### Lab Hours

**Fixed**
0

**Learning Outcome**
Students will demonstrate competent knowledge of the basic elements of anatomy.

**Learning Outcome**
Students will demonstrate competent knowledge of the anatomy and physiology of respiration.

**Learning Outcome**
Students will demonstrate competent knowledge of the anatomy and physiology of phonation.

**Learning Outcome**
Students will demonstrate competent knowledge of the anatomy of articulation and resonation.

**Learning Outcome**
Students will demonstrate competent knowledge of the neuroanatomical and neurophysiological correlates of speech.

## COMD 321 - Language Development

### Course Information

**Teaching Area (new)**
COMD
**Course Number**
321
**Teaching Area**
COMD
**Course Title**
Language Development
**Course Description**
Overview of how children acquire language, including its relationship to cognitive, neural, and social development; child language development from infancy through adolescence; bilingual language development.
**Department**
Communication Disorders
**When Taught**
Fall; Winter.

### Credit Hours

Prerequisites

**Complete ALL of the following Courses:**
- COMD 213 - Hearing Science and Acoustics

**Additional Comments:**

**Learning Outcome**
Become proficient in the administration of standard audiological testing in adults and older childrenas a foundation for clinical practice.

**Learning Outcome**

Learning Outcome
Define the major components of language (syntax, semantic, phonology, morphology, & pragmatics).

Learning Outcome
Demonstrate knowledge of how cultural factors influence first and second language development.

Learning Outcome
Demonstrate knowledge of the developmental sequence of pragmatic, semantic, syntactic, and morphologic language behaviors in production and comprehension modalities.

Learning Outcome
Demonstrate knowledge of the development of literacy.

Learning Outcome
Demonstrate a theoretical and practical knowledge of hearing tests and measurements in the field of communicative disordersas a foundation for clinical practice.

Learning Outcome
Demonstrate an understanding of the role of hearing and hearing disorders to the broader area of communication disordersas a foundation for clinical practice.

## COMD 325 - Clinical Phonetics

### Course Information

**Teaching Area (new)**
COMD
**Course Number**
325
**Teaching Area**
COMD
**Course Title**
Clinical Phonetics
**Course Description**
Transcription and analysis of normal and disordered sound production.
**Department**
Communication Disorders
**When Taught**
Fall; Winter.

### Credit Hours

**Min**
3
**Fixed**
3

### Lecture Hours

**Fixed**

Prerequisites

**Complete ALL of the following Courses:**
- COMD 325 - Clinical Phonetics

**Additional Comments:**

**Learning Outcome**
Demonstrate knowledge regarding the nature of speech sound disorders, including their etiologies, characteristics, anatomical/physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.

**Learning Outcome**
Demonstrate knowledge regarding the principles and methods of the assessment of speech sound disorders, using both formalized and non-formalized methods.

**Learning Outcome**
Demonstrate knowledge regarding the principles and methods of speech sound disorders intervention.

**Learning Outcome**
Students will apply the basic elements of phonetics.

## COMD 370 - Medical Speech Pathology

### Course Information

**Teaching Area (new)**
COMD
**Course Number**
370
**Teaching Area**
COMD
**Course Title**
Medical Speech Pathology
**Course Description**
Genetic, gestational, and neurogenic factors related to communication disorders in children and adults; role of the speech-language pathologist in medical teams.
**Department**
Communication Disorders
**When Taught**
Fall and Winter

### Credit Hours

**Min**
3
**Fixed**
3

### Lecture Hours

**Fixed**
3

### Lab Hours

**Fixed**
0

**Learning Outcome**
Demonstrate preparation for graduate coursework in organic and neurologic communication and swallowing disorders.

**Learning Outcome**
Describe the collaborative role of the SLP on professional teams in medical settings.

## COMD 420 - Neurofoundations of Language, Speech, and Hearing

### Course Information

**Teaching Area (new)**
COMD
**Course Number**
420
**Teaching Area**
COMD
**Course Title**
Neurofoundations of Language, Speech, and Hearing
**Course Description**
Neuroanatomy and neurophysiology underlying normal and impaired language, speech, and hearing processes.
**Department**
Communication Disorders
**When Taught**
Fall and Winter

### Credit Hours

**Min**
3
**Fixed**

**Complete ALL of the following Courses:**
- COMD 215 - Speech Anatomy & Physiology
  **AND** COMD 213 - Hearing Science and Acoustics

**Additional Comments:**

**Title** **Tags**
Building Blocks 173277-1

Learning Outcome
Describe the causes and characteristics of TBI, aphasia, voice disorders, motor speech disorders and swallowing disorders, and describe several treatment approaches used for those disorder areas by speech-language pathologists.

| Title | Tags |
| --- | --- |
| Building Blocks | 177277, 1 |

Learning Outcome
Demonstrate knowledge of the basic building blocks from cell to brain as those building blocks contribute to the areas of speech, language, and hearing.

| Title | Tags |
| --- | --- |
| Neural System Integration | 177278, 0, 2 |

Learning Outcome
Demonstrate the ability to integrate various neural systems and their interaction as the central nervous system formulates and modifies neural information in the processing of speech, language, and hearing as part of their clinical foundation.

| Title | Tags |
| --- | --- |
| Theoretical Model | 177279, 0, 3 |

Learning Outcome
Be able to construct a theoretical model of neurological involvement in peripheral and central disorders involving speech, language, and hearing function as part of their clinical foundation.

## COMD 431 - Developmental Language Disorders

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| COMD | 431 |

Teaching Area
COMD
Course Title
Developmental Language Disorders
Course Description
Causes and characteristics of language impairment; techniques for diagnosis, assessment, and treatment of language disorders.
Department
Communication Disorders
When Taught
Fall; Winter.

### Credit Hours

Prerequisite

Prerequisites

**Complete ALL of the following Courses:**

- COMD 321 - Language Development
  **AND** COMD 211 - Language Science

**Additional Comments:**

Learning Outcome
Demonstrate knowledge of the linguistic, academic, and social problems associated with developmental language disorder.

Learning Outcome
Describe general models of developmental language disorder.

Learning Outcome
Describe service delivery issues in the assessment of developmental language disorder.

Learning Outcome
Demonstrate knowledge of assessment procedures to perform the following tasks: screening, qualifying a child for intervention services, determining goals in intervention, predicting the need for future intervention, and measuring progress in intervention.

### Lecture Hours

Prerequisite

Prerequisites

**Complete ALL of the following Courses:**

- COMD 323 - Hearing Tests and Measures

**Additional Comments:**

Learning Outcome
Define aural rehabilitation and explain why the service is critical for those who have a hearing impairment.

Learning Outcome
Discuss the psychosocial aspects of hearing loss, including the impact on the individual and the family.

Learning Outcome
Describe the diagnostic procedures needed as part of a comprehensive AR program, including the diagnosis of hearing loss and rehabilitation by means of amplification, cochlear implants, and other assistive devices.

Learning Outcome
Describe several approaches to the treatment of developmental language disorder (e.g., focused stimulation).

**Additional Comments:**

**Title**
Demonstrating Knowledge of Contemporary Professional Issues with respect and civility

**Tags**
177370, 0, 1

speech production, including acoustic and physiological aspects and their measurement.

**Learning Outcome**
Explain principles and methods of quantifying a variety of speech disorders, based on a sound grasp of the physiologic basis of normal function, with a goal of documenting treatment outcomes.

**Learning Outcome**
Show understanding of the application of principles from the current research literature in measuring speech performance in preparation for participating in evidence-based practice.

**Learning Outcome**
Students will demonstrate knowledge of current professional issues: including critical thinking, professional communication, ethics, multiculturalism, diversity, service delivery areas, scope of practice, advocacy, legal rights, and current certification standards through class discussion, presentations, class writings, other application activities, while engaging in respectful and civil dialogue and professional behavior in the course learning community.

**Title**
Applying the BYU aims to professional practices

**Tags**
177367, 0, 2

**Learning Outcome**
Students will understand, apply and interleave the BYU aims to contemporary professional practice issues and recognize the synergy of individual behaviors that are spiritually strengthening, intellectually enlarging, character building leading to lifelong learning and service in their personal and professional lives.

**Title**
Integrating Personal Leadership skills and decision making for future career

**Tags**
177368, 0, 3

**Learning Outcome**
Students will demonstrate personal leadership skills for career decision making and understand professional resources available to them including required certification standards and processes for a career in Speech Language Pathology and or Audiology. Students will also demonstrate understanding of the benefits of their undergraduate education that extend beyond the fields of Speech-Language Pathology and Audiology.

## COMD 460 - Capstone Clinical Methods and Observation

## COMD 493R - Readings

## Observation

### Course Information

**Course Number**
460
**Teaching Area**
COMD
**Course Title**
Capstone Clinical Methods and Observation
**Course Description**
Students will engage in guided clinical observations to learn practical clinical methods in the field of audiology and speech language pathology. Students will also become proficient in understanding and applying the ASHA Code of Ethics, and will learn basic professional writing skills.
**Department**
Communication Disorders
**When Taught**
Fall and Winter

**Note**
For Comms pre-majors and minors. If you are neither and would like to take the course, please email debby_jackson@byu.edu. Students are expected to attend the first day of class. Failure to do so may adversely affect grades. NOTE: Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

**Title**
Strategy

**Tags**
186085, 1

**Learning Outcome**
Students will learn to communicate effectively with their audiences through the understanding and application of advertising strategy.

**Title**
Team Work

**Tags**
186086, 2

**Learning Outcome**
Students will learn to act professionally by working in advertising agency teams, presenting their campaigns, and interacting with client representatives.

Students should become proficient communicators by writing in clear, accurate, fair, compelling and--where appropriate--persuasvie ways and by making smooth and compelling verbal presentaitons.

| Title | Tags |
| --- | --- |
| Cultural Dimensions | 186082, 7 |

**Learning Outcome**
Students should be able to critique the organizational, economic and social constraints on media.

| Title | Tags |
| --- | --- |
| Media in Society | 186083, 3 |

**Learning Outcome**
Students should understand the history and role of professionals and institutions, whose media messages impact society.

| Title | Tags |
| --- | --- |
| Become Professional Media Thinkers | 186084, 1 |

**Learning Outcome**
Students should be able to articulate the roles of communicators in their various professions.

| Title | Tags |
| --- | --- |
| Diversity | 186425, 5 |

**Learning Outcome**
Students should understand media coverage of multicultural and international peoples. Issues include fairness, accuracy and sensitivity to groups, as well as how media coverage promotes or distorts understanding between different groups and cultures.

| Title | Tags |
| --- | --- |
| Principles of Advertising | 186087, 3 |

**Learning Outcome**
Students will be scholars of the mass communication process by understanding the history of advertising, the concepts of advertising theory, and the creation and implementation of advertising strategy.

| Title | Tags |
| --- | --- |
| Ethics | 186088, 4 |

**Learning Outcome**
Students will apply Gospel-centered values as they learn to create and develop advertising strategy that is ethical and reflects a sensitivity of diversity.

Pre-communications status
Note
Students are expected to attend the first day of class. Failure to do so will adversely affect your grade. Note: COMMS 238 is for Comms Pre-Majors and Minors. If you are not either of these and would like to add this course, please contact our advisement center at (801) 422-3777 and have Pre-Comms or the Comms minor added to your major. You will then be able to add the class. Note: You must be a Pre-Comms major and complete Comms 238 with a "B" grade or better if you wish to apply to the Communications Studies sequence in the School of Communications.

| Title | Tags |
|---|---|
| Critical Thinking | 186416, 1 |

Learning Outcome
Students will demonstrate critical and independent thinking related to the role of communication and society.

| Title | Tags |
|---|---|
| Communications Theory and Application | 186428, 1 |

Learning Outcome
Students will have a deeper understanding of theories and know how to apply them in practical situations.

Students will learn appropriate legal and ethical behavior in the field of public relations.

| Title | Tags |
| --- | --- |
| Diversity in Public Relations | 186275, 4 |

**Learning Outcome**

Students will be exposed to issues of diversity in the public relations professio

| Title | Tags |
| --- | --- |
| History of Public Relations | 186276, 5 |

**Learning Outcome**

Students will recognize the historical development of public relations.

| Title | Tags |
| --- | --- |
| Public Relations in Business and Society | 186277, 6 |

**Learning Outcome**

Students will recognize the role of public relations in business and society.

| Title | Tags |
| --- | --- |
| Public Relations Practice and Theory | 186278, 7 |

**Learning Outcome**

Students will establish a theoretical foundation for various practices of public relations and decision making.

| Title | Tags |
| --- | --- |
| Public Relations Process | 186279, 8 |

**Learning Outcome**

Students will be able to explain the four-step public relations process of research, planning, communication and evaluation and apply the process to a public relation case.

| Title | Tags |
| --- | --- |
| Identifying and Addressing Key Public | 186280, 9 |

| Title | Tags |
| --- | --- |
| Inquiry Methods | 186455, 2 |

**Learning Outcome**

Students will be able to discuss methods for communications inquiry.

| Title | Tags |
| --- | --- |
| Niche Building | 186461, 3 |

**Learning Outcome**

Students will continue to build their own niche within the field and recognize the value of other approaches.

Learning Outcome

Students will define key publics and explain how to identify and address them.

| Title | Tags |
| --- | --- |
| Effective Public Relations Practice | 186281, 10 |

Learning Outcome

Students will understand the skills necessary for the effective practice of public relations, including professional writing skills, strategic thinking, planning, organization and crisis management.

| Title | Tags |
| --- | --- |
| Public Opinion and the Media | 186282, 11 |

Learning Outcome

Students will understand how organizations work with the media and the crucial role of media in forming public opinion.

Note
This class is for Comms majors, minors and for Pre-Comms students who wish to take it during the semester in which they apply to the program. If you are a Pre-Comms student, please see https://comms.byu.edu/after-application/ for information on how to add the class.

| Title | Tags |
| --- | --- |
| Legal Boundaries of Appropriate Use | 186098, 1 |

Learning Outcome
Students will be able to practice communication within legal boundaries by employing appropriate use of others' work (in attribution, copyright, trademarks, etc.).

| Title | Tags |
| --- | --- |
| Legal Constraints and Defenses | 186099, 2 |

Learning Outcome
Students will be able to practice communication within legal boundaries by demonstrating an ability to identify legal constraints and defenses that shape mass media messages.

| Title | Tags |
| --- | --- |
| Free Speech Laws and Statutes | 186100, 3 |

Learning Outcome
Students will be able to practice communication within legal boundaries by writing and constructing messages that meet the laws and statutes applied to free speech.

| Title | Tags |
| --- | --- |
| First Amendment: Press and Speech | 186101, 4 |

Learning Outcome
Students will demonstrate they value freedom of speech in the marketplace of ideas by knowing

or culture-contributes to more complete and accurate reportage.

how First Amendment rights extend to press and speech.

| Title | Tags |
| --- | --- |
| Historical Development of Free Speech | 186102, 5 |

**Learning Outcome**
Students will demonstrate they value freedom of speech in the marketplace of ideas by understanding the historical development of free speech.

| Title | Tags |
| --- | --- |
| Legal and Moral Limits of Free Speech | 186103, 6 |

**Learning Outcome**
Students will demonstrate they value freedom of speech in the marketplace of ideas by recognizing the legal and moral limits of free speech.

| Title | Tags |
| --- | --- |
| Current Issues in Free Speech | 186104, 7 |

**Learning Outcome**
Students will demonstrate they value freedom of speech in the marketplace of ideas by applying the concepts underlying this principle to current issues.

| Title | Tags |
| --- | --- |
| Preserving Freedom of Speech | 186105, 8 |

**Learning Outcome**
Students will demonstrate they value freedom of speech in the marketplace of ideas by by showing a commitment to preserving freedom of speech, even when it may be contrary to majority views, opinions, or values.

| Title | Tags |
| --- | --- |
| Ethical Issues | 186106, 9 |

**Learning Outcome**
Students will be able to demonstrate sensitivity to the ethical issues of their practice by becoming familiar with prominent cases that demonstrate ethical issues in the communication industries

communication industries.

| Title | Tags |
| --- | --- |
| Professional Values and Ethical Behavior | 186107, 10 |

**Learning Outcome**
Students will be able to demonstrate sensitivity to the ethical issues of their practice by identifying professional values that contribute to ethical behavior.

| Title | Tags |
| --- | --- |
| Ethical Complications in Professional Practice | 186108, 11 |

**Learning Outcome**
Students will be able to demonstrate sensitivity to the ethical issues of their practice by discerning possible ethical complications in professional practice.

| Title | Tags |
| --- | --- |
| Addressing Ethical Concerns in Practice | 186109, 12 |

**Learning Outcome**
Students will be able to demonstrate sensitivity to the ethical issues of their practice by defining a communications situation that addresses the ethical concerns of alternative actions or decisions.

| Title | Tags |
| --- | --- |
| Moral Reasoning and Ethics | 186110, 14 |

**Learning Outcome**
Students will be able to exercise moral reasoning when faced with ethical dilemmas by articulating the values that underline their ethical framework.

| Title | Tags |
| --- | --- |
| Ethics Theory and Application | 186111, 13 |

**Learning Outcome**
Students will be able to exercise moral reasoning when faced with ethical dilemmas by applying principles and theories of ethics to current issues.

| Title | Tags |
| --- | --- |
| Ethics and Gospel-Centered Values | 186112, 15 |

**Learning Outcome**
Students will be able to exercise moral reasoning when faced with ethical dilemmas by resolving ethical dilemmas using moral reasoning based on Gospel-centered values.

| Title | Tags |
| --- | --- |
| Global Mass Communications | 186169, 1 |

**Learning Outcome**
Students will explore the phenomena of global mass communications, focussing on the role of international communications in the modern world.

| Title | Tags |
| --- | --- |
| 21st Century Changes in Global Communication | 186170, 5 |

**Learning Outcome**
Students will analyze global change in the Twenty-first Century, including the various instruments for international communication.

| Title | Tags |
| --- | --- |
| Ethics and Diversity in International Communication | 186171, 7 |

**Learning Outcome**
Students will discuss ethics in international communication, including the problems of cultural communication between ethnic groups and diverse nationalities.

countries or regions.

| Title | Tags |
| --- | --- |
| Conflict and Oppression of Communication | 186165, 5 |

**Learning Outcome**
Students will learn about the conflict and oppression of freedom of communications.

| Title | Tags |
| --- | --- |
| Communication Challenges | 186166, 6 |

**Learning Outcome**
Students will appreciate the communication challenges facing different peoples.

| Title | Tags |
| --- | --- |
| Diversity and Communication | 186167, 7 |

**Learning Outcome**
Students will experience increased respect for diversity of cultures and of the forms of communication.

| Title | Tags |
| --- | --- |
| Freedom of Expression | 186168, 10 |

**Learning Outcome**
Students will recognize freedom of expression as a basic (yet relatively rare) human right.

| Title | Tags |
| --- | --- |
| Socio-Political Challenges and International Communications | 186172, 9 |

**Learning Outcome**
Students will examine some of the major political and humanitarian challenges of our times and the impact of international communications upon them.

| Title | Tags |
| --- | --- |
| Technology Development and International Communication | 186173, 11 |

**Learning Outcome**
Students will study the technological developments that are making the flow of international information faster and more open, as well as the impediments and obstructions with which some governments and individuals attempt to impede that flow.

| Title | Tags |
| --- | --- |
| Vehicles, Sources, and Audiences of International Communication | 186174, 2 |

**Learning Outcome**
Students will examine the diversity of vehicles, sources, and audiences of global communication, as well as the motivations of individuals, governments, and groups involved in the dissemination of information internationally.

|---|---|
| Collaboration | 213536, 0, 1, 2023-08-29 08:19:29 |

**Learning Outcome**
Students will also be able to collaborate with a diverse team and work through the unexpected challenges that come with working on a team.

| Title | Tags |
|---|---|
| Collaboration, Synergy, and Compromise | 213537, 0, 2, 2023-08-29 08:19:30 |

**Learning Outcome**
Students will be able to align their efforts to the art direction, gameplay experience, audio, and production constraints of a video game project

| Title | Tags |
|---|---|
| Dynamic Roles in Production | 213538, 0, 3, 2023-08-29 08:19:32 |

**Learning Outcome**
Students will contribute to the production of an interactive video game by specializing in real-time visual effects,

effects to create effects within a 3D environmental context and merge characters into their story and environment.

animation, shaders/surfacing, lighting, gameplay prototyping, pipeline development, user interfaces, feedback signaling, or a combination of these.

## CSANM 460 - Video Game Production 2

### Course Information

**Teaching Area (new)**
CSANM

**Course Number**
460

**Teaching Area**
CSANM

**Course Title**
Video Game Production 2

**Course Description**
Polishing a video game for production as a team, including texturing, animation, FX, lighting, tool applications, AI, UI, and gameplay mechanics.

**Department**
Computer Science

**When Taught**
Winter

#### Credit Hours

**Fixed**
3

#### Lecture Hours

**Fixed**

| Title | Tags |
|---|---|
| Artistic Expression | 186766, 0, 2 |

**Learning Outcome**
Students will explore personal expression through movement improvisation, rhythmic connection and musicality.

| Title | Tags |
|---|---|
| Appreciation of Dance | 186898, 0, 6 |

**Learning Outcome**
Students will articulate an appreciation of dance as an art form and a basic familiarity with accurate Jazz Dance History.

| Title | Tags |
|---|---|
| Technical Ability | 186891, 0, 0 |

| Title | Tags |
| --- | --- |
| Knowledge | 196889, 2 |

**Learning Outcome**
Carry out research to identify, understand, and discuss standards, processes, people and cultural norms associated with the target career.

| Title | Tags |
| --- | --- |
| Interpretive Competence | 196891, 3 |

**Learning Outcome**
Understand, interpret and analyze advanced-level written and oral texts on topics related to the target career.

| Title | Tags |
| --- | --- |
| Communicative Competence | 196894, 4 |

**Learning Outcome**
Communicate effectively at the advanced-level in order to function in a variety of situations likely to be encountered when dealing with native speakers who are associated with the target career. This will include interpersonal communication and both written and oral presentational communication.

| Title | Tags |
| --- | --- |
| Cultural Competence | 196895, 5 |

**Learning Outcome**
Interact with cultural competence and understanding when dealing with native speakers who are associated with the target career.

**Learning Outcome**
Students will demonstrate improved beginning level jazz dance skills including:

alignment
strength
flexibility
endurance
balance
coordination
body shaping

## DANCE 135 - Tap Dance, Beginning

flexibility
endurance
balance
coordination
body shaping
body connectivity
phrasing
performance skills
seqence rentention

## DANCE 233 - Aerial Dance Technique

### Course Information

**Course Number**
233
**Teaching Area**
DANCE
**Course Title**
Aerial Dance Technique
**Course Description**
A hybrid dance form, where movement training, strength, and athletic awareness come together to allow students to create their own Aerial Dance Act.
Apparatuses available to explore include Hoop (Lyra), Corde Lisse (Rope), Straps, and
Silks. Time and focus of class is divided evenly between composition, conditioning and
new skill development, students are encouraged to transfer a broad range of previous
movement knowledge to this vertical art form. The course culminates in an informal
showing to a campus wide audience.

Learning Outcome

Identify the audience and articulate the purpose for a given writing assignment.

Develop an individual and accessible voice appropriate for multiple audiences.

Recognize that everything's an argument and so also persuasive, but arguments are presented differently depending on the purpose and audience. EX: Creative writing uses a more subtle and art-centered form of persuasion while analytical and research writing use more direct persuasive techniques.

Apply advanced rhetorical (argument presentation) strategies in written and oral texts to inform, persuade, or otherwise engage diverse audiences.

**Title**
Advanced library research techniques

**Tags**
214714, 0, 2

**Learning Outcome**

The literature review is specifically concerned with research that solves a problem and requires analysis and synthesis of other's ideas rather than just informing the reader on a topic.

Summarize facts, data and information from sources in a clear, coherent manner, especially for the lit review and grant proposal but also for the formal presentation.

Demonstrate a nuanced, in-depth understanding of the ethical treatment of information.

Apply advanced research methods and techniques, including the evaluation of secondary source material, towards the composition of both a thesis-driven, source-based essay and an oral presentation.

**Title**
Elegant written and visual presentation of information

**Tags**
214715, 0, 3

**Learning Outcome**

In all the forms, use rich, evocative language-compressed, concrete, and even musical language (where appropriate) that evokes understanding but also emotion in the reader. The prose should employ sensory words and phrases.

Apply and adopt audience-appropriate sentence and paragraph-level conventions, such as grammar, mechanics, and structure, while developing more advanced considerations of style and tone.

Develop advanced composition processes (generating ideas, drafting, revising, and editing) to improve sophisticated written texts and oral communication recursively.

**Title**
Critical and analytical thinking on an accelerated level

**Tags**
214716, 0, 4

**Learning Outcome**

Employ sophisticated choreographic analysis using elements of dance, choreographic structures and meaning making. (Concert critique)

Develop advanced critical reading strategies to analyze the context, rhetorical techniques, substance, potential bias, and intended effects of information and ideas.

Develop valid arguments and think beyond superficial topics of discussion, i.e., less obvious and non-saturated areas of dance research for the literature review, grant application, and dance performance critique.

Advanced oral communication.

Practice presentation techniques whose goal is to engage, inspire, educate, inform, and challenge the audience (see assessment sheet for formal presentations).

Professional use of mechanics and documentation format. Papers are free from surface and grammar errors. The layout, design, and documentation style are appropriate for the form (research, critical, and creative writing).

## DANCE 320R - Young Ambassadors

### Course Information

**Teaching Area (new)**
DANCE

**Course Number**
320R

Prerequisites

**Complete ALL of the following Courses:**
- DANCE 244R - Beginning Creative Processes

**Additional Comments:**

**Title**
Dance Composition Fundamentals
**Tags**
187076, 1

**Learning Outcome**
1. Students will learn technical elements, process and crafting principles of composition, such as: transitions, traditional formations, dynamic structure, stylistic coherence, form, musical dynamics and phrasing.

**Title**
Aesthetic Criteria and Analysis
**Tags**
187077, 2

**Learning Outcome**
2. Students will develop a critical eye in analyzing and forming own aesthetic criteria.

**Title**
Ethno-Choreographic Elements
**Tags**
187078, 3

**Learning Outcome**
3. Students will discover ethno-choreographic elements of a particular style or cultural group.

**Title**
Issues in Dance Composition
**Tags**
187079, 4

**Learning Outcome**
4. Students will address issues of authenticity versus creativity, traditional versus contemporary.

Discovery of important aesthetic and ethical issues with clear analytical critical thinking. Risk-taking, connecting, and synthesizing personal meaning from complex ambiguities. Develop an aesthetic philosophy, and ability to advocate and defend it.

| Title | Tags |
| --- | --- |
| Cultivating Respect and Courtesy for Different Viewpoints | 186684, 3 |

**Learning Outcome**
Students will build character by cultivating a respect for differing points of view, and applying courtesy during the individual expression sessions. The course content will encourage independent thinking and individual responsibility.

| Title | Tags |
| --- | --- |
| Engage in Discussion and Writing about Dance | 186685, 4 |

**Learning Outcome**
Students will voice value for Lifelong Learning as they articulate a love for and engage in discussion and writing about dance. Students will be encouraged to share their passion for dance in a way that is lucid, succinct, and compelling.

| Title | Tags |
| --- | --- |
| Articulate Value of Dance | 186686, 5 |

**Learning Outcome**
Students will be challenged to articulate the value of dance in a manner that is founded on gospel principles and moral ideals, rather than on mere emotional declarations.

| Title | Tags |
| --- | --- |
| Knowledge | 187099, 1 |

**Learning Outcome**
Students will deepen their understanding of how dance and health issues are related.

| Title | Tags |
| --- | --- |

| Title | Tags |
| --- | --- |
| Choreography Documentation | 187080, 5 |

**Learning Outcome**
5. Students will learn to document choreography.

| Knowledge | 187100, 1 |
|---|---|

**Learning Outcome**
Students will deepen their understanding of how dance and identity are related.

## DANCE 363R - Dance Improvisation, Intermediate

### Course Information

  **AND** DANCE 244R - Beginning Creative Processes

**Additional Comments:**

**Recommended**
Dance 362 and Dance 363

Learning Outcome
Students will learn to evolve movement over an extended period of time without losing spontaneity.

| Title | Tags |
| --- | --- |
| Movement and Exploration | 186764, 1 |

Learning Outcome
Students will learn to Move! To Explore!

| Title | Tags |
| --- | --- |
| Suspending Judgement | 186812, 4 |

Learning Outcome
Students will learn to learn how to suspend judgment.

| Title | Tags |
| --- | --- |
| Breaking Comfortable or Limiting Movement Patterns | 186821, 1 |

Learning Outcome
Students will learn to break comfortable and limiting movement patterns, dancing in ways that you have not moved before.

| Title | Tags |
| --- | --- |
| Form and Definition in Movement | 186825, 8 |

Learning Outcome
Students will learn to evolve movement "in the moment" with a sense of form and definition (beginning, middle, end) thus "finding the dance" in the instant of exploration and improvisation.

| Title | Tags |
| --- | --- |
| Improvisation and Muscle Readiness | 186868, 3 |

Learning Outcome
Students will learn to develop improvisational skills of "muscle readiness".

| Title | Tags |
| --- | --- |
| Recalling Movement | 186884, 6 |

Learning Outcome
Students will learn to practice

recalling movement.

| Title | Tags |
| --- | --- |
| Spontaneity | 186889, 2 |

**Learning Outcome**
Students will learn to "call up spontaneity at will".

| Title | Tags |
| --- | --- |
| Improvisational Structures | 186972, 7 |

**Learning Outcome**
Students will learn to practice relating to other dancers in various improvisational structures.

| Advanced Degree Opportunities | 186809, 1 |

Learning Outcome
1. Student will articulate an understanding of advanced degree opportunities

| Title | Tags |
| --- | --- |
| Professional Document Preparation | 186842, 3 |

Learning Outcome
4. Student will generate professional documents relevant to their future in the dance field

nature of the human body as it relates to gospel principles as well as the relationship between mind/body/spirit.

| Title | Tags |
| --- | --- |
| Dance Appreciation | 187130, 5 |

**Learning Outcome**
5. Students will articulate appreciation for dance as an art form

| Title | Tags |
| --- | --- |
| Advanced Technique | 186695, 1 |

**Learning Outcome**
Students will demonstrate advanced technique proficiency in

strength
flexibility
connectivity
complex sequence mastery
movement problems

| Title | Tags |
| --- | --- |
| Performance Awareness and Control | 186696, 2 |

**Learning Outcome**
Students will demonstrate performance awareness and control over movement in

nuance
dynamic
musicality
freedom from tension
shaping
initiation
breath quality
phrasing and composition

| Title | Tags |
| --- | --- |
| Gospel Principles and the Human Body | 186828, 3 |

**Learning Outcome**
4. Students will articulate appreciation for the divine nature of the human body as it relates to gospel principles as well as the relationship between mind/body/spirit.

| Title | Tags |
| --- | --- |
| Professional Preparation | 186948, 2 |

**Learning Outcome**
3. Student will demonstrate an understanding of appropriate professional skills needed for entry into the dance field

| Title | Tags |
| --- | --- |
| Career Opportunities | 186950, 1 |

**Learning Outcome**
2. Student will identify a variety of career opportunities in the field of dance

| Title | Tags |
| --- | --- |
| Skill and Performance Assessment and Writing | 186832, 2 |

**Learning Outcome**
3. Students will describe, assess and write about achievement of technical skills and performing skills

| Title | Tags |
| --- | --- |
| Dance Appreciation | 187001, 4 |

**Learning Outcome**
5. Students will articulate appreciation for dance as an art form

## DANCE 460 - Dance History and Theory

### Course Information

**Teaching Area (new)**
DANCE

**Course Number**
460

**Teaching Area**
DANCE

**Course Title**
Dance History and Theory

**Course Description**
Survey of dance history with a focus on critical and conceptual engagement with the cyclical trends of dance throughout history.

**Department**
Dance

**When Taught**
Fall and Winter

### Credit Hours

**Min**
3

**Fixed**
3

### Lecture Hours

**Fixed**
2.5

### Lab Hours

**Fixed**
0

**Simple Requisites**

**Prerequisites**
**Type**
Prerequisite

Prerequisites

**Complete ALL of the following Courses:**
- DANCE 261 - Freshman Seminar in Dance
  **AND** DANCE 317 - Advanced Writing for Dance

**Additional Comments:**

## DANCE 461 - Dance History 2

### Course Information

**Teaching Area (new)**
DANCE

**Course Number**
461

**Teaching Area**
DANCE

**Course Title**
Dance History 2

**Course Description**
Survey of the development of dance in recent history, including significant social, political, economic, and aesthetic trends influencing dance-making.

**Department**
Dance

**When Taught**
Winter

### Credit Hours

**Min**
2

**Fixed**

Prerequisite

Prerequisites

**Complete ALL of the following Courses:**
- DANCE 244R - Beginning Creative Processes
  **AND** DANCE 261 - Freshman Seminar in Dance

**Additional Comments:**

**Other Prerequisites**
300 Level advanced writing course, Dance 317 highly recommended

**Recommended**
It is recommended that Dance 460 be taken prior to Dance 461

## DANCE 462R - Dance Choreography, Advanced.

### Course Information

## DANCE 465 - K-12 Dance Curriculum Design

### Course Information

**Teaching Area (new)**
DANCE

**Course Number**
462R

**Teaching Area**
DANCE

**Course Title**
Dance Choreography, Advanced.

**Course Description**
Advanced choreographic studies in dance.

**Department**
Dance

**When Taught**
Fall and Winter

### Credit Hours

**Fixed**
2

### Lecture Hours

**Fixed**
0

### Lab Hours

**Fixed**
3

**Simple Requisites**

**Prerequisites**
**Type**
Prerequisite

**Additional Comments:**

**Learning Outcome**
Students will build upon technical elements, process, and crafting principles of composition learnined in 300 level choreography courses. Focus will be given on deepening investigation of movement invention, group forms and spatial relationships, the development of movement content in relation to structure, context, and meaning.

**Tags**
213570, 0, 1, 2023-08-29 08:35:02

**Learning Outcome**
Students will formulate personal aesthetic criteria through the process of observing and offering feedback on peers' works, in addition to viewing professional dance concerts and writing concise and thoughtful critiques.

Prerequisites

**Complete ALL of the following Courses:**
- DARI 201 - Second-Year Language Study: Dari

**Additional Comments:**

**Note**
Teacher may waive prerequisite based on prior experience.

| Title | Tags |
|---|---|
| Elaboration | 197344, 1 |

**Learning Outcome**
Create structurally-accurate, elaborated utterances and begin to group utterances into paragraphs and narratives. Do this in present, past and future time.

| Title | Tags |
|---|---|
| Vocabulary | 197346, 2 |

**Learning Outcome**
Broaden vocabulary for both reception (listening and reading comprehension) and production (speaking and writing).

| Title | Tags |
|---|---|
| Grammar | 197348, 3 |

**Learning Outcome**
Review and increase understanding of basic language structures.

| Title | Tags |
|---|---|
| Culture | 197351, 4 |

**Learning Outcome**
Discuss in the target language common products and practices related to every-day life in the target culture.

- DARI 201 - Second-Year Language Study: Dari

**Additional Comments:**

**Note**
Teacher may waive prerequisite based on prior experience.
Culminating course for GE Languages of Learning requirement. Not an entry course for returned missionaries.

| Title | Tags |
|---|---|
| Communication Skills | 197355, 1 |

**Learning Outcome**
In both written and spoken target language, communicate with reasonable accuracy about real-world activities with well-educated members of the target-culture accustomed to dealing with non-native speakers.

| Title | Tags |
|---|---|
| Comprehension | 197358, 2 |

**Learning Outcome**
Understand every-day written and verbal instructions. Comprehend concrete details and global meaning of intermediate-level written and spoken passages related to familiar topics that native speakers encounter routinely in their daily life.

| Title | Tags |
|---|---|
| Cultural Knowledge | 197360, 3 |

**Learning Outcome**
Discuss in the target language cultural practices related to every-day life in the target culture. Acquire basic background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.).

| Title | Tags |
|---|---|
| General Education Requirements | 197377, 4 |

**Learning Outcome**
Complete Languages of Learning and Global & Cultural Awareness for General Education.

# DARI 305 - Language Skills Development: Dari

examination. May fulfill the GE Languages of Learning requirement.

| Title | Tags |
|---|---|
| Communication Skills | 197406, 1 |

**Learning Outcome**
In both written and spoken target language, communicate accurately with well-educated members of the target-culture about real-world activities.

| Title | Tags |
|---|---|
| Comprehension | 197410, 2 |

**Learning Outcome**
Understand detailed written and verbal instructions. Comprehend historical passages, newspaper and magazine articles, and broadcast news reports well educated native speakers encounter routinely in their daily life.

| Title | Tags |
|---|---|
| Cultural Knowledge | 197412, 3 |

**Learning Outcome**
Acquire background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.). Discuss in the target language cultural practices related to major life events in the target culture (birth, marriage, death, etc.).

| Title | Tags |
|---|---|
| General Education Requirements | 197417, 4 |

**Learning Outcome**
Complete Languages of Learning and Global & Cultural Awareness for General Education.

**Complete ALL of the following Courses:**

- DARI 330 - Advanced Language Proficiency Through Cultural Studies: Dari

**Additional Comments:**

**Note**
Teacher may waive prerequisite based on prior experience.

| Title | Tags |
|---|---|
| Recognize and Analyze | 197422, 1 |

**Learning Outcome**
Recognize and analyze the most important genres in target-language literature.

| Title | Tags |
|---|---|
| Key Characteristics | 197426, 2 |

**Learning Outcome**
Identify and discuss key characteristics of the most important literary movements in the target culture.

| Title | Tags |
|---|---|
| Context | 197427, 3 |

**Learning Outcome**
Place literature in a meaningful cultural and historical context.

| Title | Tags |
|---|---|
| Language Skills | 197429, 4 |

**Learning Outcome**
Improve target-language reading, writing, and speaking skills.

| Title | Tags |
|---|---|
| Design Practice | 208771, 0, 1 |

**Learning Outcome**
Students will be able to identify and understand the diverse modes of professional practice in various disciplines of contemporary visual communications, including graphic design, photography, illustration, and interaction design, through guest lectures and research.

| Title | Tags |
|---|---|
| Design Theory and Criticism | 208772, 0, 2 |

**Learning Outcome**
Students will be able to analyze and identify critical theories of design, art, aesthetics, image systems, pictorial semiotics and visual perception through selected readings and writing assignments.

| Title | Tags |
|---|---|
| Design Thinking | 208773, 0, 3 |

| Title | Tags |
| --- | --- |
| Interpretive Competence | 197436, 3 |

**Learning Outcome**
Understand, interpret and analyze advanced-level written and oral texts on topics related to the target career.

| Title | Tags |
| --- | --- |
| Communicative Competence | 197438, 4 |

**Learning Outcome**
Communicate effectively at the advanced-level in order to function in a variety of situations likely to be encountered when dealing with native speakers who are associated with the target career. This will include interpersonal communication and both written and oral presentational communication.

| Title | Tags |
| --- | --- |
| Cultural Competence | 197440, 5 |

**Learning Outcome**
Interact with cultural competence and understanding when dealing with native speakers who are associated with the target career.

**Learning Outcome**
Students will be able to apply sound thinking, creative inquiry, and diverse modes of reasoning, including visual, perceptual, conceptual, inductive, deductive, analytical, logical, critical, organizational and creative.

| Title | Tags |
| --- | --- |
| Creative Discovery | 208774, 0, 4 |

**Learning Outcome**
Students will be able to identify and apply methodologies to foster creativity, solve visual problems, and address social concerns with innovative approaches to design practice.

| Title | Tags |
| --- | --- |
| Communication, Beliefs, and Ethics | 208775, 0, 5 |

**Learning Outcome**
Students will be able to discuss the central role of beliefs and ethics in visual communication through art and design. Students will have the ability to examine how the values of societies are expressed in their visual cultures and recognize the role of the individual designers in delivering meaning through image systems.

| Title | Tags |
| --- | --- |
| Design Practice | 187264, 1 |

**Other Prerequisites**
Department of Design BFA and BA majors only.

| Title | Tags | Learning Outcome |
|---|---|---|
| Story and Mood | 213576, 0, 1, 2023-08-29 08:36:18 | Students will be able to create a story and mood with movement and animation using editing to control the story. |
| Designing with Time, Space, and Sound | 213577, 0, 2, 2023-08-29 08:36:19 | Students will create projects that demonstrate understanding of time, 2D and 3D space, and sound. |
| Motion Graphics Projects | 213578, 0, 3, 2023-08-29 08:36:21 | |

Learning Outcome
Students will be able to demonstrate sound thinking, creative inquiry, and diverse modes of reasoning-visual, perceptual, conceptual, inductive, deductive, analytical, logical, critical, organizational, and creative-through discussion and writing.

| Title | Tags |
| --- | --- |
| Creative Discovery | 187294, 4 |

Learning Outcome
Students will be able to solve problems and address social concerns with innovative approaches to design and exploratory methodologies.

| Title | Tags |
| --- | --- |
| Communication, Beliefs, and Ethics | 187295, 5 |

Learning Outcome
Students will be able to recognize the role of the individual designer in delivering meaning through design thinking and discuss the central role of beliefs and ethics in visual communication through art and design.

Learning Outcome
Students apply design principles and narrative techniques to animation and motion graphics projects using current professional standard tools.

| Title | Tags |
| --- | --- |
| Written and Oral Communication | 213579, 0, 4, 2023-08-29 08:36:22 |

Learning Outcome
Students will be able to effectively explain and defend their work using written and oral communication skills.

## DES 383 - Analog Motion

### Course Information

**Course Number**
383
**Teaching Area**
DES
**Course Title**
Analog Motion
**Course Description**
Interdisciplinary course with a focus on stop motion animation. Illustration, photography, graphic design, animation, and hybrid majors will apply their existing skills towards the creation of short-form works using a multi-plane setup. The course is a balanced mix of theory and practice, with detailed instruction on montage, efficient storytelling, animation techniques, and the complete production pipeline. Students will complete projects for both commercial and entertainment applications. A playful, experimental approach is encouraged as students learn the foundational principles of motion design. This course has no prerequisites.

| Title | Tags |
| --- | --- |
| Narrative Theory | 213584, 0, 1, 2023-08-29 08:36:30 |

Learning Outcome
Students will learn to apply foundational theories such as montage and semiotics to create cleverly executed visual narratives.

| Title | Tags |
| --- | --- |
| Designing with Time, Space, and Sound | 213585, 0, 2, 2023-08-29 08:36:32 |

Learning Outcome
Students will learn principles of effective film editing, gestural movement, scene composition, and sound design.

| Title | Tags |
| --- | --- |
| Interdisciplinary Skill-Building | 213586, 0, 3, 2023-08-29 08:36:34 |

Learning Outcome
Students will learn how to apply and expand their existing skill sets towards disciplines outside of their major. They will develop a greater ability to navigate the cross-disciplinary nature of the creative industry.

| Title | Tags |
| --- | --- |
| Interdisciplinary Collaboration | 213587, 0, 4, 2023-08-29 08:36:35 |

Learning Outcome
Students will work in interdisciplinary groups, building skills in collaboration

and producing complex stop-motion works with more efficiency and creativity than can be done in isolation.

| Title | Tags |
| --- | --- |
| Technical Expertise | 213588, 0, 5, 2023-08-29 08:36:36 |

**Learning Outcome**
Students will become more agile when working with a wide variety of physical and digital tools. Students will work with set equipment, cameras and lights, puppet construction, physical and digital image-making, film editing, sound capture, post-production effects, etc.

| Title | Tags |
| --- | --- |
| Presentation Skills | 213589, 0, 6, 2023-08-29 08:36:37 |

**Learning Outcome**
Students will learn to communicate their ideas to audiences at key stages in the production pipeline. Writing and speaking skills will develop as students learn to present to clients in a professional context.

| Design Techniques and Tools | 213590, 0, 1, 2023-08-29 08:36:41 |

**Learning Outcome**
Students will be able to create complex motion graphics, demonstrating a deep knowledge of the language and methodology of motion design, artfully combining animation, sound, 3D tools, and live-action footage.

| Title | Tags |
| --- | --- |
| Cultural Change, Context and Audience | 213591, 0, 2, 2023-08-29 08:36:42 |

**Learning Outcome**
Students will be able to create designs that are catalysts for positive cultural change and that consider the importance of context, audience, and history in their work.

| Title | Tags |
| --- | --- |
| Design Thinking | 213592, 0, 3, 2023-08-29 08:36:44 |

**Learning Outcome**
Students will be able to create strong conceptual work that is informed by research, design thinking, and their own personal voice.

| Title | Tags |
| --- | --- |
| Design Across Media Types | 213593, 0, 4, 2023-08-29 08:36:45 |

**Learning Outcome**
Students will be able to become agile thinkers and designers across multiple mediums, and gain proficiency in professional technologies to communicate their ideas.

| Title | Tags |
| --- | --- |
| Portfolio Building | 213594, 0, 5, 2023-08-29 08:36:46 |

**Learning Outcome**
Students will be able to build and edit a compelling motion design demo reel.

## DES 496R - Academic Internship: Professional Internship

### Course Information

**Teaching Area (new)**
DES
**Course Number**
496R
**Teaching Area**
DES
**Course Title**
Academic Internship: Professional Internship
**Course Description**
Work experience in professional design studio evaluated by supervisor.
**Department**
Design
**When Taught**
All Semesters/Terms

#### Credit Hours

**Min**
0.5

**Fixed**
6

**Other Prerequisites**
Department and faculty advisor's consent.
**Note**
An APPROVED Internship Application is required before adding.

**Title**
Skill Application
**Tags**
187300, 1

**Learning Outcome**
Students will have the opportunity to apply their design skills in a real working environment.

**Title**
Client Needs and Design Integrity
**Tags**
187301, 2

**Learning Outcome**
Students will learn how to meet the needs of the client while preserving the integrity of the design principles they have learned in class. Communication skills are paramount.

**Title**
Effective Collaboration
**Tags**
187302, 3

**Learning Outcome**
Students will be able to interact with team members from all areas of expertise on a real-world project.

## DES 498R - Directed Studies

### Course Information

**Course Number**
498R
**Teaching Area**
DES
**Course Title**
Directed Studies
**Course Description**
Students will be able to meet regularly with a professor or mentor throughout the course of the semester to complete a project of their own choosing.
**Department**
Design
**When Taught**
Fall, Winter, Spring

#### Credit Hours

**Fixed**
2

#### Lecture Hours

**Fixed**
2

#### Lab Hours

**Fixed**
0

**Other Prerequisites**
Instructor add code required; students should meet with their mentor and propose a self-directed, mentored project to work on during the semester in which they take this class.
**Recommended**
It is recommended that students complete most of their required major coursework before taking this class. This class should ideally be taken during the final year before graduation.

**Title**
Design Project
**Tags**
213595, 0, 1, 2023-08-29 08:36:49

**Learning Outcome**
Students will design a major visual artifact (or series of artifacts or experience) that demonstrate synthesis and mastery of their other coursework and establish a rhetorically compelling relationship between the content and format of their work.

**Title**
Ideas, Critique, Mentorship
**Tags**
213596, 0, 2, 2023-08-29 08:36:50

Learning Outcome
Students will develop ideas in consultation, critique, and individual mentorship with a faculty mentor

## DESAN 101 - Introduction to Drawing for Pre-Animation

### Course Information

Teaching Area (new)
DESAN
Course Number
101
Teaching Area
DESAN
Course Title
Introduction to Drawing for Pre-Animation
Course Description
This course will introduce drawing techniques for animators including scene composition, object placement, image sequencing, and camera angles. Students will learn to draw two-dimensional objects that appear to be three-dimensional with an appropriate sense of volume, weight, and balance.
Department
Design
When Taught
Fall Term 1; Winter Term 1.

#### Credit Hours

Min

**Note**
Please note that students granted pre-BFA Animation status have priority registration.

| Title | Tags |
|---|---|
| Perspective, Composition and Layout | 213598, 0, 1, 2023-08-29 08:36:56 |

**Learning Outcome**
Students will be able to apply basic principles of design, perspective, and composition by designing and drawing layouts for animated shots.

| Title | Tags |
|---|---|
| Structural Elements of Storytelling | 213599, 0, 2, 2023-08-29 08:36:57 |

**Learning Outcome**
Students will be able to deconstruct the basic structural elements of storytelling, including characters, conflicts, and settings, and identify the essential shots used in storyboarding and film.

| Title | Tags |
|---|---|
| 12 Principles of Animation | 213600, 0, 3, 2023-08-29 08:36:59 |

**Learning Outcome**
Students will be able to identify the twelve principles of animation and apply them in an animated shot, including timing, staging, anticipation, and overlapping action.

| Title | Tags |
|---|---|
| Expressive Drawing | 213601, 0, 4, 2023-08-29 08:37:00 |

**Learning Outcome**
Students will be able to put the basic theories of gesture drawing into practice as well as principles of design, such as shape language, abstraction, and

**Type**
Prerequisite

Prerequisites

**Complete ALL of the following Courses:**
- DESAN 102 - Drawing Fundamentals

**Additional Comments:**

**Other Prerequisites**
Animation BFA acceptance only.

| Title | Tags |
|---|---|
| Exaggeration | 187199, 1 |

**Learning Outcome**
Students will be able to apply thoughtful and deliberate exaggeration of design elements, proportions, and gestures while drawing the human figure.

| Title | Tags |
|---|---|
| Human Movement Rhythms | 187200, 2 |

**Learning Outcome**
Students will be able to analyze and identify the rhythms of the human body and relate each part to the whole figure in design and storytelling.

| Title | Tags |
|---|---|
| Human Figure Sketching | 187201, 3 |

**Learning Outcome**
Students will be able to competently and quickly draw the human figure from life.

| Title | Tags |
|---|---|
| Simplified Human Form | 187202, 4 |

**Learning Outcome**
Students will be able to simplify a figure down to essential details, achieving clarity in form and pose.

caricature, and show how to use them when creating animated characters.

**Title**
Character Design and Visual Development

**Tags**
187213, 1

**Learning Outcome**
Students will be able to identify advanced design principles and apply them by designing characters, props, and environments that are appealing to target audiences and suited to the needs of a given animated project.

| Title | Tags |
| --- | --- |
| Storyboards to Animatics | 187204, 1 |

**Learning Outcome**
Students will be able to successfully convert their storyboards into presentable animatics.

| Title | Tags |
| --- | --- |
| Storyboard Artist Skills | 187205, 3 |

**Learning Outcome**
Students will be able to exercise fundamental skills and knowledge required to succeed as a storyboard artist in the entertainment industry.

| Title | Tags |
| --- | --- |
| Story Pitching | 187206, 4 |

**Learning Outcome**
Students will be able to successfully present their ideas based on the art of the story pitch.

| Title | Tags |
| --- | --- |
| Story and Character | 187214, 2 |

**Learning Outcome**
Students will be able to construct compelling visual stories across a wide variety of character types and objects. Students will be able to develop character stories that inform their design decisions.

| Title | Tags |
| --- | --- |
| Abstraction and Caricature | 187215, 3 |

**Learning Outcome**
Students will be able to apply rules of abstraction and caricature in the appropriate proportions for a given character and project.

| Title | Tags |
| --- | --- |
| Technique and Design | 187216, 4 |

**Learning Outcome**
Students will be able to implement drawing, inking, and basic color techniques necessary for making designs presentable and interesting for art directors.

| Title | Tags |
| --- | --- |
| Style | 187217, 5 |

**Learning Outcome**
Students will be able to shift their drawing style as necessary and show how to balance design principles when creating new styles.

| Title | Tags |
| --- | --- |
| Critique | 187218, 6 |

**Learning Outcome**
Students will be able to differentiate between the various styles of critique and will be able to give and receive feedback using principles of good critique.

| Title | Tags |
| --- | --- |
| Visual Development as a Professional | 187219, 7 |

**Learning Outcome**

Learning Outcome

Students will be able to face the emotional and ethical challenges of visual development work in the animation industry with good attitudes and behaviors.

**Complete ALL of the following Courses:**
- DESAN 250R - Gesture Drawing for Animators

**Additional Comments:**

| Title | Tags |
|---|---|
| Figure Drawing | 213613, 0, 1, 2023-08-29 08:37:35 |

**Learning Outcome**
Students will be able to draw the human figure at a high level, merging the principles of design, gesture drawing, and observation to create an appealing image from a live or photo model.

| Title | Tags |
|---|---|
| Principles and Elements of Life Drawing | 213614, 0, 2, 2023-08-29 08:37:37 |

**Learning Outcome**
Students will master anatomy and structural drawing in ways appropriate to animation industry needs.

DESAN
**Course Title**
Business and Ethics in Animation
**Course Description**
Learning the practical and ethical side to the entertainment industry through readings and discussions as preparation for expectations as artists, leaders, and members of the Church.
**Department**
Design
**When Taught**
Fall

### Credit Hours

**Min**
2

**Fixed**
2

### Lecture Hours

**Other Prerequisites**
Animation & Illustration BFA majors only.

| Title | Tags |
| --- | --- |
| Animation Critique | 213615, 0, 1, 2023-08-29 08:37:40 |

**Learning Outcome**
Students will present their work-in-progress animations weekly for review and critique and learn how to analyze their own work and make revisions.

**Teaching Area**
DESAN
**Course Title**
Developing Intellectual Properties in Animation
**Course Description**
The process of developing a marketable intellectual property within the animation industry. Examining industry constraints, marketing, and how story and visual design relate to an intellectual property. Introduction to the iterative development process from the early stages of development, through pre-production to presentation. Industry demands related to quality, longevity and creativity will be explored.
**Department**
Design
**When Taught**
Winter

### Credit Hours

**Min**
1

**Fixed**
3

### Lab Hours

**Fixed**
0

**Other Prerequisites**
Animation majors only, or instructor's consent.

| Title | Tags |
| --- | --- |
| Designing Intellectual Property | 208762, 0, 1 |

**Learning Outcome**
Students will gain experience designing for specific criteria within an intellectual property.

| Title | Tags |
| --- | --- |
| Idea Development | 208763, 0, 2 |

**Learning Outcome**
Students will learn to use both collaborative and individual methods of idea development as they weave complex ideas together.

| Title | Tags |
| --- | --- |
| Presentation | 208764, 0, 3 |

**Learning Outcome**
Students will learn how to present intellectual property ideas to reviewers.

| Title | Tags |
| --- | --- |
| Development of Intellectual | |

| Property | 208765, 0, 4 |
|---|---|

**Learning Outcome**
Students will learn the process and considerations inherent in creating intellectual properties within the animation industries.

## DESAN 497R - BFA Independent Film Production

### Course Information

Fee.

| Title | Tags |
| --- | --- |
| Drawing Methods, Media, and Process | 187308, 1 |

**Learning Outcome**
Students will apply methods, processes, skills and techniques for compositional sketches ("thumbnails"), observational studies, design ideation, and imaginative conceptualization.

| Title | Tags |
| --- | --- |
| Visual Perception, Aesthetics, and Craft | 187309, 2 |

**Learning Outcome**
Students will demonstrate an enhanced visual perception, aesthetic sensitivity, craftsmanship, and fluency in drawing media.

| Title | Tags |
| --- | --- |
| Design Thinking | 187310, 3 |

**Learning Outcome**
Students will apply creative, analytical, and critical thinking to solve visual problems through the design process.

| Title | Tags |
| --- | --- |
| Visual Vocabulary | 187311, 4 |

**Learning Outcome**
Students will express, analyze, and discuss visual ideas using language that demonstrates understanding of visual concepts and terms as well as appreciate the central role of visual communication and ideas in creative design.

| Title | Tags |
| --- | --- |
| Design Theory and Practice | 187312, 5 |

**Learning Outcome**
Students will demonstrate fluency in fundamentals of two-dimensional design theory by applying design principles in compositional exercises, including unity, variety, balance, emphasis, rhythm etc.

| Title | Tags |
| --- | --- |
| Color Theory and Application | 187313, 6 |

**Learning Outcome**
Students will demonstrate understanding of color theory in compositions, showing fluency in using color to denote ideas, culture, mood, and emotion.

| Title | Tags |
| --- | --- |
| Design Aesthetics and Presentation | 187314, 7 |

**Learning Outcome**
Students will exhibit good organization, craftsmanship, presentation and taste in design exercises, projects, and assignments.

**Learning Outcome**
Students will be able to

Learning Outcome
Students will be able to have a deeper understanding of the evolution of typography from early printing methods through current digital typography.

Title
Type Nomenclature

Tags
106867, 1

Learning Outcome
Students will be able to understand and implement typographic terminology, classification, and anatomy.

Title
The Aesthetics of Typography

Tags
106868, 2

Learning Outcome
Students will be able to effectively compose type using fundamental aesthetic principles and skills.

Title
Processes in Typography

Tags
106869, 3

Learning Outcome
Students will be able to understand typographic production processes and technologies and output type for multiple mediums.

Title
Communicating with Type

Tags
106870, 4

Learning Outcome
Students will be able to analyze relationships between typography and effective communication, including understanding its effect on mood, the creation of typographic personality, and its use in appealing to a defined target market.

Title
Typographic Emphasis

Tags
106871, 5

Learning Outcome
Students will be able to understand the importance of hierarchy and emphasis within typography.

understand and implement the design process.

Title
Principles and Elements of Design

Tags
106874, 1

Learning Outcome
Students will be able to analyze and implement the principles and elements of design (such as balance, contrast, shape, etc.) and their relationship to graphic design.

Title
Composition, Color, Effective Use of Type, Photography

Tags
106875, 2

Learning Outcome
Students will be able to utilize principles and skills in special areas such as composition, color, appropriate use of photography and illustration, and the effective use of text type.

Title
Communication Mediums

Tags
106876, 3

Learning Outcome
Students will be able to understand the graphic designer's role in working with various communication mediums, including print, broadcast, and digital media.

Title
Basic Printing Processes

Tags
106877, 4

Learning Outcome
Students will be able to identify and understand basic printing processes and the benefits and restrictions of each.

Title
Paper and Printing Choices

Tags
106878, 5

Learning Outcome
Students will be able to understand the impact of paper and printing choices on the environment.

| Title | Tags |
| --- | --- |
| Typographic Systems | 106872, 6 |

**Learning Outcome**
Students will be able to design and implement a complex, elegant, typographic grid system.

| Title | Tags |
| --- | --- |
| Graphic Design Market and Careers | 106879, 6 |

**Learning Outcome**
Students will be able to understand the market and careers of graphic design.

**Learning Outcome**
Students will be able to create responsive grids and complex

Learning Outcome
Students will be able to demonstrate an understanding of how designers from different historical eras resolved visual communication problems, including by communicating efficiently, working with clients, resolving the tension between innovation and the status quo, balancing commercial requirements with personal expression, and achieving economic viability while contributing something valuable to the world.

Title
Historical Contributions to Design

Tags
137420, 0

Learning Outcome
Students will be able to recognize the contributions and motivations of leaders in the field of graphic design and use that knowledge to become better citizens and contributors of the graphic design profession.

Title
Design Writing & Thinking

Tags
137421, 0

Learning Outcome
Students will be able to effectively write about graphic design, thinking, and communicating in a way that allows readers who are not designers to understand important concepts related to design.

Title
Responsive Grids & Typography

Learning Outcome
Students will be able to create responsive grids and complex typographic systems for multi-screen or multi-page content that adapt to variety of formats, de-vices, and screen sizes.

Title
Design Systems

Learning Outcome
Students will be able to create a cohesive and reusable system of components, colors, typography, and icons.

Title
Digital and Online Typography

Learning Outcome
Students will be able demonstrate understanding of digital and online typographic rules, defaults, customs, and technical requirements to create elegant, legi-ble, and functional typographic systems (including but not limited to understanding HTML and CSS as a building block for modern apps and websites).

Title
Documentation

Learning Outcome
Students will be able to create detailed documentation of their design process and final design outcome, with clear written explanations of interface content and functionality.

Title
Faith, Form, and Format

Learning Outcome
Students will be able to identify and critically discuss how different forms and formats of media, especially typographic ones affect understanding and demand attention in all contexts, especially that of faith and devotion.

213625, 0, 2, 2023-08-29 08:38:17

**Learning Outcome**
Students will learn how to design with time, 3D space, and sound.

**Tags**
213626, 0, 3, 2023-08-29 08:38:18

**Learning Outcome**
Students apply graphic design principles and narrative techniques to motion graphics projects, using After Effects and other methods.

**Learning Outcome**
Students will acquire the

requirement within the current discipline, or focuses on a particular project.

**Department**
Design
**When Taught**
Fall and Winter

### Credit Hours

**Min**
0.5

**Fixed**
3

### Lab Hours

**Fixed**
0

**Other Prerequisites**
Design majors, Advertising Design minors or instructor permission only.
**Note**
Fee may apply.

**Title**
Course outcomes

**Tags**
208776, 0, 1

**Learning Outcome**
Course outcomes are specific to each course section and are developed by the instructor and students.

Tags
213627, 0, 4, 2023-08-29 08:38:19

necessary design and production skills to produce a compelling 30-second motion graphic piece.

Tags
213628, 0, 5, 2023-08-29 08:38:21

Learning Outcome
Students will develop essential written and oral communication skills to explain and defend your work.

## DESGD 411R - Graphic Design Field Study

### Course Information

**Teaching Area (new)**
DESGD

**Course Number**
411R

**Teaching Area**
DESGD

**Course Title**
Graphic Design Field Study

**Course Description**
On-location study of graphic design.

**Additional Comments:**

Other Prerequisites
Graphic design BFA majors only.

| Title | Tags |
| --- | --- |
| Develop Self-Promotional Materials | 54483, 0, 3 |

Learning Outcome
Students will be able to develop self-promotional and marketing pieces for gaining employment.

| Title | Tags |
| --- | --- |
| Portfolio Communication & Presentation | 212874, 0, 5 |

Learning Outcome
Students will be able to communicate effectively about their portfolio work orally and in writing.

| Title | Tags |
| --- | --- |
| Effective Critique | 212875, 0, 6 |

Learning Outcome
Students will demonstrate effective critiques of the visual and conceptual merits of their own and others' capstone projects and portfolios.

| Title | Tags |
| --- | --- |
| Post-graduation strategy | 212877, 0, 7 |

Learning Outcome
Students will be able to research and articulate post-graduation strategy effectively, demonstrating a clear understanding of the graphic design industry and academy

Learning Outcome
Students will be able to collaborate as a member of a large, interdisciplinary design team.

across the region and nation.

Title
Create Comprehensive & Targeted Portfolios

Tags
137435, 0, 1

Learning Outcome
Students will assemble a comprehensive portfolio demonstrating design solutions created during their BFA major experience. Work should demonstrate mastery of program-level Graphic Design BFA learning outcomes. Students will also compile a targeted professional portfolio that aligns with their post-graduation strategic goals.

Title
Plan & Complete Work Necessary for Final Portfolios

Tags
212876, 0, 2

Learning Outcome
Students will plan and complete the work necessary to assemble their comprehensive and targeted portfolios. Students will create individualized work plans to meet their post-graduation strategic goals by carefully assessing their overall portfolio needs, strengths, and weaknesses. This plan will include the work outlined in the other learning outcomes.

## DESGD 460 - Interaction Design 2

### Course Information

Teaching Area (new)
DESGD

Course Number
460

Teaching Area
DESGD

Course Title
Interaction Design 2

Course Description
Explores how interaction design integrates both client/user needs to prototype holistic and appropriate experiences. Through team-based course work students gain an understanding of user experience design and workflow.

Department
Design

When Taught
Winter

## DESGD 488 - Studio Practices for Designers

|---|---|
| Project Estimating | 137448, 2 |

Learning Outcome
Students will be able to implement the process of creating accurate estimates for design project costs.

| Title | Tags |
|---|---|
| Starting a Design Business | 137449, 3 |

Learning Outcome
Students will be aware of the legal and financial aspects of starting a design studio including business structures, licensing, tax implications, and legal liabilities.

design decisions.

| Title | Tags |
| --- | --- |
| Design Presentation | 187317, 4 |

**Learning Outcome**
Students will be able to craft presentations of their work with compelling storytelling, clear visual organization, and persuasive language.

| Title | Tags |
| --- | --- |
| Freelance Design | 137450, 4 |

**Learning Outcome**
Students will be able to understand the requirements of working as a freelance designer and will be prepared to effectively work in the current environment.

| Title | Tags |
| --- | --- |
| Career Opportunities | 137451, 5 |

**Learning Outcome**
Students will be able to compete in the design industry with appropriate job hunting, interviewing, and networking skills and be able to explore possible design career paths.

| Title | Tags |
| --- | --- |
| Design Proposal & Contracts | 137452, 6 |

**Learning Outcome**
Students will be able to create working proposals and contracts for the design marketplace.

| Title | Tags |
| --- | --- |
| Intellectual Property | 137453, 7 |

**Learning Outcome**
Students will be able to discern intellectual property laws that relate to design work and understand the implications of infringement, plagiarism, copyright, trademark, licensing, and the negotiation of reproduction rights.

| Title | Tags |
| --- | --- |
| Design Ethics | 137454, 8 |

**Learning Outcome**
Students will be able to identify the ethical issues facing designers and understand current professional models.

| Title | Tags |
| --- | --- |
| Design Finances | 137455, 9 |

**Learning Outcome**
Students will be able to

understand the importance of adequate financial oversight in the design process and the fundamentals of bookkeeping, expense tracking, accounts receivables, and tax preparation.

## DESGD 489 - BFA Capstone Project: Discovery

### Course Information

**Course Number**
489
**Teaching Area**
DESGD
**Course Title**
BFA Capstone Project: Discovery
**Course Description**
Students explore ideas towards completing an intensive project on a topic of their choosing which includes developing personal research and design methods, a project implementation, and a public exhibition.

BFA acceptance.

| Title | Tags |
| --- | --- |
| Research | 213630, 0, 2, 2023-08-29 08:38:36 |

Learning Outcome
Students will demonstrate careful research, manifesting skill in identifing key scholarship and ideas.

| Title | Tags |
| --- | --- |
| Idea Generation | 213631, 0, 3, 2023-08-29 08:38:37 |

Learning Outcome
Students will demonstrate various modes of generating ideas for their capstone project

| Title | Tags |
| --- | --- |
| Writing Analysis | 209131, 0, 4 |

Learning Outcome
Students will demonstrate effective written analysis of their research, showing an ability to evaluate, compare, and interpret ideas.

| Title | Tags |
| --- | --- |
| Writing Standards | 209132, 0, 5 |

Learning Outcome
Students will demonstrate appropriate rhetorical, logical, and typographic academic standards in communicating their ideas in writing.

| Title | Tags |
| --- | --- |
| Visual Iterations | 209133, 0, 6 |

Learning Outcome
Students will design iterations of new visual concepts demonstrating analysis of their research.

| Title | Tags |
| --- | --- |
| Presentation | 209134, 0, 7 |

Learning Outcome
Students will be able to defend their research and design thinking in presentation form using compelling storytelling, clear visual organization, and persuasive language.

| Title | Tags |
| --- | --- |
| Research Methods | 208781, 0, 1 |

Learning Outcome
Students will demonstrate careful research, manifesting skill in identifing key scholarship and ideas related to a chosen topic.

| Title | Tags |
| --- | --- |
| Design Thinking | 187318, 0, 3 |

Learning Outcome
Students will demonstrate and document effective application methods of design thinking to their research and final project

through various modes of forming, reforming, constructing, and deconstructing concepts.

| Title | Tags |
| --- | --- |
| Design Implementation | 209135, 0, 8 |

**Learning Outcome**
Students will visualize possible major visual projects that demonstrate synthesis and mastery of their research and establish a rhetorically compelling relationship between the content and format of their design.

## DESGD 491R - Collaborative Design: Brand & Strategy

### Course Information

**Course Number**
491R
**Teaching Area**
DESGD
**Course Title**
Collaborative Design: Brand & Strategy
**Course Description**
Well-designed interactive products become most successful when they account for the complete context of their creation: from business strategy and brand narrative to well-crafted interfaces and targeted end goals. Consequently, the best products require collaboration between various domains working toward a common goal. Every student in this class will gain rich experience in developing a brand and strategy for a real-world product or business creation.

## DESIL 101 - Drawing and Composition

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| DESIL | 101 |

**Teaching Area**
DESIL
**Course Title**
Drawing and Composition
**Course Description**
Drawing methods and practices combined with compositional foundations for visual communicators. Students will develop observation and conceptual drawing skills. Students will also develop visual problem solving, analytical thinking, and craftsmanship by applying design principles to compositional problems. Skills are developed through intensive practice, lecture, demonstration, and critique.
**Department**

### Credit Hours

**Min**
1

**Fixed**
6

**Other Prerequisites**
BFA advisor's consent.

| Title | Tags |
| --- | --- |
| Mentor-Assisted Project | 137470, 1 |

**Learning Outcome**
Students will be able to meet regularly with a professor or mentor throughout the course of the semester to complete a project of their own choosing.

| Title | Tags |
| --- | --- |
| Drawing as Visual Language | 187304, 1 |

**Learning Outcome**
Students will be able to understand the elements and principles of design as applied to drawing practice and understand the concepts and terminology necessary to discuss visual ideas in meaningful ways. Students will also be able to analyze representational modes of visual communication.

| Title | Tags |
| --- | --- |
| Linear and Tonal Drawing Concepts | 187305, 2 |

**Learning Outcome**
Students will be able to work from life in creating drawings that demonstrate a conceptual understanding of and practical proficiency in linear and tonal drawing methods. These include gesture, contour, sighting, and perspective construction, as well as an understanding of light to describe three-dimensional forms, surface materials, textures, and atmospheric effects.

| Title | Tags |
| --- | --- |
| Design Theory and Practice | 187306, 3 |

**Learning Outcome**
Students will be able to demonstrate fluency in two-dimensional design theory by working through the ideation and iterative process. Fundamental design principles will be applied in compositional exercises ("thumbnails") focusing on unity, variety, balance, emphasis, rhythm etc.

| Title | Tags |
| --- | --- |
| Design Aesthetics and Presentation | 187307, 4 |

**Learning Outcome**
Students will be able to exhibit enhanced visual perception, aesthetic sensitivity, good organization, craftsmanship, presentation and taste in design exercises, projects, and assignments.

**Learning Outcome**
Students will be able to draw the skeletal structure and identify major muscle landmarks from reference and memory as well as have a deeper understanding of anatomy.

## DESIL 263 - Narrative Illustration

### Course Information

**Teaching Area (new)**
DESIL

**Course Number**
263

**Teaching Area**
DESIL

**Course Title**
Narrative Illustration

**Course Description**
Narrative problem solving through the use of character, mood, and environment to tell a story or develop a conceptual idea. Study of media, aesthetic principles, and classic story models.

**Department**
Design

**When Taught**
Fall

#### Credit Hours

**Min**

213636, 0, 1, 2023-08-29 08:38:55

anatomy.

| Title | Tags |
| --- | --- |
| Tools and Procedures | 137481, 0 |

Learning Outcome
Students will be able to implement knowledge of tools and procedures used in successful life drawing, including proportion, gesture, balance, foreshortened perspective, composition, drapery, and a high degree of 3-dimensional structure through light and shadow (folds).

| Title | Tags |
| --- | --- |
| Media Specialization | 137482, 1 |

Learning Outcome
Students will be able to proficiently implement into their drawings at least one of the illustration mediums emphasized (nupastel, charcoal, conte crayon, graphite).

Learning Outcome
Students will be able to demonstrate proficiency in at least one of the illustration mediums studied, including lino-cut, paper sculpture, dimensional maquettes, acrylics, gouache, or digital illustration.

Tags
213637, 0, 2, 2023-08-29 08:38:56

Learning Outcome
Students will be able to analyze and develop visual images based on narrative (literal) and limited conceptual (symbolic) illustration solutions.

Tags
213638, 0, 3, 2023-08-29 08:38:58

Learning Outcome
Students will be able to incorporate a deep theoretical and practical understanding of design into their work.

### Lab Hours

**Fixed**
0

**Other Prerequisites**
Illustration BFA or design major acceptance, or instructor consent.
**Fee**
150
**Note**
Fee.

Students will have the ability to visually communicate not just physical attributes but also cultural histories, personalities, attitudes, and motivations of characters.

**Title**
Ideation, Research, and Reference

**Tags**
137537, 0, 2

**Learning Outcome**
Students will apply their design process using sound practices of visual ideation, research, observation, and reference-gathering to design believable characters by combining reference with imagination. Students will cultivate a working knowledge of applicable history, including fashion design, architecture, and culture.

**Title**
Design Theory and Process

**Tags**
137538, 0, 3

**Learning Outcome**
Students will be able to distinguish between the design processes of concept art and production illustration. They will apply design principles such as shape, silhouette, gestalt, composition, color, pattern and texture to finish their illustrations at a professional level.

**Title**
Art Direction and Stylistic Coherence

**Tags**
187241, 0, 1

**Learning Outcome**
Students will understand and apply art direction in developing a coherent, appealing visual style for characters in a narrative environment. This will include direction and insight from clients, editors, and their peers.

**Title**
Individual Vision and Professional Presentation

**Tags**
187242, 0, 2

**Learning Outcome**
Students will develop an individual vision and style for a fictional story world as well as

prepare and deliver a presentation for that world with its cast of characters and creatures. Students will learn to discuss and analyze peers' concepts to explore various approaches and improve methods.

| Gospel Standards and Contemporary Art | 137635, 3 |

**Learning Outcome**

Students will be able to successfully incorporate gospel standards while navigating through the environments of contemporary art movements.

| Title | Tags |
| --- | --- |
| Photographic Analysis | 137633, 1 |

**Learning Outcome**

Students will be able to understand, analyze, and broaden their perspective of contemporary practices in photography.

| Title | Tags |
| --- | --- |
| Critical Evaluation and Critique Strategies | 137634, 2 |

**Learning Outcome**

Students will be able to apply advanced levels of critical evaluation, self-motivations, and critique strategies of their own work as well as the work of others.

Learning Outcome
Students will be able to understand and apply their knowledge of the history of photography.

## DESPH 379 - History of Photography

### Course Information

Teaching Area (new): DESPH
Course Number: 379
Teaching Area: DESPH
Course Title: History of Photography
Course Description: Origin and development of photographic aesthetics.
Department: Design
When Taught: Fall

### Credit Hours

Min: 3
Fixed: 3

### Lecture Hours

Fixed: 6

### Lab Hours

Fixed: 0

Other Prerequisites
Design majors only or instructor consent.

| Title | Tags |
|---|---|
| Scope | 137621, 0 |

Learning Outcome
Students will be able to understand the history of photography from the nineteenth-century to the present.

| Title | Tags |
|---|---|
| Style | 137622, 1 |

## DESPH 394R - Special Topics

### Course Information

Teaching Area (new): DESPH
Course Number: 394R
Teaching Area: DESPH
Course Title: Special Topics
Course Description: Project-based studio course for photographers.
Department: Design
When Taught: Fall and Winter

### Credit Hours

Min: 0.5
Fixed: 3

### Lecture Hours

Fixed: 1

### Lab Hours

Fixed: 0

Simple Requisites

**Prerequisites**
**Type**
Prerequisite

Prerequisites
**Complete ALL of the following Courses:**
- DESPH 120 - Conceptual Practices and Creative Exploration
  **AND** DESPH 240 - Lighting 1
  **AND** DESPH 260 - Filmmaking 01

**Additional Comments:**

Other Prerequisites: Photography BFA major or instructor consent.
Recommended: DESPH 372, 377R, 475, 478

**Learning Outcome**
Students will be able to articulate the characteristics of the period styles, processes, techniques, cultural uses, and philosophies of key photographers in Europe and the Western Hemisphere. Students will be able to analyze and identify important photographs and collections in terms of style, patronage, reception, and meaning.

| Title | Tags |
| --- | --- |
| Research Skills | 137623, 2 |

**Learning Outcome**
Students will be able to apply art historical research skills in conducting advanced research focused on a single photographer or photograph.

| Title | Tags |
| --- | --- |
| State of Research | 137624, 4 |

**Learning Outcome**
Students will be able to situate their informed, original ideas within the best publications and reviews of period photography.

| Title | Tags |
| --- | --- |
| Sources | 137625, 0, 5 |

**Learning Outcome**
Students will be able to demonstrate familiarity with advanced research skills and best research practices as taught by the course professor and supported the by the HBLL Art History and Photography research guides. Students will also be able to use acceptable style guides.

**Note**
Fee.

| Title | Tags |

| Title | Tags |
| --- | --- |
| Remember | 213649, 0, 1, 2023-08-29 08:39:52 |

Learning Outcome
Students will: Recall the components of the USERS model for design thinking. Describe the three cognitive modes of designer thinking. List the 4p's of creativity.

| Title | Tags |
| --- | --- |
| Understand | 213650, 0, 2, 2023-08-29 08:39:54 |

Learning Outcome
Students will: Define and explain what is meant by structured creativity. Give examples of blocks to creative thinking. Summarize the five principles of divergent thinking.

| Title | Tags |
| --- | --- |
| Application | 213651, 0, 3, 2023-08-29 08:39:55 |

Learning Outcome
Students will: Employ the three practices for each of the USERS principles. Demonstrate creative

thinking tools and techniques. Understand basic principles of presenting compelling and persuasive ideas to others.

| Title | Tags |
| --- | --- |
| Analyze | 213652, 0, 4, 2023-08-29 08:39:56 |

**Learning Outcome**
Students will: Identify the purpose of sketching in exploring and communicating ideas. Relate the relationship of flexibility and fluency in concept generation.

| Title | Tags |
| --- | --- |
| Evaluate | 213653, 0, 5, 2023-08-29 08:39:57 |

**Learning Outcome**
Students will: Critique and provide feedback to other student's ideas. Appraise their own tolerance for ambiguity. Access their performance in relation to their peer group.

| Title | Tags |
| --- | --- |
| Design | 213654, 0, 6, 2023-08-29 08:39:59 |

**Learning Outcome**
Students should be able to: Construct original and useful ideas by questioning, comparing and combining, Develop unified 3D and interactive compositions. Visualize, validate, and iterate design concepts

| Understanding | 213659, 0, 1, 2023-08-29 08:40:05 |

**Learning Outcome**
Students should: - Understand and apply principles of good design intent to develop robust modeled geometry. - Understand both solid and surface modeling principles and how of effectively apply them.

| Title | Tags |
|---|---|
| Application | 213660, 0, 2, 2023-08-29 08:40:06 |

**Learning Outcome**
Students should be able to: - Use Solidworks and Photoview 360 effectively to develop and communicate ideas. - Apply solid modeling to develop 3D parts with: Machining and rapid prototyping.

Learning Outcome
Students will understand, and apply typical prototyping procedures, including: woodworking, 3D printing, vacuum forming, sheet metal bending, laser cutting, CNC milling, casting, molding, painting, surface finishing, gluing, fastening

| Title | Tags |
| --- | --- |
| Prototype construction | 213658, 0, 4, 2023-08-29 08:40:04 |

Learning Outcome
Students will construct concept models and working prototypes.

## DESPX 214 - Manufacturing Materials & Processes

Simple Requisites

Prerequisites

**Prerequisites**
**Type**
Completion Requirement

**Complete ALL of the following Courses:**
- DESPX 200 - Prototyping Processes and Materials

**Additional Comments:**

**Other Prerequisites**
Design BFA & BA majors only

| Title | Tags |
| --- | --- |
| Understanding/Recognition | 213661, 0, 1, 2023-08-29 08:40:07 |

**Learning Outcome**
Students should: - Be able to recognize manufacturing processes used to create products. - Be able to recognize basic materials used in products. - Understand limitations and advantages of manufacturing processes. - Have a basic knowledge of material properties.

## DESPX 230R - Product Design Studio 1

### Course Information

**Type**
Completion Requirement

**Complete ALL of the following Courses:**
- DESPX 115 - Intro to Product & User Experience Design

**Additional Comments:**

**Other Prerequisites**
Product & User Experience Design Pre-BFA status students or Design BA majors only.

| Title | Tags |
| --- | --- |
| Understand | 213662, 0, 1, 2023-08-29 08:40:09 |

**Learning Outcome**
Students will: Understand the basic principles of perspective drawing, form construction, and simple shading.

| Title | Tags |
| --- | --- |
| Apply | 213663, 0, 2, 2023-08-29 08:40:10 |

**Learning Outcome**
Students will: Sketch using perspective and rapid visualization principles to present basic forms and simple product concepts.

| Title | Tags |
| --- | --- |
| Evaluate | 213664, 0, 3, 2023-08-29 08:40:11 |

**Learning Outcome**
Students will: Compare their work to the work of their peers and articulate the strengths and weaknesses of different sketching techniques during in-class critiques.

| Title | Tags |
| --- | --- |
| Create | 213665, 0, 4, 2023-08-29 08:40:13 |

**Learning Outcome**
Students will: Produce basic sketch-based drawings for product concept communication. Use sketching as a tool for thinking and presentation.

## DESPX 260 - User Experience 1: Interfaces & Usability

**Teaching Area (new)**
INDES
**Course Number**
230R
**Teaching Area**

Product & User Experience Design Pre-BFA status & Design BA majors only.

**Title**
Design Research
**Tags**
213668, 0, 1, 2023-08-29 08:40:17

**Learning Outcome**
Students will be able to use design research methods to develop empathy for end-users as they focus design efforts on user needs.

**Title**
**Tags**
213669, 0, 2, 2023-08-29

Design for Code 08:40:18

**Learning Outcome**
Students will be able to demonstrate understanding of the affordances, limits, and benefits of designing in code such as HTML, CSS, etc.

**Title**
Experiences & Usability Testing

**Tags**
213670, 0, 3, 2023-08-29 08:40:20

**Learning Outcome**
Students will be able to develop design and test concepts that effectively mediate relationships between people and products, environments, and services.

**Title**
Contemporary Interfaces

**Tags**
213671, 0, 4, 2023-08-29 08:40:21

**Learning Outcome**
Students will be able to create platform-specific design patterns and style with current interface design sensibilities.

**Title**
Digital Typography

**Tags**
213672, 0, 5, 2023-08-29 08:40:22

**Learning Outcome**
Students will be able to effectively use typography in digital spaces, demonstrating the appropriate blend of legibility and expressiveness, and responsive device-independent type with complex hierarchy across multi-screen applications.

**Title**
Documentation

**Tags**
213673, 0, 6, 2023-08-29 08:40:24

**Learning Outcome**
Students will be able to create detailed documentation of their design process and final design outcome, with clear written explanations of interface content and functionality.

**Title**
Critical analysis of interactive products

**Tags**
213674, 0, 7, 2023-08-29 08:40:25

**Learning Outcome**
Students will demonstrate

critical analysis of interactive products and become more thoughtful consumers of designed products.

## DESPX 261 - User Experience 2

### Course Information

**Course Number**
261
**Teaching Area**
DESPX
**Course Title**
User Experience 2
**Course Description**
This course helps students develop engaging user experiences in digital products, using more advanced design research methods, and ability to create some design in code

Students will be able to create effective information architecture in a designed product

| Title | Tags |
| --- | --- |
| Contemporary Interfaces | 213679, 0, 5, 2023-08-29 08:40:32 |

**Learning Outcome**
Students will be able to create platform-specific design patterns and style with current interface design sensibilities.

| Title | Tags |
| --- | --- |
| Design in Code | 213680, 0, 6, 2023-08-29 08:40:33 |

**Learning Outcome**
Students will be able to demonstrate ability to design in code

## DESPX 330R - Product Design Studio 2

| Title | Tags |
| --- | --- |
| Create physical product prototypes | 213681, 0, 1, 2023-08-29 08:40:34 |

**Learning Outcome**
Create visually accurate and functional physical 3D prototypes based on the CAD models they create.

| Title | Tags |
| --- | --- |
| Create virtual product renderings | 213682, 0, 2, 2023-08-29 08:40:36 |

**Learning Outcome**
Create and evaluate computer generated product renderings.

| Title | Tags |
| --- | --- |
| Lighting theory | 213683, 0, 3, 2023-08-29 08:40:37 |

**Learning Outcome**
Evaluate and understand basic product lighting theory

| Title | Tags |
| --- | --- |
| Rendering basics | 213684, 0, 4, 2023-08-29 08:40:38 |

**Learning Outcome**
Practice HDRI editing techniques, creating environments, customizing color, materials and finishes.

| Title | Tags |
| --- | --- |
| Workflow process | 213685, 0, 5, 2023-08-29 08:40:40 |

**Learning Outcome**
Analyze and practice post production workflow.

| Title | Tags |
| --- | --- |
| Presentations techniques | 213686, 0, 6, 2023-08-29 08:40:43 |

**Learning Outcome**
Practice making exploded views for presentations.

|---|---|
| Research | 213715, 0, 1, 2023-08-29 08:41:30 |

**Learning Outcome**
Students will demonstrate careful research, manifesting skill in identifying key scholarship and ideas.

| Title | Tags |
|---|---|
| Design thinking | 213716, 0, 2, 2023-08-29 08:41:32 |

**Learning Outcome**
Students will learn to employ various modes of forming, reforming, constructing, and deconstructing concepts and will apply methods of design

| Title | Tags |
| --- | --- |
| Editing & Evaluation | 213712, 0, 3, 2023-08-29 08:41:26 |

**Learning Outcome**
Students will be able to edit and evaluate previously completed projects for inclusion, rejection, or refinishing in their own portfolio

| Title | Tags |
| --- | --- |
| Self-directed work calendar | 213713, 0, 4, 2023-08-29 08:41:27 |

**Learning Outcome**
Students will learn to create and demonstrate making effective personal work-product calendars that meet the needs of their portfolio, other courses, overlapping projects, all within course and graduation deadlines.

| Title | Tags |
| --- | --- |
| Design writing & presentation: case studies & projects | 213714, 0, 5, 2023-08-29 08:41:29 |

**Learning Outcome**
Students will be able to showcase their UX and interactive design work in effective case studies and visual projects with engaging visuals and writing

thinking to their research and final project.

| Title | Tags |
| --- | --- |
| Written analysis | 213717, 0, 3, 2023-08-29 08:41:33 |

**Learning Outcome**
Students will demonstrate effective written analysis of their research, showing an ability to evaluate, compare, and interpret ideas.

| Title | Tags |
| --- | --- |
| Idea Evaluation, Validation, & Introspection | 213718, 0, 4, 2023-08-29 08:41:35 |

**Learning Outcome**
Students will evaluate effective ideas for their project through external validation and internal introspection. They will learn, develop, and choose tools and frameworks to help evaluate.

# DESPX 490 - Collaborative UX Design: Research

## Course Information

**Course Number**
490
**Teaching Area**
DESPX
**Course Title**
Collaborative UX Design: Research
**Course Description**
Well-designed interactive products become most successful when they account for the complete context of their creation: from business strategy and brand narrative to well-crafted interfaces and targeted end goals. Consequently, the best products require collaboration between various domains (designers, software engineers, and product managers) working toward a common goal. Every student in this class will gain a rich experience in real-world product creation.

Students are invited to think of themselves as more than designers but as co-founders, not just students but entrepreneurs. For you and your teams, collaboration should not be limited to each member's own domain of expertise and should compound your team members'

# DESPX 497 - Collaborative UX Design: Implementation

## Course Information

**Course Number**
497
**Teaching Area**
DESPX
**Course Title**
Collaborative UX Design: Implementation
**Course Description**
Well-designed interactive products become most successful when they account for the complete context of their creation: from business strategy and brand narrative to well-crafted interfaces and targeted end goals. Consequently, the best products require collaboration between various domains (designers, software engineers, and product managers) working toward a common goal. Every student in this class will gain a rich experience in real-world product creation.

You are invited to think of yourself as more than designers but as co-founders, not just students but entrepreneurs. For you and your teams, collaboration should not be limited to each member's own domain of expertise and should compound your team members' strengths

strengths through frequent collaboration, iteration, and validation.

Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Title
Typesetting's Place in Publishing

Tags
199732, 4

Learning Outcome
Students will situate typesetting and printing within the scope of the publishing process as a whole.

Title
Typesetting Software

Tags
199733, 6

Learning Outcome
Students will master the basic functions of Adobe InDesign for the purpose of typesetting various publications.

Title
Design Principles

Tags
199734, 8

Learning Outcome
Students will use a set of basic design principles (proximity, alignment, repetition, contrast) to improve the quality of their publications in InDesign.

Title
Photo Editing Software

Tags
199735, 10

Learning Outcome
Students will be familiar with Adobe Photoshop and some of its uses in print publishing.

| Title | Tags |
| --- | --- |
| Groupwork | 199837, 11 |

**Learning Outcome**
Students will work effectively in groups to produce high quality printed material.

**Course Number**
395R

**Teaching Area**
DIGHT

**Course Title**
Digital Humanities Research Seminar

**Course Description**
Individual or group research of original problems in Digital Humanities research.

**When Taught**
Fall and Winter

### Credit Hours

**Min**
1

**Fixed**
3

### Lab Hours

**Fixed**
0

**Simple Requisites**

**Prerequisites**
**Type**
Prerequisite

Prerequisites

**Complete ALL of the following Courses:**
- DIGHT 215 - Introduction to the Digital Humanities

**Additional Comments:**

| Title | Tags |
|---|---|
| Research | 199851, 1 |

**Learning Outcome**
Students will demonstrate an advanced level of knowledge in a chosen specialty area and conduct research in that area.

## DIGHT 495R - Digital Humanities Project

### Course Information

**Teaching Area (new)**
DIGHT

**Course Number**
495R

**Teaching Area**
DIGHT

**Course Title**
Digital Humanities Project

**Course Description**
Original research project on open questions within the Digital Humanities field. Content and/or technology advisor is required.

**When Taught**
Fall, Winter, Spring

### Credit Hours

**Min**
1

**Fixed**
3

**Other Prerequisites**
Any DigHT 300-level course or instructor approval.

| Title | Tags |
|---|---|
| Work with Clients | 199808, 1 |

**Learning Outcome**
Students will be able to negotiate and meet the demands of a sponsor/client to develop technology solutions.

| Title | Tags |
|---|---|
| Project Proposal | 199812, 0 |

**Learning Outcome**
Students will be able to draft written proposals for products/techniques they hope to develop.

| Title | Tags |
|---|---|
| Solve Problems | 199904, 2 |

**Learning Outcome**
Students will be able to apply their technology skills to solve a real problem they or someone else has.

Prerequisite

Prerequisites

**Complete ALL of the following Courses:**
- DUTCH 102 - First-Year Dutch

**Additional Comments:**

**Note**
Teacher may waive prerequisite based on prior experience.

| Title | Tags |
|---|---|
| Vocabulary | 193323, 2 |

**Learning Outcome**
Broaden vocabulary for both reception (listening and reading comprehension) and production (speaking and writing).

| Title | Tags |
|---|---|
| Elaboration | 193331, 1 |

**Learning Outcome**
Create structurally-accurate, elaborated utterances and begin to group utterances into paragraphs and narratives. Do this in present, past and future time.

| Title | Tags |
|---|---|
| Grammar | 193341, 3 |

**Learning Outcome**
Review and increase understanding of basic language structures.

| Title | Tags |
|---|---|
| Culture | 193349, 4 |

**Learning Outcome**
Discuss in the target language common products and practices related to every-day life in the target culture.

**Type**
Prerequisite

Prerequisites

**Complete ALL of the following Courses:**
- DUTCH 201 - Second-Year Dutch

**Additional Comments:**

**Note**
Teacher may waive prerequisite based on prior experience.

| Title | Tags |
|---|---|
| Conversation | 193359, 1 |

**Learning Outcome**
Speak comfortably about predictable, familiar topics related to daily activities; this includes the ability to Initiate, maintain, and close simple conversations and to ask and respond to simple questions.

| Title | Tags |
|---|---|
| Survival Transactions | 193369, 2 |

**Learning Outcome**
Carry out "survival" transactions (shopping, getting directions, ordering meals, etc.)

| Title | Tags |
|---|---|
| Pronunciation and Accuracy | 194560, 3 |

**Learning Outcome**
Be understood by native speakers accustomed to dealing with non-native speakers.

## DUTCH 305 - Language Skills Development: Dutch

### Course Information

**Teaching Area (new)**
DUTCH

**Course Number**
305

**Teaching Area**
DUTCH

**Course Title**
Language Skills Development: Dutch

**Course Description**
Increasing proficiency in one or more of the following Dutch language and culture skills: speaking, listening, reading, writing, cultural awareness.

**Department**
Language Studies

**When Taught**

morphology and syntax.

| Title | Tags |
| --- | --- |
| Apply | 197453, 2 |

**Learning Outcome**
Apply grammar rules with accuracy to a variety of advanced grammatical and communicative tasks.

| Title | Tags |
| --- | --- |
| Independent Learning | 197454, 3 |

**Learning Outcome**
Function as independent learners of the target language by using proper terms and appropriate resources for language analysis.

| Title | Tags |
| --- | --- |
| Communication Skills | 197455, 1 |

**Learning Outcome**
In both written and spoken target language, communicate accurately with well-educated members of the target-culture about real-world activities.

| Title | Tags |
| --- | --- |
| Comprehension | 197456, 2 |

**Learning Outcome**
Understand detailed written and verbal instructions. Comprehend historical passages, newspaper and magazine articles, and broadcast news reports well educated native speakers encounter routinely in their daily life.

| Title | Tags |
| --- | --- |
| Cultural Knowledge | 197457, 3 |

**Learning Outcome**
Acquire background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.). Discuss in the target language cultural practices related to major life events in the target culture (birth, marriage, death, etc.).

| Title | Tags |
| --- | --- |
| General Education Requirements | 197458, 4 |

**Learning Outcome**
Complete Languages of Learning and Global & Cultural Awareness for General Education.

213744, 0, 1, 2023-08-29 08:43:04

**Learning Outcome**
Ability to design, minimize, and analyze a combinational network.

**Title**
Sequential Networks

**Tags**
213745, 0, 2, 2023-08-29 08:43:05

**Learning Outcome**
Ability to design and analyze a sequential network.

**Title**

**Tags**

sensors and actuators, including DC and servo motors.

| Title | Tags |
| --- | --- |
| Electronic Circuits | 211925, 0, 3 |

**Learning Outcome**

Ability to analyze simple DC and AC circuits using the basic laws of electronics, phasor analysis, and mathematics.
A basic understanding of diodes, transistors, and operational amplifiers, and how they are used.
The ability to analyze simple first order transient circuits including RL and RC circuits.
A basic understanding of frequency response and its applications.

| Title | Tags |
| --- | --- |
| Instrumentation | 180430, 0, 0 |

**Learning Outcome**

The ability to use electronic instruments to test and debug electronic circuits.

| Title | Tags |
| --- | --- |
| Debug | 213746, 0, 3, 2023-08-29 08:43:07 |

**Learning Outcome**

Ability to test and verify a digital system that includes I/O, state machines and combinational networks.

| Title | Tags |
| --- | --- |
| HDL Design | 213747, 0, 4, 2023-08-29 08:43:08 |

**Learning Outcome**

Ability to design combinational and sequential circuits using a modern hardware description language (HDL).

| Title | Tags |
| --- | --- |
| Design Tools | 213748, 0, 5, 2023-08-29 08:43:11 |

**Learning Outcome**

Ability to use modern synthesis and technology mapping tools to implement digital circuits on an FPGA.

## EC EN 330 - Introduction to Embedded System Programming

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| EC EN | 330 |

**Teaching Area**
EC EN
**Course Title**
Introduction to Embedded System Programming
**Course Description**
Understanding the hardware-software interface in an embedded system. Using C and assembly language in device-driver design. Software interfacing to peripherals. Performance and memory issues. Hardware interrupt programming.
**Department**
Electrical&Computer Engr
**When Taught**
Fall

### Credit Hours

Prerequisites

**Complete ALL of the following Courses:**

- EC EN 240 - Circuit Analysis and Laboratory
  **AND** MATH 314 - Calculus of Several Variables
  **AND** MATH 334 - Ordinary Differential Equations
  **AND** MATH 213 - Elementary Linear Algebra

- CHEM 105 - General College Chemistry 1 with Lab (Integrated)
  **AND** MATH 113 - Calculus 2
  **AND** PHSCS 121 - Introduction to Newtonian Mechanics

Prerequisites

**Complete ALL of the following Courses:**

- CHEM 105 - General College Chemistry 1 with Lab (Integrated)
  **AND** MATH 113 - Calculus 2
  **AND** PHSCS 106 - General Physics 2

**Additional Comments:**

**Other Prerequisites**
Freshman-level Understanding of Biology (for example: BIO 100, BIO 103, MMBIO 221, or CELL 120).

**AND** MATH 215 - Computational Linear Algebra
**AND** PHSCS 220 - Introduction to Electricity and Magnetism

**Additional Comments:**

| Title | Tags |
|---|---|
| Electromagnetic Fields | 180220, 3 |

**Learning Outcome**
Ability to analyze the interaction of electromagnetic fields with structures and materials.

| Title | Tags |
|---|---|
| Mathematics | 180234, 0 |

**Learning Outcome**
Application of differential equations to wave propagation.

| Title | Tags |
|---|---|
| Calculus | 180351, 1 |

**Learning Outcome**
Application of integral multivariate calculus to solve for electromagnetic fields.

| Title | Tags |
|---|---|
| Wave Equations | 180405, 2 |

**Learning Outcome**
Application of complex variables to phasor solutions of wave equations.

## EC EN 380 - Signals and Systems

### Course Information

**Teaching Area (new)**
EC EN
**Course Number**
380
**Teaching Area**
EC EN
**Course Title**
Signals and Systems
**Course Description**
Time and frequency domain analysis of discrete or continuous systems subjected to periodic or nonperiodic input signals.
**Department**
Electrical&Computer Engr
**When Taught**
Fall

### Credit Hours

**Min**

## EC EN 390 - Junior Team Design Project

### Course Information

**Teaching Area (new)**
EC EN
**Course Number**
390
**Teaching Area**
EC EN
**Course Title**
Junior Team Design Project
**Course Description**
Culminating design experience based on skills learned in junior-level courses. Students works in teams to plan, design, and test a project based on the integration of components built in other classes.
**Department**
Electrical&Computer Engr
**When Taught**
Winter

### Credit Hours

| Title | Tags |
|---|---|
| Decisions | 180239, 2 |

**Learning Outcome**
Ability to define, understand, and participate in team decision making processes.

| Title | Tags |
|---|---|
| Technology | 180297, 4 |

**Learning Outcome**
Ability to combine new technology with custom built components

| Title | Tags |
|---|---|
| Safety | 180350, 5 |

**Learning Outcome**
Ability to apply safety issues to engineering hardware.

| Title | Tags |
|---|---|
| Design | 180262, 0, 0 |

**Learning Outcome**
Ability to complete a significant

| Title | Tags |
| --- | --- |
| Sampling Theory | 206657, 5 |

**Learning Outcome**
An understanding of the consequences and principles associated with digitally sampling and reconstructing analog signals.

| Title | Tags |
| --- | --- |
| Filter Design | 206658, 7 |

**Learning Outcome**
Ability to interpret and synthesize signals and systems in both the time and frequency domains to meet functional requirements for the junior project.

| Title | Tags |
| --- | --- |
| Laboratory Communication | 206659, 8 |

**Learning Outcome**
Ability to track progress of laboratory experiments following professional lab book practices.

| Title | Tags |
| --- | --- |
| Discrete-Time LTI System | 180204, 0, 2 |

**Learning Outcome**
Application of integral calculus, difference equations, complex variables, to transform analysis of a discrete-time LTI system.

| Title | Tags |
| --- | --- |
| Discrete-Time Convolution Problems | 180256, 0, 4 |

**Learning Outcome**
Application of geometric series and related forms to solve discrete-time convolution problems.

culminating design that draws upon the knowledge gained in prerequisite and concurrently enrolled courses.

| Title | Tags |
| --- | --- |
| Requirements | 180307, 0, 3 |

**Learning Outcome**
Ability to take high level customer requirements, identify from them the specifications a solution must meet, and formulate those specifications as an engineering problem.

# EC EN 433 - Introduction to Robotics and Autonomy

## Course Information

**Course Number**
433

**Teaching Area**
EC EN

**Course Title**
Introduction to Robotics and Autonomy

**Course Description**
In this course, you will learn about the fundamental components of a robotic system and gain hands-on experience developing and debugging a real-world robot. You will also gain a theoretical and practical understanding of essential tools commonly used to develop robotic systems including mathematical concepts (such as coordinate transformations and least-squares optimization), computer vision (pinhole camera models, homography, and basic image processing), planning algorithms (discrete vs continuous, graph search), control theory (PID controllers), and software tools (docker, python, git, and robotics middleware such as ROS).

Prerequisite

**Complete ALL of the following Courses:**

- MATH 213 - Elementary Linear Algebra
  **AND** MATH 215 - Computational Linear Algebra
  **AND** MATH 113 - Calculus 2
  **AND** STAT 201 - Statistics for Engineers and Scientists

**Additional Comments:**

| Other Prerequisites | Recommended |
|---|---|
| Knowledge of C, C++, or Python programming languages. | MATH 314 |

**Fee**
Approximately $75 lab kit fee
**Note**
A lab fee of approximately $75 is required for this course.

| Title | Learning Outcome |
|---|---|
| Robot Motion Modeling, Odometry, and Coordinate Transformations | Students will gain a fundamental understanding of robot motion modeling, odometry, and coordinate transformations and will be able to apply these tools to track a robot's motion and transform sensor data from one frame to another. |

| Title | Learning Outcome |
|---|---|
| Computer Vision and Robotic Perception | Students will gain a fundamental understanding of computer vision and robotic perception including camera/image modeling, basic image processing, and 3D geometry and will be able to apply these tools to enable a robot to detect its lane. |

Learning Outcome

| | |
|---|---|
| **Learning Outcome**<br>Ability to design a bus-based digital I/O device. | |

| | |
|---|---|
| **Title**<br>PID Control | **Learning Outcome**<br>Students will gain a fundamental understanding of PID control and will be able to apply these tools to enable a robot to control its motion or position to a specified command. |

| | |
|---|---|
| **Title**<br>Robotic Planning and Reasoning | **Learning Outcome**<br>Students will gain a fundamental understanding of robotic planning and reasoning and will be able to apply these tools to determine a course of action in an automated fashion. |

| | |
|---|---|
| **Title**<br>Debug and Analyze a Robotic System | **Learning Outcome**<br>Students will be able to debug and analyze an existing robotic system to determine the purpose of existing components and where things may be modified to enable new behaviors. |

| | |
|---|---|
| **Title**<br>Design a Robotic System | **Learning Outcome**<br>Students will be able to analyze a simple use-case/need and design a robotic system to address the proposed problem. |

## EC EN 445 - Introduction to Mixed-Signal VLSI

### Course Information

**Teaching Area (new)**
EC EN

**Course Number**
445

**Teaching Area**
EC EN

**Course Title**
Introduction to Mixed-Signal VLSI

**Course Description**
VLSI circuit design emphasizing mixed-signal circuits such as D/A and A/D converters, phase-locked loops, S/H circuits. Associated laboratory provides layout-design experience.

**Department**
Electrical&Computer Engr

**When Taught**
Fall

### Credit Hours

**Simple Requisites**

**Prerequisites**
**Type**
Prerequisite

Prerequisites

**Fulfill ANY of the following requirements:**

Prerequisites

**Complete ALL of the following Courses:**
- EC EN 301 - Elements of Electrical Engineering.

Prerequisites

**Complete ALL of the following Courses:**
- EC EN 340 - Electronic Circuit Design 1

**Additional Comments:**

| Title | Tags |
|---|---|
| Power Electronics | 206719, 1 |

**Learning Outcome**
Understand the implications of power electronics to power grid systems and electric vehicles.

| Title | Tags |
|---|---|
| Switch mode electronics | 206720, 2 |

**Learning Outcome**
Apply fundamental concepts of switch mode electronics to develop efficient power electronic circuits and components.

| Title | Tags |
|---|---|
| Electric Motors | 206721, 3 |

**Learning Outcome**
Understand the fundamentals of electric motors, including efficiency, derive, and control methods.

| Title | Tags |
|---|---|

| | |
|---|---|
| Industry | 180184, 0, 4 |

**Learning Outcome**
Ability to work with modern CAD tools.

| Title | Tags |
|---|---|
| Moter Drivers | 206722, 4 |

**Learning Outcome**
Apply the concepts of power electronics circuits to control and drive electric motors.

| Title | Tags |
|---|---|
| Power Electronics Testing | 206723, 5 |

**Learning Outcome**
Build, test, and analyze power electronic components in a laboratory setting including DC/DC/ converters, DC/AC inverters, AC/DC rectifiers.

## EC EN 450 - Introduction to Semiconductor Devices

### Course Information

**Teaching Area (new)**
EC EN
**Course Number**
450
**Teaching Area**
EC EN
**Course Title**
Introduction to Semiconductor Devices
**Course Description**
Physics of electronic and optical solid state devices; includes semiconductor materials, bipolar and FET device physics and modeling, optical properties of semiconductors, and lasers.
**Department**
Electrical&Computer Engr
**When Taught**
Fall

### Credit Hours

EC En 450 or concurrent enrollment; or Ch En 481 or concurrent enrollment.

**Prerequisites**
**Type**
Prerequisite

**Complete ALL of the following Courses:**

- CHEM 105 - General College Chemistry 1 with Lab (Integrated) **OR** CHEM 111 - Principles of Chemistry 1
- EC EN 240 - Circuit Analysis and Laboratory **OR** EC EN 301 - Elements of Electrical Engineering.

**Additional Comments:**

| Title | Tags |
|---|---|
| Charge Transport | 180276, 1 |

**Learning Outcome**
Application of differential equations to charge transport in semiconducting material.

| Title | Tags |
|---|---|
| Model p-n Junctions | 180310, 0 |

**Learning Outcome**
Application of basic physical processes to model p-n junctions.

| Title | Tags |
|---|---|
| Modeling MOS and MOS-related Devices | 206661, 2 |

**Learning Outcome**
Application of the physical properties of device building blocks (pn junctions, metal semiconductor interfaces, MOS structures) to model MOSFET and memory device operation.

| Title | Tags |
|---|---|
| Understanding Microfabrication Technology | 206662, 3 |

**Learning Outcome**
Application of basic microfabrication processes to design semiconductor device fabrication process flows.

| Title | Tags |
|---|---|
| Tools | 180159, 2 |

**Learning Outcome**
Ability to use modern microelectronics fabrication equipment.

| Title | Tags |
|---|---|
| Fabricated Devices | 180243, 0 |

**Learning Outcome**
Ability to analyze and interpret data measured from fabricated devices.

| Title | Tags |
|---|---|
| MOSFET Devices | 180309, 1 |

**Learning Outcome**
Ability to design processes for fabrication of MOSFET devices.

## EC EN 462 - Electromagnetic Radiation and Propagation.

### Course Information

**Complete ALL of the following Courses:**
- STAT 201 - Statistics for Engineers and Scientists

| Title | Tags |
| --- | --- |
| Geometric Optics | 205489, 0, 3 |

**Learning Outcome**
Application of linear algebra to find propagation characteristics in media both isotropic and anisotropic.

| Title | Tags |
| --- | --- |
| Light Generation/Detection | 205487, 0, 1 |

**Learning Outcome**
Application of space-bandwidth analysis to geometric and diffractive resolution problems.

| Title | Tags |
| --- | --- |
| Light Modulation | 205488, 0, 2 |

**Learning Outcome**
Application of differential equations to beam analysis problems.

**AND** MATH 213 - Elementary Linear Algebra
**AND** MATH 215 - Computational Linear Algebra
**AND** C S 111 - Introduction to Computer Science

**Complete ANY of the following:**
These:

No selection provided

**Additional Comments:**

**Recommended**
Senior standing recommended.
**Note**
Laptop recommended.

| Title | Learning Outcome |
| --- | --- |
| Foundations | Learn the mathematical foundations of machine learning and be able to show how they are different than other types of analysis and predictive methods. |

| Title | Learning Outcome |
| --- | --- |
| Model Selection and Implementation | Select and implement fundamental machine learning models to solve problems relevant to electrical and computer engineering fields. |

| Title | Learning Outcome |
| --- | --- |
| Model Evaluation and Improvement | Evaluate and improve the performance of different types of fundamental machine learning models. |

| Title | Learning Outcome |
| --- | --- |
| Engineering Applications | Apply machine learning methods to time series data and dynamical systems. |

## EC EN 475 - Capstone Design 1

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| EC EN | 475 |

**Teaching Area**
EC EN
**Course Title**
Capstone Design 1
**Course Description**
First semester of a two-semester design experience from conception to manufacturing planning and prototype. Product development process. Economic and manufacturing considerations. Intellectual property agreement required.

**Title**
Skills in Product Development Economics and Drawing Review

**Tags**
206676, 1

**Learning Outcome**
Develop skills in product development economics and engineering drawing review and checking.

**Title**
Crucial Design Skills

**Tags**
206677, 2

**Learning Outcome**
Develop and demonstrate a deep understanding in some of the following crucial design skill areas: Planning, Discovering, Creating, Representing, Modeling, Prototyping

development through which designs evolve.

| Title | Tags |
| --- | --- |
| Design Evolution | 206670, 2 |

**Learning Outcome**
Understand how the requirements, tests, and design evolve through each stage of development.

| Title | Tags |
| --- | --- |
| Skills in Product Development, Reporting and Presentation | 206671, 5 |

**Learning Outcome**
Develop skills in project planning, idea generation, prototyping, developing engineering models, and conveying information both in writing and orally.

| Title | Tags |
| --- | --- |
| Organizational Policies | 206672, 6 |

**Learning Outcome**
Understand how to work within organizational policies to accomplish important goals.

| Title | Tags |
| --- | --- |
| Project Teamwork | 206673, 7 |

**Learning Outcome**
Demonstrate the ability to use effective team processes, communication, and conflict resolution skills to enhance team synergy, provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.

| Title | Tags |
| --- | --- |
| Analysis and Communication | 206674, 8 |

**Learning Outcome**
As a part of a team, use a real-world problem solving process to develop, solve, and explore appropriate engineering models for your project, and effectively communicate the results of this analysis.

Modeling, Prototyping, Experimenting, Evaluating, Deciding, Conveying.

| Title | Tags |
| --- | --- |
| Team Synergy | 206678, 3 |

**Learning Outcome**
Demonstrate the ability to use effective team processes, communication, and conflict resolution skills to enhance team synergy, provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.

| Title | Tags |
| --- | --- |
| Analysis and Communication | 206681, 4 |

**Learning Outcome**
As a part of a team, use a real-world problem solving process to develop, solve, and explore appropriate engineering models for your project, and effectively communicate the results of this analysis.

| Title | Tags |
| --- | --- |
| Project Deliverables | 206680, 0, 5 |

**Learning Outcome**
Apply the understanding and skills from ME EN/EC EN 475 and the other outcomes from ME EN/EC EN 476 while working with a project sponsor in a team setting to produce desirable and transferable designs, while considering public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.

| Title | Tags |
| --- | --- |
| Ethics | 209662, 0, 6 |

**Learning Outcome**
Recognize ethical and professional responsibilities in engineering situations and make informed decisions, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.

| Title | Tags |
| --- | --- |
| Project Deliverables | 206675, 9 |

**Learning Outcome**
Apply the understanding and skills from other outcomes while working with a project sponsor in a team setting to produce desirable and transferable product information through designing, building, and testing, while considering public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.

| Title | Tags |
| --- | --- |
| Network of Design Activities | 206682, 3 |

**Learning Outcome**
Understand how a design network is used to cause the product information to evolve, and how the map can be customized for specific development projects.

## EC EN 483 - (EC En-Me En 431) Design of Control Systems.

**Learning Outcome**
Ability to simulate digital communication systems using Simulink and Matlab.

| Title | Tags |
|---|---|
| Digital Modulation | 180152, 1 |

**Learning Outcome**
Application of linear algebra in describing digital modulation using the constellation representation.

| Title | Tags |
|---|---|
| PLL Loop Filter | 180245, 4 |

**Learning Outcome**
Ability to design the parameters of a PLL loop filter to meet given performance specifications.

| Title | Tags |
|---|---|
| Statistics | 180246, 2 |

**Learning Outcome**
Application of probability and statistics to bit error rate analysis of digital communication systems.

| Title | Tags |
|---|---|
| Matched Filter Techniques | 180293, 5 |

domain controllers for systems described by linear time-invariant models.

**Learning Outcome**
Ability to apply matched filter techniques to detection.

| Title | Tags |
| --- | --- |
| Fourier Transform | 180322, 0 |

**Learning Outcome**
An understanding of the relationship between the Fourier transform of continuous-time signal and the DTFT of its samples.

**Complete ALL of the following Courses:**

- EC EN 380 - Signals and Systems
  **AND** STAT 201 - Statistics for Engineers and Scientists

**Additional Comments:**

| Title | Tags |
|---|---|
| Probability Theory | 180156, 1 |

**Learning Outcome**
Ability to apply principles of probablity theory for analysis and numerical estimation of power spectral densities.

| Title | Tags |
|---|---|
| DSP functions & Algorithms | 180160, 2 |

**Learning Outcome**
Ability to use basic DSP functions and algorithms (i.e., FIR filters, IIR filters, polyphase systems, windows, FFTs, etc.) to formulate and solve engineering problems.

| Title | Tags |
|---|---|
| Experiments | 180254, 3 |

**Learning Outcome**
Ability to perform experiments with real-world signals and DSP systems, including discrete-time filters, spectrum analyzer, acoustic direction finding, etc.

| Title | Tags |
|---|---|
| Tools | 180278, 4 |

**Learning Outcome**
Ability to use software tools such as Matlab (R) to design, implement, and debug DSP functions.

| Title | Tags |
|---|---|
| Application of Mathematics | 180358, 5 |

**Learning Outcome**
Application of integral calculus, discrete math, and complex variables, and transform theory to discrete-time signal processing.

Prerequisites

**Complete ALL of the following Courses:**

- EC EN 340 - Electronic Circuit Design 1
  **AND** EC EN 380 - Signals and Systems

**Additional Comments:**

**Other Prerequisites**
selected 400-level EC En courses, depending on project

| Title | Tags |
|---|---|
| Collaborative Thinking | 180158, 1 |

**Learning Outcome**
Ability to define, understand, and participate in team decision making processes.

| Title | Tags |
|---|---|
| Record Keeping | 180165, 2 |

**Learning Outcome**
Ability to produce and maintain the necessary control documents on a design team.

| Title | Tags |
|---|---|
| Team behavior | 180193, 3 |

**Learning Outcome**
Ability to establish and follow ground rules governing team behavior.

| Title | Tags |
|---|---|
| Presentation Skills | 180217, 4 |

**Learning Outcome**
Ability to give an oral presentation describing a technical design.

| Title | Tags |
|---|---|
| Expectations | 180222, 5 |

**Learning Outcome**
Ability to understand the expectations from other members on a team.

| Title | Tags |
|---|---|
| Design Standards | 180249, 15 |

**Learning Outcome**
Ability to read, interpret, and use published design standards as a part of the design process.

| Title | Tags |
| --- | --- |
| Leadership | 180250, 6 |

**Learning Outcome**
Ability to assign and accept leadership responsibilities on a team.

| Title | Tags |
| --- | --- |
| Team Dynamics | 180261, 7 |

**Learning Outcome**
Ability to understand the different skill sets each team member brings to a team.

| Title | Tags |
| --- | --- |
| Expectations | 180270, 8 |

**Learning Outcome**
Ability to understand the expectations (regarding participation) of each team member.

| Title | Tags |
| --- | --- |
| Project Completion | 180306, 9 |

**Learning Outcome**
Ability to complete a significant culminating design that draws upon the knowledge gained in prerequisite courses.

| Title | Tags |
| --- | --- |
| Public Speaking | 180321, 10 |

**Learning Outcome**
Ability to give an oral presentation describing team progress during a design review.

| Title | Tags |
| --- | --- |
| Leadership Concepts | 180329, 11 |

**Learning Outcome**
An understanding of the principles of leadership and project management.

| Title | Tags |
| --- | --- |
| Written Communication | 180336, 12 |

**Learning Outcome**
Ability to produce a written report describing a technical design

design.

| Title | Tags |
| --- | --- |
| Problem Solving | 180337, 13 |

**Learning Outcome**
Ability to take high level, customer requirements, identify from them the specifications a solution must meet, and formulate those specifications as an engineering problem.

| Title | Tags |
| --- | --- |
| Documentation | 180354, 14 |

**Learning Outcome**
Ability to maintain a team portfolio documenting the design process.

**Learning Outcome**
Understanding of fundamental reliability concepts and terminology

| Title | Tags |
| --- | --- |
| Reliability Techniques | 180363, 2 |

**Learning Outcome**
Ability to apply common reliability techniques such as redundancy and encoding to improve system reliability

| Title | Tags |
| --- | --- |
| Reliaiblity Analysis | 180364, 3 |

**Learning Outcome**
Ability to mathematically analyze the reliability of

analyze the reliability of computer systems and reliability improving techniques

## EC EN 526 - Wireless Networking

### Course Information

**Teaching Area (new)**
EC EN

**Course Number**
526

**Teaching Area**
EC EN

**Course Title**
Wireless Networking

**Course Description**
Principles and practices of wireless networks, including design, implementation, protocols, and applications. Examination and comparison of popular wireless protocols.

**Department**
Electrical&Computer Engr

**When Taught**
Winter

#### Credit Hours

**Min**
3

**Fixed**
3

#### Lecture Hours

**Fixed**
3

#### Lab Hours

**Fixed**
0

**Other Prerequisites**
CS 235, EC En 330, EC En 380; or equivalents.

**Title**
Network Reliability

**Tags**
211577, 0, 1, 2021-11-30 12:34:35

**Learning Outcome**
Be able to design a reliable network communication protocol, dealing with lost and corrupted data.

**Title**
Network Security

**Tags**
211578, 0, 2, 2021-11-30 12:34:35

**Learning Outcome**
Demonstrate the principles of secure communication in

## EC EN 528 - High Performance Parallel Computing

### Course Information

**Teaching Area (new)**
EC EN

**Course Number**
528

**Teaching Area**
EC EN

**Course Title**
High Performance Parallel Computing

**Course Description**
Explore GPU, multi-core and distributed architectures. Programming topics include forms of parallelism, decomposition, scaling issues, data locality, computation patterns, parallel libraries, languages, and performance analysis. Parallel application examples illustrate design principles and potential performance benefits.

**Department**
Electrical&Computer Engr

**When Taught**
Fall

#### Credit Hours

**Min**
3

**Fixed**
3

#### Lecture Hours

**Fixed**
3

#### Lab Hours

**Fixed**
2

**Other Prerequisites**
EC En 330 or equivalent.

**Recommended**
Strong programming skills are required with exposure to C/C++.

**Title**
Architecture

**Tags**
213755, 0, 1, 2023-08-29 08:44:10

**Learning Outcome**
Ability to compare and contrast parallel computing architectures (GPU, SMP, cluster...).

**Title**
Programming models, libraries

**Tags**
213756, 0, 2, 2023-08-29 08:44:11

secure communication in popular wireless protocols and identify common attack vectors.

| Title | Tags |
| --- | --- |
| Wireless Protocol Design | 211579, 0, 3, 2021-11-30 12:34:35 |

**Learning Outcome**
Evaluate the challenges and trade-offs of designing a wireless protocol. Know the design methodology and design decisions of popular wireless protocols.

| Title | Tags |
| --- | --- |
| Wireless Networking Research | 211580, 0, 4, 2021-11-30 12:34:35 |

**Learning Outcome**
Be capable of reading and understanding research papers in the area of wireless networking.

**Learning Outcome**
Ability to write performant software using common parallel computation patterns (vector, matrix, convolution, stencil...).

| Title | Tags |
| --- | --- |
| Application examples | 213757, 0, 3, 2023-08-29 08:44:12 |

**Learning Outcome**
Acquire a practical knowledge of how parallelism is used effectively in a few application examples (design principles).

| Title | Tags |
| --- | --- |
| Labs | 213758, 0, 4, 2023-08-29 08:44:13 |

**Learning Outcome**
Ability to apply benchmarking techniques and profiling tools to analyze application performance (optimization).

## EC EN 536 - Autonomous Aircraft Guidance, Navigation, and Control

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| EC EN | 536 |

**Teaching Area**
EC EN
**Course Title**
Autonomous Aircraft Guidance, Navigation, and Control
**Course Description**
Dynamics of fixed-wing aircraft fight, stability, and control derivatives, longitudinal and lateral control design; state-space control strategies for aircraft; and autonomous aircraft applications.
**Department**
Electrical&Computer Engr
**When Taught**
Winter

0

Other Prerequisites
ECEn 340, 380; or equivalents

| Title | Tags |
| --- | --- |
| 4 | 180187, 3 |

Learning Outcome
Learn how to use active circuits, resistors, and capacitors to create desired filter responses with no inductors.

| Title | Tags |
| --- | --- |
| 1 | 180194, 0 |

Learning Outcome
Learn the relationship between transfer function pole and zero locations in the Laplace plane and the frequency response of the circuit.

| Title | Tags |
| --- | --- |
| 2 | 180247, 1 |

Learning Outcome
Learn the form of transfer function to lead to Butterworth, Chebyshev,and linear phase filters.

| Title | Tags |
| --- | --- |
| 5 | 180279, 4 |

Learning Outcome
Become familiar with the latest integrated circuit active synthesis methods.

| Title | Tags |
| --- | --- |
| 3 | 180315, 2 |

Learning Outcome
Be able to design passive LC filters with prescribed transfer functions.

## EC EN 542R - Special Topics in Electronics

### Course Information

**Other Prerequisites**
ECEn 443 or 445 or equivalent.

| Title | Tags |
|---|---|
| 2 | 180174, 1 |

**Learning Outcome**
Learn how to design components used such as current mirrors in CMOS amplifier design.

| Title | Tags |
|---|---|
| 4 | 180183, 3 |

**Learning Outcome**
Understand the frequency response and stability problems of op amps.

| Title | Tags |
|---|---|
| 1 | 180320, 0 |

**Learning Outcome**
Understand MOSFET operation at an advanced level.

| Title | Tags |
|---|---|
| 5 | 180342, 4 |

| | |
|---|---|
| 3 | 180342, 4 |

**Learning Outcome**
Learn how to compensate op amps to improve stability.

| Title | Tags |
|---|---|
| 3 | 180359, 2 |

**Learning Outcome**
Learn the basic op amp configurations.

## EC EN 548 - Analog CMOS Circuit Design

### Course Information

**Teaching Area (new)**
EC EN

**Course Number**
548

**Teaching Area**
EC EN

**Course Title**
Analog CMOS Circuit Design

**Course Description**
Design of CMOS switched-capacitor circuits, DAC architectures, ADC architectures, Nyquist and oversampling architectures

**Department**

|---|---|
| 4. | 180157, 3 |

**Learning Outcome**
Understand the technical

A/D circuits.

| Title | Tags |
| --- | --- |
| 1 | 180233, 0 |

**Learning Outcome**
Learn how to characterize comparators, wideband amplifiers, bandgap references, multipliers, PTAT generators, charge transfer amplifiers, and advanced D/A and A/D circuits.

| Title | Tags |
| --- | --- |
| 3 | 180327, 2 |

**Learning Outcome**
Understand the differences between the BJT Gilbert multiplier and the CMOS Gilbert-like multiplier.

Understand the technical specifications that characterize modern wireless systems.

| Title | Tags |
| --- | --- |
| 1. | 180163, 0 |

**Learning Outcome**
Understand the challenges of designing modern wireless circuits such as wireless local area networks, cell phones, Bluetooth, and other systems.

| Title | Tags |
| --- | --- |
| 3. | 180238, 2 |

**Learning Outcome**
Learn the modulation methods and bandwidth requirements for wireless transceivers.

| Title | Tags |
| --- | --- |
| 2. | 180300, 1 |

**Learning Outcome**
Learn the various architectures of wireless transceivers suited to MOSFET circuit design.

| Title | Tags |
| --- | --- |
| 5. | 180311, 4 |

**Learning Outcome**
Learn how to implement components of wireless systems using MOSFET integrated circuits.

## EC EN 550 - (EC En-Me En) Microelectromechanical Systems (MEMS).

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| EC EN | 550 |

**Teaching Area**
EC EN
**Course Title**
(EC En-Me En) Microelectromechanical Systems (MEMS).
**Course Description**
Design, fabrication, and applications of MEMS. Mechanical properties governing their design and reliability and the processing technologies used to fabricate them.
**Department**
Electrical&Computer Engr
**When Taught**

## EC EN 551 - Introduction to Digital VLSI Circuits

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| EC EN | 551 |

**Teaching Area**
EC EN
**Course Title**
Introduction to Digital VLSI Circuits
**Course Description**
Design of very large-scale integrated circuits for digital systems. CAD tools used extensively to simulate the design and create and verify mask circuits.

**Type**
Prerequisite

Prerequisites

**Complete ALL of the following Courses:**

- **AND** EC EN 340 - Electronic Circuit Design 1

**Additional Comments:**

| Title | Tags |
| --- | --- |
| Translate Digital Logic to CMOS Circuits | 180189, 1 |

Learning Outcome
Ability to translate digital logic to CMOS circuits to achieve desired behavior and performance requirements.

| Title | Tags |
| --- | --- |
| CMOS Layout | 180207, 2 |

Learning Outcome
Ability to perform CMOS layout.

| Title | Tags |
| --- | --- |
| Techniques | 180292, 4 |

Learning Outcome
Ability to characterize timing and noise in CMOS circuits.

| Title | Tags |
| --- | --- |

| Tools | 180302, 3 |
|---|---|

Learning Outcome
Ability to use eCAD tools for CMOS design.

| Title | Tags |
|---|---|
| CMOS Circuits | 180334, 0 |

Learning Outcome
Ability to analyze CMOS circuits.

## EC EN 555 - Optoelectronic Devices

### Course Information

| Teaching Area (new) | Course Number |
|---|---|
| EC EN | 555 |

Teaching Area
EC EN
Course Title
Optoelectronic Devices
Course Description
Design, operation, and fabrication of modern optoelectronic devices, including photodiodes, photovoltaics, LEDs, and lasers.
Department
Electrical&Computer Engr
When Taught
Winter Even Years

#### Credit Hours

Min
3

Fixed

Other Prerequisites
EC En 462 or equivalent.

| Title | Tags |
|---|---|
| 2. | 180196, 1 |

Learning Outcome
Ability to use Green's function to model radiation

components - LEDs, lasers, photodiodes, and photovoltaics.

| Title | Tags |
| --- | --- |
| 1. | 180208, 0 |

**Learning Outcome**
Use principles of physics to analyze and design the following optoelectronic components – LEDs, lasers, photodiodes, and photovoltaics.

| Title | Tags |
| --- | --- |
| 3. | 180289, 2 |

**Learning Outcome**
Understand metrics of optoelectronics devices and be able to incorporate them into systems for optimal performance.

model radiation.

| Title | Tags |
| --- | --- |
| 1. | 180210, 0 |

**Learning Outcome**
Ability to analyze propagation in media.

| Title | Tags |
| --- | --- |
| 3. | 180324, 2 |

**Learning Outcome**
Ability to apply electromagnetic theorems to boundary value problems.

## EC EN 562 - Integrated Quantum and Classical Photonics

### Course Information

**Teaching Area (new)**
EC EN
**Course Number**
562
**Teaching Area**
EC EN
**Course Title**
Integrated Quantum and Classical Photonics
**Course Description**
Design, fabrication, and analysis of chip-scale optical circuits. Classical and quantum performance characteristics of several circuit components, as well as applications in computing, sensing, and communications. Students will design a custom integrated photonic circuit, which will be fabricated and tested in a silicon foundry during the semester. Students will analyze their measured devices using the tools learned in the class.

Other Prerequisites
EC En 462, 466; or equivalents.

| Title | Tags |
| --- | --- |
| 4. | 180199, 3 |

Learning Outcome
Become familiar with the modern test and evaluation tools for fiber optic systems, including the OTDR Time Domain Reflectometer (OTDR), Optical Spectrum Analyzer (OSA), and Optical Oscilloscopes for eye diagram analysis.

| Title | Tags |
| --- | --- |
| 3. | 180236, 2 |

Learning Outcome
Examine a topic of current interest in optical systems and make an oral presentation to the class.

| Title | Tags |
| --- | --- |
| 1. | 180263, 0 |

Learning Outcome
Learn the fundamental properties of optical fiber channels, sources and detectors.

| Title | Tags |
| --- | --- |
| 2. | 180332, 1 |

Learning Outcome
Design an optical fiber system while considering the bandwidth, distance required, and expense.

Foundations of Child Development
**Tags**
206951, 1

**Learning Outcome**

Developing Dispositions
Teacher candidates will develop dispositions that are grounded in moral, spiritual, and intellectual understandings that recognize the potential of individual students within the contexts in which they live and develop.
Understanding Child Development
Teacher candidates will understand core issues related to child development. This includes

Describe the curriculum models used in early childhood settings.

| Title | Tags |
| --- | --- |
| Professionalism | 212618, 0, 4, 2022-12-20 16:48:58 |

**Learning Outcome**
Demonstrate the dispositions needed to be an effective early childhood educator.

knowledge about theories of cognitive, linguistic, physical, social, emotional and moral development, and how students develop within the various contexts of early and middle childhood.
Connecting to Classroom Instruction and Assessment
Teacher Candidates will make informed, defensible, and appropriate decisions about classroom instruction and assessment, based on knowledge, that maximizes essential learning and development for all learners.

## ECE 299R - Prek-K Practicum

### Course Information

Learning Outcome

Understand why there are gains from being able to trade and to specialize and, with regard to the latter, be able to explain the difference between comparative advantage and absolute advantage and the importance of comparative advantage in determining what individuals and economies choose to do.
Understand the basic principles of optimization and, in particular, the importance of thinking about "marginal" effects.
Identify and analyze "incentives" and evaluate whether and under what conditions "incentives matter."
Understand the economic model of the behavior of "individuals or entities who have money who want goods or services" (i.e., demand).
Understand the economic model of the behavior of "individuals or entities who have or produce goods or services who want money" (i.e., supply).
Analyze how markets work with regard to 4 and 5 above: prices as incentives; how prices adjust and how demanders and suppliers respond to price changes.
Understand and be able to use the concept of "market equilibrium."
Understand the difference between short run and long run behavior for 4 and 5 above.
Distinguish between and analyze

Distinguish between and analyze short run and long run market adjustments.
Analyze market adjustments using a basic graphical analytical economic model and incorporating 4 through 9 above.
Analyze normative claims for perfectly competitive markets (i.e., "efficiency").
Understand and be able to analyze "market distortions" including: taxes, subsidies, price ceilings, price floors, barriers to entry and prohibited activities using a simple analytical model of supply and demand.
Understand and be able to analyze "market failures" including: market power (monopoly), negative externalities, positive externalities and public goods using a simple analytical model of a supply and demand.
Understand the nature and construction of key macroeconomic data: GDP, real GDP, per capita GDP, per capita real GDP, price indexes (e.g., CPI), money (e.g. M1, M2 etc), labor force and unemployment, Federal deficit, National debt.
Understand the definitions and effects of: inflation/deflation, economic growth/stagnation, business cycles.
Understand the determinants of potential GDP and the growth in potential GDP.
Understand the key elements of, and problems created by, macroeconomic shocks.
Develop a basic understanding of the institutions associated with fiscal policy and monetary policy.
Understand and evaluate fiscal and monetary policy responses to macroeconomic shocks.
Use economics to evaluate the current debates about counter cyclical policies; economic growth policies; and government funding policies (i.e., deficits and debt).

Be familiar with the labor and consumption patterns among the world's poor.
Demonstrate an understanding of how modifying the neoclassical assumptions learned in Econ 110 can affect the welfare implications of markets. In particular, how the welfare implications are affected by Externalities and Public Goods Fixed Costs or Increasing Returns Poorly Enforced Property Rights

Analyze the Solow Growth model and its implications for economic growth.
Explain the functioning of the credit and capital market: Gain a basic understanding of econometric methods used in testing economic theories in growth and development.
How it relates to alleviating poverty and stimulating economic growth.
Why it may be prone to information problems and the

implications of those problems.

Discuss the potential role of government in economic development. Especially as it relates to:
Public Goods and Externalities
Enforcing Contracts
Corruption

Explain the importance of labor, health, and education to the lives of those in developing countries and how these fields relate to improving outcomes among the poor.

## ECON 257 - International Trade and Finance

### Course Information

**Teaching Area (new)**
ECON

**Course Number**
257

**Teaching Area**
ECON

**Course Title**
International Trade and Finance

**Course Description**
Economic analysis of the mechanisms, problems, institutions, and policies of trade among countries. Financial and monetary arrangements that facilitate trade.

**Department**
Economics

**When Taught**
Fall

#### Credit Hours

**Min**
3

**Fixed**
3

#### Lecture Hours

Prerequisites

**Complete ALL of the following Courses:**
- ECON 110 - Economic Principles and Problems

**Additional Comments:**

**Note**
Those who plan to complete ECON 110 through Independent Study must complete the Independent Study course prior to registering for this course.

| Title | Tags |
|---|---|
| Econ 257 students will be able to: | 181983, 0 |

**Learning Outcome**
Explain the key developments (models) in the intellectual history of the study of the patterns of trade in goods and services from Adam Smith through the present.Broadly discuss the evidence which supports or is contrary to the application of these developments to particular countries and goods and services.Analyze policy within the context of these models in order to gain insights about the patterns of trade.Analyze the gains from international trade with these key models and understand the political economy of trade (who gains and who loses from trade).Analyze the patterns, gains, and losses from international trade (migration) in financial and direct foreign investment and labor migration in the short and long runs.Analyze the reasons for international outsourcing portions of production and the gains and losses from doing so.Identify how trade in goods, services, and capital enter the international income accounts and the balance of payments.Discuss how exchange rates affect trade and how trade, fiscal, and monetary policy affects exchange rates.Explain the essential differences in fiscal and monetary effects for floating and fixed exchange rates.Broadly discuss the development of U.S. trade policy and the world institutions that support international trade and finance.

**Prerequisites**
**Type**
Prerequisite

Prerequisites

**Fulfill ANY of the following requirements:**

Prerequisites

**Complete ALL of the following Courses:**
- ECON 110 - Economic Principles and Problems **AND** MATH 112 - Calculus 1

Prerequisites

**Complete ALL of the following Courses:**
- ECON 110 - Economic Principles and Problems **AND** MATH 113 - Calculus 2

**Additional Comments:**

**Note**
If you plan to complete Econ 110 and/or Math 112 through Independent Study, this class cannot be registered for until the Independent Study course is completed.

| Title | Tags |
|---|---|
| Econ 378 students will be able to: | 181915, 1 |

**Learning Outcome**

Demonstrate an understanding of the basic principles and terminology of probability, simple distribution theory, statistics, and matrix algebra in preparation for a successful introduction to econometric methods in Economics 388. These principles and concepts include:

The language, intuition, and notation necessary to understand basic approaches to probability, including basic combinatoric counting techniques, the additive and multiplicative laws of probability, conditional probability and independence, the law of total probability, and Bayes' rule, and to solve basic probability problems using these techniques.
Random variables, both univariate and bivariate, including: distribution functions, density functions, conditional density, expected values, variance, covariance, and correlation coefficients. Specific examples of useful random variables.
Statistics and sampling distributions.
Law of Large Numbers and Central Limit Theorem.
Parameter estimators and their

derivation using the Method of Moments and Method of Maximum Likelihood.
Statistical inference, including the idea of sampling error, sampling distributions, the construction of confidence intervals, and formal hypothesis tests.
Basic matrix theory and the properties of matrix operations, including addition, subtraction, matrix products, matrix determinants, and matrix inversion.

Use these statistical techniques to analyze data in diverse applications.
Recognize the usefulness of statistics in a variety of career fields.

## ECON 380 - Intermediate Microeconomic Theory 1

| Title | Tags |
| --- | --- |
| Econ 381 students will be able to | 181990, 1 |

**Learning Outcome**

Demonstrate an understanding of the nature and construction of key macroeconomic data;
Demonstrate an understanding of the connection between microeconomics and macroeconomics;
Demonstrate an understanding of standard models of economic growth
long-run macroeconomic behavior
short-run macroeconomic behavior

Use these models to analyze the macroeconomic effects of monetary and fiscal policy changes as well as other economic shocks;
Use these models to interpret historical and current events; and
Demonstrate an understanding of issues regarding the value and limitations of monetary and fiscal policy.

**Learning Outcome**

Demonstrate a basic familiarity with the Common Law.
Analyze the incentives created by Common Law tort rules.
Analyze the incentives created by Common Law contract rules.
Distinguish between "property rules" and "liability rules" with regard to property rights.
Evaluate the relative efficiency of specific tort rules.
Evaluate the relative efficiency of specific contract rules.
Analyze the incentives to litigate

Cournot, Stackelberg, and Bertrand models of non-cooperative behavior among a small number of rival firms.
Evaluate the likely effects of Section 2 of the Sherman Antitrust Act using simple analytical models of predation, exclusion, tying, bundling.
Evaluate the likely effects of laws limiting price discrimination, including the Robinson-Patman Act, using simple analytical models of price discrimination.
Evaluate the likely effects of Section 7 of the Clayton Act and the HRS Act using simple analytical models of mergers.
Evaluate public regulation of monopolies as an alternative to relying on antitrust law using simple analytical models of rate-of-return regulation, nonlinear pricing and peak load pricing.
Synthesize the relevant economics and legal literature, including Federal and Supreme Court rulings, via a substantial survey paper on a specific antitrust issue.

or settle under different rules about which party pays the costs of the litigation.
Analyze the incentives created by criminal sanctions.
Synthesize the relevant economics and legal literature, including Federal and Supreme Court rulings, via a substantial survey paper on a specific tort, contract or property issue.

**Learning Outcome**

Utilize economic principles and models to address private and public policy issues related to allocating natural resources and environmental amenities.
Demonstrate an active understanding of the following elements of economic theory as it relates to natural resource and environmental economics:

Welfare economics and concepts of Pareto optimality, efficiency, and equity
The role of property, property rights, and the bundle of rights concept
The role of externalities, common property resources, and public goods
Concepts and measures of economic value including non-market valuation.

Demonstrate a basic knowledge of the role of markets and market failure with regards to the allocation of natural resources and environmental amenities.
Gain a basic understanding of the effects and relative merits of public environmental policy efforts, including cap-and-trade schemes, Pigovian taxes, regulation, and public ownership and/or management.
Become knowledgeable about and be able to use economic principles and non-market valuation techniques to address a variety of continuing and contemporary natural resource and environmental issues. These issues may include, but are not exclusive to:

Population growth and the environment
Global warming
Wilderness protection and related public lands issues
Air pollution and public health
Intergenerational allocation of soil, forest, and other depleteable natural resources
Impacts of environmental features on property values.

| Title | Tags |
|---|---|
| Econ 453 students will be able to | 181922, 1 |

**Learning Outcome**

Summarize the broad empirical evidence regarding the long-run and short-run relationships between money and inflation and money and output. Demonstrate a fundamental

identifying when potential investment projects satisfy these assumptions.
Use linear regression to calculate an asset's historical sensitivity to broad market indices, its implied historical mispricing and an estimate of the asset's idiosyncratic risk. Students should also be capable of performing hypothesis testing on these values.
Replicate traditional tests of the CAPM using currently available data.
Be capable of collecting and analyzing asset market data to estimate the efficient frontier of risky assets using either Excel or another software package. Students should also be able to understand the efficient frontier mathematically and the reasons that it is useful.
Calculate the present value of a stream of payments given an appropriate discount factor. Students should know how to use the CAPM to derive potential discount factors for payment streams.
Calculate the yield to maturity of a stream of payments given an observed price. Students should also understand the relationship between the coupon rate of traditional bonds, their price and their yield to maturity.
Calculate forward rates for all future periods given the observed yield curve.
Understand the liquidity preference theory of bond markets as well as the expectations hypothesis. They should also be able to price complicated payment streams using observations of the yield curve and the expectations hypothesis.
Calculate the duration and modified duration of a stream of payments and use these to calculate optimal hedges given an arbitrary position in the fixed income market.
Calculate and understand bond convexity and its role (along with duration) in hedging.
Price forward contracts by arbitrage given a risk-free rate.
Price futures contracts whose payoffs are not correlated with the market reinvestment rate.
Understand currently used hypotheses regarding futures

knowledge of the institutional and regulatory structure of the U.S. financial system.
Explain the macroeconomic role of central banks with special emphasis on the role of the Federal Reserve System in the U.S. economy.
Demonstrate an active understanding of the following elements of modern monetary theory:

The role of expectations, especially rational expectations
Solve simple rational expectations models
Analyze the rudimentary new Keynesian dynamic stochastic general equilibrium models
Theories of the transmission mechanism of monetary policy

Identify the current issues in the conduct of monetary policy.
Demonstrate a general understanding of the causes and consequences of financial crises with a focus on the financial crisis of 2007-2009.
Identify and evaluate the principal issues regarding financial regulation.

hypotheses regarding futures contract pricing.
Understand the structure of call and put options.
Price put options given a call option (and vice versa) using the put-call parity relationship.
Apply the Black-Scholes option pricing formula to price call and put options given beliefs about the volatility of the underlying asset.
Apply the Black-Scholes option pricing formula to calculate the implied volatility of an asset given its price.

ECON 382

| Title | Learning Outcome |
|---|---|
| Gains from Trade | Use economic modeling to explain why all kinds of nations--rich and poor, large and small--gain from international trade. |
| Comparative Advantage | Explain comparative advantage, its sources, and how it creates gains from trade. |
| Other Sources of Gains from Trade | Explain how economies of scale and the reduction of market power can also generate gains from trade. |
| Losses from Trade | Identify who might lose from trade even when nations as a whole gain from trade. |
| International Migration and Capital Flows | Use economic modeling to explain what drives human migration and international capital flows and analyze their benefits and costs. |
| Trade Policies | Analyze how trade policies affect national welfare and how such policies help some while hurting others. |
| Trade Politics | Use models of trade to analyze how political forces shape trade policies. |

Prerequisites

**Fulfill ANY of the following requirements:**

Prerequisites

**Complete ALL of the following Courses:**

- ECON 381 - Intermediate Macroeconomics
  **AND** ECON 388 - Introduction to Econometrics

Prerequisites

**Complete ALL of the following Courses:**

- ECON 380 - Intermediate Microeconomic Theory 1
  **AND** ECON 381 - Intermediate Macroeconomics
  **AND** POLI 300 - Statistical Analysis

**Additional Comments:**

| Title | Tags |
|---|---|
| Econ 459 students will be able to | 181924, 1 |

**Learning Outcome**

Demonstrate a familiarity with the key issues in two broad fields:

International Finance, particularly exchange rate behavior,
Open Economy Macroeconomics.

Discuss the nature of the foreign exchange market, including:

It's market organization
The role of vehicle currencies
The instruments traded
The role of arbitrage.

Understand and use models of exchange rate behavior:

Covered and uncovered interest rate parity
Long-run monetary and equilibrium models.

Understand financial portfolio theory to the extent that it is useful in explaining exchange rate behavior, including:

The determination of risk premia
How it may explain the "forward bias" puzzle.

Discuss the history of the international financial system since the late 1700's.
Discuss the international aspects of the national income and product accounts, along with the balance of payments accounts.
Apply simple dynamic models of consumption smoothing to the

current account.

## ECON 461 - Economics of Education

### Course Information

**Teaching Area (new)**
ECON

**Course Number**
461

**Teaching Area**
ECON

**Course Title**
Economics of Education

**Course Description**
Evaluation of education policy from an economic perspective, focusing on the benefits and costs of policy outcomes. Introduction to quantitative methods used by empirical education researchers.

**Department**
Economics

**When Taught**
Fall; Winter.

### Credit Hours

**Min**
3

**Fixed**
3

**Complete ALL of the following Courses:**
- ECON 380 - Intermediate Microeconomic Theory 1
- ECON 388 - Introduction to Econometrics

**Additional Comments:**

| Title | Learning Outcome |
|---|---|
| Theory | Use models to analyze education production, human capital formation, and the role of incentives. |

## ECON 463 - Economics of the Labor Market

### Course Information

**Teaching Area (new)**
ECON

**Course Number**
463

**Teaching Area**
ECON

**Course Title**
Economics of the Labor Market

**Course Description**
Economic analysis and institutional background of labor markets in developed countries, particularly the United States. Typical topics include labor supply and demand analysis, determination of wages and employment, investment in education, wage differences by gender and race, immigration, and unions.

**Department**
Economics

**When Taught**
Fall and Winter

Required Prerequsites

**Complete ALL of the following Courses:**
- ECON 380 - Intermediate Microeconomic Theory 1 **AND** ECON 388 - Introduction to Econometrics

**Additional Comments:**

| Title | Learning Outcome |
|---|---|
| Benchmark Labor Market Analysis | Use standard optimization models to analyze labor supply, labor demand, and their interactions. |

| | |
|---|---|
| Title<br>Policy | Learning Outcome<br>Evaluate education policy options by using economics research findings to analyze costs and benefits and to identify unintended consequences. |
| Title<br>Current Issues | Learning Outcome<br>Evaluate current issues in education, such as teacher labor markets, K-12 policies, higher education, and other nations' policies. |
| Title<br>Literature | Learning Outcome<br>Evaluate the economics of education research literature by studying how seminal papers have shaped the field and by analyzing how current "cutting edge" papers are expanding knowledge frontiers. |
| Title<br>Quantitative Research Tools | Learning Outcome<br>Demonstrate an understanding of the quantitative research tools that empirical education economists use to conduct research, including cross sectional and panel data models, techniques to account for selection bias, and methods to identify causal effects. |

| | |
|---|---|
| Title<br>Higher Level Labor Market Analysis | Learning Outcome<br>Use other models to analyze more complex labor market phenomena, such as job search, human capital choices, risky occupations, union wage setting, and behavior under alternative compensation schemes. |
| Title<br>Institutions | Learning Outcome<br>Analyze key U.S. labor market institutions, with a focus on how government programs affect labor supply and wages. |
| Title<br>Literature Analysis | Learning Outcome<br>Evaluate how high quality labor economics empirical research relates to model predictions. |
| Title<br>Empirical Research | Learning Outcome<br>Complete an empirical project demonstrating competence in basic econometric techniques. |

## ECON 465 - Health Economics

### Course Information

**Teaching Area (new)**
ECON
**Course Number**
465
**Teaching Area**
ECON
**Course Title**
Health Economics
**Course Description**
Economic models of health-care markets, including the supply and demand for health and health care, insurance, market imperfections, public-sector involvement, and regulation.

| Title | Tags |
|---|---|
| Econ 468 students will be able to | 181927, 1 |

**Learning Outcome**

Demonstrate an understanding of the role of transportation costs in determining land uses and land prices.Demonstrate a familiarity with the monocentric city model of land use and its use in understanding the impact of local land use and transportation policies.
Apply the basic models of housing demand and the role of filtering in determining the stock of housing in a city.
Demonstrate an understanding of the economic concepts of external costs and how these play a role in air pollution and highway congestion. Apply the concept of Pigouvian pricing as a solution to externality problems in the case of highway congestion.
Discuss the role of time costs in consumers' choice of transportation mode, and why collection and distribution parts of urban trips are so important in

determining the proper design of mass transit
systems. Demonstrate an understanding of the role of economies of scale in efficient mass transit design.
Use the basic economic model of "rational" crime to predict the impact of various anti-crime policies.

## ECON 474 - Topics in Economic History

This course is currently not being taught and will be deleted in an upcoming curriculum year.

**Additional Comments:**

| Title | Tags |
|---|---|
| Econ 475 students will be able to | 181928, 1 |

**Learning Outcome**

Discuss the revenue, expenditure, and debt patterns of the U.S federal government.
Analyze how modifying the neoclassical assumptions learned in 380 can affect the welfare implications of markets. In particular, how the welfare implications are affected by

Externalities and Public Goods
Fixed Costs or Increasing Returns
Poorly Enforced Property Rights
Information Problems
Hyperbolic Discounting or Loss Aversion

Demonstrate an understanding of the function and incentive effects of the major redistribution programs in the United States.
Discuss the efficiency and distributional effects of taxation and the theory of optimal taxation for both income and commodity taxes.
Read papers in the public economics literature and

Provide written and oral critiques of the papers
Apply modern tools of econometric analysis in discussing the papers

## ECON 476 - Industrial Organization

### Course Information

**Teaching Area (new)**
ECON
**Course Number**
476
**Teaching Area**
ECON
**Course Title**
Industrial Organization
**Course Description**
Industrial organization focuses on firm behavior in imperfectly competitive markets. Typical topics include the acquisition and use of market power by firms, strategic interactions among firms, and an introduction to noncooperative game theory.
**Department**
Economics
**When Taught**

## ECON 477 - Political Economics

### Course Information

**Teaching Area (new)**
ECON
**Course Number**
477
**Teaching Area**
ECON
**Course Title**
Political Economics
**Course Description**
Economic models of government structure and function: electoral competition, voter participation and cycles, preference aggregation, information aggregation, externalities and public goods, electoral structure, political agency, influence, and bargaining.
**Department**
Economics
**When Taught**

When Taught
Fall and Winter

**Additional Comments:**

| Title | Tags |
|---|---|
| Econ 477 students will be able to | 181989, 1 |

**Learning Outcome**

Understand fundamental collective action problems and solutions.
Identify benefits and limitations of democratic processes.
Identify parallels between political competition adn market competition.
Compare the strategic incentives created by alternative votiing rules and other political institutions.
Identify puzzles that remain unexplained by modern political economic analysis.
Recognize key assumptions implicit in political debate.

Discuss the role of government in the market in determining antitrust policy, patent policy, and regulation.
Read, synthesize, and write short review papers on applied or empirical papers from the industrial organization literature.

## ECON 478 - Game Theory and Economics

### Course Information

**Teaching Area (new)**
ECON
**Course Number**
478
**Teaching Area**
ECON
**Course Title**
Game Theory and Economics
**Course Description**
Application of game theory to study strategic interaction between individuals and organizations. Applications include imperfect competition, insurance markets, and bargaining.

**Additional Comments:**

| Title | Tags |
|---|---|
| Econ 581 students will be able to | 181988, 1 |

**Learning Outcome**

Acquire a toolset for analyzing modern macroeconomic models. Demonstrate an understanding of basic dynamic stochastic general equilibrium (DSGE) macroeconomic modeling, including:

How to set up a model.
How to render it stationary, if necessary.
How to solve for the model's steady state both analytically and numerically.
How to solve for the model's

dynamics using various numerical techniques.
How to calibrate the model.
How to simulate the model economy.
How to generate impulse response functions.
How to generate data moments.
How to estimate model parameters using simulated method of moments

Use MATLAB and Dynare, software packages widely used in macroeconomic model simulation.
Demonstrate an understanding of other macroeconomic models, such as:

Overlapping generations (OLG) models.
Continuous-time Ramsey-style models.

Estimate and interpret structural vector autoregression (SVAR) empirical models.
Demonstrate an understanding of current issues being addressed in macroeconomics research.
Be prepared to perform well in the macroeconomics classes in the top Ph.D. programs in economics.

Econ 588

**Tags**
181934, 1

**Learning Outcome**

Demonstrate a familiarity with the properties and applications of several families of statistical distributions to econometric problems.
Demonstrate an understanding of variations and generalizations of the basic regression model including

Generalized least squares
Generalized autoregressive conditional heteroskedasticity models
Instrumental variables
Seemingly unrelated regression models
Panel data
Hausman specification tests.

Demonstrate an understanding of estimation frameworks in econometric models including

Parametric, semiparametric, and non parametric specifications
Maximum likelihood, M-, generalized method of moments, kernel, empirical likelihood, and extremum estimation.

Formulate and estimate various

nonlinear models.
Identify and estimate autoregressive integrated moving average (ARIMA) models and obtain forecasts of economic variables.
Demonstrate an understanding of dynamic (and static) structural econometric models including being able to discuss

Reduced form, structural, and transfer function representations
The identification problem
Issues of estimation and statistical inference
Vector autoregression models.

Complete a research project in which they formulate a research question, apply appropriate methods to answer the question, and prepare a paper summarizing their results.

**Title**
Historical and Philosophical Foundations of Education

**Tags**
178144, 0

**Learning Outcome**
Teacher candidates understand the major philosophical, historical, and sociological movements in Western education, including the nature of man, external structure, and individual freedom.

**Title**
Social Foundations of Education

**Tags**
178145, 1

**Learning Outcome**
Teacher candidates examine central issues and contexts of education (e.g., wealth and poverty, school and family, alternative delivery systems, school and democracy, school and law, religion and education). They will also explore political and policy issues confronting education, governance and structure of public education, and financial and economic aspects of education.

**Title**
Personal and Professional Philosophy of Education

**Tags**
178146, 2

**Learning Outcome**
Teacher candidates reflect upon and articulate their own views of education and connect these views to their future professional practice and personal educational philosophy.

**Title**
Moral Foundations of Education

**Tags**
178147, 3

**Learning Outcome**
Teacher candidates investigate their own role as professionals engaged in the American proposition that education is a moral responsibility necessary for a civil and prosperous democratic society. They will understand the vision and purposes of the BYU-Public School Partnership and BYU's commitments to public

education and its role in American society and will examine the moral commitments of education adopted by the Partnership.

0

| Title | Tags |
| --- | --- |
| Formulate research questions | 178054, 3 |

**Learning Outcome**
Formulate complex research questions regarding development.

| Title | Tags |
| --- | --- |
| Effective communication | 178058, 4 |

**Learning Outcome**

Communicate scientific issues and follow the development of knowledge.

**Title**
Critical examination of development architectures

**Tags**
178066, 4

**Learning Outcome**
Examine strengths and weaknesses of development architectures--particularly in relation to key problems and issues like poverty, exclusion, gender, empowerment and dignity, sustainability, capabilities and functioning and human rights. Learn to question the "Washington Consensus" wisdom and existing systems, structures, and models are working and, if not, what might work instead.

**Title**
Education a powerful tool for enlarging opportunity freedom, eliminating inequalities, and for overcoming poverty and other disadvantages.

**Tags**
178185, 0

**Learning Outcome**
Education is a powerful tool for creating opportunities, eliminating inequalities, and enabling people to overcome poverty and other disadvantages. Educational development and poverty reduction are, therefore, integrally linked issues in comparative and international education and development research. Students will understand how governments, international governmental organizations (IGOs), international non-governmental organizations (INGOs), and other institutions create as right-holders can create educational opportunities and support educational systems that develop leadership and foster learning and creativity for all people. These questions and other outcomes explored in this course will enable students to:

Introduce students to the complexities of the reservoir of diverse intellectual ideas and traditions in education;
Articulate these understandings in making more thoughtful, responsible and better informed decisions in

**Title**
Understand development dimensions

**Tags**
178060, 5

**Learning Outcome**
Develop a more effective understanding of the economics, social, and political dimensions of educational development within and across national boundaries.

**Title**
Critical reflection on theories

**Tags**
178068, 1

**Learning Outcome**
Locate, understand, and critically review development theories and research within their respective disciplines and within the interdisciplinary field of Development Studies

**Title**
Development analysis

**Tags**
178087, 2

**Learning Outcome**
Analyze relevant development phenomena in a complex manner using key concepts and theories studied during the course.

**Title**
Understanding development paradigms and critical reflection on poverty and human development

**Tags**
178140, 0

**Learning Outcome**
Identify and critically reflect upon issues and theories of poverty and human development
The Specific Objectives of the Course are as Follows:

Understand the way in which different educational systems, pedagogical approaches, and organizational structures have evolved in a variety of cultures and country contexts;
Explain the role that education plays in global social,

their own research and practice, and in their own reading and use of research in the field;

Understand issues of equity and equality of educational opportunities and outcomes for differently situated social groups, especially those who historically have been most discriminated against;

Synthesize the knowledge and discussions regarding the concept of education in poverty and human development, so as to inform their definition, draw on the extensive policy and academic literatures available to propose relationships between the multidemsionalities of poverty and five related concepts: educational poverty, rights in education and right to education, human rights, and well-being and happiness;

Acquire a critical methodology that should prepare students for second cycle studies as well as for making contribution as mid-level policy-makers in agencies or practitioners in NGOs.

political and economic development;

Develop the ability to think logically and critically, and to apply knowledge from multiple disciplines to various contexts;

Develop the ability to reflect on, understand, and respond to complex international and intercultural issues relating to human rights, right to education, rights in education and development; and

Develop the ability to locate, identify, and use sources of information from multiple disciplines to understand and address issues related to education.

| Title | Tags |
| --- | --- |
| Establish mathematics goals | 212863, 0, 8 |

**Learning Outcome**
Establish mathematics goals that accommodate students' varied mathematical trajectories and align appropriately with state content and practice standards as well as informal and formal assessments of student thinking.

| Title | Tags |
| --- | --- |
| Select and/or design worthwhile mathematical tasks | 212856, 0, 1 |

**Learning Outcome**
Select and/or design worthwhile mathematical tasks according to the research-based learning trajectories that characterize learning in the five mathematical domains.

| Title | Tags |
| --- | --- |
| Anticipate student mathematical thinking | 212858, 0, 3 |

**Learning Outcome**
Anticipate student mathematical thinking (for planning lessons and/or units, orchestrating discourse, questions, etc.) according to the research-based learning trajectories that characterize learning in the five mathematical domains.

## EL ED 493R - Independent Readings or Project

| --- | --- |
| EL ED | 496R |

**Teaching Area**
EL ED
**Course Title**
Academic Internship
**Course Description**

Independent Reading or Project
**Course Description**
Students meet with the instructor to assemble an individualized reading program in Elementary Education and agree upon the topic and organization of the course.
**Department**
Teacher Education
**When Taught**
Contact Department

### Credit Hours

**Min**
0.5

**Fixed**
4

### Lecture Hours

**Fixed**
0

### Lab Hours

**Fixed**
3

**Other Prerequisites**
Departmental approval

| Title | Tags |
|---|---|
| Professional Development | 178757, 0 |

**Learning Outcome**
Students will explore and demonstrate knowledge in an area of specialization under the direction of a faculty member.

A full-year classroom teaching internship in the public schools.
**Department**
Teacher Education
**When Taught**
Fall

### Credit Hours

**Min**
8

**Fixed**
12

**Other Prerequisites**
Prior application; requires a total GPA of 2.70, at least a C grade in all major and minor courses; FBI fingerprint background clearance.
**Note**
NOTE: See Education Student Services for application dates. NOTE: An APPROVED Internship Application is required before adding.

| Title | Tags |
|---|---|
| El Ed 496R Course Outcomes | 178884, 0, 1 |

**Learning Outcome**
Participating in the Public School Setting
The intern will:

reflect with the intent to improve practice.
establish and maintain an effective learning environment.
effectively manage children in all facets of a school setting.
be a full-time teacher for one school year.
apply knowledge from various content courses as they relate to teaching in an elementary classroom.
apply knowledge of various pedagogical methods for planning, teaching, and assessing and when they are most appropriate.
consistently engage collaboratively with colleagues and parents.
demonstrate high levels of professionalism during their internship.
create a Praxis Performance Assessment for Teachers (PPAT) that measures their skills in using contextual factors, planning, assessment, lesson design, interpretation of student performance, and reflection.

### Course Information

**Teaching Area (new)**
EMBA

**Course Number**
595A

**Teaching Area**
EMBA

**Course Title**
Intentional Principles for Leading and Thriving: Razor's Edge

**Course Description**
Principles and practices for intentionally thriving on three levels: 1) personally, 2) in their family, and 3) as business leaders. Review of the literature around the myths of happiness, and exploration of motivation (self-determination theory) and positive psychology (positive emotion, engagement, relationships, meaning and achievement). Implications of technology, nature, a 3-day learning adventure provides an experiential context to live and experience the principles studied in a real world context. Each student creates a plan to thrive.

Demonstrate basic proficiency in reading and interpreting LDS literature

| Title | Tags |
| --- | --- |
| Effective Writing and | |

| Title | Tags |
| --- | --- |
| Genres | 191826, 2 |

**Learning Outcome**
We will familiarize ourselves with biblical genres and conventions ranging from parable to proverb, from typology to type scene, from paradox to parallelism in order to enhance our ability to read ourselves into biblical statements.

| Title | Tags |
| --- | --- |
| Personal Application | 191827, 3 |

**Learning Outcome**
We will apply the advantages of the reading practices we discover through our Bible reading-such techniques as reading between the lines, thinking against the grain, likening to ourselves-to texts beyond the Bible, ideally as far as into daily life. We will learn to apply biblical insights to ourselves through practice in likening scriptural narrative and poetry and wisdom to our own experience.

| Title | Tags |
| --- | --- |
| Critical and Historical Contexts | 191828, 4 |

**Learning Outcome**
We will expand our perceptions of biblical texts by viewing them through a wide spectrum of critical approaches and by investigating their implications through the lens of their historical context.

| Title | Tags |
| --- | --- |
| Written Analysis | 191829, 5 |

**Learning Outcome**
We will enhance our ability to express our hard-earned individual insights into biblical texts by writing research-intensive essays and answering probing literary questions about the Bible.

| Title | Tags |
| --- | --- |
| Life-long Learning | 191830, 6 |
| Communication | 191458, 2 |

**Learning Outcome**
Demonstrate your understanding of LDS literature through written and oral assignments, including papers and exams.

| Title | Tags |
| --- | --- |
| History, Context, Genres and Themes, and Ethics | 191713, 2 |

**Learning Outcome**
Explain the historical and literary contexts, genres and themes, and ethical dimensions of representative works of LDS literature.

**Learning Outcome**
We will in all these ways make the Bible "a source of practical wisdom, spiritual insight, and aesthetic pleasure, a vital perspective upon history and the diversity of human experience, and a guide for making ethical choices in our daily lives" not just for this class but forever, initiating a process of study of the Bible that at its best is as long and as deep as life.

Title
Persuasive Analysis of Folklore Texts

Tags
191358, 0, 1, 2021-09-28 12:38:26

Learning Outcome
Create and share a persuasive analysis of folklore texts in context by using logical reasoning and critical analysis.

Title
Categories of Folklore, Folk Narrative, Folk Groups

Tags
191359, 0, 2, 2021-09-28 12:38:26

Learning Outcome
Identify three categories of folklore, four types of folk narrative, and eight folk groups.

Title
Folkloristic Observations

Tags
191360, 0, 3, 2021-09-28 12:38:26

Learning Outcome
Produce several brief folkloristic observations and document those observations using established formats.

Title
Recording and Archiving Local Traditions

Tags
191361, 0, 4, 2021-09-28 12:38:26

Learning Outcome
Identify and apply some methods of recording and archiving local traditions using moral discrimination, creative imagination, and independent thought.

Title
Perpetuating or Extinguishing Traditional Practices

Tags
191362, 0, 5, 2021-09-28 12:38:26

Learning Outcome
Explain the choices and forces that help perpetuate or extinguish traditional practices, both locally and globally.

Title
Theory of Folklore

Tags
191363, 0, 6, 2021-09-28 12:38:27

Learning Outcome
Identify the shaping functions

Recommended
ENGL 303 - Ways of Reading. (3) or ENGL 295 - Writing Literary Criticism. (3)

Title
Categories of Folklore, Folk Narrative, and Folk Groups

Tags
191366, 0, 1, 2021-09-28 12:38:46

Learning Outcome
Identify three categories of folklore, four types of folk narrative, and eight folk groups.

Title
Documenting Folklore

Tags
191365, 0, 2, 2021-09-28 12:38:47

Learning Outcome
Identify and apply some methods of recording and archiving local traditions in order to analyze rigorously American texts and artifacts in context of the construction and transmission of the American experience.

Title
Differing Worldviews

Tags
191367, 0, 3, 2021-09-28 12:38:47

Learning Outcome
Relate worldview with the performance of traditions, comparing similarities and differences of groups with differing worldviews and obtaining a wider view of American history and diversity.

Title
Intelligent Reasoning

Tags
191368, 0, 4, 2021-09-28 12:38:47

Learning Outcome
Reason intelligently in oral and written discourse while allowing that traditions are meaningful to participants in places and times different from your present circumstances.

Title
Connecting Folklore Studies

Tags
191369, 0, 5, 2021-09-28 12:38:47

Learning Outcome
Work independently to connect folklore studies with other course work and life experiences and goals.

identify the shaping functions and theory of folklore.

| Title | Tags |
| --- | --- |
| Fieldwork Project | 191364, 0, 7, 2021-09-28 12:38:27 |

**Learning Outcome**
Produce a focused fieldwork project which includes, among other requirements, an essay, collection, and consent forms created according to the William A. Wilson Folklore Archive.

| Title | Tags |
| --- | --- |
| Perpetuating or Extinguishing Traditional Practices | 191370, 0, 6, 2021-09-28 12:38:47 |

**Learning Outcome**
Become engaged with personal, group, and aesthetic dynamics in the performance of traditions and question ethically the choices and forces that help perpetuate or extinguish traditional practices, both locally and globally.

**Recommended**
Europ 200 and Hist 250

| Title | Tags |
| --- | --- |
| Analysis of Historical and Cultural Heritage Sites | 200200, 1 |

**Learning Outcome**
Students should be able to accurately and intelligently discuss the historical sites the program visited and explain how the events that occurred there proved pivotal to the development of the nation or Europe as a whole. Site visits should directly correspond with class discussions and reading and writing assignments.

**Title**

Learning Outcome
Students will extend and deepen their understanding of a wide range of important European writers, thinkers, artists, movements, and genres. Besides learning to interrogate the potential strengths and limitations of generalized notions of "European culture," students will develop a comparative sense of regional or national departures from or variations upon literary and artistic norms. Assessment measures: course exams and research papers, graduation exit exams and focus groups.

Title
Familiarity with analytic and interpretive modes from the humanities

Tags
200221, 2

Learning Outcome
Students will become conversant in many of the critical, descriptive, and interpretive modes characteristic of discourse in humanistic disciplines. They will learn to analyze works of European literature and visual art from formal, aesthetic, philosophical, and socio-political perspectives. Assessment measures: course exams and research papers, senior papers for capstone course (EUROP 490R), graduate focus groups.

Title
Developing intellectual curiosity and aesthetic sensibilities

Tags
200222, 3

Learning Outcome
Students will come to understand what it means to be "cultured" in European society and will develop the intellectual curiosity, aesthetic sensibilities, habits, and tastes to fuel a life-long study of the best European literature, cinema, and art. Assessment measures: graduate focus groups, alumni surveys.

Title
Application of Political and Historical Understanding to Other Disciplines

Tags
200201, 2

Learning Outcome
Students should demonstrate the ability to appropriately and constructively draw upon their knowledge of European history and politics when visiting churches or museums and interpreting the region's literature, art, music, and theater.

Title
Comparative Political Understanding

Tags
200202, 3

Learning Outcome
Students should show a comparative understanding of European and American political systems (e.g., constitutional monarchy, written vs. unwritten constitutions, presidents vs. prime ministers, etc.).

Title
Global Awareness 1: Participating in Current Global Debates

Tags
200203, 4

Learning Outcome
Students should demonstrate sufficient familiarity with today's most pressing European and/or national socio-political issues to offer informed views in class debates, conversations with locals, and discussions with associates in the U.S.

Title
Global Awareness 2: Europe in a Globalized, Postcolonial Age

Tags
200204, 5

Learning Outcome
Students should reveal an informed understanding of historical and contemporary European contacts with and assimilation of non-Western cultures (e.g., imperialism, decolonization, immigration).

Title
Historical Knowledge

Tags
200205, 0

Learning Outcome

Students will demonstrate a general understanding of the historical development of modern Europe (or of the nation or region upon which the course focuses). While students should emerge with a basic sense of all major historical periods, not all eras need receive equal coverage. A course taught in Florence, for instance, would presumably focus more heavily on the Renaissance than the eighteenth century.

Title
Consumers of Academic Research

Tags
213002, 0, 1

Learning Outcome
Skillfully consume academic research.

Title
Foundational Research Knowledge

Tags
213003, 0, 2

## EXSC 151 - Introduction to Exercise Sciences

### Course Information

Course Number
151

Teaching Area
EXSC

Course Title
Introduction to Exercise Sciences

Course Description
Provides new majors with an overview of the Exercise Sciences majors and department. Includes a general review of the field of exercise science and specifically addresses expectations for course work and timelines (MAP review), details on similarities and differences between the undergraduate major options (Exercise Sciences and Exercise and Wellness), introduction to the Master of Athletic Training program, and opportunities for internship and research. Also presents opportunities for introductions to EXSC faculty, career options and possibilities (presentations by practicing allied health professionals), college/university advisement and counseling resources, and post-graduate education options.

Title
EXSC Overview

Learning Outcome
Students will be able to explain the role of Exercise Science in society from a historical, contemporary, and future perspective.

Title

Learning Outcome
Students will explain the similarities and differences in the undergraduate majors offered in the Department of

Learning Outcome
Demonstrate knowledge of research methods.

Title
Conversant on Current Knowledge

Tags
213004, 0, 3

Learning Outcome
Discuss current research related to experience design and management.

Title
Literature Review

Tags
213005, 0, 4

Learning Outcome
Write a brief literature review using academic resources.

Title
Familiarity with Academic Careers

Tags
213006, 0, 5

Learning Outcome
Describe the professional life of an academic.

Title
Familiar with Graduate Programs

Tags
213007, 0, 6

Learning Outcome
Discover relevant graduate programs; describe the admissions process and funding opportunities.

EXSC Majors

Exercise Sciences.

Title
EXSC Opportunities and Resources

Learning Outcome
Students will demonstrate understanding of Exercise Science opportunities related to research, internship, volunteer, certifications, and post-graduate work. Students will also demonstrate knowledge of pertinent resources available through college advisement, university counseling, university accessibility, and career services.

Title
EXSC Careers

Learning Outcome
Students will demonstrate basic understanding of potential career options upon graduating with a bachelors degree in Exercise Sciences and what specific careers entail.

Title
Spiritually Strengthening

Learning Outcome
Students will discuss and appreciate the divine nature of the human body, recognize the diversity of exercise sciences and it's role in future related occupations.

## EXSC 221 - Science of Wellness

### Course Information

Teaching Area (new)
EXSC

Course Number
221

Teaching Area
EXSC

Course Title
Science of Wellness

Course Description
A comprehensive study of the science of wellness of the whole individual. The science of wellness draws principles from exercise sciences, biological sciences, behavioral and social sciences. The research from psychoneuroimmunology (PNI) supports specifically the holistic wellness paradigm whose focus is that every aspect of each human being, the body, mind and spirit, are involved in all wellness activities and all wellness activities affect the whole individual.

## EXSC 320 - Basic Athletic Training

### Course Information

Teaching Area (new)
EXSC

Course Number
320

Teaching Area
EXSC

Course Title
Basic Athletic Training

Course Description
Recognition, evaluation, and care of athletic injuries. Techniques in taping, preventing, and rehabilitating injuries.

Department
Exercise Sciences

When Taught
Fall, Winter, Spring

activities and all wellness activities about the whole individual. Students will discover this new paradigm and experience the blending of the sciences to support the integrated nature of our being.

360
**Teaching Area**
EXSC
**Course Title**
Exercise Is Medicine
**Course Description**
This course introduces and provides evidence for the notion that physical activity promotes optimal physical, mental, and spiritual health and is integral in the prevention and treatment of many medical conditions. Students will read and discuss current literature supporting exercise as a powerful adjunct to modern medical treatment strategies. In-class experience will involve a team-based learning approach, discussion of case studies, and practice learning and sharing with others the life-changing truth that exercise is indeed the best medicine.

### Lecture Hours

**Fixed**
2

**Note**
*Syllabus to be added to supporting documents.

| Title | Learning Outcome |
|---|---|
| 1. Divine nature of the human body | 1. Students will be able to recognize the divine nature of the human body as a tabernacle for their spirit, realizing that proper care of body also heals mind and spirit |

| Title | Learning Outcome |
|---|---|
| 2. Sedentary behavior and disease | 2. Students will be able to cite research evidence linking sedentary behavior to the pathophysiology of multiple disease states and early mortality |

| Title | Learning Outcome |
|---|---|
| 3. Exercise prevents and treats disease | 3. Students will be able to inspire others to action using compelling evidence that exercise may prevent development and even treat symptoms of numerous mental and physical ailments |

| Title | Learning Outcome |
|---|---|
| 4. Modality-specific therapeutic benefits | 4. Students will be able to describe specific benefits of different exercise modalities when used as therapeutic strategies for improving health and wellness |

| Title | Learning Outcome |
|---|---|
| 5. Promote healthy aging | 5. Students will be able to design exercise interventions for specific individuals who want to optimize physiological processes and enhance resilience against common age-related health conditions |

Learning Outcome
Become proficient scientific communicators through oral, visual, and written means.

| Title | Tags |
| --- | --- |
| Balance | 211760, 0, 6 |

Learning Outcome
Balance an individual's considerations with group conclusions in decision-making.

| Title | Tags |
| --- | --- |
| Informed Decision-Making | 211761, 0, 7 |

Learning Outcome
Use systematic research practices to make informed decisions in all aspects of life.

## EXSC 460 - Orthopaedic Impairments and Therapeutic Exercise

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| EXSC | 460 |

**Teaching Area**
EXSC
**Course Title**
Orthopaedic Impairments and Therapeutic Exercise
**Course Description**
Fundamentals of body mechanics and therapeutic exercise, coupled with kinesiological principles for detection and correction of basic neuromusculoskeletal anomalies.
**Department**
Exercise Sciences
**When Taught**
Fall and Winter

### Credit Hours

**Min**
3

**Fixed**
3

### Lecture Hours

**Fixed**
3

### Lab Hours

**Fixed**
2

**Simple Requisites**

**Prerequisites**
**Type**
Prerequisite

**Complete ALL of the following Courses:**

- EXSC 387 - Lifestyle and Chronic Disease Prevention
  **AND** EXSC 463 - Exercise Physiology

**Additional Comments:**

| Title | Tags |
|---|---|
| Health Promotion Concept | 201466, 1 |

**Learning Outcome**
Be able to demonstrate an understanding of the health promotion concept, historical background of worksite health promotion programs, and the rationale for companies to provide a health promotion program. This objective will be accomplished through class lecture/discussion and students will be evaluated through quizzes and exams.

| Title | Tags |
|---|---|
| Worksite Health Promotion Program | 201468, 7 |

**Learning Outcome**
Develop a worksite health promotion program through a semester class project.

| Title | Tags |
|---|---|
| Health Displays | 201469, 8 |

**Learning Outcome**
Have the opportunity to work in conjunction with a team to develop a health display to be presented to the class.

| Title | Tags |
|---|---|
| Components of Worksite Health Promotion Programs | 201703, 2 |

**Learning Outcome**
Better understand each of the following components in the design and execution of a worksite health promotion program: determining needs and interests of employers and employees, writing vision/mission/goal statements, best practices, creating a company culture of wellness, launching a program, incentives/rewards, and company wellness policies. This will be accomplished through lectures and a semester project.

Prerequisites

**Complete ALL of the following Courses:**

- CELL 220 - Human Anatomy (with lab)
  **AND** EXSC 440 - Advanced Musculoskeletal Human Anatomy (includes lab)

**Additional Comments:**

| Title | Tags |
|---|---|
| Osteokinematic and Arthrokinematic Movement | 201438, 2 |

**Learning Outcome**
Demonstrate an understanding of traditional, osteokinematic and arthrokinematic movement

| Title | Tags |
|---|---|
| Postural Evaluation | 201440, 4 |

**Learning Outcome**
Be able to perform a postural evaluation, both grossly and at individual joints

| Title | Tags |
|---|---|
| Etiology | 201441, 5 |

**Learning Outcome**
Demonstrate an understanding of the etiology, clinical significance and treatment of congenital and acquired orthopedic impairments of the upper and lower extremities and trunk.

| Title | Tags |
|---|---|
| Writing Therapeutic Exercise Programs | 201442, 6 |

**Learning Outcome**
Where applicable, be able to write a therapeutic exercise program for the orthopedic impairments discussed in class.

| Title | Tags |
|---|---|
| Normal and Pathologic Gait | 201443, 7 |

**Learning Outcome**
Demonstrate an understanding of normal and pathologic gait

| Title | Tags |
|---|---|
| Basic Orthopedic Terminology | 201732, 1 |

| Title | Tags |
| --- | --- |
| Health Assessments | 201704, 3 |

**Learning Outcome**
Increase understanding of effective health assessments and how to interpret the assessments. This will be accomplished through lectures and evaluated through quizzes and exams.

| Title | Tags |
| --- | --- |
| Evaluating Programs | 201705, 4 |

**Learning Outcome**
Increase understanding of how to effectively evaluate programs. This will be accomplished through lectures and evaluated through quizzes and exams.

| Title | Tags |
| --- | --- |
| Practical Experience | 201706, 6 |

**Learning Outcome**
Gain practical experience and learn from experts in the field. This will be accomplished through the following: 1) each student will critique an existing worksite wellness program and present the findings to the class, 2) approximately 5 class periods will be devoted to studying transcripts of various interviews with experts in the field, and 3) 5 class periods will include visiting lecturers who are currently working in the field.

| Title | Tags |
| --- | --- |
| Essential Elements | 201467, 0, 5 |

**Learning Outcome**
Be able to demonstrate the essential elements of common worksite health promotion programs such as physical activity, nutrition, weight management, medical self-care, stress management, substance abuse/tobacco control, and back care programs. This will be accomplished through lectures and class presentations.

**Learning Outcome**
Upon completion of this class students will be able to accomplish the following: Demonstrate an understanding of basic orthopedic terminology dealing with posture, movement and pathology.

| Title | Tags |
| --- | --- |
| Therapeutic Exercise | 201439, 0, 3 |

**Learning Outcome**
Demonstrate an understanding of therapeutic exercise: particularly active-resistive exercise, manual muscle testing and manual exercise and stretching.

## EXSC 462 - Clinical Biomechanics

### Course Information

**Complete ALL of the following Courses:**
- CELL 362 - Advanced Physiology

**Additional Comments:**

**Recommended**
Concurrent enrollment in ExSc 464

**Note**
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at https://is.byu.edu/catalog/EXSC-463-M002.

Learning Outcome
Describe anatomical structures involved in common musculoskeletal disorders.

| Title | Tags |
| --- | --- |
| Epidemiology | 211182, 0, 3 |

Learning Outcome
Understand the epidemiology related to aforementioned disorders.

| Title | Tags |
| --- | --- |
| Tissue Mechanics | 211180, 0, 1 |

Learning Outcome
Understand basic mechanical principles guiding tissue mechanics.

| Title | Tags |
| --- | --- |
| Healthy Mechanics & Pathomechanics | 211183, 0, 4 |

Learning Outcome
Identify biomechanical (cellular level/tissue level mechanics, as well as system-level mechanics) principles important to a comprehensive understanding of key components of common musculoskeletal disorders.

| Title | Tags |
| --- | --- |
| Scientific Literature & Presentation Skills | 211184, 0, 5 |

Learning Outcome
Identify biomechanical (cellular level/tissue level mechanics, as well as system-level mechanics) principles important to a comprehensive understanding of key components of common musculoskeletal disorders.

https://byu.bloodhub.com/catalog/...

| Title | Tags |
| --- | --- |
| Nervous System | 201567, 2 |

Learning Outcome
Describe the function of sympathetic, parasympathetic, and somatic motor neurons, including differences in structure, neurotransmitters, receptors and efferent organs.

| Title | Tags |
| --- | --- |
| Depolarization of Skeletal Muscle | 201568, 3 |

Learning Outcome
Describe the depolarization of skeletal muscle beginning at the spinal cord and ending with the contraction of the muscle fiber.

| Title | Tags |
| --- | --- |
| Cardiovascular System | 201569, 5 |

Learning Outcome
Describe the normal anatomy and physiology of the heart, blood, and blood vessels; describe the normal function of the cardiovascular system at rest and during exercise.

| Title | Tags |
| --- | --- |
| Anaerobic and Aerobic Metabolic Pathways | 201571, 7 |

Learning Outcome
Describe the substrates used, amount and rate of ATP resynthesized, metabolic end products, and control of anaerobic and aerobic metabolic pathways.

| Title | Tags |
| --- | --- |
| System Interaction | 201572, 8 |

Learning Outcome
Describe the interaction of the nervous, muscle, cardiovascular, pulmonary, and metabolic systems at rest and during exercise.

| Title | Tags |
| --- | --- |
| Adaptation to Physical Conditioning | 201573, 9 |

Learning Outcome

Learning Outcome
Describe the responses to acute bouts of exercise and the mechanisms of the observed response, and the physiological adaptations which occur as a result of physical conditioning.

| Title | Tags |
| --- | --- |
| Principles of Physical Conditioning | 201574, 10 |

Learning Outcome
Describe the physiological rationale for applying the eight principles of physical conditioning to improve health, fitness, and performance.

| Title | Tags |
| --- | --- |
| Skeletal Muscle Fiber Types | 201723, 4 |

Learning Outcome
Describe the anatomical, physiological, and functional differences between the three types of human skeletal muscle fibers.

| Title | Tags |
| --- | --- |
| Appreciation for How the Human Body Functions | 201566, 0, 1 |

Learning Outcome
Describe how the human body functions and maintains homeostasis during the increased metabolic demands of exercise.

| Title | Tags |
| --- | --- |
| Transportation and Diffusion of O2 and CO2 | 201570, 0, 6 |

Learning Outcome
Describe the transportation and diffusion of O2 and CO2 through the pulmonary and systemic circuits at rest and during exercise.

**Title**
Experiencing and Applying Knowledge of Exercise Physiology
**Tags**
201707, 0, 1

**Learning Outcome**
The purpose of this laboratory course is to experience basic exercise physiology principles regarding the cardiovascular, respiratory, metabolic and skeletal muscle systems. The labs are designed to give students practice in assessing and thinking critically about the physiology of exercise.

EXSC 466
**Teaching Area**
EXSC
**Course Title**
Introduction to Electrocardiograms
**Course Description**
Cardiovascular physiology and conduction pathways of the heart. Resting and exercise 12-lead ECG preparation, recording and interpretation of normal ECG patterns, myocardial infarctions, and common atrial and ventricular arrhythmias. This course takes an approach to understanding ECGs applicable to students in exercise science-related fields of study and occupations, including the allied health or medical professions.

**Complete ALL of the following Courses:**
- CELL 305 - Human Physiology

**Additional Comments:**

**Title**
Nervous System and Depolarization of the Heart
**Tags**
201781, 0, 1

**Learning Outcome**
Explain the neural innervation of the heart and the control of heart rate.
Describe the normal depolarization of the heart including conduction pathways.
Describe and draw the vectors of the normally depolarized heart.

| Title | Tags |
| --- | --- |
| Interpretation of ECGs | 201784, 0, 4 |

**Learning Outcome**
Explain the "view" of the heart from the perspective of each ECG lead.
Describe the normal P wave, PR segment, QRS complex, J point and T wave in each of the 12 leads of an ECG.
Describe the appearance of wave forms in contiguous and reciprocal leads.
Recognize a normal rhythm and the characteristics of variations of the normal sinus rhythm, early repolarization, conduction blocks, atrial and ventricular premature or junctional beats, fibrillations, tachycardias, flutters, ventricular hypertrophy, and acute coronary syndromes.

| Title | Tags |
| --- | --- |
| Laboratory Skills and Practices | 201787, 0, 8 |

**Learning Outcome**
Prepare a subject for and record a resting 12-lead ECG.
Evaluate a resting ECG using the 9 Steps to Interpret an ECG.

| Preparing to Certify as an HFS | 201540, 0 |

**Learning Outcome**
Prepare to certify as a Health and Fitness Specialist (HFS) through the American College of Sports Medicine (ACSM)

overweight/obesity in adults and children.

## EXSC 488 - Motor Control

### Course Information

**Course Number**
488
**Teaching Area**
EXSC
**Course Title**
Motor Control
**Course Description**
This upper level exercise sciences course will synthesize neuromuscular and biomechanical principles from other courses in the department (i.e., EXSC 362, 440 and 463) and introduce new physiological principles that direct healthy, purposeful control of voluntary movement. Course concepts will include (1) neuromuscular anatomy and physiology, (2) biomechanics of single- and multi-joint systems, (3) current questions and pressing problems related to healthy and pathological control of voluntary movement, (4) current approaches to improving athletic performance, and (5) overcoming orthopedic and neuromuscular impairments.

| Mentored Student Learning | 201473, 1 |

**Learning Outcome**
To provide the undergraduate student with a mentored learning experience specifically in exercise science related research

| Title | Learning Outcome |
| --- | --- |
| Therapeutic application of motor control concepts | Students will be able to indentify therapeutic interventions to treat common neuromuscular and musculoskeletal pathologies that impair voluntary movement through the application of motor control concepts. |

| Title | Learning Outcome |
| --- | --- |
| Evaluate lay and scientific literature to locate and identify sound science and recommendations | Students will learn to critically evaluate related peer-reviewed scientific literature as well as confidently navigate the lay literature and media to become effective advocates for reasonable interpretations of good science. |

| Title | Learning Outcome |
| --- | --- |
| Communicate within the discipline | Students will be able to effectively communicate (speak, listen, write, and read) about current issues in applied motor control to a typical practitioner and patient population. |

| Title | Learning Outcome |
| --- | --- |
| Understand principles of anatomy and physiology | Students will demonstrate understanding of the anatomical and physiological facets of the neural, muscular and skeletal systems that are important to control of able-bodied voluntary movement. |

| Title | Learning Outcome |
| --- | --- |
| Increased appreciation for the blessing of the physical body | Students will consider how the work of exercise and rehabilitation helps us to follow Heavenly Father's plan for us to use and respect our bodies. |

## EXSC 514 - Advanced Athletic Training Lab

### Course Information

Teaching Area (new): EXSC
Course Number: 514
Teaching Area: EXSC
Course Title: Advanced Athletic Training Lab
Course Description: Advanced athletic training skills, including taping, bracing and splinting, custom-fitted equipment, massage and stretching techniques, and emergency splinting and transport.
Department: Exercise Sciences
When Taught: Fall

#### Credit Hours

Min: 1
Fixed: 1

#### Lecture Hours

Fixed: 0.5

#### Lab Hours

Fixed: 0.5

Recommended
EXSC 320 and 321

| Title | Tags |
|---|---|
| Immediate and Emergency Care | 208432, 0, 3 |

Learning Outcome
Implement appropriate emergency treatment strategies including, but not limited to, establishing and maintaining an airway in a patient wearing shoulder pads, headgear or other protective equipment and/or with a suspected spinal injury, in multiple sports settings.

## EXSC 515 - Therapeutic Interventions 1, Modalities

### Course Information

Teaching Area (new): EXSC
Course Number: 515
Teaching Area: EXSC
Course Title: Therapeutic Interventions 1, Modalities
Course Description: Principles of therapeutic interventions: healing, hydrotherapy, massage, traction, radiant energy, heat, cold, electrotherapy and rehabilitation. Application of healing and therapeutic modality theories to injured athletes and physically active individuals.
Department: Exercise Sciences
When Taught: Fall

#### Credit Hours

Min: 3
Fixed: 3

#### Lecture Hours

Fixed: 3

#### Lab Hours

Fixed: 0

Recommended
EXSC 320

| Title | Tags |
|---|---|
| Treatment and Rehabilitation Using Superficial Heat | 208436, 0, 2, 2019-07-01 11:39:45 |

Learning Outcome
Select according to appropriate parameters and properly prepare and apply: moist heat pack, paraffin treatment, warm whirlpool treatment, fluidotherapy.

**Title**
Injury/Illness Prevention and Wellness Protection

**Tags**
208430, 0, 1

**Learning Outcome**
Select, fabricate, and apply appropriate protective equipment, including taping, wrapping procedures, splints, braces, and other special protective devices.
Apply protective equipment and transport as part of the comprehensive, proactive emergency action plan (EAP).

**Title**
Clinical Evaluation and Diagnosis

**Tags**
208431, 0, 2

**Learning Outcome**
Apply special tests and diagnostic instruments (ie, otoscope, stethoscope, ophthalmoscope, peak flowmeter, chemical "dipsticks" [or similar devices]) to accurately diagnose patients.

**Title**
Therapeutic Interventions

**Tags**
208433, 0, 4

**Learning Outcome**
Apply special tests and diagnostic instruments (ie, otoscope, stethoscope, ophthalmoscope, peak flowmeter, chemical "dipsticks" [or similar devices]) to accurately diagnose patients.

**Title**
Use of Electrotherapy in Decreasing Pain and Muscle Spasm

**Tags**
208437, 0, 3, 2019-07-01 11:39:45

**Learning Outcome**
Select according to appropriate parameters and properly prepare and apply electrical stimulation units: monophasic stimulator (eg, high volt stimulation), biphasic stimulator (eg, TENS, NMES), direct current (eg, iontopheresis), alternating current (eg, interferential, NMES).

**Title**
Use of Deep Heat to Decrease Pain, Swelling, Muscle Spasm, and Atrophy

**Tags**
208438, 0, 4, 2019-07-01 11:39:45

**Learning Outcome**
Select according to appropriate parameters and properly prepare and apply thermal and nonthermal direct/indirect ultrasound treatment, sustained acoustic medicine (SAM) and pulsed shortwave diathermy.

**Title**
Use of Traction for Decreasing Pain and Muscle Spasm

**Tags**
208439, 0, 5, 2019-07-01 11:39:45

**Learning Outcome**
Select according to appropriate parameters and properly prepare and apply: mechanical traction, manual traction, positional traction.

**Title**
Therapeutic Interventions

**Tags**
208435, 0, 1, 2019-07-01 11:39:45

**Learning Outcome**
Select according to appropriate parameters, and properly prepare and apply the treatment for rehabilitation of physical injury using massage, contrast bath, cryokinetics, cold whirlpool treatment, controlled cold therapy unit, ice bag, vapo-coolant spray, ice immersion.

## EXSC 516 - Orthopedic Evaluation 1: Lower Extremities

### Course Information

**Teaching Area (new)**
EXSC

**Course Number**
516

**Teaching Area**
EXSC

**Course Title**
Orthopedic Evaluation 1: Lower Extremities

**Course Description**
Advanced principles of lower-extremity injury evaluation; evaluation techniques for the lower extremities.

**Department**
Exercise Sciences

**When Taught**

| Title | Tags |
| --- | --- |
| Clinical Evaluation Skills | 208449, 0, 2, 2019-07-01 11:43:28 |

**Learning Outcome**
Measure the active, passive, and resistive joint range of motion for the entire body, including manual muscle testing.

| Title | Tags |
| --- | --- |
| Neurologic Evaluation | 208450, 0, 3, 2019-07-01 11:43:28 |

**Learning Outcome**
Perform circulatory and neurological testing, including cranial nerve testing; identify dermatomes, myotomes, and reflexes.

| Title | Tags |
| --- | --- |
| Orthopedic Evaluation | 208451, 0, 4, 2019-07-01 11:43:28 |

Learning Outcome
Accurately measure the active, passive, and resistive motion using commonly accepted techniques, including the use of a goniometer, tape measure, and inclinometer.

| Title | Tags |
| --- | --- |
| Neurological Diagnosis | 210521, 0, 5 |

Learning Outcome
Assess neurological status, including cranial nerve function, myotomes, dermatomes and reflexes, and circulatory status.

| Title | Tags |
| --- | --- |
| Mechanism of Injury | 210523, 0, 7 |

Learning Outcome
Explain and/or demonstrate mechanisms of common injuries in various sports.

| Title | Tags |
| --- | --- |
| Diagnosis | 208441, 0, 2, 2019-07-01 11:42:38 |

Learning Outcome
Diagnose injuries through interpretation of clinical evaluation by observing, palpating, and testing tissues to determine pathologies.
Grade manual muscle testing and apply appropriate stress tests for ligamentous, capsular stability or muscle, and fractures.

| Title | Tags |
| --- | --- |
| Documentation | 210522, 0, 6 |

Learning Outcome
Document the results of all of the assessments including the diagnosis.

Learning Outcome
Perform orthopedic special tests to determine the stability of joints and ligaments.

| Title | Tags |
| --- | --- |
| Evaluation of Movement and Posture | 210536, 0, 6 |

Learning Outcome
Identify and demonstrate mechanisms of common injuries in athletic participation.

| Title | Tags |
| --- | --- |
| Clinical Evaluation and Diagnosis | 208452, 0, 5, 2019-07-01 11:43:28 |

Learning Outcome
Palpate bones and soft tissues, including the abdomen, internal organs, and structures to determine normal or pathological characteristics.

| Title | Tags |
| --- | --- |
| Environmental Issues | 210537, 0, 7 |

Learning Outcome
Identify and treat causes of environmental illness and trauma including both cold and heat related illnesses.

| Title | Tags |
| --- | --- |
| Diagnostic Evaluation Tools | 208448, 0, 1, 2019-07-01 11:43:28 |

Learning Outcome
Diagnose conditions by utilizing orthopedic special tests.
Understand the differences in MRI, Bone Scan, CT Scan, Imaging Ultrasound, when each is used, and the indications and contraindications of each.

| Medical Conditions | 208458, 0, 1, 2019-07-01 11:44:18 |

**Learning Outcome**
Diagnose a variety of medical conditions, given the supervising physician's direction.

| Title | Tags |
|---|---|
| Therapeutic Interventions | 208460, 0, 3, 2019-07-01 11:44:18 |

**Learning Outcome**
Write plans based on the surgeon's approach to repair and rehabilitation for orthopedic injuries.

| Title | Tags |
|---|---|
| Treatment of Athlete Illnesses | 208459, 0, 2, 2019-07-01 11:44:18 |

**Learning Outcome**
Collaborate with the medical doctor's approach to treat common illnesses and disease.

| Title | Tags |
|---|---|
| Athletic Trainer's | |

Learning Outcome
Exams, case studies, laboratories and a final project will be used to evaluate student's ability to synthesize and apply therapeutic exercise, range of motion and manual therapy techniques to enhance the goals within a rehabilitation plan for athletic injury.

Tags
208456, 0, 4, 2019-07-01 11:44:00

Title
Return to Play

Learning Outcome
Exams, case studies and a final project will be used to evaluate student's ability to synthesize the different goals of rehabilitation to be combined for any injury and condition and apply these concepts to return the patient to full activity.

Title
Rehabilitation Application to the Big Picture

Tags
208457, 0, 5, 2019-07-01 11:44:00

Learning Outcome
Exams and the final project will be used to evaluate student's ability to place rehabilitation techniques on the continuum of care in association with proper diagnosis and other therapeutic interventions and modalities.

Professionalism

Tags
208461, 0, 4, 2019-07-01 11:44:18

Learning Outcome
Participate in scenarios that simulate the athletic trainer's role as it pertains to a team approach with the physician and other health care professionals.

## EXSC 563 - Environmental Physiology

### Course Information

Teaching Area (new)
EXSC

Course Number
563

Teaching Area
EXSC

Course Title
Environmental Physiology

Course Description
Study environmental stressors and physiological responses (neuromuscular, cardiovascular, cellular energy metabolism) during exposure to heat, cold, high altitude, hyperbaric diving, and zero-G. Examine how various physiological systems function during acute exposure to these environmental extremes.\n\n

Department
Exercise Sciences

When Taught
Winter Odd Years

## FHSS 200 - Introduction to Civic Engagement Leadership

## FHSS 399R - Internship in Civic Engagement

### Course Information

**Teaching Area (new)**
FHSS

**Course Number**
399R

**Teaching Area**
FHSS

**Course Title**
Internship in Civic Engagement

**Course Description**
This course helps students engage in a series of experiences, while on their internship, that allow them to develop and demonstrate understanding of key competencies in professional contexts. Students will learn how to harness intention, reflection, and integration of new learning to translate the value of their internship into a compelling, evidence-based narrative, tailored to an audience's needs and expectations.

**Department**
1018

**When Taught**
All Semesters/Terms

#### Credit Hours

**Min**
1

**Fixed**
9

**Other Prerequisites**
Internship must be approved in advance by the Director of the Office of Civic Engagement Leadership or Director of the Washington Seminar Internship Program.

**Note**
An APPROVED Internship Application is required before adding.
https://link.byu.edu/INTERN01

**Learning Outcome**
1. Students will draw from their unique internship contexts to develop key professional competencies.

**Learning Outcome**
2. Students will translate the value of their professional development experience through evidence-based narrative.

| Discuss historical and theoretical trends in language teaching | 213813, 0, 1, 2023-08-29 09:08:07 |

Learning Outcome
Discuss major historical trends and theories of second language acquisition in world language teaching

Articulate and defend clear, orderly thought on cultural topics.

## FREN 378 - French Teaching Methods 2

### Course Information

**Teaching Area (new)**
FREN
**Course Number**
378
**Teaching Area**
FREN
**Course Title**
French Teaching Methods 2
**Course Description**
Designing and practicing instruction for French classes in secondary schools. Developing teaching, critical thinking, and assessment skills. Second course in a two-semester sequence for French Teaching majors and minors.
**Department**
French & Italian
**When Taught**
Winter

### Credit Hours

**Fixed**
3

### Lecture Hours

**Fixed**
3

**Other Prerequisites**
For French Teaching Majors or Minors only; Fren 377; fingerprinting and FBI clearance.
**Note**
Taught in French and English.

**Title**
Implement standards- and proficiency-based lesson planning
**Tags**
213821, 0, 1, 2023-08-29 09:08:24

**Learning Outcome**
Plan effective language lessons that help students meet each of the World-Readiness Standards for Learning Languages and promote language proficiency as outlined in the ACTFL Proficiency Guidelines.

**Title**
Plan instructional units using innovative approaches
**Tags**
213822, 0, 2, 2023-08-29 09:08:26

**Learning Outcome**

## FREN 379 - French Teaching Practicum

### Course Information

**Course Number**
379
**Teaching Area**
FREN
**Course Title**
French Teaching Practicum
**Course Description**
Implementing meaningful and engaging instruction in secondary school French classes; developing critical thinking, problem solving, literacy, and democratic character.
**Department**
French & Italian
**When Taught**
Winter

### Credit Hours

**Fixed**
1

**Learning Outcome**
Complete Languages of Learning and Global & Cultural Awareness for General Education.

Teacher may waive prerequisite based on prior experience.

| Title | Tags |
| --- | --- |
| Recognize and Analyze | 195651, 1 |

**Learning Outcome**
Recognize and analyze the most important genres in target-language literature.

| Title | Tags |
| --- | --- |
| Key Characteristics | 195653, 2 |

**Learning Outcome**
Identify and discuss key characteristics of the most important literary movements in the target culture.

| Title | Tags |
| --- | --- |
| Context | 195656, 3 |

**Learning Outcome**
Place literature in a meaningful cultural and historical context.

| Title | Tags |
| --- | --- |
| Language Skills | 195657, 4 |

**Learning Outcome**
Improve target-language reading, writing, and speaking skills.

## GA 350 - Advanced Language Study for Career Purposes: Ga

### Course Information

Prerequisites

**Complete ALL of the following Courses:**

- GA 330 - Advanced Language Proficiency Through Cultural Studies: Ga

**Additional Comments:**

| Title | Tags |
|---|---|
| Defined Career Purposes | 195660, 1 |

Learning Outcome
Develop overall language and cultural competence needed to study and begin entry into a career agreed upon by the Center for Language Studies.

| Title | Tags |
|---|---|
| Knowledge | 195663, 2 |

Learning Outcome
Carry out research to identify, understand, and discuss standards, processes, people and cultural norms associated with the target career.

| Title | Tags |
|---|---|
| Interpretive Competence | 195664, 3 |

Learning Outcome
Understand, interpret and analyze advanced-level written

Geography
When Taught

| Title | Tags |
|---|---|
| Explain Your Major | 182852, 2 |

Learning Outcome
Be able to explain to your parents, spouse, children, neighbor, a complete stranger why you are a geography major.

| Title | Tags |
|---|---|
| Conceptualize Geography | 182853, 1 |

Learning Outcome
Develop your own personal conceptual framework for the idea and disciplinary development of geography.

| Title | Tags |
|---|---|
| Know Your Faculty | 182854, 3 |

Learning Outcome
Be able to identify all of the faculty members in the department by name and area of interest.

| Title | Tags |
|---|---|
| Careers and Graduate school | 182855, 4 |

Learning Outcome
Be able to identify and target possible careers related to your program emphasis and/or potential graduate schools.

analyze advanced-level written and oral texts on topics related to the target career.

| Title | Tags |
| --- | --- |
| Communicative Competence | 195665, 4 |

**Learning Outcome**
Communicate effectively at the advanced-level in order to function in a variety of situations likely to be encountered when dealing with native speakers who are associated with the target career. This will include interpersonal communication and both written and oral presentational communication.

| Title | Tags |
| --- | --- |
| Cultural Competence | 195666, 5 |

**Learning Outcome**
Interact with cultural competence and understanding when dealing with native speakers who are associated with the target career.

## GEOG 101 - Global Environment: Understanding Physical Geography

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOG | 101 |

**Teaching Area**
GEOG
**Course Title**
Global Environment: Understanding Physical Geography
**Course Description**
Physical environment, distribution and interrelationships of climates, landforms, ecosystems and their human significance.
**Department**
Geography
**When Taught**
Fall, Winter, Summer

### Credit Hours

Note
Offered by BYU Independent Study; enroll anytime throughout the year; one year to complete; additional tuition required; register at is.byu.edu.

| Title | Tags |
| --- | --- |
| Outcome 1 | 182856, 1 |

Learning Outcome
To be conversant in the language and vocabulary of physical geography.

| Title | Tags |
| --- | --- |
| Outcome 2 | 182857, 2 |

Learning Outcome
Appreciate the extraordinary powers and delicate balances involved in the dynamic biophysical world in which you live.

| Title | Tags |
| --- | --- |
| Outcome 3 | 182858, 3 |

Learning Outcome
Make rational decisions with respect to current and future environmental challenges.

| Title | Tags |
| --- | --- |
| Outcome 4 | 182859, 4 |

Learning Outcome
Understand why biophysical phenomena occur where they do.

## GEOG 120 - Geography and World Affairs

0

| Title | Tags |
| --- | --- |
| Dimensions of disasters | 182754, 1 |

Learning Outcome
Define and categorize environmental hazards along several dimensions, and situate disasters within their physical and societal contexts

| Title | Tags |
| --- | --- |
| Application of scientific principles and reasoning | 182755, 2 |

Learning Outcome
Use scientific principles and reasoning to evaluate environmental hazards, investigate the causes and consequences of disasters, and suggest appropriate mitigation and disaster reduction strategies

| Title | Tags |
| --- | --- |
| Interactions of Physical and Human Factors | 182756, 3 |

Learning Outcome
Evaluate the physical, cultural, and socioeconomic factors influencing human vulnerability to disasters in a global context

## GEOG 130 - Introduction to Human Geography

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOG | 130 |

Teaching Area
GEOG
Course Title

Survey of the world, stressing geography of major political regions.

**Department**
Geography

**When Taught**
Fall; Winter; Spring; Summer.

### Credit Hours

| Title | Tags |
| --- | --- |
| Learning Outcome #2: Knowledge of Human Geography | 182906, 0, 2 |

**Learning Outcome**
Share an informed awareness of the great diversity of global human geography by examining elements such as language, religion, politics, and demographics at various geographic scales using geographic approaches, principles, and methodologies.

| Title | Tags |
| --- | --- |
| Learning Outcome #3: Basic Geographic Concepts | 182907, 0, 3 |

**Learning Outcome**
Articulate fundamental geographic concepts (e.g. distance, space, territoriality, location, place/region, scale, etc.) and be able to apply them to specific situations and experiences.

understanding of how human behavior impacts the environment and affects the lives of others.

| Title | Tags |
| --- | --- |
| Basic knowledge | 182776, 6 |

**Learning Outcome**
Develop an understanding of basic geographic terms.

| Title | Tags |
| --- | --- |
| Travel | 182777, 7 |

**Learning Outcome**
Learn to enjoy the journey by being a more observant, interested, adventuresome, and curious traveler.

| Title | Tags |
| --- | --- |
| World development | 182774, 0, 4 |

**Learning Outcome**
Understand what factors have led some regions of the world to be more developed than others.

| Title | Tags |
| --- | --- |
| Current affairs | 182775, 0, 5 |

**Learning Outcome**
Gain enough familiarity with the world to be a more informed reader of the daily news.

| Title | Tags |
| --- | --- |
| Learning Outcome #1: Thinking and Reasoning | 211147, 0, 1 |

**Learning Outcome**
Demonstrate proficiency in thinking and problem-solving skills by accurately interpreting evidence, statements, graphics, questions, etc.; identifying relevant arguments (reasons, claims, pros and cons, etc.); analyzing and evaluating alternative points of view; and fair-mindedly following where evidence and reason lead.

## GEOG 210 - Introduction to Urban and Regional Planning

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOG | 210 |

**Teaching Area**
GEOG
**Course Title**
Introduction to Urban and Regional Planning
**Course Description**
Introduction to the profession and practice of urban and regional planning.
**Department**
Geography
**When Taught**
Fall.

## GEOG 211 - Mapping Your World

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOG | 211 |

**Teaching Area**
GEOG
**Course Title**
Mapping Your World
**Course Description**
Managing and portraying geospatial information to solve geographic tasks using maps (cartography), aerial and satellite imagery (remote sensing), location services (GPS), and quantitative methods.
**Department**
Geography
**When Taught**
Fall, Winter, Summer

Title
Thematic maps

Tags
182669, 5

Learning Outcome

When presented with a typical specimen, perform a simple interpretation of a thematic map (e.g. Choropleth, Isoline)

Title
The Big Three

Tags
182723, 0

Learning Outcome
Identify each component of the "Big Three" when using or observing geographic technologies. The Big Three includes 1) Geographic Information Systems, 2) Global Positioning Systems, and 3) Remote Sensing.

Title
Map Scale

Tags
182724, 1

Learning Outcome
Complete all typical map scale calculations related to land distance and area including unit conversions.

Title
Datum and Coordinate Systems

Tags
182725, 2

Learning Outcome
Give and take coordinate references in UTM and lat / long and convert between the two. select a datum and coordinate

Demonstrate knowledge of the ways in which planners and planning practice have succeeded in altering the policies, institutions, and decisions that oppose the needs of disadvantaged persons. (PAB 4.2.2g)

**Title**
Understanding the History and Theory of Urban Planning

**Tags**
182804, 1

**Learning Outcome**

Explain the purpose and meaning of planning and its ethical, visionary, and normative imperatives. (PAB 4.2.2a)

**Title**
Understanding the History and Theory of Urban Planning

**Tags**
182805, 2

**Learning Outcome**

Explain the history of urban planning practice and the development of urban planning profession in the United States. (PAB 4.2.2b)

system appropriate for a given job-related task. Explain the logic of and give / take a reference in the PLSS

**Title**
GPS

**Tags**
182726, 3

**Learning Outcome**
Configure a GPS receiver properly to use both with and without a map.
Lay-in and follow the course in a GPS receiver.

**Title**
Topographic Maps

**Tags**
182727, 4

**Learning Outcome**
Measure elevation, distance, direction, slope, and aspect from digital or paper topographic maps.
Perform a simple statistical analysis of data on a USGS topographic map.

## GEOG 212 - Introduction to Geographic Information Systems

### Course Information

**Teaching Area (new)**
GEOG

**Course Number**
212

**Teaching Area**
GEOG

**Course Title**
Introduction to Geographic Information Systems

**Course Description**
Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

**Department**
Geography

**When Taught**
Fall, Winter, Spring

### Credit Hours

**Min**
3

**Fixed**
3

## GEOG 217 - Programming for Geographers

| Title | Tags |
| --- | --- |
| GIScience | 182514, 3 |

Learning Outcome
Understand basic spatial concepts and data models that form the foundation of GIS.

| Title | Tags |
| --- | --- |
| Data Management | 182689, 1 |

Learning Outcome
Acquire geospatial data from common sources and manipuate them for a specific application.

| Title | Tags |
| --- | --- |
| GIS Analysis | 182693, 2 |

Learning Outcome
Analyze data using GIS to solve real world problems.

| Title | Tags |
| --- | --- |
| GIS Applications | 182703, 3 |

Learning Outcome
Describe several applications in which GIS is used to solve geographic problems.

| Title | Tags |
| --- | --- |
| Cartography & Visualization | 182709, 4 |

Learning Outcome
Design and use maps to explore and communicate geospatial information.

## GEOG 222 - Statistics for Geographers 1

### Lecture Hours

**Title**
Fundamental Principles of the Physical Environment

**Tags**
182864, 1

**Learning Outcome**
Understand the fundamental principles of the physical environment, the ongoing changes therein, and the interactions between the physical environment and human activity

**Title**
Understanding of current world societies

**Tags**
182865, 2

**Learning Outcome**
Explain the development and current activities of human societies at world, national and local scales

| | |
|---|---|
| LO3 | 182862, 3 |

**Learning Outcome**
Conduct moderately complex data analysis using appropriate computer software (e.g. SPSS, Excel, SpaceStat)

| Title | Tags |
|---|---|
| LO4 | 182863, 4 |

**Learning Outcome**
Demonstrate the practice of statistical thinking by taking a real-life problem and a potential statistical procedure, describe whether the procedure can be safely applied, accurately describe the implications of statistical outcomes on the practical problem at-hand (i.e. inference → practical conclusion), and cast judgment in short reports citing appropriate statistical components reflecting an engagement in self-learning and critical contemplation.

| Title | Tags |
|---|---|
| Practical and theoretical issues in Geography | 182866, 3 |

**Learning Outcome**
Study practical and theoretical issues in geography, using a variety of methods such as quantitative and qualitative analysis, documentary research, map analysis, geospatial technologies, and written communication

| Title | Tags |
|---|---|
| Evaluate and Recommend Solutions | 182867, 4 |

**Learning Outcome**
Evaluate the core human and environmental processes which create the context for global issues.
Recommend viable solutions to current world problems.

## GEOG 250 - United States and Canada

### Course Information

| Teaching Area (new) | Course Number |

| Informed Awareness of Latin American Geography | 207933, 7 |

Learning Outcome
To articulate an informed awareness of Middle and South America with its interplay of cultures, languages, and/or nations at an international level for both its physical and cultural components.

Physical Geography To describe the underlying physical "stage" of Latin America in relation to the distributions of people and their activities.
Cultural Geography To delineate the geographic structure of Latin America's cultural components including languages, ethnic groups, settlement patterns, and religious beliefs.

| Title | Tags |
| --- | --- |
| Collaboration | 207934, 4 |

Learning Outcome
To incorporate others' input to effectively enhance Latin American geographic understanding.

| Title | Tags |
| --- | --- |
| Writing | 207997, 3 |

Learning Outcome
To produce geographic writing and exhibit research skills that result in papers that are fluent, relevant, and creative.

| Title | Tags |
| --- | --- |
| Latin American Impact | 207998, 2 |

Learning Outcome
To explain the significance of Latin America's increasing impact on the world's economy, as well as the growing Hispanization of the United States and the Church of Jesus

Christ of Latter-day Saints.

| Title | Tags |
| --- | --- |
| Thoughtful Reflection | 207999, 6 |

**Learning Outcome**
To translate the gained awareness of Latin America into valid cross-cultural comparisons and nuanced understanding that can be shared with others.

| Title | Tags |
| --- | --- |
| Empathy | 208000, 5 |

**Learning Outcome**
To exhibit greater empathy and charity, and show a global perspective that incorporates others' points of view.

## GEOG 260 - Europe

| Title | Tags |
| --- | --- |
| Physical Geography | 182713, 1 |

Learning Outcome
To demonstrate the connection of the underlying physical "stage" of Europe to the distributions of people and their activities. This includes studying the locations and distributions of climates, mountains, rivers, and natural barriers of the region.

| Title | Tags |
| --- | --- |
| Geographic Themes | 182699, 0, 5 |

Learning Outcome
To describe how the "5 Themes of Geography" [Location, Place, Human Environment Interaction, Region, and Movement] relate to overall studies of the European realm.

| Title | Tags |
| --- | --- |
| Thoughtful Reflection | 212255, 0, 7 |

Learning Outcome
To translate the gained awareness of Europe into valid cross-cultural comparisons and nuanced understanding that can be shared with others.

| Title | Tags |
| --- | --- |
| Collaboration | 182696, 0, 0 |

Learning Outcome
To incorporate other students' input to effectively enhance European geographic understanding.

| Title | Tags |
| --- | --- |
| Cultural Geography | 182533, 0, 1 |

Learning Outcome
To describe the regional geographic structure of Europe's cultural components including languages, rural and urban landscapes, demographics, ethnic groups, and religions.

| Title | Tags |
| --- | --- |
| Writing | 182718, 0, 6 |

| Title | Tags |
| --- | --- |
| Geographic Interconnections | 182527, 1 |

Learning Outcome
To explicate and define the important historical and contemporary geographic linkages in the region including settlement structure and major industries (e.g., agriculture, manufacturing, tourism, and transportation).

| Title | Tags |
| --- | --- |
| Economic and Political Change | 182528, 2 |

Learning Outcome
To become knowledgeable concerning the ongoing geographical manifestations of political and economic restructuring in the modern era, including relationship to the European Union and other political entities.

| Title | Tags |
| --- | --- |
| Physical Geography | 182672, 5 |

Learning Outcome
To demonstrate the connection of the underlying physical "stage" of the region to the distributions of people and their activities. This includes studying the locations and distributions of climates, mountains, rivers, and natural barriers of the region.

| Title | Tags |
| --- | --- |
| Collaboration | 182673, 0 |

Learning Outcome
To use other students input to effectively enhance geographic understanding of the region.

| Title | Tags |
| --- | --- |
| Writing | 182682, 6 |

Learning Outcome
To write geographic research that is fluent, relevant, and creative.

Learning Outcome
To write geographic research on Europe that is fluent, relevant, and creative.

| Title | Tags |
| --- | --- |
| Geographic Interconnections | 182534, 0, 2 |

Learning Outcome
To explicate and define the important historical and contemporary geographic linkages in Europe including political restructuring, settlement geography, and major economic patterns (e.g., agriculture, manufacturing, tourism, and transportation).

| Title | Tags |
| --- | --- |
| Cultural Geography | 182712, 1 |

Learning Outcome
To comprehend the regional geographic structure of the region's cultural components including languages, demographics, ethnic groups, and religious beliefs.

| Title | Tags |
| --- | --- |
| Geographic Themes | 182716, 4 |

Learning Outcome
To grasp how the "5 Themes of Geography" [Location, Place, Human Environment Interaction, Region, and Movement] relate to our overall studies of this region.

## GEOG 272 - East Asia

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOG | 272 |

Teaching Area
GEOG
Course Title
East Asia
Course Description
Region of monsoon Asia and its basic human (demographics, nations and ethnic groups, settlement patterns, religious beliefs, transportation and communication systems, political structures), and physical geographic characteristics (land forms, physiography, climatic characteristics, and natural resources).
Department
Geography
When Taught
Winter

### Credit Hours

### Lab Hours

| Title | Tags |
| --- | --- |
| Geographic Literacy | 182818, 1 |

**Learning Outcome**
Identify where all of the countries, important cities and regions of the Middle East are located along with significant physical features like mountains, rivers and seas.

| Title | Tags |
| --- | --- |
| Geographic Linkages | 182819, 2 |

**Learning Outcome**
Understand the linkages between geography (territory, location, climate, resources etc) and human activity

| Title | Tags |
| --- | --- |
| Peaceful Partitioning | 182820, 3 |

**Learning Outcome**
Apply geographic principles to better understand and perhaps modify the territorial divisions of the Middle East region.

| Title | Tags |
| --- | --- |
| Conflict Resolution | 182821, 4 |

**Learning Outcome**
Use written communication to describe, evaluate and resolve resource and territorial disputes between states and nations.

| Title | Tags |
| --- | --- |
| Global Awareness | 182822, 5 |

**Learning Outcome**
Develop a greater appreciation and understanding for the peoples and cultures of the region.

## GEOG 273 - Southeast Asia

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOG | 273 |

**Teaching Area**
GEOG

**Fixed**
0

| Title | Tags |
| --- | --- |
| Learning Outcome #2 | 182878, 2 |

**Learning Outcome**
Gain an understanding of the natural geographic base of East Asia. This includes physiography, climates, natural resources, and natural hazards.

| Title | Tags |
| --- | --- |
| Learning Outcome #1 | 182879, 1 |

**Learning Outcome**
Gain an understanding of the geographic foundation of the East Asia region (China, Japan, South Korea, North Korea, and Taiwan) including demographics, social issues, settlement patterns, cultural attributes, agriculture systems, economics, and politics.

| Title | Tags |
| --- | --- |
| Learning Outcome #3 | 182886, 3 |

**Learning Outcome**
Learn the locations of countries, major cities, and physical features (e.g. rivers, mountains ranges, seas) of East Asia.

| Title | Tags |
| --- | --- |
| Learning Outcome #4 | 182887, 4 |

**Learning Outcome**
Obtain a framework of geographical concepts and approaches useful in analyzing events in East Asia and other parts of the world

## GEOG 280 - The Pacific Islands

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOG | 280 |

**Teaching Area**
GEOG

**Course Title**
Southeast Asia
**Course Description**
Fundamental issues of geography relating to Southeast Asia, including the extraction and marketing of natural resources, economic development, neighborly relations, and how diffusion has influenced the unique cultural, religious, and linguistic characteristics of the region.
**Department**
Geography
**When Taught**
Fall

features (e.g. rivers, mountains ranges, seas) of Southeast Asia.

| Title | Tags |
| --- | --- |
| LO4 | 182876, 4 |

**Learning Outcome**
Obtain a framework of geographical concepts and approaches useful in analyzing events in Southeast Asia and other parts of the world.

## GEOG 285 - Africa South of the Sahara

### Course Information

**Teaching Area (new)**
GEOG
**Course Number**
285
**Teaching Area**
GEOG
**Course Title**
Africa South of the Sahara
**Course Description**
Geographical analysis focusing on resource management, political issues, development, environmental problems, economic development, and urban-rural change; case studies from selected countries.
**Department**
Geography
**When Taught**
Fall

### Credit Hours

**Min**

Geog 101

| Title | Tags |
| --- | --- |
| Patterns of distribution | 182675, 1 |

**Learning Outcome**
Recognize and be able to explain

the realm and sub-regions of Africa a variety of geographic terms, concepts, and ideas.

| Title | Tags |
| --- | --- |
| Outcome 2 | 182824, 2 |

**Learning Outcome**
At the end of the course the student should be able to identify and analyze key global human and biophysical patterns and how Africa fits into, and is impacted by, these patterns.

| Title | Tags |
| --- | --- |
| Outcome 3 | 182825, 3 |

**Learning Outcome**
At the end of the course the student should be able to read and discuss Africa's current events with greater insight resulting from enhanced familiarity with the realm's human and biophysical geography.

patterns of plant and animal life at many different scales

| Title | Tags |
| --- | --- |
| Basic concepts | 182681, 0 |

**Learning Outcome**
Demonstrate an understanding of basic concepts and processes in biogeography

| Title | Tags |
| --- | --- |
| Human impacts | 182685, 2 |

**Learning Outcome**
Explain how humans have affected the distribution and diversity of plants and animals, and apply concepts to decisions regarding human use of the environment

| Title | Tags |
| --- | --- |
| Future changes | 182698, 4 |

**Learning Outcome**
Plan for future changes in species distributions and diversity as a result of environmental and human-induced pressures

| Title | Tags |
| --- | --- |
| Current research themes | 182714, 3 |

**Learning Outcome**
Demonstrate a knowledge of prominent professional biogeographers and ecologists and their current research themes

## GEOG 304 - Geography of Climates

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOG | 304 |

**Teaching Area**
GEOG
**Course Title**
Geography of Climates
**Course Description**
Elements, controls, distribution, and classification of the earth's climates.
**Department**
Geography

## GEOG 305 - Geography of Landforms

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOG | 305 |

**Teaching Area**
GEOG
**Course Title**
Geography of Landforms
**Course Description**
Elements of landforms: distributions and cultural significance.

| Title | Tags |
| --- | --- |
| Physical Landscape | 182674, 2 |

Learning Outcome
Examine a physical landscape and describe why it looks the way it does.

| Title | Tags |
| --- | --- |
| Human Impact | 182686, 3 |

Learning Outcome
Describe how human settlement and recreation patterns are influenced by landforms.

| Title | Tags |
| --- | --- |
| Landforms | 182688, 1 |

Learning Outcome
Explain the physical processes that produce landforms.

| Title | Tags |
| --- | --- |
| Dating Techniques | 182701, 4 |

Learning Outcome
Understand dating techniques geomorphologists use to understand earth's history.

| Title | Tags |
| --- | --- |
| History of Geomorphology | 182702, 0 |

| Title | Tags |
| --- | --- |
| Human Climate Change | 182707, 1 |

**Learning Outcome**
Gain an appreciation of the complex nature and implications of human climate change.

**Learning Outcome**
Examine the history of landform study and the key individuals in the history of geomorphology.

## GEOG 306 - Public Lands: Planning & Management

### Course Information

**Teaching Area (new)**
GEOG
**Course Number**
306
**Teaching Area**
GEOG
**Course Title**
Public Lands: Planning & Management
**Course Description**
Environmental and social geography of global protective land use designations: National Parks, Wilderness, Conservation areas, etc. Experience in building stakeholder collaborations to develop management plans.
**Department**
Geography
**When Taught**
Winter.

| Title | Tags |
| --- | --- |
| Public Land Policy | 182827, 0, 2 |

**Learning Outcome**
Explain the historical development of public land policy, especially the laws governing lands owned by the United States government, and how they interface with modern uses and issues.

## GEOG 307 - Spatial Analysis of Environmental Data

### Course Information

**Teaching Area (new)**
GEOG
**Course Number**
307
**Teaching Area**
GEOG
**Course Title**
Spatial Analysis of Environmental Data
**Course Description**
Introduction to a suite of quantitative spatial and spatio-temporal analysis tools, including landscape metric and fractal analysis, trend surface analysis, cluster analysis, analysis of scales of variation, geostatistics, point-to-point regression, and wavelet analysis.
**Department**
Geography
**When Taught**
Winter.

| Title | Tags |
| --- | --- |
| Research communication | 182676, 4 |

**Learning Outcome**
Identify and address a research question in environmental spatial analysis, and effectively communicate results orally and in writing.

| Title | Tags |
| --- | --- |
| Mapping public lands | 182826, 0, 1 |

**Learning Outcome**
Describe the geography of public land in a country, including its geographic distribution, history, and underlying principles.

| Title | Tags |
| --- | --- |
| Global conservation | 182828, 0, 3 |

**Learning Outcome**
Outline why and how protective designations have expanded globally, especially during the past fifty years.

| Title | Tags |
| --- | --- |
| Stakeholders | 182829, 0, 4 |

**Learning Outcome**
Value the wide variety of interests in public land management, including the ideology, issues, and institutional efforts of various stakeholders.

| Title | Tags |
| --- | --- |
| Making Management Decisions | 182830, 0, 5 |

**Learning Outcome**
Develop public land management decisions by bringing together stakeholders and resolving conflicts.

| Title | Tags |
| --- | --- |
| Literature | 182679, 2 |

**Learning Outcome**
Critique current literature in spatial analysis of the environment.

| Title | Tags |
| --- | --- |
| Pattern and process | 182704, 1 |

**Learning Outcome**
Describe the effects of scale on traditional environmental questions and issues.

| Title | Tags |
| --- | --- |
| Spatial analysis approaches | 182705, 0 |

**Learning Outcome**
Employ appropriate spatial analysis methods when approaching environmental geography problems.

| Title | Tags |
| --- | --- |
| Environmental Application | 182715, 5 |

**Learning Outcome**
Integrate spatial analysis concepts with conservation methods and current broad-scale environmental issues.

## GEOG 311 - Intermediate Geographic Information Systems

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOG | 311 |

**Teaching Area**
GEOG
**Course Title**
Intermediate Geographic Information Systems
**Course Description**
Collecting, managing, and analyzing spatial data to solve common geographic tasks.
**Department**
Geography
**When Taught**
Winter

## GEOG 312 - Cartographic Design

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOG | 312 |

**Teaching Area**
GEOG
**Course Title**
Cartographic Design
**Course Description**
Graphic perception, layout, typography, color, statistical methods, and symbolization of thematic maps through computer-aided techniques.

  **AND** GEOG 212 - Introduction to Geographic Information Systems

**Additional Comments:**

| Title | Tags |
|---|---|
| Map planning | 182912, 1 |

**Learning Outcome**
Develop a map-based solution for a given purpose and audience by planning an appropriate medium, scale, data layers, map type, and gestalt.

| Title | Tags |
|---|---|
| Data Management | 182913, 1 |

**Learning Outcome**
Gather and process the data needed for a map, such that it is appropriate in terms of detail, currency, relevance, and quality.

| Title | Tags |
|---|---|
| Design techniques | 182914, 3 |

**Learning Outcome**
Design maps that are clear, useful, and attractive, employing appropriate techniques such as thematic map types, composition, symbology, color,

| Title | Tags |
| --- | --- |
| Data Management | 182903, 0, 2 |

**Learning Outcome**
Obtain existing GIS data and create new data that are appropriate for a given need, and transform data sets to make them appropriate for a given project, using tools such as format conversion, reprojection, data entry and editing, and reclassification.

and text.

| Title | Tags |
| --- | --- |
| Learning from Critique | 182915, 4 |

**Learning Outcome**
Improve design skills through map critique, carefully evaluating the work of yourself and others to learn new techniques, best practices, and pitfalls to avoid.

| Title | Tags |
| --- | --- |
| Quality Design | 182916, 5 |

**Learning Outcome**
Expect top-quality work from yourself and put forth the effort necessary to produce this.

| Title | Tags |
| --- | --- |
| Cartographic Knowledge | 182917, 6 |

**Learning Outcome**
Explain the theoretical principles that form the basis of a given cartographic design technique, and practical guidelines for implementing it.

## GEOG 313 - Remote Sensing 1

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOG | 313 |

**Teaching Area**
GEOG
**Course Title**
Remote Sensing 1
**Course Description**
Introduction to airborne and spaceborne sensors, including characteristics and image acquisition. Emphasizes land cover mapping applications appropriate for environment monitoring.
**Department**
Geography
**When Taught**
Fall.

### Credit Hours

**Min**

**Min**
3

**Fixed**
3

### Lecture Hours

Fixed
3

### Lab Hours

Fixed
0

| Title | Tags |
| --- | --- |
| Basic remote sensing concepts | 182764, 1 |

Learning Outcome
Clearly communicate basic remote sensing concepts and applications.

| Title | Tags |
| --- | --- |
| Electromagnetic spectrum | 182765, 4 |

Learning Outcome
Outline the general characteristics of the electromagnetic spectrum and electromagnetic energy.

| Title | Tags |
| --- | --- |
| Image interpretation | 182766, 5 |

Learning Outcome
Demonstrate basic image interpretation skills.

| Title | Tags |
| --- | --- |
| Remote sensing data and techniques | 182767, 2 |

Learning Outcome
Describe remotely sensed data characteristics and methods of data acquisition, storage, and manipulation.

| Title | Tags |
| --- | --- |
| Remote sensing in geography and other geosciences | 182768, 3 |

Learning Outcome
Evaluate the role of remote sensing in geography and its relation to other geosciences.

Simple Requisites

**Prerequisites**
**Type**
Prerequisite

Prerequisites

**Complete ALL of the following Courses:**

- GEOG 217 - Programming for Geographers

**Additional Comments:**

| Title | Tags |
| --- | --- |
| Data structures and algorithms | 182517, 1 |

Learning Outcome
Students will be able to express simple data structures and algorithms in computer code. These data structures and algorithms will be illustrative of either raster or vector GIS.

| Title | Tags |
| --- | --- |
| Object oriented methods | 182518, 2 |

Learning Outcome
When given a simple geographic problem specification, students will be able to create computer methods and classes that address the problem or meet the specification.

| Title | Tags |
| --- | --- |
| Problem solving | 182519, 3 |

Learning Outcome
When presented with a problem amenable to the application of geographic computer programming (intermediate level difficulty), students will design and implement a software system including computer program(s) to solve the problem.

## GEOG 322 - Statistics for Geographers 2.

### Course Information

**Teaching Area (new)**
GEOG

**Course Number**
322

**Teaching Area**
GEOG

**Course Title**
Statistics for Geographers 2.

**Course Description**
Advanced techniques in geospatial analysis.

**Department**
Geography

**When Taught**
Winter

Prerequisites

**Complete ALL of the following Courses:**

- GEOG 222 - Statistics for Geographers 1

**Additional Comments:**

| Title | Tags |
|---|---|
| Statistical Competence | 182520, 1 |

**Learning Outcome**
To master an advanced set of quantitative methods that are particularly appropriate for geographers, becoming especially skilled in one statistical area.

| Title | Tags |
|---|---|
| Determination | 182521. 2 |

## GEOG 331 - Economic Geography

### Course Information

**Teaching Area (new)**
GEOG

**Course Number**
331

**Teaching Area**
GEOG

**Course Title**
Economic Geography

**Course Description**
Introduction to economic processes and spatial patterns, emphasizing theoretical approaches, locational strategies, and changing economic land-use patterns.

**Department**
Geography

**When Taught**
Fall

#### Credit Hours

**Min**
3

**Fixed**

**Other Prerequisites**
Geog 100 or instructor's consent

| Title | Tags |
|---|---|
| Conceptualizing EconGeog | 182831, 1 |

**Learning Outcome**
Identify and discuss the basic concepts and theoretical frameworks in Economic Geography

| Title | Tags |
|---|---|
| Patterns and Trends | 182832, 2 |

**Learning Outcome**
Recognize and explain spatial patterns and trends of economic activities

| Title | Tags |
|---|---|
| Data and Methods | 182833, 3 |

Learning Outcome
To determine what quantitative methods are appropriate for answering different research questions.

| Title | Tags |
| --- | --- |
| Application | 182522, 3 |

Learning Outcome
To apply statistical analysis to geographic problems in a competent and worthwhile way

| Title | Tags |
| --- | --- |
| Research | 182523, 4 |

Learning Outcome
To develop and carry out an excellent research project complete with collaborative work and a crisp oral and professional visual presentation.

| Title | Tags |
| --- | --- |
| Knowledge | 182711, 4 |

Learning Outcome

To understand and appreciate published academic geographic research that uses a variety of quantitative methods.

Learning Outcome
Data: Locate, acquire, clean-up and use secondary economic data
Methods: Use various geographic tools of analysis to understand and visualize geographic trends and patters

| Title | Tags |
| --- | --- |
| Spatial Reasoning | 182834, 4 |

Learning Outcome
Use spatial quantitative reasoning to identify (and possible suggest viable solutions to) global problems/issues

## GEOG 336 - Urban Geography

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOG | 336 |

**Teaching Area**
GEOG
**Course Title**
Urban Geography
**Course Description**
History and theory of urban development, including why cities exist and how cities function.
**Department**
Geography
**When Taught**
Fall

### Credit Hours

**Min**
3

## GEOG 341 - Political Geography

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOG | 341 |

**Teaching Area**
GEOG
**Course Title**
Political Geography
**Course Description**
Spatial analysis of global politics; focus on geopolitics, territory and conflict, nationalism, and the politics of resources.
**Department**
Geography
**When Taught**
Fall and Winter

Title
Geographic Literacy

Tags
182835, 1

Learning Outcome
Identify where all of the countries of the earth are located along with other important political entities, cities and capitals

Title
Global Awareness

Tags
182836, 2

Learning Outcome
Become an informed reader of a daily international newspaper

Title
Geographic and Political Linkages

Tags
182837, 3

Learning Outcome
Understand the linkages between geography (territory, location, resources etc) and political actions and processes.

Title
Nationalism

Tags
182838, 4

Learning Outcome
Define and assess the relative importance of forces of conflict and cooperation among peoples, societies and states as they influence the division and control of the Earth's surface

Title
Establish World Peace

Tags
182839, 5

Learning Outcome
Use written and oral

communication to describe, evaluate and resolve territorial disputes between states and nations (people/minority groups).

## GEOG 346 - Population Geography

### Course Information

**Teaching Area (new)**
GEOG

**Course Number**
346

**Teaching Area**
GEOG

**Course Title**
Population Geography

**Course Description**
Spatial perspective on wide field of population studies, focusing on distribution, development, structure, and movement of populations, emphasizing basic demographic measures.

Explain how geographers approach the study of travel and tourism using basic geographic concepts (e.g. location, place, diffusion, etc.)

**Title**
Tourism Issues

**Tags**
182792, 2

**Learning Outcome**
Analyze several geographical

Obtain, evaluate, and use demographic data

| Title | Tags |
| --- | --- |
| Methods | 182842, 3 |

**Learning Outcome**
Learn about and use various demographic methods

| Title | Tags |
| --- | --- |
| Analyze | 182843, 4 |

**Learning Outcome**
Analyze demographic data in order to answer important geographic questions

| Title | Tags |
| --- | --- |
| Context | 182844, 5 |

**Learning Outcome**
Situate your own life within the context of larger demographic patterns and trends

issues related to the theory and practice of tourism in various areas.

| Title | Tags |
| --- | --- |
| Tourism Benchmarks | 182793, 3 |

**Learning Outcome**
Identify and explain the historical "tourism benchmarks" that influenced the geography and nature of travel and tourism.

## GEOG 348 - International Perspectives on Tourism

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOG | 348 |

**Teaching Area**
GEOG
**Course Title**
International Perspectives on Tourism
**Course Description**
Patterns in international and domestic tourism; interrelationship between geography and tourism in understanding tourism patterns and their impact.
**Department**
Geography
**When Taught**
Winter.

### Credit Hours

| Title | Tags |
| --- | --- |
| Global travel patterns | 182810, 1 |

Learning Outcome
Explain global travel patterns using a conceptual framework.

| Title | Tags |
| --- | --- |
| Travel outcomes | 182812, 3 |

Learning Outcome
Outline the reasons why some people travel and others do not.

| Title | Tags |
| --- | --- |
| Geography and tourism | 182813, 4 |

Learning Outcome
Describe the interrelationships between geography and tourism within domestic and international contexts..

| Title | Tags |
| --- | --- |
| Tourism impacts | 182814, 5 |

Learning Outcome
Summarize the impact of tourism on various regions / areas of the world.

## GEOG 350 - Sustainable Tourism Planning & Development

### Course Information

### Lab Hours

Fixed
0

| Title | Tags |
| --- | --- |
| LO1 | 182845, 1 |

Learning Outcome
Following this course the student should be able to discuss the spatial and historical origins of adventure travel including connections early geographical exploration.

| Title | Tags |
| --- | --- |
| LO2 | 182846, 2 |

Learning Outcome
Following this course the student should be able to discuss and outline current geographic patterns in adventure travel--where, when, by whom, and why?

| Title | Tags |
| --- | --- |
| LO3 | 182847, 3 |

Learning Outcome
Following this course the student should be able to apply core geographic principles to case studies involving the evolution of adventure travel in specific places.

| Title | Tags |
| --- | --- |
| LO4 | 182848, 4 |

Learning Outcome
Following this course the student should be able to give specific examples of the impacts on places that have undergone transformations resulting from their emergence as popular adventure travel destinations.

## GEOG 353 - Heritage and Cultural Tourism

### Course Information

| Title | Learning Outcome |
| --- | --- |
| Geographic methods | Apply key geographic concepts, theories, and methods. |
| Geographic approaches | Model how to approach contemporary global, regional, and local issues from a geographic perspective by seeing how faculty and others do it. |
| Skills | Develop critical thinking, problem-solving, and data analysis skills using geographic data and methods. |
| Communication | Enhance communication skills by presenting reasoned information on pressing issues and proposing informed solutions. |

| Title | Tags |
| --- | --- |
| Special Topics | 182678, 0 |

Learning Outcome
Under the direction of a mentoring professor, students will critically examine, investigate, and integrate the literature for a topic of interest in geography.

| Title | Tags |
| --- | --- |
| Supported learning | 182769, 1 |

Learning Outcome
Students will learn to investigate a problem on their own with the support of a faculty member.

## GEOG 495R - Mentored Research

### Course Information

Teaching Area (new)
GEOG
Course Number
495R
Teaching Area
GEOG
Course Title
Mentored Research
Course Description
Participating in research integrating material learned in major. Emphasizes individual or collaborative research and creative thinking through active learning and reflective analysis.
Department
Geography
When Taught
All Semesters/Terms

0

| Title | Tags |
| --- | --- |
| Mentored Research | 182708, 0 |

Learning Outcome
Students will conduct research with a mentoring professor which may include literature reviews, data collection, data coding, data management, data analysis, constructing statistical tables, writing proposals for conferences, and writing manuscripts to be submitted for publication.

| Title | Tags |
| --- | --- |
| Learning on your own | 182770, 1 |

Learning Outcome
Students will learn to investigate a problem on their own with the support of a faculty member.

3

### Lab Hours

Fixed
0

| Title | Tags |
| --- | --- |
| Topical expertise | 182749, 1 |

Learning Outcome
Students will become familiar with current topics in this content area.

| Title | Tags |
| --- | --- |
| Collaboration | 182750, 2 |

Learning Outcome
Within the seminar environment, students will build and strengthen their ability to collaborate while they develop understanding in the content area.

| Title | Tags |
| --- | --- |
| Participation & Writing | 182751, 3 |

Learning Outcome
Students will learn the value of consistent class participation through class discussions and written work that is peer-reviewed.

## GEOG 503 - Geographic Information Systems

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOG | 503 |

Teaching Area
GEOG
Course Title
Geographic Information Systems
Course Description
Using geographic information for solving advanced spatial problems. Introduction to using and producing maps and computer-based geographic information systems (GIS) as geographic tools. Hands-on research applications in the students' disciplines.
Department
Geography
When Taught
Fall and Winter

## GEOG 510 - Professional Planning Studio

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOG | 510 |

Teaching Area
GEOG
Course Title
Professional Planning Studio
Course Description
Assessing problem and issue identification, goal formulation, data gathering, synthesis and summary, plan concept and format, and public policy adoption while writing a general plan for a community in Utah.
Department
Geography
When Taught
Fall

For nonmajors who have not taken Geog 211 or 212 or equivalent.

| Title | Tags |
| --- | --- |
| GIScience | 182868, 1 |

**Learning Outcome**
Understand basic spatial concepts and data models that form the foundation of GIS.

| Title | Tags |
| --- | --- |
| GIS Applications | 182869, 2 |

**Learning Outcome**
Describe several applications in which GIS is used to solve geographic problems.

| Title | Tags |
| --- | --- |
| GIS Analysis | 182870, 3 |

**Learning Outcome**
Analyze data using GIS to solve real world problems.

| Title | Tags |
| --- | --- |
| Data Management | 182871, 4 |

**Learning Outcome**
Acquire geospatial data from common sources and manipulate them for a specific application.

Geog 410

| Title | Tags |
| --- | --- |
| Community Connection | 182758, 2 |

**Learning Outcome**
Work with diverse communities, especially communities consisting of disadvantaged groups and persons and racial and ethnic minorities, or immigrant communities. (PAB 4.2.3i)

| Title | Tags |
| --- | --- |
| Plan implementation | 182759, 3 |

**Learning Outcome**
Use techniques for the adoption and implementation of plans including relevant regulations, incentives, techniques and technologies. (PAB 4.2.3h)

| Title | Tags |
| --- | --- |
| Plan preparation | 182760, 4 |

**Learning Outcome**
Use ideas about the creation of plans, programs or projects to prepare an individually crafted product for a specific planning purpose and audience; demonstrating skill and judgment preparing a planning project that meets minimum professional standards. (PAB 4.2.3f)

| Title | Tags |
| --- | --- |
| Collaboration | 182761, 5 |

Design and use maps to explore and communicate geospatial information.

**Learning Outcome**
Collaborate with peers in joint learning activities organized to produce a plan or planning product for a relevant professional clientele, to mediate disagreements, to interpret contested purposes, and to negotiate between diverse and competing interests. (PAB 4.2.3e)

| Title | Tags |
|---|---|
| Communication | 182762, 6 |

**Learning Outcome**
Use written, oral and graphic skills to compose clear, accurate and compelling text, images and maps in documents and oral presentations. (PAB 4.2.3c)

| Title | Tags |
|---|---|
| Problem solving | 182763, 1 |

**Learning Outcome**
Use problem solving skills to select, diagnose and solve relevant aspects of a complex planning problem including attention to the needs and interests of diverse stakeholders and the guidance provided by conceptual and empirical expertise. (PAB 4.2.3a)

## GEOG 521R - Geographic Information Practicum

### Course Information

**Teaching Area (new)**
GEOG
**Course Number**
521R
**Teaching Area**
GEOG
**Course Title**
Geographic Information Practicum
**Course Description**
Integration of various geographic technologies to solve a practical problem. Advanced topics in GIS, remote sensing, cartography, and programming as needed.
**Department**

Simple Requisites

**Prerequisites**
**Type**
Prerequisite

Prerequisites

**Complete ALL of the following Courses:**

- GEOG 212 - Introduction to Geographic Information Systems **AND** GEOG 217 - Programming for Geographers

**Additional Comments:**

Recommended
Geog 222, 311, 312, 313, 317, 412.

| Title | Tags |
|---|---|
| Practicum | 182671, 0 |

Learning Outcome
Students will learn integration of various geographic technologies to solve a practical problem using advanced topics in GIS, remote sensing, cartography, and programming as needed.

| Title | Tags |
|---|---|
| Application Development | 182849, 1 |

Learning Outcome
Use programming to develop an geospatial application that integrates GIS, Remote Sensing, and Cartography.

| Title | Tags |
|---|---|
| Web Map Design | 182850, 2 |

Learning Outcome
Design effective maps and interactive web interfaces to serve a particular audience and purpose.

| Title | Tags |
|---|---|
| Relationship between Science & Religion | 204515, 1 |

Learning Outcome
Be able participate in meaningful discussions on the relationships of science and religion.

| Title | Tags |
|---|---|
| Deep Time, Diversity of Life, Plate Tectonics | 204516, 2 |

Learning Outcome
Confidently explain the relationships between deep time, the diversity of life, and plate tectonics.

| Title | Tags |
|---|---|
| How Science Works | 204517, 3 |

Learning Outcome
Be able to explain how science works via examples from geology and paleontology.

| Title | Tags |
|---|---|
| Awe & Wonder | 204518, 4 |

Learning Outcome
Have an infectious sense of awe and wonder for today's biotic and abiotic realms as part of an ever-changing Earth.

| Title | Tags |
|---|---|
| Genealogy of the Dinosauria | 204519, 5 |

Learning Outcome
Using cladistic methods be able to explain the basic phylogenetic relationships within Dinosauria,

| Title | Tags |
| --- | --- |
| Lifelong Learning | 182851, 3 |

**Learning Outcome**
Learn new skills, technologies, and techniques on your own, using a variety of learning resources.

## GEOL 101 - Introduction to Geology

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOL | 101 |

**Teaching Area**
GEOL
**Course Title**
Introduction to Geology
**Course Description**
Cultural focus on physical and environmental geology for nonscience majors; rocks and minerals. Field trips.
**Department**
Geological Sciences
**When Taught**
Fall and Winter

| --- | --- |
| Geologic Time | 204660, 3 |

**Learning Outcome**
1. Gain a greater insight into the enormous length of geologic time and the evidences that support this claim.2. Learn the different ways that scientists can determine geologic ages.

different types of plate boundaries and the forces that help to drive the system.3. Learn how the plate tectonic system has helped to shape the Earth's surface.

| Title | Tags |
| --- | --- |
| Geologic Time | 204631, 3 |

**Learning Outcome**
1. Gain a greater insight into the enormous length of geologic time and the evidences that support this claim.2. Learn the different ways that scientists can determine geologic ages.

| Title | Tags |
| --- | --- |
| Hydrologic System | 204657, 1 |

**Learning Outcome**
1. Understand how the hydrologic system helps to shape the Earth and how the different sub-systems interact.2. Learn the reasons for climate change in both ancient and modern times.

| Title | Tags |
| --- | --- |
| Other Planets | 204661, 4 |

**Learning Outcome**
Learn how and why the other planets and moons in our solar system are different from Earth.

| Title | Tags |
| --- | --- |
| Rocks and Minerals | 204665, 0 |

**Learning Outcome**
1. Understand the difference between minerals and rocks.2. Be able to identify common rocks and minerals.3. Know where and when the basic rock and mineral types form and how they are related to the hydrologic and tectonic systems.

| Title | Tags |
| --- | --- |
| Graphics | 204806, 5 |

**Learning Outcome**
Understand and utilize scientific graphs, charts, maps, and images.

| Title | Tags |
| --- | --- |
| Hydrologic System | 204679, 1 |

**Learning Outcome**
1. Understand how the hydrologic system helps to shape the Earth and how the different sub-systems interact.2. Learn the reasons for climate change in both ancient and modern times.

| Title | Tags |
| --- | --- |
| Rocks and Minerals | 204701, 0 |

**Learning Outcome**
1. Understand the difference between minerals and rocks.2. Be able to identify common rocks and minerals.3. Know where and when the basic rock and mineral types form and how they are related to the hydrologic and tectonic systems.

| Title | Tags |
| --- | --- |
| Tectonic System | 204752, 2 |

**Learning Outcome**
1. Learn the basic evidences and ideas that support the Theory of Plate Tectonics.2. Understand how the plate tectonic system works, including the role of the different types of plate boundaries and the forces that help to drive the system.3. Learn how the plate tectonic system has helped to shape the Earth's surface.

| Title | Tags |
|---|---|
| Fundamentals | 204760, 1 |

**Learning Outcome**
Define and describe the components and dynamics of Earth's climate system.

| Title | Tags |
|---|---|
| Climate Change | 204761, 2 |

**Learning Outcome**
Discuss the causes (forcings) of climate change, the natural response of the many components of Earth's climate system to those forcings, and the interactions and feedbacks among these components.

| Title | Tags |
|---|---|
| Climate History | 204762, 3 |

**Learning Outcome**
Evalute the evidence for and causes of climate change throughout Earth's history and assess the role of greenhouse gases within the climate system at multiple time scales (from tectonic-scale changes to anthropogenic changes).

| Title | Tags |
|---|---|
| Quantitative Reasoning | 204763, 4 |

| Title | Tags |
|---|---|
| Scientific Method | 204520, 1 |

**Learning Outcome**
Learn to piece together new information, draw inferences, reexamine older geological theories based only on our terrestrial experience, and formulate new theories about the way planets behave and how they originated. Finally, you may be able to propose novel ways to test these new ideas.

| Title | Tags |
|---|---|
| History of the Solar System | 204521, 2 |

**Learning Outcome**
Be able to reconstruct the histories of the planets, their moons, and other bodies.

| Title | Tags |
|---|---|
| Geology Fundamentals | 204522, 3 |

**Learning Outcome**
Understand the fundamental principles of geology by studying the development of the planetsin the solar system.

| Title | Tags |
|---|---|
| Life on Earth | 204523, 4 |

**Learning Outcome**

Learning Outcome
Quantify the response of the climate system to changes in climate forcings through problem sets and laboratory experiments. Use these results to critically evaluate climate sensitivity and climate change over time.

Gain a greater appreciation of how our own planet functions and why it is uniquely suited for life.

## GEOL 110 - Geological Science Laboratory

### Course Information

Teaching Area (new): GEOL
Course Number: 110
Teaching Area: GEOL
Course Title: Geological Science Laboratory
Course Description: Minerals, rocks, and landforms; the use of topographic and geologic maps; the interpretation of aerial photos.
Department: Geological Sciences
When Taught: Fall

Title: Writing
Tags: 204524, 4

Learning Outcome
Learn some fundamental skills in preparation to conduct research and ultimately write research papers in other classes, including:
1. Using online databases (GEOREF, Web of Science) to

| Title | Tags |
| --- | --- |
| Geological Materials | 204634, 0 |

**Learning Outcome**
1. Learn the basic mineral types, how they form, and how they differ structurally.2. Understand how minerals are put together to form rocks.3. Learn the names and how to recognize the basic sedimentary, igneous, and metamorphic rock types.

| Title | Tags |
| --- | --- |
| Tectonic Sytems | 204676, 2 |

**Learning Outcome**
1. Learn the basic workings of the Earth's tectonic system and the evidences that support the plate tectonic theory. Successfully complete lab activities that elucidate these concepts.2. Understand how to interpret geologic structures and rocks in terms of the tectonic system.

| Title | Tags |
| --- | --- |
| Hydrosphere | 204681, 1 |

**Learning Outcome**
1. Understand the basic atmospheric and hydrologic systems and how they affect the Earth's rocks. Demonstrate this by completing lab activities treating this subject.2. Learn how man has influenced these systems and what the possible future outcomes of this influence might be.

| Title | Tags |
| --- | --- |
| Science and Society | 204727, 3 |

**Learning Outcome**
1. Understand the nature of fossil fuel resources, their origin, and the magnitude of reserves of coal, oil, natural gas, etc.2. Understand the nature of metallic resources, including their origin, distribution across the globe, and the magnitude of reserves.3. Appreciate the environmental consequences of fossil fuel and metallic resource extraction.4. Become aware of the major hazards posed by earthquakes, volcanic eruptions, and their attendant phenomena.5. Understand the fundamental processes that regulate the climate, as well as the role of human activity in climate change.

| Title | Tags |
| --- | --- |
| Geology, the Environment, and Humankind | 204525, 5 |

**Learning Outcome**
1. Understand the nature of fossil fuel resources, their origin, and the magnitude of reserves of coal, oil, natural gas, etc.
2. Understand the nature of metallic resources, including their origin, distribution across the globe, and the magnitude of reserves.
3. Appreciate the environmental consequences of fossil fuel and metallic resource extraction.
4. Become aware of the major hazards posed by earthquakes, volcanic eruptions, and their attendant phenomena.
5. Understand the fundamental processes that regulate the climate, as well as the role of human activity in climate change.

| Title | Tags |
| --- | --- |
| Dynamics of the Hydrosphere | 204644, 1 |

**Learning Outcome**
1. Understand the basic atmospheric and hydrologic systems and how they affect the Earth's rocks.2. Learn how man has influenced these systems and what the possible future outcomes of this influence might be.

obtain information on a particular topic.
2. Using online resources (Refworks) to manage and format references.
3. Reading articles in the primary geologic literature and drawing out primary information such as the topic of and article and its conclusions even if the student is not prepared (at this stage) to understand the methodology employed.
4. Appreciate the need to properly format cited literature in a research paper.
5. Learn the content and proper voice for the abstract of a research paper.

phenomena3. Understand the fundamental processes that regulate the climate, as well as the role of human activity in climate change.6.Complete lab activities that demonstrate the relationship between geological processes and human activities.

| Title | Tags |
| --- | --- |
| Earth Materials | 204680, 0 |

**Learning Outcome**
1. Learn the basic mineral types, how they form, and how they differ structurally.2. Understand how minerals are put together to form rocks.3. Learn the names and how to recognize the basic sedimentary, igneous, and metamorphic rock types.

| Title | Tags |
| --- | --- |
| Dynamics of the Tectonosphere | 204730, 2 |

**Learning Outcome**
1. Learn the basic workings of the Earth's tectonic system and the evidences that support the plate tectonic theory.2. Understand how to interpret geologic structures and rocks in terms of the tectonic system.

| Title | Tags |
| --- | --- |
| Introduction to Earth Systems and Heat Transfer | 204756, 5 |

**Learning Outcome**
1. Learn or review the large scale features of the Earth's interior and exterior, including the basic features of the tectonic and hydrological systems.2. Appreciate the role of heat transfer, and in particular convection, in making both the hydrosphere and tectonosphere dynamic.

## GEOL 112 - Historical Geology

### Course Information

This course is for students who have completed GEOL 103 (Life of the Past) and who would like to get credit for GEOL 112 (Historical Geology).

| Title | Tags |
|---|---|
| The Record of Life | 204793, 1 |

**Learning Outcome**
Be able to recognize the nature and mode of fossil preservation. Be able to identify the major invertebrate fossil groups and signify the environmental significance of each. Use fossils to recognize the age of sedimentary strata.

| Title | Tags |
|---|---|
| Geological Maps | 204794, 2 |

**Learning Outcome**
Be able to decipher the geological history of an area from a geological map.

| Title | Tags |
| --- | --- |
| The Record of Life | 204528, 3 |

**Learning Outcome**
Be able to recognize the nature and mode of fossil preservation. Be able to identify the major invertebrate fossil groups and signify the environmental significance of each. Use fossils to recognize the age of sedimentary strata.

| Title | Tags |
| --- | --- |
| Descent with Modification | 204529, 4 |

**Learning Outcome**
Demonstrate a basic knowledge of organic evolution including the key concepts of natural selection and its role in producing the fossil record. Be able to explain the evidence that led Darwin to the theory of natural selection as well as post-Darwinian discoveries.

| Title | Tags |
| --- | --- |
| Ecological Evolution | 204530, 5 |

**Learning Outcome**
Understand that modern Earth is a product of the coevolution of the biosphere, lithosphere, atmosphere, and hydrosphere over 4.6 billion years of earth history. Demonstrate knowledge of key biological, depositional, tectonic, and climatic events in the context of the geological timescale.

| Title | Tags |
| --- | --- |
| Geological Maps | 204531, 6 |

**Learning Outcome**
Be able to decipher the geological history of an area from a geological map.

| Title | Tags |
| --- | --- |
| Communicating Science | 204532, 7 |

**Learning Outcome**
Demonstrate mastery of a scientific concept and ability to convey that concept to a body of peers using PowerPoint and/or other professional means.

| Geologic Tools | 204533, 1 |

**Learning Outcome**
Learn how to take accurate and complete field notes.
Learn how to use a compass to

## GEOL 230 - Earth Data Visualization

### Course Information

**Teaching Area (new)**
GEOL

**Course Number**
230

**Teaching Area**
GEOL

**Course Title**
Earth Data Visualization

**Course Description**
Introduction to writing within the discipline and designing and creating publishable geologic maps and illustrations. Tools include ArcGIS, Adobe Illustrator, and Photoshop. Student portfolio initiated.

**Department**
Geological Sciences

**When Taught**
Fall

### Credit Hours

**Min**
3

**Fixed**

### Lecture Hours

**Fixed**
3

### Lab Hours

**Fixed**
0

**Simple Requisites**

**Prerequisites**
**Type**
Prerequisite

Prerequisites

**Complete ALL of the following Courses:**
- GEOL 111 - Physical Geology

**Additional Comments:**

Learn how to use a compass to measure strike and dip on outcrops in the field.
Learn how to read topographic and geologic maps and relate the map to what you see in the field.

**Title**
Collecting and Interpreting Geologic Data

**Tags**
204534, 3

**Learning Outcome**
Learn the basics of making a geologic map.
Learn how to interpret the geology on a map to draw a geologic cross-section.
Write up the results of data you collected along with your interpretation in a clear, consise manner.

**Title**
Rock and Minerals

**Tags**
204535, 2

**Learning Outcome**
Review rocks and minerals learned in earlier courses and be able to accurately identify them in the field.
Understand the relationships between igneous rocks and minerals and magmatic processes.
Understand the relationships between metamorphic rocks and minerals and the processes that formed them.
Understand the significance of sedimentary rocks in understanding depositional systems and regional tectonics.

**Title**
Field Observation

**Tags**
204536, 4

**Learning Outcome**
Become detailed observers of field geology

**Title**
Utah's National Parks

**Tags**
204537, 5

**Learning Outcome**
Understand the formative processes of the geology of Utah's National Parks including Zion NP, Bryce Canyon NP, and Capitol Reef NP.

| Title | Tags |
| --- | --- |
| Landscape Evolution | 204538, 6 |

**Learning Outcome**
Develop an understanding of the interelationships of stratigraphy, structural geology, and surficial processes on landscape evolution.

## GEOL 330 - Engineering Geology

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOL | 330 |

**Teaching Area**
GEOL
**Course Title**
Engineering Geology
**Course Description**
Geological processes and materials bearing on engineering practices. Field trips.
**Department**
Geological Sciences
**When Taught**
Fall and Winter

### Credit Hours

Prerequisites

**Complete ALL of the following Courses:**
- MATH 112 - Calculus 1

**Additional Comments:**

**Other Prerequisites**
Chem 105 or 111 or concurrent enrollment

| Title | Tags |
| --- | --- |
| Fundamentals | 204543, 1 |

**Learning Outcome**
Demonstrate understanding of the fundamental ideas that govern the arrangement of atoms into a crystalline structure (chemical bonding, atomic size, coordination number, polymerization of polyhedra, bond strength and bond valence, stability, etc.)

| Title | Tags |
| --- | --- |
| Symmetry of Crystals | 204544, 2 |

**Learning Outcome**
Demonstrate a basic understanding of atomic level symmetry. Enumerate and describe the crystal systems in terms of both symmetry and unit-cell metrics, recognize symmetry elements in well-formed natural crystals, and determine crystal classes of such crystals.

| Title | Tags |
| --- | --- |
| Instrumental Methods | 204545, 3 |

**Learning Outcome**
Describe the applications and limitations of important instrumental/analytical methods used in mineralogy.

| Title | Tags |
| --- | --- |
| Mineral Identification | 204546, 4 |

**Learning Outcome**
Identify specimens of the 60-70 most common minerals at least 70% of the time.

| Title | Tags |
| --- | --- |
| Phenomena | 204547, 5 |

**Learning Outcome**
Demonstrate an understanding of the mechanisms and implications of various mineralogical phenomena, including solid solution, exsolution, polymorphism, atomic ordering, polytypism,

color, and twinning.

| Title | Tags |
| --- | --- |
| Relationships | 204548, 6 |

**Learning Outcome**
Discuss the interrelationships among crystallography, composition, and the physical properties of minerals.

| Title | Tags |
| --- | --- |
| Application | 204549, 7 |

**Learning Outcome**
Demonstrate the ability to apply principles learned to minerals not specifically encountered in the course.

| Title | Tags |
| --- | --- |
| Computer Software | 204550, 8 |

**Learning Outcome**
Use computer software for reduction of mineralogical data and be able to discuss its limitations.

| Title | Tags |
| --- | --- |
| Scientific Inquiry and Writing | 204551, 9 |

**Learning Outcome**
Demonstrate the ability to work in teams to collect and analyze mineralogical data and incorporate it into an original, high quality research paper on an assigned subject of mineralogical significance.

## GEOL 352 - Petrology

### Course Information

**Teaching Area (new)**
GEOL
**Course Number**
352
**Teaching Area**
GEOL
**Course Title**
Petrology
**Course Description**
Compositions, fabrics, and field relations of igneous and metamorphic rocks; behavior of rock-forming systems. Field trips.
**Department**
Geological Sciences
**When Taught**

## GEOL 370 - Sedimentology and Stratigraphy

### Course Information

**Teaching Area (new)**
GEOL
**Course Number**
370
**Teaching Area**
GEOL
**Course Title**
Sedimentology and Stratigraphy
**Course Description**
Erosion; sediment entrainment, transport, and deposition; depositional systems and facies analysis; principles of stratigraphy. Field trips.
**Department**
Geological Sciences
**When Taught**

Winter

  **AND** GEOL 230 - Earth Data Visualization

**Additional Comments:**

| Title | Tags |
|---|---|
| Application of Concepts | 204555, 1 |

Learning Outcome
Apply problem solving, critical thinking, and communication skills relative to depositional models and interpreting the stratigraphic record.

| Title | Tags |
|---|---|
| Depositional Systems | 204556, 2 |

Learning Outcome
Understand depositional systems, facies relationships, and introductory aspects of sequence stratigraphy.

| Title | Tags |
|---|---|
| Process Sedimentology | 204557, 3 |

Learning Outcome
Discuss processes and forces that weather, transport, and deposit

form and their relationships to global tectonics.

| Title | Tags |
| --- | --- |
| Petrography | 204554, 3 |

**Learning Outcome**
Identify the minerals and rock types using hand samples and thin sections of the major rock types.

sedimentary grains under both sunaqueous and subarial conditions.

| Title | Tags |
| --- | --- |
| Rock Classification | 204558, 4 |

**Learning Outcome**
Observe and describe sedimentary rocks objectectively. Gain the ability to communicate using appropriate scientific vocabulary.

## GEOL 375 - Structural Geology

### Course Information

**Teaching Area (new)**
GEOL
**Course Number**
375
**Teaching Area**
GEOL
**Course Title**
Structural Geology
**Course Description**
Geometric, kinematics, and dynamic analysis of tectonic structures. Several studies will be conducted in the field.

| Experience | 204721, 0 |

**Learning Outcome**
Gain experience in a real world work or research lab that will strengthen your understanding of the concepts learned in class.

Complete ALL of the following courses:

- GEOL 210 - Field Studies
  **AND** GEOL 230 - Earth Data Visualization
  **AND** MATH 112 - Calculus 1

**Additional Comments:**

**Other Prerequisites**
Geol 351 or concurrent enrollment; Phscs 105 or concurrent enrollment.

| Title | Tags |
| --- | --- |
| General Statement of Course Objectives | 204559, 1 |

**Learning Outcome**
My goal is for each of student to learn to become a part of the ongoing conversation about how Earth's crust deforms. This means learning the language of structural geology and using it to share the discoveries they make for themselves. Discoveries in structural geology come through applying best-fit kinematic and dynamic models to geometric reconstructions of observed geological structure. The discovery is complete when they are communicated effectively through writing, illustrations and oral presentation.

| Title | Tags |
| --- | --- |
| Identify in the field and interpret the major deformational | 204560, 2 |

**Learning Outcome**
1. Identify and measure brittle Structure (extensional and shear fractures, fault-related folds)
2. Identify and measure ductile Structure (flow folds, cleavage, foliation and rock fabrics)

| Title | Tags |
| --- | --- |
| Conduct a geometric structural analysis | 204561, 3 |

**Learning Outcome**
1. Acquire reliable measurements of the geometry of structures with a compass
2. Present and manipulate data using stereographic projection
3. Interpret stress and kinematic histories from structural measurements
4. Infer geometry of subsurface and missing parts of structures from measurements in order to construct a viable geologic cross-section.

**Title**
Conduct a kinematic structural analysis

**Tags**
204562, 4

**Learning Outcome**
1. Identify and interpret sense-of-shear indicators associated with both brittle and ductile structures in the field
2. Reconstruct the deformation path of a structural feature or deformed region

**Title**
Conduct a Dynamic Sturctural Analysis

**Tags**
204563, 5

**Learning Outcome**
1. Derive the normal and shear stress components for rock failure from lab data.
2. Use these results to derive the constituitive equations for deformation
3. Quantify the contribution of each deformational mechanism in a region.

**Title**
Forecast the next major earthquake along the Wasatch Fault

**Tags**
204564, 6

**Learning Outcome**
1. Measure the orientation, slip rate and direction of the Wasatch Fault
2. Combine these measurements with GPS and EDM results on strain accumulation rates
3. Determine the most likely location and magnitude of the next large earthquake along the Wasatch Fault.

**Title**
Societal relevance of structural geology

**Tags**
204565, 7

**Learning Outcome**
1. Use structural data to predict the best location to drill for water, oil and gas.
2. Use structural data to predict the location of mineral resources
3. Use structural data to predict the environmental impact of toxic waste disposal

## GEOL 405 - Applied Mathematics in the Geological Sciences

### Course Information

**Teaching Area (new)**
GEOL

**Course Number**
405

**Teaching Area**
GEOL

**Course Title**
Applied Mathematics in the Geological Sciences

**Course Description**
Provides a broad survey of mathematical methods that are relevant for geological problems. Focuses on casting geological problems in mathematical terms and solving them. Strong emphasis on setting up equations and on the quality of written solutions.

**Department**
Geological Sciences

**When Taught**
Winter

**Additional Comments:**

Determine appropriate mathematical methods to solve a given geological problem.

| Title | Tags |
| --- | --- |
| Mathematical Solutions | 204765, 2 |

**Learning Outcome**
Set up equations describing geological problems and solve them symbolically.

| Title | Tags |
| --- | --- |
| Quantitative Reasoning | 204766, 3 |

**Learning Outcome**
Discuss the relevance of a given quantitative solution to our understanding of the geological system of interest.

| Title | Tags |
| --- | --- |
| Mathematical Presentation | 204767, 4 |

**Learning Outcome**
Present quantitative solutions in a logical, understandable manner emphasizing the geological relevance of the problem.

| Title | Tags |
| --- | --- |
| Form and Process | 204566, 1 |

**Learning Outcome**
Understand the relationships between landscapes and the processes that created them

| Title | Tags |
| --- | --- |
| Interpretation of Landscape | 204567, 2 |

**Learning Outcome**
Develop an ability to read and interpret geology and geomorphology from topographic maps, air photos, and satellite data

| Title | Tags |
| --- | --- |
| Quantifying Process | 204568, 3 |

**Learning Outcome**
Become comfortable with quantitative analyses of landforms and geomorphic processes

| Title | Tags |
| --- | --- |
| Change over Time | 204569, 4 |

**Learning Outcome**
Acquire an appreciation for the unique and complex way the landscapes of Earth and the planets evolved to their present-day morphologies

## GEOL 420 - Geological Field Methods

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOL | 420 |

**Teaching Area**
GEOL
**Course Title**
Geological Field Methods
**Course Description**
Introduction to methods used to collect and interpret field data in a variety of geologic and environmental investigations. Extensive hiking requires students to be physically fit.
**Department**
Geological Sciences
**When Taught**
Spring Term

## GEOL 421 - Geological Mapping

### Course Information

| Teaching Area (new) | Course Number |
| --- | --- |
| GEOL | 421 |

**Teaching Area**
GEOL
**Course Title**
Geological Mapping
**Course Description**
Application of field procedures and mapping techniques to a variety of geologic problems. Synthesis of geologic principles leading to the construction and interpretation of geologic maps.

| Title | Tags |
| --- | --- |
| GEOL 420 - Geologic Field Mapping | 204786, 1 |

**Learning Outcome**

Measure and describe a "section" of sedimentary strata, and subdivide the section into lithostratigraphic units.
Interpret rock features in context of sedimentary depositional models.
Collect and interpret structural data, including attitudes of contacts, fractures, faults, fold hinge lines and dip domains, cleavage and foliation, lineations and estimates of strain and paleostress directions.
Evaluate fluid flow in the context of structural features (e.g. faults and joints).

  **AND** GEOL 375 - Structural Geology

**Additional Comments:**

| Title | Tags |
|---|---|
| Research Experience | 204709, 0 |

**Learning Outcome**
1. Gain a greater understanding of your area of interest by working on a mentored research project under the supervision of a faculty member.2. Learn better writing and communication skills by compiling your research into a senior thesis.

in the context of plate tectonics.
Create professional figures using ArcGIS and Illustrator.
Demonstrate increased proficiency in the student's chosen career pathway by participating in deeper learning experience.

## GEOL 435 - Groundwater

### Course Information

**Teaching Area (new)**
GEOL
**Course Number**
435
**Teaching Area**
GEOL
**Course Title**
Groundwater
**Course Description**
Introduction to the occurrence, movement, and properties of subsurface water. Topics include surface and groundwater relationships, water budgets and the hydrologic cycle, Darcy's law, the physics of groundwater flow, flow nets, flow paths in confined and unconfined aquifers, and basin hydrogeology.
**Department**

Math 110 or equivalent

| Title | Tags |
|---|---|
| Physics of the Earth | 204578, 1 |

**Learning Outcome**
Understand the fundamental principles of plate motions, seismic waves, gravity, magnetics, heat flow, and mantle convection

| Title | Tags |
|---|---|
| Problem Solving | 204579, 2 |

**Learning Outcome**
Develop the ability to analyze processes in Earth's interior and on its surface through use of mathematics and problem solving

| Title | Tags |
|---|---|
| Science Writing | 204580, 3 |

**Learning Outcome**
Become comfortable with reading scientific papers, analyzing their content, and writing summaries of your analyses

| Title | Tags |
|---|---|
| Earth as a Planet | 204581, 4 |

**Learning Outcome**
Acquire an appreciation for the unique and complex processes in Earth's interior and the resulting surface manifestations and implications for development of life

## GEOL 445 - Geochemistry

### Course Information

| Teaching Area (new) | Course Number |
|---|---|
| GEOL | 445 |

**Teaching Area**
GEOL
**Course Title**
Geochemistry
**Course Description**
Applying elementary chemical principles to understand geologic processes and materials.
**Department**
Geological Sciences
**When Taught**
Winter

## GEOL 452 - Petrography to Petrogenesis

### Course Information

| Teaching Area (new) | Course Number |
|---|---|
| GEOL | 452 |

**Teaching Area**
GEOL
**Course Title**
Petrography to Petrogenesis
**Course Description**
Principles of optical mineralogy and their application to the identification of minerals in thin section Petrographic analysis and its relation to rock-forming processes in igneous, metamorphic, and sedimentary rocks.
**Department**
Geological Sciences

**Fixed**
3

### Lab Hours

**Fixed**
0

**Simple Requisites**

**Prerequisites**
**Type**
Prerequisite

Prerequisites

**Complete ALL of the following Courses:**
- GEOL 370 - Sedimentology and Stratigraphy
  **AND** GEOL 375 - Structural Geology

**Additional Comments:**

Learning Outcome
Identify important ore-forming minerals, textures, and structures in hand sample and in the field.

| Title | Tags |
| --- | --- |
| Ore Genesis | 204586, 2 |

Learning Outcome
Compare and contrast the principal ore-forming processes: magmatic, hydrothermal, and sedimentary.

| Title | Tags |
| --- | --- |
| Ore Deposit Models | 204587, 3 |

Learning Outcome
Use observed characteristics of an ore deposit to develop a genetic model for its origin.

| Title | Tags |
| --- | --- |
| Resource Exploration Strategies | 204588, 4 |

Learning Outcome
Develop an exploration strategy for an ore deposit based on a genetic model.

| Title | Tags |
| --- | --- |
| What is a seismic wavelet? | 204589, 1 |

Learning Outcome
Understand and able to explain what a reflection wavelet is. i.e. polarity, phase and amplitude

| Title | Tags |
| --- | --- |
| 2D Interpretation | 204590, 2 |

Learning Outcome
Able to identify and interpret, using colored pencils, seismic reflectors on a set of intersecting 2D seismic lines.

| Title | Tags |
| --- | --- |
| Geologic Implications | 204591, 3 |

Learning Outcome
Uses geologic knowledge to infer structure and stratigraphy from seismic reflection data.

| Title | Tags |
| --- | --- |
| Spatial Intelligence | 204592, 4 |

Learning Outcome
Develop three-dimensional thinking skills.

| Title | Tags |
| --- | --- |
| Facetime I | 204593, 5 |

Learning Outcome
Able to coherently and concisely prepare and present technical presentations from:
1) Scientific articles
2) Seismic interpretation and research

| Title | Tags |
| --- | --- |
| Contouring | 204594, 6 |

Learning Outcome
Generation of a hand-drawn time-structure map using the interpretation generated in Learning Outcome "2D Interpretation"

| Title | Tags |
| --- | --- |
| 3D Interpretation | 204595, 7 |

Learning Outcome

Learning of 3D interpretation software. Able to interpret 3D data and generate digital time-structure map.

## GEOL 477R - Secondary Minor Student Teaching

### Course Information

**Teaching Area (new)**
GEOL

**Course Number**
477R

**Teaching Area**
GEOL

**Course Title**
Secondary Minor Student Teaching

**Course Description**
Supervised, full-day, four week experience to develop and demonstrate competence in teaching minor area course content in the secondary classroom.

**Department**
Geological Sciences

**When Taught**
Fall, Winter, Spring

#### Credit Hours

**Min**
4

**Fixed**
4

#### Lecture Hours

**Fixed**
0

#### Lab Hours

**Fixed**
0

**Other Prerequisites**
SC ED 377R or minor area equivalent; admittance to teaching major; FBI fingerprint background clearance.

## GEOL 480 - Paleontology

### Course Information

**Teaching Area (new)**
GEOL

**Course Number**
480

**Teaching Area**
GEOL

**Course Title**
Paleontology

**Course Description**
Distribution, morphology, paleoecology, evolution, and stratigraphic significance of organisms in the geologic record. Field trips.

**Department**
Geological Sciences

**When Taught**
Fall Odd Years

#### Credit Hours

**Min**
3

**Fixed**
3

#### Lecture Hours

**Fixed**

#### Lab Hours

**Fixed**
2

**Simple Requisites**

**Prerequisites**
**Type**
Prerequisite

Prerequisites

**Complete ALL of the following Courses:**
- GEOL 112 - Historical Geology

**Additional Comments:**

**Title**
Fundamentals

**Tags**
204598, 1

**Learning Outcome**
Demonstrate understanding of the nature of fossils and types of

fossilization that turn organic remains into fossils.

| Title | Tags |
| --- | --- |
| Nature of the Fossil Record-Taphonomy | 204599, 2 |

**Learning Outcome**
Be able to explain the incompleteness of the fossil record and the taphonomic processes that affect fossils between death and burial and burial and discovery.

| Title | Tags |
| --- | --- |
| Taxonomy and Morphology | 204600, 3 |

**Learning Outcome**
Be able to recognize the major groups of invertebrate fossils on the basis of their morphology and be able to identify key index fossils to the species level.

| Title | Tags |
| --- | --- |
| Uses of Fossils | 204601, 4 |

**Learning Outcome**
Demonstrate understanding of the uses of fossils in solving geological problems: paleoenvironments, relative age, paleocology.

| Title | Tags |
| --- | --- |
| Evolution | 204602, 5 |

**Learning Outcome**
Understand the role of fossils in demonstrating the patterns of evolution through time.

## GEOL 490R - Topics in Geology

### Course Information

**Teaching Area (new)**
GEOL

**Course Number**
490R

**Teaching Area**
GEOL

**Course Title**
Topics in Geology

**Course Description**
Short, undergraduate-level courses and extended field trips offered on an irregular basis.The following topics may be offered given sufficient demand: Energy Systems; Exploratory Geophysics and Modeling; and Planetary Seminar.

**Department**
Geological Sciences

**When Taught**
Fall, Winter, Spring

### Credit Hours

**Min**
0.5

**Fixed**
3

**Other Prerequisites**
Instructor's consent.

**Note**
Fee.

## GEOL 490R - Advanced Sedimentology

### Course Information

**Teaching Area (new)**
GEOL

**Course Number**
490R

**Teaching Area**
GEOL

**Course Title**
Advanced Sedimentology

**Course Description**
Sedimentology and depositional processes of clastic systems. Focus on different major depositional settings, with classroom discussion based on current research papers. Inputs/outputs of sedimentary systems, the processes involved in the erosion/deposition/transport of sediment, preservation potential and resulting bedforms derived from depositional processes, and interpretation of paleoenvironmental conditions based on preserved strata. Focus on the ancient rock record, modern analogs, and to a lesser extent process-based computer modeling as three different ways to build a more comprehensive understanding.

**Department**
Geological Sciences

**When Taught**
Winter Even Years

#### Credit Hours

**Min**
0.5

**Fixed**
3

## GEOL 490R - Planetary Seminar

### Course Information

**Teaching Area (new)**
GEOL

**Course Number**
490R

**Teaching Area**
GEOL

**Course Title**
Planetary Seminar

**Course Description**
Short, undergraduate-level courses and extended field trips offered on an irregular basis.The following topics may be offered given sufficient demand: Energy Systems; Exploratory Geophysics and Modeling; and Planetary Seminar.

**Title**
Geology 492R - Career Pathways Seminar

**Tags**
204789, 1

**Learning Outcome**
LEARNING OUTCOMES:

Students will become familiar with career options in various sub disciplines within the geological sciences.
Students will learn and be exposed to networking skills for career opportunities.
Students will attend 70 % of the seminars offered this semester and write a one page summary of the topic discussed at each seminar attended.

## GEOL 497R - Geological Research

### Course Information

**Teaching Area (new)**
GEOL

**Course Number**
497R

**Teaching Area**
GEOL

**Course Title**
Geological Research

**Course Description**
Conducting original research under faculty supervision. Project must be approved before registration or starting project.

**Department**
Geological Sciences

**When Taught**
Contact Department

### Credit Hours

**Min**
0.5

**Fixed**
4

**Other Prerequisites**
Supervisor's consent

**Title**
Research Experience

**Tags**
204703, 0

**Learning Outcome**
Learn research methods and techniques through faculty mentored research.

## GEOL 500 - (Geol-Chem-C S-Math-MthEd-Phscs-Stat) Business Career Essentials in Science and Math

### Course Information

| Title | Tags |
|---|---|
| Scientific Writing | 204653, 3 |

**Learning Outcome**
Write concise, scientific descriptions of geologic data, illustrations, and analyses.

| Title | Tags |
|---|---|
| Learn Software Tools | 204671, 0 |

**Learning Outcome**
Become proficient in using the leading software tools including ArcGIS, Illustrator, Photoshop, Acrobat, and MS Excel.

| Title | Tags |
|---|---|
| Apply Software Tools to Geology | 204684, 1 |

**Learning Outcome**
Design and create publishable geologic maps, illustrations, figures, and tables from geologic data and models.

| Title | Tags |
| --- | --- |
| Term Presentation | 204704, 2 |

**Learning Outcome**
Investigate and present to peers the hydrocarbon system of a significant petroleum field or play.

| Title | Tags |
| --- | --- |
| Sedimentary Basin Classification | 204712, 3 |

**Learning Outcome**
Understand sedimentary basin types as dictated by their tectonic setting. Under, to a basic level, the hydrocarbon potential of these various basins and the variables that determine their potential or lack of potential. Understand the importance of looking for the exception to the rule.

| Title | Tags |
| --- | --- |
| Quantitative Analysis | 204715, 2 |

**Learning Outcome**
Analyze geologic data through basic statistical techniques and simple numerical models.

## GEOL 531 - Geoscience Data Analysis

### Course Information

Title
Fundamentals of Fate and Transport

Tags
204603, 1

Learning Outcome
1. Learn the fundamental processes by which contaminants are transported in groundwater, including: diffusion, advection, and dispersion.
2. Understand process that delay or limit contaminant transport, including: sorption, reaction, decay (chemical and radioactive), and colloid transport.
3. Learn the fundamentals of tranport in the vadose zone, as well as multiphase flow.
4. Appreciate the processes involved in the transport of inorganic (including radionuclides) and organic compounds.
5. Understand the fundamental principles of ground water monitoring, site characterization, and remediation, including the major federal laws that govern such actions.

## GEOL 540 - Principles of Glaciology

### Course Information

Teaching Area (new)
GEOL

Course Number
540

Teaching Area
GEOL

Course Title
Principles of Glaciology

Course Description
Geophysical problems involving ice in the environment and its role in global change. Topics include atmospheric ice, snow pack, glaciers, ice sheets, sea ice, permafrost, and ice age theories.

Geol 352 or equivalent.

| Title | Tags |
| --- | --- |
| Evaluation of Multi-Component Systems | 204648, 2 |

Learning Outcome
1. Learn the fundamentals of mixing, or mixing and assimilation combined with fractionation when confronted with isotope ratios of two systems, or isotope ratios and elemental abundances.

| Title | Tags |
| --- | --- |
| Geochronology and Thermochronology | 204686, 3 |

Learning Outcome
1. Review some of the most commonly applied (and state-of-the-art) geochronometers, including: 40Ar/39Ar, U-series, 14C, 3H, and 210Pb. Emphasis changes from semester to semester based on the research goals of enrolled graduate students

| Title | Tags |
| --- | --- |
| Evolution of Radiogenic Nuclides in the Earth and Solar Syst | 204705, 1 |

Learning Outcome
1. Understand the relationship between chemical fractionation and the evolution of isotope ratios in the Rb/Sr, Sm/Nd, and U/Pb systems. By ANALOGY, students will be prepared to understand Re/Os, Lu/Hf, K/Ca, etc should the need arise.2. Understand the isotopic

present the research and results orally in a poster session.

| Title | Tags |
| --- | --- |
| Quantitative Analysis | 204743, 3 |

**Learning Outcome**
Demonstrate the ability to quantify cryospheric formation, dynamics, sensitivities, and interactions through rigorous numerical problem sets and laboratory exercises.

evolution of these systems in the solar system, bulk earth, rock bodies, and individual minerals.3. Appreciate how these systems can be employed as geochronometers, and perhaps more importantly, as tracers of earth processes in the crust and mantle.

| Title | Tags |
| --- | --- |
| Light Stable Isotopes | 204708, 4 |

**Learning Outcome**
Understand the fundamental processes that lead to isotopic fractionation among the light stable isotopes, including:1. Temperature-dependent equilibrium processes.2. Kinetic fractionations.3. Distillation.4. Biological fractionation in plants, animals, and microorganisms. Conduct a survey of the major applications of C, N, O, H, and S isotopes in geologic, hydrologic, and climate studies.

| Title | Tags |
| --- | --- |
| Seminar Days | 204714, 5 |

**Learning Outcome**
On selected class periods throughout the semester, individual class members present, and all class members read, scientific papers that highlight the application of one or more isotope systems that have been discussed. This enables students to:1. Learn how others have applied isotopic methods to understand how processes occur in nature.2. Deepen their understanding of the principles discussed in class.3. Learn to critically read, discuss, and present the findings of others.

| Title | Tags |
| --- | --- |
| Isotope Fundamentals | 204735, 0 |

**Learning Outcome**
1. Appreciate the structure of nuclides as the relate to radio-, radiogenic, and light stable isotopes.2. Learn to use the chart of the nuclides.3. Learn mechanisms and fundamental

equations governing decay and ingrowth of nuclides.

## GEOL 546 - Isotope Geochemistry-Low Temperature Applications

### Course Information

**Teaching Area (new)**
GEOL

**Course Number**

| Mathematical Crystallography | 204797, 3 |

Learning Outcome
Students will demonstrate a basic understanding of mathematical crystallography.

| Title | Tags |
| --- | --- |
| X-Ray Diffraction | 204798, 4 |

Learning Outcome
Students will demonstrate a basic knowledge of Powder X-Ray Diffraction techniques and software.

## GEOL 553 - Metamorphic Petrology

Fixed
3

Other Prerequisites
Geol 352 or equivalent

| Title | Tags |
| --- | --- |
| Presentation Skills | 204632, 5 |

Learning Outcome
Refine ability to make oral and written presentations.

| Title | Tags |
| --- | --- |
| Petrologic Modeling | 204643, 4 |

Learning Outcome
Develop quantitative skills using calculations in a spreadsheet to model igneous processes.

| Title | Tags |
| --- | --- |
| Analytical Geochemistry | 204664, 3 |

Learning Outcome
Understand the use of analytical equipment and interpretation of analytical data

| Title | Tags |
| --- | --- |
| Minerals and Intensive Parameters | 204674, 2 |

Learning Outcome
Explain how mineral compositions can be used to deduce intensive parameters

| Title | Tags |
| --- | --- |
| Petrotectonics | 204694, 1 |

Learning Outcome
Understand the link between tectonic setting and igneous rock composition.

| Title | Tags |
| --- | --- |
| Volcanology | 204754, 0 |

Learning Outcome
Identify the nature and causes of volcanic eruptions.

## GEOL 555 - Volcanoes and Ore Deposits

## Course Information

**Teaching Area (new)**
GEOL

**Course Number**
553

**Teaching Area**
GEOL

**Course Title**
Metamorphic Petrology

**Course Description**
Principles of metamorphism, including chemical equilibrium and thermodynamics of metamorphic reactions, geothermobarometery, origin and interpretation of zoned metamorphic minerals, pressure-temperature paths, and metamorphism of pelites, mafic, ultramafic and carbonate rocks. Additional subjects based on interest of the students.

**Fixed**
3

**Other Prerequisites**
Geol 352 or equivalent.

| Title | Tags |
|---|---|
| Quantitative Skills | 204770, 3 |

**Learning Outcome**
Develop quantitative skills using calculations in spreadsheets to model magmatic processes

| Title | Tags |
|---|---|
| Scientific Literature | 204771, 4 |

**Learning Outcome**
Refine ability to make read and understand scientific literature

| Title | Tags |
|---|---|
| Volcano Types | 204772, 1 |

**Learning Outcome**
Understand the major types of volcanic eruptions and volcanoes

| Title | Tags |
|---|---|
| Volcanoes in the Field | 204773, 2 |

**Learning Outcome**
Explain how outcrop characteristics can be used to deduce eruption processes and volcano evolution

changing metamophric conditions.
Understand the use of analytical equipment and interpretation of analytical data.
Develope the quantitiative skills using thermobarometic calculations to determine metamorphic P-T paths.

## GEOL 560 - Waveform Geophysics

### Course Information

**Teaching Area (new)**
GEOL

**Course Number**
560

**Teaching Area**
GEOL

**Course Title**
Waveform Geophysics

**Course Description**
Principles and methods used in seismic and ground-penetrating radar (GPR) geophysics, with petroleum exploration, engineering, environmental, and hydrological applications. Includes introduction to state-of-the-art industrial software applications for data processing and visualization.

**Department**
Geological Sciences

204639, 3

**Learning Outcome**
Become acquainted with basic data processing and modeling software tools.

processed, and interpreted.

| Title | Tags |
| --- | --- |
| Learning Outcome 4 | 204677, 3 |

**Learning Outcome**
Process seismic reflection data acquired by USGS/ BYU using state-of-the-art tools.

| Title | Tags |
| --- | --- |
| Learning Outcome 2 | 204690, 1 |

**Learning Outcome**
Provide a quantitative and theoreticalunderstanding of how the seismic method operates.

| Title | Tags |
| --- | --- |
| Learning Outcome 1 | 204706, 0 |

**Learning Outcome**
Introduction tothe seismic method, especially for the reflection case.

| Title | Tags |
| --- | --- |
| Learning Outcome 2 | 204656, 1 |

**Learning Outcome**
Be able to design and supervise a seismic/GPR survey.

| Title | Tags |
| --- | --- |
| Learning Outcome 1 | 204658, 0 |

**Learning Outcome**
Become expert at using an exploration seismograph and ground-penetrating radar (GPR) for subsurface surveying.

| Title | Tags |
| --- | --- |
| Learning Outcome 3 | 204691, 2 |

**Learning Outcome**
Have real-world experiences in mostly outdoor “lab” settings that will mimic a professional environment.

| Title | Tags |
| --- | --- |
| Learning Outcome 4 | 204692, 3 |

**Learning Outcome**
Become acquainted with basic data processing and modeling software tools.

| Title | Tags |

**Learning Outcome**
Demonstrate an understanding of the origin and meaning of carbonate sediments as contrasted with their siliciclastic counterparts by studying them in the field.

| Title | Tags |
| --- | --- |
| Petrography | 204775, 2 |

**Learning Outcome**
Be able to identify and interpret the meaning of basic carbonate grain types in modern carbonate sediment from the Bahamas and South Florida.

| Title | Tags |
| --- | --- |
| Carbonate Sequence Stratigraphy | 204776, 4 |

**Learning Outcome**
Be able to interpret the

| | |
|---|---|
| | Be able to interpret the stratigraphy and facies of late Pleistocene parasequences as seen in outcrop and in subsurface GPR profiles. |

| Title | Tags |
|---|---|
| Diagenesis | 204777, 5 |

**Learning Outcome**
Understand the diagenetic potential of modern carbonate sediments and the processes that turn them to rock as well as the effects of meteoric water on Pleistocene outcrops.

| Title | Tags |
|---|---|
| Depositional Environments | 204778, 3 |

**Learning Outcome**
Collect and interpret samples from a range of modern tropical carbonate depositional environments including ooid shoals, tidal flats, reefs, lagoons, tidal channels, and open shelves.

## GEOL 574 - Advanced Stratigraphy

### Course Information

**Teaching Area (new)**
GEOL
**Course Number**
574
**Teaching Area**
GEOL
**Course Title**
Advanced Stratigraphy
**Course Description**
Studying the stratigraphic record through modern methods of correlating stratal packages, emphasizing concepts of sequence and seismic stratigraphy, and utilizing methods of chronostratigraphy, biostratigraphy, lithostratigraphy, and absolute dating. Extended field trip required.
**Department**
Geological Sciences

Title
Demonstration and Term Presentation

Tags
204628, 2

Learning Outcome
Students will demonstrate their understanding by working through problems associated with field trips to outcrops and core repositories. A term presentation on the sequence or seismic stratigraphy of a given unit of rock is given to further demonstrate that understanding.

Title
Nature of the Stratigraphic Record

Tags
204713, 1

Learning Outcome
A basic understanding of the stratigraphic record and the stratigraphic methods that researchers use to understand Earth history through strata. These methods include biostratigraphy, lithostratigraphy, magnetostratigraphy, seismic stratigraphy, and sequence/chronostratigraphy. The student should understand the fragmentary nature of the straigraphic record and the importance of recognizing hiatuses and unconformities.

Title
Sequence Stratigraphy

Tags
204724, 0

Learning Outcome
Understand the vocabulary and fundemental concepts of sequence stratigraphy as they apply to outcrop, core, and seismic sections. Understand how the fundementals of these concepts change when working in siliciclastic depositional systems as compared to

## Lab Hours

**Title**
Fundamentals

**Tags**
204779, 1

**Learning Outcome**
Demonstrate understanding of advanced concepts in paleontology, such as biostratigraphy, paleoecology, evolution, and taxonomy with respect to specific fossil taxa.

**Title**
Nature of the Fossil Record-Taphonomy

**Tags**
204780, 2

**Learning Outcome**
Be able to recognize the

influence of physical and biological processes on fossils and be able to interpret a fossil's post-depositional history.

| Title | Tags |
| --- | --- |
| Taxonomy and Morphology | 204781, 3 |

**Learning Outcome**
Be able to recognize and identify key fossil groups down to the genus and species level.

| Title | Tags |
| --- | --- |
| Use of Fossils | 204782, 4 |

**Learning Outcome**
Be able to accurately determine the age, depositional setting, and diagenesis of sedimentary strata based upon fossil content and preservation.

| Title | Tags |
| --- | --- |
| Collections | 204783, 5 |

**Learning Outcome**
Become familiar with techniques use by specialists in collecting, preparing, and curating a range of fossil taxa.

### Course Information

**Teaching Area (new)**
GEOL

**Course Number**
590R

**Teaching Area**
GEOL

**Course Title**
Advanced Sedimentology

**Course Description**
Sedimentology and depositional processes of clastic systems. Focus on different major depositional settings, with classroom discussion based on current research papers. Inputs/outputs of sedimentary systems, the processes involved in the erosion/deposition/transport of sediment, preservation potential and resulting bedforms derived from depositional processes, and interpretation of paleoenvironmental conditions based on preserved strata. Focus on the ancient rock record, modern analogs, and to a lesser extent process-based computer modeling as three different ways to build a more comprehensive understanding.

| Becoming more Aware of Student habits of Seeing and Thinking | 192809, 6 |

Learning Outcome
As students are confronted with the startling and strange and intriguing ways that Germans and Scandinavians represent the world, they will become more aware of their own habits of seeing and thinking. In several of their written assignments and class discussions, students will demonstrate their ability to thoughtfully reflect upon these different visual practices and to engage these different ideas into meaningful dialogue.

they are making. Students will be able to introduce and cite all quotes and data properly, providing adequate and correct citations for all points they are making or ideas they are drawing on from the works of other scholars.

| Title | Tags |
| --- | --- |
| Logical Arguments | 192436, 5 |

**Learning Outcome**
Students will be able to argue their points and theses effective by using logical and cohesive arguments.

| Title | Tags |
| --- | --- |
| Reviewing One's Own Work and that of Others | 192437, 6 |

**Learning Outcome**
Students will become less dependent on their professor's grades, feedback and comments to improve their work. They will develop the ability to candidly evaluate their own performance and work, providing effective peer review for the work of others, identifying both the strengths and weaknesses of papers in terms of structure, form, citations, writing to the thesis, and overall organisation. To do so, students will be able to identify the key sentences in their own work and the work of others, shaping paragraphs and sections to ensure they fit with the thesis and topic of the research paper.

| Title | Tags |
| --- | --- |
| Using Publications as an Example for Writing Own Paper | 192438, 7 |

**Learning Outcome**
Students will be able to draw upon published sources and the articles of others to use as examples of 1) how to organise their papers (including sections and paragraphs); 2) how to cite and incorporate data (including in tables) and the ideas of others; 3) compose a bibliography, 4) format their papers, and 4) correctly use the terminology and turns of phrased used in the field in question

| Title | Tags |
| --- | --- |
| Increasing Cultural Literacy | 192810, 5 |

**Learning Outcome**
Because the course is structured around a variety of historical, theoretical, and cultural questions, students will develop and demonstrate an increased cultural literacy as they grapple with questions of ideology, identity, class, race, gender and memory in the context of the German and Scandinavian cultures and film history.

| Title | Tags |
| --- | --- |
| Developing Intellectually Sound Interpretations | 192811, 4 |

**Learning Outcome**
Students will be able to develop their own well-informed, critically provocative, and intellectually sound interpretations of different cinematic texts and be able to defend and expand these interpretations in classroom discussions and in writing assignments. A list of these specific skills can be found in the grading rubric for each of these assignments.

| Title | Tags |
| --- | --- |
| Reading, Critiquing and Writing Formal Sequence Analyses | 192812, 3 |

**Learning Outcome**
Students will be able to read, critique and write formal sequence analyses of key scenes from German and Scandinavian films.

field in question.

| Breaking Down German Sentences into Basic Constituents | 192567, 8 |

**Learning Outcome**
8. be able to break down German sentences into their basic constituent structure and understand the structural difference between V2 and Verb-at-end sentences;

Learning Outcome
8. be able to identify the main dialects of Old High German, Middle High German and Modern German and describe their location and distinguishing features;

Title
External Influences that Shaped the History of the German La

Tags
192549, 9

Learning Outcome
9. understand and be able to describe the external influences which helped shape the history of the German language, e.g., Luther's influence, Charlemagne, the printing press, grammarians, war, trade, etc.;

Title
German Dialects

Tags
192550, 10

Learning Outcome
10. can outline and discuss the meaning of the word dialect in its linguistic sense and appreciate the various dialects of German as legitimate linguistic entities of equal value;.

Title
Why Language Changes

Tags
192551, 11

Learning Outcome
11. be able to describe reasons why languages change

Title
Research

Tags
192552, 12

Learning Outcome
12. be able to carry out research on one aspect of the history of the Germanic languages and provide a brief and clear overview of a topic related to a change in one of the Germanic languages in both written and oral form to communicate my findings in a paper in a clear manner using primary literature (journal articles);

Title
Seeking Sources on Topics in

Tags

Title
Phrases which are Complements of Various Words

Tags
192568, 9

Learning Outcome
9. be able to identify the types of phrases which are complements of various words in German;

Title
Basic Concepts of Dialectology

Tags
192569, 10

Learning Outcome
10. understand the basic concepts of dialectology to define and differentiate between the major dialects of German;

Title
Various Dialects of German

Tags
192570, 11

Learning Outcome
11. understand the meaning of the word dialect in its linguistic sense and appreciate the various dialects of German as legitimate linguistic entities of equal value;

Title
Various Changes in Spelling

Tags
192571, 12

Learning Outcome
12. be able to describe the various changes in spelling brought about by the new Rechtschreibung and understand the motivating factors behind language and orthographic normalisation;

Title
Contemporary Trends in Spoken Modern German

Tags
192572, 13

Learning Outcome
13. be able to identify and discuss contemporary trends in spoken modern German such as lexical borrowing, youth language, use/loss of dialects, etc.

Title
Disambiguating Ambiguous Sentences

Tags
192573, 14

Learning Outcome
14. to be able to disambiguate

Germanic Linguistics 192553, 13

**Learning Outcome**
13. be able to seek sources on topics in Germanic linguistics;

**Title**
Applying Learned Material to English and Other Languages

**Tags**
192554, 14

**Learning Outcome**
14. be able to make connections between what we learn in class about the history of German to better understand English, the German language and how languages (including my own language use) can change and/or differ from others' language;

**Title**
Identifying Supporting Quotes

**Tags**
192555, 15

**Learning Outcome**
15. be able to identify useful quotes that will help me support the thesis of my paper;

**Title**
Using Logical Arguments

**Tags**
192556, 16

**Learning Outcome**
16. be able to argue my point effectively using a logical argument

**Title**
Identifying data that Supports an Argument

**Tags**
192557, 17

**Learning Outcome**
17. be able to identify data that supports the arguments I am making or citing;

**Title**
Introducing and Citing Quotes

**Tags**
192558, 18

**Learning Outcome**
18 be able to introduce and cite quotes properly;

**Title**
Providing Adequate and Correct Citations

**Tags**
192559, 19

**Learning Outcome**
19. be able to provide adequate

ambiguous sentences and words and describe how the internal structure of words or sentences (in addition to accent placement) explains the multiple meanings behind the ambiguity.

**Title**
Community-Based Application for Learning

**Tags**
192833, 15

**Learning Outcome**
Students will apply their learning in given classes to create projects that help contribute to the enrichment of others outside of those classes. They will move their research beyond the culmination of a final product submitted for a grade, bringing their work into the community and public domain, including helping projects outside the classroom in concrete ways, e.g., developing materials for an online lexicon project, creating enrichment materials and activities for K-16 German classes, creating posters and papers for conferences, being able to help other students in their learning and resarch. As a result, students will be able to articulate how their learning can be applied in real life and can be extended outside of the classroom and ultimately that their learning has and should have community impact.

19. Be able to provide adequate and correct citations for the points I am making or drawing on from the works of others;

Learning Outcome
Students will be able to interact professionally with adults aged 50 and older.

**Tags**
213858, 0, 2, 2023-08-29 09:19:17

Learning Outcome
Students will apply knowledge from other courses taken for the gerontology minor, as they interact with middle-aged and older adults.

**Tags**
213859, 0, 3, 2023-08-29 09:19:19

Learning Outcome
Students will be able to serve older adults in the community.

## GES 200 - Introduction to Global Environmental Studies

### Course Information

**Teaching Area (new)**
GES
**Course Number**
200
**Teaching Area**
GES
**Course Title**
Introduction to Global Environmental Studies
**Course Description**
GES 200 is the introductory class for the Global Environmental Studies minor and will prepare students for a broadly interdisciplinary engagement with environmental issues and challenges with an intercultural perspective. The class is managed by the program director with guest lecturers from among the Global Environmental Studies affiliated faculty highlighting different methodological and disciplinary approaches to ecological concerns. The specific issues and topics covered by the class will vary by semester, but every iteration will encompass the doctrinal foundations of environmental stewardship in the interdisciplinary context of the natural sciences, social sciences, arts, and humanities.

| Interdisciplinary Approaches | 214566, 0, 2, 2023-09-01 15:53:29 |

**Learning Outcome**
Students will be able to evaluate environmental issues of global scope and policy proposals using methodologies from more than one domain of knowledge.

| Title | Tags |
| --- | --- |
| Cross-Cultural Contexts | 214567, 0, 3, 2023-09-01 15:53:29 |

**Learning Outcome**
Students will develop competencies to work sensitively across cultural contexts in order to find local cultural solutions to environmental challenges.

## GES 490 - Global Environmental Studies Capstone

### Course Information

**Teaching Area (new)**
GES

**Course Number**
490

**Teaching Area**
GES

**Course Title**
Global Environmental Studies Capstone

**Course Description**
This course catalyzes learning about complex environmental challenges through research and service. As the capstone experience for the GES program, students will produce a research project and portfolio demonstrating mastery of the quantitative and aesthetic components of science and communication. The course consists of two major projects: 1) Assembling a portfolio of previous work demonstrating mastery of the GES program outcomes. 2) Identifying and carrying out a meaningful environmental research and service project addressing a pressing issue. Depending on the selected issue, this project may result in a peer-reviewed publication, a collaborative service project, or another outcome appropriate to the project. \n

**Title**
Greek Morphology

**Tags**
189893, 1

**Learning Outcome**
Successful students will master Greek morphology. All of the forms introduced in Greek 101/102 should be mastered in Greek 201. Students should be able to identify fully the forms of nouns, adjectives, verbs (finite and infinitive forms), adverbs, participles, etc.

| Title | Tags |
| --- | --- |
| Read Classical Greek | 189892, 2 |

**Learning Outcome**
Successful students will be able to read Classical Greek at an elementary level with a high degree of understanding.

| Title | Tags |
| --- | --- |
| Greek Grammar and Syntax | 189894, 2 |

**Learning Outcome**
Successful students will master Greek grammar and syntax. They should be able to recognize and identify grammatical and syntactical constructions. In other words, students should be able not only to identify the form of a Greek word, but also the function of that word. For example, a student should be able to indentify a verb form as third person singular present active subjunctive, and then explain why the subjunctive mood is being used.

| Title | Tags |
| --- | --- |
| Greek Translation | 189895, 3 |

**Learning Outcome**
Successful students should be able to translate a representative Classical Greek text into good English.

| Title | Tags |
| --- | --- |
| Greek Authors | 189896, 4 |

**Learning Outcome**
Successful students should be able to locate the literary accomplishments of the chosen author (such as Xenophon) in the context of Greek literature generally and of his own literary context specifically.

## GSCM 410 - Artificial Intelligence in Business Operations

### Course Information

**Course Number**
410
**Teaching Area**
GSCM
**Course Title**
Artificial Intelligence in Business Operations
**Course Description**
Artificial Intelligence (AI) can impact business operations in substantial ways. This course provides students who do not have a technical (i.e., software engineering) background with a working knowledge of AI concepts, principles, tools, and applications. We review current types of AI systems and considerations for implementation. The course will prepare students to use AI on the job as well as direct others who manage the technical aspects of AI systems.

0

**Learning Outcome**

| | |
|---|---|
| Non typical Logistics | 176261, 3 |

**Learning Outcome**
Understand logistics concepts including global logistics, humanitarian logistics, and sustainability.

| Title | Tags |
|---|---|
| International logistics | 176260, 2 |

**Learning Outcome**
Understand the processes, skills and terminology required to do logistics globally.

| Title | Tags |
|---|---|
| Transportation Management | 176259, 1 |

**Learning Outcome**
Apply the general principles and managerial skills related to transportation.

| Title | Tags |
|---|---|
| Warehouse and Inventory Management | 176296, 0 |

**Learning Outcome**
Understand the general principles and concerns of Warehouse and Inventory management.

| Title | Learning Outcome |
|---|---|
| Explain AI concepts and types | Students will be able to explain fundamental concepts and types of AI models. |
| Determine AI use cases | Students will determine business operation use cases for AI models. |
| Articulate AI implementation steps | Students will able to articulate steps to implementing AI systems in business operations. |
| Address AI risks and ethical issues | Students will identify limitations, risks, and ethical issues of AI systems. |
