CHEM 498R - Capstone Experience in Chemistry/Biochemistry

Course Information

Teaching Area (new)
CHEM

Course Number
498R

Teaching Area
CHEM

Course Title
Capstone Experience in Chemistry/Biochemistry

Course Description
Capstone undergraduate research experience. A maximum of 6 credits can be taken across multiple semesters/terms. Only 3 credits can count towards elective requirements for a chemistry/biochemistry degree.

Department
Chemistry and Biochemistry

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
4

Other Prerequisites
Instructor's consent, and Chem 201 or concurrent enrollment or special safety training

Recommended
CHEM 497R; CHEM 497R

CHEM 500 - (Chem-C S-Geol-Math-MthEd-Phscs-Stat) Business Career Essentials in Science and Math

Course Information

Teaching Area (new)
CHEM

Course Number
500

Teaching Area
CHEM

Course Title
(Chem-C S-Geol-Math-MthEd-Phscs-Stat) Business Career Essentials in Science and Math

Course Description
Introduction for science, math, and statistics majors to careers in industry. Project planning, oral and written business presentations, business accounting, and technology readiness.

Department
Chemistry and Biochemistry

When Taught
Winter

Credit Hours

Min:
1.5

Fixed/Max:
1.5

Lecture Hours

Fixed:
1.5

Lab Hours

Fixed:
0

CHEM 502 - Job Search Strategies

Course Information

Teaching Area (new)
CHEM

Course Number
502

Teaching Area
CHEM

Course Title
Job Search Strategies

Course Description
Course will assist graduating students in identifying and connecting to potential employers.

Department
Chemistry and Biochemistry

When Taught
Fall and Winter

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

CHEM 514 - Inorganic Chemistry

Course Information

Teaching Area (new)
CHEM

Course Number
514

Teaching Area
CHEM

Course Title
Inorganic Chemistry

Course Description
In-depth treatment of theoretical concepts in inorganic chemistry and solid state, organmetallic, and bioinorganic chemistry.

Department
Chemistry and Biochemistry

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Recommended
Completion of Chem 462 or concurrent enrollment in Chem 462. \nCompletion of Chem 467 or Chem 468 is also satisfactory

Learning Outcomes

Title
Describe Atoms and Molecules

Tags
203936, 1

Learning Outcome
Students will be able to describe atoms and molecules.

Title
Describe Physical and Electronic Properties of Inorganic Com

Tags
204211, 2

Learning Outcome
Students will be able to describe the physical and electronic properties of inorganic compounds such as metals, ionic solids, coordination compounds and nanomaterials.

Title
Assign Point Groups and Deduce Symmetries

Tags
204212, 3

Learning Outcome
Students will be able to assign point groups and deduce the symmetries of atomic orbitals, molecular orbitals, and molecular vibrations.

Title
Draw and Name Coordination Compounds

Tags
204213, 4

Learning Outcome
Students will be able to draw and name coordination compounds.

Title
Write and Orally Present Element Report

Tags
204214, 7

Learning Outcome
Students will be able to write and orally present a report on an element or family of elements.

Title
Describe Metalloproteins

Tags
204215, 6

Learning Outcome
Students will be able to describe several metalloproteins.

Title
Identify Compounds, Reactions, and Mechanisms

Tags
204216, 5

Learning Outcome
Students will be able to identify stable organometallic compounds, common organometallic reactions, and catalytic mechanisms.

CHEM 518 - Advanced Inorganic Laboratory

Course Information

Teaching Area (new)
CHEM

Course Number
518

Teaching Area
CHEM

Course Title
Advanced Inorganic Laboratory

Course Description
Synthesis, characterization, and properties of materials; coordination and organometallic compounds.

Department
Chemistry and Biochemistry

When Taught
Fall

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
6

Other Prerequisites
Chem 514 or concurrent enrollment.
Chem 201 or 601 or concurrent enrollment.

Learning Outcomes

Title
Safely Handle Lab Equipment

Tags
204006, 1

Learning Outcome
Students will be able to safely and with proficiency handle solvents, chemicals, glassware, and instruments.

Title
Use Solid-State Techniques to Synthesize Compounds

Tags
204013, 2

Learning Outcome
Students will be able to use solid-state techniques to synthesize compounds and characterize the compounds they synthesize.

Title
Complete Lab Experiments Independently and in Small Grops

Tags
204107, 5

Learning Outcome
Students will be able to work independently and in small groups to complete laboratory experiments.

Title
Synthesize, Isolate, Characterize and Explain Properties

Tags
204113, 3

Learning Outcome
Students will be able to synthesize, isolate, characterize and explain the properties of main group, coordination, organometallic, and bioinorganic compounds.

Title
Write Scientific Lab Reports

Tags
204150, 4

Learning Outcome
Students will be able to write scientific lab reports.

CHEM 521 - Instrumental Analysis Lecture

Course Information

Teaching Area (new)
CHEM

Course Number
521

Teaching Area
CHEM

Course Title
Instrumental Analysis Lecture

Course Description
Modern instrumental methods and basic principles of instrumentation.

Department
Chemistry and Biochemistry

When Taught
Fall

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- CHEM 462 - Physical Chemistry 1
  AND PHSCS 220 - Introduction to Electricity and Magnetism

OR

Prerequisites

Complete ALL of the following Courses:

- CHEM 467 - Physical Chemistry for Engineers
  AND PHSCS 220 - Introduction to Electricity and Magnetism

OR

Prerequisites

Complete ALL of the following Courses:

- CHEM 468 - Biophysical Chemistry
  AND PHSCS 220 - Introduction to Electricity and Magnetism

Learning Outcomes

Title
Role of Main Components

Tags
204201, 1

Learning Outcome
Students will, with the aid of user manuals, be able to effectively operate optical spectrometers, mass spectrometers, and chromatographs based on a fundamental understanding of the components that make up those instruments.

Title
Method Development

Tags
204202, 2

Learning Outcome
Students will be able to develop an effective method for the analysis of a sample, with appropriate consideration of sample type, instrument selection based on well-defined figures of merit, validation with appropriate standards, quality control, and statistical analysis in reporting of uncertainties.

Title
Interpretation of Results

Tags
204203, 3

Learning Outcome
Students will gain textbook experience in the interpretation of optical, chromatographic, and mass spectrometric measurement in anticipation of hands-on experience with the techniques in Chemistry 523.

Title
Electronic Measurement Principles

Tags
204204, 4

Learning Outcome
Students will understand the concepts of input impedance, output impedance, impedance matching, and A/D conversion, and will be able to apply that understanding to the proper connection of a signal source with an electronic measuring device.

Title
Signals and Noise

Tags
204205, 5

Learning Outcome
Students will understand the origins of noise in analytical measurements and will be able to apply that understaning in a variety of signal processing techniques that optimize signal-to-noise ratios and improve analytical performance of instrumental methods.

CHEM 523 - Instrumental Analysis Laboratory

Course Information

Teaching Area (new)
CHEM

Course Number
523

Teaching Area
CHEM

Course Title
Instrumental Analysis Laboratory

Course Description
Continuation of Chem 521. Laboratory experience with modern analytical instrumentation.

Department
Chemistry and Biochemistry

When Taught
Winter.

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
6

Simple Requisites

Untitled Requirement

Type
Prerequisite

Fulfill ANY of the following requirements:

Complete ALL of the following Courses:

- CHEM 521 - Instrumental Analysis Lecture
  AND CHEM 201 - Chemical Handling and Safe Laboratory Practices

OR

Complete ALL of the following Courses:

- CHEM 521 - Instrumental Analysis Lecture
  AND CHEM 601 - Safe Chemical Practices

Learning Outcomes

Learning Outcome
Make accurate chemical analyses using a variety of instrumental techniques.

Learning Outcome
Describe their findings clearly and concisely in writing, including interpretation of results and statistical analysis.

Learning Outcome
Present data in graph and/or tabular formats effectively.

Learning Outcome
Apply what they have learned about instrumental analysis to carry out a new procedure of their own design.

Learning Outcome
Explain observations made during the course of an experiment.

Learning Outcome
Discuss how experimental variables affect the outcome of a measurement.

Learning Outcome
Identify appropriate instrumental methods for given chemical analysis problems, taking into account such factors as sample type, interferences, sensitivity, and selectivity.

Learning Outcome
Identify and resolve problems when they arise in analyses.

CHEM 552 - Advanced Organic Chemistry

Course Information

Teaching Area (new)
CHEM

Course Number
552

Teaching Area
CHEM

Course Title
Advanced Organic Chemistry

Course Description
Physical aspects of organic chemistry; mechanisms, reaction intermediates, bonding, stereochemical and stereoelectronic effects, molecular orbital theory, Lewis acidity and basicity.

Department
Chemistry and Biochemistry

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- CHEM 352M - Organic Chemistry 2 - Majors

OR

Prerequisites

Complete ALL of the following Courses:

- CHEM 352 - Organic Chemistry 2

Other Prerequisites

Chem 462 and 463 (or Chem 468).

Learning Outcomes

Title
Outcome 4

Tags
204035, 3

Learning Outcome
Predict reaction mechanisms of major classes of organic reactions, including substitutions, eliminations, additions and radical reactions.

Title
Outcome 5

Tags
204081, 4

Learning Outcome
Recognize the impact of non-covalent interactions in complex systems and reaction mechanisms.

Title
Outcome 2

Tags
204123, 1

Learning Outcome
Perform calculations using ab initio, semi-empirical, density functional, and molecular mechanics approaches to predict energies and structures of ground and transition states.

Title
Outcome 3

Tags
204127, 2

Learning Outcome
Use reaction kinetics, linear free energy relationships, isotope labeling, stereo-electronic effects and stereochemical outcomes to determine reaction mechanisms.

Title
Outcome 1

Tags
204179, 0

Learning Outcome
Predict relative energies and locations of frontier molecular orbitals for organic molecules of intermediate complexity using linear combinations of atomic orbitals and hybridized orbital approaches.

CHEM 553 - Advanced Organic Chemistry

Course Information

Teaching Area (new)
CHEM

Course Number
553

Teaching Area
CHEM

Course Title
Advanced Organic Chemistry

Course Description
Synthetic aspects of organic chemistry; oxidations, reductions, concerted reactions, stereoselectivity, synthetic equivalents, protecting groups. Examples of natural product total synthesis.

Department
Chemistry and Biochemistry

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- CHEM 352 - Organic Chemistry 2

OR

Prerequisites

Complete ALL of the following Courses:

- CHEM 352M - Organic Chemistry 2 - Majors

Learning Outcomes

Title
Outcome 2

Tags
204048, 1

Learning Outcome
Apply protecting group strategies in feasible routes to complex natural products and/or other organic molecules of biological or theoretical interest.

Title
Outcome 5

Tags
204126, 4

Learning Outcome
Predict reaction mechanisms for the reaction types listed in outcomes 3 and 4.

Title
Outcome 3

Tags
204132, 2

Learning Outcome
Recognize and be able to apply standard methods for carbon-carbon bond forming reactions including: alkylation of nucleophilic carbon; reactions of carbanions with carbonyl groups; reactions involving transition metals; reactions of compounds of boron, silicon, and tin; and cycloadditions.

Title
Outcome 4

Tags
204134, 3

Learning Outcome
Recognize and be able to apply standard methods for carrying out the following types of synthetic transformations: reductions of carbonyls and other functional groups, oxidations, electrophilic additions, aromatic substitution reactions.

Title
Outcome 1

Tags
204196, 0

Learning Outcome
Formulate a retrosynthetic analysis and propose a total synthesis route for a previously un-synthesized complex natural product.

CHEM 555 - Organic Spectroscopic Identification

Course Information

Teaching Area (new)
CHEM

Course Number
555

Teaching Area
CHEM

Course Title
Organic Spectroscopic Identification

Course Description
Theory and practice of spectrometric methods of identifying organic compounds, including infrared, ultraviolet nuclear magnetic resonance, and mass spectrometries.

Department
Chemistry and Biochemistry

When Taught
Fall

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Note
Students who have completed Chem 455 are not eligible to enroll in Chem 555.

Learning Outcomes

Title
Outcome 2

Tags
203997, 1

Learning Outcome
Students will receive training on the open-access research instruments used for spectrometric analysis. This includes the IR, UV, MS, NMR spectrometers and the polarimeter, with an emphasis on 1D and 2D NMR methods.

Title
Outcome 1

Tags
204024, 0

Learning Outcome
Students will develop problem-solving skills by identifying the molecular structure of organic compounds using multiple spectrometric techniques including IR, UV, MS, and NMR (both 1D and 2D spectra).

Title
Outcome 3

Tags
204098, 2

Learning Outcome
Students will complete an unknown identification project that gives them practice preparing their own samples, operating the instruments to acquire their own spectra and interpreting this data to identify their unknowns.

CHEM 561 - Chemical Thermodynamics

Course Information

Teaching Area (new)
CHEM

Course Number
561

Teaching Area
CHEM

Course Title
Chemical Thermodynamics

Course Description
Development of the principles of chemical thermodynamics, including laws, pure materials, mixtures, equilibria, and elementary statistical mechanics.

Department
Chemistry and Biochemistry

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Complete ALL of the following Courses:

- CHEM 462 - Physical Chemistry 1
  AND CHEM 463 - Physical Chemistry 2

Learning Outcomes

Title
Chem 561 - Thermodynamics

Tags
204233, 1

Learning Outcome
Students will demonstrate knowledge in chemical thermodynamics.

CHEM 563 - Reaction Kinetics

Course Information

Teaching Area (new)
CHEM

Course Number
563

Teaching Area
CHEM

Course Title
Reaction Kinetics

Course Description
Theoretical aspects of chemical kinetics in the gas phase and in solution. Rates and mechanisms in solution, rapid reactions, and other topics.

Department
Chemistry and Biochemistry

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CHEM 462 - Physical Chemistry 1
  AND CHEM 463 - Physical Chemistry 2

Learning Outcomes

Title
Outcome 3

Tags
204015, 2

Learning Outcome
Interpret the results of experiments that measure dynamic processes, such as cross-molecular beam experiments.

Title
Outcome 1

Tags
204022, 0

Learning Outcome
Solve simple and complex (coupled or sequential) kin etic expressions to obtain rate constants, reaction lifetimes, and activation energies, for gas, liquid, surface, and catalyzed reactions.

Title
Outcome 2

Tags
204044, 1

Learning Outcome
Use statistical reaction theories, including transition state theory and RRKM, to both predict and interpret chemical reaction rates.

Title
Outcome 4

Tags
204155, 3

Learning Outcome
Use the concepts of detailed balance and microscopic reversibility to connect the results of experiments that measure dynamic processes to experiments that obtain kinetic results.

Title
Outcome 5

Tags
204159, 4

Learning Outcome
Calculate the potential energy surface (PES) for a simple chemical reaction, explain the relationship between the PES and the outcomes of a chemical reaction including how different types of energy influence the reaction given the PES.

CHEM 565 - Introduction to Quantum Chemistry

Course Information

Teaching Area (new)
CHEM

Course Number
565

Teaching Area
CHEM

Course Title
Introduction to Quantum Chemistry

Course Description
Introduction to physical and mathematical aspects of quantum theory, emphasizing application of the Schrodinger wave equation to chemical systems.

Department
Chemistry and Biochemistry

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- CHEM 462 - Physical Chemistry 1

OR

Prerequisites

Complete ALL of the following Courses:

- CHEM 467 - Physical Chemistry for Engineers

Learning Outcomes

Title
Outcome 1

Tags
203937, 1

Learning Outcome
Write and solve the Schrödinger equation in 1, 2 or 3 dimensions for 1, 2, or N particles for typical model problems and describe the meaning and significance of the solutions.

Title
Outcome 2

Tags
203938, 2

Learning Outcome
Interpret the wavefunctions in #1 by calculating probability in a region, expectation values and matrix elements of Hermitian operators corresponding to physical observables.

Title
Outcome 3

Tags
203939, 3

Learning Outcome
Use as necessary to solve problems: commutators of operators, basis set expansions, perturbation theory (degenerate and nondegenerate) and the variational principle.

Title
Outcome 4

Tags
203940, 4

Learning Outcome
Describe how the Hartree-Fock SCF method works and use Slater determinants of spin and spatial eigenfunctions to build anti-symmetric atomic wavefunctions

CHEM 567 - Statistical Mechanics

Course Information

Teaching Area (new)
CHEM

Course Number
567

Teaching Area
CHEM

Course Title
Statistical Mechanics

Course Description
Introduction to classical and quantum statistical mechanics, including Boltzmann, Fermi-Dirac, and Bose-Einstein statistics. Applications of statistical thermodynamics to gases, liquids, and solids.

Department
Chemistry and Biochemistry

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:

3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CHEM 462 - Physical Chemistry 1
  AND CHEM 463 - Physical Chemistry 2

Recommended
Chem 565

Learning Outcomes

Title
Outcome 13

Tags
204026, 12

Learning Outcome
Obtain the radial distribution from the probability function for a system, from Monte Carlo calculations or molecular dynamics trajectories and evaluate system properties from the radial distribution function.

Title
Outcome 2

Tags
204039, 1

Learning Outcome
Use combinatorics to define probabilities in simple systems.

Title
Outcome 14

Tags
204046, 13

Learning Outcome
Use Monte Carlo and transfer matrix methods to study a system of interacting spins as a model of phase transitions.

Title
Outcome 11

Tags
204059, 10

Learning Outcome
Use the Metropolis Monte Carlo method to calculate statistical averages for a system. Know how to choose an efficient sampling method.

Title
Outcome 8

Tags
204064, 7

Learning Outcome
Explain the meaning, significance and range of applicability of these fundamentals: ergodic hypothesis, equipartition theorem, and Bose-Einstein condensation.

Title
Outcome 10

Tags
204076, 9

Learning Outcome
Apply statistical mechanical principles to simple crystals, blackbody radiation and imperfect gases.

Title
Outcome 9

Tags
204124, 8

Learning Outcome
Use statistical mechanical principles to describe chemical equilibrium constants.

Title
Outcome 6

Tags
204154, 5

Learning Outcome
Use proper statistics for classical particles and for quantum particles (bosons or fermions).

Title
Outcome 1

Tags
204164, 0

Learning Outcome
Use probability density functions to describe a system, and recognize simple probability functions and their properties including Gaussian (normal), binomial (or multinomial), and Poisson distributions.

Title
Outcome 5

Tags
204169, 4

Learning Outcome
Calculate the size of fluctuations of system properties and relate them to the number of particles in a system.

Title
Outcome 3

Tags
204189, 2

Learning Outcome
Describe how to choose a Gibbsian ensemble for calculation of system properties. Be able to recognize when the following ensembles are appropriate: microcanonical (N,V,E), canonical (N,V,T), grand canonical (V,T,m), isobaric-isothermal (N,T,P). Know how to construct the partition function in each case.

Title
Outcome 4

Tags
204192, 3

Learning Outcome
Calculate average system quantities and thermodynamic variables using the appropriate partition function.

Title
Outcome 12

Tags
204197, 11

Learning Outcome
Show how to use molecular dynamics to calculate statistical averages for a molecular system. Know when molecular dynamics is more appropriate than Monte Carlo methods. Know the advantages and disadvantages of common trajectory propagation algorithms.

Title
Outcome 7

Tags
204225, 6

Learning Outcome
Calculate canonical partition functions for translation, rotation, and harmonic vibration. Use them for applications and know when they don't apply.

CHEM 569 - Fundamentals of Spectroscopy

Course Information

Teaching Area (new)
CHEM

Course Number
569

Teaching Area
CHEM

Course Title
Fundamentals of Spectroscopy

Course Description
Atomic and molecular spectroscopy and application of group theoretical concepts. Types of experiments and interpretation of data.

Department
Chemistry and Biochemistry

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Completion Requirement

Complete ANY of the following Courses:

- CHEM 462 - Physical Chemistry 1
  OR CHEM 467 - Physical Chemistry for Engineers
  OR CHEM 468 - Biophysical Chemistry

Learning Outcomes

Title
Outcome 1

Tags
203941, 1

Learning Outcome
Explain the electric and magnetic properties of radiation, molecules and bulk matter and solve problems related to these properties.

Title
Outcome 2

Tags
203942, 2

Learning Outcome
Solve time-dependent quantum mechanical problems and apply these solutions to spectroscopy where light is the time-dependent perturbation.

Title
Outcome 3

Tags
203943, 3

Learning Outcome
Explain angular momentum as possessed by atomic or molecular systems, various descriptions of how angular momentum can be coupled, and how conservation of angular momentum is important to spectroscopy.

Title
Outcome 4

Tags
203944, 4

Learning Outcome
Apply solutions of the Schrödinger equation for simple systems (particle in a box, rigid rotor, harmonic oscillator, etc) to real systems (vibrational, rotational, and electronic energy states) for use in determining the energy of stationary states.

Title
Outcome 5

Tags
203945, 5

Learning Outcome
Explain the origin of selection rules and derive electric and magnetic dipole, quadrupole, etc. selection rules for simple model quantum systems.

Title
Outcome 6

Tags
203946, 6

Learning Outcome
Use symmetry arguments, including group theory and parity, to simplify the interpretation and explanation of atomic and molecular spectra.

Title
Outcome 7

Tags
203947, 7

Learning Outcome
Use solutions to the model systems and the selection rules the predict spectra for atomic and molecular systems.

Title
Outcome 8

Tags
203948, 8

Learning Outcome
Fit experimentally obtained spectra to the mathematical models to obtain physical constants.

CHEM 571 - Polymer and Materials Chemistry

Course Information

Teaching Area (new)
CHEM

Course Number
571

Teaching Area
CHEM

Course Title
Polymer and Materials Chemistry

Course Description
Survey of synthetic and biopolymers, modern materials, and their chemistry, including synthesis, chemical and physical characterization, and applications.

Department
Chemistry and Biochemistry

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Recommended
Chem 352 or Chem 351M; Chem 462 or Chem 468.

CHEM 575 - X-ray Diffraction Theory & Practice

Course Information

Teaching Area (new)
CHEM

Course Number
575

Teaching Area
CHEM

Course Title
X-ray Diffraction Theory & Practice

Course Description
This course will explore how X-rays can be used to characterize the atomic structure of solid, crystalline materials. Students will learn the fundamental concepts of crystallography and will gain practical, hands-on experience with both single crystal (SC-XRD) and powder (P-XRD) diffraction techniques.

Department
Chemistry and Biochemistry

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CHEM 482 - Mechanisms of Molecular Biology

Note
One of two required courses for biochemistry graduate students. May be taken before or after Chem 583.

Learning Outcomes

Tags
204032, 3

Learning Outcome
Recognize important technological advances in proteomic, immunological and structural methods.

Tags
204085, 1

Learning Outcome
Interpret and critique data from these techniques.

Tags
204156, 4

Learning Outcome
Present findings from the primary literature describing the application of these methods to significant biochemical questions in a professional manner.

Tags
204160, 0

Learning Outcome
Understand the theory, instrumentation and applications of proteomic, immunological and structural methods currently used to address important biochemical questions.

Tags
204194, 2

Learning Outcome
Design appropriate experiments and apply these techniques to their own research problems.

CHEM 583 - Advanced Biochemical Methodology 2

Course Information

Teaching Area (new)
CHEM

Course Number
583

Teaching Area
CHEM

Course Title
Advanced Biochemical Methodology 2

Course Description
Maintenance and expression of genetic information, the role of nucleic acids in biology at the chemical and structural level, and methods to study and control nucleic acid function as a means of solving biological problems.

Department
Chemistry and Biochemistry

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CHEM 482 - Mechanisms of Molecular Biology

Note
One of two required courses for biochemistry graduate students. May be taken before or after Chem 581.

Learning Outcomes

Tags
203998, 1

Learning Outcome
Understand methods for studying the structure and function of nucleic acids and methods for manipulating gene expression in living systems.

Tags
204071, 4

Learning Outcome
Design appropriate experiments and apply the techniques of nucleic acid biochemistry to their own research problems.

Tags
204114, 3

Learning Outcome
Communicate this understanding in both oral and written formats. [

Tags
204188, 2

Learning Outcome
Interpret and critique data obtained using these methods as reported in the primary scientific literature.

Tags
204193, 0

Learning Outcome
Describe how genetic information is stably maintained, how it is expressed, and how that expression is regulated, with an emphasis on the mechanism by which molecular machines perform these processes.

CHEM 584 - Advanced Biochemistry Methods 1

Course Information

Teaching Area (new)
CHEM

Course Number
584

Teaching Area
CHEM

Course Title
Advanced Biochemistry Methods 1

Course Description
Introduction to current biochemical research methods, techniques, and instrumentation directed toward the isolation and characterization of DNA, RNA, and proteins including, DNA cloning, protein expression, enzyme kinetics, and nucleic acid and protein ligand interactions.

Department
Chemistry and Biochemistry

When Taught
Fall.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
6

Simple Requisites

Prerequisites

Type
Prerequisite

Fulfill ANY of the following requirements:

Complete ALL of the following Courses:

- CHEM 227 - Principles of Chemical Analysis
  AND CHEM 381 - Fundamentals of Biochemistry
  AND CHEM 384 - Biochemistry Methods

OR

Complete ALL of the following Courses:

- CHEM 227 - Principles of Chemical Analysis **AND** CHEM 384 - Biochemistry Methods **AND** CHEM 481 - Biochemistry.

Note

Completion of Chem 601 in place of Chem 201 is satisfactory.

Learning Outcomes

Learning Outcome
Apply nucleic acid techniques to isolate, purify, characterize, manipulate, amplify and express DNA and/or RNA in prokaryotic systems.

Learning Outcome
Characterize and manipulate proteins obtained from gene expression in prokaryotic organisms.

Learning Outcome
Communicate in written and verbal forms the methods and results of experimentation. Provide sufficient explanation of experimental techniques and approaches to enable others to repeat experiments and verify results.

Learning Outcome
Utilize available resources (e.g., online, manufacturer's protocols) to plan, execute, and troubleshoot experimental approaches.

CHEM 586 - Advanced Biochemistry Methods 2

Course Information

Teaching Area (new)
CHEM

Course Number
586

Teaching Area
CHEM

Course Title
Advanced Biochemistry Methods 2

Course Description
Continued development of expertise in and the application of biochemical research methods, techniques, and instrumentation building on the skills and experience gained in Chem 584 including, the design and carrying out of directed group research projects.

Department
Chemistry and Biochemistry

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
6

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CHEM 584 - Advanced Biochemistry Methods 1

Learning Outcomes

Title
Design and execute experiments with nucleic acids using eukaryotic organisms.

Tags
204272, 1

Learning Outcome
Apply nucleic acid techniques to isolate, purify, characterize, manipulate, amplify and express DNA and/or RNA in eukaryotic systems

Title
Design and execute experiments with proteins derived from gene expression in eukaryotes

Tags
204273, 2

Learning Outcome
Characterize and manipulate proteins obtained from gene expression in eukaryotic organisms.

Title
Clearly communicate research approaches and data.

Tags
204274, 3

Learning Outcome
Communicate in written and verbal forms the methods and results of experimentation. Provide sufficient explanation of experimental techniques and approaches to enable others to repeat experiments and verify results.

Title
Demonstrate the ability to use existing resources to address research questions.

Tags
204275, 4

Learning Outcome
Utilize available resources (e.g., online, manufacturer's protocols) to plan, execute, and troubleshoot experimental approaches.

CHEM 594R - General Seminar

Course Information

Teaching Area (new)
CHEM

Course Number
594R

Teaching Area
CHEM

Course Title
General Seminar

Course Description
Research topics presented by faculty and visiting scientists.

Department
Chemistry and Biochemistry

When Taught
Fall and Winter

Credit Hours

Min:
0.5

Fixed/Max:
0.5

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

Note
Required one semester in residence of all senior BS majors in chemistry and biochemistry. Seminars are typically scheduled at 4:00 pm *any day of the week*. Check the seminar schedule at chem.byu.edu for current schedule and updates. Attendance at a minimum of 10 seminars is required.

Learning Outcomes

Title
Current Research

Tags
203949, 1

Learning Outcome
Become familiar with a variety of current research areas by listening to numerous visiting researchers describe their recent research results.

Title
Prepare for Seminar Presentations

Tags
203950, 2

Learning Outcome
Prepare for seminar presentations by reading literature articles written by visiting speakers before attending the presentation.

Title
Science-Writing Skills

Tags
203951, 3

Learning Outcome
Improve science-writing skills by writing summaries of research papers.

Title
Note Taking Skills

Tags
203952, 4

Learning Outcome
Take notes in presentations attended to record thoughts and ideas for future reference.

CHEM 596R - Special Topics in Chemistry

Course Information

Teaching Area (new)
CHEM

Course Number
596R

Teaching Area
CHEM

Course Title
Special Topics in Chemistry

Department
Chemistry and Biochemistry

When Taught
Contact Department

Credit Hours

Min:
0.5

Fixed/Max:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Special topics in Chemistry - 500 level

Tags
204236, 1

Learning Outcome
Students will demonstrate an advanced level of knowledge in a chosen specialty area.

Title
596R - Atmospheric Chem

Tags
204235, 1

Learning Outcome
Students will demonstrate knowledge in atmospheric chemistry.

CHIN 101 - Beginning Mandarin

Course Information

Teaching Area (new)
CHIN

Course Number
101

Teaching Area
CHIN

Course Title
Beginning Mandarin

Course Description
Basic grammar, vocabulary building, speaking.

Department
Asian and Near Eastern Languages

When Taught
Fall, Winter, Spring

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
5

Lab Hours

Fixed:
2

Learning Outcomes

Title
Effective Writing

Tags
189509, 1

Learning Outcome
Write short paragraphs, notes and similar texts at the ACTFL novice low level. (See Chinese major learning outcome 2)

Title
Practices and Conventions

Tags
189510, 2

Learning Outcome
Demonstrate a basic understanding of a variety of Chinese cultural practices and communicative conventions. (See Chinese major learning outcome 3)

Title
Speaking and Understanding

Tags
189511, 3

Learning Outcome
Speak and understand Mandarin Chinese at the ACTFL novice mid level. (See Chinese major learning outcome 1)

Title
Effective Listening

Tags
189512, 4

Learning Outcome
Listen to conversations, dialogs, and live interaction at the ACTFL novice mid level. (See Chinese major learning outcome 1)

CHIN 102 - Beginning Mandarin

Course Information

Teaching Area (new)
CHIN

Course Number
102

Teaching Area
CHIN

Course Title
Beginning Mandarin

Course Description
Continuation of CHIN 101.

Department
Asian and Near Eastern Languages

When Taught
Fall, Winter, Summer

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
5

Lab Hours

Fixed:
2

Other Prerequisites
Recommended CHIN 101 or equivalent

Learning Outcomes

Title
Effective Listening

Tags
189513, 1

Learning Outcome
Listen to conversations, dialogs, and live interaction at the ACTFL novice high level. (See Chinese major learning outcome 1).

Title
Speaking and Understanding

Tags
189514, 2

Learning Outcome
Speak and understand Mandarin Chinese at the ACTFL novice high level. (See Chinese major learning outcome 1).

Title
Effective Writing

Tags
189515, 3

Learning Outcome
Write short paragraphs, notes, and similar texts at the ACTFL novice mid level. (See Chinese major learning outcome 2).

Title
Practices and Conventions

Tags
189516, 4

Learning Outcome
Demonstrate a basic understanding of a variety of Chinese cultural practices and communicative conventions. (See Chinese major learning outcome 3)

CHIN 112 - Beginning Chinese Reading

Course Information

Teaching Area (new)
CHIN

Course Number
112

Teaching Area
CHIN

Course Title
Beginning Chinese Reading

Course Description
Chinese writing system, reading, and basic composition using Chinese characters.

Department
Asian and Near Eastern Languages

When Taught
Fall, Winter, Summer

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Other Prerequisites
Equivalent of one year spoken Mandarin skills.

Learning Outcomes

Title
Speaking and Understanding

Tags
189518, 2

Learning Outcome
Speak and understand Mandarin Chinese at the ACTFL intermediate low level. (See Chinese major learning outcome 1)

Title
Etymology

Tags
189519, 3

Learning Outcome
Understand the structure and composition of Chinese characters and beginning level etymology. (See Chinese major learning outcome 2)

Title
Effective Writing

Tags
189517, 0, 1

Learning Outcome
Write short paragraphs, journal entries, notes, and similar texts at the ACTFL novice-mid level. (See Chinese major learning outcome 2)

Title
Effective Reading

Tags
211216, 0, 4

Learning Outcome
Read a variety of informal and easy formal texts at the ACTFL novice-high level, demonstrating the ability to summarize, skim, scan texts and guess unknown words from context. (See Chinese major learning outcome 2)

CHIN 200R - Chinese Calligraphy

Course Information

Teaching Area (new)
CHIN

Course Number
200R

Teaching Area
CHIN

Course Title
Chinese Calligraphy

Course Description
Training in the art of writing Chinese characters with a brush.

Department
Asian and Near Eastern Languages

When Taught
Fall and Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
2

Other Prerequisites
Chin 101 or equivalent

Learning Outcomes

Title
Write basic Chinese characters using calligraphy

Tags
189520, 1

Learning Outcome
Write basic Chinese characters using one or more of the writing styles of Chinese calligraphy (see Chinese major expected learning outcome 3).

Title
Explain the importance of Chinese calligraphy

Tags
189521, 2

Learning Outcome
Explain the importance of Chinese calligraphy in Chinese culture and civilization (see Chinese major expected learning outcome 3).

CHIN 201 - Intermediate Mandarin

Course Information

Teaching Area (new)
CHIN

Course Number
201

Teaching Area
CHIN

Course Title
Intermediate Mandarin

Course Description
Advanced grammar, the writing system, reading and writing, speaking.

Department
Asian and Near Eastern Languages

When Taught
Fall, Winter, Spring

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:

1

Recommended
CHIN 102

Learning Outcomes

Title
Cultural Practices

Tags
189522, 4

Learning Outcome
Demonstrate an introductory level understanding of Chinese cultural practices. (See Chinese major learning outcome 3)

Title
Speaking and Understanding

Tags
189773, 1

Learning Outcome
Speak and understand Mandarin Chinese at the ACTFL intermediate-low level. (See Chinese major learning outcome 1)

Title
Listening Comprehension

Tags
189774, 2

Learning Outcome
Understand conversations and dialogs at the ACTFL intermediate-low level. (See Chinese major learning outcome 1)

Title
Effective Writing

Tags
189779, 3

Learning Outcome
Write short essays, journal entries, and notes at the ACTFL novie-high level. (See Chinese major learning outcome 2)

Title
Effective Reading

Tags
211217, 0, 5

Learning Outcome
Read a variety of informal and easy formal texts at the ACTFL intermediate-mid level, demonstrating the ability to summarize, skim, scan texts and guess unknown words from context. (See Chinese major learning outcome 2)

CHIN 202 - Intermediate Mandarin

Course Information

Teaching Area (new)
CHIN

Course Number
202

Teaching Area
CHIN

Course Title
Intermediate Mandarin

Course Description
Advanced grammar, the writing system, reading and writing, speaking, and listening.

Department
Asian and Near Eastern Languages

When Taught
Fall, Winter, Summer

Prerequisites

Complete ALL of the following Courses:

- CHIN 201 - Intermediate Mandarin

Learning Outcomes

Title
Social Practices and Behavior

Tags
189366, 4

Learning Outcome
Demonstrate a fundamental understanding of Chinese social practices as well as linguistically and culturally appropriate behavior. (See Chinese major learning outcome 3)

Title
Listening Comprehension

Tags
189772, 2

Learning Outcome
Understand conversations and dialogs at the ACTFL intermediate-high level. (See Chinese major learning outcome 1)

Title
Effective Reading

Tags
211212, 0, 5

Learning Outcome
Read a variety of informal and easy formal texts at the ACTFL intermediate-high level, demonstrating the ability to summarize, skim, scan texts and guess unknown words from context. (See Chinese major learning outcome 2)

Title
Speaking and Understanding

Tags
189771, 0, 1

Learning Outcome
Speak and understand Mandarin Chinese at the ACTFL intermediate-high level. (See Chinese major learning outcome 1)

Title
Effective Writing

Tags
189778, 0, 3

Learning Outcome
Write short essays, journal entries, and notes at the ACTFL intermediate-mid level. (See Chinese major learning outcome 2)

CHIN 211R - Intermediate Conversation

Course Information

Teaching Area (new)
CHIN

Course Number
211R

Teaching Area
CHIN

Course Title
Intermediate Conversation

Course Description
Emphasis on fluency and vocabulary building.

Department
Asian and Near Eastern Languages

When Taught

Prerequisites

Complete ALL of the following Courses:

- CHIN 202 - Intermediate Mandarin

Learning Outcomes

Title
Comprehending Non-Technical Spoken Mandarin

Tags
189367, 1

Learning Outcome
Comprehend non-technical spoken Mandarin in controlled contexts at the ACTFL advanced-low level. (See Chinese major learning outcome 1)

Title
Understanding Chinese Culture and Society

Tags
189368, 5

Learning Outcome
Demonstrate an understanding of Chinese cultural features as well as contemporary Chinese society. (See Chinese major expected learning outcome 3)

Title
Reading Informal and Easy Formal Texts

Tags
189768, 3

Learning Outcome
Read a variety of informal and easy formal texts at the ACTFL advanced-low level, demonstrating the ability to summarize, skim, scan texts and guess unknown words from context. (See Chinese major learning outcome 2)

Title
Speaking Mandarin Chinese

Tags
189780, 0, 2

Learning Outcome
Speak Mandarin Chinese at the ACTFL advanced-low level, demonstrating the ability to defend a point of view, narrate events, and give a basic presentation. (See Chinese major learning outcome 1)

Title
Writing Notes, Correspondence, and Short Essays

Tags
189777, 0, 4

Learning Outcome
Write notes, correspondence, and short essays at the ACTFL intermediate-high level. (See Chinese major expected learning outcome 2)

CHIN 302 - Third-Year Mandarin

Course Information

Teaching Area (new)
CHIN

Course Number
302

Teaching Area
CHIN

Course Title
Third-Year Mandarin

Course Description
Advanced-level Mandarin skills, especially media discourse and reading.

Department
Asian and Near Eastern Languages

When Taught
Fall and Winter

Complete ALL of the following Courses:

- CHIN 301 - Third-Year Mandarin

Learning Outcomes

Title
Reading Journalistic Texts

Tags
189770, 0, 2, 2021-08-30 18:33:57

Learning Outcome
Read journalistic texts at the ACTFL advanced-mid level, demonstrating the ability to both skim and scan texts as well as read for details. (See Chinese major learning outcome 2)

Title
Summarizing, Writing, and Translating

Tags
189781, 0, 3, 2021-08-30 18:33:57

Learning Outcome
Summarize news stories, express personal insights, and write and translate descriptive reports in formal written Chinese at the ACTFL intermediate-high level and in spoken Chinese at the advanced-low level. (See Chinese major learning outcome 2)

Title
Understanding Discourse

Tags
189369, 0, 4, 2021-08-30 18:33:57

Learning Outcome
Understand the structure of Chinese media discourse, including grammar and stylistics, within the Chinese cultural context. (See Chinese major learning outcome 3)

Title
Listening Comprehension and Speaking Proficiency

Tags
189769, 0, 1, 2021-08-30 18:33:57

Learning Outcome
Understand the main points of spoken Chinese on television and radio news broadcasts at the ACTFL advanced-mid level. (See Chinese major learning outcome 1). Speak Mandarin Chinese at the ACTFL advanced-mid level, demonstrating the ability to defend a point of view, narrate events, and give a basic presentation. (See Chinese major learning outcome 1)

CHIN 311R - Advanced Conversation

Course Information

Teaching Area (new)
CHIN

Course Number
311R

Teaching Area

Other Prerequisites
Chin 202 or equivalent.

Learning Outcomes

Title
Listening Comprehension

Tags
189370, 1

Learning Outcome
Understand conversations and dialogs at the ACTFL advanced mid level. (See Chinese major learning outcome 1)

Title
Speaking Chinese

Tags
189371, 2

Learning Outcome
Speak Chinese at the ACTFL advanced low level (See Chinese major learning outcome 1)

Title
Practices and Interactions

Tags
189372, 3

Learning Outcome
Demonstrate an intermediate level understanding of Chinese cultural practices and appropriate social interactions. (See Chinese major learning outcome 3)

CHIN 321 - Selected Readings of Modern Chinese

Course Information

Teaching Area (new)
CHIN

Course Number
321

Teaching Area
CHIN

Course Title
Selected Readings of Modern Chinese

Course Description
Complements overall language competency through reading modern texts selected from a wide range of styles and genres.

Department
Asian and Near Eastern Languages

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CHIN 302 - Third-Year Mandarin

Learning Outcomes

Title
Chinese Culture

Tags
189374, 3

Learning Outcome
Analyze and discuss Chinese culture and how it influences Chinese language and literature. (See Chinese major learning outcome 3)

Title
Discussing Chinese Literary Genres

Tags
189763, 0, 1

Learning Outcome
Discuss Chinese literary genres, works, and authors in their social, historical, and religious contexts, demonstrating the ability to argue and support supporting and opposing points of view in both formal written Chinese at the ACTFL advanced-low level and in spoken Chinese at the ACTFL advanced-mid level. (See Chinese major learning outcomes 1 and 3)

Title
Reading and Comprehending Selected Texts

Tags
189373, 0, 2

Learning Outcome
Read and comprehend selected texts in modern literary Chinese at the ACTFL advanced-mid level, demonstrating a knowledge of key grammatical patterns. (See Chinese major learning outcome 2)

CHIN 322 - Selected Readings of Modern Chinese.

Course Information

Teaching Area (new)
CHIN

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CHIN 302 - Third-Year Mandarin

Learning Outcomes

Title
Reading Skills

Tags
189375, 2

Learning Outcome
Read a variety of formal and informal genres of writing at the ACTFL advanced-mid level. (See Chinese major learning outcome 2)

Title
Writing Conventions

Tags
189764, 1

Learning Outcome
Write notes, routine social correspondence, and short essays at the ACTFL advanced-low level while demonstrating an awareness of formal Chinese writing conventions. (See Chinese major learning outcome 2)

Title
Research Paper

Tags
189765, 3

Learning Outcome
Write essays and research papers in Chinese at the ACTFL advanced-low level, demonstrating the ability to express personal experiences and opinions as well as well-documented and well-argued research. (See Chinese major learning outcome 2)

Title
Formal Letters

Tags
189766, 4

Learning Outcome
Write formal letters related to school and employment at the ACTFL advanced-low level. (See Chinese major learning outcome 2)

Title
Narratives and Descriptions

Tags
189767, 5

Learning Outcome
Write narratives and descriptions at the ACTFL advanced-low level while demonstrating an awareness of formal Chinese writing conventions. (See Chinese major learning outcome 2)

CHIN 325 - Structure of Chinese

Course Information

Teaching Area (new)
CHIN

Course Number
325

Teaching Area
CHIN

Course Title
Structure of Chinese

Course Description
Sound, syntax, meaning, and word structure of Mandarin Chinese and its implications to problems of learning Chinese.

Department
Asian and Near Eastern Languages

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CHIN 202 - Intermediate Mandarin

Learning Outcomes

Title
In depth Knowledge of Chinese

Tags
189376, 1

Learning Outcome
Demonstrate an in depth knowledge of the structure of Modern Standard Chinese, including its sound system, syntax, discourse structure, and morphology (see Chinese major expected learning outcome 3).

Title
Relate Language to Social Context

Tags
189377, 2

Learning Outcome
Relate the language to its social context (see Chinese major expected learning outcome 3).

Title
Analyze Language Errors

Tags
189378, 3

Learning Outcome
Analyze learner errors in order to resolve problems in ones own spoken and written Mandarin (see Chinese major expected learning outcomes 1 and 2).

Title
Research, Writing and Presentation Skills

Tags
189379, 4

Learning Outcome
Research, write, and present short reports on aspects of the Chinese language.

CHIN 326 - Introduction to Chinese Linguistics

Course Information

Teaching Area (new)
CHIN

Course Number
326

Teaching Area
CHIN

Course Title
Introduction to Chinese Linguistics

Course Description
Dialectology, phonology, syntax, semantics, discourse, morphology, and sociolinguistics.

Department
Asian and Near Eastern Languages

When Taught
Winter

Credit Hours

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CHIN 202 - Intermediate Mandarin

Learning Outcomes

Title
Culturally Contextualize Chinese Language

Tags
189380, 1

Learning Outcome
Put the Chinese language into its broader historical and geographic context (see Chinese major expected learning outcome 3).

Title
Structure of Modern Chinese

Tags
189381, 2

Learning Outcome
Demonstrate an understanding of the major components of structure of Modern Chinese (see Chinese major expected learning outcomes 1-3).

Title
Understand Chinese Language Variation

Tags
189382, 3

Learning Outcome
Show an understanding of variation in the Chinese language and its implications in high level communication contexts

Title
Knowledge of Chinese Dialects

Tags
189383, 4

Learning Outcome
Demonstrate a general knowledge of the dialects of Chinese and how they relate to one another (see Chinese major expected learning outcome 3).

Title
Research, Writing and Presentation Skills

Tags
189384, 5

Learning Outcome
Research, write, and present short reports on aspects of the Chinese language.

CHIN 327 - Chinese Translation and Interpretation

Course Information

Teaching Area (new)
CHIN

Course Number
327

Teaching Area
CHIN

Course Title
Chinese Translation and Interpretation

Course Description
Translation techniques, with practice in oral and written translation either from Chinese to English or from English to Chinese.

Department
Asian and Near Eastern Languages

When Taught

Prerequisites

Complete ALL of the following Courses:

- CHIN 301 - Third-Year Mandarin

Learning Outcomes

Title
Put Chinese language in context

Tags
189385, 1

Learning Outcome
Put the Chinese language into its broader historical and geographic context (see Chinese major expected learning outcome 3).

Title
Use translation terminology

Tags
189386, 2

Learning Outcome
Utilize basic vocabulary of translation theory.

Title
Explain translation practice

Tags
189387, 3

Learning Outcome
Explain the development of translation practice in China (see Chinese major expected learning outcome 3).

CHIN 342 - Chinese Film in Translation

Course Information

Teaching Area (new)
CHIN

Course Number
342

Teaching Area
CHIN

Course Title
Chinese Film in Translation

Course Description
Survey course covering the silent era to the present, including selections from Republican China, the People's Republic of China, Taiwan, and Hong Kong.

Department
Asian and Near Eastern Languages

Tags
189670, 1

Learning Outcome
The students will utilize a significant range of skills and abilities in a professional setting.

CL CV 110 - Introduction to Greek and Roman Literature

Course Information

Teaching Area (new)
CL CV

Course Number
110

Teaching Area
CL CV

Course Title
Introduction to Greek and Roman Literature

Course Description
Homer's *Iliad*, Sophocles' *Oedipus the King*, Vergil's *Aeneid*, and other important works of the Greeks and Romans.

Department
Comparative Arts and Letters

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
All readings in English.

Learning Outcomes

Title
Principles and Practice of Literary Method

Tags
189863, 1

Learning Outcome
Successful students will begin to apply principles and practice of literary method with specific reference to ancient texts.

Title
Evaluating Texts

Tags
189864, 4

Learning Outcome
Students should be able to evaluate texts through close reading and express the results of this evaluation in essays.

Title
Ancient Literary Works

Tags
190642, 1

Learning Outcome
By studying Aristotle's Poetics and then analyzing subsequest readings in epic poetry, tragedy, and philosophy in light of the Aristotle's ancient literary criticism students will be able to begin reading Greek and Roman texts (in translation) with a uniquely ancient perspective. They will be able to better understand all ancient literary works.

Title
Literary History of Classical Literature

Tags
190643, 3

Learning Outcome
Students will begin to understand the literary history of Classical literature in the larger context of political and cultural history.

CL CV 201 - The Classical Tradition 1: Antiquity to the Renaissance

Learning Outcomes

Title
Greek Literature Analysis

Tags
189875, 1

Learning Outcome
Successful students will be exposed to selections of Greek literature and be able to evaluate those texts as sources for Greek history; critical skills will be improved by the careful treatment of historiographical texts.

Title
Critical Theories

Tags
189876, 3

Learning Outcome
Successful students will discuss critical theories that are relevant to the texts treated in class and be able to evaluate and judge the rhetorical complexities facing the various authors discussed and how those authors resolved those complexities as they composed their historical narratives.

Title
Historical Texts and Ancient Historiography

Tags
189877, 4

Learning Outcome
Successful students will be able to locate the historical texts treated in class in the context of Classical literature generally and of ancient historiography specifically.

Title
Ancient Greek Historical Sources

Tags
190511, 1

Learning Outcome
Successful students will consider available primary sources of information for ancient Greek history and be able to evaluate the reliability of those sources.

Title
Knowledge of the History of Classical Archaeology

Tags
190637, 1

Learning Outcome
Through studying the history of Classical archaeology, from the 18th Century to the present, successful students will develop a greater understanding of how the study of Greek and Roman cultures have shaped modern European and American culture.

Title
Evaluating the Artifacts of Classical Culture

Tags
190638, 3

Learning Outcome
Through assigned readings, classroom discussion and written papers, successful students will demonstrate their ability to evaluate museum artifacts and archaeological data intelligently.

Title
Working with the Artifacts of Classical Culture

Tags
190639, 2

Learning Outcome
Where appropriate, students will have opportunities to participate in archaeological excavation, preservation, and restoration and to demonstrate the skills required to excavate, preserve, and restore Classical artifacts.

Title
Comprehension

Tags
190406, 0, 0, 2021-09-28 12:34:35

Learning Outcome
Successful students will demonstrate, through essays, written examination, and class discussion, a sound incipient understanding of the themes, situations, characters, formal structures, and contexts of representative classical and English texts.

Title
Criticism

Tags
190439, 0, 1, 2021-09-28 12:34:35

Learning Outcome
Successful students will demonstrate, through essays and written examination, the ability to practice literary criticism in the field of classical reception.

Title
Literary History

Tags
190400, 0, 2, 2021-09-28 12:34:35

Learning Outcome
Successful students will demonstrate, through exams and essays, an incipient understanding of some of the ways that classical literature and culture has shaped, and continues to shape, the development of English literature.

Title
Appreciation

Tags
190335, 0, 3, 2021-09-28 12:34:35

Learning Outcome
Successful students will have developed an informed sense of the quality of the texts, of their beauty (or not), of their relevance (or not) to life as a whole, and similar range of experiences which may or may not be demonstrable through academic evaluation.

Title
Critical Reading

Tags
191317, 0, 1, 2021-09-28 12:34:35

Learning Outcome
Read critically and analyze selected classical texts in translation in the context of English literature.

Title
Produce Polished and Competent Formal Writing

Tags
191318, 0, 2, 2021-09-28 12:34:35

Learning Outcome
Produce polished, competent, formal writing, free from distracting errors in mechanics, syntax, and formatting, and in accordance with MLA formatting and citation guidelines.

CL CV 363 - Judaism and Christianity in the Classical Near East

Title
Classical Influence on the History and Culture of the Ancient Near East

Tags
190669, 1

Learning Outcome
Know and be able to interpret the significant events and developments in the history and cultures of the ancient Near East, in particular of Second Temple Judaism and Early Christianity in their Hellenistic and Roman contexts.

Title
Ancient Text Interpretation

Tags
190670, 2

Learning Outcome
Be able to interpret major ancient Near East texts-including the Bible, Apocrypha, historiography, and early Christian literature-and analyze their significance for understanding the cultures in which they were produced.

Title
Critical Thinking

Tags
190671, 3

Learning Outcome
Develop the capacity for informed, independent, critical thinking and be able to perform appropriate library and online research utilized in the professional study of the ancient Near East.

Title
Analytical Writing

Tags
190672, 4

Learning Outcome
Be able to write sources analyses and exegetical papers that utilize approaches from the Social Sciences and Humanities and that integrate language and interpretive skills to analyze ancient Near Eastern topics

Title
Academics and Faith

Tags
190673, 5

Learning Outcome
Have considered and received affirmation concerning the relationship between academics and faith, and will have been encouraged to engage in a spiritually informed, lifelong pursuit of learning, scholarship, and service.

Recommended
Latin 302 or Greek 301

Learning Outcomes

Title
Interpretation of Classical Scholarship

Tags
190698, 2

Learning Outcome
Successful students learn how to evaluate specialized scholarship under the direction of departmental faculty and library research specialists, who introduce students to their own research agenda in the process.

Title
Developing and Expressing Original Interpretations of Classical Texts

Tags
190699, 3

Learning Outcome
Successful students will be able to write analytical papers or the equivalent that apply close readings to Classical literary texts to develop and clearly expression original interpretations of these texts.

Title
Strategies in Scholarship

Tags
190700, 4

Learning Outcome
Successful students acquire strategies in how to find, read, comprehend, and write about the most important scholarship in more and less particular sub-disciplines of classical scholarship.

Title
Preparing for the Capstone Essay

Tags
190701, 5

Learning Outcome
Students develop a learning environment with an individual faculty mentor to define and begin to answer a particular research question that will be interesting and answerable in a capstone essay to be written during the senior year (Clscs 497).

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- GREEK 302 - Classical Greek Prose

OR

Prerequisites

Complete ALL of the following Courses:

- LATIN 302 - Classical Latin Prose

Learning Outcomes

Title
Reading Greek and Latin

Tags
189880, 1

Learning Outcome
Successful students will demonstrate competence in reading both Greek and Latin.

Title
Understanding Ancient Speech and Writing

Tags
189881, 2

Learning Outcome
Successful students will demonstrate an understanding of the ancient disciplines of speech and writing: grammar, rhetoric, poetics, and logic.

Title
Evaluation of Texts

Tags
189882, 3

Learning Outcome
Successful students will be able to intelligently evaluate select texts-such as Aristotle's Poetics, Cicero's De Oratore, Horace's Ars Poetica, and Quintilian's Institutio Oratoria-through close reading.

Title
Cultural Context

Tags
189883, 4

Learning Outcome
Successful students will demonstrate an understanding of cultural, intellectual, and politicall history from the fifth century B.C. to the time of St. Augustine, thus creating a context for the study of ancient critical theory.

208270, 0, 4

Learning Outcome
Students will demonstrate a general, sound understanding of the intellectual and literary history of the Western and Asian cultures studied in class, and they will also be able to articulate the relationship between Western and Asian cultures and how each influences and conceives of the other.

Title
Historical and Literary Understanding

Tags
208271, 0, 5

Learning Outcome
Students will accurately and intelligently relate literary works to the main historical and philosophical trends of their times.

CMLIT 310 - Introduction to Literary Analysis and Comparative Literature

Course Information

Teaching Area (new)
CMLIT

Course Number
310

Teaching Area
CMLIT

Course Title
Introduction to Literary Analysis and Comparative Literature

Course Description
Methods of literary analysis, emphasizing basic issues of comparative literature and prosody and other problems related to foreign language texts.

Department
Comparative Arts and Letters

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Reading knowledge of at least one foreign language

Learning Outcomes

Title
Comparative Literature Theory

Tags
190014, 2

Learning Outcome
Articulate major theories of Comparative Literature as an academic discipline.

Title
Research Methodologies and Tools

Tags
190015, 3

Learning Outcome
Explain and use methodological tools, including library research.

Title
Multilingual Explication

Tags
190016, 5

Learning Outcome
Show an ability to closely explicate literary texts in at least two languages.

Title
Critical Thinking and Fallacies

Tags
190017, 7

Learning Outcome
Demonstrate knowledge of the canons of critical thinking, and a grasp of fundamental thinking fallacies.

Title
Comparative Literature History

Tags
190442, 1

Learning Outcome
Show an understanding of the history of the discipline.

CMLIT 320 - Junior Seminar in Comparative Literature

Course Information

Course Number
320

Teaching Area
CMLIT

Course Title
Junior Seminar in Comparative Literature

Course Description
Introduction to methods, theories, and scholarly writing within the discipline of Comparative Literature, including the effective use of foreign language texts, literary theory, and academic secondary sources. Resources and guidelines for research, writing, and public speaking.

Department
Comparative Arts and Letters

When Taught
Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Recommended
Mastery of at least one foreign language & CMLIT 310

Learning Outcomes

Title
Contemporary Critical Theory and Interpretation

Tags
213454, 0, 1, 2023-08-29 08:06:13

Learning Outcome
Develop a deeper understanding of various contemporary theories about comparative literary analysis.

Title
Analytical Skills

Tags
213455, 0, 2, 2023-08-29 08:06:14

Learning Outcome
Improve the ability to discern meaning and importance in literary texts from a variety of language and national literary traditions through close reading analysis

Title
Research and Argumentation

Tags
213456, 0, 3, 2023-08-29 08:06:15

Learning Outcome
Improve library research and persuasive argumentation skills through a major literary analysis research paper

CMLIT 342 - Asian Literary Traditions

Course Information

Teaching Area (new)
CMLIT

Course Number
342

Teaching Area
CMLIT

Course Title
Asian Literary Traditions

Course Description
Comparative analysis of Asian literary works spanning several traditions.

Department
Comparative Arts and Letters

When Taught

191173, 2

Learning Outcome
Conduct thorough research into a problem of literary theory and write in a professional, scholarly manner about it.

Title
Multilingual Study, Research, and Writing

Tags
191174, 3

Learning Outcome
Show an ability to read, study, research, and write about literary texts and theory in at least two languages.

CMLIT 495R - Directed Readings

Course Information

Teaching Area (new)
CMLIT

Course Number
495R

Teaching Area
CMLIT

Course Title
Directed Readings

Course Description
Course set up only in special circumstances and by permission for focused study of a topic in comparative literature.

Department
Comparative Arts and Letters

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
3

Learning Outcomes

Title
Literary Organization and Analysis

Tags
190503, 1

Learning Outcome
Show an ability to organize literary texts from at least three language traditions into a cogent unit for study and analysis.

Title
Research

Tags
190648, 1

Learning Outcome
Conduct a thorough investigation into a problem or set of related problems presented by the study unit.

CMLIT 497 - Reading List Examination

Course Information

Teaching Area (new)

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CMLIT 310 - Introduction to Literary Analysis and Comparative Literature
  AND CMLIT 342 - Asian Literary Traditions

Other Prerequisites
Three 400-level seminars

Learning Outcomes

Title
Comparative Literature Reading List

Tags
190027, 3

Learning Outcome
Demonstrate thorough knowledge of the Comparative Literature B.A. reading list.

Title
Scholarly Research and Writing

Tags
190028, 2

Learning Outcome
Prepare a detailed piece of scholarly research and writing based upon four to six texts chosen by faculty supervisors.

CMLIT 590R - Directed Readings

COMD 133 - Introduction to Speech-Language Pathology and Audiology

Course Information

Teaching Area (new)
COMD

Course Number
133

Teaching Area
COMD

Course Title
Introduction to Speech-Language Pathology and Audiology

Course Description
Overview of communication disorders, assessment strategies, and treatments.

Department
Communication Disorders

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Identification

Tags
177250, 2

Learning Outcome
Identify common communication disorders based on their associated behavioral symptoms.

Title
Basic Concepts and Terms

Tags
177251, 3

Learning Outcome
Converse with people with communication disorders, their families, and health care providers in a way that demonstrates understanding of key concepts and terminology associated with the practice of speech-language pathology and audiology.

Title
Advocacy

Tags
177252, 4

Learning Outcome
Advocate for people with communication disorders and their families.

Title
Christlike Service

Tags
177324, 1

Learning Outcome
Minister to others with Christlike love and compassion.

COMD 211 - Language Science

Course Information

Teaching Area (new)
COMD

Course Number
211

Teaching Area
COMD

Course Title
Language Science

Course Description
Morphology, syntax, and semantic roles in language of children and adults; uses both manual and computer-assisted methods.

Department
Communication Disorders

When Taught
Fall; Winter.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
1

Learning Outcomes

Learning Outcome
Discuss English sentence structure and its development in children using common descriptive terms.

Learning Outcome
Examine a transcript of a client's language sample and evaluate evidence that the client can use various syntactic constructions.

COMD 213 - Hearing Science and Acoustics

Course Information

Teaching Area (new)
COMD

Course Number
213

Teaching Area
COMD

Course Title
Hearing Science and Acoustics

Course Description
Hearing anatomy, physiology, and science.

Department
Communication Disorders

When Taught
Fall; Winter.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- PHSCS 167 - Descriptive Acoustics of Music and Speech

Learning Outcomes

Learning Outcome
Acoustics, Sound, and Psychoacoustics: Students will demonstrate an understanding of basic acoustic concepts including the fundamental physics of sound waves and their reception.

Learning Outcome
Decibels and Conversions: Students will demonstrate an understanding of the decibel and demonstrate the ability to convert among various reference systems.

Learning Outcome
Anatomy and Physiology of the Auditory Mechanism:Students will demonstrate an understanding of the collection, transmission, conversion, and processing of sound from the outer-ear to the cerebral cortex.

COMD 215 - Speech Anatomy & Physiology

Course Information

Teaching Area (new)
COMD

Course Number
215

Teaching Area
COMD

Course Title
Speech Anatomy & Physiology

Course Description
Basic anatomy and physiology of speech mechanisms.

Department
Communication Disorders

When Taught
Fall; Winter.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Learning Outcome
Students will demonstrate competent knowledge of the basic elements of anatomy.

Learning Outcome
Students will demonstrate competent knowledge of the anatomy and physiology of respiration.

Learning Outcome
Students will demonstrate competent knowledge of the anatomy and physiology of phonation.

Learning Outcome
Students will demonstrate competent knowledge of the anatomy of articulation and resonation.

Learning Outcome
Students will demonstrate competent knowledge of the neuroanatomical and neurophysiological correlates of speech.

COMD 318 - Graduate School Preparation

Course Information

Course Number
318

Teaching Area
COMD

Course Title
Graduate School Preparation

Course Description
This course equips students to strategically prepare for graduate school applications in Communication Disorders and related fields, exploring personal strengths, effective strategies, future planning, and career options for a successful transition.

Department
Communication Disorders

When Taught
Fall

Credit Hours

Fixed/Max:
2

Lecture Hours

Fixed:
2

Simple Requisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- COMD 211 - Language Science
  AND COMD 213 - Hearing Science and Acoustics
  AND COMD 215 - Speech Anatomy & Physiology

Fee
Gallup Strengths Assessment. Instructions will be provided to complete this online assessment. The cost is $13. The fee for this assessments is used instead of requiring students to purchase a textbook. o a number of assignments and discussions throughout the course. It was considered a minimal amount and much less than most textbooks

Learning Outcomes

Title
Grad School Portfolio

Learning Outcome
1. Students will create a comprehensive graduate school readiness portfolio comprised of a refined personal statement, a polished resume, and a well-organized collection of other relevant materials, demonstrating their readiness and suitability for admission to graduate programs.

Title
Professional Profile

Learning Outcome
2. Students will proficiently employ technology and online platforms, including LinkedIn and other social media platforms and Microsoft Excel to systematically research graduate programs, collate relevant information, and establish professional connections within their field of interest.

Title
Valuing Diverse Perspecctives

Learning Outcome
3. Students will articulate the importance of diverse perspectives and demonstrate consideration for individual, community, and organizational viewpoints. They will express personal biases and apply strategies to address them, as evidenced through class discussions, written reflections, and peer feedback.

COMD 321 - Language Development

Course Information

Teaching Area (new)
COMD

Course Number
321

Teaching Area
COMD

Course Title
Language Development

Course Description
Overview of how children acquire language, including its relationship to cognitive, neural, and social development; child language development from infancy through adolescence; bilingual language development.

Department
Communication Disorders

When Taught
Fall; Winter.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisite

Type
Prerequisite

Complete ALL of the following Courses:
- COMD 211 - Language Science

Learning Outcomes

Learning Outcome
Demonstrate knowledge of the major theories of language development (social interactionist, linguistic, emergentism).

Learning Outcome
Define the major components of language (syntax, semantic, phonology, morphology, & pragmatics).

Learning Outcome
Demonstrate knowledge of how cultural factors influence first and second language development.

Learning Outcome
Demonstrate knowledge of the developmental sequence of pragmatic, semantic, syntactic, and morphologic language behaviors in production and comprehension modalities.

Learning Outcome
Demonstrate knowledge of the development of literacy.

COMD 323 - Hearing Tests and Measures

Course Information

Teaching Area (new)
COMD

Course Number
323

Teaching Area
COMD

Course Title
Hearing Tests and Measures

Course Description
Theory and practice of auditory assessment.

Department
Communication Disorders

When Taught
Fall, Winter, and Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
1

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- COMD 213 - Hearing Science and Acoustics

Learning Outcomes

Title
Conduct Comprehensive Audiological Assessments:

Learning Outcome
Administer both basic and advanced audiological tests to accurately assess the extent and etiology of hearing loss.

Title
Identify and Classify Auditory Disorders:

Learning Outcome
Describe major auditory system disorders, classify them by the type of hearing loss they cause, and recognize corresponding audiological patterns to aid in diagnosis and treatment planning.

Title
Conduct Comprehensive Audiological Assessments:

Learning Outcome
Articulate the core biological, physical, acoustic, and psychological principles that underpin audiological assessments and testing procedures.

Title
Increase Clinical Compassion and Confidence:

Learning Outcome
By the end of this course, students will become more compassionate and confident clinicians. This will be measured through self-assessment exercises where students reflect on their ability to administer basic hearing tests, interpret audiological findings, and provide empathetic patient care.

Title
Interpret Audiological Data

Learning Outcome
Analyze audiograms to determine the degree, configuration, and type of hearing loss, and assess word recognition abilities to provide a comprehensive understanding of a patient's auditory health.

COMD 325 - Clinical Phonetics

Course Information

Teaching Area (new)
COMD

Course Number
325

Teaching Area
COMD

Course Title
Clinical Phonetics

Course Description
Transcription and analysis of normal and disordered sound production.

Department
Communication Disorders

When Taught
Fall; Winter.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisite

Type
Prerequisite

Prerequisite

Complete ALL of the following Courses:

- COMD 215 - Speech Anatomy & Physiology

Learning Outcomes

Title
Spiritual Perspective on Dialectal and Disordered Speech

Learning Outcome
Students will reflect on the words of the scriptures and the words of the living Prophet and Apostles to better understand how a Christlike person perceives and approaches people with dialectal differences and/or speech disorders.

Title
Basic Phonetics Principles and Terminology

Learning Outcome
Students will enhance their awareness of speech production through gaining a command of basic phonetics principles and terminology.

Title
Basic Phonetic Transcription Skill

Learning Outcome
Students will accurately transcribe both typical and mildly disordered English speech samples using the International Phonetic Alphabet and its extensions.

Title
Distinguishing Between Differences and Disorders

Learning Outcome
Student will demonstrate a beginning ability to appreciate and distinguish speech disorders from the speech differences that result from between-speaker variability (e.g., linguistic and cultural diversity) and within-speaker variability (e.g., register and context differences).

COMD 335 - Introduction to Speech Sound Disorders

Course Information

Teaching Area (new)
COMD

Course Number
335

Teaching Area
COMD

Course Title
Introduction to Speech Sound Disorders

Course Description
Causes and characteristics of speech sound disorders; techniques for diagnosis, assessment, and treatment.

Department
Communication Disorders

When Taught
Fall; Winter.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- COMD 325 - Clinical Phonetics

Learning Outcomes

Learning Outcome
Demonstrate knowledge regarding the nature of speech sound disorders, including their etiologies, characteristics, anatomical/physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.

Learning Outcome
Demonstrate knowledge regarding the principles and methods of the assessment of speech sound disorders, using both formalized and non-formalized methods.

Learning Outcome
Demonstrate knowledge regarding the principles and methods of speech sound disorders intervention.

COMD 370 - Medical Speech Pathology

Course Information

Teaching Area (new)
COMD

Course Number
370

Teaching Area
COMD

Course Title
Medical Speech Pathology

Course Description
Genetic, gestational, and neurogenic factors related to communication disorders in children and adults; role of the speech-language pathologist in medical teams.

Department
Communication Disorders

When Taught
Fall, Winter, and Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Learning Outcome
Demonstrate preparation for graduate coursework in organic and neurologic communication and swallowing disorders.

Learning Outcome
Describe the collaborative role of the SLP on professional teams in medical settings.

Learning Outcome
Describe the causes and characteristics of TBI, aphasia, voice disorders, motor speech disorders and swallowing disorders, and describe several treatment approaches used for those disorder areas by speech-language pathologists.

COMD 420 - Neurofoundations of Language, Speech, and Hearing

Course Information

Teaching Area (new)
COMD

Course Number
420

Teaching Area
COMD

Course Title
Neurofoundations of Language, Speech, and Hearing

Course Description
Neuroanatomy and neurophysiology underlying normal and impaired language, speech, and hearing processes.

Department
Communication Disorders

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- COMD 215 - Speech Anatomy & Physiology
  AND COMD 213 - Hearing Science and Acoustics

Learning Outcomes

Title
Building Blocks

Tags
177277, 1

Learning Outcome
Demonstrate knowledge of the basic building blocks from cell to brain as those building blocks contribute to the areas of speech, language, and hearing.

Title
Neural System Integration

Tags
177278, 0, 2

Learning Outcome
Demonstrate the ability to integrate various neural systems and their interaction as the central nervous system formulates and modifies neural information in the processing of speech, language, and hearing as part of their clinical foundation.

Title
Theoretical Model

Tags
177279, 0, 3

Learning Outcome
Be able to construct a theoretical model of neurological involvement in peripheral and central disorders involving speech, language, and hearing function as part of their clinical foundation.

COMD 431 - Developmental Language Disorders

Course Information

Teaching Area (new)
COMD

Course Number
431

Teaching Area
COMD

Course Title
Developmental Language Disorders

Course Description
Causes and characteristics of language impairment; techniques for diagnosis, assessment, and treatment of language disorders.

Department
Communication Disorders

When Taught
Fall; Winter.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
1

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- COMD 321 - Language Development

Learning Outcomes

Title
Problems with Developmental Language Disorder

Learning Outcome
Demonstrate knowledge of the linguistic, academic, and social problems associated with developmental language disorder.

Title
Models of Developmental Language Disorder.

Learning Outcome
Describe general models of developmental language disorder.

Title
Service Issues with Developmental Language Disorder.

Learning Outcome
Describe service delivery issues in the assessment of developmental language disorder.

Title
Assessment Procedures

Learning Outcome
Demonstrate knowledge of assessment procedures to perform the following tasks: screening, qualifying a child for intervention services, determining goals in intervention, predicting the need for future intervention, and measuring progress in intervention.

Title
Treatment of Developmental Language Disorder

Learning Outcome
Describe several approaches to the treatment of developmental language disorder (e.g., focused stimulation).

COMD 433 - Aural Rehabilitation

Course Information

Teaching Area (new)
COMD

Course Number
433

Teaching Area
COMD

Course Title
Aural Rehabilitation

Course Description
Basic principles of hearing assessment and aural rehabilitation in children from birth to eight years.

Department
Communication Disorders

When Taught
Fall, Winter, and Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- COMD 323 - Hearing Tests and Measures

Learning Outcomes

Title
Aural Rehabilitation

Learning Outcome
Define aural rehabilitation and explain why the service is critical for those who have a hearing impairment.

Title
Construct Individualized Plan

Learning Outcome
Construct a comprehensive, individualized aural rehabilitation plan that integrates diagnostic procedures, communication strategies, auditory training, counseling, and other appropriate services.

Title
Impact of Hearing Loss

Learning Outcome
Describe the effect of hearing loss on an individual's educational, vocational, social, physical, and emotional well-being.

Title
Diagnostic Procedures in AR Program

Learning Outcome
Differentiate between the diagnostic procedures needed as part of a comprehensive AR program including the diagnosis of hearing loss and rehabilitation by means of amplification, cochlear implants and other assistive listening devices.

COMD 445 - Speech Science

Course Information

Teaching Area (new)
COMD

Course Number
445

Teaching Area
COMD

Course Title
Speech Science

Course Description
Laboratory investigation of scientific bases of normal and disordered speech perception and production; for audiologists and speech language pathologists.

Department
Communication Disorders

When Taught
Fall; Winter.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- COMD 335 - Introduction to Speech Sound Disorders

Learning Outcomes

Learning Outcome
Demonstrate knowledge and competence in basic principles of speech production, including acoustic and physiological aspects and their measurement.

Learning Outcome
Explain principles and methods of quantifying a variety of speech disorders, based on a sound grasp of the physiologic basis of normal function, with a goal of documenting treatment outcomes.

Learning Outcome
Show understanding of the application of principles from the current research literature in measuring speech performance in preparation for participating in evidence-based practice.

COMD 450 - Professional Practices

Course Information

Teaching Area (new)
COMD

Course Number
450

Teaching Area
COMD

Course Title
Professional Practices

Course Description
Overview of issues related to clinical practice in public schools and other settings.

Department
Communication Disorders

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- COMD 431 - Developmental Language Disorders
  AND COMD 433 - Aural Rehabilitation
  AND COMD 335 - Introduction to Speech Sound Disorders

Learning Outcomes

Title
Demonstrating Knowledge of Contemporary Professional Issues with respect and civility

Tags
177370, 0, 1

Learning Outcome
Students will demonstrate knowledge of current professional issues: including critical thinking, professional communication, ethics, multiculturalism, diversity, service delivery areas, scope of practice, advocacy, legal rights, and current certification standards through class discussion, presentations, class writings, other application activities, while engaging in respectful and civil dialogue and professional behavior in the course learning community.

Title
Applying the BYU aims to professional practices

Tags
177367, 0, 2

Learning Outcome
Students will understand, apply and interleave the BYU aims to contemporary professional practice issues and recognize the synergy of individual behaviors that are spiritually strengthening, intellectually enlarging, character building leading to lifelong learning and service in their personal and professional lives.

Title
Integrating Personal Leadership skills and decision making for future career

Tags
177368, 0, 3

Learning Outcome
Students will demonstrate personal leadership skills for career decision making and understand professional resources available to them including required certification standards and processes for a career in Speech Language Pathology and or Audiology. Students will also demonstrate understanding of the benefits of their undergraduate education that extend beyond the fields of Speech-Language Pathology and Audiology.

COMD 460 - Capstone Clinical Methods and Observation

Course Information

Course Number
460

Teaching Area
COMD

Course Title
Capstone Clinical Methods and Observation

Course Description
Students will engage in guided clinical observations to learn practical clinical methods in the field of audiology and speech language pathology. Students will also become proficient in understanding and applying the ASHA Code of Ethics, and will learn basic professional writing skills.

Department
Communication Disorders

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Completion Requirement

Complete ALL of the following Courses:

- COMD 431 - Developmental Language Disorders
  AND COMD 433 - Aural Rehabilitation
  AND COMD 335 - Introduction to Speech Sound Disorders

Recommended
This is intended as a final semester course. We anticipate that students will have already mastered the fundamentals of human communication in the areas of hearing, language, and speech.

Learning Outcomes

Title
Ethical Issues

Tags
213464, 0, 1, 2023-08-29 08:09:25

Learning Outcome
Discuss potential ethical issues in communication and swallowing disorders

Title
Intervention

Tags
213465, 0, 2, 2023-08-29 08:09:26

Learning Outcome
Describe differences between intervention procedures and intervention activities

Title
Observation

Tags
213466, 0, 3, 2023-08-29 08:09:27

Learning Outcome
Develop skill in creating observation plans with identified goals and methods for collecting data

COMD 493R - Readings

Course Information

Teaching Area (new)
COMD

Course Number
493R

Teaching Area
COMD

Course Title
Readings

Course Description
Directed reading in the field of Communication Disorders. Students meet with the instructor to assemble an individualized reading program in the field and agree upon the topic and organization of the course.

Department
Communication Disorders

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
2

Learning Outcomes

Title
Topic Mastery

Tags
177333, 0

Learning Outcome
Students will demonstrate an advanced level of knowledge in a chosen specialty area.

Title
Breadth of Knowledge

Tags
177334, 1

Learning Outcome
Students will explain relationships between key concepts in a specialty area.

COMD 494R - Undergraduate Research Experience

Course Information

Teaching Area (new)
COMD

Course Number
494R

Teaching Area
COMD

Course Title
Undergraduate Research Experience

Course Description
Gain laboratory research skills under the supervision of a faculty mentor. Experiences may include, but are not limited to, review of literature, experimental design, data gathering and analysis, interpretation, writing, presenting, and publishing of the research, as determined by the faculty mentor. Experiences will enhance student learning through hands-on activities and close collaboration with faculty or a qualified on-campus mentor.

Department
Communication Disorders

When Taught
Contact Department

Credit Hours

Min:
1

Fixed/Max:
6

Other Prerequisites
Permission of faculty mentor.

Note
Each faculty mentor will set the criteria for the letter grades.

COMD 495R - Field Experience in Communication Disorders

Course Information

Teaching Area (new)
COMD

Course Number
495R

Teaching Area
COMD

Course Title
Field Experience in Communication Disorders

Course Description
Supervised experience in a clinical or educational service-delivery setting under the direction of a faculty member.

Department
Communication Disorders

When Taught
All Semesters/Terms

Credit Hours

Min:
1

Fixed/Max:
2

Other Prerequisites
ComD faculty sponsorship

Learning Outcomes

Title
Reflect on experiences

Tags
177346, 1

Learning Outcome
The students will reflect on and interpret internship experiences.

Title
Range of skills

Tags
177347, 2

Learning Outcome
The students will apply a significant range of skills and abilities in a professional setting

Title
Knowledge to practice

Tags
177348, 3

Learning Outcome
The students will put into practice the knowledge and theories they have learned in university courses in a professional setting.

COMMS 101 - Mass Communication and Society

Course Information

Teaching Area (new)
COMMS

Course Number
101

Teaching Area
COMMS

Course Title
Mass Communication and Society

Course Description
Historical and modern roles of mass media in society, emphasizing media effects on individuals and institutions.

Department
Communications

When Taught
Fall; Winter; Spring; Summer.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
Additional seats for specific sections may be available to Freshman Mentoring participants through envelopes. Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Professional Expectations

Tags
186079, 2

Learning Outcome
Students should be acquainted with professional expectations such as meeting expectations.

Title
Critical Thinking

Tags
186080, 4

Learning Outcome
Students should be able to think critically about complex issues related to media and society.

Title
Communication Skills

Tags
186081, 6

Learning Outcome
Students should become proficient communicators by writing in clear, accurate, fair, compelling and--where appropriate--persuasvie ways and by making smooth and compelling verbal presentaitons.

Title
Cultural Dimensions

Tags
186082, 7

Learning Outcome
Students should be able to critique the organizational, economic and social constraints on media.

Title
Media in Society

Tags
186083, 3

Learning Outcome
Students should understand the history and role of professionals and institutions, whose media messages impact society.

Title
Become Professional Media Thinkers

Tags
186084, 1

Learning Outcome
Students should be able to articulate the roles of communicators in their various professions.

Title
Diversity

Tags
186425, 5

Learning Outcome
Students should understand media coverage of multicultural and international peoples. Issues include fairness, accuracy and sensitivity to groups, as well as how media coverage promotes or distorts understanding between different groups and cultures.

COMMS 230 - Introduction to Creative Advertising

Course Information

Teaching Area (new)
COMMS

Course Number
230

Teaching Area
COMMS

Course Title
Introduction to Creative Advertising

Course Description
Principles of creative advertising; critical evaluation of how creativity works with in the context of advertising. Principles of research, ideation, and execution of creative concepts.

Department
Communications

When Taught
Fall, Winter, and Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
For Comms pre-majors. Students are expected to attend the first day of class. Failure to do so may adversely affect grades.

Learning Outcomes

Title
Creativity

Tags
186085, 1

Learning Outcome
Students will be able to apply the principles of creativity in the context of advertising and how research and insights lead to effective creative executions .

Title
Developing Concepts

Tags
186086, 2

Learning Outcome
Students will be able to develop ideas and execute them in various advertising mediums.

Title
Roles of Copywriter, Art Director, and Content Creator

Tags
186087, 3

Learning Outcome
Students will be able to perform the roles of copywriters, art directors, and content creators within an creative advertising team.

Title
Ethics

Tags
186088, 4

Learning Outcome
Students will apply Gospel-centered values as they learn to create and develop advertising concepts that are ethical and reflects a sensitivity to a diverse audience..

COMMS 235 - Introduction to Public Relations and Advertising

Course Information

Teaching Area (new)
COMMS

Course Number
235

Teaching Area
COMMS

Course Title
Introduction to Public Relations and Advertising

Course Description
An introduction to the principles and practices of public relations and advertising. Students are introduced to the foundational theories and principles of public relations and advertising along with the roles and responsibilities of professionals working in these professions.

Department
Communications

When Taught
Fall and Winter

Note
NOTE: For Comms pre-majors and minors. If you are neither and would like to take the course, please contact CFAC advisement:https://advisement.cfac.byu.edu/

Learning Outcomes

Title
Roles of Public Relations and Advertising in Society

Tags
186272, 1

Learning Outcome
Students will be able to critically examine the role of public relations and advertising in society, including how these professions shape and are shaped by culture, economics, and politics.

Title
The Science of Public Relations and Advertising

Tags
186273, 2

Learning Outcome
Students will be able to evaluate public relations and advertising scenarios using social science theories that explain social systems, relationship building, public opinion, persuasion, and behavior change.

Title
Public Relations and Advertising Integration

Tags
186274, 3

Learning Outcome
Students will be able to explain the unique contributions of the public relations and advertising professions as well as how both work together in agency and organizational contexts.

Title
PR, Advertising and the Gospel

Tags
186275, 4

Learning Outcome
Students will be able to identify ethical dilemmas in public relations and advertising practices and evaluate them using ethical frameworks from the profession and the Gospel of Jesus Christ.

COMMS 238 - Introduction to Communications Studies

Course Information

Teaching Area (new)
COMMS

Course Number
238

Teaching Area
COMMS

Course Title
Introduction to Communications Studies

Course Description
Survey of mass communication theory and research; historical and philosophical development of communication theory.

Department
Communications

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Pre-communications status

Note
Students are expected to attend the first day of class. Failure to do so will adversely affect your grade. Note: COMMS 238 is for Comms Pre-Majors and Minors. If you are not either of these and would like to add this course, please contact our advisement center at (801) 422-3777 and have Pre-Comms or the Comms minor added to your major. You will then be able to add the class. Note: You must be a Pre-Comms major and complete Comms 238 with a "B" grade or better if you wish to apply to the Communications Studies sequence in the School of Communications.

Learning Outcomes

Title
Critical Thinking

Tags
186416, 1

Learning Outcome
Students will demonstrate critical and independent thinking related to the role of communication and society.

Title
Communications Theory and Application

Tags
186428, 1

Learning Outcome
Students will have a deeper understanding of theories and know how to apply them in practical situations.

Title
Inquiry Methods

Tags
186455, 2

Learning Outcome
Students will be able to discuss methods for communications inquiry.

Title
Niche Building

Tags
186461, 3

Learning Outcome
Students will continue to build their own niche within the field and recognize the value of other approaches.

COMMS 239 - Introduction to Multimedia Storytelling

Course Information

Teaching Area (new)
COMMS

Course Number
239

Teaching Area
COMMS

Course Title
Introduction to Multimedia Storytelling

Course Description
An introduction to non-fiction storytelling skills used in content creation, covering a variety of video, visual and written styles.

Department
Communications

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:

Other Prerequisites
Premajor status.
Journalism Minor status

Learning Outcomes

Title
Journalism Fundamentals

Tags
186209, 1

Learning Outcome
Students will be able to define the characteristics, purposes, problems, and potential of journalism.

Title
Social media

Tags
186532, 2

Learning Outcome
Students will demonstrate an ability to deploy social media technologies for the purposes of newsgathering, distribution and discourse.

Title
Professional conduct

Tags
186533, 3

Learning Outcome
Students will articulate their own personal code of conduct for best practices of journalism.

Title
Historical context and role

Tags
186534, 4

Learning Outcome
Students will understand the historical context of journalism's evolution and how that history has shaped contemporary practice and the role it plays in a democracy.

Title
Diversity

Tags
186535, 5

Learning Outcome
Students will understand how drawing from a diversity views-whether based on race, gender, or culture-contributes to more complete and accurate reportage.

COMMS 300 - Media Law and Responsibility

Course Information

Teaching Area (new)
COMMS

Course Number
300

This class is for Comms majors, minors and for Pre-Comms students who wish to take it during the semester in which they apply to the program. If you are a Pre-Comms student, please see https://comms.byu.edu/after-application/ for information on how to add the class.

Learning Outcomes

Title
Legal Boundaries of Appropriate Use

Tags
186098, 1

Learning Outcome
Students will be able to practice communication within legal boundaries by employing appropriate use of others' work (in attribution, copyright, trademarks, etc.).

Title
Legal Constraints and Defenses

Tags
186099, 2

Learning Outcome
Students will be able to practice communication within legal boundaries by demonstrating an ability to identify legal constraints and defenses that shape mass media messages.

Title
Free Speech Laws and Statutes

Tags
186100, 3

Learning Outcome
Students will be able to practice communication within legal boundaries by writing and constructing messages that meet the laws and statutes applied to free speech.

Title
First Amendment: Press and Speech

Tags
186101, 4

Learning Outcome
Students will demonstrate they value freedom of speech in the marketplace of ideas by knowing how First Amendment rights extend to press and speech.

Title
Historical Development of Free Speech

Tags
186102, 5

Learning Outcome
Students will demonstrate they value freedom of speech in the marketplace of ideas by understanding the historical development of free speech.

Title
Legal and Moral Limits of Free Speech

Tags
186103, 6

Learning Outcome
Students will demonstrate they value freedom of speech in the marketplace of ideas by recognizing the legal and moral limits of free speech.

Title
Current Issues in Free Speech

Tags
186104, 7

Learning Outcome
Students will demonstrate they value freedom of speech in the marketplace of ideas by applying the concepts underlying this principle to current issues.

Title
Preserving Freedom of Speech

Tags
186105, 8

Learning Outcome
Students will demonstrate they value freedom of speech in the marketplace of ideas by by showing a commitment to preserving freedom of speech, even when it may be contrary to majority views, opinions, or values.

Title
Ethical Issues

Tags
186106, 9

Learning Outcome
Students will be able to demonstrate sensitivity to the ethical issues of their practice by becoming familiar with prominent cases that demonstrate ethical issues in the communication industries.

Title
Professional Values and Ethical Behavior

Tags
186107, 10

Learning Outcome
Students will be able to demonstrate sensitivity to the ethical issues of their practice by identifying professional values that contribute to ethical behavior.

Title
Ethical Complications in Professional Practice

Tags
186108, 11

Learning Outcome
Students will be able to demonstrate sensitivity to the ethical issues of their practice by discerning possible ethical complications in professional practice.

Title
Addressing Ethical Concerns in Practice

Tags
186109, 12

Learning Outcome
Students will be able to demonstrate sensitivity to the ethical issues of their practice by defining a communications situation that addresses the ethical concerns of alternative actions or decisions.

Title
Moral Reasoning and Ethics

Tags
186110, 14

Learning Outcome
Students will be able to exercise moral reasoning when faced with ethical dilemmas by articulating the values that underline their ethical framework.

Title
Ethics Theory and Application

Tags
186111, 13

Learning Outcome
Students will be able to exercise moral reasoning when faced with ethical dilemmas by applying principles and theories of ethics to current issues.

Title
Ethics and Gospel-Centered Values

Tags
186112, 15

Learning Outcome
Students will be able to exercise moral reasoning when faced with ethical dilemmas by resolving ethical dilemmas using moral reasoning based on Gospel-centered values.

Learning Outcomes

Title
Professional Ethics and Conduct

Tags
208329, 0, 1, 2019-04-22 10:03:38

Learning Outcome
Understand the moral foundations, philosophical theories and values underlying the ethics of professional communications, as well as become knowledgeable about basic concepts in applied ethics, such as deception, secrecy, and loyalty.

Title
Effective Communication

Tags
208331, 0, 3, 2019-04-22 10:03:38

Learning Outcome
Demonstrate an ability to produce media that serve the needs and interests of diverse communities, that reflects diverse voices and experiences, and shows sensitivity to the histories, perspectives, political situations, and social narratives of different groups.

Title
Professional Ethics and Conduct

Tags
208332, 0, 4, 2019-04-22 10:03:38

Learning Outcome
Value freedom of speech in the marketplace of ideas and the role of media in a democratic, diverse society, as well as demonstrating an understanding that diversity, civility, and civic engagement are vital issues today.

Title
Gospel-centered Values

Tags
208333, 0, 5, 2019-04-22 10:03:38

Learning Outcome
Critically evaluate media-related ethical issues in light of the gospel of Jesus Christ, and understand the relationships among law, ethics, and religion.

Title
Gospel-centered Values

Tags
208334, 0, 6, 2019-04-22 10:03:38

Learning Outcome
Demonstrate an understanding of the Church of Jesus Christ of Latter-day Saints' position on diversity and how they can contribute to that position.

Title
Diversity

Tags
208330, 0, 2, 2019-04-22 10:03:38

Learning Outcome
Develop moral reasoning skills and judgment mechanisms for informed ethical decision-making, including when faced with issues of difference. Construct a personal ethical framework and demonstrate a commitment to ethical conduct (including respect for diversity and agency) as a professional communicator and as a member of a global, diverse society.

Learning Outcomes

Title
Research

Tags
213476, 0, 1, 2023-08-29 08:10:21

Learning Outcome
Students will demonstrate ability to employ various research methods to collect and analyze quantitative, digital, and social information for sports organizations.

Title
Ethical Research

Tags
213477, 0, 2, 2023-08-29 08:10:24

Learning Outcome
Students will apply ethical standards to assess data and information for accuracy, effectiveness, reliability, and relevance.

Title
Diversity

Tags
213478, 0, 3, 2023-08-29 08:10:25

Learning Outcome
Students will analyze sport in its diverse mediated forms, including how that information influences gender and minority communities in sports.

Title
Freedom of Information

Tags
213479, 0, 4, 2023-08-29 08:10:27

Learning Outcome
Students will understand the importance of a free, open marketplace of ideas and how those freedoms shape sports mediated content.

Title
Quantitative Evaluation

Tags
213480, 0, 5, 2023-08-29 08:10:28

Learning Outcome
Students will employ research techniques and to contextualize, evaluate, and organize sports data and information. Such methods include, but are not limited to, the use of digital data, social analytics, surveys, and audience participation methodologies.

Learning Outcomes

Title
Data Gathering

Learning Outcome
Conduct secondary research using databases, media monitoring tools, and open-source information to address client needs.

Title
Insight Generation

Learning Outcome
Synthesize findings quickly into clear, actionable insights for advertising and public relations contexts.

Title
Social Listening

Learning Outcome
Apply social listening methods to analyze conversations, sentiment, and trends relevant to strategic communication.

Title
Communicate Results

Learning Outcome
Communicate results effectively through professional deliverables including research decks and client presentations.

Title
Speed and Accuracy

Learning Outcome
Learn to support decisions and recommendations with sound data while balancing speed with accuracy and quality.

COMMS 318 - Public Relations and Advertising Human Intelligence

Learning Outcomes

Title
Problem Solving

Tags
186283, 2

Learning Outcome
Become curious problem solvers who know how to ask good questions that cut to the core of public relations problems and focus on public relations outcomes.

Title
Data Collection

Tags
186284, 1

Learning Outcome
Collect data using the qualitative and quantitative research method(s) that will most appropriately and ethically answer public relations research questions.

Title
Data Analysis

Tags
186285, 3

Learning Outcome
Analyze data and generate meaningful, actionable insights grounded in the public relations paradigm that go beyond reporting surface-level findings.

Title
Data Visualization

Tags
186286, 4

Learning Outcome
Present research findings and insights in a way that visually and persuasively tells the data's story to a client audience.

Title
Collaboration

Tags
186287, 5

Learning Outcome
Become better disciples of Jesus Christ who can empathize with others, who see things differently, and who work collaboratively with others to develop recommendations.

COMMS 333 - Public Relations and Advertising Digital Intelligence

Course Information

Teaching Area (new)
COMMS

Course Number
333

Teaching Area
COMMS

Course Title
Public Relations and Advertising Digital Intelligence

Course Description
This course introduces students to digital intelligence research and the practice of issues management. You will learn how to gather and analyze internet and social media data to understand culture, audiences, and messages, then apply those insights to shape organizational reputation and trust. Students will earn professional certifications, sharpen their portfolio, and work on projects that mirror industry challenges. More than technical skills, students will develop the strategic judgment and integrity needed to lead organizations through today's fast-changing world.

Learning Outcomes

Title
Issues Management

Learning Outcome
Explain issues management as a communication framework for understanding how organizations identify, monitor, and respond to issues that affect reputation and trust.

Title
Environmental Scanning

Learning Outcome
Conduct digital environmental scanning by collecting and interpreting data from internet and social media sources to identify emerging issues and cultural trends.

Title
Key Performance Indicators

Learning Outcome
Analyze the performance of messages and conversations across digital channels using common communication metrics.

Title
Insight Generation

Learning Outcome
Generate insights from digital intelligence research that can inform organizational awareness and guide high-level decision-making about issues.

Title
Collaboration

Learning Outcome
Develop as a disciple of Jesus Christ by practicing empathy, integrity, and teamwork, seeing issues from multiple perspectives, and approaching communication challenges with a spirit of service.

COMMS 335 - TV Commercial Production

Major status.

Learning Outcomes

Title
Management

Tags
186149, 1

Learning Outcome
Students will be able to manage communication projects by creating timelines, budgets, and deliverable schedules for PR and Advertising campaigns.

Title
Communication

Tags
186150, 6

Learning Outcome
Students will be able to write and present clear client communications (emails, briefs, reports, presentations) that keep campaigns moving forward.

Title
Tools

Tags
186151, 8

Learning Outcome
Students will be able to apply project management tools and methods (status meetings, workflow tracking, approval processes) to real campaign scenarios.

Title
Team work and Coordination

Tags
186439, 3

Learning Outcome
Students will be able to coordinate cross-functional teams (creative, media, PR, digital) to ensure campaign elements align and deadlines are met.

Title
Analysis and Optimization

Learning Outcome
Students will be able to analyze and improve campaign workflows, identifying bottlenecks and proposing solutions that enhance efficiency and quality.

Title
Empathy and Understanding

Learning Outcome
Students will learn to manage their work from a place of empathy and understanding as they seek to improve teamwork and collaboration among individuals.

Students are expected to attend the first day of class; failure to do so may adversely affect grades.

Learning Outcomes

Title
Newsroom Management

Tags
186259, 2

Learning Outcome
Students will supervise newsroom personnel to demonstrate advanced leadership and knowledge of newsroom management concepts.

Title
News Judgment

Tags
186260, 4

Learning Outcome
Students will demonstrate critical thinking and advanced news judgment related to story selection and approval of newscasts.

Title
Audience Analysis

Tags
186261, 5

Learning Outcome
Students will analyze news ratings, audience surveys and related scholarly research.

Title
Ethics

Tags
186262, 6

Learning Outcome
Students will demonstrate mastery of editing news content to avoid ethical pitfalls (such as plagiarism and fabrication) and legal problems (including defamation).

Title
Editing

Tags
186263, 7

Learning Outcome
Students will demonstrate mastery in newswriting, editing, and presentation of images for broadcast.

Title
Diversity

Tags
186264, 8

Learning Outcome
Students will ensure editorial contect reflects a diversity of viewpoints and is representatitve of all people.

Title
Technology

Tags
186265, 9

Learning Outcome
Students will employ industry-standard technology relevant to the dissemination of broadcast news.

COMMS 489 - Creative Advertising Culmination Experience

Course Information

Teaching Area (new)
COMMS

Course Number
489

Teaching Area
COMMS

Course Title
Creative Advertising Culmination Experience

Course Description
This course will serve as a creative culminating experience within the program. Students will take all of their knowledge and experience gained in the program to create a final project of their choice.

Department
Communications

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- COMMS 433 - Advanced Advertising Concepting - Portfolio 3

Note
Students are expected to attend the first day of class; failure to do so may adversely affect grades.

Learning Outcomes

Title
Research and Insights

Tags
186205, 2

Learning Outcome
Students will be able to develop insights from the research they've produced.

Title
Creative Executions

Tags
186207, 3

Learning Outcome
Students will be able to take the insights gained from their research and produce a high quality creative campaign.

Title
Messages That Matter

Tags
186208, 6

Learning Outcome
Students will apply Gospel-centered values as they choose topics and create messages that will have an impact on society.

Title
Real World Experience

Tags
186206, 0, 1

Learning Outcome
Students will be able to create messages that matter and learn how to get one's message out in the real world.

COMMS 490 - Media Innovations Capstone

Course Information

Teaching Area (new)
COMMS

Course Number
490

Teaching Area
COMMS

Course Title
Media Innovations Capstone

Course Description
Synthesis of news media competencies gained through successful completion of directed project. Projects may include a digital media product, in-depth reportage or documentary.

Department
Communications

When Taught
Fall, Winter, Spring

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Simple Requisites

Untitled Requirement

Type
Completion Requirement

Complete ANY of the following Courses:

- COMMS 386 - Sports Communication
- COMMS 325 - Video Reporting

Learning Outcomes

Title
Senior project

Tags
186554, 1

Learning Outcome
Students will propose and complete a professional-quality project that demonstrates mastery and synthesis of competencies learned in the news media curriculum.

Title
Creativity and innovation

Tags
186555, 3

Learning Outcome
Students will demonstrate creativity by producing an original or innovative media product.

Title
Ethics and Diversity

Tags
186556, 4

Learning Outcome
Students will behave ethically and report fairly, including in their reportage a diversity of voices.

Title
Collaboration

Tags
186586, 2

Learning Outcome
Students will demonstrate the ability to work collaboratively with minimal supervision.

COMMS 491R - Student Media Labs

Course Information

Teaching Area (new)
COMMS

Course Number
491R

Teaching Area
COMMS

Course Title
Student Media Labs

Course Description
Student-run media labs such as the Ad Lab, BioComms Lab, Daily Universe, Newsline, and, PR Intelligence Lab.

Department
Communications

When Taught
All Semesters/Terms

Credit Hours

Min:
1

Fixed/Max:
3

Lecture Hours

Fixed:
1

Other Prerequisites
Admission to a School of Communications major (Advertising, Comms Studies, Journalism, or Public Relations). Appropriate 300-level courses in the student's admitted sequence; lab advisor's consent.

Note
It is the student's responsibility to talk to their sequence's lab mentors to discuss the possibility of enrolling in Comms 491R. Enrollment is based on project availability and lab needs. Students who have been cleared to enroll must request a comms 491R contract from the School of Communications main office. The student and their lab mentors must agree on the terms of the contract and sign it. Students should return the form to the main office to receive an add code. Comms 491R cannot be combined with a paid position in the same lab.

COMMS 495R - Research and Readings in Communication Practice

Course Information

COMMS

Course Number
495R

Teaching Area
COMMS

Course Title
Research and Readings in Communication Practice

Course Description
Independent research projects and readings for communications majors.

Department
Communications

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
4

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
0

Other Prerequisites
Senior standing and instructor's approval of projects

Note
Projects must be approved in advance of registration.

Learning Outcomes

Title
Research and Readings

Tags
186434, 0

Learning Outcome
Students will meet outcomes for a specific readings and research activity as specified the instructor.

COMMS 496R - Academic Internship

Course Information

Teaching Area (new)
COMMS

Course Number
496R

Teaching Area
COMMS

Course Title
Academic Internship

Course Description
Professional field experience.

Department
Communications

When Taught
All Semesters/Terms

Credit Hours

Min:
1

Fixed/Max:
6

Other Prerequisites
Major status; prerequisites satisfied; clearance by the Communications Department

Note
An APPROVED Internship Application is required before adding.

Learning Outcomes

Title
Skills

Tags
186579, 1

Learning Outcome
Students will demonstrate proficiency in research, writing, creativity, and technical abilities.

Title
Professionalism

Tags
186580, 2

Learning Outcome
Students will demonstrate professionalism by conducting themselves appropriately, meeting deadlines, and demonstrating a positive attitude and high level of commitment.

Title
Ethics

Tags
186581, 5

Learning Outcome
Students will demonstrate ethical and legal behavior and show sensitivity to diversity.

COMMS 497R - Mentored Research Practicum

Course Information

Teaching Area (new)
COMMS

Course Number
497R

Teaching Area
COMMS

Course Title
Mentored Research Practicum

Course Description
Conducting research in a mentored environment with a faculty-sponsored research project.

Department
Communications

When Taught
All Semesters/Terms

Credit Hours

Min:
1

Fixed/Max:
3

Lecture Hours

Fixed:
0

Other Prerequisites
Admission to a School of Communications major (Advertising, Comms Studies, Journalism, or Public Relations). Appropriate 300-level courses in the student's admitted sequence; faculty mentor's consent.

Note
It is the student's responsibility to find a School of Communications faculty member who is willing to mentor the student on one of the faculty member's research projects. Enrollment in Comms 497R is based on faculty research project availability. After the student has secured a faculty mentor, the student must request a comms 497R contract from the School of Communications main office. The student and their faculty mentor must agree on the terms of the contract and sign it. The student should return the form to the main office to receive an add code.

Learning Outcomes

Title
Writing skills

Tags
186457, 1

Learning Outcome
Students will demonstrate an ability to effectively communicate research in a scholarly fashion.

Title
Research competency

Tags
186431, 0

Learning Outcome
Students will demonstrate competency in research skills.

COMMS 498R - Projects in Communications

Course Information

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
4

Lab Hours

Fixed:
0

Other Prerequisites
Admission to a School of Communications major (Advertising, Comms Studies, Journalism, or Public Relations). Appropriate 300-level courses in the student's admitted sequence; faculty-mentor's consent.

Note
It is the student's responsibility to find a School of Communications faculty member who is willing to mentor the student on one of the faculty member's comms projects. Enrollment in Comms 498R is based on the availability of faculty-mentored comms projects. After the student has secured a faculty mentor, the student must request a comms 498R contract from the School of Communications main office. The student and their faculty mentor must agree on the terms of the contract and sign it. The student should return the form to the main office to receive an add code.

CPSE 203 - Introduction to Special Education

Course Information

Teaching Area (new)
CPSE

Course Number
203

Teaching Area
CPSE

Course Title
Introduction to Special Education

Course Description
Understanding the characteristics of students with various exceptionalities, ranging from mild to moderate to severe disabilities. How student with specific disabilities learn; using basic strategies for meeting their educational needs.

Department
Counseling Psychology and Special Education

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
FBI fingerprint background clearance

Learning Outcomes

Title
Human exceptionality and special education

Tags
177546, 1

Learning Outcome
1. Describe human exceptionality, special education law, and school services for students with disabilities.

Title
Cultural, ethnic, and language diversity

Tags
177550, 5

Learning Outcome
2. Describe the effects of cultural, ethnic, and language diversity on the education of individuals with disabilities.

Title
Characteristics, prevalence, and educational implications

Tags
177552, 7

Learning Outcome
3. Describe the characteristics, prevalence, and educational implications of disabilities.

Title
Services and strategies for students with disabilities

Tags
177556, 11

Learning Outcome
4. Define and describe assessment, collaboration, and accommodation for students with disabilities.

Title
12-hour field experience

Tags
177557, 12

Learning Outcome
5. Complete a 12-hour field experience involving volunteer service with students with disabilities.

CPSE 300 - Exceptional Students: Principles of Collaboration

Course Information

Teaching Area (new)
CPSE

Course Number
300

Teaching Area
CPSE

Course Title
Exceptional Students: Principles of Collaboration

Course Description
Basic principles and legislative issues in effectively communicating and collaborating with professionals, parents, and other service providers to meet needs of individuals with disabilities in inclusive educational environments. Lab.

Department
Counseling Psychology and Special Education

When Taught
Fall, Winter, Spring

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
1

Other Prerequisites
FBI fingerprint background clearance

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Interpersonal Relations

Tags
177864, 5

Learning Outcome
Interpersonal Relations: Candidates work with students, parents, professionals, paraprofessionals, and others in the school and community with kindness and respect regardless of their diverse backgrounds.

Title
Learning Difficulties and Accommodations

Tags
177867, 1

Learning Outcome
Analyze student's learning difficulties and plan appropriate accommodations.

Title
Assessment Plans and School Support

Tags
177881, 3

Learning Outcome
Develop assessment plans to evaluate students' progress and collaborate with school experts to support student learning.

Title
Special Needs Learning Characteristics

Tags
177885, 2

Learning Outcome
Describe learning characteristics of special needs students.

Title
Collaboration

Tags
177895, 4

Learning Outcome
Collaboration: Candidates work effectively with parents, professionals, paraprofessionals, and others in the school and community to help students with disabilities achieve their IEP goals.

Title
Professional Practice

Tags
177903, 6

Learning Outcome
Professional Practice: Candidates fulfill all duties and assignments, comply with all education laws and policies, and continue to improve professional practice.

CPSE 401R - Practicum in Educational Partnerships

1

Other Prerequisites
Admission to elementary, secondary, or special education program

Learning Outcomes

Title
Application

Tags
177947, 1

Learning Outcome
The students will utilize a significant range of skills and abilities in a professional setting

CPSE 402 - Educating Students with Disabilities in Secondary Classrooms

Course Information

Teaching Area (new)
CPSE

Course Number
402

Teaching Area
CPSE

Course Title
Educating Students with Disabilities in Secondary Classrooms

Course Description
Issues, policies, and methods in teaching secondary students with disabilities in general education classrooms. Lab.

Department
Counseling Psychology and Special Education

When Taught
Fall, Winter, Spring

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Other Prerequisites
Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course; FBI fingerprint background clearance.

Note
NOTE: For help with questions about fingerprint clearance, contact the McKay School of Education Advisement Center. NOTE: CPSE 402 includes a service learning educational opportunity; a 12 hour volunteer experience is required.

Learning Outcomes

Title
Special education and the Individuals with Disabilities Education Act (IDEA)

Tags
191385, 0, 1

Learning Outcome
1. Define special education and describe the legal structure of services for individuals with disabilities, including the Individuals with Disabilities Education Act (IDEA).

Title
Students with disabilities

Tags
191386, 0, 2

Learning Outcome
2. Describe the academic and behavioral characteristics and educational implications of students with high and low incidence disabilities.

Title
Culture, ethnicity, language diversity, and disability

Tags
191387, 0, 3

Learning Outcome
3. Describe the effects of cultural, ethnic, and language diversity on the education of individuals with disabilities.

Title
Teaching students with disabilities in the general classroom

Tags
191388, 0, 4

Learning Outcome
4. Explain research-supported methods for academic instruction of individuals with disabilities, including explicit instruction, learning strategies, task analysis, active participation, classroom management, and accommodation for the general curriculum.

Title
Models and strategies for collaboration and consultation

Tags
191389, 0, 5

Learning Outcome
5. Describe models and strategies of consultation and collaboration including co-planning and co-teaching.

CPSE 410 - Applied Behavior Analysis in Education

Course Information

Teaching Area (new)
CPSE

Course Number
410

Teaching Area
CPSE

Course Title
Applied Behavior Analysis in Education

Course Description
Foundational principles of human behavior and application of those principles in working with individuals with disabilities.

Department
Counseling Psychology and Special Education

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

3

Lab Hours

Fixed:
0

Other Prerequisites
FBI fingerprint background clearance

Learning Outcomes

Title
Changing behavior

Tags
177560, 0, 3

Learning Outcome
3. Describe principles of stimulus control, consequences, and differential reinforcement.

Title
Behavior intervention plans

Tags
177562, 0, 5

Learning Outcome
5. Use functional behavior assessment data to design behavioral intervention plans.

Title
Functional behavior analysis

Tags
177561, 0, 4

Learning Outcome
4. Use functional behavior assessment to determine the function of behavior and to develop replacement behaviors.

Title
Using data to identify and target problem behaviors

Tags
177559, 0, 2

Learning Outcome
2. Describe data collection and principles of using data to target and replace behaviors.

Title
Understanding human behavior

Tags
177558, 0, 1

Learning Outcome
1. Describe approaches for explaining and analyzing occurrences of human behavior.

CPSE 420 - Assessment and Evaluation of Students with Exceptional Needs

Course Information

Teaching Area (new)
CPSE

Course Number
420

Teaching Area
CPSE

Course Title
Assessment and Evaluation of Students with Exceptional Needs

Course Description
Teacher candidates will be determining present levels of performance, classifying students for special education services, and writing goals and objectives for IEP development. Application of course concepts will occur in a local school district each week. \n

Department
Counseling Psychology and Special Education

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Other Prerequisites
Admission to special education program; FBI fingerprint background clearance

Learning Outcomes

Title
Principles and standards for ethical assessment

Tags
177575, 0, 1

Learning Outcome
1. Describe assessment terminology, ethics, legal provisions, regulations, program standards, and procedures.

Title
Informal assessment

Tags
177577, 0, 3

Learning Outcome
3. Describe informal assessments and applications for various disabilities.

Title
Assessment and individualized education programs (IEP)

Tags
177578, 0, 4

Learning Outcome
5. Use assessment results in creating individualized education programs.

Title
Administer and interpret formal assessments

Tags
177576, 0, 2

Learning Outcome
2. Select, describe, administer, and interpret formal nonbiased assessments.

Title
Assessment and determining special education services

Tags
177873, 0, 3

Learning Outcome
4. Describe the use of assessment results for determining special education services.

177689, 0, 2

Learning Outcome
2. Use research-supported methods for academic and nonacademic instruction of individuals with severe disabilities.

Title
Lesson planning

Tags
177690, 0, 3

Learning Outcome
3. Create assessment-based lesson plans including appropriate adaptations and technology for individuals with disabilities and from diverse backgrounds.

Title
Instructional decisions

Tags
177691, 0, 4

Learning Outcome
4. Demonstrate the design and use of curriculum-based measurements to make instructional decisions.

CPSE 460 - Collaborating with School and Family

Course Information

Teaching Area (new)
CPSE

Course Number
460

Teaching Area
CPSE

Course Title
Collaborating with School and Family

Course Description
Foundations in collaborating with school professionals, para-professionals, and families of children with disabilities.

Department
Counseling Psychology and Special Education

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Admission to special education program; CPSE 203.

Learning Outcomes

Title
Collaboration

Tags
177634, 0, 1

Learning Outcome
1. Define and address issues related to collaboration and other models of working together.

Title
Collaboration with parents and professionals

Tags
177635, 0, 2

Learning Outcome
2. Demonstrate understanding of collaborating with parents, paraeducators, and other professionals.

Title
Interpersonal skills for collaboration

Tags
177989, 0, 3

Learning Outcome
3. Understand and demonstrate appropriate interpersonal skills for problem solving, communication, and addressing difficult interactions.

CPSE 462 - Teaching Math to Students with Disabilities

Other Prerequisites
Admission to special education program, CPSE 203.

Learning Outcomes

Title
Standards-based planning

Tags
178013, 0, 1

Learning Outcome
1. Use assessment data to create standards-based Present Levels of Academic and Functional Performance (PLAAFP) statements and measurable annual IEP and unit goals.

Title
Explicit and cognitively guided instruction

Tags
178012, 0, 2

Learning Outcome
2. Create and teach lesson plans using cognitively guided instruction and explicit sequential instruction to teach core math skills.

Title
Progress monitoring for math

Tags
178007, 0, 3

Learning Outcome
3. Design and implement data recording systems for monitoring student progress toward lesson objectives, unit goals, and annual IEP goals.

CPSE 463 - Assistive Technology for Students with Disabilities

Course Information

Teaching Area (new)
CPSE

Course Number
463

Teaching Area
CPSE

Course Title
Assistive Technology for Students with Disabilities

Course Description
Principles and applications in using assistive technology to improve the education and communication skills of students with disabilities.

Department
Counseling Psychology and Special Education

When Taught
Spring Term

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Other Prerequisites
Admission to special education program or instructor's consent; FBI fingerprint background clearance.

Learning Outcomes

Title
Assistive technology & communication skills

Tags
177700, 0, 3

Learning Outcome
Plan and use augmentative and assistive communication strategies to support and enhance communication skills of individuals with exceptional learning needs and those whose primary language is not the dominant language.

Title
Assistive technology to access curriculum and social skills

Learning Outcome
Plan and use assistive technologies to help students with disabilities access the curriculum and develop academic and social skills.

Previous and current classroom experience preferred.

Learning Outcomes

Title
Identify factors that influence learning

Tags
213515, 0, 1, 2023-08-29 08:16:35

Learning Outcome
Students will identify how language, culture, economic status and family background, and/or area of disability can influence learning.

Title
Model diversity

Tags
213516, 0, 2, 2023-08-29 08:16:37

Learning Outcome
Students will model respect for diversity, understanding it is an integral part of society's institutions and impacts learning of individuals with gifts and talents in the delivery of gifted education.

Title
Demonstrate Collaboration

Tags
213517, 0, 3, 2023-08-29 08:16:38

Learning Outcome
Students will demonstrate elements of effective collaboration, serve as a collaborative resource for colleagues, and use collaboration to promote the well-being of individuals with gifts and talents.

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CREOL 101 - First-Year Language Study: Haitian-Creole

Note
Teacher may waive prerequisite based on prior experience.

Learning Outcomes

Title
Comprehension

Tags
196923, 1

Learning Outcome
Understand written and spoken target language relating to familiar topics.

Title
Speaking

Tags
196925, 2

Learning Outcome
Speak the target language well enough to satisfy immediate needs related to basic social situations, simple transactions, basic food and lodging, and routine travel.

Title
Writing

Tags
196927, 3

Learning Outcome
In the target language, write short, simple messages consisting of structurally-accurate sentences on familiar topics.

Title
Culture

Tags
196929, 4

Learning Outcome
Function appropriately in routine, familiar situations in the target culture.

Prerequisites

Complete ALL of the following Courses:

- CREOL 102 - First-Year Language Study: Haitian-Creole

Note
Teacher may waive prerequisite based on prior experience.

Learning Outcomes

Title
Elaboration

Tags
196931, 1

Learning Outcome
Create structurally-accurate, elaborated utterances and begin to group utterances into paragraphs and narratives. Do this in present, past and future time.

Title
Vocabulary

Tags
196933, 2

Learning Outcome
Broaden vocabulary for both reception (listening and reading comprehension) and production (speaking and writing).

Title
Grammar

Tags
196935, 3

Learning Outcome
Review and increase understanding of basic language structures.

Title
Culture

Tags
196938, 4

Learning Outcome
Discuss in the target language common products and practices related to every-day life in the target culture.

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CREOL 201 - Second-Year Language Study: Haitian-Creole

Note
Teacher may waive prerequisite based on prior experience. Culminating course for GE Languages of Learning requirement. Not an entry course for returned missionaries.

Learning Outcomes

Title
Communication Skills

Tags
196939, 1

Learning Outcome
In both written and spoken target language, communicate with reasonable accuracy about real-world activities with well-educated members of the target-culture accustomed to dealing with non-native speakers.

Title
Comprehension

Tags
196941, 2

Learning Outcome
Understand every-day written and verbal instructions. Comprehend concrete details and global meaning of intermediate-level written and spoken passages related to familiar topics that native speakers encounter routinely in their daily life.

Title
Cultural Knowledge

Tags
196943, 3

Learning Outcome
Discuss in the target language cultural practices related to every-day life in the target culture. Acquire basic background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.).

Title
General Education Requirements

Tags
196945, 4

Learning Outcome
Complete Languages of Learning and Global & Cultural Awareness for General Education.

CREOL

Course Title
Language Skills Development: Haitian-Creole

Course Description
Increasing proficiency in one or more of the following Creole language and culture skills: speaking, listening, reading, writing, cultural awareness.

Department
French and Italian

When Taught
Contact Department

Credit Hours

Min:
1

Fixed/Max:
4

Other Prerequisites
Instructor's consent.

Learning Outcomes

Title
Defined Special Purpose

Tags
196947, 1

Learning Outcome
Develop the overall language and cultural competence to meet the needs of a "special" purpose identified by the Center for Language Studies.

Title
Communication

Tags
196949, 2

Learning Outcome
Communicate effectively enough to function in a variety of situations likely to be encountered when dealing with native speakers associated with the special purpose. This may include interpersonal, interpretive, and presentational (written and oral) modes of communication.

Title
Cultural Competence

Tags
196951, 3

Learning Outcome
Interact with cultural competence and understanding when dealing with native speakers associated with the special purpose.

CREOL 321 - Advanced Grammar: Haitian-Creole

Course Information

Teaching Area (new)
CREOL

Course Number
321

Teaching Area
CREOL

Course Title
Advanced Grammar: Haitian-Creole

Course Description
Systematic review of grammar and syntax of Creole.

Other Prerequisites
CREOL 202.

Note
Teacher may waive prerequisite based on prior experience.

Learning Outcomes

Title
Analyze

Tags
196956, 1

Learning Outcome
Analyze target language morphology and syntax.

Title
Apply

Tags
196957, 2

Learning Outcome
Apply grammar rules with accuracy to a variety of advanced grammatical and communicative tasks.

Title
Independent Learning

Tags
196959, 3

Learning Outcome
Function as independent learners of the target language by using proper terms and appropriate resources for language analysis.

Prerequisites

Complete ALL of the following Courses:

- CREOL 330 - Advanced Language Proficiency Through Cultural Studies: Haitian Creole

Note
Teacher may waive prerequisite based on prior experience.

Learning Outcomes

Title
Recognize and Analyze

Tags
196970, 1

Learning Outcome
Recognize and analyze the most important genres in target-language literature.

Title
Key Characteristics

Tags
196972, 2

Learning Outcome
Identify and discuss key characteristics of the most important literary movements in the target culture.

Title
Context

Tags
196973, 3

Learning Outcome
Place literature in a meaningful cultural and historical context.

Title
Language Skills

Tags
196974, 4

Learning Outcome
Improve target-language reading, writing, and speaking skills.

1.5

Simple Requisites

Prerequisite

Type
Prerequisite

Prerequisite

Complete ALL of the following Courses:

- DESAN 101 - Intro to Animation

Note
For Pre-Computer Science: Animation and Games, and Pre-Animation Majors ONLY

Learning Outcomes

Title
Technical Proficiency

Tags
106299, 0

Learning Outcome
Students will be able to use Maya at a basic level of familiarity and demonstrate basic capability in modeling, texturing, lighting, and rendering.

Title
Artistic proficiency in 3-Dimensions

Tags
187196, 1

Learning Outcome
Students will be able to make visually interesting and readable images.

CSANM 210 - Visual Narrative for Animation

Course Information

Course Number
210

Teaching Area
CSANM

Course Title
Visual Narrative for Animation

Course Description
This class teaches foundational skills that animation students require when working in a shot-based production environment. Cinematography, layout, composition and storytelling techniques will be a focus of study.

Department
Computer Science

When Taught
Fall

Credit Hours

Fixed/Max:
3

Lecture Hours

4

Lab Hours

Fixed:
2

Learning Outcomes

Title
Shot Making

Tags
213524, 0, 1, 2023-08-29 08:18:57

Learning Outcome
The ability to critique, discuss and create film narrative in the continuity style of film making heavily used in animation.

Title
Color, Lighting & Composition for film

Tags
213525, 0, 2, 2023-08-29 08:18:59

Learning Outcome
Acquire a foundational level of understanding of color, lighting and composition for film. Be able to critique, discuss, and improve layouts for animation.

Title
Crew & Professional Dynamics:

Tags
213526, 0, 3, 2023-08-29 08:19:00

Learning Outcome
Learn how animated productions are structured and how departments work together in a Visual Effects or Animation Porduction

Title
Narrative

Tags
213527, 0, 4, 2023-08-29 08:19:01

Learning Outcome
Demonstrate ability to tell a visual story with an emphasis on clarity, structure and delivery.

CSANM 250 - Intermediate Three-Dimensional Computer Graphics

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CSANM 250 - Intermediate Three-Dimensional Computer Graphics

Note
Course changed to CSAnm 252 beginning Fall 2012.

Learning Outcomes

Title
Technical Proficiency

Tags
106310, 0

Learning Outcome
Students will be able to animate in Maya using key frames, blend shapes, and character rigs.

Title
Appealing 3D Animation

Tags
106311, 1

Learning Outcome
Students will be able to translate the twelve principles of animation into 3-dimensional space.

Title
Self-analysis as an Animator

Tags
106312, 2

Learning Outcome
Students will be able to identify personal weaknesses in animation and analyze paths to turn those into strengths.

CSANM 258 - Scripting for Animation

Course Information

Teaching Area (new)
CSANM

Course Number
258

Teaching Area
CSANM

Course Title
Scripting for Animation

Course Description
Developing basic scripting skills to procedurally build intricate systems of models, rigs, and animation. Students learn how to reduce manual hours and efficiently create simple to complex effects.

Department
Computer Science

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Note
Course changed to CSAnm 258 beginning Fall 2014.

Learning Outcomes

Title
Scripting Skills

Tags
106313, 0

Learning Outcome
Students will be able to code in animation environments, using both Python and Houdini, build procedural environments and animate parameters using scripting expressions, and procedurally build intricate systems of models, rigs, and animation through basic coding and node-based scripting skills.

Title
Increased Efficiency in Animation

Tags
106314, 1

Learning Outcome
Students will be able to efficiently create both simple and complex effects with less effort as well as automate modeling, rigging, and animation processes so that intricate animation systems can be completed in a practical, timely manner.

CSANM 340 - Introduction to Game Design

Course Information

Teaching Area (new)
CSANM

Course Number
340

Teaching Area
CSANM

Course Title
Introduction to Game Design

Course Description
This is an introductory elective course in game design. We will cover foundational game elements and the processes for designing game experiences. These principles are ubiquitously foundational to all parts of the video game development pipeline. This class helps students develop understanding and intuition for the techniques that make gameplay and accompanying worlds successful. \n

Title
Game Design

Learning Outcome
Design a computer game

CSANM 342 - Real-time Techniques

Course Information

Teaching Area (new)
CSANM

Course Number
342

Teaching Area
CSANM

Course Title
Real-time Techniques

Course Description
This class introduces students to real-time applications. It provides principles foundational for creating video games and other real-time media. Students learn how to mock up basic game mechanics in a realtime engine, such as Unreal Engine, and create basic environments and characters for a real time engine. This is meant to be an introduction to a variety of skills that students can take further and deeper on future projects.

Department
Computer Science

When Taught
Fall

CS Animation Emphasis Majors or Animation Majors; or instructor's consent

Learning Outcomes

Title
Real Time Technologies

Learning Outcome
Use real time technologies

CSANM 351R - Lighting for Three-Dimensional Graphics

Course Information

Teaching Area (new)
CSANM

Course Number
351R

Teaching Area
CSANM

Course Title
Lighting for Three-Dimensional Graphics

Course Description
Developing lighting and color, and the compiling of the various elements for final images for use in three-dimensional applications.

Department
Computer Science

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Note
Course changed to CSAnm 351R beginning Fall 2012.

Learning Outcomes

Title
Application

Tags
204503, 1

Learning Outcome
Students will learn and apply the skills of lighting for 3D graphics.

CSANM 352 - Animated Film Production 1

Course Information

Teaching Area (new)
CSANM

Course Number
352

Teaching Area
CSANM

Course Title
Animated Film Production 1

Course Description
Early development of a film, including character design, environments, pipeline, visual effects, and the look and feel the film. All pre-visualization of the film. Practice collaborative production processes through interdisciplinary creative works or experiences.

Department
Computer Science

When Taught
Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
2

Learning Outcomes

Title
Pre-production

Tags
213528, 0, 1, 2023-08-29 08:19:07

Learning Outcome
Students will contribute to pre-production on a film using modeling, effects, animation, and other conceptual methods as well as work through design, story, and production pipeline issues.

Title
Visual effects

Tags
213529, 0, 2, 2023-08-29 08:19:08

Learning Outcome
Students will contribute to visual effects proof of concept through pre-visualization, pipeline development, visual development, and modeling during pre-production.

CSANM 353 - Previsualization

Course Information

Teaching Area (new)
CSANM

Course Number
353

Teaching Area
CSANM

Course Title
Previsualization

Course Description
This class teaches the art and technical aspects of previsualization using 3D software and cameras. This technique is crucial to the modern filmmaking process, and students will learn the process through principles and experience.

Department
Computer Science

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CSANM 250 - Intermediate Three-Dimensional Computer Graphics
  AND CSANM 252 - Introduction to Three-Dimensional Animation

Learning Outcomes

Title
Previsualization

Learning Outcome
Effective use of previsualization.

CSANM 354 - Materials and Surfacing

Course Information

Teaching Area (new)
CSANM

Course Number
354

Teaching Area
CSANM

Course Title
Materials and Surfacing

Course Description
Shading and rendering techniques for the attainment of desired visual effects: use of shading languages for the realization of both photorealistic and non-photorealistic imaging.

Department
Computer Science

When Taught
Fall

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Note
Course changed to CSAnm 354 beginning Fall 2012.

Learning Outcomes

Title
Technical Proficiency

Tags
213530, 0, 1, 2023-08-29 08:19:12

Learning Outcome
Students will be able to create shaders and understand how shading fits into a production pipeline. Students will have the ability to implement technical, programmatic, and mathematical under-the-hood principles used to generate procedural patterns, displacements, and surface models.

Title
Matching Visual Direction

Tags
213531, 0, 2, 2023-08-29 08:19:14

Learning Outcome
Students will be able to light and surface objects with color patterns, displacement, surface models, and lighting to match already lit live-action scenes. Students will be able to manage technical and artistic aspects of shading and rendering techniques for creating art-directable surface textures for computer-generated (CG) visual effects and animated films.

CSANM 355 - Photography for Animation

Course Information

Teaching Area (new)
CSANM

Course Number
355

Teaching Area
CSANM

Course Title
Photography for Animation

Course Description
Layout, references, camera technology and terminology, application of composition, lighting, and core art skills emphasized.

Department
Computer Science

When Taught
Spring Term

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:

Lab Hours

Fixed:
3

Note
Course changed to CSAnm 355 beginning Fall 2012.

Learning Outcomes

Title
Practices and artistry

Tags
204491, 1

Learning Outcome
Students will understand and be able to use current technologies to transfer information from digital photography to animation artifacts. Students will understand how artistic requirements inform when and how to use photography to support animation.

CSANM 450 - Animated Film Production 2

Course Information

Teaching Area (new)
CSANM

Course Number
450

Teaching Area
CSANM

Course Title
Animated Film Production 2

Course Description
In-depth experiences creating computer animations and visual effects. Senior film front-end development and introduction to full animation production.

Department
Computer Science

When Taught
Fall

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Note

Learning Outcomes

Title
Dynamic Roles in Production

Tags
213532, 0, 1, 2023-08-29 08:19:18

Learning Outcome
Students will be able to contribute to the production of an animated film by specializing in visual effects, shaders/surfacing, compositing, rendering, lighting, editing, pipeline development, animation, or a combination of these.

Title
Collaboration, Synergy, and Compromise

Tags
213533, 0, 2, 2023-08-29 08:19:20

Learning Outcome
Students will be able to align their efforts to the art direction, story direction, audio, and production constraints of an animated project. Students will also be able to collaborate with a diverse team and work through the unexpected challenges working with a team creates on an animated film.

CSANM 452 - Animated Film Production 3

Course Information

Teaching Area (new)
CSANM

Course Number
452

Teaching Area
CSANM

Course Title
Animated Film Production 3

Course Description
Portfolio development based on advanced animation/design projects. Senior film production and post production.

Department
Computer Science

When Taught
Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Note
Course changed to CSAnm 452R beginning Fall 2012.

Learning Outcomes

Title
Polish and Publish

Tags
213534, 0, 1, 2023-08-29 08:19:21

Learning Outcome
Students will be able to apply the skills necessary to finish off and publish a senior film, including rendering, compositing, and audio, as well as solve complicated last-minute problems on a project, both individually and collaboratively.

Title
Marketing Materials

Tags
213535, 0, 2, 2023-08-29 08:19:22

Learning Outcome
Students will be able to work together to create publicity and supplemental materials for a film project.

CSANM 453R - Special Topics in Advanced Graphics

Course Information

Teaching Area (new)
CSANM

Course Number
453R

Teaching Area
CSANM

Course Title
Special Topics in Advanced Graphics

Course Description
Researching new technologies in animation and visualization. Topics might include real-time technologies, three-dimensional data acquisition, performance capture, or new entertainment platforms.

Department
Computer Science

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Note
Course changed to CSAnm 453R beginning Fall 2012.

Learning Outcomes

Title
Emerging graphics practices

Tags
204492, 1

Learning Outcome
Students will be able to implement, apply, and extend state-of-the-art practices in computer graphics relevant for animation.

CSANM 454 - Advanced Shading

Course Information

Teaching Area (new)
CSANM

Course Number
454

Teaching Area
CSANM

Course Title
Advanced Shading

Course Description
Advanced shading, rendering, and lighting methods for creating virtual scenes that emphasize story and innovatively meet an art director's vision through traditional and procedural methods.

Department
Computer Science

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Note
Course changed to CSAnm 454 beginning Fall 2012.

Learning Outcomes

Title
Practice and artistry of shading

Tags
204493, 1

Learning Outcome
Students will understand the artistic importance and subtleties of shading, and be able to implement/extend state-of-the-art practices in shading for animation.

CSANM 458R - Three-Dimensional Visual Effects

Course Information

Teaching Area (new)
CSANM

Course Number
458R

Teaching Area
CSANM

Course Title
Three-Dimensional Visual Effects

Course Description
Exploring procedural and three-dimensional animation methods to create realistic special effects. Applying a large spectrum of animation principles to integrate their effects aesthetically and convincingly into a live action or animated environment.

Department
Computer Science

When Taught
Spring Term

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Note
Course changed to CSAnm 458 beginning Fall 2012.

Learning Outcomes

Title
Effects Creation

Tags
106826, 0

Learning Outcome
Students will be able to model, animate, light, and composite virtual environmental effects and character effects such as fire, smoke, water, and so forth.

Title
Artistry in Technical Achievement

Tags
187210, 1

Learning Outcome
Students will be able to balance the artistry and technical aspects of visual effects in film.

Title
3D with a 2D Foundation

Tags
187211, 2

Learning Outcome
Students will be able to apply their knowledge of hand-drawn effects to create effects within a 3D environmental context and merge characters into their story and environment.

CSANM 459 - Video Game Production 1

Course Information

Teaching Area (new)
CSANM

Course Number
459

Teaching Area
CSANM

Course Title
Video Game Production 1

Course Description
Using prototyping to develop game experience ideas by building a minimal viable product around a core experience idea. Participating in a team and coordinating tasks, including white-boxing, concept design, modeling, layout, rigging, and tool building.

Department
Computer Science

When Taught
Fall

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Other Prerequisites
Junior or senior status.

Learning Outcomes

Title
Collaboration

Tags
213536, 0, 1, 2023-08-29 08:19:29

Learning Outcome
Students will also be able to collaborate with a diverse team and work through the unexpected challenges that come with working on a team.

Title
Collaboration, Synergy, and Compromise

Tags
213537, 0, 2, 2023-08-29 08:19:30

Learning Outcome
Students will be able to align their efforts to the art direction, gameplay experience, audio, and production constraints of a video game project

Title
Dynamic Roles in Production

Tags
213538, 0, 3, 2023-08-29 08:19:32

Learning Outcome
Students will contribute to the production of an interactive video game by specializing in real-time visual effects, animation, shaders/surfacing, lighting, gameplay prototyping, pipeline development, user interfaces, feedback signaling, or a combination of these.

CSANM 460 - Video Game Production 2

Course Information

Teaching Area (new)
CSANM

Course Number
460

Teaching Area
CSANM

Course Title
Video Game Production 2

Course Description
Polishing a video game for production as a team, including texturing, animation, FX, lighting, tool applications, AI, UI, and gameplay mechanics.

Department
Computer Science

When Taught
Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Other Prerequisites
Junior or senior status.

Learning Outcomes

Title
Dynamic Roles in Production

Tags
213539, 0, 1, 2023-08-29 08:19:34

Learning Outcome
Students learn production and post-production skills by polishing and completing a full slice (level or stage) of their game. This includes a major focus on playtesting and applying user feedback in an iterative process. Students apply and polish the principles of game feedback and game balance.

Title
Collaboration, Synergy, and Compromise

Tags
213540, 0, 2, 2023-08-29 08:19:35

Learning Outcome
Students divide up tasks including animation, modeling, lighting, FX, user interface, music, and sound, and learn to coordinate their respective roles in the greater context of the game.

CSANM 494R - Special Problems in Animation

Application

Tags
204505, 1

Learning Outcome
Students will complete a BFA final project.

CYBER 110 - Introduction to Cybersecurity

Course Information

Course Number
110

Teaching Area
CYBER

Course Title
Introduction to Cybersecurity

Course Description
Cybersecurity terminology, applications, and technologies. Developing fundamental skills with computers, web systems, encryption, and technical problem solving.

Department
Electrical and Computer Engineering

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
1

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
1

Learning Outcomes

Title
Cybersecurity Terminology

Learning Outcome
Apply cybersecurity fundamental terminology (e.g., risk, vulnerabilities, security controls, CIA triad) to describe security weaknesses, attacks, and defenses.

Title
Credibility, Ethics and Evaluation

Learning Outcome
Identify credible sources of cybersecurity information and describe how to search and evaluate information. Describe why credibility of information and acting ethically is so important in the field of Cybersecurity.

Title
Encryption Fundamentals

Learning Outcome
Differentiate between symmetric encryption, asymmetric encryption, and hashes are describe how they are used to provide security services.

Title
Computer Hardware

Learning Outcome
List the components of a computer, how they work together, and examples of cybersecurity attacks related to each.

Title
Operating Systems Defense

Learning Outcome
Implement best practices to harden an operating system. Interact with an operating system using the command line (e.g., Linux).

Title
Data Privacy

Learning Outcome
Describe generally accepted privacy principles and the role of privacy policies and laws in protecting privacy.

Title
Usable and Secure Computing

Learning Outcome
Describe the relationship between security and usability and create an interface prototype using security by design principles.

Title
Networking

Learning Outcome
Describe the how network layers and packets work. Analyze network packet data.

Title
Web Systems

Learning Outcome
Create a website using HTML, CSS, and minimal Javascript and understand how the technologies work together.

Title
Defending our Faith

Learning Outcome
Identify situations where faith is challenged and strategies for defending core beliefs.

CYBER 199R - Academic Internship: Cybersecurity

Course Information

Teaching Area (new)
IT&C

Course Number
199R

Teaching Area
CYBER

Course Title
Academic Internship: Cybersecurity

Course Description
Work experience evaluated by supervisor and posted on student's transcript.

Department
Electrical and Computer Engineering

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
3

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
0

Other Prerequisites
Instructor and college internship coordinator approval.

Note
Follow the Department Pre-Registration Instructions prior to Internship Application. An APPROVED Internship Application is required before adding.

CYBER 210 - Secure Web Development

Course Information

Course Number
210

Teaching Area
CYBER

Course Title
Secure Web Development

Course Description
Learn to develop content and applications for the World-Wide Web while applying principles of security, privacy, and data assurance.

Department
Electrical and Computer Engineering

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CYBER 110 - Introduction to Cybersecurity
  AND C S 111 - Introduction to Computer Science

Learning Outcomes

Title
Web Development and Deployment Tools

Learning Outcome
Deploy secure development and production environments for web sites and services.

Title
Secure Web Programming

Learning Outcome
Design, implement, and debug web systems including single-server solutions and distributed systems.

Title
Web Patterns and Frameworks

Learning Outcome
Use common design patterns for web programming using front-end and back-end web frameworks.

Title
Databases

Learning Outcome
Deploy relational and document (NoSQL) databases and use them securely in the development of web projects.

Title
Web Security

Learning Outcome
Implement authentication, authorization, and session management in secure web applications. Apply data assurance principles when managing access and protecting communication.

Title
Lifelong Learning

Learning Outcome
Acquire and apply life-long learning skills to find, assess, and appropriately utilize information resources and tools to solve technical problems and progress spiritually.

Title
Written and Visual Communication

Learning Outcome
Demonstrate skills in reading and writing technical communication including the use of sample source code, UML diagrams, tables, and charts.

Title
Web and Society

Learning Outcome
Describe how web technologies, standards, and accessibility influence human wellbeing and how conflicting incentives can lead to unethical outcomes.

CYBER 231 - Ethics, Law, and Leadership

Course Information

Teaching Area (new)
IT&C

Course Number
231

Teaching Area
CYBER

Course Title
Ethics, Law, and Leadership

Course Description
Personal, professional, organizational, and societal ethics for computing and cybersecurity. Legal issues from US and international perspective. Leadership principles and practices.

Department
Electrical and Computer Engineering

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Recommended
IT&C 101 or familiarity with computing systems

Learning Outcomes

Title
Identify Ethical & Legal Issues

Tags
213262, 0, 8, 2023-08-24 14:59:34

Learning Outcome
Identify common ethical and legal issues that arise for individuals, managers, and organizations in the Computing and Cybersecurity domains (e.g., privacy, accountability, intellectual property).

Title
Ethical Reasoning

Tags
213263, 0, 9, 2023-08-24 14:59:34

Learning Outcome
Use ethical reasoning, professional and organizational codes of conduct, and legal understanding to analyze and suggest resolutions to ethical dilemmas.

Title
Assess Impact of Decisions

Tags
213264, 0, 10, 2023-08-24 14:59:34

Learning Outcome
Assess the impact of ones' attitudes, choices, and behaviors on teams, organizations, and society.

Title
Describe the Impact of Technology

Tags
213265, 0, 11, 2023-08-24 14:59:34

Learning Outcome
Describe the various ways that information technologies and security impact individuals, organizations, and society.

Title
Recognize Self-Deception

Tags
213266, 0, 12, 2023-08-24 14:59:34

Learning Outcome
Recognize how self-deception and an inward mindset can influence ethical judgement.

Title
Cultural Awareness

Tags
213267, 0, 13, 2023-08-24 14:59:34

Learning Outcome
Compare ethical and legal approaches to technology policy among different cultures and nations in an empathetic and historical manner.

Title
Leadership

Tags
213268, 0, 14, 2023-08-24 14:59:34

Learning Outcome
Explain characteristics associated with strong ethical leaders and critique one's own performance in relation to them.

CYBER 247 - Networks and Security

Course Information

Teaching Area (new)
IT&C

Course Number
247

Teaching Area
CYBER

Course Title
Networks and Security

Course Description
Conceptual and practical computer networks. Internet, local and wide area networks. Switches and routers. Network security.

Department
Electrical and Computer Engineering

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

2

Learning Outcomes

Title
Networking Concepts

Tags
207333, 0, 1, 2023-08-26 08:50:31

Learning Outcome
Utilize appropriate terminology, standards, and models to demonstrate technical proficiency in networking practices.

Title
Network Solutions

Tags
207334, 0, 2, 2023-08-26 08:50:31

Learning Outcome
Design and implement network solutions that meet organizational needs and adhere to best practices, including switching, routing, DNS, NAT/PAT, DHCP, and wireless connectivity.

Title
Network Security

Tags
207335, 0, 3, 2023-08-26 08:50:31

Learning Outcome
Analyze enterprise network implementations to identify security vulnerabilities and evaluate technical and administrative mitigations that align with security policies and best practices.

Title
Network Troubleshooting

Tags
207336, 0, 4, 2023-08-26 08:50:31

Learning Outcome
Apply a structured troubleshooting methodology, aligned with best practices, to diagnose and resolve common network problems related to connectivity and configurations.

Title
Character Development

Tags
207339, 0, 7, 2023-08-26 08:50:31

Learning Outcome
Foster growth by reflecting on self-confidence, adaptability, and attention to detail to support a service-orientation.

CYBER 266 - Adversarial & Cybersecurity Mindset

Course Information

Course Number
266

Teaching Area
CYBER

Course Title
Adversarial & Cybersecurity Mindset

Course Description
Adversarial mindset and tactics; architectural and human vulnerabilities and strategies for protecting against them; cybersecurity terminology; threat actors and risk; ethical responsibility; management and governance considerations.

Department
Electrical and Computer Engineering

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
2

Recommended
IT&C 101 or familiarity with computing systems.

Learning Outcomes

Title
Cyber Systems Analysis

Tags
213297, 0, 1, 2023-08-26 08:50:02

Learning Outcome
Apply cybersecurity terminology, critical thinking, and models (e.g., ATT&CK Framework) to analyze a socio-technical system.

Title
Identify Vulnerabilities

Tags
213298, 0, 2, 2023-08-26 08:50:02

Learning Outcome
Identify common human and technical weaknesses.

Title
Attack Techniques

Tags
213299, 0, 3, 2023-08-26 08:50:02

Learning Outcome
Describe common individual attacks and evaluate which ones apply in different contexts.

Title
Adversarial Mindset

Tags
213300, 0, 4, 2023-08-26 08:50:02

Learning Outcome
Apply adversarial thinking by designing and evaluating a multi-stage attack on a specific target with proper ethical considerations.

Title
Character Development

Tags
213301, 0, 5, 2023-08-26 08:50:02

Learning Outcome
Foster growth by reflecting on mental agility, strategic focus, and ethical discernment.

Title
For the Benefit of the World

Tags
213302, 0, 6, 2023-08-26 08:50:02

Learning Outcome
Apply the adversarial mindset to recognize deception and enhance security within your sphere of influence.

CYBER 291 - Sophomore Seminar

Course Information

Course Number
291

Teaching Area
CYBER

Course Title
Sophomore Seminar

Course Description
Cybersecurity careers, with an emphasis on digital forensics, cybersecurity compliance, cloud computing, security operation centers, cybersecurity engineering, network security, and AI security.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Fixed/Max:
0.5

Learning Outcomes

Title
Professional Awareness and Self Reflection

Learning Outcome
Understand professional issues and job opportunities in the fields of IT and Cybersecurity and reflect on how they apply to oneself.

Title
Cybersecurity Focus Areas

Learning Outcome
Use correct terminology to describe cybersecurity focus areas including: digital forensics, cybersecurity compliance, cloud computing, security operation centers, cybersecurity engineering, network security, and AI security.

CYBER 293 - Professional Seminar

Course Information

Teaching Area (new)
IT&C

Course Number
293

Teaching Area
CYBER

Course Title
Professional Seminar

Course Description
Developing best employment opportunities and strategies. Interviewing, negotiations, resume, and professional etiquette.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Min:
0.5

Fixed/Max:
0.5

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

Learning Outcomes

Title
Graduation Requirements

Tags
181016, 4

Learning Outcome
Understand what is required for graduation

Title
Interview Skills

Tags
181022, 1

Learning Outcome
Ability to interview well

Title
Resume

Tags
181137, 0

Learning Outcome
Write a great resume

Title
Business Etiquette

Tags
181245, 3

Learning Outcome
Understand Business Etiquette and the written and unwritten rules in the workplace

Title
Accepting a Job

Tags
181262, 2

Learning Outcome
Understand the offer and negotiate a contract

CYBER 327 - Digital Communications

Course Information

Teaching Area (new)
IT&C

Course Number
327

Teaching Area
CYBER

Course Title
Digital Communications

Course Description
Ohm's law, power, inductance, capacitance, reactance, impedance, resonance, transformers. Properties of waves and electromagnetic radiation, including light. Communication systems, wired and wireless. Bandwidth, modulation; Shannon's theorem, telecommunications. Network physical and data link layers (ISO/OSI model). Optics/Coax/Twisted pair; RS-232/Ethernet; Signals/Protocols/Packets; digital communication theory fundamentals.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- MATH 112 - Calculus 1
  AND PHSCS 121 - Introduction to Newtonian Mechanics

Learning Outcomes

Title
Communications Links

Tags
209616, 0, 4

Learning Outcome
Describe the data rate limitations of communications links, referencing especially Shannon's Law.

Title
Signal Modulation

Tags
181106, 0, 1, 2023-08-26 08:48:39

Learning Outcome
List the intrinsic advantages and disadvantages of the three types of signal modulation (amplitude, frequency, phase).

Title
Communications of Digital Information

Tags
181030, 0, 2, 2023-08-26 08:48:39

Learning Outcome
Describe multiple types of digital information and how that information is communicated over wire, wireless, and optical fiber.

Title
Characterization of Communications Links

Tags
181250, 0, 3, 2023-08-26 08:48:39

Learning Outcome
Describe how communications links are characterized, including security implications.

Title
Modern Communication Systems

Tags
213295, 0, 8, 2023-08-26 08:48:39

Learning Outcome
Give four characteristics of each of the following communication systems: television, facsimiles, telephone, modems, LANs, WANs, satellite, cell phone and optical systems. One of these characteristics must be security.

Title
Data Rate Limitations

Tags
213296, 0, 9, 2023-08-26 08:48:39

Learning Outcome
Describe the limitations that resistance, capacitance and inductance impose on data rates over wire.

Title
Physical Communication Media

Tags
181042, 0, 5, 2023-08-26 08:48:39

Learning Outcome
Give the physical properties of physical communication media (wire, wireless, optical fiber) and describe how they affect data rate capacity and security.

Title
Digital Information

Tags
181270, 0, 6, 2023-08-26 08:48:39

Learning Outcome
List the advantages of transmitting information digitally (as compared to older analog methods). Include the security advantages.

Title
The EM Spectrum

Tags
181268, 0, 7, 2023-08-26 08:48:39

Learning Outcome
Describe the significance of the EM spectrum and spectral analysis in digital communications.

CYBER 344 - Operating Systems

Course Information

Teaching Area (new)
IT&C

Course Number
344

Teaching Area
CYBER

Course Title
Operating Systems

Course Description
Applying and using computer operating systems. Configuration, file systems, security, administration, network interfacing, multitasking, multiuser, device driver installation. Analyzing operating system performance.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
2

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- IT&C 210B - Web Systems and Security (Inactive)
  AND CYBER 266 - Adversarial & Cybersecurity Mindset
  AND EC EN 225 - Computer Systems Laboratory

Other Prerequisites
Must have received a grade of C or higher in IT&C 210B.

Learning Outcomes

Title
OS Architecture

Tags
181260, 0, 0, 2023-08-26 08:48:09

Learning Outcome
Describe the purposes, types, components, functions and inter-relationships of operating systems (desktop, mobile, and enterprise). Describe how hardware enables and integrates with this functionality.

Title
OS Subsystems

Tags
181150, 0, 1, 2023-08-26 08:48:09

Learning Outcome
Describe how OS sub-systems work (scheduling, memory management, etc).

Title
OS Practice

Tags
181165, 0, 2, 2023-08-26 08:48:09

Learning Outcome
Demonstrate an ability to work with Operating Systems by installing, compiling, configuring, and optimizing real and virtual systems. Describe Scalability issues.

Title
Information Assurance and Security

Tags
181092, 0, 3, 2023-08-26 08:48:09

Learning Outcome
Describe common IAS concepts related to system administration. Describe system administration aspects of IAS, including authentication, directory services and access control models.

Title
OS Distribution and Virtualization

Tags
181135, 0, 4, 2023-08-26 08:48:09

Learning Outcome
Describe distributed/virtualization computing concepts. Implement some distributed services in an enterprise environment.

Title
Development

Tags
181214, 0, 5, 2023-08-26 08:48:09

Learning Outcome
Independently create systems that are in developing fields or applications of OS and system administration.

CYBER 350 - Database Principles and Applications

Course Information

Teaching Area (new)
IT&C

Course Number
350

Teaching Area
CYBER

Course Title
Database Principles and Applications

Course Description
Database theory and architecture; data modeling; designing application databases. Query languages, data security, relational and non-relational databases.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Completion Requirement

Fulfill ANY of the following requirements:

Complete ALL of the following Courses:
- IT&C 210B - Web Systems and Security (Inactive)
  AND STAT 201 - Statistics for Engineers and Scientists
  AND C S 236 - Discrete Structures

OR

Complete ALL of the following Courses:
- IT&C 210B - Web Systems and Security (Inactive)
  AND STAT 121 - Introduction to Statistical Data Analysis
  AND C S 236 - Discrete Structures

OR

Complete ALL of the following Courses:
- IT&C 210B - Web Systems and Security (Inactive)
  AND STAT 201 - Statistics for Engineers and Scientists
  AND MATH 213 - Elementary Linear Algebra

Learning Outcomes

Title
Concepts and Terminology of Information Management

Tags
181140, 0, 1, 2023-08-26 08:46:14

Learning Outcome
Define and apply the concepts and terminology of Information Management.

Title
Conceptual and Data Modeling

Tags
181261, 0, 2, 2023-08-26 08:46:14

Learning Outcome
Apply conceptual modeling concepts using standard techniques such as Entity Relationship and Schema diagrams and tools.

Title
Compare types of databases

Tags
181110, 0, 4, 2023-08-26 08:46:14

Learning Outcome
Compare and contrast different types of specialized databases and their use cases (e.g., relational, time-series, document, graph).

Title
Security and Administration

Tags
181173, 0, 4, 2023-08-26 08:46:14

Learning Outcome
Install, manage, and secure a database management system and application (e.g., use minimal privileges; protect against injection; secure database connections).

Title
Project Management

Tags
213294, 0, 10

Learning Outcome
Apply project management tools and techniques.

Title
Database Systems Integration and Testing

Tags
181038, 0, 9, 2023-08-26 08:46:44

Learning Outcome
Integrate, deploy, and demonstrate operational applications on database system infrastructure. Includes use of DDL, DML, programming interfaces and UI implementation.

CYBER 366 - Defensive Cybersecurity

Course Information

Teaching Area (new)
IT&C

Course Number
366

Teaching Area
CYBER

Course Title
Defensive Cybersecurity

Course Description
Defensive security with the knowledge and tools to safeguard critical information. Security best practices, risk management, incident response, and critical defensive technology.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ALL of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- CYBER 344 - Operating Systems
  AND CYBER 247 - Networks and Security

AND

Prerequisites

Complete ALL of the following Courses:

- WRTG 312 - Persuasive Writing
  OR WRTG 316 - Technical Communication

Learning Outcomes

Title
Incident Response

Tags
181024, 1

Learning Outcome
Explain the incident response process to effectively identify, mitigate, and recover from security incidents.

Title
Governance Policies

Tags
181138, 4

Learning Outcome
Analyze how security policies are implemented on systems to protect a network with an awareness of laws, regulatory standards, and best practices.

Title
Security Plan

Tags
181141, 3

Learning Outcome
Use risk assessment methods to create a security plan that addresses both technical and non-technical countermeasures for a management audience.

Title
Risk Management

Tags
181184, 2

Learning Outcome
Describe how risk relates to a system security policy and evaluate and categorize risk with respect to technology, people, and processes.

Title
Secure Network Environments

Tags
181212, 0

Learning Outcome
Configure and maintain secure network environments, including encryption, firewalls, intrusion detection systems, and virtual private networks (VPNs).

Title
Organizational Implications

Tags
181632, 5

Learning Outcome
Explain the benefits, limitations, and usability impact that network environments have an organization.

Title
Network Cyber Defense

Learning Outcome
Describe cyber defense tools, methods, and components, and apply cyber defense methods to prepare a network system to repel attacks.

CYBER 391 - Junior Seminar

Course Information

Course Number
391

Teaching Area
CYBER

Course Title
Junior Seminar

Course Description
Cybersecurity careers, with an emphasis on penetration testing, industrial control systems, reverse engineering, encryption, leadership (e.g., CISO), law, and research.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Fixed/Max:
0.5

Lecture Hours

Fixed:
1

Learning Outcomes

Title
Professional Awareness and Self Reflection

Learning Outcome
Understand professional issues and job opportunities in the fields of IT and Cybersecurity and reflect on how they apply to oneself.

Title
Lifelong Learning

Learning Outcome
Seek and acquire knowledge to achieve academic, career, and personal success as a lifelong learner.

Title
Cybersecurity Focus Areas

Learning Outcome
Use correct terminology to describe cybersecurity focus areas including: penetration testing, industrial control systems, reverse engineering, encryption, leadership (e.g., CISO), law, and research.

CYBER 399R - Academic Internship: Cybersecurity

Course Information

Teaching Area (new)
IT&C

Course Number
399R

Teaching Area
CYBER

Course Title
Academic Internship: Cybersecurity

Course Description
Experience in industrial environment. Approved job function supervised by employer and Cybersecurity advisor. Formal technical report required.

Department
Electrical and Computer Engineering

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
3

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
0

Other Prerequisites
Approval from the instructor and college internship coordinator required

Note
Follow the Department Pre-Registration Instructions prior to Internship Application. An APPROVED Internship Application is required before adding.

CYBER 444 - System Administration

Course Information

Teaching Area (new)
IT&C

Course Number
444

Teaching Area
CYBER

Course Title
System Administration

Course Description
Systems and network administration. User management. Server and workstation deployment and maintenance. Network Security. Infrastructure. Systems and infrastructure support. Cross-platform systems integration. Update and patch management.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
2

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:
- CYBER 366 - Defensive Cybersecurity

Learning Outcomes

Title
Tasks

Tags
209968, 0, 1

Learning Outcome
Describe the types of computing tasks managed by Systems Administrators.

Title
Skills

Tags
209969, 0, 2

Learning Outcome
Demonstrate the ability to complete technical tasks in a small team environment by working with a team of peers to accomplish goals which are too large for a single team member to accomplish in a reasonable time.

Title
Multi-server Windows System

Tags
209971, 0, 4

Learning Outcome
Demonstrate the responsibilities required to administer a multi-server Microsoft Windows system by deploying an integrated system of servers.

Title
Multi-server Linux System

Tags
209972, 0, 5

Learning Outcome
Demonstrate the responsibilities required to administer a multi-server Linux system by deploying an integrated system of servers.

Title
Networking

Tags
209973, 0, 6

Learning Outcome
Demonstrate inter-server integration of network services such as DNS, SMTP, HTTP.

Title
Technologies

Tags
209974, 0, 7

Learning Outcome
Explain the history and future of computer systems technologies such as operating systems, networking, virtualization, scripting.

Title
Systems

Tags
209970, 0, 3

Learning Outcome
Explain the differences between workstations and servers, as well as the administrative differences between small, medium and large systems of computers.

Title
Tools

Tags
209975, 0, 8

Learning Outcome
Demonstrate the ability to find software tools to solve administrative issues.

Title
Communications

Tags
209976, 0, 9

Learning Outcome
Demonstrate professional communication skills by explaining new tools to a technical audience.

CYBER 466 - Digital Forensics

Course Information

Teaching Area (new)
IT&C

Course Number
466

Teaching Area
CYBER

Course Title
Digital Forensics

Course Description
Fundamentals of digital forensics, evidence acquisition, incident investigation techniques and tools, analysis of real-world scenarios involving criminal activity, terrorism, and insider threats.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Completion Requirement

Complete ANY of the following Courses:

- C S 465 - Computer Security
  OR IS 414 - Information Systems Security and Controls
  OR CYBER 344 - Operating Systems

Learning Outcomes

Title
Evidence Acquisition

Tags
181164, 0, 0, 2023-08-26 08:35:19

Learning Outcome
Acquire, analyze, and interpret digital evidence in a forensically sound manner

Title
Initial Triage

Tags
181039, 0, 1, 2023-08-26 08:35:19

Learning Outcome
Analyze initial evidence properties to determine appropriate analysis techniques and toolsets to apply

Title
Forensic analysis

Tags
181280, 0, 2, 2023-08-26 08:35:19

Learning Outcome
Examine operating system and application artifacts for forensic value

Title
Facilitate stakeholder understanding

Tags
181075, 0, 4, 2023-08-26 08:35:19

Learning Outcome
Create a timeline of system events and communicate findings to various stakeholders

CYBER 467 - Cybersecurity and Penetration Testing

Course Information

Teaching Area (new)
IT&C

Course Number
467

Teaching Area
CYBER

Course Title
Cybersecurity and Penetration Testing

Course Description
Advanced computer systems security. Vulnerabilities and exploits. System and network attacks. Ethical hacking and penetration testing. Cyber security, cyber weapons, and advanced persistent threats. Legal and regulatory requirements for security and privacy.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Completion Requirement

Complete ANY of the following Courses:
- CYBER 366 - Defensive Cybersecurity
  OR C S 465 - Computer Security
  OR IS 414 - Information Systems Security and Controls

Other Prerequisites
Or permission of instructor.

Learning Outcomes

Title
Cybersecurity Assessments

Tags
181183, 0, 0, 2023-08-26 08:34:16

Learning Outcome
Plan and conduct cybersecurity assessments, including penetration tests and risk evaluations, using standard methodologies.

Title
Legal and Ethical Behavior

Tags
181160, 0, 1, 2023-08-26 08:34:16

Learning Outcome
Apply legal and ethical principles while adopting an attacker's perspective to identify and exploit system vulnerabilities responsibly.

Title
Tools and techniques

Tags
181044, 0, 2, 2023-08-26 08:34:16

Learning Outcome
Select and use appropriate tools to perform reconnaissance, scanning, exploitation, and post-exploitation tasks. Analyze and interpret results to guide next steps and achieve assessment objectives.

Title
Communicate results and remediation

Tags
181210, 0, 3, 2023-08-26 08:34:16

Learning Outcome
Create professional reports and presentations that clearly communicate technical findings, risks, and recommendations to both technical and non-technical audiences.

Title
Teamwork and Project Management

Learning Outcome
Collaborate effectively in a team to plan, execute, and present a cybersecurity project.

Title
Character Development

Learning Outcome
Foster growth by reflecting on curiosity, persistence, and effective communication.

CYBER 492R - Special Problems in Cybersecurity

Course Information

Teaching Area (new)
IT&C

Course Number
492R

Teaching Area
CYBER

Course Title
Special Problems in Cybersecurity

Course Description
Individual study and project work related to a current topic in cybersecurity.

Department
Electrical and Computer Engineering

When Taught
Fall, Winter, Spring

Credit Hours

Min:
1

Fixed/Max:
3

Other Prerequisites
Instructor's consent.

CYBER 495R - Global Engineering Outreach Projects

Course Information

Teaching Area (new)
IT&C

Course Number
495R

Teaching Area
CYBER

Course Title
Global Engineering Outreach Projects

Course Description
Humanitarian-based engineering and technology project development involving multi-disciplinary teams.

Department
Electrical and Computer Engineering

When Taught
Fall and Winter

Credit Hours

Min:
0.5

Fixed/Max:
3

Other Prerequisites
Engineering or technology major enrolled in upper-division major courses; instructor's consent.

CYBER 515R - Special Topics in Cybersecurity

Course Information

Teaching Area (new)
IT&C

Course Number
515R

Teaching Area
CYBER

Course Title
Special Topics in Cybersecurity

Course Description
New topics in cybersecurity for graduate and qualified undergraduate students. Standard lecture and lab format.

Department
Electrical and Computer Engineering

When Taught
Fall and Winter

Credit Hours

Min:
1

Fixed/Max:
3

CYBER 529 - Advanced Networking

Course Information

Teaching Area (new)
IT&C

Course Number
529

Teaching Area
CYBER

Course Title
Advanced Networking

Course Description
Analyzing, selecting, configuring, monitoring, and managing of computer network equipment. SNMP-based monitoring and control in process of fault isolation and root cause analysis.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Other Prerequisites
IT 344, 347; or equivalents

Learning Outcomes

Title
Network Protocols

Learning Outcome
Demonstrate a deep understanding of network protocols through critical analysis to better provision and secure network services

Title
Network Architecture and Emerging Technologies

Learning Outcome
Utilize appropriate resources to internalize and articulate network architectures, emerging technologies, and network mechanisms and apply this knowledge to address current network and security challenges.

Title
Design, Implement, & Secure Networks

Learning Outcome
Design, develop, and implement network features by applying best practices in network security and utilizing appropriate tools and technologies.

Title
Continuous Improvement

Learning Outcome
Identify areas of growth and make plans for continuous improvement along the areas of collaboration, spiritual growth, critical thinking, and problem solving

CYBER 530 - Scientific Computing

Course Information

Teaching Area (new)
IT&C

Course Number
530

Teaching Area
CYBER

Course Title
Scientific Computing

Course Description
Applying principles and practices of scientific computing technologies. Workflow optimization, shell\ncommands, job scheduling, parallel and distributed programming.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
2

Recommended
Must know how to program in at least one language, including knowing\nhow to write conditionals, loops, and functions. Preferred C++

Learning Outcomes

Title
Parallel Computing

Tags
213290, 0, 1, 2023-08-26 08:36:36

Learning Outcome
Understand and implement parallel computing practices including threading, multi-processing, mutual exclusion, and avoiding race conditions.

Title
Distributed Computing

Tags
213291, 0, 2, 2023-08-26 08:36:36

Learning Outcome
Utilize networked computers to solve problems using techniques such as workflow decomposition, job scheduling, and message passing.

Title
Technical Concepts and Practices

Tags
213292, 0, 3, 2023-08-26 08:36:36

Learning Outcome
Define and apply supporting concepts and tools such as Bash, version control, build systems, basic computer architecture and storage management at scale.

Title
Effective Communication

Tags
213293, 0, 4, 2023-08-26 08:36:36

Learning Outcome
Illustrate through written reports and verbal presentation the impact of computing on scientific research.

CYBER 548 - Cyber-Physical Systems

Course Information

Teaching Area (new)
IT&C

Course Number
548

Teaching Area
CYBER

Course Title
Cyber-Physical Systems

Course Description
Integration of technologies to design, develop, and secure computing systems that interact with the real world, including sensors, actuators, communication protocols, user experience, and microcontrollers. Security analysis of Industrial Control Systems (ICS) and Internet of Things (IoT) systems.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
2

Other Prerequisites
Instructor's consent.

Learning Outcomes

Title
Industrial Control System Security

Tags
210497, 0, 1

Learning Outcome
Understand and explain the role of industrial control systems (e.g., SCADA systems) in industry and identify unique cybersecurity risks associated with them.

Title
Cyber-Physical System Architectures

Tags
181236, 0, 1, 2023-08-26 08:35:55

Learning Outcome
Understand and explain cyber-physical system component architectures including sensors, actuators, Internet of Things communication protocols, security, user experience, microservices, and cloud.

Title
Industrial Control System Security

Tags
181259, 0, 4, 2023-08-26 08:35:55

Learning Outcome
Explain how the fields of Information Technology (IT) and Mechatronics interact.

Title
Understand Interdisciplinary Nature of Cyber-Physical Systems

Tags
213289, 0, 9, 2023-08-26 08:35:55

Learning Outcome
Explain how the fields of Information Technology, Electrical & Computer Engineering, Mechanical Engineering, and Cybersecurity relate to cyber-physical systems.

Title
Design and Build Cyber-Physical Systems

Tags
181285, 0, 6, 2023-08-26 08:35:55

Learning Outcome
Design and build cyber-physical systems with heterogenous component technologies including sensors, actuators, interface electronics, web technologies, communication prototocols, cloud, and embedded computing components (e.g., microcontrollers).

Title
Cyber-Physical System Security

Tags
181263, 0, 8, 2023-08-26 08:35:55

Learning Outcome
Evaluate the security of cyber-physical systems according to industry recognized security frameworks and present findings and recommendations.

CYBER 555 - Usable & Secure Design

Course Information

Teaching Area (new)
IT&C

Course Number
555

Teaching Area
CYBER

Course Title
Usable & Secure Design

Course Description
Research and advanced techniques for designing, prototyping, building, and evaluating secure socio-technical user experiences. Human-computer interaction research theories, methods, and frameworks to explore privacy and security by design.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
2

Recommended
User Experience Design experience

Learning Outcomes

Title
Human Computer Interaction Theory

Tags
181558, 2

Learning Outcome
Explain the role of theory in HCI, privacy, and cybersecurity and its impact on socio-technical systems design

Title
Interfacing Techniques

Tags
181559, 3

Learning Outcome
Create, extend, and evaluate advanced human-computer interfacing techniques

Title
Research Proposal

Tags
181560, 4

Learning Outcome
Design and write a research proposal

Title
Human Subjects Research

Tags
181561, 5

Learning Outcome
Apply ethical practices when working with human research participants

Title
Prototyping

Tags
181562, 6

Learning Outcome
Apply user-centered design techniques to create a prototype based on usable and secure design principles and theories

Title
Secure Design

Tags
181563, 7

Learning Outcome
Implement cybersecurity strategies, tactics, and techniques related to the design of an HCI system

Title
Academic Writing

Learning Outcome
Write and submit a peer reviewed research product (e.g., extended abstract, poster, conference paper)

CYBER 562 - Cloud Architecture & Security

Course Information

Course Number
562

Teaching Area
CYBER

Course Title
Cloud Architecture & Security

Course Description
Fundamentals of building and securing IT infrastructure in the cloud. Covers architectural and security design patterns, infrastructure as code, optimization, reliability, and pricing, in a variety of contexts.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
2

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CYBER 350 - Database Principles and Applications
  AND CYBER 366 - Defensive Cybersecurity

Other Prerequisites
Or permission of instructor

Learning Outcomes

Title
Cloud Terminology

Learning Outcome
Describe cloud terminology and related architectural design patterns, reliability, infrastructure as code, and security.

Title
Implement Secure Architectural Design Patterns

Learning Outcome
Implement appropriate design patterns and architectural options for a variety of use cases.

Title
Improve Performance

Learning Outcome
Select compute, storage, database, and networking resources to improve performance.

Title
Performance Metrics

Learning Outcome
Develop and evaluate the most important performance metrics for a given application.

Title
Cost and Resource Management

Learning Outcome
Follow best practices to minimize costs and suboptimal resource usage.

Title
Secure Data

Learning Outcome
Secure data at every layer of a cloud application.

CYBER 585 - Encryption Implementation

Course Information

Course Number
585

Teaching Area
CYBER

Course Title
Encryption Implementation

Course Description
Encryption as a means for protecting data. How to implement encryption to accomplish security objectives. Selection of appropriate algorithms and protocols. Legal and regulatory requirements related to encryption.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Recommended
Graduate status or sufficient cybersecurity experience from a course such as IT&C 366, IS 414, CS 465, or MATH 485.

Learning Outcomes

Title
Encryption Application

Tags
213285, 0, 1, 2023-08-26 08:35:03

Learning Outcome
Explain the purpose of encryption, including common security problems that encryption can solve and those security problems that are not appropriate for encryption.

Title
Encryption Key Management

Tags
213286, 0, 2, 2023-08-26 08:35:03

Learning Outcome
Explain the importance of encryption key management in the security of the encryption implementation. Describe each phase of a key's life and the security concerns for each.

Title
Implementation

Tags
213287, 0, 3, 2023-08-26 08:35:03

Learning Outcome
Implement common industry encryption systems in controlled environments.

Title
Standards

Tags
213288, 0, 4, 2023-08-26 08:35:03

Learning Outcome
Explain applicable industry standards and regulations governing implementation of encryption.

CYBER 592R - Government Cybersecurity Preparation

Course Information

Course Number
592R

Teaching Area
CYBER

Course Title
Government Cybersecurity Preparation

Course Description
Professional seminar for CyberCorps Scholarship for Service and DOD Cyber Service Academy scholarship recipients

Department
Electrical and Computer Engineering

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
0.5

Lecture Hours

Fixed:
0.5

Learning Outcomes

Title
Gov. Cybersecurity Resume

Learning Outcome
Develop and maintain government cybersecurity resume

Title
Scholarship Recipient Community

Learning Outcome
Make contributions that will build the community of gov. cybersecurity scholarship recipients

Title
Professional Preparation

Learning Outcome
Develop professional and leadership skills by participating and presenting in research, club, and professional development activities

CZECH 100 - Language Study: Czech

Course Information

Teaching Area (new)
CZECH

Complete ALL of the following Courses:

- CZECH 102 - First-Year Czech

Note
Teacher may waive prerequisite based on prior experience.

Learning Outcomes

Title
Vocabulary

Tags
193322, 2

Learning Outcome
Broaden vocabulary for both reception (listening and reading comprehension) and production (speaking and writing).

Title
Elaboration

Tags
193330, 1

Learning Outcome
Create structurally-accurate, elaborated utterances and begin to group utterances into paragraphs and narratives. Do this in present, past and future time.

Title
Grammar

Tags
193339, 3

Learning Outcome
Review and increase understanding of basic language structures.

Title
Culture

Tags
193348, 4

Learning Outcome
Discuss in the target language common products and practices related to every-day life in the target culture.

CZECH 211R - Second-Year Conversation

DANCE

Course Number
164

Teaching Area
DANCE

Course Title
Music for Movement

Course Description
Theory and technique to increase knowledge and skills in accompanying dance; including understanding of musicality through movement and how music supports movement experiences.

Department
Dance

When Taught
Winter

Credit Hours

Min:
0.5

Fixed/Max:
1

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
2

Learning Outcomes

Title
Movement and Music

Tags
186785, 1

Learning Outcome
Students will analyze the shared characteristics of movement and music by creating and discussing movement phrases.

Title
Movement Disciplines

Tags
186860, 2

Learning Outcome
Students will evaluate the appropriateness of particular movement disciplines for solving real physical and musical problems.

Title
Kinesthetic Awareness

Tags
186872, 0

Learning Outcome
Students will understand the connection between music and dance by practicing and integrating kinesthetic awareness with musicality.

Title
Musical Awareness

Tags
186893, 3

Learning Outcome
Students will increase musical awareness by choreographing and performing a solo to varied musical styles.

  OR CELL 220 - Human Anatomy (with lab)

Learning Outcomes

Title
Spiritually Strengthening

Tags
213547, 0, 1, 2023-08-29 08:32:18

Learning Outcome
You will explore gospel-centered principles of health and discipline, applying them to injury prevention and conditioning practices in order to cultivate greater gratitude for your body as a divine gift.

Title
Intellectually Enlarging

Tags
213548, 0, 2, 2023-08-29 08:32:20

Learning Outcome
You will gain knowledge of training, conditioning, nutrition, and mental health principles and apply evidence-based strategies to optimize physical performance and reduce risk of injury.

Title
Character Building

Tags
213549, 0, 3, 2023-08-29 08:32:21

Learning Outcome
You will develop resilience, humility, and discipline through consistent participation in conditioning exercises, practicing safe habits and personal accountability that foster integrity and self-mastery as an artist-athlete.

Title
Holistic Integration

Learning Outcome
You will strengthen the connection of body, mind, and spirit by integrating physical aptitude, mindfulness, and spiritual practices to thrive as a balanced and flourishing dancer and disciple of Christ.

Title
Lifelong Learning & Service

Learning Outcome
You will design and engage in conditioning practices that promote sustainable health and injury prevention, preparing you to thrive as a lifelong mover, dance professional, and contributor to your community's well-being.

Learning Outcomes

Title
Artistic Expression

Tags
186614, 0, 3

Learning Outcome
Students will demonstrate personal expression through movement improvisation focusing on the following skills:

Immediacy
Spotaneity
Instincts
Rhythm
Musical connection

Title
Appreciation of Dance

Tags
186615, 0, 4

Learning Outcome
Students will articulate an appreciation of dance as an art form, an understanding of various Jazz Dance Styles, and a familiarity with accurate Jazz Dance History.

Title
Technical Ability

Tags
186612, 0, 1

Learning Outcome
Students will acquire intermediate level jazz dance skills including:

alignment
strength
flexibility
endurance
balance
coordination
body shaping
body connectivity
phrasing
performance skills
seqence rentention

DANCE 233 - Aerial Dance Technique

Course Information

Course Number
233

Teaching Area
DANCE

Course Title
Aerial Dance Technique

Course Description
A hybrid dance form, where movement training, strength, and
athletic awareness come together to allow students to create their own Aerial Dance Act.
Apparatuses available to explore include Hoop (Lyra), Corde Lisse (Rope), Straps, and
Silks. Time and focus of class is divided evenly between composition, conditioning and
new skill development, students are encouraged to transfer a broad range of previous
movement knowledge to this vertical art form. The course culminates in an informal
showing to a campus wide audience.

Department
Dance

When Taught
Fall Contact Dept.; Winter.

Credit Hours

Fixed/Max:
1

Lab Hours

Fixed:

Audition Required

Learning Outcomes

Title
Technique Development

Tags
213550, 0, 1, 2023-08-29 08:32:27

Learning Outcome
Students will develop strength, flexibility, connectivity, air awareness/body shaping

Title
Aerial Awareness and Control

Tags
213551, 0, 2, 2023-08-29 08:32:28

Learning Outcome
Students will develop beginning skills with the following Aerial Apparatus: Lyra (Hoop), Spanish Web, Aerial Straps, Butterfly Lift, Basic Handstand training moving into Basic Tumbling – Dive Rolls, Cartwheels, etc.

Title
Skill and Performance Assessment and Writing

Tags
213552, 0, 3, 2023-08-29 08:32:30

Learning Outcome
Students will describe, assess and write about achievement of aerial technical skills and how it relates to their technique as a dancer.

Title
Gospel Principles and the Human Body

Tags
213553, 0, 4, 2023-08-29 08:32:31

Learning Outcome
Students will articulate appreciation for the divine nature of the human body as it relates to gospel principles as well as the relationship between mind/body/spirit.

DANCE 234R - Pilates

Course Information

Course Number
234R

Teaching Area
DANCE

Course Title
Pilates

Course Description
This class will challenge the intermediate through advanced dancer with exercises from the Pilates repertoire that focus on core strength, joint range of motion, coordination, proper alignment, balance, stability, and overall improved mind-body connection.

Department
Dance

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:

Learning Outcomes

Title
Connecting Elements of Dance Choreography to Divine Creativity

Tags
187142, 1

Learning Outcome
Students will be able to express verbally and in written form the fundamental elements of dance composition and how they connect to the divine pattern of creation.

Title
Leadership and Rehearsal Management

Tags
187143, 2

Learning Outcome
Students will demonstrate Christlike leadership abilities such as humility, patience, charity, persistence and diligence as they manage rehearsals and collaborate on projects.

Title
Expanded Movement Vocabulary

Tags
187144, 3

Learning Outcome
Students will be able to create original and personally meaningful movement, avoiding habit or cliche. They will see the connection between their personal voice and their ability to serve and elevate others through sharing their point of view.

Title
Analysis and Appreciation

Tags
187145, 4

Learning Outcome
Students will express an appreciation for and ability to critically analyze varied forms of improvisation and choreography. This refined analytical eye will help them create work that more articulately conveys meaning.

Title
Lifelong Learning

Learning Outcome
Students will demonstrate curiosity in creative processes, a love of learning, and an increased appreciation for the soul as a fusion of body and spirit.

Teaching Area (new)
DANCE

Course Number
260

Teaching Area
DANCE

Course Title
Introduction to Dance

Course Description
Critical analysis of dance as a cultural and expressive art form, studied through lecture, reading, research, multimedia presentations, and practical movement experiences.

Department
Dance

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
No previous dance experience required.

Learning Outcomes

Title
Contextualization

Learning Outcome
Students will be able to: 1. Analyze dance as a cultural, historical, and spiritual practice by communicating-through diverse forms-how cultural, philosophical, and sociopolitical contexts shape and differentiate dance, fostering intellectual curiosity, empathy, and respect for diverse human experience.

Title
Interpretation

Learning Outcome
2. Interpret and critique dance works with aesthetic and choreographic insight, using appropriate vocabulary and critical frameworks while exercising humility, discernment, and respect for the creative voice and intent of others.

Title
Embodied and Creative Practice

Learning Outcome
3. Exhibit embodied versatility, artistic agency, and collaborative professionalism by creating original dance works that demonstrate technical skill, creative voice, and a commitment to disciplined practice, shared responsibility, and meaningful artistic contribution.

Title
Critical Analysis

Learning Outcome
4. Produce informed scholarly and critical writing that integrates research, contextual analysis, and reflective engagement with performance, strengthening the ability to think clearly, communicate truthfully, and connect artistic experience to broader questions of meaning and purpose.

Title
Personal Engagment

Learning Outcome
Engage dance as a means of personal and communal expression that cultivates self-awareness, empathy, and a sense of purpose, preparing students to contribute thoughtfully to artistic, cultural, and human communities.

Other Prerequisites
Music dance theatre BFA major status; concurrent enrollment in MUSIC 328 and TMA 328.

Recommended
Concurrent enrollment in Music 300 and TMA 300

Learning Outcomes

Title
Professional Conduct

Tags
187679, 5

Learning Outcome
Students will approach their work in a competent, courteous and professional manner.

Title
Performance Analysis and Integration

Tags
187932, 0, 3

Learning Outcome
Students will integrate their analysis of the script, score and movement into their performance.

Title
Performance Improvement

Tags
187783, 0, 2

Learning Outcome
Students will demonstrate in their class performances essential musical theatre skills in acting, movement and voice production.

DANCE 331R - Jazz Dance Technique 2

Course Information

Teaching Area (new)
DANCE

Course Number
331R

Teaching Area
DANCE

Course Title
Jazz Dance Technique 2

Course Description
Advanced jazz dance technique.

Department
Dance

When Taught
Fall and Winter

Credit Hours

Min:
1.5

Fixed/Max:
1.5

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
4.5

Other Prerequisites
Dance 231 or equivalent. Dance 241R and Dance 243; or Dance 291R.

Learning Outcomes

Title
Artistic Expression

Tags
186881, 0, 7

Learning Outcome
Students will demonstrate personal expression through movement improvisation focusing on the following skills:

Immediacy
Spontaneity
Instincts
Rhythm
Musical connection
Meditation/stillness
Limitations

Title
Appreciation of Dance

Tags
186992, 0, 14

Learning Outcome
Students will articulate their personal voice through movement, an appreciation of dance as an art form, and an understanding of various Jazz Dance Styles.

Title
Technical Ability

Tags
186974, 0, 1

Learning Outcome
Students will acquire intermediate/advanced level jazz dance skills and mechanics including:

alignment
strength
flexibility
endurance
balance
coordination
body shaping
body connectivity
phrasing
performance skills
musicality
appropriate styling
sequence retention and nuance

DANCE 335R - Tap Dance Technique 2

Course Information

DANCE

Course Number
335R

Teaching Area
DANCE

Course Title
Tap Dance Technique 2

Course Description
Advanced tap dance technique.

Department
Dance

When Taught
Fall and Winter

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
3

Other Prerequisites
Dance 235 or equivalent.

Learning Outcomes

Title
Technical Skill and Artistry

Tags
212814, 0, 1

Learning Outcome
a. perform advanced-level tap dance technique including foot articulation, coordinated movement patterns, rhythmic awareness, while applying performance skills and an emerging personal style through improvisation and choreography

Title
Movement Vocabulary

Tags
212815, 0, 2

Learning Outcome
b. employ fluency in tap vocabulary and notation

Title
Theory and composition

Tags
212818, 0, 5

Learning Outcome
d. demonstrate understanding of the theory and processes of composition and improvisation

Title
History and Current trends

Tags
212816, 0, 3

Learning Outcome
b. Identify pivotal figures in tap dance history and current trends in tap

Title
Cultural Appreciation

Tags
212817, 0, 4

Learning Outcome
e. cultivate Christlike character and empathy through analysis of tap dance history's complex cultural facets, understanding how this fosters respect for others in building diverse communities.

Title
Cultivating Respect and Courtesy for Different Viewpoints

Tags
187101, 1

Learning Outcome
Students will build character by cultivating a respect for differing points of view, and applying courtesy during the individual expression sessions. The course content will encourage independent thinking and individual responsibility.

Title
Analysis of Spiritual Connections

Tags
186682, 1

Learning Outcome
Students will analyze spiritual connections between gospel principles and aesthetic concepts. This includes :
• Open expression of reverence for the Creator, His Creations, and the act of creativity.
• Compatible choices in the dance profession with the Latter-day Saint standards and culture.

Title
Exploration Intellectual Reasoning in Dance

Tags
186683, 2

Learning Outcome
Students will explore intellectual reasoning in the field of dance aesthetics including:

Discovery of important aesthetic and ethical issues with clear analytical critical thinking.
Risk-taking, connecting, and synthesizing personal meaning from complex ambiguities.
Develop an aesthetic philosophy, and ability to advocate and defend it.

Title
Cultivating Respect and Courtesy for Different Viewpoints

Tags
186684, 3

Learning Outcome
Students will build character by cultivating a respect for differing points of view, and applying courtesy during the individual expression sessions. The course content will encourage independent thinking and individual responsibility.

Title
Engage in Discussion and Writing about Dance

Tags
186685, 4

Learning Outcome
Students will voice value for Lifelong Learning as they articulate a love for and engage in discussion and writing about dance. Students will be encouraged to share their passion for dance in a way that is lucid, succinct, and compelling.

Title
Articulate Value of Dance

Tags
186686, 5

Learning Outcome
Students will be challenged to articulate the value of dance in a manner that is founded on gospel principles and moral ideals, rather than on mere emotional declarations.

Title
Knowledge

Tags
187099, 1

Learning Outcome
Students will deepen their understanding of how dance and health issues are related.

Title
Knowledge

Tags
187100, 1

Learning Outcome
Students will deepen their understanding of how dance and identity are related.

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DANCE 244R - Beginning Creative Processes

Learning Outcomes

Title
Dance Composition Fundamentals

Tags
187076, 1

Learning Outcome
1. Students will learn technical elements, process and crafting principles of composition, such as: transitions, traditional formations, dynamic structure, stylistic coherence, form, musical dynamics and phrasing.

Title
Aesthetic Criteria and Analysis

Tags
187077, 2

Learning Outcome
2. Students will develop a critical eye in analyzing and forming own aesthetic criteria.

Title
Ethno-Choreographic Elements

Tags
187078, 3

Learning Outcome
3. Students will discover ethno-choreographic elements of a particular style or cultural group.

Title
Issues in Dance Composition

Tags
187079, 4

Learning Outcome
4. Students will address issues of authenticity versus creativity, traditional versus contemporary.

Title
Choreography Documentation

Tags
187080, 5

Learning Outcome
5. Students will learn to document choreography.

DANCE 363R - Dance Improvisation, Intermediate

Course Information

Teaching Area (new)
DANCE

Course Number
363R

Teaching Area
DANCE

Course Title
Dance Improvisation, Intermediate

Course Description
Intermediate improvisational skills focused on impromptu creative problem solving and movement exploration.

Department
Dance

When Taught
Fall and Winter

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
0

Lab Hours

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DANCE 244R - Beginning Creative Processes

Learning Outcomes

Title
Evolving Movement

Tags
186745, 5

Learning Outcome
Students will learn to evolve movement over an extended period of time without losing spontaneity.

Title
Movement and Exploration

Tags
186764, 1

Learning Outcome
Students will learn to Move! To Explore!

Title
Suspending Judgement

Tags
186812, 4

Learning Outcome
Students will learn to learn how to suspend judgment.

Title
Breaking Comfortable or Limiting Movement Patterns

Tags
186821, 1

Learning Outcome
Students will learn to break comfortable and limiting movement patterns, dancing in ways that you have not moved before.

Title
Form and Definition in Movement

Tags
186825, 8

Learning Outcome
Students will learn to evolve movement "in the moment" with a sense of form and definition (beginning, middle, end) thus "finding the dance" in the instant of exploration and improvisation.

Title
Improvisation and Muscle Readiness

Tags
186868, 3

Learning Outcome
Students will learn to develop improvisational skills of "muscle readiness".

Title
Recalling Movement

Tags
186884, 6

Learning Outcome
Students will learn to practice recalling movement.

Title
Spontaneity

Tags
186889, 2

Learning Outcome
Students will learn to "call up spontaneity at will".

Title
Improvisational Structures

Tags
186972, 7

Learning Outcome
Students will learn to practice relating to other dancers in various improvisational structures.

DANCE 364 - Contemporary Partnering

Dance 243R, 244R, or approved Kinnect membership

Learning Outcomes

Title
Dance Education Theory, Content, and Pedagogy

Tags
186762, 5

Learning Outcome
1. Demonstrate an understanding of creative dance education theory, content, and pedagogy that supports artistic development and process-oriented learning.

Title
Developmentally Appropriate Dance

Tags
186792, 2

Learning Outcome
2. Design and implement developmentally appropriate dance instruction for children in preschool through eighth grade, using research-based practices and national/state standards.

Title
Lesson Objectives and Curriculum Standards

Tags
186839, 1

Learning Outcome
3. Communicate and apply knowledge of dance elements, concepts, and vocabulary through physical practice, discussion, and written work in the context of teaching.

Title
Teaching Strategies and Management Techniques

Tags
186844, 0

Learning Outcome
4. Use a variety of instructional strategies, classroom management techniques, and assessment methods to support student learning, creativity, and skill development in dance.

Title
Spiritually Strengthening

Tags
186915, 4

Learning Outcome
5. Develop and demonstrate pedagogical practices grounded in Christlike attributes by cultivating a learning environment characterized by love and respect for all students.

Learning Outcomes

Title
Process-Oriented Instruction

Tags
186800, 8

Learning Outcome
5. facilitate artistic development through process-oriented instruction.

Title
Learning Content and Processes

Tags
186837, 2

Learning Outcome
2. demonstrate a conceptual understanding of the content and processes needed to facilitate learning in the field of Contemporary Dance.

Title
Planning, Teaching, and Evaluation Experience

Tags
186892, 4

Learning Outcome
3. demonstrate teaching competency through experiences in planning, teaching and evaluating lessons.

Title
Teaching and Learning Philosophy in Contemporary Dance

Tags
187018, 1

Learning Outcome
1. develop, articulate and demonstrate a clear philosophy of teaching and learning as it relates to Contemporary Dance.

Title
Teaching Strategies

Tags
187031, 6

Learning Outcome
4. demonstrate an ability to use a variety of teaching strategies to produce new knowledge and skills in others.

DANCE 367 - Methods of Teaching Children's Creative Dance

Other Prerequisites
Audition. Concurrent enrollment in a contemporary modern technique course such as Dance 241R, Dance 243R, Dance 340R, Dance 341R, Dance 440R, or by instructor approval

Learning Outcomes

Title
Performance Skill and Artistry

Tags
187047, 1

Learning Outcome
Develop advanced performance skill and artistry.

Title
Choreography

Tags
187049, 6

Learning Outcome
Understand choreographic principles.

Title
Choreographic Process

Tags
187050, 9

Learning Outcome
Contribute to the choreographic process.

Title
Performance

Tags
187051, 12

Learning Outcome
Perform dances for audiences on campus, in schools, in professional venues, and at conferences.

Title
Testimony Strengthening

Tags
186861, 18

Learning Outcome
Strengthen their testimony of the gospel and deepen their desire to share light and truth through the art form of dance.

Title
Technical Ability

Tags
187048, 2

Learning Outcome
Show increased technical ability.

Title
Professional Conduct

Tags
187052, 15

Learning Outcome
Make visible attitudes of professional behavior.

DANCE 469 - Capstone in Dance

Learning Outcomes

Title
Point of Balance (Male)

Tags
186922, 0, 1

Learning Outcome
Students will be able to find their partner's point of balance on one and two leg(s).

Title
Promenades (Male)

Tags
186946, 0, 2

Learning Outcome
Students will be able to complete one full promenade with accuracy while maintaining their partner's point of balance.

Title
Pirouettes (Males)

Tags
186895, 0, 3

Learning Outcome
Students will be able to execute one full pirouette to the right and left, partnering at the waist.

Title
Aerial Partnering (Male)

Tags
186935, 0, 4

Learning Outcome
Students will perform aerial partnering to chest height with assistance from their partner.

Title
Artistry and Appreciation (Male)

Tags
186841, 0, 6

Learning Outcome
Students will demonstrate proper artistry by maintaining an appreciation for the partner's role in creating a union of movement.

Title
Partner Communication (Male)

Tags
186799, 0, 5

Learning Outcome
Students will communicate with their partner with respect, consideration, and candor both verbally and physically.

Title
Perform Pas de Duex (Male)

Tags
186805, 0, 7

Learning Outcome
Students will be able to correctly perform up to 3 classical pas de duex.

Title
Point of Balance (Female)

Tags
186980, 0, 8

Learning Outcome
Students will be able to correctly and consistently hold themselves with strength, posture, and form to assist their partners in finding their point of balance.

Title
Promenade (Female)

Tags
186957, 0, 9

Learning Outcome
Students will be able to complete one full promenade with accuracy while maintaining their strength, posture, and form.

Title
Pirouette (Female)

Tags
187011, 0, 10

Learning Outcome
Students will be able to execute one full pirouette to the right and left while maintaining their strength, posture, and form.

Title
Aerial Partnering (Female)

Tags
186822, 0, 11

Learning Outcome
Students will perform aerial partnering to chest height while maintaining strength, posture, and form.

Title

Students will be able to speak Danish well enough to satisfy immediate needs. (They will learn to communicate in basic social situations, meet routine travel needs, carry out simple transactions, and talk about a variety of topics of common interest in present, past, and future times.)

Title
Comprehension

Tags
190369, 0

Learning Outcome
Students will be able to comprehend Danish as they hear and read authentic language relating to familiar topics.

Title
Language Learning Strategies

Tags
190431, 3

Learning Outcome
Students will develop strategies to help them derive meaning from a wide variety of authentic language texts.

Title
Culture

Tags
190494, 4

Learning Outcome
Students will display appropriate awareness of everyday culture in Danish-speaking countries.

Title
Writing

Tags
190543, 2

Learning Outcome
Students will be able to write short messages and well-articulated sentences in Danish on familiar topics.

DANSH 201 - Second-Year Danish

Course Information

1.5

Other Prerequisites
Dansh 102 or equivalent experience

Learning Outcomes

Title
Comprehension

Tags
190253, 0

Learning Outcome
Students will be able to comprehend Danish as they hear and read authentic language relating to familiar topics with strategies to even derive meaning out of less familiar topics.

Title
Speaking and Writing

Tags
190266, 1

Learning Outcome
Students will be able to speak and write Danish well enough to satisfy immediate needs. (Students will learn to communicate in social situations asking and answering questions, carrying out transactions, and talking about a variety of topics of common interest in present, past, and future times.)

Title
Conversation

Tags
190367, 2

Learning Outcome
Students will be able to participate actively in conversations about Danish-speaking countries, concrete topics, and current events.

Title
Opinions

Tags
190508, 3

Learning Outcome
Students will be able to begin expressing and supporting opinions about familiar topics.

DANSH 202 - Second Year Danish

Course Information

Teaching Area (new)
DANSH

Course Number
202

Teaching Area
DANSH

Course Title
Second Year Danish

Course Description
Emphasis on literature and culture with continued writing, grammar, listening, and speaking. Includes International Cinema.

Department
Language Studies

When Taught
Winter Even Years

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
5

Lab Hours

Fixed:

Note
Culminating course for GE Foreign Language requirement (except for returned missionaries or those with equivalent experience).

Learning Outcomes

Title
Danish Culture

Tags
190358, 3

Learning Outcome
Students will broaden and deepen their perception and appreciation of Danish culture.

Title
Comprehension

Tags
190382, 1

Learning Outcome
Students will be able to comprehend Danish as they hear and read authentic language relating to familiar and less familiar topics.

Title
Literature and Cultural History

Tags
190594, 0

Learning Outcome
Students will be able to identify and define key characteristics of the important moments in Danish cultural history and place significant works in a meaningful cultural and historical context using the basic tools of literary analysis.

Title
Speaking and Writing

Tags
190598, 2

Learning Outcome
Students will improve their reading and writing skills in Danish by beginning to communicate in connected and extended discourse, expressing and supporting opinion, and navigating less-familiar topics and situations.

Credit Hours

Min:
0.5

Fixed/Max:
5

Other Prerequisites
Dansh 102 or equivalent experience

Learning Outcomes

Title
Fluency

Tags
190227, 2

Learning Outcome
Students will be able to use an appropriate variety of vocabulary related to autobiographical and concrete topics.

Title
Description and Narration

Tags
190316, 0

Learning Outcome
Students will be able to describe and narrate in present, past and future times in the context of paragraph-level speech about autobiographical and concrete topics.

Title
Vocabulary

Tags
190435, 3

Learning Outcome
Students will speak in a way so as to be understood most of the time without difficulty by native speakers unaccustomed to dealing with non-native speakers.

Title
Opinions

Tags
190595, 1

Learning Outcome
Students will be able to speak about autobiographical and concrete topics, initiate and maintain conversations by asking and responding to questions, and cope with gaps in knowledge.

0

Other Prerequisites
Dansh 202 or equivalent experience.

Note
Required course for obtaining language credit by examination. This course replaces the former 321 course; students who have taken 321 may not take 330.

Learning Outcomes

Title
Critical Thinking

Tags
190611, 1

Learning Outcome
Students will demonstrate critical thinking skills through literary analysis, debate, dealing with unanticipated complications in conversation, forming and supporting opinions, and presenting on topics of general interest.

Title
Culture

Tags
190612, 2

Learning Outcome
Students will explain how common cultural products and practices relate to cultural perspectives. They will interact with cultural competence in familiar and some unfamiliar contexts.

Title
Reading and Listening

Tags
190613, 3

Learning Outcome
Students will demonstrate reading and listening comprehension of Advanced level texts such as narrative, descriptive, and explanatory texts. They will demonstrate a broad vocabulary regarding concrete, general interest topics such as education, work, government, and topics in the news.

Title
Writing and Speaking

Tags
190614, 4

Learning Outcome
Students will write and speak using cohesive paragraphs on topics of personal and general interest. Students will demonstrate control of frequently used structures and will write and speak with Advanced level accuracy.

Recommended
Dansh 321 or equivalent experience

Note
Culminating course for GE Foreign Language requirement.

Learning Outcomes

Title
Danish Culture

Tags
190029, 1

Learning Outcome
Students should understand key trends and works from Danish culture, recognize connections between these works, and be able to relate them to the development of contemporary Danish culture.

Title
Cultural Literacy

Tags
190030, 4

Learning Outcome
Students should relate the ideas and issues raised by the works we study in class to the students' own cultural moment as well as to their own experience with contemporary Danish culture.

Title
Lifelong learning

Tags
190031, 6

Learning Outcome
Students should better know how to understand, interpret, and thoughtfully reflect upon the literature and art encountered later in life.

Title
Analytic and Writing Skills

Tags
190280, 2

Learning Outcome
Students should be able to insightfully analyze important literary and artistic works from Danish cultural history and be able to communicate this analysis through articulate written and oral presentations in Danish. Students will also develop basic research skills.

Learning Outcomes

Title
Communication Skills

Tags
197355, 1

Learning Outcome
In both written and spoken target language, communicate with reasonable accuracy about real-world activities with well-educated members of the target-culture accustomed to dealing with non-native speakers.

Title
Comprehension

Tags
197358, 2

Learning Outcome
Understand every-day written and verbal instructions. Comprehend concrete details and global meaning of intermediate-level written and spoken passages related to familiar topics that native speakers encounter routinely in their daily life.

Title
Cultural Knowledge

Tags
197360, 3

Learning Outcome
Discuss in the target language cultural practices related to every-day life in the target culture. Acquire basic background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.).

Title
General Education Requirements

Tags

Lab Hours

Fixed:
0

Learning Outcomes

Title
Design Practice

Tags
187291, 1

Learning Outcome
Students will be able to understand the diverse methods employed in design thinking and establish a workable design thinking framework to use in their practices.

Title
Design Theory and Criticism

Tags
187292, 2

Learning Outcome
Students will be able to examine critical theories of design, systems thinking, and design methodologies.

Title
Design Thinking

Tags
187293, 3

Learning Outcome
Students will be able to demonstrate sound thinking, creative inquiry, and diverse modes of reasoning-visual, perceptual, conceptual, inductive, deductive, analytical, logical, critical, organizational, and creative-through discussion and writing.

Title
Creative Discovery

Tags
187294, 4

Learning Outcome
Students will be able to solve problems and address social concerns with innovative approaches to design and exploratory methodologies.

Title
Communication, Beliefs, and Ethics

Tags
187295, 5

Learning Outcome
Students will be able to recognize the role of the individual designer in delivering meaning through design thinking and discuss the central role of beliefs and ethics in visual communication through art and design.

DES 280 - Motion Concepts

Course Information

Teaching Area (new)
DES

Course Number
280

Teaching Area
DES

Course Title
Motion Concepts

Course Description
Studio course instructing students in the art of design and communication with motion and sound. Design principles, editing, and narrative concepts are employed to create short motion design projects.

Department
Design

When Taught
Fall, Winter, and Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Learning Outcomes

Title
Story and Mood

Tags
213576, 0, 1, 2023-08-29 08:36:18

Learning Outcome
Students will be able to create a story and mood with movement and animation using editing to control the story.

Title
Designing with Time, Space, and Sound

Tags
213577, 0, 2, 2023-08-29 08:36:19

Learning Outcome
Students will create projects that demonstrate understanding of time, 2D and 3D space, and sound.

Title
Motion Graphics Projects

Tags
213578, 0, 3, 2023-08-29 08:36:21

Learning Outcome
Students apply design principles and narrative techniques to animation and motion graphics projects using current professional standard tools.

Title
Written and Oral Communication

Tags
213579, 0, 4, 2023-08-29 08:36:22

Learning Outcome
Students will be able to effectively explain and defend their work using written and oral communication skills.

Teaching Area
DES

Course Title
Design Lecture Series

Course Description
Visiting lecture series exploring design practice through the lenses of various practicing professionals.

Department
Design

When Taught
Fall

Credit Hours

Min:
0.5

Fixed/Max:
0.5

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

Other Prerequisites
Design majors only or instructor permission.

Learning Outcomes

Title
Appreciate Diverse Creative Perspectives Through Professional Voices

Learning Outcome
Students will gain an appreciation for the global and interdisciplinary nature of design practice by engaging with visiting professionals - fostering empathy, respect for diversity, and openness to new ideas. Through these experiences, students will build a foundation for lifelong learning by exploring and understanding the evolution, current trends, and professional practices of various disciplines of contemporary design practice.

Title
Recognize the Influence of Faith and Values in a Professional Creative Life

Learning Outcome
Students will be exposed to examples of: (a) how personal and spiritual values can be integrated into, and guide creative processes, (b) the Moral and Ethical Dimensions of Design Practice, and (c) its potential for Social Impact.

Title
Engage in Personal Reflection, Laying the Foundation for Personal Vision and Creative Confidence

Learning Outcome
Through thoughtful analysis and personal reflection, students will begin to cultivate their own creative voice and design identity, reflecting on the intersection of personal inspiration, academic learning, and spiritual growth.

DES 340 - Graphics: Brand & Type

Course Information

DES 383 - Analog Motion

Course Information

Course Number
383

Teaching Area
DES

Course Title
Analog Motion

Course Description
Interdisciplinary course with a focus on stop motion animation. Illustration, photography, graphic design, animation, and hybrid majors will apply their existing skills towards the creation of short-form works using a multi-plane setup. The course is a balanced mix of theory and practice, with detailed instruction on montage, efficient storytelling, animation techniques, and the complete production pipeline. Students will complete projects for both commercial and entertainment applications. A playful, experimental approach is encouraged as students learn the foundational principles of motion design. This course has no prerequisites.

Department
Design

When Taught
Fall

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Other Prerequisites
Design BFA & BA majors only.

Learning Outcomes

Title
Time as Material

Tags
213584, 0, 1, 2023-08-29 08:36:30

Learning Outcome
Motion design is rooted in the belief that movement is a fundamental mode of meaning-making. As with composition, form, and color, you'll learn to use time as a primary expressive element.

Title
Stop Motion Methods

Tags
213585, 0, 2, 2023-08-29 08:36:32

Learning Outcome
You'll learn how principles such as easing, anticipation, and pose-to-pose translate to an analog process. You'll engage with all aspects of the stop-motion pipeline, from concept to final cut.

Title
Interdisciplinary Fluency

Tags
213586, 0, 3, 2023-08-29 08:36:34

Learning Outcome
You'll stretch beyond the boundaries of your major to acquire fundamental competency in adjacent disciplines. Instruction in lighting, image capture, character design and construction, rotoscoping, and other skills will be provided.

Title
Interdisciplinary Collaboration

Tags
213587, 0, 4, 2023-08-29 08:36:35

Learning Outcome
Students will work in interdisciplinary groups, building skills in collaboration and producing complex stop-motion works with more efficiency and creativity than can be done in isolation.

Title
Narrative Proficiency

Tags
213588, 0, 5, 2023-08-29 08:36:36

Learning Outcome
You'll learn to use the fundamentals of semiotics and montage to create short-form, impactful content designed to engage audiences.

Title
Commerical Viability

Tags
213589, 0, 6, 2023-08-29 08:36:37

Learning Outcome
Stop motion is a potent tool for brand storytelling. You will learn how to use stop motion as a high-value asset for commercial communication.

Title
Spiritually-Inspired Creative Process

Learning Outcome
Creativity asks you to trust that something good will happen. Learning asks you to trust that you'll eventually have clarity and power. You'll learn how to rely more on the Great Creator to lead you through creative uncertainty into light.

Title
Design as Service

Learning Outcome
Motion design has the special ability to delight, engage, persuade, and instruct. You'll attune your ability to discern needs and opportunities in the world and apply these abilities towards helping your fellow children of God.

DES 390 - Design Theory and Visual Culture

Course Information

Teaching Area (new)
DES

Course Number
390

Teaching Area
DES

Course Title
Design Theory and Visual Culture

Course Description
Theoretical and historical readings and discussions explore visual culture, aesthetics, critical studies, ethics, and design practice across various professional disciplines with a focus on historical trajectories and speculative futures.

Department
Design

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ANY of the following Courses:

- ARTHC 202 - World Civilization Since 1500
  OR PHIL 202 - History of Philosophy 2
  OR IHUM 202 - Western Humanities 2: Renaissance to the Present

Other Prerequisites
Design majors only.

Learning Outcomes

Title
Ethics and Innovation

Tags
187290, 4

Learning Outcome
Students will be able to understand the ethics of design and principles of innovation for engaging with and improving the world through design and image.

Title
Design and Cultural History

Tags
187287, 1

Learning Outcome
Students will be able to identify ways in which visual design shapes and is shaped by society through communications, social relations, culture, economies, education, politics and history.

Title
Critical Discourse

Tags
187288, 2

Learning Outcome
Students will be able to understand, discuss, and write about the theoretical, philosophical, social, and critical discourse--the "whys" and "why nots" of design practice and visual culture--and how their work fits into these contexts

Title
Image and Meaning

Tags
187289, 3

Learning Outcome
Students will be able to demonstrate fluency in interpretation and analysis of image systems, semiotics and meaning of visual culture in its diverse forms.

Instructor's consent.

Learning Outcomes

Title
Directed Field Study

Tags
187286, 1

Learning Outcome
Students will be able to participate in a mentored, off-campus learning environment during the completion of a field study project.

DES 480 - 3D Motion

Course Information

Teaching Area (new)
DES

Course Number
480

Teaching Area
DES

Course Title
3D Motion

Course Description
Continues the exploration of design and communication with motion and animation, including and especially designing in 3-D spaces. Design principles and storytelling concepts are employed to create short motion design projects.

Department
Design

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DES 280 - Motion Concepts

Other Prerequisites
Dept of Design majors, or instructor consent only.

Learning Outcomes

Title
Time as Material

Tags
213590, 0, 1, 2023-08-29 08:36:41

Learning Outcome
Motion design is rooted in the belief that movement is a fundamental mode of meaning-making. As with composition, form, and color, you'll learn to use time as a primary expressive element.

Title
Dimensional Fluency

Tags
213591, 0, 2, 2023-08-29 08:36:42

Learning Outcome
As with sculpture or set design, you'll develop artistic sensibility and technical proficiency in manipulating 3D form and space.

Title
Spiritually-Inspired Creative Process

Tags
213592, 0, 3, 2023-08-29 08:36:44

Learning Outcome
Creativity asks you to trust that something good will happen. Learning asks you to trust that you'll eventually have clarity and power. You'll learn how to rely more on the Great Creator to lead you through creative uncertainty into light.

Title
Conceptual Thinking

Tags
213593, 0, 4, 2023-08-29 08:36:45

Learning Outcome
You'll invent forward-thinking, culturally relevant concepts that influence audiences while surpassing the cliché and uninspired. You'll learn to effectively use mood and emotion to bring weight to your work.

Title
Portfolio Building

Tags
213594, 0, 5, 2023-08-29 08:36:46

Learning Outcome
You'll create compelling work that fits well in the context of your personal portfolio.

Title
Design as Service

Learning Outcome
Motion design has the special ability to delight, engage, persuade, and instruct. You'll attune your ability to discern needs and opportunities in the world and apply these abilities towards helping your fellow children of God.

Title
Interdisciplinary Agility

Learning Outcome
In addition to applying course knowledge to your major, you'll expand your understanding beyond a 'siloed' mindset. You'll develop skilled use of design principles across disciplines, and understand techniques for effectively combining different media.

DES 496R - Academic Internship: Professional Internship

Course Information

Teaching Area (new)
DES

Course Number
496R

Teaching Area
DES

Course Title
Academic Internship: Professional Internship

Course Description
Work experience in professional design studio evaluated by supervisor.

Department
Design

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
6

Other Prerequisites
Department and faculty advisor's consent.

Note
An APPROVED Internship Application is required before adding.

Learning Outcomes

Title
Skill Application

Tags
187300, 1

Learning Outcome
Students will have the opportunity to apply their design skills in a real working environment.

Title
Client Needs and Design Integrity

Tags
187301, 2

Learning Outcome
Students will learn how to meet the needs of the client while preserving the integrity of the design principles they have learned in class. Communication skills are paramount.

Title
Effective Collaboration

Tags
187302, 3

Learning Outcome
Students will be able to interact with team members from all areas of expertise on a real-world project.

DES 498R - Directed Studies

Course Information

Course Number
498R

Teaching Area
DES

Course Title
Directed Studies

Course Description
Students will be able to meet regularly with a professor or mentor throughout the course of the semester to complete a project of their own choosing.

Department
Design

When Taught
Fall, Winter, Spring

Credit Hours

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Other Prerequisites
Instructor add code required; students should meet with their mentor and propose a self-directed, mentored project to work on during the semester in which they take this class.

Recommended
It is recommended that students complete most of their required major coursework before taking this class. This class should ideally be taken during the final year before graduation.

Learning Outcomes

Title
Design Project

Tags
213595, 0, 1, 2023-08-29 08:36:49

Learning Outcome
Students will design a major visual artifact (or series of artifacts or experience) that demonstrate synthesis and mastery of their other coursework and establish a rhetorically compelling relationship between the content and format of their work.

Title
Ideas, Critique, Mentorship

Tags
213596, 0, 2, 2023-08-29 08:36:50

Learning Outcome
Students will develop ideas in consultation, critique, and individual mentorship with a faculty mentor

DESAN 101 - Intro to Animation

Course Information

Teaching Area (new)
DESAN

Course Number
101

Teaching Area
DESAN

Course Title
Intro to Animation

Course Description
This course will introduce drawing techniques for animators including scene composition, object placement, image sequencing, and camera angles. Students will learn to draw two-dimensional objects that appear to be three-dimensional with an appropriate sense of volume, weight, and balance.

Department
Design

When Taught
Fall Term 1; Winter Term 1.

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

Other Prerequisites
Pre-animation majors

Learning Outcomes

Title
Perspective Drawing

Tags
208759, 0, 1

Learning Outcome
Students will be able to use perspective drawing to draw believable, dimensional objects in a scene.

Title
Visual Storytelling

Tags
208760, 0, 2

Learning Outcome
Students will be able to compose visual elements in a frame with the purpose of telling a story.

Title
Camera Angles

Tags
208761, 0, 3

Learning Outcome
Students will be able to use camera position and the sequence of camera shots to tell a simple story.

DESAN 102 - Drawing Fundamentals

Course Information

Course Number
102

Teaching Area
DESAN

Course Title
Drawing Fundamentals

Course Description
Foundational skills of drawing structure and form.

Department
Design

When Taught
Winter and Spring

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Completion Requirement

Complete ALL of the following Courses:
- DESAN 101 - Intro to Animation

Other Prerequisites
Animation pre-BFA status required.

Learning Outcomes

Title
Foundational Drawing

Tags
213597, 0, 1, 2023-08-29 08:36:53

Learning Outcome
Students will learn to draw structurally and from observation in a variety of contexts, including drawing from a figure, drawing in perspective, and drawing organic objects. Students will be able to break forms down to volumes and represent the relationships between those volumes on the page in believable ways.

DESAN 250R - Gesture Drawing for Animators

Course Information

Teaching Area (new)
DESAN

Course Number
250R

Teaching Area
DESAN

Course Title
Gesture Drawing for Animators

Course Description
Drawing human and animal forms in motion.

Department
Design

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DESAN 102 - Drawing Fundamentals

Other Prerequisites
Animation BFA acceptance only.

Learning Outcomes

Title
Exaggeration

Tags
187199, 1

Learning Outcome
Students will be able to apply thoughtful and deliberate exaggeration of design elements, proportions, and gestures while drawing the human figure.

Title
Human Movement Rhythms

Tags
187200, 2

Learning Outcome
Students will be able to analyze and identify the rhythms of the human body and relate each part to the whole figure in design and storytelling.

Title
Human Figure Sketching

Tags
187201, 3

Learning Outcome
Students will be able to competently and quickly draw the human figure from life.

Title
Simplified Human Form

Tags
187202, 4

Learning Outcome
Students will be able to simplify a figure down to essential details, achieving clarity in form and pose.

DESAN 260 - Basic Storyboarding

Course Information

Teaching Area (new)
DESAN

Course Number
260

Teaching Area
DESAN

Course Title
Basic Storyboarding

Course Description
Introduction to visual storytelling and storyboarding in a collaborative setting.

Department
Design

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Other Prerequisites
Animation BFA majors only.

Learning Outcomes

Title
Individual Artistic and Critical Voice

Tags
106323, 1

Learning Outcome
Students will be able to identify their individual artistic and critical voice in terms of animation storytelling, apply their knowledge of the history of the art form, and assess their own and others' work.

Title
Personal Artistic and Technical Skills

Tags
106324, 2

Learning Outcome
Students will be able to demonstrate strong artistic and technical skills, including drawing and storytelling, through the production of an animated product, including creating storyboards.

Title
Community Contribution

Tags
106325, 3

Learning Outcome
Students will be able to contribute and collaborate within an artistic community or team by actively participating in the development of two storyboarding projects.

DESAN 262 - Animation 1

Course Information

Teaching Area (new)
DESAN

Course Number
262

Teaching Area
DESAN

Course Title
Animation 1

Course Description
Beginning three-dimensional animation with emphasis on the fundamental principles of timing, acting, performance, and overlapping action.

Department
Design

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Other Prerequisites
Animation BFA majors only.

Learning Outcomes

Title
Basic Body Language

Learning Outcome
Students will be able to analyze and apply basic body language to full-body animated scenes.

Title
12 Principles of Animation

Learning Outcome
Students will be able to identify and implement the twelve principles of animation, including timing, staging, anticipation, and overlapping action, to a greater degree of depth.

Title
Action Analysis and Troubleshooting

Learning Outcome
Students will be able to explore basic action analysis and troubleshooting for an animation and apply their discoveries to action-based character animation.

DESAN 265 - Visual Development

Course Information

Teaching Area (new)
DESAN

Course Number
265

DESAN 275 - Technical Drawing

Course Information

Course Number
275

Teaching Area
DESAN

Course Title
Technical Drawing

Course Description
Using traditional methods to draw using perspective.

Department
Design

When Taught
Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
6

Simple Requisites

Prerequisites

Type
Completion Requirement

Complete ALL of the following Courses:
- DESAN 102 - Drawing Fundamentals

Other Prerequisites
Animation BFA majors only

Learning Outcomes

Title
Perspective Drawing

Tags
213605, 0, 1, 2023-08-29 08:37:11

Learning Outcome
Students will be able to draw and design complex scenes in perspective to a high level of detail.

Title
2D Drawing Environments

Tags
213606, 0, 2, 2023-08-29 08:37:12

Learning Outcome
Students will be able to draw architecture, organic environment elements, and vehicles. Students will be able to create 2D layout drawings.

DESAN 282 - Animation 2

Course Information

Course Number
282

Teaching Area
DESAN

Course Title
Animation 2

Course Description
Animating believable 3D characters showing weight and balance.

Department
Design

When Taught
Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
6

Simple Requisites

Prerequisite Reqirement

Type
Prerequisite

Complete ALL of the following Courses:
- DESAN 262 - Animation 1

Learning Outcomes

Title
3D Animation

Learning Outcome
Students will be able to create complex animations focusing on character personalities, acting, and physical forces. They will be able to animate interactions between character and objects and apply the 12 principles of animation at a higher level.

Title
Observation

Learning Outcome
Students will be able to observe the effect of personality, weight, and force in movement and articulate those qualities in their animation, especially where those components relate to interactions within the scene.

Title
Hard Work and Life Balance

Learning Outcome
Students will be able to work hard but intelligently, being thoughtful about where to place that effort. Students will also be better able to balance other important aspects of life with the demands of animation.

Title
Collaboration and Feedback

Learning Outcome
Students will be able to give and accept feedback humbly and make the necessary adjustments with confidence.

DESAN 350 - Advanced Gesture Drawing

Course Information

Course Number
350

Teaching Area
DESAN

Course Title
Advanced Gesture Drawing

Course Description
Strengthen storytelling in observational drawing with humans and creatures.

Department
Design

When Taught
Spring Term

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
6

Simple Requisites

Pre-req Requirement

Type
Prerequisite

Complete ALL of the following Courses:
- DESAN 250R - Gesture Drawing for Animators

Other Prerequisites
Animation & Illustration BFA majors only.

Learning Outcomes

Title
Observation

Learning Outcome
Students will be able to perceive and communicate what makes a pose alive, kinetic, and filled with attitude.

Title
Drawing quickly

Learning Outcome
Students will be able to quickly draw what makes a scene distinctive using shorthands for different character types.

Title
Exaggeration and storytelling

Learning Outcome
Students will be able to draw exaggerated gestures using design, structure, and detail to enhance and clarify storytelling.

Title
Animation

Learning Outcome
Students will be able to apply the principles of animation to individual drawings to create the illusion of life.

DESAN 352 - Animation 3

Course Information

Prerequisites

Complete ALL of the following Courses:
- DESAN 250R - Gesture Drawing for Animators
  AND DESAN 260 - Basic Storyboarding
  AND DESAN 265 - Visual Development

Learning Outcomes

Title
Storyboarding for Advertising, TV, Feature Animation, and Live Action

Tags
187203, 2

Learning Outcome
Students will be able to differentiate between storyboarding for advertising, television, feature animation, and live action film.

Title
Storyboards to Animatics

Tags
187204, 1

Learning Outcome
Students will be able to successfully convert their storyboards into presentable animatics.

Title
Storyboard Artist Skills

Tags
187205, 3

Learning Outcome
Students will be able to exercise fundamental skills and knowledge required to succeed as a storyboard artist in the entertainment industry.

Title
Story Pitching

Tags
187206, 4

Learning Outcome
Students will be able to successfully present their ideas based on the art of the story pitch.

DESAN 361R - Character Design

Complete ALL of the following Courses:

- DESAN 250R - Gesture Drawing for Animators

Other Prerequisites
Animation BFA acceptance.

Learning Outcomes

Title
Character Design and Visual Developmen

Tags
187213, 1

Learning Outcome
Students will be able to identify advanced design principles and apply them by designing characters, props, and environments that are appealing to target audiences and suited to the needs of a given animated project

Title
Story and Character

Tags
187214, 2

Learning Outcome
Students will be able to construct compelling visual stories across a wide variety of character types and objects. Students will be able to develop character stories that inform their design decisions.

Title
Abstraction and Caricature

Tags
187215, 3

Learning Outcome
Students will be able to apply rules of abstraction and caricature in the appropriate proportions for a given character and project.

Title
Technique and Design

Tags
187216, 4

Learning Outcome
Students will be able to implement drawing, inking, and basic color techniques necessary for making designs presentable and interesting for art directors.

Title
Style

Tags
187217, 5

Learning Outcome
Students will be able to shift their drawing style as necessary and show how to balance design principles when creating new styles.

Title
Critique

Tags
187218, 6

Learning Outcome
Students will be able to differentiate between the various styles of critique and will be able to give and receive feedback using principles of good critique.

Title
Visual Development as a Professional

Tags
187219, 7

Learning Outcome
Students will be able to face the emotional and ethical challenges of visual development work in the animation industry with good attitudes and behaviors.

Prerequisites

Complete ALL of the following Courses:

- DESAN 250R - Gesture Drawing for Animators
  AND DESAN 260 - Basic Storyboarding
  AND DESAN 262 - Animation 1

Learning Outcomes

Tags
213609, 0, 1, 2023-08-29 08:37:25

Learning Outcome
Students will be able to experiment with simplified techniques in the creation of animated shorts.

Tags
213610, 0, 2, 2023-08-29 08:37:27

Learning Outcome
Students will learn the value of experimental animation and have an expanded personal sense of aesthetic and design concept.

DESAN 364R - Digital Sculpting

Course Information

Teaching Area (new)
DESAN

Course Number
364R

Teaching Area
DESAN

Course Title
Digital Sculpting

Course Description
Developing skills necessary for creating appealing, viable digital models. Issues involved in designing for the animation and gaming industry.

Department
Design

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CSANM 250 - Intermediate Three-Dimensional Computer Graphics
  AND DESAN 250R - Gesture Drawing for Animators

Recommended
DesAn 361R

Learning Outcomes

Title
Sculpting Software

Tags
187224, 1

Learning Outcome
Students will be able to model and apply surfaces to characters and objects in 3-D sculpting software.

Title
Three-Dimensional Design

Tags
187225, 2

Learning Outcome
Students will be able to respond to issues that are unique to three-dimensional design and develop appealing solutions for those problems.

Title
The Illusion of Life

Tags
187226, 3

Learning Outcome
Students will be able to implement all applicable principles of animation to give their static models the illusion of life.

DESAN 365R - Digital Painting

Course Information

Teaching Area (new)
DESAN

Course Number
365R

Teaching Area
DESAN

Course Title
Digital Painting

Course Description
Tools and techniques of digital painting for concept design in the entertainment industry.

Department
Design

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DESAN 265 - Visual Development

Other Prerequisites
Animation and Illustration BFA majors only.

Learning Outcomes

Title
Aligning with Art Direction

Tags
187227, 1

Learning Outcome
Students will be able to create professional-quality digital paintings customized to the demands of an art director with a focus on animation industry design work.

Title
Software and Painting Skills

Tags
187228, 2

Learning Outcome
Students will be able to use digital painting programs but learn principles of painting that can be applied regardless of software, including lighting and painting a scene when reference is unavailable, using rules of color and value composition to guide audience experience, and other applicable skills.

Title
Group and Personal Skills

Tags
187229, 3

Learning Outcome
Students will be able to work collaboratively with groups and take positive action from critiques by peers and directors through practicing the type of openness and humility necessary to resolve complex problems on a project.

DESAN 394R - Special Topics

Course Information

Teaching Area (new)
DESAN

Course Number
394R

Teaching Area
DESAN

Course Title
Special Topics

Course Description
Advanced studio course offering project-based, interdisciplinary study of a specialized design topic.

Department
Design

When Taught
Contact Department

Credit Hours

Min:
0.5

Fixed/Max:
3

Other Prerequisites
Animation BFA acceptance or instructor's consent.

Fee
150

Note
Fee. Contact instructor for permission to add code.

Learning Outcomes

Title
Special Projects

Tags
187230, 1

Learning Outcome
Students will be able to work independently with a faculty mentor to develop a personal animated project for their professional portfolios.

DESAN 397R - Pitching for Film & Games

Course Information

Course Number
397R

Teaching Area
DESAN

Course Title
Pitching for Film & Games

Course Description
Develop and pitch story structures and video game ideas to a group.

Department
Design

When Taught
Fall

Credit Hours

Fixed/Max:
1.5

Lecture Hours

Fixed:
3

Learning Outcomes

Title
Pitching Stories

Tags
213611, 0, 1, 2023-08-29 08:37:32

Learning Outcome
Students will be able to write and present game and film pitches in front of an audience.

Title
Idea Development

Tags
213612, 0, 2, 2023-08-29 08:37:34

Learning Outcome
Students will be able to find the core of an idea and improve the idea around that core. Students will be able to recognize the difference between an idea that works compared to one that creates problems with scope, character needs, story structure, or focus.

DESAN 450 - Advanced Life Drawing

Course Information

Course Number
450

Teaching Area
DESAN

Course Title
Advanced Life Drawing

Course Description
Drawing the human figure through gesture and observation.

Department
Design

When Taught
Contact Department

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
6

Simple Requisites

Prerequisites

Type
Completion Requirement

Complete ALL of the following Courses:
- DESAN 250R - Gesture Drawing for Animators

Learning Outcomes

Title
Observation

Tags
213613, 0, 1, 2023-08-29 08:37:35

Learning Outcome
Students will be able to perceive and communicate what makes a pose alive, kinetic, and filled with attitude.

Title
Drawing quickly

Tags
213614, 0, 2, 2023-08-29 08:37:37

Learning Outcome
Students will be able to quickly draw what makes a scene distinctive using shorthands for different character types.

Title
Exaggeration and storytelling

Learning Outcome
Students will be able to draw exaggerated gestures using design, structure, and detail to enhance and clarify storytelling.

Title
Animation

Learning Outcome
Students will be able to apply the principles of animation to individual drawings to create the illusion of life.

DESAN 460 - Business and Ethics in Animation

Course Information

Teaching Area (new)
DESAN

Course Number
460

Teaching Area
DESAN

Course Title
Business and Ethics in Animation

Course Description
Learning the practical and ethical side to the entertainment industry through readings and discussions as preparation for expectations as artists, leaders, and members of the Church.

Department
Design

When Taught
Fall

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Other Prerequisites
Acceptance to animation program.

Learning Outcomes

Title
Practices and Ethics in Industry

Tags
106343, 1

Learning Outcome
Students will be able to demonstrate a working knowledge of various aspects of the entertainment industry including unions, locations, work hours, commutes, leadership, and so forth and apply this knowledge to their respective interests in entertainment.

DESAN 462 - Capstone: Animation Analysis

Course Information

Course Number
462

Teaching Area
DESAN

Course Title
Capstone: Animation Analysis

Course Description
Review of current work for the capstone projects

Department
Design

When Taught
Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
6

Other Prerequisites
Animation & Illustration BFA majors only.

Learning Outcomes

Title
Animation Critique

Tags
213615, 0, 1, 2023-08-29 08:37:40

Learning Outcome
Students will present their work-in-progress animations weekly for review and critique and learn how to analyze their own work and make revisions.

DESAN 480 - Storyboard Portfolio

Course Information

Course Number
480

Teaching Area
DESAN

Course Title
Storyboard Portfolio

Course Description
This is an advanced course focused on mentoring students on their storyboarding and preparing their portfolio for the industry. Students will work and create a storyboard portfolio to be able to pitch story ideas to prepare for graduation.

Department
Design

When Taught
Fall

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Other Prerequisites
Animation BFA majors only

Learning Outcomes

Title
Portfolio-building

Learning Outcome
Students will be able to create portfolio-ready story boards and animatics.

Title
Story Pitching

Learning Outcome
Students will be able to present story ideas using the art of the story pitch.

Title
Storyboard Industry Practice

Learning Outcome
Students will use the advanced story thinking and practices required to succeed as a storyboard artist in the entertainment industry.

DESAN 486R - Developing Intellectual Properties in Animation

Course Information

Teaching Area (new)
DESAN

Course Number
486R

Teaching Area
DESAN

Course Title
Developing Intellectual Properties in Animation

Course Description
The process of developing a marketable intellectual property within the animation industry. Examining industry constraints, marketing, and how story and visual design relate to an intellectual property. Introduction to the iterative development process from the early stages of development, through pre-production to presentation. Industry demands related to quality, longevity and creativity will be explored.

Department
Design

When Taught
Winter

Credit Hours

Min:
1

Fixed/Max:
3

Lab Hours

Fixed:
0

Other Prerequisites
Animation majors only, or instructor's consent.

Learning Outcomes

Title
Designing Intellectual Property

Tags
208762, 0, 1

Learning Outcome
Students will gain experience designing for specific criteria within an intellectual property.

Title
Idea Development

Tags
208763, 0, 2

Learning Outcome
Students will learn to use both collaborative and individual methods of idea development as they weave complex ideas together.

Title
Presentation

Tags
208764, 0, 3

Learning Outcome
Students will learn how to present intellectual property ideas to reviewers.

Title
Development of Intellectual Property

Tags
208765, 0, 4

Learning Outcome
Students will learn the process and considerations inherent in creating intellectual properties within the animation industries.

DESAN496R - Film Pre-Production

Course Information

Course Number
496R

Teaching Area
DESAN

Course Title
Film Pre-Production

Course Description
Develop short film story ideas

Department
Design

When Taught
Fall

Credit Hours

Fixed/Max:
1.5

Lecture Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Completion Requirement

Complete ALL of the following Courses:
- DESAN 260 - Basic Storyboarding
  AND DESAN 363R - Experimental Animation and Production

Other Prerequisites
Animation & Illustration BFA majors only.

Learning Outcomes

Title
Film Development

Tags
213616, 0, 1, 2023-08-29 08:37:45

DESAN 497R - BFA Independent Film Production

Course Information

Teaching Area (new)
DESAN

Course Number
497R

Teaching Area
DESAN

Course Title
BFA Independent Film Production

Course Description
Advanced individual animation project with minimum guidance, showing a high degree of competence.

Department
Design

When Taught
Fall, Winter, Spring

Credit Hours

Min:
1

Fixed/Max:
3

Other Prerequisites
Instructor's consent.

Note
Contact instructor for permission-to-add code.

Learning Outcomes

Title
Directed Study

Tags
187231, 1

Learning Outcome
Students will be able to work either collaboratively with a faculty mentor to develop the story on a student group-directed animated project or individually to create their own project under faculty direction.

DESAN 498R - Directed Studies in Animation

Course Information

Teaching Area (new)
DESAN

Course Number
498R

Teaching Area
DESAN

Course Title
Directed Studies in Animation

Course Description
Credit for work experience in animation.

Department
Design

When Taught
Contact Department

Credit Hours

Min:
1

Fixed/Max:
6

Other Prerequisites
BFA advisor's consent.

Note
Permission to add code required; contact instructor.

Learning Outcomes

Title
Directed Study

Tags
187232, 1

Learning Outcome
Students will be able to work collaboratively with a faculty mentor to do visual development work on a student group-directed animated project, or individually to create their own project under faculty direction.

DESGD 145 - Design 1

Course Information

Teaching Area (new)
DESGD

Course Number
145

Teaching Area
DESGD

Course Title
Design 1

Course Description
Students will develop skill in drawing as a method of visual problem solving, and in composition through the application of design principles. Concepts, terminology, and processes necessary to communicate visual ideas.

Department
Design

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Other Prerequisites
Pre-graphic design or design major, or advertising design minor.

Fee
25

Note
Fee.

Learning Outcomes

Title
Drawing Methods, Media, and Process

Tags
187308, 1

Learning Outcome
Students will apply methods, processes, skills and techniques for compositional sketches ("thumbnails"), observational studies, design ideation, and imaginative conceptualization.

Title
Visual Perception, Aesthetics, and Craft

Tags
187309, 2

Learning Outcome
Students will demonstrate an enhanced visual perception, aesthetic sensitivity, craftsmanship, and fluency in drawing media.

Title
Design Thinking

Tags
187310, 3

Learning Outcome
Students will apply creative, analytical, and critical thinking to solve visual problems through the design process.

Title
Visual Vocabulary

Tags
187311, 4

Learning Outcome
Students will express, analyze, and discuss visual ideas using language that demonstrates understanding of visual concepts and terms as well as appreciate the central role of visual communication and ideas in creative design.

Title
Design Theory and Practice

Tags
187312, 5

Learning Outcome
Students will demonstrate fluency in fundamentals of two-dimensional design theory by applying design principles in compositional exercises, including unity, variety, balance, emphasis, rhythm etc.

Title
Color Theory and Application

Tags
187313, 6

Learning Outcome
Students will demonstrate understanding of color theory in compositions, showing fluency in using color to denote ideas, culture, mood, and emotion.

Title
Design Aesthetics and Presentation

Tags
187314, 7

Learning Outcome
Students will exhibit good organization, craftsmanship, presentation and taste in design exercises, projects, and assignments.

DESGD 243 - Typography 1

Course Information

Teaching Area (new)
DESGD

Course Number
243

Teaching Area
DESGD

Course Title
Typography 1

Course Description
Studio course which familiarizes the student with the history, terminology, elements, and principles of effective typographic communication.

Department
Design

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ANY of the following Courses:

- DESGD 145 - Design 1
  OR DESIL 101 - Drawing and Composition
  OR DESPX 115 - Product & User Experience Design 1

Other Prerequisites

Accepted Graphic Design pre-majors, Illustration BFA majors, Advertising Design minors, or instructor's consent.

Learning Outcomes

Title
History of Type

Tags
106866, 0

Learning Outcome
Students will be able to have a deeper understanding of the evolution of typography from early printing methods through current digital typography.

Title
Type Nomenclature

Tags
106867, 1

Learning Outcome
Students will be able to understand and implement typographic terminology, classification, and anatomy.

Title
The Aesthetics of Typography

Tags
106868, 2

Learning Outcome
Students will be able to effectively compose type using fundamental aesthetic principles and skills.

Title
Processes in Typography

Tags
106869, 3

Learning Outcome
Students will be able to understand typographic production processes and technologies and output type for multiple mediums.

Title
Communicating with Type

Tags
106870, 4

Learning Outcome
Students will be able to analyze relationships between typography and effective communication, including understanding its effect on mood, the creation of typographic personality, and its use in appealing to a defined target market.

Title
Typographic Emphasis

Tags
106871, 5

Learning Outcome
Students will be able to understand the importance of hierarchy and emphasis within typography.

Title
Typographic Systems

Tags
106872, 6

Learning Outcome
Students will be able to design and implement a complex, elegant, typographic grid system.

DESGD 245 - Design 2

Course Information

Teaching Area (new)
DESGD

Course Number
245

Teaching Area
DESGD

Course Title
Design 2

Course Description
Study the elements and principles of design through the use of form, visual principles, theoretical and visual experimentation, concept development, and creative thinking. Systems, symbols, icons and expressive typography will be used to visually represent ideas and messages.

Department
Design

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Simple Requisites

Type
Prerequisite

Prerequisites

Complete ANY of the following Courses:

- DESGD 145 - Design 1
  OR DESPX 115 - Product & User Experience Design 1

Other Prerequisites
Accepted graphic design pre-majors, Advertising Design minors, or instructor permission.

Fee
50

Note
Fee.

Learning Outcomes

Title
The Design Process

Tags
106873, 1

Learning Outcome
Students will be able to understand and implement the design process.

Title
Principles and Elements of Design

Tags
106874, 1

Learning Outcome
Students will be able to analyze and implement the principles and elements of design (such as balance, contrast, shape, etc.) and their relationship to graphic design.

Title
Composition, Color, Effective Use of Type, Photography

Tags
106875, 2

Learning Outcome
Students will be able to utilize principles and skills in special areas such as composition, color, appropriate use of photography and illustration, and the effective use of text type.

Title
Communication Mediums

Tags
106876, 3

Learning Outcome
Students will be able to understand the graphic designer's role in working with various communication mediums, including print, broadcast, and digital media.

Title
Basic Printing Processes

Tags
106877, 4

Learning Outcome
Students will be able to identify and understand basic printing processes and the benefits and restrictions of each.

Title
Paper and Printing Choices

Tags
106878, 5

Learning Outcome
Students will be able to understand the impact of paper and printing choices on the environment.

Title
Graphic Design Market and Careers

Tags
106879, 6

Learning Outcome
Students will be able to understand the market and careers of graphic design.

DESGD 248R - Letterpress Studio

Course Information

Teaching Area (new)
DESGD

Course Number
248R

Teaching Area
DESGD

Course Title
Letterpress Studio

Course Description
Letterpress Studio introduces the history, type, and terminology of letterpress and gives student experience with the equipment, materials, and mechanics of printing.

Department
Design

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Other Prerequisites
Design majors only.

Fee
150

Note
Fee.

Learning Outcomes

Title
Printing Processes

Tags
106880, 1

Learning Outcome
Students will be able to carry out fundamental processes used in letterpress printing while producing printed projects in the studio.

Title
Press Production and Operation

Tags
106881, 2

Learning Outcome
Students will be able to learn the fundamentals of operating flatbed proofing presses, clamshell presses, and creating photopolymer plates.

Title
Handset Type

Tags
106882, 3

Learning Outcome
Students will be able to proficiently implement the historical art of setting and using cold metal type in letterpress work.

DESGD 260 - Interface & Usability

Course Information

Teaching Area (new)
DESGD

Course Number
260

Teaching Area
DESGD

Course Title
Interface & Usability

Course Description
Introduction to the process and methodology of designing across multiple media types. An introduction to designing interactive experiences.

Department
Design

When Taught
Winter and Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Simple Requisites

Learning Outcomes

Title
Design Across Media

Tags
213618, 0, 2, 2023-08-29 08:37:53

Learning Outcome
Students will be able to apply fundamental design principles to digital media design problems

Title
Plan and Execute Designs

Tags
213619, 0, 3, 2023-08-29 08:37:54

Learning Outcome
Students will be able to plan digital media projects and learn to independently solve technology and production problems

DESGD 340 - Branding 1

Course Information

Teaching Area (new)
DESGD

Course Number
340

Teaching Area
DESGD

Course Title
Branding 1

Course Description
Studio course in which students develop strategic, integrated brand systems, including trademarks, logos, corporate identity systems and their applications to a diverse range of products and media.

Department
Design

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DESGD 243 - Typography 1
  AND DESGD 245 - Design 2
  AND DESGD 260 - Interface & Usability

Other Prerequisites
Graphic Design BFA acceptance.

Learning Outcomes

Title
Brand & Corporate Identity Process

Tags
106887, 0

Learning Outcome
Students will be able to analyze and deconstruct visual corporate identities and brands.

Title
Nomenclature

Tags
106888, 1

Learning Outcome
Students will be able to understand and use the terminology of branding and corporate identity work.

Title
Strategy and Marketing

Tags
106890, 2

Learning Outcome
Students will be able to recognize how design strategy and market research inform branding, corporate identity, and creative implementation.

Title
Brand Creation

Tags
106891, 3

Learning Outcome
Students will be able to create corporate identity systems that successfully address the concerns of the marketplace, audience, and design aesthetics.

DESGD 341 - 3-Dimensional Design

Course Information

Teaching Area (new)
DESGD

Course Number
341

Teaching Area
DESGD

Course Title
3-Dimensional Design

Course Description
An advanced studio course in three-dimensional design. 3-dimensional forms including packaging, environmental graphics, signage systems, and experience design. Appropriate material use and selection relative to sustainability will be emphasized. The tactile qualities of dimensional form and the development of strategic, viable design solutions will also be considered.

Department
Design

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Other Prerequisites
BFA acceptance or instructor consent.

Learning Outcomes

Title
Design in Multiple Formats

Tags
106893, 1

Learning Outcome
Students will be able to design in a variety of physical formats.

Title
3-Dimensional Design Process

Tags
106894, 1

Learning Outcome
Students will be able to learn the 3-dimensional design process.

Title
Product Marketing

Tags
106895, 2

Learning Outcome
Students will be able to position products for the marketplace.

DESGD 343 - Typography 2

Course Information

Teaching Area (new)
DESGD

Course Number
343

Teaching Area
DESGD

Course Title
Typography 2

Course Description
An advanced studio course that continues the study of complex typographic grid systems and their application to visual problem solving. Through a rigorous exploration of written and visual content, students refine their understanding of typography as an essential element in visual communication.

Department
Design

When Taught
Fall

Credit Hours

Graphic Design BFA majors only.

Learning Outcomes

Title
Publication Design Fundamentals

Tags
106896, 0, 1, 2020-07-09 16:38:14

Learning Outcome
Students will be able to implement fundamental design principles such as pacing, structure, typographic solutions, editing, and photography.

Title
Grid in Publication Design

Tags
106897, 0, 1, 2020-07-09 16:38:14

Learning Outcome
Students will be able to understand the complexities of the grid in publication design.

Title
Magazine Branding

Tags
106898, 0, 2, 2020-07-09 16:38:14

Learning Outcome
Students will be able to create a brand for a magazine.

DESGD 346R - Practicum in Graphic Design

Course Information

Teaching Area (new)
DESGD

Course Number
346R

Teaching Area
DESGD

Course Title
Practicum in Graphic Design

Course Description
Studio course which emphasizes individual projects and portfolio refinement, research, conceptual thinking, typographic excellence, and the effective use of design principles.

Department
Design

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

  AND DESGD 260 - Interface & Usability

Other Prerequisites
Design majors only.

Learning Outcomes

Title
Personal Voice

Tags
106901, 1

Learning Outcome
Students will be able to identify and embrace their personal voice of expression.

Title
Knowledge of Design Principles

Tags
137414, 0

Learning Outcome
Students will be able to identify and embrace their personal voice of expression.

Title
Self-Promotion Materials

Tags
137415, 2

Learning Outcome
Students will be able to develop personalized promotional materials for entrance into the marketplace.

Title
Career Research

Tags
137654, 3

Learning Outcome
Students will be able to explore career opportunities in both in-house and studio environments.

Title
Knowledge of Design Principles

Tags
208777, 0, 1

Learning Outcome
Expand and deepen their knowledge of broad design principles.

Title
Personal Voice

Tags
208778, 0, 2

Learning Outcome
Develop a personal voice of expression.

Title
Self-Promo Materials

Tags
208779, 0, 3

Learning Outcome
Prepare personalized promotional materials for entrance into the marketplace.

Title
Career Research

Tags
208780, 0, 4

Learning Outcome
Research career opportunities in both in-house and studio environments.

DESGD 349 - History of Graphic Design

Course Information

Teaching Area (new)
DESGD

Course Number
349

Teaching Area
DESGD

Course Title
History of Graphic Design

Course Description
Survey of graphic design historical periods from pre-history to present day.

Department
Design

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Design majors or instructor's permission only.

Note
Available to majors only until August 1. The course will be open to minors on August 2.

Learning Outcomes

Title
Incorporate Historical Design Knowledge

Tags
137417, 0

Learning Outcome
Students will be able to skillfully incorporate historical design cues into modern design problems and avoid repeating mistakes and ineffective ideas from the past.

Title
Visual Communication Solutions Throughout History

Tags
137419, 0

Learning Outcome
Students will be able to demonstrate an understanding of how designers from different historical eras resolved visual communication problems, including by communicating efficiently, working with clients, resolving the tension between innovation and the status quo, balancing commercial requirements with personal expression, and achieving economic viability while contributing something valuable to the world.

Title
Historical Contributions to Design

Tags
137420, 0

Learning Outcome
Students will be able to recognize the contributions and motivations of leaders in the field of graphic design and use that knowledge to become better citizens and contributors of the graphic design profession.

Title
Design Writing & Thinking

Tags
137421, 0

Learning Outcome
Students will be able to effectively write about graphic design, thinking, and communicating in a way that allows readers who are not designers to understand important concepts related to design.

DESGD 362 - Interactive Typographic Systems

Course Information

Teaching Area (new)
DESGD

Course Number
362

Teaching Area
DESGD

Course Title
Interactive Typographic Systems

Course Description
Introduces foundational interaction design principles and tools to prototype user-centered interfaces. Through team-based course work students gain user interface experience and work-flow best practices.

Department
Design

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ALL of the following requirements:

Prerequisites

Complete ANY of the following Courses:

- DESGD 260 - Interface & Usability
  OR DESPX 260 - Introduction to Digital Product Design

AND

Prerequisites

Complete ALL of the following Courses:

- DESGD 243 - Typography 1

Other Prerequisites
Graphic Design BFA, Product & User Experience Design BFA majors, and design majors, or instructor permission.

Learning Outcomes

Title
Responsive Grids & Typography

Learning Outcome
Students will be able to create responsive grids and complex typographic systems for multi-screen or multi-page content that adapt to variety of formats, de-vices, and screen sizes.

Title
Design Systems

Learning Outcome
Students will be able to create a cohesive and reusable system of components, colors, typography, and icons.

Title
Digital and Online Typography

Learning Outcome
Students will be able demonstrate understanding of digital and online typographic rules, defaults, customs, and technical requirements to create elegant, legi-ble, and functional typographic systems (including but not limited to understanding HTML and CSS as a building block for modern apps and websites).

Title
Documentation

Learning Outcome
Students will be able to create detailed documentation of their design process and final design outcome, with clear written explanations of interface content and functionality.

Title
Faith, Form, and Format

Learning Outcome
Students will be able to identify and critically discuss how different forms and formats of media, especially typographic ones affect understanding and demand attention in all contexts, especially that of faith and devotion.

DESGD 380 - Motion Design

Course Information

Teaching Area (new)
DESGD

Course Number
380

Teaching Area
DESGD

Course Title
Motion Design

Course Description
Studio course instructing students in the art of design and communication with motion and sound. Design principles, editing, and narrative concepts are employed to create short motion design projects.

Department
Design

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DES 280 - Motion Concepts

Other Prerequisites
Graphic Design BFA majors or instructor permission only.

Learning Outcomes

Tags
213624, 0, 1, 2023-08-29 08:38:16

Learning Outcome
Students will learn how to create a story and mood with movement and animation, and how to use editing to control the story.

Tags
213625, 0, 2, 2023-08-29 08:38:17

Learning Outcome
Students will learn how to design with time, 3D space, and sound.

Tags
213626, 0, 3, 2023-08-29 08:38:18

Learning Outcome
Students apply graphic design principles and narrative techniques to motion graphics projects, using After Effects and other methods.

Tags
213627, 0, 4, 2023-08-29 08:38:19

Learning Outcome
Students will acquire the necessary design and production skills to produce a compelling 30-second motion graphic piece.

Tags
213628, 0, 5, 2023-08-29 08:38:21

Learning Outcome
Students will develop essential written and oral communication skills to explain and defend your work.

DESGD 394R - Special Topics

Course Information

Teaching Area (new)
DESGD

Course Number
394R

Teaching Area
DESGD

Course Title
Special Topics

Course Description
Advanced studio course offering an in-depth study of a specialized design topic. Explores either a conceptual, practical, or technical requirement within the current discipline, or focuses on a particular project.

Department
Design

When Taught
Fall and Winter

Credit Hours

Min:
0.5

Fixed/Max:
3

Lab Hours

Learning Outcomes

Title
Major Branding Project

Tags
207332, 0, 1

Learning Outcome
Students will be able to create a major branding project including a style guide/brand bible

Title
Minor Branding Project

Tags
137464, 0, 1

Learning Outcome
Students will be able to create a minor branding project for an existing company.

Title
Refining Magazine Project

Tags
137466, 0, 2

Learning Outcome
Students will be able to refine their magazine projects.

DESGD 441R - Design Lab

Course Information

Learning Outcomes

Title
Design Process

Tags
137426, 2

Learning Outcome
Students will be able to complete a design project from the ideation phase through final implementation.

Title
Design Presentation

Tags
137427, 3

Learning Outcome
Students will be able to prepare and present a comprehensive design presentation to an interested client or community.

Title
Project Management

Tags
137428, 4

Learning Outcome
Students will be able to successfully manage a large design project.

Title
Design Research, Strategy, and Implementation

Tags
137429, 5

Learning Outcome
Students will be able to synthesize design research, strategy, and creative implementation.

Title
Design Impact

Tags
137430, 6

Learning Outcome
Students will be able to understand the social and systemic impact of their projects and commit to working in sustainable ways.

Title
Collaboration

Tags
207331, 0, 1

Learning Outcome
Students will be able to collaborate as a member of a large, interdisciplinary design team.

DESGD 442 - Portfolio

Course Information

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DESGD 362 - Interactive Typographic Systems
  AND DESGD 440 - Branding 2

Other Prerequisites
Graphic design BFA majors only.

Learning Outcomes

Title
Develop Self-Promotional Materials

Tags
54483, 0, 3

Learning Outcome
Students will be able to develop self-promotional and marketing pieces for gaining employment.

Title
Portfolio Communication & Presentation

Tags
212874, 0, 5

Learning Outcome
Students will be able to communicate effectively about their portfolio work orally and in writing.

Title
Effective Critique

Tags
212875, 0, 6

Learning Outcome
Students will demonstrate effective critiques of the visual and conceptual merits of their own and others' capstone projects and portfolios.

Title
Post-graduation strategy

Tags
212877, 0, 7

Learning Outcome
Students will be able to research and articulate post-graduation strategy effectively, demonstrating a clear understanding of the graphic design industry and academy across the region and nation.

Title
Create Comprehensive & Targeted Portfolios

Tags
137435, 0, 1

Learning Outcome
Students will assemble a comprehensive portfolio demonstrating design solutions created during their BFA major experience. Work should demonstrate mastery of program-level Graphic Design BFA learning outcomes.
Students will also compile a targeted professional portfolio that aligns with their post-graduation strategic goals.

Title
Plan & Complete Work Necessary for Final Portfolios

Tags
212876, 0, 2

Learning Outcome
Students will plan and complete the work necessary to assemble their comprehensive and targeted portfolios.
Students will create individualized work plans to meet their post-graduation strategic goals by carefully assessing their overall portfolio needs, strengths, and weaknesses. This plan will include the work outlined in the other learning outcomes.

DESGD 460 - Advanced Interaction Design

Course Information

Teaching Area (new)
DESGD

Course Number
460

Teaching Area
DESGD

Course Title
Advanced Interaction Design

Course Description
Explores how interaction design integrates both client/user needs to prototype holistic and appropriate experiences. Through team-based course work students gain an understanding of user experience design and workflow.

Department
Design

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DESGD 362 - Interactive Typographic Systems

Other Prerequisites
Graphic Design BFA majors, or instructor consent only.

Learning Outcomes

Title
User-centered Design Methods

Tags
187238, 1

Learning Outcome
Students will be able to use design research methods to promote user empathy and to focus design efforts on user needs.

Title
Prototype Interface Interactions and Animations

Tags
187239, 2

Learning Outcome
Students will be able to use prototyping tools to clarify interactions and animations that enhance the user experience.

Title
Optimize an Interface with User Testing

Tags
187240, 3

Learning Outcome
Students will be able to conduct usability tests to inform interface design decisions.

Title
Design Presentation

Tags
187317, 4

Learning Outcome
Students will be able to craft presentations of their work with compelling storytelling, clear visual organization, and persuasive language.

DESGD 488 - Studio Practices for Designers

Course Information

Teaching Area (new)
DESGD

Course Number
488

Teaching Area
DESGD

Course Title
Studio Practices for Designers

Course Description
Explore studio methods and practices common to the design profession.

Department
Design

When Taught
Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
4

Lab Hours

Fixed:
0

Other Prerequisites
Graphic Design BFA majors only.

Learning Outcomes

Title
Design Marketing

Tags
137446, 1

Learning Outcome
Students will be able to understand the process of selling design, self-promotion, and the importance of building a network.

Title
Professional Practices

Tags
137447, 1

Learning Outcome
Students will be able to recognize that a successful, sustained career requires both the understanding and practice of sound professional practices.

Title
Project Estimating

Tags
137448, 2

Learning Outcome
Students will be able to implement the process of creating accurate estimates for design project costs.

Title
Starting a Design Business

Tags
137449, 3

Learning Outcome
Students will be aware of the legal and financial aspects of starting a design studio including business structures, licensing, tax implications, and legal liabilities.

Title
Freelance Design

Tags
137450, 4

Learning Outcome
Students will be able to understand the requirements of working as a freelance designer and will be prepared to effectively work in the current environment.

Title
Career Opportunities

Tags
137451, 5

Learning Outcome
Students will be able to compete in the design industry with appropriate job hunting, interviewing, and networking skills and be able to explore possible design career paths.

Title
Design Proposal & Contracts

Tags
137452, 6

Learning Outcome
Students will be able to create working proposals and contracts for the design marketplace.

Title
Intellectual Property

Tags
137453, 7

Learning Outcome
Students will be able to discern intellectual property laws that relate to design work and understand the implications of infringement, plagiarism, copyright, trademark, licensing, and the negotiation of reproduction rights.

Title
Design Ethics

Tags
137454, 8

Learning Outcome
Students will be able to identify the ethical issues facing designers and understand current professional models.

Title
Design Finances

Tags
137455, 9

Learning Outcome
Students will be able to understand the importance of adequate financial oversight in the design process and the fundamentals of bookkeeping, expense tracking, accounts receivables, and tax preparation.

DESGD 490 - BFA Capstone Project: Research

Course Information

Teaching Area (new)
DESGD

Course Number
490

Teaching Area
DESGD

Course Title
BFA Capstone Project: Research

Course Description
Students will develop personal research and design methods to aid in the completion of a capstone project of their choosing.

Department
Design

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DES 390 - Design Theory and Visual Culture
  AND DESGD 349 - History of Graphic Design

Other Prerequisites
BFA acceptance.

Learning Outcomes

Title
Writing Analysis

Tags
209131, 0, 4

Learning Outcome
Students will demonstrate effective written analysis of their research, showing an ability to evaluate, compare, and interpret ideas.

Title
Writing Standards

Tags
209132, 0, 5

Learning Outcome
Students will demonstrate appropriate rhetorical, logical, and typographic academic standards in communicating their ideas in writing.

Title
Visual Iterations

Tags
209133, 0, 6

Learning Outcome
Students will design iterations of new visual concepts demonstrating analysis of their research.

Title
Presentation

Tags
209134, 0, 7

Learning Outcome
Students will be able to defend their research and design thinking in presentation form using compelling storytelling, clear visual organization, and persuasive language.

Title
Research Methods

Tags
208781, 0, 1

Learning Outcome
Students will demonstrate careful research, manifesting skill in identifing key scholarship and ideas related to a chosen topic.

Title
Design Thinking

Tags
187318, 0, 3

Learning Outcome
Students will demonstrate and document effective application methods of design thinking to their research and final project through various modes of forming, reforming, constructing, and deconstructing concepts.

Title
Design Implementation

Tags
209135, 0, 8

Learning Outcome
Students will visualize possible major visual projects that demonstrate synthesis and mastery of their research and establish a rhetorically compelling relationship between the content and format of their design.

DESGD 491R - Collaborative Design: Brand & Strategy

Course Information

Course Number
491R

Teaching Area
DESGD

Course Title
Collaborative Design: Brand & Strategy

Course Description
Well-designed interactive products become most successful when they account for the complete context of their creation: from business strategy and brand narrative to well-crafted interfaces and targeted end goals. Consequently, the best products require collaboration between various domains working toward a common goal. Every student in this class will gain rich experience in developing a brand and strategy for a real-world product or business creation.

Department
Design

When Taught
Fall

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
6

Other Prerequisites
Admission to BFA or instructor approval

Recommended
Students will be collaborating with teams from various majors. Students may consider taking DESGD

Learning Outcomes

Title
Teamwork

Tags
213632, 0, 1, 2023-08-29 08:38:39

Learning Outcome
Students will effectively leverage cross-discipline team product work.

Title
Strategic design choice

Tags
213633, 0, 2, 2023-08-29 08:38:41

Learning Outcome
Students will demonstrate an ability to create work that achieves strategic needs and works within functional coded product or real business.

Title
Brand strategy & storytelling

Tags
213634, 0, 3, 2023-08-29 08:38:42

Learning Outcome
Students will develop, articulate, and pitch product strategy and brand storytelling as key elements of design decisions.

Title
Brand identity & design systems

Tags
213635, 0, 4, 2023-08-29 08:38:43

Learning Outcome
Students will be able to develop strategic brand identities with coordinated design systems.

DESGD 492 - Collaborative UX Design: Research

Course Information

Course Number
492

Teaching Area
DESGD

Course Title
Collaborative UX Design: Research

Course Description
Well-designed interactive products become most successful when they account for the complete context of their creation: from business strategy and brand narrative to well-crafted interfaces and targeted end goals. Consequently, the best products require collaboration between various domains (designers, software engineers, and product managers) working toward a common goal. Every student in this class will gain a rich experience in real-world product creation.

Students are invited to think of themselves as more than designers but as co-founders, not just students but entrepreneurs. For you and your teams, collaboration should not be limited to each member's own domain of expertise and should compound your team members' strengths through frequent collaboration, iteration, and validation.

Department

1

Fixed/Max:
6

Other Prerequisites
BFA advisor's consent.

Learning Outcomes

Title
Mentor-Assisted Project

Tags
137470, 1

Learning Outcome
Students will be able to meet regularly with a professor or mentor throughout the course of the semester to complete a project of their own choosing.

DESIL 101 - Drawing and Composition

Course Information

Teaching Area (new)
DESIL

Course Number
101

Teaching Area
DESIL

Course Title
Drawing and Composition

Course Description
Drawing methods and practices combined with compositional foundations for visual communicators. Students will develop observation and conceptual drawing skills. Students will also develop visual problem solving, analytical thinking, and craftsmanship by applying design principles to compositional problems. Skills are developed through intensive practice, lecture, demonstration, and critique.

Department
Design

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

0

Other Prerequisites
Pre-illustration and design majors or instructor consent only.

Fee
25

Note
Fee.

Learning Outcomes

Title
Drawing as Visual Language

Tags
187304, 1

Learning Outcome
Students will be able to understand the elements and principles of design as applied to drawing practice and understand the concepts and terminology necessary to discuss visual ideas in meaningful ways. Students will also be able to analyze representational modes of visual communication.

Title
Linear and Tonal Drawing Concepts

Tags
187305, 2

Learning Outcome
Students will be able to work from life in creating drawings that demonstrate a conceptual understanding of and practical proficiency in linear and tonal drawing methods. These include gesture, contour, sighting, and perspective construction, as well as an understanding of light to describe three-dimensional forms, surface materials, textures, and atmospheric effects.

Title
Design Theory and Practice

Tags
187306, 3

Learning Outcome
Students will be able to demonstrate fluency in two-dimensional design theory by working through the ideation and iterative process. Fundamental design principles will be applied in compositional exercises ("thumbnails") focusing on unity, variety, balance, emphasis, rhythm etc.

Title
Design Aesthetics and Presentation

Tags
187307, 4

Learning Outcome
Students will be able to exhibit enhanced visual perception, aesthetic sensitivity, good organization, craftsmanship, presentation and taste in design exercises, projects, and assignments.

Learning Outcomes

Title
Research Paper and Presentation

Tags
54426, 7

Learning Outcome
Students become familiar with other digital illustration professionals and how the digital medium is used in their work through a student research paper project and class presentation,

Title
Digital Media Workflow

Tags
137476, 1

Learning Outcome
Students will be able to implement digital painting methods and techniques using professional 2D graphics software to create studies and original illustrations.

Title
Visual Production and Critique

Tags
137477, 2

Learning Outcome
Students will be able to produce creative visual solutions with ingenuity and imagination as well as develop a greater capacity for critiquing others' work and their own.

Title
Ethics of Digital Imagery

Tags
137478, 2

Learning Outcome
Students will be able to discuss and analyze the legal, ethical, and spiritual aspects of illustration in digital media and culture.

Title
Professional Design Processes

Tags
137479, 6

Learning Outcome
Students will be able to apply professional processes to the design and rendering of digital images.

Learning Outcomes

Title
Illustration Process

Tags
137487, 1

Learning Outcome
Students will be able to utilize effective processes for developing studies and digital illustrations and demonstrate creative solutions for visual problems.

Title
Digital Media Workflow

Tags
137488, 1

Learning Outcome
Students will be able to create original illustrations using digital painting methods and techniques of professional 2D graphics software.

Title
Design Theory and Practice

Tags
137489, 2

Learning Outcome
Students will be able to synthesize and apply design principles including drawing, value, composition, color, and texture, and perspective.

Title
Professional Application

Tags
137490, 3

Learning Outcome
Students will have a greater understanding of professional practices, market applications, and careers in digital illustration.

Title
Ethics of Digital Imagery

Tags
137491, 4

DESIL 243 - Typography 1

Course Information

Course Number
243

Teaching Area
DESIL

Course Title
Typography 1

Course Description
Studio course which familiarizes the student with the history, terminology, elements, and principles of effective typographic communication.

Department
Design

When Taught
Fall, Winter, and Spring

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Other Prerequisites
Illustration BFA majors only.

Learning Outcomes

Title
1. Perceive and compose with typographic forms in both found and designed contexts.

Learning Outcome
Students will be able to recognize typographic patterns and relationships in everyday environments, create compelling visual compositions from found typography, and translate these observational skills into intentional design decisions that demonstrate understanding of form, color, rhythm, and thematic coherence.

Title
2. Understand typography's history and cultural power to design with discernment.

Learning Outcome
Students will be able to trace how typography has evolved from metal type to digital fonts, recognize how type both reflects and shapes culture, and make design choices that communicate truth and promote goodness.

Title
3. Design typographic systems that make communication clear and accessible.

Learning Outcome
Students will be able to create purposeful typographic designs—from single pages to multi-page magazines—using hierarchy, spacing, grids, alignment, and gestalt principles to make information easier to understand and use.

Title
4. Create original letterforms with conceptual purpose.

Learning Outcome
Students will be able to design custom letters or adapt existing typefaces to express a clear visual idea, demonstrating skillful construction and the ability to explain design decisions honestly and clearly.

Title
5. Master typographic terminology and communicate professionally.

Learning Outcome
Students will be able to use correct typographic vocabulary—including letterform anatomy and type classification—to discuss design decisions precisely and collaborate effectively with other designers.

Title
6. Engage in reflective practice and recognize design as service.

Learning Outcome
Students will be able to present design work persuasively, give and receive constructive criticism with humility and grace, acknowledge sources honestly, and develop sensitivity to how typography can serve or harm—making messages more accessible and humane or creating barriers and confusion.

DESIL 250 - Intermediate Life Drawing

Course Information

Teaching Area (new)
DESIL

Course Number
250

Teaching Area
DESIL

Course Title
Intermediate Life Drawing

Course Description
Drawing the classic figure from gesture to finished rendering, emphasizing structure, anatomy, form, and medium.

Department
Design

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DES 150 - Introduction to Life Drawing

Other Prerequisites
Illustration BFA majors only.

Learning Outcomes

Title
Skeletal and Muscular Landmarks

Tags
137480, 0

Learning Outcome
Students will be able to draw the skeletal structure and identify major muscle landmarks from reference and memory as well as have a deeper understanding of anatomy.

Title
Tools and Procedures

Tags
137481, 0

Learning Outcome
Students will be able to implement knowledge of tools and procedures used in successful life drawing, including proportion, gesture, balance, foreshortened perspective, composition, drapery, and a high degree of 3-dimensional structure through light and shadow (folds).

Title
Media Specialization

Tags
137482, 1

Learning Outcome
Students will be able to proficiently implement into their drawings at least one of the illustration mediums emphasized (nupastel, charcoal, conte crayon, graphite).

DESIL 263 - Narrative Illustration

Course Information

Teaching Area (new)
DESIL

Course Number
263

Teaching Area
DESIL

Course Title
Narrative Illustration

Course Description
Narrative problem solving through the use of character, mood, and environment to tell a story or develop a conceptual idea. Study of media, aesthetic principles, and classic story models.

- DESIL 130 - Illustration Fundamentals
  AND DESIL 140 - Introduction to Digital Illustration

Other Prerequisites
Illustration BFA acceptance only.

Learning Outcomes

Tags
213636, 0, 1, 2023-08-29 08:38:55

Learning Outcome
Students will be able to create marketable illustrations in concept, rough sketches, color comps, and finished art with an emphasis on effectively communicating story concept.

Tags
213637, 0, 2, 2023-08-29 08:38:56

Learning Outcome
Students will be able to demonstrate proficiency in at least one of the illustration mediums studied, including lino-cut, paper sculpture, dimensional maquettes, acrylics, gouache, or digital illustration.

Tags
213638, 0, 3, 2023-08-29 08:38:58

Learning Outcome
Students will be able to analyze and develop visual images based on narrative (literal) and limited conceptual (symbolic) illustration solutions.

Tags
213639, 0, 4, 2023-08-29 08:38:59

Learning Outcome
Students will be able to incorporate a deep theoretical and practical understanding of design into their work.

DESIL 330 - Message + Meaning

Course Information

Teaching Area (new)
DESIL

Course Number
330

Teaching Area
DESIL

Course Title
Message + Meaning

Course Description
In this advanced illustration course, students will delve into the rich world of visual semiotics, exploring the intricate interplay between symbols, signs, and cultural context in visual art. Students will learn to decode the underlying messages and narratives embedded within illustrations across different cultures and historical periods through theoretical study and practical application. Students will develop a nuanced understanding of how visual elements communicate meaning, ideology, and emotion by analyzing seminal works and contemporary examples. Through hands-on projects and critiques, students will hone their skills in crafting illustrations that effectively convey complex ideas and provoke thoughtful interpretation. This course empowers students to become discerning creators equipped with the tools to imbue their illustrations with layers of significance and resonance.

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DESIL 230 - Painting Fundamentals

Other Prerequisites
Illustration BFA majors only.

Learning Outcomes

Title
Analyze and Interpret Visual Language

Learning Outcome
Students will demonstrate the ability to critically analyze visual elements such as composition, color, and symbolism in diverse illustrative works, identifying underlying meanings and messages within the context of cultural and historical frameworks.

Title
Synthesize Theory and Practice

Learning Outcome
Through practical exercises and projects, students will integrate theoretical knowledge of visual semiotics with their artistic practice, applying principles of visual communication to create illustrations that effectively convey complex concepts, emotions, and narratives.

Title
Cultivate Visual Literacy

Learning Outcome
Students will develop a heightened visual literacy, recognizing and interpreting the significance of visual cues and symbols in traditional and contemporary illustrations. They will articulate how visual elements contribute to an illustration's overall meaning and impact.

Title
Experiment with Narrative Techniques

Learning Outcome
By exploring various narrative techniques and visual storytelling strategies, students will expand their repertoire of illustrative approaches, learning to employ techniques such as sequencing, metaphor, and allegory to convey layered meanings and provoke audience engagement and reflection.

Title
Engage in Constructive Critique and Revision

Learning Outcome
Through peer critiques and instructor feedback, students will learn to evaluate their work and the work of others with a discerning eye, providing constructive feedback grounded in the principles of visual semiotics. They will develop the ability to revise and refine their illustrations iteratively, honing their skills in crafting imagery that resonates with clarity and depth of meaning.

Learning Outcomes

Tags
213640, 0, 1, 2023-08-29 08:39:00

Learning Outcome
Students will be able to proficiently apply outdoor painting concepts, methods, and techniques involving oils and/or watercolors such as principles of natural light and the theory of varied environmental conditions. Students will also be able to apply their knowledge of the history and contemporary practice of plein-air painting.

Tags
213641, 0, 2, 2023-08-29 08:39:02

Learning Outcome
Students will be able to paint successfully observed studies of the natural landscape en plein air and utilize the practice in the creative process to develop studio illustrations. Students will also be able to gather, interpret, and utilize supplemental photographic landscape reference.

Tags
213642, 0, 3, 2023-08-29 08:39:04

Learning Outcome
Students will be able to apply principles of design, composition, light and shadow, linear and atmospheric perspectives, and color theory to outdoor studies and studio illustrations. Students will be able to use color as a narrative and thematic tool and apply it consistently throughout a series of sequential pieces.

Tags
213643, 0, 4, 2023-08-29 08:39:06

Learning Outcome
Students will be able to appreciate the order and beauty of the natural environment, the aesthetics of light and color, and the environment as an artistic subject to communicate uplifting narratives, themes, and concepts.

DESIL 354 - Survey of Illustration History

Course Information

Teaching Area (new)
DESIL

Course Number
354

Teaching Area
DESIL

Course Title
Survey of Illustration History

Course Description
Survey of the international history of illustration highlighting the evolution of techniques and artistic movements that shape contemporary image-making.

Department
Design

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Learning Outcomes

Title
Drawing Skills

Tags
137533, 1

Learning Outcome
Students will be able to sketch from life at different locations.

Title
Sketchbooks

Tags
137534, 2

Learning Outcome
Students will be able to use a sketchbook to improve their work through ideation and creative process, and strengthen these skills through study of other artist's use of sketchbooks.

Title
Sketchbook Use in Portfolios

Tags
137535, 3

Learning Outcome
Students will be able to understand how sketches have been used historically and how sketchbooks factor in as major components of portfolios and jobs.

DESIL 358 - Character Design for Illustrators

Course Information

Teaching Area (new)
DESIL

Course Number
358

Teaching Area
DESIL

Course Title
Character Design for Illustrators

Course Description
This course focuses on concepts and projects dealing with the creation of characters, both realistic and imaginary. Using both traditional and digital techniques, students will apply appropriate artistic direction as practiced throughout the field of illustration.

Complete ALL of the following Courses:

- DESIL 130 - Illustration Fundamentals

OR

Prerequisites

Complete ALL of the following Courses:

- DESAN 265 - Visual Development

Other Prerequisites
Illustration or Animation BFA majors.

Learning Outcomes

Title
Visual Narrative Communication

Tags
137536, 0, 1

Learning Outcome
Students will create characters and accoutrements that demonstrate a strong understanding of visual design, the influence of the story world or setting, and the relationship between form and function. Students will have the ability to visually communicate not just physical attributes but also cultural histories, personalities, attitudes, and motivations of characters.

Title
Ideation, Research, and Reference

Tags
137537, 0, 2

Learning Outcome
Students will apply their design process using sound practices of visual ideation, research, observation, and reference-gathering to design believable characters by combining reference with imagination. Students will cultivate a working knowledge of applicable history, including fashion design, architecture, and culture.

Title
Design Theory and Process

Tags
137538, 0, 3

Learning Outcome
Students will be able to distinguish between the design processes of concept art and production illustration. They will apply design principles such as shape, silhouette, gestalt, composition, color, pattern and texture to finish their illustrations at a professional level.

Title
Art Direction and Stylistic Coherence

Tags
187241, 0, 1

Learning Outcome
Students will understand and apply art direction in developing a coherent, appealing visual style for characters in a narrative environment. This will include direction and insight from clients, editors, and their peers.

Title
Individual Vision and Professional Presentation

Tags
187242, 0, 2

Learning Outcome
Students will develop an individual vision and style for a fictional story world as well as prepare and deliver a presentation for that world with its cast of characters and creatures. Students will learn to discuss and analyze peers' concepts to explore various approaches and improve methods.

Learning Outcomes

Title
Professional Preparation

Tags
137574, 1

Learning Outcome
Students will be able to apply leadership principles, practice business ethics, and complete creative objectives necessary to embrace the transition from academic life to that of a committed professional artist.

Title
Personal and Visionary Business Strategy

Tags
137575, 2

Learning Outcome
Students will be able to ponder, appraise, and incorporate their academic experience into a personal and visionary business strategy that reflects an understanding of diverse market trends. Students will be able to locate and network with potential clients and contacts and generate supportive associations and structures within their chosen fields of expertise.

Title
Practices in the Market

Tags
187248, 1

Learning Outcome
Students will be able to understand professional illustration practices and the current state of the market as well as how the business of illustration is operated and the current issues affecting it. Students will be able to understand and incorporate into their own practice social outreach strategies, networking practices, tax preparation, contracts and licensing, website design, marketing, and pricing of artwork.

Note
Also offered by BYU Independent Study; enroll anytime throughout the year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Technical Competency

Tags
137581, 0

Learning Outcome
Students will be able to understand the basic aspects of photography dealing with composition and subject matter and understand the technical aspects of photography, ISO, Shutter and Exposure.

Title
Good Design

Tags
137582, 1

Learning Outcome
Students will be able to sensitively compose photographs using the elements and principles of good design.

Title
Effective Use of Light

Tags
137583, 2

Learning Outcome
Students will be able to effectively use light in general and use it to define form.

Title
Seeing and Creativity

Tags
137584, 3

Learning Outcome
Students will be able to see photographically and think creatively.

Title
Digital Imaging Workflow

Tags
137585, 4

Learning Outcome
Students will be able to develop a personal digital imaging workflow to manage their creative output.

DESPH 120 - Conceptual Practices and Creative Exploration

Course Information

Teaching Area (new)
DESPH

Course Number
120

Teaching Area
DESPH

Course Title
Conceptual Practices and Creative Exploration

Course Description
This course serves as a critical examination of the photographic medium as a form of visual communication and creative expression—an exploration that will come about mainly through readings, discussions, and image-making activities.

Department
Design

When Taught
Winter.

Credit Hours

Students will operate with a developed understanding of basic elements of filmmaking, including cinematography, writing, producing, and directing.

Title
Camera Techniques

Tags
137598, 3

Learning Outcome
Students will demonstrate correct operating procedures of cinematography through a deliberate technical use of the camera.

Title
Lighting Techniques

Tags
137599, 4

Learning Outcome
Students will demonstrate appropriate lighting techniques related to cinematography while utilizing natural and artificial light sources both in studio and on location.

Title
Film Editing

Tags
187255, 1

Learning Outcome
Students will be able to edit films using the most current editing software.

DESPH 270 - Introduction to Black and White Photography and Darkroom Techniques

Course Information

Teaching Area (new)
DESPH

Course Number
270

Teaching Area
DESPH

Course Title
Introduction to Black and White Photography and Darkroom Techniques

Course Description
Basic camera and darkroom techniques emphasizing black and white film processing and printmaking with concern for visual communication, aesthetics, and personal expression.

Department
Design

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Other Prerequisites
Photography BFA acceptance only.

Fee
150

Note
Fee.

Learning Outcomes

Title
Entry Level Processing and Printing

Tags
137600, 1

Learning Outcome
Students will be able to apply entry level skills of processing and printing traditional (meaning film vs. digital) black and white photographs, including a variety of special effect techniques.

Title
35mm and Medium Format Camera Skills

Tags
137601, 2

Learning Outcome
Students will be able to apply entry level professional skills associated with traditional 35mm and medium format film camera systems.

DESPH 273 - Digital Imaging and Compositing

Course Information

Teaching Area (new)
DESPH

Course Number
273

Teaching Area
DESPH

Course Title
Digital Imaging and Compositing

Course Description
This course focuses on utilizing current image creation software to pre-visualize and create photographic imagery that did not exist in front of the camera—including compositing existing imagery, incorporating AI tools, best practice digital workflow, and print output.

Department
Design

When Taught
Winter.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DESPH 120 - Conceptual Practices and Creative Exploration **AND** DESPH 260 - Filmmaking 01

Other Prerequisites
Photo- & Lens- Based Design BFA acceptance and Design majors only.

Note
Lab required.

Learning Outcomes

Title
2D Imagery Design & Composition

Tags
137602, 1

Learning Outcome
Students will be able to effectively and efficiently apply design and compositional skills in two-dimensional imagery.

Title
Professional Digital Workflow

Tags
137603, 2

Learning Outcome
Students will be able to apply entry-level, professional skills with digital workflow, including skills with relevant industry related software and working methods utilized by digital retouchers.

DESPH 276 - Visual Storytelling

Course Information

Teaching Area (new)
DESPH

Course Number
276

Teaching Area
DESPH

Course Title
Visual Storytelling

Course Description
Narrative storytelling through the medium of photography. Concepts, techniques and styles used in photojournalism, documentary, and photoreportage.

Department
Design

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DESPH 120 - Conceptual Practices and Creative Exploration **AND** DESPH 240 - Lighting 1

Other Prerequisites
Photography BFA acceptance or Design majors only.

Learning Outcomes

Title
Editorial Techniques and Styles

Tags
137608, 1

Learning Outcome
Students will be able to use the techniques and styles used in editorial photography with and emphasis on content, concept, and narrative as used in photojournalism, documentary, and photo-reportage, including techniques used to tell stories and persuade thought and opinion in editorial media.

Title
Portable Flash Systems

Tags
137609, 2

Learning Outcome
Students will be able to implement camera and lighting techniques used in location editorial photography, including the use of portable dedicated and non-dedicated flash systems.

Title
Historic and Contemporary Photographers

Tags
137610, 3

Learning Outcome
Students will be able to identify the styles and techniques used by a variety of significant editorial photographers both historic and contemporary.

DESPH 360 - Filmmaking 02

Course Information

Teaching Area (new)
DESPH

Course Number
360

Teaching Area
DESPH

Course Title
Filmmaking 02

Course Description
This course explores advanced approaches to filmmaking, with a greater emphasis on the roles of production.

Department
Design

When Taught
Fall.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Complete ALL of the following Courses:

- DESPH 260 - Filmmaking 01
  AND DESPH 273 - Digital Imaging and Compositing

Other Prerequisites
Photo- & Lens- Based Design BFA majors only.

Learning Outcomes

Title
Film Production

Tags
187256, 4

Learning Outcome
Students will be able to create effective films through a greater awareness of different roles and tasks related to film production.

Title
Cinematography, Lighting and Style

Tags
187257, 2

Learning Outcome
Students will develop their own aesthetic identity as directors and cinematographers using advanced lighting techniques while working on location and with specific subjects.

Title
Film Editing

Tags
187258, 3

Learning Outcome
Students will be able to edit films using the most current editing software.

DESPH 370 - Survey of Applied Photography

Course Information

Teaching Area (new)
DESPH

Course Number
370

Teaching Area
DESPH

Course Title
Survey of Applied Photography

Course Description
Introduction to a broad range of photographic applications, including copy work, portraiture, editorial, architectural, and photojournalism.

Department
Design

When Taught
Fall

Credit Hours

Note
Lab required. Fee.

Learning Outcomes

Title
New Skills and Processes

Tags
137618, 1

Learning Outcome
Students will be able to continually teach themselves new processes in order to have an artistic career of continual discovery and creative exploration

Title
Expanded Processes and Creative Expression

Tags
137619, 2

Learning Outcome
Students will be able to analyze and apply new and different photographic processes and aesthetics in order to expand their creative expression.

Title
History of Photography

Tags
137620, 3

Learning Outcome
Students will be able to understand and apply their knowledge of the history of photography.

Title
New Skills and Processes

Tags
208426, 0, 1

Learning Outcome
Students will be able to continually teach themselves new processes in order to have an artistic career of continual discovery and creative exploration

Title
Expanded Processes and Creative Expression

Tags
208427, 0, 2

Learning Outcome
Students will be able to analyze and apply new and different photographic processes and aesthetics in order to expand their creative expression.

Title
History of Photography

Tags
208428, 0, 3

Learning Outcome
Students will be able to understand and apply their knowledge of the history of photography.

DESPH 378 - Junior Portfolio

Course Information

Teaching Area (new)
DESPH

Course Number
378

Teaching Area
DESPH

Course Title
Junior Portfolio

Course Description
Advanced approaches to photography, including conceptual, social, and aesthetic values culminating in a Junior level portfolio project.

Department
Design

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DESPH 273 - Digital Imaging and Compositing

Other Prerequisites
Photography BFA acceptance only.

Learning Outcomes

Title
Gospel Standards and Contemporary Art

Tags
137635, 3

Learning Outcome
Students will be able to successfully incorporate gospel standards while navigating through the environments of contemporary art movements.

Title
Photographic Analysis

Tags
137633, 1

Learning Outcome
Students will be able to understand, analyze, and broaden their perspective of contemporary practices in photography.

Title
Critical Evaluation and Critique Strategies

Tags
137634, 2

Learning Outcome
Students will be able to apply advanced levels of critical evaluation, self-motivations, and critique strategies of their own work as well as the work of others.

DESPH 379 - History of Photography

Course Information

Teaching Area (new)
DESPH

Course Number
379

Teaching Area
DESPH

Course Title
History of Photography

Course Description
Origin and development of photographic aesthetics.

Department
Design

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Other Prerequisites
Design majors only or instructor consent.

Learning Outcomes

Title
Scope

Tags
137621, 0

Learning Outcome
Students will be able to understand the history of photography from the nineteenth-century to the present.

Title
Style

Tags
137622, 1

Learning Outcome
Students will be able to articulate the characteristics of the period styles, processes, techniques, cultural uses, and philosophies of key photographers in Europe and the Western Hemisphere. Students will be able to analyze and identify important photographs and collections in terms of style, patronage, reception, and meaning.

Title
Research Skills

Tags
137623, 2

Learning Outcome
Students will be able to apply art historical research skills in conducting advanced research focused on a single photographer or photograph.

Title
State of Research

Tags
137624, 4

Learning Outcome
Students will be able to situate their informed, original ideas within the best publications and reviews of period photography.

Title
Sources

Tags
137625, 0, 5

Learning Outcome
Students will be able to demonstrate familiarity with advanced research skills and best research practices as taught by the course professor and supported the by the HBLL Art History and Photography research guides. Students will also be able to use acceptable style guides.

DESPH 388 - Professional Practices

Course Information

Teaching Area (new)
DESPH

Course Number
388

Teaching Area
DESPH

Course Title
Professional Practices

Course Description
This course serves as a primer to a creative career in photography and lens-based media. Students will have the opportunity to learn essential business practices from active professionals representing a variety of fields—ranging from commercial to fine-art, and in-house to freelance.

Department
Design

When Taught
Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
4

Lab Hours

Fixed:
0

Simple Requisites

Prerequisitie

Type
Prerequisite

Complete ALL of the following Courses:
- DESPH 378 - Junior Portfolio

Other Prerequisites
Photo- & Lens- Based Design BFA acceptance only.

Learning Outcomes

Title
Career Focus & Preparation

Tags
137636, 1

Learning Outcome
Students will be able to define their intended career focus and will create a plan to pursue a relevant internship prior to graduation.

Title
Contemporary Business Practices

Tags
137637, 2

Learning Outcome
Students will acquire knowledge of common business practices in a variety of careers through presentations from industry professionals and in-class discussions.

Title
Marketing Strategies

Tags
137638, 3

Learning Outcome
Students will create (or refine an already existent) website and social media account, and prepare other marketing materials relevant to a career in photography and lens-based media.

Photo- & Lens- Based Design BFA acceptance only.

Fee
150

Note
Fee.

Learning Outcomes

Title
Location Production

Tags
137630, 0

Learning Outcome
Students will be able to produce and carry out a shoot on location effectively and efficiently with attention given to lighting, set design, and production planning.

Title
Location Photography

Tags
137631, 1

Learning Outcome
Students will be able to apply skills in professional location photography, including those connected to corporate, industrial, editorial, and advertising photography.

DESPH 477R - Nature Photography

Course Information

Teaching Area (new)
DESPH

Course Number
477R

Teaching Area
DESPH

Course Title
Nature Photography

Course Description
Techniques of professional nature and landscape photography.

Department
Design

When Taught
Spring Term

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Other Prerequisites
Photography BFA acceptance or instructor's consent.

Learning Outcomes

Title
Nature Photography Techniques and Philosophies

Tags
187279, 1

Learning Outcome
Students will be able to apply the techniques and philosophies associated with photographing nature, landscape, and wildlife, including incorporating the techniques of several master landscape and wildlife photographers.

Title
Natural Light and Weather Conditions

Tags
187280, 2

Learning Outcome
Students will be able to understand natural light and weather conditions related to photography as well as be aware of the natural world, including flora, fauna, earth forms, and sky objects.

Title
Creative Decision Making

Tags
187281, 3

Learning Outcome
Students will be able to apply creative decision making skills related to camera controls and compositional theories in making emotive and connotative photographs of the natural world.

DESPH 490 - BFA Capstone Project: Research

Course Information

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:
- DESPH 490 - BFA Capstone Project: Research

Other Prerequisites
BFA advisor's consent.

Learning Outcomes

Title
Course Outcome #1

Tags
54150, 0

Learning Outcome
Students will research and write a thesis paper culminating in a Capstone photographic project.

Title
Presentation

Tags
208769, 0, 1

Learning Outcome
Students will be able to present the results of their research and implement a capstone photographic project with compelling storytelling and clear visual organization.

Title
Execution

Tags
208770, 0, 2

Learning Outcome
Students will execute a plan derived from their written thesis in support of a final capstone project.

Title
Research Paper

Tags
187284, 1

Learning Outcome
Students will be able to research and write a thesis paper culminating in a Capstone photographic project.

DESPH 498R - Directed Studies in Photography

Course Information

Teaching Area (new)
DESPH

Course Number
498R

Teaching Area
DESPH

Course Title
Directed Studies in Photography

Course Description
Credit fort work experience in photography.

Department
Design

When Taught
Contact Department

Credit Hours

Min:
1

Fixed/Max:
6

Other Prerequisites
BFA advisor's consent.

Learning Outcomes

Title
Self Directed Project with Mentorship

Tags
187285, 1

Learning Outcome
Students will be able to use a specific technical or conceptual practice in relationship to the photographic medium.

DESPX 115 - Product & User Experience Design 1

Course Information

Teaching Area (new)
INDES

Course Number
115

Teaching Area
DESPX

Course Title
Product & User Experience Design 1

Course Description
Basics of how to evaluate, and apply principles of structured creativity to develop new and useful ideas. Understanding of verbal and visual presentations as a tool for communicating new ideas.

Department
Design

When Taught
Contact Department

Credit Hours

Fixed/Max:
4

Lecture Hours

Fixed:
8

Lab Hours

Fixed:
0

Other Prerequisites
For Pre-Product & User Experience Design and Pre-Interdisciplinary BA Students only.

Learning Outcomes

Title
Remember

Tags
213649, 0, 1, 2023-08-29 08:39:52

Learning Outcome
Students will: Recall the components of the USERS model for design thinking. Describe the three cognitive modes of designer thinking. List the 4p's of creativity.

Title
Understand

Tags
213650, 0, 2, 2023-08-29 08:39:54

Learning Outcome
Students will: Define and explain what is meant by structured creativity. Give examples of blocks to creative thinking. Summarize the five principles of divergent thinking.

Title
Application

Tags
213651, 0, 3, 2023-08-29 08:39:55

Learning Outcome
Students will: Employ the three practices for each of the USERS principles. Demonstrate creative thinking tools and techniques. Understand basic principles of presenting compelling and persuasive ideas to others.

Title
Analyze

Tags
213652, 0, 4, 2023-08-29 08:39:56

Learning Outcome
Students will: Identify the purpose of sketching in exploring and communicating ideas. Relate the relationship of flexibility and fluency in concept generation.

Title
Evaluate

Tags
213653, 0, 5, 2023-08-29 08:39:57

Learning Outcome
Students will: Critique and provide feedback to other student's ideas. Appraise their own tolerance for ambiguity. Access their performance in relation to their peer group.

Title
Design

Tags
213654, 0, 6, 2023-08-29 08:39:59

Learning Outcome
Students should be able to: Construct original and useful ideas by questioning, comparing and combining, Develop unified 3D and interactive compositions. Visualize, validate, and iterate design concepts

DESPX 200 - Prototyping Processes and Materials

Course Information

Teaching Area (new)
INDES

Course Number
200

Teaching Area
DESPX

Course Title
Prototyping Processes and Materials

Course Description
Introduction to the tools, machines, materials, and processes that allow for the production of prototypes and realization of designs.

Department
Design

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DESPX 220 - Intro to Physical Product Design

Learning Outcomes

Title
Safe lab practices

Tags
213655, 0, 1, 2023-08-29 08:40:00

Learning Outcome
Students will understand and apply safe, prototyping lab practices as you train on the safe use of tools and machines, such as: files, chisels, handsaws, hand drills, the drill press, the band saw, table saw, and wood & metal miter saws, lathes, grinders, and the thermoformer.

Title
Material and assembly processes

Tags
213656, 0, 2, 2023-08-29 08:40:01

Learning Outcome
Students will practice and analyze material additive and subtractive processes to become familiar with common prototyping materials and assembly processes.

Title
Prototyping processes

Tags
213657, 0, 3, 2023-08-29 08:40:02

Learning Outcome
Students will understand, and apply typical prototyping procedures, including: woodworking, 3D printing, vacuum forming, sheet metal bending, laser cutting, CNC milling, casting, molding, painting, surface finishing, gluing, fastening

Title
Prototype construction

Tags
213658, 0, 4, 2023-08-29 08:40:04

Learning Outcome
Students will construct concept models and working prototypes.

DESPX 210 - 3D Modeling Principles

Course Information

Teaching Area (new)
INDES

Course Number
210

Teaching Area
DESPX

Course Title
3D Modeling Principles

Course Description
Computer software programs relative to design disciplines.

Department
Design

When Taught
Fall.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Completion Requirement

Complete ALL of the following Courses:
- DESPX 220 - Intro to Physical Product Design

Other Prerequisites
Design BFA & BA majors only.

Learning Outcomes

Title
Understanding

Tags
213659, 0, 1, 2023-08-29 08:40:05

Learning Outcome
Students should: - Understand and apply principles of good design intent to develop robust modeled geometry. - Understand both solid and surface modeling principles and how of effectively apply them.

Title
Application

Tags
213660, 0, 2, 2023-08-29 08:40:06

Learning Outcome
Students should be able to: - Use Solidworks and Photoview 360 effectively to develop and communicate ideas. - Apply solid modeling to develop 3D parts with: Machining and rapid prototyping.

DESPX 214 - Manufacturing Materials & Processes

Course Information

Teaching Area (new)
INDES

Course Number
214

Teaching Area
DESPX

Course Title
Manufacturing Materials & Processes

Course Description
Manufacturing tools, processes, and materials commonly used in product design.

Department
Design

When Taught
Winter.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
6

Lab Hours

Product & User Experience Design Pre-BFA status students or Design BA majors only.

Learning Outcomes

Title
Understand

Tags
213662, 0, 1, 2023-08-29 08:40:09

Learning Outcome
Students will: Understand the basic principles of perspective drawing, form construction, and simple shading.

Title
Apply

Tags
213663, 0, 2, 2023-08-29 08:40:10

Learning Outcome
Students will: Sketch using perspective and rapid visualization principles to present basic forms and simple product concepts.

Title
Evaluate

Tags
213664, 0, 3, 2023-08-29 08:40:11

Learning Outcome
Students will: Compare their work to the work of their peers and articulate the strengths and weaknesses of different sketching techniques during in-class critiques.

Title
Create

Tags
213665, 0, 4, 2023-08-29 08:40:13

Learning Outcome
Students will: Produce basic sketch-based drawings for product concept communication. Use sketching as a tool for thinking and presentation.

DESPX 230 - Product Studio 1

Course Information

Teaching Area (new)
INDES

Course Number
230

Teaching Area
DESPX

Course Title
Product Studio 1

Course Description
In a studio-based mentored environment, students apply foundational principles of problem identification, data analysis & synthesis, concept and idea generation, form development, and basic validation in a series of more complex physical product design scenarios.

Department
Design

When Taught
Fall

Students will be able to apply: Principles of aesthetics and form Design skills to a project in a studio based environment Make things Presentation methods to communicate ideas clearly

DESPX 231 - Visualization & Presentation Methods

Course Information

Teaching Area (new)
INDES

Course Number
231

Teaching Area
DESPX

Course Title
Visualization & Presentation Methods

Course Description
Creating appropriate imagery for industrial design presentations. Improving on the analog motor skill of sketching. Introduction to digital sketching methods to enhance fundamental sketching concepts (use of line, proportion, composition, manually indicating basic form, perspective), as well as to the use of color, materials and finishes to accurately communicate an artifact.

Department

Simple Requisites

Prerequite

Type
Prerequisite

Complete ALL of the following Courses:
- DESPX 220 - Intro to Physical Product Design

Other Prerequisites
For Product & User Experience Design BFA majors only.

Learning Outcomes

Title
Understanding

Tags
181045, 1

Learning Outcome
Student should:Have an increased appreciation regarding the importance of presentation skills.Understand how to visually represent product materials, colors, and finishes.Understand how to compose a persuasive presentation

Title
Application

Tags
181065, 1

Learning Outcome
Student will be able to:Apply basic rendering skills including lighting effects, materials, colors, surface finish to rendering and sketches.Explore the difference between analog and digital based rendering techniques

Title
Critique

Tags
181116, 2

Learning Outcome
Benchmarking and critique – looking at the work of others and judging your own work effectively.

DESPX 260 - Introduction to Digital Product Design

Course Information

Course Number
260

Teaching Area
DESPX

Course Title
Introduction to Digital Product Design

Course Description
Students will design better human interactions by mastering the process of creating usable digital experiences and crafting engaging user interfaces.

Department
Design

When Taught
Winter

Type
Completion Requirement

Complete ALL of the following Courses:
- DESPX 115 - Product & User Experience Design 1

Other Prerequisites
Product & User Experience Design Pre-BFA status & Design BA majors only.

Learning Outcomes

Title
Design Research

Tags
213668, 0, 1, 2023-08-29 08:40:17

Learning Outcome
Students will be able to use design research methods to develop empathy for end-users as they focus design efforts on user needs.

Title
Design for Code

Tags
213669, 0, 2, 2023-08-29 08:40:18

Learning Outcome
Students will be able to demonstrate understanding of the affordances, limits, and benefits of designing in code such as HTML, CSS, etc.

Title
Experiences & Usability Testing

Tags
213670, 0, 3, 2023-08-29 08:40:20

Learning Outcome
Students will be able to develop design and test concepts that effectively mediate relationships between people and products, environments, and services.

Title
Contemporary Interfaces

Tags
213671, 0, 4, 2023-08-29 08:40:21

Learning Outcome
Students will be able to create platform-specific design patterns and style with current interface design sensibilities.

Title
Digital Typography

Tags
213672, 0, 5, 2023-08-29 08:40:22

Learning Outcome
Students will be able to effectively use typography in digital spaces, demonstrating the appropriate blend of legibility and expressiveness, and responsive device-independent type with complex hierarchy across multi-screen applications.

Title
Documentation

Tags
213673, 0, 6, 2023-08-29 08:40:24

Learning Outcome
Students will be able to create detailed documentation of their design process and final design outcome, with clear written explanations of interface content and functionality.

Title
Critical analysis of interactive products

Tags
213674, 0, 7, 2023-08-29 08:40:25

Learning Outcome
Students will demonstrate critical analysis of interactive products and become more thoughtful consumers of designed products.

DESPX 261 - User Experience 2

Course Information

Course Number
261

- DESPX 210 - 3D Modeling Principles

Learning Outcomes

Title
Create physical product prototypes

Tags
213681, 0, 1, 2023-08-29 08:40:34

Learning Outcome
Create visually accurate and functional physical 3D prototypes based on the CAD models they create.

Title
Create virtual product renderings

Tags
213682, 0, 2, 2023-08-29 08:40:36

Learning Outcome
Create and evaluate computer generated product renderings.

Title
Lighting theory

Tags
213683, 0, 3, 2023-08-29 08:40:37

Learning Outcome
Evaluate and understand basic product lighting theory

Title
Rendering basics

Tags
213684, 0, 4, 2023-08-29 08:40:38

Learning Outcome
Practice HDRI editing techniques, creating environments, customizing color, materials and finishes.

Title
Workflow process

Tags
213685, 0, 5, 2023-08-29 08:40:40

Learning Outcome
Analyze and practice post production workflow.

Title
Presentations techniques

Tags
213686, 0, 6, 2023-08-29 08:40:43

Learning Outcome
Practice making exploded views for presentations.

DESPX 330 - Product Studio 2

Course Information

DESPX 338R - Field Study

Course Information

Teaching Area (new)
INDES

Course Number
338R

Teaching Area
DESPX

Course Title
Field Study

Course Description
Introduction to the professional design community and the options available to industrial designers, with the aim of preparing students to be full participants in and contributors to design culture. Insight into potential internships, a variety of careers, and different environments where employment can be pursued. Participation in workshops, visits to historical and contemporary design sites, and, potentially, pursuit of research activities.

Department
Design

When Taught
Fall and Winter

Credit Hours

Min:
2

Fixed/Max:
2

Learning Outcomes

Title
Industry Exposure

Tags
213692, 0, 1, 2023-08-29 08:40:55

Learning Outcome
Students will investigate career paths in a variety of contexts including corporate, consultancies, and independent work.

Title
Assess professional work

Tags
213693, 0, 2, 2023-08-29 08:40:57

Learning Outcome
Students will evaluate the work of professionals and assess how their work could influence their own design work.

Title
Practice design skills

Tags
213694, 0, 3, 2023-08-29 08:40:58

Learning Outcome
Students will practice design skills in workshops.

Title
Investigate contemporary and historical artifacts and sites.

Tags
213695, 0, 4, 2023-08-29 08:41:00

Learning Outcome
Students will investigate and appraise contemporary and historical design artifacts and sites.

Title
Design research

Tags
213696, 0, 5, 2023-08-29 08:41:01

Learning Outcome
Students will potentially design and implement a research project

DESPX 339 - History of Products

Course Information

Students will effectively leverage teamwork.

Title
Research and testing for validation

Tags
213709, 0, 2, 2023-08-29 08:41:22

Learning Outcome
Students will be able to use research and testing methodologies to validate strategy and empathize with and address user, customers, citizens' needs.

DESPX 461 - User Experience Portfolio

Course Information

Course Number
461

Teaching Area
DESPX

Course Title
User Experience Portfolio

Course Description
This course prepares students to present themselves and their work with confidence. Students learn to communicate the value they can provide potential employers through the development of compelling resumes, cover letters, portfolios, presentations, and interview skills. The course emphasizes clarity, professionalism, and purpose in visual, written, and oral communication. Students will reflect on the alignment of their personal, spiritual, and career goals and support one another through a collaborative, growth-oriented studio environment.

Recommended

Learning Outcomes

Title
Craft Compelling Professional Narratives

Tags
213710, 0, 1, 2023-08-29 08:41:23

Learning Outcome
Students will articulate their educational and work experience through thoughtfully written cover letters and resumes that reflect thoughtfulness, purpose, and consideration for hiring managers and companies.

Title
Develop Polished, Purposeful Portfolios

Tags
213711, 0, 2, 2023-08-29 08:41:25

Learning Outcome
Students will design and refine a portfolio that effectively communicates their design process, learning outcomes, and the impact of their work.

Title
Present Work with Clarity and Confidence

Tags
213712, 0, 3, 2023-08-29 08:41:26

Learning Outcome
Students will prepare and deliver presentations and walkthroughs of their work with clarity, professionalism, and poise, demonstrating consideration for and respect toward diverse audiences and effectively communicating the value of their contributions.

Title
Demonstrate Interview Preparedness

Tags
213713, 0, 4, 2023-08-29 08:41:27

Learning Outcome
Students will practice and receive feedback on interviews and design challenges, cultivating adaptability, reasoning, and self-awareness as they prepare to enter a competitive design industry

Title
Apply Principles of Visual and Verbal Communication

Tags
213714, 0, 5, 2023-08-29 08:41:29

Learning Outcome
Students will apply principles of typography, layout, and storytelling to visually and verbally convey their work in a clear, organized, and compelling manner.

Title
Reflect on Goals & Purpose

Learning Outcome
Students will communicate their personal and professional goals and consider how their career goals align with and support their life, family, and spiritual goals, helping them design their lives and become better agents and stewards.

Title
Cultivate a Growth-Oriented, Peer-Supported Design Practice

Learning Outcome
Students will engage in collaborative critiques and support one another's progress, developing humility, generosity, and a commitment to lifelong learning in the design profession.

DESPX 490 - Collaborative UX Design: Research

Course Information

Course Number
490

Teaching Area
DESPX

Course Title
Collaborative UX Design: Research

Course Description
Well-designed interactive products become most successful when they account for the complete context of their creation: from business strategy and brand narrative to well-crafted interfaces and targeted end goals. Consequently, the best products require collaboration between various domains (designers, software engineers, and product managers) working toward a common goal. Every student in this class will gain a rich experience in real-world product creation.

Students are invited to think of themselves as more than designers but as co-founders, not just students but entrepreneurs. For you and your teams, collaboration should not be limited to each member's own domain of expertise and should compound your team members' strengths through frequent collaboration, iteration, and validation.

Department

Learning Outcomes

Title
Teamwork

Tags
213719, 0, 1, 2023-08-29 08:41:36

Learning Outcome
Students will effectively leverage cross-discipline team product work.

Title
Design & Code

Tags
213720, 0, 2, 2023-08-29 08:41:37

Learning Outcome
Students will demonstrate an ability to create work that achieves strategic needs and works within functional coded product.

Title
User research & usability testing

Tags
213721, 0, 3, 2023-08-29 08:41:39

Learning Outcome
Students will be able to use research and testing methodologies to validate strategy and empathize with and address user needs.

Title
Prototyping

Tags
213722, 0, 4, 2023-08-29 08:41:40

Learning Outcome
Students will be able to use prototyping tools to clarify interactions and animations that enhance the user experience.

DESPX 497R - Product Design Capstone

Course Information

Course Number
497R

Teaching Area
DESPX

Course Title
Product Design Capstone

Course Description
Advanced individual design experience in the Product & User Experience space. Students take primary responsibility for problem identification and project management, showing a high degree of competence in a minimally mentored environment.

Learning Outcomes

Title
Cross-disciplinary Teamwork

Tags
213723, 0, 1, 2023-08-29 08:41:41

Learning Outcome
Students will effectively leverage cross-discipline team product work.

Title
Strategic and coded design

Tags
213724, 0, 2, 2023-08-29 08:41:42

Learning Outcome
Students will demonstrate an ability to create work that achieves strategic needs and works within functional coded product.

Title
Strategy & Storytelling

Tags
213725, 0, 3, 2023-08-29 08:41:44

Learning Outcome
Students will develop, articulate, and pitch product strategy and brand storytelling as key elements of design decisions.

Title
Branding & Interfaces

Tags
213726, 0, 4, 2023-08-29 08:41:45

Learning Outcome
Students will be able to develop strategic brand identities with coordinated interface and visual design systems.

Title
Prototyping for clarity

Tags
213727, 0, 5, 2023-08-29 08:41:46

Learning Outcome
Students will be able to use prototyping tools to clarify interactions and animations that enhance the user experience.

Title
Validation through research and testing

Tags
213728, 0, 6, 2023-08-29 08:41:47

Learning Outcome
Students will be able to use research and testing methodologies to validate strategy and empathize with and address user needs.

DESPX 499R - Directed Studies

Course Information

Teaching Area (new)
INDES

Course Number
499R

Teaching Area

Title
Information Flow & Structure

Tags
213730, 0, 1, 2023-08-29 08:41:52

Learning Outcome
Students will be able to model the flow and structure of information between users and application.

Title
Logical Reasoning

Tags
213731, 0, 2, 2023-08-29 08:41:53

Learning Outcome
Students will apply the fundamentals of programming logic, e.g., sequence of commands, conditional and looping structures, and use of variables, to solve basic programming problems.

Title
From the Abstract to the Concrete

Tags
213732, 0, 3, 2023-08-29 08:41:54

Learning Outcome
Students will be able to convert abstract design requirements into machine-executable code.

Learning Outcomes

Title
Novel Uses for Technology

Tags
199910, 3

Learning Outcome
Students will be able to propose new uses for technology based on unmet needs in the Humanities.

Title
Digital Analysis of the Humanistic

Tags
211853, 0, 4

Learning Outcome
Students will analyze humanities texts and culture using one or more digital methods.

Title
Humanistic Analysis of the Digital

Tags
211854, 0, 5

Learning Outcome
Students will analyze digital texts and culture using humanities perspectives.

DIGHT 230 - Introduction to Print Publishing

Course Information

Teaching Area (new)
DIGHT

Course Number
230

Teaching Area
DIGHT

Course Title
Introduction to Print Publishing

Course Description
Introduction to layout and typesetting and their place in the publications process; includes graphic design theory, audience analysis, and basic skills with professional desktop publishing application.

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Typesetting's Place in Publishing

Tags
199732, 4

Learning Outcome
Students will situate typesetting and printing within the scope of the publishing process as a whole.

Title
Typesetting Software

Tags
199733, 6

Learning Outcome
Students will master the basic functions of Adobe InDesign for the purpose of typesetting various publications.

Title
Design Principles

Tags
199734, 8

Learning Outcome
Students will use a set of basic design principles (proximity, alignment, repetition, contrast) to improve the quality of their publications in InDesign.

Title
Photo Editing Software

Tags
199735, 10

Learning Outcome
Students will be familiar with Adobe Photoshop and some of its uses in print publishing.

Title
Groupwork

Tags
199837, 11

Learning Outcome
Students will work effectively in groups to produce high quality printed material.

DIGHT 250 - Web Publishing

Course Information

Teaching Area (new)
DIGHT

Course Number
250

Teaching Area
DIGHT

Course Title
Web Publishing

Course Description
Overview and introduction to web programming as a form of expression. Includes HTML, CSS, and some JavaScript.

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
The Context of Web Technologies

Tags
199822, 0, 1

Learning Outcome
Students will know the history of the world wide web and the current state of its standards.

Title
Website Production

Tags
199736, 0, 4

Learning Outcome
Students will draft, design, and code static web content, and then post that content to a publicly-accessible web server.

Title
HTML/CSS/JavaScript Skills

Tags
199737, 0, 6

Learning Outcome
Students will master HTML/CSS syntax, common HTML elements/attributes and CSS properties, and basic skill with JavaScript.

Title
Web Accessibility

Tags
210934, 0, 7

Learning Outcome
Students will appreciate the need for accessible web content and memorize the fundamental requirements of modern accessibility guidelines.

DIGHT 251 - Web Publishing with HTML

Course Information

Course Number
251

Teaching Area
DIGHT

Course Title
Web Publishing with HTML

Course Description
The fundamentals of web publishing with content management systems and HTML including syntax, validity, media, and accessibility. This 1st-block course may be taken with the 2nd-block course DigHT 252: Web Design with CSS

Department
Humanities

When Taught
Contact Department

Credit Hours

Fixed/Max:
1.5

Lecture Hours

Fixed:
1.5

Note
DigHT 251 is a first-block class, and students may also enroll in the second-block DigHT 252: Web Design with CSS. Together these classes are equivalent to DigHT 250: Web Publishing. Together they may be substituted in place of DigHT 250 in programs where DigHT 250 is a requirement or an elective.

Learning Outcomes

Title
The Context of Web Technologies

Tags
213733, 0, 1, 2023-08-29 08:42:00

Learning Outcome
Students will know the history of the world wide web and the current state of its standards.

Title
Website Production

Tags
213734, 0, 2, 2023-08-29 08:42:01

Learning Outcome
Students will draft, design, and code static web content, and then post that content to a publicly-accessible web server.

Title
HTML Skills

Tags
213735, 0, 3, 2023-08-29 08:42:03

Learning Outcome
Students will master HTML syntax and HTML elements/attributes.

Title
Web Accessibility

Tags
213736, 0, 4, 2023-08-29 08:42:04

Learning Outcome
Students will appreciate the need for accessible web content and memorize the fundamental requirements of modern accessibility guidelines.

DIGHT 252 - Web Design with CSS

Course Information

Course Number
252

Teaching Area
DIGHT

Course Title
Web Design with CSS

Course Description
Web design using Cascading Style Sheets including best practices, current trends, and accessibility standards. This 2nd-block course may be taken with the 1st-block course DigHT 251: Web Publishing with HTML.

Department
Humanities

When Taught
Contact Department

Credit Hours

Fixed/Max:
1.5

Lecture Hours

Fixed:
1.5

Note
DigHT 252 is a second-block class, and students may also enroll in the first-block DigHT 251: Web Publishing with HTML. Together these classes are equivalent to DigHT 250: Web Publishing. Together they may be substituted in place of DigHT 250 in programs where DigHT 250 is a requirement or an elective.

Learning Outcomes

Title
Website Production

Tags
213737, 0, 1, 2023-08-29 08:42:06

Learning Outcome
Students will draft, design, and code static web content, and then post that content to a publicly-accessible web server.

Title
CSS/JavaScript Skills

Tags
213738, 0, 2, 2023-08-29 08:42:07

Learning Outcome
Students will master CSS syntax, CSS properties, and basic skill with JavaScript.

Title
Web Accessibility

Tags
213739, 0, 3, 2023-08-29 08:42:08

Learning Outcome
Students will appreciate the need for accessible web content and memorize the fundamental requirements of modern accessibility guidelines.

DIGHT 260 - Tools for Text Processing and Analysis

Course Information

Teaching Area (new)
DIGHT

Course Number
260

Teaching Area
DIGHT

Course Title
Tools for Text Processing and Analysis

Course Description
Introduction to tools and techniques suited for use with text analysis, including basic text encoding, text preparation, basic regular expression, and concordance programs.

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Text Representation in Computers

Tags
198078, 0, 1

Learning Outcome
Students will understand how text is represented in computers (e.g., ASCII, Unicode, emojis) and how to resolve issues with character encodings and fonts.

Title
Regular Expressions and Wildcards

Tags
198103, 0, 1

Learning Outcome
Students will construct regular expressions and wildcards to search for patterns to reformat text and add markup.

Title
Basic Scripting

Tags
211855, 0, 2

Learning Outcome
Students will be familiar with a scripting language and know how to modify templates for analyzing text files.

Title
Text Analysis Tools

Tags
211856, 0, 3

Learning Outcome
Students will use tools to analyze texts for word frequency, keywords, collocations, n-grams, and other patterns.

Title
Corpus Design and Creation

Tags
211857, 0, 4

Learning Outcome
Students will develop a WordCruncher corpus to facilitate research and text analysis.

DIGHT 310 - Programming in the Humanities 2

Course Information

Teaching Area (new)
DIGHT

Course Number
310

Teaching Area
DIGHT

Course Title
Programming in the Humanities 2

Course Description
Intermediate topics in programming for the digital humanities (E.g., media processing, database integration, web scraping, GIS APIs, etc.).

Department
Humanities

When Taught
Winter.

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DIGHT 210 - Programming in the Humanities 1

Learning Outcomes

Title
Logical Reasoning

Tags
213740, 0, 1, 2023-08-29 08:42:15

Learning Outcome
Intermediate topics in programming for the digital humanities (e.g., media processing, database integration, web scraping, GIS APIs, etc.).

Title
Intermediate Programming Concepts

Tags
213741, 0, 2, 2023-08-29 08:42:17

Learning Outcome
Students will understand programming concepts such as object orientation, recursion, trees, NLP, etc.

Title
Databases and Web Services

Tags
213742, 0, 3, 2023-08-29 08:42:18

Learning Outcome
Students will integrate databases and web services into their programs.

Title
From the Abstract to the Concrete

Tags
213743, 0, 4, 2023-08-29 08:42:20

Learning Outcome
Students convert abstract design requirements into functioning programs.

DIGHT 315 - Research in the Digital Humanities

Course Information

Teaching Area (new)
DIGHT

Course Number
315

Teaching Area
DIGHT

Course Title
Research in the Digital Humanities

Course Description
Applications of computer technology to research in the Digital Humanities across language and literature, e.g. text processing, data mining, information storage and retrieval, etc.

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DIGHT 215 - Introduction to the Digital Humanities

Recommended
DigHT 260

Learning Outcomes

Title
Research

Tags
199878, 1

Learning Outcome
Students will demonstrate an advanced level of knowledge in a chosen specialty area and conduct research in that area.

Title
Identify research questions suitable for digital approaches

Tags
211858, 0, 2

Learning Outcome
Students will identify research questions that are suitable for answering through digital approaches.

Title
Research collaboratively

Tags
211859, 0, 3

Learning Outcome
Students will conduct research collaboratively

Title
Prepare research corpus

Tags
211860, 0, 4

Learning Outcome
Students will contribute to a research corpus using a variety of digital methods.

DIGHT 330 - Print Publishing 2

Course Information

Teaching Area (new)
DIGHT

Course Number
330

Teaching Area
DIGHT

Course Title
Print Publishing 2

Course Description
Advanced application of digital layout and typesetting. Includes audience analysis, color theory, and photo preparation.

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DIGHT 230 - Introduction to Print Publishing

Learning Outcomes

Title
Criticism of Print

Tags
199858, 1

Learning Outcome
Students will be able to offer useful and appropriate criticism of printed material.

Title
Print Design Software

Tags
199859, 2

Learning Outcome
Students will master advanced techniques in Adobe InDesign including styles, libraries, and indexing.

Title
Photo Adjustment

Tags
199860, 3

Learning Outcome
Students will be able to adjust color, exposure, and other visual characteristics of photographs (Adobe Photoshop).

Title
Typsetting

Tags
199861, 4

Learning Outcome
Students will be able to typeset professional publications including books and magazines.

DIGHT 340 - JavaScript Development

Course Information

Teaching Area (new)
DIGHT

Course Number
340

Teaching Area
DIGHT

Course Title
JavaScript Development

Course Description
Intermediate-to-advanced JavaScript development tools and methods including major libraries, frameworks, and project management tools.

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DIGHT 250 - Web Publishing

Learning Outcomes

Title
JavaScript History, Ecosystem, and Limitations

Tags
210935, 0, 1

Learning Outcome
Students will know the origins and milestones in the development of JavaScript, the current status of its support, and its major libraries and frameworks. Students will also identify situations in which JavaScript would be a poor choice of tool.

Title
JavaScript Technique

Tags
210936, 0, 2

Learning Outcome
Students will master the syntax and basic built-in objects and methods of JavaScript and understand the same for several JS frameworks and libraries.

Title
JavaScript Project Structure

Tags
210937, 0, 3

Learning Outcome
Students will manage a JavaScript project conceptualized under one or more programming paradigms, and then manage that projects development with industrial tools such as GitHub and Grunt.

DIGHT 350 - Web Information Technologies

Course Information

Teaching Area (new)
DIGHT

Course Number
350

Teaching Area
DIGHT

Course Title
Web Information Technologies

Course Description
Using advanced web applications and services to create dynamic, database-driven Web sites. Integrating database methods with web publishing approaches and principles. Techniques for Web-based Digital Humanities applications such as crowd-sourced markup, automatic data visualizations, etc.

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
DigHT 250 or instructor approval

Learning Outcomes

Title
Information Schemas

Tags
199844, 0, 4

Learning Outcome
Students will organize information in various electronic schemas.

Title
Information Extraction

Tags
199742, 0, 4

Learning Outcome
Students will extract information across a variety of electronic relationships.

Title
Information Routines

Tags
199743, 0, 6

Learning Outcome
Students will routinize the insertion, extraction, manipulation, and reporting of information.

DIGHT 360 - (DigHT-Ling) Programming for Text Processing and Analysis

Course Information

Teaching Area (new)
DIGHT

Course Number
360

Teaching Area
DIGHT

Course Title
(DigHT-Ling) Programming for Text Processing and Analysis

Course Description
Development of computer applications for research in language and literature (text processing, retrieval, and analysis) in one or more programming languages (e.g., Python).

Department
Humanities

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisite

Type
Prerequisite

Complete ANY of the following Courses:

- DIGHT 210 - Programming in the Humanities 1
  OR C S 110 - How to Program
  OR C S 111 - Introduction to Computer Science

Learning Outcomes

Title
Locate Complex Patterns and Make Substitutions

Tags
198368, 5

Learning Outcome
Students will be able to locate complex patterns and make substitutions (e.g., using technologies such as Perl, Python) within texts for the purpose of manipulating and analyzing texts and corpora.

Title
Understanding of Unicode

Tags
198408, 4

Learning Outcome
Students will have an advanced understanding of Unicode and its advantages over ASCII and other text encoding standards.

Title
Practical Problems

Tags
211861, 0, 6

Learning Outcome
Students will solve practical problems in text processing, e.g., text encoding conversion, reading/writing files, and corpus management.

Title
Programming Skill

Tags
211862, 0, 7

Learning Outcome
Students will apply basic programming skills using data structures, control flow statements, and regular expressions.

Title
Python

Tags
211863, 0, 8

Learning Outcome
Students will use existing Python packages to process and manipulate texts, extract linguistic data, and generate data visualizations.

Title
Formatting Best Practices

Tags
211864, 0, 9

Learning Outcome
Students will apply code formatting standards to produce well-organized, readable, maintainable code.

DIGHT 390R - Tools Development Seminar

Course Information

Teaching Area (new)

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DIGHT 215 - Introduction to the Digital Humanities

Learning Outcomes

Title
Research

Tags
199851, 1

Learning Outcome
Students will demonstrate an advanced level of knowledge in a chosen specialty area and conduct research in that area.

DIGHT 495R - Digital Humanities Project

Course Information

Teaching Area (new)
DIGHT

Course Number
495R

Teaching Area
DIGHT

Course Title
Digital Humanities Project

Course Description
Original research project on open questions within the Digital Humanities field. Content and/or technology advisor is required.

When Taught
Fall, Winter, Spring

Credit Hours

Min:
1

Fixed/Max:
3

Other Prerequisites
Any DigHT 300-level course or instructor approval.

Learning Outcomes

Title
Work with Clients

Tags
199808, 1

Learning Outcome
Students will be able to negotiate and meet the demands of a sponsor/client to develop technology solutions.

Title
Project Proposal

Tags
199812, 0

Learning Outcome
Students will be able to draft written proposals for products/techniques they hope to develop.

Title
Solve Problems

Tags
199904, 2

Learning Outcome
Students will be able to apply their technology skills to solve a real problem they or someone else has.

DIGHT 496R - Technology Internship

Course Information

Teaching Area (new)
DIGHT

Course Number
496R

Teaching Area
DIGHT

Course Title
Technology Internship

Course Description
Sponsored development of technology tools for application within the Digital Humanities (e.g. print or electronic publishing production, courseware/software development, museum/collection/textbase management, language/linguistic tools, etc.). Approval by project sponsor, DigHT Coordinator, and BYU Internship Office are required.

When Taught
Fall, Winter, Spring

Credit Hours

Min:
1

Fixed/Max:
3

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
0

Other Prerequisites
Any DigHT 300-level course or instructor approval.

Note
An APPROVED Internship Application is required before adding.

Learning Outcomes

Title
Professional Environment

Tags
199744, 1

Learning Outcome
Students will be able to complete tasks related to DHT skills in a professional environment.

Title
Professional Level

Tags
199745, 2

Learning Outcome
Students will be able to apply at least one DHT-related technology at a professional level.

Title
Professional Traits

Tags
199746, 3

Learning Outcome
Student will be able to demonstrate professional traits such as promptness, positive demeanor, well-spokenness, etc.

DIGHT 590R - Digital Humanities Graduate Seminar

Course Information

Course Number
590R

Teaching Area
DIGHT

Course Title
Digital Humanities Graduate Seminar

Course Description
Although, as a seminar, the content of this course will vary from section to section, the content will include come combination the following:
1. Humanistic analysis of the digital as both a producer and product of culture.
2. Computational analysis of cultural artifacts such as literature, music, visual art, etc.
3. Technology skills relevant to the above activities.

Department
Humanities

When Taught
Fall and Winter

Credit Hours

Min:
1

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Digital Analysis

Learning Outcome
Students will analyze the place digital content holds in society as well as its effect on society.

Title
Computational Analysis

Learning Outcome
Students will use technology to analyze the products of human interaction and creativity (e.g., literature, music, movies, social media, etc.).

Title
Technology Skills

Learning Outcome
Students will master technology tools necessary to carry out digital analyses.

DS 115 - Data Science Majors and Careers

Course Information

Course Number
115

Teaching Area
DS

Course Title
Data Science Majors and Careers

Course Description
A review of the data science major and other CPMS data science majors; class planning; information on major resources and career opportunities.

Department
Statistics

When Taught
Fall and Winter

Credit Hours

Min:
0.5

Fixed/Max:
0.5

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

Recommended

Note
This class should be taken the first semester as a freshman or the first semester after declaring the data science major.

Learning Outcomes

Title
Degree Overview

Learning Outcome
Describe all data science major options available in CPMS

Title
Educational Plan

Learning Outcome
Create a draft of a graduation plan for declared major

Title
Employment and Internships

Learning Outcome
Know how to search and obtain academic internships, college and department(s) employment, and research opportunities.

Title
Post-Baccalaureate

Learning Outcome
Describe how to search and obtain employment or graduate school opportunities.

DS 180 - Introduction to Data Science

Course Information

Course Number
180

Teaching Area
DS

Course Title
Introduction to Data Science

Course Description
statistics; linear algebra; machine learning; data cleaning and visualization; data literacy; decomposing data science problems; critical thinking about analysis; potential pitfalls in data science

Department
Statistics

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Other Prerequisites
CS 110 or equivalent prior programming experience

Recommended
Prior programming experience should include statements, variables, control flow (if/while), and functions

DUTCH 100 - Language Study: Dutch

Course Information

0

Learning Outcomes

Title
Speaking

Tags
197443, 1

Learning Outcome
Speak target language well enough to ask for instructions and to carry out simple, routine survival-type transactions.

Title
Social Situations

Tags
197445, 2

Learning Outcome
Function appropriately in familiar, routine social situations in the target culture.

Title
Follow Instructions

Tags
197447, 3

Learning Outcome
Understand spoken and written target language well enough to follow simple instructions.

DUTCH 101 - First-Year Dutch

Course Information

Learning Outcomes

Title
Comprehension

Tags
193254, 1

Learning Outcome
Understand written and spoken target language relating to familiar topics.

Title
Speaking

Tags
193263, 2

Learning Outcome
Speak the target language well enough to satisfy immediate needs related to basic social situations, simple transactions, basic food and lodging, and routine travel.

Title
Writing

Tags
193271, 3

Learning Outcome
In the target language, write short, simple messages consisting of structurally-accurate sentences on familiar topics.

Title
Culture

Tags
193280, 4

Learning Outcome
Function appropriately in routine, familiar situations in the target culture.

DUTCH 102 - First-Year Dutch

Course Information

Teaching Area (new)
DUTCH

Learning Outcomes

Title
Vocabulary

Tags
193323, 2

Learning Outcome
Broaden vocabulary for both reception (listening and reading comprehension) and production (speaking and writing).

Title
Elaboration

Tags
193331, 1

Learning Outcome
Create structurally-accurate, elaborated utterances and begin to group utterances into paragraphs and narratives. Do this in present, past and future time.

Title
Grammar

Tags
193341, 3

Learning Outcome
Review and increase understanding of basic language structures.

Title
Culture

Tags
193349, 4

Learning Outcome
Discuss in the target language common products and practices related to every-day life in the target culture.

- DUTCH 201 - Second-Year Dutch

Note
Teacher may waive prerequisite based on prior experience.

Learning Outcomes

Title
Conversation

Tags
193359, 1

Learning Outcome
Speak comfortably about predictable, familiar topics related to daily activities; this includes the ability to Initiate, maintain, and close simple conversations and to ask and respond to simple questions.

Title
Survival Transactions

Tags
193369, 2

Learning Outcome
Carry out "survival" transactions (shopping, getting directions, ordering meals, etc.)

Title
Pronunciation and Accuracy

Tags
194560, 3

Learning Outcome
Be understood by native speakers accustomed to dealing with non-native speakers.

DUTCH 305 - Language Skills Development: Dutch

Course Information

Teaching Area (new)
DUTCH

Course Number
305

Teaching Area
DUTCH

Course Title
Language Skills Development: Dutch

Course Description
Increasing proficiency in one or more of the following Dutch language and culture skills: speaking, listening, reading, writing, cultural awareness.

Department
Language Studies

When Taught
Contact Department

Credit Hours

Min:
1

Fixed/Max:
4

Other Prerequisites
Instructor's consent.

Learning Outcomes

Title
Defined Special Purpose

Tags
197449, 1

Learning Outcome
Develop the overall language and cultural competence to meet the needs of a "special" purpose identified by the Center for Language Studies.

Title
Communication

Tags
197450, 2

Learning Outcome
Communicate effectively enough to function in a variety of situations likely to be encountered when dealing with native speakers associated with the special purpose. This may include interpersonal, interpretive, and presentational (written and oral) modes of communication.

Title
Cultural Competence

Tags
197451, 3

Learning Outcome
Interact with cultural competence and understanding when dealing with native speakers associated with the special purpose.

DUTCH 311R - Third-Year Conversation

Course Information

Teaching Area (new)
DUTCH

Course Number
311R

Teaching Area
DUTCH

Course Title
Third-Year Conversation

Course Description
Advanced conversational skills in Dutch.

Department
Language Studies

When Taught
Contact Department

Credit Hours

Min:
0.5

Fixed/Max:
5

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DUTCH 211R - Second-Year Conversation

Note
Teacher may waive prerequisite based on prior experience.

Learning Outcomes

Title
Conversations

Tags
194554, 1

Learning Outcome
Speak comfortably about predictable, familiar topics related to daily activities and current events; this includes the ability to initiate, maintain, and close conversations and to ask and respond to questions.

Title
Organized Speech

Tags
194555, 2

Learning Outcome
Begin to speak in "oral paragraphs."

Title
Strategies

Tags
194556, 3

Learning Outcome
Apply appropriate strategies to deal with unpredictable language situations.

Title
Pronunciation and Accuracy

Tags
194557, 4

Learning Outcome
Be understood by native speakers unaccustomed to dealing with non-native speakers.

DUTCH 321 - Advanced Grammar: Dutch

Course Information

Teaching Area (new)
DUTCH

Course Number
321

Teaching Area
DUTCH

Course Title
Advanced Grammar: Dutch

Course Description
Advance your Dutch through interactive grammar and syntax review. Engage in readings, discussions, and real-world tasks to build confidence and accuracy. Fulfills the language component of the Language Certificate.

Department
Language Studies

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Analyze

Tags
197452, 1

Learning Outcome
Analyze target language morphology and syntax.

Title
Apply

Tags
197453, 2

Learning Outcome
Apply grammar rules with accuracy to a variety of advanced grammatical and communicative tasks.

Title
Independent Learning

Tags
197454, 3

Learning Outcome
Function as independent learners of the target language by using proper terms and appropriate resources for language analysis.

DUTCH 330 - Advanced Language Proficiency Through Cultural Studies: Dutch

Course Information

Teaching Area (new)
DUTCH

Course Number
330

Teaching Area
DUTCH

Course Title
Advanced Language Proficiency Through Cultural Studies: Dutch

Course Description
Study of Dutch culture using interpersonal, presentational, and interpretive skills in the target language.

Department
Language Studies

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
Entry course for returned missionaries or others of equivalent language experience. Required course for obtaining language credit by examination. May fulfill the GE Languages of Learning requirement.

Learning Outcomes

Title
Communication Skills

Tags
197455, 1

Learning Outcome
In both written and spoken target language, communicate accurately with well-educated members of the target-culture about real-world activities.

Title
Comprehension

Tags
197456, 2

Learning Outcome
Understand detailed written and verbal instructions. Comprehend historical passages, newspaper and magazine articles, and broadcast news reports well educated native speakers encounter routinely in their daily life.

Title
Cultural Knowledge

Tags
197457, 3

Learning Outcome
Acquire background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.). Discuss in the target language cultural practices related to major life events in the target culture (birth, marriage, death, etc.).

Title
General Education Requirements

Tags
197458, 4

Learning Outcome
Complete Languages of Learning and Global & Cultural Awareness for General Education.

DUTCH 340 - Introduction to Dutch Literature

Course Information

Teaching Area (new)
DUTCH

Course Number
340

Teaching Area
DUTCH

Course Title
Introduction to Dutch Literature

Course Description
Explore Dutch culture through stories, music, and history. Develop advanced proficiency using authentic materials, including film, literature, and other creative works. Fulfills the literature component of the Language Certificate.

Department
Language Studies

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
May fulfill the Languages of Learning and Global & Cultural Awareness GE requirements.

Learning Outcomes

Title
Context

Tags
191538, 4

Learning Outcome
Place literature in a meaningful cultural and historical context.

Title
Language Skills

Tags
191539, 6

Learning Outcome
Improve target-language reading, writing, and speaking skills.

Title
Recognize and Analyze

Tags
193085, 1

Learning Outcome
Recognize and analyze the most important genres in target-language literature.

Title
Key Characteristics

Tags
193137, 2

Learning Outcome
Identify and discuss key characteristics of the most important literary movements in the target culture.

DUTCH 350 - Advanced Language Study for Career Purposes: Dutch

Course Information

Teaching Area (new)
DUTCH

Course Number
350

Teaching Area
DUTCH

Course Title
Advanced Language Study for Career Purposes: Dutch

Course Description
Concentration on Dutch language and culture issues for specific careers.

Department
Language Studies

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- DUTCH 330 - Advanced Language Proficiency Through Cultural Studies: Dutch

Learning Outcomes

Title
Defined Career Purposes

Tags
197459, 1

Learning Outcome
Develop overall language and cultural competence needed to study and begin entry into a career agreed upon by the Center for Language Studies.

Title
Knowledge

Tags
197460, 2

Learning Outcome
Carry out research to identify, understand, and discuss standards, processes, people and cultural norms associated with the target career.

Title
Interpretive Competence

Tags
197461, 3

Learning Outcome
Understand, interpret and analyze advanced-level written and oral texts on topics related to the target career.

Title
Communicative Competence

Tags
197462, 4

Learning Outcome
Communicate effectively at the advanced-level in order to function in a variety of situations likely to be encountered when dealing with native speakers who are associated with the target career. This will include interpersonal communication and both written and oral presentational communication.

EC EN 191 - New Student Seminar

Course Information

Teaching Area (new)
EC EN

Course Number
191

Teaching Area
EC EN

Course Title
New Student Seminar

Course Description
Overview of electrical and computer engineering with group and individual design projects.

Department
Electrical and Computer Engineering

When Taught
Fall and Winter

Credit Hours

Min:
0.5

Fixed/Max:
0.5

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

Learning Outcomes

Title
Understand ECEn

Tags
180164, 0

Learning Outcome
Understand the discipline of electrical and computer engineering and its many roles in the modern technological world.

EC EN 192 - Freshman Project

Course Information

Course Number
192

Teaching Area
EC EN

Course Title
Freshman Project

Course Description
Students will complete straightforward engineering projects while learning about basic lab equipment.

Department
Electrical and Computer Engineering

When Taught
Fall and Winter

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
3

Simple Requisites

Co-requisite

Type
Prerequisite

Enroll in the following Courses:
- EC EN 191 - New Student Seminar

Learning Outcomes

Title
Laboratory Equipment

Learning Outcome
Students will gain basic understanding of laboratory equipment and bee able to operate it.

Title
Project

Learning Outcome
Students will be able to complete engineering projects.

Title
Teamwork

Learning Outcome
Students will be able to contribute to engineering teams in completing engineering projects.

EC EN 199R - Academic Internship

Course Information

Teaching Area (new)
EC EN

Course Number
199R

Teaching Area
EC EN

Course Title
Academic Internship

Course Description
Work experience evaluated by supervisor and posted on student's transcript.

Department
Electrical and Computer Engineering

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
3

Other Prerequisites
Department chair's and internship coordinator's consent

Note
An APPROVED Internship Application required before adding. See college internship information prior to completing the application.

Learning Outcomes

Tags
180186, 1

Learning Outcome
Student acquires professional experiences in the discipline.

Tags
180274, 3

Learning Outcome
Student demonstrates the ability to use reflective thinking to convert professional experience into academic understanding.

Tags
180325, 2

Learning Outcome
Student demonstrates professional communication skills (report).

EC EN 224 - Introduction to Computer Systems

Course Information

Course Number
224

Teaching Area
EC EN

Course Title
Introduction to Computer Systems

Course Description
Introductory principles of computer systems including binary representation of numbers, binary operations and Boolean arithmetic, C-programming, machine-level representations of programs and data, memory hierarchy, and I/O interfacing and programming. Hands-on experience working with reading and modifying machine-level code.

Department
Electrical and Computer Engineering

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Completion Requirement

Complete ANY of the following Courses:
- C S 111 - Introduction to Computer Science
- C S 142 - Introduction to Computer Programming

Learning Outcomes

Title
Binary Representation and Computation

Tags
213250, 0, 1, 2023-08-24 14:57:20

Learning Outcome
Ability to represent numbers in binary and perform binary operations.

Title
C Programming

Tags
213251, 0, 2, 2023-08-24 14:57:20

Learning Outcome
Ability to program using the 'C' programming language.

Title
Machine Representation of Programs

Tags
213252, 0, 3, 2023-08-24 14:57:20

Learning Outcome
Ability to represent programs in assembly language, translate between 'C' and assembly language, and evaluate security vulnerabilities.

Title
Computer Organization

Tags
213253, 0, 4, 2023-08-24 14:57:20

Learning Outcome
Ability to identify basic computer components, including memory hierarchy, I/O, and central processing unit (CPU), and explain how these components work together to create a computer system.

EC EN 225 - Computer Systems Laboratory

Course Information

Course Number
225

Teaching Area
EC EN

Course Title
Computer Systems Laboratory

Course Description
Experience building complex computer system that interact with humans and computer networks. Practice principles of computer systems and systems programming on a combination of software and hardware.

Department
Electrical and Computer Engineering

When Taught
Fall, Winter, and Spring

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
3

Simple Requisites

Co-requisite

Type
Prerequisite

Enroll in the following Courses:
- EC EN 224 - Introduction to Computer Systems

Learning Outcomes

Title
I/O Programming

Learning Outcome
Ability to build a system that reliably interacts with I/O hardware devices.

Title
Network Programming

Learning Outcome
Ability to build a system that securely communicates with networked devices.

Title
System Building

Learning Outcome
Design a complex computer system that handles concurrent tasks.

EC EN 240 - Circuit Analysis and Laboratory

Course Information

Teaching Area (new)
EC EN

Course Number
240

Teaching Area
EC EN

Course Title
Circuit Analysis and Laboratory

Course Description
Analysis of electric circuits including transients, sinusoidal steady-state, and power. Includes labs.

Department
Electrical and Computer Engineering

When Taught
Fall, Winter, Spring

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Completion Requirement

Fulfill ANY of the following requirements:

Complete ALL of the following Courses:
- C S 142 - Introduction to Computer Programming
  AND MATH 113 - Calculus 2
  AND PHSCS 121 - Introduction to Newtonian Mechanics

OR

Complete ALL of the following Courses:
- MATH 113 - Calculus 2
  AND C S 111 - Introduction to Computer Science
  AND PHSCS 121 - Introduction to Newtonian Mechanics

Other Prerequisites
Average of B or better in completed Math, Physics & Computer Science courses, or advisor approval.

Note
Fee.

Learning Outcomes

Title
Electronic Circuits

Tags
211926, 0, 1

Learning Outcome

Ability to analyze simple DC and AC circuits using the basic laws of electronics, phasor analysis, and mathematics.
A basic understanding of diodes, transistors, and operational amplifiers, and how they are used.
The ability to analyze simple first order transient circuits including RL and RC circuits.
A basic understanding of frequency response and its applications.

Title
Microcontrollers

Tags
211927, 0, 2

Learning Outcome

Ability to write computer code that implements simple state machines on a microcontroller.
An understanding of analog-to-digital and digital-to-analog converters and their implications for embedded computing.
The ability to interface microcontrollers to a variety of sensors and actuators, including DC and servo motors.

Title
Instrumentation

Tags
211928, 0, 3

Learning Outcome

The ability to use electronic instruments to test and debug electronic circuits.

EC EN 301 - Elements of Electrical Engineering.

Course Information

Teaching Area (new)
EC EN

Course Number
301

Teaching Area
EC EN

Course Title
Elements of Electrical Engineering.

Course Description
Linear electric circuits, computer organization, and logic circuits for nonmajors.

Department
Electrical and Computer Engineering

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
1

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- MATH 113 - Calculus 2

Note
Fee.

Learning Outcomes

Title
Microcontrollers

Tags
180432, 0, 2

Learning Outcome

Ability to write computer code that implements simple state machines on a microcontroller.
An understanding of analog-to-digital and digital-to-analog converters and their implications for embedded computing.
The ability to interface microcontrollers to a variety of sensors and actuators, including DC and servo motors.

Title
Electronic Circuits

Tags
211925, 0, 3

Learning Outcome

Ability to analyze simple DC and AC circuits using the basic laws of electronics, phasor analysis, and mathematics.
A basic understanding of diodes, transistors, and operational amplifiers, and how they are used.
The ability to analyze simple first order transient circuits including RL and RC circuits.
A basic understanding of frequency response and its applications.

Title
Instrumentation

Tags
180430, 0, 0

Learning Outcome
The ability to use electronic instruments to test and debug electronic circuits.

EC EN 320 - Fundamentals of Digital Systems

Course Information

Course Number
320

Teaching Area
EC EN

Course Title
Fundamentals of Digital Systems

Course Description
Digital logic: theory, design, and implementation of combinational and sequential logic. Laboratory experience in construction of digital logic circuits.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Completion Requirement

Complete ALL of the following Courses:
- EC EN 224 - Introduction to Computer Systems

Learning Outcomes

Title
Combinational Networks

Tags
213744, 0, 1, 2023-08-29 08:43:04

Learning Outcome
Ability to design, minimize, and analyze a combinational network.

Title
Sequential Networks

Tags
213745, 0, 2, 2023-08-29 08:43:05

Learning Outcome
Ability to design and analyze a sequential network.

Title
Debug

Tags
213746, 0, 3, 2023-08-29 08:43:07

Learning Outcome
Ability to test and verify a digital system that includes I/O, state machines and combinational networks.

Title
HDL Design

Tags
213747, 0, 4, 2023-08-29 08:43:08

Learning Outcome
Ability to design combinational and sequential circuits using a modern hardware description language (HDL).

Title
Design Tools

Tags
213748, 0, 5, 2023-08-29 08:43:11

Learning Outcome
Ability to use modern synthesis and technology mapping tools to implement digital circuits on an FPGA.

EC EN 330 - Introduction to Embedded System Programming

Course Information

Teaching Area (new)
EC EN

Course Number
330

Teaching Area
EC EN

Course Title
Introduction to Embedded System Programming

Course Description
Understanding the hardware-software interface in an embedded system. Using C and assembly language in device-driver design. Software interfacing to peripherals. Performance and memory issues. Hardware interrupt programming.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Completion Requirement

Fulfill ANY of the following requirements:

Complete ALL of the following Courses:
- C S 235 - Data Structures and Algorithms
  AND EC EN 220 - Fundamentals of Digital Systems (Inactive)

OR

Complete ALL of the following Courses:
- C S 235 - Data Structures and Algorithms
  AND EC EN 224 - Introduction to Computer Systems

Learning Outcomes

Title
Microprocessors

Tags
180141, 3

Learning Outcome
Ability to understand basic microprocessor architecture

Title
Software

Tags
180232, 4

Learning Outcome
Ability to organize software in a complex embedded application

Title
Specifications

Tags
180298, 0

Learning Outcome
Ability to read and interpret device specifications

Title
Interrupts

Tags
180301, 1

Learning Outcome
Ability to write efficient interrupt service routines

Title
Drivers

Tags
180317, 2

Learning Outcome
Ability to write software to communicate with peripherals

EC EN 340 - Electronic Circuit Design 1

Course Information

Teaching Area (new)
EC EN

Course Number
340

Teaching Area
EC EN

Course Title
Electronic Circuit Design 1

Course Description
Analysis and design of electronic circuits with an emphasis on amplifier gain and frequency response.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- EC EN 240 - Circuit Analysis and Laboratory
- MATH 213 - Elementary Linear Algebra
- MATH 215 - Computational Linear Algebra
- PHSCS 220 - Introduction to Electricity and Magnetism

Note
A help session is available; attendance is recommended.

Learning Outcomes

Title
Communication

Tags
180168, 3

Learning Outcome
Ability to document engineering/experimental results and to write summary reports.

Title
Application

Tags
180391, 0

Learning Outcome
Ability to apply electronic device models to the solution of a circuit problem.

Title
Knowledge

Tags
206715, 1

Learning Outcome
Ability to design amplifiers to produce solutions to complex problems.

Title
Equipment

Tags
206717, 5

Learning Outcome
Ability to use oscilloscopes, function generators, and DC power supplies to build and test electronic circuit designs

Title
Spice

Tags
206718, 6

Learning Outcome
Ability to use modeling software (LTSpice) to design electronic circuits.

EC EN 360 - Electromagnetic Fields and Waves

Course Information

Teaching Area (new)
EC EN

Course Number
360

Teaching Area
EC EN

Course Title
Electromagnetic Fields and Waves

Course Description
Analysis of transmission lines and electromagnetic waves including the development and application of Maxwell's equations.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- EC EN 240 - Circuit Analysis and Laboratory
  AND MATH 314 - Calculus of Several Variables
  AND MATH 334 - Ordinary Differential Equations
  AND MATH 213 - Elementary Linear Algebra
  AND MATH 215 - Computational Linear Algebra
  AND PHSCS 220 - Introduction to Electricity and Magnetism

Learning Outcomes

Title
Electromagnetic Fields

Tags
180220, 3

Learning Outcome
Ability to analyze the interaction of electromagnetic fields with structures and materials.

Title
Mathematics

Tags
180234, 0

Learning Outcome
Application of differential equations to wave propagation.

Title
Calculus

Tags
180351, 1

Learning Outcome
Application of integral multivariate calculus to solve for electromagnetic fields.

Title
Wave Equations

Tags
180405, 2

Learning Outcome
Application of complex variables to phasor solutions of wave equations.

EC EN 380 - Signals and Systems

Course Information

Teaching Area (new)
EC EN

Course Number
380

Teaching Area
EC EN

Course Title
Signals and Systems

Course Description
Time and frequency domain analysis of discrete or continuous systems subjected to periodic or nonperiodic input signals.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- EC EN 240 - Circuit Analysis and Laboratory
  AND MATH 334 - Ordinary Differential Equations
  AND MATH 213 - Elementary Linear Algebra
  AND MATH 215 - Computational Linear Algebra
  AND PHSCS 220 - Introduction to Electricity and Magnetism

Note
A help session is available. Attendance is recommended.

Learning Outcomes

Title
Continuous-Time Convolution Problems

Tags
180147, 3

Learning Outcome
Application of integral calculus to solve continuous-time convolution problems.

Title
Continuous-Time LTI System

Tags
180209, 1

Learning Outcome
Application of integral calculus, differential equations, complex variables, to transform analysis of a continuous-time LTI system.

Title
Tools

Tags
180330, 6

Learning Outcome
Ability to use Matlab or similar tools to analyze, model, simulate, and experiment with linear systems.

Title
Sampling Theory

Tags
206657, 5

Learning Outcome
An understanding of the consequences and principles associated with digitally sampling and reconstructing analog signals.

Title
Filter Design

Tags
206658, 7

Learning Outcome
Ability to interpret and synthesize signals and systems in both the time and frequency domains to meet functional requirements for the junior project.

Title
Laboratory Communication

Tags
206659, 8

Learning Outcome
Ability to track progress of laboratory experiments following professional lab book practices.

Title
Discrete-Time LTI System

Tags
180204, 0, 2

Learning Outcome
Application of integral calculus, difference equations, complex variables, to transform analysis of a discrete-time LTI system.

Title
Discrete-Time Convolution Problems

Tags
180256, 0, 4

Learning Outcome
Application of geometric series and related forms to solve discrete-time convolution problems.

EC EN 390 - Junior Team Design Project

Course Information

Teaching Area (new)
EC EN

Course Number
390

Teaching Area
EC EN

Course Title
Junior Team Design Project

Course Description
Culminating design experience based on skills learned in junior-level courses. Students works in teams to plan, design, and test a project based on the integration of components built in other classes.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
6

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- EC EN 330 - Introduction to Embedded System Programming
  AND EC EN 340 - Electronic Circuit Design 1
  AND EC EN 380 - Signals and Systems

Learning Outcomes

Title
Decisions

Tags
180239, 2

Learning Outcome
Ability to define, understand, and participate in team decision making processes.

Title
Technology

Tags
180297, 4

Learning Outcome
Ability to combine new technology with custom built components

Title
Safety

Tags
180350, 5

Learning Outcome
Ability to apply safety issues to engineering hardware.

Title
Design

Tags
180262, 0, 0

Learning Outcome
Ability to complete a significant culminating design that draws upon the knowledge gained in prerequisite and concurrently enrolled courses.

Title
Requirements

Tags
180307, 0, 3

Learning Outcome
Ability to take high level customer requirements, identify from them the specifications a solution must meet, and formulate those specifications as an engineering problem.

EC EN 391 - Junior Seminar

Course Information

Teaching Area (new)
EC EN

Course Number
391

Teaching Area
EC EN

Course Title
Junior Seminar

Course Description
Seminars and colloquia on current topics in electrical and computer engineering, as well as ethics, contemporary issues, and life-long learning.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
0.5

Fixed/Max:
0.5

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- EC EN 240 - Circuit Analysis and Laboratory

Note
Attendance and some writing are required.

Learning Outcomes

Title
Ethics

Tags
207097, 4

Learning Outcome
An understanding of professional ethics, and the ability to make informed judgements in engineering scenarios.

Title
Lifelong Learning

Tags
207098, 5

Learning Outcome
The ability to apply research-based learning strategies for lifelong learning.

Title
Leadership and Working in Teams

Tags
207099, 6

Learning Outcome
The ability to recognize personal leadership attributes, and how those attributes might help or hinder the ability to work effectively in teams.

Title
Professional Preparation

Tags
207100, 7

Learning Outcome
An understanding of topics that are important for entry into the engineering profession including job placement and hiring, benefits, innovation and entrepreneurship, and intellectual property.

EC EN 423 - Computer Organization

Course Information

Course Number
423

Teaching Area
EC EN

Course Title
Computer Organization

Course Description
Architecture, organization and design of computer systems, including assembly language programming, computer arithmetic, instruction execution, performance analysis, pipelining, memory hierarchy, and the design of datapath and control logic.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Completion Requirement

Complete ALL of the following Courses:
- EC EN 320 - Fundamentals of Digital Systems
  OR EC EN 220 - Fundamentals of Digital Systems (Inactive)

Learning Outcomes

Title
Assembly Language

Tags
213749, 0, 1, 2023-08-29 08:43:24

Learning Outcome
Ability to read and write simple programs in assembly language

Title
Computer Arithmetic

Tags
213750, 0, 2, 2023-08-29 08:43:25

Learning Outcome
Ability to perform common binary arithmetic and logic operations

Title
Processor Organization

Tags
213751, 0, 3, 2023-08-29 08:43:27

Learning Outcome
Ability to create datapath elements used in instruction execution and the control logic which coordinates them

Title
Pipelining

Tags
213752, 0, 4, 2023-08-29 08:43:29

Learning Outcome
Ability to implement pipelining to improve processor performance

Title
Memory Hierarchy

Tags
213753, 0, 5, 2023-08-29 08:43:31

Learning Outcome
Understand the operation of caches in computer systems

Title
Processor Design

Tags
213754, 0, 6, 2023-08-29 08:43:32

Learning Outcome
Ability to construct RTL-level design of datapath and control elements for a pipelined processor

EC EN 426 - Computer Networks

Course Information

Teaching Area (new)
EC EN

Course Number
426

Teaching Area
EC EN

Course Title
Computer Networks

Course Description
Learn the principles and practices of network protocols used on the Internet. Develop software that interfaces with computer networks. Examine networking challenges such as reliability, security, and privacy.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- EC EN 330 - Introduction to Embedded System Programming

Learning Outcomes

Title
Networking Principles

Tags
211574, 0, 1, 2021-11-30 12:33:45

Learning Outcome
Identify and explain the layers of the Internet networking stack and its purpose.

Title
Network Programming

Tags
211575, 0, 2, 2021-11-30 12:33:45

Learning Outcome
Build network programs using socket programming to interface with other computers.

Title
Networking Challenges

Tags
211576, 0, 3, 2021-11-30 12:33:45

Learning Outcome
Evaluate the challenges and trade-offs associated with building a reliable and secure networking application and protocol.

EC EN 427 - Embedded Systems

Course Information

Teaching Area (new)
EC EN

Course Number
427

Teaching Area
EC EN

Course Title
Embedded Systems

Course Description
Interfacing digital hardware components to an embedded system processor. Developing the hardware-software interface. Developing application software. Using C and assembly language in device-driver design, monitor-debugger, and real-time kernel. Lab.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Completion Requirement

Fulfill ANY of the following requirements:

Complete ALL of the following Courses:
- EC EN 323 - Computer Organization (Inactive)
  AND EC EN 330 - Introduction to Embedded System Programming

OR

Complete ALL of the following Courses:
- EC EN 330 - Introduction to Embedded System Programming
  AND EC EN 320 - Fundamentals of Digital Systems

Learning Outcomes

Title
Device Design

Tags
180178, 2

Learning Outcome
Design and implement bus-based digital I/O devices that comply with processor bus protocols.

Title
System Integration

Tags
180248, 1

Learning Outcome
Integrate custom I/O devices into microprocessor systems through correct bus interfacing, address mapping, and interrupt handling.

Title
Driver Development

Tags
180295, 3

Learning Outcome
Develop software drivers to operate custom hardware devices within an operating system environment.

Title
Specification Application

Tags
180335, 0

Learning Outcome
Interpret and apply device specifications to guide design, integration, and verification of hardware/software systems.

Title
Professional Growth and Service

Learning Outcome
Cultivate habits of lifelong learning and service by practicing peer support, collaboration, and adoption of new engineering practices.

EC EN 433 - Introduction to Robotics and Autonomy

Course Information

Course Number
433

Teaching Area
EC EN

Course Title
Introduction to Robotics and Autonomy

Course Description
In this course, you will learn about the fundamental components of a robotic system and gain hands-on experience developing and debugging a real-world robot. You will also gain a theoretical and practical understanding of essential tools commonly used to develop robotic systems including mathematical concepts (such as coordinate transformations and least-squares optimization), computer vision (pinhole camera models, homography, and basic image processing), planning algorithms (discrete vs continuous, graph search), control theory (PID controllers), and software tools (docker, python, git, and robotics middleware such as ROS).

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Complete ALL of the following Courses:
- MATH 213 - Elementary Linear Algebra
  AND MATH 215 - Computational Linear Algebra
  AND MATH 113 - Calculus 2
  AND STAT 201 - Statistics for Engineers and Scientists

Other Prerequisites
Knowledge of C, C++, or Python programming languages.

Recommended
MATH 314

Fee
Approximately $75 lab kit fee

Note
A lab fee of approximately $75 is required for this course.

Learning Outcomes

Title
Robot Motion Modeling, Odometry, and Coordinate Transformations

Learning Outcome
Students will gain a fundamental understanding of robot motion modeling, odometry, and coordinate transformations and will be able to apply these tools to track a robot's motion and transform sensor data from one frame to another.

Title
Computer Vision and Robotic Perception

Learning Outcome
Students will gain a fundamental understanding of computer vision and robotic perception including camera/image modeling, basic image processing, and 3D geometry and will be able to apply these tools to enable a robot to detect its lane.

Title
PID Control

Learning Outcome
Students will gain a fundamental understanding of PID control and will be able to apply these tools to enable a robot to control its motion or position to a specified command.

Title
Robotic Planning and Reasoning

Learning Outcome
Students will gain a fundamental understanding of robotic planning and reasoning and will be able to apply these tools to determine a course of action in an automated fashion.

Title
Debug and Analyze a Robotic System

Learning Outcome
Students will be able to debug and analyze an existing robotic system to determine the purpose of existing components and where things may be modified to enable new behaviors.

Title
Design a Robotic System

Learning Outcome
Students will be able to analyze a simple use-case/need and design a robotic system to address the proposed problem.

EC EN 445 - Introduction to Mixed-Signal VLSI

Course Information

Teaching Area (new)
EC EN

Course Number
445

Teaching Area
EC EN

Course Title
Introduction to Mixed-Signal VLSI

Course Description
VLSI circuit design emphasizing mixed-signal circuits such as D/A and A/D converters, phase-locked loops, S/H circuits. Associated laboratory provides layout-design experience.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- EC EN 340 - Electronic Circuit Design 1

Learning Outcomes

Title
Communication

Tags
180227, 3

Learning Outcome
Ability to write lab reports.

Title
Circuit Theory

Tags
180305, 0, 0

Learning Outcome
Ability to analyze fundamentals of transistor circuits including gain, impedance, frequency response, and noise.

Title
Analog and Mixed-Signal Circuits

Tags
180213, 0, 1

Learning Outcome
Ability to design and analyze analog and mixed-signal circuits including feedback circuits, references, switched-capacitor circuits, and data converters.

Title
Technology

Tags
180287, 0, 5

Learning Outcome
Ability to use modern CAD tools including advanced features.

Title
Industry

Tags
180184, 0, 4

Learning Outcome
Ability to work with modern CAD tools.

EC EN 446 - Power Electronics

Course Information

Teaching Area (new)
EC EN

Course Number
446

Teaching Area
EC EN

Course Title
Power Electronics

Course Description
Introduces power electronic converters including ac/dc rectifiers, dc/dc converters and dc/ac inverters. Electronic motors including DC motors and induction motors. The application of power electronic to solar and wind power generation.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- EC EN 301 - Elements of Electrical Engineering.

OR

Prerequisites

Complete ALL of the following Courses:

- EC EN 340 - Electronic Circuit Design 1

Learning Outcomes

Title
Power Electronics

Tags
206719, 1

Learning Outcome
Understand the implications of power electronics to power grid systems and electric vehicles.

Title
Switch mode electronics

Tags
206720, 2

Learning Outcome
Apply fundamental concepts of switch mode electronics to develop efficient power electronic circuits and components.

Title
Electric Motors

Tags
206721, 3

Learning Outcome
Understand the fundamentals of electric motors, including efficiency, derive, and control methods.

Title
Moter Drivers

Tags
206722, 4

Learning Outcome
Apply the concepts of power electronics circuits to control and drive electric motors.

Title
Power Electronics Testing

Tags
206723, 5

Learning Outcome
Build, test, and analyze power electronic components in a laboratory setting including DC/DC/ converters, DC/AC inverters, AC/DC rectifiers.

EC EN 450 - Introduction to Semiconductor Devices

Course Information

Teaching Area (new)
EC EN

Course Number
450

Teaching Area
EC EN

Course Title
Introduction to Semiconductor Devices

Course Description
Physics of electronic and optical solid state devices; includes semiconductor materials, bipolar and FET device physics and modeling, optical properties of semiconductors, and lasers.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
1

Simple Requisites

Prerequisites

Type
Prerequisite

Complete ALL of the following Courses:

- CHEM 105 - General College Chemistry 1 with Lab (Integrated)
  OR CHEM 111 - Principles of Chemistry 1
- EC EN 240 - Circuit Analysis and Laboratory
  OR EC EN 301 - Elements of Electrical Engineering.

Learning Outcomes

Title
Charge Transport

Tags
180276, 1

Learning Outcome
Application of differential equations to charge transport in semiconducting material.

Title
Model p-n Junctions

Tags
180310, 0

Learning Outcome
Application of basic physical processes to model p-n junctions.

Title
Modeling MOS and MOS-related Devices

Tags
206661, 2

Learning Outcome
Application of the physical properties of device building blocks (pn junctions, metal semiconductor interfaces, MOS structures) to model MOSFET and memory device operation.

Title
Understanding Microfabrication Technology

Tags
206662, 3

Learning Outcome
Application of basic microfabrication processes to design semiconductor device fabrication process flows.

EC EN 452 - Experiments in Integrated Circuit Development

Course Information

Teaching Area (new)
EC EN

Course Number
452

Teaching Area
EC EN

Course Title
Experiments in Integrated Circuit Development

Course Description
Measurements of key silicon properties and fabrication of integrated circuits.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
3

Other Prerequisites
EC En 450 or concurrent enrollment; or Ch En 481 or concurrent enrollment.

Learning Outcomes

Title
Tools

Tags
180159, 2

Learning Outcome
Ability to use modern microelectronics fabrication equipment.

Title
Fabricated Devices

Tags
180243, 0

Learning Outcome
Ability to analyze and interpret data measured from fabricated devices.

Title
MOSFET Devices

Tags
180309, 1

Learning Outcome
Ability to design processes for fabrication of MOSFET devices.

EC EN 462 - Electromagnetic Radiation and Propagation.

Course Information

Teaching Area (new)
EC EN

Course Number
462

Teaching Area
EC EN

Course Title
Electromagnetic Radiation and Propagation.

Course Description
Electromagnetic and optical theory including guided wave theory, modes, propagation in materials, radiation analysis, antenna analysis, and aperture diffraction.

Department
Electrical and Computer Engineering

When Taught
Fall Term 1.

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
1

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- EC EN 360 - Electromagnetic Fields and Waves

Learning Outcomes

Title
Electromagnetic Fields & Systems

Tags
180181, 2

Learning Outcome
Ability to model electromagnetic fields and systems using numerical algorithms and interpret results physically.

Title
Wave Propagation

Tags
180190, 1

Learning Outcome
Ability to analyze wave propagation in materials and guiding structures.

Title
EM Analysis

Tags
180429, 0

Learning Outcome
Application of vector differential, integral equation and geometric methods to EM analysis.

EC EN 464 - Wireless Communication Circuits

Course Information

Teaching Area (new)
EC EN

Course Number
464

Teaching Area
EC EN

Course Title
Wireless Communication Circuits

Course Description
Analysis, design, and fabrication of RF/microwave passive circuit structures, amplifiers, oscillators, and mixers. System concepts, including stability, gain, and noise figure.

Department
Electrical and Computer Engineering

When Taught
Fall Term 2.

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
1

Other Prerequisites
ECEn 462 or instructor's consent.

Learning Outcomes

Title
Microwave Systems

Tags
180142, 0

Learning Outcome
Ability to function in groups to design and test microwave systems.

Title
Microwave

Tags
180146, 1

Learning Outcome
Facility with microwave passive and active structures.

Title
Skills

Tags
180282, 2

Learning Outcome
Ability to simulate microwave systems and components.

EC EN 466 - Introduction to Optical Engineering

Course Information

Teaching Area (new)
EC EN

Course Number
466

Teaching Area
EC EN

Course Title
Introduction to Optical Engineering

Course Description
Introduces principles and practices of optical engineering including optical communications system and components.

Department
Electrical and Computer Engineering

When Taught
Fall Term 2.

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
1

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- EC EN 462 - Electromagnetic Radiation and Propagation.

Learning Outcomes

Title
Geometric Optics

Tags
205489, 0, 3

Learning Outcome
Application of linear algebra to find propagation characteristics in media both isotropic and anisotropic.

Title
Light Generation/Detection

Tags
205487, 0, 1

Learning Outcome
Application of space-bandwidth analysis to geometric and diffractive resolution problems.

Title
Light Modulation

Tags
205488, 0, 2

Learning Outcome
Application of differential equations to beam analysis problems.

EC EN 471 - Machine Learning: Foundations and Applications

Course Information

Course Number
471

Teaching Area
EC EN

Course Title
Machine Learning: Foundations and Applications

Course Description
Introduction to fundamental concepts of machine learning in an engineering context. Students will learn foundational mathematical principles underlying machine learning, select and implement machine learning algorithms, and evaluate and improve the performance of models. Special attention is given to engineering problems, including those involving time series data and dynamical systems.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
4

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Complete ALL of the following Courses:

- STAT 201 - Statistics for Engineers and Scientists
  AND MATH 213 - Elementary Linear Algebra
  AND MATH 215 - Computational Linear Algebra
  AND C S 111 - Introduction to Computer Science

Complete ANY of the following :
These :

No selection provided

Recommended
Senior standing recommended.

Note
Laptop recommended.

Learning Outcomes

Title
Foundations

Learning Outcome
Learn the mathematical foundations of machine learning and be able to show how they are different than other types of analysis and predictive methods.

Title
Model Selection and Implementation

Learning Outcome
Select and implement fundamental machine learning models to solve problems relevant to electrical and computer engineering fields.

Title
Model Evaluation and Improvement

Learning Outcome
Evaluate and improve the performance of different types of fundamental machine learning models.

Title
Engineering Applications

Learning Outcome
Apply machine learning methods to time series data and dynamical systems.

EC EN 475 - Capstone Design 1

Course Information

Teaching Area (new)
EC EN

Course Number
475

Teaching Area
EC EN

Course Title
Capstone Design 1

Course Description
First semester of a two-semester design experience from conception to manufacturing planning and prototype. Product development process. Economic and manufacturing considerations. Intellectual property agreement required.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Complete ALL of the following Courses:
- CYBER 350 - Database Principles and Applications
- CYBER 366 - Defensive Cybersecurity

OR

Complete ALL of the following Courses:

- EC EN 390 - Junior Team Design Project
- STAT 201 - Statistics for Engineers and Scientists

Other Prerequisites

Senior standing (fewer than 30 hours remaining in the program) in electrical engineering, computer engineering, or related disciplines with instructor's consent.

Note

EC En 475 and 476 must be taken in consecutive fall and winter semesters.

Learning Outcomes

Title
Design Desirability and Transferability

Tags
180418, 4

Learning Outcome
Understand how artifact checks, performance testing, and validation testing are used to ensure the desirability and transferability of the design at each stage of development.

Title
Six Stages of Product Development

Tags
206669, 1

Learning Outcome
Understand the six stages of development through which designs evolve.

Title
Design Evolution

Tags
206670, 2

Learning Outcome
Understand how the requirements, tests, and design evolve through each stage of development.

Title
Skills in Product Development, Reporting and Presentation

Tags
206671, 5

Learning Outcome
Develop skills in project planning, idea generation, prototyping, developing engineering models, and conveying information both in writing and orally.

Title
Organizational Policies

Tags
206672, 6

Learning Outcome
Understand how to work within organizational policies to accomplish important goals.

Title
Project Teamwork

Tags
206673, 7

Learning Outcome
Demonstrate the ability to use effective team processes, communication, and conflict resolution skills to enhance team synergy, provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.

Title
Analysis and Communication

Tags
206674, 8

Learning Outcome
As a part of a team, use a real-world problem solving process to develop, solve, and explore appropriate engineering models for your project, and effectively communicate the results of this analysis.

Title
Project Deliverables

Tags
206675, 9

Learning Outcome
Apply the understanding and skills from other outcomes while working with a project sponsor in a team setting to produce desirable and transferable product information through designing, building, and testing, while considering public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.

Title
Network of Design Activities

Tags
206682, 3

Learning Outcome
Understand how a design network is used to cause the product information to evolve, and how the map can be customized for specific development projects.

EC EN 476 - Capstone Design 2

Course Information

Teaching Area (new)
EC EN

Course Number
476

Teaching Area
EC EN

Course Title
Capstone Design 2

Course Description
Second semester of a two-semester design experience from conception to manufacturing planning and prototype. Product development process. Economic and manufacturing considerations. Intellectual property agreement required.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Simple Requisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- EC EN 475 - Capstone Design 1

Other Prerequisites
Senior standing (fewer than 30 hours remaining in the program) in electrical engineering, computer engineering, or related disciplines with instructor's consent.

Note
EC En 475 and 476 must be taken in consecutive fall and winter semesters.

Learning Outcomes

Title
Skills in Product Development Economics and Drawing Review

Tags
206676, 1

Learning Outcome
Develop skills in product development economics and engineering drawing review and checking.

Title
Crucial Design Skills

Tags
206677, 2

Learning Outcome
Develop and demonstrate a deep understanding in some of the following crucial design skill areas: Planning, Discovering, Creating, Representing, Modeling, Prototyping, Experimenting, Evaluating, Deciding, Conveying.

Title
Team Synergy

Tags
206678, 3

Learning Outcome
Demonstrate the ability to use effective team processes, communication, and conflict resolution skills to enhance team synergy, provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.

Title
Analysis and Communication

Tags
206681, 4

Learning Outcome
As a part of a team, use a real-world problem solving process to develop, solve, and explore appropriate engineering models for your project, and effectively communicate the results of this analysis.

Title
Project Deliverables

Tags
206680, 0, 5

Learning Outcome
Apply the understanding and skills from ME EN/EC EN 475 and the other outcomes from ME EN/EC EN 476 while working with a project sponsor in a team setting to produce desirable and transferable designs, while considering public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.

Title
Ethics

Tags
209662, 0, 6

Learning Outcome
Recognize ethical and professional responsibilities in engineering situations and make informed decisions, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.

EC EN 483 - (EC En-Me En 431) Design of Control Systems.

Course Information

Teaching Area (new)
EC EN

Course Number
483

Teaching Area
EC EN

Course Title
(EC En-Me En 431) Design of Control Systems.

Course Description
Classical frequency response and time domain design of control systems. State-variable control and computer simulation of control systems.

Department
Electrical and Computer Engineering

When Taught
Fall and Winter

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:
- EC EN 380 - Signals and Systems

OR

Prerequisites

Complete ALL of the following Courses:
- ME EN 335 - Dynamic System Modeling and Analysis

Learning Outcomes

Title
Simulation Models

Tags
180259, 0

Learning Outcome
1. The ability to develop (nonlinear) mathematical models of complex dynamic systems.

Title
Final Value Theorem

Tags
180265, 3

Learning Outcome
2. Ability to use the final value theorem to predict steady state behavior.

Title
Design Models

Tags
180286, 1

Learning Outcome
3. The ability to simplify those models into linear transfer function and state space representations.

Title
Using Equations and Functions

Tags
180331, 4

Learning Outcome
4. Ability to model dynamic systems using differential equations, transfer functions, and state space equations.

Title
Design of PID Control

Learning Outcome
5. The ability to design PID controllers for systems described by linear time-invariant models.

Title
State Space Techniques

Learning Outcome
6. Ability to design feedback systems using state space techniques.

Title
Design of Loopshaping Control

Learning Outcome
7. The ability to use loopshaping techniques to design frequency domain controllers for systems described by linear time-invariant models.

Title
Using Software to Simulate Dynamics and Control

Learning Outcome
8. Ability to simulate dynamic systems and feedback controllers using modern programming languages.

EC EN 485 - Introduction to Digital Communication Theory

Course Information

Teaching Area (new)
EC EN

Course Number
485

Teaching Area
EC EN

Course Title
Introduction to Digital Communication Theory

Course Description
Analysis and design of digital communications systems in AWGN: signal space concepts, modulation, matched filter and correlation detection, synchronization, performance. Computer-based design exercises.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- EC EN 380 - Signals and Systems
  AND STAT 201 - Statistics for Engineers and Scientists

Learning Outcomes

Title
Digital Communication

Tags
180145, 6

Learning Outcome
Ability to simulate digital communication systems using Simulink and Matlab.

Title
Digital Modulation

Tags
180152, 1

Learning Outcome
Application of linear algebra in describing digital modulation using the constellation representation.

Title
PLL Loop Filter

Tags
180245, 4

Learning Outcome
Ability to design the parameters of a PLL loop filter to meet given performance specifications.

Title
Statistics

Tags
180246, 2

Learning Outcome
Application of probability and statistics to bit error rate analysis of digital communication systems.

Title
Matched Filter Techniques

Tags
180293, 5

Learning Outcome
Ability to apply matched filter techniques to detection.

Title
Fourier Transform

Tags
180322, 0

Learning Outcome
An understanding of the relationship between the Fourier transform of continuous-time signal and the DTFT of its samples.

EC EN 487 - Introduction to Discrete-Time Signal Processing

Course Information

Teaching Area (new)
EC EN

Course Number
487

Teaching Area
EC EN

Course Title
Introduction to Discrete-Time Signal Processing

Course Description
Digital signal processing, fast Fourier transforms, digital filter design, spectrum analysis. Applications in speech processing, SONAR, communications, etc.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- EC EN 380 - Signals and Systems
  AND STAT 201 - Statistics for Engineers and Scientists

Learning Outcomes

Title
Probability Theory

Tags
180156, 1

Learning Outcome
Ability to apply principles of probablity theory for analysis and numerical estimation of power spectral densities.

Title
DSP functions & Algorithms

Tags
180160, 2

Learning Outcome
Ability to use basic DSP functions and algorithms (i.e., FIR filters, IIR filters, polyphase systems, windows, FFTs, etc.) to formulate and solve engineering problems.

Title
Experiments

Tags
180254, 3

Learning Outcome
Ability to perform experiments with real-world signals and DSP systems, including discrete-time filters, spectrum analyzer, acoustic direction finding, etc.

Title
Tools

Tags
180278, 4

Learning Outcome
Ability to use software tools such as Matlab (R) to design, implement, and debug DSP functions.

Title
Application of Mathematics

Tags
180358, 5

Learning Outcome
Application of integral calculus, discrete math, and complex variables, and transform theory to discrete-time signal processing.

EC EN 493R - Special Topics in Electrical and Computer Engineering

Course Information

Teaching Area (new)
EC EN

Course Number
493R

Teaching Area
EC EN

Course Title
Special Topics in Electrical and Computer Engineering

Course Description
Topics vary. Recent developments in electrical and computer engineering.

Department
Electrical and Computer Engineering

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
4

Learning Outcomes

Title
Special Topics in ECEn

Tags
180150, 0

Learning Outcome
Ability to understand and apply a diverse range of special topics in electrical and computer engineering.

EC EN 512 - Biomedical Instrumentation

Course Information

Teaching Area (new)
EC EN

Course Number
512

Teaching Area
EC EN

Course Title
Biomedical Instrumentation

Course Description
Biomedical instrumentation concepts including signal conditioning, pre-amplification, impedance matching, and transduction. Introduction to biomedical signal sources such as blood oxygenation, biopotentials, and free ion conductivity. Practical biomedical sensor design and construction.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- EC EN 340 - Electronic Circuit Design 1
  OR EC EN 301 - Elements of Electrical Engineering.

Learning Outcomes

Title
Biosignal Transduction

Learning Outcome
Students will be able to design, select, and configure the appropriate transducer to acquire a biopotential from a living system.

Title
Biosignal Conditioning and Digitization

Learning Outcome
Students will interface sensing devices to an appropriate digital acquisition system through conditioning circuitry.

Title
Data Analysis

Learning Outcome
Students will analyze experimental data for quantitative analysis.

Title
Communication

Learning Outcome
Students will develop communication skills thorough formal reports and presentations.

EC EN 520 - Advanced Digital Systems

Course Information

Teaching Area (new)
EC EN

Course Number
520

Teaching Area
EC EN

Course Title
Advanced Digital Systems

Course Description
Advanced synchronous systems design; CAD and HDLs; high-speed, low-power digital circuit architectures.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
EC En 320 or proficiency in HDL digital system design.

Learning Outcomes

Title
3.

Tags
180144, 3

Learning Outcome
Be able to design and deploy appropriate verification strategies for digital systems.

Title
1.

Tags
180175, 1

Learning Outcome
Be able to do design and analysis of digital systems using both the VHDL and Verilog languages and targeting a variety of different configurable devices.

Title
2.

Tags
180218, 2

Learning Outcome
Understand the issues associated with and be able to analyze the power consumption of digital designs.

Title
4.

Tags
180285, 4

Learning Outcome
Understand the low level details of FPGA chip architectures sufficient to enable the creation of optimized circuits which take advantage of chip-specific features.

EC EN 521 - Introduction to Algorithm Design

Course Information

Teaching Area (new)
EC EN

Course Number
521

Teaching Area
EC EN

Course Title
Introduction to Algorithm Design

Course Description
Algorithm analysis, data structures, sorting and searching, graph traversal, weighted graph algorithms, combinational search and heuristic methods, dynamic programming, approximation algorithms, designing algorithms.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
C S 235, C S 236, and EC En 330; or equivalents

Recommended
Strong programming skills

Learning Outcomes

Title
Understand and apply the following:

Tags
180374, 1

Learning Outcome

An understanding of well-known algorithms and data structures and the ability to adapt them to solve a variety of computational problems.
The ability to determine the complexity class of algorithms.

EC EN 522R - Special Topics in Computer Systems

Course Information

Teaching Area (new)
EC EN

Course Number
522R

Teaching Area
EC EN

Course Title
Special Topics in Computer Systems

Department
Electrical and Computer Engineering

When Taught
Contact Department

Credit Hours

Min:
0.5

Fixed/Max:
3

Other Prerequisites
Instructor's consent

Learning Outcomes

Title
Understand and apply the following:

Tags
180371, 0

Learning Outcome

Understand special topics in signals and systems.

EC EN 523 - Computer System Reliability

Course Information

Teaching Area (new)
EC EN

Course Number
523

Teaching Area
EC EN

Course Title
Computer System Reliability

Course Description
Analysis, modeling, and design of reliable, fault-tolerant computing systems.

Department
Electrical and Computer Engineering

When Taught
Fall Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Recommended
EC En 320, 324, 370

Learning Outcomes

Title
Reliaiblity Concepts

Tags
180362, 1

Learning Outcome
Understanding of fundamental reliability concepts and terminology

Title
Reliability Techniques

Tags
180363, 2

Learning Outcome
Ability to apply common reliability techniques such as redundancy and encoding to improve system reliability

Title
Reliaiblity Analysis

Tags
180364, 3

Learning Outcome
Ability to mathematically analyze the reliability of computer systems and reliability improving techniques

EC EN 526 - Wireless Networking

Course Information

Teaching Area (new)
EC EN

Course Number
526

Teaching Area
EC EN

Course Title
Wireless Networking

Course Description
Principles and practices of wireless networks, including design, implementation, protocols, and applications. Examination and comparison of popular wireless protocols.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
CS 235, EC En 330, EC En 380; or equivalents.

Learning Outcomes

Title
Network Reliability

Tags
211577, 0, 1, 2021-11-30 12:34:35

Learning Outcome
Be able to design a reliable network communication protocol, dealing with lost and corrupted data.

Title
Network Security

Tags
211578, 0, 2, 2021-11-30 12:34:35

Learning Outcome
Demonstrate the principles of secure communication in popular wireless protocols and identify common attack vectors.

Title
Wireless Protocol Design

Tags
211579, 0, 3, 2021-11-30 12:34:35

Learning Outcome
Evaluate the challenges and trade-offs of designing a wireless protocol. Know the design methodology and design decisions of popular wireless protocols.

Title
Wireless Networking Research

Tags
211580, 0, 4, 2021-11-30 12:34:35

Learning Outcome
Be capable of reading and understanding research papers in the area of wireless networking.

EC EN 528 - High Performance Parallel Computing

Course Information

Teaching Area (new)
EC EN

Course Number
528

Teaching Area
EC EN

Course Title
High Performance Parallel Computing

Course Description
Explore GPU, multi-core and distributed architectures. Programming topics include forms of parallelism, decomposition, scaling issues, data locality, computation patterns, parallel libraries, languages, and performance analysis. Parallel application examples illustrate design principles and potential performance benefits.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
2

Other Prerequisites
EC En 330 or equivalent.

Recommended
Strong programming skills are required with exposure to C/C++.

Learning Outcomes

Title
Architecture

Tags
213755, 0, 1, 2023-08-29 08:44:10

Learning Outcome
Ability to compare and contrast parallel computing architectures (GPU, SMP, cluster…).

Title
Programming models, libraries

Tags
213756, 0, 2, 2023-08-29 08:44:11

Learning Outcome
Ability to write performant software using common parallel computation patterns (vector, matrix, convolution, stencil…).

Title
Application examples

Tags
213757, 0, 3, 2023-08-29 08:44:12

Learning Outcome
Acquire a practical knowledge of how parallelism is used effectively in a few application examples (design principles).

Title
Labs

Tags
213758, 0, 4, 2023-08-29 08:44:13

Learning Outcome
Ability to apply benchmarking techniques and profiling tools to analyze application performance (optimization).

EC EN 536 - Autonomous Aircraft Guidance, Navigation, and Control

Course Information

Teaching Area (new)
EC EN

Course Number
536

Teaching Area
EC EN

Course Title
Autonomous Aircraft Guidance, Navigation, and Control

Course Description
Dynamics of fixed-wing aircraft fight, stability, and control derivatives, longitudinal and lateral control design; state-space control strategies for aircraft; and autonomous aircraft applications.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

No Requirements

EC EN 541 - Active and Passive Filter Design

Course Information

Teaching Area (new)
EC EN

Course Number
541

Teaching Area
EC EN

Course Title
Active and Passive Filter Design

Course Description
Design methods for electronic filters based on passive components, active components, and integrated circuit components.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
ECEn 340, 380; or equivalents

Learning Outcomes

Title
4

Tags
180187, 3

Learning Outcome
Learn how to use active circuits, resistors, and capacitors to create desired filter responses with no inductors.

Title
1

Tags
180194, 0

Learning Outcome
Learn the relationship between transfer function pole and zero locations in the Laplace plane and the frequency response of the circuit.

Title
2

Tags
180247, 1

Learning Outcome
Learn the form of transfer function to lead to Butterworth, Chebyshev,and linear phase filters.

Title
5

Tags
180279, 4

Learning Outcome
Become familiar with the latest integrated circuit active synthesis methods.

Title
3

Tags
180315, 2

Learning Outcome
Be able to design passive LC filters with prescribed transfer functions.

EC EN 542R - Special Topics in Electronics

Course Information

Teaching Area (new)
EC EN

Course Number
542R

Teaching Area
EC EN

Course Title
Special Topics in Electronics

Department
Electrical and Computer Engineering

When Taught
Contact Department

Credit Hours

Min:
0.5

Fixed/Max:
3

Other Prerequisites
Instructor's consent

Learning Outcomes

Title
1

Tags
180257, 0

Learning Outcome
Understand special topics in electronics

EC EN 543 - CMOS Amplifier Design

Course Information

Teaching Area (new)
EC EN

Course Number
543

Teaching Area
EC EN

Course Title
CMOS Amplifier Design

Course Description
Factors affecting performance of MOS devices in analog applications. Design of MOS amplifiers, buffers, and comparators.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
ECEn 443 or 445 or equivalent.

Learning Outcomes

Title
2

Tags
180174, 1

Learning Outcome
Learn how to design components used such as current mirrors in CMOS amplifier design.

Title
4

Tags
180183, 3

Learning Outcome
Understand the frequency response and stability problems of op amps.

Title
1

Tags
180320, 0

Learning Outcome
Understand MOSFET operation at an advanced level.

Title
5

Tags
180342, 4

Learning Outcome
Learn how to compensate op amps to improve stability.

Title
3

Tags
180359, 2

Learning Outcome
Learn the basic op amp configurations.

EC EN 548 - Analog CMOS Circuit Design

Course Information

Teaching Area (new)
EC EN

Course Number
548

Teaching Area
EC EN

Course Title
Analog CMOS Circuit Design

Course Description
Design of CMOS switched-capacitor circuits, DAC architectures, ADC architectures, Nyquist and oversampling architectures

Department
Electrical and Computer Engineering

When Taught
Winter Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
ECEn 443 or 445 or equivalent

Learning Outcomes

Title
2

Tags
180231, 1

Learning Outcome
Learn how to design comparators, references, charge-transfer amplifiers, and D/A and A/D circuits.

Title
1

Tags
180233, 0

Learning Outcome
Learn how to characterize comparators, wideband amplifiers, bandgap references, multipliers, PTAT generators, charge transfer amplifiers, and advanced D/A and A/D circuits.

Title
3

Tags
180327, 2

Learning Outcome
Understand the differences between the BJT Gilbert multiplier and the CMOS Gilbert-like multiplier.

EC EN 549 - VLSI Communication Circuit Design

Course Information

Teaching Area (new)
EC EN

Course Number
549

Teaching Area
EC EN

Course Title
VLSI Communication Circuit Design

Course Description
Frequency synthesizers; low-jitter, voltage-controlled oscillators; high Q circuits; clock regeneration; phase-locked loops; frequency discriminators; and radio-on-a-chip concepts.

Department
Electrical and Computer Engineering

When Taught
Spring Term

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
ECEn 443 or 445 or equivalent

Learning Outcomes

Title
4.

Tags
180157, 3

Learning Outcome
Understand the technical specifications that characterize modern wireless systems.

Title
1.

Tags
180163, 0

Learning Outcome
Understand the challenges of designing modern wireless circuits such as wireless local area networks, cell phones, Bluetooth, and other systems.

Title
3.

Tags
180238, 2

Learning Outcome
Learn the modulation methods and bandwidth requirements for wireless transceivers.

Title
2.

Tags
180300, 1

Learning Outcome
Learn the various architectures of wireless transceivers suited to MOSFET circuit design.

Title
5.

Tags
180311, 4

Learning Outcome
Learn how to implement components of wireless systems using MOSFET integrated circuits.

EC EN 550 - (EC En-Me En) Microelectromechanical Systems (MEMS).

Course Information

Teaching Area (new)
EC EN

Course Number
550

Teaching Area
EC EN

Course Title
(EC En-Me En) Microelectromechanical Systems (MEMS).

Course Description
Design, fabrication, and applications of MEMS. Mechanical properties governing their design and reliability and the processing technologies used to fabricate them.

Department
Electrical and Computer Engineering

When Taught
Winter Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
EC En 450 or Me En 372 or equivalent

EC EN 551 - Introduction to Digital VLSI Circuits

Course Information

Teaching Area (new)
EC EN

Course Number
551

Teaching Area
EC EN

Course Title
Introduction to Digital VLSI Circuits

Course Description
Design of very large-scale integrated circuits for digital systems. CAD tools used extensively to simulate the design and create and verify mask circuits.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- EC EN 340 - Electronic Circuit Design 1
- EC EN 320 - Fundamentals of Digital Systems

Learning Outcomes

Title
Translate Digital Logic to CMOS Circuits

Tags
180189, 1

Learning Outcome
Ability to translate digital logic to CMOS circuits to achieve desired behavior and performance requirements.

Title
CMOS Layout

Tags
180207, 2

Learning Outcome
Ability to perform CMOS layout.

Title
Techniques

Tags
180292, 4

Learning Outcome
Ability to characterize timing and noise in CMOS circuits.

Title
Tools

Tags
180302, 3

Learning Outcome
Ability to use eCAD tools for CMOS design.

Title
CMOS Circuits

Tags
180334, 0

Learning Outcome
Ability to analyze CMOS circuits.

EC EN 555 - Optoelectronic Devices

Course Information

Teaching Area (new)
EC EN

Course Number
555

Teaching Area
EC EN

Course Title
Optoelectronic Devices

Course Description
Design, operation, and fabrication of modern optoelectronic devices, including photodiodes, photovoltaics, LEDs, and lasers.

Department
Electrical and Computer Engineering

When Taught
Winter Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
1

Other Prerequisites
ECEn 450 or equivalent or instructor's consent.

Learning Outcomes

Title
2.

Tags
180166, 1

Learning Outcome
Be familiar with the tools and processes used in fabricating the following optoelectronic components - LEDs, lasers, photodiodes, and photovoltaics.

Title
1.

Tags
180208, 0

Learning Outcome
Use principles of physics to analyze and design the following optoelectronic components – LEDs, lasers, photodiodes, and photovoltaics.

Title
3.

Tags
180289, 2

Learning Outcome
Understand metrics of optoelectronics devices and be able to incorporate them into systems for optimal performance.

EC EN 560 - Electromagnetic Wave Theory

Course Information

Teaching Area (new)
EC EN

Course Number
560

Teaching Area
EC EN

Course Title
Electromagnetic Wave Theory

Course Description
Principles and methods of modern electromagnetic wave theory: anisotropic media, dyadic green functions, Huygen's principle, contour integration methods, asymptotic integration. Applications in radiation and scattering.

Department
Electrical and Computer Engineering

When Taught
Winter Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
EC En 462 or equivalent.

Learning Outcomes

Title
2.

Tags
180196, 1

Learning Outcome
Ability to use Green's function to model radiation.

Title
1.

Tags
180210, 0

Learning Outcome
Ability to analyze propagation in media.

Title
3.

Tags
180324, 2

Learning Outcome
Ability to apply electromagnetic theorems to boundary value problems.

EC EN 562 - Integrated Quantum and Classical Photonics

Course Information

Teaching Area (new)
EC EN

Course Number
562

Teaching Area
EC EN

Course Title
Integrated Quantum and Classical Photonics

Course Description
Design, fabrication, and analysis of chip-scale optical circuits. Classical and quantum performance characteristics of several circuit components, as well as applications in computing, sensing, and communications. Students will design a custom integrated photonic circuit, which will be fabricated and tested in a silicon foundry during the semester. Students will analyze their measured devices using the tools learned in the class.

Department
Electrical and Computer Engineering

When Taught
Winter Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
EC En 462, 466; or equivalents.

Learning Outcomes

Title
4.

Tags
180199, 3

Learning Outcome
Become familiar with the modern test and evaluation tools for fiber optic systems, including the OTDR Time Domain Reflectometer (OTDR), Optical Spectrum Analyzer (OSA), and Optical Oscilloscopes for eye diagram analysis.

Title
3.

Tags
180236, 2

Learning Outcome
Examine a topic of current interest in optical systems and make an oral presentation to the class.

Title
1.

Tags
180263, 0

Learning Outcome
Learn the fundamental properties of optical fiber channels, sources and detectors.

Title
2.

Tags
180332, 1

Learning Outcome
Design an optical fiber system while considering the bandwidth, distance required, and expense.

EC EN 563 - Numerical Methods for Engineering

Course Information

Teaching Area (new)
EC EN

Course Number
563

Teaching Area
EC EN

Course Title
Numerical Methods for Engineering

Course Description
Introduction to numerical methods for engineering. Algorithms for numerical integration, large linear system solutions, finite difference methods, method of moments, and the finite element method, with examples from wave propagation and electromagnetic field theory.

Department
Electrical and Computer Engineering

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
EC En 462 or equivalent

EC EN 564 - Radar and Communication Systems

Course Information

Teaching Area (new)
EC EN

Course Number
564

Teaching Area
EC EN

Course Title
Radar and Communication Systems

Course Description
Design and performance of radar and communication systems: radar equation ambiguity functions, modulation, signal detection, link budgets, spread spectrum, system design, and performance trade-offs.

Department
Electrical and Computer Engineering

When Taught
Fall Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
EC En 464 or 485; EC En 360 or 462; or instructor's consent.

Learning Outcomes

Title
4.

Tags
180161, 3

Learning Outcome
Communicate design and analysis concepts.

Title
5.

Tags
180216, 4

Learning Outcome
Research practical systems.

Title
6.

Tags
180253, 5

Learning Outcome
Write original reports about practical radar and satellite systems.

Title
3.

Tags
180264, 2

Learning Outcome
Practice applying system performance and tradeoff techniques for the design of radars and satellite telecommunication systems

Title
2.

Tags
180284, 1

Learning Outcome
Understand design and system performance tradeoffs for such systems.

Title
1.

Tags
180344, 0

Learning Outcome
Understand the basic concepts in modern surveillance radar and satellite telecommunication systems including the radar ambiguity function, modulation, signal detection, link budgets, spread spectrum, and system design.

EC EN 567 - Physical Optics

Course Information

Teaching Area (new)
EC EN

Course Number
567

Teaching Area
EC EN

Course Title
Physical Optics

Course Description
Concepts of physical optics. In physical optics the dominant property of light is its wave nature. In this course we use a variety of models, including the scalar wave, electromagnetic wave, and statistical optics models, to examine the phenomena of interference, coherence, polarization, and absorption and dispersion. We learn not only the fundamental aspects of these topics, but also concrete applications that are ubiquitous in the technology of our modern world.

Department
Electrical and Computer Engineering

When Taught
Fall Even Years

Instructor's consent

Learning Outcomes

Title
2.

Tags
180153, 1

Learning Outcome
Understand and experience applications of remote sensing.

Title
6.

Tags
180169, 5

Learning Outcome
Research practical systems.

Title
5.

Tags
180221, 4

Learning Outcome
Communicate research results.

Title
1.

Tags
180223, 0

Learning Outcome
Understand design and system performance tradeoffs for microwave sensors.

Title
3.

Tags
180241, 2

Learning Outcome
Practice applying system performance and tradeoff techniques for the design of radars and satellite telecommunication systems.

Title
4.

Tags
180269, 3

Learning Outcome
Conduct original research in the application of remote sensing.

Title
7.

Tags
180340, 6

Learning Outcome
Write an original report about a sensor system.

EC EN 576 - Medical Imaging and Image Reconstruction

Course Information

Teaching Area (new)
EC EN

Course Number
576

Teaching Area
EC EN

Course Title
Medical Imaging and Image Reconstruction

Course Description
Fundamentals of medical imaging modalities (x-ray, CT, ultrasound, and MRI) from a signals and systems perspective, magnetic resonance physics, medical image reconstruction methods (backprojection, partial-Fourier techniques, parallel imaging, compressed sensing).

Department
Electrical and Computer Engineering

When Taught
Winter Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
EC EN 380 or EC EN 351 or instructor permission

Learning Outcomes

Title
Understand and apply the following:

Tags
180373, 1

Learning Outcome

Develop a familiarity with the basic biomedical imaging modalities and their history (x-ray, CT, ultrasound, MRI, and nuclear medicine).
Develop a working knowledge of the basic physics, engineering, and instrumentation principles underpinning each modality.
Deepen their understanding of the typical applications for each modality, and of each modality's strengths and weaknesses.
Develop a deep understanding of the physics of MRI, MRI image acquisituion, and reconstruction techniques, and be able to apply that knowledge to the analysis and solution of typical problems arising in MRI image acquisition and reonstruction.

EC EN 595 - Fundamentals of Patents and Other Intellectual Property

Course Information

Teaching Area (new)
EC EN

Course Number
595

Teaching Area
EC EN

Course Title
Fundamentals of Patents and Other Intellectual Property

Course Description
Exploration of the basics of patent law and other areas of intellectual property, including trademarks, trade secrets and copyrights. The fundamentals of protecting and formalizing rights to inventions and other intellectual property, both in the United States and internationally. How to operate in an environment composed of your competitors' intellectual property.

Department
Electrical and Computer Engineering

When Taught
Fall

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

EC EN592R - Teaching Experience for ECEn

Course Information

Course Number
592R

Teaching Area
EC EN

Course Title
Teaching Experience for ECEn

Course Description
Learn teaching techniques and best practices and apply engineering skills and knowledge by mentoring undergraduate students in a class and laboratory setting under the direction of a faculty member.

Department
Electrical and Computer Engineering

When Taught
Fall and Winter

Credit Hours

Min:
1

Fixed/Max:
3

Lecture Hours

Fixed:
0.5

Learning Outcomes

Title
Teaching and mentoring

Tags
213759, 0, 1, 2023-08-29 08:45:06

Learning Outcome
Develop the ability to teach and mentor students in the discipline

Tags
213760, 0, 2, 2023-08-29 08:45:07

Learning Outcome
Learn to create, administer, and evaluate assessments of learning

ECE 200 - Foundations of Early Childhood Education

Course Information

Teaching Area (new)
ECE

Course Number
200

Teaching Area
ECE

Course Title
Foundations of Early Childhood Education

Course Description
This course provides potential teacher candidates with an introduction to early childhood education and includes an opportunity for experiences in a diverse public preschool setting.

Department
Teacher Education

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:

Other Prerequisites
Fingerprint/Background Clearance

Learning Outcomes

Title
Foundations of Early Childhood Education

Tags
212615, 0, 1, 2022-12-20 16:48:58

Learning Outcome
Identify the historical and philosophical foundations of early childhood education and public education.

Title
Developmentally Appropriate Practice

Tags
212616, 0, 2, 2022-12-20 16:48:58

Learning Outcome
Explain the core considerations and guiding principles of developmentally appropriate practice in early childhood classrooms including anti-bias practices.

Title
Curriculum

Tags
212617, 0, 3, 2022-12-20 16:48:58

Learning Outcome
Describe the curriculum models used in early childhood settings.

Title
Professionalism

Tags
212618, 0, 4, 2022-12-20 16:48:58

Learning Outcome
Demonstrate the dispositions needed to be an effective early childhood educator.

ECE 202 - Foundations of Child Development

Course Information

Teaching Area (new)
ECE

Course Number
202

Teaching Area
ECE

Course Title
Foundations of Child Development

Course Description
Understanding the development of the whole child including cognitive, social, emotional, linguistic, and physical development and how to apply it to planning, teaching, and assessing children.

Department
Teacher Education

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- SFL 210 - Human Development

Learning Outcomes

Title
Foundations of Child Development

Tags
206951, 1

Learning Outcome

Developing Dispositions
Teacher candidates will develop dispositions that are grounded in moral, spiritual, and intellectual understandings that recognize the potential of individual students within the contexts in which they live and develop.
Understanding Child Development
Teacher candidates will understand core issues related to child development. This includes knowledge about theories of cognitive, linguistic, physical, social, emotional and moral development, and how students develop within the various contexts of early and middle childhood.
Connecting to Classroom Instruction and Assessment
Teacher Candidates will make informed, defensible, and appropriate decisions about classroom instruction and assessment, based on knowledge, that maximizes essential learning and development for all learners.

ECE 299R - Prek-K Practicum

Course Information

Teaching Area (new)
ECE

Course Number
299R

Teaching Area
ECE

Course Title
Prek-K Practicum

Course Description
Initial field experience designed to give students opportunities to interact with children (prek-k) and apply skills and knowledge acquired in program courses including developmentally appropriate teaching strategies that meet children's individual learning needs.

Department
Teacher Education

When Taught
Fall and Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
8

Other Prerequisites
Fingerprint/Background Check

Recommended
Concurrent enrollment in ECE 330, ECE 333, ECE 336, IP&T 370

Learning Outcomes

Title
Reflective Practice

Tags
212619, 0, 1, 2022-12-20 16:49:44

Learning Outcome
Observe and reflect with the intent to improve practice.

Title
Child Guidance

Tags
212620, 0, 2, 2022-12-20 16:49:44

Learning Outcome
Use child guidance strategies to effectively support children's learning.

Title
Learner Development

Tags
212621, 0, 3, 2022-12-20 16:49:44

Learning Outcome
Apply knowledge of developmentally appropriate practices to support children's development and learning.

Title
Professionalism

Tags
212622, 0, 4, 2022-12-20 16:49:44

Learning Outcome
Demonstrate appropriate professional behaviors and dispositions (e.g., dress and grooming, attendance and punctuality, positive interactions with mentors, peers, parents, and children, and commitment to the profession).

Title
Nurturing Pedagogy

Tags
212623, 0, 5, 2022-12-20 16:49:44

Learning Outcome
Design and provide developmentally appropriate instruction and assessment in small and whole group settings.

ECE 301 - Physical Education, Health, and Play

Course Information

Teaching Area (new)
ECE

Course Number
301

Teaching Area
ECE

Course Title
Physical Education, Health, and Play

Course Description
This course prepares pre-service teachers with an understanding of the foundational motor skills and content specific to physical education and health as they consider play as an important pedagogical approach to support physical and emotional development, health, and wellness.

Department
Teacher Education

When Taught
Fall and Winter

Credit Hours

Learning Outcomes

Title
PE and Health Content

Tags
212624, 0, 1, 2022-12-20 16:55:13

Learning Outcome
Students will apply foundational knowledge of motor skills and developmentally appropriate practice to prek-3rd grade physical education and health content.

Title
Learning Through Play

Tags
212625, 0, 2, 2022-12-20 16:55:13

Learning Outcome
Students will apply play-based theory/practice to prek-3rd grade health and physical education curriculum.

Title
Developmentally Appropriate Pedagogy

Tags
212626, 0, 3, 2022-12-20 16:55:13

Learning Outcome
Students will create and reflect on physical education and health activities using movement and play.

ECE 322 - Parenting and Child Guidance in Early Childhood

Course Information

Teaching Area (new)
ECE

Course Number
322

Teaching Area
ECE

Course Title
Parenting and Child Guidance in Early Childhood

Course Description
Address young children's socio-emotional development in early childhood classrooms. Review theory and research to related peer interactions and parent-child and teacher-student relationships. Develop an understanding of instructional strategies and guidance practices in early childhood classrooms.

Department
Teacher Education

When Taught

Other Prerequisites
Admittance to either ECE or El Ed licensing programs. Dual majors, please see advisor

Learning Outcomes

Title
Cognitive Processes for Learning

Tags
178524, 2

Learning Outcome
2. The student will understand the cognitive processes associated with various kinds of learning (e.g., critical and creative thinking, problem structuring and problem solving, invention, memorization and recall).

Title
Factors That Impact Learning

Tags
178525, 1

Learning Outcome
1. The student will recognize the significance of factors that impact children's learning and development

Title
Integrated Curriculum and Social/Emotional Development

Tags
178526, 3

Learning Outcome
3. The student will understand how an integrated curriculum not only addresses children's cognitive development but how social and emotional development is also incorporated into learning activities.

Title
Integrating Parents and Family

Tags
178527, 4

Learning Outcome
4. The student will know how to integrate the parents and family into the curriculum.

Title
Understand Instructional Strategies

Tags
178528, 5

Learning Outcome
5. The student will become aware of the principles and techniques along with advantages and limitations associated with various instructional strategies (e.g., cooperative learning, direct instruction, discovery learning, whole group instruction, independent study and interdisciplinary instruction).

Title
National and State Curriculum

Tags
178529, 6

Learning Outcome
6. The student will become familiar with the value and use of national and state curriculum standards in developing curriculum.

Title
Evaluating Resources

Tags
178530, 7

Learning Outcome
7. The student will evaluate teaching resources and curriculum materials for usefulness, relevance and appropriateness in teaching ideas and concepts to young children and develop integrated learning activities (e.g., activity enhancers, learning centers, thematic activities, literature extensions, etc.).

Title
Human and Technological Resources

Tags
178531, 8

Learning Outcome
8. The student will know how to enhance learning through the use of a wide variety of materials as well as human and technological resources (e.g., computers, audiovisual technologies, videotapes and discs,local experts, primary documents and artifacts, texts, reference books, literature and other printresources).

Title
Creating Learning Experiences

Tags
178532, 9

Learning Outcome
9. The student will create developmentally appropriate learning experiences using integrated curriculum strategies (e.g., project work, curriculum mapping) that encourage and allow children tointegrate knowledge, skills and methods of inquiry from several subject areas and thatmaximize student progress.

Title
Culturally Appropriate Learning Experiences

Tags
178533, 10

Learning Outcome
10. The student will create culturally appropriate learning experiences for children utilizing integrated curriculum strategies. Understand the importance of a multicultural and anti-bias curriculum.

ECE 324 - Planning and Management

Course Information

Teaching Area (new)
ECE

Course Number
324

Teaching Area
ECE

Course Title
Planning and Management

Course Description
Learning principles, lesson planning, classroom atmosphere, classroom management, professional attitudes and practices.

Department
Teacher Education

When Taught
Fall and Winter

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Other Prerequisites
Admittance to ECE program.

Learning Outcomes

Title
Planning and Assessment

Tags
178848, 1

Learning Outcome
Teacher candidates will demonstrate an in-depth understanding of the planning and assessment cycle and backwards planning strategies to align assessments to lesson objectives.

Title
Assessment Data and Analysis

Tags
178849, 2

Learning Outcome
Teacher candidates will collect and analyze formative and summative data from on-going assessments to support student learning and development.

Title
Designing Curricula

Tags
178850, 3

Learning Outcome
Teacher candidates will apply their understanding of gospel truths, early development, core standards, instructional strategies, developmentally appropriate practice, vertical alignment, and differentiated learning to create lesson plans.

ECE 327 - Assessment and Action Research in Early Childhood Programs

Course Information

Teaching Area (new)
ECE

Course Number
327

Teaching Area
ECE

Course Title
Assessment and Action Research in Early Childhood Programs

Course Description
Formal and informal assessment strategies and data collection procedures for evaluating children's progress; programs to enhance learning, individualize instruction, and communicate with others.

Department
Teacher Education

When Taught
Contact Department

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Other Prerequisites
Admittance to ECE program

Learning Outcomes

Title
Understanding Different Assessments

Tags
178534, 2

Learning Outcome
2. The student will understand the characteristics, uses, advantages, and limitations of different types of assessments.

Title
Understanding Parts of an Assessment

Tags
178535, 1

Learning Outcome
1. The student will understand major concepts, conditions, and assumptions central to assessment.

Title
Using Assessments and Learning Outcomes

Tags
178536, 3

Learning Outcome
3. The student will select, construct, and use assessment strategies and instruments appropriate to learning outcomes being evaluated and to other diagnostic purposes.

Title
Measurement Theory

Tags
178537, 4

Learning Outcome
4. The student will understand measurement theory and assessment-related issues, such as validity, reliability, bias and scoring concerns.

Title
Culturally and Developmentally Relevant Assessment

Tags
178538, 5

Learning Outcome
5. The student will recognize the importance of culturally and developmentally relevant assessment

Title
Formal and Informal Assessments

Tags
178539, 6

Learning Outcome
5. The student will appropriately use a variety of formal and informal assessment techniques to enhance his or her knowledge of learners, evaluate students' progress and performances and modify teaching and learning strategies.

Title
Self Assessment

Tags
178540, 7

Learning Outcome
6. The student will use assessment strategies to involve learners in self assessment activities and, when appropriate, to help them become aware of their strengths and needs and to encourage them to set personal goals.

Title
Evaluating Class Activities

Tags
178541, 8

Learning Outcome
7. The student will evaluate the effect of class activities on both individuals and the class as a whole, collecting information through observation of classroom interactions, questioning and analysis of student work.

Title
Maintaining Records

Tags
178542, 9

Learning Outcome
8. The student will know how to maintain useful records of student work and performance and will communicate student progress knowledgeably and responsibly.

Title
Partnership with Families and Professionals

Tags
178543, 10

Learning Outcome
Students will know about communicating regarding assessments with parents and professionals in a manner that develops partnerships and demonstrates professionalism.

ECE 330 - Social-Emotional Development and Child Guidance

Course Information

Teaching Area (new)
ECE

Course Number
330

Teaching Area
ECE

Course Title
Social-Emotional Development and Child Guidance

Course Description
The purpose of this course is to gain a foundational understanding of the theories relevant to the development of social relationships and emotional regulation and guidance strategies for teaching prosocial and self-regulation behaviors with children in prek-3rd grade classrooms.

Department
Teacher Education

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Recommended
Taken concurrently with ECE 333, ECE 336, ECE 338R, & IP&T 370

Note
Taken concurrently with ECE 333, ECE 336, ECE 338R.

Learning Outcomes

Title
Social-Emotional Development Theories

Tags
212627, 0, 1, 2022-12-20 16:55:30

Learning Outcome
Students will explain the core components of the social/emotional development theories.

Title
Child Guidance Strategies

Tags
212628, 0, 2, 2022-12-20 16:55:30

Learning Outcome
Students will evaluate and select appropriate positive guidance strategies for ECE classrooms.

Title
Individual Differences

Tags
212629, 0, 3, 2022-12-20 16:55:30

Learning Outcome
Students will create ways to include families and their unique cultures in child guidance.

Title
Trauma-Informed Teaching

Tags
212630, 0, 4, 2022-12-20 16:55:30

Learning Outcome
Students will explain strategies used in trauma-informed teaching.

ECE 331 - Early Childhood Education Developmentally Appropriate Practices Seminar

Complete ALL of the following Courses:

- ECE 202 - Foundations of Child Development

Other Prerequisites
ECE 332 concurrently.

Note
Due to enrollment constraints, ECE 331 may not be retaken to improve a grade unless approved by the Child and Family Studies Laboratory Steering Committee.

Learning Outcomes

Title
Developmentally Appropriate Practices Seminar

Tags
178901, 1

Learning Outcome

Become conversant with developmentally appropriate practice standards published by NAEYC (National Association for the Education of Young Children).
Understand how developmentally appropriate practice applies to making effective educational decisions that benefit children and enhance their growth and development.
Gain a functional understanding of how teachers within a developmental model implement appropriate guidance and classroom management stragegies, create and modify effective learning environments, facilitate and scaffold learning and, develop strategies to meet the diversity of needs in the children and families they serve.

ECE 332 - Early Childhood Education Developmentally Appropriate Practices Practicum

Learning Outcomes

Title
PreK/K Practicum in Early Childhood

Tags
178896, 1

Learning Outcome
The practicum student will:

observe and reflect with the intent to improve practice.
use child guidance strategies to effectively support children's learning.
design lessons, provide instruction, and implement appropriate assessments.
apply knowledge of developmentally appropriate practices to support children's development and learning.
demonstrate appropriate professional behaviors and dispositions (e.g., dress and grooming, attendance and punctuality, positive interactions with mentors, peers, parents, and children, and commitment to the profession).

ECE 333 - Literacy Development I: Teaching Literacy in Early Childhood Classrooms (prek-k)

Course Information

Teaching Area (new)
ECE

Course Number
333

Teaching Area
ECE

Course Title
Literacy Development I: Teaching Literacy in Early Childhood Classrooms (prek-k)

Course Description
The purpose of this course is for teacher candidates to understand the essential components of literacy including what they are, how they are expected to develop, how they relate to other concepts, and ways to support, teach, and assess this development for young children (prek-k)

Department
Teacher Education

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Recommended
Taken concurrently with ECE 330, ECE 336, and ECE 338R, IP&T 370.\n

Learning Outcomes

Title
Essential Components of Literacy Development

Tags
212631, 0, 1, 2022-12-20 16:55:46

Learning Outcome
Teacher candidates will demonstrate foundational knowledge of the essential components of literacy development for all learners (PreK-K) with understanding of how context, culture(s), experiences, and Gospel truths influence literacy learning.

Title
Assessing Literacy Development

Tags
212632, 0, 2, 2022-12-20 16:55:46

Learning Outcome
Teacher candidates will implement a series of observations, small group lessons, and assessments to learn about the literacy development of young children and draw upon this data to determine strengths, areas of need, and ways to support literacy learning.

Title
Connecting Theory and Practice

Tags
212633, 0, 3, 2022-12-20 16:55:46

Learning Outcome
Teacher candidates will collaborate with colleagues and use a process of ongoing reflection to apply theory, Gospel insights, and research-based foundational knowledge of literacy development to the early literacy learning of young children.

ECE 334 - Introduction to Early Childhood Education

Course Information

Teaching Area (new)
ECE

Course Number
334

Teaching Area
ECE

Course Title
Introduction to Early Childhood Education

Course Description
This course provides a conceptual framework for understanding the role of the early childhood educator. It examines the development and learning theories of Early Childhood Education as well as current trends, issues, and practices of educating young children.

Department
Teacher Education

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Concurrent enrollment in EL ED 299R or El Ed 399R

Learning Outcomes

Title
Developmental Domains

Tags
212599, 0, 1, 2022-12-20 16:43:10

Learning Outcome
Teacher candidates will explain that children develop across six interconnected domains and that there is a general developmental progression in each domain, with differences due to cultural contexts, experiences, and individual variation.

Title
Learning and Development Theories

Tags
212600, 0, 2, 2022-12-20 16:43:10

Learning Outcome
Teacher candidates will utilize the learning and development theories that guide ECE pedagogy.

Title
Learning Activities

Tags
212601, 0, 3, 2022-12-20 16:43:10

Learning Outcome
Teacher candidates will develop content-accurate, appropriate, and challenging learning activities that actively engage learners in creating new meaning through interactions and experiences, including learning activities involving play.

Title
Cross-disciplinary Integration

Tags
212602, 0, 4, 2022-12-20 16:43:10

Learning Outcome
Teacher candidates will integrate cross-disciplinary skills and content into instruction to purposefully engage learners in applying content knowledge.

Title
Genres and Formats

Tags
212634, 0, 1, 2022-12-20 16:56:06

Learning Outcome
Students will identify texts for young children by genre and format.

Title
Critiquing Texts

Tags
212635, 0, 2, 2022-12-20 16:56:06

Learning Outcome
Students will critique texts according to quality (i.e., literacy artistic), taste, and identify the messages and ideologies they present.

Title
Teaching with Trade Books

Tags
212636, 0, 3, 2022-12-20 16:56:06

Learning Outcome
Students will use research-based practices to prepare to teach with trade books and other texts in early childhood settings.

Title
Reading Widely

Tags
212637, 0, 4, 2022-12-20 16:56:06

Learning Outcome
Students will read a wide variety of chidren's books to develop or redevelop a love of and enthusiasm for reading

ECE 353 - Emergent Literacy

Learning Outcomes

Title
Theories and processes of literacy

Tags
178544, 1

Learning Outcome
Explain, compare, and critique theories of reading and writing processes and development with supporting research evidence. (IRA Standard 1.1.1)

Title
Language processes

Tags
178545, 2

Learning Outcome
Explain and apply first language acquisition processes that support literacy development across elementary years, e.g., cueing systems, vocabulary, teacher talk. (IRA Standard 1.1.2)

Title
Literacy Processes

Tags
178546, 3

Learning Outcome
Explain and apply reading and writing development across elementary years, e.g., word recognition, language comprehension, strategic knowledge, spelling, qualities of good writing, and reading/writing connections. (IRA Standard 1.1.2)

Title
Second Language and Literacy Acquisition

Tags
178547, 4

Learning Outcome
Identify and synthesize major milestones in literacy instruction.(IRA Standard 1.2.1)

Title
Historical Foundations

Tags
178548, 5

Learning Outcome
Identify and synthesize major milestones in literacy instruction.(IRA Standard 1.2.1)

Learning Outcomes

Title
Components of Language

Learning Outcome
Define the major components of language (syntax, semantic, phonology, morphology, & pragmatics).

Title
Cultural Factors of Language Development

Learning Outcome
Demonstrate knowledge of how cultural factors influence first and second language development.

Title
Developmental Sequence of Language Behaviors

Learning Outcome
Demonstrate knowledge of the developmental sequence of pragmatic, semantic, syntactic, and morphologic language behaviors in production and comprehension modalities.

Title
Theories of Language Development

Learning Outcome
Demonstrate knowledge of the major theories of language development (social interactionist, linguistic, emergentism).

ECE 399R - Primary Grade Practicum

Course Information

Teaching Area (new)
ECE

Course Number
399R

Teaching Area
ECE

Course Title
Primary Grade Practicum

Course Description
Field experience designed to give students opportunities to interact with children (grades 1-3) and apply skills and knowledge acquired in methods courses.

Department
Teacher Education

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:

Lab Hours

Fixed:
12

Recommended
Concurrent enrollment with ECE 430, ECE 433, ECE 444, ECCE 446, ECE 447

Learning Outcomes

Title
Reflective Practice

Tags
212638, 0, 1, 2022-12-20 16:56:26

Learning Outcome
Students will observe and reflect with the intent to improve practice.

Title
Child Guidance

Tags
212639, 0, 2, 2022-12-20 16:56:26

Learning Outcome
Use child guidance strategies to effectively support children's learning.

Title
Nurturing Pedagogy

Tags
212640, 0, 3, 2022-12-20 16:56:26

Learning Outcome
Design lessons, provide instruction, and implement appropriate assessments.

Title
Content Knowledge

Tags
212641, 0, 4, 2022-12-20 16:56:26

Learning Outcome
Apply knowledge from various content courses as they relate to teaching in an early childhood classroom.

Title
Learner Development and Differences

Tags
212642, 0, 5, 2022-12-20 16:56:26

Learning Outcome
Provide learning experiences that meet students' diverse cognitive styles, cultural backgrounds, and linguistic diversity.

Learning Outcomes

Title
Student Teaching in Early Childhood Classrooms

Tags
178897, 0, 1

Learning Outcome
The student teacher will:

observe and reflect with the intent to improve practice.
use child guidance strategies to effectively support children's learning.
assume the role of lead teacher for a portion of the student teaching expereince as they design lessons, provide instruction, and implement appropriate assessments.
apply knowledge from various content courses as they relate to teaching in an early childhood classroom.
apply knowledge of developmentally appropriate practices to support children's development and learning.
provide learning experiences that meet students' diverse cogntive styles, cultural backgrounds, and linguistic diveristy.
demonstrate appropriate professional behaviors and dispositions (e.g., dress and grooming, attendance and punctuality, positive interactions with mentors, peers, parents, and children, and commitment to the profession).
complete a PPAT (Praxis Performance Assessment for Teachers) that measures their skills in using contextual factors, planning, assessment, lesson design, interpretation of student performance, and reflection.

Learning Outcomes

Title
Contemporary Families and Communities

Tags
212643, 0, 1, 2022-12-20 16:58:29

Learning Outcome
Describe contemporary families and communities and their role in children's development.

Title
Family/Community-Centered Practices

Tags
212644, 0, 2, 2022-12-20 16:58:29

Learning Outcome
Discuss reciprocal relationships with families and communities and apply principles of family-centered and community-centered practices.

Title
Effective Partnerships

Tags
212645, 0, 3, 2022-12-20 16:58:29

Learning Outcome
Apply a framework for building effective partnerships with families and communities.

Title
Advocacy

Tags
212646, 0, 4, 2022-12-20 16:58:29

Learning Outcome
Engage in advocating for young children and their families.

ECE 433 - Teaching Literacy in Early Childhood Classrooms (Pre K-3)

Course Information

Teaching Area (new)
ECE

Course Number
433

Teaching Area
ECE

Course Title
Teaching Literacy in Early Childhood Classrooms (Pre K-3)

Course Description
Study instructional practices for teaching children the literacy concepts, skills and strategies they need to learn in Pre K-3rd grade, and assessing, monitoring and evaluating children's literacy knowledge and learning in Pre K-3rd grade.

Department
Teacher Education

When Taught

Prerequisites

Complete ALL of the following Courses:

- ECE 333 - Literacy Development I: Teaching Literacy in Early Childhood Classrooms (prek-k)

Learning Outcomes

Title
Essential Components of Literacy

Tags
179066, 1

Learning Outcome
Teacher candidates will demonstrate foundational knowledge of the essential components of literacy development for all learners (Grades 1-3) with understanding of how context, culture(s), experiences, and Gospel truths influence literacy learning.

Title
Literacy Instruction

Tags
179067, 2

Learning Outcome
Teacher candidates will plan, implement, and adapt early literacy instruction based on children's strengths and areas of need.

Title
Literacy Assessment

Tags
179068, 3

Learning Outcome
Teacher candidates will be able to evaluate and monitor children's literacy knowledge and learning through whole-class, small group, and one-on-one instruction.

Learning Outcomes

Title
ECE 446 Course Outcomes

Tags
178888, 1

Learning Outcome
Teacher candidates will:

evaluate their personal dispositions, development, and growth toward becoming a teacher of science.
identify and describe purposes for teaching science in K-3 classrooms.
explain what science is and how young children learn science, including the knowledge and reasoning skills students must acquire to become proficient in science.
recognize the practices, crosscutting concepts, and core ideas of science and engineering and how they influence science instruction in K-3 classrooms.
plan for science instruction for children of various ages, abilities, backgrounds, and exceptionalities, including how to (a) identify appropriate science content from national standards and state core curricula; (b) apply a variety of appropriate teaching methods and strategies to support science learning; (c) integrate science with other disciplines across the early childhood curriculum; and (d) employ appropriate assessment methods and strategies.

ECE 447 - Teaching Mathematics in Early Childhood Classrooms (Pre K-3)

Course Information

Teaching Area (new)
ECE

Course Number
447

Teaching Area
ECE

Course Title
Teaching Mathematics in Early Childhood Classrooms (Pre K-3)

Course Description
Study the teaching and learning of early childhood mathematics guided by current principles relating to mathematics content, social interaction, student thinking, and child development.

Department

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- MTHED 305 - Basic Concepts of Mathematics

Other Prerequisites
ECE 441 and 442 concurrent.

Learning Outcomes

Title
ECE 447 Course Outcomes

Tags
178887, 1

Learning Outcome

Establish mathematics goals that accommodate students' varied mathematical trajectories and align appropriately with state content and practice standards as well as informal and formal assessments of student thinking.
Select and/or design worthwhile mathematical tasks that include varying levels of cognitive demand, thus increasing access to learning.
Design, implement, and evaluate inquiry-based lessons as structured by the Launch-Explore-Summarize (Discuss/Debrief) teaching and learning cycles or sequences.
Anticipate student mathematical thinking (for planning lessons and/or units, orchestrating discourse, questioning, etc.)
Create high levels of mathematical interaction by planning for discussion, questioning, and establishing a supportive classroom environment.
Adapt instruction to address the diverse learning strengths and needs of both groups and individuals.
Assess student learning, both formatively and summatively, using a range of appropriate strategies, and employ the results of assessment in guiding instruction.
Practice professionalism: In commitment to learning to teach, in appearance and demeanor, and in the quality of work submitted.

Learning Outcomes

Title
Economic costs and benefits

Tags
181914, 1

Learning Outcome
Students will compute measurements of costs (e.g. opportunity costs, marginal cost) and benefits (e.g. marginal utility, revenue), and use them to evaluate economic decisions.

Title
Equilibrium analysis

Learning Outcome
Students will analyze market responses to changing environments using models of production possibilities, supply and demand, perfect competition, monopoly, and aggregate supply and demand.

Title
Measures of wellbeing

Learning Outcome
Students will compute and interpret metrics of economic wellbeing, including consumer and producer surplus, deadweight loss, gross domestic product, and the consumer price index.

Title
Efficiency

Learning Outcome
Students will compute measures of economic efficiency and demonstrate why perfectly competitive markets deliver efficient outcomes.

Title
Interventions

Learning Outcome
Students will identify inefficiencies that arise with market imperfections and analyze the effect of government interventions.

Title
Institutions

Learning Outcome
Students will interpret economic statistics and write effectively about economic terms and institutions, practicing to participate thoughtfully in civic discourse.

Title
Economic analysis

Learning Outcome
Students will practice positive analysis of models (stating assumptions, deriving logical implications, and confronting those with evidence) to reason objectively about public policy, preparing for lifelong service and civic engagement.

Title
Spiritual applications

Learning Outcome
Students will explore spiritual insights from economic reasoning while also identifying contrasts between self-interested behavior and Christ-centered discipleship.

Learning Outcome

Be familiar with the labor and consumption patterns among the world's poor. Demonstrate an understanding of how modifying the neoclassical assumptions learned in Econ 110 can affect the welfare implications of markets. In particular, how the welfare implications are affected by
Externalities and Public Goods
Fixed Costs or Increasing Returns
Poorly Enforced Property Rights

Analyze the Solow Growth model and its implications for economic growth. Explain the functioning of the credit and capital market: Gain a basic understanding of econometric methods used in testing economic theories in growth and development.
How it relates to alleviating poverty and stimulating economic growth.
Why it may be prone to information problems and the implications of those problems.

Discuss the potential role of government in economic development. Especially as it relates to:
Public Goods and Externalities
Enforcing Contracts
Corruption

Explain the importance of labor, health, and education to the lives of those in developing countries and how these fields relate to improving outcomes among the poor.

Complete ANY of the following Courses:

- MATH 112 - Calculus 1
  OR MATH 113 - Calculus 2

Note
If you plan to complete Math 112 through Independent Study, this class cannot be registered for until the Independent Study course is completed.

Learning Outcomes

Title
Cultivate curiosity, humility, persistence, and patience

Learning Outcome
Ask questions and develop tools to answer those questions with integrity and with a recognition of the limits of statistical analysis.

Title
Analyze and interpret models with known population distributions

Learning Outcome
Use probability theory, random variables, correlation, and regression to model and interpret real-world phenomena.

Title
Analyze sample data to draw inferences about a population

Learning Outcome
Apply statistical methods to estimate population characteristics from sample data, evaluate estimators, compute margins of error, and conduct hypothesis tests.

Title
Investigate economic questions through data analysis

Learning Outcome
Use coding tools and statistics skills to analyze, and draw conclusions about, a research question.

Teaching Area
ECON

Course Title
Intermediate Microeconomic Theory 1

Course Description
Producer, consumer, and equilibrium theories; mathematical techniques of unconstrained and constrained optimization introduced and applied extensively.

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- ECON 110 - Economic Principles and Problems
  AND MATH 112 - Calculus 1

OR

Prerequisites

Complete ALL of the following Courses:

- ECON 110 - Economic Principles and Problems **AND** MATH 113 - Calculus 2

Note

If you plan to complete Econ 110 and/or Math 112 through Independent Study, this class cannot be registered for until the Independent Study course is completed.

Learning Outcomes

Title
Identify model elements:

Learning Outcome
Students will identify the common building blocks of economic models (actors, choices, objectives, constraints).

Title
Explain economic terms:

Learning Outcome
Students will explain common economic concepts (such as marginal utility, marginal rates of substitution, equilibrium, consumer and producer surplus, elasticities, complements and substitutes, and production technology) and compute them in mathematical models.

Title
Describe axioms:

Learning Outcome
Students will describe the axioms of consumer and producer theory and recognize consequences of their violation.

Title
Perform optimization:

Learning Outcome
Students will employ the mathematical tools of constrained and unconstrained optimization to solve common economic models of household and firm behavior.

Title
Interpret model results:

Learning Outcome
Students will graphically and numerically interpret the results of optimization and comparative statics calculations for firms, consumers and single partial equilibrium markets.

Title
Analyze Public Policy:

Learning Outcome
Students will analyze common policy outcomes in partial equilibrium markets including the effect of price controls and commodity taxation.

Title
Decompose Price Effects:

Learning Outcome
Students will analyze and interpret the substitution, income and output effects of price changes on consumer and firm behavior.

Title
Model economic costs:

Learning Outcome
Students will classify representations of business costs commonly used in production models.

Title
Faith and Economic Analysis:

Learning Outcome
Students will identify gospel principles that can enrich our understanding of economics and reflect on the ways in which their faith affects their choices as consumers and positions on economic policy.

Title
Ethical Action:

Learning Outcome
Students will identify and act in accordance with the highest standards of academic integrity and professional ethics.

ECON 381 - Intermediate Macroeconomics

Course Information

Teaching Area (new)
ECON

Course Number
381

Teaching Area
ECON

Course Title
Intermediate Macroeconomics

Course Description
Intermediate macroeconomic theory, emphasizing income, unemployment, and price-level analysis.

If you plan to complete Econ 110 and/or Math 112 through Independent Study, this class cannot be registered for until the Independent Study course is completed.

Learning Outcomes

Title
Rigorously Analyze Macroeconomic Phenomena

Tags
181990, 1

Learning Outcome
1. Understand the concepts, institutions and data that economists use to describe the macroeconomy.

Title
Rigorously Analyze Macroeconomic Phenomena

Learning Outcome
2. Use macroeconomic models and data to analyze long-run economic growth and short-run fluctuations.

Title
Rigorously Analyze Macroeconomic Phenomena

Learning Outcome
3. Make connections between microeconomic forces and macroeconomic outcomes

Title
Rigorously Analyze Macroeconomic Phenomena

Learning Outcome
4. Use data and models to analyze historical and current macroeconomic events.

Title
Apply Learning to Macroeconomic Issues and Policy Discourse

Learning Outcome
5. Use analytical tools with humility to evaluate macroeconomic claims and evidence presented in the media and to engage in policy discourse without contention.

Title
Apply Learning to Macroeconomic Issues and Policy Discourse

Learning Outcome
6. Identify and analyze limitations and trade-offs associated with different policy actions, especially fiscal and monetary policy.

Title
Apply Learning to Macroeconomic Issues and Policy Discourse

Learning Outcome
7. Use macroeconomic insights to inform efforts to combat poverty and economic hardship.

ECON 382 - Intermediate Microeconomic Theory 2

Course Information

Teaching Area (new)
ECON

Course Number
382

Teaching Area
ECON

Course Title
Intermediate Microeconomic Theory 2

Course Description
Welfare theory, imperfect information, imperfect competition, uncertainty, externalities, and public goods.

Prerequisites

Complete ALL of the following Courses:

- ECON 378 - Statistics for Economists
  AND ECON 380 - Intermediate Microeconomic Theory 1
  AND ECON 210 - Career Preparation Seminar

Prerequisites

Complete ALL of the following Courses:

- ECON 378 - Statistics for Economists

AND ECON 380 - Intermediate Microeconomic Theory 1
AND STDEV 317 - Job and Internship Search Strategies

Prerequisites

Complete ALL of the following Courses:

- ECON 378 - Statistics for Economists
  AND ECON 380 - Intermediate Microeconomic Theory 1
  AND STDEV 318 - Graduate School Preparation: Practical Strategies for Becoming a More Competitive Applicant

Note
Or Instructor Approval.

Learning Outcomes

Title
Formally Express and Analyze Economic Models

Learning Outcome
Recognize the common building blocks of economic models, solve economic models, and interpret the results.

Title
Demonstrate an Understanding of Core Microeconomic Models

Learning Outcome
Understand models of perfect competition in general equilibrium, monopoly and oligopoly, externalities and public goods, decision-making under uncertainty, and information problems.

Title
Adapt Models to New Scenarios

Learning Outcome
Compare the impact on equilibrium behavior of altering assumptions and be able to contrast the results of different market imperfections

Title
Establish a Knowledge Base that Will Be Useful in Economic Field Classes

Learning Outcome
Apply models in various real-world examples and identify the positive and normative conclusions in that environment.

ECON 388 - Introduction to Econometrics

Course Information

Teaching Area (new)
ECON

Course Number
388

Teaching Area
ECON

Course Title
Introduction to Econometrics

Course Description
Theory and application of regression analysis using cross-sectional, time-series, and panel data, as well as instrumental variables and discrete-choice (probit/logit) models. Includes Stata coding and introductory matrix algebra.

Tags
181918, 1

Learning Outcome

Demonstrate basic familiarity with the provisions of the principal Federal antitrust statutes, including the Sherman Act, the Clayton Act, the FTC Act, the Robinson-Patman Act, and the Hart-Scott-Rodino Act.
Evaluate the likely effects of Section 1 of the Sherman Antitrust Act using monopoly, Cournot, Stackelberg, and Bertrand models of non-cooperative behavior among a small number of rival firms.
Evaluate the likely effects of Section 2 of the Sherman Antitrust Act using simple analytical models of predation, exclusion, tying, bundling.
Evaluate the likely effects of laws limiting price discrimination, including the Robinson-Patman Act, using simple analytical models of price discrimination.
Evaluate the likely effects of Section 7 of the Clayton Act and the HRS Act using simple analytical models of mergers.
Evaluate public regulation of monopolies as an alternative to relying on antitrust law using simple analytical models of rate-of-return regulation, nonlinear pricing and peak load pricing.
Synthesize the relevant economics and legal literature, including Federal and Supreme Court rulings, via a substantial survey paper on a specific antitrust issue.

ECON 421 - Law and Economics

Learning Outcome

Demonstrate a basic familiarity with the Common Law.
Analyze the incentives created by Common Law tort rules.
Analyze the incentives created by Common Law contract rules.
Distinguish between "property rules" and "liability rules" with regard to property rights.
Evaluate the relative efficiency of specific tort rules.
Evaluate the relative efficiency of specific contract rules.
Analyze the incentives to litigate or settle under different rules about which party pays the costs of the litigation.
Analyze the incentives created by criminal sanctions.
Synthesize the relevant economics and legal literature, including Federal and Supreme Court rulings, via a substantial survey paper on a specific tort, contract or property issue.

Learning Outcomes

Title
Understand Evidence on Global Income Growth and Disparities

Learning Outcome
1. Identify cross-country income differences and how those have changed over centuries of time.

Title
Understand Evidence on Global Income Growth and Disparities

Learning Outcome
2. Become familiar with accessing and analyzing leading data sources for measuring incomes across countries.

Title
Understand Evidence on Global Income Growth and Disparities

Learning Outcome
3. Deepen compassion for and awareness of global economic conditions and challenges.

Title
Rigorously Analyze Economic Growth Patterns Using Leading Models

Learning Outcome
4. Use and analyze leading theories and models of economic growth, especially the Solow Model and modern refinements/offshoots of it.

Title
Rigorously Analyze Economic Growth Patterns Using Leading Models

Learning Outcome
5. Understand the relationship between economic growth and education, technology/innovation, trade/foreign investment, government policies and institutions, geography, culture, and inequality.

Title
Rigorously Analyze Economic Growth Patterns Using Leading Models

Learning Outcome
6. Use models and data evidence to analyze historical and current events.

Title
Understand the Role of Policy in Promoting Economic Growth

Learning Outcome
7. Compare the strengths and limitations of varied policy options of improving standards of living across the world

Title
Understand the Role of Policy in Promoting Economic Growth

Learning Outcome
8. Identify connections between principles of the gospel of Jesus Christ and policy actions that can improve economic well-being

ECON 440 - Natural Resources and Environmental Economics

Course Information

Teaching Area (new)
ECON

Course Number
440

Teaching Area
ECON

Course Title
Natural Resources and Environmental Economics

Course Description
Economic theory applied to allocation of natural resources and environmental amenities. Issues relating to externalities, common property resources, public goods, allocation of depletable natural resources over time, economic factors of environmental polarization, and others.

Department
Economics

When Taught

Tags
181920, 1

Learning Outcome

Utilize economic principles and models to address private and public policy issues related to allocating natural resources and environmental amenities. Demonstrate an active understanding of the following elements of economic theory as it relates to natural resource and environmental economics:

Welfare economics and concepts of Pareto optimality, efficiency, and equity
The role of property, property rights, and the bundle of rights concept
The role of externalities, common property resources, and public goods
Concepts and measures of economic value including non-market valuation.

Demonstrate a basic knowledge of the role of markets and market failure with regards to the allocation of natural resources and environmental amenities.
Gain a basic understanding of the effects and relative merits of public environmental policy efforts, including cap-and-trade schemes, Pigovian taxes, regulation, and public ownership and/or management.
Become knowledgeable about and be able to use economic principles and non-market valuation techniques to address a variety of continuing and contemporary natural resource and environmental issues. These issues may include, but are not exclusive to:

Population growth and the environment
Global warming
Wilderness protection and related public lands issues
Air pollution and public health
Intergenerational allocation of soil, forest, and other depleteable natural resources
Impacts of environmental features on property values.

Tags
181921, 1

Learning Outcome

Understand and derive the fundamental relationship between risk and return that is implied by the Capital Asset Pricing Model (CAPM). Students should also know the assumptions necessary for this model to hold and be capable of identifying when potential investment projects satisfy these assumptions.
Use linear regression to calculate an asset's historical sensitivity to broad market indices, its implied historical mispricing and an estimate of the asset's idiosyncratic risk. Students should also be capable of performing hypothesis testing on these values.
Replicate traditional tests of the CAPM using currently available data.
Be capable of collecting and analyzing asset market data to estimate the efficient frontier of risky assets using either Excel or another software package. Students should also be able to understand the efficient frontier mathematically and the reasons that it is useful.
Calculate the present value of a stream of payments given an appropriate discount factor. Students should know how to use the CAPM to derive potential discount factors for payment streams.
Calculate the yield to maturity of a stream of payments given an observed price. Students should also understand the relationship between the coupon rate of traditional bonds, their price and their yield to maturity.
Calculate forward rates for all future periods given the observed yield curve.
Understand the liquidity preference theory of bond markets as well as the expectations hypothesis. They should also be able to price complicated payment streams using observations of the yield curve and the expectations hypothesis.
Calculate the duration and modified duration of a stream of payments and use these to calculate optimal hedges given an arbitrary position in the fixed income market.
Calculate and understand bond convexity and its role (along with duration) in hedging.
Price forward contracts by arbitrage given a risk-free rate.
Price futures contracts whose payoffs are not correlated with the market reinvestment rate.
Understand currently used hypotheses regarding futures contract pricing.
Understand the structure of call and put options.
Price put options given a call option (and vice versa) using the put-call parity relationship.
Apply the Black-Scholes option pricing formula to price call and put options given beliefs about the volatility of the underlying asset.
Apply the Black-Scholes option pricing formula to calculate the implied volatility of an asset given its price.

Learning Outcomes

Title
Institutional familiary

Tags
181922, 1

Learning Outcome
Students will summarize common financial assets, institutions, policies, and historical experiences, with a base of knowledge that facilitates life-long learning after graduation.

Title
Macro data usage

Learning Outcome
Students will competently extract and visualize macro data from the Federal Reserve Economic Data website (FRED), and evaluate overall trends against model predictions.

Title
Critical thinking with models

Learning Outcome
Students will develop intellectual humility and fair-mindedness, practiced by evaluating a number of related models and discriminating between their distinct settings and distinct predictions.

Title
Role of money

Learning Outcome
Students will rigorously analyze the roles of money in facilitating transactions, storing value over time, and comparing prices of goods.

Title
Causes and impact of inflation

Learning Outcome
Students will identify the causes of inflation, characterize the negative impacts of inflation, and assess incentives for governments to create inflation.

Title
Role of private banks

Learning Outcome
Students will explain the beneficial role of financial intermediaries (banks), and illustrate the individual and systemic risks that they introduce.

Title
Role of central banks

Learning Outcome
Students will evaluate the role of central banks in regulating private banks, and analyze the impact of their regulations on output, inflation, and macro risks.

Title
Monetary policy and deficits

Learning Outcome
Students will examine the impact of government deficits and debt, particularly in their interaction with monetary policy.

Title
Scriptural alignment

Learning Outcome
Students will assess where economic models are in alignment with relevant scriptural doctrine, and identify gospel principles that can enrich our understanding of monetary economics.

ECON 458 - International Trade Theory and Applications

Course Information

Teaching Area (new)
ECON

Course Number
458

Teaching Area

Prerequisite

Complete ALL of the following Courses:

- ECON 380 - Intermediate Microeconomic Theory 1

Recommended
ECON 382

Learning Outcomes

Title
Gains from Trade

Learning Outcome
Use economic modeling to explain why all kinds of nations--rich and poor, large and small--gain from international trade.

Title
Comparative Advantage

Learning Outcome
Explain comparative advantage, its sources, and how it creates gains from trade.

Title
Other Sources of Gains from Trade

Learning Outcome
Explain how economies of scale and the reduction of market power can also generate gains from trade.

Title
Losses from Trade

Learning Outcome
Identify who might lose from trade even when nations as a whole gain from trade.

Title
International Migration and Capital Flows

Learning Outcome
Use economic modeling to explain what drives human migration and international capital flows and analyze their benefits and costs.

Title
Trade Policies

Learning Outcome
Analyze how trade policies affect national welfare and how such policies help some while hurting others.

Title
Trade Politics

Learning Outcome
Use models of trade to analyze how political forces shape trade policies.

ECON 459 - International Monetary Theory

Tags
181924, 1

Learning Outcome

Demonstrate a familiarity with the key issues in two broad fields:

International Finance, particularly exchange rate behavior,
Open Economy Macroeconomics.

Discuss the nature of the foreign exchange market, including:

It's market organization
The role of vehicle currencies
The instruments traded
The role of arbitrage.

Understand and use models of exchange rate behavior:

Covered and uncovered interest rate parity
Long-run monetary and equilibrium models.

Understand financial portfolio theory to the extent that it is useful in explaining exchange rate behavior, including:

The determination of risk premia
How it may explain the "forward bias" puzzle.

Discuss the history of the international financial system since the late 1700's.
Discuss the international aspects of the national income and product accounts, along with the balance of payments accounts.
Apply simple dynamic models of consumption smoothing to the current account.

ECON 461 - Economics of Education

Course Information

Teaching Area (new)
ECON

Course Number
461

Teaching Area
ECON

Course Title
Economics of Education

Course Description
Evaluation of education policy from an economic perspective, focusing on the benefits and costs of policy outcomes. Introduction to quantitative methods used by empirical education researchers.

Department
Economics

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Prerequisite

Complete ALL of the following Courses:

- ECON 380 - Intermediate Microeconomic Theory 1
- ECON 388 - Introduction to Econometrics

Learning Outcomes

Title
Learn to Model and Critically Evaluate Education Policy

Learning Outcome
Evaluate education policy from an economics perspective by incorporating costs, benefits, and unintended consequences in education policy analysis Demonstrate an understanding of the theoretical underpinnings of the field, including Education Production, Human Capital formation, and incentives Speak fluently and intelligently about current issues in education policy, including K-12 education and Higher Education

Title
Connect Models and Data to Analyze and Interpret Real-World Fact

Learning Outcome
Evaluate the economics of education research literature from highly regarded peer-reviewed journals Demonstrate an understanding of the quantitative methods that empirical education economists use to conduct causal research

Title
Become an Informed Citizen and Disciple of Jesus Christ

Learning Outcome
6. Understand how circumstances, policy incentives, and constraints affect human behavior, leading to compassion and understanding 7. Identify ways to use your skills, knowledge, and resources about education to benefit individuals, your community, and your nation

ECON 463 - Economics of the Labor Market

Course Information

Teaching Area (new)
ECON

Course Number
463

Teaching Area
ECON

Course Title
Economics of the Labor Market

Course Description
Economic analysis and institutional background of labor markets in developed countries, particularly the United States. Typical topics include labor supply and demand analysis, determination of wages and employment, investment in education, wage differences by gender and race, immigration, and unions.

Department
Economics

Prerequisite

Required Prerequsites

Complete ALL of the following Courses:

- ECON 380 - Intermediate Microeconomic Theory 1 **AND** ECON 388 - Introduction to Econometrics

Learning Outcomes

Title
Benchmark Labor Market Analysis

Learning Outcome
Use standard optimization models to analyze labor supply, labor demand, and their interactions.

Title
Higher Level Labor Market Analysis

Learning Outcome
Use other models to analyze more complex labor market phenomena, such as job search, human capital choices, risky occupations, union wage setting, and behavior under alternative compensation schemes.

Title
Institutions

Learning Outcome
Analyze key U.S. labor market institutions, with a focus on how government programs affect labor supply and wages.

Title
Literature Analysis

Learning Outcome
Evaluate how high quality labor economics empirical research relates to model predictions.

Title
Empirical Research

Learning Outcome
Complete an empirical project demonstrating competence in basic econometric techniques.

ECON 465 - Health Economics

Course Information

Teaching Area (new)
ECON

Course Number
465

Teaching Area
ECON

Course Title
Health Economics

Course Description
Economic models of health-care markets, including the supply and demand for health and health care, insurance, market imperfections, public-sector involvement, and regulation.

Department
Economics

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- ECON 380 - Intermediate Microeconomic Theory 1
  AND ECON 388 - Introduction to Econometrics

Note
Concurrent enrollment accepted for Econ 388; see professor.

Learning Outcomes

Title
Model and Critically Evaluate Health and Health Care Policy Areas

Tags
181926, 1

Learning Outcome
1. Understand the basic structure of the public and private sectors of the health care economy of the U.S. 2. Explore and use theoretical models of individual, firm, and government behavior and actions. 3. Consider various policy proposals related to health care and health care markets and critically evaluate their impact on individuals and the economy.

Title
Connect Models and Data to Analyze and Interpret Real-World Facts

Learning Outcome
4. Assess the available empirical evidence on health care behavior at the individual and household level. 5. Recognize implications of the health care economy for government and the interplay between government and the private sector related to health care. 6. Evaluate statistical evidence, being able to recognize assumptions, weaknesses, and strengths. 7. Produce a professional policy proposal or policy brief that applies economic theory and empirical evidence to address real-world issues.

Title
Become an Informed Citizen and Disciple of Jesus Christ

Learning Outcome
8. Understand how circumstances, policy incentives, and constraints affect human behavior, leading to compassion and understanding. 9. Identify ways to use your skills, knowledge, and resources to benefit individuals, your community, and your nation.

ECON 468 - Urban Economics

Course Information

Teaching Area (new)
ECON

Course Number
468

Teaching Area
ECON

Course Title
Urban Economics

Course Description
Economic models relating to spatial location of economic activities and development of cities. Application of economic theory to problems and policies associated with housing, urban transportation, congestion, local government finance, and other urban problems.

Econ 468 students will be able to

Tags
181927, 1

Learning Outcome

Demonstrate an understanding of the role of transportation costs in determining land uses and land prices.Demonstrate a familiarity with the monocentric city model of land use and its use in understanding the impact of local land use and transportation policies.
Apply the basic models of housing demand and the role of filtering in determining the stock of housing in a city.
Demonstrate an understanding of the economic concepts of external costs and how these play a role in air pollution and highway congestion. Apply the concept of Pigouvian pricing as a solution to externality problems in the case of highway congestion.
Discuss the role of time costs in consumers' choice of transportation mode, and why collection and distribution parts of urban trips are so important in determining the proper design of mass transit systems. Demonstrate an understanding of the role of economies of scale in efficient mass transit design.
Use the basic economic model of "rational" crime to predict the impact of various anti-crime policies.

Econ 475 students will be able to

Tags
181928, 1

Learning Outcome

Discuss the revenue, expenditure, and debt patterns of the U.S federal government.
Analyze how modifying the neoclassical assumptions learned in 380 can affect the welfare implications of markets. In particular, how the welfare implications are affected by

Externalities and Public Goods
Fixed Costs or Increasing Returns
Poorly Enforced Property Rights
Information Problems
Hyperbolic Discounting or Loss Aversion

Demonstrate an understanding of the function and incentive effects of the major redistribution programs in the United States.
Discuss the efficiency and distributional effects of taxation and the theory of optimal taxation for both income and commodity taxes.
Read papers in the public economics literature and

Provide written and oral critiques of the papers
Apply modern tools of econometric analysis in discussing the papers

ECON 476 - Industrial Organization

Course Information

Teaching Area (new)
ECON

Course Number
476

Teaching Area
ECON

Course Title
Industrial Organization

Course Description
Industrial organization focuses on firm behavior in imperfectly competitive markets. Typical topics include the acquisition and use of market power by firms, strategic interactions among firms, and an introduction to noncooperative game theory.

Econ 476 students will be able to

Tags
181929, 1

Learning Outcome

Analyze basic models of competition among firms producing homogeneous goods: competition, monopoly, Cournot oligopoly, Bertrand oligopoly, Stackelberg oligopoly.
Apply basic game theory including solution concepts for normal and extensive form games.
Demonstrate an understanding of extensions to these basic model, including supergames, models of product differentiation, and games of incomplete information.
Apply these models to key issues in theoretical and applied industrial organization: mergers, collusion, advertising, R&D competition, antitrust policy, entry accommodation and entry deterrence, and business strategy.
Discuss the role of government in the market in determining antitrust policy, patent policy, and regulation.
Read, synthesize, and write short review papers on applied or empirical papers from the industrial organization literature.

Econ 588

Tags
181934, 1

Learning Outcome

Demonstrate a familiarity with the properties and applications of several families of statistical distributions to econometric problems.
Demonstrate an understanding of variations and generalizations of the basic regression model including

Generalized least squares
Generalized autoregressive conditional heteroskedasticity models
Instrumental variables
Seemingly unrelated regression models
Panel data
Hausman specification tests.

Demonstrate an understanding of estimation frameworks in econometric models including

Parametric, semiparametric, and non parametric specifications
Maximum likelihood, M-, generalized method of moments, kernel, empirical likelihood, and extremum estimation.

Formulate and estimate various nonlinear models.
Identify and estimate autoregressive integrated moving average (ARIMA) models and obtain forecasts of economic variables.
Demonstrate an understanding of dynamic (and static) structural econometric models including being able to discuss

Reduced form, structural, and transfer function representations
The identification problem
Issues of estimation and statistical inference
Vector autoregression models.

Complete a research project in which they formulate a research question, apply appropriate methods to answer the question, and prepare a paper summarizing their results.

Learning Outcomes

Title
Historical and Philosophical Foundations of Education

Tags
178144, 0

Learning Outcome
Teacher candidates understand the major philosophical, historical, and sociological movements in Western education, including the nature of man, external structure, and individual freedom.

Title
Social Foundations of Education

Tags
178145, 1

Learning Outcome
Teacher candidates examine central issues and contexts of education (e.g., wealth and poverty, school and family, alternative delivery systems, school and democracy, school and law, religion and education). They will also explore political and policy issues confronting education, governance and structure of public education, and financial and economic aspects of education.

Title
Personal and Professional Philosophy of Education

Tags
178146, 2

Learning Outcome
Teacher candidates reflect upon and articulate their own views of education and connect these views to their future professional practice and personal educational philosophy.

Title
Moral Foundations of Education

Tags
178147, 3

Learning Outcome
Teacher candidates investigate their own role as professionals engaged in the American proposition that education is a moral responsibility necessary for a civil and prosperous democratic society. They will understand the vision and purposes of the BYU-Public School Partnership and BYU's commitments to public education and its role in American society and will examine the moral commitments of education adopted by the Partnership.

EDLF 362 - Introduction to International Development Education

Course Information

Teaching Area (new)
EDLF

Course Number
362

Teaching Area
EDLF

Course Title
Introduction to International Development Education

Course Description
Major concepts and research in educational aspects of poverty alleviation and human development. Role of education as foundation of poverty alleviation, expanding human capabilities, and for promoting national development.

Learning Outcomes

Title
Theoretical understanding of IDE

Tags
178048, 1

Learning Outcome
Become aware of key theoretical concepts and different understandings on education and development, and the significance of human rights mainstreaming as a pillar in disciplinary and professional divide.

Title
Critical examination of development architectures

Tags
178066, 4

Learning Outcome
Examine strengths and weaknesses of development architectures--particularly in relation to key problems and issues like poverty, exclusion, gender, empowerment and dignity, sustainability, capabilities and functioning and human rights. Learn to question the "Washington Consensus" wisdom and existing systems, structures, and models are working and, if not, what might work instead.

Title
Education a powerful tool for enlarging opportunity freedom, eliminating inequalities, and for overcoming poverty and other disadvantages.

Tags
178185, 0

Learning Outcome
Education is a powerful tool for creating opportunities, eliminating inequalities, and enabling people to overcome poverty and other disadvantages. Educational development and poverty reduction are, therefore, integrally linked issues in comparative and international education and development research. Students will understand how governments, international governmental organizations (IGOs), international non-governmental organizations (INGOs), and other institutions create as right-holders can create educational opportunities and support educational systems that develop leadership and foster learning and creativity for all people.
These questions and other outcomes explored in this course will enable students to:

Introduce students to the complexities of the reservoir of diverse intellectual ideas and traditions in education;
Articulate these understandings in making more thoughtful, responsible and better informed decisions in their own research and practice, and in their own reading and use of research in the field;
Understand issues of equity and equality of educational opportunities and outcomes for differently situated social groups, especially those who historically have been most discriminated against;
Synthesize the knowledge and discussions regarding the concept of education in poverty and human development, so as to inform their definition, draw on the extensive policy and academic literatures available to propose relationships between the multidemsionalities of poverty and five related concepts: educational poverty, rights in education and right to education, human rights, and well-being and happiness;
Acquire a critical methodology that should prepare students for second cycle studies as well as for making contribution as mid-level policy-makers in agencies or practitioners in NGOs.

EDLF 363 - Education, Poverty, and Community Development

Course Information

Teaching Area (new)
EDLF

Course Number
363

Teaching Area
EDLF

Course Title
Education, Poverty, and Community Development

Course Description
Examines the nexus between education, poverty, and socioeconomic development challenges facing developing countries through the perspective of economics, religion, and the state.

Department

Learning Outcomes

Title
Formulate research questions

Tags
178054, 3

Learning Outcome
Formulate complex research questions regarding development.

Title
Effective communication

Tags
178058, 4

Learning Outcome
Communicate scientific issues and follow the development of knowledge.

Title
Understand development dimensions

Tags
178060, 5

Learning Outcome
Develop a more effective understanding of the economics, social, and political dimensions of educational development within and across national boundaries.

Title
Critical reflection on theories

Tags
178068, 1

Learning Outcome
Locate, understand, and critically review development theories and research within their respective disciplines and within the interdisciplinary field of Development Studies

Title
Development analysis

Tags
178087, 2

Learning Outcome
Analyze relevant development phenomena in a complex manner using key concepts and theories studied during the course.

Title
Understanding development paradigms and critical reflection on poverty and human development

Tags
178140, 0

Learning Outcome
Identify and critically reflect upon issues and theories of poverty and human development
The Specific Objectives of the Course are as Follows:

Understand the way in which different educational systems, pedagogical approaches, and organizational structures have evolved in a variety of cultures and country contexts;
Explain the role that education plays in global social, political and economic development;
Develop the ability to think logically and critically, and to apply knowledge from multiple disciplines to various contexts;
Develop the ability to reflect on, understand, and respond to complex international and intercultural issues relating to human rights, right to education, rights in education and development; and
Develop the ability to locate, identify, and use sources of information from multiple disciplines to understand and address issues related to education.

Learning Outcomes

Title
Rights-based Discourse

Tags
212611, 0, 1, 2022-12-20 16:45:08

Learning Outcome
Teacher candidates will be able to explain the reasons for rules and concerns surrounding policies and rights-based discourse regarding students.

Title
Ethical Pronouncement and Regulations

Tags
212612, 0, 2, 2022-12-20 16:45:08

Learning Outcome
Teacher candidates will demonstrate primary knowledge of very basic Constitutional law, and several key statutory and other ethical pronouncements in exemplary regulations.

Title
Student Safety, Equity, Fairness, and Protection

Tags
212613, 0, 3, 2022-12-20 16:45:08

Learning Outcome
Teacher candidates will become familiar with the legal and ethical issues surrounding student safety, equity, fairness and protection, while also being able to demonstrate basic knowledge regarding their duties to respect safe boundaries and interaction with students.

Title
The Role of Public Schools

Tags
212614, 0, 4, 2022-12-20 16:45:08

Learning Outcome
Teacher candidates will understand the role of the public schools in demonstrating the ability to combine impartiality, sensitivity to student diversity, and ethical considerations in their interactions with others in promoting social justice.

EL ED 200 - Introduction to Education

Course Information

Teaching Area (new)
EL ED

Course Number
200

Teaching Area
EL ED

Course Title
Introduction to Education

Course Description
Introduction to the philosophical foundations of education and the role of public education in the U.S. today. Topics will include how (a) public education is the cornerstone of a civil and prosperous democratic community; (b) education is a public imperative, a moral endeavor, and a shared responsibility for all members of society; and (c) public schools exist to provide access to education for all, which includes both academic mastery and personal development for the purpose of maximizing students' potential to participate fully and productively in society. In addition to readings and discussions, there will be opportunities for experiences in local public schools.

Learning Outcomes

Title
Education for All

Tags
210613, 0, 1, 2021-01-07 10:02:20

Learning Outcome
Explain how public schools exist to provide access to education for all.

Title
Education as a Public Imperative

Tags
210614, 0, 2, 2021-01-07 10:02:20

Learning Outcome
Describe ways that all citizens can contribute to the success of student learning.

Title
The Role of Education in a Democratic Society

Tags
210615, 0, 3, 2021-01-07 10:02:20

Learning Outcome
Identify the ways in which education helps individuals participate in a democratic society.

EL ED 203 - Foundations of Multicultural Education

Course Information

Teaching Area (new)
EL ED

Course Number
203

Teaching Area
EL ED

Course Title
Foundations of Multicultural Education

Course Description
Learn to address social and cultural differences, foster inclusive learning environments, and develop awareness of power, privilege, and diverse backgrounds. Christlike virtues are emphasized to communicate high expectations, incorporate resources from diverse students, families, and communities.

Department
Teacher Education

When Taught
Fall, Winter, Spring

Credit Hours

Min:

Other Prerequisites
Limited to Elementary Education majors or pre-majors, and Early Childhood Education majors and pre-majors.

Learning Outcomes

Title
Cultural Identities

Learning Outcome
Examine and understand the various dimensions of cultural identity, including one's own, and apply this knowledge to a process of personal reflection.

Title
Recognize Privilege and Inequity

Learning Outcome
Recognize and acknowledge racism, discrimination and other forms of inequity and privilege in themselves, in others, and within institutions.

Title
Inclusion

Learning Outcome
Learn to appreciate and value individual and cultural differences. Recognize how diversity enriches opportunities for learning and engagement within various communities.

Title
Critical Dispositions

Learning Outcome
Recognize and use a moral/spiritual framework as a multicultural educator. Develop critical multicultural dispositions (e.g., self-critique, social awareness, meekness, advocacy). Explore perspectives and ways of knowing multicultural concerns (e.g., gender, sexuality, race and ethnicity, language abilities, immigration, social class, poverty).

EL ED 213 - Instructional Design and Assessment for all Learners

Course Information

Teaching Area (new)
EL ED

Course Number
213

Teaching Area

12

Other Prerequisites
Background check.
Fingerprint clearance.
Concurrent enrollment in ELED 310.

Learning Outcomes

Title
Levels of Teacher Control

Tags
212354, 0, 1

Learning Outcome
Compare and contrast various levels of teacher control and describe how each level would look in the classroom setting.

Title
Motivation Theory & Application

Tags
212355, 0, 2

Learning Outcome
Based on knowledge of motivation theory, develop and implement various approaches and strategies for motivating students.

Title
Learning Environment

Tags
212356, 0, 3

Learning Outcome
Explain how to effectively establish and maintain elements of a nurturing, effective, productive learning environment, including: rules, procedures, rapport, and the physical space.

Title
Behavior Interventions

Tags
212357, 0, 4

Learning Outcome
Develop and implement a plan to address misbehavior with various, appropriate levels of response.

Title
Performance & Disposition Evaluation

Tags
212358, 0, 5

Learning Outcome
Demonstrate a 'developing' level of competency and disposition of a classroom teacher as evidenced by the summative evaluations using university-based observations.

EL ED 310 - Planning and Assessment 1

Course Information

Teaching Area (new)
EL ED

Course Number
310

Teaching Area
EL ED

Course Title
Planning and Assessment 1

Course Description
Instruction in foundational knowledge and skills necessary to design quality lesson plans and assessments including an understanding of content standards, rationale and design for a variety of assessments, and elements of effective lesson planning.

Department
Teacher Education

When Taught
Fall and Winter

Credit Hours

Min:
2

Other Prerequisites
Background check.
Fingerprint clearance.
Concurrent enrollment in El Ed 299R.

Learning Outcomes

Title
Contextual Factors

Tags
212595, 0, 1

Learning Outcome
Teacher candidates will describe various key contextual factors, how they impact instruction, and what steps the teacher will take to attend to the specific setting in which he/she is teaching.

Title
Lesson Planning

Tags
212596, 0, 2

Learning Outcome
Teacher candidates will demonstrate the ability to develop clear, effective, aligned lesson plans based on core standards.

Title
Formative and Summative Assessment

Tags
212597, 0, 3

Learning Outcome
Teacher candidates will create technically sound formative and summative assessments taking into consideration issues of validity and reliability.

Title
Key Components of Effective Planning and Assessment

Tags
212598, 0, 4

Learning Outcome
Teacher candidates will explain key components of effective planning and assessment (e.g., learning theory, accessing and using core standards, backward design, validity and reliability, principles of instructional multi-tiered systems of support).

EL ED 323 - Foundations of Literacy Development

Course Information

Teaching Area (new)
EL ED

Course Number
323

Teaching Area
EL ED

Course Title
Foundations of Literacy Development

Course Description
Language and literacy development for first and second language learners including theoretical underpinnings, processes, historical foundations, and instructional contexts that support language and literacy development for all K-6 children.

Department
Teacher Education

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Admittance into elementary education program.

Learning Outcomes

Title
Theories and Process of Reading and Writing

Tags
179049, 1

Learning Outcome
Explain, compare and critique theories of reading and writing processes and development with supporting research evidence. (ILA Standard 1.1.1)

Title
Language Processes

Tags
179050, 2

Learning Outcome
Explain and apply first language acquisition processes that support literacy development across elementary years, e.g., cueing systems, vocabulary, teacher talk). (ILA Standard 1.1.2)

Title
Second Language and Literacy Acquisition

Tags
179051, 3

Learning Outcome
Explain, apply, and compare/contrast knowedge about second language literacy development in context. (ILA Standard 1.1.3 & 9)

Title
Literacy Processes

Tags
179052, 4

Learning Outcome
Explain and apply reading and writing development across elementary years, e.g., word recognition, language comprehension, strategic knowledge, spelling, qualities of good writing, and reading/writing connections. (ILA Standard 1.1.2)

Title
Historical Foundations of Literacy Instruction

Tags
179053, 5

Learning Outcome
Identify and synthesize major milestones in literacy instruction.(ILA Standard 1.2.1)

EL ED 324 - Foundations of Classroom Management

Tags
208256, 0, 2

Learning Outcome
Demonstrate professionalism in the practicum setting.

Title
El Ed 324 Course Outcomes

Tags
179045, 0, 1

Learning Outcome
Throughout this course, the students will:

Compare and contrast management theories and approaches to classroom management.
Identify ways to prevent management problems.
Describe practical approaches for management interventions or ways of addressing problems that arise.
Identify the components of an effective learning environment.
Identify practices and strategies of a democratic classroom.
Explore ways to motivate children using effective motivational theories.
Formulate a personal management philosophy.
Create a classroom management plan.
Describe how needs of diverse learners are met in various components of management.
Identify management approaches that align with the vision of the McKay School of Education and the Educator Preparation Program.

EL ED 330 - K-2 Practicum Seminar

Learning Outcomes

Title
EI Ed 332 Course Outcomes

Tags
178885, 1

Learning Outcome
Throughout this practicum, all practice will be focused on children and classes in grades K-2. Each student will:

apply appropriate planning skills.
implement appropriate and effective pedagogy.
demonstrate high levels of professionalism.

EL ED 333 - Teaching Literacy in the Primary Grades (K-2)

Course Information

Teaching Area (new)
EL ED

Course Number
333

Teaching Area
EL ED

Course Title
Teaching Literacy in the Primary Grades (K-2)

Course Description
Instructional practices for teaching children the literacy concepts, skills, and strategies they need to learn in grades K-2. Assessing, monitoring, and evaluating children's literacy knowledge and learning in grades K-2.

Department
Teacher Education

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Other Prerequisites
Concurrent enrollment in EI Ed 299R.

Learning Outcomes

Title
Assessment

Tags
179054, 1

Learning Outcome
Teacher candidates will be able to administer, score, and interpret a variety of assessments appropriate for use in screening, diagnostic, monitoring, and outcome literacy assessment in primary grades (e.g., running records, Clay's observation survey, phonemic awareness assessment, DIBELS). (See ILA Standard 3)

Title
Literacy Environment

Tags
179055, 2

Learning Outcome
Teacher candidates will be able to identify and evaluate key aspects of an effective literacy environment in a primary grade classroom. (See ILA Standard 5)

Title
Instruction

Tags
179056, 3

Learning Outcome
Teacher candidates will be able to plan and implement primary grade literacy instruction for whole class, small groups, and individual students (e.g., read aloud, shared reading, guided reading, independent reading, shared writing interactive writing, language experience). (See ILA Standard 2)

Title
Learner Development

Tags
179057, 4

Learning Outcome
Teacher candidates will plan and implement primary grade literacy instruction that is linked to student backgrounds across a variety of diverse characteristics. (See ILA Standard 4)

Title
Curriculum

Tags
179058, 5

Learning Outcome
Teacher candidates will use foundational knowledge to design and/or implement instruction that develops primary grade students' word recognition, language comprehension, strategic knowledge and reading/ writing connections. (See ILA Standard 2)

Title
Professional Learning

Tags
179059, 6

Learning Outcome
Teacher candidates will examine their dispositions and orientation regarding their own reading and writing and the teaching of reading and writing, and pursue the development of individual professional knowledge and behaviors. (See ILA Standard 6)

EL ED 340 - Children's Literature

Course Information

Teaching Area (new)
EL ED

Course Number
340

Teaching Area
EL ED

Course Title
Children's Literature

Course Description
Trends and titles in children's and adolescent literature. Reading and critiquing as well as practical uses of children's literature in both school and home.

Department
Teacher Education

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Personal Management Philosophy

Tags
211882, 0, 1, 2022-05-24 13:48:29

Learning Outcome
Create a personal philosophy of classroom management based on an understanding of various management theories, levels of teacher control, and experiences in the classroom.

Title
Building Community

Tags
211883, 0, 2, 2022-05-24 13:48:29

Learning Outcome
Teacher candidates will develop a specific plan for building community within the classroom, including effective communication.

Title
Systems of Management

Tags
211884, 0, 3, 2022-05-24 13:48:29

Learning Outcome
Teacher candidates will describe various systems of management, how to handle severe/chronic misbehavior, and emergency response procedures.

Title
Partnership Commitments & Democracy in the Classroom

Tags
211885, 0, 4, 2022-05-24 13:48:29

Learning Outcome
Teacher candidates will synthesize the importance of the five BYU-Public School Partnership Commitments and develop a specific plan for incorporating various aspects of democracy in the classroom.

Title
Performance & Disposition Evaluation

Tags
211886, 0, 5, 2022-05-24 13:48:29

Learning Outcome
Demonstrate a “beginning” level competency and disposition of a classroom teacher as evidenced by the summative evaluations using university-based observations.

EL ED 400R - Elementary Student Teaching

Course Information

Teaching Area (new)
EL ED

Course Number
400R

Teaching Area
EL ED

Course Title
Elementary Student Teaching

Course Description
Supervised, full-day experience to develop and demonstrate competence in teaching at the elementary school level. Observations are conducted and feedback provided throughout the experience as the responsibility for teaching increases across the semester.

Department
Teacher Education

When Taught
Fall and Winter

Credit Hours

Min:
1

Fixed/Max:
12

Other Prerequisites
Prior application; total GPA of 2.70, at least a C grade in all major and minor courses; FBI fingerprint background clearance.

Note
See Education Advisement Center for application dates.

Learning Outcomes

Title
El Ed 400R Course Outcomes

Tags
178886, 0, 1

Learning Outcome
Participating in the Public School Setting
The student teacher will:

observe and reflect with the intent to improve practice.
effectively manage children in all facets of a school setting.
increase his or her responsibility until they are operating as the regular classroom teacher.
apply knowledge from various content courses as they relate to teaching in an elementary classroom.
apply knowledge of various pedagogical methods for planning, teaching, and assessing and when they are most appropriate.
demonstrate high levels of professionalism during their student teaching.
create a Praxis Performance Assessment for Teachers (PPAT) that measures their skills in using contextual factors, planning, assessment, lesson design, interpretation of student performance, and reflection.

EL ED 410 - Planning and Assessment 2

Course Information

Teaching Area (new)
EL ED

Course Number
410

Teaching Area
EL ED

Course Title
Planning and Assessment 2

Course Description
This course attends to advanced levels of planning and assessment (e.g., accommodation, differentiation, levels of planning, integration, response to intervention). Students will have the opportunity to work in a Professional Learning Community to maximize planning and assessment.

Department
Teacher Education

When Taught

Learning Outcomes

Title
Contextual Factors

Tags
212603, 0, 1, 2022-12-20 16:44:08

Learning Outcome
Teacher candidates will describe various key contextual factors, how they impact instruction and assessment in terms of accommodations and differentiation, and what steps the teacher will take to attend to the specific setting in which they are teaching.

Title
Levels of Planning

Tags
212604, 0, 2, 2022-12-20 16:44:08

Learning Outcome
Teacher candidates will design various levels of planning, including daily small box lesson plans, unit planning, and yearly curriculum mapping.

Title
Accommodation and Differentiation

Tags
212605, 0, 3, 2022-12-20 16:44:08

Learning Outcome
Teacher candidates will describe the rationale and process of appropriate accommodations and differentiation to meet specific needs of individual students, including Response to Intervention and Multi-tiered Systems of Support, and will differentiate and accommodate for student needs during practicum teaching experiences.

Title
Professional Learning Community

Tags
212606, 0, 4, 2022-12-20 16:44:08

Learning Outcome
Teacher candidates will describe effective participation in Professional Learning Communities for both planning and assessment purposes.

EL ED 435 - Teaching Writing in the Elementary Grades (K-6)

Course Information

Teaching Area (new)
EL ED

Course Number
435

Teaching Area
EL ED

Course Title
Teaching Writing in the Elementary Grades (K-6)

Course Description
This course will help teacher candidates understand reading and writing development in children in grades K-6 and the implications and applications within an elementary classroom setting.

Department
Teacher Education

When Taught
Fall and Winter

Credit Hours

Min:
2

Fixed/Max:

Learning Outcomes

Title
Foundational Knowledge

Tags
212607, 0, 1, 2022-12-20 16:44:35

Learning Outcome
Teacher candidates will use foundational knowledge to design and implement instruction that develops a child's ability to write, spell, and use grammar effectively.

Title
Language Arts Instruction and the Writing Process

Tags
212608, 0, 2, 2022-12-20 16:44:35

Learning Outcome
Teacher candidates will plan and implement writing and language arts instruction and the writing process using whole class, small groups, and/or meeting with individual students, as needed.

Title
Developmental Trajectories

Tags
212609, 0, 3, 2022-12-20 16:44:35

Learning Outcome
Teacher candidates will attend to the developmental trajectories of students, including linguistic and cultural differences, to plan and implement writing and language arts instruction.

Title
Appropriate Assessment

Tags
212610, 0, 4, 2022-12-20 16:44:35

Learning Outcome
Teacher candidates will administer, score, and utilize a variety of assessments appropriate for use in screening, diagnostic, monitoring, and outcome writing and spelling assessment.

EI Ed 440 Course Outcome

Tags
178882, 1

Learning Outcome
Throughout this course, the students will:

discuss and make connections between the theoretical knowledge from foundational courses in the elementary education program to the experiences they will have during their 3-6 practicum.
self-evaluate their professional dispositions about teaching and learning.
be expected to identify and practice professional attitudes about teaching and learning.
identify contextual factors that impact teaching and learning.
identify best teaching strategies and practices, focusing on 3-6 classrooms.
increase planning skills.
revisit and update their classroom management plan.
identify and practice those foundational principles associated with the BYU/ Public School Partnership and the McKay School of Education, including the Utah Effective Teaching Standards and the Partnership Vision and Commitments.

Complete ALL of the following Courses:
- EL ED 333 - Teaching Literacy in the Primary Grades (K-2)

Other Prerequisites
Concurrent enrollment in El Ed 299R or El Ed 399R.

Learning Outcomes

Title
Professional Identity

Tags
179060, 1

Learning Outcome
Teacher candidates will engage in personal reflection to develop a professional identity and engage collaboratively with learners, families, colleagues, community members and demonstrate the highest ethical standards of the teaching profession. (See ILA Standard 6)

Title
Assessment

Tags
179061, 2

Learning Outcome
Teacher candidates will be able to administer, score, and interpret a variety of assessmeents appropriate for use in screening, diagnostic, monitoring, & outcome literacy assessments in intermediate grades. (ILA Standard 3)

Title
Literacy Environment

Tags
179062, 3

Learning Outcome
Teacher candidates will be able to identify and evaluate key aspects of an effective literacy environment in an intermediate classroom. (See ILA Standard 5)

Title
Instruction

Tags
179063, 4

Learning Outcome
Teacher candidates will be able to plan and implement intermediate grade literacy instruction for whole class, small groups, and indivdiual students (e.g., read aloud, shared reading, guided reading, independent reading, shared writing, independent writing). (See ILA Standard 2)

Title
Learner Development

Tags
179064, 5

Learning Outcome
Teacher candidate will plan and implement intermediate grade literacy instruction that is linked to student backgrounds across a variety of diverse characteristics. (See ILA Standard 4)

Title
Curriculum

Tags
179065, 6

Learning Outcome
Teacher candidates will use foundational knowledge to design and/or implement instruction that develops intermediate grades students' comprehension, fluency, vocabulary, writing, and content area literacy skills. (See ILA Standard 2)

EL ED 445 - Teaching Social Studies in Grades K-6

Course Information

Teaching Area (new)
EL ED

Course Number
445

Teaching Area
EL ED

Course Title
Teaching Social Studies in Grades K-6

Course Description
The methods, skills, and strategies for teaching social studies in grades K-6. Modeling democratic teaching practices and establishing democratic classrooms to prepare children to assume roles as participatory citizens in a democracy.

Department
Teacher Education

When Taught
Fall and Winter

Credit Hours

Min:
3

Learning Outcomes

Title
El Ed 446 Course Outcomes

Tags
178880, 1

Learning Outcome

Teacher candidates will evaluate their personal dispositions, development, and growth toward becoming a teacher of science.
Teacher candidates will identify and describe purposes for teaching science in K-6 classrooms.
Teacher candidates will explain what science is and how children learn science, including the knowledge and reasoning skills students must acquire to become proficient in science.
Teacher candidates will recognize the practices, crosscutting concepts, and core ideas of science and engineering and how they influence science instruction in K-6 classrooms.
Teacher candidates will plan for science instruction for children of various ages, abilities, backgrounds, and exceptionalities, including how to (a) identify appropriate science content from national standards and state core curricula; (b) apply a variety of appropriate teaching methods and strategies to support science learning; (c) integrate science with other disciplines across the elementary curriculum; and (d) employ appropriate assessment methods and strategies.

EL ED 447 - Teaching Mathematics in Grades K-6

Course Information

Teaching Area (new)
EL ED

Course Number
447

Teaching Area
EL ED

Course Title
Teaching Mathematics in Grades K-6

Course Description
The teaching and learning of elementary school mathematics guided by current principles relating to mathematics content, social interaction, student thinking, and child development.

Department
Teacher Education

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- MTHED 305 - Basic Concepts of Mathematics
  AND MTHED 306 - Concepts of Mathematics

Other Prerequisites
Concurrent enrollment in El Ed 299R or El Ed 399R.

Learning Outcomes

Title
Design, implement, and evaluate inquiry-based lessons

Tags
212857, 0, 2

Learning Outcome
Design, implement, and evaluate inquiry-based lessons as structured by the Launch-Explore-Summarize (Discuss/Debrief) teaching and learning sequences.

Title
Create high levels of mathematical interaction

Tags
212859, 0, 4

Learning Outcome
Create high levels of mathematical interaction by planning for discussion, questioning, and establishing a supportive classroom environment.

Title
Adapt instruction

Tags
212860, 0, 5

Learning Outcome
Adapt instruction to address the diverse learning strengths and needs of both groups and individuals.

Title
Assess student learning

Tags
212861, 0, 6

Learning Outcome
Assess student learning, both formatively and summatively, using a range of appropriate strategies, and employ the results of assessment in guiding instruction.

Title
Practice professionalism

Tags
212862, 0, 7

Learning Outcome
Practice professionalism: In commitment to learning to teach, in appearance and demeanor, and in the quality of work submitted.

Title
Establish mathematics goals

Tags
212863, 0, 8

Learning Outcome
Establish mathematics goals that accommodate students' varied mathematical trajectories and align appropriately with state content and practice standards as well as informal and formal assessments of student thinking.

Title
Select and/or design worthwhile mathematical tasks

Tags
212856, 0, 1

Learning Outcome
Select and/or design worthwhile mathematical tasks according to the research-based learning trajectories that characterize learning in the five mathematical domains.

Title
Anticipate student mathematical thinking

Tags
212858, 0, 3

Learning Outcome
Anticipate student mathematical thinking (for planning lessons and/or units, orchestrating discourse, questions, etc.) according to the research-based learning trajectories that characterize learning in the five mathematical domains.

EL ED 493R - Independent Readings or Project

Learning Outcomes

Title
El Ed 496R Course Outcomes

Tags
178884, 0, 1

Learning Outcome
Participating in the Public School Setting
The intern will:

reflect with the intent to improve practice.
establish and maintain an effective learning environment.
effectively manage children in all facets of a school setting.
be a full-time teacher for one school year.
apply knowledge from various content courses as they relate to teaching in an elementary classroom.
apply knowledge of various pedagogical methods for planning, teaching, and assessing and when they are most appropriate.
consistently engage collaboratively with colleagues and parents.
demonstrate high levels of professionalism during their internship.
create a Praxis Performance Assessment for Teachers (PPAT) that measures their skills in using contextual factors, planning, assessment, lesson design, interpretation of student performance, and reflection.

ELING 150 - First-Year Writing for International Students

Course Information

Teaching Area (new)
ELING

Course Number
150

Teaching Area
ELING

Course Title
First-Year Writing for International Students

Course Description
Processes of academic writing, reading, and research for international students who have English as their second language.

Department
Linguistics

When Taught
Fall; Winter.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
NOTE: For non-native English speakers only. NOTE: Fulfills GE First-Year Writing requirement.

Learning Outcomes

Title
Rhetorical Knowledge

Learning Outcome
Students should demonstrate that they can focus on a well-defined purpose in writing, write clearly for a specified audience, use conventions of format and structure appropriate to the rhetorical situation, and adopt a voice, tone, and level of formality suited to the purpose and audience. They may also learn about and practice the following: responding to the needs of different audiences; responding appropriately to different kinds of rhetorical situations; writing in several genres; and exploring the ways different genres shape writing and reading.

Title
Processes of Writing

Learning Outcome
Students should develop productive and flexible individual and collaborative writing processes, including prewriting, drafting, revising, editing and proofreading. These processes could include the following: collecting data, finding supporting evidence, and creating good arguments; organizing the material for a paper; writing successive drafts of the same paper; group writing; seeking and using peer responses; revising; editing grammar, usage, and punctuation; and using conventional formats.

Title
Critical Reading

Learning Outcome
Students should be able to read and evaluate written materials from a variety of genres. They should demonstrate their ability to read critically, which would include some of the following: analyzing and evaluating arguments; identifying authors' claims and main ideas; identifying supporting evidence; identifying premises and unstated assumptions; evaluating logic and logical fallacies; drawing inferences; synthesizing ideas; identifying and evaluating analogies and figurative language; and distinguishing among emotional, ethical, and rational appeals

Title
Processes of Library Research

Learning Outcome
Students should demonstrate that they can locate and evaluate print and electronic sources and use these sources to write a documented research paper.

Title
Knowledge of Conventions

Learning Outcome
Students should demonstrate their knowledge of the following: common formats for different kinds of texts; genre conventions ranging from purpose and structure to tone and mechanics; methods of documenting borrowed information; and conventions of edited syntax, grammar, punctuation, and spelling.

ELING 223 - Introduction to the English Language

Course Information

Teaching Area (new)
ELING

Course Number
223

Teaching Area
ELING

Course Title
Introduction to the English Language

Course Description
Overview of English from linguistic point of view, emphasizing structure of English and social, biological, and psychological aspects of language.

Department
Linguistics

When Taught
All Semesters/Terms

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Acquiring Basic Analytical Tools

Learning Outcome
Students will have acquired basic analytical tools in core areas of linguistics: phonology, morphology, syntax, semantics, and pragmatics.

Title
Applying Analytical Tools

Learning Outcome
Students will be able to apply these analytical tools to English language data of various types, such as those involving aspects of variation, acquisition, and historical change.

ELING 273 - Introduction to English Linguistic Research Methods

Course Information

Teaching Area (new)
ELING

Course Number
273

Teaching Area
ELING

Course Title
Introduction to English Linguistic Research Methods

Course Description
The use of large collections of texts for teaching and particularly for research, including the study of many different types of linguistic variation.

Department
Linguistics

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
ELING 223 or concurrent enrollment.

Learning Outcomes

Title
Understanding and Applying Research

Learning Outcome
Students will be able to distinguish empirical from introspective-based research and apply both (either separately or in conjunction with each other) for research topics.

Title
Recognizing and Applying Statistical Measures

Learning Outcome
Students will be able to recognize and begin to apply statistical measures.

Title
Authentic Linguistic Data

Learning Outcome
Students will acquire authentic linguistic data from native speakers through appropriately selected computer corpora (collections of texts) as well as through other methods such as interviews, surveys, recordings, etc., and effectively extract the relevant data

Title
Organizing, Testing, Reporting

Learning Outcome
Students will be able to organize linguistic data, construct and test hypotheses about it, and report the findings.

Title
Researching with Library and Online Sources

Learning Outcome
Students will be able to carry out library and online research to investigate findings by other linguists.

ELING 310R - Writing Tutorial for Multilingual Students

Course Information

Teaching Area (new)
ELING

Course Number
310R

Teaching Area
ELING

Course Title
Writing Tutorial for Multilingual Students

Course Description
L2 and other multilingual writers will be paired with a trained Writing Center undergraduate peer tutor who will meet with them weekly throughout the semester, supporting them in their writing goals, helping them refine their writing processes, and providing them with feedback and focused collaborative experiences related to their writing.

Department
Linguistics

Course Information

Teaching Area (new)
ELING

Course Number
322

Teaching Area
ELING

Course Title
Prescriptivism and English Usage: Language ‘Rules’ and When to Break Them

Course Description
Current conventions and effective use of American English.

Department
Linguistics

When Taught
Fall, Winter, Summer

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Understanding variation

Tags
214769, 0, 4

Learning Outcome
Students will be able to cast usage rules in terms of language variation.

Title
Using research tools

Tags
214772, 0, 5

Learning Outcome
Use research tools to critically assess usage rules

ELING 324 - History of the English Language

Course Information

Teaching Area (new)
ELING

Course Number
324

Teaching Area
ELING

Course Title
History of the English Language

Course Description
Basic changes from Old English to modern English, including modern American dialects.

Department
Linguistics

When Taught
Fall and Winter; Spring: Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
ELING 223 or LING 201, or concurrent enrollment.

Learning Outcomes

Title
Tracing Linguistic Changes

Learning Outcome
Students will be able to trace the general phonemic, morphological, syntactic, and semantic changes of English in relation to the major periods of Old English, Middle English, Early Modern English, and Present-Day English.

Title
Linguistic Tools and Resources

Learning Outcome
Students will be able to identify some of the appropriate linguistic tools and resources that are available to answer specific questions about the history and development of the English language.

Title
Social, Political, and Linguistic Influence on English

Learning Outcome
Students will be able to explain the important social and political factors as well as linguistic processes that have influenced the development of the English language and some of its varieties, including the current standard variety.

Title
Authentic Historical Texts

Learning Outcome
Students will be able to apply course concepts and information to the assessment and interpretation of authentic historical texts.

ELING 325 - The Grammar of English

Course Information

Teaching Area (new)
ELING

Course Number
325

Teaching Area
ELING

Course Title
The Grammar of English

Course Description
Structure of English grammar in various applications.

Department
Linguistics

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
ELing 223 or Ling 201 or concurrent enrollment.

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Analyze and Describe Grammatical Structures

Learning Outcome
Students will be able to analyze and describe grammatical structures in English at the word, phrase, clause, and sentence levels.

Title
Identify and Label Syntactic Categories

Learning Outcome
Students will be able to identify and label parts of speech and functional categories in English sentences.

Title
Applying Knowledge to Analyze Texts

Learning Outcome
Students will be able to apply the knowledge from the previous outcomes towards the analysis of authentic texts.

ELING 326 - English Semantics and Pragmatics

Course Information

Teaching Area (new)
ELING

Course Number
326

Teaching Area
ELING

Course Title
English Semantics and Pragmatics

Course Description
Structure of meaning in words, phrases, and discourse. Lexical semantics and the mental lexicon; phrase-level meaning; interaction of situation and meaning.

Department

Complete ALL of the following Courses:

- ELING 223 - Introduction to the English Language

OR

Prerequisites

Complete ALL of the following Courses:

- LING 201 - Introduction to Linguistics (Modern)

Learning Outcomes

Title
Semantic and Pragmatic Concepts

Learning Outcome
Students will be able to identify and discuss basic semantic and pragmatic concepts such as sense, reference, deixis, perlocution, illocution, entailment, implicature, metaphor, Gricean Maxims, etc.

Title
Analyzing Spoken and Written Texts

Learning Outcome
Students will be able to apply the above concepts towards the analysis of spoken and written texts, demonstrating their knowledge and understanding in a written paper.

ELING 327 - Applied Phonetics

Course Information

Teaching Area (new)
ELING

Course Number
327

Teaching Area
ELING

Course Title
Applied Phonetics

Course Description
Basic phonetic principles, a survey of how those principles can be used in variety of disciplines and careers related to linguistics, and how those principles can be applied to address practical problems generally.

Department
Linguistics

When Taught
Winter

Credit Hours

Min:
3

Prerequisite

Complete ANY of the following Courses:

- ELING 223 - Introduction to the English Language
  OR LING 201 - Introduction to Linguistics (Modern)

Learning Outcomes

Title
Phonetic Classification

Learning Outcome
Students will understand the theoretical principles underlying the classification and description of English speech sounds and prosodic patterns of English.

Title
Transcription Systems

Learning Outcome
Students will be able to use standard transcription systems to represent English speech sounds and discuss some of the limitations of those systems.

Title
Phonological Description and Analysis

Learning Outcome
Students will be able to describe and analyze major features of the segmental and prosodic phonology of English.

Title
Speech Sounds and Prosodic Patterns

Learning Outcome
Students will be able to apply their knowledge of the phonetics and phonology of English to the description and analysis of novel data, including non-standard varieties of English.

ELING 350 - Basic Editing Skills

Course Information

Teaching Area (new)
ELING

Course Number
350

Teaching Area
ELING

Course Title
Basic Editing Skills

Course Description
Editing theory and practice, emphasizing copyediting and basic line editing.

Department

Complete ALL of the following Courses:

- ELING 223 - Introduction to the English Language
  AND ELING 322 - Prescriptivism and English Usage: Language 'Rules' and When to Break Them
  AND ELING 325 - The Grammar of English

OR

Prerequisites

Complete ALL of the following Courses:

- ELING 322 - Prescriptivism and English Usage: Language 'Rules' and When to Break Them
  AND ELING 325 - The Grammar of English
  AND LING 201 - Introduction to Linguistics (Modern)

Learning Outcomes

Title
Copyediting Skills

Learning Outcome
Students demonstrate copyediting skills by using these skills to improve sample manuscripts in such areas as punctuation, spelling, grammar, usage, and sentence clarity.

Title
Style and Usage Requirements

Learning Outcome
Students apply style and usage requirements with flexibility, customized to specific contexts and circumstances.

Title
Empirical Methods

Learning Outcome
Students employ empirical methods to investigate patterns of style and usage and make editorial decisions.

ELING 351R - Editing Student Journals

Course Information

Teaching Area (new)
ELING

Course Number
351R

Teaching Area
ELING

Course Title
Editing Student Journals

Course Description
Hands-on training and experience in all aspects of editing and publishing student journals.

Department
Linguistics

When Taught
Fall, Winter, Spring

Credit Hours

Min:
1

Fixed/Max:
2

Lecture Hours

Fixed:
0

Learning Outcomes

Title
ELING 351R Course Purpose

Learning Outcome
To gain real-world experience as an editor and writer by helping create publishable content on a university journal.

Title
Practical Experience

Learning Outcome
Students acquire practical experience in one or more phases of the production of a BYU student journal: manuscript solicitation, evaluation, development, copy editing, layout, production, and promotion.

Title
Seeking out Opportunities to Apply Principles

Learning Outcome
Students seek out opportunities to apply principles learned in editing classes to improve communication in live settings.

Title
Articulating what They have Learned

Learning Outcome
Students articulate what they have learned about communication or publication processes in live settings that have enhanced their course learning.

ELING 361 - Language politics: Policy and Planning

Course Information

Course Number
361

Teaching Area
ELING

Course Title
Language politics: Policy and Planning

Course Description
This class will look at language planning and policy and the political, social, and other factors that influence attempts to influence, change, or suppress the linguistic makeup of a community.

Department
Linguistics

When Taught
Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Recommended
ELING 223 or LING 201 recommended prereq.

Learning Outcomes

Title
Representative Texts & Practices

Learning Outcome
Students will be able to understand, interpret, explain, analyze, and assess representative texts and practices in language planning and policy development.

Title
Language Planning Theories and Practices

Learning Outcome
Students will be able to apply fundamental language planning theories and practices toward solving real-world language macro and micro planning problems.

Title
Communication about Language Policy and Planning

Learning Outcome
Students will be able to explain language planning and policy problems and propose potential solutions to relevant audiences.

ELING 362 - Discourse Analysis

Course Information

Teaching Area (new)
ELING

Course Number
362

Teaching Area
ELING

Course Title
Discourse Analysis

Course Description
Linguistic analysis of connected speech or written discourse, especially larger linguistic units above the clause level, such as conversational exchanges or written texts.

Department
Linguistics

When Taught

Prerequisites

Complete ALL of the following Courses:

- LING 201 - Introduction to Linguistics (Modern)

Learning Outcomes

Title
Conversational and Written Academic Discourse

Learning Outcome
Students will be able to demonstrate knowledge of the ways that discourse is structured in a variety of genres and registers, including spoken conversational discourse and written academic discourse.

Title
Identify and Evaluate Sources

Learning Outcome
Students will be able to identify and critically evaluate sources relevant to issues concerning discourse analysis.

Title
Analysis of Authentic English Discourse

Learning Outcome
Students will collect authentic English discourse and be able to evaluate and appropriately apply various methods and approaches to the analysis of that data and effectively communicate their findings.

ELING 366 - Social Media/Marketing Analysis

Course Information

Teaching Area (new)
LING

Course Number
366

Teaching Area

Complete ALL of the following Courses:

- LING 201 - Introduction to Linguistics (Modern)

Learning Outcomes

Title
Historical Methods and Techniques

Learning Outcome
Analyze historical methods and techniques in English as a second/foreign language for teaching and assessing listening, speaking, and pronunciation.

Title
Analyze and Adapt Textbook Materials

Learning Outcome
Analyze and adapt textbook materials designed to promote accuracy and fluency in listening, speaking, and pronunciation.

Title
Observe and Analyze Second Language Instruction

Learning Outcome
Observe and analyze second language accuracy and fluency instruction in relation to concepts discussed in class.

Title
Assessing Listening, Speaking, and Pronunciation

Learning Outcome
Identify the roles that langauge acquisition, learner variables, and language learning strategies play in teaching and assessing listening, speaking, and pronunciation.

Title
Evaluate Technology

Learning Outcome
Evaluate technology aimed at promoting listening, speaking, and pronunciation.

ELING 376 - TESOL Reading, Writing, and Vocabulary

Course Information

Teaching Area (new)
ELING

Course Number
376

Teaching Area
ELING

Course Title
TESOL Reading, Writing, and Vocabulary

Course Description
Understanding basic processes of literacy development in English as a second or foreign langauge. How knowledge of these processes informs classroom literacy instruction and practices.

Department
Linguistics

When Taught
Fall and Winter

Credit Hours

Learning Outcomes

Title
Analyze Basic Theories

Learning Outcome
Analyze basic theories of second/foreign language literacy and vocabulary acquisition and assessment.

Title
Apply Basic Theories

Learning Outcome
Apply basic theories to actual classroom literacy and vocabulary instruction.

Title
Observe and Analyze L2 Literacy Instruction

Learning Outcome
Observe and analyze L2 literacy instruction in relation to concepts discussed in class.

Title
Identify and Critique Online Resources

Learning Outcome
Identify and critique online resources aimed at literacy and vocabulary development.

Learning Outcomes

Title
Describing the History of the Book

Learning Outcome
Students will be able to describe the history of the book and the reasons it has developed the way it has.

Title
Book Construction and Production

Learning Outcome
Students will discuss the development of scripts and fonts and evaluate why they have changed over time and apply this understanding to effectively choose modern digital fonts.

Title
Scripts and Fonts

Learning Outcome
Students will be able to describe the development of scripts and fonts and the reasons they have changed over time.

Title
Connecting the Book and Religion

Learning Outcome
Students will be spiritually strengthened by understanding the connection of the book to religion, including its role in the Renaissance, the Reformation, and the Restoration of the Gospel of Jesus Christ.

Title
Connect History with the Present

Learning Outcome
Students will connect the history of the book to current issues, opportunities, and careers in publishing.

Learning Outcome
Assess individual performance in an organizational setting and provide actionable performance feedback

Title
None

Tags
207176, 8

Learning Outcome
Make and negotiate a job offer effectively

Title
None

Tags
207177, 7

Learning Outcome
Analyze the causes of organization-level performance issues and offer systematic, critically evaluated solutions

EMBA 550 - Marketing Management

Course Information

Teaching Area (new)
EMBA

Course Number
550

Teaching Area
EMBA

Course Title
Marketing Management

Course Description
Development of analytical marketing tools and techniques; their utilization in case analysis and decision making in marketing management.

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

EMBA 560 - Business Analytics

Course Information

Teaching Area (new)
EMBA

Course Number
560

Teaching Area
EMBA

Course Title
Business Analytics

Course Description
Introduction to both descriptive (data visualization) and predictive (forecasting) data analytics. Focus on using the analytical tools and skills needed to make better data-centered managerial decisions.

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:

0

EMBA 584R - Introduction to Global Management

Course Information

Teaching Area (new)
EMBA

Course Number
584R

Teaching Area
EMBA

Course Title
Introduction to Global Management

Course Description
Foundations in global management integrating strategy, finance, operations, marketing, and human resource management.

Department
Business

When Taught
Winter.

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
0

Learning Outcomes

Title
CAGE Framework

Learning Outcome
Apply the leading frameworks of international business context, such as national culture, the CAGE model of distance, a "flat" vs. "spiky" world, as well as taxonomies of emerging/powerful markets such as BRIC, MIST/MINT countries, etc. Recognize and share current events in world business that illustrate this framework (and the content of the rest of the learning outcomes).

Title
Characteristics of a Global Industry

Learning Outcome
Understand the complexities of expansion, in general, into global markets--that is, the pitfalls and opportunities that companies face as they seek new, foreign customers for their products and services.

Title
Foreign Markets

Learning Outcome
Deepen and apply global learning to functional areas of business such as finance (e.g. foreign exchange), marketing (e.g. new product development worldwide), supply chain (e.g. outsourcing and offshoring) and human resource management (e.g. global teams and expatriate assignments). Understand how the concepts of culture, political systems, etc. apply to the various aspects of managing a business.

Title
Managing Multi-National Enterprises (MNE)

Learning Outcome
Integrate knowledge from other core courses in the MBA program that span across functional areas (e.g., ethics, strategy, etc.) to learn how global management fits into a "putting it all together" approach to running a cross-national enterprise.

EMBA 595B - Intentional Principles for Leading and Thriving: Razor's Edge

Course Information

Teaching Area (new)
EMBA

Course Number
595B

Teaching Area
EMBA

Course Title
Intentional Principles for Leading and Thriving: Razor's Edge

Course Description
Building on principles and practices around happiness and positive psychology from Part 1, students will explore the implications for thriving personally, in families, and professional around time and energy, essentialism, GRIT, and physical and spiritual well-being. Using content from the entire course and their EMBA experience, students will build a Plan to Thrive (PTT) and in a two day experience, share, revise and present their plans in a culminating experience.

When Taught
Spring Term

Credit Hours

Min:
1

EMBA 595R - Intentional Principles for Leading and Thriving: Razor's Edge

Course Information

Teaching Area (new)
EMBA

Course Number
595R

Teaching Area
EMBA

Course Title
Intentional Principles for Leading and Thriving: Razor's Edge

Course Description
Principles and practices for intentionally thriving for self, family, and business leadership, culminating in a three-day learning adventure to experience principles in a real world context.

Department
Business

When Taught
Fall and Winter

Credit Hours

Min:
0.5

Fixed/Max:
3

Lecture Hours

Fixed:
1.5

Lab Hours

Fixed:
0

Learning Outcomes

Title
Personal applications of thriving principles

Tags
213040, 0, 1

Learning Outcome
Demonstrate applications of Self Determination Theory, the myths of happiness, and research in PERMA.

Title
Decisions about resource allocations

Learning Outcome
Synthesize concepts from Positive Psychology to appropriately allocate and effectively manage scarce and valuable resources (e.g., time, money, emotional and physical energy, and spiritual strength) personally and professionally to create a high quality of life, and high quality of work engagement for employees.

Title
Hands-on practice

Learning Outcome
Apply the principles and practices for intentionally thriving for self, family, and business leadership in a culminating three-day learning adventure to experience principles of thriving in a real-world context.

EMBA 596R - Intentional Principles for Leading and Thriving: Razor's Edge

Course Information

Course Number
596R

Teaching Area
EMBA

Course Title
Intentional Principles for Leading and Thriving: Razor's Edge

Course Description
Building on principles and practices around happiness and positive psychology from EMBA 595R, continue to study the principles of thriving. Using content from the Epic Learning Adventure, students will build a Plan to Thrive.

Department
Business

When Taught
Fall, Winter, and Spring

Credit Hours

Min:
0.5

Fixed/Max:
3

Lecture Hours

Fixed:
1.5

Learning Outcomes

Title
Goal Setting

Learning Outcome
Set goals toward developing key PERMA strengths and managing life areas around exercise, nature, technology, personal finance, work, and relationships.

Title
Develop and Implement

Learning Outcome
Develop and implement a personal Plan to Thrive with application to personal, family, community, church, and business contexts.

Title
Apply Principles and Practices

Learning Outcome
Apply principles and practices for thriving personally and professionally drawing on the literatures of time and energy, essentialism, GRIT, and physical and spiritual well-being.

ENG T 199R - Weidman Center Global Internship

Consent of Weidman Center Director.

Learning Outcomes

Title
Learning Outcomes: Weidman Global Internships

Tags
181657, 2

Learning Outcome

Identify and solve problems by thinking critically and using appropriate engineering and/or technology skills.
Demonstrate professionalism by actively participating in teams, using professional communications, acting ethically, and following pertinent regulations.
Improve technical, global, and leadership capabilities by working in an immersive cross-cultural environment.

Title
Life Long Learning

Tags
181658, 1

Learning Outcome
Upon completing this course students will have gained practical global experience that will aid them in future engineering careers.

ENG T 295R - Engineering Math Refresher

Course Information

Teaching Area (new)
ENG T

Course Number
295R

Teaching Area
ENG T

Course Title
Engineering Math Refresher

Course Description
Review of basic techniques of algebra, trigonometry, differential calculus, integral calculus, and series and sequences in preparation for engineering mathematics, ordinary differential equations, and multivariable calculus.

When Taught
Fall Term 1; Fall Term 2; Winter Term 1; Winter Term 2.

Credit Hours

Upon completion of this course students will be better prepared to continue their education in the College of Engineering.

ENG T 480 - Globalization in Engineering and Technology

Course Information

Teaching Area (new)
ENG T

Course Number
480

Teaching Area
ENG T

Course Title
Globalization in Engineering and Technology

Course Description
Definition of globalization and the driving forces. How globalization is changing the practice of engineering and the development of technology. Study through classroom and industrial site visits.

When Taught
Spring Term

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Engineering or technology major enrolled in upper-division major courses; instructor's consent

Learning Outcomes

Title
Globalization and Culture

Tags
181645, 1

Learning Outcome
The students' knowledge of globalization as it affects the environment, international trade and finance, and cultures.

Title
Students and Globalization

Tags
181646, 2

Learning Outcome
The students' ability to argue the major points related to globalization (listed in the two points above). In each case, there are multiple views on the subject which they should be familiar with.

Title
Culture and Engineering Practices

Tags
181647, 3

Learning Outcome
The students' ability to discuss foreign engineers regarding globalization and their companies' activities in the foreign country.

Title
Globalization and Engineering

Tags
181650, 0

Learning Outcome
The students' knowledge of globalization as it relates to the practice of engineering, innovation, manufacturing, and research in their chosen field.

ENG T 595R - Special Topics in Engineering and Technology

Learning Outcomes

Title
Close Reading

Tags
211404, 0, 1, 2021-09-13 11:10:24

Learning Outcome
Evaluate and apply foundational approaches to close reading and apply them to a range of texts.

Title
Textual Analysis

Tags
211405, 0, 2, 2021-09-13 11:10:24

Learning Outcome
Demonstrate the ability to engage with texts on multiple levels, from comprehension to interpretation to analysis.

Title
Reflection

Tags
211406, 0, 3, 2021-09-13 11:10:24

Learning Outcome
Reflect on the importance of careful reading in academic, professional, and personal settings.

ENGL 211 - Rhetoric and Civilization 1

Course Information

Teaching Area (new)
ENGL

Course Number
211

Teaching Area
ENGL

Course Title
Rhetoric and Civilization 1

Course Description
Western civilization from Greek antiquity to the Renaissance emphasizing rhetoric; the arts of language and their role in shaping institutions, values, and beliefs.

Department
English

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
Fulfills the Civilization 1 GE requirement.

Learning Outcomes

Title
Careful and Critical Reading

Tags
191442, 2

Learning Outcome
Read carefully and critically primary texts from people and periods in history that have shaped the civilization we now have-particularly our intellectual traditions and values, but also our political, social, educational, and religious institutions.

Title
Understand Vocabulary and Canons of Rhetoric

Tags
191684, 2

Learning Outcome
Understand the vocabulary and canons of rhetoric so that you can use the art of rhetoric effectively in listening to, reading, and analyzing the discourse of others, and in speaking and writing clearly and persuasively.

Title
Effective Writing and Communication

Tags
191744, 1

Learning Outcome
Demonstrate your understanding of the texts through written and oral assignments as well as through papers and essay exams.

ENGL 212 - Rhetoric and Civilization 2

Course Information

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Effort, Discipline, and Knowledge

Tags
191231, 0, 1, 2021-09-28 12:20:56

Learning Outcome
Demonstrate effort and discipline in their creative work as well as a knowledge of various creative genres and their conventions.

Title
Reading Literary Models Analytically

Tags
191232, 0, 2, 2021-09-28 12:20:56

Learning Outcome
Read literary models analytically, with an eye to authorial intention and technique and be able to articulate the same.

Title
Grammar, Punctuation, and Style

Tags
191233, 0, 3, 2021-09-28 12:20:56

Learning Outcome
Use correct grammar, punctuation, and an appropriate style in their writing.

Title
Successful Writing using Literary Models

Tags
191234, 0, 4, 2021-09-28 12:20:56

Learning Outcome
Write a successful poem, short story, or essay using literary models and following explicit instructions from the teacher.

Title
Revising, Editing, and Sharing

Tags
191235, 0, 5, 2021-09-28 12:20:56

Learning Outcome
Revise intelligently, edit carefully, and share one's work with others in the class.

ENGL 230 - Studies in Literature

Course Information

Teaching Area (new)
ENGL

Course Number
230

Teaching Area
ENGL

Course Title
Studies in Literature

Course Description
Introduction to various literary themes, forms, and/or authors.

Department
English

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
NOTE: Does not fulfill English major requirements. NOTE: Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Critical Reading Strategies

Tags
191449, 1

Learning Outcome
Demonstrate basic proficiency in reading and interpreting fiction, drama, and poetry.

Title
Effective Writing and Communication

Tags
191450, 2

Learning Outcome
Demonstrate your understanding of literature through written and oral assignments , including papers and exams.

Title
Ethical and Aesthetic Contexts

Tags
191451, 3

Learning Outcome
Be able to discuss the ethical and aesthetic implications of choosing particular reading strategies including those that center on texts, genres, authors, readers.

ENGL 232 - Shakespeare

Course Information

Title
Critical Reading Strategies

Tags
191670, 0

Learning Outcome
Demonstrate basic proficiency in reading and interpreting British literature.

Title
Effective Writing and Communication

Tags
191455, 2

Learning Outcome
Demonstrate your understanding of British literature through written and oral assignments, including papers and exams.

ENGL 238 - The Bible as Literature

Course Information

Teaching Area (new)
ENGL

Course Number
238

Teaching Area
ENGL

Course Title
The Bible as Literature

Course Description
Introduction to the literary forms and aesthetic strategies of the Bible.

Department
English

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Reading

Tags
191825, 1

Learning Outcome
We will discover together better ways to read the Bible with the sensitivity and awareness that its superb artistry and unparalleled insight warrant, reconstructing from the textual evidence more of what is expressed and implied in this book that is the seedbed of our literature and much of our language.

Title
Genres

Tags
191826, 2

Learning Outcome
We will familiarize ourselves with biblical genres and conventions ranging from parable to proverb, from typology to type scene, from paradox to parallelism in order to enhance our ability to read ourselves into biblical statements.

Title
Personal Application

Tags
191827, 3

Learning Outcome
We will apply the advantages of the reading practices we discover through our Bible reading-such techniques as reading between the lines, thinking against the grain, likening to ourselves-to texts beyond the Bible, ideally as far as into daily life. We will learn to apply biblical insights to ourselves through practice in likening scriptural narrative and poetry and wisdom to our own experience.

Title
Critical and Historical Contexts

Tags
191828, 4

Learning Outcome
We will expand our perceptions of biblical texts by viewing them through a wide spectrum of critical approaches and by investigating their implications through the lens of their historical context.

Title
Written Analysis

Tags
191829, 5

Learning Outcome
We will enhance our ability to express our hard-earned individual insights into biblical texts by writing research-intensive essays and answering probing literary questions about the Bible.

Title
Life-long Learning

Tags
191830, 6

Learning Outcome
We will in all these ways make the Bible "a source of practical wisdom, spiritual insight, and aesthetic pleasure, a vital perspective upon history and the diversity of human experience, and a guide for making ethical choices in our daily lives" not just for this class but forever, initiating a process of study of the Bible that at its best is as long and as deep as life.

ENGL 268 - Literature of the Latter-day Saints

Course Information

Teaching Area (new)
ENGL

Course Number
268

Teaching Area
ENGL

Course Title
Literature of the Latter-day Saints

Course Description
Fiction, poetry, drama, folklore, essay, etc., emerging from and reflecting upon the LDS experience from Joseph Smith to the present.

Department
English

When Taught
Fall and Winter

Credit Hours

Fixed:
0

Other Prerequisites
Must have completed, or be enrolled in, 9 of the following 12 credits: Engl 203 (3 credits); Engl 291 (3 credits); Engl 292 (3 credits) and Engl 293 (3 credits) or Engl 294 (6 credits). Meet Utah State Office of Education license requirements; FBI fingerprint and background clearance

Learning Outcomes

Title
Instructional Resource File

Tags
191400, 1

Learning Outcome
Create an instructional resource file.

Title
Newletter, Bulletin Board, and Resource Aid

Tags
191401, 4

Learning Outcome
Create school newsletter, bulletin board display and an instructional resource aid.

Title
Moral Dimensions of Teaching

Tags
191402, 5

Learning Outcome
Analyze case study incidences regarding the moral dimensions of teaching.

Title
Lesson Recording and Analysis

Tags
191677, 4

Learning Outcome
Video record one lesson to view and analyze and review with peers.

Title
Lesson Plans

Tags
191682, 10

Learning Outcome
Generate lesson plans in relation to observations, school cultures, district and state mandates, and contemporary educational theory.

Title
Learning Styles

Tags
191716, 1

Learning Outcome
Evaluate a variety of learning styles.

Learning Outcomes

Title
Presentation Skills

Tags
213779, 0, 1, 2023-08-29 08:56:25

Learning Outcome
Prepare and deliver a professional formal presentation with visual aids with a target audience in mind

Title
One-on-one speaking skills

Tags
213780, 0, 2, 2023-08-29 08:56:27

Learning Outcome
Deliver professional formal presentations with a target audience in mind

Title
Delivery skills

Tags
213781, 0, 3, 2023-08-29 08:56:28

Learning Outcome
Apply performance strategies for the voice and body—including the body's response to speaking anxiety—for effective oral communication

Title
Electronically mediated skills

Tags
213782, 0, 4, 2023-08-29 08:56:30

Learning Outcome
Apply the above skills to remote communication modes, such as online meetings and webinars

ENGL 337R - Studies in Literary Form and Genre

Course Information

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- ENGL 276R - Exploration of Teaching

Other Prerequisites
concurrent enrollment in Engl 379

Note
To be taken immediately before student teaching or interning.

Learning Outcomes

Title
Lesson Planning

Tags
191406, 1

Learning Outcome
Students will be able to write effective lesson plans with clear objectives and appropriate activities and assessments that promote and measure the desired learning for a variety of learners in an English/language arts classroom.

Title
Unit Planning

Tags
191407, 2

Learning Outcome
Students will be able to develop a unit plan that shows the ability to integrate all areas of language arts; to correlate unit goals, activities, and assessments; and to show understanding of current best practice.

Title
Professionalism

Tags
191408, 3

Learning Outcome
Students will be able to establish patterns for future professional practices by accessing and evaluating ideas in professional journals and conference presentations.

Title
Context and Assessment

Tags
191409, 4

Learning Outcome
Students will be able to show how context influences good instructional decisions and how a variety of assessments can foster student learning as well as measure it for diverse students.

Title
Reflection

Tags
191410, 5

Learning Outcome
Students will be develop their ability to improve as teachers in the future by reflecting on their teaching experiences through both talk and writing.

Title
Read Critically

Tags
191411, 6

Learning Outcome
Students will be able to analyze readings to extract main ideas, synthesize readings with their own ideas/experiences and those of others in the classroom, and reach well-supported conclusions.

Learning Outcomes

Title
Contextual Factors in School Setting

Tags
191414, 2

Learning Outcome
Students will be able to analyze contextual factors in a school setting and discern instructional implications that arise from these factors.

Title
Learning Objectives

Tags
191415, 4

Learning Outcome
Students will write appropriate and effective learning objectives that are correlated with state standards and that serve to facilitate learning.

Title
Develop Assessments

Tags
191416, 6

Learning Outcome
Students will be able to develop assessments that measure the learning described in an objective.

Title
Make Adjustments

Tags
191417, 8

Learning Outcome
Students will plan for and make adjustments in their teaching, objectives, and assessments based on students' needs and classroom context.

Title
Establish Presence

Tags
191418, 10

Learning Outcome
Students will establish a teacher's presence in their teaching classrooms.

Title
Reflect and Critique

Tags
191419, 11

Learning Outcome
Students will reflect on and critique their own planning and teaching performance.

ENGL382 - Shakespeare

Course Information

Note
For English majors and minors.

Learning Outcomes

Title
Secondary Scholarship

Tags
191349, 3

Learning Outcome
Develop familiarity with key secondary scholarship about and critical perspectives of Shakespeare's works.

Title
Literary Contexts

Tags
191798, 1

Learning Outcome
Explain the historical and literary contexts, genres and themes, and ethical dimensions of Shakespeare's representative works.

Title
Scholarly Research

Tags
191799, 4

Learning Outcome
Perform scholarly research on Shakespeare's works by identifying and evaluating primary and secondary sources, by formulating arguments conversant with these sources, and by articulating those arguments in formal academic writing.

Title
Critical Reading Strategies

Tags
191802, 2

Learning Outcome
Develop reading strategies that explore how texts are constructed to present a set of arguments (historical, aesthetic, etc) and use those critical reading skills to interpret the texts' concerns and to trace interrelationships among them.

Learning Outcomes

Title
Persuasive Analysis of Folklore Texts

Tags
191358, 0, 1, 2021-09-28 12:38:26

Learning Outcome
Create and share a persuasive analysis of folklore texts in context by using logical reasoning and critical analysis.

Title
Categories of Folklore, Folk Narrative, Folk Groups

Tags
191359, 0, 2, 2021-09-28 12:38:26

Learning Outcome
Identify three categories of folklore, four types of folk narrative, and eight folk groups.

Title
Folkloristic Observations

Tags
191360, 0, 3, 2021-09-28 12:38:26

Learning Outcome
Produce several brief folkloristic observations and document those observations using established formats.

Title
Recording and Archiving Local Traditions

Tags
191361, 0, 4, 2021-09-28 12:38:26

Learning Outcome
Identify and apply some methods of recording and archiving local traditions using moral discrimination, creative imagination, and independent thought.

Title
Perpetuating or Extinguishing Traditional Practices

Tags
191362, 0, 5, 2021-09-28 12:38:26

Learning Outcome
Explain the choices and forces that help perpetuate or extinguish traditional practices, both locally and globally.

Title
Theory of Folklore

Tags
191363, 0, 6, 2021-09-28 12:38:27

Learning Outcome
Identify the shaping functions and theory of folklore.

Title
Fieldwork Project

Tags
191364, 0, 7, 2021-09-28 12:38:27

Learning Outcome
Produce a focused fieldwork project which includes, among other requirements, an essay, collection, and consent forms created according to the William A. Wilson Folklore Archive.

Recommended
ENGL 303 - Ways of Reading. (3) or ENGL 295 - Writing Literary Criticism. (3)

Learning Outcomes

Title
Categories of Folklore, Folk Narrative, and Folk Groups

Tags
191366, 0, 1, 2021-09-28 12:38:46

Learning Outcome
Identify three categories of folklore, four types of folk narrative, and eight folk groups.

Title
Documenting Folklore

Tags
191365, 0, 2, 2021-09-28 12:38:47

Learning Outcome
Identify and apply some methods of recording and archiving local traditions in order to analyze rigorously American texts and artifacts in context of the construction and transmission of the American experience.

Title
Differing Worldviews

Tags
191367, 0, 3, 2021-09-28 12:38:47

Learning Outcome
Relate worldview with the performance of traditions, comparing similarities and differences of groups with differing worldviews and obtaining a wider view of American history and diversity.

Title
Intelligent Reasoning

Tags
191368, 0, 4, 2021-09-28 12:38:47

Learning Outcome
Reason intelligently in oral and written discourse while allowing that traditions are meaningful to participants in places and times different from your present circumstances.

Title
Connecting Folklore Studies

Tags
191369, 0, 5, 2021-09-28 12:38:47

Learning Outcome
Work independently to connect folklore studies with other course work and life experiences and goals.

Title
Perpetuating or Extinguishing Traditional Practices

Tags
191370, 0, 6, 2021-09-28 12:38:47

Learning Outcome
Become engaged with personal, group, and aesthetic dynamics in the performance of traditions and question ethically the choices and forces that help perpetuate or extinguish traditional practices, both locally and globally.

For Marriott School majors.

Learning Outcomes

Title
Create Elegant Solutions

Tags
177112, 4

Learning Outcome
Apply principles of design to create and validate elegant solutions to customers' problems.

Title
Formulate and Prioritize Hypotheses

Tags
177113, 3

Learning Outcome
Identify and prioritize assumptions about customers, their problems, and new solutions.

Title
Understand Customers and Competitive Contexts

Tags
177114, 2

Learning Outcome
Develop rich descriptions of customers' experiences with a specific problem and the performance of existing solutions.

Title
Validate Entrepreneurial Opportunities

Tags
177135, 5

Learning Outcome
Evaluate desirability, feasibility, and viability of potential new ventures through rigorous hypothesis testing.

Title
Generate Creative New Ideas

Tags
177136, 1

Learning Outcome
Demonstrate your ability to think creatively and generate new ideas.

ENT 402 - Entrepreneurship Analytics

Course Information

Teaching Area (new)
ENT

Course Number
402

Teaching Area
ENT

Course Title
Entrepreneurship Analytics

Course Description
Analysis of expected profitability of startups. Students collect and analyze data to find demand curves, cost curves, profit curves, optimal prices and competition in various competitive environments. Economic principles are used to make decisions about whether to launch new ventures.

Learning Outcomes

Title
Experimentation Under Uncertainty

Tags
209961, 0, 1

Learning Outcome
Design and conduct real-world experiments that generate data to resolve key uncertainties in early-stage ventures.

Title
Profit Analytics and Pricing Judgment

Tags
209962, 0, 2

Learning Outcome
Gather data on customer demand, interpret profitability analytics from automated tools, and evaluate pricing and cost decisions accordingly.

Title
Market Entry and Competitive Strategy

Tags
209963, 0, 3

Learning Outcome
Assess market attractiveness by analyzing competition, barriers to entry, and differentiated value using Shiny-powered modeling tools.

Title
Data-Informed Decision Practice

Learning Outcome
Interpret analytical results from Shiny apps and data experiments to guide venture-specific customer, supplier, pricing, and positioning decisions.

Title
Integrity and Stewardship of Truth in Analytics

Learning Outcome
Demonstrate intellectual honesty and humility in gathering data, interpreting results, and communicating uncertainty-recognizing the duty to seek and act on truth.

Title
Becoming a Lifelong Evidence-Seeking Entrepreneur

Learning Outcome
Internalize the mindset and process of using evidence to guide venture judgment and reduce uncertainty throughout life.

Title
Strategic Judgment Under Uncertainty

Learning Outcome
Make early-stage strategic decisions-about markets, models, and positioning-based on evidence, experimentation, and sustainable advantage.

Learning Outcomes

Title
Communication Skills

Tags
197478, 1

Learning Outcome
In both written and spoken target language, communicate with reasonable accuracy about real-world activities with well-educated members of the target-culture accustomed to dealing with non-native speakers.

Title
Comprehension

Tags
197479, 2

Learning Outcome
Understand every-day written and verbal instructions. Comprehend concrete details and global meaning of intermediate-level written and spoken passages related to familiar topics that native speakers encounter routinely in their daily life.

Title
Cultural Knowledge

Tags
197480, 3

Learning Outcome
Discuss in the target language cultural practices related to every-day life in the target culture. Acquire basic background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.).

Title
General Education Requirements

Tags
197481, 4

Learning Outcome
Complete Languages of Learning and Global & Cultural Awareness for General Education.

Credit Hours

Min:
1

Fixed/Max:
4

Other Prerequisites
Instructor's consent.

Learning Outcomes

Title
Defined Special Purpose

Tags
197482, 1

Learning Outcome
Develop the overall language and cultural competence to meet the needs of a "special" purpose identified by the Center for Language Studies.

Title
Communication

Tags
197483, 2

Learning Outcome
Communicate effectively enough to function in a variety of situations likely to be encountered when dealing with native speakers associated with the special purpose. This may include interpersonal, interpretive, and presentational (written and oral) modes of communication.

Title
Cultural Competence

Tags
197484, 3

Learning Outcome
Interact with cultural competence and understanding when dealing with native speakers associated with the special purpose.

Complete ALL of the following Courses:

- ESTON 330 - Advanced Language Proficiency Through Cultural Studies: Estonian

Learning Outcomes

Title
Defined Career Purposes

Tags
197496, 1

Learning Outcome
Develop overall language and cultural competence needed to study and begin entry into a career agreed upon by the Center for Language Studies.

Title
Knowledge

Tags
197497, 2

Learning Outcome
Carry out research to identify, understand, and discuss standards, processes, people and cultural norms associated with the target career.

Title
Interpretive Competence

Tags
197498, 3

Learning Outcome
Understand, interpret and analyze advanced-level written and oral texts on topics related to the target career.

Title
Communicative Competence

Tags
197499, 4

Learning Outcome
Communicate effectively at the advanced-level in order to function in a variety of situations likely to be encountered when dealing with native speakers who are associated with the target career. This will include interpersonal communication and both written and oral presentational communication.

Title
Cultural Competence

Tags
197500, 5

Learning Outcome
Interact with cultural competence and understanding when dealing with native speakers who are associated with the target career.

EUROP 200 - Introduction to European Studies

Course Information

Teaching Area (new)
EUROP

Course Number
200

Teaching Area

Lab Hours

Fixed:
0

Learning Outcomes

Title
Information Literacy: Foundations & Frameworks

Tags
17022, 0, 0

Learning Outcome
Students will demonstrate advanced factual knowledge of European geographies, histories, politics, and cultures, and show proficiency in analyzing and interpreting specific European topics using major theories and concepts from the core European Studies disciplines (history, political science, and the humanities).

Title
Global Citizenship

Tags
17016, 0, 4

Learning Outcome
Students will acquire and refine an intellectual curiosity and habits of thought that will lead to life-long learning and continued engagement with European history, literature, culture, languages, and current affairs in various realms (personal, professional, church, civic).

Title
Cultural Navigation: International Perspectives and Experiences

Tags
17020, 0, 1

Learning Outcome
Students will acquire advanced international and intercultural competencies through coursework in international studies, habitual reading of European and global news, regular attendance at Kennedy Center lectures, as well as mentored learning experiences, including study abroad, internship, etc.

Title
Professional Skills & Competencies

Tags
17018, 0, 3

Learning Outcome
Students will cultivate advanced skills in critical reading, thinking, and communication in a variety of disciplinary traditions (history, humanities, political science, etc.). They will also demonstrate a proficiency in communicating in a European language other than English.

EUROP 320R - European Literature, Art, and Culture

Course Information

Teaching Area (new)
EUROP

Course Number
320R

Teaching Area
EUROP

Course Title
European Literature, Art, and Culture

Course Description
In-depth study of key themes, genres, and movements across Europe, emphasizing contemporary trends in the literary and visual arts and methods of critical reading and writing in the humanities. Topics and texts vary by instructor.

Department
International and Area Studies

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
EUROP 200 & HIST 250.

Learning Outcomes

Title
Knowledge of important European writers, artists, movements, and genres

Tags
200220, 1

Learning Outcome
Students will extend and deepen their understanding of a wide range of important European writers, thinkers, artists, movements, and genres. Besides learning to interrogate the potential strengths and limitations of generalized notions of "European culture," students will develop a comparative sense of regional or national departures from or variations upon literary and artistic norms. Assessment measures: course exams and research papers, graduation exit exams and focus groups.

Title
Familiarity with analytic and interpretive modes from the humanities

Tags
200221, 2

Learning Outcome
Students will become conversant in many of the critical, descriptive, and interpretive modes characteristic of discourse in humanistic disciplines. They will learn to analyze works of European literature and visual art from formal, aesthetic, philosophical, and socio-political perspectives. Assessment measures: course exams and research papers, senior papers for capstone course (EUROP 490R), graduate focus groups.

Title
Developing intellectual curiosity and aesthetic sensibilities

Tags
200222, 3

Learning Outcome
Students will come to understand what it means to be "cultured" in European society and will develop the intellectual curiosity, aesthetic sensibilities, habits, and tastes to fuel a life-long study of the best European literature, cinema, and art. Assessment measures: graduate focus groups, alumni surveys.

EUROP 330 - European Culture and Society

Course Information

Course Number
330

Teaching Area
EUROP

Course Title
European Culture and Society

Course Description
Using approaches from the social sciences, history, and the humanities, students will explore recent developments in European politics, culture, and identity. The course will have a broad European focus, but will help students to acquaint themselves with different European regions

Department
International and Area Studies

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Learning Outcomes

Title
Critical Reasoning

Learning Outcome
Students will demonstrate that they have grappled with an important idea, issue or development in recent European society

Title
Cultural Understanding

Learning Outcome
Students will demonstrate a nuanced and complex understanding of European identity

Title
Comparative Geography

Learning Outcome
Students will demonstrate a familiarity with a broad number of European regions

Title
Research Methodologies

Learning Outcome
Students will demonstrate that they are familiar with the basic disciplinary methodologies of History, Humanities and Political Science

Title
Oral and Written Communication

Learning Outcome
Students will demonstrate their mastery of objectives 1,2, 3 and 4 on quizzes, regular writing assignments, presentations, and a major project at the end of the course

EUROP 336R - The Social Sciences in a European Context

Course Information

Teaching Area (new)
EUROP

Course Number
336R

Teaching Area
EUROP

Course Title
The Social Sciences in a European Context

Course Description
Social Science course approved for study abroad, internship, or experiential learning programs in European locations.

Department
International and Area Studies

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
6

Recommended
Europ 200 and Hist 250

Learning Outcomes

Title
Analysis of Historical and Cultural Heritage Sites

Tags
200200, 1

Learning Outcome
Students should be able to accurately and intelligently discuss the historical sites the program visited and explain how the events that occurred there proved pivotal to the development of the nation or Europe as a whole. Site visits should directly correspond with class discussions and reading and writing assignments.

Title
Application of Political and Historical Understanding to Other Disciplines

Tags
200201, 2

Learning Outcome
Students should demonstrate the ability to appropriately and constructively draw upon their knowledge of European history and politics when visiting churches or museums and interpreting the region's literature, art, music, and theater.

Title
Comparative Political Understanding

Tags
200202, 3

Learning Outcome
Students should show a comparative understanding of European and American political systems (e.g., constitutional monarchy, written vs. unwritten constitutions, presidents vs. prime ministers, etc.).

Title
Global Awareness 1: Participating in Current Global Debates

Tags
200203, 4

Learning Outcome
Students should demonstrate sufficient familiarity with today's most pressing European and/or national socio-political issues to offer informed views in class debates, conversations with locals, and discussions with associates in the U.S.

Title
Global Awareness 2: Europe in a Globalized, Postcolonial Age

Tags
200204, 5

Learning Outcome
Students should reveal an informed understanding of historical and contemporary European contacts with and assimilation of non-Western cultures (e.g., imperialism, decolonization, immigration).

Title
Historical Knowledge

Tags
200205, 0

Learning Outcome
Students will demonstrate a general understanding of the historical development of modern Europe (or of the nation or region upon which the course focuses). While students should emerge with a basic sense of all major historical periods, not all eras need receive equal coverage. A course taught in Florence, for instance, would presumably focus more heavily on the Renaissance than the eighteenth century.

EUROP 337R - The Humanities in a European Context

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- EUROP 200 - Introduction to European Studies

Other Prerequisites
Senior status or program coordinator's consent

Learning Outcomes

Title
targeted understanding

Tags
200097, 2

Learning Outcome
Students will understand the relationship of the courses central issue to their country or countries of interest.

Title
research and writing

Tags
200114, 1

Learning Outcome
Students will identify a valid research topic and research that topic using appropriate disciplinary methods, and they will write a cogent, scholarly essay in which they report the results of their research.

Title
Knowledge and Analytic Understanding

Tags
200196, 0

Learning Outcome
Students will gain an in-depth understanding of an issue central to European Studies and be able to articulate that understanding using theories, concepts, research materials, and ideas from the perspectives of more than one European-Studies-related discipline.

EXDM 123 - Introduction to Outdoor Recreation Activities

Learning Outcomes

Title
Apply Foundational Principles

Tags
175466, 1

Learning Outcome
Apply foundational principles of recreation and experience design for self, family, community, and diverse populations.

Title
Value Improving Quality of Life

Tags
175467, 2

Learning Outcome
Analyze the importance of improving the quality of lives for individuals, families, and society

Title
Exploring Life Design

Tags
175468, 3

Learning Outcome
Explore life design opportunities by completing a comprehensive design of your life project.

Title
Global and Cultural Awareness

Tags
175469, 4

Learning Outcome
Develop informed awareness of diverse perspectives across regions, cultures, and identities; engage in thoughtful reflection through an in-depth academic comparison, fostering empathy and respect for differing viewpoints.

Title
Deep BYU Aims Experience

Tags
175470, 5

Learning Outcome
Design, live, and reflect on a deep, inspiring BYU experience that contributes to the AIMs of a BYU education.

EXDM 301 - Family Recreation

Course Information

Teaching Area (new)
EXDM

Course Number
301

Teaching Area
EXDM

Course Title
Family Recreation

Course Description
Exploring the role of family recreation in building successful families.

Department
Experience Design and Management

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Bless and Strengthen

Tags
175416, 1

Learning Outcome
Have a spiritual conviction that family recreation will bless and strengthen family life.

Title
Family Strength and Unity

Tags
175417, 2

Learning Outcome
Understand, evaluate, and explain the theories, principles, and concepts of family recreation and their role in building family strength and unity.

Title
Integrate Theory

Tags
175418, 3

Learning Outcome
Integrate family recreation theory and generate it into a personal philosophy of family leisure that includes family recreation leadership proficiencies and applies family recreation principles.

Title
Apply Principles

Tags
175419, 4

Learning Outcome
Apply family recreation principles to current and future family life and share those principles with family, friends and the community.

Title
Portfolio

Tags
175420, 5

Learning Outcome
Maintain a professional, theory based, family recreation portfolio.

Title
Personal Values

Tags
175421, 6

Learning Outcome
Transform personal values of family time and family ritualization.

EXDM 302 - Hospitality Management

Course Information

Teaching Area (new)
EXDM

Course Number
302

Teaching Area
EXDM

Course Title
Hospitality Management

Course Description
Introducing hospitality management; integrating with venue and experience management; considering foundational principles, best professional practices; exploring professional opportunities.

Department
Experience Design and Management

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:

Learning Outcomes

Title
Positive Psychology

Tags
212968, 0, 1

Learning Outcome
Gain understanding of advanced topics in positive psychology

Title
Research

Tags
212969, 0, 2

Learning Outcome
Demonstrate understanding of current positive psychology research and how to apply it in the experience industry

Title
Life Plans

Tags
212970, 0, 3

Learning Outcome
Integrate advances in positive psychology and experience design principles to develop better life plans and experience journeys

EXDM 404 - Experience Design

Course Information

Teaching Area (new)
EXDM

Course Number
404

Teaching Area
EXDM

Course Title
Experience Design

Course Description
Introduces students to the principles and practices of experience design. Students will explore how experiences shape identity, relationships and organizations. Students will learn to design experiences that matter in business, life, and Christlike discipleship.

Department
Experience Design and Management

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
For Experience Design and Management majors only.

Learning Outcomes

Title
Curiosity and Creativity

Tags
212170, 0, 5

Learning Outcome
Students will demonstrate curiosity and creativity by generating novel ideas, asking insightful questions, and producing original solutions in both individual and group projects.

Title
Conceptualize and Analyze Experiences

Tags
175475, 0, 4

Learning Outcome
Students will be able to conceptualize and analyze experiences utilizing key experience design concepts such as structured experiences, experience phases, experience types, experiencescape elements, and experience related theories.

Title
Human Centered Design

Tags
175476, 0, 1

Learning Outcome
Students will be able to apply the design thinking process to develop innovative solutions to professional and personal experiences related to wicked problems.

Title
Experience Design

Tags
175482, 0, 3

Learning Outcome
Students will be able to design intentional experiences using experience mapping, narrative structure, and touchpoint design.

Title
Christlike Design

Tags
175474, 0, 2

Learning Outcome
Students will apply gospel methodology, empathy, and courageous curiosity as they analyze client needs and propose design solutions in the experience design consulting project.

EXDM 405 - Theories and Frameworks in Experience Design and Management

Course Information

Teaching Area (new)
EXDM

Course Number
405

Teaching Area
EXDM

Course Title
Theories and Frameworks in Experience Design and Management

Course Description
An introduction to selected scientific theories, frameworks, and models that can be used to optimize experience design. An introduction to the experience economy and the design and management of experiences to create business value.

Department
Experience Design and Management

When Taught
Fall

Credit Hours

Min:

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- **AND**
  AND EXDM 404 - Experience Design

Learning Outcomes

Title
Legal Research

Tags
175398, 1

Learning Outcome
Perform legal research by finding relevant law cases from different resources, including the Howard W. Hunter Law Library at BYU.

Title
Law Case Summaries

Tags
175399, 2

Learning Outcome
Review and interpret law case summaries.

Title
Law Case Briefs

Tags
175400, 3

Learning Outcome
Compose law case briefs.

Title
Tort Liability

Tags
175401, 4

Learning Outcome
Know basic rules of law concerning tort liability including:

Intentional torts
Negligence
Constitutional rights

Title
Risk Management

Tags
175402, 5

Learning Outcome
Know issues involving risk management and create a risk management plan.

Title
Court System

Tags
175403, 6

Learning Outcome
Explain the fundamentals of the legal court system.

EXDM 415 - Experience-Centric Management

Course Information

Teaching Area (new)
EXDM

Course Number
415

Teaching Area
EXDM

Course Title
Experience-Centric Management

Course Description
An introduction to experience management beginning with an exploration of processes and principles for self- and team-management. Workflow and project management frameworks are discussed and analyzed for their compatibility with human-centered experience design and management.

Department
Experience Design and Management

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:

Note
Students will be required to have Adobe's creative suite.

Learning Outcomes

Title
Spiritually Strengthening/Lifelong Learning

Tags
175234, 1

Learning Outcome
Students will be able to use a gospel methodology to approach academic and professional work by relying on prayer, personal inspiration, and understanding how the Spirit talks to them personally.

Title
Visual Principles to Communicate Effectively

Tags
175235, 2

Learning Outcome
Students will be able to communicate effectively with a target audience by integrating principles of visual rhetoric.

Title
Visual Principles to Communicate Effectively

Tags
175236, 3

Learning Outcome
Students will be able to create an effective experiential marketing strategy using the BETTER model framework.

Title
Develop creative experiential marketing plans

Learning Outcome
Students will be able to use their creativity to design innovative and effective experiential marketing and social media campaigns that build brand loyalty.

Title
Build Community Through Intentional Actions

Learning Outcome
Students will be able to effectively communicate and create a working connection with a professional client on an experiential marketing plan with confidence

Title
Build Community Through Intentional Actions

Learning Outcome
Students will be able to reach target audiences that progress the customer along the customer lifecycle by creating an influential experiential marketing campaign and using a variety of social media tools

Title
Impact of Experiential Marketing Plan and Social Media

Learning Outcome
Students will be able to evaluate the expected organizational impact of their experiential marketing and social media strategies using projected reach.

EXDM 418 - Designing for Inclusion and Belonging

Course Information

Course Number
418

Teaching Area
EXDM

Course Title
Designing for Inclusion and Belonging

Course Description
In today's world, designing for inclusion and belonging is not just a value—it's a sacred responsibility rooted in the teachings of Jesus Christ. Students will increase awareness, question assumptions, and develop empathy-driven Christ-centered inclusion/belonging.

Department
Experience Design and Management

When Taught
Winter

Credit Hours

Simple Requisites

Prerequisite

Type
Prerequisite

Complete ALL of the following Courses:
- EXDM 404 - Experience Design

Learning Outcomes

Title
Value of Belonging

Learning Outcome
Discuss the economic, business, and moral value of belonging, inclusion, equity, diversity and their impact on individuals, families, and organizations in today's global society.

Title
Personal Experiences

Learning Outcome
Demonstrate personal awareness gained from interactions with people who are different than them in race, age, spiritual beliefs and practices, gender, gender identity, sexual orientation, work and life status, ethnic origin, culture, employment level, physical and mental ability, and veteran status.

Title
Social Outlook

Learning Outcome
Explain social privilege, unconscious bias, intersectionality, stereotyping, and sensitively approach these issues in the workplace, community, and personal life.

Title
4. Applied Inclusive Design Strategies

Learning Outcome
Apply inclusive design principles and targeted strategies to create environments, experiences, or products that both address the specific needs of marginalized individuals and intentionally foster a broader sense of belonging for all.

Title
5. Appropriate Language

Learning Outcome
Use appropriate, respectful, inclusive, and person-first language when reading, writing, and speaking about and with individuals of diverse backgrounds and abilities.

212992, 0, 3

Learning Outcome
Articulate the educational and professional values in an academic internship, including summarizing the responsibilities of the students, placement sites, and the academic department during the internship experience.

Title
Networking

Tags
212993, 0, 4

Learning Outcome
Demonstrate an understanding of the value of professional networking as a function of making the college to career transition and demonstrate effective networking abilities.

Title
Professional Organizations

Tags
212994, 0, 5

Learning Outcome
Demonstrate an understanding of the professional organizations in order to select organizational memberships that are congruent with career goals.

EXDM 496R - Senior Internship

Course Information

Teaching Area (new)
EXDM

Course Number
496R

Teaching Area
EXDM

Course Title
Senior Internship

Course Description
300-hour internship in Experience Design & Management where students apply junior core coursework, build NACE career competencies, demonstrate ExDM skills, and gain experience in professionalism, career exploration, and articulating a personal professional story.

Department
Experience Design and Management

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
12

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- EXDM 495 - Professional Preparation in Experience Design and Management

Note
An APPROVED Internship Application is required before adding.

Learning Outcomes

Title
Work Ethic

Tags
212996, 0, 2

Learning Outcome
Complete a 300-hr supervised internship in an employment setting or agency related to Experience Design & Management.

Title
Professionalism

Tags
212997, 0, 3

Learning Outcome
Demonstrate professionalism by applying NACE career readiness competencies such as accountability, initiative, and adaptability in an experience design work environment.

Title
Communication Skills

Tags
212998, 0, 4

Learning Outcome
Develop proficiency in verbal and written communication skills relevant to internship and other work settings.

Title
Core Competencies

Tags
212999, 0, 5

Learning Outcome
Apply ExDM core competencies to a several projects or initiatives that provides educational value to them and practical value to the host organization.

Title
Career Exploration

Tags
213000, 0, 6

Learning Outcome
Explore career pathways in Experience Design & Management by reflecting on their internship experience, articulating their professional story, and connecting it to future opportunities.

Title
Professional Networking

Tags
213001, 0, 7

Learning Outcome
Intentionally network with industry professionals, seek mentorship, and cultivate relationships that support long-term professional growth.

EXDM 585R - Experience Design Research Seminar

Course Information

Teaching Area (new)
EXDM

Course Number
585R

Teaching Area
EXDM

Course Title
Experience Design Research Seminar

Course Description
Introduction to terms, methodologies, and research literature relevant to current experience design and management research. Also explores relevant graduate programs and academic careers.

Department
Experience Design and Management

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Consumers of Academic Research

Tags
213002, 0, 1

Learning Outcome
Skillfully consume academic research.

Title
Foundational Research Knowledge

Tags
213003, 0, 2

Learning Outcome
Demonstrate knowledge of research methods.

Title
Conversant on Current Knowledge

Tags
213004, 0, 3

Learning Outcome
Discuss current research related to experience design and management.

Title
Literature Review

Tags
213005, 0, 4

Learning Outcome
Write a brief literature review using academic resources.

Title
Familiarity with Academic Careers

Tags
213006, 0, 5

Learning Outcome
Describe the professional life of an academic.

Title
Familiar with Graduate Programs

Tags
213007, 0, 6

Learning Outcome
Discover relevant graduate programs; describe the admissions process and funding opportunities.

EXSC 151 - Introduction to Exercise Sciences

Course Information

Course Number
151

Teaching Area
EXSC

Course Title
Introduction to Exercise Sciences

Course Description
Provides new majors with an overview of the Exercise Sciences majors and department. Includes a general review of the field of exercise science and specifically addresses expectations for course work and timelines (MAP review), details on similarities and differences between the undergraduate major options (Exercise Sciences and Exercise and Wellness), introduction to the Master of Athletic Training program, and opportunities for internship and research. Also presents opportunities for introductions to EXSC faculty, career options and possibilities (presentations by practicing allied health professionals), college/ university advisement and counseling resources, and post-graduate education options.

Department
Exercise Sciences

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
1

Lecture Hours

Fixed:
1

Learning Outcomes

Title
EXSC Overview

Learning Outcome
Students will be able to explain the role of Exercise Science in society from a historical, contemporary, and future perspective.

Title
EXSC Majors

Learning Outcome
Students will explain the similarities and differences in the undergraduate majors offered in the Department of Exercise Sciences.

Title
EXSC Opportunities and Resources

Learning Outcome
Students will demonstrate understanding of Exercise Science opportunities related to research, internship, volunteer, certifications, and post-graduate work. Students will also demonstrate knowledge of pertinent resources available through college advisement, university counseling, university accessibility, and career services.

Title
EXSC Careers

Learning Outcome
Students will demonstrate basic understanding of potential career options upon graduating with a bachelors degree in Exercise Sciences and what specific careers entail.

Title
Spiritually Strengthening

Learning Outcome
Students will discuss and appreciate the divine nature of the human body, recognize the diversity of exercise sciences and it's role in future related occupations.

EXSC 221 - Science of Wellness

Course Information

Teaching Area (new)
EXSC

Course Number
221

Teaching Area
EXSC

Course Title
Science of Wellness

Course Description
A comprehensive study of the science of wellness of the whole individual. The science of wellness draws principles from exercise sciences, biological sciences, behavioral and social sciences. The research from psychoneuroimmunology (PNI) supports specifically the holistic wellness paradigm whose focus is that every aspect of each human being, the body, mind and spirit, are involved in all wellness activities and all wellness activities affect the whole individual. Students will discover this new paradigm and experience the blending of the sciences to support the integrated nature of our being.

Department
Exercise Sciences

When Taught
All Semesters/Terms

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
Offered by BYU Independent Study; enroll anytime throughout the year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Behavior Change Models

Tags
201670, 3

Learning Outcome
Understand several behavior change models and the advantages of each.

Title
Discover New Paradigm

Tags
201671, 1

Learning Outcome
Discover the significance of the wellness paradigm shift from physical, mental, social, emotional and spiritual as dimensions of wellness to them being dimensions of human nature. Have a working comprehension of the science of wellness.

Title
Epigenetics and Wellness

Tags
201673, 6

Learning Outcome
Recognize the ramifications of epigenetics for your wellness now and in the future and also the future wellness of others.

Title
Quality of Life

Tags
201714, 5

Learning Outcome
Recognize that understanding the science of wellness has the potential to improve the quality of your life and that of your family, friends and community.

Title
Research on the Integrated Nature of Human Life

Tags
201715, 4

Learning Outcome
Give examples of wellness research demonstrating the integrated nature of human life and associated wellness principles.

Title
Written Record of Wellness Experiences

Tags
201716, 7

Learning Outcome
Articulate your own comprehension of the science of wellness and the meaning it has to you through a written record of your wellness experiences throughout the course.

Title
Harmonious Integration of Human Life

Tags
201672, 0, 2

Learning Outcome
Demonstrate an understanding of the sacredness of the human body and the contribution wellness can make to the harmonious integration of the composite nature of human life-body, mind and spirit.

EXSC 320 - Basic Athletic Training

Course Information

Teaching Area (new)
EXSC

Course Number
320

Teaching Area
EXSC

Course Title
Basic Athletic Training

Course Description
Recognition, evaluation, and care of athletic injuries. Techniques in taping, preventing, and rehabilitating injuries.

Department
Exercise Sciences

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
PDBio 220; some majors require concurrent enrollment in ExSc 321. Check MAP requirements for major.

Note
Concurrent registration in EXSC 321 may be required. Please check the MAP for your major.

Learning Outcomes

Title
Responsibilities, Roles, and Tasks

Tags
201397, 1

Learning Outcome
Review general responsibilities, roles, and tasks of athletic trainers, physical therapists, and otherallied health professionals involved in sports medicine.

Title
Musculoskeletal Injuries

Tags
201398, 2

Learning Outcome
Learn assessment, first aid, and treatments for common musculoskeletal injuries.

Title
Injury Prevention

Tags
201399, 3

Learning Outcome
Examine methods of injury prevention including conditioning principles, environmental hazards,and protective equipment.

Title
Application

Tags
201400, 5

Learning Outcome
Apply knowledge to practical situations.

Title
Resources

Tags
201521, 4

Learning Outcome
Learn and utilize resources available to sports medicine professionals.

EXSC 321 - Basic Athletic Training Lab

Course Information

Teaching Area (new)
EXSC

Course Number
321

Teaching Area
EXSC

Course Title
Basic Athletic Training Lab

Course Description
Lab with techniques in preventing the injured through taping, wrapping, bracing and padding, and for treating and transporting injuries by splinting, wrapping, using ambulatory aids and spine boarding.

Department
Exercise Sciences

When Taught
Fall, Winter, Spring

Credit Hours

Min:
0.5

Fixed/Max:
0.5

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
0.5

Other Prerequisites
Concurrent enrollment in ExSc 320

Note
Concurrent registration in EXSC 320 may be required. Please check the MAP for your major.

Learning Outcomes

Title
Taping

Tags
201401, 1

Learning Outcome
Demonstrate competency and proficiency in taping the ankle, foot, lower leg, knee, thigh/hip,shoulder, elbow, wrist, thumb, and finger joints.

Title
Wrapping

Tags
201402, 2

Learning Outcome
Demonstrate competency and proficiency in wrapping the ankle, foot, lower leg, thigh/hip,shoulder, elbow, wrist, thumb, and finger joints.

Title
Wound Care Management

Tags
201717, 3

Learning Outcome
Demonstrate competency and proficiency in wound care management.

Title
Injury Evaluation

Tags
201718, 4

Learning Outcome
Demonstrate competency and proficiency in injury evaluation.

Title
Injury Treatment Management

Tags
201719, 5

Learning Outcome
Demonstrate competency and proficiency in injury treatment management.

Title
Spineboarding and Splinting

Tags
201720, 6

Learning Outcome
Demonstrate competency and proficiency in spineboarding and splinting.

EXSC 349 - Body, Mind, Spirit

Course Information

Teaching Area (new)
EXSC

Course Number
349

Teaching Area
EXSC

Course Title
Body, Mind, Spirit

Course Description
Sacredness of the body and its meaningfulness to the whole being. Comparative approach utilizing ideas from the restored gospel and Western and Eastern philosophy (nature of being).

Department
Exercise Sciences

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Learning Outcomes

Title
Critical Thinking Regarding the Nature of Being

Tags
201676, 0

Learning Outcome
Enhance understanding of the divine nature of human life.

Title
Inherent Worth of Each Soul, Body and Spirit

Tags
201678, 2

Learning Outcome
Enhance reverence for the inherent worth of one's own life including body and spirit and for each other individual.

Title
Philosophy Behind a Wellness Lifestyle

Tags
201679, 3

Learning Outcome
Identify attitudes and behaviors that contribute to your wellness and those that will assist others in living a healthy lifestyle.

Title
Body, Mind, Spirit Integration

Tags
201677, 0, 1

Learning Outcome
Apply concepts from discussion and reading to live life as a fully integrated being, body, mind and spirit.

EXSC 350 - Research Methods and Evidence Based Practices

Course Information

Teaching Area (new)
EXSC

Course Number
350

Teaching Area
EXSC

Course Title
Research Methods and Evidence Based Practices

Course Description
This class will help students: 1) develop skills to access and evaluate scientific literature, 2) value the role of systematic investigation of diverse resources in personal and professional decision making, and 3) prepare to participate in meaningful mentored research with professors.

Department
Exercise Sciences

When Taught

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- STAT 121 - Introduction to Statistical Data Analysis

Learning Outcomes

Title
Evaluate

Tags
211755, 0, 1

Learning Outcome
Critically evaluate research to frame an issue.

Title
Purpose

Tags
211756, 0, 2

Learning Outcome
Students will be able to answer the question: How does participating in and evaluating research help me make informed decisions and seek after/ discern truth?

Title
Formulate

Tags
211757, 0, 3

Learning Outcome
Formulate insightful research questions.

Title
Design

Tags
211758, 0, 4

Learning Outcome
Select the most appropriate study design to answer a specific hypothesis-driven question.

Title
Communicate

Tags
211759, 0, 5

Learning Outcome
Become proficient scientific communicators through oral, visual, and written means.

Title
Balance

Tags
211760, 0, 6

Learning Outcome
Balance an individual's considerations with group conclusions in decision-making.

Title
Informed Decision-Making

Tags
211761, 0, 7

Learning Outcome
Use systematic research practices to make informed decisions in all aspects of life.

EXSC 360 - Exercise Is Medicine

Course Information

Course Number
360

Teaching Area
EXSC

Course Title
Exercise Is Medicine

Course Description
This course introduces and provides evidence for the notion that physical activity promotes optimal physical, mental, and spiritual health and is integral in the prevention and treatment of many medical conditions. Students will read and discuss current literature supporting exercise as a powerful adjunct to modern medical treatment strategies. In-class experience will involve a team-based learning approach, discussion of case studies, and practice learning and sharing with others the life-changing truth that exercise is indeed the best medicine.

Department
Exercise Sciences

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Note
*Syllabus to be added to supporting documents.

Learning Outcomes

Title
1. Divine nature of the human body

Learning Outcome
1. Students will be able to recognize the divine nature of the human body as a tabernacle for their spirit, realizing that proper care of body also heals mind and spirit

Title
2. Sedentary behavior and disease

Learning Outcome
2. Students will be able to cite research evidence linking sedentary behavior to the pathophysiology of multiple disease states and early mortality

Title
3. Exercise prevents and treats disease

Learning Outcome
3. Students will be able to inspire others to action using compelling evidence that exercise may prevent development and even treat symptoms of numerous mental and physical ailments

Title
4. Modality-specific therapeutic benefits

Learning Outcome
4. Students will be able to describe specific benefits of different exercise modalities when used as therapeutic strategies for improving health and wellness

Title
5. Promote healthy aging

Learning Outcome
5. Students will be able to design exercise interventions for specific individuals who want to optimize physiological processes and enhance resilience against common age-related health conditions

EXSC 362 - Kinesiology and Biomechanics

Course Information

Teaching Area (new)
EXSC

Course Number
362

Teaching Area
EXSC

Course Title
Kinesiology and Biomechanics

Course Description
The influence of physical laws on human movement. Physical laws that will be discussed include linear and angular motion, force and torque, center of mass, fluid mechanics, and tissue mechanics.

Department
Exercise Sciences

When Taught
Fall, Winter, Spring

Credit Hours

Min:

0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- PHSCS 105 - General Physics 1

OR

Prerequisites

Complete ALL of the following Courses:

- PHSCS 121 - Introduction to Newtonian Mechanics

Recommended

MATH 110 or equivalent; PDBio 220

Note

Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at https://is.byu.edu/catalog/EXSC-362-M002.

Learning Outcomes

Title
Course Purpose

Tags
201761, 0, 1

Learning Outcome
Students will be able to comprehend and analyze human movement mechanics, and generate recommendations for improvement or intervention.

Title
Physical Laws and Human Movement

Tags
201762, 0, 2

Learning Outcome
Demonstrate understanding of mechanical concepts (linear and angular motion, and forces) and corresponding equations.

Title
Application

Tags
201763, 0, 3

Learning Outcome
Apply the aforementioned physical concepts to human movement mechanics, especially movement relevant to sport and physical activity.

Title
Observation

Tags
201764, 0, 4

Learning Outcome
Deconstruct movement mechanics via direct observation and video.

Title
Communicate

Tags
201766, 0, 5

Learning Outcome
Communicate (listen, speak, read, and write) effectively regarding human movement mechanics.

Title
Literature

Tags
201765, 0, 6

Learning Outcome
Be able to accurately evaluate related academic peer-reviewed scientific literature.

Title
Recommendations

Tags
201767, 0, 7

Learning Outcome
Generate recommendations (as individuals and small teams) for human mechanics improvement or intervention.

EXSC 385 - Personal Training Strategies

Course Information

Teaching Area (new)
EXSC

Course Number
385

Teaching Area
EXSC

Course Title
Personal Training Strategies

Course Description
The art and science of personal fitness training for healthy adults, utilizing safe and effective techniques to develop and maintain optimal functional fitness (proper posture, balance, joint mobility, and stability), and optimal physical fitness (cardiorespiratory endurance, flexibility, muscular strength, and power).

Department
Exercise Sciences

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:

Recommended
CELL 220

Note
For Exercise and Wellness majors only.

Learning Outcomes

Title
Preparing to Certify as a CPT

Tags
201504, 1

Learning Outcome
Prepare to certify as a Certified Personal Trainer (CPT) through the National Academy of Sports Medicine (NASM)

Title
Essential Concepts and Principles of Functional Fitness

Tags
201680, 0

Learning Outcome
Explain and apply the essential concepts and principles of human movement science, anatomy, exercise physiology; biomechanics, motor learning; functional fitness assessment; stability training, mobility training, core training, balance training, reactive training, resistance training, cardiorespiratory training; exercise programming; nutrition and weight management; safety and injury prevention in an understandable and accurate way

EXSC 387 - Lifestyle and Chronic Disease Prevention

Course Information

Teaching Area (new)
EXSC

Course Number
387

Teaching Area
EXSC

Course Title
Lifestyle and Chronic Disease Prevention

Course Description
Current scientific evidence demonstrating how lifestyle affects disease processes. Healthy lifestyle concepts specifically needed by wellness professionals, health educators, and health promotion practitioners; influence of unhealthy lifestyle as basis for chronic diseases, i.e., cardiovascular disease, cancer, and diabetes.

Department
Exercise Sciences

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Interpretation of Statistical Techniques

Tags
201492, 2

Learning Outcome
Understand the use and interpretation of statistical techniques used in scientific papers on health and lifestyle

Title
Gaining Knowledge to Help Others

Tags
201538, 4

Learning Outcome
Gain knowledge needed to help others adopt and maintain a healthy lifestyle

Title
Scientific Literature

Tags
201545, 3

Learning Outcome
Become familiar with the scientific literature that supports healthy living

Title
Healthy Lifestyles

Tags
201493, 0, 1

Learning Outcome
Develop an awareness of what constitutes a healthy lifestyle

EXSC 399R - Huntsman World Senior Games Internship

Simple Requisites

Internship Coordinator's approval

Type
Prerequisite

Note
An APPROVED Internship Application is required before adding.

Learning Outcomes

Title
Intention - Create Learning Objectives

Learning Outcome
Create individualized learning objectives focused on the development of professional skills and competencies.

Title
Integration - Develop Professional Skills

Learning Outcome
Develop professional skills and competencies and gain work-related experience by completing an exercise science internship.

Title
Reflection - Apply Learning

Learning Outcome
Reflect on professional skills and competencies and how they can be used in future career or life plans.

Title
Inspiring Learning

Learning Outcome
Create habits of self-evaluation and reflection that lead to life-long learning and eternal progression.

EXSC 410 - Stress Management

Course Information

Teaching Area (new)
EXSC

Course Number
410

Teaching Area
EXSC

Course Title
Stress Management

Course Description
Teaches students the basic principles, theories, and relaxation techniques to effectively manage personal stress. Students gain a greater understanding of the mind-body relationship, learn to employ a holistic approach to stress, and adopt effective cognitive, coping, and relaxation techniques. Ultimately, students experience a more effective approach to optimal lifelong health.

Department
Exercise Sciences

When Taught
Fall and Winter

Credit Hours

Min:
3

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Relaxation Techniques

Tags
201520, 5

Learning Outcome
Understand the principles behind the various relaxation techniques and be able to apply these techniques to managing stress.

Title
Strategies

Tags
201537, 4

Learning Outcome
Be able to develop strategies to reduce daily stressors.

Title
Physiological Mechanisms

Tags
201542, 1

Learning Outcome
Master the basic understanding of the physiological mechanisms responsible for the fight-or-flight response and subsequent manifestations of various symptoms of target organ dysfunctions. Be able to apply this understanding to stress management and disease prevention.

Title
Mind, Body, and Spirit

Tags
201549, 2

Learning Outcome
Understand and discuss the holistic nature (mind-body-spirit) of stress management and comprehend the mind-body connection of the stress and disease process.

Title
Recognizing Potential Stressors

Tags
201685, 3

Learning Outcome
Be able to recognize potential stressors and develop strategies to prevent (or reduce the magnitude of) these stressors from eliciting a stress response.

EXSC 440 - Advanced Musculoskeletal Human Anatomy (includes lab)

Complete ALL of the following Courses:

- CELL 220 - Human Anatomy (with lab)

Other Prerequisites
Majors Only

Recommended
ExSc 362 or equivalent

Note

You must register for BOTH a Lecture section (4.0) AND a Lab section (0.0). Register for a lecture section first, then get on the Waitlist for the lab section of your choice. Each lab section is limited to 12 students.

Learning Outcomes

Title
Anatomical Knowledge

Tags
201471, 0, 2

Learning Outcome
Students will accurately communicate anatomical and medical information related to the musculoskeletal system using appropriate terminology in both written and oral forms in preparation for service in their communities and success in their chosen profession.

Title
Movement

Tags
201470, 0, 1

Learning Outcome
Students will integrate knowledge of skeletal, nervous, articular, ligamentous, and muscular structures to explain their functional roles and analyze human movement during exercise in both normal and pathological musculoskeletal conditions.

Title
Spiritually Strengthening

Learning Outcome
Students will reflect on and articulate how the structure and function of the human body deepens reverence for its divine nature and testify of God's design as part of our mortal experience and Heavenly Father's plan for salvation and exaltation for us, His children.

Title
Anatomical Knowledge

Learning Outcome
Students will accurately communicate anatomical and medical information related to the musculoskeletal system using appropriate terminology in both written and oral forms in preparation for service in their communities and success in their chosen profession.

Title
Movement

Learning Outcome
Students will integrate knowledge of skeletal, nervous, articular, ligamentous, and muscular structures to explain their functional roles and analyze human movement during exercise in both normal and pathological musculoskeletal conditions.

Title
Spiritually Strengthening

Learning Outcome
Students will reflect on and articulate how the structure and function of the human body deepens reverence for its divine nature and testify of God's design as part of our mortal experience and Heavenly Father's plan for salvation and exaltation for us, His children.

Teaching Area
EXSC

Course Title
Worksite Health Promotion

Course Description
Managing, designing, marketing, implementing, assessing, and administering health promotion programs in a worksite setting.

Department
Exercise Sciences

When Taught
Fall; Winter.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- EXSC 387 - Lifestyle and Chronic Disease Prevention
  AND EXSC 463 - Exercise Physiology

Learning Outcomes

Title
Health Promotion Concept

Tags
201466, 1

Learning Outcome
Be able to demonstrate an understanding of the health promotion concept, historical background of worksite health promotion programs, and the rationale for companies to provide a health promotion program. This objective will be accomplished through class lecture/discussion and students will be evaluated through quizzes and exams.

Title
Worksite Health Promotion Program

Tags
201468, 7

Learning Outcome
Develop a worksite health promotion program through a semester class project.

Title
Health Displays

Tags
201469, 8

Learning Outcome
Have the opportunity to work in conjunction with a team to develop a health display to be presented to the class.

Title
Components of Worksite Health Promotion Programs

Tags
201703, 2

Learning Outcome
Better understand each of the following components in the design and execution of a worksite health promotion program: determining needs and interests of employers and employees, writing vision/mission/goal statements, best practices, creating a company culture of wellness, launching a program, incentives/rewards, and company wellness policies. This will be accomplished through lectures and a semester project.

Title
Health Assessments

Tags
201704, 3

Learning Outcome
Increase understanding of effective health assessments and how to interpret the assessments. This will be accomplished through lectures and evaluated through quizzes and exams.

Title
Evaluating Programs

Tags
201705, 4

Learning Outcome
Increase understanding of how to effectively evaluate programs. This will be accomplished through lectures and evaluated through quizzes and exams.

Title
Practical Experience

Tags
201706, 6

Learning Outcome
Gain practical experience and learn from experts in the field. This will be accomplished through the following: 1) each student will critique an existing worksite wellness program and present the findings to the class, 2) approximately 5 class periods will be devoted to studying transcripts of various interviews with experts in the field, and 3) 5 class periods will include visiting lecturers who are currently working in the field.

Title
Essential Elements

Tags
201467, 0, 5

Learning Outcome
Be able to demonstrate the essential elements of common worksite health promotion programs such as physical activity, nutrition, weight management, medical self-care, stress management, substance abuse/ tobacco control, and back care programs. This will be accomplished through lectures and class presentations.

EXSC 460 - Orthopaedic Impairments and Therapeutic Exercise

Course Information

Teaching Area (new)
EXSC

Course Number
460

Teaching Area
EXSC

Course Title
Orthopaedic Impairments and Therapeutic Exercise

Course Description
Fundamentals of body mechanics and therapeutic exercise, coupled with kinesiological principles for detection and correction of basic neuromusculoskeletal anomalies.

Department
Exercise Sciences

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
2

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- CELL 220 - Human Anatomy (with lab)
  AND EXSC 440 - Advanced Musculoskeletal Human Anatomy (includes lab)

Learning Outcomes

Title
Osteokinematic and Arthrokinematic Movement

Tags
201438, 2

Learning Outcome
Demonstrate an understanding of traditional, osteokinematic and arthrokinematic movement

Title
Postural Evaluation

Tags
201440, 4

Learning Outcome
Be able to perform a postural evaluation, both grossly and at individual joints

Title
Etiology

Tags
201441, 5

Learning Outcome
Demonstrate an understanding of the etiology, clinical significance and treatment of congenital and acquired orthopedic impairments of the upper and lower extremities and trunk.

Title
Writing Therapeutic Exercise Programs

Tags
201442, 6

Learning Outcome
Where applicable, be able to write a therapeutic exercise program for the orthopedic impairments discussed in class.

Title
Normal and Pathologic Gait

Tags
201443, 7

Learning Outcome
Demonstrate an understanding of normal and pathologic gait

Title
Basic Orthopedic Terminology

Tags
201732, 1

Learning Outcome
Upon completion of this class students will be able to accomplish the following: Demonstrate an understanding of basic orthopedic terminology dealing with posture, movement and pathology.

Title
Therapeutic Exercise

Tags
201439, 0, 3

Learning Outcome
Demonstrate an understanding of therapeutic exercise: particularly active-resistive exercise, manual muscle testing and manual exercise and stretching.

EXSC 462 - Clinical Biomechanics

Course Information

Teaching Area (new)
EXSC

Course Number
462

Teaching Area
EXSC

Course Title
Clinical Biomechanics

Course Description
Advanced biological and mechanical perspectives into the etiology, diagnosis, and therapeutic resolution of common musculoskeletal disorders.

Department
Exercise Sciences

When Taught
Fall Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- CELL 220 - Human Anatomy (with lab)
  AND EXSC 362 - Kinesiology and Biomechanics

OR

Prerequisites

Complete ALL of the following Courses:

- CE 204 - Engineering Mechanics--Dynamics

Learning Outcomes

Title
Anatomy

Tags
211181, 0, 2

Learning Outcome
Describe anatomical structures involved in common musculoskeletal disorders.

Title
Epidemiology

Tags
211182, 0, 3

Learning Outcome
Understand the epidemiology related to aforementioned disorders.

Title
Tissue Mechanics

Tags
211180, 0, 1

Learning Outcome
Understand basic mechanical principles guiding tissue mechanics.

Title
Healthy Mechanics & Pathomechanics

Tags
211183, 0, 4

Learning Outcome
Identify biomechanical (cellular level/tissue level mechanics, as well as system-level mechanics) principles important to a comprehensive understanding of key components of common musculoskeletal disorders.

Title
Scientific Literature & Presentation Skills

Tags
211184, 0, 5

Learning Outcome
Identify biomechanical (cellular level/tissue level mechanics, as well as system-level mechanics) principles important to a comprehensive understanding of key components of common musculoskeletal disorders.

EXSC 463 - Exercise Physiology

Course Information

Teaching Area (new)
EXSC

Course Number
463

Teaching Area
EXSC

Course Title
Exercise Physiology

Course Description
The function of the physiological systems and their responses to acute and chronic exercise.

Department
Exercise Sciences

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- CELL 305 - Human Physiology

OR

Prerequisites

Complete ALL of the following Courses:

- CELL 362 - Advanced Physiology

Recommended
Concurrent enrollment in ExSc 464

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at https://is.byu.edu/catalog/EXSC-463-M002.

Learning Outcomes

Title
Nervous System

Tags
201567, 2

Learning Outcome
Describe the function of sympathetic, parasympathetic, and somatic motor neurons, including differences in structure, neurotransmitters, receptors and efferent organs.

Title
Depolarization of Skeletal Muscle

Tags
201568, 3

Learning Outcome
Describe the depolarization of skeletal muscle beginning at the spinal cord and ending with the contraction of the muscle fiber.

Title
Cardiovascular System

Tags
201569, 5

Learning Outcome
Describe the normal anatomy and physiology of the heart, blood, and blood vessels; describe the normal function of the cardiovascular system at rest and during exercise.

Title
Anaerobic and Aerobic Metabolic Pathways

Tags
201571, 7

Learning Outcome
Describe the substrates used, amount and rate of ATP resynthesized, metabolic end products, and control of anaerobic and aerobic metabolic pathways.

Title
System Interaction

Tags
201572, 8

Learning Outcome
Describe the interaction of the nervous, muscle, cardiovascular, pulmonary, and metabolic systems at rest and during exercise.

Title
Adaptation to Physical Conditioning

Tags
201573, 9

Learning Outcome
Describe the responses to acute bouts of exercise and the mechanisms of the observed response, and the physiological adaptations which occur as a result of physical conditioning.

Title
Principles of Physical Conditioning

Tags
201574, 10

Learning Outcome
Describe the physiological rationale for applying the eight principles of physical conditioning to improve health, fitness, and performance.

Title
Skeletal Muscle Fiber Types

Tags
201723, 4

Learning Outcome
Describe the anatomical, physiological, and functional differences between the three types of human skeletal muscle fibers.

Title
Appreciation for How the Human Body Functions

Tags
201566, 0, 1

Learning Outcome
Describe how the human body functions and maintains homeostasis during the increased metabolic demands of exercise.

Title
Transportation and Diffusion of O2 and CO2

Tags
201570, 0, 6

Learning Outcome
Describe the transportation and diffusion of O2 and CO2 through the pulmonary and systemic circuits at rest and during exercise.

EXSC 464 - Exercise Physiology Lab

Course Information

Teaching Area (new)
EXSC

Course Number
464

Teaching Area
EXSC

Course Title
Exercise Physiology Lab

Course Description
Introduction of laboratory and field methods; applying principles of exercise physiology to assessing physical fitness and physiological responses to exercise.

Department
Exercise Sciences

When Taught
Fall, Winter, Spring

Credit Hours

Min:
0.5

Fixed/Max:
0.5

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
1

Other Prerequisites
ExSc 463 or concurrent enrollment

Note
Each section meeting on the same day will meet every third time (e.g., 1st week, 2nd week, 3rd week, etc.)

Learning Outcomes

Title
Experiencing and Applying Knowledge of Exercise Physiology

Tags
201707, 0, 1

Learning Outcome
The purpose of this laboratory course is to experience basic exercise physiology principles regarding the cardiovascular, respiratory, metabolic and skeletal muscle systems. The labs are designed to give students practice in assessing and thinking critically about the physiology of exercise.

EXSC 466 - Introduction to Electrocardiograms

Course Information

Teaching Area (new)
EXSC

Course Number
466

Teaching Area
EXSC

Course Title
Introduction to Electrocardiograms

Course Description
Cardiovascular physiology and conduction pathways of the heart. Resting and exercise 12-lead ECG preparation, recording and interpretation of normal ECG patterns, myocardial infarctions, and common atrial and ventricular arrhythmias. This course takes an approach to understanding ECGs applicable to students in exercise science-related fields of study and occupations, including the allied health or medical professions.

Department
Exercise Sciences

When Taught
Fall

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:
- CELL 305 - Human Physiology

Learning Outcomes

Title
Nervous System and Depolarization of the Heart

Tags
201781, 0, 1

Learning Outcome
Explain the neural innervation of the heart and the control of heart rate.
Describe the normal depolarization of the heart including conduction pathways.
Describe and draw the vectors of the normally depolarized heart.

Title
Interpretation of ECGs

Tags
201784, 0, 4

Learning Outcome
Explain the "view" of the heart from the perspective of each ECG lead.
Describe the normal P wave, PR segment, QRS complex, J point and T wave in each of the 12 leads of an ECG.
Describe the appearance of wave forms in contiguous and reciprocal leads.
Recognize a normal rhythm and the characteristics of variations of the normal sinus rhythm, early repolarization, conduction blocks, atrial and ventricular premature or junctional beats, fibrillations, tachycardias, flutters, ventricular hypertrophy, and acute coronary syndromes.

Title
Laboratory Skills and Practices

Tags
201787, 0, 8

Learning Outcome
Prepare a subject for and record a resting 12-lead ECG.
Evaluate a resting ECG using the 9 Steps to Interpret an ECG.

EXSC 468 - Exercise Prescription

Course Information

Teaching Area (new)
EXSC

Course Number
468

Teaching Area
EXSC

Course Title
Exercise Prescription

Course Description
Applying knowledge of human physiology in developing appropriate exercise programs for individuals with a variety of needs and fitness levels; using the effects of exercise to improve health and quality of life.

Department
Exercise Sciences

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2.5

Lab Hours

Fixed:
0.5

Learning Outcomes

Title
Preparticipation Screening

Tags
201552, 0, 2, 2022-08-31 13:39:38

Learning Outcome
Students will perform preparticipation screening to minimize the risk of participation in an exercise program.

Title
Assessments

Tags
201553, 0, 3, 2022-08-31 13:39:38

Learning Outcome
Select appropriate cardiorespiratory fitness, muscular strength/endurance, and flexibility assessments to tailor exercise prescription and provide personal feedback during goal attainment.

Title
Programs for Healthy Adults

Tags
201557, 0, 4, 2022-08-31 13:39:38

Learning Outcome
Create a personalized activity or exercise program that will enable an apparently healthy individual to accomplish a specific physical, health, or performance goal.

Title
Adapted Programs

Tags
201554, 0, 5, 2022-08-31 13:39:38

Learning Outcome
Tailor exercise programs to individuals with controlled chronic disease or musculoskeletal limitations.

Title
Programs for All Ages

Tags
201555, 0, 6, 2022-08-31 13:39:38

Learning Outcome
Prescribe life-stage-appropriate exercise programs for individuals across the lifespan.

Title
Motivation

Tags
201556, 0, 7, 2022-08-31 13:39:38

Learning Outcome
Motivate successful behavior change in others and promote continued progress toward their personal goals.

EXSC 470 - Functional Neuroanatomy

Course Information

Teaching Area (new)
EXSC

Course Number
470

Teaching Area
EXSC

Course Title
Functional Neuroanatomy

Course Description
Function, assessment, and rehabilitation of sensory and motor systems.

Department
Exercise Sciences

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- EXSC 440 - Advanced Musculoskeletal Human Anatomy (includes lab)

OR

Prerequisites

Complete ALL of the following Courses:

- NEURO 205 - Neurobiology

OR

Prerequisites

Complete ALL of the following Courses:

- CELL 220 - Human Anatomy (with lab)

Learning Outcomes

Title
Neuroanatomy

Tags
201725, 0, 1

Learning Outcome
Students will appreciate the divine complexity of the nervous system in light of both science and faith.
Students will be able to characterize key neuroanatomical landmarks by functional system.
Students will be able to discuss the anatomical structure of the human brain.
Students will be able to discuss the function of the somatosensory and motor systems.
Students will be able to interpret signs and symptoms of peripheral nerve issues for the purpose of detecting the site of dysfunction.
Students will be able to evaluate appropriate sensory tests to discriminate peripheral vs central nerve lesions.

EXSC 480 - Obesity and Weight Management

Course Information

Teaching Area (new)
EXSC

Course Number
480

Teaching Area
EXSC

Course Title
Obesity and Weight Management

Course Description
Review of the scientific literature surrounding obesity and weight management, primarily the causes and consequences of this growing epidemic.

Department
Exercise Sciences

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- EXSC 463 - Exercise Physiology

Learning Outcomes

Title
Assessment Methods

Tags
201530, 0, 2

Learning Outcome
Compare and contrast the various methods of assessing overweight/obesity, including the key contributors to energy balance: body composition, diet, and physical activity.

Title
Treatment Strategies

Tags
201519, 0, 3

Learning Outcome
Discuss the relative efficacy of leading strategies for treating overweight/obesity including: diet, physical activity, behavioral, pharmacological, and surgical interventions.

Title
Eating Disorders

Tags
212191, 0, 4

Learning Outcome
Recognize characteristics of common eating disorders and describe current treatment strategies for these disorders.

Title
Weight Management Experience

Tags
201547, 0, 5

Learning Outcome
Create and implement an appropriate personal program, supported by evidence from peer-reviewed literature, that can effectively change your weight or otherwise improve your health.

Title
Impact of Obesity

Tags
201514, 0, 1

Learning Outcome
Describe the historical framework, prevalence, etiology, costs, and social/economic/health consequences of overweight/obesity in adults and children.

EXSC 485 - Exercise and Wellness Certification Preparation

Course Information

Teaching Area (new)
EXSC

Course Number
485

Teaching Area
EXSC

Course Title
Exercise and Wellness Certification Preparation

Course Description
Review of exercise and wellness certification competencies and curriculum with preparation for professional certification.

Learning Outcomes

Title
Essential Concepts and Principles of Pathophysiology

Tags
201510, 0

Learning Outcome
Explain and apply the essential concepts and principles of pathophysiology; exercise physiology; health appraisal and fitness testing; exercise programming; nutrition and weight management; anatomy and biomechanics; human behavior and psychology; human development and aging; and safety and injury prevention in an understandable and accurate way

Title
Preparing to Certify as an HFS

Tags
201540, 0

Learning Outcome
Prepare to certify as a Health and Fitness Specialist (HFS) through the American College of Sports Medicine (ACSM)

EXSC 488 - Motor Control

Course Information

Course Number
488

Teaching Area
EXSC

Course Title
Motor Control

Course Description
This upper level exercise sciences course will synthesize neuromuscular and biomechanical principles from other courses in the department (i.e., EXSC 362, 440 and 463) and introduce new physiological principles that direct healthy, purposeful control of voluntary movement. Course concepts will include (1) neuromuscular anatomy and physiology, (2) biomechanics of single- and multi-joint systems, (3) current questions and pressing problems related to healthy and pathological control of voluntary movement, (4) current approaches to improving athletic performance, and (5) overcoming orthopedic and neuromuscular impairments.

Department
Exercise Sciences

When Taught
Fall and Winter

Credit Hours

Fixed/Max:
3

Lecture Hours

Fixed:
3

Simple Requisites

EXSC 362 Kinesiology and Biomechanics

Type
Prerequisite

EXSC 440 Advanced Musculoskeletal Human Anatomy (includes lab)

Type
Prerequisite

EXSC 463 Exercise Physiology

Type
Prerequisite

Recommended
Undergraduate physics, anatomy and physiology (PHSCS 105 OR 121, CELL 220, CELL 305 or 362)

Learning Outcomes

Title
Therapeutic application of motor control concepts

Learning Outcome
Students will be able to indentify therapeutic interventions to treat common neuromuscular and musculoskeletal pathologies that impair voluntary movement through the application of motor control concepts.

Title
Evaluate lay and scientific literature to locate and identify sound science and recommendations

Learning Outcome
Students will learn to critically evaluate related peer-reviewed scientific literature as well as confidently navigate the lay literature and media to become effective advocates for reasonable interpretations of good science.

Title
Communicate within the discipline

Learning Outcome
Students will be able to effectively communicate (speak, listen, write, and read) about current issues in applied motor control to a typical practitioner and patient population.

Title
Understand principles of anatomy and physiology

Learning Outcome
Students will demonstrate understanding of the anatomical and physiological facets of the neural, muscular and skeletal systems that are important to control of able-bodied voluntary movement.

Title
Increased appreciation for the blessing of the physical body

Learning Outcome
Students will consider how the work of exercise and rehabilitation helps us to follow Heavenly Father's plan for us to use and respect our bodies.

EXSC 497R - Undergraduate Research and Study

Course Information

Teaching Area (new)
EXSC

Course Number
497R

Teaching Area
EXSC

Course Title
Undergraduate Research and Study

Course Description
Individual research and study in any area of exercise science.

Department
Exercise Sciences

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
4

Lecture Hours

Fixed:
0

Note
While you can take 497R as many times as you want, only a total of 3 credits can be applied to Requirement 2.

Learning Outcomes

Title
Mentored Student Learning

Tags
201473, 1

Learning Outcome
To provide the undergraduate student with a mentored learning experience specifically in exercise science related research

EXSC 498 - Capstone Experience in Athletic Training

Course Information

Teaching Area (new)
EXSC

Course Number
498

Teaching Area
EXSC

Course Title
Capstone Experience in Athletic Training

Course Description
Synthesizing and integrating student classroom and clinical experiences in preparation for BOC examination resulting in certification of allied health professionals.

Department
Exercise Sciences

When Taught
Fall; Winter.

Credit Hours

Min:
2

Fixed/Max:
2

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
0

Other Prerequisites
Senior standing in athletic training education program

Note
Course should be taken last semester prior to graduation.

Learning Outcomes

Title
BOC Exam Registration Process

Tags
201450, 1

Learning Outcome
Explain, describe and complete the BOC exam registration process.

Title
Exam Preparation Schedule

Tags
201451, 2

Learning Outcome
Design and follow athletic training content exam preparation schedule.

Title
Significance of BOC Certification

Tags
201452, 4

Learning Outcome
Explain the significance of BOC certification and state regulation for the athletic training profession.

Title
Emergency Plans

Tags
201453, 6

Learning Outcome
Develop and implement emergency plans in the practice of athletic training.

Title
Legal Issues

Tags
201454, 7

Learning Outcome
Explain legal issues facing athletic trainers.

Title
Technology and Information Management

Tags
201455, 8

Learning Outcome
Explain the role of technology and information management in athletic training settings.

Title
Requirements to Maintain BOC Certification

Tags
201456, 9

Learning Outcome
Understand the requirements to maintain BOC certification.

Title
NATA Education Council Competencies

Tags
201457, 11

Learning Outcome
Have completed all NATA Education Council competencies.

Title
Possibilities of Practice in AT

Tags
201710, 3

Learning Outcome
Understand the possibilities of practice in Athletic Training.

Title
Deficiencies in Knowledge and Skills

Tags
201711, 5

Learning Outcome
Define deficiencies in your athletic training education knowledge and skills.

Title
Motto

Tags
201712, 10

Learning Outcome
BOC Exam Preparation = Professional Practice Preparation

EXSC 501 - Pathophysiology for the Athletic Trainer

Course Information

Teaching Area (new)
EXSC

Course Number
501

Teaching Area
EXSC

Course Title
Pathophysiology for the Athletic Trainer

Course Description
Foundational understanding of the physiology underlying common systemic diseases. Recognize, evaluate and differentiate common systemic diseases.

Department
Exercise Sciences

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Recommended
EXSC 463; EXSC 463; EXSC 464

Learning Outcomes

Title
Basic Knowledge of Human Anatomy and Physiology

Tags
201736, 0, 1, 2022-08-12 10:59:22

Learning Outcome
Synthesize basic knowledge of human anatomy and physiology to develop knowledge of the causes, pathophysiology, and clinical features of the various conditions affecting the body.

Title
Clinico-Pathological Signs and Symptoms

Tags
201463, 0, 9, 2022-08-12 10:59:22

Learning Outcome
Evaluate clinico-pathological signs and symptoms for specific medical conditions that assist the sport medicine/allied health care clinician in correlating findings in determining the course of action for illness and disease.

EXSC 514 - Advanced Athletic Training Lab

Course Information

Teaching Area (new)
EXSC

Course Number
514

0.5

Lab Hours

Fixed:
0.5

Recommended
EXSC 320 and 321

Learning Outcomes

Title
Immediate and Emergency Care

Tags
208432, 0, 3

Learning Outcome
Implement appropriate emergency treatment strategies including, but not limited to, establishing and maintaining an airway in a patient wearing shoulder pads, headgear or other protective equipment and/or with a suspected spinal injury, in multiple sports settings.

Title
Injury/Illness Prevention and Wellness Protection

Tags
208430, 0, 1

Learning Outcome
Select, fabricate, and apply appropriate protective equipment, including taping, wrapping procedures, splints, braces, and other special protective devices.
Apply protective equipment and transport as part of the comprehensive, proactive emergency action plan (EAP).

Title
Clinical Evaluation and Diagnosis

Tags
208431, 0, 2

Learning Outcome
Apply special tests and diagnostic instruments (ie, otoscope, stethoscope, ophthalmoscope, peak flowmeter, chemical "dipsticks" [or similar devices]) to accurately diagnose patients.

Title
Therapeutic Interventions

Tags
208433, 0, 4

Learning Outcome
Apply special tests and diagnostic instruments (ie, otoscope, stethoscope, ophthalmoscope, peak flowmeter, chemical "dipsticks" [or similar devices]) to accurately diagnose patients.

EXSC 515 - Therapeutic Interventions 1, Modalities

Course Information

Teaching Area (new)
EXSC

Course Number
515

Teaching Area
EXSC

Course Title
Therapeutic Interventions 1, Modalities

Course Description
Principles of therapeutic interventions: healing, hydrotherapy, massage, traction, radiant energy, heat, cold, electrotherapy and rehabilitation. Application of healing and therapeutic modality theories to injured athletes and physically active individuals.

Department
Exercise Sciences

When Taught
Fall

Credit Hours

Learning Outcomes

Title
Treatment and Rehabilitation Using Superficial Heat

Tags
208436, 0, 2, 2019-07-01 11:39:45

Learning Outcome
Select according to appropriate parameters and properly prepare and apply: moist heat pack, paraffin treatment, warm whirlpool treatment, fluidotherapy.

Title
Use of Electrotherapy in Decreasing Pain and Muscle Spasm

Tags
208437, 0, 3, 2019-07-01 11:39:45

Learning Outcome
Select according to appropriate parameters and properly prepare and apply electrical stimulation units: monophasic stimulator (eg, high volt stimulation), biphasic stimulator (eg, TENS, NMES), direct current (eg, iontopheresis), alternating current (eg, interferential, NMES).

Title
Use of Deep Heat to Decrease Pain, Swelling, Muscle Spasm, and Atrophy

Tags
208438, 0, 4, 2019-07-01 11:39:45

Learning Outcome
Select according to appropriate parameters and properly prepare and apply thermal and nonthermal direct/indirect ultrasound treatment, sustained acoustic medicine (SAM) and pulsed shortwave diathermy.

Title
Use of Traction for Decreasing Pain and Muscle Spasm

Tags
208439, 0, 5, 2019-07-01 11:39:45

Learning Outcome
Select according to appropriate parameters and properly prepare and apply: mechanical traction, manual traction, positional traction.

Title
Therapeutic Interventions

Tags
208435, 0, 1, 2019-07-01 11:39:45

Learning Outcome
Select according to appropriate parameters, and properly prepare and apply the treatment for rehabilitation of physical injury using massage, contrast bath, cryokinetics, cold whirlpool treatment, controlled cold therapy unit, ice bag, vapo-coolant spray, ice immersion.

EXSC 516 - Orthopedic Evaluation 1: Lower Extremities

Course Information

Teaching Area (new)
EXSC

Course Number
516

Teaching Area
EXSC

Course Title
Orthopedic Evaluation 1: Lower Extremities

Course Description
Advanced principles of lower-extremity injury evaluation; evaluation techniques for the lower extremities.

Learning Outcomes

Title
Immediate and Emergency Care

Tags
208447, 0, 8, 2019-07-01 11:42:38

Learning Outcome
Select proper on-the-field/off-the-field injury management techniques.

Title
Evaluation and Assessment

Tags
208440, 0, 1, 2019-07-01 11:42:38

Learning Outcome
Perform and interpret the results of fitness tests including muscular endurance, strength, agility, speed and balance.

Title
Measurement and Assessment

Tags
208442, 0, 3, 2019-07-01 11:42:38

Learning Outcome
Accurately measure the active, passive, and resistive motion using commonly accepted techniques, including the use of a goniometer, tape measure, and inclinometer.

Title
Neurological Diagnosis

Tags
210521, 0, 5

Learning Outcome
Assess neurological status, including cranial nerve function, myotomes, dermatomes and reflexes, and circulatory status.

Title
Mechanism of Injury

Tags
210523, 0, 7

Learning Outcome
Explain and/or demonstrate mechanisms of common injuries in various sports.

Title
Diagnosis

Tags
208441, 0, 2, 2019-07-01 11:42:38

Learning Outcome
Diagnose injuries through interpretation of clinical evaluation by observing, palpating, and testing tissues to determine pathologies.
Grade manual muscle testing and apply appropriate stress tests for ligamentous, capsular stability or muscle, and fractures.

Title
Documentation

Tags
210522, 0, 6

Learning Outcome
Document the results of all of the assessments including the diagnosis.

EXSC 517 - Orthopedic Evaluation 2: Upper Extremities and Trunk

Course Information

Teaching Area (new)
EXSC

Course Number
517

Teaching Area
EXSC

Course Title
Orthopedic Evaluation 2: Upper Extremities and Trunk

Course Description
Advanced principles of injury evaluation; evaluation techniques for the upper extremities and trunk.

Department
Exercise Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Learning Outcomes

Title
Clinical Evaluation Skills

Tags
208449, 0, 2, 2019-07-01 11:43:28

Learning Outcome
Measure the active, passive, and resistive joint range of motion for the entire body, including manual muscle testing.

Title
Neurologic Evaluation

Tags
208450, 0, 3, 2019-07-01 11:43:28

Learning Outcome
Perform circulatory and neurological testing, including cranial nerve testing; identify dermatomes, myotomes, and reflexes.

Title
Orthopedic Evaluation

Tags
208451, 0, 4, 2019-07-01 11:43:28

Learning Outcome
Perform orthopedic special tests to determine the stability of joints and ligaments.

Title
Evaluation of Movement and Posture

Tags
210536, 0, 6

Learning Outcome
Identify and demonstrate mechanisms of common injuries in athletic participation.

Title
Clinical Evaluation and Diagnosis

Tags
208452, 0, 5, 2019-07-01 11:43:28

Learning Outcome
Palpate bones and soft tissues, including the abdomen, internal organs, and structures to determine normal or pathological characteristics.

Title
Environmental Issues

Tags
210537, 0, 7

Learning Outcome
Identify and treat causes of environmental illness and trauma including both cold and heat related illnesses.

Title
Diagnostic Evaluation Tools

Tags
208448, 0, 1, 2019-07-01 11:43:28

Learning Outcome
Diagnose conditions by utilizing orthopedic special tests. Understand the differences in MRI, Bone Scan, CT Scan, Imaging Ultrasound, when each is used, and the indications and contraindications of each.

EXSC 518 - Therapeutic Interventions 2, Rehabilitation

Course Information

Teaching Area (new)
EXSC

Course Number
518

Teaching Area
EXSC

Course Title
Therapeutic Interventions 2, Rehabilitation

Course Description
Knowledge in and application of rehabilitation theories with regards to therapeutic exercise for injured and uninjured physically active individuals.

Department
Exercise Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:

Recommended
EXSC 362 and EXSC 320 or equivalents

Learning Outcomes

Title
Therapeutic Interventions

Tags
208453, 0, 1, 2019-07-01 11:44:00

Learning Outcome
Exams and case studies will be used to evaluate student's understanding of tissue healing and how therapeutic exercise affects tissue healing.

Title
Functional Progression

Tags
208454, 0, 2, 2019-07-01 11:44:00

Learning Outcome
Exams and case studies and labs will be used to evaluate student's understanding and application of the concept of functional progression and how it guides individual rehabilitation protocols. Rehabilitation is not a recipe where one treatment or progression fits all people.

Title
Therapeutic Exercise

Tags
208455, 0, 3, 2019-07-01 11:44:00

Learning Outcome
Exams, case studies, laboratories and a final project will be used to evaluate student's ability to synthesize and apply therapeutic exercise, range of motion and manual therapy techniques to enhance the goals within a rehabilitation plan for athletic injury.

Title
Return to Play

Tags
208456, 0, 4, 2019-07-01 11:44:00

Learning Outcome
Exams, case studies and a final project will be used to evaluate student's ability to synthesize the different goals of rehabilitation to be combined for any injury and condition and apply these concepts to return the patient to full activity.

Title
Rehabilitation Application to the Big Picture

Tags
208457, 0, 5, 2019-07-01 11:44:00

Learning Outcome
Exams and the final project will be used to evaluate student's ability to place rehabilitation techniques on the continuum of care in association with proper diagnosis and other therapeutic interventions and modalities.

Learning Outcomes

Title
Medical Conditions

Tags
208458, 0, 1, 2019-07-01 11:44:18

Learning Outcome
Diagnose a variety of medical conditions, given the supervising physician's direction.

Title
Therapeutic Interventions

Tags
208460, 0, 3, 2019-07-01 11:44:18

Learning Outcome
Write plans based on the surgeon's approach to repair and rehabilitation for orthopedic injuries.

Title
Treatment of Athlete Illnesses

Tags
208459, 0, 2, 2019-07-01 11:44:18

Learning Outcome
Collaborate with the medical doctor's approach to treat common illnesses and disease.

Title
Athletic Trainer's Professionalism

Tags
208461, 0, 4, 2019-07-01 11:44:18

Learning Outcome
Participate in scenarios that simulate the athletic trainer's role as it pertains to a team approach with the physician and other health care professionals.

EXSC 563 - Environmental Physiology

Course Information

Teaching Area (new)
EXSC

Course Number
563

Teaching Area
EXSC

Course Title
Environmental Physiology

Course Description
Study environmental stressors and physiological responses (neuromuscular, cardiovascular, cellular energy metabolism) during exposure to heat, cold, high altitude, hyperbaric diving, and zero-G. Examine how various physiological systems function during acute exposure to these environmental extremes.\n\n

Department
Exercise Sciences

Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- CELL 305 - Human Physiology

OR

Prerequisites

Complete ALL of the following Courses:

- CELL 362 - Advanced Physiology

Recommended

EXSC 463 or EXSC 666

Learning Outcomes

Title
Environmental stressors

Tags
212801, 0, 1, 2023-01-24 12:22:16

Learning Outcome
Students will be able to classify and prioritize environmental stressors.

Title
Physiological responses to extreme environments

Tags
212802, 0, 2, 2023-01-24 12:22:16

Learning Outcome
Students will be able to determine and evaluate the importance of specific physiological responses during physical work (exercise) in an extreme environment.

Title
Mitigate physiological stresses

Tags
212803, 0, 3, 2023-01-24 12:22:16

Learning Outcome
Students will be able to critically evaluate environmental stressors and formulate appropriate countermeasures that will mitigate the physiological stresses during exposure to environmental extremes.

Title
Limiting factors for exercise

Tags
212804, 0, 4, 2023-01-24 12:22:16

Learning Outcome
Students will be able to explain and justify the specific limiting factors associated with exercise in a given environmental exposure.

FHSS 252R - FHSS Career and Leadership Academy

Course Information

Course Number
252R

Teaching Area
FHSS

Course Title
FHSS Career and Leadership Academy

Course Description
Explore your personality traits, skills, and career interests and prepare to make sound career choices, build connections with BYU alumni, improve your career efficacy, and prepare for your career pursuits after graduation.

Department
1018

When Taught
Fall and Winter

Credit Hours

Min:
1

Learning Outcomes

Title
Career Interests

Learning Outcome
Students will be able to identify and describe their career interests and personality types

Title
Self-Efficacy

Learning Outcome
Students will be able to demonstrate their confidence and self-efficacy

Title
Networking

Learning Outcome
Students will be able to describe how to build a network with help from NAC members

Title
Interview Preparation

Learning Outcome
Students will be able to create a strong resume and demonstrate communication skills in a job interview

Title
Action Plan

Learning Outcome
Students will create career goals that match their interests, personality type, and skills and describe short-term and long-term action plans to achieve them.

FHSS 300 - NULL

Course Information

Teaching Area (new)
FHSS

Course Number
300

Teaching Area
FHSS

Course Title
NULL

Course Description
This course analyzes the most effective means for being a change agent in the community. The course also teaches students critical skills of analysis, evaluation, leadership, innovation, and teamwork by requiring the design and completion of a group project involving some form of civic improvement and incorporating interaction with an external community partner.

When Taught

Learning Outcomes

Title
Inspiring Experiential Learning

Learning Outcome
Students will be inspired by the sacrifices made by national civic, cultural, and civil rights leaders.

Title
Students will explain the causes and consequences of the actions of civil rights leaders.

Title
Applying gospel principles

Learning Outcome
Students will apply gospel principles to treat others with greater respect, empathy, and charity.

Title
Cultural renewal

Learning Outcome
Students will immerse themselves in their culture and the culture of others through the perspective of the gospel

FHSS 399R - Internship in Civic Engagement

Course Information

Teaching Area (new)
FHSS

Course Number
399R

Teaching Area
FHSS

Course Title
Internship in Civic Engagement

Course Description
This course helps students engage in a series of experiences, while on their internship, that allow them to develop and demonstrate understanding of key competencies in professional contexts. Students will learn how to harness intention, reflection, and integration of new learning to translate the value of their internship into a compelling, evidence-based narrative, tailored to an audience's needs and expectations.

Department
1018

When Taught
All Semesters/Terms

Credit Hours

Min:
1

Fixed/Max:
9

Other Prerequisites
Internship must be approved in advance by the Director of the Office of Civic Engagement Leadership or Director of the Washington Seminar Internship Program.

Note
An APPROVED Internship Application is required before adding.

Learning Outcomes

Learning Outcome
1. Students will draw from their unique internship contexts to develop key professional competencies.

Learning Outcome
2. Students will translate the value of their professional development experience through evidence-based narrative.

FHSS 400 - Civic Engagement Leadership

Course Information

Other Prerequisites
or instructor's consent.

Learning Outcomes

Title
Service

Tags
185983, 1

Learning Outcome
Educate students on the value of public engagement and service.

Title
Leadership

Tags
185984, 2

Learning Outcome
Train students to become leaders in public service and positive "change agents" in their nations and communities.

Title
Knowledge

Tags
185985, 3

Learning Outcome
Help students understand how academic research on civic engagement helps explain why people become engaged, how civic engagement organizations have adapted to changing conditions, the role of various social factors in civic engagement (income, education, religion, race, gender, etc.), and the effects of civic engagement on individuals and organizations.

Title
Experience

Tags
185986, 4

Learning Outcome
Provide models for public engagement and service among faculty, fellow students, and campus visitors with experience and expertise in various facets of civic engagement.

Learning Outcomes

Title
Communication Skills

Tags
195528, 1

Learning Outcome
In both written and spoken target language, communicate with reasonable accuracy about real-world activities with well-educated members of the target-culture accustomed to dealing with non-native speakers.

Title
Comprehension

Tags
195534, 2

Learning Outcome
Understand every-day written and verbal instructions. Comprehend concrete details and global meaning of intermediate-level written and spoken passages related to familiar topics that native speakers encounter routinely in their daily life.

Title
Cultural Knowledge

Tags
195537, 3

Learning Outcome
Discuss in the target language cultural practices related to every-day life in the target culture. Acquire basic background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.).

Title
General Education Requirements

Tags
195539, 4

Learning Outcomes

Title
Analysis

Tags
176032, 6

Learning Outcome
Learn investment tools, theory, and techniques that maximize potential return while minimizing downside risk.

Title
Financial Perspective

Tags
176063, 1

Learning Outcome
Understand a point-of-choice orientation to retirement planning and financial storehouse accumulation and maximum sharing opportunities.

Title
Application

Tags
176088, 7

Learning Outcome
Be able to protect financial assets from creditors and taxes.

Title
Technologies

Tags
176113, 5

Learning Outcome
Use state-of-the art financial technology and information sources.

Title
Wealth Accumulation

Tags
176149, 4

Learning Outcome
Focus on wealth accumulation potential of personal resource management.

Title
Planning Strategies

Tags
176184, 2

Learning Outcome
Utilize personal planning strategies that are behaviorally, spiritually, and financially efficient.

Title
Estate Plan

Tags
176211, 3

Learning Outcome
Develop an estate plan that produces legacy that thrives as assets are passed to future generations.

Prerequisites

Complete ALL of the following Courses:

- FIN 201 - Principles of Finance

OR

Prerequisites

Complete ALL of the following Courses:

- ACC 401 - Business and Accounting Information Systems

Other Prerequisites

Major status.

Note

Primarily for Accounting students. If there is capacity, Strategy students may request an add code from the MSB advisement center.

Learning Outcomes

Title
Excel Proficiency

Tags
176040, 7

Learning Outcome
Effectively use Excel in all previous learning outcomes.

Title
Cost of Capital

Tags
176081, 5

Learning Outcome
Compute the cost of capital for a firm.

Title
Financial Forecasting

Tags
176092, 1

Learning Outcome
Construct a financial forecast for a firm.

Title
Bonds and Stocks

Tags
176111, 3

Learning Outcome
Value bonds and stocks.

Title
Capital Budgeting

Tags
176117, 4

Learning Outcome
Make corporate investment decisions using capital budgeting.

Title
Performance Evaluation of a Firm

Tags
176119, 0

Learning Outcome
Use fundamental analysis to conduct a firm performance evaluation.

Title
Solving Financial Problems

Tags
176123, 2

Learning Outcome
Employ time value of money to solve complex finance problems.

Title
Firm Valuation

Tags
176189, 6

Learning Outcome
Know how to value a firm.

FIN 409 - Equity Financial Modeling and Valuation

Interpretation

Learning Outcome
Analyze and interpret financial news and date at a deeper level.

Title
Implementation

Learning Outcome
Evaluate and implement liquidity providing trading strategies.

Title
Interaction

Learning Outcome
Articulate how information and liquidity interact.

FIN 451 - Decentralized Finance

Course Information

Course Number
451

Teaching Area
FIN

Course Title
Decentralized Finance

Course Description
Financial infrastructure built on blockchain networks. Digital signatures, consensus mechanisms, smart contracts, cryptocurrencies and architecture, decentralized exchange, lending protocols, decentralized derivatives, and asset tokenization.

Department
Finance

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisite

Complete ANY of the following Courses:

- FIN 201 - Principles of Finance
  OR MBA 520 - Business Finance

Learning Outcomes

Title
Blockchain

Learning Outcome
Explain the technology underlying blockchain networks.

Title
Payments

Learning Outcome
Demonstrate effective utilization of digital wallets to make payments and interact with decentralized exchanges and lending protocols.

Title
Profitability

Learning Outcome
Evaluate the profitability of staking, mining, and liquidity provision.

Title
Design

Learning Outcome
Evaluate the different design choices in creating different types of tokens and DeFi protocols.

Title
Technologies

Learning Outcome
Identify current technologies for mitigating the negative effects of arbitrage on blockchain networks.

FIN 453 - Money, Banking, and Business

Course Information

Teaching Area (new)
FIN

Course Number
453

Teaching Area
FIN

Course Title
Money, Banking, and Business

Course Description
Economic analysis of effects of money, banking, and financial institutions on business decisions and aggregate economic activity.

Department
Finance

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- ECON 110 - Economic Principles and Problems

Other Prerequisites
Major status.

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Financial Intermediaries

Tags
176089, 2

Learning Outcome
Understand the function and management of financial intermediaries.

Title
Trade and Exchange Rates

Tags
176094, 4

Learning Outcome
Understand trade and exchange rates.

Title
Stocks and US Treasuries

Tags
176156, 1

Learning Outcome
Understand differential spot, forward & derivatives, futures and options markets, with specific application to stocks and US Treasuries.

Title
Understanding Banking Concepts

Tags
176161, 0

Learning Outcome
Understand interest rates, rate determination and discounted present value.

Title
Aggregate Economics

Tags
176162, 3

Learning Outcome
Understand basic aggregate economics: actual and potential supply and actual demand and their implication for growth, employment and inflation.

FIN 480R - Finance Society Leadership

Course Information

Course Number
480R

Teaching Area
FIN

Course Title
Finance Society Leadership

Course Description
Training for finance society association leadership. Includes active collaboration, working with professionals, faculty advisors and other students.

Department
Finance

When Taught
Fall and Winter

Credit Hours

Learning Outcomes

Title
Asset Pricing

Tags
175510, 1

Learning Outcome
Students will be able to understand the fundamental theorem of asset pricing and the consumption-based asset pricing model.

Title
Empirical Identification

Tags
175511, 2

Learning Outcome
Students will be able to understand the issues surrounding identification in empirical research.

Title
Simple Stochastic Processes

Tags
175512, 3

Learning Outcome
Students will be able to specify a simple stochastic process for dividends and solve the corresponding PDE for price.

Title
Black-Scholes

Tags
175513, 4

Learning Outcome
Students will be abel to derive the Black-Scholes PDE.

Title
Market Efficiency

Tags
175514, 5

Learning Outcome
Understand basic principles of market efficiency.

Title
Portfolio Optimization

Tags
175515, 6

Learning Outcome
Understand the mean-variance mathematics as it relates to portfolio optimization.

Title
Asset Pricing

Tags
175516, 7

Learning Outcome
Understand factor models and be able to implement time series and cross-sectional tests of asset pricing models used in financial research.

FINN 101 - First-Year Finnish

Learning Outcomes

Title
Language Learning Strategies

Tags
190304, 3

Learning Outcome
Students will develop comprehension and learning strategies to help them derive meaning from a wide variety of authentic language texts.

Title
Writing

Tags
190325, 2

Learning Outcome
Students will be able to write short messages and well-articulated sentences in Finnish on familiar topics.

Title
Culture

Tags
190337, 4

Learning Outcome
Students will display appropriate awareness of everyday culture in Finnish-speaking countries.

Title
Comprehension

Tags
190349, 0

Learning Outcome
Students will comprehend Finnish as they hear and read authentic language relating to familiar topics.

Title
Speaking

Tags
190544, 1

Learning Outcome
Students will be able to speak Finnish well enough to satisfy immediate needs. (They will learn to communicate in basic social situations, meet routine travel needs, obtain food and lodging, carry out simple transactions, and talk about a variety of topics of common interest primarily in the present, with limited use of other time frames.)

Note
Culminating course for GE Foreign Language requirement (except for returned missionaries or those with equivalent experience).

Learning Outcomes

Title
Comprehension

Tags
190240, 1

Learning Outcome
Students will be able to comprehend Finnish as they hear and read authentic language relating to familiar and less familiar topics.

Title
Speaking and Writing

Tags
190246, 2

Learning Outcome
Students will improve their reading and writing skills in Finnish by beginning to communicate in connected and extended discourse, expressing and supporting opinion, and navigating less-familiar topics and situations.

Title
Literature and Cultural History

Tags
190566, 0

Learning Outcome
Students will be able to identify and define key characteristics of the important moments in Finnish cultural history and place significant works in a meaningful cultural and historical context using the basic tools of literary analysis.

Title
Finnish Culture

Tags
191518, 4

Learning Outcome
Students will broaden and deepen their perception and appreciation of Finnish culture.

FINN 211R - Second-Year Conversation

Min:
0.5

Fixed/Max:
5

Other Prerequisites
Finn 102 or equivalent experience

Learning Outcomes

Title
Vocabulary

Tags
190347, 3

Learning Outcome
Students will speak in a way so as to be understood most of the time without difficulty by native speakers unaccustomed to dealing with non-native speakers.

Title
Fluency

Tags
190502, 2

Learning Outcome
Students will be able to use an appropriate variety of vocabulary related to autobiographical and concrete topics.

Title
Opinions

Tags
190569, 1

Learning Outcome
Students will be able to speak about autobiographical and concrete topics, initiate and maintain conversations by asking and responding to questions, and cope with gaps in knowledge.

Title
Description and Narration

Tags
190596, 0

Learning Outcome
Students will be able to describe and narrate in present, past and future times in the context of paragraph-level speech about autobiographical and concrete topics.

FINN 305 - Language Skills Development: Finnish

Course Information

Course Number
305

Teaching Area
FINN

Course Title
Language Skills Development: Finnish

Course Description
Increasing proficiency in one or more of the following Finnish language and culture skills: speaking, listening, reading, writing, cultural awareness.

Department
Language Studies

When Taught
Contact Department

Credit Hours

Min:
1

Fixed/Max:
4

Other Prerequisites
Instructor's consent.

Learning Outcomes

Title
Defined Special Purpose

Learning Outcome
Develop the overall language and cultural competence to meet the needs of a "special" purpose identified by the Center for Language Studies.

Title
Communication

Learning Outcome
Communicate effectively enough to function in a variety of situations likely to be encountered when dealing with native speakers associated with the special purpose. This may include interpersonal, interpretive, and presentational (written and oral) modes of communication.

Title
Cultural Competence

Learning Outcome
Interact with cultural competence and understanding when dealing with native speakers associated with the special purpose.

FINN

Course Title
Advanced Language Proficiency Through Cultural Studies: Finnish

Course Description
Study of Finnish culture using interpersonal, presentational, and interpretive skills in the target language.

Department
Language Studies

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Finn 202 or equivalent experience.

Note
Required course for obtaining language credit by examination. This course replaces the former 321 course; students who have taken 321 may not take 330.

Learning Outcomes

Title
Critical Thinking

Tags
190622, 1

Learning Outcome
Students will demonstrate critical thinking skills through literary analysis, debate, dealing with unanticipated complications in conversation, forming and supporting opinions, and presenting on topics of general interest.

Title
Culture

Tags
190623, 2

Learning Outcome
Students will explain how common cultural products and practices relate to cultural perspectives. They will interact with cultural competence in familiar and some unfamiliar contexts.

Title
Reading and Listening

Tags
190624, 3

Learning Outcome
Students will demonstrate reading and listening comprehension of Intermediate High and some Advanced level texts. They will begin to demonstrate a broad vocabulary regarding concrete, general interest topics such as education, work, government, and topics in the news.

Title
Writing and Speaking

Learning Outcome
Students will begin to write and speak using cohesive paragraphs on topics of personal and general interest. Students will demonstrate control of frequently used structures and will write and speak with Intermediate High level accuracy.

Recommended
Finn 321 or equivalent experience

Note
Culminating course for GE Foreign Language requirement.

Learning Outcomes

Title
Cultural Awareness and Self-Reflection

Tags
190032, 2

Learning Outcome
Students should be able to relate the ideas and issues raised by the works we study in class to the students' own socio-historical moment as well as to their experiences with contemporary Finnish culture and even value the expression of perspectives and opinions they do not necessarily share.

Title
Writing in Finnish

Tags
190033, 3

Learning Outcome
Students should begin to understand how to write and present well-organized, focused analyses interpreting literary texts and other cultural artifacts in Finnish.

Title
Future Learning

Tags
190034, 4

Learning Outcome
Students should better know how to understand, interpret, and thoughtfully reflect upon the literature and art they will encounter in later life.

Title
Cultural Literacy

Tags
190599, 0

Learning Outcome
Students should understand key trends and works from Finnish culture, recognize connections between these works, and be able to relate them to the development of contemporary Finnish culture and other cultural traditions.

Other Prerequisites
Be admitted to a teaching major and pass an Oral Proficiency Interview at the Advanced Mid level or better.

Learning Outcomes

Title
Discuss theory and research

Tags
193244, 0

Learning Outcome
Discuss theoretical principles and research findings that underlie dual language and immersion education

Title
Explain program models

Tags
193245, 1

Learning Outcome
Explain differences and similarities between one-way, two-way, developmental bilingual and indigenous language immersion programs

Title
Summarize language learning principles

Tags
193246, 2

Learning Outcome
Summarize key principles of first and second language learning in dual language and immersion classrooms

Title
Discuss social and political contexts

Tags
193247, 3

Learning Outcome
Discuss the social and political contexts for dual language education and their implications for classrooms and programs

Title
Synthesize lessons from different programs

Tags
193248, 4

Learning Outcome
Synthesize lessons that can be learned from dual language and immersion programs around the world

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- FLANG 300 - Foundations of Dual Language and Immersion Education

Other Prerequisites
Be admitted to a teaching major and pass an Oral Proficiency Interview with a rating of Advanced Mid or better.

Learning Outcomes

Title
Identify Objectives

Tags
212176, 0, 1

Learning Outcome
Identify appropriate objectives for the learning of academic content and language that correspond to state or district curriculum guidelines and student proficiency levels.

Title
Plan Instruction

Tags
212177, 0, 2

Learning Outcome
Plan and scaffold instruction that integrates academic content and language, providing opportunities for student output that elicits specific language functions and forms.

Title
Design Curriculum

Tags
212178, 0, 3

Learning Outcome
Select, design, and modify curriculum and materials for use in immersion programs.

Title
Differentiate Instruction

Tags
212179, 0, 4

Learning Outcome
Differentiate instruction for language majority and minority students and for struggling learners

Title
Manage the Classroom

Tags
212180, 0, 5

Learning Outcome
Manage the classroom in the immersion language, making input comprehensible and sustaining a clear and consistent separation of languages

Title
Implement Assessments

Tags
212181, 0, 6

Learning Outcome
Implement formative and summative assessments of academic content and language learning, and use assessment results to inform instruction.

Be admitted to a teaching major and pass an Oral Proficiency Interview at the Advanced Mid level or better.

Learning Outcomes

Title
Plan Biliteracy Instruction

Tags
212184, 0, 2

Learning Outcome
Plan, implement, and scaffold biliteracy instruction that emphasizes the development of vocabulary and academic language using best practices.

Title
Select Appropriate Learning Strategies

Tags
212183, 0, 1

Learning Outcome
Select developmentally appropriate instructional materials and strategies to facilitate the development of reading and writing skills in two languages.

Title
Differentiate Literacy Instruction

Tags
212185, 0, 3

Learning Outcome
Differentiate literacy instruction for struggling learners according to the linguistic and cultural backgrounds of language majority and minority students.

Title
Assess

Tags
212186, 0, 4

Learning Outcome
Assess students' progress in reading and writing in two languages and use assessment results to inform instruction.

Other Prerequisites
FLang 202R or equivalent in same language.

Note
Entry course for returned missionaries or others of equivalent language experience. Required course for obtaining language credit by examination. May fulfill the GE Languages of Learning requirement.

Learning Outcomes

Title
General Education

Tags
195048, 4

Learning Outcome
Complete language and cultural aspects of General Education "Languages of Learning" and "Global & Cultural Awareness" requirements.

Title
Cultural Knowledge

Tags
195050, 3

Learning Outcome
Acquire background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.). Discuss in the target language cultural practices related to major life events in the target culture (birth, marriage, death, etc.).

Title
Communication Skills

Tags
194801, 1

Learning Outcome
In both written and spoken target language, communicate accurately with well-educated members of the target-culture about real-world activities.

Title
Comprehension

Tags
195046, 2

Learning Outcome
Understand detailed written and verbal instructions. Comprehend historical passages, newspaper and magazine articles, and broadcast news reports well educated native speakers encounter routinely in their daily life.

Learning Outcomes

Title
Defined Career Purposes.

Tags
195423, 2

Learning Outcome
Develop overall language and cultural competence needed to study and begin entry into a career agreed upon by the Center for Language Studies.

Title
Knowledge.

Tags
195424, 3

Learning Outcome
Carry out research to identify, understand, and discuss standards, processes, people and cultural norms associated with the target career.

Title
Interpretive Competence.

Tags
195425, 4

Learning Outcome
Understand, interpret and analyze advanced-level written and oral texts on topics related to the target career.

Title
Communicative Competence.

Tags
195426, 5

Learning Outcome
Communicate effectively at the advanced-level in order to function in a variety of situations likely to be encountered when dealing with native speakers who are associated with the target career. This will include interpersonal communication and both written and oral presentational communication.

Title
Cultural Competence.

Tags
195427, 6

Learning Outcome
Interact with cultural competence and understanding when dealing with native speakers who are associated with the target career.

Other Prerequisites
Native- or advanced-level proficiency in the target language

Note
Prospective teachers and TAs should take this course before or while teaching the target language course.

Learning Outcomes

Title
Apply theory to practice

Tags
193170, 0, 1

Learning Outcome

Discuss historical trends in second-language acquisition and apply theory to effective practice.

Title
Design and deliver effective target language instruction

Tags
193177, 0, 3

Learning Outcome

Apply effective comprehensible input strategies
Apply appropriate interactive strategies to encourage output
Apply contextualized approaches for teaching subskills such as grammar, vocabulary and pronunciation.
Use products, practices and persepectives to appropriately teach culture

Title
Demonstrate a growth mindset to improve as a teacher

Tags
193154, 0, 5

Learning Outcome

Reflect on teaching and make changes as warranted.
Become an active professional participant and utilize appropriate resources (ACTFL, online supports, journals, etc.)

Title
Implement ACTFL proficiency standards in teaching and assessment practices

Tags
208739, 0, 2

Learning Outcome

Demonstrate understanding of proficiency and performance standards in planning, teaching and assessing for the

skills (Listening, Speaking, Reading, Writing)
and modes (Interpretive, Interpersonal, Presentational)

Provide level appropriate feedback for formative and summative assessments.

Teaching Area (new)
FREN

Course Number
101

Teaching Area
FREN

Course Title
First-Year French, Part 1

Course Description
Development of the four language skills: understanding, speaking, reading, and writing.

Department
French and Italian

When Taught
Fall and Winter

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
5

Note
Students with prior experience in French can contact the French undergraduate adviser to select the appropriate beginning course. Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required.

Learning Outcomes

Title
Comprehension

Tags
192152, 1

Learning Outcome
Comprehend French as you hear and read authentic language relating to familiar topics.

Title
Speaking

Tags
192153, 2

Learning Outcome
Speak French well enough to satisfy immediate needs. (You will learn to communicate in basic social situations, meet routine travel needs, obtain food and lodging, carry out simple transactions, and talk about a variety of topics of common interest primarily in the present, with limited use of other time frames.)

Title
Writing

Tags
192154, 3

Learning Outcome
Write short messages and well-articulated sentences in French on familiar topics.

Course Title
Intermediate French, Part 1

Course Description
Reading, writing, conversation, vocabulary building, and review of grammar.

Department
French and Italian

When Taught
Fall and Winter

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
5

Other Prerequisites
Fren 102 or equivalent

Note
Students with prior experience in French can contact the French undergraduate adviser to select the appropriate beginning course. Returned missionaries who spoke French part-time or who served in a Creole-speaking mission (Haiti) should register for FREN 201 to be eligible for the challenge exam.

Learning Outcomes

Title
Real-Life Use

Tags
192158, 1

Learning Outcome
Improve your ability to use French in real-life situations and for real-life purposes.

Title
Elaboration

Tags
192159, 2

Learning Outcome
Create elaborated utterances and group them into paragraphs and narratives.

Title
Vocabulary

Tags
192160, 3

Learning Outcome
Broaden vocabulary for both reception (listening and reading comprehension) and production (speaking and writing).

Title
Language Structures

Tags
192161, 4

Learning Outcome
Review and increase understanding of basic language structures.

Title
Culture

Tags
192162, 5

Learning Outcome
Discuss in French selected current events and various francophone regions of the world and some of their cultural practices.

FREN 202 - Intermediate French, Part 2

Course Information

Teaching Area (new)
FREN

Course Number
202

Teaching Area

Fren 201 or equivalent

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Literary Analysis

Tags
192163, 1

Learning Outcome
Read beyond basic plot and learn to apply tools of literary analysis.

Title
French Literature

Tags
192164, 2

Learning Outcome
Recognize and analyze key genres in French literature.

Title
Literary Movements

Tags
192165, 3

Learning Outcome
Identify and define key characteristics of the important French literary movements.

Title
Cultural and Historical Context

Tags
192166, 4

Learning Outcome
Place literature in a meaningful cultural and historical context.

Title
Reading and Writing

Tags
192167, 5

Learning Outcome
Improve your reading and writing skills in French.

Title
French Culture

Tags
192321, 5

Learning Outcome
Broaden and deepen your perception and appreciation of French culture.

Learning Outcomes

Title
Critical Thinking

Tags
213809, 0, 1, 2023-08-29 09:07:39

Learning Outcome
Analyze linguistic data to find patterns of variation, apply learned principles and concepts to new data and problems, and identify constructive research questions and develop methodology appropriate to those questions.

Title
Linguistic Research

Tags
213810, 0, 2, 2023-08-29 09:07:43

Learning Outcome
Conduct research (finding examples of the linguistic phenomena examined in the course, applying analytical diagrams, comparing linguistic phenomena in various languages, using various instruments of linguistic analysis).

Title
Data Analysis

Tags
213811, 0, 3, 2023-08-29 09:07:45

Learning Outcome
Learn and apply appropriate quantitative, statistical, and qualitative methods to analyze real-world linguistic data, including speech recordings, elicited responses, and text corpora.

Title
Linguistic Diversity

Tags
213812, 0, 4, 2023-08-29 09:07:46

Learning Outcome
Evaluate and appreciate francophone diversity, especially with regards to language variation and policies.

Learning Outcomes

Title
Implement standards- and proficiency-based lesson planning

Learning Outcome
Plan effective language lessons that help students meet each of the World-Readiness Standards for Learning Languages and promote language proficiency as outlined in the ACTFL Proficiency Guidelines.

Title
Plan instructional units using innovative approaches

Learning Outcome
Plan effective instructional units using innovative approaches that help K-12 students develop language proficiency and interculturality.

Title
Integrate technology to support student learning

Learning Outcome
Integrate current technologies appropriate to language education to support student learning, develop language proficiency and cultural competence.

Title
Adapt instruction for diverse learners

Learning Outcome
Plan for adapting instruction and appropriately integrating technology to meet the individual learning needs of all students (including students with disabilities, culturally diverse learners, heritage speakers, native speakers, and gifted students) in the mainstream language classroom.

Title
Advocate for the benefits of language learning

Learning Outcome
Advocate for the benefits of developing proficiency in French to students, parents, and colleagues.

Lab Hours

Fixed:
0

Other Prerequisites
Program coordinator's consent

Note
An APPROVED Internship Application is required before adding.

Learning Outcomes

Title
Conduct in culturally diverse settings

Tags
192400, 1

Learning Outcome
Students learn to navigate cultural difference in professional settings. They communicate appropriately with attention to social register.

Title
Improved language proficiency

Tags
192401, 3

Learning Outcome
Students will demonstrate improved speaking proficiency based on pre- and post-testing. This usually consists of an OPIc administered by the Center for Language Studies. The standing goal is to improve by one ACTFL sub-level (though the move from Intermediate High to Advanced Low is understandably difficult).

Title
Effective workplace communication

Tags
192402, 2

Learning Outcome
Students will acquire habits of effective communication in their target language for their place of work.

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- GA 201 - Second-Year Language Study: Ga

Note
Teacher may waive prerequisite based on prior experience. Culminating course for GE Languages of Learning requirement. Not an entry course for returned missionaries.

Learning Outcomes

Title
Communication Skills

Tags
195624, 1

Learning Outcome
In both written and spoken target language, communicate with reasonable accuracy about real-world activities with well-educated members of the target-culture accustomed to dealing with non-native speakers.

Title
Comprehension

Tags
195626, 2

Learning Outcome
Understand every-day written and verbal instructions. Comprehend concrete details and global meaning of intermediate-level written and spoken passages related to familiar topics that native speakers encounter routinely in their daily life.

Title
Cultural Knowledge

Tags
195627, 3

Learning Outcome
Discuss in the target language cultural practices related to every-day life in the target culture. Acquire basic background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.).

Title
General Education Requirements

Tags
195629, 4

Learning Outcome
Complete Languages of Learning and Global & Cultural Awareness for General Education.

Credit Hours

Min:
1

Fixed/Max:
4

Other Prerequisites
Instructor's consent.

Learning Outcomes

Title
Defined Special Purpose

Tags
195632, 1

Learning Outcome
Develop the overall language and cultural competence to meet the needs of a "special" purpose identified by the Center for Language Studies.

Title
Communication

Tags
195633, 2

Learning Outcome
Communicate effectively enough to function in a variety of situations likely to be encountered when dealing with native speakers associated with the special purpose. This may include interpersonal, interpretive, and presentational (written and oral) modes of communication.

Title
Cultural Competence

Tags
195634, 3

Learning Outcome
Interact with cultural competence and understanding when dealing with native speakers associated with the special purpose.

Learning Outcomes

Title
Social Impact Cycle

Learning Outcome
Learn to solve social problems using the social impact cycle.

Title
Defining and Identifying Impact

Learning Outcome
Articulate what social impact is—including the ability to discern the difference between impact, outcome, and output.

Title
Analyzing Social Problems

Learning Outcome
Understand the complexity of social problems and how understanding and thorough research are required for effective solutions.

Title
Designing Social Change Interventions

Learning Outcome
Develop the skills to analyze social issues and social ventures, including using a theory of change, social problem consequences, intervention, measurement, evaluation, and organizational learning.

Title
Faith and Impact

Learning Outcome
Apply faith in Jesus Christ to solving social problems.

GCI 310 - Designing Social Impact

Course Information

Teaching Area (new)
MSB

Course Number
310

Teaching Area
GCI

Course Title
Designing Social Impact

Course Description
Use human-centered design to address social issues. Learn techniques focused on empathizing with the beneficiaries of the innovation, defining the beneficiaries' needs, ideating to create innovative solutions, prototyping creative solutions, and testing those solutions.

Department
Public Service and Ethics

When Taught
Winter

Credit Hours

Learning Outcomes

Title
Cross-Sector Social Impact Analysis

Learning Outcome
Compare and evaluate high-impact social benefit organizations across nonprofit, governmental, religious, educational, for-profit, and hybrid sectors to identify best practices and sector-specific strengths.

Title
Impact Measurement and Evaluation

Learning Outcome
Design and apply advanced measurement and evaluation frameworks to assess the effectiveness and outcomes of social impact initiatives.

Title
Metrics-Driven Funding Strategy

Learning Outcome
Utilize impact metrics and evaluation data to develop compelling cases for long-term project funding and organizational sustainability.

Title
Organizational Effectiveness Assessment

Learning Outcome
Analyze what distinguishes high-impact organizations from their peers and apply these insights to strengthen social impact ventures.

Title
Zion-Building Through Social Innovation

Learning Outcome
Demonstrate how effective social impact organizations across all sectors can contribute to building Zion by relieving suffering, empowering individuals, and creating lasting positive change in communities.

GCI 488 - Improving Helping Behavior

Course Information

Course Number
488

Teaching Area
GCI

Course Title
Improving Helping Behavior

Course Description
This class focuses on improving the ways you can be helpful to others, with a focus on informal helping. The course draws on research and evidence-based practices that lead to more effective helping behavior.

Department
Public Service and Ethics

When Taught
Fall

Credit Hours

Min:
3

Lecture Hours

Fixed:
3

Learning Outcomes

Title
Flourishing

Learning Outcome
Recognize common elements of human flourishing and apply them to helping behaviors.

Title
Finding Your Calling

Learning Outcome
Employ core ideas and insights for finding the ways one is best suited to help others.

Title
Impact

Learning Outcome
Use counterfactual and opportunity cost thinking to identify helping with positive impact.

Title
Caring for Others

Learning Outcome
Apply practices that reliably increase one's compassion for other people.

Title
Mastering Problems

Learning Outcome
Develop practices for achieving expertise in understanding particular problems.

Title
Innovating

Learning Outcome
Describe and select the innovation role best suited for a given need.

Title
Making It Stick

Learning Outcome
Use effective strategies for making helpful behavior sustainable over the long-term.

Title
Acting Ethically

Learning Outcome
Recognize and avoid common ethical pitfalls faced by helpers.

Title
Avoiding Enmity

Learning Outcome
Model knowledge and behavior that resists enmity as a tool for helping.

Note
Offered by BYU Independent Study; enroll anytime throughout the year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Outcome 1

Tags
182856, 1

Learning Outcome
To be conversant in the language and vocabulary of physical geography.

Title
Outcome 2

Tags
182857, 2

Learning Outcome
Appreciate the extraordinary powers and delicate balances involved in the dynamic biophysical world in which you live.

Title
Outcome 3

Tags
182858, 3

Learning Outcome
Make rational decisions with respect to current and future environmental challenges.

Title
Outcome 4

Tags
182859, 4

Learning Outcome
Understand why biophysical phenomena occur where they do.

GEOG 110 - Landscapes of Disaster: An Introduction to Natural Hazards

Course Information

Teaching Area (new)
GEOG

Course Number
110

Teaching Area
GEOG

Course Title
Landscapes of Disaster: An Introduction to Natural Hazards

Course Description
Exploring natural and social science of disturbances by analyzing causes, consequences, and role of human behavior in causing and mitigating natural disasters.

Department
Geography

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Dimensions of disasters

Tags
182754, 1

Learning Outcome
Define and categorize environmental hazards along several dimensions, and situate disasters within their physical and societal contexts

Title
Application of scientific principles and reasoning

Tags
182755, 2

Learning Outcome
Use scientific principles and reasoning to evaluate environmental hazards, investigate the causes and consequences of disasters, and suggest appropriate mitigation and disaster reduction strategies

Title
Interactions of Physical and Human Factors

Tags
182756, 3

Learning Outcome
Evaluate the physical, cultural, and socioeconomic factors influencing human vulnerability to disasters in a global context

GEOG 120 - Geography and World Affairs

Course Information

Teaching Area (new)
GEOG

Course Number
120

Teaching Area
GEOG

Course Title
Geography and World Affairs

Course Description
Survey of the world, stressing geography of major political regions.

Department
Geography

When Taught
Fall; Winter; Spring; Summer.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
Additional seats for specific sections may be available to Freshman Mentoring participants through envelopes. Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
World knowledge

Tags
182771, 1

Learning Outcome
Identify where all the countries of the world are located and, more importantly, learn about these "countries and kingdoms" that you might "be prepared in all things" (Doctrine and Covenants 88:78-79).

Title
Interconnections

Tags
182772, 2

Learning Outcome
Better understand the interconnectedness of the world so we will appreciate those who contribute to making our life so abundant and easy and so we will be more willing to help those who have less.

Title
Stewardship

Tags
182773, 3

Learning Outcome
Become better stewards of the earth through an increased understanding of how human behavior impacts the environment and affects the lives of others.

Title
Basic knowledge

Tags
182776, 6

Learning Outcome
Develop an understanding of basic geographic terms.

Title
Travel

Tags
182777, 7

Learning Outcome
Learn to enjoy the journey by being a more observant, interested, adventuresome, and curious traveler.

Title
World development

Tags
182774, 0, 4

Learning Outcome
Understand what factors have led some regions of the world to be more developed than others.

Title
Current affairs

Tags
182775, 0, 5

Learning Outcome
Gain enough familiarity with the world to be a more informed reader of the daily news.

GEOG 130 - Introduction to Human Geography

Course Information

Teaching Area (new)
GEOG

Course Number
130

Teaching Area
GEOG

Course Title
Introduction to Human Geography

Course Description
Culture distributions and their relationship to existing geographic phenomena.

Department
Geography

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Critical Learning

Tags
182906, 0, 2

Learning Outcome
Evaluate sources of information (reading materials, statistics, maps, artificial intelligence tools, etc.) to discern facts, arguments, opinions, and error; and construct your own reasoned analyses of local, national, and worldwide geographic issues. BYU Aims: Intellectually Enlarging, Lifelong Learning.

Title
The Landscape of the Human Family

Tags
182907, 0, 3

Learning Outcome
Use the geographic perspective to appreciate, respect, and describe the wide diversity of God's children and their ways of life: their cultures, heritage, economies, politics, health, movements, and so on. BYU Aims: Spiritually Strengthening, Intellectually Englarging, Character Building

Title
Geographic Concepts and Tools

Tags
211147, 0, 1

Learning Outcome
Given a geographic issue or situation, apply core geographic concepts (distance, space, place, territoriality, region, scale, etc.) using the tools of geographers (statistics, maps, text, GIS, etc.) to better understand its complexity and develop potential solutions and actions, leading to a desire to use these skills to serve the human family. BYU Aims: Intellectually Enlarging, Lifelong Service

GEOG 210 - Introduction to Urban and Regional Planning

Course Information

Teaching Area (new)
GEOG

Course Number
210

Teaching Area
GEOG

Course Title
Introduction to Urban and Regional Planning

Course Description
Introduction to the profession and practice of urban and regional planning.

Department
Geography

When Taught
Fall.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Understanding the History and Theory of Urban Planning

Tags
182801, 3

Learning Outcome

Explain the creation, use, and knowledge of comprehensive and other types of plans. (PAB 4.2.2e)

Title
Understanding the History and Theory of Urban Planning

Tags
182802, 4

Learning Outcome

Explain the adoption, administration and implementation of plans and related policy including knowledge of the relevant regulations (zoning, review processes), incentives, techniques (public finance and capital budgeting) and technologies, and agencies conducting planning or employing planners. (PAB 4.2.2f)

Title
Understanding the History and Theory of Urban Planning

Tags
182803, 5

Learning Outcome

Demonstrate knowledge of the ways in which planners and planning practice have succeeded in altering the policies, institutions, and decisions that oppose the needs of disadvantaged persons. (PAB 4.2.2g)

Title
Understanding the History and Theory of Urban Planning

Tags
182804, 1

Learning Outcome

Explain the purpose and meaning of planning and its ethical, visionary, and normative imperatives. (PAB 4.2.2a)

Title
Understanding the History and Theory of Urban Planning

Tags
182805, 2

Learning Outcome

Explain the history of urban planning practice and the development of urban planning profession in the United States. (PAB 4.2.2b)

GEOG 211 - Mapping Your World

Course Information

Teaching Area (new)
GEOG

Course Number
211

Teaching Area
GEOG

Course Title
Mapping Your World

Course Description
Managing and portraying geospatial information to solve geographic tasks using maps (cartography), aerial and satellite imagery (remote sensing), location services (GPS), and quantitative methods.

Department
Geography

When Taught
All Semesters/Terms

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Thematic maps

Tags
182669, 5

Learning Outcome

When presented with a typical specimen, perform a simple interpretation of a thematic map (e.g. Choropleth, Isoline)

Title
The Big Three

Tags
182723, 0

Learning Outcome
Identify each component of the "Big Three"◈ when using or observing geographic technologies. The Big Three includes 1) Geographic Information Systems, 2) Global Positioning Systems, and 3) Remote Sensing.

Title
Map Scale

Tags
182724, 1

Learning Outcome
Complete all typical map scale calculations related to land distance and area including unit conversions.

Title
Datum and Coordinate Systems

Tags
182725, 2

Learning Outcome
Give and take coordinate references in UTM and lat / long and convert between the two.
select a datum and coordinate system appropriate for a given job-related task. Explain the logic of and give / take a reference in the PLSS

Title
GPS

Tags
182726, 3

Learning Outcome
Configure a GPS receiver properly to use both with and without a map. Lay-in and follow the course in a GPS receiver.

Title
Topographic Maps

Tags
182727, 4

Learning Outcome
Measure elevation, distance, direction, slope, and aspect from digital or paper topographic maps.
Perform a simple statistical analysis of data on a USGS topographic map.

GEOG 212 - Introduction to Geographic Information Systems

Course Information

Teaching Area (new)
GEOG

Course Number
212

Teaching Area
GEOG

Course Title
Introduction to Geographic Information Systems

Course Description
Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

Department
Geography

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
1

Learning Outcomes

Title
GIScience

Tags
182514, 3

Learning Outcome
Understand basic spatial concepts and data models that form the foundation of GIS.

Title
Data Management

Tags
182689, 1

Learning Outcome
Acquire geospatial data from common sources and manipuate them for a specific application.

Title
GIS Analysis

Tags
182693, 2

Learning Outcome
Analyze data using GIS to solve real world problems.

Title
GIS Applications

Tags
182703, 3

Learning Outcome
Describe several applications in which GIS is used to solve geographic problems.

Title
Cartography & Visualization

Tags
182709, 4

Learning Outcome
Design and use maps to explore and communicate geospatial information.

GEOG 217 - Programming for Geographers I

Course Information

Teaching Area (new)
GEOG

Course Number
217

Teaching Area
GEOG

Course Title
Programming for Geographers I

Course Description
An introduction to programming using appropriate modern programming languages for solving spatial problems

Department
Geography

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Practical Experience

Tags
182816, 2

Learning Outcome
Develop tools to solve specific spatial problems through programming around software limitations.

Title
Spatial and Programming Thinking

Tags
182817, 3

Learning Outcome
Solve spatial problems with spatial programming thinking.

Title
Basic Principles

Learning Outcome
Explain the principles of popular GIS data models and algorithms, and the internal operations of GIS software

Title
Skills

Learning Outcome
Manipulate, analyze and interpret data, both spatial and other types, using fundamental programming skills

Title
Service

Learning Outcome
Serve others using GIS science related technologies and acquired skills

GEOG 222 - Statistics for Geographers 1

Course Information

Teaching Area (new)
GEOG

Course Number
222

Teaching Area
GEOG

Course Title
Statistics for Geographers 1

Course Description
Methodology of spatial analysis. Theory and techniques in geographic data description and population inference.

Department
Geography

When Taught
All Semesters/Terms

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
LO1

Tags
182860, 1

Learning Outcome
Determine appropriate methods for identifying, collecting, and analyzing primary and secondary data and develop an understanding of the nature and limitations of data used in geographical analysis

Title
LO2

Tags
182861, 2

Learning Outcome
Explain basic descriptive and inferential statistical techniques (both spatial and aspatial) and identify what kind of methods would be appropriate for the solution of geographic questions/problems/issues

Title
LO3

Tags
182862, 3

Learning Outcome
Conduct moderately complex data analysis using appropriate computer software (e.g. SPSS, Excel, SpaceStat)

Title
LO4

Tags
182863, 4

Learning Outcome
Demonstrate the practice of statistical thinking by taking a real-life problem and a potential statistical procedure, describe whether the procedure can be safely applied, accurately describe the implications of statistical outcomes on the practical problem at-hand (i.e. inference → practical conclusion), and cast judgment in short reports citing appropriate statistical components reflecting an engagement in self-learning and critical contemplation.

GEOG 245 - Geography of Utah

Course Information

Teaching Area (new)
GEOG

Course Number
245

Teaching Area
GEOG

Course Title
Geography of Utah

Course Description
Exploring geography of Utah. Topics include land forms, climate, agricultural and recreational economics, historical migration, Mormon cultural landscape, ethnic patterns, and rural-urban contrasts.

Department
Geography

When Taught
Spring and Summer Terms

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Recommended
Geog 101,120, 130

Learning Outcomes

Title
Fundamental Principles of the Physical Environment

Tags
182864, 1

Learning Outcome
Understand the fundamental principles of the physical environment, the ongoing changes therein, and the interactions between the physical environment and human activity

Title
Understanding of current world societies

Tags
182865, 2

Learning Outcome
Explain the development and current activities of human societies at world, national and local scales

Title
Practical and theoretical issues in Geography

Tags
182866, 3

Learning Outcome
Study practical and theoretical issues in geography, using a variety of methods such as quantitative and qualitative analysis, documentary research, map analysis, geospatial technologies, and written communication

Title
Evaluate and Recommend Solutions

Tags
182867, 4

Learning Outcome
Evaluate the core human and environmental processes which create the context for global issues.
Recommend viable solutions to current world problems.

GEOG 250 - United States and Canada

Course Information

Teaching Area (new)
GEOG

Course Number
250

Teaching Area
GEOG

Course Title
United States and Canada

Course Description
Analysis of the natural environment, historical development, cultural patterns, economic systems, and political structures of geographic regions.

Department
Geography

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Learning Outcome #1

Tags
182806, 1

Learning Outcome
Become familiar with the physical, cultural, and economic geography of the United States and Canada.

Title
Learning Outcome #2

Tags
182807, 2

Learning Outcome
Recognize and understand the unique aspects of the North American landscape.

Title
Learning Outcome #3

Tags
182808, 3

Learning Outcome
Appreciate the cultural complexities of the United States and Canada.

Title
Learning Outcome #4

Tags
182809, 4

Learning Outcome
Be informed about current events happening within the regions under study.

GEOG 255 - Middle and South America

Course Information

Teaching Area (new)
GEOG

Course Number
255

Teaching Area
GEOG

Course Title
Middle and South America

Course Description
Environmental, cultural, economic, and political parameters of Latin American societies.

Department
Geography

When Taught
Winter Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Informed Awareness of Latin American Geography

Tags
207933, 7

Learning Outcome
To articulate an informed awareness of Middle and South America with its interplay of cultures, languages, and/or nations at an international level for both its physical and cultural components.

Physical Geography To describe the underlying physical "stage" of Latin America in relation to the distributions of people and their activities.
Cultural Geography To delineate the geographic structure of Latin America's cultural components including languages, ethnic groups, settlement patterns, and religious beliefs.

Title
Collaboration

Tags
207934, 4

Learning Outcome
To incorporate others' input to effectively enhance Latin American geographic understanding.

Title
Writing

Tags
207997, 3

Learning Outcome
To produce geographic writing and exhibit research skills that result in papers that are fluent, relevant, and creative.

Title
Latin American Impact

Tags
207998, 2

Learning Outcome
To explain the significance of Latin America's increasing impact on the world's economy, as well as the growing Hispanization of the United States and the Church of Jesus Christ of Latter-day Saints.

Title
Thoughtful Reflection

Tags
207999, 6

Learning Outcome
To translate the gained awareness of Latin America into valid cross-cultural comparisons and nuanced understanding that can be shared with others.

Title
Empathy

Tags
208000, 5

Learning Outcome
To exhibit greater empathy and charity, and show a global perspective that incorporates others' points of view.

GEOG 260 - Europe

Course Information

Teaching Area (new)
GEOG

Course Number
260

Teaching Area
GEOG

Course Title
Europe

Course Description
Systematic approach to physical base, social and political problems, economic issues, and regional summary.

Department
Geography

When Taught
Fall Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Collaboration

Tags
182713, 1

Learning Outcome
To incorporate other students' input to effectively enhance European geographic understanding.

Title
Physical Geography

Tags
182699, 0, 5

Learning Outcome
To demonstrate the connection of the underlying physical "stage" of Europe to the distributions of people and their activities. This includes knowing the locations and distributions of climates, mountains, rivers, and natural barriers of the region.

Title
Cultural Geography

Tags
212255, 0, 7

Learning Outcome
To describe the regional geographic structure of Europe's cultural components including languages, rural and urban landscapes, demographics, ethnic groups, and religions.

Title
Geographic Interconnections

Tags
182696, 0, 0

Learning Outcome
To explicate and define the important historical and contemporary geographic linkages in Europe including political restructuring, settlement geography, and major economic patterns (e.g., agriculture, manufacturing, tourism, and transportation).

Title
Writing

Tags
182533, 0, 1

Learning Outcome
To write geographic research on Europe that is fluent, relevant, and creative.

Title
Thoughtful Reflection

Tags
182718, 0, 6

Learning Outcome
To translate the gained awareness of Europe into valid cross-cultural comparisons and nuanced understanding that can be shared with others.

GEOG 265 - Russia and the Former Soviet Union

Course Information

Teaching Area (new)
GEOG

Course Number
265

Teaching Area
GEOG

Course Title
Russia and the Former Soviet Union

Course Description
Physical features, resources, political issues, economy and industries, population concerns, and role in world affairs.

Department
Geography

When Taught
Fall Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Title
Collaboration

Tags
182527, 1

Learning Outcome
To incorporate other students' input to effectively enhance regional geographic understanding.

Title
Geographic Interconnections

Tags
182528, 2

Learning Outcome
To explicate and define the important historical and contemporary geographic linkages in Russia and vicinity countries including political conflict, settlement geography, and major economic patterns (e.g., agriculture, manufacturing, tourism, and transportation).

Title
Cultural Geography

Tags
182672, 5

Learning Outcome
To describe the regional geographic structure of the region's cultural components including languages, rural and urban landscapes, demographics, ethnic groups, and religions.

Title
Thoughtful Reflection

Tags
182673, 0

Learning Outcome
To translate the gained awareness of Russia and the former Soviet Union into valid cross-cultural comparisons and nuanced understanding that can be shared with others.

Title
Geographic Themes

Tags
182682, 6

Learning Outcome
To write geographic research that is fluent, relevant, and creative.

Title
Physical Geography

Tags
182712, 1

Learning Outcome
To demonstrate the connection of the underlying physical "stage" of Russia and nearby countries to the distributions of people and their activities. This includes knowing the locations and distributions of climates, mountains, rivers, and natural barriers of the region.

Title
Writing

Tags
182716, 4

Learning Outcome
To write geographic research on Russia and the former Soviet Union that is fluent, relevant, and creative.

GEOG 271 - Middle East

Course Information

Teaching Area (new)
GEOG

Course Number
271

Teaching Area
GEOG

Course Title
Middle East

Course Description
Physical and cultural geography of Southwest Asia and North Africa, emphasizing the cultural mosaic, geopolitics, environment, and resources of the region.

Department
Geography

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Geographic Literacy

Tags
182818, 1

Learning Outcome
Identify where all of the countries, important cities and regions of the Middle East are located along with significant physical features like mountains, rivers and seas.

Title
Geographic Linkages

Tags
182819, 2

Learning Outcome
Understand the linkages between geography (territory, location, climate, resources etc) and human activity

Title
Peaceful Partitioning

Tags
182820, 3

Learning Outcome
Apply geographic principles to better understand and perhaps modify the territorial divisions of the Middle East region.

Title
Conflict Resolution

Tags
182821, 4

Learning Outcome
Use written communication to describe, evaluate and resolve resource and territorial disputes between states and nations.

Title
Global Awareness

Tags
182822, 5

Learning Outcome
Develop a greater appreciation and understanding for the peoples and cultures of the region.

GEOG 272 - East Asia

Course Information

Teaching Area (new)
GEOG

Course Number
272

Teaching Area
GEOG

Course Title
East Asia

Course Description
Region of monsoon Asia and its basic human (demographics, nations and ethnic groups, settlement patterns, religious beliefs, transportation and communication systems, political structures), and physical geographic characteristics (land forms, physiography, climatic characteristics, and natural resources).

Department
Geography

When Taught
Winter Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Learning Outcome #2

Tags
182878, 2

Learning Outcome
Gain an understanding of the natural geographic base of East Asia. This includes physiography, climates, natural resources, and natural hazards.

Title
Learning Outcome #1

Tags
182879, 1

Learning Outcome
Gain an understanding of the geographic foundation of the East Asia region (China, Japan, South Korea, North Korea, and Taiwan) including demographics, social issues, settlement patterns, cultural attributes, agriculture systems, economics, and politics.

Title
Learning Outcome #3

Tags
182886, 3

Learning Outcome
Learn the locations of countries, major cities, and physical features (e.g. rivers, mountains ranges, seas) of East Asia.

Title
Learning Outcome #4

Tags
182887, 4

Learning Outcome
Obtain a framework of geographical concepts and approaches useful in analyzing events in East Asia and other parts of the world

GEOG 273 - Southeast Asia

Course Information

Teaching Area (new)
GEOG

Course Number
273

Teaching Area
GEOG

Course Title
Southeast Asia

Course Description
Fundamental issues of geography relating to Southeast Asia, including the extraction and marketing of natural resources, economic development, neighborly relations, and how diffusion has influenced the unique cultural, religious, and linguistic characteristics of the region.

Department
Geography

When Taught
Fall Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Geographic Foundations

Tags
182873, 1

Learning Outcome
Outline the geographic foundation of the Southeast Asia region including demographics, social issues, settlement patterns, cultural attributes, agriculture systems, economics, and politics.

Title
Physical Geography

Tags
182874, 2

Learning Outcome
Describe the natural geographic base of Southeast Asia. This includes physiography, climates, natural resources, and natural hazards.

Title
Spatial Organization

Tags
182875, 3

Learning Outcome
Point out the locations of countries, major cities, and physical features (e.g. rivers, mountains ranges, seas) of Southeast Asia.

Title
Current Events

Tags
182876, 4

Learning Outcome
Employ various geographical concepts and approaches to analyze events in Southeast Asia and other parts of the world.

GEOG 280 - The Pacific Islands

Course Information

Teaching Area (new)
GEOG

Course Number
280

Teaching Area
GEOG

Course Title
The Pacific Islands

Course Description
An examination of the physical, ecological and human environments of the Pacific islands, including the impacts of colonialism, warfare and military weapons testing, poverty, tourism, and environmental change in the region.

Department
Geography

When Taught
Fall

Credit Hours

Min:
3

Learning Outcomes

Title
Outcome 1

Tags
182823, 1

Learning Outcome
At the end of the course the student should be able to apply to the realm and sub-regions of Africa a variety of geographic terms, concepts, and ideas.

Title
Outcome 2

Tags
182824, 2

Learning Outcome
At the end of the course the student should be able to identify and analyze key global human and biophysical patterns and how Africa fits into, and is impacted by, these patterns.

Title
Outcome 3

Tags
182825, 3

Learning Outcome
At the end of the course the student should be able to read and discuss Africa's current events with greater insight resulting from enhanced familiarity with the realm's human and biophysical geography.

GEOG 303 - Biogeography

Course Information

Teaching Area (new)
GEOG

Course Number
303

Teaching Area
GEOG

Course Title
Biogeography

Course Description
Broad-scale distribution of plants and animals. Theoretical and practical applications to conservation and effects of global environmental change.

Department
Geography

When Taught
Fall Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Recommended
Geog 101

Learning Outcomes

Title
Patterns of distribution

Tags
182675, 1

Learning Outcome
Recognize and be able to explain patterns of plant and animal life at many different scales

Title
Basic concepts

Tags
182681, 0

Learning Outcome
Demonstrate an understanding of basic concepts and processes in biogeography

Title
Human impacts

Tags
182685, 2

Learning Outcome
Explain how humans have affected the distribution and diversity of plants and animals, and apply concepts to decisions regarding human use of the environment

Title
Future changes

Tags
182698, 4

Learning Outcome
Plan for future changes in species distributions and diversity as a result of environmental and human-induced pressures

Title
Current research themes

Tags
182714, 3

Learning Outcome
Demonstrate a knowledge of prominent professional biogeographers and ecologists and their current research themes

GEOG 304 - Climate and Society

Course Information

Teaching Area (new)
GEOG

Course Number
304

Teaching Area
GEOG

Course Title
Climate and Society

Course Description
Temporal and spatial examination of the distribution, condition, and forecasting of different climatic characteristics across Earth. Effects of climate on society in the past, present and future, with a particular focus on the world's most vulnerable populations.

Department
Geography

When Taught
Winter

Credit Hours

182700, 0

Learning Outcome
Explain the connection between climate and extreme weather events that impact vulnerable populations

GEOG 305 - Geography of Landforms

Course Information

Teaching Area (new)
GEOG

Course Number
305

Teaching Area
GEOG

Course Title
Geography of Landforms

Course Description
Elements of landforms: distributions and cultural significance.

Department
Geography

When Taught
Fall Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Recommended
Geog 101

Learning Outcomes

Title
Physical Landscape

Tags
182674, 2

Learning Outcome
Examine a physical landscape and describe why it looks the way it does.

Title
Human Impact

Tags
182686, 3

Learning Outcome
Describe how human settlement and recreation patterns are influenced by landforms.

Title
Landforms

Tags
182688, 1

Learning Outcome
Explain the physical processes that produce landforms.

Title
Dating Techniques

Tags
182701, 4

Learning Outcome
Understand dating techniques geomorphologists use to understand earth's history.

Title
History of Geomorphology

Tags
182702, 0

Learning Outcome
Examine the history of landform study and the key individuals in the history of geomorphology.

GEOG 306 - Public Lands: Planning & Management

Course Information

Teaching Area (new)
GEOG

Course Number
306

Teaching Area
GEOG

Course Title
Public Lands: Planning & Management

Course Description
Environmental and social geography of global protective land use designations: National Parks, Wilderness, Conservation areas, etc. Experience in building stakeholder collaborations to develop management plans.

Department
Geography

When Taught
Winter.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Public Land Policy

Tags
182827, 0, 2

Learning Outcome
Explain the historical development of public land policy, especially the laws governing lands owned by the United States government, and how they interface with modern uses and issues.

Title
Mapping public lands

Tags
182826, 0, 1

Learning Outcome
Describe the geography of public land in a country, including its geographic distribution, history, and underlying principles.

Title
Global conservation

Tags
182828, 0, 3

Learning Outcome
Outline why and how protective designations have expanded globally, especially during the past fifty years.

Title
Stakeholders

Tags
182829, 0, 4

Learning Outcome
Value the wide variety of interests in public land management, including the ideology, issues, and institutional efforts of various stakeholders.

Title
Making Management Decisions

Tags
182830, 0, 5

Learning Outcome
Develop public land management decisions by bringing together stakeholders and resolving conflicts.

GEOG 307 - Spatial Analysis of Environmental Data

Course Information

Teaching Area (new)
GEOG

Course Number
307

Teaching Area
GEOG

Course Title
Spatial Analysis of Environmental Data

Course Description
Introduction to a suite of quantitative spatial and spatio-temporal analysis tools, including landscape metric and fractal analysis, trend surface analysis, cluster analysis, analysis of scales of variation, geostatistics, point-to-point regression, and wavelet analysis.

Department
Geography

When Taught
Winter Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Recommended
Geog 101 and 212

Learning Outcomes

Title
Research communication

Tags
182676, 4

Learning Outcome
Identify and address a research question in environmental spatial analysis, and effectively communicate results orally and in writing.

Title
Literature

Tags
182679, 2

Learning Outcome
Critique current literature in spatial analysis of the environment.

Title
Pattern and process

Tags
182704, 1

Learning Outcome
Describe the effects of scale on traditional environmental questions and issues.

Title
Spatial analysis approaches

Tags
182705, 0

Learning Outcome
Employ appropriate spatial analysis methods when approaching environmental geography problems.

Title
Environmental Application

Tags
182715, 5

Learning Outcome
Integrate spatial analysis concepts with conservation methods and current broad-scale environmental issues.

GEOG 311 - Intermediate Geographic Information Systems

Course Information

Teaching Area (new)
GEOG

Course Number
311

Teaching Area
GEOG

Course Title
Intermediate Geographic Information Systems

Course Description
Collecting, managing, and analyzing spatial data to solve common geographic tasks.

Department
Geography

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- GEOG 212 - Introduction to Geographic Information Systems

Learning Outcomes

Title
Lifelong Learning

Tags
182692, 4

Learning Outcome
Learn new concepts and technologies as needed to solve novel GIS management problems, with minimal supervision, using a variety of information resources.

Title
Geographic Information Theory

Tags
182722, 0

Learning Outcome
Understand the fundamental concepts of geographic information, and use those concepts to explain the core data models and procedures of GIS.

Title
Spatial Analysis

Tags
182904, 3

Learning Outcome
Perform common and novel GIS analysis procedures to solve practical geographic tasks.

Title
Data Management

Tags
182903, 0, 2

Learning Outcome
Obtain existing GIS data and create new data that are appropriate for a given need, and transform data sets to make them appropriate for a given project, using tools such as format conversion, reprojection, data entry and editing, and reclassification.

GEOG 312 - Cartographic Design

Course Information

Teaching Area (new)
GEOG

Course Number
312

Teaching Area
GEOG

Course Title
Cartographic Design

Course Description
Graphic perception, layout, typography, color, statistical methods, and symbolization of thematic maps through computer-aided techniques.

Department
Geography

When Taught
Fall

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
4

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- GEOG 211 - Mapping Your World
  AND GEOG 212 - Introduction to Geographic Information Systems

Learning Outcomes

Title
Map planning

Tags
182912, 1

Learning Outcome
Develop a map-based solution for a given purpose and audience by planning an appropriate medium, scale, data layers, map type, and gestalt.

Title
Data Management

Tags
182913, 1

Learning Outcome
Gather and process the data needed for a map, such that it is appropriate in terms of detail, currency, relevance, and quality.

Title
Design techniques

Tags
182914, 3

Learning Outcome
Design maps that are clear, useful, and attractive, employing appropriate techniques such as thematic map types, composition, symbology, color, and text.

Title
Learning from Critique

Tags
182915, 4

Learning Outcome
Improve design skills through map critique, carefully evaluating the work of yourself and others to learn new techniques, best practices, and pitfalls to avoid.

Title
Quality Design

Tags
182916, 5

Learning Outcome
Expect top-quality work from yourself and put forth the effort necessary to produce this.

Title
Cartographic Knowledge

Tags
182917, 6

Learning Outcome
Explain the theoretical principles that form the basis of a given cartographic design technique, and practical guidelines for implementing it.

GEOG 313 - Remote Sensing 1

Course Information

Teaching Area (new)
GEOG

Course Number
313

Teaching Area
GEOG

Course Title
Remote Sensing 1

Course Description
Introduction to airborne and spaceborne sensors, including characteristics and image acquisition. Emphasizes land cover mapping applications appropriate for environment monitoring.

Department
Geography

When Taught
Fall.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Basic remote sensing concepts

Tags
182764, 1

Learning Outcome
Clearly communicate basic remote sensing concepts and applications.

Title
Electromagnetic spectrum

Tags
182765, 4

Learning Outcome
Outline the general characteristics of the electromagnetic spectrum and electromagnetic energy.

Title
Image interpretation

Tags
182766, 5

Learning Outcome
Demonstrate basic image interpretation skills.

Title
Remote sensing data and techniques

Tags
182767, 2

Learning Outcome
Describe remotely sensed data characteristics and methods of data acquisition, storage, and manipulation.

Title
Remote sensing in geography and other geosciences

Tags
182768, 3

Learning Outcome
Evaluate the role of remote sensing in geography and its relation to other geosciences.

GEOG 317 - Programming for Geographers II

Course Information

Teaching Area (new)
GEOG

Course Number
317

Teaching Area
GEOG

Course Title
Programming for Geographers II

Course Description
Automating spatial databases, analytical algorithms, and web-based visualization.

Department
Geography

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- GEOG 217 - Programming for Geographers I

Learning Outcomes

Title
Data structures and algorithms

Tags
182517, 1

Learning Outcome
Students will be able to express simple data structures and algorithms in computer code. These data structures and algorithms will be illustrative of either raster or vector GIS.

Title
Object oriented methods

Tags
182518, 2

Learning Outcome
When given a simple geographic problem specification, students will be able to create computer methods and classes that address the problem or meet the specification.

Title
Problem solving

Tags
182519, 3

Learning Outcome
When presented with a problem amenable to the application of geographic computer programming (intermediate level difficulty), students will be able to design and implement a software system including computer program(s) to solve the problem.

GEOG 322 - Statistics for Geographers 2.

Course Information

Teaching Area (new)
GEOG

Course Number
322

Teaching Area
GEOG

Course Title
Statistics for Geographers 2.

Course Description
Advanced techniques in geospatial analysis.

Department
Geography

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- GEOG 222 - Statistics for Geographers 1

Learning Outcomes

Title
Statistical Competence

Tags
182520, 1

Learning Outcome
To master an advanced set of quantitative methods that are particularly appropriate for geographers, becoming especially skilled in one statistical area.

Title
Determination

Tags
182521, 2

Learning Outcome
To determine what quantitative methods are appropriate for answering different research questions.

Title
Application

Tags
182522, 3

Learning Outcome
To apply statistical analysis to geographic problems in a competent and worthwhile way

Title
Research

Tags
182523, 4

Learning Outcome
To develop and carry out an excellent research project complete with collaborative work and a crisp oral and professional visual presentation.

Title
Knowledge

Tags
182711, 4

Learning Outcome

To understand and appreciate published academic geographic research that uses a variety of quantitative methods.

GEOG 331 - Economic Geography

Course Information

Teaching Area (new)
GEOG

Course Number
331

Teaching Area
GEOG

Course Title
Economic Geography

Course Description
Introduction to economic processes and spatial patterns, emphasizing theoretical approaches, locational strategies, and changing economic land-use patterns.

Department
Geography

When Taught
Fall Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Geog 100 or instructor's consent

Learning Outcomes

Title
Conceptualizing EconGeog

Tags
182831, 1

Learning Outcome
Identify and discuss the basic concepts and theoretical frameworks in Economic Geography

Title
Patterns and Trends

Tags
182832, 2

Learning Outcome
Recognize and explain spatial patterns and trends of economic activities

Title
Data and Methods

Tags
182833, 3

Learning Outcome
Data: Locate, acquire, clean-up and use secondary economic data
Methods: Use various geographic tools of analysis to understand and visualize geographic trends and patters

Title
Spatial Reasoning

Tags
182834, 4

Learning Outcome
Use spatial quantitative reasoning to identify (and possible suggest viable solutions to) global problems/issues

GEOG 336 - Urban Geography

Course Information

Teaching Area (new)
GEOG

Course Number
336

Teaching Area
GEOG

Course Title
Urban Geography

Course Description
History and theory of urban development, including why cities exist and how cities function.

Department
Geography

When Taught
Fall Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Understanding Human Settlement as it Relates to Planning

Tags
182757, 1

Learning Outcome
Demonstrate knowledge of the social sciences (history, economics, sociology, political science, anthropology, psychology, and geography) as they relate to human settlements including knowledge of the social and spatial structure of urban and regional systems, local public finance, economics of development, infrastructure provision, and effects of globalization.

GEOG 341 - Political Geography

Course Information

Teaching Area (new)
GEOG

Course Number
341

Teaching Area
GEOG

Course Title
Political Geography

Course Description
Spatial analysis of global politics; focus on geopolitics, territory and conflict, nationalism, and the politics of resources.

Department
Geography

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Geographic Literacy

Tags
182835, 1

Learning Outcome
Identify where all of the countries of the earth are located along with other important political entities, cities and capitals

Title
Global Awareness

Tags
182836, 2

Learning Outcome
Become an informed reader of a daily international newspaper

Title
Geographic and Political Linkages

Tags
182837, 3

Learning Outcome
Understand the linkages between geography (territory, location, resources etc) and political actions and processes.

Title
Nationalism

Tags
182838, 4

Learning Outcome
Define and assess the relative importance of forces of conflict and cooperation among peoples, societies and states as they influence the division and control of the Earth's surface

Title
Establish World Peace

Tags
182839, 5

Learning Outcome
Use written and oral communication to describe, evaluate and resolve territorial disputes between states and nations (people/minority groups).

GEOG 346 - Population Geography

Course Information

Teaching Area (new)
GEOG

Course Number
346

Teaching Area
GEOG

Course Title
Population Geography

Course Description
Spatial perspective on wide field of population studies, focusing on distribution, development, structure, and movement of populations, emphasizing basic demographic measures.

Department
Geography

When Taught
Winter Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Geog 100 or instructor's consent

Learning Outcomes

Title
Conceptualize

Tags
182840, 1

Learning Outcome
Distinguish and critically evaluate basic concepts and ideas in population geography

Title
Demographic Data

Tags
182841, 2

Learning Outcome
Obtain, evaluate, and use demographic data

Title
Methods

Tags
182842, 3

Learning Outcome
Learn about and use various demographic methods

Title
Analyze

Tags
182843, 4

Learning Outcome
Analyze demographic data in order to answer important geographic questions

Title
Context

Tags
182844, 5

Learning Outcome
Situate your own life within the context of larger demographic patterns and trends

GEOG 347 - Geography of Tourism

Course Information

Teaching Area (new)
GEOG

Course Number
347

Teaching Area
GEOG

Course Title
Geography of Tourism

Course Description
Introduction to tourism as a field of study and the four elements of tourism: dynamic, service, functional, and consequential.

Department
Geography

When Taught
Fall.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Geography and Tourism

Tags
182791, 1

Learning Outcome
Explain how geographers approach the study of travel and tourism using basic geographic concepts (e.g. location, place, diffusion, etc.)

Title
Tourism Issues

Tags
182792, 2

Learning Outcome
Analyze several geographical issues related to the theory and practice of tourism in various areas.

Title
Tourism Benchmarks

Tags
182793, 3

Learning Outcome
Identify and explain the historical "tourism benchmarks" that influenced the geography and nature of travel and tourism.

GEOG 348 - International Perspectives on Tourism

Course Information

Teaching Area (new)
GEOG

Course Number
348

Teaching Area
GEOG

Course Title
International Perspectives on Tourism

Course Description
Patterns in international and domestic tourism; interrelationship between geography and tourism in understanding tourism patterns and their impact.

Department
Geography

When Taught
Winter.

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Global travel patterns

Tags
182810, 1

Learning Outcome
Explain global travel patterns using a conceptual framework.

Title
Travel outcomes

Tags
182812, 3

Learning Outcome
Outline the reasons why some people travel and others do not.

Title
Geography and tourism

Tags
182813, 4

Learning Outcome
Describe the interrelationships between geography and tourism within domestic and international contexts..

Title
Tourism impacts

Tags
182814, 5

Learning Outcome
Summarize the impact of tourism on various regions / areas of the world.

GEOG 349 - Global Adventure Travel

Course Information

Teaching Area (new)
GEOG

Course Number
349

Teaching Area
GEOG

Course Title
Global Adventure Travel

Course Description
Historical and emerging trends in global adventure travel and tourism. Detailed case studies selected from across world regions.

Department
Geography

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
LO1

Tags
182845, 1

Learning Outcome
Following this course the student should be able to discuss the spatial and historical origins of adventure travel including connections early geographical exploration.

Title
LO2

Tags
182846, 2

Learning Outcome
Following this course the student should be able to discuss and outline current geographic patterns in adventure travel--where, when, by whom, and why?

Title
LO3

Tags
182847, 3

Learning Outcome
Following this course the student should be able to apply core geographic principles to case studies involving the evolution of adventure travel in specific places.

Title
LO4

Tags
182848, 4

Learning Outcome
Following this course the student should be able to give specific examples of the impacts on places that have undergone transformations resulting from their emergence as popular adventure travel destinations.

GEOG 350 - Sustainable Tourism Planning & Development

Course Information

Teaching Area (new)
GEOG

Course Number
350

Teaching Area
GEOG

Course Title
Sustainable Tourism Planning & Development

Course Description
Applying regional development and planning concepts, principles, and approaches to tourism destinations to enhance sustainable economic, ecological, and social development.

Department
Geography

When Taught
Fall Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Recommended
Geog 347

Learning Outcomes

Title
Tourism planning concepts

Tags
182784, 1

Learning Outcome
Define and explain key concepts and issues concerning tourism planning and tourism public policy.

Title
Tourism development approaches

Tags
182785, 2

Learning Outcome
Critically evaluate several important tourism devlopment approaches and models.

Title
Tourism demand and supply and sustainability

Tags
182786, 3

Learning Outcome
Identify key elements of demand and supply in tourism planning within a sustainable tourism context.

Title
Tourism stakeholders and policy

Tags
182787, 4

Learning Outcome
Identify key stakeholders involved in tourism planning and policymaking.

Title
Tourism and society

Tags
182788, 5

Learning Outcome
Critically analyze the economic, environmental, social, and political aspects of tourism planning that promote long-term sustainable development.

Title
Tourism planning and development

Tags
182789, 6

Learning Outcome
Assess government and industry roles and responsibilities in tourism planning and policymaking that can be targeted to benefit local development opportunities.

GEOG 353 - Heritage and Cultural Tourism

Course Information

Teaching Area (new)
GEOG

Course Number
353

Teaching Area
GEOG

Course Title
Heritage and Cultural Tourism

Course Description
Heritage and culture (places, people, relics, and traditions) as tourism resources examined within the context of supply and demand, conservation, interpretation, management, planning, and politics.

Department
Geography

When Taught
Winter Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Recommended
Geog 120, 130, 347, 348

Learning Outcomes

Title
Learning Outcome #2

Tags
182797, 2

Learning Outcome
Explain why heritage attractions exist using geographic principles and concepts, including the factors of supply, demand and the reasons for conservation. Identify the various reasons why heritage sites are created and what this tells us about society.

Title
Learning Outcome #1

Tags
182796, 0, 1

Learning Outcome
Identify the concepts, theories, and approaches geographers use in the study of heritage and cultural tourism. Explain the role geography plays in this sub-discipline.

GEOG 399R - Academic Internship

Course Information

Teaching Area (new)
GEOG

Course Number
399R

Teaching Area
GEOG

182684, 0

GEOG 410 - Urban Planning Methods

Course Information

Teaching Area (new)
GEOG

Course Number
410

Teaching Area
GEOG

Course Title
Urban Planning Methods

Course Description
Applications of methods and techniques commonly used in the urban planning process, emphasizing data collection and analysis, fieldwork, and writing skills.

Department
Geography

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Recommended
Geog 310

Learning Outcomes

Title
Understanding the History and Theory of Urban Planning

Tags
182889, 1

Learning Outcome
Demonstrate planning methods that anticipate and envision future changes to society and the built environment, such as knowledge of forecasts, risk assessment, futures scenarios and other tools for creating plan alternatives. (PAB 4.2.2d)

Title
Possess the Skills Needed to Practice Planning

Tags
182890, 0, 2

Learning Outcome
Use numerical reasoning and computation skills to conduct quantitative analysis of social and geographic information for basic professional planning purposes, problems and projects. (PAB 4.2.3d.)

Title
Planning and Forecasting Methods

Tags
210656, 0, 3

Learning Outcome
Use forecasts and scenarios to anticipate and describe future changes in society and the built environment. (PAB 4.2.3g)

GEOG 411 - Issues in Computer Cartography

Course Information

Teaching Area (new)
GEOG

Course Number
411

Teaching Area

Prerequisites

Complete ALL of the following Courses:

- GEOG 312 - Cartographic Design

Learning Outcomes

Title
Application Development

Tags
182900, 3

Learning Outcome
Use programming to develop a geospatial application that integrates GIS, Remote Sensing, and Cartography.

Title
Web Map Design

Tags
182901, 2

Learning Outcome
Design effective maps and interactive web interfaces to serve a particular audience and purpose.

Title
Lifelong Learning

Tags
182902, 4

Learning Outcome
Learn new skills, technologies, and techniques on your own, using a variety of learning resources.

Title
Data collection

Tags
210591, 0, 1

Learning Outcome
Prepare high qualiry data needed for a cartographic project, including existing sources and new data.

GEOG 412 - Advanced Geographic Information Systems

Course Information

Teaching Area (new)
GEOG

Course Number
412

Teaching Area
GEOG

Course Title
Advanced Geographic Information Systems

Course Description
Performing geographic tasks in resource management decision support and scientific research using spatial data management and analysis tools and techniques.

Department
Geography

When Taught

Prerequisite

Prerequisites

Complete ALL of the following Courses:

- GEOG 212 - Introduction to Geographic Information Systems **AND** GEOG 311 - Intermediate Geographic Information Systems

Recommended
Geog 222

Learning Outcomes

Title
Continued Learning

Tags
182736, 3

Learning Outcome
Independently learn and implement new tools and procedures.

Title
Geographic Data Management

Tags
182737, 1

Learning Outcome
Obtain or create geographic data that is appropriate for a particular GIS need, and manage that data using technologies that are appropriate for that need.

Title
Analysis Procedures

Tags
182918, 2

Learning Outcome
Evaluate a geographic task (whether scientific or managerial), and develop and implement an analysis procedures to solve it.

Title
GIScience

Tags
182919, 4

Learning Outcome
Explain how the theoretical concepts of geography and geographic information form the basis of a geospatial dataset or spatial analytical procedure, and the problematic issues that may be inherent in them.

Title
Professional Habits

Tags
182920, 5

GEOG 413 - Remote Sensing 2

Course Information

Teaching Area (new)
GEOG

Course Number
413

Teaching Area
GEOG

Course Title
Remote Sensing 2

Course Description
Computer processing of low-altitude and satellite images for geographic analysis of physical and cultural phenomena on earth.

Prerequisites

Complete ALL of the following Courses:

- GEOG 313 - Remote Sensing 1

Learning Outcomes

Title
Data Pre-processing

Tags
182717, 0, 0

Learning Outcome
Understand and implement remote sensing pre-processing techniques.

Title
Image Classification

Tags
182690, 0, 1

Learning Outcome
Perform image classification and evaluate classification accuracy.

Title
Change Detection

Tags
182683, 0, 2

Learning Outcome
Understand and perform change detection.

Title
Problem Solving

Tags
182670, 0, 3

Learning Outcome
Complete an entire remote sensing project from beginning to end.

Course Information

Teaching Area (new)
GEOG

Course Number
414

Teaching Area
GEOG

Course Title
Low Altitude, Large-Scale Image Acquisition and Processing

Course Description
Small Unmanned Aerial Systems (sUAS) provide high-quality aerial imagery. Emphasizes flight planning, acquisition, and processing of sUAS data to study a variety of complex natural and human systems. Prepare and sit for FAA commercial sUAS license exam.

Department
Geography

When Taught
Fall

Recommended
Geog 212, 213, 313

Learning Outcomes

Title
Complex urban environments

Tags
182897, 1

Learning Outcome
Understand the complexity and heterogeneity of the urban environment.

Title
Geospatial technologies

Tags
182898, 2

Learning Outcome
Use Geographic Information Systems and remote sensing to map the biotic and abiotic components of the urban environment.

Title
Model urban processes

Tags
182899, 3

Learning Outcome
Use geospatial technologies to map and model complex urban processes.

GEOG 415R - Geographic Field Methods

Course Information

Teaching Area (new)
GEOG

Course Number
415R

Teaching Area
GEOG

Course Title
Geographic Field Methods

Course Description
Learning different methods used by geographers in the field through hands-on involvement in real faculty research.

Department
Geography

When Taught
Spring Term Odd Years

Credit Hours

Min:
1

Fixed/Max:
3

Lab Hours

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- GEOG 101 - Global Environment: Understanding Physical Geography

Learning Outcomes

Title
Field Work and the Scientific Method

Tags
182752, 1

Learning Outcome
Practice the scientific method, including developing research questions, conceptual framework, research design, sample collection, and data analysis

Title
Communication skills

Tags
182753, 2

Learning Outcome
Communicate scientific research by developing a professional-quality poster and presentation

Title
Literature

Tags
182694, 3

Learning Outcome
Conduct a thorough review of scientific literature to establish a conceptual framework for your research question.

Title
FIeldwork

Tags
182695, 1

Learning Outcome
Develop an appropriate field research design and carry it out, including sampling of vegetation and environmental data

Title
Communication

Tags
182706, 4

Learning Outcome
Communicate your research results orally and in writing

Title
Analysis

Tags
182710, 2

Learning Outcome
Conduct laboratory and statistical analysis of data collected in the field

Title
Research question and hypotheses

Tags
182720, 0

Learning Outcome
Develop a specific research question with testable hypotheses

GEOG 421 - Urban Planning Law

Course Information

Teaching Area (new)
GEOG

Course Number
421

Teaching Area
GEOG

Course Title
Urban Planning Law

Course Description
The political and legal context within which urban planning takes place.

Department
Geography

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lab Hours

Fixed:
0

Recommended
Geog 310

Learning Outcomes

Title
Understanding Human Settlements

Tags
182891, 1

Learning Outcome
Demonstrate knowledge of constitutional rights and principles, state and local government law, administrative rules and regulations, especially those focusing on the use and taxation of land. (PAB 4.2.1d)

Title
Understanding the History and Theory of Urban Planning

Tags
182892, 2

Learning Outcome
Explain the laws and policies relating to environmental planning and the principles and scientific support for assessing the capacity of natural and built resources. (PAB 4.2.2h)

Title
Understand the different values and ethical standards affecting the practice of planning

Tags
182893, 3

Learning Outcome
Demonstrate ability to comprehend and discriminate among the goals that an individual, group, community and organization holds when considering the future including the values of justice, equity, fairness, efficiency, order and beauty. (PAB 4.2.4a)
Demonstrate ability to assess and choose among different forms of democratic decision making that support and improve the quality of plans and planning related activity including the values of fair representation, equal opportunity and non-discrimination. (PAB 4.2.4b)
Demonstrate ability to compare and respect the complex social, historical and ecological legacies that accompanies urban settlement across the globe including the values of social equity, cultural and historical preservation and environmental conservation and sustainability. (PAB 4.2.4c)

GEOG 422 - Principles of Urban Design

Course Information

Teaching Area (new)
GEOG

Course Number
422

Teaching Area
GEOG

Course Title
Principles of Urban Design

Course Description
Theories and principles of urban design emphasizing specific design criteria. Planning and design tools used within the U.S. by local government. Basic principles of architecture and landscape architecture. Field trips.

Department

Recommended
Geog 310

Learning Outcomes

Title
Understanding Human Settlements

Tags
182546, 1

Learning Outcome
Demonstrate knowledge of the design arts (architecture, landscape architecture, art, urban design) including knowledge about the relationship between the design of the built environment and its functional, aesthetic and social precedents and consequences.

Title
Possess the Skills Needed to Practice Planning

Tags
182680, 1

Learning Outcome
Use written, oral and graphic skills to compose clear, accurate and compelling text, images and maps in documents and oral presentations.

GEOG 423 - Planning for Unique and Sensitive Lands

Course Information

Teaching Area (new)
GEOG

Course Number
423

Teaching Area
GEOG

Course Title
Planning for Unique and Sensitive Lands

Course Description
Unique aspects of land affecting land-use planning positively or negatively depending on sensitivity of design. Landscape ecological principles introduced and examined for usefulness in land-use planning.

Department

Geog 310

Learning Outcomes

Title
Understanding Human Settlements

Tags
182547, 1

Learning Outcome
Explain the environmental sciences (biology, ecology, environmental studies) including knowledge about ecological and physical systems in relation to human activity at different geographic scales.

Title
Possess the Skills Needed to Practice Planning

Tags
182894, 2

Learning Outcome
Use written, oral and graphic skills to compose clear, accurate and compelling text, images and maps in documents and oral presentations. (PAB 4.2.3c)

GEOG 424 - Urban Transportation Planning

Course Information

Teaching Area (new)
GEOG

Course Number
424

Teaching Area
GEOG

Course Title
Urban Transportation Planning

Course Description
Theories and principles of transportation planning emphasizing environmental, energy, economic, and social issues.

Department
Geography

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Recommended
Geog 310, 410

Learning Outcomes

Title
Understanding Human Settlements

Tags
182895, 1

Learning Outcome
Demonstrate knowledge of the social sciences (history, economics, sociology, political science, anthropology, psychology, geography) as they relate to human settlements including knowledge of the social and spatial structure of urban and regional systems, local public finance, economics of development, infrastructure provision and effects of globalization. (PAB 4.2.1a)

Title
Understanding the History and Theory of Urban Planning

Tags
182896, 2

Learning Outcome
Demonstrate knowledge of the institutions that both shape and respond to plans and planning-related activities: including knowledge of the economic, social and political institutions that influence planning and that are susceptible to purposeful change. At a minimum this study should include institutions across scale (e.g. local to global) and sector (e.g. public, private and nonprofit). (PAB 4.2.2c)

GEOG 441 - Seminar in Geography and Geospatial Intelligence 1.

Course Information

Teaching Area (new)
GEOG

Course Number
441

Teaching Area
GEOG

Course Title
Seminar in Geography and Geospatial Intelligence 1.

Course Description
Capstone seminar, part 1, for students in geospatial intelligence emphasis, emphasizing synthesis of material learned in major and application of knowledge and skills through research project.

Department
Geography

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Instructor's consent

Learning Outcomes

Title
The intelligence community

Tags
182728, 5

Learning Outcome
Understand the intelligence community in the US, with special emphasis on deficiencies and the need to improve it in accordance with 9/11 commission recommendations. Understand the need for intelligence in a time of continuing symmetric and assymetric threats. Be able to list the qualities required in an intelligence officer. Describe the ethics of an intelligence officer.

Title
Components of intelligence

Tags
182729, 4

Learning Outcome
Describe the use of intelligence collection (e.g. SIGINT, HUMINT), as welll as structured methods of analyzing the collected data. These are critical thinking methods. Be able to write intelligence reports (dissemination) at an introductory level. To a large extent, this is competence in all areas traditionally called the intelligence cycle.

Title
National security

Tags
182730, 7

Learning Outcome
Be able to discuss the major national security threats of the US as well as the actors of those threats. This will be done both topically (e.g. WMD) as well as by discussing current events (e.g. IS in Iraq). Students will also be able to analyze threats to national security as well as compose threat assessments of professional quality (given limited open-source data).

Title
All-source intelligence.

Tags
182735, 6

Learning Outcome
Demonstrate the need for all-source Intelligence as well as how to gather it, analyze it, and disseminate it. Students will be able to write reports (of entry level quality) from deep-search all-source intellligence.

GEOG 442 - Seminar in Geography and Geospatial Intelligence 2

GEOG

Course Title
Secondary Minor Student Teaching

Course Description
Supervised, full-day, four week experience to develop and demonstrate competence in teaching minor area course content in the secondary classroom.

Department
Geography

When Taught
Fall, Winter, Spring

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
0

Other Prerequisites
Sc Ed 377R or minor area equivalent; admittance to teaching major; FBI fingerprint background clearance.

GEOG 487 - Environment and Society: A Geographic Perspective

Course Information

Course Number
487

Teaching Area
GEOG

Course Title
Environment and Society: A Geographic Perspective

Course Description
Exploration of the dynamic relationship between the environment and human society from a geographic perspective.

Department
Geography

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Geographic knowledge

Learning Outcome
Communicate geographic concepts, tools, and methodologies, both human and physical, for analyzing the interaction between human societies and the environment and their interconnections with God's creations, thus preparing them for lifelong inquiry.

Title
Environmental issues

Learning Outcome
Identify, analyze, and critically assess various environmental issues and challenges facing communities and societies on local, regional, and global scales in ways that honor moral agency and promote the common good.

Title
Resource management

Learning Outcome
Describe the principles of resource management and the challenges of balancing resource utilization with conservation goals, and identify the blessings and responsibilities of righteous stewardship of the world that God has given us to live on.

Title
Communication and collaboration

Learning Outcome
Collaborate with other stakeholders to effectively to address environmental challenges and issues with a commitment to serving communities and advancing the welfare of God's children, using their skills to foster understanding and positive change in diverse audiences, reflecting Christlike attributes of humility and love.

Title
Geographic application

Learning Outcome
Apply geographic knowledge and skills to real-world environmental challenges and propose practical solutions and policy recommendations, and reflect on their role as geographers in improving the human condition through lifelong learning and service in their spiritual and professional lives.

GEOG 489 - Geographic Approaches to Contemporary Issues

Course Information

Course Number
489

Teaching Area
GEOG

Course Title
Geographic Approaches to Contemporary Issues

Course Description
Application of geographic approaches to analyze and address current global issues.

Department
Geography

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Geographic methods

Learning Outcome
Apply key geographic concepts, theories, and methods.

Title
Geographic approaches

Learning Outcome
Model how to approach contemporary global, regional, and local issues from a geographic perspective by seeing how faculty and others do it.

Title
Skills

Learning Outcome
Develop critical thinking, problem-solving, and data analysis skills using geographic data and methods.

Title
Communication

Learning Outcome
Enhance communication skills by presenting reasoned information on pressing issues and proposing informed solutions.

GEOG 493R - Special Problems

Course Information

Teaching Area (new)
GEOG

Course Number
493R

GEOG

Course Title
Special Problems

Course Description
Exploration of specific systematic or regional geographic themes.

Department
Geography

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
3

Lab Hours

Fixed:
0

Other Prerequisites
Geography major or departmental approval

Learning Outcomes

Title
Special Topics

Tags
182678, 0

Learning Outcome
Under the direction of a mentoring professor, students will critically examine, investigate, and integrate the literature for a topic of interest in geography.

Title
Supported learning

Tags
182769, 1

Learning Outcome
Students will learn to investigate a problem on their own with the support of a faculty member.

GEOG 495R - Mentored Research

Course Information

Teaching Area (new)
GEOG

Course Number
495R

Teaching Area
GEOG

Course Title
Mentored Research

Course Description
Participating in research integrating material learned in major. Emphasizes individual or collaborative research and creative thinking through active learning and reflective analysis.

Department
Geography

When Taught
All Semesters/Terms

Credit Hours

Min:
1

Fixed/Max:
3

Learning Outcomes

Title
Mentored Research

Tags
182708, 0

Learning Outcome
Students will conduct research with a mentoring professor which may include literature reviews, data collection, data coding, data management, data analysis, constructing statistical tables, writing proposals for conferences, and writing manuscripts to be submitted for publication.

Title
Learning on your own

Tags
182770, 1

Learning Outcome
Students will learn to investigate a problem on their own with the support of a faculty member.

GEOG 503 - Geographic Information Systems

Course Information

Teaching Area (new)
GEOG

Course Number
503

Teaching Area
GEOG

Course Title
Geographic Information Systems

Course Description
Using geographic information for solving advanced spatial problems. Introduction to using and producing maps and computer-based geographic information systems (GIS) as geographic tools. Hands-on research applications in the students' disciplines.

Department
Geography

When Taught
Fall and Winter

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
1

Other Prerequisites
Graduate standing

Note
For nonmajors who have not taken Geog 211 or 212 or equivalent.

Learning Outcomes

Title
GIScience

Tags
182868, 1

Learning Outcome
Understand basic spatial concepts and data models that form the foundation of GIS.

Title
GIS Applications

Tags
182869, 2

Learning Outcome
Describe several applications in which GIS is used to solve geographic problems.

Title
GIS Analysis

Tags
182870, 3

Learning Outcome
Analyze data using GIS to solve real world problems.

Title
Data Management

Tags
182871, 4

Learning Outcome
Acquire geospatial data from common sources and manipulate them for a specific application.

Title
Cartography and Visualization

Tags
182872, 5

Learning Outcome
Design and use maps to explore and communicate geospatial information.

GEOG 510 - Professional Planning Studio

Course Information

Teaching Area (new)
GEOG

Course Number
510

Teaching Area
GEOG

Course Title
Professional Planning Studio

Course Description
Assessing problem and issue identification, goal formulation, data gathering, synthesis and summary, plan concept and format, and public policy adoption while writing a general plan for a community in Utah.

Department
Geography

When Taught
Winter

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
4

Lab Hours

Fixed:
0

Recommended
Geog 410

Learning Outcomes

Title
Community Connection/Engagement

Tags
182758, 2

Learning Outcome
Engage with diverse communities, especially those with disadvantaged groups and persons and racial and ethnic minorities, or immigrant communities. (PAB 4.2.3i)

Title
Plan implementation

Tags
182759, 3

Learning Outcome
Through synthesis and application, demonstrate techniques for the intended development, adoption, and implementation of plans including relevant regulations, incentives, techniques and technologies. (PAB 4.2.3h)

Title
Plan preparation

Tags
182760, 4

Learning Outcome
Integrate and implement concepts regarding the creation of plans, programs or projects to prepare a crafted product for a specific planning purpose and audience; demonstrating skill and judgment preparing a planning project that meets minimum professional standards. (PAB 4.2.3f)

Title
Collaboration

Tags
182761, 5

Learning Outcome
Successfully collaborate with peers in joint learning activities organized to produce a plan or planning product for a relevant professional clientele, to mediate disagreements, to interpret contested purposes, and to negotiate between diverse and competing interests. (PAB 4.2.3e)

Title
Communication

Tags
182762, 6

Learning Outcome
Create and compose clear, accurate and compelling text, images and maps in documents and oral presentations, particularly for public presentations. (PAB 4.2.3c)

Title
Problem solving

Tags
182763, 1

Learning Outcome
Employ problem solving skills to select, diagnose and solve aspects of a complex planning problem including attention to the needs and interests of diverse stakeholders and the guidance provided by conceptual and empirical expertise. (PAB 4.2.3a)

GEOG 521R - Geographic Information Practicum

Course Information

Teaching Area (new)
GEOG

Course Number
521R

Teaching Area
GEOG

Course Title
Geographic Information Practicum

Course Description
Integration of various geographic technologies to solve a practical problem. Advanced topics in GIS, remote sensing, cartography, and programming as needed.

Department
Geography

When Taught
Winter Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- GEOG 212 - Introduction to Geographic Information Systems **AND** GEOG 217 - Programming for Geographers I

Recommended
Geog 222, 311, 312, 313, 317, 412.

Learning Outcomes

Title
Practicum

Tags
182671, 0

Learning Outcome
Students will learn integration of various geographic technologies to solve a practical problem using advanced topics in GIS, remote sensing, cartography, and programming as needed.

Title
Application Development

Tags
182849, 1

Learning Outcome
Use programming to develop an geospatial application that integrates GIS, Remote Sensing, and Cartography.

Title
Web Map Design

Tags
182850, 2

Learning Outcome
Design effective maps and interactive web interfaces to serve a particular audience and purpose.

Title
Lifelong Learning

Tags
182851, 3

Learning Outcome
Learn new skills, technologies, and techniques on your own, using a variety of learning resources.

GEOL 100 - Dinosaurs

Course Information

Teaching Area (new)
GEOL

Course Number
100

Teaching Area
GEOL

Course Title
Dinosaurs

Course Description
Hands-on examination of vertebrate fossils -- especially dinosaurs. For nonscience majors. Field trips.

Department
Geological Sciences

When Taught
Fall, Winter, Spring

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
1

Lab Hours

Fixed:
2

Learning Outcomes

Title
Relationship between Science & Religion

Tags
204515, 1

Learning Outcome
Be able participate in meaningful discussions on the relationships of science and religion.

Title
Deep Time, Diversity of Life, Plate Tectonics

Tags
204516, 2

Learning Outcome
Confidently explain the relationships between deep time, the diversity of life, and plate tectonics.

Title
How Science Works

Tags
204517, 3

Learning Outcome
Be able to explain how science works via examples from geology and paleontology.

Title
Awe & Wonder

Tags
204518, 4

Learning Outcome
Have an infectious sense of awe and wonder for today's biotic and abiotic realms as part of an ever-changing Earth.

Title
Genealogy of the Dinosauria

Tags
204519, 5

Learning Outcome
Using cladistic methods be able to explain the basic phylogenetic relationships within Dinosauria, including birds.

Title
Faith in Jesus Christ

Learning Outcome
Increase faith in Jesus Christ through (1) a study of the history and relationahips of His creations and (2) gospel discussions.

Title
Increase testimony of living prophets and apostles

Learning Outcome
Increase testimony of living prophets and apostles via discussions of their words and teachings.

GEOL 101 - Introduction to Geology

Course Information

Teaching Area (new)
GEOL

Course Number
101

Teaching Area
GEOL

Course Title
Introduction to Geology

Course Description
Cultural focus on physical and environmental geology for nonscience majors; rocks and minerals. Field trips.

Department
Geological Sciences

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
1

Note
Also offered by BYU Independent Study; enroll anytime throughout year; one year to complete; additional tuition required; register at is.byu.edu.

Learning Outcomes

Title
Tectonic System

Tags
204627, 2

Learning Outcome
1. Learn the basic evidences and ideas that support the Theory of Plate Tectonics.2. Understand how the plate tectonic system works, including the role of the different types of plate boundaries and the forces that help to drive the system.3. Learn how the plate tectonic system has helped to shape the Earth's surface.

Title
Geologic Time

Tags
204631, 3

Learning Outcome
1. Gain a greater insight into the enormous length of geologic time and the evidences that support this claim.2. Learn the different ways that scientists can determine geologic ages.

Title
Hydrologic System

Tags
204657, 1

Learning Outcome
1. Understand how the hydrologic system helps to shape the Earth and how the different sub-systems interact.2. Learn the reasons for climate change in both ancient and modern times.

Title
Other Planets

Tags
204661, 4

Learning Outcome
Learn how and why the other planets and moons in our solar system are different from Earth.

Title
Rocks and Minerals

Tags
204665, 0

Learning Outcome
1. Understand the difference between minerals and rocks.2. Be able to identify common rocks and minerals.3. Know where and when the basic rock and mineral types form and how they are related to the hydrologic and tectonic systems.

Title
Graphics

Tags
204806, 5

Learning Outcome
Understand and utilize scientific graphs, charts, maps, and images.

GEOL 102 - Geological Field Studies

Course Information

Teaching Area (new)
GEOL

Learning Outcomes

Title
Water Resources and Human Society

Learning Outcome
Students will be able to effectively describe the two-way relationship between water resources and human society: how water availability and quality affect economic opportunities and human well-being and how human activity affects water resources.

Title
Distribution of Water

Learning Outcome
Students will be able to knowledgeably explain the distribution and dynamics of water at the surface and in the subsurface of Earth and how the distribution and characteristics are expected to change over the next 50 years.

Title
Data Analysis

Learning Outcome
Students will be able to identify appropriate data collection practices for a variety of hydrologic data, synthesize and analyze data from multiple sources, and interpret the results; develop strategies and best practices to decrease water stress and increase water quality.

Title
Public Policy

Learning Outcome
Students will be able to thoughtfully evaluate information and policy statements regarding the current and future predicted state of water resources, and communicate their evaluations in terms that can be understood by the general public.

GEOL 108 - Climate and the Earth System

Course Information

Teaching Area (new)
GEOL

Course Number
108

Teaching Area
GEOL

Course Title
Climate and the Earth System

Course Description
Chemical, physical, and biological processes shaping the Earth's surface and climate, emphasizing quantitative methods for measuring and evaluating contemporary climate and environmental changes relative to the last several thousand years.

Department
Geological Sciences

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Learning Outcomes

Title
Fundamentals

Tags
204760, 1

Learning Outcome
Define and describe the components and dynamics of Earth's climate system.

Title
Climate Change

Tags
204761, 2

Learning Outcome
Discuss the causes (forcings) of climate change, the natural response of the many components of Earth's climate system to those forcings, and the interactions and feedbacks among these components.

Title
Climate History

Tags
204762, 3

Learning Outcome
Evalute the evidence for and causes of climate change throughout Earth's history and assess the role of greenhouse gases within the climate system at multiple time scales (from tectonic-scale changes to anthropogenic changes).

Title
Quantitative Reasoning

Tags
204763, 4

Learning Outcome
Quantify the response of the climate system to changes in climate forcings through problem sets and laboratory experiments. Use these results to critically evaluate climate sensitivity and climate change over time.

GEOL 109 - Geology of the Planets

Course Information

Teaching Area (new)
GEOL

Course Number
109

Teaching Area
GEOL

Course Title
Geology of the Planets

Course Description
Origins and distinctive histories of the planets in our solar system as revealed by study of their surface features.

Department
Geological Sciences

When Taught
Fall and Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Note
For nonscience and science majors.

Learning Outcomes

Title
Scientific Method

Tags
204520, 1

Learning Outcome
Learn to piece together new information, draw inferences, reexamine older geological theories based only on our terrestrial experience, and formulate new theories about the way planets behave and how they originated. Finally, you may be able to propose novel ways to test these new ideas.

Title
History of the Solar System

Tags
204521, 2

Learning Outcome
Be able to reconstruct the histories of the planets, their moons, and other bodies.

Title
Geology Fundamentals

Tags
204522, 3

Learning Outcome
Understand the fundamental principles of geology by studying the development of the planetsin the solar system.

Title
Life on Earth

Tags
204523, 4

Learning Outcome
Gain a greater appreciation of how our own planet functions and why it is uniquely suited for life.

GEOL 110 - Geological Science Laboratory

Course Information

Teaching Area (new)
GEOL

Course Number
110

Teaching Area
GEOL

Course Title
Geological Science Laboratory

Course Description
Minerals, rocks, and landforms; the use of topographic and geologic maps; the interpretation of aerial photos.

Department
Geological Sciences

When Taught
Fall

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
2

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- GEOL 101 - Introduction to Geology

Learning Outcomes

Title
Geological Materials

Tags
204634, 0

Learning Outcome
1. Learn the basic mineral types, how they form, and how they differ structurally.2. Understand how minerals are put together to form rocks.3. Learn the names and how to recognize the basic sedimentary, igneous, and metamorphic rock types.

Title
Tectonic Sytems

Tags
204676, 2

Learning Outcome
1. Learn the basic workings of the Earth's tectonic system and the evidences that support the plate tectonic theory. Successfully complete lab activities that elucidate these concepts.2. Understand how to interpret geologic structures and rocks in terms of the tectonic system.

Title
Hydrosphere

Tags
204681, 1

Learning Outcome
1. Understand the basic atmospheric and hydrologic systems and how they affect the Earth's rocks. Demonstrate this by completing lab activities treating this subject.2. Learn how man has influenced these systems and what the possible future outcomes of this influence might be.

Title
Science and Society

Tags
204727, 3

Learning Outcome
1. Understand the nature of fossil fuel resources, their origin, and the magnitude of reserves of coal, oil, natural gas, etc.2. Understand the nature of metallic resources, including their origin, distribution across the globe, and the magnitude of reserves.3. Appreciate the environmental consequences of fossil fuel and metallic resource extraction.4. Become aware of the major hazards posed by earthquakes, volcanic eruptions, and their attendant phenomena.5. Understand the fundamental processes that regulate the climate, as well as the role of human activity in climate change.6.Complete lab activities that demonstrate the relationship between geological processes and human activities.

GEOL 111 - Physical Geology

Course Information

Teaching Area (new)
GEOL

Course Number
111

Teaching Area
GEOL

Course Title
Physical Geology

Course Description
Materials, structure, and surface features of the earth and the geologic processes involved in their development. Field trips and lab studies, use of aerial photos.

Department
Geological Sciences

When Taught
Fall

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
2

Learning Outcomes

Title
Writing

Tags
204524, 4

Learning Outcome
Learn some fundamental skills in preparation to conduct research and ultimately write research papers in other classes, including:
1. Using online databases (GEOREF, Web of Science) to obtain information on a particular topic.
2. Using online resources (Refworks) to manage and format references.
3. Reading articles in the primary geologic literature and drawing out primary information such as the topic of and article and its conclusions even if the student is not prepared (at this stage) to understand the methodology employed.
4. Appreciate the need to properly format cited literature in a research paper.
5. Learn the content and proper voice for the abstract of a research paper.

Title
Geology, the Environment, and Humankind

Tags
204525, 5

Learning Outcome
1. Understand the nature of fossil fuel resources, their origin, and the magnitude of reserves of coal, oil, natural gas, etc.
2. Understand the nature of metallic resources, including their origin, distribution across the globe, and the magnitude of reserves.
3. Appreciate the environmental consequences of fossil fuel and metallic resource extraction.
4. Become aware of the major hazards posed by earthquakes, volcanic eruptions, and their attendant phenomena.
5. Understand the fundamental processes that regulate the climate, as well as the role of human activity in climate change.

Title
Dynamics of the Hydrosphere

Tags
204644, 1

Learning Outcome
1. Understand the basic atmospheric and hydrologic systems and how they affect the Earth's rocks.2. Learn how man has influenced these systems and what the possible future outcomes of this influence might be.

Title
Earth Materials

Tags
204680, 0

Learning Outcome
1. Learn the basic mineral types, how they form, and how they differ structurally.2. Understand how minerals are put together to form rocks.3. Learn the names and how to recognize the basic sedimentary, igneous, and metamorphic rock types.

Title
Dynamics of the Tectonosphere

Tags
204730, 2

Learning Outcome
1. Learn the basic workings of the Earth's tectonic system and the evidences that support the plate tectonic theory.2. Understand how to interpret geologic structures and rocks in terms of the tectonic system.

Title
Introduction to Earth Systems and Heat Transfer

Tags
204756, 5

Learning Outcome
1. Learn or review the large scale features of the Earth's interior and exterior, including the basic features of the tectonic and hydrological systems.2. Appreciate the role of heat transfer, and in particular convection, in making both the hydrosphere and tectonosphere dynamic.

GEOL 112 - Historical Geology

Course Information

Teaching Area (new)
GEOL

Course Number
112

Teaching Area
GEOL

Course Title
Historical Geology

Course Description
Developmental history of the earth, its landforms, and life forms, emphasizing the North American continent. Field trips and lab studies.

Department
Geological Sciences

When Taught
Winter

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
2

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- GEOL 111 - Physical Geology

Learning Outcomes

Title
Fundamentals

Tags
204526, 1

Learning Outcome
Demonstrate understanding of the fundamentals of uniformitarianism and the scientific methods for determining the relative and absolute ages of Earth materials and events.

Title
Sedimentary Rock Record

Tags
204527, 2

Learning Outcome
Demonstrate a basic understanding of the origin and historical significance of sedimentary rocks. Be able to identify common clastic and non-clastic sedimentary rock types in hand sample and on outcrop. Be able to determine the depositional environment from rock type and outcrop pattern. Understand the age and significance of Sloss' depositional sequences.

Title
The Record of Life

Tags
204528, 3

Learning Outcome
Be able to recognize the nature and mode of fossil preservation. Be able to identify the major invertebrate fossil groups and signify the environmental significance of each. Use fossils to recognize the age of sedimentary strata.

Title
Descent with Modification

Tags
204529, 4

Learning Outcome
Demonstrate a basic knowledge of organic evolution including the key concepts of natural selection and its role in producing the fossil record. Be able to explain the evidence that led Darwin to the theory of natural selection as well as post-Darwinian discoveries.

Title
Ecological Evolution

Tags
204530, 5

Learning Outcome
Understand that modern Earth is a product of the coevolution of the biosphere, lithosphere, atmosphere, and hydrosphere over 4.6 billion years of earth history. Demonstrate knowledge of key biological, depositional, tectonic, and climatic events in the context of the geological timescale.

Title
Geological Maps

Tags
204531, 6

Learning Outcome
Be able to decipher the geological history of an area from a geological map.

Title
Communicating Science

Tags
204532, 7

Learning Outcome
Demonstrate mastery of a scientific concept and ability to convey that concept to a body of peers using PowerPoint and/or other professional means.

GEOL 113 - Historical Geology Lab

Course Information

Teaching Area (new)
GEOL

Course Number
113

Teaching Area
GEOL

Course Title
Historical Geology Lab

Course Description
Applying fossils, rocks, stratigraphy, correlation, and geologic maps to interpret Earth's history.

Department
Geological Sciences

When Taught
Winter

Credit Hours

Min:
1

Fixed/Max:
1

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
2

Other Prerequisites
Geol 103 or concurrent enrollment.

Note
This course is for students who have completed GEOL 103 (Life of the Past) and who would like to get credit for GEOL 112 (Historical Geology).

Learning Outcomes

Title
The Record of Life

Tags
204793, 1

Learning Outcome
Be able to recognize the nature and mode of fossil preservation. Be able to identify the major invertebrate fossil groups and signify the environmental significance of each. Use fossils to recognize the age of sedimentary strata.

Title
Geological Maps

Tags
204794, 2

Learning Outcome
Be able to decipher the geological history of an area from a geological map.

GEOL 210 - Field Studies

Course Information

Teaching Area (new)
GEOL

Course Number
210

Teaching Area
GEOL

Course Title
Field Studies

Course Description
Procedures in observing, collecting, and recording field data concerning properties of rock units.

Department
Geological Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
0

Lab Hours

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- GEOL 111 - Physical Geology
  AND GEOL 112 - Historical Geology

Note
Contact Geological Sciences Department before April 15 for dates of upcoming August trip.

Learning Outcomes

Title
Geologic Tools

Tags
204533, 1

Learning Outcome
Learn how to take accurate and complete field notes.
Learn how to use a compass to measure strike and dip on outcrops in the field.
Learn how to read topographic and geologic maps and relate the map to what you see in the field.

Title
Collecting and Interpreting Geologic Data

Tags
204534, 3

Learning Outcome
Learn the basics of making a geologic map.
Learn how to interpret the geology on a map to draw a geologic cross-section.
Write up the results of data you collected along with your interpretation in a clear, consise manner.

Title
Rock and Minerals

Tags
204535, 2

Learning Outcome
Review rocks and minerals learned in earlier courses and be able to accurately identify them in the field.
Understand the relationships between igneous rocks and minerals and magmatic processes.
Understand the relationships between metamorphic rocks and minerals and the processes that formed them.
Understand the significance of sedimentary rocks in understanding depositional systems and regional tectonics.

Title
Field Observation

Tags
204536, 4

Learning Outcome
Become detailed observers of field geology

Title
Utah's National Parks

Tags
204537, 5

Learning Outcome
Understand the formative processes of the geology of Utah's National Parks including Zion NP, Bryce Canyon NP, and Capitol Reef NP.

Title
Landscape Evolution

Tags
204538, 6

Learning Outcome
Develop an understanding of the interelationships of stratigraphy, structural geology, and surficial processes on landscape evolution.

GEOL 230 - Earth Data Visualization

Course Information

Teaching Area (new)
GEOL

Course Number
230

Teaching Area
GEOL

Course Title
Earth Data Visualization

Course Description
Introduction to writing within the discipline and designing and creating publishable geologic maps and illustrations. Tools include ArcGIS, Adobe Illustrator, and Photoshop. Student portfolio initiated.

Department
Geological Sciences

When Taught
Fall

Type
Prerequisite

Complete ALL of the following Courses:
- GEOL 230 - Earth Data Visualization

Learning Outcomes

Title
Developing Scientific Questions for GIS

Learning Outcome
Identify and develop scientific questions and datasets that can be answered using GIS methods and tools.

Title
GIS Methods and Tools

Learning Outcome
Find and apply GIS tools to analyze scientific questions and troubleshoot issues if/when necessary.

Title
GIS Software and Techniques

Learning Outcome
Apply a variety of different GIS programs and techniques (e.g., ArcGIS Pro, ESRI Field Maps, and remote sensing technologies) in their geologic investigations.

Title
Communicating GIS Information

Learning Outcome
Use ArcGIS Pro and ArcGIS Online tools to create professional presentations of their scientific investigations.

GEOL 330 - Engineering Geology

Course Information

Lab Hours

Fixed:
4

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- MATH 112 - Calculus 1

Other Prerequisites
Chem 105 or 111 or concurrent enrollment

Learning Outcomes

Title
Fundamentals

Tags
204543, 1

Learning Outcome
Demonstrate understanding of the fundamental ideas that govern the arrangement of atoms into a crystalline structure (chemical bonding, atomic size, coordination number, polymerization of polyhedra, bond strength and bond valence, stability, etc.)

Title
Symmetry of Crystals

Tags
204544, 2

Learning Outcome
Demonstrate a basic understanding of atomic level symmetry. Enumerate and describe the crystal systems in terms of both symmetry and unit-cell metrics, recognize symmetry elements in well-formed natural crystals, and determine crystal classes of such crystals.

Title
Instrumental Methods

Tags
204545, 3

Learning Outcome
Describe the applications and limitations of important instrumental/analytical methods used in mineralogy.

Title
Mineral Identification

Tags
204546, 4

Learning Outcome
Identify specimens of the 60-70 most common minerals at least 70% of the time.

Title
Phenomena

Tags
204547, 5

Learning Outcome
Demonstrate an understanding of the mechanisms and implications of various mineralogical phenomena, including solid solution, exsolution, polymorphism, atomic ordering, polytypism, color, and twinning.

Title
Relationships

Tags
204548, 6

Learning Outcome
Discuss the interrelationships among crystallography, composition, and the physical properties of minerals.

Title
Application

Tags
204549, 7

Learning Outcome
Demonstrate the ability to apply principles learned to minerals not specifically encountered in the course.

Title
Computer Software

Tags
204550, 8

Learning Outcome
Use computer software for reduction of mineralogical data and be able to discuss its limitations.

Title
Scientific Inquiry and Writing

Tags
204551, 9

Learning Outcome
Demonstrate the ability to work in teams to collect and analyze mineralogical data and incorporate it into an original, high quality research paper on an assigned subject of mineralogical significance.

GEOL 352 - Petrology

Course Information

Teaching Area (new)
GEOL

Course Number
352

Teaching Area
GEOL

Course Title
Petrology

Course Description
Compositions, fabrics, and field relations of igneous and metamorphic rocks; behavior of rock-forming systems. Field trips.

Department
Geological Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Complete ALL of the following Courses:

- CHEM 105 - General College Chemistry 1 with Lab (Integrated)
  AND GEOL 210 - Field Studies
  AND GEOL 351 - Mineralogy

OR

Prerequisites

Complete ALL of the following Courses:

- CHEM 111 - Principles of Chemistry 1
  AND GEOL 210 - Field Studies
  AND GEOL 351 - Mineralogy

Learning Outcomes

Title
Magma Generation and Evolution

Tags
204552, 1

Learning Outcome
Explain how magmas form and differentiate at divergent and convergent plate boundaries and at mantle plumes.

Title
Metamorphism

Tags
204553, 2

Learning Outcome
Describe how metamorphic rocks form and their relationships to global tectonics.

Title
Petrography

Tags
204554, 3

Learning Outcome
Identify the minerals and rock types using hand samples and thin sections of the major rock types.

GEOL 370 - Sedimentology and Stratigraphy

Course Information

Teaching Area (new)
GEOL

Course Number
370

Teaching Area
GEOL

Course Title
Sedimentology and Stratigraphy

Course Description
Erosion; sediment entrainment, transport, and deposition; depositional systems and facies analysis; principles of stratigraphy. Field trips.

Department
Geological Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Prerequisites

Complete ALL of the following Courses:

- GEOL 112 - Historical Geology
  AND GEOL 210 - Field Studies
  AND GEOL 230 - Earth Data Visualization

Learning Outcomes

Title
Application of Concepts

Tags
204555, 1

Learning Outcome
Apply problem solving, critical thinking, and communication skills relative to depositional models and interpreting the stratigraphic record.

Title
Depositional Systems

Tags
204556, 2

Learning Outcome
Understand depositional systems, facies relationships, and introductory aspects of sequence stratigraphy.

Title
Process Sedimentology

Tags
204557, 3

Learning Outcome
Discuss processes and forces that weather, transport, and deposit sedimentary grains under both sunaqueous and subarial conditions.

Title
Rock Classification

Tags
204558, 4

Learning Outcome
Observe and describe sedimentary rocks objectectively. Gain the ability to communicate using appropriate scientific vocabulary.

GEOL 375 - Structural Geology

Course Information

Teaching Area (new)
GEOL

Course Number
375

Teaching Area
GEOL

Course Title
Structural Geology

Course Description
Geometric, kinematics, and dynamic analysis of tectonic structures. Several studies will be conducted in the field.

Department
Geological Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
2

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- GEOL 210 - Field Studies
  AND GEOL 230 - Earth Data Visualization
  AND MATH 112 - Calculus 1

Other Prerequisites
Geol 351 or concurrent enrollment; Phscs 105 or concurrent enrollment.

Learning Outcomes

Title
General Statement of Course Objectives

Tags
204559, 1

Learning Outcome
My goal is for each of student to learn to become a part of the ongoing conversation about how Earth's crust deforms. This means learning the language of structural geology and using it to share the discoveries they make for themselves. Discoveries in structural geology come through applying best-fit kinematic and dynamic models to geometric reconstructions of observed geological structure. The discovery is complete when they are communicated effectively through writing, illustrations and oral presentation.

Title
Identify in the field and interpret the major deformational

Tags
204560, 2

Learning Outcome
1. Identify and measure brittle Structure (extensional and shear fractures, fault-related folds)
2. Identify and measure ductile Structure (flow folds, cleavage, foliation and rock fabrics)

Title
Conduct a geometric structural analysis

Tags
204561, 3

Learning Outcome
1. Acquire reliable measurements of the geometry of structures with a compass
2. Present and manipulate data using stereographic projection
3. Interpret stress and kinematic histories from structural measurements
4. Infer geometry of subsurface and missing parts of structures from measurements in order to construct a viable geologic cross-section.

Title
Conduct a kinematic structural analysis

Tags
204562, 4

Learning Outcome
1. Identify and interpret sense-of-shear indicators associated with both brittle and ductile structures in the field
2. Reconstruct the deformation path of a structural feature or deformed region

Title
Conduct a Dynamic Sturctural Analysis

Tags
204563, 5

Learning Outcome
1. Derive the normal and shear stress components for rock failure from lab data.
2. Use these results to derive the constituitive equations for deformation
3. Quantify the contribution of each deformational mechanism in a region.

Title
Forecast the next major earthquake along the Wasatch Fault

Tags
204564, 6

Learning Outcome
1. Measure the orientation, slip rate and direction of the Wasatch Fault
2. Combine these measurements with GPS and EDM results on strain accumulation rates
3. Determine the most likely location and magnitude of the next large earthquake along the Wasatch Fault.

Title
Societal relevance of structural geology

Tags
204565, 7

Learning Outcome
1. Use structural data to predict the best location to drill for water, oil and gas.
2. Use structural data to predict the location of mineral resources
3. Use structural data to predict the environmental impact of toxic waste disposal

Complete ALL of the following Courses:

- GEOL 111 - Physical Geology
  AND MATH 113 - Calculus 2

Recommended
Geol 230

Learning Outcomes

Title
Mathematical Methods

Tags
204764, 1

Learning Outcome
Determine appropriate mathemathical methods to solve a given geological problem.

Title
Mathematical Solutions

Tags
204765, 2

Learning Outcome
Set up equations describing geological problems and solve them symbolically.

Title
Quantitative Reasoning

Tags
204766, 3

Learning Outcome
Discuss the relevance of a given quantitative solution to our understanding of the geological system of interest.

Title
Mathematical Presentation

Tags
204767, 4

Learning Outcome
Present quantitative solutions in a logical, understandable manner emphasizing the geological relevance of the problem.

GEOL 411 - Geomorphology and Remote Sensing

Course Information

Teaching Area (new)
GEOL

Course Number
411

Teaching Area
GEOL

Course Title
Geomorphology and Remote Sensing

Course Description
Interpretive analysis of landforms and their geologic significance. Use of aerial/satellite images of Earth and other planets, topographic/bathymetric maps, multi-wavelength image data. Field trips.

OR

Prerequisites

Complete ALL of the following Courses:

- GEOL 330 - Engineering Geology

Learning Outcomes

Title
Form and Process

Tags
204566, 1

Learning Outcome
Understand the relationships between landscapes and the processes that created them

Title
Interpretation of Landscape

Tags
204567, 2

Learning Outcome
Develop an ability to read and interpret geology and geomorphology from topographic maps, air photos, and satellite data

Title
Quantifying Process

Tags
204568, 3

Learning Outcome
Become comfortable with quantitative analyses of landforms and geomorphic processes

Title
Change over Time

Tags
204569, 4

Learning Outcome
Acquire an appreciation for the unique and complex way the landscapes of Earth and the planets evolved to their present-day morphologies

GEOL 420 - Geological Field Methods

Complete ALL of the following Courses:

- GEOL 352 - Petrology
  AND GEOL 370 - Sedimentology and Stratigraphy
  AND GEOL 375 - Structural Geology

Other Prerequisites
Concurrent enrollment in Geol 421 .

Fee
550

Learning Outcomes

Title
Stratigraphy

Tags
204786, 1

Learning Outcome
Measure and describe a "section" of sedimentary strata, and subdivide the section into lithostratigraphic units.

Title
Sedimentology

Learning Outcome
Interpret rock features in context of sedimentary depositional models.

Title
Structural geology

Learning Outcome
Collect and interpret structural data, including attitudes of contacts, fractures, faults, fold hinge lines and dip domains, cleavage and foliation, lineations and estimates of strain and paleostress directions.

Title
Hydrogeology

Learning Outcome
Evaluate fluid flow in the context of structural features (e.g. faults and joints).

GEOL 421 - Geological Mapping

Course Information

Teaching Area (new)
GEOL

Course Number
421

Teaching Area
GEOL

Course Title
Geological Mapping

Course Description
Application of field procedures and mapping techniques to a variety of geologic problems. Synthesis of geologic principles leading to the construction and interpretation of geologic maps.

Department
Geological Sciences

When Taught
Spring Term

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- GEOL 352 - Petrology
  AND GEOL 370 - Sedimentology and Stratigraphy
  AND GEOL 375 - Structural Geology

Other Prerequisites
Concurrent enrollment in Geol 420.

Learning Outcomes

Title
Geologic mapping

Tags
204787, 1

Learning Outcome
Demonstrate proficiency in basic mapping skills, such as locating formational contacts, measuring strike and dip, and drawing a map and cross-section.

Title
Metamorphic rocks

Learning Outcome
Map, describe and interpret a suite of metamorphic rocks.

Title
Igneous rocks

Learning Outcome
Map, describe and interpret intrusive and extrusive igneous rocks.

Title
Geologic reports and illustrations

Learning Outcome
Communicate geologic results through reports and illustrations.

GEOL 422 - Geologic Writing

Course Information

Teaching Area (new)
GEOL

Course Number
422

Teaching Area
GEOL

Course Title
Geologic Writing

Course Description
Preparation of professional geologic reports and illustrations using digital tools.

Department
Geological Sciences

When Taught
Spring Term

Complete ALL of the following Courses:

- GEOL 352 - Petrology
  AND GEOL 370 - Sedimentology and Stratigraphy
  AND GEOL 375 - Structural Geology

Other Prerequisites
concurrent enrollment in Geol 420 and Geol 421.

Learning Outcomes

Title
GEOL 422 - Scientific Writing

Tags
204788, 1

Learning Outcome

Produce a synthesis report describing the rock column, structural styles, and geologic history of the field mapping area in the context of plate tectonics.
Create professional figures using ArcGIS and Illustrator.
Demonstrate increased proficiency in the student's chosen career pathway by participating in deeper learning experience.

GEOL 430 - Senior Thesis

Course Information

Teaching Area (new)
GEOL

Course Number
430

Teaching Area
GEOL

Course Title
Senior Thesis

Course Description
Faculty-supervised research on a project of limited scope. Project is chosen and completed by the student. Written and oral presentation of findings required.

Department
Geological Sciences

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:

  AND GEOL 375 - Structural Geology

Learning Outcomes

Title
Research Experience

Tags
204709, 0

Learning Outcome
1. Gain a greater understanding of your area of interest by working on a mentored research project under the supervision of a faculty member.2. Learn better writing and communication skills by compiling your research into a senior thesis.

GEOL 435 - Groundwater

Course Information

Teaching Area (new)
GEOL

Course Number
435

Teaching Area
GEOL

Course Title
Groundwater

Course Description
Introduction to the occurrence, movement, and properties of subsurface water. Topics include surface and groundwater relationships, water budgets and the hydrologic cycle, Darcy's law, the physics of groundwater flow, flow nets, flow paths in confined and unconfined aquifers, and basin hydrogeology.

Department
Geological Sciences

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- GEOL 111 - Physical Geology
  AND MATH 112 - Calculus 1
  AND PHSCS 106 - General Physics 2

Learning Outcomes

Title
Physics of the Earth

Tags
204578, 1

Learning Outcome
Understand the fundamental principles of plate motions, seismic waves, gravity, magnetics, heat flow, and mantle convection

Title
Problem Solving

Tags
204579, 2

Learning Outcome
Develop the ability to analyze processes in Earth's interior and on its surface through use of mathematics and problem solving

Title
Science Writing

Tags
204580, 3

Learning Outcome
Become comfortable with reading scientific papers, analyzing their content, and writing summaries of your analyses

Title
Earth as a Planet

Tags
204581, 4

Learning Outcome
Acquire an appreciation for the unique and complex processes in Earth's interior and the resulting surface manifestations and implications for development of life

GEOL 445 - Geochemistry

Course Information

Teaching Area (new)
GEOL

Course Number
445

Teaching Area
GEOL

Course Title
Geochemistry

Course Description
Applying elementary chemical principles to understand geologic processes and materials.

Department
Geological Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Fulfill ANY of the following requirements:

Prerequisites

Complete ALL of the following Courses:

- CHEM 106 - General College Chemistry 2
  AND CHEM 107 - General College Chemistry Laboratory
  AND GEOL 352 - Petrology

OR

Prerequisites

Complete ALL of the following Courses:

- CHEM 112 - Principles of Chemistry 2
  AND GEOL 352 - Petrology

Learning Outcomes

Title
Mathematical Competence

Tags
204582, 1

Learning Outcome
Students will mathematically describe geochemical fractionation, mixing, kinetics, transport, and equilibrium.

Title
Chemical Computation

Tags
204583, 2

Learning Outcome
Students will solve geochemical problems both analytically and using computer software.

Title
Scientific Writing

Tags
204584, 3

Learning Outcome
Students will improve their scientific writing skills.

GEOL 452 - Petrography to Petrogenesis

Course Information

Teaching Area (new)
GEOL

Course Number
452

Teaching Area
GEOL

Course Title
Petrography to Petrogenesis

Course Description
Principles of optical mineralogy and their application to the identification of minerals in thin section Petrographic analysis and its relation to rock-forming processes in igneous, metamorphic, and sedimentary rocks.

Department
Geological Sciences

When Taught
Winter Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
1

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- GEOL 351 - Mineralogy
  AND GEOL 352 - Petrology

Learning Outcomes

Title
Petrography to Petrogenesis

Tags
204784, 1

Learning Outcome
Demonstate the ability to use the petrographic microscope to identify the common rock-forming minerals.
Demonstrate the ability to use the petrographic microscope to determine 2V and other optical parameters to determine mineral compositions.
Demonstate a familiarity with the common textures and microstructures of igneous and metamorphic rocks and understand the petrogenetic implications of these textures/microstructures.

GEOL 460 - Economic and Resource Geology

Course Information

Teaching Area (new)
GEOL

Course Number
460

Teaching Area
GEOL

Course Title
Economic and Resource Geology

Course Description
Nature and genesis of metallic and non-metallic mineral deposits, including laboratory study of economic minerals. Field trips.

Department
Geological Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
2

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- GEOL 352 - Petrology

Learning Outcomes

Title
Ore Mineralogy

Tags
204585, 1

Learning Outcome
Identify important ore-forming minerals, textures, and structures in hand sample and in the field.

Title
Ore Genesis

Tags
204586, 2

Learning Outcome
Compare and contrast the principal ore-forming processes: magmatic, hydrothermal, and sedimentary.

Title
Ore Deposit Models

Tags
204587, 3

Learning Outcome
Use observed characteristics of an ore deposit to develop a genetic model for its origin.

Title
Resource Exploration Strategies

Tags
204588, 4

Learning Outcome
Develop an exploration strategy for an ore deposit based on a genetic model.

GEOL 476 - Introduction to Seismic Interpretation

Course Information

Teaching Area (new)
GEOL

Course Number
476

Teaching Area
GEOL

Course Title
Introduction to Seismic Interpretation

Course Description
Fundamental techniques; analyzing seismic reflection data. Reviewing fundamentals of seismic trace and geologic implications. Basic mapping of subsurface structure and stratigraphy.

Department
Geological Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- GEOL 370 - Sedimentology and Stratigraphy
  AND GEOL 375 - Structural Geology

Learning Outcomes

Title
What is a seismic wavelet?

Tags
204589, 1

Learning Outcome
Understand and able to explain what a reflection wavelet is. i.e. polarity, phase and amplitude

Title
2D Interpretation

Tags
204590, 2

Learning Outcome
Able to identify and interpret, using colored pencils, seismic reflectors on a set of intersecting 2D seismic lines.

Title
Geologic Implications

Tags
204591, 3

Learning Outcome
Uses geologic knowledge to infer structure and stratigraphy from seismic reflection data.

Title
Spatial Intelligence

Tags
204592, 4

Learning Outcome
Develop three-dimensional thinking skills.

Title
Facetime I

Tags
204593, 5

Learning Outcome
Able to coherently and concisely prepare and present technical presentations from:
1) Scientific articles
2) Seismic interpretation and research

Title
Contouring

Tags
204594, 6

Learning Outcome
Generation of a hand-drawn time-structure map using the interpretation generated in Learning Outcome "2D Interpretation"

Title
3D Interpretation

Tags
204595, 7

Learning Outcome
Learning of 3D interpretation software. Able to interpret 3D data and generate digital time-structure map.

GEOL 477R - Secondary Minor Student Teaching

Course Information

Teaching Area (new)
GEOL

Course Number
477R

Teaching Area
GEOL

Course Title
Secondary Minor Student Teaching

Course Description
Supervised, full-day, four week experience to develop and demonstrate competence in teaching minor area course content in the secondary classroom.

Department
Geological Sciences

When Taught
Fall, Winter, Spring

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
0

Lab Hours

Fixed:
0

Other Prerequisites
SC ED 377R or minor area equivalent; admittance to teaching major; FBI fingerprint background clearance.

GEOL 480 - Paleontology

Course Information

Teaching Area (new)
GEOL

Course Number
480

Teaching Area
GEOL

Course Title
Paleontology

Course Description
Distribution, morphology, paleoecology, evolution, and stratigraphic significance of organisms in the geologic record. Field trips.

Department
Geological Sciences

When Taught
Fall Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
2

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- GEOL 112 - Historical Geology

Learning Outcomes

Title
Fundamentals

Tags
204598, 1

Learning Outcome
Demonstrate understanding of the nature of fossils and types of fossilization that turn organic remains into fossils.

Title
Nature of the Fossil Record-Taphonomy

Tags
204599, 2

Learning Outcome
Be able to explain the incompleteness of the fossil record and the taphonomic processes that affect fossils between death and burial and burial and discovery.

Title
Taxonomy and Morphology

Tags
204600, 3

Learning Outcome
Be able to recognize the major groups of invertebrate fossils on the basis of their morphology and be able to identify key index fossils to the species level.

Title
Uses of Fossils

Tags
204601, 4

Learning Outcome
Demonstrate understanding of the uses of fossils in solving geological problems: paleoenvironments, relative age, paleocology.

Title
Evolution

Tags
204602, 5

Learning Outcome
Understand the role of fossils in demonstrating the patterns of evolution through time.

GEOL 490R - Exploratory Geophysics and Modeling

Course Information

Teaching Area (new)
GEOL

Course Number
490R

Teaching Area
GEOL

Course Title
Exploratory Geophysics and Modeling

Course Description
Short, undergraduate-level courses and extended field trips offered on an irregular basis.The following topics may be offered given sufficient demand: Energy Systems; Exploratory Geophysics and Modeling; and Planetary Seminar.

Department
Geological Sciences

When Taught
Contact Department

Credit Hours

Min:
0.5

Fee.

GEOL 490R - Advanced Sedimentology

Course Information

Teaching Area (new)
GEOL

Course Number
490R

Teaching Area
GEOL

Course Title
Advanced Sedimentology

Course Description
Sedimentology and depositional processes of clastic systems. Focus on different major depositional settings, with classroom discussion based on current research papers. Inputs/outputs of sedimentary systems, the processes involved in the erosion/deposition/transport of sediment, preservation potential and resulting bedforms derived from depositional processes, and interpretation of paleoenvironmental conditions based on preserved strata. Focus on the ancient rock record, modern analogs, and to a lesser extent process-based computer modeling as three different ways to build a more comprehensive understanding.

GEOL 504R - Global Geology Field Studies

Course Information

Teaching Area (new)
GEOL

Course Number
504R

Teaching Area
GEOL

Course Title
Global Geology Field Studies

Course Description
In-depth study of classic geologic localities, such as Hawaii, the Bahamas, and the Appalachians, preliminary to on-site field study.

Department
Geological Sciences

When Taught
Contact Department

Credit Hours

Min:
1

Fixed/Max:
3

Other Prerequisites
Any senior-level geology course; instructor's consent.

Learning Outcomes

Title
GEOL 504R - Global Geology Field Studies

Tags
204792, 1

Learning Outcome
Course Learning Outcomes

Students will apply their understanding of geologic principles in unique and specific settings found across the Earth.
Students will learn how to carry out field studies in their type locale.
Students will acquire an understanding of, and interact with people of, different cultures, political conditions and geography in the setting of geologic studies unique to those regions in the world.

GEOL 506 - Paleoclimatology

Course Information

Teaching Area (new)
GEOL

Course Number
506

Teaching Area
GEOL

Course Title
Paleoclimatology

Course Description
This course explores Earth’s climate history. We explore how climate, the lithosphere, and the biosphere impact one another, review the methods used to reconstruct paleoclimate conditions, and apply these tools to new research questions.

Department
Geological Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Instructor's consent

Learning Outcomes

Title
Explain Earth's temperature budget

Learning Outcome
Explain the basic mechanisms that move heat and moisture across Earth’s surface and regulate the surface temperature of the planet.

Title
Explain Earth's climate system

Learning Outcome
Explain how the three main earth systems (atmosphere, ocean, tectonic) affect and regulate the Earth’s climate, and describe the characteristic processes and timescales of climate change associated with each system.

Title
Describe Earth's climate history

Learning Outcome
Identify the key changes and events that have shaped the Earth’s climate system over the past 4.6 billion years and produce a scientific poster that provides a detailed overview of one of the major climate events of the Late Proterozoic and Phanerozoic.

Title
Describe impact of paleoclimate processes on their thesis research

Learning Outcome
Explain at a technical level what key climate processes and paleoclimate events are relevant to their thesis research.

Title
Identify appropriate paleoclimate tools for their research

Learning Outcome
Select appropriate paleoclimate tools or methods to apply to their graduate research

Title
Use paleoclimate tools to further their research

Learning Outcome
Effectively employ the selected paleoclimate tool(s) to their graduate research.

GEOL 521 - Borehole Geophysics and Geology

Course Information

Teaching Area (new)
GEOL

Course Number
521

Teaching Area
GEOL

Course Title
Borehole Geophysics and Geology

Course Description
Applied well log analysis, including conventional and new techniques. Subsurface geology and lithology determined from many logs. Determining porosity, permeability, and fluid saturation with hydrology, and hydrocarbon applications.

Department
Geological Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Instructor's consent

Recommended
Phscs 105, 106, Geol 351, 370; or equivalents

Learning Outcomes

Title
Learning Outcome 2

Tags
204637, 1

Learning Outcome
Be able to interpret the results of well-logging operations.

Title
Learning Outcome 3

Tags
204716, 2

Learning Outcome
Have real-world experiences in classroom and outdoor “lab” settings that will mimic a professional environment.

Title
Learning Outcome 1

Tags
204729, 0

Learning Outcome
Understand the theoretical basis of well-logging tools that recover information about subsurface rocks and their fluids.

GEOL 525 - Petroleum Systems Analysis

Course Information

Teaching Area (new)
GEOL

Course Number
525

Teaching Area
GEOL

Course Title
Petroleum Systems Analysis

Course Description
Properties of petroleum; exploration methods; generation and migration of hydrocarbons, reservoirs, traps, and seals; sedimentary basin classification; energy resources. Extended field trip required.

Department
Geological Sciences

When Taught
Fall Even Years

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
4

Lab Hours

Fixed:
0

Other Prerequisites
Geol 370 or equivalent

Learning Outcomes

Title
Ingredients of a Petroleum Sysytem

Tags
204651, 0

Learning Outcome
Understand the 5 critical ingredients of any petroleum accumulation. Understand to a basic level how these 5 criteria are risked in an economicic evaluation of any proposed well. Understand the dynamics and interconnectivity of a petroleum system.

Title
Resource Categorization

Tags
204668, 1

Learning Outcome
Understand the variety of conventional and non-conventional resource plays. Understand some of the technologies required to produce these resources.

Title
Term Presentation

Tags
204704, 2

Learning Outcome
Investigate and present to peers the hydrocarbon system of a significant petroleum field or play.

Title
Sedimentary Basin Classification

Tags
204712, 3

Learning Outcome
Understand sedimentary basin types as dictated by their tectonic setting. Under, to a basic level, the hydrocarbon potential of these various basins and the variables that determine their potential or lack of potential. Understand the importance of looking for the exception to the rule.

GEOL 530 - Advanced Earth Data Visualization

Course Information

Teaching Area (new)
GEOL

Course Number
530

Teaching Area
GEOL

Course Title
Advanced Earth Data Visualization

Course Description
Analyzing data to create a variety of student-selected geological illustrations emphasizing maps and cross-sections.

Department
Geological Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Instructor's consent; graduate status

Learning Outcomes

Title
Scientific Writing

Tags
204653, 3

Learning Outcome
Write concise, scientific descriptions of geologic data, illustrations, and analyses.

Title
Learn Software Tools

Tags
204671, 0

Learning Outcome
Become proficient in using the leading software tools including ArcGIS, Illustrator, and MS Excel.

Title
Apply Software Tools to Geology

Tags
204684, 1

Learning Outcome
Design and create publishable geologic maps, illustrations, figures, and tables from geologic data and models.

Title
Quantitative Analysis

Tags
204715, 2

Learning Outcome
Analyze geologic data through basic statistical techniques and simple numerical models.

GEOL 531 - Geoscience Data Analysis

Course Information

Teaching Area (new)
GEOL

Course Number
531

Teaching Area
GEOL

Course Title
Geoscience Data Analysis

Course Description
Basic scientific computing skills in Python, and application of statistical and numerical modeling techniques to geoscientific problems.

Department
Geological Sciences

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Stat 121 or equivalent.

Learning Outcomes

Title
Python proficiency

Learning Outcome
Students will demonstrate basic proficiency at computer programming in the Python language.

Title
Visualizing and analyzing data

Learning Outcome
Students will demonstrate the ability to use Python for visualizing and analyzing univariate, bivariate, and multivariate geoscientific data, and to interpret the results.

Title
Machine learning proficiency

Learning Outcome
Students will demonstrate proficiency in using basic machine-learning techniques for classification and regression problems.

GEOL 535 - Contaminant Hydrogeology

Course Information

Teaching Area (new)
GEOL

Course Number
535

Teaching Area
GEOL

Course Title
Contaminant Hydrogeology

Course Description
Principles, tools, and applications used to solve heavy metal, organic, and radionuclide groundwater contamination problems. Topics include regulations, mass transport, multiphase flow, transformation, retardation, and attenuation.

Department
Geological Sciences

When Taught
Winter Odd Years

Credit Hours

Geology 435 or equivalent

Learning Outcomes

Title
Fundamentals of Fate and Transport

Tags
204603, 1

Learning Outcome
1. Learn the fundamental processes by which contaminants are transported in groundwater, including: diffusion, advection, and dispersion.
2. Understand process that delay or limit contaminant transport, including: sorption, reaction, decay (chemical and radioactive), and colloid transport.
3. Learn the fundamentals of tranport in the vadose zone, as well as multiphase flow.
4. Appreciate the processes involved in the transport of inorganic (including radionuclides) and organic compounds.
5. Understand the fundamental principles of ground water monitoring, site characterization, and remediation, including the major federal laws that govern such actions.

GEOL 540 - Principles of Glaciology

Course Information

Teaching Area (new)
GEOL

Course Number
540

Teaching Area
GEOL

Course Title
Principles of Glaciology

Course Description
Geophysical problems involving ice in the environment and its role in global change. Topics include atmospheric ice, snow pack, glaciers, ice sheets, sea ice, permafrost, and ice age theories.

Department
Geological Sciences

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:

Lab Hours

Fixed:
0

Learning Outcomes

Title
Applied Physics and Chemistry

Tags
204626, 1

Learning Outcome
Apply principles of physics and chemistry to quantify the formation of ice in the environment, mass and energy budgets of cryospheric components, dynamics of large ice masses, and the processes and rates of landscape evolution that result from ice dynamics.

Title
Fundamentals

Tags
204685, 0

Learning Outcome
Describe the components of the cryosphere, their geographical extent, and their physical and chemical properties.

Title
Relevance

Tags
204719, 2

Learning Outcome
Evaluate the role of the cryospheric components in global environmental change and discuss the importance of cryospheric change on society.

Title
Scientific Inquiry, Writing, and Oral Presentation

Tags
204725, 4

Learning Outcome
Demonstrate the ability to work in teams to collect and analyze glaciological data, incorporate it into an original, high quality research poster on a student-chosen topic of significance, and present the research and results orally in a poster session.

Title
Quantitative Analysis

Tags
204743, 3

Learning Outcome
Demonstrate the ability to quantify cryospheric formation, dynamics, sensitivities, and interactions through rigorous numerical problem sets and laboratory exercises.

GEOL 545 - Isotope Geochemistry-High Temperature Applications

Course Information

Teaching Area (new)
GEOL

Course Number
545

Teaching Area
GEOL

Course Title
Isotope Geochemistry-High Temperature Applications

Course Description
Use of stable and radioactive isotope systematics in geochronology in investigation of the origins of igneous and metamorphic rocks and in the study of tectonics.

Department
Geological Sciences

When Taught
Fall Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Geol 352 or equivalent.

Learning Outcomes

Title
Evaluation of Multi-Component Systems

Tags
204648, 2

Learning Outcome
1. Learn the fundamentals of mixing, or mixing and assimilation combined with fractionation when confronted with isotope ratios of two systems, or isotope ratios and elemental abundances.

Title
Geochronology and Thermochronology

Tags
204686, 3

Learning Outcome
1. Review some of the most commonly applied (and state-of-the-art) geochronometers, including: 40Ar/39Ar, U-series, 14C, 3H, and 210Pb. Emphasis changes from semester to semester based on the research goals of enrolled graduate students

Title
Evolution of Radiogenic Nuclides in the Earth and Solar Syst

Tags
204705, 1

Learning Outcome
1. Understand the relationship between chemical fractionation and the evolution of isotope ratios in the Rb/Sr, Sm/Nd, and U/Pb systems. By ANALOGY, students will be prepared to understand Re/Os, Lu/Hf, K/Ca, etc should the need arise.2. Understand the isotopic evolution of these systems in the solar system, bulk earth, rock bodies, and individual minerals.3. Appreciate how these systems can be employed as geochronometers, and perhaps more importantly, as tracers of earth processes in the crust and mantle.

Title
Light Stable Isotopes

Tags
204708, 4

Learning Outcome
Understand the fundamental processes that lead to isotopic fractionation among the light stable isotopes, including:1. Temperature-dependent equilibrium processes.2. Kinetic fractionations.3. Distillation.4. Biological fractionation in plants, animals, and microorganisms. Conduct a survey of the major applications of C, N, O, H, and S isotopes in geologic, hydrologic, and climate studies.

Title
Seminar Days

Tags
204714, 5

Learning Outcome
On selected class periods throughout the semester, individual class members present, and all class members read, scientific papers that highlight the application of one or more isotope systems that have been discussed. This enables students to:1. Learn how others have applied isotopic methods to understand how processes occur in nature.2. Deepen their understanding of the principles discussed in class.3. Learn to critically read, discuss, and present the findings of others.

Title
Isotope Fundamentals

Tags
204735, 0

Learning Outcome
1. Appreciate the structure of nuclides as the relate to radio-, radiogenic, and light stable isotopes.2. Learn to use the chart of the nuclides.3. Learn mechanisms and fundamental equations governing decay and ingrowth of nuclides.

GEOL 546 - Isotope Geochemistry-Low Temperature Applications

Course Information

Teaching Area (new)
GEOL

Course Number
546

Teaching Area
GEOL

Course Title
Isotope Geochemistry-Low Temperature Applications

Course Description
Use of stable, radioactive, and radiogenic isotope systematics in geochronology and in investigation of the origins of fluid, sediment, and organic matters in low temperature settings.

Department
Geological Sciences

When Taught
Fall Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Other Prerequisites
Geol 445 or equivalent.

Recommended
Geol 435

Learning Outcomes

Title
Real-World Problem Solving

Tags
204710, 0

Learning Outcome
Students will design, implement, and report on a geochemical investigation.

Title
Scientific Writing

Tags
204747, 1

Learning Outcome
Students will write a competently organized and executed scientific report.

GEOL 550 - Environmental Soil Chemistry

Course Information

Teaching Area (new)
GEOL

Course Number
550

Teaching Area
GEOL

Course Title
Environmental Soil Chemistry

Course Description
Chemistry of soil systems at macroscopic and microscopic scales, examined from the perspective of scientists interested in environmental assessment and remediation.

Department
Geological Sciences

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Chem 105, 106, 107; or equivalents

Learning Outcomes

Title
Environmental Impact

Tags
204666, 3

Learning Outcome
Students will demonstrate knowledge of environmental impacts of soil contamination, and associated remediation strategies.

Title
Scientific Writing

Tags
204693, 0

Learning Outcome
Students will competently organize and write a scientific report.

Title
Knowledge of Soil Chemistry

Tags
204700, 2

Learning Outcome
Students will demonstrate familiarity with the identity and behavior of the main chemical species that control soil-chemical conditions.

Title
Chemistry Fundamentals

Tags
204741, 1

Learning Outcome
Students will demonstrate the ability to apply fundamental chemical principles (equilibrium, kinetics, redox) to soil systems.

GEOL 551 - Advanced Mineralogy

Course Information

Teaching Area (new)
GEOL

Course Number
551

Teaching Area
GEOL

Course Title
Advanced Mineralogy

Course Description
Crystallography, structure, and crystal chemistry of major silicate mineral groups.

Department
Geological Sciences

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
2

Other Prerequisites
Geol 351 or equivalent

Learning Outcomes

Title
Crystal Chemistry

Tags
204795, 1

Learning Outcome
Students will demonstrate mastery of the principles of crystal chemistry, using the concepts of atomic size, valence, and electronic structure to explain the distribution of elements in the Earth.

Title
Structural Chemistry

Tags
204796, 2

Learning Outcome
Students will be able to predict the structural characteristics of minerals based on the concepts of atomic size, valence, and electronic structure.

Title
Mathematical Crystallography

Tags
204797, 3

Learning Outcome
Students will demonstrate a basic understanding of mathematical crystallography.

Title
X-Ray Diffraction

Tags
204798, 4

Learning Outcome
Students will demonstrate a basic knowledge of Powder X-Ray Diffraction techniques and software.

GEOL 552 - Igneous Petrology

Course Information

Teaching Area (new)
GEOL

Course Number
552

Teaching Area
GEOL

Course Title
Igneous Petrology

Course Description
Origin and evolution of magmas, emphasizing trace element and isotopic compositions and intensive properties as calculated from mineral compositions.

Department
Geological Sciences

When Taught
Fall Odd Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:

Other Prerequisites
Geol 352 or equivalent

Learning Outcomes

Title
Presentation Skills

Tags
204632, 5

Learning Outcome
Refine ability to make oral and written presentations.

Title
Petrologic Modeling

Tags
204643, 4

Learning Outcome
Develop quantitative skills using calculations in a spreadsheet to model igneous processes.

Title
Analytical Geochemistry

Tags
204664, 3

Learning Outcome
Understand the use of analytical equipment and interpretation of analytical data

Title
Minerals and Intensive Parameters

Tags
204674, 2

Learning Outcome
Explain how mineral compositions can be used to deduce intensive parameters

Title
Petrotectonics

Tags
204694, 1

Learning Outcome
Understand the link between tectonic setting and igneous rock composition.

Title
Volcanology

Tags
204754, 0

Learning Outcome
Identify the nature and causes of volcanic eruptions.

GEOL 553 - Metamorphic Petrology

Course Information

Teaching Area (new)
GEOL

Course Number
553

Teaching Area
GEOL

Course Title
Metamorphic Petrology

Course Description
Principles of metamorphism, including chemical equilibrium and thermodynamics of metamorphic reactions, geothermobarometery, origin and interpretation of zoned metamorphic minerals, pressure-temperature paths, and metamorphism of pelites, mafic, ultramafic and carbonate rocks. Additional subjects based on interest of the students.

Department
Geological Sciences

When Taught

Simple Requisites

Prerequisites

Type
Prerequisite

Prerequisites

Complete ALL of the following Courses:

- GEOL 352 - Petrology

Learning Outcomes

Title
Metamorphic Petrology

Tags
204785, 1

Learning Outcome
Understand the relationships between tectonic settings and metamorphic facies.
Demonstrate an understanding of the thermodynamics of metamorphic reactions.
Understand how mineral zoning can be used to interpret changing metamophric conditions.
Understand the use of analytical equipment and interpretation of analytical data.
Develope the quantitiative skills using thermobarometic calculations to determine metamorphic P-T paths.

GEOL 555 - Volcanoes and Ore Deposits

Course Information

Teaching Area (new)
GEOL

Course Number
555

Teaching Area
GEOL

Course Title
Volcanoes and Ore Deposits

Course Description
Examination of the role of volcanic rocks and processes in the generation of ore deposits.

Department
Geological Sciences

When Taught
Fall Even Years

Credit Hours

Min:
1

Fixed/Max:
3

Other Prerequisites
Geol 352 or equivalent.

Learning Outcomes

Title
Quantitative Skills

Tags
204770, 3

Learning Outcome
Develop quantitative skills using calculations in spreadsheets to model magmatic processes

Title
Scientific Literature

Tags
204771, 4

Learning Outcome
Refine ability to make read and understand scientific literature

Title
Volcano Types

Tags
204772, 1

Learning Outcome
Understand the major types of volcanic eruptions and volcanoes

Title
Volcanoes in the Field

Tags
204773, 2

Learning Outcome
Explain how outcrop characteristics can be used to deduce eruption processes and volcano evolution

GEOL 560 - Waveform Geophysics

Course Information

Teaching Area (new)
GEOL

Course Number
560

Teaching Area
GEOL

Course Title
Waveform Geophysics

Course Description
Principles and methods used in seismic and ground-penetrating radar (GPR) geophysics, with petroleum exploration, engineering, environmental, and hydrological applications. Includes introduction to state-of-the-art industrial software applications for data processing and visualization.

Department
Geological Sciences

When Taught
Fall

Credit Hours

Other Prerequisites
Instructor's consent.

Recommended
Geol 375, Phscs 105, 106; or equivalents

Learning Outcomes

Title
Learning Outcome 3

Tags
204646, 2

Learning Outcome
Enable students to comprehend how reflection data are acquired, processed, and interpreted.

Title
Learning Outcome 4

Tags
204677, 3

Learning Outcome
Process seismic reflection data acquired by USGS/ BYU using state-of-the-art tools.

Title
Learning Outcome 2

Tags
204690, 1

Learning Outcome
Provide a quantitative and theoreticalunderstanding of how the seismic method operates.

Title
Learning Outcome 1

Tags
204706, 0

Learning Outcome
Introduction tothe seismic method, especially for the reflection case.

GEOL 561 - Geophysical Field Methods

Course Information

Teaching Area (new)
GEOL

Course Number
561

Teaching Area
GEOL

Course Title
Geophysical Field Methods

Course Description
Geophysical data acquisition processing and computer-assisted interpretation, emphasizing field deployment techniques, use of commercial data processing, and visualization software.

Department
Geological Sciences

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Recommended
Geol 375, Phscs 105, 106; or equivalents

Learning Outcomes

Title
Learning Outcome 4

Tags
204639, 3

Learning Outcome
Become acquainted with basic data processing and modeling software tools.

Title
Learning Outcome 2

Tags
204656, 1

Learning Outcome
Be able to design and supervise a seismic/GPR survey.

Title
Learning Outcome 1

Tags
204658, 0

Learning Outcome
Become expert at using an exploration seismograph and ground-penetrating radar (GPR) for subsurface surveying.

Title
Learning Outcome 3

Tags
204691, 2

Learning Outcome
Have real-world experiences in mostly outdoor “lab” settings that will mimic a professional environment.

Title
Learning Outcome 4

Tags
204692, 3

Learning Outcome
Become acquainted with basic data processing and modeling software tools.

Title
Learning Outcome 3

Tags
204718, 2

Learning Outcome
Have real-world experiences in mostly outdoor “lab” settings that will mimic a professional environment.

Title
Learning Outcome 1

Tags
204726, 0

Learning Outcome
Become expert at using an exploration seismograph and ground-penetrating radar (GPR) for subsurface surveying.

Title
Learning Outcome 2

Tags
204731, 1

Learning Outcome
Be able to design and supervise a seismic/GPR survey.

GEOL 565R - Special Topics in Geology

Course Information

Teaching Area (new)
GEOL

Course Number
565R

Teaching Area
GEOL

Course Title
Special Topics in Geology

Course Description
The following topics may be offered on demand: geology for teachers, ore deposits, solid-water interface chemistry, X-ray crystallography.

Department
Geological Sciences

When Taught
Contact Department

Credit Hours

Min:
0.5

Fixed/Max:
4

Other Prerequisites
Instructor's consent

Learning Outcomes

Title
Specific Competence

Tags
204640, 0

Learning Outcome
Demonstrate competence in a specific topic within the geological sciences.

GEOL 571 - Sedimentology and Ecology of Modern Carbonate Systems

Course Information

Teaching Area (new)
GEOL

Course Number
571

Teaching Area
GEOL

Course Title
Sedimentology and Ecology of Modern Carbonate Systems

Course Description
Field course in the Caribbean emphasizing factors that produce carbonate sediments. Investigation of tidal flat to off-shore barrier reef environments and Pleistocene outcrops.

Department
Geological Sciences

When Taught
Contact Department

Credit Hours

Min:
1

Fixed/Max:
3

Other Prerequisites
Geol 370 or equivalent

Learning Outcomes

Title
Fundamentals

Tags
204774, 1

Learning Outcome
Demonstrate an understanding of the origin and meaning of carbonate sediments as contrasted with their siliciclastic counterparts by studying them in the field.

Title
Petrography

Tags
204775, 2

Learning Outcome
Be able to identify and interpret the meaning of basic carbonate grain types in modern carbonate sediment from the Bahamas and South Florida.

Title
Carbonate Sequence Stratigraphy

Tags
204776, 4

Learning Outcome
Be able to interpret the stratigraphy and facies of late Pleistocene parasequences as seen in outcrop and in subsurface GPR profiles.

Title
Diagenesis

Tags
204777, 5

Learning Outcome
Understand the diagenetic potential of modern carbonate sediments and the processes that turn them to rock as well as the effects of meteoric water on Pleistocene outcrops.

Title
Depositional Environments

Tags
204778, 3

Learning Outcome
Collect and interpret samples from a range of modern tropical carbonate depositional environments including ooid shoals, tidal flats, reefs, lagoons, tidal channels, and open shelves.

GEOL 574 - Advanced Stratigraphy

Course Information

Teaching Area (new)
GEOL

Course Number
574

Teaching Area
GEOL

Course Title
Advanced Stratigraphy

Course Description
Studying the stratigraphic record through modern methods of correlating stratal packages, emphasizing concepts of sequence and seismic stratigraphy, and utilizing methods of chronostratigraphy, biostratigraphy, lithostratigraphy, and absolute dating. Extended field trip required.

Department
Geological Sciences

When Taught
Winter Even Years

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:

Lab Hours

Fixed:
0

Other Prerequisites
Geol 370 or equivalent

Recommended
Geol 480

Learning Outcomes

Title
Demonstration and Term Presentation

Tags
204628, 2

Learning Outcome
Students will demonstrate their understanding by working through problems associated with field trips to outcrops and core repositories. A term presentation on the sequence or seismic stratigraphy of a given unit of rock is given to further demonstrate that understanding.

Title
Nature of the Stratigraphic Record

Tags
204713, 1

Learning Outcome
A basic understanding of the stratigraphic record and the stratigraphic methods that researchers use to understand Earth history through strata. These methods include biostratigraphy, lithostratigraphy, magnetostratigraphy, seismic stratigraphy, and sequence/ chronostratigraphy. The student should understand the fragmentary nature of the straigraphic record and the importance of recognizing hiatuses and unconformities.

Title
Sequence Stratigraphy

Tags
204724, 0

Learning Outcome
Understand the vocabulary and fundemental concepts of sequence stratigraphy as they apply to outcrop, core, and seismic sections. Understand how the fundementals of these concepts change when working in siliciclastic depositional systems as compared to carbonate depositional systems.

GEOL 575 - Advanced Structural Geology

Course Information

Teaching Area (new)
GEOL

Course Number
575

Teaching Area
GEOL

Course Title
Advanced Structural Geology

Course Description
In-depth discussions of a variety of topics in structural geology, emphasizing current literature and problems.

Department
Geological Sciences

When Taught
Winter

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
2

Lab Hours

Fixed:
3

Other Prerequisites
Geol 375, 410; or equivalents

Learning Outcomes

Title
detailed analysis of various types of structual and tectonic

Tags
204652, 0

Learning Outcome
1. Use primarily the scientific literature to discover various deformational features and mechanisms at a variety of spatial and temporal scales2. Use analog and numerical models to investigate how rocks and regions deform

GEOL 576 - Geophysical Data Processing-Modeling and Subsurface Imaging

Course Information

Teaching Area (new)
GEOL

Course Number
576

Teaching Area
GEOL

Course Title
Geophysical Data Processing-Modeling and Subsurface Imaging

Course Description
Introduction to seismic and ground-penetrating radar data processing and modeling for subsurface imaging. Includes use of state-of-the-art industrial software, relevant to petroleum exploration and environmental assessment (e.g., geological hazards).

Department
Geological Sciences

When Taught
Winter

Credit Hours

Geol 476 or Geol 560 or equivalent

GEOL 580 - Principles of Paleontology

Course Information

Teaching Area (new)
GEOL

Course Number
580

Teaching Area
GEOL

Course Title
Principles of Paleontology

Course Description
Modern approaches to fossil study applied to areas of evolution, paleoecology, and biostratigraphy.

Department
Geological Sciences

When Taught
Contact Department

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
0

Other Prerequisites
Geol 480 or equivalent

Learning Outcomes

Title
Fundamentals

Tags
204779, 1

Learning Outcome
Demonstrate understanding of advanced concepts in paleontology, such as biostratigraphy, paleoecology, evolution, and taxonomy with respect to specific fossil taxa.

Title
Nature of the Fossil Record-Taphonomy

Tags
204780, 2

Learning Outcome
Be able to recognize the influence of physical and biological processes on fossils and be able to interpret a fossil's post-depositional history.

Title
Taxonomy and Morphology

Tags
204781, 3

Learning Outcome
Be able to recognize and identify key fossil groups down to the genus and species level.

Title
Use of Fossils

Tags
204782, 4

Learning Outcome
Be able to accurately determine the age, depositional setting, and diagenesis of sedimentary strata based upon fossil content and preservation.

Title
Collections

Tags
204783, 5

Learning Outcome
Become familiar with techniques use by specialists in collecting, preparing, and curating a range of fossil taxa.

GEOL 586 - Vertebrate Paleontology

Course Information

Teaching Area (new)
GEOL

Course Number
586

Teaching Area
GEOL

Course Title
Vertebrate Paleontology

Course Description
Paleobiology, osteology, and phylogeny of the vertebrates. Field trips required. Lab studies.

Department
Geological Sciences

When Taught
Contact Department

Credit Hours

Min:
4

Fixed/Max:
4

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
2

Other Prerequisites
Instructor's consent

Learning Outcomes

Title
Evolution of Vertebrate Paleontology

Tags
204649, 0

Learning Outcome
Demonstrate your understanding of how science works by writing a four page history of paleontological methodologies, including contributions of significant scientists, and how the methods evolved from the early 1800’s to present.

Title
The Leg Bone is Connected to the....

Tags
204663, 2

Learning Outcome
Be able to identify (1) the bones in an amniote skeleton, and(2) the major histologic components of bone.

Title
Field & Museum Methods

Tags
204673, 4

Learning Outcome
Be able to locate, collect, document, and interpret fossils in the field and curate specimens once in a repository with a level of competence equal to that of an entry-level field technician.

Title
The Vertebrate Tree

Tags
204678, 3

Learning Outcome
(1) Understand core principles of phylogenetic systematics, (2) be able to interpret and construct cladograms, and (3), be able to explain to a peer the derived diagnostic osteologic characters for major vertebrate clades, (i.e., Craniata, Tetrapoda, Amniota, Sauropsida, Diapsida, and so on).

Title
Relationship between Plate Tectonics and Evolution

Tags
204722, 5

Learning Outcome
Be able to explain to a biology graduate the impact of plate tectonics on biodiversity though deep time using examples from the fossil record and extant mammals.

Title
Until death do us part - Taphonomy

Tags
204739, 1

Learning Outcome
Understand (1) the goals of taphonomy, (2) the basics elements of how to conduct a taphonomic analysis of a vertebrate site, and (3) the process of perminerization.

Title
Science and Religion

Tags
204753, 6

Learning Outcome
Be able participate in meaningful discussions on the relationships of science and religion.

Course Information

Teaching Area (new)
GEOL

Course Number
590R

Teaching Area
GEOL

Course Title
Advanced Sedimentology

Course Description
Sedimentology and depositional processes of clastic systems. Focus on different major depositional settings, with classroom discussion based on current research papers. Inputs/outputs of sedimentary systems, the processes involved in the erosion/deposition/transport of sediment, preservation potential and resulting bedforms derived from depositional processes, and interpretation of paleoenvironmental conditions based on preserved strata. Focus on the ancient rock record, modern analogs, and to a lesser extent process-based computer modeling as three different ways to build a more comprehensive understanding.

Learning Outcomes

Title
Elaboration

Tags
195705, 1

Learning Outcome
Create structurally-accurate, elaborated utterances and begin to group utterances into paragraphs and narratives. Do this in present, past and future time.

Title
Vocabulary

Tags
195708, 2

Learning Outcome
Broaden vocabulary for both reception (listening and reading comprehension) and production (speaking and writing).

Title
Grammar

Tags
195709, 3

Learning Outcome
Review and increase understanding of basic language structures.

Title
Culture

Tags
195713, 4

Learning Outcome
Discuss in the target language common products and practices related to every-day life in the target culture.

Learning Outcomes

Title
Communication Skills

Tags
195716, 1

Learning Outcome
In both written and spoken target language, communicate with reasonable accuracy about real-world activities with well-educated members of the target-culture accustomed to dealing with non-native speakers.

Title
Comprehension

Tags
195717, 2

Learning Outcome
Understand every-day written and verbal instructions. Comprehend concrete details and global meaning of intermediate-level written and spoken passages related to familiar topics that native speakers encounter routinely in their daily life.

Title
Cultural Knowledge

Tags
195718, 3

Learning Outcome
Discuss in the target language cultural practices related to every-day life in the target culture. Acquire basic background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.).

Title
General Education Requirements

Tags
195720, 4

Learning Outcome
Complete Languages of Learning and Global & Cultural Awareness for General Education.

Learning Outcomes

Title
Defined Special Purpose

Tags
195721, 1

Learning Outcome
Develop the overall language and cultural competence to meet the needs of a "special" purpose identified by the Center for Language Studies.

Title
Communication

Tags
195723, 2

Learning Outcome
Communicate effectively enough to function in a variety of situations likely to be encountered when dealing with native speakers associated with the special purpose. This may include interpersonal, interpretive, and presentational (written and oral) modes of communication.

Title
Cultural Competence

Tags
195724, 3

Learning Outcome
Interact with cultural competence and understanding when dealing with native speakers associated with the special purpose.

GERM

Course Number
211R

Teaching Area
GERM

Course Title
Intermediate Conversation

Course Description
Intensive vocabulary building and conversation practice. Can be fulfilled through language residency program.

Department
German and Russian

When Taught
Contact Department

Credit Hours

Min:
1

Fixed/Max:
5

Other Prerequisites
Germ 102 or equivalent experience

Learning Outcomes

Title
Carry Out Research

Tags
192432, 1

Learning Outcome
Students wil be able to carry out research on one aspect of Germanic linguistics and ommunicate a clear synthesis and analysis of their research in both written and oral form.

Title
Finding Sources for Research

Tags
192433, 2

Learning Outcome
Students will be able to seek sources on topics in Germanic linguistics, including journal articles, handbooks, speech recordings, etc.

Title
Annotated Bibliography

Tags
192434, 3

Learning Outcome
Students will be able to write an annotated bibliography.

Title
Data, Quotes and Citations

Tags
192435, 4

Learning Outcome
Students will be able to identify appropriate data and useful quotes that help them support their thesis and the arguments they are making. Students will be able to introduce and cite all quotes and data properly, providing adequate and correct citations for all points they are making or ideas they are drawing on from the works of other scholars.

Title
Logical Arguments

Tags
192436, 5

Learning Outcome
Students will be able to argue their points and theses effective by using logical and cohesive arguments.

Title
Reviewing One's Own Work and that of Others

Tags
192437, 6

Learning Outcome
Students will become less dependent on their professor's grades, feedback and comments to improve their work. They will develop the ability to candidly evaluate their own performance and work, providing effective peer review for the work of others, identifying both the strengths and weaknesses of papers in terms of structure, form, citations, writing to the thesis, and overall organisation. To do so, students will be able to identify the key sentences in their own work and the work of others, shaping paragraphs and sections to ensure they fit with the thesis and topic of the research paper.

Title
Using Publications as an Example for Writing Own Paper

Tags
192438, 7

Learning Outcome
Students will be able to draw upon published sources and the articles of others to use as examples of 1) how to organise their papers (including sections and paragraphs); 2) how to cite and incorporate data (including in tables) and the ideas of others; 3) compose a bibliography, 4) format their papers, and 4) correctly use the terminology and turns of phrased used in the field in question.

Title
Understanding Teacher Instructions

Tags
192779, 0

Learning Outcome
· I can show I understand the teacher's instructions by doing what is required.

Title
German Terminology

Tags
192780, 1

Learning Outcome
· I demonstrate my knowledge of the correct German terminology by role playing diverse practical settings and by discussions about related topics

Title
Conversing about Novels

Tags
192781, 2

Learning Outcome
· I demonstrate understanding of contents and interpretations of a novel by participating in conversations about them.

Title
Communicating Needs

Tags
192782, 3

Learning Outcome
· I can communicate my needs.

Title
Summarizing Reading Passages

Tags
192783, 4

Learning Outcome
· I can summarize reading passages.

Title
Explaining hard to understand Concepts

Tags
192784, 5

Learning Outcome
· I can explain hard to understand concepts to others.

Title
Synthesizing and Shareing Interpretations from Reading Passa

Tags
192785, 6

Learning Outcome
· I can synthesize and share my interpretation of reading passages in a novel.

Title
Express Views on Contemporary Issues

Tags
192786, 7

Learning Outcome
· I can express my views on contemporary issues using relevant terminology.

Title
Oral Presentations

Tags
192787, 8

Learning Outcome
· I can give an oral presentation from prepared notes.

Title
Pronouncing German Consonants

Tags
192788, 9

Learning Outcome
· I can pronounce the German consonants correctly.

Title
Pronouncing Germal Vowels

Tags
192789, 10

Learning Outcome
· I can pronounce the German vowels correctly.

Title
Stress Patterns

Tags
192790, 11

Learning Outcome
· I can apply the correct stress patterns.

Title
Fluent Speech Rate

Tags
192791, 12

Learning Outcome
· I can speak at a fluent speech rate.

Title
Correct Word Endings

Tags
192792, 13

Learning Outcome
· I can use the correct word endings (gender, case, number).

Title
Correct Word Order

Tags
192793, 14

Learning Outcome
· I can use the correct word order, also in complex phrases.

Title
Correct Verb Forms

Tags
192794, 15

Learning Outcome
· I can use the correct verb forms.

Title
Words in Correct Contexts and Correct Connotations

Tags
192795, 16

Learning Outcome
· I can use words in the right context and with the right connotations.

Title
Motivated to Learn German

Tags
192796, 17

Learning Outcome
· I am motivated to learn German and show this by giving my best each time.

Title
Language Learning Strategies

Tags
192797, 18

Learning Outcome
· I know what works best for me in achieving proficiency and I can use a variety of strategies.

Title
Using German Outside of the Classroom

Tags
192798, 19

Learning Outcome
· I find ways to use German outside the classroom.

Title
Cultural Differing Viewpoints

Tags
192799, 20

Learning Outcome
· I keep an open mind to understand cultural differing viewpoints.

Title
Autonomous Learning and Class Preparation

Tags
192800, 21

Learning Outcome
· I can learn grammar points on my own and show this by being prepared for class.

Title
Vocabulary

Tags
192801, 22

Learning Outcome
· I remember vocabulary by forming useful associations with new words and use these in oral and written communication.

GERM 217 - (Germ-Scand) German and Scandinavian Cinema

Course Information

Teaching Area (new)
GERM

Course Number
217

Teaching Area
GERM

Course Title
(Germ-Scand) German and Scandinavian Cinema

Course Description
Background for understanding and appreciating the best of motion picture art in Germany and Scandinavia.

Department
German and Russian

When Taught
Fall

Credit Hours

Min:
3

Fixed/Max:
3

Lecture Hours

Fixed:
3

Lab Hours

Fixed:
3

Recommended
A first-year writing course

Note
Language of instruction is English; no knowledge of German or Scandinavian languages is required.

Learning Outcomes

Title
Becoming more Aware of Student habits of Seeing and Thinking

Tags
192809, 6

Learning Outcome
As students are confronted with the startling and strange and intriguing ways that Germans and Scandinavians represent the world, they will become more aware of their own habits of seeing and thinking. In several of their written assignments and class discussions, students will demonstrate their ability to thoughtfully reflect upon these different visual practices and to engage these different ideas into meaningful dialogue.

Title
Increasing Cultural Literacy

Tags
192810, 5

Learning Outcome
Because the course is structured around a variety of historical, theoretical, and cultural questions, students will develop and demonstrate an increased cultural literacy as they grapple with questions of ideology, identity, class, race, gender and memory in the context of the German and Scandinavian cultures and film history.

Title
Developing Intellectually Sound Interpretations

Tags
192811, 4

Learning Outcome
Students will be able to develop their own well-informed, critically provocative, and intellectually sound interpretations of different cinematic texts and be able to defend and expand these interpretations in classroom discussions and in writing assignments. A list of these specific skills can be found in the grading rubric for each of these assignments.

Title
Reading, Critiquing and Writing Formal Sequence Analyses

Tags
192812, 3

Learning Outcome
Students will be able to read, critique and write formal sequence analyses of key scenes from German and Scandinavian films.

GERM 311R - Advanced Conversation

Course Information

Teaching Area (new)
GERM

Course Number
311R

Teaching Area
GERM

Course Title
Advanced Conversation

Course Description
Building vocabulary and developing skills needed to exceed assessed proficiency rating.

Department
German and Russian

When Taught
All Semesters/Terms

Credit Hours

Min:
1

Fixed/Max:
5

Other Prerequisites
Germ 211R or equivalent experience

Note
Intensive vocabulary building and conversation practice. Can be fulfilled through language residency program.

Learning Outcomes

Title
Understanding Teacher Instruction

Tags
192455, 1

Learning Outcome
I can show I understand the teacher's instructions by doing what is required.

Title
Comptemporary Issues in German

Tags
192456, 2

Learning Outcome
I demonstrate understanding of contemporary issues in German by participating in discussions about them.

Title
Contents and Interpretations of Novels

Tags
192457, 3

Learning Outcome
I demonstrate understanding of contents and interpretations of a novel by participating in conversations about them.

Title
Communicating Needs

Tags
192458, 4

Learning Outcome
I can communicate my needs.

Title
Summarizing Reading passage

Tags
192459, 5

Learning Outcome
I can summarize reading passages.

Title
Explaining Hard to Understand Concepts

Tags
192460, 6

Learning Outcome
I can explain hard to understand concepts to others.

Title
Synthesizing and Sharing Intrepretations of Reading Passages

Tags
192461, 7

Learning Outcome
I can synthesize and share my interpretation of reading passages in a novel.

Title
Contemporary Issues

Tags
192462, 8

Learning Outcome
I can express my views on contemporary issues using relevant terminology.

Title
Oral Presentations

Tags
192463, 9

Learning Outcome
I can give an oral presentation from prepared notes.

Title
Pronouncing German Consonants

Tags
192464, 10

Learning Outcome
I can pronounce the German consonants correctly.

Title
Pronouncing German Vowels

Tags
192465, 11

Learning Outcome
I can pronounce the German vowels correctly.

Title
Stress Patterns

Tags
192466, 12

Learning Outcome
I can apply the correct stress patterns.

Title
Fluent Speech Rate

Tags
192467, 13

Learning Outcome
I can speak at a fluent speech rate.

Title
Correct Word Order

Tags
192468, 15

Learning Outcome
I can use the correct word order, also in complex phrases.

Title
Using Correct verb forms.

Tags
192469, 16

Learning Outcome
I can use the correct verb forms.

Title
Using Words in Right Context and with the Right Connotations

Tags
192470, 17

Learning Outcome
I can use words in the right context and with the right connotations.

Title
Motivated to Learn German

Tags
192471, 18

Learning Outcome
I am motivated to learn German and show this by giving my best each time.

Title
Language Learning Strategies

Tags
192472, 19

Learning Outcome
I know what works best for me in achieving proficiency and I can use a variety of strategies.

Title
Using German outside of the classroom

Tags
192473, 20

Learning Outcome
I find ways to use German outside the classroom.

Title
Differing Cultural Viewpoints

Tags
192474, 21

Learning Outcome
I keep an open mind to understand cultural differing viewpoints.

Title
Autonomous Language Learning

Tags
192475, 22

Learning Outcome
I can learn grammar points on my own and show this by being prepared for class.

Title
Vocabulary

Tags
192476, 23

Learning Outcome
I remember vocabulary by forming useful associations with new words and use these in oral and written communication.

Title
Correct Word Endings

Tags
192802, 14

Learning Outcome
I can use the correct word endings (gender, case, number).

GERM 316 - Directed Research in Linguistics 1

Fills GE Advanced Written and Oral Communication requirement.

Learning Outcomes

Title
Articulating Interpretive Ideas

Tags
192478, 1

Learning Outcome
Articulate their interpretive ideas in class discussions, written assignments and class presentations. (Class discussions, homework, presentations)

Title
Library and Online Research

Tags
192479, 6

Learning Outcome
Conduct serious library and online research and build a correct bibliography on the topic of their seminar paper. (Homework, final paper)

Title
Seminar Paper

Tags
192480, 9

Learning Outcome
Write an original, significant, persuasive seminar paper which interprets some aspect of a text from the class readings, and which is presented in correct MLA format. (Homework, final paper)

Title
Analyzing Theoretical and Literary Texts

Tags
192485, 3

Learning Outcome
Deeply analyze theoretical and literary texts of varying genres, critically asking questions of the texts in order to produce their own individual interpretation. (Homework, class discussions, final paper)

GERM 343 - Introduction to German Literature

Course Information

Teaching Area (new)
GERM

Course Number
343

Recommended
Germ 330

Learning Outcomes

Title
Principles of Phonetics

Tags
213841, 0, 1, 2023-08-29 09:17:34

Learning Outcome
Understand and be able to describe the general principles of phonetics, e.g., what the difference is between stops, fricatives, nasals, how voicing is produced, the parts of the articulatory tract, etc.;

Title
German Phonetic and Phonemic Systems

Tags
213842, 0, 2, 2023-08-29 09:17:35

Learning Outcome
be able to describe the German phonetic and phonemic system and how it differs from the native language (i.e., English) and be able to provide the names of each of the sounds in both English and German;

Title
Pronunciation Refinement

Tags
213843, 0, 3, 2023-08-29 09:17:36

Learning Outcome
have eliminated phonemic errors (wrong sounds) and further refined their own pronunciation (reducing or eliminating foreign accent);

Title
International Phonetic Alphabet

Tags
213844, 0, 4, 2023-08-29 09:17:38

Learning Outcome
be able to use IPA (International Phonetic Alphabet) to transcribe the German language;

Title
Articulation of German Phonemes and Allophones

Tags
213845, 0, 5, 2023-08-29 09:17:41

Learning Outcome
be able to describe the articulation of the German phonemes and allophones;

Title
Evaluating and Improving Pronunciation

Tags
213846, 0, 6, 2023-08-29 09:17:45

Learning Outcome
be able to employ the tools learned in class to both evaluate and improve their own pronunciation of German as well as the pronunciation of others (including but not limited to articulatory explanations, rudimentary acoustic analysis, etc.);

Title
Improving General Proficiency

Tags
213847, 0, 7, 2023-08-29 09:17:46

Learning Outcome
have taken the opportunity to improve their general proficiency, including grammar, vocabulary, cultural knowledge and functional ability;

Title
Describing and Evaluating Variation in Spoken German

Tags
213848, 0, 8, 2023-08-29 09:17:49

Learning Outcome
be able to describe and evaluate variation in spoken German by both native and non-native speakers.

Course Title
Academic Internship: German Work

Course Description
On-the-job ten-week summer language experience in German-speaking countries. Report required.

Department
German and Russian

When Taught
All Semesters/Terms

Credit Hours

Min:
0.5

Fixed/Max:
9

Note
NOTE: An approved Internship Application is required before adding.

Learning Outcomes

Title
Increasing knowledge of technical language

Tags
192502, 2

Learning Outcome
Students will be able to provide a list of work-specific vocabulary and technical terms that they learned over the course of their internships.

Title
Awareness of increased competitiveness

Tags
192503, 5

Learning Outcome
Students will be able to articulate specific ways that their internship has made them more competitive in the employment market including experience, improved language skills, specific job skills, networking opportunities, etc.

Title
Cultural differences

Tags
192504, 9

Learning Outcome
Students will be able to list specific differences between American workplace culture and the work ethic, practices and ideas they learned in a German-language working environment.

Title
Work-related skills

Tags
192733, 1

Learning Outcome
In their final reports and interviews, students who have completed German 399R will be able to demonstrate the following:Students will be able to identify a list of five work-related skills that they learned during their internship experience.

Title
Certifications and endorsements

Tags
192774, 6

Learning Outcome
Students will be able to explain and contextualize thelanguage certifications, endorsements and course completion documents that they have received from their host institutions.

Why Language Changes

Tags
192551, 11

Learning Outcome
11. be able to describe reasons why languages change

Title
Research

Tags
192552, 12

Learning Outcome
12. be able to carry out research on one aspect of the history of the Germanic languages and provide a brief and clear overview of a topic related to a change in one of the Germanic languages in both written and oral form to communicate my findings in a paper in a clear manner using primary literature (journal articles);

Title
Seeking Sources on Topics in Germanic Linguistics

Tags
192553, 13

Learning Outcome
13. be able to seek sources on topics in Germanic linguistics;

Title
Applying Learned Material to English and Other Languages

Tags
192554, 14

Learning Outcome
14. be able to make connections between what we learn in class about the history of German to better understand English, the German language and how languages (including my own language use) can change and/or differ from others' language;

Title
Identifying Supporting Quotes

Tags
192555, 15

Learning Outcome
15. be able to identify useful quotes that will help me support the thesis of my paper;

Title
Using Logical Arguments

Tags
192556, 16

Learning Outcome
16. be able to argue my point effectively using a logical argument

Title
Identifying data that Supports an Argument

Tags
192557, 17

Learning Outcome
17. be able to identify data that supports the arguments I am making or citing;

Title
Introducing and Citing Quotes

Tags
192558, 18

Learning Outcome
18 be able to introduce and cite quotes properly;

Title
Providing Adequate and Correct Citations

Tags
192559, 19

Learning Outcome
19. be able to provide adequate and correct citations for the points I am making or drawing on from the works of others;

Recommended
Germ 302; Germ 303; Germ 344

Learning Outcomes

Title
Overview of the Origin of German

Tags
192560, 1

Learning Outcome
1. Students will be able to provide a brief overview of the origin of German and its position in the Germanic language family;

Title
Hochdeutsch

Tags
192561, 2

Learning Outcome
2. be able to define Hochdeutsch and its position in German language use;

Title
Sounds of German

Tags
192562, 3

Learning Outcome
3. be able to identify and describe the sounds of German, including the features which distinguish them from one another, and whether these sounds are separate phonemes or allophones;

Title
Phonological Processes

Tags
192563, 4

Learning Outcome
4. be able to identify and describe the phonological processes, e.g., Auslautverhärtung, dissimilation, reduction, umlaut, etc. which affect how the sounds of German interact;

Title
Prosodic Structure of German

Tags
192564, 5

Learning Outcome
5. be able to outline the prosodic structure of German, including syllable structure, phonotactics, accent placement and foot structure;

Title
Word Formation Rules and Morphology

Tags
192565, 6

Learning Outcome
6. be able to identify various word formation rules in German and be able to describe the core morphological foundation of German, including differences between derivational and inflectional morphology and the roles that paradigms play in organising words in their various forms;

Title
Prosody and Morphology

Tags
192566, 7

Learning Outcome
7. be able to describe how prosodic structure helps shape some aspects of the morphology, including plural and i-cropping formations;

Title
Breaking Down German Sentences into Basic Constituents

Tags
192567, 8

Learning Outcome
8. be able to break down German sentences into their basic constituent structure and understand the structural difference between V2 and Verb-at-end sentences;

Title
Phrases which are Complements of Various Words

Tags
192568, 9

Learning Outcome
9. be able to identify the types of phrases which are complements of various words in German;

Title
Basic Concepts of Dialectology

Tags
192569, 10

Learning Outcome
10. understand the basic concepts of dialectology to define and differentiate between the major dialects of German;

Title
Various Dialects of German

Tags
192570, 11

Learning Outcome
11. understand the meaning of the word dialect in its linguistic sense and appreciate the various dialects of German as legitimate linguistic entities of equal value;

Title
Various Changes in Spelling

Tags
192571, 12

Learning Outcome
12. be able to describe the various changes in spelling brought about by the new Rechtschreibung and understand the motivating factors behind language and orthographic normalisation;

Title
Contemporary Trends in Spoken Modern German

Tags
192572, 13

Learning Outcome
13. be able to identify and discuss contemporary trends in spoken modern German such as lexical borrowing, youth language, use/loss of dialects, etc.

Title
Disambiguating Ambiguous Sentences

Tags
192573, 14

Learning Outcome
14. to be able to disambiguate ambiguous sentences and words and describe how the internal structure of words or sentences (in addition to accent placement) explains the multiple meanings behind the ambiguity.

Title
Community-Based Application for Learning

Tags
192833, 15

Learning Outcome
Students will apply their learning in given classes to create projects that help contribute to the enrichment of others outside of those classes. They will move their research beyond the culmination of a final product submitted for a grade, bringing their work into the community and public domain, including helping projects outside the classroom in concrete ways, e.g., developing materials for an online lexicon project, creating enrichment materials and activities for K-16 German classes, creating posters and papers for conferences, being able to help other students in their learning and resarch. As a result, students will be able to articulate how their learning can be applied in real life and can be extended outside of the classroom and ultimately that their learning has and should have community impact.

GERM 470R - Topics in German Linguistics

3

Learning Outcomes

Title
Analyze scholarship

Tags
213853, 0, 1, 2023-08-29 09:18:30

Learning Outcome
Be able to identify and understand the core arguments of articles on the topic in Germanic linguistics and can summarize the main ideas of the journal articles.

Title
Synthesize scholarship

Tags
213854, 0, 2, 2023-08-29 09:18:31

Learning Outcome
Know how to seek sources on topics in Germanic linguistics and be able to write an annotated bibliography summarizing the core arguments of journal articles and evaluate the usefulness of the articles for my research paper.

Title
Research

Tags
213855, 0, 3, 2023-08-29 09:18:47

Learning Outcome
Be able to carry out research on one aspect of the history of the Germanic languages and provide a brief and clear overview of a topic related to a change in one of the Germanic languages in both written and oral form to communicate my findings in a paper in a clear manner using primary literature (journal articles), citations, and data/arguments that support my thesis.

Title
Communication

Tags
213856, 0, 4, 2023-08-29 09:18:50

Learning Outcome
Be able to discuss the core topics of the course orally and in writing beyond my own personal research.

GERM 476 - Secondary Student Teaching

Course Information

Teaching Area (new)
GERM

Course Number
476

Teaching Area
GERM

Course Title
Secondary Student Teaching

Course Description
Capstone, field-based, semester-long, full-time experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

Department
German and Russian

When Taught
Fall and Winter

Credit Hours

Min:
12

Fixed/Max:
12

Learning Outcomes

Title
Improve language, culture, and teaching skills

Tags
192574, 1

Learning Outcome
Improve your German language proficiency, your cultural understanding, and your ability to help students see patterns in the language.

Title
Integrate learning into teaching

Tags
192575, 2

Learning Outcome
Critically integrate professional readings, coursework, and teaching experiences into a repertoire of options for professional thought and action

Title
Assess student learning

Tags
192576, 7

Learning Outcome
Develop and adapt a variety of traditional and alternative assessments (including performance-based assessments, portfolios, projects, and self-assessments) to inform instruction, to evaluate students' proficiency across all three modes of communication, to provide feedback that will improve student performance, and to report student progress

Title
Engage students in culture learning

Tags
192577, 4

Learning Outcome
Contextualize language learning experiences in cultural products, practices, and perspectives and use various techniques for engaging students in critical thinking and problem-solving regarding culture

Title
Utilize communicative techniques and technologies

Tags
192717, 5

Learning Outcome
Utilize a variety of communication techniques and emerging technologies to foster active inquiry and collaboration in the classroom, to develop language proficiency and cultural competence, to foster students’ intrinsic motivation, and to support your own professional productivity and growth

Title
Create appropriate learning experiences

Tags
192723, 3

Learning Outcome
Craft standards-based, developmentally and contextually appropriate, meaningful learning experiences in Spanish that support the growth of students’ language proficiency

Title
Adapt instruction for diverse learners

Tags
192758, 8

Learning Outcome
Adapt learning experiences appropriately to better meet the needs of culturally diverse learners, including students with a variety of learning styles andspecial needs

Title
Engage in professional development and reflection

Tags
192763, 9

Learning Outcome
Participate professionallyin the school community, in professional organizationsand professional development activities, and engage in professional dialogue and reflection with colleagues and community agencies to support students, improve your teaching, and strengthen your program

Learning Outcomes

Title
Core Arguments of Published Research

Tags
192579, 2

Learning Outcome
2. be able to identify and explain the core arguments of published research on the topic of study, and be able to interpret and report on the findings outlined in the data and articles studied;

Title
Key Theories and Analyses

Tags
192580, 1

Learning Outcome
General Learning Outcomes for German 497
1. understand and be able to describe keytheories and analyses proposed to account for topics and phenomena related to the relevant field of study investigated in the course, e.g., for the acquisition of new sounds in a second language (L2), contrastive analysis, markedness differential hypothesis, as well as new theories such as Flege's SLM and Best's PAM;

Title
Explaining Individual Beliefs and Views

Tags
192581, 3

Learning Outcome
3. be able to describe and explain our individual beliefs and views on a given topic related to Germanic linguistics discussed in class and be able to reassess our views and beliefs by weighing the evidence presented in published research, defininghow these findings support or contradict our views;

Title
Identifying Relevant Topics in Germanic Linguistics

Tags
192582, 4

Learning Outcome
4. be able to identify atopic of relevance in Germanic linguistics relating to the course topic, and carry out research on the topic by identifyingand understandingthe key articles on that topic and synthesise the findings in a clearly communicated paper and presentation to othersin which the student's points are effectively and logically argued;

Title
Seeking out Sources

Tags
192583, 5

Learning Outcome
5. be able to seek out sources on topics in Germanic linguistics and/or second language acquisition;

Title
Critical Reading, Summarizing, and Communicating

Tags
192584, 6

Learning Outcome
6. be able to critically read, summarise and clearly communicate the core arguments and findings of published research on Germanic linguistics topics related to the course theme by means of an annotated bibliography, paper overview, final paper and presentation;

Title
Identifying Useful Quotes

Tags
192585, 7

Learning Outcome
7. be able to identify useful quotes and data that will help support the thesis of the research and will be able to incorporate quotes and data properly using the conventions used in linguistics; and

Title
Indentifying main Contributors

Tags
192586, 8

Learning Outcome
8. be able to identify the main contributors to researchin the field of study discussed in the course

GERM 498R - Preparing for Professional/ Graduate School

Junior or senior status.

Learning Outcomes

Title
knowledge

Tags
192824, 1

Learning Outcome
Students will demonstrate an advanced level of knowledge in a chosen specialty area

Title
Intellectual, cultural and political literacy

Tags
192718, 2

Learning Outcome
Students will demonstrate an increased literacy in contemporary intellectual, cultural, and political issues in classroom discussions and written reports.

Title
Understanding of post-graduate studies

Tags
192724, 12

Learning Outcome
Students will demonstrate an increased understanding of the character of graduate school and the realities of an academic career based on their discussions and final report.

Title
Library research skills

Tags
192744, 6

Learning Outcome
Students will demonstrate an ability to conduct library research by finding research materials for a topic of interest.

Title
Preparations for post-BA pursuits

Tags
192751, 1

Learning Outcome
The purpose of German 498 is to prepare undergraduates for the transition to post-baccalaureate education: graduate school, law school, or otherwise.

Title
Academic readings

Tags
192753, 3

Learning Outcome
Students will become more astute academic readers by demonstrating the ability to perceive argument, structure, audience, and important sources in their readings.

Title
Presentation skills

Tags
192769, 9

Learning Outcome
Students will demonstrate an ability to give well-organised and clearly communicated presentations based on their research.

Learning Outcomes

Tags
213857, 0, 1, 2023-08-29 09:19:15

Learning Outcome
Students will be able to interact professionally with adults aged 50 and older.

Tags
213858, 0, 2, 2023-08-29 09:19:17

Learning Outcome
Students will apply knowledge from other courses taken for the gerontology minor, as they interact with middle-aged and older adults.

Tags
213859, 0, 3, 2023-08-29 09:19:19

Learning Outcome
Students will be able to serve older adults in the community.

GES 200 - Introduction to Global Environmental Studies

Course Information

Teaching Area (new)
GES

Course Number
200

Teaching Area
GES

Course Title
Introduction to Global Environmental Studies

Course Description
GES 200 is the introductory class for the Global Environmental Studies minor and will prepare students for a broadly interdisciplinary engagement with environmental issues and challenges with an intercultural perspective. The class is managed by the program director with guest lecturers from among the Global Environmental Studies affiliated faculty highlighting different methodological and disciplinary approaches to ecological concerns. The specific issues and topics covered by the class will vary by semester, but every iteration will encompass the doctrinal foundations of environmental stewardship in the interdisciplinary context of the natural sciences, social sciences, arts, and humanities.

Department

Learning Outcomes

Title
Global Environmental Issues

Tags
214565, 0, 1, 2023-09-01 15:53:29

Learning Outcome
Students will be able to articulate the cultural, social, and scientific underpinnings of a significant global environmental issue and evaluate effective policy proposals.

Title
Interdisciplinary Approaches

Tags
214566, 0, 2, 2023-09-01 15:53:29

Learning Outcome
Students will be able to evaluate environmental issues of global scope and policy proposals using methodologies from more than one domain of knowledge.

Title
Cross-Cultural Contexts

Tags
214567, 0, 3, 2023-09-01 15:53:29

Learning Outcome
Students will develop competencies to work sensitively across cultural contexts in order to find local cultural solutions to environmental challenges.

GES 490 - Global Environmental Studies Capstone

Course Information

Teaching Area (new)
GES

Course Number
490

Teaching Area
GES

Course Title
Global Environmental Studies Capstone

Course Description
This course catalyzes learning about complex environmental challenges through research and service. As the capstone experience for the GES program, students will produce a research project and portfolio demonstrating mastery of the quantitative and aesthetic components of science and communication. The course consists of two major projects: 1) Assembling a portfolio of previous work demonstrating mastery of the GES program outcomes. 2) Identifying and carrying out a meaningful environmental research and service project addressing a pressing issue. Depending on the selected issue, this project may result in a peer-reviewed publication, a collaborative service project, or another outcome appropriate to the project. \n

or departmental approval.

Learning Outcomes

Title
Greek Morphology

Tags
189893, 1

Learning Outcome
Successful students will master Greek morphology. All of the forms introduced in Greek 101/102 should be mastered in Greek 201. Students should be able to identify fully the forms of nouns, adjectives, verbs (finite and infinitive forms), adverbs, participles, etc.

Title
Greek Grammar and Syntax

Tags
189894, 2

Learning Outcome
Successful students will master Greek grammar and syntax. They should be able to recognize and identify grammatical and syntactical constructions. In other words, students should be able not only to identify the form of a Greek word, but also the function of that word. For example, a student should be able to indentify a verb form as third person singular present active subjunctive, and then explain why the subjunctive mood is being used.

Title
Greek Translation

Tags
189895, 3

Learning Outcome
Successful students should be able to translate a representative Classical Greek text into good English.

Title
Greek Authors

Tags
189896, 4

Learning Outcome
Successful students should be able to locate the literary accomplishments of the chosen author (such as Xenophon) in the context of Greek literature generally and of his own literary context specifically.

Homeric Greek Morphology

Tags
189897, 1

Learning Outcome
Successful students should master Homeric Greek morphology. Students should be able to identify fully the Homeric forms of nouns, adjectives, verbs (finite and infinitive forms), adverbs, participles, etc.

Title
Homeric Greek Grammar, Syntax, and Meter

Tags
189898, 2

Learning Outcome
Successful students should acquire a foundation in the grammar and syntax of Homeric poetry. They should also acquire a basic knowledge of the principles of scanning Greek verse. Homer's Iliad is regularly chosen as an example.

Title
Poetic Text Translation

Tags
189899, 3

Learning Outcome
Successful students should be able to translate a Greek poetic text into good English.

Title
Literary Accomplishments

Tags
189900, 4

Learning Outcome
Successful students should be able to locate the literary accomplishments of the chosen author (such as Homer) in the context of Greek literature generally and of his own literary context specifically.

Greek Morphology

Tags
189901, 1

Learning Outcome
Successful students will refine their mastery of Classical Greek morphology. They will be able to identify fully the forms of nouns, adjectives, verbs (finite and infinitive forms), adverbs, participles, etc.

Title
Greek Grammar and Syntax

Tags
189902, 2

Learning Outcome
Successful students should master Greek grammar and syntax and begin to master Greek rhetoric. While they should be able to recognize and identify grammatical and syntactical constructions-a practice already refined in Greek 201, they should also be able to recognize and identify rhetorical devices employed by the author(s) being read and begin to understand the effect of those devices as employed.

Title
Greek Translation

Tags
189903, 3

Learning Outcome
Successful students should be able to translate a complex Greek prose text into good English.

Title
Place in Literary History

Tags
189904, 4

Learning Outcome
Successful students should be able to locate the literary accomplishments of the chosen author(s) (such as Lysias and Plato) in the context of Greek literature generally and of their own literary context specifically.
