  AND MUSIC 198 - Sight Singing 2

Learning Outcomes

Title
Performance Skills

Tags
214172, 0, 1, 2023-08-29 11:22:12

Learning Outcome
Students will demonstrate fundamental performance skills and technique on trumpet, french horn, trombone, euphonium, and tuba including: correct embouchure, proper hand positions and slide manipulation, ability to breath properly without disturbing the mouthpiece position, appropriate tonguing (sustained and detached sound, double and triple tonguing).

Title
Teaching Skills

Tags
214173, 0, 2, 2023-08-29 11:22:14

Learning Outcome
Students will effectively sequence and demonstrate appropriate strategies for instructing fundamental performance skillsand technique on trumpet, french horn, trombone, euphonium, and tuba.

Title
Instrument/Performance Mechanics

Tags
214174, 0, 3, 2023-08-29 11:22:15

Learning Outcome
Students will demonstrate understanding of: the simple physics of the overtone series and how it applies to brass instruments; the basics of mouthpiece construction and how it affects performance; three different ways to produce vibrato on brass instruments; various transpositions needed by an orchestral brass player; mutes and what effect they have on performance and intonation.

Title
Awareness of Pedagogy

Tags
214175, 0, 4, 2023-08-29 11:22:16

Learning Outcome
Students will demonstrate: a basic knowledge of the history of brass instruments; how electronic accompaniments can be used as a teaching tool; an awareness of graded brass literature; recognition of the most commonly played brass solos.

Learning Outcomes

Title
Choral Percussion

Tags
214182, 0, 1, 2023-08-29 11:22:29

Learning Outcome
To prepare you to teach basic percussion skills at the public school level to both instrumental students and choral students as well as to help you reach a high level of performance ability with regards to rhythm, counting, and exposure to a variety of percussion instruments. Additional objectives are to develop your abilities in writing/arranging percussion parts for choral works and becoming more familiar with choral repertory that utilizes percussion. Since this is a one semester course, please try to immerse yourself in percussion related activities by attending recitals and concerts where percussion is utilized.

Title
Performance Skills

Tags
214183, 0, 2, 2023-08-29 11:22:31

Learning Outcome
Students will demonstrate: an understanding of fundamental performance techniques for musical instruments common to the percussion family; rudimentary technique on many of the instruments labeled percussion, concentrating on those that are most common to today's elementary and high school literature.

Title
Teaching Skills

Tags
214184, 0, 3, 2023-08-29 11:22:33

Learning Outcome
Students will demonstrate ability to teach beginning percussion students at the elementary or secondary school levels and to continue to provide them with an accepted, organized approach to learning and developing percussion techniques and skills.

Title
Awareness of Pedagogy

Tags
214185, 0, 4, 2023-08-29 11:22:34

Learning Outcome
Students will demonstrate familiarity with the history of each major instrument found in the percussion family, their acoustical properties and methods of sound production, and the idiosyncrasies of percussion music notation.

Learning Outcomes

Title
Performing on a Stringed Instrument

Tags
214191, 0, 1, 2023-08-29 11:22:45

Learning Outcome
Demonstrate the ability to play with expression simple tunes, with proper playing position, tone quality, intonation, and rhythmic accuracy on all four orchestral instruments.

Title
String Skills and Techniques

Tags
214192, 0, 2, 2023-08-29 11:22:48

Learning Outcome
Demonstrate ability to identify skills and techniques common to all string instruments.

Title
Effective Sequencing and Instruction

Tags
214193, 0, 3, 2023-08-29 11:22:49

Learning Outcome
Demonstrate ability to effectively sequence and instruct these fundamental skills.

Title
Diagnosing Technical and Aural Problems

Tags
214194, 0, 4, 2023-08-29 11:22:51

Learning Outcome
Demonstrate ability to diagnose technical problems and propose remedial strategies. This includes developing and improving the necessary aural skills needed for effective string teaching.

Title
The Role of String Instruction

Tags
214195, 0, 5, 2023-08-29 11:22:52

Learning Outcome
Demonstrate an enthusiasm for and understanding of the role of orchestra/string instruction in the K-12 school music curriculum as a means of realizing a comprehensive music education.

Title
Professionalism

Tags
214196, 0, 6, 2023-08-29 11:22:57

Learning Outcome
Develop the professional skills, traits, and behaviors expected of a professional music educator.

Title
Pedagogues and Movements in String Education

Tags
214197, 0, 7, 2023-08-29 11:22:59

Learning Outcome
Students will know selected string pedagogues, and demonstrate ability to identify important movements in string education.

Title
Spiritually Strengthining

Tags
214198, 0, 8, 2023-08-29 11:23:00

Learning Outcome
Discover ways to appropriately teach by the Spirit in a secular educational setting (D&C 50:13-22).

Recommended
Music 278

Learning Outcomes

Title
Teaching Skills

Tags
213229, 0, 2

Learning Outcome

Demonstrate sequenced developmental teaching of musical elements for grades K-6 using a variety of methods and delivery techniques.

Title
Assessment

Tags
213230, 0, 3

Learning Outcome

Select, utilize, and evaluate methods of assessment in elementary general music.

Title
Content Knowledge

Tags
213231, 0, 4

Learning Outcome

Explore and discuss special topics in music education, such as: classroom engagement, teaching students with exceptionalities and special needs, social emotional learning, world music pedagogy, arts and other content integration, and other topics as needed or desired.

Title
Standards-Based Curriculum Writing

Tags
213228, 0, 1

Learning Outcome

Articulate what should be taught in elementary music for grades K-6, including music skills, fundamentals, and INGs, and develop standards-based lesson and unit plans for grades K-6 based on appropriate music skills and concepts for each grade level.

Students will be prepared to function competently in the public school classroom as musical artists, as teachers, and as administrators.

Title
Classroom Strategies and Policies

Tags
214200, 0, 2, 2023-08-29 11:23:06

Learning Outcome
Students will be prepared to create their own strategies and policies for the music classroom based on sound principles.

Title
Rehearsal Technique

Tags
214201, 0, 3, 2023-08-29 11:23:09

Learning Outcome
Students will develop processes, build skills, and share knowledge in rehearsal technique by analyzing scores, forecasting rehearsal issues, planning, creating, and prioritizing strategies, executing the rehearsal with a real lab choir.

Title
Choral Voice Building

Tags
214202, 0, 4, 2023-08-29 11:23:11

Learning Outcome
Students will develop processes, build skills, and share knowledge in voice building of choral singers by creating an index of vocalises to build technique, modeling for and strategizing to improve the tone of the lab choir over the semester, reading about and discussing group vocal pedagogy.

Title
Choral Repertoire

Tags
214203, 0, 5, 2023-08-29 11:23:14

Learning Outcome
Students will develop processes, build skills, and share knowledge in discerning quality choral repertoire, collecting and organizing it into personal choral reference libraries.

Title
Repertoire and Program Selection

Tags
214204, 0, 6, 2023-08-29 11:23:16

Learning Outcome
Students will develop processes, build skills, and share knowledge in selecting repertoire and creating quality concert programs for secondary students.

Title
Creating Course Documents

Tags
214205, 0, 7, 2023-08-29 11:23:18

Learning Outcome
Students will develop processes, build skills, and share knowledge in creating course documents that outline curriculum goals, classroom management rules and consequences, assessment and grading procedures, budget proposals and purchasing information.

Title
Recruiting and Voice Testing

Tags
214206, 0, 8, 2023-08-29 11:23:20

Learning Outcome
Students will develop processes, build skills, and share knowledge in recruiting singers, voice testing and discerning stages of the changing voice meeting the range needs of those voices, auditioning.

MUSIC 383 - Art of Teaching Instrumentalists in Ensembles

Course Information

Teaching Area (new)
MUSIC

Course Number
383

Teaching Area
MUSIC

Course Title
Art of Teaching Instrumentalists in Ensembles

Course Description
Curriculum design, evaluating ensemble performance, advanced rehearsal techniques, administering secondary instrumental music programs; computers and computer-assisted instruction.

Department
Music

When Taught
Winter.

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- MUSIC 235A - Instrumental Conducting Techniques.
  OR MUSIC 235B - Choral Conducting Techniques
- MUSIC 276 - Introduction to Music Education
- MUSIC 283 - Foundations of Teaching Instrumentalists in Ensembles

Learning Outcomes

Title
Spiritually Strengthening

Tags
214207, 0, 1, 2023-08-29 11:23:22

Learning Outcome
Discover ways to appropriately teach by the Spirit in a secular educational setting (D&C 50:13-22).

Title
Professionalism

Tags
214208, 0, 2, 2023-08-29 11:23:25

Learning Outcome
Develop and maintain the professional skills, traits, and behaviors expected of a professional music educator.

Title
K-12 Instrumental Music Program Management

Tags
214209, 0, 3, 2023-08-29 11:23:27

Learning Outcome
Demonstrate the leadership and managerial skills required to manage a K-12 band and orchestra program. This includes contest/festival adjudication, facility planning, recruiting, public relations, finances, and fund raising.

Title
Rehearsal techniques

Tags
214210, 0, 4, 2023-08-29 11:23:28

Learning Outcome
Students will demonstrate ability to locate and resolve errors in ensemble performance and to conduct ensemble music with clarity and purpose. Students will gain experience in the musical skills of intonation/quality, and transposition/score reading.

Title
Diagnosing Technical and Aural Problems

Tags
214211, 0, 5, 2023-08-29 11:23:30

Learning Outcome
Demonstrate and improve needed aural, theoretical, and pedagogical skills required for effective conducting and teaching in a K-12 band and orchestra rehearsal. This includes the ability to diagnose aural and technical problems while proposing remedial strategies to improve student musicianship.

Title
Effective Conducting

Tags
214212, 0, 6, 2023-08-29 11:23:32

Learning Outcome
Demonstrate a high degree of musicianship as a conductor.

Title
Teaching

Tags
214213, 0, 7, 2023-08-29 11:23:34

Learning Outcome
Demonstrate ability to effectively sequence and instruct the skills of musicianship needed in a K-12 band and orchestra class.

Title
Instrumental Pedagogy

Tags
214214, 0, 8, 2023-08-29 11:23:35

Learning Outcome
Demonstrate the ability to identify skills and techniques common to K-12 band and orchestra musicians. This includes the ability to recognize challenges and diagnose solutions to common pedagogical challenges encountered in a K-12 band and orchestra classroom.

Title
Performing on Band and Orchestra Instruments

Tags
214215, 0, 9, 2023-08-29 11:23:37

Learning Outcome
Demonstrate the ability to play music appropriate for school bands and orchestras with proper playing position, tone quality, rhythmic accuracy, intonation, and expression on all instruments learned in workshop classes.

Title
Philosophy of Instrumental Music Education

Tags
214216, 0, 10, 2023-08-29 11:23:38

Learning Outcome
Develop and demonstrate the ability to articulate a personal philosophy for music education which accounts for the place of arts in the K-12 school curriculum. Philosophical topics may include the scope and sequence of a curriculum, music selection, extra-musical activities (travel, fund raising, service), diversity and inclusion, and ethics.

  AND MUSIC 222 - Functional Piano Skills 2

Learning Outcomes

Title
Jazz Keyboarding

Tags
187734, 0

Learning Outcome
Students learn how to read lead sheets and how to appropriately voice chords on the piano.

Title
Play standard tunes in the following ways using a lead sheet

Tags
188026, 1

Learning Outcome
Upon the successful completion of this course a student should be able

Melody in the right hand and basic chord inversions in the left hand
Chords only spread between both hands to comp behind a soloist, employing upper structure and altered chord harmony.
Rootless voicings in the left hand and embellished melody in the right hand while playing with bass and drums.
Play a solo piano ballad with rich jazz harmonies and moving textural lines.
Play the blues in four keys, demonstrating standard chord voicings and improvisational techniques.
Play II-V-I patterns in major and minor, using three voicing systems; 1735-1379, 1357-1793, and rootless voicings. These include harmonic extensions to the 13th and various forms of the altered dominant seventh chords and their substitutions.
Know and play all of the following modes and scales with correct fingerings: Dorian, Mixolydian, Jazz Minor, Lydian, Locrian, Whole Tone, Diminished (Octatonic) in two forms, Lydian Dominant, Super Locrian (Diminished Whole-Tone).

Learning Outcome
Students will be able to identify listening examples of specific songs.

Title
Classical Vocal Art Song: 1600 to Present

Tags
187718, 1

Learning Outcome
Students will survey the classical vocal art song repertoire in English, Italian, German, and French from the past 400 years.

Title
Repertoire Lists

Tags
187804, 5

Learning Outcome
Students will be able to compile a comprehensive personal repertoire list.

Title
Seminar Presentations

Tags
187826, 2

Learning Outcome
Students will be able to prepare and present a class on a given composer or group of composers—consisting of lecture, musical examples, live performance, and appropriate handouts.

Title
Performance

Tags
187833, 4

Learning Outcome
Students will be able to perform at least one song in two other student presentations.

Title
Style and Development

Tags
187880, 2

Learning Outcome
Students will be able to discuss stylistic elements of song, including melody, harmony, rhythm, accompaniment, text, and form.Students will be able to discuss the development of song through various composers, languages or eras.

Performance Instruction: Clarinet

Course Description
Advanced private instruction and studio class.

Department
Music

When Taught
Fall, Winter, Spring

Credit Hours

Min:
1.5

Fixed/Max:
3

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
1

Other Prerequisites
Music 194 & Music 196 & Music 198; Major in performance; jury approval.

Fee
Semester: 560; Term: 280

Note
From three to five hours of daily practice. Fee.

Learning Outcomes

Title
Technique and Musicality

Tags
188232, 1

Learning Outcome
Students will acquire the technical and musical skills needed to pursue a career on their respective instruments.

Title
Solo Performance

Tags
188233, 2

Learning Outcome
Students will demonstrate the ability to perform standard solo repertoire, orchestral excerpts, and etudes/methods at an appropriate artistic level for their year of study.

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- MUSIC 363 - Vocal Pedagogy

Learning Outcomes

Title
Repertoire for Beginning Voice

Tags
187662, 3

Learning Outcome
Students will develop a basic list of repertoire appropriate to teaching beginning voice lessons.

Title
Teaching Experience

Tags
187677, 1

Learning Outcome
Students will apply the information gained in Music 363 to teaching at least 2 students, one male and the other female.

Title
Home Studio Management

Tags
187697, 5

Learning Outcome
Students will learn the organizational and financial structure of a successful home studio.

Title
Pedagogical Approaches

Tags
187862, 2

Learning Outcome
Students will develop through study and experience pedagocial approaches to teaching singing.

Title
Student Public Recital

Tags
188082, 4

Learning Outcome
Students will help their pupils prepare at least one song to a performance level which can be presented in a public recital.

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- MUSIC 379 - Pre-Student Teaching

Other Prerequisites
Completion of all course work or with approval, and with a major GPA of at least 3.0 and a C or higher in all major courses.

Learning Outcomes

Title
Teacher Work Sample

Tags
187910, 1

Learning Outcome
Students will complete a Teacher Work Sample documenting their ability to understand a teaching situation and their individual students in one specific class, and their ability to plan, teach, reflect on and revise music learning events to teach a learning unit to this class. They will document group and individual progress for the unit.

Title
Effective Planning, Teaching and Revising

Tags
187948, 1

Learning Outcome
Students will demonstrate their ability to effectively plan, teach, reflect and revise music learning events by teaching full-time in a student teaching placement with a mentor teacher. In addition, students will demonstrate their ability to communicate effectively with individual students and groups of students, as well as parents, as well as the ability to work well with their mentor teacher and other school colleagues.

Graduate status

Learning Outcomes

Title
Scholarly Inquiry, Information Literacy, and Writing

Tags
187357, 1

Learning Outcome
Develop skills of scholarly inquiry, information literacy, and writing that will (1) save time and make graduate coursework easier, (2) facilitate current awareness of developments in the music professions, (3) lay a foundation for your own professional development, (4) and enable lifelong personal learning.

Title
Critical Thinking

Tags
187358, 2

Learning Outcome
Learn to think critically (make value judgments) about music and evaluate the purpose of your career in music. Add intellectual and spiritual depth to your musical activities.

Title
Methodologies and Publication

Tags
187359, 3

Learning Outcome
Gain a broad understanding of methodologies and publication types commonly applied in music research.

Title
Basic and Advanced Reference Sources

Tags
187360, 5

Learning Outcome
Learn the uses and comparative merits of basic and advanced reference sources related to music. Gain the ability to determine the best reference source for a given research need. Learn how to critique reference sources.

Title
Correct Citations

Tags
187361, 6

Learning Outcome
Become proficient in basic and advanced aspects of bibliographic citation, using principles of the Chicago Manual of Style (16th edition) and other writing conventions common to scholarly music publications.

Title
Evaluation of Sources

Tags
187362, 7

Learning Outcome
Develop basic skills necessary to locate and evaluate critically musical manuscripts and various types of editions of scores.

Title
Reference Sources, Public Services, and Actual Holdings

Tags
188071, 4

Learning Outcome
Become familiar with reference sources, public services, and actual holdings useful for music research and performance in the Harold B. Lee Library, in other significant music libraries throughout the world, and online.

Learning Outcomes

Title
Course Outcomes

Tags
188410, 1

Learning Outcome
At the end of this course, students should be able to:

Identify research problems and questions.
Identify the appropriate research methodology to address a given problem or question.
Identify the standards and procedures of ethical research practices in music education.
Articulate the key elements of quantitative, qualitative, historical, and philosophical research designs. Also, included will be action research or research on your own teaching in your own classroom.
Effectively read, evaluate, and critique data and research findings particular to music education.
Analyze quantitative and qualitative research data.
Conduct research literature reviews and synthesizing the material into their own practice.
Access and utilize the basic music education research journals and other sources of research reports and summaries, including online sources.
Clearly and effectively express research and teaching ideas in writing.
Apply the principles of gospel teaching and learning in music research and teaching.

MUSIC 503 - Aesthetics

Course Information

Teaching Area (new)
MUSIC

Course Number
503

Teaching Area
MUSIC

Course Title
Aesthetics

Course Description
Fundamental questions of aesthetic theory from classical antiquity to the present, emphasizing musical aesthetics.

Department

Title
Choral Lit 1

Tags
187635, 0

Learning Outcome
1. You will have begun to assemble your own personal choral music database and library.2. You will have familiarized yourself with many representative pieces of major composers from each historical period. You will know their general characteristics and be able to apply this knowledge to the analysis of many kinds of choral music. You will know the important works of the major composers in each period. You will be able to recognize visually or aurally the musical characteristics of periods and composers in unidentified scores and recordings.3. You will know the names and general characteristics of contemporary arrangers, and composers who write choral music for educational purposes. You will also be able to recognize desirable qualities of repertoire for varying levels of age and ability in school, church, or community choir settings.4. You will know the criteria which affect choral programming. You will have compiled three sample programs, which demonstrate both your ability to create an artistic program and your knowledge of the repertoire.5. You will know about the issues which affect the choral musician’s search for repertoire: the focus of well known publishers, music in the public domain, internet resources, copyright issues, out of print music, etc.6. You will have the necessary skills to evaluate each choral piece you encounter and be able to assess why a choral piece is or is not worth performing. Also, you will hopefully find great spiritual enlightenment as you come to know and better understand the world’s choral masterpieces.

Complete ALL of the following Courses:

- NAVAJ 201 - Second-Year Language Study: Navajo

Note
Teacher may waive prerequisite based on prior experience. Culminating course for GE Languages of Learning requirement. Not an entry course for returned missionaries.

Learning Outcomes

Title
Communication Skills

Tags
197909, 1

Learning Outcome
In both written and spoken target language, communicate with reasonable accuracy about real-world activities with well-educated members of the target-culture accustomed to dealing with non-native speakers.

Title
Comprehension

Tags
197910, 2

Learning Outcome
Understand every-day written and verbal instructions. Comprehend concrete details and global meaning of intermediate-level written and spoken passages related to familiar topics that native speakers encounter routinely in their daily life.

Title
Cultural Knowledge

Tags
197911, 3

Learning Outcome
Discuss in the target language cultural practices related to every-day life in the target culture. Acquire basic background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.).

Title
General Education Requirements

Tags
197912, 4

Learning Outcome
Complete Languages of Learning and Global & Cultural Awareness for General Education.

Credit Hours

Min:
1

Fixed/Max:
4

Other Prerequisites
Instructor's consent.

Learning Outcomes

Title
Defined Special Purpose

Tags
197906, 1

Learning Outcome
Develop the overall language and cultural competence to meet the needs of a "special" purpose identified by the Center for Language Studies.

Title
Communication

Tags
197907, 2

Learning Outcome
Communicate effectively enough to function in a variety of situations likely to be encountered when dealing with native speakers associated with the special purpose. This may include interpersonal, interpretive, and presentational (written and oral) modes of communication.

Title
Cultural Competence

Tags
197908, 3

Learning Outcome
Interact with cultural competence and understanding when dealing with native speakers associated with the special purpose.

NDFS 175 - Introduction to Food Science

Course Information

Teaching Area (new)
NDFS

Course Number
175

Teaching Area
NDFS

Course Title
Introduction to Food Science

Course Description
Overview of food science principles of engineering, biology and physical sciences related to the processing, preservation and understanding of food production. Chemical nature of foods, food additives and food safety from the perspective of family and consumer science educators.

Department
Nutrition, Dietetics, and Food Science

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

NDFS 191 - Careers in Food Science

Course Information

Teaching Area (new)
NDFS

Course Number
191

Teaching Area
NDFS

Course Title
Careers in Food Science

Course Description
Guest lectures and exposure to vocations in food science.

Department
Nutrition, Dietetics, and Food Science

When Taught
Fall and Winter

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

Note
Enrollment limited to freshmen, sophomores, and juniors.

Learning Outcomes

Title
Career Preparation

Tags
202286, 0, 2

Learning Outcome
Create a portfolio that includes a resume, a compilation of networking contacts, and a sample cover letter of introduction.
For Food Science majors, instructors of subsequent courses in the major will recommend students add major projects, reports, and assignments to their portfolio during their BYU experiences on and off campus.

Title
Food Science Major

Tags
202287, 0, 1

Learning Outcome
Become familiar with opportunities in Food Science; Assess and investigate it as the College of Life Sciences major program best suited for you. Engage with professionals serving in a variety of roles in modern food systems.

NDFS 194 - Nutrition Research Fundamentals

Course Information

Teaching Area (new)
NDFS

Course Number
194

Teaching Area
NDFS

Course Title
Nutrition Research Fundamentals

Course Description
Design of protocols for and ethics of research with human subjects and animals. Scientific literature searches and presentations.

Department
Nutrition, Dietetics, and Food Science

When Taught
Fall and Winter

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
3

Note
Recommended during freshman year.

Learning Outcomes

Title
Nutrition Experimental Design

Tags
202087, 1

Learning Outcome
Design a nutrition research experiment using methodology employed by NDFS faculty and/or that found in peer reviewed nutritional research papers.

Title
Lab and Research Safety Training

Tags
202088, 0, 2

Learning Outcome
Pass the Institutional Review Board (IRB) CITI training, participate in lab and research specific safety training.

Title
Acquire Basic Lab Skills

Learning Outcome
Participate in active research projects, and get all necessary safety training.

NDFS 200 - Nutrient Metabolism

Course Information

Teaching Area (new)
NDFS

Course Number
200

Teaching Area
NDFS

Course Title
Nutrient Metabolism

Course Description
Chemical structures of nutrients, their food sources, requirements, digestion, absorption, transport, metabolism, functions, storage and excretion; metabolic consequences of nutrient deficiencies, interactions, imbalances, and toxicities.

Department
Nutrition, Dietetics, and Food Science

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- CHEM 101 - Introductory General Chemistry
  AND NDFS 100 - Essentials of Human Nutrition

OR

Prerequisites

Complete ALL of the following Courses:

- CHEM 105 - General College Chemistry 1 with Lab (Integrated)
  AND NDFS 100 - Essentials of Human Nutrition

Other Prerequisites

Concurrent enrollment in Chem 285 or 351.

Learning Outcomes

Title
Chemical Structure

Tags
202083, 1

Learning Outcome
Identify chemical structures of amino acids, lipids, carbohydrates, and vitamins.

Title
Deficiencies and Toxicities

Tags
202084, 2

Learning Outcome
List functions, food sources, and consequences of deficiencies and toxicities for each of the essential nutrients.

Title
Consequences of Dietary Practices

Tags
202085, 3

Learning Outcome
Explain the metabolic and physiological basis for the consequences of dietary practices that affect nutrient levels, and relate the consequences to the roles of essential nutrients in metabolic processes.

Title
Diet Analysis

Tags
202086, 4

Learning Outcome
Analyze diets and alter food intake to reach predetermined targets for consumption of specific dietary components or to achieve an overall dietary pattern.

Title
Original Research and Peer-Reviewed Scientific Journal

Tags
202281, 5

Learning Outcome
Analyze the primary nutrition literature and identify statistically and biologically significant data.

NDFS 201 - Society, Nutrition, and Chronic Disease

Course Information

Teaching Area (new)
NDFS

Course Number
201

Teaching Area
NDFS

Course Title
Society, Nutrition, and Chronic Disease

Course Description
This course examines societal, environmental, and individual factors that influence nutrition, chronic disease and leading causes of mortality, and the relationship between chronic disease and dietary patterns in the United States. The course content is primarily based in pertinent scientific literature.

Department
Nutrition, Dietetics, and Food Science

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- NDFS 100 - Essentials of Human Nutrition

Learning Outcomes

Title
Understand:

Tags
202294, 1

Learning Outcome
Explain or describe how behavioral, dietary, and environmental factors influence nutrition and chronic disease risks.

Title
Find/Evaluate:

Tags
202295, 2

Learning Outcome
Find scientific research articles and identify their key characteristics. Identify consistencies or inconsistencies in studies of diet and chronic disease risks.

Title
Apply:

Tags
202296, 3

Learning Outcome
Apply information about behavioral, dietary, and environmental factors to reduce chronic disease risks.

NDFS 237 - Introduction to Culinary Arts

Course Information

Teaching Area (new)
NDFS

Course Number
237

Teaching Area
NDFS

Course Title
Introduction to Culinary Arts

Course Description
Introduction to culinary arts. Emphasis on basic skills including: knife skills; plate design and presentation; stocks and sauces; cooking methods for, meats, eggs, fruits, vegetables, grains, and pasta; hors d’oeuvres; breads, baking, and pastry.

Department
Nutrition, Dietetics, and Food Science

When Taught
Fall and Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
3

Learning Outcomes

Title
Knife Skills

Tags
202393, 1

Learning Outcome
Demonstrate competence in knife safety as well as proper use of knives to fabricate several specific knife cuts

Title
Stocks

Tags
202394, 2

Learning Outcome
Explain the principles of making different types of stocks

Title
Sauces

Tags
202395, 3

Learning Outcome
Describe the five mother sauces including preparation methods and uses for each

Title
Cooking Methods

Tags
202396, 4

Learning Outcome
Identify moist and dry heat cooking methods and applications of each
Apply a variety of cooking methods to proteins, vegetables, and starches

Title
Egg Cookery

Tags
202397, 5

Learning Outcome
Demonstrate competence in cooking eggs to order

Title
Baking and Pastry

Tags
202398, 6

Learning Outcome
Discuss basic principles of bakery and pastry including production of yeast breads, quick breads, cakes, cookies, and pastry

Title
Plating and Design

Tags
202399, 7

Learning Outcome
Demonstrate effective plating and design techniques

NDFS 250 - Essentials of Food Science

Course Information

Teaching Area (new)
NDFS

Course Number
250

Teaching Area
NDFS

Course Title
Essentials of Food Science

Course Description
Overview of food science, including chemical, physical and microbiological principles related to food processing, storage, and utilization. Current issues in food science.

Department
Nutrition, Dietetics, and Food Science

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- CHEM 101 - Introductory General Chemistry

OR

Prerequisites

Complete ALL of the following Courses:

- CHEM 105 - General College Chemistry 1 with Lab (Integrated)

Other Prerequisites

concurrent enrollment in NDFS 251

Note

This class should be taken concurrently with NDFS 251.

Learning Outcomes

Title
Current Food Science Topics in the News

Tags
202176, 2

Learning Outcome
Recognize (distinguish) current topics in the news and in lay literature as being related to Food Science and Technology

Title
Topics in Scientific Literature

Tags
202183, 4

Learning Outcome
Obtain further information on Food Science topics through library research of the scientific literature

Title
Consumer Concerns

Tags
202207, 3

Learning Outcome
Evaluate the scientific validity of various consumer concerns regarding food production, preservation, and storage

Title
Food Science in your Major

Tags
202219, 5

Learning Outcome
Explain how Food Science knowledge applies to your major field of study, and make the connection between what you're learning and what you plan to do after graduation

Title
Food Safety and Quality

Tags
202220, 7

Learning Outcome
Determine your level of confidence in the safety and quality of the food available to you, having gained an understanding of what happens to food between farm gate and dinner plate

Title
Concepts and Principles

Tags
202102, 0, 1

Learning Outcome
Explain the basic concepts and principles of Food Science

Title
Problem Solving

Tags
202101, 0, 6

Learning Outcome
Solve Food Science related problems based on basic tenants of food chemistry, microbiology, processing, and packaging.

NDFS 251 - Essentials of Food Science Laboratory

Course Information

Teaching Area (new)
NDFS

Course Number
251

Teaching Area
NDFS

Course Title
Essentials of Food Science Laboratory

Course Description
Laboratory experience in the chemistry of changes occurring during food processing, storage, and utilization.

Department
Nutrition, Dietetics, and Food Science

When Taught
Fall and Winter

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- CHEM 101 - Introductory General Chemistry

OR

Prerequisites

Complete ALL of the following Courses:

- CHEM 105 - General College Chemistry 1 with Lab (Integrated)

Other Prerequisites
Concurrent enrollment in NDFS 250

Note
This class should be taken concurrently with NDFS 250.

Learning Outcomes

Title
Collaborative Laboratory Experiments

Tags
202103, 3

Learning Outcome
Develop the ability to work in teams to carry out laboratory experiments

Title
Critical thinking skills

Tags
202277, 2

Learning Outcome
Apply critical thinking skills to solve food related questions and problems

Title
Food Chemistry Reactions

Tags
202278, 1

Learning Outcome
Explain the basic chemistry involved in ripening, processing, and storing food

NDFS 290 - Introduction to Dietetics

Course Information

Teaching Area (new)
NDFS

Course Number
290

Teaching Area
NDFS

Course Title
Introduction to Dietetics

Course Description
The profession of dietetics; exposure to specialty areas through guest lectures.

Department
Nutrition, Dietetics, and Food Science

When Taught
Fall

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

Learning Outcomes

Title
How to become a Registered Dietitian Nutritionist

Tags
202123, 1

Learning Outcome
Understand how to become a Registered Dietitian Nutritionist, including:
Educational requirements and various routes to completion.
Requirements for acceptance to the Didactic Program in Dietetics at BYU.
Requirements for acceptance to a Dietetic Internship.
Requirements for eligibility for Registration by the Commission on Dietetic Registration (CDR)
Requirements for maintenance of continuing CDR Registration.

Title
Defining a Professional

Tags
202124, 3

Learning Outcome
Understand what it means to be a professional.

Title
Future Job Opportunities

Tags
202125, 6

Learning Outcome
Identify what future job opportunities are predicted in the profession of dietetics.

Title
Defining a Registered Dietitian Nutritionist

Tags
202126, 2

Learning Outcome
Understand what a Registered Dietitian Nutritionist is.

Title
Exposure to Registered Dietitian Nutritionist Jobs

Tags
202127, 4

Learning Outcome
Have exposure to a variety of jobs currently held by Registered Dietitian Nutritionists.

Title
Your Dietetic Area of Interest

Tags
202128, 5

Learning Outcome
Identify which area of dietetics is personally most appealing

NDFS 292R - Fieldwork in Dietetics

Course Information

Teaching Area (new)
NDFS

Course Number
292R

Teaching Area
NDFS

Course Title
Fieldwork in Dietetics

Course Description
Fieldwork for international students.

Department
Nutrition, Dietetics, and Food Science

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
2

Learning Outcomes

Title
Gain skills through fieldwork

Tags
202197, 0

Learning Outcome
Students will demonstrate professional attributes such as customer focus, critical thinking, and time management and work prioritization while developing dietetics-related skills within various organizational structures.

NDFS 300 - Medical Nutrition Therapy 1

Course Information

Teaching Area (new)
NDFS

Course Number
300

Teaching Area
NDFS

Course Title
Medical Nutrition Therapy 1

Course Description
Nutritional assessment and medical nutrition therapy across disease states.

Department
Nutrition, Dietetics, and Food Science

When Taught
Fall

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
4

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- NDFS 200 - Nutrient Metabolism
  AND CELL 220 - Human Anatomy (with lab)
  AND CELL 305 - Human Physiology

OR

Prerequisites

Complete ALL of the following Courses:

- NDFS 200 - Nutrient Metabolism
  AND CELL 210 - Human Anatomy (with virtual lab)
  AND CELL 305 - Human Physiology

Learning Outcomes

Title
Nutrition Care Process

Tags
202439, 0, 1

Learning Outcome
Apply the four steps of the nutrition care process for nutrition education and medical nutrition therapy for persons with eating disorders, obesity, cardiovascular disease, diabetes, renal disease, pulmonary disease, and cancer.

Title
Evidence-Based Practice

Tags
202438, 0, 3

Learning Outcome
Evaluate and implement current evidence-based nutrition education and medical nutrition therapy for eating disorders, obesity, cardiovascular disease, diabetes, renal disease, pulmonary disease, and cancer.

Title
Nutrition Assessment

Tags
202432, 0, 2

Learning Outcome
Perform nutrition assessment (food-nutrition related history, anthropometrics, biochemical data, nutrition-focused physical exam, and client history) for persons with eating disorders, obesity, cardiovascular disease, diabetes, renal disease, pulmonary disease, and cancer.

Title
Malnutrition

Tags
212029, 0, 4

Learning Outcome
Identify and document malnutrition (under and over-nutrition).

Title
Core Knowledge for the RDN

Tags
202441, 0, 5

Learning Outcome
2022 ACEND Knowledge Requirements and Course Learning Outcomes

ACEND Knowledge

NDFS 300 Course Learning Outcomes

How objective is met/ measured

KRDN 1.3, 2.1, 2.5, 3.1, 3.3

Nutrition Care Process

Assignments: medical terminology quizzes, heart-healthy diet, diabetic meal plan, modified potassium diet, diabetes/cardiovascular disease case studies chart note, and oral, and renal/oncology disease case studies chart note and oral, nutrition care process reference (eating disorder, bariatric surgery, cardiovascular disease, diabetes, renal, pulmonary, oncology)

KRDN 1.3, 2.1, 3.1

Nutrition Assessment

Assignments: 24-hour dietary recall, dietary analysis, math practice, diabetes/cardiovascular disease case studies chart note, and oral, and renal/oncology disease case studies chart note and oral, nutrition care process reference (eating disorder, bariatric surgery, cardiovascular disease, diabetes, renal, pulmonary, oncology)
Exams: 1, 2, 3, Final

KRDN 1.1, 1.2, 1.3, 2.1, 2.9, 3.1, 3.3, 3.6

Evidence-Based Practice

Assignments: Malnutrition, bariatric surgery, and pulmonary disease learning assessments; journal club; diet debate; heart healthy diet, diabetic meal plan, and modified-potassium diet; diabetes exchange list quiz, diabetes/cardiovascular disease case studies chart note and oral, and renal/oncology disease case studies chart note and oral, nutrition care process reference (eating disorder, bariatric surgery, cardiovascular disease, diabetes, renal, pulmonary, oncology)
Exams: 1, 2, 3, Final

KRDN 1.3, 3.1

NDFS 310 - Nutrition and Metabolism in Sports and Exercise

Course Information

Teaching Area (new)
NDFS

Course Number
310

Teaching Area
NDFS

Course Title
Nutrition and Metabolism in Sports and Exercise

Course Description
Scientific basis for the role of nutrition in human performance. Critical evaluation of popular practices; making optimal food choices for physical activity.

Department
Nutrition, Dietetics, and Food Science

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CELL 305 - Human Physiology
  AND NDFS 100 - Essentials of Human Nutrition

Note
This course was formerly named Sports Nutrition.

Learning Outcomes

Title
Nutrition and Physical Performance

Tags
202467, 1

Learning Outcome
Students will apply their current understanding of nutrition to aspects of physical performance. Describe the factors (exercise intensity, duration, substrate availability and endocrine) that affect energy utilization.

Title
Scientific Research and Evaluation

Tags
202468, 2

Learning Outcome
Search, interpret, and summarize original scientific information. Evaluate nutritional claims for scientific accuracy.

Title
Nutrition Recommendations for Physical Activity

Tags
202469, 3

Learning Outcome
Apply evidence-based nutrition recommendations for sports and exercise in real or hypothetical situations.

NDFS 333 - Nutrition and Genes

Course Information

Teaching Area (new)
NDFS

Course Number
333

Teaching Area
NDFS

Course Title
Nutrition and Genes

Course Description
Use of primary literature to discuss the effect of food on an individual's genome and the effect of genetics on food metabolism and dietary health outcomes.

Department
Nutrition, Dietetics, and Food Science

When Taught
Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisite

Type
Prerequisite

Prerequisite

Complete ALL of the following Courses:

- MMBIO 240 - Molecular Biology
  AND NDFS 200 - Nutrient Metabolism

Learning Outcomes

Title
Nutrigenomics

Tags
214225, 0, 1, 2023-08-29 11:38:10

Learning Outcome
Students will be able to evaluate the impact of food on gene expression.

Title
Nutrigenetics

Tags
214226, 0, 2, 2023-08-29 11:38:12

Learning Outcome
Students will be able to evaluate physiological, biochemical and metabolic changes associated with genetic diversity.

Title
Scientific writing

Tags
214227, 0, 3, 2023-08-29 11:38:15

Learning Outcome
Students will demonstrate ability to search, interpret, and summarize original scientific information in an efficiently written scientific paper.

Title
Experimental design

Tags
214228, 0, 4, 2023-08-29 11:38:17

Learning Outcome
Students will demonstrate the ability to design experiments to determine nutrigenetic and nutrigenomic outcomes

NDFS 350 - Food Analysis

Course Information

Teaching Area (new)
NDFS

Course Number
350

Teaching Area
NDFS

Course Title
Food Analysis

Course Description
Principles, methods and techniques of qualitative and quantitative physical, chemical, and biological analysis of food and food ingredients.

Department
Nutrition, Dietetics, and Food Science

When Taught
Winter

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- CHEM 285 - Introductory Bio-organic Chemistry
  AND NDFS 250 - Essentials of Food Science
  AND NDFS 251 - Essentials of Food Science Laboratory

OR

Prerequisites

Complete ALL of the following Courses:

- CHEM 352 - Organic Chemistry 2
  AND NDFS 250 - Essentials of Food Science
  AND NDFS 251 - Essentials of Food Science Laboratory

Learning Outcomes

Title
Demonstrate Laboratory Techniques

Tags
202105, 0, 3

Learning Outcome
Demonstrate practical proficiency in using laboratory techniques common to basic and applied food chemistry, quality assurance, and other food analyses.

Title
Select Appropriate Techniques

Tags
202206, 0, 2

Learning Outcome
Evaluate and select the appropriate analytical technique when presented with a practical problem

Title
Prepare Written and Oral Reports

Tags
202104, 0, 5

Learning Outcome
Prepare a written report and brief oral presentation covering the quality assurance tests required for the analysis of raw ingredients, intermediate products and final product of a food commodity having a standard of identity.

Title
Analyze Data using Statistics

Tags
211185, 0, 4

Learning Outcome
Use statistical principles to appropriately collect and analyze data, and construct visual representation of data.

Title
Explain Analytical Techniques

Tags
202177, 0, 1

Learning Outcome
Explain the principles behind food analytical techniques (primarily chemical and physical rather than microbiological or sensory).

NDFS 355 - Food Process Engineering

Course Information

Teaching Area (new)
NDFS

Course Number
355

Teaching Area
NDFS

Course Title
Food Process Engineering

Course Description
Mass and energy balances, thermodynamics, fluid flow, heat and mass transfer; unit operations in food processing, including thermal processing, refrigeration, freezing, and packaging.

Department
Nutrition, Dietetics, and Food Science

When Taught
Winter

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
2

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- MATH 112 - Calculus 1
  AND PHSCS 105 - General Physics 1

OR

Prerequisites

Complete ALL of the following Courses:

- MATH 119 - Introduction to Calculus (Inactive)
  AND PHSCS 105 - General Physics 1

Other Prerequisites
Food Science majors only.

Learning Outcomes

Title
Transport Processes and Unit Operations

Tags
202222, 0, 1

Learning Outcome
Solve fluid flow problems to determine flow rate variables and pump requirements.
Assess fluid type and processing requirements to determine appropriate pump type.

Title
Mass and Energy Balances

Tags
202223, 0, 2

Learning Outcome
Calculate the effectiveness and amount of heat exchanged in tubular and plate heat exchangers under various flow conditions.
Calculate the amount of heat recovered in the regeneration section of a HTST pasteurizer under various flow conditions.
Determine the ideal conditions for heat transfer.

Title
Mass and Energy Balances 2

Tags
202224, 0, 3

Learning Outcome
Calculate the coefficient of performance for refrigeration cycles and make a judgment as to which refrigerant is appropriate for a hypothetical application.

Title
Mass and Energy Balances 3

Tags
202225, 0, 4

Learning Outcome
Calculate the amount of steam needed to achieve a hypothetical heating operation.

Title
Unit Operations

Tags
202226, 0, 5

Learning Outcome
Describe how various unit operations work individually and together.

Title
Quality and Safety

Tags
202229, 0, 6

Learning Outcome
Explain the function and operation of various processes and their controls that maximize food safety and processing efficiency while preserving food quality.
Determine thermal processing times.

Title
Packaging

Tags
202227, 0, 7

Learning Outcome
Know the chemistry and barrier properties of commonly used packaging types, including polymers.

Title
Packaging 2

Tags
202228, 0, 8

Learning Outcome
Know the functions of a packaging-type and be able to determine what functions the package is performing.

NDFS 356 - Medical Nutrition Therapy 2

Course Information

Teaching Area (new)
NDFS

Course Number
356

Teaching Area
NDFS

Course Title
Medical Nutrition Therapy 2

Course Description
Medical nutrition therapy across disease states; continuation of NDFS 300.

Department
Nutrition, Dietetics, and Food Science

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- NDFS 300 - Medical Nutrition Therapy 1

Learning Outcomes

Title
Nutritional Health Risks

Tags
202155, 14

Learning Outcome
Assessment and treatment of nutritional health risks

Title
Appropriate Medical Nutrition Therapy and Intervention

Tags
202156, 15

Learning Outcome
Identify the appropriate medical nutrition therapy for specific disease states and provide the appropriate intervention, including calculating and defining diets

Title
Pharmacology, Nutrient Metabolism, Physiology, Genetics, and

Tags
202181, 20

Learning Outcome
Demonstrate understanding of pharmacology, nutrient metabolism, physiology, genetics and biochemistry

Title
Nutrition Care Process

Tags
202195, 18

Learning Outcome
Use the nutrition care process to make decisions, to identify nutrition-related problems and determine and evaluate nutrition interventions, including MNT, disease prevention and health promotion

Title
Evidence Based Guidelines and Protocols

Tags
202200, 17

Learning Outcome
Use current information technologies to locate and apply evidence based guidelines and protocols; (ADA evidence Analysis Library and the Cochrane Database of Systematic Reviews)

Title
Professional Literature

Tags
202201, 16

Learning Outcome
Interpret, evaluate and use professional literature to make ethical evidence-based practice decisions

Title
Communication Skills

Tags
202442, 1

Learning Outcome
Use oral and written communications in presenting an educational session for a group

Title
Effective Team Member

Tags
202443, 3

Learning Outcome
Work effectively as a team member

Title
Public Speaking

Tags
202444, 4

Learning Outcome
Teach class members about a disease, and its medical and nutritional implications

Title
Specific Dietetic Knowledge

Tags
202445, 6

Learning Outcome
Knowledge of: exercise physiology, pathophysiology related to nutrition care, fluid and electrolyte requirements, pharmacology: nutrient-nutrient interaction.

Title
Appropriate Documentation

Tags
202447, 8

Learning Outcome
Appropriately document MNT in a professional format

Title
Nutrient Composition of Foods

Tags
202448, 9

Learning Outcome
Calculate and interpret nutrient composition of foods

Title
Enteral and Parenteral Nutrition Formulations

Tags
202450, 12

Learning Outcome
Calculate enteral and parenteral nutrition formulations

Title
Diets for Health Conditions

Tags
202449, 0, 11

Learning Outcome
Calculate and/or define diets for health conditions addressed by health promotion/disease (allergies, upper and lower gastrointestinal diseases, liver, pancreas, neuromuscular, thyroid, adrenal, rheumatoid, and bone health).

Title
Medical Nutrition Terminology

Tags
202446, 0, 7

Learning Outcome
Demsonstrated ability to interpret medical terminology, interpret laboratory parameters related to nutrition

Title
Core knowledge for the RDN

Tags
202347, 0, 13

Learning Outcome
2022 ACEND Standards Knowledge NDFS 356 Course Learning Outcomes How objective is met/measured KRDN 1.1Demonstrate how to locate, interpret, evaluate and use professional literature to make ethical, evidence-based practice decisions.Case study; paper; exams; journal article assignment KRDN 1.2 Select and use appropriate current information technologies to locate and apply evidence-based guidelines and protocols. Case study, paper, Critical Care ASPEN Guidelines KRDN 1.3Apply critical thinking skills. Homework, case study presentations, chart notes, examsKRDN 2.1Demonstrate effective and professional oral and written communication and documentation. Case study presentation and paper; chart notes KRDN 2.4Discuss the impact of health care policy and diffrent healthcare delivery systems on food and nutrition services. Enteral and parenteral nutrition therapy coverage KRDN 2.5 Identify and describe the work of interprofessional teams and the roles of others with whom the registered dietitian nutritionist collaborates. Case study KRDN 3.1Use the Nutrition Care Process and clinical workflow elements to assess nutrition related problems, determine appropriate nutrition interventions, and develop plans to monitor the effectiveness of these interventions. Case study; chart notes; exams; nutrition support assignments ;KRDN 3.2 Develop an education session or program/education strategy for a target population Case study presentation

NDFS 361 - Food Microbiology

Course Information

Teaching Area (new)
NDFS

Course Number
361

Teaching Area
NDFS

Course Title
Food Microbiology

Course Description
Pathogenic and spoilage microorganisms in foods and their control. Beneficial microorganisms in food systems. Influence of the food system on growth and survival of microorganisms.

Department
Nutrition, Dietetics, and Food Science

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- MMBIO 221 - General Microbiology
  AND MMBIO 222 - General Microbiology Laboratory

Learning Outcomes

Title
Microbial Safety of a Common Food Product

Tags
202464, 0, 5

Learning Outcome
Design and carry out a laboratory experiment to evaluate the microbial safety of a common food product or process

Title
Spoilage Microorganisms

Tags
202168, 0, 4

Learning Outcome
Classify spoilage microorganisms according to the food or foods they are most likely to affect based on the intrinsic and environmental characteristics of the food and compare to various storage methods to determine which method would be most appropriate for the given food product

Title
Laboratory Experiments

Tags
202203, 0, 3

Learning Outcome
Carry out a series of laboratory experiments aimed at isolating and identifying common food borne microbial pathogens

Title
Intrinsic and Environmental Aspects

Tags
202159, 0, 2

Learning Outcome
Understand intrinsic and environmental aspects of foods and how they can be modified to affect the growth and metabolism of food borne microorganisms to include spoilage, pathogenic, and beneficial organisms.

Title
Growth Requirements of Common Food Borne Pathogens

Tags
202205, 0, 1

Learning Outcome
Understand the growth requirements of common food borne pathogens and spoilage microorganisms. Be able to attribute the characteristics of a food borne illness with unknown etiology to the most likely organism. Differentiate which organisms would be likely to grow in a specific food product.

NDFS 362 - Food Processing

Course Information

Teaching Area (new)
NDFS

Course Number
362

Teaching Area
NDFS

Course Title
Food Processing

Course Description
Characteristics of raw food material; principles of food preservation and food processing techniques; packaging materials and methods related to meat, dairy, confections, fruits and vegetables, grain processing, and water and waste water management.

Department
Nutrition, Dietetics, and Food Science

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
5

Other Prerequisites
Food Science majors only.

NDFS 363 - Food Processing 2

Course Information

Teaching Area (new)
NDFS

Course Number
363

Teaching Area
NDFS

Course Title
Food Processing 2

Course Description
Characteristics of raw food material; principles of food preservation and food processing techniques; materials and methods related to dairy, fruits and vegetable, and confection processing.\n\n

Department
Nutrition, Dietetics, and Food Science

When Taught
Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
5

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- NDFS 250 - Essentials of Food Science
  AND NDFS 251 - Essentials of Food Science Laboratory

Learning Outcomes

Title
Plant-based Commodities

Tags
209981, 0, 3

Learning Outcome
Compare and contrast plant-based commodities including yogurt and frozen dessert alternatives. Understand processing unit operations involved in production of non-dairy products. Know basic quality assessments and be introduced to best practices.

Title
Animal-based Commodities

Tags
209980, 0, 2

Learning Outcome
Apply knowledge of different animal species, breeds, and types to determine which are most appropriate for specific finished products (especially dairy products). Understand the processing operations in volved in converrting raw milk in to finished commodities such as cheese, yogurt, and formulated fluid milk). Know basic quality assessments and be introduced to best practices.

Title
Novel / Nontraditional Food Processing

Tags
209982, 0, 4

Learning Outcome
Learn about, develop a technology brief and present on a new food processing technology. Compare and contrast key requirements and advantages/disadvantages referring to traditional techniques.

Title
Food Manufacturing Facilities

Tags
209979, 0, 1

Learning Outcome
Apply knowledge of different food production facilities and their varieties to determine which are most appropriate for finished products. Understand the processing unit operations involved in coverting raw materials into finished products.

NDFS 374 - Food Production Management

Course Information

Teaching Area (new)
NDFS

Course Number
374

Teaching Area
NDFS

Course Title
Food Production Management

Course Description
Managing processes and techniques of quantity food production in commercial and institutional food systems.

Department
Nutrition, Dietetics, and Food Science

When Taught
Fall

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Other Prerequisites
Dietetics major status

Learning Outcomes

Title
Menu Planning for Institutional Feeding

Tags
202376, 0, 3

Learning Outcome
3. Demonstrate knowledge of principles of menu planning through creating an appropriate menu for institutional feeding to meet needs of target population. KRDN 3.6: Develop nutritionally sound meals, menus and meal plans that promote health and disease management and meet client's/ patient's needs KRDN 4.6: Explain the processes involved in delivering quality food and nutrition services. Measured/Met by:
Quiz, Menu Planning Assignment, Menu Modification Assignment, Modified Consistency Assignment, Midterm and Final Exams

Title
Foodservice Industry

Tags
202373, 0, 1

Learning Outcome
1. Explain the foodservice industry in the context of a system and describe food consumption issues and trends for consumers.
KRDN 1.3: Apply critical thinking skills.
KRDN 4.6: Explain the processes involved in delivering quality food and nutrition services.
Measured/Met by:
Make-Buy Assignment, Menu Assignment, Menu Modification Assignment, Modified Consistency Assignment, Financial Case Studies, ServSafe exam, Quiz, Midterm and Final Exams

Title
Food Product Flow

Tags
202374, 0, 2

Learning Outcome
2. Identify different paths of food product flow and understand the advantages and disadvantages of these operations.
KRDN 1.3: Apply critical thinking skills.
Measured/Met by:
Quiz, Make-buy Assignment, Midterm and Final Exams

Title
Therapeutic Menus

Tags
202382, 0, 4

Learning Outcome
4. Understand the importance of aesthetically pleasing therapeutic menus and apply knowledge to meet individual or group dietary needs. KRDN 3.6: Develop nutritionally sound meals, menus and meal plans that promote health and disease management and meet client's/patient's needs KRDN 4.6: Explain the processes involved in delivering quality food and nutrition services. Measured/Met by:
Menu Planning Assignment, Menu Modification Assignment, Modified Consistency Assignment, Midterm and Final Exams

Title
Standardized Recipes

Tags
202378, 0, 5

Learning Outcome
5. Discuss need for standardized recipes and appropriately quantify recipes for volume food production. KRDN 1.3: Apply critical thinking skills. KRDN 3.6: Develop nutritionally sound meals, menus and meal plans that promote health and disease management and meet client's/patient's needs Measured/Met by:
Quiz, Menu Planning Assignment, Midterm and Final Exams

Title
Quantity Food Production Techniques, Terminology, and Equipm

Tags
202379, 0, 6

Learning Outcome
6. Apply knowledge of quantity food production techniques, terminology, and equipment used for: soups, sauces, meat, poultry, fish, egg and dairy foods, vegetables, fruits, salads, sandwiches, and baked goods KRDN 1.3: Apply critical thinking skills. KRDN 4.6: Explain the processes involved in delivering quality food and nutrition services. Measured/Met by:
Quiz, Menu Planning Assignment, Modfied Consistency Assignment, Midterm & Final Exams

Title
Food and Labor Costs

Tags
202380, 0, 7

Learning Outcome
7. Accurately calculate food, labor, and inventory costs for financial accountability KRDN 1.3: Apply critical thinking skills. KRDN 4.2: Evaluate a budget/financial management plan and interpret financial data. KRDN 4.7: Evaluate data to be used in decision-making for continuous quality improvement.
Measured/Met by: Quiz, Make/Buy Assignment, Financial Case Studies, Midterm and Final Exams

Title
Principles of Sanitation and Safety in Foodservice

Tags
202381, 0, 14

Learning Outcome
8. Students are able to apply the principles of sanitation and safety to foodservice, and recognize the impact on consumers after becoming ServSafe certified.
KRDN 1.3: Apply critical thinking skills.
KRDN 4.5: Apply safety and sanitation principles related to food, personnel and consumers.
Measured/Met by:
Quiz, ServSafe Certification, ServSafe Allergy Certification, Food Handling Observation Assignment, Midterm and Final Exams

Title
Understand the importance of allergens in quantity food production

Tags
202389, 0, 17

Learning Outcome
9. Apply understanding of allergens in the context of a foodservice operation.
KRDN 4.6: Explain the processes involved in delivering quality food and nutrition services.
KRDN 4.5: Apply safety and sanitation principles related to food, personnel and consumers.
Measured/Met by:
Quiz, ServSafe Allergy Certification (optional), Midterm and Final Exams

Title
2022 Standards Core Knowledge for the RDN

Tags
202392, 0, 18

Learning Outcome
Accreditation Council for Education in Nutritional Dietetics Core Knowledge for the RDN
2022 Standards

NDFS 375 - Food Production Management Laboratory

Course Information

Teaching Area (new)
NDFS

Course Number
375

Teaching Area
NDFS

Course Title
Food Production Management Laboratory

Course Description
The Food Production Management Laboratory, The Pendulum Court, is a small restaurant where dietetics students have rotations as manager, cook, baker, and in cold foods. The Pendulum Court is designed to give students experience in foodservice management.

Department
Nutrition, Dietetics, and Food Science

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
9

Other Prerequisites
NDFS 374 or concurrent enrollment

Learning Outcomes

Title
Quantity Food Preparation Techniques and Food Science Knowle

Tags
202375, 0, 1

Learning Outcome
1. Apply appropriate quantity food preparation techniques and Food Science knowledge for soups, sauces, meat, poultry, fish, dairy foods, vegetables, fruits, salads, sandwiches, and baked goods.
KRDN 1.3: Apply critical thinking skills.
KRDN 2.1: Demonstrate effective and professional oral and written communication and documentation.
KRDN 4.6: Explain the processes involved in delivering quality food and nutrition services.
Measured/Met By: Daily Performance Evaluations, Manager Evaluation, Worksheets, Exams

Title
Quantity Food Production

Tags
202377, 0, 2

Learning Outcome
2. Use appropriate controls in quantity food production.
KRDN 1.3: Apply critical thinking skills.
KRDN 4.6: Explain the processes involved in delivering quality food and nutrition services.
Measured/Met By: ServSafe Certification, Worksheets, Daily Performance Evaluations, Exams

Title
Safety and Sanitation Principles

Tags
202391, 0, 3

Learning Outcome
3. Demonstrate use of appropriate safety and sanitation principles during food production and service to the customer.
KRDN 1.3: Apply critical thinking skills.
KRDN 4.6: Explain the processes involved in delivering quality food and nutrition services.
KRDN 4.5: Apply safety and sanitation principles related to food, personnel and consumers.
Measured/Met By: ServSafe Certification, Daily Performance Evaluations, Worksheets, Exams

Title
Foodservice Equipment

Tags
202383, 0, 4

Learning Outcome
4. Demonstrate safe and appropriate use of and cleaning of foodservice equipment.
KRDN 4.6: Explain the processes involved in delivering quality food and nutrition services.
KRDN 4.5: Apply safety and sanitation principles related to food, personnel and consumers.
Measured/Met By: Daily Performance Evaluations

Title
Presentation and Service of Food

Tags
202385, 0, 5

Learning Outcome
5. Demonstrate effective presentation and service of food.
KRDN 4.6: Explain the processes involved in delivering quality food and nutrition services.
Measured/Met By:
Daily Performance Evaluations, Peer Evaluation, Worksheets, Exams

Title
Team Work Skills

Tags
202386, 0, 6

Learning Outcome
6. Students will work effectively as a team member as evidenced through good communication, appropriate assertiveness, and effective time management skills.
KRDN 2.1: Demonstrate effective and professional oral and written communication and documentation.
KRDN 5.4 Practice resolving differences or dealing with conflict.
KRDN 5.5 Promote team involvement and recognize the skills of each member.
Measured/Met By: Daily Performance Evaluations, Peer Evaluations

Title
Monitoring Tools for Quality Improvement

Tags
202388, 0, 7

Learning Outcome
7. Use various monitoring tools to analyze data for continuous quality improvement.
KRDN 1.3: Apply critical thinking skills.
KRDN 2.1: Demonstrate effective and professional oral and written communication and documentation.
KRDN 4.2: Evaluate a budget/financial management plan and interpret financial data.
KRDN 4.7: Evaluate data to be used in decision-making for continuous quality improvement.
Measured/Met By:
Daily Performance Evaluations, Manager Worksheet, Manager Dollar Data, Exams

Title
Production Management Skills

Tags
202387, 0, 8

Learning Outcome
8. Demonstrate efficient and effective food production management skills ensuring that foodservice operation meets the needs of the customers.
KRDN 1.3: Apply critical thinking skills.
KRDN 5.6: Demonstrate an understanding of the importance and expectations of a professional in mentoring and precepting others.
KRDN 4.6: Explain the processes involved in delivering quality food and nutrition services.
Measured/Met By:
Daily Performance Evaluations, Peer Evaluations, Manager Dollar Data, Evaluation of Intern Performance

NDFS 380 - International Nutrition.

Course Information

Teaching Area (new)
NDFS

Course Number
380

Teaching Area
NDFS

Course Title
International Nutrition.

Course Description
Causes and consequences of nutrient deficiencies common in developing countries. Appropriate interventions to prevent or treat malnutrition.

Department
Nutrition, Dietetics, and Food Science

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:
- NDFS 100 - Essentials of Human Nutrition

Learning Outcomes

Title
Undernutrition and Hunger in the Developing World

Tags
202090, 0, 1

Learning Outcome
Understand the breadth and causes of undernutrition, poverty and hunger in the developing world.

Title
Solutions for Undernourishment

Tags
202091, 0, 3

Learning Outcome
Relate the nutritional status of undernourished children to their diets and suggest realistic solutions

Title
Nutrient Deficiencies and Cognitive Development

Tags
202089, 0, 2

Learning Outcome
Relate critical nutrient deficiencies to nutritional diseases and poor cognitive development

Title
Humanitarian Opportunities

Tags
211634, 0, 4

Learning Outcome
Become familiar with non-profit organizations and the humanitarian work they do around the world

NDFS 390R - Special Topics in Nutrition, Dietetics, and Food Science

Course Information

Teaching Area (new)
NDFS

Course Number
390R

Teaching Area
NDFS

Course Title
Special Topics in Nutrition, Dietetics, and Food Science

Course Description
Various topics related to nutrition, dietetics, and/or food science.

Department

Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- NDFS 200 - Nutrient Metabolism

OR

Prerequisites

Complete ALL of the following Courses:

- NDFS 201 - Society, Nutrition, and Chronic Disease

Learning Outcomes

Title
Nutrition Programs and Policies

Tags
202092, 2

Learning Outcome
1. Describe various community nutrition programs, government health care programs, and policies aimed to enhance the nutritional status and overall health of individuals in the US population.

Title
Grant Proposal

Tags
202093, 3

Learning Outcome
2. Effectively write a grant proposal that encompasses the basic elements of implementing community nutrition programs, including a needs assessment, program planning, implementation and evaluation, and budget preparation, and conduct the proposed project in a real-life community setting.

Title
Oral and Written Communication

Tags
202285, 1

Learning Outcome
3. Exhibit competent communication skills in both written and oral communication for lay and professional audiences in the performance of course assignments.

NDFS 405 - Nutrition Assessment Lab

Course Information

Teaching Area (new)
NDFS

Course Number
405

Teaching Area
NDFS

Course Title
Nutrition Assessment Lab

Course Description
Developing skill in anthropometric, biochemical, clinical, and dietary parameters of nutritional assessment.

Department
Nutrition, Dietetics, and Food Science

When Taught
Fall

Credit Hours

Min:
0.5

Fixed/Max:
0.5

Lecture Hours

Other Prerequisites
NDFS 300 or concurrent enrollment & dietetics major status

Learning Outcomes

Title
Assessment Procedures

Tags
202129, 2

Learning Outcome
Accurately perform and interpret assessment procedures (the first step in the nutrition care process) to identify nutrition-related problems.

Title
Locate, Interpret, Evaluate and Use Professional Literature

Tags
202130, 1

Learning Outcome
Demonstrate the ability to locate, interpret, evaluate and use professional literature in the process of nutritional assessment.

Title
Safety Principles in Laboratory Procedures

Tags
202131, 7

Learning Outcome
Apply safety principles in laboratory procedures regarding blood-borne pathogens and the disposal of biohazardous waste.

Title
Core Knowledge for the RDN

Tags
202348, 0, 5

Learning Outcome
2022 ACEND Standards

AND Knowledge Requirement/LO

NDFS 405 Course Learning Outcomes

Measured/Met by:

KRDN 1.3

Apply critical thinking skills

Competency Sign-offs, Blood Pressure Certification, Lab Worksheets

KRDN 3.1

Use the Nutrition Care Process and clinical workflow elements to assess nutritional parameters, diagnose nutrition-related problems, determine appropriate nutrition interventions, and develop plans to monitor the effectiveness of these interventions.

Competency Sign-off, Lab Worksheets
Practicum

NDFS 410 - Human Obesity

  AND CELL 305 - Human Physiology
  AND NDFS 200 - Nutrient Metabolism

Learning Outcomes

Title
Child Nutrition Assessment

Tags
202297, 7

Learning Outcome
3. Assess the nutritional status of a young child and provide appropriate recommendations for dietary improvement based on nutrient requirements during this life stage.

Title
Pregnancy Nutrition Assessment

Tags
202298, 4

Learning Outcome
2. Assess the nutritional status of a pregnant woman and provide appropriate recommendations for dietary improvement based on nutrient requirements during this life stage.

Title
Older Adult Nutrition Assessment

Tags
202299, 8

Learning Outcome
4. Assess and evaluate the nutritional status of an older adult.

Title
Evidence-based Nutrient Requirements and Assessment

Tags
202094, 0, 1

Learning Outcome
1. Demonstrate knowledge of evidence-based nutrient requirements (including the rationale for specific requirements throughout the life cycle) and nutritional status assessment methods used to determine diet adequacy among pregnant and lactating women; infants; children; adolescents; and older adults.

Title
2022 ACEND Standards

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CELL 305 - Human Physiology
  AND CHEM 285 - Introductory Bio-organic Chemistry
  AND NDFS 200 - Nutrient Metabolism

Learning Outcomes

Title
Physiological and Biochemical Changes in the Body

Tags
202273, 4

Learning Outcome
Identify possible physiological and biochemical changes in the body associated with deficient or excessive nutrient intakes.

Title
Enzymatic Reactions

Tags
202274, 5

Learning Outcome
Understand the role of enzyme kinetics, structure, and active sites in catalyzing biochemical reactions.

Title
Scientific Research and Communications

Tags
202344, 1

Learning Outcome
Demonstrate ability to search, interpret, and summarize original scientific information

Title
Nutrient Chemical Structure and Metabolism

Tags
202345, 2

Learning Outcome
Demonstrate knowledge of the chemical structure of nutrients, their food sources, the scientific basis for nutrition requirements, digestion, absorption, transport, metabolism and functions, and the metabolic consequences of nutrient deficiencies, interactions, imbalances and toxicities.

Title
Biochemical Functions and Pathways

Tags
202346, 3

Learning Outcome
Understand the biochemical functions and pathways of nutrients in the body.

Title
Core Knowledge for the RND

Tags
212308, 0, 6

Learning Outcome
2022 ACEND Standards

AND Knowledge Requirement/LO

NDFS 434 Course Learning Outcomes

Measured/Met by:

KRDN 1.1

Demonstrate how to locate, interpret, evaluate and use professional literature to make ethical, evidence-based practice decisions.

Macronutrient review paper and micronutrient presentation

KRDN 2.1

Demonstrate effective and professional oral and written communication and documentation.

Macronutrient review paper and micronutrient presentation

KRDN 3.5

Describe concepts of nutritional genomics and how they relate to medical nutrition therapy, health and disease.

Exam questions, genomics assignment

  AND NDFS 200 - Nutrient Metabolism
  AND NDFS 434 - Nutritional Bio-organic Chemistry

Learning Outcomes

Title
Nutrient Metabolism and Body Homeostasis

Tags
202343, 5

Learning Outcome
Identify physiological, biochemical and metabolic changes associated with deficient nutrient intake, excessive nutrient intake and selected metabolic diseases.

Title
Scientific Research and Writing

Tags
202466, 0, 1

Learning Outcome
Demonstrate ability to search, interpret, and summarize original scientific information in an efficiently written scientific paper.

Title
Nutrient Chemical Structure and Metabolism

Tags
202340, 0, 2

Learning Outcome
Demonstrate knowledge of nutrient chemical structures, food sources, digestion, absorption, transport, metabolism and functions, and the metabolic consequences of nutrient deficiencies, interactions, imbalances and toxicities.

Title
Experimental Design

Tags
202341, 0, 3

Learning Outcome
Demonstrate knowledge of appropriate design for scientific experiments.

Title
Biochemical Functions and Pathways

Tags
202342, 0, 4

Learning Outcome
Understand the biochemical functions and pathways of nutrients in the body.

NDFS 440 - Nutrition Education and Counseling

Course Information

Teaching Area (new)
NDFS

Course Number
440

Teaching Area
NDFS

Course Title
Nutrition Education and Counseling

Course Description
Learning theory; curriculum development and dissemination; nutrition counseling; for dietetics majors.

Department
Nutrition, Dietetics, and Food Science

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Design Teaching Plans

Tags
202318, 0, 2

Learning Outcome
Design teaching plans including objectives, concepts, and learning experiences appropriate for target audience.
KRDN 2022: 2.1, 2.6, 3.2, 3.3, 5.5

Title
Educational and Visual Support Materials

Tags
202319, 0, 5

Learning Outcome
Develop appropriate educational and visual support materials for individual or group instruction.
KRDN 2022: 2.1, 2.6, 3.2, 3.3, 5.5, 5.6

Title
Education and Counseling Techniques

Tags
202320, 0, 6

Learning Outcome
Demonstrate effective education and counseling techniques.
KRDN 2022: 2.1, 2.6, 3.2, 3.3, 5.5, 5.6

Title
Behavior Change Theories and Models

Tags
202321, 0, 7

Learning Outcome
Evaluate behavior change theories and models as part of nutrition interventions
KRDN 2022: 3.2, 3.3

Title
Evaluation Techniques

Tags
202322, 0, 9

Learning Outcome
Use formative and summative evaluation techniques for both self-assessment and learner assessment.
KRDN 2022: 2.1, 3.2, 5.5, 5.6

Title
Core Knowledge for the RDN

Tags
202323, 0, 10

Learning Outcome
2022 ACEND Standards

Core Knowledge for the RDN

Learning Outcome

Measured Met by

2.1, 2.6, 3.2, 3.3, 5.5, 5.6

Demonstrate effective education and counseling techniques.

Micro-teaching, teaching method, lesson plan, bulletin board, social media, handout, flip chart

3.2, 3.3

Evaluate behavior change theories and models as part of nutrition interventions

Micro-teaching, teaching method, lesson plan, bulletin board, social media, handout, flip chart, exams

2.1, 2.6, 3.2, 3.3, 5.5, 5.6

Develop appropriate educational and visual support materials for individual and group instruction

Micro-teaching, teaching method, lesson plan, bulletin board, social media, handout, flip chart, exams, Harvard implicit, cultural knowledge, exams, copyright tutorial

2.1, 2.6, 3.2, 3.3, 5.5

,Design teaching plans including objectives, concepts, and learning experiences appropriate for target audience

Lesson Plans, Social Media Plan, Objective Assignment, Exam, Learning Styles Inventory, Harvard implicit, cultural knowledge

NDFS 445 - Foodservice Systems.

Course Information

Teaching Area (new)
NDFS

Course Number
445

Teaching Area
NDFS

Course Title
Foodservice Systems.

Course Description
Input, transformation, and output in the food service system; emphasizes procurement, production, service, and sanitation.

Department
Nutrition, Dietetics, and Food Science

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- NDFS 374 - Food Production Management

Learning Outcomes

Title
Industry Trends

Tags
202350, 0, 1

Learning Outcome
Analyze current societal, demographic, technological, and menu trends and topics in a variety of industry segments
KRDN 2022: 2.1, 2.6

Title
Foodservice System Model

Tags
202351, 0, 1

Learning Outcome
Analyze the foodservice system model and the relationship of each of its parts

Title
Cultural Humility in Menu Planning

Tags
212967, 0, 10

Learning Outcome
Understand and apply concepts of cultural humility related to foodservice management and menu planning.
KRDN 2022 2.6, 3.6

Title
Systems Theory

Tags
202352, 0, 2

Learning Outcome
Understand and apply systems theory and knowledge of management functions to foodservice operations as well as other areas of the dietetic industry
KRDN 2022: 4.1, 4.6

Title
Procurement

Tags
202353, 0, 3

Learning Outcome
Discuss the procurement subsystem and the functions fo that subsystem including
- Vendors and vendor selection
- Methods of purchasing, receving, storage, and inventory control
- Understand specifications and value analysis and their use in purchasing
KRDN 2022: 2.5, 4.6

Title
Production

Tags
202354, 0, 4

Learning Outcome
Understand the food production subsystem and the functions of that subsystem

Understand and apply the use of forecasting models
Discuss planning, purchase and use of kitchen equipment
Discuss the purpose and use of an ingredient room and production schedules
Understand and apply principles of facility design and kitchen layout

KRDN 2022: 4.2, 4.6

Title
Distribution and Service

Tags
202355, 0, 5

Learning Outcome
Understand the distribution and service subsystem

Differentiate between delivery systems for various types of foodservices
Discuss pros and cons of methods of distribution
Define different types and methods of service

KRDN 2022: 2.4

Title
Sanitation and Safety

Tags
202356, 0, 6

Learning Outcome
Safety, Sanitation, and Maintenance Subsystem

Understand principles of safety and maintenance as they apply to foodservice systems

KRDN 2022: 4.5

Title
Sustainability

Tags
202357, 0, 7

Learning Outcome
Understand and apply principles of sustainability and how it applies to foodservice systems as well as other parts of the dietetics industry.

Title
Marketing

Tags
202358, 0, 8

Learning Outcome
Understand basic principles of marketing and apply them to a foodservice system

Discuss marketing of nutrition and self

KRDN 2022: 4.1

Title
Foodservice System Interrelation

Tags
202359, 0, 9

Learning Outcome
Critically evaluate and describe each part of the foodservice system indiviually and as a whole and understand how they interrelate with each other
KRDN 2022: 1.3, 2.1, 4.6

NDFS 450 - Food Chemistry

Course Information

Teaching Area (new)
NDFS

Course Number
450

Teaching Area
NDFS

Course Title
Food Chemistry

Course Description
Structure and properties of food components, including water, carbohydrates, protein, lipids, other nutrients, and food additives. Chemistry of changes occurring during processing, storage, and utilization.

Department
Nutrition, Dietetics, and Food Science

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- CHEM 285 - Introductory Bio-organic Chemistry
  AND NDFS 250 - Essentials of Food Science
  AND NDFS 251 - Essentials of Food Science Laboratory

OR

Prerequisites

Complete ALL of the following Courses:

- CHEM 352 - Organic Chemistry 2
  AND NDFS 250 - Essentials of Food Science
  AND NDFS 251 - Essentials of Food Science Laboratory

Learning Outcomes

Title
Explain Food Chemistry

Tags
202108, 0, 1

Learning Outcome
Explain the chemistry underlying the properties and reactions of various food components.

Title
Discuss Reactions Limiting Shelf Life

Tags
202109, 0, 2

Learning Outcome
Discuss the major chemical reactions that limit the shelf life of foods.

Title
Applying Food Chemistry Principles

Tags
209107, 0, 3

Learning Outcome
Apply food chemistry principles used to control reactions in foods.

Title
Analytical Approach to Problem Solving

Tags
202106, 0, 4

Learning Outcome
Design an appropriate analytical approach to solve a practical problem. This includes the following: 1. Develop a testable research question, hypothesis, and objectives. 2. Design a method to investigate a research question.

Title
Locate Credible Resources

Tags
202107, 0, 5

Learning Outcome
Locate evidence-based scientific information resources.

Title
Synthesize Academic Literature

Learning Outcome
Synthesize academic literature to explain a food chemistry topic.

Title
Communicate Scientific Ideas

Learning Outcome
Communicate scientific ideas persuasively (i.e. problem significance, methodological appropriateness, potential benefits) and report references appropriately.

Title
Disciple-Food Scientist

Learning Outcome
Integrate gospel principles and food science knowledge, skills, and conduct in the pursuit of becoming a disciple-scholar-professional.

NDFS 455 - Financial Management in Dietetics

Course Information

Teaching Area (new)
NDFS

Course Number
455

Teaching Area
NDFS

Course Title
Financial Management in Dietetics

Course Description
Basic financial management principles focused on application to the dietetics industry. Topics include basic accounting, financial statements, financial ratios, financial control, productivity measures, menu pricing, menu engineering, billing and coding, and budgets and budgeting.

Department
Nutrition, Dietetics, and Food Science

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- NDFS 374 - Food Production Management
  AND NDFS 445 - Foodservice Systems.

Learning Outcomes

Title
Menu Pricing

Tags
202471, 2

Learning Outcome
Utilize menu pricing strategies including menu engineering to appropriately price and develop menus

Title
Recipe Costing

Tags
202472, 1

Learning Outcome
Demonstrate competency in recipe factoring and recipe costing

Title
Financial Statements

Tags
202473, 3

Learning Outcome
Interpret financial statements and financial ratios
KRDN 4.2

Title
Billing and Coding

Tags
202480, 8

Learning Outcome
Describe the regulation system related to billing and coding, what services are reimbursable by third party payers, and how reimbursement may be obtained
KRDN 2.4; 4.3

Title
Budgeting

Tags
202477, 0, 7

Learning Outcome
Evaluate and analyze different types of financial budgets
KRDN 1.3, 4.2

Title
Learning Outcomes Table

Tags
212167, 0, 9

Learning Outcome

*ACEND Knowledge Requirement

By the conclusion of the course, students will:

Measured/Met by:

Demonstrate competency in recipe factoring and recipe costing

Recipe and Menu Pricing Assignment

Utilize menu pricing strategies including menu engineering to appropriately price and develop menus

Recipe and Menu Pricing Assignment

KRDN 4.2

Interpret financial statements and financial ratios

Financial statement assignment; Exams

KRDN 4.2
KRDN 1.3
KRDN 4.7

Calculate and interpret food, labor, and other cost ratios

Financial statement assignment; Exams

KRDN 4.2

Title
Cost Ratios

Tags
202474, 0, 4

Learning Outcome
Calculate, interpret, and apply food, labor, and other cost ratios
KRDN 4.2, 1.3, 4.7

Title
Operational Measures

Tags
202475, 0, 5

Learning Outcome
Calculate and interpret operational measures including breakeven points, productivity, and cost of goods sold
KRDN 1.3, 4.2

Title
Payback and Present Value

Tags
202476, 0, 6

Learning Outcome
Calculate payback period and net present value of equipment purchases
KRDN 4.2

NDFS 458 - Management in Dietetics

Course Information

Teaching Area (new)
NDFS

Course Number
458

Teaching Area
NDFS

Course Title
Management in Dietetics

Course Description
Management cycle and theory applied to clinical and administrative dietetics.

Department
Nutrition, Dietetics, and Food Science

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- NDFS 445 - Foodservice Systems.

Learning Outcomes

Title
Disaster Planning and Risk Management

Tags
202215, 10

Learning Outcome
Discuss concepts of disaster planning and risk management.

Title
Dietetics Management

Tags
202133, 0, 1

Learning Outcome
Explain dietetics management professional opportunities.

Title
Self-Assessment

Tags
202134, 0, 2

Learning Outcome
Perform self-assessment related to work and management practice.

Title
Group Work

Tags
202132, 0, 3

Learning Outcome
Discuss group dynamics, work group formation, and participate effectively in group tasks.

Title
Linking Processes

Tags
202135, 0, 4

Learning Outcome
Describe the linking processes from the Systems Model: balance, communication, and decision making.

Title
Management Functions

Tags
202136, 0, 5

Learning Outcome
Identify the management functions in the context of the Systems Model, including planning, organizing, staffing, directing, and controlling.

Title
Human Resource Management

Tags
202137, 0, 7

Learning Outcome
Identify principles of human resource management, including determining staffing needs, recruiting and interviewing, selection, negotiation, orientation and training, constructive discipline, performance appraisal, diversity, equity, and inclusion issues, conflict resolution, and employment laws/regulations.

Title
Research and Theory

Tags
202138, 0, 8

Learning Outcome
Describe theories of effective management and leadership, motivation, and organizational change. Find and use relevant research.

Title
ACEND Knowledge Requirement for the RDN (2022 ACEND Standards)

Tags
202465, 0, 12

Learning Outcome

Management in Dietetics

ACEND Knowledge Requirement for the RDN

By the conclusion of the course, students will:

Measured/Met by:

KRDN 1.1, 1.3

Explain dietetics management professional opportunities.

In-class activity

KRDNs 5.1, 5.2

Perform self-assessment related to work and management practice.

Devotional Reflection, KQS, Self-Evaluations, My Management Philosophies 1 & 2

KRDNs 2.1, 5.4, 5.5

Discuss group dynamics, work group formation, and participate effectively in group tasks.

Projects 1 & 2; Self and Peer Evaluations

KRDNs 2.1, 4.1

Describe the linking processes from the Systems Model: balance, communication, and decision making.

Reading Journals (RJ); In-class activity/discussion; Exam

NDFS 462 - Food Regulations and Quality Assurance

Course Information

Teaching Area (new)
NDFS

Course Number
462

Teaching Area
NDFS

Course Title
Food Regulations and Quality Assurance

Course Description
Federal and international food regulations and methods of assuring food quality.

Department
Nutrition, Dietetics, and Food Science

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- NDFS 250 - Essentials of Food Science
  AND NDFS 251 - Essentials of Food Science Laboratory
  AND STAT 121 - Introduction to Statistical Data Analysis

Learning Outcomes

Title
Laws, Regulations, Guidelines, and Directives

Tags
202110, 2

Learning Outcome
Be able to locate, retrieve and interpret specific laws, regulations, guidelines and directives relating to food, its manufacture, labeling, distribution and sale

Title
Government Roles in Food Supply

Tags
202111, 5

Learning Outcome
Explain how the legislative, executive, and judicial branches of federal and state government function and interact to regulate and control the safety, wholesomeness, and economy of the food supply

Title
Assuring the Quality of Food Products

Tags
202113, 3

Learning Outcome
Be able to apply the principles of food science and statistics to control and assure the quality of food products

Title
Ethical Reasoning

Tags
202161, 1

Learning Outcome
Apply ethical reasoning to make business decisions based on principles of integrity and honesty

Title
Legal Food Labels

Tags
202112, 0, 6

Learning Outcome
Understand/Map and prepare a legal food label

Title
Food Safety Plan

Tags
202114, 0, 4

Learning Outcome
Prepare a robust food safety plan for food product/process

NDFS 464 - Food Sensory Evaluation

Course Information

Teaching Area (new)
NDFS

Course Number
464

Teaching Area
NDFS

Course Title
Food Sensory Evaluation

Course Description
Analytical and affective methods of assessing sensory properties of food using statistical methods. Laboratory experience in sensory research and techniques. Integrative capstone course.

Department
Nutrition, Dietetics, and Food Science

When Taught
Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- NDFS 250 - Essentials of Food Science
  AND NDFS 251 - Essentials of Food Science Laboratory
  AND STAT 121 - Introduction to Statistical Data Analysis

Other Prerequisites
Concurrent enrollment in NDFS 465.

Learning Outcomes

Title
Prepare for and conduct a sensory test

Tags
202216, 0, 1

Learning Outcome
Create and execute a sensory consumer or discrimination test using a sensory questionnaire delivery, data collection and analysis software package.

Title
Client reports

Tags
202212, 0, 4

Learning Outcome
Prepare a professional sensory report for a client.

Title
Statistics

Tags
202213, 0, 6

Learning Outcome
Use statistics to draw conclusions about data.

Title
Test Types and Questions

Tags
202214, 0, 12

Learning Outcome
Demonstrate understanding of sensory test types and which test type is best for meeting project objectives. Be able to select the appropriate questions, scales, and wording for each test type.

Title
Quantitative Descriptive Panels

Tags
202217, 0, 13

Learning Outcome
Demonstrate understanding of how quantitative descriptive panels are conducted. Show how to determine when Quantitative Descriptive panelists are sufficiently trained and when they need more training.

Title
Leading and Participating in Groups

Tags
202193, 0, 14

Learning Outcome
Lead and participate in groups and with clients in developing a sensory test, planning and conducting that test, and reporting the results orally and as a written document.

NDFS 465 - Food Product Development

Course Information

Teaching Area (new)
NDFS

Course Number
465

Teaching Area
NDFS

Course Title
Food Product Development

Course Description
Integration and application of food science principles to develop new food products. Laboratory experience in food product design and development. Integrative capstone course.

Department
Nutrition, Dietetics, and Food Science

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- NDFS 361 - Food Microbiology
  AND NDFS 362 - Food Processing
  AND NDFS 462 - Food Regulations and Quality Assurance

Other Prerequisites
This class should be taken concurrently with NDFS 464.

Learning Outcomes

Title
Specifications

Tags
202115, 1

Learning Outcome
Prepare raw material, product, and process specifications for a product and related commercial manufacturing process

Title
Commercializing

Tags
202116, 2

Learning Outcome
Work with a team in successfully commercializing a new or improved food product

Title
Stability Test

Tags
202117, 3

Learning Outcome
Coordinate, plan, and execute a stability test

Title
Plant Trial

Tags
202118, 4

Learning Outcome
Coordinate, plan, and execute a plant trial

Title
Project Time-lines

Tags
202119, 5

Learning Outcome
Prepare and follow workable project time-lines for multiple development projects

Title
Consumer Tests

Tags
202120, 6

Learning Outcome
Coordinate, plan, and execute an appropriate consumer test for guidance or decision making

Title
Food Product Label

Tags
202121, 7

Learning Outcome
Properly prepare and document all information required for a finished food product label

Title
Laboratory Notebook

Tags
202122, 8

Learning Outcome
Keep a precise, well-documented laboratory notebook that will stand up under scrutiny in a court of law

NDFS 466 - Advanced Dietetics Practice

Course Information

Teaching Area (new)
NDFS

Course Number
466

Teaching Area
NDFS

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- NDFS 356 - Medical Nutrition Therapy 2
  AND NDFS 440 - Nutrition Education and Counseling
  AND NDFS 458 - Management in Dietetics

Learning Outcomes

Title
Menu Engineering Data

Tags
202329, 0, 4

Learning Outcome
Use and interpret menu engineering data in making pricing and menu decisions.
KRDN 4.6

Title
Nutrition Support

Tags
202328, 0, 2

Learning Outcome
Calculate, monitor, and make recommendations for all forms of nutrition support in inpatient and outpatient settings.
KRDN 1.1, 1.2, 1.3, 2.5, 3.1

Title
Nutrition Care Process and Principles of Medical Nutrition

Tags
202330, 0, 3

Learning Outcome
Use the Nutrition Care Process and the principles of Medical Nutrition Therapy for following conditions: trauma, HIV disease, thermal injury, diabetes, high risk pregnancies, high risk infants, complex pediatric disorders, developmental disorders, metabolic disorders.
KRDN 1.1, 1.2, 1.3, 2.5, 3.1, 4.3

Title
Systems Approach and Management Issues

Tags
202331, 0, 6

Learning Outcome
Develop proposals for food and nutrition services departments by applying knowledge of the systems approach and management issues in foodservice, clinical, and community settings.
KRDN 1.1, 1.2, 1.3, 2.1, 4.1, 4.2, 4.4, 4.6, 5.4, 5.5

Title
Core Knowledge for the RD

Tags
202332, 0, 7

Learning Outcome
Accreditation Council for Education in Nutrition and Dietetics Core Knowledge for the RD

Core Knowledge for the RDN

By the conclusion of the course, students will:

Measured/Met by:

KRDN 1.1, 1.2, 1.3, 2.5, 3.1

Calculate, monitor, and make recommendations for all forms of nutrition support in inpatient and outpatient settings..

Clinical Case Studies
Nutrition Support Worksheets

KRDN 1.1, 1.2, 1.3, 2.5, 3.1, 4.3

Evaulate patients using the Nutrition Care Process and the principles of Medical Nutrition Therapy for following conditions: trauma, HIV disease, thermal injury, diabetes, high risk pregnancies, high risk infants, complex pediatric disorders, developmental disorders, metabolic disorders

Clinical Case Studies, Nutrition Support Worksheet, Case study billing questions

KRDN 4.6

Use and interpret menu engineering data in making pricing and menu decisions.

Capstone Management Project

KRDN 1,1, 1.2, 1.3, 2.1, 4.1, 4.2, 4.4, 4.6, 5.4, 5.5

Develop proposals for food and nutrition services departments by applying knowledge of the systems approach and management issues in foodservice, clinical, and community settings

Capstone Management Project

NDFS 475 - Research Methods in Dietetics

Course Information

Teaching Area (new)
NDFS

Course Number
475

Teaching Area
NDFS

Course Title
Research Methods in Dietetics

Course Description
Research techniques in a variety of dietetics practice areas.

Department
Nutrition, Dietetics, and Food Science

When Taught
Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Other Prerequisites
Senior status in dietetics program.

Learning Outcomes

Title
Literature Research Reports

Tags
202157, 6

Learning Outcome
Interpret and evaluate research reports in literature

Title
Using Information Technologies

Tags
202187, 2

Learning Outcome
Use current information technologies to locate and apply evidence based guidelines and protocols

Title
Visual Aids and Communication Skills

Tags
202191, 5

Learning Outcome
Utilize visual aids and communication skills to present concepts in oral and written reports

Title
Types of Appropriate Research

Tags
202451, 1

Learning Outcome
Identify types of research and their appropriate use, including: research question, sample selection, methodologies, data collection methods, data analysis methods

Title
Locate, Interpret and Evaluate and Use Professional Literatu

Tags
202452, 1

Learning Outcome
Demonstrate how to locate, interpret and evaluate and use professional literature to make ethical evidence based practice decisions

Title
Design Research Projects

Tags
202453, 3

Learning Outcome
Design research projects using appropriate methods of sample selection and data collection

Title
Survey Questionnaire

Tags
202454, 4

Learning Outcome
Develop survey questionnaire for appropriate research objectives

Title
Basic Statistics

Tags
202455, 7

Learning Outcome
Interpret and apply basic statistics

Title
Core knowledge for the RDN

Tags
202349, 0, 8

Learning Outcome
2022 ACEND Standards

Knowledge

NDFS 475 Course learning outcomes

Measured/Met by:

KRDN 1.1

Identify how to locate, interpret, evaluate and use professional literature to make ethical, evidence-based practice decisions

Class Discussion (CD); in class assignments;
Proposal

KRDN 1.2

Use current information technologies to locate and apply evidence-based guidelines and protocols

Evidence based practice assignment

KRDN 1.3

Apply critical thinking skills

Assignments, CD, Exam

NDFS 490 - Professionalism in Nutrition and Dietetics

By the conclusion of the course, students will:

Measured/Met by:

KRDN 2.2, 5.3

Demonstrate professionalism and career readiness including online presence, dress, and business etiquette.

Scope of Practice Case, Code of Ethics, Dress Summary, Meeting Agenda, Business Etiquette Discussion

KRDN 1.3, 2.2, 2.9

Analyze the Scope of Practice and Standards of Practice and Professional performance for dietitians and apply the scope and standards to specific cases.

Class discussion, Scope of Practice Case, Scope of Practice Summary, Code of Ethics Quiz

KRDN 1.3, 2.2, 2.4, 2.8, 4.7, 5.1

Examine current issues related to the profession of dietetics including ethics, quality, practice applications, and professional membership.

Scope of Practice Case, Code of Ethics, Quality Management discussion/ activity, Position Consensus Paper, Meeting agenda, Healthcare Delivery Notes, Professionalism in Dietetics Paper

2022 standards

NDFS 491 - Internship Preparation

Course Information

Teaching Area (new)
NDFS

Course Number
491

Teaching Area
NDFS

Course Title
Internship Preparation

Course Description
Selecting internship sites and preparing dietetic internship application packet.

Department
Nutrition, Dietetics, and Food Science

When Taught
Fall

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

2022 ACEND- Required Core Knowledge

Tags
202339, 0, 5

Learning Outcome

2022 ACEND KRDN
Course Objectives
Measured by

2.1
Prepare a succinct and clear application for the dietetic internship or other employment/graduate school pursuits.
Personal statement, resume

5.2
Evaluate personal strengths and weaknesses in context of future dietetic internship, employment, graduate school, or other pursuits.
Personal statement

5.6
Develop goals for professional development following graduation.
Preceptor reflection paper, personal statement

2.1, 5.3
Demonstrate effective professional oral and written communication.
Personal statement, resume, elevator pitch, and video interview evalua

Title
Effective Application Packet

Tags
202335, 0, 1

Learning Outcome
Prepare a succinct and clear application packet for the dietetic internship or other employment/graduate school pursuits.
ACEND 2022 KRDN 2.1

Title
Self-Evaluation

Tags
202336, 0, 2

Learning Outcome
Evaluate personal strengths and weaknesses in context of future dietetic internship, employment, graduate school, or other pursuits.
ACEND 2022 KRDN 5.2

Title
Professional Development

Tags
202338, 0, 3

Learning Outcome
Develop goals for professional development following graduation.
ACEND 2022 KRDN 5.6

Title
Professional Communication

Tags
202337, 0, 4

Learning Outcome
Demonstrate effective professional oral and written communication.
ACEND 2022 KRDN 2.1, 5.3

NDFS 494R - Undergraduate Research in Nutrition, Dietetics, or Food Science.

Course Information

Teaching Area (new)
NDFS

Course Number
494R

Teaching Area
NDFS

Course Title
Undergraduate Research in Nutrition, Dietetics, or Food Science.

Course Description
Mentored research experience.

Department
Nutrition, Dietetics, and Food Science

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
3

Other Prerequisites
Instructor's consent

Learning Outcomes

Title
Data Collection and Analysis Methodologies

Tags
202095, 2

Learning Outcome
Students will develop skillsets in data collection, data entry, and/or data analysis methods.

Title
Evaluation of original research

Tags
202096, 1

Learning Outcome
Students will develop an increased understanding of the most up-to-date findings in the areas we are researching in the lab.

Title
Presentation and critical thinking skills

Tags
202097, 4

Learning Outcome
Students will gain experience presenting research to the group and will increase their critical thinking skills discussing original research articles.

NDFS 501 - Advanced Human Nutrition 1

Course Information

Teaching Area (new)
NDFS

Course Number
501

Teaching Area
NDFS

Course Title
Advanced Human Nutrition 1

Course Description
Nutritional status and scientific basis for dietary recommendations for carbohydrates, lipids, protein, and energy.

Department
Nutrition, Dietetics, and Food Science

When Taught
Winter Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CHEM 285 - Introductory Bio-organic Chemistry

Learning Outcomes

Title
Dietary recommendations for macronutrients

Tags
214229, 0, 1, 2023-08-29 11:39:33

Learning Outcome
Students will be able to explain the scientific basis for dietary recommendations for macronutrients

Title
Mechanisms of Digestion, Absorption, and Transport

Tags
214230, 0, 2, 2023-08-29 11:39:34

Learning Outcome
Students will be able to explain the mechanisms of digestion, absorption, and transport

Title
Macronutrients

Tags
214231, 0, 3, 2023-08-29 11:39:35

Learning Outcome
Students will be able to explain macronutrient functions and interactions and the consequences of deficiencies, imbalances, and toxicities

Title
Metabolic Pathways

Tags
214232, 0, 4, 2023-08-29 11:39:37

Learning Outcome
Students will be able to diagram metabolic pathways for macronutrients

Title
Proficiency with scientific literature

Tags
214233, 0, 5, 2023-08-29 11:39:44

Learning Outcome
Students will be able to correctly interpret and draw inference from the current scientific literature on macronutrients

NDFS 558 - Nutritional and Food Toxicology

Course Information

Teaching Area (new)
NDFS

Course Number
558

Teaching Area
NDFS

Course Title
Nutritional and Food Toxicology

Course Description
Principles of nutritional and food toxicology with primary emphasis on food toxins will be discussed. An overview of absorption, distribution, metabolism and excretion of foreign materials, allergenic and toxic constituents in plant, animal, marine and fungal origin will be covered. Priority will be placed on the role food ingredients and nutrients may have in mutagenesis and carcinogenesis, including food processing induced toxins. Safety assessments of food additives, environmental contaminants, pesticides, antibiotic residues and dietary supplements and the laws and regulations surrounding their uses will be presented.

Department
Nutrition, Dietetics, and Food Science

Other Prerequisites
Concurrent enrollment in NES 336R

Learning Outcomes

Title
Jerusalem Center Field Trips

Learning Outcome
Recognize and relate the significance of biblical narratives, historical events, and lived experiences to the historical and archaeological sites they have visited during the semester.

Title
Geographic Context

Learning Outcome
Identify major geographic features of Jerusalem and other Holy Land sites, coming to recognize the major topographic divisions of the region and then explain their influence on historical and scriptural events.

Title
Geographic Context

Learning Outcome
Recognize sites connected with key biblical and historical events and then compare their physical and temporal relationship to neighboring sites.

Title
Cultural Context

Learning Outcome
Become familiar with and recognize the material cultures of the civilizations of the Holy Land to explain how they helped shape their history.

Title
Historical Context

Learning Outcome
Recall the historical and archaeological contexts of sites visited during the semester, summarizing their significance to biblical narratives and historical development, explaining how they shaped the experiences of the peoples of the Holy Land.

Title
Scriptural Significance

Learning Outcome
Understand how the geographic and cultural setting shaped scriptural events to better apply the scriptures to current life.

NEURO 205 - Neurobiology

Course Information

Complete ALL of the following Courses:

- CELL 120 - Science of Biology

Other Prerequisites
or instructor's consent.

Learning Outcomes

Title
Basic nervous system knowledge

Tags
202539, 0

Learning Outcome
Students will demonstrate an understanding of the structures and functions of the nervous system. This will include the cellular, regional and system organization and function of the brain, spinal cord and peripheral nerves. Students will apply this knowledge to solve neuroscience-related problems.

Title
Preparation for future neuroscience courses

Tags
202635, 2

Learning Outcome
Students will demonstrate the building blocks of knowledge required to further their experience and training in other neuroscience courses.

- NEURO 205 - Neurobiology

Other Prerequisites
Engl 150 or equivalent; Neuroscience major status

Learning Outcomes

Title
Write clearly and appropriately

Tags
183702, 1

Learning Outcome
Students will demonstrate that they can write clearly, focus on a well-defined purpose in writing, use conventions of format and structure appropriate to their discipline, and adopt a voice, tone, and level of formality suited to multiple purposes and audiences, including audiences both within and outside the discipline in which the course is offered.
Measurement: Informal in-class writing assignments will be given and formal writing assignments will be assigned in multiple drafts with peer- and instructor-review. Genres could include a personal writing journal, letter of intent, letter to the editor, literature review, research proposal, book review, and poster presentation.

Title
Library research

Tags
183703, 3

Learning Outcome
Students will demonstrate the ability to use appropriate research tools and processes of research within their particular discipline, including library research. Students will demonstrate their ability to identify and evaluate sources, retrieve and evaluate data, take notes, and follow conventions of quoting, paraphrasing, and summarizing. They will cite sources properly and demonstrate an understanding of ethical issues related to research, including how to avoid plagiarism.
Measurement: Complete the library-usage module provided by the Lee Library.

Title
The role of writing in neuroscience

Tags
183704, 2

Learning Outcome
Students will demonstrate the ability to use appropriate research tools and processes of research within their particular discipline, including library research. Students will demonstrate their ability to identify and evaluate sources, retrieve and evaluate data, take notes, and follow conventions of quoting, paraphrasing, and summarizing. They will cite sources properly and demonstrate an understanding of ethical issues related to research, including how to avoid plagiarism.
Measurement: See (1).

Title
Productive and flexible collaborative writing processes

Tags
183705, 4

Learning Outcome
Students will demonstrate the ability to use appropriate research tools and processes of research within their particular discipline, including library research. Students will demonstrate their ability to identify and evaluate sources, retrieve and evaluate data, take notes, and follow conventions of quoting, paraphrasing, and summarizing. They will cite sources properly and demonstrate an understanding of ethical issues related to research, including how to avoid plagiarism.
Measurement: See (1).

Title
Genres, forms, styles, and documentation conventions

Tags
183706, 5

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- NEURO 205 - Neurobiology

Other Prerequisites
Neuroscience major status.

Learning Outcomes

Title
Function and circuitry of nervous system structures

Tags
202525, 1

Learning Outcome
Students will state the function of identified brain structures and explain how each structure is anatomically connected (wired) to other CNS and PNS structures.

Title
Knowledge of nervous system structures

Tags
202569, 0

Learning Outcome
Students will identify central nervous system structures on pictures, dissections, models, and cross sections of the brain and spinal cord.

Title
Solve clinical case studies

Tags
202577, 2

Learning Outcome
Students will use knowledge of brain and spinal cord anatomy to discuss and analyze neuroanatomy-based clinical case studies.

NEURO 390R - Special Topics in Neuroscience

Course Information

Teaching Area (new)
NEURO

Course Number
390R

Teaching Area
NEURO

Course Title
Special Topics in Neuroscience

Course Description
Exploration of current topics in neuroscience.

Department
Neuroscience Center

Prerequisites

Type
Prerequisite

Complete ALL of the following Courses:
- NEURO 360 - Neuroanatomy

Other Prerequisites
Neuroscience major status

Learning Outcomes

Title
Clinical presentation of diseases affecting the nervous system

Learning Outcome
Students will analyze clinical case studies and apply appropriate diagnostic criteria for important diseases that affect the nervous system.

Title
Neuroradiological identification of neurological disease

Learning Outcome
Students will identify the neuroimaging findings associated with, and diagnostic of, diseases that affect the nervous system.

Title
Neuropathology of nervous system disease

Learning Outcome
Students will appropriately relate gross anatomical findings, microscopic findings, and pathophysiological markers of the major diseases that affect the nervous system to their clinical case presentations.

NEURO 420R - Senior Practicum: Community Projects

Course Information

Teaching Area (new)

Learning Outcomes

Title
Write a Scientific Laboratory Report

Tags
202668, 2

Learning Outcome
Understand fundamentals of statistical analysis (including proper techniques, applications, and interpretations) and produce a well-written scientific report.

Title
Neuroscience Laboratory Theory & Technique

Tags
202667, 0, 0

Learning Outcome
Students will demonstrate an understanding of and an ability to perform and apply hands-on laboratory techniques to study nervous system histology, anatomy, pathology, and behavior. Important topics covered include confocal and super resolution microscopy, tissue staining, neurohistology, neuroanatomy, immunhistochemistry, and neuroimaging.

NEURO 550R - Advanced Topics in Neuroscience

Course Information

Course Number
550R

Teaching Area
NEURO

Course Title
Advanced Topics in Neuroscience

Course Description
Advanced undergraduate or graduate-level course in topics related to neuroscience (molecular, cellular, systems, cognitive, behavioral, and/or clinical). Topics vary and will relate to faculty expertise. 550R courses will have a defined curriculum with assignments, based on readings and analysis of current and seminal journal articles. Expectations and topic-specific learning outcomes will be specified in the syllabus.

Department
Neuroscience Center

When Taught
Fall and Winter

Credit Hours

Min:
1

Fixed/Max:
4

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
0

Other Prerequisites
Instructor consent

Learning Outcomes

Title
Advanced Understanding of Neuroscientific Principles

Learning Outcome
Students will demonstrate an advanced understanding of scientific principles, ideas, methods, techniques, and trends within a subfield of modern neuroscience..

Title
Critical Analysis of Neuroscientific Literature

Learning Outcome
Students will read, interpret, evaluate, and discuss neuroscience research papers.

Title
Integration of Emerging Neuroscientific Evidence

Learning Outcome
Students will integrate emerging evidence to produce a competent and clearly composed scientific synthesis project (potential examples include a review paper, research proposal, poster presentation, or oral presentation).

NIUEA 100 - Language Study: Niuean

Learning Outcomes

Title
Elaboration

Tags
197777, 1

Learning Outcome
Create structurally-accurate, elaborated utterances and begin to group utterances into paragraphs and narratives. Do this in present, past and future time.

Title
Vocabulary

Tags
197778, 2

Learning Outcome
Broaden vocabulary for both reception (listening and reading comprehension) and production (speaking and writing).

Title
Grammar

Tags
197779, 3

Learning Outcome
Review and increase understanding of basic language structures.

Title
Culture

Tags
197780, 4

Learning Outcome
Discuss in the target language common products and practices related to every-day life in the target culture.

Note
Teacher may waive prerequisite based on prior experience. Culminating course for GE Languages of Learning requirement. Not an entry course for returned missionaries.

Learning Outcomes

Title
Communication Skills

Tags
197773, 1

Learning Outcome
In both written and spoken target language, communicate with reasonable accuracy about real-world activities with well-educated members of the target-culture accustomed to dealing with non-native speakers.

Title
Comprehension

Tags
197774, 2

Learning Outcome
Understand every-day written and verbal instructions. Comprehend concrete details and global meaning of intermediate-level written and spoken passages related to familiar topics that native speakers encounter routinely in their daily life.

Title
Cultural Knowledge

Tags
197775, 3

Learning Outcome
Discuss in the target language cultural practices related to every-day life in the target culture. Acquire basic background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.).

Title
General Education Requirements

Tags
197776, 4

Learning Outcome
Complete Languages of Learning and Global & Cultural Awareness for General Education.

Course Title
Language Skills Development: Niuean

Course Description
Increasing proficiency in one or more of the following Niuean language and culture skills: speaking, listening, reading, writing, cultural awareness.

Department
Language Studies

When Taught
Contact Department

Credit Hours

Min:
1

Fixed/Max:
4

Other Prerequisites
Instructor's consent.

Learning Outcomes

Title
Defined Special Purpose

Tags
197770, 1

Learning Outcome
Develop the overall language and cultural competence to meet the needs of a "special" purpose identified by the Center for Language Studies.

Title
Communication

Tags
197771, 2

Learning Outcome
Communicate effectively enough to function in a variety of situations likely to be encountered when dealing with native speakers associated with the special purpose. This may include interpersonal, interpretive, and presentational (written and oral) modes of communication.

Title
Cultural Competence

Tags
197772, 3

Learning Outcome
Interact with cultural competence and understanding when dealing with native speakers associated with the special purpose.

Learning Outcomes

Title
Analyze

Tags
197767, 1

Learning Outcome
Analyze target language morphology and syntax.

Title
Apply

Tags
197768, 2

Learning Outcome
Apply grammar rules with accuracy to a variety of advanced grammatical and communicative tasks.

Title
Independent Learning

Tags
197769, 3

Learning Outcome
Function as independent learners of the target language by using proper terms and appropriate resources for language analysis.

Note
Entry course for returned missionaries or others of equivalent language experience. Required course for obtaining language credit by examination. May fulfill the GE Languages of Learning requirement.

Learning Outcomes

Title
Communication Skills

Tags
197763, 1

Learning Outcome
In both written and spoken target language, communicate accurately with well-educated members of the target-culture about real-world activities.

Title
Comprehension

Tags
197764, 2

Learning Outcome
Understand detailed written and verbal instructions. Comprehend historical passages, newspaper and magazine articles, and broadcast news reports well educated native speakers encounter routinely in their daily life.

Title
Cultural Knowledge

Tags
197765, 3

Learning Outcome
Acquire background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.). Discuss in the target language cultural practices related to major life events in the target culture (birth, marriage, death, etc.).

Title
General Education Requirements

Tags
197766, 4

Learning Outcomes

Title
Recognize and Analyze

Tags
197759, 1

Learning Outcome
Recognize and analyze the most important genres in target-language literature.

Title
Key Characteristics

Tags
197760, 2

Learning Outcome
Identify and discuss key characteristics of the most important literary movements in the target culture.

Title
Context

Tags
197761, 3

Learning Outcome
Place literature in a meaningful cultural and historical context.

Title
Language Skills

Tags
197762, 4

Learning Outcome
Improve target-language reading, writing, and speaking skills.

Tags
197754, 1

Learning Outcome
Develop overall language and cultural competence needed to study and begin entry into a career agreed upon by the Center for Language Studies.

Title
Knowledge

Tags
197755, 2

Learning Outcome
Carry out research to identify, understand, and discuss standards, processes, people and cultural norms associated with the target career.

Title
Interpretive Competence

Tags
197756, 3

Learning Outcome
Understand, interpret and analyze advanced-level written and oral texts on topics related to the target career.

Title
Communicative Competence

Tags
197757, 4

Learning Outcome
Communicate effectively at the advanced-level in order to function in a variety of situations likely to be encountered when dealing with native speakers who are associated with the target career. This will include interpersonal communication and both written and oral presentational communication.

Title
Cultural Competence

Tags
197758, 5

Learning Outcome
Interact with cultural competence and understanding when dealing with native speakers who are associated with the target career.

Title
Language Learning Strategies

Tags
190250, 3

Learning Outcome
Students will develop comprehension and learning strategies to help them derive meaning from a wide variety of authentic language texts.

Title
Speaking

Tags
190269, 1

Learning Outcome
Students will be able to speak Norwegian well enough to satisfy immediate needs. (They will learn to communicate in basic social situations, meet routine travel needs, obtain food and lodging, carry out simple transactions, and talk about a variety of topics of common interest primarily in the present, with limited use of other time frames.)

Title
Comprehension

Tags
190319, 0

Learning Outcome
Students will comprehend Norwegian as they hear and read authentic language relating to familiar topics.

Title
Culture

Tags
190380, 4

Learning Outcome
Students will display appropriate awareness of everyday culture in Norwegian-speaking countries.

Title
Writing

Tags
190592, 2

Learning Outcome
Students will be able to write short messages and well-articulated sentences in Norwegian on familiar topics.

190453, 3

Learning Outcome
Students will speak in a way so as to be understood most of the time without difficulty by native speakers unaccustomed to dealing with non-native speakers.

Title
Description and Narration

Tags
190540, 0

Learning Outcome
Students will be able to describe and narrate in present, past and future times in the context of paragraph-level speech about autobiographical and concrete topics.

Title
Opinions

Tags
190588, 1

Learning Outcome
Students will be able to speak about autobiographical and concrete topics, initiate and maintain conversations by asking and responding to questions, and cope with gaps in knowledge.

Credit Hours

Min:
0.5

Fixed/Max:
5

Other Prerequisites
Norwe 211R or equivalent experience

Learning Outcomes

Title
Pronunciation

Tags
190256, 4

Learning Outcome
Students will speak in a way so as to be understood without difficulty by speakers unaccustomed to dealing with non-native speakers.

Title
Opinions

Tags
190341, 1

Learning Outcome
Students will be able to relate current events, plots of books or movies, and state opinion.

Title
Vocabulary

Tags
190402, 3

Learning Outcome
Students will be able to speak using an appropriate variety of vocabulary related to autobiographical and concrete topics as well as to current and other events.

Title
Fluency

Tags
190480, 2

Learning Outcome
Students will be able to initiate and maintain fluent conversations and cope with gaps in knowledge in contexts related to concrete topics.

Title
Description and Narration

Tags
190513, 0

Learning Outcome
Students will be able to describe and narrate in present, past and future times in the context of paragraph-level speech about autobiographical and concrete topics.

NORWE 330 - Advanced Language Proficiency Through Cultural Studies: Norwegian

Course Information

Teaching Area (new)
NORWE

Course Number
330

Teaching Area
NORWE

Course Title
Advanced Language Proficiency Through Cultural Studies: Norwegian

Course Description
Study of Norwegian culture using interpersonal, presentational, and interpretive skills in the target language.

Department
Language Studies

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Norwe 202 or equivalent experience.

Note
Required course for obtaining language credit by examination. This course replaces the former 321 course; students who have taken 321 may not take 330.

Learning Outcomes

Title
Critical Thinking

Tags
190625, 2

Learning Outcome
Students will demonstrate critical thinking skills through literary analysis, debate, dealing with unanticipated complications in conversation, forming and supporting opinions, and presenting on topics of general interest.

Title
Culture

Tags
190626, 3

Learning Outcome
Students will explain how common cultural products and practices relate to cultural perspectives. They will interact with cultural competence in familiar and some unfamiliar contexts.

Title
Reading and Listening

Tags
191046, 1

Learning Outcome
Students will demonstrate reading and listening comprehension of Advanced level texts such as narrative, descriptive, and explanatory texts. They will demonstrate a broad vocabulary regarding concrete, general interest topics such as education, work, government, and topics in the news.

Title
Writing and Speaking

Learning Outcome
Students will write and speak using cohesive paragraphs on topics of personal and general interest. Students will demonstrate control of frequently used structures and will write and speak with Advanced level accuracy.

Title
Global and Cultural Awareness (GE)

Learning Outcome
Students will acquire informed awareness of a) a culture other than the student's primary (or most familiar) culture, or b) the interplay of multiple cultures, languages, and/or nations. Students will engage in thoughtful reflection of that informed awareness in a structured, guided manner as evidenced by student written or spoken analyses (often involving comparison) in consideration of a culture, multicultural interplay, or global issue. Students will develop greater empathy and charity as they gain a broader perspective and learn to see themselves from another's point of view.

NORWE 340 - Norwegian Literature

Course Information

Teaching Area (new)
NORWE

Course Number
340

Teaching Area
NORWE

Course Title
Norwegian Literature

Course Description
Readings in Norwegian literature; introduction to basic literary concepts. Includes International Cinema.

Language Studies

When Taught
Winter Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0.5

Note
Culminating course for GE Foreign Language requirement.

Learning Outcomes

Title
Lifelong Learning

Tags
190036, 7

Learning Outcome
Students should better know how to understand, interpret, and thoughtfully reflect upon the literature and art encountered later in life.

Title
Analytic, Research, and Writing Skills

Tags
190364, 3

Learning Outcome
Students should be able to insightfully analyze important literary and artistic works from Norwegian cultural history and be able to communicate this analysis through articulate written and oral presentations in Norwegian. Students will also develop basic research skills.

Title
Norwegian Cultural History

Tags
190437, 1

Learning Outcome
Students will understand key trends and works from Norwegian cultural history, recognize connections between these works, and be able to relate them to the development of contemporary Norwegian culture.

Title
Cultural Literacy

Tags
190534, 5

Learning Outcome
Students should relate the ideas and issues raised by the works we study in class to the students’ own cultural moment as well as to their own experience with contemporary Norwegian culture.

Learning Outcomes

Title
Medical Language Skills

Tags
203623, 0, 0, 2023-04-25 08:48:02

Learning Outcome
Analyze a medical term and identify the different word parts.

Title
Application of medical language

Tags
203677, 0, 1, 2023-04-25 08:48:02

Learning Outcome
Use medical abbreviations appropriately.

Title
Application of Medical Language

Tags
203618, 0, 2, 2023-04-25 08:48:02

Learning Outcome
Use the most common medical terms in a sentence.

Title
Medical Language and the Human Body

Tags
203683, 0, 3, 2023-04-25 08:48:02

Learning Outcome
Categorize medical terms according to body systems.

NURS 270 - Learning and Test-Taking Strategies in Nursing

Course Information

Course Number
270

Teaching Area
NURS

Course Title
Learning and Test-Taking Strategies in Nursing

Course Description
Learning and Test Taking Strategies for Nurses provides proven approaches for learning and test-taking applicable to nursing students at all levels. These approaches will be bathed in the light of the Gospel of Jesus Christ and will focus on helping students become successful learners and disciple scholars.

Department
Vh6U7S2eE5UYts0WGk6S

When Taught
Fall and Winter

Credit Hours

Min:
0

Lecture Hours

Fixed:
0.5

Learning Outcomes

Title
Foundational Strategies

Learning Outcome
Examine foundational learning and test-taking strategies applicable to nursing students at all levels.

Title
Individualized Plan

Learning Outcome
Develop and assess an individualized learning and test-taking plan.

Title
Gospel Study

Learning Outcome
Gain a deeper personal insight into the Lord's approach to gospel study and its application.

NURS 288 - Nursing Skills I

Course Information

Course Number
288

Teaching Area
NURS

Course Title
Nursing Skills I

Course Description
1-credit lab course focuses on cognitive and psychomotor introductory nursing skills development and application with hands-on, interactive learning activities in the Nursing Learning Center.

Department
Nursing

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
1

Lab Hours

Fixed:
3

Learning Outcomes

Title
Introductory Nursing Skills

Tags
213119, 0, 1, 2023-08-01 13:47:26

Learning Outcome
The student will demonstrate competency in basic nursing skills to provide quality, safe, patient centered care to patients with common healthcare needs in a simulated learning environment.

Title
Clinical Judgment

Tags
213120, 0, 2, 2023-08-01 13:47:26

Learning Outcome
Students will apply clinical judgment concepts to deliver evidence-based interventions which are transferable to professional practice.

NURS 290 - Think Like a Nurse: Learning Clinical Judgment

Course Information

Teaching Area (new)
NURS

Course Number
290

Teaching Area
NURS

Course Title
Think Like a Nurse: Learning Clinical Judgment

Course Description
1.5-credit in-person didactic course focuses on acquisition of knowledge about nursing history, theory, and practice; the College's mission and values and professional nursing values; Tanner's Clinical Judgment Model; and self-reflection on goals, values, and biases.

Department
Nursing

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
1.5

Lecture Hours

Fixed:
1.5

Lab Hours

Fixed:
0

Other Prerequisites
Admission to the College of Nursing baccalaureate program.

Learning Outcomes

Title
Nursing theoretical foundations

Tags
212885, 0, 2, 2023-04-25 08:58:56

Learning Outcome
Analyze key principles of nursing theories and foundational principles to expand understanding of nursing history and the profession.

Title
Clinical Judgment

Tags
212886, 0, 3, 2023-04-25 08:58:56

Learning Outcome
Interpret and apply Tanner's Clinical Judgment Model, critical thinking skills, and the nursing process in thinking like a nurse with a focus on "context" or what the nurse brings to the nurse-patient relationship

Title
Professional and College of Nursing Expectations and Personal Goals

Tags
212884, 0, 1, 2023-04-25 08:58:56

Learning Outcome
Apply professional nursing and College of Nursing values to course work and personal goals.

NURS 292 - Clinical Practicum Fundamentals in Nursing

Course Information

Teaching Area (new)
NURS

Course Number
292

Teaching Area
NURS

Course Title
Clinical Practicum Fundamentals in Nursing

Course Description
1.5 credit clinical practicum course focuses on in-person, active application of fundamental nursing concepts and skills with patients in skilled nursing facilities and simulated learning experiences in the Nursing Learning Center.

Department
Nursing

When Taught
Contact Department

Credit Hours

Fixed/Max:
1.5

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
4.5

Other Prerequisites
Courses in Nursing Semester 1.

Note
7-hour clinical per week for 6 weeks plus simulation experiences in Nursing Learning Center.

Learning Outcomes

Title
Integration of Gospel Values

Learning Outcome
Students will provide holistic care to patients, meeting patient's physical and psychosocial needs in a caring and compassionate manner.

Title
Integration of Gospel Values

Learning Outcome
Students will demonstrate understanding and respect for the diversity of the human experience.

Title
Integration of Gospel Values

Learning Outcome
Students will describe outcomes achieved through participation in professional and/or community service activities as part of lifelong learning and professional service.

Title
Quality of Nursing Care Delivery

Learning Outcome
Students will create and execute a plan to care for a patient that demonstrates sound clinical judgment and the ability to deliver safe, high-quality patient-centered care.

Title
Quality of Nursing Care Delivery

Learning Outcome
Students will demonstrate proficiency in performing physical assessment.

Title
Quality of Nursing Care Delivery

Learning Outcome
Students will evaluate and reflect on personal clinical performance, creating a plan for improvement.

Title
Communication and Collaboration

Learning Outcome
Students will communicate effectively with patients, family members, interdisciplinary team members, faculty members, and peers.

Title
Communication and Collaboration

Learning Outcome
Students will demonstrate competence in documenting patient care.

Title
Prevention and Population Health

Learning Outcome
Students will utilize evidence-based tools to assess level of risk related to various areas of health while considering a patient's risk when executing a treatment plan.

Title
Professionalism

Learning Outcome
Students will consistently demonstrate responsibility and accountability for their actions.

NURS 294 - Health Assessment and Promotion.

Course Information

Teaching Area (new)
NURS

Course Number
294

Teaching Area
NURS

Course Title
Health Assessment and Promotion.

Course Description
2-credit didactic course guides students in their acquisition and application of health assessment and promotion knowledge and skills.

Department
Nursing

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2.25

Lab Hours

Fixed:
1.5

Other Prerequisites
Acceptance into Nursing Program.

Learning Outcomes

Title
Performance: History and Assessment

Tags
206800, 0, 0, 2023-08-01 13:49:40

Learning Outcome
Perform a basic health history and physical assessment on the adult individual including electronic health record documentation.

Title
Health Identification

Tags
206803, 0, 2, 2023-08-01 13:49:40

Learning Outcome
Identify common health problems or risk for health problems based on personal, family and social history, and physical exam.

Title
Health Promotion

Tags
206802, 0, 3, 2023-08-01 13:49:40

Learning Outcome
Identify and support strategies for health promotion, risk reduction and disease prevention for adult patients.

NURS 295 - Fundamentals in Nursing

Course Information

Teaching Area (new)
NURS

Course Number
295

Teaching Area
NURS

Course Title
Fundamentals in Nursing

Course Description
2-credit in-person didactic course focuses on the acquisition of knowledge on fundamental nursing concepts and skills with explanation of the theoretical and evidence-based guidelines supporting these concepts.

Department
Nursing

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
2

Lecture Hours

Fixed:
2

Other Prerequisites
Courses in Nursing Semester 1.

Learning Outcomes

Title
Quality of Nursing Care Delivery

Tags
213121, 0, 2, 2023-08-01 13:52:20

Learning Outcome
Students will describe and evaluate safe, high-quality fundamental nursing care based on evidence-based practice guidelines.

Title
Clinical Judgment

Tags
206809, 0, 4, 2023-08-01 13:52:20

Learning Outcome
Students will demonstrate clinical judgment related to fundamental nursing concepts by implementing critical thinking skills.

Title
Communication and Collaboration

Tags
206805, 0, 1, 2023-08-01 13:59:33

Learning Outcome
Students will demonstrate effective oral and written communication and collaboration.

Title
Professionalism

Learning Outcome
Students will demonstrate professional standards of practice in coursework.

NURS 296 - Introduction to Population Health Nursing

Course Information

Teaching Area (new)
NURS

Course Number
296

Teaching Area
NURS

Course Title
Introduction to Population Health Nursing

Course Description
1.5-credit in-person didactic and 0.5-credit lab course focused on population health and wellness with emphasis on social determinants of health, health equity, mental health, and healthcare communication.

Department
Nursing

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
2

Lecture Hours

Fixed:
1.5

Lab Hours

Fixed:
1.5

Other Prerequisites
Courses in Nursing Semester 1.

Note
1.5-credit in-person didactic and 0.5-credit lab course focused on population health and wellness with emphasis on social determinants of health, health equity, mental health, and healthcare communication.

Learning Outcomes

Title
Nurse Role

Learning Outcome
Describe the role of public and population health nurses in addressing health equity.

Title
Team Communication

Learning Outcome
Demonstrate interpersonal and healthcare team communication skills to facilitate holistic care of diverse populations.

Title
Community Resources

Learning Outcome
Evaluate public/population health resources to restore, maintain, and promote health.

Title
Community Health

Learning Outcome
Develop health and healthcare solutions for individuals, communities, and populations utilizing effective communication.

NURS 298 - Nursing Skills II

Course Information

Course Number
298

Teaching Area
NURS

Course Title
Nursing Skills II

Course Description
1-credit lab course focuses on cognitive and psychomotor introductory to intermediate nursing skills development and application with hands-on, interactive learning activities in the Nursing Learning Center.

Department
Nursing

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
1

Lab Hours

Fixed:
3

Other Prerequisites
Admission to the College of Nursing. Successful completion of Nurs 288 Nursing Skills I.

Learning Outcomes

Title
Nursing Skills

Tags
213122, 0, 1, 2023-08-01 13:57:23

Learning Outcome
The student will demonstrate basic skills to provide quality, safe, patient-centered care to individuals, families, and/or communities with complex healthcare needs in a simulated learning environment.

Title
Clinical Judgement

Learning Outcome
Students will apply clinical judgment concepts to deliver evidence-based interventions which are transferable to professional practice.

NURS 300 - Applied Pharmacology in Nursing.

Course Information

Teaching Area (new)
NURS

Course Number
300

Teaching Area
NURS

Course Title
Applied Pharmacology in Nursing.

Course Description
Common categories of drugs: their action, use and desired and undesired effects; implications for nursing care.

Department
Nursing

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Courses in College of Nursing Semester 1.

Learning Outcomes

Title
Common classes of drugs

Tags
206872, 0, 1, 2023-08-01 13:57:57

Learning Outcome
Demonstrate correct knowledge of drugs within pharmacological classes.

Title
Actions, indications, and effects of drugs in diverse populations

Tags
206873, 0, 2, 2023-08-01 13:57:57

Learning Outcome
Compare and contrast the actions of drugs in relationship to chemistry, biology, and pathophysiology knowledge

Title
Actions, indications, and effects of drugs in diverse populations

Tags
206874, 0, 3, 2023-08-01 13:57:58

Learning Outcome
Examine the indications for drug use in diverse populations and settings

Title
Actions, indications, and effects of drugs in diverse populations

Tags
206875, 0, 4, 2023-08-01 13:57:58

Learning Outcome
Interpret the effects of drugs in relationship to pathophysiology of disease processes

Title
Pharmacological implications for nursing care in diverse populations and settings

Tags
206876, 0, 5, 2023-08-01 13:57:58

Learning Outcome
Describe and evaluate pharmacological implications in nursing care with diverse populations and settings

NURS 301 - Applied Pathophysiology in Nursing

Course Information

Course Number
301

Teaching Area
NURS

Course Title
Applied Pathophysiology in Nursing

Course Description
3-credit, in-person didactic course integrates knowledge from physiology, chemistry, microbiology, and nursing care in learning new knowledge about pathophysiology, disease processes, evidence-based health care interventions, and implications for nursing care for all body organ systems.

Department
Nursing

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Learning Outcomes

Title
Knowledge application

Tags
213124, 0, 1, 2023-08-01 14:01:42

Learning Outcome
Demonstrate a working understanding of basic cell anatomy and physiology.

Title
Knowledge application

Tags
213125, 0, 2, 2023-08-01 14:01:42

Learning Outcome
Demonstrate a working understanding of cell adaptation to disease or trauma and the commonalities of abnormal cell division (neoplasms).

Title
Pathophysiology application to nursing and patient care

Tags
213126, 0, 3, 2023-08-01 14:01:42

Learning Outcome
Apply basic principles of inflammation as a body defense system, infection and how it affects body system responses (such as WBCs) and wound healing.

Title
Pathophysiology application to nursing and patient care

Tags
213127, 0, 4, 2023-08-01 14:01:42

Learning Outcome
Interpret basic understanding of congenital and genetic disorders, blood diseases, and cellular fluid shifts.

Title
Pathophysiology application to nursing and patient care

Tags
213128, 0, 5, 2023-08-01 14:01:42

Learning Outcome
Analyze the pathophysiological basis of common diseases noted in the following systems: respiratory, cardiovascular, endocrine, renal, digestive, and neurological.

NURS 320 - Scientific Inquiry for Evidence-Based Practice & Informatics

Course Information

Teaching Area (new)
NURS

Course Number
320

Teaching Area
NURS

Course Title
Scientific Inquiry for Evidence-Based Practice & Informatics

Course Description
3-credit, online course provides students with introductory information on scholarly nursing practice and dissemination, research evaluation and application, ethical conduct in scholarly activities, and informatics use in providing evidence-based nursing care.

Department
Nursing

When Taught
All Semesters/Terms

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Courses in Nursing Semester 2.

Learning Outcomes

Title
Informatics resources and quality of care principles

Tags
206813, 0, 2, 2023-08-01 14:04:04

Learning Outcome
Use informatics resources to identify patient safety and quality of care concerns, and propose improvements using quality improvement principles and resources.

Title
Information Management and Technology

Tags
206814, 0, 3, 2023-08-01 14:04:04

Learning Outcome
Analyze and appraise the role of the nurse informaticist by exploring how nursing informatics is shaping evidence-based practice and clinical documentation.

NURS 333 - End-of-Life Care

Course Information

Teaching Area (new)
NURS

Course Number
333

Teaching Area
NURS

Course Title
End-of-Life Care

Course Description
End-of-life (EOL) care from spiritual, physical, and psychosocial perspectives. Comparisons from various cultural/ethnic backgrounds. Complexities of EOL care including impact on families, health care system, and society. Personal perspectives about death, dying, and bereavement.

Department
Nursing

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
This course was previously cross-listed with sociology but they have created their own course and are no longer using this course. We would like it to be taught only as an elective for nursing majors.

Learning Outcomes

Title
Guiding Prinicples Of Care

Tags
203592, 1

Learning Outcome
Apply principles of effective communication to support patients, families, and interdisciplinary team members during serious illness and end-of-life care, reflecting empathy and Christ-like compassion.

Title
Models of Care for the Dying

Tags
203624, 3

Learning Outcome
Integrate pain and symptom management strategies into individualized care plans, ensuring comfort, quality of life, and dignity for patients.

Title
End of Life Preferences for Care

Tags
206815, 4

Learning Outcome
Demonstrate cultural competence in providing holistic care that respects diverse values, beliefs, and spiritual needs at the end of life.

Title
Personal Perspectives

Tags
206816, 5

Learning Outcome
Utilize evidence-based practices for ethical decision-making and advance care planning, aligning patient care with professional nursing standards and Christian values.

Title
Attitudes Toward Death

Tags
206891, 0

Learning Outcome
Promote the psychological and emotional well-being of patients and their families through grief support, bereavement care, and presence rooted in faith and service.

NURS 341 - Nursing Care of Adults with Acute and Chronic Illnesses

Course Information

Teaching Area (new)
NURS

Course Number
341

Teaching Area
NURS

Course Title
Nursing Care of Adults with Acute and Chronic Illnesses

Course Description
Theory and content in the nursing care of acutely and chronically ill adults; professional behavior; illness implications for patients and families.

Department
Nursing

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Courses in Nursing Semester 2.

Learning Outcomes

Title
Integrate the Gospel of Jesus Christ as part of caring

Tags
203601, 0, 4, 2023-08-01 14:05:22

Learning Outcome
Articulate how to effectively seek inspiration and the guidance of the Holy Ghost while learning about adults with illness and planning their care.

Title
Design appropriate professional nursing care for individuals with illness and their significant others

Learning Outcome
Correctly identify pathophysiology, diagnostic procedures, focused assessment, fundamental nursing care (nutrition, activity, hygiene, psychosocial, spiritual), priority physiological problems, monitoring of laboratory tests, other monitoring, medications, and other essential interventions for common acute and chronic illnesses.

Title
Demonstrate effective critical thinking, clinical judgment, and communication

Learning Outcome
Demonstrate ability to think critically about the material discussed in class to correctly answer NCLEX-style high-level questions on exams.

Title
Exemplify life-long learning

Learning Outcome
Use a textbook and electronic resources including UpToDate and Decision-Based-Learning to obtain evidence-based knowledge related to patient care and explain how to continue using these resources after completing the course.

NURS 342 - Clinical Practicum for Nursing Care of Adults with Acute and Chronic Illnesses

Course Information

Teaching Area (new)
NURS

Course Number
342

Teaching Area
NURS

Course Title
Clinical Practicum for Nursing Care of Adults with Acute and Chronic Illnesses

Course Description
Clinical practicum is an active learning course in which students apply nursing knowledge and skills in hospitals/clinical settings with adult patients and families and simulated learning experiences in the Nursing Learning Center.

Department
Nursing

When Taught
All Semesters/Terms

Credit Hours

Fixed/Max:
2.5

Lecture Hours

Fixed:
0

Other Prerequisites
Courses in College of Nursing Semester 2.

Note
11 clinical hours per week for 9 weeks and 8 hours in structured simulation.

Learning Outcomes

Title
The Healer's Art

Tags
203648, 0, 0, 2023-08-01 14:06:44

Learning Outcome
Integrate the values of the Gospel of Jesus Christ as part of providing nursing care to adult patients

Title
Critical Judgment

Tags
203663, 0, 1, 2023-08-01 14:06:44

Learning Outcome
Demonstrate and document effective clinical judgment and critical thinking in planning, delivering , and reflecting on nursing care to adult patients in hospital settings.

Title
Communication

Tags
203652, 0, 2, 2023-08-01 14:06:44

Learning Outcome
Demonstrate therapeutic communication with adult patients and families.

Title
Communication

Tags
213129, 0, 3, 2023-08-01 14:06:44

Learning Outcome
Demonstrate collaborative communication in health care teams.

NURS 343 - Lab/Simulation for Nursing Care of Adults with Acute and Chronic Illnesses

Course Information

Teaching Area (new)
NURS

Course Number
343

Teaching Area
NURS

Course Title
Lab/Simulation for Nursing Care of Adults with Acute and Chronic Illnesses

Course Description
Lab/simulation experience in nursing care of acutely/chronically ill adults.

Department
Nursing

When Taught
Fall; Winter.

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
0

Other Prerequisites
Courses in Nursing Semester 2.

Note
4 hours lab per week in first 2 weeks, then 2 hours lab or simulation per week for 12 weeks.

Learning Outcomes

Tags
203635, 0, 0, 2023-04-25 09:22:03

Learning Outcome
Integrate the values of the Gospel of Jesus Christ as part of caring. * Value the importance of spirituality in the nursing process. * Respect religious beliefs of the client.

Tags
203694, 0, 1, 2023-04-25 09:22:03

Learning Outcome
Demonstrate effective critical thinking and communication. * Demonstrate professional behavior when communicating with instructors, other students.

Tags
203688, 0, 2, 2023-04-25 09:22:03

Learning Outcome
Design, provide, and evaluate professional nursing care for individuals, families, and communities. * Demonstrate proficiency in the performance of given technical skills. * Articulate and understand the implications of acute and chronic illness for patients and their families. * Discusses rationale for each technical procedure/skill * Identifies the impact of the procedure on the patient * Completes the procedure in a satisfactory manner * Reports and documents procedure and patient results * Explains procedure and performs patient teaching to patient and SO

NURS 348 - Nursing Skills III

Course Information

Course Number
348

Teaching Area
NURS

Course Title
Nursing Skills III

Course Description
1-credit lab course focuses on cognitive and psychomotor intermediate nursing skills development and application with hands-on, interactive learning activities in the Nursing Learning Center.

Department
Nursing

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
1

Lab Hours

Fixed:

Learning Outcomes

Title
Nursing Skills

Tags
213130, 0, 1, 2023-08-01 14:09:44

Learning Outcome
The student will demonstrate intermediate nursing skills to provide quality, safe, patient-centered care for children and adults across the lifespan with acute and chronic illnesses in a simulated learning environment.

Title
Clinical Judgement

Learning Outcome
Students will apply clinical judgment concepts to deliver evidence-based interventions which are transferable to professional practice.

NURS 351 - Nursing Care of the Family: Women Across the Lifespan

Course Information

Teaching Area (new)
NURS

Course Number
351

Teaching Area
NURS

Course Title
Nursing Care of the Family: Women Across the Lifespan

Course Description
Content and theory in nursing care of women throughout the lifespan including pregnancy, childbirth, and post-partum care and women's health issues with a local and global health perspective.

Department
Nursing

When Taught
Fall; Winter.

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Other Prerequisites
Courses in Nursing Semester 3.

Learning Outcomes

Title
Quality of Nursing Care Delivery

Tags
206884, 0, 1, 2023-08-01 14:11:59

Learning Outcome
Demonstrate an understanding of nursing knowledge and skills necessary to provide professional, quality nursing care for diverse women, newborns, and childbearing families.

Title
Communication and Collaboration

Tags
206886, 0, 3, 2023-08-01 14:11:59

Learning Outcome
Demonstrate appropriate interpersonal communication, collaboration, and behavior in varied settings with clients, families, peers, faculty, and health care teams.

Title
Scholarship for Evidence-Based Practice

Tags
206887, 0, 4, 2023-08-01 14:11:59

Learning Outcome
Demonstrate retrieval, application and evaluation of scholarly knowledge related to practice issues in the care of women, newborns, and childbearing families.

Title
Christ-like Caring

Learning Outcome
Integrate the values of the Gospel of Jesus Christ and gain an understanding of the spiritual influences affecting care of women, newborns, and childbearing families.

NURS 352 - Clinical Practicum Nursing Care of the Family: Women across the Lifespan

Teaching Area
NURS

Course Title
Clinical Practicum Nursing Care of the Family: Women across the Lifespan

Course Description
Clinical practicum in the nursing care of childbearing families from diverse backgrounds. Health promotion, assessment, and interventions related to complicated and uncomplicated pregnancy and birth. Includes lab and simulation experiences.

Department
Nursing

When Taught
Fall; Winter.

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
0.5

Other Prerequisites
Courses in Nursing Semester 3.

Note
6-12 hours clinical per week for 7 weeks.

Learning Outcomes

Title
Quality of Nursing Care Delivery

Tags
206879, 0, 0, 2023-08-01 14:12:25

Learning Outcome
Demonstrate an understanding of nursing knowledge and skills necessary to provide professional, quality nursing care for diverse women, newborns, and childbearing families.

Title
Health Promotion of Childbearing Families

Tags
206880, 0, 1, 2023-08-01 14:12:25

Learning Outcome
Identify challenges related to nursing care of women and newborns, and advocate strategies to promote health and provide care to diverse women, newborns, and childbearing families.

Title
Communication and Collaboration

Tags
206881, 0, 2, 2023-08-01 14:12:25

Learning Outcome
Demonstrate appropriate interpersonal communication, collaboration, and behavior in varied settings with clients, families, peers, faculty, and health care teams.

Title
Scholarship for Evidence-Based Practice

Tags
206882, 0, 3, 2023-08-01 14:12:25

Learning Outcome
Demonstrate retrieval, application and evaluation of scholarly knowledge related to practice issues in the care of women, newborns and childbearing families.

Title
Nursing Assessment

Tags
206883, 0, 4, 2023-08-01 14:12:25

Learning Outcome
Perform essential skills necessary to perform assessment and management of normal antepartum, intrapartum, postpartum, and newborn patients.

NURS 361 - Nursing Care of Families: Children

Other Prerequisites
Courses in College of Nursing Semester 2.

Note
Three 12-hours clinical days and 6 hours of simulation.

Learning Outcomes

Title
Integration of Gospel Values

Tags
206820, 0, 0, 2023-08-01 11:55:16

Learning Outcome
Integrate the Gospel of Jesus Christ in providing holistic care to the pediatric population and their families.

Title
Quality of Nursing Care Delivery

Tags
206821, 0, 1, 2023-08-01 11:55:16

Learning Outcome
Demonstrate competency in basic nursing skills as well as beginning competency in assessment techniques and technology specific to children and families.

Title
Scholarship for Evidenced Based Practice

Tags
206826, 0, 2, 2023-08-01 11:55:16

Learning Outcome
Apply evidence-based nursing knowledge and critical thinking in provision of developmentally appropriate nursing care to children and families from diverse backgrounds.

Title
Communication and Collaboration

Tags
206823, 0, 3, 2023-08-01 11:55:16

Learning Outcome
Communicate and collaborate with children, families, peers, members of the health care team, and faculty to provide child-family centered care.

Title
Professionalism

Tags
206825, 0, 5, 2023-08-01 11:55:16

Learning Outcome
Demonstrate professionalism and incorporate the Healer's Art in the clinical setting.

NURS 371 - Nursing Care of the Family: Older Adults

Learning Outcomes

Title
Foundational Knowledge

Tags
214250, 0, 1, 2023-08-29 11:43:45

Learning Outcome
Analyze the multifaceted aspects of aging and their impact on geriatric care.

Title
Knowledge Application

Tags
214251, 0, 2, 2023-08-29 11:43:47

Learning Outcome
Apply the 4M's framework to develop interdisciplinary solutions for geriatric care.

Title
Knowledge Integration

Tags
214252, 0, 3, 2023-08-29 11:43:49

Learning Outcome
Evaluate the broader impact of aging on individuals and their support systems while considering ethical and legal considerations and managing care transitions.

Title
Human Dimension of Aging

Tags
214253, 0, 4, 2023-08-29 11:43:51

Learning Outcome
Compose a personal perspective on aging as an important part of Heavenly Father’s plan for His children and advocate against ageism.

Title
Christlike Caring

Tags
214254, 0, 5, 2023-08-29 11:43:54

Learning Outcome
Share a perspective on the aging of God's children, acknowledging the possibilities and challenges of the aging process across multiple dimensions.

Title
Leadership

Tags
214255, 0, 6, 2023-08-29 11:43:55

Learning Outcome
Display skills in case management, policy analysis, advocacy, and decision-making to help older patients and their families achieve their late-life goals.

NURS 372 - Clinical Practicum Chronic Disease Management Across the Lifespan

Course Information

Course Number
372

Teaching Area
NURS

Course Title
Clinical Practicum Chronic Disease Management Across the Lifespan

Course Description
In-person and simulated learning experiences on chronic disease management across the lifespan from nursing and population-based health perspectives in various settings.

Department
Nursing

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
2

Lecture Hours

Learning Outcomes

Title
Knowledge and Skills Application

Tags
214256, 0, 1, 2023-08-29 11:43:57

Learning Outcome
Apply knowledge and skills from previous and co-requisite courses to develop plans of care for individuals with chronic diseases in multiple health settings.

Title
Theory Application

Tags
214257, 0, 2, 2023-08-29 11:43:59

Learning Outcome
Evaluate applicability of human development and nursing to guide care of individuals with chronic diseases across the lifespan.

Title
Health Policy and Leadership

Tags
214258, 0, 3, 2023-08-29 11:44:00

Learning Outcome
Analyze health policies that impact the care and lived experiences of individuals with chronic diseases.

Title
Christ-like Caring

Tags
214259, 0, 4, 2023-08-29 11:44:03

Learning Outcome
Provide compassionate care emulating the "Healer's Art" to individuals with chronic diseases and their families in multiple health settings.

NURS 378 - Nursing Skills IV

Course Information

Course Number
378

Teaching Area
NURS

Course Title
Nursing Skills IV

Course Description
1-credit, lab course focuses on cognitive and psychomotor intermediate to advanced student nursing skills development and application with hands-on, interactive learning activities in the Nursing Learning Center.

Department
Nursing

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
1

Lab Hours

Fixed:
3

Learning Outcomes

Title
Nursing Skills

Tags
213132, 0, 1, 2023-08-01 14:14:48

Learning Outcome
Demonstrate advanced nursing skills to provide quality, safe, patient-centered care for nursing care of the family: Women’s issues and chronic disease management across the lifespan.

NURS 390R - Independent Study in the Practice of Nursing

Course Information

Teaching Area (new)
NURS

Course Number
390R

Teaching Area
NURS

Course Title
Independent Study in the Practice of Nursing

Course Description
Topics such as NCLEX exam preparation, SNA leadership, personal wellness, etc. that support and/or enhance the nursing program curriculum. Check section headers for specific course content.

Department
Nursing

When Taught
Contact Department

Credit Hours

Min:
0.5

Fixed/Max:
9

Other Prerequisites
Instructor's consent

Learning Outcomes

Title
SNA Leadership

Tags
203697, 6

Learning Outcome
Students will be able to fulfill the responsibilities of a Student Nurses’ Association officer and apply principles of peer leadership and student representation evidenced by: developing confidence in communication skills, applying principles of leadership through appropriate initiative and follow-through.

Title
NCLEX

Tags
203668, 0, 3

Learning Outcome
Students will assess their current readiness to successfully pass the NCLEX-RN exam the first time, then they will design a strategy including: demonstration of increased motivation to prepare for the NCLEX-RN exam; an individual plan for test preparation after graduation including ways to decrease and alleviate test anxiety; and demonstration of increased confidence for taking the NCLEX-RN exam.

Title
Testing Strategies for Nurses

Tags
203775, 0, 8

Learning Outcome
Identify the steps of Bloom's taxonomy; Evaluate test questions for level of content: Knowledge, Understanding, Application, Analysis; Successfully demonstrate five steps of question analysis; Demonstrate integrated ordered analysis and critical thinking skills into personal test-taking practice.

Title
Personal Wellness

Tags
211787, 0, 5

Learning Outcome
Students will incorporate multiple evidence-based self-care strategies to improve their spiritual, emotional, and/or physical resilience.

Title
New Student Orientation

Tags
211785, 0, 4

Learning Outcome
College of Nursing Expectations and Future Goals: Interpret and apply the College of Nursing mission, vision, and values with emphasis on "Learning the Healer's Art" to current and future course work and goals.
Communication: Describe and employ key principles of effective communication to promote civility, respect, and collaboration.
Values of Professional Nursing: Analyze the influence of nursing perspective, history and theories on your future nursing care and career goals.
Clinical Judgment: Analyze and explain Tanner's Clinical Judgment Model and the nursing process.
Personal Impact: Communicate understanding of your biases, values, and goals and their potential impact on patient care.

Title
Gerontology Nursing Research/Internship

Tags
211786, 0, 2

Learning Outcome
Students will be able to write an evidence-based paper pertaining to the nursing care of older adults. Students will identify the complex needs of older adults in their clinical setting.

Title
Employment Strategies

Tags
203776, 0, 1

Learning Outcome
Develop skills that will enhance your employment-seeking opportunities and career advancement.

Title
Stress Management

Tags
203777, 0, 7

Learning Outcome
Be able to explain and discuss wellness promotion and distress-reduction strategies
Apply these strategies in lived experiences
Grow understanding of what distress management techniques work for you
Teach someone else (friend or family member) one well-being strategy that was effective for you and share how it has been helpful. Share your experience in the final journal

NURS 399R - Academic Internship in Nursing Practice

Academic Internship in Nursing Practice

Course Description
Work experience evaluated by supervisor and posted on student's transcript.

Department
Nursing

When Taught
All Semesters/Terms

Credit Hours

Min:
1

Fixed/Max:
4

Other Prerequisites
Departmental approval.

Note
An APPROVED Internship Application is required before adding.

Learning Outcomes

Title
Application of Nursing Principles of Care

Tags
203594, 0, 0

Learning Outcome
The international student will apply nursing skills, principles, and knowledge to clinical practice.

Title
Personal Insights to Promote Effective Care

Tags
203593, 0, 1

Learning Outcome
The international student will use insights gained during the experience to effectively deliver patient and family care.

Title
Role of the Registered Nurse

Tags
203625, 0, 2

Learning Outcome
The international student will demonstrate increased knowledge and understanding of the registered nurse's role.

NURS 403 - Global and Population Health Nursing.

Course Information

Teaching Area (new)
NURS

Course Number
403

Teaching Area
NURS

Course Title
Global and Population Health Nursing.

Course Description
3-credit, blended course with in-person small group activities taught winter semesters and focused on population-based nursing care knowledge from local to global health nursing contexts.

Department
Nursing

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Courses in Nursing Semester 3.

Learning Outcomes

Title
Population Health Nursing Roles

Tags
206938, 0, 1, 2023-08-01 14:15:14

Learning Outcome
Describe the varied roles and services of nursing practice in providing healthcare to diverse and global populations to promote healthy communities.

Title
Influencing Factors on Public Health

Tags
206939, 0, 2, 2023-08-01 14:15:14

Learning Outcome
Describe and analyze how population health concepts impact healthcare delivery systems (US and globally) and government and legal implications of nursing practice on populations.

Title
Population Health Skills

Tags
206940, 0, 3, 2023-08-01 14:15:14

Learning Outcome
Demonstrate and apply an understanding of social determinants of health, health equity, cultures and religions, and environmental factors when identifying issues/concerns with developing and evaluating an evidence-based planned approach to care for diverse families, individuals, and vulnerable populations.

Title
Application to Population Care

Learning Outcome
Identify and evaluate conceptual frameworks; population health assessments and applications; social determinants of health; epidemiological health concepts; infectious disease risks, prevention and control; and health education for diverse communities and/or populations across the life span.

NURS 404 - Clinical Practicum Global and Population Health Nursing

Course Information

Teaching Area (new)
NURS

Course Number
404

Teaching Area
NURS

Course Title
Clinical Practicum Global and Population Health Nursing

Course Description
4-credit to 6-credit clinical practicum focuses on global and population-based nursing perspectives and implementation of an action plan in various local and international settings.

Department
Nursing

When Taught
Spring Term

Credit Hours

Min:
4

Fixed/Max:
6

Lecture Hours

Fixed:
0

Other Prerequisites
Courses in Nursing Semester 4.

Learning Outcomes

Title
Nursing care to diverse populations.

Learning Outcome
Identify and discuss biases related to diverse populations.

Title
Nursing care to diverse populations.

Learning Outcome
Create and implement effective strategies in nursing care of patients, families, and communities within diverse populations.

Title
Nursing care to diverse populations

Learning Outcome
Create and implement effective strategies in nursing care of patients, families, and communities within diverse populations.

Title
Social determinants of health

Learning Outcome
Articulate the impact of social determinants (political, social, cultural, and environmental issues) and health care systems on health outcomes in the United States of America and globally.

Title
Cultural reflection and growth

Learning Outcome
Students will reflect and describe how their public and global health experiences will improve their nursing care and future contributions to nursing.

NURS 449 - Ethics in Nursing and Healthcare

Course Information

Course Number
449

Teaching Area
NURS

Course Title
Ethics in Nursing and Healthcare

Course Description
Acquisition and application of ethical principles and theories from a nursing perspective in health care settings through advanced written and oral communication assignments and projects. (Fulfills 3 credit advanced writing requirement)

Department
Nursing

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Successful completion of the 7th semester College of Nursing courses.

Learning Outcomes

Title
Writing

Tags
214263, 0, 1, 2023-08-29 11:44:19

Learning Outcome
Write clearly, focus on a well-defined purpose, use APA conventions of structure, and adopt a voice, tone, and level of formality suited to the audience.

Title
Writing

Tags
214264, 0, 2, 2023-08-29 11:44:20

Learning Outcome
Demonstrate an understanding of writing in the nursing discipline as a strategy for effectively communicating with others and as a way of learning and demonstrating what one has learned.

Title
Writing

Tags
214265, 0, 3, 2023-08-29 11:44:22

Learning Outcome
Demonstrate productive writing processes, which include researching credible sources to inform ideas developing ethically sound and persuasive arguments; organizing content to enhance logical flow of ideas; revising; editing grammar, word usage, spelling, and punctuation; proofreading; seeking and using peer review; properly citing sources to avoid plagiarism; and writing successive drafts of the same paper.

Title
Oral Communication

Tags
214266, 0, 4, 2023-08-29 11:44:23

Learning Outcome
Demonstrate the ability to speak publicly and deliver effective presentations.

Title
Reflective Thinking

Tags
214267, 0, 5, 2023-08-29 11:44:25

Learning Outcome
Engage in reflective thinking to clarify personal moral and ethical values.

Title
Reflective Thinking

Tags
214268, 0, 6, 2023-08-29 11:44:27

Learning Outcome
Analyze ethical dilemmas faced by nurses in clinical practice; identify ethical principles, ethical theories, and common fallacies in thought; provide rationale for possible decisions through thinking and writing critically.

NURS 461 - Psychiatric and Mental Health Nursing

Course Information

Teaching Area (new)
NURS

Course Number
461

Teaching Area
NURS

Course Title
Psychiatric and Mental Health Nursing

Course Description
Content and theory in the practice of psychiatric mental health nursing in various settings with emphasis on pharmacology and interventions to address mental illness.

Department
Nursing

When Taught
Fall, Winter, and Spring

Credit Hours

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Other Prerequisites
Courses in Nursing Semester 4.

Learning Outcomes

Title
Psychiatric Nursing Practice

Tags
206827, 0, 0, 2023-08-01 14:21:21

Learning Outcome
Demonstrate an understanding of common psychiatric disorders across the lifespan that impact individuals and populations and best practice nursing interventions and clinical judgement, including psychotropic medication use.

Title
Communication and Collaboration Skills

Tags
206830, 0, 2, 2023-08-01 14:21:21

Learning Outcome
Explain and practice therapeutic communication skills and strategies with individuals, groups, and health care teams, while providing recovery-oriented care to clients and families.

Title
Nursing Role in the Environment

Tags
206832, 0, 3, 2023-08-01 14:21:21

Learning Outcome
Identify and analyze essential safety, health care system resources, and the nursing role in providing and managing therapeutic environments while advocating for high-quality patient care in collaboration with other health care professionals.

Title
Legal and ethical implications in mental health nursing

Tags
206857, 0, 4, 2023-08-01 14:21:21

Learning Outcome
Examine legal, healthcare policies, gospel principles, and ethical implications that impact the professional care of clients and diverse populations who struggle with mental illness.

NURS 462 - Clinical Practicum for Psychiatric and Mental Health Nursing

Course Information

Teaching Area (new)
NURS

Course Number
462

Teaching Area
NURS

Course Title
Clinical Practicum for Psychiatric and Mental Health Nursing

Course Description
Students integrate knowledge, theory, and communication skills while caring for patients in in-patient and community mental health settings and simulated learning experiences.

Department
Nursing

When Taught
Fall; Winter.

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
0

Other Prerequisites
Courses in Nursing Semester 4.

Note
4 12-hour clinical shifts per semester (48 hours); 8 hours in simulation

Learning Outcomes

Title
Communication and collaboration

Tags
203610, 0, 0, 2023-08-01 14:26:54

Learning Outcome
Demonstrate effective communication skills and strategies with individuals, groups and other healthcare professionals while providing gospel and recovery-oriented care to clients in clinical and simulation settings.

Title
Nursing knowledge application

Tags
206861, 0, 1, 2023-08-01 14:26:54

Learning Outcome
Complete a mental status exam, psychosocial assessment and develop evidence-based nursing interventions for psychiatric disorders in clinical and simulation settings.

Title
Providing quality care

Tags
206865, 0, 2, 2023-08-01 14:26:54

Learning Outcome
Demonstrate effective holistic care for those who suffer with mental illness through exemplifying nursing values, exploring your own feelings, strengths, gifts and spirituality.

NURS 471 - Nursing Care of Adults in Crisis

Course Information

Teaching Area (new)
NURS

Course Number
471

Teaching Area
NURS

Course Title
Nursing Care of Adults in Crisis

Course Description
Theory and content in the nursing interventions and care for individuals and families in crisis.

Department
Nursing

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Courses in Nursing Semester 4.

Learning Outcomes

Title
Application of Nursing Knowledge and Skills

Tags
207089, 0, 0

Learning Outcome
Demonstrate clinical judgment as the nurse notices, assesses, develops, and implements appropriate nursing interventions for acutely ill patients.

Title
Pharmaceutical Nursing Knowledge

Tags
203678, 0, 1

Learning Outcome
Identify and interpret appropriate nursing actions related to pathophysiology, pharmacodynamics, clinical data, and hemodynamics related to the acutely ill patient.

Title
End of Life Patient-Centered Care

Tags
203662, 0, 2

Learning Outcome
Examine death, dyinbg, and other end-of-life issues that impact acutely ill patients and their families.

NURS 472 - Clinical Practicum for Adults in Crisis

Course Information

Teaching Area (new)
NURS

Course Number
472

Teaching Area
NURS

Course Title
Clinical Practicum for Adults in Crisis

Course Description
Clinical practicum in the nursing interventions and care for individuals and families in crisis.

Department
Nursing

When Taught
Fall and Winter

Credit Hours

Min:
2.5

Fixed/Max:
2.5

Lecture Hours

Fixed:
0

Other Prerequisites
Courses in Nursing Semester 4.

Note
13-14 hours clinical per week for 8 weeks (includes pre-assessment).

Learning Outcomes

Title
Application of Nursing Knowledge and Skills

Tags
203700, 0, 0

Learning Outcome
Demonstrate clinical judgment and skills as the student nurses notice, assess, develop, and implement appropriate nursing interventions related to the acutely ill patient in the clinical setting.

Title
Pharmaceutical Nursing Knowledge

Tags
207088, 0, 1

Learning Outcome
Identify, interpret, and evaluate appropriate nursing actions in the clinical setting related to pathophysiology, pharmacodynamics, clinical data, and hemodynamics related to the acutely ill patient.

Title
End of Life Patient Centered Care

Tags
207087, 0, 2

Learning Outcome
Examine and support death, dying, and other end-of-life issues in the clinical setting, that impact acutely ill patients and their families.

NURS 478 - Nursing Skills V

Course Information

Course Number
478

Teaching Area
NURS

Course Title
Nursing Skills V

Course Description
0.5 lab course focuses on cognitive and psychomotor advanced student nursing skills development and application with hands-on, interactive learning activities and pass-offs in the Nursing Learning Center.

Department
Nursing

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
0.5

Lab Hours

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- NURS 351 - Nursing Care of the Family: Women Across the Lifespan
  AND NURS 361 - Nursing Care of Families: Children

Other Prerequisites
Courses in Nursing Semester 5.

Learning Outcomes

Title
Leadership and Collaboration

Tags
214269, 0, 1, 2023-08-29 11:44:45

Learning Outcome
Demonstrate beginning proficiency in collaborative leadership with an interdisciplinary team.

Title
Health Policy

Tags
214270, 0, 2, 2023-08-29 11:44:47

Learning Outcome
Recognize nursing's contributions as leaders in policy issues and advocate for policies that promote health, prevent harm, and promote the best interest of the individual, community, and profession.

Title
Health Systems

Tags
214271, 0, 3, 2023-08-29 11:44:49

Learning Outcome
Initiate and contribute to evidence-based, patient-centered initiatives to improve quality and safety in health systems.

Tags
214272, 0, 4, 2023-08-29 11:44:51

Learning Outcome
Envision emerging health care delivery models in the context of a learning health system.

Title
Christlike Caring

Tags
214273, 0, 5, 2023-08-29 11:45:09

Learning Outcome
Apply the Healer's art to improve individuals, teams, and systems of health care.

NURS 492 - Clinical Practicum for Capstone Nursing

Course Information

Teaching Area (new)
NURS

Course Number
492

Teaching Area
NURS

Course Title
Clinical Practicum for Capstone Nursing

Course Description
Clinical practicum focusing on planning, delivering, and managing patient care in complex environments. Leadership components incorporated into clinical experiences and practices.

Department
Nursing

When Taught
Fall and Winter

Credit Hours

Min:
5

Fixed/Max:
5

Lecture Hours

Fixed:
0

Other Prerequisites
Courses in Nursing Semester 5.

Note
Requires 210 hours per semester (150 clinical hours; 12 bridging hours; 24 simulation hours; and 24 mentoring hours.)).

Learning Outcomes

Title
Population Health

Learning Outcome
Evaluate health promotion and disease prevention for a specific patient population. Understand and apply social determinants of health, health equity, and the increasing complexity of healthcare to advocate and optimize care for all patients.

Title
Quality of Nursing Care Delivery

Learning Outcome
Exhibit clinical judgment, knowledge, and skills in leadership, quality improvement, and patient safety necessary to provide high-quality, patient-centered, and population-based health care.

Title
Professionalism

Learning Outcome
Describe and demonstrate professionalism in nursing using the values of accountability, collaboration; compassion, diversity, equity, belonging; innovation, inspiration, integrity, learning; and service.

Title
Interprofessional Communication and Collaboration

Learning Outcome
Demonstrate effective communication principles and collaboration among interdisciplinary healthcare professionals and community partners to foster team respect and trust and deliver high-quality, patient-centered, and population-based care.

Title
Information Management and Technology

Learning Outcome
Demonstrate clinical judgment, knowledge, and skills in data management and patient care technology to guide quality patient-centered care.

Title
Nursing Regulatory Environment

Learning Outcome
Evaluate how nursing policies and regulatory issues influence nursing care within a complex healthcare system and are essential for social determinants of health and professional nursing practice.

Title
Identify and explain correlations between clinical practice and evidence-based practice with the Healer’s Art and Gospel principles

Learning Outcome
Integrate the principles of the Gospel of Jesus Christ as part of clinical judgment; caring holistically for diverse individuals, families, communities, and populations; personal health and well-being; and life-long learning.

Title
Communicate professionally in original written and oral forms

Learning Outcome
Evaluate and integrate information from clinical case studies using current evidence-based practice through an oral presentation.

NURS 505 - Interprofessional Education for the Health Professions

Course Information

Teaching Area (new)
NURS

Course Number
505

Teaching Area
NURS

Course Title
Interprofessional Education for the Health Professions

Course Description
The acquisition of knowledge of interprofessional education (IPE) and teamwork in the health professions. IPE will be explored from the perspectives of roles and responsibilities for collaborative practice. Values and ethics for interprofessional collaboration. Issues and complexities surrounding patient safety, patient advocacy, teams, teamwork and communication particularly how to deal with conflict. Quality Improvement strategies, patient-centered care, evidenced-based collaborative practice and leadership impact on the individual, family, health care system, and society. Course participants will individually determine their personal perspectives about teamwork and interprofessional education.

Learning Outcomes

Title
Advancement of Knowledge

Tags
210147, 0, 1

Learning Outcome
Student will demonstrate an advanced level of knowledge in chosen specialty area.

Title
Foundational Knowledge

Tags
210149, 0, 3

Learning Outcome
Generate a knowledge base of interprofessional education (IPE) and teamwork and issues associated with health professional teams.

Title
Application

Tags
210150, 0, 4

Learning Outcome
Use knowledge concepts to solve IPE and team issues recognizing that interprofessional care is essential for quality health care.

Title
Integration

Tags
210151, 0, 5

Learning Outcome
Compare and connect IPE and teamwork impact on team members, the health care system, as well as the individual, family and community.

Title
Human Dimension

Tags
210152, 0, 6

Learning Outcome
Compose a personal perspective toward interprofessional education and teamwork

Title
Caring

Tags
210153, 0, 7

Learning Outcome
Create a perspective on IPE and teamwork that validates the individual importance of God's children that recognizes the potential of each team member and acknowledges that IPE perspectives include the whole (biopsychosocial and spiritual) person.

Title
Learning how to learn

Tags
210154, 0, 8

Learning Outcome
Reflect on how personal development is connected to professional development as a life-long learner.

Title
Evaluation of current information

Tags
210148, 0, 2

Learning Outcome
Students will analyze and evaluate current research, literature, best practices, and guidelines related to special topic area.

NURS 555 - Pharmacology in Advanced Practice

Course Information

Teaching Area (new)
NURS

Course Number
555

Teaching Area
NURS

Course Title
Pharmacology in Advanced Practice

Course Description
Principles of pharmacology, prescribing and managing drug therapy for advanced practice nurses.

Department
Nursing

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Learning Outcomes

Title
Prescribing Medications

Tags
203715, 0, 5

Learning Outcome
Correctly prescribes medications for various disease states considering drug-to-drug interactions.

Title
Pathophysiology of Disease States

Tags
203707, 0, 1

Learning Outcome
Describes from a therapeutic standpoint the root causes of various disease states and the effect of pharmacological treatment.

Title
Drug Classification Effects

Tags
203708, 0, 2

Learning Outcome
Explains how various drug classes alter and treat the root causes or symptoms of diseases.

Title
Drug Classifications

Tags
203713, 0, 3

Learning Outcome
Identifies ambulatory care drugs in each drug class including their standard doses and directions.

Title
Appropriate Drug Therapy

Tags
203714, 0, 4

Learning Outcome
Selects an appropriate therapy based on guidelines and cost-effectiveness.

Title
Decision-Making Skills

Tags
212908, 0, 6

Learning Outcome
Applies appropriate decision-making skills in initiating, monitoring, and modifying pharmacological treatment plans.

Title
Pharmacodynamics/Pharmacokinetics

Tags
212909, 0, 7

Learning Outcome
Demonstrates an understanding of the relationship between patients' physiological/pathological variables and pharmacodynamics/ pharmacokinetics.

Title
Pharmacotherapeutics

Tags
212910, 0, 8

Learning Outcome
Applies individualized, evidence-based knowledge of pharmacotherapeutics to patients based on age, gender, race, culture, pathological condition, and individual needs.

Learning Outcomes

Tags
214274, 0, 1, 2023-08-29 11:45:21

Learning Outcome
Students will identify an area where increased skills/knowledge are needed.

Tags
214275, 0, 2, 2023-08-29 11:45:23

Learning Outcome
Students will develop a plan to increase the skills/knowledge.

Tags
214276, 0, 3, 2023-08-29 11:45:24

Learning Outcome
Students will implement a plan to demonstrate increased desired skills/ knowledge.

NURS 599R - Graduate Nursing Internship

Course Information

Teaching Area (new)
NURS

Course Number
599R

Teaching Area
NURS

Course Title
Graduate Nursing Internship

Course Description
Internship experiences provide international students opportunities to reinforce principles learned during their graduate coursework and practice skills acquired during undergraduate education. Internship students are primarily responsible for how much they learn. Students will engage in the work of a registered nursing in Utah and reflect on the differences and similarities between practice as a registered nurse and their future practice as a family nurse practitioner.

Learning Outcomes

Title
Communication Skills

Tags
197685, 1

Learning Outcome
In both written and spoken target language, communicate with reasonable accuracy about real-world activities with well-educated members of the target-culture accustomed to dealing with non-native speakers.

Title
Comprehension

Tags
197686, 2

Learning Outcome
Understand every-day written and verbal instructions. Comprehend concrete details and global meaning of intermediate-level written and spoken passages related to familiar topics that native speakers encounter routinely in their daily life.

Title
Cultural Knowledge

Tags
197687, 3

Learning Outcome
Discuss in the target language cultural practices related to every-day life in the target culture. Acquire basic background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.).

Title

FBI fingerprint and background clearance.

Learning Outcomes

Title
Outcome 1

Tags
178845, 1

Learning Outcome
Identify the purposes and objectives of physical education in the elementary school curriculum as evidenced by written examinations.

Title
Outcome 2

Tags
178847, 3

Learning Outcome
Discuss the major ways to establish and maintain a teaching environment which is conducive to learning. Major categories should include instructional cues, feedback, teaching styles, and skill presentation as assessed by written examination.

Title
Outcome 3

Tags
179077, 2

Learning Outcome
Describe the four basic parts of a lesson plan and the requisite planning required for effective presentation of the plan as evidenced by video analysis of actual teaching PE lessons in the public schools.

Title
Outcome 4

Tags
179078, 5

Learning Outcome
Effectively teach, manage, and discipline students in a physical education class as evidenced by successfully teaching in th epublic schools assessed by video analysis and final video project.

Title
Outcome 5

Tags
179079, 6

Learning Outcome
Analyze your teaching using digital video by identifying instances of teaching which show your teaching abilities based on the desired competencies and explain how you met the competency as evidenced by video analysis final project.

Title
Outcome 6

Tags
179080, 7

Learning Outcome
Understand basic principles of fitness, physical activity, and motivation and how these principles relate to children's growth and development in these areas as assessed by written examination.

Title
Outcome 7

Tags
179081, 8

Learning Outcome
Understand motivation in physical education as assessed by written examination.

Title
Outcome 8

Tags
179082, 9

Learning Outcome
Understand important liability principles applicable to a physical education class as assessed by written examination.

Title
Outcome 9

Tags
179083, 10

Learning Outcome
Demonstrate ability to perform specific desired competencies as evidenced by the final video project.

PETE 227 - Fitness for Life

Course Information

Teaching Area (new)
PETE

Course Number
227

Teaching Area
PETE

Course Title
Fitness for Life

Course Description
Fitness wellness knowledge and skills. Application of these principles to promote a lifelong healthy lifestyle.\n

Department
Teacher Education

When Taught
Fall, Winter, Spring

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Learning Outcomes

Title
Functional Fitness

Tags
208215, 0, 1

Learning Outcome
Understand functional fitness principles and assess personal functional fitness levels

Title
Fitness Components

Tags
208216, 0, 2

Learning Outcome
Identify the five fitness components(cardiorespiratory fitness, flexibility, muscular strength and endurance, and body composition/weight management) and their health-related benefits

Title
Assess Personal Fitness Status

Tags
208217, 0, 3

Learning Outcome
For each fitness component, assess current personal status, and write an individualized program

Title
Environmental Factors that Affect Exercise

Tags
208218, 0, 4

Learning Outcome
Identify environmental factors that affect exercise

Title
Professional Behavior

Tags
208219, 0, 5

Learning Outcome
Students will conduct themselves in a professional manner in accordance with Utah State Board Rule R277-515

PETE 228 - Team Sport Fundamentals and Fitness for Life

Course Information

Teaching Area (new)
PETE

Course Number
228

Teaching Area
PETE

Course Title
Team Sport Fundamentals and Fitness for Life

Course Description
Skills, content, and pedagogical knowledge in team sports: soccer, basketball, volleyball, and football. Also covers Fitness for Life.

Department
Teacher Education

When Taught
Fall

Credit Hours

Min:
2

Fixed/Max:
2

Learning Outcomes

Title
Team Sport Fundamentals

Tags
178949, 1

Learning Outcome

Students will demonstrate knowledge of sport/activity specific skills, drills, rules and strategies and their applications to secondary PE settings as demonstrated on an exam.
Students will know a variety of sport/activity specific drills and activities that can be used in future teaching through participation in class.
Students will demonstrate how to teach a sport/activity specific skill, drill, or strategy through a group teaching assignment.
Students will demonstrate skill ability in the basic sport/activity skills through a skill assessment.
Students will demonstrate understanding of the five fitness components and apply them in individual life: cardiovascular endurance, flexibility, muscular strength and endurance, and body composition.

PETE 230 - K-12 Physical Activities Content and Skills 1

Course Information

Teaching Area (new)
PETE

Course Number
230

Teaching Area
PETE

Course Title
K-12 Physical Activities Content and Skills 1

Course Description
Skills, content, and pedagogical knowledge in lifetime activities: jogging, soccer, softball, tennis. Also covers legal issues in PE.

Department
Teacher Education

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
4

Lab Hours

Fixed:

Other Prerequisites
Admittance into PETE program.

Learning Outcomes

Title
Drills and Lead-up Games

Tags
178758, 3

Learning Outcome
Learn basic drills and lead-up games for each sport

Title
Technique of Each Sport

Tags
178759, 1

Learning Outcome
Demonstrate proper technique for the major skills of each sport

Title
Skills of Each Sport

Tags
178760, 1

Learning Outcome
Develop basic skills for each sport/activity

Title
Rules of Each Sport

Tags
178764, 2

Learning Outcome
Learn the basic rules of each sport/activity

Title
Ensuring Safety

Tags
178772, 4

Learning Outcome
Understand how to ensure safety in the physical education program, focusing on prevention

Title
Fitness for Life

Tags
179085, 5

Learning Outcome
Demonstrate an understanding of the components of fitness for life.

PETE 231 - K-12 Physical Activities Content and Skills 2

Course Information

Teaching Area (new)
PETE

Course Number
231

Teaching Area
PETE

Learning Outcomes

Title
Skills Assessment

Tags
178735, 3

Learning Outcome
Demonstrate skill ability in the basic sport/activity skills through a skill assessment.

Title
Sport Specific Drills

Tags
178736, 1

Learning Outcome
The students will know a variety of sport/activity specific drills and activities that can be used in future teaching through participation in class.

Title
Application to Secondary PE

Tags
178780, 1

Learning Outcome
The students will demonstrate knowledge of sport/activity specific skills, drills, rules and strategies and their applications to Secondary PE settings as demonstrated on an exam.

Title
Group Teaching Assignment

Tags
178812, 2

Learning Outcome
The students wil demonstrate how to teach a sport/activity specific skill, drill, or strategy through a group teaching assignment.

PETE 232 - Physical Education Pedagogy

Course Information

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PETE 230 - K-12 Physical Activities Content and Skills 1

Other Prerequisites
Physical Education/Coaching minor status.

Learning Outcomes

Title
professionalism

Tags
178713, 5

Learning Outcome
Learn how to be an effective observer and evaluator of your peer by completing a peer evaluation form for each lesson taught.

Title
professionalism

Tags
178731, 4

Learning Outcome
Analyze and evaluate your teaching performance by watching the video of each of your teaching performance and completing a self-evaluation form setting goals and strategies to be implemented in the next lesson.

Title
instructional strategies

Tags
178740, 1

Learning Outcome
Understand current instructional methods and the theories upon which they are based.

Title
content knowledge

Tags
178748, 0

Learning Outcome
Acquire the basic knowledge and skills necessary to effectively help secondary students become physically educated.

Title
learning environment

Tags
178761, 3

Learning Outcome
Learn the tools to effectively manage and instruct a physical education classroom.

Title
planning

Tags
178767, 2

Learning Outcome
Develop and demonstrate the ability to teach using a variety of teaching styles and methods effectively in the physical education setting.

PETE 274 - Fundamental Skills and Teaching Methods for Elementary Physical Education

Course Information

Teaching Area (new)
PETE

Course Number
274

Teaching Area
PETE

Course Title
Fundamental Skills and Teaching Methods for Elementary Physical Education

Course Description
Identifying and demonstrating fundamental skills; identifying immature and mature movement patterns; selecting developmentally appropriate activities; appropriate management techniques.

Department
Teacher Education

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:

Other Prerequisites
Concurrent enrollment in PETE 230; FBI fingerprint and background clearance.

Note
For PETE majors only.

Learning Outcomes

Title
National Standard

Tags
178727, 1

Learning Outcome
Demonstrate an understanding of the National Standards for Elementary School Physical Education

Title
Classroom Management

Tags
178729, 1

Learning Outcome
Learn the tools to effectively manage and instruct a classroom

Title
Lessons Management

Tags
178765, 2

Learning Outcome
Learn, select and implement in your lessons management and instruction strategies based on developmental levels, and safety issues.

Title
Apply Activities from Diverse Perspectives

Tags
178778, 3

Learning Outcome
Apply activities and techniques that encourages learners to see, question, and interpret physical activity from diverse perspectives

PETE 276R - Exploration of Teaching

Course Information

Teaching Area (new)
PETE

Course Number
276R

Teaching Area
PETE

Course Title
Exploration of Teaching

Course Description
Field-based initial teaching experience directed at helping prospective teachers experience demands and opportunities associated with teaching secondary students.

Department
Teacher Education

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
2

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PETE 230 - K-12 Physical Activities Content and Skills 1 **AND** PETE 274 - Fundamental Skills and Teaching Methods for Elementary Physical Education

Other Prerequisites
FBI fingerprint and background clearance

Learning Outcomes

Title
National Standards

Tags
178861, 1

Learning Outcome
Demonstrate an understanding of the National Standards in relationship to junior high school students as evidenced through the TWS assignment.

Title
Professionalism

Tags
178862, 1

Learning Outcome
Demonstrate attitudes and behaviors that exhibit professionalism. Students will demonstrate competence as evidences by their attendance in class, appropriate dress, lesson plan preparation, and the group TWS assignment.

Title
Assessment Strategies

Tags
178863, 2

Learning Outcome
Students will demonstrate traditional and authentic assessment strategies by applying them to an assigned unit of instruction, creating objectives and designing assessments to meet those objectives in all three learning domains completing two sections of the Teacher Work Sample (TWS).

Title
Lesson Planning

Tags
178864, 3

Learning Outcome
Write developmentally appropriate lesson plans for junior high school students using the known characteristics of junior high students. Students will demonstrate competence as evidenced by completed lesson plans required as a part of the middle school teaching practicum experience.

Title
Trends in Physical Education

Tags
178865, 4

Learning Outcome
Students will demonstrate the ability to identify the current trends in physical education assessment and grading strategies as evidenced through written reaction papers, and quizzes.

Title
Management Skills

Tags
178866, 5

Learning Outcome
Model appropriate instruction and management skills when teaching junior high students. Students will demonstrate competence through completion of the desired competency viewing assignment, and the final desired competency project from their middle school teaching practicum experience.

PETE 300 - Advocacy for Physical Education

Course Information

Teaching Area (new)
PETE

Course Number
300

Teaching Area
PETE

Course Title
Advocacy for Physical Education

Course Description
Historical and sociological cornerstones of physical education.

Department
Teacher Education

When Taught
Fall

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Other Prerequisites
Admittance into PETE program

Learning Outcomes

Title
Past, Present and Future

Tags
178851, 1

Learning Outcome
Use the knowledge and experience of the past to understand the programs of today and apply it toward building programs of the future. Students will demonstrate competence as evidenced by the advocacy mid-term exam.

Title
Written and Verbal Communication

Tags
178853, 1

Learning Outcome
Be able to interpret and communicate knowledge and experience in both written and verbal forms. Students will demonstrate competence as evidences by the professionalism reaction papers, advocacy exam, advocacy media campaign, physical education history presentation, and the final teaching philosophy paper

Title
Effective Advocacy

Tags
178855, 2

Learning Outcome
Demonstrate an understanding of the principles of effective advocacy in the K-12 school teaching setting. Students will demonstrate competence as evidences by the professionalism reaction papers, advocacy mid-term exam, and the media campaign assignment.

Title
History of Physical Education

Tags
178856, 3

Learning Outcome
Demonstrate an understanding of the history of physical education and its impact on the future. Students will demonstrate competence of this on the physical education history quiz and group presentation.

Title
Professionalism

Tags
178857, 4

Learning Outcome
Be examples of Christian living by being kind and attentive during class discussions, classmates' presentations, and looking for opportunities to serve one another. Students will demonstrate competence through the professionalism assignments, group media campaign assignment, and the physical education history group presentation.

PETE 301 - K-12 Healthy and Active Lifestyle Management

Course Information

Teaching Area (new)
PETE

Course Number
301

Teaching Area
PETE

Course Title
K-12 Healthy and Active Lifestyle Management

Course Description
Understanding the content and pedagogical knowledge required to manage a healthy and active lifestyle; how to impart this knowledge to public school students.

Department
Teacher Education

When Taught
Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Other Prerequisites
Admittance into PETE program.

Learning Outcomes

Title
content knowledge

Tags
178833, 0

Learning Outcome
Learn and apply lifestyle (nutrition/weight control and physical activity) management skills in their personal lives as assessed via LoseIt online logging program.

Title
curriculum knowledge

Tags
178834, 1

Learning Outcome
Demonstrate understanding of current curricular trends specific to healthy lifestyle choices such as the health club model as assessed via written examinations.

Title
learning environments

Tags
178835, 2

Learning Outcome
Demonstrate understanding and ability to design, implement and manage a healthy and active school environment program as evidenced by completing a group project and presentation.

Title
Pedagogy

Tags
178836, 4

Learning Outcome
Demonstrate understanding and application of concepts specific to healthy and active lifestyle management and their accompanying pedagogical strategies as evidenced by micro/peer teaching assignment.

PETE 302 - Advocacy for Physical Education and Healthy and Active Lifestyles

Course Information

Course Number
302

Teaching Area
PETE

Course Title
Advocacy for Physical Education and Healthy and Active Lifestyles

Course Description
This course provides historical context along with a researched based framework in which educators develop the skills necessary to be effective advocates for physical education and healthy and active lifestyles.

Learning Outcomes

Title
Content Knowledge

Learning Outcome
Demonstrate an understanding of the history of physical education and its impact on the future through class quizzes.

Title
Instructional Planning

Learning Outcome
Demonstrate an understanding of the principles of effective advocacy in the K-12 school teaching setting through an advocacy group project.

Title
Learning Environments

Learning Outcome
Demonstrate an understanding and ability to design, implement, and manage a healthy and active school environment program as evidenced by completing a group project and presentation.

Title
Instructional Strategies

Learning Outcome
Demonstrate understanding and application of concepts specific to healthy and active lifestyle management and their accompanying K-12 instructional strategies as evidenced by micro/peer teaching assignment.

Title
Content Knowledge

Learning Outcome
Demonstrate an understanding of current curricular trends specific to healthy lifestyle choices via written research reaction papers.

Title
Professional and Ethical Behavior

Learning Outcome
Be examples of Christian living by being kind and attentive during class discussions, classmates' presentations, making significant contributions to group projects, and looking for opportunities to serve one another.

2

Other Prerequisites
Appropriate skills and teaching techniques class or equivalent in the sport in which the student will do their coaching internship

Learning Outcomes

Title
Risk Management

Tags
178730, 1

Learning Outcome
Understand procedures, guidelines, and duties of the coach as they relate to risk management.

Title
Rules and Strategies

Tags
178749, 3

Learning Outcome
Demonstrate knowledge of the rules and strategies of your selected sport.

Title
Offense, Defense, etc.

Tags
178754, 1

Learning Outcome
Gain an understanding of offense, defense, special situations, and philosophy.

Title
Discuss with Other Coaches

Tags
178774, 2

Learning Outcome
Understand the importance of discussing the sport, how it should be taught, and safety procedures with other coaches.

Course Title
Scientific Foundations for Physical Education Teachers

Course Description
This course provides a scientific foundation in the areas of motor learning and physiology of activity for physical education teaching students. Application of these foundational principles will be made for a K-12 physical education teaching and coaching environment.

Department
Teacher Education

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Learning Outcomes

Title
Content Knowledge

Learning Outcome
Explain and apply foundational principles of exercise physiology, including how body systems respond to exercise and adapt to training.

Title
Learner Development

Learning Outcome
Analyze and design age-appropriate exercise and conditioning programs that develop key fitness components in safe and effective ways.

Title
Skill and Fitness Based Competence

Learning Outcome
Explain and apply motor learning principles, including stages of learning, practice structures, and feedback strategies.

Title
Learning Differences

Learning Outcome
Adapt instruction to diverse learners and contexts, using scientific knowledge to promote skill development, motivation, and lifelong participation in physical activity.

Title
Instructional Planning

Learning Outcome
Integrate exercise physiology and motor learning concepts into practical teaching and coaching scenarios to prepare for professional roles in schools and sport programs.

Title
Professional and Ethical Behavior

Learning Outcome
Be examples of Christian living by being kind and attentive during class discussions, classmates' presentations, making significant contributions to group projects, and looking for opportunities to serve one another.

Note
For PETE majors only.

Learning Outcomes

Title
Unit Plan

Tags
178738, 5

Learning Outcome
The students will demonstrate competency in instructional design principles by completing a unit plan of instruction and passing the assignment.

Title
Tasks for Running Program

Tags
178815, 1

Learning Outcome
The students will understand the tasks associated with the effective running of a physical education program by completing a Task Summary sheet at their assigned school.

Title
Design lesson plans

Tags
178816, 6

Learning Outcome
Design effective lesson plans that include adaptations to accommodate all students' needs.

Title
Self-evaluation of teaching

Tags
178817, 8

Learning Outcome
Analyze their teaching by completing a self-evaluation form after each teaching experience, completing desired competencies and transcriptions of their teaching instances by using StudioCode software, and a final reflective paper on their teaching.

Title
Peer evaluator

Tags
178818, 9

Learning Outcome
Be a useful observer and evaluator on their teaching team by completing peer evaluation forms.

Title
Tournaments

Tags
178819, 2

Learning Outcome
The students will understand types of tournaments and when to use them as evidenced by passing the tournament quiz.

Title
Literacy in Physical Education

Tags
178820, 10

Learning Outcome
Understand how to integrate reading skills into the physical education curriculum by passing the reading assignment.

Title
Management and Instructional Strategies

Tags
178821, 7

Learning Outcome
The students will incorporate effective management and instructional strategies when teaching by obtaining an average rating above "1."

Title
Professional and Ethical Behavior

Tags
179097, 11

Learning Outcome
Students will conduct themselves in a professional manner in accordance with Utah State Board Rule R277-515

Learning Outcomes

Title
Philosophy of Coaching

Tags
178822, 1

Learning Outcome
Craft a Personal Coaching Philosophy Relating to Motivation, Organization, Discipline, and Ethics. Measured by: Final Project and WMI Activity

Title
Professionalism

Tags
178823, 2

Learning Outcome
Understand Your "Why" as a Leader, Mentor, and Coach, and the Impact on Athletes' Lives. Measured by: Weekly Journal Entries and Reflection 2 ("InSideOut Coaching")

Title
Literate in the Content

Tags
178824, 6

Learning Outcome
1. Develop Understanding of the Roles of Sport Across Different Levels and Age Groups. Measured by: Athlete/Coach Interviews and in-class panel discussions 2. Engage in Dialogue on Current Coaching Issues. Measured by: Class Participation and Weekly Journal Discussions

Title
Developing Professional Relationships

Tags
178826, 10

Learning Outcome
Identify Key Gospel Principles for Effective Mentorship and Leadership. Measured by: Reflection 1 (Christlike Teaching and Leadership Principles) and InSideOut Coaching Quizzes

PETE 461 - Adapted and Multicultural Physical Education for Teaching Majors

Course Information

Teaching Area (new)
PETE

Course Number
461

Teaching Area
PETE

Course Title
Adapted and Multicultural Physical Education for Teaching Majors

Course Description
Legal mandates, assessing and identifying special needs students, multicultural issues, and management and instructional techniques.

Department
Teacher Education

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
1

Other Prerequisites
FBI fingerprint and background clearance.

Note
For questions related to fingerprint clearance, contact the Education Advisement Center (350 MCKB, 801-422-3426).

Learning Outcomes

Title
Meet needs

Tags
178734, 1

Learning Outcome
*Use appropriate strategies, services, and resources to meet special and diverse learning needs.

Title
Multicultural Integration

Tags
178742, 7

Learning Outcome
Learn how to work and attend to the needs of multicultural students integrated in physical education

Title
Student Integration

Tags
178744, 5

Learning Outcome
Know how to teach students with disabilities integrated in regular physical education programs.

Title
Physical Applications

Tags
178750, 3

Learning Outcome
Know the principles that address the physiological and biomechanical applications encountered when working with diverse populations.

Title
IEP

Tags
178753, 6

Learning Outcome
Learn how to provide consultation and staff development activities related to students with disabilities and their IEP.

Title
Instruction

Tags
178762, 0

Learning Outcome
*Identify, select, and implement appropriate instruction that is sensitive to the strength/weaknesses, multiple needs, learning style, and experiences of diverse learners.

Title
Assessment

Tags
178791, 4

Learning Outcome
Know how to assess and evaluate students with disabilities in order to make appropriate decisions about special services and program components.

Title
Learning Environment

Tags
178793, 2

Learning Outcome
*Create a learning environment which respects and incorporates learners’ personal, family, cultural, and community experiences

PETE 476R - Student Teaching - Physical Education

Course Information

Teaching Area (new)
PETE

Course Number
476R

Teaching Area
PETE

Course Title
Student Teaching - Physical Education

Course Description
Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

Department
Teacher Education

When Taught
Fall and Winter

Credit Hours

Min:
12

Fixed/Max:
12

Other Prerequisites
Completion of all course work or departmental approval; requires a total GPA of 3.0; at least a C in PETE 377; FBI fingerprint and background clearance.

Learning Outcomes

Title
Employment Preparation

Tags
178873, 5

Learning Outcome
Students will demonstrate competence in professional job preparation skills as evidenced by their resume, employment portfolio, and mock interview performance.

Title
Mangagement and Instruction

Tags
178869, 0, 1

Learning Outcome
Student teachers will demonstrate competency in management and instruction as evidenced by their university supervisor and mentor teacher PAES evaluations.

Title
National Standards

Tags
178870, 0, 2

Learning Outcome
Student teachers will demonstrate an understanding of the National Standards as evidenced through their employment portfolio and the RTWS.

Title
Lesson Planning

Tags
178871, 0, 3

Learning Outcome
Student teachers will write developmentally appropriate lesson plans using the known characteristics of K-12 high students. Students will demonstrate competence as evidenced by completed lesson plans for university supervisor observations, employment portfolio, and the RTWS.

Title
Reflective Practice

Tags
178872, 0, 4

Learning Outcome
Student teachers will demonstrate reflective practice in making necessary adaptions for student learning as evidenced by their final video desired competency project, RTWS, and the university supervisor and mentor teacher PAES evaluations.

Title
Professionalism

Tags
178874, 0, 6

Learning Outcome
Student teachers will demonstrate attitudes and behaviors that exhibit professionalism as evidenced by their attendance at student teaching seminars, school PLC's and/or department collaboration meetings, and the university and mentor teacher PAES evaluations.

Teacher Education

When Taught
Fall

Credit Hours

Min:
12

Fixed/Max:
12

Other Prerequisites
Prior application; requires a total GPA of 3.00, at least a C grade in all major and minor courses; FBI fingerprint background clearance.

Note
An APPROVED Internship Application is required before adding.

Learning Outcomes

Title
Mangagement and Instruction

Tags
208220, 0, 1

Learning Outcome
Student teachers will demonstrate competency in management and instruction as evidenced by their university supervisor and mentor teacher PAES evaluations.

Title
National Standards

Tags
208221, 0, 2

Learning Outcome
Student teachers will demonstrate an understanding of the National Standards as evidenced through their employment portfolio and the RTWS.

Title
Lesson Planning

Tags
208222, 0, 3

Learning Outcome
Student teachers will write developmentally appropriate lesson plans using the known characteristics of K-12 high students. Students will demonstrate competence as evidenced by completed lesson plans for university supervisor observations, employment portfolio, and the RTWS.

Title
Reflective Practice

Tags
208223, 0, 4

Learning Outcome
Student teachers will demonstrate reflective practice in making necessary adaptions for student learning as evidenced by their final video desired competency project, RTWS, and the university supervisor and mentor teacher PAES evaluations.

Title
Employment Preparation

Tags
208224, 0, 5

Learning Outcome
Students will demonstrate competence in professional job preparation skills as evidenced by their resume, employment portfolio, and mock interview performance.

Title
Professionalism

Tags
208225, 0, 6

Learning Outcome
Student teachers will demonstrate attitudes and behaviors that exhibit professionalism as evidenced by their attendance at student teaching seminars, school PLC's and/or department collaboration meetings, and the university and mentor teacher PAES evaluations.

PHIL 120 - History of Philosophy - Ancient and Medieval

Course Information

Course Number
120

Teaching Area
PHIL

Course Title
History of Philosophy - Ancient and Medieval

Course Description
The history of philosophy from Greek antiquity to the Renaissance; exploring the nature of reality, knowledge, and human flourishing through the perspective of key figures, movements, and texts.

Department
Philosophy

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- PHIL 201 - History of Philosophy 1
  AND PHIL 202 - History of Philosophy 2
  AND PHIL 205 - Introduction to Logic and Critical Thinking

OR

Prerequisites

Complete ALL of the following Courses:

- PHIL 201 - History of Philosophy 1
  AND PHIL 140 - History of Philosophy, 1600 to present
  AND PHIL 205 - Introduction to Logic and Critical Thinking

OR

Prerequisites

Complete ALL of the following Courses:

- PHIL 120 - History of Philosophy - Ancient and Medieval
  AND PHIL 202 - History of Philosophy 2
  AND PHIL 205 - Introduction to Logic and Critical Thinking

OR

Prerequisites

Complete ALL of the following Courses:

- PHIL 120 - History of Philosophy - Ancient and Medieval
  AND PHIL 140 - History of Philosophy, 1600 to present
  AND PHIL 205 - Introduction to Logic and Critical Thinking

Note

Fulfills GE Advanced Written and Oral Communications requirement. No course challenges accepted.

Learning Outcomes

Title
Critical Reading and Writing

Tags
198432, 2

Learning Outcome
Cultivate advanced critical reading and writing skills used in summarizing, paraphrasing, formulating, analyzing and evaluating philosophical arguments, and in prewriting, drafting, revising, critiquing, editing, and proofreading philosophical essays.

Title
Research

Tags
198562, 3

Learning Outcome
Use scholarly research tools (including library and internet resources) in writing expository, persuasive, and philosophical essays; effectively use and cite researched material.

Title
Writing and Rhetoric

Tags
198563, 1

Learning Outcome
Learn advanced strategies of writing clearly on a well-defined topic using correct grammar, accepted usage, stylistic conventions appropriate to philosophy, and a voice, tone, and level of formality suited to one's intended audience.

PHIL 305 - Intermediate Formal Logic

Course Information

Teaching Area (new)
PHIL

Course Number
305

Teaching Area
PHIL

Course Title
Intermediate Formal Logic

Course Description
History and use of first-order logic and second-order logic; natural-deduction and axiomatic proofs; modal logic; set theory and foundations of mathematics.

Department
Philosophy

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- PHIL 205 - Introduction to Logic and Critical Thinking

OR

Prerequisites

Complete ALL of the following Courses:

- MATH 290 - Fundamentals of Mathematics

Note
Fulfills GE Languages of Learning requirement. Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Logic

Tags
198433, 4

Learning Outcome
Learn to construct proofs within axiom systems in such areas as identity, set theory, arithmetic, and modal logic.

Title
History

Tags
198434, 5

Learning Outcome
Understand key historical developments such as Cantor's theory of transfinite numbers, Frege's attempt to reduce arithmetic to logic, the logical paradoxes, and Gödel's theorems.

Title
Logic

Tags
198564, 2

Learning Outcome
Learn first order logic including the correct use of symbols and the construction of proofs.

PHIL 313R - History of Ethics

Course Information

Simple Requisites

Prerequisite

Type
Prerequisite

Prerequisite

Complete ALL of the following Courses:

- PHIL 300 - Philosophical Writing

Recommended
Phil 201, 202

Learning Outcomes

Title
Figures and Topics

Tags
198445, 2

Learning Outcome
Know major concepts, theories, figures, texts, and issues in the philosophy of language.

Title
Application

Tags
198446, 8

Learning Outcome
Be able to explain the practice and value of philosophy of language.

Title
Critical Reading and Writing

Tags
198571, 6

Learning Outcome
Practice philosophical analysis and argumentation orally and in writing; write a cogent and well-referenced research paper on the philosophy of language.

PHIL 421 - Metaphysics

Course Information

Teaching Area (new)
PHIL

Course Number
421

Teaching Area
PHIL

Course Title
Metaphysics

Course Description
Basic categories of being: appearance and reality, law, causality, space, time, eternity, deity.

Department
Philosophy

When Taught
Winter

Complete ALL of the following Courses:

- PHIL 300 - Philosophical Writing

Recommended
Phil 201, 202

Learning Outcomes

Title
Application

Tags
198561, 3

Learning Outcome
Be able to explain the practice and value of philosophy of mind.

Title
Critical Reading and Writing

Tags
198579, 2

Learning Outcome
Practice philosophical analysis and argument orally and in writing; write a cogent and well-referenced research paper on the philosophy of mind

Title
History

Tags
198580, 1

Learning Outcome
Know major concepts, theories, figures and texts in the philosophy of mind including possible answers to questions like: what is the mind/body problem? What is the difference between a mind and a brain? What is materialism or physicalism? What is a person?

PHIL 450R - Advanced Topics in Philosophy

Course Information

Teaching Area (new)
PHIL

Course Number
450R

Prerequisite

Prerequisite

Complete ALL of the following Courses:
- PHIL 300 - Philosophical Writing

Learning Outcomes

Title
Critical Reading and Writing

Tags
198581, 4

Learning Outcome
Gain added experience in professional-level writing and communication

Title
The History and Value of Philosophy

Tags
198931, 2

Learning Outcome
Develop a more concrete sense of how your degree in philosophy has prepared you for your future.

Title
Career Preparation

Tags
198932, 5

Learning Outcome
Develop and polish materials you will use to apply for employment and/or further educational opportunities.

PHIL 495R - Directed Readings in Philosophy

Course Information

Teaching Area (new)
PHIL

Course Number
495R

Teaching Area
PHIL

Course Title
Directed Readings in Philosophy

Course Description
For instructors and students who wish to pursue special problems or projects, or who wish to read texts that are not covered by available courses.

Department
Philosophy

When Taught
All Semesters/Terms

Credit Hours

Min:
1

Fixed/Max:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PHIL 300 - Philosophical Writing

Recommended
Phil 201, 202

Learning Outcomes

Title
History

Tags
198582, 1

Learning Outcome
Read and critically discuss related figures, texts, or issues under the tutelage of an expert in the field

Title
Critical Reading and Writing

Tags
198583, 2

Learning Outcome
Practice philosophical analysis and argument orally and in writing; write a short essay or a longer research paper (depending on the number of credits for which one is enrolled) on the related figures, texts, or issues addressed by the course readings

PHIL 501R - Graduate Seminar

Course Information

Teaching Area (new)
PHIL

Course Number
501R

Teaching Area
PHIL

Course Title
Graduate Seminar

Course Description
Selected topic, figure, or movement in philosophy, as announced in current class schedule.

Department

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
5

Lecture Hours

Fixed:
5

Lab Hours

Fixed:
0

Other Prerequisites
Instructor's consent

Learning Outcomes

Title
Critical Reading and Writing

Tags
198452, 2

Learning Outcome
Earn graduate credit for attending and completing an upper-division philosophy course with enhanced assignments, research, and writing.

Title
Figures and Topics

Tags
198548, 3

Learning Outcome
Investigate and understand an advanced philosophical issue or research topic.

PHSCS 101 - Basic Physics

Course Information

Teaching Area (new)
PHSCS

Course Number
101

Teaching Area
PHSCS

Course Title
Basic Physics

Course Description
Principles of classical and modern physics. Concepts and simple calculations applied to the world around us.

Department
Physics and Astronomy

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Modern Physics

Tags
205384, 3

Learning Outcome
Qualitatively discuss and do simple calculations involving modern physics concepts that are not everyday but which have important practical and philosophical implications in today's world, such as quantum mechanics, nuclear physics and relativity.

Title
Classical Physics

Tags
205424, 1

Learning Outcome
Use basic physical laws and concepts to analyze everyday phenomena and do simple calculations involving those laws. These laws and concepts include Newton's laws of motion, conservation laws, simple thermodynamics, fluids, and electricity and magnetism.

PHSCS 105 - General Physics 1

Course Information

Teaching Area (new)
PHSCS

Course Number
105

Teaching Area
PHSCS

Course Title
General Physics 1

Course Description
Applied physics course not requiring calculus. Mechanics, heat, wave motion, and sound.

Department
Physics and Astronomy

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
High school algebra and trigonometry.

Recommended
Concurrent enrollment in Phscs 107

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at https://is.byu.edu/catalog/PHSCS-105-M001.

Learning Outcomes

Title
Newton's Laws

Tags
205890, 1

Learning Outcome
Solve problems and answer conceptual questions about kinematics and Newton's laws in both linear and rotational contexts.

Title
Energy and Momentum

Tags
205891, 2

Learning Outcome
Solve problems and answer conceptual questions about energy and momentum in both linear and rotational contexts.

Title
Fluids, Temperatures, and Heat

Tags
205892, 3

Learning Outcome
Solve problems and answer conceptual questions about static flowing fluids, heat capacity and transfer, ideal gases, laws of thermodynamics, and heat engines.

Title
Waves

Tags
205893, 4

Learning Outcome
Solve problems and answer conceptual questions about harmonic motion, waves, interference, and sound.

PHSCS 106 - General Physics 2

Course Information

Teaching Area (new)
PHSCS

Course Number
106

Teaching Area
PHSCS

Course Title
General Physics 2

Course Description
Continuation of Phscs 105. Electricity and magnetism, modern physics, and optics

Department
Physics and Astronomy

When Taught
Fall, Winter, Summer

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Phscs 105 or equivalent.

Recommended
Concurrent enrollment in Phscs 108

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at https://is.byu.edu/catalog/PHSCS-106-M001.

Learning Outcomes

Title
Electric Charges, Fields, Potentials, Circuits

Tags
205894, 1

Learning Outcome
Solve problems and answer conceptual questions about electric charges, fields, electric potentials, and circuits.

Title
Magnetic fields, Forces, Faraday's Law, EM Waves

Tags
205895, 2

Learning Outcome
Solve problems and answer conceptual questions about magnetic fields, magnetic forces, Faraday's Law, and electromagnetic waves.

Title
Geometric and Wave Optics

Tags
205896, 3

Learning Outcome
Solve problems and answer conceptual questions about geometric and wave optics.

Title
Special Relativity, Quantum, Atomic, and Nuclear Physics

Tags
205897, 4

Learning Outcome
Solve problems and answer conceptual questions about special relativity, quantum physics, atomic physics, and nuclear physics.

PHSCS 107 - General Physics Lab 1

Course Information

Teaching Area (new)
PHSCS

Course Number
107

Teaching Area
PHSCS

Course Title
General Physics Lab 1

Course Description
Lab experiments in mechanics and thermodynamics. Measuring and analyzing data.

Department
Physics and Astronomy

When Taught
Fall, Winter, Spring

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
3

Other Prerequisites
Phscs 105 or concurrent enrollment.

Note
Students should check with their department to learn if PHSCS 105 and 107 are required concurrently.

Learning Outcomes

Title
Observing, measuring, and analyzing physical data

Tags
210111, 0, 3

Learning Outcome
Make quantitative measurements with appropriate detectors and analyze the recorded data.

Title
Communicating scientific results

Tags
210112, 0, 4

Learning Outcome
Evaluate experimental results and communicate them in reports and with group members.

Title
Proposing, testing, and revising models

Tags
205898, 0, 1

Learning Outcome
Understand the use of mechanistic and mathematical models to describe physical phenomena related to mechanics, thermodynamics, waves, and fluids. Propose predictive models, test predictions, and then revise models as needed.

Title
Designing and conducting experiments

Tags
205899, 0, 2

Learning Outcome
Design and carry out experiments to test proposed models.

PHSCS 108 - General Physics Lab 2

Course Information

Teaching Area (new)
PHSCS

Course Number
108

Teaching Area
PHSCS

Course Title
General Physics Lab 2

Course Description
Lab experiments in electricity, magnetism, optics, and modern physics. Measuring and analyzing data.

Department
Physics and Astronomy

When Taught
Fall, Winter, Summer

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
3

Other Prerequisites
Phscs 106 or concurrent enrollment

Note
Students should check with their department to learn if PHSCS 106 and 108 are required concurrently.

Learning Outcomes

Title
Observing, measuring, and analyzing physical data

Tags
210113, 0, 3

Learning Outcome
Make quantitative measurements with appropriate detectors and analyze the recorded data.

Title
Communicating scientific results

Tags
210114, 0, 4

Learning Outcome
Evaluate experimental results and communicate them in reports and with group members.

Title
Proposing, evaluating, and revising models

Tags
205900, 0, 1

Learning Outcome
Propose mechanistic and mathematical models for phenomena related to electricity and magnetism, optics, and modern physics.

Title
Designing and conducting experiments

Tags
205901, 0, 2

Learning Outcome
Design and carry out experiments to test proposed models.

PHSCS 121 - Introduction to Newtonian Mechanics

Course Information

Teaching Area (new)
PHSCS

Course Number
121

Teaching Area
PHSCS

Course Title
Introduction to Newtonian Mechanics

Course Description
Physics 121 provides a calculus-based introduction to Newtonian physics. Students explore the laws governing the natural world through the study of motion and energy and develop technical problem-solving skills. Students will gain a deeper understanding of the physical world and how scientists model physical phenomena.

Department
Physics and Astronomy

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
1

Other Prerequisites
Calculus or concurrent enrollment.

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Units and Measurements

Tags
205150, 1

Learning Outcome
Express physical quantities with correct units, convert quantities between unit systems, and follow good practices when representing physical quantities with finite precision

Title
Position, Velocity, and Acceleration

Tags
205465, 2

Learning Outcome
Use vector notation to describe position, velocity, and acceleration of particles in one and two dimensions. Understand how time derivatives and the fundamental theorem of calculus connect these three concepts.

Title
Energy and Momentum

Tags
205466, 4

Learning Outcome
Use the ideas of energy, work, power, linear momentum, impulse, and angular momentum to analyze the motion of a system, including systems in which collisions occur

Title
Newton's Laws

Tags
205467, 3

Learning Outcome
Understand Newton’s three laws of motion and use them to solve conceptual and numerical problems. Use Newton's Second Law to calculate the motion of particles and extended objects in translation, rotation, and simple harmonic oscillation given a set of forces and torques acting on them. Represent motion in one and two dimensions using Cartesian and polar coordinates. Use Newton's law of gravity to calculate how massive objects move over distances that are large compared to the size of the objects. Connect Newton’s law of gravity to Kepler’s Laws of planetary motion

Title
Physical Reasoning

Tags
206574, 5

Learning Outcome
Practice reasoning about everyday phenomena using the language of math and physics. Learn how to use models to describe observations and make physical predictions

PHSCS 123 - Introduction to Waves, Optics, and Thermodynamics

Course Information

Teaching Area (new)
PHSCS

Course Number
123

Teaching Area
PHSCS

Course Title
Introduction to Waves, Optics, and Thermodynamics

Course Description
Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

Department
Physics and Astronomy

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
1

Other Prerequisites
Phscs 121 or equivalent. Calculus

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Fluid States

Tags
205151, 1

Learning Outcome
Solve problems and answer conceptual questions using the basics of fluid statics and dynamics, including Bernoulli's principle and Pascal's law.

Title
Temperature, Pressure, Entropy, and Volume for Ideal Gases

Tags
205152, 2

Learning Outcome
Answer conceptual questions and calculate changes in temperature, pressure, entropy and volume for quasistatic ideal gas processes and be able to determine work done and efficiency for gas engines, heat pumps, and refrigerators. Determine heat flow and temperatures in systems in steady state.

Title
Physics of Waves

Tags
205153, 3

Learning Outcome
Solve problems and answer conceptual questions involving waves, using concepts such as wave speed, wavelength, frequency, superposition, beats, and resonance. Solve wave interference problems.

Title
Imaging with Optics and Optical Systems

Tags
205154, 4

Learning Outcome
Find the location and magnification of images in single- and multiple-lens/ mirror systems by calculation and by ray tracing, and be able to work general problems in optics using Snell's law and specular reflection.

Title
Special Relativity, Quantum Mechanics, and Nuclear Physics

Tags
205155, 5

Learning Outcome
(general section) Solve problems and answer conceptual questions in basic modern physics including special relativity, and quantum mechanics and nuclear physics.

Title
Waves, Fourier Analysis, Musical Acoustics

Tags
205156, 6

Learning Outcome
(majors/minors section) Solve more advanced problems and answer conceptual questions in wave analysis, including calculating group and phases velocities, solving for Fourier coefficients of periodic functions, and frequencies of notes in the equal temperament musical scale.

PHSCS 127 - Descriptive Astronomy

Course Information

Teaching Area (new)
PHSCS

Course Number
127

Teaching Area
PHSCS

Course Title
Descriptive Astronomy

Course Description
Conceptual presentation of knowledge of the content and history of the cosmos, frequently using observatory and/or planetarium.

Department
Physics and Astronomy

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
1

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Astronomical Terminology and Perspective

Tags
205935, 1

Learning Outcome
Students will be able to answer conceptual questions using correct astrophysical terminology about the following core astronomy concepts:
* the motion of the Earth and the objects seen in the visible sky
* how and into what the Universe is organized by gravity at all scales from the solar system to the superclusters of galaxies.
* the significant and unique characteristics of each planet and other components of the solar system.
* the essential physical concepts that govern the life cycle of stars from creation to death, how the Sun compares to other stars, and the changes the Sun and stars will go through during their life cycles.
* the structure and classification of galaxies and clusters of galaxies.
* the central ideas of and evidences for current big bang cosmologies.

Title
Night Sky

Tags
206575, 2

Learning Outcome
Students will be able to identify common naked eye constellations, bright stars and deep sky objectsin the sky.

Title
Observing Projects

Tags
206576, 3

Learning Outcome
Students will gain practical experience by performing their own astronomical observations, interpreting their observations and communicating their results.

Title
Appreciation of our Creator's Universe

Tags
206577, 4

Learning Outcome
Students will appreciate the grandeur of our Savior's universe.

PHSCS 137 - Energy, Climate, and the Environment

Course Information

Teaching Area (new)
PHSCS

Course Number
137

Teaching Area
PHSCS

Course Title
Energy, Climate, and the Environment

Course Description
Introduction to the physics behind energy production and consumption and the associated impact on ecology, climate, and the environment

Department
Physics and Astronomy

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

PHSCS 145 - Experimental Methods in Physics

Course Information

Teaching Area (new)
PHSCS

Course Number
145

Teaching Area
PHSCS

Course Title
Experimental Methods in Physics

Course Description
Introduction to physical measurement and analysis, optics, sensors, actuators, and computer-based data acquisition.

Department
Physics and Astronomy

When Taught
Fall

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
3

Other Prerequisites
Phscs 121 or equivalent.

Note
NOTE: Physics majors or minors only, or instructor permission. Non-Physics majors and minors, contact the instructor at Physics145@byu.edu.

Learning Outcomes

Title
Basic Skills

Tags
205161, 1

Learning Outcome
Demonstrate good practices in experimental physics documentation and communication such as data collection, record keeping, and presentation.

Title
Oscillating Signal Analysis

Tags
205162, 7

Learning Outcome
Apply AC concepts such as frequency response, frequency filtering, fourier transform analysis, and impedance to sinusoidally-driven electrical, mechanical, optical, and acoustical systems.

Title
Data Analysis

Tags
205379, 2

Learning Outcome
Demonstrate the ability to analyze experimental data this includes techniques such as error estimation, error propagation, model selection, and curve fitting.

PHSCS 167 - Descriptive Acoustics of Music and Speech

Course Information

Teaching Area (new)
PHSCS

Course Number
167

Teaching Area
PHSCS

Course Title
Descriptive Acoustics of Music and Speech

Course Description
Introductory acoustics course, emphasizing physical principles underlying production and perception of music and speech.

Department
Physics and Astronomy

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Concepts

Tags
205282, 1

Learning Outcome
Define the basic terminologies of acoustics, identify physical principles involved in common situations and answer conceptual questions related to hearing, speech, audio, listening environments, and musical instruments.

Title
Models of acoustical systems

Tags
205297, 2

Learning Outcome
Apply scientific models to analysis of hearing, speech and musical instruments, etc.

Title
Writing

Tags
205356, 4

Learning Outcome
Write effectively using the terminology of acoustics and logically outline how acoustics is important in a discipline of their choice.

Title
Analysis

Tags
205365, 3

Learning Outcome
Solve basic problems related to hearing, speech, audio, listening environments, and musical instruments.

PHSCS 191 - Introduction to Physics Careers and Research 1

Course Information

Teaching Area (new)
PHSCS

Course Number
191

Teaching Area
PHSCS

Course Title
Introduction to Physics Careers and Research 1

Course Description
Survey of BYU undergraduate physics and astronomy programs, careers in physics and astronomy, and current physics and astronomy research.

Department
Physics and Astronomy

When Taught
Fall Term 1.

Credit Hours

Min:
0.5

Fixed/Max:
0.5

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

Note
Take first semester after registered as physics major.

Learning Outcomes

Title
Educational Plan

Tags
205163, 2

Learning Outcome
Develop a draft of an educational plan for both undergraduate and graduate training.

Title
Current Physics Research

Tags
205236, 3

Learning Outcome
Describe examples of current research in physics or astronomy, explaining what questions are being asked by the investigators and why these questions are interesting.

Title
Subfields of Physics

Tags
205328, 1

Learning Outcome
Describe the major subfields of physics and the breadth of interdisciplinary research to which physicists contribute.

Title
Careers in Physics

Tags
205338, 4

Learning Outcome
Describe career opportunities available in physics and astronomy and the specific preparation necessary for these careers.

PHSCS 198 - Physics and Mathematics Review

Course Information

Teaching Area (new)
PHSCS

Course Number
198

Teaching Area
PHSCS

Course Title
Physics and Mathematics Review

Course Description
Review of mathematics and introductory physics for returning missionaries and others returning after a significant break.

Department
Physics and Astronomy

When Taught
Fall Term 1.

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Other Prerequisites
Phscs 121 or equivalent. Math 113 or concurrent enrollment.

Learning Outcomes

Title
Physics Review

Tags
205299, 1

Learning Outcome
Recall and apply fundamental physics concepts at the level of Physics 121.

Title
Math Review

Tags
205307, 0

Learning Outcome
Recall and apply the fundamental mathematical concepts and techniques up to the level of differential and beginning integral calculus that are necessary for Physics 121.

PHSCS 220 - Introduction to Electricity and Magnetism

Course Information

Teaching Area (new)
PHSCS

Course Number
220

Teaching Area
PHSCS

Course Title
Introduction to Electricity and Magnetism

Course Description
Electricity and magnetism. Weekly lab.

Department
Physics and Astronomy

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
1

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- MATH 113 - Calculus 2

Other Prerequisites
Phscs 121 or equivalent.

Recommended
It is highly recommended that Phscs 220 and Phscs 225 be taken concurrently

Note
For Physics, Applied Physics, and Physics Education majors, as well as Physics and Physics Education minors. Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at https://is.byu.edu/catalog/PHSCS-220-M001.

Learning Outcomes

Title
Electrostatics

Tags
203953, 1

Learning Outcome
Use Maxwell's equations to find electric and magnetic fields in symmetric arrangements of static charges and steady currents. Also find electric and magnetic fields by integrating over charge and current densities.

Title
Energy and Motion of Charged Particles

Tags
203954, 2

Learning Outcome
Solve problems and answer conceptual questions involving electromagnetic energy (potential), forces, and the motion of charged particles and dipoles.

Title
Electrical Circuits

Tags
203955, 3

Learning Outcome
Analyze simple direct current and alternating current circuits of resistors, inductors, capacitors and power supplies.

Title
Electrodynamics

Tags
203956, 4

Learning Outcome
Use Maxwell's equations to solve problems and answer conceptual questions with changing electric and magnetic fields, including induction and electromagnetic radiation.

PHSCS 222 - Modern Physics

Course Information

Teaching Area (new)
PHSCS

Course Number
222

Teaching Area
PHSCS

Course Title
Modern Physics

Course Description
Quantum physics, atoms, molecules, condensed matter, nuclei, elementary particles, and selected topics in contemporary physics.

Department
Physics and Astronomy

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PHSCS 123 - Introduction to Waves, Optics, and Thermodynamics
  AND PHSCS 220 - Introduction to Electricity and Magnetism

Other Prerequisites
Phscs 121 or equivalent.

Recommended
Math 302 or Math 314

Learning Outcomes

Title
Simple Systems

Tags
205204, 2

Learning Outcome
Apply the principles of quantum mechanics to predict the results of measurements in simple systems such as a free particle, simple potential wells, and central potentials.

Title
Applications

Tags
205205, 3

Learning Outcome
Solve problems and answer conceptual questions applying the principles of quantum mechanics and special relativity to topics in modern physics such as atomic physics, molecular physics, the physics of solids, statistical physics, nuclear physics, radioactivity, and particle physics.

Title
Fundamental Principles

Tags
205447, 1

Learning Outcome
Demonstrate their understanding of the fundamental postulates and principles of special relativity and quantum mechanics.

PHSCS 225 - Introduction to Experimental Physics

Course Information

Teaching Area (new)
PHSCS

Course Number
225

Teaching Area
PHSCS

Course Title
Introduction to Experimental Physics

Course Description
Introduction to skills and approaches to foster innovation and leadership in experimental science. Hands-on experience constructing knowledge through a process of observing phenomena, proposing models, generating predictions, designing and conducting experiments, and analyzing and evaluating findings. Focus on developing skills for effectively pursuing experimental goals in teams. Exploration of physical systems in the domain of electrical phenomena and measurement and control using electrical transducers, analog and digital circuits, and microcontrollers. Analog and digital circuit concepts, simple linear network theory and impedance concepts using complex representations.

Department
Physics and Astronomy

When Taught
Fall and Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
6

Other Prerequisites
Physics 220 must be taken previous to or concurrently with Physics 225. Taking the two classes concurrently is highly recommended.

Learning Outcomes

Title
Observation and measurement

Tags
210115, 0, 1

Learning Outcome
Observe and measure electrical phenomena: recognize patterns, relationships, and incongruities.

Title
Proposing and evaluating models

Tags
210116, 0, 2

Learning Outcome
Propose mechanistic and mathematical models and design and carryout experiments to evaluate competing models.

Title
Experimental design and analysis

Tags
210117, 0, 3

Learning Outcome
Analyze/Organize data and apply statistical hypothesis testing concepts in both design and analysis of experiments.

Title
Models of electrical phenomena

Tags
210118, 0, 4

Learning Outcome
Develop and apply models of electrical phenomena and devices using basic concepts of charge, voltage, complex impedance, spectrum analysis, and linear networks.

Title
Electrical circuits

Tags
210119, 0, 5

Learning Outcome
Use circuits in a context where physicists use them -- making measurements, interfacing with instruments and computers, signal conditioning, collecting data, and controlling apparatus.

Title
Leadership and teamwork

Tags
210120, 0, 6

Learning Outcome
Develop patterns for effective leadership and teamwork.

PHSCS 227 - Planetary and Stellar Astrophysics

Course Information

Teaching Area (new)
PHSCS

Course Number
227

Teaching Area
PHSCS

Course Title
Planetary and Stellar Astrophysics

Course Description
Solar-system dynamics, planetary surfaces and atmospheres. Stellar interiors, stellar atmospheres and stellar evolution. Celestial coordinates, spectra, interaction of light and matter. Extrasolar planets.

Department
Physics and Astronomy

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PHSCS 121 - Introduction to Newtonian Mechanics

Other Prerequisites
Math 112 or equivalent; Phscs 127 or concurrent

Learning Outcomes

Title
The Solar System

Tags
205432, 2

Learning Outcome
Students will be able to describe the differences between the planets and the moons and how these differences provide clues as to their formation history. Mastery of this knowledge will be determined through short answer essay questions on exams and preclass questions.

Title
Celestial Mechanics and the Nature of Light

Tags
205431, 0, 1

Learning Outcome
Students will be able to solve elementary problems in classical celestial mechanics and in the interaction of light with atoms and molecules. Mastery will be measured through the use of homework and exam problems.

Title
Scientific Writing

Tags
205433, 0, 3

Learning Outcome
Students will be taught how to search astronomy publications to gather information on a given topic and to present their findings in the form of a scientific paper with proper acknowledgement. Progress will be monitored through regular meetings with the instructor who will determine at each interview the student's progress and provide appropriate guidance. Students will be given a rubric to guide them in the writing of the paper, and the rubric will be used to grade the final paper. Mastery will be determined through an oral presentation and a final written report.

Title
Scientific Research

Tags
205434, 0, 4

Learning Outcome
Students will work on various projects throughout the semester that relate to planetary and stellar science using real astronomical data. They will write-up their results following a standard rubric. Mastery will be determined through the completion of the analysis and grading of each write-up as defined in the rubric.

Title
Stellar Astrophysics

Tags
213226, 0, 5

Learning Outcome
Students will be able to use equations and observational data to determine the physical properties of stars, such as distance, mass, temperature, etc. Mastery of this knowledge will be measured through the use of homework and exam problems.

Title
Stellar Evolution

Tags
213227, 0, 6

Learning Outcome
Students will learn how the initial mass of the protostar determines all of the physical characteristics of the star and how it will evolve throughout its life. Mastery of this knowledge will be determine through short answer essay questions on exams and problems.

PHSCS 228 - Stellar and Extragalactic Astronomy

Course Information

Teaching Area (new)
PHSCS

Course Number
228

Teaching Area
PHSCS

Course Title
Stellar and Extragalactic Astronomy

Course Description
Stellar atmospheres, stellar interiors, stellar evolution, interstellar matter, galactic structure, external galaxies, and cosmology.

Department
Physics and Astronomy

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- MATH 113 - Calculus 2
  AND PHSCS 227 - Planetary and Stellar Astrophysics

Learning Outcomes

Title
Stellar Populations and Galactic Structure

Tags
205208, 2

Learning Outcome

Demonstrate an understanding of stellar populations and galactic structure;

Title
Cosmology

Tags
205210, 4

Learning Outcome

Display a qualitative grasp of up-to-date observational cosmology and solve elementary problems in theoretical cosmology.

Title
The Milky Way and Other Galaxies

Tags
205209, 0, 3

Learning Outcome

Display a knowledge of the basic properties of galaxies and their formation and evolution;

Title
The Interstellar Medium and Star Formation

Tags
205207, 0, 1

Learning Outcome

Display a qualitative and simple quantitative understanding of the role of the interstellar medium in star formation

PHSCS 230 - Computational Physics Lab 1

Course Information

Teaching Area (new)
PHSCS

Course Number
230

Teaching Area
PHSCS

Course Title
Computational Physics Lab 1

Course Description
Introduction to numerical and symbolic computation and graphical analysis using a symbolic mathematics program. Applications to mechanics, optics, and special relativity.

Department
Physics and Astronomy

When Taught
Fall, Winter, and Spring

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- MATH 113 - Calculus 2
  AND PHSCS 121 - Introduction to Newtonian Mechanics
  AND PHSCS 123 - Introduction to Waves, Optics, and Thermodynamics

Other Prerequisites
Phscs 220 or concurrent enrollment. Math 302 or 313 or concurrent enrollment

Recommended
C S 110, C S 111, C S 142 or concurrent enrollment

Learning Outcomes

Title
Mathematical Basics

Tags
205164, 1

Learning Outcome
Demonstrate the ability to apply calculus, linear algebra, and complex analysis to solve undergraduate-level physics problems.

Title
Programming

Tags
205165, 2

Learning Outcome
Demonstrate the ability to use programming constructs such as looping, conditional execution, and iteration to solve physics problems.

Title
Solve Equations

Tags
205166, 3

Learning Outcome
Solve equations, including systems of equation, related to physical phenomena both symbolically and numerically.

Title
Develop Insight

Tags
205167, 4

Learning Outcome
Demonstrate the ability to visualize, analyze, and interpret equations, data, and physical models.

PHSCS 240 - Design, Fabrication, and Use of Scientific Apparatus

Course Information

Teaching Area (new)
PHSCS

Course Number
240

Teaching Area
PHSCS

Course Title
Design, Fabrication, and Use of Scientific Apparatus

Course Description
Machining, computer interfacing, controls, and vacuum systems.

Department
Physics and Astronomy

When Taught
Fall and Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
6

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- PHSCS 123 - Introduction to Waves, Optics, and Thermodynamics
  AND PHSCS 145 - Experimental Methods in Physics

OR

Prerequisites

Complete ALL of the following Courses:

- PHSCS 123 - Introduction to Waves, Optics, and Thermodynamics
  AND PHSCS 225 - Introduction to Experimental Physics

Learning Outcomes

Title
Design and Build Experimental Apparatus

Tags
205428, 0, 1

Learning Outcome
Plan and construct mechanical and electrical systems for physical measurements using computer aided design, metal machining, soldering, and circuit construction.

Title
Measure and Analyze Experimental Results

Tags
205425, 0, 2

Learning Outcome
Make involved physical measurements and use approximate quantitative models to characterize the physical systems. Analyze and describe measurements of the systems. Use signal averaging and curve fitting.

Title
Software automation and control

Tags
205168, 0, 3

Learning Outcome
Learn and use LabVIEW basics for software automation of hardware using feedback control.

Title
Record Keeping

Tags
205415, 0, 4

Learning Outcome
Document in a personal lab notebook the procedures, methods, results, and analysis of laboratory exercises.

Title
Presentation

Tags
205269, 0, 5

Learning Outcome
Present work in writing (technical report and journal article) and through oral presentations

Title
Review scientific literature

Tags
210121, 0, 6

Learning Outcome
Identify relevant literature and summarize important findings.

Title
Ethics

Tags
210122, 0, 7

Learning Outcome
Demonstrate understanding of professional ethics guidelines for research activities and presentation of results.

PHSCS 245 - Experiments in Contemporary Physics

Course Information

Teaching Area (new)
PHSCS

Course Number
245

Teaching Area
PHSCS

Course Title
Experiments in Contemporary Physics

Course Description
In-depth, multi-period experiments in contemporary physics, using advanced instrumentation.

Department
Physics and Astronomy

When Taught
Fall and Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
6

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PHSCS 220 - Introduction to Electricity and Magnetism **AND** PHSCS 240 - Design, Fabrication, and Use of Scientific Apparatus

Learning Outcomes

Title
Students will become proficient independent experimenters through multi-period, in-depth projects

Tags
205238, 0, 1

Learning Outcome
Independently set goals, establish success criteria, determine feasibility, and design the experiment, including choosing and acquiring appropriate instruments and materials. Make and test predictions.

Title
Develop proposals for independent research

Tags
205347, 0, 2

Learning Outcome
Learn to write and evaluate white papers and proposals and participate in proposal selection process. Carry out proposed research.

Title
Advanced instrumentation and techniques

Tags
210123, 0, 3

Learning Outcome
Demonstrate the use and assembly of experimental systems using contemporary instrumentation components to perform experiments with optical instrumentation, vacuum systems, lock-in detection, and Fourier analysis. Learn to approach new instruments and techniques independently.

Title
Oral presentation

Tags
210124, 0, 4

Learning Outcome
Develop ability to effectively and persuasively present proposals and research results.

Title
Synthesizing learning

Tags
210125, 0, 5

Learning Outcome
Synthesize and apply theoretical learning to experimental research.

PHSCS 281 - Principles of Solid State Physics

Course Information

Teaching Area (new)
PHSCS

Course Number
281

Teaching Area
PHSCS

Course Title
Principles of Solid State Physics

Course Description
Introduction to physics of solids, including laboratory experience.

Department
Physics and Astronomy

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
1

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PHSCS 220 - Introduction to Electricity and Magnetism

Other Prerequisites
Phscs 121 or equivalent.

Note
For students in science, computer science, technology, and engineering.

Learning Outcomes

Title
Crystals

Tags
205264, 1

Learning Outcome
Use the concepts of lattices, unit cells, and the atomic basis to describe the structure of crystals.

Title
Reciprocal Space

Tags
205295, 1

Learning Outcome
Apply the concept of reciprocal lattices and the first Brillouin zone to arrive at conclusions about wave diffraction, dispersion graphs of lattice waves, and electron energy bands.

Title
Band Structure

Tags
205305, 3

Learning Outcome
Use the ideas of band structure to arrive at conclusions about the electrical properties of materials. Use the ideas of doping to arrive at conclusions about the electrical properties of semiconductors.

Title
Electrons in Crystals

Tags
205400, 2

Learning Outcome
Apply basic principles of quantum mechanics to describe the behavior of electrons in crystalline solids and describe the concepts of density of states, Pauli's exclusion principle, the Dirac distribution function, and band structure.

PHSCS 291 - Introduction to Physics Careers and Research 2

Course Information

Teaching Area (new)
PHSCS

Course Number
291

Teaching Area
PHSCS

Course Title
Introduction to Physics Careers and Research 2

Course Description
Career opportunities for physicists in industry, interdisciplinary research, national labs and observatories, and professions such as medicine, law, and business. Personal planning for research or internship involvement. As Phscs 291 includes assignments to help students get started on their senior theses, it should only be taken by Physics majors or those seriously considering a Physics major.

Department
Physics and Astronomy

When Taught
Fall Term 2.

Credit Hours

Min:
0.5

Fixed/Max:
0.5

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PHSCS 121 - Introduction to Newtonian Mechanics

Other Prerequisites
Phscs 191 or concurrent enrollment.

Recommended
It is recommended that students take this class during their sophomore year

Note
Take first semester as a sophomore.

Learning Outcomes

Title
Careers

Tags
205169, 1

Learning Outcome
Describe career opportunities for physicists in industry, interdisciplinary research, national labs and observatories, and professions such as medicine, law and business.

Title
Prepare for Success

Tags
205170, 2

Learning Outcome
Learn how to prepare for and succeed in such careers from physicists working in them.

Title
Research Plan

Tags
205171, 3

Learning Outcome
Develop a plan for research or internship involvement.

Title
Graduate School

Tags
205172, 4

Learning Outcome
Develop a plan for graduate school (if the student's career path requires it).

PHSCS 297R - Introduction to Research

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- PHSCS 105 - General Physics 1

OR

Prerequisites

Complete ALL of the following Courses:

- PHSCS 121 - Introduction to Newtonian Mechanics

Note
This class is designed for physics teaching and physical science teaching majors. Those with other majors may add by contacting the professor to get a permission-to-add code.

Learning Outcomes

Title
Development of Physics Pedagogic Teaching Skills

Tags
205278, 6

Learning Outcome
Develop teaching skills in using projects, practicums and lab experimentation that can be transferred to secondary schools when they are teachers.

Title
Physics Teaching Using Technology

Tags
205289, 2

Learning Outcome
Be able to deliver laboratory instruction to students using only meter sticks and stopwatches (low tech data collection) and also using electronic probes (high tech data collection).Use of Video and Computer Data collection techniques.

Title
Constructivist Learning Model

Tags
205296, 0

Learning Outcome
Teach and learn physics using constructivist inquiry based modes of instruction.

Title
Development and Experience with of a Suite of Secondary Scho

Tags
205374, 4

Learning Outcome
Leave class with a suite of about 15 labs that they have completed and written up from the constructivist teacher model that they can use immediately in the 7-12 secondary physics classroom.

PHSCS 311 - Physics By Inquiry: Electricity

Course Information

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- PHSCS 106 - General Physics 2

OR

Prerequisites

Complete ALL of the following Courses:

- PHSCS 220 - Introduction to Electricity and Magnetism

Learning Outcomes

Title
Constructivist Learning Model

Tags
205275, 0

Learning Outcome
Teach physics using constructivist inquiry based modes of instruction, scripted inquiry.

Title
Development of Physics Pedagogic Teaching Skills

Tags
205315, 6

Learning Outcome
Develop a teaching suite of labs for teaching electricity.Develop the ability to use alternative modes of assessment that take students beyond the multiple choice format of assessment to open ended, "apply the physics you understand" to this problem.

Title
Development & Experience a Suite of Secondary School Electr

Tags
205321, 5

Learning Outcome
Develop teaching skills in using projects, practicums and lab experimentation that can be transferred to secondary schools when they are teachers.

Title
Physics Teaching Using Technology

Tags
205386, 2

Learning Outcome
Be able to deliver laboratory instruction to students from the CASTLE Electricity units.

PHSCS 313R - Special Topics in Physics

205300, 0

Learning Outcome
Achieve the learning outcomes of the trial courses assigned this number from time to time.

PHSCS 318 - Introduction to Mathematical Physics

Course Information

Teaching Area (new)
PHSCS

Course Number
318

Teaching Area
PHSCS

Course Title
Introduction to Mathematical Physics

Course Description
Partial differential equations, classical field equations, algebra of complex variables, Fourier analysis, integral transforms, and orthogonal functions.

Department
Physics and Astronomy

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- MATH 303 - Mathematics for Engineering 2
  AND PHSCS 230 - Computational Physics Lab 1

OR

Prerequisites

Complete ALL of the following Courses:

- MATH 334 - Ordinary Differential Equations
  AND PHSCS 230 - Computational Physics Lab 1

Other Prerequisites
Math 302 or Math 314.

Learning Outcomes

Title
Partial Differential Equations

Tags
205173, 3

Learning Outcome
Solve partial differential equations in Cartesian, cylindrical, and spherical coordinates using separation of variables and expansions in orthogonal functions. Apply boundary conditions appropriate for physical systems.

Title
Complex Numbers

Tags
205174, 5

Learning Outcome
Perform algebraic computations involving complex numbers and functions.

Title
Special Functions

Tags
205175, 9

Learning Outcome
Use the properties (such as recursion relations, derivative relationships, and orthogonality conditions) of various special functions, including trigonometric functions, Bessel functions, and Legendre polynomials to solve problems involving those functions.

Title
Fourier Analysis

Tags
205176, 11

Learning Outcome
Use Fourier series and transforms to expand functions and solve partial differential equations on appropriate domains.

PHSCS 321 - Mechanics

Course Information

Teaching Area (new)
PHSCS

Course Number
321

Teaching Area
PHSCS

Course Title
Mechanics

Course Description
Newton's laws applied to particles and systems of particles, including rigid bodies. Conservation principles and Lagrange's and Hamilton's equations.

Department
Physics and Astronomy

When Taught
Fall

  AND PHSCS 121 - Introduction to Newtonian Mechanics
  AND PHSCS 230 - Computational Physics Lab 1

OR

Prerequisites

Complete ALL of the following Courses:

- MATH 314 - Calculus of Several Variables
  AND PHSCS 121 - Introduction to Newtonian Mechanics
  AND PHSCS 230 - Computational Physics Lab 1

Other Prerequisites
Math 303 or 334 or concurrent enrollment.

Recommended
Concurrent enrollment in Phscs 330

Learning Outcomes

Title
Newton's Laws

Tags
205177, 1

Learning Outcome
Use Newtonian mechanics with forces and torques to solve problems in Cartesian and curvilinear coordinates.

Title
Work, Energy, and Momentum

Tags
205178, 2

Learning Outcome
Solve mechanics problems using work-energy, and conservation of energy, momentum and angular momentum.

Title
Rotation

Tags
205179, 3

Learning Outcome
Solve and analyze rigid-body problems and problems in non-inertial frames.

Title
Lagrangion and Hamiltonian mechanics

Tags
205180, 4

Learning Outcome
Use Lagrangian and Hamiltonian mechanics to obtain the equations of motion for a variety of problems, including the use of generalized coordinates and cyclic coordinates.

Title
Perturbation Theory

Tags
205181, 5

Learning Outcome
Use perturbation and similar techniques to linearize equations of motion to analyze stability and study coupled systems using normal modes.

PHSCS 329 - Observational Astronomy

Course Information

Teaching Area (new)
PHSCS

Course Number
329

Teaching Area
PHSCS

Course Title
Observational Astronomy

Course Description
Basic techniques of observational astronomy, emphasizing practical experience in optical data acquisition and analysis.

Department
Physics and Astronomy

When Taught
Fall and Winter

Prerequisites

Complete ALL of the following Courses:

- PHSCS 227 - Planetary and Stellar Astrophysics
  AND C S 111 - Introduction to Computer Science

Recommended
PHSCS 228 concurrent enrollment if not completed

Learning Outcomes

Title
Observing with a Telescope and CCD camera

Tags
205211, 1

Learning Outcome
Obtain publication quality astronomical data (photometric data) using a telescope and CCD camera.

Title
Optical Data Reduction and Analysis

Tags
205212, 2

Learning Outcome
Process raw data and extract astrophysically significant information from data about astronomical objects.

Title
Professional Ethics

Tags
205213, 5

Learning Outcome
Follow professional ethics guidelines in research activities and presentation of results.

Title
Astronomical Written and Verbal Presentation Skills

Tags
205468, 3

Learning Outcome
---Present results in astronomical publication format written in AASTeX.
---Present results in poster form like those at American Astronomical Society meetings.
---Prepare a request for telescope time at a facility outside of BYU

PHSCS 330 - Computational Physics Lab 2

Course Information

Teaching Area (new)
PHSCS

Course Number
330

Teaching Area
PHSCS

Course Title
Computational Physics Lab 2

Course Description
Numerical solution of ordinary differential equations with applications to dynamics and chaos. Introduction to scientific programming.

Department
Physics and Astronomy

When Taught
Fall, Winter, and Summer

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- MATH 302 - Mathematics for Engineering 1
  AND PHSCS 230 - Computational Physics Lab 1
  AND C S 111 - Introduction to Computer Science

OR

Prerequisites

Complete ALL of the following Courses:

- MATH 334 - Ordinary Differential Equations
  AND PHSCS 230 - Computational Physics Lab 1
  AND C S 111 - Introduction to Computer Science

Other Prerequisites
Math 303 or 334 or equivalent; CS 111 or equivalent.

Learning Outcomes

Title
Computer Programming and Differential Equations

Tags
205439, 1

Learning Outcome
Write and debug scientific programs to solve ordinary differential equations and simulate dynamical systems.

Title
Explain Differential Equations

Tags
205440, 2

Learning Outcome
Qualitatively explain how differential equations generate their solution curves.

PHSCS 360 - Statistical and Thermal Physics

Course Information

Teaching Area (new)
PHSCS

Course Number
360

Teaching Area
PHSCS

Course Title
Statistical and Thermal Physics

Course Description
Principles of statistical mechanics and thermodynamics, with applications.

Department
Physics and Astronomy

When Taught
Winter

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- MATH 303 - Mathematics for Engineering 2
  AND PHSCS 222 - Modern Physics

OR

Prerequisites

Complete ALL of the following Courses:

- MATH 334 - Ordinary Differential Equations
  AND PHSCS 222 - Modern Physics

Other Prerequisites
Math 302 or Math 314.

Learning Outcomes

Title
Thermodynamics

Tags
205182, 1

Learning Outcome
Use statistical arguments to explain thermodynamics from first principles, including heat flow and the increase of entropy. Apply these to solve quantitative problems in thermodynamics.

Title
Equilibrium and Phase Transformations

Tags
205183, 2

Learning Outcome
Use thermodynamic potentials, e.g. the Helmholtz and Gibbs free energies, to predict equilibrium states in physical systems and predict phase transformations.

Title
Explain Physical Phenomena

Tags
205184, 3

Learning Outcome
Use simple models to explain physical phenomena in a variety of systems, including: classical and quantum ideal gases, magnetic systems, solids.

PHSCS 383 - Physical Reasoning with Data

Course Information

Course Number
383

Teaching Area
PHSCS

Course Title
Physical Reasoning with Data

Course Description
An experiential learning physics-based approach to data science that includes designing physical experiments, collecting data, and investigating uncertainties, causality and correlation in datasets while developing cross-discipline technical communication skills.

Department
Physics and Astronomy

When Taught
Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Completion Requirement

Fulfill ANY of the following requirements:

Complete ALL of the following Courses:
- STAT 121 - Introduction to Statistical Data Analysis
  AND C S 180 - Introduction to Data Science

OR

Complete ALL of the following Courses:
- STAT 201 - Statistics for Engineers and Scientists
  AND C S 111 - Introduction to Computer Science

OR

Complete ALL of the following Courses:
- STAT 201 - Statistics for Engineers and Scientists
  AND C S 180 - Introduction to Data Science

Learning Outcomes

Title
Information Physics

Tags
214283, 0, 1, 2023-08-29 11:52:41

Learning Outcome
Understand the concepts of information, entropy, probability, and surprise and their use in data science, machine learning, and the modeling of physical systems

Title
Design and Perform Physical Experiments

Tags
214284, 0, 2, 2023-08-29 11:52:42

Learning Outcome
Plan physical experiments and observations; decide what data are needed, determine the sampling parameters; and evaluate limitations in the dataset

Title
Physical Interpretation of Data

Tags
214285, 0, 3, 2023-08-29 11:52:44

Learning Outcome
Recognize erroneous data; detect biases and outliers; apply scaling and nondimensionalization to obtain insights into the data

Title
Causal Relationships in Data

Tags
214286, 0, 4, 2023-08-29 11:52:46

Learning Outcome
Comprehend the difference between correlation and causality and their roles in data science and data-limited information

Title
Scientific Communication and Collaboration

Tags
214287, 0, 5, 2023-08-29 11:52:47

Learning Outcome
Practice communicating across disciplines; participate in active learning classroom, including small group discussion; complete final group project and presentation

PHSCS 391R - Seminar in Current Physics

Course Information

Teaching Area (new)
PHSCS

Course Number
391R

Teaching Area
PHSCS

Course Title
Seminar in Current Physics

Course Description
Attend seminar presentations in current physics and astronomy topics.

Department
Physics and Astronomy

When Taught
Contact Department

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

Learning Outcomes

Title
Current topics

Tags
205453, 1

Learning Outcome
Students will become familiar with current topics in this content area.

Title
Build & strengthen career network

Tags
205454, 2

Learning Outcome
Students will build and strengthen their career network.

Title
Attend seminars

Tags
205455, 3

Learning Outcome
Students will attend 50% of the seminars offered this semester and write a summary of the topic discussed each time.

PHSCS 399R - Academic Internship

Course Information

Teaching Area (new)
PHSCS

Course Number
399R

Teaching Area
PHSCS

Course Title
Academic Internship

Course Description
Research experience in an industrial, academic, or government laboratory, reported to a BYU faculty member.

Department
Physics and Astronomy

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
9

Other Prerequisites
Both department chair's and internship coordinator's consent.

Note
For students engaged in the internship program. An APPROVED Internship Application is required before adding.

Learning Outcomes

Title
Research, Write, Present

Tags
205320, 1

Learning Outcome
Student will report, both verbally and in writing, what he or she learned from the internship experience.

PHSCS 416 - Writing in Physics

Course Information

Teaching Area (new)
PHSCS

Course Number
416

Teaching Area
PHSCS

Course Title
Writing in Physics

Course Description
Writing scientific and technical articles and proposals. Writing and presentation skills applied to senior thesis or capstone project. Resources and guidelines for publishing in physics.

Department
Physics and Astronomy

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Completed research for thesis or capstone project.

Learning Outcomes

Title
Communication

Tags
205237, 0

Learning Outcome
Communicate succinctly and precisely in both written and oral formats.

Title
Ethics

Tags
205243, 2

Learning Outcome
Describe ethical issues that may arise in the physics profession and formulate appropriate responses to these issues.

Title
Thesis

Tags
205309, 1

Learning Outcome
Write a thesis/capstone report or a professional paper.

Title
Professional Documents and Presentations

Tags
205345, 3

Learning Outcome
Produce professional documents (resume, memo, etc.) and presentations.

PHSCS 427 - Stellar Astrophysics

Course Information

Teaching Area (new)
PHSCS

Course Number
427

Teaching Area
PHSCS

Course Title
Stellar Astrophysics

Course Description
The study of the structure, evolution, and light output of stars and how they fit within the galactic structure.

Department
Physics and Astronomy

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- C S 142 - Introduction to Computer Programming
  AND MATH 302 - Mathematics for Engineering 1
  AND PHSCS 228 - Stellar and Extragalactic Astronomy

OR

Prerequisites

Complete ALL of the following Courses:

- C S 142 - Introduction to Computer Programming
  AND MATH 314 - Calculus of Several Variables
  AND PHSCS 228 - Stellar and Extragalactic Astronomy

Learning Outcomes

Title
Astronomical Writing Skills

Tags
205469, 8

Learning Outcome
Prepare an astronomy journal style article detailing a single astronomical topic related to class material. Do this with proper ethical considerations.

Title
Synthesizing Relevant Journal Articles

Tags
205470, 6

Learning Outcome
Read multiple astronomy journal articles covering content from this course and synthesize the information to provide a clearly written discussion of the material.

Title
Astrophysical Content

Tags
205480, 7

Learning Outcome
---Discuss conceptual understanding and work mathematical solutions for the connection between stars and basic galactic structure.
---Discuss conceptual understanding and work mathematical solutions for the formation of spectral lines in astrophysical objects.
---Discuss conceptual understanding and work mathematical solutions for the basics of stellar structure and evolution.
---Use basic equations and computer programs to explore stellar astrophysics.

PHSCS 428 - Galaxies and Cosmology

Course Information

Teaching Area (new)
PHSCS

Course Number
428

Teaching Area
PHSCS

Course Title
Galaxies and Cosmology

Course Description
The study of the formation, nature, and evolution of galaxies together with the study of the universe as a whole using Big Bang cosmology.

Department
Physics and Astronomy

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- C S 142 - Introduction to Computer Programming
  AND MATH 303 - Mathematics for Engineering 2
  AND PHSCS 228 - Stellar and Extragalactic Astronomy

OR

Prerequisites

Complete ALL of the following Courses:

- C S 142 - Introduction to Computer Programming
  AND MATH 334 - Ordinary Differential Equations
  AND PHSCS 228 - Stellar and Extragalactic Astronomy

Recommended
MATH 314.

Learning Outcomes

Title
Galaxy Properties

Tags
205481, 6

Learning Outcome
Students will describe and quantify galaxy morphological types, dynamics, formation history, content, age, chemistry, evolution and clustering. They will place these properties in the context of current theory.

Title
Active Galactic Nuclei

Tags
205482, 7

Learning Outcome
Students will describe the observational aspects of all active galactic nuclei (AGN) classes (quasars, blazars, Seyferts I and II, FR- I and FR-II radio galaxies, LINERS). They will apply the standard model to explain these different classes and to explain how AGN evolve with time.

Title
Cosmology

Tags
205483, 8

Learning Outcome
Starting with Newtonian dynamics, students will derive the basic energy equation of an expanding universe. They will extend it to curved-space using the Robertson-Walker metric, and derive and apply the Friedmann equations to different possible universes.

Title
Big Bang Theory

Tags
205484, 9

Learning Outcome
Students will describe and contrast big bang and steady state cosmologies and explain why big bang is preferred. They will memorize and explain the main eras in big bang evolution including inflation. They will present and explain the significance of the multipole analysis of the cosmic background radiation (CMB).

Title
Technical Writing

Tags
205485, 10

Learning Outcome
Students will research and write a 20 page paper on one aspect of cosmology. They will present this paper either in class or at the spring research conference.

PHSCS 430 - Computational Physics Lab 3

Course Information

Teaching Area (new)
PHSCS

Course Number
430

Teaching Area
PHSCS

Course Title
Computational Physics Lab 3

Course Description
Computational study of static and dynamic boundary value problems, partial differential equations, linear algebra, and eigenvalues. Applications such as electrostatics, thermodynamics, waves, and quantum mechanics. Computational tools to store, share, and analyze data, including machine learning.

Department
Physics and Astronomy

When Taught
Winter

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PHSCS 222 - Modern Physics
  AND PHSCS 318 - Introduction to Mathematical Physics
  AND PHSCS 330 - Computational Physics Lab 2

Learning Outcomes

Title
Numerically Solve Partial Differential Equations

Tags
205441, 1

Learning Outcome
Write and debug programs to solve physics problems involving partial differential equations.

Title
Linear Algebra

Tags
205442, 3

Learning Outcome
Use linear algebra and eigenvalues in the solution of partial differential equations and to find normal modes in mechanical systems.

Title
Data Analysis

Tags
205474, 4

Learning Outcome
Use databases to store and share data. Use machine learning tools to model and find patterns in data.

PHSCS 441 - Electricity and Magnetism

Course Information

Teaching Area (new)
PHSCS

Course Number
441

Teaching Area
PHSCS

Course Title
Electricity and Magnetism

Course Description
Classical theory of static electric and magnetic fields.

Department
Physics and Astronomy

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PHSCS 220 - Introduction to Electricity and Magnetism **AND** PHSCS 318 - Introduction to Mathematical Physics

Learning Outcomes

Title
Vector Calculus

Tags
205185, 1

Learning Outcome
Demonstrate the ability to apply the concepts of vector calculus as used in Maxwell's equations.

Title
Integrating Static Sources

Tags
205186, 3

Learning Outcome
Demonstrate the ability to integrate over a source distribution to calculate time-independent fields and potentials for both electricity and magnetism. Also demonstrate the ability to use Gauss's law and Amperes law to find electric and magnetic fields in symmetric situations.

Title
Image Charges and Currents

Tags
205187, 4

Learning Outcome
Demonstrate the ability to use vacuum harmonics, image charges, and image currents to solve for time-independent electric and magnetic potentials and fields.

Title
Material Influences

Tags
205188, 7

Learning Outcome
Demonstrate the ability to calculate electric and magnetic fields in the presence of matter which can be electrically and magnetically polarized, including the ability to solve problems involving torques and potential energies of electric and magnetic dipoles.

PHSCS 442 - Electrodynamics

Course Information

Teaching Area (new)
PHSCS

Course Number
442

Teaching Area
PHSCS

Course Title
Electrodynamics

Course Description
Maxwell's equations, radiation, interaction of electromagnetic fields with matter, and special relativity.

Department
Physics and Astronomy

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PHSCS 441 - Electricity and Magnetism

Learning Outcomes

Title
Time-dependent Sources

Tags
205189, 1

Learning Outcome
Demonstrate the ability to calculate time-dependent electric fields using Faraday's law and the ability to calculate time-dependent magnetic fields using Maxwell's displacement current.

Title
Energy Densities

Tags
205190, 2

Learning Outcome
Demonstrate the ability to solve problems involving electric and magnetic energy densities and the Maxwell stress tensor.

Title
Electromagnetic Waves

Tags
205191, 3

Learning Outcome
Demonstrate the ability to use Maxwell's equations to solve problems involving electromagnetic waves in vacuum and in matter.

Title
Retarded Time

Tags
205192, 4

Learning Outcome
Demonstrate the ability to use the concept of retarded time to compute radiation potentials.

Title
Relativity

Tags
205193, 5

Learning Outcome
Demonstrate the ability to solve problems involving the special theory of relativity, including 4-vectors, form invariance, and the electromagnetic field tensor.

PHSCS 451 - Quantum Mechanics

Course Information

Teaching Area (new)
PHSCS

Course Number
451

Teaching Area
PHSCS

Course Title
Quantum Mechanics

Course Description
Analytical foundations of quantum mechanics.

Department
Physics and Astronomy

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PHSCS 222 - Modern Physics
  AND PHSCS 318 - Introduction to Mathematical Physics

Learning Outcomes

Title
Concepts of Quantum Mechanics

Tags
205194, 1

Learning Outcome
Understand the mechanics of operators, eigenstates and eigenvalues. Learn how to build wave functions, estimate expectation values and standard deviations, and apply the Heisenberg uncertainty principle.

Title
Mathematical Techniques

Tags
205195, 2

Learning Outcome
Manipulate the Schrödinger equation to solve for wave functions.

Title
Solutions for Standard Potentials

Tags
205196, 3

Learning Outcome
Develop free-particle and bound-state solutions to the Schrödinger equation. (In particular, harmonic oscillator, infinite and finite square-well, finite barrier potentials…).

Title
Hydrogen

Tags
205197, 4

Learning Outcome
Construct simple solutions for Hydrogen atom, angular momentum and spin systems, atoms and solids.

PHSCS 452 - Applications of Quantum Mechanics

Course Information

Teaching Area (new)
PHSCS

Course Number
452

Teaching Area
PHSCS

Course Title
Applications of Quantum Mechanics

Course Description
Applications of quantum mechanics to atomic, molecular, statistical, condensed-matter, and nuclear physics; elementary particles.

Department
Physics and Astronomy

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PHSCS 451 - Quantum Mechanics

Learning Outcomes

Title
Quantum systems

Tags
205198, 2

Learning Outcome
Apply techniques such as time-independent perturbation theory, variational methods, time-dependent perturbation theory, and scattering theory to quantum systems.

Title
Level Splitting

Tags
205199, 4

Learning Outcome
Describe and quantify fine, hyperfine, and Zeeman level splittings in atoms.

Title
Emission and Absorption

Tags
205200, 5

Learning Outcome
Characterize emission and absorption of radiation by atoms, and derive the associated selection rules.

Title
Scattering and Tunneling

Tags
205201, 7

Learning Outcome
Solve quantum scattering and tunneling problems.

PHSCS 461 - (Phscs-Me En) Introduction to Acoustics

Course Information

Teaching Area (new)
PHSCS

Course Number
461

Teaching Area
PHSCS

Course Title
(Phscs-Me En) Introduction to Acoustics

Course Description
Mathematical descriptions of physical phenomena in generation, propagation, and reception of acoustic waves. Fundamental acoustical instrumentation and analysis techniques. Application of physical principles and mathematical models to realistic problems.

Department
Physics and Astronomy

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- MATH 303 - Mathematics for Engineering 2
  AND PHSCS 121 - Introduction to Newtonian Mechanics

OR

Prerequisites

Complete ALL of the following Courses:

- MATH 334 - Ordinary Differential Equations
  AND PHSCS 121 - Introduction to Newtonian Mechanics

Recommended

Phscs 123 or equivalent. Concurrent enrollment in Phscs 318 or equivalent

Learning Outcomes

Title
Acoustical Measurements and Reporting

Tags
205271, 1

Learning Outcome
Perform acoustical measurements, interpret the data, and document the results in the form of technical laboratory reports.

Title
Principles of Acoustics

Tags
205332, 0

Learning Outcome
Demonstrate a conceptual and mathematical understanding of acoustical phenomena, including source radiation, transmission, absorption, and reflection.

Title
Acoustical Calculations

Tags
205370, 2

Learning Outcome
Appropriately calculate various measures of sound, including sound pressure level, transmission loss, sound power, weighted levels, and noise criteria.

PHSCS 471 - Principles of Optics

Course Information

Teaching Area (new)
PHSCS

Course Number
471

Teaching Area
PHSCS

Course Title
Principles of Optics

Course Description
Electromagnetic wave phenomena, including polarization effects, interference, coherence, dispersion, ray theory, diffraction; introduction to quantum nature of light. Laboratory component emphasizes applications.

Department
Physics and Astronomy

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
1

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- MATH 302 - Mathematics for Engineering 1
  AND PHSCS 123 - Introduction to Waves, Optics, and Thermodynamics
  AND PHSCS 220 - Introduction to Electricity and Magnetism

OR

Prerequisites

Complete ALL of the following Courses:

- MATH 314 - Calculus of Several Variables
  AND PHSCS 123 - Introduction to Waves, Optics, and Thermodynamics
  AND PHSCS 220 - Introduction to Electricity and Magnetism

Other Prerequisites
Math 303 or 334 or concurrent enrollment

Recommended
Phscs 318

Learning Outcomes

Title
Basic Optics Concepts

Tags
205202, 1

Learning Outcome
Use mathematical and conceptual descriptions of propagation of light in matter, reflection/transmission at boundaries, polarization effects, interference, dispersion, coherence, image formation, diffraction, and quantum aspects of light to analyze and predict optical phenomena.

Title
Mathematical Tools

Tags
205203, 5

Learning Outcome
Apply mathematical tools such as vector calculus, complex numbers, matrices, and Fourier transforms (1D and 2D) to optical problems.

Title
Lab Work

Tags
205304, 2

Learning Outcome
Manipulate and measure properties of light in a laboratory setting.

PHSCS 477R - Secondary Minor Student Teaching

Course Information

Teaching Area (new)
PHSCS

Course Number
477R

Teaching Area
PHSCS

Course Title
Secondary Minor Student Teaching

Course Description
Supervised, full-day, four week experience to develop and demonstrate competence in teaching minor area course content in the secondary classroom.

Department
Physics and Astronomy

When Taught
Fall, Winter, Spring

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
0

Other Prerequisites
SC ED 377R or minor area equivalent; admittance to teaching major; FBI fingerprint background clearance.

PHSCS 492R - Capstone Project in Applied Physics

Course Information

Teaching Area (new)
PHSCS

Course Number
492R

Teaching Area
PHSCS

Course Title
Capstone Project in Applied Physics

Course Description
Conduct and report original research or appropriate creative work. Mentored career experience combining physics and the chosen area of interest.

Department
Physics and Astronomy

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
2

Lecture Hours

Fixed:
0

Note
Project must be approved before registration or starting project.

Learning Outcomes

Title
Research and Write

Tags
205206, 1

Learning Outcome
Students will produce, in both verbal and written form, a report of what was accomplished in his or her capstone project.

PHSCS 497R - Research in Physics

Course Information

Teaching Area (new)
PHSCS

Course Number
497R

Teaching Area
PHSCS

Course Title
Research in Physics

Course Description
Mentored research in physics or astronomy, with approval from a faculty advisor.

Department
Physics and Astronomy

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
3

Lecture Hours

Fixed:
0

Learning Outcomes

Title
Research and Write

Tags
205276, 1

Learning Outcome
Produce a written report in acceptable scientific style describing the results of this mentored research experience.

PHSCS 498R - Senior Thesis

Course Information

Teaching Area (new)
PHSCS

Course Number
498R

Teaching Area
PHSCS

Course Title
Senior Thesis

Course Description
Conduct and report research under a department faculty mentor or other professional.

Department
Physics and Astronomy

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
2

Lecture Hours

Fixed:
0

Note
Thesis topic must be cleared by faculty member before registration.

Learning Outcomes

Title
Research

Tags
205291, 1

Learning Outcome
Perform significant research in physics or astronomy under the direction of a faculty or internship mentor.

Title
Ethics

Tags
205401, 3

Learning Outcome
Do the above within professional ethical standards.

Title
Writing

Tags
205404, 2

Learning Outcome
Present their research in a written document that follows professional standards in the field.

PHSCS 500 - (Phscs-Chem-C S-Geol-Math-MthEd-Stat) Business Career Essentials in Science and Math

Course Information

Teaching Area (new)
PHSCS

Course Number
500

Teaching Area
PHSCS

Course Title
(Phscs-Chem-C S-Geol-Math-MthEd-Stat) Business Career Essentials in Science and Math

Course Description
Introduction for science, math, and statistics majors to careers in industry. Project planning, oral and written business presentations, business accounting, and technology readiness.

Department
Physics and Astronomy

When Taught

Other Prerequisites
Instructor's consent

Learning Outcomes

Title
Master Subject

Tags
205419, 1

Learning Outcome
Demonstrate the ability to achieve the learning outcomes of this trial course whose subject is variable.

PHSCS 522 - Introduction to Elementary Particles Physics

Course Information

Course Number
522

Teaching Area
PHSCS

Course Title
Introduction to Elementary Particles Physics

Course Description
Relativistic wave equations, symmetries, and conservation laws of classical field theories, connection with particle experiment, development of the standard model of particle physics.

Department
Physics and Astronomy

When Taught
Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PHSCS 222 - Modern Physics
  AND PHSCS 318 - Introduction to Mathematical Physics
  AND PHSCS 321 - Mechanics

Learning Outcomes

Title
Become fluent in relativistic field theory

Learning Outcome
Be able to use and understand relativistic kinematics and relativistic field equations for particles of spin 0, spin 1/2, and spin 1

Title
Make connection with particle experiment

Learning Outcome
Be able to use decay rates and cross sections to experimentally verify particle phenomena

Title
Understand the structure of the standard model of elementary par

Learning Outcome
Be proficient in the characteristics of photons, leptons, quarks, neutrinos, gluons, weak vector bosons and the Higgs particle and understand the symmetries of the standard model and their physical consequences

Title
Simulate, analyze, and communicate high-energy physics research

Learning Outcome
Be knowledgeable and proficient in professional particle physics practices

PHSCS 529 - Advanced Observational Astronomy

Course Information

Teaching Area (new)
PHSCS

Course Number
529

Teaching Area
PHSCS

Course Title
Advanced Observational Astronomy

Course Description
Advanced techniques of observational astronomy, emphasizing knowledge and skills necessary to carry out observational scientific investigation in astronomy.

Department
Physics and Astronomy

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PHSCS 427 - Stellar Astrophysics
  AND PHSCS 428 - Galaxies and Cosmology

Learning Outcomes

Title
Robotic and Remote telescopes

Tags
205240, 1

Learning Outcome
Program an observing schedule into a remote/robotic telescope system to acquire high quality data.

Title
Infared Observations

Tags
205270, 2

Learning Outcome
Process and analyze infrared astronomical data sets.

Title
Optical Astronomy

Tags
205274, 1

Learning Outcome
Reduce all-sky photometric astronomical data in multiple filters.

Title
Spectroscopic Observations

Tags
205324, 4

Learning Outcome
Reduce raw astronomical spectroscopic data to 1D wavelength calibrated stectra and calculate astrophysically important data from those spectra.

Title
Multi-wavelength Observations

Tags
205414, 5

Learning Outcome
Describe observing programs that require multi-wavelength observing programs.

Title
Radio Astronomy

Tags
205426, 3

Learning Outcome
Obtain, process, and analyze radio data on astronomical objects.

PHSCS530 - Computational Physics

Course Information

Course Number
530

Teaching Area
PHSCS

Course Title
Computational Physics

Course Description
Practical and theoretical aspects of computational physics. Theoretical foundations of computation. Numerical recipes for scientific computing. Best practices for scientific computing.

Department
Physics and Astronomy

When Taught
Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Completion Requirement

Prerequisites

Complete ALL of the following Courses:
- PHSCS 330 - Computational Physics Lab 2

Learning Outcomes

Title
Theoretical Foundations of Computation

Tags
214294, 0, 1, 2023-08-29 11:54:33

Learning Outcome
Understand the relationship of computational physics to the broader discipline of computer science, models of computation, and measures of computational complexity. Apply concepts of numerical stability, precision, and convergence to analyze algorithms.

Title
Numerical Recipes of scientific computing

Tags
214295, 0, 2, 2023-08-29 11:54:35

Learning Outcome
Be familiar with modern algorithms used in numerical linear algebra, integration and differentiation, Monte Carlo sampling, optimization, approximating solutions to differentiation equations, and Fourier analysis. Know the advantages and limitations of algorithms and how to determine whether an algorithm is appropriate for a particular task. Understand and remediate the complications that arise from finite precision arithmetic.

Title
Best practices for scientific computing

Tags
214296, 0, 3, 2023-08-29 11:54:37

Learning Outcome
Be familiar with best practices in code organization, documentation, and version control, particularly for collaborative projects and reproducible science.

PHSCS 540 - Electrical Engineering Principles and Practices for Physicists

Course Information

Teaching Area (new)
PHSCS

Course Number
540

Teaching Area
PHSCS

Course Title
Electrical Engineering Principles and Practices for Physicists

Course Description
Electronic instrumentation theory and methods. Computer aided circuit design and analysis with transforms, logic and computer simulation. Analog, digital, and discrete signal systems. Printed circuit design and system-on-a-chip creation.

Department
Physics and Astronomy

When Taught
Contact Department

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
6

Other Prerequisites
Phscs 140, 145, 220; Math 303 or 334; ability to program in Matlab.

Learning Outcomes

Title
Mathematical modeling of electronic circuits & software simulation of circuits

Tags
205449, 1

Learning Outcome
Students will acquire introductory skill in topics advanced for typical physics curriculum
in the application of Laplace Transforms to passive and active analog circuits.
in SPICE simulation software for transistor and operational amplifier circuits.
in component level debug and repair.
in digital logic synthesis and reduction.

Title
Microcontroller implementation and programming

Tags
205450, 2

Learning Outcome
Students will acquire introductory skill in topics advanced for typical physics curriculum
in computing theory and microcontroller applications and programming.

Title
Synthesis of programmable logic

Tags
205451, 3

Learning Outcome
Students will acquire introductory skill in topics advanced for typical physics curriculum
in field programmable gate array (FPGA) configuration, application, and the notion of a system on a chip (SoC).

Title
Circuit manufacturing and packaging skills

Tags
205452, 4

Learning Outcome
Students will acquire introductory skill in topics advanced for typical physics curriculum
in computer aided design (CAD) for printed circuits, soldering, manual chassis wiring, and the use of sheet metal for constructing electronic chassis.
in thru hole and surface mount technology assembly and repair, including high pin count, high pin pitch parts.

PHSCS 545 - Introduction to Plasma Physics

Course Information

Teaching Area (new)
PHSCS

Course Number
545

Teaching Area
PHSCS

Course Title
Introduction to Plasma Physics

Course Description
Introduction to plasma physics, including single-particle motion and both fluid and kinetic models of plasma behavior.

Department
Physics and Astronomy

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PHSCS 321 - Mechanics
  AND PHSCS 441 - Electricity and Magnetism

Learning Outcomes

Title
Kinetic Theory and Nonlinear Effects

Tags
205256, 3

Learning Outcome
Solve problems and answer conceptual questions involving the kinetic theory of plasmas and nonlinear effects.

Title
Particle and Fluid Descriptions

Tags
205335, 1

Learning Outcome
Solve problems and answer conceptual questions involving both the single-particle and the fluid descriptions of a plasma.

Title
Waves

Tags
205409, 1

Learning Outcome
Describe and characterize the various waves found in a plasma.

Title
Equilibrium and Stability

Tags
205418, 2

Learning Outcome
Determine the equilibrium and evaluate the stability of simple plasma configurations.

PHSCS 560 - Acoustical Measurement Methods

Course Information

Teaching Area (new)
PHSCS

Course Number
560

Teaching Area
PHSCS

Course Title
Acoustical Measurement Methods

Course Description
Acoustics-based data acquisition and signal processing in the time and frequency-domain domains. Use of acoustical measurement standards. Preparation of technical memoranda.

Department
Physics and Astronomy

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:

PHSCS 561 - (Phscs-Me En) Fundamentals of Acoustics.

Course Information

Teaching Area (new)
PHSCS

Course Number
561

Teaching Area
PHSCS

Course Title
(Phscs-Me En) Fundamentals of Acoustics.

Course Description
Vibrating systems, elastic media, mechanical energy, and radiation. Sound generation, transmission, reflection, and reception.

Department
Physics and Astronomy

When Taught
Fall.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Phscs 318 or equivalent; Phscs 461 or concurrent enrollment.

Recommended
Phscs 318, 321; or equivalents

Learning Outcomes

Title
Vibrations

Tags
205342, 1

Learning Outcome
Understand physical phenomena underlying vibrations of solids, including damping, driven systems, coupled oscillators, impedance, boundary conditions, elasticity, and longitudinal, transverse, and torsional waves. Apply physical models to quantify vibrations in strings, rods, membranes, beams, plates.

Title
Sound

Tags
205382, 1

Learning Outcome
Understand physical phenomena underlying sound propagation including energy, intensity, plane waves, standing waves/normal modes, Helmholtz resonators, reflection, transmission, refraction, and absorption. Apply the acoustic wave equation in one, two, and three dimensional systems.

Title
Communication

Learning Outcome
Communicate effectively with others in the class as you work together to learn the material and solve problems. Practice respect and professionalism in your communications both oral and written as you work in groups on the assignments.

PHSCS 571 - Lasers and Atoms

Course Information

Teaching Area (new)
PHSCS

Course Number
571

Teaching Area
PHSCS

Course Title
Lasers and Atoms

Course Description
Laser amplification, cavity design, and control and characterization of temporal and spatial modes. Interactions between lasers and atoms.

Department
Physics and Astronomy

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Phscs 451, 471; or equivalents.

Learning Outcomes

Title
Light-matter Interactions

Tags
205272, 3

Learning Outcome
Describe interactions of light and matter within a semi-classical two-level-atom framework.

Title
Laser Design

Tags
205316, 1

Learning Outcome
Design stable laser resonators, frequency-locking feedback systems, and pulsed-output mode-locking systems.

Title
Atomic Properties

Tags
205340, 4

Learning Outcome
Compute cross sections and selection rules for transitions in hydrogen.

Title
Physics of Lasers

Tags
205359, 2

Learning Outcome
Compute cavity threshold gain, optimal output coupling, and gain saturation.

Title
Measuring Laser Characteristics

Tags
205371, 1

Learning Outcome
Measure durations of femtosecond pulses and the line width and center frequency of frequency-stabilized sources.

PHSCS 580 - Theory of Predictive Modeling

Course Information

Course Number
580

Teaching Area
PHSCS

Course Title
Theory of Predictive Modeling

Course Description
Mathematical, computational, and philosophical foundations of machine learning and its dual problem, control. Introduction to system identification, causality, uncertainty, model. approximation, and information geometry

Department
Physics and Astronomy

When Taught
Fall

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

No Requirements

Learning Outcomes

Title
Problem Formulation

Tags
214288, 0, 1, 2023-08-29 11:53:22

Learning Outcome
Precisely formulate, and understand the distinction between, mathematical learning and control problems. This outcome is Intellectually Enlarging because it requires the rigorous mental discipline and logical clarity necessary to define and categorize complex systems.

Title
Solution Techniques

Tags
214289, 0, 2, 2023-08-29 11:53:24

Learning Outcome
Be familiar with common methods for solving learning problems. Note the role of optimization as a method for separating solution design from specific computational methods, and understand the role of key ideas like gradient descent and convexity. This fulfills the Intellectually Enlarging aim by helping students master the technical depth of gradient descent and convexity within their professional practice.

Learning Outcome
Be familiar with a rich collection of model classes used in a wide variety of disciplines. Explore one area deeply in the construction of a specific, predictive model as part of a semester-long project. This supports Lifelong Learning and Service by training students to "go forth to serve" as they apply their predictive expertise to solve meaningful problems in the broader community.

Title
System Identification

Tags
214290, 0, 3, 2023-08-29 11:53:26

Learning Outcome
Apply learning techniques to model classes of controlled dynamical systems. Understand notions of data informativity, model identifiability, and the spectrum of model classes linking phenomenological (black box) and mechanistic (white box) models.

Title
Limitations

Tags
214291, 0, 4, 2023-08-29 11:53:27

Learning Outcome
Understand how uncertainty is modeled and its role in learning and control problems. Be familiar with ways in which machine learning fails. This builds Character by fostering the integrity and responsibility required to acknowledge the boundaries of technical solutions and manage the risks of failure.

Title
Model Approximation

Tags
214292, 0, 5, 2023-08-29 11:53:29

Learning Outcome
Understand the ideas of coarse-graining, universality classes, the renormalization group, and other methods for approaching model approximation. Understand information geometry and be able to apply the model boundary approximation method for a class of models.

Title
Application

Tags
214293, 0, 6, 2023-08-29 11:53:31

PHSCS 581 - Solid-State Physics

Course Information

Teaching Area (new)
PHSCS

Course Number
581

Teaching Area
PHSCS

Course Title
Solid-State Physics

Course Description
Introduction to the physics of solids. Crystal structure and symmetry, X-ray diffraction, lattice vibrations, metals and semiconductors, superconductivity, thermal properties, magnetic properties, and dielectric and optical properties.

Department
Physics and Astronomy

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Phscs 222 or equivalent

Learning Outcomes

Title
Basic Concepts in Condensed Matter Physics

Tags
205260, 1

Learning Outcome
Explain the following basic concepts underlying the topics in solid state physics: (1) crystal symmetry, (2) reciprocal lattice and the first Brillouin zone in k-space, and (3) the quantum behavior of electrons, Pauli's exclusion principle, and the Fermi-Dirac distribution function.

Title
Physical Properties of Solids

Tags
205298, 1

Learning Outcome
Use these basic concepts to explain crystal structure, x-ray diffraction, lattice vibrations, behavior of electrons in metals and semiconductors, and thermal, magnetic, dielectric and optical properties of materials.

Title
Solve Problems

Tags
205375, 2

Learning Outcome
Show their understanding of these topics and their underlying concepts by solving problems using a variety of mathematical tools.

PHSCS 583 - Physics of Nanostructures, Surfaces, and Interfaces

Course Information

Teaching Area (new)
PHSCS

Course Number
583

Teaching Area
PHSCS

Course Title
Physics of Nanostructures, Surfaces, and Interfaces

Course Description
Properties of nanostructures, surfaces, and interfaces; experimental methods. Applications to emerging problems and opportunities in science and technology. Emphasis on concepts.

Department
Physics and Astronomy

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

3

Lab Hours

Fixed:
0

Other Prerequisites
Phscs 222 or equivalent

Recommended
Phscs 281 or 581 or equivalent; Phscs 451 or Chem 462 or equivalent.

Learning Outcomes

Title
Demonstrate knowledge

Tags
205456, 2

Learning Outcome
Students will demonstrate knowledge in nano and surface physics.

Title
Deepen understanding

Tags
205457, 1

Learning Outcome
Students will deepen their understanding of nano and surface physics.

Title
Improve ability to solve problems

Tags
205458, 3

Learning Outcome
Students will improve their ability to solve problems using nano and surface physics.

PHSCS 585 - Thin-Film Physics

Course Information

Teaching Area (new)
PHSCS

Course Number
585

Teaching Area
PHSCS

Course Title
Thin-Film Physics

Course Description
Preparation, characterization, use, and special properties of modern thin films; interdisciplinary treatment. Of interest to students in applied physics and engineering.

Department
Physics and Astronomy

When Taught
Fall Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Phscs 222 or equivalent

Learning Outcomes

Title
Thin Film Basics

Tags
205255, 1

Learning Outcome
Solve problems and answer conceptual questions, utilizing the graphs, figures and photographs of thin film material science, about structural and chemical aspects of thin films in relation to their environment.

Title
Solve Problems

Tags
205331, 1

Learning Outcome
Solve problems and answer conceptual questions involving deposition and characterization of films, and explain which ones that best match resources and requirements.

PHSCS 586 - Transmission Electron Microscopy for Physical Science and Engineering

Course Information

Teaching Area (new)
PHSCS

Course Number
586

Teaching Area
PHSCS

Course Title
Transmission Electron Microscopy for Physical Science and Engineering

Course Description
Practical and theoretical aspects of sample preparation, basic and advanced imaging, electron diffraction, and other analytical materials characterization techniques on the transmission electron microscope (TEM).

Department
Physics and Astronomy

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Learning Outcomes

Title
Images

Tags
205247, 1

Learning Outcome
Use the TEM to acquire different types of images and diffraction patterns of various materials.

Title
How the TEM works

Tags
205333, 2

Learning Outcome
Demonstrate a working knowledge of the physical components of the TEM and peripheral equipment.

Title
Alignment

Tags
205388, 1

Learning Outcome
Perform basic, necessary alignments of the transmission electron microscope (TEM).

Title
TEM Research

Tags
205423, 3

Learning Outcome
Show understanding of the theory and practice of electron imaging, electron diffraction and X-ray energy dispersive spectrometry, as how they apply to the characterization of materials.

PHSCS 587 - Physics of Semiconductor Devices

Course Information

Teaching Area (new)
PHSCS

Course Number
587

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- PHSCS 281 - Principles of Solid State Physics

OR

Prerequisites

Complete ALL of the following Courses:

- PHSCS 581 - Solid-State Physics

OR

Prerequisites

Complete ALL of the following Courses:

- EC EN 450 - Introduction to Semiconductor Devices

Learning Outcomes

Title
Fundamental Mechanisms

Tags
205284, 1

Learning Outcome
Identify the fundamental mechanisms and models of these mechanisms controlling the operation of semiconductor devices.

Title
Learn the Literature

Tags
205318, 2

Learning Outcome
Find, read, and utilize contemporary semiconductor device physics literature to write reviews of this literature.

Title
Analyze Devices

Tags
205397, 1

Learning Outcome
Apply the fundamental mechanisms and models to the analysis of devices such as silicon mosfets, silicon on insulator transistors, carbon nanotube transistors, and graphene transistors.

PHSCS 588 - Scanning Electron Microscopy (SEM) for Physical Science and Engineering

Course Information

Teaching Area (new)
PHSCS

Course Number
588

Teaching Area
PHSCS

Course Title
Scanning Electron Microscopy (SEM) for Physical Science and Engineering

Course Description
Theoretical aspects of sample preparation, basic and advanced imaging, X-ray energy dispersive spectrometry, and other analytical materials characterization techniques on the scanning electron microscope (SEM).

PHSCS 599R - Academic Internship

Course Information

Teaching Area (new)
PHSCS

Course Number
599R

Teaching Area
PHSCS

Course Title
Academic Internship

Course Description
Cooperative education internships off campus.

Department
Physics and Astronomy

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
9

Other Prerequisites
Department internship coordinator's consent

Note
An APPROVED Internship Application is required before adding.

Learning Outcomes

Title
Report

Tags
205373, 0

Learning Outcome
Student will report, both verbally and in writing, what he or she learned from the internship experience.

PHY S 100 - Physical Science

Course Information

Teaching Area (new)
PHY S

Course Number
100

Teaching Area
PHY S

Course Title
Physical Science

Course Description
Conceptual lectures and demonstrations of the most significant and universal laws and models describing the physical world by faculty from the Physics and Astronomy, Chemistry and Biochemistry, and Geology departments.

When Taught
Fall; Winter; Spring; Summer.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Note
Satisfies GE Physical Science requirement. Help is available for multicultural students. See instructor. Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Further Scientific Questions

Tags
205310, 3

Learning Outcome
Students will be able to explain how these principles and models in turn lead to further scientific questions.

Title
Express Scientific Ideas

Tags
205421, 1

Learning Outcome
Students will be able to express their thoughts (in oral, graphical, and written formats) on scientific topics clearly, including appropriate use of basic scientific vocabulary and effective interpretation of quantitative data.

Title
Observe and Apply Physical Principles

Tags
206525, 0

Learning Outcome
Students will be able to observe physical phenomena and recognize and apply the fundamental principles of science to these simple physical situations.They will also be able to extend these principles and models to situations they have not observed and make predictions about the outcomes.

Title
Public Policy

Tags
206540, 3

Learning Outcome
Students will be able to evaluate scientific data and claims in order to make rational decisions on public policy issues related to science that affect them and their communities.

Title
Science and Religion

Tags
206542, 2

Learning Outcome
Students will be able to rationally reflect and discuss about the interface between science and religion.

PHY S 276 - Exploration of Teaching

Course Information

Teaching Area (new)
PHY S

Course Number
276

Teaching Area
PHY S

Course Title
Exploration of Teaching

Course Description
Field-based initial teaching experience directed at helping prospective teachers experience demands and opportunities associated with teaching secondary students.

Department
Chemistry and Biochemistry

When Taught
Fall and Winter

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
4

Lab Hours

Fixed:
0

Other Prerequisites
FBI fingerprint and background clearance

Learning Outcomes

Title
Complete 40 hours of classroom observation

Tags
205906, 2

Learning Outcome
Engage in the exploration of teachers and students in the public school to come to a conclusion if teaching physical science is a career path you want to pursue.

Title
Guiding Principles

Tags
205937, 1

Learning Outcome
Students will become familiar with the four moral dimensions of education as outlined by the McKay School of Education

Title
Complete all transition points in transition points.

Tags
205938, 3

Learning Outcome
Complete transitions forms in McKay School date collection program.

Transition 1 (276 Course)
Transition 2 (377-378 Course)
Transition 3 (476-496 Student Teaching and Internship)

PHY S 312 - Teaching Science with Technology

Course Information

Course Number
312

Teaching Area
PHY S

Course Title
Teaching Science with Technology

Course Description
Teaching Science with Technology and Engineering focuses on the technology and engineering applications of STEM and how they can be used in science courses in particular by preservice teachers to help students learn and understand content. We review frameworks and practices that help teachers optimally engage their students in authentic design and activities that provide context to science. We study emerging technologies with immediate application and relevance to High school students. The course is framed within three different projects rooted in 3D printing and design, programming, and using artificial intelligence for teaching.

Department
Physics and Astronomy

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisite

Type
Prerequisite

Prerequisite

Complete ALL of the following Courses:

- PHY S 276 - Exploration of Teaching

Learning Outcomes

Title
Technology Foundations

Learning Outcome
• The preservice teachers will become proficient with the educational technology framework of PICRAT and PCK for Tech

Title
Experiential Engineering Design

Learning Outcome
• Ability to develop and engage in lessons built on engineering design

Title
Evaluating Technology

Learning Outcome
• The ability to evaluate technology use in the classroom (affordances and strengths), identify technology resources, and participate in online communities

Title
Ethics

Learning Outcome
• A familiarity with the ethical uses and practice of technology and online resources in the classroom

Title
Technology Pedagogy

Learning Outcome
• The ability to design learning opportunities that use technology and engineering practices to enhance science learning for their future students

PHY S 377 - Teaching Methods and Instruction

Course Information

Teaching Area (new)
PHY S

Course Number
377

Teaching Area
PHY S

Course Title
Teaching Methods and Instruction

Course Description
Developing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

Department
Chemistry and Biochemistry

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PHY S 276 - Exploration of Teaching

Learning Outcomes

Title
Develop a Unit Plan of Secondary Science Instruction

Tags
205907, 1

Learning Outcome
Using Science Standards as a quide develop Assessments, Lesson Plans, Outlines, and all parts of a unit of science instruction.

Title
Introduction to different teaching styles

Tags
205908, 2

Learning Outcome
Inquiry, Constructivism, Lab, Activities, Projects and other methods to engage students in learning. These teaching methods will be modeled and practiced by the students.

Title
Transition 2 completed

Tags
205909, 3

Learning Outcome
Students will complete Transition 2 level toward teaching license.

PHY S 378 - Practicum in Secondary Education

Fixed:
0

Lab Hours

Fixed:
3

Other Prerequisites
Concurrent enrollment in Phy S 377

Learning Outcomes

Title
Teach unit prepared in PHY S 377

Tags
205910, 1

Learning Outcome
30 practicum hours where you teach a unit of instruction with guidance public school mentor.

PHY S 476 - Secondary Student Teaching

Course Information

Teaching Area (new)
PHY S

Course Number
476

Teaching Area
PHY S

Course Title
Secondary Student Teaching

Course Description
Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

Department
Chemistry and Biochemistry

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
12

Other Prerequisites
Prior application; requires a total GPA of 3.00, at least a C grade in all major and minor courses; FBI fingerprint background clearance.

Learning Outcomes

Title
Student Teaching Transition 3

Tags
205940, 1

Learning Outcome
Have (TWS) teacher work sample complete and handed in two weeks before reading days of sememster.
Sign all mylink forms for teacher licensure completed. Mentor teacher UPTOP and University UPTOP evauations.

0

Other Prerequisites
Advanced proficiency in a foreign language

PLANG 380 - Computer-Assisted Translation

Course Information

Teaching Area (new)
PLANG

Course Number
380

Teaching Area
PLANG

Course Title
Computer-Assisted Translation

Course Description
Exploration of computer-assisted translation technology and how it is used to solve problems concerning translation quality, speed, and freedom of content.

Department
Language Studies

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Translation & Localization Minors and Spanish Translation Majors only. Complete 1 of the following: PLANG 414, SPAN 360, SPAN 370, CHIN 327 or FREN 414.

Recommended
DIGHT 270; PLANG 270

Learning Outcomes

Title
Analysis & Application of Translation Tools

Tags
209947, 0, 1

Learning Outcome
Analyze the benefits/challenges of different translation solutions and manage projects using those tools.

Title
Future of Translation Technology

Tags
209948, 0, 2

Learning Outcome
Discuss the possible future of translation technology, including future applications of existing technology and future development of new technologies, drawing on class assignments and a personal project.

Title
Bi-text Corpora

Tags
209949, 0, 3

Learning Outcome
Create a bi-text corpus and derive translation memory and terminology from that bi-text corpus.

Title
Translation Project

Tags
209950, 0, 4

Learning Outcome
Use machine translation, translation memory, and terminology in conjunction with a translation environment tool to complete a translation project according to the the project's specifications (text type, audience, and purpose).

PLANG 399R - Translation & Localization Internship

Course Information

Teaching Area (new)
PLANG

Course Number
399R

Teaching Area
PLANG

Course Title
Translation & Localization Internship

Course Description
Off-campus internship experience in the field of Translation & Localization.

Department
Language Studies

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
9

Other Prerequisites
For students in the Translation & Localization Minor and the Spanish Translation Major
Approval from course instructor required.

Recommended
PLANG 270, PLANG 380, PLANG 460, PLANG 470

Note
An APPROVED Internship Application is required before adding. Students should meet with advisor in Liberal Arts Advisement & Careers to discuss internship options before registering for course. https://sa.byu.edu/psp/ps/EMPLOYEE/HRMS/c/Y_INTERNSHIP_STUDENT.Y_INT_WELCOME.GBL?nb

Learning Outcomes

Title
Understanding of key competencies in professional contexts

Tags
209954, 0, 1

Learning Outcome
Students will be able to identify, through evidence-based narrative, professional competencies in the translation and localization context.

Title
Demonstrating the added value of professional development experience

Tags
209955, 0, 2

Learning Outcome
Students will be able to translate the value of their professional development experience through an evidence-based story of what they offer future employers.

PLANG 414 - Introduction to Translation

Course Information

Teaching Area (new)
PLANG

Course Number
414

Teaching Area
PLANG

Course Title
Introduction to Translation

Course Description
Readings, individual research projects, and group translation activities. Introduction to the translation profession. Development of the ability to read texts critically and translate general texts in a variety of professional domains.

Department
Language Studies

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Advanced proficiency in a foreign language

Recommended
DIGHT 270; PLANG 270

Learning Outcomes

Title
Connecting Learning to Life: Industry Knowledge

Tags
211198, 0, 3

Learning Outcome
Demonstrate an undertanding of the translation industry, including questions of localization and domain.

Title
Critical Thinking and Expression : Method of Translation

Tags
211196, 0, 1

Learning Outcome
Explain and apply genre-specific methods (e.g. discourse analysis, functional adequacy) for resolving common translation problems (e.g., challenges of figurative language, rhetorical patterns).

Title
Critical Thinking and Expression: Evaluation

Tags
211197, 0, 2

Learning Outcome
Demonstrate the ability to evaluate translation quality according to criteria such as conformity to specifications (e.g. audience, translator's purpose).

PLANG 460 - Software Localization

Course Information

Teaching Area (new)
PLANG

Course Number
460

Teaching Area
PLANG

Course Title
Software Localization

Course Description
Exploration of the technology and challenges behind creating multilingual software, including multilingual input and Unicode, dictionaries, managing string resources, and localization testing.

Department
Language Studies

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PLANG 380 - Computer-Assisted Translation

Other Prerequisites
For students in the Translation & Localization Minor

Recommended
DIGHT 270; PLANG 270

Learning Outcomes

Title
Triage & Troubleshoot

Tags
209951, 0, 1

Learning Outcome
Triage and troubleshoot platform-specific challenges.

Title
String Resources Management

Tags
209952, 0, 2

Learning Outcome
Manage string resources for software projects efficiently, including version control, string externalization, locale-specific string management, and bilingual/monolingual string resource files.

Title
Human-centered Approach

Tags
209953, 0, 3

Learning Outcome
Apply a human-centered approach to identifying localized software requirements.

PLANG 480 - Advanced Systems and Artificial Intelligence (AI) Use in Translation

Course Information

Teaching Area (new)
PLANG

Course Number
480

Teaching Area
PLANG

Course Title
Advanced Systems and Artificial Intelligence (AI) Use in Translation

Course Description
Advanced exploration of how artificial intelligence (AI) and computer-assisted translation technologies are used to solve problems in translation quality, speed, and range of content domains.

Department
Language Studies

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PLANG 380 - Computer-Assisted Translation

Other Prerequisites
For students in the Translation & Localization Minor

Recommended
PLANG 380

Learning Outcomes

Title
Bilingual Corpus

Tags
211705, 0, 1

Learning Outcome
Utilize a bilingual corpus to train a custom machine translation engine.

Title
XML Files Format Standards

Tags
211706, 0, 2

Learning Outcome
Gain an in-depth understanding of XML-based industry file-format standards.

Title
Translation Memory & Terminology Skills

Tags
211707, 0, 3

Learning Outcome
Refine translation memory and terminology management skills within industry tools.

Title
Regular Expressions

Tags
211708, 0, 4

Learning Outcome
Demonstrate proficiency with Regular Expressions.

PLANG 505 - Professional Language Program Seminar

Course Number
110

Teaching Area
POLI

Course Title
American Government and Politics

Course Description
Origin and development of federal Constitution; national, state, and local governments and politics.

Department
Political Science

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
Additional seats for specific sections may be available to Freshman Mentoring participants through envelopes. Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Analyze and Contextualize Current Events

Tags
184538, 0

Learning Outcome

Analyze current events in American politics using Political Science concepts.

Title
Describe Constitutional Provisions

Tags
184539, 1

Learning Outcome

Describe the most important constitutional provisions in American national government and how they have changed over time.

Title
Explain Individuals' Roles in American Government

Tags
184540, 2

Learning Outcome

Explain the role individuals play in American government and what factors influence their behavior.

Title
Assess American Political Institutions

Tags
184541, 3

Learning Outcome

Assess the functions and interactions of American political institutions.

Title
Learn to Participate Effectively in Political Process

Tags
184542, 4

Learning Outcome

Evaluate how you as an individual can effectively participate in the political process.

POLI 150 - Comparative Government and Politics

Learning Outcomes

Title
Faith and Political Analysis

Tags
184191, 3

Learning Outcome
Reflect on the way that your faith speaks to your opinions and political participation

Title
Deeper Understanding

Tags
184192, 4

Learning Outcome
Define and recall fundamental facts, actors, processes and concepts relating to comparative politics, while developing expertise in one or more countries

Title
Critical Thinking and Analysis

Tags
184543, 1

Learning Outcome
Elaborate and critique theoretical arguments about the causes of democracy and autocracy, electoral behavior, economic development, and other important topics in comparative politics.

Title
Sophisticated Use of Evidence

Tags
183708, 1

Learning Outcome
Measure phenomena and evaluate evidence that addresses important questions in comparative politics.

Title
Effective Communication

Tags
184095, 3

Learning Outcome
Write and speak in a manner that is clear, professional, and respectful.

Title
Faith and Political Analysis

Tags
184118, 5

Learning Outcome
Reflect on the ways in which science and faith work together.

200

Teaching Area
POLI

Course Title
Political Inquiry

Course Description
Methodology of political science, including theory and techniques of qualitative and quantitative research design.

Department
Political Science

When Taught
Fall and Winter

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
1

Note
Prerequisite to all upper-division courses.

Learning Outcomes

Title
Faith and Political Analysis

Tags
183712, 1

Learning Outcome
Reflect on the ways in which science and faith work together.

Title
Explore and understand existing research

Tags
183914, 4

Learning Outcome
Find, read, critically evaluate, and synthesize existing social science research as a basis for developing new research projects.

Title
Develop research designs

Tags
183968, 5

Learning Outcome
Formulate well-developed research questions and research designs that will produce new knowledge.

Title
Articulate theoretical arguments

Tags
183980, 0

Learning Outcome
Elaborate theoretical arguments about cause and effect in social science.

Title
Understand hypothesis testing

Tags
184017, 0

Learning Outcome
Construct, evaluate, and test hypotheses using qualitative, quantitative, and experimental methods.

Title
Effective Writing

Learning Outcome
Write in a professional, academic way.

POLI 201 - Western Political Heritage 1

Course Information

Teaching Area (new)
POLI

Course Number
201

Teaching Area
POLI

Course Title
Western Political Heritage 1

Course Description
Western civilization from Greek antiquity to Renaissance, primarily from perspective of political philosophy and scriptures; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

Department
Political Science

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
Additional seats for specific sections may be available to Freshman Mentoring participants through envelopes. Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at "https://is.byu.edu/catalog/POLI-201-M003"

Learning Outcomes

Title
Promoting the Dual Heritage of Scholarship and Faith

Tags
184183, 1

Learning Outcome
Apply the insights of classical political philosophy to embrace the spiritual and intellectual aims of BYU education and defend them against the influence of relativism and reductionist scientism.

Title
Learning Lifelong Values and Habits

Tags
184184, 2

Learning Outcome
Cultivate intellectual and moral virtues that allow us to rise above extreme and unreasonable political passions.

Title
Critical Thinking and Analysis

Tags
184185, 3

Learning Outcome
Articulate both the rivalry and the partnership between Christian faith and reason, the permanent truths and enduring questions of a civilization built Jerusalem and Athens.

Title
Defending the Sources of Virtue and True Happiness

Tags
184186, 4

Learning Outcome
Be able to defend the sources of virtue and true happiness available in nature and reason as well as faith and revelation.

Title
Discerning the Mutual Influence of the City and the Soul

Tags
184187, 5

Learning Outcome
Discern the mutual influence of "the city and the soul," political norms on the one hand and moral and religious convictions on the other.

Title
Articulate theological foundations

Tags
184188, 6

Learning Outcome
Articulate theological foundations of moral agency antedating and supporting the Restoration, as well as the ongoing tension between shared religious truth and individual freedom.

POLI 202 - Western Political Heritage 2

Course Information

Teaching Area (new)
POLI

Course Number
202

Teaching Area
POLI

Course Title
Western Political Heritage 2

Course Description
Western civilization from Renaissance to present, primarily from perspective of political philosophy; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

Department
Political Science

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

3

Lab Hours

Fixed:
0

Note
Additional seats for specific sections may be available to Freshman Mentoring participants through envelopes. Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Sacred Texts and Doctrine

Tags
184201, 1

Learning Outcome
Possess a command of sacred texts and doctrines gained by completing the University's religion course requirements.

Title
Faith and Political Analysis

Tags
184202, 2

Learning Outcome
Be able to articulate principles of faith in political analysis.

Title
Politics, International Relations, and Political Philosophy

Tags
184203, 3

Learning Outcome
Demonstrate a familiarity with each of the four major subfields of political science: American politics, comparative politics, international relations, and political philosophy.

Title
Political Process, Theory, and Thought

Tags
184204, 4

Learning Outcome
Possess a factual and theoretical knowledge of countries, political processes, political theories, and political thought.

Title
Effective Research and Analysis

Tags
184205, 5

Learning Outcome
Use appropriate methods of analysis and research, including qualitative and quantitative methods, historical comparison, and textual interpretation to answer political questions.

Title
Effective Oral Communication

Tags
184206, 6

Learning Outcome
Communicate effectively by presenting ideas in a high quality oral presentation.

Title
Critical Thinking and Analysis

Tags
184207, 7

Learning Outcome
Think critically, analytically, and synthetically.

Title
Be spiritually strengthened

Tags
183714, 1

Learning Outcome
Possess a command of sacred texts and doctrines

Title
Critical Thinking and Analysis

Tags
183930, 7

Learning Outcome
Students will see the practical consequences of abstract philosophical ideas

Title
Politics, International Relations, and Political Philosophy

Tags
183936, 2

Learning Outcome
Students will recognize and intelligently employ a wide array of sophisticated philosophical and political terms

Title
Critical Thinking and Analysis

Tags
183974, 6

Learning Outcome
Students will become critically aware of how now conventional assumptions derived from modern philosophers limit much current thought and challenge revealed truth.

Learning Outcome
Students will be able to summarize and independently critique important political-philosophical arguments, and write about them in a clear and convincing fashion

Title
Faith and Political Analysis

Tags
183979, 8

Learning Outcome
Students will think more deeply, coherently and originally about their own moral and political commitments

Title
Critical Thinking and Analysis

Tags
184154, 3

Learning Outcome
Students will understand the main ideas of each author considered, and be able to compare and contrast the various authors

Title
Politics, International Relations, and Political Philosophy

Tags
184047, 1

Learning Outcome
Students will understand both the power and limitations of the intellectual and spiritual traditions that constitute the modern half of our Western heritage.

Title
Politics, International Relations, and Political Philosophy

Tags
184066, 4

Learning Outcome
Students will recall the basic intellectual/cultural milieu and chronological sequence of each author

Title
Politics, International Relations, and Political Philosophy

Tags
184116, 0

Learning Outcome
Students will become familiar with the main themes and major authors of modern political philosophy.

Title
Critical Thinking and Analysis

Tags
184141, 5

POLI 210 - Principles of American Politics

Course Information

Teaching Area (new)
POLI

Course Number
210

Teaching Area

Learning Outcomes

Title
Be intellectually enlarged

Tags
183748, 1

Learning Outcome
Demonstrates a familarity with comparative politics

Title
Politics, International Relations, and Political Philosophy

Tags
184013, 2

Learning Outcome
Thus, you will deepen your familiarity with the research traditions and theoretical paradigms of comparative politics and of political science more broadly.

Title
Political Process, Theory, and Thought

Tags
184028, 1

Learning Outcome
In this course, you will learn how to critique and construct theories in comparative politics through a number of individual, group, oral and written exercises.

Title
Critical Thinking and Analysis

Tags
184121, 3

Learning Outcome
All of the above items also contribute to the development of this skill.

Title
Effective Research and Analysis

Tags
184124, 0

Learning Outcome
In this course, you will learn how to complete a research project

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:
- POLI 200 - Political Inquiry

Learning Outcomes

Title
Critical Thinking and Analysis

Tags
214297, 0, 1, 2023-08-29 11:55:23

Learning Outcome
Read and interpret statistical evidence.

Title
Critical Thinking and Analysis

Tags
214298, 0, 2, 2023-08-29 11:55:25

Learning Outcome
Think critically, analytically, and synthetically.

Title
Effective Research and Analysis

Tags
214299, 0, 3, 2023-08-29 11:55:26

Learning Outcome
Use appropriate quantitative methods of analysis, including multivariate regression, to answer political questions.

Title
Professional Communication

Tags
214300, 0, 4, 2023-08-29 11:55:28

Learning Outcome
Explain statistical arguments in writing and in oral presentations that meet professional standards

POLI 301 - Data Visualization

Course Information

Teaching Area (new)
POLI

Course Number
301

Teaching Area
POLI

Course Title
Data Visualization

Course Description
Tools for the first steps in using data to answer political science questions: obtaining, cleaning, transforming, analyzing, and visualizing data. How to look at data and how to display that data to others.

Department
Political Science

When Taught
Fall

Credit Hours

Min:
3

Prerequisite

Prerequisite

Complete ALL of the following Courses:

- POLI 200 - Political Inquiry

POLI 302 - Experimental Research Methods

Course Information

Teaching Area (new)
POLI

Course Number
302

Teaching Area
POLI

Course Title
Experimental Research Methods

Course Description
Students will learn how to conduct experiments in the social sciences. All students will conduct an original experiment, learn how to analyze the data, and present their results in a publishable format.

Department
Political Science

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Poli 200 and Poli 328, or concurrent enrollment.

Learning Outcomes

Title
Master the Experimental Method

Tags
184476, 1

Learning Outcome
Use appropriate methods of sampling, intervention, random assignment, measurement, and statistical analysis in constructing and executing an original experiment in political science.

Title
Effective and Professional Writing

Tags
184477, 2

Learning Outcome
Write professional grade research papers on political science questions.

Title
Effective Oral Communication

Tags
184478, 3

Learning Outcome
Communicate effectively by presenting ideas in a high-quality oral presentation.

Title
Critical Thinking and Analysis

Tags
184479, 4

Learning Outcome
Think critically, analytically, and synthetically.

POLI 303 - Qualitative Methods

Course Information

Teaching Area (new)
POLI

Course Number
303

Teaching Area
POLI

Course Title
Qualitative Methods

Course Description
Qualitative methods for gathering data and analyzing theories, including concept formation, textual analysis, interviewing, archival research, case studies, and comparative historical analysis.

Department
Political Science

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- POLI 200 - Political Inquiry

Learning Outcomes

Title
Effective Research and Analysis

Tags
184449, 1

Learning Outcome
Dramatically enhance your grasp of qualitative methods for doing political science, bringing it close to the level that would be taught in graduate school. In the process, gain a better grasp of the principles of scientific research.

Title
Effective and Professional Writing

Tags
184450, 2

Learning Outcome
Improve your ability to write effectively for a professional audience, especially in terms of global-level structure.

Title
Effective Oral Communication

Tags
184451, 3

Learning Outcome
Improve your ability to speak in small-group settings and to make formal presentations.

Title
Critical Thinking and Analysis

Tags
184452, 4

Learning Outcome
Enhance your ability to critically analyze theories and methods of analysis in published research and in your own work.

POLI 304 - Game Theory in Political Science

Course Information

Teaching Area (new)
POLI

Course Number
304

Teaching Area
POLI

Course Title
Game Theory in Political Science

Course Description
Introduction to game theory, concentrating on applications in politics.

Department
Political Science

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Model Building and Analysis

Tags
184468, 1

Learning Outcome
Students will: Know what game theory is and the different types of game-theoretic models. Recognize and model strategic situations using game theory. Solve game-theoretic problems. Understand of the strengths and weaknesses of game theory as an analytic method.

Title
Effective Conmunication

Tags
184469, 2

Learning Outcome
Students will: Produce and present a poster of a game-theoretic model of a political situation. Properly cite material used for assignments.

POLI 305 - Survey Research Methods

Course Information

Teaching Area (new)
POLI

Course Number
305

Teaching Area
POLI

Course Title
Survey Research Methods

Course Description
Teaches principles of survey research methods from a Total Survey Error perspective. Topics and assignments include sampling, non-response, coverage, measurement, and analysis. Course project will conduct a survey for a client from start to finish.

Department
Political Science

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Poli 328 or concurrent enrollment.

Learning Outcomes

Title
Total Survey Error

Tags
184463, 1

Learning Outcome
Comprehend, implement, and effectively evaluate principles of "Total Survey Error" including sampling error, non-response error, coverage error, and measurement error.

Title
Participate in all phases of survey

Tags
184464, 2

Learning Outcome
Participate in all phases of design, data collection, and analysis of an actual survey

Title
Adapt Survey Design

Tags
184465, 3

Learning Outcome
Adapt survey design to the needs of a client while maintaining high quality

Title
Learn to Effectively Analyze

Tags
184466, 4

Learning Outcome
Learn to effectively analyze and communicate results

Title
Practice High Ethical Standards

Tags
184467, 5

Learning Outcome
Practice high ethical standards

POLI 306R - Topics in Political Science Methods

Course Information

Teaching Area (new)
POLI

Course Number
306R

Teaching Area
POLI

Course Title
Topics in Political Science Methods

Course Description
Advanced methods of political science. Topics selected by instructor.

Department

When Taught
Contact Department

Credit Hours

Min:
1

Fixed/Max:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Political Science Methods

Tags
184491, 1

Learning Outcome
Students will gain further understanding of a specifc political science research method (topics will vary by semester)

POLI 310 - Research Project in American Politics

Course Information

Teaching Area (new)
POLI

Course Number
310

Teaching Area
POLI

Course Title
Research Project in American Politics

Course Description
Advanced research skills and advanced writing for students in their junior year; focused on US politics.

Department
Political Science

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- POLI 110 - American Government and Politics
  AND POLI 200 - Political Inquiry

OR

Prerequisites

Complete ALL of the following Courses:

- POLI 200 - Political Inquiry
  AND POLI 210 - Principles of American Politics

Other Prerequisites
or instructor's consent.

Note
For political science majors only. POLI 328 required or concurrent enrollment.

Learning Outcomes

Title
Political Process, Theory, and Thought

Tags
214301, 0, 1, 2023-08-29 11:55:38

Learning Outcome
Possess a factual and theoretical knowledge of US politics in at least one specialized area.

Title
Effective and Professional Writing

Tags
214302, 0, 2, 2023-08-29 11:55:39

Learning Outcome
Write professional grade research papers on political science questions.

Title
Effective Oral Communication

Tags
214303, 0, 3, 2023-08-29 11:55:40

Learning Outcome
Communicate effectively by presenting ideas in a high quality oral presentation.

Title
Effective Research and Analysis

Tags
214304, 0, 4, 2023-08-29 11:55:42

POLI 311 - State Government and Politics

Course Information

Teaching Area (new)
POLI

Course Number
311

Teaching Area
POLI

Course Title
State Government and Politics

Course Description
Forms of state governments and politics, and relations between state and national governments.

Department
Political Science

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
POLI 200

Recommended
Poli 110 or Poli 210.

Learning Outcomes

Title
Explain government

Tags
214305, 0, 1, 2023-08-29 11:55:45

Learning Outcome
Explain how state government and politics operate.

Title
Evaluate institutions and representation

Tags
214306, 0, 2, 2023-08-29 11:55:46

Learning Outcome
Evaluate the effects of institutional differences on how state governments represent their constituents.

Title
Political participation

Tags
214307, 0, 3, 2023-08-29 11:55:48

Learning Outcome
Apply their understanding of state politics to their role as political participants.

Title
Evaluate federalism

Tags
214308, 0, 4, 2023-08-29 11:55:50

Learning Outcome
Evaluate the well-being of the US political system and states' role in particular in this system.

Title
Academic skills

Tags
214309, 0, 5, 2023-08-29 11:55:51

Learning Outcome
Read, write, research, collaborate, and think critically at an advanced undergraduate level.

POLI 312 - American Judicial Politics

Course Information

Teaching Area (new)
POLI

Course Number
312

Teaching Area
POLI

Course Title
American Judicial Politics

Course Description
The role of the U.S. judiciary, particularly the U.S. Supreme Court, in American politics, including discussion of the structure, role, influences, and policymaking role.\n\n

Department
Political Science

When Taught
Winter Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

3

Lab Hours

Fixed:
0

Other Prerequisites
POLI 210; POLI 110.

POLI 313 - Interest Groups

Course Information

Teaching Area (new)
POLI

Course Number
313

Teaching Area
POLI

Course Title
Interest Groups

Course Description
Theories on formation and maintenance of interest groups; tactics of groups in legislative, executive, bureaucratic, and court settings; influence of groups on elections and public policy.

Department
Political Science

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Poli 110 or 210; Poli 200.

Learning Outcomes

Title
Politics, International Relations, and Political Philosophy

Tags
183726, 1

Learning Outcome
Students will be introduced to interest groups and their role in American politics.

Title
Effective and Professional Writing

Tags
183941, 2

Learning Outcome
Students will write a professional paper that focuses on a political science question

Title
Critical thinking and Analysis

Tags
184165, 1

Learning Outcome
Students will understand how to evaluate interest groups systematically and rigorously

Title
Politics, International Relations, and Political Philosophy

Tags
184226, 1

Learning Outcome
Demonstrate a familiarity with each of the four major subfields of political science: American politics, comparative politics, international relations, and political philosophy.

Title
Effective and Professional Writing

Tags
184227, 2

Learning Outcome
Write professional grade research papers on political science questions.

Title
Critical Thinking and Analysis

Tags
184228, 3

Learning Outcome
Think critically, analytically, and synthetically.

POLI 314 - The United States Presidency

Course Information

Teaching Area (new)
POLI

Course Number
314

Teaching Area
POLI

Course Title
The United States Presidency

Course Description
Presidential power in the United States, focusing on major roles of the American presidency.

Department
Political Science

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Poli 110 or 210; Poli 200.

Learning Outcomes

Title
Political Process Theory, and Thought

Tags
183944, 0

Learning Outcome
To become familiar with the major research approaches to the study of the American presidency and the intellectual history of the American presidency

Title
Politics, International Relations, and Political Philosophy

Tags
184029, 1

Learning Outcome
To gain a thorough understanding of the role of the American president in the political system

Title
Critical Thinking and Analysis

Tags
184042, 2

Learning Outcome
To focus on one American President using specified research questions.

POLI 315 - Congress and the Legislative Process

Course Information

Teaching Area (new)
POLI

Course Number
315

Teaching Area
POLI

Course Title
Congress and the Legislative Process

Course Description
Election process; structure, organization, and procedures of legislative bodies; relations with pressure groups, the president, and executive branch.

Department
Political Science

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Recommended
Poli 110 or 210; Poli 200

Learning Outcomes

Title
Politics, International Relations, and Political Philosophy

Tags
183727, 1

Learning Outcome
Students will obtain a general working knowledge of the U.S. Congress, and where possible other legislative bodies

Title
Effective Research and Analysis

Tags
183962, 1

Learning Outcome
Students will apply academic literature on Congress to current Congressional politics

Title
Critical Thinking and Analysis

Tags
183989, 2

Learning Outcome
Students will be able to discuss the role and effectiveness of Congress in particular and representative democracy in general

Title
Critical Thinking and Analysis

Tags
184043, 3

Learning Outcome
Students will gain new perspectives that will shape their future attempts to critically evaluate Congress and its members

Title
Politics, International Relations, and Political Philosophy

Tags
184229, 1

Learning Outcome
Demonstrate a familiarity with each of the four major subfields of political science: American politics, comparative politics, international relations, and political philosophy.

Title
Effective Research and Analysis

Tags
184230, 2

Learning Outcome
Use appropriate methods of analysis and research, including qualitative and quantitative methods, historical comparison, and textual interpretation to answer political questions.

Title
Critical Thinking and Analysis

Tags
184231, 3

Learning Outcome
Think critically, analytically, and synthetically.

POLI 316 - American Political Parties

Course Information

Teaching Area (new)
POLI

Course Number
316

Teaching Area
POLI

Course Title
American Political Parties

Course Description
Electoral and policy-making roles of American political parties today and their future in American politics.

Department
Political Science

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Recommended
Poli 200.

Learning Outcomes

Title
Explain Parties and Government

Tags
183728, 1

Learning Outcome
Explain the party system, the party organizations, the party influence in the electorate, the nomination and electoral process, and the party influence on government.

Title
Describe and Evaluate Parties and their Effects

Tags
184232, 1

Learning Outcome
Describe the effects and consequences of parties on American politics, including taking a position on the costs and benefits of American political parties.

Title
Collaboration

Tags
184233, 2

Learning Outcome
Collaborate with colleagues to debate and discuss all of these principles, learning from one another.

POLI 317 - Public Opinion and Voting Behavior

Course Information

Teaching Area (new)
POLI

Course Number
317

Teaching Area
POLI

Course Title
Public Opinion and Voting Behavior

Course Description
Relationship between attitudes, opinion, and voting behavior in American politics and institutions.

Department
Political Science

Contact Department

Credit Hours

Min:
3

Fixed/Max:
4

Lecture Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- POLI 200 - Political Inquiry

Recommended
Poli 328

Learning Outcomes

Title
Political Process, Theory, and Thought

Tags
183729, 1

Learning Outcome
Students will acquire a minimum of two theoretical perspectives to explain why voters choose a particular candidate.

Title
Effective Research and Analysis

Tags
183924, 1

Learning Outcome
Students will learn the fundamentals of survey research design and analysis, including an understanding and appreciation for the concept of “Total Survey Error.”

Title
Critical Thinking and Analysis

Tags
184053, 3

Learning Outcome
Students will be able to articulate the relationship between public opinion and democracy.

Title
Effective Research and Analysis

Tags
184133, 2

Learning Outcome
Students will use statistics to make inferences about the relationships between variables that affect voting behavior or public opinion.

Title
Political Process, Theory, and Thought

Tags
184235, 1

Learning Outcome
Possess a factual and theoretical knowledge of countries, political processes, political theories, and political thought.

Title
Effective Research and Analysis

Tags
184236, 2

Learning Outcome
Use appropriate methods of analysis and research, including qualitative and quantitative methods, historical comparison, and textual interpretation to answer political questions.

Title
Critical Thinking and Analysis

Tags
184237, 3

Learning Outcome
Think critically, analytically, and synthetically.

POLI 318 - Campaigns and Elections

Course Information

Teaching Area (new)
POLI

Course Number
318

Teaching Area
POLI

Course Title
Campaigns and Elections

Course Description
Analyzes electoral process in the United States, including history, significance in governance, campaign strategy, finance, media role, etc.

Department
Political Science

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Poli 200.

Learning Outcomes

Title
Politics, International Relations, and Political Philosophy

Tags
183730, 1

Learning Outcome
Students will understand the role of campaigns and elections today in American politics.

Title
Political Process, Theory, and Thought

Tags
183951, 1

Learning Outcome
Students will examine the historical development of campaigns and elections over the past 200 years and the nature of various players in campaigns and elections today including the electorate, candidates, parties, the media, and interest groups

Title
Critical Thinking and Analysis

Tags
184086, 3

Learning Outcome
Students will discuss and evaluate proposed electoral reforms.

Title
Participation in Political Processes

Tags
184159, 4

Learning Outcome
Students will be expected to spend time observing an electoral campaign, designing a campaign plan for a future campaign, and even working in a local electoral campaign.

Title
Politics, International Relations, and Political Philosophy

Tags
184168, 2

Learning Outcome
Students will assess three levels of elections – presidential, congressional, and state and local.

Title
Politics, International Relations, and Political Philosophy

Tags
184238, 1

Learning Outcome
Demonstrate a familiarity with each of the four major subfields of political science: American politics, comparative politics, international relations, and political philosophy.

Title
Political Process, Theory, and Thought

Tags
184239, 2

Learning Outcome
Possess a factual and theoretical knowledge of countries, political processes, political theories, and political thought.

Title
Critical Thinking and Analysis

Tags
184240, 3

Learning Outcome
Think critically, analytically, and synthetically.

POLI 319R - Topics in American Government and Politics

Learning Outcomes

Title
Politics, International Relations, and Political Philosophy

Tags
183731, 1

Learning Outcome
Understand the legal structure of media regulation of the press.

Title
Political Process, Theory and Thought

Tags
183938, 1

Learning Outcome
Know what criteria the press uses for newsworthiness and how others attempt to use that criteria for their political ends

Title
Political Process, Theory, and Thought

Tags
184025, 0

Learning Outcome
Students will analyze media’s relationship with political institutions and organizations, policies, and the public.

Title
Political Process, Theory and Thought

Tags
184027, 1

Learning Outcome
Students will analyze the basis for the media's power

Title
Political Process, Theory, and Thought

Tags
184030, 6

Learning Outcome
See how the news media’s interact with institutions in order to shape public policy.

Title
Political Process, Theory, and Thought

Tags
184031, 0

Learning Outcome
Understand how the media's role in American politics has evolved over time.

Title
Political Process, Theory, and Thought

Tags
184058, 5

Learning Outcome
Understand media role in shaping individual’s political attitudes and behavior.

Title
Political Process, Theory, and Thought

Tags
184062, 2

Learning Outcome
Students will discuss the historical relationship between the press and political institutions and processes, the news gathering process, the role of the news media in electoral campaigns, the legislative process, presidential decision making, and judicial behavior.

Title
Political Process, Theory, and Thought

Tags
184089, 4

Learning Outcome
Know how news media affect electoral campaigns.

Title
Political Process, Theory, and Thought

Tags
184132, 2

Learning Outcome
Appreciate how the media/political system in the United States compares and contrasts with media/political systems in other nations.

Title
Critical Thinking and Analysis

Tags
184164, 7

Learning Outcome
Appreciate the varying sides of current debates over the role of the news media

Title
Politics, International Relations, and Political Philosophy

Tags
184241, 1

Learning Outcome
Demonstrate a familiarity with each of the four major subfields of political science: American politics, comparative politics, international relations, and political philosophy.

Title
Political Process, Theory, and Thought

Tags
184242, 2

Learning Outcome
Possess a factual and theoretical knowledge of countries, political processes, political theories, and political thought.

Title
Critical Thinking and Analysis

Tags
184243, 3

Learning Outcome
Think critically, analytically, and synthetically.

POLI 322 - Urban and Local Politics

Course Information

Course Number
322

Teaching Area
POLI

Course Title
Urban and Local Politics

Course Description
Theories and empirical research on politics of cities, counties, and districts. Policy solutions for issues affecting local governments, such as housing, law enforcement, and racial inequality.

Department
Political Science

When Taught
Contact Department

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:

Learning Outcomes

Title
Apply theories

Tags
214310, 0, 1, 2023-08-29 11:56:05

Learning Outcome
Summarize and apply key theories concerning the structure and operation of municipal and local politics in the US. Title

Title
Analyze political literature

Tags
214311, 0, 2, 2023-08-29 11:56:06

Learning Outcome
Analyze politically oriented literature on municipal and local politics in the US.

Title
Evaluate policies

Tags
214312, 0, 3, 2023-08-29 11:56:08

Learning Outcome
Evaluate policies to address issues and problems affecting municipal and local governments.

Title
Examine political role

Tags
214313, 0, 4, 2023-08-29 11:56:10

Learning Outcome
Examine their own role in municipal and local politics as residents and political participants.

Title
Demonstrate improved writing, research, and analytical skills.

Tags
214314, 0, 5, 2023-08-29 11:56:11

Learning Outcome
Demonstrate skills

POLI 323 - Race, Ethnicity, and Gender in American Politics

Course Information

Teaching Area (new)
POLI

Course Number
323

Teaching Area
POLI

Course Title
Race, Ethnicity, and Gender in American Politics

Course Description
The historical and current role of race, ethnicity, and gender in American politics. The individual-level ways that race, ethnicity, and gender shape attitudes about other citizens and perceptions of political actors and systems. How race, ethnicity, and gender have influenced and continue to influence the structures of American politics and public policy.

Political Process, Theory, and Thought

Tags
183733, 1

Learning Outcome
Students will become familiar with basic theories and controversies in political psychology by reading a selection of classic and contemporary works in the field.

Title
Political Process, Theory, and Thought

Tags
183734, 2

Learning Outcome
Because reading assignments include journal articles and book chapters with heavy theoretical and empirical emphasis, they will gain a better understanding of how to read contemporary work in political psychology and evaluate the theory, empirical results, and substantive implications of the work.

Title
Political Process, Theory, and Thought

Tags
183735, 3

Learning Outcome
Because the course is structured as a seminar, students will be expected to come to class prepared and participate actively in class discussions. The goals of class discussions include a better understanding of the course reading, critical evaluation of the strengths and weaknesses of each reading, and increased understanding of the implications of the reading for contemporary democracy.

Title
Effective and Professional Writing

Tags
183947, 5

Learning Outcome
Students will complete a major paper as part of the course requirements. This paper will include a full experimental research design that addresses a meaningful research question in political psychology.

Title
Effective Research and Analysis

Tags
184008, 4

Learning Outcome
Students will better understand the strengths and weaknesses of various research methods, including in-depth interviews, surveys, lab and field experiments, and other approaches found in political psychology.

Title
Effective Research and Analysis

Tags
184022, 3

Learning Outcome
Students will read, evaluate, and discuss a selection of the most important works in political psychology, with a special focus on the psychology of mass political behavior. Because much of this work is quantitative, students will gain experience understanding and critically assessing research design and quantitative results.

Title
Effective Citation

Tags
184061, 8

Learning Outcome
In completing the course paper, students will cite sources properly.

Title
Participation in Political Processes

Tags
184085, 9

Learning Outcome
Because a major theme of the course is the political psychology of political participation, students will better understand why individuals do (or do not) participate in politics. Students will gain a greater appreciation for the role of political participation in contemporary democracy.

Title
Critical Thinking and Analysis

Tags
184101, 6

Learning Outcome
Students will critically evaluate, assess, and discuss both empirical results of classic and contemporary work in political psychology and their implications for our understanding of democracy.

Title
Critical Thinking and Analysis

Tags
184147, 7

Learning Outcome
Students will practice the skills of attentive reading, thoughtful questioning, meaningful group discussion, and compelling writing.

Title
Politics, International Relations, and Political Philosophy

Tags
184244, 1

Learning Outcome
Demonstrate a familiarity with each of the four major subfields of political science: American politics, comparative politics, international relations, and political philosophy.

Title
Political Process, Theory, and Thought

Tags
184245, 2

Learning Outcome
Possess a factual and theoretical knowledge of countries, political processes, political theories, and political thought.

Title
Effective Research and Analysis

Tags
184246, 3

Learning Outcome
Use appropriate methods of analysis and research, including qualitative and quantitative methods, historical comparison, and textual interpretation to answer political questions.

Title
Effective and Professional Writing

Tags
184247, 4

Learning Outcome
Write professional grade research papers on political science questions.

Title
Critical Thinking and Analysis

Tags
184248, 5

Learning Outcome
Think critically, analytically, and synthetically.

Title
Participation in Political Processes

Tags
184249, 6

Learning Outcome
Participate effectively in political processes by having an appropriate knowledge of international and national politics and political thought.

POLI 325 - Politics of Wilderness, National Parks, and Public Land Management

Course Information

Teaching Area (new)
POLI

Course Number
325

Teaching Area
POLI

Course Title
Politics of Wilderness, National Parks, and Public Land Management

Course Description
An environmental politics course focused on public land management. Policy cases may include mining, dams, endangered species, national parks, national forests, and wilderness. Field trips.

Department
Political Science

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:

Recommended
Poli 110, Poli 210, or AHTG 100

Learning Outcomes

Title
Understand Public Lands

Learning Outcome
Explain and evaluate the competing philosophical, scientific, historical, and political pressures on public lands.

Title
Actors and Public Lands

Learning Outcome
Assess the roles of governments and private actors in producing desirable outcomes.

Title
Political institutions and Public Lands

Learning Outcome
Integrate knowledge about individual political institutions into a broader understanding of the policy process as a whole.

Title
Policies and Laws on Public Lands

Learning Outcome
Appraise major policies and laws relating to public lands and the environment, showing how they impact conditions on the ground.

Title
Recreate Responsibly

Learning Outcome
Apply Leave No Trace principles to recreate responsibly.

Title
Latter-day Saint Perspectives

Learning Outcome
Interpret Latter-day Saint perspectives on the natural environment.

Title
Participate in Policy Process

Learning Outcome
Participate effectively in the policy process.

POLI 326 - American Political Demography

Course Information

Course Number
326

Teaching Area
POLI

Course Title
American Political Demography

Course Description
Examines how demographic forces of aging, gender, race, immigration, marriage and childbearing create cleavages in American politics

Department
Political Science

When Taught

Recommended
POLI 200 and POLI 300 or equivalent courses on research design and multivariate regression

Learning Outcomes

Title
Create a Learning Community

Learning Outcome
Create a vibrant learning community governed by a passion for uncovering truth, receiving guidance from the Spirit, and demonstrating love and empathy for fellow learners.

Title
Articulate Impacts of Demographic Trends

Learning Outcome
Articulate the impact of key demographic trends on American politics and the impact of important political trends on American demographics.

Title
Build Facility with Demographic Tools and Concepts

Learning Outcome
Build a facility with essential demographic tools and concepts.

Title
Use high-quality data

Learning Outcome
Employ prominent national data sources to examine key interactions between demographic and political variables.

Title
Produce Demographic Analyses for Different Audiences

Learning Outcome
Produce high-quality demographic analyses for a variety of professional purposes and audiences.

Title
Construct Theoretical Propositions

Learning Outcome
Construct theoretical propositions consistent with the empirical relationships uncovered in their analyses.

Title
Appreciate Diversity and Its Challenges

Learning Outcome
Appreciate the diversity of human communities and the different challenges they face in the American political system.

Learning Outcomes

Title
Professional Policy Analysis

Tags
184250, 1

Learning Outcome
Conduct problem-centered policy analysis in a professional setting

Title
Audience-Oriented Analyses

Tags
184251, 2

Learning Outcome
Produce public policy analysis and commentary in different formats and for different audiences.

Title
U.S. Public Policy Process

Tags
184252, 3

Learning Outcome
Analyze the dynamics and politics of public policymaking processes in the United States.

Title
Engage Public Debates

Tags
184253, 4

Learning Outcome
Engage effectively in public policy discussions on a variety of substantive policy issues.

Title
Dual Heritage

Tags
184254, 5

Learning Outcome
Draw connections between gospel teachings and the nature and causes of social problems.

Title
Constitutional Literacy

Tags
184255, 6

Learning Outcome
Recognize how policymakers use (or fail to use) inspired constitutional principles.

POLI 332 - Public Policy Analysis

Course Information

Teaching Area (new)
POLI

Course Number
332

Teaching Area
POLI

Course Title
Public Policy Analysis

Course Description
Analysis of how societies can and should choose between different public policy options to achieve public ends, with a focus on applied cost-benefit analysis.

Learning Outcomes

Title
Political Process, Theory, and Thought

Tags
183738, 1

Learning Outcome
The goal of this class is to help you develop your critical analytical skills in assessing public policy debates and in formulating your own views about what policies governments should undertake.

Title
Political Process, Theory, and Thought

Tags
183739, 2

Learning Outcome
The focus here is on how some of the most prominent theories and conceptual frameworks and normative theories from political philosophy can help illuminate the values and assumptions underlying policy choices and serve as criteria for choosing policy options.

Title
Political Process, Theory, and Thought

Tags
184256, 1

Learning Outcome
Possess a factual and theoretical knowledge of countries, political processes, political theories, and political thought.

Title
Critical Thinking and Analysis

Tags
184257, 2

Learning Outcome
Think critically, analytically, and synthetically.

Title
Community Service

Tags
184258, 3

Learning Outcome
Want to serve the communities and organizations to which they belong.

Prerequisites

Complete ALL of the following Courses:
- POLI 200 - Political Inquiry

Learning Outcomes

Title
Be spiritually strengthened

Tags
183740, 1

Learning Outcome
Articulate principles of faith in political analysis

Title
Define religion concretely

Tags
184259, 1

Learning Outcome
Increase fluency with the unique characteristics of religion compared to other belief systems and social organizations.

Title
Evaluate Religious Influences on Political Behavior and Policy

Learning Outcome
Evaluate how religious belonging, believing, and behaving shape political attitudes and behavior such as voting, political participation, policy preferences, and coalition formation in contemporary political systems.

Title
Analyze the Intersection of Religious and Political Systems

Learning Outcome
Analyze the relationships between religious institutions, beliefs, and practices and political processes, institutions, and outcomes across diverse contexts.

Title
Assess Theoretical Approaches to Religion and Politics

Learning Outcome
Assess major theoretical perspectives on the role of religion in politics, such as secularization theory, cultural conflict theory, and religious marketplace theory.

Title
Investigate Contemporary Religion-Politics Controversies Using Rigorous Methods

Learning Outcome
Design and conduct original research on a contemporary religion and politics issue using appropriate research methodologies.

Title
Communicate With Clarity and Evidence

Learning Outcome
Write and present analytical arguments about religion-politics topics with originality and clarity, providing reasons and evidence to support claims while using proper citation of source material.

Title
Recognize Diversity Within and Across Religious Traditions

Learning Outcome
Identify and appreciate the contours of religious diversity across and within major religious traditions.

Title
Apply Course Concepts to Contemporary Political Events

Learning Outcome
Apply theoretical frameworks and analytical tools from the course to explain current events involving religion and politics in domestic and international contexts.

Political Process, Theory and Thoughts

Tags
183747, 1

Learning Outcome

The course first considers the historical background of government and politics in Asia by looking at pre-colonial systems of government, encounters with the West,Colonialism, and national liberation movements. We then proceed thematically and comparatively by topic: States and Regimes, Political Executives, Governments, Legislatures, Bureaucracies, Political Economy, Parties, Elections, Participation and Power, Ideologies, Identities, Modernization and Democracy, and Globalization and regionalism. Finally, we will cover the "diplomatic history" of a selection of countries.

Poli 200 or Las 211.

Learning Outcomes

Title
Learning Facts About Latin American Politics

Tags
183757, 1

Learning Outcome
In this course you develop a general understanding of Latin American politics and how politics in the region compares with that of the rest of the world. You also develop expert knowledge of at least one Latin American country, and you learn about databases and other sources of information on the region.

Title
Learning Theories to Understand Facts

Tags
183758, 2

Learning Outcome
You will learn how to apply theories in order to understand the facts. Beyond learning facts, you will improve your ability to identify patterns in Latin American politics and explain them. This analytical knowledge will allow you to make predictions and prescriptions.

Title
Developing Broader Writing and Methods Skills

Tags
184163, 2

Learning Outcome
You will develop broader skills of research, writing, and "numeracy." These basic skills are taught in most Political Science classes, and you have several opportunities here to improve them.

Title
Political Process, Theory, and Thought

Tags
184282, 1

Learning Outcome
Possess a factual and theoretical knowledge of countries, political processes, political theories, and political thought.

Title
Effective Research and Analysis

Tags
184283, 2

Learning Outcome
Use appropriate methods of analysis and research, including qualitative and quantitative methods, historical comparison, and textual interpretation to answer political questions.

Title
Effective and Professional Writing

Tags
184284, 3

Learning Outcome
Write professional grade research papers on political science questions.

Title
Critical Thinking and Analysis

Tags
184285, 4

Learning Outcome
Think critically, analytically, and synthetically.

Learning Outcomes

Title
Politics, International Relations, and Political Philosophy

Tags
183762, 1

Learning Outcome
Demonstrate understanding of how International Relations theory applies to the subject matter of International Political Economy.

Title
Effective Research and Analysis

Tags
184000, 3

Learning Outcome
Complete a research paper that uses IPE theory to explain aspects of global political and economic interaction.

Title
Integrity in Daily and Civic Activities

Tags
184040, 6

Learning Outcome
Learn the consequences of plagiarism and how to avoid it.In written assignments, correctly acknowledge the words and/or ideas of other authors.

Title
Political Process, Theory, and Thought

Tags
184091, 2

Learning Outcome
Demonstrate understanding of different issue areas in international political economy.

Title
Effective and Professional Writing

Tags
184153, 4

Learning Outcome
Demonstrate the ability to write a well-crafted, persuasive research paper.

Title
Critical Thinking and Analysis

Tags
184160, 5

Learning Outcome
Demonstrate the ability to apply different theories of international political economy.

Title
Politics, International Relations, and Political Philosophy

Tags
184297, 1

Learning Outcome
Demonstrate a familiarity with each of the four major subfields of political science: American politics, comparative politics, international relations, and political philosophy.

Title
Political Process, Theory, and Thought

Tags
184298, 2

Learning Outcome
Possess a factual and theoretical knowledge of countries, political processes, political theories, and political thought.

Title
Effective Research and Analysis

Tags
184299, 3

Learning Outcome
Use appropriate methods of analysis and research, including qualitative and quantitative methods, historical comparison, and textual interpretation to answer political questions.

Title
Effective and Professional Writing

Tags
184300, 4

Learning Outcome
Write professional grade research papers on political science questions.

Title
Critical Thinking and Analysis

Tags
184301, 5

Learning Outcome
Think critically, analytically, and synthetically.

POLI 373 - International Law

Course Information

Teaching Area (new)
POLI

Course Number
373

Teaching Area
POLI

Course Title
International Law

Course Description
Nature and function of international law; recognition, succession, jurisdiction rights, and immunities of states; nationality and jurisdiction over nations.

Prerequisite

Prerequisite

Complete ALL of the following Courses:
- POLI 200 - Political Inquiry

Learning Outcomes

Title
Faith and Political Analysis

Tags
183763, 1

Learning Outcome
Students will discuss the moral issues surrounding issue of international law.

Title
Participation in Political Process

Tags
183967, 5

Learning Outcome
Students will learn the history of the development of international legal norms and how those norms affect important political issues in the United States.

Title
Effective and Professional Writing

Tags
183995, 3

Learning Outcome
Students will write either a legal brief for a mock argument before an international tribunal or a research paper that conforms to the conventional expectations for a research paper in a political science class.

Title
Critical Thinking and Analysis

Tags
184036, 4

Learning Outcome
In class discussions, writing, and course readings, students will practice analyzing and evaluating the logic and arguments used in international legal decisions themselves and discussions of international legal issues.

Title
Political Process, Theory, and Thought

Tags
184037, 2

Learning Outcome
Students will learn the legal perspective of important events of world history and current issues of international conflict and cooperation.

Title
Politics, International Relations, and Political Philosophy

Tags
184550, 1

Learning Outcome

Students will learn the role of legal norms in international relations and will be able to discuss the relative importance of international law in constraining the actions of states.

POLI 374 - Ethics and International Affairs

Course Information

Prerequisite

Prerequisite

Complete ALL of the following Courses:

- POLI 200 - Political Inquiry

Learning Outcomes

Title
Be spiritually strengthened

Tags
183764, 1

Learning Outcome
Be able to articulate principles of faith in political analysis

Title
Faith and Political Analysis

Tags
183765, 2

Learning Outcome
Course participants will inquire into how Latter-day Saint perspectives might contribute to better understanding of ethics and international relations.

Title
Effective Research and Analysis

Tags
183929, 1

Learning Outcome
Students will acquire analytical tools with which to address international issues having ethical implications, focusing on realism and idealism, and be able to apply these tools to a variety of significant case studies.

Title
Critical Thinking and Analysis

Tags
183954, 2

Learning Outcome
Students will become acquainted with and analyze the concept of just and unjust wars, drawing on historical and contemporary examples as illustrations.

Title
Political Process, Theory, and Thought

Tags
183955, 0

Learning Outcome
Within a historical and theoretical context, students will demonstrate understanding of the ethical challenges confronting international policymakers and the challenge of including ethical analysis in foreign policy decision-making.

Title
Political Process, Theory, and Thought

Tags
184004, 3

Learning Outcome
In the context of the course’s overarching themes, students will survey war, international law, war crimes and crimes against humanity, genocide, human rights, human trafficking, torture, humanitarian intervention, democratization, reconciliation, economic justice, and other concepts lending themselves to ethics-based understanding.

Title
Critical Thinking and Analysis

Tags
184077, 5

Learning Outcome
Students will demonstrate increased confidence in their abilities to assess and express the ethical implications of international relations.

Title
Political Process, Theory, and Thought

Tags
184148, 4

Learning Outcome
Students will demonstrate knowledge and understanding of the watershed historical and current events that lend themselves most readily to ethical analyses.

Title
Faith and Political Analysis

Tags
184302, 1

Learning Outcome
Be able to articulate principles of faith in political analysis.

Title
Political Process, Theory, and Thought

Tags
184303, 2

Learning Outcome
Possess a factual and theoretical knowledge of countries, political processes, political theories, and political thought.

Title
Effective Research and Analysis

Tags
184304, 3

Learning Outcome
Use appropriate methods of analysis and research, including qualitative and quantitative methods, historical comparison, and textual interpretation to answer political questions.

Title
Critical Thinking and Analysis

Tags
184305, 4

Learning Outcome
Think critically, analytically, and synthetically.

POLI 375 - International Organizations

Prerequisite

Prerequisite

Complete ALL of the following Courses:

- POLI 200 - Political Inquiry

Learning Outcomes

Title
Politics, International Relations, and Political Philosophy

Tags
183766, 1

Learning Outcome
You will know the proper terminology to describe and define the major theoretical traditions in international relations.

Title
Critical Thinking and Analysis

Tags
183969, 2

Learning Outcome
You will be able to compare, contrast, and critique these approaches and begin developing your own ideas.

Title
Effective Citation

Tags
184067, 4

Learning Outcome
In addition, it is hoped that you will better appreciate the importance of, and apply high ethical standards of academic conduct, including proper source citation, calibrating conclusions to evidence honestly, and working alone without help when required.

Title
Critical Thinking and Analysis

Tags
184097, 1

Learning Outcome
You will understand the inner logic of each approach and its implications.

Title
Effective Research and Analysis

Tags
184158, 3

Learning Outcome
You will be able to begin testing the propositions of the theories.

Title
Politics, International Relations, and Political Philosophy

Tags
184306, 1

Learning Outcome
Demonstrate a familiarity with each of the four major subfields of political science: American politics, comparative politics, international relations, and political philosophy.

Title
Effective Research and Analysis

Tags
184307, 2

Learning Outcome
Use appropriate methods of analysis and research, including qualitative and quantitative methods, historical comparison, and textual interpretation to answer political questions.

Title
Effective and Professional Writing

Tags
184308, 3

Learning Outcome
Write professional grade research papers on political science questions.

Title
Critical Thinking and Analysis

Tags
184309, 4

Learning Outcome
Think critically, analytically, and synthetically.

POLI 376 - U.S. Foreign Policy

Course Information

Teaching Area (new)
POLI

Course Number
376

Teaching Area
POLI

Course Title
U.S. Foreign Policy

Course Description
Formation, implementation, analysis, and criticism of themes in American foreign policy.

Department
Political Science

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:

Learning Outcomes

Title
Explain sources of decision-making

Tags
183767, 1

Learning Outcome
Identify and explain major sources of U.S. foreign policy decision-making.

Title
Explain foreign policy tools

Tags
183768, 2

Learning Outcome
Identify and explain both the "what" and the "why" of various foreign policy tools.

Title
Provide foreign policy recommendations

Tags
183769, 3

Learning Outcome
Evaluate a foreign policy issue, analyze the trade-offs between different policy options, and provide a well-defended policy recommendation.

Title
Engage empathetically

Tags
183770, 4

Learning Outcome
Engage more empathetically with policy decision-makers (and others), improving their ability to engage without agreement and furthering and developing gospel skills such as peacemaking.

Title
Critically engage assumptions

Tags
183921, 3

Learning Outcome
Critically engage the assumptions underlying different conceptions of American foreign policy.

Title
Improve critical thinking skills

Tags
183970, 5

Learning Outcome
Become more adept and capable at thinking critically and at a higher level of nuance and complexity.

Learning Outcomes

Title
Effective Research and Analysis

Tags
183771, 1

Learning Outcome
Students will write a Policy Position Paper

Title
Faith and Political Analysis

Tags
183917, 2

Learning Outcome
Throughout the course, students will integrate moral perspectives on American national security policy with secular perspectives thereof

Title
Political Process, Theory, and Thought

Tags
183993, 4

Learning Outcome
Students will be familiar with the primary institutions and processes of American national security policy making

Title
Politics, International Relations, and Political Philosophy

Tags
184122, 1

Learning Outcome
Students will understand the evolution of American national security policy since WWII, especially since 9/11

Title
Politics, International Relations, and Political Philosophy

Tags
184139, 0

Learning Outcome
Students will understand Security Studies

Title
Faith and Political Analysis

Tags
184315, 1

Learning Outcome
Be able to articulate principles of faith in political analysis.

Title
Politics, International Relations, and Political Philosophy

Tags
184316, 2

Learning Outcome
Demonstrate a familiarity with each of the four major subfields of political science: American politics, comparative politics, international relations, and political philosophy.

Title
Political Process, Theory, and Thought

Tags
184317, 3

Learning Outcome
Possess a factual and theoretical knowledge of countries, political processes, political theories, and political thought.

Title
Effective Research and Analysis

Tags
184318, 4

Learning Outcome
Use appropriate methods of analysis and research, including qualitative and quantitative methods, historical comparison, and textual interpretation to answer political questions.

Title
Effective and Professional Writing

Tags
184319, 5

Learning Outcome
Write professional grade research papers on political science questions.

POLI 378 - International Conflict

Learning Outcomes

Title
Be intellectually enlarged

Tags
183773, 1

Learning Outcome
Possess a factual and theoretical knowledge of Latina American countries, political processes, political theories, and political thought

Title
Political Process, Theory, and Thought

Tags
183774, 2

Learning Outcome
In this course you will build your repertoire of facts and theories for understanding international politics in Latin America. Specifically, you will learn the history of wars and diplomacy in Latin America (particularly with reference to the United States) and recent patterns of economic development and democratization

Title
Effective Research and Analysis

Tags
184007, 2

Learning Outcome
This course will help you improve your research skills

Title
Critical Thinking and Analysis

Tags
184050, 1

Learning Outcome
This course will help you improve your reasoning

Title
Effective and Professional Writing

Tags
184140, 3

Learning Outcome
This course will help you improve your writing skills.

Title
Political Process, Theory, and Thought

Tags
184321, 1

Learning Outcome
Possess a factual and theoretical knowledge of countries, political processes, political theories, and political thought.

Title
Effective Research and Analysis

Tags
184322, 2

Learning Outcome
Use appropriate methods of analysis and research, including qualitative and quantitative methods, historical comparison, and textual interpretation to answer political questions.

Title
Effective and Professional Writing

Tags
184323, 3

Learning Outcome
Write professional grade research papers on political science questions.

Title
Critical Thinking and Analysis

Tags
184324, 4

Learning Outcome
Think critically, analytically, and synthetically.

Learning Outcomes

Title
Learn the Experimental Method

Tags
184482, 1

Learning Outcome
Use appropriate methods of sampling, intervention, random assignment, measurement, and statistical analysis in constructing and executing an original experiment in political science.

Title
Effective and Professional Writing

Tags
184483, 2

Learning Outcome
Write a professional grade research paper on the international relations of developing countries.

Title
Effective Oral Communication

Tags
184484, 3

Learning Outcome
Communicate effectively by presenting ideas in high-quality oral presentations.

Title
Critical Thinking and Analysis

Tags
184485, 4

Learning Outcome
Think critically, analytically, and synthetically.

Title
Substantive Knowledge of International Development

Tags
184486, 5

Learning Outcome
Learn the major categories of thinking on the international relations of developing countries.

POLI 388 - Chinese Foreign Policy

For students interning in Washington, D.C.

Learning Outcomes

Title
Faith and Political Analysis

Tags
183784, 1

Learning Outcome
Students should always remember what is cited in the Doctrine and Covenants, Section 134: 1: "We believe that governments were instituted of God for the benefit of man; and that He holds men accountable for their acts in relation to them, both in making laws and administering them, for the good and safety of society," and apply this to studies.

Title
Politics, International Relations, and Political Philosophy

Tags
183960, 1

Learning Outcome
During the course of this semester, we intend to identify some best practices which might improve both the overall U.S. system of governance and the ability of government officials in Washington, D.C. to represent the citizens of the United States of America more effectively.

Title
Politics, International Relations and Political Philosophy

Tags
183987, 0

Learning Outcome
Students will be expected to examine policies and institutions with the intent of seeing how the overall policy-making processes and institutions might be ameliorated.

Title
Faith and Political Analysis

Tags
184341, 1

Learning Outcome
Be able to articulate principles of faith in political analysis.

Title
Politics, International Relations, and Political Philosophy

Tags
184342, 2

Learning Outcome
Demonstrate a familiarity with each of the four major subfields of political science: American politics, comparative politics, international relations, and political philosophy.

Title
Participation in Political Processes

Tags
184343, 3

Learning Outcome
Participate effectively in political processes by having an appropriate knowledge of international and national politics and political thought.

Learning Outcomes

Title
Learn U.S. Supreme Court Precedents

Tags
184564, 1

Learning Outcome
Identify and master the context, arguments, legal holdings, interpretive methods, and practical consequences of key SCOTUS precedent related to federal constitutional structures.

Title
Develop Legal Analysis Skills

Tags
184565, 2

Learning Outcome
Develop and demonstrate key skills of legal analysis, research, and advocacy (written and oral) necessary to interpret and defend the structures of the U.S. Constitution.

Title
Apply Constitutional Principles

Tags
184566, 3

Learning Outcome
Apply and explain the structural principles of the U.S. Constitution and SCOTUS precedent to modern fact patterns and relevant public policy issues

Title
Analyze the Constiution and Public Policy

Tags
184567, 4

Learning Outcome
Analyze and articulate whether and how federal constitutional structures are being threatened today and how their current interpretations impact modern public policy issues.

Title
Defend the Constitution in Light of the Gospel

Tags
184568, 5

Learning Outcome
Prioritize and defend the U.S. Constitution's inspired structural principles as they relate to the restored gospel of Jesus Christ and prophetic teachings.

POLI 421 - Constitutional Law - Rights and Immunities

Course Information

Teaching Area (new)
POLI

Course Number
421

Teaching Area
POLI

Course Title
Constitutional Law - Rights and Immunities

Course Description
Students will learn about some of the most important parts of American politics, the US Supreme Court and its decisions as well as the historical development of the most important legal doctrines of the Supreme Court.

Department
Political Science

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Think Critically and Analytically about Politics

Tags
184555, 1

Learning Outcome
Students will discuss the moral issues surrounding the constitutional decisions about the death penalty, abortion, death (including a righ to die and assisted suicide), discrimination, privacy rights, the free exercise of religion, the establishment of religion, hate speech, and free speech rights.

Title
Understand Political Science and its Subfields

Tags
184556, 2

Learning Outcome
Students will learn about some of hte most important parts of American politics, the US Supreme Court and its decisions as well as the historical development of the most important legal doctrines of the Supreme Court.

Title
Understand Political Science and its Subfields

Tags
184557, 3

Learning Outcome
Students will learn both the detailed arguments of important US Supreme Court decisions and the context surrounding those decisions.

Title
Employ Rigorous Research Methods

Tags
184558, 4

Learning Outcome
Through our daily analysis of Court decisions, we will practice textual analysis as it is done by legal professionals. In addition, the oral presentation, papers, and exams will also require a high level of competency at legal textual analysis, testing how well students have acquired this skill from the daily reading and discussion of cases.

Title
Write and Speak with Originality and Clarity

Tags
184559, 5

Learning Outcome
Students will write two specialized types of legal research papers, a legal brief for a mock argument before the US Supreme Court and a mock decision from the same Court. Both papers will require significant legal research and argumentation that is expected in high quality legal research.

Title
Write and Speak with Originality and Clarity

Tags
184560, 6

Learning Outcome
Each student will participate in two oral presentations in class, either as a party to a case brought before the Supreme Court or as a judge of the same Court questioning counsel in a mock Supreme Court case. These presentations will develop the skills of asking critical questions, formulating persuasive answers immediately, simplifying difficult topics, and arguing persuasively. These presentations will differ significantly from the typical oral presentation made in a class and will practice a different set of presentation skills than the typical classroom oral presentation.

Title
Think Critically and Analytically about Politics

Tags
184561, 7

Learning Outcome
In our daily discussions, in mock trial presentations, and exams, and in writing briefs or court decisions, students will practice analyzing and evaluating the logic and arguments used in past Supreme Court decisions.

Title
Write and Speak with Originality and Clarity

Tags
184562, 8

Learning Outcome
Students will be expected to adhere to the highest standards of intellectual honesty in writing both research papers and in their use of materials for their mock legal presentations. Students will also be introduced to the ABA citation style in addition to the Turabian citation style.

Title
Collaborate Effectively

Tags
184563, 9

Learning Outcome
Students will become more informed voters and participants in political processes by learning the history of US Supreme Court decisions as well as the legal and political logic that underpins those same decisions.

POLI 422 - Interests and Ideas in the American Founding

Poli 200.

Learning Outcomes

Title
Political Process, Theory, and Thought

Tags
184177, 1

Learning Outcome
Possess a factual and theoretical knowledge of human rights.

Title
Critical Thinking and Analysis

Tags
184178, 2

Learning Outcome
Think critically, analytically and synthetically about human rights

POLI 474 - Arab-Palestinian-Israeli Conflict

Course Information

Teaching Area (new)
POLI

Course Number
474

Teaching Area
POLI

Course Title
Arab-Palestinian-Israeli Conflict

Course Description
Emphasizes historical background, current situation, and alternatives leading to conflict resolution.

Department
Political Science

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Poli 200.

Learning Outcomes

Title
Political Process, Theory, and Thought

Tags
183793, 1

Learning Outcome
Students will have an increased understanding of the Arab-Israeli conflict and of the peoples, governments, and cultures it involves. Some of us enter this class with prior knowledge of the conflict; none of us enter with perfect knowledge

Title
Political Process, Theory, and Thought

Tags
183794, 2

Learning Outcome
Students will have an increased understanding of political and social analysis, terms, and ideas. We will discuss political science topics like "deterrence" and "conflict."

Title
Critical Thinking and Analysis

Tags
184146, 0

Learning Outcome
Students will have an increased ability to think, read, and write clearly.

Title
Political Process, Theory, and Thought

Tags
184440, 1

Learning Outcome
Possess a factual and theoretical knowledge of countries, political processes, political theories, and political thought.

Title
Critical Thinking and Analysis

Tags
184441, 2

Learning Outcome
Think critically, analytically, and synthetically.

POLI 475 - Civil Wars and Ethnic Violence

Course Information

Teaching Area (new)
POLI

Course Number
475

Teaching Area
POLI

Course Title
Civil Wars and Ethnic Violence

Course Description
Foundations of ethnic and nationalist identities and how they related to civil wars worldwide, emphasizing theoretical explanations of civil wars and their resolution. Key civil war cases examined.

Department
Political Science

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Poli 200.

Recommended
Poli 150 or 250; 170 or 270; 328

Learning Outcomes

Title
Better understand civil war theories

Tags
183795, 1

Learning Outcome
Gain an understanding of the theoretical constructs for understanding civil wars and substate violence and explain major contemporary theories of civil war and ethnic conflict.

Title
Apply theories to real conflicts

Tags
183976, 5

Learning Outcome
Apply theories of civil conflict to historical and ongoing conflicts across different regions.

Title
Improve factual knowledge of civil war

Tags
184035, 2

Learning Outcome
Gain a factual understanding of major instances of civil war and ethnic conflict.

Title
Use appropriate methods

Tags
184442, 1

Learning Outcome
Understand appropriate methods of analysis and research, including qualitative and quantitative methods, to answer research questions related to civil conflict.

Title
Engage the literature meaningfully

Tags
184443, 2

Learning Outcome
Engage meaningfully with contemporary literature on civil wars and ethnic violence, as well as with ongoing policy debates surrounding substate violence.

Title
Produce original arguments about civil conflict

Tags
184444, 3

Learning Outcome
Produce original arguments relating to explanations of the causes, conduct, or consequences of civil conflict.

Title
Apply Gospel Values and Principles

Learning Outcome
Learn to apply gospel values and principles such as peacemaking in our personal lives and communities while understanding principles of peacemaking on a global scale.

POLI 476 - Terrorism

Learning Outcomes

Title
Political Process, Theory, and Thought

Tags
183796, 1

Learning Outcome
Students will gain a knowledge of countries and wars, theoretically and factually

Title
Critical Thinking and Analysis

Tags
183939, 3

Learning Outcome
Students will think critically, analytically, and synthetically.

Title
Effective and Professional Writing

Tags
184090, 1

Learning Outcome
Students will write professional research papers

Title
Effective Oral Communication

Tags
184166, 2

Learning Outcome
Students will communicate effectively in a high quality oral presentation

Title
Political Process, Theory, and Thought

Tags
184211, 1

Learning Outcome
Possess a factual and theoretical knowledge of countries, political processes, political theories, and political thought.

Title
Effective and Professional Writing

Tags
184212, 2

Learning Outcome
Write professional grade research papers on political science questions.

Title
Effective Oral Communication

Tags
184213, 3

Learning Outcome
Communicate effectively by presenting ideas in a high quality oral presentation.

Title
Critical Thinking and Analysis

Tags
184214, 4

Learning Outcome
Think critically, analytically, and synthetically.

4

Lab Hours

Fixed:
0

Note
For students with an extensive background in a Romance language. Note: Native Portuguese speakers and Portuguese-speaking returned missionaries CANNOT take this course.

Learning Outcomes

Title
Explain cultural aspects

Tags
199298, 6

Learning Outcome
Know basic facts about some Portuguese-speaking countries and identify cultural products, practices, and perspectives from these countries.

Learning Outcome
Write short texts such as biographical information, correspondence, and personal experiences.

Title
Differentiate between Spanish and Portuguese

Tags
199299, 7

Learning Outcome
Differentiate between basic Spanish and Portuguese grammar, vocabulary, and spelling conventions.

Title
Create with language

Tags
199625, 5

Learning Outcome
Create sentences in the past, present, and future using basic grammar rules and vocabulary with reasonable accuracy.

Title
Understand spoken Portuguese

Tags
199300, 2

Learning Outcome
Understand conversations and monologues in spoken Brazilian Portuguese on familiar topics.

Title
Participate in conversations

Tags
199569, 1

Learning Outcome
Participate fully in conversations by asking and answering questions about some familiar, concrete topics such as self, family, friends, and daily activities.

Title
Read short authentic texts

Tags
199623, 3

Learning Outcome
Read short authentic texts, including informative texts, news articles, and short stories.

Title
Write short texts

Tags
199624, 4

PORT 201 - Third-Semester Portuguese

Course Information

Teaching Area (new)
PORT

Course Number
201

Teaching Area
PORT

Course Title
Third-Semester Portuguese

Course Description
Second-year grammar, reading, writing, and conversation.

Department
Spanish and Portuguese

When Taught
Fall

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
5

Lab Hours

Fixed:
0

Other Prerequisites
Port 102 or three units of high school Portuguese.

Note
Native Portuguese speakers and Portuguese-speaking returned missionaries enroll in Port 321.

Learning Outcomes

Title
Converse about concrete topics

Tags
199559, 0

Learning Outcome
Participate fully in conversations about concrete topics such as self and others, work, and school.

Title
Handle straightforward transactional situations

Tags
199560, 1

Learning Outcome
Handle straightforward transactional situations such as requesting services or making reservations.

Title
Understand spoken texts

Tags
199561, 4

Learning Outcome
Understand the main ideas from audio and video texts, such as commercials and news broadcasts, on familiar topics.

Title
Read short journalistic and literary texts

Tags
199562, 5

Learning Outcome
Read short journalistic and literary texts, such as articles and cronicas, on familiar topics.

Title
Write short compositions

Tags
199563, 6

Learning Outcome
Write short, simple compositions in a variety of genres (stories, résumés, skits, etc.)

Title
Discuss cultural norms

Tags
199564, 8

Learning Outcome
Discuss some differences between the cultural norms of Americans and Portuguese speakers.

PORT 202 - Fourth-Semester Portuguese: Reading and Comprehension

Teaching Area (new)
PORT

Course Number
202

Teaching Area
PORT

Course Title
Fourth-Semester Portuguese: Reading and Comprehension

Course Description
Fourth-semester class introducing grammar and culture through study of literature.

Department
Spanish and Portuguese

When Taught
Winter

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
5

Lab Hours

Fixed:
0

Recommended
Port 201.

Note
Not for returned missionaries. Culmination of GE Mathematics/Foreign Language requirement. Native speakers of Portuguese must take Port 321.

Learning Outcomes

Title
Write short compositions

Tags
199179, 5

Learning Outcome
Write simple compositions in a variety of genres (letters, pamphlets, articles, short stories, etc.).

Title
Converse about topics of general interest

Tags
199565, 0

Learning Outcome
Converst about some topics of general interest and tell about some past experiences.

Title
Handle some situations with a complication

Tags
199566, 1

Learning Outcome
Handle some situations with an unforeseen complication, such as resolving disagreements or customer complaints.

Title
Discuss cultural differences

Tags
199567, 7

Learning Outcome
Discuss some differences between the U.S. and Portuguese-speaking countries in terms of cultural products, practices, and perspectives.

Title
Understand audio and video texts

Tags
199568, 3

Learning Outcome
Understand the main ideas and some details from authentic audio and video texts on cultural topics from Portuguese-speaking cultures, such as TV and radio programs and films.

Title
Analyze medium-length cultural texts

Tags
199717, 4

Learning Outcome
Understand and analyze medium-length journalistic and literary texts within their cultural and historical context.

PORT 205 - Portuguese for Spanish Speakers 2

Course Information

205

Teaching Area
PORT

Course Title
Portuguese for Spanish Speakers 2

Course Description
Intensive course designed for students fluent in Spanish or another Romance language. Emphasizes development of reading and writing skills and understanding of Lusophone literary works and cultures.

Department
Spanish and Portuguese

When Taught
Fall, Winter, Summer

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
4

Lab Hours

Fixed:
0

Recommended
Port 105.

Learning Outcomes

Title
Write short compositions

Tags
199301, 5

Learning Outcome
Write short compositions in a variety of genres (letters, skits, short stories, etc.).

Title
Discuss cultural themes and compare perspectives

Tags
199302, 7

Learning Outcome
Discuss some common themes from Portuguese-speaking cultures and the differences between the perspectives of these cultures and those of North American and Hispanic cultures.

Title
Converse about topics of general interest

Tags
199303, 1

Learning Outcome
Carry on conversations about an increasing range of topics of general interest and handle some oral situations in which a complication arises (resolving disagreements, traffic violations, etc.).

Title
Understand spoken Portuguese

Tags
199304, 3

Learning Outcome
Understand oral conversations, announcements, and media reports about topics of general interest.

Title
Use language with increasing accuracy

Tags
199626, 6

Learning Outcome
Use Portuguese grammar and vocabulary with increasing accuracy and ability to differentiate from Spanish.

Title
Read journalistic and literary texts

Tags
199627, 4

Learning Outcome
Read journalistic and literary texts on familiar topics and current events, including short stories and a full-length play.

PORT 206 - Intensive Portuguese Skills Development

Course Information

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- PORT 325 - Survey of Luso-Brazilian Linguistics

OR

Prerequisites

Complete ALL of the following Courses:

- PORT 326 - Portuguese Phonetics and Pronunciation

Learning Outcomes

Title
Grammar Rules and Problems

Tags
199067, 1

Learning Outcome
The student enrolled in Advanced Portuguese Grammar will carefully examine some grammar "problems" by reading and studying selections from grammarians and researchers who provide insights into the problem in question. The student's ability to synthesize coherent and meaningful generalizations will be objectively tested by exams and further evaluated while he or she participates in classroom discussion.

Title
Descriptive and Prescriptive Grammars

Tags
199068, 3

Learning Outcome
The student enrolled in Advanced Portuguese Grammar will acquire a greater understanding of both descriptive and prescriptive grammars and their function and limitations. The student will also acquire specialized terms employed by grammarians and morphosyntacticians. The student's ability to understand and use these terms appropriately will also be objectively measured by examination.

Title
Research Paper

Tags
199069, 5

Learning Outcome
Complete a research paper/presentation on a particular grammar point or construction. This assignment will test a student's ability to locate appropriate refereed sources, read and synthesize them and prepare a written document and oral presentation according to a recognized style manual.

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- PORT 325 - Survey of Luso-Brazilian Linguistics

OR

Prerequisites

Complete ALL of the following Courses:

- PORT 326 - Portuguese Phonetics and Pronunciation

Learning Outcomes

Title
Nominal and Verbal Systems

Tags
199076, 1

Learning Outcome
Acquire a basic knowledge of the changes undergone by the nominal and verbal systems of Latin and Portuguese (e.g., the demise of the case system, the development of new verbal tenses, etc.).

Title
Scholarly Articles

Tags
199077, 2

Learning Outcome
Demonstrate the ability to summarize and discuss in a clear and concise manner several scholarly articles on the topic of the history of the Portuguese language.

Title
Political and Literary Contexts

Tags
199078, 3

Learning Outcome
Situate Latin and Portuguese in their political and literary historical contexts.

Title
Phonological Development

Tags
199079, 5

Learning Outcome
Recognize the laws of regular phonological development (e.g. syncope, lenition, diphthongization, etc.).

Title
Lexicon Sources

Tags
199080, 7

Learning Outcome
Identify the sources of the Portuguese lexicon.

Title
Theory

Tags
199081, 9

Learning Outcome
Understand the different theories that claim to understand the relation between Latin and the Romance languages, especially the relation between Latin and Portuguese.

Title
Linguistic Standardization

Tags
199082, 10

Learning Outcome
Understand the process of linguistic standardization in Romance and its implications for the linguistic map of the Iberian Peninsula.

Learning Outcomes

Title
Communication Skills

Tags
197616, 1

Learning Outcome
In both written and spoken target language, communicate with reasonable accuracy about real-world activities with well-educated members of the target-culture accustomed to dealing with non-native speakers.

Title
Comprehension

Tags
197617, 2

Learning Outcome
Understand every-day written and verbal instructions. Comprehend concrete details and global meaning of intermediate-level written and spoken passages related to familiar topics that native speakers encounter routinely in their daily life.

Title
Cultural Knowledge

Tags
197618, 3

Learning Outcome
Discuss in the target language cultural practices related to every-day life in the target culture. Acquire basic background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.).

Title
General Education Requirements

Tags
197620, 4

Learning Outcome
Complete Languages of Learning and Global & Cultural Awareness for General Education.

Tags
184726, 1

Learning Outcome
Students will critically evaluate graduate programs based on research fit, training models, mentorship structure, funding opportunities, and long-term professional goals.

Title
Professional Communication and Mentorship Engagement

Tags
184743, 2

Learning Outcome
Students will demonstrate professionalism and integrity in seeking mentorship and letters of recommendation, including appropriate timing, transparency, and reciprocal communication.

Title
Academic and Professional Identity

Tags
184768, 0

Learning Outcome
Students will articulate a coherent academic and professional identity through development of a curriculum vitae and statement of intent that reflect preparation, goals, and career commitments.

Title
Interview Strategy and Professional Presence

Tags
184902, 4

Learning Outcome
Students will demonstrate readiness for graduate interviews through structured preparation, practice, and reflective integration of feedback.

Title
Financial Literacy

Learning Outcome
Students will analyze funding structures and financial commitments associated with graduate education and make responsible, long-term decisions regarding professional sustainability.

PSYCH 210 - A History of Psychology

Course Information

Teaching Area (new)
PSYCH

Course Number
210

Teaching Area
PSYCH

Course Title
A History of Psychology

Course Description
Overview of psychological thinking from Ancient Greece to the present. Emphasizes a critical stance toward the assumptions and implications of major psychological theories.

Department
Psychology

When Taught
All Semesters/Terms

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Recommended
May be taken concurrently with Psych 308.

Note
This course contains content featured in the Graduate Record Examination (GRE) Subject Test. Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at https://is.byu.edu/catalog/PSYCH-210-M001.

Learning Outcomes

Title
Analyzing Foundations of Psychological Thought

Tags
206970, 1

Learning Outcome
Demonstrate critical thinking skills by comparing and contrasting the basic assumptions regarding human nature that have traditionally guided and shaped the various schools of contemporary psychological thought.

Title
Evaluating Psychological Implications

Tags
206971, 2

Learning Outcome
Identify and evaluate the various intellectual, moral, and spiritual implications that these basic assumptions about human nature have not only for theory and practice in contemporary psychology, but also in relation to their own personal lives and the development of moral character, worthy aspirations, and a sound spiritual self-understanding.

Title
Understanding Historical Schools of Psychology

Tags
206972, 3

Learning Outcome
Identify the major figures and schools of thought that have made significant historical and conceptual contributions to the contemporary disciplinary landscape of psychology.

Title
Articulating Psychological Perspectives

Tags
206973, 4

Learning Outcome
Articulate a reasoned position on some of the enduring questions, issues, and concerns of the discipline of psychology from a perspective that is rooted firmly in the Restored Gospel of Jesus Christ.

Learning Outcomes

Title
Understanding Lifespan Development Theories

Tags
184779, 4

Learning Outcome
Explain developmental stages and principles across the lifespan, with expression of key models and theories, terminology, and historic figures.

Title
Applying Developmental Knowledge in Practice

Tags
184781, 0

Learning Outcome
Demonstrate real world recognition and application of developmental knowledge (stages and relevant challenges, skills, and tasks) to observations of people (including oneself and others).

Title
Evaluating Factors in Human Development

Tags
184787, 1

Learning Outcome
Convey understanding of people based on the relevant overlay of influential factors in their lives, including biological, social, and psychological background, as well as demographics, experiences, and behaviors.

Title
Communicating Developmental Concepts

Tags
185016, 2

Learning Outcome
Analyze, evaluate, and express ideas clearly regarding developmental principles and understanding in written and verbal communication.

PSYCH 305 - Multicultural Psychology

Course Information

Teaching Area (new)
PSYCH

Course Number
305

Teaching Area
PSYCH

Course Title
Multicultural Psychology

Course Description
Examination of multiculturalism from a psychological perspective, with a focus on the impact of culture on psychological theory, research, and practice. Particular attention will be given to the sociocultural and psychological analyses of four ethnic minority groups in the United States: American Indians, Asian Americans, African Americans and Hispanics/Latina/os.

Learning Outcomes

Title
Integrating Perspectives on Gender and Identity

Tags
184908, 1

Learning Outcome
Integrate biological, psychological, social, and spiritual perspectives to articulate a coherent, evidence-informed, and gospel-centered framework for understanding gender and human identity.

Title
Evaluating Research on Gender and Reasoning

Tags
184909, 2

Learning Outcome
Demonstrate disciplined scientific thinking by critically evaluating research on gender, distinguishing empirical findings from cultural narratives, and applying sound reasoning in academic and public discourse.

Title
Modeling Christlike Character in Dialogue

Tags
184911, 0, 4

Learning Outcome
Model Christlike character in conversations and relationships involving gender by demonstrating empathy, moral courage, intellectual humility, and respect for the divine worth of every individual.

Title
Applying Psychology in Community Settings

Learning Outcome
Apply psychological principles to strengthen families, communities, and professional practice, committing to lifelong learning and service that promotes human flourishing and eternal perspective.

Note

Must be taken prior to or concurrently with Psych 308. Fulfills GE Advanced Written and Oral Communication requirement. WRTG 315 will substitute for this course. Psych minors, contact department student support for a permission-to-add code. Offered by BYU Independent Study; enroll anytime throughout the year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
1. Communicate psychological ideas with clarity and purpose.

Tags
184605, 3

Learning Outcome
Students will produce clear, well-structured written communication that presents psycholgocail ideas that are appropriate for diverse audiences and professinoal contexts.

Title
2. Apply ethical and responsible scholarship in psychological writing

Tags
184608, 6

Learning Outcome
Students will practice integrity in the use of evidence, attribution of sources, use or artificial intelligence, and representation of scientific findings in ways that reflect the ethical standards of psychology.

Title
3. Engage psychological scholarship through inquiry and lifelong learning

Tags
206960, 2

Learning Outcome
Students will evaluate psychological research and scholarly sources inw ays that cultivate curiosity, critical thinking, and habits of lifelong learning.

Title
4. Integrate psychological knowlege within gospel-centered perspectives on psychological topics

Tags
206962, 5

Learning Outcome
Students will select topics that help them reflect on how deeper understanding of their focused topic can inform compassionate service and enhanced ministering efforts.

Note
Psych 307 may be taken concurrently with Psych 308. Stat 121 will not substitute for this course. Contains content featured in the Graduate Record Examination (GRE). Offered by BYU Independent Study; enroll anytime throughout the year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Understanding Statistical Concepts and Notation

Tags
184609, 1

Learning Outcome
Demonstrate understanding of statistical notation, formulas, terminology, and concepts.

Title
Analyzing Data Using Software

Tags
184610, 2

Learning Outcome
Appropriately analyze psychological data using statistical software.

Title
Interpreting Statistical Results

Tags
184611, 3

Learning Outcome
Appropriately interpret results of statistical analyses of psychological data.

PSYCH 310 - Psychological Research Design and Analysis

Course Information

- PSYCH 307 - Writing Within Psychology
  AND PSYCH 308 - Psychological Statistics

Note
Psych 308 is a prerequisite to Psych 310. Contains content featured in the Graduate Record Examination (GRE).

Learning Outcomes

Title
1. Informed Consumers of Research

Tags
184613, 1

Learning Outcome
Students will be able to critically review the literature to generate a testable hypothesis based on a summation of current research findings and scientific thought.

Title
2. Ethically Grounded Psychologists

Tags
184614, 2

Learning Outcome
Students will be able to distinguish between methodological designs and implement and execute an appropriate design to test the hypothesis, demonstrating an understanding of and sensitivity to relevant ethical considerations, including how to identify and measure dependent variables and measure or control for independent and other variables critical to the design of the study.

Title
3. Effective Scientific Communicators

Tags
184615, 3

Learning Outcome
Students will be able to prepare a written report of the research project adhering to APA style in all aspects of presentation (e.g., format, figures/tables, referencing) in a format that would be suitable to submit to an APA journal.

PSYCH 311 - Critical Issues in Psychology

Course Information

Teaching Area (new)
PSYCH

Course Number
311

Teaching Area
PSYCH

Course Title
Critical Issues in Psychology

Course Description
Critical and comparative examination of underlying theoretical and philosophical issues relavant to contemporary social, personality, and cognitive psychology, neuroscience, and psychotherapy.

Department
Psychology

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PSYCH 111 - Introduction to Psychological Science
  AND PSYCH 307 - Writing Within Psychology

Learning Outcomes

Title
1. Assumptions of major theories

Tags
184791, 3

Learning Outcome
Students will identify and describe basic assumptions (and the implications of those assumptions) that underlie the major theories, methods, practices, and schools of contemporary psychology.Measurement: Multiple choice quizzes or short essay assignments.

Title
2. Critically evaluate assumptions in published writings

Tags
184792, 2

Learning Outcome
Students will identify and critically evaluate these basic assumptions in the published writings of psychologists.
Measurement: Multiple choice reading quizzes and short paper essay assignments.

Title
3. Compare and contrast alternative assumptions

Tags
184793, 1

Learning Outcome
Students will compare and contrast alternative assumptions (and the implications of those assumptions) to those associated with the major theories, methods, practices, and schools of contemporary psychology, especially as they may be relevant to a Christian perspective.
Measurement: Short paper essay assignments.

PSYCH 312R - Advanced Methods

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PSYCH 307 - Writing Within Psychology
  AND PSYCH 308 - Psychological Statistics
  AND PSYCH 310 - Psychological Research Design and Analysis

Learning Outcomes

Title
Developing Theory-Based Measures

Tags
184612, 2

Learning Outcome
Develop psychological measures grounded in theory and evidence. Students will define constructs, generate and refine items, and collect and analyze data to build original assessment tools.

Title
Critically Evaluating Psychometric Quality and Ethics

Tags
184919, 1

Learning Outcome
Evaluate the strength and limitations of psychological measurements. Students will appraise evidence of reliability and validity, identify sources of measurement error, and judge whether interpretations of test scores are warranted - recognizing that questionable measurement practices compromise both ethical practice and the replicability of psychological science.

Title
Applying Measurement Reasoning to Claims

Learning Outcome
Apply measurement principles to critically evaluate claims in science and daily life. Students will use the logic of construct definition, evidence evaluation, and measurement quality to assess the strength of claims - whether in published research, professional practice, or personal decision-making.

Learning Outcomes

Title
1. Developmental Theories in Practice

Tags
184794, 1

Learning Outcome
Apply major theories and findings across domains of child development

Title
2. Critical Evaluation of Developmental Influences

Tags
184795, 2

Learning Outcome
Evaluate normative and atypical developmental trajectories and their risk and resilience indicators

Title
3. Research-Informed Perspective

Tags
184796, 3

Learning Outcome
Integrate empirical research to form evidence-based views on contemporary issues

Title
4. Ethical and Compassionate Regard for Children

Learning Outcome
Demonstrate ethical and compassionate value of children and families

PSYCH 321 - Developmental Psychology: Adolescence

Course Information

Learning Outcomes

Title
Understanding Adolescent Developmental Changes

Tags
184618, 4

Learning Outcome
Describe the biological, cognitive, and social changes that occur in adolescence across diverse contexts.

Title
Evaluating Adolescent Developmental Resources and Limits

Tags
184913, 1

Learning Outcome
Articulate resources and limitations of adolescent flourishing.

Title
Analyzing Adolescent Behavior and Motivation

Tags
184914, 2

Learning Outcome
Employ the reasoning and perspective of a developmental psychologist to examine questions about adolescent motivations, behavior, and development.

Title
Applying Developmental Principles to Adolescent Contexts

Tags
184915, 3

Learning Outcome
Apply evidence-based developmental principles to real-world challenges in ways that improve the lives of adolescents and their communities.

Title
Understanding Normative Tasks of Adolescence

Tags
184916, 5

Learning Outcome
Characterize the normative developmental tasks of adolescence across biological, cognitive, and psychosocial domains.

PSYCH 322 - Developmental Psychology: Adulthood

Course Information

Learning Outcomes

Title
Understanding Adult Developmental Changes

Tags
184619, 4

Learning Outcome
Describe the biological, cognitive, and social changes that occur in adulthood across diverse contexts.

Title
Evaluating Adult Developmental Resources and Limits

Tags
184620, 5

Learning Outcome
Articulate resources and limitations of adult flourishing.

Title
Analyzing Adult Behavior and Motivation

Tags
184784, 2

Learning Outcome
Employ the reasoning and perspective of a developmental psychologist to examine questions about adult motivations, behavior, and development.

Title
Applying Developmental Principles to Adult Contexts

Tags
184797, 6

Learning Outcome
Apply evidence-based developmental principles to real-world challenges in ways that improve the lives of adults and their communities.

Title
Understanding Normative Tasks of Adulthood

Tags
184917, 1

Learning Outcome
Characterize the normative developmental tasks of adulthood across biological, cognitive, and psychosocial domains.

PSYCH 330 - Organizational Psychology

Course Information

Teaching Area (new)
PSYCH

Course Number
330

Teaching Area
PSYCH

Course Title
Organizational Psychology

Course Description
Personal, interactional, and structural aspects of organizations; motivation, decision making, problem-solving communication, leadership, organizational structure, change.

Department
Psychology

When Taught
Fall and Winter

  AND PSYCH 307 - Writing Within Psychology

Note
Offered by BYU Independent Study; enroll anytime throughout the year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
1. Understanding of major areas of I/O psychology

Tags
184798, 1

Learning Outcome
Students will demonstrate a basic understanding of the major areas of organizational and industrial psychology, including human resources; leadership development; employee training, motivation, and satisfaction; group dynamics, organizational climate; and team-building.
Measurement: Multiple choice tests, short essays.

Title
2. Apply organizational theory

Tags
184799, 2

Learning Outcome
Students will learn to apply organizational theory to specific organizational situations.
Measurement: Writing assignment.

Title
3. Organizational skills

Tags
184800, 3

Learning Outcome
Students will acquire skill in collaborative teamwork, time management, self-motivation, and project planning.
Measurement: Evaluation of cooperative class assignments.

PSYCH 338 - Sport Psychology

Course Information

Teaching Area (new)
PSYCH

Course Number
338

Teaching Area
PSYCH

Course Title
Sport Psychology

Course Description
Application of psychological principles to sporting activities.

Department

Learning Outcomes

Title
Explain core principles of sport psychology

Tags
184621, 1

Learning Outcome
Students will explain major concepts in sport psychology and how mental processes influence athletic performance.

Title
Apply principles of deliberate practice and mental training

Tags
184622, 2

Learning Outcome
Students will apply principles of deliberate practice and mental skills such as goal setting, focus, and imagery to improve performance and learning in sport and other domains.

Title
Analyze psychological factors that influence performance and recovery

Tags
184920, 3

Learning Outcome
Students will analyze how motivation, emotion, stress, and injury influence athletic performance and recovery.

Title
Reflect on character and growth through sport

Learning Outcome
Students will reflect on how sport can develop discipline, resilience, and integrity and how psychological principles can be used to strengthen character and serve others through sport and performance settings.

Learning Outcomes

Title
Knowledge of contemporary personality theories, measurements, constructs

Tags
184801, 1

Learning Outcome
Students will demonstrate a comprehensive knowledge of major personality theories, standards of measurements, and well-researched personality constructs.

Title
Knowledge of research evidence on the role of personality across psychological subfields

Tags
184802, 2

Learning Outcome
Students will gain knowledge about the importance of personality for clinical, developmental, cognitive, social, and organizational psychology.

Title
Building awareness of the personality in the self and others

Tags
184803, 3

Learning Outcome
Students build an awareness of the personality traits and characteristics they and the people around them hold.

Title
Connecting principles of personality theory and development with gospel perspectives

Tags
184804, 4

Learning Outcome
Students will be able to connect principles of personality theory and development with gospel teachings and the enabling power of Jesus Christ.

Learning Outcomes

Title
Understanding Psychological Disorders and Diagnosis

Tags
214335, 0, 1, 2023-08-29 12:02:14

Learning Outcome
Identify, describe, and compare major categories of psychological disorders using current diagnostic frameworks, including DSM-based classification, with attention to prevalence, symptom presentation, and cultural context.

Title
Evaluating Models and Treatment of Psychopathology

Tags
214336, 0, 2, 2023-08-29 12:02:16

Learning Outcome
Explain and evaluate empirical research of major theoretical models of psychopathology (biological, psychological, social, and integrative) and summarize evidence-based treatments associated with these models.

Title
Applying Ethical and Experiential Learning in Mental Health

Tags
214337, 0, 3, 2023-08-29 12:02:19

Learning Outcome
Integrate experiential or service-based learning experiences to deepen understanding of psychological disorder, apply ethical principles and professional standards, and reflect on personal attitudes, biases, and responsibilities toward individuals experiencing mental illness.

Title
Integrating Faith and Ethics in Mental Health Practice

Tags
214338, 0, 4, 2023-08-29 12:02:21

Learning Outcome
Prayerfully reflect on how personal values, ethical commitments, and being a disciple of Jesus Christ informs compassionate, responsible engagement with psychological suffering and mental health care.

Learning Outcomes

Title
Analyzing Childhood and Adolescent Psychological Disorders

Tags
184808, 1

Learning Outcome
Identify, describe, and compare psychological disorders of childhood and adolescence using current diagnostic frameworks with attention to prevalence, symptom presentation, and cultural context.

Title
Conceptualizing Developmental Systems in Psychopathology

Tags
184809, 2

Learning Outcome
Conceptualize childhood and adolescent psychological disorders from the perspective of interacting systems including genetics, family context, peer influence, societal factors, and public policy.

Title
Applying Prevention and Treatment in Child Mental Health

Tags
184810, 3

Learning Outcome
Describe evidence-based prevention and treatment approaches for childhood psychological disorders and prepare to serve throughout your life by connecting others to interventions to support child mental health.

Title
Demonstrating Ethical and Compassionate Clinical Engagement

Learning Outcome
Demonstrate Christlike charachter attributes, ethical commitments, and spiritual sensitivity to enable compassionate, responsible engagement with individuals with psychological challenges.

PSYCH 345 - Mediation and Conflict Resolution

Course Information

Teaching Area (new)
PSYCH

Course Number
345

Teaching Area
PSYCH

Course Title
Mediation and Conflict Resolution

Course Description
A skills-based seminar that introduces conceptual knowledge and practical skills training for a mediator. Basic mediation concepts include communication skills, information gathering, managing conflict, identifying issues, active listening, reframing, problem solving, negotiating, and agreement writing.

Department
Psychology

When Taught
Fall

Credit Hours

Recommended
PSYCH 111.

Learning Outcomes

Title
Understanding Conflict Dynamics and Mediation

Tags
185038, 1

Learning Outcome
Understand the nature and dynamics of conflict and apply mediation principles to promote resolution.

Title
Demonstrating Mediation Communication Skills

Tags
185039, 2

Learning Outcome
Demonstrate effective communication and facilitation techniques in simulated mediation settings.

Title
Integrating Psychological Concepts in Mediation

Learning Outcome
Integrate psychological concepts to analyze conflict and guide the mediation process.

PSYCH 348 - Clinical Psychology

Course Information

Teaching Area (new)
PSYCH

Course Number
348

Teaching Area
PSYCH

Course Title
Clinical Psychology

Course Description
Personality theories, psychopathology, diagnostic interviewing and testing, psychotherapy techniques; research methods.

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PSYCH 111 - Introduction to Psychological Science
  AND PSYCH 307 - Writing Within Psychology

Note
Not a practicum.

Learning Outcomes

Title
Analyzing Clinical Theories, Assessment, and Treatment

Tags
184811, 1

Learning Outcome
Critically analyze major theories, assessment processes, and treatment approaches in clinical psychology and evaluate their empirical and conceptual foundations.

Title
Demonstrating Foundational Clinical Skills

Tags
184812, 2

Learning Outcome
Demonstrate foundational interpersonal and helping skills that reflect empathy, respect, and responsiveness to diverse individuals.

Title
Evaluating Ethics and Professional Integrity in Clinical Practice

Tags
184813, 3

Learning Outcome
Evaluate ethical principles in clinical psychology and articulate how professional integrity, moral agency, and respect for human dignity guide responsible practice.

Title
Examining the Role of Clinical Psychology in Well-Being

Tags
184814, 4

Learning Outcome
Examine the role of clinical psychologists in alleviating suffering and promoting well-being and reflect on personal preparation for lifelong learning and service in mental health fields.

PSYCH 349 - Introduction to Positive Psychology

Course Information

Teaching Area (new)
PSYCH

Course Number
349

Teaching Area

Learning Outcomes

Title
Analyzing Clinical Theories and Treatment Models

Tags
206963, 1

Learning Outcome
Students will be able to evaluate psychological theories and empirical findings related to human flourishing and well-being.

Title
Developing Interpersonal and Helping Skills

Tags
206964, 2

Learning Outcome
Students will be able to apply evidence-based well-being principles to cultivate habits that promote personal growth, resilience, and healthy relationships.

Title
Evaluating Ethics in Clinical Practice

Learning Outcome
Students will be able to reflect on sources of meaning, purpose, and interconnectedness in ways that support a coherent and values-guided life.

Title
Exploring Psychology’s Role in Well-Being and Growth

Learning Outcome
Students will be able to design a sustainable approach to well-being that supports lifelong learning, contribution, and service to others.

PSYCH 350 - (Psych-Soc) Introduction to Social Psychology

Course Information

  AND PSYCH 307 - Writing Within Psychology

Note
Contains content featured in the Graduate Record Examination (GRE). Offered by BYU Independent Study; enroll anytime throughout the year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Think critically about social behavior

Tags
184625, 2

Learning Outcome
Students will be able to analyze the situational, relational, and cultural contributions of social psychology to behavior, situating the discipline within the larger domain of the social sciences.

Title
Evaluate social psychological evidence ethically

Tags
184626, 3

Learning Outcome
Students will be able to evaluate social psychological research using ethical principles of scientific rigor and Christ-like charity, demonstrating respect for human divine worth in the study and application of various research designs.

Title
Apply major areas of inquiry

Tags
184627, 4

Learning Outcome
Students will be able to apply major theories and empirical findings across diverse areas of social psychological inquiry, including the self, person perception, attitudes and persuasion, group processes, prejudice, interpersonal attraction, helping behavior, and aggression.

Title
Applications of social psychology

Tags
184628, 5

Learning Outcome
Students will be able to apply social psychological theory and research to strengthen relationships, families, and communities, reduce prejudice, increase pro-social engagement, and promote the building up of Zion.

PSYCH 352 - Applied Social Psychology.

Course Information

Teaching Area (new)
PSYCH

Course Number
352

Teaching Area
PSYCH

Course Title
Applied Social Psychology.

Course Description
Applying social psychological theory, research, and methods to such domains as law, business, education, the media, mental health, and physical health.

  AND PSYCH 307 - Writing Within Psychology

Learning Outcomes

Title
1. Defining a social problem

Tags
184629, 2

Learning Outcome
Students will be able to understand how one defines something as a "social problem". Measurement: Multiple choice tests, short essays.

Title
2. Basic compared to applied social psychology

Tags
184630, 3

Learning Outcome
Students will be able to compare and contrast basic and applied social psychology. Measurement: Multiple choice tests, short essays.

Title
3. Substantive areas of social psychological application

Tags
184631, 4

Learning Outcome
Students will be able to identify substantive areas of social psychological application, such as education, physical health, mental health, the environment, and business. Measurement: Multiple choice tests, short essays.

Title
4. Research project

Tags
184922, 1

Learning Outcome
Students will be able to apply social psychological methods to an intervention designed to understand or ameliorate a social problem. Measurement: Evaluation of project

PSYCH 353 - The Restored Gospel of Jesus Christ and Psychology

Course Information

Teaching Area (new)
PSYCH

Course Number
353

Teaching Area
PSYCH

Course Title
The Restored Gospel of Jesus Christ and Psychology

Course Description
Relationships between theories of psychology and Latter-day Saint thought.

Department
Psychology

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PSYCH 111 - Introduction to Psychological Science
  AND PSYCH 307 - Writing Within Psychology

Learning Outcomes

Title
Integrating Gospel Truths with Psychological Understanding

Learning Outcome
Students will recognize and understand truths and doctrines of the Restored Gospel of Jesus Christ as they are relevant to our understanding of ourselves and what it means to be a human being, and thus how they can and should impact the theory and practice of psychology.

Title
Evaluating Psychological Theories in Light of Gospel Principles

Learning Outcome
Students will be able to understand and evaluate key theories, models, and practices in the field of psychology in terms of their compatibility or conflict with the truths revealed in the Restored Gospel and their implications for our own self-understanding.

Title
Interpreting Psychology Through a Faith-Based Framework

Learning Outcome
Students will understand and appreciate the practice of interpreting the tenets, philosophical commitments, and assumptions of mainstream psychology in light of the principles and doctrines of the Restored Gospel rather than the other way round.

Title
Exploring Christian Perspectives on Psychology and Practice

Learning Outcome
Students will develop some sense and appreciation of related efforts to understand and evaluate psychology in light of Christian faith, doctrine, and practice as manifest in other Christian Faith traditions.

PSYCH 354 - Psychology of Religion

Course Information

Teaching Area (new)
PSYCH

Course Number
354

Teaching Area
PSYCH

Course Title
Psychology of Religion

Course Description
Religious and Spiritual motivation, growth, assumptions, behaviors, experiences and outcomes as they affect individuals and communities across major world religions.

Department
Psychology

Prerequisites

Complete ALL of the following Courses:

- PSYCH 111 - Introduction to Psychological Science
  AND PSYCH 307 - Writing Within Psychology

Learning Outcomes

Title
1. Key assumptions of psychology, religion, and spirituality

Tags
184820, 1

Learning Outcome
Students will define psychology, religion, and spirituality and compare and contrast their key assumptions.
Measurement: Multiple choice/Analytic essays.

Title
2. Critical examination of perspectives

Tags
184821, 2

Learning Outcome
Students will critically examine the implications of psychological perspectives on religion and spirituality, as well as the implications of religious and spiritual perspectives on psychology.
Measurement: Analytic essays.

Title
3. Alternative perspectives

Tags
184822, 3

Learning Outcome
Students will identify alternative psychological, religious, and spiritual perspectives, examine their assumptions, and consider the value of their alternative implications to the relationship between these three worldviews.
Measurement: Multiple choice/Analytical essays.

Title
4. Critical examination of one's own assumptions

Tags
184823, 4

Learning Outcome
Students will critically examine their own assumptions about the relationship between psychology, religion, and spirituality.
Measurement: Analytical essays.

PSYCH 356 - Introduction to Health Psychology

Course Information

Teaching Area (new)
PSYCH

Course Number
356

Teaching Area

  AND PSYCH 307 - Writing Within Psychology

Note
Contains content featured in the Graduate Record Examination (GRE).

Learning Outcomes

Title
Psychosocial and Spiritual Health Factors

Tags
184632, 1

Learning Outcome
Identify and describe psychosocial, behavioral, and spiritual/religious factors that influence health.

Title
Analyzing Health Outcomes Research

Tags
184633, 2

Learning Outcome
Critically analyze research to assess the impact of these factors on acute and chronic health conditions.

Title
Evaluating Sociocultural Health Contexts

Tags
184634, 3

Learning Outcome
Evaluate how sociocultural contexts and access to medical treatments shape health outcomes.

Title
Assessing Personal Health Behaviors

Tags
184824, 4

Learning Outcome
Assess personal health behaviors and their contributions to individual health and well-being.

PSYCH 358 - Leadership Development

Course Information

Teaching Area (new)
PSYCH

Course Number
358

Teaching Area
PSYCH

Course Title
Leadership Development

Course Description
Principles and practices of successful leadership: decision making, communications, planning, team building, motivation, and interpersonal skills.

Department
Psychology

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Complete ALL of the following Courses:

- PSYCH 111 - Introduction to Psychological Science **AND** PSYCH 307 - Writing Within Psychology

Note
Offered by BYU Independent Study; enroll anytime throughout the year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
1. Major areas of the psychology of leadership

Tags
184825, 2

Learning Outcome
Students will demonstrate a basic understanding of the major areas of the psychology of leadership, including leadership as trait or as function; leadership styles (charismatic, transactional, transformational); contingency and situational leadership; ethics and responsibility; influence tactics; teamwork and team-building; motivation and coaching skills; creativity and innovation; communication, negotiation, and conflict resolution; strategic and tactical leadership; leadership development and succession planning. Measurement: Multiple choice tests, short essays.

Title
2. Apply leadership theory to specific situations

Tags
184826, 1

Learning Outcome
Students will learn to apply leadership theory to specific organizational situations. Measurement: Writing assignment.

PSYCH 370 - Sensation and Perception

Course Information

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- PSYCH 111 - Introduction to Psychological Science
  AND PSYCH 307 - Writing Within Psychology

OR

Prerequisites

Complete ALL of the following Courses:

- NEURO 205 - Neurobiology

Note
Contains content featured in the Graduate Record Examination (GRE).

Learning Outcomes

Title
Sensory Transduction and Systems

Tags
184827, 1

Learning Outcome
Students will be able to describe the general principles of sensory transduction and afferent information flow for the primary senses, including the specific mechanisms of vision and audition as representative examples.

Title
Cognitive Influences on Perception

Tags
184829, 3

Learning Outcome
Students will be able to outline the influence of conscious and unconscious cognitive processes on our perceptual experience.

Title
Sensory Atypicality and Disability

Tags
184830, 2

Learning Outcome
Students will present (an) informed personal position(s) on the effect of sensory atypicalities on quality of life, and their definition of 'disability.'

Title
Applying Perception to Behavior Change

Tags
184828, 0, 4

Learning Outcome
Students will propose an experimental action they will take this semester that will use principles learned in Sensation and Perception to change a future target behavior.

PSYCH 375 - Cognition

Course Information

Teaching Area (new)
PSYCH

Course Number
375

Teaching Area
PSYCH

Course Title
Cognition

Course Description
Perceptual organization; information processing; cognitive development; relationships between sensory analysis, perception, memory, learning, language, and problem solving.

OR

Prerequisites

Complete ALL of the following Courses:

- PSYCH 111 - Introduction to Psychological Science **AND** WRTG 315 - Writing in the Social Sciences

Note
Contains content featured in the Graduate Record Examination (GRE).

Learning Outcomes

Title
Exploring Human Thought and Cognition

Tags
184638, 1

Learning Outcome
Explain core principles of human cognition and cognitive processes (e.g., attention, memory, language, problem solving, and decision-making) that are based on empirical evidence from psychological research.

Title
Applying Cognitive Principles to Promote Well-Being

Tags
184639, 0, 2

Learning Outcome
Apply principles of human cognition to real-world domains in ways that promote personal growth and well-being, as well as the growth and well-being of others.

Title
Cultivating Compassion Through Cognitive Awareness

Learning Outcome
Identify how cognitive processes and biases influence learning and decision-making, and apply this awareness to engage others with greater compassion.

PSYCH 377 - The Cognitive Neuroscience of Memory

Course Information

Teaching Area (new)
PSYCH

Course Number
377

Teaching Area
PSYCH

Course Title
The Cognitive Neuroscience of Memory

Course Description
Advanced topics in current and historical memory research.

Department
Psychology

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Psych 381 or Psych 375 or Neuro 380 or equivalent.

Learning Outcomes

Title
Understanding Memory

Tags
208239, 0, 1

Learning Outcome
Understand memory systems and processes: Students will be able to explain how distinct memory systems and processes (e.g., working, episodic, semantic, procedural; encoding, consolidation, retrieval) emerge from interactions among brain networks, and why this knowledge matters for thoughtful learning and service.

Title
Evaluating Memory Evidence

Tags
208240, 0, 2

Learning Outcome
Evaluate evidence about memory: Students will be able to critique claims about memory in primary research and public discourse by weighing evidence, assumptions, and limitations from behavioral, neuroimaging, electrophysiological, and neuropsychological approaches with intellectual rigor and integrity.

Title
Applying Memory Science

Tags
208241, 0, 3

Learning Outcome
Apply memory science for well-being and service: Students will be able to apply cognitive neuroscience principles of memory to develop evidence-informed recommendations that support learning, well-being, and service in real-world or clinical contexts.

Title
Integrating Faith and Ethics

Learning Outcome
Integrate disciplinary and gospel-centered values: Students will be able to integrate ethical responsibilities, disciplinary values, and commitment to the restored gospel of Jesus Christ in their approach to studying and communicating about memory in ways that strengthen character and support lifelong learning and service.

PSYCH 381 - Behavioral Neurobiology

OR

Prerequisites

Complete ALL of the following Courses:

- NEURO 205 - Neurobiology

Other Prerequisites
(Neuro 205 will substitute for Psych 310.)

Note
Contains content featured in the Graduate Record Examination (GRE). Offered by BYU Independent Study; enroll anytime throughout the year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
1. The brain, experience, and behavior

Tags
184640, 1

Learning Outcome
Students will develop an understanding of how the brain influences human experience and behavior, integrating empirical evidence with reflection on spirituality, moral responsibility, and the nature of human experience. Measurement: Quizzes and/or exams on assigned textbook reading, lectures, and class discussions and written reports and/or in-class presentations of self-selected articles from the scientific literature.

Title
2. Scientific methods and behavioral neurobiology

Tags
184641, 2

Learning Outcome
Students will identify and critically evaluate scientific methods used in behavioral neurobiology and cognitive neuroscience, with attention to experimental design, data interpretation, and ethical research practices. Measurement: Quizzes and/or exams on assigned textbook reading, lectures, and class discussions and written reports and/or in-class presentations of self-selected articles from the scientific literature.

Title
3. Diseases, trauma, drug usage, hormones, and genes

Tags
184642, 3

Learning Outcome
Students will apply neuroscientific concepts and research findings to understand the biological bases of diseases, trauma, drug use, hormonal influences, and genetic factors, with attention to ethical considerations, human dignity, and societal impact. Measurement: Quizzes and/or exams on assigned textbook reading, lectures, and class discussions and written reports and/or in-class presentations of self-selected articles from the scientific literature.

Note
Contains content featured in the Graduate Record Examination (GRE).

Learning Outcomes

Title
Understanding Stress and Disease

Tags
184836, 1

Learning Outcome
1. Describe how stress affects physiology and contributes to physical disease. Be able to critically think about how stress perception and physiology interact as we adapt to our life contexts, and how failure to adapt contributes to disease.

Title
Understanding Stress Responses

Tags
184837, 2

Learning Outcome
2. Understand the factors that moderate stress experience, particularly how cognition, emotion, behavior, social relationships, and culture can shape the stress response.

Title
Managing Stress for Well-Being

Tags
184838, 3

Learning Outcome
3. Learn to use stress management and biofeedback techniques, and building on class material create your own personalized integrative health plan. Be able to self-assess your own life stressors and identify which approaches to stress management best help you learn to regulate your stress response and harness stress energy for positive outcomes.

PSYCH 387 - Introduction to Primate Behavior

Course Information

Teaching Area (new)
PSYCH

Course Number
387

  AND PSYCH 307 - Writing Within Psychology

OR

Prerequisites

Complete ALL of the following Courses:

- NEURO 205 - Neurobiology

Learning Outcomes

Title
1. The diversity of primate species and environments

Tags
184643, 1

Learning Outcome
Students will recognize the diversity of primate species and environments, and examine representative species in detail.
Measurement: In-class quizzes and exams on the assigned reading.

Title
2. Specific aspects of primate behavior

Tags
184644, 2

Learning Outcome
Students will examine specific aspects of behavior, including emotion, cognition, language, parental care, sociality, functional neurobiology, and psychopathology.
Measurement: In-class quizzes and exams on the assigned reading.

Title
3. Compare and contrast non-human and human primates

Tags
184645, 3

Learning Outcome
Students will compare and contrast nonhuman-primate and human behavior and environments, and consider the implications for personal beliefs about human behavior.
Measurement: Literature review on a self-selected topic in multiple drafts with peer-, Writing Center-, and instructor-review.

PSYCH 388 - Drugs, Reward and Addiction

Course Information

Teaching Area (new)
PSYCH

Course Number
388

Teaching Area
PSYCH

Course Title
Drugs, Reward and Addiction

Course Description
Examines the biopsychosocial nature of drug and behavioral addiction. This course presents the most current research in the field and bridges psychology and neuroscience.

Department
Psychology

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Complete ALL of the following Courses:

- PSYCH 111 - Introduction to Psychological Science

OR

Prerequisites

Complete ALL of the following Courses:

- NEURO 205 - Neurobiology

Learning Outcomes

Title
1. Reward

Tags
184839, 1

Learning Outcome
Students will develop an understanding of the reward processing and learning systems of the human brain; apply the anatomical and physiological principles of the reward system to normal behavior; and relate disorder of the system to disordered behavior.

Title
2. Addiction

Tags
184840, 2

Learning Outcome
Students will identify the clinical, behavioral, and physiological aspects of addiction, and be able to productively engage in discussion about what the term addiction encompasses.

Title
3. Drugs

Tags
184924, 3

Learning Outcome
Students will compare and contrast clinical profiles, social factors, history, physiology, and treatment approaches of major drugs of abuse.

Title
4. Lived Experience of Reward and Addiction

Learning Outcome
Students will relate their own lived experience of learning and behavior with the principles they have learned in the course and be more empowered to strive for healthy, hygienic motivated behaviors throughout their lives. Students will lead with curiosity, compassion, and grace in their approach to individuals with lived experience with addiction, grounded in the principles they have learned in the course and their understanding of the principles of the gospel of Jesus Christ.

PSYCH 390R - Sleep Psychology

Course Information

Course Number
390R

Teaching Area
PSYCH

Course Title
Sleep Psychology

Course Description
This course will develop knowledge of the associations between sleep and health outcomes

Department
Psychology

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
3

Other Prerequisites
Instructor permission required

Learning Outcomes

Title
Knowledge of sleep theories and methodological approaches

Tags
214339, 0, 1, 2023-08-29 12:02:55

Learning Outcome
Student(s) will describe the basic theoretical perspectives and methodological approaches in sleep science and sleep psychology.

Title
Sleep research data collection methods

Tags
214340, 0, 2, 2023-08-29 12:02:56

Learning Outcome
Student(s) will demonstrate proficiency in sleep research methods including polysomnography (PSG) wire up and scoring, actigraphy collection and scoring, magnetic resonance imaging (MRI) training, dim-light melatonin onset (DILMO) training, and/or data management skills according to the individual student's level of training and long-term goals.

Title
Critical skills

Tags
214341, 0, 3, 2023-08-29 12:02:58

Learning Outcome
Student(s) will demonstrate professional skills in critical, scientific, and ethical thinking.

PSYCH 390R - Special Topics in Psychology

Course Information

Teaching Area (new)
PSYCH

Course Number
390R

Teaching Area
PSYCH

Course Title
Special Topics in Psychology

Course Description
Exploration of specific topics that are not currently among the main thematic fields of psychology.

Department
Psychology

When Taught
All Semesters/Terms

Credit Hours

Min:
3

Fixed/Max:
3

Learning Outcomes

Title
2. Identify subdisciplines in psychology related to that top

Tags
184716, 1

Learning Outcome
Students will identify related subdisciplines in psychology and their primary contributions to the topic.Measurement:In-class quizzes and exams on the assigned reading.

Title
3. Proposal for a research approach to that topic.

Tags
184783, 2

Learning Outcome
Students will identify primary means of scientific research in the topic, and formulate a proposal for additional research.Measurement: Author a proposal for original research in multiple drafts that includes a literature review, description of method and data analysis, statement of significance, references, and timeline and estimated budget.

Title
1. Develop understanding of a non-focal topic in psychology

Tags
184895, 1

Learning Outcome
Students will develop their understanding of a psychological topic that is not focal in the undergraduate curriculum otherwise.

PSYCH 399R - Academic Internship

Course Information

Teaching Area (new)
PSYCH

Course Number
399R

Teaching Area
PSYCH

Course Title
Academic Internship

Course Description
Supervised professional experiences linking academic learning with experience in the field of psychology.

Department
Psychology

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
9

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:
- PSYCH 307 - Writing Within Psychology

Note
NOTE: A maximum of 9 total internship credit hours from either Psych 399R or Psych 496R may be taken. NOTE: An APPROVED Internship Application is required before adding.

Learning Outcomes

Title
1. Placement in a professionally enhancing work setting

Tags
184646, 1

Learning Outcome
The first and primary objective is the placement of each student in a professionally enhancing work setting. We intend to continuously improve the quality of internship experiences being offered through a process of continuous assessment of all internships, negotiations with agencies, and internship advisement and counseling of students at the beginning of the contractual process.

Title
2. Work experience connections to the content of psychology

Tags
184931, 2

Learning Outcome
Students will critically reflect on the connections between their work experience and the content of psychology and articulate these work-related insights.
Measurement: Short essays essay examinations, and applications book review.

Title
3. Professional skills and attitudes

Tags
184932, 3

Learning Outcome
Students will develop professional skills and attitudes through readings on professional etiquette, in-class presentations to classmates, and poster presentation at open house.
Measurement: Graded writing assignments, PowerPoint presentation, and poster creation and presentation.

PSYCH 410R - Capstone: Teaching Assistant

Course Information

Teaching Area (new)
PSYCH

Course Number
410R

Teaching Area
PSYCH

Course Title
Capstone: Teaching Assistant

Course Description
Capstone experience as an undergraduate teaching assistant for a Psychology department class.

Department
Psychology

When Taught
All Semesters/Terms

Credit Hours

Fixed/Max:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PSYCH 307 - Writing Within Psychology
  AND PSYCH 310 - Psychological Research Design and Analysis
  AND PSYCH 313 - Psychometrics

Other Prerequisites
and instructor's consent.

Learning Outcomes

Title
1. Skill in grading, mentoring, and/or teaching

Tags
184647, 1

Learning Outcome
Students will demonstrate skill in grading, mentoring, and /or teaching one or more areas of psychology. In addition to their applied work under a faculty mentor, they will be instructed in a "teaching of psychology" class. Measurement: Student academic performance in this capstone will be assessed using multiple choice and short essay exams on the material from the class. Student application of teaching and grading practices and principles will be assessed through mentor evaluation of performance.

PSYCH 420R - Capstone: Communication & Technology

Course Information

Teaching Area (new)
PSYCH

Course Number
420R

Teaching Area
PSYCH

Course Title
Capstone: Communication & Technology

Course Description
Capstone experience utilizing Psychology concepts and technology to communicate effectively.

Department
Psychology

When Taught
All Semesters/Terms

Credit Hours

Fixed/Max:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PSYCH 307 - Writing Within Psychology
  AND PSYCH 313 - Psychometrics
  AND PSYCH 310 - Psychological Research Design and Analysis

Other Prerequisites
and instructor's consent.

Learning Outcomes

Title
1. Use of Technology to Communicate Effectively

Tags
184648, 1

Learning Outcome
Students will use their knowledge of equity, diversity, and inclusion to improve the effectiveness of their communication skills. They will demonstrate that they can communicate the results of a research study or other psychology-related project, explain scientific results, and present information to professional audiences in different formats. Students will display sophistication in using appropriate technology to improve communication outcomes. Measurement: Quality of online publications and social media communications.

PSYCH 430R - Capstone: Research

Course Information

Teaching Area (new)
PSYCH

Course Number
430R

Teaching Area
PSYCH

Course Title
Capstone: Research

Course Description
Capstone experience in psychological research in a Psychology faculty research lab—laboratory-based, field-based, or otherwise—on a Psychology-related research project. Any outside research opportunities with non-Psychology faculty must be Psychology-related and evaluated and approved on a case-by-case basis.

Department
Psychology

When Taught
All Semesters/Terms

Credit Hours

Fixed/Max:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- PSYCH 307 - Writing Within Psychology
  AND PSYCH 310 - Psychological Research Design and Analysis
  AND PSYCH 313 - Psychometrics

OR

Prerequisites

Complete ALL of the following Courses:

- PSYCH 307 - Writing Within Psychology
  AND PSYCH 310 - Psychological Research Design and Analysis
  AND PSYCH 312R - Advanced Methods

Other Prerequisites
and instructor's consent.

Note
Each one credit = 6 hours of work in the lab. So, three credits = 18 hours of time spent in the lab.

Learning Outcomes

Title
1. Skill development in the Psychology research process

Tags
184649, 1

Learning Outcome
Students will demonstrate that they can exercise scientific reasoning to investigate psychological phenomena, interpret, design, and evaluate psychological research , and use statistics to evaluate quantitative research findings. Measurement: Self- and Mentor-assessment of performance

PSYCH 492R - Supervised Instructional or Research Experience

Course Information

Teaching Area (new)
PSYCH

Course Number
492R

Teaching Area
PSYCH

Course Title
Supervised Instructional or Research Experience

Course Description
Course-related instructional activities or laboratory/field research.

Department
Psychology

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
3

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
0

Other Prerequisites
Instructor's consent

Note
Each one credit = 6 hours of work in the lab. So, three credits = 18 hours of time spent in the lab.

Learning Outcomes

Title
1. Demonstrated Skill in Instruction or Demonstrated Skill in Research

Tags
184933, 0

Learning Outcome
Student(s) will demonstrate skill in developing an instructional plan and lectures in an area of psychology, or skill in an area of psychological research.
Measurement: Student mastery of the instructional process or the research process will be assessed from a paper or other method of documentation prepared by the end of the semester.

PSYCH 495R - Independent Readings

Course Information

Teaching Area (new)
PSYCH

Course Number
495R

Teaching Area
PSYCH

Course Title
Independent Readings

Course Description
Supervised research experiences related to literature review in psychology.

Department
Psychology

When Taught
Fall and Winter

Credit Hours

Min:
0.5

Fixed/Max:
3

Other Prerequisites
Instructor's consent

Learning Outcomes

Title
1. Demonstrated Mastery of a Topic Area of Psychological Research

Tags
185006, 0

Learning Outcome
Student(s) will demonstrate mastery of a topic area of psychological research, obtained by their own independent scholarly work.
Measurement: Student mastery of the research area will be assessed from a paper prepared by the end of the semester.

PSYCH 496R - Capstone: Internship

Course Information

Teaching Area (new)
PSYCH

Course Number
496R

Teaching Area
PSYCH

Course Title
Capstone: Internship

Course Description
An academic internship for Psychology majors which fulfills the senior capstone requirement.

Department
Psychology

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
3

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PSYCH 307 - Writing Within Psychology
  AND PSYCH 313 - Psychometrics
  AND PSYCH 310 - Psychological Research Design and Analysis

Other Prerequisites
senior standing.

Note
NOTE: The Psychology Department strongly recommends students register for 3 credits of academic internship in one semester (unless there is a unique, extenuating circumstance that justifies more). NOTE: An APPROVED Internship Application is required before adding.

Learning Outcomes

Title
1. Applied Psychology in a Practical Setting

Tags
184934, 1

Learning Outcome
Students will describe examples of relevant and practical applications of psychological principles to their internship and everyday life. Measure: Self-reflection.

Title
2. Interact Effectively and Ethically

Learning Outcome
Students will demonstrate mastery of the skills and values learned in the Psychology major by communicating effectively and upholding high ethical and professional standards in the workplace. Measure: Self-reflection.

PSYCH 499R - Independent Research

Course Information

Teaching Area (new)
PSYCH

Course Number
499R

Teaching Area
PSYCH

Course Title
Independent Research

Course Description
Supervised research experiences related to data gathering, analysis, and writing in psychology.

Department
Psychology

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
3

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
0

Other Prerequisites
Instructor's consent.

Learning Outcomes

Title
1. Demonstrated Skill in Research

Tags
184935, 0

PSYCH 501 - Data Analysis in Psychological Research 1

Course Information

Teaching Area (new)
PSYCH

Course Number
501

Teaching Area
PSYCH

Course Title
Data Analysis in Psychological Research 1

Course Description
Using and interpreting major quantitative methods in psychology; some commonly used computer methods.

Department
Psychology

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
1

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PSYCH 308 - Psychological Statistics

Other Prerequisites
or instructor's consent.

Note
Contains content featured in the Graduate Record Examination (GRE).

Learning Outcomes

Title
1. Demonstrate fluency with statistical language and core concepts

Tags
206965, 0

Learning Outcome
Students will demonstrate clear and confident use of statistical notation, formulae, and foundational concepts.

Title
2. Exercise sound judgment in selecting and interpreting statistical methods

Tags
206966, 1

Learning Outcome
Students will demonstrate responsible and ethical decision-making when choosing statistical methods and interpreting results

Title
3. Apply statistical reasoning to unfamiliar and meaningful problems

Tags
206967, 2

Learning Outcome
Students will extend statistical ideas to novel situations in ways that cultivate lifelong learning and prepare them to use quantitative reasoning in future scholarship, service, and civic contribution. (Lifelong Learning)

PSYCH 502 - Data Analysis in Psychological Research 2

Course Information

Teaching Area (new)
PSYCH

Course Number
502

Teaching Area
PSYCH

Course Title
Data Analysis in Psychological Research 2

Course Description
Introduction to multivariate data analysis methods, including multivariate analysis of variance, factor analysis, discriminant analysis, multivariate multiple regression, canonical correlation, structural equations modeling, cluster analysis, etc.

Department
Psychology

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
1

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PSYCH 501 - Data Analysis in Psychological Research 1

Other Prerequisites
or instructor's consent.

Learning Outcomes

Title
Conducting Multivariate Analyses

Tags
184720, 0

Learning Outcome
Conduct and interpret multivariate analyses appropriate to psychological research questions. Students will specify models, evaluate their fit to data, and draw substantive conclusions across a range of methods from exploratory factor analysis through structural equation modeling. (Intellectually Enlarging)

Title
Communicating and Defending Analyses

Tags
184738, 2

Learning Outcome
Communicate and defend analytic findings with the precision and transparency required for professional psychological science. Students will articulate their methodological reasoning clearly, demonstrating command of both what the data support and where the limits of interpretation lie. (Intellectually Enlarging / Lifelong Learning and Service)

Title
Practicing Research Integrity

Tags
206969, 1

Learning Outcome
Practice research integrity by identifying and guarding against threats to replicable science. Students will evaluate questionable research practices, apply principles of ethical data stewardship, and develop standards for producing trustworthy research in their own programs of study. (Character Building / Spiritually Strengthening)

PSYCH 503 - Research Measurement

Course Information

Teaching Area (new)
PSYCH

Course Number
503

Teaching Area
PSYCH

Course Title
Research Measurement

Course Description
Classical true score and item response theories; estimation procedures for instrument reliability and validity.

Department
Psychology

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PSYCH 501 - Data Analysis in Psychological Research 1

Other Prerequisites
or instructor's consent.

Learning Outcomes

Title
1. Thorough understanding of test and measurement theory

Tags
184753, 0

Learning Outcome
Students will become full-fledged psychometric ninjas. That is, students will develop a thorough understanding of test and measurement theory and their importance to science and practice in clinical psychology.Measurement: This objective will be assessed through students’ contributions to class discussions and students’ performance on homework assignments and exams.

Title
3. Develop a thoughtful, critical perspective

Tags
184761, 2

Learning Outcome
Students will develop a critical perspective of psychological testing by learning its strengths and limitations. “Critical” is used here to denote a thoughtful analysis rather than simply a negative perspective that focuses on limitations.Measurement: This objective will be achieved through class discussion, homework assignments, and exams.

Title
2. Statistical software to assess tests

Tags
184788, 1

Learning Outcome
Students will gain experience using the statistical analysis software (for example SPSS and AMOS) needed to develop and assess tests and measures used in psychology.Measurement: This objective will be achieved through homework assignments.

Title
4. Write clearly, concisely, and precisely about measures

Tags
184936, 3

Learning Outcome
Students will learn to speak and write about statistics in a way that is clear, concise, and precise.
Measurement: This objective will be achieved through class discussion, homework assignments, and exams.

PSYCH 504 - Research Design

Course Information

Teaching Area (new)
PSYCH

Course Number
504

Teaching Area
PSYCH

Course Title
Research Design

Course Description
Overview of designs used in psychotherapeutic literature, emphasizing critical analysis of empirical research.

Department
Psychology

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Concurrent enrollment in Psych 501.

Learning Outcomes

Title
1. Understanding of research design and methodology

Tags
184704, 0

Learning Outcome
Students will acquire a fundamental understanding of research design and methodology, and the thinking skills to develop and critique a research design.Measurement: This will be measured by exams and writing assignments.

Title
3. Working knowledge of APA ethical standards for research

Tags
184744, 2

Learning Outcome
Students will acquire a working knowledge of APA ethical standards for research with humans and animals.Measurement: This will be measured by in class conversations about the required reading, exams and assignments.

Title
2. Learn to use research design principles in own research

Tags
184754, 1

Learning Outcome
Students will learn to use research design principles in conducting their own research.Measurement: This will be measured by exams and writing assignments.

Title
4. Skill in developing and critiquing study design

Tags
184937, 3

Learning Outcome
Students will acquire skill in developing and critiquing a study from the standpoint of design and methodology.
Measurement: This will be measured by exams and assignments.

PSYCH 505 - Clinical Research

Course Information

Teaching Area (new)
PSYCH

Course Number
505

Teaching Area
PSYCH

Course Title
Clinical Research

Course Description
Overview of research examining processes and outcomes of psychological treatments for psychological disorders.

Department
Psychology

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PSYCH 504 - Research Design

Other Prerequisites
or instructor's consent.

Learning Outcomes

Title
2. Evolution of themes and controversies

Tags
184734, 1

Learning Outcome
Students will assess the history and evolution of important themes and controversies that have influenced the current state of psychotherapy, such as the impact of managed care, shortened therapy time limits, and the push towards evidence-based practices.Measurement: Class presentations, essay exam.

Title
1. Describe and summarize effectiveness of therapy/interventions

Tags
184938, 0

Learning Outcome
Students will describe and summarize the effectiveness of psychological interventions as well as the effective ingredients of therapy. Measurement: Class presentations, brief writing assignments.

Title
3. Implications of current research for the practice of psychotherapy

Tags
184939, 2

Learning Outcome
Students will discuss the implications of current research findings for the practice of psychotherapy and for their own professional practice. Measurement: Essays questions.

PSYCH 510 - History and Systems of Psychology

Course Information

Teaching Area (new)
PSYCH

Course Number
510

Teaching Area
PSYCH

Course Title
History and Systems of Psychology

Course Description
Survey of origins and development of modern psychology, including consideration of the schools and theoretical systems.

Department
Psychology

When Taught
Spring Term Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PSYCH 210 - A History of Psychology

Other Prerequisites
or equivalent; or instructor's consent

Note
Contains content featured in the Graduate Record Examination (GRE).

Learning Outcomes

Title
Analyzing Foundations of Psychological Thought

Tags
184589, 1

Learning Outcome
Analyze the assumptions about human nature that underlie major psychological traditions. Students will compare and contrast the philosophical and theoretical commitments of historical schools of thought, tracing how these assumptions have shaped - and continue to shape - contemporary psychology.

Title
Evaluating Historical Influences on Theory and Practice

Tags
184590, 2

Learning Outcome
Evaluate how historical and conceptual developments in psychology inform current theory and practice. Students will assess the implications of foundational ideas for the research questions, methods, and interpretive frameworks used in their own areas of study.

Title
Articulating an Intellectual Identity in Psychology

Tags
184591, 3

Learning Outcome
Articulate a reasoned intellectual identity within the discipline's ongoing debates. Students will develop and express a thoughtful position on enduring questions in psychology - including questions about the nature of persons, the scope of scientific inquiry, and the relationship between psychological science and faith.

PSYCH 511 - Philosophy of Science for the Social Sciences

Course Information

Teaching Area (new)
PSYCH

Course Number
511

Teaching Area
PSYCH

Course Title
Philosophy of Science for the Social Sciences

Course Description
Issues in philosophy of science as they apply to social sciences, including methods, epistemology, and construction of knowledge.

Department
Psychology

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Instructor's consent or admission to PhD program

Learning Outcomes

Title
Tracing Development of Science, Faith, and Reason

Tags
184712, 1

Learning Outcome
Students will understand the development of science in the Western intellectual tradition in the context of the related development of both faith and reason.

Title
Comparing Definitions and Limits of Science

Tags
184718, 0

Learning Outcome
Students will be able compare and contrast the various definitions and characterizations of science through Western history and the strengths and limitations of Empiricist science as a method for studying human beings and human experiences such as moral sensibility, and for establishing truth.

Title
Contrasting Gospel and Positivist Epistemologies

Tags
184765, 2

Learning Outcome
Students will compare and contrast the gospel of Jesus Christ as restored in the nineteenth century and its implications for the nature, possibility, and form of knowledge with Positivism, which was the dominant epistemological position of the nineteenth century, giving attention to issues of science and knowledge in both the nineteenth century and today.

Title
Analyzing Postmodern Influences on Knowledge and Faith

Learning Outcome
The contemporary culture and the intellectual landscape are currently dominated by post-modern perspectives. Students will be able to recognize and unpack the intellectual influences of postmodern philosophy on both the understanding and conduct of scientific research and on the dimensions and content of faith life.

PSYCH 512 - Qualitative Research Methods

Course Information

Teaching Area (new)
PSYCH

Course Number
512

Teaching Area
PSYCH

Course Title
Qualitative Research Methods

Course Description
Theories and methods of qualitative research emphasizing philosophical assumptions, question formulation, data gathering, interpretation, and presentation of findings.

Department
Psychology

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Instructor's consent

Note
Contains content featured in the Graduate Record Examination (GRE).

Learning Outcomes

Title
1. Identify and critically evaluate qualitative methods

Tags
184714, 0

Learning Outcome
Students will identify and critically evaluate a broad range of qualitative methods of research in contemporary psychology.Measurement: Multiple choice quizzes/Analytic essays.

Title
3. Critically evaluate contemporary qualitative research

Tags
184715, 2

Learning Outcome
Students will critically evaluate contemporary examples of qualitative research from a variety of traditions, as well as submit their own work in the course to such evaluation.Measurement: Analytic essays and critical review papers.

Title
2. Propose, design, and conduct a novel qualitative project

Tags
184727, 1

Learning Outcome
Students will propose, design, and conduct a novel research project employing qualitative methods.Measurement: Course length research project.

PSYCH 513R - Topics in Behavioral Neuroscience

Course Information

Teaching Area (new)
PSYCH

Course Number
513R

Teaching Area
PSYCH

Course Title
Topics in Behavioral Neuroscience

Course Description
Advanced topics and skills in behavioral neuroscience.

Department
Psychology

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Psych 381 or equivalent or instructor's consent.

Learning Outcomes

Title
Topics in Beh Neuroscience

Tags
184940, 1

Learning Outcome
(1) Students will demonstrate skill in several aspects of the research process including such things as: data gathering, data analysis, literature review and evaluation, writing, and publishing.

PSYCH 514 - Computational Neuroimaging Analysis

Course Information

Teaching Area (new)
PSYCH

Course Number
514

Teaching Area
PSYCH

Course Title
Computational Neuroimaging Analysis

Course Description
Development of skills in basic command line operations in the Unix environment that are specific to neuroimaging design and analysis.

Department
Psychology

When Taught
Contact Department

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
1

Learning Outcomes

Title
1. Computational Fluency in Research Environments

Tags
208188, 0, 1

Learning Outcome
Students will demonstrate proficiency in command-line environments by constructing and executing reproducible computational workflows, including scripting, environment configuration, and program compilation.

Title
2. High-Performance Computing Principles

Tags
208189, 0, 2

Learning Outcome
Students will apply principles of parallel computing to manage data, schedule jobs, optimize workflows, and verify outputs within shared computational environments.

Title
3. Independent and Sustainable Computational Practices

Learning Outcome
Students will develop independent problem-solving strategies and sustainable coding practices that support long-term research productivity and collaboration.

PSYCH 515 - Neuroimaging Analysis 1: Structural Imaging

Course Information

Teaching Area (new)
PSYCH

Course Number
515

Teaching Area
PSYCH

Course Title
Neuroimaging Analysis 1: Structural Imaging

Course Description
Exposure to the physical and biological bases of image acquisition, the technologies of in vivo neuroimaging, the application of these technologies to understanding questions in neuroscience, and an introduction to the design and analysis of structural neuroimaging experiments.

Department
Psychology

When Taught
Fall Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
PSYCH 514 (can be taken concurrently), or instructor's consent.

Learning Outcomes

Title
1. Physical and Biological Foundations of Neuroimaging

Tags
208184, 0, 1

Learning Outcome
Students will explain the physical principles of magnetic resonance and their biological implications for characterizing brain tissue, structure, and function in image acquisition.

Title
2. Reproducible Neuroimaging Workflows

Tags
208185, 0, 2

Learning Outcome
Students will design and implement reproducible pipelines for processing and analyzing structural neuroimaging data using standard toolkits, demonstrating careful documentation and responsible use of shared computational resources.

Title
3. Critical Evaluation of Neuroimaging Methodology

Tags
208186, 0, 3

Learning Outcome
Students will critically evaluate neuroimaging literature with attention to scientific rigor, methodological limitations, and responsible interpretation of results as they relate to human well-being and scientific understanding.

Title
4. Responsible Communication of Neuroimaging Findings

Tags
208187, 0, 4

Learning Outcome
Students will communicate neuroimaging findings clearly and responsibly, recognizing the interpretive limits of imaging data and the broader implications for scientific and public understanding.

PSYCH 516 - Neuroimaging Analysis 2: Diffusion Weighted Imaging

Course Information

Teaching Area (new)
PSYCH

Course Number
516

Teaching Area
PSYCH

Course Title
Neuroimaging Analysis 2: Diffusion Weighted Imaging

Course Description
The principles of diffusion weighted image acquisition and how to design, analyze, and interpret diffusion tensor imaging experiments.

Department
Psychology

When Taught
Winter Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Psych 514 (can be taken concurrently) and Psych 515. Or instructor's consent.

Learning Outcomes

Title
1. Principles of Diffusion-Weighted Image Acquisition

Learning Outcome
Students will explain the physical and mathematical principles underlying diffusion-weighted imaging and diffusion tensor modeling, including the assumptions and limitations of commonly used metrics.

Title
2. Diffusion Data Processing and Analysis

Learning Outcome
Students will implement and document a complete diffusion data processing pipeline, including preprocessing, tensor estimation, and tract-based or voxelwise statistical analysis in ways that reflect scientific integrity and respect for research participants.

Title
3. Interpretation of Diffusion Metrics

Learning Outcome
Students will interpret diffusion metrics (e.g., FA, RD, MD) in relation to white matter microstructure, recognizing both the biological inferences and the methodological constraints of these measures.

Title
4. Design of Diffusion-Based Research

Learning Outcome
Students will formulate a theoretically grounded research proposal using diffusion-weighted imaging, articulating clear hypotheses, justified acquisition parameters, and appropriate analytic strategies with attention to ethical stewardship of data and methods.

PSYCH 517 - Neuroimaging Analysis 3: fMRI

Course Information

Teaching Area (new)
PSYCH

Course Number
517

Teaching Area
PSYCH

Course Title
Neuroimaging Analysis 3: fMRI

Course Description
Functional MRI experimental design and data analysis methods.

Department
Psychology

When Taught
Fall Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Psych 514, 515, and 516. Or, instructor's consent.

Learning Outcomes

Title
1. Designing Rigorous Experiments

Learning Outcome
Design theoretically grounded and methodologically rigorous fMRI experiments by formulating testable hypotheses, selecting appropriate task or resting-state paradigms, and justifying methodological choices in light of practical and ethical constraints.

Title
2. Implementing Preprocessing and Modeling

Learning Outcome
Implement standardized fMRI preprocessing workflows and statistical modeling approaches (e.g., first- and second-level GLMs) in accordance with current best practices in data quality control and reproducibility.

Title
3. Interpreting Statistical Results

Learning Outcome
Interpret fMRI results using appropriate statistical inference procedures, effect size estimation, and multiple-comparisons correction to draw transparent, evidence-based, and theoretically coherent conclusions.

Title
4. Evaluating Validity and Ethics

Learning Outcome
Critically evaluate the validity, reproducibility, and ethical dimensions of fMRI research by applying open science principles, identifying methodological limitations and biases, and reflecting on the broader human and spiritual implications of neuroscience research in a spirit of professional service and lifelong learning.

PSYCH 520 - Advanced Developmental Psychology

Course Information

Teaching Area (new)

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PSYCH 320 - Developmental Psychology: Childhood
  AND PSYCH 321 - Developmental Psychology: Adolescence
  AND PSYCH 322 - Developmental Psychology: Adulthood

Other Prerequisites
or equivalent; or instructor's consent

Learning Outcomes

Title
2. Explain multifinality and equifinality

Tags
184710, 1

Learning Outcome
Students will explain how similar experiences can lead to different outcomes (multifinality) and how similar outcomes can arise from different starting points (equifinality).Measurement: Take-home essay examinations and reaction papers based on the assigned textbook reading. Lead class discussions.

Title
1. Understand the developmental perspective

Tags
184763, 0

Learning Outcome
Students will extend their understanding of and appreciation for the developmental perspective.Measurement: Take-home essay examinations and reaction papers based on the assigned textbook reading. Lead class discussions.

Title
3. Justify claim that phenotypes have developmental history

Tags
184941, 2

Learning Outcome
Students will justify the claim that all phenotypic outcomes, including behaviors, have a developmental history.
Measurement: Take-home essay exams and reaction papers based on the assigned textbook reading. Lead class discussions.

PSYCH 531 - Organizational Psychology

Course Information

Teaching Area (new)
PSYCH

Course Number
531

Teaching Area
PSYCH

Course Title
Organizational Psychology

Course Description
Personal and interpersonal aspects of organizational life: goal setting, decision making, problem solving, communication, control, leadership, motivation, and change.

Department
Psychology

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PSYCH 330 - Organizational Psychology

Other Prerequisites
or equivalent; or instructor's consent

Learning Outcomes

Title
1. Understanding of major areas of I/O psychology

Tags
184866, 1

Learning Outcome
Students will demonstrate a basic understanding of the major areas of organizational and industrial psychology, including human resources; leadership development; employee training, motivation, and satisfaction; group dynamics, organizational climate; and team-building.

Title
2. Apply organizational theory

Tags
184867, 2

Learning Outcome
Students will learn to apply organizational theory to specific organizational situations.

Title
3. Organizational skills

Tags
184868, 3

Learning Outcome
Students will acquire skill in collaborative teamwork, time management, self-motivation, and project planning.
Measurement: Evaluation of cooperative class assignments.

PSYCH 540 - Personality Theory

Course Information

Teaching Area (new)
PSYCH

Course Number
540

Teaching Area
PSYCH

Course Title
Personality Theory

Course Description
Contemporary theories of personality developed within the framework of major psychological systems.

Department
Psychology

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PSYCH 341 - Personality

Other Prerequisites
or equivalent; or instructor's consent

Note
Contains content featured in the Graduate Record Examination (GRE).

Learning Outcomes

Title
1. Identify and distinguish the major personality theories

Tags
184593, 1

Learning Outcome
Students will identify and distinguish the major personality theories of psychology and their specific features and content.
Measurement: Multiple choice/critical analytic essays.

Title
2. Identify, compare, contrast, and evaluate assumptions

Tags
184594, 2

Learning Outcome
Students will identify, compare and contrast, and critically evaluate the philosophical and theoretical assumptions that underlie these personality theories.
Measurement: Multiple choice/critical analytic essays.

Title
3. Conceptual tools of theory construction and evaluation

Tags
184595, 3

Learning Outcome
Students will develop and demonstrate understanding of the conceptual tools of theory construction, analysis and evaluation.
Measurement: Critical analytic essays.

Title
4. Articulate their own position on major issues

Tags
184596, 4

Learning Outcome
Students will articulate their own position on some of the major issues of personality theory, theory construction, and application of theory.
Measurement: Essay assignment.

PSYCH 550 - Theory and Research in Social Psychology

Course Information

Teaching Area (new)
PSYCH

Course Number
550

Teaching Area
PSYCH

Course Title
Theory and Research in Social Psychology

Course Description
Current theories and research on interaction with others.

Department
Psychology

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PSYCH 350 - (Psych-Soc) Introduction to Social Psychology

Other Prerequisites
or equivalent; or instructor's consent

Note
Contains content featured in the Graduate Record Examination (GRE).

Learning Outcomes

Title
1. Familiarity with social psychological theory and research

Tags
184651, 1

Learning Outcome
Students will acquire a deep familiarity with social psychological theory and social psychological research, and will demonstrate advanced competency in the field.
Measurement: Midterm and final essay exams.

Title
2. Summarize empirical research related to major topics

Tags
184652, 2

Learning Outcome
Students will be able to identify and find empirical research related to major topics in social psychology and write knowledgeable summaries of such research.
Measurement: Evaluation of class reports and written research summaries.

PSYCH 552 - Applied Social Psychology

Course Information

Teaching Area (new)
PSYCH

Course Number
552

Teaching Area

Other Prerequisites
or equivalent; or instructor's consent

Note
Contains content featured in the Graduate Record Examination (GRE).

Learning Outcomes

Title
2. Conduct applied social psychological research

Tags
184713, 1

Learning Outcome
Students will meet with a client and develop, execute, and report the results of an applied research project.Measurement: Evaluation of written and oral report.

Title
1. Familiarity with applied social versus basic social

Tags
184719, 0

Learning Outcome
Students will understand the distinctions between basic and applied social psychology and will acquire an advanced understanding of and familiarity with the field of applied social psychology.Measurement: Midterm and final essay exams.

PSYCH 555 - Group Dynamics

Learning Outcomes

Title
1. Synthesize a multi-perspectival psychology of motivation

Tags
184735, 0

Learning Outcome
Students will synthesize a multi-perspectival psychology of motivation from a series of texts.Measurement: Take-home essay exams on assigned reading. Regular in-class conversation focused on student-submitted questions about the assigned reading.

Title
2. Compare and contrast the perspectives of the texts

Tags
184778, 1

Learning Outcome
Students will compare and contrast the perspectives represented by the texts.Measurement: Take-home essay exams on assigned reading. Regular in-class conversation focused on student-submitted questions about the assigned reading.

Title
3. Expound an issue that runs across the texts

Tags
184790, 2

Learning Outcome
Students will identify and expound on a self-selected issue that runs across the texts, and thus illustrate the multi-perspectival view.Measurement: Author a comparative essay in multiple drafts with peer- and instructor-review. In-class presentation summarizing the essay’s argument.

PSYCH 575 - Cognitive and Affective Processes

Course Information

Teaching Area (new)
PSYCH

Course Number
575

Teaching Area
PSYCH

Course Title
Cognitive and Affective Processes

Course Description
Theory and research in perception, attention, language, problem solving, and other thinking processes.

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PSYCH 370 - Sensation and Perception
  AND PSYCH 375 - Cognition

Other Prerequisites
or equivalents; or instructor's consent.

Note
Contains content featured in the Graduate Record Examination (GRE).

Learning Outcomes

Title
Knowledge of cognitive psychology

Tags
208405, 1

Learning Outcome
Students will be able to develop a broad knowledge of the principles and findings of cognitive psychology. Assessed by: Exams

Title
Knowledge of basic mental processes

Tags
208406, 2

Learning Outcome
Students will be able to know how basic mental processes are influenced by affect, individual differences, and psychological/neurological disorders. Assessed by: Exams

Title
Apply principles and findings

Tags
208407, 3

Learning Outcome
Students will be able to apply these principles and findings to situations that they will encounter in their daily lives and in their careers. Assessed by: Exams, In-class presentations

Title
Develop communication skills

Tags
208408, 4

Learning Outcome
Students will be able to further develop their communication skills. Assessed by: In-class presentations

PSYCH 578R - Seminar in Mathematical Psychology

Course Information

Teaching Area (new)
PSYCH

Course Number
578R

Teaching Area
PSYCH

Course Title
Seminar in Mathematical Psychology

Course Description
Variable topics concerning the application of mathematical and statistical methods to psychology, with emphasis on jointly publishing a methods paper.

Department
Psychology

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PSYCH 308 - Psychological Statistics

Other Prerequisites
or equivalent.

Learning Outcomes

Title
2. Computational ability in advanced quantitative methods

Tags
184869, 2

Learning Outcome
Students will be able to accurately perform the major calculations of the quantitative methods covered in the course.
Measurement: Computational exam questions.

Title
1. Conceptual basis and theory of the topic(s) in advanced quantitative methods

Tags
184870, 1

Learning Outcome
Students will be able to explain the rationale and the theoretical basis of the statistical/mathematical concepts, formulae, and notations.
Measurement: Essay exam questions

Title
3. Data analysis skills

Tags
185007, 3

Learning Outcome
Students will acquire skill in using statistical/mathematical analysis applications to analyze data sets.
Measurement: Test of computer analysis skill, using a collection of example data sets and a statistical analysis application.

PSYCH 583 - Health Psychology

Course Information

Teaching Area (new)
PSYCH

Course Number
583

Teaching Area
PSYCH

Course Title
Health Psychology

Course Description
In-depth examination of behavior from perspective of health and disease

Department
Psychology

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PSYCH 381 - Behavioral Neurobiology
  AND PSYCH 382 - Stress Psychobiology

Other Prerequisites
or equivalents; or instructor's consent.

Note
Contains content featured in the Graduate Record Examination (GRE).

Learning Outcomes

Title
1. Factors that influence health

Tags
184708, 0, 0

Learning Outcome

Students will be able to identify and describe the psychosocial and spiritual and/or religious factors that influence health.

Measurement: short essay/paper; exams, quizzes.

Title
2.Apply factors to specific health conditions

Tags
184742, 0, 1

Learning Outcome

Students will be able to critically analyze existing research to discern the relative impact of the psychosocial and spiritual/religious factors on a variety of chronic and acute health conditions.

Measurement: APA style paper or essay; class presentation.

Title
3. Interplay of psychosocial and behavioral components

Tags
184736, 0, 2

Learning Outcome

Students will demonstrate comprehension of psychosocial and behavioral factors by explaining the interplay between psychological, social, and behavioral elements in determining health outcomes.

Measurement: short paper or essay; class presentation.

Title
4. Psychosocial model personal assessment

Tags
214789, 0, 4

Learning Outcome

Students will be able to assess and demonstrate how their own health behavior contributes to their own health.

Measurement: short paper or essay; graded journal; exam

Title
5. Health behavior and the influence on health

Tags
214790, 0, 5

Learning Outcome

Students will be able to critically evaluate empirical evidence to ascertain how specific behaviors influence health and disease risk.

Measurement: term paper or essay; exam

Title
6. Access to and use of health care

Tags
214791, 0, 6

Learning Outcome

Students will be able to evaluate how access to, and use of medical treatments impacts health outcomes, including sociocultural factors which interact with access and treatment.

Measurement: short paper or essay; graded journal; exam

PSYCH 584 - Cognition, Affect, and Brain Function

Course Information

Teaching Area (new)
PSYCH

Course Number
584

Teaching Area
PSYCH

Course Title
Cognition, Affect, and Brain Function

Course Description
Basic principles of cognition and affect as they relate to normal brain function and following neural disease or injury.

Department

Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- PSYCH 381 - Behavioral Neurobiology

OR

Prerequisites

Complete ALL of the following Courses:

Other Prerequisites
or equivalent; or instructor's consent

Note
Contains content featured in the Graduate Record Examination (GRE).

Learning Outcomes

Title
1. Brain systems and cognitive/emotional functions

Tags
184752, 0

Learning Outcome
Students will extend their understanding of specific brain systems and the cognitive and emotional functions correlated with those systems.Measurement: Participation in class conversation about the required reading; in-class presentations on brain function or disorders; final examination.

Title
2. Approaches to the study of the brain, research methods

Tags
184942, 1

Learning Outcome
Students will compare and contrast scientific approaches to the study of brain, cognition, and emotion; and describe specific structural and functional research methods.
Measurement: Participation in class conversation about the required reading; in-class presentations and writing assignments.

Title
3. Brain injury and cognitive/emotional disorders

Tags
184943, 2

Learning Outcome
Students will describe how brain injury can produce cognitive or emotional disorders or both and how the study of brain injury illustrates issues in the evaluation of research findings.
Measurement: Author journal article critiques, final exam, and in-class presentations.

PSYCH 585 - Human Neuropsychology/ Biological Bases of Behavior

or equivalents; or instructor's consent.

Learning Outcomes

Title
3. Apply understanding to clinical human neuropsychology

Tags
184729, 2

Learning Outcome
Students will apply their understanding to clinical human neuropsychology.Measurement: Author a paper on a contemporary issue in human neuropsychology. The final exam will require analysis of specific human cases.

Title
1. Critical understanding of brain-behavior relationships

Tags
184739, 0

Learning Outcome
Students will extend their critical understanding of brain-behavior relationships.Measurement: A series of exams, including a final exam, on the assigned textbook reading. Participation in class conversation about the required reading.

Title
2. Integrate neuroanatomy with neurobiological functionality

Tags
184776, 1

Learning Outcome
Students will integrate neuroanatomy with neurobiological functionality.Measurement: A series of exams, including a final exam, on the assigned textbook reading. Participation in class conversation about the required reading.

PSYCH 586 - Hormones and Behavior

PWS 100 - Plants in the Environment

Course Information

Teaching Area (new)
PWS

Course Number
100

Teaching Area
PWS

Course Title
Plants in the Environment

Course Description
Introduction to principles of plant function and diversity.

Department
Plant and Wildlife Sciences

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
PWS 100 counts as a GE course.

Learning Outcomes

Title
Effective Communication

Tags
202849, 5

Learning Outcome
Improve verbal and written communication

Title
Plants in the Environment

Tags
202854, 3

Learning Outcome
Provide a conceptual framework of how plants influence the environment

Title
Plant Biology Fundamentals

Tags
202887, 1

Learning Outcome
Demonstrate a fundamental knowledge of basic principles and concepts of plant biology (i.e., structure, function, and diversity)

Title
Plant Appreciation

Tags
202897, 2

Learning Outcome
Cultivate an appreciation for the central importance of plants in the way our world and human society functions

Title
Environmental Problems

Tags
202948, 4

Learning Outcome
Practice using the scientific method to better understand plant-environment interactions

PWS 101 - Cultural History of Medicinal Plants

Course Information

Teaching Area (new)
PWS

Course Number
101

Teaching Area
PWS

Course Title
Cultural History of Medicinal Plants

Course Description
A global perspective of how medicinal plants have shaped cultural history and how they are used to treat illness and disease. Issues relating to conservation, natural history, biodiversity, and cultural diversity.

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
Additional seats for specific sections may be available to Freshman Mentoring participants.

Learning Outcomes

Title
Cultural Awareness

Tags
209443, 0, 3

Learning Outcome
Students will experience thoughtful reflection on the above, as demonstrated by the cultural reflection essays and the class project (paper and presentation).

Title
Cultural Awareness

Tags
209444, 0, 4

Learning Outcome
Students will develop greater empathy and charity, and will begin to gain a global perspective by learning to see themselves from another's point of view.

Title
Cultural History and Medicinal Plant Use

Tags
209445, 0, 5

Learning Outcome
Students will be able to explain and interpret a global history of how indigenous people can use plants to treat illnesses and disease.
Students will understand how the medicinal use of plants has helped shaped the history of cultures across the globe.
Students will be able to explain the difference between the Western philosophy of traditional medicine and local indigenous practices for treating illnesses and disease.
Students will be able to critically think about and analyze the differences and similarities of how cultures of the world treat illnesses and disease.
Students will be able to explain the limitations and myths associated with the herbal industry from an international perspective.
Students will be able to read and interpret peer reviewed literature on studies designed to show how human health has improved across the various cultures of the world by using herbal remedies.
Students will be able to explain why it is important to preserve and protect sensitive habitat such as the tropical rainforests, which contain a wealth of biological information related to future drugs as yet undiscovered.

Title
Cultural Awareness

Tags
202837, 0, 2

Learning Outcome
Students will acquire informed awareness of a global culture outside their own, with the interplay of cultures, languages, and/or nations at an international level.

PWS 103 - Residential Landscape Design

Course Information

Teaching Area (new)
PWS

Course Number
103

Teaching Area
PWS

Course Title
Residential Landscape Design

Course Description
Design and composition as applied to development of residential grounds.

Department
Plant and Wildlife Sciences

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Landscape Planning and Maintenance

Tags
202933, 2

Learning Outcome
Discuss issues and challenges dealing with landscape planning and maintenance.

Title
Nature

Tags
202972, 3

Learning Outcome
Enjoy nature more

Title
Professional Opportunities

Tags
203004, 4

Learning Outcome
Explain professional opportunities related to landscape design.

Title
Functional and Beautiful Landscapes

Tags
203015, 0

Learning Outcome
Design residential landscapes that are both funtional and beautiful

Title
Decision Making

Tags
203023, 1

Learning Outcome
Make better decisions when purchasing plants and landscape construction materials

PWS 105 - Landscape Design Graphics

Course Information

Teaching Area (new)
PWS

Course Number
105

Teaching Area
PWS

Course Title
Landscape Design Graphics

Course Description
Communication through descriptive drawing and professional plan graphics: plan views, elevation, color, and computer-aided design.

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PWS 103 - Residential Landscape Design

Learning Outcomes

Title
Drawing Style

Tags
202804, 1

Learning Outcome
Have a clear and developed drawing style

Title
Methods of Drawing

Tags
202836, 0

Learning Outcome
Feel comfortable and confident with the different methods of drawing as they relate to landscape design

Title
Communication

Tags
202900, 2

Learning Outcome
Be able to produce drawings using graphics that clearly communicate and portray the design intent.

Title
Quickness

Tags
202947, 3

Learning Outcome
Develop drawing techniques that allow for quick design and those that allow for more professional design.

PWS 110 - Sustainable Food Crop Systems

Course Information

Teaching Area (new)
PWS

Course Number
110

Teaching Area
PWS

Course Title
Sustainable Food Crop Systems

Course Description
An overview of the fundamentals of sustainable food crop systems, which will involve practical knowledge and assessment of small-scale food production, hydroponics, enhanced food security, and balanced land use.

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
1

PWS 112 - Floral Design

Course Information

Teaching Area (new)
PWS

Course Number
112

Teaching Area
PWS

Course Title
Floral Design

Course Description
History and principles of floral design; identification, care, and handling of cut flowers; techniques of arranging flowers and other plant materials for home and professional use.

Department
Plant and Wildlife Sciences

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
2

Fee
90

Note
NOTE: $90 class fee. NOTE: All sections meet together for lecture; labs are held separately. NOTE: Fulfills GE Arts requirement.

Learning Outcomes

Title
Principles

Tags
202969, 0

Learning Outcome
Students will take a pre- and post-test for foundational principles related to floral design and will show learning by an increase of at least double the average score.

Title
Design

Tags
202990, 1

Learning Outcome
Students will learn how to build various floral arrangements and will successfully complete one design per week.

PWS 115 - Introduction to the Wildlife and Wildlands Conservation Major

Course Information

Teaching Area (new)
PWS

Course Number
115

Teaching Area
PWS

Course Title
Introduction to the Wildlife and Wildlands Conservation Major

Course Description
Students will receive an overview of practices and practitioners of managing and conserving wildlife and wildlands. Program faculty will be introduced along with opportunities for student mentoring in their respective labs. Students will also receive individual counseling for coursework scheduling.

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

Learning Outcomes

Title
Career Opportunities and Development

Tags
202918, 1

Learning Outcome
Student will be able to make an informed decision on majoring in Wildlife and Wildlands Conservation based on career opportunities and course work required to qualify for career positions.

Title
Stewardship

Tags
202973, 1

Learning Outcome
Students will be able to articulate stewardship responsibilities of managers to represent multiple uses of resources by multiple users with divergent opinions and perspectives.

PWS 135 - Safety Certifications for Field Biologists

Course Information

Teaching Area (new)
PWS

Course Number
135

Teaching Area
PWS

Course Title
Safety Certifications for Field Biologists

Course Description
Certification modules promoting field safety to prepare students to be leaders in workplace safety. Specific trainings include first aid, CPR, hot and cold weather exposure, ATV and snowmobile operation, wild animal safety, and more.

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PWS 115 - Introduction to the Wildlife and Wildlands Conservation Major

PWS 150 - Environmental Biology

Course Information

Teaching Area (new)
PWS

Course Number
150

Teaching Area
PWS

Course Title
Environmental Biology

Course Description
Conservation and management of natural resources concurrent with increasing socioeconomic and human population demands; factors such as soil, water, and air pollution, resources management, bioremediation, nutrient cycles, and global climate changes

Department
Plant and Wildlife Sciences

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
Fulfills GE requirements. Check core.byu.edu.

Learning Outcomes

Title
Global Environmental Issues

Tags
203117, 2

Learning Outcome
Become fluent in the science of global environmental problems, movements, and solutions including biodiversity, ecosystem function, agriculture and food production, energy systems, water, urbanization, population dynamics, air quality, and climate.

Title
Scientific Principles and Methods

Tags
203118, 3

Learning Outcome
Apply the scientific method through simplified experiments with testable hypotheses. Learn to interpret experimental observations and data and how to communicate discoveries in written and verbal formats.

Title
The Environment and Culture

Tags
203119, 4

Learning Outcome
Discover how environmental quality and conservation is influenced by history, economy, and unique cultural perspectives.

Title
Environmental Stewardship

Tags
203003, 0, 5

Learning Outcome
Foster and promote environmental stewardship within your realm of influence and your community.

PWS 155 - Careers in Environmental Science

Course Information

Teaching Area (new)
PWS

Course Number
155

Teaching Area
PWS

Course Title
Careers in Environmental Science

Course Description
Career guidance and exposure to the multi-discipline fields of environmental science including resume building, internship placement, and professional networking.

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

PWS 168 - Personal Genomics: Me and My Genes

Course Information

Teaching Area (new)
PWS

Course Number
168

Teaching Area
PWS

Course Title
Personal Genomics: Me and My Genes

Course Description
For non-majors who may have a particular interest in biological and genetic principles as they apply to making informed decisions about health, medical care, and genealogy.

Department
Plant and Wildlife Sciences

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Fundamental knowledge of genetics and genomics

Tags
203057, 1

Learning Outcome
Students can demonstrate foundational knowledge of genetics, and understanding of emerging concepts of personal genomics in medicine, health, and family history.

Title
Communication of genomic knowledge to peers in a group setting

Tags
203058, 2

Learning Outcome
Students can communicate effectively with classmates through oral, visual, and digital media and present a topic on 'personal genomics' in the news as part of a group.

Title
Social impacts of emerging genomics technologies

Tags
203059, 3

Learning Outcome
Students can analyze and evaluate global and local ethical issues in personal genomics, and how these issues impact individuals, families, and society.

Title
Genomics technologies and personal spirituality

Tags
203060, 4

Learning Outcome
Students can relate personal genomics concepts with teachings of the Restored Gospel, including discussions on evolution, Lamanite ancestry, and use of genomic data in family history.

Title
Analytical thought and problem solving

Tags
203061, 5

Learning Outcome
Students can apply sound thinking in applying personal genomics information to real-life situations.

PWS 180 - Climate Change: Science and Solutions

Course Information

Teaching Area (new)
PWS

Course Number
180

Teaching Area
PWS

Course Title
Climate Change: Science and Solutions

Course Description
Global climate change, including the scientific basis, cultural context, policy options, and spiritual implications.

Department
Plant and Wildlife Sciences

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

PWS 188 - Introduction to Genetics, Genomics, and Biotechnology

Course Information

Teaching Area (new)
PWS

Course Number
188

Teaching Area
PWS

Course Title
Introduction to Genetics, Genomics, and Biotechnology

Course Description
Orientation to the genetics and biotechnology major and introduction to the scientific field, including undergraduate mentored research, internships, extracurricular activities, professional careers, scientific literature, and applications of biotechnology in biomedicine, plant and animal improvement, and environmental remediation. Developing fluency in primary vocabulary of the discipline, familiarization with key technologies, writing reviews of primary literature and portfolio establishment, experiencing basic laboratory protocols.

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

Recommended
PDBio 120 or concurrent enrollment.

Learning Outcomes

Title
Fluency in genetics vocabulary.

Tags
202808, 4

Learning Outcome
Students can understand and discuss basic concepts underlying genetics, biotechnology, and genomics.

Title
Familiarization with key technologies.

Tags
202822, 0

Learning Outcome
Students can explain basic operations and applications of existing and emerging technologies for applied genomics.

Title
Literature and writing in the primary discipline.

Tags
202890, 3

Learning Outcome
Students can readily access primary literature in the discipline and draw upon these sources to compose appropriately formatted literature reviews.

Title
Orientation to experiential learning opportunities.

Tags
202911, 1

Learning Outcome
Students can identify and apply for undergraduate educational research opportunities (BYU mentored research and external internships).

Title
Career path orientation.

Tags
202949, 2

Learning Outcome
Students can describe a broad range of careers for geneticists and biotechnologists.

Title
Understand a complete BYU education

Learning Outcome
Students will consider their complete BYU education by making a 4-year plan with yearly goals that address each major Aim of a BYU Education

PWS 191 - Introduction to Plant and Landscape Systems

Course Information

Teaching Area (new)
PWS

Course Number
191

Teaching Area
PWS

Course Title
Introduction to Plant and Landscape Systems

Course Description
Introduction to careers in the plant and landscape systems industry. Overview of professional opportunities presented by faculty and industry professionals.

Department
Plant and Wildlife Sciences

When Taught
Fall and Winter

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

PWS 198R - Plant and Landscape Systems Practicum

Course Information

Teaching Area (new)
PWS

Course Number
198R

Teaching Area
PWS

Course Title
Plant and Landscape Systems Practicum

Course Description
Multiple horticulture experiences through collaboration with BYU Grounds or other on-campus entities (e.g., Life Sciences Greenhouse, Life Sciences Interior Plants Program, Campus Floral, office of the campus landscape architect, office of the campus architect, and campus physical facilities)

Department
Plant and Wildlife Sciences

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
0.5

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
0

Other Prerequisites
Instructor's consent; concurrent employment with BYU Grounds Department or other on-campus entities (e.g., Life Sciences Greenhouse, Life Sciences Interior Plants Program, Campus Floral, office of the campus landscape architect, office of the campus architect, and campus physical facilities).

PWS 199R - Academic Internship

Course Information

Teaching Area (new)
PWS

Course Number
199R

Teaching Area
PWS

Course Title
Academic Internship

Course Description
Work experience evaluated by supervisor and posted on student's transcript.

Department
Plant and Wildlife Sciences

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
3

Other Prerequisites
Consent of both department chair and internship coordinator.

Note
An APPROVED Internship Application is required before adding.

Learning Outcomes

Title
Job Experience

Tags
202901, 0

Learning Outcome
Students will find an entry level internship position with a high quality company and receive above average ratings from the employer.

PWS 205 - Landscape Computer Applications

Course Information

Teaching Area (new)
PWS

Course Number
205

Teaching Area
PWS

Course Title
Landscape Computer Applications

Course Description
This introductory course focuses on becoming familiar and proficient with computer applications used for landscape design

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PWS 103 - Residential Landscape Design

Learning Outcomes

Title
Computer Aided Drawing

Learning Outcome
Feel comfortable and confident with the different methods of computer-aided drawing as they relate to landscape design

Title
Computer Aided Design

Learning Outcome
Develop a clear and developed drawing style via computer-aided design programs.

Title
Communicate Design Intent

Learning Outcome
Be able to produce drawings using graphics that clearly communicate and portray the design intent.

Title
Professional Appearance

Learning Outcome
Develop digital drawing techniques that allow for quick design and maintain a professional appearance.

Title
Enhance Design Communication

Learning Outcome
Produce drawings that enhance design communication and the creative process.

PWS 211 - Hardscape Materials and Structures

Course Information

Teaching Area (new)
PWS

Course Number
211

Teaching Area
PWS

Course Title
Hardscape Materials and Structures

Course Description
Theory and mechanics of hardscape design and construction.

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PWS 103 - Residential Landscape Design

PWS 212 - Principles of Irrigation

Course Information

Teaching Area (new)
PWS

Course Number
212

Teaching Area
PWS

Course Title
Principles of Irrigation

Course Description
Working methods of the plant and landscape systems industry: irrigation, equipment, and materials.

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Other Prerequisites
PWS 211 or concurrent enrollment.

PWS 213 - Interior Plants and Landscapes

Course Information

Teaching Area (new)
PWS

Course Number
213

Teaching Area
PWS

Course Title
Interior Plants and Landscapes

Course Description
Overview of proven health, environmental, psychological, and productivity benefits by the inclusion of plants in the indoors; learn how plants clean the indoor air; identify cultural, artistic, and enriching ways interior plants are used today as in the past; learn the scientific and common names and understand the care, maintenance, and use of the scientifically top-rated plants based on their ecological benefits; plan, install, and maintain attractive and functional interior landscapes.

Department
Plant and Wildlife Sciences

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Principles

Tags
202928, 0

Learning Outcome
Students will take a pre- and post-test for foundational principles related to this course and will show learning by an increase of at least double the average score.

Title
Application

Tags
203020, 1

Learning Outcome
Students will complete a class project that involves the use of foundation principles in this course and use this written project for their portfolio.

PWS 214 - Bidding and Estimating

Course Information

Teaching Area (new)
PWS

Course Number
214

Teaching Area
PWS

Course Title
Bidding and Estimating

Course Description
Competitive bidding strategies, quantity takeoffs, bid analyses for construction and maintenance in the plant and landscape systems industry.

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PWS 103 - Residential Landscape Design

Other Prerequisites
Math 110 or equivalent.

PWS 215 - Principles of Range Management

Course Information

Teaching Area (new)
PWS

Course Number
215

Teaching Area
PWS

Course Title
Principles of Range Management

Course Description
Overview of rangeland resources and management principles, including rangeland classification, multiple use management, natural resource policy, and grazing management.

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Research Reading and Writing

Tags
202828, 4

Learning Outcome
To improve reading and writing skills relating to scientific research

Title
Rangeland Physical Characteristics and Ecology

Tags
202908, 1

Learning Outcome
Describe rangeland physical characteristics, types, physiology, and ecology

Title
Rangelands Stewardship

Tags
202910, 1

Learning Outcome
To understand the principles of stewardship and how they apply to Rangelands

Title
Rangeland Management

Tags
202999, 2

Learning Outcome
To understand the importance of rangeland grazing, how it is managed, and nutrient needs of livestock and wildlife

Title
Multi-use Management

Tags
203034, 3

Learning Outcome
Describe multiple use management and its implications to wildlife and livestock

PWS 216 - Plant and Landscape Lighting

Course Information

Course Number
216

Teaching Area
PWS

Course Title
Plant and Landscape Lighting

Course Description
In this course, students will continually demonstrate gained knowledge of plant and landscape lighting systems. Students will learn the technical capabilities, design principles, and maintenance associated with landscape and horticultural lighting.

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Learning Outcomes

Title
Apply basic knowledge

Learning Outcome
To apply basic knowledge of lighting design characteristics for public and private lighting projects

Title
Build lighting systems

Learning Outcome
To be able to implement (construct) certain elements of lighting construction

Title
Understand design and construction

Learning Outcome
To understand the basics of lighting design, construction, and troubleshooting

Title
Understand components

Learning Outcome
To have a foundational understanding of lighting components and how they work

Title
Prepare for professional application

Learning Outcome
To prepare students for NCLC lighting competition written and practical portions

PWS 220 - Trees

Course Information

Teaching Area (new)
PWS

Course Number
220

Teaching Area
PWS

Course Title
Trees

Course Description
Understand fundamental concepts dealing with the ecology, biology and care of trees, including how they affect the mental, emotional, and spiritual well-being of individuals.

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisite

Type
Prerequisite

Prerequisite

Complete ALL of the following Courses:

- PWS 100 - Plants in the Environment

Recommended
PWS 282

Learning Outcomes

Title
Biology, ecology, and culture of trees

Tags
208259, 0, 1, 2019-03-12 16:50:28

Learning Outcome
Students will be able to understand fundamental concepts dealing with the ecology, biology, and culture of trees

Title
Increased appreciation of trees and their value to nature and society

Tags
208260, 0, 2, 2019-03-12 16:50:28

Learning Outcome
Students will be able to become more deeply interested in trees and the value they provide to nature and society

Title
Communication and quantitative skills related to subject matter

Tags
208261, 0, 3, 2019-03-12 16:50:28

Learning Outcome
Students will be able to improve in their communication and quantitative skills related to the subject matter

Title
Awareness of landscapes as semi-managed ecosystems

Tags
208262, 0, 4, 2019-03-12 16:50:28

Learning Outcome
Students will be able to increase their awareness of landscapes as semi-managed ecosystems in which tree-care specialists play a vital role

Title
Career options in tree care

Tags
208263, 0, 5, 2019-03-12 16:50:28

Learning Outcome
Students will be able to gain exposure to career options in tree care and with the basic features of a tree-care business

Title
Pruning skills

Tags
208264, 0, 6, 2019-03-12 16:50:28

Learning Outcome
Students will be able to develop competence in pruning techniques

Title
Tree-planting skills

Tags
208265, 0, 7, 2019-03-12 16:50:28

Learning Outcome
Students will be able to learn how to properly plant trees

Title
Spiritual appreciation of trees as creations of God

Tags
208266, 0, 8, 2019-03-12 16:50:28

Learning Outcome
Students will be able to develop a spiritual appreciation of trees as creations of God and the role they have played in the lives of believers in the primitive and restored Church

PWS 225 - Principles of Wildlife and Fisheries Management

Course Information

Teaching Area (new)
PWS

Course Number
225

Teaching Area
PWS

Course Title
Principles of Wildlife and Fisheries Management

Course Description
Basic principles of fish and wildlife management, their habitats, and their human users. Ecological concepts, population dynamics, nutrition, behavior, population assessment, management strategies, habitat sampling and management.

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Recommended
PWS 115

Learning Outcomes

Title
Analytical Thinking

Tags
202875, 3

Learning Outcome
Learning Outcome #4: Demonstrate the ability to apply the scientific method and analytical thinking to ecological and management issues.In this course students will be rigorously taught the scientific method and given opportunities to demonstrate the understanding through fish and wildlife management problem solving. They will have writing assignments that provide opportunities for the synthesis and expression of the depth of their understanding. The term paper required in this course may be used for one of the “three written papers relating to stewardship ethics and management situations” that will be placed in the student’s portfolio required for graduation with a Wildlife and Wildlands Conservation BS degree.

Title
Wildlife Identification and Function

Tags
202940, 1

Learning Outcome
Learning Outcome #2: Identify wildland plants, soils, and wildlife species and understand how they function in the environment.This course introduces students to a number of wildlife and fish species, and basic ecological concepts as they relate to wildlife and fisheries. Students will understand the ecological roles, habitat needs, and interactions of fish and wildlife at various levels in an ecosystem

Title
Stewardship and Professional Development

Tags
202953, 0

Learning Outcome
Learning Outcome #1: Identify and articulate stewardship for the creation as a basis for professional judgment.This course not only provides an understanding of tools used by wildlife and fisheries managers to restore, revive, and maintain wildlife and fish populations, but also discusses our stewardship roles and responsibilities for those aspects of the creation.

Title
Ecological Processes

Tags
202971, 2

Learning Outcome
Learning Outcome #3: Apply an understanding of ecological processes to wildlife management.This course includes an extensive overview of basic ecological processes and how to use them for fish and wildlife management.

PWS 250 - Field Ecology

Course Information

Teaching Area (new)
PWS

Course Number
250

Teaching Area
PWS

Course Title
Field Ecology

Course Description
Field techniques and analyses in international environments—investigating methods for sampling soils, water, and biota; designing field sampling efforts and experiments; collecting data from field manipulations for environmental impact assessment and monitoring; conducting statistical analyses to interpret data at multiple spatial and temporal scales; and linking ecological theory, application, and environmental stewardship and sustainability in a national and international context.

Department
Plant and Wildlife Sciences

When Taught
Spring and Summer Terms

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
6

Note
The course will primarily be offered during international study abroad programs hosted by PWS.

PWS 270 - Animal Husbandry

Course Information

Teaching Area (new)
PWS

Course Number
270

Teaching Area
PWS

Course Title
Animal Husbandry

Course Description
Introduction to animal husbandry and management techniques for domestic and wild animals.

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Learning Outcomes

Title
Livestock Husbandry and Management

Tags
203001, 1

Learning Outcome
Integrate livestock husbandry and management practices with wildlife management.

Title
Daily Care and Management

Tags
203014, 1

Learning Outcome
Learn important aspects of livestock stewardship through daily care and management.

Title
Livestock Production and Ecological Impact

Tags
203033, 2

Learning Outcome
Understand how livestock production can and will impact wildlife ecology.

PWS 272 - Coding for Genetic Analysis

Course Information

Course Number
272

Teaching Area
PWS

Course Title
Coding for Genetic Analysis

Course Description
Practical training in computational analysis of moderately-sized molecular biology datasets. Introduction to coding and graphics analysis in R and shell.

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Simple Requisites

Untitled Requirement

Type
Completion Requirement

Complete ALL of the following Courses:
- MMBIO 240 - Molecular Biology

Learning Outcomes

Title
Biotechnology Skills and Practices

Tags
214345, 0, 1, 2023-08-29 12:05:38

Learning Outcome
Students' ability to analyze genetics and molecular biology datasets will be assessed in the R and Bash languages

Title
Biotechnology Skills and Practices

Tags
214346, 0, 2, 2023-08-29 12:05:40

Learning Outcome
Students will demonstrate proficiency in basic coding to manipulate and graphically present molecular biology datasets.

Title
Quantitative Reasoning and Analysis

Tags
214347, 0, 3, 2023-08-29 12:05:42

Learning Outcome
Students will interpret the meaning of datasets generated using the methods above.

Title
Literature Summation and Discussion

Tags
214348, 0, 4, 2023-08-29 12:05:44

Learning Outcome
Students will organize their code and present results with clear accompanying text.

Title
Ministering like Jesus Christ

Tags
214349, 0, 5, 2023-08-29 12:05:46

Learning Outcome
Students will watch out for and serve each other by completing paired programming assignments that receive a course-wide score based on course-wide participation

PWS 274 - Applied Biostatistics

Course Information

Course Number
274

Teaching Area
PWS

Course Title
Applied Biostatistics

Course Description
Application-first statistics for biologists taught in the R environment.

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Completion Requirement

Complete ANY of the following Courses:

- BIO 130 - Biology
  OR CELL 120 - Science of Biology
  OR MMBIO 121 - General Biology: Health and Disease

Recommended
Basic understanding of R is encouraged but not required

Learning Outcomes

Title
Perform appropriate statistical tests

Tags
214363, 0, 1, 2023-08-29 12:08:32

Learning Outcome
Students will be able to distinguish different data types (continuous, discrete, categorical, etc.).

Title
Perform appropriate statistical tests

Tags
214364, 0, 2, 2023-08-29 12:08:34

Learning Outcome
For a given dataset, students will be able to assign a correct distribution and apply an appropriate statistical test to it in the R environment.

Title
Interpret results of statistical tests

Tags
214365, 0, 3, 2023-08-29 12:08:35

Learning Outcome
Students will be able to interpret the results of the statistical tests they perform, and evaluate experimental designs and statistical tests reported in the literature.

Title
Understand a statistical context for biological data

Tags
214366, 0, 4, 2023-08-29 12:08:37

Learning Outcome
Students will also be able to analyze the strengths and weaknesses of various experimental design choices.

Title
Solve real-life problems in biology

Tags
214367, 0, 5, 2023-08-29 12:08:38

Learning Outcome
Students will prepare for the future by using statistics to explain and analyze real-world biology problems and interpret solutions.

Title
Build character

Tags
214368, 0, 6, 2023-08-29 12:08:39

Learning Outcome
Students will understand field-specific expectations for ethical conduct in presenting and analyzing data, and consider these in the context of the gospel of Jesus Christ

PWS 275 - Genetics and Reproduction.

Course Information

Teaching Area (new)
PWS

Course Number
275

Teaching Area
PWS

Course Title
Genetics and Reproduction.

Course Description
Principles of inheritance.

Department
Plant and Wildlife Sciences

When Taught
Winter Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Any general biology course

Learning Outcomes

Title
Genetics and Natural Resource Management

Tags
202833, 1

Learning Outcome
Provide a foundation in the basic and applied principles of genetics for natural resource management andconservation.

Title
Stewardship and Professional Judgement

Tags
202843, 0

Learning Outcome
Identify and articulate principles of stewardship as a basis for professional judgment.

Title
Genetics and Population Management

Tags
202926, 0

Learning Outcome
Apply knowledge of genetics to conservation and management of natural populations.

PWS 282 - Soil Science

Course Information

Teaching Area (new)
PWS

Course Number
282

Teaching Area
PWS

Course Title
Soil Science

Course Description
Physical, chemical and microbiological properties of soils that affect plant growth in natural, agricultural, and urban environments.

Department
Plant and Wildlife Sciences

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
PWS 283 or concurrent enrollment.

Learning Outcomes

Title
Soil Resource Management

Tags
202941, 2

Learning Outcome
Create a conceptual framework to help manage soil resources (i.e., animal habitat, plant nutrient fertility, salinity, soil and water quality, and wind and water erosion) in agricultural, urban, and ecological settings

Title
Current and Historical Soil Issues

Tags
203022, 3

Learning Outcome
Understand the historical and current problems, and cultural concerns facing soils as a natural resource essential to human life

Title
Critical Thinking

Tags
203115, 1

Learning Outcome
Enhance critically thinking skills as they apply to soil resource management & conservation

Title
Soil Chemistry, Physics, and Nutrition

Tags
203116, 1

Learning Outcome
Demonstrate a fundamental knowledge of soil chemistry, genesis, microbiology, physics, taxonomy, and nutrient and water relations

PWS 283 - Soil Science Laboratory

Course Information

Teaching Area (new)
PWS

Course Number
283

Teaching Area
PWS

Course Title
Soil Science Laboratory

Course Description
Laboratory and field techniques in determining soil physical, chemical, and biological properties.

Department
Plant and Wildlife Sciences

When Taught
Fall and Winter

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
3

Other Prerequisites
PWS 282 or concurrent enrollment.

Learning Outcomes

Title
Soil Assessment

Tags
202906, 1

Learning Outcome
Understand basic soil assessments related to soil chemistry, physics, biology, and nutrient fertility

Title
Soil Analysis, Classification, and Content

Tags
202984, 2

Learning Outcome
Conduct basic soil methods in nutrient analysis; textural classification; and organic matter, cation exchange capacity, acidity, and alkalinity content

Title
Laboratory Techniques

Tags
203002, 1

Learning Outcome
Apply laboratory techniques to determine problems associated with soil resource conservation and management

PWS 288 - Molecular Genetics Laboratory

Course Information

Teaching Area (new)
PWS

Course Number
288

Teaching Area
PWS

Course Title
Molecular Genetics Laboratory

Course Description
Mentored, systematic instruction in basic biotechnology techniques and their application in addressing molecular genetic research questions.

Department
Plant and Wildlife Sciences

When Taught
Fall Even Years, Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
6

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- CELL 120 - Science of Biology
  AND CHEM 106 - General College Chemistry 2
  AND MMBIO 240 - Molecular Biology

OR

Prerequisites

Complete ALL of the following Courses:

- CHEM 106 - General College Chemistry 2
  AND MMBIO 121 - General Biology: Health and Disease
  AND MMBIO 240 - Molecular Biology

Learning Outcomes

Title
Chemical Reagents

Tags
202896, 2

Learning Outcome
Students can explain purposes of methods and chemical reagents for DNA isolation, amplification, cloning, sequencing, etc.

Title
Laboratory Protocols

Tags
202983, 1

Learning Outcome
Students can perform fundamental laboratory protocols in applied molecular biology

Title
Laboratory Work

Tags
203008, 3

Learning Outcome
Students can accurately document their laboratory work in a written journal (lab notebook)

Title
Key Machinery

Tags
203027, 1

Learning Outcome
Students can demonstrate the roles and basic functions of key machinery used in genomic research

Title
Leading to lifelong learning and service

Learning Outcome
Students will demonstrate expertise in applying modern approaches and technologies to address future genetic issues that affect our lives and health

PWS 292R - Introduction to Mentored Learning Experience

Course Information

Teaching Area (new)
PWS

Course Number
292R

Teaching Area
PWS

Course Title
Introduction to Mentored Learning Experience

Course Description
Introduction to mentored learning for undergraduates in the fields of environmental sciences; genetics, genomics, and biotechnology; landscape management; wildlife and wildlands conservation.

Department
Plant and Wildlife Sciences

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
1

Lecture Hours

Fixed:
0

PWS 301 - Plant Propagation

Course Information

Teaching Area (new)
PWS

Course Number
301

Teaching Area
PWS

Course Title
Plant Propagation

Course Description
Scientific principles of plant propagation by seeds, cuttings, budding and grafting, and tissue culture.

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
2

Other Prerequisites
PWS 100 or equivalent

Learning Outcomes

Title
Principles

Tags
202907, 0

Learning Outcome
Students will take a pre- and post-test for foundational principles related to this course and will show learning by an increase of at least double the average score.

Title
Application

Tags
202931, 1

Learning Outcome
Students will complete a class project that involves the use of foundation principles in this course and use this written project for their portfolio.

PWS 303 - Soil Conservation and Management

Course Information

Teaching Area (new)
PWS

Course Number
303

Teaching Area
PWS

Course Title
Soil Conservation and Management

Department
Plant and Wildlife Sciences

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
PWS 100 or equivalent; PWS 282, Chem 105 (or 101), Math 110 or equivalent

Recommended
Geol 111

PWS 303 - Soils Conservation and Resources

Course Information

Teaching Area (new)
PWS

Course Number
303

Teaching Area
PWS

Course Title
Soils Conservation and Resources

Course Description
Taxonomy of world soils; conservation and management of agricultural, wildland, wetland, and urban soils.

Department
Plant and Wildlife Sciences

When Taught
Fall.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:
- CHEM 105 - General College Chemistry 1 with Lab (Integrated)
  AND PWS 282 - Soil Science

OR

Prerequisites

Complete ALL of the following Courses:
- CHEM 101 - Introductory General Chemistry
  AND PWS 282 - Soil Science

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:
- CHEM 105 - General College Chemistry 1 with Lab (Integrated)
  AND PWS 282 - Soil Science

OR

Prerequisites

Complete ALL of the following Courses:
- CHEM 101 - Introductory General Chemistry
  AND PWS 282 - Soil Science

Other Prerequisites
PWS 100 or equivalent; Math 110 or equivalent

Recommended
Geol 111

Learning Outcomes

Title
Soil Physical Properties

Tags
202821, 0

Learning Outcome
Understand soil physics, chemistry, taxonomy, and water movement to maintain natural resources.

Title
Soil Taxonomy and Classification

Tags
202945, 2

Learning Outcome
Understand the history, development, and terminology associated with USDA Soil Taxonomy and be familiar with other soil taxonomic systems. Recognize soil orders and suborders from the physical and chemical characteristics of the soil

Title
Conservation

Tags
203010, 1

Learning Outcome
Apply soil conservation practices and principles to regions sensitive to soil degradation.

PWS 305 - Watershed Ecology

Course Information

Teaching Area (new)
PWS

Course Number
305

Teaching Area
PWS

Course Title
Watershed Ecology

Course Description
Applications in catchment hydrology and ecosystem ecology to quantify energy and nutrient flow through watersheds. An overview of major biogeochemical cycles. Identification and description of interactions between human society and health of soil, surface water, and groundwater.\n

Department
Plant and Wildlife Sciences

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PWS 282 - Soil Science

Recommended
PWS 100 or equivalent; Math 110 or equivalent, Chem 101, 105, or equivalent.

Learning Outcomes

Title
Critical Thinking Skills

Tags
202823, 2

Learning Outcome
Enhance critically thinking skills as it relates to issues in water quality management and resource conservation

Title
Mathematical and Statistical Skills

Tags
202834, 3

Learning Outcome
Improve mathematical and statistical skills related to nutrient, salinity, sodicity, and toxicity evaluation and management

Title
Soil and Water

Tags
202869, 1

Learning Outcome
Evaluate case studies in current topics soil and water quality

Title
Soil-Water-Atmosphere Interactions

Tags
202956, 1

Learning Outcome
Demonstrate a fundamental knowledge in water quality and water resource conservation as influenced by soil-water-atmosphere interactions

PWS 306 - Watershed Ecology Laboratory

Course Information

Teaching Area (new)
PWS

Course Number
306

Teaching Area
PWS

Course Title
Watershed Ecology Laboratory

Course Description
Learning and applying principles of watershed ecology to address real-world questions and environmental problems.

Department
Plant and Wildlife Sciences

When Taught
Contact Department

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
3

Other Prerequisites
Concurrent enrollment in PWS 305.

Learning Outcomes

Title
Investigative Techniques

Tags
202819, 1

Learning Outcome
Gain a fundamental understanding of the investigative techniques necessary to solve problems associated with water and soil resources and management

Title
Statistical Skills

Tags
202964, 2

Learning Outcome
Improve mathematical and statistical skills related to nutrient, salinity, sodicity, and toxicity evaluation and management

Title
Diagnostic Steps

Tags
202998, 1

Learning Outcome
Understand the basic diagnostic steps to test water and soil quality

PWS 315 - Conflict Resolution Management

Course Information

Teaching Area (new)
PWS

Course Number
315

Teaching Area
PWS

Course Title
Conflict Resolution Management

Course Description
Modern techniques associated with resolution of conflicts surrounding natural resources.

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

Learning Outcomes

Title
Diverse User Groups

Tags
203037, 1

Learning Outcome
Students will be able to recognize that natural resources management requires a balanced review of perspectives of various user and interest groups.

Title
Conflict Resolution

Tags
203038, 2

Learning Outcome
Students will be able to productively engage the conflict resolution process as it relates to natural resource management.

Title
Deepen understanding of conflict resolution methods

Tags
203050, 3

Learning Outcome
Students will become aware of diverse strategies to be employed in resolving conflcts.

PWS 316 - Advanced Scientific Writing for Genetics Majors

Course Information

Teaching Area (new)
PWS

Course Number
316

Teaching Area
PWS

Course Title
Advanced Scientific Writing for Genetics Majors

Course Description
Course for the genetics and biotechnology major that focuses on field-specific scientific communication including reading, writing, and presenting.

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CELL 360 - Cell Biology
  AND PWS 340 - Genetics

Learning Outcomes

Title
Experimental Approaches

Tags
214350, 0, 1, 2023-08-29 12:06:13

Learning Outcome
Students can describe a variety of techniques and experimental approaches used by biotechnologists to improve plants, animals, microbes and human health.

Title
Oral Presentation

Tags
214351, 0, 2, 2023-08-29 12:06:15

Learning Outcome
Students can deliver an oral presentation to communicate scientific ideas and experimental approaches to an audience of their peers.

Title
Written Communication

Tags
214352, 0, 3, 2023-08-29 12:06:17

Learning Outcome
Students can produce a written review synthesizing scientific findings related to recent biotechnological advances.

Title
Written Communication

Tags
214353, 0, 4, 2023-08-29 12:06:18

Learning Outcome
Students can write a proposal to secure funding for experimental research related to a specific biological question.

Title
Written Communication

Tags
214354, 0, 5, 2023-08-29 12:06:19

Learning Outcome
Students can write an article for a nonscientific audience to communicate scientific ideas and research results.

Title
Spiritually Strengthening

Learning Outcome
Students can recognize the incomplete and self-correcting nature of science and both recognize and respect how religious faith complements science in helping us understand, and live by, eternal moral laws governing right and wrong.

PWS 319 - Grasses in Urban and Natural Environments

Course Information

Teaching Area (new)
PWS

Course Number
319

Teaching Area
PWS

Course Title
Grasses in Urban and Natural Environments

Course Description
Design, installation, and management of agricultural and urban grass systems. Physiological and soil interaction principles of grass management.

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
2

Learning Outcomes

Title
Gain Appreciation for Importance of Turfgrass

Tags
202782, 1

Learning Outcome
Students will be given a pre- and post-class attitude survey to access their understanding and appreciation of the importance of turfgrass in terms of aesthetics, environmental quality, and athlete/child safety with a goal of the score doubling (on average) at the end of semester.

Title
Identify Career Possibilities in Turfgrass Science

Tags
202797, 2

Learning Outcome
Students will conduct a research project to the point of having a written manuscript that is in draft form in order to show them the possibility of doing a graduate program. Also, students will write a short paper on how turfgrass science is important in their anticipated field of choice.

Title
Pass Turfgrass Certification Exam

Tags
202965, 0

Learning Outcome
Students will become compentant enough to pass a mock up of the Turfgrass Certification exam patterned after the industry standard.

PWS 320 - Sustainable Plant Systems

Course Information

Teaching Area (new)
PWS

Course Number
320

Teaching Area
PWS

Course Title
Sustainable Plant Systems

Course Description
In this course, students will gain knowledge of global food systems, field agriculture and controlled environment horticulture. Instruction will be given on developing solutions for and becoming proficient in improving domestic and global food security.

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- PWS 100 - Plants in the Environment

OR

Prerequisites

Complete ALL of the following Courses:

- PWS 110 - Sustainable Food Crop Systems

PWS 324 - Wildlife Law Enforcement

Course Information

Teaching Area (new)
PWS

Course Number
324

Teaching Area
PWS

Course Title
Wildlife Law Enforcement

Course Description
Current and historical principles of federal and state wildlife law enforcement, case development, evidence, evaluation, human rights, and testimony.

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Bio 100 or equivalent.

Learning Outcomes

Title
Familiarity with wildlife laws

Tags
202778, 2

Learning Outcome
Become familiar with significant wildlife laws

Title
Interact with professionals

Tags
202863, 1

Learning Outcome
Interact with professionals in the field

Title
Exposure to process and methods of law enforcement

Tags
202935, 0

Learning Outcome
Gain exposure to the methods and process of wildlife law enforcement

Title
Impacts of approach in human interactions

Learning Outcome
Link common courtesy and Christlike behaviors to successful interactions in law enforcement.

PWS 325 - Fisheries and Wetlands Management

Course Information

Teaching Area (new)
PWS

Course Number
325

Teaching Area
PWS

Course Title
Fisheries and Wetlands Management

Course Description
Principles of fisheries and wetlands mangement, emphasizing managing fish populations and their diverse micro- and macro-habitats within the context of community and ecosystem dynamics. Case studies and models used to evaluate growth, recruitments, and mortality in age-structured populations in relationship to the dynamics of watershed and wetland landscapes.

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Recommended
PWS 225 or equivalent

Learning Outcomes

Title
Fishery and Wetlands Ecology

Tags
202903, 1

Learning Outcome
Understand ecological aspects of fisheries and wetland systems.

Title
Concept Integration

Tags
202921, 2

Learning Outcome
Integrate concepts taught in class to other ecological systems.

Title
Fishery and Wetlands Management

Tags
202962, 1

Learning Outcome
Learn important aspects of fisheries and wetland management.

PWS 330 - Rangeland, Woodland and Forest Plant Identification and Ecology

Course Information

Teaching Area (new)
PWS

Course Number
330

Teaching Area
PWS

Course Title
Rangeland, Woodland and Forest Plant Identification and Ecology

Course Description
Identification characteristics, phenology, distribution, site adaptation, forage value, and response to management of significant rangeland, woodland and forest plants. (Lab is required)

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Learning Outcomes

Title
North American Range Plant Identification

Tags
203005, 0, 1

Learning Outcome
Students will be able to sight identify approximately 240 common rangeland, woodland, and forest plants of North America by their scientific name using distinguishing characteristics both in the field and with collected specimens.

Title
Grass Identification

Tags
203011, 0, 1

Learning Outcome
Students will demonstrate knowledge of major grass tribes and several families of flower plants, particular to those found in the Intermountain West.

Title
Mastery of Morphology and Terminology

Tags
202891, 0, 2

Learning Outcome
Students will demonstrate a mastery of plant morphology and associated technical terminology.

Title
Dichotomous Key

Tags
211322, 0, 3

Learning Outcome
Students will apply the terminology, tools, and techniques for identifying plants using dichotomous keys for native and introduced plants.

Title
Specimen Collection and Preparation

Tags
211323, 0, 4

Learning Outcome
Students will collect and prepare plant specimens with the necessary herbarium label information.

Title
Ecological Context

Tags
211324, 0, 5

Learning Outcome
Students will be able to discuss the context in which a plant is found and the opportunities and challenges of important rangeland plants related to wildland management.

PWS 331 - Science of Plant Pest Control.

Course Information

Teaching Area (new)
PWS

Course Number
331

Teaching Area
PWS

Course Title
Science of Plant Pest Control.

Course Description
Management of plant health problems, namely weed, insect, and disease, through integrated pest management and proper pesticide management and safety.

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Communication

Tags
202783, 5

Learning Outcome
Improve communication and interpersonal skills.

Title
Plant Pest Control

Tags
202801, 1

Learning Outcome
Identify various plant pest control measures.

Title
Critical Thinking

Tags
202978, 0

Learning Outcome
Enhance critical thinking skills.

Title
Pest Management

Tags
202988, 0

Learning Outcome
Develop a framework for decision-making and implementation in applied pest management and ecology.

Title
Pest Management

Tags
202989, 0

Learning Outcome
Recommend control options for plant pest management.

Title
Pesticides

Tags
203017, 0

Learning Outcome
Safely and accurately apply plant pesticides in urban and agricultural environments.

PWS 335 - Comparative Animal Nutrition

Course Information

Teaching Area (new)
PWS

Course Number
335

Teaching Area
PWS

Course Title
Comparative Animal Nutrition

Course Description
Comparative digestion, absorption, and utilization of nutrients and nutritional applications of domestic, pet, and wildlife species.

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Cellular metabolism

Tags
202803, 2

Learning Outcome
Apply the roles of nutrients in cellular metabolism.

Title
Nutrient deficiencies and function

Tags
202813, 3

Learning Outcome
Explain how nutrient deficiencies affect body function and performance.

Title
Nutrient requirements

Tags
202853, 1

Learning Outcome
Demonstrate an understanding how changes in digestive systems affect both nutrient requirements and affect feeding types and systems.

Title
Digestive systems in animals

Tags
202944, 0

Learning Outcome
Demonstrate an understanding of the diverse digestive systems in the animal kingdom.

Title
Feed formulation

Tags
203024, 4

Learning Outcome
Demonstrate knowledge of animal feed formulation.

PWS 340 - Genetics

Course Information

Teaching Area (new)
PWS

Course Number
340

Teaching Area
PWS

Course Title
Genetics

Course Description
Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

Department
Plant and Wildlife Sciences

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- MMBIO 240 - Molecular Biology

OR

Prerequisites

Complete ALL of the following Courses:

- CHEM 381 - Fundamentals of Biochemistry

OR

Prerequisites

Complete ALL of the following Courses:

- CHEM 481 - Biochemistry.

Learning Outcomes

Title
Linkage Maps

Tags
202795, 6

Learning Outcome
Students can construct two- and three-point linkage maps.

Title
Gene Annotation

Tags
202805, 3

Learning Outcome
Students can display fluency in interpreting gene annotation and nomenclature in GenBank records.

Title
Data Set Analysis

Tags
202815, 5

Learning Outcome
Students can demonstrate ability to analyze and apply Chi-square goodness-of-fit tests to complex genetic data sets involving segregation and Hardy-Weinberg equilibrium models.

Title
Inheritance Patterns

Tags
202826, 1

Learning Outcome
Students can identify differences between extranuclear, autosomal and sex-linked inheritance patterns.

Title
Evolutionary Phylogenies

Tags
202986, 2

Learning Outcome
Students can use genetic data (DNA or amino acid sequence) to reconstruct basic evolutionary phylogenies.

Title
Variance Components

Tags
203028, 4

Learning Outcome
Students can dissect quantitative traits into environmental and genetic variance components.

Title
Mutant

Learning Outcome
Students can understand the causes of mutations, differentiate among mutation types (e.g., transitions and transversions), calculate mutation rates, and examine- from a gospel perspective-how the Atonement of Jesus Christ corrects the effects of imperfection

PWS 344 - Natural History of Wildlife

Course Information

Teaching Area (new)
PWS

Course Number
344

Teaching Area
PWS

Course Title
Natural History of Wildlife

Course Description
Wildlife species and their habitats, including ecology, life histories, adaptations, behavior, genetics and population viability variables, and the ethics of global stewardship. Field trips required.

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Recommended
PWS 225 or equivalent

Learning Outcomes

Title
Natural History Fundementals

Tags
202792, 2

Learning Outcome
Be able to define “natural history” and be able to describe basic concepts and principles that comprise the natural history of an organism

Title
Ecology Problem Solving

Tags
202802, 1

Learning Outcome
In this course, students will be rigorously taught the scientific method and given opportunities to demonstrate the understanding through wildlife ecology problem solving. They will have writing assignments that provide opportunities for the synthesis and expression of the depth of their understanding.

Title
Wildlife and Fisheries

Tags
202868, 1

Learning Outcome
This course introduces students to a number of wildlife and fish species, and basic ecological concepts as they relate to wildlife and fisheries. Students will understand the biology, ecological roles, habitat needs, ecological adaptations, and interactions of fish and wildlife at various levels in an ecosystem.

Title
Critical Reading and Thinking

Tags
202884, 4

Learning Outcome
Develop critical reading and thinking skills

Title
Effective Communication

Tags
202914, 5

Learning Outcome
Improve oral and written communication skills

Title
Lifestyle Diversity in Vertebrates

Tags
202992, 3

Learning Outcome
Gain an appreciation for the diversity of lifestyles among vertebrates

PWS 350 - Rangeland and Widlife Ecology

Course Information

Teaching Area (new)
PWS

Course Number
350

Teaching Area
PWS

Course Title
Rangeland and Widlife Ecology

Course Description
Distribution and abundance of organisms and their interactions with the physical and biotic components of the earth emphasizing wildlife
and rangeland ecosystems.

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
PWS 150 or Bio 100 or Bio 130 or PDBio 120.

Learning Outcomes

Title
Ecology and Interdisciplinary Connectivity

Tags
202800, 4

Learning Outcome
discuss the connectivity and relevance of ecology to other fields of study.

Title
Ecology and Biodiversity

Tags
202856, 1

Learning Outcome
Discuss the fundamental ecological principles and the multiple dimensions of biodiversity.

Title
Ecology and Human Well-Being

Tags
202889, 5

Learning Outcome
Explain the importance of ecology to issues regarding human well-being.

Title
Global and Geologic Processes

Tags
202892, 3

Learning Outcome
Discuss how global and geologic processes affect life on earth.

Title
Soil, Water, and Air Ecology

Tags
202994, 2

Learning Outcome
Discuss elements of ecology relating to soil, water, and air conservation.

PWS 355 - Rangeland, Woodland and Forest Vegetation Measurements and Analysis

Course Information

Teaching Area (new)
PWS

Course Number
355

Teaching Area
PWS

Course Title
Rangeland, Woodland and Forest Vegetation Measurements and Analysis

Course Description
Field methodologies and technologies for vegetation inventories and analysis (density, biomass, cover, frequency, utilization, etc.) in wildland settings. (Outdoor lab required)

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PWS 330 - Rangeland, Woodland and Forest Plant Identification and Ecology

Learning Outcomes

Title
Lab Exercises and Write-ups

Tags
202816, 1

Learning Outcome
Students will be able to explain ecological processes that drive secondary succession in wildland ecosystems which in turn impact management decisions.

Title
Vegetation Data Collection Techniques

Tags
202977, 1

Learning Outcome
Students will be able to apply vegetation data collection techniques to quantify vegetation and make interpretations used in resource management decisions.

PWS 357 - Techniques for Wildlife Investigations and Management

Course Information

Teaching Area (new)
PWS

Course Number
357

Teaching Area
PWS

Course Title
Techniques for Wildlife Investigations and Management

Course Description
Investigatiion and management of fish and wildlife populations. Methods for population assessment, capture, handling, marking, radio-telemetry, behavioral studies, and human disturbance. Lab is required.

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Prerequisites

Complete ALL of the following Courses:

- PWS 330 - Rangeland, Woodland and Forest Plant Identification and Ecology

Recommended
PWS 350, 355

Learning Outcomes

Title
Wildlife Investigation and Management Methodologies

Tags
202946, 0, 1

Learning Outcome
1) Wildlife Investigation and Management Methodologies
Students will be able to perform rigorous literature reviews, to apply the scientific method for wildlife-related problem solving, to evaluate research and management data objectively, and to communicate results effectively.

2) Stewardship and Professional Judgement
Students will be able to identify and articulate principles of stewardship as a basis for professional judgment.

3) Plant and Wildlife Identification
Students will be able to identify wildland plants and wildlife species common to the Great Basin and describe how they function in the environment.

4) Wildlands Management
Students will be equipped to apply knowledge of ecology to wildlife and wildlands management.

5) Tools, Techniques, and Application
Students will be able to apply tools, techniques, analytical thought, and the scientific method to ecological and management issues.

PWS 365 - Biogeochemistry

Course Information

Teaching Area (new)
PWS

Course Number
365

Teaching Area
PWS

Course Title
Biogeochemistry

Course Description
We will explore the fundamental principles of biogeochemistry, focusing on cycles of carbon, nitrogen, phosphorus, and sulfur in aquatic, terrestrial, and atmospheric systems. Special attention will be given to the microbial-mediated transformations of nutrients, organic pollutants, and heavy metals, and the impact of human disturbances in natural and urbanizing soils and water.

(PWS-Bio-MMBio) Genomics

Course Description
Current analysis of genes and genomes; computational approaches for interpreting genomic data, including genome sequencing and annotation, gene expression and the transcriptome, functional genomics, metagenomics, and genetic variation and SNPs.

Department
Plant and Wildlife Sciences

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- MMBIO 240 - Molecular Biology
  AND PWS 340 - Genetics

Learning Outcomes

Title
Genomic Experiments

Tags
214355, 0, 1, 2023-08-29 12:06:41

Learning Outcome
Students will complete a series of exercises with data representing genomic experiments (analysis and interpret).

Title
Identify genomic techniques

Tags
214356, 0, 2, 2023-08-29 12:06:43

Learning Outcome
Students will be able to identify the appropriate technique for a genetic analysis by understanding the following about various techniques: how they work, what they are used for, and what their respective advantages and disadvantages are

Title
Genome Sequences

Tags
214357, 0, 3, 2023-08-29 12:06:44

Learning Outcome
Students will describe how genomes are sequenced.

Title
Spiritually strengthening

Tags
214358, 0, 4, 2023-08-29 12:06:45

Learning Outcome
Students will be able to reconcile the genomic evidence in support of the theory of evolution with Church teachings that we are all created in the image of God and that Jesus Christ created the earth under the direction of God the Father.

Title
Genomic Features

Learning Outcome
Students will understand techniques and concepts to assess genomic features such as methylation, gene expression, etc.

Title
Evaluate emerging technologies

Learning Outcome
Students will be able to interpret, assess, and critically evaluate the quality and veracity of new results and techniques in genomics by learning and critically applying their understanding of the biological principles on which current techniques are based.

Title
Communicate effectively

Learning Outcome
Students will be able to communicate technical science to an expert or lay audience by understanding the concepts underlying genomics tools and summarizing these tools orally and in writing, in both technical and non-technical terms.

PWS 369 - Science of Plant Production

Course Information

Teaching Area (new)
PWS

Course Number
369

Teaching Area
PWS

Course Title
Science of Plant Production

Course Description
Scientific principles of crop production related to agronomic and horticultural plants, including relationship of management principles and physiological processes in plants.

Department
Plant and Wildlife Sciences

When Taught
Contact Department

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
4

Lab Hours

Fixed:
0

Other Prerequisites
PWS 100, 282; or equivalents

Learning Outcomes

Title
Plant production fundamentals

Tags
203047, 1

Learning Outcome
Gain a deeper understanding of science of plant production.

Title
Application of plant production strategies

Tags
203051, 2

Learning Outcome
Students will improve their ability to tailor plant production strategies for specific environmental conditions.

PWS 375 - Policies and Laws of Aquatic Systems

Course Information

Teaching Area (new)
PWS

Course Number
375

Teaching Area
PWS

Course Title
Policies and Laws of Aquatic Systems

Course Description
This course provides students an appreciation of how state, federal, and international law relates to aquatic and terresrial systems and species, sometimes protecting them and sometimes harming them. Students will understand how the law addresses or fails to address major challenges facing these systems and species. It will also create a more nuanced understanding of some of the competing interests that also garner policy support.

The course will provide an introduction to water and land use law, federal lands law, Superfund, the Clean Water Act, the Endangered Species Act, the public trust doctrine, international water disputes and management, and the Coastal Zone Management Act. It also provides students with a more nuanced understanding of how the National Environmental Policy Act relates to this context.

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Environmental Policy and Law Development

Learning Outcome
Demonstrate a fundamental understanding of the inception, current state, and future needs of the seminal environmental laws that govern the use and conservation of terrestrial and aquatic ecosystems. Demonstrate working knowledge of the National Environmental Policy Act, including the application of environmental impact assessment, evaluation of project alternatives, and the roles of agencies and environmental consultants.

Title
Policy Analysis Framework

Learning Outcome
Create your own conceptual framework for analyzing policy change in the United States and abroad, and understand the role of government, society, and economics in shaping this framework

Title
Institutional Policy Development

Learning Outcome
Understand the formal institutional setting in which policy is developed, the major participants involved, and the role of science in shaping policy

Title
Law and Environmental Interaction

Learning Outcome
Gain a basic understanding of how environmental laws (e.g., statutes, cases, and common laws) operate to regulate our interaction with the environment and one another

Title
Effective Writing

Learning Outcome
Write more effectively and concisely

PWS 380 - Advanced Landscape Design

Course Information

Teaching Area (new)
PWS

Course Number
380

Teaching Area
PWS

Course Title
Advanced Landscape Design

Course Description
Design and composition as applied to development of commercial and institutional property grounds

Department
Plant and Wildlife Sciences

When Taught
Fall Odd Yrs..

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- BIO 235 - Field Botany
  AND PWS 103 - Residential Landscape Design
  AND PWS 105 - Landscape Design Graphics

Learning Outcomes

Title
Advanced Design

Tags
202784, 3

Learning Outcome
Students will be able to effectively and efficiently design a variety of commercial and institutional landscapes with taking into account a variety of contextual variables

Title
Plant Selection

Tags
202814, 4

Learning Outcome
Students will be able to select plants, appropriate for a given design, based on correct horticultural and ecological knowledge (plant justification)

Title
Landscape design evaluate

Tags
202954, 1

Learning Outcome
Students will be able to effectively evaluate their own work and work of others

Title
Portfolio development

Tags
203025, 0

Learning Outcome
Students will be able to prepare a professional-level landscape design portfolio

PWS 385 - Policies and Laws of Terrestrial Systems

Course Information

Teaching Area (new)
PWS

Course Number
385

Teaching Area
PWS

Course Title
Policies and Laws of Terrestrial Systems

Course Description
This course focuses on how the laws and the work of government agencies at the state and federal level affect terrestrial systems, sometimes protecting them and sometimes harming them. Students will understand how the law addresses or fails to address major challenges facing these systems and species. It will also create a more nuanced understanding of some of the competing interests that also garner policy support. The course will provide an introduction to land use law, federal lands law, Superfund, and the Endangered Species Act. It also provides students with a more nuanced understanding of how the National Environmental Policy Act relates to this context.

  AND PWS 282 - Soil Science
  AND PWS 283 - Soil Science Laboratory

Learning Outcomes

Title
Competency in Soil and Water Management Principles in the Ur

Tags
202829, 1

Learning Outcome
A primary goal of this course is for students to greatly increase their knowledge base of scientific principles related to plant, water, soil, nutrient, and pest management. This will be assessed by examination at beginning and end of semester with a target of at least doubling of average scores.

Title
Complete Five Case Studies

Tags
202873, 0

Learning Outcome
Students will apply concepts assimilated in previous courses to solve problems associated with at least five real world case studies. By assignment, eachwill develop an assessment matrix for use in problem solving situations encountered in their future careers.

Title
Portfolio Development

Tags
202925, 3

Learning Outcome
Students will develop at least one individual and group item to add to their portfolio. Development of a diagnostic key, writing an evaluation paper, development of a group presentation and completion of a semester project could each contribute to portfolios.

Title
Develop Oral and Written Communication Skills

Tags
203013, 2

Learning Outcome
Students will successfully writeseveral documents, including a research paper and diagnostic key at an upperclassmen level of writing. Students will actively participate in team problem solving and a Group presentation.

PWS 405 - Environmental Chemistry Laboratory

Course Information

Teaching Area (new)
PWS

Course Number
405

Teaching Area
PWS

Course Title
Environmental Chemistry Laboratory

Course Description
Soil, water, biosolid, and biotic tissue sample preparation and analysis using chromatography, combustion, and spectroscopy.

Department
Plant and Wildlife Sciences

When Taught
Winter Odd Years

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
2

Other Prerequisites
Chem 105, 106, 107; or equivalent.

Recommended
Chem 223; PWS 283, 306

Learning Outcomes

Title
Chemistry knowledge

Tags
203043, 1

Learning Outcome
Gain a deeper understanding of environmental chemistry.

Title
Analytical chemistry

Tags
203044, 2

Learning Outcome
Demonstrate the analytical knowledge in environmental chemistry.

Title
Application of analytical chemistry tools

Tags
203052, 3

Learning Outcome
Students will demonstrate an ability to select the most appropriate analytical tools for gathering data necessary for solving specific environmental problems.

PWS 411 - Watershed Ecology and Management

Course Information

Teaching Area (new)
PWS

Course Number
411

Teaching Area
PWS

Course Title
Watershed Ecology and Management

Course Description
Processes and management of the hydrologic cycle of forests, woodlands and rangeland ecosystems.

Department
Plant and Wildlife Sciences

When Taught
Winter Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:

Type
Prerequisite

Prerequisites

Complete ANY of the following Courses:

- BIO 350 - Ecology
  OR PWS 350 - Rangeland and Widlife Ecology

Learning Outcomes

Title
Water Management History and Policy

Tags
202796, 1

Learning Outcome
Students will be able to discuss the history and policy that drives water management in the western US.

Title
Watershed Assessment and Classification

Tags
202840, 2

Learning Outcome
Students will be able to apply assessment and classification tools to watersheds and their components to determine how management actions affect hydrologic responses.

Title
Ecological and Hydrological Processes

Tags
203032, 1

Learning Outcome
Students will be able to explain ecological and hydrological processes and concepts and apply them to watershed management actions such as harvesting, grazing, and restoration.

PWS 416 - Rangeland, Woodland and Forest Restoration, Improvement and Management

Course Information

Teaching Area (new)
PWS

Course Number
416

Teaching Area
PWS

Course Title
Rangeland, Woodland and Forest Restoration, Improvement and Management

Course Description
Habitat improvement for wildlife and domestic animals using biological agents, chemicals, mechanical equipment and prescribed fire. Use of restoration treatments for disturbed lands. (outdoor labs required)

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Recommended
PWS 215; PWS 330; PWS 350

Note
Field trips required.

Learning Outcomes

Title
Rangeland Vegetation Improvement

Tags
202811, 5

Learning Outcome
Be able to discuss approaches, practices, and outcomes of rangeland vegetation improvements in actual field situations.

Learning Outcome
Discuss and plan biological, chemical, mechanical methods, and fire to achieve land management goals.

Title
Site Potential and Fuels

Tags
202820, 2

Learning Outcome
Assess site potential and fuels relative to potential vegetation changes with and without management.

Title
Plant Control, Revegetation, and Restoration Practices

Tags
202832, 4

Learning Outcome
Integrate plant control, revegetation and other restoration practices to meet land management goals

Title
Revegetation, Rehabilitation, and Restoration

Tags
202912, 3

Learning Outcome
Plan revegetation, fire rehabilitation, and restoration practices to rangeland, woodland and forest ecosystems.

Title
Rangeland Vegetation History

Tags
202982, 0

Learning Outcome
Discuss the historical and successional history of land to current rangeland vegetation conditions and treatments

Title
Land Management Goals and Planning Methods

Tags
203030, 1

PWS 417 - Rangeland Planning and GIS

Course Information

Teaching Area (new)
PWS

Course Number
417

Teaching Area
PWS

Course Title
Rangeland Planning and GIS

Course Description
Development of a multiple-use natural resource plan for watershed forestry, recreation, wildlife, and livestock. Policies that govern planning and conflict resolution.

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Recommended
PWS 215, 225, 350

Learning Outcomes

Title
Stewardship and Professional Judgement

Tags
202872, 1

Learning Outcome
Identify and articulate stewardship for the creation as a basis for professional judgment.

Title
Analytical Thinking

Tags
202934, 2

Learning Outcome
Demonstrate ability to apply the scientific method and analytical thinking to ecological and management issues.

Title
Ecological Processes

Tags
202951, 1

Learning Outcome
Apply an understanding of ecological processes to wildland management

PWS 419 - Forest Measurements, Management and Ecology

Course Information

Teaching Area (new)
PWS

Course Number
419

Teaching Area
PWS

Course Title
Forest Measurements, Management and Ecology

Course Description
Managing forests, emphasizing ecosystem values, uses and users. (outdoor labs required)

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Note
Field trips required.

Learning Outcomes

Title
Forest Structure

Tags
202786, 3

Learning Outcome
Be able to quantify forest structure and production

Title
Tree Species

Tags
202798, 6

Learning Outcome
Identify 75 tree species located in Utah and on BYU campus.

Title
Stewardship

Tags
202830, 0

Learning Outcome
Articulate their role as stewards over forested environments.

Title
Management Decisions

Tags
202876, 2

Learning Outcome
Explain forest structure, function, and process in making management decisions

Title
Global Forest Diversity

Tags
202920, 1

Learning Outcome
Discuss the diversity of forests world-wide and their importance to human populations.

Title
Wildlife Habitat

Tags
202939, 5

Learning Outcome
Discuss the role of forests in wildlife habitat management

Title
Pest and Disease Control

Tags
202967, 4

Learning Outcome
Recognize forest pests and diseases and discuss the appropriate control techniques.

PWS 420 - International Agricultural Development

Course Information

Teaching Area (new)
PWS

Course Number
420

Teaching Area
PWS

Course Title
International Agricultural Development

Course Description
Problems and emerging solutions in international agricultural development, with emphases on human health and nutrition, sustainable natural resource use in agricultural production, the roles of education and extension, and emerging technologies. Readings, class discussions, and application of principles to a case study project.

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Recommended
PWS 150, IAS 220

PWS 431 - Plant Health Diagnostics

Course Information

Teaching Area (new)
PWS

Course Number
431

Teaching Area
PWS

Course Title
Plant Health Diagnostics

Course Description
Diagnosing plant health problems; pest biology and identification (weed, insect, and disease).

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Learning Outcomes

Title
Problem Solving Skills

Tags
202788, 3

Learning Outcome
Develop problem solving skills

Title
Weeds and Insects

Tags
202817, 1

Learning Outcome
Be able to identify weeds, insects and diseases that affect plants

Title
Plant Health

Tags
202877, 0

Learning Outcome
Diagnose and manage plant health in horticulture.

Title
Plant Pesticides

Tags
202929, 0

Learning Outcome
Safely and accurately apply plant pesticides through integrated pest management.

Title
Communication

Tags
202985, 5

Learning Outcome
Improve communication and interpersonal skills

Title
Critical Thinking Skills

Tags
202993, 0

Learning Outcome
Enhance critical thinking skills.

PWS 440 - Plant Physiological Ecology

Course Information

Teaching Area (new)
PWS

Course Number
440

Teaching Area
PWS

Course Title
Plant Physiological Ecology

Course Description
Photosynthesis, respiration, water relations, mineral nutrition, growth of flowering plants.

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
GE Biological Science requirement; college chemistry

Recommended
Chem 285; or 351, 352

PWS 446 - Ornithology.

Course Information

Teaching Area (new)
PWS

Course Number
446

Teaching Area
PWS

Course Title
Ornithology.

Course Description
Avian systematics, evolution, distribution, identification, and natural history.

Department
Plant and Wildlife Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Other Prerequisites
Bio 100 or Bio 130 or PDBio 120 or PWS 100 or equivalent or instructor's consent.

Note
Registration for a lab is required, as is a three day field trip.

Learning Outcomes

Title
Ornithology

Tags
201058, 1

Learning Outcome
Define ornithology and what it encompasses.

Title
Global Diversity

Tags
201059, 2

Learning Outcome
Discuss the global diversity of birds in both form and function

Title
Bird Evolution

Tags
201060, 3

Learning Outcome
Articulate the current thinking regarding the evolution of birds.

Title
North American Birds

Tags
201061, 4

Learning Outcome
Identify 200 birds common to western North America.

PWS 447 - Mammals of North America

Course Information

Teaching Area (new)
PWS

Course Number
447

Teaching Area
PWS

Course Title
Mammals of North America

Course Description
Focus on the ecology, identification, and management of mammals commonly found in western North America. Learning mammalian characteristics; developing an understanding of mammalian evolution and biogeography; gaining knowledge of mammalian taxonomy, physiological adaptations, and behaviors specific to species found in western North America. Emphasis on sampling methods and techniques used in the conservation and management of these species.

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Recommended
PWS 225, 344

Learning Outcomes

Title
Identification of N.A. mammals

Learning Outcome
Students will be able to identify many North American mammals.

PWS 472 - Conservation Genomics

Course Information

Teaching Area (new)
PWS

Course Number
472

Teaching Area
PWS

Course Title
Conservation Genomics

Course Description
Introduction to conservation genetics and genomics. Fundamental concepts in conservation genetics taught in a modern context through the analysis of data derived from cutting-edge genomic technologies.

Department
Plant and Wildlife Sciences

When Taught
Fall

Fulfill ANY of the following requirements:

Prerequisite

Complete ANY of the following Courses:

- BIO 264 - Statistical Analysis for Biologists
  OR PWS 274 - Applied Biostatistics
  OR PWS 272 - Coding for Genetic Analysis

Recommended
PWS 472 Conservation Genomics

Learning Outcomes

Title
Explain the principles of quantitative inheritance

Learning Outcome
Students will be able to distinguish between qualitative and quantitative traits and describe the role of polygenic inheritance and environmental variation in shaping phenotypic traits

Title
Apply statistical methods to analyze quantitative traits

Learning Outcome
Students will be able to calculate means, variances, covariances, and correlations, and use regression and analysis of variance (ANOVA) in genetic contexts

Title
Estimate genetic parameters from data

Learning Outcome
Students will be able to define and compute heritability (broad and narrow sense), and to estimate genetic and environmental variances using appropriate models

Title
Practice Integrity in Scientific Inquiry

Learning Outcome
Students will demonstrate honesty and transparency in data collection, analysis, and reporting, uphold ethical standards in all aspects of research and collaboration, and reflect on how integrity in science mirrors Christ's example of truthfulness.

Title
Understand and apply the concept of selection

Learning Outcome
Students will be able to calculate response to selection using the breeder's equation, and analyze selection differentials and intensities in breeding programs

Title
Model genetic architecture of traits

Learning Outcome
Students will be able to interpret additive, dominance, and epistatic genetic effects and predict outcomes of crosses and selection

Title
Evaluate the impact of mating systems and population structure

Learning Outcome
Students will be able to analyze inbreeding, assortative mating, and genetic drift, and understand the consequences of population subdivision on genetic variation

Title
7. Use quantitative genetic principles in applied contexts

Learning Outcome
Students will be able to design breeding programs for plants or animals and assess genetic improvement strategies in agriculture

PWS 480 - Environmental Capstone: Data Analysis and Writing

Course Information

Teaching Area (new)
PWS

Course Number
480

Teaching Area
PWS

Course Title
Environmental Capstone: Data Analysis and Writing

Course Description
Database theory and design, statistical analysis, interpretation, and communication of environmental science data. Students will produce a scientific article and portfolio demonstrating mastery of the quantitative and aesthetic components of science and communication.

Department

Learning Outcomes

Title
Self reflection and career fit

Learning Outcome
Understand which type of company/organization is likely to provide the best fit for you and learn to evaluate a companies systems.

Title
Evaluate companies and the systems they use

Learning Outcome
Identify and describe key systems associated with successful Landscape Contracting (or another area within the Green Industry) companies. Understand the Company Growth Process, roadblocks, and strategies for advancing a company past thresholds.

Title
Technological integration to modern business

Learning Outcome
Describe the importance of business management software and be able to discuss strengths and weaknesses of major software programs; gain exposure to Aspire, the leading business management software for midsized companies.

Title
Career success and life balance

Learning Outcome
Reflect on the relationship between career success and the ability to serve in your home, community, and church.

All Semesters/Terms

Credit Hours

Min:
1

Fixed/Max:
6

Learning Outcomes

Title
Mentoring

Tags
203075, 1

Learning Outcome
Learn how to be an effective and efficient mentor

Title
Experimental Results

Tags
203076, 2

Learning Outcome
Generate and analyze experimental results for publications or presentations at professional meetings

PWS 494R - Plant ID / URME Team

Course Information

Teaching Area (new)
PWS

Course Number
494R

Teaching Area
PWS

Course Title
Plant ID / URME Team

Course Description
Plant ID techniques and and rangeland ecology principles-methods for identifying 200 common rangeland plant species in preparation for the plant identification contest at the Society of Rangeland Management, and fundamentals of rangeland ecology in preparation for the Undergraduate Range Management Exam.

Department
Plant and Wildlife Sciences

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
6

Note
Registration required for mentored experiences.

Learning Outcomes

Title
Basic Experiments

Tags
202793, 0

Learning Outcome
Design and/or participate in basic experiments attempting to answer questions in biochemistry, biotechnology, genetics, molecular biology, and soil science

Title
Experimental Results

Tags
202847, 0

Learning Outcome
Generate and analyze experimental results for publications or presentations at professional meetings

PWS 494R - Environmental Science Field Techniques

Course Information

Teaching Area (new)
PWS

Course Number
494R

Teaching Area
PWS

Course Title
Environmental Science Field Techniques

Department
Plant and Wildlife Sciences

When Taught
All Semesters/Terms

Credit Hours

Generate and analyze experimental results for publications or presentations at professional meetings

PWS 494R - Mentored Learning Experience

Course Information

Teaching Area (new)
PWS

Course Number
494R

Teaching Area
PWS

Course Title
Mentored Learning Experience

Course Description
Mentored learning for undergraduates in the fields of Environmental Sciences; Genetics, Genomics, and Biotechnology; Landscape Management; Wildlife and Wildlands Conservation.

Department
Plant and Wildlife Sciences

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
6

Note
Registration required for mentored experiences.

Learning Outcomes

Title
Mentoring

Tags
203067, 3

Learning Outcome

Learn how to be an effective and efficient mentor

Title
Experimental Results

Tags
203068, 4

Learning Outcome
Generate and analyze experimental results for publications or presentations at professional meetings

PWS 505 - Aquatic and Terrestrial Biogeochemistry

Course Information

Teaching Area (new)
PWS

Course Number
505

Teaching Area
PWS

Course Title
Aquatic and Terrestrial Biogeochemistry

Course Description
An in-depth treatment of global biogeochemical cycles, focusing on cycles of carbon, oxygen, nitrogen, phosphorus, and sulfur in the atmosphere, hydrosphere, and lithosphere. Special attention will be given to the microbial mediated transformations and the impact of human disturbances in terrestrial and aquatic environments.

Department
Plant and Wildlife Sciences

When Taught
Fall Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Biogeochemical cycling

Tags
203039, 1

Learning Outcome
Understand the fundamentals of biogeochemical cycling in soils, air, and water

Title
Spiritual aspects of cycling

Tags
203120, 5

Learning Outcome
Gain a deeper appreciation of how the natural world works and a desire to promote environmental stewardship to safeguard our or Earth

Title
Microbial ecology

Tags
203121, 2

Learning Outcome
Understand the importance of microorganisms, microbial-mediated processes, and ecology (i.e., bacteria and fungi) in dictating and altering cycling

Title
Critical thinking, experimental design, and statistics

Tags
203122, 4

Learning Outcome
Possess the ability to design and execute a biogeochemical experiment from understanding the problem to the statistics that properly fit the experimental design

PWS 511 - Environmental Biophysics: Soil and Plant Water Relations.

Course Information

Teaching Area (new)
PWS

Course Number
511

Teaching Area
PWS

Course Title
Environmental Biophysics: Soil and Plant Water Relations.

Course Description
Integrating biological, physical, and chemical processes of water and solute movements through the soil-plant-atmosphere continuum.

Department
Plant and Wildlife Sciences

When Taught
Winter Even Years

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
2

Other Prerequisites
Phscs 105 and PWS 282; or equivalents.

Learning Outcomes

Title
Develop Base Understanding of Biophysics

Tags
202855, 0

Learning Outcome
Students will take a pre- and post-semester exam and at least double their score to assess understanding of the importance of physics in biological systems.

PWS 512 - Rangeland Landscape Ecology and Geographic Information Systems.

Course Information

Teaching Area (new)
PWS

Course Number
512

Teaching Area
PWS

Course Title
Rangeland Landscape Ecology and Geographic Information Systems.

Course Description
Applying landscape ecology theory to evaluate, describe, and predict spatial patterns and processes within rangeland ecosystems using geographic information systems (GIS), remote sensing, and global positioning systems (GPS).

Department
Plant and Wildlife Sciences

When Taught
Fall Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Recommended
PWS 215, Geog 212

Learning Outcomes

Title
Landscape Ecology Theory

Tags
203000, 1

Learning Outcome
Students will be able to apply landscape ecology theory to evaluate, describe, and predict spatial patterns and processes in wildlife ecosystems. This will be furthered by synthesis of the literature and current theory.

PWS 513 - Environmental Field Instrumentation

Course Information

Teaching Area (new)
PWS

Course Number
513

Teaching Area
PWS

Course Title
Environmental Field Instrumentation

Course Description
Hands-on course and lab teaching students how to use instrumentation in the field and in controlled settings to measure key environmental parameters. Learning the physical principles underlying sensors.

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
2

Other Prerequisites
Phscs 105 and PWS 282; or equivalents.

Learning Outcomes

Title
Field instrumentation

Tags
203048, 1

Learning Outcome
Gain a deeper understanding of field instrumentation.

Title
Field applications of instrumentation

Tags
203053, 2

Learning Outcome
Students will acquire fluency in their ability to select and use appropriate instrumentation to gather precise data under varying environmental conditions.

PWS 514 - Soil Microbiology

Course Information

Teaching Area (new)
PWS

Course Number
514

Teaching Area
PWS

Course Title
Soil Microbiology

Course Description
Ecology and role of soil microorganisms in biogeochemical cycles, decomposition of organic matter and waste materials, and bioremediation of contaminated soils and water.

Department
Plant and Wildlife Sciences

When Taught
Contact Department

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Other Prerequisites
Chem 105 and 106; or equivalents

Learning Outcomes

Title
Soil microbiology fundamentals

Tags
202980, 0

Learning Outcome
Ecology and role of soil microorganisms in nutrient cycling, decomposition of organic matter and waste materials, and degradation of agricultural chemicals in soils

PWS 532 - Advanced Scientific Writing and Communication

Course Information

Course Number
532

Teaching Area
PWS

Course Title
Advanced Scientific Writing and Communication

Course Description
See attached syllabus.

Department
Plant and Wildlife Sciences

When Taught
Fall

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Writing Strategies Proficiency

Learning Outcome
Students will be proficient in strategies to sustain a consistent writing habit and enhance writing productivity.

Title
Writing Structure and Function

Learning Outcome
Students will demonstrate the ability to explain, link, and effectively communicate the structure and function of all components within scientific papers.

Title
Writing Techniques Mastery

Learning Outcome
Students will master techniques for effectively communicating scientific information.

PWS 540 - Plant Response to the Environment

Course Information

Teaching Area (new)
PWS

Course Number
540

Teaching Area
PWS

Course Title
Plant Response to the Environment

Course Description
Advanced plant physiological ecology principles.

Department
Plant and Wildlife Sciences

When Taught
Fall Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
PWS 440 or equivalent; PWS 494R or concurrent enrollment

Learning Outcomes

Title
Communication

Tags
202810, 2

Learning Outcome
Students will participate in learning exercises that teaches them how to gather, interpret and communicate scientific information.

Title
Instrumentation

Tags
202864, 3

Learning Outcome
Students will be exposed to the instrumentation and techniques commonly used to gather data in the field of plant physiological ecology.

Title
Scientifc method

Tags
202959, 1

Learning Outcome
Students will learn to apply the scientific method in order to become more proficient and independent learners

Title
Plant-environment interactions

Tags
203029, 1

Learning Outcome
Students will be able to conceptualize the physiological mechanisms by which plants sense and respond to their environment and how that impacts ecological systems.

Title
Plant physiology fundamentals

Tags
202845, 0

Learning Outcome
1) Advanced Topics in Plant Metabolism, 2) Developmental Plant Metabolism, and 3) Advance Topics in Crop Physiology.

PWS 547 - Ungulate Conservation and Management

Course Information

Teaching Area (new)
PWS

Course Number
547

Teaching Area
PWS

Course Title
Ungulate Conservation and Management

Course Description
Integrating principles of natural history, population ecology, behavior, and conservation biology of North American ungulates. Special emphasis on management and conservation applications.

Department
Plant and Wildlife Sciences

When Taught
Winter Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Other Prerequisites
PWS or Bio 350; and Bio 447; or equivalents

Learning Outcomes

Title
Ecology

Tags
202781, 0

Learning Outcome
Will understand and be able to articulate current understanding concerning the role of ungulates in ecosystems

Title
Presentation skills

Tags
202812, 2

Learning Outcome
Students will develop presentation skills

Title
Critical thinking

Tags
202995, 1

Learning Outcome
students will develop the ability to critically think by reviewing and evaluating scientific articles or book chapters that examine ungulate ecology

PWS 551 - Quantitative Ecology

Course Information

Teaching Area (new)
PWS

Course Number
551

Teaching Area
PWS

Course Title
Quantitative Ecology

Course Description
Quantitative methods for ecological sampling and data analysis.

Department
Plant and Wildlife Sciences

When Taught
Winter Even Yrs..

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Other Prerequisites
Bio 350 or equivalent; Stat 121 or 511 or concurrent enrollment

Learning Outcomes

Title
Effective Communication

Tags
202846, 3

Learning Outcome
Demonstrate oral and written scientific communications skills.

Title
Research Application

Tags
202866, 1

Learning Outcome
Demonstrate application of the scientific and analytical methods in ecological research.

Title
Research Project

Tags
202898, 2

Learning Outcome
Demonstrate ability to synthesize literature relevant to a research project.

Title
Sampling and Analysis

Tags
202968, 1

Learning Outcome
Learn how and when to use appropriate sampling and a data analysis techniques for ecological inquiry.

PWS 552 - Terrestrial Ecosystems

Course Information

Teaching Area (new)
PWS

Course Number
552

Teaching Area
PWS

Course Title
Terrestrial Ecosystems

Course Description
Theory and application of plant and animal distribution in terrestrial environments.

Department
Plant and Wildlife Sciences

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Terrestrial fundamentals

Tags
203040, 2

Learning Outcome
Improve their ability to solve contremporary environmental problems using fundamental terrestrial ecosystems.

Title
Ecosystem knowledge

Tags
203041, 3

Learning Outcome
Demonstarte knowledge in the form and function of terrestrial ecosystems

Title
Terrestrial field instrumentation

Tags
203042, 1

Learning Outcome
Gain a deeper understanding of terrestrial field instrumentation

Title
Spiritual appreciation of terrestrial ecosystems

Tags
203054, 4

Learning Outcome
Students will acquire increased appreciation for natural expressions of Divine intelligence in the interconnectivity of terrestrial ecosystems.

PWS 553 - Restoration Ecology

Course Information

Teaching Area (new)
PWS

Course Number
553

Teaching Area
PWS

Course Title
Restoration Ecology

Course Description
Nature of ecosystem disturbance and plant succession; developing science and practice of ecological restoration; case studies of applied restoration.

Department
Plant and Wildlife Sciences

When Taught
Winter Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
PWS 282, 416; Bio 350; or equivalents

Learning Outcomes

Title
Practical Application

Tags
202777, 2

Learning Outcome
Students will be able to apply restoration ecology and techniques to practical problems such mined and other drastically-disturbed lands, disturbed terrestrial and riparian or wetland systems, and invasive species concerns

Title
Ecology Applications

Tags
202902, 1

Learning Outcome
Students will understand the applications of plant population ecology, ecophysiology, and community ecology to restoration ecology.

Title
Plant Succession

Tags
202938, 1

Learning Outcome
Students will understand the processes of plant succession as the foundation for restoration ecology.

PWS 554 - Wildlife Behavioral Ecology

Course Information

Teaching Area (new)
PWS

Course Number
554

Teaching Area
PWS

Course Title
Wildlife Behavioral Ecology

Course Description
Integrating principles of ethology, sociobiology, and behavioral ecology using examples from wildlife resources; behavioral sampling methods.

Department
Plant and Wildlife Sciences

When Taught
Fall Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Bio 100, 350; or equivalents.

Note
Field trips required.

Learning Outcomes

Title
Basic Principles

Tags
202913, 1

Learning Outcome
Students will become familiar with the basic principles of animal behavior including:An introduction to the basic principles of animal behaviorA review of natural selection and its role in shaping animal behaviorA study of proximate factors which influence behaviorThe role of learningCooperationForagingAntipredator behaviorCommunicationHabitat selection, territoriality, and migrationAggressionPlayAging and diseaseAnimal personalities

PWS 559 - Molecular Plant Breeding

Course Information

Teaching Area (new)
PWS

Course Number
559

Teaching Area
PWS

Course Title
Molecular Plant Breeding

Course Description
Molecular genetics methods applied to improvement of economically important plants. Theory and methods of plant transformations.

Department
Plant and Wildlife Sciences

When Taught
Fall Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
PWS 265, 340, 485, 586, PDBio 360; or equivalents; PWS 494R or concurrent enrollment

Learning Outcomes

Title
Manuscript for Journal

Tags
202779, 3

Learning Outcome
Prepare a manuscript for submission to a refereed scientific journal

Title
Lead Discussions

Tags
202787, 2

Learning Outcome
Lead classroom discussions using current scientific literature as the basis for the discussion

Title
Academic & Industry-Based Science

Tags
202893, 5

Learning Outcome
Discuss the differences between academic and industry-based science

Title
Scientific Journals

Tags
202899, 4

Learning Outcome
Explain scientific ethics, etiquette, and the underpinnings as to why it is important to publish scientific journals

Title
Genetic Molecular Markers

Tags
202923, 1

Learning Outcome
Outline the history and uses of genetic molecular markers

Title
Marker Systems

Tags
202987, 1

Learning Outcome
Discuss with proficiency the pros and cons of a minimum of seven different marker systems. Examples of these systems include RFLPs, RAPDs, AFLPs, SSRs, and SNPs

PWS 560 - Quantitative Environmental Chemistry

Course Information

Teaching Area (new)
PWS

Course Number
560

Teaching Area
PWS

Course Title
Quantitative Environmental Chemistry

Course Description
Laboratory chemical analysis of soils and plant materials in soil and plant research.

Department
Plant and Wildlife Sciences

When Taught
Fall, Winter, and Spring

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
3

Other Prerequisites
Chem 105, 106, 107; or equivalent.

Recommended
Chem 223 and/or PWS 283, 306, 405, 406

Learning Outcomes

Title
instrumentation

Tags
202794, 2

Learning Outcome
Understand and operate instrumentation used in common soil and plant analysis

Title
analytical procedures

Tags
202930, 1

Learning Outcome
Understand processes of analytical procedures used in soil and plant analysis

Title
intrepreting data

Tags
202960, 3

Learning Outcome
Intrepret data and provide recommendations based on analysis of soil and plant material.

Title
Advanced soil techniques

Tags
203007, 0

Learning Outcome
Laboratory chemical analysis of soils and plant materials in soil and plant research

PWS 575 - Plant Pathology

Course Information

Teaching Area (new)
PWS

Course Number
575

Teaching Area
PWS

Course Title
Plant Pathology

Course Description
Concepts associated with symptoms, development, control, and classification of plant diseases. Identification and classification of plant fungi, bacteria, and viruses.

Department
Plant and Wildlife Sciences

When Taught
Fall Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Other Prerequisites
PWS 100 or equivalent

Learning Outcomes

Title
Problem Solving Skills

Tags
202807, 3

Learning Outcome
Employ problem solving skills, including enhanced ability to critically think and reason

Title
Communication & Interpersonal Skills

Tags
202861, 4

Learning Outcome
Display enhanced communication and interpersonal skills, including writing

Title
Plant Problems

Tags
202917, 1

Learning Outcome
Diagnose and treat plant problems

Title
Fungi & Bacteria

Tags
202932, 2

Learning Outcome
Culture and identify fungi and bacteria

Title
Major Plant Diseases

Tags
203021, 1

Learning Outcome
Identify major diseases that affect plants

PWS 588 - Metagenomics

Course Information

Teaching Area (new)
PWS

Course Number
588

Teaching Area
PWS

Course Title
Metagenomics

Course Description
Introduction to comparative and fuctional analysis of genomic and metagenomic datasets, including microbial functions that affect host health. Analyzing existing and novel datasets with field-standard techniques.

Department
Plant and Wildlife Sciences

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Introductory coding and mommand-line experience (e.g. Bio 664 for grad students or seek instructor's consent); strongly recommend Bio/MMBio/PWS 468 or corresponding graduate sections.

Learning Outcomes

Title
Application of a broad knowledge base in genome biology

Tags
203062, 1

Learning Outcome
Students can apply basic concepts in genetics, molecular biology, and bioinformatics in solving metagenomics problems.

Title
Deep knowledge skills in metagenomics

Tags
203063, 2

Learning Outcome
Students will demonstrate expanded understanding of metagenomic and comparative genomic theories and techniques.

Title
Laboratory skills in metagenomics

Tags
203064, 3

Learning Outcome
Students can predict metagenomic content from samples, and compare genomic and metagenomic content across samples.

Title
Computational research management skills

Tags
203065, 4

Learning Outcome
Students can assemble and annotate genomes, including targeted shotgun metagenomes.

Title
Literature analysis and writing skills

Tags
203066, 5

Learning Outcome
Students can analyze, interpret, and present methodology and results of their own creation in the format of primary literature.

PWS 598R - Advanced Topics in the Plant and Wildlife Sciences.

Course Information

Teaching Area (new)
PWS

Course Number
598R

Teaching Area
PWS

Course Title
Advanced Topics in the Plant and Wildlife Sciences.

Department
Plant and Wildlife Sciences

When Taught
Contact Department

Credit Hours

Min:
1

Fixed/Max:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Research

Tags
202886, 0

Learning Outcome
Give students a specific topic to increase their understanding of the scientific method as it relates to focused research objectives.

QUECH 100 - Language Study: Quechua

Course Information

Teaching Area (new)
QUECH

Course Number
100

Teaching Area
QUECH

Course Title
Language Study: Quechua

Course Description
Survival-level conversation, reading, listening, and culture skills in Quechua.

Department
Language Studies

When Taught
Contact Department

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Learning Outcomes

Title
Speaking

Tags
197591, 1

Learning Outcome
Speak target language well enough to ask for instructions and to carry out simple, routine survival-type transactions.

Title
Social Situations

Tags
197593, 2

Learning Outcome
Function appropriately in familiar, routine social situations in the target culture.

Title
Follow Instructions

Tags
197594, 3

Learning Outcome
Understand spoken and written target language well enough to follow simple instructions.

QUECH 101 - First-Year Language Study: Quechua

Course Information

Teaching Area (new)
QUECH

Course Number

Learning Outcomes

Title
Comprehension

Tags
197581, 1

Learning Outcome
Understand written and spoken target language relating to familiar topics.

Title
Speaking

Tags
197583, 2

Learning Outcome
Speak the target language well enough to satisfy immediate needs related to basic social situations, simple transactions, basic food and lodging, and routine travel.

Title
Writing

Tags
197585, 3

Learning Outcome
In the target language, write short, simple messages consisting of structurally-accurate sentences on familiar topics.

Title
Culture

Tags
197586, 4

Learning Outcome
Function appropriately in routine, familiar situations in the target culture.

QUECH 102 - First-Year Language Study: Quechua

Prerequisites

Complete ALL of the following Courses:

- FLANG 102R - First-Year Language Study

Note
Teacher may waive prerequisite based on prior experience.

Learning Outcomes

Title
Elaboration

Tags
197566, 1

Learning Outcome
Create structurally-accurate, elaborated utterances and begin to group utterances into paragraphs and narratives. Do this in present, past and future time.

Title
Vocabulary

Tags
197567, 2

Learning Outcome
Broaden vocabulary for both reception (listening and reading comprehension) and production (speaking and writing).

Title
Grammar

Tags
197568, 3

Learning Outcome
Review and increase understanding of basic language structures.

Title
Culture

Tags
197569, 4

Learning Outcome
Discuss in the target language common products and practices related to every-day life in the target culture.

QUECH 202 - Second-Year Language Study: Quechua

Course Information

Teaching Area (new)
QUECH

Course Number

Complete ALL of the following Courses:

- QUECH 201 - Second-Year Language Study: Quechua

Note
Teacher may waive prerequisite based on prior experience. Culminating course for GE Languages of Learning requirement. Not an entry course for returned missionaries.

Learning Outcomes

Title
Communication Skills

Tags
197554, 1

Learning Outcome
In both written and spoken target language, communicate with reasonable accuracy about real-world activities with well-educated members of the target-culture accustomed to dealing with non-native speakers.

Title
Comprehension

Tags
197557, 2

Learning Outcome
Understand every-day written and verbal instructions. Comprehend concrete details and global meaning of intermediate-level written and spoken passages related to familiar topics that native speakers encounter routinely in their daily life.

Title
Cultural Knowledge

Tags
197559, 3

Learning Outcome
Discuss in the target language cultural practices related to every-day life in the target culture. Acquire basic background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.).

Title
General Education Requirements

Tags
197561, 4

Learning Outcome
Complete Languages of Learning and Global & Cultural Awareness for General Education.

Learning Outcomes

Title
Learn of Jesus Christ's eternal ministry

Tags
207289, 0, 1, 2022-01-14 10:42:55

Learning Outcome
Students will interpret biblical and restoration texts, with an emphasis on the four Gospels, to better understand the pre-mortal, mortal, and post-mortal ministries of Jesus Christ.

Title
Strengthen testimony of Jesus Christ's role as the Savior

Tags
207294, 0, 2, 2022-01-14 10:42:55

Learning Outcome
Students will articulate how biblical and restoration texts can inform and strengthen their testimony that Jesus is the Christ, the Savior of the world.

Title
Understand scriptural context

Tags
206172, 0, 3, 2022-01-14 10:42:55

Learning Outcome
Students will analyze scriptural texts based on their historical context and original intent. Students will strengthen their understanding of the mutual support between scriptural texts and the teachings of modern prophets.

Title
Application leading to lifelong discipleship

Tags
206132, 0, 4, 2022-01-14 10:42:55

Learning Outcome
Students will explain how responsible and contextualized scripture study can be a valuable resource that nurtures lifelong covenant discipleship.

Title
Find answers and respond with faith

Learning Outcome
Students will use the mission and teachings of Jesus Christ to strengthen their ability to find answers, resolve doubts, respond with faith, and give reason for the hope within them in whatever challenges they may face.

Note
Online sections also available. Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu. The completion of both Rel A 121 and 122 together can satisfy the Rel A 275 cornerstone requirement.

Learning Outcomes

Title
Nurture students' faith

Tags
206133, 4

Learning Outcome
Students will increase their faith in Jesus Christ and deepen their commitment to enduring covenant discipleship.

Title
Improve knowledge

Tags
206173, 3

Learning Outcome
Students will improve their understanding of Book of Mormon doctrines in their contexts and apply those doctrines to their own lives in meaningful and appropriate ways. Students will strengthen their understanding of the mutual support between scriptural texts and the teachings of modern prophets.

Title
Increase scriptural literacy

Tags
206187, 1

Learning Outcome
Students will increase their scriptural literacy and develop skills of lifelong scripture study, including considerations of context and intent, and principles of sound exegesis.

Title
Personal Application

Tags
206188, 2

Learning Outcome
Students will build a foundation for inspired and responsible personal application.

Title
Find answers and respond with faith

Learning Outcome
Students will use the divinely-inspired teachings of the Book of Mormon to find answers, resolve doubts, respond with faith, and give reason for the hope within them in whatever challenges they may face.

REL A 300 - The Old Testament

Course Information

Course Number
300

Teaching Area
REL A

Course Title
The Old Testament

Course Description
This course is designed to provide students with a comprehensive understanding of the Old Testament with emphasis on its doctrinal, historical, cultural, and literary aspects. Foundational Old Testament connections to other books of scripture will be made. Course focus will be Jesus Christ as Jehovah of the Old Testament, students' commitment as lifelong disciples, covenant making and keeping, and students' ability to find answers to their gospel questions.

Department
Ancient Scripture

When Taught
Fall and Winter

Learning Outcomes

Title
Old Testament as a foundational scriptural text: Jehovah, covenants, temple, and prophets

Learning Outcome
Upon completing this course, students will understand how the Old Testament serves as a foundational scriptural text, particularly with regards to ancient and later teachings about Jehovah, who is Christ; covenants; the temple; and prophets.

Title
Key narratives and figures

Learning Outcome
Upon completing this course, students will recognize and understand key Old Testament narratives and characters.

Title
Historical context, major themes, and literary genres

Learning Outcome
Upon completing this course, students will be able to demonstrate a broad understanding of the Old Testament, including its historical context, major themes, and literary genres.

Title
Develop lifelong discipleship

Learning Outcome
Upon completing this course, students will be able to articulate how it has strengthened their commitment to make and keep covenants, as well as their ability to answer questions about the restored gospel.

REL A 309R - Old Testament Studies

Course Information

Course Number
309R

Teaching Area
REL A

Course Title
Old Testament Studies

Course Description
Study of the Old Testament integrated with geography, history, and culture of the biblical world, leading to an understanding, appreciation, and application of scriptural teachings today.

Department
Ancient Scripture

When Taught
All Semesters/Terms

Credit Hours

Min:
1

Fixed/Max:
2

Lecture Hours

Fixed:
32

Learning Outcomes

Title
Historical and Cultural Context

Learning Outcome
1. Demonstrate how the historical and cultural contexts of Old Testament texts shaped how scriptural episodes are portrayed. 2. Interpret the original meaning of Old Testament texts for a contemporary audience.

Title
Doctrines and Principles

Learning Outcome
1. Recognize themes in Old Testament texts that illustrate God's interaction with his children in ancient Israel. 2. Summarize fundamental doctrines of individual and collective salvation. 3. Differentiate how gospel principles were lived in Old Testament times, distinguishing between those that apply in every age and those that had specific meaning in their original contexts.

Title
Witness of Jehovah

Learning Outcome
Recognize Old Testament texts that bear witness of the identity and work of Jehovah and compare them to testimonies in the New Testament, restoration scripture, and the teachings of modern prophets and apostles.

Title
Application to Daily Living

Learning Outcome
1. Compare Old Testament texts to today's world and infer how they apply in contemporary situations. 2. Implement the lasting principles found in the Old Testament to inspire improved personal discipleship.

REL A 310R - New Testament Studies

Course Information

Course Number

Note
This course, together with the new NES 396R, will better reflect the total number of contact hours that students spend on site. This course will require concurrent enrollment in Rel A 309R and Rel A 310R.

Learning Outcomes

Title
Jerusalem Center Field Trips

Learning Outcome
Recognize and relate the significance of biblical narratives, historical events, and lived experiences to the historical and archaeological sites visited during the semester.

Title
Geographic Context

Learning Outcome
Identify major geographic features of Jerusalem and other Holy Land sites, recognizing major topographic divisions of the region and explaining their influence on scriptural events.

Title
Cultural Context

Learning Outcome
Explain how the material cultures of the civilizations of the Holy Land helped shape the lives of the people of the Old and New Testaments.

Title
Historical Context

Learning Outcome
Explain how the biblical narrative and historical developments shaped the experiences of the peoples of the Holy Land, drawing on the historical and archaeological context of the sites visited during the semester.

Title
Scriptural Significance

Learning Outcome
1. Reflect on how one's approach to scripture study has changed because of the Jerusalem Center experience. 2. Use what has been learned about the geographic and cultural settings of the Old and New Testament to generate new strategies for scripture study.

Learning Outcomes

Title
Factual

Tags
206140, 1

Learning Outcome
Students will gain understanding and know the key doctrines and revelations, people and history, culture and practices of The Church of Jesus Christ of Latter-day Saints.

Title
Conceptual

Tags
206141, 2

Learning Outcome
Students will be able to analyze, evaluate, and write about the key doctrines, history, culture, and practices of the LDS Church.

Title
Spiritual

Tags
206142, 3

Learning Outcome
Students will learn how Mormons "by study and also by faith" come to know of the truthfulness of the Restoration and the reality of the risen Lord.

Title
Application

Tags
206143, 4

Learning Outcome
Students will be able to explain the foundational doctrines and historical events of the Restoration and their relevance in the modern Church. In addition, students will attend and become familiar with the meetings and programs of the LDS Church.

REL C 130 - Missionary Preparation

Note
Recommended for all prospective missionaries. This class may not be taken or retaken by returned missionaries or non-LDS students. Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Spiritual Learning

Tags
207031, 3

Learning Outcome

You will understand and seek to develop the attributes of Christ as found in Chapter 6 of Preach My Gospel.
You will enhance your knowledge of the doctrine through focused study of God's revealed word to both modern and ancient prophets, with a special emphasis on the Book of Mormon.

Title
Factual Learning

Tags
207032, 1

Learning Outcome

You will understand the restored gospel of Jesus Christ and associated doctrine and principles related to missionary work revealed by God through prophets, seers, and revelators.
You will understand the divine purpose of missionary work and the blessings associated with it.

Title
Conceptual Learning

Tags
207033, 2

Learning Outcome

You will learn and practice skills that will improve missionary effectiveness such as effective gospel study, planning and goal setting, time management, and teaching and extending invitations to others.
You will create lesson outlines to teach the restored gospel of Jesus Christ more effectively to others.

Title
Application Learning

Tags
207035, 4

Learning Outcome

You will be able to teach the missionary lessons effectively to members of the Church and to those who are not members.
You will understand revealed doctrine and principles in a way that enables you to apply the doctrine and principles in your own life.

REL C 200 - The Eternal Family

Learning Outcomes

Title
Discern between teachings of Current Leadership

Tags
205968, 10

Learning Outcome
Students will demonstrably discern the doctrines, instruction, and counsel of current members of the First Presidency and Quorum of Twelve Apostles

Title
Report on Current Leadership

Tags
206000, 7

Learning Outcome
Students will find and report on teachings of current members of the First Presidency and Quorum of Twelve Apostles

Title
Identify Current Leadership

Tags
206007, 3

Learning Outcome
Students will demonstrably identify, gather, and analyze biographical information of current members of the First Presidency and Quorum of Twelve Apostles

Title
Identification

Tags
206019, 1

Learning Outcome
Students will accurately identify specific LDS doctrines, organization, government, and perspectives related to current members of the First Presidency and Quorum of Twelve Apostles

Title
Articulating Current Leadership Doctrines

Tags
206134, 2

Learning Outcome
Students will accurately articulate LDS doctrines and perspectives as articulated by current or recent members of the First Presidency and Quorum of Twelve Apostles.

Learning Outcomes

Title
Historical Record

Tags
205978, 4

Learning Outcome
Students will gain experience with the historical record of early LDS history

Title
Overview

Tags
206063, 1

Learning Outcome
Students will learn the history of the Church of Jesus Christ of Latter-day Saints, with emphasis on the restoration of knowledge, power, and doctrine, during the lifetime of Joseph Smith (1805-1844)

Title
Events and Movements

Tags
206064, 1

Learning Outcome
Students will demonstrably remember and analyze events and movements of LDS history between 1805-1844 in New England, New York, Pennsylvania, Ohio, Missouri, Illinois, Great Britain, Palestine, and the Pacific Isles.

Title
Participants

Tags
206065, 2

Learning Outcome
Students will demonstrably remember participants in early LDS history and analyze their contributions.

Title
Geography

Tags
206066, 3

Learning Outcome
Students will demonstrably remember the geography of early LDS history

Title
Historical Relationships

Tags
206067, 5

Learning Outcome
Students will relate early LDS history to larger historical contexts and patterns

Title
Cause and Effect

Tags
206068, 6

Learning Outcome
Students will examine and explain change over time and causes and effects as they relate to early LDS history

2

Lab Hours

Fixed:
0

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Overview

Tags
206182, 1

Learning Outcome
Students will learn the history of the Church of Jesus Christ of Latter-day Saints from 1901 to the present day, with emphasis on international expansion, significant developments of Church programs and structure, the Church during wartime, and the global expansion. Modern-day prophets, beginning with Pres. Lorenzo Snow and ending with Pres. Russell M. Nelson, lives and administrations will be highlighted throughout the course.

Title
Factual

Tags
206183, 2

Learning Outcome
Students will recognize, identify, discuss, and analyze events, movements, participants, in worldwide LDS history between 1900 and the present.

Title
Conceptual

Tags
206184, 3

Learning Outcome
Students will recall and interpret sources of modern LDS history, connecting modern LDS history to larger historical contexts and patterns.

Title
Spiritual

Tags
206185, 4

Learning Outcome
Students will better appreciate "by study and also by faith" the sacrifices, dedication, and testimonies of Modern Prophets, and the succession and continuation of prophetic authority. Students will acknowledge the Lord's hand in the twentieth century history of the Church of Jesus Christ of Latter-day Saints.

Title
Application

Tags
206186, 5

Learning Outcome
Students will examine and explain change over time, and causes and effects as they relate to modern LDS history. Students will also examine the prophetic teachings of the Brethren comparing them with contemporary issues facing young people today and apply those teachings to their personal lives and challenges.

Title
Reading

Tags
192625, 1

Learning Outcome
The design of this course is to introduce students to some of the most important works of Russian literature. Our aim is for the student to be able to explain the trends and characteristics of the Classic Russian Novel and illustrate them with examples from the assigned readings. To help the student realize this objective, we focus our attention on three areas:
1. Reading:Those responsible for course instruction choose the assigned readings (mutually agreed upon by members of the section). Students that complete the assigned readings will demonstrate a critical understanding of and appreciation for literature.

Title
Writing

Tags
192626, 2

Learning Outcome
2. Writing: Writing both in and outside of the classroom will enable the student to develop a reasonable interpretation of a literary text and to support that interpretation with evidence.

Title
Student Interaction

Tags
192627, 5

Learning Outcome
3. Significant Student Interaction: Class discussions are led by both the instructor and the student. Active participation in class discussions will increase the student's ability to identify and articulate the concerns raised in the assigned readings.

Credit Hours

Min:
1

Fixed/Max:
4

Other Prerequisites
Instructor's consent.

Learning Outcomes

Title
Defined Special Purpose

Tags
197282, 1

Learning Outcome
Develop the overall language and cultural competence to meet the needs of a "special" purpose identified by the Center for Language Studies.

Title
Communication

Tags
197283, 2

Learning Outcome
Communicate effectively enough to function in a variety of situations likely to be encountered when dealing with native speakers associated with the special purpose. This may include interpersonal, interpretive, and presentational (written and oral) modes of communication.

Title
Cultural Competence

Tags
197284, 3

Learning Outcome
Interact with cultural competence and understanding when dealing with native speakers associated with the special purpose.

Note
Entry course for returned missionaries or others of equivalent language experience. Required course for obtaining language credit by examination. May fulfill the GE Languages of Learning requirement.

Learning Outcomes

Title
Communication Skills

Tags
197275, 1

Learning Outcome
In both written and spoken target language, communicate accurately with well-educated members of the target-culture about real-world activities.

Title
Comprehension

Tags
197276, 2

Learning Outcome
Understand detailed written and verbal instructions. Comprehend historical passages, newspaper and magazine articles, and broadcast news reports well educated native speakers encounter routinely in their daily life.

Title
Cultural Knowledge

Tags
197277, 3

Learning Outcome
Acquire background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.). Discuss in the target language cultural practices related to major life events in the target culture (birth, marriage, death, etc.).

Title

Learning Outcomes

Tags
54123, 3

Learning Outcome
Participate in a visit to a charter school, a school for children with physical and mental challenges, and an alternative school.

Tags
54155, 9

Learning Outcome
Complete admission requirements to be admitted into the secondary education program.

Tags
54194, 10

Learning Outcome
Analyze case study incidences regarding the moral dimensions of teaching.

Tags
54231, 1

Learning Outcome
Evaluate a variety of learning styles.

Tags
54254, 8

Learning Outcome
Conduct an interview with a child regarding their perceptions of art and create an summary analysis of the data collected.

Tags
54269, 11

Learning Outcome
Generate lesson plans in relation to observations, school cultures, district and state mandates, and contemporary educational theory.

Tags
54324, 6

Learning Outcome
Create a presentation on an art education method and create a guide sheet.

Tags
54556, 5

Learning Outcome
Video record one lesson to view and analyze and review with peers.

Tags
54581, 2

Learning Outcome
Create an instructional resource file.

Tags
54607, 4

Learning Outcome
Participate in visits to schools (elementary specialist, middle level, high school, and 2 schools of the studentâ??s choice), prepare observations in each setting, teach an art lesson at assigned settings, conduct peer evaluations, and complete journal entries with reflective entries.

Tags
54644, 7

Learning Outcome
Create school newsletter, bulletin board display and an instructional resource aid.

Title
SFL 276: Introduction to Secondary Education for Family and Consumer Science Majors

Tags
182412, 1

Learning Outcome
This course is a field-based course taken during the initial teaching experience. It is directed at helping prospective teachers experience the demands and opportunities associated with teaching Family and Consumer Sciences in secondary education classrooms.

Title
A) Students will observe, experience, and analyze firsthand the responsibilities and environment of teaching Family and Consumer Sciences in a secondary public school setting.

Tags
182413, 2

Learning Outcome
- Students observe, teach, demonstrate, and complete a bulletin board out in schools 6 -7 days during the block.
- An hours form and evaluation form is filled out with public teacher signature.

Title
B) Students will identify and discuss the characteristics of an effective teacher

Tags
182414, 3

Learning Outcome
- The First Days of School textbook discussion question assignments are written, turned in and discussed in class.

Title
C) Students will demonstrate ability to research and understand current issues facing public schools by collecting scholarly articles and presenting an opinion.

Tags
182415, 4

Learning Outcome
Students complete a research project by reading and responding to 4 or more current education articles.

Title
Students will reflect and build on the goals of the BYU Educator Preparation Program.

Tags
182416, 5

Learning Outcome
Students increase understanding of personal strengths and weaknesses that will aid in progression toward excellence in teacher preparation by keeping a field journal of their experiences.

Learning Outcomes

Title
Reflection and Evaluation for Growth

Tags
183410, 5

Learning Outcome
The student will be a reflective practitioner who continually evaluates the effects of his or her choices, and who actively seeks out opportunities to grow professionally.

Title
Learning Environment

Tags
191435, 3

Learning Outcome
The student will create a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Title
Instruction

Tags
191436, 2

Learning Outcome
The student will plan instruction based upon knowledge of subject matter, students, the community, and curriculum goals.

SC ED 380 - Content-Area Literacy

Course Information

Teaching Area (new)
SC ED

Course Number
380

Teaching Area
SC ED

Course Title
Content-Area Literacy

Course Description
Current theory and related practices in literacy assessment and instruction for content-area classrooms.

Department
Teacher Education

When Taught
Contact Department

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Other Prerequisites
Concurrent enrollment in Sc Ed 377 or equivalent course

Learning Outcomes

Title
Dispositions

Tags
183313, 2

Learning Outcome
Teacher candidates will develop an understanding of the place of literacy instruction in content-area classrooms to support students’ access to knowledge and participation in a social and political democracy.

Title
Practices

Tags
183318, 1

Learning Outcome
Teacher candidates will use instructional strategies and design curriculum materials to support students’ creation, negotiation, and use of texts.

Title
Knowledge

Tags
183346, 0

Learning Outcome
Teacher candidates will gain an understanding of theories related to literacy, reading, writing, texts, and literacy instruction.

SC ED 476R - Secondary Student Teaching - Mathematics

Learning Outcomes

Title
Analysis and Writing

Tags
190311, 1

Learning Outcome
Students will develop skills to allow them to view, analyze, critically interpret, and write about films that come from a wide variety of cinematic genres.

Title
Analytic Vocabulary and Critical Skills

Tags
190371, 2

Learning Outcome
Students will develop an analytic vocabulary and critical skills that will allow them to participate in scholarly discussions of key cinematic texts from Nordic and German history.

SCAND 220 - Introduction to Scandinavian Studies

Course Information

Course Number
220

Teaching Area
SCAND

Course Title
Introduction to Scandinavian Studies

Course Description
Introduction to the Scandinavian Studies minor. The course includes an introduction to the history, geography, society, and culture of the Scandinavian region through a variety of approaches.

Department
International and Area Studies

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Learning Outcomes

Title
Disciplinary Understanding

Learning Outcome
Students will be able to apply a basic understanding of the core disciplines within Scandinavian Studies in order to frame questions central to Scandinavian society and culture.

Title
Research Design

Learning Outcome
Students will access resources (faculty, library reference materials, databases, etc.) to further an understanding of questions related to Scandinavian society and culture.

Title
Cultural Proficiency

Learning Outcome
Students will be able to identify and evaluate key features of the geography, culture, society and history of Scandinavia that have shaped important aspects of the region.

Title
Analytical Thinking

Learning Outcome
Students will be able to analyze and evaluate both primary and secondary sources and draw conclusions based on evidence.

Title
Written and Oral Communication

Learning Outcome
Students will be able to craft well-supported arguments and effectively present the results of research in oral and written reports.

SCAND 429 - Old Norse

Course Information

Teaching Area (new)
SCAND

Course Number
429

Teaching Area
SCAND

Course Title
Old Norse

Course Description
Grammar and exercises. Readings in Old Norse literature.

Department
Language Studies

When Taught
Winter Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Recommended
Knowledge of a modern Scandinavian language

Note
Returned missionaries from Iceland or those with equivalent experience should enroll in ICLND 202.

Learning Outcomes

Title
Cultural-Linguistic context

Tags
190289, 0

Learning Outcome
Students will develop an understanding of the linguistic and literary features of Old Norse-Icelandic.

Title
Reading and Analytical Skills

Tags
190385, 0

Learning Outcome
Students will develop the capacity to read and understand Old Norse-Icelandic texts with reasonable facility and develop an appreciation for the richness and variety of Old Norse-Icelandic literature through close readings from a variety of sagas and poetry.

Title
Linguistic Skills

Tags
190590, 0

Learning Outcome
Students will develop a sound understanding of Old Norse-Icelandic grammar (morphology, phonology, syntax), in part with reference to that of modern continental Scandinavian languages. They will also learn a substantial vocabulary of Old Norse-Icelandic, again with attention to cognates in modern Scandinavian and Germanic languages. They will develop a capacity to recognize the various morphological and phonological manifestations of the same word.

SCAND 490R - Seminar in Scandinavian Studies

Course Information

Credit Hours

Min:
0.5

Fixed/Max:
3

Lab Hours

Fixed:
0.5

Other Prerequisites
Reading knowledge of at least one Scandinavian language.

Learning Outcomes

Title
Subject-Specific Outcomes

Tags
190238, 2

Learning Outcome
Each iteration of this course has more specific outcomes based on the subject matter at hand; those additional objectives are articulated in each instructor's customized syllabus.

Title
Critical Thinking, Analysis, and Writing

Tags
190310, 3

Learning Outcome
Students will demonstrate the ability to analyze cultural artifacts, think critically, and write clearly and persuasively.

Title
Specialization

Tags
190372, 0

Learning Outcome
Students will learn to recognize and critically reflect upon a significant dimension of Nordic culture.

Title
Life-Long Learning

Tags
190458, 4

Learning Outcome
Develop a life-long appreciation of Nordic cultures and develop attitudes and habits of thought and study that encourage life-long learning and continued contact with the informed study of culture.

Title
Research Arguments and Methodologies

Tags
190556, 1

Learning Outcome
Students will be able to produce original arguments based on sound research methodology.

Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Outcome 1

Tags
182309, 1

Learning Outcome
Learn the basic terms, concepts, and theoretical frameworks used in family science in ways that deepen your understanding of families, strengthen your ability to seek truth "by study and by faith," and prepare you to use this knowledge to bless individuals and families throughout your life.

Title
Outcome 2

Tags
182380, 1

Learning Outcome
Interpret family patterns using class concepts and research so you can think more clearly, understand different perspectives, become more caring and aware in your interactions, and become a more thoughtful and open-minded learner.

Title
Outcome 3

Learning Outcome
Evaluate what strengthens or challenges families with compassion, helping you grow into someone who makes wise, ethical choices in relationships.

Title
Outcome 4

Learning Outcome
Apply principles from family science to your own life so you can build healthier relationships, communicate more effectively, help you better understand other, and become someone who strengthens the people around you.

Title
Outcome 5

Learning Outcome
Integrate what you learn about families with your personal and spiritual values so you can become a more discerning, Christlike person who promotes belonging and supports the well-being of others.

SFL 185R - Basic Sewing Techniques

Learning Outcomes

Title
Content and Theory

Tags
182045, 1

Learning Outcome
Obtain an historical perspective of early childhood and a philosophical foundation in developmentally appropriate practices.
Become conversant with the developmentally appropriate practice standards published by NAEYC (National Association for the Education of Young Children) and understand how they apply to making effective educational decisions that will benefit children and enhance their growth and development.
Communicate the principles of developmentally appropriate practices to parents and colleagues.
Understand how to create classrooms that incorporate the five guidelines or points of the "Mariner's Star":

creating a caring community of learners
teaching to enhance development and learning
constructing an appropriate curriculum
assessing children's learning and development
establishing reciprocal relationships with families.

Gain a functional understanding of how teachers within a developmental model implement appropriate guidance and classroom management strategies, function in "lead" and "support" teacher roles, create and modify effective learning environments, facilitate and scaffold learning and, develop strategies to meet the diversity of needs in the children and families they serve.

Title
Research and Evaluation Methodologies

Tags
182357, 1

Learning Outcome
Utilize observational opportunities to assess teaching roles, learning environments, and young children’s individual and/or group learning.

Tags
182008, 1

Learning Outcome
Identify consumer rights, responsibilities, and remedies and identify effective practices for purchasing consumer goods and services.

Title
Legal and ethical considerations

Tags
182009, 2

Learning Outcome
Synthesize legal and ethical considerations of being an informed consumer in today's market.

Title
Knowledge of private and government agencies

Tags
182010, 3

Learning Outcome
Identify and explain the purposes and features of private and government agencies providing assistance, information, and published materials that are consumer resources for decision making.

Title
Understanding roles of labels and warranties

Tags
182011, 4

Learning Outcome
Distinguish the roles of labels, warranties, guarantees, and advocate groups in wise consumer behavior.

Title
Interaction of how consumer agencies interact

Tags
182012, 5

Learning Outcome
Determine how government, business, and the consumer interact for the mutual benefit of each other in the marketplace.

Title
How to make prudent selection of services

Tags
182013, 6

Learning Outcome
Analyze prudent steps in the selection of healthcare, childcare, elder care, repair services, household materials, automobiles, toys, and equipment.

Title
Ways to avoid identity theft and fraud

Tags
182014, 7

Learning Outcome
Describe ways to avoid identity theft, fraud, deceptions, and rip-offs.

Title
Understanding financial contracts

Tags
182015, 8

Learning Outcome
Explain the importance of understanding financial contracts (disclosure information, grace period, payment penalties, method of interest calculation).

Title
Perform market analysis

Tags
182016, 9

Learning Outcome
Perform a market analysis exercise and exercise better shopping practices.

SFL 276R - Exploration of Teaching: Family and Consumer Sciences

Course Information

Teaching Area (new)
SFL

Course Number
276R

Teaching Area
SFL

Course Title
Exploration of Teaching: Family and Consumer Sciences

Course Description
Field-based initial teaching experience directed at helping prospective teachers experience demands and opportunities associated with teaching secondary students.

Department
Family Life

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
2

Other Prerequisites
Major-area preadmission requirements; FBI fingerprint and background clearance.

Learning Outcomes

Title
Aligning Curriculum and Instructional Goals

Tags
209480, 0, 3

Learning Outcome

Students will be able to use the strands and standards developed by the Utah State Board of Education to identify a central conept for planning instruciton appropriate to a particular grade level and topic.

Title
Analyzing Classroom Instruction

Tags
209481, 0, 4

Learning Outcome
Students will be able to analyze and describe the family and consumer sciences experiences of adolescents in terms of the tasks, discourse and learning environments they observe in public school classrooms, and can reconcile the theoretical principles of their university experience with the reality of a secondary classroom.

Title
Family and Consumer Sciences Practices

Tags
209478, 0, 1

Learning Outcome

Students will be able to understand family and consumer sciences practices and use them to engage in meaningful family and consumer sciences exploration and reflect on their own use of these practices to make inferences about how adolescents might engage in family and consumer sciences tasks.

Title
Philosophy of Teaching and Learning Family and Consumer Sciences

Tags
209479, 0, 2

Learning Outcome

Students will be able to articulate a philosophy of teaching and learning family and consumer sciences eductaion based on the professional standards for teaching family and consumer sciences, the moral dimensions of teaching, and the INTASC standards.

SFL 280 - Dynamics of Clothing

Course Information

Teaching Area (new)
SFL

Course Number
280

Teaching Area
SFL

Course Title
Dynamics of Clothing

Course Description
Introduction to the influences, meanings, and dimensions of individual clothing selection processes and its effect on families, communities, and cultures.

Department
Family Life

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Clothing and Meaning

Tags
182023, 0, 1

Learning Outcome

Standard #1: Develop Critical Judgment
The student will be able to develop critical judgment about the effects of clothing upon the physical, social, psychological, and economic well-being of individuals, families, and social groups.
Standard #2: Terminology and Theories
The student will be able to determine how terminology, concepts, and theories affect consumer behavior in relation to clothing.
Standard #3: Fashion Industry
The student will be able to identify and understand the interrelationships among areas in the fashion industry and become aware of related careers.
Standard #4: Designers
The student will be able to analyze and describe the impact influential fashion designers have had on the decisions and trends that affect fashion today.
Standard #5: Types of Research
The student will be able to articulate how different research methods influence certain aspects of the fashion industry.
Standard #6 Critical Thinking Skills:
The student will be able to apply critical thinking skills to communicate ideas related to clothing in the family.

SFL 287 - Intermediate Sewing Techniques

Course Information

Teaching Area (new)
SFL

Course Number
287

Teaching Area
SFL

Course Title
Intermediate Sewing Techniques

Course Description
Assessing and executing various sewing techniques, including construction of several full-scale garments.

Department
Family Life

When Taught
Fall, Winter, and Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
1.5

Lab Hours

Fixed:
4

Other Prerequisites
SFL 185R or equivalent sewing skills.

Fee
30

Note
Student-supplied materials required. Fee.

Learning Outcomes

Title
Technique with Fabrics

Tags
182359, 0

Learning Outcome
Identify correct sewing techniques for various fabrics

Title
Quality Characteristics

Learning Outcome
Describe quality characteristics of various sewing techniques

Title
Correct Terminology

Learning Outcome
Demonstrate following proper procedures while applying correct advanced terminologies

Title
Sequencing Specifications

Learning Outcome
Create sewing projects that meet the sequencing specifications for different types and styles of fabric

SFL 290 - Critical Inquiry and Research Methods

Course Information

Teaching Area (new)
SFL

Course Number
290

Teaching Area
SFL

Course Title
Critical Inquiry and Research Methods

Course Description
Philosophies of critical inquiry. Principles of designing, conducting, and reporting social science investigations.

Department
Family Life

When Taught
All Semesters/Terms

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
Offered by BYU Independent Study; enroll anytime throughout the year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Evaluate Research Designs

Tags
182024, 1

Learning Outcome
Evaluate the strengths and weaknesses of different methods of inquiry used in investigating the human contexts of human development, home, and family.

Title
Conduct a Research Study

Tags
182025, 2

Learning Outcome
Conduct a research study and write up the results.

Title
Practical Experience with Research

Tags
182026, 3

Learning Outcome
Gain practical experience in using research methods.

SFL 305 - Applied Statistics & Data Management

Course Information

Teaching Area (new)
SFL

Course Number
305

Teaching Area
SFL

Course Title
Applied Statistics & Data Management

Course Description
Data management, statistical methods, data visualization and presentation, and research documentation, with data about families.

Department
Family Life

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
None

SFL 306 - Pediatric Bereavement, Death and Dying

Course Information

Course Number
306

Teaching Area
SFL

Course Title
Pediatric Bereavement, Death and Dying

Course Description
Death and the dying process will be explored from spiritual, physical, cultural, and psychosocial perspectives among pediatric populations. Comparisons will be drawn between end-of-life care for children in Western compared to other cultures and ethnic backgrounds.

Department
Family Life

When Taught
Fall

Credit Hours

Recommended
SFL 359

Learning Outcomes

Title
Personal views

Tags
214407, 0, 1, 2023-08-29 12:22:36

Learning Outcome
Students will be able to articulate their personal views and attitudes toward death and dying.v

Title
Cultural attitudes

Tags
214408, 0, 2, 2023-08-29 12:22:41

Learning Outcome
Students will be able to identify societal and cultural attitudes toward death.

Title
Guiding principles

Tags
214409, 0, 3, 2023-08-29 12:22:52

Learning Outcome
Students will be able to describe guiding principles of end-of-life care.

Title
Models

Tags
214410, 0, 4, 2023-08-29 12:22:56

Learning Outcome
Students will be able to distinguish between the medical model & patient-centered approach to dying.

Title
End-of-life care

Tags
214411, 0, 5, 2023-08-29 12:23:03

Learning Outcome
Students will describe and evaluate factors that influence patient preferences in end-of-life care.

SFL 315 - Effective Writing & Presenting

Course Information

Teaching Area (new)
SFL

Course Number
315

Teaching Area
SFL

Course Title
Effective Writing & Presenting

Course Description
Principles, tools, and extensive practice to become effective writers and presenters in School of Family Life disciplines, as well as in more general settings.

Department
Family Life

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- SFL 290 - Critical Inquiry and Research Methods

Note
Fulfills GE Advanced Writing requirement.

Learning Outcomes

Title
Disciplinary Research and Writing

Tags
182508, 1

Learning Outcome
Demonstrate learning in the process of disciplinary research and writing, rhetorical knowledge, effective writing processes, knowledge of disciplinary writing conventions, effective oral presentation, and well-designed media support.

Title
Reliable Sources of Information

Tags
182509, 2

Learning Outcome
Access reliable sources of information about the family, critically evaluate claims, take effective notes, create logical arguments, use supporting evidence, employ correct grammar, write multiple drafts, and avoid plagiarism while engaging in disciplinary research and writing.

Title
Synthesize Concepts, Theories, and Research Findings

Tags
182510, 3

Learning Outcome
Identify major concepts, theories, and research findings in several substantive areas related to marriage, family, and home; synthesize those findings; and effectively write to academic, professional/clinical, and general audiences.

Title
Apply The Family: A Proclamation to the World

Tags
182511, 4

Learning Outcome
Apply doctrine and principles of The Family: A Proclamation to the World to inform, inspire, and motivate disciplinary writing.

SFL 325 - Marital Relationships: Theory and Research

Course Information

Teaching Area (new)
SFL

Course Number
325

Teaching Area
SFL

Course Title
Marital Relationships: Theory and Research

Course Description
Critical analysis of literature regarding dating, spouse selection, and transition to marriage processes leading to successful marriage, as well as processes for maintaining, strengthening, and repairing marital relationships. Preparation for research and teaching in the field.

Department
Family Life

When Taught

Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Human Development Content and Theory

Tags
182049, 1

Learning Outcome
Critically examine the needs, development, and important variation in development during the first 2-3 years of life.

Title
Human Development Content and Theory

Tags
182050, 2

Learning Outcome
Understand the underlying developmental processes associated with dramatic changes that occur during infancy with the family as an important backdrop.

Title
Effective Writing and Analysis

Tags
182312, 3

Learning Outcome
Critically synthesize and write in depth a specific area of interest related to infant development.

Title
Research and Evaluation Methodologies

Tags
182365, 1

Learning Outcome
Develop skills for critical evaluation of research and theory in the area of infant development.

SFL 333 - Adolescent Development in the Family and Other Social Contexts.

Course Information

  AND SFL 305 - Applied Statistics & Data Management

Other Prerequisites
SFL 160 or concurrent enrollment.

Learning Outcomes

Title
Outcome 1

Tags
182029, 1

Learning Outcome
Understand the key assumptions, concepts, and propositions of major family theories.

Title
Outcome 2

Tags
182306, 2

Learning Outcome
As disciple-scholars, critically evaluate family theories from both scholarly and gospel perspectives.

Title
Outcome 3

Tags
182307, 1

Learning Outcome
Analyze and write about family life using theoretical language.

Title
Outcome 4

Learning Outcome
Identify ways to strengthen diverse families through Christlike application of family theories.

Title
Outcome 5

Learning Outcome
Apply family theories to personal, spiritual, and professional development

SFL 340 - Family Meal Management

Learning Outcomes

Title
Content and Theory 1

Tags
214413, 0, 1, 2023-08-29 12:23:48

Learning Outcome
Critically examine and discuss selected topics in perception, cognition, and language development.

Title
Content and Theory 2

Tags
214414, 0, 2, 2023-08-29 12:23:51

Learning Outcome
Identify and discuss selected theories and theoretical models of perception, cognition, and language development, as well as the various research methods used in the study of cognitive development.

Title
Content and Theory 3

Tags
214415, 0, 3, 2023-08-29 12:23:53

Learning Outcome
Describe how perception, cognition, and language development change throughout the life span.

Title
Research and Evaluation Methodologies

Tags
214416, 0, 4, 2023-08-29 12:23:56

Learning Outcome
Evaluate in empirical research studies a specific topic in perception, cognition, and language development and synthesize in each study the research questions, methodology, findings, and discussions of the findings.

Title
Effective Writing and Analysis

Tags
214417, 0, 5, 2023-08-29 12:23:58

Learning Outcome
Succinctly summarize in writing a collection of empirical studies on a topic in perception, cognition, and language development of your interest.

Other Prerequisites
SFL 160 or SFL 210 or concurrent enrollment

Learning Outcomes

Title
Learning Outcome 1

Tags
182031, 1

Learning Outcome
Gain understanding of major theories and research findings regarding demographic differences in human development and family life

Title
Learning Outcome 2

Learning Outcome
Analyze how sociodemographic characteristics such as gender, race, family structure, nationality, culture, and socioeconomic status function as critical contextual factors in marriage, family processes, and human development across the life course.

Title
Learning Outcome 3

Learning Outcome
Critically evaluate cultural assumptions, biases, and dominant-culture perspectives while also assessing potential implications for families, well-being, and social outcomes.

Title
Learning Outcome 4

Learning Outcome
Engage in reflective and empathetic theory-driven application of cross-cultural concepts and research to interpersonal, community, and professional contexts.

Title
Learning Outcome 5

Learning Outcome
Demonstrate growth as an informed, ethical, and globally minded citizen, prepared to engage thoughtfully with professional, community, and faith-based audiences in ways consistent with the mission and values of BYU

SFL 356 - Exploring Gender Development in Families

Learning Outcomes

Title
Intellectual Enlargement

Tags
182059, 1

Learning Outcome
Students will be able to: Identify the elements of child life practice in healthcare settings including a historical review of the profession and its development in the evolution of pediatric healthcare. Use developmental theory to assess the impact of illness, injury and healthcare experiences on children and families (including well siblings), to identify stressors, and to advocate for appropriate services that facilitate overall well-being. Explain key principles of patient and family centered care in relationship to child life practice. Compare both historical and current perspectives on the rationale for psychological preparation and therapeutic play as a means of supporting children through healthcare encounters and life-changing events.

Title
Lifelong Learning and Service

Tags
182317, 2

Learning Outcome
Students will be able to: Describe the ways that child life specialists provide vital services to children and families that can impact individuals in positive ways for the rest of their lives. Describe and apply the code of ethics for the child life profession including the practices of beneficence, non-beneficence, respect for persons, autonomy, justice, veracity, fidelity, confidentiality and competence. Explain the importance of maintaining professional competence and staying current on best practices for children and their loved ones, describing how both are ongoing process and obligations for this profession.

Title
Spiritually Strengthening and Character Building

Tags
182324, 3

Learning Outcome
Students will be able to: Demonstrate how being a devoted certified child life specialist requires following ethical standards which, when followed, are spiritually strengthening and build character. Explain the contents of the official documents of the Association for Child Life Professionals and Child Life Certification Commission (ACLP/CLCC) including: Child LIfe Standards of Clinical Practice, Child Life Code of Ethics and Academic Requirements for Child Life Certification. Discuss topics related to pediatric grief from death and loss.

Complete ALL of the following Courses:

- SFL 276R - Exploration of Teaching: Family and Consumer Sciences

Learning Outcomes

Title
Standard #4: Content Knowledge

Tags
182388, 3

Learning Outcome

The candidate understands the central concepts, tools of inquiry, and structures of the discipline.

Title
Standard #1: Learner Development

Tags
182389, 0

Learning Outcome

The candidate understands cognitive, linguistic, social, emotional and physical areas of student development.

Title
Standard #2: Learning Differences

Tags
182390, 1

Learning Outcome

The candidate understands individual learner differences and cultural and linguistic diversity.

Title
Standard #3: Learning Environments

Tags
182391, 2

Learning Outcome

The candidate works with learners to create environments that support individual and collaborative learning, encouraging positive social interaction, active engagement in learning, and self-motivation.

Title
Standard #5: Assessment

Tags
182392, 4

Learning Outcome

The candidate uses multiple methods of assessment to engage learners in their own growth, monitor learner progress, guide planning and instruction, and determine whether the outcomes described in content standards have been met.

Title
Standard #7: Instructional Strategies

Tags
182393, 6

Learning Outcome

The candidate uses various instructional strategies to ensure that all learners develop a deep understanding of content areas and their connections, and build skills to apply and extend knowledge in meaningful ways.

Title
Standard #8: Reflection and Continuous Growth

Tags
182394, 7

Learning Outcome

The candidate is a reflective practitioner who uses evidence to continually evaluate and adapt practice to meet the needs of each learner.

Title
Standard #9: Leadership and Collaboration

Tags
182395, 8

Learning Outcome

The candidate is a leader who engages collaboratively with learners, families, colleagues, and community members to build a shared vision and supportive professional culture focused on student growth and success

Title
Standard #10: Professional and Ethical Behavior

Tags
182396, 9

Learning Outcome

The candidate demonstrates the highest standard of legal, moral, and ethical conduct as specified in Utah State Board Rule R277-515.

Title
Standard #6: Instructional Planning

Tags
182397, 5

Learning Outcome

The candidate plans instruction to support students in meeting rigorous learning goals by drawing upon knowledge of content areas, Core Curriculum standards, instructional best practices, and the community content.

SFL 378 - Practicum in Secondary Education

- SFL 287 - Intermediate Sewing Techniques

Note
Student-supplied materials required.

Learning Outcomes

Title
Garment Fit and Alteration:

Tags
182296, 0

Learning Outcome
Evaluate and apply the four aspects of fit-balance, ease, grain, and line-to achieve a personalized fit. Adjust patterns and garment prototypes based on iterative fitting sessions.

Title
Pattern Modification for Denim Garments:

Learning Outcome
Modify and adapt commercial pants patterns to incorporate structural and stylistic elements, such as yokes, closures, pockets, and waistbands.

Title
Terminology and Industry Standards:

Learning Outcome
Accurately apply advanced garment construction terminology and follow industry-standard procedures for sewing and fitting.

Title
Advanced Sewing Techniques for Durable Garments:

Learning Outcome
Demonstrate mastery of advanced construction methods including durable seam finishes, precise topstitching, hardware or closure applications, and professional finishing techniques appropriate to the selected garment.

Title
Sustainability in Apparel Construction:

Learning Outcome
Apply sustainable practices in material selection, waste reduction, and construction planning. Evaluate the environmental impact of materials and construction techniques during production and explore alternative sourcing and reuse options.

Title
Creative Expression within Functional Design:

Learning Outcome
Integrate personalized design choices while maintaining structural integrity and functional wearability, reflecting both technical skill and creative intent.

Students Content and Theory

Tags
182403, 1

Learning Outcome

Students will gain a compassionate as well as academic understanding of the nature and experience of addiction that informs them of how persons can assist in recovery in a helping role--learning both academically and from the firsthand perspectives of individuals, couples, and families struggling with addiction and striving for recovery.

Students will be aware of clinical diagnostic criteria used by helping professionals to identify the presence of a substance or behavioral addiction or compulsion.

Students will understand the numerous dimensions and dynamics contributing to powerlessness of addiction and will understand how that knowledge informs recovery work and intervention.

Students will be able to evaluate couple/family relationships affected by addiction and each couple's/family's needs in recovery.

Students will learn a model for recovery and healing in relationship context.

Building on the entire course curriculum and experience students will be able to outline a process for individual recovery and relationship healing from addiction.

  AND SFL 290 - Critical Inquiry and Research Methods

Other Prerequisites
SFL 160 or concurrent enrollment

Learning Outcomes

Title
Content and Theory

Tags
182038, 1

Learning Outcome
Analyze and assess marital and family behavior.Describe ways of modifying marital and family systems using both educational/enrichment approaches and therapy approaches.

Title
Research and Evaluation Methodologies

Tags
182308, 1

Learning Outcome
Interview and evaluate couples and families.Use appropriately self-report measures.Observe marital and family behavior in meaningful ways.Set intervention goals based on observation and assessment.

Title
Effective Writing and Analysis

Tags
182348, 2

Learning Outcome
Write reports describing interpersonal dynamics.

SFL 476 - Secondary Student Teaching - Consumer Science

Course Information

Teaching Area (new)
SFL

Course Number
476

Teaching Area
SFL

Course Title
Secondary Student Teaching - Consumer Science

Course Description
Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

Department
Family Life

When Taught
Fall and Winter

Credit Hours

Min:
12

Fixed/Max:
12

Other Prerequisites
Prior application; requires a major GPA of 3.00, at least a C grade in all major and minor courses; FBI fingerprint background clearance.

Recommended
All core and education classes

Learning Outcomes

Title
Instructional Practice

Tags
182399, 2

Learning Outcome
Candidates utilize content knowledge, assess to inform instruction, plan instruction based upon Core Curriculum standards, and implement instructional strategies that engage students and promote content understanding.

Title
Professional Responsibility

Tags
182400, 3

Learning Outcome
Candidates continually reflect on and evaluate their teaching practices, actively seek opportunities to grow professionally, engage in ethical behavior, and collaborate with stakeholders (students, parents, and other professionals in the learning community).

Title
SFL 476R - Student Teaching- Family and Consumer Sciences

Tags
182401, 1

Learning Outcome
Upon completion of the Family and Consumer Sciences Program, teacher candidates meet the needs of secondary students through competencies related to Utah Affected Teaching Standards. Program outcomes include:
Learner and Learning:
Candidates understand how students learn and develop, recognize individual and cultural diversity, and design learning environments that create positive classroom climates.

Title
Utah Effective Teaching Standards

Tags
182402, 0, 4

Learning Outcome
Candidates will demonstrate basic competency in the Utah Effective Teaching Standards as assessed by the Performance Assessment and Evaluation System (PAES)

SFL 487 - Advanced Sewing Studies: Construction

Course Information

Teaching Area (new)
SFL

Course Number
487

Teaching Area
SFL

Course Title
Advanced Sewing Studies: Construction

Course Description
Three-dimensional fitting of apparel and advanced garment sewing and construction techniques.

Department
Family Life

When Taught
Fall; Spring.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3.5

Other Prerequisites
SFL 287 or equivalent sewing skills.

Fee
30

Note
Fee.

Learning Outcomes

Title
Garment Fit and Alteration

Tags
182311, 0

Learning Outcome
Evaluate and apply the four aspects of fit-balance, ease, grain, and line-to achieve a personalized fit. Refine apparel prototypes through iterative fitting, cultivating persistence, attention to detail, and problem-solving skills essential for professional practice and lifelong learning.

Title
Pattern Modification for Lower Body Garments

Learning Outcome
Modify and adapt commercial pants patterns to incorporate structural and stylistic elements such as yokes, closures, pockets, and waistbands. Develop technical fluency and creativity in adapting patterns to meet functional and aesthetic goals.

Title
Terminology and Industry Standards

Learning Outcome
Accurately apply advanced garment construction terminology and follow industry-standard procedures for sewing and fitting. Strengthen professional communication skills and foster integrity through adherence to high standards of workmanship.

Title
Advanced Sewing Techniques for Durable Garments

Learning Outcome
Demonstrate mastery of advanced construction methods, including durable seam finishes, precise topstitching, hardware or closure applications, and professional finishing techniques appropriate to the selected garment. Practice disciplined craftsmanship and develop confidence through sustained, high-quality execution.

Title
Sustainability in Apparel Construction

Learning Outcome
Apply sustainable practices in material selection, waste reduction, and construction planning. Evaluate environmental impact and explore alternative sourcing and reuse options, fostering wise stewardship and moral reasoning in design and production processes.

Title
Creative Expression within Functional Design

Learning Outcome
Integrate personalized design choices while maintaining structural integrity and functional wearability. Reflect both technical skill and creative intent in a way that honors individual voice and thoughtful contribution, encouraging holistic development and purpose-driven design.

SFL 488R - Home-Based Entrepreneurs

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- SFL 101 - Introduction to School of Family Life
  AND SFL 290 - Critical Inquiry and Research Methods
  AND SFL 305 - Applied Statistics & Data Management

Other Prerequisites
SFL 160 or concurrent enrollment

Learning Outcomes

Title
Outcome 1

Tags
182040, 1

Learning Outcome
Learn by study and by faith about family-related policy and legislation designed to strengthen families and children while seeking greater discipleship through growing an ethic of charity, dignity, and responsibility for children and families affected by public decisions.

Title
Outcome 2

Tags
182041, 2

Learning Outcome
Analyze policy issues through a family-systems lens while becoming a humble, self-aware thinker who can recognize tradeoffs and seek truth with integrity.

Title
Outcome 3

Tags
182042, 3

Learning Outcome
Evaluate policy and program options using the best available evidence while being quantitatively literate, ethically grounded, compassionate in judgement, respectful of families, and committed to honest interpretation.

Title
Outcome 4

Tags
182043, 4

Learning Outcome
Translate findings into clear, responsibly written and visual communication for policy audiences, growing into a trustworthy professional whose work reflects ethical judgment, respect for human dignity, charity, accountability, and a commitment to lifelong learning and service.

Title
Outcome 5

Tags
182044, 5

Learning Outcome
Engage in the policy advocacy process by communicating with policymakers while becoming a consecrated contributor-Christlike, service-oriented, accountable for impacts, and committed to learning and refinement over time.

  AND SFL 290 - Critical Inquiry and Research Methods
  AND SFL 305 - Applied Statistics & Data Management
  AND SFL 315 - Effective Writing & Presenting

Other Prerequisites
SFL 210 or concurrent enrollment

Learning Outcomes

Title
Human Development Content and Theory

Tags
182064, 1

Learning Outcome
Students will critically evaluate current research issues and theory related to the study of developmental processes.

Title
Comprehensive Skill Application

Learning Outcome
Students will apply concepts and skills from previous human development courses to examine, in-depth, several factors (e.g., culture, socioeconomic characteristics, parenting, peers, early life adversity, biological processes) believed to shape human development outcomes.

Title
Research and Evaluation Methodologies

Learning Outcome
Students will critically evaluate research methodologies and theory in human development.

Title
Effective Writing and Analysis

Learning Outcome
Students will develop numeracy, analytic, and integrative writing skills.

Title
Human Development Content and Theory

Learning Outcome
Students will apply concepts and skills from previous human development courses to examine, in-depth, several factors (e.g., culture, socioeconomic characteristics, parenting, peers, early life adversity, biological processes) believed to shape human development outcomes.

Title
Intellectually Enlarging

Learning Outcome
Student will analyze empirical data and theoretical models of human development to discern truth with intellectual rigor and moral integrity, becoming disciplined thinkers who unite study and faith.

Title
Spiritually Strengthening

Learning Outcome
Students will integrate gospel principles related to research on human development to better understand their own and others mortal journey within the Plan of Salvation.

Title
Character Building

Learning Outcome
Students will Interpret relationships among biological, psychological, and spiritual dimensions of human development to see the whole person as both embodied and eternal, becoming compassionate scholars and disciples of Christ.

Learning Outcomes:

Tags
185247, 1

Learning Outcome
1. Gain basic information regarding the current condition of children globally---their challenges and resources.
2. Learn of the global community's acknowledged and unacknowledged obligations to assist the most vulnerable of its children.
3. Become familiar with the international, regional, and national policies and efforts in place to address some of the most difficult challenges.
4. Incorporate a family-based framework into addressing the challenges faced by children, focusing on solutions which emphasize the strengthening of families as a priority.
5. Appreciate the complex nature of the interplay between economic, political, and cultural aspects of the global and national communities which produce, and must be considered in addressing, the problems and challenges that arise out of such interplay.
6. Have a hands-on service experience locally which will illuminate the challenges faced by children globally.
7. Be able to produce a term paper in which he or she will thoroughly explore one topic in depth and present a summary to the entire class.
8. Be tested on the objective knowledge of the student on the topic areas.

Learning Outcomes

Title
Develop professional goals

Learning Outcome
Identify career possibilities and professional pathways.

Title
Articulate core competencies

Learning Outcome
Connect sociology to specific career competencies, such as communication, critical thinking/information literacy, and cultural navigation.

Title
Create plan(s) to achieve professional goals

Learning Outcome
Develop course and experience plans that align with future professional goals.

Title
Fortify faith and resilience

Learning Outcome
Create a plan for strengthening faith despite challenges.

SOC 221 - Innovation, Artificial Intelligence, and Society

Course Information

Teaching Area (new)
SOC

Course Number
221

Teaching Area
SOC

Course Title
Innovation, Artificial Intelligence, and Society

Course Description
This course examines the social context of technological innovation and artificial intelligence with a focus on how AI technologies both shape and are shaped by social behavior, institutional practices, and cultural values.

Department
Sociology

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Learning Outcomes

Title
Sociological Understanding

Tags
185874, 1

Learning Outcome
Analyze the ways artificial intelligence shapes and is shaped by social structures, cultural values, and institutional power.

Title
Epistemic Awareness

Tags
185875, 2

Learning Outcome
Evaluate how AI changes the nature of work, expertise, and decision-making

Title
Experiential Learning

Tags
185876, 3

Learning Outcome
Apply sociological concepts and methods to examine a real-world cases of AI implementation (e.g., in education, healthcare, law enforcement, or social media) and assess its social implications

Title
Spiritual and Moral Development

Tags
185878, 4

Learning Outcome
Develop views about the role of AI in society that consider ethical responsibility, human flourishing, and the pursuit of knowledge consistent with the aims of a BYU education (i.e., spiritually strengthening, intellectually enlarging, and character building).

SOC 223 - Sociology of Race and Ethnicity

Course Information

Teaching Area (new)
SOC

Course Number
223

Teaching Area
SOC

Course Title
Sociology of Race and Ethnicity

Course Description
How has race shaped American society, and what does it mean to truly love our neighbor? This course, grounded in principles of the gospel, explores the historical roots and modern realities of race, ethnicity, and immigration in the United States, helping students understand how racial divisions are formed, sustained, and sometimes transformed.

Department
Sociology

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
Fulfills the GE Global and Cultural Awareness requirement.

Learning Outcomes

Title
Learn core principles about race

Learning Outcome
Students will learn core principles about race that can be applied in everyday life.

Title
Examine the causal mechanisms

Learning Outcome
Students will examine the causal mechanisms and processes whereby racial divisions are established, reproduced, and, in some cases, transformed.

Title
Race and Institutions

Learning Outcome
Students will analyze race as a system of relations and the ways it permeates social institutions.

Title
Gospel Belonging

Learning Outcome
Students will develop a path toward racial reconciliation by applying sociological principles and the Gospel doctrine of belonging.

SOC 228 - Sociology of Sport

Course Information

Teaching Area (new)
SOC

Course Number
228

Teaching Area
SOC

Course Title
Sociology of Sport

Course Description
Analysis of the sociological aspects of sport and their relationship to politics, economics, stratification, education, and family. Focus on concepts, theory, and related research.

Department
Sociology

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:

Learning Outcomes

Title
Application

Learning Outcome
Apply major sociological theories to real-world sports institutions and circumstances

Title
Effectively communicate

Learning Outcome
Effectively communicate sociological approaches to sport to lay audiences through writing, speaking, and creation of visual information formats

Title
Research literacy

Learning Outcome
Demonstrate foundational research literacy by interpreting and summarizing scholarly work on sport and critically engaging with current findings in the field

Title
Spiritual, moral, and character development

Learning Outcome
Identify components of spiritual, moral, and character development in sport settings, drawing connections between sociological understanding and gospel principles

Title
Develop interventions

Learning Outcome
Work closely with others to develop plans for change and intervention that improve the ability of sport settings to build character and serve humanity

SOC 283 - Juvenile Delinquency

Course Information

Teaching Area (new)
SOC

Course Number
283

Teaching Area
SOC

Course Title
Juvenile Delinquency

Course Description
This course is organized around three big questions: What counts as delinquency? Why do some teens get into trouble? And how can we prevent it? This course will give you the tools to think critically and compassionately about one of today's most pressing social issues.

Department
Sociology

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Explain juvenile delinquency

Learning Outcome
Explain the nature, extent, and social patterns of juvenile delinquency, including how it differs from adult offending and other forms of deviance.

Title
Apply sociological theories

Learning Outcome
Apply major sociological theories of delinquency to real-world examples and demonstrate an understanding of how family, peers, schools, and communities shape adolescent behavior.

Title
Examine causes

Learning Outcome
Examine key causes and consequences of juvenile delinquency using evidence from empirical research and theory.

Title
Demonstrate research literacy

Learning Outcome
Demonstrate foundational research literacy by interpreting and summarizing scholarly work on delinquency and critically engaging with current findings in the field.

Title
Reflection

Learning Outcome
Reflect thoughtfully on the moral and spiritual dimensions of justice, compassion, and accountability in the treatment of youth, drawing connections between sociological understanding and gospel principles.

Title
Develop character

Learning Outcome
Develop habits of character and citizenship consistent with the Aims of a BYU Education—becoming spiritually strengthened, intellectually enlarged, and better prepared for a life of learning and service in their communities.

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- SOC 300 - Methods of Research in Sociology
  AND STAT 121 - Introduction to Statistical Data Analysis

Learning Outcomes

Title
Ability to Estimate and Interpret Statistics

Tags
185777, 1

Learning Outcome

Graduates are able to estimate and interpret univariate and bivariate statistics and generalize their meaning to the appropriate population.

Title
Analyze Data and Summarize Findings

Tags
185783, 3

Learning Outcome

Graduates have the necessary skills to analyze data and summarize findings including a. basic familiarity with spreadsheet programs and statistical packages, b. the analytic process of comparing across categories, c. how to chart historical trends, and d. how to summarize findings for written or oral presentation.

Title
Know How to Code and Interpret Qualitative Data

Tags
185789, 2

Learning Outcome

Graduates know how to code and interpret qualitative data or how to code and prepare quantitative data for statistical analysis.

Title
Know and Understand the full range of Methodologies

Tags
185801, 0

Learning Outcome

Graduates know the full range of methodologies, the basic epistemological assumptions associated with each, the criteria for evaluating quality research, and how to select and implement the appropriate method to test a hypothesis or address a research question.

Course Information

Teaching Area (new)
SOC

Course Number
350

Teaching Area
SOC

Course Title
(Soc-Psych) Introduction to Social Psychology

Course Description
Conformity and obedience; socialization, norms, roles; attitudes, leadership, group processes.

Department
Sociology

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

SOC 360 - Introduction to Family Sociology

Course Information

Teaching Area (new)
SOC

Course Number
360

Teaching Area
SOC

Course Title
Introduction to Family Sociology

Course Description
Definitions of "family"; surveying the family as a context for sex, marriage, work, social reproduction, and violence in Western societies.

Department
Sociology

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:

Learning Outcomes

Title
Assessing Sociological Theories and Research

Tags
185423, 1

Learning Outcome
Be able to critically assess the strengths and weaknesses of current sociological and demographic theories and research related to family sociology.

Title
Understanding Diversity and Inequality

Tags
185424, 2

Learning Outcome
Recognize how race, class, and gender intersect with family life and be familiar with the current literature on families and inequality.

Title
Accessing, Reviewing, and Analyzing Current Literature

Tags
185425, 3

Learning Outcome
Be able to read current literature, synthesize main points across articles and develop an original thesis or argument in writing that is supported by the literature.

Title
Substantive Knowledge

Tags
185426, 4

Learning Outcome
Know the major controversies and debates, as well as demographic trends related to the family in the United States.

Title
Application to Life

Tags
185427, 5

Learning Outcome
Integrate current literature on family and determine family patterns for your personal future family.

SOC 361 - Theoretical Foundations of Marriage and Family

Course Information

Teaching Area (new)
SOC

Course Number
361

Teaching Area
SOC

Course Title
Theoretical Foundations of Marriage and Family

Course Description
Comparative analysis of basic ideas and arguments for understanding marriage and family found in social science, social and political theory, law, and other forms of cultural discourse.

Department
Sociology

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

SOC 365 - Sociology of Aging

Course Information

Teaching Area (new)
SOC

Course Number
365

Teaching Area
SOC

Course Title
Sociology of Aging

Course Description
Demographic and social factors related to aging: agencies, serving older citizens, and role of community in solving problems of aged.

Department
Sociology

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
Required for students in gerontology minor and/or certificate programs.

SOC 367 - Sociology of Gender

Course Information

Teaching Area (new)
SOC

Course Number
367

Teaching Area
SOC

Course Title
Sociology of Gender

Course Description
Gender in social institutions: family, social hierarchies, economics, education, organizations, religion, and science.

Department
Sociology

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Conversant in Theory of Gender

Tags
185897, 1

Learning Outcome

Students will become acquainted with the major theoretical perspectives both sociological theories of gender, as well as other disciplinary perspectives.
Students will be able to evaluate gender through the lens of contrasting theoretical perspectives both in writing and in class discussions.

Title
Gender: Individual, Interactions, Institutions

Tags
185898, 2

Learning Outcome

Students will recognize how gender operates at the level of the individual, in social interaction, and in social institutions.
Students will be able to discuss how gender influences individual identity, social interactions, and social institutions.
This ability will be assessed by exams (breadth) and short paper assignments (depth).

Title
Application of Gendered Perspectives

Tags
185899, 3

Learning Outcome

Students will be able to apply gendered perspectives to everyday living. This will be developed in a class project to be presented orally.
Students will be able to apply gendered perpectives to their own lives. This will be assessed in short essay assignments and in small class discussion groups.

SOC 370 - Urban Sociology

Course Information

Teaching Area (new)
SOC

Course Number
370

Teaching Area
SOC

Course Title
Urban Sociology

Course Description
Norms, social controls, and social processes in urban areas in both historical and contemporary perspectives.

Department
Sociology

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

SOC 380 - Deviant Behavior and Social Control

Course Information

Teaching Area (new)
SOC

Course Number
380

Teaching Area
SOC

Course Title
Deviant Behavior and Social Control

Course Description
Theory and research related to deviance. Specific topics include psychosis, addiction, violence, and rape, among others.

Department
Sociology

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Basic Tenets of Deviance and Social Control

Tags
212160, 0, 1

Learning Outcome
Students will develop an understanding of how rulemaking, rule violation and rule enforcement are basics tenets of all human existence. This includes an understanding of informal and formal mechanisms of social control, and a broad understanding of deviance as a social construction, influenced by power, race, class, gender, time, and location.

Title
Sociological Perspective

Tags
212161, 0, 2

Learning Outcome
Students will demonstrate their understanding of basic deviant and criminological phenomena from a sociological perspective.

Title
Application

Tags
212162, 0, 3

Learning Outcome
Students will apply their knowledge to understanding and interpreting real-world events

Title
Research and Writing

Tags
212163, 0, 4

Learning Outcome
Students will improve their ability to develop ideas through research and writing

Title
Empathy

Tags
212164, 0, 5

Learning Outcome
Develop Christ-like empathy for individuals and groups who struggle in society and are regularly deviantized and marginalized

SOC 390R - Special Topics in Contemporary Sociology

Course Information

Teaching Area (new)
SOC

Course Number
390R

Teaching Area
SOC

Course Title
Special Topics in Contemporary Sociology

Course Description
Course content varies from year to year.

Department
Sociology

When Taught
Contact Department

Credit Hours

Min:
0.5

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Instructor's consent

Learning Outcomes

Title
Social structures

Tags
185436, 1

Learning Outcome
Students will be able to recognize the ways in which social structure and issues (government, family, education, health-care institutions, the media, etc.) have affected and affect women's lives.

Title
Contributions

Tags
185437, 2

Learning Outcome
Students will begin to gain an appreciation of the contributions of women throughout history and internationally.

Title
Present

Tags
185438, 3

Learning Outcome
Students will be able to perform and present research related to women's studies in oral, written, and/or multi-media formats.

Title
Informed choices

Tags
185439, 4

Learning Outcome
Students will be able to make informed choices about their own behavior, health, education, and employment decisions based on their understanding of the role gender plays in relationships and society.

Title
Vocabulary

Tags
185440, 5

Learning Outcome
Students will be able to define and use in speech and writing the critical vocabulary basic to the field of women's studies.

SOC 399R - Academic Internship

Course Information

Teaching Area (new)
SOC

Course Number
399R

Teaching Area
SOC

Course Title
Academic Internship

Course Description
Individualized work or volunteer experience in either a research setting or some kind of field placement with an organization.

Department
Sociology

When Taught
Fall, Winter, Spring

Credit Hours

Min:
1

Fixed/Max:
6

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
0

Other Prerequisites
Consent of instructor required.

Recommended
Soc 307 and related 300-level courses

Note
An APPROVED Internship Application is required before adding.
https://link.byu.edu/INTERN01

Learning Outcomes

Title
Lifelong practice

Tags
185441, 1

Learning Outcome
Establish a lifelong practice of making connections and creating a network of people that will help the student develop professionally

Title
Professionalism

Tags
185442, 2

Learning Outcome
Develop a professional sense of the work that will help the students identify personal learning outcomes for the semester

Title
Interactive service work

Tags
185443, 3

Learning Outcome
Learn about what sociologists call "interactive service work" or jobs that require working with individuals

Title
Organizational analysis

Tags
185444, 4

Learning Outcome
Produce a professional analysis of the organization where the student works

Title
Research project

Tags
185445, 5

Learning Outcome
Complete a research project that addresses some need in the organization for which the student is working

SOC 404 - Qualitative Research Methods

Course Information

Teaching Area (new)
SOC

Course Number
404

Teaching Area
SOC

Course Title
Qualitative Research Methods

Course Description
Purposes, methods, and limitations of qualitative research. Includes participant observation and hermeneutics skills.

Department
Sociology

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- SOC 307 - Data Analysis, Presentation, and Management **AND** SOC 310 - Social Inquiry

Learning Outcomes

Title
Qualitative Research Epistemology

Tags
185446, 1

Learning Outcome
Students will be able to explain the epistemological assumptions of qualitative research methods, how to select the appropriate qualitative research method to address a research question, and the criteria for evaluating qualitative research methods.

Title
Qualitative Research Methods: Design and Data Collection

Tags
185447, 2

Learning Outcome
Students will be able to design and conduct an in-depth interview study, an oral history interview study, a focus group study, an ethnography, a qualitative content analysis study, a qualitative case study, and a mixed-method study.

Title
Qualitative Research Methods: Analysis

Tags
185448, 3

Learning Outcome
Students will be able to code and interpret qualitative data. (This may include the use of qualitative data analysis software.)

Title
Writing and Representation of Qualitative Research

Tags
185449, 4

Learning Outcome
Students will be able to write a qualitative methods and findings section, as for a qualitative research article.

Title
Educational and Career Planning

Tags
185450, 5

Learning Outcome
Students will be able to connect what they are learning in the sociology program and/or classes with educational and career options.

SOC 405 - Multiple Regression Analysis and Social Science Computing

Course Information

Teaching Area (new)
SOC

Course Number
405

Teaching Area
SOC

Course Title
Multiple Regression Analysis and Social Science Computing

Course Description
Data analysis and computer use in sociology; least squares and logistic regression techniques; SPSS and its use in conducting data analysis. Research report required.

Department
Sociology

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Soc 404 or 405 or concurrent enrollment

Learning Outcomes

Title
Empathy

Tags
185452, 1

Learning Outcome
Develop Christ-like empathy for individuals and groups who struggle in society and find ways to extend compassion

Title
Inequality literature

Tags
185453, 2

Learning Outcome
know the origins and developments of inequality literature; understand origins of inequality and contemporary arguments grounded in qualitative and quantitative evidence; understand limitations of data collection

Title
Nature vs. nurture

Tags
185454, 3

Learning Outcome
Be conversant in the nature vs. nurture argument using the history of the IQ test to outline the development of dognitive skill debate.

SOC 423 - Sociology of Immigration

Course Information

Teaching Area (new)
SOC

Course Number
423

Teaching Area
SOC

Course Title
Sociology of Immigration

Course Description
How international migration has shaped social relations at the sub-national, national, and international levels. Examination of causes and effects of international migration from macro-, meso-, and micro-level perspectives to better understand the impacts and experience of international migration on those who leave, those who receive, and those who stay behind. Issues include citizenship, membership, and belonging.

Note
Fulfills GE Advanced Writing and Oral Communication credit if both Soc 455R and Soc 456R are completed.

Learning Outcomes

Title
Literature Review and Theoretical Integration

Tags
185900, 1

Learning Outcome
Students will be able to create a literature review that demonstrates their ability to critically evaluate existing research as well as how to apply sociological concepts to data analysis.

Title
Integrating life goals and professional and career interests

Tags
185901, 2

Learning Outcome
Students will be able to Integrate the knowledge and skills learned in the sociology program with their career interests by translating their skills into a resume.

Title
Original Research

Learning Outcome
Develop an original research product that can be submitted as a writing sample to graduate schools, or to employers based on their educational and career goals.

SOC 456R - Senior Experience Part 2

5

Lab Hours

Fixed:
2

Note
Native Spanish speakers and Spanish-speaking returned missionaries CANNOT take this class. Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Understand common basic cultural practices and products

Tags
199177, 4

Learning Outcome
Understand common basic cultural practices and products related to greetings and family life in some Spanish-speaking countries.

Title
Respond in written Spanish

Tags
199186, 3

Learning Outcome
Respond in written Spanish at the same level as indicated in outcomes related to speaking.

Title
Respond in Spanish to simple questions

Tags
199578, 0

Learning Outcome

Respond in Spanish to simple questions on the most common features of daily life

Title
Satisfy limited number of needs

Tags
199579, 2

Learning Outcome

Satisfy a very limited number of immediate needs through the use of spoken Spanish.

Title
Convey minimal meaning to interlocutors

Tags
199580, 1

Learning Outcome

Convey minimal meaning to interlocutors experienced with dealing with foreigners by using isolated words, lists of words, memorized phrases and some personalized recombinations of words and phrases.

Learning Outcomes

Title
Understand common basic cultural practices and products

Tags
199150, 6

Learning Outcome
Understand common basic cultural practices and products related to travel in some Spanish-speaking countries.

Title
Respond in written Spanish

Tags
199205, 5

Learning Outcome
Respond in written Spanish at the same level as indicated in preceding objectives related to spoken Spanish.

Title
Using Spanish, participate in simple, direct conversations

Tags
199581, 0

Learning Outcome

Using Spanish, participate in simple, direct conversations on generally predictable topics related to daily activities and personal environment.

Title
Create with the language and communicate personal meaning

Tags
199582, 1

Learning Outcome
Create with the language and communicate personal meaning to sympathetic interlocutors by combining language elements in discrete sentences and strings of sentences.

Title
Obtain and give information

Tags
199583, 2

Learning Outcome
Obtain and give information by asking and answering questions.

Title
Sustain basic communicative exchanges

Tags
199584, 3

Learning Outcome
Sustain and bring to a close a number of basic, uncomplicated communicative exchanges, mostly in a reactive mode.

Title
Satisfy simple personal needs using spoken Spanish

Tags
199585, 4

Learning Outcome
Satisfy simple personal needs and social demands to survive in the target language culture.

211738, 0, 2

Learning Outcome
Read and interpret authentic documents and informative texts related to business professions.

Title
Compose written documents

Tags
211739, 0, 3

Learning Outcome
Compose written documents related to the field of business, such as correspondence, reports, or case studies, incorporating protocols and a level of accuracy appropriate for a professional audience.

Title
Apply writing strategies and processes

Tags
211740, 0, 4

Learning Outcome
Develop and improve writing through multiple drafts by planning, revising, editing, and incorporating feedback.

Title
Demonstrate intercultural awareness

Tags
211741, 0, 5

Learning Outcome
Demonstrate awareness of cultural issues involved in working with Spanish speakers, such as their economic and political realities, social and professional practices, and cultural beliefs and values.

Title
Apply professional skills

Tags
211742, 0, 6

Learning Outcome
Demonstrate practical application of professional skills by researching job opportunities, observing, or volunteering in the field of health care.

Other Prerequisites
Spanish teaching major or minor status.

Note
Enrollment limited to Spanish teaching majors and minors.

Learning Outcomes

Title
Differentiate among contexts

Tags
207059, 1

Learning Outcome
Explain distinguishing features that characterize various periods, representative authors, schools, movements, ideological trends, and the historical contexts of Spanish literature.

Title
Interpret texts

Tags
207060, 2

Learning Outcome
Formulate critical interpretations of literary texts that take into account their socio-historical and aesthetic contexts.

Title
Identify embedded cultural elements

Tags
207061, 3

Learning Outcome
Identify, explain, and critically interpret cultural elements and allusions embedded in literary works that are unique to Hispanic cultures.

Title
Prepare a unit plan

Tags
207062, 4

Learning Outcome
Prepare a pedagogically sound unit of instruction for a secondary-level Spanish course based on a literary work from the AP Reading List, demonstrating competence in library research skills and the appropriate use of secondary sources.

Learning Outcomes

Title
Advocate for the benefits of language learning

Tags
199606, 1

Learning Outcome
Advocate for the benefits of developing proficiency in a world language to students, parents, and colleagues.

Title
Implement standards- and proficiency-based lesson planning

Tags
199607, 3

Learning Outcome
Use a textbook (and/or relevant state and local curriculum documents) to plan effective language lessons that help K-12 students meet each of the World-Readiness Standards for Learning Languages and promote language proficiency as outlined in the ACTFL Proficiency Guidelines.

Title
Apply strategies for teaching in the target language

Tags
199608, 5

Learning Outcome
Apply effective strategies for conducting class in the target language, including techniques for making input comprehensible, providing instruction to beginning learners, and managing classroom activities and student behavior.

Title
Teach interpersonal and presentational speaking skills

Tags
199609, 6

Learning Outcome
Develop well-scaffolded instructional activities for supporting the growth of K-12 students' oral proficiency in the interpersonal and presentational modes.

Title
Apply contextualized approaches for teaching grammar and vocabulary

Tags
199610, 7

Learning Outcome
Apply contextualized approaches to teaching grammar and vocabulary that support K-12 students in noticing, inducing, and appropriating language patterns and structures for achieving their own communicative goals.

Title
Promote development of intercultural competence

Tags
199611, 8

Learning Outcome
Contextualize language learning experiences in cultural products, practices, and perspectives using interactive techniques for developing interculturality.

Title
Develop skills in general educational technologies

Tags
199612, 4

Learning Outcome
Locate, evaluate, and integrate high quality information, culturally authentic materials, instructional resources, and media sources into language lessons in ways that avoid biased portrayals of diverse identities and reflect current ethical, legal, and professional standards of use regarding copyrighted materials, creative commons media, and social media.

Title
Discuss historical and theoretical trends in language teaching

Tags
199613, 2

Learning Outcome
Discuss major historical trends and theories of second language acquisition in world language teaching.

SPAN 378 - Spanish Teaching Methods 2

Prerequisites

Complete ALL of the following Courses:

- SPAN 377 - Spanish Teaching Methods 1

Other Prerequisites
Either (a) be accepted to the Spanish Teaching B.A. program, or (b) have declared a minor in Spanish Teaching, with a teaching major in another subject area.

Learning Outcomes

Title
Plan instructional units using innovative approaches

Tags
199614, 1

Learning Outcome

Plan effective instructional units using innovative approaches such as theme-based or project-based language learning that help K-12 students develop language proficiency and interculturality.

Title
Teach interpretive reading and listening skills

Tags
199615, 2

Learning Outcome

Develop well-scaffolded instructional activities for supporting the growth of K-12 students' proficiency in interpretive reading and listening.

Title
Teach presentational writing skills

Tags
199616, 3

Learning Outcome

Develop activities for supporting students throughout the writing process and helping them attend to issues such as the purpose for writing and the intended audience.

Title
Assess language and culture learning

Tags
199617, 4

Learning Outcome

Develop and adapt assessments, including tests as well as rubrics, checklists, and other alternative forms of assessment, to assess student performance and select appropriate strategies for error correction and feedback to improve performance.

Title
Integrate technology to support student learning

Tags
199618, 5

Learning Outcome

Integrate current technologies appropriate to language education to support student learning, develop language proficiency and cultural competence, improve professional productivity, and facilitate professional growth, making accommodations for differential access to technology.

Title
Adapt instruction for diverse learners

Tags
199619, 6

Learning Outcome

Plan for adapting instruction and appropriately integrating technology to meet the individual learning needs of all students (including students with disabilities, culturally diverse learners, heritage speakers, native speakers, and gifted students) in the mainstream language classroom.

Title
Compare and contrast program models

Tags
199620, 7

Learning Outcome

Compare and contrast the features of various language program models that are used in different settings for different purposes, student populations, and age groups.

Title
Become a professionally-engaged world language educator

Tags
199621, 8

Learning Outcome

Participate professionally in the school community, in professional organizations and professional development activities, and engage in professional dialogue and reflection with colleagues to improve personal teaching skills and world language programs.

Spanish Writing

Tags
198967, 0, 4

Learning Outcome
Demonstrate competence in writing short essays in Spanish that conform to the "advanced" level as described in the ACTFL proficiency guidelines.

SPAN 423 - Spanish in Motion: Variation and Change in the Spanish-Speaking world

Course Information

Teaching Area (new)
SPAN

Course Number
423

Teaching Area
SPAN

Course Title
Spanish in Motion: Variation and Change in the Spanish-Speaking world

Course Description
The linguistic study of Spanish as it varies regionally, socially, and situationally (language variation) and how/why Spanish is changing through time (language change).

Department
Spanish and Portuguese

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:
- SPAN 325 - Introduction to Hispanic Linguistics

OR

Prerequisites

Complete ALL of the following Courses:
- SPAN 326 - Spanish Phonetics and Pronunciation

OR

Complete ALL of the following Courses:
- LING 201 - Introduction to Linguistics (Modern)

Note
Previous course in linguistics strongly recommended.

Learning Outcomes

Title
Observe dialectal variation

Tags
199168, 1

Learning Outcome
Observe dialectal variation in authentic social contexts to become linguists who recognize and honor the cultural depth and human dignity embedded in language diversity.

Title
Analyze linguistic data

Tags
199222, 2

Learning Outcome
Analyze linguistic data with ethical sensitivity to become scholars who engage communities respectfully and interpret variation with intellectual rigor and compassionate insight.

Title
Interpret sociolinguistic patterns

Tags
199233, 0

Learning Outcome
Interpret sociolinguistic patterns through theoretical and cultural lenses to become critical thinkers who understand the role of language in shaping identity, power, and belonging.

Title
Apply dialectological insights

Learning Outcome
Apply dialectological insights to real-world challenges to become advocates for linguistic equity, educational access, and cultural preservation.

Title
Reflect on the spiritual and social dimensions of language

Learning Outcome
Reflect on the spiritual and social dimensions of language to become disciple-scholars who use their understanding to build bridges, foster inclusion, and serve with humility and purpose.

SPAN 425 - Contrastive Analysis of the Structures of Spanish and English

Course Information

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- SPAN 325 - Introduction to Hispanic Linguistics

OR

Prerequisites

Complete ALL of the following Courses:

- SPAN 326 - Spanish Phonetics and Pronunciation

Learning Outcomes

Title
Solving Linguistic Problems

Tags
198987, 3

Learning Outcome
Be able to solve linguistic problems in the teaching and learning of a second language.

Title
Assumptions in Modern Linguistics

Tags
199199, 4

Learning Outcome
Learn what the assumptions of modern linguistics are (e.g., natural language is based on the use of signs; language is a social phenomenon; oral language takes precedence over written language; linguistics is descriptive, not prescriptive; variation is intrinsic to language; language is highly structured; there are linguistic universals; etc.)

Title
Basic Principles of Linguistics

Tags
199703, 1

Learning Outcome
Students will learn the basic principles of the major fields of linguistics; i.e., phonetics, phonology, morphology, semantics, syntax, pragmatics, and sociolinguisitics.

Title
Contrasting English and Spanish

Tags
199704, 2

Learning Outcome
Students will be able to explain the chief differences and similarities between the linguistic structures of the English and Spanish languages.

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- SPAN 330 - Introduction to Hispanic Literature

Learning Outcomes

Title
Historical and Literary Context

Tags
198968, 2

Learning Outcome
Students will be able to analyze the texts studied in terms of the historical, cultural, and literary context of the Early Modern world.

Title
Genre

Tags
198969, 3

Learning Outcome
Students will be able to describe, analyze and discuss one or more of the genres of Early Modern Spanish literature and the conventions connected with the genre(s).

Title
Authors

Tags
199216, 0

Learning Outcome
Students will be able to demonstrate knowledge about one or more authors from the 16th and/or 17th centuries.

Title
Life-long reading

Tags
199225, 4

Learning Outcome
Students will develop the skills necessary to appreciate and enjoy reading Early Modern Spanish texts.

Title
Research and Writing

Tags
199240, 3

Learning Outcome
Students will strengthen their research and writing skills by producing essays about, editions of, and/or translations of 16th and 17th-century Spanish texts.

SPAN 444 - Don Quijote.

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- SPAN 330 - Introduction to Hispanic Literature

Learning Outcomes

Title
Reading the text

Tags
198970, 1

Learning Outcome
Students will read Don Quijote de la Mancha in its original version, taking into account plot and character development, symbolism, cultural and literary context, literary antecedents, and subsequent influence.

Title
Theory and Interpretation

Tags
198971, 2

Learning Outcome
Students will comment on different strategies for reading, writing and translating (using critical vocabulary) as discussed in the Quijote, and will explain the different critical stances, including the "hard" perspective and the "soft" perspective.

Title
Realism, Metafiction

Tags
198972, 4

Learning Outcome
Students willanswer the question of whether el Quijote really is the first modern novel as many claim it to be. Students will identify and analyze episodes in the novel that display realism and metafiction, and will recognize the impact the Quijote has had on the development of these modes in the subsequent development of the western novel.

Title
Genre

Tags
199158, 3

Learning Outcome
Students will trace the stylistic innovations introduced by Cervantes in the Quijote, and its intersections with other genres (e.g. theater, poetry).

Prerequisites

Complete ALL of the following Courses:

- SPAN 330 - Introduction to Hispanic Literature

Learning Outcomes

Title
Aesthetic Constructs, Genres, and Context

Tags
198977, 1

Learning Outcome
Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.

Title
Literary Study Skills

Tags
198978, 3

Learning Outcome
Develop the habits and skills for Spanish literary study that inspire continued learning.

Title
Literary Analysis

Tags
198979, 4

Learning Outcome
Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to special topics in Spanish-American Literature.

Title
Research

Tags
199166, 2

Learning Outcome
Write essays in Spanish, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.

SPAN 465 - Spanish for Medical Interpretation

Course Information

Teaching Area (new)
SPAN

Course Number
465

Teaching Area
SPAN

Course Title
Spanish for Medical Interpretation

Course Description
Teaching of English and Spanish medical vocabulary by body systems and associated medical specialties, ethics and standards of practice professional medical interpreters, and different modes of translation and interpretation.

Department
Spanish and Portuguese

When Taught
Fall; Winter.

Credit Hours

Min:
3

Complete ALL of the following Courses:

- SPAN 321 - Third-Year Spanish Reading, Grammar, and Culture
  AND SPAN 323A - Spanish for Medical Professions

Recommended
Rating of Advanced Mid or better on the ACTFL Oral Proficiency Interview (OPI).

Learning Outcomes

Title
Apply medical terminology

Tags
207037, 1

Learning Outcome
Learn and use medical terminology by body system and medical specialty in English and Spanish in simulated/real healthcare interpreting settings.

Title
Describe the health care profession

Tags
207038, 2

Learning Outcome
Identify and describe the basics of the profession of healthcare interpretation.

Title
Discuss responsibilities of interpreters

Tags
207039, 3

Learning Outcome
Discuss the functions and responsibilities of healthcare interpreters and explain the different modes of interpretation (consecutive, simultaneous and sight translation, interpretation by telephone or video).

Title
Discuss laws and standards

Tags
207040, 4

Learning Outcome
Discuss the laws, standards and regulations relevant to the profession, as well as ethical aspects, principles and standards of profession interpreter practice.

Title
Apply interpretation skills

Tags
207041, 5

Lab Hours

Fixed:
0

Other Prerequisites
Completion of all course work or departmental approval; requires a major GPA of 2.85; at least a C- in Span 377, 378, and 380

Learning Outcomes

Title
Integrate learning into teaching

Tags
198988, 1

Learning Outcome
Critically integrate professional readings, coursework, and teaching experiences into a repertoire of options for professional thought and action

Title
Improve language, culture, and teaching skills

Tags
198989, 2

Learning Outcome
Improve your Spanish language proficiency, your cultural understanding, and your ability to help students see patterns in the language.

Title
Create appropriate learning experiences

Tags
198990, 3

Learning Outcome
Craft standards-based, developmentally and contextually appropriate, meaningful learning experiences in Spanish that support the growth of students' language proficiency

Title
Engage students in culture learning

Tags
198991, 4

Learning Outcome
Contextualize language learning experiences in cultural products, practices, and perspectives and use various techniques for engaging students in critical thinking and problem-solving regarding culture

Title
Utilize communicative techniques and technologies

Tags
198992, 5

Learning Outcome
Utilize a variety of communication techniques and emerging technologies to foster active inquiry and collaboration in the classroom, to develop language proficiency and cultural competence, to foster students' intrinsic motivation, and to support your own professional productivity and growth

Title
Assess student learning

Tags
198993, 6

Learning Outcome
Develop and adapt a variety of traditional and alternative assessments (including performance-based assessments, portfolios, projects, and self-assessments) to inform instruction, to evaluate students' proficiency across all three modes of communication, to provide feedback that will improve student performance, and to report student progress

Title
Engage in professional development and reflection

Tags
198994, 7

Learning Outcome
Participate professionally in the school community, in professional organizations and professional development activities, and engage in professional dialogue and reflection with colleagues and community agencies to support students, improve your teaching, and strengthen your program

Title
Adapt instruction for diverse learners

Tags
198995, 8

Learning Outcome
Adapt learning experiences appropriately to better meet the needs of culturally diverse learners, including students with a variety of learning styles and special needs

0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- SPAN 325 - Introduction to Hispanic Linguistics

OR

Prerequisites

Complete ALL of the following Courses:

- SPAN 326 - Spanish Phonetics and Pronunciation

Learning Outcomes

Title
Grammar Rules and Problems

Tags
198981, 1

Learning Outcome
The student enrolled in Problems in Spanish Grammar will carefully examine and formulate more accurate and complete rules for several recalcitrant grammar "problems" by reading and studying selections from grammarians and researchers who provide insights into the problem in question. The student's ability to synthesize coherent and meaningful generalizations will be objectively tested by exams and further evaluated while he or she participates in classroom discussion.

Title
Research Paper

Tags
198982, 3

Learning Outcome
Complete a research paper/presentation on a particular grammar point or construction. This assignment will test a student's ability to locate appropriate refereed sources, read and synthesize them and prepare a written document and oral presentation according to a recognized style manual.

Title
Descriptive and Prescriptive Grammars

Tags
199192, 2

Learning Outcome
The student enrolled in Problems in Spanish Grammar will acquire a greater understanding of both descriptive and prescriptive grammars and their function and limitations. The student will also acquire specialized terms employed by grammarians and morphosyntacticians. The student’s ability to understand and use these terms appropriately will also be objectively measured by examination.

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- SPAN 325 - Introduction to Hispanic Linguistics

OR

Prerequisites

Complete ALL of the following Courses:

- SPAN 326 - Spanish Phonetics and Pronunciation

Learning Outcomes

Title
Historical Context

Tags
199004, 1

Learning Outcome
Situate Latin and the Romance Languages in their "external" (i.e. political and literary) historical context.

Title
Phonological Evolution

Tags
199005, 2

Learning Outcome
Recognize the "laws" of regular phonological evolution (e.g. syncope, lenition, diphthongization, etc.).

Title
Lexical Differences and Etymology

Tags
199006, 4

Learning Outcome
Summarize the major lexical differences across Romance languages and some of the basic principles of etymology.

Title
Summarize Research

Tags
199007, 5

Learning Outcome
Become familiar with articles published in professional journals relating to the subject matter and produce accurate and meaningful written summaries and reactions to them.

Title
Transcription

Tags
199008, 6

Learning Outcome
Learn the rudiments of transcribing medieval or Renaissance manuscripts.

Title
Language Comparison

Tags
199153, 3

Learning Outcome
Compare the “major” (i.e. literary) Romance languages as far as their phonological development is concerned.

Complete ALL of the following Courses:

- SPAN 326 - Spanish Phonetics and Pronunciation

Learning Outcomes

Title
Nominal and Verbal Systems

Tags
199144, 1

Learning Outcome
Acquire a basic knowledge of the changes undergone by the nominal and verbal systems of Latin and Castilian (e.g. the demise of the case system, the development of new verbal tenses, etc.).

Title
Theory

Tags
199169, 6

Learning Outcome
Understand the different theories that claim to understand the relation between Latin and the Romance languages, especially the relation between Latin and Castilian.

Title
Scholarly Articles

Tags
199174, 2

Learning Outcome
Demonstrate the ability to summarize and discuss in a clear and concise manner several scholarly articles on the topic of the history of the Spanish language.

Title
Political and Literary Contexts

Tags
199181, 3

Learning Outcome
Situate Latin and Castilian in their political and literary historical contexts.

Title
Phonological Development

Tags
199232, 4

Learning Outcome
Recognize the laws of regular phonological development (e.g. syncope, lenition, diphthongization, etc.).

Title
Lexicon Sources

Tags
199236, 5

Learning Outcome
Identify the sources of the Castilian lexicon.

Title
Linguistic Standardization

Tags
199242, 7

Learning Outcome
Understand the process of linguistic standardization in Romance and its implications for the linguistic map of the Iberian Peninsula.

Note
Teacher may waive prerequisite based on prior experience. Culminating course for GE Languages of Learning requirement. Not an entry course for returned missionaries.

Learning Outcomes

Title
Communication Skills

Tags
197186, 1

Learning Outcome
In both written and spoken target language, communicate with reasonable accuracy about real-world activities with well-educated members of the target-culture accustomed to dealing with non-native speakers.

Title
Comprehension

Tags
197187, 2

Learning Outcome
Understand every-day written and verbal instructions. Comprehend concrete details and global meaning of intermediate-level written and spoken passages related to familiar topics that native speakers encounter routinely in their daily life.

Title
Cultural Knowledge

Tags
197188, 3

Learning Outcome
Discuss in the target language cultural practices related to every-day life in the target culture. Acquire basic background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.).

Title
General Education Requirements

Tags
197189, 4

Learning Outcome
Complete Languages of Learning and Global & Cultural Awareness for General Education.

Course Title
Intercollegiate Athletics: Men's Baseball

Course Description
Competence and technique in baseball through practice and competition for the University Intercollegiate Athletics team.

Department
Student Life

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
2

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
14

Note
Course for men's baseball team only.

Learning Outcomes

Tags
214445, 0, 1, 2023-08-29 12:38:28

Learning Outcome
Students will be able to improve baseball techniques and competence.

Course for women's golf team only.

STAC 199R - Athletic Administration Internship

Course Information

Teaching Area (new)
STAC

Course Number
199R

Teaching Area
STAC

Course Title
Athletic Administration Internship

Course Description
Development of professional skills in athletics administration: Logistics, event planning, marketing, social media.

Department
Student Life

When Taught
Fall and Winter

Credit Hours

Min:
0.5

Fixed/Max:
3

Note
An APPROVED Internship Application is required before adding.

Learning Outcomes

Title
Team/Program management

Tags
214456, 0, 1, 2023-08-29 12:39:25

Learning Outcome
Demonstrate organization, competency and reliability as an asset to the management of the athletic team or program.

STAC 201R - Extramural Rugby

Course Information

Teaching Area (new)
STAC

Course Number
201R

Teaching Area
STAC

Course Title
Extramural Rugby

Course Description
Competence and technique in rugby through practice and competition for the University Extramural Athletics team.

Department
Student Life

When Taught
All Semesters/Terms

Credit Hours

Min:
0

Fixed/Max:
2

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
14

Note
Course for extramural rugby team only.

Learning Outcomes

Title
Skills

Tags
206437, 1

Learning Outcome
Demonstrate competence and proper technique in skills of the sport through practice and competition for the University extramural team.

Title
Rules and strategies

Tags
206438, 2

Learning Outcome
Demonstrate proficiency with the rules, strategies and scoring in the sport through game preparation and execution in competition.

Title
Physical fitness

Tags
206439, 3

Learning Outcome
Demonstrate improvement in sport skills and physical fitness.

STAC 201R - Extramural Soccer

Course Information

Teaching Area (new)
STAC

Course Number
201R

6

Lab Hours

Fixed:
14

Note
Course for extramural racquetball team only.

Learning Outcomes

Title
Skills

Tags
206434, 1

Learning Outcome
Demonstrate competence and proper technique in skills of the sport through practice and competition for the University extramural team.

Title
Rules and strategies

Tags
206435, 2

Learning Outcome
Demonstrate proficiency with the rules, strategies and scoring in the sport through game preparation and execution in competition.

Title
Physical fitness

Tags
206436, 3

Learning Outcome
Demonstrate improvement in sport skills and physical fitness.

STAC 201R - Extramural Lacrosse

Course Information

Teaching Area (new)
STAC

Course Number
201R

Teaching Area
STAC

Course Title
Extramural Lacrosse

Course Description
Competence and technique in lacrosse through practice and competition for the University Extramural Athletics team.

Department
Student Life

When Taught
All Semesters/Terms

Credit Hours

Min:
0

Fixed/Max:
2

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
14

Note
Course for extramural lacrosse team only.

Learning Outcomes

Title
Skills

Tags
206431, 1

Learning Outcome
Demonstrate competence and proper technique in skills of the sport through practice and competition for the University extramural team.

Title
Rules and strategies

Tags
206432, 2

Learning Outcome
Demonstrate proficiency with the rules, strategies and scoring in the sport through game preparation and execution in competition.

Title
Physical fitness

Tags
206433, 3

Learning Outcome
Demonstrate improvement in sport skills and physical fitness.

STAT 105 - Introduction to Statistics

Course Information

Teaching Area (new)
STAT

Course Number
105

Teaching Area
STAT

Course Title
Introduction to Statistics

Course Description
Fundamental ideas and applications of statistics.

Department
Statistics

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
MATH 97 or equivalent.

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
The Value of Statistics

Tags
205529, 1

Learning Outcome
Understand and appreciate the value of statistics as a discipline and its relevance for general education

Title
Observational Studies and Simple Experiments

Tags
205576, 2

Learning Outcome
Evaluate the validity of research findings from observational studies and simple experiments by asking appropriate questions regarding data collection and analysis

Title
Observational Studies and Experiments

Tags
205600, 4

Learning Outcome
Distinguish between observational studies and experiments in terms of how data is collected and what appropriate conclusions to make

Title
Potential Associations

Tags
205637, 5

Learning Outcome
Determine potential associations between two categorical and between two quantitative variables

Title
Graphical Methods and Numerical Summaries

Tags
205654, 3

Learning Outcome
Analyze data using appropriate graphical methods and numerical summaries

Title
Estimation and Hypothesis Tests

Tags
205696, 6

Learning Outcome
Interpret and communicate the outcomes of estimation and hypothesis tests in the context of a problem

STAT 121 - Introduction to Statistical Data Analysis

Course Information

Teaching Area (new)
STAT

Course Number
121

Teaching Area
STAT

Course Title
Introduction to Statistical Data Analysis

Course Description
Graphical displays and numerical summaries, data collection methods, probability, sampling distributions, confidence intervals and hypothesis testing involving one or two means and proportions, contingency tables, correlation and simple linear regression.

Department
Statistics

When Taught
Fall, Winter, and Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
1

Recommended
MATH 110 or equivalent

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at https://is.byu.edu/catalog/.

Learning Outcomes

Title
Research Design

Tags
214623, 0, 1

Learning Outcome
Identify the population and parameters of interest in a research study, and explain their relevance to the research question.

Title
Data Collection

Tags
214624, 0, 2

Learning Outcome
Evaluate the validity of data collection methods used in observational studies and experiments.

Title
Data Visualization

Tags
214625, 0, 3

Learning Outcome
Create effective and appropriate visual and numerical summaries of datasets.

Title
Modeling and Analysis

Tags
214626, 0, 4

Learning Outcome
Carry out the following analyses and interpret the results in the context of the research study: 1) Hypothesis testing and confidence intervals for a single mean, a single proportion, the difference between two means, and the difference between two proportions; 2) ANOVA for comparing multiple means; 3) Chi-square test of independence; 4) Simple and multiple linear regression.

Title
Computing

Learning Outcome
Use basic statistical computer applications to carry out each of the above analyses.

STAT 124 - SAS Base Programming Skills

Course Information

Teaching Area (new)
STAT

Course Number
124

Teaching Area
STAT

Course Title
SAS Base Programming Skills

Course Description
Base SAS programming skills, introductory statistical analysis and graphics, simulation of introductory statistical concepts.

Department
Statistics

When Taught
Spring Term

Credit Hours

Min:
1.5

Fixed/Max:
1.5

Lecture Hours

Fixed:
1.5

Lab Hours

Fixed:
1.5

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- STAT 121 - Introduction to Statistical Data Analysis

OR

Prerequisites

Complete ALL of the following Courses:

- STAT 201 - Statistics for Engineers and Scientists

Learning Outcomes

Title
Import and export raw data files

Tags
205750, 1

Learning Outcome
Import and export raw data files (e.g. text, excel, csv, etc.). This includes different variable types (e.g. numeric, character, date, time, currency, etc.)

Title
Manipulate and transform data

Tags
205751, 2

Learning Outcome
Manipulate and transform data

Title
Create and combine SAS data sets

Tags
205752, 3

Learning Outcome
Create and combine SAS data sets

Title
Create reports

Tags
205753, 4

Learning Outcome
Create basic detail and summary reports using ODS and SAS procedures

Title
Debugging SAS code

Tags
205754, 5

Learning Outcome
Identify and correct data, syntax, and programming logic errors

Title
Use SAS statements and procedures

Tags
205885, 6

Learning Outcome
Use SAS statements and procedures to:

Compute numerical statistics used in introductory statistics
Create simple graphs and charts used in introductory statistics

STAT 130 - Introduction to the Department of Statistics

Course Information

Teaching Area (new)
STAT

Course Number
130

Teaching Area
STAT

Course Title
Introduction to the Department of Statistics

Course Description
A review of the different major/emphasis options, class planning, and information on department resources.

Department
Statistics

When Taught
Fall Term 1; Fall Term 2; Winter Term 1; Winter Term 2.

Credit Hours

Min:
0.5

Fixed/Max:
0.5

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

Other Prerequisites
This class must be taken before or concurrently with Stat 123, Stat 230, Stat 240.

Recommended
Stat 121

Note
This class should be taken the first semester as a freshman or the first semester after declaring as a statistics or actuarial science major.

Learning Outcomes

Title
Understanding Major/Emphasis Options

Learning Outcome
Students will be able to identify and compare the different major and emphasis options available within the department, understanding the unique focus and career opportunities each offers.

Title
Develop Effective Class Planning Skills

Learning Outcome
Students will learn how to create a comprehensive graduation plan that aligns with their academic and career goals, including selecting appropriate courses and managing their academic schedule.

Title
Utilize Department Resources

Learning Outcome
Students will gain knowledge about the various resources provided by the department, such as advising services, academic support, and extracurricular opportunities, and learn how to effectively utilize them to enhance their educational experience.

Title
Internships and Research

Learning Outcome
Students will know how to search and obtain academic internships, department employment, and research opportunities.

Title
Integrate Department Resources in Academic Planning

Learning Outcome
Students will demonstrate the ability to incorporate department resources into their academic planning process, ensuring they are fully supported throughout their academic journey and are making informed decisions.

Title
Develop a Tailored Resume

Learning Outcome
Students will create a tailored resume that effectively communicates their proficiency in statistical analysis, software, and programming skills to potential employers.

STAT 199R - Academic Internship

Course Information

Teaching Area (new)
STAT

Course Number
199R

Teaching Area
STAT

Course Title
Academic Internship

Course Description
Work experience evaluated by supervisor and posted on student's transcript.

Department
Statistics

When Taught
Contact Department

Credit Hours

Min:
0.5

Fixed/Max:
3

Other Prerequisites
Department chair's and internship coordinator's consent

Note
An APPROVED Internship Application is required before adding.

Learning Outcomes

Title
Work Ethics

Tags
205559, 2

Learning Outcome
Demonstrate good work ethics

Title
Appropriate Dress and Etiquette

Tags
205599, 1

Learning Outcome
Practice appropriate dress and etiquette in varied business settings

Title
Written and Oral Communication

Tags
205670, 3

Learning Outcome
Demonstrate effective written and oral communication skills as they report on their internship

STAT 201 - Statistics for Engineers and Scientists

Course Information

Teaching Area (new)
STAT

Course Number
201

Teaching Area
STAT

Course Title
Statistics for Engineers and Scientists

Course Description
Explores statistics through observational studies, experiments, probability, inference, and data analysis. Emphasizes variability, modeling, and software tools to solve scientific and engineering problems, and support evidence-based decision making.

Department
Statistics

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ANY of the following Courses:

- MATH 112 - Calculus 1
  OR MATH 113 - Calculus 2

Recommended
Prior Python programming experience

Learning Outcomes

Title
Understand and apply foundational statistical principles

Tags
205522, 8

Learning Outcome
Explain and implement core concepts of descriptive statistics, probability, sampling distributions, and statistical inference, including confidence intervals, hypothesis testing, and basic linear models.

Title
Design and critique data collection strategies

Tags
205525, 11

Learning Outcome
Distinguish appropriate principles of experimental design and sampling methods, evaluate bias, and distinguish between observational and experimental studies.

Title
Model and analyze data using computational tools

Tags
205528, 2

Learning Outcome
Use statistical software to summarize, visualize, and analyze data using appropriate models for both discrete and continuous random variables.

Title
Draw valid conclusions and communicate results clearly

Tags
205638, 6

Learning Outcome
Interpret results of statistical analyses, assess practical significance, and effectively communicate findings.

Title
Make evidence-based decisions in engineering contexts

Tags
205738, 7

Learning Outcome
Apply statistical methods to real-world engineering problems, recognizing the limitations of inference.

Title
Evaluate ethical and moral dimensions of data usage

Tags
205781, 3

Learning Outcome
Demonstrate integrity in data analysis, avoid misuse of statistics, and thoughtfully engage with ethical questions surrounding uncertainty, fairness, and decision-making.

Title
Foster curiosity and prepare for lifelong learning

Tags
205782, 1

Learning Outcome
Develop confidence and curiosity in approaching data-driven problems, laying a foundation for further study in science, engineering, and interdisciplinary applications.

STAT 220 - Statistical Modeling for Data Science

Course Information

Teaching Area (new)
STAT

Course Number
220

Teaching Area
STAT

Course Title
Statistical Modeling for Data Science

Course Description
Statistical thinking, basic probability and random variables, estimation, uncertainty in estimation, inference and interpretation for the linear model, prediction, model comparison, introduction to Bayesian statistics, binary data, evaluating classification models, data ethics and privacy

Department
Statistics

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Completion Requirement

Fulfill ANY of the following requirements:

Complete ALL of the following Courses:
- STAT 121 - Introduction to Statistical Data Analysis
  AND C S 110 - How to Program

OR

Complete ALL of the following Courses:
- STAT 121 - Introduction to Statistical Data Analysis
  AND C S 111 - Introduction to Computer Science

OR

Complete ALL of the following Courses:
- STAT 201 - Statistics for Engineers and Scientists
  AND C S 110 - How to Program

Learning Outcomes

Title
Random Variables and Distributions

Tags
212894, 0, 1, 2023-05-08 15:19:21

Learning Outcome
Understand the assumptions and properties of the Bernoulli and normal distributions

Title
Maximum Likelihood

Tags
212895, 0, 2, 2023-05-08 15:19:21

Learning Outcome
Understand the basic principles of maximum likelihood estimation

Title
Linear Models

Tags
212896, 0, 3, 2023-05-08 15:19:21

Learning Outcome
Fit the linear regression model using statistical software; predict using the linear model; assess the fit of the linear model, quantify uncertainty associated with the linear model

Title
Data Ethics and Privacy

Tags
212897, 0, 4, 2023-05-08 15:19:21

Learning Outcome
Understand how the use of data can be an invasion of privacy and how privacy should always be protected. Understand the implications of systemic biases that can be embedded in statistical models

Title
Bayes' Theorem

Tags
212898, 0, 5, 2023-05-08 15:19:21

Learning Outcome
Explain how conditional probability and Bayes' Theorem relate to the analysis of data via the Bayesian paradigm

Title
Bayesian Analysis

Tags
212899, 0, 6, 2023-05-08 15:19:21

Learning Outcome
Interpret and explain the results of Bayesian analyses

Title
Logistic Regression

Tags
212900, 0, 7, 2023-05-08 15:19:21

Learning Outcome
Fit and interpret a logistic regression model

STAT 224 - Applied SAS Programming

Course Information

Teaching Area (new)
STAT

Course Number
224

Teaching Area
STAT

Course Title
Applied SAS Programming

Course Description
Advanced SAS programming skills, advanced DATA step programming, ODS, simple MACRO programs, Proc SQL, Proc REPORT, communicate with other packages and programs.

Department
Statistics

When Taught
Contact Department

Credit Hours

Min:
1.5

Fixed/Max:
1.5

Lecture Hours

Fixed:
1.5

Lab Hours

Fixed:
1.5

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- STAT 124 - SAS Base Programming Skills

Recommended
Concurrent enrollment in Stat 123

Learning Outcomes

Title
Advanced DATA step programming

Tags
205740, 1

Learning Outcome
Solve complex problems using advanced DATA step programming statements

Title
SAS MACRO facility

Tags
205741, 2

Learning Outcome
Create and use SAS MACRO facility

Title
SAS SQL

Tags
205742, 3

Learning Outcome
Write and interpret SAS SQL code

Title
Efficient SAS code

Tags
205743, 4

Learning Outcome
Understand how to write efficient SAS code

Title
Control external programs

Tags
205744, 5

Learning Outcome
Control external programs like R and Excel

STAT 230 - Statistical Modeling 1

Course Information

Teaching Area (new)
STAT

Course Number
230

Teaching Area
STAT

Course Title
Statistical Modeling 1

Course Description
Foundations of applied statistics. Topics include study design, inference for means and proportions, chi-square tests, regression, and ANOVA. Emphasizes data cleaning, visualization, modeling, and interpreting results responsibly in real-world contexts.

Department
Statistics

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- STAT 121 - Introduction to Statistical Data Analysis

OR

Prerequisites

Complete ALL of the following Courses:

- STAT 201 - Statistics for Engineers and Scientists

Recommended

It is strongly suggested that STAT 130 be taken concurrently with or before STAT 230.

Learning Outcomes

Title
Statistical Reasoning

Learning Outcome
Apply statistical reasoning to analyze quantitative and categorical data, including inference for means, proportions, regression, and analysis of variance.

Title
Coding Practices

Learning Outcome
Use statistical coding languages to clean, manipulate, visualize, and model real-world data, demonstrating reproducible and ethical practices.

Title
Assumptions

Learning Outcome
Evaluate and communicate assumptions underlying statistical procedures.

Title
Study Design

Learning Outcome
Design and critique studies with attention to bias, randomization, and valid inference, recognizing the role of statistics in responsible decision-making.

Title
Communication

Learning Outcome
Interpret and communicate results clearly in both technical and non-technical terms, connecting numerical outcomes to meaningful real-world questions.

STAT 234 - Methods of Survey Sampling

Course Information

Teaching Area (new)
STAT

Course Number
234

Teaching Area
STAT

Course Title
Methods of Survey Sampling

Course Description
Sampling frames; questionnaire design; simple random, systematic, stratified, and cluster sampling methods; comparing domain means; contingency table analysis.

Department
Statistics

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- STAT 121 - Introduction to Statistical Data Analysis

OR

Prerequisites

Complete ALL of the following Courses:

- STAT 201 - Statistics for Engineers and Scientists

Learning Outcomes

Title
Basic Designs

Tags
205538, 2

Learning Outcome
Accurately identify and perform variance calculations for basic designs

Title
Sampling

Tags
205549, 1

Learning Outcome
Identify and sample using simple random sampling and various forms of stratified sampling, cluster sampling, and systematic sampling

Title
Graphical Representations

Tags
205561, 4

Learning Outcome
Create graphical representations of results

Title
Real Project

Tags
205577, 3

Learning Outcome
Participate in a real project involving sampling methodologies and appropriate point estimate and variance calculations

Title
Written and Oral Communication

Tags
205656, 5

Learning Outcome
Demonstrate effective written and oral communication skills as they present their findings

STAT 240 - Probability and Inference 1

Course Information

Teaching Area (new)
STAT

Course Number
240

Teaching Area
STAT

Course Title
Probability and Inference 1

Course Description
Discrete sample spaces; conditional probability; random variables; mathematical expectation; moment generating functions; joint distributions; correlation; simulation.

Department
Statistics

When Taught
Fall; Winter.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisite

Type
Prerequisite

Prerequisite

Fulfill ANY of the following requirements:

Prerequisite

Complete ALL of the following Courses:

- STAT 121 - Introduction to Statistical Data Analysis **AND** MATH 112 - Calculus 1

OR

Prerequisite

Complete ALL of the following Courses:

- STAT 201 - Statistics for Engineers and Scientists **AND** MATH 112 - Calculus 1

Recommended
It is strongly suggested that STAT 130 be taken concurrently with or before STAT 240.

Learning Outcomes

Title
Sample Spaces

Tags
214628, 0, 9

Learning Outcome
Apply fundamentals of set theory, set operations, and counting to specify/enumerate events in a discrete sample space.

Title
Probability

Tags
214629, 0, 10

Learning Outcome
Use the axioms of probability, conditional probability, independence, and Bayes' theorem in probabilistic calculations.

Title
Discrete Random Variables

Tags
214630, 0, 11

Learning Outcome
Use probability mass functions for discrete random variables and transformations of discrete random variables.

Title
Continuous Random Variables

Tags
214631, 0, 12

Learning Outcome
Use probability density and cumulative distribution functions to compute probabilities for continuous random variables.

Title
Expectation and Moments

Tags
214632, 0, 13

Learning Outcome
Find and interpret expectations of random variables and functions of random variables; use moment generating functions.

Title
Named Distributions

Tags
214633, 0, 14

Learning Outcome
Understand the assumptions and properties of named distributions: binomial, Poisson, uniform, exponential, normal, and gamma.

Title
Joint Distributions

Tags
214634, 0, 15

Learning Outcome
Find probabilities and expectations for joint, marginal, and conditional distributions.

Title
Correlation

Tags
214635, 0, 16

Learning Outcome
Calculate expectation of linear combinations, covariance, and correlation.

Title
Probabilistic Thinking

Tags
214636, 0, 17

Learning Outcome
Apply tools of probability to quantitatively frame and solve problems involving uncertain outcomes.

Title
Simulation

Tags
214637, 0, 18

Learning Outcome
Verify probabilistic calculations via simulation.

STAT

Course Title
Applied R Programming

Course Description
R programming skills; data cleaning and wrangling in R; introductory statistical analysis and graphics; simulation of introductory statistical concepts.

Department
Statistics

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- STAT 121 - Introduction to Statistical Data Analysis

OR

Prerequisites

Complete ALL of the following Courses:

- STAT 201 - Statistics for Engineers and Scientists

Learning Outcomes

Title
R Coding Proficiency

Tags
213026, 0, 1

Learning Outcome
Understand the fundamental concepts of R programming, including variable assignment, arithmetic operations, and logical expressions, using RStudio as the integrated development environment (IDE).

Title
User-Defined Functions and Control Structures

Tags
213027, 0, 2

Learning Outcome
Utilize user-defined functions and control structures, including loops and conditionals, to solve programming problems and enhance code modularity.

Title
Handling and Processing Data Structures

Tags
213028, 0, 3

Learning Outcome
Effectively handle and process data structures, including numbers, strings, regular expressions, factors, dates & times, missing values, and Base R objects (vectors, matrices, lists, and data frames).

Title
Simulation of introductory statistical concepts

Tags
213030, 0, 5

Learning Outcome
Utilize simulation to illustrate and comprehend fundamental statistical concepts.

Title
Integration of R Code and Markdown with Quarto

Tags
213031, 0, 6

Learning Outcome
Utilize Quarto to integrate R code and Markdown, creating professional reports with dynamic and reproducible content.

Title
Code Documentation and Reproducibility

Tags
213032, 0, 7

Learning Outcome
Understand the importance of code documentation, including comments and naming conventions, to enhance code readability and reproducibility.

Title
Independent Troubleshooting and Skill Enhancement -

Tags
213033, 0, 8

Learning Outcome
Demonstrate the ability to independently troubleshoot code errors and expand programming skills through help documentation and online resources.

Title
Data Wrangling and Visualization

Tags
213029, 0, 4

Learning Outcome
Import, tidy, transform, and visualize data from diverse sources, including delimited text files, Excel spreadsheets, and HTML tables (web scraping).

STAT 251 - Introduction to Bayesian Statistics

Course Information

Teaching Area (new)
STAT

Course Number
251

Teaching Area
STAT

Course Title
Introduction to Bayesian Statistics

Course Description
The scientific method; conditional probability; Bayes' Theorem; conjugate distributions: Beta-binomial, Poisson-gamma, normal-normal; Gibbs sampling.

Department
Statistics

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- MATH 113 - Calculus 2
  AND STAT 240 - Probability and Inference 1
  AND STAT 250 - Applied R Programming

Learning Outcomes

Title
Code in R

Tags
205521, 4

Learning Outcome
Code in R a Gibbs sampler and/or Metropolis sampler for a simple non-conjugate posterior distributions

Title
Bayesian Analysis

Tags
205562, 5

Learning Outcome
Interpret and explain the results of Bayesian analysis

Title
Conjugate Priors, Binomial, and Poisson Distributions

Tags
205667, 2

Learning Outcome
Identify the conjugate priors of the normal (mean and variance), binomial, and Poisson distributions and derive the respective posterior distributions

Title
Gibbs and Metropolis Samplers

Tags
205674, 3

Learning Outcome
Explain why Gibbs and Metropolis samplers work and when they are appropriate to use

Title
Bayes' Theorem

Tags
205697, 1

Learning Outcome
Explain how conditional probability and Bayes' Theorem relate to the analysis of data via the Bayesian paradigm

STAT 274 - Theory of Interest

Course Information

Teaching Area (new)
STAT

Course Number
274

Teaching Area
STAT

Course Title
Theory of Interest

Course Description
Theory of interest, annuities, amortization, financial derivatives. Prepares for SOA Exam FM.

Department
Statistics

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- MATH 112 - Calculus 1

Learning Outcomes

Title
Time Value of Money

Tags
205720, 2

Learning Outcome
Recognize, understand, and compute problems relating to time value of money, including simple and compound interest, present and future value, and nominal and effective rates of interest

Title
Annuities

Tags
205636, 0, 3

Learning Outcome
Recognize, understand, and compute problems relating to annuities with payments that are not contingent, including annuities-immediate, annuities-due, perpetuity, and arithmetically or geometrically increasing payments.

Title
Loans

Tags
205684, 0, 4

Learning Outcome
Recognize, understand, and compute problems relating to loans, including principal, interest, term of loan, outstanding balance, final payment, and amortization.

Title
Bonds

Tags
205558, 0, 5

Learning Outcome
Recognize, understand, and compute problems relating to bonds, including price, redemption value, par value, coupon and coupon rate, yield rate, callable and non-callable, and accumulation of discount and premium.

Title
General Cash Flow

Tags
205716, 0, 6

Learning Outcome
Recognize, understand, and compute problems relating to general cash flows and portfolios, including yield rate and rate of return, current value, convexity, yield curve, and dividend.

Title
Immunization

Tags
205640, 0, 7

Learning Outcome
Recognize, understand, and compute problems relating to immunization, including cash flow matching, full immunization, and Redington immunization.

STAT 281 - Data Visualization

Course Information

Course Number
281

Teaching Area
STAT

Course Title
Data Visualization

Course Description
Fundamental principles of data visualization; chart types and when to use them; design of clear and meaningful visualizations from complex data; reproducible creation of static and interactive visualizations; development of portfolio of charts and graphs; use of appropriate visualization tools; communication of insights, observations, and results.

Department
Statistics

When Taught
Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Simple Requisites

Untitled Requirement

Type
Completion Requirement

Complete ANY of the following Courses:
- STAT 121 - Introduction to Statistical Data Analysis
- STAT 201 - Statistics for Engineers and Scientists

Learning Outcomes

Title
Exploratory Data Analysis

Tags
214457, 0, 1, 2023-08-29 12:40:00

Learning Outcome
Explore data visually to uncover patterns and spark insights.

Title
Critique

Tags
214458, 0, 2, 2023-08-29 12:40:02

Learning Outcome
Evaluate visualizations for clarity, fidelity, and bias, offering constructive feedback with grace and kindness.

Title
Design

Tags
214459, 0, 3, 2023-08-29 12:40:06

Learning Outcome
Select visualization forms with discernment, ensuring each choice serves the data, the audience, and the intended purpose.

Title
Create

Tags
214460, 0, 4, 2023-08-29 12:40:08

Learning Outcome
Build static and interactive visualizations that help others understand and act on information.

Title
Refine

Tags
214461, 0, 5, 2023-08-29 12:40:12

Learning Outcome
Iterate to enhance accuracy, accessibility, and usefulness.

Title
Communication

Tags
214462, 0, 6, 2023-08-29 12:40:13

Learning Outcome
Tell compelling, truthful data stories that enlighten decisions in communities and organizations.

Title
Authentic

Tags
214463, 0, 7, 2023-08-29 12:40:16

Learning Outcome
Use authentic data sources, including large and complex datasets.

Title
Portfolio

Tags
214464, 0, 8, 2023-08-29 12:40:18

Learning Outcome
Assemble a portfolio that displays readiness to serve diverse audiences.

Title
Ethics

Tags
214465, 0, 9, 2023-08-29 12:40:19

Learning Outcome
Present data with integrity and transparency---applying ethical standards that faithfully steward truth.

Title
Collaborative Problem Solving

Learning Outcome
Solve problems in teams by listening well, giving and receiving help, and practicing mutual respect and accountability.

STAT 286 - Data Science Ecosystems

Course Information

Teaching Area (new)
STAT

Course Number
286

Teaching Area
STAT

Course Title
Data Science Ecosystems

Course Description
Introduction to Linux and accompanying tools. Overview of containers, microservices, and database management systems. Introduction to local networks and cloud environments. Integration of multiple programming languages and environments to perform analysis and reporting.

Department
Statistics

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisite

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- STAT 230 - Statistical Modeling 1

Learning Outcomes

Title
Career Success

Learning Outcome
Explore data science applications, develop job search strategies, and plan for long-term career growth.

Title
Data Science Tools

Learning Outcome
Use essential tools and frameworks, including version control, programming languages, databases, and containerization, while developing strategies to adapt to new technologies.

Title
Communication

Learning Outcome
Process data, create professional reports, build interactive dashboards, and deliver effective presentations using data science methodologies.

Title
Database Management

Learning Outcome
Efficiently store, retrieve, and analyze data from common database structures with SQL.

Title
Computing Environments and Cloud Integration

Learning Outcome
Navigate local, remote, and cloud-based computing environments, assessing their advantages, limitations, and best use cases.

Title
Ethical Data Practices

Learning Outcome
Apply ethical principles in data collection, analysis, and dissemination to ensure responsible and fair data use.

STAT 330 - Statistical Modeling 2

Course Information

Teaching Area (new)
STAT

Course Number
330

Teaching Area
STAT

Course Title
Statistical Modeling 2

Course Description
Intermediate regression and inference with R. Topics include matrix notation, diagnostics, interactions, nonlinear predictors, logistic regression, model selection, and validation. Focus on balancing interpretability and predictive performance in applied data analysis.

Department
Statistics

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisite

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- STAT 230 - Statistical Modeling 1
  AND MATH 112 - Calculus 1

Learning Outcomes

Title
Regression Modeling

Learning Outcome
Apply multiple regression models using matrix notation to describe and analyze relationships among variables, reinforcing both predictive and inferential reasoning.

Title
Model Evaluation

Learning Outcome
Assess model adequacy through diagnostics, residual analysis, and validation techniques, demonstrating critical thinking in evaluating statistical evidence.

Title
Complex Predictors

Learning Outcome
Incorporate interactions and nonlinear predictors into regression models and interpret their effects in context.

Title
Model Selection

Learning Outcome
Compare and select models using criteria such as AIC, BIC, adjusted R^2, and cross-validation, with attention to the tradeoff between interpretability and predictive performance.

Title
Logistic Regression

Learning Outcome
Apply logistic regression for binary outcomes, interpreting coefficients, odds ratios, and classification metrics, and connecting results to real-world questions.

Title
Communication

Learning Outcome
Communicate statistical findings clearly to both technical and non-technical audiences, reflecting honesty, clarity, and responsibility in the use of statistical evidence.

STAT 340 - Probability and Inference 2

Course Information

Teaching Area (new)
STAT

Course Number
340

Teaching Area
STAT

Course Title
Probability and Inference 2

Course Description
Transformations of random variables; sampling distributions; Central Limit Theorem; frequentist inference (estimation, intervals, hypothesis tests); Bayesian inference (estimation, intervals); simulation.

Department
Statistics

When Taught
Fall; Winter.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- MATH 113 - Calculus 2
  AND STAT 240 - Probability and Inference 1

Recommended
Stat 123 and Stat 124

Learning Outcomes

Title
Transformations

Tags
205854, 0, 1

Learning Outcome
Determine the distribution of transformations of random variables (including χ^2, t, and F) to make the lineage of familiar tools explicit and to practice extending what we know to new problems.

Title
Sampling Distributions

Tags
205855, 0, 2

Learning Outcome
Explore the sampling distributions for sample means and totals from common families.

Title
Convergence

Tags
205856, 0, 3

Learning Outcome
Apply convergence in probability and distribution to prove the Law of Large Numbers and participate in proving the Central Limit Theorems for means and proportions, building confidence with abstraction.

Title
Sufficiency

Tags
205857, 0, 4

Learning Outcome
Find sufficient statistics in one-parameter models using the factorization theorem in order to justify responsible data reduction.

Title
Point Estimation

Tags
205858, 0, 5

Learning Outcome
Derive method-of-moments, maximum-likelihood, and Bayesian estimators to show that familiar estimators rest on principled foundations.

Title
Interval Estimation

Tags
205859, 0, 6

Learning Outcome
Construct confidence intervals via pivots and Bayesian credible intervals to communicate uncertainty honestly so stakeholders can make informed decisions.

Title
Hypothesis Testing

Tags
205860, 0, 7

Learning Outcome
Apply the Neyman–Pearson lemma to find most-powerful tests for problems involving simple hypotheses.

Title
Evaluation

Tags
205861, 0, 8

Learning Outcome
Assess estimators by bias, variance, and MSE; practice acknowledging trade-offs.

Title
Simulation

Tags
205862, 0, 9

Learning Outcome
Examine sampling distributions and evaluate estimators using simulation to make uncertainty visible, sharpen intuition, and introduce another way to approach problem solving.

Title
Critical Thinking

Tags
214639, 0, 10

Learning Outcome
Strengthen problem-solving and reasoning, building confidence to tackle unfamiliar problems and act responsibly under uncertainty.

Title
Collaborative Problem Solving

Learning Outcome
Solve problems in teams by listening well, giving and receiving help, and practicing mutual respect and accountability.

Title
Ethical Gen-AI Stewardship

Learning Outcome
Engage generative-AI tools as study partners by crafting purposeful prompts, verifying and citing AI contributions, and discerning when to rely on human reasoning---recognizing that AI is neither divine nor human and cannot love, covenant, or receive revelation.

STAT 344 - Foundations of Long-term Actuarial Mathematics

Course Information

Teaching Area (new)
STAT

Course Number
344

Teaching Area
STAT

Course Title
Foundations of Long-term Actuarial Mathematics

Course Description
Foundational methods and models for long term risks such as life insurance and pension plans. Mortality models (life table methods and survival models) and implementation including estimation of expected values. Partial coverage for SOA Exam FAM.

Department
Statistics

When Taught
Fall

Recommended
Concurrent enrollment in Stat 340

Learning Outcomes

Title
Solving Problems

Tags
205533, 2

Learning Outcome
Students will, upon course completion, be more adept at solving problems related to material covered in Statistics 370

Title
Exam P

Tags
205618, 1

Learning Outcome
The primary learning outcome of this course is to provide additional Exam P preparation for students who have completed Statistics 370

STAT 381 - Statistical Modeling in Cloud Computing Environments

Course Information

Teaching Area (new)
STAT

Course Number
381

Teaching Area
STAT

Course Title
Statistical Modeling in Cloud Computing Environments

Course Description
Deploy, monitor, and maintain statistical and machine learning models in cloud computing environments through labs and projects; covers fundamentals, security, continuous integration/continuous development, monitoring, infrastructure as code, and deployment. Prepares students for the AWS Cloud Computing Certification and the AWS Machine Learning Associate Certification.

Department
Statistics

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisite

Type
Prerequisite

Prerequisite

Complete ANY of the following Courses:

- STAT 220 - Statistical Modeling for Data Science
  OR STAT 330 - Statistical Modeling 2

Learning Outcomes

Title
Problem Identification and Scoping

Tags
205756, 1

Learning Outcome
Students will define a real-world deployment problem; specify desired outcomes, data needs, constraints (privacy, regulation, cost), and clear success criteria.

Title
Solution Design and Selection

Tags
205757, 2

Learning Outcome
Students will compare cloud architectures and services then select an approach that integrates security, responsible data practice, bias mitigation, continuous integration and continuous delivery (CI/CD), and infrastructure described as code (IaC).

Title
Secure Infrastructure Provisioning

Tags
205758, 3

Learning Outcome
Students will create reproducible, compliant cloud environments; organizing user identities, roles, and permissions; configuring networks and protecting data.

Title
Model Building and Deployment

Tags
205759, 4

Learning Outcome
Students will prepare, package, and version data and code; train and serve machine learning models using managed cloud services; and publish application programming interfaces for responsible access.

Title
Verification and Governance

Tags
205760, 5

Learning Outcome
Students will design automated tests, reviews, and approvals in the delivery pipeline; and maintain transparent records of datasets, code, parameters, and results to support reproducibility and accountability.

Title
Monitoring and Operations

Tags
205761, 6

Learning Outcome
Students will implement systems with meaningful measurements and logs; set reliability and performance targets; detect changes over time; investigate incidents; and adjust models to improve accuracy.

Title
Evaluation, Communication, and Iteration

Tags
205762, 7

Learning Outcome
Students will evaluate outcomes against defined goals; communicate assumptions, methods, risks, and ethical implications to stakeholders; choose next steps (such as retraining, redeploying, or improving infrastructure); and document mitigations.

STAT 386 - Data Science Process

Course Information

Teaching Area (new)
STAT

Course Number
386

Teaching Area
STAT

Course Title
Data Science Process

Course Description
Principles of data science; web scraping; data wrangling; exploratory data analysis; data visualization; ethics; version control; data communication.

Department
Statistics

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- C S 111 - Introduction to Computer Science
  AND STAT 121 - Introduction to Statistical Data Analysis

Learning Outcomes

Title
Problem Definition and Data Acquisition

Learning Outcome
Formulate data-driven questions, define objectives, and collect relevant data sources.

Title
Data Wrangling and Cleaning

Learning Outcome
Prepare and clean messy datasets for exploratory analysis, modeling, and visualization.

Title
Exploratory Data Analysis and Feature Engineering

Learning Outcome
Analyze data to identify patterns, detect anomalies, and engineer meaningful features for modeling.

Title
Programming for Data Science

Learning Outcome
Use programming tools to manipulate, analyze, and visualize data efficiently.

Title
Ethics in Data Science

Learning Outcome
Analyze and debate ethical and legal issues, including privacy, data sharing, and algorithmic decision-making.

Title
Version Control and Reproducibility

Learning Outcome
Use version control and best practices to ensure reproducible and well-documented workflows.

Title
Communication and Stakeholder Engagement

Learning Outcome
Communicate findings effectively to both technical and non-technical audiences through reports, presentations, visualizations and/or documentation.

STAT 390 - Data Science Ethics

Course Information

Course Number
390

Teaching Area
STAT

Course Title
Data Science Ethics

Course Description
Ethical reasoning in data science, navigating complex challenges as disciples in the discipline, integrating fairness, integrity, and respect for individuals across the data science pipeline, making positive impact within statistical, actuarial, and data science communities.

Department
Statistics

When Taught
Fall and Winter

Credit Hours

Min:
1.5

Fixed/Max:
1.5

Lecture Hours

Fixed:
1.5

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Complete ALL of the following Courses:
- STAT 330 - Statistical Modeling 2

Recommended
Stat 340 or concurrent enrollment.

Learning Outcomes

Title
Ethical Frameworks and Moral Reasoning

Learning Outcome
Students will be able to explain and apply foundational moral theories-including utilitarianism, deontology, virtue ethics, intuitionism, and the moral teachings of Jesus Christ-to ethical challenges in data science.

Title
Data Privacy and Ethical Data Collection

Learning Outcome
Students will recognize the importance of protecting personal data and understand ethical and legal principles related to responsible data collection, consent, ownership, and cultural context.

Title
Statistical Integrity and Transparency

Learning Outcome
Students will identify and address threats to statistical integrity-including opaque methods, unreproducible analyses, biased reporting, and misuses of statistical evidence-and apply principles of transparency and accountability across the lifecycle of statistical, machine learning, and AI models.

Title
Modeling and Algorithmic Impact

Learning Outcome
Students will evaluate the societal effects of statistical, machine learning, and AI models, including how bias, unfairness, or harm can emerge. They will propose ways to mitigate adverse impacts through critical reasoning, technical adjustments, and clear communication of limitations.

Title
Moral Courage and Professional Identity

Learning Outcome
Students will explore factors that lead to unethical behavior and develop strategies for acting with integrity-especially when facing pressure, incentives, or rationalizations that encourage cutting ethical corners. They will reflect on how personal, professional, and spiritual values can guide ethical decision-making.

STAT 395R - Special Topics in Applied Statistics

When Taught
Fall and Winter

Credit Hours

Min:
1

Fixed/Max:
3

STAT 430 - Statistical Modeling 3

Course Information

Course Number
430

Teaching Area
STAT

Course Title
Statistical Modeling 3

Course Description
Advanced statistical modeling with R. Topics include linear algebra foundations, simulation, mixed models, penalized regression, generalized linear models, and tree-based methods. Emphasizes theoretical understanding, computational practice, and application to complex real-world data.

Department
Statistics

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisite

Type
Prerequisite

Complete ALL of the following Courses:

- STAT 330 - Statistical Modeling 2
  AND STAT 340 - Probability and Inference 2
  AND MATH 213 - Elementary Linear Algebra

Learning Outcomes

Title
Theoretical Foundations

Learning Outcome
Explain how linear algebra underpins regression, including the formulation of normal equations, projections, and properties of estimators.

Title
Simulation

Learning Outcome
Use simulation and Monte Carlo methods to investigate the sampling distributions of regression estimators and test statistics.

Title
Mixed Models

Learning Outcome
Fit and interpret random effects and mixed models, distinguishing between fixed and random effects and their roles in hierarchical data structures.

Title
Penalized Regression

Learning Outcome
Apply and compare penalized regression techniques such as ridge, LASSO, and elastic net, explaining how they address issues of multicollinearity, high-dimensionality, and variable selection.

Title
GLMs

Learning Outcome
Extend regression to the generalized linear model framework, including estimation, inference, and prediction with link functions.

Title
Modern Methods

Learning Outcome
Build and evaluate tree-based and ensemble methods (decision trees, bagging, random forests), comparing their predictive and interpretive strengths with traditional regression models.

Title
Communication

Learning Outcome
Communicate advanced statistical results clearly, connecting theoretical concepts to practical applications in complex data analysis.

STAT 435 - Nonparametric Statistical Methods

Course Information

Teaching Area (new)
STAT

Course Number
435

Teaching Area
STAT

Course Title
Nonparametric Statistical Methods

Course Description
Permutation tests, rank-based methods, analysis of contingency tables, bootstrap methods, curve fitting.

Department
Statistics

When Taught
Fall

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- STAT 330 - Statistical Modeling 2
  AND STAT 340 - Probability and Inference 2

Learning Outcomes

Title
Bootstrap Confidence Intervals

Tags
205505, 4

Learning Outcome
Formulate and compute bootstrap (resampling) confidence intervals

Title
Contingency Tables

Tags
205526, 3

Learning Outcome
Compute the following tests for contingency tables: Fisher's exact test, Mantel-Haenszel test, McNemar's test

Title
Examples of Trade-Off

Tags
205566, 0

Learning Outcome
Explain and provide examples of the trade-off between parametric assumptions and efficiency of statistical inference

Title
Parametric Assumptions and Statistical Inference

Tags
205571, 1

Learning Outcome
Explain and provide examples of the trade-off between parametric assumptions and efficiency of statistical inference

Title
Compute Rank-Based Methods

Tags
205596, 2

Learning Outcome
Compute the following rank-based methods: Wilcoxon Rank-Sum test, Mann-Whitney test, Signed-Rank test, Kruskal-Wallis test, Spearman Rank Correlation

Title
Generalized Additive Models

Tags
205627, 5

Learning Outcome
Compute generalized additive models (GAM) with splines or smoothers for possible nonlinear effects in R

Title
Permutation Tests

Tags
205665, 3

Learning Outcome
Formulate and compute permutation tests for 2-sample, K-sample, and contingency tables

Title
Rank-Based Methods

Tags
205735, 1

Learning Outcome
Compute the following rank-based methods: Wilcoxon Rank-Sum test, Mann-Whitney test, Signed-Rank test, Kruskal-Wallis test, and Spearman Rank Correlation

STAT 437 - Applications in Biostatistics

Course Information

Teaching Area (new)
STAT

Course Number
437

Teaching Area
STAT

Course Title
Applications in Biostatistics

Course Description
Module-based survey of biostatistics methods: observational studies, clinical trials, measures of association, Kaplan-Meier, proportional hazards models, logistic regression, ethical concerns in research with human subjects.

Department
Statistics

When Taught
Winter

Credit Hours

Min:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- STAT 330 - Statistical Modeling 2
  AND STAT 340 - Probability and Inference 2

Learning Outcomes

Title
study designs

Learning Outcome
demonstrate understanding of common study designs used in clinical and epidemiological research (cohort studies, case-control studies, cross-sectional studies, clinical trials);

Title
ethics

Learning Outcome
articulate potential ethical concerns for each type of design;

Title
measures of association

Learning Outcome
identify and compute appropriate measures of association for each type of design;

Title
censored data

Learning Outcome
describe types of censoring and the challenges presented in the analysis of censored data;

Title
Kaplan-Meier

Learning Outcome
estimate the survival function using the Kaplan-Meier method;

Title
proportional hazards

Learning Outcome
fit proportional hazards regression models;

Title
diagnostic tests

Learning Outcome
determine sensitivity, specificity, and positive and negative predictive values for diagnostic tests;

Title
logistic regression

Learning Outcome
apply logistic regression and conditional regression models to cohort and case-control studies;

Title
odds ratios

Learning Outcome
interpret odds ratios from logistic regression models;

Title
causal inference

Learning Outcome
understand the fundamentals of propensity score matching;

Title
communication

Learning Outcome
communicate and present results to answer research problems;

Title
project

Learning Outcome
present authentic data analysis with integrated paper and presentation.

STAT 444 - Advanced Long-term Actuarial Mathematics

Course Information

Teaching Area (new)
STAT

Course Number
444

Teaching Area
STAT

Course Title
Advanced Long-term Actuarial Mathematics

Course Description
Advanced modeling of long term contingent risks including the basics of survival analysis, multistate survival models, and multiple decrement survival models. Prepares for SOA Exam ALTAM.

Department
Statistics

When Taught
Winter

Credit Hours

Min:
3

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- STAT 240 - Probability and Inference 1
  AND STAT 330 - Statistical Modeling 2
  AND STAT 250 - Applied R Programming

Learning Outcomes

Title
Basics of Statistical Learning

Tags
214466, 0, 1, 2023-08-29 12:40:24

Learning Outcome
Perform exploratory analysis and understand how to choose what type of model to use for particular characteristics of the data and the context of a specific business problem

Title
Generalized Linear Models

Tags
214467, 0, 2, 2023-08-29 12:40:26

Learning Outcome
Understand generalized linear models and how to select distributions and link functions. Estimate parameters, perform diagnostic tests, interpret model output, and perform prediction

Title
Time Series Models

Tags
214468, 0, 3, 2023-08-29 12:40:29

Learning Outcome
Understand basic concepts of stochastic processes. Describe and use common time series models.

Title
Decision Trees

Tags
214469, 0, 4, 2023-08-29 12:40:30

Learning Outcome
Explain, interpret, and use regression trees for regression and classification

Title
Principal Component Analysis

Tags
214470, 0, 5, 2023-08-29 12:40:31

Learning Outcome
Calculate and interpret principal components for a data set

Title
Cluster Analysis

Tags
214471, 0, 6, 2023-08-29 12:40:35

Learning Outcome
Cluster observations using K-means and hierarchical clustering

STAT 451 - Applied Bayesian Statistics

Course Information

Teaching Area (new)
STAT

Course Number
451

Teaching Area
STAT

Course Title
Applied Bayesian Statistics

Course Description
Bayesian analogs of t-tests, regression, ANOVA, ANCOVA, logistic regression, and Poisson regression implemented using Nimble, Stan, JAGS and Proc MCMC.

Department
Statistics

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Prerequisites

Complete ALL of the following Courses:

- STAT 251 - Introduction to Bayesian Statistics
  AND STAT 330 - Statistical Modeling 2
  AND STAT 340 - Probability and Inference 2

Learning Outcomes

Title
Write code in R

Tags
205621, 1

Learning Outcome
Students will be able to generate their own analysis of Bayesian models in R.

Title
Understand, Explain, and Demonstrate

Tags
205685, 2

Learning Outcome
Students will be able to understand, explain and demonstrate basic Bayesian theory and its usefulness in real-world applications.

Title
Fit and Interpret Bayesian Model

Tags
205719, 0

Learning Outcome
Students will be able to apply, implement and interpret a fully Bayesian approach to relevant statistical problems, including design, model selection, model fit steps.

STAT 466 - Bayesian Reliability

Course Information

Teaching Area (new)
STAT

Course Number
466

Teaching Area
STAT

Course Title
Bayesian Reliability

Course Description
Mathematics, distributions, management, and maintenance of basic reliability concepts; collection and analysis of test data; fault tree analysis; applying reliability in various areas.

Department
Statistics

When Taught
Winter.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- STAT 330 - Statistical Modeling 2
  AND STAT 340 - Probability and Inference 2
  AND STAT 251 - Introduction to Bayesian Statistics

Learning Outcomes

Title
Reliability Concepts

Tags
205598, 6

Learning Outcome
a - Become familiar with basic reliability concepts and terminology b - Discuss the challenges of modeling censored data

Title
Reliability Data

Tags
205686, 0, 1, 2021-02-05 14:28:13

Learning Outcome
a - Know the attributes of and the situations in which the four main types of reliability data (pass/fail data, failure count data, lifetime data and degradation data) arise b - Be able to identify different types of reliability data

Title
Statistical Modeling of Reliability Data

Tags
205702, 0, 2, 2021-02-05 14:28:13

Learning Outcome
a - Know the basic models for each type of reliability data b - Know how to construct likelihoods for reliability data c - Be able to construct likelihoods for censored lifetime data and explain the rationale

Title
Bayesian Modeling

Tags
205493, 0, 3, 2021-02-05 14:28:13

Learning Outcome
a - Know the different types of prior distributions b - Recognize and identify the influence of prior distributions in an analysis c - Use Bayesian modeling for inference and prediction from reliability data d - Know how to sample from a variety of posterior distributions e - Model censored lifetime data with standard parametric distributions

Title
Advanced concepts

Tags
205653, 0, 7, 2021-02-05 14:28:13

Learning Outcome
Advanced concepts may include: a - Be able to incorporate covariates into reliability models and interpret the results b - Analyze data from accelerated life tests c - Understand and apply the basic concepts of system reliability d - Understand the basic terms and concepts of reliability from a repairable systems context e - Understand the concepts of producer's risk and consumer's risk in assurance testing

STAT 469 - Analysis of Correlated Data

Course Information

Teaching Area (new)
STAT

Course Number
469

Teaching Area

Learning Outcomes

Title
Define Functions

Tags
205524, 1

Learning Outcome
Define the autocovariance and autocorrelation functions

Title
Order of an ARIMA

Tags
205544, 6

Learning Outcome
Select the order of an ARIMA model from the sample ACF and sample PACF

Title
Define Weak Stationarity

Tags
205578, 2

Learning Outcome
Define weak stationarity

Title
ARMA

Tags
205601, 5

Learning Outcome
Define an ARMA (p, q) process

Title
Define Process

Tags
205641, 3

Learning Outcome
Define white noise process

Title
Fit an ARIMA

Tags
205672, 7

Learning Outcome
Fit an ARIMA (p, d, q) model and generate forecasts with prediction intervals in R

Title
AR and MA Model

Tags
205734, 4

Learning Outcome
Derive the mean, autocovariance, and autocorrelation of an AR and MA model

STAT 482 - Data Science Capstone 1

  AND STAT 340 - Probability and Inference 2
  AND STAT 386 - Data Science Process

Learning Outcomes

Title
Machine learning categories

Learning Outcome
Differentiate between categories of machine learning problems

Title
Using data

Learning Outcome
Use data to answer interesting and complex research questions

Title
Understanding pitfalls

Learning Outcome
Understand common machine learning pitfalls and demonstrate how to avoid or correct for them

Title
ML algorithms

Learning Outcome
Implement and interpret machine learning algorithms in common data science software

Title
Identify ML for various data types

Learning Outcome
Identify the machine learning algorithm(s) that is(are) most relevant for various data types and research questions

Title
Communication

Learning Outcome
Communicate machine learning algorithms and results in a variety of context, including informal and formal reports and presentations

STAT 487 - Deep Learning

Course Information

Course Number
487

Teaching Area
STAT

Course Title
Deep Learning

Course Description
Examination of deep learning models with an emphasis on statistical principles such as model selection, model interpretability, tuning, and generating prediction uncertainty. Deep learning methods, explainable AI, backpropagation, transfer learning, and training methods. Analyses on real-world applications such as natural language, audio, and image processing.

Department
Statistics

  AND STAT 340 - Probability and Inference 2
  AND STAT 386 - Data Science Process

OR

Prerequisites

Complete ALL of the following Courses:

- STAT 330 - Statistical Modeling 2
  AND STAT 340 - Probability and Inference 2
  AND C S 270 - Introduction to Machine Learning

Learning Outcomes

Title
Deep learning methods

Learning Outcome
Students will be able to select the appropriate deep learning method to use for various types of data and learning (e.g., supervised vs. unsupervised) needs.

Title
Software implementation of deep learning

Learning Outcome
Students will be able to implement using standard software the following deep neural networks, using simple neural networks as well making use of more complex pre-trained neural networks: convolution neural networks (CNN), recurrent neural networks (RNN), and transformers.

Title
AI methods

Learning Outcome
Students will be able to use explainable AI methods to provide intuition about model behavior and to obtain insights about the data.

Title
Natural language processing

Learning Outcome
Students will understand the basics of natural language processing and how to effectively use deep learning models to parse, clean, understand, and predict language analyses.

Title
Signal processing

Learning Outcome
Students will be able to apply methods to various signal processing scenarios such as image processing, audio processing, and/or language processing.

Title
Fundamental of deep learning

Learning Outcome
Students will understand enough of the fundamental concepts and workings of various deep learning methods to make informed choices about model and parameter settings for specific applications.

Title
Uncertainty quantification for deep learning

Learning Outcome
Students will be able to understand the current state of uncertainty quantification techniques and research in deep learning.

Stat 495R

Tags
205820, 1

Learning Outcome
This is a course with no set curriculum. The learning objectives will be determined by the directing instructor. The outcomes will be specific to the special topic as directed by the professor. In general, after completion of a special topics course in statistics, the student will:

Title
Understanding of and Competence in Subject Matter

Tags
205821, 2

Learning Outcome
Demonstrate understanding of and competence in subject matter, varying by course topic

Title
Historical Context or Modern Relevance

Tags
205822, 3

Learning Outcome
Explain the historical context or modern relevance of the selected special topics curriculum

Title
Proficiency in Specialized Quantitative Methods

Tags
205823, 4

Learning Outcome
Develop proficiency in specialized quantitative methods and their use in a modern statistical software package

Title
Report or Presentation of Authentic Data

Tags
205824, 5

Learning Outcome
Prepare a report or presentation documenting an authentic data analysis using the tools of the special topics curriculum

STAT 496R - Academic Internship: Statistics

Academic Internship: Statistics

Course Description
On-the-job experience or internships for undergraduates. Report is required.

Department
Statistics

When Taught
Contact Department

Credit Hours

Min:
0.5

Fixed/Max:
9

Other Prerequisites
Department coordinator's consent

Note
An APPROVED Internship Application is required before adding.

Learning Outcomes

Title
Work Ethic

Tags
205510, 2

Learning Outcome
Demonstrate good work ethics

Title
Appropriate Dress and Etiquette

Tags
205650, 1

Learning Outcome
Practice appropriate dress and etiquette in varied business settings

Title
Written and Oral Communication

Tags
205705, 3

Learning Outcome
Demonstrate effective written and oral communication skills as they report on their internship experience

STAT 497R - Introduction to Statistical Research

Course Information

Teaching Area (new)

Learning Outcomes

Title
Research Project

Tags
205593, 1

Learning Outcome
Contribute to the research project in terms of literature review, data analysis, and reporting of preliminary results

Title
Initiative

Tags
205619, 3

Learning Outcome
Show initiative in the conduct of research

Title
Work Ethic

Tags
205658, 2

Learning Outcome
Demonstrate good work ethics (punctuality to meetings, follow-up of action items, and so forth)

Title
STAT 497R

Tags
205739, 0

Learning Outcome
After completing a term of mentored research in an environment approaching that of graduate study, the student will be able to: 1. Contribute to the research project in terms of literature review, data analysis, and reporting of preliminary results, 2. Demonstrate good work ethics (punctuality to meetings, follow-up of action items, and so forth), and 3. Show initiative in the conduct of research.

Learning Outcomes

Title
Connecting Coursework to Industry Scenarios

Learning Outcome
Students will discuss and understand examples of how their program coursework can apply to real-world employment scenarios.

Title
Job Opportunity Identification

Learning Outcome
Students will be able to identify and evaluate potential job opportunities and employers that align with their skills/training and career goals.

Title
Internship and Employment Strategy

Learning Outcome
Students will be able to devise and implement a plan for securing internships and/or employment after graduation.

Title
Exemplifying Professional Behavior

Learning Outcome
- Students will understand principles of professional behavior including: - Work habits such as punctuality, reliability, and responsibility. - Learning from mistakes and applying feedback to enhance performance. - Professionalism in verbal and written communication.

Title
Conducting Informational Interviews

Learning Outcome
Students will be able to effectively conduct informational interviews to gather industry insights and build professional networks.

- STAT 201 - Statistics for Engineers and Scientists

Other Prerequisites

or equivalent.

Note

Lab optional.

Learning Outcomes

Title
Randomization

Tags
205520, 1

Learning Outcome
Describe the role of randomization and replication in inferring causation

Title
Simple and Multiple Linear Regression

Tags
205543, 5

Learning Outcome
Fit both simple and multiple linear regression and interpret the results

Title
Assess Model Fit

Tags
205572, 6

Learning Outcome
Use residuals and influence diagnostics to assess model fit, agreement with regression assumptions, and identify outliers and influential observations

Title
Scientific Literature

Tags
205591, 7

Learning Outcome
Critically read scientific literature of their field involving parametric linear models with a continuous response

Title
ANOVA

Tags
205622, 4

Learning Outcome
Fit a one-way ANOVA and construct an interpret the ANOVA table in JMP (or other software)

Title
JMP

Tags
205666, 2

Learning Outcome
Use JMP (or other software) to read in data and compute numerical and graphical summaries of the data

Title
T-Test

Tags
205704, 3

Learning Outcome
Use a t-test (one-sample, paired, and two-sample) to perform inference on means and know what the assumptions for use are

STAT 512 - Statistical Methods for Research 2

Learning Outcomes

Title
Two-Way ANOVA

Tags
205495, 1

Learning Outcome
Fit a two-way ANOVA and interpret the main effects and interaction

Title
Fixed and Random Effects

Tags
205511, 2

Learning Outcome
Explain the differences between fixed and random effects and interpret computer output from mixed model analyses

Title
Construct Designs

Tags
205512, 8

Learning Outcome
Construct a factorial design and a screening design

Title
Interpret and Calculate

Tags
205605, 5

Learning Outcome
Interpret and calculate odds, odds ratios, risk differences, and relative risks from 2x2 contingency tables and describe which measures are justified in prospective and retrospective studies

Title
Multivariate Data

Tags
205657, 4

Learning Outcome
Recognize multivariate data, and appropriately carry out principal components analysis and canoncial correlation analysis using statistical software

Title
Assess Associations

Tags
205688, 6

Learning Outcome
Use X^2 tests and Fisher's Exact tests to assess associations in 2x2 contingency tables

Title
Fit and Interpret

Tags
205715, 7

Learning Outcome
Fit and interpret simple generalized linear regression models (binary response data and count response data) and draw appropriate conclusions justified by the study design

Title
Evidence of Autocorrelation

Tags
205731, 3

Learning Outcome
Identify evidence of autocorrelation and fit an ar(1) model to analyze continuous time series data

STAT 530 - Applied Regression and Generalized Linear Models

Course Information

Course Number
530

Teaching Area
STAT

Course Title
Applied Regression and Generalized Linear Models

Course Description
This course introduces key tools for building and evaluating statistical models used in real-world data analysis. Students will learn how to apply and interpret linear and generalized linear models, assess model fit, and use modern techniques like regularization and flexible modeling. The course emphasizes practical data analysis, clear communication of results, and ethical statistical practice. It is designed to help students bridge the gap between applied work and statistical theory while building a broad foundation in modeling methods.

Type
Prerequisite

Complete ALL of the following Courses:
- STAT 330 - Statistical Modeling 2
- MATH 213 - Elementary Linear Algebra

Learning Outcomes

Title
Random Vectors and Multivariate Normal Distribution

Learning Outcome
Work with expectation and variance-covariance matrices of real-valued random vectors, and linear combinations thereof.

Title
Random Vectors and Multivariate Normal Distribution

Learning Outcome
Apply linear transformations to multivariate normal random vectors.

Title
Regression Foundations & Model Diagnostics

Learning Outcome
Use exploratory data analysis to identify unique attributes of a dataset that need to be considered for model selection and the research questions of interest.

Title
Regression Foundations & Model Diagnostics

Learning Outcome
Apply multiple regression and GLMs, assessing key assumptions and diagnosing model fit using residuals, confidence intervals, influence measures, and goodness-of-fit statistics.

Title
Regression Foundations & Model Diagnostics

Learning Outcome
Explain and apply the Gauss-Markov theorem, demonstrating why the OLS estimator is the BLUE under the classical linear regression assumptions.

Title
Design Matrices & Model Specification

Learning Outcome
Construct and interpret design matrices, encoding categorical predictors, interactions, and polynomial terms appropriately.

Title
Design Matrices & Model Specification

Learning Outcome
Analyze design matrices, considering identifiability, multicollinearity, and confounding.

Title
Design Matrices & Model Specification

Learning Outcome
Explain and justify GLM specifications, including link functions, likelihood-based inference, and distributional choices.

Title
Logistic and Multinomial Regression

Learning Outcome
Fit and interpret logistic regression models, calculating odds ratios and classification metrics, and diagnosing model fit.

Title
Logistic and Multinomial Regression

Learning Outcome
Extend logistic regression to binomial, ordinal, and multinomial responses, selecting appropriate modeling techniques.

Title
Logistic and Multinomial Regression

Learning Outcome
Make predictions and determine confidence intervals using the fitted model.

Title
Model Selection and Regularization

Learning Outcome
Select a loss function appropriate for a given data and model type (e.g., MSE, classification metrics, deviance).

Title
Model Selection and Regularization

Learning Outcome
Implement and interpret penalized regression techniques (ridge, lasso, elastic net).

Title
Model Selection and Regularization

Learning Outcome
Implement model selection techniques (e.g., AIC, BIC, cross-validation) while critically evaluating model complexity and interpretability.

Title
Model Selection and Regularization

Learning Outcome
Describe the effects of underfitting and overfitting on inferences and on predictions.

Title
Model Extensions & Advanced Topics

Learning Outcome
Construct flexible regression models using basis expansions, splines, and kernel methods.

Title
Model Extensions & Advanced Topics

Learning Outcome
Evaluate model performance using classification metrics and predictive validation techniques.

Title
Writing, Communication, and Interpretation

Learning Outcome
Communicate statistical results clearly in writing and presentations, tailoring explanations for different audiences.

Title
Writing, Communication, and Interpretation

Learning Outcome
Construct well-labeled visualizations and tables that effectively convey insights while avoiding misinterpretation.

Title
Professional Integrity and Accountability in Statistical Practice

Learning Outcome
Apply ethical statistical practices by ensuring methodological validity, reproducibility, and fair decision-making.

Title
Professional Integrity and Accountability in Statistical Practice

Learning Outcome
Demonstrate professional integrity by resisting biased interpretations, acknowledging contributions, and adhering to ethical guidelines.

STAT 531 - Experimental Design and Causal Inference

Course Information

Teaching Area (new)
STAT

Complete ALL of the following Courses:

- MATH 213 - Elementary Linear Algebra
  AND STAT 330 - Statistical Modeling 2
  AND STAT 340 - Probability and Inference 2

Learning Outcomes

Title
Understand and Identify Sources of Confounding

Tags
205535, 3

Learning Outcome
Recognize sources of confounding and bias in observational data and the need for experimental design and causal inference methods.

Title
Data Collection

Tags
205588, 4

Learning Outcome
Develop and execute a robust plan for data collection to ensure high-quality data that aligns with the experimental objectives.

Title
Account for Experimental Factors

Tags
205633, 6

Learning Outcome
Account for experimental factors using tools such as randomization, blocking, interactions, and random effects.

Title
Exposure to Contemporary Design Methods

Tags
205678, 5

Learning Outcome
Explore contemporary approaches to experimental design, such as adaptive designs and high-dimensional factor screening.

Title
Design of Experiments Ethics

Tags
205695, 1

Learning Outcome
Ensure experimental designs are practical, cost-effective, and ethically sound, considering constraints such as time, budget, and ethical implications of data collection.

Title
Explain Causality

Tags
205698, 2

Learning Outcome
Explain foundational concepts of causality, including counterfactuals, the potential outcomes framework, and causal estimands of interest.

Title
Construct Causal Diagrams

Learning Outcome
Construct causal diagrams (i.e., Directed Acyclic Graphs, DAGs) to represent assumptions about causal relationships.

Title
Control for Confounding

Learning Outcome
Implement and know when to use various strategies to control for confounding, including matching, weighting, and regression adjustment.

Title
Implement and Interpret Quasi-experimental Methods

Learning Outcome
Implement and interpret methods such as instrumental variables, difference-in-differences, and regression discontinuity designs.

Title
Causal Inference Ethics

Learning Outcome
Discuss the ethical implications and challenges of causal analysis in various contexts.

STAT 537 - Mixed Model Methods

Course Information

Teaching Area (new)
STAT

Course Number
537

Teaching Area
STAT

Course Title
Mixed Model Methods

Course Description
Fixed effects, random effects, repeated measures, nonindependent data, general covariance structures, estimation methods.

Department
Statistics

When Taught

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- STAT 535 - Linear Models (Inactive)

Learning Outcomes

Title
Explain Fixed vs Random Effects

Tags
205513, 2

Learning Outcome
Students will be able to explain the difference between fixed and random effects in the context of linear mixed models

Title
Apply Mixed Models

Tags
205557, 5

Learning Outcome
Students will be able to appropriately apply mixed models to deal with nonindependent data and a variety of covariance structures

Title
Evaluate Model Fit

Tags
205602, 4

Learning Outcome
Students will be able to evaluate the fit of the mixed model using Cholesky residuals

Title
Perform Analyses

Tags
205737, 3

Learning Outcome
Students will be able to perform and interpret frequentist analyses of mixed models using professional statistical software

Title
Perform Bayesian Analysis

Tags
205778, 6

Learning Outcome
Students will be able to perform and interpret full Bayesian analyses of mixed models using professional statistical software

Title
Seek Divine Help

Tags
205881, 1

Learning Outcome
Students will understand the importance of thoughtful prayer as they contemplate difficult concepts

STAT 538 - Survival Analysis

Course Information

Teaching Area (new)
STAT

Course Number
538

Teaching Area
STAT

Course Title
Survival Analysis

Course Description
Basic concepts of survival analysis; hazard functions; types of censoring; Kaplan-Meier estimates; Logrank tests; proportional hazard models; examples drawn from clinical and epidemiological literature.

Complete ALL of the following Courses:

- STAT 330 - Statistical Modeling 2
  AND STAT 340 - Probability and Inference 2

Learning Outcomes

Title
Effectively Communicate

Tags
205527, 7

Learning Outcome
Be able to effectively communicate the results of data analyses

Title
Formal Analysis in Different Settings

Tags
205556, 5

Learning Outcome
Conduct formal analysis in high-dimensional, low-sample size settings

Title
Formal Comparison

Tags
205569, 3

Learning Outcome
Conduct formal comparison of survival functions for two samples

Title
Estimation

Tags
205626, 2

Learning Outcome
Conduct estimation of the survival function for a single sample

Title
Theory of Survival Analysis Methods

Tags
205699, 1

Learning Outcome
Understand the basic underlying theory of survival analysis methods

Title
Assess Appropriateness

Tags
205709, 6

Learning Outcome
Be able to assess the appropriateness of the use of methods for a given data set (given the scientific questions of interest and given the data characteristics)

Title
Formal Analysis

Tags
205732, 4

Learning Outcome
Conduct formal analysis through incorporation of covariates

STAT 586 - Statistical and Machine Learning

Course Information

Course Number
586

Teaching Area
STAT

Course Title
Statistical and Machine Learning

Course Description
This course introduces foundational concepts and methods in statistical machine learning, with an emphasis on supervised and unsupervised learning, optimization, and model assessment. Topics include decision trees, ensemble methods, support vector machines, neural networks, clustering, and dimension reduction, along with interpretability and ethical considerations. Students will implement models using modern statistical software, develop reproducible workflows, and explore the theoretical principles guiding modern machine learning approaches.

Department
Statistics

When Taught
Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Simple Requisites

Prerequisite

Type
Prerequisite

Complete ALL of the following Courses:

- STAT 530 - Applied Regression and Generalized Linear Models
  AND STAT 624 - Statistical Computation
  AND STAT 641 - Probability Theory and Mathematical Statistics 1

Learning Outcomes

Title
Foundations of Machine Learning and Statistical Perspectives

Learning Outcome
Define and compare statistical and machine learning models, emphasizing function space perspectives, bias-variance tradeoff, and generalization.

Title
Foundations of Machine Learning and Statistical Perspectives

Learning Outcome
Explain empirical risk minimization (ERM) and its role in supervised learning.

Title
Foundations of Machine Learning and Statistical Perspectives

Learning Outcome
Apply resampling techniques (e.g., cross-validation, bootstrap) to assess model performance.

Title
Optimization for Machine Learning

Learning Outcome
Understand and apply key optimization techniques relevant to ML, including gradient-based methods and convex optimization principles.

Title
Optimization for Machine Learning

Learning Outcome
Derive and implement optimization algorithms for common ML models (e.g., logistic regression, neural networks).

Title
Supervised Learning: Classification and Regression

Learning Outcome
Compare and implement key supervised learning methods, including decision trees, random forests, boosting, and support vector machines.

Title
Supervised Learning: Classification and Regression

Learning Outcome
Analyze the theoretical properties of different algorithms in terms of consistency, overfitting, and computational complexity.

Title
Neural Networks and Deep Learning

Learning Outcome
Develop and train neural networks, implementing backpropagation and gradient-based optimization.

Title
Neural Networks and Deep Learning

Learning Outcome
Understand key architectures (MLPs, CNNs, RNNs) and their applications.

Title
Neural Networks and Deep Learning

Learning Outcome
Implement models using deep learning libraries in Python (e.g., PyTorch or TensorFlow)

Title
Interpretable and Ethical AI

Learning Outcome
Explore basic model interpretability techniques such as SHAP values and partial dependence plots.

Title
Interpretable and Ethical AI

Learning Outcome
Discuss ethical concerns in ML, including bias mitigation strategies.

Title
Unsupervised Learning and Dimension Reduction

Learning Outcome
Implement clustering techniques (k-means, hierarchical clustering, DBSCAN) and evaluate their performance.

Title
Unsupervised Learning and Dimension Reduction

Learning Outcome
Formulate dimension reduction as an optimization problem, deriving PCA and understanding nonlinear methods such as t-SNE and UMAP.

Title
Model Selection and Performance Evaluation

Learning Outcome
Apply hyperparameter tuning techniques, including grid search, random search, and Bayesian optimization.

Title
Model Selection and Performance Evaluation

Learning Outcome
Use cross-validation and information criteria (e.g., AIC, BIC) to compare models.

Title
Software Implementation and Reproducibility

Learning Outcome
Implement machine learning models efficiently using R and Python.

Title
Software Implementation and Reproducibility

Learning Outcome
Develop and maintain reproducible ML pipelines for data processing, training, and evaluation.

STAT 590R - Statistical Consulting

Tags
205517, 0

Learning Outcome
The primary learning outcome of this course is to prepare students for part of Exam C offered by the Society of Actuaries.

Title
Estimation

Tags
205613, 4

Learning Outcome
Recognize, understand, and complete problems related to constructing parametric models: estimate parameters, apply unbiasedness, consistency, UMVUE, and MSE to survival, severity, frequency, and aggregate models.

Title
Survival/Severity/Frequency/Aggregate Models

Tags
205630, 1

Learning Outcome
Recognize, understand, and complete problems related to Survival, Severity, Frequency and Aggregate models. Learn how to model data for each of these.

Title
Risk

Tags
205661, 2

Learning Outcome
Recognize, understand, and complete problems related to basic risk measures.

Title
Simulation and Resampling

Tags
205668, 5

Learning Outcome
Recognize, understand, and complete problems related to learning simulation and resampling methods for model validation.

Title
Empirical Models

Tags
205701, 3

Learning Outcome
Recognize, understand, and complete problems related to fitting empirical models to data and applying statistical estimation procedures.

Apply Knowledge

Tags
205498, 1

Learning Outcome
Apply classroom knowledge and skills to day-to-day statistical tasks

Title
Effective Written and Oral Communication

Tags
205518, 6

Learning Outcome
Demonstrate effective written and oral communication skills as they report on their internship experience

Title
Effectively Communicate

Tags
205581, 5

Learning Outcome
Effectively communicate results of statistical analyses to clients, supervisors, and colleagues

Title
Appropriate Dress and Etiquette

Tags
205644, 4

Learning Outcome
Practice appropriate dress and etiquette in varied business settings

Title
Personal Career Goals

Tags
205717, 2

Learning Outcome
Explore personal career goals and expectations

Title
Problem Solving Skills

Tags
205723, 3

Learning Outcome
Develop problem solving skills

STDEV 100 - Essential College Skills

Fixed:
0

Other Prerequisites
Admission to the BGS program.

Note
Offered only through the Bachelor of General Studies program.

Learning Outcomes

Title
Study Skills

Tags
191537, 5

Learning Outcome
3. Add new study and test preparation (study) skills to their existing repertoire.

Title
Educational Goals

Tags
206380, 1

Learning Outcome
1. Articulate their educational values and goals and how they align with the purposes of a BYU education.

Title
Time Management

Tags
206418, 3

Learning Outcome
2. Analyze the effectiveness of their own planning/scheduling system and be able to demonstrate that they understand sound time management and goal setting principles.

Title
Note Taking

Tags
206252, 3

Learning Outcome
Students will be able to produce course lecture notes using a systematic note-taking system.

Title
Test-Preparation and Test-Taking

Tags
206344, 5

Learning Outcome

Students will be able to apply effective college test-preparation and test-taking strategies.

Title
Memory

Tags
206348, 1

Learning Outcome

Students will be able to apply intentional memorization strategies.

Title
Reading

Tags
206362, 2

Learning Outcome

Students will demonstrate the application of effective college reading strategies.

Title
Time Management

Tags
206392, 0

Learning Outcome

Students will be able to apply individualized time management strategies to their coursework and other activities.

STDEV 117 - Career Exploration

Course Information

Teaching Area (new)
STDEV

Course Number
117

Teaching Area
STDEV

Course Title
Career Exploration

Course Description
Applying theories of individual, academic, and career development to the university student. Exploring university opportunities and college majors; graduation planning.

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Resources

Tags
206200, 3

Learning Outcome
Display an awareness of and ability to access educational and career information resources.

Title
Personal Awareness

Tags
206207, 1

Learning Outcome
Develop greater awareness of personal qualities, interests, skills, and values that play a role in career-decision making.

Title
Increased Confidence

Tags
206247, 2

Learning Outcome
Demonstrate increased confidence and ability to make decisions as well as progress towards making career decisions.

Title
Knowledge of Career Choices

Tags
206383, 0

Learning Outcome
Increase knowledge of college majors, career options, and additional world-of-work factors that influence career choice.

STDEV 120 - International Student Orientation

Course Information

Teaching Area (new)
STDEV

Course Number
120

Teaching Area
STDEV

Course Title
International Student Orientation

Course Description
Understanding the American education system, the unique religious and academic cultures at BYU, and government regulations of F-1 visa status.

Department
Student Development

When Taught
Fall Term 1; Winter Term 1.

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

Note
For international students.

Learning Outcomes

Title
Awareness of services

Tags
207973, 1

Learning Outcome
1. Students will become familiar with the staff of International Student and Scholar Services and the services provided.

Title
Academic resources

Tags
207974, 2

Learning Outcome
2. Students will become familiar with the academic resources and support services available on campus.

Title
Visa regulations

Tags
207975, 3

Learning Outcome
3. Students will understand their responsibility regarding the visa regulations required to maintain F-1 status in the United States.

Title
Cultural appreciation

Tags
207976, 4

Learning Outcome
4. Students will gain a greater understanding of the US culture and express an appreciation for their own culture.

Title
Social integration

Tags
207977, 5

Learning Outcome
5. Students will feel more integrated into the BYU community.

Title
Knowledge

Tags
214475, 0, 1, 2023-08-29 12:42:10

Learning Outcome
Students will understand advanced Peer Educator skills. These include mentoring, tutoring, being a teaching assistant, etc.

Title
Performance

Tags
214476, 0, 2, 2023-08-29 12:42:12

Learning Outcome
Students will achieve CRLA advanced-level proficiency in peer education.

Title
Affective

Tags
214477, 0, 3, 2023-08-29 12:42:13

Learning Outcome
Students will appreciate the value of being a peer educator for specific groups.

STDEV 140 - Life Planning and Decision Making

Course Information

Teaching Area (new)
STDEV

Course Number
140

Teaching Area
STDEV

Course Title
Life Planning and Decision Making

Course Description
Individual development in life planning and decision making, emphasizing personal maturity, goal setting, and decision making abilities in areas of common concern to young adults.

Department
Student Development

When Taught
All Semesters/Terms

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Time Management

Tags
206198, 4

Learning Outcome
Learn the principles of time management and how it applies to decision making and life planning.

Title
Goal Setting

Tags
206199, 3

Learning Outcome
Learn the components of goal setting and accomplishment and be able to set attainable goals for yourself.

Title
Developmental Theories

Tags
206340, 0

Learning Outcome
Understand developmental theories as they relate to young adult development, and evaluate your individual progress within the scope of these theories.

Title
Decision Making

Tags
206372, 1

Learning Outcome
Learn the main components of decision making and come to a better understanding of your personal decision making style and ways in which you may want/need to adapt it to better suit your needs.

Title
Personality Development

Tags
206459, 2

Learning Outcome
Become familiar with basic concepts of personality development and be able to identify your individual personality strengths and challenges.

STDEV 141R - Individual Development

Course Information

Learning Outcomes

Title
Identify Values

Tags
214659, 0, 2

Learning Outcome

Students will identify and develop values that guide their actions.

Title
Alignment with Values

Tags
214660, 0, 3

Learning Outcome

Students will analyze how their actions align with their values.

Title
Disagreement

Tags
214662, 0, 4

Learning Outcome

Students will learn to respectfully disagree with others while maintaining integrity.

Title
Recognition

Tags
214663, 0, 5

Learning Outcome

Students will recognize instances of integrity or lack thereof in the world around them.

Title
Purpose of BYU

Tags
214664, 0, 6

Learning Outcome

Students will know and understand the purpose of BYU and their commitments to the institution.

Title
Integrity and Honesty

Tags
214658, 0, 1

Learning Outcome

Students will commit to live a life of integrity and to be honest in everything they do.

Learning Outcomes

Title
Application of Strategies

Tags
207992, 2

Learning Outcome
2. Students will be able to select, adapt, and practice the reading strategies that make the greatest contribution to understanding, learning and reasoning from that particular text and situation.

Title
Increased Speed and Comprehension

Tags
207993, 3

Learning Outcome
3. Students will demonstrate improvement from their baseline reading speed and comprehension rates.

Title
Increased Confidence

Tags
207994, 4

Learning Outcome
4. Students will increase their confidence in being able to read any academic text with engagement and understanding.

Title
Understanding of Strategies

Tags
207995, 1

Learning Outcome
1. Students will understand and be able to explain each strategy, why it is important, how to do it, and when or under what conditions to apply it.

Title
Increased Speed Device

Tags
207996, 5

Learning Outcome
5. Students will understand how to use a 'speeding up' device to increase their personal reading speed with comprehension.

STDEV 214R - Special Topics in Student Development

STDEV

Course Number
365

Teaching Area
STDEV

Course Title
Legal Education and Practice

Course Description
Successful legal education and practice. Preparation for those planning to attend law school.

Department
Student Development

When Taught
Fall and Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Learning Outcomes

Title
Assimilation

Tags
206210, 4

Learning Outcome
Students will practice assimilating all legal research into a deliverable final product (memo/brief)

Title
Legal Research

Tags
206244, 2

Learning Outcome
Students will understand the major secondary sources used in legal research.

Title
Legal Cases

Tags
206286, 1

Learning Outcome
Students will be able to read, understand, and brief a legal case.

Title
Communication

Tags
206290, 3

Learning Outcome
Students will learn how to effectively communicate with others (focusing on legal aspects)

Title
Law School Examination

Tags
206353, 1

Learning Outcome
Students will be able to effectively study and prepare for a law school final examination.

Learning Outcomes

Title
Pre-Law Review

Tags
206266, 0

Learning Outcome
Understand the procedure for publishing the Prelaw Review.

Title
Citation Guide

Tags
206270, 1

Learning Outcome
Know how to use the Bluebook citation style guide.

Title
Writing Skills

Tags
206284, 2

Learning Outcome
Improve essential legal writing skills.

Title
Relationships

Tags
206411, 3

Learning Outcome
Work effectively in writing and editing relationships.

Tags
206255, 1

Learning Outcome
2. Know how to use the Bluebook citation style guide.

Tags
206317, 2

Learning Outcome
3. Improve essential legal writing skills.

Tags
206338, 3

Learning Outcome
4. Work effectively in writing and editing relationships.

Tags
206370, 0

Learning Outcome
1. Understand the procedure for publishing the Prelaw Review.

STDEV 375 - Dental School Preparation Laboratory Experience

Course Information

Teaching Area (new)
STDEV

Course Number
375

Teaching Area
STDEV

Course Title
Dental School Preparation Laboratory Experience

Course Description
Dental laboratory practices; tooth terminology, morphology, and anatomy. Procedures including oral pathology, diagnosis, and X-rays.

Department
Student Development

When Taught
Fall and Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
2

Learning Outcomes

Title
2. Dental terminology and current issues

Tags
206241, 2

Learning Outcome
Students will learn basic dental terminology and current issues in dentistry to better prepare them for the dental school interviewing process.

Title
1. General knowledge of dentistry

Tags
206359, 1

Learning Outcome
Students will gain a basic understanding of dental sciences in preparation for their first semesters of dental school.

Title
3. Manual dexterity

Tags
206401, 3

Learning Outcome
Students will develop manual dexterity for skills that are required to perform dentistry.

STDEV 399R - Student Leadership Internship

Other Prerequisites
MAcc or MISM major status.

Learning Outcomes

Title
Effective Communication

Tags
176074, 6

Learning Outcome
Communicate effectively, both orally and in writing, concerning strategy concepts, models, and analyses.

Title
Decision Making

Tags
176147, 4

Learning Outcome
Make appropriate decisions when formulating and implementing strategy.

Title
Strategic Recommendations

Tags
176185, 1

Learning Outcome
Apply analytical models to complex business situations and generate strategic recommendations.

Title
Analyzing Business Environments

Tags
176214, 2

Learning Outcome
Critically analyze the external and internal environments of a business organization and formulate appropriate strategies.

Title
Elements of Strategy

Tags
176313, 0

Learning Outcome
Understand the major elements of strategy and the drivers of competitive advantage.

Title
Problem Solving Skills

Tags
176314, 3

Learning Outcome
Use problem-solving skills to develop hypotheses about the effect of strategic decisions that lead to sensible conclusions.

Title
Team Skills

Tags
176315, 5

Learning Outcome
Use team skills to actively participate in group projects and assume and exercise responsibility in a collaborative mode.

STRAT 585R - Pre-PhD Strategy Seminar

Course Information

Teaching Area (new)
STRAT

Course Number
585R

Teaching Area
STRAT

Course Title
Pre-PhD Strategy Seminar

Course Description
This seminar provides students with an introduction to the theory, methods, and areas of research in strategy, with a goal of helping students prepare to apply to strategy PhD programs. This seminar introduces the philosophy of science and research as applied to the study of strategy. Students will develop an understanding of the methods and theory that are foundational to the study and practice of strategy. \n

Note
Teacher may waive prerequisite based on prior experience. Culminating course for GE Languages of Learning requirement. Not an entry course for returned missionaries.

Learning Outcomes

Title
Communication Skills

Tags
197143, 1

Learning Outcome
In both written and spoken target language, communicate with reasonable accuracy about real-world activities with well-educated members of the target-culture accustomed to dealing with non-native speakers.

Title
Comprehension

Tags
197144, 2

Learning Outcome
Understand every-day written and verbal instructions. Comprehend concrete details and global meaning of intermediate-level written and spoken passages related to familiar topics that native speakers encounter routinely in their daily life.

Title
Cultural Knowledge

Tags
197145, 3

Learning Outcome
Discuss in the target language cultural practices related to every-day life in the target culture. Acquire basic background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.).

Title
General Education Requirements

Tags
197146, 4

Learning Outcome
Complete Languages of Learning and Global & Cultural Awareness for General Education.

Course Title
Advanced Language Proficiency Through Cultural Studies: Swedish

Course Description
Study of Swedish culture using interpersonal, presentational, and interpretive skills in the target language.

Department
Language Studies

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Swed 202 or equivalent experience.

Note
Required course for obtaining language credit by examination. This course replaces the former 321 course; students who have taken 321 may not take 330.

Learning Outcomes

Title
Critical Thinking

Tags
190608, 1

Learning Outcome
Students will demonstrate critical thinking skills through literary analysis, debate, dealing with unanticipated complications in conversation, forming and supporting opinions, and presenting on topics of general interest.

Title
Culture

Tags
190609, 2

Learning Outcome
Students will explain how common cultural products and practices relate to cultural perspectives. They will interact with cultural competence in familiar and some unfamiliar contexts.

Title
Reading and Listening

Tags
190610, 4

Learning Outcome
Students will demonstrate reading and listening comprehension of Advanced level texts such as narrative, descriptive, and explanatory texts. They will demonstrate a broad vocabulary regarding concrete, general interest topics such as education, work, government, and topics in the news.

Title
Writing and Speaking

Tags
190615, 3

Learning Outcome
Students will write and speak using cohesive paragraphs on topics of personal and general interest. Students will demonstrate control of frequently used structures and will write and speak with Advanced level accuracy.

Recommended
Swed 321 or equivalent experience

Note
Culminating course for GE Foreign Language requirement.

Learning Outcomes

Title
Analytic and Writing Skills

Tags
190401, 1

Learning Outcome
Students should be able to insightfully analyze important literary and artistic works from Swedish cultural history and be able to communicate this analysis through articulate and well-organized written and oral presentations in Swedish. Students will also develop basic research skills.

Title
Cultural Literacy

Tags
190553, 2

Learning Outcome
Students will be able to relate the ideas and issues raised by the works studied in class to their own cultural situation as well as to their experience with contemporary Swedish culture. They will reflect upon and develop an appreciation for the expression of ideas that make up Swedish cultural history and even value the expression of perspectives and opinions they do not necessarily share.

Title
Life-Long Learning

Tags
191527, 6

Learning Outcome
Students should better know how to understand, interpret, and thoughtfully reflect upon the literature and art they will encounter in later life.

Title
Swedish Culture

Tags
191528, 4

Learning Outcome
Students should understand key historical trends and works from Swedish culture, recognize connections between these works, and be able to relate them to the development of contemporary cultural developments.

- TAGAL 201 - Second-Year Language Study: Filipino, Tagalog

Note
Teacher may waive prerequisite based on prior experience. Culminating course for GE Languages of Learning requirement. Not an entry course for returned missionaries.

Learning Outcomes

Title
Communication Skills

Tags
197057, 1

Learning Outcome
In both written and spoken target language, communicate with reasonable accuracy about real-world activities with well-educated members of the target-culture accustomed to dealing with non-native speakers.

Title
Comprehension

Tags
197058, 2

Learning Outcome
Understand every-day written and verbal instructions. Comprehend concrete details and global meaning of intermediate-level written and spoken passages related to familiar topics that native speakers encounter routinely in their daily life.

Title
Cultural Knowledge

Tags
197059, 3

Learning Outcome
Discuss in the target language cultural practices related to every-day life in the target culture. Acquire basic background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.).

Title
General Education Requirements

Tags
197060, 4

Learning Outcome
Complete Languages of Learning and Global & Cultural Awareness for General Education.

TAGAL

Course Title
Language Skills Development: Filipino, Tagalog

Course Description
Increasing proficiency in one or more of the following Tagalog language and culture skills: speaking, listening, reading, writing, cultural awareness.

Department
Language Studies

When Taught
Contact Department

Credit Hours

Min:
1

Fixed/Max:
4

Other Prerequisites
Instructor's consent.

Learning Outcomes

Title
Defined Special Purpose

Tags
197094, 1

Learning Outcome
Develop the overall language and cultural competence to meet the needs of a "special" purpose identified by the Center for Language Studies.

Title
Communication

Tags
197096, 2

Learning Outcome
Communicate effectively enough to function in a variety of situations likely to be encountered when dealing with native speakers associated with the special purpose. This may include interpersonal, interpretive, and presentational (written and oral) modes of communication.

Title
Cultural Competence

Tags
197098, 3

Learning Outcome
Interact with cultural competence and understanding when dealing with native speakers associated with the special purpose.

TAGAL 321 - Advanced Grammar: Filipino, Tagalog

Learning Outcomes

Title
Communication Skills

Tags
196952, 1

Learning Outcome
In both written and spoken target language, communicate with reasonable accuracy about real-world activities with well-educated members of the target-culture accustomed to dealing with non-native speakers.

Title
Comprehension

Tags
196953, 2

Learning Outcome
Understand every-day written and verbal instructions. Comprehend concrete details and global meaning of intermediate-level written and spoken passages related to familiar topics that native speakers encounter routinely in their daily life.

Title
Cultural Knowledge

Tags
196954, 3

Learning Outcome
Discuss in the target language cultural practices related to every-day life in the target culture. Acquire basic background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.).

Title
General Education Requirements

Tags

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- TELL 435 - Language and Literacy Instruction in K-12 Dual Immersion Settings
  AND TELL 445 - Content-Based Language Instruction in K-12 Dual-Language Immersion Settings

Other Prerequisites
FBI fingerprint background clearance; Language teaching methods in the target language; Passing OPI at advanced-mid; Praxis II.

Learning Outcomes

Title
TELL 478R Course Outcomes

Tags
178893, 1

Learning Outcome
Students who successfully complete this course will:

Successfully use formative assessment strategies for individual students to determine instructional level in the target language.
Determine comprehensible instructional input necessary for effective learning in a dual-immersion setting.
Successfully organize, plan, implement and evaluate a unit of instruction in their target language in a dual-immersion setting. The unit will align with the Utah State common core curriculum, provide accommodations or modification strategies required for individual students being instructed, and evaluate language and academic development.

Learning Outcome

Historical Development: Introduce students to past communication technologies, with a focus on their development, usability, sustainability, evolution, and relative impact on: society, politics, economy, environment, and leisure.
Ethics: Help students develop an understanding of the ethical development and use of communication technologies.
User and Actor Skills: Help students develop the skills to not only be users, but actors in the positive development and evolution of society's Technology (Postman, 1999).
Tools and Services: Expose and train students in a broad range of communication technology tools and services (i.e., media authoring, desktop publishing, web authoring, HTML and CSS languages, Java and JavaScript, social media, Video and TV production, RSS and ATOM feeds and subscriptions, Vod and podcasting, digital photography (techniques, tools, storage), computer hardware and networking issues, GPS technologies, and 3D modeling.
Technology Assessment: Throughout this semester students will be asked to collect, implement, and assess the relative value of various contemporary technologies, and will be asked to discuss if and how the technologies should be used in classrooms and in the world.

Learning Outcome

Students will be able to visualize how components are joined and how to communicate this through drawings and specifications.
Students will understand the properties of wood as a material and how these properties impact design of projects using wood and wood products.
Students will select and use subtractive processes in prototype construction: sawing, shaping, milling, turning, routing, etc.
Students will select and use additive processes in prototype construction: joining, laminating, fastening, etc.
Students will be able to identify, and use hand tools including tools for measuring, layout, sawing, planing, scraping, shaping, clamping, drilling, driving, and sharpening.
Students will be able to accurately set-up and safely use woodworking machinery including the jointer, surface planer, table saw, panel saw, radial arm saw, power miter saw, bandsaw, thickness sander, mortiser, boring machine, lathe, and drill press.
Students will have experience with the use of electric, pneumatic, and cordless power hand tools including routers, drills, and sanders.
Students will be able to apply methods of clamping, gluing, and assembly, sanding, and finishing.
Students will experience practical problem solving in working with industrial materials, tools, and machines.
Students will experience the importance of caring, hard work, planning, initiative, and patience, in making a project that is well designed, includes quality workmanship, and is nicely finished.
Students will learn concepts and methods of teaching safe use of woodworking equipment.
Students will be able to apply basic machine and hand tool maintenance.

Title
Overview

Tags
214682, 0, 1

Learning Outcome
This course is designed to give you and introduction to programming and give you some basic skills and knowledge with the Python programming language and front end web development using HTML, CSS, and Javascript. This course will help you get a jump into the world of programming and give you a basic knowledge you need to move further into computer science. For those on the teaching track, we will cover some basic principles and structures that you would use in a begin programming or web development class.

Title
Outcomes

Tags
214683, 0, 2

Learning Outcome

Web Development

We will review HTML, CSS and Javascript structure and create a portfolio website using mobile first design and development. You will want to have images and/or video available to add to your website from other TES courses you have taken. This is a chance to show off what you have done. We will also learn to use libraries such as Bootstrap and JQuery to enhance our websites.

While both Python and HTML are considered coding, they differ in the way they are implemented and their uses. Therefore, we will spend the first half on python with a midterm test at the end of this module and the second half on HTML with a final at the end of that unit.

Python

We will learn some basic constructs of all programming languages using the Python language. These include variables, functions, libraries and classes. Class time will consist of half lecture and half lab work. You will be given programming assignments that be will written and tested in Repl. You may use each other and the internet as resources for help with construct and syntax, but your solutions should come from you.

Learning Outcome
Students will be able to describe the basic electronic concepts of voltage, amperage, resistance & power. Students will be able to use Ohm's and Watt's law to perform basic calculations in an electronic circuit. Students will be able to describe how voltage, amperage, power & resistance behave in series and parallel circuits and be able to calculate unknown quantities in a circuit. Students will be able to use a power supply, breadboard, basic components, and a digital multi-meter to build, test and troubleshoot basic electronic circuits. Students will be able to use a digital multi-meter, oscilloscope and digital logic probe to test, troubleshoot and repair faulty circuits. Students will be able to identify basic electronics components and describe the function of each component. Students will be able to identify and draw the basic schematic symbols used to represent electronics components in a circuit. Students will be able to use appropriate materials and equipment (including simulation software, CNC Mill, soldering iron) to design and build a working electronic circuit that is a solution to a technological problem and/or need. Students will be able to successfully calculate unknown quantities and complete labs associated with magnetism, electromagnetic induction, capacitors, semiconductors, transformers and alternating current. Based on a set of given inputs and desired outputs, students will be able to design a digital electronic circuit as a solution to a technological problem or need. Students will be able to collect technical data and to apply appropriate math and science knowledge to see the connections between technology and other fields of study. Students will be able to describe historical examples of discoveries, experiments, innovations and inventions related to electronics communications technology and be able to provide examples of technology transfer and how these technologies affected past and current society.

TEE 229 Course Outcomes - Level 2, Polymers Unit

Tags
181350, 2

Learning Outcome
Student will be able to:
1. Use an existing object to make a silicone mold for casting multiple identical objects.
2. Cast duplicate polyurethane objects in a silicone mold.
3. Vacuum form a sheet of plastic to a desired shape.
4. Lay-up a fiberglass mold to be used for casting a urethane foam object.
5. Cast a urethane (Nerf) foam object in a fiberglass mold.
6. Produce a polymer/wood composite.
7. Use a 3D printer to create a simple ABS prototype of an object.
8. Describe qualities of polymers as they pertain to design and polymer fabrication.
9. Understand the fundamental safety procedures and protocol associated to the various manufacturing and fabrication processes associated to the different polymer domains.
10. Evaluate the economic and environmental issues associated with the different polymers and their related manufacturing processes.

Title
TEE 229 Course Outcomes - Level 2, Metals Unit

Tags
181351, 3

Learning Outcome
Students will be able to:
1. Describe classifications, properties and characteristics of many different metals.
2. Identify and understand the different types of information indicated on a drawing.
3. Apply safe work habits when operating tools and equipment.
4. Accurately measure with and read a ruler, venier calipers, and various gauges.
5. Use tools to make a layout for a project.
6. Identify, select, and safely use basic hand tools in metalworking.
7. Identify and correctly use several types of metal fasteners.
8. Cut, bend and make a sheet metal project using several different tools.
9. Demonstrate the soldering and brazing process.
10. Demonstrate how to use an oxy-acetylene torch to cut metal.
11. Correctly use various tools to make a bench metal project.
12. Correctly select the rod and adjust arc welding equipment.
13. Correctly setup and adjust the current and feed rate for a MIG welder.
14. Use a MIG welder to strike an arc, run a bead, and make a butt and lap joint to given specifications.
15. Correctly use a metal lathe to make a specified project.
16. Correctly use a CNC mill to make a specified project.

Title
TEE 229 Course Outcomes - Level 2, Manufacturing and Free Enterprise Unit

Tags
181352, 3

Learning Outcome
Students will be able to work within an organization to:
1. Conduct market research for product selection.
2. Develop design drawings and engineering drawings.
3. Design and use jigs and fixtures in producing a finished product.
4. Develop a manufacturing system and produce multiples of a product.
5. Set up and conduct a manufacturing pilot run and production run.
6. Establish methods for quality control in manufacturing.
7. Organize a manufacturing enterprise.
8. Keep records relative to finances, labor, and material purchase and use.
9. Develop practices and attitudes for safe use of equipment and tools.

Students will understand:
1. Historical aspects and impacts of manufacturing.
2. Principles of manufacturing including material flow, converting raw materials and standard stock into finished products, economy of motion and material use, interchangeability of parts, product design for manufacture, and tasks involved in manufacturing a finished product.
3. Principles of free enterprise including types of ownership, product selection and design, marketing techniques, corporate structure in manufacturing, and record keeping.

Learning Outcome

Provide students an opportunity to gain an understanding of the technical, creative, and cultural, political, economic, and environmental impact of photography, television and film/video media.

Expose and train students in contemporary video, film, TV, and photography pre-production, production, and post-production techniques.

Expose and train students to effectively use contemporary video, film, TV, and photography tools (i.e., Final Cut Pro, DVD Studio, Studio Code, Adobe Creative Suite, Camera Switcher, HD Video, digital SLR cameras, Celtix [script writing], lighting and audio recording equipment, and so forth).
Teach students the primary elements of photography and TV/Film production, which are:

1. Principles of audio, including micing techniques and handling of common audio problems.
2. Camera placement and operations, including a basic understanding of camera color balancing and various important framing techniques.
3. Lighting techniques, including existing light, bounced light and three-point lighting.
4. Technical and production differences between standard definition (SDTV) and HDTV/DTV production.
5. Elements of effective visual composition.
6. Editing techniques: assembly and insert, on-line and off-line, linear and random access, and the use of time-code.
7. A general understanding of the pre-production, production, and post-production stages for both TV and film, including associated audio and video equipment.

Course Outcomes - Level 2

Tags
181339, 6

Learning Outcome

Students will prepare to teach communication technology - specifically graphic design in print and web formats. To accomplish this students will first learn the primary and fundamental theories of design, and develop associated skills and understanding by completing a variety of projects, including but not limited to: user experience designs for a variety of web applications, print designs in the form of advertisements and identity design. Second, students will design instructional ideas for use in both industry and educational settings (i.e., lesson and unit plans), which they will have evaluated by peers, instructor, and through application (i.e., they will teach their lesson plan(s) in an educational setting).
Students will be introduced to the visual communication profession and associated professional literature. Field trips, readings, and client work will be the primary methods of meeting these criteria.
Students will gain competency in applying the design principles in both print and web mediums. As note above the course assignments will provide the means for accomplishing this outcome. In addition, peer evaluations, and student presentations will help accomplish this outcome.

Learning Outcome
Educator Preparation Program Outcomes
This course is part of your preparation for licensure in a major or minor that is part of the BYU Educator Preparation Program (EPP). This course will help you fulfill the EPP Outcomes required for accreditation. Advisors in Education Student Services (350 MCKB / 801-422-3426) can answer questions you have about the licensure requirements (http://education.byu.edu/ess/licensing.html) for your teaching major or minor.
As students progress through the Technology and Engineering teacher education program, they should gain knowledge, dispositions and skills that will enable them to become effective teachers. The standards that encompass the knowledge, dispositions and skills that teachers should have are known as the UETS standards and can be found on the TEE Outcomes webpage. The following UETS standards will be addressed in this class (TEE 276).

Title
Course Outcomes - Levels 1 and 2

Tags
181340, 0, 2

Learning Outcome
Course Outcomes - Level 1 (Listed as STEL and UETS); Course Outcomes - Level 2 (Listed in the table and below as objectives and how assignments meet level 1 criteria).
Upon completion of this course students will:
Identify and demonstrate characteristics of an effective teacher, including:

Positive expectations
Classroom management
Lesson preparation
A knowledge of one's own strengths and weaknesses
Participate in clinical field experience to observe and to engage in meaningful education practices.
Research and present supplementary educational research materials.
Demonstrate an understanding of current issues facing public schools.
Reflect in writing, discussion, and assignment the effective teacher model and how it is reinforced through public school observation and experience.
Evaluate and assess one's own commitments and practices relative to teaching and learning with frequent reflections on teaching practices.

A description of how these will be met are outlined in the table below:

Course Objectives

UETS Standard (Utah Effective Teaching Standards)

Assignment

Assessment

Student will become aware of the UETS Standards and will select and reflect about course assignments using these standards.

Course Title
Creative Engineering and Problem Solving I

Course Description
This course is a hands-on experience centered on preparing students to teach middle school Technology & Engineering Education courses. During this course, students will be exposed to a wide breadth of topics, assignments, teaching styles, and activities within Technology & Engineering Education. Students will explore different pedagogical approaches in the context of career and technology education employment clusters and engage in iterative design, build, automate, test, and refine cycles (e.g., engineering design process)

Utah Effective Teaching Standards

UETS STANDARD 4- Content Knowledge: The teacher understands the central concepts, tools of inquiry, and structure of the discipline.

Standards for Engineering and Technological Literacy

STEL 1 Nature andCharacteristics ofTechnology andEngineering

1J. Develop innovative products and systems that solve problems and extend capabilities based on individual or collective needs and wants.

1K. Compare and contrast the contributions of science, engineering, mathematics and technology in the development of technological systems.

1L. Explain how technology and engineering are closely linked to creativity, which can result in both intended and unintended innovations.

1M. Apply creative problem-solving strategies to the improvement of existing devices or processes or the development of new approaches.

1N. Explain how the world around them guides technological development and engineering design.

1O. Assess how similarities and differences among scientific, mathematics, engineering, and technological knowledge and skills contributed to the design of a product or system.

1P. Analyze the rate of technological development and predict future diffusion and adoption of new technologies.

1R. Develop a plan that incorporates knowledge from science, methematics, and other disciplines to design and improve a technological product or system.

STEL 2 Core Concepts of Technology and Engineering

2M. Differentiate between inputs, processes, outputs, and feedback in technological systems.

2O. Create an open-loop system that has no feedback path and requires human intervention.

2P. Create a closed-loop system that has a feedback path and requires no human intervention.

2Q. Predict outcomes of a future product or system at the beginning of the design process.

2S. Defend decisions related to a design problem.

2V. Analyze the stability of a technological system and how it is influenced by all of the components in the system, especially those in the feedback

Learning Outcome

Course Outcomes - Level 2

1. Students will incorporate the concepts of group goals, individual accountability, group processing and practice interpersonal and small group skills in order to work cooperatively in a group engineering design project.
2. Students will incorporate various systems (e.g., electronic, mechanical, hydraulic, pneumatic, thermal) as they use the engineering design process to design an invention, innovation or solution to a design problem.
3. Students will know the steps of the engineering design process and then document and apply this process in building a solution to a design activity.
4. Students will use the steps of the engineering design process to innovate a new design solution to a common household item.
5. Students will create an operations manual (design portfolio) which includes a self-evaluation, peer evaluation, sketches made during the ideation stage, problem-solving log, copy of the computer program and final drawing of the engineering design project.
6. As a group, students will verbally and visually present their design portfolio to the rest of the class.
7. During the engineering design process, students will identify the constraints and limitations of the design problem, consider trade-offs, and then design, build a prototype, test, optimize and troubleshoot a design solution to a problem.
8. Students will collect technical data and then apply math and science knowledge in contextual setting.
9. Students will learn the basics of computer control systems, including, inputs, outputs, and feedback loops; and be able to design, build and program a microprocessor-driven system to drive a specific set of output devices based upon inputs to the system from various sensors and feedback mechanisms.
10. Students will build and program a robot as a solution to a given problem.
11. Students will know the basics of radio control devices and then use these principles to design a solution to a problem.
12. Students will identify a variety of engineering related curriculum resources that are currently available for them to use in their future classrooms.

Advisors in Education Student Services (350 MCKB / 801-422-3426) can answer questions you have about the licensure requirements (http://education.byu.edu/ess/licensing.html) for your teaching major or minor. As students progress through the Technology and Engineering Studies - Teaching Track, they should gain knowledge, dispositions and skills that will enable them to become effective teachers. The competencies that encompass the knowledge, dispositions and skills that teachers should have are outlined on the BYU Professional Teacher Candidate Assessment document. The following BYU Professional Teacher Candidate Assessment (BYU TCA) competencies will be addressed in this class (TES 377).

Title
Classroom Climate

Learning Outcome
Preservice teachers will design a classroom climate that will enable students to engage in successful learning activities as evidenced by the "Classroom Climate" competencies listed in the BYU Professional Teacher Candidate Assessment (BYU TCA).

Title
Instructional Practice

Learning Outcome
Preservice teachers will develop successful instruction practices as evidenced by the "Instructional Practice" competencies listed in the BYU Professional Teacher Candidate Assessment (BYU TCA).

Title
Learners and Learning

Learning Outcome
Preservice teachers will demonstrate evidence of knowledge of various types of classroom learners and evidence of learning as evidenced by the "Learners and Learning" competencies listed in the BYU Professional Teacher Candidate Assessment (BYU TCA).

Title
Instructional Clarity

Learning Outcome
Preservice teachers will be able to develop clear instruction that is structured and based upon valid learning outcomes as evidenced by the "Instructional Clarity" competencies listed in the BYU Professional Teacher Candidate Assessment (BYU TCA).

Title
Course Level Outcomes Level 2

Learning Outcome
1. Students will be able to identify the basic theories of student motivation and apply these theories to design classroom instruction for a technology and engineering classroom. 2. Students will be able to identify and differentiate between direct and inquiry- based instruction and to develop lesson plans using both instructional approaches. 3. Students will be able to develop instructional objectives that address cognitive, affective, and psychomotor domains of learning. 4. Students will be able to develop instructional objectives for each of the levels of Blooms taxonomy. 5. Students will be able to develop a disclosure document that outlines classroom procedures and student expectations appropriate for a T&E classroom. 6. Students will be able to identify instructional strategies and teaching methods that might be used in a T&E classroom and to incorporate these strategies into a lesson plan. 7. Students will be able to develop an assessment plan that includes strategies for formative and summative assessment in a T&E classroom. 8. Students will be able to develop a rubric for assessment of a technology and engineering classroom activity. 9. Students will be able to develop a plan for implementing problem solving strategies into their course instruction. 10. Students will be able to identify implications for how students learn; including addressing student pre-conceptions of course content, developing student competence in a content area, and developing strategies for meta-cognition. 11. Students will also be able to identify interventions for each of these areas. Students will be able to identify examples of student multiple intelligences and develop a plan for how this might affect instruction in the classroom. 12. Students will be able to describe appropriate procedures for implementing cooperative learning into classroom activities.

Classroom Climate

Tags
181063, 0, 1

Learning Outcome
Preservice teachers will design and implement in a practicum environment a classroom climate that will enable students to engage in successful learning activities as evidenced by the "Classroom Climate" competencies listed in the BYU Professional Teacher Candidate Assessment (BYU TCA).

Title
Instructional Practice

Learning Outcome
Preservice teachers will develop successful instruction practices as evidenced by the "Instructional Practice" competencies listed in the BYU Professional Teacher Candidate Assessment (BYU TCA).

Title
Learners and Learning

Learning Outcome
Preservice teachers will demonstrate evidence of knowledge of various types of classroom learners and evidence of learning in a practicum classroom environment as evidenced by the "Learners and Learning" competencies listed in the BYU Professional Teacher Candidate Assessment (BYU TCA).

Title
Instructional Clarity

Learning Outcome
Preservice teachers will be able to develop and implement in a practicum classroom environment clear instruction that is structured and based upon valid learning outcomes as evidenced by the "Instructional Clarity" competencies listed in the BYU Professional Teacher Candidate Assessment (BYU TCA).

Title
Professional responsibility

Learning Outcome
Preservice teachers will be able to demonstrate in a practicum classroom environment professional responsibility as evidenced by the "Professional Responsibility" competencies listed in the BYU Professional Teacher Candidate Assessment (BYU TCA).

Title
Course Outcomes - Level 2

Learning Outcome
1. Students will identify the basic steps of the Backwards Design approach to curriculum development and use these steps to develop a curricular unit to be taught as part of the practicum experience in a middle school setting. 2. As part of their practicum experience, students will successfully develop and teach a curricular unit (including unit plan, lesson plans, assessments, lab experiences, instructional materials) in a middle school technology and engineering classroom. Note: the mentor teacher and the university supervisor will assess this practicum experience using the BYU TCA assessment. 3. During their practicum experience, students will demonstrate effective classroom management strategies.

Learning Outcome

Explore furniture design and design and build a significant piece of furniture.

Prepare a research report summarizing the life and key contributions of a furniture designer assigned/selected from the list provided and give a brief presentation (five minutes) to the class of your findings.

Construct 6 sketch models of possible furniture pieces.

Complete thumbnail design sketches of at least 24 pieces of furniture that could be appropriate to build in the class.

Complete a working drawing which includes a 3-view orthographic projection drawn to an appropriate scale, and full scale details of all joints and connections of materials (including those containing hardware).

If building a chair, a full-scale mock-up is required and will substitute for the primary views of the drawing requirement, full scale details of each joint or connection of materials is still required.

Complete a cost estimate using the Estimating Sheet provided.

Complete a plan of procedure detailing the sequence to be followed in building your furniture.

Using a variety of surface decoration/manipulation techniques make three surface decoration swatches approximately 1/4" x 2" x 5".

Design and make two full-scale, completely finished, functioning door or drawer pulls.

Complete ALL of the following Courses:

- THAI 102 - First-Year Language Study: Thai

Note
Teacher may waive prerequisite based on prior experience.

Learning Outcomes

Title
Elaboration

Tags
196719, 1

Learning Outcome
Create structurally-accurate, elaborated utterances and begin to group utterances into paragraphs and narratives. Do this in present, past and future time.

Title
Vocabulary

Tags
196722, 2

Learning Outcome
Broaden vocabulary for both reception (listening and reading comprehension) and production (speaking and writing).

Title
Grammar

Tags
196723, 3

Learning Outcome
Review and increase understanding of basic language structures.

Title
Culture

Tags
196726, 4

Learning Outcome
Discuss in the target language common products and practices related to every-day life in the target culture.

Note
Teacher may waive prerequisite based on prior experience. Culminating course for GE Languages of Learning requirement. Not an entry course for returned missionaries.

Learning Outcomes

Title
Communication Skills

Tags
196712, 1

Learning Outcome
In both written and spoken target language, communicate with reasonable accuracy about real-world activities with well-educated members of the target-culture accustomed to dealing with non-native speakers.

Title
Comprehension

Tags
196714, 2

Learning Outcome
Understand every-day written and verbal instructions. Comprehend concrete details and global meaning of intermediate-level written and spoken passages related to familiar topics that native speakers encounter routinely in their daily life.

Title
Cultural Knowledge

Tags
196716, 3

Learning Outcome
Discuss in the target language cultural practices related to every-day life in the target culture. Acquire basic background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.).

Title
General Education Requirements

Tags
196717, 4

Learning Outcome
Complete Languages of Learning and Global & Cultural Awareness for General Education.

Language Studies

When Taught
Contact Department

Credit Hours

Min:
1

Fixed/Max:
4

Other Prerequisites
Instructor's consent.

Learning Outcomes

Title
Defined Special Purpose

Tags
196708, 1

Learning Outcome
Develop the overall language and cultural competence to meet the needs of a "special" purpose identified by the Center for Language Studies.

Title
Communication

Tags
196709, 2

Learning Outcome
Communicate effectively enough to function in a variety of situations likely to be encountered when dealing with native speakers associated with the special purpose. This may include interpersonal, interpretive, and presentational (written and oral) modes of communication.

Title
Cultural Competence

Tags
196710, 3

Learning Outcome
Interact with cultural competence and understanding when dealing with native speakers associated with the special purpose.

1

Lab Hours

Fixed:
1

Learning Outcomes

Title
Degree Planning and Mentorship

Tags
207391, 0, 1

Learning Outcome
Students will create a graduation plan in consultation with a faculty mentor and academic advisor.

Title
Career and Life Trajectory Development

Tags
207392, 0, 2

Learning Outcome
Students will discuss various life trajectories both inside and outside the world of theatre and begin to formulate a plan for their own journey.

Title
Lifelong Learning

Tags
209265, 0, 3

Learning Outcome
Students will begin to develop lifelong learning habits, both for theatre and life in general.

TMA 114 - Reading and Constructing Narratives

Course Information

Teaching Area (new)
TMA

Course Number
114

Teaching Area
TMA

Course Title
Reading and Constructing Narratives

Course Description
Analyzing basic narrative principles; conceptualizing and writing narratives for media arts.

Department
Theatre and Media Arts

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Other Prerequisites
Media Arts major or minor status.

Learning Outcomes

Title
Analyze and Synthesize Story Types

Tags
188569, 1

Learning Outcome
Students will critically analyze various story types from literature, visual arts, performing arts and the Gospel of Jesus Christ, identifying their influences on the construction and development of film narratives.

Title
Investigate Contextual Contexts

Tags
188570, 4

Learning Outcome
Students will investigate historical, theoretical, and spiritual contexts, utilizing relevant texts, materials, and sources to deepen their understanding of film narratives and their structures.

Title
Engage in Critical Reflection

Tags
189151, 2

Learning Outcome
Students will engage with film texts by thinking about the context(s) in which they are created, discussing their potential for meaning making, and writing about them critically and analytically.

Title
Practice Creating Narratives

Tags
189152, 3

Learning Outcome
Students will apply their understanding of narrative types and contextual influences to construct small original narratives, demonstrating historical and theoretical awareness in their creative work.

Learning Outcomes

Title
Structures and Genres

Tags
207397, 2

Learning Outcome
Students will demonstrate a working knowledge of dramatic structures and genres.

Title
Script Analysis

Tags
207424, 1

Learning Outcome
Students will analyze play scripts in preparation for productions.

TMA 170R - Practicum: Television

Course Information

Teaching Area (new)
TMA

Course Number
170R

Teaching Area
TMA

Course Title
Practicum: Television

Course Description
Practicum in beginning television production skills. Topics will vary by semester.

Department
Theatre and Media Arts

When Taught
Fall Term 1; Fall Term 2; Winter Term 1; Winter Term 2.

Credit Hours

Min:
0.5

Fixed/Max:
6

Lab Hours

Fixed:
1

Learning Outcomes

Title
BYU Broadcasting Shadowing

Tags
189056, 1

Learning Outcome
Students are expected to gain knowlege and skills by shadowing a Television Professional at BYU Broadcasting.

TMA 184R - Practicum: Cinematic Skills

Course Information

Teaching Area (new)
TMA

Course Number
184R

Teaching Area
TMA

Course Title
Practicum: Cinematic Skills

Course Description
Fundamentals of cinematic skills.

Department
Theatre and Media Arts

When Taught

Learning Outcomes

Title
LDS Motion Picture Studios Shadowing

Tags
188571, 1

Learning Outcome
Students are expected to gain added knowlege and skills by shadowing a Film Professional at the LDS Motion Pictures Studio.

TMA 185 - Basic Film Production

Course Information

Teaching Area (new)
TMA

Course Number
185

Teaching Area
TMA

Course Title
Basic Film Production

Course Description
Introduction to basics of film and video production. Includes lecture and practical lab experiences with audio and video.

Department
Theatre and Media Arts

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
4

Lab Hours

Fixed:
3

Other Prerequisites
Media arts major/minor status or animation major status; concurrent enrollment in TMA 105

Learning Outcomes

Title
Expanding Knowledge

Tags
188572, 1

Learning Outcome
Students will improve their capacity as story tellers and filmmakers.

Title
Story Creation

Tags
188573, 2

Learning Outcome
Students will begin to conceptualize, write, shoot, and edit fiction and non-fiction stories.

Title
Text Analysis

Tags
188574, 3

Learning Outcome
Students will engage with texts about storytelling and production processes.

Title
Peer Evaluation and Collaboration

Tags
188575, 4

Learning Outcome
Students will present, discuss, analyze, and critique others work in the spirit of peer to peer collaboration.

TMA 187 - Production Management: Beginning

Course Information

Teaching Area (new)
TMA

Course Number
187

Teaching Area
TMA

Course Title
Production Management: Beginning

Course Description
Fundamentals of media production; budgeting, scheduling, and management skills.

Department
Theatre and Media Arts

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Learning Outcomes

Title
Professional Communication

Tags
188578, 0, 3

Learning Outcome
Students will be taught to communicate effectively, appropriately and competently in a business environment.

Title
Personal Development

Tags
188579, 0, 4

Learning Outcome
Students will learn how to anticipate and prepare for unexpected challenges, develop essential questions and find their answers, manage details and to creatively problem-solve.

Title
Role Responsibilities

Tags
210335, 0, 5

Learning Outcome
Students will gain a broad-stroke understanding of the responsibilities of all key crew positions, with an emphasis on understanding what the student is undertaking and what is expected when he/she agrees to accept a department head or other key role - particularly that of Producer or Unit Production Manager; Additionally, the student will understand how all roles work together to create a collaborative and mutually edifying environment.

Title
Producing/Production Management Basics

Tags
210336, 0, 6

Learning Outcome
Students will gain a specific understanding and working knowledge of the responsibility of a film's Producer/Unit Production Manager and its accompanying practical application.

Title
Page to Screen

Tags
210337, 0, 7

Learning Outcome
Students will discover resources for story development, how to create and develop story ideas at a basic level, learn to comprehensively analyze a script, break it down, to identify both implicit and explicit elements, and determine to which departments the identified elements belong. Students will learn to synthesize the information and how to use that information to develop a budget, schedule, and to generally prepare for production.

Title
Phases of Film Production

Tags
210338, 0, 8

Learning Outcome
Students will understand the essentials of the pre-production/planning stage of a film, including budgeting, scheduling and all elements required to ready a film for production [shooting], and also learn the basics associated with production [shooting] and post-production.

Title
Production Wrap

Tags
210339, 0, 9

Learning Outcome
Students will understand how to wrap production, including scheduling wrap, the unique wrap requirements for each department in each phase of production, and what activities, reporting, tasks and paperwork must be complete in order to release cast and crew and declare a full project wrap.

TMA 199R - Academic Internship

Course Information

Teaching Area (new)
TMA

Course Number
199R

Teaching Area
TMA

Course Title
Academic Internship

Course Description
Off-campus experience or internship in theatre and media arts.

Department
Theatre and Media Arts

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
3

Other Prerequisites
Theatre students: TMA 115 and application. Media students: TMA 112 and 114 and 185/105 and application.

Note
An APPROVED Internship Application is required before adding.

Learning Outcomes

Title
Individual Internship

Tags
188587, 1

Learning Outcome
Because of the individual nature of the internship course, students work with their advisor to list at least three (3) objectives they hope to achieve that are in line with the program-level learning outcomes.

Title
Individual Internship

Tags
188978, 1

Learning Outcome
Because of the individual nature of the internship course, students work with their advisor to list at least three (3) objectives they hope to achieve that are in line with the program-level learning outcomes.

TMA 201 - Dramatic Performance: Antiquity to Renaissance

Course Information

Teaching Area (new)
TMA

Course Number
201

Teaching Area
TMA

Course Title
Dramatic Performance: Antiquity to Renaissance

Course Description
Civilization from Greek antiquity through Renaissance, primarily from perspective of dramatic literature and performance. Ways in which performance functions within particular socioeconomic, political, religious, and aesthetic perspectives.

Department
Theatre and Media Arts

Credit Hours

Min:
0.5

Fixed/Max:
3

Other Prerequisites
Theatre and media arts major status. By application only.

Learning Outcomes

Title
Statement on Outcomes

Tags
189169, 0

Learning Outcome
Because this course serves as an umbrella for a number of different sections that provide a variety of learning experiences, the instructor of each section will list at least three (3) course-level learning outcomes for that section that are in line with the applicable program-level learning outcomes.

TMA 220R - Workshop 1: Acting

Course Information

Teaching Area (new)
TMA

Course Number
220R

Teaching Area
TMA

Course Title
Workshop 1: Acting

Course Description
Experience in production: acting.

Department
Theatre and Media Arts

When Taught
Fall, Winter, Spring

Credit Hours

Min:
0.5

Fixed/Max:
3

Lecture Hours

Fixed:
0

Other Prerequisites
By audition only

Learning Outcomes

Title
Performance Project

Tags
188457, 2

Learning Outcome
Students will prepare a role in a mainstage production synthesizing and showcasing the research, creative process, and collaboration of the rehearsal process.

Title
Professional Habits

Tags
188459, 0, 1

Learning Outcome
Students will apply professional work habits of dependability, promptness, cooperation, preparation, and the ability to make independent choices.

OR

Prerequisites

Complete ALL of the following Courses:

- TMA 128 - Acting 1: BFA or Pre-BFA

Other Prerequisites
BFA acting or BFA MDT or acting pre-major status. By audition only.

Note
Students must attend one Mask Club performance, held Thursdays at 1:00 pm, 2:00 pm, and 4:00 pm in the Nelke Theatre.

Learning Outcomes

Title
Acting Skills

Tags
189034, 0, 1

Learning Outcome
Using imagination and concentration, students will create performances that integrate their actor's analyses into character behavior that is immediate and vulnerable.

Title
Character and Script Analyses

Tags
189048, 0, 2

Learning Outcome
Working from the actor's perspective, students will discern plays' circumstances and character relationships, locate events, define objectives, identify obstacles, and choose fitting actions/tactics.

Title
Performance and Play Critiques

Tags
211657, 0, 3

Learning Outcome
Students will develop creative and critical thinking skills by writing critiques after viewing performances and reading plays.

Title
Professionalism

Tags
210868, 0, 4

Learning Outcome
Students will practice professional work habits of dependability, punctuality, preparation, collaboration and the ability to make independent choices.

TMA 236 - Playmaking

Course Information

Teaching Area (new)
TMA

Course Number
236

Teaching Area
TMA

Course Title
Playmaking

Course Description
A survey of the wide range of ways that performance can be made: from a script, through devising, in adaptation, via community collaboration, and more.

Department
Theatre and Media Arts

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
4

Lab Hours

Fixed:

TMA

Course Number
241

Teaching Area
TMA

Course Title
Screenwriting 1

Course Description
Covers principles of story, character, structure, theme and formatting necessary to successfully write for the screen, with specific emphasis on writing the short screenplay.

Department
Theatre and Media Arts

When Taught
Fall, Winter, and Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
4

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- TMA 114 - Reading and Constructing Narratives

Other Prerequisites
For TMA Minors, instructor approval is required

Learning Outcomes

Title
Artistic Voice

Tags
208423, 0, 5

Learning Outcome
Students will be able to view the world through the lens of a storyteller and use insights from this view to establish an individual artistic and critical voice in terms of animation storytelling.

Title
Basic Artistry of Screenwriting

Tags
188480, 0, 2

Learning Outcome
Students will be able to apply the basic artistic principles of screenwriting, including use of character, structure, images, meaning, theme, etc. and will be able to write scripts with quality storytelling.

Title
Language of Professional Screenwriting

Tags
188479, 0, 1

Learning Outcome
Students will be able to follow practices of professional screenwriting, including formatting, economy of description, etc. Students will also be able to differentiate between the needs of writing for live action versus animation.

Title
Collaborative Storytelling

Tags
188481, 0, 3

Learning Outcome
Students will be able to collaborate in production and story development, including present stories for large group projects.

Title
Giving and Receiving Feedback

Tags
188482, 0, 4

Learning Outcome
Students will be able to give constructive feedback on others' stories and receive constructive feedback on their own work.

TMA 251 - Playwriting 1

Course Information

Teaching Area (new)
TMA

Course Number
251

Teaching Area
TMA

Course Title
Playwriting 1

Course Description
Basic playwriting principles through reading, completing writing assignments, testing, and writing the first draft of a one-act play.

Department
Theatre and Media Arts

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
4

Lab Hours

Fixed:
0

Other Prerequisites
TMA 115 or instructor's consent.

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Writing Processes

Tags
188484, 0, 1

Learning Outcome

Students will begin to develop their own process of writing and tapping inspirational sources for content and subject matter.

Title
Theatrical Storytelling

Tags
188485, 0, 2

Learning Outcome

Students will gain a working knowledge of the elements and principles of theatrical storytelling and character development.

Title
Theatrical Structures

Tags
188486, 0, 3

Learning Outcome

Students will learn how to use the appropriate theatrical structures in the writing of their plays.

Title
Script Analysis

Tags
188487, 0, 4

Learning Outcome

Students will begin to develop the skills to accurately and thoughtfully analyze and re-write their own plays.

TMA 252 - Puppetry

Course Information

Teaching Area (new)
TMA

Course Number
252

Teaching Area
TMA

Course Title
Puppetry

Course Description
Theories, techniques, and experience constructing and operating puppets for use in performance, recreational, and educational settings.

Department
Theatre and Media Arts

When Taught
Fall and Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
4

Lab Hours

Fixed:
1

Other Prerequisites
Theatre education major status or instructor's consent

Note
Contact nat@scera.org for meeting location for first day of class.

Learning Outcomes

Title
Design

Tags
188901, 0, 0

Learning Outcome
Students will design, build and manipulate the following types of puppets:

Marionette
Wannabe Puppet
Found Object/Recycled Puppet
Big Mouth (Muppet)
Parade Puppet

Title
Manipulation and Performance

Tags
188992, 0, 1

Learning Outcome

Students will create and develop puppet strategies and skills in traditional and non-traditional environments including

Schools
Churches
Arts/Community Centers
Boys/Girls Clubs
Etc

Title
Ethics

Tags
188934, 0, 2

Learning Outcome
Students will use puppets to explore social and ethical issues within a targeted community.

TMA 255 - Theatre for Young Audiences (TYA) History and Practice

Course Information

Course Number
255

Teaching Area
TMA

Course Title
Theatre for Young Audiences (TYA) History and Practice

Course Description
Students in this class will survey the history and practice of Theatre for Young Audiences (children ages 18 months-18 years) through script study, research of contemporary practice, and exploration of career opportunities in the field. Students read, reflect, view performances, and collaborate on projects.

Department
Theatre and Media Arts

When Taught
Fall

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
1

Learning Outcomes

Title
Effective Communication

Learning Outcome
Students will demonstrate their ability to use gospel principles to communicate effectively with diverse and inclusive teaching and learning communities by demonstrating EDIA (equity, diversity, inclusion, access) principles through curriculum design, delivery, and assessment along with examples of their self-reflective practices.

Title
Scholarly Abilities

Learning Outcome
Students will demonstrate their scholarly and artistic expertise by applying appropriate technology to curriculum, exhibiting a working knowledge of all major elements of theatre history, theory, and practice, and engaging with the great works of theatre and media.

Title
Ethics

Learning Outcome
Students demonstrate their ability to practice and articulate their ethics of theatre by applying gospel-centered values as they contribute to classrooms and individual learners, exercising moral reasoning when faced with ethical dilemmas in their classroom, school or district, and demonstrating a commitment to embracing inclusion, diversity and making a positive difference in their sphere of influence.

TMA 256 - Stage Management 1

Course Information

Teaching Area (new)
TMA

Course Number
256

Teaching Area
TMA

Course Title
Stage Management 1

Course Description
Principles and objectives of stage management. Prepares students for work as assistant and production stage managers.

Department
Theatre and Media Arts

When Taught
Fall and Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

2

Lab Hours

Fixed:
0

Learning Outcomes

Title
Technical Training

Tags
188921, 1

Learning Outcome
Students will demonstrate the use of stage management skills and paperwork at an introductory level.

TMA 257 - Storytelling

Course Information

Teaching Area (new)
TMA

Course Number
257

Teaching Area
TMA

Course Title
Storytelling

Course Description
Theories, techniques, and practice in the art of constructing and telling stories for use in performance, recreational, and educational settings.

Department
Theatre and Media Arts

When Taught
Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
4

Lab Hours

Fixed:
1

Other Prerequisites
Theatre education major status or instructor's consent

Learning Outcomes

Title
Writing about Performances

Tags
188886, 1

Learning Outcome
Students will survey and respond to a variety of storytelling styles by observing and writing about live, video and audio performances.

Title
Teaching Strategies

Tags
188989, 2

Learning Outcome
Students will develop teaching strategies and coaching styles designed to support storytellers in targeted communities such as schools, businesses, the entertainment industry, churches, family, etc.

Title
Professional Relationships

Tags
188996, 3

Learning Outcome
Students will foster supportive relationships by connecting to national and local storytellers and organizations.

Title
Individual Storytelling Skill and Style

Tags
189039, 0

Learning Outcome
Students will develop unique individual skills and styles in storytelling, demonstrating ability to create imagery, use vocal animation and characterization, and produce effective story sequences, supported by skilled delivery (body, voice, use of space).

TMA 258 - Theatre Drafting

Course Information

Teaching Area (new)
TMA

Course Number
258

Teaching Area
TMA

Course Title
Theatre Drafting

Course Description
Basic training in manual and computer-aided drafting as well as visualization for theatre.

Department
Theatre and Media Arts

When Taught
Winter.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
4

Lab Hours

Fixed:

Title
Writing for Animation

Tags
189178, 1

Learning Outcome
Students will demonstrate their ability to write for animation. (This course has not been offered for a few years. The department is currently reviewing whether or not to offer it again. In the event that we do decide to begin offering it again, we will determine more specific outcomes at that time.)

TMA 262 - Costume Construction

Course Information

Course Number
262

Teaching Area
TMA

Course Title
Costume Construction

Course Description
Instruction in translating costume designs into real garments.

Department
Theatre and Media Arts

When Taught
Fall

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
4

Learning Outcomes

Title
Artistic Analysis

Learning Outcome
Gain an understanding of the process of taking a costume from page to stage through and learn the jobs and responsibilities in a Costume Shop.

Title
Technical Training 1

Learning Outcome
Learn terminology and skills so they can follow commercial pattern instructions to create a garment for the stage. They will also learn how to make a commercial pattern more applicable for the stage.

Title
Technical Training 2

Learning Outcome
Demonstrate both hand and machine construction methods suitable for costume construction. Proper method to attach closures. How to thread and use a sewing machine.

Title
Technical Training 3

Learning Outcome
Learn how to make garments that are easily adjusted for size. Taking and applying measurements as well as creating strategies to alter a garment to fit an actor.

TMA 264 - Theatre Lighting 1

Course Information

Course Number
264

Teaching Area
TMA

Course Title
Theatre Lighting 1

Course Description
An introduction to theatre lighting, the equipment, how to operate it, and the basics of designing light for theatre.

Department
Theatre and Media Arts

When Taught
Winter

Credit Hours

Fixed/Max:
2

Lecture Hours

Fixed:
4

Learning Outcomes

Title
Lighting Equipment

Tags
214499, 0, 1, 2023-08-29 13:09:09

Learning Outcome
Students will identify lighting equipment, describe its functionality, and operate it.

Title
Lighting Paperwork

Tags
214500, 0, 2, 2023-08-29 13:09:11

Learning Outcome
Students will create and use standard lighting paperwork at a basic level.

Title
Controllable Qualities and Functions of Light

Tags
214501, 0, 3, 2023-08-29 13:09:12

Learning Outcome
Students will describe the controllable qualities of light and use them to accomplish the functions of light.

Title
Lighting Design

Tags
214502, 0, 4, 2023-08-29 13:09:14

Learning Outcome
Students will design lighting for a theatre production at a basic level.

Title
Properties of Light

Learning Outcome
Students will observe and discuss the physical and spiritual properties of light.

Title
Theatre Lighting Profession

Learning Outcome
Students will identify the typical responsibilities for theatre lighting job titles.

TMA 265 - Sound Reinforcement

Course Information

2

Lecture Hours

Fixed:
4

Lab Hours

Fixed:
0

Learning Outcomes

Title
Sound System Basics

Tags
189292, 0, 1

Learning Outcome
Students will describe key parts to a sound system.

Title
Design and Operation

Tags
189293, 0, 2

Learning Outcome
Students will design, install, and operate analog and digital sound systems for moderate sized performance venues.

Title
Sound System Evaluation

Tags
189294, 0, 4

Learning Outcome
Students will evaluate sound systems, and venue accoustics with advanced computer technology and explain the physics behind the analyzed results.

Title
Career Development

Tags
189295, 0, 5

Learning Outcome

Students will complete the different job responsibilities on a theatrical sound crew, communicating and working effectively with production team members.

TMA 266 - Principles of Stage Craft

Course Information

Teaching Area (new)
TMA

Course Number
266

Teaching Area
TMA

Course Title
Principles of Stage Craft

Course Description
Introduction to basic stage craft techniques: scenic tools and materials; construction, rigging and handling of scenery pieces; basic scenery painting techniques; properties construction and acquisition; related stage safety and maintenance. \t

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- TMA 114 - Reading and Constructing Narratives

Learning Outcomes

Title
Non-Fiction Films

Tags
188600, 1

Learning Outcome
To watch a lot of non-fiction films. And enjoy them *perhaps immensely). Meanwhile: to consider the idea of the nonfiction film from its beginning to the present day; to explore a range of approaches, styles, and individuals associated with the documentary idea; to discuss social and ethical issues that emerge around documentary film making; finally to consider how our own lives (as film makers, film critics, and normal people) are informed and shaped by documentary sensibilities. (or ought to be).

Title
Create and Analyze Films in Historical and Theoretical Contexts

Learning Outcome
Students will create short films with similar theoretical underpinnings while also considering the historical context of the films.

TMA 294 - History of Animation

Course Information

Teaching Area (new)
TMA

Course Number
294

Teaching Area
TMA

Course Title
History of Animation

Course Description
Origins and developments of animation internationally to the present, focusing on aesthetic, technical, political, and economic aspects of the medium.

Department
Theatre and Media Arts

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Media Arts major/minor status or Animation major status or Illustration major status.

Learning Outcomes

Title
Popular Culture

Tags
189302, 1

Learning Outcome
Students will be able to discuss animation (film, television, Internet) as a microcosm of the larger aesthetic and social developments of popular culture artifacts.

Title
Historical Contexts

Tags
189303, 2

Learning Outcome
Students will be able to examine the relationship of text, subtext, and context in animated fare, as well as understand how animation has influenced and is influenced by art, society, history, and technology.

Title
Genre

Tags
189304, 3

Learning Outcome
Students will be able to analyze the significance of generic conventions and themes in animation, both diachronically and synchronically.

Title
Secondary Literature

Tags
189305, 4

Learning Outcome
Students will be able to identify and appraise scholarly material related to animation studies.

TMA 299R - Academic Internship

Course Information

Teaching Area (new)
TMA

Course Number
299R

Teaching Area
TMA

Course Title
Academic Internship

Course Description
Off-campus experience or internship in theatre or media arts.

Department
Theatre and Media Arts

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
9

Other Prerequisites
By application only.

Note
An APPROVED Internship Application is required before adding.

Learning Outcomes

Title
Individual Internship Outcomes

Tags
188605, 1

Learning Outcome
Because of the individual nature of the internship course, students work with their advisor to list at least three (3) objectives they hope to achieve that are in line with the program-level learning outcomes.

TMA 302R - Studies in British Theatre Performance

Course Information

0

Other Prerequisites
Acceptance in the Theatre in London Study Abroad program

Learning Outcomes

Title
Expand Performance Techniques

Tags
188904, 0, 3

Learning Outcome
Students will demonstrate a familiarity with a range of techniques in performance.

Title
Discussion Techniques

Tags
188852, 0, 2

Learning Outcome
Students will engage orally and in writing critical with a theatrical performance in terms of aesthetics, values, and preferences.

TMA 303R - International Studies in Film & Culture

Course Information

Teaching Area (new)
TMA

Course Number
303R

Teaching Area
TMA

Course Title
International Studies in Film & Culture

Course Description
This course offered in conjunction with the Media Arts program's study abroad program will expose students to renowned repertory programs, thorough retrospectives, and the most wide-ranging commercially distributed film offerings in the world. We will enjoy the films themselves along with a host of exemplary scholarly resources (lectures, artist interviews, scholarly notes) from nation-specific institutes of film education. In addition, our program will be distinguished by its emphasis on the ancestor arts and by its access to some of the world's great art institutions. Film is a combination and occasionally a culmination of the arts preceding it. In that spirit, film practitioners as well as students of the arts will be enriched and deepened by their exposure to our host city's rich history and its vast supply of great plays, paintings, buildings, landscapes, and design.

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- TMA 125 - Yoga and Alexander Technique
  AND TMA 225 - Neutral Mask

Other Prerequisites
BFA acting major status.

Learning Outcomes

Title
Body Awareness and Storytelling

Tags
188501, 5

Learning Outcome
Students will demonstrate a deeper awareness of body and its impact on the storytelling process in scene work.

Title
Physical Coordination

Tags
188498, 0, 2

Learning Outcome
Students will demonstrate improved individual physical coordination through modeling correct fighting techniques for rapier, dagger, and broadsword.

Title
Terrminology

Tags
188499, 0, 3

Learning Outcome
Students will use various technical terms from a glossary of Society of American Fight Directors Lexicon.

TMA 326R - Divine Comedy

Course Information

Teaching Area (new)
TMA

Course Number
326R

Teaching Area
TMA

Course Title
Divine Comedy

Course Description
Participation as performers, writers, directors, or crew members of a sketch comedy group.

Department
Theatre and Media Arts

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- TMA 222 - Voice Production and Phonetics 2
  AND TMA 228 - Acting 2

Other Prerequisites
BFA acting major status. By audition only

Learning Outcomes

Title
Scansion and Folio Text Analysis

Tags
188493, 1

Learning Outcome
Students will show proficiency with scansion and folio text analysis for Shakespearean text.

Title
Skill Integration in Performance

Tags
188494, 2

Learning Outcome
Students will apply fundamental acting principles and vocal techniques to the performance of assigned scenes and monologues from classical texts.

Title
Play and Character Analysis

Tags
188495, 3

Learning Outcome
Students will demonstrate their ability to analyze a play from an actor's point of view and choose objectives, actions, and obstacles congruent with the historical text.

Title
Work Ethic

Tags
188496, 0, 4

Learning Outcome
Students will practice professional work habits of dependability, punctuality, preparation, collaboration and the ability to make independent choices.

TMA 329 - Theatre and Film Acting Conservatory

Course Information

Teaching Area (new)
TMA

Course Number
329

Teaching Area
TMA

Course Title
Theatre and Film Acting Conservatory

Course Description
Extensive work on a theatre or film project through semester, culminating in performance of play or preview of film/video.

Department
Theatre and Media Arts

When Taught
Winter Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- TMA 228 - Acting 2

Other Prerequisites
BFA acting major or acting pre-major status. By audition only.

Learning Outcomes

Title
Script Analysis

Tags
188468, 0, 1

Learning Outcome
Students will analyze performance texts in relationship to electronic media performance.

Title
Genre Exploration

Tags
188469, 0, 2

Learning Outcome
Students will demonstrate a knowledge of acting for electronic media.

Title
Film Language

Tags
188471, 0, 4

Learning Outcome
Students will demonstrate knowledge of the specialized vernacular used in media rehearsal and performance situations.

TMA 341R - Screenwriting 2

Course Information

Teaching Area (new)
TMA

Course Number
341R

Teaching Area
TMA

Course Title
Screenwriting 2

Course Description
Intermediate conceptualization, screenwriting, and development for narrative or nonnarrative projects.

Department
Theatre and Media Arts

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Simple Requisites

Untitled Requirement

Type
Prerequisite

Complete ALL of the following Courses:
- TMA 114 - Reading and Constructing Narratives

Learning Outcomes

Title
Collaboration

Tags
212838, 0, 1

Learning Outcome
Students will collaborate on the creation of a media series or long-form piece. They will conceptualize and execute the writing of the script in a team environment.

Title
Story Structure

Tags
212839, 0, 2

Learning Outcome
Students will demonstrate the ability to create tension and forward movement in narrative storytelling by applying fundamental story structure to their material.

Title
Story Editing

Tags
212840, 0, 3

Learning Outcome
Students will demonstrate the ability to eliminate excess or irrelevance in their own scripts and in the scripts of their colleagues.

Title
Writer's Room

Tags
212841, 0, 4

Learning Outcome
Students will execute the creation of a story employing a rudimentary writer's room model.

TMA 351 - Playwriting 2

Course Information

Teaching Area (new)
TMA

Course Number
351

Teaching Area
TMA

Course Title
Playwriting 2

Course Description
Workshop course designed to assist more advanced students in furthering their playwriting skills by writing the first draft of a full-length play.

Department
Theatre and Media Arts

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- TMA 251 - Playwriting 1

Other Prerequisites
or instructor's consent.

Learning Outcomes

Title
Writing Processes

Tags
188510, 0, 1

Learning Outcome
Students will establish their own successful writing process.

Title
Theatrical Storytelling

Tags
188511, 0, 2

Learning Outcome
Students will begin to master the elements and principles of theatrical storytelling and character development.

Title
Theatrical Structures

Tags
188512, 0, 3

Learning Outcome
Students will apply appropriate elements of theatrical structures and character development to their original plays.

Title
Script Analysis

Tags
188513, 0, 4

Learning Outcome
Students will demonstrate the skills to accurately and thoughtfully analyze and re-write their own plays.

TMA 352 - Drama in the Elementary Classroom

Course Information

Teaching Area (new)
TMA

Course Number
352

Teaching Area
TMA

Course Title
Drama in the Elementary Classroom

Course Description
Varied teaching methodologies for application of drama within the pre-K--6 classroom. Dual emphasis on Utah state elementary drama standards as well as integration with core curricula.

Department
Theatre and Media Arts

When Taught
Fall, Winter, Spring

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
4

Other Prerequisites
Theatre education major status: TMA 101 or 102; TMA 276. Or early childhood education or elementary education major status. Or instructor's consent.

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Theatre Presentation and Activities

Tags
188958, 0, 1

Learning Outcome

Successful students in this course will be able to create and perform collaborative theatre presentations and utilize creative drama with confidence and skill.

Title
Dramatic Activities: USOE Curriculum

Tags
188982, 0, 0

Learning Outcome

Successful students in this course will be able to use drama/theatre to effectively teach across the Utah State Office of Education's (USOE) core and drama curriculum for elementary school grades.

TMA 356R - Assistant Stage Managers

Course Information

Teaching Area (new)
TMA

Course Number
356R

Teaching Area
TMA

Course Title
Assistant Stage Managers

Course Description
Assistant stage management from pre-production to strike.

Department
Theatre and Media Arts

When Taught
Fall, Winter, Spring

Credit Hours

Min:
2

Fixed/Max:
4

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- TMA 256 - Stage Management 1

Other Prerequisites

Instructor's consent.

Learning Outcomes

Title
Skill Development

Tags
214503, 0, 1, 2023-08-29 13:10:18

Learning Outcome
Students will apply complex skills of stage management in pre-production, rehearsals, tech rehearsals, performance/calling a show, and post-production responsibilities within educational, community, and professional settings.

Title
Professional Skills

Tags
214504, 0, 2, 2023-08-29 13:10:20

Learning Outcome
Students will prepare for employment opportunities within educational, community, and professional settings.

Title
Portfolio

Tags
214505, 0, 3, 2023-08-29 13:10:22

Learning Outcome
Students will synthesize their stage management responsibilities into a portfolio.

TMA 360R - Theatre Production

Course Information

Teaching Area (new)
TMA

Course Number
360R

Teaching Area
TMA

Course Title
Theatre Production

Course Description
Advanced practical experience in specialized shops or backstage experience on realized productions.

Department
Theatre and Media Arts

When Taught
Fall, Winter, Spring

Credit Hours

Min:
0.5

Fixed/Max:
3

Lecture Hours

Fixed:

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:
- TMA 259 - Principles of Design for Stage

Other Prerequisites
Or instructor's consent.

Recommended
TMA 462 or concurrent enrollment

Learning Outcomes

Title
Concept and Approach

Tags
189016, 0

Learning Outcome
Students will apply script analysis and the use of a director's concept in the creation of an effective costume design for a production.

Title
Portfolio

Tags
207404, 3

Learning Outcome
Students will produce effective visual materials for personal portfolios and demonstrate an ability to constructively critique other designers.

Title
Professional Skills

Tags
207403, 0, 2

Learning Outcome
Students will demonstrate professional costume-rendering and graphic skills in figure proportions, stance, and fabric representation.

Title
Communication and Collaboration

Tags
188933, 0, 1

Learning Outcome
Students will demonstrate collaborative communication verbally, in visual presentation, and through costume rendering as preparation for costume design assignments in the Department of Theatre & Media Arts.

TMA 363 - Scenic Design

Course Information

Teaching Area (new)
TMA

Course Number
363

Teaching Area
TMA

Course Title
Scenic Design

Course Description
Comprehensive course in scenic design for stage and screen: scenic history and theory; renderings and model construction; script research; scenic paperwork; collaboration techniques; preparation for work as assistant and/or full designer positions in departmental productions.

Department
Theatre and Media Arts

When Taught
Winter

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- TMA 264 - Theatre Lighting 1

Other Prerequisites
Or instructor's consent.

Recommended
TMA 258, TMA 259

Learning Outcomes

Title
Design Process

Tags
189010, 1

Learning Outcome
Students will practice a process for designing light for live performance.

Title
Lighting Technology

Tags
188887, 0, 3

Learning Outcome
Students will set up, program, and troubleshoot lighting control systems.

Title
Design Portfolio

Tags
212259, 0, 2

Learning Outcome
Students will produce industry standard documentation of a lighting design that they can include in a design portfolio.

TMA 365 - Sound Design

Course Information

Teaching Area (new)
TMA

Course Number
365

Teaching Area
TMA

Course Title
Sound Design

Course Description
Comprehensive course in sound design for stage: sound reinforcement; stage equipment; sound space design; collaboration techniques; preparation for work as assistant and/or full designer positions in departmental productions.

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- TMA 260R - Theatre Production 2: Make-up/Props/Lighting. (Inactive)
  AND TMA 276 - Exploration of Teaching Theatre

Other Prerequisites
Theatre education major or minor status. FBI fingerprint and background clearance.

Note
NOTE: For help with questions about fingerprint clearance, contact the McKay School of Education Advisement Center.

Learning Outcomes

Title
Diverse Learners

Tags
188858, 4

Learning Outcome
Create a nurturing and motivating learning environment that helps diverse learners succeed.

Title
Instructional Design and Delivery

Tags
188947, 2

Learning Outcome
Design and deliver instruction to help young learners develop proficiency in theatre content and critical thinking.

Title
Assessment Development and Use

Tags
188954, 7

Learning Outcome
Create and use assessments to evaluate learners as well as the effectiveness of their own instruction.

Title
Lesson Planning and Pedagogical Strategies

Tags
189064, 5

Learning Outcome
Plan lessons, units and courses based on the understanding of theatre content and theatre standards, as well as pedagogical strategies.

Title
Teaching Competency

Tags
189098, 0

Learning Outcome
Demonstrate competency in theatre content and the pedagogical presentation of theatre concepts.

TMA 377C - Theatre Methods and Instruction: Applied Theatre

Learning Outcomes

Title
Drama and Education Methodologies

Tags
188885, 4

Learning Outcome
Successful students in TMA 377D will reflect on current methodology regarding drama and education.

Title
Lesson and Unit Planning

Tags
188903, 0

Learning Outcome
Successful students in TMA 377D will plan lessons and units based on their understanding of state and national K-6 drama and core curriculum standards.

Title
Personal Competence

Tags
188946, 5

Learning Outcome
Successful students in TMA 377D will reflect on their personal competence, and the effects of their own instructional choices, and seek opportunities for improvement.

Title
Instructional Design and Delivery

Tags
188977, 2

Learning Outcome
Successful students in TMA 377D will design and deliver instructions to help elementary students develop skills in drama and core curriculum content.

Title
Advocacy in the Arts

Tags
189103, 3

Learning Outcome
Successful students in TMA 377D will demonstrate ability to advocate for the arts in an elementary setting.

BFA acting major status. By audition only.

Learning Outcomes

Title
Professionalism

Tags
213149, 0, 3

Learning Outcome
Students will practice professional work habits of dependability, punctuality, preparation, collaboration and the ability to make independent choices.

Title
Physical Performance Skills

Tags
188535, 0, 2

Learning Outcome
Students will practice developing character and story by using physical performance modalities.

Title
Mask and Character Development

Tags
188534, 0, 1

Learning Outcome
Students will learn how to work with character masks to develop characters for performance.

TMA 428 - Acting Practicum

Course Information

Teaching Area (new)
TMA

Course Number
428

Teaching Area
TMA

Course Title
Acting Practicum

Course Description
Acting practicum experience focused on acting performance in theatre or media arts.

Department
Theatre and Media Arts

When Taught
Contact Department

Credit Hours

Min:
0.5

Fixed/Max:
4

Other Prerequisites
Acceptance into the BFA acting major; BFA faculty approval.

Learning Outcomes

Title
Work Ethic

Tags
210872, 0, 2

Learning Outcome
Students will apply professional work habits of dependability, promptness, cooperation, preparation, and the ability to make independent choices.

Title
Performance Project

Tags
210871, 0, 1

Learning Outcome
Students will accomplish a significant performance or performance-related project, approved by the BFA Acting Committee. This work is intended to be customized to the student's opportunity provided it will fulfill the expected rigor of TMA 428.

Title
Compassion and Empathy in Art and Life

Tags
213070, 0, 3

Learning Outcome
Students will develop a gospel-centered sense of empathy and compassion that will serve as a foundation for the actor on stage and screen, as well as a foundation for living a more Christian life.

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- TMA 336 - Stage Directing 1: Principles and Practices

Other Prerequisites
instructor's consent

Note
Students must attend one Mask Club performance, held Thursdays at 1:00 pm, 2:00 pm, and 4:00 pm in the Nelke Theatre.

Learning Outcomes

Title
Production Processes

Learning Outcome
Students will create performance that engages a full production team and a student audience; through preproduction work, rehearsals, and production.

Title
Skill Development

Learning Outcome
Enlarge the intellectual range of their education by developing skills, breadth, and depth in the discipline of directing.

TMA 438 - Auditions

Course Information

Teaching Area (new)
TMA

Course Number
438

Teaching Area
TMA

Course Title
Auditions

Course Description
Auditions, cold reading, resumes, and the business end of acting, music, and dance for the professional performer.

Department
Theatre and Media Arts

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Other Prerequisites
BFA acting or MDT major status. BFA acting majors: TMA 229 and 325 and 422 and 424. BFA MDT majors: TMA 229 and 422 and Dance 240. By audition only

Learning Outcomes

Title
Auditioning Skills

Tags
188537, 0, 2

Learning Outcome
Students will identify, recognize, and apply effective cold reading, improvisation, prepared, on camera, and other auditioning techniques.

Title
Integration of Acting Skills

Tags
188538, 0, 3

Learning Outcome
Students will demonstrate a mastery of performance technique integrating acting proficiency, vocal production, and emotional dexterity.

Title
Evaluation

Tags
188539, 0, 4

Learning Outcome
Students will self-evaluate progress and practice effective peer coaching and peer evaluation techniques.

Title
Professional Practice and Behaviors

Tags
210870, 0, 5

Learning Outcome
Students will practice professional work habits of dependability, punctuality, preparation, collaboration and the ability to make independent choices.

Prerequisites

Complete ALL of the following Courses:

- TMA 276 - Exploration of Teaching Theatre

OR

Prerequisites

Complete ALL of the following Courses:

- ENGL 276R - Exploration of Teaching

Learning Outcomes

Title
Media Education Theory and Practice

Tags
191437, 2

Learning Outcome
Examine media education theories and strategies of media education practice.

Title
Media and Media Literacy

Tags
191438, 4

Learning Outcome
Implement media and media literacy strategies into theatre or English curricula.

Title
Personal and Global Media Presence

Tags
191439, 6

Learning Outcome
Investigate the mediated world at large, considering personal media presence as well as the global media.

Title
Local and Global Media Programs

Tags
191440, 8

Learning Outcome
Discuss and examine local and global media secondary programs.

Title
Personal Pedagogical Standards

Tags
191441, 10

Learning Outcome
Develop personal pedagogical standards from which they create and teach a media infused curriculum for their future classroom.

TMA 460 - Portfolio

Teaching Area (new)
TMA

Course Number
460

Teaching Area
TMA

Course Title
Portfolio

Course Description
Hands-on training in professional resumes, cover letters, job searches, and portfolio techniques for person-to-person layout, digital presentation, personal website creation and other emerging practices.

Department
Theatre and Media Arts

When Taught
Fall and Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Other Prerequisites
Students should be working on or have completed at least one production assignment.

Learning Outcomes

Title
Career Planning

Tags
189153, 2

Learning Outcome
Students will define goals for their future work and life after BYU, and develop a plan for how to reach those goals.

Title
Professional Presentation

Tags
189154, 3

Learning Outcome
Students will demonstrate the ability to present their professional work, skills, and experiences in industry standard ways in interviews, in presentations, and with a website portfolio.

Title
Application Materials

Learning Outcome
Students will identify the required skills and experience expectations for jobs or graduate school programs appropriate to their career goals, and demonstrate their ability to create the required industry standard documents for applying for these opportunities.

Title
Job Search Skills

Learning Outcome
Students will practice job search skills including identifying induistry approriate places to look for jobs, developing and using a network, social media use, and identifying empoyers to target.

TMA 462 - History of Costume

Complete ALL of the following Courses:
- TMA 418 - Advanced Visual Storytelling

Other Prerequisites
TMA 418 required for directors only. Media Arts major status. Department approval required.

Note
This course requires a pitch to the combined faculty. Please see the department website for details.

Learning Outcomes

Title
Advanced Directing

Tags
212842, 0, 1

Learning Outcome
Students will demonstrate an advanced skill set relative to the pre-production of a large-scale short film. They will oversee the efforts of a 70-80 member student crew.

Title
Collaboration

Tags
212843, 0, 2

Learning Outcome
Advanced directing students will collaborate with advanced producers to conceptualize and plan the creation of a large-scale short film.

Title
Conceptualization, Visualization, and Storytelling

Tags
212844, 0, 3

Learning Outcome
Advanced directing students will conceptualize, pre-visualize, and create materials that will eventually culminate in the completion of a cohesive, large-scale, short film.

Title
Working Within the Studio or Client Model

Tags
212845, 0, 4

Learning Outcome
Advanced directing students will demonstrate the ability to plan a film production that is subject to heavy oversight and institutional processes.

TMA

Course Number
476

Teaching Area
TMA

Course Title
Secondary Student Teaching

Course Description
Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

Department
Theatre and Media Arts

When Taught
Fall and Winter

Credit Hours

Min:
12

Fixed/Max:
12

Other Prerequisites
Theatre education major status. Completion of all course work or departmental approval; requires a total GPA of 3.0 or higher; requires a C or higher in all education-related and major-required courses.

Learning Outcomes

Title
Teaching Competency

Tags
210547, 0, 2

Learning Outcome
Students will demonstrate competency in theatre content and the pedagogical presentation of theatre concepts.

Title
Instructional Design and Delivery

Tags
210548, 0, 3

Learning Outcome
Students will design and deliver instruction to help young learners develop proficiency in theatre content and critical thinking.

Title
Diverse Learners

Tags
210549, 0, 4

Learning Outcome
Students will create a nurturing and motivating learning environment that helps diverse learners succeed.

Title
Lesson Planning and Pedagogical Strategies

Tags
210550, 0, 5

Learning Outcome
Students will plan lessons, units and courses based on the understanding of theatre content and theatre standards, as well as pedagogical strategies.

Title
Assessment Development and Use

Tags
210551, 0, 6

Learning Outcome
Students will generate and use assessments to evaluate learners as well as the effectiveness of their own instruction.

Learning Outcome
Students will conduct original research under the guidance of an expert in the subject area.

Title
Professional Development

Tags
188871, 4

Learning Outcome
Students will become aware of the various ethical considerations that scholarship demands.

Title
Stay Current in Field

Tags
188945, 1

Learning Outcome
Students will become aware of and explore newly devloping ideas in theatre and performance studies.

Title
Practical Experience

Tags
188959, 0

Learning Outcome
Students will gain in-depth practical experience in performance/research practices and methodologies not similarly treated elsewhere in the TMA curriculum.

Title
Develop Research Strategies

Tags
189100, 2

Learning Outcome
Students will experience how a professional scholar deals with various research-related concerns: archives, methodologies, current academic conversations, etc.

TMA 483 - New Play Dramaturgy

Course Information

Teaching Area (new)
TMA

Course Number
483

Teaching Area
TMA

Course Title
New Play Dramaturgy

Course Description
Develop further research and hands-on theatrical skills in four critical studies areas: literary management, production dramaturgy, new play development, educational outreach.

Department
Theatre and Media Arts

When Taught
Winter.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- TMA 380 - Production Dramaturgy

Learning Outcomes

Title
Evaluate Dramaturgy

Tags
189147, 1

Learning Outcome
Students will evaluate dramaturgical documents, presentations, and practices.

Title
Collaboration

Tags
189148, 2

Learning Outcome
Students will collaborate with others in dramaturgical exercises.

Title
Do Dramaturgy

Tags
189149, 3

Learning Outcome
Students will generate dramaturgical documents.

Title
Self-Assessment

Tags
189150, 4

Learning Outcome
Students will assess their own dramaturgical work and practices.

TMA 484R - Advanced Special Projects

Course Information

Teaching Area (new)
TMA

Course Number
484R

Teaching Area
TMA

Course Title
Advanced Special Projects

Course Description
This is a course that provides mentoring and inspiring learning for advanced students collaborating with a faculty member on a professional media project.

Department
Theatre and Media Arts

When Taught
Fall, Winter, Spring

Credit Hours

Min:
0.5

Fixed/Max:
4

Lecture Hours

Fixed:
4

Lab Hours

Fixed:
0

Recommended
Advanced production and/or post-production skills

TMA 485R - Dramaturgy Practicum

Course Information

Teaching Area (new)
TMA

Course Number
485R

Teaching Area
TMA

Course Title
Dramaturgy Practicum

Course Description
Experience as lead dramaturg for main-stage productions; building casebooks and overseeing audience education efforts. Rehearsal and production meeting attendance required.

Department
Theatre and Media Arts

When Taught
Fall; Winter; Spring; Summer.

Credit Hours

Min:
1

Fixed/Max:
3

Lecture Hours

Fixed:
2

Other Prerequisites
TMA 380 and instructor's consent

Learning Outcomes

Title
Production Casebook Development

Tags
188920, 2

Learning Outcome
Students will process, document, and archive their production dramaturgy experience by creating a production casebook.

Title
Production Team Support

Tags
188984, 1

Learning Outcome
Students will generate research, conceptual, and textual support as needed and requested by the production team.

Title
Collaborative Experience

Tags
189026, 1

Learning Outcome
Students will collaborate as a member of a production team and will collaborate with other dramaturgs in their production experiences.

TMA 489R - Production Leads

Course Information

Teaching Area (new)
TMA

Course Number
489R

Teaching Area
TMA

Course Title
Production Leads

Course Description
Practical experience working as performance designers, or related topics.

Department
Theatre and Media Arts

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
6

Other Prerequisites
Instructor's consent.

Learning Outcomes

Title
Professional Skills

Tags
214508, 0, 1, 2023-08-29 13:12:59

Learning Outcome
Students will create fully realized designs for season productions, to include all required supporting materials.

Title
Collaboration

Tags
214509, 0, 2, 2023-08-29 13:13:00

Learning Outcome
Students will practice advanced collaborative skills through hands-on participation on realized production teams.

Title
Communication

Tags
214510, 0, 3, 2023-08-29 13:13:01

Learning Outcome
Students will employ effective communication skills through pre-production meetings, shop interactions and post-production reviews.

Title
Portfolio

Tags
214511, 0, 4, 2023-08-29 13:13:02

Learning Outcome
Students will generate effective materials for their personal portfolios.

TMA 491 - Theatre & The Gospel

Course Information

Teaching Area (new)
TMA

Course Number
491

Teaching Area
TMA

Course Title
Theatre & The Gospel

Course Description
Analyzing and considering interrelationships of ethical, aesthetic, and theological dimensions of creating and performing media arts and theatre texts.

Department
Theatre and Media Arts

When Taught
Fall and Winter

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Other Prerequisites
BFA in Acting or MDT Majors only.

Learning Outcomes

Title
Ethical Decision Making

Tags
188556, 0, 1

Learning Outcome
Students will examine, define, and clarify an individual process of ethical decision making.

Title
Aesthetic Sensibility

Tags
188557, 0, 2

Learning Outcome
Students will define and clarify aesthetic sensibility in relationship to the creation and performance of dramatic art.

Title
Theological Connection

Tags
188559, 0, 4

Learning Outcome
Students will explore the relationship between God and humankind, specifically as it relates to artistic aesthetical and ethical practice.

TMA 492R - Film Genres

Course Information

Teaching Area (new)
TMA

Course Number
492R

Teaching Area
TMA

Course Title
Film Genres

Course Description
Intensive analysis of a single major traditional media genre (i.e., western, musical, sitcom, or melodrama) with consideration of contextual, subtextual, and textual issues.

Department
Theatre and Media Arts

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Other Prerequisites
TMA 291 or 292; media arts major or minor status

Learning Outcomes

Title
Horror Genre Studies

Tags
188681, 1

Learning Outcome
To listen to a ton of lectures, read a ton of stories, and see a ton of films relating to a given genre. We will also learn about some of the social and historical factors that have informed narratives within that genre, as well as some of their many and evolving styles and conventions.

Title
Analysis of a Specific Genre

Tags
188682, 2

Learning Outcome
Explore a specific genre as a microcosm of larger aesthetic and social development of popular cultural artifacts.

Title
Scholarly Genre Study

Tags
188683, 3

Learning Outcome
Identify scholarly material related to genre study.

Title
Context relationships

Tags
188684, 4

Learning Outcome
Consider the relationship of text, subtext, and context in genre film.

Title
Analyze Conventions

Tags
188685, 5

Learning Outcome
Analyze the significance of conventions and themes both diachronically and synchronically.

TMA 494R - Transcendence: Religion and Film

Course Information

Teaching Area (new)
TMA

Course Number
494R

Teaching Area
TMA

Course Title
Transcendence: Religion and Film

Course Description
Historical, stylistic, and thematic survey of approaches to religious and spiritual subject matter in film.

Department
Theatre and Media Arts

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- TMA 291 - Film History 1

OR

Prerequisites

Complete ALL of the following Courses:

- TMA 292 - Film History 2

Other Prerequisites
media arts major or minor status.

Learning Outcomes

Title
Explore film in the context of the Gospel of Jesus Christ

Tags
188686, 1

Learning Outcome
Students will explore ways that the Gospel of Jesus Christ impacts their personal understandings and creation of film.

Title
Analyze film texts using religious and spiritual paradigms

Tags
188687, 2

Learning Outcome
Students will critically analyze how films present and represent diverse perspectives on religion, spirituality, and applied ethics.

Title
Compare and correlate approaches to religion/spirituality in film

Tags
188688, 3

Learning Outcome
Students will compare and correlate historical, theoretical, and stylistic approaches to religion, spirituality, and ethics across a range of cinematic traditions and genres.

Title
Interpret film through discussion and writing

Tags
188689, 4

Learning Outcome
Students will articulate informed interpretations of films that engage with questions of meaning making, morality, and human values through discussion and writing.

TMA 496R - Academic Internship

Course Information

Teaching Area (new)
TMA

Course Number
496R

Teaching Area
TMA

Course Title
Academic Internship

Course Description
Off-campus experience or internship in theatre or media arts.

Department
Theatre and Media Arts

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
12

Other Prerequisites
Theatre Arts Studies and BFA Acting students: TMA 115; by application only. Theatre education students: completion of all course work or departmental approval; requires a GPA of 3.0 or higher; requires a C or higher in all education-related and major-required courses. Media students: TMA 114 and 185/105; by application only.

Note
An approved Internship Application is required before adding.

Learning Outcomes

Title
Expanding Knowledge

Tags
188560, 1

Learning Outcome
Students will improve their capacity as storytellers and filmmakers by observing and assisting in professional settings outside of BYU.

Title
Effective Communication

Tags
188561, 2

Learning Outcome
Collaborate effectively with other professionals in the creation of a film, television series, or other media production.

TMA 497R - The Motion Picture: Mirror of Our Times

Course Information

Teaching Area (new)
TMA

Course Number
497R

Teaching Area
TMA

Course Title
The Motion Picture: Mirror of Our Times

Course Description
Interdisciplinary approach to media texts as aesthetic and historical documents expressing a people, place, and time.

Department
Theatre and Media Arts

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Other Prerequisites
TMA 291 or 292; media arts major or minor status

Learning Outcomes

Title
Understand and Explore Culture and Social Values

Tags
188690, 1

TMA 498R - Special Topics in Film

Course Information

Teaching Area (new)
TMA

Course Number
498R

Teaching Area
TMA

Course Title
Special Topics in Film

Course Description
Consideration of compelling issues in media arts practice, theory, history, and criticism.

Department
Theatre and Media Arts

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Other Prerequisites
TMA 291 or 292; media arts major or minor status

Learning Outcomes

Title
Analysis

Tags
188691, 1

Learning Outcome
In-depth textual, contextual, and subtextual analyses of a compelling topic in media arts.

Title
Paradigm Exploration

Tags
188692, 2

Learning Outcome
Paradigmatic exploration of emerging media arts issues in practice, theory and history.

Title
Aesthetic and Historical implications

Tags
188693, 3

Learning Outcome
Thoughtful consideration of aesthetic and historical implications of special media arts topics.

Title
Review of Applicable Texts

Tags
188694, 4

Learning Outcome
Consideration of representative texts of the media arts special topic.

TMA 515R - Special Projects 3

Course Information

Teaching Area (new)
TMA

Course Number
515R

Teaching Area
TMA

Course Title
Special Projects 3

Course Description
Advanced special projects in theatre or media arts.

Department
Theatre and Media Arts

When Taught
All Semesters/Terms

Credit Hours

Min:
1

Fixed/Max:
6

Other Prerequisites
Theatre and media arts students: by application.

Learning Outcomes

Title
Statement on Outcomes

Tags
189199, 1

Learning Outcome
Because this course serves as an umbrella for a number of different sections that provide a variety of learning experiences, the instructor of each section will list at least three (3) course-level learning outcomes for that section that are in line with the applicable program-level learning outcomes.

TMA 536R - Special Projects in Stage Directing

Course Information

TMA

Course Title
Special Projects in Stage Directing

Course Description
Advanced experience in stage directing.

Department
Theatre and Media Arts

When Taught
Fall; Winter; Spring; Summer.

Credit Hours

Min:
0.5

Fixed/Max:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- TMA 436 - Stage Directing 2: Advanced Directing Practicum

Other Prerequisites
application required.

TMA 551R - Playwriting 4

Course Information

Teaching Area (new)
TMA

Course Number
551R

Teaching Area
TMA

Course Title
Playwriting 4

Course Description
Workshop course designed to assist more advanced students in furthering their playwriting skills by writing or rewriting a play.

Department
Theatre and Media Arts

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
4

Lab Hours

Fixed:
0

Other Prerequisites
TMA 451 or instructor's consent

Learning Outcomes

Title
Writing Processes

Tags
189055, 0, 1

Learning Outcome
Students will develop their own process for adapting content for the stage.

Title
Theatrical Storytelling

Tags
189070, 0, 1

Learning Outcome
Students demonstrate their ability to adapt stories to the stage.

Title
Script Analysis

Tags
189007, 0, 3

Learning Outcome
Students will demonstrate the skills to accurately and thoughtfully analyze and re-write their theatrical adaptations.

TMA 590R - Master Seminar

Course Information

Teaching Area (new)
TMA

Course Number
590R

Teaching Area
TMA

Course Title
Master Seminar

Course Description
Special topics seminar on topics relevant to the fields of media and/or performance studies.

Department
Theatre and Media Arts

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Instructor's consent.

Learning Outcomes

Title
Contemporary Theatre Scholarship

Tags
188856, 0

Learning Outcome
Graduates will have an introduction to contemporary theatre scholarship

Title
Western Theatre History

Tags
188929, 0

Learning Outcome
Graduates will have a basic working knowledge of the major points of Western theatre history

Title
General Global Historical Context

Tags
188961, 0

Learning Outcome
Graduates will have a general global historical context in which to place performance events

Title
Personal Exploration

Tags
188985, 0

Learning Outcome
Graduates will have a space to explore your own interests and disciplines

TMA 599R - Academic Internship

Course Information

Teaching Area (new)
TMA

Course Number
599R

Teaching Area
TMA

Course Title
Academic Internship

Course Description
Off-campus experience or internship in theatre or media arts.

Department
Theatre and Media Arts

When Taught
All Semesters/Terms

Credit Hours

Min:
1

Fixed/Max:
9

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- TMA 114 - Reading and Constructing Narratives
  AND TMA 185 - Basic Film Production

Other Prerequisites

Theatre students: TMA 115; by application only. Media students: TMA 112 and 114 and 185/105; by application only. TMA graduate student: by application only.

Note

An APPROVED Internship Application is required before adding.

Learning Outcomes

Title
Individual Experience Outcomes

Tags
188916, 0

Learning Outcome
Because of the individual nature of the internship course students work with their advisor to list at least three (3) objectives they hope to achieve that are in line with the program level learning outcomes.

TML 400 - Foundations in Teaching Multilingual Learners

Course Information

Teaching Area (new)
TELL

Course Number
400

Teaching Area
TML

Course Title
Foundations in Teaching Multilingual Learners

Course Description
Explores how gospel principles and Christlike virtues enrich content and language instruction for multilingual learners through the TEAML instructional vision, fostering effective and meaningful learning opportunities for multilingual learners.

Department
Teacher Education

When Taught
Fall, Winter, and Spring

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Learning Outcomes

Title
Gospel Foundations

Tags
178717, 5

Learning Outcome
Explore connections between principles of the restored gospel of Jesus Christ with what it means to teach multilingual learners in effective and meaningful ways.

Title
TEAML Core Practices

Tags
178726, 0

Learning Outcome
Understand how these connections are manifest in the TEAML Instructional Vision and its core practices.

Title
Teaching Dispositions

Tags
178773, 3

Learning Outcome
Articulate with nuance how TEAML core practices demand the exercise of Christlike virtue.

TML 410 - Disciplinary Literacy in an Additional Language

Course Information

Teaching Area (new)
TELL

Course Number
410

Teaching Area
TML

Course Title
Disciplinary Literacy in an Additional Language

Course Description
Explores how children learn English as an additional language in and beyond school. Focuses on assisting multilingual learners to participate in learning activities through modeled disciplinary language and targeted linguistic support.

Department
Teacher Education

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Declare a Teaching Major

Recommended
TML 400

Learning Outcomes

Title
English Language Development

Tags
178827, 1

Learning Outcome
Understand key concepts from theory and research regarding how children develop English as an additional language in and out of school (including WIDA proficiency levels).

Title
Content Instruction

Learning Outcome
Understand the role of language to develop proficiency in disciplinary content and provide means of assisting English development of multilingual learners.

Title
Modeling and Input

Learning Outcome
Persist in assisting the participation of multilingual learners in the disciplinary practices (e.g., language arts, math, social studies, science) by (a) modeling disciplinary language structures and forms and (b) providing input as needed.

TML 420 - Assessment and Planning for Multilingual Learners

Course Information

Teaching Area (new)
TELL

Course Number
420

Teaching Area
TML

Course Title
Assessment and Planning for Multilingual Learners

Course Description
Prepares educators to integrate language development with content instruction. Focuses on designing formative assessments, using data to guide teaching, and collaborating with other educators to improve learning activities for multilingual learners.

Department
Teacher Education

When Taught
Fall

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Recommended
TML 400

Learning Outcomes

Title
Planning Instruction

Tags
178828, 1

Learning Outcome
Integrate content learning and language development standards (listening, speaking, reading, writing) for MLs within the same lesson, and plan activities to achieve these goals

Title
Assessment for Planning

Learning Outcome
Be aware of the purposes, affordances, and constraints of different types of assessment, and use assessment data to plan activities for MLs.

Title
Formative Assessment

Learning Outcome
Develop, plan for, and administer formative assessments of what MLs know and are able to do with language and in the content areas, and use this information to make instructional decisions.

Title
Professional Collaboration

Learning Outcome
Collaborate with teachers and other school-based staff to plan and study lesson activities and interactions that renew classroom learning activities for MLs.

TML 430 - Adolescent Literacy in an Additional Language

Course Information

Teaching Area (new)
TELL

Course Number
430

Teaching Area
TML

Course Title
Adolescent Literacy in an Additional Language

Course Description
Examines how adolescent learners develop disciplinary literacy in English as an additional language. Integrates literacy and language theories to design strategies that support participation across content areas through social, cultural, and cognitive dimensions of learning.

Department
Teacher Education

When Taught
Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Recommended
TML 400

Learning Outcomes

Title
Adolescent Language Development

Tags
178829, 1

Learning Outcome
Integrate theories of (a) adolescent literacy development and (b) developing English as an additional language to understand how adolescent MLs develop interpretive and expressive modes of communication.

Title
Disciplinary Language

Learning Outcome
Be aware of the social, cultural, and cognitive ways in which literacy in English (as an additional language) intersects with disciplinary ideas and practices (in math, language arts, science, history, etc.) for adolescent MLs.

Title
Modeling and Input for Adolescents

Learning Outcome
Assist adolescent MLs to actively participate in speaking, listening, reading, and writing by (a) eliciting, affirming, and extending their ideas; (b) modeling disciplinary literacy practice, and (b) modeling and providing input as needed.

TML 442R - TEAML Practicum

Course Information

Teaching Area (new)
TELL

Course Number
442R

Teaching Area
TML

Course Title
TEAML Practicum

Course Description
Candidates develop and demonstrate competence in seven TEAML core teaching practices during supervised field placement, by enacting instruction with multilingual learners and receiving formative feedback across varied instructional content.

Department
Teacher Education

When Taught
Fall, Winter, and Spring

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
0

Simple Requisites

Type
Prerequisite

Prerequisite

Complete ALL of the following Courses:

- TML 400 - Foundations in Teaching Multilingual Learners
  OR TML 410 - Disciplinary Literacy in an Additional Language

Other Prerequisites
FBI fingerprint background clearance.

Note
Successful completion of this practicum is required for the TEAML teaching minor.

Learning Outcomes

Title
Lesson Plans

Tags
178831, 1

Learning Outcome
Plan instructional activities for multilingual learners that address language and content learning goals based on core practices of the TEAML instructional vision.

Title
Enacted Activities

Learning Outcome
Enact instructional activities that demonstrate competence in (a) supporting agentic student expression, (b) assisting English language development, (c) modeling and inputting, (d) connecting curricular content with students' lives, (e) fostering productive student collaborations, (f) formative assessment, and (g) promoting meaningful participation for every multilingual learner.

TML 450 - Family, Home, and Community Partnerships

Course Information

Teaching Area (new)
TELL

Course Number
450

Teaching Area
TML

Course Title
Family, Home, and Community Partnerships

Course Description
Prepares educators to engage with families and communities of multilingual learners. Examines cultural, social, and structural influences, identifies equity barriers, and develops practices that connect curriculum to students' everyday lives.

Department
Teacher Education

When Taught
Fall, Winter, Spring

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

TML 400

Learning Outcomes

Title
Learning from Families

Tags
179090, 2

Learning Outcome
Position yourself as a learner from the families and communities of multilingual learners.

Title
Family and Community Influences

Tags
179091, 1

Learning Outcome
Understand how families and communities shape the routines, interests, relationships, perspectives, expertise, values, and traditions of multilingual leaders.

Title
Structural Barriers

Learning Outcome
Identify and navigate structural barriers affecting multilingual learners and their families to partner with them and their communities

Title
Contextualizing Curriculum

Learning Outcome
Develop teaching practices that contextualize the curriculum in terms of what multilingual learners know and do in their everyday lives.

Prerequisites

Complete ALL of the following Courses:
- TONGA 201 - Second-Year Language Study: Tongan

Note
Teacher may waive prerequisite based on prior experience. Culminating course for GE Languages of Learning requirement. Not an entry course for returned missionaries.

Learning Outcomes

Title
Communication Skills

Tags
196622, 1

Learning Outcome
In both written and spoken target language, communicate with reasonable accuracy about real-world activities with well-educated members of the target-culture accustomed to dealing with non-native speakers.

Title
Comprehension

Tags
196624, 2

Learning Outcome
Understand every-day written and verbal instructions. Comprehend concrete details and global meaning of intermediate-level written and spoken passages related to familiar topics that native speakers encounter routinely in their daily life.

Title
Cultural Knowledge

Tags
196626, 3

Learning Outcome
Discuss in the target language cultural practices related to every-day life in the target culture. Acquire basic background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.).

Title
General Education Requirements

Tags
196628, 4

Learning Outcome
Complete Languages of Learning and Global & Cultural Awareness for General Education.

Learning Outcomes

Title
Inclusive Recreation Services

Tags
175429, 1

Learning Outcome
Have entry-level knowledge related to providing inclusive recreation services for individuals with disabilities in therapeutic recreation settings.

Title
Americans with Disabilities Act (ADA)

Tags
175430, 2

Learning Outcome
Have a basic understanding of the Americans with Disabilities Act (ADA) and how it relates to Therapeutic Recreation and inclusive recreation services.

Title
History of Individuals with Disabilities

Tags
175431, 3

Learning Outcome
Have a basic knowledge and understanding of the history of individuals with disabilities, how they have been treated, and what services they have received over time.

Title
Process

Tags
175432, 4

Learning Outcome
Use the Therapeutic Recreation process (assessment, planning, implementation, evaluation, and documentation) in an inclusive recreation environment.

Title
Models

Tags
175433, 5

Learning Outcome
Apply Therapeutic Recreation models in an inclusive recreation environment.

Title
Practice Settings

Tags
175434, 6

Learning Outcome
Use Therapeutic Recreation practice settings to provide inclusive recreation services for people with disabilities.

TRM 401 - Introduction to Therapeutic Recreation

Learning Outcomes

Title
Defined Career Purposes

Tags
195924, 1

Learning Outcome
Develop overall language and cultural competence needed to study and begin entry into a career agreed upon by the Center for Language Studies.

Title
Knowledge

Tags
195925, 2

Learning Outcome
Carry out research to identify, understand, and discuss standards, processes, people and cultural norms associated with the target career.

Title
Interpretive Competence

Tags
195927, 3

Learning Outcome
Understand, interpret and analyze advanced-level written and oral texts on topics related to the target career.

Title
Communicative Competence

Tags
195928, 4

Learning Outcome
Communicate effectively at the advanced-level in order to function in a variety of situations likely to be encountered when dealing with native speakers who are associated with the target career. This will include interpersonal communication and both written and oral presentational communication.

Title
Cultural Competence

Tags
195929, 5

Learning Outcome
Interact with cultural competence and understanding when dealing with native speakers who are associated with the target career.

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- WELSH 330 - Advanced Language Proficiency Through Cultural Studies: Welsh

Learning Outcomes

Title
Defined Career Purposes

Tags
195620, 1

Learning Outcome
Develop overall language and cultural competence needed to study and begin entry into a career agreed upon by the Center for Language Studies.

Title
Knowledge

Tags
195623, 2

Learning Outcome
Carry out research to identify, understand, and discuss standards, processes, people and cultural norms associated with the target career.

Title
Interpretive Competence

Tags
195625, 3

Learning Outcome
Understand, interpret and analyze advanced-level written and oral texts on topics related to the target career.

Title
Communicative Competence

Tags
195630, 4

Learning Outcome
Communicate effectively at the advanced-level in order to function in a variety of situations likely to be encountered when dealing with native speakers who are associated with the target career. This will include interpersonal communication and both written and oral presentational communication.

Title
Cultural Competence

Tags
195631, 5

Learning Outcome
Interact with cultural competence and understanding when dealing with native speakers who are associated with the target career.

WRTG 150 - Writing and Rhetoric

Course Information

Teaching Area (new)
WRTG

Course Number
150

Teaching Area
WRTG

Course Title
Writing and Rhetoric

Course Description
Writing and research with a focus on inquiry, information literacy, rhetorical awareness, genre knowledge, and reflection. Emphasizes writing as a flexible process and writers as curious, open, and charitable.

Department
English

When Taught
Fall; Winter; Spring; Summer.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
Fulfills General Education First-Year Writing requirement. Additional seats for specific sections may be available to First-Year Mentoring participants through envelopes. NOTE: Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required.

Learning Outcomes

Title
Rhetorical and Genre Knowledge

Tags
206523, 3

Learning Outcome
. Students will be able to analyze rhetorical situations, use and adapt genres, write for a specified audience and purpose, and adopt a style, tone, and level of formality suited to the purpose and audience.

Title
Processes of Writing

Tags
206544, 0

Learning Outcome
Students will be able to use productive and flexible individual and collaborative writing processes, including prewriting, drafting, revising, editing and proofreading, reflecting, and employing writing technologies like generative artificial intelligence effectively and ethically.

Title
Inquiry and Reading

Tags
206551, 4

Learning Outcome
Students will be able to engage in inquiry as an iterative process as they understand and participate in ongoing scholarly conversations, suspending judgment until larger contexts are understood. They will be able to read and use written materials in a variety of genres and from a variety of sources, including information gathered from digital sources like databases, search engines, social media, and generative artificial intelligence.

Title
Processes of Library Research and Information Literacy

Learning Outcome
In collaboration with the library, students will begin to develop the ability to critically evaluate sources; construct effective search strategies; and investigate, analyze, interpret, and synthesize information from diverse perspectives to ask questions, learn, generate new knowledge, and solve problems.

Title
Style and Knowledge of Conventions

Learning Outcome
Students will be able to use appropriate language, genre conventions, and citation practices to write effectively in different contexts.

Title
Reflection

Learning Outcome
Students will be able to practice a systematic reflective process that includes describing prior or current writing experiences; evaluating the meaning and relevance of those experiences, including the consequences of their writing choices; and thinking ahead to future writing contexts.

WRTG 311 - Writing about the Arts and Humanities

Fixed:
0

Other Prerequisites
First-year writing, junior or senior status.

Note
Carries GE Advanced Written and Oral Communication credit.

Learning Outcomes

Title
Process

Tags
191262, 0, 1, 2021-09-28 12:43:39

Learning Outcome
Employ informed and flexible processes for writing and speaking, including creating and/or finding ideas, evidence, and data to write about; planning and drafting; revising; editing; and designing or presenting a message so that it is successfully understood by a specified audience.

Title
Structure

Tags
191263, 0, 2, 2021-09-28 12:43:39

Learning Outcome
Write coherent and unified texts, including effective introductions, clear thesis statements, supporting details, transitions, and strong conclusions.

Title
Rhetorical Situation

Tags
191264, 0, 3, 2021-09-28 12:43:39

Learning Outcome
Use various methods of invention, organization, and style to adapt written and oral forms of communication to a specific rhetorical situation.

Title
Sources

Tags
191265, 0, 4, 2021-09-28 12:43:39

Learning Outcome
Utilize the library and electronic resources to locate relevant information, assess its reliability and usefulness, and effectively and ethically incorporate it into their own writing by following an appropriate style of documentation.

Title
Style

Tags
191266, 0, 5, 2021-09-28 12:43:39

Learning Outcome
Write in a correct, clear, and graceful prose style.

Title
Peer Revision

Tags
206550, 0, 5, 2021-09-28 12:43:39

Learning Outcome
Effectively evaluate and comment on the writing of others to facilitate revision.

Title
Audience

Tags
206538, 0, 6, 2021-09-28 12:43:39

Learning Outcome
Write and speak effectively about the arts to academic and general audiences and for a variety of purposes.

Title
Critical Reading

Tags
206554, 0, 7, 2021-09-28 12:43:39

Learning Outcome
Critically read and evaluate different artistic mediums as well as scholarship in the humanities.

WRTG 312 - Persuasive Writing

3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
First-year writing, junior or senior status.

Note
Carries GE Advanced Written and Oral Communication credit. Offered by BYU Independent Study; enroll anytime throughout the year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Project Management and Collaboration

Tags
191710, 0, 0, 2021-09-28 12:45:09

Learning Outcome
Employ flexible strategies and processes, both individual and collaborative, for planning, researching, drafting, and revising written and oral technical communication, including effective and ethical use of GenAI tools.

Title
Rhetorical Situation

Tags
191700, 0, 1, 2021-09-28 12:45:09

Learning Outcome
Identify aspects of professional cultures, contexts, and audiences that inform the creation of effective technical communication, and compose documents tailored to the needs of a variety of expert and non-expert audiences.

Title
Genre

Tags
191675, 0, 2, 2021-09-28 12:45:09

Learning Outcome
Recognize and analyze the factors that shape various technical communication genres. Implement that understanding in producing various technical writing genres.

Title
Ethics

Tags
191694, 0, 3, 2021-09-28 12:45:09

Learning Outcome
Compose technical documents that strive for universal design and that account for the myriad ethical complexities of effective technical communication.

Title
Research and Information Literacy

Tags
191685, 0, 4, 2021-09-28 12:45:09

Learning Outcome
Develop discipline-specific information literacy skills in identifying, evaluating, and ethically incorporating research of various kinds-including library research-into technical communication.

Title
Style

Tags
191687, 0, 5, 2021-09-28 12:45:09

Learning Outcome
Write coherent, unified texts using a voice, tone, and level of formality that effectively communicates technical information to expert and non-expert audiences

Title
Design

Tags
191701, 0, 6, 2021-09-28 12:45:09

Learning Outcome
Apply basic principles of document design to technical documents, including effective use of tables, figures, and other forms of data visualization.

Title
Reflection

Tags
191712, 0, 7, 2021-09-28 12:45:09

Learning Outcome
Reflect on and develop their identity as writers by evaluating the rhetorical effectiveness and ethical implications of all technical communication decisions.
