemistry - 5 Credits
  AND CHEM 106 - Fundamental Chemistry - 5 Credits

OR

Chemistry Option 2

Complete ALL of the following Courses:

- CHEM 117 - General Chemistry Principles - 5 Credits

Required, 19-20 Credits

Complete ALL of the following Courses:

- BIOL 210 - Principles of Genetics - 3 Credits
- BIOL 374 - Ichthyology - 4 Credits
- BIOL 375 - Fisheries Ecology - 3 Credits
  OR WATR 388 - Aquatic Ecology - 3 Credits
- BIOL 386 - Fish Culture - 3 Credits
  OR WATR 386 - Fish Culture - 3 Credits
- BUS 320 - Principles of Management - 3 Credits
- WATR 390 - Water Chemistry and Analysis - 4 Credits
  OR PSEN 382 - Water and Wastewater Treatment - 3 Credits
  OR WATR 382 - Water and Wastewater Treatment - 3 Credits
  OR WSTE 382 - Water and Wastewater Treatment - 3 Credits

Electives, 10 Credits

Earn at least 10 credits from the following:

- BIOL 333 - General Microbiology - 4 Credits
- BIOL 338 - Phycology - 4 Credits
  OR WATR 338 - Phycology - 4 Credits
- BIOL 361 - Aquatic Invertebrate Zoology - 3 Credits
  OR WATR 361 - Aquatic Invertebrate Zoology - 3 Credits
- BIOL 362 - Animal Parasitology - 4 Credits
- BIOL 380 - Introduction to Aquaponics - 3 Credits
- BIOL 499 - Internship in Biology - 1-4 Credits
  OR WATR 381 - Internship in Water - 1-12 Credits
- BUS 330 - Principles of Marketing - 3 Credits
- WATR 360 - Wetlands Ecology and Management - 3 Credits
  OR WLDL 360 - Wetlands Ecology and Management - 3 Credits
- WATR 384 - Life History of Fishes - 3 Credits
- WATR 488 - Aquatic Insects - 3 Credits
- WATR 494 - Environmental Toxicology and Risk Assessment - 3 Credits
- WLDL 322 - Techniques of Captive Wildlife Management - 2 Credits

Up to 4 credits of WATR 381 may be used towards the Elective requirement

About this Program
Aquaculture is the discipline that studies the culture of finfish, methods of production, environmental and ecological manipulation and assessment, selective breeding, nutrition, diseases, processing, marketing and operation of culture facilities. The importance of aquaculture has increased as natural stocks of fish have declined and human consumption has continued to rise.

- BIOL 305 - General Ecology - 3 Credits
- BIOL 306 - Ecological Methods - 1 Credits
- BIOL 490 - Senior Seminar - 2 Credits

Note:

BIOL 306 is waived if CNR Summer Field Experience or NRES 475 is completed.

Biology Option, 10 credits

Fulfill ANY of the following requirements:

Biology Option A, 10 credits

Complete ALL of the following Courses:

- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits

OR

Biology Option B, 10 credits

Complete ALL of the following Courses:

- BIOL 130 - Introduction to Plant Biology - 5 Credits
- BIOL 160 - Introduction to Animal Biology - 5 Credits

Physiology, 4 credits

Complete ANY of the following Courses:

- BIOL 351 - Plant Physiology - 4 Credits
- BIOL 381 - Animal Physiology - 4 Credits
- BIOL 385 - Human Physiology - 4 Credits

Cellular and Molecular Biology, 3-8 credits

Fulfill ANY of the following requirements:

Cellular and Molecular Biology Option 1

Complete ALL of the following Courses:

- BIOL 302 - Cellular and Molecular Biology - 3 Credits

OR

Cellular and Molecular Biology Option 2

Complete ALL of the following Courses:

- BIOL 314 - Cell Biology - 4 Credits
- BIOL 320 - Molecular Biology - 4 Credits

Note: The combination of BIOL 314 and BIOL 320 also counts towards 5 of the required elective credits.

Required Chemistry, 10 credits

Complete ALL of the following Courses:

- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits

Organic Chemistry, 4 credits

Fulfill ANY of the following requirements:

Organic Chemistry Option 1

Complete ALL of the following Courses:

- CHEM 221 - Survey of Organic Chemistry Lecture - 3 Credits
- CHEM 222 - Survey of Organic Chemistry Lab - 1 Credits

OR

Organic Chemistry Option 2

Complete ALL of the following Courses:

- CHEM 325 - Organic Chemistry - 4 Credits

Mathematics, 4-5 credits

Complete ANY of the following Courses:

- MATH 111 - Applied Calculus - 4 Credits
- MATH 225 - Calculus I - 5 Credits
- MATH 255 - Elementary Statistical Methods - 4 Credits

Additional Comments:

Electives
Type
Completion Requirement

Electives, 16 Credits

Earn at least 16 credits from the following:

- BIOL 309 - Field Biology - 3-4 Credits
- BIOL 311 - Population Genetics and Evolution - 3 Credits
- BIOL 312 - Human Genetics - 4 Credits
- BIOL 313 - Cancer Biology - 3 Credits
- BIOL 314 - Cell Biology - 4 Credits
- BIOL 315 - Virology - 3 Credits
- BIOL 317 - Developmental Biology - 4 Credits
- BIOL 320 - Molecular Biology - 4 Credits
- BIOL 325 - Introduction to Biological Illustration - 2 Credits
- BIOL 330 - Plant Morphology - 4 Credits
- BIOL 331 - Plant Anatomy - 4 Credits
- BIOL 333 - General Microbiology - 4 Credits
- BIOL 335 - Mycology - 4 Credits
- BIOL 337 - Plant Pathology - 3 Credits
- BIOL 338 - Phycology - 4 Credits
  OR WATR 338 - Phycology - 4 Credits
- BIOL 342 - Vascular Plant Taxonomy - 4 Credits
- BIOL 345 - Agrostology - 2 Credits
- BIOL 351 - Plant Physiology - 4 Credits
- BIOL 353 - Ethnobotany - 3 Credits
- BIOL 354 - Science of Brewing - 3 Credits
- BIOL 355 - Plant Ecology - 4 Credits
- BIOL 361 - Aquatic Invertebrate Zoology - 3 Credits
  OR WATR 361 - Aquatic Invertebrate Zoology - 3 Credits
- BIOL 362 - Animal Parasitology - 4 Credits
- BIOL 367 - General Entomology - 4 Credits
- BIOL 370 - Comparative Vertebrate Anatomy - 4 Credits
- BIOL 374 - Ichthyology - 4 Credits
- BIOL 375 - Fisheries Ecology - 3 Credits
- BIOL 376 - Herpetology - 3 Credits
- BIOL 377 - Ornithology - 3 Credits
- BIOL 380 - Introduction to Aquaponics - 3 Credits
- BIOL 381 - Animal Physiology - 4 Credits
- BIOL 382 - Endocrinology of Mammals - 3 Credits
- BIOL 383 - Biology of Reproduction - 3 Credits
- BIOL 385 - Human Physiology - 4 Credits
- BIOL 386 - Fish Culture - 3 Credits
  OR WATR 386 - Fish Culture - 3 Credits
- BIOL 387 - Human Anatomy - 4 Credits
- BIOL 388 - Animal Behavior - 3 Credits
  OR PSYC 388 - Animal Behavior - 3 Credits
- BIOL 389 - Immunology - 3 Credits
- BIOL 390 - Neurobiology - 3 Credits
- BIOL 391 - Essentials of Python for Bioinformatics - 2 Credits
- BIOL 397 - Teaching Assistantship - 1-2 Credits
- BIOL 398 - Introduction to Experimental Design - 2 Credits
- BIOL 399 - Independent Studies - 1-2 Credits
- BIOL 400 - Communication in Research - 1 Credits
- BIOL 428 - Scanning Electron Microscope Workshop - 1 Credits
- BIOL 477 - Raptor Ecology - 2 Credits
- BIOL 487 - Survey in Human Dissection - 2 Credits
- BIOL 498 - Selected Topics in Biology - 1-4 Credits
- BIOL 499 - Internship in Biology - 1-4 Credits
- CHEM 326 - Organic Chemistry - 4 Credits
- CHEM 365 - Biochemistry I - 4 Credits
- CHEM 366 - Biochemistry II - 3 Credits
- MATH 226 - Calculus II - 5 Credits
- WATR 347 - Aquatic Plant Taxonomy - 2 Credits
- WATR 384 - Life History of Fishes - 3 Credits
- WATR 388 - Aquatic Ecology - 3 Credits
- WATR 483 - Fisheries Research - 3 Credits
- WATR 488 - Aquatic Insects - 3 Credits
- WLDL 378 - Mammalogy - 3 Credits

Notes:

- BIOL 351, BIOL 381, and BIOL 385 can be taken as an elective if not used to fulfill physiology requirement
- BIOL 397 can be taken for up to 4 credits towards major in combination with BIOL 399
- BIOL 399 can taken for up to 4 credits towards major in combination with BIOL 397
- BIOL 498 may be repeated with different topics
- BIOL 499 can be taken for up to 4 credits towards major

Biology Credits

Complete Residence Credits
Biology majors must complete at least 12 biology credits at UW-Stevens Point

Additional Comments:

No Requirement Level

Standards

Academic Standards

Admittance and status as a biology major depends on the following factors:

1. To be admitted, retained, and approved for graduation as a biology major, you must maintain a minimum grade point average of 2.0 for all courses taken within the major (2.75 to student teach in biology, 3.0 to graduate with a Human and Animal Health emphasis), including collateral courses and regardless of a declaration of academic forgiveness.

2. When you apply for the biology major, you are conditionally admitted. BIOL 111 (or BIOL 130 and BIOL 160) and CHEM 105 or CHEM 117 must be completed within three semesters of application to the major, with no less than a 2.0 GPA in the major (including UWSP and transferred biology and collateral chemistry and math credits). When the introductory biology courses (BIOL 111 or BIOL 130 and BIOL 160) and the first semester of general chemistry (CHEM 105 or CHEM 117) are completed, and the minimum Biology GPA has been met, you will be assigned a status of "accepted".

3. Accepted majors with a GPA in biology of less than 2.0 are changed to 'provisional' and are allowed two semesters in which to reach the minimum GPA or be dropped from the major. If you are dropped from the major, you may reapply only once the minimum GPA is satisfied. A declared Human and Animal Health emphasis with a GPA in biology of less than 3.0, but greater than 2.0, will remain as an accepted biology major.

NOTE: No more than six credits of D work in biology courses will be counted toward the completion of the biology major, biology major with an emphasis, or minor. All grades of D or F in biology and required collateral courses are used to compute the cumulative GPA in the major, biology major with an emphasis, or minor. If you repeat a course, the last grade earned is the grade used in your GPA calculation. Courses with grades of D or F may be repeated (only if a seat is available after the regular registration period) only with approval of the department chair and your adviser.

Learning Outcomes

Program Learning Outcomes (UWSP)

Upon completion of the Biology program, you will be able to:

1. Recognize the multiple levels of complexity at which biological systems operate, from molecules to ecosystems and the biosphere, and explain the emergent properties and processes characteristic of each level
2. Describe mechanisms for the continuity of life, including the processes of inheritance, development, and evolution
3. Demonstrate proficiency in the methods and philosophy of science, including articulation and application of the Scientific Method, collection and analysis of biological data, and application of professional ethics
4. Critically evaluate and synthesize biological information from multiple sources, including the primary scientific literature, and communicate biological knowledge to both professional and non-professional audiences
5. Articulate the application of biological science to meeting the needs of society, including basic research, stewardship of biodiversity, human health, and entrepreneurial innovation

Biology Major (BS): Botany and Plant Science Option

Requirements

Simple Requisites

Curriculum
This emphasis is administered by the Department of Biology within the College of Letters and Science.

Consists of a minimum of 65 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 105, CHEM 106, MATH 111, MATH 225, and MATH 255.

Biology Core and Collateral Courses
Type
Completion Requirement

Biology, 24 Credits

Complete ALL of the following Courses:

- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits
- BIOL 190 - Introduction to the Biology Major - 1 Credits
- BIOL 210 - Principles of Genetics - 3 Credits
- BIOL 270 - Principles of Evolution - 4 Credits
- BIOL 305 - General Ecology - 3 Credits
- BIOL 306 - Ecological Methods - 1 Credits
- BIOL 490 - Senior Seminar - 2 Credits

Notes:

- BIOL 110 and BIOL 111 are waived if BIOL 160 AND BIOL 130 have been completed (offerings limited or unavailable at the main campus
- BIOL 306 is waived if CNR Summer Field Experience or NRES 475 is completed.

Physiology, 4 Credits

Complete ALL of the following Courses:

- BIOL 351 - Plant Physiology - 4 Credits

Cellular and Molecular Biology, 3-8 Credits

Fulfill ANY of the following requirements:

Cellular and Molecular Biology Option 1

Complete ALL of the following Courses:

- BIOL 302 - Cellular and Molecular Biology - 3 Credits

OR

Cellular and Molecular Biology Option 2

Complete ALL of the following Courses:

- BIOL 314 - Cell Biology - 4 Credits
- BIOL 320 - Molecular Biology - 4 Credits

Note: The combination of BIOL 314 and BIOL 320 also counts towards 5 of the Biology required elective credits for this emphasis .

Required Chemistry, 10 Credits

Complete ALL of the following Courses:

- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits

Organic Chemistry, 4 Credits

Fulfill ANY of the following requirements:

Organic Chemistry Option 1

Complete ALL of the following Courses:

- CHEM 221 - Survey of Organic Chemistry Lecture - 3 Credits
- CHEM 222 - Survey of Organic Chemistry Lab - 1 Credits

OR

Organic Chemistry Option 2

Complete ALL of the following Courses:

- CHEM 325 - Organic Chemistry - 4 Credits

Mathematics, 4-5 Credits

Complete ANY of the following Courses:

- MATH 111 - Applied Calculus - 4 Credits
- MATH 225 - Calculus I - 5 Credits
- MATH 255 - Elementary Statistical Methods - 4 Credits

Additional Comments:

Botany and Plant Science Option - Core Requirements
Type
Completion Requirement

Required, 4 credits

Complete ALL of the following Courses:

- BIOL 342 - Vascular Plant Taxonomy - 4 Credits

Biology, 8 credits

Earn at least 8 credits from the following:

- BIOL 309 - Field Biology - 3-4 Credits
- BIOL 331 - Plant Anatomy - 4 Credits
- BIOL 333 - General Microbiology - 4 Credits
- BIOL 337 - Plant Pathology - 3 Credits
- BIOL 338 - Phycology - 4 Credits
- BIOL 345 - Agrostology - 2 Credits
- BIOL 353 - Ethnobotany - 3 Credits
- BIOL 355 - Plant Ecology - 4 Credits
- BIOL 367 - General Entomology - 4 Credits
- BIOL 428 - Scanning Electron Microscope Workshop - 1 Credits
- BIOL 498 - Selected Topics in Biology - 1-4 Credits

Notes:

- BIOL 498 should be taken with the topic of *Transmission Electron Microscopy (TEM) Workshop*
- Additional electives, including other sections of BIOL 498 or various sections of BIOL 499, may be possible as recommended by your major advisor
- The combination of BIOL 314 and BIOL 320 also counts towards 5 credits of this category if used to fulfill the molecular and cell biology requirement

Electives, 4 credits

Earn at least 4 credits from the following:

- BIOL 309 - Field Biology - 3-4 Credits
- BIOL 331 - Plant Anatomy - 4 Credits
- BIOL 333 - General Microbiology - 4 Credits
- BIOL 337 - Plant Pathology - 3 Credits
- BIOL 338 - Phycology - 4 Credits
  OR WATR 338 - Phycology - 4 Credits
- BIOL 345 - Agrostology - 2 Credits
- BIOL 353 - Ethnobotany - 3 Credits
- BIOL 355 - Plant Ecology - 4 Credits
- BIOL 367 - General Entomology - 4 Credits
- BIOL 397 - Teaching Assistantship - 1-2 Credits
- BIOL 398 - Introduction to Experimental Design - 2 Credits
- BIOL 399 - Independent Studies - 1-2 Credits
- BIOL 400 - Communication in Research - 1 Credits
- BIOL 428 - Scanning Electron Microscope Workshop - 1 Credits
- BIOL 498 - Selected Topics in Biology - 1-4 Credits
- FOR 424 - Forest Pathology - 3 Credits
- SOIL 364 - Soil and Plant Analysis - 3 Credits
- SOIL 373 - Agronomy, Agriculture and the Environment - 4 Credits
- WATR 347 - Aquatic Plant Taxonomy - 2 Credits
- Up to 4 credits of BIOL 397 in combination with BIOL 399 can be applied to the option
- It is recommended that BIOL 498 be taken with the topic of *Transmission Electron Microscopy (TEM) Workshop*
- SOIL 373 requires instructor consent for non-CNR majors
- Additional electives, including other sections of BIOL 498 or various sections of BIOL 499, may be possible as recommended by your major advisor

6. Demonstrate broad knowledge in plant physiology, plant ecology, plant phylogeny, and plant evolution

Biology Major (BS): Human and Animal Health Option

Requirements

Simple Requisites

Curriculum
This emphasis is administered by the Biology department within the College of Letters and Science.

Consists of a minimum of 84 credits.

Minimum GPA = 3.0

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 105, CHEM 106, MATH 111, MATH 225, MATH 255, PHYS 240, and PHYS 250.

Biology Core and Collateral Courses
Type
Completion Requirement

Biology, 24 Credits

Complete ALL of the following Courses:

- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits
- BIOL 190 - Introduction to the Biology Major - 1 Credits
- BIOL 210 - Principles of Genetics - 3 Credits
- BIOL 270 - Principles of Evolution - 4 Credits
- BIOL 305 - General Ecology - 3 Credits
- BIOL 306 - Ecological Methods - 1 Credits
- BIOL 490 - Senior Seminar - 2 Credits

Notes:

- BIOL 110 and BIOL 111 are waived if BIOL 160 and BIOL 130 have been completed (offerings limited or unavailable at the main campus)
- BIOL 306 is waived if CNR Summer Field Experience or NRES 475 is completed

Physiology, 4 Credits

Complete ANY of the following Courses:

- BIOL 381 - Animal Physiology - 4 Credits
- BIOL 385 - Human Physiology - 4 Credits

Note: BIOL 385 is strongly advised for students interested in pursuing careers focused on Human health. Select schools require completion of physiology within three years of entering graduate programs

Cellular and Molecular Biology, 3-8 Credits

Fulfill ANY of the following requirements:

Cellular and Molecular Biology Option 1

Complete ALL of the following Courses:

- BIOL 302 - Cellular and Molecular Biology - 3 Credits

OR

Cellular and Molecular Biology Option 2

Complete ALL of the following Courses:

- BIOL 314 - Cell Biology - 4 Credits
- BIOL 320 - Molecular Biology - 4 Credits

Note: The combination of BIOL 314 and BIOL 320 also counts towards 5 of the required elective credits for this emphasis . BIOL 314 and BIOL 320 are strongly advised for students interested in pursuing a career in Human health

Required Chemistry, 10 Credits

Complete ALL of the following Courses:

- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits

Organic Chemistry, 4 Credits

Fulfill ANY of the following requirements:

Organic Chemistry Option 1

Complete ALL of the following Courses:

- CHEM 221 - Survey of Organic Chemistry Lecture - 3 Credits
- CHEM 222 - Survey of Organic Chemistry Lab - 1 Credits

OR

Organic Chemistry Option 2

Complete ALL of the following Courses:

- CHEM 325 - Organic Chemistry - 4 Credits

Note: CHEM 325 is strongly advised for students interested in pursuing a career in Human health other than a career as a Physician Assistant. Students are then also strongly advised to take CHEM 326 (see the emphasis -specific collateral course requirements) unless CHEM 221 and CHEM 222 are taken.

Mathematics, 4-5 Credits

Complete ANY of the following Courses:

- MATH 111 - Applied Calculus - 4 Credits
- MATH 225 - Calculus I - 5 Credits
- MATH 255 - Elementary Statistical Methods - 4 Credits

Note: Students interested in pursuing a career in Human health or Veterinary Medicine other than a career as a Physician Assistant are strongly advised to complete both a course in statistics and a course in calculus.

Additional Comments:

Human and Animal Health Emphasis - Core and Collateral Requirements
Type
Completion Requirement

Required Biology, 8 Credits

Fulfill ALL of the following requirements:

Microbiology, 4 Credits

Complete ANY of the following Courses:

- BIOL 233 - Microbiology for Health Sciences - 4 Credits
- BIOL 333 - General Microbiology - 4 Credits

AND

Anatomy, 4 Credits

Complete ANY of the following Courses:

- BIOL 370 - Comparative Vertebrate Anatomy - 4 Credits
- BIOL 387 - Human Anatomy - 4 Credits

OR

- An additional 4 credits of Biology electives

Notes:

- BIOL 333 is strongly advised for students interested in pursuing a career in Chiropractic medicine, and as a Physician Assistant
- BIOL 387 is strongly advised for students interested in pursuing a career in human health. Select schools require completion of anatomy within three years of entering graduate programs.

Electives, 7 Credits

Courses listed here can be taken to meet the elective requirement if not used to fulfill other requirements

Earn at least 7 credits from the following:

- BIOL 313 - Cancer Biology - 3 Credits
- BIOL 315 - Virology - 3 Credits
- BIOL 317 - Developmental Biology - 4 Credits
- BIOL 362 - Animal Parasitology - 4 Credits
- BIOL 370 - Comparative Vertebrate Anatomy - 4 Credits
- BIOL 381 - Animal Physiology - 4 Credits

- BIOL 382 - Endocrinology of Mammals - 3 Credits
- BIOL 383 - Biology of Reproduction - 3 Credits
- BIOL 385 - Human Physiology - 4 Credits
- BIOL 387 - Human Anatomy - 4 Credits
- BIOL 388 - Animal Behavior - 3 Credits
  OR PSYC 388 - Animal Behavior - 3 Credits
- BIOL 389 - Immunology - 3 Credits
- BIOL 390 - Neurobiology - 3 Credits
- BIOL 397 - Teaching Assistantship - 1-2 Credits
- BIOL 398 - Introduction to Experimental Design - 2 Credits
- BIOL 399 - Independent Studies - 1-2 Credits
- BIOL 400 - Communication in Research - 1 Credits
- BIOL 487 - Survey in Human Dissection - 2 Credits
- BIOL 498 - Selected Topics in Biology - 1-4 Credits
- BIOL 499 - Internship in Biology - 1-4 Credits

Notes:

- Up to 4 credits of BIOL 397 in combination with BIOL 399 can be applied to the emphasis.
- It is recommended that BIOL 498 be taken with the topic of *Transmission Electron Microscopy (TEM) Workshop*
- It is recommended that BIOL 499 be taken with the topic of *Winter Preceptorship*
- Additional electives, including other sections of BIOL 498 or BIOL 499, may be possible as recommended by your major adviser.

Chemistry Collateral Courses, 4-15 Credits

Fulfill ANY of the following requirements:

Chemistry Option 1

Complete ALL of the following Courses:

- CHEM 260 - Elementary Biochemistry - 4 Credits

OR

Chemistry Option 2

Complete ALL of the following Courses:

- CHEM 248 - Quantitative Analysis - 4 Credits
- CHEM 326 - Organic Chemistry - 4 Credits
- CHEM 365 - Biochemistry I - 4 Credits
- CHEM 366 - Biochemistry II - 3 Credits

Note: CHEM 365 and CHEM 366 are strongly advised for students interested in pursuing a career in Human health other than a career as a Physician Assistant. CHEM 260 may still require CHEM 326 depending upon which organic chemistry requirement was taken.

Physics Collateral Courses, 10 Credits

Fulfill ANY of the following requirements:

Physics Option 1

Complete ALL of the following Courses:

- PHYS 203 - College Physics I - 5 Credits
- PHYS 204 - College Physics II - 5 Credits

OR

Physics Option 2

Complete ALL of the following Courses:

- PHYS 240 - University Physics I - 5 Credits
- PHYS 250 - University Physics II - 5 Credits

Sociology, 3 Credits

Complete ALL of the following Courses:

- SOC 101 - Introduction to Sociology - 3 Credits

Psychology, 3 Credits

Complete ALL of the following Courses:

- PSYC 110 - Introduction to Psychology - 3 Credits

Optional English Recommendation, 6 Credits

ENGL 365 or ENGL 391 is strongly advised for students intending to enroll in select medical programs

Complete ALL of the following Courses:

- ENGL 365 - Science Literature - 3 Credits
- ENGL 391 - Biomedical Writing - 3 Credits

Curriculum
This certificate is administered jointly through the Biology and Chemistry and Biochemistry Departments and program coordinator within the School of Biology, Chemistry, and Biochemistry within the College of Letters and Science.

Consists of 9 credits.

Program Requirements
Type
Completion Requirement

Required, 9 Credits

Complete ALL of the following Courses:

- BIOL 701 - Introduction to Cannabis Science - 3 Credits
- BIOL 702 - Cannabis Biology, Ecology, and Horticulture - 3 Credits
- BIOL 703 - Cannabis Phytochemistry - 3 Credits

Additional Comments:

No Requirement Level

Standards

Admission Standards
Admission requirements for the Graduate Certificate in Cannabis Science program include an introductory course in biology and an introductory course in chemistry.

Academic Standards
Minimum GPA requirement for this program is 3.00.

About this Program

About this Program
Cannabis is a versatile and emerging crop with many uses owing to its strong natural fibers and diversity of chemical compounds. The Cannabis Science Certificate will provide participants with fundamental knowledge in the science of cannabis to help graduates becomes leaders in this fast-paced industry!

The Cannabis Science Graduate Certificate Program provides fundamental knowledge in cannabis science along with a set of practical skills designed to make graduates competitive for employment in this growing job market. The certificate is represented by three, 3-credit courses offered in a fully online, asynchronous and flexible curriculum.

Cannabis Science Certificate

Requirements

Simple Requisites

Curriculum
This certificate is administered within the School of Biology, Chemistry, and Biochemistry within the College of Letters and Science.

Consists of 9 credits.

Program Requirements
Type
Completion Requirement

Required, 9 Credits

Complete ALL of the following Courses:

- BIOL 401 - Introduction to Cannabis Science - 3 Credits
- BIOL 402 - Cannabis Biology, Ecology, and Horticulture - 3 Credits
- BIOL 403 - Cannabis Phytochemistry - 3 Credits

NOTE: Required course BIOL 401 has biology and chemistry prerequisites.

Additional Comments:

No Requirement Level

Standards

Academic Standards
Minimum GPA requirement for this program is 2.00.

Biology for Educators Certificate

Requirements

Simple Requisites

Curriculum
This certificate is administered through the Department of Biology within the College of Letters and Science.

Consists of a minimum of 14 credits.

Program Requirements
Type
Completion Requirement

Biology, 14 Credits

Fulfill ANY of the following requirements:

Biology Option 1

Complete ALL of the following Courses:

- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits

AND

- Biology electives (any 200 level BIOL course and above) to meet the required 14 credits

OR

Biology Option 2

Complete ALL of the following Courses:

- BIOL 130 - Introduction to Plant Biology - 5 Credits
- BIOL 160 - Introduction to Animal Biology - 5 Credits

AND

- Biology electives (any 200 level BIOL course and above) to meet the required 14 credits

Biology Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the Department of Biology within the College of Letters and Science.

Consists of a minimum of 22 credits:

Program Requirements
Type
Completion Requirement

Biology, 5-10 Credits

Fulfill ANY of the following requirements:

Biology Option 1

Complete ALL of the following Courses:

- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits

OR

Biology Option 2

Complete ANY of the following Courses:

- BIOL 101 - General Biology - 5 Credits
- BIOL 130 - Introduction to Plant Biology - 5 Credits
- BIOL 160 - Introduction to Animal Biology - 5 Credits

Complete two of the following categories

Complete at least 2 of the following:

Category A

Complete ALL of the following Courses:

- BIOL 210 - Principles of Genetics - 3 Credits

OR

Category B

Complete ALL of the following Courses:

- BIOL 305 - General Ecology - 3 Credits

OR

Category C

Complete ANY of the following Courses:

- BIOL 302 - Cellular and Molecular Biology - 3 Credits
- BIOL 314 - Cell Biology - 4 Credits
- BIOL 351 - Plant Physiology - 4 Credits
- BIOL 381 - Animal Physiology - 4 Credits
- BIOL 385 - Human Physiology - 4 Credits

Electives, minimum of 5 Credits

Complete Electives
Select remaining credits from courses accepted as electives in the Biology (BS) major to reach a minimum of 22 credits (no more than 8 credits of 200-level courses can count toward the requirement; some restrictions regarding 200-level and 300-level courses of the same topic may apply, see individual course descriptions).

Additional Comments:

No Requirement Level

Standards

Academic Standards
Minimum requirement for this program is 2.00.

NOTE: No more than six credits of D work in biology courses will be counted toward the completion of the biology major, biology major with an emphasis, or minor. All grades of D or F in biology and required collateral courses are used to compute the cumulative GPA in the major, biology major with an emphasis, or minor. If you repeat a course, the last grade earned is the grade used in your GPA calculation. Courses with grades of D or F may be repeated (only if a seat is available after the regular registration period) only with approval of the department chair and your adviser.

Brewing Science Certificate

Requirements

Simple Requisites

Curriculum
This certificate is administered by the Department of Biology within the College of Letters and Science.

Consists of a minimum of 36 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 105, CHEM 106, and CHEM 117.

Required, 30-44 Credits
Type
Completion Requirement

Biology Option, 5-10 Credits

Fulfill ANY of the following requirements:

Biology Option 1

Complete ALL of the following Courses:
- BIOL 101 - General Biology - 5 Credits

OR

Biology Option 2

Complete ALL of the following Courses:
- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits

Foundational Chemistry, 5-10 Credits

Fulfill ANY of the following requirements:

Foundational Chemistry Option 1

Complete ALL of the following Courses:
- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits

OR

Foundational Chemistry Option 2

Complete ALL of the following Courses:
- CHEM 117 - General Chemistry Principles - 5 Credits

Organic Chemistry, 4-8 Credits

Fulfill ANY of the following requirements:

Organic Chemistry Option 1

Complete ALL of the following Courses:
- CHEM 220 - Survey of Organic Chemistry - 4 Credits

OR

Organic Chemistry Option 2

Complete ALL of the following Courses:
- CHEM 325 - Organic Chemistry - 4 Credits
- CHEM 326 - Organic Chemistry - 4 Credits

Remaining Required Courses, 16 Credits

Complete ALL of the following Courses:
- BIOL 333 - General Microbiology - 4 Credits
- BIOL 354 - Science of Brewing - 3 Credits
- BIOL 499 - Internship in Biology - 1-4 Credits
- CHEM 248 - Quantitative Analysis - 4 Credits
- CHEM 260 - Elementary Biochemistry - 4 Credits
  OR CHEM 365 - Biochemistry I - 4 Credits

Additional Comments:

Electives, 6 Credits
Type
Completion Requirement

Electives, 6 Credits

At least one course from two of the following three clusters:

Fulfill ANY of the following requirements:

Complete ANY of the following Courses:
- BIOL 335 - Mycology - 4 Credits
- BIOL 353 - Ethnobotany - 3 Credits
- BIOL 399 - Independent Studies - 1-2 Credits

OR

- Microbiology for Brewers, Continuing Education Workshop, 0 cr.

OR

Accounting and Business

Complete ANY of the following Courses:
- ACCT 210 - Introductory Financial Accounting - 3 Credits
- BUS 221 - The Entrepreneurial Path - 3 Credits
- BUS 321 - Entrepreneurship - 3 Credits
- BUS 330 - Principles of Marketing - 3 Credits

OR

Natural Resources

Complete ANY of the following Courses:
- PSEN 382 - Water and Wastewater Treatment - 3 Credits
- WATR 382 - Water and Wastewater Treatment - 3 Credits
- WSTE 382 - Water and Wastewater Treatment - 3 Credits
- WATR 390 - Water Chemistry and Analysis - 4 Credits

Business Administration Major (BS) - Accredited by AACSB

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Business in the Sentry School of Business and Economics.

Successfully complete a minimum of 77 credits in the Core and Elective requirements as described below.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: MATH 109, MATH 111, MATH 225, ECON 110, ECON 111, ECON 200, MATH 255, ECON 243, FOR 321, HSW 301, MATH 354, MATH 357, PSYC 300, and SOC 351.

In general, try to complete the core classes in approximately this sequence. The courses near the beginning of the list serve as prerequisites for courses near the end of the list.

Program Requirements
Type
Completion Requirement

Calculus, 3-5 Credits

Complete ANY of the following Courses:

- MATH 109 - Mathematics for the Social and Management Sciences - 4 Credits
- MATH 111 - Applied Calculus - 4 Credits
- MATH 225 - Calculus I - 5 Credits

Note: If you anticipate doing advanced study in a field such as Actuarial Science, you should take MATH 225

Economics, 6 Credits

Fulfill ANY of the following requirements:

Economics Option 1

Complete ALL of the following Courses:

- ECON 110 - Principles of Macroeconomics - 3 Credits
  AND ECON 111 - Principles of Microeconomics - 3 Credits

OR

Economics Option 2

Complete ALL of the following Courses:

- ECON 200 - Principles of Economics - 3 Credits

AND an additional 3 credits in 200-400-level Economics coursework. You may not take ECON 497 or ECON 498 to satisfy this requirement. Classes you take as part of other requirements of the major do not satisfy this requirement.

Accounting, 6 Credits

Complete ALL of the following Courses:

- ACCT 210 - Introductory Financial Accounting - 3 Credits
- ACCT 211 - Introductory Managerial Accounting - 3 Credits

Statistics, 3-4 Credits

Complete ANY of the following Courses:

- MATH 255 - Elementary Statistical Methods - 4 Credits
  OR ECON 243 - Economic and Business Statistics - 3 Credits
  OR FOR 321 - Natural Resources Data Analysis - 4 Credits
  OR HSW 301 - Fundamentals of Biostatistics - 3 Credits
  OR MATH 354 - Applied Statistics - 4 Credits
  OR MATH 357 - Probability and Statistics II - 3 Credits
  OR PSYC 300 - Statistics for Psychologists - 4 Credits
  OR SOC 351 - Social Statistics - 4 Credits

Business, 32 Credits

Complete ALL of the following Courses:

- BUS 100 - Introduction to Business - 1 Credits
- BUS 201 - Writing and Presenting for Business - 3 Credits
- BUS 275 - AI and Technology in Business - 1 Credits
- BUS 301 - Building Relationships for Business - 3 Credits
- BUS 325 - Organizational Behavior - 3 Credits
- BUS 330 - Principles of Marketing - 3 Credits
- BUS 340 - Business Law and Ethics - 3 Credits
- BUS 350 - Principles of Finance - 3 Credits
- BUS 360 - Principles of Production-Operations Management - 3 Credits
- BUS 370 - Management Information Systems - 3 Credits
- BUS 380 - Principles of Business Analytics - 3 Credits
- BUS 480 - Management Capstone - 3 Credits

Note: If you are completing an Accounting major, you may substitute ACCT 370 in place of BUS 370

Internship, 3 Credits

Complete ANY of the following Courses:

- ACCT 497 - Internship in Accounting - 1-15 Credits
- BUS 497 - Internship in Business Administration - 3-15 Credits
- ECON 497 - Internship in Economics - 1-15 Credits

Electives, 24 Credits

Complete Electives
Successfully complete an additional 24 credits in the Sentry School, 200-level or above, not including ACCT 497, ACCT 498, BUS 320, BUS 496, BUS 497, BUS 498, ECON 200, ECON 497, or ECON 498.

To add Business Administration major to another Sentry School major, complete at least 18 additional credits.

Additional Comments:

No Requirement Level

Standards

Admission Standards

• You must apply for admission to the Business Administration major before you complete 18 credits toward the major. You must be admitted to the business administration major to register for some upper-level courses and to graduate with a business administration major.

• Once you are accepted as a business administration major, you can receive specialized, one-on-one advising from the school faculty or staff.

• Minimum requirements: We encourage you to apply as soon as you have completed at least 10 credits toward the major.

• If you are a transfer student: Apply before you complete 18 credits in the business administration major OR during your first semester at UW-Stevens Point.

• Exceptions: If you wish to request consideration of exceptional circumstances, do so in writing to the Sentry School Admissions Committee.

Academic Standards

To graduate with a major or minor in business administration, successfully complete all required courses in the major or minor and achieve a cumulative grade point average of 2.5 or higher in all your major/minor courses. See Academic Standards for the Sentry School of Business and Economics for more information on GPA requirements and for the Sentry School of Business and Economics repeat policy.

About this Program

Learning Outcomes

Program Learning Outcomes (UWSP)
Evidence of Business Administration graduates' level of preparation will be found in your ability to:

1. Analyze and solve Business and Economics problems

a. you will be able to apply core concepts, models, and methods from business, accounting, and economics in identifying and solving problems

2. Demonstrate the intercultural competencies necessary to thrive in an increasingly global marketplace

a. you will be able integrate global perspectives and competencies in business interactions

3. Appreciate the importance of behaving professionally and ethically

a. you will be able to recognize and analyze an ethical dilemma, applying an appropriate ethical framework

b. you will be able to work effectively with others in team settings

4. Communicate effectively

a. you will be able to craft and present an effective professional oral presentation

b. you will be able to successfully write an effective professional report

5. Absorb concepts in areas of core business knowledge

a. demonstrate literacy in accounting, economics, marketing, management, production, finance, information systems, and business law

- NRES 389 - Methods in Social Science - 3 Credits
- NRES 394 - Targeted Conservation Through Advanced GIS - 3 Credits
- NRES 488 - Land Use Plan Implementation - 3 Credits
- NRES 489 - Applied Natural Resources Planning - 3 Credits

Professional Experience, 4 Credits

Earn at least 4 credits from the following:

- NRES 381 - Internship in Natural Resources - 1-12 Credits

Additional Comments:

Planning Electives
Type
Completion Requirement

Planning Electives, 9 Credits

Choose 9 credits from the list below:

Note: Courses can't satisfy elective credits and Governance requirement simultaneously. No more than 6 elective credits may count towards a minor or certificate.

Earn at least 9 credits from the following:

- ECON 342 - Ecological Economics - 3 Credits
- FOR 331 - Landscape Maintenance-Arboriculture - 3 Credits
- FOR 334 - Forest Recreation and Tourism - 3 Credits
- FOR 335 - Recreational Use of Forests and Parks - 3 Credits
- FOR 444 - Urban and Community Forestry - 3 Credits
- FOR 480 - Forest Recreation Management - 3 Credits
- FOR 485 - Forest Recreation Planning and Site Design - 3 Credits
- GEOG 331 - Planning Theory and Ethics - 3 Credits
- GEOG 377 - Remote Sensing I - 3 Credits
  OR NRES 377 - Remote Sensing I - 3 Credits
- GEOG 496 - Community Development Practices - 3 Credits
- HIST 277 - Designing the American Dream - 3 Credits
- HIST 279 - Environmental Justice - 3 Credits
- HIST 280 - U.S. Environmental History - 3 Credits
- HIST 380 - The Environmental Movement - 3 Credits
- IA 378 - People, Interfaces and Environments - 4 Credits
  OR WD 378 - People, Interfaces and Environments - 4 Credits
- IA 315 - Sustainable Design - 3 Credits
- NRES 281 - Introduction to Recreation and Parks - 3 Credits
- NRES 305 - Inclusive Practices for Outdoor Professionals - 2 Credits
- NRES 324 - Invasive and Exotic Species - 3 Credits
  OR WATR 324 - Invasive and Exotic Species - 3 Credits
- NRES 341 - Introduction to Sustainable Energy Policy - 3 Credits
- NRES 441 - Climate Change Implications, Policies, and Solutions - 3 Credits
- NRES 442 - Sustainable Energy: Resources, Technologies, and Policies - 3 Credits
- NRES 457 - Ecological Restoration Monitoring - 3 Credits
- NRES 458 - Biodiversity and Conservation Biology - 3 Credits
- NRES 459 - Ecosystem Management and Restoration - 3 Credits
- NRES 473 - Resource Policy and Law - 3 Credits
- PHIL 380 - Environmental Ethics - 3 Credits
- PHIL 381 - American Indian Environmental Philosophies - 3 Credits
- PHIL 480 - Advanced Environmental Ethics - 3 Credits
- POLI 202 - Introduction to Policy Analysis - 3 Credits
- POLI 212 - Law and Legal Systems - 3 Credits
- POLI 242 - State and Local Government - 3 Credits
- POLI 250 - Public Administration - 3 Credits
- POLI 305 - Climate Change Politics and Policy - 3 Credits
- POLI 308 - Public Opinion - 3 Credits
- POLI 320 - Legislative Process - 3 Credits
- POLI 338 - Environmental Law and Regulation - 3 Credits
- POLI 389 - Public Policy for Sustainable Communities - 3 Credits
- PSEN 382 - Water and Wastewater Treatment - 3 Credits
  OR WATR 382 - Water and Wastewater Treatment - 3 Credits
  OR WSTE 382 - Water and Wastewater Treatment - 3 Credits
- PSYC 321 - Environmental Psychology - 3 Credits
- SOC 355 - Environmental Sociology - 3 Credits
- SOIL 362 - Soil Genesis, Morphology and Classification - 3 Credits
- SOIL 364 - Soil and Plant Analysis - 3 Credits
- SOIL 365 - Soil Quality Assessment and Soil Survey Interpretation - 3 Credits
- SOIL 368 - Urban Soils - 2 Credits
- SOIL 373 - Agronomy, Agriculture and the Environment - 4 Credits
- WATR 388 - Aquatic Ecology - 3 Credits
- WATR 389 - Hydrology - 3 Credits

Child, Youth and Family Studies Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the area of Family and Consumer Science in the School of Health Sciences and Wellness

Consists of 21 credits.

Program Requirements
Type
Completion Requirement

Required, 12 Credits

Complete ALL of the following Courses:

- FCS 166 - The Family: Continuing Concerns - 3 Credits
- HD 265 - Human Growth and Development: A Life-Span Approach - 3 Credits
- HD 367 - Intentional Intimacy and Family Systems - 3 Credits
- HD 372 - Family Financial Management - 3 Credits

Electives, 9 Credits

Fulfill ALL of the following requirements:

Required Electives, 3 Credits

(Be sure to meet prerequisites of these courses)

Earn at least 3 credits from the following:

- FCS 444 - Family Life Coaching - 3 Credits
- HD 230 - Human Sexuality - 3 Credits
- HD 361 - Development and Guidance of Children - 3 Credits
- HD 366 - Families in Cross Cultural Contexts - 3 Credits
- HD 386 - Family Health Implications of Resource Management - 3 Credits
- HD 455 - Child Life and Therapeutic Play - 3 Credits
- HD 465 - Grief and Loss - 3 Credits
- HD 466 - Development and Guidance of Adolescents - 3 Credits
- HD 490 - Workshop in Human Development - 1-4 Credits
- HD 497 - Field Work - 1-12 Credits
- HSW 400 - Issues in Aging - 3 Credits

AND

Electives (A maximum of 6 credits from these courses may be used for the overall 9-credit elective total)

(Be sure to meet prerequisites of these courses)

Complete ANY of the following Courses:

- COMM 180 - Foundations of Workplace Communication - 3 Credits
- CSD 266 - Language Development - 3 Credits
- ECED 262 - Infant and Toddler Education - 3 Credits
- ECED 460 - Programs and Partnerships for Young Children - 3 Credits
- FN 354 - Introduction to Nutrition and Nutrient Metabolism - 3 Credits
- FN 490 - Workshop in Food and Nutrition - 1-4 Credits
- HD 350 - Child Life Principles and Perspectives - 3 Credits
- PSYC 240 - Psychology of Gender - 3 Credits
- PSYC 255 - Psychology of Sexual Behavior - 3 Credits
- PSYC 315 - The Psychology of Adolescence - 3 Credits
- PSYC 320 - Social Psychology - 3 Credits
- PSYC 360 - Child and Adolescent Psychopathology - 3 Credits
- SOC 225 - Sociology of Childhood and Adolescence - 3 Credits
- SOC 240 - Marriage and the Family - 3 Credits
- SOC 343 - The Family: Cultural Perspectives - 3 Credits
- SOC 366 - Sociology of Aging - 3 Credits

Chemistry Major - ACS Certified (BS)

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of Chemistry and Biochemistry within the College of Letters and Science.

Consists of a minimum of 73 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 105, CHEM 106 and MATH 225.

Program Requirements
Type
Completion Requirement

Required Core, 45 Credits

Complete ALL of the following Courses:

- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits
- CHEM 248 - Quantitative Analysis - 4 Credits
- CHEM 325 - Organic Chemistry - 4 Credits
- CHEM 326 - Organic Chemistry - 4 Credits
- CHEM 335 - Physical Chemistry - Thermodynamics and Kinetics - 4 Credits
- CHEM 336 - Physical Chemistry - Quantum Chemistry and Spectroscopy - 3 Credits
- CHEM 339 - Physical Chemistry Laboratory - Spectroscopy - 1 Credits
- CHEM 348 - Special Topics in Instrumental Analysis - 3 Credits
- CHEM 355 - Intermediate Inorganic Chemistry - 4 Credits
- CHEM 365 - Biochemistry I - 4 Credits
- CHEM 375 - Solid State Chemistry - 4 Credits

Collateral Courses, 24 Credits

Complete ALL of the following Courses:

- MATH 225 - Calculus I - 5 Credits
- MATH 226 - Calculus II - 5 Credits
- MATH 227 - Calculus III - 4 Credits
- PHYS 240 - University Physics I - 5 Credits
- PHYS 250 - University Physics II - 5 Credits

Additional Requirements

Complete at least 2 of the following courses:

- CHEM 363 - Introduction to Drug Discovery and Pharmacokinetics - 3 Credits
- CHEM 366 - Biochemistry II - 3 Credits
- CHEM 382 - Fundamentals of Atmospheric and Air Pollution Chemistry - 3 Credits
- CHEM 387 - Spectral Identification of Organic Compounds - 1 Credits

- CHEM 425 - Advanced Organic Chemistry - 3 Credits
- CHEM 455 - Advanced Inorganic Chemistry - 3 Credits

Notes:

- You may substitute one advanced course in another science for one chemistry course in this group with approval of the chair
- CHEM 387, CHEM 425, and CHEM 455 are not frequently offered

Standards

Academic Standards

1. If you wish to major or minor in chemistry, you must apply for acceptance into the major or minor through the Department of Chemistry and Biochemistry office no later than the first semester of your junior year.

2. To be accepted as a major, you can have no more than one grade below C- in any chemistry, mathematics, or physics courses numbered below 299 required in the chemistry major.

3. To be accepted as a minor, you can have no more than one grade below C- in any chemistry course.

4. To be approved for graduation with a chemistry major, you must:

a. Have a minimum grade point average of 2.00 (2.75 for student teaching) in all chemistry courses and required collateral courses.

b. Have no more than one grade below C- in any chemistry, mathematics, or physics courses numbered below 299 required in the chemistry major.

c. Apply no more than one grade below C (C- is a grade below C) in chemistry courses numbered 300 or above to the major.

5. To be approved as a chemistry minor, you must have a minimum grade point average of 2.00 (2.75 to student teach) in all chemistry courses.

6. These requirements apply for majors and minors regardless of a declaration of academic forgiveness. You may petition the department for consideration if you do not meet these standards.

7. See Notes 2-5 for additional information concerning prerequisites and repeating courses.

Learning Outcomes

Program Learning Outcomes (UWSP)
As a Chemistry graduate, you will be able to:

1. Apply the foundational principles of the major sub disciplines of chemistry (Analytical, Inorganic, Organic, and Physical) to identify and explain the chemical and physical properties of matter.

2. Demonstrate safe work habits and techniques in the chemical laboratory.

3. Analyze experimental results in order to draw justifiable conclusions.

4. Evaluate, document, and communicate experimental results and chemistry related issues according to accepted scientific standards, as a written report, as a poster, and as an oral presentation.

5. Design and construct experiments to address chemical problems using appropriate methods, techniques, equipment, and modern instruments for the synthesis, isolation, and characterization of matter and for the analysis of mixtures using relevant information compiled from the scientific literature.

Chemistry for Educators Certificate

Requirements

Simple Requisites

Curriculum
This certificate is administered through the Department of Chemistry and Biochemistry within the College of Letters and Science.

Consists of a minimum of 13 credits.

Program Requirements
Type
Completion Requirement

Chemistry Options, 9-10 Credits

Fulfill ANY of the following requirements:

Chemistry Option 1

Complete ALL of the following Courses:

- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits

OR

Chemistry Option 2

Complete ALL of the following Courses:

- CHEM 117 - General Chemistry Principles - 5 Credits
- CHEM 248 - Quantitative Analysis - 4 Credits

Required, 4 Credits

Complete ANY of the following Courses:

- CHEM 220 - Survey of Organic Chemistry - 4 Credits
- CHEM 325 - Organic Chemistry - 4 Credits

About this Program
The objective of a minor in environmental chemistry is to provide you with knowledge of introductory and intermediate chemical principles and to have you acquire sufficient technical skills to perform capably in a modern environmental chemistry laboratory. Courses in Soil, Water, and Atmospheric Chemistry provide an environmental context for your chemical training.

Chemistry Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the Department of Chemistry and Biochemistry within the College of Letters and Science.

Consists of at least 26 credits for Sequence One or 31 credits for Sequence Two.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 105 and CHEM 106.

Take one of the following course sequences: Sequence One or Sequence Two

Sequence One
Type
Completion Requirement

Required, 22 Credits

Complete ALL of the following Courses:

- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits
- CHEM 248 - Quantitative Analysis - 4 Credits
- CHEM 325 - Organic Chemistry - 4 Credits
- CHEM 326 - Organic Chemistry - 4 Credits

Electives, 4 Credits

Earn at least 4 credits from the following:

- CHEM 335 - Physical Chemistry - Thermodynamics and Kinetics - 4 Credits
- CHEM 348 - Special Topics in Instrumental Analysis - 3 Credits
- CHEM 355 - Intermediate Inorganic Chemistry - 4 Credits
- CHEM 363 - Introduction to Drug Discovery and Pharmacokinetics - 3 Credits
- CHEM 365 - Biochemistry I - 4 Credits
- CHEM 375 - Solid State Chemistry - 4 Credits
- CHEM 382 - Fundamentals of Atmospheric and Air Pollution Chemistry - 3 Credits
- CHEM 387 - Spectral Identification of Organic Compounds - 1 Credits

Additional Comments:

Sequence Two
Type
Completion Requirement

Required, 31 Credits

You must be completing a major in Medical Laboratory Science in order to be eligible for Sequence Two of the Chemistry Minor.

Complete ALL of the following Courses:

- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits
- CHEM 248 - Quantitative Analysis - 4 Credits
- CHEM 260 - Elementary Biochemistry - 4 Credits
- CHEM 325 - Organic Chemistry - 4 Credits

- CHEM 326 - Organic Chemistry - 4 Credits
- MLS 405 - Clinical Chemistry - 5 Credits

Chemical Engineering Major (BS)

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of Paper Science and Chemical Engineering.

Consists of major, collateral requirements totaling 104 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 105, CHEM 106, ECON 110, MATH 255, PHYS 240, and PHYS 250.

Program Requirements
Type
Completion Requirement

Chemical Engineering, 38 Credits

Complete ALL of the following Courses:

- PSEN 215 - Introduction to Process Engineering Calculations - 4 Credits
- PSEN 316 - Engineering Economics and Project Management - 3 Credits
- PSEN 320 - Fluid Mechanics and Hydraulics - 3 Credits
- PSEN 326 - Heat Transfer Operations - 3 Credits
- PSEN 340 - Chemical Kinetics and Reactor Design - 3 Credits
- PSEN 350 - Pulping and Chemical Manufacturing Technology - 4 Credits
- PSEN 385 - Systems Engineering and Simulation - 3 Credits
- PSEN 430 - Mass Transfer Operations - 3 Credits
- PSEN 440 - Industrial Thermodynamics - 3 Credits
- PSEN 460 - Process Dynamics and Control - 3 Credits
- PSEN 486 - Senior Design Project: Chemical Engineering - 3 Credits
- PSEN 489 - Industrial Environmental Management - 3 Credits
  OR WSTE 489 - Industrial Environmental Management - 3 Credits

Electives, 6 Credits

Earn at least 6 credits from the following:

- PSEN 382 - Water and Wastewater Treatment - 3 Credits
  OR WATR 382 - Water and Wastewater Treatment - 3 Credits
  OR WSTE 382 - Water and Wastewater Treatment - 3 Credits
- PSEN 365 - Colloid and Surface Phenomena - 3 Credits
- PSEN 420 - Air Pollution Control and Engineering - 3 Credits
- PSEN 450 - Renewable Fuels Production - 3 Credits
- PSEN 452 - Renewable Fuels Laboratory - 3 Credits
- PSEN 475 - Paper Machine Operations - 4 Credits
- WATR 389 - Hydrology - 3 Credits
- WSTE 380 - Solid Waste Management - 3 Credits
- WSTE 476 - Hazardous Waste Management - 3 Credits
- WSTE 481 - Wastewater Treatment II - 2 Credits
- WSTE 485 - Solid Waste Management II - 2 Credits

Collateral Courses, 60 Credits

Complete ALL of the following Courses:

- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits
- CHEM 248 - Quantitative Analysis - 4 Credits
- CHEM 325 - Organic Chemistry - 4 Credits
- CHEM 326 - Organic Chemistry - 4 Credits
- CHEM 335 - Physical Chemistry - Thermodynamics and Kinetics - 4 Credits
- ECON 110 - Principles of Macroeconomics - 3 Credits
- MATH 225 - Calculus I - 5 Credits
- MATH 226 - Calculus II - 5 Credits
- MATH 227 - Calculus III - 4 Credits
- MATH 255 - Elementary Statistical Methods - 4 Credits
- MATH 320 - Differential Equations - 3 Credits
- PHYS 240 - University Physics I - 5 Credits
- PHYS 250 - University Physics II - 5 Credits

Note: These courses satisfy the requirements for a CHEM-MN: CHEM 105, CHEM 106, CHEM 248, CHEM 325, CHEM 326, and CHEM 335

Additional Comments:

No Requirement Level

Standards

Academic Standards
To be approved for graduation with a Paper Science and Engineering or Chemical Engineering major, you must:

1. Have a minimum grade point average of 2.00 in all PSEN courses and required collateral courses.

2. Have no grade below C- in any PSEN, chemistry, mathematics, or physics courses numbered below 299 required in the PSEN major, and

3. Apply no grade below C- in PSEN and collateral courses numbered 300 or above to the major.

Learning Outcomes

Program Learning Outcomes (UWSP)
As a graduate of the Chemical Engineering program, you have the greatest potential for success in your professional life if you possess the following attributes:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics

2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors

3. An ability to communicate effectively with a range of audiences

4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts

5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives

6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions

7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies

Computer Information Systems Major (BA): App Development and Support Option

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of Computing and New Media Technologies within the College of Letters and Science.

Consists of a minimum of 61 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: MATH 209.

Program Requirements
Type
Completion Requirement

Core Requirements, 23 Credits

Complete ALL of the following Courses:

- CIS 225 - Data Communication and Networks - 4 Credits
- CNMT 101 - Introduction to Computing and Programming - 3 Credits
- CNMT 110 - Object-Oriented Programming - 4 Credits
- CNMT 199 - Computing Major Seminar - 1 Credits
- CNMT 210 - Web Design and Development I - 4 Credits
- CNMT 410 - Professional IT Communication - 3 Credits
- CNMT 479 - Senior Project Preparation - 1 Credits
- CNMT 480 - Applied Development Project - 3 Credits

Application Development and Support Concentration, 32 Credits

Complete ALL of the following Courses:

- CIS 120 - Data Structures and Algorithms - 4 Credits
- CIS 210 - Database Design and Implementation - 4 Credits
- CIS 220 - Systems Analysis and Design - 4 Credits
- CIS 340 - Advanced Techniques in Application Development - 4 Credits
- CIS 341 - Web Application Development - 4 Credits
- CNMT 310 - Production Programming - 4 Credits
- MATH 209 - Mathematics for the Information Sciences - 4 Credits
- WD 211 - Web Design and Development II - 4 Credits

Required, 6-8 Credits

Earn at least 6 credits from the following:

- CIS 303 - Cybersecurity and Society - 3 Credits
- CIS 311 - Application Security - 4 Credits
- CIS 342 - Rich Internet Applications - 4 Credits
- CIS 345 - Alternate Programming Language - 3-4 Credits
- CIS 346 - Contemporary Topics in Computing - 3-4 Credits
- CIS 444 - Advanced Database - 4 Credits

World Language Courses, 0-8 Credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

Additional Comments:

No Requirement Level

Standards

Academic Standards
1. Computer Information Systems and Math courses taken pass/fail do not count for the major.

2. You may petition the department chair to accept coursework done at other institutions, but no more than one-half the Computer Information Systems credits applied to your major may be earned outside UW-Stevens Point. The department chair may allow exceptions.

3. To maintain admitted status, you must maintain a GPA of at least 2.5 in all courses taken at UW-Stevens Point that count for the Computer Information Systems major.

4. If you are not admitted to the Computer Information Systems major, the only Computer Information Systems courses for which you will be allowed to register are those required to complete the Computer Information Systems minor.

5. Admission to Computer Information Systems classes may be limited in any semester and may be determined in part by your Computer Information Systems GPA.

About this Program
Computer Information Systems (CIS) involves the design and maintenance of information systems that enable organizations to gather, process, store, and use information for planning, control, and operations. Emphasis is placed on the analysis, configuration, and programming, security, and database aspects of the design and implementation of a computerized business information system. The program and courses in computer information systems are administered by the Department of Computing and New Media Technologies.

Complete ALL of the following Courses:

- CIS 225 - Data Communication and Networks - 4 Credits
- CNMT 101 - Introduction to Computing and Programming - 3 Credits
- CNMT 110 - Object-Oriented Programming - 4 Credits
- CNMT 199 - Computing Major Seminar - 1 Credits
- CNMT 210 - Web Design and Development I - 4 Credits
- CNMT 410 - Professional IT Communication - 3 Credits
- CNMT 479 - Senior Project Preparation - 1 Credits
- CNMT 480 - Applied Development Project - 3 Credits

Networking Concentration, 24 Credits

Complete ALL of the following Courses:

- CIS 210 - Database Design and Implementation - 4 Credits
- CIS 220 - Systems Analysis and Design - 4 Credits
- CIS 250 - Network Management I - 4 Credits
- CIS 360 - Network and Enterprise Security Management - 4 Credits
- CNMT 310 - Production Programming - 4 Credits
- MATH 209 - Mathematics for the Information Sciences - 4 Credits

Required, 11-12 Credits

Earn at least 11 credits from the following:

- CIS 303 - Cybersecurity and Society - 3 Credits
- CIS 311 - Application Security - 4 Credits
- CIS 347 - Special Topics in IT Infrastructure - 3-4 Credits
- CIS 354 - Network Management II - 4 Credits
- CIS 357 - Server Administration in the Cloud - 4 Credits
- CIS 361 - Digital Forensics - 4 Credits

World Language Courses, 0-8 Credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

Additional Comments:

No Requirement Level

Standards

Academic Standards
1. Computer Information Systems and Math courses taken pass/fail do not count for the major.

2. You may petition the department chair to accept coursework done at other institutions, but no more than one-half the Computer Information Systems credits applied to your major may be earned outside UW-Stevens Point. The department chair may allow exceptions.

3. To maintain admitted status, you must maintain a GPA of at least 2.5 in all courses taken at UW-Stevens Point that count for the Computer Information Systems major.

4. If you are not admitted to the Computer Information Systems major, the only Computer Information Systems courses for which you will be allowed to register are those required to complete the Computer Information Systems minor.

5. Admission to Computer Information Systems classes may be limited in any semester and may be determined in part by your Computer Information Systems GPA.

About this Program
Computer Information Systems (CIS) involves the design and maintenance of information systems that enable organizations to gather, process, store, and use information for planning, control, and operations. Emphasis is placed on the analysis, configuration, and programming, security, and database aspects of the design and implementation of a computerized business information system. The program and courses in computer information systems are administered by the Department of Computing and New Media Technologies.

Owner
Computing and New Media Technologies

Program Code
CIS-BA: NETWORK-BA

Career
Undergraduate

Degree Designation
BA - Bachelor of Arts

CIP Code
11.0101

Learning Outcomes

Program Learning Outcomes (UWSP)
Upon completion of the Computer Information Systems major, you will be able to:

1. Demonstrate mastery of core knowledge in computing

2. Apply problem-solving and computing skills to solve real problems

3. Explain how computing influences society, including social, legal, ethical, and cultural concerns

4. Write about and orally communicate technical information about computing

Computer Information Systems Major (BA): Security Studies Option

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of Computing and New Media Technologies within the College of Letters and Science.

Consists of a minimum of 54 credits.

Program Requirements
Type
Completion Requirement

Core Requirements, 23 credits

Complete ALL of the following Courses:

- CIS 225 - Data Communication and Networks - 4 Credits
- CNMT 101 - Introduction to Computing and Programming - 3 Credits
- CNMT 110 - Object-Oriented Programming - 4 Credits
- CNMT 199 - Computing Major Seminar - 1 Credits
- CNMT 210 - Web Design and Development I - 4 Credits
- CNMT 410 - Professional IT Communication - 3 Credits
- CNMT 479 - Senior Project Preparation - 1 Credits
- CNMT 480 - Applied Development Project - 3 Credits
  OR CNMT 491 - Senior Thesis in Computing - 3 Credits

Security Studies Concentration, 31 credits

Fulfill ALL of the following requirements:

Security Studies Concentration, 25 credits

Complete ALL of the following Courses:

- CIS 226 - Introduction to Information Assurance - 4 Credits
- CIS 250 - Network Management I - 4 Credits
- CIS 260 - Security Assessment and Risk Management - 4 Credits
- CIS 303 - Cybersecurity and Society - 3 Credits
- CIS 361 - Digital Forensics - 4 Credits
- POLI 180 - Introduction to Global Affairs - 3 Credits
- POLI 212 - Law and Legal Systems - 3 Credits
  OR SOC 230 - Criminology - 3 Credits

AND

Security Studies Concentration, 3 credits

Complete ANY of the following Courses:

- POLI 383 - U.S. Foreign Policy - 3 Credits
- POLI 385 - International Organizations and Law - 3 Credits
- POLI 386 - Politics of Terrorism and Homeland Security - 3 Credits

OR

- A sociology course numbered 300 or above

Required, 3-4 credits

Complete ANY of the following Courses:

- CIS 347 - Special Topics in IT Infrastructure - 3-4 Credits
- CIS 365 - Offensive Network Security - 4 Credits

OR

- A 3-credit course in Political Science, World Languages or Sociology numbered 300 or above.

World Language Courses, 0-8 credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). Simple Requisites

Curriculum
This major is administered by the Environment and Society Discipline.

Consists of a minimum of 94 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: NRES 251, CHEM 101, and CHEM 105.

Resource Management Core, 27-28 credits
Type
Completion Requirement

Natural Resources courses, 17 credits

Complete ALL of the following Courses:

- NRES 150 - People, Resources and the Biosphere - 3 Credits
- NRES 151 - Ecological Basis for Natural Resource Management - 3 Credits
- NRES 250 - Introduction to Fisheries, Forestry and Wildlife Resources - 4 Credits
- NRES 251 - Introduction to Soil and Water Resources - 4 Credits
- NRES 320 - Natural Resources Communication and Public Relations - 3 Credits

Geography, 3 credits

Complete ANY of the following Courses:

- GEOG 100 - Human Impacts on the Physical Environment - 3 Credits
- GEOG 105 - The Dynamic Earth - 3 Credits

Summer Field Experience, 7-8 Credits

Choose one:

Fulfill ANY of the following requirements:

Summer Field Experience, 7 credits

Complete ALL of the following Courses:

- FOR 319 - Land Surveying - 1 Credits
- FOR 320 - Field Experience in Forest Measurements - 1 Credits
- NRES 405 - Selected Topics in Natural Resources - 1-3 Credits
- SOIL 359 - Soil Conservation and Watershed Inventory Techniques - 1 Credits
- SOIL 360 - Field Experience in Soil Inventory Methods - 1 Credits
- WATR 380 - Field Experience in Aquatic Ecosystem Evaluation - 1 Credits
- WLDL 340 - Field Experience in Wildlife Management Techniques - 1 Credits

OR

International Summer Field Experience, 8 credits

Earn at least 8 credits from the following:

- NRES 475 - International Field Experiences in Natural Resources Management - 1-8 Credits

Additional Comments:

Science and Natural Resource Management Core, 19-24 credits
Type
Completion Requirement

Science Required, 10-15 credits

Fulfill ALL of the following requirements:

Biology Options, 5-10 credits

Fulfill ANY of the following requirements:

Biology Option 1, 5 credits

Complete ALL of the following Courses:

- BIOL 101 - General Biology - 5 Credits

OR

Biology Option 2, 10 credits

Complete ALL of the following Courses:

- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits

AND

Chemistry/Physics Options, 5 credits

Complete ANY of the following Courses:

- CHEM 101 - Basic Chemistry - 5 Credits
- CHEM 105 - Fundamental Chemistry - 5 Credits
- PHYS 101 - General Physics - 5 Credits

Natural Resource Required, 9 credits

Earn at least 9 credits from the following:

- BIOL 342 - Vascular Plant Taxonomy - 4 Credits
- BIOL 367 - General Entomology - 4 Credits
- BIOL 374 - Ichthyology - 4 Credits
- BIOL 375 - Fisheries Ecology - 3 Credits
- BIOL 376 - Herpetology - 3 Credits
- BIOL 377 - Ornithology - 3 Credits
- BIOL 477 - Raptor Ecology - 2 Credits
- FOR 224 - Fire Operations - 1 Credits
- FOR 232 - Dendrology and Silvics - 3 Credits
- FOR 335 - Recreational Use of Forests and Parks - 3 Credits
- FOR 480 - Forest Recreation Management - 3 Credits
- FOR 485 - Forest Recreation Planning and Site Design - 3 Credits
- NRES 281 - Introduction to Recreation and Parks - 3 Credits
- NRES 305 - Inclusive Practices for Outdoor Professionals - 2 Credits
- NRES 324 - Invasive and Exotic Species - 3 Credits
  OR WATR 324 - Invasive and Exotic Species - 3 Credits
- NRES 441 - Climate Change Implications, Policies, and Solutions - 3 Credits
- NRES 474 - Integrated Resource Management - 3 Credits
- PSEN 382 - Water and Wastewater Treatment - 3 Credits
  OR WATR 382 - Water and Wastewater Treatment - 3 Credits
  OR WSTE 382 - Water and Wastewater Treatment - 3 Credits
- WATR 350 - Current Issues in Water Resources - 1-3 Credits
- WATR 384 - Life History of Fishes - 3 Credits
- WATR 388 - Aquatic Ecology - 3 Credits
- WLDL 305 - Selected Topics in Wildlife Ecology and Management - 1-3 Credits
- WLDL 321 - Principles of Captive Wildlife Management - 2 Credits
- WLDL 332 - Carnivore Ecology - 2 Credits
- WLDL 334 - Ungulate Ecology and Management - 3 Credits
- WLDL 348 - Wildlife Damage Management - 3 Credits
- WLDL 360 - Wetlands Ecology and Management - 3 Credits
- WLDL 361 - Waterfowl Ecology and Management - 3 Credits
- WLDL 372 - Wildlife of North America - 3 Credits
- WLDL 378 - Mammalogy - 3 Credits
- WLDL 450 - Human Dimensions of Wildlife - 3 Credits
- WLDL 451 - Management of Wildlife Habitat - 4 Credits
- WLDL 458 - Wildlife Ecology and Conservation Biology - 3 Credits

WLDL 305 should be taken with the topics of *Furbearer Ecology* or *Chemical Immobilization*

Additional Comments:

Conservation Law Enforcement Core, 48-50 credits
Type

Completion Requirement

Required, 13 credits

Complete ALL of the following Courses:

- NRES 383 - Organizational Leadership - 3 Credits
  OR NRES 386 - Conservation Law Enforcement Leadership and Management - 3 Credits
- NRES 392 - Conservation Law Enforcement Theory and Principles - 4 Credits
- NRES 473 - Resource Policy and Law - 3 Credits
- NRES 494 - Conservation Law Enforcement Investigations - 3 Credits

Law Enforcement and Criminal Justice, 6 credits

Earn at least 6 credits from the following:

- NRES 381 - Internship in Natural Resources - 1-12 Credits
- POLI 212 - Law and Legal Systems - 3 Credits
- POLI 335 - Law and Society - 3 Credits
- POLI 338 - Environmental Law and Regulation - 3 Credits
- SOC 230 - Criminology - 3 Credits
- SOC 333 - Corrections - 3 Credits

Communication, 5-7 credits

Earn at least 5 credits from the following:

- COMM 130 - Introduction to Public Relations - 3 Credits
- COMM 338 - Topics in Public Relations - 3 Credits
- COMM 387 - Interviewing - 3 Credits
- COMM 388 - Topics in Workplace Communication - 3 Credits
- COMM 394 - Business and Professional Communication - 3 Credits
- MSTU 396 - Communication and Gender - 3 Credits
- NRES 367 - Park Interpretation - 2 Credits
- NRES 368 - Oral Interpretation Methods - 3 Credits
- NRES 369 - Interpretive Media - 4 Credits

Diversity/Cultural Awareness, 3 credits

Complete ANY of the following Courses:

- HIST 279 - Environmental Justice - 3 Credits
- HIST 288 - Race and Ethnicity in American History - 3 Credits
- HIST 289 - African American History - 3 Credits
- HIST 291 - Latino American History - 3 Credits
- HIST 292 - Native American History - 3 Credits
- HIST 293 - Asian American History - 3 Credits
- POLI 315 - Minority Group Politics - 3 Credits
- SOC 270 - Race and Ethnicity - 3 Credits
- SOC 329 - Gender and Crime - 3 Credits

Social Sciences and Humanities, 6 credits

Earn at least 6 credits from the following:

- BUS 320 - Principles of Management - 3 Credits
  OR BUS 325 - Organizational Behavior - 3 Credits
- NRES 372 - Resource Economics - 3 Credits
- NRES 389 - Methods in Social Science - 3 Credits
- NRES 478 - Environmental Issues Investigation and Action - 3 Credits
- PHIL 315 - Philosophy of Law - 3 Credits
- PHIL 360 - Animal Ethics - 3 Credits
- PHIL 380 - Environmental Ethics - 3 Credits
- PHIL 381 - American Indian Environmental Philosophies - 3 Credits
- POLI 304 - Environmental Politics and Policy - 3 Credits
- POLI 305 - Climate Change Politics and Policy - 3 Credits
- POLI 330 - Constitutional Law - 3 Credits
- PSYC 320 - Social Psychology - 3 Credits

- SW 383 - Introduction to Substance Use Disorders - 3 Credits
- SW 385 - Mental Health and Co-Occurring Disorders: Resilience and Recovery - 3 Credits

OR

- Any 200-level course in World Language can also be taken for up to 4 credits

Complete one track:

Fulfill ANY of the following requirements:

Academy Track, 15 credits

Earn at least 15 credits from the following:

- NRES 393 - Conservation Law Enforcement - 1-15 Credits

Note: NRES 393 is taken at any cooperating Wisconsin technical college that offers a 720-hour WI Justice Department POST Academy. This training certifies candidates to work law enforcement jobs in Wisconsin. Other opportunities can be discussed with your adviser. To prepare for the Academy and future employment, you may want to take courses such as MSL 101 and MSL 102 (Introduction to Military Leadership I and II) or MSL 153 and MSL 154 (Advanced Physical Training).

OR

Non-academy Track, 15 credits

Note: If not already taken to satisfy a requirement above, choose from:

Earn at least 15 credits from the following:

- FOR 335 - Recreational Use of Forests and Parks - 3 Credits
- FOR 480 - Forest Recreation Management - 3 Credits
- FOR 485 - Forest Recreation Planning and Site Design - 3 Credits
- NRES 324 - Invasive and Exotic Species - 3 Credits
  OR WATR 324 - Invasive and Exotic Species - 3 Credits
- NRES 368 - Oral Interpretation Methods - 3 Credits
- NRES 381 - Internship in Natural Resources - 1-12 Credits
- NRES 474 - Integrated Resource Management - 3 Credits
- PHIL 381 - American Indian Environmental Philosophies - 3 Credits
- POLI 330 - Constitutional Law - 3 Credits
- PSEN 382 - Water and Wastewater Treatment - 3 Credits
  OR WATR 382 - Water and Wastewater Treatment - 3 Credits
  OR WSTE 382 - Water and Wastewater Treatment - 3 Credits
- SOC 101 - Introduction to Sociology - 3 Credits
  OR SOC 102 - Social Problems - 3 Credits
- SOC 327 - Social Inequality - 3 Credits
- SOC 330 - Victimology - 3 Credits
- SOC 332 - Juvenile Delinquency - 3 Credits

Child Life Specialist Preparation Certificate

Requirements

Simple Requisites

Curriculum
This certificate is administered by the area of Family and Consumer Science in the School of Health Sciences and Wellness.

Consists of a minimum of 46 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: HSW 301 and MATH 255.

Program Requirements
Type
Completion Requirement

Biology, 5 credits

Complete ANY of the following Courses:
- BIOL 101 - General Biology - 5 Credits
- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 160 - Introduction to Animal Biology - 5 Credits

Statistics, 3-4 credits

Complete ANY of the following Courses:
- HSW 301 - Fundamentals of Biostatistics - 3 Credits
- MATH 255 - Elementary Statistical Methods - 4 Credits

Required Remaining Courses, 38 credits

Complete ALL of the following Courses:
- BIOL 287 - Essentials of Human Anatomy - 4 Credits
- FCS 190 - Developing Human Services Professionals - 3 Credits
- FCS 295 - Ethics and Professional Development in Human Services - 3 Credits
- HD 265 - Human Growth and Development: A Life-Span Approach - 3 Credits
- HD 350 - Child Life Principles and Perspectives - 3 Credits
- HD 361 - Development and Guidance of Children - 3 Credits
- HD 367 - Intentional Intimacy and Family Systems - 3 Credits
- HD 455 - Child Life and Therapeutic Play - 3 Credits
- HD 465 - Grief and Loss - 3 Credits
- HD 466 - Development and Guidance of Adolescents - 3 Credits
- HD 490 - Workshop in Human Development - 1-4 Credits
- HSW 104 - Medical Terminology - 3 Credits
- HSW 360 - Evidence-Based Research Methods - 3 Credits

HD 490 should be taken for 1 credit concurrently with the first time hospital volunteer experience

BIOL 287 prerequisites include: BIOL 101, BIOL 110 or BIOL 160
HSW 360 prerequisites include: HSW 301 or MATH 255 or concurrent registration

About this Program
This certificate is ideal for you if you are seeking a career as Child Life Specialists and helps you meet the first, academic, steps towards certification. It is also beneficial if you are seeking skills and understanding that can be employed in a variety of settings such as hospitals, child advocacy centers, schools, camp and bereavement programs, women's shelters, hospice, trauma centers and more. Students from any major may complete the certificate which is particularly well suited if you are pursuing a major in Family and Consumer Sciences: Child Life & Family Studies Option, BS.

Using the national Association of Child Life Professionals (ACLP) academic eligibility requirements as a guide this certificate encompasses the 10 required course content areas. Each of the courses in our program has been pre-approved by ACLP helping to expedite child life course verification as part of the eligibility assessment requirements needed to qualify to sit for the national examination.

This certificate by itself does not qualify you to work or identify yourself as a Certified Child Life Specialist. It is designed to meet the mandatory academic requirements designated by ACLP. Additional requirements are needed for full certification such as volunteer hours in and out of medical settings, practicum(s), internship(s), and completion of the national exam. See the national ACLP website at childlife.org for a comprehensive list of all requirements to become an official Certified Child Life Specialist.

About this Program
The Child Life Specialist Preparation Graduate Certificate is ideal for those seeking to become certified as Child Life Specialists and complete the academic preparation portion of their training. Using the national Association of Child Life Professionals (ACLP) academic eligibility requirements as a guide, this certificate encompasses six of the 10 required course content areas. Each of the courses in our program have been pre-approved by ACLP helping to expedite child life course verification as part of the eligibility assessment requirements needed to qualify to sit for the national examination.

This certificate by itself does not qualify participants to work or identify themselves as a Certified Child Life Specialist, It is designed to assist in meeting the mandatory academic requirements designated by ACLP. Additional requirements are needed such as courses in four additional content areas (Human Anatomy, Medical Terminology, Ethics, Research), volunteer hours in and out of medical settings, practicum(s), internship(s), and completion of the national exam. See the national ACLP website at childlife.org for a comprehensive list of all requirements to become an official Certified Child Life Specialist.

Natural Resources Major (BS + MNR) (4+1 Track)

Requirements

Simple Requisites

Curriculum
This program is administered by the Discipline of your major in the College of Natural Resources.

This is an option for early application into the Master of Natural Resources (MNR) graduate program offered by the College of Natural Resources. Information on the MNR degree can be found at: www.uwsp.edu/MNR.

Students should apply to the BS and MNR 4+1 Track by March 1 of their junior year. Students may be working towards any bachelor's degree offered by the College of Natural Resources. Students should fully discuss this option with their faculty advisor and CNR Associate Dean for Academic Affairs prior to submitting an application to ensure it fits their long-term career goals.

Eligibility:

- Be currently enrolled in any CNR major
- Junior or higher standing
- Cumulative overall GPA of 3.00 or higher. You must maintain a 3.00 GPA through graduation.

Application process:

- Visit https://www3.uwsp.edu/cnr/Pages/Natural-Resources-Four-Plus-One-Program-.aspx for more information.

Program Requirements
Type
Completion Requirement

Additional Comments:
Required courses: 9 credits

During your senior year you may register for the 500 or 600 version of any required or elective CNR course in your major or minor. You may take a maximum of 9 credits in 500 or 600-level classes, which will then count towards your electives in the MNR program.

This will leave 22 credits to be completed in the MNR program.

BS - Bachelor of Science

Conservation and Leadership (MNR)

Requirements

Simple Requisites

Curriculum
This graduate program is administered by the Environment and Society Discipline in the College of Natural Resources.

You must earn at least 31 credits in graduate courses. A minimum of 16 credits must be in courses numbered 700 and above.

Program Requirements
Type
Completion Requirement

Natural Resources, 12 credits

Complete ALL of the following Courses:

- NRES 770 - Natural Resources Policy - 3 Credits
- NRES 771 - Introduction to Natural and Social Science Research - 3 Credits
- NRES 772 - Natural Resources Leadership and Communication - 3 Credits
- NRES 773 - Applied Ecosystem Ecology and Management - 3 Credits

Business, 9 credits

Complete ALL of the following Courses:

- BUS 504 - Developing Skills to Lead and Manage - 3 Credits
- BUS 558 - Managing Budgets - 3 Credits
- BUS 565 - Applying Lean Six Sigma - 3 Credits

Comprehensive Examination, 1 credit

Complete ALL of the following Courses:

- NRES 775 - Selected Topics in Natural Resources - 1-3 Credits

After completing the above courses you will register for NRES 775 with subtitle *Comprehensive Examination* (1 credit). In this course you will write a detailed examination that integrates principles from the above classes. You must pass this examination in order to receive your degree. If you fail one or more parts of the examination, you will be allowed one retake.

Specialized Elective Certificates

Complete a Specialized Elective Certificate

You must choose at least one specialized certificate to complete your degree. Certificate courses will be offered online but if you reside locally, you could substitute graduate courses that are offered only face-to-face. Use of UW-Stevens Point graduate courses offered outside of the College of Natural Resources and Sentry School of Business and Economics is possible but must be approved by the CNR Associate Dean for Academic Affairs. Additionally, up to nine credits of natural resources-related graduate courses from another institution may be transferred with approval of the Associate Dean.

Additional Comments:

No Requirement Level

Standards

Admission Standards
Please submit the following:

1. College of Natural Resources MNR application

2. UW-Stevens Point application for graduate study which includes official transcripts of all college work.

3. Resume

4. Essay describing your professional interests and goals

5. Two letters of recommendation

6. Foreign applicants must submit TOEFL or IELT Scores with minimum scores of 80 or 7 respectively

7. Official transcripts of all college work

You must have a 3.0 GPA during the last two years of undergraduate or graduate study. If your GPA is under the 3.0 minimum you may request a panel review of your application for a waiver to that requirement.

Academic Standards
Minimum GPA requirement for this program is 3.00.

Learning Outcomes

Program Learning Outcomes (UWSP)
Upon completion of the Master of Natural Resources, you will be able to:

1. Identify the intersection between natural systems and human systems by examining political, economic, social, and environmental aspects of natural resource management.
2. Use research to help make informed natural resource management decisions.
3. Apply leadership and administration skills relevant to management positions within natural resources.
4. Demonstrate professional communication skills including writing, conflict resolution and facilitation.
5. Apply ecological principles to making natural resource management decisions.

Conservation Biology Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the Wildlife Ecology and Managment Discipline.

Consists a minimum of 29 credits.

Program Requirements
Type
Completion Requirement

Biology Core, 5-10 credits

Fulfill ANY of the following requirements:

Biology Option 1

Complete ALL of the following Courses:

- BIOL 101 - General Biology - 5 Credits

OR

Biology Option 2

Complete ALL of the following Courses:

- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits

OR

Biology Option 3

Complete ANY of the following Courses:

- BIOL 130 - Introduction to Plant Biology - 5 Credits
- BIOL 160 - Introduction to Animal Biology - 5 Credits

Required, 12 credits

Complete ALL of the following Courses:

- BIOL 305 - General Ecology - 3 Credits
- NRES 324 - Invasive and Exotic Species - 3 Credits
  OR NRES 457 - Ecological Restoration Monitoring - 3 Credits
- NRES 458 - Biodiversity and Conservation Biology - 3 Credits
  OR WLDL 458 - Wildlife Ecology and Conservation Biology - 3 Credits
- NRES 459 - Ecosystem Management and Restoration - 3 Credits

Economics, Policy, and Planning, 6 credits

Fulfill ALL of the following requirements:

Economics, 3 credits

Complete ANY of the following Courses:

- ECON 342 - Ecological Economics - 3 Credits
- NRES 372 - Resource Economics - 3 Credits

AND

Policy and Planning, 3 credits

Complete ANY of the following Courses:

- NRES 384 - Conservation and Community Planning - 3 Credits
- NRES 394 - Targeted Conservation Through Advanced GIS - 3 Credits
- NRES 473 - Resource Policy and Law - 3 Credits
- NRES 474 - Integrated Resource Management - 3 Credits
- POLI 304 - Environmental Politics and Policy - 3 Credits
- POLI 305 - Climate Change Politics and Policy - 3 Credits

Biological Support, 6-8 credits

Fulfill ALL of the following requirements:

Plant Taxonomy/Ecology, 3-4 credits

Complete ANY of the following Courses:

- BIOL 342 - Vascular Plant Taxonomy - 4 Credits
- BIOL 355 - Plant Ecology - 4 Credits
- FOR 332 - Forest Ecosystem Ecology - 3 Credits

AND

Animal Taxonomy, 3-4 credits

Complete ANY of the following Courses:

- BIOL 361 - Aquatic Invertebrate Zoology - 3 Credits
  OR WATR 361 - Aquatic Invertebrate Zoology - 3 Credits
- BIOL 367 - General Entomology - 4 Credits
- BIOL 374 - Ichthyology - 4 Credits
- BIOL 376 - Herpetology - 3 Credits
- BIOL 377 - Ornithology - 3 Credits
- FOR 426 - Forest Entomology - 3 Credits
- WATR 488 - Aquatic Insects - 3 Credits
- WLDL 372 - Wildlife of North America - 3 Credits
- WLDL 378 - Mammalogy - 3 Credits

Additional Comments:
Note: To graduate with a minor in conservation biology you must have a 2.25 minimum cumulative grade point average.

No Requirement Level

Standards

Academic Standards
To graduate with a major or minor in the wildlife ecology discipline you must have a 2.50 minimum cumulative grade point average.

Community and Organizational Leadership (MS)

Requirements

Simple Requisites

Curriculum
This graduate program is administered by the area of Health Sciences and Wellness in the School of Health Sciences and Wellness.

The degree requires a minimum of 30 credits: 15 credits of core courses and 6 credits of project or thesis are required and the remaining 9 credits of electives are determined by your individual needs and career goals.

Program Requirements
Type
Completion Requirement

Required Core, 15 credits

Complete ALL of the following Courses:

- COL 700 - Collaborative Leadership in Community Development - 3 Credits
- COL 710 - Organization and Program Management - 3 Credits
- COL 720 - Outcome Based Program Evaluation - 3 Credits
- COL 730 - Best Practices in Program Development - 3 Credits
- COL 740 - Grants and Funding for Small Projects - 3 Credits

Electives, 9 credits

Complete Electives
Any graduate level (500+) course taken at UWSP or transferred in from another institution will count towards the 9 credit elective requirement. You are encouraged to choose electives to meet your specific professional development needs and interests.

Culminating Experience, 6 credits

Choose one option:

Fulfill ANY of the following requirements:

Project, 6 credits

Develop and implement a project designed to accommodate a current community need. Requires 6 credits (COL 791 and COL 792). Requires professional presentation of project plan and results.

Complete ALL of the following Courses:

- COL 791 - Project Development - 2-3 Credits
- COL 792 - Project Evaluation - 2-3 Credits

OR

Thesis, 6 credits

For those interested in conducting qualitative or quantitative research. Choose a topic in an area similar to the interests of one of the faculty. Requires 6 thesis credits, including 6 thesis credits. Requires oral research proposal, written thesis. and oral final defense. You may repeat enrollment in COL 799 each semester in which you are involved in your thesis, until the 6 credit requirement is completed.

Complete ALL of the following Courses:

- COL 799 - Thesis - 1-6 Credits

OR

Coaching Certificate, 6 credits

If you are pursuing the Health and Wellness Coaching Graduate Certificate, you can develop a project designed to accommodate a current community need related to coaching by taking HSW 775 and implement the project in COL 792 to satisfy the 6-credit "Culminating Experience" requirement. Requires professional presentation of project plan and results.

Complete ALL of the following Courses:

- COL 792 - Project Evaluation - 2-3 Credits
- HSW 775 - Health and Wellness Coaching Ethics and Practicum - 3 Credits

OR

Child Life Specialist Certificate, 6 credits

If you are pursuing the Child Life Specialist Preparation Graduate Certificate, you may utilize your child life internship experience to satisfy the 6-credit "Culminating Experience" requirement.

Earn at least 6 credits from the following:

- COL 791 - Project Development - 2-3 Credits
- COL 792 - Project Evaluation - 2-3 Credits

Take these courses for 3 credits each.

Additional Comments:

No Requirement Level

Standards

Admission Standards
For Community & Organizational Leadership you need:

1. A baccalaureate degree from an accredited university or college with an undergraduate grade point average of 2.75 or above (based on a 4.0 scale). We may grant probationary status if you have a GPA below 2.75.

2. A current resume or curriculum vitae detailing your professional experience.

3. A letter of intent detailing your background qualifications, career goals, and how this program fits into your future professional plans. Professional writing ability will be evaluated based on your submitted documents.

4. GRE (Graduate Record Exam).

Academic Standards
Minimum GPA requirement for this program is 3.00.

Admission to Candidacy for Community & Organizational Leadership, MS - Graduate Program

Admission to candidacy (program planning) does not occur until after you have applied and are accepted into the Community & Organizational graduate program at UW-Stevens Point. Once admitted, you will consult with your adviser to prepare a proposed program of study. Acceptance as a candidate occurs when your graduate committee has approved your Program of Study.

1. To be accepted as a candidate:

2. Complete no more than 9 credits of graduate work from UW-Stevens Point. Transfer credits may apply toward completion of your degree, but they are not included in consideration for admission to candidacy. You may apply earlier, but you should be admitted to the program and meet with your adviser before you have completed 9 graduate credits.

3. Remove any academic deficiencies and/or complete all subject matter prerequisites.

4. Maintain at least a 3.0 (B) grade point average in all your graduate work.

5. Receive approval for your Program of Study.

About this Program

About this Program
The MS degree in Community & Organizational Leadership is designed to broaden your abilities in leadership, critical thinking and wellness in individual, family and community settings.

More information about the Master of Science in Community and Organizational Leadership program is available on the Health Sciences and Wellness page.

Learning Outcomes

Program Learning Outcomes (UWSP)
Upon completion of the M.S. degree in Community and Organizational Leadership, you will be able to:

1. Analyze community development process and practice.
2. Consider human relationships in fostering positive behavior change within communities.
3. Develop community-based programming to meet goals and objectives.

Community Sustainability Major (BS)

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of Geography and Geology within the College of Letters and Science.

Consists of a minimum of 65 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 100, CHEM 101, MATH 111, MATH 255, SOC 351, ECON 111, and POLI 301.

Program Requirements
Type
Completion Requirement

Introduction to the Major, 1 credit

Complete ALL of the following Courses:
- SUST 100 - Sustainability as a Profession - 1 Credits

Natural Science, 6-10 credits

Complete at least 2 of the following courses:
- BIOL 100 - Biological Principles and the Human Environment - 3 Credits
  OR BIOL 101 - General Biology - 5 Credits
- CHEM 100 - Chemistry for the Citizen - 3 Credits
  OR CHEM 101 - Basic Chemistry - 5 Credits
- PHYS 100 - Prudently Powering Our Planet - 3 Credits
  OR PHYS 101 - General Physics - 5 Credits

Environmental, Climate, and Earth Sciences, 9-11 credits

Earn at least 9 credits from the following:
- GEOG 100 - Human Impacts on the Physical Environment - 3 Credits
  OR GEOG 105 - The Dynamic Earth - 3 Credits
- GEOG 170 - Disasters - Living on the Edge - 4 Credits
- GEOG 208 - Weather and Climate - 3 Credits
- GEOG 303 - Processes of Environmental Degradation - 3 Credits
- GEOG 308 - Climate: Past, Present and Future - 3 Credits
- GEOL 100 - Geology and Science - 3 Credits
  OR GEOL 104 - Physical Geology - 4 Credits
- NRES 150 - People, Resources and the Biosphere - 3 Credits
- NRES 220 - Global Climate Change and Water Resources: Present-10th Century - 3 Credits

Analytical Skills, 7 credits

Complete ALL of the following Courses:
- GEOG 341 - Geographic Information Systems I - 3 Credits
- MATH 111 - Applied Calculus - 4 Credits
  OR MATH 255 - Elementary Statistical Methods - 4 Credits
  OR SOC 351 - Social Statistics - 4 Credits

Foundational Sustainability Studies, 18 credits

Complete ALL of the following Courses:
- ECON 111 - Principles of Microeconomics - 3 Credits
- GEOG 115 - World Regional Geography - 3 Credits
  OR GEOG 120 - Human Geography - 3 Credits
- GEOG 230 - Introduction to Regional Planning and Geodesign - 3 Credits
  OR NRES 200 - Introduction to Sustainable Communities - 3 Credits
- HIST 279 - Environmental Justice - 3 Credits
  OR HIST 280 - U.S. Environmental History - 3 Credits
- PHIL 380 - Environmental Ethics - 3 Credits
- POLI 304 - Environmental Politics and Policy - 3 Credits

Integrative Sophomore Experience, 1 credit

Complete ALL of the following Courses:
- SUST 299 - Sustainability and Community Engagement - 1 Credits

Additional Comments:

Professional Pathway Options - Must complete one of the two professional pathway options
Type
Completion Requirement

Option 1. Environmental Justice and Community Leadership Option, 21-24 credits

Fulfill ALL of the following requirements:

Required, 15-18 credits

Earn at least 15 credits from the following:
- BUS 320 - Principles of Management - 3 Credits
  OR BUS 325 - Organizational Behavior - 3 Credits
  OR NRES 383 - Organizational Leadership - 3 Credits

- ENGL 347 - Grant and Proposal Writing - 3 Credits
- HIST 279 - Environmental Justice - 3 Credits
- HIST 380 - The Environmental Movement - 3 Credits
- POLI 338 - Environmental Law and Regulation - 3 Credits
- PSYC 321 - Environmental Psychology - 3 Credits
  OR SOC 327 - Social Inequality - 3 Credits
  OR SOC 355 - Environmental Sociology - 3 Credits
  OR SOC 370 - Sociology of Globalization - 3 Credits

HIST 279 can only be taken with this requirement if not taken above

AND

Required, 6 credits

Earn at least 6 credits from the following:

- PHIL 321 - Food Ethics - 3 Credits
- PHIL 381 - American Indian Environmental Philosophies - 3 Credits
- PHIL 480 - Advanced Environmental Ethics - 3 Credits

Option 2. Resilient Urban Systems and Policy, 21 credits

Complete ALL of the following Courses:

- ECON 111 - Principles of Microeconomics - 3 Credits
  OR ECON 362 - Economic Development - 3 Credits
- GEOG 230 - Introduction to Regional Planning and Geodesign - 3 Credits
- GEOG 330 - Urban and Regional Planning Analysis - 3 Credits
- GEOG 433 - GIS and Geodesign for Sustainability and Resiliency - 3 Credits
- HIST 277 - Designing the American Dream - 3 Credits
  OR NRES 394 - Targeted Conservation Through Advanced GIS - 3 Credits
- NRES 200 - Introduction to Sustainable Communities - 3 Credits
- POLI 301 - Methods of Policy Analysis - 3 Credits
- POLI 389 - Public Policy for Sustainable Communities - 3 Credits

GEOG 230 and NRES 200 can only be taken with this requirement if not taken above

Advanced Sustainability Experience, 1-3 credits

Complete ANY of the following Courses:

- GEOG 480 - Internship in Geography - 1-12 Credits
- GEOG 485 - Practicum in Geography - 1-3 Credits
- GEOG 496 - Community Development Practices - 3 Credits
- HIST 399 - Special Work - 1-3 Credits
- PHIL 399 - Independent Study - 1-3 Credits
- POLI 455 - Internship in Government - 1-6 Credits

HIST 399 and POLI 399 can only be taken with program consent

Senior Seminar, 1 credit

Complete ALL of the following Courses:

- SUST 499 - Seminar in Applied Sustainability - 1 Credits

Additional Comments:

No Requirement Level

Standards

Academic Standards

1. To be accepted into a major or minor offered by the Department of Geography and Geology you must file a major declaration form in the School of Behavioral and Social Sciences.

2. To be retained and approved for graduation with a major or a minor offered by the Department of Geography and Geology, you must have a 2.00 cumulative GPA in all courses in the major or minor, regardless of any declaration of academic forgiveness.

3. Geology and Geography Department majors must have an adviser within the department. Any department faculty or academic staff member may advise a department major. You must confer with your adviser every semester. Students accepted into any of the minors offered by the department are not required to have an adviser within the department.

4. Geography and geology courses taken at the 300 or 400 level on a pass/fail basis do NOT count toward the geoscience major or any of the minors offered by the department.

Learning Outcomes

Program Learning Outcomes (UWSP)

As a Community Sustainability major, you will develop key competencies across multiple disciplines in the natural sciences, social sciences, and humanities needed to create resilient communities. You will gain the knowledge, skills and framework to successfully advocate for social and environmental justice, promote environmental policy, and foster sustainable economies. You must select one of two career-oriented tracks in (1) Environmental Justice and Community Leadership, or (2) Resilient Urban Systems and Policy, in which you gain experience working directly with communities in applied learning settings to foster resiliency and sustainability.

Communication Major (BS): Professional Communication Option

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Communication in the School of Design and Communication.

Successfully complete a minimum of 37 credits in Required and Elective coursework as described below.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: COMM 391.

Program Requirements
Type
Completion Requirement

Required Courses, 15 credits

Complete ALL of the following Courses:

- COMM 130 - Introduction to Public Relations - 3 Credits
- COMM 180 - Foundations of Workplace Communication - 3 Credits
- COMM 201 - Communication Research - 3 Credits
- COMM 391 - Persuasion - 3 Credits
- COMM 430 - Professional Communication Capstone - 3 Credits

Internship, 1-3 credits**

Take one of:

Earn at least 1 credits from the following:

- COMM 480 - Internship in Professional Communication - 1-12 Credits
- COMM 485 - Externship in Professional Communication - London - 6 Credits

**Alternatives to the internship requirement are available for those whose personal circumstances make it difficult to complete an internship. Contact Internship Coordinator for details.

Note: A maximum of 3 credits count towards the major

Electives, at least 21 credits

12 credits must be 300-level or higher.

Fulfill ALL of the following requirements:

Electives, 15 credits

Earn at least 15 credits from the following:

- COMM 110 - How to Win an Argument - 3 Credits
- COMM 212 - Writing for Professional Communication - 3 Credits

- COMM 334 - Public Relations Writing - 3 Credits
- COMM 336 - Communication and Promotional Strategies - 3 Credits
- COMM 338 - Topics in Public Relations - 3 Credits
- COMM 345 - Small Group Communication - 3 Credits
- COMM 385 - Workplace Communication Laboratory - 3 Credits
- COMM 387 - Interviewing - 3 Credits
- COMM 388 - Topics in Workplace Communication - 3 Credits
- COMM 390 - Seminar - 3 Credits
- COMM 393 - Political Campaigns - 3 Credits
- COMM 394 - Business and Professional Communication - 3 Credits

AND

Electives

You may take up to 6 credits from the following courses:

Complete ANY of the following Courses:

- ARTM 195 - Fundamentals of Arts Management - 3 Credits
- ARTM 300 - Topics in Arts Management - 3 Credits
- BUS 320 - Principles of Management - 3 Credits
- BUS 330 - Principles of Marketing - 3 Credits
- MSTU 102 - Effective Podcasting - 3 Credits
- MSTU 105 - Foundations of Media Practice: Time, Motion, and Video - 3 Credits
- MSTU 253 - Video Production I - 3 Credits
- MSTU 320 - Multimedia Writing - 3 Credits
- MSTU 322 - Introduction to Digital Photography - 3 Credits

Note:

- Other electives might be available with permission.
- These course numbers may be repeated for credit with different topics: COMM 338, COMM 385, COMM 388, COMM 390, and ARTM 300.

Additional Comments:

No Requirement Level

Standards

Academic Standards

Retention and Graduation

In order to graduate with a major or minor in professional communication, you must achieve a 2.50 GPA in all communication classes taken, regardless of a declaration of academic forgiveness.

Once you complete 12 credits toward your professional communication major (excluding 101), you must maintain a 2.50 GPA for your major coursework. If your professional communication major GPA falls below a 2.50, you will be placed on probation for one semester. If you fail to regain a 2.50 GPA after the next semester in which you complete a professional communication course, you will be dismissed from the major.

Courses with a grade below C- DO NOT fulfill the major or minor requirements, but are included in the calculation of the major or minor GPA. See the Grade-related Policies section of this catalog for the policy on repeating courses.

Transfer credit policy: Certain courses taken at other universities may substitute for courses in the major. Credits from these courses will be counted when calculating your GPA in professional communication.

About this Program
The Professional Communication major facilitates the development of skill sets to prepare graduates for success in contemporary workplaces.

In professional communication, you complete core courses and electives from public relations and workplace communication. Complementary electives from arts management, business, and media studies may be used to complete major requirements. Upon completing major requirements, you will be prepared to work in a wide variety of organizations and business-related professions.

Web: https://www3.uwsp.edu/schoolofdesign/Pages/major/Professional-Communication.aspx

About this Program

Communication: Project Option, M.A.

27 credits of coursework, plus 3 credits for project, and one colloquium credit. This option allows you to conduct a study (approx 50 pages) of a work situation, write about and direct a production, or examine a topic of interest from a more applied perspective. After you have completed at least 15 credits, the advisory committee approves the selection of your project topic, rationale, and method to be used for conducting the project. When the advisory committee approves your project proposal, you must enroll in one or more hours of project credit to maintain your status as an MA candidate. We count no more than 3 project credits toward your 31 credit degree requirement.

Process for Completing the Thesis/Project

1. With the chair of your committee, write a prospectus (a proposal of 20-30 pages) that outlines the thesis/ project topic and the methods you will use to conduct the study. After the remaining committee members have read your prospectus, you must orally defend it to your committee.
2. After approval of the prospectus, conduct your study and write the thesis or project. Once you and your chair feel the written thesis/project is ready, have the remaining committee members read it and set a date to orally defend the thesis/ project to the committee. You must defend your thesis/project at least 30 days prior to the commencement ceremony to be eligible to participate in the ceremony.
3. Make any final revisions that are required by the committee. At least 10 days prior to the commencement ceremony, arrange with the library to have at least four hardbound copies made. The library then certifies that your thesis/project is complete. The graduate coordinator and registrar then conduct a final audit of your work before approving you for graduation.

Communication: Thesis Option, M.A.

24 credits of coursework, plus 6 credits for thesis, and one colloquium credit. This option allows you to conduct a research project (approx 100-150 pages) that can help you prepare for entering a PhD program or complete a more detailed and/or theoretical examination of a topic of interest. After you have completed at least 15 credits, the advisory committee approves the selection of a thesis topic, rationale, and method to be used for the study. When the advisory committee approves your thesis project proposal, you must enroll in one or more hours of thesis or project credit to maintain your status as an MA candidate. We count no more than 6 thesis credits toward your 31 credit degree requirement.

Process for Completing the Thesis/Project

1. With the chair of your committee, write a prospectus (a proposal of 20-30 pages) that outlines the thesis/ project topic and the methods you will use to conduct the study. After the remaining committee members have read your prospectus, you must orally defend it to your committee.
2. After approval of the prospectus, conduct your study and write the thesis or project. Once you and your chair feel the written thesis/project is ready, have the remaining committee members read it and set a date to orally defend the thesis/ project to the committee. You must defend your thesis/project at least 30 days prior to the commencement ceremony to be eligible to participate in the ceremony.
3. Make any final revisions that are required by the committee. At least 10 days prior to the commencement ceremony, arrange with the library to have at least four hardbound copies made. The library then certifies that your thesis/project is complete. The graduate coordinator and registrar then conduct a final audit of your work before approving you for graduation.

- CSD 457 - Introduction to Hearing and Speech Science - 3 Credits
- CSD 495 - Clinical Practicum - 2 Credits

Required, 8-10 Credits

Complete ALL of the following Courses:

- BIOL 101 - General Biology - 5 Credits
  OR BIOL 160 - Introduction to Animal Biology - 5 Credits
- CHEM 100 - Chemistry for the Citizen - 3 Credits
  OR CHEM 101 - Basic Chemistry - 5 Credits
  OR PHYS 101 - General Physics - 5 Credits

Psychology, 6 Credits

Complete ALL of the following Courses:

- PSYC 110 - Introduction to Psychology - 3 Credits
- PSYC 325 - Behavioral Neuroscience - 3 Credits

Statistics, 4 Credits

Complete ANY of the following Courses:

- MATH 255 - Elementary Statistical Methods - 4 Credits
- PSYC 300 - Statistics for Psychologists - 4 Credits

Health Emphasis, 3 Credits

Complete ANY of the following Courses:

- HSW 310 - Communication in Health Care - 3 Credits
- PHIL 302 - Ethics and Medicine - 3 Credits
- POLI 306 - Health Politics and Policies - 3 Credits
- PSYC 330 - Perception - 3 Credits
- PSYC 385 - Health Psychology - 3 Credits
- PSYC 390 - Psychoactive Drugs and Behavior - 3 Credits
- SOC 308 - Sociology of Medicine - 3 Credits
- SOC 366 - Sociology of Aging - 3 Credits

OR

- Or comparable health related course with adviser approval

Developmental Emphasis, 3 Credits

Complete ANY of the following Courses:

- HD 265 - Human Growth and Development: A Life-Span Approach - 3 Credits
- PSYC 260 - Introduction to Developmental Psychology - 3 Credits

Lifespan Emphasis, 3 Credits

Complete ANY of the following Courses:

- PSYC 315 - The Psychology of Adolescence - 3 Credits
- PSYC 331 - Cognitive Psychology - 3 Credits
- PSYC 351 - Psychopathology - 3 Credits
- PSYC 360 - Child and Adolescent Psychopathology - 3 Credits
- PSYC 375 - Learning - 3 Credits
- SOC 225 - Sociology of Childhood and Adolescence - 3 Credits
- SOC 301 - Social Investigations II - 3 Credits
- SOC 366 - Sociology of Aging - 3 Credits

Standards

Academic Standards

1. You must have an overall GPA of 2.0 to enroll in lower division preprofessional coursework for the major: CSD 108, CSD 109, CSD 260, CSD 264, CSD 266, CSD 267.

2. To enroll in upper division (300-400 level) preprofessional coursework you must complete the lower division preprofessional coursework with a minimum GPA of 3.0 and have an overall GPA of at least 2.75.

3. You must earn a grade of C or better in required communication sciences and disorders coursework to receive credit toward the major. You may repeat a course in the major if you follow the Repeating Courses policy found in the catalog.

4. You must maintain a 2.75 GPA overall and a 3.0 GPA in this major throughout the upper division coursework.

5. If you fail to meet either the overall or the in-major GPA, you will be placed on probation in the major. You must meet the above GPAs by the end of the probationary semester to continue in the major. Only one probationary semester is allowed.

6. All courses taken in the major are used to determine your in-major GPA, regardless of a declaration of academic forgiveness.

7. All college and university coursework will be used for any program decision, including the professional education program, enrollment in upper division courses, and graduation. You may petition the Communication Sciences and Disorders Academic Programs Committee for exception.

Learning Outcomes

Program Learning Outcomes (UWSP)

As an undergraduate student in the Communication Sciences and Disorders Program you will:

1. Explain normal communication development and processes

2. Analyze and interpret delayed or disordered communication systems

3. Describe and/or implement "evidence-informed" clinical assessment and intervention techniques for populations appropriate for CSD undergraduate students

4. Demonstrate oral/written communication skills, interpersonal skills, and personal qualities necessary for developing effective professional relationships

5. Evaluate patient case history information and assessment results and create appropriate intervention plans

Communication Sciences and Disorders, Speech Language Pathology (MS)

Requirements

Simple Requisites

Curriculum
This graduate program is administered by the area of Communication Sciences and Disorders.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)
The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

This program meets the certification/licensure requirements in the following states/territories:
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Guam, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming;

This program does not meet the certification/licensure requirements in the following states/territories or the following states/territories do not license or regulate speech and language pathology practice:
American Samoa, Federated States of Micronesia, Northern Mariana Islands, Republic of Palau, Republic of the Marshall Islands;

In speech-language pathology, you must take a comprehensive examination the semester before you begin a 15-credit clinical semester. In the clinical semester, you are assigned full time for one academic term to a hospital, clinic, school, etc. to gain professional experience in the type of setting that most interests you. You may complete a thesis in lieu of taking comprehensive examinations as a culminating experience. The thesis must be completed prior to graduation.

In audiology you will culminate your graduate program with a capstone project during the third year and a full-time, clinical externship during the entire fourth year.

Consists of a minimum of 56 credits.

Program Requirements
Type
Completion Requirement

Required, 52-59 credits

Complete ALL of the following Courses:

- CSD 710 - Research Methods and Critical Thinking in Communication Sciences and Disorders - 2 Credits
- CSD 723 - Fluency Disorders - 2 Credits
- CSD 724 - Neuromotor Speech Disorders - 2 Credits
- CSD 735 - Language Disorders in School Age Children and Adolescents - 3 Credits
- CSD 738 - Early Intervention - 2 Credits
- CSD 740 - Aphasia and Age-Related Changes - 3 Credits
- CSD 741 - Cognitive-Communication Disorders - 2 Credits
- CSD 742 - Autism Spectrum Disorders - 2 Credits
- CSD 745 - Advanced Study in Phonological Disorders - 2 Credits
- CSD 746 - Dysphagia - 3 Credits
- CSD 765 - Augmentative and Alternative Communication - 3 Credits
- CSD 773 - Counseling in Speech-Language Pathology - 1 Credits
- CSD 775 - Medical Settings - 1 Credits
- CSD 776 - Schools Methods - 2 Credits
- CSD 784 - Disorders of Phonation - 3 Credits
- CSD 786 - Cleft Palate and Craniofacial Disorders - 2 Credits
- CSD 791 - Graduate Practicum I - 1-2 Credits
- CSD 792 - Graduate Practicum II - 2-4 Credits
- CSD 793 - Graduate Practicum III - 1-3 Credits
- CSD 794 - Graduate Practicum IV - 2-4 Credits
- CSD 795 - Externship in Speech-Language Pathology - 11 Credits

Elective, 1 credit

This course is only required for those students externing in a school setting

Complete ALL of the following Courses:

- CSD 700 - Professional Issues and Portfolio Development - Speech-Language Pathology Externs - 1 Credits

Web: https://www.uwsp.edu/health/Pages/graduate/speech-language-pathology.aspx

About this Program
The School of Health Sciences and Wellness offers a Master's of Science degree in Speech-Language Pathology . You will receive the academic background and clinical practicum experience required to function competently and independently in a variety of professional employment settings. The Master of Science (MS) education program in speech-language pathology at the University of Wisconsin-Stevens Point is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) of the American Speech-Language Hearing Association (ASHA), 2200 Research Boulevard, #310, Rockville, MD 20850, 800-498-2071 or 301-296-5700. For more information, see www.uwsp.edu/csd.

The faculty and staff in Communication Sciences and Disorders (CSD) provide you with a high quality education that emphasizes training in the prevention, evaluation, and treatment of disorders of hearing, speech, language, and swallowing. Graduates are employed throughout the country in schools, universities, hospitals, skilled nursing facilities, and private/public clinics.

Clinical training begins at the undergraduate level and culminates with a full-time clinical externship at the end of the graduate program. In consultation with the director of Clinical Services, you will select a site for your externship. You will complete a full-time 15-20 week externship in a school, health care facility, or clinic setting during the final semester of your program.

Specializations

In either specialization you must meet minimum standards for clinical certification as established by the American Speech-Language-Hearing Association that are in effect at the time you graduate.

About this Program
The M.S. in Cybersecurity represents a fully online, asynchronous curriculum comprised of 34 credits to include seven core courses, 3 concentration or track courses, a Capstone preparation course, and a project-based Capstone course. UW Extended Campus, UW-Green Bay, UW-La Crosse, UW-Oshkosh, UW-Parkside, UW-Platteville, UW-River Falls, UW-Stevens Point, and UW-Superior offer the program jointly. You will be able to complete more than one program track.

As a graduate of the program, you will gain the core competencies required to serve in a variety of cybersecurity roles within diverse organizations. The required capstone course, which represents the culminating experience in the program, will provide you with the opportunity to apply skills acquired from coursework through a project-based experience in your track/ concentration area.

This major is administered by the area of Analytics in the Sentry of School of Business and Economics.

Successfully complete a minimum of 69 credits in the categories below.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: MATH 109, MATH 111, MATH 225, MATH 255, ECON 243, FOR 321, HSW 301, MATH 354, MATH 357, PSYC 300, SOC 351, ECON 111, and ECON 310.

Program Requirements
Type
Completion Requirement

Mathematics Core, 7-9 credits

Fulfill ALL of the following requirements:

Required Math, 4-5 Credits

Complete ANY of the following Courses:

- MATH 109 - Mathematics for the Social and Management Sciences - 4 Credits
- MATH 111 - Applied Calculus - 4 Credits
- MATH 225 - Calculus I - 5 Credits

AND

Statistics, 3-4 Credits

Complete ANY of the following Courses:

- ECON 243 - Economic and Business Statistics - 3 Credits
- FOR 321 - Natural Resources Data Analysis - 4 Credits
- HSW 301 - Fundamentals of Biostatistics - 3 Credits
- MATH 354 - Applied Statistics - 4 Credits
- MATH 255 - Elementary Statistical Methods - 4 Credits
- MATH 357 - Probability and Statistics II - 3 Credits
- PSYC 300 - Statistics for Psychologists - 4 Credits
- SOC 351 - Social Statistics - 4 Credits

Note: If you anticipate doing advanced study in Data Analytics or Data Science, you should take MATH 225

Computing Core, 16 credits

Complete ALL of the following Courses:

- CIS 102 - Practicum in Computing - 1 Credits
- CIS 210 - Database Design and Implementation - 4 Credits
- CIS 444 - Advanced Database - 4 Credits
- CNMT 100 - Principles of Computing - 3 Credits
- CNMT 110 - Object-Oriented Programming - 4 Credits

Note: CIS 102 must be the Excel topic.

Economics Core, 6 credits

Complete ALL of the following Courses:

- ECON 111 - Principles of Microeconomics - 3 Credits
- ECON 310 - Introductory Econometrics - 3 Credits

Business Administration Core, 12 credits

Complete ALL of the following Courses:

- BUS 325 - Organizational Behavior - 3 Credits
- BUS 330 - Principles of Marketing - 3 Credits
- BUS 350 - Principles of Finance - 3 Credits
  OR BUS 360 - Principles of Production-Operations Management - 3 Credits
  OR BUS 370 - Management Information Systems - 3 Credits
- BUS 375 - Advanced Spreadsheet Applications - 3 Credits

Data Analytics Core, 27 credits

Complete ALL of the following Courses:

- DAB 340 - Marketing Analytics - 3 Credits
- DAB 370 - Data Visualization and Communication - 3 Credits
- DAB 440 - Analytics and Decision Making - 3 Credits
- DAC 101 - Introduction to Data Analytics - 3 Credits
- DAC 111 - Python Programming for Data Analytics - 4 Credits
- DAC 305 - Principles of Data and Modeling - 3 Credits
- DAC 310 - Machine Learning and Data Mining - 4 Credits
- DAC 480 - Applied Analytics Project - 4 Credits

About this Program
The Graduate Certificate in Data Science represents an in-program certificate and credential within the existing and well-established MS in Data Science (MS-DS) program. The certificate program is offered as a fully online, asynchronous curriculum comprised of five existing foundational courses (15 credits) within the MS-DS curriculum. The program serves as an additional and early credential for in-program (i.e., MS-DS degree-seeking students) as well as a freestanding certificate program for non-degree (i.e., certificate-only) students who may or may not elect to pursue the full MS-DS degree following completion of the certificate. Following the collaborative model, students select and enroll at a home campus from which they will receive full academic support and the certificate is conferred. Academic advising will be provided by the designated MS-DS academic director at each institution. Admission requirements for the Graduate Certificate in Data Science program include a Bachelor's degree and a 3.0 undergraduate GPA. Program prerequisites include coursework in elementary statistics, introductory computer programming, and introduction to databases. Relevant work experience may be considered in lieu of this coursework.

About this Program
The online M.S. in Data Science degree program will focus primarily on adult and nontraditional students who hold an undergraduate degree and have the desire to continue their education toward a graduate degree, primarily to expand knowledge and specialized skills in this area and for career advancement. The multidisciplinary curriculum has been designed to prepare data science professionals to solve real-world problems as part of an interdisciplinary team using structured and unstructured data. A listing of student learning outcomes is provided below.

The M.S. in Data Science is a fully online 36-credit (12 three-credit courses to include a capstone course) graduate program offered jointly by UW-Eau Claire, UW-Green Bay, UW-LaCrosse, UW-Oshkosh, UW-Stevens Point, and UW-Superior. The program follows a home-campus model. Apply to one of the six partner institutions. Upon admittance, that institution will become your administrative home for the degree through graduation.

Learning Outcomes

Program Learning Outcomes (UWSP)

- Identify and assess the needs of an organization for a data science task.
- Collect and manage data to devise solutions to data science tasks.
- Select, apply, and evaluate models to devise solutions to data science tasks.
- Interpret data science analysis outcomes.
- Effectively communicate data science related information in various formats to appropriate audiences.
- Value and safeguard the ethical use of data in all aspects of the profession.
- Transform findings from data resources into actionable business strategies.

Dietetics Major (BS + MS) (4+1 Track)

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Nutrition in the School of Health Sciences and Wellness.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)
The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program.

The requirements of this program meet Certification/Licensure in the following states:
Wisconsin

The requirements of this program do not meet Certification/Licensure in the following states:
Not applicable

The requirements of this program have not been determined if they meet Certification/Licensure in the following states:
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wyoming; District of Columbia; American Samoa, Guam, Northern Mariana Islands, Puerto Rico, U.S. Virgin Islands

Consists of major and collateral requirements totaling a minimum of 84-85 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 105, CHEM 106, MATH 255, HSW 301, PSYC 300, and SOC 351.

Program Requirements
Type
Completion Requirement

Required Courses, 43 credits

Complete ALL of the following Courses:

- FN 101 - Introduction to the Professions of Dietetics and Nutrition - 1 Credits
- FN 151 - Contemporary Nutrition - 2 Credits
- FN 206 - Introductory Foods - 3 Credits
- FN 346 - Advanced Foods - 3 Credits
- FN 347 - Introduction to Food Service - 4 Credits
- FN 354 - Introduction to Nutrition and Nutrient Metabolism - 3 Credits
- FN 357 - Ecology of Foods - 3 Credits
- FN 373 - Nutrition through the Life Span - 3 Credits
- FN 393 - Educational Techniques and Research in Food and Nutrition - 3 Credits
- FN 400 - Professional Issues in Dietetics - 2 Credits
- FN 449 - Practicum in Food Service Management - 2 Credits
- FN 454 - Medical Nutrition Therapy I - 3 Credits
- FN 655 - Medical Nutrition Therapy II - 4 Credits
- FN 656 - Advanced Community Nutrition and Food Systems - 4 Credits
- HD 265 - Human Growth and Development: A Life-Span Approach - 3 Credits
  OR PSYC 260 - Introduction to Developmental Psychology - 3 Credits

FN 656 should be taken in semester 8 of your bachelor's

Required Collateral Courses, 41-42 credits

Complete ALL of the following Courses:

- BIOL 101 - General Biology - 5 Credits
- BIOL 333 - General Microbiology - 4 Credits
- BIOL 385 - Human Physiology - 4 Credits
- BIOL 387 - Human Anatomy - 4 Credits
- CHEM 105 - Fundamental Chemistry - 5 Credits

- CHEM 106 - Fundamental Chemistry - 5 Credits
- CHEM 221 - Survey of Organic Chemistry Lecture - 3 Credits
- CHEM 222 - Survey of Organic Chemistry Lab - 1 Credits
- CHEM 260 - Elementary Biochemistry - 4 Credits
- MATH 255 - Elementary Statistical Methods - 4 Credits
  OR HSW 301 - Fundamentals of Biostatistics - 3 Credits
  OR PSYC 300 - Statistics for Psychologists - 4 Credits
  OR SOC 351 - Social Statistics - 4 Credits
- PSYC 110 - Introduction to Psychology - 3 Credits
  OR SOC 101 - Introduction to Sociology - 3 Credits

Additional Comments:

No Requirement Level

Standards

Admission Standards
Transfer students must have a 2.75 cumulative GPA to enter.

This is an option for early application into either one of the two graduate programs offered by the School of Health Sciences and Wellness:

- SUS-FD-MS or
- COL-MS

If you are completing semester 6 of your undergraduate program in dietetics, you can apply by April 1 of that year into the BS + MS (4+1 Track). You should discuss your suitability for the accelerated track with your academic adviser prior to submitting an application. Formal acceptance into the MS program requires completion of your BS.

Academic Standards
1. You must maintain a 2.75 GPA through graduation.

2. You must earn a B+ or better in FN 354 to continue in the dietetics major.

3. To be eligible for a verification statement, you must meet all ACEND competencies and earn a B- or better in all FN 400-level courses.

BS + MS (4+1 Track) Eligibility:

• To be considered for the 4 + 1 Track, you must have an undergraduate cumulative GPA of 3.0 or higher at the time of application.

• Completed application form (Application for accelerated BS-BA-MS FN programs) of intent that describes academic experience, interests for graduate study, and future plans following graduate school.

• If you are not accepted, you can continue with the 4-year dietetics plan.

About this Program

About this Program
When you complete an approved program in dietetics, you gain the foundation knowledge in the field of food and nutrition. Students who meet the minimum academic requirements to obtain a verification statement qualify for application to a dietetic internship program. When you complete an accredited dietetic internship and graduate degree, you are eligible to write the registration examination to become a registered dietitian.

Dietetics Major (BS)

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Nutrition in the School of Health Sciences and Wellness.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)
The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

To be a certified dietitian in the state of Wisconsin you must complete a bachelor's degree in dietetics, complete a master's degree and a dietetics internship experience, and pass the registered dietitian exam.

The requirements of the Bachelor's in Dietetics program meet the bachelor's degree requirement above, and combined with successful completion of the additional components listed above, may lead to certification/licensure in the following states:
Wisconsin

The requirements of this program do not meet certification/licensure requirements in the following states/territories or the following states/territories do not specifically license dietitians:
Alabama, Alaska, American Samoa, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Federated States of Micronesia, Florida, Georgia, Guam, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Northern Mariana Islands, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico, Republic of the Marshall Islands, Republic of Palau, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, U.S. Virgin Islands, Virginia, Washington, West Virginia, Wyoming;

Consists of major and collateral requirements totaling a minimum of 84-85 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 105, CHEM 106, and MATH 255.

Dance Major (BA)

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Dance in the School of Performing Arts.

Consists of a minimum of 48 credits.

Program Requirements
Type
Completion Requirement

Core, 22 credits

Fulfill ALL of the following requirements:

Dance, 6 credits

Complete ALL of the following Courses:
- DNCE 104 - Modern IB - 3 Credits
- DNCE 106 - Ballet IB - 3 Credits

AND

Ballet, 3 credits

Placement exam or consent of instructor required for entrance

Earn at least 3 credits from the following:
- DNCE 205 - Ballet IIA - 2-3 Credits
- DNCE 206 - Ballet IIB - 2-3 Credits
- DNCE 305 - Ballet IIIA - 2-3 Credits
- DNCE 306 - Ballet IIIB - 2-3 Credits

AND

Jazz, 6 credits

Earn at least 6 credits from the following:
- DNCE 214 - Jazz II - 2-3 Credits
- DNCE 314 - Jazz III - 2-3 Credits

DNCE 214 and DNCE 314 should be taken for 3 credits each

AND

Tap and Theatre Dance, 7 credits

Earn at least 7 credits from the following:
- DNCE 115 - Tap I - 2 Credits
- DNCE 212 - Theatre Dance - 2 Credits
- DNCE 215 - Tap II - 2-3 Credits

DNCE 215 should be taken for 3 credits

Note: We recommend that if you are interested in continuing your dance technique studies, you should take two core classes per semester and participate in summer dance workshops.

Theory, 10 credits

Complete ALL of the following Courses:
- DNCE 220 - Movement Analysis and Theory - 3 Credits
- DNCE 328 - Career Seminar - 1 Credits
- DNCE 352 - Dance History - 3 Credits
- DNCE 420 - Teaching Theories and Practices - 3 Credits

Performance and Choreography, 9 credits

Complete ALL of the following Courses:
- DNCE 301 - Composition I - 3 Credits
- DNCE 302 - Composition II - 3 Credits
- DNCE 496 - Interdisciplinary Seminar - 3 Credits

Design/Management, 3 credits

Complete ANY of the following Courses:
- THEA 242 - Lighting Design I - 3 Credits
- THEA 243 - Costume Design I - 3 Credits
- THEA 244 - Makeup Design - 3 Credits
- THEA 346 - Stage Management - 3 Credits
- THEA 349 - Theatrical Sound Design - 3 Credits

Electives, 4 credits

Earn at least 4 credits from the following:
- DNCE 203 - Modern IIA - 2-3 Credits
- DNCE 303 - Modern IIIA - 2-3 Credits
- DNCE 304 - Modern IIIB - 2-3 Credits

Practicum

Complete Practicum

Required Dance Practicum

For Dance Majors: Register for a practicum each of your first six semesters as a major. Practicum areas are scene shop, costume shop, deck run crew, costume run crew, house/public relations, design, directing/choreography/management, and performance. You may repeat an area after you have completed 6 different activities.

For Majors and Minors:

1. Practicum areas are scene shop, costume shop, deck run crew, costume run crew, house/public relations, design, directing/choreography/management, media marketing, and performance.

2. Students assigned to work in one of the technical shops must complete 40 hours of work.
3. All other assignments must attend/work all scheduled meetings, calls, rehearsals, and performances as appropriate.
4. Credit for practicum includes DNCE 426 or THEA 426 as appropriate.
5. Dance majors and minors must explore different areas of Practicum each time they enroll.
6. If you do not register for a practicum or do not complete the activity satisfactorily, you are placed on department probation and must make up the missed work in the next semester. If you must make up missed work, you must also register for a practicum for the current semester. If the work is not made up, you will be dropped from the major or minor.
7. Normally a practicum may only count in the current semester. If a production occurs unusually late in a semester, the practicum for that production may count for the following semester.

World Language Courses, 0-8 credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

Additional Comments:

No Requirement Level

Standards

Admission Standards
Admission to all Theatre and Dance programs is by **audition/interview only.**

Academic Standards
To be retained as a major or minor in any of the theatre arts options and to be approved for graduation, you must earn a minimum grade point average of 2.75 in all courses taken within the major or minor each semester, including transfer courses, regardless of any declaration of academic forgiveness. You may repeat a course in the major or minor if you follow the course repeat policy found in the Grade-related Policies section of this catalog.

Admission, scholarship, retention requirements

1. To be accepted to the dance program, you must first be eligible for admission to UW-Stevens Point. Then, to be eligible for admission to UW-Stevens Point's dance program as a major or minor, you must successfully complete an on-campus performance audition and interview. Detailed program and audition information, including audition dates and protocol, application forms and scholarship information is available on our website at www.uwsp.edu/theatre-dance/Pages/Students/apply.aspx.

2. The dance program awards scholarships to incoming dance majors based on ability and potential in dance. A variety of scholarships are awarded annually to continuing students.

3. To continue as a major or minor, you must meet the dance program's retention criteria and successfully complete scheduled mid-semester assessments in your technique courses.

About this Program

Coordinator Contact Information
Michael Estanich, Dance Program Coordinator
Office: Room 140, Noel Fine Arts Center
Phone: 715-346-2500
Email: dance@uwsp.edu
Web: www.uwsp.edu/theatre-dance/Pages/Major/Dance.aspx

About this Program
UW-Stevens Point's dance program aspires to create a dynamic culture in which you are inspired to achieve full physical expression, technical and stylistic range, and anatomical efficiency. We are dedicated to artistic experimentation and contemporary inquiry that is culturally relevant and historically grounded, preparing you to communicate, contribute and lead as global citizen artists.

The dance program is accredited by the National Association of Schools of Dance. Our curriculum features ballet, modern, jazz, tap, and theatre dance technique classes, dance composition, history, movement analysis and dance education courses. Dance majors complete 48-56 credits including the senior-level capstone Interdisciplinary Seminar, a course that features camera dance, digital video editing, and web design and integrates dance with other academic disciplines and art forms. Dance minors complete 27 credits.

After completing the core requirements, you may take selected performance classes for either two or three credits. We encourage you to pursue an additional major or minor in another field.

The dance faculty works with you to re-evaluate technique and explore new approaches to training at a high level. This re-evaluation includes training with optimal anatomical alignment that supports injury-free dancing.

We recommend that you be accepted to UW-Stevens Point prior to your dance program audition date. There are a few seats available each semester for non-dance majors and minors in introductory level classes. Upper-level dance courses are not available to non-majors and minors. All dance majors and minors participate in required practicum assignments.

In order to be accepted into the dance major or minor, you are required to complete an on-campus audition and interview.

As part of the audition, you are required to perform a one-minute solo that highlights your performance skills. You or someone else may choreograph this solo. You should provide any sound accompaniment. The solo may be excerpted, and the music cut from an existing longer work, or you may prepare a solo that is intended as a one-minute dance. Please prepare to stay within the one-minute time limit.

Two required letters of recommendation should address your ability to be successful in a university-level dance program. One letter should be written by an academic teacher able to detail your ability to be successful in your academic coursework, and the second letter should be written by a primary dance teacher able to comment on your ability and potential in dance.

If you wish to be accepted into the dance major program, you are required to have proficiency in two of these four areas: ballet, jazz, modern, and tap. For the minor program, proficiency in one of these areas is required.

As a student in our program, you will develop the ability to work as a part of an ensemble, the ability to work openly and honestly with other dancers, and the ability to be flexible in the artistic process with choreographers, directors, rehearsal assistants and peers. Therefore, we do begin all our new students in our 100-level major technique courses.

NOTE: We recommend that dance majors complete two core classes per semester and encourage participation in summer dance workshops that enhance performance training and expand your professional network.

Learning Outcomes

Program Learning Outcomes (UWSP)
As a student graduating with a major in Dance from the University of Wisconsin-Stevens Point, you will be able to:

1. Demonstrate, explore, and embody full physical expression

2. Achieve anatomical efficiency and employ optimal anatomical alignment to support injury-free dancing

3. Explore and experiment within artistic processes in order to develop a personal approach to dance making

4. Cultivate contemporary inquiry that is culturally relevant and historically grounded:

a. recognize important people, artistic works, and ideas that have contribute(d) to the historical, current, and cultural perspectives of dance

b. discuss and employ current theoretical approaches to contemporary thinking in dance

c. articulate an individual point of view about trends and perspectives in the global dance field

d. interpret, analyze, and critically appraise a variety of artistic work within a historical/cultural context

5. Communicate, contribute and lead as a global citizen artist

Dance Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the area of Dance in the School of Performing Arts.

Consists of 27 credits.

Program Requirements
Type
Completion Requirement

Theoretical Studies, 6 credits

Complete ALL of the following Courses:

- DNCE 220 - Movement Analysis and Theory - 3 Credits
- DNCE 352 - Dance History - 3 Credits

Performance and Choreography, 13 credits

Complete ALL of the following Courses:

- DNCE 104 - Modern IB - 3 Credits
- DNCE 106 - Ballet IB - 3 Credits
- DNCE 115 - Tap I - 2 Credits
- DNCE 212 - Theatre Dance - 2 Credits
- DNCE 301 - Composition I - 3 Credits

Electives, 8 credits

Earn at least 8 credits from the following:

- DNCE 203 - Modern IIA - 2-3 Credits
- DNCE 205 - Ballet IIA - 2-3 Credits
- DNCE 206 - Ballet IIB - 2-3 Credits
- DNCE 214 - Jazz II - 2-3 Credits
- DNCE 215 - Tap II - 2-3 Credits
- DNCE 303 - Modern IIIA - 2-3 Credits
- DNCE 304 - Modern IIIB - 2-3 Credits
- DNCE 305 - Ballet IIIA - 2-3 Credits
- DNCE 306 - Ballet IIIB - 2-3 Credits
- DNCE 314 - Jazz III - 2-3 Credits
- DNCE 420 - Teaching Theories and Practices - 3 Credits

Practicum

Complete Practicum

Required Dance Practicum

For Dance Minors: Register for a practicum one semester of each of your first three years as a minor.

For Majors and Minors:

1. Practicum areas are scene shop, costume shop, deck run crew, costume run crew, house/public relations, design, directing/choreography/management, media marketing, and performance.
2. Students assigned to work in one of the technical shops must complete 40 hours of work.
3. All other assignments must attend/work all scheduled meetings, calls, rehearsals, and performances as appropriate.
4. Credit for practicum includes DNCE 426 or THEA 426 as appropriate.
5. Dance majors and minors must explore different areas of Practicum each time they enroll.
6. If you do not register for a practicum or do not complete the activity satisfactorily, you are placed on department probation and must make up the missed work in the next semester. If you must make up missed work, you must also register for a practicum for the current semester. If the work is not made up, you will be dropped from the major or minor.
7. Normally a practicum may only count in the current semester. If a production occurs unusually late in a semester, the practicum for that production may count for the following semester.

Additional Comments:

No Requirement Level

Standards

Admission Standards
Admission to all Theatre and Dance programs is by **audition/interview only.**

Academic Standards
To be retained as a major or minor in any of the theatre arts options and to be approved for graduation, you must earn a minimum grade point average of 2.75 in all courses taken within the major or minor each semester, including transfer courses, regardless of any declaration of academic forgiveness. You may repeat a course in the major or minor if you follow the course repeat policy found in the Grade-related Policies section of this catalog.

Admission, scholarship, retention requirements

1. To be accepted to the dance program, you must first be eligible for admission to UW-Stevens Point. Then, to be eligible for admission to UW-Stevens Point's dance program as a major or minor, you must successfully complete an on-campus performance audition and interview. Detailed program and audition information, including audition dates and protocol, application forms and scholarship information is available on our website at www.uwsp.edu/theatre-dance/Pages/Students/apply.aspx.

2. The dance program awards scholarships to incoming dance majors based on ability and potential in dance. A variety of scholarships are awarded annually to continuing students.

3. To continue as a major or minor, you must meet the dance program's retention criteria and successfully complete scheduled mid-semester assessments in your technique courses.

About this Program

Coordinator Contact Information
Michael Estanich, Dance Program Coordinator

Email: dance@uwsp.edu
Web: www.uwsp.edu/theatre-dance/Pages/Major/Dance.aspx

About this Program
UW-Stevens Point's dance program aspires to create a dynamic culture in which you are inspired to achieve full physical expression, technical and stylistic range, and anatomical efficiency. We are dedicated to artistic experimentation and contemporary inquiry that is culturally relevant and historically grounded, preparing you to communicate, contribute and lead as global citizen artists.

The dance program is accredited by the National Association of Schools of Dance. Our curriculum features ballet, modern, jazz, tap, and theatre dance technique classes, dance composition, history, movement analysis and dance education courses. Dance majors complete 48-56 credits including the senior-level capstone Interdisciplinary Seminar, a course that features camera dance, digital video editing, and web design and integrates dance with other academic disciplines and art forms. Dance minors complete 27 credits.

After completing the core requirements, you may take selected performance classes for either two or three credits. We encourage you to pursue an additional major or minor in another field.

The dance faculty works with you to re-evaluate technique and explore new approaches to training at a high level. This re-evaluation includes training with optimal anatomical alignment that supports injury-free dancing.

We recommend that you be accepted to UW-Stevens Point prior to your dance program audition date. There are a few seats available each semester for non-dance majors and minors in introductory level classes. Upper-level dance courses are not available to non-majors and minors. All dance majors and minors participate in required practicum assignments.

In order to be accepted into the dance major or minor, you are required to complete an on-campus audition and interview.

As part of the audition, you are required to perform a one-minute solo that highlights your performance skills. You or someone else may choreograph this solo. You should provide any sound accompaniment. The solo may be excerpted, and the music cut from an existing longer work, or you may prepare a solo that is intended as a one-minute dance. Please prepare to stay within the one-minute time limit.

Two required letters of recommendation should address your ability to be successful in a university-level dance program. One letter should be written by an academic teacher able to detail your ability to be successful in your academic coursework, and the second letter should be written by a primary dance teacher able to comment on your ability and potential in dance.

If you wish to be accepted into the dance major program, you are required to have proficiency in two of these four areas: ballet, jazz, modern, and tap. For the minor program, proficiency in one of these areas is required.

As a student in our program, you will develop the ability to work as a part of an ensemble, the ability to work openly and honestly with other dancers, and the ability to be flexible in the artistic process with choreographers, directors, rehearsal assistants and peers. Therefore, we do begin all our new students in our 100-level major technique courses.

NOTE: We recommend that dance majors complete two core classes per semester and encourage participation in summer dance workshops that enhance performance training and expand your professional network.

Early Childhood Education Major (BS)

Requirements

Simple Requisites

Curriculum
This major is administered through the area of Education in the School of Education. Additional policies for this major are available at this link.

Teaching License for Early Childhood Regular Education (birth-3rd grade)

After you have completed 24 credits, apply for admission to the Professional Education Program. For a list of the admission criteria, see this section.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)
The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

This program meets the certification/licensure requirements in the following states/territories:
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Mexico, New York, North Carolina, North Dakota, Northern Mariana Islands, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming;

This program does not meet the certification/licensure requirements in the following states/territories:
American Samoa, Federated States of Micronesia, Guam, New Jersey, Puerto Rico, Republic of Palau, Republic of the Marshall Islands, U.S. Virgin Islands;

Note: If you live in a state or territory that does not meet certification/licensure requirements, you may contact the School of Education for more information.

Consists of a minimum of 92 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: MATH 228 and CHEM 100.

Program Requirements
Type
Completion Requirement

Required, 77-78 credits

Complete ALL of the following Courses:

- CSD 266 - Language Development - 3 Credits
- ECED 262 - Infant and Toddler Education - 3 Credits
- ECED 301 - Kindergarten Methods - 3 Credits
- ECED 368 - Creative Integrated Curriculum and Methods for Young Children - 3 Credits
- ECED 372 - Integrating Literature into the Early Childhood Curriculum - 1 Credits
- ECED 460 - Programs and Partnerships for Young Children - 3 Credits
- EDUC 205 - Pluralism for Educators - 2 Credits
- EDUC 300 - Seminar for Professional Educators II - 1 Credits
- EDUC 302 - Methods and Materials for Teaching Reading I - 3 Credits
- EDUC 309 - Methods and Materials for Teaching Reading II - 3 Credits
- EDUC 310 - Methods and Materials for Teaching Language Arts - 3 Credits
- EDUC 323 - Techniques in Elementary School Math - 3 Credits
- EDUC 324 - Techniques in Elementary School: Social Studies - 3 Credits
- EDUC 325 - Techniques in Elementary School: Science - 3 Credits
- EDUC 331 - Educational Technology - 3 Credits
- EDUC 351 - Educating Students with Special or Other Needs in the General Education Environment - 3 Credits
- EDUC 381 - Educational Psychology - 2 Credits
- EDUC 382 - Managing Learning Environments - 1 Credits
- EDUC 383 - Educational Assessment - 3 Credits
- EDUC 398 - Student Teaching - 1-16 Credits
- EDUC 400 - Student Teaching Seminar - 1-2 Credits
- MATH 228 - Fundamental Mathematical Concepts for Elementary Teachers I - 3 Credits
- MATH 338 - Fundamental Mathematical Concepts for Elementary Teachers II - 3 Credits
- NRES 370 - Introduction to Environmental Study and Environmental Education - 3 Credits
- PHED 250 - Health and Physical Education Concepts for the Elementary Teacher - 3 Credits

EDUC 398 should be taken for 15-16 credits

EDUC 400 should be taken for 1 credit

Required Collateral Courses, 15 credits

Fulfill ALL of the following requirements:

Psychology, 6 credits

Complete ALL of the following Courses:

- PSYC 110 - Introduction to Psychology - 3 Credits
- PSYC 260 - Introduction to Developmental Psychology - 3 Credits
  OR HD 265 - Human Growth and Development: A Life-Span Approach - 3 Credits
  OR HD 361 - Development and Guidance of Children - 3 Credits

AND

English, 3 credits

Complete ANY of the following Courses:

- ENGL 106 - Reading Fiction - 3 Credits
- ENGL 108 - Reading Drama - 3 Credits
- ENGL 200 - Introduction to the Study of Literature - 3 Credits
- ENGL 211 - English Literature I - 3 Credits
- ENGL 212 - English Literature II - 3 Credits
- ENGL 213 - American Literature I - 3 Credits
- ENGL 214 - American Literature II - 3 Credits
- ENGL 280 - American Indian Literature - 3 Credits
- ENGL 282 - Black Literature - 3 Credits
- ENGL 283 - Mythology in Literature - 3 Credits
- ENGL 285 - Women in Literature - 3 Credits
- ENGL 287 - Gay and Lesbian Literature - 3 Credits

- ENGL 288 - The Literature of Human Love and Sexuality - 3 Credits
- ENGL 289 - Popular Literature - 3 Credits

AND

Life Science, 3 credits

Complete ALL of the following Courses:

- BIOL 100 - Biological Principles and the Human Environment - 3 Credits

AND

Physical Science, 3 credits

Complete ANY of the following Courses:

- ASTR 100 - Unveiling the Universe - 3 Credits
- CHEM 100 - Chemistry for the Citizen - 3 Credits
- GEOG 105 - The Dynamic Earth - 3 Credits

No Requirement Level

Standards

Admission Standards
The UWSP doctoral program in Educational Sustainability demands a high level of intellectual engagement, self-management, professionalism, and effective communication in person, in writing, and online. Our program philosophy includes sustaining natural and human systems, engaging with communities, practicing servant leadership, and educating for pluralism. We request several kinds of evidence to demonstrate your fit with our program and your readiness to succeed.

Academic Standards
Minimum GPA requirement for this program is 3.00.

Required:

• Application and Fee

• Master's degree

• Minimum graduate GPA of 3.0 or higher

• Official Transcript(s) from all post-secondary institutions from degreed programs

• Letter of Intent (see website for specific content to address)

• Curriculum Vitae or Resume

• Name, phone, and email address of three professional references

• Interview

Optional Supporting Documentation:

• GRE Scores*

• Statement of relevant/equivalent work experience(s)

• Professional work sample(s) (e.g. peer reviewed articles, conference program and/or presentation, professional/community/ organizational leadership)

*The School of Education recognizes standardized tests as one way for individuals to demonstrate their abilities. We also recognize some limits of any standardized test: a test may not measure some abilities, and particular individuals may have difficulty demonstrating their abilities via a test. When we indicate that a standardized test is optional, we neither want to encourage nor discourage submitting a score. Rather, we encourage each individual to provide what you believe is meaningful evidence of your abilities.

To apply to the program:

Admissions is a multi-step process:

1. Apply to the EdD in Educational Sustainability at UW-Stevens Point. This is completed through the UW System website, but all application materials requested through the UW System are forwarded to the UWSP Office of Admissions and Recruitment, and then forwarded to the School of Education Office of Graduate Studies and Professional Development. Once your completed application (including all official post-secondary transcripts) is received by our Office of Admissions and Recruitment, you will receive notice from the director of the Office of Admissions and Recruitment stating your application has been received and will be forwarded to the School of Education. Notification of acceptance into the doctoral program is through the School of Education.

2. All official post-secondary transcripts are required. These are sent directly to the Office of Admissions and Recruitment after you have completed the application. The GRE is not required for admissions, but if you have it and want to submit it with your application you may do so.

3. Send the following information to the School of Education Graduate Office:

4. Please complete a letter of intent to the program in response to the following questions:

• **Admission Assignment:** In a 1200-1500 word letter of intent, please address the following questions:

1. Explain your interest related to informal or formal systems of teaching and learning and how is sustainability related to this?

2. Explain one of the many challenges we face in the world related to sustainability; what prior knowledge, skills or dispositions will you bring to the program to share this challenge through your disciplinary background; and what new areas of study do foresee yourself learning, researching or acting on in this degree program to address this challenge?

3. Describe how you envision school-work-life in a program that requires attention to both individual and collaborative, active participation? Especially connect this to your strategy related to time-management, technology skills, engagement with the instructor as well as peer support in a cohort-based online learning environment.

4. Submit a current resume or curriculum vita (CV).

5. Submit name, phone, and e-mail address of THREE references who can speak to your capabilities as a doctoral student.

6. Any optional supporting documentation you would like to submit including GRE scores, statement of relevant/equivalent work experience, professional work samples.

About this Program
The Doctorate in Educational Sustainability (EdD) at the University of Wisconsin-Stevens Point program is designed for working professionals from interdisciplinary fields in sustainability. The program will prepare graduates to be educators and leaders who hold a passion for transforming systems of teaching and learning. The curriculum is intended to provide students the opportunity to actively engage in coursework, research, and professional practice in the field of sustainability.

Program Features

• 54-credits, three-year program

• Online with limited residency requirement

• Cohort-based learning environment

• Global affiliate scholar program

Curriculum Design

The curriculum is designed around six core principles:

1. Transformative Learning

2. Systems Thinking

3. Futures Thinking

4. Ecological Thought

5. Ethical Action

6. Diversity and Social Justice

Residency Requirement and Expectations

The EdD in Educational Sustainability is a low-residency (4-5 days), cohort-based learning program. Residency is required for each year you are enrolled in the program. Our accreditation is approved with these residencies; therefore, it is mandatory per accreditation guidelines that students meet these requirements.

Residency Learning Objectives

The overarching objectives of the residency:

1. To meet and receive assistance and guidance from faculty and staff

2. Build a cohort community of practice

3. Build cross-cohort communities of practice

4. Network with affiliate scholars and practitioners

5. Participate in various keynote and guest presentations

6. practice professionalism and scholarship

Residency Learning Outcomes

1. Learn about interdisciplinary educational sustainability

2. Subject matter knowledge related to upcoming course work

3. Gain an appreciation for diverse perspectives related to educational sustainability

4. Learn about the doctoral process at various stages of study from other cohorts

Program Enrollment

A new cohort for the EdD in Educational Sustainability is enrolled and launched each summer. Applications for summer cohorts are accepted beginning August 1 of each admissions year. Priority review of applications begins the second week in January of the cohort launch year. Applications received after that date will be reviewed if there are enrollment openings in the current cohort by April 15 of the cohort launch year, with applications accepted until the cohort is full. If you apply to the program following this deadline, your application will be placed into the subsequent cohort year for consideration.

Graduation (graduation credit check)

You may apply to graduate the semester before you expect to defend your dissertation through the Office of the Registrar. Prior to applying to graduate, you are required to complete and have approved study plan completion forms and credit check by the School of Education Office of Graduate Studies and Professional Development.

Note: There is no ceremony in August; however, you may request to participate in the May or the December ceremony.

13.9999

Learning Outcomes

Program Learning Outcomes (UWSP)
Program Learning Outcomes

Upon completion of the Doctorate in Educational Sustainability degree, you will be able to:

1. Articulately position your research within the context of the philosophical and theoretical underpinnings of educational sustainability.
2. Integrate content knowledge and research skills into designing research questions that address a real-world sustainability problem.
3. Critically synthesize literature and research from multiple sources, including primary scientific literature, place-based knowledge, and culturally sensitive/relevant knowledge.
4. Clearly present your research findings to your peers, experts, and your broader target audience

Education - General (MSE)

Requirements

Simple Requisites

Curriculum
This program is administered by the area of Education in the School of Education Office of Graduate Studies & Professional Development.

Program Requirements
Type
Completion Requirement

Program of Study

Develop an approved program of study in conjunction with your assigned graduate adviser and submit to the SOE Office of Graduate and Innovative Programs

Graduate Courses, 30 Ccredits

Earn 30 credits in Graduate Courses
Fifteen of these credits must be at the 700 level

Core courses, 12 credits

Earn at least 12 credits from the following:

- ECED 701 - Kindergarten Teaching Methods - 3 Credits
- EDUC 701 - Philosophical Foundations of Education - 3 Credits
- EDUC 702 - Advanced Educational Psychology: Theory into Practice - 3 Credits
- EDUC 704 - Strategies for Discipline and Classroom Management - 3 Credits
- EDUC 708 - Social and Cultural Foundations of Education - 3 Credits
- EDUC 709 - Differentiated Instruction - 3 Credits
- EDUC 710 - Social and Culturally Responsive Practices - 3 Credits
- EDUC 713 - Essential Skills for Special Educators - 3 Credits
- EDUC 715 - Application and Analysis of Reading Instruction - 3 Credits
- EDUC 718 - Core Components of Teaching Reading - 3 Credits
- EDUC 719 - Mind, Brain, and Education Science - 3 Credits
- EDUC 720 - Resilience and Self-Care - 3 Credits
- EDUC 722 - Administration and Curriculum Development for Educators and Administrators - 3 Credits
- EDUC 725 - Adverse Childhood Experiences and Child Development - 3 Credits
- EDUC 726 - Models of Teaching and Learning - 3 Credits
- EDUC 730 - The Resilient Teacher - 3 Credits
- EDUC 733 - Methods in Elementary and Middle Level Science and Environmental Education - 3 Credits
- EDUC 734 - Methods in Elementary and Middle Level Social Studies - 2 Credits
- EDUC 741 - Improvement in Reading - 3 Credits
- EDUC 743 - Creating Strategic Readers Across All Contents - 3 Credits
- EDUC 749 - Strengthening Professional Practice - 3 Credits
- EDUC 750 - Guiding and Directing Reading Programs - 3 Credits
- EDUC 755 - Foundations of Special Education - 3 Credits
- EDUC 764 - Special Education Core Content Areas Instructional Planning and Strategies - 3 Credits
- EDUC 766 - Methods in Elementary and Middle Level Math - 4 Credits
- EDUC 769 - Special Education Functional and Content Areas Instructional Planning and Strategies - 3 Credits
- EDUC 776 - Assessment and Professional Issues in Teaching - 2 Credits
- EDUC 777 - Methods in Elementary and Middle Level Language Arts and Literature - 3 Credits
- EDUC 788 - Methods in Middle Level Theory and Practice - 2 Credits
- EDUC 790 - Analysis and Improvement of Educational Programs - 1-3 Credits
- EDUC 791 - Foundations of Gifted and Talented Education - 3 Credits
- EDUC 792 - Curriculum Methods for Teaching Students with Gifts and Talents - 3 Credits
- FCS 791 - Curriculum in Family and Consumer Sciences - 3 Credits
- FCS 793 - Development and Guidance of Children and Adolescents - 3 Credits
- HLED 701 - Curriculum and Resources in Teaching Comprehensive School Health Education - 3 Credits
- HLED 703 - Teaching Methods in Health Education - 3 Credits
- PHED 701 - Methods in Elementary and Middle Level Health and Physical Education - 2 Credits

EDUC 790 should be taken for 3 credits with the following topics only: *Pluralism, Issues and Trends in Education*; *Teaching with Integrity, Engagement, Excellence, and Equity*.

Research, 3 credits

Complete ANY of the following Courses:

- EDUC 707 - Educational Research - 3 Credits
- EDUC 751 - Reading Research - 3 Credits

Note: EDUC 751 is only available for Reading 317 Licensure.

Electives, 15 credits

Complete Electives
Any graduate-level course

Thesis or Comprehensive Portfolio, 0-6 Elective credits

Complete a thesis or comprehensive portfolio prior to applying for graduation
(These credits may count towards the 15-Credit Elective requirement above)

- **Thesis Option**: The thesis can be qualitative or quantitative research. It requires an oral proposal with your lead thesis adviser, a written thesis, and an oral final defense. You may repeat enrollment in EDUC 799 (*Thesis*) each semester in which you are involved in your thesis, until the 6-credit requirement is completed.
- **Comprehensive Portfolio Option**: If you elect to not complete a thesis, you will be required to complete a comprehensive portfolio developed throughout the program. You will be provided with portfolio guidelines.

Additional Comments:

No Requirement Level

Standards

Admission Standards

• Submit an application to the School of Education to pursue graduate study at UW-Stevens Point. Once accepted by the School of Education, you will apply to the Office of Admissions and Recruitment and pay admission fee: Web: www.uwsp.edu/admissions/Pages/default.aspx.

o We recommend that you apply no later than mid-semester of the semester before you want to be admitted.

• Submit official transcripts for all undergraduate and graduate courses not taken at UW-Stevens Point.

• Send a copy of your teaching license to SOE Office of Graduate Studies & Professional Development, if Pursuing an additional teacher certification.

Academic Standards

Minimum GPA requirement for this program is 3.00.

• Have an undergraduate grade point average of 3.00 or higher. If your GPA is less, you may be admitted on probation, but will then need to establish a minimum 3.00 GPA on your first 9 resident graduate credits at UW-Stevens Point to be fully admitted.

• Admission to the MSE-General must occur prior to the completion of 9 graduate credits.

Following admission to the MSE-General, you will be assigned a faculty adviser and develop a program of study that suits your educational goals.

About this Program
The Master of Science in Education is for individuals with a bachelor's degree who wish to broaden their skills and abilities in education. The degree requires a minimum of 30 credits. You must select 12 credits from an array of core courses. Three credits must be a research course. The remaining 15 credits can consist of a specialization or electives for a personally designed program. The specialization options include early childhood education, family and consumer science, health education, reading, or special education.

You can complete teacher licensure in those areas concurrently within the program, with additional requirements as determined by the Department of Public Instruction.

Learning Outcomes

Program Learning Outcomes (UWSP)
Upon completion of the M.S. degree in Education, you will demonstrate:

1. The application of graduate-level knowledge in core and research areas, as well as in the chosen emphasis area or, if seeking a general Master's degree with no emphasis area, electives.

2. The ability to integrate content knowledge into curricular, instructional, and assessment strategies for students at different educational levels or in the Master's student applicable professional area.

3. The ability to formulate, implement, and sustain evidence-based practices in an educational or professional environment.

Environmental Education and Interpretation Major (BS)

Requirements

Simple Requisites

Curriculum
This major is administered by the Environment and Society Discipline.

Consists of a minimum of 88 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 100, CHEM 101, and CHEM 105.

Program Requirements
Type
Completion Requirement

Foundational Core, 30-31 credits

Fulfill ALL of the following requirements:

Natural Resources courses, 20 credits

Complete ALL of the following Courses:

- NRES 150 - People, Resources and the Biosphere - 3 Credits
- NRES 151 - Ecological Basis for Natural Resource Management - 3 Credits
- NRES 250 - Introduction to Fisheries, Forestry and Wildlife Resources - 4 Credits
- NRES 251 - Introduction to Soil and Water Resources - 4 Credits
- NRES 383 - Organizational Leadership - 3 Credits
  OR NRES 386 - Conservation Law Enforcement Leadership and Management - 3 Credits
- NRES 389 - Methods in Social Science - 3 Credits

AND

Geography, 3 credits

Complete ANY of the following Courses:

- GEOG 100 - Human Impacts on the Physical Environment - 3 Credits
- GEOG 105 - The Dynamic Earth - 3 Credits

AND

Summer Field Experience, 7-8 Credits

Choose one:

Fulfill ANY of the following requirements:

Summer Field Experience, 7 credits

Complete ALL of the following Courses:

- FOR 319 - Land Surveying - 1 Credits
- FOR 320 - Field Experience in Forest Measurements - 1 Credits
- NRES 405 - Selected Topics in Natural Resources - 1-3 Credits
- SOIL 359 - Soil Conservation and Watershed Inventory Techniques - 1 Credits
- SOIL 360 - Field Experience in Soil Inventory Methods - 1 Credits
- WATR 380 - Field Experience in Aquatic Ecosystem Evaluation - 1 Credits
- WLDL 340 - Field Experience in Wildlife Management Techniques - 1 Credits

OR

International Summer Field Experience, 8 credits

Earn at least 8 credits from the following:

- NRES 475 - International Field Experiences in Natural Resources Management - 1-8 Credits

Foundational Science Courses, 8-15 credits

Fulfill ALL of the following requirements:

Biology, 5-10 credits

Fulfill ANY of the following requirements:

Biology Option 1, 5 credits

Complete ALL of the following Courses:

- BIOL 101 - General Biology - 5 Credits

OR

Biology Option 2, 10 credits

Complete ALL of the following Courses:

- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits

AND

Required, 3-5 credits

Complete ANY of the following Courses:

- CHEM 100 - Chemistry for the Citizen - 3 Credits
- CHEM 101 - Basic Chemistry - 5 Credits
- CHEM 105 - Fundamental Chemistry - 5 Credits
- PHYS 100 - Prudently Powering Our Planet - 3 Credits
- PHYS 101 - General Physics - 5 Credits

Environmental Education and Interpretation Courses, 16 cedits

Complete ALL of the following Courses:

- NRES 200 - Introduction to Sustainable Communities - 3 Credits
  OR NRES 281 - Introduction to Recreation and Parks - 3 Credits
- NRES 301 - Foundations of Environmental Education I - 3 Credits
- NRES 368 - Oral Interpretation Methods - 3 Credits
- NRES 369 - Interpretive Media - 4 Credits
- NRES 478 - Environmental Issues Investigation and Action - 3 Credits

Advanced Biology and Ecology, 6-8 credits

Fulfill ALL of the following requirements:

Flora, 3-4 credits

Earn at least 3 credits from the following:

- BIOL 335 - Mycology - 4 Credits
- BIOL 342 - Vascular Plant Taxonomy - 4 Credits
- BIOL 345 - Agrostology - 2 Credits
- BIOL 353 - Ethnobotany - 3 Credits
- BIOL 355 - Plant Ecology - 4 Credits
- FOR 232 - Dendrology and Silvics - 3 Credits
- WATR 347 - Aquatic Plant Taxonomy - 2 Credits

AND

Fauna, 3-4 credits

Earn at least 3 credits from the following:

- BIOL 361 - Aquatic Invertebrate Zoology - 3 Credits
  OR WATR 361 - Aquatic Invertebrate Zoology - 3 Credits
- BIOL 367 - General Entomology - 4 Credits
- BIOL 374 - Ichthyology - 4 Credits
- BIOL 376 - Herpetology - 3 Credits
- BIOL 377 - Ornithology - 3 Credits
- FOR 426 - Forest Entomology - 3 Credits
- WATR 384 - Life History of Fishes - 3 Credits
- WLDL 334 - Ungulate Ecology and Management - 3 Credits
- WLDL 361 - Waterfowl Ecology and Management - 3 Credits
- WLDL 378 - Mammalogy - 3 Credits

Additional Comments:

Tracks

Type
Completion Requirement

Complete one of the following tracks:

Complete at least 1 of the following:

Non-formal Education and Interpretation Track, 33-34 credits

Fulfill ALL of the following requirements:

Supplementary Courses, 12 credits

Complete ALL of the following Courses:

- COMM 101 - Fundamentals of Oral Communication - 3 Credits
  OR NRES 320 - Natural Resources Communication and Public Relations - 3 Credits
- FOR 335 - Recreational Use of Forests and Parks - 3 Credits
- NRES 302 - Foundations of Environmental Education II - 1 Credits
- NRES 305 - Inclusive Practices for Outdoor Professionals - 2 Credits
- PHIL 380 - Environmental Ethics - 3 Credits

AND

Professional Experience, 12-13 credits

Fulfill ALL of the following requirements:

Required Experiences, 8 credits

Complete ALL of the following Courses:

- NRES 374 - Environmental Interpretation Practicum - 3 Credits
- NRES 375 - Advanced Interpretive Media - 1 Credits
- NRES 376 - Environmental Education Practicum - 4 Credits

AND

Elective Experiences, 4-5 credits

Earn at least 4 credits from the following:

- NRES 379 - Advanced Environmental Education Practicum - 4 Credits
- NRES 381 - Internship in Natural Resources - 1-12 Credits
- NRES 390 - Nature Interpretation in Central Wisconsin - 1-3 Credits
  OR NRES 405 - Selected Topics in Natural Resources - 1-3 Credits
- WLDL 382 - Internship in Captive Wildlife - 1-12 Credits

NRES 381 can be taken for a maximum of 3 credits
NRES 390 can be taken for a maximum of 1 credit
NRES 405 can be taken for a maximum of 1 credit with the *Lake Superior Climate Change* topic only
WLDL 382 can be taken for a maximum of 3 credits

AND

Electives, 9 credits

Choose from the following (can include Flora and Fauna courses not taken for requirement above):

Earn at least 9 credits from the following:

- ASTR 311 - Introduction to Astronomy - 3 Credits
- BIOL 305 - General Ecology - 3 Credits
- BIOL 309 - Field Biology - 3-4 Credits
- BIOL 325 - Introduction to Biological Illustration - 2 Credits
- BIOL 380 - Introduction to Aquaponics - 3 Credits
- BIOL 477 - Raptor Ecology - 2 Credits
- ENGL 347 - Grant and Proposal Writing - 3 Credits
- FN 357 - Ecology of Foods - 3 Credits
- FOR 321 - Natural Resources Data Analysis - 4 Credits
- FOR 334 - Forest Recreation and Tourism - 3 Credits
- FOR 444 - Urban and Community Forestry - 3 Credits
- GEOL 104 - Physical Geology - 4 Credits
- HIST 380 - The Environmental Movement - 3 Credits
- HIST 390 - Museum Exhibits - 3 Credits
- INTL 381 - Culture and Civilization - 2-3 Credits
- NRES 323 - International Resource Management - 3 Credits

- NRES 324 - Invasive and Exotic Species - 3 Credits
  OR WATR 324 - Invasive and Exotic Species - 3 Credits
- NRES 372 - Resource Economics - 3 Credits
- NRES 381 - Internship in Natural Resources - 1-12 Credits
- NRES 394 - Targeted Conservation Through Advanced GIS - 3 Credits
- NRES 407 - Costa Rica Tropical Ecology - 3 Credits
- NRES 441 - Climate Change Implications, Policies, and Solutions - 3 Credits
- NRES 458 - Biodiversity and Conservation Biology - 3 Credits
  OR WLDL 458 - Wildlife Ecology and Conservation Biology - 3 Credits
- PHIL 381 - American Indian Environmental Philosophies - 3 Credits
- PSYC 321 - Environmental Psychology - 3 Credits
- SOIL 365 - Soil Quality Assessment and Soil Survey Interpretation - 3 Credits
- SOIL 486 - Composting - 1 Credits
  OR WSTE 486 - Composting - 1 Credits
- WATR 360 - Wetlands Ecology and Management - 3 Credits
  OR WLDL 360 - Wetlands Ecology and Management - 3 Credits
- WATR 391 - GIS Applications in Natural Resources - 3 Credits
- WLDL 321 - Principles of Captive Wildlife Management - 2 Credits
- WLDL 332 - Carnivore Ecology - 2 Credits
- WLDL 348 - Wildlife Damage Management - 3 Credits
- WLDL 365 - Behavioral Ecology - 3 Credits
- WLDL 372 - Wildlife of North America - 3 Credits

NRES 381 can be taken for a maximum of 3 credits

OR

Formal Education and Interpretation Track, 28 credits

If you choose to add a second major in Early Childhood Education, you have the opportunity to earn both degrees and a teaching license in five years. Completing both degrees in a timely manner requires developing a detailed graduation plan during your first year. Contact the School of Education for more information regarding admissions and requirements. Admission to the School of Education is a prerequisite for many of the electives in this track.

Fulfill ALL of the following requirements:

Supplementary Courses, 5 credits

Complete ALL of the following Courses:

- EDUC 205 - Pluralism for Educators - 2 Credits
- HD 265 - Human Growth and Development: A Life-Span Approach - 3 Credits

AND

Professional Experiences, 8 credits

Complete ALL of the following Courses:

- NRES 374 - Environmental Interpretation Practicum - 3 Credits
- NRES 375 - Advanced Interpretive Media - 1 Credits
- NRES 376 - Environmental Education Practicum - 4 Credits

AND

Electives, 15 credits

Complete ALL of the following Courses:

- ECED 262 - Infant and Toddler Education - 3 Credits
- ECED 368 - Creative Integrated Curriculum and Methods for Young Children - 3 Credits
- ECED 372 - Integrating Literature into the Early Childhood Curriculum - 1 Credits
- ECED 460 - Programs and Partnerships for Young Children - 3 Credits
- EDUC 302 - Methods and Materials for Teaching Reading I - 3 Credits
- EDUC 309 - Methods and Materials for Teaching Reading II - 3 Credits
- EDUC 310 - Methods and Materials for Teaching Language Arts - 3 Credits
- EDUC 323 - Techniques in Elementary School Math - 3 Credits
- EDUC 324 - Techniques in Elementary School: Social Studies - 3 Credits
- EDUC 325 - Techniques in Elementary School: Science - 3 Credits
- EDUC 331 - Educational Technology - 3 Credits
- EDUC 351 - Educating Students with Special or Other Needs in the General Education Environment - 3 Credits
- EDUC 381 - Educational Psychology - 2 Credits
- EDUC 382 - Managing Learning Environments - 1 Credits
- EDUC 383 - Educational Assessment - 3 Credits
- MATH 228 - Fundamental Mathematical Concepts for Elementary Teachers I - 3 Credits
- MATH 338 - Fundamental Mathematical Concepts for Elementary Teachers II - 3 Credits
- NRES 302 - Foundations of Environmental Education II - 1 Credits
- NRES 305 - Inclusive Practices for Outdoor Professionals - 2 Credits
- PHED 250 - Health and Physical Education Concepts for the Elementary Teacher - 3 Credits
- PHIL 380 - Environmental Ethics - 3 Credits

Teaching License Program for K-9 Regular Education

After you have completed 24 credits, apply for admission to the Professional Education Program. For a list of the admission criteria, see this section.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)
The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

This program meets the certification/licensure requirements in the following states/territories:
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Northern Mariana Islands, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming;

This program does not meet the certification/licensure requirements in the following states/territories:
American Samoa, Federated States of Micronesia, Guam, Puerto Rico, Republic of Palau, Republic of the Marshall Islands

Note: If you live in a state or territory that does not meet certification/licensure requirements, you may contact the School of Education for more information.

Consists of 93 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: MATH 228 and CHEM 100.

Program Requirements
Type
Completion Requirement

Required, 78 credits

Complete ALL of the following Courses:

- ECED 301 - Kindergarten Methods - 3 Credits
- EDUC 205 - Pluralism for Educators - 2 Credits
- EDUC 300 - Seminar for Professional Educators II - 1 Credits
- EDUC 302 - Methods and Materials for Teaching Reading I - 3 Credits
- EDUC 309 - Methods and Materials for Teaching Reading II - 3 Credits
- EDUC 310 - Methods and Materials for Teaching Language Arts - 3 Credits
- EDUC 322 - Techniques in Elementary School-Art - 2 Credits
- EDUC 323 - Techniques in Elementary School Math - 3 Credits
- EDUC 324 - Techniques in Elementary School: Social Studies - 3 Credits
- EDUC 325 - Techniques in Elementary School: Science - 3 Credits
- EDUC 331 - Educational Technology - 3 Credits
- EDUC 351 - Educating Students with Special or Other Needs in the General Education Environment - 3 Credits

Learning Outcomes

Program Learning Outcomes (UWSP)
Upon completion of the Elementary Education Program, you will be able to:

1. Demonstrate integration of professionalism using the School of Education Professional Education Program Teacher Candidate Disposition Rubric

2. Complete the Formative Assessment with narrative demonstrating proficiencies in assessment administration, alignment of educational standards to assessment, data collection, interpretation of data and evaluation and synthesis of data to inform future instruction and pedagogical approaches

3. Construct a comprehensive, integrated unit plan in science consisting of five or more lesson plans. You will use the School of Education Lesson Plan Template that demonstrates understanding of the planning and instructional methodologies developmentally appropriate, content and inquiry robust with measurable learning outcomes for the science topic selected. Areas of emphasis include: Enduring Understandings, Essential Questions, Content Standards, Learning Outcomes, Lesson Procedures and Assessment. A weighted scale rubric is used to evaluate successful completion of program learning outcomes (PLO)

4. Write a Language Arts lesson plan that shows your ability to identify a clear learning target aligned to standards, explicitly model learning target and gradually release responsibility of the task to students, differentiate for diverse learning needs, plan assessment to match the learning target

5. Plan and deliver a Social Studies Content Area Lesson to peers. Lesson planning and delivering should evidence the Understanding by Design planning process, content knowledge, differentiation strategies, and ability to manage learning environments

English as a Second Language Education Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the Department of World Languages and Literatures within the College of Letters and Science.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)
The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

The requirements of this program meet Certification/Licensure in the following states:
Wisconsin

The requirements of this program do not meet Certification/Licensure in the following states:
Not applicable

The requirements of this program have not been determined if they meet Certification/Licensure in the following states:
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wyoming; District of Columbia; American Samoa, Guam, Northern Mariana Islands, Puerto Rico, U.S. Virgin Islands

The ESL minor consists of a minimum of 22 credits. You must take the ESL minor in conjunction with teaching majors in early childhood, elementary education, K-12 majors, or secondary teaching majors.

NOTE: For the ESL Minor without Teacher Certification, please see English as a Second Language Minor.

Program Requirements
Type
Completion Requirement

Proficiency in English

Complete Proficiency
Attain the minimum scores required by the Wisconsin Dept. of Public Instruction on verbal and reading sections of the PPST.

World Language Courses, 0-8 credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures.

English, 3 credits

Complete ANY of the following Courses:

- ENGL 342 - English Grammars - 3 Credits
- ENGL 343 - Sociolinguistics: Languages and Dialects of the U.S. - 3 Credits
- ENGL 344 - History of the English Language - 3 Credits

- ENGL 345 - English Language for Teachers - 3 Credits

Language/Linguistics, 3 credits

Complete ANY of the following Courses:

- CSD 266 - Language Development - 3 Credits
- ENGL 240 - Introduction To Linguistics - 3 Credits

Required, 3 credits

Complete ANY of the following Courses:

- ANTH 110 - Cultural Anthropology - 3 Credits
- ANTH 325 - Culture and Language - 3 Credits
- FLNG 250 - Introduction to World Languages - 3 Credits
- HIST 288 - Race and Ethnicity in American History - 3 Credits
- POLI 315 - Minority Group Politics - 3 Credits
- PSYC 322 - Psychology and Culture - 3 Credits
- SOC 102 - Social Problems - 3 Credits
- SOC 270 - Race and Ethnicity - 3 Credits
- SOC 327 - Social Inequality - 3 Credits

English Courses

Take one set of English Courses based on your major

Fulfill ANY of the following requirements:

Early Childhood (ages 0-8) and Middle Childhood-Early Adolescence (ages 6-13)

Complete ALL of the following Courses:

- EDUC 302 - Methods and Materials for Teaching Reading I - 3 Credits
- EDUC 309 - Methods and Materials for Teaching Reading II - 3 Credits
- EDUC 310 - Methods and Materials for Teaching Language Arts - 3 Credits
- ENGL 274 - Literature for Early Childhood - 3 Credits
  OR ENGL 275 - Children's Literature - 3 Credits

OR

English Majors - Early Adolescence-Adolescence (ages 10-21)

Complete ALL of the following Courses:

- ENGL 355 - Methods of Teaching Composition (Middle and Secondary) - 2-3 Credits
  OR ENGL 356 - Methods of Teaching Literature (Middle and Secondary) - 2-3 Credits
- ENGL 375 - Literature for Young Adults - 3 Credits
- ENGL 381 - Reading for the Teacher of English - 3 Credits

OR

Non-English majors/Early Adolescence-Adolescence (ages 10-21)

Complete ALL of the following Courses:

- EDUC 386 - Literacy in the Secondary School - 3 Credits
- ENGL 200 - Introduction to the Study of Literature - 3 Credits
- ENGL 394 - Methods of Teaching Composition and Literature for Non-English Majors - 3 Credits

Foreign Language Education Courses

Complete ALL of the following Courses:

- FLED 344 - Teaching English as a Second Language - 3 Credits
- FLED 398 - Student Teaching in a Foreign Language - 1-16 Credits
  OR FLED 498 - Intern Teaching - 1-16 Credits

Additional Comments:

No Requirement Level

Standards

Academic Standards

Standards (Teaching) for the Department of World Languages and Literatures

1. Student Teaching: The chair of the Department of World Languages and Literatures and the director of the Office of Field Experiences approve student teaching programs. You register for FLED 398 (1- 16 credits), FLED 400 (1 credits), and receive an assignment at the grade level for which you are seeking certification.

2. Professional Education Program: Requirements for the Professional Education Program are listed in the Education section earlier in this catalog.

Learning Outcomes

Program Learning Outcomes (UWSP)
Upon completing the English Major program, you will be able to:

1. Analyze and interpret British literature critically to demonstrate a comprehension of literary themes, of the conventions and language of literature, and/or of key concepts about British culture

2. Analyze and interpret American literature critically to demonstrate a comprehension of literary themes, of the conventions and language of literature, and/or of key concepts about American culture

3. Apply appropriate critical and/or rhetorical models and theories to your reading of literary texts

4. Apply appropriate knowledge of the grammatical structure and/or the historical development of the English language to your understanding of literature, culture, and your own writing

5. Write thoughtfully and effectively (especially, but not exclusively, in the genre of literary analysis) by expressing a clear purpose, demonstrating an awareness of audience and the writing situation, organizing ideas effectively, and using grammatically correct language; use appropriate methods of conducting research and documenting sources

Biomedical Writing Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the Department of English within the College of Letters and Science.

Consists of a minimum of 23 credits plus a 1-3 credit recommended internship.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: HSW 301, MATH 255, PSYC 300, SOC 351.

Program Requirements
Type
Completion Requirement

Biomedical Writing, 3 credits

Complete ANY of the following Courses:
- ENGL 391 - Biomedical Writing - 3 Credits
- ENGL 591 - Biomedical Writing - 3 Credits

Technical Writing and Grammar, 6 credits

Take two of the following, depending on the biomedical writing adviser's assessment of your strengths and weaknesses.

Earn at least 6 credits from the following:
- ENGL 248 - Introduction to Environmental and Science Writing - 3 Credits
- ENGL 254 - Workplace Writing - 3 Credits
- ENGL 342 - English Grammars - 3 Credits
- ENGL 347 - Grant and Proposal Writing - 3 Credits
  OR ENGL 547 - Grant and Proposal Writing - 3 Credits
- ENGL 348 - Advanced Environmental and Science Writing - 3 Credits
- ENGL 354 - Advanced Technical Writing - 3 Credits
  OR ENGL 554 - Advanced Technical Writing - 3 Credits

Health Communication, 3 Credits

COMM 382 (Deleted/Discontinued)

Complete Health Communication Requirement

Medical Terminology, 3 credits

Complete ALL of the following Courses:
- HSW 104 - Medical Terminology - 3 Credits

Health Care Professions Perspectives, 3 credits

Complete ANY of the following Courses:
- HSW 205 - Recognition and Prevention of Common Diseases - 3 Credits
- HSW 320 - Environment, Health, and Technology - 3 Credits
- HSW 395 - Epidemiology and Public Health - 3 Credits

Philosophical, Humanistic, and Sociological Perspectives on Medicine and Science, 3 credits

Complete ANY of the following Courses:
- ENGL 365 - Science Literature - 3 Credits
- ENGL 565 - Science Literature - 3 Credits
- ENGL 383 - Themes in Literature - 3 Credits
- ENGL 583 - Themes in Literature - 3 Credits
- PHIL 102 - Science and Society - 3 Credits
- PHIL 302 - Ethics and Medicine - 3 Credits
- SOC 308 - Sociology of Medicine - 3 Credits
- SOC 508 - Sociology of Medicine - 3 Credits

Note: ENGL 583 can be taken with a medical or science-related theme.

Statistics, 3-4 credits

Complete ANY of the following Courses:
- HSW 301 - Fundamentals of Biostatistics - 3 Credits
- MATH 255 - Elementary Statistical Methods - 4 Credits
- PSYC 300 - Statistics for Psychologists - 4 Credits
- SOC 351 - Social Statistics - 4 Credits

Writing Internship (Recommended)

Complete ALL of the following Courses:
- ENGL 498 - Writing Internship - 1-6 Credits

Additional Comments:

No Requirement Level

Standards

Academic Standards
1. Anyone may declare a major/minor in English or a minor in writing. To be approved for graduation you need to have a cumulative grade point average of 2.00 (2.75 to student teach), including transfer credits, regardless of any declaration of academic forgiveness.

2. You must have department chair consent before you will be allowed to repeat grades of D in ENGL 101, ENGL 150, and ENGL 202 as well as English courses numbered 200 and above in which you received passing grades.

3. English courses are open, subject to availability, to students who are not declared majors or minors.

About this Program
Designed for students in good academic standing who already have a major or minor in Biology, Biochemistry, Chemistry, Physics, Medical Laboratory Science, or any other health-related majors or minors. The Biomedical Writing Minor will help you acquire (a) proficiency in the technical skill of biomedical writing; (b) knowledge about contemporary approaches to and issues in biomedical communication; (c) knowledge about the history and culture of both biomedical research and patient care; and (d) an understanding of the social and environmental contexts within which epidemiological phenomena manifest themselves.

Creative Writing Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the Department of English within the College of Letters and Science.

Consists of 24 credits beyond the General Education Composition requirement.

Program Requirements
Type
Completion Requirement

Required, 12 credits

Complete ALL of the following Courses:

- ENGL 253 - Introduction to Creative Writing - 3 Credits
- ENGL 353 - Advanced Creative Writing - 3 Credits
- ENGL 377 - Contemporary Poetry - 3 Credits
  OR ENGL 378 - Contemporary Fiction - 3 Credits

ENGL 353 must be taken twice; once for 3 credits with the *Poetry* topic, and once for 3 credits with the *Fiction* topic

Electives, 12 credits

Earn at least 12 credits from the following:

- ENGL 157 - Independent Writing - 1 Credits
- ENGL 205 - Literary Magazines - 1-3 Credits
- ENGL 248 - Introduction to Environmental and Science Writing - 3 Credits
- ENGL 250 - Intermediate Composition - 3 Credits
- ENGL 254 - Workplace Writing - 3 Credits
- ENGL 257 - Independent Writing - 1 Credits
- ENGL 339 - Book and Publication Design - 3 Credits
- ENGL 347 - Grant and Proposal Writing - 3 Credits
- ENGL 348 - Advanced Environmental and Science Writing - 3 Credits
- ENGL 349 - Editing and Publishing - 3 Credits
- ENGL 350 - Creative Nonfiction - 3 Credits
- ENGL 351 - Advanced Business Writing - 3 Credits
- ENGL 352 - Writing for Digital Media - 3 Credits
- ENGL 353 - Advanced Creative Writing - 3 Credits
- ENGL 354 - Advanced Technical Writing - 3 Credits
- ENGL 357 - Independent Writing - 1 Credits
- ENGL 358 - Outdoor Writing - 3 Credits
- ENGL 359 - Novel Writing - 3 Credits
- ENGL 388 - Editorial Process - 3 Credits
- ENGL 389 - Book History - 3 Credits
- ENGL 390 - The Profession of Authorship - 3 Credits
- ENGL 498 - Writing Internship - 1-6 Credits

Notes:

- ENGL 205 must be taken for 3 credits
- ENGL 353 may be repeated once for credit
- ENGL 498 you may apply 3 credits maximum to this requirement
- ENGL 583 can be taken with a medical or science-related theme
- Chair may approve up to 6 credits of English Department courses not specified above

Note for Writing Minors

A student may declare a Creative Writing Minor or a Professional Writing Minor, but not both. Neither Writing Minor is teacher certifiable, but a Writing Minor is generally favored by public school employers as a complement to the English Major.

Linguistics Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the Department of English within the College of Letters and Science.

Linguistics minor requires a minimum of 16 credits.

Core courses, 10-18 credits
Type
Completion Requirement

Core

Fulfill ALL of the following requirements:

Core Linguistics, 3 credits

Complete ALL of the following Courses:
- ENGL 240 - Introduction To Linguistics - 3 Credits

AND

Grammar or Language, 3 credits

Complete ANY of the following Courses:
- ENGL 342 - English Grammars - 3 Credits
- ENGL 345 - English Language for Teachers - 3 Credits

AND

Required, 3 credits

Complete ANY of the following Courses:
- ENGL 340 - Language, Gender, and Sexuality - 3 Credits
- ENGL 343 - Sociolinguistics: Languages and Dialects of the U.S. - 3 Credits
- ENGL 344 - History of the English Language - 3 Credits

AND

World Language Courses, 0-8 credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world languages courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

AND

Capstone Experience, 1 credit

Complete ALL of the following Courses:
- ENGL 401 - Capstone Course for the Interdisciplinary Certificate in Language - 1 Credits

Electives, 6 credits

Earn at least 6 credits from the following:
- CSD 260 - Phonetics - 3 Credits
- CSD 266 - Language Development - 3 Credits
- CSD 342 - Basic American Sign Language - 2 Credits
- ENGL 340 - Language, Gender, and Sexuality - 3 Credits
- ENGL 341 - Invented Languages - 3 Credits
- ENGL 342 - English Grammars - 3 Credits
- ENGL 343 - Sociolinguistics: Languages and Dialects of the U.S. - 3 Credits

About this Program
The ability to communicate through language is a fundamental part of being human. The linguistics minor allows students first to learn about the human capacity for language through the lens of linguistic models. Further connections are made by giving students freedom to draw on the theories and methodologies of related disciplines such as psychology, speech and hearing sciences, theatre, and the languages of the world. Students in the linguistics minor will investigate theoretical and applied approaches to the structure, variation, history, and social functions of human language.

English (MST)

Requirements

Simple Requisites

Curriculum

Entry of new students to this program has been suspended as of Spring 2022.

This graduate program is administered by the Department of English within the College of Letters and Science.

Take at least half of your English credits at the 700 level.

Program Requirements
Type
Completion Requirement

Requirements

Complete Requirements

1. Complete 18-24 credits in English courses selected with graduate coordinator approval.
2. Complete 6-9 credits in education courses.
3. With graduate coordinator approval, you may substitute 3 graduate credits in another liberal arts area for 3 credits in English.

Culminating Experience

Complete Culminating Experience
Before you complete 21 credits, select one of the four options below and notify the department chair.

1. Portfolio of papers, publications, and professional presentations submitted to and approved by a committee of graduate faculty appointed by the department chair, 2-4 credits.
2. Project that is an outgrowth of ENGL 712 or ENGL 755, 1 credit.
3. Thesis in literature or some aspect of teaching English, 2-6 credits.
4. Written comprehensive examination based on two areas of specialization from your English coursework.

Requirements for all Master of Science in Teaching (MST) Degrees

Complete Requirements for all Master of Science in Teaching (MST) Degrees
In addition to the general requirements of all master's degrees, the MST degree has the following requirements:

- Be eligible for teacher certification in your area of specialization (biology, English, history) in Wisconsin or another state.
- Complete a minimum of 30 graduate credits distributed among:
  Group I: Major area of specialization, 18-24 credits. These courses provide additional depth in your teaching field and increase familiarity with new knowledge, problems, and trends.
  Group II: Professional education, 6-9 credits. These courses enhance your understanding of education and improve performance in the art of teaching.
  Group III: Liberal studies, 0-6 credits. These courses are taken outside the content area of your specialization and broaden your knowledge and outlook.
- Complete, at minimum, the equivalent of a major in your area of specialization at the completion of the graduate program.
- Have a minimum grade point average of 3.00 in your area of specialization at the time of graduation.

Additional Comments:

No Requirement Level

Standards

Admission Standards

Admission to the Program - English Graduate

To be accepted into the MST program you must have a bachelor's degree with an English major. If you have less than this, the graduate coordinator may grant you provisional acceptance.

Admission to Candidacy for English Graduate Program

To be admitted to candidacy, successfully complete 9 graduate credits with at least a B (3.0) average.

Academic Standards

1. Anyone may declare a major/minor in English or a minor in writing. To be approved for graduation you need to have a cumulative grade point average of 2.00 (2.75 to student teach), including transfer credits, regardless of any declaration of academic forgiveness.

2. You must have department chair consent before you will be allowed to repeat grades of D in ENGL 101, ENGL 150, and ENGL 202 as well as English courses numbered 200 and above in which you received passing grades.

3. English courses are open, subject to availability, to students who are not declared majors or minors.

- ENGL 324 - The Romantic Movement - 3 Credits
- ENGL 325 - Victorian Literature - 3 Credits
- ENGL 327 - Victorian Literature in Transition - 3 Credits
- ENGL 366 - English Drama to Shaw (British) - 3 Credits

AND

American Literature, 3 credits

Choose one course from American Literature:

Complete ANY of the following Courses:
- ENGL 213 - American Literature I - 3 Credits
- ENGL 214 - American Literature II - 3 Credits
- ENGL 313 - The American Novel - 3 Credits
- ENGL 320 - American Realism and Naturalism - 3 Credits
- ENGL 329 - The American Renaissance - 3 Credits
- ENGL 360 - Regional Literature (American) - 3 Credits
- ENGL 382 - Ethnic Literature of the United States - 3 Credits

AND

Ethnic Literature, 3 credits

Complete ALL of the following Courses:
- ENGL 284 - Introduction to Ethnic Literature of the United States - 3 Credits

AND

Theory, 3 credits

Complete ANY of the following Courses:
- ENGL 379 - Rhetorical Theory - 3 Credits
- ENGL 380 - Literary Theory - 3 Credits
- ENGL 384 - Topics in Theory - 3 Credits

AND

Major Authors, 6 credits

Earn at least 6 credits from the following:
- ENGL 330 - Chaucer (British) - 3 Credits
- ENGL 333 - Early Shakespeare - 3 Credits
- ENGL 334 - Later Shakespeare - 3 Credits
- ENGL 336 - Milton (British) - 3 Credits
- ENGL 385 - Major Authors - 3 Credits
- ENGL 386 - Major Authors of Ethnic Literature - 3 Credits

Writing, 3 credits

Complete ANY of the following Courses:
- ENGL 250 - Intermediate Composition - 3 Credits
- ENGL 253 - Introduction to Creative Writing - 3 Credits

Reading, 3 credits

Complete ALL of the following Courses:
- ENGL 381 - Reading for the Teacher of English - 3 Credits

Literature for Adolescents, 3 credits

Complete ALL of the following Courses:
- ENGL 375 - Literature for Young Adults - 3 Credits

Language Course, 3 credits

Complete ALL of the following Courses:
- ENGL 345 - English Language for Teachers - 3 Credits

Publication Course, 3 credits

Complete ALL of the following Courses:

- ENGL 373 - Publication for Teachers - 3 Credits

Methods, 9 credits

Complete ALL of the following Courses:

- ENGL 355 - Methods of Teaching Composition (Middle and Secondary) - 2-3 Credits
- ENGL 356 - Methods of Teaching Literature (Middle and Secondary) - 2-3 Credits
- ENGL 497 - Senior Seminar in English Education - 1 Credits
- ENED 396 - English Education Practicum - 2 Credits

ENGL 355 should be taken for 3 credits

ENGL 356 should be taken for 3 credits

Technology, 3 credits

Complete ALL of the following Courses:

- ENGL 393 - Technologies for English Education - 3 Credits

Student Teaching, 16 credits

Earn at least 16 credits from the following:

- ENED 398 - Student Teaching in English - 1-16 Credits

Seminar on Teaching, 1-2 credits

Earn at least 1 credits from the following:

- ENED 400 - Seminar on Teaching for Student and Intern Teachers of English - 1-2 Credits

World Language Courses, 0-8 credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

Additional Comments:

No Requirement Level

Standards

Academic Standards
1. Anyone may declare a major/minor in English or a minor in writing. To be approved for graduation you need to have a cumulative grade point average of 2.00 (2.75 to student teach), including transfer credits, regardless of any declaration of academic forgiveness.

2. You must have department chair consent before you will be allowed to repeat grades of D in ENGL 101, ENGL 150, and ENGL 202 as well as English courses numbered 200 and above in which you received passing grades.

3. English courses are open, subject to availability, to students who are not declared majors or minors.

About this Program

English Education Methods Block

English education majors must take a spring block of pre-Methods classes (second semester junior year) preceding the fall block of English methods classes (first semester senior year).

1. **Spring block**, 9 credits: ENGL 345, ENGL 375, ENGL 381. There are no limits on number of credits you may take in addition to these.
2. **Fall block**, 12 credits: ENGL 355, ENGL 356, ENGL 393, ENGL 497, and ENED 396. Because of practicum hours associated with these classes, we highly recommend that you take only these credits during this semester.

Notes for Teacher Certification:

1. Because of enrollment limits in the teacher certification program, some qualified students may not be admitted to English Education courses.
2. Before applying to the program, you must have completed 12 credits of English beyond ENGL 101, ENGL 150, and ENGL 202 and have at least a 3.00 GPA in those credits, including transfer credits.
3. Admission will be determined by GPA in English, evaluation of a portfolio of writing and an instructor recommendation. Admission decisions will be made before spring semester registration. See the English Department for further details.
4. Also see information about the Professional Education Program in the Education section of this catalog, and information about Secondary Education for teacher certification in the **Secondary/K-12 Education Curriculum for Teacher Certification** section of this catalog.

Learning Outcomes

Program Learning Outcomes (UWSP)
Upon completing the English Education Major program, our students will be able to:

1. Analyze and interpret British literature critically to demonstrate a comprehension of literary themes, of the conventions and language of literature, and/or of key concepts about British culture

2. Analyze and interpret American literature critically to demonstrate a comprehension of literary themes, of the conventions and language of literature, and/or of key concepts about American culture

3. Apply appropriate critical and/or rhetorical models and theories to your reading of literary texts

4. Apply appropriate knowledge of the grammatical structure and/or the historical development of the English language to your understanding of literature, culture, and your own writing

5. Write thoughtfully and effectively (especially, but not exclusively, in the genre of literary analysis) by expressing a clear purpose, demonstrating an awareness of audience and the writing situation, organizing ideas effectively, and using grammatically correct language

6. Use appropriate methods of conducting research and documenting sources

7. Apply appropriate knowledge of the discipline and of effective teaching strategies to design unit and lesson plans with clear learning goals and materials, activities, and assessments appropriate to these goals

Environmental Education for Educators Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the Environment and Society Discipline.

Open only to students seeking teacher certification.

Consists of at least 22 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 100.

Program Requirements
Type
Completion Requirement

Environmental Education Core

Complete ALL of the following Courses:

- NRES 370 - Introduction to Environmental Study and Environmental Education - 3 Credits
- NRES 376 - Environmental Education Practicum - 4 Credits

Required

Earn at least 3 credits from the following:

- NRES 281 - Introduction to Recreation and Parks - 3 Credits
- NRES 302 - Foundations of Environmental Education II - 1 Credits
- NRES 305 - Inclusive Practices for Outdoor Professionals - 2 Credits
- NRES 368 - Oral Interpretation Methods - 3 Credits
- NRES 478 - Environmental Issues Investigation and Action - 3 Credits

Environmental Science Core

Earn at least 9 credits from the following:

- ASTR 100 - Unveiling the Universe - 3 Credits
- BIOL 100 - Biological Principles and the Human Environment - 3 Credits
- CHEM 100 - Chemistry for the Citizen - 3 Credits
- GEOG 105 - The Dynamic Earth - 3 Credits

Electives, 3-4 credits

Earn at least 3 credits from the following:

- BIOL 305 - General Ecology - 3 Credits
- HIST 280 - U.S. Environmental History - 3 Credits
- NRES 200 - Introduction to Sustainable Communities - 3 Credits
- NRES 220 - Global Climate Change and Water Resources: Present-10th Century - 3 Credits
  OR WATR 220 - Global Climate Change and Water Resources: Present-10th Century - 3 Credits
- NRES 324 - Invasive and Exotic Species - 3 Credits
  OR WATR 324 - Invasive and Exotic Species - 3 Credits

- NRES 369 - Interpretive Media - 4 Credits
- NRES 441 - Climate Change Implications, Policies, and Solutions - 3 Credits
- PHIL 380 - Environmental Ethics - 3 Credits
- Additional courses from cores above not used to fulfill requirements
- Other courses approved by adviser

- NRES 320 - Natural Resources Communication and Public Relations - 3 Credits
- NRES 473 - Resource Policy and Law - 3 Credits
  OR POLI 338 - Environmental Law and Regulation - 3 Credits

Environmental Sciences, 40 credits

Fulfill ALL of the following requirements:

Core Sequence, 12 credits

Fulfill ALL of the following requirements:

Required, 3 credits

Complete ALL of the following Courses:

- WSTE 476 - Hazardous Waste Management - 3 Credits

AND

Required, 9 credits

Earn at least 9 credits from the following:

- FOR 332 - Forest Ecosystem Ecology - 3 Credits
- SOIL 365 - Soil Quality Assessment and Soil Survey Interpretation - 3 Credits
- WATR 388 - Aquatic Ecology - 3 Credits
- WLDL 372 - Wildlife of North America - 3 Credits

AND

Environmental Analysis, 7 credits

Earn at least 7 credits from the following:

- SOIL 364 - Soil and Plant Analysis - 3 Credits
- SOIL 484 - Environmental Microbiology - 4 Credits
  OR WSTE 484 - Environmental Microbiology - 4 Credits
- WATR 390 - Water Chemistry and Analysis - 4 Credits

AND

Environmental Systems, 6 credits

Earn at least 6 credits from the following:

- FOR 432 - Silviculture - 3 Credits
- SOIL 368 - Urban Soils - 2 Credits
- SOIL 479 - Environmental Fate of Organic Chemicals - 3 Credits
- WATR 360 - Wetlands Ecology and Management - 3 Credits
  OR WLDL 360 - Wetlands Ecology and Management - 3 Credits
- WATR 383 - Hydrogeology - 3 Credits
  OR GEOL 383 - Hydrogeology - 3 Credits
- WATR 389 - Hydrology - 3 Credits

Environmental Techniques and Identification, 9 credits

Fulfill ANY of the following requirements:

Course Options

Choose up to 9 credits from the following:

Earn at least 9 credits from the following:

- FOR 232 - Dendrology and Silvics - 3 Credits
- FOR 322 - Forest Mensuration - 3 Credits
- FOR 426 - Forest Entomology - 3 Credits
- NRES 324 - Invasive and Exotic Species - 3 Credits
  OR WATR 324 - Invasive and Exotic Species - 3 Credits
- SOIL 362 - Soil Genesis, Morphology and Classification - 3 Credits
- SOIL 363 - Soil Profile Description Writing - 1 Credits
- SOIL 366 - Wetland Soils and Wetland Delineation - 3 Credits
  OR WATR 366 - Wetland Soils and Wetland Delineation - 3 Credits
- WATR 347 - Aquatic Plant Taxonomy - 2 Credits
- WATR 384 - Life History of Fishes - 3 Credits
- WATR 488 - Aquatic Insects - 3 Credits
- WATR 492 - Advanced Techniques of Environmental Analysis - 3 Credits

OR

Internship

May include up to 3 credits of internship toward major:

Earn at least 3 credits from the following:

- FOR 381 - Internship in Forestry - 1-12 Credits
- NRES 381 - Internship in Natural Resources - 1-12 Credits
- SOIL 381 - Internship in Soils - 1-6 Credits
- WATR 381 - Internship in Water - 1-12 Credits
- WLDL 381 - Internship in Wildlife - 1-12 Credits
- WSTE 381 - Internship in Waste Resources - 1-6 Credits

Note: Maximum of 3 credits total between all internship courses count toward the major. This section can fulfill up to 3 credits of the **Environmental Techniques and Identification, 9 credits** requirement.

Environmental Management, 6 credits

Earn at least 6 credits from the following:

- PSEN 382 - Water and Wastewater Treatment - 3 Credits
  OR WATR 382 - Water and Wastewater Treatment - 3 Credits
  OR WSTE 382 - Water and Wastewater Treatment - 3 Credits
- SOIL 461 - Soil Management for Resource Sustainability - 3 Credits
- SOIL 482 - Nutrient Management: Land Application and Planning - 3 Credits
  OR WSTE 482 - Nutrient Management: Land Application and Planning - 3 Credits
- WATR 482 - Assessment of Aquatic Systems - 3 Credits
- WSTE 380 - Solid Waste Management - 3 Credits

Additional Comments:

No Requirement Level

Standards

Academic Standards
To graduate with any major or minor in the Environment and Society Discipline, you must have a minimum in-major grade point average of 2.25.

Environmental Science and Management (BS): Social Science Option

Requirements

Simple Requisites

Curriculum
This major is administered by the Environment and Society Discipline in the College of Natural Resources.

Consists of a minimum of 98 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 101, CHEM 105, FOR 321, MATH 255, MATH 111, MATH 225, ECON 110, ECON 111, and FOR 322.

Environmental Science and Management Core, 21-22 credits
Type
Completion Requirement

Natural Resources Courses, 14 credits

Complete ALL of the following Courses:
- NRES 150 - People, Resources and the Biosphere - 3 Credits
- NRES 151 - Ecological Basis for Natural Resource Management - 3 Credits
- NRES 250 - Introduction to Fisheries, Forestry and Wildlife Resources - 4 Credits
- NRES 251 - Introduction to Soil and Water Resources - 4 Credits

Summer Field Experience, 7-8 Credits

Fulfill ANY of the following requirements:

Summer Field Experience, 7 credits

Complete ALL of the following Courses:
- FOR 319 - Land Surveying - 1 Credits
- FOR 320 - Field Experience in Forest Measurements - 1 Credits
- NRES 405 - Selected Topics in Natural Resources - 1-3 Credits
- SOIL 359 - Soil Conservation and Watershed Inventory Techniques - 1 Credits
- SOIL 360 - Field Experience in Soil Inventory Methods - 1 Credits
- WATR 380 - Field Experience in Aquatic Ecosystem Evaluation - 1 Credits
- WLDL 340 - Field Experience in Wildlife Management Techniques - 1 Credits

OR

International Summer Field Experience, 8 credits

Earn at least 8 credits from the following:
- NRES 475 - International Field Experiences in Natural Resources Management - 1-8 Credits

Additional Comments:

Foundational Sciences, 21-27 credits
Type
Completion Requirement

Biology, 5-10 credits

Fulfill ANY of the following requirements:

Biology Option 1, 5 credits

Complete ANY of the following Courses:
- BIOL 101 - General Biology - 5 Credits
- BIOL 130 - Introduction to Plant Biology - 5 Credits

OR

Biology Option 2, 10 credits

Complete ALL of the following Courses:
- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits

Chemistry, 5 credits

Complete ANY of the following Courses:
- CHEM 101 - Basic Chemistry - 5 Credits
- CHEM 105 - Fundamental Chemistry - 5 Credits

Mathematics, 8-9 credits

Complete ALL of the following Courses:
- FOR 321 - Natural Resources Data Analysis - 4 Credits
  OR MATH 255 - Elementary Statistical Methods - 4 Credits
- MATH 111 - Applied Calculus - 4 Credits
  OR MATH 225 - Calculus I - 5 Credits

Spatial Analysis, 3 credits

Complete ANY of the following Courses:
- GEOG 341 - Geographic Information Systems I - 3 Credits
- WATR 391 - GIS Applications in Natural Resources - 3 Credits

Additional Comments:

Social Science Option, 56 credits
Type
Completion Requirement

Social Science Core, 12 credits

Complete ALL of the following Courses:
- ECON 110 - Principles of Macroeconomics - 3 Credits
  OR ECON 111 - Principles of Microeconomics - 3 Credits
  OR NRES 372 - Resource Economics - 3 Credits
- NRES 320 - Natural Resources Communication and Public Relations - 3 Credits
- NRES 383 - Organizational Leadership - 3 Credits
  OR NRES 386 - Conservation Law Enforcement Leadership and Management - 3 Credits
- NRES 389 - Methods in Social Science - 3 Credits

Geography, 3 credits

Complete ANY of the following Courses:
- GEOG 100 - Human Impacts on the Physical Environment - 3 Credits
- GEOG 120 - Human Geography - 3 Credits

Ecology, 3-4 credits

Complete ANY of the following Courses:
- BIOL 305 - General Ecology - 3 Credits
- FOR 332 - Forest Ecosystem Ecology - 3 Credits
- SOIL 384 - Environmental Microbiology Lecture - 3 Credits
- SOIL 484 - Environmental Microbiology - 4 Credits
- WSTE 484 - Environmental Microbiology - 4 Credits

Natural Sciences, 12 credits

Take 12 credits from at least two of the following disciplines:

Fulfill ANY of the following requirements:

Forestry

Complete ANY of the following Courses:

- FOR 232 - Dendrology and Silvics - 3 Credits
- FOR 322 - Forest Mensuration - 3 Credits
- FOR 332 - Forest Ecosystem Ecology - 3 Credits
- FOR 424 - Forest Pathology - 3 Credits
- FOR 432 - Silviculture - 3 Credits

OR

Fisheries and Water Resources

Complete ANY of the following Courses:

- WATR 220 - Global Climate Change and Water Resources: Present-10th Century - 3 Credits
  OR NRES 220 - Global Climate Change and Water Resources: Present-10th Century - 3 Credits
- WATR 324 - Invasive and Exotic Species - 3 Credits
  OR NRES 324 - Invasive and Exotic Species - 3 Credits
- WATR 383 - Hydrogeology - 3 Credits
  OR GEOL 383 - Hydrogeology - 3 Credits
- WATR 384 - Life History of Fishes - 3 Credits
- WATR 388 - Aquatic Ecology - 3 Credits
- WATR 389 - Hydrology - 3 Credits
- WATR 390 - Water Chemistry and Analysis - 4 Credits
- WATR 420 - Stream Hydrology, Habitat, and Restoration - 3 Credits
- WATR 482 - Assessment of Aquatic Systems - 3 Credits

OR

Soil and Waste Resources

Complete ANY of the following Courses:

- PSEN 489 - Industrial Environmental Management - 3 Credits
  OR WSTE 489 - Industrial Environmental Management - 3 Credits
- SOIL 362 - Soil Genesis, Morphology and Classification - 3 Credits
- SOIL 364 - Soil and Plant Analysis - 3 Credits
- SOIL 365 - Soil Quality Assessment and Soil Survey Interpretation - 3 Credits
- SOIL 366 - Wetland Soils and Wetland Delineation - 3 Credits
  OR WATR 366 - Wetland Soils and Wetland Delineation - 3 Credits
- SOIL 384 - Environmental Microbiology Lecture - 3 Credits
  OR SOIL 484 - Environmental Microbiology - 4 Credits
  OR WSTE 484 - Environmental Microbiology - 4 Credits
- SOIL 461 - Soil Management for Resource Sustainability - 3 Credits
- SOIL 465 - Soil Physics - 3 Credits
- SOIL 479 - Environmental Fate of Organic Chemicals - 3 Credits
- SOIL 482 - Nutrient Management: Land Application and Planning - 3 Credits
  OR WSTE 482 - Nutrient Management: Land Application and Planning - 3 Credits
- WSTE 380 - Solid Waste Management - 3 Credits
- PSEN 382 - Water and Wastewater Treatment - 3 Credits
  OR WATR 382 - Water and Wastewater Treatment - 3 Credits
  OR WSTE 382 - Water and Wastewater Treatment - 3 Credits
- WSTE 476 - Hazardous Waste Management - 3 Credits

OR

Wildlife Ecology

Complete ANY of the following Courses:

- WLDL 311 - Quantitative Methods for Wildlife and Fisheries Research and Management - 3 Credits
- WLDL 348 - Wildlife Damage Management - 3 Credits
- WLDL 350 - Wildlife Management Techniques - 3 Credits
- WLDL 353 - Analysis of Wildlife Populations - 4 Credits
- WLDL 372 - Wildlife of North America - 3 Credits
- WLDL 451 - Management of Wildlife Habitat - 4 Credits
- WLDL 458 - Wildlife Ecology and Conservation Biology - 3 Credits
  OR NRES 458 - Biodiversity and Conservation Biology - 3 Credits

Social Sciences, 17-18 credits

Fulfill ALL of the following requirements:

Communication and Community Engagement, 2-3 credits

Complete ANY of the following Courses:

- FOR 335 - Recreational Use of Forests and Parks - 3 Credits
- NRES 200 - Introduction to Sustainable Communities - 3 Credits
- NRES 281 - Introduction to Recreation and Parks - 3 Credits
- NRES 301 - Foundations of Environmental Education I - 3 Credits
- NRES 305 - Inclusive Practices for Outdoor Professionals - 2 Credits
- NRES 368 - Oral Interpretation Methods - 3 Credits
- NRES 384 - Conservation and Community Planning - 3 Credits
- NRES 478 - Environmental Issues Investigation and Action - 3 Credits

AND

Business and Economics, 6 credits

Earn at least 6 credits from the following:

- BUS 304 - Developing Skills to Lead and Manage - 3 Credits
- BUS 320 - Principles of Management - 3 Credits
  OR BUS 325 - Organizational Behavior - 3 Credits
- BUS 322 - Business Leadership for Managers - 3 Credits
- BUS 329 - Project Management - 3 Credits
- BUS 358 - Managing Budgets - 3 Credits
- BUS 365 - Applying Lean Six Sigma - 3 Credits
- FOR 334 - Forest Recreation and Tourism - 3 Credits
- FOR 370 - Forest Products I: Fundamentals of Wood Utilization - 2 Credits
- SOIL 373 - Agronomy, Agriculture and the Environment - 4 Credits

AND

Psychology, Sociology, and Ethics, 3 credits

Complete ANY of the following Courses:

- PHIL 360 - Animal Ethics - 3 Credits
- PHIL 380 - Environmental Ethics - 3 Credits
- PHIL 381 - American Indian Environmental Philosophies - 3 Credits
- PSYC 321 - Environmental Psychology - 3 Credits
- REL 345 - Religion and Ecology - 3 Credits
- SOC 270 - Race and Ethnicity - 3 Credits
- SOC 327 - Social Inequality - 3 Credits
- SOC 355 - Environmental Sociology - 3 Credits
- SOC 356 - Urban Sociology - 3 Credits
- SOC 360 - Population Problems - 3 Credits
- SOC 370 - Sociology of Globalization - 3 Credits

AND

Policy and Governance, 6 credits

Earn at least 6 credits from the following:

- HIST 279 - Environmental Justice - 3 Credits
  OR HIST 280 - U.S. Environmental History - 3 Credits
  OR HIST 380 - The Environmental Movement - 3 Credits
- NRES 341 - Introduction to Sustainable Energy Policy - 3 Credits
- NRES 441 - Climate Change Implications, Policies, and Solutions - 3 Credits
- NRES 365 - Environmental Policy - 3 Credits
  OR NRES 473 - Resource Policy and Law - 3 Credits
  OR POLI 304 - Environmental Politics and Policy - 3 Credits
- POLI 338 - Environmental Law and Regulation - 3 Credits
  OR POLI 450 - Law, Policy, and Regulation - 3 Credits

Integration Courses, 3 credits

Take 3 credits from the following (if not taken above):

Complete ANY of the following Courses:

- FOR 425 - Forest Management and Finance - 3 Credits
- FOR 444 - Urban and Community Forestry - 3 Credits
- FOR 485 - Forest Recreation Planning and Site Design - 3 Credits
- NRES 394 - Targeted Conservation Through Advanced GIS - 3 Credits
- NRES 459 - Ecosystem Management and Restoration - 3 Credits

- NRES 474 - Integrated Resource Management - 3 Credits
- PSEN 316 - Engineering Economics and Project Management - 3 Credits
- PSEN 489 - Industrial Environmental Management - 3 Credits
  OR WSTE 489 - Industrial Environmental Management - 3 Credits
- SOIL 461 - Soil Management for Resource Sustainability - 3 Credits
- WATR 360 - Wetlands Ecology and Management - 3 Credits
  OR WLDL 360 - Wetlands Ecology and Management - 3 Credits
- WATR 483 - Fisheries Research - 3 Credits
- WLDL 451 - Management of Wildlife Habitat - 4 Credits
- WSTE 380 - Solid Waste Management - 3 Credits

Electives, 6 Credits

Complete Elective Requirement
Take any 300- or 400-level courses from College of Natural Resources disciplines

Environmental Science for Educators Certificate

Requirements

Simple Requisites

Curriculum
This certificate is administered by the Environment and Society Discipline.

This certificate is only available to Natural Science Education majors.

Consists of 14 credits.

Program Requirements
Type
Completion Requirement

Biology, 5 credits

Complete ALL of the following Courses:
- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits
- BIOL 130 - Introduction to Plant Biology - 5 Credits
- BIOL 160 - Introduction to Animal Biology - 5 Credits

Natural Resources, 3 credits

Complete ANY of the following Courses:
- NRES 220 - Global Climate Change and Water Resources: Present-10th Century - 3 Credits
  OR WATR 220 - Global Climate Change and Water Resources: Present-10th Century - 3 Credits
- NRES 324 - Invasive and Exotic Species - 3 Credits
  OR WATR 324 - Invasive and Exotic Species - 3 Credits
- NRES 458 - Biodiversity and Conservation Biology - 3 Credits
- PSEN 382 - Water and Wastewater Treatment - 3 Credits
  OR WATR 382 - Water and Wastewater Treatment - 3 Credits
  OR WSTE 382 - Water and Wastewater Treatment - 3 Credits
- WSTE 380 - Solid Waste Management - 3 Credits

Interdisciplinary, 3 credits

Complete ANY of the following Courses:
- NRES 200 - Introduction to Sustainable Communities - 3 Credits
- NRES 341 - Introduction to Sustainable Energy Policy - 3 Credits
- NRES 372 - Resource Economics - 3 Credits
- NRES 441 - Climate Change Implications, Policies, and Solutions - 3 Credits
- NRES 442 - Sustainable Energy: Resources, Technologies, and Policies - 3 Credits
- NRES 473 - Resource Policy and Law - 3 Credits
- NRES 478 - Environmental Issues Investigation and Action - 3 Credits

Required, 3 credits

Take a second course from either the Natural Resources category or the Interdisciplinary category not already taken to fulfill previous requirements.

Complete ANY of the following Courses:
- NRES 200 - Introduction to Sustainable Communities - 3 Credits
- NRES 220 - Global Climate Change and Water Resources: Present-10th Century - 3 Credits
  OR WATR 220 - Global Climate Change and Water Resources: Present-10th Century - 3 Credits
- NRES 324 - Invasive and Exotic Species - 3 Credits
  OR WATR 324 - Invasive and Exotic Species - 3 Credits

Environmental Studies Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the Department of History and International Studies within the College of Letters and Science.

Consists of 21 credits:

Program Requirements
Type
Completion Requirement

Environmental Studies Foundation: Justice, Ethics, Sustainability, 9 credits

Complete ALL of the following Courses:

- HIST 279 - Environmental Justice - 3 Credits
- NRES 150 - People, Resources and the Biosphere - 3 Credits
- PHIL 380 - Environmental Ethics - 3 Credits

Justice, 3 credits

Complete ANY of the following Courses:

- PAX 200 - Dilemmas of War and Peace: Introduction to Peace and Conflict Studies - 3 Credits
- POLI 304 - Environmental Politics and Policy - 3 Credits
- PSYC 321 - Environmental Psychology - 3 Credits
- REL 345 - Religion and Ecology - 3 Credits
- SOC 355 - Environmental Sociology - 3 Credits

Ethics, 3 credits

Complete ANY of the following Courses:

- PHIL 321 - Food Ethics - 3 Credits
- PHIL 351 - Ecofeminism - 3 Credits
- PHIL 360 - Animal Ethics - 3 Credits
- PHIL 381 - American Indian Environmental Philosophies - 3 Credits
- PHIL 480 - Advanced Environmental Ethics - 3 Credits

Sustainability, 3 credits

Complete ANY of the following Courses:

- BIOL 305 - General Ecology - 3 Credits
- ENGL 358 - Outdoor Writing - 3 Credits
- FN 357 - Ecology of Foods - 3 Credits
- GEOG 120 - Human Geography - 3 Credits
- GEOG 303 - Processes of Environmental Degradation - 3 Credits
- HIST 204 - Modern Global Environmental History - 3 Credits
- HIST 278 - Business and Environment - 3 Credits
- HIST 280 - U.S. Environmental History - 3 Credits

About this Program
Environmental Studies is a multidisciplinary approach to studying the relationships between people and their environments. The minor is one of the oldest Environmental Studies programs in the nation. You begin with foundational courses in environmental justice, environmental ethics, and sustainability, and then complete additional coursework in each of these areas.

About this Program
The Graduate Certificate in Equity and Inclusion in Education consists of 12-credits of coursework as well as a train-the-trainer capstone experience (EDSU790 Special Topics Eductnl Sustain/EDSU990 Special Topics Eductnl Sustain). The course work explores systems, structures, policies, practices, and attitudes to create a more equitable and inclusive learning environment, culminating with an action-oriented project. This certificate is designed for students in the educational sustainability doctoral program that want a concentration in education for equity and inclusion.

Obtaining the certificate in conjunction with the EdD requires 57-credits and all courses should be taken at the 800- or 900-level.

Master's students are allowed to take EdD courses with permission of the Director of the Educational Sustainability program at the 700-level.

Earth and Space Science for Educators Certificate

Requirements

Simple Requisites

Curriculum
This certificate is administered jointly by the Department of Physics and Astronomy and the Department of Geography and Geology within the College of Letters and Science.

Consists of a minimum of 15 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: ASTR 205 and ASTR 206.

Program Requirements
Type
Completion Requirement

Required, 12 credits

Complete ALL of the following Courses:
- ASTR 205 - The Solar System - 4 Credits
- ASTR 206 - Stars and Stellar Systems - 4 Credits
- GEOG 105 - The Dynamic Earth - 3 Credits
- GEOL 106 - Earth History - 1 Credits

Electives, 3 credits

Complete ANY of the following Courses:
- ASTR 306 - Observational Astronomy - 3 Credits
- GEOG 208 - Weather and Climate - 3 Credits
- GEOG 308 - Climate: Past, Present and Future - 3 Credits
  OR GEOL 308 - Climate: Past, Present, and Future - 3 Credits
- GEOG 312 - Geomorphology - 3 Credits
  OR GEOL 312 - Geomorphology - 3 Credits
- GEOL 104 - Physical Geology - 4 Credits
- GEOL 230 - Environmental Geology - 3 Credits
- GEOL 370 - Glacial Geology - 3 Credits

Additional Comments:

No Requirement Level

Standards

Academic Standards
Minimum GPA requirement for this program is 2.75.

A minimum grade of C must be attained in each course taken.

About this Program
This certificate program is intended for, but not limited to, those students pursuing a degree in science education. The certificate can be completed concurrently with your undergraduate degree in Natural Sciences with teaching intent or a related field. The certificate does not meet the requirements for an Earth/Space license through the Wisconsin Department of Public Instruction.

Family and Consumer Sciences Major (BS): Child Life and Family Studies Option

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Family and Consumer Science in the School of Health Sciences and Wellness.

Consists of a minimum of 55 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: HD 395.

Program Requirements
Type
Completion Requirement

Required Courses, 52-58 credits

Complete ALL of the following Courses:

- FCS 166 - The Family: Continuing Concerns - 3 Credits
- FCS 190 - Developing Human Services Professionals - 3 Credits
- FCS 295 - Ethics and Professional Development in Human Services - 3 Credits
- FCS 390 - Adult Education - 3 Credits
- FCS 400 - Seminar for Student Teachers and Interns - 1-2 Credits
- FCS 444 - Family Life Coaching - 3 Credits
- HD 230 - Human Sexuality - 3 Credits
- HD 265 - Human Growth and Development: A Life-Span Approach - 3 Credits
- HD 361 - Development and Guidance of Children - 3 Credits
- HD 366 - Families in Cross Cultural Contexts - 3 Credits
- HD 367 - Intentional Intimacy and Family Systems - 3 Credits
- HD 372 - Family Financial Management - 3 Credits
- HD 386 - Family Health Implications of Resource Management - 3 Credits
- HD 395 - Research in Family Sciences - 3 Credits
- HD 466 - Development and Guidance of Adolescents - 3 Credits
- HD 497 - Field Work - 1-12 Credits
- HSW 400 - Issues in Aging - 3 Credits

FCS 400 should be taken for 1 credit

HD 497 should be taken for 6-12 credits

Collateral Courses, 3 credits

Complete ALL of the following Courses:

- PSYC 110 - Introduction to Psychology - 3 Credits

Second major, minor, or certificate program

Complete second program
Completion of a second major, minor, or approved certificate program is recommended to fulfill the university 120 credit requirement. If you are seeking a career as a child life specialist, complete the CLSP-CT.

Field Work

You may complete your field work requirements in one of two ways:

Fulfill ANY of the following requirements:

Field Work Option 1, 6 credits

Complete Study Abroad
Complete a minimum of three practicum credits of Study Abroad, International Service Learning, or other fully immersed diversity service learning experience, plus at least three additional credits earned in local experience.

OR

Field Work Option 2, 12 credits

Complete a total of 12 field work credits

Earn at least 12 credits from the following:

- HD 497 - Field Work - 1-12 Credits

Experiential Learning Activity

Complete Experiential Learning Activity Requirement
Experiential Learning Activity requirement completed in consultation with CLFS Academic Adviser

For those seeking a career as a child life specialist:

Complete Practicum and Internship
If you require affiliation with a school for practicum/internship in a child life setting, you will be required to register for 3 credits of HD 497 for practicums. You will be required to register for 6 credits for internships unless you have completed an approved diversity immersion service learning trip, in which case you will be permitted to register for 3 credits.

Additional Comments:

No Requirement Level

Standards

Academic Standards
To graduate with a major in the family and consumer sciences (child life & family studies option) you must achieve a 2.75 GPA for all coursework in the major to satisfy graduation requirements.

Family and Consumer Sciences Major (BS): Education Option

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Family and Consumer Science in the School of Health Sciences and Wellness.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)
The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

This program meets the certification/licensure requirements in the following states/territories:
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming;

This program does not meet the certification/licensure requirements in the following states/territories:
American Samoa, Federated States of Micronesia, Guam, Northern Mariana Islands, Puerto Rico, Republic of Palau, Republic of the Marshall Islands, U.S. Virgin Islands;

Note: If you live in a state or territory that does not meet certification/licensure requirements, you may contact the School of Education for more information.

Consists of a minimum of 64 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: ECON 110.

Program Requirements
Type
Completion Requirement

Required Courses, 58 credits

Complete ALL of the following Courses:
- FCS 166 - The Family: Continuing Concerns - 3 Credits
- FCS 190 - Developing Human Services Professionals - 3 Credits
- FCS 340 - Clothing, Textiles, and Housing - 3 Credits
- FCS 391 - Curriculum and Methods in Family and Consumer Sciences - 3 Credits
- FCS 392 - Program Planning and Assessment in Family and Consumer Sciences - 3 Credits
- FCS 394 - Principles of Career and Technical Education - 2 Credits
- FCS 396 - Cooperative Occupational Education Program - 1 Credits
- FCS 398 - Student Teaching - 1-16 Credits
  OR FCS 498 - Intern Teaching - 1-16 Credits

Finance Major (BS) - Accredited by AACSB

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Business in the Sentry School of Business and Economics.

Successfully complete a minimum of 77 credits in the Core and Finance requirements as described below.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: MATH 109, MATH 111, MATH 225, ECON 110, ECON 111, ECON 200, MATH 255, ECON 243, FOR 321, HSW 301, MATH 354, MATH 357, PSYC 300, and SOC 351.

Program Requirements
Type

Completion Requirement

Core

In general, try to complete the core classes in approximately this sequence. The courses near the beginning of the list serve as prerequisites for courses near the end of the list.

Fulfill ALL of the following requirements:

Calculus, 3-5 credits

Complete ANY of the following Courses:

- MATH 109 - Mathematics for the Social and Management Sciences - 4 Credits
- MATH 111 - Applied Calculus - 4 Credits
- MATH 225 - Calculus I - 5 Credits

Note: If you anticipate doing advanced study in a field such as Actuarial Science, you should take MATH 225.

AND

Economics, 6 credits

Fulfill ANY of the following requirements:

Economics Option 1, 6 credits

Complete ALL of the following Courses:

- ECON 110 - Principles of Macroeconomics - 3 Credits
- ECON 111 - Principles of Microeconomics - 3 Credits

OR

Economics Option 2, 6 credits

Complete ALL of the following Courses:

- ECON 200 - Principles of Economics - 3 Credits

AND

an additional 3 credits in 200-400-level Economics coursework. You may not take ECON 497 or ECON 498 to satisfy this requirement. Classes you take as part of other requirements of the major do not satisfy this requirement.

AND

Accounting, 6 credits

Complete ALL of the following Courses:

- ACCT 210 - Introductory Financial Accounting - 3 Credits
- ACCT 211 - Introductory Managerial Accounting - 3 Credits

AND

Statistics, 3-4 credits

Complete ANY of the following Courses:

- ECON 243 - Economic and Business Statistics - 3 Credits
- FOR 321 - Natural Resources Data Analysis - 4 Credits
- HSW 301 - Fundamentals of Biostatistics - 3 Credits
- MATH 354 - Applied Statistics - 4 Credits
- MATH 255 - Elementary Statistical Methods - 4 Credits
- MATH 357 - Probability and Statistics II - 3 Credits
- PSYC 300 - Statistics for Psychologists - 4 Credits
- SOC 351 - Social Statistics - 4 Credits

AND

Business, 32 credits

Complete ALL of the following Courses:

- BUS 100 - Introduction to Business - 1 Credits
- BUS 201 - Writing and Presenting for Business - 3 Credits
- BUS 275 - AI and Technology in Business - 1 Credits
- BUS 301 - Building Relationships for Business - 3 Credits
- BUS 325 - Organizational Behavior - 3 Credits
- BUS 330 - Principles of Marketing - 3 Credits
- BUS 340 - Business Law and Ethics - 3 Credits
- BUS 350 - Principles of Finance - 3 Credits
- BUS 360 - Principles of Production-Operations Management - 3 Credits
- BUS 370 - Management Information Systems - 3 Credits
- BUS 380 - Principles of Business Analytics - 3 Credits
- BUS 480 - Management Capstone - 3 Credits

If you are completing an Accounting major, you may substitute BUS 370 for ACCT 370

AND

Internship, 3 credits

Earn at least 3 credits from the following:

- ACCT 497 - Internship in Accounting - 1-15 Credits
- BUS 497 - Internship in Business Administration - 3-15 Credits
- ECON 497 - Internship in Economics - 1-15 Credits

Finance

Successfully complete 24 credits of Finance requirements in addition to the Core

Fulfill ALL of the following requirements:

Required Finance Courses, 9 credits

Complete ALL of the following Courses:

- BUS 353 - Investments - 3 Credits
- BUS 354 - Financial Planning - 3 Credits
  OR ECON 272 - Personal Finance - 3 Credits
- ECON 360 - Money and Financial Markets - 3 Credits

AND

Focused Finance Electives, 9 credits

Earn at least 9 credits from the following:

- BUS 343 - Principles of Insurance - 3 Credits
- BUS 344 - Insurance Operations - 3 Credits
- BUS 352 - Financial Management - 3 Credits
- BUS 353 - Investments - 3 Credits
- BUS 354 - Financial Planning - 3 Credits
- BUS 355 - Real Estate Investments - 3 Credits
- BUS 356 - Corporate Risk Management - 3 Credits
- BUS 357 - International Corporate Finance - 3 Credits
- BUS 455 - Applied Corporate Finance - 3 Credits
- BUS 490 - Special Topics in Business Administration - 1-15 Credits
- ECON 272 - Personal Finance - 3 Credits
- MATH 362 - Theory of Interest - 3 Credits

BUS 354 and ECON 272 may only be used in Focused Finance Electives if not taken above

General Electives, 6 credits

Complete General Electives
Successfully complete an additional 6 credits in Sentry School, 200-level or above, not including ACCT 497, ACCT 498, BUS 320, BUS 496, BUS 497, BUS 498, ECON 200, ECON 497, or ECON 498. Courses taken to satisfy other requirements for the major do not count towards this requirement.

Additional Comments:

No Requirement Level

Standards

Admission Standards

• You must apply for admission to the Finance major before you complete 18 credits toward the major. You must be admitted to the finance major to register for some upper-level courses and to graduate with a finance major.

Academic Standards

To graduate with a major in finance, successfully complete all required courses in the major and achieve a cumulative grade point average of 2.5 or higher in all your major courses. See Academic Standards for the

• Once you are accepted as a finance major, you can receive specialized, one-on-one advising from the school faculty or staff.

• Minimum requirements: We encourage you to apply as soon as you have completed at least 10 credits toward the major.

• If you are a transfer student: Apply before you complete 18 credits in the business administration major OR during your first semester at UW-Stevens Point.

• Exceptions: If you wish to request consideration of exceptional circumstances, do so in writing to the Sentry School Admissions Committee.

Sentry School of Business and Economics for more information on GPA requirements and for the Sentry School of Business and Economics repeat policy.

About this Program

About this Program
In the finance major, you complete courses in core content from accounting, business, and economics, as well as courses specifically related to finance. Upon completing the finance major, you will be prepared to work professionally in the finance world.

- FOR 336 - Pesticides in Natural Resource Management - 1 Credits

Physical Science Credits, 7-10 Credits

Fulfill ALL of the following requirements:

Required, 4-5 Credits

Complete ANY of the following Courses:

- CHEM 101 - Basic Chemistry - 5 Credits
- CHEM 105 - Fundamental Chemistry - 5 Credits
- GEOL 104 - Physical Geology - 4 Credits
- PHYS 101 - General Physics - 5 Credits

AND

Required, 3 Credits

Earn at least 3 credits from the following:

- CHEM 106 - Fundamental Chemistry - 5 Credits
- WATR 389 - Hydrology - 3 Credits

OR

- Any 300-level or higher SOIL course (may not include SOIL 359 or SOIL 360) not already taken above

Additional Comments:

Choose one of the following tracks (Fire Science or Ecosystem Ecology):
Type
Completion Requirement

Fire Science Track, 6 credits

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- FOR 450 - Fire Policy, Suppression, and Use - 3 Credits
- NRES 454 - Fire Behavior and Fuels - 3 Credits

AND

Complete Wildland Fire Chainsaws

Complete the following:
S-212 Wildland Fire Chainsaws

AND

Other Requirements

Complete Other Requirements
Complete 1 or more of the following:

S-131 Firefighter Type 1
S-211 Portable Pumps and Water Use
S-212 Wildland Fire Chainsaws
S-219 Firing Operations
L-280 Followership to Leadership

Ecosystem Ecology Track, a minimum of 6 credits

Fulfill ALL of the following requirements:

Ecosystem Courses

Earn at least 3 credits from the following:

- BIOL 345 - Agrostology - 2 Credits
- BIOL 355 - Plant Ecology - 4 Credits
- BIOL 374 - Ichthyology - 4 Credits
- BIOL 376 - Herpetology - 3 Credits
- BIOL 377 - Ornithology - 3 Credits
- FOR 337 - Wisconsin Forestry Best Management Practices - 1 Credits
- FOR 337 - Wisconsin Forestry Best Management Practices - 1 Credits
- FOR 395 - Tree Care Techniques - 1 Credits
- FOR 424 - Forest Pathology - 3 Credits
- FOR 426 - Forest Entomology - 3 Credits
- FOR 434 - Field Practices in Silviculture - 1-3 Credits
- WATR 361 - Aquatic Invertebrate Zoology - 3 Credits
  OR BIOL 361 - Aquatic Invertebrate Zoology - 3 Credits
- WATR 488 - Aquatic Insects - 3 Credits
- WLDL 332 - Carnivore Ecology - 2 Credits
- WLDL 334 - Ungulate Ecology and Management - 3 Credits
- WLDL 361 - Waterfowl Ecology and Management - 3 Credits
- WLDL 372 - Wildlife of North America - 3 Credits
- WLDL 378 - Mammalogy - 3 Credits
- WLDL 451 - Management of Wildlife Habitat - 4 Credits

AND

Natural Resources Policy, 3 credits

Complete ANY of the following Courses:

- FOR 450 - Fire Policy, Suppression, and Use - 3 Credits
- NRES 473 - Resource Policy and Law - 3 Credits

- NRES 474 - Integrated Resource Management - 3 Credits
- POLI 304 - Environmental Politics and Policy - 3 Credits
- POLI 338 - Environmental Law and Regulation - 3 Credits

Additional Comments:

Other Requirements
Type
Completion Requirement

Additional Comments:
Complete a chainsaw certification that can include:

- S-212 Wildland Fire Chainsaws
- Other saw certification or combination of chainsaw trainings equivalent to 30 hours of instruction

No Requirement Level

Standards

Academic Standards
To graduate with a major or minor in forestry, you must have a minimum in-major grade point average of 2.25.

Learning Outcomes

Program Learning Outcomes (UWSP)
As a graduate of the Forestry: Ecosystem Restoration and Management Option, you will be able to:

1. Demonstrate broad knowledge of forest ecology and biology by:

a. identifying tree species and associated basic silvics of Lake States tree species, and

b. applying basic principles of forest ecology

2. Complete forest measurement activities common to professional foresters by:

a. interpreting maps and legal descriptions, and

b. identifying data collection methods and analyses appropriate to specific situations

3. Develop sound forest management strategies by:

a. proposing silviculturally sound techniques to manage forests, and

b. using principles of forest finance and financial calculations within the forest decision-making context

4. Complete and present a forestry capstone project by:

a. preparing and presenting (written and orally) a sound, option-specific management plan that demonstrates a broad understanding of restoration of terrestrial and aquatic systems and land management decision-making based on ecologic, social and economic factors; and

b. demonstrating the ability to write and speak in a professional, technically competent manner

5. Develop confidence in the knowledge, skills and abilities needed to perform as a professional in your chosen option within the Forestry Program

Forestry Major (BS): Forest Management Option

Requirements

Simple Requisites

Curriculum
This major is administered by the Forestry Discipline.

Major study and approved Career Pathway Courses total 120 credits of which a minimum of 104 are major and option specific requirements. The remaining 16 credits are general education courses not embedded within the major.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: FOR 321, FOR 322, ECON 110, CHEM 101, CHEM 105, MATH 109, and MATH 111.

Forestry Core, 60-61 Credits
Type
Completion Requirement

Forestry and Natural Resources, 39 Credits

Complete ALL of the following Courses:

- FOR 120 - Preparing for a Career in Forestry - 1 Credits
- FOR 123 - Analytical Skills in Forestry - 2 Credits
- FOR 232 - Dendrology and Silvics - 3 Credits
- FOR 321 - Natural Resources Data Analysis - 4 Credits
- FOR 322 - Forest Mensuration - 3 Credits
- FOR 332 - Forest Ecosystem Ecology - 3 Credits
- FOR 425 - Forest Management and Finance - 3 Credits
- FOR 432 - Silviculture - 3 Credits
- NRES 150 - People, Resources and the Biosphere - 3 Credits
- NRES 151 - Ecological Basis for Natural Resource Management - 3 Credits
- NRES 250 - Introduction to Fisheries, Forestry and Wildlife Resources - 4 Credits
- NRES 251 - Introduction to Soil and Water Resources - 4 Credits
- NRES 372 - Resource Economics - 3 Credits

Required, 14 Credits

Complete ALL of the following Courses:

- BIOL 130 - Introduction to Plant Biology - 5 Credits
- ECON 110 - Principles of Macroeconomics - 3 Credits
- WATR 391 - GIS Applications in Natural Resources - 3 Credits
  OR GEOG 341 - Geographic Information Systems I - 3 Credits
- PHIL 380 - Environmental Ethics - 3 Credits

Summer Field Experience, 7-8 Credits

Fulfill ANY of the following requirements:

Summer Field Experience, 7 Credits

Complete ALL of the following Courses:

- FOR 319 - Land Surveying - 1 Credits
- FOR 320 - Field Experience in Forest Measurements - 1 Credits
- NRES 405 - Selected Topics in Natural Resources - 1-3 Credits
- SOIL 359 - Soil Conservation and Watershed Inventory Techniques - 1 Credits
- SOIL 360 - Field Experience in Soil Inventory Methods - 1 Credits
- WATR 380 - Field Experience in Aquatic Ecosystem Evaluation - 1 Credits
- WLDL 340 - Field Experience in Wildlife Management Techniques - 1 Credits

Note: For NRES 405, take 1 credit.

OR

Summer Field Experience, 8 Credits

Earn at least 8 credits from the following:

- NRES 475 - International Field Experiences in Natural Resources Management - 1-8 Credits

Additional Comments:

Forest Management Option, 44 Credits

Type
Completion Requirement

Natural Science, 5 Credits

Complete ANY of the following Courses:

- CHEM 101 - Basic Chemistry - 5 Credits
- CHEM 105 - Fundamental Chemistry - 5 Credits

Required, 30 Credits

Complete ALL of the following Courses:

- FOR 324 - Fire Management and Ecology - 3 Credits
- FOR 329 - Harvesting Systems - 2 Credits
- FOR 370 - Forest Products I: Fundamentals of Wood Utilization - 2 Credits
- FOR 424 - Forest Pathology - 3 Credits
- FOR 426 - Forest Entomology - 3 Credits
- FOR 431 - Functional Tree Biology - 3 Credits
- FOR 433 - Regional Silviculture - 2 Credits
- FOR 436 - Managing Non-Industrial Private Forests - 2 Credits
- MATH 109 - Mathematics for the Social and Management Sciences - 4 Credits
  OR MATH 111 - Applied Calculus - 4 Credits
- NRES 320 - Natural Resources Communication and Public Relations - 3 Credits
- NRES 377 - Remote Sensing I - 3 Credits
  OR GEOG 377 - Remote Sensing I - 3 Credits

Required, 3 Credits

Complete ANY of the following Courses:

- FOR 331 - Landscape Maintenance-Arboriculture - 3 Credits
- FOR 335 - Recreational Use of Forests and Parks - 3 Credits
- FOR 385 - Applied Landscape Architecture - 3 Credits
- FOR 444 - Urban and Community Forestry - 3 Credits

Required, 3 Credits

Complete ANY of the following Courses:

- FOR 450 - Fire Policy, Suppression, and Use - 3 Credits
- NRES 341 - Introduction to Sustainable Energy Policy - 3 Credits
- NRES 441 - Climate Change Implications, Policies, and Solutions - 3 Credits
- NRES 473 - Resource Policy and Law - 3 Credits
- POLI 304 - Environmental Politics and Policy - 3 Credits
- POLI 305 - Climate Change Politics and Policy - 3 Credits
- POLI 389 - Public Policy for Sustainable Communities - 3 Credits

Career Pathway Courses, 3 Credits

Choose from:

- Any 300 or higher level Forestry course or any of the following courses (If not already taken to satisfy a requirement above):

Earn at least 3 credits from the following:

- ACCT 210 - Introductory Financial Accounting - 3 Credits
- BUS 320 - Principles of Management - 3 Credits
- BUS 321 - Entrepreneurship - 3 Credits
- BUS 324 - Human Resource Management - 3 Credits
- BUS 329 - Project Management - 3 Credits
- BUS 330 - Principles of Marketing - 3 Credits
- BUS 331 - Marketing Research - 3 Credits
- BUS 340 - Business Law and Ethics - 3 Credits
- BUS 352 - Financial Management - 3 Credits
- BUS 355 - Real Estate Investments - 3 Credits
- BUS 375 - Advanced Spreadsheet Applications - 3 Credits
- FOR 224 - Fire Operations - 1 Credits
- GEOG 342 - GIS Database Design and Data Modeling - 3 Credits
- GEOG 343 - Geographic Information Systems II - 3 Credits
- GEOG 477 - Remote Sensing II - 3 Credits
- NRES 305 - Inclusive Practices for Outdoor Professionals - 2 Credits
- NRES 323 - International Resource Management - 3 Credits
- NRES 324 - Invasive and Exotic Species - 3 Credits
  OR WATR 324 - Invasive and Exotic Species - 3 Credits
- NRES 365 - Environmental Policy - 3 Credits
- NRES 383 - Organizational Leadership - 3 Credits
  OR BUS 322 - Business Leadership for Managers - 3 Credits
  OR BUS 325 - Organizational Behavior - 3 Credits
- NRES 389 - Methods in Social Science - 3 Credits
  OR NRES 391 - Environmental Regulatory Processes - 3 Credits
- NRES 443 - Sustainable Social-Ecological Systems - 3 Credits
- NRES 454 - Fire Behavior and Fuels - 3 Credits
- NRES 455 - Advanced Fire Ecology - 3 Credits
- NRES 457 - Ecological Restoration Monitoring - 3 Credits
- NRES 458 - Biodiversity and Conservation Biology - 3 Credits
- NRES 474 - Integrated Resource Management - 3 Credits
- SOIL 361 - Forest Soils - 3 Credits
- SOIL 362 - Soil Genesis, Morphology and Classification - 3 Credits
- SOIL 363 - Soil Profile Description Writing - 1 Credits
- SOIL 364 - Soil and Plant Analysis - 3 Credits
- SOIL 365 - Soil Quality Assessment and Soil Survey Interpretation - 3 Credits
- SOIL 366 - Wetland Soils and Wetland Delineation - 3 Credits
  OR WATR 366 - Wetland Soils and Wetland Delineation - 3 Credits
- SOIL 368 - Urban Soils - 2 Credits
- SOIL 373 - Agronomy, Agriculture and the Environment - 4 Credits
- SOIL 461 - Soil Management for Resource Sustainability - 3 Credits
- WATR 360 - Wetlands Ecology and Management - 3 Credits
  OR WLDL 360 - Wetlands Ecology and Management - 3 Credits
- WATR 388 - Aquatic Ecology - 3 Credits
- WATR 389 - Hydrology - 3 Credits
- WLDL 451 - Management of Wildlife Habitat - 4 Credits

Completion Requirement

Required, 30 credits

Complete ALL of the following Courses:

- BIOL 130 - Introduction to Plant Biology - 5 Credits
- FOR 232 - Dendrology and Silvics - 3 Credits
- FOR 320 - Field Experience in Forest Measurements - 1 Credits
- FOR 324 - Fire Management and Ecology - 3 Credits
- FOR 332 - Forest Ecosystem Ecology - 3 Credits
- FOR 336 - Pesticides in Natural Resource Management - 1 Credits
- FOR 424 - Forest Pathology - 3 Credits
- FOR 426 - Forest Entomology - 3 Credits
- NRES 250 - Introduction to Fisheries, Forestry and Wildlife Resources - 4 Credits
- NRES 251 - Introduction to Soil and Water Resources - 4 Credits

Electives, 6 credits

Earn at least 6 credits from the following:

- FOR 431 - Functional Tree Biology - 3 Credits
- NRES 324 - Invasive and Exotic Species - 3 Credits
  OR WATR 324 - Invasive and Exotic Species - 3 Credits
- NRES 457 - Ecological Restoration Monitoring - 3 Credits
- NRES 458 - Biodiversity and Conservation Biology - 3 Credits

- NRES 459 - Ecosystem Management and Restoration - 3 Credits

Trees and Greenspace Management Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the Forestry Discipline.

This minor is not available if you are majoring in the Urban & Community Forestry option.

Consists of a minimum of 28 credits.

Trees and Greenspace Management Core, 22-24 credits
Type
Completion Requirement

Take All of the Following

Complete ALL of the following Courses:

- FOR 331 - Landscape Maintenance-Arboriculture - 3 Credits
- FOR 385 - Applied Landscape Architecture - 3 Credits
- FOR 395 - Tree Care Techniques - 1 Credits
- FOR 444 - Urban and Community Forestry - 3 Credits

Summer Field Experience, 7-8 credits

Fulfill ANY of the following requirements:

Field Techniques in Natural Resources, 7 credits

Complete ALL of the following Courses:

- FOR 319 - Land Surveying - 1 Credits
- FOR 320 - Field Experience in Forest Measurements - 1 Credits
- NRES 405 - Selected Topics in Natural Resources - 1-3 Credits
- SOIL 359 - Soil Conservation and Watershed Inventory Techniques - 1 Credits
- SOIL 360 - Field Experience in Soil Inventory Methods - 1 Credits
- WATR 380 - Field Experience in Aquatic Ecosystem Evaluation - 1 Credits
- WLDL 340 - Field Experience in Wildlife Management Techniques - 1 Credits

OR

International Field Experience, 8 credits

Earn at least 8 credits from the following:

- NRES 475 - International Environmental Studies Seminar - 1-8 Credits (Inactive)

Plant Course, 2-3 credits

Complete ANY of the following Courses:

- FOR 232 - Dendrology and Silvics - 3 Credits
- FOR 342 - Urban Trees and Shrubs - 2 Credits

Management Course, 3 credits

Fish and Water Resources Major (BS): Fisheries and Aquatic Sciences Option

Requirements

Simple Requisites

Curriculum
This major is administered by the Fisheries and Water Resources Discipline.

Consists of a minimum of 105 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 101, CHEM 105, PHYS 201, MATH 111, MATH 225, FOR 321, MATH 255, and MATH 356.

Program Requirements
Type
Completion Requirement

Fisheries and Aquatic Sciences, 31 Credits

Complete ALL of the following Courses:

- NRES 250 - Introduction to Fisheries, Forestry and Wildlife Resources - 4 Credits
- BIOL 374 - Ichthyology - 4 Credits
- BIOL 375 - Fisheries Ecology - 3 Credits
  OR WATR 384 - Life History of Fishes - 3 Credits
- WATR 200 - Preparing for a Career in Fisheries and Water Resources - 1 Credits
- WATR 320 - Techniques in Fisheries and Aquatic Sciences - 3 Credits
- WATR 353 - Fish Population Dynamics - 4 Credits
- WATR 388 - Aquatic Ecology - 3 Credits
- WATR 483 - Fisheries Research - 3 Credits
- WATR 484 - Fisheries Management - 3 Credits
- WATR 488 - Aquatic Insects - 3 Credits

Biological Sciences, 20 Credits

Fulfill ALL of the following requirements:

Biology Options

Fulfill ANY of the following requirements:

Biology Option 1, 10 Credits

Complete ALL of the following Courses:

- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits

OR

Biology Option 2, 10 Credits

Complete ALL of the following Courses:

- BIOL 130 - Introduction to Plant Biology - 5 Credits
- BIOL 160 - Introduction to Animal Biology - 5 Credits

AND

Other Required Biology Courses, 10 Credits

Complete ALL of the following Courses:

- BIOL 210 - Principles of Genetics - 3 Credits
  OR BIOL 305 - General Ecology - 3 Credits
- BIOL 381 - Animal Physiology - 4 Credits
- NRES 151 - Ecological Basis for Natural Resource Management - 3 Credits

Physical Sciences, 16 Credits

Complete ALL of the following Courses:

- CHEM 101 - Basic Chemistry - 5 Credits
  OR CHEM 105 - Fundamental Chemistry - 5 Credits
- NRES 251 - Introduction to Soil and Water Resources - 4 Credits
- SOIL 479 - Environmental Fate of Organic Chemicals - 3 Credits
- PHYS 201 - Applied Principles of Physics I - 4 Credits

Mathematics and Statistics, 7-9 Credits

Complete ALL of the following Courses:

- MATH 111 - Applied Calculus - 4 Credits
  OR MATH 225 - Calculus I - 5 Credits
- FOR 321 - Natural Resources Data Analysis - 4 Credits
  OR MATH 255 - Elementary Statistical Methods - 4 Credits
  OR MATH 356 - Probability and Statistics I - 3 Credits

Human Dimensions, 6 Credits

Complete ALL of the following Courses:

- NRES 150 - People, Resources and the Biosphere - 3 Credits
- PHIL 380 - Environmental Ethics - 3 Credits

Natural Resources, 3 Credits

Complete ANY of the following Courses:

- NRES 320 - Natural Resources Communication and Public Relations - 3 Credits
- NRES 372 - Resource Economics - 3 Credits

Oral Communication, 3 Credits

Complete ALL of the following Courses:

- COMM 101 - Fundamentals of Oral Communication - 3 Credits

Water Resources Electives, 12 Credits

Complete Water Resources Electives
Choose any water resources courses not already specified above. No more than 6 credits of WATR 381 may be used to fulfill this requirement.

Summer Field Experience, 7-8 Credits

Fulfill ANY of the following requirements:

Summer Field Experience, 7 Credits

Complete ALL of the following Courses:

- FOR 319 - Land Surveying - 1 Credits
- FOR 320 - Field Experience in Forest Measurements - 1 Credits
- NRES 405 - Selected Topics in Natural Resources - 1-3 Credits
- SOIL 359 - Soil Conservation and Watershed Inventory Techniques - 1 Credits
- SOIL 360 - Field Experience in Soil Inventory Methods - 1 Credits
- WLDL 340 - Field Experience in Wildlife Management Techniques - 1 Credits
- WATR 380 - Field Experience in Aquatic Ecosystem Evaluation - 1 Credits

OR

International Summer Field Experience, 8 Credits

Complete ALL of the following Courses:

- NRES 475 - International Field Experiences in Natural Resources Management - 1-8 Credits

Email: kherrman@uwsp.edu OR cnr@uwsp.edu
Web: https://www.uwsp.edu/cnr/college-of-natural-resources/fisheries-and-water-resources/

About this Program

The **fisheries and water resources bachelor of science degree** prepares you for a career or graduate study in fishery science or management, aquatic biology, hydrology, hydrogeology (groundwater), laboratory analysis of water and environmental samples, aquatic toxicology, and the assessment and management of water resources. You must select one of three options: Fisheries and Aquatic Sciences; Hydrology; or Water Resources.

The **fisheries and aquatic sciences option** prepares you for employment in consulting firms or state, tribal or federal resource management agencies where you would be involved in manipulating fishery resources through regulating human use, managing aquatic habitat, and stocking. With a BS degree in fisheries, you will likely begin your professional employment as a limited term employee. An MS degree will greatly increase employment potential and job responsibilities in fisheries and aquatic sciences. If you complete the requirements for the fisheries and aquatic sciences option with a grade of C or better in all required courses, you will have completed the minimum course requirements for certification by the American Fisheries Society as a certified fisheries professional. For more information about certification see the American Fisheries Society website.

Learning Outcomes

Program Learning Outcomes (UWSP)

1. Identify fish and aquatic invertebrates common to North America

2. Explain how basic ecological principles define aquatic ecosystems

3. Demonstrate how principles of fish population dynamics regulate fish production

4. Synthesize fisheries information in research and management

Fish and Water Resources Major (BS): Hydrology Option

Requirements

Simple Requisites

Curriculum
This major is administered by the Fisheries and Water Resources Discipline.

Consists of a minimum of 92 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 101, CHEM 105, PHYS 201, MATH 225, MATH 255, and FOR 321.

Program Requirements
Type
Completion Requirement

Hydrology, 23 credits

Complete ALL of the following Courses:

- NRES 377 - Remote Sensing I - 3 Credits
  OR GEOG 377 - Remote Sensing I - 3 Credits
- WATR 200 - Preparing for a Career in Fisheries and Water Resources - 1 Credits
- WATR 383 - Hydrogeology - 3 Credits

Email: kherrman@uwsp.edu OR cnr@uwsp.edu
Web: https://www.uwsp.edu/cnr/college-of-natural-resources/fisheries-and-water-resources/

About this Program
The fisheries and water resources bachelor of science degree prepares you for a career or graduate study in fishery science or management, aquatic biology, hydrology, hydrogeology (groundwater), laboratory analysis of water and environmental samples, aquatic toxicology, and the assessment and management of water resources. You must select one of three options: FISH-AQUA; HYDROLOGY; or Water Resources.

In the water resources option, you develop a flexible program of courses with your adviser to prepare you for one or more career paths. You can emphasize the physical, chemical or biological aspects of water resource management or combinations thereof. The breadth of electives allows you to complete a minor in such areas as chemistry, soil science, geographic information systems and spatial analysis that will enhance and focus your career opportunities. Graduates are normally employed by environmental consulting firms, or by county, state, tribal or federal resource management agencies that are involved in protecting and managing the quality and quantity of water resources.

1. Describe the hydrologic cycle using statistical and deterministic methods common to water resources

2. Describe chemical, physical, and biological characteristics of an aquatic ecosystem

3. Demonstrate the ability to plan and carry out a quantitative water resources project

Graphic Design Major (BFA)

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Graphic Design in the School of Design and Communication.

Consists of a minimum of 78 total credits in Art and Design and related disciplines; the distribution is as follows:

- 15 credits in Creative Core Foundation
- 15 credits in Studio Electives
- 12 credits in Art and Design History, Theory, Criticism
- 33 credits in Graphic Design Coursework
- 3 credits in Graphic Design Capstone

Program Requirements
Type
Completion Requirement

Creative Core Foundation, 15 credits

Complete ALL of the following Courses:

- DSN 101 - Foundation Studio: Drawing and Visualization - 3 Credits
- DSN 102 - Foundation Studio: Surface and Concept - 3 Credits
- DSN 103 - Foundation Studio: Space, Form, and Function - 3 Credits
- DSN 104 - Foundation Studio: Color, Light, and Perception - 3 Credits
- MSTU 105 - Foundations of Media Practice: Time, Motion, and Video - 3 Credits

Graphic Design Studio Courses, 36 credits

Complete ALL of the following Courses:

- GD 201 - Professional Practice I: Processes and Tools - 3 Credits
- GD 202 - Professional Practice II: Processes and Systems - 3 Credits
- GD 210 - Visual Culture I: Representation - 3 Credits
- GD 220 - Visual Culture II: Narrative - 3 Credits
- GD 301 - Professional Practice III: Type and Image - 3 Credits
- GD 302 - Professional Practice IV: Industry and Identity - 3 Credits
- GD 310 - Visual Culture III: Motion and Space - 3 Credits
- GD 320 - Problem Solving I: Branding and Marketing Campaigns - 3 Credits
- GD 401 - Professional Practice V: Design Research Methods - 3 Credits
- GD 410 - Problem Solving II: Systems and Strategies - 3 Credits
- GD 420 - Problem Solving III: Identity Systems and Marketing Strategies - 3 Credits
- GD 430 - Professional Practice VII: Graphic Design Portfolio - 3 Credits

BFA Portfolio Review

Pass Portfolio Review

BFA Portfolio Review:

Passing the BFA Portfolio Review is required for admission into the BFA (professional) program. This review is conducted by art and art history faculty. You must have completed DSN 101, DSN 102, DSN 103, ART 201, and a choice of six credits from other art studio courses.

The review must take place before you complete 24 studio art credits. If you complete 24 studio art credits during the fall semester, you must complete the review the following spring semester. You may attempt the BFA Portfolio Review only once.

If you do not pass the BFA Portfolio Review, you may maintain BA status in Art & Art History Area. Graduating with a BA degree is contingent upon meeting the specific major requirements of the BA degree.

BFA Portfolio Review Appeals Process:

You may appeal any action taken by the Art & Art History Area that is based on the School's requirements and policies that are set forth in this catalog. You must appeal in writing to the assistant dean within 30 days of notification of the action taken. The assistant dean will determine whether a review is appropriate. If so, a review team, composed of a faculty member appointed by the assistant dean and a faculty member that you select, will review the matter, and give a recommendation to the assistant dean.

BFA Review - Reconsideration Review:

You may be reconsidered for acceptance into the BFA after the School's Academic Appeal 30-day limit has passed. This appeal must be made to the assistant dean and must include three letters of support from art and art history or graphic design faculty who have worked with the student in the classroom. The appeal will automatically trigger a new BFA review by a review team made up of faculty members from the Art & Art History Area. The new review must take place within 30 days of receiving the final letter of support. A reconsideration review may be attempted once.

Art and Design History, Theory, Criticism, 12 credits

Fulfill ALL of the following requirements:

Required Courses, 9 credits

Complete ALL of the following Courses:

- ART 111 - Introduction to Global Art History I - 3 Credits
- ART 112 - Introduction to Global Art History II - 3 Credits
- GD 330 - Graphic Design and Contemporary Culture - 3 Credits

AND

Art History, 3 credits

Complete ANY of the following Courses:

- ART 370 - Early Chinese Art and Archaeology - 3 Credits
- ART 371 - Early Imperial Chinese Art - 3 Credits
- ART 372 - Late Imperial Chinese Art - 3 Credits
- ART 373 - The Rise of Modernism in Chinese Art - 3 Credits
- ART 375 - History of Japanese Painting and Woodblock Prints - 3 Credits
- ART 378 - Art Along the Ancient Silk Roads - 3 Credits
- ART 379 - Topics in Modern and Contemporary Art - 3 Credits
- ART 385 - History of Renaissance Art - 3 Credits
- ART 388 - Religion in 17th and 18th Century Art - 3 Credits
- ART 389 - Topics in 19th and 20th Century Art - 3 Credits
- ART 390 - History of American Art - 3 Credits
- ART 397 - Art History in International Programs - 3 Credits

Electives, 15 credits

Take 15 credits from the following courses. At least 9 credits must have an ART designation.

Earn at least 15 credits from the following:

- ART 201 - Drawing II - 3 Credits
- ART 215 - Photography I - 3 Credits
- ART 221 - Printmaking I - 3 Credits
- ART 234 - Painting I - 3 Credits
- ART 236 - Figure Drawing I - 3 Credits
- ART 250 - Integrative Studio I - 3 Credits
- ART 251 - Sculpture I - 3 Credits
- ART 256 - Glass I - 3 Credits
- ART 261 - Ceramics I - 3 Credits
- ART 290 - Art Seminar I - 3 Credits
- ART 301 - Drawing III - 3 Credits
- ART 304 - Visual Design for the Screen I - 3 Credits
- ART 315 - Photography II - 3 Credits
- ART 321 - Printmaking II - 3 Credits
- ART 334 - Painting II - 3 Credits
- ART 336 - Figure Drawing II - 3 Credits
- ART 347 - Illustration - 3 Credits
- ART 348 - Graphic Narration - 3 Credits
- ART 350 - Integrative Studio II - 3 Credits
- ART 351 - Sculpture II - 3 Credits
- ART 356 - Glass II - 3 Credits
- ART 361 - Ceramics II - 3 Credits
- ART 398 - Special Topics II - 1-3 Credits
- ART 401 - Drawing IV - 3 Credits
- ART 415 - Photography III - 3 Credits
- ART 421 - Printmaking III - 3 Credits
- ART 434 - Painting III - 3 Credits
- ART 436 - Figure Drawing III - 3 Credits
- ART 451 - Sculpture III - 3 Credits
- ART 456 - Glass III - 3 Credits
- ART 461 - Ceramics III - 3 Credits
- DNCE 220 - Movement Analysis and Theory - 3 Credits
- IA 204 - Digital Design and Presentation Techniques I - 3 Credits
- IA 304 - Digital Design and Presentation Techniques II - 3 Credits
- IA 404 - Digital Design and Presentation Techniques III - 3 Credits
- MSTU 106 - Foundations of Criticism: Understanding Media - 3 Credits
- MSTU 253 - Video Production I - 3 Credits
- MSTU 254 - Audio Production I - 3 Credits
- MSTU 322 - Introduction to Digital Photography - 3 Credits
- MSTU 352 - Audio Production II - 3 Credits
- MSTU 356 - Video Production II - 3 Credits
- MUS 109 - Songwriting - 3 Credits
- THEA 146 - Stagecraft - 3 Credits
- THEA 241 - Scene Design I - 3 Credits
- THEA 242 - Lighting Design I - 3 Credits
- THEA 243 - Costume Design I - 3 Credits
- THEA 244 - Makeup Design - 3 Credits
- THEA 245 - Properties Design - 3 Credits
- THEA 341 - Scene Design II - 3 Credits
- THEA 342 - Lighting Design II - 3 Credits
- THEA 343 - Costume Design II - 3 Credits
- THEA 349 - Theatrical Sound Design - 3 Credits

Design Internship, 0 credits

Pass Design Internship
BFA majors must pass the Design Internship, as specified (see Catalog description of procedures for Design Internship).

Alternately, you can elect to enroll in International Programs Internship: ART 417

Additional Comments:

No Requirement Level

Standards

Admission Standards

Academic Standards
As a graphic design student you must first meet the academic entrance requirements of the university. Since individual development is an expectation, you should be prepared to present a portfolio of design work for review and evaluation periodically throughout the program as requested.

BFA Requirement

In order to complete the BFA program, you must satisfy the graphic design foundation requirements, pass the BFA Portfolio Review, and maintain a 2.67 or higher GPA in all graphic design courses. This includes transfer credits

and applies regardless of any declaration of academic forgiveness. For graduation, you must also successfully pass ART 491.

Credits in Residence

Any student transferring into graphic design from another institution must complete a minimum of 21 credits within the department for the BFA degree.

Graphic Design Foundation Requirement

You need a 2.67 or higher GPA in the graphic design foundation (graphic design Foundation and Art History Foundation combined), including transfer credits and regardless of any declaration of academic forgiveness, to maintain your status as an art major and to qualify for the BFA Portfolio Review. The foundation consists of DSN 101, DSN 102, DSN 103, DSN 104, MSTU 105, and 6 credits of 100-level Art History.

Probation for Graphic Design Major

If your GPA is below the minimum requirement, you will receive a warning that your academic status is unsatisfactory. If your GPA falls below the minimum requirement for two consecutive semesters, you will be dismissed as a major. The School of Design & Communication's policy on repeating courses and academic forgiveness requires prior School authorization, but is otherwise the same as general university policy, except where higher School GPA requirements apply.

About this Program
The Graphic design major at UW-Stevens Point prepares students of diverse backgrounds to become creative professionals skilled in a variety of design processes and approaches to visual communication. Our curriculum provides the foundation for research-based inquiry and offers opportunities for teamwork, project management, personal discovery and community engagement.

The Graphic Design, BFA is the recognized professional degree for designers. The array of scaffolded Graphic Design courses and a variety of elective options in creative disciplines prepare you for employment in a wide range of design occupations. Supported by the university's General Education Program and a robust set of creative core Foundations classes, the Graphic Design, BFA offers an outstanding education in design, challenging you to discover your strengths and identify career path options. Faculty work with you throughout the program to assist in reaching your professional goals.

Learning Outcomes

Program Learning Outcomes (UWSP)
As a graduate of the Graphic Design, BFA you will be able to:

1. **TECHNICAL SKILLS:** Create high quality design solutions using tools and best practices to match current industry professional standards

2. **DESIGN RESEARCH:** Apply Investigation techniques that inform appropriate design decisions

3. **CULTURAL & SOCIAL AWARENESS:** Demonstrate culturally informed visual communication solutions

4. **INDUSTRY UNDERSTANDING:** Demonstrate a knowledge of the design industry and its professional expectations

5. **CREATIVITY:** Demonstrate an ability to engage in design processes for communication/ create using the design process

Urban Planning and Geodesign Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the Department of Geography and Geology within the College of Letters and Science.

Consists of 21 credits.

Program Requirements
Type
Completion Requirement

Required Core, 15 credits

Complete ALL of the following Courses:
- GEOG 230 - Introduction to Regional Planning and Geodesign - 3 Credits
- GEOG 330 - Urban and Regional Planning Analysis - 3 Credits
- GEOG 341 - Geographic Information Systems I - 3 Credits
- GEOG 377 - Remote Sensing I - 3 Credits
- GEOG 433 - GIS and Geodesign for Sustainability and Resiliency - 3 Credits

Planning Electives, 3 credits

Complete ANY of the following Courses:
- GEOG 141 - The Geospatial Revolution - 3 Credits
- GEOG 331 - Planning Theory and Ethics - 3 Credits
- NRES 488 - Land Use Plan Implementation - 3 Credits
- SOC 360 - Population Problems - 3 Credits

Geospatial Technology Electives, 3 credits

Complete ANY of the following Courses:
- GEOG 342 - GIS Database Design and Data Modeling - 3 Credits
- GEOG 343 - Geographic Information Systems II - 3 Credits

Additional Comments:

No Requirement Level

Standards

Academic Standards
1. To be accepted into a major or minor offered by the Department of Geography and Geology you must file a major declaration form in the School of Behavioral and Social Sciences.

2. To be retained and approved for graduation with a major or a minor offered by the Department of Geography and Geology, you must have a 2.00 cumulative GPA in all courses in the major or minor, regardless of any declaration of academic forgiveness.

3. Geology and Geography Department majors must have an adviser within the department. Any department faculty or academic staff member may advise a department major. You must confer with your adviser every semester. Students accepted into any of the minors offered by the department are not required to have an adviser within the department.

4. Geography and geology courses taken at the 300 or 400 level on a pass/fail basis do NOT count toward the geoscience major or any of the minors offered by the department.

Simple Requisites

Curriculum
This minor Is administered by the Department of Geography and Geology within the College of Letters and Science.

Consists of a minimum of 20 credits.

Program Requirements
Type
Completion Requirement

Required, 10-12 credits

Complete ALL of the following Courses:

- ASTR 150 - Planetary Geology - 3 Credits
  OR ASTR 205 - The Solar System - 4 Credits
  OR ASTR 311 - Introduction to Astronomy - 3 Credits
- GEOG 105 - The Dynamic Earth - 3 Credits
- GEOL 100 - Geology and Science - 3 Credits
  OR GEOL 104 - Physical Geology - 4 Credits
- GEOL 106 - Earth History - 1 Credits

Electives, 9-10 credits

Earn at least 9 credits from the following:

- GEOG 208 - Weather and Climate - 3 Credits
- GEOG 303 - Processes of Environmental Degradation - 3 Credits
- GEOG 308 - Climate: Past, Present and Future - 3 Credits
  OR GEOL 308 - Climate: Past, Present, and Future - 3 Credits
- GEOL 230 - Environmental Geology - 3 Credits
- GEOL 393 - Field Trip in Geology - 1-3 Credits
- NRES 220 - Global Climate Change and Water Resources: Present-10th Century - 3 Credits
  OR WATR 220 - Global Climate Change and Water Resources: Present-10th Century - 3 Credits
- NRES 251 - Introduction to Soil and Water Resources - 4 Credits
- SOIL 362 - Soil Genesis, Morphology and Classification - 3 Credits
- WATR 383 - Hydrogeology - 3 Credits

Geospatial Sciences Major (BS)

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of Geography and Geology within the College of Letters and Science.

Consists of a minimum of 44 credits depending on the classes selected. Additional credits will be needed to complete a required minor of choice.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: MATH 111, MATH 209, and MATH 255.

Program Requirements
Type
Completion Requirement

Auxiliary Minor

To complete this major, you must also complete a minor. any minor offered at UW-Stevens Point is acceptable, but it must be approved by your major adviser. Recommended minors include:

Complete ANY of the following Programs:
- GEOG-ER-MN - Earth Science Minor
- GEOG-EV-MN - Environmental Geography Minor
- GIS-MN - Geographic Information Systems and Spatial Analysis Minor
- GEO-PLN-MN - Urban Planning and Geodesign Minor
- CIS-MN - Computer Information Systems Minor
- WD-MN - Web Development Minor

Earth and Human Systems Foundations, 9-10 credits

Complete ALL of the following Courses:
- GEOG 100 - Human Impacts on the Physical Environment - 3 Credits
  OR GEOG 105 - The Dynamic Earth - 3 Credits
  OR GEOL 100 - Geology and Science - 3 Credits
  OR GEOL 104 - Physical Geology - 4 Credits
- GEOG 115 - World Regional Geography - 3 Credits
  OR GEOG 120 - Human Geography - 3 Credits
- GEOG 230 - Introduction to Regional Planning and Geodesign - 3 Credits

Geospatial Fundamentals, 9 credits

Complete ALL of the following Courses:
- GEOG 141 - The Geospatial Revolution - 3 Credits
- GEOG 341 - Geographic Information Systems I - 3 Credits
- GEOG 377 - Remote Sensing I - 3 Credits

Human - Environment, 6 credits

Earn at least 6 credits from the following:
- GEOG 208 - Weather and Climate - 3 Credits
- GEOG 303 - Processes of Environmental Degradation - 3 Credits
- GEOG 308 - Climate: Past, Present and Future - 3 Credits
- GEOG 317 - Africa - 3 Credits
- GEOG 330 - Urban and Regional Planning Analysis - 3 Credits
- GEOG 331 - Planning Theory and Ethics - 3 Credits
- GEOG 393 - Field Trip in Geography - 1-3 Credits
- GEOL 230 - Environmental Geology - 3 Credits

Geospatial Techniques, 6 credits

Earn at least 6 credits from the following:
- GEOG 260 - Introduction to Cartography: Map Conceptualization and Development - 3 Credits
- GEOG 342 - GIS Database Design and Data Modeling - 3 Credits
- GEOG 343 - Geographic Information Systems II - 3 Credits
- GEOG 433 - GIS and Geodesign for Sustainability and Resiliency - 3 Credits
- GEOG 477 - Remote Sensing II - 3 Credits

Mathematics and Computer Science, 11 credits

Complete ALL of the following Courses:
- CNMT 101 - Introduction to Computing and Programming - 3 Credits
- CNMT 110 - Object-Oriented Programming - 4 Credits
- MATH 111 - Applied Calculus - 4 Credits
  OR MATH 209 - Mathematics for the Information Sciences - 4 Credits
  OR MATH 255 - Elementary Statistical Methods - 4 Credits

Geography Research, 3 credits

Earn at least 3 credits from the following:
- GEOG 393 - Field Trip in Geography - 1-3 Credits
- GEOG 399 - Research - 1-3 Credits
- GEOG 433 - GIS and Geodesign for Sustainability and Resiliency - 3 Credits
- GEOG 480 - Internship in Geography - 1-12 Credits
- GEOG 491 - Senior Thesis - 3 Credits
- GEOG 496 - Community Development Practices - 3 Credits

Learning Outcomes

Program Learning Outcomes (UWSP)
As a graduate of the Geospatial Sciences B.S. you will be able to:

1. Explain environmental processes and the resulting geographic patterns of climate, landforms, water, and life
2. Utilize appropriate methodologies for conducting geographic research and solving geospatial problems
3. Explain the development and spatial distribution of human cultural activities along with their relationship to environmental factors
4. Read, interpret, and analyze spatial information from thematic and reference maps
5. Explain the procedural elements in creating a map and create a reference or thematic map of a chosen spatial phenomenon

German Major (BA)

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of World Languages and Literatures within the College of Letters and Science.

Consists of 35 credits.

Program Requirements
Type
Completion Requirement

Required Core, 20 credits

Complete ALL of the following Courses:

- FLNG 250 - Introduction to World Languages - 3 Credits
- GERM 211 - Third Semester German - 4 Credits
- GERM 212 - Fourth Semester German - 4 Credits
- GERM 313 - Developing Speaking Proficiency - 3 Credits
- GERM 314 - Developing Writing Proficiency - 3 Credits
- GERM 315 - Developing Reading Proficiency - 3 Credits

Electives, 15 credits

12-15 additional credits of 300-400 level German course(s) taken at UWSP and/or one of our approved study-abroad programs

3 credits may be from one of the following:

- FLNG 251
- FLNG 252

Complete Electives

Other Requirements

Complete Global Seal of Biliteracy
Global Seal of Biliteracy: Apply, test, and receive the certification from the Global Seal of Biliteracy and provide a copy of the certification to the Department of World Languages and Literatures (if not previously obtained).

World Language Courses, 0-8 credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

Learning Outcomes

Program Learning Outcomes (UWSP)
1. **Oral Communication:** You will be able to create oral comprehensible output (i.e., your thoughts, ideas, and opinions) in the target language at the Intermediate-Low level minimum (students in the minor), and Intermediate-High level minimum (students in the major or in the teacher certification program) as described by the American Council on the Teaching of Foreign Languages (ACTFL) Proficiency Guidelines

2. **Written Communication:** You will be able to create written comprehensible output (i.e., your thoughts, ideas, and opinions) in the target language at the Intermediate-Low level minimum (students in the minor), and Intermediate High level minimum (students in the major or in the teacher certification program) as described by the ACTFL Proficiency Guidelines

3. **Interpretative Communication:** You will be able to understand, interpret and evaluate authentic material in the target language in its written and spoken form on a variety of topics at the Intermediate-Low level minimum (students in the minor), and Intermediate-High level minimum (students in the major or in the teacher certification program) as described by the ACTFL Proficiency Guidelines

4. **Intercultural Competency:** You will be able to compare and evaluate the relationship between the products, practices, and perspectives of the cultures of the target language and your own

5. **Communities:** You will be able to justify the usage of the target language beyond the school setting

German Major (BA): Education Option

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of World Languages and Literatures within the College of Letters and Science.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)
The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

This program meets the certification/licensure requirements in the following states/territories:
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, Wisconsin, Wyoming;

This program does not meet the certification/licensure requirements in the following states/territories:
American Samoa, Federated States of Micronesia, Guam, Nevada, Northern Mariana Islands, Puerto Rico, Republic of Palau, Republic of the Marshall Islands, West Virginia;

Note: If you live in a state or territory that does not meet certification/licensure requirements, you may contact the School of Education for more information.

Consists of a minimum of 48 credits.

Program Requirements
Type
Completion Requirement

Required Core, 23 credits

Complete ALL of the following Courses:

- FLNG 250 - Introduction to World Languages - 3 Credits
- GERM 211 - Third Semester German - 4 Credits
- GERM 212 - Fourth Semester German - 4 Credits
- GERM 313 - Developing Speaking Proficiency - 3 Credits
- GERM 314 - Developing Writing Proficiency - 3 Credits
- GERM 315 - Developing Reading Proficiency - 3 Credits
- GERM 345 - Advanced Conversation and Composition - 3 Credits

Electives, 12 credits

Complete Electives
Any German course at the 300- or 400- level except for GERM 313, GERM 314, or GERM 315.

Other Requirements

Complete Second Language and Global Seal of Biliteracy
Second Language Proficiency: Complete two exams administered by Language Testing International: 1) ACTFL Oral Proficiency Interview (OPI)® or ACTFL Oral Language Proficiency Interview-computer (OPIc)® and 2) the ACTFL Writing Proficiency Test (WPT). The passing score for these exams is set at the ACTFL proficiency level of Intermediate High.

Global Seal of Biliteracy: Apply, test, and receive the certification from the Global Seal of Biliteracy and provide a copy of the certification to the Department of World Languages and Literatures (if not previously obtained).

Foreign Language Education Courses

Complete ALL of the following Courses:

- FLED 333 - Teaching Second Languages - 3 Credits
- FLED 398 - Student Teaching in a Foreign Language - 1-16 Credits
  OR FLED 498 - Intern Teaching - 1-16 Credits
- FLED 400 - Seminar on Teaching for Student Teachers - 1-2 Credits

FLED 400 should be taken for 1 credit concurrently with FLED 398 or FLED 498

World Language Courses, 0-8 credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

Additional Comments:

No Requirement Level

Standards

Academic Standards

Standards (Teaching) for the Department of World Languages and Literatures

1. Student Teaching: The chair of the Department of World Languages and Literatures and the director of the Office of Field Experiences approve student teaching programs. You register for FLED 398 (1- 16 credits), FLED 400 (1 credits), and receive an assignment at the grade level for which you are seeking certification.

2. Professional Education Program: Requirements for the Professional Education Program are listed in the Education section earlier in this catalog.

Learning Outcomes

Program Learning Outcomes (UWSP)
1. Oral Communication: You will be able to create oral comprehensible output (i.e., your thoughts, ideas, and opinions) in the target language at the Intermediate-Low level minimum (students in the minor), and Intermediate-High level minimum (students in the major or in the teacher certification program) as described by the American Council on the Teaching of Foreign Languages (ACTFL) Proficiency Guidelines

2. Written Communication: You will be able to create written comprehensible output (i.e., your thoughts, ideas, and opinions) in the target language at the Intermediate-Low level minimum (students in the minor), and Intermediate High level minimum (students in the major or in the teacher certification program) as described by the ACTFL Proficiency Guidelines

3. Interpretative Communication: You will be able to understand, interpret and evaluate authentic material in the target language in its written and spoken form on a variety of topics at the Intermediate-Low level minimum (students in the minor), and Intermediate-High level minimum (students in the major or in the teacher certification program) as described by the ACTFL Proficiency Guidelines

4. Intercultural Competency: You will be able to compare and evaluate the relationship between the products, practices, and perspectives of the cultures of the target language and your own

5. Communities: You will be able to justify the usage of the target language beyond the school setting

Geographic Information Systems and Spatial Analysis Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the Department of Geography and Geology within the College of Letters and Science.

Consists of at least 18 credits.

Program Requirements
Type
Completion Requirement

Requirec Core, 12 credits

Complete ALL of the following Courses:

- GEOG 341 - Geographic Information Systems I - 3 Credits
- GEOG 343 - Geographic Information Systems II - 3 Credits
- GEOG 377 - Remote Sensing I - 3 Credits
- GEOG 477 - Remote Sensing II - 3 Credits

Electives, 6 credits

Earn at least 6 credits from the following:

- GEOG 260 - Introduction to Cartography: Map Conceptualization and Development - 3 Credits
- GEOG 342 - GIS Database Design and Data Modeling - 3 Credits
- GEOG 433 - GIS and Geodesign for Sustainability and Resiliency - 3 Credits
- GEOG 480 - Internship in Geography - 1-12 Credits
- NRES 394 - Targeted Conservation Through Advanced GIS - 3 Credits
- WATR 391 - GIS Applications in Natural Resources - 3 Credits

Additional Comments:

No Requirement Level

Standards

Academic Standards
1. To be accepted into a major or minor offered by the Department of Geography and Geology you must file a major declaration form in the School of Behavioral and Social Sciences.

2. To be retained and approved for graduation with a major or a minor offered by the Department of Geography and Geology, you must have a 2.00 cumulative GPA in all courses in the major or minor, regardless of any declaration of academic forgiveness.

3. Geology and Geography Department majors must have an adviser within the department. Any department faculty or academic staff member may advise a department major. You must confer with your adviser every semester. Students accepted into any of the minors offered by the department are not required to have an adviser within the department.

4. Geography and geology courses taken at the 300 or 400 level on a pass/fail basis do NOT count toward the geoscience major or any of the minors offered by the department.

About this Program
The GIS Professional Certificate is awarded upon successful culmination of a series of courses that focus on professional competency and proficiency in using GIS. Valued by both private and public employers, it substantiates your expertise in using GIS to address a broad range of geographic-based issues and problems. Program participants will acquire abilities to communicate effectively with maps, represent earth's cultural and physical features with GIS data, analyze geospatial patterns, trends, and relationships, and design geospatial models and scenarios for critical decision-making.

This certificate is also available at the graduate level. Contact the UW-Stevens Point Department of Geography and Geology for more information about the program.

- HCA 730 - Human Capital Management in Healthcare - 3 Credits
- HCA 740 - Healthcare Operations and Project Management - 3 Credits
- HCA 750 - Healthcare Quality and Performance Management - 3 Credits
- HCA 760 - Health Law and Policy - 3 Credits
- HCA 770 - Organization Development and Strategic Leadership in Healthcare - 3 Credits

Required Capstone Experience, 5 credits

Complete ALL of the following Courses:
- HCA 789 - Capstone Preparation - 1 Credits
- HCA 790 - Capstone - 3 Credits

Additional Comments:

No Requirement Level

Standards

Admission Standards
Admission to the program requires:

1. UW-Stevens Point application for graduate study

2. A bachelor's degree and minimum cumulative grade point average (GPA) of 3.0. If you have a GPA less than 3.0, you may be considered for a provisional admission and should contact an enrollment adviser for more information.

3. Official college transcripts

Academic Standards
Minimum GPA requirement for this program is 3.00.

4. Prerequisite coursework in elementary statistics, medical terminology, and oral communication/public speaking

5. Your resume

6. Two letters of recommendation

7. A personal statement of up to 1,000 words

8. Approval to begin the program

Coordinator Contact Information
Jodi Olmsted, Professor, MS-HCA Academic Program Director
Office: Room 144D, Science Building
Phone: 715-346-2510
Email: jolmsted@uwsp.edu

About this Program
The MS-HCA prepares patient-care professionals, health administrators, or management professionals to better accomplish the triple aim of improving access to care, impacting the quality of care, and reducing the overall cost of care in a variety of healthcare settings by increased skills in workforce recruitment and retention, financial management, organizational development, health law and policy, population health, and communication.

The fully online media-rich MS-HCA curriculum was developed by faculty at five partner campuses: UW-LaCrosse, UW-Parkside, UW-Platteville, UW-Stevens Point, and UW-Stout. Instruction may originate from any of these universities to utilize the academic strengths of the partner institutions.

Complete information about the Master of Science in Healthcare Administration (MS-HCA) program, including application and admission processes, is available at https://healthcareadministration.wisconsin.edu/.

Health Information Management and Technology Major (BS): Management Option

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Health Sciences and Wellness in the School of Health Sciences and Wellness.

Take 19 core courses and then complete the 4 "Health Information Management (HIM)" courses. There are no electives.

Graduates will earn an option in Health Information Management.

Consists of a minimum of 69 credits.

Program Requirements
Type
Completion Requirement

Core Requirements, 57 credits

Complete ALL of the following Courses:
- BIOL 101 - General Biology - 5 Credits
  OR BIOL 110 - Principles of Biology I - 5 Credits
  OR BIOL 160 - Introduction to Animal Biology - 5 Credits
- HIMT 300 - Survey of Contemporary Computing - 3 Credits
- HIMT 301 - Digital Literacy in Healthcare - 3 Credits
- HIMT 310 - Healthcare Systems and Organizations - 3 Credits
- HIMT 320 - Survey of Information Technology in Healthcare - 3 Credits
- HIMT 330 - Healthcare I: Terminology and Body Systems - 3 Credits
- HIMT 340 - Ethical Issues, Security Management and Compliance - 3 Credits

- HIMT 350 - Statistics for Healthcare - 3 Credits
- HIMT 360 - Healthcare II: Survey of Disease and Treatments - 3 Credits
- HIMT 370 - Healthcare Systems: Analysis and Design - 3 Credits
- HIMT 380 - Healthcare Billing, Coding, and Reimbursement - 3 Credits
- HIMT 400 - Healthcare Information and Technology - 3 Credits
- HIMT 410 - Healthcare Systems: Implementation and Integration - 3 Credits
- HIMT 420 - Healthcare Systems: Project Management - 3 Credits
- HIMT 430 - Quality Assessment and Improvement - 3 Credits
- HIMT 440 - Group Processes, Team Building, and Leadership - 3 Credits
- HIMT 489 - Pre-capstone - 1 Credits
- HIMT 490 - Capstone Project - 3 Credits

Health Information Management (HIM), 12 credits

Complete ALL of the following Courses:

- HIMT 355 - Principles of Management for HIMT Professionals - 3 Credits
- HIMT 365 - Health Economics - 3 Credits
- HIMT 415 - Human Resource Management in Healthcare - 3 Credits
- HIMT 445 - Application of Leadership and Management in Healthcare Technology - 3 Credits

Additional Comments:
Note: You may elect to complete both HIMT tracks and earn a certificate for the second track (see TECHN-BS).

No Requirement Level

Standards

Admission Standards
To be admitted:

1. You must complete at least 60 undergraduate credits, be computer literate, and have a minimum 2.0 GPA.

2. If you wish to obtain a Bachelor of Science in HIMT, you must have completed all general education requirements.

3. Application: You must apply to the home campus of your choice who is offering the degree (i.e., UW-Stevens Point, UW-Parkside, UW-Green Bay, and UW-LaCrosse). For complete information on how to apply visit www.himt.wisconsin.edu.

4. The UW-Stevens Point School of Health Sciences and Wellness will work in conjunction with UW-Extended Campus advising to help you complete your degree. Application materials, procedures, dates, etc. are available at www.himt.wisconsin.edu.

5. Transfer students: you must have a 2.0 GPA from your prior institution and have completed all required general education requirements at the campus with whom you are choosing to affiliate.

6. If you are not officially accepted into the program, you will not be allowed to take upper level HIMT courses.

Academic Standards
Minimum GPA requirement for this program is 2.00.

About this Program
The online University of Wisconsin Bachelor of Science in Health Information Management and Technology (HIMT) is a degree completion program designed to equip you with the skills to work and lead in the health data management field. Health information professionals maintain, collect, and analyze the data that doctors, nurses, and other healthcare providers rely on to deliver quality healthcare. They are experts in managing patient health information, administering computer information systems, and coding diagnoses and procedures for healthcare services provided to patients.

HIMT is a collaborative, on-line degree. The curriculum for HIMT was developed by faculty at the four partner campuses, UW-Stevens Point, UW-Green Bay, UW-Parkside, and UW-La Crosse, to ensure curricular consistency and quality, and to utilize the academic strengths of the partner institutions.

The curriculum consists of 21 classes (61 total credits). Courses cover such topics as health and medical terminology, medical ethics, information technology in healthcare, health benefit plans and providers, and leadership and change management in healthcare. The HIMT curriculum offers two tracks: Health Information Technology (HIT) and Health Information Management (HIM). The HIT track prepares students for information technology roles in the healthcare, health insurance, and governmental fields. It's the foundation for positions from health data analyst to insurance claims coordinator. The HIM track prepares students to be leaders in providing better patient care, administering computer information systems and cost, and managing patient information relied upon by health professionals. You will take 17 core courses and then, depending on which track you choose, you will take four additional courses in a given track to complete the degree.

About this Program
The Health Information Management Certificate will be offered through the established collaborative online BS in Health Information Management and Technology Degree as a fully online, asynchronous curriculum for post-baccalaureate students comprised of existing BS-HIMT curriculum. The curriculum complies with the Commission on Accreditation for Health Information and Informatics Management (CAHIIM) Education standards currently being followed by the BS-HIMT program. Upon successful completion of the Health Information Management Certificate, students will be eligible to sit for professional credentials offered through The American Health Information Management Association (AHIMA). Credentials earned through AHIMA are the gold-standard for Health Information Management professionals.

For more information on specifics, contact the School of Health Sciences and Wellness.

History and Social Studies Education Major (BA)

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of History and International Studies within the College of Letters and Science.

It prepares you for teacher licensure in Social Studies (Middle and High School), following the requirements of the Wisconsin Department of Public Instruction.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)
The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

This program meets the certification/licensure requirements in the following states/territories:
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, New York, Nevada, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming;

This program does not meet the certification/licensure requirements in the following states/territories:
American Samoa, Federated States of Micronesia, Guam, Northern Mariana Islands, Puerto Rico, Republic of Palau, Republic of the Marshall Islands;

Note: If you live in a state or territory that does not meet certification/licensure requirements, you may contact the School of Education for more information.

Consists of a minimum of 90 credits from history, social sciences, and education, including the following courses below.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: ECON 110.

Program Requirements
Type
Completion Requirement

History, 24 credits

Complete ALL of the following Courses:

- HIST 100 - Historical Thinking - 3 Credits
- HIST 288 - Race and Ethnicity in American History - 3 Credits
- HIST 400 - Seminar Project - 3 Credits

AND

- 15 additional credits in history, with at least 9 credits at the 300- level or above.

Social Sciences, 27 credits

Complete ALL of the following Courses:

- ECON 110 - Principles of Macroeconomics - 3 Credits
- GEOG 115 - World Regional Geography - 3 Credits
  OR GEOG 120 - Human Geography - 3 Credits
- POLI 101 - American Politics - 3 Credits
- POLI 242 - State and Local Government - 3 Credits
- PSYC 110 - Introduction to Psychology - 3 Credits
- SOC 101 - Introduction to Sociology - 3 Credits

AND

- 9 additional credits in economics, human geography, political science, psychology, and/or sociology.

Education, 25 credits

Complete ALL of the following Courses:

- EDUC 205 - Pluralism for Educators - 2 Credits
- EDUC 300 - Seminar for Professional Educators II - 1 Credits
- EDUC 331 - Educational Technology - 3 Credits
- EDUC 351 - Educating Students with Special or Other Needs in the General Education Environment - 3 Credits
- EDUC 381 - Educational Psychology - 2 Credits
- EDUC 382 - Managing Learning Environments - 1 Credits
- EDUC 385 - Teaching the Early Adolescent - 3 Credits
- EDUC 386 - Literacy in the Secondary School - 3 Credits
- EDUC 400 - Student Teaching Seminar - 1-2 Credits
- HIED 405 - Methods in History and Social Studies Education - 3 Credits
- NRES 370 - Introduction to Environmental Study and Environmental Education - 3 Credits

Research Skills, 3 credits

Complete ALL of the following Courses:

- HIST 300 - Archival Research and Writing - 3 Credits

Student Teaching or Internship, 1-12 credits

Complete ALL of the following Courses:

- HIED 398 - Student Teaching in History and or Social Science - 1-12 Credits
- HIED 498 - Internship in History and or Social Science - 1-12 Credits

World Language Courses, 0-8 credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

- HIST 370 - Eastern Europe in the 20th Century - 3 Credits
- HIST 372 - Russian History and Civilization - 3 Credits
- HIST 373 - Soviet Union - 3 Credits

Field Experience, 3 credits

Earn at least 3 credits from the following:
- HIST 450 - Public Internship - 1-12 Credits

Professional Bridge

Complete at least one of the following bridges into a professional career, or complete a certificate, minor, or additional major.

Fulfill ANY of the following requirements:

Business Management Bridge, 13 credits

Complete ALL of the following Courses:
- ACCT 210 - Introductory Financial Accounting - 3 Credits

- ECON 110 - Principles of Macroeconomics - 3 Credits
- MATH 109 - Mathematics for the Social and Management Sciences - 4 Credits
  OR MATH 255 - Elementary Statistical Methods - 4 Credits
- BUS 320 - Principles of Management - 3 Credits
  OR BUS 325 - Organizational Behavior - 3 Credits

OR

Nonprofit Management Bridge, 12 credits

Complete ALL of the following Courses:

- ACCT 210 - Introductory Financial Accounting - 3 Credits
- ARTM 195 - Fundamentals of Arts Management - 3 Credits
- ARTM 300 - Topics in Arts Management - 3 Credits
  OR ENGL 347 - Grant and Proposal Writing - 3 Credits
- COMM 212 - Writing for Professional Communication - 3 Credits
  OR COMM 130 - Introduction to Public Relations - 3 Credits
  OR ENGL 351 - Advanced Business Writing - 3 Credits

OR

Public History Bridge, 16 credits

Complete ALL of the following Courses:

- HIST 207 - Global Natural Histories - 3 Credits
  OR HIST 296 - History and the Public - 3 Credits
- HIST 390 - Museum Exhibits - 3 Credits
  OR HIST 391 - Historical Documentaries - 3 Credits
  OR HIST 397 - Historic Preservation - 3 Credits
- NRES 367 - Park Interpretation - 2 Credits
  OR NRES 368 - Oral Interpretation Methods - 3 Credits
- ENGL 347 - Grant and Proposal Writing - 3 Credits
- NRES 369 - Interpretive Media - 4 Credits

OR

Data Analytics Bridge, 21 credits

Complete ALL of the following Courses:

- CIS 210 - Database Design and Implementation - 4 Credits
- CNMT 100 - Principles of Computing - 3 Credits
- DAC 101 - Introduction to Data Analytics - 3 Credits
- DAC 111 - Python Programming for Data Analytics - 4 Credits
- DAC 305 - Principles of Data and Modeling - 3 Credits
- DAC 310 - Machine Learning and Data Mining - 4 Credits

Research Skills and Experience, 6 credits

Complete ALL of the following Courses:

- HIST 300 - Archival Research and Writing - 3 Credits
- HIST 400 - Seminar Project - 3 Credits

World Language Courses, 0-8 credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

History (MST)

Requirements

Simple Requisites

Curriculum

Entry of new students to this program has been suspended as of Spring 2022.

This graduate program is administered by the Department of History and International Studies within the College of Letters and Science.

In consultation with your adviser, plan a program that best meets your professional needs. If you wish, you may specialize in a specific field of history.

After consulting with your education and history advisers, you determine your Program of Study in your area of specialization. If you wish to make exceptions to these history requirements, the history chair, graduate committee, and graduate program coordinator must approve them.

Program Requirements
Type
Completion Requirement

GPA Requirement

Achieve 3.25 GPA
Achieve 3.25 GPA in 30 credits of graduate work.

History Course Requirement

Complete at least 18 Credits of History
Earn at least 18 credits and no more than 24 in history, at least 12 of them at UW-Stevens Point. Earn at least 9 of these credits in courses 700 and above and at least 6 of them at UW-Stevens Point.

Required History, 3 Credits

Complete ANY of the following Courses:

- HIST 701 - Seminar in Global and Comparative History - 3 Credits
- HIST 716 - Seminar in Non-Western Regional History - 3 Credits
- HIST 756 - Seminar in European History - 3 Credits
- HIST 776 - Seminar in United States History - 3 Credits

Note: Do not concentrate all your work in any one area (e.g., American, European, or non-Western); earn at least 3 credits in a second area

Education Course Requirement

Complete at least 6 Credits of Education Courses
Earn 6-9 credits in 700 level education courses.

Culminating Experience Requirement

Choose an option:

Complete a Culminating Experience option below

Thesis option

If you choose to write the thesis, select a topic in consultation with your adviser and inform the graduate coordinator. After you submit the completed thesis, take an oral examination on it conducted by your thesis adviser and two other members of your department chosen by your adviser in consultation with you. Your adviser and one other member of your committee must approve both your thesis and your responses. You must also take a written comprehensive examination consisting of one question in education. For further information on the thesis, contact the History and International Studies Department Office.

Research paper/comprehensive exam option

If you choose to submit a research paper, you must also take a written comprehensive examination in history and education. If your degree is in history, you must display thorough factual and bibliographical knowledge of at least one area of history. If your degree is in history with a social science concentration, you must display the same knowledge of one area of history and one social science. In addition, you must write two comprehensive questions for the component of the MST in the School of Education.

Portfolio option

The third option for the culminating experience consists of the creation of a professional portfolio compiled under the supervision of a committee chaired by one department member whom you select, the graduate coordinator, and a third member of the department. The portfolio will consist of three parts:

1. A resume and a statement of your teaching philosophy.

2. Academic materials (exams, papers, book reviews, etc.) produced in your graduate history courses.

3. A detailed course proposal and sample of accompanying materials (i.e., lectures, in-class exercises, and homework assignments) that emerges out of your graduate coursework in history.

In addition, you must write two comprehensive questions for the component of the MST in the School of Education.

Requirements for all Master of Science in Teaching (MST) Degrees

Complete Requirements for all Master of Science in Teaching (MST) Degrees listed here
In addition to the general requirements of all master's degrees, the MST degree has the following requirements:

• Be eligible for teacher certification in your area of specialization (biology, English, history) in Wisconsin or another state.

• Complete a minimum of 30 graduate credits distributed among:

Group I: Major area of specialization, 18-24 credits. These courses provide additional depth in your teaching field and increase familiarity with new knowledge, problems, and trends.

Group II: Professional education, 6-9 credits. These courses enhance your understanding of education and improve performance in the art of teaching.

Group III: Liberal studies, 0-6 credits. These courses are taken outside the content area of your specialization and broaden your knowledge and outlook.

• Complete, at minimum, the equivalent of a major in your area of specialization at the completion of the graduate program.

• Have a minimum grade point average of 3.00 in your area of specialization at the time of graduation.

Additional Comments:

No Requirement Level

Standards

Admission Standards

Minimum requirements for admission to MST program are:

1. Application to Graduate Study.

2. An undergraduate major in history or social sciences.

3. A 2.75 cumulative GPA in your undergraduate work.

4. A 3.00 GPA in your undergraduate major.

5. If you do NOT meet all these criteria, you may appeal to the History Department Graduate Committee for acceptance on probation.

6. Complete a Program of Study form in consultation with your adviser, during the first semester you are in the graduate program.

Admission to Candidacy for History Graduate Program

After you have completed 12-15 credits of graduate work, have an evaluation meeting with your adviser. At that meeting, discuss your program, progress, and potential for success in completing your degree.

Health Science and Wellness Major (BS + MS) (3+2 Track)

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Health Sciences and Wellness in the School of Health Sciences and Wellness.

Consists of a minimum of 91 credits.

Program Requirements
Type
Completion Requirement

Academic Core Requirements

Complete Academic Core Requirements
Students interested in the Health Science and Wellness, BS + MS (3 + 2 Dual Degree - HSW, BS and AT, MS) must meet the following eligibility requirements:

1. Declare Health Science and Wellness, BS + MS as your major.

2. Maintain a minimum cumulative GPA of 3.0 and attain at least a C grade in prerequisite coursework for the MS-AT.

3. In addition to meetings with the academic advisors, students should schedule an introductory meeting with the MS-AT Program Director during their first year at UWSP.

4. Complete the Dual Degree Option intent form with the MS-AT Program Director (recommended to be completed by or during semester 3 of your undergraduate program).

5. Complete the MS-AT application in ATCAS during semester 5 of your undergraduate HSW program.

6. If you are not accepted into the MS-AT, you can continue with the 4-year HSW undergraduate plan.

Required courses, 31 credits

Complete ALL of the following Courses:
- HSW 101 - Introduction to Health and Wellness Careers - 3 Credits
- HSW 104 - Medical Terminology - 3 Credits
- HSW 110 - Individualized Exercise Programming - 1 Credits
- HSW 150 - Health and Wellness Delivery Systems - 3 Credits
- HSW 205 - Recognition and Prevention of Common Diseases - 3 Credits
- HSW 290 - Psychological Aspects of Health - 3 Credits
- HSW 300 - Programming, Promotion, and Advocacy - 3 Credits
- HSW 304 - Health and Wellness Coaching - 3 Credits
- HSW 310 - Communication in Health Care - 3 Credits
- HSW 385 - Professionalism and Leadership - 3 Credits
- HSW 395 - Epidemiology and Public Health - 3 Credits

Pre-Athletic Training and Athletic Training Courses, 30 credits

Complete ALL of the following Courses:
- AT 181 - Introduction to Athletic Training - 1 Credits
- AT 700 - Foundations of Professional Practice in Athletic Training - 3 Credits
- AT 701 - Emergency Response to Injury and Illness - 3 Credits
- AT 720 - Therapeutic Interventions I - 3 Credits
- AT 755 - Health Conditions and Medical Interventions - 3 Credits
- AT 790 - Evidence Based Practice I - 3 Credits
- FN 354 - Introduction to Nutrition and Nutrient Metabolism - 3 Credits
- HSW 312 - Exercise Physiology - 3 Credits
- HSW 375 - Kinesiology - 3 Credits
- PHYS 101 - General Physics - 5 Credits
  OR PHYS 203 - College Physics I - 5 Credits

Note: AT 700, AT 701, AT 720, AT 755, and AT 790 would be taken during the 4th year with acceptance into the MS-AT program.

Collateral Courses, 30-36 credits

Fulfill ALL of the following requirements:

Biology Collateral Courses, 5-10 credits

Fulfill ANY of the following requirements:

Biology Option 1

Complete ANY of the following Courses:
- BIOL 101 - General Biology - 5 Credits
- BIOL 160 - Introduction to Animal Biology - 5 Credits

OR

Biology Option 2

Complete ALL of the following Courses:
- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits

AND

Required Collateral Courses, 25-26 credits

Complete ALL of the following Courses:
- BIOL 287 - Essentials of Human Anatomy - 4 Credits
  OR BIOL 387 - Human Anatomy - 4 Credits
- BIOL 385 - Human Physiology - 4 Credits

Standards

Academic Standards
• For continued registration as a Health Science major you must have a grade point average of 2.75 overall and in the sciences, including biology, chemistry, mathematics, and health science. You are screened for acceptability to apply for internship positions.

• Grades in required courses taken prior to declaring academic forgiveness or in repeating courses will be used in calculating your grade point average. No more than two courses with grades of less than C- will be accepted in the major. If you do not meet these standards, you may petition the director for consideration. The minimum GPA for graduation is 2.50.

Learning Outcomes

Program Learning Outcomes (UWSP)
As a graduate of the Health Science and Wellness Program, you will gain the following competencies:

1. Leadership and Professionalism: Demonstrate ethical leadership by applying emotional intelligence, empowering others, fostering collaboration, and driving positive social change.

2. Person Centered Communication: Develop and apply effective person-centered communication strategies.

3. Wellness and Resilience: Apply wellness practices to foster resiliency both personally and professionally.

4. Research and Programming: Integrate evidence-based practices through critical thinking and analysis.

5. Specialized Application: Employ health science and wellness concepts to address the specific needs of an individual or population.

Health Science and Wellness Major (BS): Clinician Degree Option

Requirements

About this Program
The Health and Wellness Coaching Graduate Certificate teaches competencies needed to help clients make and maintain healthy changes. The program is designed with busy professionals in mind. It is comprised of four courses offered 100% online via a mix of scheduled live interactive classes and independent learning modules. The program can be taken for continuing education credits (CECs) and/or for graduate credit. Both options meet the standards of the National Board for Health and Wellness Coaching (NHWC) and prepare you to sit for the NBHWC certification exam. More information about this program is available at www.uwsp.edu/health/Pages/graduate/hwc/program.aspx.

The UWSP Health and Wellness Coaching Graduate Certificate Program is a National Board of Health and Wellness Coaching approved program. Once you complete the four courses in the certificate program, you will be eligible to sit for the NBHWC exam. The program content is aligned with NBHWC curriculum requirements and include the following:

1. Expertise in health and wellness

2. Health and wellness coaching foundations

3. Advanced techniques in health and wellness coaching

4. Ethics and preparation for professional practice.

Interior Architecture Major (BFA)

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Interior Architecture in the School of Design and Communication.

Consists of 75 credits.

Program Requirements
Type
Completion Requirement

Creative Core Foundation, 12 credits

Complete ALL of the following Courses:

- DSN 101 - Foundation Studio: Drawing and Visualization - 3 Credits
- DSN 102 - Foundation Studio: Surface and Concept - 3 Credits
- DSN 103 - Foundation Studio: Space, Form, and Function - 3 Credits
- DSN 104 - Foundation Studio: Color, Light, and Perception - 3 Credits

Interior Architecture Design Core, 42 credits

Complete ALL of the following Courses:

- IA 117 - Introduction to Interior Architecture - 3 Credits
- IA 120 - Human Behavior and Built Environments - 3 Credits
- IA 204 - Digital Design and Presentation Techniques I - 3 Credits
- IA 217 - Interior Architecture I - 3 Credits
- IA 304 - Digital Design and Presentation Techniques II - 3 Credits
- IA 317 - Interior Architecture II - 3 Credits
- IA 322 - Architectural Systems I - 3 Credits
- IA 324 - Architectural Systems II - 3 Credits
- IA 326 - Lighting Design - 3 Credits
- IA 393 - Comprehensive Design Study Tour - 1 Credits
- IA 394 - Field Experience - 3 Credits
- IA 404 - Digital Design and Presentation Techniques III - 3 Credits
- IA 410 - Professional Practice - 3 Credits
- IA 417 - Interior Architecture Advanced Studio I - 4 Credits
- IA 418 - Interior Architecture Advanced Studio II - 4 Credits
- IA 420 - Interior Architecture Senior Portfolio and Exhibition - 3 Credits

Note: You must have a laptop computer and approved computer-aided design (CAD) software before you begin IA 304 and IA 217.

History and Theory of Architecture, Interior Design, and Art, 12 credits

Complete ALL of the following Courses:

- IA 210 - History of Architecture and Design: European Influences - 3 Credits
- IA 310 - History of Architecture and Design: Non-European Influences - 3 Credits
- IA 312 - Applied Advanced History and Theory of Architectural Design and Decorative Arts - 3 Credits
- ART 111 - Introduction to Global Art History I - 3 Credits
  OR ART 112 - Introduction to Global Art History II - 3 Credits

Electives, 6 credits

Complete Design-related Electives:
Choose from Interior Architecture and/or from select courses outside the IA major, with a significant relevance to the application of design including but not limited to: Art, Design, and Graphic Design.

With written approval from your IA faculty adviser and the IA Area Coordinator, you may take up to 3 of the 6 required credits from approved design-related courses in other disciplines.

Additional Comments:

No Requirement Level

Standards

Academic Standards
You must also have a minimum 2.75 cumulative GPA in courses required for the major, including transfer courses, regardless of any declaration of academic forgiveness. You may repeat a course in the major if you follow the course repeat policy found in the Repeating Courses section of this catalog.

IA Professional Sequence

The IA Professional Sequence begins in semester 4 of the IA Graduation Plan. Admission to the IA Professional Sequence is based upon the following:

1. A minimum cumulative GPA of 2.75 in DSN 101, DSN 102, DSN 103, DSN 104, IA 204, IA 117, IA 217, and IA 304 is required.

2. The submission of a portfolio which includes project work from the above studio courses. You will receive instructions on the portfolio requirements in Semester 3.

3. To enter the professional sequence of courses, you must have successfully completed DSN 101, DSN 102, DSN 103, DSN 104, IA 204, IA 117, IA 217, and IA 304.

4. If the above conditions have not been met, and you wish to submit for an additional portfolio review, you must request that in writing to the IA Area Coordinator and re-submit work from the above courses for reconsideration.

5. Entering into the Professional Sequence the subsequent semester is required. If students need to defer admittance, they must notify the Interior Architecture Area Coordinator prior to the portfolio submission.

6. In addition to the GPA minimum of 2.75 as noted above, portfolios may be used for determining admission into the Professional Sequence. If it is necessary to limit the number of students admitted to the professional sequence and the portfolios are determined to be of equal quality, students with higher cumulative GPAs will be admitted.

Additional Professional Sequence Criteria

You must have a laptop computer for use by the start of your third semester of the IA program. Laptops must meet the minimum requirements put forth by the Interior Architecture program. Refer to the IA website for specific information.

Senior Portfolio Review

To graduate with a major in interior architecture you must undergo a senior portfolio review and show.

Learning Outcomes

Program Learning Outcomes (UWSP)
As a graduate of the Interior Architecture, BFA you will be able to:

1. Design Process:

a. Demonstrate a masterful design process pertaining to a particular design challenge

b. Use various methods of concept generation, creative thinking, testing, evaluating, and synthesizing information from research

c. Describe aesthetic, functional, and environment-behavior aspects relevant to a complex spatial problem and apply them in the design solution in a comprehensive manner

d. Demonstrate a sound knowledge and design application of sustainable systems, building codes and standards to the built environment

e. Generate a cohesive set of design communication materials through both visual and oral presentation

2. Global and Cultural Perspectives:

a. Demonstrate an ability to think critically about historical design and artifacts of non-Western cultures

b. Identify non-Western historical art/design periods and styles and analyze the determinants that shape the historical design of non-Western cultures

c. Apply a variety of ideas and non-Western worldviews by critically formulating reflective and informed aesthetic evaluations of non-Western historical design/artifacts

d. Demonstrate an ability to think critically about historical architectural design purpose, practice and profession with an emphasis on the emergence of the interior's discipline

e. Identify historical architectural art and design periods and styles and analyze the determinants that shape them within Western cultures

f. Apply a variety of design philosophies and worldviews by critically formulating reflective and informed aesthetic evaluations of historical and contemporary design artifacts and examples

g. Recognize the timeless links between human culture and design communication, technology, methodologies, and practices

3. Professional Practice:

a. You will be able to illustrate and model ethical and professional behaviors

b. Apply discipline-specific standards of oral and written communication to compose an articulate, grammatically correct, and organized presentation/piece of writing with properly documented and supported ideas, evidence, and information suitable to the topic, purpose, and audience

c. Critique your own and others' writing/oral presentations to provide effective and useful feedback to improve their communication

d. Identify and illustrate creative and effective approaches to develop a portfolio format, theme, and content (Comprehension and Analysis)

e. Assemble a professional dossier of design work and personal marketing materials (Synthesis)

f. Develop and demonstrate an understanding of public perception and visual communication through a portfolio show (Application)

g. Critique, analyze, and refine design work (Depth and Enhancement to studio projects)

About this Program
The Certificate in International Relations will provide you with working knowledge of the international governance system including international security, international political economy, international organizations and law, and foreign policy. You will develop research and analysis skills for addressing policy questions in international relations and will learn about how world regions and nations face diverse sets of constraints and opportunities depending on their position in the international system.

Academic Standards

To graduate with a major or minor in international studies, you must have a 2.00 GPA in required courses, including transfer courses, regardless of any declaration of academic forgiveness. See the Repeating Courses policy. Courses in international studies are open to all students who meet the prerequisites.

About this Program

About this Program

International studies represents a distinctively interdisciplinary and multi-disciplinary program with a particular emphasis on area cultural studies. The curriculum trains you for competitive careers in a global economy by combining linguistic and cultural knowledge, regional geographic specialization, along with the analytical tools of scholarly methodologies from the Humanities and Social Sciences.

International Studies represents a uniquely interdisciplinary major that provides professional training for competitive careers in the global economy. This major aligns with outcomes for international cultural studies and global competency as defined by the Programme for International Student Assessment created by the Organization for Economic Co-Operation and Development. Our major thus emphasizes cultural knowledge, language skills, intercultural communication, international historical perspectives, global affairs, and critical thinking. Our recent graduates serve as directors of study abroad offices at major institutions, leaders in international non-profit organizations, lawyers and foreign service officers, and project managers for multi-national corporations.

Learning Outcomes

Program Learning Outcomes (UWSP)

With diligent effort, as a globally competent student, you will demonstrate your ability to:

1. Investigate the world beyond the U.S., identify significant international issues, and conduct well-crafted, level-appropriate, interdisciplinary research

2. Recognize perspectives, others' and your own, articulate and explain such perspectives thoughtfully and respectfully

3. Communicate ideas effectively with diverse audiences, bridging geographic, linguistic, ideological, and cultural barriers

4. Take action to improve conditions, viewing yourselves as players in the world, and participating reflectively

International Studies Minor

Requirements

Simple Requisites

Curriculum

This minor is administered by the Department of History and International Studies within the College of Letters and Science.

Consists of 24 credits plus world language requirement.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: ECON 110.

Complete Option A or Option B

Option A (Recommended for students not planning to study abroad)

Type
Completion Requirement

Foundational courses, 9 credits

Complete ALL of the following Courses:
- FLNG 101 - Intercultural Communication and Global Citizenship - 3 Credits
  OR FLNG 250 - Introduction to World Languages - 3 Credits
  OR FLNG 252 - Media Arts in World Cultures - 3 Credits
  OR GEOG 100 - Human Impacts on the Physical Environment - 3 Credits
  OR GEOG 115 - World Regional Geography - 3 Credits
  OR GEOG 120 - Human Geography - 3 Credits
  OR PHIL 121 - Critical Thinking - 3 Credits
  OR REL 100 - Religions of Asia - 3 Credits
  OR REL 101 - Judaism, Christianity, Islam - 3 Credits
- HIST 100 - Historical Thinking - 3 Credits
  OR HIST 101 - World History to 1500 - 3 Credits

OR HIST 102 - World History Since 1500 - 3 Credits
OR HIST 204 - Modern Global Environmental History - 3 Credits
- POLI 160 - Comparative Politics - 3 Credits
  OR POLI 180 - Introduction to Global Affairs - 3 Credits

HIST 100 must be taken with the topic of *Global Cultural Concepts*, or other appropriate subtitle

Language Requirement, 0-8 credits

Complete Language Requirement
Native Language is English
If your native language is English, you must complete or test out of two semesters of college level world language.

Native Language is Not English
If your native language is not English, then you may use English to fulfill your international studies language requirement, by completing either ENGL 150 or ENGL 202.

Interdisciplinary Methods and Professional Research, 6 credits

Complete ALL of the following Courses:
- HIST 400 - Seminar Project - 3 Credits
  OR INTL 480 - Senior Seminar - 3 Credits
- INTL 200 - Interdisciplinary Approaches to Global Issues - 3 Credits

HIST 400 must be taken with the topic of *International History*, or other appropriate subtitle

International Cultural Studies and Global Competency, 9 credits

Take 9 credits from the following course list; 6 credits must be in courses numbered 300 and above. A course used to fulfill a requirement in the Foundational Courses or the Language Requirement for the minor cannot count twice as fulfilling credits in this category as well.

You may take any 300-level or above course in a world language (Chinese, French, German, Japanese, Spanish, and Russian) OR the following courses:

Earn at least 9 credits from the following:
- ANTH 110 - Cultural Anthropology - 3 Credits
- ANTH 320 - Anthropology of Religion - 3 Credits
- ANTH 325 - Culture and Language - 3 Credits
- ART 111 - Introduction to Global Art History I - 3 Credits
- ART 112 - Introduction to Global Art History II - 3 Credits
- ART 170 - Survey of Asian Art I - 3 Credits
- ART 171 - Survey of Asian Art II - 3 Credits
- ART 370 - Early Chinese Art and Archaeology - 3 Credits
- ART 371 - Early Imperial Chinese Art - 3 Credits
- ART 372 - Late Imperial Chinese Art - 3 Credits
- ART 373 - The Rise of Modernism in Chinese Art - 3 Credits
- ART 375 - History of Japanese Painting and Woodblock Prints - 3 Credits

Invasive Species Management Certificate

Requirements

Simple Requisites

Curriculum
This certificate is administered by the Fisheries and Water Resources Discipline.

Consists of a minimum of 13 credits.

Program Requirements
Type
Completion Requirement

Background - Introduction to invasive species and regulations, 3 cr.

Complete ANY of the following Courses:

- NRES 324 - Invasive and Exotic Species - 3 Credits
  OR WATR 324 - Invasive and Exotic Species - 3 Credits

Recognition - Identification of native and non-native species, 5-12 cr.

Fulfill ALL of the following requirements:

Required, 1 or 4 credits

Complete ANY of the following Courses:

- BIOL 342 - Vascular Plant Taxonomy - 4 Credits
- NRES 405 - Selected Topics in Natural Resources - 1-3 Credits

BIOL 405 should be taken for 1 credit with the topic of *Plant Identification*

AND

Required Recognition Electives, 4-8 credits

Complete at least 2 of the following courses:

- BIOL 342 - Vascular Plant Taxonomy - 4 Credits
- BIOL 361 - Aquatic Invertebrate Zoology - 3 Credits
  OR WATR 361 - Aquatic Invertebrate Zoology - 3 Credits
- BIOL 367 - General Entomology - 4 Credits
- BIOL 374 - Ichthyology - 4 Credits
  OR WATR 384 - Life History of Fishes - 3 Credits
- FOR 232 - Dendrology and Silvics - 3 Credits
- FOR 342 - Urban Trees and Shrubs - 2 Credits
- FOR 424 - Forest Pathology - 3 Credits
- FOR 426 - Forest Entomology - 3 Credits
- WATR 347 - Aquatic Plant Taxonomy - 2 Credits
- WLDL 372 - Wildlife of North America - 3 Credits

BIOL 342 can only be taken if not taken above

Management, restoration and outreach - Skills for control, restoration and education, 6 cr.

Fulfill ALL of the following requirements:

Required, 3 credits

Complete ALL of the following Courses:

- FOR 224 - Fire Operations - 1 Credits
  OR FOR 305 - Pulpcut - Chainsaw Safety and Use I - 1 Credits
  OR FOR 396 - Science of Tree Felling - 1 Credits
- FOR 336 - Pesticides in Natural Resource Management - 1 Credits
- NRES 336 - Integrated Pest Management Workshop - 1 Credits

AND

Required Management Electives, 3 credits

Complete ANY of the following Courses:

- FOR 324 - Fire Management and Ecology - 3 Credits
- NRES 301 - Foundations of Environmental Education I - 3 Credits
- NRES 368 - Oral Interpretation Methods - 3 Credits
- NRES 458 - Biodiversity and Conservation Biology - 3 Credits
- NRES 459 - Ecosystem Management and Restoration - 3 Credits
- WATR 360 - Wetlands Ecology and Management - 3 Credits
  OR WLDL 360 - Wetlands Ecology and Management - 3 Credits
- WATR 484 - Fisheries Management - 3 Credits
- WLDL 305 - Selected Topics in Wildlife Ecology and Management - 1-3 Credits
- WLDL 450 - Human Dimensions of Wildlife - 3 Credits
- WLDL 458 - Wildlife Ecology and Conservation Biology - 3 Credits

WLDL 305 should be taken for 3 credits with the topic of *Wildlife Damage Management*

About this Program
Invasive species are a growing impediment to natural resource management impacting native communities of plants and animals, recreational pursuits as well as food and fiber production. This certificate provides skills needed to control, manage, and educate the public about non-invasive species that are problematic. It is interdisciplinary and provides the skills needed to understand and manage invasive species in aquatic and terrestrial environments. Coursework includes required and elective coursework in three topical areas listed below.

Standards

Admission Standards

• Bachelor's degree with a 3.0 or higher undergraduate GPA

• Completed coursework with a "C" or better-or demonstrated sufficient knowledge-in programming (object oriented, modern language), database, and computer networking. Program academic directors have the option to waive a prerequisite based, in part, on student work experience and background. Technical certifications such as Oracle, Microsoft, IBM, AWS, Cisco, or professional experience may be used in lieu of formal coursework to demonstrate proficiency at the discretion of the academic adviser at the student's home campus.

In addition, prospective students are required to submit the following application materials:

• Resume

• Two letters of recommendation (can be professional or academic)

• Up to 1,000 word statement of personal intent describing your decision to pursue the degree and what you believe you will bring to the information technology management field.

Academic Standards

Minimum GPA requirement for this program is 3.00.

• Up to 1,000 word statement of personal intent describing your decision to pursue the degree and what you believe you will bring to the information technology management field.

Academic Standards
Minimum GPA requirement for this program is 3.00.

About this Program

About this Program
The online MS in Information Technology Management program is a collaborative online degree program that represents a fully online fixed curriculum. UW-La Crosse, UW-Oshkosh, UW-Parkside, UW-Stevens Point, UW-Stout, and UW-Superior offers the program jointly. The program represents a multidisciplinary curriculum that balances real-world applications and practices relevant to the current field and draws primarily from business, information systems, information technology, cybersecurity, data science, communications, and project management. Graduates of the program will gain the knowledge and skills required to manage information technology functions across a wide range of industries.

Students in the Information Technology Program have diverse backgrounds-from business analysts and project managers, to developers and systems engineers- they all share a common interest: IT leadership. Students of the online UW IT Management Master's degree program are motivated to advance their careers, impact the future of technology for their organizations, and become effective leaders.

IT Operations Graduate Certificate

Requirements

Simple Requisites

Curriculum
This graduate certificate is administered by the Department of Computing and New Media Technologies within the College of Letters and Science. It is offered through the established collaborative online M.S. in Information Technology Management.

Consists of 9 credits.

Program Requirements
Type
Completion Requirement

Required

Complete ALL of the following Courses:

- ITM 730 - Agile and Traditional IT Project Management - 3 Credits
- ITM 735 - Business Analysis and System Development - 3 Credits
- ITM 740 - IT Operations - 3 Credits

Additional Comments:

No Requirement Level

Standards

Admission Standards
• Bachelor's degree with a 3.0 or higher undergraduate GPA

• Completed coursework with a "C" or better-or demonstrated sufficient knowledge-in programming (object oriented, modern language), database, and computer networking. Program academic directors have the option to waive a prerequisite based, in part, on student work experience and background. Technical certifications such as Oracle, Microsoft, IBM, AWS, Cisco, or professional experience may be used in lieu of formal coursework to demonstrate proficiency at the discretion of the academic adviser at the student's home campus.

In addition, prospective students are required to submit the following application materials:

• Resume

• Two letters of recommendation (can be professional or academic)

• Up to 1,000 word statement of personal intent describing your decision to pursue the degree and what you believe you will bring to the information technology management field.

Academic Standards
Minimum GPA requirement for this program is 3.00.

About this Program
The Graduate Certificate in IT Operations represents an in-program certificate and credential within the existing and well-established MS in Information Technology Management (ITM) program. The certificate program is offered as a fully online, asynchronous curriculum comprised of three existing courses (9 credits) within the ITM curriculum.

Linguistics and Language Study Interdisciplinary Certificate

Requirements

Simple Requisites

Curriculum
This certificate is administered by the Department of English within the College of Letters and Science.

Consists of a minimum of 13 credits.

Program Requirements
Type
Completion Requirement

World Language Study or Equivalent, 0-8 credits

Two semesters of college level world language study or the equivalent.

Linguistics, 3 credits

Complete ALL of the following Courses:
- ENGL 240 - Introduction To Linguistics - 3 Credits

Scientific, Humanistic, or Social Science Perspective, 9 credits

Choose three courses for a total of 9 credits from the following areas. At least 3 credits must be from Scientific Perspective or Humanistic Perspective, and 3 credits from Social Science Perspective:

Fulfill ALL of the following requirements:

Scientific Perspective

Earn at least 3 credits from the following:
- CSD 260 - Phonetics - 3 Credits
- CSD 266 - Language Development - 3 Credits
- FREN 420 - Phonetics and Phonology - 3 Credits
- GERM 420 - Phonetics and Phonology - 3 Credits
- PHIL 322 - Symbolic Logic - 3 Credits
- SPAN 420 - Phonetics and Phonology - 3 Credits

AND

Humanistic Perspective

Earn at least 3 credits from the following:
- CSD 342 - Basic American Sign Language - 2 Credits
- ENGL 341 - Invented Languages - 3 Credits
- ENGL 342 - English Grammars - 3 Credits
- ENGL 344 - History of the English Language - 3 Credits
- ENGL 345 - English Language for Teachers - 3 Credits
- ENGL 346 - Old English - 3 Credits
- ENGL 379 - Rhetorical Theory - 3 Credits

AND

Social Science Perspective

Earn at least 3 credits from the following:
- ENGL 340 - Language, Gender, and Sexuality - 3 Credits
- ENGL 343 - Sociolinguistics: Languages and Dialects of the U.S. - 3 Credits
- PSYC 331 - Cognitive Psychology - 3 Credits
- PSYC 490 - Seminar: Topics in Psychology - 3 Credits

Capstone Project, 1 credit

Project to be completed in or after the semester in which the coursework described above is completed.

Complete ALL of the following Courses:
- ENGL 401 - Capstone Course for the Interdisciplinary Certificate in Language - 1 Credits

Additional Comments:

No Requirement Level

Standards

Academic Standards
Minimum GPA requirement for this program is 2.00.

About this Program
The Linguistics and Language Study Interdisciplinary Certificate allows you to learn about the human capability for language from a variety of perspectives. These include language as an integrated system of rules (linguistics) as the result of specific cognitive processes (psychology), as a communicative pathology to be remediated (Communication Sciences and Disorders), and as a practical key into another linguistic world (World Languages). This certificate provides a solid foundation for students wishing to pursue graduate study in language-related fields such as linguistics, rhetoric, psychology, sociology, philosophy, communication, and foreign languages.

Life Science for Educators Certificate

Requirements

Simple Requisites

Curriculum
This certificate program is administered through the Biology Department and program coordinator within the College of Letters and Science.

Consists of a minimum of 13 credits:

Program Requirements
Type
Completion Requirement

Required, 5-7 credits

Complete ALL of the following Courses:
- BIOL 100 - Biological Principles and the Human Environment - 3 Credits
  OR BIOL 101 - General Biology - 5 Credits

OR BIOL 110 - Principles of Biology I - 5 Credits
OR BIOL 130 - Introduction to Plant Biology - 5 Credits
OR BIOL 160 - Introduction to Animal Biology - 5 Credits
- BIOL 205 - Survey of Ecology and Evolution - 2 Credits

Note: BIOL 100 and BIOL 101 cannot both be applied to this certificate.

Electives, 8-10 credits

Complete Electives
- Additional Biology courses, Chemistry courses, or NRES150 People, Res and the Biosphere

About this Program
This certificate program is intended for, but not limited to, those students pursuing a degree in elementary education and/or natural resource education. It can be completed concurrently with your undergraduate degree in elementary education, secondary education, or a related field with consent of the program coordinator.

This certificate is intended to augment the life science content for those students already completing a major in education, teaching pedagogy and/or curricular design. Courses in the program focus on content standards suggested by the Next Generation Science Standards and best practices for teaching inquiry-based lessons and argument-driven biology. This certificate does not meet the requirements for a Biology license through the Wisconsin Department of Public Instruction.

Leadership and Project Management Emphasis (AS)

Requirements

Simple Requisites

Curriculum
This program is administered by the area of Business within the Sentry School of Business and Economics.

General Degree Requirements

1. You must complete a minimum of 60 credits to receive the AS. At least 15 of the credits must be earned at the institution's three campuses.
2. You must have a grade point average (GPA) of 2.0 earned cumulatively at the institution's three campuses, and a 2.0 overall GPA in credits applied to the AS.
3. The Associate Degree General Education requirements must be fulfilled. Some of those requirements will be fulfilled by courses required for this degree.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: ECON 110, ECON 111 and MATH 255.

Program Requirements
Type
Completion Requirement

Required Courses, 27 credits

Complete ALL of the following Courses:
- ACCT 210 - Introductory Financial Accounting - 3 Credits
- ACCT 211 - Introductory Managerial Accounting - 3 Credits
- BUS 110 - Personal Financial Literacy - 3 Credits
- BUS 322 - Business Leadership for Managers - 3 Credits
- BUS 325 - Organizational Behavior - 3 Credits
- BUS 329 - Project Management - 3 Credits
- ECON 110 - Principles of Macroeconomics - 3 Credits
- ECON 111 - Principles of Microeconomics - 3 Credits
- MATH 255 - Elementary Statistical Methods - 4 Credits

Mathematics Major (BS): Actuarial Option

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of Mathematical Sciences within the College of Letters and Science.

Consists of a minimum of 66 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: MATH 225.

Program Requirements
Type
Completion Requirement

Mathematics Foundation, 22 credits

Complete ALL of the following Courses:
- MATH 225 - Calculus I - 5 Credits
- MATH 226 - Calculus II - 5 Credits
- MATH 227 - Calculus III - 4 Credits
- MATH 230 - Introduction to Linear Algebra - 4 Credits
- MATH 300 - Introduction to Proof - 4 Credits

Core, 32 credits

Fulfill ALL of the following requirements:

Probability and Statistics

Complete ALL of the following Courses:
- MATH 356 - Probability and Statistics I - 3 Credits
- MATH 357 - Probability and Statistics II - 3 Credits

AND

Theory of Interest

Complete ALL of the following Courses:
- MATH 362 - Theory of Interest - 3 Credits

AND

Computer Programming

Complete ALL of the following Courses:
- CIS 102 - Practicum in Computing - 1 Credits
- CNMT 101 - Introduction to Computing and Programming - 3 Credits
- CNMT 110 - Object-Oriented Programming - 4 Credits

AND

Accounting

Complete ALL of the following Courses:
- ACCT 210 - Introductory Financial Accounting - 3 Credits

AND

Economics

Complete ALL of the following Courses:
- ECON 110 - Principles of Macroeconomics - 3 Credits
- ECON 111 - Principles of Microeconomics - 3 Credits

AND

Finance

Complete ALL of the following Courses:
- BUS 350 - Principles of Finance - 3 Credits
- BUS 353 - Investments - 3 Credits

Breadth Electives, 12-14 credits

Fulfill ALL of the following requirements:

Breadth Electives Section 1

Earn at least 6 credits from the following:
- MATH 305 - Discrete Mathematics - 3 Credits
- MATH 309 - Optimization Modeling - 3 Credits
- MATH 310 - Operations Research I - 3 Credits
- MATH 315 - Operations Research II - 3 Credits
- MATH 320 - Differential Equations - 3 Credits
- MATH 323 - Mathematical Analysis - 3 Credits
- MATH 324 - Complex Variables - 3 Credits
- MATH 327 - Advanced Calculus - 3 Credits
- MATH 330 - Intermediate Linear Algebra - 3 Credits
- MATH 331 - Abstract Algebra - Rings and Fields - 3 Credits
- MATH 332 - Abstract Algebra - Group Theory - 3 Credits
- MATH 367 - Mathematics of Decision and Choice - 3 Credits
- MATH 380 - History of Mathematics - 3 Credits
- MATH 381 - Mathematical Research Methods - 3 Credits

AND

Breadth Electives Section 2

Earn at least 3 credits from the following:
- BUS 343 - Principles of Insurance - 3 Credits
- BUS 352 - Financial Management - 3 Credits
- BUS 356 - Corporate Risk Management - 3 Credits
- ECON 310 - Introductory Econometrics - 3 Credits
- ECON 360 - Money and Financial Markets - 3 Credits
- MATH 390 - Special Topics in Mathematics - 1-3 Credits
- MATH 395 - Seminar - 1-3 Credits
- MATH 499 - Independent Study - 1-3 Credits

- one additional course from the Breadth Electives above (Breadth Electives Component 1)

AND

Breadth Electives Section 2

Complete ANY of the following Courses:

- ACCT 211 - Introductory Managerial Accounting - 3 Credits
- CIS 210 - Database Design and Implementation - 4 Credits
- ENGL 351 - Advanced Business Writing - 3 Credits

Other Requirements

Take an actuarial exam; also take:

Complete ALL of the following Courses:

- MATH 358 - Seminar to Prepare for Actuarial Exam P - 1 Credits

The course requirement of MATH 358 is waived if you pass the actuarial exam

Additional Comments:

No Requirement Level

Standards

Academic Standards

To have a major in mathematics approved for graduation, you must have a minimum grade point average of 2.00 (2.75 to student teach) in the math courses you select to satisfy the requirements of the major. In addition, you must achieve a grade of C or better in at least 18 credits in required courses numbered 300 or above. These standards apply regardless of a declaration of academic forgiveness. The department chair may allow exceptions on a conditional basis.

Learning Outcomes

Program Learning Outcomes (UWSP)

The Mathematics Program Learning Outcomes are:

1. **PROBLEM SOLVING:**

a. you can create mathematical models

b. you can apply problem solving techniques in new situations

2. **MATHEMATICAL TECHNIQUES:** you will demonstrate a set of mathematical techniques and be able to use them in appropriate situations

3. **PATTERNS:** you can recognize, characterize and generalize patterns using mathematical language

4. **COMMUNICATION:** you can accurately interpret, clearly write and orally express mathematical concepts in a variety of settings including algebra and mathematical analysis. This includes mathematical terminology, mathematical theorems and mathematical proofs

5. **CONNECTIONS:**

a. you will recognize and articulate how mathematical ideas interconnect

b. you will recognize and articulate how to apply mathematical ideas in contexts outside of mathematics

Mathematics Major (BS)

Requirements

Simple Requisites

Curriculum

This major is administered by the Department of Mathematical Sciences within the College of Letters and Science.

Consists of a minimum of 43 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: MATH 225.

Program Requirements

Type

Completion Requirement

Interdisciplinary Requirements, 0-8 credits

Complete Interdisciplinary Requirements

Take the following:

- Take at least 8 credits numbered 101 or higher (courses numbered 100 do not count) of courses in BIOL, CHEM, PHYS, ASTR, CIS, CNMT or WD.

OR

- Complete a major or minor other than those offered by the Department of Mathematical Sciences

Mathematics Foundation, 22 credits

Complete ALL of the following Courses:

- MATH 225 - Calculus I - 5 Credits
- MATH 226 - Calculus II - 5 Credits
- MATH 227 - Calculus III - 4 Credits
- MATH 230 - Introduction to Linear Algebra - 4 Credits
- MATH 300 - Introduction to Proof - 4 Credits

Core Courses, 6 credits

Earn at least 6 credits from the following:

- MATH 323 - Mathematical Analysis - 3 Credits
- MATH 324 - Complex Variables - 3 Credits
- MATH 327 - Advanced Calculus - 3 Credits
- MATH 330 - Intermediate Linear Algebra - 3 Credits
- MATH 331 - Abstract Algebra - Rings and Fields - 3 Credits
- MATH 332 - Abstract Algebra - Group Theory - 3 Credits
- MATH 372 - Topology - 3 Credits

Applied Courses, 6 credits

Earn at least 6 credits from the following:

- MATH 305 - Discrete Mathematics - 3 Credits
- MATH 309 - Optimization Modeling - 3 Credits
- MATH 310 - Operations Research I - 3 Credits
- MATH 315 - Operations Research II - 3 Credits
- MATH 320 - Differential Equations - 3 Credits
- MATH 356 - Probability and Statistics I - 3 Credits
- MATH 357 - Probability and Statistics II - 3 Credits

Electives, 9-10 credits

Fulfill ALL of the following requirements:

Electives Option 1

Earn at least 6 credits from the following:

- MATH 305 - Discrete Mathematics - 3 Credits
- MATH 309 - Optimization Modeling - 3 Credits
- MATH 310 - Operations Research I - 3 Credits
- MATH 315 - Operations Research II - 3 Credits
- MATH 320 - Differential Equations - 3 Credits

- MATH 323 - Mathematical Analysis - 3 Credits
- MATH 324 - Complex Variables - 3 Credits
- MATH 327 - Advanced Calculus - 3 Credits
- MATH 330 - Intermediate Linear Algebra - 3 Credits
- MATH 331 - Abstract Algebra - Rings and Fields - 3 Credits
- MATH 332 - Abstract Algebra - Group Theory - 3 Credits
- MATH 335 - Number Theory - 3 Credits
- MATH 356 - Probability and Statistics I - 3 Credits
- MATH 357 - Probability and Statistics II - 3 Credits
- MATH 367 - Mathematics of Decision and Choice - 3 Credits
- MATH 372 - Topology - 3 Credits

AND

Electives Option 2

Complete course(s) and earn 3 - 4 credits from the following:

- MATH 380 - History of Mathematics - 3 Credits
- MATH 381 - Mathematical Research Methods - 3 Credits
- MATH 390 - Special Topics in Mathematics - 1-3 Credits
- MATH 395 - Seminar - 1-3 Credits
- MATH 499 - Independent Study - 1-3 Credits
- one additional course from the Electives above (Electives Option 1)

Mathematics Major (BS): Education Option

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of Mathematical Sciences within the College of Letters and Science.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)
The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

This program meets the certification/licensure requirements in the following states/territories:
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, New York, Nevada, North Carolina, North Dakota, Northern Mariana Islands, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming;

This program does not meet the certification/licensure requirements in the following states/territories:
American Samoa, Federated States of Micronesia, Guam, Puerto Rico, Republic of Palau, Republic of the Marshall Islands;

Note: If you live in a state or territory that does not meet certification/licensure requirements, you may contact the School of Education for more information.

Also see information about the Professional Education Program in the Education section of this catalog, and information about Secondary Education for teacher certification in the Secondary/K-12 Education Curriculum for Teacher Certification section of this catalog.

Consists of a minimum of 62 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: MATH 225.

Program Requirements
Type
Completion Requirement

Science Requirements

Complete Science Requirements
Take at least 9 credits of General Education Natural Science courses, CNMT, CIS, or WD courses.

Mathematics Foundation, 18 credits

Complete ALL of the following Courses:

- MATH 225 - Calculus I - 5 Credits
- MATH 226 - Calculus II - 5 Credits
- MATH 230 - Introduction to Linear Algebra - 4 Credits
- MATH 300 - Introduction to Proof - 4 Credits

Abstract Algebra, 3 credits

Complete ANY of the following Courses:

- MATH 331 - Abstract Algebra - Rings and Fields - 3 Credits
- MATH 332 - Abstract Algebra - Group Theory - 3 Credits

Statistics, 4 or 6 credits

Fulfill ANY of the following requirements:

Statistics Option 1

Complete ALL of the following Courses:

- MATH 350 - Probability and Statistics with Teaching Methods - 3 Credits
- MED 350 - Teaching Probability and Statistics - 1 Credits

OR

Statistics Option 2

Complete ALL of the following Courses:

- MATH 356 - Probability and Statistics I - 3 Credits
- MATH 357 - Probability and Statistics II - 3 Credits

Math Education, 14 credits

Complete ALL of the following Courses:

- EDUC 205 - Pluralism for Educators - 2 Credits
- MATH 340 - College Geometry with Teaching Methods - 3 Credits
- MED 334 - Technology Tools for Mathematics Teachers - 4 Credits
- MED 335 - Techniques in Middle and Secondary Education - 4 Credits
- MED 340 - Teaching Geometry - 1 Credits

Breadth Electives, 6-8 credits

Fulfill ALL of the following requirements:

Breadth Electives Section 1

Earn at least 3 credits from the following:

- MATH 227 - Calculus III - 4 Credits
- MATH 305 - Discrete Mathematics - 3 Credits
- MATH 309 - Optimization Modeling - 3 Credits
- MATH 310 - Operations Research I - 3 Credits
- MATH 315 - Operations Research II - 3 Credits
- MATH 320 - Differential Equations - 3 Credits
- MATH 323 - Mathematical Analysis - 3 Credits
- MATH 324 - Complex Variables - 3 Credits
- MATH 327 - Advanced Calculus - 3 Credits
- MATH 330 - Intermediate Linear Algebra - 3 Credits
- MATH 335 - Number Theory - 3 Credits
- MATH 356 - Probability and Statistics I - 3 Credits
- MATH 367 - Mathematics of Decision and Choice - 3 Credits
- MATH 372 - Topology - 3 Credits

AND

Breadth Electives Section 2

Earn at least 3 credits from the following:

- MATH 380 - History of Mathematics - 3 Credits
- MATH 381 - Mathematical Research Methods - 3 Credits
- MATH 390 - Special Topics in Mathematics - 1-3 Credits
- MATH 395 - Seminar - 1-3 Credits
- MATH 499 - Independent Study - 1-3 Credits
- MED 379 - Teaching Middle School Mathematics - 4 Credits
- MED 390 - Special Topics - 1-3 Credits
- MED 399 - Special Work - 1-3 Credits

- or one additional course from Breadth Electives Section 1

Student Teaching, 8-16 credits

Complete Student Teaching

Take MED 398 or MED 498 (if you have more than one major, eight credits in each, otherwise 16 credits in MED 398 or MED 498).

Additional Comments:

No Requirement Level

Standards

Academic Standards

To have a major in mathematics approved for graduation, you must have a minimum grade point average of 2.00 (2.75 to student teach) in the math courses you select to satisfy the requirements of the major. In addition, you must achieve a grade of C or better in at least 18 credits in required courses numbered 300 or above. These standards apply regardless of a declaration of academic forgiveness. The department chair may allow exceptions on a conditional basis.

Additional Academic Standards for Teacher Certification:

1. A minimum grade point average of 2.75.

2. Elementary education majors are required to take MATH 228, MATH 338 and MATH 345.

3. Contact the Mathematical Sciences Department early for entrance requirements and application procedures. Also see information about the Professional Education Program in the Education section of this catalog, and information about Secondary Education for teacher certification in the Secondary/K-12 Education Curriculum for Teacher Certification section of this catalog.

Learning Outcomes

Program Learning Outcomes (UWSP)

1. **PROBLEM SOLVING:**

a. you can create mathematical models

b. you can apply problem solving techniques in new situations

2. **MATHEMATICAL TECHNIQUES:** you will demonstrate a set of mathematical techniques and be able to use them in appropriate situations

3. **PATTERNS:** you can recognize, characterize and generalize patterns using mathematical language

4. **COMMUNICATION:** you can accurately interpret, clearly write and orally express mathematical concepts in a variety of settings including algebra and mathematical analysis. This includes mathematical terminology, mathematical theorems and mathematical proofs

5. **CONNECTIONS:**

a. you will recognize and articulate how mathematical ideas interconnect

b. you will recognize and articulate how to apply mathematical ideas in contexts outside of mathematics

Management Major (BS) - Accredited by AACSB

Requirements

Simple Requisites

Curriculum

This major is administered by the area of Business in the Sentry School of Business and Economics.

Successfully complete a minimum of 77 credits in the Core and Management requirements as described below.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: MATH 109, MATH 111, MATH 225, ECON 110, ECON 111, ECON 200, ECON 243, FOR 321, HSW 301, MATH 354, MATH 357, PSYC 300, and SOC 351.

Program Requirements

Type

Completion Requirement

Core

In general, try to complete the core classes in approximately this sequence. The courses near the beginning of the list serve as prerequisites for courses near the end of the list.

Fulfill ALL of the following requirements:

Calculus, 3-5 credits

Complete ANY of the following Courses:

- MATH 109 - Mathematics for the Social and Management

Sciences - 4 Credits
- MATH 111 - Applied Calculus - 4 Credits
- MATH 225 - Calculus I - 5 Credits

Note: If you anticipate doing advanced study in a field such as Actuarial Science, you should take MATH 225.

AND

Economics, 6 credits

Fulfill ANY of the following requirements:

Economics Option 1

Complete ALL of the following Courses:
- ECON 110 - Principles of Macroeconomics - 3 Credits
- ECON 111 - Principles of Microeconomics - 3 Credits

OR

Economics Option 2

Complete ALL of the following Courses:
- ECON 200 - Principles of Economics - 3 Credits

AND
- an additional 3 credits in 200-400-level Economics coursework. You may not take ECON 497 or ECON 498 to satisfy this requirement. Classes you take as part of other requirements of the major do not satisfy this requirement.

AND

Accounting, 6 credits

Complete ALL of the following Courses:
- ACCT 210 - Introductory Financial Accounting - 3 Credits
- ACCT 211 - Introductory Managerial Accounting - 3 Credits

AND

Statistics, 3-4 credits

Complete ANY of the following Courses:
- MATH 255 - Elementary Statistical Methods - 4 Credits
- ECON 243 - Economic and Business Statistics - 3 Credits
- FOR 321 - Natural Resources Data Analysis - 4 Credits
- HSW 301 - Fundamentals of Biostatistics - 3 Credits
- MATH 354 - Applied Statistics - 4 Credits
- MATH 357 - Probability and Statistics II - 3 Credits
- PSYC 300 - Statistics for Psychologists - 4 Credits
- SOC 351 - Social Statistics - 4 Credits

AND

Business, 32 credits

Complete ALL of the following Courses:
- BUS 100 - Introduction to Business - 1 Credits
- BUS 201 - Writing and Presenting for Business - 3 Credits
- BUS 275 - AI and Technology in Business - 1 Credits
- BUS 301 - Building Relationships for Business - 3 Credits
- BUS 325 - Organizational Behavior - 3 Credits
- BUS 330 - Principles of Marketing - 3 Credits
- BUS 340 - Business Law and Ethics - 3 Credits
- BUS 350 - Principles of Finance - 3 Credits
- BUS 360 - Principles of Production-Operations Management - 3 Credits
- BUS 370 - Management Information Systems - 3 Credits
- BUS 380 - Principles of Business Analytics - 3 Credits
- BUS 480 - Management Capstone - 3 Credits

If you are completing an Accounting major, you may substitute ACCT 370 for BUS 370

AND

Internship, 3 credits

Complete ANY of the following Courses:
- ACCT 497 - Internship in Accounting - 1-15 Credits
- BUS 497 - Internship in Business Administration - 3-15 Credits
- ECON 497 - Internship in Economics - 1-15 Credits

Management

Successfully complete 24 credits of Management requirements in addition to the Core.

Fulfill ALL of the following requirements:

Required Management Courses, 9 credits

Complete ALL of the following Courses:
- BUS 322 - Business Leadership for Managers - 3 Credits
- BUS 324 - Human Resource Management - 3 Credits
- BUS 327 - Managing Global Organizations - 3 Credits

AND

Focused Management Electives, 9 credits

Earn at least 9 credits from the following:
- ACCT 321 - Cost Accounting - 3 Credits
- BUS 304 - Developing Skills to Lead and Manage - 3 Credits
- BUS 321 - Entrepreneurship - 3 Credits
- BUS 323 - Organizational Strategy - 3 Credits
- BUS 326 - Organizational Theory - 3 Credits
- BUS 328 - Training and Development - 3 Credits
- BUS 329 - Project Management - 3 Credits
- BUS 358 - Managing Budgets - 3 Credits
- BUS 365 - Applying Lean Six Sigma - 3 Credits
- BUS 390 - Ethics in Business - 3 Credits
- BUS 421 - Entrepreneurship in Action - 3 Credits
- BUS 490 - Special Topics in Business Administration - 1-15 Credits
- DAB 440 - Analytics and Decision Making - 3 Credits
- ECON 370 - Managerial Economics - 3 Credits
- PSYC 345 - Industrial Organizational Psychology - 3 Credits

General Electives, 6 credits

Complete General Electives
Successfully complete an additional 6 credits in Sentry School, 200-level or above, not including ACCT 497, ACCT 498, BUS 320, BUS 496, BUS 497, BUS 498, ECON 200, ECON 497, or ECON 498. Courses taken to satisfy other requirements for the major do not count towards this requirement.

Additional Comments:

No Requirement Level

Standards

Admission Standards

• You must apply for admission to the Management major before you complete 18 credits toward the major. You must be admitted to the management major to register for some upper-level courses and to graduate with a management major.

• Once you are accepted as a management major, you can receive specialized, one-on-one advising from the school faculty or staff.

• Minimum requirements: We encourage you to apply as soon as you have completed at least 10 credits toward the major.

Academic Standards

To graduate with a major in management, successfully complete all required courses in the major and achieve a cumulative grade point average of 2.5 or higher in all your major courses. See Academic Standards for the Sentry School of Business and Economics for more information on GPA requirements and for the Sentry School of Business and Economics repeat policy.

• If you are a transfer student: Apply before you complete 18 credits in the business administration major OR during your first semester at UW-Stevens Point.

• Exceptions: If you wish to request consideration of exceptional circumstances, do so in writing to the Sentry School Admissions Committee.

About this Program

About this Program
In the management major, you complete courses in core content from accounting, business, and economics, as well as courses specifically related to management. Upon completing the management major, you will be prepared to lead in the business world.

Learning Outcomes

Program Learning Outcomes (UWSP)
Evidence of Management graduates' level of preparation will be found in your ability to:

1. Analyze and solve Business and Economics problems:

a. you will be able to apply core concepts, models, and methods from business, accounting, and economics in identifying and solving problems

2. Demonstrate the intercultural competencies necessary to thrive in an increasingly global marketplace:

a. you will be able integrate global perspectives and competencies in business interactions

3. Appreciate the importance of behaving professionally and ethically:

a. you will be able to recognize and analyze an ethical dilemma, applying an appropriate ethical framework

b. you will be able to work effectively with others in team settings

4. Communicate Effectively:

a. you will be able to craft and present an effective professional oral presentation

b. you will be able to successfully write an effective professional report

5. Absorb concepts in areas of core business knowledge:

a. demonstrate literacy in accounting, economics, marketing, management, production, finance, information systems, and business law

b. demonstrate proficiencies in the core areas of Management

Military Science Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by Military Science.

Consists of 28 credits.

Program Requirements
Type
Completion Requirement

Required, 25 credits

Complete ALL of the following Courses:

- MSL 101 - Introduction to Military Leadership I - 1 Credits
- MSL 102 - Introduction to Military Leadership II - 1 Credits
- MSL 111 - Fall Leadership Lab - 1 Credits
- MSL 201 - Innovative Tactical Leadership - 3 Credits
- MSL 202 - Leadership in Contemporary Military Environments - 3 Credits
- MSL 301 - Adaptive Team Leadership - 4 Credits
- MSL 302 - Leadership and Ethical Decision-Making - 4 Credits
- MSL 401 - Building Adaptive Leaders - 4 Credits
- MSL 402 - Leadership in a Complex Security Environment - 4 Credits

Complete MSL 101, MSL 102, MSL 111, MSL 201, and MSL 202 or receive credit through advanced placement.

Electives, 3 credits

Earn at least 3 credits from the following:

- HIST 232 - Medieval and Early Modern Middle East - 3 Credits
- HIST 233 - Modern Middle East - 3 Credits
- HIST 302 - War and Propaganda in the 20th Century - 3 Credits
- HIST 338 - The Arab-Israeli Conflict - 3 Credits
- HIST 373 - Soviet Union - 3 Credits
- HIST 378 - U.S. Foreign Relations 1914 to the Present - 3 Credits
- HIST 385 - Women, War and Peace - 3 Credits
- HIST 387 - Revolutionary America - 3 Credits
- HIST 388 - The Civil War Era - 3 Credits
- POLI 383 - U.S. Foreign Policy - 3 Credits
- POLI 386 - Politics of Terrorism and Homeland Security - 3 Credits

Medical Laboratory Science Major (BS): Cytotechnology Option

Requirements

Simple Requisites

Curriculum
The major is administered by the area of Medical Laboratory Science in the School of Health Sciences and Wellness.

Includes the academic program (a minimum of 64 on-campus credits) and the clinical practicum (26 off-campus credits).

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: MATH 255, HSW 301, CHEM 105, and CHEM 106.

Medical Laboratory Science Academic Core
Type
Completion Requirement

General Education Program requirements

Complete the General Education Program

Medical Laboratory Science, 18 credits

Complete ALL of the following Courses:
- MLS 125 - Introduction to Clinical Laboratory Science - 2 Credits
- MLS 365 - Body Fluid Analysis - 2 Credits
- MLS 415 - Hematology - 4 Credits
- MLS 425 - Diagnostic Medical Microbiology - 5 Credits
- MLS 427 - Diagnostic Medical Parasitology - 1 Credits
- MLS 428 - Diagnostic Medical Mycology - 1 Credits
- MLS 435 - Immunology - 3 Credits

Foundational Biology

Fulfill ANY of the following requirements:

Biology Option 1

Complete ALL of the following Courses:
- BIOL 101 - General Biology - 5 Credits

OR

Biology Option 2

Complete ALL of the following Courses:
- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits

OR

Biology Option 3

Complete ALL of the following Courses:
- BIOL 160 - Introduction to Animal Biology - 5 Credits

Biology

Complete ALL of the following Courses:
- BIOL 210 - Principles of Genetics - 3 Credits
- BIOL 233 - Microbiology for Health Sciences - 4 Credits
  OR BIOL 333 - General Microbiology - 4 Credits
- BIOL 385 - Human Physiology - 4 Credits

Statistics

Complete ANY of the following Courses:
- HSW 301 - Fundamentals of Biostatistics - 3 Credits
- MATH 255 - Elementary Statistical Methods - 4 Credits

Health Science and Wellness

Complete ALL of the following Courses:
- HSW 104 - Medical Terminology - 3 Credits
- HSW 360 - Evidence-Based Research Methods - 3 Credits
- HSW 385 - Professionalism and Leadership - 3 Credits

Additional Comments:

Cytotechnology Option
Type
Completion Requirement

Biology

Complete ALL of the following Courses:

- BIOL 314 - Cell Biology - 4 Credits
- BIOL 387 - Human Anatomy - 4 Credits

Consider completing a BIOL-MN

Chemistry

Complete ALL of the following Courses:

- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits

Apply to the appropriate professional program

Complete Application
Acceptance is based on academic credentials, interviews, and available clinical sites. You are eligible to apply for an appropriate clinical practicum after you are formally accepted into the professional program.

Cytotechnology Clinical Practicum

Take 26 credits in an affiliated clinical laboratory. Please note that meeting or exceeding the requirements for eligibility to apply for the clinical practicum does not guarantee placement.

Complete ALL of the following Courses:

- MLS 400 - Cytologic Techniques I - 3 Credits
- MLS 401 - Cytologic Techniques II - 3 Credits
- MLS 468 - Gynecologic Cytology - 6 Credits
- MLS 469 - Pulmonary Cytology - 3 Credits
- MLS 470 - GI Tract Cytology - 3 Credits
- MLS 471 - Urinary Tract Cytology - 2 Credits
- MLS 479 - Body Fluid Cytology - 2 Credits
- MLS 480 - Aspiration Cytology - 2 Credits
- MLS 489 - Methodologies in Cytology Education - 1 Credits
- MLS 490 - Management in Cytology - 1 Credits

Additional Comments:

No Requirement Level

Standards

Academic Standards
For acceptance and continued registration as a candidate for the clinical lab science major you must have a grade point average of 2.75 overall and in the sciences, including biology, chemistry, mathematics, health science, and clinical lab science. You are screened for acceptability to apply for clinical practicum positions.

Grades in required courses taken prior to declaring academic forgiveness or in repeating courses will be used in calculating your grade point average. No more than two courses with grades of less than C- will be accepted in the major. If you do not meet these standards, you may petition the director for consideration. The minimum GPA for graduation is 2.50.

Learning Outcomes

Program Learning Outcomes (UWSP)
Upon completion of MLS program, you will be proficient in the following entry level learning outcomes:

1. Achieve scores of 60% or greater on the Pre-Clinical Competency Examination

2. Complete a minimum of 800 hours of supervised clinical practicum with scores of 70% or higher on the final evaluation forms in each discipline, prior to graduation

3. Achieve a grade of a C or better in your Capstone course, MLS 499 Advanced Clinical Studies

4. Achieve scores at 70% or greater on the Comprehensive Examination administered at the end of the Clinical Practicum

5. Achieve scores at levels equal or greater than the national average on the American Society of Clinical Pathology (ASCP) National Board of Certification (BOC) Examination

Medical Laboratory Science Major (BS): Histotechnology Option

Requirements

Simple Requisites

Curriculum
The major is administered by the area of Medical Laboratory Science in the School of Health Sciences and Wellness.

Includes the academic program (a minimum of 64 on-campus credits) and the clinical practicum (24 off-campus credits).

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: MATH 255, HSW 301, CHEM 105, and CHEM 106.

Medical Laboratory Science Academic Core
Type
Completion Requirement

General Education Program requirements

Complete the General Education Program

Medical Laboratory Science, 18 credits

Complete ALL of the following Courses:

- MLS 125 - Introduction to Clinical Laboratory Science - 2 Credits
- MLS 365 - Body Fluid Analysis - 2 Credits
- MLS 415 - Hematology - 4 Credits
- MLS 425 - Diagnostic Medical Microbiology - 5 Credits
- MLS 427 - Diagnostic Medical Parasitology - 1 Credits
- MLS 428 - Diagnostic Medical Mycology - 1 Credits
- MLS 435 - Immunology - 3 Credits

Foundational Biology

Fulfill ANY of the following requirements:

Biology Option 1

Complete ALL of the following Courses:

- BIOL 101 - General Biology - 5 Credits

OR

Biology Option 2

Complete ALL of the following Courses:

- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits

OR

Biology Option 3

Complete ALL of the following Courses:

- BIOL 160 - Introduction to Animal Biology - 5 Credits

Biology

Complete ALL of the following Courses:

- BIOL 210 - Principles of Genetics - 3 Credits
- BIOL 233 - Microbiology for Health Sciences - 4 Credits

OR BIOL 333 - General Microbiology - 4 Credits
- BIOL 385 - Human Physiology - 4 Credits

Statistics

Complete ANY of the following Courses:
- HSW 301 - Fundamentals of Biostatistics - 3 Credits
- MATH 255 - Elementary Statistical Methods - 4 Credits

Health Science and Wellness

Complete ALL of the following Courses:
- HSW 104 - Medical Terminology - 3 Credits
- HSW 360 - Evidence-Based Research Methods - 3 Credits
- HSW 385 - Professionalism and Leadership - 3 Credits

Additional Comments:

Histotechnology Option
Type
Completion Requirement

Biology

Complete ALL of the following Courses:
- BIOL 314 - Cell Biology - 4 Credits
- BIOL 387 - Human Anatomy - 4 Credits

Consider completing a BIOL-MN

Chemistry

Complete ALL of the following Courses:
- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits

Apply to the appropriate professional program

Complete Application
Acceptance is based on academic credentials, interviews, and available clinical sites. You are eligible to apply for an appropriate clinical practicum after you are formally accepted into the professional program.

Histotechnology Clinical Practicum

Take 24 credits in an affiliated clinical laboratory. Please note that meeting or exceeding the requirements for eligibility to apply for the clinical practicum does not guarantee placement.

Complete ALL of the following Courses:
- MLS 402 - Microscopy - 1 Credits
- MLS 409 - Immunohistochemistry - 3 Credits
- MLS 410 - Histology Techniqes I - 3 Credits
- MLS 411 - Histology Techniques II - 3 Credits
- MLS 412 - Histology Instrumentation - 3 Credits
- MLS 420 - Special Stains - 6 Credits
- MLS 421 - Frozen Sections and Cytology Preparation - 3 Credits
- MLS 488 - Methodologies in Histology Education - 1 Credits
- MLS 491 - Management in Histology - 1 Credits

Additional Comments:

No Requirement Level

Standards

Academic Standards
For acceptance and continued registration as a candidate for the clinical lab science major you must have a grade point average of 2.75 overall and in the sciences, including biology, chemistry, mathematics, health science, and clinical lab science. You are screened for acceptability to apply for clinical practicum positions.

Grades in required courses taken prior to declaring academic forgiveness or in repeating courses will be used in calculating your grade point average. No more than two courses with grades of less than C- will be accepted in the major. If you do not meet these standards, you may petition the director for consideration. The minimum GPA for graduation is 2.50.

- MLS 414 - Hemostasis - 1 Credits
- MLS 445 - Immunohematology - 4 Credits
- MLS 465 - Molecular Pathology - 3 Credits

Fundamental Chemistry, 10 credits

Complete ALL of the following Courses:
- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits

Chemistry Options, 0-8 credits

Complete Chemistry Requirement
Choose Option A or Option B

Chemistry Option A

Fulfill ANY of the following requirements:

Chemistry Option A-1

Complete ALL of the following Courses:
- CHEM 220 - Survey of Organic Chemistry - 4 Credits
- CHEM 260 - Elementary Biochemistry - 4 Credits

OR

Chemistry Option A-2

Complete ALL of the following Courses:
- CHEM 221 - Survey of Organic Chemistry Lecture - 3 Credits
- CHEM 222 - Survey of Organic Chemistry Lab - 1 Credits
- CHEM 260 - Elementary Biochemistry - 4 Credits

Chemistry Option B

Recommended if planning graduate work or other professional programs:

Complete ALL of the following Programs:
- CHEM-MN - Chemistry Minor

Apply to the appropriate professional program

Complete Application
Acceptance is based on academic credentials, interviews, and available clinical sites. You are eligible to apply for an appropriate clinical practicum after you are formally accepted into the professional program.

Note: You must attend the summer session prior to the start of your clinical practicum.

Medical Technology Clinical Practicum

Take 24 credits in an affiliated clinical laboratory. Please note that meeting or exceeding the requirements for eligibility to apply for the clinical practicum does not guarantee placement.

Complete ALL of the following Courses:
- MLS 406 - Clinical Chemistry Practicum - 4 Credits
- MLS 416 - Clinical Hematology and Hemostasis Practicum - 4 Credits
- MLS 426 - Diagnostic Microbiology Practicum - 5 Credits
- MLS 436 - Clinical Immunology Practicum - 2 Credits
- MLS 446 - Clinical Immunohematology Practicum - 3 Credits
- MLS 476 - Clinical Body Fluid Analysis - 1 Credits
- MLS 486 - Management and Laboratory Information Systems - 2 Credits
- MLS 499 - Advanced Clinical Studies - 3 Credits

Accreditation - MLS: Medical Technology Option

Accreditation
The UW-Stevens Point Medical Laboratory Science Program, Medical Technology Option, is accredited by the National Accrediting Agency for Clinical Laboratory Sciences. Inquiries regarding the accreditation status of the program may be directed to: NAACLS, 5600 N. River Rd., Suite 720, Rosemont, IL 60018-5119; phone 773-714-8880; fax 773-714-8886; email info@naacls.org.

Medical Laboratory Science Major (BS): Medical Laboratory Technician (MLT) to Medical Laboratory Scientist (MLS) Option

Requirements

Simple Requisites

Curriculum
The major is administered by the area of Medical Laboratory Science in the School of Health Sciences and Wellness.

Academic requirements - MLS: MLT to MLS

- The Bachelor of Science General Education Program requirements.
- Associate Degree in Medical Laboratory Technician from a nationally accredited program.
- Current national board certification as a Medical Laboratory Technician, such as MLT(ASCP), MLT(AAB), or MLT(AMT).

Note that transfer equivalent courses typically completed with Associates in Medical Laboratory Technician Associate programs fill 42-50 credits of requirements listed below. Please meet with your academic adviser for your specific plan of study.

Consists of 106 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: MATH 255, HSW 301, and CHEM 101.

Medical Laboratory Science Academic Core

Media Studies Major (BA)

Requirements

Simple Requisites

Curriculum
This major is administered through the area of Media Studies in the School of Design and Communication.

If you are interested in declaring a Media Studies major, you should enroll in MSTU 1 Media Studies Essentials.

Consists of a minimum of 37 credits in Media Studies courses.

Program Requirements
Type
Completion Requirement

Upper-level requirement, 18 credits

Complete Upper-level requirement
Eighteen credits must be in courses numbered 300 or above.

Media Studies Core, 13-18 credits

Fulfill ALL of the following requirements:

Required, 12 credits

Complete ALL of the following Courses:
- MSTU 1 - Media Studies Essentials - - Credits
- MSTU 105 - Foundations of Media Practice: Time, Motion, and Video - 3 Credits
- MSTU 106 - Foundations of Criticism: Understanding Media - 3 Credits
- MSTU 107 - Foundations of Media Writing - 3 Credits
- MSTU 460 - Media Studies Symposium and Capstone - 3 Credits

AND

Internship or Externship, 1-6 credits

You must also complete an internship or externship:

Complete ANY of the following Courses:
- MSTU 480 - Internship in Media Studies - 1-12 Credits
- MSTU 485 - Externship in Media Studies - London - 6 Credits

Area Requirements, 24 credits

15 credits must be 300-level or higher; minimum 6 credits from each category:

Fulfill ALL of the following requirements:

Media History, Theory Criticism

Earn at least 6 credits from the following:
- MSTU 108 - Social Media Cultures and Practices - 3 Credits
- MSTU 160 - Introduction to the Art of Film - 3 Credits
- MSTU 190 - History of Media - 3 Credits
- MSTU 292 - Transmedia Storytelling - 3 Credits
- MSTU 325 - Media Law - 3 Credits
- MSTU 357 - Media and Popular Culture - 3 Credits
- MSTU 359 - Topics in Media - 3 Credits
- MSTU 360 - Film History: Beginning to 1945 - 3 Credits
- MSTU 361 - Film History: 1945 to Present - 3 Credits
- MSTU 363 - Media Genres - 3 Credits
- MSTU 367 - International Media - 3 Credits
- MSTU 394 - Sex, Media, and Rape Culture - 3 Credits
- MSTU 395 - Hashtag Activism - 3 Credits
- MSTU 396 - Communication and Gender - 3 Credits

MSTU 359 and MSTU 363 courses may be repeated for credit under different topics

AND

Media Writing

Earn at least 6 credits from the following:
- MSTU 221 - Introduction to Journalism - 3 Credits
- MSTU 251 - Media Writing - 3 Credits
- MSTU 320 - Multimedia Writing - 3 Credits
- MSTU 323 - Topics in Journalism Writing - 3 Credits
- MSTU 327 - Culinary Journalism: Food and Wines of the World - 3 Credits
- MSTU 351 - Advanced Media Writing - 3 Credits

MSTU 251, MSTU 323, and MSTU 351 courses may be repeated for credit under different topics

AND

Media Production

Earn at least 6 credits from the following:
- DSN 104 - Foundation Studio: Color, Light, and Perception - 3 Credits
- MSTU 102 - Effective Podcasting - 3 Credits
- MSTU 253 - Video Production I - 3 Credits
- MSTU 254 - Audio Production I - 3 Credits
- MSTU 322 - Introduction to Digital Photography - 3 Credits
- MSTU 352 - Audio Production II - 3 Credits
- MSTU 354 - Special Topics in Producing Media - 3 Credits
- MSTU 356 - Video Production II - 3 Credits

MSTU 352, MSTU 354, and MSTU 356 courses may be repeated for credit under different topics

World Language Courses, 0-8 credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

Additional Comments:

No Requirement Level

Standards

Academic Standards

1. In order to graduate with a major or minor in media studies, you must achieve a 2.50 GPA in all communication classes taken, regardless of a declaration of academic forgiveness.

2. Once you complete 12 credits toward your media studies major (excluding 101), you must maintain a 2.50 GPA for your major coursework. If your media studies major GPA falls below a 2.50, you will be placed on probation for one semester. If you fail to regain a 2.50 GPA after the next semester in which you complete a media studies course, you will be dismissed from the major.

3. Courses with a grade below C- DO NOT fulfill the major or minor requirements, but are included in the calculation of the major or minor GPA. See the Grade-related Policies section of this catalog for the policy on repeating courses.

4. Transfer credit policy: Certain courses taken at other universities may substitute for courses in the major. Credits from these courses will be counted when calculating your GPA in media studies.

About this Program

The Media Studies major at UW-Stevens Point offers a forward-thinking curriculum giving students the knowledge, skills, and experience(s) they need to engage critically with media content and technologies by using media history, theory, aesthetics and criticism to inform their production practices. This approach, in which classrooms become sites for engaged inquiries that extend connections between culture and technology, has been termed "critical making."

Learning Outcomes

Program Learning Outcomes (UWSP)

Upon completion of the Media Studies Program, you will be able to:

1. Demonstrate an understanding of media form, function, and history

2. Design and produce media applying core media skills, techniques, and aesthetics, considering both form and content

3. Perform effective public presentations for a variety of audiences and across media platforms

4. Write effectively for a variety of purposes, situations, and audiences

5. Evaluate self- and peer-produced work applying professional standard appropriate to form, function, and content

6. Engage in collaborative projects and evaluate appropriate ethical practices

Media Studies Major (BS)

Requirements

Simple Requisites

Curriculum

This major is administered through the area of Media Studies in the School of Design and Communication.

If you are interested in declaring a Media Studies major, you should enroll in MSTU 1 Media Studies Essentials.

Consists of a minimum of 43 credits in Media Studies courses.

Academic Standards

1. In order to graduate with a major or minor in media studies, you must achieve a 2.50 GPA in all communication classes taken, regardless of a declaration of academic forgiveness.

2. Once you complete 12 credits toward your media studies major (excluding 101), you must maintain a 2.50 GPA for your major coursework. If your media studies major GPA falls below a 2.50, you will be placed on probation for one semester. If you fail to regain a 2.50 GPA after the next semester in which you complete a media studies course, you will be dismissed from the major.

3. Courses with a grade below C- DO NOT fulfill the major or minor requirements, but are included in the calculation of the major or minor GPA. See the Grade-related Policies section of this catalog for the policy on repeating courses.

4. Transfer credit policy: Certain courses taken at other universities may substitute for courses in the major. Credits from these courses will be counted when calculating your GPA in media studies.

About this Program

The Media Studies major at UW-Stevens Point offers a forward-thinking curriculum giving students the knowledge, skills, and experience(s) they need to engage critically with media content and technologies by using media history, theory, aesthetics and criticism to inform their production practices. This approach, in which classrooms become sites for engaged inquiries that extend connections between culture and technology, has been termed "critical making."

Learning Outcomes

Program Learning Outcomes (UWSP)

Upon completion of the Media Studies Program, you will be able to:

1. Demonstrate an understanding of media form, function, and history

2. Design and produce media applying core media skills, techniques, and aesthetics, considering both form and content

3. Perform effective public presentations for a variety of audiences and across media platforms

4. Write effectively for a variety of purposes, situations, and audiences

5. Evaluate self- and peer-produced work applying professional standard appropriate to form, function, and content

6. Engage in collaborative projects and evaluate appropriate ethical practices

Media Studies Minor

Requirements

Simple Requisites

Curriculum

This minor is administered by the area of Media Studies in the School of Design and Communication.

If you are interested in declaring a media studies minor, you must meet with a media studies adviser. Contact the School of Design and Communication office to make an appointment.

Consists of a minimum of 18 credits.

Program Requirements

Type
Completion Requirement

Required, 9 credits

Complete ALL of the following Courses:

- MSTU 105 - Foundations of Media Practice: Time, Motion, and

Video - 3 Credits
- MSTU 106 - Foundations of Criticism: Understanding Media - 3 Credits
- MSTU 107 - Foundations of Media Writing - 3 Credits

Electives, 9 credits

Complete Electives
6 of the 9 elective credits must be 300-level or above. Choose any combination of the following:

- Other MSTU courses
- FLNG252 Media Arts in World Cultures (topic: *Bad Chicks in Foreign Flicks)*
- REL350 Religion and Film

Music Education Major (BM)

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Music in the School of Performing Arts.

Teacher Certification:
K-12 Music

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)
The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

This program meets the certification/licensure requirements in the following states/territories:
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, New York, Nevada, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming;

This program does not meet the certification/licensure requirements in the following states/territories:
American Samoa, Federated States of Micronesia, Guam, Northern Mariana Islands, Puerto Rico, Republic of Palau, Republic of the Marshall Islands;

Note: If you live in a state or territory that does not meet certification/licensure requirements, you may contact the School of Education for more information.

Please see the information about the Professional Education Program and education curricula for teacher certification in the School of Education section of this catalog. You must complete all requirements before you begin your student teaching/ internship semester.

Refer to the "School of Education" portion of the Education section earlier in this catalog for information about admission to the Professional Education Program and teacher certification requirements.

NOTE: To graduate with a comprehensive Music Education degree, completion of all teacher certification requirements, including student teaching in general music and an ensemble setting is required.

Consists of 89 credits.

Program Requirements
Type
Completion Requirement

Music Education, 17 credits

Complete ALL of the following Courses:
- MUED 201 - Introduction to Music Education - 1 Credits
- MUED 323 - General Music Methods - 2 Credits
- MUED 388 - Integrative Music Education - 2-3 Credits
- MUED 398 - Student Teaching in Music - 1-12 Credits
  OR MUED 498 - Intern Teaching in Music - 1-12 Credits
- MUED 400 - Seminar on Teaching - 1 Credits

MUED 398 or MUED 498 should be taken for 11 credits

Theory, 16 credits

Complete ALL of the following Courses:
- MUS 110 - Musicianship I - 3 Credits
- MUS 111 - Musicianship II - 3 Credits
- MUS 112 - Aural Musicianship I - 1 Credits
- MUS 113 - Aural Musicianship II - 1 Credits
- MUS 210 - Musicianship III - 3 Credits
- MUS 212 - Aural Musicianship III - 1 Credits
- MUS 310 - Composition - 3 Credits
- MUS 315 - Orchestration - 2-3 Credits

Applied Music (Major), 14 credits

Complete Applied Requirement
Complete 300 level of study in voice, piano, or another instrument.

Juried Public Performance

Complete Juried Public Performance
Perform in juried public performance at appropriate level.

Music Literature, 9 credits

Complete ALL of the following Courses:
- MUS 208 - Musicology I - 3 Credits
- MUS 320 - Musicology II - 3 Credits
- MUS 321 - Musicology III - 3 Credits

Conducting, 3 credits

Complete ALL of the following Courses:
- MUS 317 - Conducting - 2 Credits
- MUS 401 - Apprentice Conducting - 1 Credits

Group Piano, 6 credits

Complete ALL of the following Courses:

- MUS 146 - Group Piano I - 2 Credits
- MUS 147 - Group Piano II - 2 Credits
- MUS 246 - Group Piano III - 2 Credits

Large Ensemble, 7 credits

Take at least 7 credits of large ensemble on your major applied instrument (piano applied majors can choose a choir or instrumental ensembles). Required every semester enrolled except student teaching (1 credit per semester). (See Note 3).

Earn at least 7 credits from the following:

- MUS 341 - Large Ensemble-Choir - 1-2 Credits
- MUS 342 - Large Ensemble-Orchestra - 1-2 Credits
- MUS 343 - Large Ensemble-Band - 1-2 Credits

Piano majors: 1 credit from MUS 328 may be taken in lieu of large ensemble upon course offering.

Elective Banks

In addition, complete one of the two following elective banks which also each comprise the Certificate in Choral Music Teaching OR the Certificate in Instrumental Music Teaching in order to complete the Bachelor of Music in Music Education. You may elect to complete both, but completion of track that corresponds with your major instrument is required.

Fulfill ANY of the following requirements:

Option 1: Choral Music Teaching

Complete ALL of the following Programs:

- MUED-C-CT - Choral Music Education Certificate

OR

Option 1: Instrumental Music Teaching

Complete ALL of the following Programs:

- MUED-I-CT - Instrumental Music Education Certificate

Additional Comments:

No Requirement Level

Standards

Admission Standards

Admission to the Department of Music as an undergraduate music major or minor is by audition. You must complete the music theory diagnostic test, and if you wish to major in music, you must be evaluated by piano faculty for placement.

Academic Standards

1. Permission to register, placement, and exceptions to the requirements are subject to the approval of the instructor and the department chair.

2. Must meet all major requirements for bachelor of music degree OR bachelor of arts degree.

3. To graduate with a major in music you must have a minimum 2.0 cumulative grade point average (2.75 to student teach) in all required major courses, including transfer courses, regardless of any declaration of academic forgiveness. You may repeat courses in the major if you follow the Repeating Courses policy.

4. Courses in music are open to all students who meet the prerequisites.

Learning Outcomes

Program Learning Outcomes (UWSP)

1. As a Music student, you will be able to perform at appropriate levels for professional engagement
2. You will demonstrate the disposition to cultivate a career in music. They will demonstrate an ongoing commitment to your own learning while maintaining high standards of professionalism
3. You will be able to analyze, create, and interpret music and use this knowledge to enrich your work as a musician
4. You will be able to classify and contextualize repertoire from diverse eras and traditions
5. You will be able to employ critical thinking and self-reflection in the thoughtful and strategic planning, instruction, and assessment in music pedagogy. Your teaching will demonstrate a mastery of content knowledge and consider context, standards, essential questions, enduring understandings, and meaningful objectives and assessments

Choral Music Education Certificate

Requirements

Simple Requisites

Curriculum

This certificate is administered by the area of Music in the School of Performing Arts.

Consists of a minimum of 17 credits.

Program Requirements

Type

Completion Requirement

Required, 12-13 credits

Complete ALL of the following Courses:

- MUED 158 - Instrumental Music Instruction for Vocalists - 1 Credits
- MUED 325 - Choral Teaching Techniques - 2 Credits
- MUS 247 - Group Piano IV - 2 Credits
- MUS 302 - Diction for Singers I - 1 Credits
- MUS 303 - Diction for Singers II - 1 Credits
- MUS 390 - Opera Workshop - 1-2 Credits
- MUS 394 - Advanced Choral Conducting - 2 Credits
- MUS 492 - Vocal Pedagogy - 2 Credits

Note: If percussion, piano, guitar, or a string or wind instrument is the primary major instrument (applied lessons up to the 300-level), completion of applied voice up to the 200-level is required, and MUED 158 is waived.

Complete MUS 247 if not a piano major. If placed in private piano study, complete Level 100 and MUS 247

Instrumental Methods Elective, 2 credits

Complete ANY of the following Courses:

- MUS 152 - Instrumental Methods-Single Reeds - 2 Credits
- MUS 153 - Instrumental Methods: Violin, Viola, Cello, and String Bass - 2 Credits
- MUS 155 - Instrumental Methods-Percussion - 2 Credits
- MUS 156 - Instrumental Methods-Brass - 2 Credits
- MUS 157 - Instrumental Methods: Double Reeds and Flute - 2 Credits

OR

- Applied study up to the 200-level on any instrument

Vocal Elective(s), 3 credits

Earn at least 3 credits from the following:

- MUS 130 - 1st Year Small Ensemble-Vocal - 1 Credits
- MUS 180 - Applied Music I - Guitar - 2-4 Credits
- MUS 323 - Opera History - 3 Credits
- MUS 390 - Opera Workshop - 1-2 Credits
- MUS 422 - Song Literature - 3 Credits

Note:

Any DNCE, GERM, or FREN course can be taken in place of MUS 422.

Music Education (MME): Classroom Pedagogy Option

Requirements

Simple Requisites

Curriculum
This graduate program is administered by the area of Music.

To earn your degree, earn at least 30 graduate credits of which 10 must be in music education courses.

Program Requirements
Type
Completion Requirement

Required, 30 credits

Complete ALL of the following Courses:

- MUED 602 - Research in Music Education - 3 Credits
- MUED 701 - Philosophy of Music Education I: Historical Perspectives - 3 Credits
- MUED 702 - Philosophy of Music Education II: Sociological and Psychological Perspectives - 3 Credits
- MUED 787 - Seminar in Music Education - 3 Credits
- MUED 799 - Thesis - 1-3 Credits
- MUS 795 - Conducting for the Ensemble and Classroom Teacher - 3 Credits

AND

- Music Theory Elective at the 500-level or greater for 3 credits
- Music History Elective at the 500-level or greater for 3 credits
- Elective at the 500-level or greater for 3 credits

Notes:

- MUED 787 should be taken twice with different topics for a total of 6 credits
- MUED 799 should be taken for 3 credits (Additional credits of MUED 799 may be required to fulfill defense, but any additional credits taken will not count towards the overall credits or electives in the program)

Additional Comments:

No Requirement Level

Standards

Admission Standards
To be considered for admission:

1. Complete university and department application forms for admission.

2. Submit a transcript of all undergraduate or graduate work you have taken at other institutions.

3. Have your past administrators, teaching colleagues, or college teachers in your major area send two letters of recommendation on your behalf.

4. If you wish to have an emphasis in elementary/secondary education, you must have state teacher certification. If your emphasis is Suzuki, certification is recommended but optional. If your emphasis is pedagogy, certification is optional.

5. Meet these requirements for certain emphases:

A. Elementary/secondary: an undergraduate degree in music education.

B. Suzuki talent education: an undergraduate degree in music and a Suzuki-related performance area; OR gain admission by faculty evaluation, based on your performance area, music courses taken toward a related undergraduate degree, and significant Suzuki teaching. You may be required to take additional courses.

C. Studio pedagogy:

1. Undergraduate degree in applied music or music education (teacher certification optional).

2. Approval of faculty in your major area of performance. OR

3. Admission by faculty evaluation based on performance area, music courses taken toward a related undergraduate degree, and significant involvement in studio teaching and performance. You may be required to take additional courses.

Academic Standards

Minimum GPA requirement for this program is 3.00.

Admission to Candidacy for Music Graduate Program

To be admitted to candidacy:

1. Complete 9 credits with a grade of B or better.

2. Before you complete 15 credits, adopt a Program of Study, including projected courses, the topic of your culminating experience, and selection of a graduate committee and project adviser, who is also chair of your committee.

About this Program

About this Program
In the Music Department you may work toward the Master of Music Education degree with an emphasis in elementary/secondary education, Suzuki talent education, or studio pedagogy. In this program, you prepare for classroom, performance, and administrative responsibilities as a member of the music teaching discipline. You improve your competency in music philosophy, methodology, literature, and applied musical experiences while learning of the most recent trends and innovations in music education. **Please note that this program does not lead to teacher certification.**

A wide range of activities are available to enhance your abilities as a music educator. Seminars and methods courses illuminate practical and philosophical issues in music education. In the Suzuki talent education curriculum, you participate in the renowned institute which brings more than a thousand students and teachers to the UW-Stevens Point campus each year. You have access to music department resources such as the Computer Music Center with opportunities to learn and apply technological advancements in the field.

Learning Outcomes

Program Learning Outcomes (UWSP)
Upon completion of the Master of Music Education degree, you will demonstrate the following competencies:

1. Pedagogical skills

You will employ critical, thoughtful pedagogy in the planning, delivery, and assessment of music teaching and learning. You will create engaging and diverse learning experiences for your own students while setting appropriately rigorous standards for achievement in your music classrooms. The practical teaching skills that you develop in this program will enhance the quality of music teaching in Wisconsin and beyond.

2. Pedagogical knowledge

You will demonstrate knowledge of music pedagogy through teaching, writing, speaking, creating, and performing music. You will apply strategic research techniques to address current and future challenges in the field of music education, and you will be informed about current best practices in music pedagogy. You will develop new methods of effective teaching that align with the most recent research and knowledge in the field.

3. Musicianship

You will demonstrate mature musicianship skills on your primary instrument and in the classes that you teach. You will apply rigorous analytical techniques to written music, demonstrate advanced aural musicianship, and model the same professional performance standards to which you hold your own students.

4. Disposition

You will demonstrate an ongoing commitment to your own learning and professionalism as leaders in the field of music education. You will have the desire and resources to identify and undertake opportunities for professional growth. You will actively pursue strategies to address challenges in the field of music education in order to advance the discipline.

Music Education (MME): Studio Pedagogy Option

Multidisciplinary Major (BA): General Option

Requirements

Simple Requisites

Curriculum
This major is administered by the Multidisciplinary Department in the School of Humanities and Global Studies within the College of Letters and Science.

The multidisciplinary major is designed as a degree-completion program that permits transfer students with varied backgrounds the opportunity to choose among options to complete a bachelor's degree. You must enroll in your multidisciplinary option within the first two semesters of your transfer to UWSP.

For the multidisciplinary major, you must:

1. Have a minimum transfer grade point average of 2.25 to enter the program. (Exceptions may be approved by the School of Humanities and Global Studies.)
2. Have a minimum cumulative grade point average of 2.50 in all program courses taken.
3. Meet the requirements for the degree type (i.e., BS or BA) you choose. You will graduate with your chosen option in the School of Humanities and Global Studies within the College of Letters and Science.

Consists of a minimum of 43 credits.

Multidisciplinary Major Core, 12 credits
Type
Completion Requirement

Communication Skills

Earn at least 12 credits from the following:

- BUS 201 - Writing and Presenting for Business - 3 Credits
- BUS 301 - Building Relationships for Business - 3 Credits
- COMM 345 - Small Group Communication - 3 Credits
- COMM 394 - Business and Professional Communication - 3 Credits
- ENGL 254 - Workplace Writing - 3 Credits
- ENGL 351 - Advanced Business Writing - 3 Credits
- ENGL 352 - Writing for Digital Media - 3 Credits
- ENGL 354 - Advanced Technical Writing - 3 Credits

Additional Comments:

General Option
Type
Completion Requirement

Additional Comments:
The general option is a degree-completion pathway where a student will develop a proposal for the BS in Multidisciplinary Major: General Option by consulting with advisers and the assistant dean of the School of Humanities and Global Studies (or designee) to create an individualized degree plan. The degree plan will include the above 12 core credits of communication electives and at least 31 credits of additional coursework designed to fulfill the academic, professional, and career interests of the student.

The completed degree plan must meet all university and BS degree requirements and will include a title, a statement of the objectives of the individualized study program, and a list of specific courses the student will complete for the degree. The completed degree plan must be approved by the assistant dean of the School of Humanities and Global Studies and will be communicated to advisors and the Office of the Registrar.

World Language Courses, 0-8 credits
Type
Completion Requirement

Additional Comments:
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

The multidisciplinary major is designed to permit you to choose from a variety of pathways to complete a bachelor's degree. It gives students an opportunity to design their major, capitalizing on diverse interests.

You will propose your major, using unique combinations of existing UW-Stevens Point offerings that will be coherent and challenging. You must propose your program prior to completing 75 credits, including all transfer credits, to be sure the courses you need are available and can be integrated into your major pathway.

Benefits of a multidisciplinary bachelor's degree:

- Diverse education path provides vast skillset
- Flexible program for working adult learners
- Gain well-rounded depth of knowledge in variety of areas
- Ability to analyze cultural, ethical, and social considerations
- Preparation for diverse workforce

Multidisciplinary Major (BA): Technology Management Option

Requirements

Simple Requisites

Curriculum
This major is administered by the Multidisciplinary Department in the School of Humanities and Global Studies within the College of Letters and Science.

The multidisciplinary major is designed as a degree-completion program that permits transfer students with varied backgrounds the opportunity to choose among options to complete a bachelor's degree. You must enroll in your multidisciplinary option within the first two semesters of your transfer to UWSP.

For the multidisciplinary major, you must:

1. Have a minimum transfer grade point average of 2.25 to enter the program. (Exceptions may be approved by the School of Humanities and Global Studies.)
2. Have a minimum cumulative grade point average of 2.50 in all program courses taken.
3. Meet the requirements for the degree type (i.e., BS or BA) you choose. You will graduate with your chosen option in the School of Humanities and Global Studies within the College of Letters and Science.

Consists of a minimum of 43 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 105, CHEM 106, ENG 105, and BUS 360.

Multidisciplinary Major Core, 12 credits
Type
Completion Requirement

Communication Skills

Earn at least 12 credits from the following:

- BUS 201 - Writing and Presenting for Business - 3 Credits
- BUS 301 - Building Relationships for Business - 3 Credits
- COMM 345 - Small Group Communication - 3 Credits
- COMM 394 - Business and Professional Communication - 3 Credits
- ENGL 254 - Workplace Writing - 3 Credits
- ENGL 351 - Advanced Business Writing - 3 Credits
- ENGL 352 - Writing for Digital Media - 3 Credits
- ENGL 354 - Advanced Technical Writing - 3 Credits

Additional Comments:

Technology Management Option
Type
Completion Requirement

Technology Management Option

Fulfill ALL of the following requirements:

Science and Engineering Skills, 16 credits

Complete ALL of the following Courses:

- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits
- ENGR 105 - Engineering Fundamentals - 3 Credits
- ENGR 107 - Engineering Graphics with Computer Aided Drafting - 3 Credits

AND

Management Skills, 15 credits

Complete ALL of the following Courses:

- BUS 320 - Principles of Management - 3 Credits
  OR BUS 325 - Organizational Behavior - 3 Credits
- BUS 322 - Business Leadership for Managers - 3 Credits
- BUS 329 - Project Management - 3 Credits
  OR PSEN 316 - Engineering Economics and Project Management - 3 Credits
- BUS 360 - Principles of Production-Operations Management - 3 Credits
- PSYC 345 - Industrial Organizational Psychology - 3 Credits

Additional Comments:

World Language Courses, 0-8 credits
Type
Completion Requirement

Additional Comments:
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

Additional Comments:

General Option
Type
Completion Requirement

Additional Comments:
The general option is a degree-completion pathway where a student will develop a proposal for the BS in Multidisciplinary Major: General Option by consulting with advisers and the assistant dean of the School of Humanities and Global Studies (or designee) to create an individualized degree plan. The degree plan will include the above 12 core credits of communication electives and at least 31 credits of additional coursework designed to fulfill the academic, professional, and career interests of the student.

The completed degree plan must meet all university and BS degree requirements and will include a title, a statement of the objectives of the individualized study program, and a list of specific courses the student will complete for the degree. The completed degree plan must be approved by the assistant dean of the School of Humanities and Global Studies and will be communicated to advisors and the Office of the Registrar.

- MUS 372 - 3rd Year Applied Music-Trumpet - 2-4 Credits
- MUS 373 - 3rd Yr Applied Music-Horn - 2-4 Credits
- MUS 374 - 3rd Year Applied Music-Trombone - 2-4 Credits
- MUS 375 - Third Year Applied Music-Euphonium - 2-4 Credits
- MUS 376 - 3rd Year Applied Music-Tuba - 2-4 Credits
- MUS 377 - 3rd Year Applied Music-Percussion - 2-4 Credits
- MUS 378 - 3rd Year Applied Music-Harp - 2-4 Credits
- MUS 380 - Applied Music III - Guitar - 2-4 Credits
- MUS 381 - 3rd Year Applied Music-Jazz Guitar - 2-4 Credits
- MUS 385 - Applied Music III - Cont Voice - 2-4 Credits

Note: You must complete the 200 level of study on your major instrument before graduation. You may study at the 300 level with consent of instructor and/or area faculty.

Applied Piano, 2-6 credits

Fulfill ANY of the following requirements:

Applied Piano Option 1

Complete ALL of the following Courses:

- MUS 146 - Group Piano I - 2 Credits

- MUS 147 - Group Piano II - 2 Credits
- MUS 246 - Group Piano III - 2 Credits

OR

Applied Piano Option 2

Complete ALL of the following Courses:

- MUS 160 - 1st Yr Applied Music-Piano - 2-4 Credits

Note: When piano is not your major applied instrument, complete MUS 246 or MUS 160. This requirement can also be fulfilled via a test-out option.

Large ensemble, 8 credits

Every music major must enroll, participate, and receive a passing grade in a major ensemble every semester except the student teaching semester (8 semesters minimum) (See Note 3).

Earn at least 8 credits from the following:

- MUS 341 - Large Ensemble-Choir - 1-2 Credits
- MUS 342 - Large Ensemble-Orchestra - 1-2 Credits
- MUS 343 - Large Ensemble-Band - 1-2 Credits

Piano majors: 1 credit from MUS 328 may be taken in lieu of large ensemble upon course offering.

Music electives, 4 credits

Complete Electives
Electives may include any music or music education course not already listed in the required courses above, with the **exception** of the following:

- MUS 100
- MUS 101
- MUS 102
- MUS 105
- MUS 108
- MUS 109
- MUS 159

World Language Courses, 0-8 credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

Additional Comments:

No Requirement Level

Standards

Admission Standards
Admission to the Department of Music as an undergraduate music major or minor is by audition. You must complete the music theory diagnostic test, and if you wish to major in music, you must be evaluated by piano faculty for placement.

Academic Standards
1. Permission to register, placement, and exceptions to the requirements are subject to the approval of the instructor and the department chair.

2. Must meet all major requirements for bachelor of music degree OR bachelor of arts degree.

3. To graduate with a major in music you must have a minimum 2.0 cumulative grade point average (2.75 to student teach) in all required major courses, including transfer courses, regardless of any declaration of academic forgiveness. You may repeat courses in the major if you follow the Repeating Courses policy.

4. Courses in music are open to all students who meet the prerequisites.

Learning Outcomes

Program Learning Outcomes (UWSP)

1. As a Music student, you will be able to perform at appropriate levels for professional engagement
2. You will demonstrate the disposition to cultivate a career in music. You will demonstrate an ongoing commitment to your own learning while maintaining high standards of professionalism
3. You will be able to analyze, create, and interpret music and use this knowledge to enrich your work as a musician
4. You will be able to classify and contextualize repertoire from diverse eras and traditions
5. You will be able to employ critical thinking and self-reflection in the thoughtful and strategic planning, instruction, and assessment in music pedagogy. Your teaching will demonstrate a mastery of content knowledge and consider context, standards, essential questions, enduring understandings, and meaningful objectives and assessments

Conducting Graduate Certificate

- MUS 370 - 3rd Year Applied Music-Bassoon - 2-4 Credits
- MUS 371 - 3rd Year Applied Music-Saxophone - 2-4 Credits
- MUS 372 - 3rd Year Applied Music-Trumpet - 2-4 Credits
- MUS 373 - 3rd Yr Applied Music-Horn - 2-4 Credits
- MUS 374 - 3rd Year Applied Music-Trombone - 2-4 Credits
- MUS 375 - Third Year Applied Music-Euphonium - 2-4 Credits
- MUS 376 - 3rd Year Applied Music-Tuba - 2-4 Credits
- MUS 377 - 3rd Year Applied Music-Percussion - 2-4 Credits
- MUS 381 - 3rd Year Applied Music-Jazz Guitar - 2-4 Credits

AND

Applied Music Jazz

Earn at least 14 credits from the following:
- MUS 383 - Jazz - 2-4 Credits
- MUS 384 - Jazz Composition - 2-4 Credits
- MUS 483 - Jazz - 2-4 Credits
- MUS 484 - Jazz Composition - 2-4 Credits

Must include MUS 383, MUS 384, MUS 483, and MUS 484

Required Ensemble, 14 credits

Fulfill ALL of the following requirements:

Large Ensemble, 2 credits

Earn at least 2 credits from the following:
- MUS 341 - Large Ensemble-Choir - 1-2 Credits
- MUS 342 - Large Ensemble-Orchestra - 1-2 Credits

- MUS 343 - Large Ensemble-Band - 1-2 Credits

AND

Jazz Ensemble, 8 credits

Earn at least 8 credits from the following:

- MUS 344 - Large Ensemble: Vocal Jazz - 1-2 Credits
- MUS 345 - Jazz Ensemble - 1-2 Credits

Enroll in MUS 344 or MUS 345 each semester

AND

Small Ensemble, 4 credits

Earn at least 4 credits from the following:

- MUS 339 - Small Ensemble - Jazz Combo - 1 Credits

AND

Recital, 0 credits

Complete ALL of the following Courses:

- MUS 398 - Half Recital - -1 Credits
- MUS 498 - Recital - -1 Credits

You must complete both recitals

Additional Comments:

No Requirement Level

Standards

Admission Standards
Admission to the Department of Music as an undergraduate music major or minor is by audition. You must complete the music theory diagnostic test, and if you wish to major in music, you must be evaluated by piano faculty for placement.

Academic Standards

Standards for Music Majors

1. Permission to register, placement, and exceptions to the requirements are subject to the approval of the instructor and the department chair.

2. Must meet all major requirements for bachelor of music degree OR bachelor of arts degree.

3. To graduate with a major in music you must have a minimum 2.0 cumulative grade point average (2.75 to student teach) in all required major courses, including transfer courses, regardless of any declaration of academic forgiveness. You may repeat courses in the major if you follow the course repeat policy.

4. Courses in music are open to all students who meet the prerequisites.

You must complete MUS 246 or Level 100 of applied piano and complete the 400-level of study in your major instrument. You must perform a half recital in your junior year in your major instrument and give a senior recital.

Consists of a minimum of 78 credits.

Program Requirements
Type

Completion Requirement

Applied Music, 24 credits

Fulfill ALL of the following requirements:

100 and 200-Level

Earn at least 8 credits from the following:

- MUS 163 - 1st Yr Applied Music-Violin - 2-4 Credits
- MUS 164 - 1st Yr Applied Music-Viola - 2-4 Credits
- MUS 165 - 1st Yr Applied Music-Violoncello - 2-4 Credits
- MUS 166 - 1st Yr Applied Music-Double Bass - 2-4 Credits
- MUS 167 - 1st Yr Applied Music-Flute - 2-4 Credits
- MUS 168 - 1st Yr Applied Music-Oboe - 2-4 Credits
- MUS 169 - 1st Yr Applied Music-Clarinet - 2-4 Credits
- MUS 170 - 1st Yr Applied Music-Bassoon - 2-4 Credits
- MUS 171 - 1st Yr Applied Music-Saxophone - 2-4 Credits
- MUS 172 - 1st Yr Applied Music-Trumpet - 2-4 Credits
- MUS 173 - 1st Yr Applied Music-Horn - 2-4 Credits
- MUS 174 - 1st Yr Applied Music-Trombone - 2-4 Credits
- MUS 175 - First Year Applied Music-Euphonium - 2-4 Credits
- MUS 176 - 1st Yr Applied Music-Tuba - 2-4 Credits
- MUS 177 - 1st Yr Applied Music-Percussion - 2-4 Credits
- MUS 180 - 1st Yr Applied Music-Classical Guitar - 2-4 Credits (Inactive)
- MUS 263 - 2nd Yr Applied Music-Violin - 2-4 Credits
- MUS 264 - 2nd Yr Applied Music-Viola - 2-4 Credits
- MUS 265 - 2nd Yr Applied Music-Violoncello - 2-4 Credits
- MUS 266 - 2nd Yr Applied Music-Double Bass - 2-4 Credits
- MUS 267 - 2nd Yr Applied Music-Flute - 2-4 Credits
- MUS 268 - 2nd Yr Applied Music-Oboe - 2-4 Credits
- MUS 269 - 2nd Yr Applied Music-Clarinet - 2-4 Credits
- MUS 270 - 2nd Yr Applied Music-Bassoon - 2-4 Credits
- MUS 271 - 2nd Yr Applied Music-Saxophone - 2-4 Credits
- MUS 272 - 2nd Yr Applied Music-Trumpet - 2-4 Credits
- MUS 273 - 2nd Yr Applied Music-Horn - 2-4 Credits
- MUS 274 - 2nd Yr Applied Music-Trombone - 2-4 Credits
- MUS 276 - 2nd Yr Applied Music-Tuba - 2-4 Credits
- MUS 277 - 2nd Yr Applied Music-Percussion - 2-4 Credits
- MUS 280 - Applied Music II - Guitar - 2-4 Credits

AND

300 & 400-Level

Earn at least 16 credits from the following:

- MUS 363 - 3rd Year Applied Music-Violin - 2-4 Credits
- MUS 364 - 3rd Year Applied Music-Viola - 2-4 Credits
- MUS 365 - 3rd Yr Applied Music-Violoncello - 2-4 Credits
- MUS 366 - 3rd Yr Applied Music-Double Bass - 2-4 Credits
- MUS 367 - 3rd Year Applied Music-Flute - 2-4 Credits
- MUS 368 - 3rd Year Applied Music-Oboe - 2-4 Credits
- MUS 369 - 3rd Year Applied Music-Clarinet - 2-4 Credits
- MUS 370 - 3rd Year Applied Music-Bassoon - 2-4 Credits
- MUS 371 - 3rd Year Applied Music-Saxophone - 2-4 Credits
- MUS 372 - 3rd Year Applied Music-Trumpet - 2-4 Credits
- MUS 373 - 3rd Yr Applied Music-Horn - 2-4 Credits
- MUS 374 - 3rd Year Applied Music-Trombone - 2-4 Credits
- MUS 375 - Third Year Applied Music-Euphonium - 2-4 Credits
- MUS 376 - 3rd Year Applied Music-Tuba - 2-4 Credits
- MUS 377 - 3rd Year Applied Music-Percussion - 2-4 Credits
- MUS 380 - Applied Music III - Guitar - 2-4 Credits
- MUS 463 - 4th Year Applied Music-Violin - 2-4 Credits
- MUS 464 - 4th Year Applied Music-Viola - 2-4 Credits
- MUS 465 - 4th Yr Applied Music-Violoncello - 2-4 Credits
- MUS 466 - 4th Yr Applied Music-Double Bass - 2-4 Credits
- MUS 467 - 4th Year Applied Music-Flute - 2-4 Credits
- MUS 468 - 4th Year Applied Music-Oboe - 2-4 Credits
- MUS 469 - 4th Year Applied Music-Clarinet - 2-4 Credits
- MUS 470 - 4th Year Applied Music-Bassoon - 2-4 Credits
- MUS 471 - 4th Year Applied Music-Saxophone - 2-4 Credits
- MUS 472 - 4th Year Applied Music-Trumpet - 2-4 Credits
- MUS 473 - 4th Yr Applied Music-Horn - 2-4 Credits
- MUS 474 - 4th Year Applied Music-Trombone - 2-4 Credits
- MUS 475 - Fourth Year Applied Music-Euphonium - 2-4 Credits
- MUS 476 - 4th Year Applied Music-Tuba - 2-4 Credits
- MUS 477 - 4th Year Applied Music-Percussion - 2-4 Credits
- MUS 480 - Applied Music IV - Guitar - 2-4 Credits

Applied Piano, 4-6 credits

Fulfill ANY of the following requirements:

Applied Piano Option 1

Complete ALL of the following Courses:

- MUS 146 - Group Piano I - 2 Credits
- MUS 147 - Group Piano II - 2 Credits
- MUS 246 - Group Piano III - 2 Credits

OR

Applied Piano Option 2

Complete ALL of the following Courses:

- MUS 160 - 1st Yr Applied Music-Piano - 2-4 Credits

Theory, 22 credits

Complete ALL of the following Courses:

- MUS 110 - Musicianship I - 3 Credits
- MUS 111 - Musicianship II - 3 Credits
- MUS 112 - Aural Musicianship I - 1 Credits
- MUS 113 - Aural Musicianship II - 1 Credits
- MUS 210 - Musicianship III - 3 Credits
- MUS 212 - Aural Musicianship III - 1 Credits
- MUS 310 - Composition - 3 Credits
- MUS 315 - Orchestration - 2-3 Credits
- MUS 410 - Form and Analysis I - 3 Credits
  OR MUS 413 - Schenkerian Analysis - 3 Credits
- MUS 379 - 3rd Year Applied Music-Composition - 2-4 Credits
  OR MUS 395 - Advanced Instrumental Conducting - 2 Credits

MUS 379 or MUS 395 should be taken for 2 credits

Note: Placement exam required. If insufficient background, MUS 109 is prerequisite.

Conducting, 2 credits

Complete ALL of the following Courses:

- MUS 317 - Conducting - 2 Credits

Music Literature and History, 12 credits

Complete ALL of the following Courses:

- MUS 208 - Musicology I - 3 Credits
- MUS 320 - Musicology II - 3 Credits
- MUS 321 - Musicology III - 3 Credits
- MUS 424 - Wind Band History and Literature - 3 Credits
  OR MUS 427 - Symphonic Music - 3 Credits

Pedagogy, 2 credits

Complete ANY of the following Courses:

- MUS 493 - Woodwind Pedagogy - 2 Credits
- MUS 494 - Brass Pedagogy - 2 Credits
- MUS 495 - Percussion Pedagogy - 2 Credits
- MUS 496 - String Pedagogy - 2 Credits

Note: You should enroll in the pedagogy courses that correspond to your instrument family.

Large Ensemble, 8 credits

Earn at least 8 credits from the following:

- MUS 342 - Large Ensemble-Orchestra - 1-2 Credits
- MUS 343 - Large Ensemble-Band - 1-2 Credits
- MUS 345 - Jazz Ensemble - 1-2 Credits

Every music major must enroll, participate, and receive a passing grade in a major ensemble every semester except the student teaching semester (8 semesters minimum) (See Note 3).

Chamber Ensemble, 2 credits

Fulfill ALL of the following requirements:

300-Level

Earn at least 1 credits from the following:

- MUS 331 - Small Ensemble - String - 1 Credits
- MUS 332 - Small Ensemble - Flute - 1 Credits
- MUS 333 - Small Ensemble - Clarinet - 1 Credits
- MUS 334 - Small Ensemble - Saxophone - 1 Credits
- MUS 335 - Small Ensemble - Mixed Woodwind - 1 Credits
- MUS 336 - Small Ensemble - Low Brass - 1 Credits
- MUS 337 - Small Ensemble - Mixed Brass - 1 Credits
- MUS 338 - Small Ensemble - Percussion - 1 Credits

AND

400-Level

Earn at least 1 credits from the following:

- MUS 431 - Small Ensemble - String - 1 Credits
- MUS 432 - Small Ensemble - Flute - 1 Credits
- MUS 433 - Small Ensemble - Clarinet - 1 Credits
- MUS 434 - Small Ensemble - Saxophone - 1 Credits
- MUS 435 - Small Ensemble - Mixed Woodwind - 1 Credits
- MUS 436 - Small Ensemble - Low Brass - 1 Credits
- MUS 437 - Small Ensemble - Mixed Brass - 1 Credits
- MUS 438 - Small Ensemble - Percussion - 1 Credits

Music Entrepreneurship, 2 credits

Complete ALL of the following Courses:

- MUS 418 - Music Entrepreneurship - 2 Credits

Recital, 0 credits

Complete ALL of the following Courses:

- MUS 398 - Half Recital - -1 Credits
- MUS 498 - Recital - -1 Credits

You must complete both recitals

- MUS 332 - Small Ensemble - Flute - 1 Credits
- MUS 333 - Small Ensemble - Clarinet - 1 Credits
- MUS 334 - Small Ensemble - Saxophone - 1 Credits
- MUS 335 - Small Ensemble - Mixed Woodwind - 1 Credits
- MUS 336 - Small Ensemble - Low Brass - 1 Credits
- MUS 337 - Small Ensemble - Mixed Brass - 1 Credits
- MUS 338 - Small Ensemble - Percussion - 1 Credits
- MUS 431 - Small Ensemble - String - 1 Credits
- MUS 432 - Small Ensemble - Flute - 1 Credits
- MUS 433 - Small Ensemble - Clarinet - 1 Credits
- MUS 434 - Small Ensemble - Saxophone - 1 Credits
- MUS 435 - Small Ensemble - Mixed Woodwind - 1 Credits
- MUS 436 - Small Ensemble - Low Brass - 1 Credits
- MUS 437 - Small Ensemble - Mixed Brass - 1 Credits
- MUS 438 - Small Ensemble - Percussion - 1 Credits

Note: Concurrent enrollment in a large ensemble is required for all music majors taking applied lessons (see Note 3). For piano majors, this requirement can be satisfied by enrolling in any of the ensembles listed above.

Entrepreneurship, 2 credits

Complete ALL of the following Courses:

- MUS 418 - Music Entrepreneurship - 2 Credits

Recital, 0 credits

Complete ALL of the following Courses:

- MUS 398 - Half Recital - -1 Credits
- MUS 498 - Recital - -1 Credits

You must complete both recitals

Additional Comments:

No Requirement Level

Standards

Admission Standards

Admission to the Department of Music as an undergraduate music major or minor is by audition. You must complete the music theory diagnostic test, and if you wish to major in music, you must be evaluated by piano faculty for placement.

Academic Standards

1. Permission to register, placement, and exceptions to the requirements are subject to the approval of the instructor and the department chair.

2. Must meet all major requirements for bachelor of music degree OR bachelor of arts degree.

3. To graduate with a major in music you must have a minimum 2.0 cumulative grade point average (2.75 to student teach) in all required major courses, including transfer courses, regardless of any declaration of academic forgiveness. You may repeat courses in the major if you follow the Repeating Courses policy.

4. Courses in music are open to all students who meet the prerequisites.

Learning Outcomes

Program Learning Outcomes (UWSP)

1. As a Music student, you will be able to perform at appropriate levels for professional engagement
2. You will demonstrate the disposition to cultivate a career in music. You will demonstrate an ongoing commitment to your own learning while maintaining high standards of professionalism
3. You will be able to analyze, create, and interpret music and use this knowledge to enrich your work as a musician
4. You will be able to classify and contextualize repertoire from diverse eras and traditions
5. You will be able to employ critical thinking and self-reflection in the thoughtful and strategic planning, instruction, and assessment in music pedagogy. Your teaching will demonstrate a mastery of content knowledge and consider context, standards, essential questions, enduring understandings, and meaningful objectives and assessments

Music Performance Major (BM): Vocal Option

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Music in the School of Performing Arts.

Admitted by audition only. Your performance proficiency will be reviewed at the end of your freshman year for permission to continue. In your first semester, with your applied teacher's approval, you may audition to enter the performance degree program in the second semester of the freshman year. You must complete MUS 246 or Level 100 of applied piano and complete the 400 level of study in voice. You must perform a half recital in your junior year in voice and give a senior recital.

Consists of a minimum of 86 credits.

Program Requirements
Type
Completion Requirement

Applied Music, 24 credits

Fulfill ALL of the following requirements:

100 and 200-Level, 8 credits

Earn at least 8 credits from the following:
- MUS 162 - 1st Yr Applied Music-Voice - 2-4 Credits
- MUS 262 - 2nd Yr Applied Music-Voice - 2-4 Credits

AND

300 and 400-Level, 16 credits

Earn at least 16 credits from the following:
- MUS 362 - 3rd Year Applied Music-Voice - 2-4 Credits
- MUS 462 - 4th Year Applied Music-Voice - 2-4 Credits

Applied Piano, 4-6 credits

Fulfill ANY of the following requirements:

Applied Piano Option 1

Complete ALL of the following Courses:
- MUS 146 - Group Piano I - 2 Credits
- MUS 147 - Group Piano II - 2 Credits
- MUS 246 - Group Piano III - 2 Credits

OR

Applied Piano Option 2

Complete ALL of the following Courses:
- MUS 160 - 1st Yr Applied Music-Piano - 2-4 Credits

Theory, 20 credits

Fulfill ALL of the following requirements:

Theory Section 1

Complete ALL of the following Courses:
- MUS 110 - Musicianship I - 3 Credits
- MUS 111 - Musicianship II - 3 Credits
- MUS 112 - Aural Musicianship I - 1 Credits
- MUS 113 - Aural Musicianship II - 1 Credits
- MUS 210 - Musicianship III - 3 Credits
- MUS 212 - Aural Musicianship III - 1 Credits
- MUS 310 - Composition - 3 Credits
- MUS 410 - Form and Analysis I - 3 Credits
  OR MUS 413 - Schenkerian Analysis - 3 Credits

AND

Theory Section 2

Earn at least 2 credits from the following:
- MUS 379 - 3rd Year Applied Music-Composition - 2-4 Credits
- MUS 394 - Advanced Choral Conducting - 2 Credits

Note: Placement exam required. If insufficient background, MUS 109 is prerequisite.

Conducting, 2 credits

Complete ALL of the following Courses:
- MUS 317 - Conducting - 2 Credits

Music Literature and History, 12 credits

Complete ALL of the following Courses:
- MUS 208 - Musicology I - 3 Credits
- MUS 320 - Musicology II - 3 Credits
- MUS 321 - Musicology III - 3 Credits
- MUS 422 - Song Literature - 3 Credits

Pedagogy, 2 credits

Complete ALL of the following Courses:
- MUS 492 - Vocal Pedagogy - 2 Credits

Large ensemble, 8 credits

Earn at least 8 credits from the following:
- MUS 341 - Large Ensemble-Choir - 1-2 Credits

Note: Take 1 credit per semester (see Note 3).

Opera Workshop, 2 credits

Complete ALL of the following Courses:
- MUS 390 - Opera Workshop - 1-2 Credits

Diction I and II, 2 credits

Complete ALL of the following Courses:
- MUS 302 - Diction for Singers I - 1 Credits
- MUS 303 - Diction for Singers II - 1 Credits

World Languages, 8 credits

World Languages and Literatures

Complete ALL of the following Courses:
- FREN 101 - First Semester French - 4 Credits
- FREN 102 - Second Semester French - 4 Credits
- GERM 101 - First Semester German - 4 Credits
- GERM 102 - Second Semester German - 4 Credits

Note

If you're seeking a B.M. in Vocal Performance you may choose to take either (1) two semesters of one language (French or German), or (2) one semester of each language (French and German). You may also verify proficiency in these languages through credit by examination. Contact the Department of World Languages and Literatures for testing times at the beginning of each term.

Music Entrepreneurship, 2 credits

Complete ALL of the following Courses:

- MUS 418 - Music Entrepreneurship - 2 Credits

Recital, 0 credits

Complete ALL of the following Courses:

- MUS 398 - Half Recital - -1 Credits
- MUS 498 - Recital - -1 Credits

You must complete both recitals

Instrumental Music Performance Certificate

Requirements

Simple Requisites

Curriculum
This certificate is administered by the area of Music in the School of Performing Arts.

Consists of 30 credits.

Program Requirements
Type
Completion Requirement

Applied Lessons, 20 Credits

Complete Applied Lessons Requirement - 20 credits minimum with a suggested 2 credits per semester in the first year

Ensemble, 8 Credits

Complete Ensemble Requirement - 8 credits minimum
Students enrolled in applied lessons must also enroll in a major instrumental ensemble as assigned by the appropriate director and applied studio teacher.

Recital Performance

Complete ALL of the following Courses:

- MUS 498 - Recital - -1 Credits

Pass/Fail

Special Topics, 1 Credit

Complete ALL of the following Courses:

- MUS 450 - Special Topics in Music - -3 Credits

Upon completion, you will be able to demonstrate through writing and oral communication how this certificate program's core principle supported ongoing value to combining a high-level of study in a creative field with your major field of study. This portion of the certificate program may be offered as part of the required recital performance.

Additional Comments:
You must maintain a minimum 3.50 GPA in all music classes.

You must be in good standing in your primary degree program each semester.

No Requirement Level

Standards

Admission Standards
1. Successfully audition for entrance to the Music Department; typically this audition is in February or March of your senior year of high school

2. Supply two letters of recommendation

3. Submit a250-500 word essay on how this certificate program's core principle supports ongoing value to combining a high level of study in a creative field with your major field of study.

Academic Standards
Minimum GPA requirement for this program is 3.50.

About this Program
The Instrumental Music Performance Certificate is a non-degree program designed for students looking for intensive studies in instrumental music, as both a soloist and an ensemble performer. While pursuing a degree in a field other than music, you will develop your skills as a performer with weekly private lessons with music department faculty, and will perform in large and small group ensembles. Working with your studio teacher, you design a course of study selecting academic music courses that focus on your interests, rather than following the prescribed traditional music degrees tracks.

This program is intended for incoming first-year students who have an extensive background and training in music performance but will be majoring in a discipline outside of the Music Department. Students already in their first or second year may audition for the program only through special circumstances and exceptions. Admission requirements can be found here.

Native American and Indigenous Studies Certificate

Requirements

Simple Requisites

Curriculum
This certificate is administered by the Department of History and International Studies within the College of Letters and Science.

The certificate program consists of a minimum of 9 credits, including at least 3 credits at the 300-level or above:

Program Requirements
Type
Completion Requirement

Core Courses, 6-9 credits

Choose 6-9 credits drawn from the following list, representing at least two different disciplines

Earn at least 6 credits from the following:

- ENGL 280 - American Indian Literature - 3 Credits
- ENGL 382 - Ethnic Literature of the United States - 3 Credits
- ENGL 386 - Major Authors of Ethnic Literature - 3 Credits
- HIST 292 - Native American History - 3 Credits
- HIST 393 - Wisconsin Indians - 3 Credits
- PHIL 381 - American Indian Environmental Philosophies - 3 Credits

Additional Courses

You may apply up to 3 credits to the certificate requirements from:

Complete ANY of the following Courses:

- HIST 285 - Women in American History - 3 Credits
- HIST 288 - Race and Ethnicity in American History - 3 Credits
- NRES 150 - People, Resources and the Biosphere - 3 Credits
- POLI 315 - Minority Group Politics - 3 Credits
- POLI 330 - Constitutional Law - 3 Credits
- POLI 375 - Latin American Politics - 3 Credits
- SOC 270 - Race and Ethnicity - 3 Credits
- SOC 343 - The Family: Cultural Perspectives - 3 Credits
- SW 365 - Social Work Practice with Diverse Populations - 3 Credits

Applied and Experimental Learning in Native Communities, 0-3 credits

Earn at least 0 credits from the following:

- NAIS 199 - Practicum in Native American and Indigenous Studies - 1-12 Credits
- NAIS 399 - Special Work in Native American and Indigenous Studies - 1-12 Credits
- NAIS 499 - Internship in Native American and Indigenous Studies - 1-12 Credits
- Or other appropriate internship, employment, or course of study working with Native people and organizations (such as a culminating experience in the student's major), with the approval of the program coordinator. In

some cases this requirement may be fulfilled by a non-credit bearing (0 credit) learning opportunity. In all other cases at least 3 credits are required.

Additional Comments:
Note: Other courses relevant to Native American and Indigenous Studies or to careers working with Native communities may count toward the certificate, with the approval of the program coordinator.

No Requirement Level

Standards

Academic Standards
Minimum GPA requirement for this program is 2.00.

Natural Resources (MS)

Requirements

Simple Requisites

Curriculum
This graduate program is administered by the Environment and Society in the College of Natural Resources.

You must earn at least 30 credits in graduate courses that are approved by your graduate committee. A minimum of 15 credits must be in courses numbered 700 and above.

You and your graduate committee will select courses based on you and your research needs.

Your graduate committee must consist of at least three members of the graduate faculty, at least two with home appointments in the College of Natural Resources.

Program Requirements
Type
Completion Requirement

Natural Resources, 2 Credits

Complete ALL of the following Courses:

- NRES 750 - Human Dimensions Research Methods - 1 Credits
  OR NRES 791 - Introduction to Research - 1 Credits
- NRES 795 - Graduate Seminar - 1 Credits

A maximum of five credits in these courses counts toward your 30-credit requirement: NRES 750, NRES 791, NRES 794, and NRES 795

Thesis

Complete a Thesis

1. Complete a thesis. Your thesis will be based on an independent research project conducted under the supervision of your graduate adviser and graduate committee.
2. You must enroll for at least 3 thesis (NRES 799) credits during each semester you are a full-time student. A maximum of 6 thesis credits (NRES 799) count toward your 30-credit requirement.
3. Submit a bound and electronic copy of your approved thesis to the University Library.

Culminating Experience

Complete a comprehensive final oral examination
You must take a comprehensive final oral examination conducted by your graduate committee which includes questions on your thesis and on your courses.

Additional Comments:

No Requirement Level

Standards

Admission Standards
Please submit the following:

1. UW-Stevens Point application for graduate study which includes official transcripts for all college courses.

2. Application to the College of Natural Resources graduate program

3. Resume

4. Copy of a paper written by you

5. Essay describing your professional interests and goals

6. Two letters of recommendation

7. Official Graduate Record Exam (GRE) scores, if available. A waiver to this requirement may be granted by the Associate Dean if the GRE has not been taken at the time of application AND for international students only; TOEFL or IELT Scores. Minimum guideline scores for each test are as follows:

• For the GRE, you must have a minimum combined Verbal and Quantitative score of at least 300.

• For the TOEFL, you must have a score of at least 80 on the Internet-based test.

• For the IELT, you must have a score of at least 7.

8. You must also have a 3.00 grade point average during your last two years as an undergraduate.

If you fail to meet the minimum admission requirements for GRE, TOEFL, IELT scores or grade point average, you may be accepted if your prospective adviser submits a letter of acceptance to the Associate Dean for inclusion in your graduate file.

You do not need an undergraduate major in one of the natural resource specialties. However, you may have to take additional courses to make up deficiencies in your undergraduate curriculum. If you have an undergraduate major in social sciences or humanities, you could have more deficiencies than someone with a major in the sciences.

Academic Standards
Minimum GPA requirement for this program is 3.00.

Admission/Acceptance to our Master of Science program involves two parts:

1. Your graduate application file must be complete, meaning all your application items have been received by the College. (Please follow the steps indicated on our Application Procedure page)

2. You, as the student applicant, must recruit a member of the CNR graduate faculty to agree to serve as your graduate adviser. It is up to you to contact faculty members directly who share your interests and discuss your application. Graduate faculty members may request additional materials from a student applicant.

If the CNR Main Office is notified by a graduate faculty member that they agree to serve as your graduate adviser AND all your application materials are received, then an acceptance letter will be sent to you. If you have not been successful in recruiting a graduate adviser, then you are not accepted into our program. As a courtesy, letters are sent to unsuccessful graduate program applicants usually in July or August for the fall semester and January for the spring semester.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)
The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

This program meets the certification/licensure requirements in the following states/territories:
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, New York, Nevada, North Carolina, North Dakota, Northern Mariana Islands, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming;

This program does not meet the certification/licensure requirements in the following states/territories:
American Samoa, Federated States of Micronesia, Guam, Puerto Rico, Republic of Palau, Republic of the Marshall Islands;

Note: If you live in a state or territory that does not meet certification/licensure requirements, you may contact the School of Education for more information.

Consists of a minimum of 85 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 105, CHEM 106, CHEM 117, PHYS 240, PHYS 250, ASTR 205, ASTR 206, MATH 111, MATH 225, and MATH 255.

Program Requirements
Type
Completion Requirement

Required Minor

Complete ANY of the following Programs:
- BIOL-MN - Biology Minor
- CHEM-MN - Chemistry Minor
- PHYSE-MN - Physics for Educators Minor
- GEOG-ER-MN - Earth Science Minor

Required Certificate

Certificate must be a different discipline than the minor

Complete ANY of the following Programs:
- BIOL-CT - Biology for Educators Certificate
- CHEM-CT - Chemistry for Educators Certificate
- PHYS-CT - Physics for Educators Certificate
- ESS-CT - Earth and Space Science for Educators Certificate
- ENV-SCI-CT - Environmental Science for Educators Certificate

Science Core - Biology, 10 credits

Fulfill ANY of the following requirements:

Biology Option 1

Complete ALL of the following Courses:
- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits

OR

Biology Option 2

Complete ALL of the following Courses:
- BIOL 130 - Introduction to Plant Biology - 5 Credits
- BIOL 160 - Introduction to Animal Biology - 5 Credits

Science Core - Chemistry, 9-10 credits

Fulfill ANY of the following requirements:

Chemistry Option 1

Complete ALL of the following Courses:
- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits

OR

Chemistry Option 2

Complete ALL of the following Courses:
- CHEM 117 - General Chemistry Principles - 5 Credits
- CHEM 248 - Quantitative Analysis - 4 Credits

Science Core - Physics, 10 credits

Fulfill ANY of the following requirements:

Physics Option 1

Complete ALL of the following Courses:
- PHYS 203 - College Physics I - 5 Credits
- PHYS 204 - College Physics II - 5 Credits

OR

Physics Option 2

Complete ALL of the following Courses:
- PHYS 240 - University Physics I - 5 Credits
- PHYS 250 - University Physics II - 5 Credits

Science Core - Earth/Space, 12 credits

Complete ALL of the following Courses:
- ASTR 205 - The Solar System - 4 Credits
- ASTR 206 - Stars and Stellar Systems - 4 Credits
- GEOG 105 - The Dynamic Earth - 3 Credits
- GEOL 106 - Earth History - 1 Credits

Collateral Courses, 10-11 credits

Complete ALL of the following Courses:
- MATH 111 - Applied Calculus - 4 Credits
  OR MATH 225 - Calculus I - 5 Credits
  OR MATH 255 - Elementary Statistical Methods - 4 Credits
- NRES 370 - Introduction to Environmental Study and Environmental Education - 3 Credits
- PSYC 110 - Introduction to Psychology - 3 Credits

Required Education, 34 credits

Complete ALL of the following Courses:
- BIED 398 - Student Teaching in the Sciences - 1-16 Credits
- BIED 400 - Seminar on Teaching for Student or Intern Science Teachers - 1 Credits
- EDUC 205 - Pluralism for Educators - 2 Credits
- EDUC 300 - Seminar for Professional Educators II - 1 Credits
- EDUC 331 - Educational Technology - 3 Credits
- EDUC 337 - Techniques in Secondary Education-Science - 3 Credits
- EDUC 351 - Educating Students with Special or Other Needs in the General Education Environment - 3 Credits
- EDUC 381 - Educational Psychology - 2 Credits
- EDUC 382 - Managing Learning Environments - 1 Credits
- EDUC 385 - Teaching the Early Adolescent - 3 Credits
- EDUC 386 - Literacy in the Secondary School - 3 Credits

BIED 398 should be taken for 12 credits

Additional Comments:

No Requirement Level

Standards

Academic Standards

1. To be approved for graduation, you must have a minimum overall grade point average of 2.75 in all courses included in your natural science major or minor, regardless of any declaration of academic forgiveness.

2. In addition, you must meet the minimum GPA required for the minor that goes with the natural science option you are pursuing. See descriptions of the minors in the earth science, biology, chemistry, or physics sections of this catalog.

3. See the Repeating Courses policy on repeating courses.

About this Program

Email: biology@uwsp.edu

About this Program
The Natural Science major is designed only for students who intend to teach secondary or middle school. If you at some point decide not to teach or do not qualify to teach, you must choose a new major. Depending on the array of courses taken, switching to either a Biology major or Biogeoscience option of the Geoscience major might allow you to apply the greatest number of accumulated science credits towards a degree.

The Natural Science major consists of a foundation of introductory courses from all areas of science, a minor in one science discipline, a concentration of at least 14 credits in a second science discipline. Note that the Wisconsin Department of Instruction (DPI) requires at least 15 credits in a subject area to be certified to teach that subject.

NOTE: See individual departments (Biology, Chemistry and Biochemistry, Geography and Geology, Physics and Astronomy) for course combination restrictions.

Nursing Major (BSN)

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Nursing in the School of Health Sciences and Wellness.

Consists of a minimum of 60 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 101, CHEM 105, HSW 301, and MATH 255.

Program Requirements
Type
Completion Requirement

Academic Core Requirements - BSN Completion Program

- The Bachelor of Science General Education Program Requirements.
- Associate or Diploma Degree in Nursing from a nationally accredited program.
- Current Wisconsin nursing license.

Complete Core Requirements

Collateral Courses, 29-30 credits

Complete ALL of the following Courses:

- BIOL 233 - Microbiology for Health Sciences - 4 Credits
  OR BIOL 333 - General Microbiology - 4 Credits
- BIOL 385 - Human Physiology - 4 Credits
- BIOL 387 - Human Anatomy - 4 Credits
- CHEM 101 - Basic Chemistry - 5 Credits
  OR CHEM 105 - Fundamental Chemistry - 5 Credits
- HSW 301 - Fundamentals of Biostatistics - 3 Credits
  OR MATH 255 - Elementary Statistical Methods - 4 Credits
- PSYC 110 - Introduction to Psychology - 3 Credits
- PSYC 260 - Introduction to Developmental Psychology - 3 Credits
  OR HD 265 - Human Growth and Development: A Life-Span Approach - 3 Credits
- SOC 101 - Introduction to Sociology - 3 Credits

Nursing Core, 25 credits

Complete ALL of the following Courses:

- NURS 310 - Professional Essentials - 1 Credits
- NURS 407 - Foundations of Professional Nursing Practice (BSN@home) - 3 Credits
  OR NURS 430 - Foundations of Professional Nursing Practice - 3 Credits
- NURS 431 - Chronic Care Management - 3 Credits
  OR NURS 441 - Chronic Care Management (BSN@Home) - 3 Credits
- NURS 432 - Aging and Health - 3 Credits
  OR NURS 452 - Aging and Health (BSN@Home) - 3 Credits

- NURS 436 - Research and Evidence-Based Practice - 3 Credits
  OR NURS 446 - Research and Evidence-Based Practice (BSN@Home) - 3 Credits
- NURS 437 - Leadership and Management - 3 Credits
  OR NURS 447 - Leadership and Management (BSN@Home) - 3 Credits
- NURS 455 - Concepts in Nursing Practice - 3 Credits

Nursing Electives, 6-7 credits

Earn at least 6 credits from the following:

- HSW 306 - Introduction to Motivational Interviewing and Health and Wellness Coaching - 3 Credits
- HSW 390 - Human Pathophysiology - 4 Credits
- HSW 395 - Epidemiology and Public Health - 3 Credits
- NURS 472 - Nursing Economics - 3 Credits
- NURS 486 - Selected Topics in Nursing - 3 Credits

NURS 486 may be repeated with different subtitles

Additional Comments:

No Requirement Level

Standards

Admission Standards
Formal application to the BSN Completion Program must be completed during the semester prior to enrolling in nursing courses.

- Associate or Diploma Degree in Nursing from a nationally accredited program
- Current Wisconsin nursing license
- Minimum GPA of 2.5 (0-4.0)

Academic Standards
For acceptance and continued registration In the Nursing major, you must earn a grade point average of 2.5 or better overall. No grade below a C in any nursing course will be accepted for graduation. No more than two courses with grades of less than C- will be accepted in the major and/or may be repeated for credit.

About this Program
Nursing (BSN) is a degree completion program that enables licensed registered nurses (RNs) holding either a Diploma or Associate Degree in Nursing to obtain a Bachelor of Science Degree in Nursing. Coursework will prepare registered nurses for leadership roles and broaden theoretical understanding and clinical skills for caring for patients in various acute, community, and ambulatory health settings. Students will increase skills in technology and communication while gaining a greater appreciation for the interdisciplinary aspect of nursing practice. UWSP offers courses in the Nursing Program in face-to-face, hybrid, and/or internet format. Online courses may be taught by UWSP faculty or by faculty from the six partner campuses: UW-Stevens Point, UW-Eau Claire, UW-Green Bay, UW-Oshkosh, UW-Madison, and UW-Milwaukee through the BSN@Home program: www.bsnathome.com. Students holding an Associate Degree in Nursing may be eligible for up to 60 transferable credits (30 general education and 30 nursing) based on articulation agreements. Students identifying UW-Stevens Point as their home campus when enrolling in BSN@Home courses receive student services from the University.

About this Program
The Bachelor of Science (B.S.) in Organizational Leadership trains leaders to apply theory and evidence-based research to promote, strengthen, and change community and organizational networks.

The BS in Organizational Leadership is open to all students. The program requires completion of at least 120 credit hours, and up to 72 credits may be awarded for coursework previously completed for the Applied Associate degree. If enrolled in this program, you will also be required to complete the General Education Program (GEP) requirements. Many of the courses required for the BS in Organizational Leadership will also satisfy GEP requirements.

Learning Outcomes

Program Learning Outcomes (UWSP)
As a graduate of the Organizational Leadership program, you will be able to:

1. Describe the importance of social science to organizational leadership
2. Apply knowledge of business practices to leadership and management
3. Explain the importance of behaving professionally and ethically
4. Utilize mathematical and communication skills in both writing and speech

Peace Studies Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the Department of Political Science within the College of Letters and Science.

Consists of 18 credits.

Program Requirements
Type
Completion Requirement

Required, 6 credits

Complete ALL of the following Courses:

- PAX 200 - Dilemmas of War and Peace: Introduction to Peace and Conflict Studies - 3 Credits
- PAX 490 - Seminar - 3 Credits
  OR PAX 491 - Senior Thesis - 3 Credits

Take 12 credits from one Area below

After you complete PAX 200, take 12 credits from one area below. Consult with the coordinator to determine your area. No more than 6 credits from one department or discipline may apply. You may take 3 credits of 300 level independent study or special topics courses with coordinator consent.

Fulfill ANY of the following requirements:

Conflict Studies Area

Earn at least 12 credits from the following:

- COMM 180 - Foundations of Workplace Communication - 3 Credits
- COMM 390 - Seminar - 3 Credits
- HIST 302 - War and Propaganda in the 20th Century - 3 Credits
- HIST 338 - The Arab-Israeli Conflict - 3 Credits
- HIST 360 - Modern Ireland - 3 Credits
- HIST 361 - France: Enlightenment, Revolution, Napoleon - 3 Credits
- HIST 378 - U.S. Foreign Relations 1914 to the Present - 3 Credits
- HIST 385 - Women, War and Peace - 3 Credits
- INTL 391 - Special Topics - 1-12 Credits
- NRES 323 - International Resource Management - 3 Credits
- PAX 390 - Internship or Practicum - 1-3 Credits
- PAX 399 - Special Work - 1-3 Credits
- PHIL 335 - Ethics of War - 3 Credits
- POLI 383 - U.S. Foreign Policy - 3 Credits
- POLI 385 - International Organizations and Law - 3 Credits
- POLI 386 - Politics of Terrorism and Homeland Security - 3 Credits
- POLI 387 - International Simulation - 1-3 Credits
- POLI 388 - International Law and Human Rights - 3 Credits
- REL 302 - Religion and Cultural Conflict - 3 Credits
- REL 342 - Islam - 3 Credits

OR

Global Development Area

Earn at least 12 credits from the following:

- ANTH 372 - Environmental Anthropology - 3 Credits
- ECON 362 - Economic Development - 3 Credits
- FN 357 - Ecology of Foods - 3 Credits
- FOR 392 - Native American Forestry - 3 Credits
  OR HIST 392 - Native American Forestry - 3 Credits

About this Program
This graduate certificate program is intended to educate and train engineering and manufacturing professionals in the skills and abilities expected of a process control engineer. As a graduate certificate, it aims to expand the skills and abilities of engineers and career professionals in paper, chemical, and other manufacturing fields that rely on process control in their workflow. Upon completion of this certificate, students will be able to:

1. Identify, scope, and justify an automation project.

2. Determine process and customer requirements and how to meet those requirements.

3. Design, specify, and procure the software and equipment needed for a control system.

4. Develop and code control software.

5. Supervise installation and startup of control systems.

6. Provide support for control systems.

12 credits of communication coursework, at least 9 must be 300- level or above.

Note: COMM 101 may not be used to complete the minor.

Additional Comments:

No Requirement Level

Standards

Academic Standards

Retention and Graduation

1. In order to graduate with a major or minor in professional communication, you must achieve a 2.50 GPA in all communication classes taken, regardless of a declaration of academic forgiveness.

2. Once you complete 12 credits toward your professional communication major (excluding 101), you must maintain a 2.50 GPA for your major coursework. If your professional communication major GPA falls below a 2.50, you will be placed on probation for one semester. If you fail to regain a 2.50 GPA after the next semester in which you complete a professional communication course, you will be dismissed from the major.

3. Courses with a grade below C- DO NOT fulfill the major or minor requirements, but are included in the calculation of the major or minor GPA. See the Grade-related Policies section of this catalog for the policy on repeating courses.

4. Transfer credit policy: Certain courses taken at other universities may substitute for courses in the major. Credits from these courses will be counted when calculating your GPA in professional communication.

About this Program
Through an affiliation agreement with UW-Milwaukee (UWM), we offer a special dual-degree option for the Physics Major, BS program at UW-Stevens Point (UWSP). The affiliation agreement makes it possible for you to earn both a Bachelor of Science degree with a physics major from UWSP and a Bachelor of Science in Engineering degree with an engineering major from UWM in a total time of five years for both degrees, with approximately three years (a minimum of 90 credits) at UWSP and then approximately two years (a minimum of 60 credits) at UWM. UWM offers engineering majors in Biomedical, Civil, Computer, Electrical, Industrial, Materials, and Mechanical Engineering.

Philosophy Major (BA): Environmental Ethics Option

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of Philosophy and Religious Studies within the College of Letters and Science.

Consists of a minimum of 33 credits.

Program Requirements
Type
Completion Requirement

Logic, 3 credits

Complete ANY of the following Courses:

- PHIL 121 - Critical Thinking - 3 Credits
- PHIL 322 - Symbolic Logic - 3 Credits

History, 6 credits

Complete ALL of the following Courses:

- PHIL 325 - Ancient Greek Philosophy - 3 Credits
- PHIL 326 - 17th and 18th Century Philosophy - 3 Credits

Ethics and Applied Ethics, 6 credits

Earn at least 6 credits from the following:

- PHIL 302 - Ethics and Medicine - 3 Credits
- PHIL 305 - Ethics - 3 Credits
- PHIL 321 - Food Ethics - 3 Credits
- PHIL 336 - Social and Political Philosophy - 3 Credits
- PHIL 351 - Ecofeminism - 3 Credits
- PHIL 360 - Animal Ethics - 3 Credits
- PHIL 381 - American Indian Environmental Philosophies - 3 Credits

Environmental Ethics, 6 credits

Complete ALL of the following Courses:

- PHIL 380 - Environmental Ethics - 3 Credits
- PHIL 480 - Advanced Environmental Ethics - 3 Credits
  OR PHIL 499 - Independent Study Capstone - 3 Credits

Philosophy Electives, 3 credits

Earn at least 3 credits from the following:

- PHIL 102 - Science and Society - 3 Credits
- PHIL 306 - Philosophy of Science - 3 Credits
- PHIL 310 - Metaphysics - 3 Credits
- PHIL 315 - Philosophy of Law - 3 Credits
- PHIL 320 - Philosophy of Religion - 3 Credits
- PHIL 321 - Food Ethics - 3 Credits
- PHIL 336 - Social and Political Philosophy - 3 Credits
- PHIL 351 - Ecofeminism - 3 Credits
- PHIL 360 - Animal Ethics - 3 Credits
- PHIL 381 - American Indian Environmental Philosophies - 3 Credits

PHIL 321, PHIL 351, PHIL 360, and PHIL 381 can only be used in Electives if not used above

Interdisciplinary Electives, 9 credits

At least 6 credits must be 300-level or higher and no more than 6 credits may be in philosophy. Choose from:

Earn at least 9 credits from the following:

- BIOL 305 - General Ecology - 3 Credits
- BIOL 311 - Population Genetics and Evolution - 3 Credits
- BIOL 353 - Ethnobotany - 3 Credits
- COMM 130 - Introduction to Public Relations - 3 Credits
- COMM 180 - Foundations of Workplace Communication - 3 Credits
- ECON 342 - Ecological Economics - 3 Credits

- ENGL 248 - Introduction to Environmental and Science Writing - 3 Credits
- ENGL 348 - Advanced Environmental and Science Writing - 3 Credits
- ENGL 358 - Outdoor Writing - 3 Credits
- ENGL 363 - Nature Literature - 3 Credits
- ENGL 365 - Science Literature - 3 Credits
- ENGL 392 - Literature and Ecology - 3 Credits
- FOR 232 - Dendrology and Silvics - 3 Credits
- GEOG 100 - Human Impacts on the Physical Environment - 3 Credits
- GEOG 303 - Processes of Environmental Degradation - 3 Credits
- GEOL 230 - Environmental Geology - 3 Credits
- HIST 204 - Modern Global Environmental History - 3 Credits
- HIST 277 - Designing the American Dream - 3 Credits
- HIST 278 - Business and Environment - 3 Credits
- HIST 279 - Environmental Justice - 3 Credits
- HIST 280 - U.S. Environmental History - 3 Credits
- HIST 304 - History of Climate Change - 3 Credits
- HIST 380 - The Environmental Movement - 3 Credits
- HSW 320 - Environment, Health, and Technology - 3 Credits
- NRES 150 - People, Resources and the Biosphere - 3 Credits
- NRES 151 - Ecological Basis for Natural Resource Management - 3 Credits
- NRES 320 - Natural Resources Communication and Public Relations - 3 Credits
- NRES 323 - International Resource Management - 3 Credits
- NRES 370 - Introduction to Environmental Study and Environmental Education - 3 Credits
- NRES 395 - Environmental Science for Educators - 1-3 Credits
- NRES 404 - Environmental Health - 1-3 Credits
- NRES 412 - Ecological Basis for Environmental Education - 1 Credits
- NRES 458 - Biodiversity and Conservation Biology - 3 Credits
- NRES 459 - Ecosystem Management and Restoration - 3 Credits
- NRES 460 - People and Ecosystems - 4 Credits
- NRES 491 - Seminar in Conservation Biology - 1 Credits
- POLI 304 - Environmental Politics and Policy - 3 Credits

About this Program
Law and Justice is an interdisciplinary program studying law in connection to human attitudes, behaviors, practices, and values. Majors and minors learn to analyze relationships between law and ethics, justice, freedom, power, rights, knowledge, truth, and justification-relationships that are not incidental to law, but critical and essential components of it. For students interested in law school or law-related careers.

About this Program
Environmental Ethics is a branch of Philosophy that explores questions concerning the values, beliefs and attitudes that influence how people relate to the environment.

Owner
Philosophy and Religious Studies

Program Code
PHIL-BS: EN-ETH-BS

Career
Undergraduate

Degree Designation
BS - Bachelor of Science

CIP Code
38.0101

Learning Outcomes

Program Learning Outcomes (UWSP)
As a graduate of the Philosophy Program, you will be able to:

1. Demonstrate an ability to read closely and write effectively about texts or cultural artifacts that reflect on perennial questions concerning the human condition

2. Engage a variety of ideas and worldviews through active investigation of the lives, ideas, beliefs or values of persons meaningfully different than oneself

3. Identify, analyze, and explain central components, concepts, and content of the major intellectual traditions in Western Philosophy or World Religions

4. Demonstrate critical thinking by examining and evaluating philosophical arguments and the truth claims that rest on them

Philosophy Major (BS): Law and Justice Option

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of Philosophy and Religious Studies within the College of Letters and Science.

Consists of a minimum of 39 credits. At least 30 credits must be at 300-level or above.

Program Requirements
Type
Completion Requirement

Philosophy of Law and Justice Core, 6 credits

Complete ALL of the following Courses:
- PHIL 315 - Philosophy of Law - 3 Credits
- PHIL 336 - Social and Political Philosophy - 3 Credits

Logic Core, 6 credits

Complete ALL of the following Courses:
- PHIL 121 - Critical Thinking - 3 Credits
- PHIL 322 - Symbolic Logic - 3 Credits

Writing Core, 6 credits

Complete ALL of the following Courses:
- ENGL 347 - Grant and Proposal Writing - 3 Credits
- ENGL 370 - Legal Writing - 3 Credits

History of Philosophy, 3 credits

Complete ANY of the following Courses:
- PHIL 325 - Ancient Greek Philosophy - 3 Credits
- PHIL 326 - 17th and 18th Century Philosophy - 3 Credits

Philosophy Electives, 6 credits

No more than 3 credits at the 100-level

If not already taken to satisfy requirements above

Earn at least 6 credits from the following:
- PHIL 100 - Introduction to Philosophy - 3 Credits
- PHIL 101 - Introduction to Ethics in Society - 3 Credits
- PHIL 102 - Science and Society - 3 Credits
- PHIL 302 - Ethics and Medicine - 3 Credits
- PHIL 312 - Epistemology - 3 Credits
- PHIL 321 - Food Ethics - 3 Credits
- PHIL 325 - Ancient Greek Philosophy - 3 Credits
- PHIL 326 - 17th and 18th Century Philosophy - 3 Credits
- PHIL 360 - Animal Ethics - 3 Credits
- PHIL 381 - American Indian Environmental Philosophies - 3 Credits

Interdisciplinary Electives, 9 credits

Earn at least 9 credits from the following:
- HIST 279 - Environmental Justice - 3 Credits
- HIST 285 - Women in American History - 3 Credits
- HIST 288 - Race and Ethnicity in American History - 3 Credits
- HIST 292 - Native American History - 3 Credits
- HIST 300 - Archival Research and Writing - 3 Credits
- HIST 382 - U.S. Immigration and Migration History - 3 Credits
- HIST 393 - Wisconsin Indians - 3 Credits
- POLI 212 - Law and Legal Systems - 3 Credits
- POLI 330 - Constitutional Law - 3 Credits
- POLI 331 - Constitutional Law: Special Topics - 3 Credits
- POLI 335 - Law and Society - 3 Credits
- POLI 338 - Environmental Law and Regulation - 3 Credits
- POLI 388 - International Law and Human Rights - 3 Credits
- REL 345 - Religion and Ecology - 3 Credits
- REL 363 - Religion and Society in Ancient Israel - 3 Credits

Capstone, 3 credits

Complete ANY of the following Courses:
- PHIL 480 - Advanced Environmental Ethics - 3 Credits
- PHIL 490 - Seminar - 3 Credits
- PHIL 499 - Independent Study Capstone - 3 Credits

Additional Comments:

Bachelor of Science in Philosophy, 9 credits
Type
Completion Requirement

Physical Education Major (BS)

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Physical and Health Education in the School of Education. Additional policies for this major are available at this link.

Physical Education for Teacher Certification (Kindergarten - Grade 12)

Consists of a minimum of 73 credits.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)
The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

This program meets the certification/licensure requirements in the following states/territories:
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, New York, Nevada, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, West Virginia, Wisconsin, Wyoming;

This program does not meet the certification/licensure requirements in the following states/territories:
American Samoa, Federated States of Micronesia, Guam, Northern Mariana Islands, Puerto Rico, Republic of Palau, Republic of the Marshall Islands, U.S. Virgin Islands, Washington;

Note: If you live in a state or territory that does not meet certification/licensure requirements, you may contact the School of Education for more information.

Program Requirements
Type
Completion Requirement

Required

Complete ALL of the following Courses:
- BIOL 287 - Essentials of Human Anatomy - 4 Credits
- EDUC 205 - Pluralism for Educators - 2 Credits
- EDUC 381 - Educational Psychology - 2 Credits
- EDUC 382 - Managing Learning Environments - 1 Credits
- EDUC 386 - Literacy in the Secondary School - 3 Credits
- EDUC 400 - Student Teaching Seminar - 1-2 Credits
- HSW 375 - Kinesiology - 3 Credits
- PEX 400 - Physical Education for Individuals with Disabilities - 3 Credits
- PEX 401 - Physical Education for Individuals with Disabilities - 2 Credits
- PHED 150 - Foundations of Teaching pK-12 Physical Education - 3 Credits
- PHED 201 - Professional Teaching Skills II - 5 Credits
- PHED 205 - Fundamental Swim Skills for Physical Education - 1 Credits
- PHED 220 - Lifespan Motor Development - 3 Credits
- PHED 260 - Pedagogy in Physical Education - 3 Credits
- PHED 302 - Teaching Adventure Education - 3 Credits
- PHED 331 - Teaching Methods in Elementary Physical Education - 2 Credits
- PHED 332 - Teaching Experience in Elementary Physical Education - 3 Credits
- PHED 360 - Exercise Physiology Concepts for the Physical Education

Teacher - 3 Credits
- PHED 370 - Curriculum Design and Implementation in Pre K-12 Physical Education - 3 Credits
- PHED 380 - Assessment and Technology in Physical Education - 3 Credits
- PHED 398 - Student Teaching in Physical Education - 1-12 Credits
- PHED 428 - Teaching Middle and Secondary Physical Education - 3 Credits

PHED 398 should be taken for 12 credits if student teaching only in Phy Ed, and 9 credits if also teaching in health

Required Biology and Collateral

Complete ALL of the following Courses:
- BIOL 101 - General Biology - 5 Credits
- PSYC 110 - Introduction to Psychology - 3 Credits

Additional Comments:
Notes

See the Student Teaching section of this catalog for additional licensing requirements.

State teacher licensing rules may change at any time due to legislative or licensing changes.

No Requirement Level

Standards

Academic Standards
Minimum GPA requirement for this program is 2.75.

Physics Major (BS)

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of Physics and Astronomy within the College of Letters and Science.

Consists of a minimum of 62 credits (57 credits if taking CHEM 117).

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: MATH 225, CHEM 105, CHEM 117, PHYS 240, and PHYS 250.

Program Requirements

Type
Completion Requirement

Mathematics

Complete ALL of the following Courses:
- MATH 225 - Calculus I - 5 Credits
- MATH 226 - Calculus II - 5 Credits
- MATH 227 - Calculus III - 4 Credits

Chemistry

Fulfill ANY of the following requirements:

Chemistry Option 1

Complete ALL of the following Courses:
- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits

OR

Chemistry Option 2

Complete ALL of the following Courses:
- CHEM 117 - General Chemistry Principles - 5 Credits

Physics

Complete ALL of the following Courses:
- PHYS 111 - Seminar: Introduction To Physics - 1 Credits
- PHYS 240 - University Physics I - 5 Credits
- PHYS 250 - University Physics II - 5 Credits
- PHYS 300 - Modern Physics - 3 Credits
- PHYS 314 - Mathematical Methods in Physics - 4 Credits
- PHYS 315 - Computational Physics - 4 Credits
  OR PHYS 370 - Electronics - 4 Credits
- PHYS 320 - Electricity and Magnetism - 4 Credits
- PHYS 335 - Advanced Mechanics - 3 Credits
- PHYS 388 - Research Participation - 1-4 Credits
  OR PHYS 499 - Special Work - 1-4 Credits
- PHYS 405 - Quantum Mechanics - 3 Credits
- PHYS 435 - Thermodynamics and Statistical Mechanics - 3 Credits
- PHYS 470 - Experimental Physics - 3 Credits

PHYS 388 or PHYS 499 should be taken for 1 credit

Additional Physics Courses

Complete Additional Courses
Additional physics courses numbered above 300 not including PHYS 390 or PHYS 490 to attain a minimum of 40 credits in physics.

Additional Comments:

No Requirement Level

Standards

Academic Standards
1. To be accepted as a physics major, register with the department office. To be retained and approved for graduation, you must have a 2.00 cumulative GPA in all courses in the major, regardless of any declaration of academic forgiveness.

2. No more than one grade below C- in physics courses numbered 300 or above may be applied to the major.

3. If you do not meet these standards, you may petition the department chair for consideration. See the Grade-related Policies section of this catalog for the policy on repeating courses.

4. All upper division physics courses (300 and above) are open to all students who meet the prerequisites.

Learning Outcomes

Program Learning Outcomes (UWSP)
Upon completing a Physics degree from UWSP, you will be able to:

1. Integrate critical thinking, mathematical skills, and principles of theoretical and applied physics to explain and solve problems related to physical processes
2. Investigate a physics problem by conducting an experiment, collecting data, analyzing results, determining uncertainties, and drawing justifiable conclusions
3. Communicate effectively within the profession through clear writing and oral presentation

Physics Major (BS): Applied Electronics Option

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of Physics and Astronomy within the College of Letters and Science.

Consists of a minimum of 64 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: MATH 225, CHEM 105, CHEM 117, PHYS 240, PHYS 250, and ECON 110.

Program Requirements
Type
Completion Requirement

Mathematics

Complete ALL of the following Courses:
- MATH 225 - Calculus I - 5 Credits
- MATH 226 - Calculus II - 5 Credits
- MATH 227 - Calculus III - 4 Credits

Chemistry

Complete ANY of the following Courses:
- CHEM 105 - Fundamental Chemistry - 5 Credits

- PHYS 315 - Computational Physics - 4 Credits
- PHYS 320 - Electricity and Magnetism - 4 Credits
- PHYS 370 - Electronics - 4 Credits
- PHYS 383 - Solid State Physics - 3 Credits
  OR PHYS 385 - Optics - 3 Credits
- PHYS 470 - Experimental Physics - 3 Credits

Internship

Earn at least 6 credits from the following:
- PHYS 490 - Internship in Applied Physics - 1-6 Credits

Elective

Earn at least 3 credits from the following:
- BUS 320 - Principles of Management - 3 Credits
- ECON 110 - Principles of Macroeconomics - 3 Credits
- ENGR 105 - Engineering Fundamentals - 3 Credits
- ENGR 107 - Engineering Graphics with Computer Aided Drafting - 3 Credits

Additional Comments:
Note: Enrollment caps are in effect for those seeking the physics major with applied electronics emphasis. Please contact the Department of Physics and Astronomy early for entrance requirements and application procedures.

Physics for Educators Certificate

Requirements

Simple Requisites

Curriculum
This certificate is administered through the Department of Physics and Astronomy within the College of Letters and Science.

Consists of 13 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: PHYS 240 and PHYS 250.

Program Requirements
Type
Completion Requirement

Required Physics, 10 credits

Fulfill ANY of the following requirements:

Physics Option 1

Complete ALL of the following Courses:
- PHYS 203 - College Physics I - 5 Credits
- PHYS 204 - College Physics II - 5 Credits

If you are completing the Physics 203/204 sequence, you need to take either Math 111 or Math 225 before taking Physics 300.

OR

Physics Option 2

Complete ALL of the following Courses:
- PHYS 240 - University Physics I - 5 Credits
- PHYS 250 - University Physics II - 5 Credits

Required Physics, 3 credits

Complete ALL of the following Courses:
- PHYS 300 - Modern Physics - 3 Credits

Additional Comments:

No Requirement Level

Standards

Academic Standards
Minimum GPA requirement for this program is 2.75.

A minimum grade of C must be attained in each course taken.

About this Program
This certificate program is intended for, but not limited to, those students pursuing a degree in science education. The certificate can be completed concurrently with your undergraduate degree in Natural Sciences with teaching intent or a related field.

The certificate does not meet the requirements for a Physics license through the Wisconsin Department of Public Instruction.

Physics Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the Department of Physics and Astronomy within the College of Letters and Science.

Consists of 39 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: PHYS 240, PHYS 250, and MATH 225.

Program Requirements
Type
Completion Requirement

Physics, 14 credits

Complete ALL of the following Courses:
- PHYS 111 - Seminar: Introduction To Physics - 1 Credits
- PHYS 240 - University Physics I - 5 Credits
- PHYS 250 - University Physics II - 5 Credits
- PHYS 300 - Modern Physics - 3 Credits

Electives, 11 credits

Complete Electives
Choose from other physics courses numbered above 300 not including PHYS 390 and PHYS 490. At least one course must include a laboratory.

Note: If you are entering a teaching field, you may select ASTR 311 as an elective. A minor in physics is certifiable for teaching only when accompanied by a major in another science or a major in mathematics.

Mathematics, 14 credits

Complete ALL of the following Courses:
- MATH 225 - Calculus I - 5 Credits
- MATH 226 - Calculus II - 5 Credits
- MATH 227 - Calculus III - 4 Credits

Additional Comments:

No Requirement Level

Standards

Academic Standards
When you decide to minor in physics, register in the department office to be assured of proper advising. To be retained and approved for graduation as a minor, you must have a minimum grade point average of 2.00 in all courses in the minor, regardless of a declaration of academic forgiveness. No more than one grade below C- in physics courses numbered 300 or above may be applied to the minor.

Political Science Major (BA)

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of Political Science within the College of Letters and Science.

Consists of a minimum of 40 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: POLI 301.

Program Requirements
Type
Completion Requirement

Required, 16 credits

Complete ALL of the following Courses:

- POLI 101 - American Politics - 3 Credits
- POLI 180 - Introduction to Global Affairs - 3 Credits
- POLI 201 - Career Development in Political Science - 1 Credits
- POLI 300 - Political Inquiry and Analysis - 3 Credits
- POLI 301 - Methods of Policy Analysis - 3 Credits
- POLI 315 - Minority Group Politics - 3 Credits
  OR POLI 360 - Gender and Politics in Comparative Perspective - 3 Credits

Political Science Subfields, 12 credits

Take at least 6 credits in each of the two fields listed below.

Fulfill ALL of the following requirements:

American Politics

Earn at least 6 credits from the following:

- POLI 202 - Introduction to Policy Analysis - 3 Credits
- POLI 212 - Law and Legal Systems - 3 Credits
- POLI 242 - State and Local Government - 3 Credits
- POLI 250 - Public Administration - 3 Credits
- POLI 304 - Environmental Politics and Policy - 3 Credits
- POLI 306 - Health Politics and Policies - 3 Credits
- POLI 307 - Politics and the Media - 3 Credits
- POLI 308 - Public Opinion - 3 Credits
- POLI 310 - American Presidency - 3 Credits
- POLI 315 - Minority Group Politics - 3 Credits
- POLI 316 - Parties and Elections - 3 Credits
- POLI 320 - Legislative Process - 3 Credits
- POLI 325 - Business, Government, and Politics - 3 Credits
- POLI 330 - Constitutional Law - 3 Credits
- POLI 331 - Constitutional Law: Special Topics - 3 Credits
- POLI 335 - Law and Society - 3 Credits
- POLI 338 - Environmental Law and Regulation - 3 Credits
- POLI 389 - Public Policy for Sustainable Communities - 3 Credits
- POLI 450 - Law, Policy, and Regulation - 3 Credits

AND

Global Politics

Earn at least 6 credits from the following:

- PAX 200 - Dilemmas of War and Peace: Introduction to Peace and Conflict Studies - 3 Credits
- POLI 305 - Climate Change Politics and Policy - 3 Credits
- POLI 360 - Gender and Politics in Comparative Perspective - 3 Credits
- POLI 361 - European Politics - 3 Credits
- POLI 362 - East European Politics - 3 Credits
- POLI 363 - The Politics of the European Union - 3 Credits
- POLI 370 - Asian Politics - 3 Credits
- POLI 374 - International Development - 3 Credits
- POLI 375 - Latin American Politics - 3 Credits
- POLI 382 - Latin America in World Affairs - 3 Credits
- POLI 383 - U.S. Foreign Policy - 3 Credits
- POLI 385 - International Organizations and Law - 3 Credits
- POLI 386 - Politics of Terrorism and Homeland Security - 3 Credits
- POLI 387 - International Simulation - 1-3 Credits
- POLI 388 - International Law and Human Rights - 3 Credits

Political Science Electives, 12 credits

Complete 12 additional Political Science credits. You may choose any courses from the American Politics and Global Politics subfields, as well as any of the following:

Earn at least 12 credits from the following:

- POLI 391 - American Political Thought - 3 Credits
- POLI 392 - Politics, Art and Film - 3 Credits
- POLI 394 - Political Ideas that Changed the World - 3 Credits
- POLI 396 - Radical and Utopian Politics - 1-3 Credits
- POLI 455 - Internship in Government - 1-6 Credits
- POLI 490 - Selected Problems in Political Science - 1-3 Credits

World Language Courses, 0-8 credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

Additional Comments:

No Requirement Level

Standards

Academic Standards

1. To graduate with a major in political science, you must earn a grade point average of 2.0 or higher in ALL courses taken in the major, including transfer courses, regardless of any declaration of academic forgiveness. You may repeat a course in the major only if you follow the course repeat policy found in the Grade-related Policies section of this catalog.

2. Begin your study of political science by taking POLI 101 or POLI 180.

3. Courses in political science are open to all students who meet the prerequisites.

Academic Standards
1. To graduate with a major in political science, you must earn a grade point average of 2.0 or higher in ALL courses taken in the major, including transfer courses, regardless of any declaration of academic forgiveness. You may repeat a course in the major only if you follow the course repeat policy found in the Grade-related Policies section of this catalog.

2. Begin your study of political science by taking POLI 101 or POLI 180.

3. Courses in political science are open to all students who meet the prerequisites.

Learning Outcomes

Program Learning Outcomes (UWSP)
As a graduate of the Political Science Program you will be able to:

1. Describe political institutions and current debates in domestic and global politics
2. Apply discipline-specific concepts and theories to scholarly investigations of political institutions and current issues in domestic and global politics
3. Employ qualitative and/or quantitative methods to formulate an argument regarding a domestic or global political issue
4. Communicate research findings using professional prose supported by scholarly evidence

Law and Policy Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the Department of Political Science within the College of Letters and Science.

Consists of at least 24 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: ECON 110, POLI 301, PSYC 300, and SOC 351.

Program Requirements
Type
Completion Requirement

Required Core, 9-10 credits

Complete ALL of the following Courses:

- POLI 212 - Law and Legal Systems - 3 Credits
- POLI 330 - Constitutional Law - 3 Credits
  OR POLI 335 - Law and Society - 3 Credits
- ECON 110 - Principles of Macroeconomics - 3 Credits
  OR POLI 301 - Methods of Policy Analysis - 3 Credits
  OR PSYC 300 - Statistics for Psychologists - 4 Credits
  OR SOC 351 - Social Statistics - 4 Credits

Elective Courses, 15 credits

Fulfill ALL of the following requirements:

Political Science Electives

Earn at least 9 credits from the following:

- POLI 320 - Legislative Process - 3 Credits
- POLI 330 - Constitutional Law - 3 Credits
- POLI 331 - Constitutional Law: Special Topics - 3 Credits
- POLI 335 - Law and Society - 3 Credits
- POLI 338 - Environmental Law and Regulation - 3 Credits
- POLI 385 - International Organizations and Law - 3 Credits
- POLI 388 - International Law and Human Rights - 3 Credits
- POLI 450 - Law, Policy, and Regulation - 3 Credits

AND

Additional Electives

Earn at least 6 credits from the following:

- BUS 340 - Business Law and Ethics - 3 Credits
- BUS 341 - Legal Concepts in Branding, Marketing, and the Creative Economy - 3 Credits
- BUS 342 - International Business Law - 3 Credits
- ECON 317 - Economic Analysis of the Law - 3 Credits
- PHIL 315 - Philosophy of Law - 3 Credits
- PHIL 336 - Social and Political Philosophy - 3 Credits

Additional Comments:

Requirements

Simple Requisites

Curriculum
This program is administered by the area of Art and Art History within the School of Design and Communication.

Pre-professional programs are designed to provide students with the necessary coursework and advising support to prepare for a professional school. The pre-professional program is not a major, minor, or certificate, and it does not appear as a credential on a student's transcript.

To complete the pre-professional program and earn an undergraduate degree, students must declare a major, which serves as the primary area of study. The choice of major is flexible; students are encouraged to select a major that aligns with their academic interests. Contact the appropriate pre-professional adviser for guidance as early as possible.

Notes for Pre-Art Therapy: The 24 credits in this pre-professional program includes courses from Anthropology, Psychology, and Sociology, in addition to designated Art Therapy courses. Combined with a BA or BFA in Art, the preprofessional Art Therapy program will position you to enter graduate programs in Art Therapy.

Program Requirements
Type
Completion Requirement

Psychology: 12 Credits Required

Fulfill ALL of the following requirements:

Psychology, 9 credits

Complete ALL of the following Courses:
- PSYC 110 - Introduction to Psychology - 3 Credits
- PSYC 260 - Introduction to Developmental Psychology - 3 Credits
- PSYC 351 - Psychopathology - 3 Credits

AND

Psychology Electives, 3 credits

Complete ANY of the following Courses:
- PSYC 200 - Research Methods in Psychology - 3 Credits
- PSYC 315 - The Psychology of Adolescence - 3 Credits
- PSYC 320 - Social Psychology - 3 Credits
- PSYC 331 - Cognitive Psychology - 3 Credits
- PSYC 401 - Introduction to Counseling and Psychotherapy - 3 Credits

Anthropology, 3 credits

Complete ALL of the following Courses:
- ANTH 110 - Cultural Anthropology - 3 Credits

Sociology, 3 credits

Complete ALL of the following Courses:
- SOC 101 - Introduction to Sociology - 3 Credits

Pre-Professional Art Therapy Coursework, 6 credits

Earn at least 6 credits from the following:
- ART 240 - Art Therapy I - Intro to Art Therapy - 2 Credits
- ART 243 - Art Therapy Field Experience - 1 Credits
- ART 245 - Art Therapy II - Special Topics - 2 Credits

Simple Requisites

Curriculum

This program is administered by the Department of Physics and Astronomy within the College of Letters and Science.

Pre-professional programs are designed to provide students with the necessary coursework and advising support to prepare for a professional school. The pre-professional program is not a major, minor, or certificate, and it does not appear as a credential on a student's transcript.

To complete the pre-professional program and earn an undergraduate degree, students must declare a major, which serves as the primary area of study. The choice of major is flexible; students are encouraged to select a major that aligns with their academic interests. Contact the appropriate pre-professional adviser for guidance as early as possible.

Notes for Pre-Engineering: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: MATH 225, MATH 226, PHYS 240, PHYS 250, CHEM 105, CHEM 106, and CHEM 117.

Program Requirements
Type
Completion Requirement

Required, 31 credits

For all pre-engineering programs except pre-chemical engineering, you should take the following science and mathematics courses in your freshman and sophomore years:

Complete ALL of the following Courses:

- MATH 225 - Calculus I - 5 Credits
- MATH 226 - Calculus II - 5 Credits
- MATH 227 - Calculus III - 4 Credits
- MATH 230 - Introduction to Linear Algebra - 4 Credits
- PHYS 240 - University Physics I - 5 Credits
- PHYS 250 - University Physics II - 5 Credits
- PHYS 300 - Modern Physics - 3 Credits

Also Recommended Chemistry

Fulfill ANY of the following requirements:

Chemistry Option 1

Complete ALL of the following Courses:

- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits

OR

Chemistry Option 2

Complete ALL of the following Courses:

- CHEM 117 - General Chemistry Principles - 5 Credits

Additional Comments:
Specific engineering curricula and universities have individual requirements. See a physics adviser for additional information and suggested electives. For chemical engineering and/or ABET accredited engineering, see Paper Science and Engineering in this catalog.

No Requirement Level

Standards

Academic Standards

Standards for Physics Major

1. To be accepted as a physics major, register with the department office. To be retained and approved for graduation, you must have a 2.00 cumulative GPA in all courses in the major, regardless of any declaration of academic forgiveness.

2. No more than one grade below C- in physics courses numbered 300 or above may be applied to the major.

3. If you do not meet these standards, you may petition the department chair for consideration. See the Grade-related Policies section of this catalog for the policy on repeating courses.

4. All upper division physics courses (300 and above) are open to all students who meet the prerequisites.

Test-Out and Credit-by-Exam Policy for Physics and Astronomy

We will offer test-out examinations for all General Education Program (GEP) requirement physics and astronomy. The exams will cover both lecture and laboratory topics.

If you wish to take a test-out exam, confer with the department chair who will arrange for a faculty member to administer and grade a comprehensive written exam. A passing grade will be at least five percent above the most recent class average. You will be informed of the required passing score before taking the exam. Results will be evaluated and (if appropriate) credit granted by the departmental Educational Policies Committee. You may not take an exam more than once.

Course credit can be granted for ASTR 205, ASTR 206, ASTR 311; PHYS 115, PHYS 240, PHYS 203, PHYS 204, PHYS 250. Credit will NOT be granted for ASTR 100 or PHYS 100 or PHYS 101, but the GEP requirement will be waived.

Pre-Engineering Emphasis (AS)

Requirements

Simple Requisites

Curriculum
This program is administered by the Department of Physics and Astronomy in the School of Math, Computing, Physics, and Astronomy within the College of Letters and Science.

General Degree Requirements

1. You must complete a minimum of 61 credits to receive the AS. At least 15 of the credits must be earned at the institution's three campuses.
2. You must have a grade point average (GPA) of 2.0 earned cumulatively at the institution's three campuses, and a 2.0 overall GPA in credits applied to the AS.
3. The Associate Degree General Education requirements must be fulfilled. Some of those requirements will be fulfilled by courses required for this degree.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 105, CHEM 106, CHEM 117, ENGR 105, MATH 225, PHYS 240, and PHYS 250.

Curriculum
This program is administered by the area of Nursing in the School of Health Science and Wellness.

Pre-professional programs are designed to provide students with the necessary coursework and advising support to prepare for a professional school. The pre-professional program is not a major, minor, or certificate, and it does not appear as a credential on a student's transcript.

To complete the pre-professional program and earn an undergraduate degree, students must declare a major, which serves as the primary area of study. The choice of major is flexible; students are encouraged to select a major that aligns with their academic interests. Contact the appropriate pre-professional adviser for guidance as early as possible.

Notes for Pre-Nursing: The 1+2+1 nursing partnership program offers an opportunity to earn both an Associate Degree in Nursing (ADN) and a Bachelor of Science Degree in Nursing (BSN) through the collaborative programs of UW-Stevens Point, and Wisconsin Technical College System Nursing programs where UWSP has a 1+2+1 MOU agreement.

Consists of a minimum of 29 credits.

Bachelor of Science General Education Program Requirements
Type
Completion Requirement

Anatomy and Physiology

Complete at least 1 of the following:

Anatomy and Physiology Option 1

Complete ALL of the following Courses:
- BIOL 385 - Human Physiology - 4 Credits
- BIOL 387 - Human Anatomy - 4 Credits

OR

Anatomy and Physiology Option 2

Complete ALL of the following Courses:

- BIOL 285 - Anatomy and Physiology Principles - 4 Credits
- BIOL 286 - Anatomy and Physiology Connections - 4 Credits

Required, 24-25 Credits

Complete ALL of the following Courses:

- BIOL 233 - Microbiology for Health Sciences - 4 Credits
  OR BIOL 333 - General Microbiology - 4 Credits
- CHEM 101 - Basic Chemistry - 5 Credits
  OR CHEM 105 - Fundamental Chemistry - 5 Credits
- COMM 101 - Fundamentals of Oral Communication - 3 Credits
  OR COMM 180 - Foundations of Workplace Communication - 3 Credits
- MATH 255 - Elementary Statistical Methods - 4 Credits
  OR HSW 301 - Fundamentals of Biostatistics - 3 Credits
- PSYC 110 - Introduction to Psychology - 3 Credits
- PSYC 260 - Introduction to Developmental Psychology - 3 Credits
  OR HD 265 - Human Growth and Development: A Life-Span Approach - 3 Credits
- SOC 101 - Introduction to Sociology - 3 Credits

Additional Comments:

Associate Degree Nursing Courses
Type
Completion Requirement

Wisconsin Technical College Nursing Program

Complete the following:
Complete associate degree nursing courses offered through Wisconsin Technical College System Nursing programs where UWSP has a 1+2+1 MOU agreement.

Additional Comments:
Please refer to NURS-BSN for degree completion.

No Requirement Level

Standards

Admission Standards
Program application requirements

Formal application to the BSN Completion Program must be completed during the semester prior to enrolling in nursing courses.

• Associate or Diploma Degree in Nursing from a nationally accredited program

• Current Wisconsin nursing license

• Minimum GPA of 2.5 (0-4.0)

Academic Standards
For acceptance and continued registration In the Nursing major, you must earn a grade point average of 2.5 or better overall. No grade below a C in any nursing course will be accepted for graduation. No more than two courses with grades of less than C- will be accepted in the major and/or may be repeated for credit.

Program Requirements
Type
Completion Requirement

Biology, 10 Credits

Complete at least 1 of the following:

Biology Option 1

Complete ALL of the following Courses:

- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits

OR

Biology Option 2

Complete ALL of the following Courses:

- BIOL 130 - Introduction to Plant Biology - 5 Credits
- BIOL 160 - Introduction to Animal Biology - 5 Credits

Chemistry, 5-10 Credits

Complete at least 1 of the following:

Chemistry Option 1

Complete ALL of the following Courses:

- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits

OR

Chemistry Option 2

Complete ALL of the following Courses:

- CHEM 117 - General Chemistry Principles - 5 Credits

Required, 41-42 Credits

Complete ALL of the following Courses:

- BIOL 210 - Principles of Genetics - 3 Credits
- BIOL 333 - General Microbiology - 4 Credits
- BIOL 385 - Human Physiology - 4 Credits
- BIOL 387 - Human Anatomy - 4 Credits
- CHEM 325 - Organic Chemistry - 4 Credits
- CHEM 326 - Organic Chemistry - 4 Credits
- MATH 111 - Applied Calculus - 4 Credits
  OR MATH 225 - Calculus I - 5 Credits
- MATH 255 - Elementary Statistical Methods - 4 Credits
- PHYS 203 - College Physics I - 5 Credits
- PHYS 204 - College Physics II - 5 Credits

Additional Comments:

Optional
Type
Completion Requirement

Additional recommended courses

Complete ANY of the following Courses:

- BIOL 317 - Developmental Biology - 4 Credits
- BIOL 387 - Human Anatomy - 4 Credits

- BIOL 389 - Immunology - 3 Credits
- CHEM 365 - Biochemistry I - 4 Credits
- CHEM 366 - Biochemistry II - 3 Credits
- PSYC 110 - Introduction to Psychology - 3 Credits
- PSYC 260 - Introduction to Developmental Psychology - 3 Credits

Additional Comments:
Most graduate programs require at least 90 credits.

Notes for Pre-Physician Assistant: Most physician assistant programs will require a GPA of 3.0 or higher.

Program Requirements
Type
Completion Requirement

Biology, 10 Credits

Complete at least 1 of the following:

Biology Option 1

Complete ALL of the following Courses:

- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits

OR

Biology Option 2

Complete ALL of the following Courses:

- BIOL 130 - Introduction to Plant Biology - 5 Credits
- BIOL 160 - Introduction to Animal Biology - 5 Credits

Chemistry, 5-10 Credits

Complete at least 1 of the following:

Chemistry Option 1

Complete ALL of the following Courses:

- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits

OR

Chemistry Option 2

Complete ALL of the following Courses:

- CHEM 117 - General Chemistry Principles - 5 Credits

Organic Chemistry, 4-8 Credits

Complete at least 1 of the following:

Organic Chemistry Option 1

Complete ALL of the following Courses:

- CHEM 220 - Survey of Organic Chemistry - 4 Credits

OR

Organic Chemistry Option 2

Complete ALL of the following Courses:

- CHEM 325 - Organic Chemistry - 4 Credits
- CHEM 326 - Organic Chemistry - 4 Credits

Biochemistry, 4-7 Credits

Complete at least 1 of the following:

Biochemistry Option 1

Complete ALL of the following Courses:

- CHEM 260 - Elementary Biochemistry - 4 Credits

OR

Biochemistry Option 2

Complete ALL of the following Courses:

- CHEM 365 - Biochemistry I - 4 Credits
- CHEM 366 - Biochemistry II - 3 Credits

Math

Complete at least 1 of the following courses:

- MATH 111 - Applied Calculus - 4 Credits (Inactive)
- MATH 255 - Elementary Statistical Methods - 4 Credits

Take one or both courses.

Required, 15 Credits

Complete ALL of the following Courses:

- BIOL 333 - General Microbiology - 4 Credits
- BIOL 385 - Human Physiology - 4 Credits
- BIOL 387 - Human Anatomy - 4 Credits
- PSYC 110 - Introduction to Psychology - 3 Credits

Additional Comments:
Some programs may require human anatomy and human physiology be completed within 3 years of the intended graduate program application.

- PHYS 203 - College Physics I - 5 Credits
- PHYS 204 - College Physics II - 5 Credits

Social Science and Humanities

Complete 6 credits
Complete 6 credits of social science and humanities.

Biochemistry or Chemistry

Complete one of the following:

- BIOCHEM-BS major or
- CHEM-MN with CHEM 365 as the elective.

Optional Additional Courses

Helpful courses include:

Complete ANY of the following Courses:

- BIOL 362 - Animal Parasitology - 4 Credits
- BIOL 370 - Comparative Vertebrate Anatomy - 4 Credits
  OR BIOL 387 - Human Anatomy - 4 Credits
- BIOL 381 - Animal Physiology - 4 Credits
  OR BIOL 385 - Human Physiology - 4 Credits
- BIOL 388 - Animal Behavior - 3 Credits

Veterinary Research

If you are considering veterinary research, take at least some of the following:

Complete ANY of the following Courses:

- BIOL 314 - Cell Biology - 4 Credits
- BIOL 317 - Developmental Biology - 4 Credits
- BIOL 382 - Endocrinology of Mammals - 3 Credits
- BIOL 389 - Immunology - 3 Credits

Paper Science and Engineering Major (BS)

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of Paper Science and Chemical Engineering.

Consists of major, collateral requirements totaling 110 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 105, CHEM 106, ECON 110, MATH 225, MATH 255, PHYS 240, and PHYS 250.

Program Requirements
Type
Completion Requirement

Paper science and engineering, 49 credits

Complete ALL of the following Courses:

- PSEN 115 - Pulp and Paper Laboratory Methods - 3 Credits
- PSEN 215 - Introduction to Process Engineering Calculations - 4 Credits
- PSEN 316 - Engineering Economics and Project Management - 3 Credits
- PSEN 320 - Fluid Mechanics and Hydraulics - 3 Credits
- PSEN 326 - Heat Transfer Operations - 3 Credits
- PSEN 350 - Pulping and Chemical Manufacturing Technology - 4 Credits
- PSEN 355 - Paper and Fiber Physics - 4 Credits
- PSEN 365 - Colloid and Surface Phenomena - 3 Credits
- PSEN 385 - Systems Engineering and Simulation - 3 Credits
- PSEN 430 - Mass Transfer Operations - 3 Credits
- PSEN 440 - Industrial Thermodynamics - 3 Credits
- PSEN 460 - Process Dynamics and Control - 3 Credits
- PSEN 475 - Paper Machine Operations - 4 Credits
- PSEN 484 - Senior Design Project: Paper Science and Engineering - 3 Credits
- PSEN 489 - Industrial Environmental Management - 3 Credits
  OR WSTE 489 - Industrial Environmental Management - 3 Credits

Mill internship, 1 credit

Complete ALL of the following Courses:

- PSEN 300 - Mill Internship - 1 Credits

Collateral courses, 60 credits

Complete ALL of the following Courses:

- CHEM 105 - Fundamental Chemistry - 5 Credits
- CHEM 106 - Fundamental Chemistry - 5 Credits
- CHEM 248 - Quantitative Analysis - 4 Credits
- CHEM 325 - Organic Chemistry - 4 Credits
- CHEM 326 - Organic Chemistry - 4 Credits
- CHEM 335 - Physical Chemistry - Thermodynamics and Kinetics - 4 Credits
- ECON 110 - Principles of Macroeconomics - 3 Credits
- MATH 225 - Calculus I - 5 Credits
- MATH 226 - Calculus II - 5 Credits
- MATH 227 - Calculus III - 4 Credits
- MATH 255 - Elementary Statistical Methods - 4 Credits
- MATH 320 - Differential Equations - 3 Credits
- PHYS 240 - University Physics I - 5 Credits
- PHYS 250 - University Physics II - 5 Credits

CHEM 105, CHEM 106, CHEM 248, CHEM 325, CHEM 326, and CHEM 335 satisfy the requirements for a CHEM-MN

Additional Comments:

No Requirement Level

Standards

Academic Standards
To be approved for graduation with a Paper Science and Engineering or Chemical Engineering major, you must:

1. Have a minimum grade point average of 2.00 in all PSEN courses and required collateral courses.

2. Have no grade below C- in any PSEN, chemistry, mathematics, or physics courses numbered below 299 required in the PSEN major, and

3. Apply no grade below C- in PSEN and collateral courses numbered 300 or above to the major.

Learning Outcomes

Program Learning Outcomes (UWSP)
As a graduate of the Paper Science and Engineering program, you have the greatest potential for success in your professional life if you possess the following attributes:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. An ability to communicate effectively with a range of audiences
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies
8. Knowledge of the science and technology used in the paper industry

Psychology Major (BS)

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of Psychology within the College of Letters and Science.

Consists of a minimum of 37 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: PSYC 300 and SOC 351.

Program Requirements
Type
Completion Requirement

Required Theory and Methodology

Complete ALL of the following Courses:

- PSYC 110 - Introduction to Psychology - 3 Credits
- PSYC 200 - Research Methods in Psychology - 3 Credits
- PSYC 300 - Statistics for Psychologists - 4 Credits
  OR SOC 351 - Social Statistics - 4 Credits

Core Content Domains

Choose at least two courses from each of the following two domains:

Fulfill ALL of the following requirements:

Sociocultural and Developmental Science

Complete at least 2 of the following courses:

- PSYC 260 - Introduction to Developmental Psychology - 3 Credits
- PSYC 301 - Personality Psychology - 3 Credits
- PSYC 320 - Social Psychology - 3 Credits
- PSYC 351 - Psychopathology - 3 Credits

AND

Cognition and Neuroscience

Complete at least 2 of the following courses:

- PSYC 325 - Behavioral Neuroscience - 3 Credits
- PSYC 330 - Perception - 3 Credits
- PSYC 331 - Cognitive Psychology - 3 Credits
- PSYC 375 - Learning - 3 Credits

Electives, 12 credits

Complete Electives
Choose 12 additional psychology credits, which may include courses listed above that are not already used.

No more than 6 credits of 200-level courses will count toward these electives.

Program Capstone

Complete ANY of the following Courses:

- PSYC 400 - Advanced Research Methods in Psychology - 3 Credits
- PSYC 490 - Seminar: Topics in Psychology - 3 Credits

Additional Comments:

No Requirement Level

Standards

Academic Standards
To be approved for graduation with a major in psychology, you need a minimum cumulative grade point average of 2.25 in all courses taken in psychology, regardless of a declaration of academic forgiveness.

Learning Outcomes

Program Learning Outcomes (UWSP)
1. You should have a working knowledge of psychology's content domains
2. You should be able to describe the key concepts, principles, and overarching themes in psychology
3. You should be able to describe applications of psychology
4. You should be able to use scientific reasoning to interpret psychological phenomena
5. You should be able to demonstrate effective writing for different purposes
6. You should be able to exhibit effective presentation skills for different purposes
7. You should be able to recognize and locate credible sources, read and summarize research, evaluate the quality and limitations of research studies, and interpret stats and graphs

Psychology Major (BS): Human Services Option

- PSYC 200 - Research Methods in Psychology - 3 Credits
- PSYC 300 - Statistics for Psychologists - 4 Credits
  OR SOC 351 - Social Statistics - 4 Credits

Core Content Domains

Fulfill ALL of the following requirements:

Sociocultural and Developmental Science

Complete at least 1 of the following courses:
- PSYC 260 - Introduction to Developmental Psychology - 3 Credits
- PSYC 301 - Personality Psychology - 3 Credits
- PSYC 320 - Social Psychology - 3 Credits

AND

Cognition and Neuroscience

Complete at least 2 of the following courses:
- PSYC 325 - Behavioral Neuroscience - 3 Credits
- PSYC 330 - Perception - 3 Credits
- PSYC 331 - Cognitive Psychology - 3 Credits
- PSYC 375 - Learning - 3 Credits

Human Services Required Courses

Complete ALL of the following Courses:
- PSYC 351 - Psychopathology - 3 Credits
- PSYC 401 - Introduction to Counseling and Psychotherapy - 3 Credits
- PSYC 402 - Practicum in Counseling and Psychotherapy - 3 Credits

Note: Enrollment priority for PSYC 402 goes to students who have completed PSYC 351 and PSYC 401.

Electives

Earn at least 6 credits from the following:
- PSYC 270 - Positive Psychology - 3 Credits
- PSYC 301 - Personality Psychology - 3 Credits
- PSYC 350 - Psychological Assessment - 3 Credits
- PSYC 360 - Child and Adolescent Psychopathology - 3 Credits
- PSYC 385 - Health Psychology - 3 Credits
- PSYC 480 - Applied Theories of Behavioral and Cognitive Therapies - 3 Credits
- PSYC 494 - Human Services Internship - 1-6 Credits
- PSYC 495 - Human Services Internship Seminar - 2 Credits

PSYC 494 can be taken for up to 6 credits

PSYC 495 can be taken for up to 4 credits

Program Capstone

Complete ANY of the following Courses:
- PSYC 400 - Advanced Research Methods in Psychology - 3 Credits
- PSYC 490 - Seminar: Topics in Psychology - 3 Credits

Additional Comments:

No Requirement Level

Standards

Academic Standards
To be approved for graduation with a major in psychology, you need a minimum cumulative grade point average of 2.25 in all courses taken in psychology, regardless of a declaration of academic forgiveness.

Learning Outcomes

Program Learning Outcomes (UWSP)
1. You should have a working knowledge of psychology's content domains
2. You should be able to describe the key concepts, principles, and overarching themes in psychology
3. You should be able to describe applications of psychology
4. You should be able to use scientific reasoning to interpret psychological phenomena
5. You should be able to demonstrate effective writing for different purposes
6. You should be able to exhibit effective presentation skills for different purposes
7. You should be able to recognize and locate credible sources, read and summarize research, evaluate the quality and limitations of research studies, and interpret stats and graphs

Psychology Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the Department of Psychology within the College of Letters and Science.

Consists of a minimum of 18 credits in psychology.

Program Requirements
Type
Completion Requirement

Required Theory and Methodology, 6 credits

Complete ALL of the following Courses:

- PSYC 110 - Introduction to Psychology - 3 Credits
- PSYC 200 - Research Methods in Psychology - 3 Credits
  OR HSW 360 - Evidence-Based Research Methods - 3 Credits

Core Content Domains, 6 credits

Choose at least one course from each of the following two domains

Fulfill ALL of the following requirements:

Sociocultural and Developmental Science, 3 credits

Complete ANY of the following Courses:

- PSYC 260 - Introduction to Developmental Psychology - 3 Credits
- PSYC 320 - Social Psychology - 3 Credits
- PSYC 301 - Personality Psychology - 3 Credits
- PSYC 351 - Psychopathology - 3 Credits

AND

Cognition and Neuroscience, 3 credits

Complete ANY of the following Courses:

- PSYC 325 - Behavioral Neuroscience - 3 Credits
- PSYC 330 - Perception - 3 Credits
- PSYC 331 - Cognitive Psychology - 3 Credits
- PSYC 375 - Learning - 3 Credits

Electives, 6 credits

Complete Electives
Choose 6 additional elective psychology credits which may include courses listed above that are not already used

Neuroscience and Behavior Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the Department of Psychology within the College of Letters and Science.

Consists of a minimum of 31 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 101, CHEM 105, and CHEM 117.

Required, 19-24 credits
Type
Completion Requirement

Required, 14 credits

Complete ALL of the following Courses:

- PSYC 110 - Introduction to Psychology - 3 Credits
- PSYC 200 - Research Methods in Psychology - 3 Credits
  OR HSW 360 - Evidence-Based Research Methods - 3 Credits
- PSYC 325 - Behavioral Neuroscience - 3 Credits
- CHEM 101 - Basic Chemistry - 5 Credits
  OR CHEM 105 - Fundamental Chemistry - 5 Credits
  OR CHEM 117 - General Chemistry Principles - 5 Credits

Biology, 5-10 credits

Fulfill ANY of the following requirements:

Biology Option 1

Complete ALL of the following Courses:

- BIOL 101 - General Biology - 5 Credits

OR

Biology Option 2

Complete ALL of the following Courses:

- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits

OR

Biology Option 3

Complete ALL of the following Courses:

- BIOL 160 - Introduction to Animal Biology - 5 Credits

Additional Comments:

Psychology and Biology, 12 credits
Type
Completion Requirement

Psychology Courses, 6 credits

Earn at least 6 credits from the following:

- PSYC 330 - Perception - 3 Credits
- PSYC 333 - Animal Cognition - 3 Credits
- PSYC 375 - Learning - 3 Credits
- PSYC 377 - Evolutionary Psychology - 3 Credits
- PSYC 385 - Health Psychology - 3 Credits
- PSYC 388 - Animal Behavior - 3 Credits
- PSYC 390 - Psychoactive Drugs and Behavior - 3 Credits

Biology Courses, 6 credits

Earn at least 6 credits from the following:

- BIOL 314 - Cell Biology - 4 Credits
- BIOL 317 - Developmental Biology - 4 Credits
- BIOL 381 - Animal Physiology - 4 Credits
- BIOL 382 - Endocrinology of Mammals - 3 Credits
- BIOL 383 - Biology of Reproduction - 3 Credits
- BIOL 385 - Human Physiology - 4 Credits
- BIOL 388 - Animal Behavior - 3 Credits
- BIOL 390 - Neurobiology - 3 Credits

PSYC 388 and BIOL 388 are two sections of the same team-taught interdisciplinary course and, therefore, may not be counted twice.

Physical Therapy (DPT)

Requirements

Simple Requisites

Curriculum
This graduate program is administered by the area of Health Sciences and Wellness in the School of Health Sciences and Wellness.

You must complete all of the required coursework in the DPT for successful completion of the program. Program endorsement is required for registration for the Federation of State Boards of Physical Therapy (FSBPT) licensing examination, and verification of graduation is required for physical therapy licensure in all states.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)
The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Specific licensure requirements vary state by state. Requirements typically include earning a degree in physical therapy from a program accredited by the Commission on Accreditation in Physical Therapy Education, passing a national licensing examination, and passing a state jurisprudence assessment.

The UWSP Doctor of Physical Therapy Program, due to its professional accreditation by the Commission on Accreditation in Physical Therapy Education (CAPTE), prepares graduates to meet the educational eligibility criteria for the national licensing examination which leads to licensure as a physical therapist in any state in the union in the United States including the District of Columbia, Puerto Rico and the US Virgin Islands.

This program meets the certification/licensure requirements in the following states/territories:
Alabama, Alaska, American Samoa, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Guam, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Northern Mariana Islands, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming;

Individual states have additional jurisdictional requirements beyond the NPTE licensing examination. The Jurisdiction Licensure Reference Guide available at: https://www.fsbpt.net/lrg/Home/LicensureByExamRequirement outlines the licensure requirements of each state.

This program does not meet the certification/licensure requirements in the following states/territories or the following states/territories do not license or regulate physical therapy:
Federated States of Micronesia, Republic of Palau, Republic of the Marshall Islands

The DPT program required coursework is 112 credits. 81 credits are associated with core instructional courses; 15 credits are associated with the Integrated Clinical Practice sequence which includes clinical lab practice in rehabilitation practices; 16 credits are associated with clinical internships (see Culminating Experiences below).

Program Requirements
Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- DPT 710 - Applied Exercise Physiology - 3 Credits
- DPT 711 - Functional Human Anatomy - 3 Credits
- DPT 713 - Clinical Neuroscience - 3 Credits
- DPT 720 - Clinical Biomechanics I - 4 Credits
- DPT 721 - Clinical Biomechanics II - 4 Credits
- DPT 722 - Therapeutic Interventions I - 3 Credits
- DPT 730 - Musculoskeletal Physical Therapy I - 4 Credits
- DPT 731 - Musculoskeletal Physical Therapy II - 4 Credits
- DPT 740 - Movement System Diagnosis I - 3 Credits
- DPT 741 - Movement System Diagnosis II - 3 Credits
- DPT 760 - Integrated Clinical Practice I - 3 Credits
- DPT 761 - Integrated Clinical Practice II - 3 Credits
- DPT 762 - Integrated Clinical Practice III - 3 Credits
- DPT 790 - Evidence Based Practice I: Health Promotion - 3 Credits
- DPT 810 - Pharmacology in Rehabilitation Practice - 3 Credits
- DPT 822 - Therapeutic Interventions II: Movement Science and Behavior Change - 3 Credits
- DPT 823 - Therapeutic Interventions III - 3 Credits
- DPT 830 - Musculoskeletal Physical Therapy III - 3 Credits
- DPT 840 - Cardiopulmonary Rehabilitation - 4 Credits
- DPT 851 - Clinical Neurorehabilitation I - 4 Credits
- DPT 852 - Clinical Neurorehabilitation II - 4 Credits
- DPT 860 - Integrated Clinical Practice IV - 3 Credits
- DPT 861 - Integrated Clinical Practice V - 3 Credits
- DPT 862 - Integrated Clinical Practice VI - 3 Credits
- DPT 890 - Evidence Based Practice II: Pain Science - 3 Credits
- DPT 891 - Effecting Change in Professional Practice - 3 Credits
- DPT 892 - Clinical Research - 3 Credits
- DPT 930 - Clinical Practice Management - 2 Credits
- DPT 960 - Clinical Internship I - 8 Credits
- DPT 961 - Clinical Internship II - 8 Credits
- DPT 962 - Licensing Examination Preparation - 1 Credits
- DPT 990 - Public Health for Rehabilitation Professionals - 3 Credits
- DPT 991 - Capstone - 2 Credits

Culminating Experiences

Complete of Two Clinical Internships
Completion of two clinical internships as assigned by the Director of Clinical Education in conjunction with DPT 960 and DPT 961 are required.

You must complete a capstone project associated with DPT 991 and present the project for peer review. The capstone may be a case report, literature review/critically analyzed topic, or other project developed at the discretion of the course instructor and similar to an area of interest by a member of the DPT core faculty.

Additional Comments:

Accreditation Information

Effective April 26, 2022, the University of Wisconsin-Stevens Point Doctor of Physical Therapy Program has been granted Candidate for Accreditation status by the Commission on Accreditation in Physical Therapy Education (3030 Potomac Ave., Suite 100, Alexandria, VA 22305-3085; phone: 703-706-3245; email: accreditation@apta.org). If needing to contact the program/institution directly, please call 715-346-4870 or email: dpt@uwsp.edu.

Candidate for Accreditation is an accreditation status of affiliation with the Commission on Accreditation in Physical Therapy Education that indicates the program may matriculate students in technical/professional courses. Achievement of Candidate for Accreditation status does not assure that the program will be granted Initial Accreditation.

Candidacy is considered to be an accredited status, as such the credits and degree earned from a program with Candidacy status are considered, by CAPTE, to be from an accredited program. Therefore, students in the charter (first) class should be eligible to

take the licensure exam even if CAPTE withholds accreditation at the end of the candidacy period. That said, it is up to each state licensing agency, not CAPTE, to determine who is eligible for licensure. Information on licensing requirements should be directed to the Federation of State Boards of Physical Therapy (FSBPT: www.fsbpt.org) or specific state boards (a list of state boards and contact information is available on FSBPT's website.

No Requirement Level

Standards

Admission Standards
Application and Admissions to the Doctor of Physical Therapy:

1. Application to the DPT program is through the Physical Therapist Centralized Application Service (PTCAS) (http://www.ptcas.org/home.aspx). Applications will open every June. You should be prepared to submit:

a. A copy of official transcripts from all institutions from which you have earned college credit;

b. Required essays;

c. GRE scores. You may submit the scores directly to the University (Code: 1919) or can be submitted directly to PTCAS.

2. Admission to the program is competitive and requires:

a. Demonstration of Academic Readiness:

i. Minimum cumulative GPA of 3.0 or better. Note that ALL courses including retakes count towards the calculation of this GPA.

ii. Minimum cumulative prerequisite course GPA of 3.0 or better. Required prerequisite courses are found on the DPT Program website (https://www.uwsp.edu/health/Pages/graduate/dpt/admissions.aspx). You are STRONGLY encouraged to have prerequisite courses reviewed prior to application and to submit the Prerequisite Checklist completed prior to application. This document may be uploaded with the PTCAS application.

• No more than 2 prerequisite courses may be incomplete or in-progress at the time of application.

• All prerequisite courses must have been completed within 7 years of the date of application. Request to consider exceptions to this statute should be sent to the program Admissions Committee by program email with a Completed Prerequisite Checklist.

• The program accepts up to 5 courses to meet the prerequisites earned by AP, IB, and CLEP courses for program prerequisites.

• Anatomy and Physiology program prerequisite requirements MUST be completed in biology, neuroscience, anatomy, or integrated physiology department

iii. Minimum Quantitative and Verbal GRE of 148 or better; minimum written GRE of 3.0

iv. For international applicants a minimum TOEFL score of 63 for the composite of reading comprehension, listening comprehension and writing and a minimum score of 26 for speaking.

Academic Standards
To remain in good standing in the DPT program you must:

1. Maintain a cumulative GPA of 3.0 or better AND an individual course grade of C or better in each DPT required course;

2. Complete all required competencies with a 'pass' or better in each academic term;

3. Positive Readiness for Clinical Practice decision from the DPT program core faculty, and in good standing in the program.

Additional notes for graduation and licensure of DPT students

1. Processes for licensure are determined state to state, however all states require passing the FSBPT licensing examination to be licensed as a physical therapist. Graduation from the DPT program does not guarantee you will pass the licensing examination.

2. If you are requesting eligibility for the FSBPT National Physical Therapy Examination you must be in good standing in the program, must have completed DPT 962: Licensing Examination Prep with a 'Pass' grade, and be judged as passing in DPT 991 by the Director of Clinical Education at the time of submission of eligibility paperwork.

Requirements for Graduation

To graduate from the DPT program you must:

1. Successfully complete all required coursework and competencies of the DPT program;

2. Receive a recommendation for graduation from the core faculty of the DPT program.

b. Demonstration of Attributes and Experiences that are consistent with program expectations:

i. Attributes and experiences are entered by the students in PTCAS and evaluated by the Selection Task Force.

c. Participation in a campus visit/interview will be considered in final admission decisions.

3. Prior to matriculation you must:

a. Complete the undergraduate degree and all outstanding prerequisite coursework with at least a C or better and forward official transcripts to the Program

b. Complete the Technical Standards Form for the DPT Program (link to this on the program website) and submit to the Program

c. Complete the following assurances and forward verification to the Program:

i. Current records of immunization history or titre (MMR, Hepatitis B, Varicella, adult dTap TB test), additional immunizations may be required for clinical learning experience;

ii. Complete a healthcare provider background check; Pursuant to 2017 Wisconsin Act 278 prior to submitting an application for a credential, an individual may apply to the Wisconsin Department of Safety and Professional Services for a determination of whether the individual would be disqualified from obtaining the credential due to his or her conviction record. If you wish to discuss this, you should contact the Program Director;

iii. Purchase personal professional liability coverage; specific coverage requirements are available on the program website;

iv. Provide verification of personal health insurance;

v. Complete any additional health testing or safety training as required for clinical education participation. The most current requests will be posted on the DPT program website.

Additional notes about applying to the DPT program:

1. The program will use a prioritized rolling admission process.

o PTCAS opens applications in June; If you submit a completed and verified application to the program by August 15th you will be considered in the first batch of students considered for admission; you will receive an admission decision before any second group of students is considered.

o If you submit a completed and verified application to the program by January 15th you will be considered in the second applicant cohort. You are encouraged to update your application in PTCAS with Fall grades. You will receive an admission decision before any additional group of students is considered.

o If needed the program will consider you if you submit a completed and verified application by March 1st. Applications not received by this hard deadline for admissions will not be considered.

2. If you are recommended for Admission by the Program you must submit an application for Graduate Study at UWSP. You will have 15 calendar days after receiving a recommendation for admission to accept the program offer and complete the application to Graduate Study. If you do not meet this deadline you may have your secured position offered to an alternate candidate.

3. You will be charged a $500 deposit associated with accepting your secured position in the DPT program. If you matriculate to the DPT program you will have this deposit applied to your first semester tuition in the DPT program. If you do not matriculate, you may request return of the deposit. Directions for requesting return of the deposit are available on the Program web site.

About this Program
The DPT Program prepares you for entry-level physical therapy practice. The program is a mix of didactic learning experiences offered through hybrid instruction, augmented with integrated clinical practice and summary clinical internships. To execute its vision of transforming societal health by meeting the needs of our communities, as an entry-level DPT program graduate, you will:

1. Demonstrate competence as a direct access practitioner

2. Demonstrate effective communication skills with diverse patient populations, professions, and community sectors to provide patient centered and socially responsible care

3. Demonstrate professionalism in physical therapist practice consistent with University and APTA Core Values

Complete first four semesters of a world language offered at UWSP including Chinese, French, German, Japanese, Russian, or Spanish.

- At least one of the courses in the following sequences must be taken at UWSP.
- If you have enough retro-active credits to cover the sequence and your placement is above this level, take a 300-level language course at UWSP. To receive retro-active credits, you need to earn B- or above in this course.
- For languages not offered at UWSP (e.g., Hmong), an official ACTFL oral proficiency test score of beginning high may be substituted.

Fulfill ANY of the following requirements:

Chinese

Complete ALL of the following Courses:

- CHIN 101 - First Semester Chinese - 4 Credits
- CHIN 102 - Second Semester Chinese - 4 Credits
- CHIN 200 - Third Semester Chinese - 4 Credits
- CHIN 201 - Fourth Semester Chinese - 4 Credits

OR

French

Complete ALL of the following Courses:

- FREN 101 - First Semester French - 4 Credits
- FREN 102 - Second Semester French - 4 Credits
- FREN 211 - Third Semester French - 4 Credits
- FREN 212 - Fourth Semester French - 4 Credits

OR

German

Complete ALL of the following Courses:

- GERM 101 - First Semester German - 4 Credits
- GERM 102 - Second Semester German - 4 Credits
- GERM 211 - Third Semester German - 4 Credits
- GERM 212 - Fourth Semester German - 4 Credits

OR

Japanese

Complete ALL of the following Courses:

- JAPN 101 - First Semester Japanese - 4 Credits
- JAPN 102 - Second Semester Japanese - 4 Credits
- JAPN 211 - Third Semester Japanese - 4-5 Credits
- JAPN 212 - Fourth Semester Japanese - 4-5 Credits

OR

Russian

Complete ALL of the following Courses:

- RUSS 101 - First Semester Russian - 4 Credits
- RUSS 102 - Second Semester Russian - 4 Credits
- RUSS 211 - Third Semester Russian - 4 Credits
- RUSS 215 - Fourth Semester Russian - 4 Credits

OR

Spanish

Complete ALL of the following Courses:

- SPAN 101 - First Semester Spanish - 4 Credits
- SPAN 102 - Second Semester Spanish - 4 Credits
- SPAN 211 - Third Semester Spanish - 4 Credits
- SPAN 212 - Fourth Semester Spanish - 4 Credits

About this Program
The Basic Second Language Proficiency Certificate allows students to acquire a second language to reach a basic proficiency level and to focus on understanding cultural knowledge related to the people where this second language is spoken. The certificate provides preparation for students from a variety of disciplines to work more effectively with others in their future workplaces - whether those workplaces are in business, higher education, government or non-profit agencies. The certificate can enhance the general education of any student.

About this Program
The Second Language Acquisition Graduate Certificate is ideal for those seeking to pursue an Add-on Certification in ESL. This certificate consists of 3 courses plus a practicum for a total of 10 credits. Each of the courses in our program are aligned with DPI's content standards and help to expedite Add-on Certification in ESL.

This certificate by itself does not necessarily cover all requirements for the ESL Add-on Certification. It is designed to offer the most common courses needed by teachers pursuing ESL Add-on Certification. Additional requirements may include courses in World Languages, Minority Cultures, or English Literature. A transcript evaluation of previous coursework should be requested by interested teachers.

About this Program

Coordinator Contact Information
Jodi Olmsted, Professor, MS-HCA Academic Program Director
Office: Room 144D, Science Building
Phone: 715-346-2510
Email: jolmsted@uwsp.edu

About this Program
The Graduate Certificate in Senior Living and Services Leadership represents an additional and optional credential for students enrolled in the collaborative online MS in Healthcare Administration (MS-HCA) program as well as a freestanding certificate program for non-degree (i.e., certificate only) students who may or may not elect to pursue the full MS-HCA degree following completion of the certificate.

The certificate program will be offered as a fully online, asynchronous curriculum comprised of two MS-HCA foundational courses and two courses focused on Senior Care Administration. The certificate is offered jointly by the MS-HCA program partner campuses: UW-LaCrosse, UW-Parkside, UW-Platteville, UW-Stevens Point, and UW-Stout. More information about this program, including application and admission processes, is available at healthcareadministration.wisconsin.edu/.

Sociology Major (BA)

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of Sociology and Social Work within the College of Letters and Science.

Consists of a minimum of 32 credits in the major.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: SOC 351 and PSYC 300.

Prorgram Requirements
Type
Completion Requirement

Core Courses

Complete ALL of the following Courses:
- SOC 101 - Introduction to Sociology - 3 Credits
- SOC 350 - Applied Social Theory - 3 Credits
- SOC 351 - Social Statistics - 4 Credits
  OR PSYC 300 - Statistics for Psychologists - 4 Credits
- SOC 352 - Research Methods - 3 Credits
  OR SW 352 - Research Methods - 3 Credits

Applied Requirement Options

Fulfill ANY of the following requirements:

Applied Requirement Option 1

Complete ALL of the following Courses:
- SOC 492 - Applied Sociology Practicum - 3-6 Credits
- SOC 493 - Applied Sociology Practicum Seminar - 1 Credits

SOC 492 should be taken for 3 credits

SOC 493 should be taken for 1 credit

OR

Applied Requirement Option 2

Complete ALL of the following Courses:
- SW 494 - Social Work Practicum - 1-8 Credits
- SW 495 - Social Work Practicum Seminar - 1 Credits

SW 494 should be taken for 8 credits

SW 495 should be taken for 1 credit

Electives, 15 credits

Complete 15 additional credits from the list below. No more than 6 credits can be taken from the Social Work (SW) prefix.

Earn at least 15 credits from the following:
- SOC 102 - Social Problems - 3 Credits
- SOC 205 - Global Social Problems - 3 Credits
- SOC 210 - Sociology of Sport - 3 Credits
- SOC 225 - Sociology of Childhood and Adolescence - 3 Credits
- SOC 230 - Criminology - 3 Credits
- SOC 238 - Sociological Perspectives on Gender - 3 Credits
- SOC 240 - Marriage and the Family - 3 Credits
- SOC 250 - Organizations and Society - 3 Credits
- SOC 270 - Race and Ethnicity - 3 Credits
- SOC 300 - The American Community - 2-3 Credits
- SOC 306 - Social Aspects of Substance Abuse - 3 Credits
- SOC 308 - Sociology of Medicine - 3 Credits
- SOC 310 - Social Psychology - 3 Credits
- SOC 320 - Sociology of Gender - 3 Credits
- SOC 327 - Social Inequality - 3 Credits
- SOC 329 - Gender and Crime - 3 Credits
- SOC 330 - Victimology - 3 Credits
- SOC 332 - Juvenile Delinquency - 3 Credits
- SOC 333 - Corrections - 3 Credits
- SOC 334 - Race, Crime, and Criminal Justice - 3 Credits
- SOC 335 - Deviance - 3 Credits
- SOC 340 - Community Research - 3 Credits
- SOC 343 - The Family: Cultural Perspectives - 3 Credits
- SOC 344 - Interpersonal Violence - 3 Credits
- SOC 345 - Community Corrections - 3 Credits
- SOC 355 - Environmental Sociology - 3 Credits
- SOC 356 - Urban Sociology - 3 Credits
- SOC 357 - Sociology of Planning - 3 Credits
- SOC 360 - Population Problems - 3 Credits
- SOC 366 - Sociology of Aging - 3 Credits
- SOC 367 - Social Epidemiology - 3 Credits
- SOC 368 - Sociology of Mental Health - 3 Credits
- SOC 370 - Sociology of Globalization - 3 Credits
- SOC 375 - Sociology of Religion - 3 Credits
- SOC 380 - Sociology of Immigration - 3 Credits
- SOC 386 - Social Change and Social Movements - 3 Credits
- SOC 395 - Special Topics in Sociology - 1-3 Credits
- SOC 396 - Special Topics in Criminology and Criminal Justice - 3 Credits
- SOC 497 - Special Work - 1-3 Credits
- SOC 499 - Special Work - 1-3 Credits
- SW 261 - Introduction to Social Work and the Social Services Field - 3 Credits
- SW 262 - Social Welfare Policies and Programs - 3 Credits
- SW 303 - Ethical Practice in the Helping Professions - 3 Credits
- SW 377 - Human Behavior and the Social Environment II: Dimensions of the Environment - 3 Credits

World Language Courses, 0-8 credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

Standards

Academic Standards

1. To be retained, approved for graduation, or accepted as a major or minor at the beginning of your junior year, you must have a minimum grade point average of 2.00 in the major, including transfer courses, regardless of any declaration of academic forgiveness. You may repeat a course in the major if you follow the Repeating Courses policy. The chair may allow exceptions on a conditional basis.

2. You may petition the chair to accept coursework done at other institutions, but no more than one-half the credits applied to your major may be earned outside this university. The chair may allow modifications.

3. You may take courses out of normal class level sequence only if you have adviser and instructor approval.

4. If you are preparing for specialized graduate studies, a professional school, or a specific career, you should request assignment to an adviser knowledgeable in that area to help you select your study program.

SOIL 381 should be taken for 3 credits

Communication, 3 credits

Complete ANY of the following Courses:

- ENGL 254 - Workplace Writing - 3 Credits
- ENGL 347 - Grant and Proposal Writing - 3 Credits
- ENGL 354 - Advanced Technical Writing - 3 Credits
- NRES 320 - Natural Resources Communication and Public Relations - 3 Credits

Career Skills, 6 credits

Complete ALL of the following Courses:

- NRES 372 - Resource Economics - 3 Credits
- NRES 365 - Interpretation for Visitor Centers - 3 Credits (Inactive)
  OR NRES 384 - Conservation and Community Planning - 3 Credits
  OR NRES 473 - Resource Policy and Law - 3 Credits
  OR NRES 474 - Integrated Resource Management - 3 Credits
  OR NRES 478 - Environmental Issues Investigation and Action - 3 Credits
  OR POLI 338 - Environmental Law and Regulation - 3 Credits

Biology, 5-10 credits

Fulfill ANY of the following requirements:

Biology Option 1

Complete ALL of the following Courses:

- BIOL 110 - Principles of Biology I - 5 Credits
- BIOL 111 - Principles of Biology II - 5 Credits

OR

Biology Option 2

Complete ALL of the following Courses:

- BIOL 130 - Introduction to Plant Biology - 5 Credits

Electives, 9 credits

Earn at least 9 credits from the following:

- BIOL 351 - Plant Physiology - 4 Credits
- CHEM 220 - Survey of Organic Chemistry - 4 Credits
- CHEM 248 - Quantitative Analysis - 4 Credits
- SOIL 350 - Selected Topics in Soil and Waste Resources - 1-3 Credits
- SOIL 361 - Forest Soils - 3 Credits
- SOIL 366 - Wetland Soils and Wetland Delineation - 3 Credits
  OR WATR 366 - Wetland Soils and Wetland Delineation - 3 Credits
- SOIL 368 - Urban Soils - 2 Credits
- SOIL 369 - Soil Judging - 1 Credits
- SOIL 370 - Managed Grazing - 2 Credits
- SOIL 387 - On-Site Wastewater Treatment Systems - 1 Credits
  OR WSTE 387 - On-Site Wastewater Treatment Systems - 1 Credits
- SOIL 479 - Environmental Fate of Organic Chemicals - 3 Credits
  OR WSTE 479 - Environmental Fate of Organic Chemicals - 3 Credits
- SOIL 482 - Nutrient Management: Land Application and Planning - 3 Credits
  OR WSTE 482 - Nutrient Management: Land Application and Planning - 3 Credits
- SOIL 486 - Composting - 1 Credits
  OR WSTE 486 - Composting - 1 Credits
- SOIL 499 - Special Work - 1-3 Credits
- WATR 360 - Wetlands Ecology and Management - 3 Credits
  OR WLDL 360 - Wetlands Ecology and Management - 3 Credits
- WATR 389 - Hydrology - 3 Credits
- WATR 454 - Design of Constructed Wetlands - 1 Credits
- WSTE 350 - Selected Topics in Soil and Waste Resources - 1-3 Credits
- WSTE 380 - Solid Waste Management - 3 Credits
- WSTE 476 - Hazardous Waste Management - 3 Credits

Summer Field Experience, 7-8 credits

Fulfill ANY of the following requirements:

Summer Field Experience, 7 credits

Complete ALL of the following Courses:

- FOR 319 - Land Surveying - 1 Credits
- FOR 320 - Field Experience in Forest Measurements - 1 Credits
- SOIL 359 - Soil Conservation and Watershed Inventory Techniques - 1 Credits
- SOIL 360 - Field Experience in Soil Inventory Methods - 1 Credits
- NRES 405 - Selected Topics in Natural Resources - 1-3 Credits
- WATR 380 - Field Experience in Aquatic Ecosystem Evaluation - 1 Credits
- WLDL 340 - Field Experience in Wildlife Management Techniques - 1 Credits

OR

International Summer Field Experience, 8 credits

Complete ALL of the following Courses:

- NRES 475 - International Field Experiences in Natural Resources Management - 1-8 Credits

Additional Comments:
Note: Whether you are a major or minor, check with a Soils and Waste Resources adviser to determine the minimum core course requirements you need to be eligible for professional certification, exams, and/or licenses.

No Requirement Level

Standards

Academic Standards
To graduate with a major or minor in soil and waste resources you must have a minimum in-major grade point average of 2.25.

About this Program

SOIL-BS: SOIL-MGT

Career
Undergraduate

Degree Designation
BS - Bachelor of Science

CIP Code
1.1201

Learning Outcomes

Program Learning Outcomes (UWSP)
Upon graduation, as a major in Soil and Waste Resources at UWSP, you will be able to:

1. Describe how soil and waste resources interact with the environment.
2. Identify the significant physical, chemical and biological properties of soil and waste resources.
3. Evaluate different uses and management options for soil and waste resources.
4. Demonstrate technical skills necessary for soil and waste resource professions.
5. Demonstrate the ability to communicate technical soil and waste resource information.

Soil and Waste Resources Major (BS): Waste Management and Environmental Protection Option

Requirements

Simple Requisites

Curriculum
This major is administered by the Soil and Waste Resources Discipline.

Consists of a minimum of 95 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 101, CHEM 105, PHYS 201, MATH 111, MATH 225, FOR 321, MATH 255.

Soil and Waste Resources Core
Type
Completion Requirement

Natural Resources, 14 credits

Complete ALL of the following Courses:

- NRES 150 - People, Resources and the Biosphere - 3 Credits
- NRES 151 - Ecological Basis for Natural Resource Management - 3 Credits
- NRES 250 - Introduction to Fisheries, Forestry and Wildlife Resources - 4 Credits
- NRES 251 - Introduction to Soil and Water Resources - 4 Credits

Basic Sciences, 13-14 credits

Complete ALL of the following Courses:

- CHEM 101 - Basic Chemistry - 5 Credits
  OR CHEM 105 - Fundamental Chemistry - 5 Credits
- GEOL 104 - Physical Geology - 4 Credits
- PHYS 101 - General Physics - 5 Credits
  OR PHYS 201 - Applied Principles of Physics I - 4 Credits

Quantitative and Analytical Skills, 11-12 credits

Complete ALL of the following Courses:

- FOR 321 - Natural Resources Data Analysis - 4 Credits
  OR MATH 255 - Elementary Statistical Methods - 4 Credits
- GEOG 341 - Geographic Information Systems I - 3 Credits

OR WATR 391 - GIS Applications in Natural Resources - 3 Credits
- MATH 111 - Applied Calculus - 4 Credits (Inactive)
  OR MATH 225 - Calculus I - 5 Credits

Additional Comments:

Waste Management and Environmental Protection Option
Type
Completion Requirement

Required, 44 credits

Complete ALL of the following Courses:
- WATR 390 - Water Chemistry and Analysis - 4 Credits
- WSTE 380 - Solid Waste Management - 3 Credits
- WSTE 381 - Internship in Waste Resources - 1-6 Credits
- WSTE 382 - Water and Wastewater Treatment - 3 Credits
  OR PSEN 382 - Water and Wastewater Treatment - 3 Credits
  OR WATR 382 - Water and Wastewater Treatment - 3 Credits
- WSTE 387 - On-Site Wastewater Treatment Systems - 1 Credits
  OR SOIL 387 - On-Site Wastewater Treatment Systems - 1 Credits
- WSTE 476 - Hazardous Waste Management - 3 Credits
- WSTE 481 - Wastewater Treatment II - 2 Credits
- WSTE 482 - Nutrient Management: Land Application and Planning - 3 Credits
  OR SOIL 482 - Nutrient Management: Land Application and Planning - 3 Credits
- WSTE 484 - Environmental Microbiology - 4 Credits
  OR SOIL 484 - Environmental Microbiology - 4 Credits
- WSTE 485 - Solid Waste Management II - 2 Credits
- WSTE 486 - Composting - 1 Credits
  OR SOIL 486 - Composting - 1 Credits

WSTE 381 should be taken for 3 credits

Soil Science, 6 credits

Earn at least 6 credits from the following:
- SOIL 362 - Soil Genesis, Morphology and Classification - 3 Credits
- SOIL 364 - Soil and Plant Analysis - 3 Credits
- SOIL 365 - Soil Quality Assessment and Soil Survey Interpretation - 3 Credits
- SOIL 465 - Soil Physics - 3 Credits

Communication, 3 credits

Complete ANY of the following Courses:
- COMM 130 - Introduction to Public Relations - 3 Credits
- NRES 320 - Natural Resources Communication and Public Relations - 3 Credits

Career Skills, 6 credits

Earn at least 6 credits from the following:
- BUS 320 - Principles of Management - 3 Credits
- BUS 324 - Human Resource Management - 3 Credits
- ECON 110 - Principles of Macroeconomics - 3 Credits
- ECON 311 - Public Economics - 3 Credits
- ENGL 248 - Introduction to Environmental and Science Writing - 3 Credits
- ENGL 254 - Workplace Writing - 3 Credits
- ENGL 347 - Grant and Proposal Writing - 3 Credits
- NRES 372 - Resource Economics - 3 Credits
- NRES 384 - Conservation and Community Planning - 3 Credits
- NRES 394 - Targeted Conservation Through Advanced GIS - 3 Credits
- NRES 474 - Integrated Resource Management - 3 Credits
- PHIL 380 - Environmental Ethics - 3 Credits
- POLI 242 - State and Local Government - 3 Credits
- POLI 250 - Public Administration - 3 Credits
- POLI 304 - Environmental Politics and Policy - 3 Credits
- POLI 338 - Environmental Law and Regulation - 3 Credits

Biological and Chemical Sciences, 8-9 credits

Complete ALL of the following Courses:
- BIOL 101 - General Biology - 5 Credits
  OR BIOL 110 - Principles of Biology I - 5 Credits
  OR BIOL 130 - Introduction to Plant Biology - 5 Credits
  OR BIOL 160 - Introduction to Animal Biology - 5 Credits
- CHEM 220 - Survey of Organic Chemistry - 4 Credits
  OR SOIL 479 - Environmental Fate of Organic Chemicals - 3 Credits
  OR WSTE 479 - Environmental Fate of Organic Chemicals - 3 Credits

Technical Electives, 3 credits

Any SOIL, WSTE, WATR, or NRES courses numbered 300 or above that are not taken to satisfy other requirements.

Complete Technical Electives

Field Techniques, 2 credits

Complete ALL of the following Courses:
- NRES 385 - Field Techniques in Forestry, Soils, Water, and Wildlife - 2-3 Credits

Additional Comments:

No Requirement Level

Managed Grazing Certificate

Requirements

Simple Requisites

Curriculum
This certificate is administered by the area of Soil and Waste Resources.

Consists of a minimum of 12 credits.

Program Requirements
Type

Completion Requirement

Required, 9 credits

Complete ALL of the following Courses:

- SOIL 370 - Managed Grazing - 2 Credits
- SOIL 373 - Agronomy, Agriculture and the Environment - 4 Credits
- SOIL 461 - Soil Management for Resource Sustainability - 3 Credits
  OR FOR 325 - Range Management - 3 Credits

Required, 3 credits

Complete ANY of the following Courses:

- FOR 324 - Fire Management and Ecology - 3 Credits
- FOR 332 - Forest Ecosystem Ecology - 3 Credits
- FOR 336 - Pesticides in Natural Resource Management - 1 Credits
- SOIL 365 - Soil Quality Assessment and Soil Survey Interpretation - 3 Credits
- WLDL 334 - Ungulate Ecology and Management - 3 Credits
- WLDL 348 - Wildlife Damage Management - 3 Credits
- WLDL 451 - Management of Wildlife Habitat - 4 Credits

Milestones

Complete Internship and Training
Managed Grazing Internship
This can be a credit or non-credit bearing internship with grazing animals, but must be approved by the certificate administrator (SOIL 370 instructor).

Grassland 2.0 Academy Foundations Training
Training is offered at no cost and consists of online modules and field days offered periodically throughout the year. Contact the certificate administrator for more information.

Soil Science Minor

Requirements

Simple Requisites

Curriculum
This minor is administered by the Soil and Waste Resources Discipline.

Consists of 22 credits with at least 15 credits of soils courses.

Program Requirements
Type
Completion Requirement

Required, 4 credits

Complete ALL of the following Courses:

- NRES 251 - Introduction to Soil and Water Resources - 4 Credits

Required, 9 credits

Earn at least 9 credits from the following:

- SOIL 362 - Soil Genesis, Morphology and Classification - 3 Credits
- SOIL 364 - Soil and Plant Analysis - 3 Credits
- SOIL 365 - Soil Quality Assessment and Soil Survey Interpretation - 3 Credits
- SOIL 384 - Environmental Microbiology Lecture - 3 Credits
  OR SOIL 484 - Environmental Microbiology - 4 Credits
  OR WSTE 484 - Environmental Microbiology - 4 Credits
- SOIL 461 - Soil Management for Resource Sustainability - 3 Credits
- SOIL 465 - Soil Physics - 3 Credits

SOIL 362 is necessary for students applying for soil scientist positions with federal agencies.

Forestry majors may substitute SOIL 361 for one of these courses.

Electives, 9 credits

Earn at least 9 credits from the following:

- FOR 332 - Forest Ecosystem Ecology - 3 Credits
- FOR 435 - Nursery Operations and Management - 3 Credits
- GEOG 312 - Geomorphology - 3 Credits
  OR GEOL 312 - Geomorphology - 3 Credits
- GEOG 341 - Geographic Information Systems I - 3 Credits
- GEOL 370 - Glacial Geology - 3 Credits
- GEOL 383 - Hydrogeology - 3 Credits
  OR WATR 383 - Hydrogeology - 3 Credits
- GEOL 487 - Groundwater Geochemistry - 3 Credits
  OR WATR 487 - Groundwater Geochemistry - 3 Credits
- NRES 336 - Integrated Pest Management Workshop - 1 Credits
- NRES 384 - Conservation and Community Planning - 3 Credits
- SOIL 359 - Soil Conservation and Watershed Inventory Techniques - 1 Credits
- SOIL 360 - Field Experience in Soil Inventory Methods - 1 Credits
- SOIL 361 - Forest Soils - 3 Credits
- SOIL 362 - Soil Genesis, Morphology and Classification - 3 Credits
- SOIL 363 - Soil Profile Description Writing - 1 Credits
- SOIL 364 - Soil and Plant Analysis - 3 Credits
- SOIL 365 - Soil Quality Assessment and Soil Survey Interpretation - 3 Credits
- SOIL 366 - Wetland Soils and Wetland Delineation - 3 Credits
  OR WATR 366 - Wetland Soils and Wetland Delineation - 3 Credits
- SOIL 368 - Urban Soils - 2 Credits
- SOIL 369 - Soil Judging - 1 Credits
- SOIL 370 - Managed Grazing - 2 Credits
- SOIL 373 - Agronomy, Agriculture and the Environment - 4 Credits
- SOIL 384 - Environmental Microbiology Lecture - 3 Credits
  OR SOIL 484 - Environmental Microbiology - 4 Credits
  OR WSTE 484 - Environmental Microbiology - 4 Credits
- SOIL 461 - Soil Management for Resource Sustainability - 3 Credits
- SOIL 462 - Environmental Biogeochemistry - 3 Credits
  OR WATR 462 - Environmental Biogeochemistry - 3 Credits
- SOIL 465 - Soil Physics - 3 Credits
- SOIL 479 - Environmental Fate of Organic Chemicals - 3 Credits
  OR WSTE 479 - Environmental Fate of Organic Chemicals - 3 Credits
- SOIL 482 - Nutrient Management: Land Application and Planning - 3 Credits
  OR WSTE 482 - Nutrient Management: Land Application and Planning - 3 Credits
- SOIL 486 - Composting - 1 Credits
  OR WSTE 486 - Composting - 1 Credits
- WATR 360 - Wetlands Ecology and Management - 3 Credits
  OR WLDL 360 - Wetlands Ecology and Management - 3 Credits
- WATR 391 - GIS Applications in Natural Resources - 3 Credits
- WATR 493 - Advanced Hydrologic Analysis - 3 Credits
- WLDL 451 - Management of Wildlife Habitat - 4 Credits
- WSTE 380 - Solid Waste Management - 3 Credits
- WSTE 476 - Hazardous Waste Management - 3 Credits

SOIL 373 has satisfied the crop science requirement for a soil conservationist position with the Natural Resources Conservation Service.

About this Program
The soil science minor satisfies the minimum civil service requirements for soil scientist positions (classification and mapping) in federal agencies such as the Natural Resources Conservation Service and the Forest Service.

Whether you are a major or minor, check with a soils adviser to determine the minimum core course requirements you need for certification as a professional and/or to take state or national exams or to obtain licenses.

Spanish Major (BA)

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of World Languages and Literatures within the College of Letters and Science.

Consists of 35 credits.

Program Requirements
Type
Completion Requirement

Required Core, 20 credits

Complete ALL of the following Courses:

- FLNG 250 - Introduction to World Languages - 3 Credits
- SPAN 211 - Third Semester Spanish - 4 Credits
- SPAN 212 - Fourth Semester Spanish - 4 Credits
- SPAN 313 - Developing Speaking Proficiency - 3 Credits
- SPAN 314 - Developing Writing Proficiency - 3 Credits
- SPAN 315 - Developing Reading Proficiency - 3 Credits

Electives, 15 credits

Complete Electives
12-15 additional credits of 300-400 level Spanish course(s) taken at UWSP and/or one of our approved study-abroad programs

3 credits may be from one of the following:

- FLNG 251
- FLNG 252

Other Requirements

Complete Global Seal of Biliteracy
Global Seal of Biliteracy: Apply, test, and receive the certification from the Global Seal of Biliteracy and provide a copy of the certification to the Department of World Languages and Literatures (if not previously obtained).

World Language Courses, 0-8 credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

Additional Comments:

No Requirement Level

Learning Outcomes

Program Learning Outcomes (UWSP)
1. **Oral Communication:** You will be able to create oral comprehensible output (i.e., your thoughts, ideas, and opinions) in the target language at the Intermediate-Low level minimum (students in the minor), and Intermediate-High level minimum (students in the major or in the teacher certification program) as described by the American Council on the Teaching of Foreign Languages (ACTFL) Proficiency Guidelines

2. **Written Communication:** You will be able to create written comprehensible output (i.e., your thoughts, ideas, and opinions) in the target language at the Intermediate-Low level minimum (students in the minor), and Intermediate High level minimum (students in the major or in the teacher certification program) as described by the ACTFL Proficiency Guidelines

3. **Interpretative Communication:** You will be able to understand, interpret and evaluate authentic material in the target language in its written and spoken form on a variety of topics at the Intermediate-Low level minimum (students in the minor), and Intermediate-High level minimum (students in the major or in the teacher certification program) as described by the ACTFL Proficiency Guidelines

4. **Intercultural Competency:** You will be able to compare and evaluate the relationship between the products, practices, and perspectives of the cultures of the target language and your own

5. **Communities:** You will be able to justify the usage of the target language beyond the school setting

Spanish Minor

Requirements

Spanish Major (BA): Education Option

Requirements

Simple Requisites

Curriculum
This major is administered by the Department of World Languages and Literatures within the College of Letters and Science.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)
The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

This program meets the certification/licensure requirements in the following states/territories:
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming;

This program does not meet the certification/licensure requirements in the following states/territories:
American Samoa, Federated States of Micronesia, Guam, Nevada, Northern Mariana Islands, Puerto Rico, Republic of Palau, Republic of the Marshall Islands;

Note: If you live in a state or territory that does not meet certification/licensure requirements, you may contact the School of Education for more information.

Consists of a minimum of 48 credits.

Program Requirements
Type
Completion Requirement

Required Core, 23 credits

Complete ALL of the following Courses:

- FLNG 250 - Introduction to World Languages - 3 Credits
- SPAN 211 - Third Semester Spanish - 4 Credits

- SPAN 212 - Fourth Semester Spanish - 4 Credits
- SPAN 313 - Developing Speaking Proficiency - 3 Credits
- SPAN 314 - Developing Writing Proficiency - 3 Credits
- SPAN 315 - Developing Reading Proficiency - 3 Credits
- SPAN 345 - Advanced Conversation and Composition - 3 Credits

Electives, 12 credits

Complete Electives
Any Spanish course at the 300- or 400- level except for SPAN 313, SPAN 314, or SPAN 315

Other Requirements

Complete Second Language and Global Seal of Biliteracy
Second Language Proficiency: Complete two exams administered by Language Testing International: 1) ACTFL Oral Proficiency Interview (OPI)® or ACTFL Oral Language Proficiency Interview-computer (OPIc)® and 2) the ACTFL Writing Proficiency Test (WPT). The passing score for these exams is set at the ACTFL proficiency level of Intermediate High.

Global Seal of Biliteracy: Apply, test, and receive the certification from the Global Seal of Biliteracy and provide a copy of the certification to the Department of World Languages and Literatures (if not previously obtained).

Foreign Language Education Courses

Complete ALL of the following Courses:

- FLED 333 - Teaching Second Languages - 3 Credits
- FLED 398 - Student Teaching in a Foreign Language - 1-16 Credits
  OR FLED 498 - Intern Teaching - 1-16 Credits
- FLED 400 - Seminar on Teaching for Student Teachers - 1-2 Credits

FLED 400 should be taken for 1 credit concurrently with FLED 398 or FLED 498

World Language Courses, 0-8 credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

2. **Written Communication:** You will be able to create written comprehensible output (i.e., your thoughts, ideas, and opinions) in the target language at the Intermediate-Low level minimum (students in the minor), and Intermediate High level minimum (students in the major or in the teacher certification program) as described by the ACTFL Proficiency Guidelines

3. **Interpretative Communication:** You will be able to understand, interpret and evaluate authentic material in the target language in its written and spoken form on a variety of topics at the Intermediate-Low level minimum (students in the minor), and Intermediate-High level minimum (students in the major or in the teacher certification program) as described by the ACTFL Proficiency Guidelines

4. **Intercultural Competency:** You will be able to compare and evaluate the relationship between the products, practices, and perspectives of the cultures of the target language and your own

5. **Communities:** You will be able to justify the usage of the target language beyond the school setting

Special Education Major (BS)

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Education in the School of Education. Additional policies for this major are available at this link.

Teacher Certification:

Option A: Cross-Categorical Special Education - grades Kindergarten-12th grade - Includes 4-year old kindergarten

Option B: Early Childhood Special Education - grades birth-3rd grade

Option C: Certifications in both

After you have completed 24 credits, apply for admission to the Professional Education Program. For a list of the admission criteria, see this section.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)
The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

This program meets the certification/licensure requirements in the following states/territories:
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North

Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming; District of Columbia; U.S. Virgin Islands;

This program does not meet the certification/licensure requirements in the following states/territories:
American Samoa, Federated States of Micronesia, Guam, Northern Mariana Islands, Puerto Rico, Republic of the Marshall Islands, Republic of Palau;

Note: If you live in a state or territory that does not meet certification/licensure requirements, you may contact the School of Education for more information.

Consists of 67 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: MATH 228, and CHEM 100.

Program Requirements
Type
Completion Requirement

Required

Complete ALL of the following Courses:

- EDUC 205 - Pluralism for Educators - 2 Credits
- EDUC 300 - Seminar for Professional Educators II - 1 Credits
- EDUC 302 - Methods and Materials for Teaching Reading I - 3 Credits
- EDUC 309 - Methods and Materials for Teaching Reading II - 3 Credits
- EDUC 323 - Techniques in Elementary School Math - 3 Credits
- EDUC 331 - Educational Technology - 3 Credits
- EDUC 351 - Educating Students with Special or Other Needs in the General Education Environment - 3 Credits
- EDUC 356 - Individual Assessment - 3 Credits
- EDUC 362 - Classroom Management Techniques and Strategies - 3 Credits
- EDUC 381 - Educational Psychology - 2 Credits
- EDUC 382 - Managing Learning Environments - 1 Credits
- EDUC 400 - Student Teaching Seminar - 1-2 Credits
- MATH 228 - Fundamental Mathematical Concepts for Elementary Teachers I - 3 Credits
- MATH 338 - Fundamental Mathematical Concepts for Elementary Teachers II - 3 Credits

EDUC 400 should be taken for 1 credit

Options

Fulfill ANY of the following requirements:

Option A: K-12 Cross-Categorical Special Education

Complete ALL of the following Courses:

- EDUC 310 - Methods and Materials for Teaching Language Arts - 3 Credits
  OR EDUC 386 - Literacy in the Secondary School - 3 Credits
- EDUC 314 - Nature and Needs of the Gifted - 2 Credits
- EDUC 364 - Instructional Planning and Strategies for Teaching Students with Disabilities-Core Content Areas - 3 Credits
- EDUC 369 - Instructional Planning and Strategies with Disabilities-Functional and Content Areas - 3 Credits
- EDUC 373 - Family, Agency, and Community Collaboration for Successful Transition for Youth with Disabilities - 3 Credits
- EDUC 385 - Teaching the Early Adolescent - 3 Credits
- EDUC 397 - Professional Practice and Current Issues in Special Education - 3 Credits
- EDUC 398 - Student Teaching - 1-16 Credits

EDUC 398 should be taken for 16 credits

OR

Option B: ECSE Birth-3rd Grade

Complete ALL of the following Courses:

- ECED 368 - Creative Integrated Curriculum and Methods for Young Children - 3 Credits
- EDUC 318 - Individualized Education Program (IEP) Development for Special Educators - 1 Credits
- EDUC 365 - Assessment and Instructional Strategies for Infants and Toddlers with Disabilities - 3 Credits
- EDUC 366 - Curriculum and Instruction for Preschool Children with Disabilities in Preschool and Primary - 3 Credits
- EDUC 373 - Family, Agency, and Community Collaboration for Successful Transition for Youth with Disabilities - 3 Credits
  OR ECED 460 - Programs and Partnerships for Young Children - 3 Credits
- EDUC 398 - Student Teaching - 1-16 Credits

Double majors in Early Childhood Education do not need to take ECED 368

Double majors in Early Childhood Education take ECED 460 instead of EDUC 373

EDUC 398 should be taken for 16 credits (If choosing Option A and B, or double majoring in Early Childhood Education or Elementary Education - take 8 credits)

OR

Option C - take both Option A and Option B listed above

Collateral Courses

Complete ALL of the following Courses:

- ASTR 100 - Unveiling the Universe - 3 Credits
  OR CHEM 100 - Chemistry for the Citizen - 3 Credits
  OR GEOG 105 - The Dynamic Earth - 3 Credits
- BIOL 100 - Biological Principles and the Human Environment - 3 Credits
- HD 265 - Human Growth and Development: A Life-Span Approach - 3 Credits
  OR HD 361 - Development and Guidance of Children - 3 Credits
  OR PSYC 260 - Introduction to Developmental Psychology - 3 Credits
- PSYC 110 - Introduction to Psychology - 3 Credits

Additional Comments:
Notes:

See the Student Teaching section of this catalog for additional licensing requirements.

Learning Outcomes

Program Learning Outcomes (UWSP)
Upon completion of the Special Education Program, you will be able to:

1. Design safe, inclusive, culturally responsive learning environments for students with exceptionalities.
2. Use knowledge of curricula to individualize learning for students with exceptionalities.
3. Use multiple methods of assessment and data-sources in making educational decisions for students with exceptionalities.
4. Select and adapt evidence-based instructional strategies to individualize learning for students with exceptionalities.
5. Demonstrate strategies for engagement with those who support students with disabilities, including families, other educators, related service providers, and community agencies.

Sustainable Food and Nutrition Major (BA) (4+1 Track)

Requirements

Simple Requisites

Curriculum

Entry of new students into this program has been suspended as of Spring 2024.

This major is administered by the area of Nutrition in the School of Health Sciences and Wellness.

Consists of major and collateral requirements totaling a minimum of 65 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: CHEM 101, ECON 110, MATH 255, HSW 301, PSYC 300, and SOC 351.

Program Requirements
Type
Completion Requirement

Required Courses, 34 credits

Complete ALL of the following Courses:

- FN 101 - Introduction to the Professions of Dietetics and Nutrition - 1 Credits
- FN 151 - Contemporary Nutrition - 2 Credits
- FN 206 - Introductory Foods - 3 Credits
- FN 346 - Advanced Foods - 3 Credits
- FN 354 - Introduction to Nutrition and Nutrient Metabolism - 3 Credits
- FN 357 - Ecology of Foods - 3 Credits
- FN 373 - Nutrition through the Life Span - 3 Credits
- FN 393 - Educational Techniques and Research in Food and Nutrition - 3 Credits
- FN 397 - Field Work - 1-8 Credits
- FN 651 - Sustainable Food System Project - 3 Credits
- FN 656 - Advanced Community Nutrition and Food Systems - 4 Credits

FN 397 should be taken for 6 credits

Take FN 656 during semester 6

Required Collateral Courses, 31-32 credits

Complete ALL of the following Courses:

- BIOL 101 - General Biology - 5 Credits
- CHEM 101 - Basic Chemistry - 5 Credits
- ECON 110 - Principles of Macroeconomics - 3 Credits
- MATH 255 - Elementary Statistical Methods - 4 Credits
  OR HSW 301 - Fundamentals of Biostatistics - 3 Credits
  OR PSYC 300 - Statistics for Psychologists - 4 Credits
  OR SOC 351 - Social Statistics - 4 Credits
- NRES 150 - People, Resources and the Biosphere - 3 Credits
- NRES 220 - Global Climate Change and Water Resources: Present-10th Century - 3 Credits
  OR WATR 220 - Global Climate Change and Water Resources: Present-10th Century - 3 Credits
- PSYC 110 - Introduction to Psychology - 3 Credits
- PHIL 321 - Food Ethics - 3 Credits
- SOC 101 - Introduction to Sociology - 3 Credits

World Language Courses, 0-8 credits

Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

Complete World Language Requirement

Additional Comments:

No Requirement Level

Standards

Admission Standards
Transfer students must have a 2.75 cumulative GPA to enter.

Academic Standards
You must maintain a 2.75 GPA through graduation.

Sustainable Food and Nutrition, BA + MS (4+1 Track)

There is an option for early application into either the Sustainable and Resilient Food Systems, MS (SRFS) or Community & Organizational Leadership, MS (COL).

If you are completing semester 6 of your undergraduate program in SFN, you can apply by April 1 of that year into the BA and MS 4+1 track. You should discuss your suitability for the accelerated track with your academic adviser prior to submitting an application. Formal acceptance into the MS program requires completion of your BA.

BA + MS (4+1 Track) Eligibility:

• To be considered for the 4 + 1 Track, you must have an undergraduate cumulative GPA of 3.0 or higher at the time of application.

• Completed application (Application for accelerated BA-MS FN programs)

• If you are not accepted, you can continue with the 4-year SFN plan

About this Program

About this Program
The BA in Sustainable Food and Nutrition (SFN) prepares graduates to support sustainable food systems that address nutritional needs and preventable diet-related health conditions, working primarily within communities to ensure meaningful connections among regional food economies, natural resources stewardship, and health and wellness. The goal of the program is to provide you with a structured set of educational experiences that will develop student competencies in terms of critical thinking, problem-solving, systems analysis, inter-cultural knowledge, tolerance and respect, and community development. The SFN major directly attends to three focus areas by partnering with community and private entities to foster a resilient regional food system that will promote healthy nutrition and a diversified economy and also build upon the sustainable leveraging of natural resources to further the agricultural legacy of the Central Wisconsin region. The program emphasizes principles and practices in sustainability through required coursework in natural resources, local food systems, and community nutrition. Practicum experiences in community organizations will build critical thinking and creative problem solving skills.

To graduate from UWSP with the SFN degree, students must earn a minimum of 120 credits, satisfy all major requirements and complete the General Education Program (GEP) requirements.

About this Program
The strength and conditioning minor is designed for students who are interested in applying scientific knowledge to design, implement and train individuals with the goals of improving health, fitness and/or performance. Students will gain expertise in leading exercise assessments, creating workouts and coaching proper exercise techniques to provide effective strength and conditioning programs. The strength and conditioning minor will provide you with a distinct education to pursue industry leading certifications such as the National Strength and Conditioning Association Certified Strength and Conditioning Specialist. Additionally, students will be prepared for careers in settings such as colleges, high schools, professional sport teams, sports medicine clinics, and fitness facilities.

About this Program

About this Program
This certificate program is intended for, but not limited to, you if you are pursuing a degree in education. Can be completed concurrently with your undergraduate degree in education, or a related field with consent of the program coordinator.

This certificate is intended to provide STEM content if you are already completing a major in education, teaching pedagogy and/or curricular design. Courses in this program focus on content standards suggested by the Common Core State Standards, Next Generation Science Standards and best practices for teaching inquiry-based lessons. This certificate does not meet the requirements for license through the Wisconsin Department of Public Instruction (e.g. Science, Technology, or Mathematics Education license).

Sustainable and Resilient Food Systems (MS)

Requirements

Simple Requisites

Curriculum
This graduate program is administered by the area of Nutrition in the School of Health Sciences and Wellness

The degree requires a minimum of 30 credits.

Program Requirements
Type
Completion Requirement

Required Core, 18 credits

Complete ALL of the following Courses:

- COL 710 - Organization and Program Management - 3 Credits
- COL 740 - Grants and Funding for Small Projects - 3 Credits
- FN 557 - Ecology of Foods - 3 Credits
- FN 700 - Collaborative Leadership in Community Development - 3 Credits
- FN 720 - Outcome Based Program Evaluation - 3 Credits
- FN 730 - Best Practices in Program Development - 3 Credits

Required Foundation Knowledge

If you enter the program with deficits in fundamental nutrition knowledge you will be required to fulfill the following coursework (at UW-Stevens Point or equivalent courses elsewhere) IN ADDITION to the 30 credits of graduate coursework:

Complete ALL of the following Courses:

- FN 354 - Introduction to Nutrition and Nutrient Metabolism - 3 Credits
- FN 373 - Nutrition through the Life Span - 3 Credits

Electives, 6 Ccredits

Complete Electives
Any graduate level (500+) course taken at UWSP or transferred in from another institution will count towards the 9 credit elective requirement. You are encouraged to choose electives to meet your specific professional development needs and interests.

Culminating Experience, 6 credits

Choose one option:

Fulfill ANY of the following requirements:

Project Option

Develop and implement a project designed to address a food sustainability issue in community.

Requires 6 credits (FN 791 and FN 792). Requires professional presentation of project plan and results.

Complete ALL of the following Courses:

- FN 791 - Project Development - 2-3 Credits
- FN 792 - Project Evaluation - 2-3 Credits

OR

Thesis Option

For those interested in hypothesis testing, data collection, analysis, and interpretation. Choose a topic in an area similar to the interests of one of the faculty. Requires 6 thesis credits. Requires research proposal presentation, written thesis, and oral defense of thesis.

Complete ALL of the following Courses:

- FN 799 - Thesis - 1-6 Credits

Additional Comments:

Standards

Admission Standards
For Sustainable and Resilient Food Systems you need:

1. A baccalaureate degree from an accredited university or college and an undergraduate grade point average of 2.75 or above (based on a 4.0 scale). We may grant probationary status if you have a GPA below 2.75.

2. A current resume or curriculum vitae.

3. A letter of intent detailing your background qualifications, career goals, and how this program fits into your future professional plans.

4. GRE (Graduate Record Exam).

Academic Standards
Minimum GPA requirement for this program is 3.00.

Admission to Candidacy for Sustainable and Resilient Food Systems Graduate Program

Admission to candidacy (program planning) does not occur until after you have applied and are accepted into the Sustainable and Resilient Food Systems graduate program at UW-Stevens Point. Once admitted, you will consult with your adviser to prepare a proposed program of study. Acceptance as a candidate occurs when your graduate adviser has approved your Program of Study.

To be accepted as a candidate:

1. Complete no more than 9 credits of graduate work from UW-Stevens Point. Transfer credits may apply toward completion of your degree, but they are not included in consideration for admission to candidacy. You may apply earlier, but you should be admitted to the program and meet with your adviser before you have completed 9 graduate credits.

2. Remove any academic deficiencies and/or complete all subject matter prerequisites.

3. Maintain at least a 3.0 (B) grade point average in all your graduate work.

4. Receive approval for your Program of Study.

Following is this disclosure information for this program:

This program meets the certification/licensure requirements in the following states/territories:
Alabama, Alaska, Arizona, Arkansas, Delaware, District of Columbia, Guam, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, North Carolina, North Dakota, Northern Mariana Islands, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Utah, Virginia, West Virginia, Wisconsin, and Wyoming.

This program does not meet the certification/licensure requirements in the following states/territories or the following states/territories do not license or otherwise credential social workers at the bachelor's level:

American Samoa, California, Colorado, Connecticut, Federated States of Micronesia, Florida, Georgia, New York, Republic of Palau, Republic of the Marshall Islands, Rhode Island, Vermont, Washington;

Consists of a minimum of 67 credits in core social work, required supporting courses, and electives. Note: Course credit will not be granted for life experience or previous work experience.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: SOC 351 and PSYC 300.

Program Requirements
Type
Completion Requirement

Supporting Courses, 19 credits

Complete ALL of the following Courses:

- POLI 101 - American Politics - 3 Credits
- PSYC 110 - Introduction to Psychology - 3 Credits
- SOC 101 - Introduction to Sociology - 3 Credits
- SOC 270 - Race and Ethnicity - 3 Credits
  OR SOC 327 - Social Inequality - 3 Credits
- SOC 351 - Social Statistics - 4 Credits
  OR PSYC 300 - Statistics for Psychologists - 4 Credits
- SOC 352 - Research Methods - 3 Credits
  OR SW 352 - Research Methods - 3 Credits

Core Courses, 42 credits

Complete ALL of the following Courses:

- SW 261 - Introduction to Social Work and the Social Services Field - 3 Credits
- SW 262 - Social Welfare Policies and Programs - 3 Credits
- SW 303 - Ethical Practice in the Helping Professions - 3 Credits
- SW 316 - Child Welfare Practice - 3 Credits
- SW 359 - Social Work Methods: Casework - 3 Credits
- SW 361 - Social Work with Groups - 3 Credits
- SW 362 - Social Work Methods: Community Organizations and Social Service Administration - 3 Credits
- SW 365 - Social Work Practice with Diverse Populations - 3 Credits
- SW 376 - Human Behavior and the Social Environment I: Dimensions of the Person - 3 Credits
- SW 377 - Human Behavior and the Social Environment II: Dimensions of the Environment - 3 Credits
- SW 385 - Mental Health and Co-Occurring Disorders: Resilience and Recovery - 3 Credits
- SW 494 - Social Work Practicum - 1-8 Credits
- SW 495 - Social Work Practicum Seminar - 1 Credits

SW 494 should be taken for 8 credits total

You may repeat SW 495 each time you are in SW 494

Electives, 3 credits

Earn at least 3 credits from the following:

- SW 381 - Death, Dying, Loss and Grief - 3 Credits
- SW 383 - Introduction to Substance Use Disorders - 3 Credits
- SW 384 - Substance Use Disorders: Advanced Practices for Recovery - 3 Credits
- SW 387 - Emerging Issues in Social Work with Children and Youth - 3 Credits

World Language Courses, 0-8 credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

Additional Comments:

No Requirement Level

Standards

Admission Standards
You may declare a social work major at any time but must apply and be formally accepted into the program to complete your degree.

If you're seeking admission, you must:

• Have completed (or be in progress to complete) at least 45 credits of undergraduate coursework at the time of application (application for admission typically takes place during the sophomore year but may occur later).

• Have earned a minimum grade point average of 2.5 from all accredited institutions attended.

• Have earned a minimum grade point average of 2.5 in the required pre-admission coursework (SOC 101 and SW 261).

• Have earned a minimum grade of C- in SW 261.

• Be in good academic standing in the semester in which you apply.

NOTE: Conviction of past criminal activity or conduct will not be used as criterion for denial of admission into the Social Work Major. However, past or future criminal activity or conduct may limit or inhibit you from securing a Social Work Internship which is required for completion of the social work degree. In addition, you may be ineligible to receive state certification or licensure to practice social work. You should discuss any question with your advisers or the director of the Social Work Program.

Academic Standards
To remain in the social work major, you must:

• Maintain 2.5 GPA in Social Work Major and supporting coursework.

• Maintain 2.5 cumulative GPA in all UW-Stevens Point and transfer credits attempted.

• Maintain a "C-" or better in each required social work course.

• Comply with the social work student code of conduct and the NASW Code of Ethics as outlined in the student manual.

NOTE: If you violate any of the above retention standards, you will be allowed a two-semester probationary period in which you can attempt to bring yourself into compliance with the standards while remaining in the major. If, following your probationary period, you are still not in compliance with the retention standards, you may be dropped from the Social Work Major.

About this Program
The Child Advocacy Studies Certificate is a three-course (nine credit) program that aims to teach foundational and advanced skills and knowledge to prevent child maltreatment and to identify, assess, intervene, and evaluate children and families involved in child welfare systems as well as survivors of child maltreatment. A multidisciplinary approach is used to recognize, respond, and advocate for children, families, and survivors.

Theatre Arts-Drama Major (BA)

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Theatre in the School of Performing Arts.

Choose this option if you wish to gain general knowledge in a variety of theatre courses: acting, design, directing, theatre history, and dramatic literature, but also wish to take selected specialized courses in one theatre area that interests you.
Consists of a minimum of 41 credits.

Program Requirements
Type
Completion Requirement

General Courses, 23 credits

Complete ALL of the following Courses:

- THEA 146 - Stagecraft - 3 Credits
  OR THEA 248 - Costume Construction Techniques - 3 Credits
- THEA 162 - Script Analysis - 3 Credits
- THEA 170 - Fundamentals of Acting I - 3 Credits
  OR THEA 172 - Fundamentals of Acting II - 3 Credits
  OR ARTM 195 - Fundamentals of Arts Management - 3 Credits
- THEA 351 - Theatre History: Beginnings to 1660 - 3 Credits
- THEA 352 - Theatre History from 1660 to 1915 - 3 Credits
- THEA 452 - Modern and Contemporary Theatre History from 1915 - 3 Credits
- DNCE 103 - Modern IA - 2 Credits
  OR DNCE 105 - Ballet IA - 2 Credits
  OR DNCE 114 - Jazz I - 2 Credits
  OR DNCE 115 - Tap I - 2 Credits
- ARTM 195 - Fundamentals of Arts Management - 3 Credits
  OR ARTM 330 - Fundraising and Institutional Advancement - 3 Credits
  OR ARTM 360 - The Community and the Arts - 3 Credits

Structured Electives, 6 credits

Earn at least 6 credits from the following:

- DSN 101 - Foundation Studio: Drawing and Visualization - 3 Credits
- ENGL 333 - Early Shakespeare - 3 Credits
  OR ENGL 334 - Later Shakespeare - 3 Credits
  OR ENGL 337 - Shakespeare - 3 Credits
- THEA 146 - Stagecraft - 3 Credits
- THEA 172 - Fundamentals of Acting II - 3 Credits
- THEA 241 - Scene Design I - 3 Credits
- THEA 242 - Lighting Design I - 3 Credits
- THEA 243 - Costume Design I - 3 Credits
- THEA 244 - Makeup Design - 3 Credits
- THEA 245 - Properties Design - 3 Credits
- THEA 248 - Costume Construction Techniques - 3 Credits
- THEA 327 - Fundamentals of Playwriting - 3 Credits
- THEA 346 - Stage Management - 3 Credits
- THEA 375 - Directing I - 3 Credits
- THEA 490 - Seminar in Theatre - 3 Credits
- THEA 497 - Senior Project - 1-3 Credits

Electives, 6 credits

Complete Electives
Electives may be taken from any DNCE or THEA course not taken above, or other courses approved by your adviser.

Practicum, 6 credits

Complete Practicum

Required Theatre Practicum

For Theatre Majors: Register for a practicum **each of your first six semesters as a major**. Practicum areas are scene shop, costume shop, deck run crew, costume run crew, house/public relations, design, directing/choreography/management, and performance. You may repeat an area after you have completed 6 different activities.

For Majors and Minors:

1. Practicum areas are scene shop, costume shop, deck run crew, costume run crew, house/public relations, design, directing/choreography/ management, media marketing, and performance.
2. Students assigned to work in one of the technical shops must complete 40 hours of work.
3. All other assignments must attend/work all scheduled meetings, calls, rehearsals, and performances as appropriate.
4. Credit for practicum includes DNCE 426 or THEA 426 as appropriate.
5. Theatre and Dance majors and minors must explore different areas of Practicum each time they enroll.
6. If you do not register for a practicum or do not complete the activity satisfactorily, you are placed on department probation and must make up the missed work in the next semester. If you must make up missed work, you must also register for a practicum for the current semester. If the work is not made up, you will be dropped from the major or minor.
7. Normally a practicum may only count in the current semester. If a production occurs unusually late in a semester, the practicum for that production may count for the following semester.

World Language Courses, 0-8 credits

Complete World Language Requirement
Complete a two-semester sequence of university entry-level world language courses (101, 102). The requirement may be fulfilled through equivalent coursework or other language acquisition as demonstrated through a test-out policy (including Native American languages and American Sign Language). If your native language is not English and you can document formal high school or university study of your native language, you may use ENGL 101 and ENGL 202, or ENGL 150 as a means of fulfilling this world language requirement. Please see the Department of World Languages and Literatures for details.

Additional Comments:

No Requirement Level

Standards

Admission Standards
Admission to all Theatre and Dance programs is by audition/interview only.

Admission Policy: To major in the BA drama option, you must be admitted to both the university and the drama program. Admission to the drama program is by application, essay and interview. Interviews are held in the spring for fall acceptance and we recommend that you be officially admitted to UW-Stevens Point before your assigned interview date. If you are a high school student, you should apply to the department in the fall of your senior year. If you are a transfer student or continuing UW-Stevens Point student, you must also apply for admission to the drama program. Contact the Department of Theatre and Dance for more information.

Academic Standards
To be retained as a major or minor in any of the theatre arts options and to be approved for graduation, you must earn a minimum grade point average of 2.75 in all courses taken within the major or minor each semester, including transfer courses, regardless of any declaration of academic forgiveness. You may repeat a course in the major or minor if you follow the Repeating Courses policy.

Standards

Admission Standards
Admission to all Theatre and Dance programs is by audition/interview only.

Admission audition required: Admission to the BFA acting program is by audition only. Auditions are held on select dates in the fall and spring for fall acceptance the following academic year. We recommend that you be officially admitted to UW-Stevens Point before your assigned audition date. We encourage you to apply early as the number of students accepted into the program is limited. If you are a transfer student and wish to enter the acting program, you should audition before transferring to UW-Stevens Point. Contact the Department of Theatre and Dance for more information.

Academic Standards
To be retained as a major or minor in any of the theatre arts options and to be approved for graduation, you must earn a minimum grade point average of 2.75 in all courses taken within the major or minor each semester, including transfer courses, regardless of any declaration of academic forgiveness. You may repeat a course in the major or minor if you follow the Repeating Courses policy.

Retention in the program: Every BFA Acting Major will meet with the area coordinator at the end of each semester for a comprehensive evaluation of classroom and performance work. If you do not demonstrate satisfactory progress or do not adhere to the retention standards established by the department, you may be placed on departmental probation or dropped from the major.

Required auditions: BFA acting majors must audition for all faculty-directed mainstage and studio theatre productions and accept roles as assigned.

Learning Outcomes

Program Learning Outcomes (UWSP)
Upon successful completion of the BFA Acting Program, you will be able to:

1. Demonstrate a significant knowledge of conventions, historical and contemporary perspectives, and cultural practices in theatre.
2. Analyze artistic works and employ discipline-specific tasks in preparing for performance.
3. Utilize discipline-specific skills required in performing various roles.
4. Demonstrate professionalism by effectively communicating and collaborating with others and adhering to professional practices and standards in the field.
5. Evaluate preparation and performance critically and/or positively for the purpose of refining your own creative process.

Theatre Arts Major (BFA): Design and Technology Option

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Theatre in the School of Performing Arts.

Choose this option if you wish to pursue intensive training in design/technology in order to become a theatre professional.

Consists of 78 credits.

Program Requirements
Type
Completion Requirement

General Courses, 21 credits

Complete ALL of the following Courses:

- THEA 146 - Stagecraft - 3 Credits
- THEA 160 - Introduction to Acting - 3 Credits
  OR THEA 170 - Fundamentals of Acting I - 3 Credits
  OR THEA 375 - Directing I - 3 Credits
- THEA 162 - Script Analysis - 3 Credits
- THEA 248 - Costume Construction Techniques - 3 Credits
- THEA 351 - Theatre History: Beginnings to 1660 - 3 Credits
- THEA 352 - Theatre History from 1660 to 1915 - 3 Credits
- THEA 452 - Modern and Contemporary Theatre History from 1915 - 3 Credits

Design/Tech Required, 24 credits

Complete ALL of the following Courses:

- DSN 101 - Foundation Studio: Drawing and Visualization - 3 Credits
- DSN 104 - Foundation Studio: Color, Light, and Perception - 3 Credits
- THEA 241 - Scene Design I - 3 Credits
- THEA 242 - Lighting Design I - 3 Credits
- THEA 243 - Costume Design I - 3 Credits
- THEA 345 - Theatrical Rendering - 3 Credits
- THEA 347 - Computer-Aided Design for the Stage - 3 Credits
- THEA 445 - Scene Painting - 3 Credits

Design/Tech Structured Electives, 15 credits

Earn at least 15 credits from the following:

- THEA 244 - Makeup Design - 3 Credits
- THEA 245 - Properties Design - 3 Credits
- THEA 346 - Stage Management - 3 Credits
- THEA 349 - Theatrical Sound Design - 3 Credits
- THEA 399 - Directed Study - 1-6 Credits

- THEA 446 - Technical Production - 3 Credits
- THEA 448 - Costume Crafts - 3 Credits
- THEA 449 - Seminar in Technical Theatre - 3 Credits
- THEA 492 - Theatre Internship - 1-6 Credits
- THEA 497 - Senior Project - 1-3 Credits

Electives, 12 credits

Complete Electives
Electives may be taken from any DNCE, THEA, or DSN course not taken above, or other courses approved by your adviser.

NOTE: THEA 105 may not count in the category.

Practicum, 6 credits

Complete Practicum

Required Theatre Practicum

For Theatre Majors: Register for a practicum **each of your first six semesters as a major**. Practicum areas are scene shop, costume shop, deck run crew, costume run crew, house/public relations, design, directing/choreography/management, and performance. You may repeat an area after you have completed 6 different activities.

For Majors and Minors:

1. Practicum areas are scene shop, costume shop, deck run crew, costume run crew, house/public relations, design, directing/choreography/ management, media marketing, and performance.
2. Students assigned to work in one of the technical shops must complete 40 hours of work.
3. All other assignments must attend/work all scheduled meetings, calls, rehearsals, and performances as appropriate.
4. Credit for practicum includes DNCE 426 or THEA 426 as appropriate.
5. Theatre and Dance majors and minors must explore different areas of Practicum each time they enroll.
6. If you do not register for a practicum or do not complete the activity satisfactorily, you are placed on department probation and must make up the missed work in the next semester. If you must make up missed work, you must also register for a practicum for the current semester. If the work is not made up, you will be dropped from the major or minor.
7. Normally a practicum may only count in the current semester. If a production occurs unusually late in a semester, the practicum for that production may count for the following semester.

Additional Comments:

No Requirement Level

Standards

Admission Standards
Admission to all Theatre and Dance programs is by audition/interview only.

Admission interview required: Admission to the design and technology program is by audition interview. Interviews are held in the spring for fall acceptance and we recommend that you be officially admitted to UW-Stevens Point before your assigned interview date. Apply early since the number of students accepted into the program is limited. If you are a transfer student and wish to enter the design/technology program, you should interview before transferring to UW-Stevens Point. Contact the Department of Theatre and Dance for more information.

Academic Standards
To be retained as a major or minor in any of the theatre arts options and to be approved for graduation, you must earn a minimum grade point average of 2.75 in all courses taken within the major or minor each semester, including transfer courses, regardless of any declaration of academic forgiveness. You may repeat a course in the major or minor if you follow the Repeating Courses policy.

Retention in the program: You will be formally reviewed each semester. If you do not demonstrate satisfactory progress or do not adhere to the retention standards established by the department, you may be placed on departmental probation or dropped from the major.

Learning Outcomes

Program Learning Outcomes (UWSP)
Upon completion of the BFA Theatre Design and Technology Program, you will be able to:

1. Demonstrate a significant knowledge of conventions, historical and contemporary perspectives, common vocabulary, and cultural practices in theatre and dance production.
2. Analyze plays (scripts/libretto/choreographer's statement/director's notes) perceptively and evaluate critically to inform creative work.
3. Communicate design ideas through 2-D drawing, drafting and rendering (including CAD), 3-D modeling/sampling and through verbal, aural, and written presentations.
4. Employ the Design Process and utilize elements and principles of design to achieve and communicate desired intentions.
5. Contribute to the creation of theatrical production by employing discipline-specific skills and technologies while cultivating a personal approach to artistry.

Theatre Arts Major (BFA): Musical Theatre Option

Requirements

Simple Requisites

Curriculum
This major is administered by the area of Theatre in the School of Performing Arts.

Choose this option if you are a multitalented performer and wish to pursue a professional career in musical theatre. The program requires study in three primary areas: acting, dance, and voice, as well as courses in music theory, piano, theatre, and musical theatre history.

Consists of 84 credits.

Program Requirements
Type
Completion Requirement

General Courses, 9 credits

Complete ALL of the following Courses:
- THEA 162 - Script Analysis - 3 Credits
- THEA 362 - Survey of Musical Theatre II - 3 Credits
- THEA 452 - Modern and Contemporary Theatre History from 1915 - 3 Credits

Acting, 21 credits

Complete ALL of the following Courses:
- THEA 170 - Fundamentals of Acting I - 3 Credits
- THEA 172 - Fundamentals of Acting II - 3 Credits
- THEA 282 - Scene Study I - 3 Credits
- THEA 384 - Scene Study II - 3 Credits
- THEA 429 - Drama Workshop - 1-6 Credits
- THEA 481 - Acting Shakespeare - 3 Credits
- THEA 484 - Musical Theatre Performance - 2 Credits
- THEA 497 - Senior Project - 1-3 Credits

THEA 429 should be taken for 1 credit
THEA 497 should be taken for 3 credits

Dance, 10 credits

Complete ALL of the following Courses:

- DNCE 103 - Modern IA - 2 Credits
- DNCE 105 - Ballet IA - 2 Credits
- DNCE 114 - Jazz I - 2 Credits
- DNCE 115 - Tap I - 2 Credits
- DNCE 212 - Theatre Dance - 2 Credits

Voice, 14 credits

THEA 131, THEA 231, THEA 331, and THEA 431 should all be taken twice

Complete ALL of the following Courses:

- THEA 131 - Vocal Training I - 1 Credits
- THEA 231 - Vocal Training II - 1 Credits
- THEA 232 - Voice and Articulation I - 3 Credits
- THEA 233 - Voice and Articulation II - 3 Credits
- THEA 331 - Vocal Training III - 1 Credits
- THEA 431 - Vocal Training IV - 1 Credits

Piano, 4 credits

Complete ALL of the following Courses:

- MUS 146 - Group Piano I - 2 Credits
- MUS 147 - Group Piano II - 2 Credits

Musical Theory, 6 credits

Complete ALL of the following Courses:

- MUS 108 - Fundamentals of Music Theory - 2 Credits
- MUS 110 - Musicianship I - 3 Credits
- MUS 112 - Aural Musicianship I - 1 Credits

Musical Theatre Performance Laboratory, 4 credits

Complete ALL of the following Courses:

- THEA 129 - Performance Laboratory - 1 Credits
- THEA 229 - Performance Laboratory - 1 Credits

Electives, 10 credits

Complete Electives
Electives may be taken from any DNCE or THEA course not taken above, or other courses approved by your adviser.

Practicum, 6 credits

Complete Practicum

Required Theatre Practicum

For Theatre Majors: Register for a practicum **each of your first six semesters as a major**. Timber Marking Certificate

Requirements

Simple Requisites

Curriculum
This certificate is administered by the Forestry Discipline.

The Timber Marking Certificate is intended to provide accelerated training for you to enter the workforce prepared to mark timber to reach a range of landowner goals. The main categories of training goals include: basic northern hardwood marking, marking for timber quality improvement, marking for wildlife habitat improvement, and marking for restoration of functions/processes.

Consists of a minimum of 30 credits.

Note: Depending on your math placement score, additional courses may be required. The following required courses below have Math prerequisites: FOR 322, FOR 321, MATH 255, MATH 109, MATH 111, and MATH 112.

Program Requirements
Type
Completion Requirement

Required, 24 credits

Complete ALL of the following Courses:

- BIOL 130 - Introduction to Plant Biology - 5 Credits
- FOR 232 - Dendrology and Silvics - 3 Credits
- FOR 322 - Forest Mensuration - 3 Credits
- FOR 332 - Forest Ecosystem Ecology - 3 Credits
- FOR 370 - Forest Products I: Fundamentals of Wood Utilization - 2 Credits
  OR NRES 457 - Ecological Restoration Monitoring - 3 Credits
- FOR 432 - Silviculture - 3 Credits
- FOR 434 - Field Practices in Silviculture - 1-3 Credits
- FOR 436 - Managing Non-Industrial Private Forests - 2 Credits

Required, 4 credits

Complete ANY of the following Courses:

- FOR 321 - Natural Resources Data Analysis - 4 Credits
- MATH 255 - Elementary Statistical Methods - 4 Credits

Math, 2-4 credits

Complete ANY of the following Courses:

- MATH 109 - Mathematics for the Social and Management

Sciences - 4 Credits (Inactive)
- MATH 111 - Applied Calculus - 4 Credits (Inactive)
- MATH 112 - Basic Trigonometry and Applications - 2 Credits

About this Program
This graduate certificate prepares professionals to apply the principles of trauma and resilience in both their work and personal environments. Concepts of the neurobiology of trauma, facilitation of trauma sensitive, resilient, and restorative communities, and strategies for self-care are explored. This program includes core multidisciplinary courses and two additional courses in education or sociology. You will choose the discipline of the additional courses. You will have a culminating applied research project in a capstone course. All courses could apply towards a Master's in Education degree at UW-Stevens Point.
