Academic Policies

Southeastern University is a Christ-centered institution of higher learning. The educational programs of Southeastern University are designed to foster successful academic achievement in order to equip students to discover and develop their divine design, to serve Christ and the world through Spirit-empowered life, learning, and leadership. We are committed to equipping the next generation of leaders so that they can go into the world as influential servants in their careers and their communities.

This catalog provides general information on academic regulations and degree requirements. Southeastern University reserves the right to modify policies related to admission, instruction, graduation, and other activities affecting the student body. These changes may apply to both prospective and currently enrolled students as part of the university's ongoing efforts to improve its programs and services.

New Students

New students must complete the Admission process before they may register for classes. New students must submit:

A high school transcript with the graduation date listed by the beginning of the semester. Transfer students with at least 60 earned credits on a college or university transcript that are eligible for transfer will not need to submit the high school transcript.

Students eligible for an English Composition I course exemption due to ACT/SAT test scores must make up the waived credit in general elective. An exemption or waiver does not grant academic credit. An ACT score of 26 or higher in the English section or an SAT score of 700 or higher in the EBRW section is required for exemption.

Students who have completed the admission process will receive an instructional email from the Registrar's office that includes information for new student registration. Students needing assistance may call or email the Registrar's office (phone: 863-667-5015; email: registrar@seu.edu) or the student's assigned Academic Advisor.

Orientation

Upon acceptance, new students should access the new student virtual orientation located on the SEU website. Students will learn to navigate financial aid processes, how to access student support services, and how to register for the appropriate courses. The virtual orientation also directs students to our online bookstore, where they can purchase all required textbooks and course materials they need. This portal walks each student through all the necessary steps for a successful start.

The Academic Year

Main Campus Programs

Southeastern University's main campus operates on a fall and spring semester system, with an optional summer semester.

The fall and spring semesters are typically 16 weeks long. Classes are scheduled to meet the equivalent of 15 fifty-minute sessions per credit hour, though formats may vary based on course structure. In addition to traditional in-person classes, hybrid courses (combining online and face-to-face instruction) and fully online courses are available for main campus students.

The summer semester includes study abroad programs, internships, and two eight-week online course sessions within a 16-week term.

Traditional main campus students may take up to two online courses per fall or spring semester and up to four online courses during the summer. Tuition for online courses follows the standard traditional main campus student rate in fall and spring, while summer online courses are billed at the reduced online course per-credit-hour rate.

SEU Network Programs

Southeastern University operates its online and partner site programs on a fall and spring semester system with an optional summer semester.

The fall, spring, and summer semesters are 16 weeks in length, comprised of two 8-week back-to-back sessions in each semester.

Graduate Programs

Each graduate program follows the general SEU Academic Calendar, but exact delivery methods, dates, and times vary by program.

The general academic policies and procedures presented below are applicable to all Southeastern University graduate students. Please refer to the information in the Programs of Study section for the program of choice or supplemental program manuals to view program-specific guidelines and requirements.

Each student is responsible to follow the program schedule for his or her graduate program, as advised by the Program Coordinator. The University reserves the right to regulate the number of students in a class and to cancel any class with insufficient enrollment to justify its continuance. In registering for specific courses, students are expected to abide by prerequisites.

Class Attendance Policy

Students are both expected and encouraged to attend classes regularly. The lack of attendance may affect a student's grade.

In online courses, attendance is collected in the first week when the student completes the SEU Student Acknowledgement. Failure to complete the acknowledgment will result in the student being dropped from the course. Ongoing participation in the online course is expected through class discussions, assignment submissions, synchronous sessions, and other integrated assessments. Please review the online course syllabus for details.

Students in face to face courses must complete the Student Acknowledgement in MyFire during week 1 of the course. Failure to complete the acknowledgment will result in the student being removed from the course. A student may miss a class without penalty equal to the number of times a class meets per week as follows:

If the class meets once a week, a student may miss one class.

If the class meets two times a week, a student may miss two classes.

If the class meets three times a week, a student may miss three classes.

If a student's absences exceed the number of times a class meets per week, a professor may:

Subject the student to a penalty of not more than one letter grade based on attendance alone.

Recommend to the Registrar that a student with excessive absences be withdrawn from the course.

Working within the framework of the above guidelines, faculty will clearly articulate their attendance policy in the course syllabus.

Prolonged and/or unusual absences not covered by the policy may be appealed to the Office of the Registrar by either the professor or the student. Appeals must be submitted in writing.

Official Email

You are expected to check your SEU webmail account daily during the course term. All written correspondence between instructor and student must be handled through the SEU email system.

MyFIRE Use

Please, make it a habit to always check your MyFIRE account as messages; assignments, grades, and other important related materials may be posted. It is the student's responsibility to check grades and notify your instructor if you have questions.

Technical Difficulties

Southeastern University is committed to providing a reliable learning management system to all users. However, in the event of an unexpected server outage or any unusual technical difficulty that prevents students from completing a time-sensitive activity or assessment, students should report any problems to the instructor and also contact SEU's 24x7 Support Center via the various links provided on every homepage in MyFIRE (available options: chat or phone). Be sure your computer system complies with all SEU Technical Requirements. These requirements are listed within MyFIRE and a Browser Checker is provided under the Need Help? drop-down to ensure the browser you are using is compatible with MyFIRE.

Technical Support

If you have questions or need assistance, you can chat LIVE! with a Support Representative here.

If immediate assistance is required, please contact support via phone/chat. To chat LIVE! with a Support Representative, click here.

Disability Statement

Southeastern University is committed to ensuring equal access for people with disabilities as defined in Section 504 of the Rehabilitation Act of 1973 and with the Americans with Disabilities Act (ADA) of 1990. Equal access is provided in the most integrated setting appropriate to the needs of the individual and to the maximum extent feasible. Southeastern University prohibits disability discrimination and ensures equal access to all educational activities, academic programs, services, and facilities.

The Office of Academic and Auxiliary Services coordinates accommodations for students with documented physical, learning, and/or psychological disabilities. To begin the process to request accommodations, please call 863-667-5283 or email adaservices@seu.edu

Course Evaluation

In order to help us to assess the effectiveness of our courses and instructors, please complete the course evaluation. If you receive a course evaluation for this course, you are required to complete it.

Official Withdrawal

To officially withdraw from this course please contact the registrar's office.

Netiquette

General Rules of Netiquette:

• Make your messages easier to read by making your paragraphs short and to the point.

• DO NOT SHOUT BY TYPING IN ALL CAPS.

• Utilize humor in appropriate forms. Avoid hostile, abusive, libelous, or rude comments. No vulgar, sexist, racist, biased, or other objectionable languages will be tolerated.

• Support others in the course (e.g., "Good presentation!" or "Thanks for the feedback."). Valid criticism is acceptably expressed in the form of thoughtful alternatives. Do not insult or "flame" others.

• Think twice and send once. The old carpenter adage to measure twice and cut once holds great value here. Once you send something not well-thought-out you will find it difficult and time-consuming to recover. Think about what you want the group and the professor to think about you.

• Use spell-check and grammar-check. The little errors commonly accepted in email or text messaging with friends and family are distracting and inappropriate in a college discussion forum.

• In an online discussion forum, a debate is welcome, but be tactful in responding to others. Remember that there's a person (or a whole class) at the receiving end of your post.

• If you quote a previous post (by using the reply function for example), quote only enough to make your own point

• If you want to get in touch with only one person in the class, send a message to that individual's email address, not to the entire discussion list.

Academic Policies

Classification of Students

Classification of Students

A student is classified as a degree seeking or non-degree seeking student.

Undergraduate degree seeking students are classified by the number of earned semester hours of credit. The qualifications for each class level are:

- Freshman 0 to 29 hours*
- Sophomore 30 to 59 hours*
- Junior 60 to 89 hours
- Senior 90+ hours

*The associate's degree typically comprises the freshman and sophomore years and may transfer on a course-by-course basis toward a bachelor's degree. Students who earn an associate's degree typically begin a bachelor's degree as a junior.

Degree Seeking

Undergraduate degree seeking students apply through Admission as degree seeking and take classes that apply to an associate's or bachelor's degree with the intent of completing the degree program. A minimum of 25% of an undergraduate degree must be earned at Southeastern University in accordance with SACSCOC standards.

A degree-seeking graduate student is one who has applied for admission to a graduate program and is systematically pursuing a degree. Degree-seeking students are admitted with advanced standing, regular standing, or provisional standing.

Non-Degree Seeking

A student who is not pursuing a degree program is considered non-degree seeking. An admission application for non-degree seeking enrollment is required for admission.

- Certificate-Seeking - The student is taking courses that comprise a certificate, separate from or independent of an associate's or bachelor's degree program.
- Audit status - The student is enrolled in a course for which he or she will not earn credit. A grade and credit type of AU is posted to the transcript and is not transferable for credit to another institution. Auditing a course does not result in or impact GPA.
- In-service Teacher status - The Polk County teacher-employee taking courses to meet requirements for certain state certifications.
- Special status - An individual taking any course for personal or professional reasons without the intent of acquiring a degree.
- Academy Program - Students taking annual courses to obtain certification, licensing, or ordination with the Assemblies of God.
- Transient status - The student is classified as a degree candidate from another institution who enrolls at SEU for the purpose of transferring credits back to the host school. A transient student must present an official statement attesting to good standing at his/her institution and approval of courses to be taken at Southeastern University, generally in the form of a transient letter.
- Dual-Enrolment status - The high school student taking courses to gain high school and college concurrent credit. Courses taken must be approved by the student's high school guidance counselor.

Graduate Non-degree Seeking Student

A non-degree seeking student at the graduate level has earned at least a baccalaureate degree (for master's level courses) or a master's degree (for doctoral level courses), has completed a Non-Degree Seeking Graduate Application and has been accepted to take classes. The typical non-degree seeking student is a visiting student or is taking a course primarily for special interest. The student must submit a Non-Degree Seeking Graduate Application along with the application fee and official transcripts. Non-degree seeking students must demonstrate the same quality standards as degree seeking students and must be approved by the chair, director, or coordinator of the program in which the course they are seeking is located. A non-degree seeking student is limited to a cumulative total of nine credit hours, unless otherwise stipulated herein by a college, without being admitted to a degree program.

Degree seeking students have priority over non-degree seeking students if space is limited in any course. Non-degree seeking students may be excluded from certain courses in specific programs.

After taking courses as a non-degree student, a non-degree seeking student may apply for admission to a graduate degree program by completing the Graduate Application and meeting all requirements for admission. However, the University is not obligated to accept a non-degree seeking student as a degree seeking student, and there is no guarantee that coursework completed as a non-degree seeking student will fulfill degree requirements.

Graduate Provisional Standing Student

Students who do not meet all the admission requirements may be accepted in a program with the classification of provisional standing student. To obtain provisional standing, the applicant must demonstrate to the faculty of the selected program that he or she is capable of graduate work by

- meeting most of the requirements for admission while providing an acceptable plan for completing any requirement(s) that is/are deficient AND
- demonstrating the ability to do graduate-level work by completing twelve (12) credit hours of graduate study with a B (3.0) or better in each course AND
- satisfying other provisional requirements set at the time of admission (see specific program requirements).

If during the provisional period the student complies with all admission requirements and is ready to move from provisional standing to regular standing, the appropriate graduate faculty will notify the office of the Registrar. A Change of Standing Form will be forwarded to the Office of the Registrar.

The provisional student must comply with all general academic requirements expected of students with regular standing such as prerequisites, and amount and quality of work. Failure to meet any of the provisional requirements will result in the student being dismissed from the graduate program. If there are extenuating circumstances, the student may appeal (see "Appeals").

The appropriate graduate faculty will review the grades of the provisional student at the end of each term until the student completes twelve (12) credit hours or according to other terms consistent with the provisional admission requirements. A student may remain on provisional standing for only twelve (12) credit hours unless special circumstances exist and permission for an extension is given by the appropriate program chair, director, or coordinator.

Regular Standing Student

Students who intend to obtain a master's or doctoral degree, and who have met all admission requirements without reservation, are classified as regular standing. Only those students who have regular standing are eligible for institutional or federal financial aid and may become candidates for a master's or doctoral degree.

Audit Student

An applicant applying for admission to audit courses must submit a Non-Degree Seeking Graduate Application. An audit student will earn no University credit, nor will academic work be graded. Enrollment will be subject to the availability of space. Auditing a class requires approval from the instructor and the program coordinator. Students may audit in-person courses, but not online courses.

Internships and Practicum

Experiential learning courses are designed primarily for degree-seeking students who work in partnership with advisors and faculty mentors on preparation and placement over multiple terms. As representatives of SEU to employers, community partners, and affiliates, placements in practicum and internships are prioritized for current degree-seeking students. On a limited basis and with the approval of the Director of Experiential Learning or applicable department chair, non-degree-seeking students may be considered on a case-by-case basis for practicum and experiential learning courses.

Students Seeking a Certificate

Southeastern University offers undergraduate certificates as either standalone credentials or integrated into a bachelor's degree program.

- Standalone Certificates: Students pursuing a standalone certificate must apply as a non-degree certificate-seeking student through SEU Admissions. Financial aid is not available for standalone undergraduate certificate programs.
- Integrated Certificates: Some certificates are embedded within a bachelor's degree program, allowing required courses to count toward both the certificate and degree. This can be added to the student record through the Declaration Form.

Certificates are offered at the graduate division as standalone credentials, or, when available, integrated into a master's or doctoral degree program.

Certificates Integrated into Degree Program

Students enrolled in a degree program may count certificate courses toward their degree only if:

1. The certificate courses are embedded into the full degree program requirements, or
2. The certificate courses count toward the required Divine Design elective credit hour requirement.

If a certificate does not meet these criteria, it cannot be completed alongside a degree program. Students pursuing both a certificate and a full degree will have both credentials conferred at the same time, even if the certificate coursework is completed earlier. A graduation application* must be submitted by the deadline to ensure the timely conferral of both credentials.

Certificates Integrated into Graduate Degree Program

Students may complete both a graduate program of study and a graduate certificate simultaneously within the following parameters:

Courses required for the certificate must apply toward the full degree program's course requirements without adding extra courses to the degree program (ie. certificate courses are taken to meet the program of study's elective requirement, are approved course substitutions into the program core, and/or are core course requirements of the primary degree program). Students enrolled in both a certificate and full degree program will have both conferred at the same time, even if the coursework for the certificate is completed before the full degree. A graduation application* must be submitted by the deadline for the timely conferral of the certificate and degree.

Students enrolled in a full degree program may not complete a certificate alongside the degree program if the certificate courses in their entirety do not meet the full degree program's requirements (ie. the program of study does not require sufficient electives or electives are already met by other courses, the certificate courses cannot substitute into the program core, and/or certificate courses are not core course requirements of the primary degree program). Currently, SEU does not offer financial aid, including Title IV funding, toward a certificate program with course requirements outside the full degree program.

Students who want to complete a certificate that is not embedded into the full degree program may apply through SEU Admission as a non-degree certificate seeking student, before enrolling in or after completing the full degree program.

Standalone Certificates

Courses completed in a standalone certificate may be applied toward a full degree program within the same academic division, if the student later chooses to pursue a degree.

- Certificate courses may also be applied toward another certificate if requirements overlap.
- Financial aid, including Title IV funding, is not available for standalone certificates. Students must pay in full or use an approved SEU payment plan.
- A graduation application* must be submitted by the deadline for certificate conferral.
- Currently, SEU does not offer financial aid, including Title IV funding, toward a standalone certificate program. Any cost incurred as a result of taking courses for a standalone certificate must be paid in full or may be paid via an approved SEU payment plan.

Graduation Application & Fees

A graduation application fee is generated at the time of processing. Payment must be made before the release of the certificate, diploma, or official transcript.

Students Seeking a Second Bachelor's Degree

Graduates holding a baccalaureate degree from an accredited U.S. institution that meets SEU's transfer eligibility requirements can apply for admission to pursue a second bachelor's degree at SEU. They must meet the regular admission requirements of the major, as applicable. These students, as well as students who earned the first bachelor's degree from Southeastern University, are considered to have completed SEU's Foundational Core requirements.

Students with degrees from institutions that do not meet SEU's transfer eligibility requirements or from foreign institutions may need to fulfill all or part of SEU's Foundational Core requirements as detailed in the SEU Undergraduate Catalog.

The university's minimum requirements for a second degree are 150 total credit hours (including the first bachelor's degree), including at least 30 credit hours (or 25% of the total degree program) in residence at SEU. This 25% must be earned through standard instruction and cannot be obtained through prior learning or test credit.

Departments and colleges may have additional requirements. Students transferring a first bachelor's degree are evaluated on a course-by-course basis according to SEU's credit transfer policies. Students must complete any remaining degree program requirements not met by transfer or other acceptable credit-granting methods.

Students seeking a second bachelor's degree are generally admitted at the senior level if their transferred credit was earned from a U.S. regionally accredited institution. All students should consult with Student Financial Services to learn about financial aid options for earning a second degree.

Students Seeking a Second Graduate Degree

Each degree (applies to master's or doctoral level) must be a minimum of 30 unique hours*, subject to the following conditions:

- Both degrees are completed within the time allowed.
- Written approval from the second graduate program, or in the case of concurrent degrees, from both graduate programs.

*Limited exceptions can be made for university-approved combination degree programs.

Course Schedules and Registration

Course Schedules

The course schedule is developed with the degree-seeking student in mind. Certain courses are offered every semester, others during alternate semesters, or as needed. The university reserves the right to regulate the number of students in a class and to cancel any class with insufficient enrollment to justify its continuance.

Students may use the add/drop period to adjust their schedules due to canceled classes without incurring fees. Students are responsible for checking their course schedules during the add/drop period for class cancellations and additions, room relocations, class enrollment fluctuations, and assigned faculty changes.

Students are expected to note prerequisites or other special requirements when registering for specific courses. Students are not permitted to register for courses without completing prerequisites unless special permission is obtained from the chair of the department or the Dean of the college which offers the course.

The four-digit numbering of courses represents the level of enrollment: freshman-1000; sophomore - 2000; junior - 3000; senior - 4000. The credit hour value of a course is listed with the description of the course in this catalog and appears in the Student Information System under the course offerings each term.

Appeals concerning enrollment and registration may be submitted to the Registrar.

Registration for Degree-Seeking Students

Open registration dates for each term are identified on the academic calendar, and are communicated with students via university email. Students must complete course registration for the semester before the end of the drop/add period. Late registration and changes of classes are permitted through the drop/add period of each semester. Students considering late registration should contact their program coordinator for program-specific details.

All tuition and fees for the semester must be paid by the drop/add deadline unless other arrangements have been made. Financial arrangements are complete only when the student has reached an agreement with Accounts Receivables of the Business Office via method of payment. This is in regards but not limited to payment plan, payment in full or an agreed arrangement of total cost owed. In the event that a student does not comply with financial obligations owed, a financial hold is placed on the student account. This hold prevents registration for continued enrollment until the account balance is paid.

Students who have completed all admission requirements can register for classes in MyPortal (JICS) based on their advisor's recommendations and their 2-year or 4-year degree plan once the registration window is open.

- Registration instructions and assistance are available through the Office of Academic Advising or the Office of the Registrar.
- Registration tutorials are available in the Virtual Orientation section on the SEU website.
- Technical issues with MyPortal should be reported to helpdesk@seu.edu.

Registration for Returning or Continuing Students

Registration for returning students follows these guidelines:

- **Open Advising Period:** Before registration opens, students are encouraged to meet with advisors to discuss academic plans. While advisors offer guidance on course selection and degree fulfillment, students are ultimately responsible for ensuring they follow their degree program and 2- or 4-year plan.
- **Lakeland Main Campus Undergraduate Students:** Registration is scheduled based on class level. Priority is given to seniors, athletes, ADA students, ROTC members, Veterans, and honors students, followed by juniors, sophomores, freshmen, and incoming students. Look for an email from the Office of Academic Advising (advising@seu.edu) for registration dates.
- **Online and Site-Based Undergraduate Students:** Registration is not based on class level. All returning students who are approved for registration may register as soon as the registration period opens.

Registration for Incoming Students

- **Lakeland Main Campus Undergraduate Students:** May register after returning student registration has opened. The Office of the Registrar or Office of Academic Advising will notify incoming students of the date via seu.edu email. Students may also contact the Office of the Registrar.
- **Online and Site-Based Undergraduate Students:** May register as early as the first day of registration, provided all admission requirements are met.
- **Students Requiring Special Approvals (e.g., placement testing, auditions, faculty advising, or department chair approval):** Registration assistance is available during Early Orientation when faculty members are on campus or by emailing the Office of Academic Advising for next steps.

Registration Deadlines & Adjustments

- All students are expected to complete registration before the first day of class.
- Schedule adjustments can be made during the add/drop period without penalty. The add/drop deadline is posted in the Academic Calendar.
- Late registration after the add/drop deadline requires a written appeal submitted through MyPortal (JICS) and approval from the Office of the Registrar.

Directed Study

Directed Study is a regular course taken by special arrangement under the supervision of an instructor. A student enrolled as a degree-seeking candidate may apply for Directed Study. Directed Study (DR) Forms are available from the Office of the Registrar. Prior to registration, the Academic Advisor, supervising instructor, Department Chair, Academic Dean, and Provost must approve the directed study.

The following apply to Directed Study registration:

1. Registration for Directed Study must be completed during the regular registration period as stated in the academic calendar.
2. Directed Study courses must be completed within the term of enrollment. Extensions must be requested and approved in the same manner established for standard courses (see university policy on incompletes).
3. The regular grading scale applies to courses completed by Directed Study.
4. The following additional conditions must be met for Directed Study request:
    1. The course is required to complete the degree program, and no course substitution is available.
    2. The student has an unavoidable scheduling conflict with another course.
    3. The course cannot be taken in a later semester.
5. Directed Study is restricted by faculty availability.
6. Directed Study may be utilized to pursue an area of study that can be individually designed by the professor in collaboration with the student.

7. The professor and the student should not proceed with the course of study until the registration is approved, entered, and reflected on the student's official course schedule.

Student Identification Verification & Enrollment Eligibility Policy

The institution reserves the right to require additional verification of a student's identity when there is reason to believe that the information on record does not accurately reflect who the student is. If a student does not respond to the institution's request for identity verification within the timeframe specified, the institution may cancel the student's enrollment in all courses.

Student Visa Status (F-1 Visa)

Southeastern University, including its NorCal Campus, is authorized under federal law to enroll nonimmigrant students and does vouch for student visa status by issuing Form I-20 to eligible F-1 visa applicants at both its Lakeland, Florida, and Modesto, California, campuses. Prospective international students seeking to study under an F-1 visa must meet all admissions requirements and maintain full-time enrollment in compliance with all applicable visa regulations. At this time, these are the only SEU instructional sites approved to enroll F-1 students.

Add/Drop Policy

The add/drop period is the first week of each term, with deadlines specified in the Academic Calendar. During this time, students may add, drop, or adjust their class schedule.

Important Deadlines & Responsibilities

- Students are encouraged to consult an academic advisor before making schedule changes. However, they are ultimately responsible for following their degree plan and making appropriate course selections.
- By the add/drop deadline, students must complete the SEU Student Acknowledgement & Attendance Confirmation in MyFire for each enrolled course. Failure to do so may result in removal from the course. This does not absolve the student of the responsibility to drop the course from their schedule if they do not intend to be enrolled in the course. The student will be charged for every class on their schedule after the add/drop deadline closes.
- Web registration access will be deactivated at 11:59 p.m. EST on the last day of the add/drop period.
- Failure to attend class or drop a course through the online system does not constitute proper withdrawal and may result in an "F" or "WF" grade.
- Technical issues on the final day of the add/drop period do not exempt students from their responsibilities. If issues arise, contact the Office of the Registrar for assistance.

Financial & Academic Impact

- Dropped courses do not appear on a student's permanent academic record, and no tuition or fees will be charged for them.
- Financial aid eligibility is based on the total number of credit hours a student is enrolled in as of the day after the add/drop deadline. Schedule changes after this point are not permitted for financial aid reasons unless an appeal is approved.

Course Registration Appeals

Registration errors and course drops after a semester add/drop deadline are not allowed without a written appeal from the student to the Office of the Registrar. The appeal must contain reasons that justify such an exception to the deadline. The outcome of a student appeal request will be based on the student's financial aid awarded, if the class has been attempted, the point in time during the semester, and other contributing factors.

Course Load

The normal academic load is 15 hours per semester. This enables the student to complete associate degree requirements in approximately two years and bachelor's degree requirements in approximately four years. The minimum course load for full-time classification is 12 hours per semester. A student may register for up to 17 hours per semester. Students may register for more than 17 credit hours in a semester within the following parameters:

Incoming freshmen with 0 credits earned may take up to 17 credits maximum

Returning students with a cumulative GPA of less than 2.5 are permitted to take 17 credits maximum (May not submit overload request)

Returning students with a cumulative GPA between 2.5 and 3.0 may be permitted to take up to 19 credit hours, but must sign the Petition for Overload Contract.

Returning students with a cumulative GPA between 3.0 and 3.49 are permitted to take up to 19 credit hours without signing the Petition for Overload Contract. Students must sign Petition for Overload Contract to take 20-21 hours.

Returning students with a cumulative GPA of 3.5 or higher may take up to 21 hours without signing the Petition for Overload Contract.

Main Campus Undergraduate Tuition

For main campus undergraduate students attending the Lakeland campus, tuition for all courses during the fall and spring semesters will be billed at the traditional student per credit hour tuition rate or as part of the main campus tuition package (12-17 credit hours). Credit hours that exceed or fall below the standard 12 to 17 credit hour block per semester are billed per the traditional student per-credit hour rate. Traditional students at the main campus may enroll in up to two online courses per semester within their total 12–17 credit hour allotment. Tuition rates are determined by the student's program type, not the format of the individual course. During the summer semester, traditional students will be charged the reduced online tuition rate.

Online and Partner Site Undergraduate Tuition

The student will be billed at the regular (online or partner site) credit hour tuition rate. Partner Site students will be billed a site fee per semester in addition to tuition.

Certain majors may have different tuition rates. The SEU website offers information on current tuition rates.

Any additional student fees applied can be viewed on the student's bill in the MyPortal JICS Student Information System.

Undergraduate Semester Continuance Policy

Semester Continuance: Medical

A student may occasionally have an issue or life event that prohibits him/her from finishing a semester successfully within the 15 week or 8 week term. This Semester Continuance Policy is designed to assist a student in completing a semester of courses successfully by extending the deadline for a specified time in order to complete required coursework. Reasons can be varied and unexpected. Various triggers for continuation may be identified as medical, such as an accident resulting in an injury or hospitalization due to an unexpected illness, or emotional and psychological issues due to a personal trauma or criminal attack. A requested semester continuation for any of the above listed reasons will be coordinated by the Director of Academic and Auxiliary Services.

To be granted a semester continuance, a student must have successfully completed 60% of the course or courses, which is 9 weeks of a 15 week term or 5 weeks of an 8 week term, with satisfactory progress in each course under consideration for an extension of the coursework deadline.

Requests for a semester continuance are submitted to the Director of Academic and Auxiliary Services. Submission of medical or other appropriate documentation will be required. If the student has not yet completed 60% of the course and course work, it will be recommended that the student withdraw from the course. Depending on the situation and the amount of time that has been spent in the course or courses, a written appeal to drop the course or courses and financial charges or reparations of charges will be considered. The written appeal must be from the student rather than the parent if the student is able to write an appeal. The appeal will be reviewed by the Registrar. Southeastern University is not obligated to drop charges for any course that has been attempted past the drop/add deadline.

Professors of each course under consideration for an extension of the deadline will be consulted. The extension will be determined and documented in writing with a definite list of expectations and the new deadline for all assignments to be submitted. Failure to finish the coursework by the new deadline will result in the grade earned by the student. Again, if satisfactory progress has not been made in a course at the point of the need for continuance, the professor and the Director of Academic and Auxiliary Services will recommend the student withdraw from the course. A grade of W will be posted, which does not impact the GPA. The student may appeal to have a late withdrawal granted after the 60% mark has passed. Arrangements and notifications to Housing, Financial Aid, and other pertinent departments of the university must be made by the student.

Communication with parents or family members may take place as needed while guarding specific student academic records based on the FERPA authorization that the student has made or has not made. Protected information may include the courses in which the student is enrolled

Semester Continuance: Non-Medical

To be eligible for a semester continuance, a student must have completed at least 60% of the coursework (equivalent to 9 weeks of a 15-week term or 5 weeks of an 8-week term) and demonstrate satisfactory progress in each course for which an extension is requested. Every effort will be made to support the student in completing the course successfully within the policy's framework. However, the requirements for course completion will not be reduced or waived.

After reviewing feedback from professors and the Registrar, the Chief Student Success Officer will determine the appropriate course of action. Once the decision is made and approval is granted, the student will sign the Semester Continuance forms. Professors will be notified that an extension has been granted, including a specific deadline for completing all outstanding work.

The following points will be communicated to the student:

1. **Shorter Extensions Yield Better Results**: Extensions should be as brief as possible to ensure successful outcomes. Financial aid for future semesters may be impacted if the student has Incomplete grades at the start of a new semester. If coursework can be completed within 30 days, that time frame should be agreed upon. However, the student may be granted up to one full semester to finish all outstanding coursework.
2. **Failure to Meet the Deadline**: If the student fails to submit all required work by the agreed-upon deadline, the grade earned will be final, and a grade of "F" will be assigned for any uncompleted coursework. Students granted a semester continuance may not appeal for a late course withdrawal.
3. **Summer Availability of Professors**: Professors may not be available during the summer term as it is not a recognized semester. Prior arrangements should be made to determine when professors will be available to finalize grading late coursework.
4. **Follow-Up and Documentation**: The Chief Student Success Officer will schedule reminders to monitor the student's progress. Follow-up communication with the student and professors will be documented in the student's record, as needed.

Bereavement and Grief

In communication with your professor, there is grace provided for one week of class absence to allow for funeral attendance in the event of a death in the immediate family. "Immediate family" includes a student's spouse, parents, children, grandchildren, step-children, sister, sister-in-law, half-sister, step-sister, brother, brother-in-law, half-brother, step-brother, mother-in-law, father-in-law, grandparents of the student or spouse, uncles of student or spouse, aunts of student or spouse, or any other close relative who was currently residing within the student's household to include both biological, foster and adoptive members.

If further support is needed beyond a week of grace, such as additional time away, grief support, or counseling referrals, students are encouraged to reach out or be referred to Student Outreach and Support for case management services.

Graduate Semester Continuance Policy

A student may occasionally have an issue or life event that prohibits him/her from finishing a semester successfully within the 16 week semester or 8 week term. This Semester Continuance Policy is designed to assist a student in completing a semester of courses successfully by extending the deadline for a specified time in order to complete required coursework.

In order to be granted a semester continuance, a student must have successfully completed 60% of the course or courses, which is 9 weeks of a 16 week semester or 5 weeks of an 8 week term, with satisfactory progress in each course under consideration for an extension of the coursework deadline. Further, the request to receive a semester continuance must be made by the student no later than one week after the end of a semester/term.

Requests for semester continuances are submitted to the Director of Academic and Auxiliary Services at 863-667-5041 or at lcbrown@seu.edu. Submission of medical or other appropriate documentation will be required. If the student has not yet completed 60% of the course work, it will be recommended that the student withdraw from the course. Depending on the situation and the amount of time that has been spent so far in the course or courses, a written appeal to drop the course or courses and financial charges or proration of charges will be considered. The written appeal must be from the student rather than the parent. The appeal will be reviewed by the Registrar. Southeastern University is under no obligation to drop charges for any course that has been attempted past the drop/add deadline.

Professors of each course under consideration for an extension of the deadline will be consulted. The extension will be determined and documented in writing with a definitive list of expectations and the new deadline for all assignments to be submitted. Failure to finish the course work by the new deadline will result in the grade earned by the student. Again, if satisfactory progress has not been made in a course at the point of the need for continuance, the professor and the Director of Academic and Auxiliary Services will recommend the student withdraw from the course. A grade of W will be posted, which does not impact the GPA. The student may appeal to have a late withdrawal granted after the 60% mark has passed. Arrangements and notifications to Housing, Financial Aid and other pertinent departments of the university must be made by the student.

Communication with parents or family members may take place as needed while guarding specific student academic records, based on the FERPA authorization that the student has made or not made. Protected information may include the courses in which the student is enrolled.

The coursework to be completed by the student will be determined by each professor based on the number of weeks that have passed and the progress made in each course. Every consideration should be given in order to assist the student to finish the course successfully within the guidelines described in the policy. The requirements for completion of the course will not be reduced or waived.

After the Director of Academic and Auxiliary Services has determined a course of action based on the feedback from professors or the Registrar, the Semester Continuance Policy will be forwarded to the student. Professors will be notified that the semester/term has been extended for the student with a definitive deadline for all work to be submitted.

The following points should be understood and communicated to the student:

- A shorter extension will result in better outcomes. Financial aid for future semesters is impacted by having Incompletes in courses when a new semester begins. If the work can be completed within 30 days, agree to that time frame; however, the student may be given up to one full semester to complete all course work.
- The student must be advised that if the deadline is not met for all coursework, the grade earned will be issued.
- Professors may not be accessible in the summer because it is not a recognized semester. An agreement should be made in advance as to when the professor will be available.

The Director of Academic and Auxiliary Services will set a reminder to follow up on the student's progress in courses by contacting the student and the professors, as needed. Follow-up attempts and outcomes will be documented in the student's record.

Medical Reasons

Semester continuation may be necessary because of medical reasons. Reasons can be varied and unexpected. Various triggers for continuation may be identified as medical, such as an accident resulting in an injury or hospitalization due to an unexpected illness, or a psychological disability due to personal trauma or criminal attack. A requested semester continuation for any of the above listed reasons will be coordinated by the Director of Academic Services in collaboration with the applicable faculty members.

Non-Medical Reasons

Semester continuation may be necessary because of non-medical reasons, such as the death or serious illness of an immediate family member.

Procedure to Obtain Semester Continuance

The coursework to be completed by the student will be determined by each professor based on the number of weeks that have passed and the progress made so far in each course. Every consideration should be given to assist the student to finish each course successfully within the guidelines described in the policy. The requirements for completion of the course will not be reduced or waived.

Once the Director of Academic and Auxiliary Services has determined a course of action based on the feedback from professors or the Registrar, Semester Continuance forms will be signed by the student. Professors will be notified that the semester or term has been extended for the student with a definitive submission deadline for all work.

The following points should be understood and communicated to the student:

1. A shorter extension will result in better outcomes. Financial aid for future semesters is impacted by having Incomplete ("I") grades in courses when a new semester or term begins. If the work can be completed within 30 days, agree to that time frame; however, the student may be given up to one full semester (for 16-week courses) or term (for 8-week courses) to complete all course work.
2. The student must be advised that if the deadline is not met for all coursework, the grade earned will be issued. The grade for non-completion will be F.
3. The agreement should be made in advance as to when the professor will be available.

The Director of Academic and Auxiliary Services will set a reminder to follow up on the student's progress in courses by contacting the student and the professors, as needed. Follow-up attempts and outcomes will be documented in the student's record.

For further details on withdrawal procedures, please refer to the Withdrawals section.

Bereavement and Grief

In communication with your professor, there is grace provided for one week of class absence to allow for funeral attendance in the event of a death in the immediate family. "Immediate family" includes a student's spouse, parents, children, grandchildren, step-children, sister, sister-in-law, half-sister, step-sister, brother, brother-in-law, half-brother, step-brother, mother-in-law, father-in-law, grandparents of the student or spouse, uncles of student or spouse, aunts of student or spouse, or any other close relative who was currently residing within the student's household to include both biological, foster and adoptive members.

If further support is needed beyond a week of grace, such as additional time away, grief support, or counseling referrals, students are encouraged to reach out or be referred to Student Outreach and Support for case management services.

Withdrawals

Withdrawal from a Course

Students may withdraw from a course without academic penalty through the withdrawal deadline, which is notated on the academic calendar and occurs at the 60% point of the course. The official course withdrawal date will be the date the Course Withdrawal form is filed with the Office of the Registrar. A grade of "W" will be recorded on the student's record. Complete withdrawal from the university is not part of this policy. Forms for course withdrawal are available on the Southeastern University website, in the JICS Student Information System. There is no refund for a course withdrawal. Too many "W" grades will hinder academic progress and financial aid coverage. Withdrawn courses are not covered by Veteran's benefits. Students are encouraged to contact Student Financial Services prior to withdrawing from a course to determine the financial impact.

Withdrawal from the University

A University Withdrawal occurs when a student officially communicates with the Office of Student Success and Retention that he/she wishes to withdraw from all courses and exit the institution. University Withdrawals happen after the add/drop period through the withdrawal period (60% mark of the term/semester). Upon completion of the University Withdrawal process, a grade of "WD" will be recorded for each current course as a final grade. The "WD" has no impact on a student's cumulative or term GPA.

Withdrawing from the University may impact financial aid and could result in a balance owed, as students will remain financially responsible for all tuition and fees incurred. Any refunds for which the student is eligible will be processed in accordance with the refund policy described in the Financial Information section of the catalog.

The Offices of Student Success and Retention, as well as Student Financial Services, will guide students throughout the process to ensure informed decision-making. Students who wish to pursue a University Withdrawal will initiate the process by completing a Student Departure form on the University website in MYPortal (JICS) Student Information System. Communication will be directed to the student's official @seu.edu email account. It will be the student's responsibility to check this account for information and/or documentation regarding the University Withdrawal process.

Departure After the Course Withdrawal Deadline, or in Between Semesters

Students seeking to exit the University between semesters/terms or during the semester after the course withdrawal deadline has passed will initiate the process by completing a Student Departure form on the University website in JICS Student Information System. Follow-up communication will be directed to the student's official @seu.edu email account. It will be the student's responsibility to check this account for information and/or documentation regarding the departure process after submitting the form.

Readmission after Withdrawal

Students who have not been in attendance more than one semester at Southeastern University, or who withdrew from the program during a semester for any reason, must submit a formal application for readmission to the program.

Students who either withdrew or were withdrawn from a graduate program (not just a course) for any reason must submit a formal application for readmission to the program.

Graduate Enrollment

Active Status

Students must maintain active status in a degree program. A student is considered active when registered for one or more courses each semester. If a student neglects to maintain active status for a full semester (fall or spring), the student will automatically be exited from the program. If a student who has been exited from the program for not maintaining an active status desires to resume coursework, the student will be required to reapply through Admission and gain approval from the program coordinator prior to re-enrollment.

Active Status during the Dissertation/Capstone Phase

Once a student enters the dissertation/capstone phase, the student must maintain continuous enrollment as defined by the program of study.

Course Load

Course Load: Master's Level

The normal academic load is 6 hours per semester. Students must not register for more than 12 hours per semester except with the graduate coordinator's approval. This exception is typically granted only for intensive scheduled courses that do not conflict with the schedule of other courses. This restriction includes any coursework taken at other institutions.

Course Load: Doctoral Level

The normal academic load is 4 hours per semester prior to the dissertation/capstone phase. Upon entering the dissertation/capstone phase, students must take the minimum number of credits required to maintain continuous enrollment as defined by the program of study. Students must not register for more than 4 hours per semester except with the program coordinator's approval.

Directed Study

In extenuating, qualifying circumstances, a student may apply to take a course as a Directed Study through the Office of the Registrar. Directed Study must be approved by the student's academic advisor, the instructor for the course, the program coordinator and dean, and the provost prior to registration. Directed Study forms must be submitted by the add/drop deadline for the term in which is being requested in order to be considered for enrollment.

The following policies apply to Directed Study registration:

1. Registration for Directed Study must be completed during the regular registration period as stated in the University calendar.
2. Directed Study courses must be completed within one semester or term.
3. The regular grading scale applies to courses completed by Directed Study.
4. The following additional conditions must be met for a Directed Study requested in a fall or spring semester.
    1. The student has an unavoidable scheduling conflict with another course.
    2. The course is required to complete the degree program and there is no available course substitution.
    3. The course cannot be taken in a later semester.
5. Directed Study is restricted by faculty availability and approval is not guaranteed.
6. Directed Study may be utilized to pursue an area of study that can be individually designed by the professor in collaboration with the student.
7. The professor and the student should not proceed with the course of study until the registration is approved, entered, and reflected on the student's official course schedule.

Drop/Add Procedure

The drop/add period is the first week of every academic term. Drop/add deadlines are published in the academic calendar and in the course syllabus. Students may add, drop, or make changes to their class schedule during this period. Students should contact their program chair, director, coordinator, or academic advisor prior to making a scheduling change; however, the student is ultimately responsible for his or her educational choices.

The web registration permission will be inactivated at 11:59 p.m. EST on the last day of the drop/add period. Failure to attend class or to drop the course via your web access may result in the removal from the course or recording of F or WF grades. Students are required to complete the SEU Student Acknowledgement to access the content within the course by the drop/add deadline. Students who do not complete the SEU Student Acknowledgement may be removed from the course. This does not absolve the student from the responsibility to drop from the class. The student will be financially responsible for every class on their schedule after the drop/add period closes. Technical difficulties on the final day of the drop/add period do not absolve the student from responsibility.

Dropped course(s) will not appear on any permanent academic record and a full tuition refund is granted within this period. Once the drop/add period ends, no additional course changes are permitted other than official withdrawal.

Academic Policies

Grades/Credit Hour Definition

Undergraduate Grades

The following scale of letter grades is used in recording a student's academic progress:

Explanation	Grade	Explanation	Points Range	Quality Points
Outstanding (90-100)	A	Superior performance in all aspects of the course with work exemplifying the highest quality-Unquestionably prepared for subsequent courses in field.	94-100%	4.0
	A-	Superior performance in most aspects of the course; high quality work in the remainder-Unquestionably prepared for subsequent courses in field.	90-93%	3.67
Above Average (80-89)	B+	High quality performance in all or most aspects of the course-Very good chance of success in subsequent courses in field.	87-89%	3.33
	B	High quality performance in some of the course; satisfactory performance in the remainder-Good chance of success in subsequent courses in field.	84-86%	3.0
	B-	Satisfactory performance in the course-Evidence of sufficient learning to succeed in subsequent courses in field.	80-83%	2.67
Average (70-79)	C+	Satisfactory performance in most of the course, with the remainder being somewhat substandard-Evidence of sufficient learning to succeed in subsequent courses in field with effort.	77-79%	2.33
	C	Evidence of some learning but generally marginal performance-Marginal chance of success in subsequent courses in field.	74-76%	2.0
	C-	Minimal learning and substandard performance throughout the course-Doubtful chance of success in subsequent courses.	70-73%	1.67
Below Average (60-69)	D+	Minimal learning and low quality performance throughout the course-Doubtful chance of success in subsequent courses.	67-69%	1.33
	D	Very minimal learning and very low quality performance in all aspects of the course-Highly doubtful chance of success in subsequent courses in field.	64-66%	1.0
	D-	Little evidence of learning-Poor performance in all aspects of the course-Almost totally unprepared for subsequent courses in field.	60-63%	.67
No Credit (0-59)	F	Failure to meet requirements of the course-Unprepared for subsequent courses in field.	0-59%	0.0
No Credit	W	Course Withdrawal		N/A
No Credit	WF	Administrative Withdrawal		N/A
No Credit	WD	College Withdrawal		N/A
No Credit	I	Incomplete		N/A
Credit	P	Pass		N/A
No Credit	S	Satisfactory		N/A
Credit	CR	Credit		N/A
No Credit	NC	No Credit		N/A
No Credit	IP	In Progress		N/A

Graduate Grading Scale

Grade Letter	Grade Percentage
A	94 to 100%
A- (minus)	90% to 93%
B+	87% to 89%
B	84% to 86%
B- (minus)	80% to 83%
C+	77% to 79%
C	74% to 76%
C- (minus)	70% to 73%
D+	67% to 69%
D	64% to 66%
D- (minus)	60% to 63%
F	0% to 59%

GPA Calculation

Quality points are the numerical equivalent of the letter grades and are assigned for each credit hour earned as indicated by the above scale. For example, a three credit hour course with an earned A grade equals 12 quality points.

In determining a grade point average (GPA):

Total number of quality points earned divided by total number of semester hours attempted for which quality point values are assigned = GPA.

Grades for all attempted courses will remain on the student's permanent record. If a course is repeated, the highest of the grades will be computed in the student's grade point average (GPA) with the lower grade forgiven from the GPA, but all attempts will remain documented on the student's transcript. Students who wish to appeal a grade must do so within the immediate succeeding semester. Otherwise, the recorded grade is permanent and can be changed only by repeating the course. No grades, GPA, declarations (major, minor and/or certificate) or test scores may be changed or added after the degree and diploma are awarded.

Incomplete Grades

An "I" grade indicates incomplete course work and may be recorded when a student is passing but cannot complete the course due to illness or a serious personal emergency. In order to be granted an incomplete grade, a student must have successfully completed 60% of the course, which is 9 weeks of a 15 week term or 5 weeks of an 8 week term, with satisfactory progress. The student is required to initiate consultation with the professor and the Department Chair or Dean of the college by filing a written request for an "I" grade. Supporting documentation must accompany the written request which must be submitted to both the Professor and the Department Chair or Dean of the college. An "I" may be recorded for a maximum of one semester and is not computed in the student's GPA. If an "I" is not changed by the end of the immediately succeeding semester, the grade automatically converts to an "F" and is recorded on the student's permanent record. An "F" grade is computed in the GPA. Once an incomplete grade is awarded, course withdrawal is no longer an option. Students with an incomplete in a previous semester may not register for more than 17 hours including the current semester and the previous incomplete hours. Students should be aware that an incomplete course may hinder the award of financial aid in a subsequent semester.

Grade Forgiveness Policy

In order to improve their knowledge of a subject and cumulative grade point average, students may elect to repeat a course in which they have earned a less than satisfactory grade, especially a "D" or an "F." The higher grade will be the grade that contributes toward the cumulative grade point average, however all attempts will be posted on the student transcript. Students may only attempt a failed course up to three (3) times total. Should the student not pass the course with three attempts, the student must complete the course via transient, or petition the Chair or Dean for a course substitution. In situations where the course needed to be repeated is no longer available or offered, a similar course may be substituted with the approval of the Dean of the college and the Registrar. A major core course in which a grade of "F" was earned at Southeastern can be repeated only at Southeastern, unless dean or department chair approval has been granted to take it elsewhere as transient. The failed course will remain on the student's transcript, even after the course has been repeated.

Graduate Grade Forgiveness Policy

Graduate students must repeat courses in which they do not obtain at least a "C-" letter grade. If a student receives more than two "C" grades (C+, C, or C-) during their program, they must repeat those courses over the allowable two. The higher-grade will be the grade that contributes toward the cumulative grade point average. The original grade for the repeated course will remain on the student's transcript, even after the course has been repeated. A course may be repeated only once (the comprehensive exam in doctoral programs may not be repeated).

Graduate Repeating Courses Policy

In order to maintain the minimum GPA to graduate, students may repeat a course. A graduate course in which a grade of C-, C, or C+ was earned may be repeated one time; a student must repeat any graduate course taken for which a grade of D-, D, D+ or F was earned. A course may be repeated only once. While a course may only be repeated once for a grade, if a student withdraws from a repeated course, the course may be taken again. In situations where the course needing to be repeated is no longer available or offered, a similar course may be substituted with the approval of the dean of the college and the registrar. However, the student's ability to retake a course may be limited by curricular changes or academic policy changes. Regardless of the GPA, a student will not be allowed to graduate with a final grade of less than a C- in any course. The student must understand that courses are usually offered in a specific sequence; therefore, any repetition of a course may result in a significant delay in the completion of the student's degree program. Directed Study may not be used to repeat a course.

See Dissertation Progression Policy in your program of study for courses related to dissertations and capstone projects.

Definition of Credit Hour

One credit hour will be awarded for a minimum of 750 minutes (50-minute class x 15 weeks) of formalized instruction that typically requires students to work on out-of-class assignments for an average of twice the amount of time as the amount of formalized instruction (1,500 minutes). It is acknowledged that formalized instruction may take place in a variety of modes.

While awarding of credit hours typically occurs for instruction delivered in accordance with an institution's standard calendar, it may also occur for instruction that may not follow the typical pattern, if the criteria for awarding such credit is met. The expectation of contact time inside the classroom and student effort outside the classroom is the same in all formats of a course whether it be fully online, a hybrid, face-to-face contact with some content delivered by electronic means, or one delivered in lecture or seminar format. Courses that have less structured classroom schedules, such as research seminars, independent studies, internships, practicums, or any other academic work leading to the award of credit hours, should clearly state learning objectives, expected outcomes, and workload expectations that meet the standards set forth above.

This credit hour policy applies to all courses at all levels (graduate, professional, and undergraduate) that award academic credit (i.e. any course that appears on an official transcript issued by the University) regardless of the mode of delivery including, but not limited to, self-paced, online, hybrid, lecture, seminar, and laboratory. Academic units are responsible for ensuring that credit hours are awarded only for work that meets the requirements outlined in this policy.

Academic Policies

Transfer or credit/transient or PLA

Transcripts

The official academic record for each student is maintained in the Office of the Registrar. Authorization from the student must be received before an official transcript can be released as is required by law. Students should request a transcript through the SEU website, which leads to the transcript ordering service through Parchment. Transcripts are normally processed within the same day upon receipt of the request as long as all requested information is provided. The cost is $12 per copy.

To order a transcript from Southeastern University's site:

- Go to www.seu.edu
- Click the "Transcripts/Verifications" link under "Resources" at the bottom of the homepage
- The Office of the Registrar page will open
- Click on "Transcripts & Replacement Diploma Request"
- Follow the instructions to place your order
    - Create an account by providing the following:
        - First & Last name
        - Date of birth
        - Years of attendance
        - Student ID number or SSN
    - Be sure to keep your order number for reference.
    - Check your email for updates on your transcript or diploma request.
    - Select the best option for when the transcript should be sent
        - Send Now
        - Hold Until Final Grades Are Posted
        - Hold for Degree (if waiting on degree conferral to be posted to the transcript)

General Conditions for All Credit Transfer

For most graduate programs, up to 25% of the graduate credits required for the degree earned at regionally accredited universities may be transferred. Upon evaluation of special circumstances, a program chair, director, or coordinator, in collaboration with the Registrar, may approve transfer credits of any number less than 66% of the total credits required for completion of the degree in that program. Only those credits earned in the seven years before admission will be eligible to be applied in transfer to a graduate program. Applicants with transfer credits must complete the total number of hours required for the program to meet graduation requirements. In conjunction with the appropriate program chair, director, or coordinator, the Registrar will prepare a tentative credit evaluation for each transfer applicant. An official evaluation will be issued after the applicant selects and registers for a degree program.

- New transfer students must submit an official transcript from each of the previously attended institutions by the end of the student's first semester to have credit considered for transfer into Southeastern University.
- Once accepted into a master's degree program at Southeastern University, a student must obtain a transient letter to have credits accepted from another institution. No doctoral program accepts transient credits once coursework at SEU has been started.
- An official transcript must be submitted in a sealed envelope or electronically delivered from the originating college or university. SEU will not accept an opened transcript as an official to award credit for transferred courses.
- Graduate credits accepted in transfer must be graded with a "B" (3.0 on a 4.0 scale) or higher.
- Courses accepted in transfer are calculated into the student's SEU graduate degree GPA.
- Per SACSCOC accreditation standards, 33% of the credit for any graduate program must be earned at Southeastern University through credit-bearing course completion.
- To take credits through another institution while enrolled in a degree program at Southeastern University, a student must obtain transient approval to have credits accepted toward the SEU degree.
- Master's degree courses will not be considered for transfer credits at the doctoral level.

Transfer Practices

The Transfer Credit Practices of Designated Educational Institutions published by the American Association of Collegiate Registrars and Admission Officers is referenced.

- The university reserves the right to deny credit for specific courses from any college or university, regardless of accreditation.
- Transfer evaluation is conducted for SEU degree-seeking students only. Non-degree-seeking students are ineligible to transfer credit to SEU.
- Southeastern University will consider transfer credits earned at an institution accredited by any accrediting body listed in the acceptable accrediting bodies below or with an active articulation agreement with Southeastern University.
- International credits must come from a college or university recognized by the country's education department or ministry. Credits will only be reviewed after an official transcript has been submitted to the Office of the Registrar, and an approved independent evaluation service has performed an evaluation. Contact the Office of the Registrar for a list of approved service providers. The student is responsible for the cost of this service.
- Credits eligible for transfer will not be removed at a student's request.
- Southeastern University does not generally accept credit from one institution for another institution's transferred credits. Individual final, official transcripts must be submitted from each and every institution attended.
- Some programs have specific requirements; please see the Program of Study for program-specific policies.

Acceptable Accrediting Bodies

Southeastern University accepts courses in transfer from institutions accredited by an accrediting organization recognized by both the U.S. Department of Education (ED) and the Council for Higher Education Accreditation (CHEA). Programmatic Accrediting Organizations acceptance is determined at the program level. Acceptable accrediting bodies include the following accrediting organizations:

- Association for Biblical Higher Education (ABHE)
- Association of Advanced Rabbinical and Talmudic Schools (AARTS)
- Commission on Accrediting of the Association of Theological Schools (ATS)
- Distance Education Accreditation Commission (DEAC)
- Higher Learning Commission (HLC)
- Middle States Commission on Higher Education (MSCHE)*
- New England Commission of Higher Education (NECHE)
- Northwest Commission on Colleges and Universities (NWCCU)
- Southern Association of Colleges and Schools Commission on Colleges (SACSCOC)

- Transnational Association of Christian Colleges and Schools (TRACS)
- Western Association of Schools and Colleges – Accrediting Commission for Community and Junior Colleges (WASC - ACCJC)
- Commission on Accrediting of the Association of Theological Schools
- Western Association of Schools and Colleges Senior College and University Commission (WASC - SCUC)

*MSCHE credit is accepted although it is no longer recognized by CHEA.

Transfer Credit Appeals

See “Appeals” section.

Transient Policy

Transient enrollment means a degree seeking student is enrolled at a second school with the intention of transferring credits to Southeastern. A request for a transient letter from Southeastern University to the second school is required for credits to be considered for transfer. Transient letters are issued by the Office of the Registrar. Students who have earned an associate degree or 64 semester hours may not enroll at the junior college level unless they are deficient in specific general education courses. Students are responsible for the applicability of courses taken elsewhere to their Southeastern program. Students are strongly encouraged to obtain written advisor, department chair, or Academic Dean for approval for major core course transiency.

Transfer credit on the college level is accepted according to the following guidelines, from regionally accredited schools:

Up to 62 general education credits are accepted with a State of Florida AA degree in order to cover our general education core. AS and AAS degrees are evaluated on a course-by-course basis for acceptance into the general education core.

Up to 90 transfer hours can be accepted when a student comes to SEU, but there will be no other transient credits approved during the student’s tenure at SEU.

Transient status is permitted for current students, with specific limitations, including the following:

1. Transient courses must be taken at a regionally accredited institution, an ABHE accredited institution, or an institution that SEU has an active articulation agreement with.
2. The Transient Status form, available on the JICS website, must be submitted and approved by the Office of the Registrar in order to consider any course for transfer while you are a student at SEU.
3. Major core requirements must be completed at SEU. Any exception made must be approved by the Department Chair or Academic Dean.
4. 25% of all degree programs must be completed through SEU. Once a student is accepted at SEU, a bachelor degree candidate may not take transient courses if they have transferred in and/or earned test credit for a combined 90 hours or more and an associate degree candidate may not take transient courses if they have transferred in and/or earned test credit for a combined 45 hours or more.
5. Students are responsible for the applicability of courses taken elsewhere to their Southeastern program. A transient course must receive a grade of “C” (2.0 on a 4.0 scale) or above to be considered for transfer to SEU.
6. Students must obtain written department chair or Academic Dean approval for financial aid coverage of the transient registration.

A student’s enrollment in an SEU-approved program of study at a different college or university may be considered for the purpose of applying for financial aid assistance through SEU. Please contact the Office of the Registrar (863-667-5015) for more information, or you may contact the Student Financial Services department (863-667-5018).

Transient credit – Master’s Level

Transient approval is required prior to enrolling in coursework elsewhere to be transferred to SEU. The student should project his/her own timeframe to complete the program of choice based on the pace at which the student chooses to advance in the program. Students employed full-time are encouraged to carefully consider limiting their course load during any semester or term. (Pro-rated financial aid may be available for part-time students. Contact Student Financial Services for details).

Transient credit - Doctoral level

No transient credit is accepted at the doctoral level.

Credit and Transfer of Credit - Credit Hour Definition

One semester credit hour will be awarded for a minimum of 750 minutes (50 minute class x 15 weeks) of formalized instruction that typically requires students to work at out-of-class assignments an average of twice the amount of time as the amount of formalized instruction (1,500 minutes). It is acknowledged that formalized instruction may take place in a variety of modes.

While awarding of semester credit hours typically occurs for instruction delivered in accordance with an institution’s standard semester calendar, it may also occur for instruction that may not follow the typical pattern, as long as the criteria for awarding such credit is met. The expectation of contact time inside the classroom and student effort outside the classroom is the same in all formats of a course whether it be fully online, a hybrid or face-to-face contact with some content delivered by electronic means, or one delivered in lecture or seminar format. Courses that have less structured classroom schedules, such as research seminars, independent studies, internships, practicums, or any other academic work leading to the award of credit hours should state clearly learning objectives, expected outcomes and workload expectations that meet the standards set forth above.

This credit hour policy applies to all courses at all levels (graduate, professional, and undergraduate) that award academic credit (i.e. any course that appears on an official transcript issued by the University) regardless of the mode of delivery including, but not limited to, self-paced, online, hybrid, lecture, seminar, and laboratory. Academic units are responsible for ensuring that credit hours are awarded only for work that meets the requirements outlined in this policy.

Credit and Transfer of Credit - General Test Credit Parameters

A maximum of 90 semester hours of credit toward a Bachelor’s degree and 45 semester hours of credit toward an Associate’s degree may be earned through any combination of the following: AP, CLEP, IB, Military, Credit by Assessment, Credit by Examination or Specialized Training/Certification that the Registrar approves. Students must earn 25% of their degree through Southeastern University courses, per SACSCOC regulations. The 90/45 hour maximum of prior learning/test credit may be reduced for transfer students in order to meet their 25% coursework requirement. Please see credit hour limits for specific tests in the sections to follow. Students who earn an Associate’s at SEU, who move on to seek their Bachelor’s degree may request additional transfer credit be added to their record.

Advanced Placement (AP)

Southeastern University awards college credit to students who participated in the Advanced Placement program in high school. Students receive college credit based on credit recommendations of the Florida Articulation Coordinating Committee. Most courses with a score of three, four or five earn three college credits. No grade or quality

points are assigned for awarded credit. Applicants must submit official AP scores directly from The College Board to Southeastern University for evaluation. Transcripts received from the student will not be considered official. A maximum of 90 semester hours of credit toward a Bachelor's degree and 45 semester hours of credit toward an Associate's degree may be earned through any combination of the following: AP, CLEP, IB, Military, Credit by Assessment, Credit by Examination or Specialized Training/Certification that the Registrar approves.

College Level Examination Program (CLEP)

The College Level Examination Program provides an opportunity for a student to earn college credit by examination.

Southeastern University accepts all CLEP exams listed on www.collegeboard.com, with these exceptions:

- Intro to Educational Psychology (general elective credit only)
- College Composition Modular

For a detailed list of CLEP exams approved for credit through SEU, visit this link.

SEU Approved CLEP Tests

CLEP exams are offered through the SEU Testing Center. You do not have to be a Southeastern University student to utilize our Testing Center. Contact the SEU Testing Center (testing@seu.edu) to schedule an appointment to take a CLEP exam. All SEU students must complete an eligibility form before an appointment can be scheduled. The form will be reviewed to determine if the student meets SEU guidelines for awarding CLEP credit. These guidelines are listed below. One form per CLEP exam must be completed.

SEU Guidelines for Awarding CLEP Credit

- Official CLEP scores must be submitted to the Office of the Admission for evaluation.
- To receive credit, a minimum scaled score at or above an established national percentile must be earned on each area tested. Details are available at www.collegeboard.com.
- To receive credit for a qualified CLEP test, a degree-seeking (Associate's or Bachelor's) SEU student must not be currently enrolled in, have completed, earned a "W" grade, or have attempted an equivalent or more advanced college-level equivalent course.
- A minimum of twenty-five percent of a college degree must be earned through Southeastern University course credit.
- Southeastern University recommends that degree-seeking students interested in CLEP credit complete the CLEP by the end of their sophomore year.
- Credit cannot be duplicated.
- For non-SEU students, please contact your host institution regarding CLEP eligibility.

Testing Conditions

To receive credit a CLEP test must be taken before a student earns credit in a comparable college/university course or subject area. Credit cannot be duplicated. To receive credit, a minimum scaled score at or above an established national percentile must be earned on each area tested. Details are available at www.collegeboard.com. No grade or quality points are assigned for awarded credit. A maximum of 90 semester hours of credit toward a Bachelor's degree and 45 semester hours of credit toward an Associate's degree may be earned through any combination of the following: AP, CLEP, IB, Military, Credit by Assessment, Credit by Examination or Specialized Training/Certification that the Registrar approves.

International Baccalaureate (IB) Diploma

Students who have received the International Baccalaureate Diploma and have earned a score of four or better in the higher level and standard level examinations may qualify for credit for subjects taken. Without the earned diploma, a score of five is required and credit is only given for higher level examinations. No grade or quality points are assigned for awarded credit. Applicants may submit official IB scores to the Office of the Registrar for evaluation. Request transcripts from www.IBO.org. A maximum of 90 semester hours of credit toward a Bachelor's degree and 45 semester hours of credit toward an Associate's degree may be earned through any combination of the following: AP, CLEP, IB, Military, Credit by Assessment, Credit by Examination or Specialized Training/Certification that the Registrar approves.

Credit for Military Education

Veterans who have successfully completed courses in the military service training program may submit a record of the courses to Southeastern University for review. The amount of credit granted will not exceed that recommended by the American Council on Education in the "Guide to the Evaluation of Educational Experiences in the Armed Forces." No credit is awarded for technical or vocational training. No grade or quality points are assigned for awarded credit. A grade of "CR" is recorded. Students must request an official transcript available from the military. A maximum of 90 semester hours of credit toward a Bachelor's degree and 45 semester hours of credit toward an Associate's degree may be earned through any combination of the following: AP, CLEP, IB, Military, Credit by Assessment, Credit by Examination or Specialized Training/Certification that the Registrar approves.

- Request your **Army, Navy, Marines, or Coast Guard** transcript from the Joint Services Transcript (JST) website.
- Request your **Air Force** or **Space Force** transcript through the Community College of the Air Force website.
- This information is also available on the Veterans Administration (VA) website.

Credit by Assessment

Credit by Assessment is a means to gain credit for courses offered at Southeastern University by demonstrating knowledge of the course content. Students enrolled at Southeastern University who wish to attempt credit by examination or other appropriate assessments, or to challenge a course in which they are enrolled, may petition the Department Chair or Dean of the college for the opportunity to demonstrate competency in the usual material covered in the course. The petition must be approved by the Department Chair or Dean of the college. The Department Chair and/or Dean of the college will determine if a standardized test is appropriate. The testing instrument will become part of the student's academic record.

For the successful petition, the examination or assessment will be scheduled at the convenience of the Office of Testing and Proctoring Services. At the equivalent minimum grade of "C" earned on the examination or assessment, a grade of "CR" will be recorded on the student's academic record for the subject tested. Credit by Assessment fees must be paid prior to test administration/assessment evaluation. Credit by Assessment forms are available in the Office of the Registrar. A maximum of 90 semester hours of credit toward a Bachelor's degree and 45 semester hours of credit toward an Associate's degree may be earned through any combination of the following: AP, CLEP, IB, Military, Credit by Assessment, Credit by Examination or Specialized Training/Certification that the Registrar approves.

Prior Learning Assessment

Students with significant experience in a subject area that could possibly be aligned with a course at a college or university may be able to gain credit through the prior learning assessment process. For guidance through the process, read the document, Prior Learning Assessment Handbook.

At the equivalent minimum grade of “C” earned on the assessment, a grade of “CR” will be recorded on the student’s academic record for the subject. Prior Learning Assessment fees must be paid prior to the credit posting to the student’s transcript record. A maximum of 90 semester hours of credit toward a Bachelor’s degree and 45 semester hours of credit toward an Associate’s degree may be earned through any combination of the following: AP, CLEP, IB, Military, Credit by Assessment, Credit by Examination or Specialized Training/Certification that the Registrar approves.

General Conditions for All Credit Transfer

- New transfer students must submit an official transcript from each of the previously attended institutions by the end of the student’s first semester to have credit transferred in.
- An official transcript must be submitted in a sealed envelope or electronically delivered from the originating college or university. SEU will not accept an opened transcript as an official to award credit for transferred courses.
- Undergraduate credits accepted in transfer must be graded with a “C” (2.0 on a 4.0 scale) or higher.
- Courses accepted in transfer are calculated into the student’s SEU career GPA.
- 25% of the credit for any undergraduate program must be earned at Southeastern University through credit-bearing course completion.
- To take credits through another institution while enrolled in a degree program at Southeastern University, a student must obtain transient approval to have credits accepted toward the SEU degree.

Transfer Practices

The Transfer Credit Practices of Designated Educational Institutions published by the American Association of Collegiate Registrars and Admission Officers is referenced.

1. The university reserves the right to deny credit for specific courses from any college or university, regardless of accreditation.
2. College-level credits earned by Southeastern University degree-seeking students are transferred on an unconditional basis with the exception of developmental, vocational, technical, or occupational courses.
3. Southeastern University will normally only accept transfer credits earned at an institution accredited by a regional accrediting association or the Association of Biblical Education or at an institution with an active articulation agreement with Southeastern University.*
4. International credits must come from a college or university recognized by the country’s education department or ministry. Credits will only be reviewed after an official transcript has been submitted to the Office of the Registrar, and an approved independent evaluation service has performed an evaluation. Contact the Office of the Registrar for a list of approved service providers. The student is responsible for the cost of this service.
5. Southeastern University does not generally accept credit from one institution for another institution’s transferred credits. Individual final, official transcripts must be submitted from every institution attended.
6. Credits eligible for transfer will not be removed at a student’s request.

*In conjunction with the Southeastern University School of Trades Program Chair and the American Council on Education (ACE), the Office of the Registrar will evaluate and determine transfer eligibility for vocational, technical, and career course and industry certifications. Courses and certifications approved for transfer must meet the standard qualifications for an equivalent SEU Trades course. Transfer courses earned as clock hours will be transferred using the clock-to-credit hour equivalence formula.

Acceptable Accrediting Bodies

Southeastern University accepts courses in transfer from institutions accredited by an accrediting organization recognized by both the U.S. Department of Education (ED) and the Council for Higher Education Accreditation (CHEA). Programmatic Accrediting Organizations acceptance is determined at the program level. Acceptable accrediting bodies include the following accrediting organizations:

- Association for Biblical Higher Education (ABHE)
- Association of Advanced Rabbinical and Talmudic Schools (AARTS)
- Commission on Accrediting of the Association of Theological Schools (ATS)
- Distance Education Accreditation Commission (DEAC)
- Higher Learning Commission (HLC)
- Middle States Commission on Higher Education (MSCHE)*
- New England Commission of Higher Education (NECHE)
- Northwest Commission on Colleges and Universities (NWCCU)
- Southern Association of Colleges and Schools Commission on Colleges (SACSCOC)
- Transnational Association of Christian Colleges and Schools (TRACS)
- Western Association of Schools and Colleges – Accrediting Commission for Community and Junior Colleges (WASC - ACCJC)
- Commission on Accrediting of the Association of Theological Schools
- Western Association of Schools and Colleges Senior College and University Commission (WASC - SCUC)

*MSCHE credit is accepted although it is no longer recognized by CHEA.

Transfer Credit Appeals

Transfer students have the right to appeal transfer credit decisions made by the Office of the Registrar. The student must write a letter of appeal accompanied by any additional documentation requested by the Office of the Registrar. The appeal will be reviewed by the appropriate academic department chair/college dean with additional documentation and the student will be notified of the decision rendered.

Transfer of Credit to Other Institutions

The transferability of credits earned at Southeastern University is at the discretion of the receiving college, university, or other educational institution. Students considering transferring to any institution should not assume that credits earned in any program of study at Southeastern University will be accepted by the receiving institution. Similarly, the ability of a degree, certificate, diploma, or other academic credential earned at Southeastern University to satisfy an admission requirement of another institution is at the discretion of the receiving institution.

Accreditation does not guarantee credentials or credits earned at Southeastern University will be accepted by or transferred to another institution. To minimize the risk of having to repeat coursework, students should contact the receiving institution in advance for evaluation and determination of transferability of credits and/or acceptability of degrees, diplomas, or certificates earned.

Degree Requirements

A candidate for the associate's or bachelor's degree must complete the required number of hours for his/her chosen degree program with an overall average grade of 2.0 in order to graduate. Various colleges and departments within the university may require a higher GPA to qualify for graduation; refer to the program of study section of the catalog for details. Each candidate for a degree must complete the required foundational education core and major requirements in the selected program of study. Students seeking teacher certification must complete requirements in appropriate professional education and teaching specialization courses.

Degree requirements are based on the requirements in effect at the time the student first declares a major. Students may elect to complete the requirements in effect at the time the student first declares the major or they may elect to complete the requirements of the current catalog. The degree requirements of the current catalog must be applied for all students who are readmitted to degree seeking status and have not attended Southeastern University for two or more semesters. Students may not elect to adopt prior year catalog requirements.

Candidates for the associate's and bachelor's degree must complete 25 percent of their program of study at Southeastern University.

Dual Major vs. Dual Degree

A dual major is a program of study that meets the requirements of two distinct majors in a single Bachelor's degree. The program of study consists of courses required to meet the degree requirements for each of the two majors, together with the foundational core courses needed to meet the general education requirements for the degree. The minimum number of credit hours required for a dual major equals the total number of credit hours required for the major comprising the larger number of credit hours for the degree; however, the student may be required to complete additional credit hours to fulfill the second major core when the major core exceeds the general elective core of the primary major. Students must complete both majors prior to degree conferral.

Dual major programs lead to a single Bachelor's degree when both majors are the same degree type (ie. Bachelor of Science and Bachelor of Science). Students who complete the requirements for a double major in the same degree type receive a single diploma that acknowledges both majors.

Dual major programs that lead to two Bachelor's degrees upon completion (ie. Bachelor of Science and Bachelor of Arts) will receive two separate diplomas acknowledging each major upon degree conferral. Courses that double count toward both majors may not exceed 75% of either degree program; a minimum of 30 unique credit hours must be earned for each individual degree.

Students enrolled in a dual major or dual degree program should consult with Student Financial Services to learn more about financial aid options that are available for earning a second major or second degree.

Bachelor of Science and Bachelor of Arts) will receive two separate diplomas acknowledging each major upon degree conferral. Courses that double count toward both majors may not exceed 75% of either degree program; a minimum of 30 unique credit hours must be earned for each individual degree.

Students enrolled in a dual major or dual degree program should consult with Student Financial Services to learn more about financial aid options that are available for earning a second major or second degree.

Academic Policies

Withdrawals/ Military Leave

Withdrawals

Withdrawal from a Course

Students may withdraw from a course without academic penalty through the withdrawal deadline, which is notated on the academic calendar and occurs at the 60% point of the course. The official course withdrawal date will be the date the Course Withdrawal form is filed with the Office of the Registrar. A grade of "W" will be recorded on the student's record. Complete withdrawal from the university is not part of this policy. Forms for course withdrawal are available MyPortal (JICS).. There is no refund for a course withdrawal. Too many "W" grades will hinder academic progress and financial aid coverage. Withdrawn courses are not covered by veterans' benefits.

Administrative Withdrawal from a Course

Professors may request an administrative withdrawal for students who are not actively attending or participating in a course. If approved, a grade of "WF" will be recorded. This grade does not impact the student's GPA but may affect academic progress and financial aid eligibility. Withdrawn courses are not covered by Veteran's benefits, and excessive "W" grades may hinder academic standing and financial aid coverage.

An administrative withdrawal may only be requested under the following conditions:

- The add/drop period has closed, making the student ineligible for a drop. (The student must have accessed or attended the course and completed the Student Acknowledgment in MyFIRE.)
- The student ceased attending or participating before the course withdrawal deadline. (If the student attended or participated after the withdrawal deadline, the final grade earned must be submitted in JICS Final Grade Entry during the final grading period.)

Students who continue attending and participating after the course withdrawal deadline are not eligible for administrative withdrawal.

Withdrawal from the University

A University Withdrawal occurs when a student formally notifies the Office of Student Success and Retention of their intent to withdraw from all courses and leave the institution. This process takes place after the add/drop period and before the withdrawal deadline (60% mark of the term/semester). Upon completing the University Withdrawal process, a grade of "WD" will be assigned for each current course, which does not affect the student's cumulative or term GPA.

Withdrawing from the university may impact financial aid and could result in a balance owed, as students remain financially responsible for all tuition and fees incurred. Any eligible refunds will be processed in accordance with the refund policy outlined in the Financial Information section of the catalog.

The Office of Student Success and Retention provides guidance throughout the withdrawal process to support informed decision-making. Students must initiate the process by contacting the office at **retention@seu.edu**. All official communication will be sent to the student's **@seu.edu** email, and it is the student's responsibility to check this account for updates and required documentation.

Students withdrawing between semesters/terms must also contact the Office of Student Success and Retention at **retention@seu.edu** to begin the process.

Too many "W" type grades will hinder academic progress and financial aid coverage. Withdrawn courses are not covered by veterans' benefits.

Military Leave of Absence Policy

Southeastern University recognizes that students who serve in the U.S. armed forces may encounter situations in which military obligations require them to withdraw from a course of study, often with little notice. This policy applies to all branches of military service and is intended to recognize and make
appropriate allowances for students who find themselves in such situations. Specific inquiries regarding the Military Leave of Absence process should be directed to the Office of Retention and students should reach out to Student Financial Services for questions about the impact to their student account.

Military Leave and Refund Procedures

A. Definition
For purposes of this policy, a "military service leave" is a university-approved withdrawal from all in-progress University classes that is necessitated by a call to service, whether voluntary or involuntary, in the United States Armed Forces. This includes service by a member of the National Guard or Reserve, active duty, active duty for training, or full-time National Guard duty under Federal authority, for a period of more than 30 consecutive days under a call or order to active duty of more than 30 consecutive days.

B. Student Responsibilities
A student who is called to active duty or active service in a branch of the United States Armed Forces (Army, Navy, Air Force, Marines, Coast Guard, Space Force, National Guard, or Reserve) and wishes to take a military service leave must: Provide the University with advanced notice of such service and the intention to take a leave of absence. As soon as possible, after receiving military orders that require withdrawal from a program or course of study, a student must contact the Retention Office to request a formal leave of absence and attach a copy of the military orders or other appropriate documentation to the request. This notice can be made by the student or may be made by an appropriate officer of the U.S. Armed Forces or an official of the U.S. Department of Defense to the University Registrar. It is optional to include a statement of an intention to return to the University. If military necessity renders it impossible to provide advance notice to the advisor, the student may initiate a military service leave by providing notice at the first reasonable opportunity, in writing, personally signed, and with a copy of the military orders attached.

C. University Procedures
Upon receiving notice of a student's request to withdraw from the University or a program or drop all enrolled courses because of military obligations, the Retention office shall work with the student, providing them with a military leave of absence checklist and university withdrawal form. Once complete, this office will notify the appropriate offices such as Student Financial Services, Accounts Receivable as well as the School Certifying Official. The office of Student Financial Services will review the student's eligibility for financial aid funds received before the time of withdrawal and inform the student about the status of his or her financial aid and actions required to defer loan repayments based on military obligations. Students granted a military service leave will receive a 100% refund of tuition and fees charged for the semester or academic term in which they withdraw. If living on campus, the student will be refunded for any housing and meals payments made to the student account. The student will be assigned "W" grades which will not affect their overall GPA. If the University determines that it is appropriate to award academic credit for work completed in the semester or academic term in which a student takes military service leave, the student shall not receive a refund for the portion of the course of study for which academic credit is awarded. No refund will be provided until the University receives a copy of the military orders necessitating the withdrawal. If a student decides to finish the courses currently enrolled the student will be given an (I) incomplete grade and allowed additional time to finish the course. This should be communicated to professors to work with the student to complete the course. No refunds will be issued if a student remains enrolled in courses. Students who are granted a military service leave may be on leave for up to five academic years, after which an extension may be granted with the Registrar's approval. To apply for an extension, students must contact the office of the Registrar. Students who do not request an extension will be withdrawn from the University and at a later date may choose to seek readmission. To seek readmission at a later date, students must contact the Office of Enrollment.

Military Re-Enrollment Procedure

A. Definition
For purposes of this policy, a "military re-enrollment" is a university-approved re-enrollment after a military service leave.

B.Student Responsibilities
A student who has taken military service leave from the University or has had studies interrupted because of active duty or active service in a branch of the United States Armed Forces and wishes to re-enroll must follow these steps:
A student must notify the Registrar's Office of the intent to return to resume a course of study upon conclusion of duty or service and present appropriate documentation prior to the semester in which the student is requesting re-enrollment. To qualify for military re-enrollment, a student must notify the

University of the intention to re-enroll within two years of the time he or she is discharged from military service or is placed on inactive duty. Notices should be provided in writing to the Registrar's Office and include an official certificate of release or discharge, a copy of duty orders, or other appropriate documentation to confirm(verify), that the student's withdrawal was related to service in the armed services and that the student is able to resume studies.

1. Military re-enrollment guarantees a student who meets these requirements access to the same course of study he/she was in at the time of withdrawal without incurring a reapplication fee unless a student receives a dishonorable or bad conduct discharge or has been sentenced in a court-martial.
2. Any student who, because of military necessity, did not give written or oral notice of service to the office of Retention prior to withdrawal, may, at the time the student seeks readmission, submit documentation that the student served in a branch of the U.S. Armed Services that necessitated the student's absence from the University.

C. University Procedures

A student who meets the notice requirements set forth herein will be granted military re-enrollment in the semester following the notice of intent to return, or, if the student chooses, at the beginning of the next full academic year. Upon returning to the University, the student will resume his or her course of study without repeating completed coursework and will have the same enrollment status and academic standing as before the military leave. For the first academic year after military leave, the student will be charged the same tuition and fee charges as when the servicemember left, unless military benefits will pay the increase, but never more than the institution is charging other students; and for subsequent academic years or for a different program, by assessing tuition and fee charges that are no more than the institution is charging other students.

If, in the judgment of the University, a student is not academically prepared to resume a course of study in which he or she was previously enrolled, or is unprepared to complete a program, the University will determine whether reasonable means are available to help the student become prepared. The University may deny the student re-enrollment if it determines that reasonable efforts are not available, or that such efforts have failed to prepare the student to resume the course of study or complete the program.

A student who has been away from the University on military service for more than five years (including all previous absences for military service obligations after initial enrollment but including the only time the student spends actually performing service in the uniformed services) will not be guaranteed military re-enrollment, but may petition for consideration of military re-enrollment. A student who chooses at the conclusion of military service to enroll in a different course of study than the one the student was in at the time of military withdrawal must complete the regular admission and enrollment process for that course of study.

Notes

1. The University shall determine the adequacy of documentation with reference to 34. C.F.R. Sec. 668.18(g).
2. The appropriate point in a course or program for a student to resume studies, the timing of re-enrollment, and the determination of the "same course of study" will be determined by the University, taking into account the unique characteristics and requirements of that course or program and the modes in which it is offered (e.g., non-degree vs. degree, evening vs. day program, special program vs. standard program). If the program in which the student was enrolled has been discontinued or is no longer offered, the University will enroll the student in the program that it determines to be most similar to that program or in a different program for which the student is qualified. If the student is admitted to a different program, and for subsequent academic years for a student admitted to the same program, the University shall assess tuition and fee charges that are no greater than other students in the program are assessed for that academic year.
3. The appropriate tuition and fee amounts will be reflected on the bill that the student receives.
4. As defined in section 480(c) of the HEA.
5. This cumulative leave of absence restriction shall be interpreted and applied with reference to 34C.F.R. Sec. 668.18(c) and (e), which set forth rules for calculating cumulative absence due to military service. Reference: https://www2.ed.gov/policy/highered/guid/readmission.html

Military Leave of Absence Checklist

As you prepare to leave or return from a military leave of absence, use this checklist to ensure you complete all the necessary steps at SEU.

Preparing for Military Leave

1. Review the SEU military leave of absence policy located in the university catalog.
2. Notify the Retention office regarding your intent for military leave of absence and include a copy of your military orders or signed letter from your command pertaining to the service obligations. Please black out any sensitive information.
3. The Retention office will provide you with the university withdrawal form. This is a required step in the SEU withdrawal process. Upon completion your withdrawal or leave of absence will be communicated to all necessary departments.
4. Monitor your student account for any financial aid changes and return of Title IV federal funds. The Student Financial Services office will review your account and contact you if any aid changes as a result of withdrawing from the university. Set up a phone appointment with a Student Financial Services counselor at https://calendly.com/seusfs
5. If using VA benefits or military tuition assistance, contact the School Certifying Official to notify them of your intent to take a military leave of absence so they may report it to the Department of Veteran Affairs and Department of Defense. Contact information for the School Certifying Officials can be found here:https://seu.edu/admission/financial/veterans/

Re-Enrollment from Military Leave

1. Notify the Office of the Registrar regarding your intent to return to SEU. The contact information is registrar@seu.edu
2. Register for classes for the term or semester you intend to return.
3. Notify the School Certifying Official of your intent to re-enroll. If you plan to use VA benefits, complete the VA Request for Certification form. Contact information for the certifying official can be found here: https://seu.edu/admission/financial/veterans/
4. If you are planning to receive financial aid, complete the Free Application for Federal Student Aid (FAFSA) for the academic year you are returning via studentaid.gov and contact the Student Financial Services office to complete the necessary steps to apply and receive aid. Contact for Student Financial Services is https://studentaid.gov/ or via appointment at https://calendly.com/seusfs

Undergraduate Generative AI in Coursework/Academic Integrity/ University Expectations

Generative AI Assistance (GAIA) Policy- Using Generative AI in Coursework

Students should learn how to use AI text generators and other AI-based assistive resources (collectively, AI tools) to enhance rather than damage their developing abilities as writers, coders, communicators, and thinkers. Instructors should ensure fair grading for both those who do and do not use AI tools. The GAIA policy stresses transparency, fairness, and honoring relevant stakeholders. In accordance with Turnitin, we recognize that the "AI writing detection model may not always be accurate (it may misidentify both human and AI-generated text) so it should not be used as the sole basis for adverse actions against a student," https://help.turnitin.com/ai-writing-detection.htm. To that end, the GAIA policy adopts a few commonsense limitations on an otherwise embracing approach to AI tools.

Students shall

1. Confirm with their professor that using ChatGPT or other content produced by generative artificial intelligence (AI) is acceptable before citing it. https://libguides.slcc.edu/ChatGPT/Citations
2. Give credit to AI tools whenever used, even if only to generate ideas rather than usable text or illustrations.
3. When using AI tools on assignments use the AI Support Report template to report the following:
    a. Save a transcript of your chat. Make it available to or retrievable by your reader, possibly by including it as an appendix to your work or as an online supplement.
    b. Describe the prompt that generated the specific ChatGPT response.
    c. Include the date when the response was generated or the date of access. This is important as these tools will be updated regularly.
    d. Acknowledge how you used the tool. You can do this even if you only use ChatGPT to plan your paper or generate ideas and don't include any of its generated content. https://libguides.slcc.edu/ChatGPT/Citations
4. Not use AI tools during in-class examinations, or assignments, unless explicitly permitted and instructed.
5. Use AI tools wisely and intelligently, aiming to deepen understanding of the subject matter and support learning.

Instructors shall

1. Seek to understand how AI tools work, including their strengths and weaknesses, to optimize their value for student learning.
2. Understand AI detection tools as a basis for discussion with the student rather than a definitive finding.
3. Impose a significant penalty for low-energy or unreflective reuse of material generated by AI tools and assign zero points for merely reproducing the output from AI tools.
4. Submit an Academic Integrity Alert after instructors have communicated with the student and determined that AI tools were not used properly.

This policy recognizes that.

1. This policy depends on goodwill, a sense of fairness, and honorable character.
2. There may be some courses or assignments where AI tools must be strictly prohibited, either at the direction of disciplinary accreditors or in preparation for certain certification exams. In those instances, professors may restrict the use of AI and communicate such restrictions clearly on the course syllabus.
3. This policy takes account of the existence of subscription versions of AI tools, which are not affordable for some students; the policy may need to be revised as the differences between subscription and free versions become better understood.
4. This policy may be revised in light of other policies and novel technological developments in AI tools.

How to Cite AI Tools (Examples)

1. MLA Citations: https://style.mla.org/citing-generative-ai/
2. APA Citations: https://apastyle.apa.org/blog/how-to-cite-chatgpt

Generative AI Example

AI Support Report

Definitions

For the purpose of this policy,

- "**Cheating"** is attempting to present (regardless of intent), as one's own work that one has not performed or using improper means to pass an examination. Examples include, but are not limited to:
    - The sharing of unauthorized information regarding specific content of assignments/examinations or using books, notes, or other material without the instructor's permission.
    - The discussion of any aspect of the assignment/examination before all students have completed it.
    - Speaking or otherwise communicating with one another in English or any other language or manner during an examination.
    - Submitting work the student has not personally completed.
    - Submitting the same paper or assignment, or material portions thereof, for more than one course (except by both instructors' approval and in accordance with criteria established by each of them).
    - Falsifying of research data.
    - Preventing student or faculty access to course material. This includes mutilating or stealing materials provided by the university for the examination and/or disabling and interfering with required equipment (i.g, computer equipment or databases).
    - Using electronic devices such as cell phones or calculators to store/share information or materials that are not authorized by the instructor.
- **"Fabrication"** is (regardless of intent) falsification or creation of false data or information. If fabrication is discovered, the case level may be escalated at any time. Other violations may include:
    - Failing to follow any other explicit regulation or expectation announced by the instructor and/or circulated to each student. This includes failure to use surveillance equipment or software as required by the professor. It is the responsibility of the student to confer with an instructor when procedures are unclear.
    - Falsifying a signature on any official university document.
    - Altering any official university document.
    - Intentionally helping or attempting to help another student to violate any provision of this policy.

- "**Plagiarism"** occurs when a writer, intentionally or unintentionally, uses someone else's language, ideas, or original material without proper acknowledgment. This includes the unattributed use of any source—published or unpublished, in any medium. Additionally, work previously submitted for a grade in another course may not be reused unless explicitly permitted by the professor. This policy also applies to self-plagiarism, resubmission, or multiple submissions—the use of the same project in two or more academic settings at Southeastern University or any other institution. Resubmission in another course requires explicit approval from both professors. Some examples of plagiarism include but are not limited to:
    - Quoting or paraphrasing material without attributing it to its source
    - Copying segments from the work of others without giving proper credit
    - Submitting as original work written entirely by someone else
    - Allowing another student to submit their work as his or her own when that individual had not done the work
    - Widely known facts do not require citation and do not count as plagiarism as long as they are communicated in the writer's own words. Ideas and observations original to the writer also do not require citation.
- "**Professor**" is defined as any person providing academic support or assessment of a student's work. These persons include course instructors, mentors, writing support professors, and members of the dissertation/capstone committee (chair, methodologist, content specialist, and third reader).
- "**Submission**" is defined as all coursework, comprehensive exams, as well as drafts and final versions of the dissertation/capstone projects and/or sections of the dissertation/capstone project submitted to professors and to graduate writing support.**Undergraduate Academic Integrity**

Southeastern University is committed to fostering a culture of honesty and integrity among students. Upholding high standards of character and ethical conduct, the university expects students to demonstrate the same commitment to academic integrity in all aspects of their program. Students are encouraged to apply critical thinking to ethical standards and to properly summarize, paraphrase, quote, and cite sources according to the writing style required by their professor.

Therefore, any work submitted by a student must represent original work produced by that student. Any source used by a student must be documented using appropriate scholarly references and citations. The university commonly uses MLA, APA, AMA, and Turabian citation and writing styles (including content from ChatGPT or any other AI tools - see AI use policy). Students may find additional information about these general styles by clicking on the following link: Steelman Library Citation Education and Resources

"Academic dishonesty" (regardless of intention) refers to plagiarism, cheating, and fabrication (see definitions below). Should a professor suspect academic dishonesty of any kind, the professor will follow the guidelines below and will submit an Early Alert (the Early Alert link is available through JICS). The intervention will be noted in the student's file. The Assistant Director of Student Retention will follow up with the student and will make sure that all consequences dictated by the professor and university policy have been completed. To effectively counter academic dishonesty, professors must follow these guidelines in all instances of plagiarism and cheating. The processes stated in the Student Appeal and Complaint Policy are to be utilized should a student seek an appeal of any decision rendered under the Academic Integrity & Appeal Policy.

This policy applies to all coursework, assessments, and comprehensive exams.

University Expectations

The university maintains a high expectation of student character and ethical conduct. The university expects students to apply critical thinking to ethical standards and to appropriately use summarizing, paraphrasing, quoting, and citation of all sources according to the writing style required by the professor.

The university commonly uses MLA, APA, AMA, and Turabian citation and writing styles. Students may find additional information about these general styles by clicking on the following link: Steelman Library Citation Education and Resources

This policy applies to all coursework, assessments, and comprehensive exams.

Early Alert Program Appeal Process

When there is an instance of academic dishonesty, students will be referred by their professor via the Early Alert system on JICS for plagiarism/cheating, and the student will be enrolled in the Ethical Academics Course in My Fire. In the event a student desires to be removed from the course or to appeal the outcome of the course, the following must be completed:

Appeal Process

Notification of Violation

- The student receives an official notice from the faculty member or Student Retention Office detailing the plagiarism incident, including evidence and potential consequences.
- The student is informed of their right to appeal, the process of appealing, and the deadline to submit the appeal.

Student Response & Initial Meeting

- The student can request a meeting with the faculty member or the Student Retention Office to discuss the situation.
- If the faculty member determines the violation was a misunderstanding, they may resolve the issue informally (if university policy allows).

Formal Appeal Submission

- If the student disagrees with the decision, they can submit a written appeal to the Chief Student Success Officer.
- The appeal should include:
- A clear explanation of why they believe the charge is incorrect or unfair.
- Any supporting evidence (e.g., drafts, citation attempts, or communication with the professor).
- A statement of personal responsibility (if applicable) and a request for reconsideration.

Review by Academic Integrity Committee

- The committee reviews the appeal, evidence, and relevant policies.
- The student may be invited to a formal hearing to present their case.
- The faculty member involved may also provide input.

Decision & Outcome

- The committee makes a decision, which may include:

- Upholding the penalty (e.g., failing grade, Z grade, or disciplinary action).
- Reducing or modifying the penalty (e.g., allowing resubmission or requiring the ethical academic course).
- Overturning the violation if the evidence supports the student's claim.
- The student is notified in writing of the final decision.

Final Appeal (if applicable)

- If the student disagrees with the committee's decision, they may submit a final appeal to the Provost.
- The student will be notified in writing of the final decision; the decision of the Provost is final.

Undergraduate - Academic Dishonesty Reporting & Procedure

In each instance of academic dishonesty, the professor will (a) submit an early alert - via link located on JICS and (b) communicate with the student to discuss the nature of his or her academic dishonesty, the academic integrity policy, and the consequences to be assigned.

The academic dishonesty report should include:

- Name and ID number of the student
- Professor, course, and term
- Description of the academic dishonesty (plagiarism or cheating)
- Documentation of each step of the academic integrity procedure that has been followed.
- Copy of the TurnItIn plagiarism report, if applicable
- A copy of the plagiarized work, if applicable
- Any other supporting documentation

Outcomes

When an allegation of academic dishonesty has been made, the university and students will follow the process listed below to resolve the case:

1. Professors (mandatory case reporters) will submit an early alert via JICS, and the Assistant Director of Student Retention will receive it and review it.

2. The Assistant Director of Student Retention will contact the student to schedule a meeting to research the case. If the meeting aligns with the professor's report, the case will progress according to the outcomes assigned to the level of the case.

3. Students may appeal the findings or outcomes of a case by submitting an appeal to the Chief of the Center for Student Success, and all decisions are final.

The processes stated in the Student Appeal and Complaint Policy are to be utilized should a student seek an appeal of any decision rendered under the Academic Integrity policy.

If an allegation of Academic Dishonesty has been confirmed by the university, students must comply with the following policies:

- Complete the Ethical Academics course (if not taken previously).
    - The student must successfully complete the course before registering for additional courses or continuing the dissertation/capstone process.
    - The Z grade annotation may be placed on the student's transcript if the Ethical Academics Course is not completed successfully.
- Students may not withdraw from a course in order to avoid consequences for academic dishonesty.

Undergraduate - LEVEL 1

Level I is only used for undergraduate students. Academic Dishonesty for undergraduate students will be considered a Level 1 offense when it is the first instance of plagiarism in a student's career at Southeastern

Outcomes for a Level 1 plagiarism offense must include one or more of the following:

- Completing the Ethical Academics course that includes strategies for avoiding plagiarism and cheating.
    - Failure to complete the course may result in a "Z" annotation on the student's transcript.
    - The course must be completed before registration for additional courses.

Additional outcomes may include one or more of the following

- Correcting the plagiarism in the assignment for a grade. (if Professor allows it)
- Receiving a grade penalty up to the total grade value of the assignment.

Undergraduate - LEVEL 2

Academic Dishonesty will be considered a Level 2 offense when it is:

- The second instance of plagiarism in an undergraduate student's career at Southeastern; OR
- The first instance of cheating.

Consequences for the student for a Level 2 offense must include:

- Completing The Ethical Academics course course that includes strategies for avoiding plagiarism and cheating (required if not already taken); AND
- Receiving a grade penalty in the course; AND
- Receiving a Z grade annotation

Additionally, the consequences may include any or all of the following:

- Correcting the plagiarism in the assignment for a grade
- Failing the course
- In the first instance of cheating, at the discretion of the professor of the course in which cheating occurred, the student may be required to retake the academic course the next time it is offered to replace the course grade.
- Students may lose eligibility to take online courses for the remainder of their careers at Southeastern.

Undergraduate - LEVEL 3

Academic Dishonesty will be considered a Level 3 offense when it is:

- The third (or higher) instance of plagiarism in an undergraduate student's career at Southeastern
- This is the second instance of cheating.

Consequences for Level 3 offenses must include the following:

- Receiving a grade penalty in the course; AND
- Receiving a Z grade annotation.

Additionally, consequences may include any or all of the following:

- Failing the course; AND
- Expulsion from the University at the discretion of the Provost.

Practicum Academic Integrity

Any dishonesty from a student in regards to the number of practicum hours completed and/or falsification of signatures on course documents within the Divine Design practicum courses will result in failure of the course. It is possible that further consequences from the university will be imposed if deemed necessary. If a student commits a subsequent violation of this policy, the student will be ineligible to register for additional Divine Design practicum for the remainder of their academic career at SEU.

Avoiding Plagiarism

Professors at Southeastern University work diligently to help students understand and avoid plagiarism. However, the responsibility ultimately rests on students to make sure their work does not contain plagiarism. Students can avoid plagiarism by properly citing and quoting, paraphrasing, and summarizing all material they use from sources.

Common forms of citation include parenthetical citations, footnotes/endnotes, and attributive statements such as "According to Smith and Rodriguez…"

Quotations include entire sentence(s), key phrase(s), or specific term(s) that match a source word for word. All quotations must be cited using the appropriate quotation format.

Paraphrases and summaries include material (usually information or ideas) taken from a source and put into a writer's own words. All paraphrased and summarized materials must completely rephrase the original source and be properly cited.

The bottom line in avoiding plagiarism is that students must clearly indicate the material in their writing is original to them and the material taken from sources.

Undergraduate Z Grade Annotation

When a professor, the Assistant Director of Student Retention, the Academic Integrity Committee, or Academic Deans conclude that academic dishonesty has occurred (plagiarism or some other form of cheating), the following will occur:

- A report will be submitted via the Early alert system on JICS.
- The student will be informed of the report and the university policies that apply to the report.
- The student may submit an appeal to the Academic Integrity Committee (See Student Appeal and Complaint Policy for the complete process) if the student does not agree with the plagiarism report.
- When submitting final grades, if the student does not complete the Ethical Academic Course, the Assistant Director of Student Retention will inform the Registrar's Office, which will affix a "Z" in front of the grade.
- The student's course grade will be preceded by the letter Z (ZB, ZC, ZD, ZF, with +/- designations as appropriate).
- The transcript key will indicate that the Z grade annotation is assigned in cases of plagiarism and/or cheating accordingly.
- If the student has withdrawn from the class in which the plagiarism/ cheating occurred, he or she should be added back to the roster and assigned a Z grade annotation.

After the first cheating offense in the student's SEU career:

- The student may complete a required Ethical Academics course, normally before the start of the next eight-week term.
- At the discretion of the professor of the course in which cheating occurred, the student may be required to retake the academic course the next time it is offered to replace the course grade.
- Upon receiving documentation of successful completion of the Ethical Academic course and, if required, the retaken academic course, the Assistant Director of Student Retention will instruct the Registrar to remove the Z from the student's transcript. After a second or subsequent cheating offense, the Z grade annotation cannot be removed. This penalty may be requested at the professor, coordinator, chair, Academic Dean, or Academic Integrity Committee level. All requests will be processed by the Student Retention Office according to university policies. The processes stated in the Student Appeal and Complaint Policy are to be utilized should a student seek an appeal of any decision rendered under the Academic Integrity & Appeal Policy.

Summary of Civil and Criminal Penalties for Violation of Federal Copyright Laws

Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under section 106 of the Copyright Act (Title 17 of the United States Code). These rights include the right to reproduce or distribute a copyrighted work. In the file-sharing context, downloading or uploading substantial parts of a copyrighted work without authority constitutes an infringement.

Penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or "statutory" damages affixed at not less than $750 and not more than $30,000 per work infringed. For "willful" infringement, a court may award up to $150,000 per work infringed. A court can, in its discretion, also assess costs and attorneys' fees. For details, see Title 17, United States Code, Sections 504 and 505.

Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to $250,000 per offense.

Violation of Federal Copyright Laws

"102. Subject matter of copyright: In general

(a) Copyright protection subsists, in accordance with this title, in original works of authorship fixed in any tangible medium of expression, now known or later developed, from which they can be perceived, reproduced, or otherwise communicated, either directly or with the aid of a machine or device." (https://www.copyright.gov/title17/92chap1.html).

"506. Criminal offenses

(a) Criminal Infringement.—

(1) In general.—Any person who willfully infringes a copyright shall be punished as provided under section 2319 of title 18…" (https://www.copyright.gov/title17/92chap5.html).

For detailed information, please see the website of the U.S. Copyright Office at https://www.copyright.gov/.

Academic Policies

Graduate Academic Integrity/ University Expectations

Academic Integrity

Southeastern University seeks to foster a spirit of honesty and integrity in students. The University expects graduate students at SEU to embody the same spirit of commitment to high ethical standards and academic integrity in all aspects of their participation within the program.

Therefore, any work submitted by a student must represent original work produced by that student. Any source used by a student must be documented using program-appropriate scholarly references and citations.

"Academic dishonesty" refers to plagiarism or cheating (regardless of intention) (see definitions below). Should a professor suspect academic dishonesty of any kind, the professor will follow the guidelines below and will refer the student to the Academic Center for Enrichment (ACE) by submitting an Early Alert (the Early Alert link is available through JICS). The intervention will be noted in the student's file. University personnel will follow up assuring that all consequences dictated by the professor and university policy have been completed. To effectively counter academic dishonesty, professors must follow these guidelines in all instances of plagiarism and cheating.

The processes stated in the Student Appeal and Complaint Policy (see "Appeals") are to be utilized should a student seek an appeal of any decision rendered under the Academic Integrity policy.

Doctoral - Procedure for Dealing with Violations of Academic Integrity

When students attain the level of doctoral studies, the expectation is that they understand academic integrity and plagiarism. Doctoral students are expected to maintain the highest level of academic integrity in all their academic work.

This policy applies to all doctoral coursework and comprehensive exams, as well as drafts and final versions of the dissertation/capstone and/or sections of the dissertation/capstone submitted to professors and to graduate writing support.

Academic Dishonesty Report (Cheating/Plagiarism)

In each instance of academic dishonesty, the professor will (a) determine the level of the offense and the appropriate consequences according to the guidelines listed below; (b) communicate with the offending student to discuss the nature of his or her academic dishonesty, the academic integrity policy, and the consequences to be assigned; and (c) submit an early alert via MyPortal (JICS) to the Student Success & Retention office.

The academic dishonesty report via the Early Alert System includes:

- Name and ID number of the offending student
- Professor, course, and term
- Indicate the Severity of the Issue
- Description of the academic dishonesty (plagiarism or cheating), indicating the level of offense (Level 2 or 3 as outlined below)
- Documentation of each step of the academic integrity procedure that has been followed
- Copy of the plagiarism report (for example, from Turnitin.com), if available
- A copy of the plagiarized work, if applicable
- Any other supporting documentation
- An indication of the consequences if already assigned

Early Alert Program Appeal Process

When there is an instance of academic dishonesty, students will be referred to the Office of Student Success & Retention for plagiarism avoidance counseling via the Early alert submission, and the student will be required to complete the Ethical Academics course in My Fire (if the plagiarism was a level 2 or higher). In the event a student desires to be removed from the course or to appeal the outcome of the course, the following must be completed:

1. The student must write a letter of appeal to the Academic Intervention Committee stating why they want to be removed from the Academic Integrity course and/or not incur a Z grade on their transcript. Students will deliver or e-mail the letter of appeal to the program coordinator.
2. The Academic Intervention Committee will review the appeal.
3. The student will be notified of the committee's decision. All decisions of the committee are final.

Doctoral - Consequences and Levels of Offense

The consequences for plagiarism vary according to the extent of the plagiarism and according to whether the instance is a student's first or subsequent offense. Three levels of offenses and corresponding consequences are outlined below.

The Office of Academic Success and the department chair, director, or coordinator will keep records of plagiarism offenses. The professor should check with the academic success coordinator with ACE to find out whether a given instance of plagiarism is a first or subsequent offense. The professor is responsible for determining the extent of the plagiarism. Plagiarism detection tools (such as Turnitin.com) may be used as an aid in this process.

Students may not withdraw from a course in order to avoid consequences for academic dishonesty.

Level 1

Level one is used only for undergraduate students.

Level 2

Academic Dishonesty will be considered a Level 2 offense when it is:

- The first instance of plagiarism in a submission for a doctoral student; OR
- The first instance of cheating in a submission for a doctoral student.

Consequences for a Level 2 offense are assigned at the programs chair's, director's, or coordinator's discretion with input from the professor, considering factors such as the extent of the academic dishonesty and the nature of the assignment. When students are allowed to correct plagiarism for a graded submission, the course professor will determine the due date for resubmission.

Consequences for the student for a Level 2 offense must include:

- Completing a Graduate Academic Integrity (GAI) course. The student must successfully complete the course prior to registering for additional doctoral courses or continuing the dissertation/capstone process. Failing the GAI course will result in dismissal from the program. A copy of the complete record must be submitted to the professor and the department chair before a student may continue in the doctoral program; AND
- Receiving a grade penalty in the course (for non-dissertation submissions); AND
- Receiving a Z grade annotation (may only be removed by successful completion of the GAI course). (Students may not withdraw from a course in order to avoid consequences for academic dishonesty)

Additionally, the consequences may include any or all of the following:

- Correcting the plagiarism in the assignment for a grade reduction; AND/OR
- Receiving a failing grade for the submission with no option for resubmission; AND/OR
- Failing the course; AND/OR
- Being placed on academic probation.

Additional consequences for dissertation or capstone students may include any or all of the following:

- Suspension of up to one subsequent semester. The student will not be allowed to communicate with members of the dissertation or capstone committee or enroll for dissertation or capstone credits until the suspension is completed.
- Re-assignment of dissertation or capstone committee;
- Suspension of the Graduate Writing Support services until reinstated.

Level 3

Academic Dishonesty will be considered a Level 3 offense when:

- The offense is the second instance of plagiarism or cheating in the student's doctoral program; OR
- The offense is an instance of plagiarism or cheating deemed egregious by the professor and department chair, director, or coordinator; OR
- Cheating occurs on the comprehensive exam; OR
- The offense consists of most of the assignment or dissertation/capstone section; OR
- The student becomes defensive or belligerent when any level of academic dishonesty is addressed.

Consequences for the student for a Level 3 offense are determined according to the program chair's, director's, or coordinator's discretion with input from the professor, considering factors such as the extent of the plagiarism, the nature of the assignment, and the number and levels of any prior offenses.

Consequences for Level 3 offenses must include the following:

- Completing a Graduate Academic Integrity (GAI) course (if not taken previously). The student must successfully complete the course prior to registering for additional doctoral courses or continuing the dissertation/capstone process. A copy of the complete record must be submitted to the professor and the department chair before a student may continue in the doctoral program; AND
- Receive a zero for the submission (the student will have no option to rewrite course submissions and the student will receive no credit for the assignment); AND
- Receiving a Z grade annotation (required, see below); (Students may not withdraw from a course in order to avoid consequences for academic dishonesty).

Additional consequences for dissertation or capstone students may include any or all of the following:

- Suspension of up to one subsequent semester. The student will not be allowed to communicate with members of the dissertation or capstone committee or enroll for a dissertation or capstone credits until the suspension is completed
- Re-assignment of dissertation or capstone committee
- Suspension of the Graduate Writing Support services until reinstated

Additionally, consequences for any student may include any or all of the following:

- Failing the course; AND/OR
- Expulsion from the University

Doctoral - Definitions

For the purpose of this policy,

- "professor" is defined as any person providing academic support or assessment of a student's work. These persons include course instructors, mentors, writing support professors, and members of the dissertation/capstone committee (chair, methodologist, content specialist, and third reader);
- "submission" is defined as all doctoral coursework, GAI assignments, comprehensive exams, as well as drafts and final versions of the dissertation/capstone projects and/or sections of the dissertation/capstone project submitted to professors and to graduate writing support.

Plagiarism

Plagiarism is considered a serious academic offense at Southeastern University. Plagiarism undermines the educational process, and when done intentionally, violates the integrity of the community.

Plagiarism occurs when a writer (regardless of intent) uses someone else's language, ideas, or other original material without acknowledging its source.

Plagiarism includes unattributed use of any source, in any medium, published or unpublished.

The policy also applies to incidents of self-plagiarism, resubmission, or multiple submissions (the use of a single project in two or more academic settings either at Southeastern University or another academic institution). Work submitted in another course may not be resubmitted unless both professors specifically state otherwise.

Some examples of plagiarism include, but are not limited to:

- Quoting or paraphrasing material without attributing it to its source
- Copying segments from the work of others without giving proper credit
- Submitting work written by someone else
- Allowing another student to submit their work to use as his or her own when that individual had not done the work

Widely known facts do not require citation and do not count as plagiarism if the facts are communicated in the writer's own words. Ideas and observations original to the writer also do not require citation.

Avoiding Plagiarism

Professors at Southeastern University work diligently to help students understand and avoid plagiarism. However, the responsibility ultimately rests on students to make sure that their work does not contain plagiarism. Students can avoid plagiarism by properly citing and quoting, paraphrasing, and summarizing all material they use from sources.

Common forms of citation include parenthetical citations, footnotes/endnotes, and attributive statements such as "According to Smith and Rodriguez…"

Quotations include entire sentence(s), key phrase(s), or specific term(s) that match a source word for word. All quotations must be cited using the appropriate quotation format.

Paraphrases and summaries include material (usually information or ideas) taken from a source and put into a writer's own words. All paraphrased and summarized materials must completely rephrase the original source and be properly cited.

The bottom line in avoiding plagiarism is that students must clearly indicate the material in their writing that is original to them and the material taken from sources.

Cheating

Cheating is attempting to present, as one's own, work that one has not performed, or using improper means to pass an examination. Examples include, but are not limited to:

- The sharing of unauthorized information regarding specific content of assignments/examinations or using books, notes, or other material without the instructor's permission.
- The discussion of any aspect of the assignment/examination before all students have completed it.
- Speaking or otherwise communicating with one another in English or any other language or manner during an examination.
- Submitting work the student has not done him- or herself. This includes papers, projects, homework assignments, computer programs, etc.
- Submitting the same paper or assignment, or material portions thereof, for more than one course (except by both instructors' approval and in accordance with criteria established by each of them).
- Falsifying of research data.
- Preventing student or faculty access to course material. This includes mutilating or stealing materials provided by the university for the examination, and/or disabling and interfering with required equipment (i.e. computer equipment or databases.
- Using electronic devices such as cell phones or calculators to store information or materials that are not authorized by the instructor.

Other violations may include:

- Failing to follow any other explicit regulation or expectation announced by the instructor, and/or circulated to each student. This includes failure to use surveillance equipment or software as required by the professor. It is the responsibility of the student to confer with an instructor when procedures are unclear.
- Falsifying a signature on any official university document.
- Altering the contents and/or intent of any official university document.
- Intentionally or knowingly helping or attempting to help another to violate any provision of this policy.

Invalid Attempt

The program coordinator and department chair or college dean reserves the right to differentiate between cases of cheating and invalid exam attempts. If an invalid attempt incident is determined, the student is not required to take the Ethical Academics course, nor given a "Z" grade. Re-attempting the submission or assignment is permitted at the professor's discretion.

Doctoral - Z Grade Annotation

When a professor, program chair, director, coordinator, or college dean concludes that cheating/plagiarism has occurred students must comply with the following policies:

- Complete an assigned Ethical Academics course (if not taken previously).
    - The student must successfully complete the course before registering for additional courses or continuing the dissertation/capstone process.
    - The Z grade annotation may be placed on the student's transcript if the Ethical Academics Course is not completed successfully.
- Students may not withdraw from a course in order to avoid consequences for academic dishonesty.
- Complete any plagiarism and ethics education/tutoring assigned by the university.
- Complete all requirements prescribed by the university according to the level assigned to the individual case.
    - A case may be escalated to a Level 3 at any time if the student becomes defensive or belligerent when any level of academic dishonesty is addressed.

Please refer to the Doctoral Consequences and Levels of Offense for additional details.

Master's - Consequences and Levels of Offense

Level 1

Level 1 is only used for undergraduate students.

Level 2

Academic Dishonesty will be considered a Level 2 offense when it is:

- The first instance of plagiarism of up to 50% for a master's student; OR
- The first instance of cheating on a test or assignment.

Consequences for the student for a Level 2 offense must include:

- Completing an Ethical Academics course that includes strategies for avoiding plagiarism and cheating (required if not already taken); AND
- Receiving a grade penalty in the course; AND
- Receiving a Z grade annotation (may only be removed by successful completion of the Ethical Academics course).

Additionally, the consequences may include any or all of the following:

- Correcting the plagiarism in the assignment for a grade; AND/OR
- Failing the course; AND/OR
- Losing eligibility to take certain types of courses for the remainder of their careers at Southeastern.

Level 3

Academic Dishonesty will be considered a Level 3 offense when it is:

- The second (or higher) instance of plagiarism in a master's level student's career at Southeastern; OR
- Is the second instance of cheating on a test or assignment

Consequences for Level 3 offenses must include the following:

- Receiving a grade penalty in the course; AND
- Completing the Ethical Academics course that includes strategies for avoiding plagiarism and cheating (required if not taken previously); AND
- Receiving a Z grade annotation (required, see below)
- Note: Students with a level 3 offense may not withdraw from a course or will be added back to the roster

Additionally, consequences may include any or all of the following:

- Failing the course; AND/OR
- Losing eligibility to take certain types of courses for the remainder of their careers at Southeastern; AND/OR
- Expulsion from the University at the discretion of the Provost

Master's - Definitions

Plagiarism

Plagiarism occurs when a writer uses someone else's language, ideas, or other original material without acknowledging its source.

Plagiarism includes the unattributed use of any source, in any medium, published or unpublished. Work already submitted for a grade in another course may not be resubmitted unless the professor specifically states otherwise.

Some examples of plagiarism include but are not limited to:

- Quoting or paraphrasing material without attributing it to its source.
- Copying segments from the work of others without giving proper credit.
- Submitting as original work written entirely by someone else.
- Self-plagiarism occurs when an individual resubmits his/her own work previously submitted for another course or assignment without the approval of the professor.

Cheating

Cheating is attempting to present, as one's own, work that one has not performed, or using improper means to pass an examination. Examples include, but are not limited to:

- The sharing of unauthorized information regarding specific content of assignment/examinations or using books, notes or other material without the instructor's permission.
- The discussion of any aspect of the assignment/examination before all students have completed it.
- Speaking or otherwise communicating with one another in English or any other language or manner during an examination.
- Submitting work the student has not done him- or herself. This includes papers, projects, homework assignments, computer programs, etc.
- Submitting of the same paper or assignment, or material portions thereof, for more than one course (except by both instructors' approval and in accordance with criteria established by each of them).
- Falsifying of research data.
- Preventing student or faculty access to course material. This includes mutilating or stealing materials provided by the university for the examination, and/or disabling and interfering with required equipment (i.e. computer equipment or databases.
- Using electronic devices such as cell phones or calculators to store information or materials that are not authorized by the instructor.

Other violations may include:

- Failing to follow any other explicit regulation or expectation announced by the instructor, and/or circulated to each student. This includes failure to use surveillance equipment or software as required by the professor. It is the responsibility of the student to confer with an instructor when procedures are unclear.
- Falsifying a signature on any official university document.
- Altering the contents and/or intent of any official university document.
- Intentionally or knowingly helping or attempting to help another to violate any provision of this policy.

Invalid Attempt

The program coordinator, department chair, or college dean reserves the right to differentiate between cases of cheating and invalid exam attempts. If an invalid attempt incident is determined, the student is not required to take the Ethical Academics course nor given a "Z" grade. Re-attempting the submission or assignment is permitted at the professor's discretion.

Master's - Z Grade Annotation

When a professor, program chair, director, coordinator, or college dean concludes that cheating/plagiarism has occurred students must comply with the following policies:

- Complete an assigned The Ethical Academics course (if not taken previously).
    - The student must successfully complete the course before registering for additional courses or continuing the dissertation/capstone process.
    - The Z grade annotation may be placed on the student's transcript if The Ethical Academics Course is not completed successfully.
- Students may not withdraw from a course in order to avoid consequences for academic dishonesty.
- Complete any plagiarism and ethics education/tutoring assigned by the university.
- Complete all requirements prescribed by the university according to the level assigned to the individual case.
    - A case may be escalated to Level 3 at any time if the student becomes defensive or belligerent when any level of academic dishonesty is addressed.

Please refer to the Master's Consequences and Levels of Offense for additional details.

Violation of Federal Copyright Laws

"102. The subject matter of copyright: In general

(a) Copyright protection subsists, in accordance with this title, in original works of authorship fixed in any tangible medium of expression, now known or later developed, from which they can be perceived, reproduced, or otherwise communicated, either directly or with the aid of a machine or device." (https://www.copyright.gov/title17/92chap1.html).

"506. Criminal offenses

(a) Criminal Infringement. —

(1) In general.—Any person who willfully infringes a copyright shall be punished as provided under section 2319 of title 18…" (https://www.copyright.gov/title17/92chap5.html).

For detailed information, please see the website of the U.S. Copyright Office at www.copyright.gov.w subpage content.

Generative Assistance AI Use Policy

Using Generative AI in Coursework
Generative AI Assistance (GAIA) Policy

Intent

Students should learn how to use AI text generators and other AI-based assistive resources (collectively, AI tools) to enhance rather than damage their developing abilities as writers, coders, communicators, and thinkers. Instructors should ensure fair grading for both those who do and do not use AI tools. The GAIA policy stresses transparency, fairness, and honoring relevant stakeholders. In accordance with Turnitin, we recognize that the "AI writing detection model may not always be accurate (it may misidentify both human and AI-generated text) so it should not be used as the sole basis for adverse actions against a student," https://help.turnitin.com/ai-writing-detection.htm. To that end, the GAIA policy adopts a few commonsense limitations on an otherwise embracing approach to AI tools.

Students shall

1. Confirm with their professor that using ChatGPT or other content produced by generative artificial intelligence (AI) is acceptable before citing it. https://libguides.slcc.edu/ChatGPT/Citations
2. Give credit to AI tools whenever used, even if only to generate ideas rather than usable text or illustrations.
3. When using AI tools on assignments use the AI Support Report template to report the following:
    a. Save a transcript of your chat. Make it available to or retrievable by your reader, possibly by including it as an appendix to your work or as an online supplement.
    b. Describe the prompt that generated the specific ChatGPT response.
    c. Include the date when the response was generated or the date of access. This is important as these tools will be updated regularly.
    d. Acknowledge how you used the tool. You can do this even if you only use ChatGPT to plan your paper or generate ideas and don't include any of its generated content. https://libguides.slcc.edu/ChatGPT/Citations
4. Not use AI tools during in-class examinations, or assignments, unless explicitly permitted and instructed.
5. Use AI tools wisely and intelligently, aiming to deepen understanding of the subject matter and support learning.

Instructors shall

1. Seek to understand how AI tools work, including their strengths and weaknesses, to optimize their value for student learning.
2. Understand AI detection tools as a basis for discussion with the student rather than a definitive finding.
3. Impose a significant penalty for low-energy or unreflective reuse of material generated by AI tools and assign zero points for merely reproducing the output from AI tools.
4. Submit an Academic Integrity Alert after instructors have communicated with the student and determined that AI tools were not used properly.

This policy recognizes that.

1. This policy depends on goodwill, a sense of fairness, and honorable character.
2. There may be some courses or assignments where AI tools must be strictly prohibited, either at the direction of disciplinary accreditors or in preparation for certain certification exams. In those instances, professors may restrict the use of AI and communicate such restrictions clearly on the course syllabus.
3. This policy takes account of the existence of subscription versions of AI tools, which are not affordable for some students; the policy may need to be revised as the differences between subscription and free versions become better understood.
4. This policy may be revised in light of other policies and novel technological developments in AI tools.

How to Cite AI Tools (Examples)

1. MLA Citations: https://style.mla.org/citing-generative-ai/
2. APA Citations: https://apastyle.apa.org/blog/how-to-cite-chatgpt

Generative AI Example

AI Support Report

Academic Integrity

Southeastern University seeks to foster a spirit of honesty and integrity in students. The University expects graduate students at SEU to embody the same spirit of commitment to high ethical standards and academic integrity in all aspects of their participation within the program.

Therefore, any work submitted by a student must represent original work produced by that student. Any source used by a student must be documented using program-appropriate scholarly references and citations.

"Academic dishonesty" refers to plagiarism or cheating (regardless of intention) (see definitions below). Should a professor suspect academic dishonesty of any kind, the professor will follow the guidelines below and will refer the student to the Academic Center for Enrichment (ACE) by submitting an Early Alert (the Early Alert link is available through JICS). The intervention will be noted in the student's file. University personnel will follow up assuring that all consequences dictated by the professor and university policy have been completed. To effectively counter academic dishonesty, professors must follow these guidelines in all instances of plagiarism and cheating.

The processes stated in the Student Appeal and Complaint Policy (see "Appeals") are to be utilized should a student seek an appeal of any decision rendered under the Academic Integrity policy.

Doctoral - Procedure for Dealing with Violations of Academic Integrity

When students attain the level of doctoral studies, the expectation is that they understand academic integrity and plagiarism. Doctoral students are expected to maintain the highest level of academic integrity in all their academic work.

This policy applies to all doctoral coursework and comprehensive exams, as well as drafts and final versions of the dissertation/capstone and/or sections of the dissertation/capstone submitted to professors and to graduate writing support.

Academic Dishonesty Report (Cheating/Plagiarism)

In each instance of academic dishonesty, the professor will (a) determine the level of the offense and the appropriate consequences according to the guidelines listed below; (b) communicate with the offending student to discuss the nature of his or her academic dishonesty, the academic integrity policy, and the consequences to be assigned; and (c) submit an early alert via MyPortal (JICS) to the Student Success & Retention office.
The academic dishonesty report via the Early Alert System includes:

- Name and ID number of the offending student
- Professor, course, and term
- Indicate the Severity of the Issue
- Description of the academic dishonesty (plagiarism or cheating), indicating the level of offense (Level 2 or 3 as outlined below)
- Documentation of each step of the academic integrity procedure that has been followed
- Copy of the plagiarism report (for example, from Turnitin.com), if available
- A copy of the plagiarized work, if applicable
- Any other supporting documentation
- An indication of the consequences if already assigned

Early Alert Program Appeal Process

When there is an instance of academic dishonesty, students will be referred to the Office of Student Success & Retention for plagiarism avoidance counseling via the Early alert submission, and the student will be required to complete the Ethical Academics course in My Fire (if the plagiarism was a level 2 or higher). In the event a student desires to be removed from the course or to appeal the outcome of the course, the following must be completed:

1. The student must write a letter of appeal to the Academic Intervention Committee stating why they want to be removed from the Academic Integrity course and/or not incur a Z grade on their transcript. Students will deliver or e-mail the letter of appeal to the program coordinator.
2. The Academic Intervention Committee will review the appeal.
3. The student will be notified of the committee's decision. All decisions of the committee are final.

Doctoral - Consequences and Levels of Offense

The consequences for plagiarism vary according to the extent of the plagiarism and according to whether the instance is a student's first or subsequent offense. Three levels of offenses and corresponding consequences are outlined below.
The Office of Academic Success and the department chair, director, or coordinator will keep records of plagiarism offenses. The professor should check with the academic success coordinator with ACE to find out whether a given instance of plagiarism is a first or subsequent offense. The professor is responsible for determining the extent of the plagiarism. Plagiarism detection tools (such as Turnitin.com) may be used as an aid in this process.
Students may not withdraw from a course in order to avoid consequences for academic dishonesty.

Level 1

Level one is used only for undergraduate students.

Level 2

Academic Dishonesty will be considered a Level 2 offense when it is:

- The first instance of plagiarism in a submission for a doctoral student; OR
- The first instance of cheating in a submission for a doctoral student.

Consequences for a Level 2 offense are assigned at the programs chair's, director's, or coordinator's discretion with input from the professor, considering factors such as the extent of the academic dishonesty and the nature of the assignment. When students are allowed to correct plagiarism for a graded submission, the course professor will determine the due date for resubmission.
Consequences for the student for a Level 2 offense must include:

- Completing a Graduate Academic Integrity (GAI) course. The student must successfully complete the course prior to registering for additional doctoral courses or continuing the dissertation/capstone process. Failing the GAI course will result in dismissal from the program. A copy of the complete record must be submitted to the professor and the department chair before a student may continue in the doctoral program; AND
- Receiving a grade penalty in the course (for non-dissertation submissions); AND
- Receiving a Z grade annotation (may only be removed by successful completion of the GAI course). (Students may not withdraw from a course in order to avoid consequences for academic dishonesty)

Additionally, the consequences may include any or all of the following:

- Correcting the plagiarism in the assignment for a grade reduction; AND/OR
- Receiving a failing grade for the submission with no option for resubmission; AND/OR
- Failing the course; AND/OR
- Being placed on academic probation.

Additional consequences for dissertation or capstone students may include any or all of the following:

- Suspension of up to one subsequent semester. The student will not be allowed to communicate with members of the dissertation or capstone committee or enroll for dissertation or capstone credits until the suspension is completed.
- Re-assignment of dissertation or capstone committee;
- Suspension of the Graduate Writing Support services until reinstated.

Level 3

Academic Dishonesty will be considered a Level 3 offense when:

- The offense is the second instance of plagiarism or cheating in the student's doctoral program; OR

- The offense is an instance of plagiarism or cheating deemed egregious by the professor and department chair, director, or coordinator; OR
- Cheating occurs on the comprehensive exam; OR
- The offense consists of most of the assignment or dissertation/capstone section; OR
- The student becomes defensive or belligerent when any level of academic dishonesty is addressed.

Consequences for the student for a Level 3 offense are determined according to the program chair's, director's, or coordinator's discretion with input from the professor, considering factors such as the extent of the plagiarism, the nature of the assignment, and the number and levels of any prior offenses.
Consequences for Level 3 offenses must include the following:

- Completing a Graduate Academic Integrity (GAI) course (if not taken previously). The student must successfully complete the course prior to registering for additional doctoral courses or continuing the dissertation/capstone process. A copy of the complete record must be submitted to the professor and the department chair before a student may continue in the doctoral program; AND
- Receive a zero for the submission (the student will have no option to rewrite course submissions and the student will receive no credit for the assignment); AND
- Receiving a Z grade annotation (required, see below); (Students may not withdraw from a course in order to avoid consequences for academic dishonesty).

Additional consequences for dissertation or capstone students may include any or all of the following:

- Suspension of up to one subsequent semester. The student will not be allowed to communicate with members of the dissertation or capstone committee or enroll for a dissertation or capstone credits until the suspension is completed
- Re-assignment of dissertation or capstone committee
- Suspension of the Graduate Writing Support services until reinstated

Additionally, consequences for any student may include any or all of the following:

- Failing the course; AND/OR
- Expulsion from the University

Doctoral - Definitions

For the purpose of this policy,

- "professor" is defined as any person providing academic support or assessment of a student's work. These persons include course instructors, mentors, writing support professors, and members of the dissertation/capstone committee (chair, methodologist, content specialist, and third reader);
- "submission" is defined as all doctoral coursework, GAI assignments, comprehensive exams, as well as drafts and final versions of the dissertation/capstone projects and/or sections of the dissertation/capstone project submitted to professors and to graduate writing support.

Plagiarism

Plagiarism is considered a serious academic offense at Southeastern University. Plagiarism undermines the educational process, and when done intentionally, violates the integrity of the community.
Plagiarism occurs when a writer (regardless of intent) uses someone else's language, ideas, or other original material without acknowledging its source.
Plagiarism includes unattributed use of any source, in any medium, published or unpublished.
The policy also applies to incidents of self-plagiarism, resubmission, or multiple submissions (the use of a single project in two or more academic settings either at Southeastern University or another academic institution). Work submitted in another course may not be resubmitted unless both professors specifically state otherwise.
Some examples of plagiarism include, but are not limited to:

- Quoting or paraphrasing material without attributing it to its source
- Copying segments from the work of others without giving proper credit
- Submitting work written by someone else
- Allowing another student to submit their work to use as his or her own when that individual had not done the work

Widely known facts do not require citation and do not count as plagiarism if the facts are communicated in the writer's own words. Ideas and observations original to the writer also do not require citation.

Avoiding Plagiarism

Professors at Southeastern University work diligently to help students understand and avoid plagiarism. However, the responsibility ultimately rests on students to make sure that their work does not contain plagiarism. Students can avoid plagiarism by properly citing and quoting, paraphrasing, and summarizing all material they use from sources.
Common forms of citation include parenthetical citations, footnotes/endnotes, and attributive statements such as "According to Smith and Rodriguez…"
Quotations include entire sentence(s), key phrase(s), or specific term(s) that match a source word for word. All quotations must be cited using the appropriate quotation format.
Paraphrases and summaries include material (usually information or ideas) taken from a source and put into a writer's own words. All paraphrased and summarized materials must completely rephrase the original source and be properly cited.
The bottom line in avoiding plagiarism is that students must clearly indicate the material in their writing that is original to them and the material taken from sources.

Cheating

Cheating is attempting to present, as one's own, work that one has not performed, or using improper means to pass an examination. Examples include, but are not limited to:

- The sharing of unauthorized information regarding specific content of assignments/examinations or using books, notes, or other material without the instructor's permission.
- The discussion of any aspect of the assignment/examination before all students have completed it.

- Speaking or otherwise communicating with one another in English or any other language or manner during an examination.
- Submitting work the student has not done him- or herself. This includes papers, projects, homework assignments, computer programs, etc.
- Submitting the same paper or assignment, or material portions thereof, for more than one course (except by both instructors' approval and in accordance with criteria established by each of them).
- Falsifying of research data.
- Preventing student or faculty access to course material. This includes mutilating or stealing materials provided by the university for the examination, and/or disabling and interfering with required equipment (i.e. computer equipment or databases.
- Using electronic devices such as cell phones or calculators to store information or materials that are not authorized by the instructor.

Other violations may include:

- Failing to follow any other explicit regulation or expectation announced by the instructor, and/or circulated to each student. This includes failure to use surveillance equipment or software as required by the professor. It is the responsibility of the student to confer with an instructor when procedures are unclear.
- Falsifying a signature on any official university document.
- Altering the contents and/or intent of any official university document.
- Intentionally or knowingly helping or attempting to help another to violate any provision of this policy.

Invalid Attempt
The program coordinator and department chair or college dean reserves the right to differentiate between cases of cheating and invalid exam attempts. If an invalid attempt incident is determined, the student is not required to take the Ethical Academics course, nor given a "Z" grade. Re-attempting the submission or assignment is permitted at the professor's discretion.

Doctoral - Z Grade Annotation

When a professor, program chair, director, coordinator, or college dean concludes that cheating/plagiarism has occurred students must comply with the following policies:

- Complete an assigned Ethical Academics course (if not taken previously).
    - The student must successfully complete the course before registering for additional courses or continuing the dissertation/capstone process.
    - The Z grade annotation may be placed on the student's transcript if the Ethical Academics Course is not completed successfully.
- Students may not withdraw from a course in order to avoid consequences for academic dishonesty.
- Complete any plagiarism and ethics education/tutoring assigned by the university.
- Complete all requirements prescribed by the university according to the level assigned to the individual case.
    - A case may be escalated to a Level 3 at any time if the student becomes defensive or belligerent when any level of academic dishonesty is addressed.

Please refer to the Doctoral Consequences and Levels of Offense for additional details.

Master's - Consequences and Levels of Offense

Level 1

Level 1 is only used for undergraduate students.

Level 2

Academic Dishonesty will be considered a Level 2 offense when it is:

- The first instance of plagiarism of up to 50% for a master's student; OR
- The first instance of cheating on a test or assignment.

Consequences for the student for a Level 2 offense must include:

- Completing an Ethical Academics course that includes strategies for avoiding plagiarism and cheating (required if not already taken); AND
- Receiving a grade penalty in the course; AND
- Receiving a Z grade annotation (may only be removed by successful completion of the Ethical Academics course).

Additionally, the consequences may include any or all of the following:

- Correcting the plagiarism in the assignment for a grade; AND/OR
- Failing the course; AND/OR
- Losing eligibility to take certain types of courses for the remainder of their careers at Southeastern.

Level 3

Academic Dishonesty will be considered a Level 3 offense when it is:

- The second (or higher) instance of plagiarism in a master's level student's career at Southeastern; OR
- Is the second instance of cheating on a test or assignment

Consequences for Level 3 offenses must include the following:

- Receiving a grade penalty in the course; AND
- Completing the Ethical Academics course that includes strategies for avoiding plagiarism and cheating (required if not taken previously); AND
- Receiving a Z grade annotation (required, see below)
- Note: Students with a level 3 offense may not withdraw from a course or will be added back to the roster

Additionally, consequences may include any or all of the following:

- Failing the course; AND/OR
- Losing eligibility to take certain types of courses for the remainder of their careers at Southeastern; AND/OR
- Expulsion from the University at the discretion of the Provost

Master's - Definitions

Plagiarism

Plagiarism occurs when a writer uses someone else's language, ideas, or other original material without acknowledging its source.
Plagiarism includes the unattributed use of any source, in any medium, published or unpublished. Work already submitted for a grade in another course may not be resubmitted unless the professor specifically states otherwise.

For detailed information, please see the website of the U.S. Copyright Office at www.copyright.gov.

Academic Progress Standards

The term "academic progress standards" refers to the minimum standard of progress that Southeastern University expects graduate students to achieve as they work toward their educational goals. Students who maintain the minimum academic progress standards will ensure they graduate with the required cumulative grade point average (GPA). A satisfactory level of academic progress is determined based on the student's cumulative GPA calculated based on all graduate work attempted. A student meets academic progress standards only if his or her cumulative grade point average is 3.0 or higher. To be eligible for continued enrollment in good standing, a student must maintain a minimum cumulative GPA of 3.0 or higher. Students who fall below the minimum GPA will be placed on academic probation and may be suspended.
If a student earns a grade of D-, D, D+ or F in a course, the student will be placed on probation or suspension depending on the circumstances. Courses in which a student receives a grade of less than C- will not be counted toward degree completion. If the course is required for degree completion, the course must be retaken with a minimal grade of C-. A course may be repeated only once.
A student must meet academic progress standards to be eligible for federal financial aid programs at Southeastern University. Refer to the Financial Aid Information section for additional criteria that may apply.

Academic Policies

Student's Rights

Confidentiality of Student Records Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.
FERPA gives parents certain rights with respect to their children's education records. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level, except in certain specified circumstances. One of these exceptions permits the nonconsensual disclosure of information derived from education records to that student's parent if the student is a dependent for tax purposes. Neither the age of the student, nor the parent's status as custodial parent, is relevant to determining whether disclosure of information from the education records of eligible students to a parent without written consent is permissible under FERPA. If a student is claimed as a dependent by either parent for tax purposes, then either parent may have access under this provision, absent a court order specifically prohibiting it.Students to whom the rights have transferred are "eligible students."

- Eligible students have the right to inspect and review their education records maintained by Southeastern University. SEU is not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents or eligible students to review the records.
- Eligible students have the right to request that SEU correct records which they believe to be inaccurate or misleading.
- Generally, SEU must have written permission from the student in order to release any information from a student's education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions (34 CFR § 99.31):
    - School officials with legitimate educational interest;
    - Other schools to which a student is transferring;
    - Specified officials for audit or evaluation purposes;
    - Appropriate parties in connection with financial aid to a student;
    - Organizations conducting certain studies for or on behalf of the school;
    - Accrediting organizations;
    - To comply with a judicial order or lawfully issued subpoena;
    - Appropriate officials in cases of health and safety emergencies; and
    - State and local authorities, within a juvenile justice system, pursuant to specific State law.

Schools may disclose, without consent, "directory" information such as a student's name, address, telephone number, date and place of birth, honors and awards, and dates of attendance. SEU notifies students annually of their rights under FERPA.

Disclosure of Information in Health and Safety Emergency

Based on 34 FERPA CRF 99.36, an educational agency or institution may disclose personally identifiable information from an education record to appropriate parties, including parents of an eligible student, in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals.

SEU may include in the education records of a student appropriate information concerning disciplinary action taken against the student for conduct that posed a significant risk to the safety or well-being of that student, other students, or other members of the school community;

SEU officials may disclose appropriate information to teachers and school officials within the institution who it has been determined have legitimate educational interests in the behavior of the student; or

SEU officials may disclose appropriate information to teachers and school officials in other schools who have been determined to have legitimate educational interests in the behavior of the student.

SEU officials may take into account the totality of the circumstances pertaining to a threat to the health or safety of a student or other individuals, in making this decision. If the institution determines that there is an articulable and significant threat to the health or safety of a student or other individuals, it may disclose information from education records to any person whose knowledge of the information is necessary to protect the health or safety of the student or other individuals.

Title IX Statement

Southeastern University is committed to creating an environment for every student to thrive academically, spiritually, and socially. An aspect of creating this culture is providing avenues for students to discuss and report any activity that may compromise this commitment.

Under a federal law known as Title IX, "no person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving federal financial assistance" (Title IX of the Education Amendments of 1972).

While students should feel comfortable approaching faculty with issues they may be struggling with or concerns they may be having, students should know that all faculty and staff are required to report certain information about Sexual Misconduct and certain crimes to the University's administration, in order to help keep the University community safe and to connect students to all of the resources and reporting options that are available.

For example, if you inform faculty or staff (in private or during class discussions) of an incident of Sexual Misconduct, that individual will keep the information as private as possible but is required to bring it to the attention of the institution's Title IX Office. If a student would like to talk to the Title IX office directly, they can do so by e-mail at smpowell@seu.edu, by phone at 863-667-5236, or in person at Pansler U210. For more information about Title IX reporting options at Southeastern, please go to https://seu.edu/about/title-ix/.

If you are struggling with an issue that is traumatic, unusually stressful, or results in disruptive behavior, faculty and staff will likely inform the office of Student Outreach & Support. If students would like to reach out directly to the office of Student Outreach & Support for assistance, they can do so by going to www.seu.edu/sos. Student Outreach & Support is located in Addison 110 and can be contacted by phone at 863-667-5218 or by e-mail at sos@seu.edu.

Legal Name Changes

Students and alumni may submit documentation of a legal name change, resulting in all educational records being updated to the new legal name, by completing the name change request in JICS. A color copy of the Social Security Card, Driver's License, or passport indicating the new name is required.

Constitution Day

Pursuant to federal regulations, (Division J of Pub. L. 108-447, the Consolidated Appropriations Act, 2005," Dec. 8, 2004; 118 Stat. 2809, 3344-45 Section 111), Southeastern University sponsors a Constitution Day annually, open to students and members of the community, with political and government representatives as featured speakers. Students, faculty and staff are encouraged to attend.

Undergraduate Graduation/ Adornment/ Honors

Graduation Requirements

A candidate for the associate's or bachelor's degree must complete the required number of hours for his/her chosen degree program with an overall average grade of 2.0 or better in order to graduate. Various colleges and departments within the university may require a higher GPA to qualify for graduation. Refer to the program of study section of the catalog for details. Each candidate for a degree must complete a minimum of 30 credit hours toward the required foundational education core (to include at least one course from each of the following areas: Creative-Aesthetic Inquiry, Socio-Historical Inquiry, Natural-Scientific Inquiry/Quantitative Inquiry) and must complete all major requirements in the selected program of study. Students seeking teacher certification must complete requirements in appropriate professional education and teaching specialization courses.

Degree requirements are based on the requirements in effect at the time the student declares a major. Students may elect to complete the requirements in effect at the time the student first declares the major or they may elect to adopt the requirements of the current catalog. The degree requirements of the current catalog must be applied for all students who are readmitted to degree-seeking status and have not attended Southeastern University for two or more semesters.

Each candidate for a Bachelor's degree must complete a minimum of 120 credit hours and for an Associate's must complete a minimum of 60 credit hours per SACSOC to be eligible for degree conferral. Additionally, candidates for the associate's and bachelor's degrees must complete 25 percent of their program of study at Southeastern University to be eligible to graduate.

How to Apply

1. Fill out the Graduation Application in JICS under the "Graduation" tab by the deadline established by the Office of the Registrar (April 15 for upcoming fall graduates, November 15 for upcoming spring graduates).

2. After the add/drop period and prior to the start of the B subterm of the semester the student applies to graduate, graduation applicants' individual degree audits are reviewed by the Office of Academic Advising. Applicants receive an email from advising@seu.edu confirming graduation eligibility status. If the student is in good academic standing with a 2.0 or better GPA and has 6 or fewer hours outstanding after the semester in which the student applied to graduate, the student will be eligible to participate in the commencement ceremony. If it is determined that the student is not eligible to graduate, the student will be notified by the Office of the Registrar, the graduation application is canceled, and the student should reapply for a later graduation date. All academic requirements specified on the degree audit must be completed and the student must earn a 2.0 or better cumulative GPA for degree conferral.

3. A student is not classified as a candidate for graduation until the application has been received and an official degree audit review is completed. Students who intend to graduate but miss the deadline to apply must still submit an application. In this case, the student will be ineligible to participate in the commencement ceremony.

Degree Requirements (See Program)

See Program for specific degree requirements in this catalog for each graduate degree program.

Senior Degree Audit Policy

Students who are within one year of graduation must file an Application for Graduation in JICS. The office of Academic Advising reviews each applicant's degree audit to determine if the student is eligible to graduate.

The degree audit, found in JICS, is an outline of degree requirements based on the catalog year that the student declared their major. The degree audit enables the student and academic advisor to assess academic progress and remaining coursework needed to fulfill specific degree requirements. The degree audit is a valuable tool to guide students with academic planning, course selection, and degree completion, and is used as the final graduation audit to ensure completion of degree requirements.

Honors

Honors recognition is made at commencement based on the cumulative grade point average at the end of the penultimate semester. If the grades of the final semester change a student's honors status, the correct status is noted on the official transcript.

The credit hours and quality points accumulated at previous schools accepted as transfer will be averaged with the Southeastern GPA to determine honors recognition.

A candidate for the associate's and bachelor's degree will graduate with honors as follows:

- Cum laude (honors) -cumulative grade point average of 3.50-3.74

- Magna cum laude (high honors) -cumulative grade point average of 3.75-3.89
- Summa cum laude (highest honors) -cumulative grade point average of 3.90-4.00

Grade point averages are never rounded up to the nearest whole number.

Adornment

Cords, medallions and stoles are the only graduation adornments that graduates will be allowed to wear at official commencement ceremonies of Southeastern University without written approval. Requests for other forms of adornment must be submitted to the Office of the Provost no later than 21 days prior to commencement.

Honor cords should represent high academic achievement by graduates as recognized through their respective departments and colleges. Non-academic cords that have been awarded by University representatives may also be worn.

- Undergraduate-level students are allowed to wear a maximum of three adornments (cords, medallions, or stoles) for all commencement ceremonies
- Graduate-level students are allowed to wear SEU awarded cords and medallions at commencement ceremonies. However, stoles are not permitted.

Non-academic adornment: Graduates seeking approval to wear non-academic adornment, such as cultural representations, must submit a written request and photo of themselves wearing the adornment to the Office of the Provost no later than 21 days prior to commencement in order for the request to be processed. This privilege is for graduates only. Careful consideration will be given to all requests; however, approval is not guaranteed. Guidelines for consideration include the following.

Adornment:

- Must lay flat around the neck
- Must be no more than 5” in width
- Must be of a length that is appropriate for commencement attire
- Must be consistent with SEU’s message & mission
- Headdresses and/or attachments to graduation cap or gown will not be allowed
- Representation of political affiliation or controversial subject matter will not be allowed

Recognition of Academic Excellence

Alpha Chi

Alpha Chi is a national honor scholarship society which promotes academic achievement, ethical character, and professional advancement. Members of this society must have a GPA of 3.5 or higher, comprise no more than 10% of junior and senior classes, and be elected to the society by the faculty. Alpha Chi sponsors forums, seminars, scholarships for students, and regional and national conventions for the exchange of scholarly papers and for professional networking.

Alpha Phi Sigma

Alpha Phi Sigma recognizes academic excellence of Undergraduate and Graduate students of Criminal Justice, as well as Juris Doctorate students.

The four goals of Alpha Phi Sigma are to honor and promote academic excellence, community service, educational leadership, and unity.

Alpha Phi Sigma is the only Criminal Justice Honor Society which is a certified member of the Association of College Honor Societies and affiliated with the Academy of Criminal Justice Sciences.

Southeastern University’s assigned chapter name is Pi Beta Kappa. This chapter has been organized to promote the highest standards of criminal justice practice and to recognize and promote the four goals of Alpha Phi Sigma.

Student members must have declared a major in Criminal Justice and must have a cumulative grade point average of 3.5.

Chi Sigma Iota

Chi Sigma Iota is an international honor society that values academic and professional excellence in counseling. Chi Sigma Iota promotes a strong professional identity through members (professional counselors, counselor educators, and students) who contribute to the realization of a healthy society by fostering wellness and human dignity. A student’s invitation to join the chapter at Southeastern University – Sigma Epsilon Upsilon, distinguishes them as an individual whose accomplishments are consistent with the mission of the international organization and of the Sigma Epsilon Upsilon Chapter. Eligibility for membership is extended only to those students who “have a cumulative GPA of 3.5 or better on a scale of 4.0, are deemed promising for endorsement as a professional counselor whose ethical judgment and behavior will be exemplary” (csi-net.org/bylaws, Article 4.1), and “who strive to serve Christ and the world through Spirit-empowered life, learning, and leadership” (Southeastern University Mission).

Dean’s Honor

Southeastern students who excel academically may qualify for the Dean’s Honor List. To qualify, a student must be enrolled for 12 hours or more and attain or surpass a scholastic grade point average of 3.5 from the previous semester of enrollment. Letters of Achievement are emailed to students who meet the criteria for Dean’s honor after final grades are posted at the end of each fall and spring semester.

Delta Mu Delta

Delta Mu Delta is a business honor society that recognizes and encourages academic excellence of students at qualifying colleges and universities to create a DMD community that fosters the well-being of its individual members and the business community through lifetime membership.

Kappa Delta Pi

Kappa Delta Pi, an International Honor Society in Education was founded in 1911 at the University of Illinois. Organized to recognize excellence in education, membership is elected based on ideals of scholarship, high personal standards, and promise in teaching and allied professions. High academic achievement required.

Kappa Mu Epsilon

Kappa Mu Epsilon is a specialized honor society in Mathematics. KME was founded in 1931 to promote the interest of mathematics among undergraduate students. Its chapters are located in colleges and universities of recognized standing which offer a strong mathematics major. The chapters’ members are selected from students of mathematics and other closely related fields who have maintained standards of scholarship, have professional merit, and have attained academic distinction.

Military Honor Cord

A red/white/blue cord designates faculty or graduating students who are honorably discharged U.S. veterans, are currently serving in the U.S. military (active duty, National Guard, or Reserves), or will be commissioned upon graduation.

Phi Alpha

The purpose of Phi Alpha Honor Society is to provide a closer bond among students of social work and promote humanitarian goals and ideals. Phi Alpha fosters high standards of education for social workers and invites into membership those who have attained excellence in scholarship and achievement in social work.

PHSO

The Pre-Health Service Organization is for those preparing for careers in the health profession. The primary objective of the organization is to take social action on campus and in the community, exhibit excellence in scholarship, provide practical field experience, and establish relationship between students committed to becoming outstanding health care professionals.

Psi Chi

Psi Chi, the national honor society in psychology, promotes excellence in scholarship and advancement in the science of psychology. Qualification for membership requires the completion of three semesters, or the equivalent, of college or university courses, completion of nine semester hours or the equivalent toward a declared major or minor in psychology, a 3.0 GPA in psychology courses, a cumulative 3.0 GPA, and rank in the upper 35% of their class in general scholarship.

Sigma Chi Pi

Sigma Chi Pi, the honor society for the Alliance for Assemblies of God Christian Higher Education, accepts into membership qualified graduates from Southeastern University. Nominations for membership are restricted to no more than seven percent of the graduating class and are made by the Registrar. Qualifications for membership require a scholastic average of not less than 3.5 on a four point system, or the equivalent, approved Christian character, and diligent servant leadership.

Sigma Tau Delta

Sigma Tau Delta is a recognized honor society in English. The organization was established in 1924 to confer distinction for high achievement in English language, literature, and writing. Its chapters are located in colleges and universities and is dedicated to fostering literacy and all aspects of the discipline of English.

University Honors Scholar

Graduating seniors who have fulfilled extensive program requirements for the Southeastern University Honors Program, including the successful completion of an in-depth Honors Thesis, receive the designation of University Honors Scholar. They are noted by the Honors Program medallion worn at commencement.

Graduate Graduation/Adornment

Students in select graduate programs may be approved to participate in graduation if they are in good academic standing and have six or fewer credit hours remaining towards their degree program. This does not apply to doctoral candidates who must successfully defend their dissertation/professional project and receive approval from their program chair/director prior to participating in the graduation ceremony. Participation in the commencement ceremony with remaining academic degree requirements outstanding will inhibit the diploma from being released. All academic requirements must be met before the diploma is issued. If requirements are not met within one semester following participation in the commencement ceremony, the student must reapply for admission under the current degree catalog requirements. This may alter the remaining requirements needed to graduate.

Students have up to one year from graduation to complete a certification test, as applicable. Please contact the Office of the Registrar when all outstanding requirements are completed so the degree can be conferred with the certification noted, and the diploma awarded.

An important note about certification: the degree, once awarded, cannot be changed, added to, or altered in any way. Students who want the degree conferred prior to completing certification requirements will not be eligible to add the certification to the academic transcript at a later date.

The graduating student's account balance must be paid in full prior to receiving a diploma or official transcript. The diploma or transcript will not be released until the student account balance is paid in full, including all tuition and fees.

Students must meet all academic and institutional requirements to graduate. Graduation Advisors in the Office of Academic Advising confirm that all requirements are met prior to degree conferral and diploma release.

Time Limits for Degree Completion

Doctoral degree

Doctoral degree students have six years from the time of matriculation (first enrollment) to complete their doctoral degree program.

Dissertation/Project Phase Time Limits

Some university doctoral programs require a culminating project, thesis, or dissertation. These culminating efforts will be taken in a sequence of courses with the intent that the student completes the sequence in a timely manner. Standards for time for completion of specific degree programs are included in Programs of Study or program supplement guides.

Students may enroll in dissertation/capstone courses for no more than eight semesters (maximum of 16 credits of dissertation credits). If a student is unable to defend the dissertation/capstone project before the end of the eighth semester in the dissertation/capstone phase, he or she may petition for a one-semester extension.

Master's degree

Master's degree students have seven years from the time of matriculation (first enrollment) to complete their master's degree program.

Master's Degree Culminating Activities Time Limits

Some Southeastern University master's programs require or give the option for a culminating project, thesis, directed reading, or specific field experience hours for graduation. These culminating efforts will be taken as a regular course with the intent that the student completes the culminating effort in that term. In the event a student is unable to complete that culminating effort in the designated semester, the student must enroll in a zero-credit continuation course with an associated fee for each semester until the completion of the culminating project, thesis, directed research, or field experience. After three semesters of continuance (one year), the original course grade(s) will revert to an F.

Application for Graduation

Degree requirements are based on the catalog in effect at the time the student first enrolls as a degree-seeking student. Students may elect to complete the requirements in effect at the time of first enrollment as a degree-seeking student, or they may elect to complete the requirements of the current catalog. The degree requirements of the current catalog will be applied to all students who are readmitted to degree-seeking status after an absence.

A degree candidate must file an application for graduation through the online student portal by the deadline provided by the Office of the Registrar. A graduation application fee will be incurred and must be paid prior to graduation. Applications for graduation are available in the Office of the Registrar.

If a student applies for graduation and pays the graduation fee, but subsequently fails to meet degree requirements, a new application must be submitted by the deadline for the semester or term in which the degree requirements are completed. The original graduation fee will be applied to the new application.

Candidates must clear all incomplete grades in courses required for graduation and provide transcripts of all transferred coursework needed for graduation at least eight weeks prior to the end of the semester or term of graduation.

A satisfactory program audit and exit and/or comprehensive exam scores must be on file with the Office of the Registrar, all financial obligations with the University must be satisfied, and all degree program requirements must be met prior to degree conferral. A student on academic probation or otherwise academically deficient will not be eligible to apply for the graduation until the condition of probation or deficiency is resolved and the student is in good standing.

Application for Graduation Process

1. Submit an Application for Graduation form in the online student portal (JICS) prior to the deadlines listed in JICS.
2. After the add/drop period of the semester the student applies to graduate, they will be reviewed by the Office of Academic Advising. A second review will be completed by the program coordinator or department chair to confirm the student is eligible for graduation.
3. The student's graduation status will be indicated in JICS on the Graduation Tab once the 2nd review is complete.

NOTE: A student is not classified as a candidate for graduation until the graduation application has been received, and an official audit is completed and approved by the Office of Academic Advising and the Program Coordinator/ Department Chair.

Graduation Degree Audit Policy

Students who have earned the appropriate number of credit hours and are within one semester of graduation must file an Application for Graduation form through MyPortal (JICS). A Graduation Degree Audit will be reviewed and approved by the Office of Academic Advising and the student's academic advisor, program chair, director, coordinator, or college dean (per department policy) after the add/drop deadline of the semester the student applies to graduate.

A degree audit is an outline of degree requirements based on a specific catalog year that enables the student and his/her advisor to assess the student's academic progress and additional coursework needed to fulfill the graduation requirements. An audit is a valuable tool in guiding students in the right direction toward academic planning, course selection, and degree completion.

Graduation Requirements

To receive a graduate degree from Southeastern University, students must meet the minimum graduation requirements set forth by the University along with specific requirements established by the degree program. Each individual degree may specify additional requirements; the University Catalog lists these requirements under the respective degree programs.

The student is responsible to know and comply with the regulations and requirements contained in the catalog(s). Graduate academic advisors are helpful in preparing degree plans and assisting students in their degree progress, but the primary responsibility is the student's. The following are the minimum requirements for all programs:

1. Completion of an approved program of study (programs are described in Programs of Study)

2. For master's degree: completion of all undergraduate prerequisites or corequisites as applicable to the program of study with a minimum cumulative grade point average of 3.0.

3. Successful completion of required hours for the chosen graduate program with a minimum cumulative grade point average of 3.00 on a 4.00 scale computed on all graduate work taken at Southeastern University or transferred.

1. No course with a grade of less than B (3.0) will be accepted as transfer credit.

2. Any course in which a grade of C- or less was received may be repeated no more than one time for grade forgiveness.

4. Completion of all degree requirements, which were in effect at the time of the student's initial entrance into the program or which are currently in effect – within a period of seven years for master's programs and six years for doctoral programs.

5. Approval by the graduate faculty for graduation as certified by the dean of the college in which the program is offered by completion of an approved Graduation Degree Audit and filing the audit report with the Registrar.

6. Discharge of all financial obligations to the University. All financial holds must be cleared.

7. The filing of all necessary forms including the Application for Graduation in accordance with the timetable provided in the program schedule.

8. For master's degrees: successful completion of the graduate program's comprehensive examination(s), if any. These examinations are taken in the final semester or term of the program.

9. Successful completion of the graduate program's specific thesis, dissertation, or capstone project requirements, if any, including the successful completion of the oral defense of the thesis, dissertation, or project, if required.

1. 10. Successful completion of the residency requirement, if required.

Adornment

Cords, medallions and stoles are the only graduation adornments that graduates will be allowed to wear at official commencement ceremonies of Southeastern University without written approval. Requests for other forms of adornment must be submitted to the Office of the Provost no later than 21 days prior to commencement.

Honor cords should represent high academic achievement by graduates as recognized through their respective departments and colleges. Non-academic cords that have been awarded by University representatives may also be worn.

- Undergraduate-level students are allowed to wear a maximum of three adornments (cords, medallions, or stoles) for all commencement ceremonies

- Graduate-level students are allowed to wear SEU awarded cords and medallions at commencement ceremonies. However, stoles are not permitted.

Non-academic adornment: Graduates seeking approval to wear non-academic adornment, such as cultural representations, must submit a written request and photo of themselves wearing the adornment to the Office of the Provost no later than 21 days prior to commencement in order for the request to be processed. This privilege is for graduates only. Careful consideration will be given to all requests; however, approval is not guaranteed. Guidelines for consideration include the following.

Adornment:

- Must lay flat around the neck
- Must be no more than 5" in width
- Must be of a length that is appropriate for commencement attire
- Must be consistent with SEU's message & mission
- Headdresses and/or attachments to graduation cap or gown will not be allowed
- Representation of political affiliation or controversial subject matter will not be allowed

Academic Advising/Major Declaration/Career Services

Academic Advising

The Office of Academic Advising provides comprehensive services to help students achieve academic success. Academic advising is an interactive process in which the advisor helps the student set and achieve academic goals and make responsible decisions consistent with degree requirements. Advising is personalized to consider the needs of each student, which may include appropriate referral services. Academic advisors serve as a guide to students along their academic journey, but it is the student's responsibility to know and meet the program requirements of their declared major.

Academic Advisor Assignment

All degree-seeking, undergraduate students are assigned an academic advisor within the Office of Academic Advising. The assigned academic advisor may be based on a student's major or location. Students can view their assigned academic advisors on the university's student information system (JICS).

Academic advisors will help students plan an educational program consistent with their interests and abilities, assist students by monitoring their academic progress using the JICS degree audit, advise students on course selection which moves students toward graduation, refer students to university services as needed, and help students understand university policies and procedures.

Graduate Academic Advising

Upon acceptance into a graduate program, each student will be assigned an individual with expertise in the chosen field to serve as the student's academic advisor. The student is responsible for corresponding with the academic advisor based on program protocol during enrollment in the program. The academic advisor's role is to assist the student in academic program planning.

Degree Audit (JICS)

All enrolled students are provided an electronic degree audit within the university's student information system (JICS). The degree audit is used as an internal document to communicate the student's degree requirements to the student, Office of Academic Advising, and Office of the Registrar.

The degree audit is a personalized document listing the student's degree program requirements based on their declared catalog year. The audit provides up-to-date course information listing in progress, met, and unmet requirements. It is the student's responsibility to review their degree audit on a regular basis. Students should utilize the JICS degree audit as an advising tool, to assist in registration planning, tracking course requirements, and monitoring progress toward degree completion and graduation.

Declaration of Major(s) and/or Minor(s)

Every student who is accepted for enrollment as a degree-seeking student should declare their major as soon as possible, for the best advisement and degree plan. Your initial indication of a major or interest in a major based upon your admission application will be honored. A student may change his/her program of study by filing a new Declaration of Major form at any time during his/her period of enrollment. Change of major may place a student under different catalog requirements and may impact federal financial aid eligibility. Counsel from academic advisors and student financial services counselors is encouraged.

If a student chooses to declare more than one major, course credits earned may be used to meet the same requirements of both declared majors. This multiple-use policy has only one limitation and that is the student must meet the appropriate number of credit hours for his or her primary major, or major requiring the highest number of credit hours. If a student chooses to declare a major and a minor within the same discipline, a maximum of six credit hours may be applied toward both the major and the minor; twelve or more unique credit hours must be earned in the minor separate from the major. Students must earn 25% of their minor, equivalent to six credit hours, at Southeastern University. The dean or department chair over the minor may grant exceptions to this policy, on a case-by-case basis.

Graduate Declaration of Degree and Changing Programs

Every student who is accepted for enrollment as a degree-seeking graduate student must declare their degree on the admission application specific to that program. Any changes in graduate degree following initial enrollment must be arranged and approved by the student's academic advisor and the chair, director, or coordinator of any new degree program in advance of any semester being considered for this change. Descriptions of specific enrollment requirements for any graduate program are available in the Programs of Study on the website. Any approved changes in degree may then be officially entered by completing a Doctoral Program Declaration form with the Office of the Registrar.

The forms can be obtained through the chair, director, or coordinator of the program. Change of program may place a student under different catalog requirements.

Career Services

Our Career Services team at Southeastern University strives to nurture the student's divine design and empower them to successfully create a pathway between academic growth and career readiness.

While enrollment in the university or completion of a program does not guarantee employment, the Career Services team is dedicated to helping students and alumni make informed career decisions. We assist in discovering and leveraging their employable skills, gaining relevant career-related experiences, and preparing for a successful job placement. We provide career assessments, career coaching, resume preparation, internship and job search help, professional networking and career workshops, career expos and recruiting events.

Our goal, in collaboration with our SEU community, is to prepare our students for meaningful post-graduation academic and professional success.

Academic Condition/Expulsion/Recovery

Undergraduate Academic Condition Process

Undergraduate degree-seeking students must maintain a semester and cumulative GPA of 2.0 or higher to remain in good academic standing. Academic standing is evaluated by the Office of the Registrar. All students are notified via the @seu.edu email of their standing at the end of each fall and spring semester. Additionally, students can see their current standing in the Academic Condition Standing portion of MyPortal (JICS).

Students with a semester or cumulative GPA below 2.0 are placed on academic condition status and are no longer in good standing. Academic condition includes the following levels:

- Academic Notice (AN or IN) – Assigned to students with a semester GPA below 2.0 but a cumulative GPA above 2.0.
- Academic Probation I (P1 or I1) – Assigned when both semester and cumulative GPA fall below 2.0. Students on P1 are limited to a maximum course load of 13 credits for the next semester.
- Academic Probation II (P2 or I2) – Assigned when a student earns a 2.0 or higher semester GPA, but the cumulative GPA remains below 2.0. Students on P2 are also limited to a 13-credit course load.
- Academic Suspension (SU or IS) – Assigned if a student's semester and cumulative GPA remain below 2.0 after Academic Probation. Suspended students must sit out for one regular semester (fall or spring). If suspended at the end of the spring semester, they are ineligible to enroll in both summer and fall.

Appeals & Incomplete Grades

- Students placed on Academic Suspension may appeal their status. If the appeal is approved, they may return at the P3 level.
- Students with incomplete grades from the most recent semester will receive an "I" hold (IN, I1, I2, I3, IS).

For more details, refer to the Academic Condition Levels information chart and Academic Condition Standing in MyPortal (JICS).

Academic Expulsion

Permanent separation, or expulsion, from the University are to be decided by the Academic Condition Committee. Expulsions disallow future participation in University-wide academic programming. The Committee will review each case and make a decision. The student will be notified of the Committee's decision through email. Documentation of the expulsion will become part of the student's permanent academic record at the University. Expulsions will be considered based on factors that could include:

- repeated offense(s) of the University's Academic Integrity policy
- severe offense(s) of the University's Academic Integrity policy
- offense(s) with malicious intent or blatant disregard for the University's Academic Integrity policy
- lack of compliance/follow through with suspension sanctions

Students have the right to appeal the expulsion decision within 3 days. Appeals are submitted to the Committee then forwarded to the Provost for final decision. The student will be notified of the appeal decision through email. Documentation of the appeal decision and expulsion will become part of the student's permanent academic record at the University.

Non-Academic Expulsions

Permanent separation, or expulsion, from the University for non-academic reasons is to be decided by the Executive Director of Student Affairs for Conduct and a designated Decision Maker for Title IX. Expulsions disallow future participation in University-wide programming. The Executive Director of Student Affairs and Decision Maker for Title IX will review each case and make a decision. The student will be notified of the decision either face to face, when possible or through email if necessary.

Documentation of the expulsion will become part of the student's permanent transcript record at the University.

Expulsions will be considered based on factors that could include, but are not limited to:

- repeated offense(s) of the University's Conduct/Title IX policies
- severe offense(s) of the University's Conduct/Title IX policies
- offense(s) with malicious intent or blatant disregard for the University's Conduct/Title IX policies
- lack of compliance/follow through with previous sanctions assigned.

Students have the right to appeal the expulsion decision within 3 business days. Appeals are submitted to the Student Affairs Office then forwarded to the Senior Vice President of Student Development & Campus Services for final decision for Conduct or an appeal Decision Maker for Title IX. The student will be notified of the appeal decision via email. Documentation of the appeal decision and expulsion will become part of the student's permanent transcript record at the University.

Academic Recovery

The Academic Condition Standing page in MyPortal (JICS) provides information to degree-seeking undergraduate students enrolled at Southeastern University about their Academic Condition.

Students on **Academic Probation (P1, I1, P2, I2, or P3)** must complete the Academic Recovery Plan found in MyPortal (JICS) in order to remain enrolled in the upcoming semester.

Students on academic probation are limited to 13 credit hours per semester, so please work with your academic advisor to update your course schedule accordingly if you have already enrolled in more than 13 credit hours. Students that do not work with their academic advisor may be dropped from courses by the academic advisor in order to meet this limited load requirement.

Level 1 - Academic Notice (AN Hold - does not prevent self-registration)	**Level 2 - Academic Probation (P1 Hold - does prevent self-registration)**	**Level 3 - Academic Probation II (P2 Hold - does prevent self-registration)**	**Level 4 - Academic Suspension (SU Hold - the student must reapply through Admission to return)**
When semester GPA is less than 2.0 and the cumulative GPA is at or above a 2.0. Academic Notice may be repeated each semester that the cumulative GPA remains at or above 2.0 but the semester GPA is below a 2.0.	The first semester that the semester GPA and cumulative GPA are both below a 2.0. If a student placed on P1 does not earn a semester GPA of 2.0 or higher at the end of the P1 semester, they will not move on to level P2, but will be recommended for academic suspension. Students previously on probation (P1 or P2) that earned good standing will be placed on P1 again should the cumulative GPA fall below 2.0.	The P1 semester cumulative GPA is below 2.0 but the semester GPA is 2.0 or higher. To avoid academic suspension, the student must earn a semester GPA at or above a 2.0 at the end of the P2 semester to show academic progress. Students with a cumulative GPA below 2.0 who are making progress with a consecutive semester GPA at or above 2.0 will not be recommended for academic suspension. In this case, the student will remain on P2 until the cumulative GPA is at or above 2.0.	If the semester and cumulative GPA is below a 2.0 by the end of Level 3 (P2), or the semester and cumulative GPA is below a 2.0 at the end of Level 2 (P1), the Office of the Registrar will recommend the student for academic suspension. Students on academic suspension will be assigned specific academic criteria they must meet in order to be eligible to reapply in a future semester to SEU.

Federal regulations require students to maintain satisfactory academic progress in order to remain eligible to receive financial aid. ***Your academic probation/ suspension may indicate you are also at risk for losing all or a portion of your federal, state, or institutional financial aid.*** *To determine if you are at risk, please contact* ***Student Financial Services*** *(sfs@seu.edu) to ensure you have all the information you need for your next steps.*

Academic Intervention Initiative

Academic Center for Enrichment (ACE) administers a process in which students in jeopardy of failing courses are identified via Power BI. This intervention initiative occurs during weeks 3, 6 and 9 of the semester. Students who are identified in the initiative are encouraged to participate in tutoring at ACE or through our online tutoring provider for subjects that directly relate to their status.

Willingness to participate in the At-Risk Intervention Initiative on the part of the student will be considered in the probation/suspension process.

Graduate Academic Probation

Academic probation is imposed for one semester or term. The student will remain on academic probation until he or she attains a cumulative grade point average of 3.0 or higher. Probationary status permits the student to continue in the program while working with his or her academic advisor to address deficiencies and take corrective action for improvement. The student will participate in an Academic Recovery Plan or a similar process as defined by the academic program.

Academic Probation may be imposed when:

1. A student fails to attain a cumulative 3.0 average at any point, OR
2. A student earns a D-, D or D+ in any course regardless of cumulative GPA, OR
3. A doctoral student violates the academic integrity policy during course work, but before the dissertation/capstone phase (see Academic Integrity, Doctoral – Consequences and Levels of Offense).

A master's level student placed on academic probation may not enroll for more than 6 semester hours.

Other remediations may be imposed at the discretion of the program chair, director, or coordinator.

Suspension, Academic

A student may be suspended from the program for one semester or term for failing to maintain academic progress standards. In this event, a letter of notification is issued to the student, and a permanent entry is recorded on the student's transcript.

While suspended from the degree program on academic grounds, a student may reapply as a non-degree seeking student to attempt to improve his or her cumulative grade point average (GPA) by repeating courses in which a grade of less than B- has been earned. If the student's cumulative GPA reaches 2.5 or higher, and any courses with an F have been repeated with a grade of at least C- earned, the student may apply for readmission to the degree program. Readmission is not guaranteed; students who reapply with 2.5-2.9 cumulative GPA will be readmitted on probation status.

Academic Suspension may be imposed in the following circumstances:

1. A student earns an F, OR
2. A doctoral student violates the academic integrity policy during the dissertation/capstone phase (see Academic Integrity, Doctoral – Consequences and Levels of Offense). OR

if a student is on probation:

3. the student fails to attain a semester GPA of 3.0 by the end of a semester or term, OR
4. the student fails to attain a 3.0 in any course while on probation, OR
5. the student's cumulative GPA falls below 2.5.

Appeal for Academic Suspension

A student may appeal an academic suspension to the Program Coordinator and Registrar if there are valid extenuating circumstances that contributed to the poor academic performance. The student must submit a written appeal with supporting documentation in care of the Registrar within one week of notice of pending suspension. If the appeal is granted, the student will be permitted to continue enrollment without a period of suspension or will be readmitted after the student has completed a period of suspension. The student must agree to a set of conditions that must be met until the student has successfully raised the G.P.A. to the minimum of 3.0. If the student fails to meet one or more of the conditions, a dismissal notice will be issued.

Appeals Process

Appeal for Course Registration Decisions

Changes to course registration after the drop/add deadline are not permitted without a written appeal from the student to the Registrar. The appeal must contain reasons that justify such an exception to the deadline. The outcome of a student appeal request will be based on the student's attendance in the course, financial aid award, the point in time during the semester, and other contributing factors. A class that has been attempted cannot be dropped without an approved written appeal.

The Appeal of Final Grade

Section A: Graduate students have a right to appeal only a final grade. The grade assigned by the instructor is assumed to be correct. An instructor's professional judgment in assigning a specific grade will not be considered during an appeals process.

Graduate students may appeal a final grade under the following circumstances:

1. Course work was assessed according to a grading policy that differed from the announced and established course grading policy.
2. Grading procedures were applied inaccurately or with error.
3. An alleged deviation from the University syllabus policy that could have impacted the final grade occurred.

Section B: Students must initiate an appeal of a final grade within thirty (30) business days of the final grade posting and must follow the steps of appeal enumerated as follows:

1. Step 1. The student must contact, in writing, the instructor who issued the final grade to appeal the final grade. The instructor has ten (10) business days to respond to the student's appeal and render a decision. If the student wishes to appeal the instructor's decision, or if the instructor is not available, the student will proceed to Step 2. However, there are the following two exceptions.

1. If the course instructor is also the department chair, the student will skip Step 2 and proceed to Step 3. The dean of the college will render the final decision for the appeal.
2. If the course instructor is also the dean of the college in which the course is housed, the student will skip Step 2 and follow the exception clause in Step 3. In only this case, the final appeal level is the provost (see Step 3 exception).

2. Step 2. If the student wishes to appeal the instructor's decision and the instructor is not the department chair or the dean of the college in which the course is housed, the student must contact the department chair in writing within five (5) business days of receiving the instructor's final grade appeal decision. The written appeal sent to the department chair must identify which of the enumerated circumstances in Section A form the basis of the final grade's appeal. The student must provide all relevant information to support the case for appeal when contacting the department chair. The department chair will make reasonable efforts to work with the instructor and the student to understand the issue before rendering a decision on the final grade's appeal. The written decision of the department chair will be forwarded to the student and the instructor within twenty-one (21) business days from the date of receiving the student's initial written appeal. If the student is dissatisfied with the outcome, the student may proceed to Step 3 of the process, which is the final level of appeal.
3. Step 3. This final level of appeal must be initiated by the student within five (5) business days of receiving the department chair's decision. The student must contact, in writing, the dean of the college in which the relevant course is housed to appeal the department chair's decision. The dean will review all documentation and consider the student's concerns. The dean may request additional documentation from the instructor, the department chair, and the student. The dean will issue a written decision, including a concise and explicit written statement that explains the basis for the decision, within twenty-one (21) business days of receiving the student's written appeal or any additional relevant documentation requested by the dean. The dean's decision is final, and no additional level of appeal is available to the student.

Step 3 exception: If the dean is also the course instructor, the final appeal will be addressed by the provost. The provost will review all documentation and consider the student's concerns. The provost will issue a written decision, including a concise and explicit written statement that explains the basis for the decision, within twenty-one (21) business days of receiving the student's written appeal or any additional relevant documentation requested by the provost. The provost's decision is final, and no additional level of appeal is available to the student.

Appeal for Readmission under Academic Suspension

The University recognizes that extenuating circumstances may occur which are beyond the student's control and which contribute to the student's poor academic performance. A graduate student may appeal an academic suspension in writing, addressed to the program coordinator. The student must submit a written appeal with supporting documentation for review within 5 days of the suspension notice. A readmitted student must agree to a set of conditions that must be met for continued enrollment. If the student fails to meet one or more of the conditions, a dismissal notice will be issued. The program coordinator will inform the student and the registrar of the decision within five workdays of receipt of the appeal.

Appeal for Transfer Credit Decisions

A student may appeal a transfer credit decision to the dean of the college in which the program is offered. The student must submit a written appeal with supporting documentation for review. The student must submit an appeal within five working days of receiving notice of the transfer credit decision. The dean of the college in which the program is offered will inform the student of the decision of the appeal.

Student Appeal and Complaint Policy

A student who has an unresolved issue in a course or program after communicating with the professor directly and has not received satisfactory answers related to degree completion, transfer of credit, advising questions, or non-response may appeal to the program chair regarding the matter. If the issue is still unresolved following the meeting with the program coordinator, the student may appeal to the dean of the college for a resolution. The decision of the dean is final.

Academic Policies

Doctoral Candidate

A student in any doctoral program at Southeastern University becomes a doctoral candidate after the following criteria are met:

1. All doctoral-level course work, except dissertation/project, is completed AND
2. All sections of the comprehensive exam (if a comprehensive exam is required by the program) have been successfully completed with a “P” (Pass) grade.

Comprehensive Exam Policy

During the last semester of program coursework, doctoral students will take a written comprehensive examination according to their program requirements (if a written comprehensive exam is required by their program). Students may take the comprehensive exam once (no repeats are allowed). However, if a student fails any portion of the written comprehensive exam, he or she may complete an oral defense of each failed portion of the comprehensive exam.

Oral Defense of Comprehensive Exam Time Limit

If a student wishes to complete an oral defense of a comprehensive exam, the student is responsible to make arrangements with the program chair, director, or coordinator to schedule the oral defense of the failed portions of the comprehensive exam. A student will be required to complete an oral defense of each failed portion of the comprehensive examination within 30 business days of being notified of the written comprehensive exam results. A business day is defined according to the official university calendar. Specifically, weekends and university holidays are not considered business days. All failed sections of the written comprehensive exam must be defended during a single oral defense. A student is allowed only one attempt to defend any failed section of the comprehensive exam. A student who is unsuccessful in the oral defense of any portion of the comprehensive exam, or who does not complete an oral defense within 30 business days of notification of failure, will not be allowed to proceed to doctoral candidacy. A student who is unable to proceed to doctoral candidacy will be dismissed from the program.w subpage content

Academic Policies

International Student

International students applying for admission to any Southeastern University graduate program must meet all normal requirements for admission to those programs.

Additional requirements are as follows:

1. Course-by-course transcript evaluation completed through a third-party such as www.jsilny.com or www.wes.org. This is required in order to confirm the completion of your undergraduate degree outside the United States.
2. Copy of passport
3. Copy of most updated visa is applicable
4. If you live in a country where English is not the primary language, we would then require either the TOEFL exam with an IBT: 76 or higher, or the IELTS with a band score of 6.0 or higher.
5. Affidavit of Support Letter
6. Supporting Financial documents (bank statements, proof of income, etc.)

An international student must have completed a program equivalent to the baccalaureate degree (for master’s programs) or master’s degree (for doctoral programs) in the United States. International credentials must be evaluated by an independent evaluation service. Certified translation of all documents must also be provided, if necessary. The cost for these services must be paid by the applicant. For a list of qualified evaluators go to http://www.naces.org/members.htm or contact the Admission Office.

An I-20 for non-resident aliens will not be issued until all documents for admission have been received and approved. International applicants are expected to make applications well in advance of their projected enrollment date. In accordance with immigration regulations, international students must carry a full academic load each semester. Any changes in schedule must be approved by the International Student Coordinator.

Student Visa Status (F-1 Visa)

Southeastern University, including its NorCal Campus, is authorized under federal law to enroll nonimmigrant students and does vouch for student visa status by issuing Form I-20 to eligible F-1 visa applicants at both its Lakeland, Florida, and Modesto, California, campuses. Prospective international students seeking to study under an F-1 visa must meet all admissions requirements and maintain full-time enrollment in compliance with all applicable visa regulations. At this time, these are the only SEU instructional sites approved to enroll F-1 students.

Academic Policies

Veterans Education Benefits

Southeastern University is approved by the State Approving Agency of the State of Florida for the education and training of veterans and eligible dependents under public laws in effect. Students who are eligible for educational benefits under any Veterans Administration program should first apply for a Certificate of Eligibility on ebenefits.va.gov and provide a copy of the form to the Student Financial Services Office. **The VA will not cover face to face classes, with the exception of the PMIN Ministry Practicum, for any students attending at one of our partner sites outside the state of Florida.**

All information, instructions, and procedures are provided on the website:https://seu.edu/admission/financial/veterans/

Students must complete a VA Request for Certification form each year for Southeastern University to provide enrollment certification to the Veterans Administration. Enrollment certification is completed after the drop/add period of each term or semester, whichever is applicable to a student’s delivery. The student is responsible for notifying the certifying official at Southeastern University of any enrollment changes such as adding classes, withdrawing and/or dropping courses, or termination of enrollment from the university. The VA student is responsible for any overpayment of benefits resulting from a change in enrollment. The VA toll-free number for questions is 1-888-GIBILL1 (888-442-4551).

Educational Benefits are paid based on the enrollment dates of each session or semester. For example: Eight Week courses are paid at the start of each term. These semester hours do vary and differ for our non-traditional student population. A student cannot receive educational benefits for audit courses. VA regulations require that students take courses that apply to their degree program, make satisfactory academic progress toward their degree, and maintain satisfactory attendance for the degree program as stated in the Standard of Progress. Students using VA educational benefits are required to submit all transcripts from prior higher education institutions for evaluation of course credit. Veterans' benefits will be terminated for students who fail to make satisfactory academic progress, or who receive dismissal for academic or disciplinary reasons.

Southeastern University is a participant in the Yellow Ribbon Program and will match the charges covered through Yellow Ribbon up to $1200. Yellow Ribbon funding applies once the Post 9/11 GI Bill® has paid the yearly maximum amount of billable charges.

How does a student's financial aid interact with the Post 9/11 GI Bill®?

In general, only Title IV Federal Aid (Pell, SEOG, Direct loans, and PLUS loans) will not be affected by VA benefits in any way. In some cases, the student will be refunded Pell Grant and/or student loans, or they will be applied toward other expenses like room and board, if applicable.

Other financial aid designated will be applied to a student's total cost of attendance. The student should not expect any refund of SEU scholarships/grants or any other financial aid source, with the exception of Title IV Federal Aid.

Southeastern University VA Representative(s):

Natalie Wolfe, VA Certifying Official/Associate Director of SFS (nlwolfe@seu.edu)

Joshua Breed, VA Certifying Official/Associate Director of SFS (jabreed@seu.edu)

Military Tuition Assistance

Southeastern University is also approved by the Department of Defense to accept military tuition assistance. Students using tuition assistance should first check with their Education Service Officer (ESO) within their military unit for tuition assistance approval. Military tuition assistance is processed after the add/drop period for each semester.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website at http://www.benefits.va.gov/gibill.

Academic Policies

Student Services

Student Conduct:

The office of Student Conduct believes that every student has a journey. That journey is either taken alone or with others. When you enter the disciplinary process, we assess your individual situation and connect you with resources through our campus and outside the community so that they too, may journey alongside you.

P: (863)667-5486 E: studentconduct@seu.edu

Safety & Security:

Campus security officers are available at the office 24 hours a day, seven days a week. You can obtain a parking permit, report suspicious behavior or request an escort across campus after dark. Questions about parking violations should be directed to this office.

P: (863)667-5190 E: security@seu.edu

Retention:

The Office of Student Success and Retention is committed to guiding and supporting students who may be navigating a variety of life transitions impacting their ability to continue their studies at Southeastern University.

P: (863)667-5668 E: retention@seu.edu

ADA:

Academic and Auxiliary Services (ADA) offers a variety of support services to increase students' academic success

P: (863)667-5286 E: adaservices@seu.edu

ACE:

The goal of ACE is to help you succeed academically and to enrich your learning experience. ACE personally invites you to come receive encouragement and acquire the tools you need to maximize your ability as a student at Southeastern.

P: (863)667-5137 E: ace@seu.edu

Academic Policies

Institutional Review Board

Purpose

The Southeastern University Institutional Review Board (SEU IRB) was established to safeguard human subjects in research by protecting their rights and promoting the ethical and responsible treatment of research subjects. SEU IRB policy requires that all research involving human subjects conducted under the auspices of SEU must be reviewed and approved by the IRB before the data-gathering phase may commence. The SEU IRB upholds and applies the ethical principles of The Belmont Report and operates in compliance with federal law outlined in the Code of Federal Regulations Title 45 Part 46 (45 CFR 46) in compliance with state laws and college policies.

All research involving human subjects that is conducted at or sponsored by Southeastern University (SEU), whether funded or unfunded and whether conducted by SEU faculty or others, must comply with applicable policies for the protection of human subjects. Under a formal assurance made by SEU and approved by the federal Office for Human Research Protections (OHRP), and per federal regulations, the Institutional Review Board (IRB) is given broad authority and wide-ranging responsibilities for ensuring the ethical and legal conduct of human subjects research at SEU. The IRB follows widely accepted ethical principles, legally binding federal regulations, campus policies, procedures, and practices, and other guidelines in carrying out this important responsibility.

The SEU IRB, while performing administrative functions of the IRB, also serves as the official oversight office for human subjects research. The chair of the IRB is the central point of contact for investigators, research subjects, and regulatory agencies. The IRB Office is responsible for organizing and documenting the IRB review process, monitoring research regulations, producing educational programs and materials for faculty and staff, and providing assurance that SEU is in compliance with federal, state, and campus policies. The IRB Chair is appointed by the office of the university Provost. The Chair of the IRB is the federally authorized institutional official charged with overseeing human subjects research and IRB functions at SEU.

This IRB policy applies to any human subjects research activity that is conducted by any SEU employee or agent, or otherwise conducted at or sponsored by SEU, irrespective of the risks, scope, funding, or location of the research. The policy is applicable to research involving living human beings whose physical, emotional, or behavioral conditions, responses, speech, tissues, or fluids are investigated for research purposes. It is applicable to the use of interviews, tests, observations, and inquiries designed to elicit or obtain nonpublic information about individuals or groups. It also applies to the study of existing records where the identity of individuals is known or could be readily ascertained – if the information was provided by the individual(s) under the reasonable expectation that it would not be made public (e.g., a medical record).

The IRB policy is applicable to research undertaken on either a large or small scale, whether it is externally funded, internally funded, or not funded, regardless of where it occurs. Pilot projects, student research projects, student theses, and independent study projects must follow this policy if they involve human subjects.

Southeastern University recognizes its basic responsibility to ensure the protection of human subjects. To this end, it has adopted the following statement of policy applicable to all research involving human subjects that is conducted at or sponsored by the SEU or conducted by any SEU employee or agent:

1. Anyone responsible for such research must:
    1. adhere to the principles of respect for persons, beneficence, and justice embodied in the Belmont Report, a statement of basic ethical principles governing research involving human subjects issued by the National Commission for the Protection of Human Subjects in 1978;
    2. adhere to all SEU policies and procedures related to human subjects research; the policy and IRB Submissions can be downloaded from https://seu.edu/academics/institutional-review-board/
    3. adhere to the policies, principles, and procedures set forth in the SEU's Federalwide Assurance, on file with the Chair of the IRB at SEU; and
    4. adhere to all applicable federal, state, and local requirements for the conduct of human subjects research.

2. The decision of human subjects to participate in research governed by this policy must meet the standards of informed consent. If children are involved as subjects and are capable of assent, their assent to participate must be solicited in addition to the consent of their parents. The decision to participate must be:
    1. voluntary—it must occur as the result of free choice, without compulsion or obligation;
    2. based on full disclosure of the information needed to make an informed decision about whether to participate; and
    3. based on the subject's comprehension of the information provided.

3. The selection of research subjects must be fair. Subjects should not be selected for potentially beneficial research based on favoritism, nor should risky research be targeted to subjects who are less powerful.

4. The procedures for recruiting subjects must protect their privacy and be reasonable in terms of their conditions or circumstances. No coercion, explicit or implicit, should be used to obtain or maintain cooperation.
    1. Any payment made to subjects should not be so large as to constitute excessive inducement for participation.
    2. When access to subjects is gained through cooperating institutions or individuals, prior commitments made to the subjects about confidentiality or other terms of the primary relationship should not be abridged.

5. Risks to subjects must be minimized and should be justified by the anticipated benefits to the subject or society.

6. Adequate provision must be made to protect the privacy of subjects and to maintain the confidentiality of identifiable information.

7. Proposed research involving human subjects must be reviewed by the SEU Institutional Review Board (IRB).

8. Researchers must submit the Request for IRB Review of Research Involving Human Subjects form to the IRB for review and approval.

9. Prior to submitting a proposal to the IRB, the Responsible Principal Investigator [RPI] and all investigators must complete the tutorial on research with human subjects located at https://www.seu.edu/irb/citi-training. A copy of the completion certificate must be included with the IRB 1 for non-exempt research or the IRB E for exempt research.

10. Approval for conducting research with human subjects must be obtained prior to any involvement of subjects. All approved projects must be periodically re-evaluated.

11. If the researcher is a student, his or her department chair or research advisor will be responsible for reviewing the exempt proposal and submitting it as an electronic copy and hard copy to the Chair of the IRB for Human Participants. The proposal should be submitted at least 2 weeks prior to the proposed beginning of the study. Researchers are not authorized to proceed with the proposed study until they receive notification from the IRB Chair.

12. This policy does not generally apply to the routine course, workshop, or curriculum development using accepted educational practices sponsored by the Southeastern University or services provided by professionals to their clients.

Composition Policy

The Institutional Review Board (IRB) at Southeastern University (SEU) will consist of a minimum of five primary voting members sufficiently qualified through experience to promote respect for its advice and counsel in safeguarding the rights and welfare of human subjects. The University will make every effort to have a diverse IRB through consideration of profession/discipline, race, ethnicity, cultural background, and gender.

Exempt Policy

Southeastern University's policy for the Protection of Human Subjects in Research, requires that, prior to initiation of any human subjects research related activities (i.e. prior to recruitment of subjects and data collection), all research involving human beings as subjects of research, including research with human material (e.g., pathological and diagnostic specimens) obtained from living individuals, be reviewed and approved by the IRB.

Research activities in which the only involvement of human subjects will be in one or more specific categories, which are listed in section 1.1 of the Exempt Policy, may qualify for exempt status review. Determination of exempt status must be based upon regulatory and institutional criteria and the exemption decision must be documented. Determination of exempt status must be conducted by one or more of the Permanent Members (PMs), or their designee. No investigator or department shall have the authority to make this decision.

Exempt research must be of minimal risk to the subjects, have a sound research design, and be conducted ethically, meaning that at a minimum the principles outlined in the Belmont Report must be met. The IRB members making the exemption determination may require protections to meet these principles, including informed consent appropriate to the research, or review at a convened meeting of the IRB. No research involving, or potentially involving, prisoners as subjects may be classified as exempt under the categories listed in the Exempt policy. Refer to the Exempt policy on the SEU IRB webpage.

Expedited Policy

An expedited review procedure consists of a review of research involving human subjects by one or more of the Permanent Members (PMs) of the IRB and one or more reviewers designated by the Chair from among members of the IRB without convening a meeting of the full IRB. The IRB Chair or Co-Chair will disseminate the applications based on the experience and expertise of the respective IRB members. The categories of research that may be reviewed by the IRB through an expedited review procedure include research activities that (1) present no more than minimal risk to human subjects, and (2) involve only procedures listed in one or more of the categories authorized by 45 CFR 46.110 and listed in section 1.1 of the Expedited Policy. For more information, refer to the Expedited Policy on the SEU IRB webpage.

Collaborative Institutional Training Initiative

Completion of the appropriate training course via the Collaborative Institutional Training Initiative (CITI) Program is a prerequisite for IRB review. Students are encouraged to complete training immediately. The entire application process will be much easier if students complete the training course before working on the request for review.

Guiding Principles and Applications from The Belmont Report

Southeastern University is committed to the ethical conduct of research and has adopted the ethical standards of The Belmont Report. The principles and applications found in The Belmont Report excerpted below to provide context for understanding the need for review. The report articulates ethical principles to be applied in the human subjects research setting and explains in a general way how the principles apply.

Principle: Respect for Persons

Incorporates at least two ethical convictions: first, that individuals should be treated as autonomous agents and, second, that persons with diminished autonomy are entitled to protection. The principle of respect for persons thus divided into two separate moral requirements: the requirement to acknowledge autonomy and the requirement to protect those with diminished autonomy.

Application: Informed Consent

Respect for persons requires that subjects, to the degree, that they are capable, be given the opportunity to choose what shall or shall not happen to them. This opportunity is provided when adequate standards for informed consent are satisfied.

Principle: Beneficence

Persons are treated in an ethical manner not only by respecting their decisions and protecting them from harm but also by making efforts to secure their well-being. Such treatment falls under the principle of beneficence. The term “beneficence” is often understood to cover acts of kindness or charity that go beyond strict obligation. In this document, beneficence is understood in a stronger sense, as an obligation. Two general rules have been formulated as complementary expressions of beneficent actions in this sense: (1) do not harm and (2) maximize possible benefits and minimize possible harms.

Application: Assessment of Risks and Benefits

The assessment of risks and benefits requires a careful arrayal of relevant data, including, in some cases, alternative ways of obtaining the benefits sought in the research. Thus, the assessment presents both an opportunity and a responsibility to gather systematic and comprehensive information about the proposed research. For the investigator, it is a means to examine whether the proposed research is properly designed. For a review committee, it is a method for determining whether the risks that will be presented to subjects are justified. For prospective subjects, the assessment will assist in the determination of whether to participate. Furthermore, this benefit must outweigh the risks.

Principle: Justice Requires That People Be Treated Fairly

Researchers should not take from research participants without giving back.

Application: Selection of Subjects

Just as the principle of respect for persons finds expression in the requirements for consent and the principle of beneficence in risk/benefit assessment, the principle of justice gives rise to moral requirements that there be fair procedures and outcomes in the selection of research subjects.

Important Factors

Based on the principles and applications of The Belmont Report and 45 CFR 46, a wide array of factors is considered by the SEU IRB during a review of proposed research. Students will be asked to provide documentation regarding informed consent and the selection of subjects. One of the most important factors, related to the principle of beneficence, is the design or protocol of the research project. A key factor in the approval/disapproval decision by the SEU IRB is based on weighing the benefits of the research (as defined above) against the risks to participants. All research projects pose some risk of harm to participants, so the weight assigned to risk in any review is never zero. However, if the design of the research project is flawed, then hypotheses cannot be tested, research questions cannot be answered and no contribution to generalizable knowledge is possible. The benefit side of the benefit-to-reward ratio is given a weight of zero. In this circumstance, even though the risk to subjects is minimal, the proposed research will not be approved.

It is important that research proposals submitted for review clearly articulate the potential benefits of the research and provide sufficient information regarding the design of the research so that the capacity of the research to provide the benefit is established as well as that risks to subjects are clearly identified and addressed.

IRB Reviews

The IRB reviews proposals that constitute research, as defined by the U.S. Department of Health and Human Services Code of Federal Regulations and The Belmont Report. Research, according to The Belmont Report, “designates an activity designed to test a hypothesis, permit conclusions to be drawn and thereby to develop or contribute to generalizable knowledge (expressed, for example, in theories, principles and statements of relationships). Research is usually described in a formal protocol that sets forth an objective and a set of procedures designed to reach that objective.” In the Code of Federal Regulations (45 CFR 46.102), research means a systematic investigation, including research development, testing, and evaluation, designed to develop or contribute to generalizable knowledge.

Human subjects, sometimes referred to as participants, are living individuals about whom an investigator or investigators (whether professional or student) in the course of research obtain (1) data through intervention or interaction with the individual or (2) identifiable private information.

Use the decision tree located on the SEU IRB website to help you determine whether your project requires an IRB review.

Levels of Review

The levels of review are exempt, expedited and full.

Level 1:

Exempt Review

Certain research projects may be exempt from review. An experienced member of the IRB will conduct a review of the Request for Exempt Review and determine if the proposed research qualifies. There are two criteria the proposed research must satisfy in order to qualify for review via exempt procedures.

1. The research must not pose greater than a minimal risk of harm defined as the probability and magnitude of physical or psychological harm that is normally encountered in daily life or in the routine medical, dental or psychological examination of healthy persons.
2. The research must be classified into at least one of the exempt categories defined by federal regulations and listed below.

- Education research
- Surveys, interviews, educational tests, public observations (that do not involve children)
- Studies of public officials
- Analysis of previously collected anonymous data
- Public benefit or service program
- Consumer acceptance, taste, and food-quality studies

If you believe your research satisfies one of the exempt categories above, you may indicate “exempt” for the type of review requested on the application form. The IRB will review requests for exemption and decide if an exemption is warranted. If the exemption is not granted, it will be necessary to apply for an expedited or full review.

Level 2:

Expedited Review

Expedited review as defined by federal regulations allows the IRB chairperson (or an experienced member or a subcommittee of the IRB designated by the chairperson) to evaluate and approve specific types of research. Reviewers conducting an expedited review may exercise all the authority of the IRB, except that they may not disapprove a study. When a board member or subcommittee cannot approve the research under expedited review, the study is referred to the full committee for review.

In order to qualify for review via expedited procedures, two criteria must be met: (1) The research must not pose greater than minimal risk to participants, and (2) it must fall into at least one of the expedited categories defined by the federal regulations. An expedited review procedure is not applicable for research projects where identification of the subjects and/or their responses is reasonably construed to place them at risk of criminal or civil liability or be damaging to the subjects’ financial standing, employability, insurability or reputation, or be stigmatizing unless reasonable and appropriate protections will be implemented so that risks related to invasion of privacy and breach of confidentiality are no greater than minimal risk.

Federally defined expedited categories:

- Clinical studies of drugs and medical devices only when certain conditions are met
- Collection of blood samples by finger stick, heel stick, ear stick, or venipuncture in certain populations and within certain amounts
- Prospective collection of biological specimens for research purposes by noninvasive means
- Collection of data through noninvasive procedures (not involving general anesthesia or sedation) routinely employed in clinical practice, excluding procedures involving X-rays or microwaves
- Research involving materials (data, documents, records or specimens) that have been collected or will be collected solely for non-research purposes
- Collection of data from voice, video, digital or image recordings made for research purposes
- Research on individual or group characteristics or behavior or research employing survey, interview, oral history, focus group, program evaluation, human factors evaluation or quality assurance methodologies
- Continuing review of research previously approved by the SEU IRB

If you believe your research satisfies one of the expedited categories above, you may indicate “expedited” for type of review requested on the application form.

Level 3:

Full Committee Review

Proposed human subject research which does not fall into either the exempt or expedited review categories must be submitted for full committee review.

Submission Deadlines

Application submission deadlines are as follows:

- Full board review: 15th of every month
- Expedited or exempt review: 1st OR 15th of every month

See the SEU IRB website to access the application for requesting an IRB review.

Violations

IRB approval is required before any recruitment or data collection can occur. If a violation of this policy occurs, the IRB reserves the right to suspend the study and prevent the use of any data collected prior to approval.

Vulnerable Populations

Different rules apply to research with the general population versus research that may involve vulnerable populations, including children, pregnant women, prisoners, and the cognitively impaired. Contact the SEU IRB at irb@seu.edu if your research involves a vulnerable population.

Data Collection Without IRB Approval

1. PURPOSE

1.1. Federal regulations require that research involving human subjects has been reviewed and approved by an IRB. Research that falls under expedited or full board review procedures will be subject to continuing review by the IRB.

1.2. Data collected without prior IRB review and approval may be subject to review and discussion by the IRB at a convened meeting.

2. POLICY and PROCEDURE

2.1. Data obtained for non-exempt human subjects research activities in which the Southeastern University IRB has not reviewed is considered to have been collected without IRB approval under the following circumstances:

- With no prior review or approval by SEU IRB
- With no prior letter of determination confirming IRB oversight is not required
- With no documentation informed of consent from the subjects or their legally authorized representatives (and when the IRB has not approved a waiver of consent or documentation)
- Using procedures that were not previously described and approved in the SEU IRB-approved consent document (unless it has been determined by the Provost to be in the best interest of the subjects enrolled in the study to continue in the research in consultation with the IRB Chair.
- After the expiration of the SEU IRB approval
- After suspension or termination of IRB approval

2.2. The IRB cannot grant retroactive approval for use of data that was previously collected without IRB approval. Federal regulations allow for IRB approval only when it is prior to the initiation of the research activities.

2.3. The IRB cannot require the investigator to destroy data or prevent the investigator from analyzing or publishing the data collected without prior IRB approval. Federal regulations do not state how data collected without IRB approval may be used.

2.4. Actions Following Data Collected without IRB Approval

Any investigator who discovers they have conducted research involving human subjects without prior SEU IRB review and approval must report their project promptly to the SEU IRB. Investigators should also contact their faculty advisors if they are student researchers, or notify their department chair if they are faculty members.

2.4.1. The investigator must immediately cease all activities involving human subjects. 2.4.2. The investigator must submit in writing to the IRB a summary of the project to the IRB and why the appropriate approvals were not initially sought and how they will ensure there are no future recurrences.

2.4.3. Depending on the circumstances leading to the lack of approval, the IRB may require the following corrective actions or any other action as appropriate:

- Issue a letter of warning to the investigator.
- If the data are intended for publication, the investigator must disclose to the publication editor that the data was previously collected without prior IRB approval.
- If the study is ongoing, interactions with the human subjects must cease until the IRB has reviewed and approved all the study procedures.
- If the study is federally funded, then the IRB staff must notify Sponsored Projects to report that the research was conducted without prior IRB approval to determine whether the sponsor is required to be notified.
- In some instances, the IRB may require the investigators to notify all participants of the investigator's lack of compliance with the IRB procedures and solicit permission from the participants to use the data collected.
- Require retraining of the investigator and researchers conducting the project.
- If there was any risk of harm to the participants, the IRB will report the incident to the Office of Human Research Protection (OHRP) and appropriate officials as required by the Federal Wide Assurance. In addition, the Provost may forbid the publication of the results from the research study.
- If, after the IRB has intervened to take corrective action and the investigator initiates a second study without IRB approval, procedures for suspension and termination may be applied.

2.4.4. The IRB staff, after reviewing by the IRB, will send a letter of determination to the investigator detailing any corrective actions.

3. SCOPE

These policies and procedures apply to all research submitted to the SEU IRB or under the jurisdiction of the institution.

4. RESPONSIBILITY

The investigator is responsible for ensuring they obtain SEU IRB approval prior to the initiation of activities involving human subjects. The investigator is also responsible for notifying the IRB of when a violation occurs and ceasing all activities until the IRB has reviewed a summary of the incident.

The IRB staff, IRB Chair, and/or Provost are responsible for receiving and reviewing reports of investigators collecting data without prior IRB approval. The IRB staff will facilitate the initial review of the report and will notify investigators of the IRB decision and any corrective action(s) in writing. The IRB Chair is responsible for notifying the Provost, as appropriate.

The IRB is responsible for reviewing reports of noncompliance with this SOP and federal regulations.

5. PROCESS OVERVIEW

The IRB staff and IRB Chair will initially receive the reported data collection without IRB approval. The IRB staff will determine whether an approved protocol was in place during the time period in question. If an approved protocol does not/did not exist, then the IRB will review the summary of the information provided to the IRB staff.

5.1. The IRB will make a formal determination as to whether the data collected required IRB approval. The IRB will assess:

- Whether the activity constituted research involving human subjects, as defined by federal regulations;

- Whether the project was eligible for an exempt determination, expedited review procedures, or full board review. This determination will also include the category of exemption or expedited review, if applicable;
- A risk/benefit analysis of the research to the participants and whether the project posed any risks of harm to the subjects and how those risks (if any) were mitigated by the researcher;
- Whether there was any coercion or undue influence to the participants.

5.2. Following review and assessment, the IRB may require corrective actions (as described in 2.4) and issue a letter of determination to the investigator.

5.3. The IRB staff will coordinate with the IRB Chair and/or Provost to follow up on any corrective actions required by the IRB.

45 CFR 46 Regulations

Submission Deadlines

Application submission deadlines are as follows:

- Full board review: 15th of every month
- Expedited or exempt review: 1st OR 15th of every month

See the SEU IRB website to access the application for requesting an IRB review.

Violations

IRB approval is required before any recruitment or data collection can occur. If a violation of this policy occurs, the IRB reserves the right to suspend the study and prevent the use of any data collected prior to approval.

Vulnerable Populations

Different rules apply to research with the general population versus research that may involve vulnerable populations, including children, pregnant women, prisoners, and the cognitively impaired. Contact the SEU IRB at irb@seu.edu if your research involves a vulnerable population.

Academic Policies

SEVIS Compliance (MBA Programs)

Professional Integration Requirement

Southeastern University has created its MBA curriculum to prioritize immediate professional application and high-level academic rigor. To maintain a fast-paced learning environment, the program does not utilize introductory "bridge" or prerequisite courses.

To ensure all students possess the necessary professional context and business vocabulary to succeed in our case-study-driven curriculum, we instead require all students actively work, and share their experiences through a series of interactive forums throughout the program.

Mandatory Professional Employment

All MBA students are required to maintain active employment throughout the duration of their enrollment. This requirement ensures that theoretical frameworks explored in the classroom are immediately integrated with real-world business environments.

International Students (CPT)

For international students on F-1 visas, this professional requirement is fulfilled through **Curricular Practical Training (CPT)**. CPT is an essential and integrated component of the MBA program, providing the necessary practical application of advanced business theory in compliance with federal regulations.

Syllabus and Course Integration

Specific language regarding these expectations will be included in all course syllabi and MyFire modules. Students are expected to draw directly from their current professional roles to contribute to classroom discussions and advanced projects.

Exceptions and Alternate Assignments

Students who experience a change in employment status or are unable to secure a professional role must apply for a **Formal Policy Exception** through the MBA Office each semester. If granted, students will be required to complete an intensive alternate academic assignment to satisfy the practical application component of the curriculum.

For further information on maintaining compliance with this policy, please contact the MBA office at mba@seu.edu.

General Information

Mission Statement

Equipping students to discover and develop their divine design to serve Christ and the world through spirit-empowered life, learning and leadership.

Vision statement

Southeastern University is anchored by Spirit-empowered education in a Christ-centered, student-focused learning community. Southeastern's global impact is marked by a deep commitment to transforming minds and engaging culture through the integration of faith, learning and service. Each student's divine design is nurtured and unleashed through the investment of faculty and staff, relationships within the community, the rigor of scholarship, diverse learning experiences and the discipline of spiritual formation, which propels students into a lifetime of serving the world in the spirit of Christ.

In addition to our mission and vision statement, we hold fundamental truths about the Christian faith that include the following:

The scriptures are inspired by God and declare his design and plan for mankind.

There is only one true God who is revealed in three persons: father, son and holy spirit (commonly known as the trinity).

Jesus Christ, as God's son, was both fully human and divine.

We are proud of our affiliation with the assemblies of God and our Pentecostal tradition. We are also proud to be a welcoming community for students from all Christian backgrounds and denominations. Our campus includes many Baptists, Presbyterians, Methodists, etc., as well as nondenominational students. Everyone shares a strong commitment to knowing Christ and making him known, and we celebrate our theological similarities while appreciating our differences.

Statement of Faith

Southeastern University subscribes to the 16 Statements of Fundamental Truths of the Assemblies of God, which are as follows (condensed version):

WE BELIEVE ... The Scriptures are Inspired by God and declare His design and plan for mankind.

WE BELIEVE ... There is only One True God–revealed in three persons...Father, Son, and Holy Spirit (commonly known as the Trinity).

WE BELIEVE ... In the Deity of the Lord Jesus Christ. As God's son Jesus was both human and divine.

WE BELIEVE ... though originally good, Man Willingly Fell to Sin –ushering evil and death, both physical and spiritual, into the world.

WE BELIEVE ... Every Person Can Have Restored Fellowship with God Through 'Salvation' (trusting Christ, through faith and repentance, to be our personal Savior). [1 of 4 cardinal doctrines of the A/G]

WE BELIEVE ... and practice two ordinances—(1) Water Baptism by Immersion after repenting of one's sins and receiving Christ's gift of salvation, and (2) Holy Communion (the Lord's Supper) as a symbolic remembrance of Christ's suffering and death for our salvation.

WE BELIEVE ... The Baptism in the Holy Spirit is a Special Experience Following Salvation that empowers believers for witnessing and effective service, just as it did in New Testament times. [1 of 4 cardinal doctrines of the A/G]

WE BELIEVE ... The Initial Physical Evidence of the Baptism in the Holy Spirit is 'Speaking in Tongues,' as experienced on the Day of Pentecost and referenced throughout Acts and the Epistles.

WE BELIEVE ... Sanctification Initially Occurs at Salvation and is not only a declaration that a believer is holy, but also a progressive lifelong process of separating from evil as believers continually draw closer to God and become more Christlike.

WE BELIEVE ... The Church has a Mission to seek and save all who are lost in sin. We believe 'the Church' is the Body of Christ and consists of the people who, throughout time, have accepted God's offer of redemption (regardless of religious denomination) through the sacrificial death of His son Jesus Christ.

WE BELIEVE ... A Divinely Called and Scripturally Ordained Leadership Ministry Serves the Church. The Bible teaches that each of us under leadership must commit ourselves to reach others for Christ, to worship Him with other believers, and to build up or edify the body of believers–the Church and to meet human need with ministries of love and compassion.

WE BELIEVE ... Divine Healing of the Sick is a Privilege for Christians Today and is provided for in Christ's atonement (His sacrificial death on the cross for our sins). [1 of 4 cardinal doctrines of the A/G]

WE BELIEVE... in The Blessed Hope—When Jesus Raptures His Church Prior to His Return to Earth (the second coming). At this future moment in time all believers who have died will rise from their graves and will meet the Lord in the air, and Christians who are alive will be caught up with them, to be with the Lord forever. [1 of 4 cardinal doctrines of the A/G]

WE BELIEVE ... in The Millennial Reign of Christ when Jesus returns with His saints at His second coming and begins His benevolent rule over earth for 1,000 years. This millennial reign will bring the salvation of national Israel and the establishment of universal peace.

WE BELIEVE ... A Final Judgment Will Take Place for those who have rejected Christ. They will be judged for their sin and consigned to eternal punishment in a punishing lake of fire.

WE BELIEVE ... and look forward to the perfect New Heavens and a New Earth that Christ is preparing for all people, of all time, who have accepted Him. We will live and dwell with Him there forever following His millennial reign on Earth. 'And so shall we forever be with the Lord!'

Life Statement

Southeastern is more than a university; it is a community that transforms students. Joining this Christ-centered community obligates each student to embrace a set of core values centered on scriptural and civilized behavior. The core values of the Southeastern community are: authentic spirituality, a Christ-centered world-view, character development for ethics in life, servant leadership, academic and professional excellence, and cultural sensitivity.

Community Covenant

Since members of this faith-based community have voluntarily chosen to be a participant, all students are obligated to a code of scriptural and community standards and behavior.

As a Christ-follower and member of the community of Southeastern University, I will:

- Practice the spiritual disciplines—regular reading of God's Word, prayer, etc.
- Understand that regular attendance at church services is expected
- Uphold the community standards
- Pursue integrity and practice professional ethics
- Adhere to guidelines of dress code
- Respect the dignity of all persons and highly value the diversity of the body of Christ
- Respect the rights and property of others
- Discourage bigotry, slander, and gossip among the members of the community and will refuse to engage in such behavior
- Refrain from the possession, use or distribution of beverage alcohol (except for communion), marijuana, or other intoxicants either on or off university premises
- Refrain from the possession, use or distribution of tobacco products either on or off university premises
- Refrain from the possession, use or distribution of illegal substances and the abuse or illegal use of legal substances, including prescription and over-the-counter medications either on or off university premises

- Refrain from all sexually immoral behavior including: premarital sex; adultery; lesbian, gay, bisexual, or transgender behavior; and involvement with pornography in any form. (Biblical marriage consists only of a faithful, heterosexual union between one genetic male and one genetic female, and biblical marriage is the only legitimate and acceptable context for a sexual relationship)
- Resolve conflict according to the model in Matthew 18:15-20
- Honor the servant-leaders who watch over this community and cooperate with their leadership
- Demonstrate compassion for others and a passion for the lost as a representative of Christ

Human Sexuality Statement Biblical Foundations

Our understanding of human sexuality is derived from the following biblical principles:

God created humans as relational beings — the only part of creation that God explicitly designed to have community with Himself (Genesis 1:26). All other forms of community are designed to reflect this relationship between divinity and humanity (Hebrews 10:24–25, 1 Corinthians 12:14, Ephesians 5:25).

As a direct result of sin, the community between divinity and humanity was broken (Genesis 3:23–24). This brokenness has permeated into all other relationships (Genesis 4:15). Human sexuality is not exempt from the marring effects of separation from the Divine (Romans 1:21-23).

God's intention for human sexuality is to occur between one genetic male and one genetic female within the covenant of marriage (Genesis 2:18, 21–24; Hebrews 13:4).

All forms of sexuality outside of God's intention are a result of separation from God (1 Corinthians 6:13, 18–20) and are illegitimate moral options for the confessing Christian. In Scripture, several sexual behaviors are expressly forbidden, which include but are not limited to fornication, adultery, incest, unnatural sexual intercourse and homosexual acts (Exodus 20:14; Leviticus 18:7–23, 20:10–21; Matthew 5:27–28; Romans 1:20–27; 1 Corinthians 6:9; Galatians; 5:19; Ephesians 4:17–19; Colossians 3:5)

Into this broken world, God sent himself in the form of His only begotten Son, Jesus the Christ (John 1:1–3, 14). Through His sacrifice, Jesus became the Way to restoration of the Divine/human community (John 3:16). Until one has restored his or her relationship with God through His Son, Jesus, all other relationships — including human sexuality — will remain broken (John 14:6–7).

Southeastern Human Sexuality

At Southeastern University, we affirm human sexuality as a gift from God, designed to serve as a mirror of one's relationship with God. We believe that God's intention for human sexuality is between one genetic male and one genetic female within the covenant of marriage (Genesis 2:18, 21–24; Hebrews 13:4).

In addition, Southeastern University supports the dignity of individual persons affirming their biological sex — understanding that any attempts to change one's God-given sexuality through elective sex-reassignment or transvestite, transgender or nonbinary "genderqueer" acts or conduct is at odds with our biblical standards, denominational affiliation and subsequently our code of conduct.

Our Commitment

Therefore, we as a community commit to the following:

Because of our values surrounding modesty, sexual purity and safety, the university has had a single-sex housing and restroom policy for undergraduates since its inception, and we will continue to maintain this tradition.

In regard to athletics, we will continue to support our biblical understanding of affirming an individual's biological sex as the basis for athletic competition.

As a university we will conduct our sexuality as a reflection of our relationship with God. Southeastern University pledges to guide the university community toward understanding and embracing its sexuality as a reflection of its relationship with God.

Seeing that sin is a common struggle for all, members of the SEU community are committed to treating one another with respect and Christ-like compassion (Philippians 2:3–5). Insults, slurs and other forms of derogatory speech have no place in a Christian community (James 3:9–12). Any deviation from a biblical standard of sexual behavior is a result of separation from God and therefore is an opportunity for repentance, grace and redemption so that as a community, we might honor one another and glorify God.

Misrepresentation Policy

Southeastern University strives to be an institution of high integrity and is committed to providing the most accurate information through all mediums to anyone associated with the University. Southeastern University will make every effort to not engage in misrepresentation of any form as defined by the U.S. Department Regulatory Citation: 34 CFR § 668.71 (c) which defines misrepresentation as any false, erroneous or misleading statement an eligible institution, one of its representatives, or any ineligible institution, organization, or person with whom the eligible institution has an agreement to provide educational programs, or to provide marketing, advertising, recruiting or admissions services makes directly or indirectly to a student, prospective student or any member of the public, or to an accrediting agency, to a State agency, or to the Secretary. A misleading statement includes any statement that has the likelihood or tendency to deceive. A statement is any communication made in writing, visually, orally, or through other means. Misrepresentation includes the dissemination of a student endorsement or testimonial that a student gives either under duress or because the institution required the student to make such an endorsement or testimonial to participate in a program.

Drug-Free School & Campus Policy

Southeastern University is committed to maintaining a Christ-centered and student-focused learning community that is free from alcohol, tobacco, and illegal drugs. In accordance with the University's Community Covenant as well as the Code of Student Conduct and the Employee Handbook, the possession, use, distribution, or manufacture of alcohol, tobacco, marijuana, illegal drugs, and other intoxicants by students or employees is prohibited both on and off campus. The University also prohibits abuse, misuse, and distribution of legal prescription medications.

The University's position on alcohol, tobacco, and drugs is in compliance with the Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act Amendments of 1989.

Undergraduate Admission Policies

Admission policies for Southeastern University's programs are outlined in the below Admission Policy Manual. The policy manual outlines the admission process, application and fees, transcript, test score and documentation requirements for each student population. Unique admission policies for online, regional and extension, and certificate programs are provided.

Other Admission Processes

Dual Enrollment

Program Overview

Southeastern University offers dual enrollment credit through on campus, online, extension site, and home schooling course options.

Prospective dual enrolled students must be at least 16 years old and have a high school GPA of 3.0 or higher in order to enroll in dual enrollment courses.

· In applicable states, prospective dual enrollment student must qualify as an "Ability-to-Benefit" student (e.g.: CA).

- Any freshman- or sophomore-level courses (that do not require prerequisites) can be taken.
- Sophomores can complete up to 12 credit hours per year.
- Juniors can complete up to 24 credit hours per year.
- Seniors can complete up to 30 credit hours per year.

Admission Requirements

1. **Must submit a dual enrollment application.**
2. **The student must hold a 3.0 high school GPA or higher.**
3. **The student must demonstrate college readiness as defined by the Department of Education per s. 1007.271(3), Florida Statutes (F.S.)**
4. **The student's guardian/ high school counselor must approve each course request.**

***Verification details are provided after the application."**

The Academic Year

Southeastern University operates its traditional campus-based programs on a fall and spring semester system with two summer sessions.

The fall and spring semesters are 16 weeks in length. Class sessions during the regular semesters are scheduled so that they equate to fifteen, 50-minute sessions per credit hour, although they may vary depending on the nature of the instruction and schedule. Hybrid classes, mixing online and individual study with face-to-face sessions, are also held, as well as some online delivery courses, structured for campus-based students. New, incoming students may only enter in the fall or spring semester.

The two summer sessions are intensive one-week and three-week sessions. Course delivery during summer sessions also varies, but they are designed to be comparable to the semester sessions. The academic calendar outlines the main events including the beginning and ending dates of each semester and summer sessions.

Incentive Compensation Prohibition

Southeastern University will not provide any commission, bonus, or other incentive payment based directly or indirectly on success in securing enrollments or financial aid to any individual or entity engaged in recruiting or admission activities or in making decisions about awarding FSA program funds as specified by the Department of Education.

Reviewing Freshmen Applications

The Admission Office will review applications after all required documents are received and have been processed through Admission Data Office. The applicant's file is prepared and accessible by the designated Admission Counselor, and/or the Director of Admission for review. Some applications are flagged for additional review by the Director of Admission. Once the decision has been made, the student will be notified of the decision in writing within two weeks.

Acceptance Process for Freshmen

The designated Admission Counselor will review prospective student applications following completion. The following is a list of specific information that the Admission Counselor is looking for in the application:

Check student's Immigration Status

Church questions: they should show personal relationship with Christ and regular church attendance. If anything in the file indicates that the student does not have a personal relationship with Christ, follow up with student to get a more detailed response. File may need to be reviewed by the Director of Admission.

Lifestyle questions should show abstinence from alcohol, tobacco or drug use. If there is use, follow up as necessary according to Southeastern University's student handbook.

If there are items of concern in the application, follow up with the applicant or the Christian character reference to get more information about the student.

Christian Character Recommendation: Student must have a non-family member that has known the applicant longer than 6 months to complete the form provided by Southeastern University admission office.

Biographical Essay: Biographical essay is 400 words minimum, typed, double-spaced using the following prompt: "Describing the beginning and present growth of your relationship with God and how you see yourself as a good match for SEU's academic and spiritual environment". If there are any causes for concerns within the essay, then the Admission Counselor will seek approval from the Director of Admission. The Director of Admission will communicate with the Director of Student Services..

The student must check "yes" to abide by Southeastern University's community life statement and covenant.

Student needs a minimum GPA of 2.0.

Once a decision has been reached, the Admission Counselor will complete the following steps:

Data Processors will change their stage in the Student Information System.

Once the students stage has been updated, Admission Counselor will communicate acceptance decision to the student via email.

If a student does not meet the requirements for general admission or if there are any other concerns, provisional acceptance may be granted or the file may be sent to the Director of Admission for review.

Provisional Acceptance

Provisional admission is available for students who do not meet the Academic Admission standards listed above. If one or more of the requirements have not been met, provisional admission may be granted on a case-by-case basis as determined by the Director of Admission.

Academic or Disciplinary Dismissal, Suspension, Probation, Felony

If a student marks 'yes' on their application to having been dismissed, suspended, or placed on probation from college or high school for academic or disciplinary reasons, their Admission Counselor will communicate with the prospective student's prior school to obtain additional information relevant to their admission file.

If a student marks 'yes' on their application to having been convicted of a felony, the prospective student will be required to submit a certified criminal background check in addition to their regular admission documents. Admission Counselor will provide the student with instructions on how to complete the background check. The applicant is responsible for all costs to complete the certified criminal background check. If a prospective student has been convicted in the past, the file will be reviewed by the Director of Admission.

Transient Students.

A student enrolled at another institution may take a course(s) at Southeastern University and transfer the credit to the other institution. To be considered as a transient student, the applicant must apply for enrollment at Southeastern University and have written permission from the Registrar of the other institution.

If an applicant is interested in our Learning Series Program, they must fill out a Student Registration form here: https://www.seu.edu/non-degree-series-registration/

*NOTE: A student wanting to do the Learning Series Program must be at an extension that offers it.

General Admission Information

Financial Aid and Scholarships

Scholarship Awarding

Immediately following the acceptance of a student, the Enrollment Counselor will also review the student's GPA and test scores (if applicable) for academic scholarship eligibility.

New freshman and transfer students qualify for the scholarships listed on our website annually. Re-applicants and Status Change students will be viewed as a transfer student while going through the admission/financial aid process.

Other scholarship and grant funding will be determined either by the FAFSA application, and/or additional scholarship application required for those who qualify. A list of other institutional scholarships can be found on the SEU website.

Federal Financial Aid Programs

Southeastern University participates in the following Federal financial aid programs: Federal Pell Grant, Federal TEACH Grant, Federal Supplemental Opportunity Grant (FSEOG), Federal Direct student loans (Subsidized and Unsubsidized), Federal Parent PLUS loans, Federal Graduate PLUS loans, and Federal Work Study. You may review the federal funding details on our website at https://seu.edu/admission/financial/scholarships/

Eligibility for federal financial aid programs is determined by submission of an annual Free Application for Federal Student Aid (FAFSA) on the www.studentaid.gov website.

Amounts may vary based on financial need and federal funding authorizations annually.

Contact the Office of Student Financial Services for more information at sfs@seu.edu.

Florida Resident Financial Aid Programs

Southeastern University participates in several state scholarship and grant programs. Students must meet all residency and academic or need-based requirements to qualify annually.

Florida Bright Futures Scholarships: Awarded to Florida high school graduates who demonstrate high academic achievement. The State of Florida Office of Student Financial Assistance determines eligibility for students finishing their high school degree. Contact your high school guidance counselor for more information. Award amounts are determined annually and awarded per credit hour as established by the state.

Florida EASE Grant (Formally Florida Resident Access Grant or FRAG): Offered to full time,undergraduate students enrolled full time in an eligible degree seeking program. An EASE Grant application and proof of residency is required. Award amounts vary annually based on state appropriations.

Florida EASE Grant Plus Stipend: In order to qualify for EASE Plus, students must be eligible for the Florida EASE Grant, be enrolled in an eligible degree program, be enrolled in upper level courses in an eligible program (300-400 level courses), and be enrolled full time in order to qualify. Full list of eligible programs and policy details are outlined on our EASE Plus policy.

Florida Student Assistance Grant: A need-based state funded grant for full-time, undergraduate Florida residents. Must submit the Free Application for Federal Student Aid (FAFSA) and meet the SAI (formerly called the EFC)requirements as well as residency requirements to qualify. Funding is limited and determined annually by the state.

Florida Prepaid: A student who is eligible for the Florida Prepaid program should receive a letter from Florida Prepaid, which will direct the student to complete a transfer form. The form must be submitted to Florida Prepaid in order to authorize Southeastern University to receive payments. – Amounts vary based on the program selected.

Contact SEU's Office of Student Financial Services for more information at sfs@seu.edu

Other Aid

Third-Party Scholarships:

The following sites are just a few of the possible places to begin finding outside scholarship opportunities for which you might choose to apply:

Chegg

College Board's Scholarship Search

Fastweb

Federal Student Aid

Hispanic Association of Colleges and Universities

Scholarships.com

Scholarship Experts

StudentScholarships.org

Third-Party Loans:

Alternative private loans are available from a variety of lenders and are designed to help cover costs not covered by federal and institutional financial aid. You should apply for federal financial aid (FAFSA) before considering an alternative private loan.FastChoice provides a list of the university's preferred private lenders and allows current students and prospective students to apply for a private alternative loan. We encourage all students to investigate federal loan options first before making a decision. To review more information, please visit https://seu.edu/admission/financial/loan-information/

General Admission Information

SEU Network Admission Process

Admission Process

Southeastern considers many aspects of a student's academic and personal background when deciding admission status. Factors include your Christian character, personal recommendations, GPA, and desire and willingness to learn. No applicant will be denied admission to Southeastern University on the basis of race, color, sex, or national or ethnic origin. Southeastern does not discriminate against individuals with physical or mental disabilities who are otherwise eligible for admission to the university.

Once Southeastern has received a prospective student's completed application file, the assigned Admission Counselor will consider the application for admission.

Partner Site Admission Requirements

Consistent with Southeastern University's commitment to making education rigorous and accessible, requirements for off-campus students seeking admission are succinct with that of online undergraduate requirements, that is, they must demonstrate academic achievement, aptitude, and Christian character. Additionally, test scores are requested but not required for entrance. In the event graduate degrees are offered then the same standard is held to as that of main campus graduate students.

The necessary requirements to be submitted as part of the application to a Southeastern University Partner Site include:

Completed online application. The application for admission to any of off-campus instructional sites is found at the following link: www.seu.edu/apply.

Christian Character Reference

Biographical Essay. The essay should be a minimum of 400 words, double spaced, 12 point font.

Official High School Transcripts

SAT/ACT Scores (requested, not required)

Official College Transcripts (if applicable)

Initial High School Transcripts

An official transcript, received prior to high school graduation, can be accepted if received directly from the school. If a transcript is sent from the student opened, the transcript will be considered unofficial. Official transcripts will be required for an acceptance decision. Applicants can satisfy this requirement with one of the following documents:

The following is a list of documents accepted for high school transcript:

A high school transcript with a minimum grade point average (GPA) of 2.0 on a 4.0 scale is required for admission. If the GPA is in a format other than a weighted 4.0 scale, it will be converted into a 4.0 weighted GPA. Southeastern will only consider the GPA received on the transcript at the time of acceptance for scholarship and acceptance purposes.

The General Education Development Certificate (GED) or High School Equivalency Diploma (HSED) is accepted in place of a high school transcript if it is complete.

A home school transcript is also accepted. See home school Transcript Requirements for more information.

Final High School Transcript

After the student graduates, the student's high school must send a complete official sealed final high school transcript which includes grades from the student's final semester, a final GPA, and a graduation date. Official transcripts sent prior to graduation are considered initial transcript and can be used for the acceptance process. A diploma will not be accepted to meet the transcript requirement for incoming freshman.

Final transcript must be sent in one of the following ways:

Sent via postal mail directly to Southeastern University from the high school.

Delivered in an envelope previously sealed by the school.

Sent through a certified electronic system.

The GED must be received directly from the testing center in order for this document to be considered final.

The final transcript is due to the Admission Office before classes begin.

Home School Transcript Requirements

Southeastern University prides itself in being an exceptional college choice for homeschooled students, and part of our commitment to serving homeschooling families comes through the admission process. Since many homeschoolers do not study under the umbrella of a local school district or homeschooling agency, Southeastern permits families to create a transcript of the student's high school coursework. Transcripts should include all courses taken in grades nine through 12, as well as final grades. Although not required, prospective students may also want to submit a portfolio. A portfolio typically includes a brief description of the courses you have completed and sample copies of work, such as a research paper or project, that best reflect the student's abilities. The academic recommendation should be completed by an individual who has observed the student's academic and personal progress, such as a tutor, former teacher, or employer. Academic recommendations completed by a relative will not be accepted.

GED (General Educational Development Test)

The GED is accepted in place of a home school transcript. If the student's current state of residence requires a GED, the home school student must take and submit the GED.

Suspicion of Falsified Transcripts

When a high school transcript is sent to the SEU Admission Office and appears to be falsified, a member of the Admission team will call said school to verify the institution and to verify the validity of the transcript. If the high school cannot verify the information or is unreachable, the state Department of Education will be contacted to verify the information.

Christian Character Reference

Applicants must submit a Christian Character Reference form as part of their application. This assessment should be completed by an individual who knows the prospective student well (six months minimum required) and can provide the Admission Counselor with a candid assessment of the student's Christian maturity. References completed by a relative will not be accepted.

Southeastern University is not obligated, but may call this individual to obtain more information about the student. Phone contact with the individual may be attempted to follow up concerning academic or behavioral issues disclosed in the application process.

Required Essay

Southeastern University requires prospective students to submit a 1-2 page essay using the following prompt:

"Describe the beginning and present growth of your relationship with God and how you see yourself as a good match for Southeastern's academic and spiritual environment."SEU Network Admission Process

Transfer Students

Transfer Students

Definition of a Transfer Student

If a student has earned 12.0 or more college-level credits from another institution after their high school graduation, they are considered a transfer student. This does not include remedial courses. Students who have completed at least one year with an affiliate Master's Commission, Youth with a Mission (YWAM), or Discipleship Training School (DTS) are not considered transfer students; they are considered freshmen. Though the university awards credit based on advanced standing for their experience, the content is not considered college-level. Students who have taken Post-Secondary Educational Option (PSEO) or other similar credits during high school (i.e. Advanced Placement (AP) exams, or College Level Exam Placement (CLEP) exams) are also considered freshmen.

Application Process

In addition to the freshman application process, transfer students are required to submit additional pieces to be considered for acceptance. Southeastern University reserves the right to deny an applying transfer student for any of the following situations:

The student has poor academic standing at another college or university.

The student has previously been dismissed from another college or university.

The student has outstanding financial obligations to another college or university.

College Transcripts

Transfer students are required to submit all college transcript(s) as part of their admission application process before acceptance regardless of whether or not they want to transfer the credits. If the student is currently enrolled in classes, they must submit an unofficial copy of their transcript(s). If their college-level courses are complete, the student must submit an official copy sent from their institution. If the student attended more than one institution, an official transcript must be submitted from all institutions. The official high school transcript or scanned copy of the high school diploma will be required to verify high school completion if the applicant is transferring less than 60 college credit hours. The cumulative college GPA will be used to determine acceptance for transfer students who have earned 12 or more credits; at least a 2.0 GPA is needed to gain acceptance. A GPA of 1.99 or lower will be submitted to the Director of Admission for further review.

Graduation Requirement

In order to graduate from Southeastern University, 25% of the student's credits must be earned as local, regular credit at SEU. This policy is maintained by the Registrar's Office.

Transfer Credit Evaluation Process

Students should have their official high school transcript(s) sent to the Southeastern University Admission Office for review. The Admission Office will pass the original copy of the transcript to the Registrar's Office and retain a copy for the student's admission file. The Transcript Evaluator located in the Registrar's Office will evaluate college transcript(s) and communicate the results to the student within 10 business days. Students who have questions regarding the degree audit can contact the Registrar's Office and ask for the Transcript Evaluator.

Only transcripts sent directly from the originating institution to Southeastern University can be considered official. Initial transcripts may be sent for admission purposes and to receive an initial evaluation of transferable credits.

Course Transfer Guidelines

See Academic Policies.

CLEP, DANTES, AP, and IB Exams

Southeastern University accepts many CLEP, DANTES, AP, and IB exams for credit. These transcript/score reports must be sent to the Registrar for review. Exam transfer charts and equivalency requirements for general courses can be found in the Southeastern University's Registrar's Office. The transfer requirements are subject to change and are maintained by the

Registrar's Office. Students who only complete CLEP, DANTES, AP, or IB exams are not considered transfer students. Students are only considered as transfer students if they complete 12 or more courses at a college after high school.

International Students

International Students

Who Is Considered International?

An international student is one who attends Southeastern on a non-immigrant F-1 visa. Students who have legal permanent residency ("green card") status through the U.S. Department of Homeland Security or who are U.S. citizens by birth but have grown up overseas may be culturally and socially "international," but for purposes of the application, enrollment and financial aid eligibility, they should follow all procedures for U.S. citizens.

The following information is specific to international students who are not a Permanent Resident or citizen of the United States and are seeking to earn a bachelor's degree as a traditional, campus-based student at Southeastern. It does not necessarily apply to graduate students or students pursuing an online program from their home countries.

Foreign students currently living in the United States under a legal visa or who have Permanent Resident status are exempt from International Student policies.

If Southeastern University will be providing immigration documentation for a foreign student to take courses in the United States, they will be considered International Students.

*Missionary dependents are exempt from all international student policies, as their citizenship is from the United States.

Sending Mail and Forms

Students will not receive postal mail from Southeastern University until they have been admitted to the university. International students will be encouraged to use the SEU website, or Admission Counselor email to download and submit information and documents until postal mail can be sent.

Permanent Residents

Foreign students who have legal resident status in the United States are not considered International Students. These students are required to meet Southeastern University's traditional admission standards. These students will not require a student visa, therefore, they are not required to provide verification of funds. They may be eligible for Financial Aid and should contact the Student Financial Services Office to see if they qualify.

If English is not the applicant's first language, they may be required to submit English Certification (TOEFL) scores. The International Student Coordinator reserves the right to request that the applicant take the TOEFL before an acceptance decision will be made. This information may be used in determining acceptance.

Application Process

Southeastern University welcomes students from other countries who show promise of benefiting from educational opportunities in the United States. International students must complete the same admission process as other freshmen or transfer students. It is suggested that foreign students apply for admission to SEU at least six months before the semester they wish to enroll.

International student applications will not be reviewed for acceptance at Southeastern University until all of the following documents are received:

Completion and submission of the following documents are required for admission to SEU:

Complete the online application, www.seu.edu/apply/.

Submit a biographical essay, 1 to 2 pages in length, typed and double-spaced, using the following prompt: Describe the beginning and present growth of your relationship with God and how you see yourself as a good match for Southeastern's academic and spiritual environment.

Christian Character Assessment form: This is a recommendation form that must be completed by a spiritual mentor such as a pastor, youth leader, Bible study teacher or another person who has guided you in your faith. Assessments completed by a relative will not be accepted.

Official high school transcript or final completion document.

Submit scanned copy of passport.

Submit scanned copy of any U.S. Visa

Submit SAT, ACT or TOEFL scores.

Exception: If the prospective student is from an English-speaking country, high school or university and has a "C" or higher in their English classes, then they will not be required to submit any of these tests)

Information regarding the TOEFL can be found at the TOEFL website, www.toefl.org. TEST OF ENGLISH AS A FOREIGN LANGUAGE Educational Testing Service Princeton, NJ 18540 U.S.A.

Minimum accepted scores for the TOEFL.

Paper-based test (PBT) 540–543

Computer-based test (CBT) 207

Internet-based test (IBT) 76

The IELTS test as a replacement for the TOEFL. The minimum accepted score is a 6.

If applicable, submit any college/university transcript(s). If any transcript(s) are from a foreign university, a "course-by-course" transcript evaluation as offered by www.jsilny.com, www.wes.org or www.ece.orgwill be required. This evaluation will indicate to Southeastern whether or not any prior college credits can transfer to Southeastern; the evaluation also allows the Admission Office to determine if you qualify for transfer academic scholarships.

Instructions After Acceptance

In addition to the traditional admission standards, Southeastern University requires all international students to deposit or provide documentation showing proof of sufficient funds to cover one semester's room, board, tuition and fees. International students may have a financial sponsor who will agree to be responsible for all debts acquired by the student while in this country. These requirements must be met before a Certificate of Eligibility for Student Status (Form I-20) is issued by the university. This is the student's invitation to attend University in the United States.

International students accepted to Southeastern will be eligible to receive an I-20 as an invitation to come to Southeastern University. This is the first step for a student to receive an F-1 student visa. The following steps must be completed prior to an I-20 being sent:

The student must be accepted to Southeastern University

The student must submit the following financial statements:

Form F-1: All students interested in applying to Southeastern University must have the funds available to meet the cost of an educational program in the United States. The purpose of the Financial Statement Form F-1 is to verify that the international student has the financial resources available to meet the costs of tuition, fees, room, board, incidental expenses and the cost of round trip transportation from his/her native country.

Verification of Personal Funds: Southeastern must have proof of funds on file in the form of an official bank statement (with a dollar figure in U.S. funds). If the student's U.S. sponsor will be funding their education, we will need the sponsor's proof of funds.

Sponsor: If international students do not have proof of funds, they must have a financial sponsor. This individual must complete an Affidavit of Support Form, which will be sent by Southeastern to the individual offering support. Completion of this form verifies that the sponsor will be responsible for all college and living expenses accrued by the student while living in this country that he/she cannot meet personally.

Deposit of Funds: All students attending Southeastern University on a student visa are required to have the equivalent to one semester's tuition or 30% of the total yearly tuition cost deposited at Southeastern before immigration papers can be completed. As soon as this amount has been deposited, an I-20 form will be completed notifying the Immigration and Naturalization Service of the applicant's transfer to Southeastern University.

Additional International Student Policies

International students must fulfill the following requirements to maintain student status:

To become eligible for transfer to Southeastern from another American college, approval must be obtained from the previous school attended and U.S. Immigration and Naturalization Service. First year international students are not allowed to work off-campus. Jobs on-campus are available, but federal regulations state that students are not allowed to work more than 20 hours per week while school is in session.

Second year international students and beyond may also work on-campus or they may work off-campus through a program known as Curricular Practical Training, wherein a student would garner a job offer related to their respective major and then be allowed to work either part-time or full-time off-campus.

Financial Aid Policy

International students attending Southeastern University are eligible to receive institutional aid. However, students who are not United States citizens are not eligible for federal or state financial aid.

Creating an I-20

Southeastern is authorized to update student information and print an I-20 for a student with SEVIS (Student and Exchange Visitor Information System). The International Student Coordinator will be the Designated School Officer (DSO) with access to SEVIS records. The DSO is responsible for inputting the student's initial information into SEVIS and maintaining accurate records within SEVIS.

Once the student is added to SEVIS, the DSO will print two copies of the I-20. The DSO will sign both copies, one placed in the student's file and the other sent to the student.

Registering for The I-901

It is the student's responsibility to complete the following additional steps to receive their student visa:

Fill out form I-901 online and pay $200 processing fee at www.ice.gov/sevis/i901/.

Make an appointment with the U.S. Embassy for visa interview. (This step is not required for citizens of Canada or Bermuda. Instead, these students will take their I-20 and passport to a

Port of Entry.)

Make plans to come to the U.S. through a Port of Entry (POE). Students may need to bring their passport, I-20 and proof of financial stability to the POE. The student's I-94 will be issued at the POE which gives the student F-1 visa status.

Maintaining Student Visa Status

The I-20 will be signed initially by the International Student Coordinator before it is sent to the student. It is the student's responsibility to have their I-20 signed by a DSO at Southeastern before they leave the country. Each time the I-20 is signed, the signature is only valid for one year from the date signed. It is the student's responsibility to maintain the following requirements to keep their F-1 Student Visa Status:

The student must be enrolled in a minimum of 12 credit hours per semester.

The student must maintain a valid passport.

The student must maintain a minimum 2.0 GPA per semester.

The student must have their I-20 document signed by the International Student Coordinator each year.

Updates in SEVIS

Any change to the student's status, program dates, major, work eligibility, etc. must be recorded in SEVIS. It is the responsibility of the International Student Coordinator to confirm registration for the student every semester. This includes returning International Students and students that have completed their program. Any record that has not been updated in SEVIS will change to "terminated" or "completed" status and may require additional updating by the International Student Coordinator. Terminated status creates an unnecessary flag on the student's file which can hinder them when attempting to cross the border.

To access the SEVIS helpdesk, call 800-892-4829.

Extending A Student's Program

If an international student requires additional time to complete their studies the student is responsible to notify the DSO. The DSO will make the needed changes in the SEVIS record, and a new I-20 will be printed and signed by the DSO for the student to be authorized to extend their program.

Authorization To Drop Below Full Course Load

An international student may request to be enrolled in less than 12 credit hours for one semester, if the student has less than 12 credits hours to complete in order to graduate. This update must be added in the student's SEVIS record and a new I-20 must be printed and signed for the student by the DSO.

SEVIS Registration

International students must meet with the DSO at the beginning of each semester in order to register the student in SEVIS. The student must provide the DSO with their class schedule and current I-20 document during this meeting.

For international students transferring into the university, their I-20 must be reprinted as their status has changed. Returning student do not need to reprint the I-20, but they must update the document.

Intent to Transfer

An international student intending to transfer out of Southeastern University must inform the DSO of their intentions.

An international student intending to enroll in post graduate studies outside of Southeastern must also inform the DSO of their intent in order for their SEVIS record to be transferred. If an international student graduates from Southeastern University and does not inform the DSO of their intent to continue with post graduate studies at another institution within 60 days of graduation, their status will automatically change from "active" to "completed" in SEVIS. In such a case, the student will be responsible to request reinstatement through the school they are transferring to.

OPT and CPT Procedures

International students must notify the DSO if they intend to work. International students are subject to the following work guidelines:

Authorization to Work

International students may only work on-campus.

May work 20 hours or less per week.

Can be full-time during official school breaks, including winter and summer breaks, as long as they register for the next semester.

The student will need a Social Security Number to get a paycheck.

CPT (Curricular Practical Training)

This is the student's authorization to work off-campus.

The position must be related to the student's major.

Can begin the process for CPT after completion of 2 semesters.

The student must receive authorization on their I-20 before employment begins, however they need to have an employer before the International Student Advisor can adjust the student's I-20 (the student should find a job and then request the change).

The student cannot work more than 40 hours/week.

If the student chooses to work full-time for 1 year, they will not be eligible for OPT.

Approval is required in SEVIS.

OPT (Optional Practical Training) This is an optional authorization for the student to work in the United States after graduation. Length of authorization to work is limited to 12 months. Approval is required in SEVIS.

Post-Graduation

International students are legally invited to take courses at Southeastern for a specified period of time. Once the student has graduated, they will need to depart for their home country or take action in for one of the following ways (these options may not be available to students who terminate their program):

Apply for optional practical training (OPT), or

Request that their SEVIS record be transferred to another school.

General Admission Information

Graduate Level Admissions

Graduate Admission Policies

Admission policies for Southeastern University's programs are outlined in the below Admission Policy Manual. The policy manual outlines the admission process, application and fees, transcript, test score and documentation requirements for each student population. Unique admission policies for online, regional and extension, and certificate programs are provided.

Consistent with Southeastern University's commitment to rigorous, challenging graduate programs, students seeking admission to the Graduate Program must demonstrate academic achievement, aptitude, and Christian character. Graduate programs at Southeastern University have general admission requirements as well as specific expectations concerning entrance examinations or licensure requirements for each program. Admission decisions are made by graduate program coordinators and directors.

Master of Arts in Human Services

A bachelor's degree from a regionally accredited institution with a cumulative GPA of 3.0 or higher (official transcript required)

A writing sample

Three references: Academic, Professional, Personal reference form

Background check

Master of Arts International Community Development

A bachelor's degree from a regionally accredited institution with a cumulative GPA of

3.0 or higher (official transcript required)

Completed a prerequisite course in accounting

A writing sample

Three references: Academic, Professional, Personal reference form

Background check

Master of Arts in Ministerial Leadership

A bachelor's degree from a regionally accredited institution with a cumulative GPA of

3.0 or higher (official transcript required)

A writing sample

Two academic or professional references

Christian Character assessment

Master of Arts in Theological Studies

A bachelor's degree from a regionally accredited institution with a cumulative GPA of

3.0 or higher (official transcript required)

(If lower than 3.0, the GPA for the last 60 credits will be calculated, and the applicant may be considered for provisional standing.)

Submit one academic or professional reference

Submit one Christian Character Assessment

Submit a writing sample of at least five pages that is indicative of your writing and research ability to interact with scholarly sources in a critical manner.

Master of Arts in Family Ministry

A bachelor's degree with a 3.0 GPA or higher from a regionally accredited college or university (official transcript received)

One academic or professional reference

A Christian character assessment

An academic writing sample of five pages or more

Master of Arts in Leadership

A bachelor's degree from a regionally accredited institution with a cumulative GPA of 3.0 or higher (official transcript required)

Two letters of recommendation, including one from an academic or professional reference and one from a personal character reference

Typically, you don't have to take the GRE/GMAT exams. Request more info or chat with an enrollment counselor for details.

Master of Business Administration

Students are accepted into the MBA program based on evidence of their aptitude and motivation for graduate business education at Southeastern University, as well as their understanding of basic business functions. Below are the minimum basic requirements; however, admission acceptance is considered given the applicant's entire application package:

A bachelor's degree from a regionally accredited institution with a cumulative GPA of 3.0 or above.

A sample writing assignment addressing the prompt: Why I want to pursue an MBA at Southeastern University. The essay should address how the MBA will help the student in his or her career and how he or she can integrate Christian faith into his or her profession as a manager. The paper should include the student's full name and be 300-600 words.

Two recommendations: An academic or a professional, and a personal/character, submitted by those providing references.

Fulfillment of foundational knowledge requirements (see the Foundational Courses and Competencies, below). A determination of any prerequisite requirements will be made at the time of the admission decision.

Foundational Courses and Competencies for the Online MBA

(9 credit hours – waived with appropriate undergraduate preparation)

In order to ensure student success, three foundational courses are required for students without an undergraduate degree in a business-related field. Students are also expected to be competent in Microsoft Excel prior to beginning MBA course work (Microsoft Excel Basic Certification or equivalent is the recommended minimum).

When these courses are required, admission to the online MBA program may be made on a provisional basis until the courses are completed with a B- grade or higher and prior to enrolling in BUSI 5003, the first MBA level course in the program.

BUSI 2203 – Microeconomics

BUSI 1013 – Introduction to Accounting and Finance, or BUSI 2233 – Principles of Managerial Accounting

MATH 2023 – Introduction to Probability and Statistics

Note: BUSI 5003 is a prerequisite for all other courses in each track and must be completed with a B- or greater before continuing beyond the first eight weeks. Students may be approved by the MBA Director to take other courses concurrently with BUSI 5003 in their first eight-week session.

Master of Divinity

A bachelor's degree from a regionally accredited institution with a cumulative GPA of 3.0 or higher (official transcript required)

(If lower than 3.0, the GPA for the last 60 credits will be calculated, and the applicant may be considered for provisional standing.)

One academic or professional recommendation

One Christian character recommendation

A writing sample of at least five pages that is indicative of writing and research ability to interact with scholarly sources in a critical manner.

Master of Education in Elementary Education

A bachelor's degree from a regionally accredited institution with a cumulative GPA of 3.0 or higher (official transcript required)

An essay on the topic: "Why I want to pursue my master's degree at Southeastern University"

Two references: one professional and one personal

Master of Education in Educational Leadership

A bachelor's degree from a regionally accredited institution with a cumulative GPA of 3.0 or higher (official transcript required) or official GRE score of 300

Have a current resume showing three years of teaching experience, along with their two most recent teacher performance evaluations

An essay on the topic: "Why I want to pursue my master's degree at Southeastern University"

Two references: one personal and one professional, which must come from your principal or assistant principal

Master of Education in Exceptional Student Education

A bachelor's degree from a regionally accredited institution with a cumulative GPA of 3.0 or higher (official transcript required)

An essay on the topic: "Why I want to pursue my master's degree at Southeastern University"

Two references: one professional and one personal

Master of Education in Exceptional Student Educational Therapy

A bachelor's degree from a regionally accredited institution with a cumulative GPA of 3.0 or higher (official transcript required)

An essay on the topic: "Why I want to pursue my master's degree at Southeastern University"

Two references: one professional and one personal

Certificate in Dyslexia Education

Official transcripts for a bachelor's degree from a regionally accredited college or university

Master of Education in Literacy Education

A bachelor's degree from a regionally accredited institution with a cumulative GPA of

3.0 or higher (official transcript required)

An essay on the topic: "Why I want to pursue my master's degree at Southeastern University"

Two references: one professional and one personal

Master of Education in Teaching English to Speakers of Other Languages

A bachelor's degree from a regionally accredited institution with a cumulative GPA of 3.0 or higher (official transcript required)

An essay on the topic: "Why I want to pursue my master's degree at Southeastern University"

Two references: one professional and one personal

Doctor of Education Admission Requirements

A regionally accredited graduate degree with at least a 3.0 GPA on a 4.0 scale

A minimum of three full-time years of successful experience in a related field

For non-native English speakers, a current TOEFL score at the mean level or higher

Current professional vita

A two- to three-page Christian faith statement

A professional writing sample (minimum five pages): e.g., articles, graduate research papers/assignments, published work, etc.

Two professional references

Background check consent form

Consent to comply form

Failure to meet one of these standards may not immediately disqualify a candidate depending upon the strength of the other components. For example, an applicant with a 3.5 GPA but only two years of experience may still be considered by the graduate admission committee. Other requirements are detailed on the application. Applicants are considered on a case-by-case basis, and the decision of the committee is final.

General Admission Information

Aviation Program

Aero Program

Students interested in pursuing the Southeastern University Aviation Program will first need to fill out an interest form here: https://www.seu.edu/academics/programs/aviation/

Once submitted and received, the student will receive communication from their admission counselor to submit an approval form for the Aviation Program. The approval form can be filled out and submitted here: https://docs.google.com/forms/d/1ATSO2xywT3D6sEOqmJByHh6tx8-SEb_pD-44meu2 oDM/edit

Once the approval form is received from the student, the student's admission counselor will wait to hear from Dr. Joe Childs, the Director of the Aviation Program, on whether or not the student is approved for the program.

If the student is approved, the student's admission counselor will email the student with a link to submit an SEU application here: https://portal.seu.edu/info?apply=1&category_id=10

Once the student applies and their application is received, they will be required to submit the following documents in order to be considered for admission:

Professional Reference Form

Aviation Essay of at least 400 words (prompt: In at least 400 words, Describe your spiritual journey and how you see yourself as a good match for Southeastern University's academic and spiritual environment, and why you wish to study aviation and become a professional pilot)

Official High School Transcript with High School Graduation Date

Official College Transcripts (if applicable)

Once the admission department has received all of the required admission documents, the student's admission counselor will review the student's file for acceptance and send them a letter of acceptance via email.

Before acceptance, the student's admission counselor will consider the following:

Student's GPA on high school and/or college transcripts: GPA must be a 2.0 or higher. If a student's GPA is below a 2.0, a letter of appeal may be requested from the student.

Student's community life statement answers on their application: Student must have accepted Jesus Christ as their Lord and Savior, and agree to abide with Southeastern University's community life Statement. If a student has been dismissed from a school for academic or disciplinary reasons, an appeal letter may be requested from the student. If a student has been convicted of a felony, the student will be required to submit a background check through Southeastern University's partnership with Castle Branch. Instructions will be provided to the student from their admission counselor on how to submit the background check. The student will be required to pay for the background check.

The length and material in the student's essay.

All of these items are subject to further review.

General Admission Information

LKPD Program

LKPD Program

This is an accelerated, online Criminal Justice degree program offered to Lakeland Law Enforcement/City of Lakeland employees. This program is offered at a discounted rate, allowing students to pursue their degree at only $189 per credit hour. In addition, students can automatically earn 24 credits for police academy training, and 21 credits for practical field experience (evaluated by the Registrar's Office, and James Roberts).

Law Enforcement/City of Lakeland Employees interested in the program must apply at seu.edu/cityoflakeland.

Once applied, students are required to submit the following:

Professional Reference

Proof of Employment (Police Photo I.D., pay stub, letter from superior, etc.)

High School Transcripts

Any College Transcripts

If College transcripts do not indicate Police Academy Training, students must request that a Verification Letter be sent to our offices by their overseer. This will enable students to earn 24 credits towards their degree.

Academic Complaint & Appeal Policies

Student Complaint and Appeal Policies

Southeastern University has instituted the following procedures for student complaints and adheres to these procedures. All students are free to submit written complaints and appeals. Appeals and complaints are dealt with fairly and judiciously on a case-by-case basis. Students have the right of complaint and appeal in the following instances:

Transfer Credit Appeals

Transfer students have the right to appeal transfer credit decisions made by the Office of the Registrar. The student must write a letter of appeal accompanied by any additional documentation requested by the Office of the Registrar. The appeal will be reviewed by the appropriate academic department chair/college dean with additional documentation and the student will be notified of the decision rendered.

Course Appeals

A student who has an unresolved issue in a course after communicating with the instructor is encouraged to appeal to the Chair or Dean of the discipline of the course. If the student is unable to meet with the Chair or Dean, he/she may meet with the Registrar to receive assistance in bringing a resolution.

Advising/Registration/Degree Completion Appeals

If a student has an unresolved issue related to degree completion, application of transfer of credit toward degree requirements, or advising questions—and has not received satisfactory answers from their assigned Faculty or Staff Academic Advisor—they may appeal to the Director of Academic Advising. The Director will respond via email or schedule a meeting to review the student's concerns with the goal of ensuring successful degree completion. If the issue remains unresolved after this meeting, the student may escalate their appeal to the Provost for further resolution.

If there are issues related to the non-responsiveness of an advisor, students should contact advising@seu.edu.

Academic Suspension Appeals

A student may appeal an academic suspension if there are valid extenuating circumstances that contributed to poor academic performance. The student must submit a complete academic suspension appeal with supporting documentation addressed to the Academic Condition Committee by the deadline provided in the notice of suspension. If the appeal is granted, the student will be permitted to continue enrollment without a period of suspension, thereby continuing enrollment on academic probation. The student must agree to a set of conditions that must be met until the student has successfully raised the cumulative G.P.A. to the minimum of 2.0. If the student fails to meet one or more of the conditions, an academic suspension dismissal notice will be issued.

Course Registration Appeals

Course drops after a semester drop/add deadline are not permitted without a written appeal from the student to the Office of the Registrar. The appeal must contain reasons that justify such an exception to the deadline. Students may submit a course drop appeal in JICS. The outcome of a student appeal request will be based on the student’s financial aid awarded, the point in time during the semester, and other contributing factors. A class that has been attempted cannot be dropped without an approved written appeal after the add/drop deadline.

Late Registration Appeals

Late registration after the add/drop deadline is permitted only by the permission of the Registrar and requires a written appeal. Students may submit a late registration appeal in JICS.

Grades and Quality Point Appeals

Students who wish to appeal a grade must do so within the immediate succeeding semester. Otherwise, the recorded grade is permanent. Appeals begin with the instructor, then the Department Chair over the course, then the Dean over the course, if necessary.

Academic Complaint & Appeal Policies

Non-Academic Complaints & Appeals

Non-Academic Student Complaint/Appeal Process

Students with a complaint or problem concerning student life that is non-academic in nature should go to the Community Coordinator, Campus Life or the Office of Student Development. Financial problems, questions and issues regarding student accounts should be addressed in Student Financial Services. Residential concerns should be directed to Campus Life. Student complaints and appeals will be addressed promptly. Requests for problem resolution may be submitted in writing. Students are welcome to visit the Retention Coordinator to get help with solving issues, including financial, residential, or academic when the student is unsure of where to go for a resolution.

Southeastern has a responsibility to respond quickly, equitably, and effectively when the university becomes aware of sexual misconduct and any other conduct that is motivated by sex, gender, or gender-expression that creates a hostile educational environment for Southeastern students. Southeastern is committed to prevention of all forms of sexual misconduct as well as the protection and rehabilitation of victims of such acts. Investigations of reported conduct must be impartial and reliable. Responses to reported conduct must adequately stop the behavior, prevent its recurrence, and address its effects. Southeastern University is committed to upholding Title IX of the Education Amendments of 1972 (20 U.S.C. § 1681). The Statute is an all-encompassing federal law that prohibits discrimination on the basis of sex of students and employees of educational institutions that receive federal financial assistance.

Title IX reads:

“No person in the United States, shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance…” Title IX of the Education Amendments of 1972, and its implementing regulation at 34 C.F.R. Part 106 (Title IX).

For Southeastern’s full Sexual Misconduct Policy, please see www.seu.edu/titleix

Student Disciplinary Appeal Process

If students are dissatisfied with the outcome of a CSR proceeding, they have the opportunity to submit an appeal.

All appeals must be done in writing and submitted to the Office of CSR by the deadline stated in the final decision letter. It is the University’s expectation that the appeal is written by the student. Students have the opportunity to request an appeal on one or both of the following two grounds:

i. There was procedural misconduct by the Hearing Panel which was prejudicial to the accused student or;

ii. The educational outcome(s) imposed was inappropriate for the violation of University policy.

There are no other grounds for appeal. Attempted appeals that are not based on any of the grounds listed may be dismissed without further meeting or action.

CSR submits all appeals to the Appellate Officer for consideration.

The appeal will be limited to the record of the initial hearing or administrative review, supporting documents, and the written appeal. New evidence or other relevant facts not part of the original hearing will not be considered. The Appellate Officer or designee will determine whether there is sufficient basis for modifying the original decision. The appealing student has the burden to establish sufficient grounds for modifying the original decision.

The Appellate Officer or designee will take one of the following actions on all appeals:

i. Affirm the original decision and uphold the original educational

ii. Affirm the original decision but modify the original educational outcomes;

iii. Overturn all or part of the original decision and uphold, modify, or remove the educational outcome (s) appropriately; or

iv. Remand the case to be re-reviewed by a different Hearing Panel.

The appealing student will be informed in writing of the outcome of any appeal within five (5) business days of the date on which all requested information is received unless the Appellate Officer or its designee determines that additional time is required.

Financial Appeals

Financial problems, questions, and issues regarding student accounts should be addressed to the Office of Student Financial Services. Student complaints and appeals will be addressed promptly. Requests for problem resolution must be submitted in writing.

Bias Incident Reporting

Southeastern has a responsibility to respond quickly, equitably, and effectively when the university becomes aware of a bias incident and/or other conduct that creates a hostile educational environment for Southeastern students. Southeastern is committed to the prevention of all forms of misconduct as well as the protection and rehabilitation of victims of such acts. Investigations of reported conduct must be impartial and reliable. Responses to reported conduct must adequately stop the behavior, prevent its recurrence, and address its effects. The Bias Incident Response Team provides oversight of any Bias Incident policy and procedures.

The Bias Incident Response Team’s purpose is to help assess whether a behavior, event or action may be bias-related, to assist in ensuring that appropriate policies, procedures and protocols are applied, to help the University take a timely and comprehensive approach to addressing incidents, and to aid in communication with the University community about incident-related concerns.

This team consist of the following individuals as needed:

- Chief Diversity Officer
- Title IX Director
- Director of Community & Student Responsibility

- Vice President of Student Development

These procedures are for non-emergency incidents only.

For emergencies, including safety concerns for members of our community:

- Dial 911, then contact the Department of Campus Safety at (863-667-5190) or security@seu.edu, or call local police.

For health concerns:

- Contact the Student Health Center at (863.667.5180).

For gender discrimination, sexual harassment, or sexual assault:

- Contact the Title IX office at (863.667.5236) or smpowell@seu.edu.

Academic Complaint & Appeal Policies

General Complaint Policy for Extension Site and Out of State Students

Any general complaints and appeals, not outlined explicitly in the University's Complaint & Appeal Policy should be directed to the Dean of Academic & Extension Operations, including concerns related to academic coursework and faculty, technology, and other aspects of the student experience. Please direct all such concerns to SiteSupport@seu.edu.

Out-of-state (i.e., non-Florida) distance education students who are not satisfied with the institution's response should follow the steps outlined in the State-Specific Complaint Policies. Students enrolled in face-to-face courses at locations other than the main campus should refer to the state-specific complaint policies below. Out-of-state (i.e., non-Florida) distance education students must first follow the institution's complaint procedure as outlined above. If the student is not satisfied with the response, the student may file a complaint with the Office of Articulation within the Florida Department of Education at 325 West Gaines Street, Room 701, Tallahassee, Florida 32399-0400, Phone: 850-245-0427, Fax: 850-245-9010 or articulation@fldoe.org The complaint should include the following:

1. Name of Student (or Complainant)
2. Complainant Address
3. Phone Number
4. Name of Institution
5. Location of the Institution (City)
6. Dates of Attendance
7. A full description of the problem and any other documentation that will support your claim such as enrollment agreements, correspondence, etc.

Students who have completed the internal institutional grievance process and the applicable state grievance process may appeal non-instructional complaints to the FL-SARA PRDEC Council. For additional information on the complaint process, please visit the FL-SARA Complaint Process page.

Academic Complaint & Appeal Policies

State-Specific Complaint Policies

Listed below are additional complaint policies for the SEU Network programs categorized by states.

Arizona

In accordance with state law, the Arizona State Board for Private Postsecondary Education is responsible for investigating student complaints against Educational institutions licensed by this Board. Pursuant to Arizona Administrative Code Rule R4-39-403, the complaint procedure is stated as follows: If the student complaint cannot be resolved after exhausting the Institution's grievance procedure, the student may file a complaint with the Arizona State Board for Private Post-Secondary Education. The student must contact the State Board for further details. The State Board address is: 1740 West Adams, Suite 3008, Phoenix, AZ 85007. Phone: 602/542-5709. Website: ppse.az.gov/complaint

California

A student or any member of the public may file a complaint about this institution at any time with the Bureau for Private Postsecondary Education by calling 1 (888) 370-7589 or by completing a complaint form, which can be obtained on the bureau's internet Web site, www.bppe.ca.gov. For more information go to the Bureau website.

Louisiana

The Louisiana Board of Regents will refer student complaints to the appropriate entity. Louisiana Board of Regents telephone (225) 342-4253. If the complaint pertains to potential violations of consumer protection, Board of Regents staff will direct the complainant to: Consumer Protection Division, (800) 351-4889. If the complaint discerns discrimination, the Board of Regents will refer the complainant to: Office for Civil Rights, Dallas office, U.S. DOE, (214)661-9600 or **via email to:** OCR.Dallas@ed.gov

Minnesota

Students should first file their complaints at the institution where they are enrolled. If after following proper policy and procedures for appeals, the complaint has not been resolved, then contact the Minnesota Office of Higher Education, 1450 Energy Park Drive, Suite 350, St. Paul, MN 55108, telephone: 651-259-3975 or 1-800-657-3866 or secure fax 651-797-1664, email: betsy.talbot@state.mn.us. Website: https://www.ohe.state.mn.us

Nevada

More information, including complaint forms, is available at the state website. Or contact: Commission on Postsecondary Education, 2800 E. St. Louis Avenue, Las Vegas, NV 89104, (PH) 702-486-7330.

North Carolina

The State Authorization Unit of the University of North Carolina System Office serves as the official state entity to receive complaints concerning post-secondary institutions that are authorized to operate in North Carolina. If students are unable to resolve a complaint through the institution's grievance procedures, they can review the Student Complaint Policy (PDF) and submit their complaint using the online complaint form at Student Complaints Site.

For more information contact:

North Carolina Post-Secondary Education Complaints
223 S. West Street, Suite 1800
Raleigh, NC 27603
(919) 962-4550

To file a complaint with the Consumer Protection Division of the North Carolina Department of Justice, please visit The State Attorney General's web page at: NCDOJ site. North Carolina residents may call (877) 566-7226. Outside of North Carolina, please call (919) 716-6000. En Espanol (919) 716-0058. If you choose to mail a complaint, please use the following address:

Consumer Protection Division
Attorney General's Office
Mail Service Center 9001
Raleigh, NC 27699-9001

Oklahoma

Student Complaint and Grievance Policy: Oklahoma Residents

Students who are enrolled in an in-person instructional program or location in Oklahoma should first attempt to resolve any issues or grievances through People's Church's internal institutional grievance procedures, as detailed in the Academic Catalog.

Students are expected to follow the institution's established internal complaint process through the highest administrative level available before seeking external review.

Filing a Complaint with the State of Oklahoma

If a student believes that People's Church is operating out of compliance with applicable state laws, and the concern has not been adequately addressed after exhausting all internal administrative pathways, the student may submit an external request for review to the Oklahoma State Regents for Higher Education (OSRHE).

Eligibility Criterion: Per OSRHE requirements, state-level complaints must be submitted within one year of the institution's final decision to be eligible for review.

Agency Submission Portal: Complaints must be formally processed through the OSRHE State Law Compliance Student Complaint Form.

Contact Information for State Oversight

Unresolved grievances can be sent or directed to the state governing body at:

Oklahoma State Regents for Higher Education
655 Research Parkway, Suite 200
Oklahoma City, OK 73104
Phone: (405) 225-9100
Website: okhighered.org/current-college-students/complaints

Consumer Protection Escalation Pathway

For general consumer protection fraud or deceptive business practices, students may also contact the state legal authority:

Oklahoma Attorney General's Office
Consumer Protection Unit
313 NE 21st Street
Oklahoma City, OK 73105
Website: oag.ok.gov/consumer-protection

Tennessee

Students should first file their complaints at the institution where they are enrolled. If the complaint has not been resolved by the institution, any person claiming damage or loss as a result of any act or practice by this institution that may be a violation of the Title 49, Chapter 7, Part 20 or Rule Chapter 1520-01-02 may file a complaint with the Tennessee Higher Education Commission (THEC), Division of Postsecondary State Authorization (DPSA). 312 Rosa L. Parks Ave., 9th Floor, Nashville, TN 37234-1102; telephone: 615-253-8857 or email: Julie.Woodruff@tn.gov.

Texas

To file a complaint, follow the complaint procedures in the school's catalog. If the issue is not resolved, contact either the Texas Workforce Commission's Career School or the school's accrediting agency. Unresolved grievances can be directed to Texas Workforce Commission Career Schools and Colleges, Room 226T, 101 East 15th Street, Austin, TX 78778, (512) 936-3100, http://www.twc.state.tx.us/partners/career-schools-colleges-resources. If the school is not accredited by a recognized accreditor but has degree-granting authority, send a written complaint to the Coordinating Board at Texas Higher Education Coordinating Board, Academic Affairs and Research, P.O. Box 12788, Austin, TX 78711. For more information go to the state website.

Virginia

If a student is currently living in Virginia and is enrolled in the extension site program, please be informed of the following complaint policies in addition to the Extension Site Complaint Policy: As a last resort, students may submit their complaint to the State Council of Higher Education for Virginia. Students will not be subject to unfair action or treatment by any school official as a result of filing a complaint. Please contact SCHEV at (804) 371-2285 if you have any questions about the student complaint procedure.

Washington

The Washington Student Achievement Council (WSAC) has the authority to investigate student complaints against specific schools. WSAC may not be able to investigate every student complaint. Visit https://www.wsac.wa.gov/student-complaints for information regarding the WSAC complaint process.

Academic Complaint & Appeal Policies

ADA Appeals

ADA Appeals

Office of Academic & Auxiliary Services

Appeal Procedure

The Office of Academic and Auxiliary Services has adopted the following appeal and grievance procedures for prompt and equitable resolution of disputes relating to disability accommodations or the accessibility of academic programs.

Student Appeals of Accommodation Decisions

If a student disagrees with the decision of the Office of Academic & Auxiliary Services regarding a request for an accommodation, the student may submit a request for reconsideration within thirty (30) days of the decision. A request for reconsideration must be directed in writing to the Director of the Office of Academic & Auxiliary Services. Requests for reconsideration should identify the specific accommodation requested and denied, a statement regarding why the accommodation is reasonable and necessary, relevant supporting documentation from a licensed medical or mental health professional, or a 504 Plan or IEP from High School dated within 10 years.

Upon receipt of the request for reconsideration, the Director of the Office of Academic & Auxiliary Services will undertake a thorough review of the student's documentation and request for accommodations. A follow-up meeting may be scheduled with the student to discuss the request in more detail. The Director of the Office of Academic & Auxiliary Services may consult with other university officials as a part of the decision-making process and may share information about the student's disability with these officials or committees on a limited, need-to-know basis. The Director of the Office of Academic & Auxiliary Services will notify the student in writing of the decision within five (5) working days of receipt of the request for reconsideration.

If a student is dissatisfied with the outcome of the request for reconsideration, the student may submit a formal appeal to the Associate Provost, Anthony Roberts, at arroberts@seu.edu. Appeals must be submitted within seven (7) working days of the reconsideration decision by the Director of the Office of Academic & Auxiliary Services. The Associate Provost may request a follow-up meeting with the student as a part of the decision-making process. The Associate Provost may consult with other university officials or committees as a part of the decision-making process and may share information about the student's disability with these officials or committees only on a limited, need-to-know basis. The Associate Provost will issue a written decision on the appeal within ten (10) working days.

If a student is dissatisfied with the outcome of the appeal to the Associate Provost, the student may submit a formal second-level appeal to the Provost. Appeals to the Provost must be submitted by email to Dr. Aimee Franklin at avfranklin@seu.edu within seven (7) business days of receiving the decision from the Associate Provost. The Provost or the Provost's designee may request a follow-up meeting with the student as a part of the decision-making process. The Provost or the Provost's designee may consult with other university officials or committees as a part of the decision-making process and may share information about the student's disability with these officials or committees only on a limited, need-to- know basis. The Provost or the Provost's designee will issue a written decision on the appeal within ten (10) working days.

These appeal procedures do not prohibit students from requesting new or modified accommodations based on a change in circumstances, such as new courses or activities, new medical conditions or disabilities, or changes to existing medical conditions or disabilities. Requests for new or modified accommodations should be submitted to the Office of Academic & Auxiliary services at adaservices@seu.edu.

Grievance Procedure

Students with questions, concerns, or grievances relating to the implementation of an accommodation or the accessibility of academic programs should contact the Office of Academic & Auxiliary Services at adaservices@seu.edu. A staff member in the Office of Academic & Auxiliary Services will promptly contact the student to discuss the concern. The Office of Academic & Auxiliary Services will work collaboratively with the student and the academic program to informally resolve the concern. If a student is still dissatisfied with the outcome of the informal resolution, the student may submit a formal grievance to the Associate Provost, Anthony Roberts, at arroberts@seu.edu. The Associate Provost will also coordinate with the appropriate Department Head and/or Dean's Office to review the grievance. The Associate Provost will issue a written decision on the grievance within ten (10) working days.

If a student is dissatisfied with the outcome of the grievance resolution by the Associate Provost, the student may submit a formal second-level grievance to the Provost.

Grievances to the Provost must be submitted by email to Dr. Aimee Franklin at avfranklin@seu.edu. The Provost or the Provost's designee may request a follow-up meeting with the student as a part of the decision-making process. The Provost or the Provost's designee may consult with other university officials or committees as a part of the decision-making process and may share information about the student's disability with these officials or committees only on a limited, need-to-know basis. The Provost or the Provost's designee will issue a written decision on the grievance within ten (10) working days.

Adapted from Carnegie Mellon University Policy – lcb June/October 2021

Financial Policies

Registration and Payment Options

Payment Responsibilities and Requirements

Students who register for classes at Southeastern University assume responsibility for tuition and fees generated from that registration, including any room, meals, and miscellaneous charges, as applicable. Failure to make satisfactory financial arrangements can result in the delay of graduation, denial of registration privileges, removal from classes, withholding of transcripts, and/or referral to a collection agency. Any unauthorized balance not covered by financial aid is due and payable in full 30 days prior to the first day of class.

If a student decides not to attend the course(s) for which they are registered, it is the student's responsibility to drop the course(s) by the published add/drop date (date varies by semester) to avoid any financial liability.

Students are also responsible for past-due balances on their accounts. The account balance must be paid in full before registering for a future semester.

Students may not owe a refund on any federal grant or federal loan, nor be in default on any loan or have made satisfactory arrangements to repay any defaulted loan. Students must not have borrowed in excess of the Title IV loan limits at any institution. Students agree that they will use any money received under a Title IV loan, grant, or work-study program only for expenses related to their education. Students must understand that the amount of any repayment is based on regulations published by the U.S. Department of Education.

Students whose accounts are referred to a collection agency will be liable for all reasonable collection costs, including attorney fees and other charges necessary for collection of this debt. By registering for classes, students acknowledge receipt of this information and their acceptance of the associated responsibilities.

Payment Plans

In a continuing effort to assist the families of our students, Southeastern University has partnered with Nelnet's Campus Commerce to administer the Southeastern University payment plan as an alternative to standard payment arrangements. Families have the option to pay university-billed expenses in regular monthly payments. Parents and/or students determine how much of the expenses they wish to pay in equal monthly payments. Nelnet's payment plan system can also aid in budget planning.

The Southeastern University payment plan provides the benefits of a monthly payment plan without finance charges. The only cost is the enrollment fee to cover administrative expenses. Plans are available on a per-semester basis for the Fall and Spring semesters.

Several Payment Plans for Your Convenience

Five-Month Plan—Fall Term

This plan is budgeted in five (5) equal monthly payments for the fall semester. The first monthly payment, plus the enrollment fee, is due by June 29th. Payments are due on the first day of each month thereafter.

Four-Month Plan—Fall Term

This plan is budgeted in four (4) equal monthly payments for the fall semester. The first monthly payment, plus the enrollment fee, is due by July 28th. Payments are due on the first day of each month thereafter.

3-Month Plan- Fall Term

This plan is budgeted in three (3) equal monthly payments for the fall semester. The first monthly payment, plus the enrollment fee, is due at the time the payment plan is set up. Subsequent payments are due by the first day of October and November.

Five-Month Plan—Spring Term

This plan is budgeted in five (5) equal monthly payments for the spring semester. The first monthly payment, plus the enrollment fee, is due by November 29th. Payments are due on the first day of each month thereafter.

Four-Month Plan—Spring Term

This plan is budgeted in four (4) equal monthly payments for the spring semester. The first monthly payment, plus the enrollment fee, is due by December 28th. Payments are due on the first day of each month thereafter.

3-Month Plan- Spring Term

This plan is budgeted in three (3) equal monthly payments for the spring semester. The first monthly payment, plus the enrollment fee, is due at the time the payment plan is set up. Subsequent payments are due by the first day of March and April.

Summer Term

Payment plans are not available during the Summer term.

How to Enroll

Southeastern's affordable, no interest monthly payment plans are available to all students and families, regardless of need or financial standing. There is no approval process, and the only cost required is a nominal enrollment fee. Payments must be made in U.S. dollars.

To enroll in a plan each semester, visit https://mycollegepaymentplan.com/southeastern or through MyPortal under the Payment Plan link. Questions concerning the Southeastern University Payment Plan should be directed to Student Financial Services at sfs@seu.edu or to our 3rd-party payment plan provider, Nelnet, at 1-800-609-8056.

Direct Payments

Direct one-time payments can be made through Nelnet Campus Commerce. Students can access their payment portal through MyPortal (formerly JICS) by clicking on the tab for "Student Finances" and navigating to the link, Nelnet Student Financial Information.

Billing

Students may access their account information online. Parents may access the student's account information online with permission from the student granted via the parent portal. Students are responsible for reviewing the account online on a regular basis (monthly review is encouraged).

How to Review Account Balances

1. Go to Southeastern website: www.seu.edu
2. At the top of the homepage, choose Login.
3. You will be prompted to log in. Enter your username and password to log in.
4. Choose the MyPortal (formerly JICS) - Student Info Portal
5. A new tab will open. Click on the Student Finances tab.
6. Click on Nelnet Student Financial Information.
    - Nelnet Campus Commerce is a 3rd-party system SEU has partnered with to deliver real-time account integration, direct payment, and payment plans all in one place.
    - The Campus Commerce home page has the Total Balance as well as options for reviewing transaction details, making payments, or setting up payment plans.

Payment Requirements for Special Programs

Students enrolled in Directed Study courses or special study programs, not a part of the regular semester, are required to make payment in full by the first day of classes. Internships are charged an internship fee and hourly tuition.

Summer School

Summer school students are required to pay for summer school charges by the first day of classes.

Food Services

Students living on campus are required to choose a meal plan. If no choice is made, the 10-meal plan will be selected for you. Meal plans are not transferable, usable beyond limits indicated, or refundable for meals not used.

Southeastern University's Flight and Ground Training Fees

Courses under AVIP or AVIM have additional course fees and the cost breakdown can be found on the Aviation webpage at https://www.seu.edu/aviation/. University students shall be charged fees for flight and ground training delivered by the contracted vendor when enrolled in a corresponding University course.

1. Fees reflect the estimated training required for the average student to complete each course. For students that exceed the estimated cost additional flight hours and/or ground instruction will be billed at prevailing hourly rates. Fees do not include the costs of repeat FAA check-rides or knowledge exams.
2. University reserves the right to impose a fuel surcharge should fuel prices rise dramatically.
3. Students will be refunded unused flight training fees at the prevailing hourly rates if they withdraw prior to completing a course, or complete the course with fewer hours, or using less-expensive aircraft.
4. Students will be charged a $100 fee for a no-show on a scheduled flight lesson.

Refund Policy

Southeastern University is committed to providing excellent teaching and learning experiences through face-to-face, hybrid, and remote instruction. As the university has invested in instructional design of courses, their delivery and associated materials, in the event that any of the following occurrences causes or requires Southeastern University to suspend classes, move to online or remote education, close down the University campus, close on or off campus housing, or otherwise not operate the University in its normal and customary manner, the University shall not be required to provide students any refunds or credits for tuition and fees, meal plans, housing, insurance, or any other fees and costs paid to or owed to the University.

Any refunds or credits, if any, paid by or determined to be paid by the University to students, shall be deemed voluntary and not mandatory, and students shall not have any right to, claim to, or legal cause of action for any refunds or credits:

1. Federal, State of Florida, Polk County, or City of Lakeland governmental orders, ordinances, or decrees;
2. Hurricanes, tornadoes, earthquakes, floods, fires, explosions, or other Acts of God or natural disasters of any kind;
3. Interruption of utility service or services not temporary in nature;
4. Pandemics, epidemics, or other significant outbreaks of disease;
5. Riots or insurrections;
6. Acts of terrorism;
7. Protests; or
8. Any other situation or unforeseen event, not specifically enumerated, which requires the University to take the actions set forth above.

In compliance with Nevada State Legislation (NRS 394.449), any refunds for students at the Las Vegas, Nevada Extension Site will be paid to the to the person or entity who paid the tuition or fees within 15 calendar days after the (a) date of cancellation by a student of his or her enrollment; (b) date of termination by the institution of the enrollment of a student; (c) last day of an authorized leave of absence if a student fails to return after the period of authorized absence; (d) last day of attendance of a student; or (e) whichever is applicable.

Please refer to the section on Tuition, Fees and Financial Aid for more information, or address specific questions to Student Financial Services.

Refunds of Room, Meal Plans, and Fees

Room: Rooms are reserved for each student for an entire semester. After add/drop, no refund of room charges is made except in cases of withdrawal from the university, severe illness, or incapacity.

Meal Plans: Following the add/drop period, cancellation of a meal plan can only be made if a meal plan exemption has been approved for dietary restrictions or if a student withdraws from the university. The meal plan will be refunded on a prorated weekly basis.

Fees: Course material, general, technology, and student fees are not refundable after the add/drop period for classes lasting sixteen weeks or more. For courses lasting eight weeks or less, course material, general, technology, and student fees are not refundable after calendar day 3 of the course (applicable to Session A courses. See Session B information for limitations on Session B drops).

Internship fees are not refundable after the first week of the internship.

Fees are non-refundable after the first week of classes. In some cases, state refund requirements may supersede institutional policy.

University Withdrawals and Refunds of Tuition

When a student submits a written notice of withdrawal to the Admission Office or the Office of the Registrar prior to the first day of classes, a full refund (100%) of institutional charges is made. If a student withdraws from the university on or before the add/drop deadline, as defined in the academic calendar annually, tuition will be refunded according to the schedule below:

Sixteen-Week Classes

A course dropped the week the class begins in a 16-week semester will receive a 100% refund. During each consecutive week, the refund is reduced by 25% each week. After the third full week of classes, no refund is granted. Example:

- Until the expiration of the add/drop period (the add/drop period typically occurs within the first week of a semester): 100% of tuition and fees
- After add/drop period, the student refund is reduced by 25% of tuition for each week thereafter.
- After the add/drop through the 2nd full week of class - 75% of tuition
- After the 2nd full week of class up to the third full week of class - 50% of tuition
- After 3rd full week of class and up to the fourth full week of class - 25% of tuition
- After the 4th full week of class: No refund

Classes lasting 8 weeks or less

Session A courses:

A course dropped up to or on the first day and for the succeeding two (2) calendar days thereafter will receive a 100% refund. After the third calendar day, the refund is reduced by 25% based on the schedule below:

- Upon commencement of the class (Day 1) and for the succeeding two (2) calendar days thereafter, the student will qualify for a 100% refund of tuition and fees.
- Calendar days 4-6: 75% of tuition
- Calendar days 7-9: 50% of tuition
- Calendar days 10-13: 25% of tuition
- After Calendar Day 13 of classes: No refund

Session B courses:

Students who begin the semester with Session B courses (who were not enrolled in Session A) may have their courses dropped up to or on the first day and for the succeeding two (2) calendar days thereafter to receive a 100% refund. After the third calendar day, no refund is given.

Credit Balances and Refunds

Disbursement of financial aid occurs according to federal regulations. If a credit balance results once federal financial aid is applied to a student's account, the surplus will be refunded to the student within 14 days of the aid posting date reflected on the student account. The student may elect to have refund disbursements automatically deposited into a checking/savings account. Students who do not enroll in automatic deposit will have their refund mailed to them in the form of a check to the legal home permanent address on file or their university mailbox.

If the credit balance is caused by a Parent PLUS Loan, the refund will be issued either to the parent or the student according to the parent's preference as selected on the PLUS application.

Collections Policy

Unresolved balances after the last day of attendance are considered delinquent and will be sent to the SEU Collections Office. The Collections Office will reach out to students in an attempt to assist with resolving unpaid balances. Students have the option to make one-time payments or set up payment plans in order to resolve the issue. If rectification has not been reached, the account may be reported to one or more of the national credit bureaus.

Return of Federal (Title IV) Funds

The law (34 CFR 668.22) specifies how Southeastern must determine the amount of Federal Student Aid (FSA) that a student has earned when withdrawing from school. The FSA programs covered by this law are: Federal Pell Grants, Federal Direct Subsidized and Unsubsidized Loans, Federal PLUS Loans, Federal Supplemental Educational Opportunity Grants (FSEOG), and, in some cases, certain student state grant aid.

In order for aid to be included in a Return of Title IV funds calculation, a student must be fully eligible to receive these federal funds prior to their withdrawal. Funds considered as aid that could have been disbursed and, consequently, included in the Return to Title IV calculation must meet the following eligibility criteria:

- The Institutional Student Information Record (or ISIR) must have been processed with an official SAI (Student Aid Indicator) by the date of withdrawal,
- The student must have been making Satisfactory Academic Progress,
- For any Direct Subsidized, Unsubsidized, or PLUS Loan, the loan must have been originated by the date of withdrawal.

A student is considered to have withdrawn from a payment period or period of enrollment if the student does not complete all the days in the payment period or period of enrollment that the student was scheduled to complete.

Withdrawal from the University refers to a student's failure to complete the period of enrollment for which he or she was enrolled. There are two types of withdrawals:

- Official Withdrawal

An official withdrawal occurs when the student notifies the Retention Specialist of the intent to withdraw and completes the withdrawal process/form through the appropriate departments on campus. If known, the student's last date of attendance (LDA) is recorded on their withdrawal form and a Return of Title IV funds calculation is completed by the SFS office.

- Unofficial Withdrawal

An unofficial withdrawal occurs when the university discovers that the student has ceased to be enrolled (i.e., is no longer attending classes) and the student did not initiate/complete the withdrawal process.

There are 2 types of unofficial withdrawals:

1. A student has not notified the school of their withdrawal and has ceased attending all of their courses.
2. A student has not earned at least one passing grade in their classes for a period of enrollment (has received either all Fs, all Ws, or a combination of Fs and Ws.)

For unofficial withdrawals, the withdrawal date for the Return to Title IV calculation will be the midpoint of the payment period or period of enrollment OR the last date of documented academic-related activity, if known.

Since SEU may not know that a student has unofficially withdrawn until the end of the semester, funds are returned within 30 days after the end of the earlier of the end of the payment period or period of enrollment or the date that SEU has determined the student has withdrawn.

The amount of financial assistance that a withdrawing student earns is calculated using a Return to Title IV formula.

In the event of a withdrawal (official or unofficial), SEU must calculate the number of days attended and the total number of days that a student was scheduled to complete within the term, including weekends but excluding any scheduled breaks of five days in length or greater. Days attended are divided by the days in the term the student was scheduled to complete, providing a percentage of the payment period the student has completed. The percentage is multiplied by the total aid for which the student is eligible to determine the amount of aid that has been earned.

Days attended / Days in the term scheduled to complete (minus scheduled breaks of 5 days or more) = percentage completed.

Percentage completed x total aid eligible = earned aid

SEU must return the amount of unearned aid, up to the maximum amount received, to each of the Title IV programs in the following order:

- Federal Unsubsidized Direct Loan
- Federal Subsidized Direct Loan
- Federal Direct PLUS Loan
- Federal Pell Grant
- Federal Supplemental Education Opportunity Grant (FSEOG)

Once the student has completed more than 60% of the payment period, all federal financial assistance is considered to be earned.

SEU calculates the amount the student is responsible for by subtracting the amount SEU has returned from the total unearned amount. The remaining amount is the student's share and is allocated in the same order as above.

Total amount unearned

-amount returned by school

= $ amount the student is required to return to Title IV.

If the student did not receive all of the funds that s/he earned, the student may be due a post-withdrawal disbursement. If the post-withdrawal disbursement includes loan funds, Southeastern University must obtain the student's permission within 30 days of the date of determination of withdrawal in order for the funds to be disbursed. A student may choose to decline some or all of the loan funds so that they do not incur additional debt. Southeastern University may automatically use all or a portion of a student's post-withdrawal disbursement of Title IV funds for tuition and housing and meal plan charges (as contracted with the University). The University needs the student's permission to use the post-withdrawal Title IV disbursement for all other school charges. If the student does not give permission, the funds will be offered directly to the student; however, it may be in the student's best interest to allow the school to keep the funds to reduce debt at the school.

A post-withdrawal disbursement to the student's account for charges incurred must be disbursed as soon as possible, but no later than 45 days after the date the school determines the student's withdrawal date. A post-withdrawal disbursement made directly to the student must be disbursed as soon as possible, but no later than 45 days for grants and 45 days for loan funds.

Students who are expelled or who take unapproved leaves of absences are considered to have withdrawn from the University. Furthermore, SEU reserves the right to request a student's withdrawal.

Exemptions:

New regulations in 2020 established withdrawal exemption criteria which, if met, allow a student who has withdrawn or otherwise ceased attendance to NOT be considered withdrawn for Title IV purposes. This means that no Return to Title IV (R2T4) calculation is required for a particular student who meets one of the following exemptions:

Withdrawal exemption for graduates/completers

- A student who completes all requirements for graduation from their program before completing the days in the period that he/she was scheduled to complete is not considered to have withdrawn.
- This exemption applies to all types of programs, whether with or without sessions/modules.
- Withdrawal exemption for programs offered in modules
    - If a student successfully completes one module that includes 49% or more of the total number of days in the payment period (excluding scheduled breaks of five or more consecutive days and all days between modules), the student is not considered to have withdrawn.
    - If a student successfully completes a combination of modules that, when combined, contain 49% or more of the number of days in the payment period (excluding scheduled breaks of five or more consecutive days and all days between modules), the student is not considered to have withdrawn.
    - If a student successfully completes coursework equal to or greater than the coursework required for the institution's definition of a half-time student, the student is not considered to have withdrawn.
    - If a student's tuition and fees are reversed completely, then all aid will be canceled.

The withdrawal exemptions apply to both undergraduate and graduate students as long as the student and program meet the underlying exemption criteria. A student only needs to meet one of the withdrawal exemptions to be exempt from (R2T4).

Financial Aid

Student financial assistance at Southeastern University is provided to eligible students in the form of grants, scholarships, loans and student employment. To apply for financial aid, students must submit an application for admission to Southeastern University and complete the Free Application for Federal Student Aid (FAFSA) at fafsa.ed.gov. Detailed procedures are available online at seu.ed./financial or can be obtained by contacting the University's Student Financial Services Office.

The location of the university in central Florida provides students with many opportunities for part-time employment. The returns from such work, together with savings from summer employment and financial aid, enable many Southeastern students to work their way through college.

Southeastern University recommends that a prospective student contact his/her high school guidance counselor for information about ways to finance an education. Information regarding scholarships for Florida residents may be found at: www.FloridaStudentFinanicalAid.org.

Statement of Educational Purpose/Certification Statement of Refunds and Default

Students may not owe a refund on any federal grant or federal loan, nor be in default on any loan or have made satisfactory arrangements to repay any defaulted loan. Students must not have borrowed in excess of the Title IV loan limits at any institution. Students agree that they will use any money they receive under a Title IV loan, grant, or work-study program only for expenses related to their study at Southeastern University. Students are responsible for repaying any funds they receive which cannot reasonably be attributed to meeting education expenses related to Southeastern University. Students must understand that the amount of any repayment is based on regulations published by the U.S. Department of Education.

Federal Financial Aid Programs

Students are required to take only courses that go towards their degree program. Students are not eligible to take courses outside of their degree programs. Such credits become ineligible for federal or state aid.

Federal Pell Grant

Federal Pell Grants are awarded only to undergraduate students enrolled in a degree-seeking program who display exceptional financial need (as determined by the FAFSA) and have not earned a bachelor's, graduate, or professional degree. (In some cases, however, a student enrolled in a post baccalaureate teacher certification program might receive a Federal Pell Grant.) A Federal Pell Grant, unlike a loan, does not have to be repaid, except under certain circumstances.

All students applying for a Federal Pell Grant (and all other federal financial aid) must complete the Free Application for Federal Student Aid (FAFSA). Students may apply for FAFSA on the Web (StudentAid.gov). Students will receive a FAFSA Submission Summary (FSS) in the mail about two weeks after submitting the online FAFSA (students providing an email address will receive an email with a link to their FAFSA Submission Summary (FSS) immediately).

Based on the information in the FSS and a complete financial aid file, the Office of Student Financial Services will determine the amount of Pell Grant (and other financial aid) to be awarded to the student. This information is communicated by Student Financial Services to the student via the emailed Aid Offer.

Federal Supplemental Educational Opportunity Grant

A Federal Supplemental Educational Opportunity Grant (FSEOG) is a federally funded grant provided to undergraduate students with exceptional financial need. Priority is given to Federal Pell Grant recipients and allocated to the lowest SAI students first. The amount of the grant depends on the amount of verified need (as determined by the FAFSA) and on the availability of federal funds provided to the institution annually.

Federal Work-Study Program

Federal Work-Study (FWS) is need-based financial aid that allows students to work on campus or with an approved off-campus employer and earn money to help pay for educational expenses while they are enrolled. Compensation is minimum wage or higher, and the amount of FWS a student can earn depends on financial need (as determined by the FAFSA), on the amount of other aid received, and on the availability of federal funds provided to the University. Some examples of FWS jobs at Southeastern University included: library assistant, game operations, teacher's assistant, academic tutor, and customer service representative.

FWS is not a grant because a student must work to earn it, and it is not a loan because it does not require repayment.

Federal Direct Student Loans

Federal Direct Subsidized and Unsubsidized Loans

- Criteria: Must file FAFSA and complete additional loan requirements. (entrance counseling and Master Promissory Note)
- Repayment: Loan repayment can be deferred until six months after the student graduates or drops below half-time enrollment.
- Origination fees are deducted by the loan servicer from each loan prior to disbursement.

Federal Direct SUBSIDIZED Loans – For undergraduate students with financial need. The U.S. Department of Education generally pays the interest while a student is in school at least half-time and during certain other periods. Interest rate varies from year to year but is fixed for the life of the loan. Interest does not begin accruing until a student graduates or drops below half-time attendance.

Federal Direct UNSUBSIDIZED Loans – For undergraduate and graduate or professional students; non-need-based. Interest begins accruing as soon as the loan is disbursed, and the borrower is responsible for all interest. Interest rate varies from year to year but is fixed for the life of the loan.

Maximum Total Award Amounts per Year (Based on Eligibility)

Annual Limits for Undergraduate, Dependent Students:

- Freshman (1-29 credit hours): up to $5,500 (maximum $3,500 in subsidized loans)
- Sophomore (30-59 credit hours): up to $6,500 (maximum $4,500 in subsidized loans)
- Junior/Senior (60+ credit hours): up to $7,500 (maximum $5,500 in subsidized loans)

Annual Limits for Undergraduate, Independent Students:

- Freshmen (1-29 credit hours): up to $9,500 (maximum $3,500 in subsidized loans)
- Sophomore (30-59 credit hours): up to $10,500 (maximum $4,500 in subsidized loans)
- Junior/Senior (60+ credit hours): up to $12,500 (maximum $5,500 in subsidized loans)

Annual Limit for Graduate/Professional Students: $20,500 (unsubsidized only)

Subsidized and Unsubsidized Aggregate (lifetime) Loan Limits

- Undergraduate, Dependent Students: $31,000 (maximum $23,000 may be in subsidized loans)
- Undergraduate, Independent Students: $57,500 (maximum $23,000 may be in subsidized loans)
- Graduate/Professional Students: $138,500 (maximum $65,500 may be in subsidized loans). The graduate/professional aggregate limit includes all federal loans received for undergraduate study.

Federal Direct Parent Loan for Undergraduate Student (PLUS)

Federal PLUS loans are for parents who want to borrow to help pay for their dependent student's educational expenses. These loans enable parents with good credit histories to borrow for each dependent child who is enrolled at least half-time. An origination fee is deducted by the lender from each loan prior to disbursement.

Interest rates are fixed for the life of the loan and are determined annually for new loans. Repayment begins immediately after disbursement of funds but can be deferred while the student is enrolled at least half-time. Parents have 10-25 years to repay, depending on the repayment plan chosen.

Students must complete a FAFSA in order to determine the amount of the parent's eligibility for a Federal PLUS loan. The FAFSA can be completed at https://studentaid.gov/. To apply for a Parent PLUS loan, parents should visit https://studentaid.gov/plus-app/.

Financial Aid Programs for Florida Residents

Florida Bright Futures Scholarship Program

Florida Bright Futures Scholarship Program provides scholarship awards to high-achieving students. Each recipient must be a Florida resident, enrolled for at least six (6) hours in an eligible Florida public or independent postsecondary educational institution, and meet all requirements of the scholarship program. Initial eligibility is determined by the Florida Office of Student Financial Assistance. Visit http://www.floridastudentfinancialaid.org/ for additional information.

Florida Student Assistance Grant

The Florida Student Assistance Grant (FSAG) provides aid to students who demonstrate financial need as evidenced by the federal system of needs analysis. In addition to demonstrating need, a student must be a U.S. citizen or permanent resident; a Florida resident for reasons other than education for no less than one year preceding the beginning of the academic year for which application is made; and enrolled or accepted for enrollment as a full-time undergraduate student. A FAFSA must be processed by the U.S. Department of Education by April 15th of the current award year.

Contact the Office of Student Financial Services or a high school guidance counselor for information.

Florida Effective Access to Student Education (EASE) Grant

The Florida Effective Access to Student Education Grant (EASE) provides tuition assistance at eligible independent non-profit Florida colleges and universities for Florida residents. The maximum award amount is specified in the General Appropriations Act. Actual award amounts depend on the level of funding and the number of eligible students. Applicants must be Florida residents, enrolled full-time in a first bachelor's degree program and meeting state requirements in order to receive EASE. For information or application, contact the Office of Student Financial Services.

Southeastern Academic Scholarship Programs

Institutional scholarships, such as academic or departmental scholarships, are awarded to full-time, traditional, undergraduate, main campus students. Please contact the Admission Office for information regarding Academic Scholarships offered annually. Academic scholarships are awarded based on the GPA and/or test scores upon admission to the university and are renewable up to 8 consecutive, full-time semesters with an overall GPA of a 2.0. For more information, visit the https://seu.edu/admission/financial/scholarships/ website.

Other Resources

National Assemblies of God Scholarships

These scholarships are awarded by the General Council of the Assemblies of God.

Third-Party Scholarships

Some third-party scholarship information is available on the Student Financial Services webpage (https://seu.edu/admission/financial/scholarships/). Students are encouraged to seek out additional outside scholarship options on their own.

Alternative Loan Options

Southeastern has partnered with FastChoice to provide a comprehensive listing of reputable Private Loan Lending companies based on historical borrowing by SEU students. FastChoice makes it easy by providing students with information about private loans in an easy-to-understand format to help students determine which private student loan best meets their needs. We encourage all students to consider federal student loan options before making a decision. More information on third-party loan options can be found on the Student Financial Services webpage.

Veterans Education Benefits

Southeastern University is approved by the State Approving Agency of the State of Florida for the education and training of veterans and eligible dependents under public laws in effect. Students who are eligible for educational benefits under any Veterans Administration program should first apply for a Certificate of Eligibility on evabenefits.va.gov and provide a copy of the form to the Student Financial Services Office.

All information, instructions, and procedures are provided on the website: https://seu.edu/admission/financial/veterans/

Students using tuition assistance should first check with their Education Service Officer (ESO) within their military unit for approval.

Students must complete a VA Request for Certification form each year for Southeastern University to provide enrollment certification to the Veterans Administration. Educational Benefits are paid based on the enrollment dates of each session or semester. For example: eight-week courses are paid at the start of each term. These semester hours do vary and differ for our non-traditional student population. A student cannot receive educational benefits for audit courses. VA regulations require that students take courses that are applicable to their degree program, make satisfactory progress toward their degree, and maintain satisfactory attendance for the degree program as stated in the Standard of Progress. Students using VA educational benefits are required to submit all transcripts from prior higher education institutions for evaluation of course credit.

Veterans' benefits will be terminated for students who fail to make satisfactory progress, or who receive dismissal for academic or disciplinary reasons.

Enrollment certification is completed after the drop/add period of each term or semester, whichever is applicable to a student's delivery. The student is responsible for notifying the certifying official at Southeastern University of any enrollment changes such as withdrawal and/or dropped courses or termination of enrollment. The VA student is responsible for any overpayment of benefits resulting from a change in enrollment. The VA toll-free number is 1-888-GIBILL1 (888-442-4551).

Southeastern University is a participant in the Yellow Ribbon Program and will match the charges covered through Yellow Ribbon up to $1200.

How does a student's financial aid interact with the Post 9/11 GI Bill®?

In general, only Title IV Federal Aid (Pell, SEOG, Direct loans, and PLUS loans) will not be affected by VA benefits in any way. In most cases, the student will be refunded Pell grant and/or student loans, or they will be applied toward other expenses like room and board, if applicable.

Other financial aid designated will be applied to a student's total cost of attendance. The student should not expect any refund of SEU scholarships/grants or any other financial aid source, with the exception of Title IV Federal Aid.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website at http://www.benefits.va.gov/gibill.

Southeastern University VA Representative(s):

- Joshua Breed, VA Certifying Official/Director of SFS (jabreed@seu.edu)

Satisfactory Academic Progress (SAP) Policy

Requirements & Eligibility for Financial Aid (Graduate/Doctoral Students)

Students receiving federal financial aid (including Federal Direct Unsubsidized Student Loans, Federal Graduate PLUS loans, and Federal Work Study) must maintain good academic standing with the University to continue eligibility for financial aid awards. To be eligible for financial aid, students must meet certain academic progress requirements as evaluated at the end of each academic year (ending the spring semester). Those requirements include: (1) credit completion ratio, (2) grade point average, and (3) maximum time frame. This policy applies to all graduate/doctoral students enrolled in all degree programs. The periods included in the review include all terms in which the student was/is enrolled, even those during which the student did not receive federal student aid.

1. Credit completion

Students must successfully complete (earn) at least 67 percent (67%) of the credits they attempt in order to maintain satisfactory academic progress.

At the end of the academic year, academic progress will be determined by comparing the number of credits attempted (including any course in which a student was enrolled past the drop/add period) to those actually earned. Note: Accepted transfer credits from another institution are included in both attempted and earned credits.

2. Grade point average (GPA)

Undergraduate students must maintain a minimum overall cumulative 2.0 grade point average (GPA). Graduate/doctoral students must maintain a minimum overall cumulative 3.0 GPA. Students' cumulative GPA will be reviewed by the Student Financial Services office at the end of the academic year (the end of the spring semester).

Treatment of Grades:

Grade	Quantitative (completion) Treatment	Qualitative (GPA) Treatment
A, B, C, D	Attempted & earned	Calculated
F	Attempted & unearned	Calculated
*I (Incomplete)	Attempted & unearned	Not calculated
W, WF, WD	Attempted & unearned	Not calculated
Repeat coursework – A, B, C, D	Attempted & earned	Highest grade calculated
Repeat coursework – F	Attempted & unearned	Calculated
CR, P	Attempted and earned	Not calculated
NC, IP, S	Not attempted or earned	Not calculated
Pass/Fail	Pass – Attempted and earned Fail – Attempted and unearned	Not calculated

Grades included in grade forgiveness are not excluded from the Satisfactory Academic Progress calculations.

*Incomplete (I) grades will be considered in the qualitative (GPA) analysis when completed according to the provisions in the University catalog. When an incomplete grade changes to another grade notation, that change will be picked up in the next SAP review.

3. Maximum timeframe

Students are eligible to receive federal financial aid for a maximum of 150 percent (150%) of the published degree credits required to complete their program. For example, if a graduate degree program requires 60 degree credits, a student is eligible for aid up to 90 attempted credits. Students will not be eligible to receive federal student aid once they have exceeded the maximum timeframe (total attempted credits) of 150 percent of the published degree credits required to complete their program.

Loss of Financial Aid Eligibility

A student will lose financial aid eligibility if he or she does not attain any one or more of the required components at the time of review at the end of the spring semester (annually):

- Minimum 2.0/3.0 cumulative grade point average (GPA)
- Minimum 67% overall credit completion ratio
- Maximum timeframe of 150% or less of the published degree credits required to complete your program.

Financial aid includes all Federal and State scholarships and grants, VA Benefits, Federal Work Study, and Federal Student Loans, including Graduate PLUS loans. Failure to meet any/all SAP requirements will deem the student ineligible for these programs.

Private loan programs and outside financial assistance that do not require a stipulation of meeting satisfactory academic progress are exceptions, and students may maintain eligibility for these types of programs depending on the lender's criteria.

A student may attend the university, at his or her own expense, until the student meets all of the required components of satisfactory academic progress and again regains federal student aid eligibility.

Regaining Financial Aid Eligibility

To regain financial aid eligibility the student's transcript/record must reflect satisfactory academic progress requirements have been met. A student may regain eligibility in one of the following ways:

- Meet satisfactory academic progress requirements: Attend the university or transfer credits from another institution at his/her own expense until the student meets all of the required components of this policy.
- Approved appeal: If a student doesn't meet the required standards because of special circumstances, they can appeal by reaching out to the Office of Student Financial Services. The email they receive about losing eligibility for financial aid will explain how to do this. See the section titled "Right to Financial Aid Appeal."
- Grade change appeal: SAP is reviewed annually at the end of the spring semester. The SAP determination is based on the final grades provided at that time. If there is a grade change that occurs after that review date, an appeal must be submitted for the SAP review to be recalculated. Upon recalculation, if the student is then found to be in good standing as a result of that grade change/update, the student will be eligible for aid to be reinstated so long as it is done before the appeal deadline outlined in their notification from SFS.

Notification of Satisfactory Academic Progress Deficiency

Undergraduate students who are not meeting quantitative (completion ratio) OR qualitative (GPA) satisfactory academic progress are notified by Student Financial Services via email to their assigned SEU student email at the end of the spring semester. Loss of financial aid eligibility is effective immediately.

When a student receives notification of loss of financial aid eligibility at the end of the spring semester and is enrolled in a summer term, he or she will lose financial aid eligibility for summer term courses unless a financial aid appeal has been submitted and approved.

Right to Financial Aid Appeal

A student who has not met SAP (satisfactory academic progress) requirements may appeal the loss of financial aid eligibility if the student has suffered undue hardship such as:

- Severe illness, medical condition, or injury
- Death of a family member
- Traumatic life-altering event such as fire, hurricane, etc.
- Other circumstances deemed acceptable by Southeastern University

A student who wishes to appeal a satisfactory academic progress status due to extenuating circumstances must submit their request to the Student Financial Services office for review. All appeals must have supporting documentation attached at the time they are submitted. Acceptable documentation is outlined on the Satisfactory Academic Progress Appeal for Continued Aid form. To submit an appeal, students must:

- Complete and submit a signed Satisfactory Academic Progress Appeal for Continued Aid form, including supporting documentation (including dates) as outlined on the form. The form is designed to address the following:

1. what the problem was;
2. when the problem occurred;
3. how long the problem lasted;
4. how this affected the student's ability to complete coursework, and
5. what the student is doing to prevent this from happening again.

Appeals and all documentation must be received by the end of the add/drop period in which the student is appealing for aid eligibility. It is to the student's benefit to submit the appeal immediately upon receiving notification of ineligibility.

Appeals are subject to committee review and are not automatically approved.

Approved Appeals

Should an appeal request be approved, the student will be placed on financial aid probation and may receive financial aid on a probationary status for one semester as described in the academic progress agreement provided with the appeal response. Any appeal conditions will be outlined in the academic progress agreement and may include an ongoing academic plan and timeframe for which a student must meet certain requirements to continue to receive financial aid. If a student fails to meet the terms of the agreement or maintain satisfactory academic progress during the period of financial aid probation as assigned, the student will be notified by Student Financial Services of his or her loss of financial aid eligibility, and the loss cannot be appealed again without there being new and extenuating circumstances for consideration.

Annual limits and requirements for awards still impact a student's ability to receive funding and an approved appeal does not automatically enable a student to receive aid in a probationary semester if all funding has already been exhausted for that academic year.

A student is limited to two (2) appeals for his/her degree program. For example, if a student exhausts his/her two appeals as an undergraduate student, he/she still has two appeals as a graduate student.

Denied Appeals

If the appeal is denied, any already awarded federal student aid funds for any upcoming or current semesters or terms will be removed making the student financially responsible and liable for tuition and fees for the term if enrolled. Due to the timing of summer courses and the completion of the SAP review, there may be instances where aid was awarded and disbursed for summer before being aware of the failure to meet SAP requirements. If this occurs, funding will need to be returned without an approved appeal and the student will be liable for all fees.

(NOTE: State programs have separate Academic Progress Requirements.)

Financial Policies

Registration and Payment Options

Payment Responsibilities and Requirements

Students who register for classes at Southeastern University assume responsibility for tuition and fees generated from that registration, including any room, meals, and miscellaneous charges, as applicable. Failure to make satisfactory financial arrangements can result in the delay of graduation, denial of registration privileges, removal from classes, withholding of transcripts, and/or referral to a collection agency. Any unauthorized balance not covered by financial aid is due and payable in full 30 days prior to the first day of class.

If a student decides not to attend the course(s) for which they are registered, it is the student's responsibility to drop the course(s) by the published add/drop date (date varies by semester) to avoid any financial liability.

Students are also responsible for past-due balances on their accounts. The account balance must be paid in full before registering for a future semester.

Students may not owe a refund on any federal grant or federal loan, nor be in default on any loan or have made satisfactory arrangements to repay any defaulted loan. Students must not have borrowed in excess of the Title IV loan limits at any institution. Students agree that they will use any money received under a Title IV loan, grant, or work-study program only for expenses related to their education. Students must understand that the amount of any repayment is based on regulations published by the U.S. Department of Education.

Students whose accounts are referred to a collection agency will be liable for all reasonable collection costs, including attorney fees and other charges necessary for collection of this debt. By registering for classes, students acknowledge receipt of this information and their acceptance of the associated responsibilities.

Payment Plans

In a continuing effort to assist the families of our students, Southeastern University has partnered with Nelnet's Campus Commerce to administer the Southeastern University payment plan as an alternative to standard payment arrangements. Families have the option to pay university-billed expenses in regular monthly payments. Parents and/or students determine how much of the expenses they wish to pay in equal monthly payments. Nelnet's payment plan system can also aid in budget planning.

The Southeastern University payment plan provides the benefits of a monthly payment plan without finance charges. The only cost is the enrollment fee to cover administrative expenses. Plans are available on a per-semester basis for the Fall and Spring semesters.

Several Payment Plans for Your Convenience

Five-Month Plan—Fall Term

This plan is budgeted in five (5) equal monthly payments for the fall semester. The first monthly payment, plus the enrollment fee, is due by June 29th. Payments are due on the first day of each month thereafter.

Four-Month Plan—Fall Term

This plan is budgeted in four (4) equal monthly payments for the fall semester. The first monthly payment, plus the enrollment fee, is due by July 28th. Payments are due on the first day of each month thereafter.

3-Month Plan- Fall Term

This plan is budgeted in three (3) equal monthly payments for the fall semester. The first monthly payment, plus the enrollment fee, is due at the time the payment plan is set up. Subsequent payments are due by the first day of October and November.

Five-Month Plan—Spring Term

This plan is budgeted in five (5) equal monthly payments for the spring semester. The first monthly payment, plus the enrollment fee, is due by November 29th. Payments are due on the first day of each month thereafter.

Four-Month Plan—Spring Term

This plan is budgeted in four (4) equal monthly payments for the spring semester. The first monthly payment, plus the enrollment fee, is due by December 28th. Payments are due on the first day of each month thereafter.

3-Month Plan- Spring Term

This plan is budgeted in three (3) equal monthly payments for the spring semester. The first monthly payment, plus the enrollment fee, is due at the time the payment plan is set up. Subsequent payments are due by the first day of March and April.

Summer Term

Payment plans are not available during the Summer term.

How to Enroll

Southeastern's affordable, no interest monthly payment plans are available to all students and families, regardless of need or financial standing. There is no approval process, and the only cost required is a nominal enrollment fee. Payments must be made in U.S. dollars.

To enroll in a plan each semester, visit https://mycollegepaymentplan.com/southeastern or through MyPortal under the Payment Plan link. Questions concerning the Southeastern University Payment Plan should be directed to Student Financial Services at sfs@seu.edu or to our 3rd-party payment plan provider, Nelnet, at 1-800-609-8056.

Direct Payments

Direct one-time payments can be made through Nelnet Campus Commerce. Students can access their payment portal through MyPortal (formerly JICS) by clicking on the tab for “Student Finances” and navigating to the link, Nelnet Student Financial Information.

Billing

Students may access their account information online. Parents may access the student’s account information online with permission from the student granted via the parent portal. Students are responsible for reviewing the account online on a regular basis (monthly review is encouraged).

How to Review Account Balances

1. Go to Southeastern website: www.seu.edu
2. At the top of the homepage, choose Login.
3. You will be prompted to log in. Enter your username and password to log in.
4. Choose the MyPortal (formerly JICS) - Student Info Portal
5. A new tab will open. Click on the Student Finances tab.
6. Click on Nelnet Student Financial Information.
    - Nelnet Campus Commerce is a 3rd-party system SEU has partnered with to deliver real-time account integration, direct payment, and payment plans all in one place.
    - The Campus Commerce home page has the Total Balance as well as options for reviewing transaction details, making payments, or setting up payment plans.

Payment Requirements for Special Programs

Students enrolled in Directed Study courses or special study programs, not a part of the regular semester, are required to make payment in full by the first day of classes. Internships are charged an internship fee and hourly tuition.

Summer School

Summer school students are required to pay for summer school charges by the first day of classes.

Food Services

Students living on campus are required to choose a meal plan. If no choice is made, the 10-meal plan will be selected for you. Meal plans are not transferable, usable beyond limits indicated, or refundable for meals not used.

Financial Policies

Southeastern University's Flight Training Fees

Courses under AVIP or AVIM have additional course fees and the cost breakdown can be found on the Aviation webpage at https://www.seu.edu/aviation/. University students shall be charged fees for flight and ground training delivered by the contracted vendor when enrolled in a corresponding University course.

1. Fees reflect the estimated training required for the average student to complete each course. For students that exceed the estimated cost, additional flight hours and/or ground instruction will be billed at prevailing hourly rates. Fees do not include the costs of repeat FAA check-rides or knowledge exams.

2. University reserves the right to impose a fuel surcharge should fuel prices rise dramatically.

3. Students will be refunded unused flight training fees at the prevailing hourly rates if they withdraw prior to completing a course, or complete the course with fewer hours, or use less-expensive aircraft.

4. Students will be charged a $100 fee for a no-show on a scheduled flight lesson.

Financial Policies

Refund Policy

Southeastern University is committed to providing excellent teaching and learning experiences through face-to-face, hybrid, and remote instruction. As the university has invested in instructional design of courses, their delivery and associated materials, in the event that any of the following occurrences causes or requires Southeastern University to suspend classes, move to online or remote education, close down the University campus, close on or off campus housing, or otherwise not operate the University in its normal and customary manner, the University shall not be required to provide students any refunds or credits for tuition and fees, meal plans, housing, insurance, or any other fees and costs paid to or owed to the University.

Any refunds or credits, if any, paid by or determined to be paid by the University to students, shall be deemed voluntary and not mandatory, and students shall not have any right to, claim to, or legal cause of action for any refunds or credits:

1. Federal, State of Florida, Polk County, or City of Lakeland governmental orders, ordinances, or decrees;
2. Hurricanes, tornadoes, earthquakes, floods, fires, explosions, or other Acts of God or natural disasters of any kind;
3. Interruption of utility service or services not temporary in nature;
4. Pandemics, epidemics, or other significant outbreaks of disease;
5. Riots or insurrections;
6. Acts of terrorism;
7. Protests; or
8. Any other situation or unforeseen event, not specifically enumerated, which requires the University to take the actions set forth above.

In compliance with Nevada State Legislation (NRS 394.449), any refunds for students at the Las Vegas, Nevada Extension Site will be paid to the to the person or entity who paid the tuition or fees within 15 calendar days after the (a) date of cancellation by a student of his or her enrollment; (b) date of termination by the institution of the enrollment of a student; (c) last day of an authorized leave of absence if a student fails to return after the period of authorized absence; (d) last day of attendance of a student; or (e) whichever is applicable.

Please refer to the section on Tuition, Fees and Financial Aid for more information, or address specific questions to Student Financial Services.

Refunds of Room, Meal Plans, and Fees

Room: Rooms are reserved for each student for an entire semester. After add/drop, no refund of room charges is made except in cases of withdrawal from the university, severe illness, or incapacity.

Meal Plans: Following the add/drop period, cancellation of a meal plan can only be made if a meal plan exemption has been approved for dietary restrictions or if a student withdraws from the university. The meal plan will be refunded on a prorated weekly basis.

Fees: Course material, general, technology, and student fees are not refundable after the add/drop period for classes lasting sixteen weeks or more. For courses lasting eight weeks or less, course material, general, technology, and student fees are not refundable after calendar day 3 of the course (applicable to Session A courses. See Session B information for limitations on Session B drops).

Internship fees are not refundable after the first week of the internship.

Fees are non-refundable after the first week of classes. In some cases, state refund requirements may supersede institutional policy.

University Withdrawals and Refunds of Tuition

When a student submits a written notice of withdrawal to the Admission Office or the Office of the Registrar prior to the first day of classes, a full refund (100%) of institutional charges is made. If a student withdraws from the university on or before the add/drop deadline, as defined in the academic calendar annually, tuition will be refunded according to the schedule below:

Sixteen-Week Classes

A course dropped the week the class begins in a 16-week semester will receive a 100% refund. During each consecutive week, the refund is reduced by 25% each week. After the third full week of classes, no refund is granted. Example:

- Until the expiration of the add/drop period (the add/drop period typically occurs within the first week of a semester): 100% of tuition and fees
- After add/drop period, the student refund is reduced by 25% of tuition for each week thereafter.
- After the add/drop through the 2nd full week of class - 75% of tuition
- After the 2nd full week of class up to the third full week of class - 50% of tuition
- After 3rd full week of class and up to the fourth full week of class - 25% of tuition
- After the 4th full week of class: No refund

Classes lasting 8 weeks or less

Session A courses:

A course dropped up to or on the first day and for the succeeding two (2) calendar days thereafter will receive a 100% refund. After the third calendar day, the refund is reduced by 25% based on the schedule below:

- Upon commencement of the class (Day 1) and for the succeeding two (2) calendar days thereafter, the student will qualify for a 100% refund of tuition and fees.
- Calendar days 4-6: 75% of tuition
- Calendar days 7-9: 50% of tuition
- Calendar days 10-13: 25% of tuition
- After Calendar Day 13 of classes: No refund

Session B courses:

Students who begin the semester with Session B courses (who were not enrolled in Session A) may have their courses dropped up to or on the first day and for the succeeding two (2) calendar days thereafter to receive a 100% refund. After the third calendar day, no refund is given.

Credit Balances and Refunds

Disbursement of financial aid occurs according to federal regulations. If a credit balance results once federal financial aid is applied to a student's account, the surplus will be refunded to the student within 14 days of the aid posting date reflected on the student account. The student may elect to have refund disbursements automatically deposited into a checking/savings account. Students who do not enroll in automatic deposit will have their refund mailed to them in the form of a check to the legal home permanent address on file or their university mailbox.

If the credit balance is caused by a Parent PLUS Loan, the refund will be issued either to the parent or the student according to the parent's preference as selected on the PLUS application.

Collections Policy

Unresolved balances after the last day of attendance are considered delinquent and will be sent to the SEU Collections Office. The Collections Office will reach out to students in an attempt to assist with resolving unpaid balances. Students have the option to make one-time payments or set up payment plans in order to resolve the issue. If rectification has not been reached, the account may be reported to one or more of the national credit bureaus.

Return of Federal (Title IV) Funds

The law (34 CFR 668.22) specifies how Southeastern must determine the amount of Federal Student Aid (FSA) that a student has earned when withdrawing from school. The FSA programs covered by this law are: Federal Pell Grants, Federal Direct Subsidized and Unsubsidized Loans, Federal PLUS Loans, Federal Supplemental Educational Opportunity Grants (FSEOG), and, in some cases, certain student state grant aid.

In order for aid to be included in a Return of Title IV funds calculation, a student must be fully eligible to receive these federal funds prior to their withdrawal. Funds considered as aid that could have been disbursed and, consequently, included in the Return to Title IV calculation must meet the following eligibility criteria:

- The Institutional Student Information Record (or ISIR) must have been processed with an official SAI (Student Aid Indicator) by the date of withdrawal,
- The student must have been making Satisfactory Academic Progress,
- For any Direct Subsidized, Unsubsidized, or PLUS Loan, the loan must have been originated by the date of withdrawal.

A student is considered to have withdrawn from a payment period or period of enrollment if the student does not complete all the days in the payment period or period of enrollment that the student was scheduled to complete.

Withdrawal from the University refers to a student's failure to complete the period of enrollment for which he or she was enrolled. There are two types of withdrawals:

- Official Withdrawal

An official withdrawal occurs when the student notifies the Retention Specialist of the intent to withdraw and completes the withdrawal process/form through the appropriate departments on campus. If known, the student's last date of attendance (LDA) is recorded on their withdrawal form and a Return of Title IV funds calculation is completed by the SFS office.

- Unofficial Withdrawal

An unofficial withdrawal occurs when the university discovers that the student has ceased to be enrolled (i.e., is no longer attending classes) and the student did not initiate/complete the withdrawal process.

There are 2 types of unofficial withdrawals:

- A student has not notified the school of their withdrawal and has ceased attending all of their courses.
- A student has not earned at least one passing grade in their classes for a period of enrollment (has received either all Fs, all Ws, or a combination of Fs and Ws.)

For unofficial withdrawals, the withdrawal date for the Return to Title IV calculation will be the midpoint of the payment period or period of enrollment OR the last date of documented academic-related activity, if known.

Since SEU may not know that a student has unofficially withdrawn until the end of the semester, funds are returned within 30 days after the end of the earlier of the end of the payment period or period of enrollment or the date that SEU has determined the student has withdrawn.

The amount of financial assistance that a withdrawing student earns is calculated using a Return to Title IV formula.

In the event of a withdrawal (official or unofficial), SEU must calculate the number of days attended and the total number of days that a student was scheduled to complete within the term, including weekends but excluding any scheduled breaks of five days in length or greater. Days attended are divided by the days in the term the student was scheduled to complete, providing a percentage of the payment period the student has completed. The percentage is multiplied by the total aid for which the student is eligible to determine the amount of aid that has been earned.

Days attended / Days in the term scheduled to complete (minus scheduled breaks of 5 days or more) = percentage completed.

Percentage completed x total aid eligible = earned aid

SEU must return the amount of unearned aid, up to the maximum amount received, to each of the Title IV programs in the following order:

- Federal Unsubsidized Direct Loan
- Federal Subsidized Direct Loan
- Federal Direct PLUS Loan
- Federal Pell Grant
- Federal Supplemental Education Opportunity Grant (FSEOG)

Once the student has completed more than 60% of the payment period, all federal financial assistance is considered to be earned.

SEU calculates the amount the student is responsible for by subtracting the amount SEU has returned from the total unearned amount. The remaining amount is the student's share and is allocated in the same order as above.

Total amount unearned

-amount returned by school

= $ amount the student is required to return to Title IV.

If the student did not receive all of the funds that s/he earned, the student may be due a post-withdrawal disbursement. If the post-withdrawal disbursement includes loan funds, Southeastern University must obtain the student's permission within 30 days of the date of determination of withdrawal in order for the funds to be disbursed. A student may choose to decline some or all of the loan funds so that they do not incur additional debt. Southeastern University may automatically use all or a portion of a student's post-withdrawal disbursement of Title IV funds for tuition and housing and meal plan charges (as contracted with the University). The University needs the student's permission to use the post-withdrawal Title IV disbursement for all other school charges. If the student does not give permission, the funds will be offered directly to the student; however, it may be in the student's best interest to allow the school to keep the funds to reduce debt at the school.

A post-withdrawal disbursement to the student's account for charges incurred must be disbursed as soon as possible, but no later than 45 days after the date the school determines the student's withdrawal date. A post-withdrawal disbursement made directly to the student must be disbursed as soon as possible, but no later than 45 days for grants and 45 days for loan funds.

Students who are expelled or who take unapproved leaves of absences are considered to have withdrawn from the University. Furthermore, SEU reserves the right to request a student's withdrawal.

Exemptions:

New regulations in 2020 established withdrawal exemption criteria which, if met, allow a student who has withdrawn or otherwise ceased attendance to NOT be considered withdrawn for Title IV purposes. This means that no Return to Title IV (R2T4) calculation is required for a particular student who meets one of the following exemptions:

Withdrawal exemption for graduates/completers

- A student who completes all requirements for graduation from their program before completing the days in the period that he/she was scheduled to complete is not considered to have withdrawn.
- This exemption applies to all types of programs, whether with or without sessions/modules.

- Withdrawal exemption for programs offered in modules
    - If a student successfully completes one module that includes 49% or more of the total number of days in the payment period (excluding scheduled breaks of five or more consecutive days and all days between modules), the student is not considered to have withdrawn.

- If a student successfully completes a combination of modules that, when combined, contain 49% or more of the number of days in the payment period (excluding scheduled breaks of five or more consecutive days and all days between modules), the student is not considered to have withdrawn.
- If a student successfully completes coursework equal to or greater than the coursework required for the institution's definition of a half-time student, the student is not considered to have withdrawn.
- If a student's tuition and fees are reversed completely, then all aid will be canceled.

The withdrawal exemptions apply to both undergraduate and graduate students as long as the student and program meet the underlying exemption criteria. A student only needs to meet one of the withdrawal exemptions to be exempt from (R2T4).

Financial Policies

Financial Aid

Student financial assistance at Southeastern University is provided to eligible students in the form of grants, scholarships, loans and student employment. To apply for financial aid, students must submit an application for admission to Southeastern University and complete the Free Application for Federal Student Aid (FAFSA) at fafsa.ed.gov. Detailed procedures are available online at seu.ed./financial or can be obtained by contacting the University's Student Financial Services Office.

The location of the university in central Florida provides students with many opportunities for part-time employment. The returns from such work, together with savings from summer employment and financial aid, enable many Southeastern students to work their way through college.

Southeastern University recommends that a prospective student contact his/her high school guidance counselor for information about ways to finance an education. Information regarding scholarships for Florida residents may be found at: www.FloridaStudentFinanicalAid.org.

Statement of Educational Purpose/Certification Statement of Refunds and Default

Students may not owe a refund on any federal grant or federal loan, nor be in default on any loan or have made satisfactory arrangements to repay any defaulted loan. Students must not have borrowed in excess of the Title IV loan limits at any institution. Students agree that they will use any money they receive under a Title IV loan, grant, or work-study program only for expenses related to their study at Southeastern University. Students are responsible for repaying any funds they receive which cannot reasonably be attributed to meeting education expenses related to Southeastern University. Students must understand that the amount of any repayment is based on regulations published by the U.S. Department of Education.

Federal Financial Aid Programs

Students are required to take only courses that go towards their degree program. Students are not eligible to take courses outside of their degree programs. Such credits become ineligible for federal or state aid.

Federal Pell Grant

Federal Pell Grants are awarded only to undergraduate students enrolled in a degree-seeking program who display exceptional financial need (as determined by the FAFSA) and have not earned a bachelor's, graduate, or professional degree. (In some cases, however, a student enrolled in a post baccalaureate teacher certification program might receive a Federal Pell Grant.) A Federal Pell Grant, unlike a loan, does not have to be repaid, except under certain circumstances.

All students applying for a Federal Pell Grant (and all other federal financial aid) must complete the Free Application for Federal Student Aid (FAFSA). Students may apply for FAFSA on the Web (StudentAid.gov). Students will receive a FAFSA Submission Summary (FSS) in the mail about two weeks after submitting the online FAFSA (students providing an email address will receive an email with a link to their FAFSA Submission Summary (FSS) immediately).

Based on the information in the FSS and a complete financial aid file, the Office of Student Financial Services will determine the amount of Pell Grant (and other financial aid) to be awarded to the student. This information is communicated by Student Financial Services to the student via the emailed Aid Offer.

Federal Supplemental Educational Opportunity Grant

A Federal Supplemental Educational Opportunity Grant (FSEOG) is a federally funded grant provided to undergraduate students with exceptional financial need. Priority is given to Federal Pell Grant recipients and allocated to the lowest SAI students first. The amount of the grant depends on the amount of verified need (as determined by the FAFSA) and on the availability of federal funds provided to the institution annually.

Federal Work-Study Program

Federal Work-Study (FWS) is need-based financial aid that allows students to work on campus or with an approved off-campus employer and earn money to help pay for educational expenses while they are enrolled. Compensation is minimum wage or higher, and the amount of FWS a student can earn depends on financial need (as determined by the FAFSA), on the amount of other aid received, and on the availability of federal funds provided to the University. Some examples of FWS jobs at Southeastern University included: library assistant, game operations, teacher's assistant, academic tutor, and customer service representative.

FWS is not a grant because a student must work to earn it, and it is not a loan because it does not require repayment.

Federal Direct Student Loans

Federal Direct Subsidized and Unsubsidized Loans

- Criteria: Must file FAFSA and complete additional loan requirements. (entrance counseling and Master Promissory Note)
- Repayment: Loan repayment can be deferred until six months after the student graduates or drops below half-time enrollment.
- Origination fees are deducted by the loan servicer from each loan prior to disbursement.

Federal Direct SUBSIDIZED Loans – For undergraduate students with financial need. The U.S. Department of Education generally pays the interest while a student is in school at least half-time and during certain other periods. Interest rate varies from year to year but is fixed for the life of the loan. Interest does not begin accruing until a student graduates or drops below half-time attendance.

Federal Direct UNSUBSIDIZED Loans – For undergraduate and graduate or professional students; non-need-based. Interest begins accruing as soon as the loan is disbursed, and the borrower is responsible for all interest. Interest rate varies from year to year but is fixed for the life of the loan.

Maximum Total Award Amounts per Year (Based on Eligibility)

Annual Limits for Undergraduate, Dependent Students:

- Freshman (1-29 credit hours): up to $5,500 (maximum $3,500 in subsidized loans)

- Sophomore (30-59 credit hours): up to $6,500 (maximum $4,500 in subsidized loans)
- Junior/Senior (60+ credit hours): up to $7,500 (maximum $5,500 in subsidized loans)

Annual Limits for Undergraduate, Independent Students:

- Freshmen (1-29 credit hours): up to $9,500 (maximum $3,500 in subsidized loans)
- Sophomore (30-59 credit hours): up to $10,500 (maximum $4,500 in subsidized loans)
- Junior/Senior (60+ credit hours): up to $12,500 (maximum $5,500 in subsidized loans)

Annual Limit for Graduate/Professional Students: $20,500 (unsubsidized only)

Subsidized and Unsubsidized Aggregate (lifetime) Loan Limits

- Undergraduate, Dependent Students: $31,000 (maximum $23,000 may be in subsidized loans)
- Undergraduate, Independent Students: $57,500 (maximum $23,000 may be in subsidized loans)
- Graduate/Professional Students: $138,500 (maximum $65,500 may be in subsidized loans). The graduate/professional aggregate limit includes all federal loans received for undergraduate study.

Federal Direct Parent Loan for Undergraduate Student (PLUS)

Federal PLUS loans are for parents who want to borrow to help pay for their dependent student's educational expenses. These loans enable parents with good credit histories to borrow for each dependent child who is enrolled at least half-time. An origination fee is deducted by the lender from each loan prior to disbursement.

Interest rates are fixed for the life of the loan and are determined annually for new loans. Repayment begins immediately after disbursement of funds but can be deferred while the student is enrolled at least half-time. Parents have 10-25 years to repay, depending on the repayment plan chosen.

Students must complete a FAFSA in order to determine the amount of the parent's eligibility for a Federal PLUS loan. The FAFSA can be completed at https://studentaid.gov/. To apply for a Parent PLUS loan, parents should visit https://studentaid.gov/plus-app/.

Financial Aid Programs for Florida Residents

Florida Bright Futures Scholarship Program

Florida Bright Futures Scholarship Program provides scholarship awards to high-achieving students. Each recipient must be a Florida resident, enrolled for at least six (6) hours in an eligible Florida public or independent postsecondary educational institution, and meet all requirements of the scholarship program. Initial eligibility is determined by the Florida Office of Student Financial Assistance. Visit http://www.floridastudentfinancialaid.org/ for additional information.

Florida Student Assistance Grant

The Florida Student Assistance Grant (FSAG) provides aid to students who demonstrate financial need as evidenced by the federal system of needs analysis. In addition to demonstrating need, a student must be a U.S. citizen or permanent resident; a Florida resident for reasons other than education for no less than one year preceding the beginning of the academic year for which application is made; and enrolled or accepted for enrollment as a full-time undergraduate student. A FAFSA must be processed by the U.S. Department of Education by April 15th of the current award year.

Contact the Office of Student Financial Services or a high school guidance counselor for information.

Florida Effective Access to Student Education (EASE) Grant

The Florida Effective Access to Student Education Grant (EASE) provides tuition assistance at eligible independent non-profit Florida colleges and universities for Florida residents. The maximum award amount is specified in the General Appropriations Act. Actual award amounts depend on the level of funding and the number of eligible students. Applicants must be Florida residents, enrolled full-time in a first bachelor's degree program and meeting state requirements in order to receive EASE. For information or application, contact the Office of Student Financial Services.

Southeastern Academic Scholarship Programs

Institutional scholarships, such as academic or departmental scholarships, are awarded to full-time, traditional, undergraduate, main campus students. Please contact the Admission Office for information regarding Academic Scholarships offered annually. Academic scholarships are awarded based on the GPA and/or test scores upon admission to the university and are renewable up to 8 consecutive, full-time semesters with an overall GPA of a 2.0. For more information, visit the https://seu.edu/admission/financial/scholarships/ website.

Other Resources

National Assemblies of God Scholarships

These scholarships are awarded by the General Council of the Assemblies of God.

Third-Party Scholarships

Some third-party scholarship information is available on the Student Financial Services webpage (https://seu.edu/admission/financial/scholarships/). Students are encouraged to seek out additional outside scholarship options on their own.

Alternative Loan Options

Southeastern has partnered with FastChoice to provide a comprehensive listing of reputable Private Loan Lending companies based on historical borrowing by SEU students. FastChoice makes it easy by providing students with information about private loans in an easy-to-understand format to help students determine which private student loan best meets their needs. We encourage all students to consider federal student loan options before making a decision. More information on third-party loan options can be found on the Student Financial Services webpage.

Satisfactory Academic Progress (SAP) Policy

Requirements & Eligibility for Financial Aid (Graduate/Doctoral Students)

Students receiving federal financial aid (including Federal Direct Unsubsidized Student Loans, Federal Graduate PLUS loans, and Federal Work Study) must maintain good academic standing with the University to continue eligibility for financial aid awards. To be eligible for financial aid, students must meet certain academic progress requirements as evaluated at the end of each academic year (ending the spring semester). Those requirements include: (1) credit completion ratio, (2) grade point average, and (3) maximum time frame. This policy applies to all graduate/doctoral students enrolled in all degree programs. The periods included in the review include all terms in which the student was/is enrolled, even those during which the student did not receive federal student aid.

1. Credit completion

Students must successfully complete (earn) at least 67 percent (67%) of the credits they attempt in order to maintain satisfactory academic progress.

At the end of the academic year, academic progress will be determined by comparing the number of credits attempted (including any course in which a student was enrolled past the drop/add period) to those actually earned. Note: Accepted transfer credits from another institution are included in both attempted and earned credits.

2. Grade point average (GPA)

Undergraduate students must maintain a minimum overall cumulative 2.0 grade point average (GPA). Graduate/doctoral students must maintain a minimum overall cumulative 3.0 GPA. Students' cumulative GPA will be reviewed by the Student Financial Services office at the end of the academic year (the end of the spring semester).

Treatment of Grades:

Grade	Quantitative (completion) Treatment	Qualitative (GPA) Treatment
A, B, C, D	Attempted & earned	Calculated
F	Attempted & unearned	Calculated
*I (Incomplete)	Attempted & unearned	Not calculated
W, WF, WD	Attempted & unearned	Not calculated
Repeat coursework – A, B, C, D	Attempted & earned	Highest grade calculated
Repeat coursework – F	Attempted & unearned	Calculated
CR, P	Attempted and earned	Not calculated
NC, IP, S	Not attempted or earned	Not calculated
Pass/Fail	Pass – Attempted and earned Fail – Attempted and unearned	Not calculated

Grades included in grade forgiveness are not excluded from the Satisfactory Academic Progress calculations.

*Incomplete (I) grades will be considered in the qualitative (GPA) analysis when completed according to the provisions in the University catalog. When an incomplete grade changes to another grade notation, that change will be picked up in the next SAP review.

3. Maximum timeframe

Students are eligible to receive federal financial aid for a maximum of 150 percent (150%) of the published degree credits required to complete their program. For example, if a graduate degree program requires 60 degree credits, a student is eligible for aid up to 90 attempted credits. Students will not be eligible to receive federal student aid once they have exceeded the maximum timeframe (total attempted credits) of 150 percent of the published degree credits required to complete their program.

Loss of Financial Aid Eligibility

A student will lose financial aid eligibility if he or she does not attain any one or more of the required components at the time of review at the end of the spring semester (annually):

- Minimum 2.0/3.0 cumulative grade point average (GPA)
- Minimum 67% overall credit completion ratio
- Maximum timeframe of 150% or less of the published degree credits required to complete your program.

Financial aid includes all Federal and State scholarships and grants, VA Benefits, Federal Work Study, and Federal Student Loans, including Graduate PLUS loans. Failure to meet any/all SAP requirements will deem the student ineligible for these programs.

Private loan programs and outside financial assistance that do not require a stipulation of meeting satisfactory academic progress are exceptions, and students may maintain eligibility for these types of programs depending on the lender's criteria.

A student may attend the university, at his or her own expense, until the student meets all of the required components of satisfactory academic progress and again regains federal student aid eligibility.

Regaining Financial Aid Eligibility

To regain financial aid eligibility the student's transcript/record must reflect satisfactory academic progress requirements have been met. A student may regain eligibility in one of the following ways:

- Meet satisfactory academic progress requirements: Attend the university or transfer credits from another institution at his/her own expense until the student meets all of the required components of this policy.
- Approved appeal: If a student doesn't meet the required standards because of special circumstances, they can appeal by reaching out to the Office of Student Financial Services. The email they receive about losing eligibility for financial aid will explain how to do this. See the section titled "Right to Financial Aid Appeal."
- Grade change appeal: SAP is reviewed annually at the end of the spring semester. The SAP determination is based on the final grades provided at that time. If there is a grade change that occurs after that review date, an appeal must be submitted for the SAP review to be recalculated. Upon recalculation, if the student is then found to be in good standing as a result of that grade change/update, the student will be eligible for aid to be reinstated so long as it is done before the appeal deadline outlined in their notification from SFS.

Notification of Satisfactory Academic Progress Deficiency

Undergraduate students who are not meeting quantitative (completion ratio) OR qualitative (GPA) satisfactory academic progress are notified by Student Financial Services via email to their assigned SEU student email at the end of the spring semester. Loss of financial aid eligibility is effective immediately.

When a student receives notification of loss of financial aid eligibility at the end of the spring semester and is enrolled in a summer term, he or she will lose financial aid eligibility for summer term courses unless a financial aid appeal has been submitted and approved.

Right to Financial Aid Appeal

A student who has not met SAP (satisfactory academic progress) requirements may appeal the loss of financial aid eligibility if the student has suffered undue hardship such as:

- Severe illness, medical condition, or injury
- Death of a family member
- Traumatic life-altering event such as fire, hurricane, etc.
- Other circumstances deemed acceptable by Southeastern University

A student who wishes to appeal a satisfactory academic progress status due to extenuating circumstances must submit their request to the Student Financial Services office for review. All appeals must have supporting documentation attached at the time they are submitted. Acceptable documentation is outlined on the Satisfactory Academic Progress Appeal for Continued Aid form. To submit an appeal, students must:

- Complete and submit a signed Satisfactory Academic Progress Appeal for Continued Aid form, including supporting documentation (including dates) as outlined on the form. The form is designed to address the following:

1. what the problem was;
2. when the problem occurred;
3. how long the problem lasted;
4. how this affected the student's ability to complete coursework, and
5. what the student is doing to prevent this from happening again.

Appeals and all documentation must be received by the end of the add/drop period in which the student is appealing for aid eligibility. It is to the student's benefit to submit the appeal immediately upon receiving notification of ineligibility.

Appeals are subject to committee review and are not automatically approved.

Approved Appeals

Should an appeal request be approved, the student will be placed on financial aid probation and may receive financial aid on a probationary status for one semester as described in the academic progress agreement provided with the appeal response. Any appeal conditions will be outlined in the academic progress agreement and may include an ongoing academic plan and timeframe for which a student must meet certain requirements to continue to receive financial aid. If a student fails to meet the terms of the agreement or maintain satisfactory academic progress during the period of financial aid probation as assigned, the student will be notified by Student Financial Services of his or her loss of financial aid eligibility, and the loss cannot be appealed again without there being new and extenuating circumstances for consideration.

Annual limits and requirements for awards still impact a student's ability to receive funding and an approved appeal does not automatically enable a student to receive aid in a probationary semester if all funding has already been exhausted for that academic year.

A student is limited to two (2) appeals for his/her degree program. For example, if a student exhausts his/her two appeals as an undergraduate student, he/she still has two appeals as a graduate student.

Denied Appeals

If the appeal is denied, any already awarded federal student aid funds for any upcoming or current semesters or terms will be removed making the student financially responsible and liable for tuition and fees for the term if enrolled. Due to the timing of summer courses and the completion of the SAP review, there may be instances where aid was awarded and disbursed for summer before being aware of the failure to meet SAP requirements. If this occurs, funding will need to be returned without an approved appeal and the student will be liable for all fees.

(NOTE: State programs have separate Academic Progress Requirements.)

Veterans Education Benefits

Southeastern University is approved by the State Approving Agency of the State of Florida for the education and training of veterans and eligible dependents under public laws in effect. Students who are eligible for educational benefits under any Veterans Administration program should first apply for a Certificate of Eligibility on evabenefits.va.gov and provide a copy of the form to the Student Financial Services Office.

All information, instructions, and procedures are provided on the website: https://seu.edu/admission/financial/veterans/

Students using tuition assistance should first check with their Education Service Officer (ESO) within their military unit for approval.

Students must complete a VA Request for Certification form each year for Southeastern University to provide enrollment certification to the Veterans Administration. Educational Benefits are paid based on the enrollment dates of each session or semester. For example, eight-week courses are paid at the start of each term. These semester hours do vary and differ for our non-traditional student population. A student cannot receive educational benefits for audit courses. VA regulations require that students take courses that are applicable to their degree program, make satisfactory progress toward their degree, and maintain satisfactory attendance for the degree program as stated in the Standard of Progress. Students using VA educational benefits are required to submit all transcripts from prior higher education institutions for evaluation of course credit.

Veterans' benefits will be terminated for students who fail to make satisfactory progress, or who receive dismissal for academic or disciplinary reasons.

Enrollment certification is completed after the drop/add period of each term or semester, whichever is applicable to a student's delivery. The student is responsible for notifying the certifying official at Southeastern University of any enrollment changes such as withdrawal and/or dropped courses or termination of enrollment. The VA student is responsible for any overpayment of benefits resulting from a change in enrollment. The VA toll-free number is 1-888-GIBILL1 (888-442-4551).

Southeastern University is a participant in the Yellow Ribbon Program and will match the charges covered through Yellow Ribbon up to $1200.

How does a student's financial aid interact with the Post 9/11 GI Bill®?

In general, only Title IV Federal Aid (Pell, SEOG, Direct loans, and PLUS loans) will not be affected by VA benefits in any way. In most cases, the student will be refunded Pell grant and/or student loans, or they will be applied toward other expenses like room and board, if applicable.

Other financial aid designated will be applied to a student's total cost of attendance. The student should not expect any refund of SEU scholarships/grants or any other financial aid source, with the exception of Title IV Federal Aid.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website at http://www.benefits.va.gov/gibill.

Southeastern University VA Representative(s):

- Joshua Breed, VA Certifying Official/Director of SFS (jabreed@seu.edu)

Military Tuition Assistance

Southeastern University is also approved by the Department of Defense to accept military tuition assistance. Students using tuition assistance should first check with their Education Service Officer (ESO) within their military unit for tuition assistance approval. Military tuition assistance is processed after the add/drop period for each semester.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website at http://www.benefits.va.gov/gibill.

Mission

Equipping students to discover and develop their divine design to serve Christ and the world through Spirit-empowered life, learning, and leadership.

Vision

Southeastern University is anchored by Spirit-empowered education in a Christ-centered, student-focused learning community. Southeastern's global impact is marked by a deep commitment to transforming minds and engaging culture through the integration of faith, learning and service. Each student's divine design is nurtured and unleashed through the investment of faculty and staff, relationships within the community, the rigor of scholarship, diverse learning experiences and the discipline of spiritual formation, which propels students into a lifetime of serving the world in the Spirit of Christ.

Accreditation

Southeastern University is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award associate, baccalaureate, masters, and doctorate degrees. Southeastern University also may offer credentials such as certificates and diplomas at approved degree levels. Questions about the accreditation of Southeastern University may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC's website (www.sacscoc.org).

Other discipline-specific accreditations and licensures:

- Accreditation Council for Business Schools and Programs (ACBSP)
- Association for Biblical Higher Education (ABHE)
- Commission on Collegiate Nursing Education (CCNE)
- Council on Social Work Education (CSWE)
- Florida Department of Education (FLDOE) - *Southeastern University is approved to grant degrees that meet certification requirements for a Florida teaching credential.*

History

Southeastern University was founded in 1935 by Alabama District Superintendent J.C. Thames and other Southeastern District leaders within the Assemblies of God denomination. Originally named the Alabama Shield of Faith Institute, it was renamed the South-Eastern Bible Institute (SEBI) in 1936.

Guy Shields was the first president. Originally located in a former high school building in New Brockton, Alabama, the school opened its doors to students on November 4, 1935, under the direction of four faculty members. Two years later, on May 22, 1937, the first graduation exercises were held. Seventeen students received diplomas for the two-year academic program.

SEBI continued classes in New Brockton until 1940 when a decision was made to consolidate the school with Beulah Heights Bible Institute in Atlanta, Georgia. The school was known from 1940 to 1942 as the Beulah Heights South-Eastern Bible Institute. In the fall of 1942, Rev. Ralph Byrd allowed the school to relocate to his congregation at 301-7 Capital Ave., SW in Atlanta, where it then was once again named the South-Eastern Bible Institute.

In 1946, the board of directors voted to secure a permanent location for the full development of the school. A new campus location was purchased later that year in Lakeland, Florida. The Atlanta campus was sold, and the development of the new site began. From 1946 to 1952, SEBI was located at the Lodwick School of Aeronautics in Lakeland. In 1952, the school moved to its present location at Longfellow Blvd.

Student body growth continued at the new central Florida campus along with the academic programs. SEBI became South-Eastern Bible College in 1956 when four-year Bachelor of Arts degree programs began. After adding education degrees, the college's board of directors changed the school name to Southeastern College of the Assemblies of God in 1977.

In 1986, Southeastern was granted regional accreditation by the Southern Association of Colleges and Schools Commission on Colleges. This accreditation was reaffirmed in 1991, 2001, 2011, and 2021.

Southeastern made a historic transition from college to a university offering its first master's programs in the fall of 2005. In 2014, the university began offering doctoral programs.

The campus has expanded to over twenty buildings. The university currently enrolls about 10,500 students between the main campus in Lakeland and more than 200 partner sites. Approximately 24,000 alumni call Southeastern their alma mater.

What began in 1935 as a Bible-training school is now the largest Assemblies of God educational institution in America, producing future Christian leaders in the fields of church ministries, education, medicine, law, business, communication, psychology, social work, literature, and music.

Population

Between all of its delivery platforms, Southeastern University has an enrollment of more than 10,000 students. Students are enrolled at the main campus, partner sites and online.

At the undergraduate level, approximately 2,300 students are enrolled at the Lakeland campus, where students and faculty can know each other on a personal level which lends to the development of lifelong friendships. A student is more than a number; he or she is known by name. Southeastern's caring community gives personal support to individuals.

Distribution of Catalog The Undergraduate Catalog is available to the general public and prospective and enrolled students via the University's website. Change of Catalog Information Information provided by this catalog is subject to change without notice and does not constitute a contract between Southeastern University and a student or an applicant for admission. Material included herein is based on information available as of Spring 2026.

Retention of Student Records

Student transcripts and degrees or certificates are maintained indefinitely and all other records are maintained for 6 years.

Professional Licensure/Certification Disclosure

Federal law requires disclosure to applicants and students regarding professional licensure/certification and our programs of study. *While licensure or certification may be available in your field of study, programs offered through the University's online and out-of-state extension sites are not designed to lead to such licensure or certification upon graduation.* The professional preparation you receive in our program may still assist you in such pursuits; however, we are unable to confirm the specific licensure and certification requirements of each state, territory, or foreign entity in which professional credentialing may be possible. If you intend to pursue such credentialing in your state or elsewhere, we advise you to contact the applicable state credentialing authority to familiarize yourself with its specific requirements and determine if our program meets its academic criteria. In addition, SEU's Center for Calling & Career (compass@seu.edu) can also assist you with questions in this regard and assist you in your career planning.

General Information

What We Believe

Doctrinal Statement

In addition to our mission and vision statement, we hold fundamental truths about the Christian faith that include the following:

- The Scriptures are inspired by God and declare His design and plan for mankind.
- There is only one true God who is revealed in three persons: Father, Son and Holy Spirit (commonly known as the Trinity).
- Jesus Christ, as God's son, was both fully human and divine.

We are proud of our affiliation with the Assemblies of God and our Pentecostal tradition. We are also proud to be a welcoming community for students from all Christian backgrounds and denominations. Our campus includes many Baptists, Presbyterians, Methodists, etc., as well as non-denominational students. Everyone shares a strong commitment to knowing Christ and making Him known, and we celebrate our theological similarities while appreciating our differences.

Heritage

From its inception, Southeastern University has been proudly associated with the movement of the Assemblies of God. Our heritage with Assemblies of God serves as the bedrock of our institutional identity here at SEU. We are proud of the tradition we have built from this legacy, and we invite anyone who would like a better understanding of who the Assemblies of God are and what they believe to visit their website.

Human Sexuality

Biblical Foundations

Our understanding of human sexuality is derived from the following biblical principles:

- God created humans as relational beings — the only part of creation that God explicitly designed to have community with Himself (Genesis 1:26). All other forms of community are designed to reflect this relationship between divinity and humanity (Hebrews 10:24–25, 1 Corinthians 12:14, Ephesians 5:25).
- As a direct result of sin, the community between divinity and humanity was broken (Genesis 3:23–24). This brokenness has permeated into all other relationships (Genesis 4:15). Human sexuality is not exempt from the marring effects of separation from the Divine (Romans 1:21-23).
- God's intention for human sexuality is to occur between one genetic male and one genetic female within the covenant of marriage (Genesis 2:18, 21–24; Hebrews 13:4).
- All forms of sexuality outside of God's intention are a result of separation from God (1 Corinthians 6:13, 18–20) and are illegitimate moral options for the confessing Christian. In Scripture, several sexual behaviors are expressly forbidden, which include but are not limited to fornication, adultery, incest, unnatural sexual intercourse and homosexual acts (Exodus 20:14; Leviticus 18:7–23, 20:10–21; Matthew 5:27–28; Romans 1:20–27; 1 Corinthians 6:9; Galatians 5:19; Ephesians 4:17–19; Colossians 3:5)

Into this broken world, God sent himself in the form of His only begotten Son, Jesus the Christ (John 1:1–3, 14). Through His sacrifice, Jesus became the Way to restoration of the Divine/human community (John 3:16). Until one has restored his or her relationship with God through His Son, Jesus, all other relationships — including human sexuality — will remain broken (John 14:6–7).

Southeastern Human Sexuality

At Southeastern University, we affirm human sexuality as a gift from God, designed to serve as a mirror of one's relationship with God. We believe that God's intention for human sexuality is between one genetic male and one genetic female within the covenant of marriage (Genesis 2:18, 21–24; Hebrews 13:4).

In addition, Southeastern University supports the dignity of individual persons affirming their biological sex — understanding that any attempts to change one's God-given sexuality through elective sex-reassignment or transvestite, transgender or nonbinary "genderqueer" acts or conduct is at odds with our biblical standards, denominational affiliation and subsequently our code of conduct.

Our Commitment

Therefore, we as a community commit to the following:

- Because of our values surrounding modesty, sexual purity and safety, the university has had a single-sex housing and restroom policy for undergraduates since its inception, and we will continue to maintain this tradition.
- In regard to athletics, we will continue to support our biblical understanding of affirming an individual's biological sex as the basis for athletic competition.
- As a university we will conduct our sexuality as a reflection of our relationship with God. Southeastern University pledges to guide the university community toward understanding and embracing its sexuality as a reflection of its relationship with God.
- Seeing that sin is a common struggle for all, members of the SEU community are committed to treating one another with respect and Christ-like compassion (Philippians 2:3–5). Insults, slurs and other forms of derogatory speech have no place in a Christian community (James 3:9–12).

Any deviation from a biblical standard of sexual behavior is a result of separation from God and therefore is an opportunity for repentance, grace and redemption so that as a community, we might honor one another and glorify God.

Life Statement

Southeastern is more than a university; it is a community that transforms students. Joining this Christ-centered community obligates each student to embrace a set of core values centered on scriptural and civilized behavior. The core values of the Southeastern community are: authentic spirituality, a Christ-centered worldview, character development for ethics in life, servant leadership, academic and professional excellence, and cultural sensitivity.

Community Covenant

Since members of this faith-based community have voluntarily chosen to be a participant, all students are obligated to a code of scriptural and community standards and behavior.

As a Christ-follower and member of the community of Southeastern University, I will:

- Practice the spiritual disciplines—regular reading of God's Word, prayer, etc.
- Understand that regular attendance at church services is expected
- Uphold the community standards
- Pursue integrity and practice professional ethics
- Adhere to guidelines of dress code
- Respect the dignity of all persons and highly value the diversity of the body of Christ
- Respect the rights and property of others
- Discourage bigotry, slander, and gossip among the members of the community and will refuse to engage in such behavior
- Refrain from the possession, creation, use, or distribution of beverage alcohol (except for communion), marijuana, or other intoxicants either on or off university premises
- Refrain from the possession, use, or distribution of tobacco products either on or off university premises
- Refrain from the possession, creation, use, or distribution of illegal substances and the abuse or illegal use of legal substances, including prescription and over-the-counter medications either on or off university premises
- Refrain from all sexually immoral behavior including premarital sex; adultery; lesbian, gay, bisexual, or transgender behavior; and involvement with pornography in any form. (Biblical marriage consists only of a faithful, heterosexual union between one genetic male and one genetic female, and biblical marriage is the only legitimate and acceptable context for a sexual relationship)
- Resolve conflict according to the model in Matthew 18:15-20
- Honor the servant-leaders who watch over this community and cooperate with their leadership
- Demonstrate compassion for others and a passion for the lost as a representative of Christ

Misrepresentation Policy

Southeastern University strives to be an institution of high integrity and is committed to providing the most accurate information through all mediums to anyone associated with the University. Southeastern University will make every effort to not engage in misrepresentation of any form as defined by the U.S. Department Regulatory Citation: 34 CFR § 668.71 (c) which defines misrepresentation as any false, erroneous or misleading statement an eligible institution, one of its representatives, or any ineligible institution, organization, or person with whom the eligible institution has an agreement to provide educational programs, or to provide marketing, advertising, recruiting or admissions services makes directly or indirectly to a student, prospective student or any member of the public, or to an accrediting agency, to a State agency, or to the Secretary. A misleading statement includes any statement that has the likelihood or tendency to deceive. A statement is any communication made in writing, visually, orally, or through other means. Misrepresentation includes the dissemination of a student endorsement or testimonial that a student gives either under duress or because the institution required the student to make such an endorsement or testimonial to participate in a program.

Drug-Free School & Campus Policy

Southeastern University is committed to maintaining a Christ-centered and student-focused learning community that is free from alcohol, tobacco, and illegal drugs. All members of the Southeastern University community are expected to act in accordance with the University's Community Covenant as well as the Code of Student Conduct and the Employee Handbook. The University's position on alcohol, tobacco, and drugs is in compliance with the Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act Amendments of 1989.

Endorsements and Memberships

Endorsements

Southeastern University is affiliated with the Assemblies of God and endorsed by the Alliance for AG Higher Education of the General Council of the Assemblies of God.

The university is approved by the Department of Justice, Immigration, and Naturalization Service for the training of foreign students and by the State Approving Agency of the State of Florida for the training of veterans and the dependents of veterans.

Southeastern University has been approved to participate in the National Council for State Authorization Reciprocity Agreements content

General Information

Notice of Nondiscriminatory Policy Related to Students and TITLE IX

Notice of Nondiscriminatory Policy Related to Students

Southeastern University admits students of any race, color, national, or ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the school. It does not discriminate on the basis of race, color, gender, handicap, national, and ethnic origin in the administration of its educational policies, admissions policies, scholarship and loan programs, and athletic and other school-administered programs. The University reserves the right to withdraw a student for cause at any time.

TITLE IX

Southeastern has a responsibility to respond quickly, equitably, and effectively when the university becomes aware of sexual misconduct and any other conduct that is motivated by sex, gender, or gender-expression that creates a hostile educational environment for Southeastern students. Southeastern is committed to prevention of all forms of sexual misconduct as well as the protection and rehabilitation of victims of such acts. Investigations of reported conduct must be impartial and reliable. Responses to reported conduct must adequately stop the behavior, prevent its recurrence, and address its effects. Southeastern University is committed to upholding Title IX of the Education Amendments of 1972 (20 U.S.C. § 1681). The Statute is an all-encompassing federal law that prohibits discrimination on the basis of sex of students and employees of educational institutions that receive federal financial assistance.

Title IX reads:

“No person in the United States, shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance…” Title IX of the Education Amendments of 1972, and its implementing regulation at 34 C.F.R. Part 106 (Title IX).

For Southeastern’s full Sexual Misconduct Policy, please see www.seu.edu/titleix

General Information

Campus and Academic Facilities

Campus Facilities

Main Campus

Southeastern University's main campus is located in the city of Lakeland in Polk County, Florida, the heart of citrus country. Surrounded by the beautiful lakes that characterize Central Florida, the 80-acre campus presents an attractive and picturesque scene for the students' pleasure and academic environment. The natural beauty of the lakes and citrus groves, combined with a semi-tropical atmosphere and lifestyle, makes Lakeland a delightful place to attend college and enjoy Florida winters. The average annual temperature is 72 degrees. With a population of 260,000, the greater Lakeland area is less than one hour from Florida's world renowned tourist attractions—Sea World, Busch Gardens, Epcot Center, Universal Studios and Walt Disney World. In addition, the Gulf of Mexico can be reached in an hour and the Atlantic Ocean in less than two hours.

Lakeland is centrally located between Tampa and Orlando and is easily accessible via the international airports of each city. Three major highways serve the Lakeland area: US 92, US 98, and Interstate 4.

In addition to the major tourist attractions, Central Florida's numerous lakes, parks, and miles of seashore provide many opportunities for outdoor activities. Lakeland is the winter home of the Detroit Tigers American League baseball team. With many other major league teams spending the winter in nearby cities, the baseball season gets underway earlier for local residents.

The cities of Tampa and Orlando offer excitement in professional sports in the football, baseball, basketball, and hockey arenas.

Lakeland's many lakes provide excellent water skiing and freshwater fishing. Southeastern's two lakes are Lake Bonny and Lake Holloway.

SEU Network

Southeastern University partners with churches and organizations around the world to offer degree programs and unique practical ministry experiences through extension sites and regional campuses.

Academic Facilities

The Steelman Library provides over 383,000 items, including ebooks, print books, journals, sound recordings, and videos.

The curriculum lab is a reference center for future educators. This lab is housed in the library and contains more than 5,000 volumes of children's literature, public and private school textbooks, and instructional material to aid education majors in preparing lesson plans and teaching units. Students and faculty are able to access many of the library's holdings from their residences and offices.

The Jerome E. Bolin Center, named in honor of Jerome E. Bolin, a benefactor of the university, provides a home for the Barnett College of Ministry and Theology, the television and radio studios, and classrooms.

The College of Education Building classrooms include the latest in education technology, and the building also houses a 130-seat lecture hall. Pathways School of Excellence, a private faith-based school for middle and high school-aged students with special needs, is also housed in this building.

The College of Natural & Health Sciences Center opened a state-of-the-art health and science facility in the Fall of 2015. This building features a nursing simulation laboratory and an Anatomage Table. In addition to supporting our science programs, this academic building also provides 14,369 square feet of additional classroom space for use with other academic programs.

The Buena Vida complex is a four-story, 125,000-square-foot live/learn facility that houses the following:

- College of Social Sciences & Humanities
- Jannetides College of Business, Communication & Leadership
- School of Music
- Music practice rooms
- Choral rehearsal hall
- Fine arts program
- Graphic design and computer labs
- Food court area with national brands (added to Chick-fil-A Express, which was brought on campus in September 2014)
- Classrooms (12+)
- Faculty offices (50+)
- Student residences (the third and fourth floors of the facility house 400 students)

Faculty Qualifications

Southeastern University employs full-time or part-time faculty within Califnornia. All faculty who teach at Southeastern University meet all of the academic, scholarly, and teaching qualification set forth by our regional accreditor, The Southern Association of Colleges and Schools Commission on Colleges (SACS COC) Any faculty member, hired to teach courses in the Bachelor of Science in Ministerial Leadership degree must possessvthe following minimal qualifications.

• A master's degree in the course discipline with at least 18 graduate hours from a regionally accreditedvuniversityv

• Depending on the subject matter (more practical disciplines), expectations may be set for professionalvexperience. This is established by each academic college and department.

In all cases, the university prefers to hire faculty with terminal degrees in the discipline as SEU must continuallyvmonitor the percentage of courses taught by terminally qualified faculty. Once hired, the university provides avcomprehensive set of faculty training tools, including the following: (1) an initial onboarding seminar, which is offeredvface-to-face and via streaming service (on-demand); (2) access to best practices courses in online instruction and coursedevelopment; (3) a mentor to support to provide one-on-one assistance; and (4) various handbooks and internet trainingvsystems. All faculty are required to receive adequate training, regardless of their delivery.

Due to SACS accreditation policies, we will not employ faculty who fail to meet these minimum qualifications.

State Authorizations

Southeastern University delivers a high-quality education to students nationwide. As we expand our distance education programs, we ensure full compliance with state regulations so we can legally offer online degrees and provide in-person instruction at our partner sites.

Every state sets its own rules for how out-of-state schools can operate, covering both online classes and face-to-face learning. Review our specific state compliance statements below.

Arizona

Under A.R.S. §32-3022 (E), Southeastern University is exempt from regulation by the Arizona State Board for Private Postsecondary Education and would not be regulated pursuant to A.R.S. § 32-3001 et.seq. to offer religious degrees.

*** These courses may be included in your current Foundational Core. See Advising Worksheet and advisor for assistance.**

American Institutions - 3 Credit Hours
HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY Credits: 3

Literature - 3 Credit Hours
ENGL 2133 - INTRODUCTION TO LITERATURE Credits: 3

Arkansas

Southeastern University has been granted a religious exemption by the Arkansas Division of Higher Education to offer church-related courses and degree programs. The State of Arkansas does not evaluate these programs for academic quality or transferability of credits to other institutions.

California

Southeastern University is determined to be in compliance with the requirements of Title 5, California Code of Regulations (CCR) section 71390. Therefore, Southeastern University: Nor Cal Campus is granted approval to operate under the terms of California Education Code (CEC) section 94890(a)(1) until December 5, 2022 per CEC section 94890(b). This approval is coterminous with the institution’s term of accreditation granted by Southern Association of Colleges and Schools Commission on Colleges (SACSCOC).

Florida

Southeastern University has received Florida licensure exemption from the Florida Department of Education.

Minnesota

Southeastern University is registered with the Minnesota Office of Higher Education pursuant to sections 136A.61 to 136A.71. Registration is not an endorsement of the institution. Credits earned at the institution may not transfer to all other institutions.

In compliance with Minnesota regulations and degrees standards, Southeastern University (SEU) will ensure that Minnesota residents, graduating from its programs, will meet the required degrees standards before receiving their diplomas. The Associate of Arts degrees must have a minimum of 40 general education hours, including at least five credits in communication studies and a minimum of eight credits in each of the following categories: humanities, social sciences, and natural sciences/mathematics. The SEU Associate of Arts program requires less hours in these categories, but Minnesota students are required to comply with their state standards, so they must include the additional credits as part of their 12 general electives. Records are maintained by the university to track the courses completed by Minnesota students. Students should consult the JICS website or their academic advisor for details.

The Minnesota Office of Higher Education is located at 1450 Energy Park Drive, Suite 350, St. Paul, MN 55108. Additional information may be found at www.Ohe.state.mn.us or by calling 651.642.0567.

Nevada

Southeastern University is licensed by the Nevada Commission on Postsecondary Education.

North Carolina

Degree programs of study offered by Southeastern University-Exempt have been declared by the appropriate state authority exempt from the requirements for licensure, under provisions of North Carolina General Statutes Section (G.S.) 116-15(d) for exemption from licensure with respect to religious education. Exemption from licensure is not based upon assessment of program quality under established licensing standards.

Oklahoma

People's Church operates in the State of Oklahoma under a religious exemption from state authorization and accreditation requirements, pursuant to Oklahoma Statutes Title 70, Section 4104.

Tennessee

Southeastern University's Lakeland, FL campus is exempt from Title 49, Chapter 7, Part 20 of the Tennessee Code and the regulations contained in Rule Chapter 1540-01-02 by the Division of Postsecondary School Authorization of the Tennessee Higher Education Commission and may offer, advertise and recruit for online programs offered within the State of Tennessee. This exemption must be renewed annually.

SEU at The Belonging Co., an extension site of Southeastern University, is authorized by the Tennessee Higher Education Commission. This authorization must be renewed each year and is based on an evaluation of minimum standards concerning quality education, ethical business practices, and fiscal responsibility.

Texas

Southeastern University is approved and regulated by the Texas Workforce Commission on Career Schools and Colleges (Austin, TX).

Student complaints which cannot be resolved by direct negation with the school in accordance to its written grievance policy, may be filed with the Texas Workforce Commission (TWC), 101 East 15th Street, Rm 226T, Austin, TX 78778-0001. Students should go to TWC website to download the student complaint form. Students can also send a written complaint to the Coordinating Board at Texas Higher Education Coordinating Board, Academic Affairs and Research, P.O. Box 12788, Austin, TX 78711.

Virginia

SEU at Crosswalk Community Church is certified to operate by the State Council of Higher Education for Virginia. Main campus address: SEU at Crosswalk Community Church, 7575 Richmond Rd, Williamsburg, VA 23188. The Williamsburg extension is approved to offer three programs: the Associate in Ministerial Leadership, Bachelor of Science in Ministerial Leadership, and the Associate of Arts.

Washington

Southeastern University is authorized by the Washington Student Achievement Council and meets the requirements and minimum educational standards established for degree-granting institutions under the Degree-Granting Institutions Act. This authorization is subject to periodic review and authorizes Southeastern University to specific degree programs. The Council may be contacted for a list of currently authorized programs. Authorization by the Council does not carry with it an endorsement by the Council of the institution or its programs. Any person desiring information about the requirements of the act or the applicability of those requirements to the institution may contact the Council at P.O. Box 43430, Olympia, WA 98504-3430 or by email at degreeauthorization@wsac.wa.gov.

Degree
AA

Available in the following deliveries:
Main (UG Only), Online, Site

Program Description
The Associate of Arts (AA) degree is designed to include the core learning components and competencies commonly accepted as foundational for a four-year baccalaureate degree by many colleges and universities. It is intended for students who desire recognition for completing the two-year prescribed curriculum and who wish to gain basic knowledge of the biblical basis of Christian theology, the history of Christian traditions, and the various expressions of global Christianity. Because many bachelor's degrees require specific prerequisites, students should verify how their AA degree and classes transfer into the intended degree. The degree requires a total of 60 credit hours, of which 25 are in the foundational core, 35 are Divine Design elective credit hours.

Divine Design: 35 Credit Hours

Type

Completion Requirement

Divine Design (Minor, Electives, Experiential Learning): 35 Credit Hours

Fulfill ANY of the following requirements:

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

Type

Completion Requirement

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Complete ALL of the following Requirement Set:

- *See Applicable State

Program Learning Outcomes

Learning Outcomes

Students will demonstrate knowledge of the background, content, and themes of biblical texts.

Students will be able to demonstrate oral communication skills through research, topical development, and style-specific presentation of focused material.

Students will demonstrate knowledge and skill in effective writing by exhibiting competency on an objective exam and by producing a piece of writing that meets the requirements of standard English.

Students will demonstrate the ability to interpret, analyze, and evaluate statements, arguments, and evidence in order to construct well-supported, clearly articulated conclusions or positions.

Students will demonstrate problem-solving skills in a broad range of significant mathematics.

Degree
AA

Available in the following deliveries:
Site

Program Description

The Associate of Arts (AA) in Pre-Nursing program is designed to provide students with the foundational science and general education credits required for transfer into a Bachelor of Science in Nursing (BSN) program. It is intended for students who are seeking the most direct and cost-effective pathway to complete the prerequisites for competitive BSN programs and who wish to gain expertise in human anatomy and physiology, microbiology, psychology, and statistics. Graduates of the program are prepared for roles such as Certified Nursing Assistant (CNA), Phlebotomist, or Monitor Technician (after obtaining additional certification) while applying to BSN programs, with the ultimate career goal of becoming a Registered Nurse (RN) in settings including hospitals, long-term care facilities, and community health centers. The curriculum emphasizes critical thinking, strong communication skills, and the foundational knowledge of human systems, with opportunities for meeting the common prerequisite courses for BSN programs across the state. The degree requires a total of 60 credit hours, of which 34 hours are in the foundational core, 24 hours are in the major core, and 2 hours are Divine Design experiential credit hours. For students wishing to continue their studies, this program prepares for application to the SEU BSN program and other public state universities where they can complete their remaining 60-70 upper-division credits to earn a Bachelor of Science in Nursing (BSN).

Divine Design (Minor, Electives, Experiential Learning): 2 Credit Hours

Fulfill ANY of the following requirements:
To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

AAS

Available in the following deliveries:
Online, Main (UG Only), Site

Program Description
The Associate of Applied Science (A.A.S.) in Electrical Technician Services program is designed to develop the technical skills and practical knowledge needed for a bright future in the electrical trade. It is intended for students seeking a fast, two-year path to marketable electrical skills and who wish to gain expertise in the tools, theories, and safety protocols required for success in the highly skilled electrician field. The online curriculum, along with the required practicum hours for hands-on training, will prepare the student for entry-level positions such as Electrical Technician, Residential Electrician, Commercial Wireman, or Electrical Installer in industries including residential/commercial construction, electrical contracting, industrial maintenance, and facility management. The curriculum emphasizes practical knowledge, technical skills, and safety protocols, with opportunities to learn how to serve the comfort and safety needs of homes and businesses with both knowledge and integrity. The degree requires approximately 60 credit hours, typically split between general education courses and specialized technical coursework. For students wishing to continue their studies, this program provides a college degree that enhances their personal career marketability and may provide a pathway to certain bachelor's degree completion programs.

Program Learning Outcomes

Learning Outcomes

Demonstrate understanding of how Kirchhoff's Law and Ohm's Law apply to a series of circuits including developing a broad understanding of the most recent version of the NFPA70 National Electrical Codes.

Explain and make use of a voltmeter including the common settings on a multimeter such as voltage, resistance, amperage, diodes, and capacitance as well as identify older hazardous wiring setups and assess the current state of safety conditions.

Demonstrate competency modeling safe usage of trade tools as well as Interpret complex electrical drawings including different components, like 3- and 4-way switching, standard and GFCI receptacles, and 2- and 3-wire cabling.

Demonstrate knowledge of the key ampacity tables in the National Electrical Code and how to adjust the values found in the ampacity tables, based on ‘conditions of use’ as well as prepare to sit for industry certification exam.

Program Learning Outcomes

Learning Outcomes

Identify and demonstrate proper use and application for pipe, fittings, and valves.

Describe the anatomy of gas and electric water heaters, identify controls for gas-fired units including standing pilot, piezo igniters, power vent with HSI, vent motors, and pressure switches.

Diagnose and repair major plumbing fixtures, inclusive of issues related to clogged fixtures. Students will understand the fundamentals of piping system backflow (and specific hazards related to it) as well as diagnose and repair the two causes of reverse flow and determine ways the water supply can be protected.

Demonstrate understanding of additional competencies, including tankless water heaters, drain, and venting systems, to be prepared to sit for industry certification exam after completing the program.

Online

Program Description
The Abridged Bachelor of Computer Science at Southeastern University is a 90-credit-hour, competency-based program designed to bridge the gap between academic theory and industry demand. Built on a modular, stackable curriculum, the program allows students to earn technical certificates in high-demand fields like Cybersecurity, Data Science, or Web Development while progressing toward a degree. Grounded in the ACM/IEEE Computer Science Curricula 2023 standards, the coursework emphasizes hands-on mastery through multimodal delivery, including traditional 16-week sessions and flexible, competency-based education (CBE) pathways. Students gain real-world experience through strategic partnerships, as well as internal university technology offices. By integrating technical expertise with a Christ-centered worldview, this program equips learners to discover their divine design while preparing for high-growth careers in the rapidly evolving digital economy.

This program is a streamlined, three-year pathway designed for motivated students ready to enter the workforce quickly. As a reduced-credit undergraduate degree program, prospective students should be aware that this credential may not fulfill all admission or prerequisite requirements for certain graduate and professional degree programs, and may not meet the minimum credit-hour expectations of some employers or licensing bodies. SEU encourages students to review their post-graduation goals with an academic advisor to ensure this pathway aligns with their long-term plans.

- HUMS2233 - INTRODUCTION TO HUMANITIES
- ARTV2023 - PHOTOGRAPHY
- ENGL2133 - INTRODUCTION TO LITERATURE

Additional Comments:

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Program Learning Outcomes

Learning Outcomes

ACM students will be able to properly use hermeneutical tools to exegete and apply the Bible in ministry contexts.

ACM students will be able to analyze and apply basic Christian theology in ministry contexts.

ACM students will be able to construct and present expository sermons in ministry contexts.

ACM students will be able to integrate their biblical interpretation, theological, leadership, and ministry competencies in ministry contexts.

ADN - Nursing

Overview

College
College of Natural & Health Sciences

Total Credit Hours
70

Program Code
ADN

Degree
AS

Available in the following deliveries:
Main (UG Only)

Program Description
The Associate of Science (AS) in Nursing program is designed to prepare graduates to pass the NCLEX-RN exam and begin practicing immediately as a Registered Nurse (RN). It is intended for students who are seeking a direct entry path into the nursing workforce with a strong focus on clinical skills and patient care and who wish to gain expertise in foundational sciences, nursing theory, clinical practice, and patient education across diverse populations. Graduates of the program are prepared for roles as a Registered Nurse (RN) in settings including hospitals (acute care, medical-surgical units, emergency departments), long-term care facilities, clinics, and home health agencies. The curriculum emphasizes clinical competency, critical thinking in patient care, and applying nursing theory to practical situations, with opportunities for extensive supervised clinical rotations in various healthcare settings. The degree requires a total of 70 credit hours, of which 22 hours are in the foundational core and 48 hours are in the major core. For students wishing to continue their studies, this program prepares them for future professional development through RN-to-BSN degree completion programs which lead to advanced roles such as Nurse Educator, Nurse Manager, or specialization in areas like Critical Care or Public Health.

CIP Code
513801

Program Requirements

Program Learning Outcomes

Learning Outcomes

Apply clinical judgement and the nursing process to provide holistic patient care in culturally diverse health care settings across the life span.

Integrate evidenced-based practice, information technology, and skill competency to promote patient safety standards and effective nursing care.

Communicate effectively with patients, families and intradepartmental teams to optimize patient outcomes.

Synthesize nursing knowledge with biological, psychological, physical, and social science principles to guide patient-centered clinical decisions.

Demonstrate actions that support integrity and professionalism within the regulatory, legal and ethical frameworks of nursing.

ALNG - Applied Linguistics

Overview

College
College of Truth, Beauty & Culture

Total Credit Hours
18

Program Code
ALNG

Available in the following deliveries:
Main (UG Only)

Program Description
The minor in Applied Linguistics is designed to provide students with the concepts, skills, and theoretical foundation to analyze, describe, and teach a language system. It is intended for students who are interested in translation work, cross-cultural work that requires learning and using a foreign language, including sign language, teaching English to non-native English language users domestically or abroad, or developing speech recognition, AI, and computer-mediated language learning technologies. Students will gain expertise in second language acquisition, sociolinguistics, and the phonetics, grammar, morphology, and syntax of language necessary to linguistical analysis. Graduates of the program are prepared for roles such as Bible translators, translators for government on non-government organizations, teachers of English as a foreign or second language, developers of language-based technological tools, or graduate level linguistics research. The curriculum emphasizes a beginner-level familiarity with a non-alphabetically based language such as Hebrew, Chinese, or Hindi, with opportunities for a summer Study Abroad experience at the Canadian Institute of Linguistics (CANiL) at Trinity Western University in British Columbia, Canada. The minor requires a total of 18 credit hours, of which 9 to 12 are earned in a summer Study Abroad at CANiL and 9 to 12 are earned in courses delivered on Southeastern's main campus. All 18 credits can be applied to a student's Divine Design electives. For students wishing to continue their studies, this program prepares them for future graduate or professional study in linguistics at a master's and doctoral level, in TESOL, in Bible translation, or in related fields such as communication disorders and deaf studies.

Program Description
The Associate of Science (A.S.) in Construction Technology program provides students with a solid foundation in construction management and knowledge of the latest technology in this ever-growing industry. It is intended for students who are seeking a formal college degree that blends essential construction practices with modern technological applications and who wish to gain expertise in management principles, construction methods, blueprint reading, and industry software. Graduates of the program are prepared for roles such as Construction Foreman, Assistant Superintendent, Assistant Project Manager, Estimator, or Construction Scheduler in industries including residential/commercial building and specialized trade contracting. The curriculum emphasizes management fundamentals and technological proficiency, with opportunities to develop the skills needed to organize, supervise, and execute construction projects effectively. The degree requires approximately 60 credit hours, typically split between general education courses and specialized technical coursework. For students wishing to continue their studies, this program provides a college degree that enhances their personal career marketability and may serve as a transfer degree toward a Bachelor of Science in Construction Technology, Construction Management, or a related field.

Program Description
The Associate of Science (A.S.) in Project Management program is designed to provide students with a solid foundation in project management, equipping them with the well-rounded knowledge needed to adapt their skills across multiple industries. The coursework is modeled on the Project Management Institute (PMI) criteria. It is intended for students seeking a versatile, in-demand skill set applicable across sectors and who wish to gain expertise in project planning, scheduling, risk management, and execution methodologies. Graduates of the program are prepared for roles such as Project Coordinator, Project Administrator, Assistant Project Manager, or Project Analyst in industries including construction, IT, engineering, healthcare, and business services. The curriculum emphasizes versatile business and organizational skills, with opportunities to learn the foundational knowledge needed to organize, lead, and complete projects successfully. The degree requires approximately 60 credit hours, typically split between general education courses and specialized project management coursework. For students wishing to continue their studies, this program provides a college degree that enhances their personal career marketability and may serve as a transfer degree toward a Bachelor of Science in Business Administration or Project Management.

Degree Requirements

This program is being discontinued and is no longer accepting new students. Current students can still finish their degree during the teach-out period, which began in fall 2022.

Total Program Hours: 120 Credit Hours

Foundational Core: 55 Credit Hours

Type
Completion Requirement

Intellectual and Practical Skills: 9 Credit Hours

Complete ALL of the following Courses:
- COMM1433 - FUNDAMENTALS OF SPEECH
- ENGL1133 - ENGLISH COMPOSITION I
- ENGL1233 - ENGLISH COMPOSITION II

Intellectual and Practical Skills: 6 Credit Hours

Mathematics: Select Two(2) of the Following (6 Credits):

Complete at least 2 of the following courses:
- MATH1213 - COLLEGE ALGEBRA
- MATH1313 - TOPICS IN MATHEMATICS
- MATH1323 - EXPLORATION IN MATHEMATICS
- MATH1413 - PRECALCULUS
- MATH2023 - INTRO TO PROBABILITY AND STATISTICS
- MATH2144 - CALCULUS I

Engaging Human Culture and the Natural World: 4 Credit Hours

Natural Science with lab: Select One(1) of the Following (plus lab) [4 Credits]:

Complete ANY of the following Courses:

- NSCI2033 - ASTRONOMY AND EARTH SCIENCE
- NSCI2433 - ANIMAL DIVERSITY
- NSCI3333 - ECOLOGY
- NSCI2233 - ASTRONOMY
- BIOL1233 - BIOLOGY I
- NSCI1033 - LIFE SCIENCE
- NSCI1433 - BOTANY
- CHEM1213 - INTRODUCTION TO CHEMISTRY
- NSCI1113 - INTRO TO PHYSICS
- BIOL1333 - ESSENTIALS OF HUMAN A & P

Engaging Human Culture and the Natural World: 3 Credit Hours

Behavioral Science: Select One(1) of the Following [3 Credits]:

Complete ANY of the following Courses:

- PSYC1233 - PERSONAL AND SOCIAL ADJUSTMENT
- PSYC1133 - INTRODUCTION TO PSYCHOLOGY

Engaging Human Culture and the Natural World: 3 Credit Hours

Social Science: Select One(1) of the Following [3 Credits]:

Complete ANY of the following Courses:

- SSCI2133 - INTRODUCTION TO SOCIOLOGY
- SSCI2233 - MARRIAGE AND FAMILY
- BUSI2103 - MACROECONOMICS
- POLS4133 - CORNERSTONE IN POLITICAL SCIENCE
- POLS2413 - UNITED STATES GOVERNMENT

Engaging Human Culture and the Natural World: 3 Credit Hours

Historical Perspective: Select One(1) of the Following [3 Credits]:

Complete ANY of the following Courses:

- HIST1033 - WORLD CIVILIZATION TO 1600
- HIST1043 - WORLD CIVILIZATION SINCE 1600
- HIST2013 - AMERICAN HISTORY TO 1877
- HIST2023 - AMERICAN HISTORY 1877 TO THE

Engaging Human Culture and the Natural World: 3 Credit Hours

Humanities: Select One(1) of the Following [3 Credits]:

Complete ANY of the following Courses:

- HUMS2033 - THEATER APPRECIATION
- HUMS2233 - INTRODUCTION TO HUMANITIES
- MUSC1003 - MUSIC APPRECIATION
- MUSC1103 - HISTORY OF JAZZ
- COMM2433 - FILM APPRECIATION
- ARTV1503 - SURVEY OF WESTERN ART
- MUSC1223 - HIP HOP AND AMERICAN CULTURE

Engaging Human Culture and the Natural World: 3 Credit Hours

Literature: Select One(1) of the Following [3 Credits]:

Complete ALL of the following Courses:

- ENGL2133 - INTRODUCTION TO LITERATURE
- ENGL2513 - BRITISH LITERATURE I
- ENGL3933 - AFRICAN AMERICAN LITERATURE
- ENGL3633 - AMERICAN LITERATURE
- ENGL4343 - NATIVE AMERICAN LIT & CULTURE
- ENGL2523 - BRITISH LITERATURE II

Spiritual Formation: 12 Credit Hours

Complete ALL of the following Courses:

- BINT1533 - THE NEW TESTAMENT INTERPRETATION
- BIOT1433 - OLD TESTAMENT INTERPRETATION
- THEO2123 - CHRISTIAN THOUGHT AND PRACTICE
- COMM3113 - INTEGRATING FAITH IN COMMUNICATION

Personal and Social Responsibility: 9 Credit Hours

Divine Design: 41 Credit Hours

Type
Completion Requirement

Divine Design: 41 Credit Hours

Fulfill ANY of the following requirements:

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

Type
Completion Requirement

Alabama

Area I, Written Composition - 6 Credit Hours

Complete ALL of the following Courses:
- ENGL2113 - PROFESSIONAL COMMUNICATION
- ENGL1113 - COLLEGE COMPOSITION

Alabama

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

Complete ANY of the following Courses:
- ENGL2133 - INTRODUCTION TO LITERATURE **AND** ARTV2023 - PHOTOGRAPHY
- MUSC1003 - MUSIC APPRECIATION

Alabama

Area III, Natural Science and Mathematics - 11 Credit Hours

Earn at least 11 credits from the following:
- BIOL1334 - ESSENTIALS OF HUMAN A&P
- NSCI1034 - LIFE SCIENCE & LAB
- MATH1213 - COLLEGE ALGEBRA
- MATH1313 - TOPICS IN MATHEMATICS
- MATH2023 - INTRO TO PROBABILITY AND STATISTICS

Alabama

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

Complete ALL of the following Courses:
- HIST2123 - CRITICAL ISSUES IN AMERICAN HISTORY
- HIST2133 - CRITICAL ISSUES IN WORLD HISTORY
- PSYC1133 - INTRODUCTION TO PSYCHOLOGY
- SSCI2133 - INTRODUCTION TO SOCIOLOGY

Arkansas

Science

Complete ANY of the following Courses:
- BIOL1334 - ESSENTIALS OF HUMAN A&P
- NSCI1043 - NUTRITION SCIENCE **AND** NSCI104L - NUTRITION SCIENCE LAB

Arkansas

Social Sciences

Complete ALL of the following Courses:
- HIST2123 - CRITICAL ISSUES IN AMERICAN HISTORY

Kentucky

Social/Behavioral Sciences

Complete ANY of the following Courses:
- HIST2123 - CRITICAL ISSUES IN AMERICAN HISTORY
- HIST2133 - CRITICAL ISSUES IN WORLD HISTORY
- PSYC1133 - INTRODUCTION TO PSYCHOLOGY
- SSCI2133 - INTRODUCTION TO SOCIOLOGY

Kentucky

Humanities - Select One:

Complete ALL of the following Courses:
- MUSC1003 - MUSIC APPRECIATION
- DCOM2433 - FILM APPRECIATION
- HUMS2233 - INTRODUCTION TO HUMANITIES
- ARTV2023 - PHOTOGRAPHY
- ENGL2133 - INTRODUCTION TO LITERATURE

Kentucky

Humanities

Complete ALL of the following Courses:
- PMIN2123 - CHRISTIAN SPIRITUALITY

Maryland

Maryland students need an additional six credit hours in one or more of the following five areas: (i) Arts and humanities; (ii) English composition; (iii) Social and behavioral sciences; (iv) Mathematics; and (v) Biological and physical sciences.

Minnesota

Communication

Complete ALL of the following Courses:
- ENGL1113 - COLLEGE COMPOSITION

Minnesota

Natural Science

Complete ANY of the following Courses:
- BIOL1334 - ESSENTIALS OF HUMAN A&P
- NSCI1043 - NUTRITION SCIENCE **AND** NSCI104L - NUTRITION SCIENCE LAB

Minnesota

Social Science

Complete ANY of the following Courses:
- HIST2123 - CRITICAL ISSUES IN AMERICAN HISTORY
- HIST2133 - CRITICAL ISSUES IN WORLD HISTORY
- PSYC1133 - INTRODUCTION TO PSYCHOLOGY
- SSCI2133 - INTRODUCTION TO SOCIOLOGY

Montana

Montana requires 6 credit hours of natural science with a laboratory experience. Students may choose to take BIOL 1334 to complete the requirement or any other science course to meet the credit hour requirement.

Complete ALL of the following Courses:

- BIOL1334 - ESSENTIALS OF HUMAN A&P

Nevada

3 credit hours needed. The Socio-Historical requirement must be fulfilled by taking PPOL 2433 or by earning credit for one of the following combinations of classes from an accredited Nevada college: 1) HIST 100, 2) PCS 101, 3) HIST 101 and HIST 102, or 4) or HIST 101 and 217.

Ohio

Ohio students need an additional two credit hours in one or more of the following areas: Oral and Written Communication, Mathematics, Statistics and Logic, Arts, Humanities, Culture and Diversity, Natural Sciences, Technology and Innovation.

Complete ALL of the following Courses:

- MATH1213 - COLLEGE ALGEBRA

* if not already taken or 2 more credits to get to 36 hours

Oklahoma

In addition to the courses listed below, Oklahoma students need an additional 7 credit hours in one ore more of the following: History, Social Science, Behavioral Science, Humanities, Math, Natural Science, Language, or Fine Arts.

Complete ALL of the following Courses:

- NSCI1012 - PHILOSOPHY OF SCIENCE
- PPOL2413 - UNITED STATES GOVERNMENT
- HIST2123 - CRITICAL ISSUES IN AMERICAN HISTORY

Oklahoma requires 6 credit hours of natural science with a laboratory experience. Students may choose to take NSCI 1012 to complete the requirement or any other science course to meet the credit hour requirement.

Oklahoma

Choose one not already chosen for Foundational Core

Complete ANY of the following Courses:

- MUSC1003 - MUSIC APPRECIATION
- DCOM2433 - FILM APPRECIATION
- HUMS2233 - INTRODUCTION TO HUMANITIES
- ARTV2023 - PHOTOGRAPHY
- ENGL2133 - INTRODUCTION TO LITERATURE

Additional Comments:

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Program Learning Outcomes

Learning Outcomes

Discuss the heart of God as the motivation for effective and sustained compassion activities

Assess procedures for supporting those who provide compassion services

Formulate effective physical, psychological, and spiritual methods of helping the poor and suffering

Develop approaches for working in cooperation with other compassion providers on local, regional, and national levels

Critique administrative and financial strategies for presenting and supporting humanitarian projects Design efficient and effective activities for providing initial and ongoing disaster relief services for domestic and international settings, applying best practices and industry standards

The following courses can only be counted as a Major Elective if not used as a Socio-Historical Inquiry requirement: HIST 2123, HIST 2133, PSYC 1133, SSCI 2133.

LDRS 4903 is a variable credit, which can be taken up to 3 times for a total of 6 credit hours.

Divine Design (Minor, Electives, Experiential Learning): 50 Credit Hours

Fulfill ANY of the following requirements:

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Organizational Leadership majors are required to obtain a minor, second major, or study abroad for a semester. Organizational Leadership majors are encouraged to engage in one or more internships in order to focus their studies and future careers.

BALH - Historical & Literary Studies

Program Code
BALH

Degree
BA

Available in the following deliveries:

Main (UG Only)

Program Description

The BA in Historical & Literary Studies is designed to hone the skills needed to interpret pressing political, social, and cultural issues of the past and present, such as global health and disease, social relations, and problems of racial prejudice and intolerance through the lens of one of our three discipline tracks: English, History, or Writing. It is intended for students who wish to engage with the foundational literature, research methods, and professional standards of English, History, or Writing and who wish to gain expertise in their discipline through innovative course work and experiential learning opportunities. Graduates of the program are prepared for roles such as editors, publishers, writers, and politicians in industries including major publishing houses, public service, and politics. The curriculum emphasizes workplace knowledge and skills, with opportunities for presentations and publication. The degree requires a total of 120 credit hours, of which 34 are in the foundational core, 42 are in the major core, and 41 are Divine Design elective credit hours. For students wishing to continue their studies, this program prepares them for future graduate or professional study in law school, business school, or other fields related to the selected track.

Program Learning Outcomes

Learning Outcomes

Demonstrate interpretive processes of Christian Scripture by producing critical and sound exegetical presentations.

Demonstrate the ability to integrate faith, learning, and service within the context of Christian spirituality.

Articulate a basic knowledge of the discipline of theology and its relationship to the biblical text and historic contexts of the church, expressing theological ideas in a cogent manner that is in keeping with academic study.

Synthesize theological concepts across students' selected disciplines (secondary major/minors).

Demonstrate through various media the integration of students' selected disciplines with theological paradigms.

Degree
BA

Available in the following deliveries:
Main (UG Only)

Program Description
Music majors must pass all School of Music courses with a C- or higher. The Bachelor of Arts in Music program at Southeastern University is a versatile degree designed for students seeking a broad-based education in music within a liberal arts framework. This program emphasizes musical proficiency, critical thinking, and creative expression, while allowing students the flexibility to pursue additional interests through elective coursework or a minor. Students in the BA in Music program receive foundational training in music theory, ear training, music history, and performance. Applied lessons and ensemble participation are integral parts of the curriculum, fostering individual artistry and collaborative skills. The degree also includes a strong emphasis on written and oral communication, preparing students for diverse careers or graduate study in music and related fields. Ideal for students interested in combining music with other disciplines—such as business, ministry, education, or the arts—the BA in Music provides a well-rounded academic experience within a supportive and faith-centered community.

This program is being discontinued and is no longer accepting new students. Current students can still finish their degree during the teach-out period, which began in fall 2025.

Foundational Core: 60 Credit Hours

Type
Completion Requirement

Classica: 12 Credit Hours

Complete ALL of the following Courses:
- LANG1143 - CLASSICA LATIN I: GRAMMAR & TEXTS
- LANG1243 - CLASSICA LATIN II: SYNTAX & TEXTS
- LANG2253 - CLASSICA LATIN III
  OR LANG1123 - CLASSICA GREEK I: GRAMMAR & TEXTS
  OR LANG1043 - CLASSICA HEBREW I: GRAMMAR & TEXTS
- LANG2353 - CLASSICA LATIN IV
  OR LANG1223 - CLASSICA GREEK II: SYNTAX & TEXTS
  OR LANG1203 - CLASSICA HEBREW II: SYNTAX & TEXTS

English: 6 Credit Hours

Complete ALL of the following Courses:
- ENGL1103 - RHETORICA
- ENGL2023 - LITERATURA

MatheMatica: 18 Credit Hours

Complete ALL of the following Courses:
- MATH1083 - ARITHMETICA THEORY
- MATH1093 - LOGICA
- MATH1123 - EUCLIDEAN GEOMETRIA I
- MATH1153 - EUCLIDEAN GEOMETRIA II
- MATH1163 - ALGEBRA I
- MATH1173 - ALGEBRA II

OrthoDoxia: 18 Credit Hours

Complete ALL of the following Courses:
- THEO1043 - THEOLOGICA I
- THEO1053 - THEOLOGICA II
- THEO1063 - SCRIPTURA I
- THEO1083 - SCRIPTURA II
- THEO2023 - PHILOSOPHAE I
- THEO2043 - PHILOSOPHAE II

Physics: 6 Credit Hours

Complete ALL of the following Courses:
- PHYS1004 - ASTRONOMIA
- PHYS1013 - MUSICA

Moral Philosophy: 6 Credit Hours

Type
Completion Requirement

Humanities: 6 Credit Hours

Complete ALL of the following Courses:
- THEO3163 - APOLOGIA I
- THEO3193 - APOLOGIA II

CogNatE: 54 Credit Hours

Type
Completion Requirement

MatheMatica: 27 Credit Hours

MATH ELECTIVE Credits: 3

Complete ALL of the following Courses:
- MATH2043 - PRECALCULUS
- MATH2053 - MATHEMATICA PROOF
- MATH3003 - CALCULUS I
- MATH3023 - CALCULUS II
- MATH3043 - CALCULUS III
- MATH4003 - REAL ANALYSIS
  OR MATH4023 - ALGEBRAIC STRUCTURES
- MATH4043 - PROBABILITY
  OR MATH4053 - NUMBER THEORY

Natural Philosophae: 3 Credit Hours

NPHI Elective Credits: 3

Physics: 12 Credit Hours

Complete ALL of the following Courses:
- PHYS3004 - ASTRONOMIA WITH RELATIVITY
- PHYS3024 - PHYSICS WITH CALCULUS I
- PHYS3044 - PHYSICS WITH CALCULUS II

Research: 12 Credit Hours

Complete ALL of the following Courses:
- MATH2003 - STATISTICS
- MATH4103 - MATHEMATICA PAIDEIA I
- MATH4013 - MATHEMATICA MODELING I
- MATH4083 - MATHEMATICA RESEARCH/THESIS I

- ARTV3503 - MODERN & CONTEMPORARY WESTERN ART
- ARTV3913 - JUNIOR STUDIO
- ARTV4503 - SENIOR PORTFOLIO & EXHIBITION

Communication, Arts, and Design Core: 9 Credit Hours

Complete ALL of the following Courses:

- COMM2233 - INTRODUCTION TO COMMUNICATION
- COMM2733 - COMMUNICATION ETHICS
- COMM3533 - MASS COMMUNICATION THEORY

Divine Design (Major Specific Experiential Learning): 2 Credit Hours

Type
Completion Requirement

Divine Design (Major Specific Experiential Learning): 2 Credit Hours

Complete ALL of the following Courses:

- ARTV3001 - ART OR DESIGN PRATICUM

Divine Design (Minor, Electives, Experiential Learning): 39 Credit Hours

Type
Completion Requirement

Additional Comments:
To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, and/or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Program Learning Outcomes

Learning Outcomes

Students will use the elements and apply the principles of the visual arts to generate ideas, think conceptually, and produce aesthetically pleasing visual art.

Students will learn how to critically analyze works of historical and contemporary art.

Using a variety of materials and methods, as well as various image development strategies, students will achieve proficiency in the completion of drawings by integrating and applying visual art considerations of composition, focal point, use of space, inventiveness, and creativity.

Using a variety of materials and methods, as well as various image development strategies, students will achieve proficiency in the completion of paintings by integrating and applying visual art considerations of value, color, composition, inventiveness, and creativity.

Students will demonstrate readiness for the marketplace and visual arts field by producing a body of work and portfolio of visual arts artifacts.

Divine Design (Major Specific Experiential Learning): 2 Credit Hours

Complete ALL of the following Courses:
- BBUS4141 - BUSINESS SENIOR SEMINAR

Divine Design (Major Specific Experiential Learning): 2 Credit Hours

Type
Completion Requirement

Complete ALL of the following Courses:
- BBUS4141 - BUSINESS SENIOR SEMINAR

Divine Design (Minor, Electives, Experiential Learning): 27 Credit Hours

Type
Completion Requirement

Additional Comments:
To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, and/or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Other Available JCBCL Electives:

BBUS 4903 - Business Internship (90) Can be taken up to 8 times, in varying areas of Business, for 24 hours

Additional State Requirements for Online or Partner Site Students

Type
Completion Requirement

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

BFA

Available in the following deliveries:
Main (UG Only)

Program Description
The BFA in Creative Writing is designed to equip students with the practical and technical skills that form a foundation for creative and professional writing. It is intended for students interested in writing poetry, fiction, creative nonfiction, or hybrid texts. Graduates of the program are prepared for roles such as writers, publishers, and editors. The curriculum emphasizes tools of the craft, strategies for publishing creative work, and strategies for entering the workplace. The degree requires a total of 120 credit hours, of which 34 are in the foundational core, 45 are in the major core, and 41 are Divine Design elective credit hours. For students wishing to continue their studies, this program prepares them for future graduate or professional study in law school, business school, or other fields related to the selected track.

Type
Completion Requirement

Additional Comments:
To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, and/or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Program Learning Outcomes

Learning Outcomes

Students will demonstrate a thorough knowledge of thematic development, description, and employment of literary devices suitable to the genre.

Analyze selected texts to consider how they are structured, and read individual stories, books, or poems, analyzing them from a writer's point of view, considering tools of the craft.

Analyze the literary market and develop strategies for publication.

Apply revision and self-editing techniques to clarify and strengthen original writing.

Demonstrate a mastery of the reading or recitation of literary texts in public space.

Articulate how their faith influences and is reflected in their writing.

BMCM - Commercial Music

Overview

College
College of Truth, Beauty & Culture

Total Credit Hours
120

Program Code
BMCM

Degree
BS

Available in the following deliveries:
Main (UG Only)

Program Description
Music majors must pass all School of Music courses with a C- or higher. The Commercial Music program equips students to become multi-faceted 21st-century musicians. Commercial music majors take classes that provide foundational knowledge in studio recording, live sound technology, copyright law, and performance. The goal is to produce well-rounded contemporary musicians who are equipped to generate revenue from multiple musical sources. Potential careers include performer, live sound technician, music producer, and artist management.

Divine Design (Minor, Electives, Experiential Learning): 37 Credit Hours

Fulfill ANY of the following requirements:
To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Essential Experiences A. Outcome: Ensemble participation is required for all students for at least four semesters. Participation in a variety of ensembles is recommended. B. Outcome: Students will complete a Senior Capstone project under the supervision of music industry faculty that involves regular consultation between the student and a supervising faculty member. Field work in the industry and team participation are required aspects of the capstone.

Program Learning Outcomes

Learning Outcomes

Music Industry Outcome: Students must demonstrate that they have: (1) An overview understanding of the music industry, including the functions and organizational structures of its basic component sectors, and the relationships of these sectors to each other. (2) A working knowledge of the multiple ways the music industry and its sectors use principles and techniques of marketing, promotion, management, and merchandising, including the development, manufacturing, distribution, and retailing of musical products. (3) A basic knowledge of the fundamental principles, issues, and systems associated with creative and intellectual property, including but not limited to copyright, publishing, contracts, licensing, patents, and trademarks. (4) A functional knowledge of artist and concert management, including but not limited to promotion and production. (5) An overview understanding of organizational structures, practices, and standard issues associated with music organizations. (6) A basic understanding of how computers and information technologies influence the business environment, e-commerce, and the decisions of various sectors of the music industry. (7) A basic knowledge of the major information and data sources that support or influence decision-making in the music industry and in business more generally.

Music Technology Outcome: Students will demonstrate fundamental knowledge of current technologies and technological principles widely applicable to music technology, including but not limited to those associated with recording, manipulating, and presenting music and sound, signal flow and processing, music communication protocols, synthesis and interface technologies, sound synthesis, and interactive and generative media.

BMED - Music Education

Overview

College
College of Truth, Beauty & Culture

Total Credit Hours
130

Program Code
BMED

Degree
BME

Available in the following deliveries:
Main (UG Only)

Program Description
Music majors must pass all School of Music courses with a C- or higher. The Bachelor of Music Education degree program thoroughly prepares students to teach music in elementary, middle school, and high school settings. Completion of this degree leads to K-12 certification in the state of Florida. Our rigorous curriculum requires students to develop mastery of their major instrument or voice as well as strong pedagogical knowledge of secondary instruments, guitar, and keyboard. Excellent courses in musicianship, knowledge of music technology, mastery of a wide range of musical styles, and nearly 700 hours of hands-on practicum experience in K–12 classrooms enable our students to earn desirable teaching positions in public and private schools. Southeastern University music education graduates receive high praise for their achievements in the classroom, and many of our graduates have earned “Teacher of the Year” accolades in their first three years of employment. Furthermore, graduates from the program have found success pursuing master’s and doctoral degrees in the field. After their sophomore year, all music education majors ought to apply for admission into the College of Education. Admission to the College of Education Application for official admission into the College of Education (COE) must be submitted by November 30 of the sophomore year in order to be accepted for the spring or by April 30 of the sophomore year for acceptance in the fall. Students will be notified by March 1 for fall applications and October 1 for spring applications. Transfer students must submit this application during their first sophomore semester of enrollment at SEU, provided they have passed all portions of the GK exam. Applications can be found on the Undergraduate Education Forum (https://library.seu.edu/UndergradEdForum). Admission Requirements into the College of Education:
● Enrollment as a degree-seeking student at the university;
● No grade lower than a “C-” (70) in any religion course, professional education course, or specialization course;
● Minimum cumulative GPA of 2.5 for all general education courses. If you become ineligible to continue in your program, you may re-apply for admittance when eligibility has been re-established by making a written request to the Compliance Committee. (You may apply one more time.)
● Minimum grade of “B” (84) in Fundamentals of Speech, Oral Interpretation, or Introduction to Music Education;
● Completed personality profile (MBTI);
● Official documentation of passing scores on all sections of the GK test, including any retakes and remediation. State Approval/Reciprocity All teacher education programs have met requirements for Florida State Approved Programs. Students who plan to teach in Florida schools must file an application with the Office of Teacher Certification for the State of Florida and complete the post-degree requirements for the teaching credential. Students graduating from Florida state-approved teacher certification programs are currently eligible for initial certification to teach in all members of the National Association of State Directors of Teacher Education and Certification (NASDTEC), an interstate reciprocity contract allowing certified teachers to obtain teaching jobs in other states and territories. An applicant’s eligibility for certification according to the interstate agreement contract will be determined after the application for a Florida teaching certificate is on file in the Teacher Certification Office. For more information on state-specific certification requirements, click here.

Worldview Formation (Worldview Application): 3 Credit Hours

Complete ANY of the following Courses:
- CORE3113 - WORLDVIEW & COMPLEX PROBLMS SEMINAR
- CORE3213 - CLASSICAL ERA
- CORE3313 - EARLY CHRISTIAN ERA

Discursive Inquiry: 6 Credit Hours

Complete ALL of the following Courses:
- ENGL1113 - COLLEGE COMPOSITION
- EDUC3353 - EMPOWERING ESOL TEACHERS

Natural-Scientific Inquiry: 4 Credit Hours

Complete ANY of the following Courses:
- BIOL1334 - ESSENTIALS OF HUMAN A&P
- BIOL1333 - ESSENTIALS OF HUMAN A & P **AND** BIOL133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB
- NSCI1023 - INTRO TO SCIENCE AND TECH **AND** NSCI102L - INTRO TO SCIENCE AND TECH LAB
- NSCI1044 - NUTRITION SCIENCE
- NSCI1043 - NUTRITION SCIENCE **AND** NSCI104L - NUTRITION SCIENCE LAB
- NSCI1114 - SURVEY OF NATURAL SCIENCES
- NSCI2014 - INTRODUCTION TO ASTRONOMY

Quantitative Inquiry: 3 Credit Hours

Complete ANY of the following Courses:
- MATH1313 - TOPICS IN MATHEMATICS
- MATH1213 - COLLEGE ALGEBRA
- MATH2023 - INTRO TO PROBABILITY AND STATISTICS

Socio-Historical Inquiry: 6 Credit Hours

Complete at least 2 of the following courses:

- MUSC3532 - MUSIC HISTORY & LITERATURE
- MUSC3632 - MUSIC HISTORY AND LITERATURE
- MUSC3732 - MUSIC HISTORY AND LITERATURE III

Creative-Aesthetic Inquiry: 3 Credit Hours

Complete ANY of the following Courses:

- COMM2433 - FILM APPRECIATION
- HUMS2233 - INTRODUCTION TO HUMANITIES
- ARTV2023 - PHOTOGRAPHY
- ENGL2133 - INTRODUCTION TO LITERATURE
- PHIL1113 - FOUNDATIONS OF PHILOSOPHY

Major Core: 53 Credit Hours

Type

Completion Requirement

Major Core Requirements

- Applied Lessons (four 2-credit lessons at 1000 level, and three 2-credit lessons at 3000 level): 14 Credit Hours

Complete ALL of the following Courses:

- MUAK1012 - CLASS PIANO I
- MUAK1022 - CLASS PIANO II
- MUAK1032 - CLASS PIANO III
- MUAI1811 - CLASS GUITAR FOR BEGINNERS
- MUSC1032 - INTRODUCTION TO MUSIC TECHNOLOGY
- MUSC1041 - AURAL THEORY I
- MUSC1133 - MUSIC THEORY I
- MUSC1051 - AURAL THEORY II
- MUSC1233 - MUSIC THEORY II
- MUSC2041 - AURAL THEORY III
- MUSC2133 - MUSIC THEORY III
- MUSC2051 - AURAL THEORY IV
- MUSC2233 - MUSIC THEORY IV
- MUSC3732 - MUSIC HISTORY AND LITERATURE III
- MUSC4223 - CLASSROOM MANAGEMENT
- EDUC3133 - ASSESSMENT OF LEARNERS
- EDUC2233 - EDUCATIONAL PSYCHOLOGY
- EDUC3523 - TCHNG LITERACY IN THE CONTENT AREA
- ESED3113 - SURVEY OF THE EXCEP LEARNER

Divine Design (Major Specific Experiential Learning): 43 Credit Hours

Type

Completion Requirement

Divine Design

- MUSC 1XX1 - Primary Large Ensemble (seven semesters): 7 Credit Hours

Complete ALL of the following Courses:

- MUSC2503 - INTRO TO MUSIC EDUCATION W/ FIELD
- MUSC3502 - APPLIED MUSIC EDUCATION
- MUSC231L - STRING TECHNIQUES LAB
- MUSC250L - MUSIC EDUCATION LAB
- MUSC322L - CONDUCTING I LAB
- MUSC323L - CONDUCTING II LAB
- MUSC381L - CHORAL METHODS
- MUSC3942 - METHODS TEACHING MUSIC ELEMENTARY
- MUSC3952 - METHODS TEACHING MUSIC SECONDARY
- MUSC4101 - SENIOR RECITAL
- EDUC4912 - STUDENT TEACHING

Instrumental Track: 4 Credit Hours

You can select one emphasis: either Instrumental or Choral.

Complete ALL of the following Courses:

- MUSC211L - PERCUSSION TECHNIQUES LAB
- MUSC221L - WOODWIND TECHNIQUES LAB
- MUSC321L - BRASS TECHNIQUES LAB
- MUSC3311 - STRING TECHNIQUES II
  OR MUSC461L - MARCHING BAND TECHNIQUES LAB

Choral Track: 4 Credit Hours

You can select one emphasis: either Instrumental or Choral.

Complete ALL of the following Courses:

- MUSC3112 - DICTION
- MUSC213L - INTRO TO WINDS AND PERCUSSION LAB
- MUSC341L - VOCAL PEDAGOGY LAB

Program Learning Outcomes

Learning Outcomes

Musicianship: Outcome: Demonstrate proficiency in music theory and aural skills by achieving an overall grade of at least a 70% in MUSC 2233 (Music Theory IV) and MUSC 2051 (Aural Theory IV).

Performance Skills: A. Outcome: Successfully perform a senior recital that meets the department's performance standards for music education majors, as evaluated by a faculty panel, with a score of at least 70%. Recitals will demonstrate an overview understanding of the repertory in the student's major performance area through a variety of styles. B. Outcome: Students will demonstrate skills in leadership and collaboration on matters of musical interpretation by achieving at least a 70% in MUSC 323L Conducting Lab II and MUSC 3502 Applied Music Education simultaneously.

Teaching Competency: A. Outcome: Complete the student teaching practicum with a rating of "Proficient" or higher in all evaluated categories (planning, instruction, assessment) by the cooperating teacher and university supervisor.

B. Outcome: BME students enrolled in EDUC 4912 will submit a complete FEAPs checklist in accordance with Florida DOE requirements.

C. BME students will pass the Florida Teacher Certification Examinations (FTCE).

Pedagogical Knowledge: Outcome: Demonstrate the ability to understand, analyze, and implement a variety of teaching strategies by achieving at least 70% in MUSC 3502 Applied Music Education.

Professional Preparedness: Outcome: Successfully pass the state licensure exam for music education on the first attempt.

Divine Design (Minor, Electives, Experiential Learning): 23 Credit Hours

Type

Completion Requirement

Additional Comments:

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, and/or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Program Learning Outcomes

Learning Outcomes

Undergraduate accounting students will demonstrate mastery of accounting major course concepts and will be prepared to begin careers in the workplace.

General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Fulfill ANY of the following requirements:
18 Credit Hours Per Minor:

MINOR IN ACCOUNTING AND FINANCE -OR-

MINOR IN BUSINESS -OR-

MINOR IN GLOBAL BUSINESS MANAGEMENT -OR-

MINOR IN ORGANIZATIONAL LEADERSHIP -OR-

Additional Comments:
120 credit hours needed. Student must complete the Foundational Core, major requirements, and a minimum of 38 Divine Design credit hours to meet the total program hours. 18 of the Divine Design credit hours are required to be earned in one of the following minors: Accounting & Finance, Business, Global Business Management, Organizational Leadership, or Non-profit Management (to be declared on the Major/Minor Change Form). Some states have additional program requirements for site-based and online students which will be included below if applicable.

Additional State Requirements for Online or Partner Site Students

Type
Completion Requirement

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Complete ALL of the following Requirement Set:

BSBIC - Biochemistry

Overview

College
College of Natural & Health Sciences

Total Credit Hours
120

Program Code
BSBIC

Degree
BS

Available in the following deliveries:
Main (UG Only)

Program Description
The Biochemistry program is designed to provide a deep understanding of life processes at the molecular level, integrating principles of chemistry and biology. It is intended for students who are driven to explore the molecular basis of biological function and disease and who wish to gain expertise in state-of-the-art laboratory techniques and rigorous scientific inquiry. Graduates of the program are prepared for roles such as Biochemist, Biochemical or Chemical Engineer, Food researcher and developer, Federal Regulator, Quality and Control Scientist, Cosmetics developer, or Research Scientist in industries including pharmaceuticals, medical research, agricultural, forensic science, and graduate/professional schools. The curriculum emphasizes hands-on experience with advanced instrumentation (FT-IR, FT-NMR, PCR, Western Blot, etc.), data analysis, and effective scientific communication, with opportunities for undergraduate research, conference presentations, academic publication, and internships. The degree requires a total of 120 credit hours, of which 34 hours are in the foundational core, 71 hours are in the major core, and 15 hours are Divine Design elective credit hours. For students wishing to continue their studies, this program prepares them for future graduate or professional studies in Biochemistry, Molecular Biology, Medicine (M.D., D.O., P.A.), Dentistry (D.D.S., D.M.D.), Pharmacy (Pharm.D.), chemical and nuclear engineering, and pharmaceutical research.

CIP Code
260202

Program Requirements

Simple Requirements

Degree Requirements

1. A student who has accumulated more than one (1) grade below a B minus (including grades of WF) in the course sequence BIOL 1233, BIOL 1243, CHEM 1533 and CHEM 1633 at Southeastern University or elsewhere, whether repeated or not, will not be permitted to continue in that major.
2. A student who does not complete MATH 2144 Calculus I by the end of the Freshman year (2nd semester) with a grade of B minus or higher at Southeastern University or elsewhere, whether repeated or not, will not be permitted to continue in the major.
3. A student who has accumulated three (3) or more grades below C minus (including grades of WF) in any of the following Math courses (MATH 2144, MATH 2244) or Chemistry courses (CHEM 1533, CHEM 1633, CHEM 2133 or CHEM 2143) taken for college credit at Southeastern University or elsewhere, whether repeated or not, will not be permitted to continue in the major.

BIOL 4633, BIOL 4643, BIOL 4653, CHEM 4003, CHEM 4013, & CHEM 4023 Special Topics in Biology or Current Topics in Chemistry. Students may enroll for **two** different special topics courses for a total of 6 hours only to count toward the required 12 hours of Biochemistry specialization.

Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Program Learning Outcomes

Learning Outcomes

To demonstrate competency in chemical and physical foundations of biological systems (CPBS).

To demonstrate competency in biological and biochemical foundations of living systems.

To demonstrate proficiency in critical analysis and reasoning through writing, oral communication and/or standard exams.

To demonstrate competence in laboratory or experiment-based analyses of biological, physical, and chemical processes.

- PHYS2533 - GENERAL PHYSICS I
- PHYS253L - GENERAL PHYSICS I LAB
- PHYS2633 - GENERAL PHYSICS II
- PHYS263L - GENERAL PHYSICS II LAB
- CHEM2133 - ORGANIC CHEMISTRY I
- CHEM213L - ORGANIC CHEMISTRY I LAB
- CHEM2143 - ORGANIC CHEMISTRY II
- CHEM214L - ORGANIC CHEMISTRY II LAB
- CHEM3353 - BIOCHEMISTRY I

Concentration in Dentistry: 5 Credit Hours

Complete ALL of the following Courses:
- BIOL3163 - IMMUNOLOGY
- BIOL3223 - LIFE ORIGINS
- BIOL3703 - MEDICAL TERMINOLOGY
- BIOL4133 - DEVELOPMENTAL BIOLOGY
- BIOL413L - DEVELOPMNTL ANATOMY LAB(EMBRYOLOGY)
- BIOL4223 - PRINCIPLES OF NEUROSCIENCE
- CHEM3363 - BIOCHEMISTRY II
- CHEM336L - BIOCHEMISTRY LAB
- NSCI2433 - ANIMAL DIVERSITY
- NSCI243L - ANIMAL DIVERSITY LAB

Divine Design (Minor, Electives, Experiential Learning): 15 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Complete ALL of the following Courses:
- BIOL4033 - RESEARCH RESIDENCY PROGRAM
- BIOL4373 - RESEARCH IN BIOLOGICAL SCIENCES
- CHEM4373 - RESEARCH IN CHEMISTRY
- BIOL4023 - BIOLOGY FIELD STUDY

Program Learning Outcomes

Learning Outcomes

To demonstrate competency in chemical and physical foundations of biological systems (CPBS).

To demonstrate competency in biological and biochemical foundations of living systems.

To demonstrate proficiency in critical analysis and reasoning through writing, oral communication and/or standard exams.

To demonstrate competence in laboratory or experiment-based analyses of biological, physical, and chemical processes.

BSBIM - Biology: Medical Sciences

Program Code
BSBIM

Degree
BS

Available in the following deliveries:
Main (UG Only)

Program Description
The Bachelor of Science in Biology: Medical Sciences program is designed to prepare students for specific career choices while encouraging them to serve God, explore His creation, and glorify His name. It is intended for students who are passionate about biological and biomedical sciences, seeking graduate or medical school admission, and who wish to gain expertise in complex scientific concepts, undergraduate research, and applied clinical knowledge. Graduates of the program are prepared for roles such as Physician, Surgeon, Lab Scientist, Public Health Specialist, Respiratory Therapist, Epidemiologist, Medical Writer, or Laboratory Research Associate in industries including medicine, healthcare, pharmaceuticals, biomedical research, and public health. The curriculum emphasizes scientific rigor, peer mentorship, and Christian service with opportunities for undergraduate research and a formal Capstone or Research presentation at the Science Symposium. The degree requires a total of 120 credit hours, of which 34 hours are in the foundational core, 71 hours are in the major core, and 15 hours are Divine Design elective credit hours. For students wishing to continue their studies, this program prepares them for future graduate or professional study in medical school (MD, DO), dental school, veterinary school, physician assistant programs, pharmacy, or other advanced biomedical and scientific degrees.

Program Description

The Bachelor of Science in General Biology program is designed to prepare students for a wide range of possible careers while encouraging them to serve God, explore His creation, and glorify His name. It is intended for students who are interested in ecology, zoology, botany, and the natural world and who wish to gain expertise in academic and scientific research skills, field biology, and laboratory techniques. Graduates of the program are prepared for roles such as Wildlife Biologist, Zookeeper, Field Biologist, Microbiologist, Health Educator, Anesthesiologist Assistant, Forensic Science Technician, Environmental Scientist, Conservation Officer, or Research Associate in industries including natural resource management, government (Parks & Rec, Game & Fish), scientific research, education, and conservation. The curriculum emphasizes hands-on experience and a Christian worldview with opportunities for field research at Circle B Bar Reserve and Camp Gilead, guest lectures from top experts, and a formal presentation at the Science Symposium. The degree requires a total of 120 credit hours, of which 34 hours are in the foundational core, 68 hours are in the major core, 3 hours are in major specific experiential research, and 15 hours are Divine Design elective credit hours. For students wishing to continue their studies, this program prepares them for future graduate or professional study in ecology, marine biology, zoology, botany, natural resource management, or biological sciences.

Program Description
The Bachelor of Science in Biology: Veterinary program is designed to prepare students for careers in veterinary science and related fields through rigorous coursework and compassionate mentorship. It is intended for students who are passionate about veterinary medicine and animal care and who wish to gain expertise in pre-medical sciences, animal specialization courses, and critical thinking skills. Graduates of the program are prepared for roles such as Veterinarian, Veterinary Technician, Zookeeper, Aquarist, Wildlife Biologist, Wildlife Rehabilitator, Game Warden, Animal Health Inspector (e.g., USDA), or Animal Nutrition Scientist in industries including veterinary practice, animal health research, wildlife management, and zoos. The curriculum emphasizes rigorous coursework designed to meet veterinary doctoral program requirements with opportunities for access to a state-of-the-art Anatomage Vet Table, undergraduate research, and a formal presentation at the Science Symposium. The degree requires a total of 120 credit hours, of which 34 hours are in the foundational core, 71 hours are in the major core, and 15 hours are Divine Design elective credit hours. For students wishing to continue their studies, this program prepares them for future graduate or professional study in Veterinary Doctoral Programs (DVM), advanced animal science, or related graduate-level biomedical degrees.

- ENGL2133 - INTRODUCTION TO LITERATURE
- PHIL1113 - FOUNDATIONS OF PHILOSOPHY

Major Core

Type
Completion Requirement

Pre-Biology Core: 16 Credit Hours

Complete ALL of the following Courses:
- BIOL1243 - BIOLOGY II
  AND BIOL124L - BIOLOGY II LAB
- CHEM1533 - GENERAL CHEMISTRY I
  AND CHEM153L - GENERAL CHEMISTRY I LAB
- CHEM1633 - GENERAL CHEMISTRY II
  AND CHEM163L - GENERAL CHEMISTRY II LAB
- MATH2144 - CALCULUS I

Biology Core: 25 Credit Hours

Complete ALL of the following Courses:
- NSCI2433 - ANIMAL DIVERSITY
  AND NSCI243L - ANIMAL DIVERSITY LAB
- BIOL2633 - CELL & MOLECULAR BIOLOGY
- BIOL2533 - GENERAL GENETICS
  AND BIOL253L - GENERAL GENETICS LAB
- BIOL2113 - BIOETHICS
- BIOL4013 - MICROBIOLOGY
  AND BIOL401L - MICROBIOLOGY LAB
- BIOL4133 - DEVELOPMENTAL BIOLOGY
  AND BIOL413L - DEVELOPMNTL ANATOMY LAB(EMBRYOLOGY)
- BIOL4903 - SENIOR CAPSTONE

Chemistry and Physics Core: 21 Credit Hours

Complete ALL of the following Courses:
- PHYS2533 - GENERAL PHYSICS I
  AND PHYS253L - GENERAL PHYSICS I LAB
- PHYS2633 - GENERAL PHYSICS II
  AND PHYS263L - GENERAL PHYSICS II LAB
- CHEM2133 - ORGANIC CHEMISTRY I
  AND CHEM213L - ORGANIC CHEMISTRY I LAB
- CHEM2143 - ORGANIC CHEMISTRY II
  AND CHEM214L - ORGANIC CHEMISTRY II LAB
- CHEM3353 - BIOCHEMISTRY I

Concentration in Veterinary Medicine

Earn at least 9 credits from the following:
- BIOL3163 - IMMUNOLOGY
- BIOL3223 - LIFE ORIGINS
- BIOL3333 - HISTOLOGY
  AND BIOL333L - HISTOLOGY LAB
- BIOL3703 - MEDICAL TERMINOLOGY
- CHEM3363 - BIOCHEMISTRY II
  AND CHEM336L - BIOCHEMISTRY LAB
- NSCI3003 - ANIMAL PHYS. AND MOL. BIOLOGY
- NSCI3403 - AVIAN BIOLOGY (ORNITHOLOGY)
- NSCI340L - AVIAN BIOLOGY (ORNITHOLOGY) LAB

Divine Design (Minor, Electives, Experiential Learning)

Type
Completion Requirement

Experiential Learning or Minors : 15 Credit Hours

Complete ALL of the following Courses:
- NSCI4403 - SCIENCE FIELD STUDY I
- NSCI4413 - SCIENCE FIELD STUDY II
- BIOL4373 - RESEARCH IN BIOLOGICAL SCIENCES
- CHEM4373 - RESEARCH IN CHEMISTRY
- BIOL4023 - BIOLOGY FIELD STUDY

Additional Comments:
To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Program Learning Outcomes

Learning Outcomes

To demonstrate competency in chemical and physical foundations of biological systems (CPBS).

To demonstrate competency in biological and biochemical foundations of living systems.

To demonstrate proficiency in critical analysis and reasoning through writing, oral communication and/or standard exams.

To demonstrate competence in laboratory or experiment-based analyses of biological, physical, and chemical processes.

BSCSD - Communication Sciences & Disorders

Overview

College
College of Natural & Health Sciences

Program Code
BSCSD

Degree
BS

Available in the following deliveries:
Main (UG Only)

Program Description
The Bachelor of Science in Communication Sciences and Disorders program is designed to provide pre-professional training in the basic nature of human communication, following the guidelines set forth by the American Speech-Language-Hearing Association (ASHA) and the Florida Department of Health. It is intended for students who are people focused and compassionate, while interested in critical thinking and communication. Students will gain expertise in the theoretical knowledge of human communication processes, including speech, language, voice, fluency, swallowing and the anatomy and physiology of the speech and hearing mechanisms. Graduates of the program are prepared for roles such as Speech Language Pathologist Assistant in Florida, Audiology Assistant, or Early Interventionist for children birth to age 3 in industries including educational settings, healthcare (hospitals/clinics), nonprofit organizations, and early intervention services. The curriculum emphasizes learning about the human communication processes and developing a strong foundation of theoretical knowledge, with opportunities for 25 guided clinical observation hours, a research capstone and a clinical practicum course (one semester). The degree requires a total of 120 credit hours, of which 34 hours are in the foundational core, 49 hours are in the major core, and 37 hours are Divine Design elective credit hours. For students wishing to continue their studies, this program prepares them for future graduate or professional study in Master's in Speech-Language Pathology, Clinical Doctorate in Audiology or a variety of other allied health or education professions.

BSCT

Degree
BS

Available in the following deliveries:
Main (UG Only), Online, Site

Program Description
The Bachelor of Science (B.S.) in Construction Technology degree is designed to provide you with both a solid foundation in construction management and knowledge of the latest technology available in this ever-growing industry. It is intended for students seeking a four-year college degree that prepares them for leadership and technology-integration roles and who wish to gain expertise in advanced construction management principles, project scheduling, cost estimating, safety compliance, and construction technology applications. Graduates of the program are prepared for roles such as Project Manager, Construction Superintendent, Estimator, or Quality Control Manager in industries including commercial construction, residential development, civil engineering, and specialized industrial contracting. The curriculum emphasizes advanced management skills, technological proficiency, and ethical leadership, with opportunities to develop the skills needed to successfully lead complex construction projects from concept to completion. The degree requires approximately 120 credit hours, typically comprising general education, specialized technical coursework, and upper-division management classes. For students wishing to continue their studies, this program offers a college degree that enhances their marketability in the job market and provides a strong foundation for future graduate study in construction management, engineering, or business administration.

Completion Requirement

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Complete ALL of the following Requirement Set:

- *See Applicable State

Program Learning Outcomes

Learning Outcomes

Students will be able to read, understand, and interpret the architects' design intent on construction drawings and specifications, as well as be able to research and interpret typical construction building codes to maintain design and local code compliance.

Students will gain an introductory level understanding of construction layout and surveying, understand and execute a project quantitative takeoff and cost estimate, as well as prepare and submit a written proposal for the project.

Students will be able to communicate all levels of the construction process and develop a written narrative and project schedule for communication to all parties.

Students will be able to make management level decisions pertaining to all phases of the construction process inclusive of financial intricacies of construction agreements and project management objectives.

- COMM4001 - COMMUNICATION SEMINAR

Divine Design (Minor, Electives, Experiential Learning): 39 Credit Hours

Fulfill ANY of the following requirements:

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Program Learning Outcomes

Learning Outcomes

Students will utilize digital design processes and strategies, design theories, creative ideation, and critical thinking to move from concept to delivery and creatively achieve visual communication goals.

Students will apply digital design and production tools and technology in the ideation, creation, development, and production of visual media.

Students will apply the elements and principles of visual design, color theory, and typography to successfully communicate concepts, narratives, and practical information across a variety of media.

- EDUC4043 - APPLIED LINGUISTICS

Divine Design (Major Specific Experiential Learning): 15 Credit Hours

Complete ALL of the following Courses:

- ECED2131 - CLINICAL EXPERIENCE I
- ECED3351 - CLINICAL EXPERIENCE II
- ECED4221 - CLINICAL EXPERIENCE III
- ECED4912 - STUDENT TEACHING

Divine Design (Minor, Electives, Experiential Learning): 26 Credit Hours

Fulfill ANY of the following requirements:
To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Program Learning Outcomes

Learning Outcomes

Students will apply developmentally-appropriate practices to meet the needs of all students.

Students will implement effective instructional methods for teaching phonemic awareness, phonics and word recognition, fluency, vocabulary, and text comprehension.

Practice instructional methods for teaching number concepts and operations in base ten, geometric and spatial concepts, and algebraic thinking.

Apply appropriate instructional methods for teaching earth and space science, physical science, and life science.

Program Learning Outcomes

Learning Outcomes

Global Education Degree Notes: This is the first year PLOs have been created for this degree program. In addition, this is the first year that new course codes have been implemented. (Course codes were converted from EDUC to GEDU to assist students when registering for courses and mapping their courses without confusing them with face-to-face courses.) The Global Education Degree has undergone several changes for the better! To add to the greatness, we now have PLOs to use as we continue to enhance this program. ----------
---------- Students will successfully exhibit the pedagogical skills needed to be successful classroom teachers. For the 2023-2024 academic year, the College of Education chose to select courses that are taken at the beginning and end of Global Education majors' programs of study, the faculty were looking to show growth over time. In the early course, GEDU 2143, students are introduced to education concepts, including effective lesson planning, and research models of instruction. GEDU 4333 is taken at the end of their program, often the semester prior to student teaching. At this point, students are applying what they have learned about curriculum, instruction, and classroom management. Although the same students were not in both classes in the same year, the assignments analyzed for this report provide general documentation that Global Education coursework prepares students to demonstrate their ability to be successful classroom practitioners.

Students will successfully complete leveled clinical experiences (field study courses) in which they demonstrate ethical and professional behavior.

Students will demonstrate a high level of Christian faith infused and integrated into their educational philosophy and practice. Assignments in two courses: GEDU 3713 Integration of Faith and Education and GEDU 3523 Teaching Literacy in the Content Areas. GEDU 3713 is a sophomore-level course, and GEDU 3523 is a senior-level course) -- thus giving students the opportunity to more fully develop their practice of integrating Christian faith into their instruction.

Divine Design (Minor, Electives, Experiential Learning): 35 Credit Hours

Fulfill ANY of the following requirements:

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Program Learning Outcomes

Learning Outcomes

Students will utilize graphic design processes and strategies, design theories, creative ideation, and critical thinking to move from concept to delivery and creatively achieve visual communication goals for the Media and entertainment industry.

Program Description

The BS in General Studies degree is designed to allow students autonomy and choice as to their preferred areas of academic focus. It is intended for students who want a solid foundation in the liberal arts. Graduates of the program are prepared for graduate school. The curriculum emphasizes a student-centered approach to degree completion with a customizable and flexible approach. The degree requires a total of 120 credit hours, of which 34 are in the foundational core, 36 are in the major core, and 50 are Divine Design elective credit hours.

BS

Available in the following deliveries:
Main (UG Only)

Program Description
The Bachelor of Science in Health Science and Business program is designed to provide students a well-balanced background in business and health sciences, equipping them for a broad range of careers in the medical field. It is intended for students who are seeking a unique crossover opportunity to combine science and business training and who wish to gain expertise in healthcare management, pharmaceutical sales, and public health administration. Graduates of the program are prepared for roles such as Pharmaceutical Company Manager, Hospital Administrator, Pharmaceutical Sales Rep, Healthcare Consultant, Market Research Analyst, or Public Health Official in industries including pharmaceuticals, hospital and clinic administration, health insurance, government agencies (EPA, FDA), and public health. The curriculum emphasizes training in multiple disciplines and a well-balanced foundation in science and business with opportunities for internships with local medical facilities, research in chemistry or biology, and a required final semester internship or research residency program. The degree requires a total of 120 credit hours, of which 34 hours are in the foundational core, 70 hours are in the major core (49 of which are science-related, and 21 credit hours are business-related), and 16 hours are Divine Design elective credit hours. For students wishing to continue their studies, this program prepares them for future graduate or professional study in MBA in Healthcare Administration, Master of Public Health (MPH), or other advanced business and health-related degrees.

Program Learning Outcomes

Learning Outcomes

Evaluate the social, political, and historical milestones and trends in human services in relation to the human services professionals' role in advocating for individuals, families, and communities in need.

Design an original human service program to meet a community need employing the following processes: observation, needs assessment, social intervention, program development and implementation, and evaluation of outcomes.

Demonstrate cultural competence in working collaboratively and ethically with diverse peoples and groups .

Apply knowledge of key theories and approaches underlying human services intervention, such as the prevention model, the empowerment model, and the ecological model.

Employ professional, interpersonal communication skills in formal and informal networks to improve human services delivery.

Apply legal and ethical standards in the administration and delivery of human services systems to provide comprehensive and well-informed care.

BS

Available in the following deliveries:
Main (UG Only)

Program Description
The Bachelor of Science in Kinesiology: Pre-Athletic Training program is designed to equip students with the foundational and experiential knowledge of the human body and the necessary skills to pursue advanced studies in athletic training. It is intended for students who are seeking to gain acceptance into an accredited Master's of Athletic Training (MAT) program and who wish to gain expertise in the human body's movement, skill sets needed for athletic training, and multi-sport observation. Graduates of an MAT program are prepared for roles as an Athletic Trainer in settings such as Intercollegiate Athletics, Professional Sports, Physician Offices, Sport Medicine Clinics, or Secondary Schools after completing their Master's degree. The curriculum emphasizes foundational and experiential knowledge with opportunities for observation practicums with SEU Fire Athletics, leveraging expertise from Kinesiology Professors, and utilizing formal articulation agreements for graduate admission. The degree requires a total of 120 credit hours, of which 34 hours are in the foundational core, 37 hours are in the major core, 6 hours are in Major Specific Experiential Practicums, and 43 hours are in Divine Design elective credit hours.

Program Description
The Bachelor of Science in Kinesiology: Exercise Science program is designed to offer students a hands-on approach to studying physical activity and its impact on society and health throughout the lifespan. It is intended for students who desire to work in university athletic programs, community sports organizations, or fitness and recreation programs and who wish to gain expertise in human performance, coaching, sport psychology, and the care and prevention of athletic injuries. Graduates of the program are prepared for roles such as Personal Fitness Trainer, Coach, Exercise Physiologist, or Recreational Therapist in industries including university athletics, community sports organizations, private/public fitness centers, and rehabilitation services. The curriculum emphasizes hands-on training and practical application with opportunities for two semesters of practicum (including 70 hours of observation), elective coursework to explore other fields, and preparation for professional certification. The degree requires a total of 120 credit hours, of which 34 hours are in the foundational core, 37 hours in the major core, 6 hours in Major Specific Experiential Practicums, and 43 hours in Divine Design elective credit hours. For students wishing to continue their studies, this program prepares them for future graduate or professional study in Exercise Science, Sports Psychology, Physical Therapy, or Athletic Training.

BSKOT - Kinesiology: Pre-Occupational Therapy

Overview

College
College of Natural & Health Sciences

Program Code
BSKOT

Degree
BS

Available in the following deliveries:
Main (UG Only)

Program Description
The Bachelor of Science in Kinesiology: Pre-Occupational Therapy program is strategically designed for students who aspire to help children and adults achieve optimal function and enhance their quality of life across the lifespan. It provides foundational expertise necessary for addressing challenges related to behavioral health, learning and developmental disabilities, and special needs. Students delve into core scientific knowledge of human anatomy and physiology and developmental psychology while simultaneously acquiring occupational performance skills—the ability to analyze and facilitate a patient's engagement in meaningful daily activities. Graduates of this comprehensive Bachelor's program are academically prepared to apply for and successfully complete the necessary professional credentialing degree, typically the Doctor of Occupational Therapy (OTD) or Master of Occupational Therapy (MOT). Upon achieving licensure, they are qualified to practice as Occupational Therapists in diverse environments, including hospitals, rehabilitation centers, nursing care facilities, home health care, and elementary and secondary schools. The curriculum emphasizes foundational scientific knowledge and the impact of physical activity on health with opportunities for a practicum course allowing observation of an Occupational Therapist in a variety of settings. The degree requires a total of 120 credit hours, of which 34 hours are in the foundational core, 32 hours are in the major core, 6 hours are Major Specific Experiential Practicums, and 48 hours are Divine Design elective credit hours.

BSKPT - Kinesiology: Pre-Physical Therapy

Overview

College
College of Natural & Health Sciences

Program Code
BSKPT

Degree
BS

Available in the following deliveries:
Main (UG Only)

Program Description
The Bachelor of Science in Kinesiology: Pre-Physical Therapy program is designed to offer students a hands-on, rigorous academic experience centered on the study of human movement, physical function, and performance across the lifespan. The curriculum emphasizes the biological, biomechanical, and physiological principles essential for understanding the prevention, assessment, and rehabilitation of movement disorders. This specialized program is primarily intended for students whose ultimate goal is to successfully apply to and complete the Doctor of Physical Therapy (DPT) professional degree following graduation. To achieve this, students gain essential expertise in several core areas critical for advanced physical therapy study, including a detailed study of human anatomy and physiology to understand the body's structure and function, coupled with biomechanics and kinesiology for analyzing the mechanics of human movement. Furthermore, the curriculum covers exercise physiology—understanding the body's response to physical activity—and provides comprehensive preparation in foundational sciences (physics, chemistry, and biology), which typically serve as prerequisite requirements for most DPT programs. While the primary focus is DPT preparation, graduates will possess a strong foundation in human movement and wellness that qualifies them for valuable transitional roles, offering clinical or observational experience prior to DPT matriculation, such as a Physical Therapy Aide/Technician, Rehabilitation Technician, Wellness Coordinator or Health Coach, or Personal Trainer or Fitness Specialist. The overarching professional objective for students in this track remains becoming a licensed Physical Therapist after successfully completing the DPT degree and passing the licensing examination. The curriculum emphasizes hands-on training and practical application, featuring opportunities for two semesters of practicum (including 70 hours of clinical observation), and a robust foundation in core science coursework encompassing biology, human anatomy and physiology, chemistry, and physics. The degree requires a total of 120 credit hours, of which 34 hours are in the foundational core, 52 hours are in the major core, 3 hours are in a Major Specific Experiential Practicum, and 31 hours are in Divine Design elective credit hours.

Divine Design (Minor, Electives, Experiential Learning): 35 Credit Hours

Fulfill ANY of the following requirements:
To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

Type

Completion Requirement

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Complete ALL of the following Requirement Set:

- *See Applicable State

Program Learning Outcomes

Learning Outcomes

Ministerial Leadership: Humanitarian Ministry students will be able to properly use hermeneutical tools to exegete and apply the Bible in ministry contexts.

Ministerial Leadership: Humanitarian Ministry students will be able to apply planning, team, financial leadership skills in ministry contexts.

Ministerial Leadership: Humanitarian students will construct strategic plans for humanitarian/compassion work in various contexts.

Ministerial Leadership: Humanitarian Ministry students will be able to integrate their biblical interpretation, theological, leadership, and Christian ministry competencies in ministry contexts.

BSMAC - Mathematics: Actuarial

BS

Available in the following deliveries:
Main (UG Only)

Program Description

The Bachelor of Science in Mathematics with an Actuarial Science Concentration program is designed to prepare students for a successful career as an actuary by applying mathematical and statistical theory to analyze the economic costs of risks and uncertainty. It is intended for students who are detail-oriented, analytical thinkers with a strong mathematical background and who wish to gain expertise in mathematics, statistics, and financial theory as it relates to risk management. Graduates of the program are prepared for roles such as Health Insurance Actuary, Life Insurance Actuary, Property and Casualty Actuary, Enterprise Risk Management Actuary, or Pension and Retirement Benefits Actuary in industries including insurance (health, life, property/casualty), finance, investment firms, and government agencies. The curriculum emphasizes advanced mathematical and financial concepts with opportunities for independent research projects, department-wide feedback on major projects, and a Capstone project or Internship. The degree requires a total of 120 credit hours, of which 34 hours are in the foundational core, 60 hours are in the major core, and 26 hours are in Divine Design elective credit hours. For students wishing to continue their studies, this program prepares them for future graduate or professional study in Actuarial Science, Business, or Finance.

CIP Code

270503

Program Requirements

Simple Requirements

Degree Requirements

Notes:
MATH 2144 Calculus I and MATH 2244 Calculus II have been removed from the Foundational Core and thus have been moved to the major core. This caused the Major Core to increase from 34 hours to 42 hours (Calculus I and Calculus II are both 4 credit hours, thus increasing the total number in this bucket by 8). The reason for this was to help ensure the foundational core stayed at 34 credit hours. We have now placed MATH 2023 as the foundational core math since it is 3 credit hours thus keeping the overall FC at 34 instead of 35.

1. BUSI 2103 was removed from the foundational core as an option for students. This course was required for students and now moves to the Business Core bucket since it was removed from the FC.
2. Under the 4-year plan, we placed "Business Core Elective" throughout the plan. Students will work with advisors during advising to select the courses that best fit their desired outcomes and divine design.
3. The previous degree audit included the Actuary Core and Business Core together as one large bucket. In an effort to decrease the major core to the recommended 45 hours or less, we have split off the Business Core classes and placed them in the Divine Design bucket. With this plan, students can get a minor in Business and still have 26 remaining credit hours to explore other minors and craft a degree program that helps develop their divine design.

Total Program Hours: 120 Credit Hours

Foundational Core: 34 Credit Hours

Type
Completion Requirement

SEU Foundations: 3 Credit Hours

Complete ALL of the following Courses:
- CORE1111 - COMMUNITY AND COLLEGE SUCCESS
- CORE1112 - DIVINE DESIGN & MISSIONAL VOCATION

Worldview Formation: 6 Credit Hours

Complete ALL of the following Courses:
- BIBL1113 - THE STORY OF SCRIPTURE
- THEO1213 - LIVED THEOLOGY

Worldview Formation (Worldview Application): 3 Credit Hours

Complete ANY of the following Courses:
- CORE3113 - WORLDVIEW & COMPLEX PROBLMS SEMINAR
- CORE3213 - CLASSICAL ERA
- CORE3313 - EARLY CHRISTIAN ERA

Discursive Inquiry: 6 Credit Hours

Complete ALL of the following Courses:
- ENGL1113 - COLLEGE COMPOSITION
- ENGL2113 - PROFESSIONAL COMMUNICATION

Natural-Scientific Inquiry: 4 Credit Hours

Complete ANY of the following Courses:
- BIOL1334 - ESSENTIALS OF HUMAN A&P
- BIOL1333 - ESSENTIALS OF HUMAN A & P
  AND BIOL133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB
- NSCI1023 - INTRO TO SCIENCE AND TECH
  AND NSCI102L - INTRO TO SCIENCE AND TECH LAB
- NSCI1043 - NUTRITION SCIENCE
  AND NSCI104L - NUTRITION SCIENCE LAB
- NSCI1114 - SURVEY OF NATURAL SCIENCES
- NSCI2014 - INTRODUCTION TO ASTRONOMY

Quantitative Inquiry: 3 Credit Hours

Complete ALL of the following Courses:
- MATH2023 - INTRO TO PROBABILITY AND STATISTICS

Socio-Historical Inquiry: 6 Credit Hours

Complete at least 2 of the following courses:
- HIST2123 - CRITICAL ISSUES IN AMERICAN HISTORY
- HIST2133 - CRITICAL ISSUES IN WORLD HISTORY
- PSYC1133 - INTRODUCTION TO PSYCHOLOGY
- SSCI2133 - INTRODUCTION TO SOCIOLOGY
- SSCI2233 - MARRIAGE AND FAMILY

Creative-Aesthetic Inquiry: 3 Credit Hours

Complete ANY of the following Courses:

- MUSC1003 - MUSIC APPRECIATION
- COMM2433 - FILM APPRECIATION

Math Core: 42 Credit Hours*

Complete ALL of the following Courses:

- MATH2144 - CALCULUS I
- MATH2213 - DISCRETE MATHEMATICS
- MATH2244 - CALCULUS II
- MATH3044 - CALCULUS III
- MATH3123 - PROBABILITY
- MATH3223 - STATISTICAL METHODS I
- MATH3234 - LINEAR ALGEBRA
- MATH3733 - MATHEMATICAL COMPUTING
- MATH4314 - INTRO TO ACTUARIAL MATHEMATICS
- MATH4423 - STATISTICAL METHODS II
- MATH4432 - ACTUARIAL APPLICATIONS
- MATH4432 - ACTUARIAL APPLICATIONS
- MATH4453 - ACTUARIAL SCIENCE CAPSTONE

MATH 4432 - Actuarial Applications must be taken twice.

Business Core: 18 Credit Hours

Complete ALL of the following Courses:

- BUSI2103 - MACROECONOMICS
- BUSI2203 - MICROECONOMICS
- BUSI2133 - PRINCIPLES OF FINANCIAL ACCOUNTING
- BUSI2233 - PRINCIPLES OF MANAGERIAL ACCOUNTING
- BUSI3103 - PRINCIPLES OF FINANCE
- CTIS2133 - DATA MANAGEMENT ANALYSIS

Divine Design (Minor, Electives, Experiential Learning): 26 Credit Hours

Fulfill ANY of the following requirements:

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Program Learning Outcomes

Learning Outcomes

The student will show proficiency in computational methods in all mathematical subjects.

The student will demonstrate problem-solving skills, the ability to interpret, analyze and evaluate mathematical statements. They should be able to choose appropriate processes and apply them to gain the solutions.

The student will convey and receive information and ideas accurately, consistently, and efficiently in oral, visual, and written form, formally and informally, across a diverse range of audiences.

The student will apply analytical approaches to a range of cross-disciplinary problems and demonstrate knowledge of how to use appropriate models.

BSMAT - Mathematics

BSMAT

Degree
BS

Available in the following deliveries:
Main (UG Only)

Program Description
The Bachelor of Science in Mathematics program is designed to enhance a student's problem-solving, logical thinking, and analytical skills and provide knowledge of a universal language that influences nearly every career. It is intended for students who are seeking a versatile, highly valued degree and who wish to gain expertise in applying abstract mathematical concepts to real-world problems. Graduates of the program are prepared for roles such as Actuary, Data Scientist, Software Engineer, Mathematician, or Market Research Analyst in industries including finance, engineering, communications, sciences, technology, and manufacturing. The curriculum emphasizes logical thinking and creative analytical skills with opportunities for independent research projects on topics of interest, department-wide feedback on major projects, and a Capstone Project. The degree requires a total of 120 credit hours, of which 34 hours are in the foundational core, 49 hours are in the major core, and 37 hours are Divine Design elective credit hours. For students wishing to continue their studies, this program prepares them for future graduate or professional study in Biostatistics, Actuarial Science, engineering, business, medical areas, or University Professor/ Researcher roles.

CIP Code
270101

Program Requirements

Simple Requirements

Degree Requirements

1) MATH 2144 Calculus I and MATH 2244 Calculus II have been removed from the Foundational Core and thus have been moved to the major core. The reason for this was to help ensure the foundational core stayed at 34 credit hours. Calculus I was the foundational core math under the previous audits and it is a 4 credit hour class. We have now placed MATH 2023 as the foundational core math since it is 3 credit hours thus keeping the overall FC at 34 instead of 35.

2) The registrar has indicated that if a course runs as a special topics at least 3 times, then it needs to run as an actual course. Number Theory (MATH 3133) and History of Mathematics (MATH 3243) are consistently run as a special topics course. These courses have been taught at SEU in previous years, but they appear to be inactive. The math department would like to reactivate them and run them as regular courses on a regular rotation. Number Theory was offered in Fall 2022 under the course code MATH 4073 Special Topics and History of Mathematics is scheduled to be offered in Spring 2023 under the course code MATH 4073 Special Topics. This will simplify the audit and make it clear which courses should be taken for the student.

3) One switch in the major core and major electives was Probability and Statistical Methods I. Probability serves as a prerequisite to Statistical Methods I. For this reason, the Probability course should be required and the Statisitical Methods I course offered as an elective. These were incidently switch under a previous degree audit.

4) Step 1: Old Audit has major core as 44 (29 required + 15 elective). Step 2: Add Calc I and Calc II to major core (37 required + 15 elective). Step 3: Move two courses from the Math Electives to the Math required. This would be the Number Theory and history of Mathematics course (43 required + 9 elective). Step 4: In a effort to decrease the major core closer to the desired number of hours, we have eliminated one of the electives. (43 required + 6 elective). This is where we land with 49 hours.

5) Original Audit has 44 major core hours. With the addition of Calculus I and Calculus II to the major core, it would make the Math major core bucket 52 hours. Removing the elective drops this number to 49.

Divine Design (Minor, Electives, Experiential Learning): 41 Credit Hours

Type
Completion Requirement

Additional Comments:
To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, and/or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs),

PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Program Learning Outcomes

Learning Outcomes

Undergraduate management students will demonstrate mastery of management major course concepts and will be prepared to begin careers in the workplace.

- PMIN1803 - PASTORING THE NEXT GENERATION
- PMIN1603 - EFFECTIVE NEXTGEN MINISTRY OUTCOMES

Divine Design (Major Specific Experiential Learning): 6 Credit Hours

Type
Completion Requirement

Complete at least 2 of the following courses:

- PMIN2032 - STUDENT MINISTRY PRACTICUM I
  OR PMIN2303 - STUDENT MINISTRY PRACTICUM
- PMIN2042 - STUDENT MINISTRY PRACTICUM II
  OR PMIN2303 - STUDENT MINISTRY PRACTICUM

Choose PMIN 2032 if you are an online only student, and PMIN 2303 if you are a site-based student.
Choose PMIN 2042 if you are an online only student, and PMIN 2303 if you are a site-based student.

Divine Design (Minor, Electives, Experiential Learning): 35 Credit Hours

Type
Completion Requirement

Additional Comments:
To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Program Code
BSN

Degree
BS

Available in the following deliveries:
Main (UG Only)

Program Description
The Bachelor of Science in Nursing program is designed to equip students with the in-depth knowledge and practical experience to excel as professional nurses and serve patients with Christ-like compassion. It is intended for students who are seeking their first professional nursing degree or license and who wish to experience hands-on learning in direct patient care, leadership, and clinical practice. Graduates of the program are prepared to sit for their National Council Licensure Examination (NCLEX-RN) for licensure as a Registered Nurse prepared for roles such as Acute Care in the Hospital setting, Unit Manager, Travel Nurse, Clinical Instructor, Community Health, and public health policy. The curriculum emphasizes hands-on clinical training and face-to-face interaction with dedicated, experienced faith-filled nursing faculty, who facilitate opportunities for practicum hours with a licensed nurse, simulation training in a state-of-the-art lab, and an end of program Capstone Presentation. The degree requires a total of 120 credit hours, of which 34 hours are in the foundational core, 68 hours are in the major core, and 18 hours are Divine Design Major Specific Experiential credit hours including experience in a variety of specific clinical hours. For students wishing to continue their studies, this program prepares them for future graduate or professional study in advanced practice nursing (such as MSN or DNP degrees) and healthcare administration. The baccalaureate degree program in nursing at Southeastern University is accredited by the Commission on Collegiate Nursing Education.

Additional Comments:

0 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Criminal Justice majors will exhibit professional characteristics, attitudes, and competencies throughout the duration of the major.

Program Learning Outcomes

Learning Outcomes

Criminal Justice majors will discuss the history and development of the criminal justice system and gain exposure to system professionals.

Criminal Justice majors will identify the relationship and interaction between the various criminal justice system components.

Criminal Justice majors will compare and contrast criminological theories which attempt to explain the causes of crime.

Criminal Justice majors will conduct criminological research, interpret the results, and present the final information.

Divine Design (Minor, Electives, Experiential Learning): 20 Credit Hours

Fulfill ANY of the following requirements:
To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Program Learning Outcomes

Learning Outcomes

Criminal Justice majors will discuss the history and development of the criminal justice system and gain exposure to system professionals.

Criminal Justice majors will identify the relationship and interaction between the various criminal justice system components.

Criminal Justice majors will compare and contrast criminological theories which attempt to explain the causes of crime.

Criminal Justice majors will conduct criminological research, interpret the results, and present the final information.

Criminal Justice majors will exhibit professional characteristics, attitudes, and competencies throughout the duration of the major.

BSPLS

Degree
BS

Available in the following deliveries:
Main (UG Only)

Program Description
The BS in Political Science degree is designed to allow students to assess the internal and external constructs of American government, international aid agencies, and non-profit organizations. It is intended for students who are interested in the historical, theoretical, and practical aspects of politics and who wish to gain expertise in outlining and exploring politics. Graduates of the program are prepared for roles such as writers of policy and legislative briefs in industries including the private and public sectors of politics. The curriculum emphasizes domestic and international sectors, with opportunities for applied skills in writing, employment experience through internship opportunities, and professional networking. The degree requires a total of 120 credit hours, of which 34 are in the foundational core, 42 are in the major core, and 44 are Divine Design elective credit hours.

Degree Requirements

This program is being discontinued and is no longer accepting new students. Current students can still finish their degree during the teach-out period, which began in fall 2023.

Total Program Hours: 120 Credit Hours

Foundational Core: 55 Credit Hours

Type
Completion Requirement

Intellectual And Practical Skills: 15 Credit Hours

Complete ALL of the following Courses:

- COMM1433 - FUNDAMENTALS OF SPEECH
- ENGL1133 - ENGLISH COMPOSITION I
- ENGL1233 - ENGLISH COMPOSITION II

Mathematics: 6 Credit Hours

Complete at least 2 of the following courses:

- MATH1213 - COLLEGE ALGEBRA
- MATH1313 - TOPICS IN MATHEMATICS
- MATH1323 - EXPLORATION IN MATHEMATICS
- MATH1413 - PRECALCULUS
- MATH2023 - INTRO TO PROBABILITY AND STATISTICS
- MATH2144 - CALCULUS I

Natural Science With Lab: 4 Credit Hours

Complete ALL of the following Courses:

- BIOL1333 - ESSENTIALS OF HUMAN A & P

With Lab Total: 4 Credit Hours

Behavioral Science: 3 Credit Hours

Complete ANY of the following Courses:

- PSYC1133 - INTRODUCTION TO PSYCHOLOGY
- PSYC1233 - PERSONAL AND SOCIAL ADJUSTMENT

Social Science: 3 Credit Hours

Complete ANY of the following Courses:

- SSCI2133 - INTRODUCTION TO SOCIOLOGY
- SSCI2233 - MARRIAGE AND FAMILY
- BUSI2103 - MACROECONOMICS
- POLS4133 - CORNERSTONE IN POLITICAL SCIENCE
- POLS2413 - UNITED STATES GOVERNMENT

Historical Perspective: 3 Credit Hours

Complete ANY of the following Courses:

- HIST1033 - WORLD CIVILIZATION TO 1600
- HIST1043 - WORLD CIVILIZATION SINCE 1600
- HIST2013 - AMERICAN HISTORY TO 1877
- HIST2023 - AMERICAN HISTORY 1877 TO THE

Humanities: 3 Credit Hours

Complete ANY of the following Courses:

- HUMS2033 - THEATER APPRECIATION
- HUMS2233 - INTRODUCTION TO HUMANITIES
- MUSC1003 - MUSIC APPRECIATION
- MUSC1103 - HISTORY OF JAZZ
- MUSC1223 - HIP HOP AND AMERICAN CULTURE
- COMM2433 - FILM APPRECIATION
- ARTV1503 - SURVEY OF WESTERN ART

Literature: 3 Credit Hours

Complete ANY of the following Courses:

- ENGL2133 - INTRODUCTION TO LITERATURE
- ENGL2513 - BRITISH LITERATURE I
- ENGL2523 - BRITISH LITERATURE II
- ENGL3633 - AMERICAN LITERATURE
- ENGL3933 - AFRICAN AMERICAN LITERATURE
- ENGL4343 - NATIVE AMERICAN LIT & CULTURE

Spiritual Formation: 12 Credit Hours

Complete ALL of the following Courses:

- BINT1533 - THE NEW TESTAMENT INTERPRETATION
- BIOT1433 - OLD TESTAMENT INTERPRETATION
- THEO2123 - CHRISTIAN THOUGHT AND PRACTICE
- SRMT3603 - SPORT & SPIRITUALITY

Personal And Social Responsibility: 9 Credit Hours

Complete ALL of the following Courses:

- CORE1122 - SEU 101: COLLEGE AND COMMUNITY
- CORE1222 - SEU 102: PURPOSE AND PRACTICE
- CORE2231 - SEU 201: INTENTIONAL LEADERSHIP
- CORE2241 - SEU 202: EXPERIENTIAL LEADERSHIP

Complete ALL of the following Courses:

- SRMT4909 - SPORT MANAGEMENT INTERNSHIP

Divine Design (Minor, Electives, Experiential Learning): 41 Credit Hours

Type
Completion Requirement

Additional Comments:
To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, and/or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Program Learning Outcomes

Learning Outcomes

Students will understand important factors of professionalism in the sport industry, including how to interview, write a resume, interview professionals in the field, and have hands-on experience.

Students will understand that sport is a microcosm of society influenced by cultural traditions, social values, and psychosocial experiences - and that sport managers are immersed in the socio-cultural milieu with sport as the focus.

Students will apply fundamental marketing concepts to the sport industry - and understand the unique sport product and consumer markets.

Students will understand the principles of interpersonal and mass communication and understand interaction with internal and external sport publics.

Students will understand budget and finance as critical components of all sport industries - and Students will understand the various agencies that govern sport and identify their authority, organizational structure, and functions.

Program Learning Outcomes

Learning Outcomes

Demonstrate ethical and professional behavior - Competency 1.0 includes the following performance indicators: make ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulations, models for ethical decision-making, and additional codes of ethics as appropriate to context, uses reflection and self-regulation to manage personal values and maintain professionalism in practice situations, uses technology ethically and appropriately to facilitate practice outcomes, and uses supervision and consultation to guide professional judgment and behavior.

Advance human rights and social and economic justice. This competency is related to the following behaviors: apply their understanding of social, racial, economic, and environmental justice to advocate for human rights; and engage in practices that advance social, racial, economic, and environmental justice.

Engage Anti-Racism, Diversity, Equity, and Inclusion (ADEI) in Practice. This competency is related to the following performance indicators: Demonstrate anti-racist and anti-oppressive social work practice at the micro level, demonstrate anti-racist and anti-oppressive social work practice at the mezzo level, demonstrate anti-racist and anti-oppressive social work practice at the macro level, present themselves as learners with clients and constituencies as experts of their own experiences, engages clients and constituencies as experts of their own experiences, apply self-awareness and self-regulation to manage the influence of personal biases and values in working with diverse clients and constituencies.

Competency 4.0 Practice Informed Research Engage in practice-informed research and research-informed practice (CSWE EP 4) This program competency is related to the following performance indicators: a) Intern uses theory to inform scientific inquiry and research b) Intern uses practice experience to inform scientific inquiry and research c) Intern applies critical thinking to engage in analysis of quantitative research methods and research findings d) Intern applies critical thinking to engage in analysis of qualitative research methods and research findings e) Intern uses and translates research evidence to inform and improve practice, policy, and service delivery

Competency 5: Engage in Policy Practice This competency is related to the following performance indicators: -Identifies social policy at the local, state, and federal level that impacts well-being, service delivery, and access to social services -Assesses how social welfare and economic policies impact the delivery of and access to social services -Applies critical thinking to analyze policies that advance human rights and social justice -Applies critical thinking to formulate policies that advance human rights and economic justice -Applies critical thinking to advocate for policies that advance human rights and environmental justice

6.0 Engagement with Client Systems Engage with Individuals, Families, Groups, Organizations, and Communities (CSWE, EP 6) This competency is related to the following practice performance indicators: Intern applies knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks to engage with clients and constituencies Intern uses empathy, reflection, and interpersonal skills to effectively engage diverse clients and constituencies.

7.0 Assessment of Client Systems This program competency is related to the following performance indicators: -Collects and organizes data, and apply critical thinking to interpret information from clients and constituencies (M = 4.64/5) -Applies knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the analysis of assessment data from clients and constituencies (M= 4.45/5) -Develops mutually agreed-on intervention goals and objectives based on the critical assessment of strengths, needs, and challenges within clients and constituencies (M= 4.55/5) - Selects appropriate intervention strategies based on the assessment, research knowledge, and values and preferences of clients and constituencies (M = 4.36 / 5)

8.0 Intervene with Client Systems Intern critically chooses and implements interventions to achieve practice goals and enhance capacities of clients and constituencies Intern applies knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in interventions with clients and constituencies Intern uses inter-professional collaboration as appropriate to achieve beneficial practice outcomes Intern negotiates, mediates, and advocates with and on behalf of diverse clients andconstituencies Intern facilitates effective transitions and endings that advance mutually agreed- on goals.

Competency 9.0 Evaluation of Client Systems This competency is related to the following performance indicators: Student selects and uses appropriate methods for evaluation of outcomes; Student can apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the evaluation of outcomes; Student critically analyzes, monitors, and evaluates intervention and program processes and outcomes; and Student can apply evaluation findings to improve practice effectiveness at the micro, mezzo, and macro levels.

Competency 10: Integrating Faith with Social Work Practice This competency is related to the following performance indicators: -Understand and work effectively with the religious, faith, and spirituality dimensions o persons and communities. -Understand and work effectively within the context of the practice setting in regard to faith and spirituality. -Draw from one’s own faith and spirituality to practice self-care and to empower one’s ability to engage in effective social work practice

Relationship and Interaction Between Criminal Justice System Components Criminal Justice majors will identify the relationship and interaction between the various criminal justice system components.

Criminal Justice majors will discuss the history and development of the criminal justice system and gain exposure to system professionals.

Understanding and Applying Criminology Theories Criminal Justice majors will compare and contrast criminological theories, which attempt to explain the causes of crime.

Criminal Justice majors will conduct criminological research, interpret the results, and present the final information.

Demonstrate ethical and professional behavior - Competency 1.0 includes the following performance indicators: a) make ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulations, models for ethical decision-making, and additional codes of ethics as appropriate to context; b) uses reflection and self-regulation to manage personal values and maintain professionalism in practice situations; c) uses technology ethically and appropriately to facilitate practice outcomes; and d) uses supervision and consultation to guide professional judgment and behavior.

Advance human rights and social and economic justice. This competency is related to the following behaviors: apply their understanding of social, racial, economic, and environmental justice to advocate for human rights; and engage in practices that advance social, racial, economic, and environmental justice.

Engage Anti-Racism, Diversity, Equity, and Inclusion (ADEI) in Practice. This competency is related to the following performance indicators: Demonstrate anti-racist and anti-oppressive social work practice at the micro level, demonstrate anti-racist and anti-oppressive social work practice at the mezzo level, demonstrate anti-racist and anti-oppressive social work practice at the macro level, present themselves as learners with clients and constituencies as experts of their own experiences, engages clients and constituencies as experts of their own experiences, apply self-awareness and self-regulation to manage the influence of personal biases and values in working with diverse clients and constituencies.

Competency 4.0 Practice Informed Research Engage in practice-informed research and research-informed practice (CSWE EP 4) This program competency is related to the following performance indicators: a) Intern uses theory to inform scientific inquiry and research b) Intern uses practice experience to inform scientific inquiry and research c) Intern applies critical thinking to engage in analysis of quantitative research methods and research findings d) Intern applies critical thinking to engage in analysis of qualitative research methods and research findings e) Intern uses and translates research evidence to inform and improve practice, policy, and service delivery

Competency 5: Engage in Policy Practice This competency is related to the following performance indicators: 1. Identifies social policy at the local, state, and federal level that impacts well-being, service delivery, and access to social services 2. Assesses how social welfare and economic policies impact the delivery of and access to social services 3. Applies critical thinking to analyze policies that advance human rights and social justice 4. Applies critical thinking to formulate policies that advance human rights and economic justice 5. Applies critical thinking to advocate for policies that advance human rights and environmental justice

6.0 Engagement with Client Systems Engage with Individuals, Families, Groups, Organizations, and Communities (CSWE, EP 6) This competency is related to the following practice performance indicators: 1. Intern applies knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks to engage with clients and constituencies 2. Intern uses empathy, reflection, and interpersonal skills to effectively engage diverse clients and constituencies.

7.0 Assessment of Client Systems This program competency is related to the following performance indicators: 1. Collects and organizes data, and apply critical thinking to interpret information from clients and constituencies 2. Applies knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the analysis of assessment data from clients and constituencies) 3. Develops mutually agreed-on intervention goals and objectives based on the critical assessment of strengths, needs, and challenges within clients and constituencies 4. Selects appropriate intervention strategies based on the assessment, research knowledge, and values and preferences of clients and constituencies

8.0 Intervene with Client Systems This program competency is related to the following performance indicators: 1. Intern critically chooses and implements interventions to achieve practice goals and enhance capacities of clients and constituencies 2. Intern applies knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in interventions with clients and constituencies 3. Intern uses inter-professional collaboration as appropriate to achieve beneficial practice outcomes 4. Intern negotiates, mediates, and advocates with and on behalf of diverse clients and constituencies

Competency 9.0 Evaluation of Client Systems This competency is related to the following performance indicators: 1. Intern selects and uses appropriate methods for evaluation ofoutcomes Intern applies knowledge of human behavior and the social environment, person-in- environment, and other multidisciplinary theoretical frameworks in the evaluation of outcomes2. Intern critically analyzes, monitors, and evaluates intervention and program processes and outcomes 3. Intern applies evaluation findings to improve practice effectiveness at the micro, mezzo, macro level

Integrating Faith with Social Work Practice This competency is related to the following performance indicators: Understand and work effectively with the religious, faith, and spirituality dimensions of persons and communities, understand and work effectively within the context of the practice setting in regard to faith and spirituality, and draw from one’s own faith and spirituality to practice self-care and to empower one’s ability to engage in effective social work practice.

BSWS - Worship Studies

College of Truth, Beauty & Culture

Total Credit Hours
120

Program Code
BSWS

Degree
BS

Available in the following deliveries:
Main (UG Only)

Program Description
Music majors must pass all School of Music courses with a C- or higher. The Worship Studies program is designed specifically for those called to serve the church through music. This program prepares students for the demands of service as a worship leader, worship pastor, music director, or other related music ministry position, specifically in the instruction of various styles of contemporary and sacred music. The audio technology, music theory, instrumental, and vocal techniques taught here equip students with the skills they need to confidently fulfill various roles upon graduation.

Divine Design (Minor, Electives, Experiential Learning): 37 Credit Hours

Type
Completion Requirement

Divine Design

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Program Learning Outcomes

Learning Outcomes

Comprehensive capabilities to provide music-based leadership in religious institutions and settings. A.Outcome: Students will create, conceive, organize, and lead musical performances and experiences in congregational or worship settings at a high level, including original arrangements and/or compositions.

Outcome: Students will demonstrate the ability to employ media and technologies in developing and producing music and worship experiences and service design. Additionally, students will demonstrate understanding of music administrative structures, practices, and procedures.

An understanding of musical religious practice including music in worship, orders of worship, repertories, congregational song.

At least one public demonstration of competence in music leadership and/or solo performance or composition. Students may demonstrate competence in a variety of ways, including but not limited to a single event or series, or through one or more than one type of public presentation, including worship events, solo recitals, or other creative means as determined by the instructor in the MUSC 4021 Senior Capstone course.

Program Learning Outcomes

Learning Outcomes

Apply evidence-based structured literacy principles grounded in the Science of Reading to design and deliver explicit, systematic, and multisensory reading instruction across Tier 1–3 settings.

Administer, interpret, and use literacy assessment data to identify student strengths and needs and to guide instructional planning and intervention decisions.

Design and implement targeted interventions for students with dyslexia, learning disabilities, multilingual backgrounds, and other reading difficulties within inclusive and specialized learning environments.

Evaluate literacy curricula, programs, and instructional materials for research alignment, effectiveness, and appropriateness for diverse learners.

Integrate legal, ethical, and professional practices related to special education, assessment, and service delivery to support equitable literacy outcomes.

Degree
EDD

Available in the following deliveries:
Online, Site, Main/Hybrid (GR Only)

Program Description
An EdD degree from Southeastern University provides development of skills necessary for leadership roles in educational and business careers. Coursework prepares students to live out their divine design in a K-12 or higher education setting serving as a teacher, instructional designer, professor, or leader in a private or public organization. The EdD students focus on applying knowledge learned in courses. This degree is for working professionals interested in taking on leadership roles in educational or organizational settings. Specialized courses develop the skills needed for students to assume key facilitating roles in one of two concentration areas: (a) Curriculum and Instruction, or (b) Organizational Leadership. The following five foundational fluencies, which are core principles of the program, are taught and assessed throughout the program: ⚠ analytic inquiry ⚠ quantitative and qualitative research ⚠ communication ⚠ evaluation ⚠ servant leadership The Doctor of Education program is a non-licensure program. If students wish to obtain any state certification, they will need to contact their state department of education for specific requirements and applications. Program Summary Total Credits - 54 Credit hours with four components: Doctoral Core (15 hours) Research Core (9 hours) Concentration (18 hours) Dissertation (a minimum of 12 hours) Program Length - 3-4 years • Coursework - one eight-week course at a time • Dissertation - Students need a minimum of 12 dissertation credits, and continuous enrollment is required. Students may take a maximum of 18 dissertation credits. Program Delivery • Three 16-week semesters each calendar year (Fall, Spring, and Summer) are broken into 8-week terms for courses. • Hybrid model with mostly online courses. Two courses require a three-day face-to-to face intensive. • Two three-day intensive courses are required and will be completed on campus either in February or June corresponding to students' cohort start date. Students complete one intensive in year one and the other intensive during year two. • Comprehensive exam during the last semester of course work (Students may not advance to doctoral candidacy until they have passed the comprehensive exam and successfully completed all doctoral-level courses) • Dissertation proposal defense (on campus or from a remote location). Students will identify a problem of practice and conduct research to solve a problem of practice. • Dissertation defense (on campus or from a remote location)

CIP Code
130401

Program Requirements

Program-Specific Admission/Entrance Requirements
Entrance Requirements
All the components listed below are required and will be utilized by the College of Education Doctoral Committee to make an admittance decision. Other requirements are detailed on the application. Applicants are considered on a case-by-case basis, and the decision of the committee is final.
⚠ Regionally accredited graduate degree with at least a 3.0 GPA on a 4.0 scale
⚠ Current professional vita
⚠ Christian faith statement (two- to three-page essay)
⚠ Minimum of three full-time years of successful experience in a related field
⚠ Scholarly writing sample: minimum of five pages (Examples: articles, graduate research papers/assignments, published work, etc.)

◈ One professional recommendation
◈ Background check consent form
◈ For non-native English speakers a current TOEFL score at the mean level or higher
Failure to meet one of the standards may not immediately disqualify a candidate depending upon the strength of the other components. For example, an applicant with a 3.5 GPA but only two years of experience may still be considered by the EdD admissions committee.

International Students
International students applying for admission to any Southeastern University graduate program must meet all normal requirements for admission to those programs.
Additional requirements are as follows:
◈ Course-by-course transcript evaluation completed through a third-party such as www.jsilny.com or www.wes.org. This is required in order to confirm the completion of your undergraduate degree outside the United States.
◈ If you live in a country where English is not the primary language, we would then require either the TOEFL exam with an IBT: 76 or higher, or the IELTS with a band score of 6.0 or higher.
* If the program is an online or hybrid program, you do not need the passport, visa, or support letter documents because our international students do not come to the US for online or hybrid courses. However, please include your transcript evaluation if your previous degree is from a non-American university.
Contact the program chair for information about how the face-to-face intensives can be handled differently for international students.

Other Policies
Non-Degree Seeking Students
Students may take up to 9 hours as a non-degree seeking student. A student accepted with a non-degree classification must comply with pre-requisite requirements.
This classification may appeal to students who already hold a graduate degree and need further graduate hours to qualify for teaching a specific discipline at the university level. Specific concentration courses may be especially helpful for this goal.
Taking courses as a non-degree seeking student may also appeal to individuals who are not yet sure if a doctoral degree is their goal but desire to explore the possibility. Contact the graduate admissions office for details on admissions criteria and pre-requisite requirements for the courses desired.

Transfer Credits
For complete information regarding transfer credits, see "General Conditions for All Credit Transfer" in the Academic Chapter of the Graduate Catalog. In the EdD program, a maximum of 14 credits (or 25% of the total credits) of graduate coursework from accredited universities may be transferrable to a student's doctoral program according to the following requirements:
◈ The courses are doctoral level courses;
◈ The courses are earned at an accredited university;
◈ The courses are less than seven years old;
◈ The courses are relevant to the coursework at SEU; and
◈ The advisor approves the transfer based on information provided by the student in the course substitution form.
The College of Education Doctoral Committee will evaluate the transcript and award transfer credit based on a case-by-case basis. The College of Education Doctoral Committee has determined that once a student begins doctoral coursework at SEU, no transient credit (future courses taken at another university) will be allowed. The student must request an evaluation of transfer credit as soon as possible so the determination of transfer credit can be completed before the end of the student's first semester of enrollment in the program.

Advanced Standing
Upon evaluation of special circumstances, a student who has been accepted without provisional status and who has an earned EdS or higher degree from a regionally accredited institution may be accepted into the EdD program with an advanced standing (AS) classification. AS students may be eligible for exemption for up to 30 credits. AS students must complete a minimum of 30 hours at SEU (including dissertation) in order to earn the EdD. The transfer credits must comply with the requirements for transfer credits (See Transfer Credit section in the Graduate Catalog)

Continuous Enrollment
Once a student enters the dissertation phase (marked by the first enrollment in EDUC 9012), the student must stay continuously enrolled each semester (spring, summer, and fall) until the dissertation has been successfully defended.
The minimum GPA requirement is 3.0. Grades of less than C- will not be counted toward degree completion.

Program Description
The Philosophy of Education degree provides advanced development of skills necessary for serving in leadership roles in educational and business careers. Courses prepare students for academic and research positions in higher education or other organizations. PhD graduates may serve as thought leaders, consultants, professors, or researchers. A PhD in Education focuses on conducting original research, data analysis, and theoretical development. This degree is research-oriented, designed for those looking to pursue scholarly work and publishing. Specialized courses develop the skills needed for students to assume key facilitating roles in one of two concentration areas: (a) Curriculum and Instruction, or (b) Organizational Leadership. The following five foundational fluencies, which are core principles of the program, are taught and assessed throughout the program: ⛢ analytic inquiry ⛢ advanced quantitative and qualitative research ⛢ communication ⛢ evaluation ⛢ servant leadership The Doctor of Education program is a non-licensure program. If students wish to obtain any state certification, they will need to contact their state department of education for specific requirements and applications. Program Summary Total Credits - 60 Credit hours with four components: Doctoral Core (15 hours) Research Core (9 hours) Advanced Research Core (6 hours) Concentration (18 hours) Dissertation (a minimum of 12 hours) Program Length - 3-4 years • Coursework - one eight-week course at a time • Dissertation - Students need a minimum of 12 dissertation credits, and continuous enrollment is required. ⛢ Minimum of three full-time years of successful experience in a related field
⛢ Scholarly writing sample: minimum of five pages (Examples: articles, graduate research papers/assignments, published work, etc.)
⛢ One professional recommendation
⛢ Background check consent form
⛢ For non-native English speakers a current TOEFL score at the mean level or higher
Failure to meet one of the standards may not immediately disqualify a candidate depending upon the strength of the other components. For example, an applicant with a 3.5 GPA but only two years of experience may still be considered by the Ed.D. admissions committee.

International Students
International students applying for admission to any Southeastern University graduate program must meet all normal requirements for admission to those programs.

Additional requirements are as follows:
⛢ Course-by-course transcript evaluation completed through a third-party such as www.jsilny.com or www.wes.org. This is required in order to confirm the completion of your undergraduate degree outside the United States.
⛢ If you live in a country where English is not the primary language, we would then require either the TOEFL exam with an IBT: 76 or higher, or the IELTS with a band score of 6.0 or higher.
* If the program is an online or hybrid program, you do not need the passport, visa, or support letter documents because our international students do not come to the US for online or hybrid courses. However, please include your transcript evaluation if your previous degree is from a non-American university.
Contact the program chair for information about how the face-to-face intensives can be handled differently for international students.

Other Policies
Non-Degree Seeking Students
Students may take up to 9 hours as a non-degree seeking student. A student accepted with a non-degree classification must comply with pre-requisite requirements.
This classification may appeal to students who already hold a graduate degree and need further graduate hours to qualify for teaching a specific discipline at the university level. Specific concentration courses may be especially helpful for this goal.
Taking courses as a non-degree seeking student may also appeal to individuals who are not yet sure if a doctoral degree is their goal but desire to explore the possibility. Contact the graduate admissions office for details on admissions criteria and pre-requisite requirements for the courses desired.

Transfer Credits
For complete information regarding transfer credits, see "General Conditions for All Credit Transfer" in the Academic Chapter of the Graduate Catalog. In the PhD program, a maximum of 15 credits (or 25% of the total credits) of graduate coursework from accredited universities may be transferrable to a student's doctoral program according to the following requirements:
⛢ The courses are doctoral level courses;
⛢ The courses are earned at an accredited university;
⛢ The courses are less than seven years old;
⛢ The courses are relevant to the coursework at SEU; and
⛢ The advisor approves the transfer based on information provided by the student in the course substitution form.
The College of Education Doctoral Committee will evaluate the transcript and award transfer credit based on a case-by-case basis. The College of Education Doctoral Committee has determined that once a student begins PhD coursework at SEU, no transient credit (future courses taken at another university) will be allowed. The student must request an evaluation of transfer credit as soon as possible so the determination of transfer credit can be completed before the end of the student's first semester of enrollment in the program.

Advanced Standing
Upon evaluation of special circumstances, a student who has been accepted without provisional status and who has an earned EdS or higher degree from a

regionally accredited institution may be accepted into the PhD program with an advanced standing (AS) classification. AS students may be eligible for exemption for up to 30 credits. AS students must complete a minimum of 30 hours at SEU (including dissertation) in order to earn the PhD. The transfer credits must comply with the requirements for transfer credits (See Transfer Credit section in the Graduate Catalog).

Continuous Enrollment
Once a student enters the dissertation phase (marked by the first enrollment in EDUC 9012), the student must stay continuously enrolled each semester (spring, summer, and fall) until the dissertation has been successfully defended.
The minimum GPA requirement is 3.0. Grades of less than C- will not be counted toward degree completion.

Simple Requirements

Degree Requirements

*The doctor of philosophy in education degree is taught in a hybrid format. Classes are 8-week, online courses. There is a three-day intensive at the beginning of the program and then another intensive in the second year.

Degree
PHD

Available in the following deliveries:
Online, Site

Program Description
The Philosophy of Education degree provides advanced development of skills necessary for serving in leadership roles in educational and business careers. Courses prepare students for academic and research positions in higher education or other organizations. PhD graduates may serve as thought leaders, consultants, professors, or researchers. A PhD in Education focuses on conducting original research, data analysis, and theoretical development. This degree is research-oriented, designed for those looking to pursue scholarly work and publishing. Specialized courses develop the skills needed for students to assume key facilitating roles in one of two concentration areas: (a) Curriculum and Instruction, or (b) Organizational Leadership. The following five foundational fluencies, which are core principles of the program, are taught and assessed throughout the program: ◈ analytic inquiry ◈ advanced quantitative and qualitative research ◈ communication ◈ evaluation ◈ servant leadership The Doctor of Education program is a non-licensure program. If students wish to obtain any state certification, they will need to contact their state department of education for specific requirements and applications. Program Summary Total Credits - 60 Credit hours with four components: Doctoral Core (15 hours) Research Core (9 hours) Advanced Research Core (6 hours) Concentration (18 hours) Dissertation (a minimum of 12 hours) Program Length - 3-4 years • Coursework - one eight-week course at a time • Dissertation - Students need a minimum of 12 dissertation credits, and continuous enrollment is required. Students may take a maximum of 18 dissertation credits. Program Delivery • Three 16-week semesters each calendar year (fall, spring, and summer) are broken into 8 week terms for courses. • Hybrid model with mostly online courses. Two courses require a three-day face-to-to face intensive. • Two three-day intensive courses are required and will be completed on campus either in February or June corresponding to students' cohort start date • Comprehensive exam during the last semester of course work (Students may not advance to doctoral candidacy until they have passed the comprehensive exam and successfully completed all doctoral-level courses) • Dissertation proposal defense (on campus or from a remote location). PhD students will develop or test a theory or study a research problem in their profession. PhD students examine questions that contribute to the discipline of education. A PhD dissertation is steeped in theory and has a broad cultural or social significance. • Dissertation defense (on campus or from a remote location)

DMNE

Degree
DMAN

Available in the following deliveries:
Online, Hybrid (GR Only)

Program Description
A research-driven, multidisciplinary program for professionals dedicated to advancing management practice through applied research, data analytics, executive leadership, and strategic decision-making. As a terminal degree in business administration and management, the Doctor of Management program prepares individuals for executive leadership, consulting, or entrepreneurial roles in various sectors, including business, nonprofit organizations, educational institutions, and government agencies.

CIP Code
520201

Program Requirements

Program-Specific Admission/Entrance Requirements
Prospective students must provide evidence of (a) character, (b) graduate-level proficiency in business, (c) experience in business or management, and (d) potential to evaluate organizational performance through evidence-based research.

Requirements:
Master of Business Administration or related business or management degree from a regionally accredited college or university with a minimum GPA of 3.0. Official transcripts are required.

Resume or Curriculum Vita. We will holistically evaluate this to determine how the person's past education and work experience have established a basis for the continued development of higher-level academic skills in the study of management.

Two professional letters of recommendation addressing the applicant's character, experience with leadership, and ability to complete the doctoral program.

Admission essay that addresses why you chose SEU for your doctoral studies, your goals for the program, talents, and experiences that can lead to success, and how you will contribute to others. See specific requirements.

Please complete these essay questions to assist in evaluating your fit with our doctoral program. This is an opportunity to articulate your goals for the program, talents, and experiences that can lead to success, and how you will contribute to others. Answer the following questions in approximately 1000 words. Your essay should be e-mailed directly to the Admission Office at admission@seu.edu.

Describe your personal and professional goals and how a doctoral degree from the Jannetides College of Business, Communication, and Leadership will help. Use the program description and summary to guide you.
Why have you selected Southeastern University to help you achieve your goals?

Doctoral programs in the Jannetides College of Business, Communication, and Leadership are challenging and rewarding. Comment on personal attributes and experiences that demonstrate your ability to complete a doctorate-level program. Include previous academic and professional experiences that document your learning capacity.

Servant leadership is important to the Southeastern University community. Comment on how your characteristics and faith inform your concept of servant leadership and how you will contribute to the program, faculty, and fellow students.

Program Description
An EdD degree from Southeastern University provides development of skills necessary for leadership roles in educational and business careers. Coursework prepares students to live out their divine design in a K-12 or higher education setting serving as a teacher, instructional designer, professor, or leader in a private or public organization. The EdD students focus on applying knowledge learned in courses. This degree is for working professionals interested in taking on leadership roles in educational or organizational settings. Specialized courses develop the skills needed for students to assume key facilitating roles in one of two concentration areas: (a) Curriculum and Instruction, or (b) Organizational Leadership. The following five foundational fluencies, which are core principles of the program, are taught and assessed throughout the program: ◈ analytic inquiry ◈ quantitative and qualitative research ◈ communication ◈ evaluation ◈ servant leadership The Doctor of Education program is a non-licensure program. If students wish to obtain any state certification, they will need to contact their state department of education for specific requirements and applications. Program Summary Total Credits - 54 Credit hours with four components: Doctoral Core (15 hours) Research Core (9 hours) Concentration (18 hours) Dissertation (a minimum of 12 hours) Program Length - 3-4 years • Coursework - one eight-week course at a time • Dissertation - Students need a minimum of 12 dissertation credits, and continuous enrollment is required. Students may take a maximum of 18 dissertation credits. Program Delivery • Three 16-week semesters each calendar year (Fall, Spring, and Summer) are broken into 8-week terms for courses. • Hybrid model with mostly online courses. Two courses require a three-day face-to-to face intensive. • Two three-day intensive courses are required and will be completed on campus either in February or June corresponding to students' cohort start date. Students complete one intensive in year one and the other intensive during year two. • Comprehensive exam during the last semester of course work (Students may not advance to doctoral candidacy until they have passed the comprehensive exam and successfully completed all doctoral-level courses) • Dissertation proposal defense (on campus or from a remote location). Students will identify a problem of practice and conduct research to solve a problem of practice. • Dissertation defense (on campus or from a remote location)

Program Requirements

Program-Specific Admission/Entrance Requirements
Entrance Requirements
All the components listed below are required and will be utilized by the College of Education Doctoral Committee to make an admittance decision. Other requirements are detailed on the application. Applicants are considered on a case-by-case basis, and the decision of the committee is final.
◈ Regionally accredited graduate degree with at least a 3.0 GPA on a 4.0 scale
◈ Current professional vita
◈ Christian faith statement (two- to three-page essay)
◈ Minimum of three full-time years of successful experience in a related field
◈ Scholarly writing sample: minimum of five pages (Examples: articles, graduate research papers/assignments, published work, etc.)
◈ One professional recommendation
◈ Background check consent form
◈ For non-native English speakers a current TOEFL score at the mean level or higher
Failure to meet one of the standards may not immediately disqualify a candidate depending upon the strength of the other components. For example, an applicant with a 3.5 GPA but only two years of experience may still be considered by the EdD admissions committee.

International Students
International students applying for admission to any Southeastern University graduate program must meet all normal requirements for admission to those programs.
Additional requirements are as follows:
◈ Course-by-course transcript evaluation completed through a third-party such as www.jsilny.com or www.wes.org. This is required in order to confirm the completion of your undergraduate degree outside the United States.
◈ If you live in a country where English is not the primary language, we would then require either the TOEFL exam with an IBT: 76 or higher, or the IELTS with a band score of 6.0 or higher.
* If the program is an online or hybrid program, you do not need the passport, visa, or support letter documents because our international students do not come to the US for online or hybrid courses. However, please include your transcript evaluation if your previous degree is from a non-American university.
Contact the program chair for information about how the face-to-face intensives can be handled differently for international students.

Other Policies
Non-Degree Seeking Students
Students may take up to 9 hours as a non-degree seeking student. A student accepted with a non-degree classification must comply with pre-requisite requirements.
This classification may appeal to students who already hold a graduate degree and need further graduate hours to qualify for teaching a specific discipline at the university level. Specific concentration courses may be especially helpful for this goal.
Taking courses as a non-degree seeking student may also appeal to individuals who are not yet sure if a doctoral degree is their goal but desire to explore the possibility. Contact the graduate admissions office for details on admissions criteria and pre-requisite requirements for the courses desired.

Transfer Credits
For complete information regarding transfer credits, see "General Conditions for All Credit Transfer" in the Academic Chapter of the Graduate Catalog. In the EdD program, a maximum of 14 credits (or 25% of the total credits) of graduate coursework from accredited universities may be transferrable to a student's doctoral program according to the following requirements:
◈ The courses are doctoral level courses;
◈ The courses are earned at an accredited university;
◈ The courses are less than seven years old;
◈ The courses are relevant to the coursework at SEU; and
◈ The advisor approves the transfer based on information provided by the student in the course substitution form.
The College of Education Doctoral Committee will evaluate the transcript and award transfer credit based on a case-by-case basis. The College of Education Doctoral Committee has determined that once a student begins doctoral coursework at SEU, no transient credit (future courses taken at another university) will be allowed. The student must request an evaluation of transfer credit as soon as possible so the determination of transfer credit can be completed before the end of the student's first semester of enrollment in the program.

Advanced Standing
Upon evaluation of special circumstances, a student who has been accepted without provisional status and who has an earned EdS or higher degree from a regionally accredited institution may be accepted into the EdD program with an advanced standing (AS) classification. AS students may be eligible for exemption

for up to 30 credits. AS students must complete a minimum of 30 hours at SEU (including dissertation) in order to earn the EdD. The transfer credits must comply with the requirements for transfer credits (See Transfer Credit section in the Graduate Catalog).

Continuous Enrollment
Once a student enters the dissertation phase (marked by the first enrollment in EDUC 9012), the student must stay continuously enrolled each semester (spring, summer, and fall) until the dissertation has been successfully defended.
The minimum GPA requirement is 3.0. Grades of less than C- will not be counted toward degree completion.

- EDUC9052 - DISSERTATION V
- EDUC9062 - DISSERTATION VI

Program Learning Outcomes

Learning Outcomes

To develop and apply advanced knowledge and understanding in the students' broad integrative knowledge and their specialized knowledge (analytic fluency)

To develop and apply skills in effectively analyzing and conducting research to inform professional practice (quantitative and/or qualitative fluency)

To develop and apply effective speaking and/or scholarly writing skills (communication fluency)

To develop and apply leadership qualities and skills in designing, implementing, and evaluating programs and policies (evaluation fluency)

To develop and apply knowledge, attitudes, and skills to serve the students' chosen professions with distinction (servant leadership fluency).

DORGL - Organizational Leadership

Overview

College
Jannetides College of Business, Communication & Leadership

Total Credit Hours
60

Program Code
DORGL

Degree
PHD

Available in the following deliveries:
Online, Site, Hybrid (GR Only)

Program Description
A research-based, multidisciplinary program designed for individuals called to advance Christian leadership and organizational scholarship within ministry contexts. This program prepares students to teach and conduct research at colleges, universities, and seminaries, or to serve as researchers, consultants, or leaders within churches, denominational bodies, nonprofits, mission agencies, and other faith-based or global organizations. Emphasizing both academic rigor and spiritual formation, this concentration integrates biblical principles with leadership theory and practice to address the evolving needs of contemporary Christian ministry in diverse cultural contexts.

CIP Code
520213

Program Requirements

Program-Specific Admission/Entrance Requirements
Prospective students must provide evidence of character, excellence in scholarship, experience with leadership, and potential to conduct scholarly research andpresent
results at the doctoral level.
Requirements:
● Master’s degree from a regionally accredited college or university with a minimum GPA of 3.0. Official transcripts are required.
● Resume or Curriculum Vita. We will holistically evaluate this to determinehowthe person’s past education and work experience have established a basis forthe continued development of higher-level academic skills in the study of
leadership.
● Two professional letters of recommendation that address a person's character, experience with leadership, and ability to complete the doctoral program.
● Admission Essay (see Appendix A) that addresses why you chose SEUfor yourdoctoral studies, your goals for the program, talents and experiences that canlead to success, and how you will contribute to others.
● Doctoral Writing Sample (see Appendix B) that demonstrates your research, writing, analytical, and problem-solving skills.

- EDUC3351 - CLINICAL EXPERIENCE II
- EDUC4221 - CLINICAL EXPERIENCE III
- EDUC4912 - STUDENT TEACHING

Divine Design (Minor, Electives, Experiential Learning): 26 Credit Hours

Fulfill ANY of the following requirements:

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Program Learning Outcomes

Learning Outcomes

One of the College of Education's eight degree programs is Elementary Education. The program is state-approved and leads students toward qualifying for a Florida professional teaching certificate. As articulated by the State of Florida's Department of Education, learning outcomes in all state-approved education programs are measured by the Florida Teacher Certification Exam (FTCE). The FTCE is comprised of three subcategories: General Knowledge Test (GKT) made up of English Language Arts (ELA), Essay, Reading, and Math; Professional Educator's Exam (PEd); and the Secondary Biology Subject Area Exam (SAE). The GKT, PEd, and SAE are listed as course assignments in Field Studies 1, 2, and 3, respectively.

Students will successfully exhibit the pedagogical skills needed to be successful classroom teachers. For the 2023-2024 academic year, the College of Education chose to change the courses and assignments for analysis with regard to PLO 2 - Successful Classroom Practitioners. By selecting courses that are taken at the beginning and end of Education majors' programs of study, the faculty were able to see growth over time. In the early course, EDUC 2143, students are introduced to education concepts, including effective lesson planning, and get their first opportunity to practice teaching to their peers. EDUC 4433 (and cross-listed courses) is taken at the end of their program, often the semester prior to student teaching. At this point, students are applying what they have learned about curriculum, instruction, and classroom management. Although the same students were not in both classes in the same year, the assignments analyzed for this report provide general documentation that College of Education coursework prepares students to demonstrate their ability to be successful classroom practitioners. Note that information provided below includes all students, not just Elementary Education majors.

Students will successfully complete leveled clinical experiences (field study courses) in which they demonstrate ethical and professional behavior. Note that information provided below includes all students, not just Elementary Education majors.

Students will demonstrate a high level of Christian faith infused and integrated into their educational philosophy and practice. Assignments in two courses: EDUC 3713 Integration of Faith and Education and EDUC 3523 Teaching Literacy in the Content Areas. The PLO 4 document with summary data and the rubrics for the faith-related assignments are attached. Note that in previous years, data from ESED 3113, Survey of the Exceptional Learner, was also included in the assessment of this PLO. For the 2023-2024 academic year, the decision was made to eliminate that course as a source of data collection. The rationale for this decision was to allow more time between data collection points -- EDUC 3713 is a sophomore-level course, and EDUC 3523 is a senior-level course) -- thus giving students the opportunity to more fully develop their practice of integrating Christian faith into their instruction. Note that information provided below includes all students, not just Elementary Education majors.

Complete ALL of the following Courses:

- EDUC4373 - TEACHING MATH IN THE SEC SCHOOL
- MATH1213 - COLLEGE ALGEBRA
- MATH2023 - INTRO TO PROBABILITY AND STATISTICS

Middle Grades Content Area; Social Studies: 9 Credit Hours

Complete ALL of the following Courses:

- EDUC4373 - TEACHING MATH IN THE SEC SCHOOL
- HIST2123 - CRITICAL ISSUES IN AMERICAN HISTORY
- POLS2413 - UNITED STATES GOVERNMENT

Middle Grades Content Area Courses; Science: 9 Credit Hours

Complete ALL of the following Courses:

- EDUC3143 - TEACHING BIOLOGY IN SECONDARY SCH
- NSCI3333 - ECOLOGY
- BIOL1233 - BIOLOGY I

Divine Design (Major Specific Experiential Learning): 4 Credit Hours

Complete ALL of the following Courses:

- ESED3111 - CLINICAL EXPERIENCE I
- ESED3211 - CLINICAL EXPERIENCE II
- ESED4311 - CLINICAL EXPERIENCE III
- ESED4411 - CLINICAL EXPERIENCE IV

Divine Design (Minor, Electives, Experiential Learning): 28 Credit Hours

Fulfill ALL of the following requirements:

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

- ESED5712 - ESE STUDENT TEACHING

Program Learning Outcomes

Learning Outcomes

One of the eight College of Education degree programs is the Exceptional Student Education 4+1 program. This program is designed to have undergraduates seamlessly transition into aMaster's of ESE program that is completed over three semesters. The program is state- approved and leads students toward qualifying for a Florida professional teaching certificate.As articulated by the State of Florida's Department of Education, learning outcomes in all state-approved education programs are measured by the Florida Teacher Certification Exam (FTCE). The FTCE is comprised of three subcategories: General Knowledge Test (GKT) made up of English Language Arts (ELA), Essay, Reading, and Math; Professional Educator's Exam (PEd); and Subject Area Exam (SAE) by content area of degree program. The GKT, PEd, and SAE are listed as course assignments in Field Studies 1, 2, and 3, respectively. ESE 4+1 majors take the GKT, PEd, and the ESE SAE. These students also take Field Study 4, during which they also take the Elementary Education SAE (which has four subtests) and a Middle Grades SAE of their choice (MG English, MG Math, MG Science, or MG Social Science). They must pass all exams except the MG SAE to be eligible for Florida teaching certification; they must attempt the MG SAE as part of the COE program and to be eligible for student teaching.

Students will successfully exhibit the pedagogical skills needed to be successful classroom teachers. For the 2023-2024 academic year, the College of Education chose to change the courses and assignments for analysis with regard to PLO 2 - Successful Classroom Practitioners. By selecting courses that are taken at the beginning and end of Education majors' programs of study, the faculty were able to see growth over time. In the early course, EDUC 2143, students are introduced to education concepts, including effective lesson planning, and get their first opportunity to practice teaching to their peers. EDUC 4433 (and cross-listed courses) is taken at the end of their program, often the semester prior to student teaching. At this point, students are applying what they have learned about curriculum, instruction, and classroom management. Although the same students were not in both classes in the same year, the assignments analyzed for this report provide general documentation that College of Education coursework prepares students to demonstrate their ability to be successful classroom practitioners. Note that information provided below includes all students, not just ESE 4+1 majors.

Students will successfully complete leveled clinical experiences (field study courses) in which they demonstrate ethical and professional behavior. Note that information provided below includes all students, not just ESE 4+1 majors.

Students will demonstrate a high level of Christian faith infused and integrated into their educational philosophy and practice. Assignments in two courses: EDUC 3713 Integration of Faith and Education and EDUC 3523 Teaching Literacy in the Content Areas. The PLO 4 document with summary data and the rubrics for the faith-related assignments are attached. Note that in previous years, data from ESED 3113, Survey of the Exceptional Learner, was also included in the assessment of this PLO. For the 2023-2024 academic year, the decision was made to eliminate that course as a source of data collection. The rationale for this decision was to allow more time between data collection points -- EDUC 3713 is a sophomore-level course, and EDUC 3523 is a senior-level course) -- thus giving students the opportunity to more fully develop their practice of integrating Christian faith into their instruction. Note that information provided below includes all students, not just ESE 4+1 majors.

Program Description
Southeastern's Global MBA program offers students the chance at once-in-a-lifetime learning experiences around the world. We are committed to the idea that servant leaders can be world changers, and our global MBA programs prepare you to be just that. Through our Christ-centered curriculum, you will gain the skills necessary not only to succeeding in business but also to making ethical decisions in the workplace. Christian principles are the core strength of our courses, from marketing to accounting and economics to corporate finance. One of the unique features of our MBA program is our partnership with Enlace. Enlace is an organization that uses business as missions to help pull the people of El Salvador out of poverty. As a participant in their one week study abroad intensive course, you will get to go to El Salvador to experience their mission in action. The class will focus on creating solutions for a quadruple bottom line that includes a spiritual, economic, social, and environmental transformation. The SEU MBA requires active employment throughout the program to provide essential real-world context for its advanced, case-study-driven curriculum. International students fulfill this mandatory practical application through Curricular Practical Training (CPT), which integrates theoretical knowledge with professional practice. Students without employment must secure a formal semesterly exception to receive alternate academic assignments.

CIP Code
520201

Program Requirements

Program-Specific Admission/Entrance Requirements
Students are accepted into the MBA program based on evidence of their aptitude and motivation for graduate business education at Southeastern University, as well as their understanding of basic business functions.

Below are the minimum basic requirements; however, admission acceptance is considered given the applicant's entire application package:

• A bachelor's degree from a regionally accredited institution with a cumulative GPA of 3.0 or above.
• Applicants with a lower GPA may be considered if they have proof of proficiency on foundational courses, extensive work experience, and/or industry certifications.
• A current resumé outlining work and/or volunteer experience as well as any relevant education and/or industry certifications.
• Students must earn a B+ in BUSI 5003 Business Principles to remain in the program.

IFMK - Influencer Marketing

Overview

College
Jannetides College of Business, Communication & Leadership

Program Code
IFMK

Available in the following deliveries:
Main (UG Only)

Program Description
The Influencer Marketing Minor prepares students for leadership roles in one of the fastest-growing sectors of the digital economy. As influencer marketing continues to shape how brands connect with audiences, from hyper-local businesses to national campaigns, organizations are seeking professionals who understand strategy, compliance, budgeting, and measurable performance. Students who complete this minor will graduate with the business and regulatory knowledge needed to operate confidently in both brand and agency environments.

Program Description
The Master of Science in Leadership: Entrepreneurship, provides learning experience for the application of leadership practices in an entrepreneurial context. Students choosing this degree intend to be practitioners desiring to work in their own business. This major takes a holistic approach and provides a core foundation in leadership skills, and additionally, helps gain an understanding in entrepreneurship by selecting classes from brand creation, negotiation & conflict management, coaching mentoring & consulting, and Innovation & technology. Students not only experience immediate impact by learning valuable soft-skills in leadership in their current position but are also prepared to step into their next higher-level position.

Online, Site, Main/Hybrid (GR Only)

Program Description
Southeastern's Global MBA program offers students the chance at once-in-a-lifetime learning experiences around the world. We are committed to the idea that servant leaders can be world changers, and our global MBA programs prepare you to be just that. Through our Christ-centered curriculum, you will gain the skills necessary not only to succeeding in business but also to making ethical decisions in the workplace. Christian principles are the core strength of our courses, from marketing to accounting and economics to corporate finance. One of the unique features of our MBA program is our partnership with Enlace. Enlace is an organization that uses business as missions to help pull the people of El Salvador out of poverty. As a participant in their one week study abroad intensive course, you will get to go to El Salvador to experience their mission in action. The class will focus on creating solutions for a quadruple bottom line that includes a spiritual, economic, social, and environmental transformation. The SEU MBA requires active employment throughout the program to provide essential real-world context for its advanced, case-study-driven curriculum. International students fulfill this mandatory practical application through Curricular Practical Training (CPT), which integrates theoretical knowledge with professional practice. Students without employment must secure a formal semesterly exception to receive alternate academic assignments.

CIP Code
520201

Program Requirements

Program-Specific Admission/Entrance Requirements
Students are accepted into the MBA program based on evidence of their aptitude and motivation for graduate business education at Southeastern University, as well as their understanding of basic business functions. Below are the minimum basic requirements; however, admission acceptance is considered given the applicant's entire application package:
• A bachelor's degree from a regionally accredited institution with a cumulative GPA of 3.0 or above.
• Applicants with a lower GPA may be considered if they have proof of proficiency on foundational courses, extensive work experience, and/or industry certifications.
• A current resumé outlining work and/or volunteer experience as well as any relevant education and/or industry certifications.
• Students must earn a B+ in BUSI 5003 Business Principles to remain in the program.

Overview

College
Jannetides College of Business, Communication & Leadership

Total Credit Hours
36

Program Code
MBACS

Degree
MBA

Available in the following deliveries:
Online, Site, Main/Hybrid (GR Only)

Program Description
The MBA in Cybersecurity will allow students to improve their business skills across a wide variety of disciplines while providing a deep examination of the growing field of cybersecurity. Cybersecurity protects networks, systems, and programs from digital attacks. These attacks usually aim to access, change, or destroy sensitive information, extort money from users, or interrupt normal business processes. Cyber security focuses on preventing and detecting unauthorized access to networks, computers, programs, and data, in addition to managing the impact of such attacks. This includes implementing security measures such as firewalls, encryption, intrusion detection, and prevention systems, as well as responding to incidents when they occur. The cybersecurity major in the MBA provides a four-course (12 hours) concentration in this growing field. The Master of Business Administration (MBA) in Cybersecurity includes the in-demand Google Cybersecurity Professional Certificate. The SEU MBA requires active employment throughout the program to provide essential real-world context for its advanced, case-study-driven curriculum. International students fulfill this mandatory practical application through Curricular Practical Training (CPT), which integrates theoretical knowledge with professional practice. Students without employment must secure a formal semesterly exception to receive alternate academic assignments.

Program Description
The MBA in Data Science will allow students to improve their business skills across a wide variety of disciplines while providing a deep examination of the growing field of data science. Data science is an interdisciplinary field that uses scientific tools, processes, algorithms, and systems to extract knowledge and insights from data in various forms, both structured and unstructured. It combines mathematics, statistics, data analysis, machine learning, and computer science, focused on discovering patterns in large data sets and using that knowledge to make predictions and decisions. The data science major in the MBA provides a four-course (12 hours) concentration in this growing field. The Master of Business Administration (MBA) in Data Science includes the in-demand IBM Data Science Professional Certificate. The SEU MBA requires active employment throughout the program to provide essential real-world context for its advanced, case-study-driven curriculum. International students fulfill this mandatory practical application through Curricular Practical Training (CPT), which integrates theoretical knowledge with professional practice. Program Description

The MBA in Self-Governing Enterprise equips leaders to design and manage organizations that operate with clarity, purpose, and measurable results. Grounded in the Quantified Systemic Understanding (QSU) framework, the program integrates financial strategy, operational decision-making, and organizational leadership into a unified approach to enterprise effectiveness. Students develop competencies across accounting, finance, economics, marketing, negotiation, risk management, and business analytics, learning to evaluate systems, optimize performance, and make data-informed strategic decisions. Through case studies and applied analysis, they learn how operational, organizational, and financial strategies work together to create resilient, values-driven, self-governing enterprises. The program culminates in a capstone experience where students apply QSU to complex business challenges, producing strategic insights and actionable recommendations. Graduates emerge prepared to lead with integrity, steward organizational resources wisely, and drive sustainable growth in dynamic business environments.

Program Requirements

Program-Specific Admission/Entrance Requirements

Students are accepted into the MBA program based on evidence of their aptitude and motivation for graduate business education at Southeastern University, as well as their understanding of basic business functions. Below are the minimum basic requirements; however, admission acceptance is considered given the applicant's entire application package:

• A bachelor's degree from a regionally accredited institution with a cumulative GPA of 3.0 or above.
• Applicants with a lower GPA may be considered if they have proof of proficiency on foundational courses, extensive work experience, and/or industry certifications.
• A current resumé outlining work and/or volunteer experience as well as any relevant education and/or industry certifications.
• Students must earn a B+ in BUSI 5903 Business Principles to remain in the program.

Simple Requirements

MBA

Available in the following deliveries:
Online, Site, Main/Hybrid (GR Only)

Program Description
Sport Management emphasizes the business fundamentals of sport with a focus on management, marketing, finance and accounting, preparing students for careers in the sport industry. The SEU MBA requires active employment throughout the program to provide essential real-world context for its advanced, case-study-driven curriculum. International students fulfill this mandatory practical application through Curricular Practical Training (CPT), which integrates theoretical knowledge with professional practice. Students without employment must secure a formal semesterly exception to receive alternate academic assignments.

Program Description
The M.Ed. in Elementary Education is a 30-hour program which is regionally accredited by the Southern Association of Colleges and Schools (SACS). Courses are offered in an 8-week online delivery format. The online format allows you to advance your education while maintaining your current career and family life. While the various programs are in-depth and rigorous, the flexibility of the online delivery format allows you to schedule your studies around the demands of your personal and professional life. * Ideal for the elementary teacher desiring to advance in knowledge and skills. * Suitable for the professional desiring to change careers. * Prepares those wanting to pursue a doctoral degree. * Convenient scheduling that allows one to complete the program in as few as five semesters.

CIP Code
131202

Program Requirements

Program-Specific Admission/Entrance Requirements
Admission Requirements:

An essay on the topic, “Why I want to pursue my master’s degree at Southeastern University.” Address how the Master of Education will help you improve your current/future career and how you can integrate your Christian faith. This essay should be two to three pages long, include your full name, and use 12-point, Times New Roman font. The essay should be double-spaced with one-inch margins.

A completed bachelor’s degree from a regionally accredited institution with evidence of one of the following:
* a minimum GPA of 3.0
* a combined score of at least 300 on the Verbal and Quantitative sections of the GRE (Graduate Record Exam) and a 4.0 or higher on the Analytical Writing section of the GRE. GRE scores must be recent enough to be considered valid by ETS. (If you took the GRE prior to August of 2011 the combined score must be at least 1,000 on the Verbal and Quantitative sections.)

Professional Reference

For non-native English speakers, a current TOEFL score at the mean level or higher.

The minimum GPA requirement is 3.0. Grades of less than C- will not be counted toward degree completion.

Program Learning Outcomes

Learning Outcomes

Demonstrate understanding of how students develop and learn.
Demonstrate knowledge of content and pedagogy for teaching in the elementary school classroom.
Think systematically about their practice and learn from experience.

Program Description
Lead toward positive change in educational settings and build the foundation to successfully transition into school leadership as a principal or assistant principal. The MEd in Educational Leadership is a 30 credit-hour, Level I, state approved program that can lead master teachers to certification in Educational Leadership. Students will gain a deeper understanding of the Florida Educational Leadership Standards (FELS) related to policy-making, school finance, curriculum development, conflict resolution, school law, and personnel management. The MEEL is designed to help students discover a variety of leadership approaches to cultivate a thriving educational community. Through an academically rigorous, yet flexible online format, you'll explore various topics that are critical to effective standards based, academic administration, including: Defining, planning, implementing, and analyzing K–12 curricula Examining various instructional strategies Adult learning theories, behaviors, supervisory models, tasks and skills, along with strategies for continuous improvement The issues and opportunities surrounding academic administrators such as authoritative, delegative, participative, and servant leadership Effective written and verbal communication, mediation, and conflict-resolution skills Human resources management Student evaluation and achievement How to plan and manage functions of a school, such as budgeting, purchasing, records management, maintenance, and technology application Legal principles and interpretations of constitutional and statutory laws that affect teachers' rights, as well as student legal rights and the ethical parameters of educational leadership This program also requires you to complete a supervised practicum, which will allow you to apply educational theory and practice to real-world leadership experiences.

Program Description
The M.Ed. in Exceptional Student Education (ESE) is a 30-credit hour program which is offered fully online. The program is regionally accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC). This program is ideal for the teacher desiring to advance his/her effectiveness, knowledge, and advanced employability. It is an outstanding educational degree for those desiring a stepping stone to a doctoral degree. The program can be completed in six consecutive semesters (in some cases you may be able to complete the program in only four or five semesters) although you are certainly allowed to go at a slower more manageable pace depending upon your current career situation. Fulfills the requirements for in-field Master's pay.

Program Description
Advance your effectiveness & employability with NILD Educational Therapy®. The online MEd in Educational Therapy allows you to explore how to assess student learning needs through an individualized, therapeutic approach. The program's concentration in NILD Educational Therapy® provides you with the credentials needed to earn your NILD Educational Therapy® certification. It includes three, four week, NILD courses for certification, and required attendance in a one-week virtual intensive. Whether you want to work in a private or public school, clinic or private practice, you can help students flourish. SEU is one of few schools in the nation offering this type of program. You will study: How to promote higher cognitive, academic, perceptual, and emotional functioning in students, psychological and educational assessment of students, oral language skills development, mediated learning experiences, qualitative and quantitative research in educational environments, historical and current practices of educating those with high incidence/high functioning disabilities (learning disabilities, high functioning ASD, ADHD, Dyslexia), student assessment and the role it plays in effective teaching, individualized educational plans, programs, and lesson planning. Our NILD Educational Therapy® program's challenging curriculum gives you the opportunity to actively participate and apply concepts you learn. Research-based techniques and real-world opportunities to apply them are embedded in coursework.

Program Requirements

Program-Specific Admission/Entrance Requirements
An essay on the topic, “Why I want to pursue my master’s degree at Southeastern University.” Address how the Master of Education will help you improve your current/future career and how you can integrate your Christian faith. This essay should be two to three pages long, include your full name, and use 12-point, Times New Roman font. It should be double-spaced with one-inch margins.
A completed bachelor’s degree from a regionally accredited institution with evidence of one of the following:
a minimum GPA of 3.0
a combined score of at least 300 on the Verbal and Quantitative sections of the GRE (Graduate Record Exam) and a 4.0 or higher on the Analytical Writing section of the GRE. GRE scores must be within the past 5 years. (If you took the GRE before August of 2011, your combined score must be at least 1,000 on the Verbal and Quantitative sections.)
For non-native English speakers, a current TOEFL score at the mean level or higher.
Official college transcripts
Professional Reference Personal Reference
Signed form of agreement to certify acknowledgement and compliance with SEU graduate policies, procedures, and regulations, including the sexual harassment policy.

Simple Requirements

Degree Requirements

Southeastern University lists the NILD courses on JICS so students can sign up, but students must sign up and pay NILD by going to NILD.org. Click on the training tab “Find a Training.” Then look for “NILD certification or Masters.” Stephanie from NILD will contact you after you register with NILD and pay NILD for your courses.

Program Description

The Master of Education in Literacy Education at Southeastern University is a 30-credit-hour graduate program designed to prepare educators to become highly effective literacy professionals grounded in evidence-based instruction and the Science of Reading. The program equips working teachers with advanced knowledge and practical skills to assess, instruct, and support diverse learners across K–12 settings, including students with reading difficulties, multilingual learners, and students with disabilities. The M.Ed. in Literacy Education emphasizes the historical, theoretical, cognitive, and linguistic foundations of reading and writing, while preparing candidates to apply research-based instructional practices that improve literacy outcomes. Graduates develop strong competencies in literacy assessment, data-based decision making, curriculum design, and instructional leadership. Embedded Structured Literacy Certificate Students enrolled in the M.Ed. in Literacy Education may earn an embedded Structured Literacy Certificate as part of the 30-credit-hour degree, with no additional coursework required The certificate is aligned with the Science of Reading and prepares educators to implement explicit, systematic, and multisensory literacy instruction across Tier 1, Tier 2, and Tier 3 settings.

Program Description
The Master of Science (M.S.) in Kinesiology program is designed to academically prepare students for advanced careers in the field by deepening their understanding of how the many facets of Kinesiology intersect. It is intended for students who are seeking to advance their professional practice, pursue academic research, or specialize in a focused area of human movement and performance, and who wish to gain expertise in Sport Science, Physical Education and Coaching, Sport Administration, Sport Ministry, and Strength Training Performance. Graduates of the program are prepared for roles such as University-Level Coach/Administrator, Sport Performance Analyst, College Instructor, Sport Ministry Leader, or Exercise Specialist in industries including collegiate athletics, private performance training facilities, sport governing bodies, and education. The curriculum emphasizes advanced application and interdisciplinary study with opportunities for individually designed courses and assignments that allow students to focus on their specific area of interest for course projects, field experiences, and research assignments. The degree requires a total of 33 semester hours and the successful completion of a graduate thesis or capstone project. For students wishing to continue their studies, this program prepares them for future professional development through Doctoral (Ph.D. or Ed.D.) programs in Kinesiology, Exercise Physiology, or Sport Management.

Program Learning Outcomes

Learning Outcomes

Social workers understand the value base of the profession and its ethical standards, as well as relevant laws and regulations that may impact practice at the micro, mezzo, and macro levels. Social workers understand frameworks of ethical decision-making and how to apply principles of critical thinking to those frameworks in practice, research, and policy arenas. Social workers recognize personal values and the distinction between personal and professional values. They also understand how their personal experiences and affective reactions influence their professional judgment and behavior. Social workers understand the profession's history, its mission, and the roles and responsibilities of the profession. Social Workers also understand the role of other professions when engaged in inter-professional teams. Social workers recognize the importance of life-long learning and are committed to continually updating their skills to ensure they are relevant and effective. Social workers also understand emerging forms of technology and the ethical use of technology in social work practice.

Social workers understand that every person regardless of position in society has fundamental human rights. Social workers are knowledgeable about the global intersecting and ongoing injustices throughout history that result in oppression and racism, including social work's role and response. Social workers critically evaluate the distribution of power and privilege in society in order to promote social, racial, economic, and environmental justice by reducing inequities and ensuring dignity and respect for all. Social workers advocate for and engage in strategies to eliminate oppressive structural barriers to ensure that social resources, rights, and responsibilities are distributed equitably and that civil, political, economic, social, and cultural human rights are protected.

Social workers understand how racism and oppression shape human experiences and how these two constructs influence practice at the individual, family, group, organizational, and community levels and in policy and research. Social workers understand the pervasive impact of White supremacy and privilege and use their knowledge, awareness, and skills to engage in anti-racist practice. Social workers understand how diversity and intersectionality shape human experiences and identity development and affect equity and inclusion. The dimensions of diversity are understood as the intersectionality of factors including but not limited to age, case, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, generational status, immigration status, legal status, marital status, political ideology, race, nationality, religion and spirituality, sex, sexual orientation, and tribal sovereign status. Social workers understand that this intersectionality means that a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege and power. Social workers understand the societal and historical roots of social and racial injustices and the forms and mechanisms of oppression and discrimination. Social workers understand cultural humility and recognize the extent to which a culture's structure and values, including social, economic, political, racial, technological, and cultural exclusions, may create privilege and power resulting in systemic oppression.

Social workers use ethical, culturally informed, anti-racist, and anti-oppressive approaches in conducting research and building knowledge. Social workers use research to inform their practice decision-making and articulate how their practice experience informs research and evaluation decisions. Social workers critically evaluate and critique current, empirically sound research to inform decisions pertaining to practice, policy, and programs. Social workers understand the inherent bias in research and evaluate design, analysis, and interpretation using an anti-racist and anti-oppressive perspective. Social workers know how to access, critique, and synthesize the current literature to develop appropriate research questions and hypotheses. Social workers demonstrate knowledge and skills regarding qualitative and quantitative research methods and analysis, and they interpret data derived from these methods. Social workers demonstrate knowledge about methods to assess reliability and validity in social work research. Social workers can articulate and share research findings in ways that are useable to a variety of clients and constituencies. Social workers understand the value of evidence derived from interprofessional and diverse research methods, approaches, and sources.

Social workers identify social policy at the local, state, federal, and global levels that affect well-being, human rights and justice, service delivery, and access to social services. Social workers recognize the historical, social, racial, cultural, economic, organizational, environmental, and global influences that affect social policy. Social workers understand and critique the history and current structures of social policies and services and the role of policy in service delivery through rights-based, anti-oppressive, and anti-racist lenses. Social workers influence policy formulation, analysis, implementation, and evaluation within their practice settings with individuals, families, groups, organizations, and communities. Social workers actively engage in and advocate for antic-racist and anti-oppressive policy practices to effect change in those settings.

Social workers understand that engagement is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers value the importance of human relationships. Social workers understand theories of human behavior and the social environment and critically evaluate and apply this knowledge to facilitate engagement with clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand strategies to engage diverse clients and constituencies to advance practice effectiveness. Social workers understand how their personal experiences and affective reactions may impact their ability to effectively engage with diverse clients and constituencies. Social workers value principles of relationship-building and inter-professional collaboration to facilitate engagement with clients, constituencies, and other professionals as appropriate.

Social workers understand that assessment is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers understand theories of human behavior and person-in-environment, as well as interprofessional conceptual frameworks, and they critically evaluate and apply this knowledge in culturally responsive assessment with clients and constituencies, including individuals, families, groups, organizations, and communities. Assessment involves a collaborative process of defining presenting challenges and identifying strengths with individuals, families, groups, organizations, and communities to develop a mutually agreed-upon plan. Social workers recognize the implications of the larger practice context in the assessment process and use interprofessional collaboration in this process. Social workers are self-reflective and understand how bias, power, privilege, and their personal values and experiences may affect their assessment and decision-making.

Social workers understand that intervention is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families,groups, organizations, and communities. Social workers are knowledgeable about evidence- informed interventions to achieve the goals of clients and constituencies, including individuals,families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment and critically evaluate and apply this knowledge to effectively intervene with clients and constituencies. Social workers understand methods of identifying, analyzing, and implementing evidence-informed interventions to achieve client and constituency goals. Social workers value the importance of interprofessional teamwork and communication in interventions, recognizing that beneficial outcomes may require interdisciplinary, interprofessional, and inter-organizational collaboration.

Social workers understand that evaluation is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers evaluate processes and outcomes to increase practice, policy, and service delivery effectiveness. Social workers apply anti-racist and anti-oppressive perspectives in evaluating outcomes. Social workers understand theories of human behavior and person-in-environment, as well as interprofessional conceptual frameworks, and critically evaluate and apply this knowledge in evaluating outcomes. Social workers use qualitative and quantitative methods for evaluating outcomes and practice effectiveness.

Integrating Faith with Social Work Practice This competency is related to the following performance indicators: Understand and work effectively with the religious, faith, and spirituality dimensions of persons and communities, understand and work effectively within the context of the practice setting in regard to faith and spirituality, and draw from one’s own faith and spirituality to practice self-care and to empower one’s ability to engage in effective social work practice.

Write a teaching philosophy that articulates the difference between Christian and secular education, schooling, and education, and examines the role of the soul and imagination in education.Develop a teaching philosophy that articulates the difference between Christian and secular education, schooling and education, and the role of the soul and imagination in education.

Identify the role of grammar, dialectic, and rhetoric in assessing academic abilities and relate them to the paideia of God.

Create and implement interdisciplinary strategies to support peacemaking.

Craft both written and verbal Socratic dialogues to participate in the great classical conversations of history as a modern ambassador of Christ.

Program Description
The Next Generation Ministry program equips students to effectively disciple, lead, and pastor children, students, and families in today's culture. Grounded in the gospel, the program emphasizes holistic family ministry, leadership development, and practical strategies for spiritual formation across generations. Students learn to partner with families, engage emerging generations, and mobilize them for mission while developing measurable and impactful ministry outcomes. Graduates are prepared to lead dynamic, biblically faithful, and culturally relevant NextGen ministries.

RNBSN - Nursing

Overview

College
College of Natural & Health Sciences

Program Code
RNBSN

Degree
BS

Available in the following deliveries:
Online

Program Description
The Bachelor of Science in Nursing (RN to BSN Concentration) program is designed to offer currently practicing Registered Nurses the opportunity to advance their nursing career to the next level. It is intended for students who are already Registered Nurses (RNs) who hold an Associate Degree in Nursing (ADN) or nursing diploma from an accredited agency and who wish to gain expertise in leadership, evidence-based practice, and public health. Graduates of the program are prepared for roles such as Nurse Leader, Unit Manager, Nurse Case Manager, or Health Policy Nurse in industries including hospitals, community health organizations, healthcare administration, and specialized nursing (like travel nursing or hospice). The curriculum emphasizes integrating research, leadership skills, and Christian values into nursing care with opportunities for utilizing information management and patient care technology more effectively. The degree requires a total of 120 credit hours, of which 33 hours are in the foundational core, 48 hours are in the major core, and 39 hours are Divine Design elective credit hours of which 30 hours will be considered for credit for the RN licensure. For students wishing to continue their studies, this program prepares them for future graduate or professional study in Master of Science in Nursing (MSN) or Clinical Doctorate (DNP) programs that lead to roles like Nurse Executive, Nurse Educator, or Advanced Practice Registered Nurse (APRN).

Divine Design (Minor, Electives, Experiential Learning)

Type
Completion Requirement

RN Licensure: 30 Credit Hours

The Divine Design section of the audit includes the 30 hours of RN Licensure transfer credit

Divine Design: 9 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Divine Design (Minor, Electives, Experiential Learning): 3-5 Credit Hours

Fulfill ANY of the following requirements:
To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Program Learning Outcomes

Learning Outcomes

One of the College of Education's eight degree programs is Secondary Biology. The program is state-approved and leads students toward qualifying for a Florida professional teaching certificate. As articulated by the State of Florida's Department of Education, learning outcomes in all state-approved education programs are measured by the Florida Teacher Certification Exam (FTCE). The FTCE is comprised of three subcategories: General Knowledge Test (GKT) made up of English Language Arts (ELA), Essay, Reading, and Math; Professional Educator's Exam (PEd); and the Secondary Biology Subject Area Exam (SAE). The GKT, PEd, and SAE are listed as course assignments in Field Studies 1, 2, and 3, respectively.

Students will successfully exhibit the pedagogical skills needed to be successful classroom teachers. For the 2023-2024 academic year, the College of Education chose to change the courses and assignments for analysis with regard to PLO 2 - Successful Classroom Practitioners. By selecting courses that are taken at the beginning and end of Education majors' programs of study, the faculty were able to see growth over time. In the early course, EDUC 2143, students are introduced to education concepts, including effective lesson planning, and get their first opportunity to practice teaching to their peers. EDUC 4433 (and cross-listed courses) is taken at the end of their program, often the semester prior to student teaching. At this point, students are applying what they have learned about curriculum, instruction, and classroom management. Although the same students were not in both classes in the same year, the assignments analyzed for this report provide general documentation that College of Education coursework prepares students to demonstrate their ability to be successful classroom practitioners. Note that information provided below includes all students, not just Secondary Biology majors.

Students will successfully complete leveled clinical experiences (field study courses) in which they demonstrate ethical and professional behavior. Note that information provided below includes all students, not just Secondary Biology majors.

Students will demonstrate a high level of Christian faith infused and integrated into their educational philosophy and practice. Assignments in two courses: EDUC 3713 Integration of Faith and Education and EDUC 3523 Teaching Literacy in the Content Areas. The PLO 4 document with summary data and the rubrics for the faith-related assignments are attached. Note that in previous years, data from ESED 3113, Survey of the Exceptional Learner, was also included in the assessment of this PLO. For the 2023-2024 academic year, the decision was made to eliminate that course as a source of data collection. The rationale for this decision was to allow more time between data collection points -- EDUC 3713 is a sophomore-level course, and EDUC 3523 is a senior-level course) -- thus giving students the opportunity to more fully develop their practice of integrating Christian faith into their instruction. Note that information provided below includes all students, not just Secondary Biology majors.

- EDUC3351 - CLINICAL EXPERIENCE II
- EDUC4221 - CLINICAL EXPERIENCE III
- EDUC4912 - STUDENT TEACHING

Divine Design (Minor, Electives, Experiential Learning): 14 Credit Hours

Fulfill ANY of the following requirements:
To meet the Divine Design requirement, students may earn credit hours in general elective courses, declare minors/certificates, or pursue other experiential learning opportunities such as study abroad, internships, or practicums. Practicum and experiential learning options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), TRDS 1001 (1 hr), TRDS 1002 (2 hrs), TRDS 1003 (3 hrs), TRDS 1004 (4 hrs), PMIN 2032, PMIN 2042, and PMIN 2303 (where available in the declared major). Please note that a maximum of 24 combined credit hours from this list of experiential courses may be applied toward the degree, including any hours from these courses that fulfill requirements elsewhere in the program. General electives are any college-level courses that do not satisfy the above program's requirements. Students must complete all program requirements, with remaining credit hours earned through Divine Design to meet the total program hours.

Program Learning Outcomes

Learning Outcomes

One of the College of Education's eight degree programs is Secondary English. The program is state-approved and leads students toward qualifying for a Florida professional teaching certificate. As articulated by the State of Florida's Department of Education, learning outcomes in all state-approved education programs are measured by the Florida Teacher Certification Exam (FTCE). The FTCE is comprised of three subcategories: General Knowledge Test (GKT) made up of English Language Arts (ELA), Essay, Reading, and Math; Professional Educator's Exam (PEd); and the Secondary English Subject Area Exam (SAE) made up of multiple choice and essay subtests. The GKT, PEd, and SAE are listed as course assignments in Field Studies 1, 2, and 3, respectively.

Students will successfully exhibit the pedagogical skills needed to be successful classroom teachers. For the 2023-2024 academic year, the College of Education chose to change the courses and assignments for analysis with regard to PLO 2 - Successful Classroom Practitioners. By selecting courses that are taken at the beginning and end of Education majors' programs of study, the faculty were able to see growth over time. In the early course, EDUC 2143, students are introduced to education concepts, including effective lesson planning, and get their first opportunity to practice teaching to their peers. EDUC 4433 (and cross-listed courses) is taken at the end of their program, often the semester prior to student teaching. At this point, students are applying what they have learned about curriculum, instruction, and classroom management. Although the same students were not in both classes in the same year, the assignments analyzed for this report provide general documentation that College of Education coursework prepares students to demonstrate their ability to be successful classroom practitioners. Note that information provided below includes all students, not just Secondary English majors.

Students will successfully complete leveled clinical experiences (field study courses) in which they demonstrate ethical and professional behavior. Note that information provided below includes all students, not just Secondary English majors.

Students will demonstrate a high level of Christian faith infused and integrated into their educational philosophy and practice. Assignments in two courses: EDUC 3713 Integration of Faith and Education and EDUC 3523 Teaching Literacy in the Content Areas. The PLO 4 document with summary data and the rubrics for the faith-related assignments are attached. Note that in previous years, data from ESED 3113, Survey of the Exceptional Learner, was also included in the assessment of this PLO. For the 2023-2024 academic year, the decision was made to eliminate that course as a source of data collection. The rationale for this decision was to allow more time between data collection points -- EDUC 3713 is a sophomore-level course, and EDUC 3523 is a senior-level course) -- thus giving students the opportunity to more fully develop their practice of integrating Christian faith into their instruction. Note that information provided below includes all students, not just Secondary English majors.

Program Learning Outcomes

Learning Outcomes

Graduates of this program will demonstrate the cognitive, behavioral, and affective traits that characterize cross-cultural competency in the classroom and domestic and/or international experiential learning contexts.

Graduates of this program will demonstrate proficiency in the instructional methods, techniques, and assessment of teaching English as a foreign or second language and in the applications of representative EFL/ESL curricula to the ESL/EFL classroom.

Graduates of this program will apply their faith to the discipline of language instruction in the classroom environment, in field experiences, and through a cross-cultural internship experience.

Program Description
The Bachelor of Science, Undeclared is designed to provide students with a structured, exploratory academic pathway while they discern their long-term educational and vocational goals. This program supports students who are still identifying their academic interests, who wish to explore multiple disciplines before declaring a major, or who bring a variety of experiences and curiosities that do not yet align with a single field of study. It is intended for students who desire broad exposure to the liberal arts and sciences while developing the foundational skills, habits of inquiry, and academic confidence necessary to transition into a degree program that best fits their aspirations. Students in the Undeclared B.S. program gain guided experience in academic and career exploration, including intentional advising, strengths and interest assessments, and opportunities to sample coursework across the university. By exploring key areas such as communication, problem-solving, creative and analytical thinking, and disciplinary pathways aligned with their strengths, students are prepared to successfully transition into a major and pursue future roles such as communication specialists, educators, business professionals, creative practitioners, nonprofit leaders, and other careers aligned with their chosen field of study. Graduates eventually enter industries including education, business, healthcare, arts and media, ministry, public service, and emerging professional sectors through their selected major. The curriculum emphasizes individualized advising, intentional exploration, and interdisciplinary learning, with opportunities for experiential coursework, career development workshops, internships within the student's chosen field after declaration, and participation in SEU's Divine Design framework. Students work closely with faculty mentors to shape an academic path that is both purposeful and personally meaningful. The degree requires a total of 120 credit hours, of which 34 credit hours are in the Foundational Core, 32–45 credit hours are in the Major Core (determined by the student's eventual declared major), and 41–54 credit hours are Divine Design elective credit hours supporting exploration, discernment, and academic customization. For students wishing to continue their studies, this program provides a strong foundation for future graduate or professional work aligned with their chosen major after declaration.

Program Requirements

Simple Requirements

Degree Requirements

Total Program Hours: 120 Credit Hours

Foundational Core: 34 Credit Hours

Type
Completion Requirement

SEU Foundations: 3 Credit Hours

Complete ALL of the following Courses:
- CORE1111 - COMMUNITY AND COLLEGE SUCCESS
- CORE1112 - DIVINE DESIGN & MISSIONAL VOCATION

Worldview Formation: 9 Credit Hours

Complete ALL of the following Courses:
- BIBL1113 - THE STORY OF SCRIPTURE
- THEO1213 - LIVED THEOLOGY
- CORE3113 - WORLDVIEW & COMPLEX PROBLMS SEMINAR
  OR CORE3213 - CLASSICAL ERA
  OR CORE3313 - EARLY CHRISTIAN ERA

Discursive Inquiry: 6 Credit Hours

Complete ALL of the following Courses:
- ENGL1113 - COLLEGE COMPOSITION
- ENGL2113 - PROFESSIONAL COMMUNICATION

Natural-Scientific Inquiry: 4 Credit Hours

Complete ANY of the following Courses:
- BIOL1334 - ESSENTIALS OF HUMAN A&P
- BIOL1333 - ESSENTIALS OF HUMAN A & P
  AND BIOL133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB
- NSCI1023 - INTRO TO SCIENCE AND TECH
  AND NSCI102L - INTRO TO SCIENCE AND TECH LAB
- NSCI1043 - NUTRITION SCIENCE
  AND NSCI104L - NUTRITION SCIENCE LAB

Quantitative Inquiry: 3 Credit Hours

Complete ANY of the following Courses:
- MATH1313 - TOPICS IN MATHEMATICS
- MATH1213 - COLLEGE ALGEBRA
- MATH2023 - INTRO TO PROBABILITY AND STATISTICS

Socio-Historical Inquiry: 6 Credit Hours

Complete at least 2 of the following courses:
- HIST2123 - CRITICAL ISSUES IN AMERICAN HISTORY
- HIST2133 - CRITICAL ISSUES IN WORLD HISTORY
- PSYC1133 - INTRODUCTION TO PSYCHOLOGY
- SSCI2133 - INTRODUCTION TO SOCIOLOGY

Creative-Aesthetic Inquiry: 3 Credit Hours

Complete ANY of the following Courses:
- ARTV2023 - PHOTOGRAPHY
- COMM2433 - FILM APPRECIATION
- ENGL2133 - INTRODUCTION TO LITERATURE
- HUMS2233 - INTRODUCTION TO HUMANITIES
- MUSC1003 - MUSIC APPRECIATION

Major Core

Type
Completion Requirement

Major Core

*A Major needs to be declared once 45 Credit Hours are earned.

Fulfill ANY of the following requirements:
Major Core: 32-45 Credit Hours

Divine Design (Minor, Electives, Experiential Learning): 41-54 Credit Hours

Fulfill ANY of the following requirements:
General Electives are any college-level courses that do not satisfy specific program requirements. To meet the Divine Design core requirements, students may declare minors, enroll in elective credit, and enjoy experiential learning like study abroad, internships, or practicum. Practicum course options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs). Students may earn up to 24 credit hours toward their degree program through experiential learning practicum.

Additional State Requirements for Online or Partner Site Students

Type
Completion Requirement

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

4903

Description
This course requires work experience, on and/or off campus, in an organization providing on-the-job training in accounting. The intern will be supervised by a faculty coordinator and a supervisor in the organization and will report work experience through written and verbal reports to the faculty coordinator. This experience may be substituted for three hours of business electives.
Prerequisite: Must be approved by the faculty mentor or Dean of the College of Business, Communication & Leadership

Complete ALL of the following :
Must be approved by the faculty mentor **OR** Dean of the College of Business, Communication & Leadership

Learning Outcomes

Learning Outcomes

Objective
Provide professional quality presentations relating to the learning experience using both written and verbal skills.

Name
Understand how material learned in the classroom is applied in an organizational setting.

Name
Perform detailed procedures in a specific area of accounting or taxation as set forth in an internship learning agreement.

Name
Provide professional quality presentations relating to the learning experience using both written and verbal skills.

ARTV1013 - DRAWING I

General

Course Prefix
ARTV

Course Number
1013

Description
This introductory course in drawing is designed to orient students to the implementation of the elements of art and principles of design. Through experiential, hands-on training, students learn how to draw while using the appropriate tools, materials, and methods. The course stresses visual thinking, creativity, skill development, and critical analysis.Prerequisite: None

Credit Hours

Learning Outcomes

Learning Outcomes

Objective
Discuss their artwork and that of others in a manner that utilizes critical thinking and the vocabulary of the field of drawing.

Name
Demonstrate best practices with regard to stewardship of tools and supplies.

Name
Demonstrate a variety of introductory drawing techniques and mediums.

Name
Develop effective drawing methods utilizing value, line, contour, structural, and one- and two-point perspective and apply design considerations such as composition, focal point, and use of space.

Name
Discuss their artwork and that of others in a manner that utilizes critical thinking and the vocabulary of the field of drawing.

ARTV1333 - CREATION AND CREATIVITY

General

Course Prefix
ARTV

Course Number
1333

Description
In this course, students are guided as they explore the phenomenon of human creativity as participation in God’s creative work. Students consider the ethical and spiritual implications of being made in the image of God and how creative work should be edifying, truthful, good, and spiritually redemptive. The tradition of Christian art, literature, and communication are included for analysis and reflection as students consider what is true, good, and beautiful.

Learning Outcomes

Learning Outcomes

Name
Identify individuals and their works that contributed to the history and development of Christian art and communication.

Name
Describe the creative process and how it can benefit humanity and honor God.

Name
Explain how art and communication can be good, true, and beautiful, regardless of medium (e.g., film, visual art, design, literature, journalism, etc.) or type (e.g., fiction or non-fiction).

Name
Analyze contemporary issues in creativity in the context of the design and communication fields.

Name
Apply creativity techniques.

Name
Produce creative works.

ARTV1503 - SURVEY OF WESTERN ART

General

Course Prefix
ARTV

Course Number
1503

Description
This course introduces students to the fundamental elements of two- and three-dimensional Western art through reading, observation, and discussion. Students will learn the basic vocabulary related to the visual arts, learn to distinguish various genres and periods of art, and recognize and appreciate masterpieces of Western art. The role of art in history and society will be discussed and students will develop an enhanced appreciation for the value of art in their own lives. Prerequisite: None

Credit Hours

Learning Outcomes

Learning Outcomes

Objective
Critique works of art and be able to articulate one’s thoughts and impressions about a given work of art.

Name
Understand the nature of art, a biblical perspective on art, and its effect on and relation to culture.

Name
Develop a working knowledge of the vocabulary necessary for objective description of art objects, media, techniques, and styles.

Name
Distinguish elements and principles of design, materials, and processes, and explain their use in a given work of art.

Name
Identify the major art periods and styles and recognize major works and personalities from each period.

Name
Relate art periods and styles to political, social, and intellectual history.

Name
Critique works of art and be able to articulate ones thoughts and impressions about a given work of art.

ARTV1513 - ART & DESIGN FUNDAMENTALS

General

Course Prefix
ARTV

Course Number
1513

Description
This introductory class acquaints students to graphic design and visual arts through the use of the formal elements of art and principles of design. Specific art-making processes include painting, drawing, and collage. The course stresses visual thinking, creativity, skill development, and critical analysis.

Credit Hours

Minimum Credit Hours:

Learning Outcomes

Learning Outcomes

Name
Identify and demonstrate foundational visual elements (line, shape, form, color, texture, space, and value) through structured 2D and 3D design exercises.

Name
Analyze and apply principles of composition, balance, rhythm, contrast, and hierarchy to create original works that communicate intentional visual messages.

Name
Experiment with and evaluate diverse media, materials, and processes to develop creative problem-solving skills and begin forming a personal visual language.

Name
Critically reflect on, present, and defend their own and others' artworks using appropriate design vocabulary, while situating them within historical and contemporary contexts.

ARTV1533 - SURVEY OF DIGITAL MEDIA & DESIGN

General

Course Prefix
ARTV

Course Number
1533

Description
This course surveys the field of digital media and design in order to prepare students for academic and professional paths in digital media and design. Topics include the history and contemporary applications of digital media and design as well as practical, introductory examples of digital media and design.Prerequisite: None

Credit Hours

Minimum Credit Hours:

Complete ALL of the following Courses:
- ARTV1013 - DRAWING I

Learning Outcomes

Learning Outcomes

Objective
Exhibit a unique and personal expression through a group of drawings.

Name
Demonstrate best practices with regard to drawing tools and supply stewardship, drawing constructions, and industry standards for display.

Name
Demonstrate a variety of intermediate drawing techniques.

Name
Apply the elements of art and principles of design with a variety of intermediate drawing methods.

Name
Apply effective drawing methods that include point, weighted line, contour, continuous line, wash, and tone/value.

Name
Demonstrate confident use of design considerations such as composition, focal point, and use of space.

Name
Use perception and representation to think visually and communicate effectively throughout the drawing process.

Name
Analyze their artwork and that of others by utilizing an advanced vocabulary of the field of drawing.

Name
Analyze the deep structure relationships between the form, content, and subject of their art.

Name
Describe historical, contemporary, and contextual drawing references.

Name
Analyze the historical and contemporary context of their work.

Name
Master a range of purposeful image development strategies stemming from observation, memory, and fantasy sources.

Name
Exhibit a unique and personal expression through a group of drawings.

ARTV2023 - PHOTOGRAPHY

General

Course Prefix
ARTV

Course Number
2023

Description
This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.Prerequisite: None

Credit Hours

Minimum Credit Hours:
0

Maximum Credit Hours:
4

(Credit Hours) Value:
3

3

Learning Outcomes

Learning Outcomes

Objective
Understand the ethical considerations of photography and photojournalism.

Name
Demonstrate the ability to operate a single-lens reflex camera, adjusting shutter speed, aperture, film speed, white balance, and other settings.

Name
Understand and apply the criteria for taking and judging a professional photo, including composition, lighting, exposure, and focus.

Name
Demonstrate knowledge of various camera equipment.

Name
Know how to properly light a subject.

Name
Apply the proper techniques in taking effective journalistic, portrait, and landscape photos.

Name
Demonstrate proficiency in editing digital photos using appropriate software.

Name
Understand the ethical considerations of photography and photojournalism.

ARTV2033 - FUNDAMENTALS OF DIGITAL DESIGN

General

Course Prefix
ARTV

Course Number
2033

Description
This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.Prerequisite: None

Credit Hours

Minimum Credit Hours:
1

Maximum Credit Hours:
4

(Credit Hours) Value:

Learning Outcomes

Learning Outcomes

Objective
Understand typographical design considerations.

Name
Demonstrate knowledge of various tools of design and applications.

Name
Be able to utilize vector and raster software tools by creating various designs that are aesthetically pleasing and creative.

Name
Be able to utilize vector and raster software tools with optimum technical proficiency.

Name
Understand color theory and software applications.

Name
Understand typographical design considerations.

ARTV2043 - COLOR THEORY

General

Course Prefix
ARTV

Course Number
2043

Description
This course advances students' understanding of color through formal exercises. Students build a vocabulary for examining and recognizing color and learn how color theories are applied in various professional fields.Prerequisite: None* Do not register for this course if you have taken DCOM 2043

Credit Hours

Minimum Credit Hours:
1

Maximum Credit Hours:
4

Learning Outcomes

Learning Outcomes

Objective
Assess the application of color theory in the fields of film, painting, graphic design, and other fields related to visual communication.

Name
Describe the various dimensions and categories of color.

Name
Record and employ various color schemes.

Name
Describe the relativity of color.

Name
Analyze color relationships as language.

Name
Catalog the spatial effects of color.

Name
Describe the physiological and psychological effects of color.

Name
Assess the application of color theory in the fields of film, painting, graphic design, and other fields related to visual communication.

ARTV2053 - PAINTING I

General

Course Prefix
ARTV

Course Number
2053

Description
This introductory course in painting is designed to orient students to the implementation of the elements of art and principles of design as expressed through paint and mixed media. Through experiential, hands-on training, students learn how to paint while using the appropriate tools, materials, and methods.Prerequisites: ARTV 1013 and ARTV 2043

- ARTV1013 - DRAWING I
  AND ARTV2043 - COLOR THEORY

Learning Outcomes

Learning Outcomes

Objective
List historical, contemporary, and contextual painting references.

Name
Demonstrate best practices with regard to painting tools and supply stewardship, painting constructions, and industry standards for display.

Name
Demonstrate a variety of introductory painting techniques.

Name
Apply the elements of art and principles of design through the medium of paint and mixed media.

Name
Apply design considerations such as composition, focal point, and use of space.

Name
Develop a range of purposeful image development strategies stemming from observation, memory, and fantasy sources.

Name
Discuss their artwork and that of others in a manner that utilizes the vocabulary of the field of painting.

Name
Analyze the deep structure relationships between the form, content, and subject of their art.

Name
Describe the historical and contemporary context of their work.

Name
List historical, contemporary, and contextual painting references.

ARTV2063 - FUNDAMENTALS OF INTERACTIVE DESIGN

General

Course Prefix
ARTV

Course Number
2063

Description
This course introduces students to foundational principles and practices of interactive media. It enables students to explore elements and applications of user-interface design, interactive design tools, and creative digital content.Prerequisite: None

Credit Hours

Minimum Credit Hours:
0

Maximum Credit Hours:
4

(Credit Hours) Value:
3

Contact Hours (not needed)

(Contact Hours) Value (not needed) :

Learning Outcomes

Learning Outcomes

Objective
Use industry-standard audio, video, and imaging software to create interactive products.

Name
Evaluate various interactive designs.

Name
Describe human-computer interaction and its effects.

Name
Apply effective user-interface design principles and practices in various digital settings.

Name
Describe function and form as they relate to digital content and usability in interactive design.

Name
Use industry-standard audio, video, and imaging software to create interactive products.

ARTV2073 - WEB DESIGN & DEVELOPMENT

General

Course Prefix
ARTV

Course Number
2073

Description
This course focuses on the principles and practices of effective web design, including design principles, color, and typography in the context of designing for the web. It is also an introduction to the fundamentals of web development, including HTML and CSS coding.Prerequisite: None* Do not register for this course if you have taken DCOM 3823

Credit Hours

Minimum Credit Hours:
3

Maximum Credit Hours:
3

(Credit Hours) Value:
3

Contact Hours (not needed)

(Contact Hours) Value (not needed) :
3

Repeatable:

Learning Outcomes

Learning Outcomes

Objective
Design and build an interactive, functioning website with consistent navigation and branding.

Name
Identify common HTML functions used in web development.

Name
Identify common CSS functions used in web development.

Name
Define key color terms, typography terms, and design principles in the context of web design.

Name
Apply appropriate and effective color in a website.

Name
Apply appropriate and effective typography in a website.

Name
Design and build an interactive, functioning website with consistent navigation and branding.

ARTV2123 - INTRODUCTION TO PRINTMAKING

General

Course Prefix
ARTV

Course Number
2123

Description
This course will introduce basic principles and applications of traditional printmaking techniques as a bridge to using digital tools in current art mediums. Students will explore production of multiple copies using relief and intaglio platemaking materials. Differences in paper types, ink formulas, proper display and pricing will be taught. Prerequisite: None

Credit Hours

Minimum Credit Hours:
3

Maximum Credit Hours:
3

(Credit Hours) Value:
3

Contact Hours (not needed)

(Contact Hours) Value (not needed) :
3

Repeatable:
Yes

Number Of Repeats:
3

Number Of Credits:
3

Learning Outcomes

Learning Outcomes

Objective
Develop an understanding for the complexity of multi-color prints when pulled from a printmaking press.

Name
Make use of a printmaking press, using tools to print identical copies of art on the variety of pertinent papers.

Name
Experience old world techniques but used with environmentally compatible materials.

Name
Make reproducible plates using both traditional methods and computer technology.

Name
Develop an understanding for the complexity of multi-color prints when pulled from a printmaking press.

ARTV2233 - HISTORY OF GRAPHIC DESIGN

General

Course Prefix
ARTV

Course Number
2233

Description
The scope of this art history course will span the art of graphic design from the early Renaissance through the present by focusing on artists and major trends in the contexts of their underlying philosophical and cultural influences.
Prerequisite: None

Credit Hours

Minimum Credit Hours:
1

Maximum Credit Hours:
4

(Credit Hours) Value:
3

Contact Hours (not needed)

(Contact Hours) Value (not needed) :

Number Of Credits:
3

Learning Outcomes

Learning Outcomes

Objective
Critique works of graphic design and be able to articulate one’s thoughts and impressions about art as an influencing medium.

Name
Identify major graphic art trends and styles, major works, and personalities from approximately AD 1450 to present time.

Name
Identify Typographic evolution and uses

Name
Explain how art periods and styles relate to political, social, and intellectual history.

Name
Explain the role of the advertising in art history reception.

Name
Describe the technology advances and their effects in visual communication.

Name
Critique works of graphic design and be able to articulate ones thoughts and impressions about art as an influencing medium.

ARTV2843 - PHILOSOPHY & THEOLOGY OF AESTHETICS

General

Course Prefix
ARTV

Course Number
2843

Description
This course is a foundational course for all incoming Visual Arts majors that sets the premises for understanding the problems, methods, and concepts of aesthetics in philosophy and theology. Students are required to read distinguished philosophical work focusing on aesthetics, engage with the early church fathers' understanding of beauty, study a variety of artists, and understand the importance of art in society. Students will be required to participate in group discussions and produce a research paper that will incorporate their own personal mission statement as an artist.Prerequisite: ARTV 1503

Completion Requirement

Prerequisite

Complete ALL of the following Courses:
- ARTV1503 - SURVEY OF WESTERN ART

Learning Outcomes

Learning Outcomes

Objective
Develop a personal mission statement as an artist.

Name
Demonstrate a foundation in understanding the importance of aesthetics.

Name
Engage Gods attribute of beauty.

Name
Describe the influence aesthetics have had in different art movements throughout history.

Name
Develop a personal mission statement as an artist.

ARTV3001 - ART OR DESIGN PRATICUM

General

Course Prefix
ARTV

Course Number
3001

Description
This course consists of supervised practical experience in art or design. Students produce art (e.g., illustrations, line art, drawings, or paintings) or designs (websites, logos, brochures, digital advertisements, or photo adjustments and graphics) for on-campus or off-campus individuals, clubs, departments, organizations, or businesses. Prerequisite: None

Credit Hours

Minimum Credit Hours:
1

Maximum Credit Hours:
2

Number Of Credits:
2

Learning Outcomes

Learning Outcomes

Objective
Compile a collection of portfolio works (including artwork and/or designs).

Name
Produce various works of art or design for a local or remote individual, campus club, department, organization, or business.

Name
Communicate effectively with others when planning the art or designs.

Name
Apply feedback from others (the on-site individual and the professor overseeing the course) to improve the art or designs.

Name
Compile a collection of portfolio works (including artwork and/or designs).

ARTV3003 - MAGAZINE & EDITORIAL DESIGN

General

Course Prefix
ARTV

Course Number
3003

Description
In this course, students are guided in the areas of editorial design and layout. Students learn to apply effective color, typography, and design in editorial layouts. Best practices in terms of planning, designing, and producing a magazine are covered.Prerequisite: None* Do not register for this course if you have taken DCOM 3003

Credit Hours

Learning Outcomes

Learning Outcomes

Objective
Evaluate the characteristics of periodical publications, including target audience, format, and branding.

Name
Understand the various design considerations of magazines, including color, layout, typography, and feature article design.

Name
Identify the various components of a magazine layout.

Name
Demonstrate knowledge of the magazine production process.

Name
Identify the various departments of a magazine business and how they coordinate and relate to each other.

Name
Plan, design, and produce a magazine.

ARTV3013 - DRAWING FOR DESIGNERS

General

Course Prefix
ARTV

Course Number
3013

Description
This course introduces design students to the elements, principles, and practices of drawing which are relevant to graphic design contexts. Through experiential, practical training, students learn how to effectively draw while using the appropriate tools, materials, and methods. The course stresses visual thinking, creativity, skill development, critical analysis, and problem solving.Prerequisite: None* Do not register for this course if you have taken DCOM 3043

ARTV3053 - UI/UX DESIGN

General

Course Prefix
ARTV

Course Number
3053

Description
In this practical, project-based course, students explore the principles and practices of user interface and user experience design for digital platforms, including social media, smartphones, and tablets. This course teaches the history, principles, tools, and best practices of User Interface (UI) and User Experience (UX) Design. Students use a human-centered design process to understand users and design digital tools that are intuitive to use and create a pleasant user experience.Prerequisite: None* Do not register for this course if you have taken DCOM 3053

Learning Outcomes

Learning Outcomes

Objective
Design portfolio-worthy UI/UX design projects.

Name
Define various industry terms related to UI/UX design.

Name
Articulate the UI/UX design process, including the purpose, process, industry-standard tools, and project deliverables.

Name
Describe the psychological foundation behind user decision-making as part of the fundamentals of human-computer interaction.

Name
Solve design problems by using UI/UX design processes, including the skill of sketching as a key development tool.

Name
Explain why they made specific decisions during the design process.

Name
Critique other students design work by using appropriate terms and relevant reasoning.

Name
Design portfolio-worthy UI/UX design projects.

ARTV3073 - TYPOGRAPHY

General

Course Prefix
ARTV

Course Number
3073

Description
This course covers the history, contextual applications, and contemporary developments of typography. Students learn typographic theory and apply typographic principles in various media. The study of typographic applications in various industries including advertising, editorial, promotional, and digital media are also included.Prerequisite: None* Do not register for this course if you have taken DCOM 3073

Credit Hours

Learning Outcomes

Learning Outcomes

Objective
Design original graphic design productions in which typography plays a central aesthetic role.

Name
Describe the historical eras of typographic communication.

Name
Discuss the various components of the anatomy of type.

Name
Contextualize form and function within typography.

Name
Describe typographic applications in new media, print media, broadcast media, and environmental signage.

Name
Apply typographic design principles in works of graphic design.

Name
Edit typography using appropriate software.

Name
Discuss common typefaces and possible adjustments.

Name
Design original graphic design productions in which typography plays a central aesthetic role.

ARTV3083 - PAINTING II

General

Course Prefix
ARTV

Course Number
3083

Description
This intermediate course in painting advances student's implementation of the elements of art and principles of design as expressed through paint and mixed media, as a means toward creating a series of paintings exhibiting unique personal expression. The course uses the critique process regularly to clarify conceptual issues.Prerequisite: ARTV 2053

Learning Outcomes

Objective
Exhibit a unique and personal expression by completing a group of paintings.

Name
Demonstrate best practices with regard to painting tools and supply stewardship, painting constructions, and industry standards for display.

Name
Demonstrate a variety of intermediate painting techniques.

Name
Apply the elements of art and principles of design through the medium of paint and mixed media.

Name
Demonstrate confident use of design considerations such as composition, focal point, and use of space.

Name
Use a mature range of purposeful image development strategies stemming from observation, memory, and fantasy sources.

Name
Analyze their artwork and that of others in a manner that utilizes an advanced vocabulary of the field of painting.

Name
Analyze the deep structure relationships between the form, content, and subject of their art.

Name
Describe the historical and contemporary context of their work.

Name
Describe historical, contemporary, and contextual painting references.

Name
Exhibit a unique and personal expression by completing a group of paintings.

ARTV3093 - FIGURE DRAWING

General

Course Prefix
ARTV

Course Number
3093

Description
This course advances students' understanding of the anatomically correct way to draw the human figure using a variety of materials and techniques. Through creative problem solving, formal exercises, and guided research, students will also produce highly conceptual and expressive drawings. This course uses the critique process regularly to clarify conceptual and technical issues and to celebrate the uniqueness of personal vision.Prerequisite: ARTV 1013 and ARTV 1503

Complete ALL of the following Courses:

- ARTV1013 - DRAWING I
- ARTV1503 - SURVEY OF WESTERN ART

Learning Outcomes

Learning Outcomes

Objective
Develop a variety of strategies to intentionally embellish or stylize parts and proportions of the body to convey complex conceptual concerns.

Name
Accurately draw the proportional relationships of the bodys parts as they relate to the whole.

Name
Accurately draw the human figure under various light sources by creating the illusion of volume through hatching, cross-hatching, blending, and stippling.

Name
Accurately draw the bone structure of the human skeleton and the bodys muscle structure.

Name
Develop a variety of strategies to intentionally embellish or stylize parts and proportions of the body to convey complex conceptual concerns.

ARTV3103 - 3-D DESIGN

General

Course Prefix
ARTV

Course Number
3103

Description
This course emphasizes the elements of art and principles of design as they may be expressed three-dimensionally, specifically addressing the potential for the elements of space and form to convey meaning. Through creative problem solving, formal exercises, and guided research, students will produce highly conceptual and expressive forms, sculptures, installations, and assemblages, using a variety of materials and techniques. Students will learn both traditional and contemporary methods for three-dimensional design. This course uses the critique process regularly to clarify conceptual and technical issues and to celebrate the uniqueness of personal vision.Prerequisite: None

Learning Outcomes

Learning Outcomes

Objective
Develop a variety of strategies to organize form and space to convey meaning.

Name
Demonstrate an understanding of historic and current approaches to three-dimensional design.

Name
Critically engage with the various functions of three-dimensional design in a variety of cultures and contexts.

Name
Demonstrate skill with a variety of three-dimensional media, techniques, and processes.

Name
Develop a variety of strategies to organize form and space to convey meaning.

ARTV3143 - CERAMICS

General

Course Prefix
ARTV

Course Number
3143

Description
This course will introduce the basics of clay as a three-dimensional art form. Students will create artistic objects utilizing both wheel-thrown and hand-built techniques as well as glazing and firing processes.Prerequisite: None

Credit Hours

Minimum Credit Hours:
1

Maximum Credit Hours:
4

(Credit Hours) Value:
3

Contact Hours (not needed)

(Contact Hours) Value (not needed) :

Learning Outcomes

Learning Outcomes

Objective
Discuss their work and that of others in a manner that incorporates critical thinking and the vocabulary of the field of ceramics.

Name
Demonstrate best practices with regard to tools, studio health and safety, and supply stewardship.

Name
Describe and classify types of ceramics and glazes.

Name
Apply effective ceramic design.

Name
Prepare and test glazes with proper recordkeeping.

Name
Discuss their work and that of others in a manner that incorporates critical thinking and the vocabulary of the field of ceramics.

ARTV3223 - MOTION GRAPHIC DESIGN

General

Course Prefix
ARTV

Course Number
3223

Description
This course will introduce basic principles and applications of motion design/ graphics as it pertains to current trends in social media and the film and television industries. Students will learn industry standard processes and practices on the way to preparing themselves for an entry-level to intermediate position in the motion graphics and design industries.Prerequisite: None

Credit Hours

Minimum Credit Hours:
3

Maximum Credit Hours:
3

(Credit Hours) Value:
3

Contact Hours (not needed)

(Contact Hours) Value (not needed) :
3

Learning Outcomes

Learning Outcomes

Objective
Develop a framework for designing, completing, and presenting a portfolio (reel) of work that is at or above industry standard. This includes, but is not limited to, writing pitches, writing conceptual summaries, conceptual thumbnailing for animation, motion boards (storyboards), inspiration boards (reference materials), sound design, filming and DSLR photography, file management, editing, and final deliverables.

Name
Describe the process and workflow, from concept to execution, for designing with the concepts of movement and timing in mind (motion design).

Name
Utilize and learn Adobe After Effects along with Photoshop and Illustrators integration to create industry standard motion design.

Name
Develop critical and conceptual practices regarding the motion design process and ideation standards as opposed to relying on tricks and effects.

Name
Develop a framework for designing, completing, and presenting a portfolio (reel) of work that is at or above industry standard. This includes, but is not limited to, writing pitches, writing conceptual summaries, conceptual thumbnailing for animation, motion boards (storyboards), inspiration boards (reference materials), sound design, filming and DSLR photography, file management, editing, and final deliverables.

ARTV3503 - MODERN & CONTEMPORARY WESTERN ART

General

Course Prefix
ARTV

Course Number
3503

Description
The scope of this art history course will span Western art from the early nineteenth century through the late twentieth century by focusing on artists and major trends in the contexts of their underlying philosophical and cultural influences.Prerequisite: ARTV 1503

Credit Hours

Minimum Credit Hours:
0

Maximum Credit Hours:
4

(Credit Hours) Value:
3

Course Requisites

Type
Completion Requirement

Prerequisite

Complete ALL of the following Courses:

- ARTV1503 - SURVEY OF WESTERN ART

Learning Outcomes

Learning Outcomes

Objective
Critique works of art and be able to articulate one's thoughts and impressions about a given work of art.

Name
Identify major Western art trends and styles, major works, and personalities from roughly 1850 to the present day.

Name
Relate art periods and styles to political, social, and intellectual history.

Name
Explain the role of the critic in art history reception.

Name
Critique works of art and be able to articulate ones thoughts and impressions about a given work of art.

ARTV3523 - BRANDING DESIGN

General

Course Prefix
ARTV

Course Number
3523

Description
This course includes creative and scholarly research in branding and identity design development and creation. The focus is on methodologies for approaching design problems that acknowledge the character of each project. Students analyze and produce various types of branding designs, including logos and brand marks.Prerequisite: None

Credit Hours

Minimum Credit Hours:
1

Maximum Credit Hours:
4

(Credit Hours) Value:

Learning Outcomes

Learning Outcomes

Name
Construct a standard branding manual that supports your design.

Name
Define various terms related to branding, logo design, and identity design.

Name
Describe how storytelling has influenced the development of landmark brands.

Name
Employ relevant typographic practices, including copyfitting and type specification, in the context of branding and identity design.

Name
Apply effective and appropriate color in branding and identity design projects.

Name
Develop and create original design work which exhibits a distinct personal voice and which meet the specifications and requirements of the communication problem.

Name
Develop writing and verbal competencies commonly used in the description and analysis of branding and identity design projects.

Name
Describe the importance of trademark law in the context of branding and identity design.

Name
Construct a standard branding manual that supports your design.

ARTV3533 - DIGITAL LAYOUT & DESIGN

General

Course Prefix
ARTV

Course Number
3533

Description
This course provides instruction in the practical skills and theoretical considerations used in the layout and design of various media productions.Prerequisite: None* Do not register for this course if you have taken DCOM 3523

Credit Hours

Type
Completion Requirement

Prerequisites

Complete ALL of the following Courses:
- ARTV2013 - DRAWING II
  AND ARTV2053 - PAINTING I

Learning Outcomes

Learning Outcomes

Objective
Explain the important role of art in society.

Name
Develop his or her own specific area of expertise as an artist.

Name
Critically analyze their own work and that of their peers.

Name
Develop time management skills and an understanding of studio life.

Name
Explain the important role of art in society.

ARTV4003 - SPECIAL TOPICS IN ART OR DESIGN

General

Course Prefix
ARTV

Course Number
4003

Description
This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the visual arts or design areas. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the design and visual art programs. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.Prerequisite: None

Credit Hours

Minimum Credit Hours:
1

Maximum Credit Hours:
3

(Credit Hours) Value:
3

Contact Hours (not needed)

(Contact Hours) Value (not needed) :
3

Repeatable:
Yes

Number Of Repeats:
4

Number Of Credits:
12

Learning Outcomes

Learning Outcomes

Name
Develop and apply basic skills related to the specific content.

Name
Demonstrate knowledge of and ability to use course-appropriate techniques.

Name
Practice and demonstrate proficiency in the various areas addressed.

ARTV4083 - ADVANCED DIGITAL IMAGING

General

Course Prefix
ARTV

Course Number
4083

Description
This course focuses on advanced digital imaging techniques, including advanced digital photo editing, raster image digital design, and designing for online media.Prerequisite: None* Do not register for this course if you have taken DCOM 4083

Credit Hours

Minimum Credit Hours:
0

Maximum Credit Hours:
4

(Credit Hours) Value:
3

Contact Hours (not needed)

(Contact Hours) Value (not needed) :
3

Repeatable:
Yes

Number Of Repeats:
3

Number Of Credits:

Learning Outcomes

Learning Outcomes

Objective
Demonstrate expert proficiency in industry-standard digital editing software.

Name
Edit photos to produce professional effects.

Name
Know the terminology of digital imaging, including common file types and editing functions.

Name
Plan and produce professional graphic designs using industry-standard digital editing software.

Name
Demonstrate expert proficiency in industry-standard digital editing software.

ARTV4093 - ADVERTISING DESIGN

General

Course Prefix
ARTV

Course Number
4093

Description
This course focuses on graphic design in advertising, including advanced logo and identity design, print advertisement design, and online advertisement design.Prerequisite: None* Do not register for this course if you have taken DCOM 4093

Credit Hours

Minimum Credit Hours:
0

Maximum Credit Hours:
4

(Credit Hours) Value:
3

Contact Hours (not needed)

(Contact Hours) Value (not needed) :
3

Repeatable:
Yes

Number Of Repeats:

Learning Outcomes

Learning Outcomes

Objective
Understand and use techniques of visual communication that are persuasive to consumers.

Name
Know common advertising design terminology and workflow patterns in advertising design.

Name
Know the common advertisement sizes in various industries and the resulting design considerations.

Name
Plan and produce professional advertisement designs using industry-standard image editing software.

Name
Understand and use techniques of visual communication that are persuasive to consumers.

ARTV4113 - DIGITAL ILLUSTRATION

General

Course Prefix
ARTV

Course Number
4113

Description
This course focuses on advanced illustration techniques, including the production of vector graphics, infographics, and line illustration.Prerequisite: None* Do not register for this course if you have taken DCOM 4113

Credit Hours

Minimum Credit Hours:
0

Maximum Credit Hours:
4

(Credit Hours) Value:

Demonstrate expert proficiency in industry-standard illustration software.

Name
Design and produce professional vector graphics.

Name
Know the terminology of vector illustration software, including common file types and editing functions.

Name
Plan and produce professional vector illustrations using industry-standard illustration software.

Name
Demonstrate expert proficiency in industry-standard illustration software.

ARTV4193 - ARTIFICIAL INTELLIGENCE IN DESIGN

General

Course Prefix
ARTV

Course Number
4193

Description
This course introduces students to the applications, ethics, and issues of using artificial intelligence (AI) in digital design. Students critically analyze the uses and considerations of using AI, including legal implications and case law related to the use of AI in creative industries. The practical and professional exploration of the use AI as part of the design process is also an essential part of this course.

Credit Hours

Minimum Credit Hours:
3

Maximum Credit Hours:
3

(Credit Hours) Value:
3

Contact Hours (not needed)

(Contact Hours) Value (not needed) :
0

Repeatable:

Simple Requirements

Course Requisites

Type
Completion Requirement

Prerequisites

Complete ALL of the following Courses:

- ARTV2043 - COLOR THEORY
  AND ARTV3003 - MAGAZINE & EDITORIAL DESIGN
  AND ARTV3073 - TYPOGRAPHY

Learning Outcomes

Learning Outcomes

Name
Explain the ethical and legal implications of using AI in graphic design and digital design.

Name
Describe the role of human creativity in design and how AI could affect that.

Name
Apply effective design principles, color theory, and typographic principles in designs that use AI as part of the design process.

Name
Use industry-standard design software and AI techniques to produce effective digital designs.

ARTV4503 - SENIOR PORTFOLIO & EXHIBITION

General

Course Prefix
ARTV

Course Number
4503

Description
Students will develop a body of work for their senior portfolio and exhibition. At the beginning of the semester, students will create a comprehensive plan outlining the details of the body of work from previous semesters. The completion of a digital portfolio and an artist statement is also required. Students meet regularly for discussion with their peers and a faculty member. This senior capstone project demonstrates the skills and knowledge that Visual Art and Graphic Design students have acquired over the course of their academic careers through the creation of portfolios of their work and the exhibition of their work.Prerequisite: Faculty Approval and Senior Status

Credit Hours

Minimum Credit Hours:
0

Maximum Credit Hours:
4

(Credit Hours) Value:
3

Contact Hours (not needed)

(Contact Hours) Value (not needed) :

Number Of Repeats:
3

Number Of Credits:
3

Requirements
Prerequisites: Faculty Approval

Learning Outcomes

Learning Outcomes

Objective
Produce a web presentation and pitch to an audience of peers.

Name
Describe their identity and influence as an artist.

Name
Understand intellectual property and law as it pertains to visual art or graphic design.

Name
Develop a concentration of high-quality graphic designs and/or visual art.

Name
Record the process of the concentration.

Name
Analyze their own work and that of their peers.

Name
Develop mastery of concept, composition, and execution of their personal ideas and themes as they express them in the graphic design and/or visual art they exhibit and include in their portfolio.

Name
Develop a professional portfolio.

Name
Organize an exhibition of their work in both physical and digital format.

Name
Hang an exhibition.

Name
Produce a web presentation and pitch to an audience of peers.

ARTV4823 - DESIGN INTERNSHIP

General

Course Prefix
ARTV

Course Number
4823

Description
This internship experience involves supervised practical experience in graphic design, digital design, or a related field with professional organizations.Prerequisite: Faculty Approval

Credit Hours

ARTV5003 - DRAWING AND VISUALIZATION

General

Course Prefix
ARTV

Course Number
5003

Description
This course is designed to orient students to drawing as a creative process. Through hands-on training, students learn various drawing methods and related media. The course stresses skill development and drawing from observation. Drawing is also used as part of the visualization process in order to generate and communicate ideas.

ARTV5103 - DESIGN THINKING & CREATIVE PROCESS

General

Course Prefix
ARTV

Course Number
5103

Description
Design thinking is the process of solving problems by applying creativity. This course is an overview of the practices of design thinking, the creative process, innovation, and idea generation in various business and professional contexts and environments. Students analyze and define parameters of problems, set goals, and think creatively to formulate novel solutions. By participating in listening and brainstorming exercises, collaborative discussion, and experimentation, students prototype solutions for problems in the commercial and non-profit realms.

ARTV5113 - CREATIVE MANAGEMENT

General

Course Prefix
ARTV

Course Number
5113

Description
In this course, students learn about the creative industries and various factors that lead to an increase in creativity and business innovation. They are guided to understand the business and creative side of media industries, art organizations, and other creative fields. The organizational ecosystems of creative businesses are analyzed, in order to increase trust and creative collaboration between people and departments as well as provide ample time for creativity. Students design proposals for products, businesses, and processes for increased success in the marketplace.

ARTV5203 - THE LOGIC OF OBSERVATION AND

General

Course Prefix
ARTV

Course Number
5203

Description

Students will learn observational skills and processes in accordance with the scientific method of observation and observational analysis as it applies to the establishment, refinement or correction of projects, plans, or processes. Observational skills and mixed-
method analysis will be applied in a variety of settings that emphasize the importance of efficiency, consistency and accuracy in the conclusions and applications derived from the information observed. Students will also learn how to integrate those observations and applications into a replicable plan as is appropriate to business and art.

ARTV5403 - LOST CHORD SEMINAR

General

Course Prefix
ARTV

Course Number
5403

Description

This course will explore key entrepreneurial and leadership concepts relevant to the intersection of the high-tech, design, and art worlds. The world is both physical and spiritual. The physical world is the rational, logical, and scientific piece. The arts lead us to a true spiritual answer to business situations. This class bonds the physical and spiritual in a collaborative effort to find optimal solutions. Topics include study of successful transfers of art and design-based inventions, processes and methods into economically successful business applications.

ARTV5603 - SIGHT, SOUND, MOTION

General

Course Prefix
ARTV

Course Number
5603

Description
Students will obtain the advanced/professional level knowledge and skill set needed to explore issues of film & broadcasting industry. This course will introduce complex creative principles and applications of Visual Effects, Motion Design/Graphics as it pertains to current and future innovative trends in the film and broadcasting industries. Students will learn industry-standard processes and practices to be prepared for a leadership and advanced position in the entertainment, Motion Pictures, and Broadcasting industry. This includes, but is not limited to Aesthetic, Conceptual, Critical and Pragmatic Action plan such as, creative brief, pitches/proposals, conceptual summaries, storyboards, inspiration boards, reference materials, sound design, editing, and final broadcast deliverables. Learning Outcomes

Learning Outcomes

Objective
To learn and utilize Adobe, Apple, and other most current digital/technology to create industry-standard Visual Effects and Motion Design.

Name
To define the process and workflow, Methodology, techniques, and technology from concept to execution of advanced Motion Design based on the theories of Semiotics, Deconstructionism, and Congestive science.

Name
To expand the visual and verbal design vocabularies and toolset as they relate to Motion Design across all media platforms.

Name
To develop critical and conceptual knowledge and skill of process from ideation to develop a framework, completion, and presentation, and delivery.

Name
To learn and utilize Adobe, Apple, and other most current digital/technology to create industry-standard Visual Effects and Motion Design.

AVIM1003 - INTRO TO AVIATION TRANSPORTATION

General

Course Prefix
AVIM

Course Number
1003

Description
This course introduces students to the aviation industry, its history, available career paths, major challenges, key private and governmental agencies, and the introductory skills and knowledge necessary to succeed within the industry.Prerequisite: None

Credit Hours

Minimum Credit Hours:
3

Maximum Credit Hours:
3

Learning Outcomes

Learning Outcomes

Objective
Recognize and explain the influence of historical events on the modern aviation industry in the United States and globally.

Name
Describe the aviation industry ecosystem in the United States including passenger and freight transportation.

Name
Explain the key private industry and governmental agencies that have influence within the aviation industry

Name
Analyze the role of aviation as understood through economic and political influences.

Name
Identify various elements of aircraft design, airport operations and planning, and the national airspace system.

Name
Recognize and explain the influence of historical events on the modern aviation industry in the United States and globally.

AVIM1014 - AVIATION WEATHER ENVRNMT W/LAB

General

Course Prefix
AVIM

Course Number
1014

Description
This course explores the physical properties of the atmosphere and how they affect the weather, with an emphasis on the factors affecting aviation. The course includes lab components including collecting and interpreting weather and climate data that impact the aviation and human environment.Prerequisite: None

Credit Hours

Minimum Credit Hours:

Learning Outcomes

Learning Outcomes

Objective
Recognize weather conditions that are possibly hazardous to flight operations and understand how the flight crew can best deal with these situations in a safe manner.

Name
Recognize and explain the influence of historical events on the modern aviation industry in the United States and globally.

AVIM1101 - INTRODUCTION TO UAS OPERATIONS,

General

Course Prefix
AVIM

Course Number
1101

Description
This course will introduce basic small Unmanned Aircraft Systems (UAS) operations and policy governing UAS operations found in Title 14 of the Code of Federal Regulations (14 CFR) Part 107, Small Unmanned Aircraft Systems. Federal regulations will be discussed including the proper requirements needed to legally and safely operate UASs in the National Airspace System. The purpose of the course is for students to master the knowledge to pass the UAS Part 107 knowledge exam.Prerequisite: None

Credit Hours

Minimum Credit Hours:

Learning Outcomes

Learning Outcomes

Objective
Demonstrate mastery of Part 107 requirements and be prepared to take the Part 107 small UAS FAA knowledge exam and obtain a Remote Pilot Certificate from the FAA.

Name
Compare and contrast various small commercial Unmanned Aerial Systems (UAS).

Name
Recall laws and FAA policy governing UAS operations.

Name
Articulate the roles and responsibilities of Air Traffic Control (ATC), Federal Aviation Administration (FAA), National Transportation Safety Board (NTSB), the Remote Pilot in Command (PIC), and Remote Visual Observer (VO).

Name
Demonstrate the ability to pre-flight, post-flight, and generate flight plans for small UAS operations.

Name
Demonstrate mastery of Part 107 requirements and be prepared to take the Part 107 small UAS FAA knowledge exam and obtain a Remote Pilot Certificate from the FAA.

AVIM1331 - FAITH, FLIGHT, & FORMATION

General

Course Prefix
AVIM

Course Number
1331

Description
This Christ-centered foundations course equips first-year aviation students to transition into collegiate life and professional aviation. Students explore aviation as calling, develop disciplined study and flight habits, integrate Christian character, and build skills for balancing rigorous flight training with academic and spiritual growth.

Credit Hours

Name
Practice aviation character & discipline.

Name
Apply success strategies for college & flight

AVIM2003 - HUMAN FACTORS & RESOURCE MANAGNT

General

Course Prefix
AVIM

Course Number
2003

Description
This course explores concepts of Crew Resource Management (CRM). Covers crew coordination, communication, and resource management in professional aviation. Subjects include the history of CRM, skills, psychological, and behavior markers associated with CRM, human error in aviation, and automation. Provides a general knowledge of team critical skills within the aviation industry.Prerequisite: None

Learning Outcomes

Learning Outcomes

Objective
Analyze how leadership, professionalism, and interaction between crew members (CRM/TEM) can affect safety of flight.

Name
Apply CRM and human factor principles to promote safer flight operations in a complex aviation environment.

Name
Describe the cognitive, physiological, and psychological limitations of pilots and their impact on Aeronautical Decision Making (ADM).

Name
Describe the role and impact of automation in aviation and its effects on humans and team performance.

Name
Demonstrate performance monitoring, leadership, and professionalism in a simulated multi-piloted cockpit environment.

Name
Analyze how leadership, professionalism, and interaction between crew members (CRM/TEM) can affect safety of flight.

AVIM2013 - AERODYNAMICS & AIRCRAFT SYSTEMS

General

Course Prefix
AVIM

Course Number
2013

Description
This course explores aerodynamics and aircraft systems that enable safe flight in a variety of configurations and environments. Emphases are on the forces that impact flight including lift, weight, thrust, and drag and the aircraft controls, propulsion and systems associated with flight.Prerequisite: None

Credit Hours

Minimum Credit Hours:
3

Maximum Credit Hours:
3

(Credit Hours) Value:
3

Contact Hours (not needed)

(Contact Hours) Value (not needed) :
3

Repeatable:
Yes

Number Of Repeats:
3

Number Of Credits:
3

Learning Outcomes

Learning Outcomes

Objective
Describe various aircraft systems that sustain safe flight including avionics, electrical, hydraulic, pressurization, oxygen, braking, landing gear, fire suppression, and fuel.

Name
Describe the four forces that impact an aircraft in flight and their impact on performance and aerodynamic stalls.

Name
Explain how flight controls, weight and balance, density altitude and other factors impact normal and special aerodynamic performance.

Name
Describe various propulsion systems including reciprocating, turboprop, and turbine engines including their operations and limitations.

Name
Describe various aircraft systems that sustain safe flight including avionics, electrical, hydraulic, pressurization, oxygen, braking, landing gear, fire suppression, and fuel.

AVIM3003 - US & GLOBAL AVIATION OPERATIONS

General

Course Prefix
AVIM

Course Number
3003

Description
This course explores aviation and airline operations in the United States and globally. Attention is given to the Air Traffic Control (ATC) and airspace system for general and corporate aviation, commercial air carriers, and ground and air traffic operations. Other topics include business models and economic factors, aircraft acquisition, supply chain logistics, and operations.Prerequisite: None

Credit Hours

Minimum Credit Hours:
3

Maximum Credit Hours:
3

(Credit Hours) Value:
3

Contact Hours (not needed)

(Contact Hours) Value (not needed) :
3

Repeatable:
Yes

Number Of Repeats:
3

Number Of Credits:
3

Learning Outcomes

Learning Outcomes

Objective
Calculate costs for aircraft fleet acquisition, maintenance and operations.

Name
Describe the National Airspace System, navigational aids and the role of Air Traffic Control plays in safe air transportation.

Name
Identify the procedures for dispatching, filing a flight plan, and communicating with ATC for ground, departure, enroute, arrival, landing and parking operations for a commercial aircraft.

Name
Describe the characteristics of airspace and unique ATC procedures for global operations.

Name
Explain the business and economic factors impacting commercial aviation operations globally.

Name
Calculate costs for aircraft fleet acquisition, maintenance and operations.

AVIM3203 - AVIATION SAFETY & MANAGEMENT

General

Course Prefix
AVIM

Course Number
3203

Description
This course examines general management principles with an emphasis on leadership, safety and accident prevention. Topics include aviation security, Safety Management Systems (SMS), aircraft accidents and investigations, and emergency services. Prerequisite: None

Credit Hours

Minimum Credit Hours:
3

Maximum Credit Hours:
3

(Credit Hours) Value:
3

Contact Hours (not needed)

(Contact Hours) Value (not needed) :
3

Repeatable:
Yes

Number Of Repeats:
3

Number Of Credits:
3

Learning Outcomes

Learning Outcomes

Objective
Describe various emergency and other services available for safe aircraft operations.

Name
Apply the four functions of management to the aviation industry.

Name
Described effective leadership principles and mindset for safe operations.

Name
Develop a safety management system to mitigate risk and assure safe ground, maintenance and flight operations.

Name
Analyze aircraft accident cases and investigations to determine root causes.

Name
Describe various emergency and other services available for safe aircraft operations.

AVIM3403 - AVIATION REGULATIONS & LAWS

General

Course Prefix
AVIM

Course Number
3403

Description
This course provides an overview of constitutional law, administrative law, international law, and enforcement actions affecting aviation. While the courses emphasized the regulations impacting private and commercial air operations, consideration is given to aviation business law, the analysis of the aviation regulatory environments and processes, rulemaking, and legislation.Prerequisite: None

Credit Hours

Minimum Credit Hours:
3

Maximum Credit Hours:
3

(Credit Hours) Value:
3

Contact Hours (not needed)

(Contact Hours) Value (not needed) :
3

Repeatable:
Yes

Number Of Repeats:
3

Number Of Credits:
3

Learning Outcomes

Learning Outcomes

Objective
Identify, access and apply the appropriate source of regulations for international aviation operations.

Name
Understand the function that law serves in modern society and how it affects business and economic prosperity.

Name
Describe the U.S. court system and how it affects the conduct of aviation businesses and including civil and criminal.

Name
Identify, access and apply the appropriate Title 14 of the Code of Federal regulations for a pilot and aviation operations.

Name
Identify, access and apply the appropriate source of regulations for international aviation operations.

AVIM4003 - REGIONAL AIRLINE TRANSITION

General

Course Prefix
AVIM

Course Number
4003

Description
This course replicates the initial training one can expect after being hired as a pilot for a regional air carrier. The course covers company indoctrination, policies, procedures for flight crews, airline regulations and aircraft systems. Emphasis is on mastering crew resource management, air carrier manual systems, safety management systems, general and emergency operating procedures, and aircraft systems prior to training in a full motion simulator. Students must apply for this course and be approved by the sponsoring regional airline.Prerequisite: By Permission

Credit Hours

Minimum Credit Hours:
3

Maximum Credit Hours:
3

(Credit Hours) Value:
3

Contact Hours (not needed)

(Contact Hours) Value (not needed) :

Course Requisites

Type
Completion Requirement

Prerequisite

Complete ALL of the following :
By Permission

Learning Outcomes

Learning Outcomes

Objective
Describe the systems, flight controls, avionics, and powerplant for the assigned aircraft.

Name
Pass the sponsoring regional airlines comprehensive oral and written exam.

Name
Understand and comply with company policies.

Name
Demonstrate appropriate crew resource management practices.

Name
Demonstrate proficiency in general and emergency operating procedures for the assigned aircraft.

Name
Describe the systems, flight controls, avionics, and powerplant for the assigned aircraft.

AVIM4013 - AVIATION PRACTICUM I

General

Course Prefix
AVIM

Course Number
4013

Description
This course is an integrative learning experience, where the university partners with an organization to create experiential training in the aviation field. Practicum I provides students service learning opportunities which can include building flight hours or aviation management and operations. Special attention is given to the development of the student's vocational interests and divine design. Completion of this course is equivalent to 120 hours of service-learning engagement in addition to the completion of reflection assignments. Prerequisite: None

Credit Hours

Minimum Credit Hours:
3

Maximum Credit Hours:
3

(Credit Hours) Value:
3

Learning Outcomes

Learning Outcomes

Objective
Develop the habits of a reflective life.

Name
Recognize the relationship between calling and potential vocations in the aviation field.

Name
Perform duties established in the student mentoring contract.

Name
Identify a career plan and prepare a digital portfolio or resume.

Name
Develop the habits of a reflective life.

AVIM4023 - AVIATION PRACTICUM II

General

Course Prefix
AVIM

Course Number
4023

Description
This course is an integrative learning experience, where the university partners with an organization to create experiential training in the aviation field. Practicum II builds on the skills and knowledge gained from Practicum I. Students explore new and more advanced service-learning opportunities which can include building flight hours or aviation management and operations. Special attention is given to the development of the student's vocational interests and divine design. Completion of this course is equivalent to 120 hours of service-learning engagement in addition to the completion of reflection assignments. Prerequisite: AVIM 4013

- AVIM4013 - AVIATION PRACTICUM I

Learning Outcomes

Learning Outcomes

Objective
Demonstrate consistent habits of a reflective life.

Name
Describe the opportunities and mindset to pursue a career in aviation.

Name
Perform duties established in the student mentoring contract.

Name
Articulate a career plan to advance in the aviation field.

Name
Demonstrate consistent habits of a reflective life.

AVIM4141 - AVIATION MANAGEMENT CAPSTONE

General

Course Prefix
AVIM

Course Number
4141

Description
This course is the capstone course for the major requirements and provides students the opportunity to synthesize and apply their learning in a simulated or real workplace context. Students develop a written reflection and portfolio of evidence of their readiness to enter the workforce in the aviation industry.Prerequisite: None

Credit Hours

Minimum Credit Hours:
1

Maximum Credit Hours:
1

Learning Outcomes

Learning Outcomes

Objective
Develop and present a professional portfolio describing evidence of readiness for entry-level employment in the aviation industry.

Name
Demonstrate knowledge of the core concepts of the aviation industry through a simulated case study.

Name
Summarize the results of your self-leadership profile and how this information will become the basis of a development plan.

Name
Develop a Cover Letter and Personal Mission Statement.

Name
Develop and present a professional portfolio describing evidence of readiness for entry-level employment in the aviation industry.

AVIP1001 - INTRODUCTION TO FLIGHT

General

Course Prefix
AVIP

Course Number
1001

Description
The course introduces students to flight operations and is appropriate for students interesting in a career in aviation and is recommended prior to enrolling in AVIP 1023. Topics include basic aerodynamics, flight controls, pre-flight inspection, and basic maneuvers. Students log time in a flight simulator and up to 3 hours of dual instruction in a single-engine aircraft. These hours may be applied toward a Private Pilot Certificate under FAA Part 61 rules. Fees are required.

Credit Hours

AVIP1011 - PRIVATE PILOT FLIGHT TRAINING I

General

Course Prefix
AVIP

Course Number
1011

Description
This course introduces students to airplane ground and flight operations, take-off and landing, basic flight maneuvers, cross-country methods, night flying, and emergency procedures. The course also includes flight instruction in single-engine aircraft and simulators. This course prepares students for the required FAA Private Pilot Airplane Practical Test. Credit may be granted for students presenting a valid FAA Private Pilot Certificate. Students must possess an FAA Class 3 or above Medical Certificate and be at least 17 years old. The course should be taken concurrently with AVIP 1013. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

AVIP1013 - PRIVATE PILOT GROUND SCHOOL

General

Course Prefix
AVIP

Course Number
1013

Description
This course provides instruction in preparation for initial flight training and the Federal Aviation Administration's (FAA) Private Pilot Airplane Knowledge Test. Topics include the basic aerodynamics, airplane systems and instruments, weight and balance, aircraft performance, meteorology, flight physiology, basic navigation techniques, radio navigation and communication, the Air Traffic Control and airspace system, and FAA Regulations. Credit may be granted for passing the FAA Private Pilot Airplane Knowledge Test with a mandatory minimum passing score of 70%. The course should be taken concurrently with flight lessons or AVIP 1023.Prerequisite: None

Learning Outcomes

Learning Outcomes

Objective
Demonstrate scheduling awareness regarding aircraft flight time and training.

Name
Demonstrate sufficient knowledge to pass the FAA Private Pilot Airplane knowledge test with 70% or higher.

Name
Demonstrate knowledge appropriate for a private pilot in aerodynamics, aircraft systems, performance, and weight & balance.

Name
Demonstrate knowledge appropriate for a private pilot in communication, navigation and flight physiology.

Name
Demonstrate knowledge appropriate for a private pilot in airspace, air traffic control and FAA regulations.

Name
Demonstrate scheduling awareness regarding aircraft flight time and training.

AVIP1022 - PRIVATE PILOT FLIGHT TRAINING II

General

Course Prefix
AVIP

Course Number
1022

Description

This course is a continuation of AVIP 1011. It introduces students to airplane ground and flight operations, take-off and landing, basic flight maneuvers, cross-country methods, night flying, and emergency procedures. The course also includes flight instruction in single-engine aircraft and simulators. This course prepares students for the required FAA Private Pilot Airplane Practical Test. Credit may be granted for students presenting a valid FAA Private Pilot Certificate. Students must possess an FAA Class 3 or above Medical Certificate and be at least 17 years old. The course should be taken concurrently with AVIP 1013. Some students may require additional hours of flight instruction beyond the course minimum to pass the course

AVIP2013 - INSTRUMENT RATING GROUND SCHOOL

General

Course Prefix
AVIP

Course Number
2013

Description

This course provides instruction in preparation instrument flight training and the Federal Aviation Administration's (FAA) Instrument Rating Airplane Knowledge Test. Topics include aircraft flight instruments, flight physiology, Instrument Flight Rules (IFR) aircraft operations and procedures, aircraft performance, weather, IFR planning and regulations. Advanced instruction in aviation weather, radio navigation and charts including procedures for departures en route, arrival and approaches. The course should be taken concurrently with instrument flight lessons or AVIP 2023. Credit may be granted for passing the FAA Instrument Rating Knowledge Test.Prerequisite: Private Pilot's License or AVIP 1013

Learning Outcomes

Objective
Demonstrate scheduling awareness regarding aircraft flight time and training.

Name
Demonstrate sufficient knowledge to pass the FAA Instrument Rating Airplane Knowledge test with 70% or higher.

Name
Demonstrate knowledge appropriate for an instrument pilot aircraft instruments and systems, aircraft performance and weather.

Name
Demonstrate knowledge appropriate for an instrument pilot in communication, navigation, IFR procedures, safety, and flight physiology.

Name
Demonstrate knowledge appropriate for an instrument pilot in airspace, air traffic control, and FAA regulations related to IFR flight.

Name
Demonstrate scheduling awareness regarding aircraft flight time and training.

AVIP2023 - INSTRUMENT FLIGHT TRAINING

General

Course Prefix
AVIP

Course Number
2023

Description

This course introduces students to airplane ground, flight operations and maneuvers associated with flying by instrument flight rules. This includes departure, en route, arrival, approaches, and landing in actual or simulated instrument meteorological conditions. Includes flight instruction in single-engine aircraft and simulators with emphasis on safety, operations, navigation systems and charts, various weather conditions, flight planning procedures, decision making, and cockpit resource management. Prepares students for the required FAA Instrument-Airplane Rating Practical Test. Credit may be granted for presenting a valid FAA Instrument-Airplane Rating. The course should be taken concurrently with AVIP 2013. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.Prerequisite: Private Pilot Certificate or AVIP 1023

Learning Outcomes

Learning Outcomes

Objective
Demonstrate scheduling awareness regarding aircraft flight time and training.

Name
Pass the FAA Instrument-Airplane Rating Practical Exam.

Name
Log at least 21 hours of dual flight instruction, 19 hours of simulator instruction, 2 hours for the flight examination.

Name
Demonstrate safe ground, flight operations and maneuvers appropriate for an Instrument-Airplane Rating.

Name
Demonstrate take-offs, departures, enroute, arrival, approaches and landings in actual or simulated instrument meteorological conditions appropriate for an Instrument-Airplane Rating.

Name
Demonstrate methods of flight planning, navigation, use of airspace and communication appropriate for an Instrument-Airplane Rating

Name
Demonstrate emergency procedures and compliance with FAA regulations appropriate for an Instrument-Airplane Rating.

Name
Demonstrate scheduling awareness regarding aircraft flight time and training.

AVIP3013 - COMMERCIAL PILOT GROUND SCHOOL

General

Course Prefix
AVIP

Course Number
3013

Description

This course provides instruction in preparation for initial flight training and the Federal Aviation Administration's (FAA) Commercial Pilot Airplane Knowledge Test. Topics include the advanced aerodynamics, complex airplane systems, and instruments, weight and balance for heavier aircraft, complex aircraft performance. Includes advanced meteorology, flight physiology for high altitude flight, advanced navigation techniques, radio navigation and communication, airspace systems, and FAA Regulations for commercial flight. Credit may be granted for passing the FAA Commercial Pilot Airplane Knowledge Test with a mandatory minimum passing score of 70%. The course should be taken concurrently with flight lessons or AVIP 3023.Prerequisite: None

Demonstrate scheduling awareness regarding aircraft flight time and training

Name
Log at least 15 hours of dual flight instruction of which 5 hours is complex time, 11 hours of simulator instruction, 32 hours of solo flight.

Name
Demonstrate safe ground, flight operations and maneuvers appropriate for a Commercial Pilot.

Name
Demonstrate take-offs and landings in a variety of environments and at night appropriate for a Commercial Pilot.

Name
Demonstrate cross-country methods, navigation, use of airspace and communication appropriate for a Commercial Pilot.

Name
Demonstrate emergency procedures and compliance with FAA regulations appropriate for a Commercial Pilot.

Name
Demonstrate cockpit resource management in multi-pilot operations appropriate for a Commercial Pilot.

Name
Demonstrate scheduling awareness regarding aircraft flight time and training

AVIP3033 - COMMERCIAL PILOT FLIGHT II

General

Course Prefix
AVIP

Course Number
3033

Description
This course continues student training and experience in airplane ground and flight operations, take-off and landing, advanced flight maneuvers, cross-country methods, night flying, and emergency procedures appropriate for a commercial pilot. Includes flight instruction in single-engine basic and complex aircraft and simulators in final preparation for the required FAA Commercial Pilot Airplane Practical Test. Credit may be granted for presenting a valid FAA Commercial Pilot Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 17 years old. AVIP4022 - CERT FLIGHT INSTRUCTOR FLIGT TRAIN

General

Course Prefix
AVIP

Course Number
4022

Description
This course provides instruction in the basic and advanced aeronautical knowledge and piloting skills appropriate for a Certified Flight Instructor for the category and class of aircraft for which the student seeks. Students explain, demonstrate, and analyze flight maneuvers and resource management skills involved with Private Pilot, Commercial Pilot, and Flight Instructor Certificates. For fixed-wing aircraft includes spins and spin recovery. Credit may be granted for presenting a valid FAA Certified Flight Instructor Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 18 years old. The course should be taken concurrently with AVIS 4013. Some students may require additional hours of instruction beyond the course minimum to pass the course.Prerequisite: By permission only

Learning Outcomes

Objective
Demonstrate scheduling awareness regarding aircraft flight time and training.

Name
Pass the FAA Certified Flight Instructor Practical Exam

Name
Demonstrate spin entry and recovery.

Name
Explain and demonstrate aeronautical skills and maneuvers appropriate for Private and Commercial Pilot Certificates in an instructional context.

Name
Demonstrate the ability to analyze and evaluate aeronautical skills and maneuvers performed by a student in an instructional context.

Name
Demonstrate the professionalism and maturity to conduct flight instruction.

Name
Demonstrate scheduling awareness regarding aircraft flight time and training.

AVIP4031 - CERT FLIGHT INST INSTR FLIGT TRAIN

General

Course Prefix
AVIP

Course Number
4031

Description
This course provides instruction in the basic and advanced aeronautical knowledge and piloting skills appropriate for a Certified Flight Instructor-Instructor Rating for the category and class of aircraft for which the student seeks. The course also provides provide flight instruction experiences. Credit may be granted for presenting a valid FAA Certified Flight Instructor Instrument Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 18 years old. Some students may require additional hours of instruction beyond the course minimum to pass the course.Prerequisite: CFI Certificate or AVIP 4022 and permission
