The department of Political Science will not permit the **Flexible Grade Option (CG Grade)** for any course offered by the Political Science Graduate Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Course

Applicants with knowledge of research methods equivalent to **POLI399 Quantitative Research Methods** may be given a course exemption in **POLI691 Quantitative Analysis In Poli.** Course exemption exempts students from taking this course, but they are still required to complete the total number of units required for their degree. Applicants must make course exemption requests as part of the admission process.

## Time Limit

Expected completion time is two years for the thesis-based MA program. Maximum completion time is four years.

### Supervisory Assignments and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

An incoming student for the thesis-based program must have a proof of agreement to supervise from one or more faculty members in the student's proposed area of thesis research. Admission will not be granted without proof that adequate supervision is available during the applicant's studies. The selection of an eligible Permanent Supervisor is made by mutual agreement between the student, the faculty member, and the Graduate Program Director. A permanent Supervisor should normally be appointed by the end of April of the first year of registration. At the time of appointment, the Permanent Supervisor should be currently active in research in an area related to the student's interest.

### Thesis Examination

#### *Scheduling of the Examination*

All members of the Supervisory Committee (if applicable) must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the **Awards and Financial Assistance** section of this Calendar.

Students applying for scholarships must submit their applications to the Department by January 15.

## Overview

### General Program Information

The PhD program is offered as a full-time program only.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [poli.ucalgary.ca](http://poli.ucalgary.ca)

## Admissions

### Program Admissions Information

Deadline for the submission of completed applications is available on the Future Students website: [grad.ucalgary.ca/future-students/explore-programs/political-science-phd](http://grad.ucalgary.ca/future-students/explore-programs/political-science-phd).

In addition to the Faculty of Graduate Studies [admission](#) requirements and Faculty of Arts requirements, the program requires:

- a) A minimum grade point average of 3.70 on a four-point scale over a Master's degree.
- b) Normally a Master of Arts in Political Science or a strong background in Political Science. Special consideration may be given to those who have not achieved this background.
- c) All students whose primary language is not English are required to take a language proficiency test: TOEFL (Internet-based) with a minimum score of 105; IELTS with a minimum score of 7.5; a CAEL score of 70 with no section less than 70; or a PTE with a minimum score of 75. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.
- d) Two reference letters.
- e) A statement of research interests.
- f) Sample of written work, preferably a paper submitted for a Political Science course.
- g) Email confirmation from a potential supervisor who is interested in supervising the student's work.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department normally requires:

- a) A minimum of 18 units of coursework, which must include:
  - at least 12 units of graduate courses in Political Science;
  - at least 6 units must be in the student's chosen Primary Field and at least 6 units must be in the student's chosen Secondary Field (Primary and Secondary Fields will consist of any two of Canadian Politics, Comparative Politics, Indigenous Politics, International Relations, or Political Thought);
  - a maximum of 6 units as reading courses;
  - [POLI691 Quantitative Analysis In Poli](#) (see Advanced Credit);
  - and up to 3 units of graduate courses in any area.
- b) Field of Study Written Examinations.
- c) Field of Study Oral Examination.
- d) Thesis Proposal and Meeting.

e) Language Requirement (if applicable).

f) Written Thesis.

g) Thesis Oral Examination.

## Additional Program Information

### Type

Completion Requirement

### Additional Comments:

## Advanced Credit

The applicant must make **Advanced Credit** requests as part of the admission process. Credit will not normally be given for course work taken as part of another completed degree/diploma.

If graduate-level courses are taken as post-BA courses, the Graduate Program Director may allow the student to claim up to 6 units at our graduate level.

## Flexible Grade Option (CG Grade)

The department of Political Science will not permit the **Flexible Grade Option (CG Grade)** for any course offered by the Political Science Graduate Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Applicants with knowledge of research methods equivalent to **POLI399 Quantitative Research Methods** may be given a course exemption in **POLI691 Quantitative Analysis In Poli**. Course exemption exempts students from taking this course, but they are still required to complete the total number of units required for their degree. Applicants must make course exemption requests as part of the admission process.

## Time Limit

Expected completion time is four years for the PhD program. Maximum completion time is six years.

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

An incoming student must have a proof of agreement to supervise from one or more faculty members in the student's proposed area of thesis research. Admission will not be granted without proof that adequate supervision is available during the applicant's studies. The selection of an eligible Permanent Supervisor is made by mutual agreement between the student, the faculty member, and the Graduate Program Director. A permanent Supervisor should normally be appointed by the end of April of the first year of registration. At the time of appointment, the Permanent Supervisor should be currently active in research in an area related to the student's interest.

The Supervisory Committee should be appointed as quickly as possible but no later than three months after the appointment of the Permanent Supervisor.

## Research Proposal

Doctoral students must complete a written Thesis Proposal, which is approved by their Supervisory Committee in a Thesis Proposal Meeting. For more information, see [poli.ucalgary.ca/graduate/current-program-rules-policies](https://poli.ucalgary.ca/graduate/current-program-rules-policies).

## Doctoral Field of Study Examinations

Political Science doctoral students must successfully complete two Field of Study (FoS) written examinations: (i) one written FoS examination in their chosen Primary Field; and, (ii) a second written FoS examination in their chosen Secondary Field. In addition, students must successfully complete a single oral FoS examination which treats both their Primary and Secondary Fields. For more information, see: <https://arts.ucalgary.ca/political-science/current-students/graduate/phd-program-requirements/phd-candidacy>.

## Thesis Examination

### *Scheduling of the Examination*

All members of the Supervisory Committee (if applicable) must have reviewed the student's draft thesis document before an examination can be scheduled.

### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

## Financial Assistance

## Introduction

Psychology is both a science and a profession. As scientists, psychologists work in a variety of settings like universities, hospitals, government, and corporations and carry out both basic and applied research. As a profession, psychology includes a number of different types of practitioners who apply psychological knowledge to solve personal, social, and practical problems. These include clinical psychologists who specialize in the identification and treatment of psychological disorders but also provide psychological assessments, health-related services, and psychological interventions. Practitioners also include industrial/organizational psychologists who work in recruitment, selection, training, and other business practice areas. Career options depend on students' goals and interests and the level and type of training acquired. With a BA or BSc, students may find employment in a variety of settings and a range of occupations such as human resources manager, addictions counsellor, researcher, consultant, case worker, etc. A degree in psychology can also be the first step in the pursuit of a variety of careers in fields that require an undergraduate degree such as law, medicine, management, social work, speech pathology, and audiology. Students wishing to work as a clinical or counselling psychologist will require additional university training in Psychology beyond

the BA or BSc degree. Students wishing to take a Psychology degree that emphasizes the social sciences and humanities should register for the BA degree; those who wish to emphasize the biological and natural sciences should register for the BSc degree. Students who are interested in pursuing graduate study in Psychology should consider the Psychology BA or BSc Honours Program.

## Courses and Registration

Registration in 400- and 500-level Psychology courses is restricted to Psychology Majors.

## Admissions

### Program Admissions Information

## Admission to the Major

Students who are interested in pursuing graduate study in Psychology should consider the Psychology BA or BSc Honours Program.

### Admissions

Program Admissions Information

#### Admission to the Major

Prospective students must meet the criteria listed in section [A.5 Undergraduate Degree Admission Requirements](#) of this Calendar.

#### Admission to Honours

The Faculty of Arts procedures for Admission to Honours established in section [3.3.2 Honours Degrees](#) are applicable and provide the overall framework.

Psychology Majors are eligible to apply for Honours upon completion of at least 72 units, with at least one lab course (i.e., 3 units from Psychology 400, 415, 425, 427, 430, 435, 478, 504, or 505).

Due to high demand, the qualifying grade point average for eligibility for admission to Honours Psychology is typically set higher than the minimum 3.30 level for the Faculty of Arts. When this is the case, the qualifying average for the following year is announced on the Department website by October 1. For the purpose of admission to Honours, a student's grade point average is calculated over the most recent course work to a maximum of 60 units inclusive of courses from other institutions as well as the University of Calgary.

Psychology Majors must apply through their [Student Centre](#) for a change of program to Honours no later than January 23 of the year prior to their final year. Admission is contingent on the availability of an eligible thesis supervisor, as well as the availability of the resources (laboratory space, equipment, etc.) needed to complete the thesis. Students are encouraged to consult with the Psychology Advisor well before the January 23 deadline to determine their eligibility.

### Program Admissions Information

Deadlines for the submission of completed applications are available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/psychology-master-science-thesis-based](https://ucalgary.ca/future-students/graduate/explore-programs/psychology-master-science-thesis-based).

In addition to Faculties of Graduate Studies and Arts **requirements**, the Department requires:

a) A four-year undergraduate degree in Psychology or related discipline. Students not having an undergraduate degree in Psychology must demonstrate adequate background in psychology. Those needing additional work may be required to take particular courses.

- b) A minimum admission grade point average of 3.40 on a four-point scale over the last 60 units.
- c) An undergraduate course in statistics/experimental design.
- d) For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 105 (Internet-based test), an IELTS score of 7.5, a CAEL score of 70 with a minimum of 70 in each component, or a PTE score of 75. This requirement can also be met by completing the Academic Communication Certificate with a minimum grade of "A-" in each course.
- e) Two academic reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to Faculties of Graduate Studies requirements and Arts requirements, the Department requires students to complete no fewer than 12 units of coursework, which include:

##### Complete ALL of the following Courses:

- PSYC600 - Professional Development

##### Earn at least 6 credits from the following:

- PSYC607 - Advanced Research Design and Methodology in Psychology
- OR PSYC611 - Advanced Qualitation Inquiry in Psychology
- OR PSYC613 - Signal and Systems Analysis in Behavioural Research
- OR PSYC615 - Analysis of Variance
- OR PSYC617 - Multivariate Data Analysis
- OR PSYC619 - Special Topics in the Design of Psychological Research

##### Earn at least 3 credits from the following:

- PSYC601 - History of Psychology
- OR PSYC620 - Advanced Topics in Brain and Cognitive Sciences
- OR PSYC623 - Functional Neuroanatomy
- OR PSYC630 - Advanced Topics in Social and Theoretical Psychology
- OR PSYC639 - Adv Industrial & Organize Psyc
- OR PSYC700 - Integrative Seminar in Psychology
- OR PSYC710 - Integrative Seminar in Psychology
- OR PSYC720 - Seminar in Brain and Cognitive Sciences
- OR PSYC730 - Seminar in Social and Theoretical Psychology
- OR PSYC739 - Seminar in Industrial/Organizational Psychology

These courses may be substituted with seminar courses from other departments with approval by the supervisor and the Graduate Program Director.

#### Additional Comments:

### Industrial Organizational Specialization

I/O students in the MSc program are required to take 24 units with 6 units in research methods and statistics, 12 units in I/O Psychology (Psychology 639, 739), and 6 units outside the I/O area.

#### Additional Program Information

**Type**

Completion Requirement

**Additional Comments:**

### Advanced Credit

The applicant must make Advanced Credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

The Psychology program in the Psychology Department will not permit the Flexible Grade Option (CG Grade) for any course offered by the Psychology Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Credit may be given for 500-level undergraduate courses up to a maximum of three courses.

### Time Limit

Expected completion time is two years for the Master of Science program.

### Supervisory Assignments, Research Proposal and Required Examinations

**Type**

Completion Requirement

**Additional Comments:**

### Supervisory Assignments

An interim supervisor is assigned to each student at the time of admission. In no case will a student be admitted if an appropriate supervisor is not expected to be available. The shift from interim to permanent supervisor formally takes place at the end of the first year. The Graduate Program Director must approve the permanent supervisor.

Master's level students must have a supervisory committee consisting of the supervisor plus two other faculty members.

### Research Proposal

Students whose research involves human subjects must receive approval from the appropriate departmental or University Ethics Review Committee before beginning data collection.

All Master of Science students must formally present a thesis proposal not more than 14 months after admission to the program. The proposal must be typed and 10 to 30 double-spaced pages (12 pt font, reference list extra). Students must consult with their supervisors. The supervisory committee must approve the thesis proposal.

### Thesis Examinations

In addition to Faculty of Graduate Studies regulations for Thesis Examinations, the program requires the following:

Thesis oral examinations are open.

*Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

## *Composition of the Committee*

The Internal Examiner must be external to the home program.

Core faculty members in the Psychology and Clinical Psychology programs are not eligible to serve as Internal Examiner; however, adjunct faculty members are eligible to serve in this capacity.

## **Financial Assistance**

### **Type**

Completion Requirement

### **Additional Comments:**

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for scholarships are advised to submit their applications to the Department by January 15.

## **Overview**

### **General Program Information**

The Department accepts applicants who plan to remain full-time to the completion of their degree. The program does not offer a part-time option.

### **Specializations:**

- Industrial Organizational Specialization
- [Medical Im](#)
- [Wearable T](#)
- [Comp Neuro](#)

Email address: <mailto:artsgradsc@ucalgary.ca>

## **Admissions**

### **Program Admissions Information**

Deadlines for the submission of completed applications are available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/psychology-doctor-philosophy-thesis-based](https://ucalgary.ca/future-students/graduate/explore-programs/psychology-doctor-philosophy-thesis-based)

In addition to the Faculty of Graduate Studies [admission](#) requirements and Faculty of Arts requirements, the program requires:

- a) A four-year undergraduate degree in Psychology or related discipline. Students not having an undergraduate degree in Psychology must demonstrate adequate background in psychology. Those needing additional work may be required to take particular courses.
- b) A minimum admission grade point average of 3.40 on a four-point scale over the last 60 units.
- c) An undergraduate course in statistics/experimental design.
- d) For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 105 (Internet-based test), an IELTS score of 7.5, a CAEL score of 70 with a minimum of 70 in each component, or a PTE score of 75. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.
- e) Two academic reference letters.

## Introduction

The Department of Classics and Religion offers instruction in Ancient and Medieval History, Greek and Roman Studies, and Religious Studies.

Religious Studies seeks to foster an understanding of the wide variety of religions that have influenced the development of human cultures and that continue to be powerful forces in today's world. Courses examine religious worldviews and their associated texts and practices, movements and institutions, as they appear now and as they have developed over time in many cultures of the world. The Field of Religious Studies is multicultural, i.e., religions from all over the world are the subject of study, including the ancient traditions of Hinduism, Buddhism, Daoism, Confucianism, Judaism, Christianity, and Islam, as well as religious movements of more recent origin. Religious Studies is also multidisciplinary, which means that religion is studied with the use of methods and theories from various disciplines, including history, anthropology, philosophy, sociology, psychology, literary theory, and feminist theory.

## Admissions

### Program Admissions Information

Deadline for the submission of complete applications is available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/religious-studies-doctor-philosophy-thesis-based](http://ucalgary.ca/future-students/graduate/explore-programs/religious-studies-doctor-philosophy-thesis-based)

In addition to the Faculties of Graduate Studies and Arts [requirements](#), the Department requires:

- a) A degree comparable to the University of Calgary Religious Studies Master of Arts with a minimum grade point average of 3.50 on a four-point scale.
- b) Two reference letters.
- c) Applicants must include in their application package a sample of written work (e.g. a recent research essay).

Students with an Honours Bachelor of Arts degree in Religious Studies, a grade point average of 3.70 or higher, and evidence of competence in the required languages may be admitted directly into the doctoral program or may be considered for transfer to the doctoral program after the first year of the master's program. Such applicants must include in their application package a detailed statement (10 pages) of the purpose, field, and course of study to be pursued in the program.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department normally requires:

- a) For students with a Master of Arts in Religious Studies, five courses are required (in addition to individualized requirements that may be set by the Departmental Graduate Committee at the time of admission):

**Complete ALL of the following Courses:**

- RELS701 - Studies in Western Religions  
**AND** RELS703 - Studies in Eastern Religions  
**AND** RELS705 - Studies in the Nature of Religion  
**AND** RELS707 - PhD Departmental Colloquium  
**AND** RELS709 - Advanced Topics on Critical Discourses in the Study of Religion

- b) For students with a BA Honours or for students transferring from the master's program, eight courses are required (in addition to individualized requirements that may be set by the Departmental Graduate Committee at the time of admission):

**Complete ALL of the following Courses:**

- RELS601 - Studies in Western Religions  
**AND** RELS603 - Studies in Eastern Religions  
**AND** RELS605 - Studies in the Nature of Religion  
**AND** RELS701 - Studies in Western Religions  
**AND** RELS703 - Studies in Eastern Religions

**AND RELS705 - Studies in the Nature of Religion**  
**AND RELS707 - PhD Departmental Colloquium**  
**AND RELS709 - Advanced Topics on Critical Discourses in the Study of Religion**

**Additional Comments:**

## PhD Language Requirements

Before the written candidacy examination, doctoral students must demonstrate a reading knowledge of at least two languages other than English. At the discretion of the Department and upon recommendation of the Graduate Director, competency in additional languages may be required. The foreign language requirement may be satisfied in two ways:

- a) Successful completion (final grade of "B" or higher) at some stage of the student's university program of at least 12 units in a first language other than English, and 6 units in a second language; or
- b) Successful completion (grade of "B" or higher) of a language examination administered by the Department of Classics and Religion or by another department on behalf of the Department of Classics and Religion. When the test is administered by another department, it will consist of a passage or passages selected by the supervisor and/or any requirements that the other department may deem necessary; the test will be graded by the examiner(s) of the other department. When members of the Department of Classics and Religion administer the test, the examination questions will be determined, administered, and graded by two members of the Department (one of whom normally will be the supervisor) who have expertise in the language under consideration. In the event that a second person with expertise in the required language is not available, the Department Head may seek an expert from outside the department.

## Additional Program Information

### Type

Completion Requirement

**Additional Comments:**

## Advanced Credit

Any requests for advanced credit must be made when applying for admission. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Graduate course work completed before admission and not counted toward satisfying undergraduate degree requirements will be assessed by the Departmental Graduate Committee to determine course requirements.

## Flexible Grade Option (CG Grade)

The Religious Studies program in the department Of Classics and Religion will not permit the **Flexible Grade Option (CG Grade)** for any course offered by the Religious Studies program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Credit for undergraduate courses will be given only upon approval of the Departmental Graduate Committee.

## Time Limit

Expected completion time for full-time students is four years in the PhD program. Maximum completion time is six years in the doctoral program.

## Supervisory Assignments and Required Examinations

### Type

Students applying for scholarships must submit their applications to the Department by February 1.

## Overview

General Program Information

## Contact Information

Website: [arts.ucalgary.ca/sociology](http://arts.ucalgary.ca/sociology).

## For Program Advice

Students should consult an undergraduate program advisor in the Arts Students' Centre for information and advice on their overall program requirements. Advising contact information can be found online: [arts.ucalgary.ca/advising](http://arts.ucalgary.ca/advising).

## Introduction

Sociology contributes to understanding our social world by studying how groups, organizations, societies, and their cultural products are produced, reproduced and transformed by the actions and interactions of people in social contexts. The Sociology program cultivates students' sociological imaginations by offering a wide range of opportunities to think sociologically and to use different theoretical approaches, research methods and data-analysis techniques so students gain experience thinking with and using a sociological perspective.

## Sociology and Law and Society Students Association

The Sociology and Law and Society Students Association (SLSA) is actively engaged in promoting the academic and social interests of students who Major or Minor in Sociology or Law and Society. The SLSA fosters a sense of community within the Department and represents the interests of undergraduate Sociology and Law and Society students at appropriate councils and committees. All Sociology and Law and Society students are encouraged to become members.

## Overview

General Program Information

## Contact Information

Website: [arts.ucalgary.ca/sociology](https://arts.ucalgary.ca/sociology).

## For Program Advice

Students should consult an undergraduate program advisor in the Arts Students' Centre for information and advice on their overall program requirements. Advising contact information can be found online: [arts.ucalgary.ca/advising](https://arts.ucalgary.ca/advising).

## Introduction

Sociology contributes to understanding our social world by studying how groups, organizations, societies, and their cultural products are produced, reproduced and transformed by the actions and interactions of people in social contexts. The Sociology program cultivates students' sociological imaginations by offering a wide range of opportunities to think sociologically and to use different theoretical approaches, research methods and data-analysis techniques so students gain experience thinking with and using a sociological perspective.

## Sociology and Law and Society Students Association

The Sociology and Law and Society Students Association (SLSA) is actively engaged in promoting the academic and social interests of students who Major or Minor in Sociology or Law and Society. The SLSA fosters a sense of community within the Department and represents the interests of undergraduate Sociology and Law and Society students at appropriate councils and committees. All Sociology and Law and Society students are encouraged to become members.

## Admissions

Program Admissions Information

### Admission to the Major

Prospective students wishing to enter the BA (Sociology) Program or the BA (Law and Society) Program must meet the criteria listed in section [A.5 Undergraduate Degree Admission Requirements](#) of this Calendar. Annual application deadlines are found in [A.3 Deadline Dates for Undergraduate Applications for Admission and Supporting Documents](#).

### Admission to Honours

The Faculty of Arts procedures for Admission to Honours established in section [3.3.2 Honours Degrees](#) are applicable and provide the overall framework. Students wishing to apply to an Honours program must submit a change of program request through their [Student Centre](#) by February 1.

In addition, for admission to the Honours program in Sociology, the following is also required:

1. Completion of at least 72 units at the time of application.
2. Completion of Sociology 311, 313, 315, 331 and 333.
3. Consultation with three potential supervisors and submission of the Statement of Intent by January 15. Please see the website for additional details.

## Overview

### General Program Information

The work completed in the course-based Master of Arts program is considered equivalent to a major research project and is appropriate for students who intend to proceed to doctoral studies.

The MA, course-based is a continuous program with no scheduled break.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [soci.ucalgary.ca](http://soci.ucalgary.ca)

## Admissions

### Program Admissions Information

Deadlines for submission of completed applications is available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/sociology-ma-course>.

In addition to Faculties of Graduate Studies and Arts **requirements**, the Department requires:

- a) Thesis-based program: a grade point average of 3.5 on a four-point scale over the last two years of coursework or 60 units.  
Course-based program: a grade point average of 3.3 on a four-point scale over the last two years of coursework or 60 units.
- b) Demonstrated competence, normally through course work, in classical and contemporary sociological theory, social research methods, and social statistics.

- c) A written statement of intent.
- d) A sample of written work. Possible writing samples include a term paper, a research report, a thesis chapter or an article. Writing samples cannot be co-authored and those with sociological content are preferred.
- e) Two reference letters.
- f) Students must hold a four-year degree from a recognized/accredited institution. If degree was received from a university outside of Canada, refer to the country-specific degree requirements: [grad.ucalgary.ca/prospective/admissions/international-admission-requirements](http://grad.ucalgary.ca/prospective/admissions/international-admission-requirements).

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculties of Graduate Studies and Arts requirements, the Department requires:

27 units of courses including:

- a) Competence in sociological statistics, methods of sociological research, and sociological theory demonstrated by completing [SOCI611 Soc Stats:General Linear Model](#), [SOCI613 Sem Quantitative Res Methods](#), [SOCI615 SeminarInQualitativeResMethod](#) or an alternative methods course offered by the Sociology Department; and [SOCI631 Seminar in Sociological Theory](#).
- b) 9 units of electives at the 600 or 700 level; at least 6 units must consist of courses labelled SOCI.
- c) 3 units from [SOCI606 Master's Seminar Prof SOCI I](#) and [SOCI607 Master's Seminar Prof SOCI II](#) (1.5 units each).
- d) 6 units of [SOCI680 Major Research Project](#), a course (major research paper) taken in spring and summer terms.

#### Additional Program Information

No credit will be given for undergraduate courses.

### Time Limit

Expected completion time is 20 months for the thesis-based Master of Arts. Maximum completion time is four years.

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

An interim supervisor is assigned to all incoming students in the thesis-based MA programs. Thesis-based MA students, after one term in the program, will make supervisory arrangements with a faculty member in the chosen area of research.

## Research Proposal

Students whose research involves human subjects must receive approval from University of Calgary Conjoint Faculties Research Ethics Board or the Conjoint Health Research Ethics Board (if applicable) before beginning data collection.

Thesis-based Master of Arts students are required to prepare a thesis proposal within nine months of the date of entry into the program.

## Thesis Examinations

Thesis examinations are open. In addition to Faculty of Graduate Studies regulations for [thesis examinations](#), the program requires:

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. Information on departmental funding is available in the online [Graduate Student Handbook](#). For further information on awards, please see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for Graduate Award Competitions through the Faculty of Graduate Studies must submit their applications to the Department by January 15.

## Overview

### General Program Information

The PhD programs in Sociology is offered as a full-time program only.

Expected completion time is four years for the Doctor of Philosophy degree. Maximum completion time is six years.

#### Supervisory Assignments, Research Proposal and Required Examinations

##### Type

Completion Requirement

##### Additional Comments:

### Supervisory Assignments

An interim supervisor is assigned to all incoming students in the PhD program. PhD students, after two terms in the program, will make supervisory arrangements with a faculty member in the chosen area of research. In the case of PhD students, the supervisor and student will select two other faculty members to serve on the student's supervisory committee.

### Research Proposal

Students whose research involves human subjects must receive approval from University of Calgary Conjoint Faculties Research Ethics Board or the Conjoint Health Research Ethics Board (if applicable) before beginning data collection.

### Required Examinations

#### Candidacy

Doctoral students must complete a thesis prospectus, normally within fourteen months of initial registration in the doctoral program. Successful completion of the prospectus means that the Supervisory Committee has approved the thesis project, and a written copy of the prospectus is filed with the Sociology Department Student Administrator.

Doctoral students must pass a Field of Study examination with a written and an oral component, normally completed within twenty months of initial registration in the doctoral program.

For complete details of the candidacy requirements, see [soci.ucalgary.ca/graduate/phd-program](https://soci.ucalgary.ca/graduate/phd-program).

#### Thesis Examinations

Thesis examinations are open. In addition to Faculty of Graduate Studies regulations for [thesis examinations](#), the program requires:

## *Scheduling of the Examination*

## **Overview**

### **General Program Information**

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [arts.ucalgary.ca/schools/creative-performing-arts/music/graduate](https://arts.ucalgary.ca/schools/creative-performing-arts/music/graduate)

## **Admissions**

### **Program Admissions Information**

The deadline for the submission of complete applications is available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/music-master-music-thesis-based](https://ucalgary.ca/future-students/graduate/explore-programs/music-master-music-thesis-based).

In addition to Faculties of Graduate Studies and Arts **requirements**, Music requires:

- a) A completed Bachelor of Music degree (or equivalent).
- b) A live audition or video/audio recording. Repertoire for the audition must contain representative works from a variety of historical periods and must demonstrate an advanced level of technical accomplishment. Recordings should be approximately 20-30 minutes in length. Live auditions are scheduled for early February. Specific dates and times can be arranged by contacting the Graduate Program Administrator at 403.220.5422 or email <mailto:artsgradsc@ucalgary.ca>.
- c) One-page letter detailing their specific reasons for pursuing graduate study.
- d) Two reference letters.

## **Program Details**

### **Simple Requisites**

#### **Program/Course Requirements**

##### **Type**

Completion Requirement

##### **Additional Comments:**

Students should consult the Graduate Program Director before registering in courses.

In addition to Faculties of Graduate Studies and Arts requirements, Music, excluding qualifying courses, requires:

- [MUSI631 Res Tech & Biblio of Music](#), [MUSI651 Sel Top Electroacoustic Music](#) and [MUSI653 Projects in Computer Music](#)
- 3-unit graduate Music course, and
- 6 units of approved graduate courses in any area.

No more than 6 units may be from independent study courses [MUSI661 Independent Study](#) and [MUED655 Independent Study](#).

Diagnostic tests in music history and theory will be given to all entering master's students in order to determine if qualifying work in these areas is required. Qualifying work, if required, is normally completed in the first year of study.

## Language

While there are no formal second-language requirements for the various programs of the Master of Music degree, students may be required to attain proficiency in a language other than English where this is deemed appropriate for the proposed thesis/project.

All master's degree programs require a thesis or recital or project equivalent, prepared under the guidance of a supervisor and approved by the Music Graduate Studies Committee.

The thesis is interpreted to be either a substantial sonic arts creative project with an accompanying research document or a portfolio of sonic arts creative work, realized in the second year of study, and an accompanying descriptive essay related to the portfolio. The project or portfolio of works will be performed or presented in public prior to the thesis defence.

## Additional Program Information

### Type

Completion Requirement

Additional Comments:

## Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

## Flexible Grade Option (CG Grade)

The Music program in the School of Creative and Performing Arts will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the Music Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Time Limit

Maximum completion time is five years for the Master of Music programs.

## Supervisory Assignments and Required Examinations

### Type

Completion Requirement

Additional Comments:

## Supervisory Assignments

The Graduate Program Director will function as the interim supervisor for all newly admitted students during their first term. This arrangement will allow students to use their first term as an opportunity to meet with faculty and to secure a permanent supervisor.

### Required Examinations

A comprehensive oral examination encompassing all areas of the chosen field is required. This examination will take place following the completion of coursework and must be satisfactorily completed before the submission of the thesis/project. In (Sonic Arts) the exam questions will be based on a compiled bibliography (readings and works) relevant to the student's area of research.

### Thesis Examinations

In addition to Faculty of Graduate Studies requirements for [Thesis Examinations](#), the program requires:

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

Normally, the Internal Examiner is external to the home program.

Thesis examinations of written theses are open.

### Financial Assistance

## Overview

### General Program Information

## Contact Information

Website: [arts.ucalgary.ca/languages-linguistics-literatures-cultures](https://arts.ucalgary.ca/languages-linguistics-literatures-cultures).

## For Program Advice

Students should consult an undergraduate program advisor in the Arts Students' Centre for information and advice on their overall program requirements. Advising contact information can be found online: [arts.ucalgary.ca/advising](https://arts.ucalgary.ca/advising).

## Introduction

The School of Languages, Linguistics, Literatures and Cultures offers programs that focus on Arabic, Chinese, French, German, Italian, Japanese, Russian, Spanish and the literatures and cultures associated with these languages, as well as programs in general linguistics. It also offers an interdisciplinary program in East Asian Studies.

The language programs challenge students to think critically about the relationship between language and culture, theories of language competency, cross-cultural awareness, including literature and film studies, and the socio-linguistic histories involved.

## Placement in Introductory Courses in German, Italian, Japanese, Russian, and Spanish

Students who register in introductory courses in German, Italian, Japanese, Russian, and Spanish are required to complete an online placement form to indicate whether they have taken a previous course in the language or lived in an environment where that language is spoken. The online placement form will be available to registered students via D2L up to a month before the first day of class. Students must be registered in the respective course in order to access the D2L site.

Students who indicate on the online placement form that they have taken a previous course in the language or lived in an environment where that language is spoken will be required to meet with the program's undergraduate advisor and will be informed of the appropriate course in which to register. Students who do not complete the online placement form, or who are asked to consult with the advisor but fail to do so, will be removed from the course by the drop deadline.

### Study Abroad

The School of Languages, Linguistics, Literatures and Cultures encourages its students to take advantage of possibilities for studying off-campus, wherever one of its target languages is spoken. Detailed information on exchange programs and Study Abroad programs in Arabic, Chinese, French (in Quebec or elsewhere), German, Italian, Japanese, Russian, and Spanish is available from the School of Languages, Linguistics, Literatures and Cultures and/or University of Calgary International.

Students planning to study at another institution must obtain a letter of permission from their faculty. They are strongly advised to consult the School of Languages, Linguistics, Literatures and Cultures beforehand to discuss details concerning course selection and transfer of credit.

### Admissions

Degree Options

To complete **optional** enhancement(s) to this degree program, refer to:

**Complete ANY of the following Requirement Sets:**

- Faculty of Arts - Graduation Requirements - Honours Degree Programs
- Faculty of Arts - Minor Programs
- Embedded Certificates
- Faculty of Arts - Combined Degrees
- Faculty of Arts - Co-operative Education Programs
- Concurrent BA (Spanish)/BEd

**Overlapping Programs**

Language programs (i.e., majors or minors) offered by the School of Languages, Linguistics, Literatures and Cultures can only be combined with the major program in Linguistics and Language if the language or languages in the former program differ from the chosen Language Option for the latter. This restriction applies to Major-plus-Minor combinations, Double Majors, Combined Degrees and Second Baccalaureate Degrees.

Note: The combination of an Arts degree with a BEd cannot be completed with Co-operative Education.

**Additional Comments:**

**Overview**

## General Program Information

### Contact Information

Website: [arts.ucalgary.ca/languages-linguistics-literatures-cultures](https://arts.ucalgary.ca/languages-linguistics-literatures-cultures).

### For Program Advice

Students should consult an undergraduate program advisor in the Arts Students' Centre for information and advice on their overall program requirements. Advising contact information can be found online: [arts.ucalgary.ca/advising](https://arts.ucalgary.ca/advising).

### Introduction

The School of Languages, Linguistics, Literatures and Cultures offers programs that focus on Arabic, Chinese, French, German, Italian, Japanese, Russian, Spanish and the literatures and cultures associated with these languages, as well as programs in general linguistics. It also offers an interdisciplinary program in East Asian Studies.

The language programs challenge students to think critically about the relationship between language and culture, theories of language competency, cross-cultural awareness, including literature and film studies, and the socio-linguistic histories involved.

---

### Placement in Introductory Courses in German, Italian, Japanese, Russian, and Spanish

Students who register in introductory courses in German, Italian, Japanese, Russian, and Spanish are required to complete an online placement form to indicate whether they have taken a previous course in the language or lived in an environment where that language is spoken. The online placement form will be available to registered students via D2L up to a month before the first day of class. Students must be registered in the respective course in order to access the D2L site.

Students who indicate on the online placement form that they have taken a previous course in the language or lived in an environment where that language is spoken will be required to meet with the program's undergraduate advisor and will be informed of the appropriate course in which to register. Students who do not complete the online placement form, or who are asked to consult with the advisor but fail to do so, will be removed from the course by the drop deadline.

### Study Abroad

The School of Languages, Linguistics, Literatures and Cultures encourages its students to take advantage of possibilities for studying off-campus, wherever one of its target languages is spoken. Detailed information on exchange programs and Study Abroad programs in Arabic, Chinese, French (in Quebec or elsewhere), German, Italian, Japanese, Russian, and Spanish is available from the School of Languages, Linguistics, Literatures and Cultures and/or University of Calgary International.

Students planning to study at another institution must obtain a letter of permission from their faculty. They are strongly advised to consult the School of Languages, Linguistics, Literatures and Cultures beforehand to discuss details concerning course selection and transfer of credit.

### Admissions

#### Program Admissions Information

#### Admission to the Major

Prospective students wishing to enter the BA Spanish Program must meet the criteria listed in section [A.5 Undergraduate Degree Admission Requirements](#) of this Calendar.

#### Admission to Honours in French, Language and Culture, Linguistics and Spanish

The Faculty of Arts procedures for Admission to Honours established in section [3.3.2 Honours Degrees](#) are applicable and provide the overall framework. Students wishing to apply to an Honours program must apply through their **Student Centre** for a change of program to Honours by February 1.

Programs in Earth Science can be taken in conjunction with Environmental Science, Geology, Applied and Environmental Geology or Geophysics with approval from the Faculty of Arts. Consent is required for Major-plus-Minor combinations, Double Majors, Combined Degrees and Second Baccalaureate Degrees.

**Additional Comments:**

## Overview

### General Program Information

## Contact Information

Website: [arts.ucalgary.ca/art-art-history/art-and-art-history-home](https://arts.ucalgary.ca/art-art-history/art-and-art-history-home)

## For Program Advice

Students should consult an undergraduate program advisor in the Arts Students' Centre for information and advice on their overall program requirements. Advising contact information can be found online: [arts.ucalgary.ca/advising](https://arts.ucalgary.ca/advising).

Students wishing to pursue the concurrent BFA (Visual Studies)/BEd degree program should also consult with an advisor at the Werklund School of Education. Advising contact information can be found online: [werklund.ucalgary.ca/educ\\_info/contact-us](https://werklund.ucalgary.ca/educ_info/contact-us).

## Introduction

The Department of Art is committed to the study and practice of the visual arts as these relate to:

- (a) Creative research in art practices (studio);
- (b) Critical study of art in its diverse historical and cultural settings (Art History);
- (c) Theory and practice of collecting, preserving, and exhibiting art and cultural objects (Museum and Heritage Studies); and
- (d) Educational practice and theory (Art Education).

The Department offers the four-year BFA and BFA Honours (Visual Studies) degree, the four year BA in Art History, and a five-year concurrent degree program with the Werklund School of Education, leading to the BFA (Visual Studies) and Bachelor of

## Education degrees.

Students in the four year BFA and BFA Honours (Visual Studies) are involved in creative research and visual art practices that engage with contemporary society. The courses of study enable the student to develop conceptual understanding in the visual arts, to develop a foundation of knowledge and practice of artistic self-sufficiency, to develop creative processes of planning in order to carry out their various studio interests, and to teach art in the elementary or secondary school systems or to work as art specialists in other settings. The program enables the individual student to determine through studio practice the understandings and insights that support their own artistic and intellectual development. The Honours degree in Visual Studies is an advanced undergraduate program for students seeking a more focused studio experience, aspiring to careers as practicing and professional artists, or considering further graduate level study in an MFA program. A high standard of creative achievement is required for admission, continuation, and completion.

Students in the BFA or BFA Honours (Visual Studies) may choose a Concentration in Art Education. A concentration in Art Education does not provide students with the credentials required to teach in the public school system in Alberta. It is meant to provide students with skills and knowledge that would prepare them to teach art in informal, community-based settings.

The Concurrent BFA in Visual Studies/Bachelor of Education (BFA/BEd) enables students to complete two degree options.

Students interested in teacher certification should pursue the concurrent degree program with the Werklund School of Education, which offers three years of study in the Visual Studies program and two years in the Bachelor of Education program.

Students enrolled in the BFA VIST or BFA VIST (Hon) have the option to include the Co-operative Education program. This program enables students to integrate relevant professional and work experience into their degree.

## Admissions

### Program Admissions Information

Prospective students wishing to enter the BFA in Visual Studies must meet the criteria listed in section [A.5 Undergraduate Degree Admission Requirements](#) of this Calendar.

Admission to the BFA (Visual Studies) program is contingent on the evaluation of a portfolio and statement of interest. For information about the portfolio submission process, see the Department of Art and Art History website at: [arts.ucalgary.ca/art-art-history/future-students/undergraduate/upload-your-portfolio](https://arts.ucalgary.ca/art-art-history/future-students/undergraduate/upload-your-portfolio).

## Admissions

### Program Admissions Information

#### Admission to the BFA in Visual Studies

Admission to the BFA (Visual Studies) program is contingent on the evaluation of a portfolio, which must be received by the department by February 1. For information about the portfolio submission process, see the Department of Art and Art History website: [arts.ucalgary.ca/art-art-history/future-students/undergraduate/upload-your-portfolio](https://arts.ucalgary.ca/art-art-history/future-students/undergraduate/upload-your-portfolio).

Prospective students must also meet the criteria listed in section [A.5 Undergraduate Degree Admission Requirements](#) of this Calendar.

#### Admission to BFA Honours

Students wishing to be considered for admission into BFA Honours in Visual Studies must have completed 75 units and must meet the criteria established by the Faculty of Arts in section [3.3.2 Honours Degrees](#).

The Faculty of Arts procedures for Admission to Honours established in section [3.3.2 Honours Degrees](#) are applicable and provide the overall framework.

Students majoring in Visual Studies are eligible to apply for Honours by the February 1 deadline only if they will complete the program during the following academic year. In addition to applying through the Student Centre for a change of program to Honours, students must submit a Letter of Intent and a portfolio of work to the Department of Art and Art History. Information on the supplemental components can be found on the Department of Art and Art History website. The department's application form must be signed by a thesis supervisor and include a preliminary thesis proposal. To meet the February 1 deadline, it is recommended that students wishing to enrol in the Honours program obtain guidelines and an application form from the Program Co-ordinator no later than December 1. Students are strongly advised to secure a thesis supervisor by December 15.

## Admissions

### Program Admissions Information

Application deadline is available on the Future Students [website](#).

In addition to Faculties of Graduate Studies and Arts [requirements](#), the Department requires:

- a) A minimum grade point average of 3.30 or higher on a four-point scale.
- b) An example of the applicant's written work: a term paper, research paper or other writing which the applicant considers representative of their best work.
- c) A concise statement outlining the applicant's academic interests and reasons for wishing to pursue graduate work in this Department. The thesis research area should be clearly identified.
- d) An up-to-date curriculum vitae.
- e) Two letters of reference.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements:

Candidates for the MA degree are normally required to complete a minimum of 12 units in Anthropology at the 600 level. At the discretion of the Graduate Studies Committee, students may be required to take a total of 15 units of course work in Anthropology. The following courses are required of all master's students:

[ANTH603 Thesis Development](#), [ANTH605 Prof Skills For Anthropologists](#), [ANTH611 Methods In Anth Research](#)

OR

[ANTH613 Issues Methodology & Primatology](#), [ANTH631 Anthropological Theory I](#), [ANTH635 Primatological Theory](#)

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make [advanced credit](#) requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to the required level for admission.

### Flexible Grade Option (CG Grade)

The program of Anthropology in the department of Anthropology and Archaeology will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the Anthropology Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Only where appropriate to a student's program may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses.

## Time Limit

Expected completion time is two years and maximum completion time is four years. See [G.D.6 Time Limits](#).

## Supervisory Assignments and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

A supervisor is assigned to each student upon entering the program.

## Thesis Examination

Final thesis oral examinations are open. In addition to the Faculty of Graduate Studies requirements for [Thesis Examinations](#), the Department requires:

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

### *Composition of the Committee*

The Internal Examiner must be external to the home program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

## Financial Assistance

Financial assistance in the form of research and teaching assistantships is available to qualified students. Information on awards can be obtained from the Department office or in the [Awards and Financial Assistance](#) section of this Calendar. All students are strongly encouraged to seek external financial assistance for the program, as the Department of Anthropology and Archaeology cannot guarantee the availability of financial assistance.

Students applying for the Graduate Awards Competition scholarships must submit their applications to the Department by January 25.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [antharky.ucalgary.ca](http://antharky.ucalgary.ca)

## Admissions

### Program Admissions Information

Application deadline is available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-](http://ucalgary.ca/future-students/graduate/explore-)

programs/anthropology-doctor-philosophy-thesis-based.

In addition to Faculties of Graduate Studies and Arts requirements, the Department requires:

- a) A minimum grade point average of 3.40 or higher on a four-point scale.
- b) Two letters of reference.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies requirements and Faculty of Arts requirements, the Department requires:

- a) A specialization of either primatology, or social and cultural anthropology.
- b) ANTH701 Independent Studies, a reading course in the student's substantive area. Beyond that, the supervisory committee will individually tailor each student's course requirements to the student's particular needs.
- c) For social and cultural anthropology, field work for a minimum of one year. Students in primatology will be required to collect primary data via experimental and/or observational research on wild or captive primate populations for a period of not less than twelve months. The amount of time required for field work for students who started their field work between 2019 and 2021 may be revised with the approval of the students' supervisory committee.
- d) Demonstrated proficiency in a language other than English. Normally, in the course of the doctoral program, competent faculty in other Departments will evaluate the student's linguistic competence, principally in reading and writing.

#### Additional Program Requirements

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make Advanced Credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to the required level for admission.

### Flexible Grade Option (CG)

The program of Anthropology in the department of Anthropology and Archaeology will not permit the Flexible Grade Option (CG Grade) for any course offered by the Anthropology Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Only where appropriate to a student's program may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses.

## Time Limits

Expected completion time is four years. Maximum completion time is six years.

### Supervisory Assignments and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

## Supervisory Assignments

A supervisor is assigned to each student upon entering the program.

## Candidacy

Doctoral students must complete a written thesis proposal, which will be evaluated by the supervisory committee. They must also pass oral and written Field of Study examinations and a second-language proficiency examination. For complete details of the candidacy requirements, see [antharky.ucalgary.ca/CandidacyRequirements](http://antharky.ucalgary.ca/CandidacyRequirements).

## Thesis Examination

Final thesis oral examinations are open. In addition to the Faculty of Graduate Studies requirements for [Thesis Examinations](#), the Department requires:

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner must be external to the home program.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

## Financial Assistance

Financial assistance in the form of research and teaching assistantships is available to qualified students. Information on awards can be obtained from the Department office or in the [Awards and Financial Assistance](#) section of this Calendar. All students are strongly encouraged to seek external financial assistance for the program, as the Department of Anthropology and Archaeology cannot guarantee the availability of financial assistance.

Students applying for the Graduate Awards Competition scholarships must submit their applications to the Department by January 25.

## Overview

### General Program Information

The Advanced Nursing Practice Graduate Certificates are continuous programs with no scheduled breaks. Students who do not enrol in courses continuously will be withdrawn from the program for failure to register unless they are on an approved leave of absence.

Also see: [GCERT Adva.](#)

#### Specializations:

- Addiction and Mental Health

## UCalgary

- Contemporary Topics in Aging
- Innovations in Teaching and Learning
- Leadership for Health System Transformation
- Healthcare Innovation and Design
- Palliative and End of Life Care
- Oncology Nursing
- Rural and Remote Nursing

Students must choose a different specialization in each of the two certificates.

---

### Laddered Certificate Pathway to the Master of Nursing

Students who successfully complete one specialization of the Certificate in Advanced Nursing Practice I and a different specialization of the Certificate in Advanced Nursing Practice II will be eligible to apply for admission into the Master of Nursing (course-based) degree and will receive credit for the 24 units of coursework completed. Applications must be received within two years of completion of the Certificate in Advanced Nursing Practice II.

---

Programs are delivered online.

---

Location: Professional Faculties Building, 2260D

Program number: 403.220.6241

Fax: 403.210.9637

Email address: <mailto:nursgrad@ucalgary.ca>

Web page URL: <http://nursing.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/nursing-certificate-course-based>.

The deadline to request a change in specialization is normally one week prior to students starting the Graduate Certificate in Advanced Nursing Practice I or Graduate Certificate in Advanced Nursing Practice II.

---

In addition to the Faculty of Graduate Studies' [admission requirements](#), all applicants must meet the following requirements:

a) A four-year Nursing or Psychiatric Nursing baccalaureate degree preferred.

Other bachelor's degrees from recognized institutions will be considered on an individual basis.

Degrees and grades from foreign institutions are evaluated for their equivalency to those of the University of Calgary.

b) Evidence of active nursing registration in Alberta through the College and Association of Registered Nurses of Alberta (CARNA) or active nursing registration in their province or territory of employment. Registered Psychiatric Nurses are expected to provide proof of active registration with the College of Registered Psychiatric Nurses of Alberta (CRPNA) or equivalent.

c) A minimum GPA of 3.00 (on the University of Calgary four-point system). This is based on the last two years of post-secondary study consisting of a minimum of 60 units.

d) In order of priority, preference will be given to applicants who:

Hold an active nursing registration in the Province of Alberta;

Hold an active nursing registration in a Canadian province or territory of employment;

International students\*.

e) For applicants required to provide proof of proficiency in English, submit a minimum TOEFL score of 97 (Internet-based test);

IELTS score of 7.0; PTE score of 68; or a CAEL overall score of 70 (no less than 70 on reading and writing sections). This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in writing courses.

**\*Note:** International students are eligible to apply for admission provided they meet the admission requirements and their local professional licensure requirements. However, they will not be eligible for a study permit as the program is delivered online and considered part-time.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to the Faculty of Graduate Studies' [requirements](#), the Faculty of Nursing requires, at minimum, successful completion of the following:

Each of the Graduate Certificates in Advanced Nursing Practice consist of 12 units of coursework. Course requirements are determined by the specialization.

##### Complete ANY of the following Course Sets:

- NURS GC Addiction Mental Health  
OR NURS GC Contemporary Topics in Aging  
OR NURS Innovations in Teaching and Learning  
OR NURS GC Leadership for Health System Transformation  
OR NURS GC Healthcare Innovation and Design  
OR NURS GC Palliative and End of Life Care  
OR NURS GC Oncology Nursing  
OR NURS GC Rural and Remote Nursing

Students must choose different specializations in each of the two certificates (i.e., a student cannot repeat the specialization that they completed in the first certificate when they enrol in the second certificate). Students can complete a maximum of two certificates.

##### Additional Comments:

Each student is expected to complete the online Academic Scholarly Writing and Academic Integrity modules within the first two weeks of the program.

All courses in this program require students to attend instructor-led Connect Days, which are delivered online at scheduled dates and times (as listed in course outline). Students who do not attend Connect Days will normally be withdrawn from the associated course.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

#### Advanced Credit

Not given.

#### Flexible Grade Option (CG Grade)

The Faculty of Nursing will not permit the **Flexible Grade Option (CG Grade)** for any course offered by the Faculty.

Students may choose the CG grade in a course taken extra-to-load.

The use of the CG grade will not affect students' ability for internal awards.

## Time Limits

The expected completion time for each graduate certificate is 12 months. The maximum completion time for each graduate certificate is 2 years.

## Supervisory Assignments

No supervisor will be assigned for the Graduate Certificates in Advanced Nursing Practice I and II.

## Financial Assistance

### Type

### Program Admissions Information

The deadline for the submission of complete applications is available on the Future Students website:

<http://www.ucalgary.ca/future-students/graduate/explore-programs/archaeology-master-arts-thesis-based>

In addition to Faculties of Graduate Studies and Arts **admission requirements**, the Department requires:

- a) A specimen of relevant written work (an honours essay, term paper, or seminar essay bearing the grade and initials of the supervising professor, the analysis chapter of a Master of Arts thesis or a published article where the applicant is the sole or senior author).
- b) A concise statement setting forth the reasons for wishing to pursue graduate work in this department.
- c) An up-to-date curriculum vitae.
- d) A 3.30 grade point average in the last two years of program or over the last 60 units.
- e) Two letters of reference from individuals able to evaluate academic potential.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to Faculty of Graduate Studies **requirements** and Faculty of Arts requirements, the Department requires:

a) Normally, 12 units including one of the following, as determined by the student's evaluation committee: **ARKY615 Topics in Arky Theory & Method** or **ARKY617 Theory & its Appl in Biol Anth.**

b) Two courses, which may include: **ANTH605 Prof Skills ForAnthropologists**, **ARKY601 Theoretical Foundations**, a course in human osteology, or other courses as determined by the student's evaluation committee.

Complete at least 1 of the following courses:

- ARKY625 - Hunter-Gatherer Adaptations  
**OR** ARKY627 - Origins Of Agriculture  
**OR** ARKY631 - The Development of Complex Societies  
**OR** ARKY633 - Specialized Analyses of Archaeological Materials  
**OR** ARKY635 - Social Identity

d) A season of field work or the equivalent.

#### Additional Comments:

### Additional Requirements

During the first two weeks in program, each student will undergo an evaluation. This is not an examination but an assessment of academic background. The specific regulations and procedures covering evaluations and examinations are on file in the Department Office and are available to students. It is the responsibility of every student to become familiar with these regulations.

Field work may be counted towards fulfillment of the full-time study and research requirement.

#### Additional Program Information

##### Type

Completion Requirement

**Additional Comments:**

### **Advanced Credit**

The Department does not normally give advanced credit.

### **Flexible Grade Options (CG Grade)**

The program of Archaeology in the department of Anthropology and Archaeology will not permit the Flexible Grade Option (CG Grade) for any course offered by the Archaeology Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### **Credit for Undergraduate Courses**

Normally only courses at the 500 level or higher may be taken for credit toward a graduate program. No more than two courses may be at the 500 level.

### **Time Limits**

Expected completion time is two years. Maximum completion time is four years.

### **Supervisory Assignments and Required Examinations**

#### **Type**

Completion Requirement

**Additional Comments:**

### **Supervisory Assignments**

The Department assigns an interim advisor to each student upon arrival. At any time before the end of the first year of studies, each student must select a faculty member to serve as supervisor. The interim advisor may become the supervisor.

Doctoral supervisory committees may be appointed at any time during the first year of studies, but no later than three months after the appointment of the supervisor. The supervisor, in consultation with the student, selects the committee.

### **Thesis Examination**

Final thesis oral examinations are open.

In addition to the Faculty of Graduate Studies requirements for Thesis Examinations, the Department requires:

#### *Scheduling of the Examination*

All members of the supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner must be external to the home program.

### **Financial Assistance**

#### **Type**

Completion Requirement

**Additional Comments:**

Financial assistance in the form of research and teaching assistantships may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar.

Students applying for Graduate Award Competition scholarships must submit their applications to the Department by January 25.

Funding is provided to students so that they can concentrate on their courses and research. Therefore, a graduate student is not allowed to work for more than 15 hours a week while holding departmental funding. Failure to abide by this policy will result in a decrease in or cancellation of departmental funding.

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department requires:

- Normally, 18 units in Archaeology.
- For those without a Master of Arts degree, normally 24 units.

Note: The number of courses required of each student may vary according to each student's particular needs as determined by the supervisory committee.

- Unless previously satisfied, [ARKY601 Theoretical Foundations](#) and one of the following: [ARKY615 Topics in Arky Theory & Method](#) [ARKY617 Theory & its Appl in Biol Anth.](#)

d) Two of: Archaeology [ARKY625 Hunter-Gatherer Adaptations](#), [ARKY627 Origins Of Agriculture](#), [ARKY631 The Dev of Complex Societies](#), [ARKY633 Spec Analyses Arky Materials](#), [ARKY635 Social Identity](#).

e) [ANTH605 Prof Skills For Anthropologists](#) or its equivalent.

Other courses will be required as determined by the student's evaluation committee.

f) A research proposal approved by a committee consisting minimally of three members of the student's supervisory committee, and by the Graduate Program Director. This must be submitted within twenty months of entering the program.

g) A reading ability in a foreign language acceptable to the Department. The student's supervisory committee will decide the manner of demonstrating this ability.

Requirements (a) through (g) must be completed before sitting the written and oral components of the candidacy examination.

h) Normally, two seasons of field work. However, students specializing in laboratory-based topics, like physical anthropology, may substitute an approved program of laboratory work for one of the field work seasons. Students specializing in laboratory-based topics, like physical anthropology, who started their field work between 2019 and 2021 may substitute one or more field work seasons with the approval of their supervisory committee.

During the first two weeks in program, each student will undergo an evaluation. This is not an examination but an assessment of academic background. The specific regulations and procedures covering evaluations and examinations are on file in the Department Office and are available to students. It is the responsibility of every student to become familiar with these regulations.

## Overview

### General Program Information

Students applying for the MFA degree offered by the Department of Art may choose to identify one of the following formal specializations:

# UCalgary

Specializations:

## Specializations:

- Sculpture
- Printmaking
- Photography
- Painting
- Drawing
- Media Art and Technology

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [art.ucalgary.ca/graduate](http://art.ucalgary.ca/graduate)

## Admissions

### Program Admissions Information

Application deadline is available on the Future Students website at <http://ucalgary.ca/future-students/graduate/explore-programs/art-master-fine-arts-thesis-based>.

In addition to Faculties of Graduate Studies and Arts [requirements](#), the Department requires:

- A four-year Bachelor of Fine Arts degree or equivalent qualification.
- A portfolio of 20 images of recent work submitted as a single PDF file. Up to five minutes of video documentation may be submitted as links within this document.
- A written statement (no more than 1000 words) of research intent.
- Two reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

The program core for all Master of Fine Arts students is a minimum of 24 units. Within the first twelve months of the program each student must complete 6 units of 600-level studio course; 6 units of 600-level graduate seminar and Art 605. Three units of 600-level graduate seminar and 6 units of 600-level studio course must be completed in the second twelve months of the program. In some circumstances, the Department may require a student to complete more than the mandatory 24 units.

Typical course sequence is the following:

Year 1:

#### Complete ALL of the following Courses:

- ART605 - Critical Study and Research  
**AND** ART609 - Art Theory and Criticism  
**AND** ART611 - Research Methods in Art  
**AND** ART661.01 - Advanced Studio Practice I  
**AND** ART661.02 - Advanced Studio Practice II

Year 2:

**Complete ALL of the following Courses:**

- ARHI615 - Conference Course in Art History  
**AND** ART661.03 - Advanced Studio Practice III  
**AND** ART661.04 - Advanced Studio Practice IV

**Additional Comments:**

#### **Additional Program Requirements**

##### **Type**

Completion Requirement

**Additional Comments:**

#### **Flexible Grade Option (CG Grade)**

The department of Art will not permit the Flexible Grade Option (CG Grade) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

#### **Time Limit**

Expected completion time for the Master of Fine Arts degree is two years. Maximum completion time is four years.

#### **Supervisory Assignments and Required Examinations**

##### **Type**

Completion Requirement

**Additional Comments:**

#### **Supervisory Assignments**

Each new student is assigned an interim advisor to assist in the planning of the academic program and in orienting the student to the Department's physical and academic resources. A permanent supervisor is appointed by January 1 of the first academic year of registration. The approval of a permanent supervisor, by the Graduate Program Director, is made after consultation with the student. Supervisors work closely with students in all phases of the program; they have the principal responsibility in assessing the student's performance, and advising the Department Head of the student's progress.

Once the student has finalized the choice of a supervisor, a supervisory committee is struck. It will normally consist of the supervisor and one internal or external member. If the student has a co-supervisor, then one additional member is still required. See Supervision for more information.

#### **Required Examinations**

##### **Thesis Examination**

Final thesis oral examinations are open. In addition to the Faculty of Graduate Studies requirements for Thesis Examinations, the Department requires:

##### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

##### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards see the [Awards and Financial Assistance](#) section of this calendar.

Students applying for scholarships must submit their applications to the Department of Art by January 15.

## Overview

### General Program Information

**Graduate Certificates in Social Work** serve as stand-alone credentials for practicing social workers who seek formal professional development opportunities in their field or provide practicing social workers a flexible option to pursue the MSW degree.

Students may complete a given certificate only once. Repeating the same certificate is not permitted. Not all Graduate Certificates and specializations are offered every year. For availability, consult the Faculty of Social Work [website](#).

### Program Delivery

The certificates are completed full-time and courses are offered by distance (online) learning. Most require virtual and/or in-person residencies in Calgary or Edmonton. Failure to attend residencies may result in a student being withdrawn from the course(s) or program.

Note: International students admitted to a Graduate Certificate with a mandatory in-person campus residency must present a valid study permit approval letter and/or study permit to Student Services in the Faculty of Social Work prior to the start of the program.

### Laddered Pathway from Graduate Certificates to MSW

Students who complete the Graduate Certificate in Advanced Social Work Practice (ASWP) and one of: **GCERT Clin**, **GCERT Inte** or **Social Wor** may apply to the Master of Social Work (course-based) program. See [LADMSWCB](#).

Email address: <mailto:fsw.studentservices@ucalgary.ca>

Web page URL: <https://socialwork.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadlines are available on the Future Students webpage at <https://grad.ucalgary.ca/future-students/explore-programs/social-work-msw-course>.

Students who wish to complete two successive certificates through a laddered pathway into the MSW (course-based) degree must apply to each certificate and the MSW (a total of three applications) and will receive each credential upon its successful completion.

In addition to the Faculty of Graduate Studies' [admission](#) requirements, the Faculty of Social Work requires:

a) A Bachelor of Social Work (BSW) degree from an accredited/recognized\* institution. The degree must be awarded prior to the start of the Graduate Certificate.

*\*The Faculty of Social Work recognizes BSW and BISW degrees accredited by the Canadian Association for Social Work Education (CASWE), the Council of Social Work Education (CSWE), and international credentials deemed equivalent to a Canadian BSW degree by the Canadian*

*Association of Social Workers (CASW).*

b) A minimum GPA of 3.00 (on the University of Calgary four-point system). This is based on the last two years of the undergraduate degree consisting of a minimum of 60 units.

c) The equivalent of two years of full-time paid work or a minimum of 3000 hours of paid and/or volunteer work in the human services field.

d) For applicants required to present proof of proficiency in English: a minimum TOEFL score of 97 (Internet-based test with no section less than 20); IELTS score of 7.0 (Academic version with no section less than 6.0); a CAEL score of 70 (70 in writing and speaking; 60 in reading and listening); or a PTE with a minimum score of 68 (Academic version). This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in academic writing and oral communication courses and "B+" in other courses.

**Note:** Once admitted, students are not permitted to switch specializations within the chosen certificate. Requests to defer an offer of admission are not normally considered.

Access to an electronic device, such as a tablet or computer, is necessary.

#### Additional Comments:

### Advanced Credit

[Advanced Credit](#) is not awarded toward a graduate certificate.

### Flexible Grade Option (CG Grade)

The Faculty of Social Work will allow students in the Graduate Certificates in Social Work to pursue the [Flexible Grade Option \(CG Grade\)](#) for graduate courses offered by the Faculty. Students may receive a grade of CG only once, for a total of 3 units, regardless of the number of graduate certificates they complete. In addition, students may receive a grade of CG only once throughout the entire ladder pathway.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Concurrent Program Enrolment

Students in this program may not concurrently pursue a certificate, diploma or the final step of a ladder pathway Master's

degree as outlined in section [G.D.1.3 Concurrent Program Enrolment](#).

## Withdrawal

Students who are required to withdraw from the program for academic reasons will not be subsequently admitted to any graduate program offered by the Faculty of Social Work.

## Time Limit

The expected completion time is eight months for any of the graduate certificates. Maximum completion time is two years.

Students taking graduate certificates as part of the laddered pathway to the MSW (course-based) degree program must apply to ladder into the MSW within five years from the start of their first graduate certificate in the laddering sequence.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Students enrolled in a Graduate Certificate in Social Work are not eligible for University of Calgary awards administered through the Graduate Awards Competition but may be eligible for program recommended awards. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

The DBA is a full-time, doctoral program that allows senior-level professionals to complete the degree while continuing their career. The program provides flexibility, with in-person learning complimented with online learning sessions. It combines graduate-level courses with a rigorous research component, including a thesis, based on independent inquiry developed under the guidance of a supervisor assigned during the first 12 months of the program.

Location: Scurfield Hall, Room 333

Phone: 403.220.5685

Email address: [dbarequest@haskayne.ucalgary.ca](mailto:dbarequest@haskayne.ucalgary.ca)

Web page URL: <https://haskayne.ucalgary.ca/programs/dba>

## Admissions

### Program Admissions Information

See the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/management-dba>.

In addition to the Faculty of Graduate Studies requirements for [Admission](#), the program requires:

- a) At least 10 years of management experience, including seven years at the senior management or executive level, or at least five years' experience as lecturer/instructor in a relevant field in a college or university program.
- b) A post-baccalaureate degree (e.g., MBA or relevant business-focused Master's degree) from a recognized institution with a minimum grade point average of 3.50 on a four-point scale. Students presenting credentials in an area other than business may be required to complete a qualifying period to gain a general business background before beginning the regular doctoral course requirements.

- c) Students who do not present an MBA or other master's degree from a recognized postsecondary institution may be considered for admission. Exceptional candidates with a four-year bachelor's degree (i.e, a GPA of 3.50 or higher) who have substantial managerial experience will also be considered. Consult the DBA Program Director for further information.
- d) For those students required to prove proficiency in English, a minimum TOEFL score of 105 (Internet-based test), or a minimum IELTS Academic score of 7.5, or a minimum CAEL score of 70 with a minimum of 70 in each component, or a minimum PTE score of 75. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.
- e) Current CV.
- f) Three reference letters from professionals or academics who are knowledgeable about the applicant's career. References from personal friends or relatives will not be accepted.
- g) Completion of a series of essays including a personal statement outlining objectives, intent and commitment to a research program. Additional details can be found [here](#).
- h) Availability of a research-active supervisor and resources for the area in which the student wishes to study.

### Admission Deposit

Successful applicants will be required to confirm their acceptance of an offer of admission into the DBA program with an online non-refundable deposit of \$3,000.

The deposit will be credited toward tuition fees upon registration.

### Program Details

#### Simple Requisites

##### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the Faculty of Graduate Studies [requirements](#), the program requires a minimum of 24 units. Twenty-one of these are from seven core courses required of all students. In addition, students fulfill 3 units from one elective course. Typically, students will complete the minimum of 24 units over the first 18 months of the program.

a) 21 units of core courses:

##### Complete ALL of the following Courses:

- MGST703 - Philosophy of Science for Business Administration  
**AND** MGST705 - Introduction to Research  
**AND** MGST707 - Research Development and Design  
**AND** MGST709 - Qualitative Research Methods  
**AND** MGST711 - Quantitative Design and Analysis  
**AND** MGST714 - Engaged Scholarship and the Use of Evidence  
**AND** SGMA707 - Advanced Strategic Management Tools

b) 3 units chosen from:

##### Earn at least 3 credits from the following:

- MGST746 - Topics in Business Management  
**OR** MGST748 - Topics in Advanced Business Management

##### Additional Comments:

Attendance at an orientation session is expected for all incoming DBA students.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

Advanced Credit may be given on a case-by-case basis, with approval of the DBA Director.

### Flexible Grade Option (CG Grade)

Students admitted to the Doctor of Business Administration program will not be allowed to request the Flexible Grade Option (CG Grade) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Time Limit

Typically, students are expected to complete the degree in four years. Students have a maximum of six years from the start of their program to complete all degree requirements.

#### Supervisory Assignments and Required Examinations

##### Type

Completion Requirement

##### Additional Comments:

### Supervisory Assignments

Doctoral students are required to have secured a permanent supervisor within the first 12 months of their program. A supervisory committee reflective of the student's research interests is required within three months after the permanent supervisor has been approved.

### Required Examinations

#### Candidacy

To be admitted to candidacy, doctoral students must successfully complete a written field of study examination and an oral examination on the thesis proposal. For complete details of the candidacy requirements, see the DBA Candidacy Requirements document at <https://haskayne.ucalgary.ca/sites/default/files/DBA/DBA-Curriculum.pdf>.

Students whose research involves human subjects must receive approval from the Haskayne School of Business and from the University of Calgary Conjoint Faculties Research Ethics Board before beginning data collection.

### Thesis Examination

Students will complete an oral thesis examination at the end of their program. The student presentation portion of the thesis examination is public. In addition to the Faculty of Graduate Studies requirements for Thesis Examinations, the program requires:

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

## Overview

### General Program Information

The University offers an interdisciplinary specialization in Biological Anthropology to students registered in an existing graduate program. The student will receive the degree offered by the home program:

- Doctor of Philosophy (PhD)
- Master of Science (MSc), thesis-based
- Master of Arts (MA), thesis-based

Given the limited resources, the specialization may, in any year, admit fewer applicants than those who are qualified to undertake graduate studies.

---

Location: Earth Sciences 852

Program number: 403.220.2665

Fax: 403.282.9562

Email address: <mailto:wwilson@ucalgary.ca>

Web page URL: <https://arts.ucalgary.ca/anthropology-archaeology/future-students/graduate/programs/biological-anthropology>

## Admissions

### Program Admissions Information

The deadlines for the submission of complete applications is January 15 for September admission and funding.

---

In addition to Faculty of Graduate Studies [admission](#) requirements, all applicants must meet the minimum standards of the home program. Admission to the specialization requires:

- a) A Bachelor of Arts or Bachelor of Science degree (and Master of Arts degree for admission to the PhD program) in Anthropology, Archaeology, Biology, Zoology, Ecology, or Health Sciences with a GPA of at least 3.30 on a four-point scale in the last two years of program or over the last 60 units.
- b) An example of the applicant's written work: a term paper, research paper, Master of Arts, or honours thesis that the applicant considers representative of their best work. Published work authored by the applicant is also acceptable provided the applicant is the sole or senior author.
- c) A concise statement setting forth the applicant's academic interests and reasons for wishing to pursue graduate work in the specialization. The area of thesis research should also be specified.
- d) An up-to-date curriculum vitae.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies ([see regulations](#)) and the home program requirements, the Specialization requires:

### Master of Arts / Master of Science

- a) Fifteen units, which shall include:

- [ARKY617 Theory & its Appl in Biol Anth](#)

- [ANTH603 Thesis Development](#)
- Any two of the following: [MDSC755 Directed Study](#), [ARKY613 AnalysisOfHumanSkeletalRemain](#), [ANTH635 Primatological Theory](#), [ANTH605 Prof Skills ForAnthropologists](#), or [ANTH613 IssuesMethodology&Primatology](#)

b) One optional course relevant to the proposed research topic.

c) All students are expected to have proficiency in statistics. The supervisor and two other faculty members of the specialization, in concert with the applicant, will determine if additional course work is needed in statistics, depending upon the applicant's background and proposed research area.

d) A season of field work offering appropriate experience for the proposed research (for example, primate field study, archaeological excavation, or field research in human biology), to be approved by the supervisor. However, students specializing in laboratory-based topics (for example, morphological studies or bone chemistry) may substitute an approved program of laboratory work for the field work requirement.

## Doctor of Philosophy

a) Course Requirements:

If students entering the PhD specialization have completed the master's specialization in Biological Anthropology, or if they have completed equivalent courses in another master's program, they will not be required to repeat those courses. Rather, additional courses will be determined at the discretion of the student's supervisory committee. Normally, 18 units, which shall include (unless completed previously):

- [ARKY617 Theory & its Appl in Biol Anth](#)
- [ANTH701 Independent Studies](#)
- Any two of the following: [MDSC755 Directed Study](#), [ARKY613 AnalysisOfHumanSkeletalRemain](#), [ANTH635 Primatological Theory](#), [ANTH605 Prof Skills ForAnthropologists](#), or [ANTH613 IssuesMethodology&Primatology](#)
- Two courses relevant to the proposed research topic

The number of courses required of each student may vary according to their particular needs as determined by the Supervisory Committee. Statistics will be required in the event the student's committee deems it necessary. The courses will be selected based on the student's previous statistics training and the type of data analyses to be conducted in the research.

b) Two seasons of fieldwork offering appropriate experience for the proposed research topic (for example, primate field study, archaeological excavation, or field research in human biology), to be approved by the supervisor. Fieldwork may have been undertaken before entry into the specialization and may be counted toward the fieldwork requirement. Students specializing in laboratory-based topics (for example, morphological studies or bone chemistry) may substitute an approved specialization of laboratory work for the fieldwork requirement.

c) Submission to the supervisory committee of a paper that demonstrates an ability to research and write a paper at a professional level.

d) Proficiency in a second language.

## Additional Program Information

### Type

Completion Requirement

### Additional Comments:

## Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

## Credit for Undergraduate Courses

Students may apply for no more than one 500-level course for graduate credit, subject to the approval of the Program Director. Graduate students taking a 500-level course for graduate credit will be required to complete additional assignments.

## Time Limit

Expected completion time for the MA and MSc is two years and maximum completion time is four years.

Expected completion time for the PhD is four years and maximum completion time is six years.

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

Students will be assigned a supervisor upon admission.

## Research Proposal Requirements

Within twenty months of entering the program, the student, with the supervisor's advice, develops a thesis research proposal. This is then transmitted to the student's supervisory committee for agreement and to the Graduate Program Director of the student's home program for approval and placed on file.

## Required Examinations

Final thesis oral examinations are open.

## Oral Candidacy Examinations

Following the completion of all course work, the research paper and the language requirement, doctoral students sit the Candidacy Examination. In the Biological Anthropology Graduate Specialization, the Candidacy Examination consists of two parts in sequence, as follows: (1) a written component and (2) an oral component.

The oral candidacy examination is required by University regulations and must be held no later than twenty-eight months following initial registration as a full-time graduate student in a PhD program. Students entering the doctoral program with a bachelor's degree, or transferring into a doctoral program from a master's program before the master's program is completed, must attempt the candidacy examinations no later than 36 months after initial registration in the Faculty of Graduate Studies.

The Candidacy Examination in the Biological Anthropology Graduate Specialization consists of a written plus an oral examination administered by the Candidacy Examination Committee, composed of the Supervisory Committee plus two additional members, one of whom must be external to the Specialization if the External is not already a member of the Supervisory Committee.

The Candidacy Examination is an examination of the student's knowledge and abilities to reason, utilize the relevant literature, and to solve problems within the three fields or areas which have been set out.

In consultation with the student, the Supervisory Committee will determine three areas of knowledge for which the student will be responsible in their Candidacy Examination. These topics will be communicated (in writing) to the student, with copies to other members of the Supervisory Committee.

These topics will also be communicated to the two other members of the Candidacy Examination Committee, who must be selected no later than eight weeks prior to the oral examination.

Members of the Candidacy Examination Committee will each submit one or two questions, so that there are at least two questions within each of the three areas. The supervisor will select six questions from those submitted, and provide them to the student at least five weeks prior to the Oral Candidacy Examination. The student will select one question from each of the three areas for a total of three questions. The student will have two weeks in which to prepare answers to these questions as a take-home, open-book exam. Each answer should be approximately 6000 words. Copies of the completed examination will be distributed to all members of the Examination Committee. The Committee will assess the written exam on a Pass/Fail basis. The oral examination is conducted in accordance with Faculty of Graduate Studies regulations.

In the oral component of the Candidacy Examination, the written examinations will serve as the basis from which the examination shall proceed, but examiners are not limited to the written component in framing the questions asked, and questioning may range into cognate areas, at the discretion of the Neutral Chair.

Students must pass both the written and oral exams in order to pass the candidacy exam.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for scholarships must submit their applications to the home program by January 2.

## Overview

### General Program Information

Students can complete the Haskayne MBA through full-time study either through the daytime or the evening.

### MBA Specializations:

- Business Intelligence and Data Analytics
- Entrepreneurship and Innovation
- Finance
- Global Energy Management and Sustainable Development
- Management Analytics
- Marketing
- Project Management
- Real Estate Studies

Location: Mathison Hall, Room 424

MBA Program: 403.220.3808

Fax: 403.282.0095

Email address: <mailto:mbarequest@haskayne.ucalgary.ca>

Web page URL: <https://haskayne.ucalgary.ca/future-students/mba-programs>

## Admissions

### Program Admissions Information

Admission deadlines are available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/management-master-business-administration-course-based>.

In addition to the Faculty of Graduate Studies requirements for [admission](#), the program requires:

a) A current résumé.

b) A 250-word response to each of two questions provided as part of the application process.

c) For applicants required to prove present proficiency in English, a minimum TOEFL (Internet-based) score of 97 with no section less than 20 (Internet-based test), or an IELTS score of 7.0 with no section less than 6.0 or a CAEL overall score of 70. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum overall grade of "A-".

## UCalgary

d) The Graduate Management Admission Test (GMAT) is only required for applicants with a degree (from an institution outside of Canada or the United States) with a recommended minimum score of 550 or an equivalent Graduate Record Examination (GRE) score.

Applicants with a degree from an institution in Canada or the United States with a grade point average (GPA) of at least 3.0 on a four-point scale are exempt from submitting a GMAT score. An applicant who has completed a bachelor's degree from an institution in Canada or the United States with a GPA from 2.50 to 2.99, and chooses to submit a GMAT score, may be admitted to an MBA course-based program as a regular student on the basis of the following equivalent achievement score:  $[(\text{GPA} \times 200) + \text{GMAT}] \geq 1150$ .

*\*Consult the Haskayne School of Business about the Graduate Management Admission Test.*

e) Two reference letters.

f) For the course-based Day and Evening MBA program only, the equivalent of at least 2 years of appropriate work experience.

g) Applicants may be required to participate in an interview.

### Admission Deposit

Successful applicants will be required to confirm their acceptance of an offer of admission into the MBA program with an online non-refundable deposit:

Daytime MBA: \$3,000

Evening MBA: \$3,000

Accelerated MBA: \$3,000

The deposit will be credited toward tuition fees upon registration.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the requirements of the Faculty of Graduate Studies, the Haskayne School of Business requires:

The MBA degree normally consists of 60 units. Students may be granted exemption from required courses based upon prior academic preparation and with the approval of the Graduate Director (MBA Program). Students must complete a minimum of 45 units, of which a maximum of 15 units may be transfer credit from another recognized graduate program, for the MBA degree.

Students who have completed a recognized/accredited four-year BComm degree within the last 10 years may be granted course exemption from 27 units and required to complete a minimum of 33 units for the MBA degree, of which 3 units may be transfer credit from another recognized graduate program.

For students approved for a BComm exemption, requirements normally will be:

**Complete ALL of the following Courses:**

- ENTI601 - Entrepreneurial Thinking  
**AND** OBHR621 - Advanced Leadership
- MGST615 - Strategic Business Analysis  
**OR** ENTI623 - Creative Destruction Lab - Rockies

plus:

- 24 units of elective courses.

#### Specializations

Students must complete 18 units of additional courses beyond the required courses. Within these 18 units, students may select an area of specialization normally consisting of 12 units. Specialization requirements are as follows:

**Complete ANY of the following Requirement Sets:**

- MBA, Business Intelligence and Data Analytics Specialization
- MBA, Entrepreneurship and Innovation
- MBA, Finance
- MBA, Global Energy Management and Sustainable Development
- MBA, Management Analytics
- MBA, Marketing
- MBA, Project Management
- MBA, Real Estate Studies

Students who elect not to choose an area of specialization may choose instead from various graduate courses offered by the Haskayne School of Business. Subject to the approval of the Graduate Director (MBA Program) and the Faculty of Graduate Studies, graduate courses offered at the University of Calgary outside the Haskayne School of Business may also be taken.

**Additional Comments:**

**Additional Program Information**

**Type**

Completion Requirement

**Additional Comments:**

### Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process to the MBA program. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

Students admitted to the MBA (course-based) program, Executive MBA program or Executive MBA Specializing in Global Energy program will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Time Limit

The day MBA option normally takes 20 months to complete (from first registration), while the evening option normally takes three years. Maximum time limit: six years.

**Financial Assistance**

**Type**

Completion Requirement

**Additional Comments:**

Financial assistance may be available to qualified students. For information on awards, please see the [Awards and Financial Assistance](#) section of this Calendar.

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/biological-sciences-master-science-thesis-based>.

In addition to the Faculty of Graduate Studies **admission** requirements and the Faculty of Science requirements, the Department requires:

- a) A minimum grade point average of 3.20 on a four-point scale during the last two full years or equivalent.
- b) For students required to provide proof of proficiency in English: a minimum TOEFL score of 105 (Internet-based test); an IELTS score of 7.5; a CAEL score of 70 (with a minimum of 70 in each component); a Duolingo score of 145 (with no subscore below

125); or a Cambridge Proficiency score of 105. This requirement can also be met by completing the Academic Communication Certificate (<https://ucalgary.ca/esl/acc>) with a minimum grade of "A-" in each course.

- c) A concise statement outlining the applicant's research interests and reasons for wishing to attend the University of Calgary.
- d) Three academic reference letters and the required reference form.

Exceptional students may apply to a PhD program without an MSc recognized by the Faculty of Graduate Studies. In such cases, requirements in addition to those outlined above include: a four-year BSc or equivalent degree from a recognized institution with a minimum GPA of 3.60 (four-point scale) during the last two full years; and a full-year research project with a minimum grade of 3.70.

Transfer from a MSc to a PhD program is allowed for students who have successfully completed all courses required for the MSc degree, and who have demonstrated outstanding research ability and potential to their Supervisory Committee. Normally, evidence of this ability will include, but not be limited to, a grade point average of 3.60 for the courses completed during the MSc program.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the Faculty of Graduate Studies [requirements](#) and the Faculty of Science requirements, the Department requires:

- a) Completion of a minimum of 6 units for both the Master of Science and doctoral programs. Students transferring from the MSc program to the PhD program will be required to take a minimum of 3 units in addition to work already completed. Please note that graduate courses must be chosen in consultation with the supervisor and approved by the Graduate Program Director. Course requirements may include courses offered by other Departments.
- b) Completion of the appropriate number of **Biology 601** Research Seminar courses in addition to (a) above.
- c) Presentation of a Departmental Pre-Defence seminar on the results of the thesis research.

#### Transfer from the Master of Science to the doctoral program

A request to transfer from the Master of Science program to the doctoral program may be made no later than twenty-four months after initial registration. Students who transfer will be required to take one additional 3-unit course, regardless of course work completed before the transfer, and are expected to meet the 36-month deadline for completion of candidacy requirements.

#### Additional Comments:

#### Additional Program Information

##### Type

##### Completion Requirement

#### Additional Comments:

### Flexible Grade Option (CG Grade)

Students admitted to the Department of Biological Sciences will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

At least one-half of a graduate student's coursework must be at the 600 level or higher.

Only when appropriate to a student's program may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses. Courses below the 500 level will not be accepted for graduate credit.

## Time Limit

Expected completion time is two years for the Master of Science degree. Maximum completion time is four years.

### Supervisory Assignments, Research Proposal and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

Applicants must contact faculty members directly regarding supervision of their graduate program, prior to submitting an application. The Department does not accept students unless at least one faculty member has indicated a willingness to act as supervisor. For the MSc program, the supervisor, in consultation with the student, selects a Supervisory Committee consisting of the supervisor and at least two other faculty members whose research experience will be beneficial to the student's graduate program.

### Research Proposal

Master of Science students must present a written research proposal to their supervisory committee no later than six months after initial registration in program.

### Thesis Examinations

Final Thesis Examinations are required at both the Master of Science and doctoral level. In addition to the Faculty of Graduate Studies [regulations](#), the Department has the following requirements:

A public "Exit" Seminar preceding the examination is required.

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner must be external to the home program.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for the Open Scholarship Competition must submit their scholarship applications to the Department of Biological Sciences by the appropriate deadline. Please contact <mailto:sci.grad@ucalgary.ca> for further information.

-----------------------------

## Type

Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Science requirements, the Department requires:

- a) Completion of a minimum of 6 units for both the Master of Science and doctoral programs. Students transferring from the MSc program to the PhD program will be required to take a minimum of 3 units in addition to work already completed. Please note that graduate courses must be chosen in consultation with the supervisor and approved by the Graduate Program Director. Course requirements may include courses offered by other Departments.
- b) Completion of the appropriate number of Biology 601 Research Seminar courses in addition to (a) above.
- c) Presentation of a Departmental Pre-Defence seminar on the results of the thesis research.

Transfer from the Master of Science to the doctoral program

A request to transfer from the Master of Science program to the doctoral program may be made no later than twenty-four months after initial registration. Students who transfer will be required to take one additional 3-unit course, regardless of course work completed before the transfer, and are expected to meet the 36-month deadline for completion of candidacy requirements.

## Additional Comments:

## Additional Program Information

### Type

Completion Requirement

## Additional Comments:

## Flexible Grade Option (CG Grade)

Students admitted to the Department of Biological Sciences will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

At least one-half of a graduate student's coursework must be at the 600 level or higher.

Only when appropriate to a student's program may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses. Courses below the 500 level will not be accepted for graduate credit.

## Time Limit

Expected completion time is four years for the Doctor of Philosophy degree. Maximum completion time is six years.

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

## Additional Comments:

## Supervisory Assignments

Applicants must contact faculty members directly regarding supervision of their graduate program, prior to submitting an application. The Department does not accept students unless at least one faculty member has indicated a willingness to act as supervisor. For the PhD program, the supervisor, in consultation with the student, selects a Supervisory Committee consisting

of the supervisor and at least two other faculty members whose research experience will be beneficial to the student's graduate program.

## Research Proposal

Doctoral students must complete a written thesis proposal no later than twelve months after initial registration in the program. The proposal will be evaluated in a supervisory committee meeting. See [handbook](#) for further information about the proposal requirements and evaluation process.

## Required Examinations

### Candidacy

Doctoral students must pass oral and written Field of Study examinations. For complete details of the examination format and other candidacy requirements, see [handbook](#).

### Thesis Examinations

Final Thesis Examinations are required at both the Master of Science and doctoral level. In addition to the Faculty of Graduate Studies [regulations](#), the Department has the following requirements:

A public "Exit" Seminar preceding the examination is required.

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner must be external to the home program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for the Open Scholarship Competition must submit their scholarship applications to the Department of Biological Sciences by the appropriate deadline. Please contact <mailto:sci.grad@ucalgary.ca> for further information.

## Overview

### General Program Information

The University offers an interdisciplinary specialization in Biostatistics at the master's and doctoral levels through the following Faculties and graduate programs:

- Cumming School of Medicine; Community Health Sciences
- Faculty of Science; Mathematics and Statistics

The student will receive the degree offered by the home program:

- [MTSTMSCT](#)
- [MDCHMSCT](#)
- [MTST PhD](#)
- [MDCHPHD](#)

Department of Mathematics and Statistics:

# UCalgary

Location: Math Sciences Building, Room 462

Program number: 403.220.6299

Fax: 403.282.5150

Email address: <mailto:sci.grad@ucalgary.ca>

Web page URL: <https://science.ucalgary.ca/mathematics-statistics/future-students/graduate>

## Department of Community Health Sciences:

Location: Health Sciences Centre, Room G345C

Program number: 403.210.7051

Fax: 403.210.8109

Email address: <mailto:chsgrad@ucalgary.ca>

Web page URL: [https://cumming.ucalgary.ca/gse/about/programs/community-health-sciences#quickset-field\\_collection\\_quicktabs\\_1](https://cumming.ucalgary.ca/gse/about/programs/community-health-sciences#quickset-field_collection_quicktabs_1)

## Admissions

### Program Admissions Information

The deadlines for applying for admission into the Biostatistics Specialization are those of the home graduate program:

- [MTSTMSCT](#)
- [MDCHMSCT](#)
- [MTST PhD](#)
- [MDCHPHD](#)

In addition to the [admission](#) requirements of the Faculty of Graduate Studies and home program requirements, all applicants must meet the following requirements:

- In the case of the MSc Biostatistics Specialization, a bachelor's degree in statistics, or its equivalent, is usually required.
- In the case of the PhD Biostatistics Specialization, a master's degree in statistics, or its equivalent, is usually required.
- Students must also have a letter from a faculty member in the home program indicating an agreement to supervise the applicant. Students are strongly encouraged to approach potential supervisors in advance of applying for entry into the home program and Biostatistics specialization.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the Faculty of Graduate Studies ([see regulations](#)) and home program requirements, the Specialization requires:

**MSc and PhD students complete:**

**Complete ALL of the following Courses:**

- MDCH600 - Introduction to Community Health Sciences  
**AND** MDCH640 - Fundamentals of Epidemiology  
**AND** STAT721 - Statistical Inference  
**AND** BIST600 - Research Seminar

PhD students must also complete [STAT641 Statistical Learning](#) or [STAT631 Computational Statistics](#).

**Earn at least 3 credits from the following:**

- Biostatistics Interdisciplinary Specialization, List A Epidemiology and Health

Relevant topics courses and directed study courses (e.g., [MDCH710 Adv Topics in Biostatistics](#)), and courses from other programs, may be approved by the graduate program director in consultation with the supervisor.

**Earn at least 3 credits from the following:**

- Biostatistics Interdisciplinary Specialization, List B Biostatistics/Statistics

Relevant topics courses and directed study courses (e.g. [STAT601 Topics Probability&Statistics](#)), and courses from other programs, may be approved by the graduate program director in consultation with the supervisor.

**Earn at least 3 credits from the following:**

- Biostatistics Interdisciplinary Specialization, List A Epidemiology and Health  
**OR** Biostatistics Interdisciplinary Specialization, List B Biostatistics/Statistics

**Additional Comments:**

In addition, PhD students in the Mathematics and Statistics program must pass two Preliminary Examinations in Statistics based on material for two of the following courses: [STAT701 Theory of Probability I](#), [STAT721 Statistical Inference](#), [STAT631 Computational Statistics](#), [STAT635 Generalized Linear Models](#), [STAT641 Statistical Learning](#).

N.B. PhD required courses (or equivalents) are based on courses taken across graduate studies; i.e., if the student has taken equivalent courses in an MSc program, they are not required to retake these courses.

Students in the Community Health Sciences program must attend all CHS departmental seminars.

**Additional Program Information**

**Type**

Completion Requirement

**Additional Comments:**

**Advanced Credit**

The applicant should make requests for advanced credit at the time of application, as part of the admissions process. See [Advanced Credit](#) for further information.

**Credit for Undergraduate Courses**

See requirements of home program.

**Flexible Grade Option (CG Grade)**

See requirements of home program.

**Time Limit**

Expected completion time is two years for full-time students in a thesis-based master's program and four years in a doctoral program.

The maximum completion time allowed for a thesis-based master's program is four years. The maximum completion time allowed for a doctoral program is six years.

**Supervisory Assignments and Required Examinations**

See requirements of home program and the Faculty of Graduate Studies academic regulations.

## Faculty Members / Research Interests

Faculty members associated with the Biostatistics specialization have wide-ranging research interests. See the [Biostatistics webpage](#) for more information.

Research topics for thesis-based MSc and PhD applicants should be decided in discussion with supervisors.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

See home program.

## Overview

### General Program Information

The School of Architecture, Planning and Landscape does not formally offer a part-time option.

Location: Professional Faculties 2182

Student Information: 403.220.7070

Fax: 403.284.4399

Email address: <mailto:info@sapl.ualgary.ca>

Web page URL: <https://sapl.ualgary.ca/>

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <http://www.ualgary.ca/future-students/graduate/explore-programs/built-landscape-heritage-certificate-course-based>.

In addition to Faculty of Graduate Studies requirements for [Admission](#), the Certificate requires the following:

#### a) Statement of Interest

A clear, concise and substantive statement of interest (1,000 words), which informs the Admissions Committee of:  
the applicant's reasons for pursuing the Certificate;

how the applicant's specific educational background and professional experience relates to heritage conservation.

#### b) Digital Portfolio

Applicants may submit a portfolio that provides examples of or illustrates the applicant's design work, professional work, research, creative thinking, community action, planning products, or graphics and visual communication. The requirements for digital portfolio submissions are found on the School of Architecture, Planning and Landscape website at:

<https://sapl.ualgary.ca/future-students/graduate>.

#### c) Curriculum Vitae

A current copy of the curriculum vitae/resume.

#### d) Reference Letters

Three reference letters.

## e) Proof of English Proficiency

For applicants who are required to prove proficiency in English, a minimum TOEFL score of 105 (Internet-based test); or IELTS score of 7.5; or CAEL overall score of 70, with a minimum score of 70 in each component. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.

## f) Example of writing

One example of the applicant's previous academic or professional work such as a written essay, published research paper, major academic paper, thesis, design project, or consulting report.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to the Faculty of Graduate Studies [requirements](#), students are expected to successfully complete 12 units (courses must be taken in the prescribed order):

##### Complete ALL of the following Courses:

- **PLAN660** - Principles of Historic Conservation  
**AND** **PLAN662** - Heritage Conservation Policy and Planning  
**AND** **PLAN664** - Sustainability and Historic Preservation  
**AND** **PLAN668** - Advanced Heritage Conservation Project

#### Additional Comments:

### Reappraisal of Academic Assessments (Final Grades)

Students enrolled in SAPL graduate credentials must request a [Reappraisal of Academic Assessments \(Final Grades\)](#) within 5 business days of the start of the subsequent term.

[Reappraisal of Academic Assessments \(Final Grades\)](#) in SAPL graduate credentials must be completed at least one day before the drop date of the subsequent semester.

#### Other Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

[Advanced Credit](#) is not given.

### Flexible Grade Option (CG Grade)

Students admitted to the School of Architecture, Planning and Landscape will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the Flexible Grade Option (CG Grade) for courses outside of SAPL that permit the CG Grade and are taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Time Limit

Students registered in the Graduate Certificate in Built and Landscape Heritage are expected to enrol on a full-time basis and complete the program requirements within one registration year. The maximum completion time is three registration years.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to highly qualified students but cannot be guaranteed. For information on admission and academic awards, see the [Awards and Financial Assistance](#) section of this calendar, the SAPL website and the Awards Database on the Faculty of Graduate Studies website.

## Overview

### General Program Information

The curriculum is designed for students with degrees in Engineering, Medicine, Physical Sciences, Kinesiology, Health or Life Sciences. Background experience and qualifications, as well as areas of interest of the applicants will be taken into account at the time of admission.

A Master of Engineering in Biomedical Engineering does not entitle graduates to a designation of Professional Engineer. The title of Engineer, or Professional Engineer, is restricted to those who are members of a Provincial engineering association.

Please see the Biomedical Engineering Graduate Program website for the latest version of the Handbook of Policies and Procedures at <https://research.ucalgary.ca/bme/graduate>.

The Schulich School of Engineering also offers a [Master of Engineering \(MEng\), course-based with Internship](#) in the Biomedical Engineering program.

Location: ENB202

Program number: 403.220.3835

Email address: <mailto:bmegrad@ucalgary.ca>

Web page URL: <https://schulich.ucalgary.ca/biomedical>

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students website: [Biomedical Engineering - MEng - Course-Based | Faculty of Graduate Studies | University of Calgary \(ucalgary.ca\)](#).

In addition to Faculty of Graduate Studies requirements for [admission](#), the program requires:

- minimum GPA requirements are 3.00 on a four-point scale.
- students must have an approved four-year undergraduate degree in engineering, science, kinesiology or equivalent.

International students are required to demonstrate proficiency in the English language, in accordance with the admission requirements of the Faculty of Graduate Studies. All students must meet the [admission requirements](#) of both the Faculty of Graduate Studies and the Biomedical Engineering Graduate Program.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

30 units are required, which include:

##### Enroll in the following Requirement Sets:

- MEng, Course-based, Biomedical Engineering

For students completing the **Master of Engineering (MEng), course-based with Internship:**

- A minimum of 30 units of courses as outlined by the MEng course-based program plus 12 - 24 units of internship courses.

#### Additional Comments:

### Additional Courses

Courses are listed by theme, but students are not restricted to taking courses from within a theme. The supervisor and supervisory committee should be consulted for course selection. Courses not listed under Additional Courses or on the list at <https://schulich.ucalgary.ca/biomedical/programs/graduate/program-resources/courses> require the approval of the Biomedical Engineering Graduate Program. Directed studies courses require approval of the Biomedical Engineering Graduate Program. Not all courses may be offered every year.

- **BMEN609 Anatomy & Phys for BMEN**
- **BMEN619 Advanced Topics in BMEN** (BMEN619.39)

#### *Additional Courses in Theme 1: Human Mobility*

- **BMEN619 Advanced Topics in BMEN**
- **ENCI653 Theory&ApplOfFiniteElemMeth**
- **ENME653 Advanced Continuum Mechanics**
- **ENME663 (Knes/Mdsc 663)Adv Mech & Phys**

#### *Additional Courses in Theme 2: Advanced Biomedical Imaging*

- **ENEL697 Digital Image Processing**
- **MDSC689.01 Medical Imaging Techniques**
- **MDSC689.02 Adv Magnetic Resonance Imaging**
- **MDSC689.03 Adv Medical Image Processing**

#### *Additional Courses in Theme 3: Regenerative Medicine*

- **BMEN619 Advanced Topics in BMEN** (BMEN619.33)
- **ENCH659 Advanced Cell & Tissue Engg**
- **MDSC710 Business & Careers Biotech**
- **VETM702 Adv Topics Stem Cell Biol**

#### *Additional Course in Theme 4: Health Monitoring and Management*

- **BMEN619 Advanced Topics in BMEN** (BMEN619.37)

#### Additional Program Information

##### Type

##### Completion Requirement

#### Additional Comments:

## Advanced Credit

**Advanced Credit** may be granted with approval of the Biomedical Engineering Graduate Program. Advanced credit will not be granted for Biomedical Engineering 600, 602 or 604.

## Time Limit

In accordance with the Faculty of Graduate Studies regulations, the expected completion time for the MEng (course-based) degree is one to two years. Maximum completion time is six years.

The Master of Engineering, course-based with Internship is normally a three-year program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Students in the MEng (course-based) program do not receive funding, but may be eligible for awards or financial assistance.

For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

#### Specializations:

- [Medical Im](#)
- [Stem Cell&](#)
- [Wearable T](#)
- [Comp Neuro](#)

The curriculum is designed for students with degrees in Engineering, Medicine, Physical Sciences, Kinesiology, Health or Life Sciences. Background experience and qualifications, as well as areas of interest of the applicants will be taken into account at the time of admission. The appropriateness of the undergraduate preparation of the applicant must be supported by the proposed supervisor(s) for MSc and PhD students. Students in the MSc degree program are normally considered full-time.

A Master of Science in Biomedical Engineering does not entitle graduates to a designation of Professional Engineer. The title of Engineer, or Professional Engineer, is restricted to those who are members of a Provincial engineering association.

Please see the Biomedical Engineering Graduate Program website for the latest version of the Handbook of Policies and Procedures at <https://schulich.ucalgary.ca/biomedical/programs/graduate>.

Location: ENB202

Program number: 403.220.3835

Email address: <mailto:bmegrad@ucalgary.ca>

Web page URL: <https://schulich.ucalgary.ca/biomedical>

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/biomedical-engineering-master-science-thesis-based>.

In addition to Faculty of Graduate Studies [admission requirements](#), the program requires:

- minimum GPA requirements are 3.20 on a four-point scale.
- two reference letters with their application package.
- MSc students can only be accepted upon identification of one or more approved Biomedical Graduate Engineering Program supervisors who are willing to supervise and fund the applicant.
- International students are required to demonstrate proficiency in the English language, in accordance with the admission requirements of the Faculty of Graduate Studies. All students must meet the admission requirements of both the Faculty of Graduate Studies and the Biomedical Engineering Graduate Program.

Transfer of appropriately qualified MSc students directly into the PhD program is encouraged. Students wishing to transfer must do so between 8 and 16 months of first registration. For transfer, a minimum GPA of 3.50 is required (over a minimum of 9 units), including [BMEN600 Biomedical Engg Foundations](#). In addition, a research proposal, approved by the supervisory committee, must be submitted to the Biomedical Engineering Graduate Program. Applications for transfer must be supported by both the supervisor and the supervisory committee.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

#### Additional Comments:

In addition to the Faculty of Graduate Studies' [requirements](#) and the Schulich School of Engineering requirements:

All students are required to take a minimum of 12 units as approved by the Biomedical Engineering Graduate Program. This must include [BMEN600 Biomedical Engg Foundations](#), [BMEN602 Biomedical Engg Core I](#) and [BMEN604 Biomedical Engg Core II](#) and 6 units from technical electives chosen from the list of Additional Courses.

#### Medical Imaging Specialization

Students complete a course sequence in Medical Imaging plus additional specialization requirements (see [Medical Im](#)). MSc students must take a minimum of 6 units (the MEDI core and a MEDI foundational course). These requirements are in addition to the core program requirements of the BME Graduate Program. The required courses are counted towards BME Graduate Program elective courses.

For Interdisciplinary Specializations see:

- [Medical Im](#)
- [Stem Cell&](#)
- [Wearable T](#)
- [Comp Neuro](#)

#### Additional Courses

Courses are listed by theme, but students are not restricted to taking courses from within a theme. The supervisor and supervisory committee should be consulted for course selection. Courses not listed under Additional Courses or on the list at <https://schulich.ualgary.ca/biomedical> require the approval of the Biomedical Engineering Graduate Program. Directed studies courses require approval of the Biomedical Engineering Graduate Program. Not all courses may be offered every year.

- [BMEN609 Anatomy & Phys for BMEN](#)
- [BMEN619 Advanced Topics in BMEN](#) (BMEN619.39)

#### Additional Courses in Theme 1: Human Mobility

- [BMEN619 Advanced Topics in BMEN](#)
- [ENCI653 Theory&AppIOfFiniteElemMeth](#)

- [ENME653 Advanced Continuum Mechanics](#)
- [ENME663 \(Knes/Mdsc 663\)Adv Mech & Phys](#)

*Additional Courses in Theme 2: Advanced Biomedical Imaging*

- [ENEL697 Digital Image Processing](#)
- [MDSC689.01 Medical Imaging Techniques](#)
- [MDSC689.02 Adv Magnetic Resonance Imaging](#)
- [MDSC689.03 Adv Medical Image Processing](#)

*Additional Courses in Theme 3: Regenerative Medicine*

- [BMEN619 Advanced Topics in BMEN](#) (BMEN619.33)
- [ENCH659 Advanced Cell & Tissue Engg](#)
- [MDSC710 Business & Careers Biotech](#)
- [VETM702 Adv Topics Stem Cell Biol](#)

*Additional Course in Theme 4: Health Monitoring and Management*

- [BMEN619 Advanced Topics in BMEN](#) (BMEN619.37)

#### Additional Program Information

##### Type

Completion Requirement

Additional Comments:

### Advanced Credit

Credit may be granted with approval of the Biomedical Engineering Graduate Program. Advanced standing will not be granted for [BMEN600 Biomedical Engg Foundations](#), [BMEN602 Biomedical Engg Core I](#) or [BMEN604 Biomedical Engg Core II](#).

### Credit for Undergraduate Courses

Graduate credit may be given for 500-level courses. No more than 3 units of credit will be allowed in MSc/PhD program as approved by the supervisory committee, and the Biomedical Engineering Graduate Program.

### Time Limit

In accordance with the Faculty of Graduate Studies regulations, the expected completion time for the MSc is two years. Maximum completion time is four years. Students transferring from the MSc to the PhD program are expected to complete studies within five years. Funding in the MSc and PhD programs may not be available after these expected completion times.

#### Supervisory Assignment and Required Examinations

##### Type

Completion Requirement

Additional Comments:

### Supervisory Assignments

MSc students need a supervisor for admission to the program. The Supervisory Committee should be selected jointly by the student and supervisor immediately upon entry into the MSc program and approved by the Biomedical Engineering Graduate Program. The Supervisory Committee consists of the supervisor, co-supervisor (if appropriate), and two other members who normally hold academic appointment at the University of Calgary. Appointment of individuals who do not hold academic appointments at the University of Calgary is possible but requires the support of the Biomedical Engineering Graduate Program and the prior approval of the Faculty of Graduate Studies.

The supervisory committee will advise on course selection and research topic for the student. The supervisory committee will

usually be cross-disciplinary, as required by the student's research topic and deemed necessary by the supervisor in consultation with the Biomedical Engineering Graduate Program. The supervisory committee will recommend transfer to the PhD program for MSc students. All students will follow the guidelines of the Biomedical Engineering Graduate Program regarding supervision, frequency of committee meetings, course changes, thesis or project proposals, candidacy examinations, etc. as outlined in the Student Handbook. Membership on candidacy and examination committees requires the approval of the Biomedical Engineering Graduate Program.

## Required Examinations

### *Scheduling of the Thesis Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

### *Thesis Examination*

In addition to Faculty of Graduate Studies regulations, the Biomedical Engineering Graduate Program requires the examining committee to consist of a minimum of four voting members: the supervisor (and co-supervisor if appropriate) and Supervisory Committee and one Internal Examiner who may be internal to the student's home program. At least one member of the Supervisory Committee (excluding supervisor and co-supervisor) must be a Biomedical Engineering Graduate Program Approved Supervisor.

The student shall make a public thirty-minute presentation (20 minute presentation plus 10 minutes for questions) of their thesis research, normally immediately before the oral examination. Examining committee members should attend this presentation but should refrain from asking questions. The maximum allowable two-hour examination period does not include the time spent on student presentation.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Students in the MSc program will not be admitted without funding from an interested supervisor. Please see the Biomedical Engineering Graduate Program handbook for more details.

For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

#### Specializations:

- [Medical Im](#)
- [Stem Cell&](#)
- [Wearable T](#)
- [Comp Neuro](#)

The curriculum is designed for students with degrees in Engineering, Medicine, Physical Sciences, Kinesiology, Health or Life Sciences. ## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/biomedical-engineering-doctor-philosophy-thesis-based>.

In addition to Faculty of Graduate Studies [admission requirements](#), the program requires:

- minimum GPA requirement of 3.50 on a four-point scale.
- two reference letters with their application package.
- PhD students can only be accepted upon identification of one or more approved Biomedical Graduate Engineering Program supervisors who are willing to supervise and fund the applicant.
- International students are required to demonstrate proficiency in the English language, in accordance with the admission requirements of the Faculty of Graduate Studies. All students must meet the admission requirements of both the Faculty of Graduate Studies and the Biomedical Engineering Graduate Program.

Transfer of appropriately qualified MSc students directly into the PhD program is encouraged. Students wishing to transfer must do so between 8 and 16 months of first registration. For transfer, a minimum GPA of 3.50 is required (over a minimum of 9 units), including Biomedical Engineering 600. In addition, a research proposal, approved by the supervisory committee, must be submitted to the Biomedical Engineering Graduate Program. Applications for transfer must be supported by both the supervisor and the supervisory committee.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#):

For a Doctor of Philosophy (PhD) degree, all students are required to take a minimum of 6 units as approved by the Biomedical Engineering Graduate Program.

If the student's completed MSc degree is not in Biomedical Engineering, they must take a further of 12 units, for a total minimum of 18 units.

For students who transfer from an MSc program, minimum of 18 units at the graduate level are required beyond the BSc, or equivalent, degree.

**BMEN600 Biomedical Engg Foundations**, **BMEN602 Biomedical Engg Core I** and **BMEN604 Biomedical Engg Core II** must be included in the course requirements if not taken in the MSc.

All students may choose elective courses from the listing of Additional Courses or approved courses from other departments (see website for most recent information: <https://research.ucalgary.ca/bme/graduate>). Other relevant courses, not on the

Additional Course list or Program's website, require the approval of the supervisor and the Biomedical Engineering Graduate Program. Students may be required to take senior undergraduate courses as deemed by their Supervisory Committee, but graduate credit will only be granted for senior undergraduate courses as approved by the Biomedical Engineering Graduate Program.

For Interdisciplinary Specializations see:

- [Medical Im](#)
- [Stem Cell&](#)
- [Wearable T](#)
- [Comp Neuro](#)

In addition to the course requirements, all PhD students are required to complete a research project and to submit a written thesis in compliance with the regulations of the Faculty of Graduate Studies.

## Additional Courses

Courses are listed by theme, but students are not restricted to taking courses from within a theme. The supervisor and supervisory committee should be consulted for course selection. Courses not listed under Additional Courses or on the list at <https://research.ualgary.ca/bme/graduate> require the approval of the Biomedical Engineering Graduate Program. Directed studies courses require approval of the Biomedical Engineering Graduate Program. Not all courses may be offered every year.

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

PhD students need a supervisor for admission to the program. The Supervisory Committee should be selected jointly by the student and supervisor immediately upon entry into the PhD program and approved by the Biomedical Engineering Graduate Program. The Supervisory Committee consists of the supervisor, co-supervisor (if appropriate), and two other members who normally hold academic appointment at the University of Calgary. Appointment of individuals who do not hold academic appointments at the University of Calgary is possible but requires the support of the Biomedical Engineering Graduate Program and the prior approval of the Faculty of Graduate Studies.

The supervisory committee will advise on course selection and research topic for the student. The supervisory committee will usually be cross-disciplinary, as required by the student's research topic and deemed necessary by the supervisor in consultation with the Biomedical Engineering Graduate Program. The supervisory committee will recommend transfer to the PhD program for MSc students and certify the background preparation for PhD students prior to scheduling of the candidacy exam. All students will follow the guidelines of the Biomedical Engineering Graduate Program regarding supervision, frequency of committee meetings, course changes, thesis or project proposals, candidacy examinations, etc. as outlined in the Student Handbook. Membership on candidacy and examination committees requires the approval of the Biomedical Engineering Graduate Program.

## Research Proposal Requirements

Doctoral students must submit a written thesis proposal, which is approved by their Thesis Proposal Evaluation Committee in a Thesis Proposal Evaluation Committee Meeting. See <https://schulich.ucalgary.ca/biomedical/programs/graduate/program-resources/completion-requirements> for further information.

## Doctoral Candidacy Examinations

Doctoral students must pass Thesis Proposal (oral and written) and Field of Study (oral) examinations. For complete details of the examination format and other candidacy requirements, see <https://schulich.ucalgary.ca/biomedical/programs/graduate/program-resources/timelines>.

### *Scheduling of the Thesis Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

## Doctoral Thesis Examination

The examining committee consists of a minimum of five voting members: the Supervisory Committee members (including the supervisor and co-supervisor, if appropriate), one Internal Examiner and one member external to the University of Calgary (External examiner). The Internal Examiner can be an approved Biomedical Engineering Graduate Program Supervisor. At least one of either a) the Supervisory Committee (excluding supervisor and co-supervisor) or b) the Internal Examiner, must be a Biomedical Engineering Graduate Program Approved Supervisor.

The student shall make a public 60 minute presentation (45 minute presentation plus 15 minutes for questions) of their thesis research, normally immediately before the oral examination. Examining committee members should attend this presentation but should refrain from asking questions during the presentation. The maximum allowable two-hour examination period does not include the time spent on student presentation.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Students in the PhD program will not be admitted without funding from an interested supervisor. Please see the Biomedical Engineering Graduate Program handbook for more details.

For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

Graduate Programs in Education offers a Graduate Certificate: Bridge to Teaching for foreign-trained, experienced teachers who require additional advanced course credits in order to teach in K-12 schools in Alberta. Bridge to Teaching is a full-time program with 18 graduate course credits in education, including practicum. All courses need to be taken in a prescribed sequence, over one school year (September to April). For additional information please consult: <http://werklund.ucalgary.ca/gpe/>.

Location: Education Tower, Room 114

Program number: 403.220.5675

Toll-free in Canada 877.623.0292

Fax: 403.282.3005

Email address: [mailto:bridge@ucalgary.ca](mailto:mailto:bridge@ucalgary.ca)

Web page URL: <https://werklund.ucalgary.ca/gpe/bridge>

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students webpage at: <http://ucalgary.ca/future-students/graduate/explore-programs/bridge-teaching-certificate-course-based>.

Requirements for admission to the Certificate include:

- A four-year baccalaureate degree in Education or an equivalent degree from a recognized institution, with a grade point average of at least 3.00 or equivalent. See the Faculty of Graduate Studies' International Admission Requirements webpage at <http://www.ucalgary.ca/future-students/graduate/international> for specific country requirements.
- A letter from an evaluator at Alberta Education's Teaching Excellence and Certification. For further information, go to <https://alberta.ca/teaching-in-alberta.aspx>.
- For applicants required to present proficiency in English, a minimum TOEFL (Internet-based) score of 97, an IELTS (academic version) overall band score of 7.0 or a CAEL overall score of 70 (with no section less than 70). This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.

The test must have been taken within the last two years. When requesting that official TOEFL test scores are forwarded to the University of Calgary, please indicate institution code **0813**.

- d) One official transcript from all post-secondary institutions attended.
- e) A written 300-word statement of intent that includes answers to the following questions:
  - Please identify your reasons for applying to the Bridge to Teaching program.
  - In what way is this program related to your desired career path or employment objectives?
- f) Two references – References are submitted directly through the online application system.
- g) A successful interview with the Academic Co-ordinator for Bridge to Teaching.

## Program Details

### Simple Requisites

#### Course Requirements

##### Type

##### Completion Requirement

A total of 18 course credits including 10 weeks of practicum.

Semester 1 Required Courses:

**Complete ALL of the following Courses:**

- EDBT601 - Contemporary Education  
**AND** EDBT602 - Teaching in Alberta I  
**AND** EDBT603 - Practicum Support Seminar I

Semester 2 Required Courses:

**Complete ALL of the following Courses:**

- EDBT604 - Learning with Technology  
**AND** EDBT605 - Teaching in Alberta II  
**AND** EDBT606 - Practicum Support Seminar II

#### Additional Comments:

##### Notes:

- Failure to attend the term to which a student has been admitted will result in the admission being rescinded.
- Failure to successfully complete any component of the program, including practicum, will result in withdrawal from the program.

##### General Notes:

- Completion of the Bridge to Teaching Certificate may not fulfill the requirements for teacher certification in Alberta.
- The Bridge to Teaching courses are recognized by the Teaching Excellence and Certification Branch of Alberta Education as fulfilling the requirements for 18 credits in Education coursework at the advanced level, and 10 weeks of supervised student teaching placement (practicum) in an Alberta classroom.

#### Additional Program Information

##### Type

##### Completion Requirement

#### Additional Comments:

### Police Information Check

All successful applicants to the Werklund School of Education are required to provide a current Police Information Check which includes a Criminal Record Check and a Vulnerable Sector Search. Students who are not residents of Calgary must

arrange for a Police Information Check through their nearest police service or RCMP detachment in the area where they reside. In order to be considered "current", the Police Information Check must be completed no earlier than June 30, and students will be required to request a new Police Information Check every 12 months. The original Police Information Check must be presented to the administration in the Graduate Programs in Education Office in the Werklund School of Education before the start of classes and to the partner school administration on the first day of Practicum (Education Bridge to Teaching 603, 606).

Students who are concerned about the presence of a criminal record should contact the police department to discuss the process for eliminating or erasing such a record.

Police Information Check is required for all third-party practicum placements. Failure to present a current and clear Police Information Check may result in the student being unable to complete their practica. Successful completion of practica is required for graduation.

Students are obligated to inform the Faculty immediately of any change in status of their criminal record.

### Flexible Grade Option (CG Grade)

Graduate Programs in Education in the Werklund School of Education will not permit the **Flexible Grade Option (CG Grade)** for any course offered by the School.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Time Limit

Expected completion time is eight (8) months to a maximum completion time of two years.

## Overview

### General Program Information

The MSc program is available for full-time study only.

Email address: <mailto:sci.grad@ucalgary.ca>

Web page URL: <http://www.chem.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students [website](#).

In addition to Faculties of Graduate Studies and Science [admission requirements](#), the Department requires:

- a) A four-year degree or its equivalent.
- b) An admission grade point average of 3.00 or better on a four-point scale.
- c) Two reference letters.

An appropriate letter of recommendation is one written by an individual who can provide an assessment of the applicant's background and capabilities with respect to our department. An applicant currently registered in a graduate degree program, or who has recently completed a graduate degree program, must request one letter of reference from their program supervisor.

- d) For applicants required to prove proficiency in English: a minimum TOEFL score of 97 (Internet-based test), or an IELTS score of 7.0, or a PTE score of 68.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Science requires students to complete:

- 7 units at the 500 level or above:
  - a minimum of 3 units will be Chemistry courses;
  - [CHEM654 Teaching and Mentoring in Chem](#);
  - 3 units of electives (Chemistry or other Faculty/Department)

#### Additional Requirements

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

[Advanced Credit](#) for graduate courses taken as an unclassified student, or qualifying student may be given for courses in which the student obtains a grade of "B" or higher.

A reduction in course requirements may be given for students who completed graduate courses at other institutions. This will be determined on program entry and after consultation with the research supervisor and the graduate office.

### Flexible Grade Option (CG Grade)

The Department of Chemistry will allow students to pursue the [Flexible Grade Option \(CG Grade\)](#) with the exception of [Chemistry 601](#) and [603](#).

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

At least one-half of a graduate student's course work must be at the 600 level or higher and only where appropriate to a student's program will graduate credit be given for courses numbered 500-599, which are considered undergraduate courses. In addition to course prerequisites, consent of the department is required.

### Time Limit

Expected completion time is two years for the Master of Science degree. Maximum completion time is four years.

#### Supervisory Assignments and Thesis Examinations

##### Type

Completion Requirement

##### Additional Comments:

### Supervisory Assignments

Students are assigned an interim advisor (currently the Graduate Director) upon first registration in a program and must choose a permanent supervisor before the fifth month in program. Students must also choose two additional faculty members to serve as supervisory committee members.

## Thesis Examination

In addition to the Faculty of Graduate Studies requirements for [Thesis Examinations](#), the Department requires:

### *Scheduling of the Examination*

Before an examination can be scheduled, all members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis.

### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

Thesis examinations are open.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance is normally available to all qualified students in the form of Teaching Assistantships and Trust funded Assistantships. Assistantship funding is not normally available beyond twenty-eight months in a master's program.

For further information on awards, see the [Awards and Financial Assistance](#) section of this calendar.

## Overview

### General Program Information

The PhD program is available for full-time study only.

Email address: <mailto:sci.grad@ucalgary.ca>

Web page URL: <http://www.chem.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/chemistry-doctor-philosophy-thesis-based>.

In addition to Faculties of Graduate Studies and Science [admission requirements](#), the Department requires:

a) Two reference letters.

An appropriate letter of recommendation is one written by an individual who can provide an assessment of the applicant's background and capabilities with respect to our department. An applicant currently registered in a graduate degree program, or who has recently completed a graduate degree program, must request one letter of reference from their program supervisor.

b) For applicants required to prove proficiency in English: a minimum TOEFL score of 97 (Internet-based test), or an IELTS score of 7.0, or a PTE score of 68.

**For applicants with a Bachelor of Science (BSc) degree:**

a) A four-year Honours degree or its equivalent.

b) An admission grade point average of 3.70 or better on a four-point scale.

**For applicants with a Master of Science (MSc) degree:**

a) A Master of Science degree recognized by the Faculty of Graduate Studies.

b) An admission grade point average of 3.30 or better on a four-point scale.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculty of Graduate Studies [requirements](#) and Faculty of Science requirements, the Department requires:

For students entering with a four-year Honours BSc degree or equivalent:

- 10 units at the 500 level or above:
  - a minimum of 6 units will be Chemistry courses;
  - [CHEM654 Teaching and Mentoring in Chem](#);
  - 3 units of electives (Chemistry or other Faculty/Department).

For students entering with an MSc degree or equivalent.

- A minimum of 3 units and a maximum of 10 units. At the discretion of the Graduate Program Director, the number of courses will be determined by consultation between the student, the supervisor, and the Graduate Director.

Students who transfer to the doctoral program will be given credit for courses taken in the MSc program.

#### Copyediting

The department does not allow copyediting in students' theses.

#### Additional Requirements

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

[Advanced Credit](#) for graduate courses taken as an unclassified student, or qualifying student may be given for courses in which the student obtains a grade of "B" or higher.

A reduction in course requirements may be given for students who completed graduate courses at other institutions. This will be determined on program entry and after consultation with the research supervisor and the graduate office.

The Department of Chemistry will allow students to pursue the [Flexible Grade Option \(CG Grade\)](#) with the exception of [Chemistry 601](#) and [603](#).

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

At least one-half of a graduate student's course work must be at the 600 level or higher and only where appropriate to a student's program will graduate credit be given for courses numbered 500-599, which are considered undergraduate courses. In addition to course prerequisites, consent of the department is required.

## Time Limit

Expected completion time is four years for the Doctor of Philosophy degree. Maximum completion time is six years.

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

Students are assigned an interim advisor (currently the Graduate Director) upon first registration in a program and must choose a permanent supervisor before the fifth month in program. Students must also choose two additional faculty members to serve as supervisory committee members.

## Required Examinations

### Candidacy

All doctoral students must successfully complete a written thesis research proposal that is evaluated and approved by the Candidacy Field of Study Oral Examination committee.

Doctoral students are required to complete written and oral candidacy examinations. Further details may be obtained from the Department's Handbook of Graduate Studies available

at: [http://www.ucalgary.ca/chem/graduate/current\\_students/grad\\_students\\_handbook](http://www.ucalgary.ca/chem/graduate/current_students/grad_students_handbook).

The oral examination component will include questions on the research proposal.

## Thesis Examination

In addition to the Faculty of Graduate Studies requirements for [Thesis Examinations](#), the Department requires:

### *Scheduling of the Examination*

Before an examination can be scheduled, all members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis.

### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

Thesis examinations are open.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance is normally available to all qualified students in the form of Teaching Assistantships and Trust funded Assistantships. Assistantship funding is not normally available beyond fifty-two months in a doctoral program.

For further information on awards, see the [Awards and Financial Assistance](#) section of this calendar.

## Overview

# UCalgary

## General Program Information

The MSc is offered jointly through the Department of Computer Science, Faculty of Science; School of Architecture, Planning and Landscape; and Department of Art, Department of English, and School of Creative and Performing Arts, Faculty of Arts. For simplifying the explanations in this document and for the purposes of CMD requirements, Art, Dance, Drama, English and Music, as well as Architecture, Planning and Landscape are jointly referred to as Arts and Design.

Students may register in the MSc program as part-time students only with permission from the CMD Advisory Committee.

## Specializations:

- [Wearable T](#)

Location: Science A Building, Room 229

Email address: <mailto:sci.grad@ucalgary.ca>

Web page URL: <http://www.ucalgary.ca/cmd/>

## Admissions

### Program Admissions Information

Deadlines for the submission of complete applications are available on the Future Students website:

<http://www.ucalgary.ca/future-students/graduate/explore-programs/computational-media-design-master-science-thesis-based>.

In addition to Faculty of Graduate Studies [admission requirements](#), the CMD program requires:

- While applicants from any discipline will be considered, undergraduate degrees in Art, Computer Science, Dance, Design, Drama, English or Music are preferred. An academic or professional background in one area is possible, but ideally applicants would have a background in two areas.
- For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 105 (internet-based test), a minimum IELTS score of 7.5 (minimum of 7.0 in each section), a minimum CAEL score of 70 (minimum of 70 in each component), a PTE score of 59 or higher, or a Cambridge C1 Advanced or Cambridge C2 Proficiency with a minimum score of 200 is required. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.
- A single page statement of interest. This is not a proposal, but a declaration of interest in interdisciplinary research in Art, Dance, Design, Drama, English or Music, and Computer Science.
- Applicants must submit a portfolio that provides up to ten examples of their research and creative work. This may include any combination of academic publications and reports, images, video, audio recordings, musical scores, documentation of installations, and written works. Applicants may provide a URL to portfolio items that cannot be uploaded through the application system.
- A curriculum vitae.
- Two reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

Graduate courses must be chosen in consultation with the supervisor(s) and approved by the CMD Director. In addition to the Faculty of Graduate Studies [requirements](#), the CMD program requires the following coursework:

15 units of coursework:

- 3-unit research methodology course chosen from Architecture, Planning and Landscape, Art, Computer Science, Dance, Drama, English, or Music;
- 3-unit Computer Science graduate-level course;
- 3-unit graduate-level course chosen from Architecture, Planning and Landscape, Art, Dance, Drama, English, or Music; and
- Two 3-unit graduate-level courses.

Additional courses may be required on a case-by-case basis as determined by the Supervisor and CMD Director.

Students are required to schedule and deliver a CMD seminar presentation on a topic related to their graduate research/creative practice.

A research proposal is required for Master's students. The proposal must be approved by both the supervisor and co-supervisor no later than twelve months after starting the program.

### Additional Program Information

#### Type

Completion Requirement

**Additional Comments:**

### Advanced Credit

The applicant must make [advanced credit](#) requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma, or for courses taken to bring the grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

Students admitted to the Computational Media Program will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Three units at the 500 level may be included as part of the coursework requirement but must be recommended by the supervisor(s) and approved by the CMD Director.

### Time Limit

Expected completion time is two years for the MSc, and maximum completion time is four years.

### Supervisory Assignments and Required Examinations

#### Type

Completion Requirement

**Additional Comments:**

### Supervisory Assignments

All students are required to have a supervisor and a co-supervisor, with one from Computer Science and one from Arts and design. Generally, students are admitted to a specific supervisor and co-supervisor. Sometimes students are admitted to a specific lab or research area only and are assigned an interim advisor.

Appointment of the Supervisor(s): CMD students will have a supervisor and a co-supervisor appointed on their acceptance letter. Students may seek a change in research area or supervisor after admission. The student must find a permanent supervisor and a permanent co-supervisor within six months of the start of the program. Such a change must be satisfactory to the student, supported by the supervisors and approved by the CMD Director.

## Thesis Examination

In addition to the Faculty of Graduate Studies [thesis requirements](#), the program requires:

A thesis that describes the research conducted and/or the body of creative work completed is required to complete the CMD program. The thesis will set the research/work in its literary and new media context and present evidence that the work is worthy of either publication or external recognition. Graduating students will have to have demonstrated skills and expertise in Computer Science and Arts and Design. CMD encourages research and creative work that incorporates aspects of both Computer Science and Arts and Design, thus there is recognition for, and appreciation of, a thesis that represents an interdisciplinary balance between the fields.

### *Scheduling the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before the supervisor schedules an examination.

### *Composition of the Examination Committee*

The Internal Examiner may be internal to the CMD program. The CMD program membership includes the set of faculty members actively engaged in the program and the supervisor/co-supervisor's academic units (i.e., the Department of Computer Science within the Faculty of Science, Department of Art and School of Creative and Performing Arts within the Faculty of Arts, or School of Architecture, Planning and Landscape).

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards see the [Awards and Financial Assistance](#) section of the calendar. Successful applicants may be offered departmental teaching assistantships and/or research assistantships in their offer letter.

Students applying for scholarships must submit their applications as appropriate according to the requirements of the scholarships. For the most up-to-date information, please see the [CMD website](#).

## Overview

### General Program Information

The PhD is offered jointly through the Department of Computer Science, Faculty of Science; School of Architecture, Planning and Landscape; and Department of Art, Department of English, and School of Creative and Performing Arts, Faculty of Arts. For simplifying the explanations in this document and for the purposes of CMD requirements, Art, Dance, Drama, English and Music, as well as Architecture, Planning and Landscape are jointly referred to as Arts and Design.

Students may register in the PhD program as part-time students only with permission from the CMD Advisory Committee.

## Admissions

### Program Admissions Information

Deadlines for the submission of complete applications are available on the Future Students website:

<http://www.ucalgary.ca/future-students/graduate/explore-programs/computational-media-design-doctor-philosophy-thesis-based>.

In addition to Faculty of Graduate Studies [admission requirements](#), the CMD program requires:

- a) While applicants from any discipline will be considered, undergraduate degrees in Art, Computer Science, Dance, Design, Drama, English or Music are preferred. An academic or professional background in one area is possible, but ideally applicants would have a background in two areas.
- b) A master's degree from an accredited/recognized institution.
- c) For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 105 (internet-based test), a minimum IELTS score of 7.5 (minimum of 7.0 in each section), a minimum CAEL score of 70 (minimum of 70 in each component), a PTE score of 59 or higher, or a Cambridge C1 Advanced or Cambridge C2 Proficiency with a minimum score of 200 is required. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.
- d) A single page statement of interest. This is not a proposal, but a declaration of interest in interdisciplinary research in Art, Dance, Design, Drama, English or Music, and Computer Science.
- e) Applicants must submit a portfolio that provides up to ten examples of their research and creative work. This may include any combination of academic publications and reports, images, video, audio recordings, musical scores, documentation of installations, and written works. Applicants may provide a URL to portfolio items that cannot be uploaded through the application system.
- f) A curriculum vitae.
- g) Two reference letters.

For exceptional students applying directly to the PhD program with only a bachelor's degree, all the requirements for a Master of Science apply, plus a demonstrated exceptional research and/or creative ability. These direct entry students will be considered on a case-by-case basis.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

Graduate courses must be chosen in consultation with the supervisor(s) and approved by the CMD Director. In addition to the Faculty of Graduate Studies [requirements](#), the CMD program requires the following coursework:

Doctoral students must complete at least three graduate-level courses (9 units) while enrolled as a PhD student in Computational Media Design at the University of Calgary.

As agreed upon between the student and supervisory committee, breadth\* courses may be required as follows:

- 3-unit research methodology course chosen from Architecture, Planning and Landscape, Art, Computer Science, Dance, Drama, English, or Music;
- 6 units of Computer Science graduate-level courses;
- 6 units of graduate-level courses chosen from Architecture, Planning and Landscape, Art, Dance, Drama, English, or Music.

\*Alternative breadth courses that satisfy the student, the supervisor(s), the supervisory committee, and the CMD Director may be proposed in special cases.

Students are required to schedule and deliver a CMD seminar presentation on a topic related to their graduate research/creative practice.

A research proposal is required for Master's students. The proposal must be approved by both the supervisor and co-supervisor no later than twelve months after starting the program.

### Additional Program Information

#### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma, or for courses taken to bring the grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

Students admitted to the Computational Media Program will not be allowed to request the Flexible Grade Option (CG Grade) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Three units at the 500 level may be included as part of the coursework requirement but must be recommended by the supervisor(s) and approved by the CMD Director.

### Time Limit

Expected completion time for doctoral students entering with a master's degree is four years; maximum completion time is six years.

### Supervisory Assignments and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

All students are required to have a supervisor and a co-supervisor, with one from Computer Science and one from Arts and design. Generally, students are admitted to a specific supervisor and co-supervisor. Sometimes students are admitted to a specific lab or research area only and are assigned an interim advisor.

Appointment of the Supervisor(s): CMD students will have a supervisor and a co-supervisor appointed on their acceptance letter. Students may seek a change in research area or supervisor after admission. The student must find a permanent supervisor and a permanent co-supervisor within six months of the start of the program. Such a change must be satisfactory to the student, supported by the supervisors and approved by the CMD Director.

Doctoral Supervisory Committee: The Doctoral Supervisory Committee should be constituted by the supervisor and co-supervisor in consultation with the student and must be approved by the CMD Director and sent to the Faculty of Graduate Studies for confirmation. It will consist of the supervisor and co-supervisor, and two additional members. The two additional committee members may be external to the student's program. At least one of the members of the Supervisory Committee should have had supervisory experience at the doctoral level.

## Candidacy

In addition to the Faculty of Graduate Studies [candidacy requirements](#), the program requires:

Doctoral students must complete a written thesis proposal, a written field of study examination, and an oral examination of the thesis proposal. For complete details of the requirements, see the CMD candidacy requirements document available at <https://science.ucalgary.ca/computational-media-design/current-students/degree-requirements>.

## Thesis Examination

In addition to the Faculty of Graduate Studies [thesis requirements](#), the program requires:

A thesis that describes the research conducted and/or the body of creative work completed is required to complete the CMD program. The thesis will set the research/work in its literary and new media context and present evidence that the work is worthy of either publication or external recognition. Graduating students will have to have demonstrated skills and expertise in Computer Science and Arts and Design. CMD encourages research and creative work that incorporates aspects of both Computer Science and Arts and Design, thus there is recognition for, and appreciation of, a thesis that represents an interdisciplinary balance between the fields.

### *Scheduling the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before the supervisor schedules an examination.

### *Composition of the Examination Committee*

The Internal Examiner may be internal to the CMD program. The CMD program membership includes the set of faculty members actively engaged in the program and the supervisor/co-supervisor's academic units (i.e., the Department of Computer Science within the Faculty of Science, Department of Art and School of Creative and Performing Arts within the Faculty of Arts, or School of Architecture, Planning and Landscape).

The CMD PhD student's External Examiner will be an international expert in the research/creative practice area of the student's research. Faculty of Graduate Studies Conflict of Interest Policy applies (see <https://grad.ucalgary.ca/current-students/thesis-based-students/supervision/conflict-interest>).

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards see the [Awards and Financial Assistance](#) section of the calendar. Successful applicants may be offered departmental teaching assistantships and/or research assistantships in their offer letter.

Students applying for scholarships must submit their applications as appropriate according to the requirements of the scholarships. For the most up-to-date information, please see the [CMD website](#).

## Admissions

### Program Admissions Information

The deadline for the submission of complete applications is available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/communication-media-studies-master-arts-thesis-based](http://ucalgary.ca/future-students/graduate/explore-programs/communication-media-studies-master-arts-thesis-based)

In addition to Faculties of Graduate Studies and Arts [requirements](#), the Graduate program in Communication and Media Studies requires:

- A statement of research intent (250-500 words).
- Two samples of written work.
- A detailed curriculum vitae.
- A completed baccalaureate degree in Communications Studies, Culture Studies or related field.
- Two completed Reference Forms.

There is no assurance of consideration for funding for part-time students.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Graduate Program in Communication and Media Studies requires the following:

a) Nine units:

**Complete ALL of the following Courses:**

- COMS601 - Interdisciplinary Approaches To Communications Studies  
**AND** COMS613 - Communication Theory  
**AND** COMS615 - Research Methods

b) Nine units of electives.

Three units of the electives may be selected from other graduate programs; 3 units of the electives may be [COMS711 Directed Studies](#), Directed Studies.

Note: Master's students must take 9 units in each of fall and winter terms in the first year of their program to be considered full-time.

#### Additional Comments:

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

Advanced Credit may be granted to students admitted to the MA program. Approval of the Graduate Program Director is required.

### Flexible Grade Option (CG Grade)

The program of Communication and Media studies in the department of Communication, Media and Film will not permit the Flexible Grade Option (CG Grade) for any course that is applicable to their degree.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Credit for undergraduate courses toward a master's program will be given only in the case of the course being developed for graduate-level work.

### Time Limit

Expected completion time is two years of full-time study or three years of part-time study for the Master of Arts degree.

Maximum completion time is four years.

#### Supervisory Assignments, Research Proposal and Required Examinations

##### Type

Completion Requirement

##### Additional Comments:

### Supervisory Assignments

Students are not required to choose a supervisor before they are admitted. An interim advisor is assigned by the program in the first year. The student must choose a thesis supervisor by the beginning of the second year.

### Research Proposal

Students whose research involves human subjects must receive approval from the University of Calgary Conjoint Faculties Research Ethics Board before beginning data collection.

Thesis supervisor must approve proposal.

### Thesis Examinations

In addition to the Faculty of Graduate Studies requirements for Thesis Examinations, the Department requires:

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal or external to the home program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on Awards, see the [Awards and Financial Assistance](#) section of this Calendar and [grad.ualgary.ca/awards](http://grad.ualgary.ca/awards).

Students applying for the Graduate Awards Competition must submit their applications to the Department of Communication, Media and Film Graduate Programs Office by January 15.

The program of Communication and Media studies in the department of Communication, Media and Film will not permit the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

**Credit for Undergraduate Courses**

Students in the doctoral program will not be given credit for undergraduate courses.

**Time Limit**

Expected completion time is four years for the Doctor of Philosophy degree. Maximum completion time is six years.

**Supervisory Assignments, Research Proposal and Required Examinations**

**Type**

Completion Requirement

**Additional Comments:**

**Supervisory Assignments**

Students are not required to choose a supervisor before they are admitted. An interim advisor is assigned by the program in the first year. The student must choose a thesis supervisor by the beginning of the second year.

By June of the first year in program, the student must submit their proposed field of research and the name of a proposed supervisor for approval by the program. The supervisory committee must be appointed no later than three months after the appointment of the supervisor.

**Research Proposal**

Students whose research involves human subjects must receive approval from the University of Calgary Conjoint Faculties Research Ethics Board before beginning data collection.

Students must submit a written thesis proposal, which is approved by their Supervisory Committee.  
See [commfilm.ucalgary.ca/candidacy-requirements](http://commfilm.ucalgary.ca/candidacy-requirements) for further information.

## Required Examinations

In addition to the Faculty of Graduate Studies requirements for [Candidacy](#) and [Thesis Examinations](#), the Department requires:

### Candidacy

Doctoral students must pass oral and written Fields of Study examinations. For complete details of the examination format and other candidacy requirements, see [commfilm.ucalgary.ca/candidacy-requirements](http://commfilm.ucalgary.ca/candidacy-requirements).

### Thesis Examination

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal or external to the home program.

## Financial Assistance

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on Awards, see the [Awards and Financial Assistance](#) section of this Calendar and [grad.ucalgary.ca/awards](http://grad.ucalgary.ca/awards).

Students applying for the Graduate Awards Competition must submit their applications to the Department of Communication, Media and Film Graduate Programs Office by January 15.

## Overview

### General Program Information

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [arts.ucalgary.ca/schools/creative-performing-arts/music/graduate](http://arts.ucalgary.ca/schools/creative-performing-arts/music/graduate)

## Admissions

### Program Admissions Information

The deadline for the submission of complete applications is available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/music-master-music-thesis-based](http://ucalgary.ca/future-students/graduate/explore-programs/music-master-music-thesis-based).

In addition to Faculties of Graduate Studies and Arts [requirements](#), Music requires:

- a) A completed Bachelor of Music degree (or equivalent), including study in composition.
- b) A portfolio of at least three recent compositions, together with recordings (where available). Applicants wishing to specialize in electroacoustic composition must submit recordings.
- c) One-page letter detailing their specific reasons for pursuing graduate study.
- d) Two reference letters.

## Program Details

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

Students should consult the Graduate Program Director before registering in courses.

In addition to Faculties of Graduate Studies and Arts requirements, Music, excluding qualifying courses, requires:

- [MUSI613 Sem in Theory & Composition](#), [MUSI631 Res Tech & Biblio of Music](#) and [MUSI641 Composition](#)
- one of [MUSI641 Composition](#) or [MUSI653 Projects in Computer Music](#)
- 3-unit graduate Music course, and
- 6 units of approved graduate-level courses in any area.

No more than 6 units may be from independent study courses [MUSI661 Independent Study](#) and [MUED655 Independent Study](#).

Diagnostic tests in music history and theory will be given to all entering master's students in order to determine if qualifying work in these areas is required. Qualifying work, if required, is normally completed in the first year of study.

### Language

While there are no formal second-language requirements for the various programs of the Master of Music degree, students may be required to attain proficiency in a language other than English where this is deemed appropriate for the proposed thesis/project.

All master's degree programs require a thesis or recital or project equivalent, prepared under the guidance of a supervisor and approved by the Music Graduate Studies Committee.

The thesis is interpreted to be either a substantial creative project and an accompanying descriptive essay related to the project, or a portfolio of creative work, the majority of which must have been created in the second year of residency, and an accompanying descriptive essay related to the portfolio. Normally, the project or portfolio will have been presented in a public recital prior to the thesis defence.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

The Music program in the School of Creative and Performing Arts will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the Music Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Time Limit

Maximum completion time is five years for the Master of Music programs.

## Supervisory Assignments and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

The Graduate Program Director will function as the interim supervisor for all newly admitted students during their first term. This arrangement will allow students to use their first term as an opportunity to meet with faculty and to secure a permanent supervisor.

## Required Examinations

A comprehensive oral examination encompassing all areas of the chosen field is required. This examination will take place following the completion of coursework and must be satisfactorily completed before the submission of the thesis/project.

## Thesis Examinations

In addition to Faculty of Graduate Studies requirements for [Thesis Examinations](#), the program requires:

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

### *Composition of the Committee*

Normally, the Internal Examiner is external to the home program.

Thesis examinations of written theses are open.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar and the program's website.

### Program Admissions Information

Deadlines for the submission of complete applications are available on the Future Students website:

<http://www.ucalgary.ca/future-students/graduate/explore-programs/military-security-strategic-studies-master-strategic-studies-course-based>.

In addition to the **admission** requirements of the Faculties of Graduate Studies and Arts, CMSS requires:

- a) A four-year bachelor's degree with a grade point average of at least 3.40 on a four-point scale.
- b) A writing sample.
- c) English language proficiency: TOEFL with a minimum score of 97 (Internet-based test); 7.0 on the IELTS test; 68 on the PTE test; a CAEL score of 70 (with no section less than 70); a Duolingo score of 135 (with no subscore below 115); or a Cambridge Proficiency score of 191. This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in each course.
- d) Two letters of reference.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

MSS, course-based students will complete 24 units of coursework consisting of:

a) 12 units of core courses:

**Complete ALL of the following Courses:**

- HTST655 - (STST 655)Classics Of Strategy  
**AND** POLI685 - Strategic Studies  
**AND** STST647 - 21st Century Security Issues  
**AND** STST610 - Questions and Methods  
**AND** STST612 - Questions and Methods II

b) 9 units of additional graduate courses which may include, but is not limited to:

**Complete ANY of the following Courses:**

- ANTH641 - Seminar in Civil-Military Relations  
**OR** HTST637 - Topics in Military History  
**OR** HTST655 - (STST 655)Classics Of Strategy  
**OR** POLI619 - War and Interpretation  
**OR** POLI633 - US Security Policy  
**OR** POLI643 - Law and Armed Conflict  
**OR** POLI675 - Selected Topics in Advanced Comparative Politics  
**OR** POLI681 - Advanced Analysis of International Relations  
**OR** POLI687 - Advanced Studies in Canadian Arctic Security  
**OR** POLI689 - Unconventional Warfare  
**OR** STST609 - The Canadian Military in the Second World War  
**OR** STST611 - Canadian Military Studies  
**OR** STST613 - The Canadian Military in the First World War  
**OR** STST649 - Special Topics in Military, Security and Strategic Studies  
**OR** STST651 - Reading Seminar

**OR STST653 - Research Seminar**

**OR STST663 - Wars - Causes & Aftermaths**

With the approval of the Graduate Program Director, any graduate course pertinent to the student's studies may be taken. Also consult the program website <https://arts.ucalgary.ca/centre-military-security-strategic-studies> for a list of other recommended graduate courses.

### Additional Comments:

c) **STST653 Research Seminar** (3 units) research paper

\*Skills Internship Option: An extra to degree option available to students upon completion of all degree requirements. Through the Faculty of Graduate Studies students may take a Transformative Talent Internship designed to explore career options and develop practical skills: <https://grad.ucalgary.ca/my-gradskills/experiential-learning/internships>.

### Additional Program Information

#### Type

Completion Requirement

### Additional Comments:

### Advanced Credit

In the course-based master's program, **advanced credit** may be given for a maximum of two courses (6 units) at the senior undergraduate (500) level. The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to the required level for admission.

### Flexible Grade Option (CG Grade)

The Centre for Military, Security and Strategic Studies for our MSS course-based program will not permit the **Flexible Grade Option (CG Grade)** for any course offered by the CMSS and the other departments from which our students take courses.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

With the approval of the Graduate Director, students enrolled in the course-based MSS program may apply to take one 500-level course for graduate credit but are required to complete additional requirements for the course.

### Time Limit

Expected completion time is one year for the course-based MSS. Maximum completion time is four years.

### Financial Assistance

#### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the **Awards and Financial Assistance** section of this Calendar.

**Time Limit**

Expected completion time is two years for the thesis-based MSS. Maximum completion time is four years.

## Supervisory Assignments and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

An incoming student for the thesis-based program must have a proof of agreement to supervise from one or more faculty members in the student's proposed area of thesis research. Admission will not be granted without proof that adequate supervision is available during the applicant's studies. The selection of an eligible Permanent Supervisor is made by mutual agreement between the student, the faculty member, and the Graduate Program Director. A permanent Supervisor should normally be appointed by the end of April of the first year of registration. At the time of appointment, the Permanent Supervisor should be currently active in research in an area related to the student's interest.

## Thesis Examination

In addition to the Faculty of Graduate Studies [Thesis Examination](#) requirements, the program requires:

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

Doctoral students will normally be admitted as full-time students. In consultation with the Faculty of Graduate Studies, the Graduate Program Director may, however, approve requests for part-time registration or transfer from full-time to a part-time status.

Location: 8th floor, Social Sciences Building

Program number: 403.220.4038

Fax: 403.282.0594

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: <https://cmss.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadlines for the submission of complete applications are available on the Future Students website:

<http://www.ucalgary.ca/future-students/graduate/explore-programs/military-security-strategic-studies-doctor-philosophy-thesis-based>.

In addition to the **admission** requirements of the Faculties of Graduate Studies and Arts, CMSS requires:

Applicants will be admitted only if the CMSS Graduate Committee is satisfied that adequate supervision is likely to be available for the duration of their studies. Successful applicants should be aware that admission to the program depends upon a match between student and faculty interests, as well as availability of faculty supervision. Students are also advised to consult the Faculty of Graduate Studies and the **academic regulations** section in this calendar.

Prerequisites for admission to the PhD program are:

- a) A completed master's degree.
- b) Normally, a minimum of two years of professional, on-going experience (or equivalent) in the security and defence field.
- c) A GPA of 3.70 on a four-point scale over all completed graduate courses in the master's program; 3.40 in the undergraduate program over the last 60 units or two years of study.
- d) A detailed statement of the proposed thesis research explaining how the thesis would relate to one's work experience and/or professional career goals.
- e) A representative piece of written work, normally a master's thesis chapter or major research paper.
- f) A tentative agreement from a faculty member to supervise. Students need to contact potential supervisors at the beginning of the application process.
- g) English language proficiency: TOEFL with a minimum score of 97 (Internet-based test); 7.0 on the IELTS test; 68 on the PTE test; a CAEL score of 70 (with no section less than 70); a Duolingo score of 135 (with no subscore below 115); or a Cambridge Proficiency score of 191. This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in each course.
- h) Two letters of reference.
- i) Email confirmation from a potential supervisor who is interested in supervising the student's work is required.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to Faculty of Graduate Studies **requirements** and Faculty of Arts requirements:

Doctoral students will normally complete 15 units of coursework consisting of:

**Complete ALL of the following Courses:**

- HTST655 - (STST 655) Classics Of Strategy  
**AND** POLI685 - Strategic Studies  
**AND** STST647 - 21st Century Security Issues  
**AND** STST751 - Reading Seminar  
**AND** STST753 - Research Seminar

#### Additional Comments:

It is strongly recommended that PhD students also take **STST610 Questions and Methods** and **STST612 Questions and Methods II**.

\*For candidacy examinations, students have two major fields of study. One of these will be strategic studies and the other the dissertation area. Students will be required to take 3 units preparation in each field, namely STST751 Reading Seminar and STST753 Research Seminar.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to the required level for admission.

### Flexible Grade Option (CG Grade)

The Centre for Military, Security and Strategic Studies will not permit the Flexible Grade Option (CG Grade) for any course offered by the CMSS and the other departments from which our students take courses.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Time Limit

Expected completion time for the PhD in Military and Strategic Studies is four years and maximum completion time is six years.

#### Supervisory Assignments and Required Examinations

##### Type

##### Additional Comments:

### Supervisory Assignments

An incoming student must have a proof of agreement to supervise from one or more faculty members in the student's proposed area of thesis research. Admission will not be granted without proof that adequate supervision is available during the applicant's studies. The selection of an eligible Permanent Supervisor is made by mutual agreement between the student, the faculty member, and the Graduate Program Director. A permanent Supervisor should normally be appointed by the end of April of the first year of registration. At the time of appointment, the Permanent Supervisor should be currently active in research in an area related to the student's interest.

The Supervisory Committee should be appointed as quickly as possible but no later than three months after the appointment of the Permanent Supervisor.

### Required Examinations

In addition to the Faculty of Graduate Studies Thesis Examination requirements, the program requires:

### Candidacy

Doctoral students must complete a written thesis proposal, which is approved by their Supervisory Committee in a thesis proposal meeting, as well as pass oral and written Field of Study examinations. For complete details of candidacy requirements and examination format, see

[https://www.ucalgary.ca/pubs/calendar/grad/current/cmss.ucalgary.ca/phd/program\\_requirements](https://www.ucalgary.ca/pubs/calendar/grad/current/cmss.ucalgary.ca/phd/program_requirements).

### Thesis Examination

*Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

#### **Financial Assistance**

##### **Type**

Completion Requirement

##### **Additional Comments:**

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

**Program is suspended and is not currently accepting applications.**

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [arts.ucalgary.ca/schools/creative-performing-arts/music/graduate](https://arts.ucalgary.ca/schools/creative-performing-arts/music/graduate)

## Admissions

### Program Admissions Information

The deadline for the submission of complete applications is available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/music-master-music-thesis-based](https://ucalgary.ca/future-students/graduate/explore-programs/music-master-music-thesis-based).

In addition to Faculties of Graduate Studies and Arts requirements, Music requires that all applicants submit:

- a) A completed Bachelor of Music degree, including study in conducting.
- b) Demonstrated ability in an audition, which can be met in two ways:
  - A video of approximately fifteen minutes.
  - A rehearsal of a University ensemble (during Fall and early Winter).
- c) Demonstrated competence on a major instrument or voice.
- d) One-page letter detailing their specific reasons for pursuing graduate study.
- e) Two reference letters.

## Program Details

### Simple Requisites

#### **Program/Course Requirements**

##### **Type**

Completion Requirement

##### **Additional Comments:**

Students should consult the Graduate Program Director before registering in courses.

In addition to Faculties of Graduate Studies and Arts requirements, Music, excluding qualifying courses, requires:

- [MUSI631 Res Tech & Biblio of Music](#)
- [MUPF632 Advanced Choral Conducting](#) or [MUPF634 Advanced Instrumental Conducting](#)
- 3-unit graduate course in Music Theory, Composition, Sonic Arts or Music History and Literature
- 6 units of graduate Music courses, and
- 6 units of approved graduate courses in any area.

No more than 6 units may be from independent study courses [MUSI661 Independent Study](#) and [MUED655 Independent Study](#).

Diagnostic tests in music history and theory will be given to all entering master's students in order to determine if qualifying work in these areas is required. Qualifying work, if required, is normally completed in the first year of study.

## Language

While there are no formal second-language requirements for the various programs of the Master of Music degree, students may be required to attain proficiency in a language other than English where this is deemed appropriate for the proposed thesis/project.

All master's degree programs require a thesis or recital or project equivalent, prepared under the guidance of a supervisor and approved by the Music Graduate Studies Committee.

The thesis is interpreted to be two public performances, on or off campus, with University or community ensembles. At least one Canadian work should be included in one of the recitals. The examining committee will evaluate the candidate's performance in both of the recitals. Recital proposals are to be submitted to the Graduate Program Administrator for approval by the Graduate Committee at least two months before each performance.

### Additional Program Information

#### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

The Music program in the School of Creative and Performing Arts will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the Music Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Time Limit

Maximum completion time is five years for the Master of Music programs.

### Supervisory Assignments and Required Examinations

#### Type

Completion Requirement

**Additional Comments:**

### **Supervisory Assignments**

The Graduate Program Director will function as the interim supervisor for all newly admitted students during their first term. This arrangement will allow students to use their first term as an opportunity to meet with faculty and to secure a permanent supervisor.

### **Required Examinations**

A comprehensive oral examination encompassing all areas of the chosen field is required. This examination will take place following the completion of coursework and must be satisfactorily completed before the submission of the thesis/project.

### **Thesis Examinations**

In addition to Faculty of Graduate Studies requirements for [Thesis Examinations](#), the program requires:

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

Normally, the Internal Examiner is external to the home program.

Thesis examinations of written theses are open.

### **Financial Assistance**

#### **Type**

Completion Requirement

#### **Additional Comments:**

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar and the program's website.

## **Overview**

### **General Program Information**

The University offers an interdisciplinary specialization in Computational Neuroscience in the following faculties and graduate programs:

- Cumming School of Medicine, Neuroscience
- Department of Computer Science
- Faculty of Arts, Psychology
- Faculty of Science, Physics and Astronomy
- Graduate Program in Biomedical Engineering

The specialization is offered at the MSc (thesis-based) and PhD levels.

Location: ACH B4-514

Faculty Number: 403-955-7389

Fax: 403-955-2772

E-mail address: <mailto:sibray@ucalgary.ca>

Web page URL: <https://hbi.ucalgary.ca/computational-neuroscience/graduate-specialization/about-program>

## Admissions

### Program Admissions Information

The deadlines for applying for admission into the Computational Neuroscience specialization are those of the home graduate program:

- [MSCT Biome](#)
- [PHD Biomed](#)
- [MSCT Compu](#)
- [PHD Comput](#)
- [MSCT Neuro](#)
- [PHD Neuroc](#)
- [MSCT Physi](#)
- [PHD Physic](#)
- [MSCT Psych](#)
- [PHD Psycho](#)

Admission into a graduate program that offers the interdisciplinary specialization and the submission and approval of a written request to the specialization director to join the specialization. The program is open to both Canadian and international students.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the [requirements](#) of the Faculty of Graduate Studies and the home program:

#### **MSc students are required to complete:**

- [MDSC628 Intro Computational Neuroscien](#)\*; plus
- a minimum of 3 units of courses from the Neuroscience Series (see below).

#### **PhD students are required to complete:**

- [MDSC628 Intro Computational Neuroscien](#)\*; plus
- a minimum of 3 additional units of courses from the Computational Series (see below); and
- a minimum of 6 units of courses from the Neuroscience Series (see below).

\*Medical Science 628 (Introduction to Computational Neuroscience) is expected to be completed unless approval is received from the Computational Neuroscience program oversight committee to substitute another Computational Series course.

COMPUTATIONAL SERIES			NEUROSCIENCE SERIES
BMEN515 Bioeng Methods in Sys & Physio	MATH685 Stochastic Processes	PHYS521 Non-linear Dynamics and Chaos	MDSC619.01 Cellular,MolecularNeuroscience
BMEN619 Advanced Topics in BMEN	MDSC605 (Cpsc605)InfoStoreProcBioSys	PHYS581 Computational Physics III	MDSC619.02 Sys Neuroscience & Neuropath
CPSC607 Biological Computation	MDSC689.01 Medical Imaging Techniques	PHYS605 Advanced Data Analysis	MDSC622 Neurobiology of Mental Illness
CPSC635 ImageAnalysis&ComputerVision	MDSC689.02 Adv Magnetic Resonance Imaging	PHYS619 Statistical Physics II	MDSC624 Neuroanatomy

MATH669.01 Wavelet Analysis	MDSC689.99 Medical Imaging Project	PSYC615 Analysis of Variance	PSYC625 Clinical Neuropsychology
MATH669.03 Mathematical Biology	MDSC755 Directed Study	PSYC617 Multivariate Data Analysis	

Note: Other course options may be available with approval from the Program Oversight Committee.

All students are expected to participate in a Computational Neuroscience journal club. Students will also be expected to attend relevant seminars and present their work at a work-in-progress seminar series during their degree.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant should make requests for Advanced Credit at the time of application, as part of the admissions process. Credit may be granted for appropriate courses to count towards the specialization with approval of the Computational Neuroscience program.

### Credit for Undergraduate Courses

Credit will not be given for undergraduate or 500-level courses.

### Time Limit

Completion times follow the Faculty of Graduate Studies regulations (see Time Limits).

### Supervisory Assignments and Required Examinations

See requirements of home program:

- MSCT Biome
- PHD Biomed
- MSCT Compu
- PHD Comput
- MSCT Neuro
- PHD Neuroc
- MSCT Physi
- PHD Physic
- MSCT Psych

- [PHD Psycho](#)

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, please see the [Awards and Financial Assistance](#) section.

## Overview

### General Program Information

Students may register in the MSc program as part-time students only with permission from the Department.

### Specializations:

- [MSCT Comp](#). The specialization is offered jointly through the Department of Computer Science and the Department of Electrical and Software Engineering.
- [Wearable T](#)
- [Comp Neuro](#)

Location: Science A Building, Room 229

Email address: <mailto:sci.grad@ucalgary.ca>

Web page URL: <http://www.cpsc.ucalgary.ca/>

[GCERT Data](#)

[GCERT Netw](#)

[GCERT Soft](#)

[Master of](#)

## Admissions

### Program Admissions Information

The deadline for completed applications is available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/computer-science-master-science-thesis-based>.

In addition to Faculties of Graduate Studies and Science [admission requirements](#), the Department requires:

a) An undergraduate background of either:

A four-year bachelor's degree or equivalent in Computer Science from a recognized institution with a minimum GPA of 3.30 in the last two years (i.e., last 60 units) of the undergraduate program

OR

A four-year bachelor's degree or equivalent from a recognized institution with a minimum GPA of 3.30 in the last two years (i.e., last 60 units) of the undergraduate program.

## UCalgary

In addition, candidates must have an undergraduate course at the 3rd or 4th year level in each of the following computer science areas:

- Theory of Computation
- Software Engineering
- Systems (Operating Systems, Compilers, Distributed Systems, Networking)
- Application (Artificial Intelligence, Graphics, Databases, etc.)

The cumulative GPA for these courses must be at least 3.30.

Post-degree Computer Science courses may be considered in calculating the GPA. Exceptions to the GPA requirements may be considered for students with either:

- Demonstrated research excellence, or
- GRE General scores of at least 600 verbal and 750 quantitative and either 720 analytical (old test format) or 5.5 (new test format).

b) All students whose primary language is not English are required to take a language proficiency test: TOEFL (Internet-based) with a minimum score of 97; IELTS with a minimum score of 7.0; a CAEL score of 70 with no section less than 70; a PTE with a minimum score of 68; or the Cambridge C2 proficiency with a score of 191. This requirement can also be met by completing the Academic Communication Certificate with a minimum grade of "A-" in writing courses.

c) Two letters of reference.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

To satisfy program course requirements, a set of proposed courses must be approved by the supervisor(s) and the Graduate Program Director or delegate, in their entirety; individual courses cannot be approved in isolation. In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Science requirements, the Department requires:

a) Course Requirements: [CPSC699 Research Methodology in Cpsc](#), plus:

b) Twelve units of additional courses. A minimum of 6 units must be graduate-level computer science courses (labelled CPSC or SENG), excluding professional program courses, and a maximum of 3 units can be an undergraduate course that must be numbered at the 500 level.

It is recommended that students who are considering continuing on to a doctoral program or entering certain career paths, select courses that demonstrate some breadth across Computer Science (see [PHD Comput](#) Breadth Requirements for details).

c) Seminar Requirement: Students are required to give a Department seminar presentation on a topic related to their graduate research.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make [advanced credit](#) requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

Students admitted to the Department of Computer Science will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

For MSc programs, at most 3 units at the 500 level may be taken as part of the course work requirement. This must be approved by the supervisor(s) and by the Graduate Program Director or delegate. Units below the 500 level are not acceptable for credit. Exceptions to this rule will be permitted only with the approval of the supervisor(s) and of the Graduate Program Director or delegate.

### Time Limit

Expected completion time is two years for thesis-based Master of Science.

### Supervisory Assignments, Research Proposal, and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

Students are admitted to a specific research area and supervisor. Students may seek a change in research area or supervisor after admission. Such a change must be satisfactory to the student, and to the proposed new supervisor. Provided this change meets any current supervisory load constraints, this change will be supported and approved by the Graduate Program Director or delegate.

### Research Proposal Requirements

At the master's level, research proposal requirements are determined by the supervisor.

### Thesis Examination

In addition to the Faculty of Graduate Studies regulations for **thesis examinations**, the Department requires:

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

Thesis examinations are open.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the **Awards and Financial Assistance** section of this Calendar. Successful applicants may be offered Departmental teaching assistantships and/or research assistantships in their offer letter.

Students should contact the Department for information on scholarship deadlines.

## Admissions

### Program Admissions Information

The deadline for completed applications is available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/computer-science-doctor-philosophy-thesis-based>.

---

To satisfy program course requirements, a set of proposed courses must be approved by the supervisor(s) and the Graduate Program Director or delegate, in their entirety; individual courses cannot be approved in isolation. In addition to Faculties of Graduate Studies and Science [admission requirements](#), the Department requires:

- A Master of Science, thesis-based degree from a recognized institution with a minimum GPA of 3.30. For exceptional students applying with a Bachelor of Science degree, a four-year Honours degree or its equivalent from a recognized institution with a minimum GPA of 3.70 and demonstrated research ability.
- All students whose primary language is not English are required to take a language proficiency test: TOEFL (Internet-based) with a minimum score of 97; IELTS with a minimum score of 7.0; a CAEL score of 70 with no section less than 70; a PTE with a minimum score of 68; or the Cambridge C2 proficiency with a score of 191. This requirement can also be met by completing the Academic Communication Certificate with a minimum grade of "A-" in writing courses.
- Two letters of reference.

## Program Details

### Simple Requisites

#### Program/Course Requirements

#### Type

#### Completion Requirement

#### Additional Comments:

To satisfy program course requirements, a set of proposed courses must be approved by the supervisor(s) and the Graduate Program Director or delegate, in their entirety; individual courses cannot be approved in isolation. In addition to the Faculty of Graduate Studies [requirements](#) and Faculty of Science requirements, the Department requires:

- a) Course Requirements: Students will be required to have achieved at least a grade of "B-" in a minimum of 24 units beyond the requirements for an undergraduate degree before completion of the PhD degree. A minimum of 9 units of these must be taken while the student is enrolled as a PhD student in Computer Science at the University of Calgary. Of the 24 units, a minimum of 18 units must be graduate-level courses, excluding professional program courses, with the remaining 6 units being either graduate-level courses or advanced (500-level) undergraduate courses. A minimum of 12 units of the required courses must be taken from a degree-granting Computer Science Department. In addition to the above courses, Computer Science 699 or equivalent experience is required and does not count toward the minimum 24 units courses above.
- b) Breadth Requirements: The above courses must be taken from multiple research areas. A maximum of six courses (18 units) in one research area are counted toward the minimum 24 units. Courses in the intersection of two or more areas are counted in the area with the most completed course credits. The current research areas are: Artificial Intelligence and Multi-Agent Systems, Bioinformatics and Biological Computations, Computer Graphics, Computer Vision and Image Processing, Database, HCI and Visualization, Networks and Systems, Security, Theory and Foundations, Scientific Computing, Software Engineering, Other areas in Computer Science, External to Computer Science. Credits for courses external to the Department of Computer Science are only given on condition that no Computer Science course which covers similar content is counted toward the required eight courses; such courses will be counted toward the appropriate areas in Computer Science.
- c) Seminar Requirement: Students are required to give a Department seminar presentation on a topic related to their graduate research.

### Additional Program Information

#### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

The applicant must make [advanced credit](#) requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

Students admitted to the Department of Computer Science will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

For PhD programs, at most 6 units at the 500 level may be taken as part of the course work requirement; at most one of these taken while registered in the current PhD program. This must be approved by the supervisor(s) and by the Graduate Program Director or delegate on the normal Doctor of Philosophy Course Approval Form (available from the Department). Units below the 500 level are not acceptable for credit. Exceptions to this rule will be permitted only with the approval of the supervisor(s) and of the Graduate Program Director or delegate.

### Time Limit

Expected completion time for doctoral students entering with a master's degree is four years, and five years for a student transferring to the doctoral program without a master's degree.

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

Students are admitted to a specific research area and supervisor. Students may seek a change in research area or supervisor after admission. Such a change must be satisfactory to the student, and to the proposed new supervisor. Provided this change meets any current supervisory load constraints, this change will be supported and approved by the Graduate Program Director or delegate.

Doctoral students select their supervisory committee members in consultation with their permanent supervisors.

## Research Proposal Requirements

At the doctoral level, the thesis proposal must be approved by the student's supervisory committee before an oral examination on the proposal is scheduled. For complete details of the requirements, see

[http://www.ucalgary.ca/cpsc/graduate/programs/doctoral\\_phd\\_thesis\\_based/current\\_regulations](http://www.ucalgary.ca/cpsc/graduate/programs/doctoral_phd_thesis_based/current_regulations).

## Required Examinations

### Candidacy

Doctoral students must complete a written Field of Study examination, a written thesis proposal, and an oral examination on the thesis proposal. For complete details of the candidacy requirements, see

[http://www.ucalgary.ca/cpsc/graduate/programs/doctoral\\_phd\\_thesis\\_based/current\\_regulations](http://www.ucalgary.ca/cpsc/graduate/programs/doctoral_phd_thesis_based/current_regulations).

### Thesis Examination

In addition to the Faculty of Graduate Studies regulations for [Thesis Examinations](#), the department requires:

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

Thesis examinations are open.

## Financial Assistance

### **Type**

Completion Requirement

### **Additional Comments:**

Financial assistance may be available to qualified students. For information on awards, see the **Awards and Financial Assistance** section of this Calendar. Successful applicants may be offered Departmental teaching assistantships and/or research assistantships in their offer letter.

Students should contact the Department for information on scholarship deadlines.

## **Overview**

### **General Program Information**

The purpose of the graduate program in Clinical Psychology is to prepare students for careers as doctoral-level clinical psychologists in research, academic, and applied settings. In the course of doctoral training students also are required to complete the Master of Science (MSc) degree. However, consistent with its goal of doctoral training, the program only admits students who wish to pursue the doctoral degree. Students will be able to emphasize one of three areas of interest: adult clinical psychology, child clinical psychology or clinical neuropsychology.

Students registered in master's thesis-based and doctoral programs will be considered full-time. The program does not offer a part-time option.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [psyc.ucalgary.ca/graduate-program/program-clinical-psychology](https://psyc.ucalgary.ca/graduate-program/program-clinical-psychology)

## **Admissions**

### **Program Admissions Information**

The deadline for complete applications is available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/clinical-psychology-master-science-thesis-based](https://ucalgary.ca/future-students/graduate/explore-programs/clinical-psychology-master-science-thesis-based).

In addition to the Faculties of Graduate Studies and Arts **requirements**, the program requires:

- a) An honours degree (or equivalent) in psychology or related discipline with a minimum grade point average of 3.60 on a four-point scale in the last 60 units to be considered for entry, although competition for the program is such that higher grade point averages are typical of students who are admitted.
- b) A statement of research and professional interests (maximum 500 words), including the specification of prospective research supervisors from among current Program faculty.
- c) A research proposal.
- d) For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 105 (Internet-based test), or an IELTS score of 7.5, or a CAEL score of 70 with a minimum of 70 in each component, or a PTE score of 75. This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in each course.
- e) Two academic reference letters.

Additional information about applying to the Clinical Psychology program can be found in the document **Important Things to Know about our Admissions Process** at: <https://arts.ucalgary.ca/psychology/future-students/graduate/programs/clinical->

## psychology.

Master of Science students must formally apply and be approved by the program and the Faculty of Graduate Studies for admission to the doctoral program upon completion of Master of Science requirements.

### Undergraduate Breadth Courses

In preparation for graduate studies, students are strongly encouraged to take the following senior-level undergraduate courses:

- 3 units in the history and systems of psychology (e.g., Psychology 305, 405 or equivalent)
- 6 units in biological bases of behaviour (e.g., Psychology 369, 375, 469, 471, 473, 475, 478, 479 or equivalents)
- 6 units in cognitive-affective bases of behaviour (e.g., Psychology 365, 373, 455, 463 or equivalents)
- 6 units in social bases of behaviour (e.g., Psychology 345, 442, 443, 447 or equivalents)
- 6 units in individual behaviour (e.g., Psychology 383, 385, 431, 492 or equivalents).

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

#### Complete ALL of the following Courses:

- PSYC601 - History of Psychology  
**AND** PSYC615 - Analysis of Variance  
**AND** PSYC617 - Multivariate Data Analysis  
**AND** PSYC623 - Functional Neuroanatomy  
**AND** PSYC650 - Clinical Research  
**AND** PSYC651 - Development and Psychopathology  
**AND** PSYC659 - Ethics and Professional Issues  
**AND** PSYC671 - Adult Assessment  
**AND** PSYC673 - Child Assessment  
**AND** PSYC680 - Lifespan Psychotherapy
- a 3-unit elective selected from graduate-level Psychology courses with approval by the Graduate Program Director
- Practicum I\*

### Practicum Requirements

Practicum I (MSc) and Advanced Practicum I and II (PhD) are milestone requirements of the program. Advanced Practicum III (PhD) is an optional practicum milestone.

- Students must successfully complete these supervised practicums with a maximum of 14 hours a week for a maximum of 10 months.
- Each practicum involves a supervised training experience in an approved clinical setting.
- Practicums provide advanced in-depth exposure to specific clinical populations and to the application of various psychological assessment and intervention strategies and techniques.
- Only students who are registered in the program may undertake any of the Practicums.
- The specific requirements of the Practicums are established on a student-by-student basis.
- Practicums will not be included in GPA calculations.
- Students may request to take an additional practicum called Advanced Practicum III to be added to either a Master or Doctoral program if requested by the student and agreed to by the supervisor.

#### Additional Comments:

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

Advanced Credit may be given for up to 12 units of graduate work, if this work is consistent with the program's requirements.

### Flexible Grade Option (CG Grade)

The Clinical Psychology program in the Psychology Department will not permit the Flexible Grade Option (CG Grade) for any course offered by the Clinical Psychology Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Students admitted to the program who completed undergraduate breadth courses or their equivalents (see Admissions) may be exempt from comparable breadth requirements in their graduate program.

### Time Limit

It is expected that students will complete the MSc thesis within 2 years. Students in the MSc program must complete all requirements within 4 registration years. Students who have taken three years to complete all requirements for the master's degree will normally not be admitted into the doctoral program. It is possible for students to complete the MSc and PhD program within 5 years.

#### Supervisory Assignments, Research Proposal and Required Examinations

##### Type

Completion Requirement

##### Additional Comments:

### Supervisory Assignments

Program students must have a research supervisor at all times. Supervisors are arranged by mutual consent of student and faculty member, and are consistent with the focus of the student's research work. Master's level students must have a supervisory committee consisting of at least three members, with at least one who is a member of the core clinical faculty.

### Research Proposal

Students in the program must complete both a master's thesis and doctoral thesis, according to the criteria set by the Faculty of Graduate Studies. These research projects typically involve the design of a research question and research project, the collection, analysis and interpretation of original data, and the preparation of a written document consistent with good scholarship. Students whose research involves human subjects must receive approval from the appropriate departmental or University Ethics Review Committee before beginning data collection.

### Thesis Examinations

Final thesis oral examinations are open.

##### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled

## *Composition of the Committee*

The Internal Examiner must be external to the home program.

Core faculty members in the Psychology and Clinical Psychology programs are not eligible to serve as Internal Examiner; however, adjunct faculty members are eligible to serve in this capacity.

## **Financial Assistance**

### **Type**

Completion Requirement

### **Additional Comments:**

Financial assistance may be available to qualified students. Applicants and program students are strongly encouraged to apply for internal and external awards. For information on Awards, see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for scholarships must submit their applications to the Department by January 15.

## **Overview**

### **General Program Information**

The purpose of the graduate program in Clinical Psychology is to prepare students for careers as doctoral-level clinical psychologists in research, academic, and applied settings. In the course of doctoral training students also are required to complete the **MSCT Clini** degree. However, consistent with its goal of doctoral training, the program only admits students who wish to pursue the doctoral degree. Students will be able to emphasize one of three areas of interest: adult clinical psychology, child clinical psychology or clinical neuropsychology.

Students registered in master's thesis-based and doctoral programs will be considered full-time. The program does not offer a part-time option.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [psyc.ucalgary.ca/graduate-program/program-clinical-psychology](http://psyc.ucalgary.ca/graduate-program/program-clinical-psychology)

## **Admissions**

### **Program Admissions Information**

The deadline for complete applications is available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/clinical-psychology-doctor-philosophy-thesis-based](http://ucalgary.ca/future-students/graduate/explore-programs/clinical-psychology-doctor-philosophy-thesis-based)

In addition to the Faculty of Graduate Studies [admission](#) requirements and Faculty of Arts requirements, the program requires:

- An honours degree (or equivalent) in psychology or related discipline with a minimum grade point average of 3.60 on a four-point scale in the last 60 units to be considered for entry, although competition for the program is such that higher grade point averages are typical of students who are admitted.
- A statement of research and professional interests (maximum 500 words), including the specification of prospective research supervisors from among current Program faculty.
- A research proposal.
- For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 105 (Internet-based test), or an IELTS score of 7.5, or a CAEL score of 70 with a minimum of 70 in each component, or a PTE score of 75. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.
- Two academic reference letters.

Additional information about applying to the Clinical Psychology program can be found in the document **Important Things to Know about our Admissions Process** at: <https://arts.ucalgary.ca/psychology/future-students/graduate/programs/clinical-psychology>.

Master of Science students must formally apply and be approved by the program and the Faculty of Graduate Studies for admission to the doctoral program upon completion of Master of Science requirements.

## Undergraduate Breadth Courses

In preparation for graduate studies, students are strongly encouraged to take the following senior-level undergraduate courses:

- 3 units in the history and systems of psychology (e.g., Psychology 305, 405 or equivalent)
- 6 units in biological bases of behaviour (e.g., Psychology 369, 375, 469, 471, 473, 475, 478, 479 or equivalents)
- 6 units in cognitive-affective bases of behaviour (e.g., Psychology 365, 373, 455, 463 or equivalents)
- 6 units in social bases of behaviour (e.g., Psychology 345, 442, 443, 447 or equivalents)
- 6 units in individual behaviour (e.g., Psychology 383, 385, 431, 492 or equivalents).

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department requires:

- **PSYC625 Clinical Neuropsychology**, **PSYC627 Neuropsychological Testing**, and **PSYC750**.
- 3 units in each of the four breadth areas. This requirement may be satisfied by completing **PSYC750 Adv Seminar In Clinical Psyc** and other graduate Psychology courses selected with approval by the Graduate Program Director.
  1. Biological bases of behaviour;
  2. cognitive-affective bases of behaviour;
  3. social bases of behaviour; and
  4. individual behaviour.
- Advanced Practicum I, Advanced Practicum II\*

\*See Practicum and Internship Requirements for further information.

## Practicum Requirements

Practicum I and Advanced Practicum I and II are milestone requirements of the program. Advanced Practicum III is an optional practicum milestone.

- Students must successfully complete these supervised practicums with a maximum of 14 hours a week for a maximum of 10 months.
- Each practicum involves a supervised training experience in an approved clinical setting.
- Practicums provide advanced in-depth exposure to specific clinical populations and to the application of various psychological assessment and intervention strategies and techniques.
- Only students who are registered in the program may undertake any of the Practicums.
- The specific requirements of the Practicums are established on a student-by-student basis.
- Practicums will not be included in GPA calculations.
- Students may request to take an additional practicum called Advanced Practicum III to be added to either a Master or Doctoral program if requested by the student and agreed to by the supervisor.

## Pre-Doctoral Internship Requirements

12-month Pre-Doctoral Internship is a milestone requirement of the program.

- Students must successfully complete a 12-month, full-time supervised training experience in an approved clinical setting.
- Only students who are registered in the program and in their final year of study may undertake the Doctoral Internship.
- The Internship includes intensive exposure to various professional issues, the opportunity to work with a diverse range of clinical populations and problems, and advanced training in the use of specific psychological assessment and intervention strategies.
- The specific requirements of the Doctoral Internship are established on a student-by-student basis.
- The internship will not be included in GPA calculations.
- Failure to exhibit appropriate clinical suitability or professional conduct may constitute grounds for failure.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

Advanced Credit may be given for up to 12 units of graduate work, if this work is consistent with the program's requirements.

### Flexible Grade Option (CG Grade)

The Clinical Psychology program in the Psychology Department will not permit the Flexible Grade Option (CG Grade) for any course offered by the Clinical Psychology Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

Students admitted to the program who completed undergraduate breadth courses or their equivalents (see Admissions) may be exempt from comparable breadth requirements in their graduate program.

### Time Limit

It is expected that students will complete the MSc thesis within 2 years. Students in the MSc program must complete all requirements within 4 registration years. Students who have taken three years to complete all requirements for the master's degree will normally not be admitted into the doctoral program. It is possible for students to complete the MSc and PhD program within 5 years. Maximum time to completion for the doctoral program is 6 years.

#### Supervisory Assignments, Research Proposal and Required Examinations

##### Type

Completion Requirement

##### Additional Comments:

### Supervisory Assignments

Program students must have a research supervisor at all times. Supervisors are arranged by mutual consent of student and faculty member, and are consistent with the focus of the student's research work. Doctoral candidates must have a supervisory committee of at least three members.

### Research Proposal

Students in the program must complete both a master's thesis and doctoral thesis, according to the criteria set by the Faculty of

Graduate Studies. These research projects typically involve the design of a research question and research project, the collection, analysis and interpretation of original data, and the preparation of a written document consistent with good scholarship. Students whose research involves human subjects must receive approval from the appropriate departmental or University Ethics Review Committee before beginning data collection.

## Required Examinations

In addition to Faculty of Graduate Studies requirements, the program requires:

## Candidacy

Doctoral students must complete a written thesis proposal and pass oral and a written Field of Study examinations. For complete details of the examination format and other candidacy requirements, see [psyc.ucalgary.ca/graduate-program/program-clinical-psychology](https://psyc.ucalgary.ca/graduate-program/program-clinical-psychology).

## Thesis Examination

Final thesis oral examinations are open.

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled

### *Composition of the Committee*

The Internal Examiner must be external to the home program.

Core faculty members in the Psychology and Clinical Psychology programs are not eligible to serve as Internal Examiner; however, adjunct faculty members are eligible to serve in this capacity.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. Applicants and program students are strongly encouraged to apply for internal and external awards. For information on Awards, see the [Awards and Financial Assistance](#) section of this Calendar. Students applying for scholarships must submit their applications to the Department by January 15.

## Overview

### General Program Information

**Graduate Certificates in Social Work** serve as stand-alone credentials for practicing social workers who seek formal professional development opportunities in their field or provide practicing social workers a flexible option to pursue the MSW degree.

Students may complete a given certificate only once. Repeating the same certificate is not permitted. Not all Graduate Certificates and specializations are offered every year. For availability, consult the Faculty of Social Work [website](#).

### Program Delivery

The certificates are completed full-time and courses are offered by distance (online) learning. Most require virtual and/or in-person residencies in Calgary or Edmonton. Failure to attend residencies may result in a student being withdrawn from the course(s) or program.

Note: International students admitted to a Graduate Certificate with a mandatory in-person campus residency must present a valid study permit approval letter and/or study permit to Student Services in the Faculty of Social Work prior to the start of the program.

## Specializations (CSWP):

- Adult Mental Health and Addictions
- Individuals, Families and Group
- Infant, Child and Adolescent Mental Health
- Trauma-Informed Practice
- Clinical Gerontology Practice
- Community-Informed Practice for Health and Wellbeing

---

## Laddered Pathway from Graduate Certificates to MSW

Students who complete the Graduate Certificate in Clinical Social Work Practice (CSWP) and one of: [GCERT Adva](#), [GCERT Inte](#) or [Social Wor](#) may apply to the Master of Social Work (course-based) program. See [LADMSWCB](#).

---

Email Address: <mailto:fsw.studentservices@ucalgary.ca>

Web page URL: <https://socialwork.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadlines are available on the Future Students webpage: <https://grad.ucalgary.ca/future-students/explore-programs/social-work-cert>.

Students who wish to complete two successive certificates through a laddered pathway into the MSW (course-based) degree must apply to each certificate and the MSW (a total of three applications) and will receive each credential upon its successful completion.

---

In addition to the Faculty of Graduate Studies' [admission](#) requirements, the Faculty of Social Work requires:

a) A Bachelor of Social Work (BSW) degree from an accredited/recognized\* institution. The degree must be awarded prior to the start of the Graduate Certificate.

*\*The Faculty of Social Work recognizes BSW and BISW degrees accredited by the Canadian Association for Social Work Education (CASWE), the Council of Social Work Education (CSWE), and international credentials deemed equivalent to a Canadian BSW degree by the Canadian Association of Social Workers (CASW).*

b) A minimum GPA of 3.00 (on the University of Calgary four-point system). This is based on the last two years of the undergraduate degree consisting of a minimum of 60 units.

c) The equivalent of two years of full-time paid work or a minimum of 3000 hours of paid and/or volunteer work in the human services field.

d) For applicants required to present proof of proficiency in English: a minimum TOEFL score of 97 (Internet-based test with no section less than 20); IELTS score of 7.0 (Academic version with no section less than 6.0); a CAEL score of 70 (70 in writing and speaking; 60 in reading and listening); or a PTE with a minimum score of 68 (Academic version). This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in academic writing and oral communication courses and "B+" in other courses.

**Note:** Once admitted, students are not permitted to switch specializations within the chosen certificate. Requests to defer an offer of admission are not normally considered.

---

Access to an electronic device, such as a tablet or computer, is necessary.

## Program Details

### Simple Requisites

## Program/Course Requirements

### Type

Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Social Work requires:

The Graduate Certificate consists of 12 units of coursework. Course requirements are determined by the specialization.

**Complete ANY of the following Course Sets:**

- Social Work, CSWP Specialization, Adult Mental Health and Addictions  
**OR** Social Work, CSWP Specialization, Individuals Families and Group  
**OR** Social Work, CSWP Specialization, Infant, Child and Adolescent Mental Health  
**OR** Social Work, CSWP Specialization, Trauma Informed Practice  
**OR** Social Work, CSWP Specialization, Clinical Gerontology Practice  
**OR** Social Work, CSWP Specialization, Community Informed Practice for Health and Wellbeing

**Additional Comments:**

## Additional Program Information

### Type

Completion Requirement

**Additional Comments:**

## Advanced Credit

Advanced credit is not awarded toward a graduate certificate.

## Flexible Grade Option (CG Grade)

The Faculty of Social Work will allow students in the Graduate Certificates in Social Work to pursue the [Flexible Grade Option \(CG Grade\)](#) for graduate courses offered by the Faculty. Students may receive a grade of CG only once, for a total of 3 units, regardless of the number of graduate certificates they complete. In addition, students may receive a grade of CG only once throughout the entire ladder pathway.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Concurrent Program Enrolment

Students in this program may not concurrently pursue a certificate, diploma or the final step of a ladder pathway Master's degree as outlined in section [G.D.1.3 Concurrent Program Enrolment](#).

## Withdrawal

Students who are required to withdraw from the program for academic reasons will not be subsequently admitted to any graduate program offered by the Faculty of Social Work.

## Time Limit

The expected completion time is eight months for any of the graduate certificates. Maximum completion time is two years.

Students taking graduate certificates as part of the ladder pathway to the MSW (course-based) degree program must apply to ladder into the MSW within five years from the start of their first graduate certificate in the laddering sequence.

## Financial Assistance

### Type

## Completion Requirement

### Additional Comments:

Students enrolled in a Graduate Certificate in Social Work are not eligible for University of Calgary awards administered through the Graduate Awards Competition but may be eligible for some program recommended awards. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

The Master of Social Work program is accredited by the Canadian Association of Social Work Education.

The objective of the Master of Social Work (MSW) program is to prepare students for advanced professional practice in social work. The course-based program is appropriate for students who intend to provide direct service in the field. This program is available for both BSW graduates and graduates from other disciplines.

### Specializations:

- Clinical Social Work Practice (CSWP)
- [MSWC Inter](#)
- [Social Wor](#)

## Program Delivery

The MSW course-based program in all three specializations is offered by distance (online) learning with required virtual and in-person campus residencies in Calgary or Edmonton. Failure to attend residencies may result in a student being withdrawn from the course(s) or program.

The course-based MSW is a continuous, full-time program with no scheduled break. Students who do not enrol in courses continuously will be withdrawn from the program for failure to register unless they are an approved leave of absence.

Please consult the [website](#) for specific program delivery information.

Note: International students must present a valid study permit approval letter and/or study permit to Student Services in the Faculty of Social Work prior to the start of the program. They also must have a valid work permit for their practica (Social Work 663 and/or the optional Social Work 660) in Canada. The work permit must be presented to the Field Education Office in the Faculty of Social Work prior to the start of the practicum.

Email Address: <mailto:fsw.studentservices@ucalgary.ca>

### Calgary Campus:

MacKimmie Tower, Room 301

Program number: 403.220.5942; 1.877.220.6945

Fax: 403.282.7269

### Edmonton Campus:

3-250, 10230 Jasper Avenue

Program number: 780.492.3888; 1.888.492.2083

Fax: 780.492.5774

## Admissions

### Program Admissions Information

For application deadlines, see the Future Students webpage: <https://grad.ucalgary.ca/future-students/explore-programs/social->

For application details, see the [graduate studies webpage: https://grad.ucalgary.ca/graduate-studies/graduate-program/2024/work-msw-course](https://grad.ucalgary.ca/graduate-studies/graduate-program/2024/work-msw-course).

In addition to Faculty of Graduate Studies requirements for [admission](#), the Faculty of Social Work requires:

a) A Bachelor of Social Work (BSW) degree\* or a four-year bachelor's degree from another discipline. The undergraduate degree must be awarded prior to the start of the MSW program and must be from a recognized post-secondary institution.

*\*The Faculty of Social Work recognizes BSW and BISW degrees accredited by the Canadian Association for Social Work Education (CASWE), the Council on Social Work Education (CSWE) and international credentials deemed equivalent to a Canadian BSW degree by the Canadian Association of Social Workers (CASW).*

b) A minimum GPA of 3.00 (on the University of Calgary four-point system). This is based on the last two-years of the undergraduate degree consisting of a minimum of 60 units.

c) The equivalent of two years of full-time paid work or a minimum of 3000 hours of paid and/or volunteer work in the human services field.

d) A program proposal outlining the applicant's social work perspectives and educational goals.

e) For applicants required to present proof of proficiency in English, a minimum TOEFL score of 97 (Internet-based test with no section less than 20); IELTS score of 7.0 (Academic version with no section less than 6.0); a CAEL score of 70 (70 in writing and speaking; 60 in reading and listening); or a PTE with a minimum score of 68 (Academic version). This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in academic writing and oral communication courses and "B+" in other courses.

f) Two references, one academic and one professional. Applicants unable to provide an academic reference are advised to submit a second professional reference and provide rationale in the application.

For those applying to the MSW through the MSW Laddering Pathway (upon completion of two specific Graduate Certificates), the academic reference must come from an instructor who taught the applicant in one of the Graduate Certificates.

MSW applicants are allowed to apply to only one program location and one specialization. Once admitted, students are not permitted to switch specializations and/or topics within their chosen specialization. Requests to defer an offer of admission are not normally considered.

Participation in Student Orientation sessions held prior to the start of the program is mandatory for students.

Access to an electronic device, such as a tablet or computer, is necessary.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Social Work requires:

**For students with a bachelor's degree in a discipline other than social work.**

Nine foundation courses (27 units), as follows:

**Enroll in the following Course Sets:**

- MSW Foundation Courses

The foundational practicum course requires students to complete a minimum of 450 placement hours in the Winter semester of their first year. Practicum hours are typically completed in-person, during regular business hours and close to the student's home community, anywhere in Canada.

Foundation courses must be completed before students advance to Specialization specific courses and Advanced Practicum (Social Work 660 and 662).

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Social Work requires:

**For students with a BSW or completed foundation courses:**

A total of 36 units of coursework, as follows:

- a) 12 units of Advanced Social Work Practice courses;
- b) 12 units of Specialization courses (topics may vary from year to year and by location);
  - Within the CSWP specialization there are several topic areas. Each consists of 12 units (four courses) which address a particular subject within the broader field of Clinical Social Work Practice. Students must complete all 12 units in the selected topic area.
- c) 12 units of Field Practicum, Integrative Seminar, Research Applications and Exit Requirement (FIRE).
  - Students must be available to complete 500 hours of practicum. This represents a significant time commitment. Students must ensure that they are aware of field requirements, and available for field placements as scheduled, in order to complete their practicum within the appropriate term.
  - Practicum hours are typically completed in-person, during regular business hours and close to the student's home community anywhere in Canada. International practicums may be an option for interested MSW students only in the International and Community Development specialization in their Advanced Practicum. This will be dependent on the location, scope of practice, timeframe, and supervision availability.
  - A student who fails or withdraws from a practicum course (Social Work 660 or 662) will fail or be required to withdraw from the co-requisite courses (Social Work 660 or 662). In addition, the student may be required to withdraw from the program.

**Enroll in the following Course Sets:**

- Advanced Social Work Practice Courses (ASWP)
- Social Work, CSWP Specialization, Adult Mental Health and Addictions  
**OR** Social Work, CSWP Specialization, Individuals Families and Group  
**OR** Social Work, CSWP Specialization, Infant, Child and Adolescent Mental Health  
**OR** Social Work, CSWP Specialization, Trauma Informed Practice  
**OR** Social Work, CSWP Specialization, Community Informed Practice for Health and Wellbeing
- MSW, Field Practicum, Integrative Seminar, Research Applications and Exit Requirement (FIRE)

The four courses in ASWP and in each specialization topic are offered in a prescribed sequence and deviation from the curriculum plan is not normally allowed.

Please note that not all specialization topics are offered every year. Students should consult the timetables and program curriculum plans located on the web for sequence and availability of Specialization topics: <https://socialwork.ucalgary.ca/>.

**Additional Comments:**

**Transfer to a Thesis-Based MSW**

Note: Students who wish to transfer to the thesis-based MSW must submit their transfer request to Student Services by January 31 prior to the thesis research courses and/or advanced practicum. Students who transfer must comply with the requirements of the respective program. The program transfer must be approved by both the Faculty of Social Work and Faculty of Graduate Studies.

\*Course-based MSW students with a non-BSW degree who receive credit by special assessment (CSA) for the Foundational Field Practicum (Social Work 633) are not eligible to transfer to the thesis-based MSW.

**Additional Program Information**

**Type**

Completion Requirement

**Additional Comments:**

**Advanced Credit**

Advanced Credit is not normally granted for the Master of Social Work degree.

### Flexible Grade Option (CG Grade)

The Faculty of Social Work, Master of Social Work course-based program will allow students to pursue the **Flexible Grade Option (CG Grade)** in one graduate course offered by the faculty, with the exception of **SOWK633 Foundational Field Practicum**, **SOWK660 Advanced Practicum** and **SOWK662 Integrative Seminar**.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Concurrent Program Enrolment

Students in this program may not concurrently pursue a certificate, diploma or the final step of a ladder pathway Master's degree as outlined in section **G.D.1.3 Concurrent Program Enrolment**.

### Withdrawal

Students who are required to withdraw from the program for academic reasons will not be subsequently admitted to any graduate program offered by the Faculty of Social Work.

### Credit for Undergraduate Courses

Credit for undergraduate courses will not be awarded.

### Time Limits

Expected completion time is two years for BSW graduates and three years for students with a non-BSW degree.

As established by the Faculty of Graduate Studies (see **Time Limits**) maximum completion time is six years for a course-based MSW.

#### Financial Assistance

##### Type

Completion Requirement

##### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see **Awards and Financial Assistance** for Graduate Students, the Graduate Awards **Database**, and consult with the Student Services Office in the Faculty of Social Work.

## Overview

### General Program Information

The Master of Social Work program is accredited by the Canadian Association of Social Work Education.

The objective of the Master of Social Work (MSW) program is to prepare students for advanced professional practice in social work. The thesis-based route may be appropriate for students who intend to proceed to doctoral studies and/or anticipate a career requiring advanced program evaluation or research skills. This full-time program is available for both BSW graduates and graduates from other disciplines.

#### Specializations:

- Clinical Social Work Practice (CSWP)
- **MSWT Inter**
- **Social Wor**

## Program Delivery

The MSW thesis-based program in all three specializations is offered by distance (online) learning with required virtual and in-person campus residencies in Calgary or Edmonton. Failure to attend residencies may result in a student being withdrawn from the course(s) or program.

Please consult the [website](#) for specific program delivery information.

Note: International students must present a valid study permit approval letter and/or study permit to Student Services in the Faculty of Social Work prior to the start of the program. They also must have a valid work permit for their practica (Social Work 663 and/or the optional Social Work 660) in Canada. The work permit must be presented to the Field Education Office in the Faculty of Social Work prior to the start of the practicum.

For application deadlines, see the Future Students webpage: <http://ucalgary.ca/future-students/graduate/explore-programs/social-work-master-social-work-thesis-based>.

---

In addition to Faculty of Graduate Studies requirements for [admission](#), the Faculty of Social Work requires:

a) A Bachelor of Social Work (BSW) degree\* or a four-year bachelor's degree from another discipline. The undergraduate degree must be awarded prior to the start of the MSW program and must be from a recognized/accredited post-secondary institution.

*\*The Faculty of Social Work recognizes BSW and BISW degrees accredited by the Canadian Association for Social Work Education (CASWE), the Council on Social Work Education (CSWE) and international credentials deemed equivalent to a Canadian BSW degree by the Canadian Association of Social Workers (CASW).*

b) A minimum GPA of 3.00 (on the University of Calgary four-point system). This is based on the last two-years of the undergraduate degree consisting of a minimum of 60 units.

c) The equivalent of two years of full-time paid work or a minimum of 3000 hours of paid and/or volunteer work in the human services field.

d) A program proposal outlining the applicant's social work perspectives and educational goals.

e) A thesis proposal providing a rationale for selecting the thesis route and a preliminary research proposal describing the research problem to be investigated and the proposed research methodologies (e.g., quantitative, qualitative, mixed methods, participatory action research, arts-based, etc.), and the study's potential contribution to social work research and practice. Students applying to the thesis route are strongly encouraged to discuss this option with the PhD/MSW Thesis Program Coordinator.

f) For applicants required to present proof of proficiency in English, a minimum TOEFL score of 97 (Internet-based test with no section less than 20); IELTS score of 7.0 (Academic version with no section less than 6.0); a CAEL score of 70 (70 in writing and speaking; 60 in reading and listening); or a PTE with a minimum score of 68 (Academic version). This requirement can also be met

by completing the **Academic Communication Certificate** with a minimum grade of "A-" in academic writing and oral communication courses and B+ in other courses.

g) Two references, one academic and one professional. Applicants unable to provide an academic reference are advised to submit a second professional reference and provide a rationale in the application.

**Note:** MSW applicants are allowed to apply to only one program location and one specialization. Once admitted, students are not permitted to switch specializations and/or topics within their chosen specialization. Requests to defer an offer of admission are not normally considered.

Participation in student orientation sessions held prior to the start of the program is mandatory for incoming students.

Access to an electronic device, such as a tablet or computer, is necessary.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to Faculty of Graduate Studies **requirements**, the Faculty of Social Work requires:

**For students with a bachelor's degree in a discipline other than social work:**

Nine foundation courses (27 units), as follows:

**Complete ALL of the following Course Sets:**

- MSW Foundation Courses

The foundational practicum course requires students to complete a minimum of 450 placement hours in the Winter semester of their first year. Practicum hours are typically completed in-person, during regular business hours and close to the student's home community, anywhere in Canada.

\*Foundation students in the thesis-based MSW are not eligible for credit by special assessment.

Foundation courses must be completed before students advance to specialization-specific courses and the two research courses (Social Work 670 and 672).

In addition to Faculty of Graduate Studies **requirements**, the Faculty of Social Work requires:

**For Students with a BSW or completed foundation courses:**

A total of 30 units of coursework. The coursework consists of:

a) 12 units of Advanced Social Work Practice courses;

b) 12 units of specialization courses (topics may vary from year to year and by location);

- Within the CSWP specialization, there are several topic areas. Each consists of 12 units (four courses) which address a particular subject within the broader field of Clinical Social Work Practice. Students must complete all four courses in the selected topic area.

c) 6 units of research courses.

**Enroll in the following Course Sets:**

- Advanced Social Work Practice Courses (ASWP)
- Social Work, CSWP Specialization, Adult Mental Health and Addictions  
**OR** Social Work, CSWP Specialization, Individuals Families and Group  
**OR** Social Work, CSWP Specialization, Infant, Child and Adolescent Mental Health  
**OR** Social Work, CSWP Specialization, Trauma Informed Practice  
**OR** Social Work, CSWP Specialization, Community Informed Practice for Health and Wellbeing

- Social Work, MSW, Research Courses

**Note:** The four courses in ASWP and in each specialization topic are offered in a prescribed sequence and deviation from the curriculum plan is not normally allowed. Please note that not all specialization topics are offered every year. Students should consult the timetables and program curriculum plans located on the web for sequence and availability of specialization topics: [socialwork.ucalgary.ca](http://socialwork.ucalgary.ca).

All four ASWP courses and all four specialization courses are prerequisites to Social Work 670 and 672 (research courses).

## Additional Comments:

Students may elect to complete **SOWK660 Advanced Practicum** Advanced Practicum, but it is not a mandatory component of the thesis-based degree. Students who wish to complete Social Work 660 must have completed all the ASWP, specialization and research courses and must declare their intention to pursue a Practicum in writing to the Director of Field Education by March 1st of their final year of coursework (6-8 months prior to the expected start of the Practicum). The integrative Seminar (Social Work 662) is for course-based MSW students only.

## **Transfer to a Course-based MSW**

Normally students who begin the MSW thesis program and then want to switch to the course-based MSW may be able to do so prior to beginning the thesis research courses and at least 8 months prior to the start of Advanced Practicum.

## Additional Program Information

### Type

Completion Requirement

### Additional Comments:

## Advanced Credit

**Advanced Credit** is not normally granted for the Master of Social Work degree.

## Flexible Grade Option (CG Grade)

The Faculty of Social Work Master of Social Work thesis-based program will allow students to pursue the **Flexible Grade Option (CG Grade)** in graduate courses offered by the faculty, with the exception of **SOWK633 Foundational Field Practicum**, **SOWK660 Advanced Practicum**, **SOWK670 Adv Method Epistemology SOWK** and **SOWK672 Thesis Research Development**.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Concurrent Program Enrolment

Students in this program may not concurrently pursue a certificate, diploma or the final step of a ladderized pathway Master's degree as outlined in section **G.D.1.3 Concurrent Program Enrolment**.

## Withdrawal

Students who are required to withdraw from the program for academic reasons will not be subsequently admitted to any graduate program offered by the Faculty of Social Work.

## Credit for Undergraduate Courses

Credit for undergraduate courses will not be awarded.

## Time Limit

Expected completion time is three years for BSW graduates and four years for students with a non-BSW degree.

As established by the Faculty of Graduate Studies (see [Time Limits](#)), maximum completion time is four years for a thesis-based MSW (for both BSW degree holders and non-BSW degree holders).

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

For incoming MSW thesis students, the PhD/MSW Thesis Coordinator will act as the interim supervisor. Before the end of April of the first year, each student must designate a faculty member as permanent supervisor. MSW thesis students will work with their supervisors to determine if a co-supervisor and/or supervisory thesis committee is preferred. This decision should be made prior to start of Social Work 670. The arrangement must be approved by the Graduate Program Director.

Within the first two months of working together, MSW thesis students and their interim and/or permanent supervisors are required to complete and submit to Student Services in the Faculty of Social Work the signed Student-Supervisor checklist and the Intellectual Property checklist. These become part of the student's permanent record. If a change occurs in supervision, a new Student-Supervisor checklist must be completed, signed and submitted to Student Services within two months of the change.

## Research Proposal Requirements

Students must have proposal approved by their supervisor and/or committee (if appropriate). A copy of the proposal becomes part of the student's record with the Faculty of Social Work. Once the proposal has been approved, students can proceed with applying for ethics certification.

## Required Examinations

### MSW Thesis Examination

The final examination for the thesis-based MSW involves an oral defence of the thesis. The thesis examination is conducted by the student's examining committee, which must be declared at least one month before the oral examination.

In addition to the Faculty of Graduate Studies regulations for [Thesis Examinations](#), the program requires the following MSW examining committee composition:

- thesis supervisor, and, if applicable, co-supervisor/supervisory thesis committee,
- a faculty member from the Faculty of Social Work, and
- an Internal Examiner (external to the Faculty of Social Work).

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see [Awards and Financial Assistance](#) for Graduate Students, the Graduate Awards [Database](#), and consult with the Student Services Office in the Faculty of Social Work.

## Overview

### General Program Information

Laddering from Graduate Certificates to Master of Information Security and Privacy:

# UCalgary

Students who complete the Graduate Certificate in Data Privacy, **GCERT Netw** or **GCERT Soft** may receive laddering credit for the 12 units of coursework completed in the certificate program if they are subsequently accepted into the **Master of** program within 5 years of completing the certificate.

Location: Science A Building, Room 229

Email: <mailto:prograd.science@ucalgary.ca>

Web page: <https://science.ucalgary.ca/information-security>

## Admissions

### Program Admissions Information

The deadline for completed applications is available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/data-privacy>.

In addition to Faculty of Graduate Studies **admission requirements**, admission to the Information Security and Privacy programs requires:

- A four-year Bachelor's degree or equivalent from a recognized institution.
- Successful completion of an undergraduate course in each of the following areas:
  - Computer programming with understanding of execution environments (e.g., Computer Science 233 or equivalent)
  - Algorithms and data structures (e.g., Computer Science 331 or equivalent)
  - Either Operating systems (e.g., Computer Science 457 or equivalent); or Computer networks (e.g., Computer Science 441 or equivalent).
- Two letters of reference.
- Resume or CV.
- Optional letter of intent.

*Alternate Routes to Admission:* In exceptional circumstances (see **G.A.1 Qualifications**), individuals who do not meet formal academic requirements but who have significant life achievement and/or work experience may be considered for admission to the Graduate Certificate programs or the Masters of Information Security program. The candidate must provide the Information Security Program Director with evidence demonstrating the potential to successfully undertake these programs. Such candidates may also be required to participate in an in-person interview with the Program Director and, if admitted, be required to take additional courses to meet completion requirements.

Students who successfully complete one of the Graduate Certificate programs, and who then apply to the other Graduate Certificate program and/or to the Master of Information Security degree program within 4 years of completing the first certificate, will not be required to submit reference letters or previous transcripts again. If students complete new coursework elsewhere, they will be required to submit new transcripts.

Students who have successfully completed two of the Graduate Certificate programs with a cumulative GPA of 3.00 or higher will meet the minimum admission requirements for the Master of Information Security and Privacy program. In addition, students who choose to ladder from the certificates into the Master's degree will not normally be required to submit transcripts or reference letters (unless they have completed other credit courses from a post-secondary institution in the meantime).

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Science requires students to complete:  
12 units of coursework consisting of:

**Complete ALL of the following Requirement Sets:**

- Data Privacy GC courses

**Additional Comments:**

#### Additional Program Information

##### Type

Completion Requirement

**Additional Comments:**

### Advanced Credit

Advanced credit will not normally be given for the Data Privacy Graduate Certificate program.

### Flexible Grade Option (CG Grade)

The Information Security Professional Program will allow students to pursue the Flexible Grade Option (CG Grade).

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

For this Graduate Certificate program, credit will not normally be granted for undergraduate courses.

### Supervisory Assignments

An Academic Coordinator is assigned to each cohort-based Graduate Certificate program.

### Time Limits

Expected completion time for this Graduate Certificate is 4, 8, 10 or 12 months, depending on the schedule set for that cohort.  
The maximum time allowed is three years.

Maximum completion time for students to complete all requirements of the Master of Information Security and Privacy via the ladder certificate pathway is four years from the beginning of the first certificate program.

#### Financial Assistance

##### Type

Completion Requirement

**Additional Comments:**

The program itself does not provide scholarships, however financial assistance may be available to qualified students through alternative means. For information on awards, see the Awards and Financial Assistance section.

## Overview

### General Program Information

Students will generally be accepted and registered on a full-time basis. Part-time registration will be considered on an individual basis.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [arts.ucalgary.ca/schools/creative-performing-arts/drama/graduate](https://arts.ucalgary.ca/schools/creative-performing-arts/drama/graduate)

## Admissions

### Program Admissions Information

The deadline for the submission of complete applications is available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/drama-master-fine-arts-thesis-based](https://ucalgary.ca/future-students/graduate/explore-programs/drama-master-fine-arts-thesis-based).

In addition to Faculties of Graduate Studies and Arts **requirements**, Drama requires:

- a) A baccalaureate degree that has clearly included a major emphasis in the study of drama with study at the undergraduate level in the proposed area of specialization. Deficiencies of background may be corrected during a year of study as a qualifying student.
- b) A written application including a biographical outline of the applicant's studies and experience in theatre and a statement of intent outlining proposed projects in Drama. When the applicant intends to study in the Design/Technical specialization, a portfolio of drawings and design work is required. Applicants to the Playwriting specialization must submit a portfolio of original creative writing. Applicants to the Theatre Studies specialization must submit samples of their written work. Directing applicants must submit a selected portfolio that might include reviews, photographs and/or video clips of productions directed. Applicants to the Interdisciplinary Creation and Research specialization must submit a portfolio of original work and a writing sample.
- c) Two letters of reference.

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

###### Year 1:

In addition to Faculties of Graduate Studies and Arts requirements, Drama also specifies the following requirements:

All candidates must take a minimum of 18 units of graduate courses, including **DRAM605 Methods In Theatre Research** and specialization requirements. All candidates must complete a thesis.

##### Complete ALL of the following Courses:

- DRAM611 - Selected Problems in Directing I  
**AND** DRAM613 - Selected Problems in Directing II

###### Year 1:

##### Earn at least 3 credits from the following:

- DRAM641 - Artistic Research  
**OR** DRAM647 - Studies in Modern Drama I  
**OR** DRAM649 - Studies in Modern Drama II

###### Year 1 or 2:

##### Complete ALL of the following Courses:

- DRAM643 - Dramaturgy

#### Additional Comments:

## Additional Requirements

For **Directing** candidates, the thesis will consist of the direction of a full-length play and a supporting paper that reflects critically on the production and on the process of its creation.

### Additional Program Information

#### Type

Completion Requirement

#### Additional Comments:

## Advanced Credit

The applicant must make **Advanced Credit** requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

## Flexible Grade Option (CG Grade)

The Drama program in the School of Creative and Performing Arts will not permit the **Flexible Grade Option (CG Grade)** for any course offered by the Drama Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Drama may give credit for undergraduate courses at the 500 level at the discretion of the supervisor and graduate committee. No more than 6 units of coursework may be done at the undergraduate level.

## Time Limit

The Master of Fine Arts degree must be completed within four years.

### Supervisory Assignments, Research Proposal and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

## Supervisory Assignments

The graduate committee assigns a supervisor after discussion with the student.

## Research Proposal Requirements

Research proposals are formulated by the student in consultation with the supervisor and approved by the graduate committee. The committee will follow the University's policies on ethical conduct in research in its review of proposals.

## Thesis Examination

In addition to Faculty of Graduate Studies regulations for **Thesis Examinations**, the Department requires:

#### *Composition of the Committee*

The Internal Examiner must be external to the home program.

Final thesis oral examinations are open.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of the Graduate Calendar. Students applying for scholarships must submit their applications to Drama by February 1.

All candidates must complete a thesis.

#### Complete ALL of the following Courses:

- DRAM641 - Artistic Research  
**AND** DRAM647 - Studies in Modern Drama I  
**AND** DRAM649 - Studies in Modern Drama II

Year 1 or 2:

#### Complete ALL of the following Courses:

- DRAM643 - Dramaturgy

#### Additional Comments:

For **Theatre Studies** candidates, the thesis will either be a substantial scholarly research paper or a documentation of artistic/empirical research processes and results in a significant scholarly component.

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

The Drama program in the School of Creative and Performing Arts will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the Drama Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Drama may give credit for undergraduate courses at the 500 level at the discretion of the supervisor and graduate committee. No more than 6 units of coursework may be done at the undergraduate level.

### Time Limit

The Master of Fine Arts degree must be completed within four years.

### Supervisory Assignments, Research Proposal and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

The graduate committee assigns a supervisor after discussion with the student.

### Research Proposal Requirements

Research proposals are formulated by the student in consultation with the supervisor and approved by the graduate committee. The committee will follow the University's policies on ethical conduct in research in its review of proposals.

### Thesis Examination

In addition to Faculty of Graduate Studies regulations for [Thesis Examinations](#), the Department requires:

#### *Composition of the Committee*

The Internal Examiner must be external to the home program.

Final thesis oral examinations are open.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of the Graduate Calendar. Students applying for scholarships must submit their applications to Drama by February 1.

## Overview

### General Program Information

### Specializations:

## UCalgary

- Business Analytics
- Data Science
- Health Data Science and Biostatistics
- Financial and Energy Markets Data Modelling

### Laddered Pathway from the Graduate Certificate to the Diploma, and from the Graduate Diploma to the Master of Data Science and Analytics

Students who complete the **GCERT Fund** may receive laddering credit for the 12 units of coursework completed in the certificate program if they are subsequently accepted to the Graduate Diploma in Data Science and Analytics program within five years of beginning the certificate.

Students who complete the Graduate Diploma in Data Science and Analytics may receive laddering credit for the 24 units of coursework completed in the diploma program if they are subsequently accepted to the **Master of** within five years of beginning the first credential in the laddering process.

Students may also choose to ladder from the Graduate Certificate in Fundamental Data Science and Analytics into the Master of Data Science and Analytics. Upon admission to the Master's degree program, student may receive laddering credit for the 12 units of coursework completed in the Certificate program.

## Admissions

### Program Admissions Information

The deadline for completed applications is available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/data-science-analytics-diploma-course-based>

---

In addition to the Faculty of Graduate Studies **admission requirements**, all applicants must meet the following requirements:

- A four-year baccalaureate degree from a recognized institution;
- A minimum admission grade point average of 3.00 on a four-point scale or equivalent;
- The successful completion of the following undergraduate courses:
  - one course in computer programming (such as Computer Science 217, Computer Science 231, Data Science 211, or equivalent)
  - one course in statistics (such as Statistics 205, Statistics 217, Statistics 321, Statistics 327, or equivalent), and
  - one course in either calculus or linear algebra (such as Mathematics 211, 249, 265, 275, or equivalent).

Note: In exceptional circumstances, individuals who do not meet formal academic requirements but who have significant life achievement may be considered for admission to this program (see **Qualifications**). The candidate must provide the Data Science Program Director with evidence demonstrating the potential to successfully undertake this program. Such candidates may also be required to participate in an in-person interview with the Program Director and/or take one or more assessment tests provided by the program to establish their level of proficiency in the subject areas used as program prerequisites.

## Program Details

### Simple Requisites

#### Course Requirements

##### Type

Completion Requirement

The Diploma requires 24 units of coursework consisting of:

**Complete ALL of the following Course Sets:**

- Data Science and Analytics Core Courses

**Complete ANY of the following Course Sets:**

- DSAN Diploma - Business Analytics Specialization  
**OR** DSAN Diploma - Data Science Specialization  
**OR** DSAN Diploma - Health Data Science and Biostatistics Specialization  
**OR** DSAN Diploma - Financial and Energy Markets Data Modelling Specialization

**Additional Comments:**

## Additional Program Information

**Type**

Completion Requirement

**Additional Comments:**

## Advanced Credit

Advanced Credit will not normally be given for any of the Data Science and Analytics credentials.

## Flexible Grade Option (CG Grade)

The Data Science and Analytics Professional Program will allow students to pursue the Flexible Grade Option (CG Grade).

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Time Limits

The expected completion time for the Graduate Diploma in Data Science and Analytics is 8 months (direct entry, full-time), and 4 months or 8 months (part-time) for students laddering from the Graduate Certificate program, depending on the schedule being offered. The maximum completion time for the Graduate Diploma is three years from the start of the program.

For students laddering from the Graduate Certificate and/or the Graduate Diploma program into the Master's, the maximum completion time for all ladderred credentials is six years from the start of the first credential in the laddering process.

## Supervisory Assignments

An Academic Coordinator is assigned to each cohort in the Diploma program.

## Financial Assistance

**Type**

Completion Requirement

**Additional Comments:**

Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section.

## Overview

General Program Information

The Master of Data Science and Analytics is a continuous program with no scheduled break.

## Specializations:

- Business Analytics
- Data Science
- Health Data Science and Biostatistics
- Financial and Energy Markets Data Modelling

## Laddered Pathway from the Graduate Certificate to the Diploma, and from the Graduate Diploma to the Master of Data Science and Analytics

Students who complete the **GCERT Fund** may receive laddering credit for the 12 units of coursework completed in the certificate program if they are subsequently accepted to the **GDIP Data** program within five years of beginning the certificate.

Students who complete the Graduate Diploma in Data Science and Analytics may receive laddering credit for the 24 units of coursework completed in the diploma program if they are subsequently accepted to the Master of Data Science and Analytics within five years of beginning the first credential in the laddering process.

Students may also choose to ladder from the Graduate Certificate in Fundamental Data Science and Analytics into the Master of Data Science and Analytics. Upon admission to the Master's degree program, student may receive laddering credit for the 12 units of coursework completed in the Certificate program.

Web page URL: <https://sapl.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/designing-smart-secure-communities-certificate-course-based>.

In addition to Faculty of Graduate Studies requirements for [Admission](#), the Certificate requires the following:

- a) Statement of Interest
- b) Curriculum Vitae

A current copy of the full curriculum vitae demonstrating relevant professional experience.

- c) Reference Letters

Three reference letters.

- d) Proof of English Proficiency

For applicants who are required to prove proficiency in English, a minimum TOEFL score of 105 (Internet-based test); or IELTS score of 7.5; or CAEL overall score of 70, with a minimum score of 70 in each component. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.

## Program Details

### Simple Requisites

## Program/Course Requirements

### Type

Completion Requirement

In addition to the Faculty of Graduate Studies [requirements](#), students are expected to successfully complete 12 units (courses must be taken in the prescribed order):

Complete ALL of the following Courses:

- PLAN640 - Geography of Crime  
**AND** PLAN642 - Designing Safe Communities  
**AND** PLAN644 - Designing Smart Communities  
**AND** PLAN646 - Integrative Project

Additional Comments:

## Reappraisal of Academic Assessments (Final Grades)

Students enrolled in SAPL graduate credentials must request a Reappraisal of Academic Assessments (Final Grades) within 5 business days of the start of the subsequent term.

Reappraisal of Academic Assessments (Final Grades) in SAPL graduate credentials must be completed at least one day before the drop date of the subsequent semester.

### Other Program Information

Type

Completion Requirement

Additional Comments:

## Advanced Credit

Advanced Credit is not given.

## Flexible Grade Option (CG Grade)

Students admitted to the School of Architecture, Planning and Landscape will not be allowed to request the Flexible Grade Option (CG Grade) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the Flexible Grade Option (CG Grade) for courses outside of SAPL that permit the CG Grade and are taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Time Limit

Students registered in the Graduate Certificate in Designing Smart and Secure Communities are expected to complete the Certificate in one year. The maximum completion time is two registration years.

### Financial Assistance

Type

Completion Requirement

Additional Comments:

Financial assistance may be available to highly qualified students but cannot be guaranteed. For information on admission and academic awards, see the Awards and Financial Assistance section of this calendar, the SAPL website and the Awards Database on the Faculty of Graduate Studies website.

## Overview

### General Program Information

There is a requirement of full-time study for the course-based Master of Arts program.

The work completed in the course-based Master of Arts program is considered equivalent to a major research project and is

# UCalgary

appropriate for students who intend to proceed to doctoral studies.

\*The MA, course-based is a continuous program with no scheduled break.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: <http://econ.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadline for submission of complete applications is available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/economics-master-arts-course-based>.

In addition to Faculties of Graduate Studies [admission requirements](#) and Arts requirements, the Department requires:

- a) A minimum of 24 units of economics courses. These must include the following University of Calgary courses or their equivalents: Economics [395/495/497](#) (econometrics), Economics [387/389](#) (mathematics for economists), Economics [557](#) (senior microeconomics), and Economics [559](#) (senior macroeconomics), with at least a "B" average in senior economics courses.
- b) International students must hold a four-year degree from a recognized institution. If you received your degree from a university outside Canada, please refer to the country-specific degree requirements: <http://grad.ucalgary.ca/prospective/admissions/international-admission-requirements>.
- c) Three reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department requires:

The departmental academic requirements for the course-based Master of Arts degree are comparable to those for the [thesis-based Master of Arts](#). The differences in the course-based program are:

- a) The thesis requirement is replaced by additional 12 units of graduate courses (making a total of 30 units).
- b) The maximal number of courses from a related discipline is increased to 9 units of the elective graduate courses in Economics.
- c) A research paper, which is considered equivalent to a major research project. The topic may be a limited empirical research project, a critical review of the literature in a particular area, or a critical analysis of a theoretical or important policy problem. This paper is completed through [ECON695 Research Methods III](#) and [ECON697 Research Methods IV](#).
- d) An exit requirement consisting of a research defence in an open conference (at the end of Economics 697) and if unsuccessful a comprehensive written examination.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make **Advanced Credit** requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

## Flexible Grade Option (CG Grade)

The department of Economics will not permit the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Credit is not given for undergraduate courses.

## Time Limit

Expected completion time for students studying on a full-time basis is one year for the Master of Arts course-based. Maximum completion time is four years.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance is available to qualified students. Departmental funding is determined at the time of admission. See the Department of Economics Funding Opportunities website: <http://econ.ucalgary.ca/graduate/funding-opportunities-0>.

For information on awards, please see the Awards and Financial Assistance section of this Calendar. Students applying for scholarships must submit their applications to the Department by January 15.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department requires:

a) For students holding an Honours Economics degree with credits in Economics **387, 389, 395, 495, 497, 557, and 559** or their equivalents, the completion of 18 units of graduate-level Economics courses. Such students may be able to complete the degree in one year. In special cases the Department may allow students to substitute a maximum of 6 units from a related discipline for one of the elective graduate courses in Economics.

b) For students without an Honours Economics degree or students whose Honours degree in Economics does not include the undergraduate courses specified in (a) or their equivalents, the completion of such courses as are required to raise their competence to the appropriate level. Graduate course requirements for such students are the same as in (a). Such students may be able to complete the degree in two years.

c) The completion of **ECON615 Econometrics**, **ECON657 Microeconomic Theory** and **ECON659 Macroeconomic Theory** unless one or more of them is explicitly exempted by the graduate program director.

Students, with the approval of the graduate program director, may replace Economics 615, 657 and 659 with **ECON705 Advanced Econometrics I/ECON715 Advanced Econometrics II**, **ECON707 Adv Microeconomic Theory I/ECON757 Advanced Microeconomic Theory II** and **ECON709 Adv Macroeconomic Theory I/ECON759 Advanced Macroeconomics Theory II** respectively.

d) Successful completion and examination of the MA thesis (in accord with examination procedures of the Faculty of Graduate Studies).

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

The department of Economics will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Credit is not given for undergraduate courses.

## Time Limit

Expected completion time for students studying on a full-time basis is two years for the Master of Arts thesis-based. Maximum completion time is four years.

### Supervisory Assignments, Research Proposal and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

## Supervisory Assignments

The process by which students are matched with supervisors is an informal one, based on mutual research interest.

## Research Proposal Requirements

Information on research proposals is available from the interim advisor/grant mentor/supervisor.

## Required Examinations

In addition to the Faculty of Graduate Studies requirements for [Thesis Examinations](#), the Department requires:

### Thesis Examination

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance is available to qualified students. Departmental funding is determined at the time of admission. See the Department of Economics Funding Opportunities website: <http://econ.ucalgary.ca/graduate/funding-opportunities-0>.

For information on awards, please see the Awards and Financial Assistance section of this Calendar. Students applying for scholarships must submit their applications to the Department by January 15.

To be eligible for funding beyond the first year, a student must pass field of study exams in microeconomics and macroeconomics by the beginning of classes of their second year. To be eligible for funding beyond the Fall Term of the third year, a student must receive a passing grade on their second-year research paper and their oral thesis proposal by the beginning of Winter Term in their third year.

## Overview

### General Program Information

There is a requirement of full-time study for the doctoral program.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: <http://econ.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadline for submission of complete applications is available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/economics-doctor-philosophy-thesis-based>.

In addition to Faculties of Graduate Studies [admission requirements](#) and Arts requirements, the Department requires:

- a) A minimum of 24 units of economics courses. These must include the following University of Calgary courses or their equivalents: Economics [395/495/497](#) (econometrics), Economics [387/389](#) (mathematics for economists), [Economics 557](#) (senior microeconomics), and [Economics 559](#) (senior macroeconomics), with at least a “B” average in senior economics courses. Doctoral candidates may require greater proficiency in Mathematics.
- b) A Master of Arts degree in Economics or its equivalent, with a high level of proficiency in Microeconomic Theory, Macroeconomic Theory, and Econometrics. If courses have been taken more than five years ago, students may be required to upgrade their knowledge in these fields.
- c) Three reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department requires:

The Department of Economics requires that doctoral students take 36 units. Required courses include two courses each in econometrics, [ECON705 Advanced Econometrics I](#) and [ECON715 Advanced Econometrics II](#), microeconomic theory, [ECON707 Adv Microeconomic Theory I](#) and [ECON757 Advanced Microeconomic Theory II](#), and macroeconomic theory, [ECON709 Adv Macroeconomic Theory I](#) and [ECON759 Advanced Macroeconomics Theory II](#). In addition, students must take 18 units in “field” areas. Doctoral students must also write and pass a second-year research paper prior to scheduling the Thesis Proposal Oral Examination. For further information see the website: <http://econ.ucalgary.ca/graduate/resources-current-students>.

Students are also recommended to take a non-credit one-week course in the Fall Session Block Week (the week prior to the start of classes) of the first year in Mathematical Economics.

The Department allows for the possibility that master's-level courses and course work taken at other institutions may be substituted for some of the required doctoral courses. Decisions concerning course substitutions and the transferability of graduate courses from other institutions are made on a case-by-case basis. Students are advised that the required comprehensive field of study exams in microeconomics, macroeconomics, and econometrics include material from the core courses listed above.

Graduate students must obtain a grade standing of “B” or better in graduate course work. A grade of “B-” or less will trigger a departmental review of the student's suitability for the graduate program and may result in a loss of funding.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for

admission.

### Flexible Grade Option (CG Grade)

The department of Economics will not permit the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Credit is not given for undergraduate courses.

### Time Limit

Expected completion time for students studying on a full-time basis is five years for the Doctor of Philosophy. Maximum completion time is six years.

### Supervisory Assignments, Research Proposal and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

The process by which students are matched with supervisors is an informal one, based on mutual research interest.

### Research Proposal Requirements

Information on research proposals is available from the interim advisor/grant mentor/supervisor.

### Required Examinations

In addition to the Faculty of Graduate Studies requirements for **Candidacy** and **Thesis Examinations**, the Department requires:

#### Candidacy

Candidacy must be completed within 28 months from the program start date.

Admission to candidacy is an acknowledgement that a student is fully prepared to devote their full attention to the thesis research.

To enter into candidacy, students must: (1) successfully complete all required courses, (2) pass the microeconomics, macroeconomics and econometrics comprehensive field of study exams, (3) pass the second-year paper requirement, and (4) have their thesis proposal approved by the Supervisory Committee. For further information, please consult the Department of Economics website: <https://econ.ucalgary.ca/graduate/resources-current-students>.

Students who do not pass their candidacy requirements by the twenty-eighth month of their program may be required to withdraw from the program. A full description of all candidacy requirements is available at:

<https://econ.ucalgary.ca/graduate/resources-current-students>.

#### Thesis Examination

##### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

##### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance is available to qualified students. Departmental funding is determined at the time of admission. See the Department of Economics Funding Opportunities website: <http://econ.ucalgary.ca/graduate/funding-opportunities-0>.

For information on awards, please see the Awards and Financial Assistance section of this Calendar. Students applying for scholarships must submit their applications to the Department by January 15.

To be eligible for funding beyond the first year, a student must pass field of study exams in microeconomics and macroeconomics by the beginning of classes of their second year. To be eligible for funding beyond the Fall Term of the third year, a student must receive a passing grade on their second-year research paper and their oral thesis proposal by the beginning of Winter Term in their third year.

## Overview

### General Program Information

Blended delivery: online and blended courses with some face-to-face/on-campus meeting times at the University of Calgary main campus.

### Specializations:

- Adult Learning
- Curriculum and Learning
- Language and Literacy
- Leadership
- Learning Sciences

### Online Graduate Programs

Graduate Programs in Education offers online graduate programs via the web and other multi-media components to local, regional, national, and international communities. Programs include the thesis-based Doctor of Education (EdD), course-based Master of Education (MEd), Graduate Diploma and Graduate Certificate. Topics within each of these are offered in direct response to the needs of working professionals in a variety of settings including administrators, program directors, and deans in colleges and institutes of technology.

Contact: <mailto:gpe@ucalgary.ca> or 403.220.5675 or toll free in Canada (877) 623-0292.

Location: Education Tower, Room 114

Program number: 403.220.5675

Toll free in Canada 877.623.0292

Fax: 403.282.3005

Email address: <mailto:gpe@ucalgary.ca>

## Admissions

### Program Admissions Information

The deadline for the submission of complete applications is available on the Future Students website:

<https://grad.ucalgary.ca/future-students/explore-programs/educational-research-edd>.

In addition to the Faculty of Graduate Studies admission requirements, Graduate Programs in Education requires:

- a) A course or thesis-based master's degree in an appropriate field.
- b) A minimum grade point average of 3.50 on a four-point scale in a master's degree program.
- c) A written statement indicating the applicant's reasons for wishing to pursue a graduate program.
- d) Candidates will be expected to have, or obtain, relevant practical experience in their area of specialization.
- e) For applicants required to present proficiency in English, a minimum TOEFL (Internet-based) score of 97, an IELTS (academic version) overall band score of 7.0 or a CAEL overall score of 70 (with no section less than 70). This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in each course.

The test must have been taken within the last two years. When requesting that official TOEFL test scores are forwarded to the University of Calgary, please indicate institution code 0813.

- f) Two references. Referees will be asked to complete an online reference form.
- 

### Admission Portfolio

Applicants to the Doctor of Education program are encouraged to submit an Admission Portfolio containing examples of their work. The purpose of the Admission Portfolio is to give applicants the opportunity to provide additional documentation that demonstrates their suitability and qualification for doctoral studies. The Admission Portfolio is particularly relevant for program applicants who do not hold a thesis-based master's degree.

The Doctoral Admission Portfolio may contain the following:

- a) Thesis (if applicable).
- b) Reports.
- c) Research grants or scholarships.
- d) Articles.
- e) Curriculum documents.
- f) Non-print materials, e.g., multimedia.
- g) Evidence of relevant prior learning (see below).
- h) Personal statement documenting research and professional skills and interests.

The Doctoral Admission Portfolios must include a Table of Contents and an Executive Summary that outlines the contents of the Portfolio.

---

### Relevant Prior Learning Considerations

In exceptional circumstances, individuals who do not meet formal academic requirements but who have significant life achievements may be considered for admission to the program. The candidates must provide Graduate Programs in Education with evidence demonstrating a potential to undertake successfully the proposed program of studies. Such candidates are advised to make early contact with Graduate Programs in Education, and supply additional supporting documents as part of their application package, such as:

- a) Evidence of personal continuing education/training.
- b) Results in these continuing education efforts.
- c) Experience in a field related to the aspired degree.
- d) Evidence of successful management of people, resources, finances, situations.
- e) Increasing or varying responsible positions in organizations related to the aspired degree.
- f) Work-related products, e.g. reports, programs of learning or training, handbooks, videos, manuals, workshops, seminars.
- g) Evidence of personal growth in knowledge, understanding, management skills, and intellectual resources.
- h) Evidence of innovation.
- i) Evidence of leadership or co-ordination responsibilities.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

##### Complete ALL of the following Courses:

- EDER711 - Advanced Research Methodologies I  
**AND** EDER712 - Advanced Research Methodologies II  
**AND** EDER707 - Collaboratory of Practice I  
**AND** EDER708 - Collaboratory of Practice II  
**AND** EDER709 - Dissertation Seminar I  
**AND** EDER710 - Dissertation Seminar II
- Plus 12 units in the student's specialization area at the 700-level.

Note: EDER 709 and 710 are to be completed post-candidacy.

##### Additional Comments:

#### Additional Program Information

##### Type

##### Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make Advanced Credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma, or for courses taken to bring grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

Graduate Programs in Education in the Werklund School of Education will not permit the Flexible Grade Option (CG Grade) for any course offered by the School.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Graduate Programs in Education does not normally accept undergraduate courses for credit toward graduate degrees.

### Time Limit

Expected completion for students in the EdD program is four years with a maximum completion time of six years.

#### Supervisory Assignments and Required Examinations

##### Type

##### Completion Requirement

##### Additional Comments:

### Supervisory Assignments

A supervisor is normally appointed at the time of admission.

## Required Examinations

### Candidacy

Admission into Candidacy in the Werklund School of Education Graduate Programs: 1) requires that students have abilities to conceptualize, interpret, critique and synthesize comprehensive, substantive knowledge that is relevant to the discipline and practice of educational research; and 2) ensures that students have a well-developed plan for their dissertation research, a sound proposal with a well-developed research question, and consideration of ethical issues that demonstrate the ability to pursue and complete original independent research at the doctoral level.

In compliance with the Faculty of Graduate Studies [Candidacy Regulations](#), the requirements for Admission to Candidacy at the Werklund School of Education is a 4 stage process:

1. Completion of all course requirements as identified in the calendar;
2. Field of study (FoS) written paper;
3. A research proposal approved by the Supervisory Committee (recognizing changes may be made after successful completion of the Candidacy exams);
4. An oral examination of the research proposal;

Ethics approval is required for all research projects involving the use of human subjects, before data collection begins. To initiate the ethics approval process, the student, in consultation with the supervisor, must submit an application to either the Conjoint Faculties Research Ethics Board or the Conjoint Health Research Ethics Board. Applications to the CFREB or CHREB are created and submitted online using [IRISS](#).

All Candidacy requirements must be completed within 28 months of the start of the program.

For further information, please consult the Graduate Programs in Education [website](#).

### Thesis

The Doctoral thesis is the focus of the degree program. In consultation with the supervisor, the student should formulate an appropriate thesis topic as early as possible in the program.

### Thesis Examination

In addition to the Faculty of Graduate Studies regulations for [Thesis Examinations](#), the program requires:

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have approved the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

The Graduate Certificate (Interdisciplinary Studies) is the first credential in a three-stage, ladder pathway consisting of:

1. Graduate Certificate

## 2. GDIP Educa

## 3. MEd Ed Res

The Graduate Certificate, Graduate Diploma and Master of Education are continuous programs with no scheduled breaks.

---

Students who complete the Graduate Certificate and the Graduate Diploma and who are subsequently accepted into the Master of Education program will be granted 24 units of laddering credit towards the Master's degree. A direct entry into a 24-unit Graduate Diploma may be possible with the approval of Graduate Programs in Education.

Topics for the Graduate Certificate and Graduate Diploma courses are designed in response to the professional community and therefore change year to year. For topics being offered and program delivery format for Graduate Certificates and Graduate Diplomas, please consult the Graduate Programs in Education [website](#).

---

Students following the MEd Interdisciplinary laddered pathway must apply at each stage; first, to the Graduate Certificate, then to the Graduate Diploma and finally to the Master of Education, with no more than five years between each stage.

---

### Online Graduate Programs

Graduate Programs in Education offers online graduate programs via the web and other multi-media components to local, regional, national, and international communities. Programs include the thesis-based Doctor of Education (EdD), course-based Master of Education (MEd), Graduate Diploma and Graduate Certificate. Topics within each of these are offered in direct response to the needs of working professionals in a variety of settings including administrators, program directors, and deans in colleges and institutes of technology.

## Admissions

### Program Admissions Information

Application deadline is available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/educational-research-master-education-interdisciplinary-course-based>.

---

In addition to the Faculty of Graduate Studies admission requirements, the Office of Graduate Programs in Education requires:

- a) A University of Calgary four-year baccalaureate degree or an equivalent degree from a recognized institution. Degrees and grades from foreign institutions are evaluated for their equivalency to those of the University of Calgary.
- b) A minimum GPA of 3.00 (on the University of Calgary four-point system). This is based on the last two years of the undergraduate degree consisting of a minimum of 60 units.
- c) For applicants required to present proficiency in English, a minimum TOEFL (Internet-based) score of 97, an IELTS (academic version) overall band score of 7.0 or a CAEL overall score of 70 (with no section less than 70). This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.

The test must have been taken within the last two years. When requesting that official TOEFL test scores are forwarded to the University of Calgary, please indicate institution code 0813.

d) Two references are required to apply to the graduate certificate. Referees will be asked to complete an online reference form. Please note that references are not required for previously admitted students seeking admission to the Graduate Diploma or Master of Education (Interdisciplinary Studies).

- d) Admission to the Learning Sciences specialization requires a 3.50 GPA.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the requirements of the Faculty of Graduate Studies, the Program requires:

- a) **EDER608 Research Methods in Education** and 3 units from any other 600-level thesis-based research methods in education course.
- b) Additional graduate courses or seminars as required by specializations (see below) and any additional courses as determined by the supervisor in consultation with the student.
  - Adult Learning requires 12 units selected from the Adult Learning courses;
  - Curriculum and Learning requires 9 units selected from the Curriculum and Learning courses;
  - Language and Literacy requires 9 units selected from the Language and Literacy courses;
  - Leadership requires 12 units selected from the Leadership and Policy courses;
  - Learning Sciences requires 6 units selected from the Learning Sciences courses, and 6 additional units from any other Educational Research specialization.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make **Advanced Credit** requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma, or for courses taken to bring grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

Graduate Programs in Education in the Werklund School of Education will not permit the **Flexible Grade Option (CG Grade)** for any course offered by the School.

Students may not choose the CG grade for a course taken extra to load.  
The use of the CG grade will affect students' eligibility for internal awards.

## Credit For Undergraduate Courses

Graduate Programs in Education does not normally accept undergraduate courses for credit toward graduate degrees.

## Time Limit

Expected completion time for full-time students is two years in thesis-based master's programs. Maximum completion time is four years for thesis-based master's programs.

### Supervisory Assignments, Research Proposal and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

A supervisor is normally appointed at the time of admission.

A supervisory committee, approved by the Graduate Program Director, is required for MA or MSc students choosing the manuscript-based thesis route. Normally, the committee will consist of the supervisor and two members (see [Supervision](#)).

### Research Proposal Requirements

Information on research proposals is available through the supervisor.

Ethics approval is required for all research projects involving the use of human subjects before data collection begins. In order to submit an ethics application, students are required to complete the TCPS2 tutorial and upload the certificate of completion into their Researcher Profile in IRISS. Register on the TCPS2 [website](#).

To initiate the ethics approval process, the student, in consultation with the supervisor, must submit an application to either the Conjoint Faculties Research Ethics Board or the Conjoint Health Research Ethics Board. Applications to the CFREB or CHREB are created and submitted online using [IRISS](#).

### Required Examinations

#### Thesis Examination

In addition to the Faculty of Graduate Studies regulations for [Thesis Examinations](#), the program requires:

##### *Scheduling of the Examination*

All members of the Supervisory Committee must have approved the student's draft thesis document before an examination can be scheduled.

##### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this calendar and the Graduate Awards and Scholarships page of the Werklund School of Education [website](#).

## Overview

### General Program Information

Please note: This degree requires a two year full-time residency. Students must be available during the day to attend research seminars, courses, and to perform teaching and research related duties at the university campus for the first two years of their program.

---

## Admissions

### Program Admissions Information

The deadline for the submission of complete applications is available on the Future Students website:

<http://www.ucalgary.ca/future-students/graduate/explore-programs/educational-research-doctor-philosophy-thesis-based>.

---

In addition to the Faculty of Graduate Studies **Admission Requirements**, Graduate Programs in Education requires:

- A thesis-based master's degree in an appropriate field. Outstanding applicants holding master's degrees without thesis may be considered.
- A minimum grade point average of 3.50 on a four-point scale in a master's degree program.
- A written statement indicating the applicant's reasons for wishing to pursue a graduate program.
- Where appropriate, candidates will be expected to have, or to obtain, relevant practical experience in their area of specialization.
- For applicants required to present proficiency in English, a minimum TOEFL (Internet-based) score of 97, an IELTS (academic version) overall band score of 7.0 or a CAEL overall score of 70 (with no section less than 70). This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in each course.

The test must have been taken within the last two years. When requesting that official TOEFL test scores are forwarded to the University of Calgary, please indicate institution code 0813.

- Two references. Referees will be asked to complete an online reference form.

---

## Admission Portfolio

Applicants to the Doctor of Philosophy program are encouraged to submit an Admission Portfolio containing examples of their work. The purpose of the Admission Portfolio is to give applicants the opportunity to provide additional documentation that demonstrates their suitability and qualification for doctoral studies. The Admission Portfolio is particularly relevant for program applicants who do not hold a thesis-based master's degree.

The Doctoral Admission Portfolio may contain the following:

- a) Thesis (if applicable).
- b) Reports.
- c) Research grants or scholarships.
- d) Articles.
- e) Curriculum documents.
- f) Non-print materials, (e.g. multimedia).
- g) Evidence of relevant prior learning (see below).
- h) Personal statement documenting research skills and interests.

The Doctoral Admission Portfolio must include a Table of Contents and an Executive Summary that outlines the contents of the Portfolio.

## Relevant Prior Learning Considerations

In exceptional circumstances, individuals who do not meet formal academic requirements but who have significant life achievements may be considered for admission to the program. The candidates must provide Graduate Programs in Education with evidence demonstrating a potential to undertake successfully the proposed program of studies. Such candidates are advised to make early contact with Graduate Programs in Education, and supply additional supporting documents as part of their application package, such as:

- a) Evidence of personal continuing education/training.
- b) Results in these continuing education efforts.
- c) Experience in a field related to the aspired degree.
- d) Evidence of successful management of people, resources, finances, situations.
- e) Increasing or varying responsible positions in organizations related to the aspired degree.
- f) Work-related products, e.g. reports, programs of learning or training, handbooks, videos, manuals, workshops, seminars.
- g) Evidence of personal growth in knowledge, understanding, management skills, and intellectual resources.
- h) Evidence of innovation.
- i) Evidence of leadership or co-ordination responsibilities.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the requirements of the Faculty of Graduate Studies, Graduate Programs in Education requires that students be available on campus for the first two years of their program.

a) **EDER702 Sem First-Year Dctrl Stdnt I** and **EDER704 Sem First-Year Dctrl Stdnt II**;

b) Additional 9 units of 700-level thesis-based courses in research methods (excluding EDER 707, 708, 709, 710, 711 and 712);

c) Additional graduate courses or seminars as required by the student's specialization. Courses may be selected from any 700-level Education Research courses:

- Adult Learning requires 9 units which must focus on Adult Learning;
- Curriculum and Learning requires 9 units which must focus on Curriculum and Learning;
- Language and Literacy requires 9 units which must focus on Language and Literacy;
- Leadership requires 9 units which must focus on Leadership and Policy;

- Learning Sciences requires 9 units which must focus on Learning Sciences.

d) Any additional courses as determined by the supervisor in consultation with the student.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make Advanced Credit request as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma, or for courses taken to bring grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

Graduate Programs in Education in the Werklund School of Education will not permit the Flexible Grade Option (CG Grade) for any course offered by the School.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit For Undergraduate Courses

Graduate Programs in Education does not normally accept undergraduate courses for credit toward graduate degrees.

### Time Limit

Expected completion time for full-time students is four years with a maximum completion time of six years.

#### Supervisory Assignment and Required Examinations

##### Type

Completion Requirement

##### Additional Comments:

### Supervisory Assignments

A supervisor is normally appointed at the time of admission.

### Required Examinations

#### Candidacy

Admission into Candidacy in the Werklund School of Education Graduate Programs: 1) requires that students have abilities to conceptualize, interpret, critique and synthesize comprehensive, substantive knowledge that is relevant to the discipline and practice of educational research; and 2) ensures that students have a well-developed plan for their dissertation research, a sound proposal with a well-developed research question, appropriate methodology, and consideration of ethical issues that demonstrate the ability to pursue and complete original independent research at the doctoral level.

In compliance with the Faculty of Graduate Studies Candidacy Regulations, the requirements for Admission to Candidacy at the Werklund School of Education is a 4-stage process:

1. Completion of all course requirements as identified in the calendar;
2. Field of study (FoS) written paper;
3. A research proposal approved by the Supervisory Committee (recognizing changes may be made after successful completion of the Candidacy exams);

## 4. An oral examination of the research proposal;

Ethics approval is required for all research projects involving the use of human subjects, before data collection begins. To initiate the ethics approval process, the student, in consultation with the supervisor, must submit an application to either the Conjoint Faculties Research Ethics Board or the Conjoint Health Research Ethics Board. Applications to the CFREB or CHREB are created and submitted online using [IRISS](#).

All Candidacy requirements must be completed within 28 months of the start of the program.

For further information, please consult the Graduate Programs in Education [website](#).

## Thesis

The Doctoral thesis is the focus of the degree program. In consultation with the supervisor, the student should formulate an appropriate thesis topic as early as possible in the program because the thesis proposal affects the choice and number of courses needed in order to complete the program.

## Thesis Examination

In addition to the Faculty of Graduate Studies regulations for [Thesis Examinations](#), the program requires:

### *Scheduling of the Examination*

All members of the Supervisory Committee must have approved the student's draft thesis document before an examination can be scheduled.

### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Admissions

### Program Admissions Information

The deadline for submission of complete applications is available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/educational-research-master-education-specialist-course-based>.

In addition to the Faculty of Graduate Studies admission requirements, Graduate Programs in Education requires:

- a) A University of Calgary four-year baccalaureate degree or an equivalent degree from a recognized institution. Degrees and grades from foreign institutions are evaluated for their equivalency to those of the University of Calgary.
- b) A minimum GPA of 3.00 (on the University of Calgary four-point system). This is based on the last two years of the undergraduate degree consisting of a minimum of 60 units.
- c) A written statement indicating the applicant's reasons for pursuing a graduate program in Graduate Programs in Education.
- d) For applicants required to present proficiency in English, a minimum TOEFL (Internet-based) score of 97, an IELTS (academic version) overall band score of 7.0 or a CAEL overall score of 70 (with no section less than 70). This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in each course.

The test must have been taken within the last two years. When requesting that official TOEFL test scores are forwarded to the University of Calgary, please indicate institution code 0813.

- e) Two references. Referees will be asked to complete an online reference form.

## Relevant Prior Learning Considerations

In exceptional circumstances, individuals who do not meet formal academic requirements but who have significant life achievements may be considered for admission to the program. The candidates must provide the relevant graduate program with evidence demonstrating a potential to undertake successfully the proposed program of studies. Such candidates are advised to make early contact with Graduate Programs in Education, and supply additional supporting documents as part of their application package, such as:

- a) Evidence of personal continuing education/training.
- b) Results in these continuing education efforts.
- c) Experience in a field related to the aspired degree.
- d) Evidence of successful management of people, resources, finances, situations.
- e) Increasing or varying responsible positions in organizations related to the aspired degree.
- f) Work-related products, e.g. reports, programs of learning or training, handbooks, videos, manuals, workshops, seminars.
- g) Evidence of personal growth in knowledge, understanding, management skills, and intellectual resources.
- h) Evidence of innovation.
- i) Evidence of leadership or co-ordination responsibilities.
- j) Evidence of academic writing.

## Overview

### General Program Information

Please note that Graduate Programs in Education is not admitting students to the MEd with specialization in Counselling Psychology this year.

## Admissions

## Program Details

## Overview

### General Program Information

Educational Psychology offers specializations in Counselling Psychology (CNPY) and School and Applied Child Psychology (SACP) at master's and doctoral levels. We offer both thesis-based degrees (MSc) and course-based degrees (MEd and MC) at the master's level. Both degree streams prepare students for roles as psychologists and counsellors though further steps (and possibly, courses) will be required to meet professional registration requirements.

---

The MSc in Educational Psychology with specialization in Counselling Psychology is delivered on-campus.

---

Location: Education Tower, Room 114

Program number: 403.220.5675

Toll free in Canada: 877.623.0292

Fax: 403.282.3005

## Admissions

### Program Admissions Information

The deadline for the submission of complete applications is available on the Future Students webpage: <http://ucalgary.ca/future-students/graduate/explore-programs/counselling-psychology-master-science-thesis-based>.

---

In addition to the Faculty of Graduate Studies requirements, entry requirements for the Counselling Psychology Master of Science program include:

a) A four-year undergraduate degree with a minimum grade point average of 3.00 over the courses taken during the last two years of study.

b) Normally, a minimum of 24 units in Educational Psychology and/or Psychology. This must include:

One undergraduate statistics courses;

A senior undergraduate psychology or educational psychology course in the area of Communication Skills in Guidance and Counselling, or its equivalent, Working Alliance;

A senior undergraduate Psychology or Educational Psychology course in each of (a) cognitive psychology/learning theory, (b) social psychology, (c) biological bases of behaviour, and (d) developmental psychology.

c) A curriculum vitae including information about previous employment and volunteer experience, and a concise rationale for the application (500 words or less) including a description of the applicant's research interests and potential supervisors from within the counselling psychology program area, if applicable.

d) Two academic references; one of which is from the undergraduate honours supervisor, if an honours degree was completed. Optionally, a third reference from someone who has supervised the applicant in counselling-related employment or volunteer work.

e) For applicants required to present proficiency in English, a minimum TOEFL (Internet-based) score of 97, an IELTS (academic version) overall band score of 7.0 or a CAEL overall score of 70 (with no section less than 70). This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in each course.

The test must have been taken within the last two years. When requesting that official TOEFL test scores are forwarded to the University of Calgary, please indicate institution code 0813.

Note: A completed **Pre-Admissions Checklist** is required as part of the admissions process.

**Additional Comments:**

## Police Information Check

All successful applicants to the Werklund School of Education Counselling Psychology program are required to provide a current Police Information Check which includes a Criminal Record Check and a Vulnerable Sector Search. All successful applicants will be also required to acknowledge the requirement for a Police Information Check by submitting an "Acknowledgment of PIC requirement" declaration form prior to the start of the program. Students who are not residents of Calgary must arrange for a Police Information Check through their nearest police service or RCMP detachment in the area where they reside. In order to be considered "current", the Police Information Check must be completed no earlier than June 30, and students will be required to request a new Police Information Check every year in which they enroll in a practicum course (Educational Psychology 640, 647). The original Police Information Check must be presented to the administration in the Graduate Program Office in the Werklund School of Education before the start of Fall Term classes and to the organization hosting the student on or before the first day of the practicum.

Students who are concerned about the presence of a criminal record should contact the police department to discuss the process for eliminating or erasing such a record.

A current and clear Police Information Check is required for all third-party and University of Calgary practicum placements. Failure to present a Police Information Check may result in the student being unable to complete their Practicum. Successful completion of Practicum is required for graduation.

Students are obligated to inform the Faculty immediately of any change in status of their criminal record.

## Additional Program Information

### Type

Completion Requirement

**Additional Comments:**

## Advanced Credit

The applicant must make **Advanced Credit** requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring grade point average to a required level for admission.

## Flexible Grade Option (CG Grade)

Graduate Programs in Education in the Werklund School of Education will not permit the **Flexible Grade Option (CG Grade)** for any course offered by the School.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Graduate Programs in Education do not normally accept undergraduate courses for credit toward graduate degrees.

## Time Limit

The Master of Science requires two years of full-time study to complete. Maximum time allowed for completion of the Master of Science degree is four years.

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

An interim advisor is assigned to each first-year student in a thesis-based program. Students are responsible for initiating discussions with potential permanent supervisors and are expected to have finalized supervisory arrangements by their second annual registration.

A supervisory committee, approved by the Graduate Program Director, is required for MSc students choosing the manuscript-based thesis route. Normally, the committee will consist of the supervisor and two members (see [Supervision](#))

## Research Proposal Requirements

Information on research proposals is available through the interim advisor/supervisor.

Ethics approval is required for all research projects involving the use of human subjects, before data collection begins. In order to submit an ethics application, students are required to complete the TCPS2 tutorial and upload the certificate of completion into their Researcher Profile in IRIS. Register on the TCPS2 [website](#).

To initiate the ethics approval process, the student, in consultation with the supervisor, must submit an application to either the Conjoint Faculties Research Ethics Board or the Conjoint Health Research Ethics Board. Applications to the CFREB or CHREB are created and submitted online using [IRIS](#).

## Required Examinations

### Thesis Examination

In addition to the Faculty of Graduate Studies regulations for [Thesis Examinations](#), the program requires:

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for scholarships for September admission must submit their scholarship applications to the Graduate Programs in Education by the posted deadline dates for individual awards as noted at <https://werkland.ucalgary.ca/graduate-programs/awards>.

Graduate Programs in Education also provides assistance for students through teaching assistantships, graduate research scholarships and other scholarships. Application forms and deadline information for these awards can be obtained from Graduate Programs in Education.

## Admissions

### Program Admissions Information

The deadline for the submission of complete applications is available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/counselling-psychology-doctor-philosophy-thesis-based>.

---

In addition to the Faculty of Graduate Studies [admission requirements](#), entry requirements include:

a) A completed thesis-based master's degree in Counselling Psychology or equivalent from an approved university, with a minimum grade point average of 3.50 in the master's program, including 500 hours of practicum, with a minimum of 400 hours (200 direct client contact hours) completed under the supervision of a registered psychologist.

Note: If coursework or practicum from an applicant's master's program is not equivalent to the Master of Science in Counselling Psychology at the University of Calgary, the student may be admitted as a qualifying student (see [G.A.3 Admission Categories](#)). A qualifying student is required to take additional courses within the doctoral program to ensure equivalent training.

b) Two senior undergraduate or one graduate course (3 units each) in (i) biological bases of behaviour, (ii) cognitive-affective bases of behaviour, (iii) social bases of behaviour, and (iv) individual behaviour.

c) One senior undergraduate or one graduate course in the historical and scientific foundations of general psychology.

d) One graduate course in Indigenous Approaches to therapy ([EDPS645 Indigenous Approaches Therapy](#)) or equivalent.

Note: Students may be considered for admission to the PhD program in Counselling Psychology if up to 12 units of prerequisite courses outlined in b), c) and d) have not been completed at the time of application. Prerequisite coursework must be completed before the doctoral candidacy examination.

e) A curriculum vitae including information about previous employment and volunteer experience, and a concise rationale (500 words or less) for the application including a description of the applicant's research interests and potential supervisors from within the counselling psychology program area, if applicable.

f) Three references: two academic references and one from someone who has provided clinical supervision for the applicant (e.g., a practicum supervisor). It is recommended that one of the academic references be the applicant's master's thesis supervisor or a professor who is familiar with the applicant's thesis research.

g) For applicants required to present proficiency in English, a minimum TOEFL (Internet-based) score of 97, an IELTS (academic version) overall band score of 7.0 or a CAEL overall score of 70 (with no section less than 70). This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course. The test must have been taken within the last two years. When requesting that official TOEFL test scores are forwarded to the University of Calgary, please indicate institution code **0813**.

Note: A completed [Pre-Admissions Checklist](#) is required as part of the admissions process.

Students are obligated to inform the Faculty immediately of any change in the status of their criminal record.

## Credit for Undergraduate Courses

Graduate Programs in Education does not normally accept undergraduate courses for credit toward graduate degrees.

## Time Limit

The Doctor of Philosophy degree is designed to be completed in four years. Maximum completion time allowed is six years.

### Supervisory Assignments, Research Proposal and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

## Supervisory Assignments

An interim advisor is assigned to each first-year student in a thesis-based program. Students are responsible for initiating discussions with potential permanent supervisors and are expected to have finalized supervisory arrangements by their second annual registration.

## Research Proposal Requirements

Information on research proposals is available through the interim advisor/supervisor.

Ethics approval is required for all research projects involving the use of human subjects, before data collection begins. In order to submit an ethics application, students are required to complete the TCPS2 tutorial and upload the certificate of completion into their Researcher Profile in IRIS. Register on the TCPS2 [website](#).

To initiate the ethics approval process, the student, in consultation with the supervisor, must submit an application to either the Conjoint Faculties Research Ethics Board or the Conjoint Health Research Ethics Board. Applications to the CFREB or CHREB are created and submitted online using [IRIS](#).

## Required Examinations

In addition to the Faculty of Graduate Studies requirements for [candidacy](#) and [thesis examinations](#), the program requires:

## Candidacy

Admission into Candidacy in the Werklund School of Education Graduate Programs: 1) requires that students have abilities to conceptualize, interpret, critique and synthesize comprehensive, substantive knowledge that is relevant to the discipline and practice of educational psychology; and 2) ensures that students have a well-developed plan for their dissertation research, a sound proposal with a well-developed research question and potential for the ability to pursue and complete original independent research at the doctoral level.

In compliance with the Faculty of Graduate Studies Candidacy Regulations, the requirements for Admission to Candidacy at the Werklund School of Education is a four-stage process:

- Completion of all course requirements as identified in the calendar;
- Field of study (FoS) written paper;
- A research proposal approved by the Supervisory Committee (recognizing changes may be made after successful completion of exams prior to submission for ethics approval);
- An oral examination of the research proposal.

All Candidacy requirements must be completed within 28 months of the start of the program.

For further information, please consult the Graduate Programs in Education [website](#).

## Thesis

The doctoral thesis is the focus of the degree program. In consultation with the supervisor, the student should formulate an appropriate thesis topic as early as possible in the program because the thesis proposal affects the choice and number of courses needed in order to complete the program.

## Thesis Examination

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

## Admissions

### Program Admissions Information

The deadline for the submission of complete applications is available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/counselling-psychology-master-counselling-course-based](http://ucalgary.ca/future-students/graduate/explore-programs/counselling-psychology-master-counselling-course-based).

In addition to the Faculty of Graduate Studies **admission** requirements, entry requirements include:

- a) A minimum of 9 units in Psychology or Educational Psychology, including one course each in human development and learning. In addition, applicants are required to have a senior undergraduate Psychology or Educational Psychology course in the area of Communication Skills in Guidance and Counselling, or its equivalent, Communication Skills – Interpersonal and Verbal Facilitation. All prerequisite coursework must be completed with a grade of "B-" or above.
- b) A curriculum vitae and a concise rationale for the application (500 words or less).
- c) Two references; either academic or practice supervisor.
- d) For applicants required to present proficiency in English, a minimum TOEFL (Internet-based) score of 97, an IELTS (academic version) overall band score of 7.0 or a CAEL overall score of 70 (with no section less than 70). This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in each course.

The test must have been taken within the last two years. When requesting that official TOEFL test scores are forwarded to the University of Calgary, please indicate institution code **0813**.

- e) Paid employment or volunteer work in counselling-related and research-related roles will be an asset.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to the Faculty of Graduate Studies **requirements**, the MC Counselling Psychology program requires the following:

A total of 45 units of course work that includes:

**Complete ALL of the following Courses:**

- EDPS602 - Counselling Theories and Professional Practice  
**AND** EDPS604 - Professional Ethics in Applied Psychology  
**AND** EDPS610 - Research Methodology in Counselling  
**AND** EDPS616 - Assessment Theory and Practices  
**AND** EDPS622 - Developing and Sustaining a Working Alliance with Clients  
**AND** EDPS624 - Cultural and Social Justice Issues in Professional Practice  
**AND** EDPS626 - Group Interventions and Processes  
**AND** EDPS630 - Foundations of Career Counselling  
**AND** EDPS638 - Counselling Interventions for Client Change  
**AND** EDPS646 - Processes of Learning  
**AND** EDPS648 - Lifespan Human Development  
**AND** EDPS664 - Psychological Approaches to Health  
**AND** EDPS670 - Final Project Portfolio

plus:

Practicum: **EDPS642 Counselling Practicum I**, **EDPS644 Counselling Practicum II**. Note Police Information Check below.

Detailed information on course requirements can be obtained from Graduate Programs in Education website:

<https://werklund.ucalgary.ca/graduate-programs/current-students/programs/masters/Master-of-Counselling>.

#### Additional Comments:

Applicants to the Master of Counselling should have reasonable computer literacy as portions of the program are delivered online. Additionally, students are expected to have access to the necessary hardware and a stable internet connection to fully participate in online portions of the program.

## Police Information Check

All successful applicants to the Werklund School of Education Master of Counselling program are required to provide a current Police Information Check which includes a Criminal Record Check and a Vulnerable Sector Search. All successful applicants will be also required to acknowledge the requirement for a Police Information Check by submitting an "Acknowledgment of PIC Requirement" declaration form prior to the start of the program. Students who are not residents of Calgary must arrange for a Police Information Check through their nearest police service or RCMP detachment in the area where they reside. In order to be considered "current", the Police Information Check must be completed no earlier than June 30 and students will be required to request a new Police Information Check every year in which they enroll in a practicum course (Educational Psychology 642, 644). The original Police Information Check must be presented to the administration in the Graduate Program Office in the Werklund School of Education before the start of Fall Term classes and to the organization hosting the student on or before the first day of the practicum.

Students who are concerned about the presence of a criminal record should contact the police department to discuss the process for eliminating or erasing such a record.

A current and clear Police Information Check is required for all third-party and University of Calgary practicum placements. Failure to present a Police Information Check may result in the student being unable to complete their Practicum or Internship. Successful completion of both Practicum and Internship are required for graduation.

Students are obligated to inform the Faculty immediately of any change in the status of their criminal record.

### Additional Program Information

#### Type

Completion Requirement

#### Additional Comments:

## Flexible Grade Option (CG Grade)

Graduate Programs in Education in the Werklund School of Education will not permit the Flexible Grade Option (CG Grade) for any course offered by the School.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring grade point average to a required level for admission.

## Credit for Undergraduate Courses

Graduate Programs in Education does not normally accept undergraduate courses for credit toward graduate degrees.

## Time Limit

The Master of Counselling can be completed in three years of full-time study, but students may take up to six years to complete the degree on a part-time basis.

## Supervisory Assignments

The Academic Program Coordinator serves as students' academic advisor.

### Financial Assistance

#### Type

Completion Requirement

## Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for scholarships for September admission must submit their scholarship applications to the Graduate Programs in Education office by the posted deadline dates for individual awards as noted at [werkslund.ucalgary.ca/graduate-programs/awards](http://werkslund.ucalgary.ca/graduate-programs/awards).

## Overview

### General Program Information

Educational Psychology offers specializations in Counselling Psychology (CNPY) and School and Applied Child Psychology (SACP) at master's and doctoral levels. We offer both thesis-based degrees (MSc) and course-based degrees (MEd and MC) at the master's level. Both degree streams prepare students for roles as psychologists and counsellors though further steps (and possibly, courses) will be required to meet professional registration requirements.

Master of Education (MEd) with specialization in School and Applied Child Psychology (SACP), course-based – blended delivery: online and blended courses with some face-to-face/on-campus meeting times at the University of Calgary main campus.

The MEd, SACP is a continuous program with no scheduled breaks.

Applicants considering the field of school psychology should keep in mind that a master's degree is only the first step to obtaining the credentials necessary for professional practice. To practice, graduates register with the regulatory body in their own jurisdiction (i.e. province, state, or territory). Registration is a process independent from completing the MEd program. The registration options available differ depending on: a) the jurisdiction in which graduates reside, b) the level of education required for registration, and c) the regulatory body with which they register. Students are encouraged to review the registration requirements in their own jurisdiction prior to enrolling in the program.

## Admissions

### Program Admissions Information

The deadline for the submission of complete applications is available on the Future Students website:

<http://www.ucalgary.ca/future-students/graduate/explore-programs/school-applied-child-psychology-master-education-course-based>.

In addition to the Faculty of Graduate Studies requirements, entry requirements include:

a) A completed bachelor's degree in Education or Psychology with a grade point average of 3.00 (equivalent to a "B" or 70 per cent in many universities) over the courses taken during the last two years of study.

## UCalgary

b) A minimum of 30 units completed in psychology is required prior to application. All prerequisite coursework must be completed with a grade of "B-" or above. Applicants must complete and submit a **Required Courses Table** detailing psychology educational history.

c) A curriculum vitae and a concise rationale for the application (500 words or less).

d) Two letters of reference.

e) For applicants required to present proficiency in English, a minimum TOEFL (Internet-based) score of 97, an IELTS (academic version) overall band score of 7.0 or a CAEL overall score of 70 (with no section less than 70). This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in each course.

The test must have been taken within the last two years. When requesting that official TOEFL test scores are forwarded to the University of Calgary, please indicate institution code 0813.

Applicants to the Master of Education in School and Applied Child Psychology should have reasonable computer literacy as portions of the programs are delivered online.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the Faculty of Graduate Studies requirements, the MEd SACP program requires a total of 51 units of course work that includes:

i. SACP specialization courses:

**Complete ALL of the following Courses:**

- EDPS614 - Ethics in Professional Psychology  
**AND** EDPS652 - Academic and Language Assessment  
**AND** EDPS653 - Professional Practice of School Psychology  
**AND** EDPS654 - Neurobiological and Developmental Bases of Learning and Behaviour  
**AND** EDPS681 - Theories and Skills of Counselling  
**AND** EDPS687 - Developmental Psychopathology  
**AND** EDPS689 - Cognitive Assessment  
**AND** EDPS690 - School-based Intervention and Consultation  
**AND** EDPS696 - Social, Emotional, and Behavioural Assessment and Intervention

**Complete at least 1 of the following courses:**

- EDPS650 - Family and Social Bases of Behaviour  
**OR** EDPS688 - Cognitive and Affective Bases of Behaviour

ii. Practicum courses (a minimum of 400 hours):

Note Police Information Check below.

**Complete ALL of the following Courses:**

- EDPS676 - Practicum in Social, Emotional, and Behavioural Assessment  
**AND** EDPS697 - Practicum in Academic and Cognitive Assessment

iii. Research courses:

Complete ALL of the following Courses:

- EDPS605 - Psychological Measurement and Statistics  
**AND** EDPS607 - Fundamentals of Measurement

**Additional Comments:**

iv. Final Project Portfolio: **EDPS684 Adv Sem Domains School Psyc** is the students' capstone course and is evaluated as an exit portfolio. Educational Psychology 684 must be taken as the final course (or concurrently with final courses) prior to the internship.

v. Internship (1200 hours): **EDPS698 Pre-Master's Internship**. Note Police Information Check below.

Detailed information on core course requirements can be obtained from Graduate Programs in Education [website](#).

## Police Information Check

All successful applicants to the Werklund School of Education School and Applied Child Psychology program are required to provide a current Police Information Check which includes a Criminal Record Check and a Vulnerable Sector Search. All successful applicants will also be required to acknowledge the requirement for a Police Information Check by submitting an "Acknowledgment of PIC Requirement" declaration form prior to the start of the program. Students who are not residents of Calgary must arrange for a Police Information Check through their nearest police service or RCMP detachment in the area where they reside. In order to be considered "current", the Police Information Check must be completed no earlier than April 30 and students will be required to request a new Police Information Check every year in which they enroll in a practicum or internship course (Educational Psychology 676, 697, 698). The original Police Information Check must be presented to the administration in the Graduate Program Office in the Werklund School of Education during the first summer residency and to the organization hosting the student on or before the first day of the practicum or internship.

Students who are concerned about the presence of a criminal record should contact the police department to discuss the process for eliminating or erasing such a record.

A current and clear Police Information Check is required for all third-party and University of Calgary practicum placements. Failure to present a Police Information Check may result in the student being unable to complete their Practicum. Successful completion of Practicum is required for graduation.

Students are obligated to inform the Faculty immediately of any change in status of their criminal record.

## Additional Program Information

### Type

Completion Requirement

**Additional Comments:**

## Advanced Credit

The applicant must make **Advanced Credit** requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring grade point average to a required level for admission.

## Flexible Grade Option (CG Grade)

Graduate Programs in Education in the Werklund School of Education will not permit the **Flexible Grade Option (CG Grade)** for any course offered by the School.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Graduate Programs in Education does not normally accept undergraduate courses for credit toward graduate degrees.

### Time Limit

The Master of Education School and Applied Child Psychology program can be completed in three years of full-time study but students may take up to six years to complete the degree on a part-time basis.

### Supervisory Assignments

The Academic Program Coordinator serves as students' academic advisor.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for scholarships for September admission must submit their scholarship applications to the Graduate Programs in Education office by the posted deadline dates for individual awards as noted at <https://werkklund.ucalgary.ca/graduate-programs/awards>.

## Overview

## Admissions

### Program Admissions Information

The deadline for the submission of complete applications is available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/school-applied-child-psychology-master-science-thesis-based>.

In addition to Faculties of Graduate Studies and Education requirements, entry requirements include:

- a) Honours degree in Psychology (or equivalent) is preferred; applicants with a degree in Psychology, previous experience in the Psychological field, and a grade point average of 3.00 (equivalent to a "B" or 70 per cent average) over the courses taken during the last two years of study will be considered.
- b) Normally, a minimum of 18 units in Educational Psychology or Psychology. This must include:

- i. One undergraduate course in statistics
- ii. One senior undergraduate Psychology or Educational Psychology course in cognitive-affective bases of behaviour.
- iii. One senior undergraduate Psychology or Educational Psychology course in child development or equivalent.

All prerequisite coursework must be completed with a grade of "B-" or above.

c) Curriculum Vitae.

d) Two academic references, one of which is normally from the undergraduate honours supervisor, if applicable.

e) For applicants required to present proficiency in English, a minimum TOEFL (Internet-based) score of 97, an IELTS (academic version) overall band score of 7.0 or a CAEL overall score of 70 (with no section less than 70). This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in each course.

The test must have been taken within the last two years. When requesting that official TOEFL test scores are forwarded to the University of Calgary, please indicate institution code 0813.

f) A short statement of intent (approximately 500 words) of your research and professional interest in school psychology (e.g., expected contribution to the field; understanding of school psychology) indicating your reasons for wanting to pursue graduate work in this degree.

Note: A completed **Pre-Admissions Checklist** is required as part of the admissions process.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to the Faculty of Graduate Studies and Education requirements, the MSc SACP degree program requires the following:

42 units of coursework that includes:

**Complete ALL of the following Courses:**

- EDPS609 - Research Design in Statistics II  
**AND** EDPS614 - Ethics in Professional Psychology  
**AND** EDPS618 - Multivariate Design and Analysis  
**AND** EDPS650 - Family and Social Bases of Behaviour  
**AND** EDPS651 - Disorders of Learning and Behaviour  
**AND** EDPS653 - Professional Practice of School Psychology  
**AND** EDPS654 - Neurobiological and Developmental Bases of Learning and Behaviour  
**AND** EDPS659 - Academic Assessment and Intervention  
**AND** EDPS665 - Cognitive Assessment and Intervention  
**AND** EDPS669 - Social-Emotional Assessment and Intervention  
**AND** EDPS683 - Consultation in School Psychology  
**AND** EDPS685 - Child and Adolescent Counselling

Practicum (minimum 400 hours):

**Complete ALL of the following Courses:**

- EDPS662 - School Psychology Practicum I  
**AND** EDPS663 - School Psychology Practicum II

Additional Comments:

### Police Information Check

All successful applicants to the Werklund School of Education Counselling Psychology program are required to provide a current Police Information Check which includes a Criminal Record Check and a Vulnerable Sector Search. All successful applicants will be also required to acknowledge the requirement for a Police Information Check by submitting an "Acknowledgment of PIC requirement" declaration form prior to the start of the program. Students who are not residents of Calgary must arrange for a Police Information Check through their nearest police service or RCMP detachment in the area where they reside. In order to be considered "current", the Police Information Check must be completed no earlier than June 30, and students will be required to request a new Police Information Check every year in which they enroll in a practicum course (Educational Psychology 640, 647). The original Police Information Check must be presented to the administration in the Graduate Program Office in the Werklund School of Education before the start of Fall Term classes and to the organization hosting the student on or before the first day of the practicum.

Students who are concerned about the presence of a criminal record should contact the police department to discuss the process for eliminating or erasing such a record.

A current and clear Police Information Check is required for all third-party and University of Calgary practicum placements. Failure to present a Police Information Check may result in the student being unable to complete their Practicum. Successful completion of Practicum is required for graduation.

Students are obligated to inform the Faculty immediately of any change in status of their criminal record.

### Additional Program Information

#### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

Graduate Programs in Education in the Werklund School of Education will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the School.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Graduate Programs in Education do not normally accept undergraduate courses for credit toward graduate degrees.

### Time Limit

The Master of Science requires two years of full-time study to complete. Maximum time allowed for completion of the Master of Science degree is four years.

### Supervisory Assignments, Research Proposal and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

An interim advisor is assigned to each first-year student in a thesis-based program. Students are responsible for initiating discussions with potential permanent supervisors and are expected to have finalized supervisory arrangements by their second annual registration.

A supervisory committee, approved by the Graduate Program Director, is required for MSc students choosing the manuscript-based thesis route. Normally, the committee will consist of the supervisor and two members (see – [Supervision](#))

## Research Proposal Requirements

Information on research proposals is available through the interim advisor/supervisor.

Ethics approval is required for all research projects involving the use of human subjects, before data collection begins. In order to submit an ethics application, students are required to complete the TCPS2 tutorial and upload the certificate of completion into their Researcher Profile in IRIS. Register on the TCPS2 [website](#).

To initiate the ethics approval process, the student, in consultation with the supervisor, must submit an application to either the Conjoint Faculties Research Ethics Board or the Conjoint Health Research Ethics Board. Applications to the CFREB or CHREB are created and submitted online using [IRIS](#).

## Required Examinations

### Thesis Examination

In addition to the Faculty of Graduate Studies regulations for [Thesis Examinations](#), the program requires:

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for scholarships for September admission must submit their scholarship applications to the Graduate Programs in Education by the posted deadline dates for individual awards as noted at <https://werkklund.ucalgary.ca/graduate-programs/awards>.

Graduate Programs in Education also provides assistance for students through teaching assistantships, graduate research scholarships and other scholarships. Application forms and deadline information for these awards can be obtained from Graduate Programs in Education.

## Admissions

### Program Admissions Information

The deadline for the submission of complete applications is available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/school-applied-child-psychology-doctor-philosophy-thesis-based](http://ucalgary.ca/future-students/graduate/explore-programs/school-applied-child-psychology-doctor-philosophy-thesis-based).

In addition to the Faculty of Graduate Studies and Education requirements, entry requirements include:

a) A completed thesis-based master's degree in School and Applied Child Psychology or equivalent from an approved university, with a minimum grade point average of 3.50 in the Master's degree.

**Note:** If coursework from an applicant's Master's degree is not equivalent to courses from the Master of Science in School and Applied Child Psychology at the University of Calgary, the student may be admitted as a qualifying student (see [G.A.3 Admission Categories](#)). A qualifying student is required to take additional courses within the doctoral program to ensure equivalent training. A qualifying student may take up to 12 units to meet equivalency requirements during the qualifying year. Qualifying status will not be granted for a period exceeding one year.

b) Two senior undergraduate courses or one graduate course (3 units each) with a minimum grade of "B-" in (i) biological bases of behaviour, (ii) cognitive-affective bases of behaviour, (iii) social bases of behaviour, and (iv) individual behaviour.

c) One senior undergraduate or one graduate course (3 units each) with a minimum grade of "B-" in the historical and scientific foundations of general psychology.

**Note:** Students may be considered for admission if up to 12 units of prerequisite courses have not been completed at the time of application. Prerequisite coursework must be completed before the doctoral candidacy examination.

d) Curriculum Vitae.

e) Three references, including two academic references, one of which is normally from the former thesis advisor.

f) For applicants required to present proficiency in English, a minimum TOEFL (Internet-based) score of 97, an IELTS (academic version) overall band score of 7.0 or a CAEL overall score of 70 (with no section less than 70). This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.

The test must have been taken within the last two years. When requesting that official TOEFL test scores are forwarded to the University of Calgary, please indicate institution code **0813**.

g) A concise rationale (500 words or less) for the application including statements about your research and professional interests in school psychology, your previous research experience and the research you would like to pursue in this degree, and specification of a prospective research supervisor from among current faculty.

Note: A completed [Pre-Admissions Checklist](#) is required as part of the admissions process.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the Faculty of Graduate Studies requirements, the degree program requires the following:

a) A minimum of 33 units of course work at the doctoral level that includes:

**Complete ALL of the following Courses:**

- EDPS712 - Program Evaluation and Consultation I  
**AND** EDPS713 - Program Evaluation and Consultation II  
**AND** EDPS731 - Advanced Clinical Supervision in Applied Psychology  
**AND** EDPS732 - Advanced Seminar in School and Applied Child Psychology  
**AND** EDPS760 - Evidenced-Based Consultation for Intervention  
**AND** EDPS762 - Advanced Neuropsychological Assessment and Intervention  
**AND** EDPS763 - School- and Clinical-based Interventions  
**AND** EDPS764 - Advanced Research Statistics

12 units of Practicum Courses selected from:

**Complete ANY of the following Courses:**

- EDPS761 - Advanced Doctoral Practicum in Clinical Assessment and Supervision  
**AND** EDPS766 - School-Based Practicum

#### Additional Comments:

b) A twelve-month (min. 1600 hours) full-time internship. Note: completion of this requirement will be recorded on the student transcript as a milestone.

First-year students are assigned an interim advisor who will assist with course selection.

PhD students are expected to undertake clients from the Werklund School of Education Integrated Services in Education Clinic and mentor MSc students in the on-campus practicum courses under the guidance of a qualified professional.

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

Graduate Programs in Education in the Werklund School of Education will not permit the Flexible Grade Option (CG Grade) for any course offered by the School.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Police Information Check

All successful applicants to the Werklund School of Education School and Applied Child Psychology program are required to provide a current Police Information Check (obtained from their nearest police service or RCMP detachment in the area where they reside), which includes a Criminal Record Check and a Vulnerable Sector Search. All successful applicants will be also required to acknowledge the requirement for a Police Information Check by submitting an "Acknowledgment of PIC Requirement" declaration form prior to the start of the program. In order to be considered "current", the Police Information Check must be completed no earlier than June 30 and students will be required to request a new Police Information Check every year in which they enroll in a practicum or internship (Educational Psychology 761 and 766). The original Police

Information Check must be presented to the administration in the Graduate Program Office in the Werklund School of Education before the start of Fall Term classes and to the organization hosting the student on or before the first day of the practicum or internship.

Students who are concerned about the presence of a criminal record should contact the police department to discuss the process for eliminating or erasing such a record.

A current and clear Police Information Check is required for all third-party and University of Calgary practicum and internship placements. Failure to present a Police Information Check may result in the student being unable to complete their Practicum or Internship. Successful completion of both Practicum and Internship are required for graduation.

Students are obligated to inform the Faculty immediately of any change in the status of their criminal record.

## Credit for Undergraduate Courses

Graduate Programs in Education does not normally accept undergraduate courses for credit toward graduate degrees.

## Time Limit

The Doctor of Philosophy degree is designed to be completed in four years. Maximum completion time allowed is six years.

### Supervisory Assignments, Research Proposal and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

Students are responsible for initiating discussions with potential permanent supervisors and are expected to have finalized supervisory arrangements by their second annual registration.

### Research Proposal Requirements

Information on research proposals is available through the interim advisor/supervisor.

Ethics approval is required for all research projects involving the use of human subjects, before data collection begins. In order to submit an ethics application, students are required to complete the TCPS2 tutorial and upload the certificate of completion into their Researcher Profile in IRIS. Register on the TCPS2 [website](#).

To initiate the ethics approval process, the student, in consultation with the supervisor, must submit an application to either the Conjoint Faculties Research Ethics Board or the Conjoint Health Research Ethics Board. Applications to the CFREB or CHREB are created and submitted online using IRIS [ucalgary.ca/iriss/](http://ucalgary.ca/iriss/).

### Required Examinations

#### Candidacy

Admission into Candidacy in the Werklund School of Education Graduate Programs: 1) requires that students have abilities to conceptualize, interpret, critique and synthesize comprehensive, substantive knowledge that is relevant to the discipline and practice of educational psychology; and 2) ensures that students have a well-developed plan for their dissertation research, a sound proposal with a well-developed research question and potential for the ability to pursue and complete original independent research at the doctoral level.

In compliance with the Faculty of Graduate Studies [candidacy regulations](#), the requirements for Admission to Candidacy at the Werklund School of Education is a 4 stage process:

- Completion of all course requirements as identified in the calendar;
- Field of study (FoS) written paper;
- A research proposal approved by the Supervisory Committee (recognizing changes may be made after successful completion of exams prior to submission for ethics approval);

- An oral examination of the research proposal;

All Candidacy requirements must be completed within 28 months of the start of the program.

For further information, please consult the Graduate Programs in Education [website](#).

## Thesis

The doctoral thesis is the focus of the degree program. In consultation with the supervisor, the student should formulate an appropriate thesis topic as early as possible in the program because the thesis proposal affects the choice and number of courses needed in order to complete the program.

## Thesis Examination

In addition to the Faculty of Graduate Studies regulations for [thesis examinations](#), the program requires:

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for scholarships for September admission must submit their scholarship applications to the Graduate Programs in Education office by the posted deadline dates for individual awards as noted at [werkklund.ucalgary.ca/graduate-programs/awards](http://werkklund.ucalgary.ca/graduate-programs/awards).

Graduate Programs in Education also provides assistance for students through teaching assistantships, graduate research scholarships and other scholarships. Application forms and deadline information for these awards can be obtained from Graduate Programs in Education.

## Overview

### General Program Information

**Applications for this interdisciplinary specialization are not current being accepted.**

The University offers an interdisciplinary specialization in Energy and Environmental Systems to students registered in an existing graduate program currently offered through one of the following Faculties that are affiliated with the Institute for Sustainable Energy, Environment and Economy (ISEEE):

- School of Architecture, Planning and Landscape
- Faculty of Arts
- Haskayne School of Business
- Faculty of Law
- Faculty of Science
- Schulich School of Engineering

In cases where the student's proposed research area cannot be supported through a single academic program, and which would necessitate the combination of at least two academic areas, they may seek admission and earn the EES specialization through the Interdisciplinary Graduate Program (IGP) of the Faculty of Graduate Studies.

## Admissions

### Program Admissions Information

There are no deadlines for applying for admission into the EES Specialization; however, students will only be admitted into the EES Specialization on January 1, May 1 and September 1. Students who are already enrolled in a graduate program at the University of Calgary are able to apply to the EES Specialization.

In addition to the Faculty of Graduate Studies' [admission](#) requirements, all applicants must meet the minimum admission requirements of the home graduate program and ISEEE. To apply for the specialization, students must complete an online EES specialization application form: <http://science.ucalgary.ca/iseee/student/apply-now>.

When applying to the EES specialization, students must have already applied to a home graduate program, faculty, or department and must already have a supervisor. Successful candidates must be approved for admission by both the home graduate program as well as by EES. Admission to a degree program does not guarantee entrance to the EES specialization. Likewise, admission to the EES specialization does not guarantee entrance to a degree program.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculty of Graduate Studies ([see regulations](#)) and the home graduate program's requirements, students undertaking the EES specialization must successfully complete the following:

#### EES Specialization at the Master's Level

Students in the EES specialization are required to complete four courses, which include:

- Energy and Environmental Systems 601: Introduction to Energy and Environmental Systems
- Energy and Environmental Systems 607: Tools for System Analysis

The remaining two courses must be electives approved by the EES Graduate Studies Committee. These courses are intended to bolster a student's background in energy and environmental systems and/or interdisciplinary research methods, and may be taken in other faculties, schools, or departments at the University of Calgary.

Master's students must also comply with the requirements of their home graduate program. In addition to these course requirements, students must conduct research that takes an interdisciplinary approach to a real-world problem in the area of energy and environmental systems. Students must also actively partake in EES seminars and activities, and contribute meaningfully to the interdisciplinary culture of the specialization.

#### EES Specialization at the Doctoral Level

Students who have previously earned a master's degree with the EES specialization cannot enrol into the EES specialization as a PhD student. Doctoral students are required to take the same EESS core courses that are required at the master's level and two electives in the area of energy and environment. Doctoral students must also comply with requirements of their home graduate program.

#### EES Specialization with MGIS Degree (course-based)

Students enrolled in the Master of Geographic Information Systems degree program who wish to earn the EES specialization

will need to take three of the EES courses (Energy and Environmental Systems 601, 603, and one other). Students are not required to take Geography 683, but must take the other core courses in the MGIS program (Geography 647, 633, 639, and 681). Finally, students will still be required to fulfill the 30 units (5.0 full-course equivalents) requirement of the MGIS program, and can select the remaining three courses from Geography optional courses or EES related courses. It is not recommended that students required to complete the MGIS upgrade courses undertake the EES specialization.

## **EES Specialization with the Interdisciplinary Graduate Program (IGP)**

The course curriculum for IGP students will be determined at the IGP admission seminar. Course requirements will typically include the EES core courses, but may also include other courses to ensure adequate coverage of the relevant disciplines involved. Changes to the student's curriculum after the admission seminar will require the approval of the Supervisory Committee, IGP Director, and the Faculty of Graduate Studies.

## **Additional Program Information**

### **Type**

Completion Requirement

### **Additional Comments:**

## **Advanced Credit**

Requests for advanced credit must be made at the time of application. Credit will not be granted for course work taken as part of another completed degree/diploma or for courses taken to bring the admission GPA to the required level.

## **Credit for Undergraduate Courses**

Students are allowed to take only one 500-level course for graduate credit, subject to the approval of the EES Graduate Studies Committee. Graduate students taking a 500-level course for graduate credit will be required to complete additional assignments.

## **Time Limit**

Expected completion time for a master's degree is two years and the maximum completion time is four years.

Expected completion time for the PhD degree is four years and the maximum completion time is six years.

## **Supervisory Assignment and Required Examinations**

### **Type**

Completion Requirement

### **Additional Comments:**

## **Supervisory Assignments**

Students must meet supervisory requirements of home department.

## **Required Examinations**

Final thesis orals follow the requirements of the Faculty of Graduate Studies and the home graduate program. Students in doctoral programs must fulfill the written candidacy examination requirement of the home graduate program. All doctoral students must complete the candidacy oral examination in accordance with Faculty of Graduate Studies' regulations.

## **Research Proposal Requirements**

If a research proposal is required by the home department, then a copy of the proposal must be submitted to the EES Graduate Studies Committee and will be placed on file.

## **Financial Assistance**

### **Type**

Completion Requirement

## Additional Comments:

Financial assistance may be available on a competitive basis to all qualified full-time graduate students enrolled in the EES specialization. Students are also encouraged to seek funding opportunities through the Faculty of Graduate Studies' Open Scholarship Competition (contact the home program for application deadlines), as well as external funding agencies.

## Overview

### General Program Information

Students may choose a specialization in Finance or may elect not to have an area of specialization.

Location: Mathison Hall, Room 424

EMBA Program: 403.220.5149

Fax: 403.282.0095

Email address:

EMBA Program: <mailto:emba@haskayne.ucalgary.ca>

Web page URL: <https://haskayne.ucalgary.ca/future-students/mba-programs/emba>

## Admissions

### Program Admissions Information

Deadlines are available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/management-executive-master-business-administration-course-based>.

In addition to the Faculty of Graduate Studies **admission** requirements for Admission, the program requires:

a) A four-year baccalaureate degree with a GPA of at least 3.00 on a four-point scale.

- *For applicants with a GPA below 3.0: An additional requirement of a score of 500 or higher on the GMAT or completion of the GMAC Executive Assessment with a minimum score of 140.\**

OR

- *Applicants without a four-year baccalaureate degree may be admissible with a combination of over 10 years of professional work experience and an additional requirement of a score of 500 or higher on the GMAT or 140 on the GMAC Executive Assessment.\**

*\*The final admission decision rests with the Dean of the Faculty of Graduate Studies. See **Qualifications** (Exceptional Circumstances).*

b) A current résumé.

c) A 250-word response to each of two questions provided as part of the application process.

d) For applicants required to prove proficiency in English, a minimum TOEFL score of 97 with no section less than 20 (Internet-based test), or an IELTS score of 7.0 with no section less than 6.0.

e) The equivalent of at least seven years of work experience, a number of years of which must have carried management or professional responsibility.

f) Two reference letters. References listed on application are emailed a link.

g) Applicants to the EMBA must be eligible to travel internationally.

h) Applicants may be required to participate in an interview.

### Admission Deposit

## UCalgary

Successful applicants will be required to confirm their acceptance of an offer of admission into the MBA program with an online non-refundable deposit:

Executive MBA: \$3,000

The deposit will be credited toward tuition fees upon registration.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to the Faculty of Graduate Studies [requirements](#), the program requires:

The delivery format of the program is different from the Haskayne MBA program and requires more integrative types of sessions and activities. However, the program requires many of the same courses as are required in the Haskayne MBA program. The Executive MBA has 42 units of required courses with 18 units of additional courses for a total of 60 units.

In general, students in this program are expected to follow a general curriculum rather than electing an area-specific specialization. However, there is the opportunity to elect a specialization in Finance.

Required Courses:

**Complete ALL of the following Courses:**

- ACCT601 - Introductory Financial Accounting  
**AND** ACCT603 - Management Accounting  
**AND** BTMA601 - Business Technology Management  
**AND** ENTI601 - Entrepreneurial Thinking  
**AND** FNCE601 - Managerial Finance  
**AND** MGST611 - Managerial Economics  
**AND** MGST613 - Managerial Decision Modeling  
**AND** MKTG601 - Marketing Management  
**AND** OPMA601 - Operations Management  
**AND** OBHR601 - Organizational Behaviour  
**AND** OBHR621 - Advanced Leadership  
**AND** SGMA601 - Strategic Management I  
**AND** SGMA603 - Global Environment of Business
- MGST615 - Strategic Business Analysis  
**OR** ENTI623 - Creative Destruction Lab - Rockies

#### Finance Specialization

Students taking the Finance specialization will complete 12 units in the area of Finance: [FNCE611 Adv Topics in Financial Admin](#) (3 units) plus 9 units of 600-level Finance courses.

#### Additional Comments:

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Flexible Grade Option (CG Grade)

Students admitted to the MBA (course-based) program, Executive MBA program or Executive MBA Specializing in Global Energy program will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Time Limit

Participants enter the program as a cohort and are expected to complete the program requirements at the same pace, typically over the same 20-month time frame. Maximum time limit: six years.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, please see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

#### Specializations:

- Machine Learning Engineering
- Software Engineering
- Process Engineering Sustainability
- Process Simulation Analytics
- Reliability Engineering and Predictive Maintenance
- Mechatronics Engineering

Location: Schulich School of Engineering Bloc C, Room 205

Phone number: 403.220.2001

Email address: <mailto:meng@ucalgary.ca>

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/graduate-certificates-advanced-engineering-practice>.

In addition to the Faculty of Graduate Studies [admission](#) requirements and the Schulich School of Engineering requirements, all applicants require:

- a) A BSc in a relevant discipline of Engineering or equivalent.
- b) A minimum GPA of 3.00 (on the University of Calgary four-point system) calculated on the most recent 60 units (10.0 full course equivalents) of completed course work.
- c) Holders of a BSc or equivalent degrees in Science, Medicine or Kinesiology, if accepted, may be required to take additional

senior undergraduate engineering courses. These courses will not be counted for credit toward their graduate program. Holders of Bachelor's degrees from disciplines other than Engineering, Science, Medicine or Kinesiology are required to complete a minimum of 30 units (5.0 full-course equivalents) undergraduate engineering courses with a minimum GPA of 3.00 on a four-point scale before admission.

d) Minimum of one year of work experience in engineering or a closely related field, or at least one year of internship under a professional engineer in an engineering company.

e) Resume or CV.

In exceptional circumstances, students who do not meet the entrance requirements (but have BSc degrees in the same or equivalent Engineering discipline and a GPA of at least 2.70) may be considered for admission after upgrading requirements have been met. Upgrading requirements include a minimum of 18 units (3.0 full-course equivalents) of coursework with a minimum grade of 3.00 on a 4.0-point scale in each course. At least 12 or 6 units (2.0 or 1.0 full-course equivalents) of these courses, respectively, must be at the graduate-level. Upgrading courses will be prescribed by the Associate Dean (Graduate Studies) or designate in those instances where they are required.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the Faculty of Graduate Studies' [requirements](#) and the Schulich School of Engineering requirements:

Each of the Graduate Certificates in Advanced Engineering Practice I and II consists of 12 units of coursework.

Students must select different specializations in each of the two Graduate Certificates (i.e., a student cannot repeat the specialization that they completed in the first Certificate when they enrol in the second Certificate).

#### Complete ANY of the following Course Sets:

- GC Advanced Engineering, Machine Learning Specialization
- OR GC Advanced Engineering, Software Engineering Specialization
- OR GC Advanced Engineering, Process Engineering Sustainability Specialization
- OR GC Advanced Engineering, Process Simulation Analytics Specialization
- OR GC Advanced Engineering, Reliability Engineering and Predictive Maintenance Specialization
- OR GC Advanced Engineering, Mechatronics Engineering Specialization

\*For the Process Engineering Sustainability Specialization, [ENCH619 Special Problems.66](#) is the required topics course.

#### \*Students specializing in Machine Learning Engineering or Software Engineering:

- Students without a software engineering background must complete 3 foundation courses before taking the Graduate Certificate courses. The foundation courses are:

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/chemical-and-petroleum-engineering-msc-thesis>.

In addition to the Faculty of Graduate Studies requirements for [admission](#), the Department of Chemical and Petroleum Engineering minimum requirements are as follows:

- a) BSc degree or equivalent.
- b) A minimum admission grade point average of 3.00 on a four-point scale or equivalent.
- c) Holders of BSc or equivalent degrees in Science, Medicine, Kinesiology or other Engineering, if accepted, may be required to take additional senior undergraduate engineering courses. These courses will not be counted for credit toward their graduate program. Holders of bachelor's degrees from disciplines other than Engineering, Science, Medicine or Kinesiology are required to complete a minimum of 30 units make-up undergraduate engineering courses with a minimum GPA of 3.00 on a four-point scale before admission.
- d) Two reference letters are required for thesis-based (MSc) graduate programs.

In exceptional circumstances, students who do not meet the entrance requirements (but have BSc degrees in the same or equivalent Engineering discipline and a GPA of at least 2.70) may be considered for admission after upgrading requirements have been met. These include a minimum of 18 units of make-up courses, or 9 units of make-up courses if they have acceptable industrial experience, with a minimum grade of 3.00 on a four-point scale in each course. At least 12 or 6 units of these courses, respectively, must be graduate-level courses.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the Faculty of Graduate Studies' [requirements](#) and the Schulich School of Engineering requirements, the Department normally requires:

A minimum of 12 units of graduate courses.

- a) All Master of Science students are required to complete [ENGG601 Professional Development I](#) and [ENGG603 Professional Development II](#) in the first year of their degree program in addition to the minimum program/course requirements for their specialization.
- b) Students must either present one research seminar at the annual Graduate Student Conference in the Winter Term or give an oral presentation at a science/engineering conference.
- c) Students must also complete core course requirements for their specialization as described:

##### Complete ANY of the following Course Sets:

- Engineering, TB, Core Courses for CHEM, BMEN, ENEN, ENEE, EESS Specializations  
OR Engineering TB Core Courses for Petroleum Eng Specialization

*Chemical Engineering, Petroleum Engineering and Biomedical Engineering specializations*

All Master of Science students must complete at least two of the core courses of their specialization.

## Energy&Env

All Master of Science students must complete at least one of the core courses in their specialization.

## Energy&Env

All Master of Science students must complete at least one of the core chemical engineering courses.

### Additional Comments:

### Additional Program Information

#### Type

Completion Requirement

### Additional Comments:

## Advanced Credit

The applicant must make **Advanced Credit** requests as part of the admission process, in consultation with the proposed supervisor and the Graduate Director. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Students who receive advanced course credit when admitted to a master's program may be able to accelerate the completion of their degree.

## Flexible Grade Option (CG Grade)

Students admitted to the Schulich School of Engineering will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Not applicable.

## Time Limit

Typical completion time is one to two years for full-time students in a master's program. Maximum completion time is four years for a Master of Science.

See individual program pages on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/chemical-and-petroleum-engineering-msc-thesis>.

## Other Information

Graduate students have the opportunity to participate in the Transformative Talent Internship option.

### Supervisory Assignments and Required Examinations

#### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

All students are required to have a supervisor before the second annual registration. For students in the Master of Science degree program, a supervisor is normally appointed at the time of admission.

## Required Examinations

## Thesis Examination

In addition to the Faculty of Graduate Studies requirements for Thesis Examinations, the Department of Chemical and Petroleum Engineering minimum requirements are as follows:

### *Composition of the Committee*

The examining committee consists of: the Supervisor, an additional member of the University of Calgary academic staff, and Internal Examiner who may be internal to the home program. If applicable, the Co-Supervisor will also be part of the committee. The examination is chaired by a neutral chair (non-voting), proposed by the Department Head or Graduate Director. The examining committee must be approved by the Faculty of Graduate Studies.

The student shall make a public twenty-minute presentation of their thesis research, normally immediately before the oral examination. Examining committee members should attend this presentation but should refrain from asking questions during the presentation. The maximum allowable two-hour examination period does not include the time spent on student presentation.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Thesis-based candidates are typically admitted with financial support provided by an interested supervisor, the department, or an official organization. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

The following options are available for students entering the Master of Engineering (course-based) program:

- MEng, Master of Engineering
- Master of Engineering with Project Management Specialization

The Schulich School of Engineering also offers a [Master of Engineering \(MEng\), course-based with Internship](#) in the Civil Engineering program.

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications: <http://www.ucalgary.ca/future-students/graduate/explore-programs/civil-engineering-master-science-thesis-based>.

The Schulich School of Engineering has established common minimum student admission requirements for all its graduate programs. Departments and graduate programs may have additional requirements over and above those of the Schulich School of Engineering.

In addition to the Faculty of Graduate Studies requirements for **admission**, the Schulich School of Engineering minimum requirements are as follows:

- a) BSc degree or equivalent.
- b) A minimum admission grade point average of 3.00 on a four-point scale or equivalent.
- c) Holders of BSc or equivalent degrees in Science, Medicine, Kinesiology or other Engineering, if accepted, may be required to take additional senior undergraduate engineering courses. These courses will not be counted for credit toward their graduate program. Holders of bachelor's degrees from disciplines other than Engineering, Science, Medicine or Kinesiology are required to complete a minimum of 30 units make-up undergraduate engineering courses with a minimum GPA of 3.00 on a four-point scale before admission.
- d) Two reference letters are required for thesis-based (MSc) graduate programs. References are not required for course-based (MEng) graduate programs.

In exceptional circumstances, students who do not meet the entrance requirements (but have BSc degrees in the same or equivalent Engineering discipline and a GPA of at least 2.70) may be considered for admission after upgrading requirements have been met. These include a minimum of 18 units of make-up courses, or 9 units of make-up courses if they have acceptable industrial experience, with a minimum grade of 3.00 on a four-point scale in each course. At least 12 or 6 units of these courses, respectively, must be graduate-level courses.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculty of Graduate Studies **requirements** and the Schulich School of Engineering requirements, the Department normally requires:

- a) A minimum of 12 units and a maximum of 24 units of coursework.
- b) Research and thesis work as major components of the program.

All Master of Science students must complete the professional development courses **ENGG601 Professional Development I** and **ENGG603 Professional Development II**. These courses are in addition to the "Program/Course Requirements".

All graduate students who require access to Civil Engineering laboratories are required to complete a Workplace Hazardous Materials Information Systems (WHMIS) course and other required safety training courses.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make **Advanced Credit** requests as part of the admission process, in consultation with the proposed supervisor and the Graduate Director. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

Students admitted to the Schulich School of Engineering will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

See Program/Course Requirements.

### Time Limit

Typical completion time is one to two years in a master's program. Maximum completion time is four years for a Master of Science program.

See individual program pages on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs](https://ucalgary.ca/future-students/graduate/explore-programs).

### Other Information

Students enrolled in any of the engineering graduate programs may opt, in addition to their normal required course load, to undertake an international project outside Canada. The duration of the project should be between 4 and 6 months. Upon successful completion (on a credit/fail basis) of Engineering 689, the statement "International Graduate Internship Project" will appear on the parchment. The course is not repeatable for credit.

Graduate students have the opportunity to participate in the **Transformative Talent Internship** option.

#### Supervisory Assignments and Required Examinations

##### Type

Completion Requirement

##### Additional Comments:

### Supervisory Assignments

Supervisors and supervisory committees are assigned according to the Faculty of Graduate Studies regulations (see [academic regulations](#)) and are approved by the Department Head or the Graduate Program Director.

### Required Examinations

The Schulich School of Engineering has established common minimum examination requirements for all its graduate programs. Departments and graduate programs may have additional requirements over and above those of the Schulich School of Engineering.

### Thesis Examination

In addition to the Faculty of Graduate Studies requirements for **Thesis Examinations**, the Schulich School of Engineering minimum requirements are as follows:

##### Additional Comments:

### Advanced Credit

The applicant must make [advanced credit](#) requests as part of the admission process, in consultation with the proposed supervisor and the Graduate Director. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Students who receive advanced course credit when admitted to a master's program may be able to accelerate the completion of their degree.

### Flexible Grade Option (CG Grade)

Students admitted to the Schulich School of Engineering will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

See Program/Course Requirements.

### Time Limit

Typical completion time is three to four years in a doctoral program. Maximum completion time is six years for a doctoral

program.

See individual program pages on the Future Students website: <https://ucalgary.ca/future-students/graduate/explore-programs>.

## Other Information

Graduate students have the opportunity to participate in the Transformative Talent Internship option.

### Supervisory Assignments, Candidacy and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

## Supervisory Assignments

Supervisors and supervisory committees are assigned according to the Faculty of Graduate Studies regulations (see [Graduate Regulations](#)) and are approved by the Department Head or the Graduate Program Director.

## Required Examinations

### Doctoral Candidacy Requirements

All Doctoral students are required to pass a written Field of Study examination and an oral thesis proposal examination. Specific details of the examination format and other candidacy requirements can be found at <https://grad.ucalgary.ca/current-students/thesis-based-students/exams/candidacy>.

### Thesis Examinations

In addition to the Faculty of Graduate Studies requirements for [Thesis Examinations](#), the Department of Civil Engineering minimum requirements are as follows:

### Doctoral Final Oral Examination

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis before an examination can be scheduled.

#### *Composition of the Committee*

The examining committee consists of: the Supervisory Committee, an Internal Examiner who may be internal to the home program, and one member external to the University of Calgary. The examination is chaired by a neutral chair (non-voting), proposed by the Department Head or Graduate Director. The examining committee must be approved by the Faculty of Graduate Studies.

The student shall make a public twenty-minute presentation of their thesis research, normally immediately before the oral examination. Examining committee members should attend this presentation but should refrain from asking questions during the presentation. The maximum allowable two-hour examination period does not include the time spent on student presentation.

Thesis oral examinations are open.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Thesis-based candidates are typically admitted with financial support provided by an interested supervisor, the department, or an official organization. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

#### Specializations:

- Chemical Engineering
- Petroleum Engineering
- Environ En
- Energy&Env
- Energy&Env
- Reservoir
- Petroleum Reservoir Engineering\*
- Petroleum Exploration Engineering\*

\*The Department is currently not accepting applications for these specializations.

The Schulich School of Engineering also offers a Master of Engineering (MEng), course-based with Internship in the Chemical and Petroleum Engineering program.

---

### MEng Graduate Program Office

Location: Schulich School of Engineering Block C, Room 205

Phone number: 403.220.2001

Email address: <mailto:meng@ucalgary.ca>

Web page URL: <https://schulich.ucalgary.ca/chemical-petroleum>

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/chemical-and-petroleum-engineering-meng-course>.

---

In addition to the Faculty of Graduate Studies requirements for admission, the Department of Chemical and Petroleum Engineering minimum requirements are as follows:

- a) BSc degree or equivalent.
- b) A minimum admission grade point average of 3.00 on a four-point scale or equivalent.
- c) Holders of BSc or equivalent degrees in Science, Medicine, Kinesiology or other Engineering, if accepted, may be required to take additional senior undergraduate engineering courses. These courses will not be counted for credit toward their graduate program. Holders of bachelor's degrees from disciplines other than Engineering, Science, Medicine or Kinesiology are required to complete a minimum of 30 units make-up undergraduate engineering courses with a minimum GPA of 3.00 on a four-point scale before admission.

In exceptional circumstances, students who do not meet the entrance requirements (but have BSc degrees in the same or equivalent Engineering discipline and a GPA of at least 2.70) may be considered for admission after upgrading requirements have been met. These include a minimum of 18 units of make-up courses, or 9 units of make-up courses if they have acceptable industrial experience, with a minimum grade of 3.00 on a four-point scale in each course. At least 12 or 6 units of these courses, respectively, must be graduate-level courses.

## Program Details

### Simple Requisites

## Program/Course Requirements

### Type

Completion Requirement

In addition to the Faculty of Graduate Studies' [requirements](#) and the Schulich School of Engineering requirements, the Department requires:

**Complete ANY of the following Requirement Sets:**

- MEng, Course-based, Chemical Engineering Specialization  
**AND** MEng, Course-based, Petroleum Engineering Specialization

For students completing the **Master of Engineering (MEng), course-based with Internship:**

- A minimum of 30 units of courses as outlined by the MEng course-based program plus 12 - 24 units of internship courses.

For Interdisciplinary Specializations see:

- [Environ En](#)
- [Energy&Env](#)
- [Energy&Env](#)
- [Reservoir](#)

### Additional Comments:

Graduate students have the opportunity to participate in the Transformative Talent Internship option.

## Additional Program Information

Email address: <mailto:cpeadmissions@ucalgary.ca>

Web page URL: <https://schulich.ucalgary.ca/chemical-petroleum>

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/chemical-and-petroleum-engineering-meng-thesis>.

The Schulich School of Engineering has established common minimum student admission requirements for all its graduate programs. Departments and graduate programs may have additional requirements over and above those of the Schulich School of Engineering.

In addition to the Faculty of Graduate Studies [requirements](#) for admission, the Schulich School of Engineering minimum requirements are as follows:

- a) BSc degree or equivalent.
- b) A minimum admission grade point average of 3.00 on a four-point scale or equivalent.
- c) Holders of BSc or equivalent degrees in Science, Medicine, Kinesiology or other Engineering, if accepted, may be required to

take additional senior undergraduate engineering courses. These courses will not be counted for credit toward their graduate program. Holders of bachelor's degrees from disciplines other than Engineering, Science, Medicine or Kinesiology are required to complete a minimum of 30 units make-up undergraduate engineering courses with a minimum GPA of 3.00 on a four-point scale before admission.

d) Two reference letters are required for thesis-based (MSc) graduate programs. References are not required for course-based (MEng) graduate programs.

In exceptional circumstances, students who do not meet the entrance requirements (but have BSc degrees in the same or equivalent Engineering discipline and a GPA of at least 2.70) may be considered for admission after upgrading requirements have been met. These include a minimum of 18 units of make-up courses, or 9 units of make-up courses if they have acceptable industrial experience, with a minimum grade of 3.00 on a four-point scale in each course. At least 12 or 6 units of these courses, respectively, must be graduate-level courses.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the Faculty of Graduate Studies' [requirements](#) and the Schulich School of Engineering requirements, the Department normally requires:

A minimum of 12 units of graduate courses.

- All Master of Science and doctoral students are required to complete [ENGG601 Professional Development I](#) and [ENGG603 Professional Development II](#) in the first year of their degree program in addition to the minimum program/course requirements for their specialization.
- Students must either present one research seminar at the annual Graduate Student Conference in the Winter Term or give an oral presentation at a science/engineering conference.
- Students must also complete core course requirements for their specialization as described:

##### Complete ALL of the following Course Sets:

- Engineering, TB, Core Courses for CHEM, BMEN, ENEN, ENEE, EESS Specializations
- Engineering TB Core Courses for Petroleum Eng Specialization

*Chemical Engineering, Petroleum Engineering and Biomedical Engineering specializations*

All Master of Science students must complete at least two of the core courses of their specialization.

*Environmental Engineering and Energy and Environment specializations*

All Master of Science students must complete at least one of the core courses in their specialization.

*Energy and Environmental Systems specialization*

All Master of Science students must complete at least one of the core chemical engineering courses.

#### Additional Comments:

#### Additional Comments:

## Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process, in consultation with the proposed

supervisor and the Graduate Director. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Students who receive advanced course credit when admitted to a master's program may be able to accelerate the completion of their degree.

## Flexible Grade Option (CG Grade)

Students admitted to the Schulich School of Engineering will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Not applicable.

## Time Limit

Typical completion times are one to two years for full-time students in a master's program. Maximum completion time is four years for a Master of Engineering (thesis-based).

See individual program pages on the Future Students website: <https://ucalgary.ca/future-students/graduate/explore-programs>.

## Other Information

Graduate students have the opportunity to participate in the Transformative Talent Internship option.

### Supervisory Assignments and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

All students are required to have a supervisor before the second annual registration. For students in the Doctor of Philosophy degree program, a supervisor is normally appointed at the time of admission.

### Final Oral Examination

#### *Composition of the Committee*

The examining committee consists of: the Supervisor, an additional member of the University of Calgary academic staff, and Internal Examiner who may be internal to the home program. If applicable, the Co-Supervisor will also be part of the committee. The examination is chaired by a neutral chair (non-voting), proposed by the Department Head or Graduate Director. The examining committee must be approved by the Faculty of Graduate Studies.

The student shall make a public twenty-minute presentation of their thesis research, normally immediately before the oral examination. Examining committee members should attend this presentation but should refrain from asking questions. The maximum allowable two-hour examination period does not include the time spent on student presentation.

### Financial Assistance

#### Type

## Overview

### General Program Information

#### Specializations:

- Software Engineering\*
- Environ En
- Energy&Env
- Energy&Env

\*The Software Engineering specialization is a 12-month intensive program with no scheduled break.

The Schulich School of Engineering also offers a Master of Engineering (MEng), course-based with Internship in the Electrical and Computer Engineering program (not available for Software Engineering).

### MEng Graduate Program Office

Location: Schulich School of Engineering Block C, Room 205

Phone number: 403.220.5732

Email address: <mailto:meng@ucalgary.ca>

Web page URL: <https://schulich.ucalgary.ca/electrical-software>

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website:

MEng (course-based): <http://www.ucalgary.ca/future-students/graduate/explore-programs/electrical-computer-engineering-master-engineering-course-based>.

MEng (course-based) with specialization in Software Engineering: <https://ucalgary.ca/future-students/graduate/explore-programs/electrical-computer-engineering-master-engineering-software-course-based>.

In addition to Faculty of Graduate Studies' admission requirements and the Schulich School of Engineering requirements, the Department requires:

#### Master of Engineering

- A four-year bachelor's degree in electrical engineering or computer or software engineering.
- Applicants with a four-year bachelor's degree in other disciplines may be considered but additional undergraduate courses in electrical engineering or computer or software engineering (as determined by the Graduate Program Director) may be required.

#### Master of Engineering, Specialization in Software Engineering

- A four-year bachelor's degree in engineering from a recognized institution.
- Applicants with a four-year bachelor's degree in Software Engineering or equivalent from a recognized institution may be exempt from taking the 9 units of foundation courses. This exemption will be determined at the time of admission.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the Faculty of Graduate Studies' requirements and the Schulich School of Engineering requirements, the

Department normally requires:

**Complete ANY of the following Requirement Sets:**

- MEng, Course-based, Electrical and Computer Engineering  
**AND** MEng, Course-based, Electrical and Computer, with an Interdisciplinary Specialization  
**AND** MEng, Course-based, Electrical and Computer, Software Engineering Specialization

For students completing the **Master of Engineering (MEng), course-based with Internship:**

- A minimum of 30 units of courses as outlined by the MEng course-based program plus 12 - 24 units of internship courses.

#### Additional Comments:

Graduate students have the opportunity to participate in the Transformative Talent Internship option.

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

Advanced Credit

The applicant must make **Advanced Credit** requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission or for grades below "B".

### Flexible Grade Option (CG Grade)

Students admitted to the Schulich School of Engineering will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

MEng (course-based), Specialization in Software Engineering students may not take any undergraduate courses for credit as part of their program.

### Time Limit

The MEng (course-based) program is typically completed full-time in two years, with academic sessions in Fall and Winter and a scheduled break from May to August. The exception is the specialization in Software Engineering, which is an intensive 12-month program and must be completed on a full-time basis.

The maximum completion time is six years for the Master of Engineering (course-based).

The Master of Engineering, course-based with Internship is normally a three-year program.

### Supervisory Assignments

The Master of Engineering (course-based) does not require a supervisor.

#### Financial Assistance

##### Type

Completion Requirement

## Additional Comments:

MEng students are typically admitted without funding from the program. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/electrical-computer-engineering-doctor-philosophy-thesis-based>.

In addition to the Faculty of Graduate Studies requirements for [admission](#), the Schulich School of Engineering minimum requirements are as follows:

- MSc degree in electrical engineering, computer engineering, or software engineering.
- A minimum admission grade point average of 3.50 on a four-point scale or equivalent.
- Transfer from MSc to PhD program is allowed only after the successful completion of all courses required for the MSc degree with a minimum GPA of 3.50.
- Two reference letters.

Holders of MSc or equivalent degrees in Science, Medicine, Kinesiology or other Engineering, if accepted, may be required to take additional senior undergraduate Engineering courses. These courses will not count for credit toward their doctoral program.

Note: Transfer to the doctoral program without completing the master's degree may be approved for exceptional students whose BSc degrees are in electrical engineering, computer engineering or software engineering.

## Program Details

### Simple Requisites

## Program/Course Requirements

### Type

Completion Requirement

### Additional Comments:

In addition to the Faculty of Graduate Studies' [requirements](#) and the Schulich School of Engineering requirements, the Department normally requires:

- a) Normally, 18 to 27 units at the graduate level beyond the bachelor's degree, or 6 to 15 units at the graduate level beyond the master's degree with no fewer than half the courses in the Departmental program.
- b) A grade of at least a "B+" in each graduate course with a grade point average of at least 3.30 and a grade of CR in [ENGG601 Professional Development I](#) and [ENGG603 Professional Development II](#).
- c) All Doctoral students are required to successfully complete the candidacy requirements, which consist of four components: PhD coursework, a Field of Study examination in Electrical, Computer, and Software Engineering, a written thesis proposal, and an oral thesis proposal examination. Specific details of the candidacy requirements can be found on the [Departmental website](#).

While studying full-time in the PhD program:

- a) Students will be required to complete Engineering 601 and 603 at the beginning of their graduate studies program.
- b) Students in the PhD program who completed the course in the MSc program will not be required to take Engineering 601 and 603 for the second time.
- c) Students who are required to take Engineering 601 and 603 must successfully present two seminars.

Graduate students have the opportunity to participate in the Transformative Talent Internship option.

## Additional Program Information

### Type

Completion Requirement

### Additional Comments:

## Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission or for grades below "B".

## Flexible Grade Option (CG Grade)

Students admitted to the Schulich School of Engineering will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Where appropriate, PhD students may take 500-level undergraduate courses for credit with approval of the supervisor and the Department (a maximum of 3 units for PhD). Undergraduate courses will not count toward the PhD program requirements.

## Time Limit

Expected completion time is four years for the Doctor of Philosophy. The maximum completion time is six years.

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

In the Doctor of Philosophy, a supervisor to provide guidance to the student is normally selected at the time of admission.

## Research Proposal Requirements

The written thesis proposal is evaluated and approved by the candidacy examination committee as part of the candidacy requirements. Specific requirements for the proposal and the format of its evaluation can be found on the [Departmental website](#).

## Required Examinations

The Schulich School of Engineering has established common minimum examination requirements for all its graduate programs.

## Doctoral Candidacy Requirements

All Doctoral students are required to pass a Field of Study examination in Electrical, Computer, and Software Engineering and an oral thesis proposal examination. Specific details of the examination format and other candidacy requirements can be found on the [Departmental website](#).

## Doctoral Final Oral Examination

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis before an examination can be scheduled.

### *Composition of the Committee*

The examining committee consists of: the Supervisory Committee, an Internal Examiner who may be internal to the home program, and one member external to the University of Calgary. The examination is chaired by a neutral chair (non-voting), proposed by the Department Head or Graduate Director. The examining committee must be approved by the Faculty of Graduate Studies.

The student shall make a public twenty-minute presentation of their thesis research, normally immediately before the oral examination. Examining committee members should attend this presentation but should refrain from asking questions during the presentation. The maximum allowable two-hour examination period does not include the time spent on student presentation.

Thesis oral examinations are open.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Thesis-based candidates are typically admitted with financial support provided by an interested supervisor, the department, or an official organization. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

General Program Information

## UCalgary

The Centre for Environmental Engineering Research and Education (CEERE) in the Schulich School of Engineering (SSE) has the overall responsibility for the co-ordination and delivery of a comprehensive postgraduate program specialization in the multi-disciplinary field of energy & environment. All five engineering departments participate in delivering this SSE-wide specialization.

Applications for admission to the Faculty of Graduate Studies should be submitted to the engineering department that best matches the applicant's undergraduate and/or postgraduate academic training.

---

Degrees with an interdisciplinary specialization in Energy & Environment:

- Doctor of Philosophy (PhD)
- Master of Science (MSc), thesis-based
- Master of Engineering (MEng), thesis-based and course-based

---

Location: Engineering Building, Room ENB 202

Email address: [ceere@ucalgary.ca](mailto:ceere@ucalgary.ca)

Web page URL: [schulich.ucalgary.ca/CEERE](http://schulich.ucalgary.ca/CEERE)

### MEng Graduate Program Office

Location: Schulich School of Engineering Block C, Room 205

Phone number: 403.220.2001

Email address: [MEng@ucalgary.ca](mailto:MEng@ucalgary.ca)

## Admissions

### Program Admissions Information

See departmental and program sections in this Calendar for deadlines regarding submission of complete applications for students with international transcripts or with Canadian and U.S. transcripts.

---

In addition to the Faculty of Graduate Studies [requirements](#) and home department requirements, the Energy & Environment specialization requires:

#### Master of Engineering and Master of Science

A bachelor's degree in engineering.

*Note: Applicants with applied science degrees may be considered, but additional undergraduate engineering courses may be required.*

#### Doctor of Philosophy

A master's degree in engineering.

*Note: Transfer to the doctoral program without completing the master's degree may be approved for exceptional students.*

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and to the course requirements described below, students should consult their "home" department in the Schulich School of Engineering for any additional program or course requirement(s).

## Master of Engineering (Course-based Route)

Students must complete 30 units of coursework as follows:

a) 3 units of required courses:

- **ENEN671 Energy and Environment**

b) 15 units of required Department courses from:

- **ENCH609 Natural Gas Processing Technology**
- **ENCH630 Electrochemical Engineering**
- **ENCH650 CCUS: Princ. Tech & Analysis**
- **ENCH673 Engg Principles Biotechnology**
- **ENCH675 Data Sci & Mach Learn in ENCH**
- **ENCH687 Petroleum Economics**

c) 12 units of courses from the approved list of courses meeting the requirements for the Interdisciplinary Specialization, with approval from the Graduate Program Director.

## Master of Engineering (Thesis-based Route)

A minimum of 12 units graduate courses. **ENEN671 Energy and Environment** is required, together with at least one course selected from a list of courses related to Energy and Environment available from CEERE.

*Note: Students with applied science undergraduate degrees may be required to take additional prerequisite courses at the undergraduate level.*

## Master of Science

A minimum of 12 units graduate courses. **ENEN671 Energy and Environment** is required, together with at least one course selected from a list of courses related to Energy and Environment available from CEERE.

*Note: Students with applied science undergraduate degrees may be required to take additional prerequisite courses at the undergraduate level.*

## Doctor of Philosophy

For applicants with Bachelor of Science and Master of Science degrees in Engineering:

A minimum of 6 units graduate courses. **ENEN671 Energy and Environment** is required. In case Environmental Engineering 671, or its equivalent, has already been completed, at least one course must be selected from a list of courses related to Energy and Environment available from CEERE.

For applicants with a bachelor's degree in Engineering, but without a completed master's degree:

A minimum of 18 units graduate courses. **ENEN671 Energy and Environment** is required, together with at least two courses selected from a list of courses related to Energy and Environment available from CEERE.

*Note: Students with applied science undergraduate degrees may be required to take additional prerequisite courses at the undergraduate level.*

Graduate students have the opportunity to participate in the Transformative Talent Internship option.

## Additional Program Information

### Type

Completion Requirement

### Additional Comments:

## Advanced Credit

The applicant must make **advanced credit** requests as part of the admission process, in consultation with the proposed

supervisor and the Graduate Director. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Students who receive advanced course credit when admitted to a master's program may be able to accelerate the completion of their degree.

## Time Limit

Expected completion time is two years for the Master of Science degree, and three years for the Doctor of Philosophy. Maximum completion time is four years for the Master of Science and Master of Engineering (Thesis) degrees and six years for the Master of Engineering (course-based) and Doctor of Philosophy degrees.

## Supervisory Assignment and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

All students are required to have a thesis supervisor before the second annual registration. For students in the Master of Science and Doctor of Philosophy degree programs, a supervisor is normally appointed at the time of admission. Master of Engineering (course-based) students do not require a supervisor.

## Required Examinations

### Doctoral Candidacy Requirements

All Doctoral students are required to pass a written Field of Study examination and an oral thesis proposal examination. Specific details of the examination format and other candidacy requirements can be found at <https://grad.ucalgary.ca/current-students/thesis-based-students/exams/candidacy>.

### Thesis Examinations

In addition to the Faculty of Graduate Studies requirements for [Thesis Examinations](#), the home Department minimum requirements are as follows:

### MSc and MEng (thesis-based) Final Oral Examination

#### *Composition of the Committee*

The examining committee consists of: the Supervisor, an additional member of the University of Calgary academic staff, and Internal Examiner who may be internal to the home program. If applicable, the Co-Supervisor will also be part of the committee. The examination is chaired by a neutral chair (non-voting), proposed by the Department Head or Graduate Director. The examining committee must be approved by the Faculty of Graduate Studies.

The student shall make a public twenty-minute presentation of their thesis research, normally immediately before the oral examination. Examining committee members should attend this presentation but should refrain from asking questions. The maximum allowable two-hour examination period does not include the time spent on student presentation.

### Doctoral Final Oral Examination

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis before an examination can be scheduled.

#### *Composition of the Committee*

The examining committee consists of: the Supervisory Committee, an Internal Examiner who may be internal to the home program, and one member external to the University of Calgary. The examination is chaired by a neutral chair (non-voting), proposed by the Department Head or Graduate Director. The examining committee must be approved by the Faculty of Graduate Studies.

The student shall make a public twenty-minute presentation of their thesis research, normally immediately before the oral

examination. Examining committee members should attend this presentation but should refrain from asking questions during the presentation. The maximum allowable two-hour examination period does not include the time spent on student presentation.

Thesis oral examinations are open.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Thesis-based candidates are typically admitted with financial support provided by an interested supervisor, the department, or an official organization. MEng students are typically admitted without funding from the program. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

#### Specializations:

- [Engineerin](#) (offered jointly through the Department of Electrical and Software Engineering and the Department of Computer Science)
- [Energy&Env](#)
- [Environ En](#)
- [Energy&Env](#)
- [Wearable T](#)

The MSc program may be completed on a full-time or a part-time basis. For details, see <https://grad.ualgary.ca/future-students/explore-programs/electrical-and-computer-engineering-msc-thesis>.

Department Office (MSc and PhD)

Location: ICT Building, Room 402

Program number: 403.220.5806

Web page URL: <https://schulich.ualgary.ca/electrical-software>

Email address: <mailto:ese.gradstudies@ualgary.ca>

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <http://ualgary.ca/future-students/graduate/explore-programs/electrical-computer-engineering-master-science-thesis-based>.

In addition to Faculty of Graduate Studies' [admission](#) requirements and the Schulich School of Engineering requirements, the Department requires:

- A four-year bachelor's degree in electrical engineering or computer or software engineering.
- Applicants with a four-year bachelor's degree in other disciplines may be considered but additional undergraduate courses in electrical engineering or computer or software engineering (as determined by the Graduate Program Director) may be required.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculty of Graduate Studies' [requirements](#) and the Schulich School of Engineering requirements, the Department normally requires:

- Normally, 12-21 units of coursework at the graduate level.

While studying full-time in the MSc program:

- Students will be required to complete [ENGG601 Professional Development I](#) and [ENGG603 Professional Development II](#) at the beginning of their graduate studies program.
- Students who are required to take Engineering 601 and 603 must successfully present two seminars.

Graduate students have the opportunity to participate in the Transformative Talent Internship option.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission or for grades below "B".

### Flexible Grade Option (CG Grade)

Students admitted to the Schulich School of Engineering will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Where appropriate, MSc students may take 500-level undergraduate courses for credit with approval of the supervisor and the Department (a maximum of 6 units for MSc). Undergraduate courses will not count toward the MSc program requirements.

### Time Limit

Expected completion time is 20 months of full-time study for the Master of Science. The maximum completion time is four years.

#### Supervisory Assignments and Required Examinations

##### Type

Completion Requirement

##### Additional Comments:

## Supervisory Assignments

In the Master of Science, a supervisor to provide guidance to the student is normally selected at the time of admission.

## Research Proposal Requirements

As required by the Supervisor.

## Required Examinations

The Schulich School of Engineering has established common minimum examination requirements for all its graduate programs. Departments and graduate programs may have additional requirements over and above those of the Schulich School of Engineering.

## Final Oral Examination

In addition to the Faculty of Graduate Studies requirements for [Thesis Examinations](#), the Schulich School of Engineering minimum requirements are as follows:

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis before an examination can be scheduled.

### *Composition of the Committee*

The examining committee consists of: the Supervisor, an additional member of the University of Calgary Academic staff, and Internal Examiner who may be internal to the home program. If applicable, the Co-Supervisor will also be part of the committee. The examination is chaired by a neutral chair (non-voting), proposed by the Department Head or Graduate Director. The examining committee must be approved by the Faculty of Graduate Studies.

The student shall make a public twenty-minute presentation of their thesis research, normally immediately before the oral examination. Examining committee members should attend this presentation but should refrain from asking questions during the presentation. The maximum allowable two-hour examination period does not include the time spent on student presentation.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Thesis-based candidates are typically admitted with financial support provided by an interested supervisor, the department, or an official organization. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

Master's thesis students are normally admitted as full-time students. The Head of the Department or designate may however, approve requests for registration as part-time or transfer from a full-time to a part-time status.

Department Office (MSc and PhD)

Location: ICT Building, Room 402

Program number: 403.220.5806

Web page URL: <https://schulich.ucalgary.ca/electrical-software>

Email address: <mailto:ese.gradstudies@ucalgary.ca>

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/electrical-computer-engineering-master-science-thesis-based>.

In addition to Faculty of Graduate Studies and the Schulich School of Engineering requirements, the Department requires:

A four-year bachelor's degree in software engineering or equivalent from a recognized institution. In addition, applicants must have:

- a) At least one year of experience in software development.
- b) Background knowledge in software engineering methods and concepts, and their wide range of applications. Applicants should be able to design and develop software systems in either an academic or industrial setting.
- c) Knowledge of object-oriented design and human-computer interaction.

Applicants with a four-year bachelor's degree in other disciplines may be considered, but additional undergraduate courses in software engineering (as determined at admission by the Graduate Program Director) may be required.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to Faculty of Graduate Studies and the Schulich School of Engineering requirements, the Department requires:

a) 12 units selected from:

**Earn at least 12 credits from the following:**

- ENSF603 - Modeling and Measurement of Software Performance  
**OR** ENSF604 - Theoretical Foundations of Software Engineering  
**OR** ENSF606 - Software Engineering Fundamentals  
**OR** ENSF619 - Special Topics  
**OR** SENG622 - Software Release Planning  
**OR** SENG627 - Software Engineering Decision Support  
**OR** SENG629 - Software Engineering Standards and Models  
**OR** SENG637 - Dependability and Reliability of Software Systems  
**OR** SENG643 - Automated Software Engineering  
**OR** SENG696 - Agent-Based Software Engineering  
**OR** ENEL602 - Virtual Environments and Applications  
**OR** ENEL645 - Data Mining & Machine Learning

##### Additional Comments:

b) An applied software engineering project written up as a Master of Science thesis and examined by an examination committee as specified in the Faculty regulations.

While studying full-time in the MSc program:

- Students will be required to complete **ENGG601 Professional Development I** and **ENGG603 Professional Development II** at the beginning of their graduate studies program.
- Students who are required to take Engineering 601 and 603 must successfully present two seminars.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission or for grades below "B".

### Flexible Grade Option (CG Grade)

Students admitted to the Schulich School of Engineering will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Where appropriate, MSc students may take 500-level undergraduate courses for credit with approval of the supervisor and the Department (a maximum of 6 units for MSc). Undergraduate courses will not count toward the PhD program requirements.

### Time Limit

Expected completion time is 20 months of full-time study for the Master of Science. The maximum completion time is four years.

### Other Information

Students enrolled in any of the engineering graduate programs may opt, in addition to their normal required course load, to undertake an international project outside Canada. The duration of the project should be between four and six months.

Graduate students have the opportunity to participate in the Transformative Talent Internship option.

#### Supervisory Assignments and Required Examinations

##### Type

Completion Requirement

##### Additional Comments:

### Supervisory Assignments

In the Master of Science, a supervisor to provide guidance to the student is normally selected at the time of admission.

### Research Proposal Requirements

As required by the Supervisor.

### Required Examinations

The Schulich School of Engineering has established common minimum examination requirements for all its graduate programs. Departments and graduate programs may have additional requirements over and above those of the Schulich School of Engineering.

### Thesis Examination

In addition to the Faculty of Graduate Studies requirements for **Thesis Examinations**, the Schulich School of Engineering minimum requirements are as follows:

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis before an examination can be scheduled.

### *Composition of the Committee*

The examining committee consists of: the Supervisor, an additional member of the University of Calgary Academic staff, and Internal Examiner who may be internal to the home program. If applicable, the Co-Supervisor will also be part of the committee. The examination is chaired by a neutral chair (non-voting), proposed by the Department Head or Graduate Director. The examining committee must be approved by the Faculty of Graduate Studies.

The student shall make a public twenty-minute presentation of their thesis research, normally immediately before the oral examination. Examining committee members should attend this presentation but should refrain from asking questions during the presentation. The maximum allowable two-hour examination period does not include the time spent on student presentation.

### **Financial Assistance**

## Overview

### General Program Information

Degrees with an interdisciplinary specialization in Environmental Engineering:

- Doctor of Philosophy (PhD)
- Master of Science (MSc), thesis-based
- Master of Engineering (MEng), thesis-based and course-based

The Centre for Environmental Engineering Research and Education (CEERE) in the Schulich School of Engineering (SSE) has the overall responsibility for the co-ordination and delivery of a comprehensive postgraduate program specialization in the interdisciplinary field of environmental engineering. All five engineering departments participate in delivering this SSE-wide environmental engineering specialization.

Applications for admission to the Faculty of Graduate Studies should be submitted to the engineering department that best matches the applicant's undergraduate and/or postgraduate academic training.

Note: Students applying to the MEng (course-based) with a specialization in Environmental Engineering must submit their applications to either: a) the Department of Chemical and Petroleum Engineering; or b) the Department of Civil Engineering.

Location: Engineering Building, Room ENA202B

Email address: <mailto:ceere@ucalgary.ca>

Web page URL: <http://www.schulich.ucalgary.ca/CEERE/>

## Admissions

### Program Admissions Information

See departmental and program sections in this Calendar for deadlines regarding submission of complete applications for students with international transcripts or with Canadian and US transcripts.

In addition to the Faculty of Graduate Studies [requirements](#) and home department requirements, the Environmental Engineering specialization requires:

### Master of Engineering and Master of Science

- A bachelor's degree in engineering.

*Note:* Applicants with applied science undergraduate degrees may be considered, but additional undergraduate engineering courses may be required.

### Doctor of Philosophy

- A master's degree in engineering, preferably in environmental engineering or equivalent.

*Note:* Transfer to the doctoral program without completing the master's degree may be approved for exceptional students.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#) and the course requirements described below, students should consult their home department in the Schulich School of Engineering for any additional program or course requirement(s).

#### Master of Engineering (course-based route) in Chemical and Petroleum Engineering and Civil Engineering, with a specialization in Environmental Engineering

All Master of Engineering (course-based) students in the Environmental Engineering specialization will be required to complete 30 units as follows:

a) 12 units of Core Engineering Courses:

##### Complete ALL of the following Courses:

- ENGG681 - Engineering Tools  
**AND** ENGG682 - Sustainability Engineering  
**AND** ENGG683 - Innovation and Entrepreneurship  
**AND** ENGG684 - Introduction to Project Management

b) 18 units of Environmental Engineering Specialization Courses from the list below. Any variations in required courses will be with the approval of the Department.

##### Earn at least 18 credits from the following:

- ENEN603 - Principles Of Environmental Engineering  
**OR** ENEN605 - Environmental Chemistry and Microbiology  
**OR** ENEN620 - Water Quality  
**OR** ENEN627 - Contaminant Transport  
**OR** ENEN641 - Air Pollution Control Engineering (Inactive)  
**OR** ENEN651 - Advanced Topics in Solid Waste Engineering  
**OR** ENEN653 - Contaminated Soil Remediation  
**OR** ENEN663 - Biological Processes for Wastewater Treatment  
**OR** ENEN665 - Wastewater Issues for the Oil & Gas Industry  
**OR** ENEN693 - Life Cycle Assessment

Courses attempted but failed (with a grade of "C+" or lower) must be successfully repeated with a grade of at least a "B-" in each course. Any course deficiency must be cleared at the next available opportunity. If a student is unable to register for a course or withdraws from a course for valid reasons, the student may substitute a similar course from the courses approved for the graduate thesis-based program with the approval of the Department.

Students with non-engineering undergraduate degrees may be required to take additional prerequisite courses at the undergraduate level.

#### Additional Comments:

### Master of Engineering (Thesis-based Route)

- A minimum of 12 units. [ENEN603 PrinciplesOfEnvironEngineering](#) or [ENEN605 EnvironmentalChem&Microbiology](#) is normally required, together with at least one of [Environmental Engineering 621, 623, 625, 627 or 635](#), and at least one other Environmental Engineering course.
- Students with non-engineering undergraduate degrees may be required to take additional prerequisite courses at the undergraduate level.

### Master of Science

- A minimum of 12 units. [ENEN603 PrinciplesOfEnvironEngineering](#) or [ENEN605 EnvironmentalChem&Microbiology](#) is normally required, together with at least one of [Environmental Engineering 621, 623, 625, 627 or 635](#), and at least one other Environmental Engineering course.
- Students with non-engineering undergraduate degrees may be required to take additional prerequisite courses at the undergraduate level.

### Doctor of Philosophy

For applicants with Bachelor of Science and/or Master of Science degrees in Environmental Engineering:

A minimum of 6 units. One of [Environmental Engineering 621, 623, 625, 627 or 635](#) is normally required.

For applicants with Bachelor of Science and Master of Science degrees in Engineering, but not in Environmental Engineering:

A minimum of 9 units. Environmental Engineering 603 or 605 is normally required, together with at least one of [Environmental Engineering 621, 623, 625, 627 or 635](#).

For applicants with a bachelor's degree in Engineering, but without a completed master's degree:

A minimum of 18 units. Environmental Engineering 603 and 605 are normally required, together with at least one of [Environmental Engineering 621, 623, 625, 627 or 635](#), and at least one other Environmental Engineering course.

Students with non-engineering undergraduate degrees may be required to take additional prerequisite courses at the undergraduate level.

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process, in consultation with the proposed supervisor and the Graduate Director. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Students who receive advanced course credit when admitted to a master's program may be able to accelerate the completion of their degree.

### Flexible Grade Option (CG Grade)

Students admitted to the Schulich School of Engineering will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Time Limit

Expected completion time is two years for the Master of Science degree, and three years for the Doctor of Philosophy.

Maximum completion time is four years for the Master of Science and Master of Engineering (thesis-based) degrees and six years for the Master of Engineering (course-based) and Doctor of Philosophy degrees.

Master of Engineering (course-based) students are expected to enroll in full-time studies and to complete the program according to the schedule and normally within 8 months.

### Supervisory Assignments and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

All students are required to have a thesis supervisor before the second annual registration. For students in the Master of Science and Doctor of Philosophy degree programs, a supervisor is normally appointed at the time of admission.

### Required Examinations

Final thesis oral examinations follow the requirements of the Faculty of Graduate Studies and the home graduate program.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Thesis-based candidates are typically admitted with financial support provided by an interested supervisor, the department, or an official organization. MEng students are typically admitted without funding from the program. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

Environmental Engineering is also offered as an interdisciplinary specialization for the following degrees:

- Doctor of Philosophy (PhD)
- Master of Science (MSc), thesis-based

For more information on these degrees, see [Interdisciplinary Specializations](#).

The Schulich School of Engineering also offers a [Master of Engineering \(MEng\), course-based with Internship](#) in the Environmental Engineering program.

### MEng Graduate Program Office

# UCalgary

Location: Schulich School of Engineering Block C, Room 205

Phone number: 403.220.2001

Email address: <mailto:meng@ucalgary.ca>

## Admissions

### Program Admissions Information

Application deadline: See <https://grad.ucalgary.ca/future-students/explore-programs/environmental-engineering-meng-course>.

In addition to the minimum **requirements** of the Faculty of Graduate Studies and the Schulich School of Engineering, the program requires:

- BSc degree or equivalent.
- A minimum admission grade point average of 3.00 on a four-point scale or equivalent.
- Holders of BSc or equivalent degrees in Science, Medicine, Kinesiology or other Engineering, if accepted, may be required to take additional senior undergraduate engineering courses. These courses will not be counted for credit toward their graduate program. Holders of bachelor's degrees from disciplines other than Engineering, Science, Medicine or Kinesiology are required to complete a minimum of 30 units make-up undergraduate engineering courses with a minimum GPA of 3.00 on a four-point scale before admission.

In exceptional circumstances, students who do not meet the entrance requirements (but have BSc degrees in the same or equivalent Engineering discipline and a GPA of at least 2.70) may be considered for admission after upgrading requirements have been met. These include a minimum of 18 units of make-up courses, or 9 units of make-up courses if they have acceptable industrial experience, with a minimum grade of 3.00 on a four-point scale in each course. At least 12 or 6 units of these courses, respectively, must be graduate-level courses.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to the Faculty of Graduate Studies' **requirements** and the Schulich School of Engineering requirements, the Department normally requires:

**Complete ALL of the following Requirement Sets:**

- MEng, Course-based, Environmental Engineering

For students completing the **Master of Engineering (MEng), course-based with Internship:**

- A minimum of 30 units of courses as outlined by the MEng course-based program plus 12 - 24 units of internship courses.

#### Additional Comments:

Graduate students have the opportunity to participate in the Transformative Talent Internship option.

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

## Advanced Credit

The applicant must make **advanced credit** requests as part of the admission process, in consultation with the proposed supervisor and the Graduate Director. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Students who receive advanced course credit when admitted to a master's program may be able to accelerate the completion of their degree.

## Flexible Grade Option (CG Grade)

Students admitted to the Schulich School of Engineering will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Time Limit

Typical completion times are one to two years for full-time students in a master's program. Maximum completion time is six years for a Master of Engineering (course-based) program. The Master of Engineering, course-based with Internship is normally a three-year program.

See individual program pages on the Future Students website: <https://ucalgary.ca/future-students/graduate/explore-programs>.

## Supervisory Assignments

The Master of Engineering (course-based) does not require a supervisor.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

MEng students are typically admitted without funding from the program. For information on awards, see the **Awards and Financial Assistance** section of this Calendar.

## Overview

### General Program Information

The MA, course-based is a continuous program with no scheduled break.

This one-year program includes significant independent research, is SSHRC-eligible, and is appropriate for students who intend to proceed to doctoral studies.

All students must be registered full-time. Students may be considered for part-time status with departmental approval. Please consult the Department of English for more information.

### Specialization:

- Literature in English

A Creative Writing option is also available. Consult the department **website** for further details.

# UCalgary

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [english.ucalgary.ca](http://english.ucalgary.ca)

## Admissions

### Program Admissions Information

Deadline for submission of complete applications is available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/english-master-arts-course-based>.

In addition to Faculties of Graduate Studies and Arts [requirements](#), the Department requires:

- a) A completed four-year undergraduate program (or equivalent) with a Major in English Literature or in a closely related discipline.
- b) A minimum admission grade point average of 3.3 on a four-point scale over the final 60 units of the undergraduate degree.
- c) A Statement of Intent.
- d) A 5-10 page sample of critical writing; for creative writing applicants, an additional 10-page sample of creative writing.
- e) For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 97 (Internet-based test); an IELTS score of 7.0 (with no band less than 6.5); a CAEL score of 70 (with no section less than 65); a PTE score of 68; a Duolingo score of 135 (with no subscore below 115); or a Cambridge score of 191. This requirement can also be met by completing the [Academic Communication Certificate](#) with a grade of "A-" in two courses and "B+" in all other courses.
- f) Two reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department requires:

- a) 21 units in English at the 600 or 700 level beyond the Honours BA or equivalent.
- b) [ENGL710 Capstone Project](#)
- c) [ENGL691 Graduate Pro-seminar](#) or its equivalent.

All students must attend an orientation session.

Students must register for courses by the end of June. Continuing students and new students who are able to do so should consult the course instructors before they register or as soon as they arrive on campus. Final approval to enter a course is given by the Head or Associate Head of the Department.

Students wishing to enroll in English 693, 694, 695, or 698 must submit a portfolio of their own work for evaluation before consent to register will be given. Details of this procedure are available from the Department of English.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

Application for advanced credit must be made to the Department Head at the time of admission.

## Flexible Grade Option (CG Grade)

Students admitted to the Department of English will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for up to three units in a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

With the approval of the Department, all MA students may take for credit up to 3 units at the 500 level (excluding English 504).

## Time Limit

Expected completion time is up to twelve months for the course-based Master of Arts. Maximum completion time is two years.

### Supervisory Assignments and Research Proposal Requirements

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

Students are initially assigned an interim advisor to give them time to familiarize themselves with faculty members' research before securing a permanent supervisor.

Thesis-based: By March 1 of the first year, each student must submit a proposed field of research and the name of a proposed supervisor to the Graduate Executive Committee for approval.

Course-based: By June 1, students will approach a faculty member, normally one with whom they have completed (or are completing) a graduate course, to request supervision for their capstone research project.

### Research Proposal Requirements

By June 15 students will prepare a topic proposal of two pages plus bibliography for the capstone course and submit it to the Graduate Program Office for approval. Further details are available from the department.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the **Awards and Financial Assistance** section of this Calendar.

Students applying for scholarships are advised to have their applications to the Department by December 15.

## Overview

### General Program Information

The MA, thesis-based program includes significant independent research.

# UCalgary

All students must be registered full-time. Students may be considered for part-time status with departmental approval. Please consult the Department of English for more information.

## Specialization:

- Literature in English

A Creative Writing option is also available. Consult the department [website](#) for further details.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [english.ucalgary.ca](http://english.ucalgary.ca)

## Admissions

### Program Admissions Information

Deadline for submission of complete applications is available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/english-master-arts-thesis-based>

In addition to Faculties of Graduate Studies and Arts [requirements](#), the Department requires:

- A completed four-year undergraduate program (or equivalent) with a Major in English Literature or in a closely related discipline.
- A minimum admission grade point average of 3.3 on a four-point scale over the final 60 units of the undergraduate degree.
- A Statement of Intent.
- A 5-10 page sample of critical writing; for creative writing applicants, an additional 10-page sample of creative writing.
- For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 97 (Internet-based test); an IELTS score of 7.0 (with no band less than 6.5); a CAEL score of 70 (with no section less than 65); a PTE score of 68; a Duolingo score of 135 (with no subscore below 115); or a Cambridge score of 191. This requirement can also be met by completing the [Academic Communication Certificate](#) with a grade of "A-" in two courses and "B+" in all other courses.
- Two reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

#### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department requires:

- 18 units in English at the 600 or 700 level beyond the Honours BA or equivalent.
- [ENGL691 Graduate Pro-seminar](#) or its equivalent.
- A scholarly and/or critical thesis (approximately 100 pp).

#### Copyediting

While suggestions for editorial changes are a normal part of the collaboration between a student, the supervisory committee and the academic community, having a thesis professionally edited is prohibited by the department.

All students must attend an orientation session.

Students must register for courses by the end of June. Continuing students and new students who are able to do so should consult the course instructors before they register or as soon as they arrive on campus. Final approval to enter a course is given by the Head or Associate Head of the Department.

Students wishing to enroll in English 693, 694, 695, or 698 must submit a portfolio of their own work for evaluation before consent to register will be given. Details of this procedure are available from the Department of English.

## Additional Program Information

### Type

Completion Requirement

### Additional Comments:

## Advanced Credit

Application for advanced credit must be made to the Department Head at the time of admission.

## Flexible Grade Option (CG Grade)

Students admitted to the Department of English will not be allowed to request the Flexible Grade Option (CG Grade) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for up to three units in a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

With the approval of the Department, all MA students may take for credit up to 3 units at the 500 level (excluding English 504).

## Time Limit

Expected completion time is two years for the thesis-based Master of Arts. Maximum completion time is four years.

## Supervisory Assignments and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

Students are initially assigned an interim advisor to give them time to familiarize themselves with faculty members' research before securing a permanent supervisor.

Thesis-based: By March 1 of the first year, each student must submit a proposed field of research and the name of a proposed supervisor to the Graduate Executive Committee for approval.

Course-based: By June 1, students will approach a faculty member, normally one with whom they have completed (or are completing) a graduate course, to request supervision for their capstone

## Thesis Examination

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

### *Composition of the Committee*

The Internal Examiner must be external to the home program.

The thesis examination is open to the public.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for scholarships are advised to have their applications to the Department by December 15.

## Admissions

### Program Admissions Information

Deadline for submission of complete applications is available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/english-doctor-philosophy-thesis-based>

In addition to Faculties of Graduate Studies and Arts [requirements](#), the Department requires:

- A completed four-year undergraduate program (or equivalent), and a completed Master's degree. At least one of the degrees must be in English Literature. In exceptional circumstances, degrees in a closely related discipline may meet admission requirements.
- A grade point average of 3.5 on a four-point scale at the graduate level.
- A Statement of Intent.
- A 5-10 page sample of critical writing; for creative writing applicants, an additional 10-page sample of creative writing.
- For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 97 (Internet-based test); an IELTS score of 7.0 (with no band less than 6.5); a CAEL score of 70 (with no section less than 65); a PTE score of 68. This requirement can also be met by completing the [Academic Communication Certificate](#) with a grade of "A-" in two courses and "B+" in all other courses.
- Two reference letters.
- A curriculum vitae.

## Program Details

### Simple Requisites

### Program/Course Requirements

#### Type

Completion Requirement

#### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department requires:

a) 18 units in English at the 600 or 700 level beyond the Master's.

b) **ENGL691 Graduate Pro-seminar** or its equivalent.

c) A demonstrated reading knowledge of a language other than English. Students are encouraged to establish competency in a language that contains a body of texts relevant to their program of study. This requirement can be met in one of the following ways:

A minimum grade of "B" in 6 units at a senior (300) level in a language course.

Passing the department reading exam, which is set twice a year.

Documentation establishing native proficiency in a language other than English. It is the responsibility of the student to supply evidence of native proficiency or evidence that course work in a language at another university meets the requirement spelled out in this guide. Students who do not meet the requirement upon entry should consult with the Associate Head (Graduate Program) no later than the week before classes begin about the best approach to take.

d) Written and oral Field of Study Examinations.

e) A thesis proposal.

f) A doctoral thesis on approved topic and an oral thesis examination.

#### Copyediting

While suggestions for editorial changes are a normal part of the collaboration between a student, the supervisory committee and the academic community, having a thesis professionally edited is prohibited by the department.

---

All students must attend an orientation session.

Students must register for courses by the end of June. Final approval to enter a course is given by the Head or Associate Head of the Department.

Students wishing to enroll in English 693, 694, 695, or 698 must submit a portfolio of their own work for evaluation before consent to register will be given. Details of this procedure are available from the Department of English.

### Additional Program Information

#### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

Application for [advanced credit](#) must be made to the Department Head at the time of admission.

### Flexible Grade Option (CG Grade)

Students admitted to the Department of English will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for up to three units in a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Time Limit

Expected completion time is four years for the Doctor of Philosophy degree. Maximum completion time is six years.

## Supervisory Assignments and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

For the first eight months of the program, students are assigned an interim advisor to give them time to familiarize themselves with faculty members' research before securing a permanent supervisor.

By March 1 of the first year, each student will submit the name of a proposed supervisor and the proposed thesis research focus to the Graduate Executive Committee for approval.

By September 30 of the second year, the student, in consultation with the supervisor, will submit the names of the proposed supervisory committee, Field of Study, and initial thesis proposal to the Graduate Executive Committee for approval.

## Required Examinations

### Candidacy

Before formally embarking on the writing of the PhD thesis, all students must pass a Field of Study Written Examination, a Field of Study Oral Examination and pass a Thesis Proposal supervisory committee meeting and review. Details about the examination format and other candidacy requirements are available at: <https://arts.ucalgary.ca/english/current-students/graduate/doctoral-candidacy>.

### Thesis Examination

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner must be external to the home program.

The thesis examination is open to the public.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for scholarships are advised to have their applications to the Department by December 15.

## Overview

### General Program Information

The Schulich School of Engineering also offers a [Master of Engineering \(MEng\), course-based with Internship](#) in the Geomatics Engineering program.

### MEng Graduate Program Office

Location: Schulich School of Engineering Block C, Room 205

# UCalgary

Phone number: 403.220.2001

Email address: <mailto:meng@ucalgary.ca>

Web page URL: <https://schulich.ucalgary.ca/geomatics>

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/geomatics-engineering-master-engineering-course-based>.

The Schulich School of Engineering has established common minimum student admission requirements for all its graduate programs. Departments and graduate programs may have additional requirements over and above those of the Schulich School of Engineering.

In addition to the Faculty of Graduate Studies [requirements](#) for admission, the Schulich School of Engineering minimum requirements are as follows:

- a) BSc degree or equivalent.
- b) A minimum admission grade point average of 3.00 on a four-point scale or equivalent.
- c) Holders of BSc or equivalent degrees in Science, Medicine, Kinesiology or other Engineering, if accepted, may be required to take additional senior undergraduate engineering courses. These courses will not be counted for credit toward their graduate program. Holders of bachelor's degrees from disciplines other than Engineering, Science, Medicine or Kinesiology are required to complete a minimum of 30 units make-up undergraduate engineering courses with a minimum GPA of 3.00 on a four-point scale before admission.

In exceptional circumstances, students who do not meet the entrance requirements (but have BSc degrees in the same or equivalent Engineering discipline and a GPA of at least 2.70) may be considered for admission after upgrading requirements have been met. These include a minimum of 18 units of make-up courses, or 9 units of make-up courses if they have acceptable industrial experience, with a minimum grade of 3.00 on a four-point scale in each course. At least 12 or 6 units of these courses, respectively, must be graduate-level courses.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#) and the Schulich School of Engineering requirements:

Students must complete 30 units of coursework as follows:

- a) 12 units of required courses:

##### Complete ALL of the following Courses:

- ENGG680 - Introduction to Digital Engineering  
**AND** ENGO634 - (ENGO 431) Principles of Photogrammetry  
**AND** ENGO641 - (ENGO 451) Design and Implementation of Geospatial Information Systems  
**AND** ENGO650 - (ENGO 465) Satellite Positioning

Note: students with a BSc in Geomatics Engineering can replace **ENGO634 (ENGO431)Prncpls of Phtgrmmtry** and **ENGO650 (ENGO465)Satellite Positioning** with other graduate courses with approval of the Graduate Program Director.

- b) A minimum of 9 units of geomatics engineering graduate courses.

c) A minimum of 3 units of engineering graduate courses from the following list:

**Complete ANY of the following Courses:**

- ENGG683 - Innovation and Entrepreneurship  
**OR** ENGG684 - Introduction to Project Management  
**OR** ENGG687 - Ethics, Law, and the Engineering Profession

d) A maximum of 6 units graduate courses with approval by Graduate Program Director.

For students completing the **Master of Engineering (MEng), course-based with Internship:**

- A minimum of 30 units of courses as outlined by the MEng course-based program plus 12 - 24 units of internship courses.

#### Independent Study Courses

Course-based Master of Engineering students can have no more than three independent study courses count towards their degree requirements.

#### Additional Comments:

Graduate students have the opportunity to participate in the Transformative Talent Internship option.

In addition, the Department offers a designated set of graduate courses in each of the specialization areas and interdisciplinary areas. Additional graduate courses are offered as Special Studies and Project courses.

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

#### Advanced Credit

The applicant must make **advanced credit** requests as part of the admission process, in consultation with the proposed supervisor and the Graduate Director. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Students who receive advanced course credit when admitted to a master's program may be able to accelerate the completion of their degree.

#### Flexible Grade Option (CG Grade)

Students admitted to the Schulich School of Engineering will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

#### Time Limit

Typical completion times are one to two years for full-time students in a master's program. Maximum completion times are six years for a Master of Engineering (course-based). The Master of Engineering, course-based with Internship is normally a three-year program.

See individual program pages on the Future Students [website](#).

#### Supervisory Assignments

The Master of Engineering (course-based) does not require a supervisor.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

MEng students are typically admitted without funding from the program. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

#### Specializations:

- Positioning, Navigation and Wireless Location
- Geodesy, Remote Sensing and Earth Observation
- Digital Imaging Systems
- GIScience and Land Tenure
- [Energy&Env](#)
- [Environ En](#)
- [Wearable T](#)

Location: Schulich School of Engineering, 'E' Block

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/geomatics-engineering-master-science-thesis-based>.

The Schulich School of Engineering has established common minimum student admission requirements for all its graduate programs. Departments and graduate programs may have additional requirements over and above those of the Schulich School of Engineering.

In addition to the Faculty of Graduate Studies [requirements](#) for admission, the Schulich School of Engineering minimum requirements are as follows:

- a) BSc degree or equivalent.
- b) A minimum admission grade point average of 3.00 on a four-point scale or equivalent.
- c) Holders of BSc or equivalent degrees in Science, Medicine, Kinesiology or other Engineering, if accepted, may be required to take additional senior undergraduate engineering courses. These courses will not be counted for credit toward their graduate program. Holders of bachelor's degrees from disciplines other than Engineering, Science, Medicine or Kinesiology are required to complete a minimum of 30 units make-up undergraduate engineering courses with a minimum GPA of 3.00 on a four-point scale before admission.
- d) Two reference letters are required for thesis-based (MSc) graduate programs.

In exceptional circumstances, students who do not meet the entrance requirements (but have BSc degrees in the same or equivalent Engineering discipline and a GPA of at least 2.70) may be considered for admission after upgrading requirements have

been met. These include a minimum of 18 units of make-up courses, or 9 units of make-up courses if they have acceptable industrial experience, with a minimum grade of 3.00 on a four-point scale in each course. At least 12 or 6 units of these courses, respectively, must be graduate-level courses.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculty of Graduate Studies [requirements](#) and the Schulich School of Engineering requirements, the Department normally requires:

- a) A minimum of 12 units at the graduate level, with no fewer than 6 units of Geomatics Engineering specific graduate courses.
- b) Professional Development Seminars ([ENGG601 Professional Development I](#) and [ENGG603 Professional Development II](#)).
- c) A thesis related to original engineering research.

#### Independent Study Courses

Thesis-based Master's students can have no more than one independent study course count towards their degree requirements.

Graduate students have the opportunity to participate in the Transformative Talent Internship option.

In addition, the Department offers a designated set of graduate courses in each of the specialization areas and interdisciplinary areas. Additional graduate courses are offered as Special Studies and Project courses.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

#### Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process, in consultation with the proposed supervisor and the Graduate Director. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Students who receive advanced course credit when admitted to a master's program may be able to accelerate the completion of their degree.

#### Flexible Grade Option (CG Grade)

Students admitted to the Schulich School of Engineering will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

#### Credit for Undergraduate Courses

Not applicable.

#### Time Limit

Typical completion time is one to two years for full-time students in a master's program. Maximum completion time is four years.

See individual program pages on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs>.

## Supervisory Assignments and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

Supervisors and supervisory committees are assigned according to the Faculty of Graduate Studies regulations (see [academic regulations](#)) and are approved by the Department Head or the Graduate Program Director.

## Research Proposal Requirements

A thesis proposal accepted by the supervisor is required no later than 16 months after initial registration. The thesis topic should deal with original theoretical or practical research in Geomatics Engineering.

The thesis proposal should include the following:

1. Statement of the problem.
2. Research objectives.
3. Literature review.
4. Methodology and procedures.
5. Outline of thesis contents.
6. Proposed time schedule.
7. Bibliography and references.

## Required Examinations

The Schulich School of Engineering has established common minimum examination requirements for all its graduate programs. Departments and graduate programs may have additional requirements over and above those of the Schulich School of Engineering.

## Thesis Examination

In addition to the Faculty of Graduate Studies requirements for [Thesis Examinations](#), the Schulich School of Engineering minimum requirements are as follows:

### *Composition of the Committee*

The examining committee consists of: the Supervisor, an additional member of the University of Calgary academic staff, and Internal Examiner who may be internal to the home program. If applicable, the Co-Supervisor will also be part of the committee. The examination is chaired by a neutral chair (non-voting), proposed by the Department Head or Graduate Director. The examining committee must be approved by the Faculty of Graduate Studies.

The student shall make a public twenty-minute presentation of their thesis research, normally immediately before the oral examination. Examining committee members should attend this presentation but should refrain from asking questions. The maximum allowable two-hour examination period does not include the time spent on student presentation.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Thesis-based candidates are typically admitted with financial support provided by an interested supervisor, the department, or an official organization. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/geomatics-engineering-doctor-philosophy-thesis-based>.

The Schulich School of Engineering has established common minimum student admission requirements for all its graduate programs. Departments and graduate programs may have additional requirements over and above those of the Schulich School of Engineering.

In addition to the Faculty of Graduate Studies requirements for [admission](#), the Schulich School of Engineering minimum requirements are as follows:

- a) MSc degree, or transfer from MSc program, or, in exceptional cases, BSc degree or equivalent.
- b) A minimum admission grade point average of 3.50 on a four-point scale or equivalent.
- c) Transfer from MSc to PhD program is allowed only after the successful completion of all courses required for the MSc degree with a minimum GPA of 3.50.
- d) Two reference letters.

Holders of MSc or equivalent degrees in Science, Medicine, Kinesiology or other Engineering, if accepted, may be required to take additional senior undergraduate Engineering courses. These courses will not count for credit toward their doctoral program.

## Program Details

### Simple Requisites

Program/Course Requirements
Type

## Completion Requirement

### Additional Comments:

In addition to the Faculty of Graduate Studies' [requirements](#) and the Schulich School of Engineering requirements, the Department normally requires:

- a) A minimum of 9 units at the graduate level beyond the Master of Science course requirements, with no fewer than 3 units of Geomatics Engineering specific graduate courses. For students who transfer from a Master of Science to a doctoral program, a minimum of 6 units at the graduate level beyond the Master of Science course requirements.
- b) Professional Development Seminar ([ENGG601 Professional Development I](#) and [ENGG603 Professional Development II](#)).
- c) A thesis proposal that includes a literature review and the Field of Study written and oral examinations (see Candidacy and Required Examinations).
- d) A thesis related to advanced original engineering research.

### Independent Study Courses

Doctor of Philosophy students can have no more than one independent study course count towards their degree requirements. Students who transfer from the Master of Science to the Doctor of Philosophy program can have no more than two independent study courses count towards their degree requirements.

Graduate students have the opportunity to participate in the Transformative Talent Internship option.

In addition, the Department offers a designated set of graduate courses in each of the specialization areas and interdisciplinary areas. Additional graduate courses are offered as Special Studies and Project courses.

## Additional Program Information

### Type

### Additional Comments:

## Advanced Credit

The applicant must make [advanced credit](#) requests as part of the admission process, in consultation with the proposed supervisor and the Graduate Director. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

## Flexible Grade Option (CG Grade)

Students admitted to the Schulich School of Engineering will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Time Limit

Typical completion time is three to four years in a doctoral program. Maximum completion time is six years for a doctoral program.

See individual program pages on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs>.

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

### Supervisory Assignments

## **Supervisory Assignments**

Supervisors and supervisory committees are assigned according to the Faculty of Graduate Studies regulations (see [graduate academic regulations](#)) and are approved by the Department Head or the Graduate Program Director.

## **Research Proposal Requirements**

The doctoral thesis proposal requirements, including the outline of the proposal's contents, are the same as those for the Master of Engineering (thesis-based). The thesis must demonstrate the candidate's ability to pursue original research at a high level and represent a distinct advance in knowledge on the subject. The research should be of the recognized standard of technical journals requiring critical review. The supervisor and supervisory committee will normally require progress reports every six months during the doctoral program.

The thesis proposal should include the following:

1. Statement of the problem.
2. Research objectives.
3. Literature review.
4. Methodology and procedures.
5. Outline of thesis contents.
6. Proposed time schedule.
7. Bibliography and references.

## **Required Examinations**

In addition to the Faculty of Graduate Studies requirements, the program requires:

### **Candidacy**

To be admitted to candidacy, doctoral students must successfully complete a thesis proposal evaluation and a written field of study examination and an oral examination on the thesis proposal. See [Geomatics Engineering Doctoral Candidacy Requirements](#) for more information.

### **Thesis Examination**

The Schulich School of Engineering has established common minimum examination requirements for all its graduate programs. Departments and graduate programs may have additional requirements over and above those of the Schulich School of Engineering.

In addition to the Faculty of Graduate Studies requirements for [Thesis Examinations](#), the Schulich School of Engineering minimum requirements are as follows:

### **Doctoral Final Oral Examination**

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis before an examination can be scheduled.

#### *Composition of the Committee*

The examining committee consists of: the Supervisory Committee, an Internal Examiner who may be internal to the home program, and one member external to the University of Calgary. The examination is chaired by a neutral chair (non-voting), proposed by the Department Head or Graduate Director. The examining committee must be approved by the Faculty of Graduate Studies.

The student shall make a public twenty-minute presentation of their thesis research, normally immediately before the oral examination. Examining committee members should attend this presentation but should refrain from asking questions during the presentation. The maximum allowable two-hour examination period does not include the time spent on student presentation.

Thesis oral examinations are open.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Thesis-based candidates are typically admitted with financial support provided by an interested supervisor, the department, or an official organization. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

The MEng program may be completed on a full-time or part-time basis.

Three options are available for students entering the Master of Engineering (course-based) program:

- MEng, Mechanical Engineering
- MEng with an Interdisciplinary Specialization (Energy and Environment or Environmental)
- MEng with Pipeline Engineering Specialization

### Specializations:

- Pipeline Engineering
- [Energy&Env](#)
- [Environ En](#)

The Schulich School of Engineering also offers a [Master of Engineering \(MEng\), course-based with Internship](#) in the Mechanical and Manufacturing Engineering program.

### MEng Graduate Program Office

Location: Schulich School of Engineering Block C, Room 205

Phone number: 403.220.2001

Web page URL: <https://schulich.ucalgary.ca/mechanical-manufacturing/programs/graduate>

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/mechanical-manufacturing-engineering-master-engineering-course-based>.

The Schulich School of Engineering has established common minimum student admission requirements for all its graduate programs. Departments and graduate programs may have additional requirements over and above those of the Schulich School of Engineering.

In addition to the Faculty of Graduate Studies [requirements](#) for admission, the Schulich School of Engineering minimum requirements are as follows:

- a) BSc degree or equivalent.
- b) A minimum admission grade point average of 3.00 on a four-point scale or equivalent.
- c) Holders of BSc or equivalent degrees in Science, Medicine, Kinesiology or other Engineering, if accepted, may be required to take additional senior undergraduate engineering courses. These courses will not be counted for credit toward their graduate

program. Holders of bachelor's degrees from disciplines other than Engineering, Science, Medicine or Kinesiology are required to complete a minimum of 30 units make-up undergraduate engineering courses with a minimum GPA of 3.00 on a four-point scale before admission.

In exceptional circumstances, students who do not meet the entrance requirements (but have BSc degrees in the same or equivalent Engineering discipline and a GPA of at least 2.70) may be considered for admission after upgrading requirements have been met. These include a minimum of 18 units of make-up courses, or 9 units of make-up courses if they have acceptable industrial experience, with a minimum grade of 3.00 on a four-point scale in each course. At least 12 or 6 units of these courses, respectively, must be graduate-level courses.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#) and the Schulich School of Engineering minimum requirements, the Department requires:

**Complete ANY of the following Requirement Sets:**

- MEng, Course-based Mechanical and Manufacturing
- MEng, Course-based Mechanical and Manufacturing with an Interdisciplinary Specialization
- MEng, Course-based, Mechanical and Manufacturing, Pipeline Engineering Specialization

For students completing the **Master of Engineering (MEng), course-based with Internship:**

- A minimum of 30 units of courses as outlined by the MEng course-based program plus 12 - 24 units of internship courses.

#### Additional Comments:

Graduate students have the opportunity to participate in the Transformative Talent Internship option.

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process, in consultation with the proposed supervisor and the Graduate Director. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Students who receive advanced course credit when admitted to a master's program may be able to accelerate the completion of their degree.

### Flexible Grade Option (CG Grade)

Students admitted to the Schulich School of Engineering will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Time Limit

Typical completion times are one to two years for full-time students in a master's program. Maximum completion time is six years for a Master of Engineering (course-based). The Master of Engineering, course-based with Internship is normally a three-year program.

### Supervisory Assignments

The Master of Engineering (course-based) does not require a supervisor.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

MEng students are typically admitted without funding from the program. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

#### Specializations:

- Pipeline Engineering
- [Energy&Env](#)
- [Environ En](#)
- [Energy&Env](#)

Department Office (MSc and PhD)

Location: Mechanical Engineering Building, Room 505 / Information & Communications Technology, Room 402

Phone number: 403.220.5771

Email address: [mailto:gradenme@ucalgary.ca](mailto:mailto:gradenme@ucalgary.ca)

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/mechanical-manufacturing-engineering-doctor-philosophy-thesis-based>.

The Schulich School of Engineering has established common minimum student admission requirements for all its graduate programs. Departments and graduate programs may have additional requirements over and above those of the Schulich School of Engineering.

In addition to the Faculty of Graduate Studies requirements for [admission](#), the Schulich School of Engineering minimum requirements are as follows:

- a) MSc degree, or transfer from MSc program, or, in exceptional cases, BSc degree or equivalent.
- b) A minimum admission grade point average of 3.50 on a four-point scale or equivalent.
- c) Transfer from MSc to PhD program is allowed only after the successful completion of all courses required for the MSc degree with a minimum GPA of 3.50.
- d) Two reference letters.

Holders of MSc or equivalent degrees in Science, Medicine, Kinesiology or other Engineering, if accepted, may be required to take additional senior undergraduate Engineering courses. These courses will not count for credit toward their doctoral program.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculty of Graduate Studies [requirements](#) and the Schulich School of Engineering requirements, the Department normally requires:

- a) For students entering the PhD program with a MSc or equivalent, at least 6 units beyond the Master's degree are required at the graduate level (600-level or higher).
- b) For students without a MSc or equivalent, at least 21 units at the graduate level (600-level or higher) are required. Of these courses, 6 units may be taken from outside the Department, no more than 3 units can be a senior undergraduate course (500-level), and three units must be selected from either [ENME631 Advncd Nmrcl Mthds For Engg](#) or [ENME633 Mathematical Techn For Engineers](#).
- c) In addition to the courses listed in (a) or (b), students must present at the annual Mechanical Engineering Graduate Student Conference before their candidacy exam to receive credit for [ENME713 Research Seminar II](#).
- d) Following the candidacy exam, students must make one additional presentation at the Mechanical Engineering Graduate Student Conference in the Winter Term as partial fulfillment of the degree requirement.
- e) Students wishing to complete the Pipeline Engineering Specialization must complete 9 units of pipeline engineering approved courses with a pipeline engineering project.

Note: The student's supervisor and the Associate Head (Graduate Studies) must approve all courses taken outside of the department.

#### Pipeline Engineering Approved Courses:

- [ENME619 Special Problems \(619.82\)](#)
- [ENME620 ENGO for Pipeline Systems](#)
- [ENME622 Pump and Compressor Stations](#)
- [ENME624 Fundamentals of Pipeline ECON](#)
- [ENME626 Corrosion Science Pipelines](#)
- [ENME628 Pipeline Coatings](#)
- [ENME630 Fndmtl's Lqd Hydr'l'c Pipelines](#)
- [ENME632 Fndmtl's Gas Hydr'l'c Pipelines](#)
- [ENME634 Pipeline Geotechnical ENGG](#)
- [ENME636 Strct'l Anly's Buried Steel PL](#)
- [ENME640 Stress Corrosion Cracking Mat](#)
- [ENME667 Fracture Mechanics](#)
- [ENME669 Fatigue of Materials](#)

This list is provided as a reference. At the discretion of the Graduate Program Director and the Director of the Pipeline Engineering Centre (PEC), additional courses may be approved for the pipeline engineering specialization. Please be advised that not all of these courses may be offered in any one semester. For more information about approved courses, contact the Graduate Program Advisor at <mailto:gradenme@ucalgary.ca>.

Further information about this specialization is available on the Pipeline Engineering Centre's website <https://schulich.ucalgary.ca/pec>.

#### Additional Program Information

##### Type

Completion Requirement

Additional Comments:

### Advanced Credit

The applicant must make Advanced Credit requests as part of the admission process, in consultation with the proposed supervisor and the Graduate Director. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Students who receive advanced course credit when admitted to a master's program may be able to accelerate the completion of their degree.

### Flexible Grade Option (CG Grade)

Students admitted to the Schulich School of Engineering will not be allowed to request the Flexible Grade Option (CG Grade) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

See Program/Course requirements for details.

### Time Limit

Typical completion time is three to four years in a doctoral program. Maximum completion time is six years for a doctoral program.

See individual program pages on the Future Students website: <https://ucalgary.ca/future-students/graduate/explore-programs>.

### Other Information

Students may hire an editor to copyedit their theses subject to the conditions outlined in the Faculty of Graduate Studies thesis guidelines.

Graduate students have the opportunity to participate in the Transformative Talent Internship option.

#### Supervisory Assignments and Required Examinations

##### Type

Completion Requirement

Additional Comments:

### Supervisory Assignments

Supervisors and supervisory committees are assigned according to the Faculty of Graduate Studies regulations (see academic regulations) and are approved by the Department Head or the Graduate Program Director.

### Required Examinations

The Schulich School of Engineering has established common minimum examination requirements for all its graduate programs.

### Doctoral Candidacy Requirements

All Doctoral students must pass an oral Field of Study examination and an oral defence of the thesis proposal. For complete details of the examination format and other candidacy requirements, see the Candidacy Requirements document available on the Department website.

## Doctoral Final Oral Examination

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis before an examination can be scheduled.

### *Composition of the Committee*

The examining committee consists of: the Supervisory Committee, an Internal Examiner who may be internal to the home program, and one member external to the University of Calgary. The examination is chaired by a neutral chair (non-voting), proposed by the Department Head or Graduate Director. The examining committee must be approved by the Faculty of Graduate Studies.

The student shall make a public twenty-minute presentation of their thesis research, normally immediately before the oral examination. Examining committee members should attend this presentation but should refrain from asking questions during the presentation. The maximum allowable two-hour examination period does not include the time spent on student presentation.

Thesis oral examinations are open.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Thesis-based candidates are typically admitted with financial support provided by an interested supervisor, the department, or an official organization. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Admissions

### Program Admissions Information

Deadline for submission of completed applications are available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/mechanical-manufacturing-engineering-master-science-thesis-based>.

The Schulich School of Engineering has established common minimum student admission requirements for all its graduate programs. Departments and graduate programs may have additional requirements over and above those of the Schulich School of Engineering.

In addition to the Faculty of Graduate Studies requirements for [admission](#), the Schulich School of Engineering minimum requirements are as follows:

- a) BSc degree or equivalent.
- b) A minimum admission grade point average of 3.00 on a four-point scale or equivalent.
- c) Holders of BSc or equivalent degrees in Science, Medicine, Kinesiology or other Engineering, if accepted, may be required to take additional senior undergraduate engineering courses. These courses will not be counted for credit toward their graduate program. Holders of bachelor's degrees from disciplines other than Engineering, Science, Medicine or Kinesiology are required to complete a minimum of 30 units make-up undergraduate engineering courses with a minimum GPA of 3.00 on a four-point scale before admission.
- d) Two reference letters are required for thesis-based (MSc) graduate programs. References are not required for course-based (MEng) graduate programs.

In exceptional circumstances, students who do not meet the entrance requirements (but have BSc degrees in the same or equivalent Engineering discipline and a GPA of at least 2.70) may be considered for admission after upgrading requirements have been met. These include a minimum of 18 units of make-up courses, or 9 units of make-up courses if they have acceptable industrial experience, with a minimum grade of 3.00 on a four-point scale in each course. At least 12 or 6 units of these courses, respectively, must be graduate-level courses.

- [ENME669 Fatigue of Materials](#)

This list is provided as a reference. At the discretion of the Graduate Program Director and the Director of the Pipeline Engineering Centre (PEC), additional courses may be approved for the pipeline engineering specialization. Please be advised that not all of these courses may be offered in any one semester. For more information about approved courses, contact the Graduate Program Advisor at <mailto:gradenme@ucalgary.ca>.

Further information about this specialization is available on the Pipeline Engineering Centre's website [schulich.ucalgary.ca/pec](http://schulich.ucalgary.ca/pec).

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make **Advanced Credit** requests as part of the admission process, in consultation with the proposed supervisor and the Graduate Director. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Students who receive advanced course credit when admitted to a master's program may be able to accelerate the completion of their degree.

### Flexible Grade Option (CG Grade)

Students admitted to the Schulich School of Engineering will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

See Program/Course requirements for details.

### Time Limit

Typical completion times are one to two years for full-time students in a master's program. Maximum completion times is four years for a Master of Science.

See individual program pages on the Future Students website: <https://ucalgary.ca/future-students/graduate/explore-programs>.

### Other Information

Students may hire an editor to copyedit their theses subject to the conditions outlined in the Faculty of Graduate Studies [thesis guidelines](#).

Graduate students have the opportunity to participate in the Transformative Talent Internship option.

#### Supervisory Assignments and Required Examinations

##### Type

Completion Requirement

**Additional Comments:**

## Supervisory Assignments

Supervisors and supervisory committees are assigned according to the Faculty of Graduate Studies regulations (see [Supervision](#)) and are approved by the Department Head or the Graduate Program Director.

## Final Oral Examination

*Composition of the Committee*

The examining committee consists of: the Supervisor, an additional member of the University of Calgary academic staff, and Internal Examiner who may be internal to the home program. If applicable, the Co-Supervisor will also be part of the committee. The examination is chaired by a neutral chair (non-voting), proposed by the Department Head or Graduate Director. The examining committee must be approved by the Faculty of Graduate Studies.

The student shall make a public twenty-minute presentation of their thesis research, normally immediately before the oral examination. Examining committee members should attend this presentation but should refrain from asking questions. The maximum allowable two-hour examination period does not include the time spent on student presentation.

## Financial Assistance

**Type**

Completion Requirement

**Additional Comments:**

Thesis-based candidates are typically admitted with financial support provided by an interested supervisor, the department, or an official organization. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

This is a distance-delivery program with courses offered online only.

<https://schulich.ucalgary.ca/mechanical-manufacturing>

## Admissions

### Program Admissions Information

Deadlines are available on the Future Students webpage: <https://schulich.ucalgary.ca/mechanical-manufacturing>.

In addition to the Faculty of Graduate Studies admission requirements, applicants to the Graduate Certificate in Pipeline Engineering are required to meet the following criteria:

- A four-year baccalaureate degree in engineering or equivalent from a recognized institution.

Note: As per [G.A.1 Qualifications](#) in the Graduate Calendar, in exceptional circumstances, individuals who do not meet formal academic requirements but who have significant life achievement may be considered for admission to this program. The candidate must provide the program director with evidence demonstrating the potential to successfully undertake this certificate program. Such candidates may also be required to participate in an in-person interview with the program director.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

Students must complete 12 units from the lists below, which must include at least one course from each thematic area:

*Conceptualization and Design Thematic Area:*

**Complete at least 1 of the following courses:**

- ENME664 - Pipeline Design
- OR ENME668 - Pipeline Economics
- OR ENME674 - Gas and Liquid Hydraulics
- OR ENME675 - Materials Selection and Metallurgy
- OR ENME676 - Pipeline Stress Analysis
- OR ENME677 - Geotechnical Aspects in Pipeline Engineering
- OR ENME678 - Environmental Impact and Regulatory Matters

*Construction Thematic Area:*

**Complete at least 1 of the following courses:**

- ENME642 - Construction & Project Management
- OR ENME644 - Welding & Joining Processes

*Operation and Maintenance Thematic Area:*

**Complete at least 1 of the following courses:**

- ENME680 - Operation and Maintenance
- OR ENME682 - Automation and Control Systems
- OR ENME684 - Corrosion, Cracking, and Coatings
- OR ENME686 - Integrity Management
- OR ENME688 - Pipeline In-Line Inspection Technologies
- OR ENME689 - Pipeline Leak Detection Technologies

#### Additional Comments:

Students must pass each course with a grade of "B-" or higher and maintain a cumulative GPA of 3.00 to progress in the certificate program. Students who receive a grade of "C+" or lower will be given one chance to retake the course, and if they do not attain a grade of "B" or higher they will be required to withdraw.

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

Advanced Credit will not normally be granted towards the Graduate Certificate in Pipeline Engineering.

### Flexible Grade Option (CG Grade)

Students admitted to the Schulich School of Engineering will not be allowed to request the Flexible Grade Option (CG Grade) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.  
The use of the CG grade will affect students' eligibility for internal awards.

## Time Limits

The expected completion time for the Certificate is four months for students in the intensive pathway (12 units in one term).  
The expected completion time for the Certificate is eight months for students completing it over two consecutive academic terms (6 units per term).

## Supervisory Assignments

A Coordinator is assigned to each cohort in the Graduate Certificate in Pipeline Engineering.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

The School of Architecture, Planning and Landscape does not formally offer a part-time option.

Email address: <mailto:info@sapl.ucalgary.ca>

Web page URL: <https://sapl.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadline for submission of complete applications is available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/doctor-design>.

The DDes targets mid-career design professionals, holding a professional design degree from an accredited school, and with at least seven years of professional experience in their discipline.

In addition to Faculty of Graduate Studies requirements for [Admission](#), the program requires:

- a) A professional design degree from an accredited school.
- b) minimum of seven years of professional experience in discipline.
- c) Research Statement:

A research statement outlining the applicant's ability to conduct doctoral-level, creative, design practice-based research. The research statement (max 2,500 words) should include:

- the applicant's reasons for pursuing the DDes degree;
- description of the area of practice the applicant is interested in and the opportunity or problem within that area that the applicant wants to explore;
- a description of the researcher's professional background and how it prepares them to undertake their research;

## UCalgary

- a description of the potential impact of the proposed research.

The research statement will be used by the Admissions Committee to determine if adequate supervisory resources are available. In no case will a student be admitted if an appropriate supervisor is not expected to be available.

d) Digital Portfolio:

A portfolio that provides examples of, or illustrates, the applicant's design work, professional work, consulting reports, policy reviews, research, creative thinking, community action, planning products, or graphics and visual communication.

e) Curriculum Vitae:

A current copy of curriculum vitae (CV).

f) Reference Letters

Two reference letters. These can be academic or professional references.

g) Formal Interview:

Applicants are required to participate in a formal interview (either in person or online) with the Graduate Program Director or their designate.

h) Proof of English Proficiency:

For applicants who are required to prove proficiency in English, a minimum TOEFL score of 105 (Internet-based test); an IELTS score of 7.5; or a CAEL score of 70 with a minimum of 70 in each component. This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in each course.

i) Funding Plan:

A funding plan that demonstrates that financial resources are available for the entire program of study.

j) Grade Point Average:

An admission grade point average (GPA) above 3.50 on a four-point scale. In some circumstances, alternate means of demonstrating academic capacity will be accepted for mature applicants who have been away from academia for an extended period of time.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the Faculty of Graduate Studies **requirements**, the program requires:

a) Core required courses:

**Complete ALL of the following Courses:**

- **APLA680 - Design Practice Research Project Definition**  
**AND APLA682 - Strategies for Design Practice Research I**  
**AND APLA685 - Strategies for Design Practice Research II**

b) **APLA681 Design Practice Resrch Sympsum**, typically offered twice per year.

c) Additional course work when recommended by the Graduate Program Director in consultation with the student's supervisor and supervisory committee.

d) A thesis proposal approved by the supervisory committee during a committee meeting.

e) A written thesis.

f) A gallery exhibition of the research work, publicly presented at one of the semi-annual symposia.

g) Successful completion of all examinations as described under 'Required Examinations'.

**Additional Comments:**

Students are expected to attend two on-site research symposia per year, for each year of their program.

In addition to Faculty of Graduate Studies thesis submission requirements, all DDes students are required to submit one bound copy of the thesis (bound in standard black cloth-covered cases, bearing the author's name, title of work, year and the School of Architecture, Planning and Landscape lettered in white), and one portable document format (.PDF) copy.

## Reappraisal of Academic Assessments (Final Grades)

Students enrolled in SAPL graduate credentials must request a Reappraisal of Academic Assessments (Final Grades) within 5 business days of the start of the subsequent term.

Reappraisal of Academic Assessments (Final Grades) in SAPL graduate credentials must be completed at least one day before the drop date of the subsequent semester.

### Additional Program Information

**Type**

Completion Requirement

**Additional Comments:**

## Advanced Credit

Advanced Credit is not available for DDes courses.

## Flexible Grade Option (CG Grade)

Students admitted to the School of Architecture, Planning and Landscape will not be allowed to request the Flexible Grade Option (CG Grade) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the Flexible Grade Option (CG Grade) for courses outside of SAPL that permit the CG Grade and are taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Time Limits

Students are expected to enrol on a full-time basis and complete the DDes within three years. The Faculty of Graduate Studies requires that a maximum completion time is six registration years. See Time Limits.

### Supervisory Assignments and Required Examinations

**Type**

Completion Requirement

**Additional Comments:**

## Supervisory Assignments

In the first term of the program, each student will be assigned a supervisor by the Graduate Program Director.

Within three months of confirming their supervisor, DDes students must establish, in consultation with their supervisor, a supervisory committee. The supervisory committee must include at least two other members in addition to the supervisor and co-supervisor, if applicable.

## Required Examinations

In addition to the Faculty of Graduate Studies requirements for Candidacy and Thesis Examinations, the School of Architecture, Planning and Landscape requires:

## *Candidacy*

Doctoral students are required to complete all candidacy requirements. For details, see DDes Candidacy Requirements: <https://sapl.ucalgary.ca/future-students/graduate-research/doctor-design>.

## *Thesis Examination*

Final thesis oral examinations are open.

## *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

## *Composition of the Committee*

The Internal Examiner may be internal to the home program.

## **Financial Assistance**

### **Type**

Completion Requirement

### **Additional Comments:**

Financial assistance may be available to highly qualified students but cannot be guaranteed. For information on admission and academic awards, see the [Awards and Financial Assistance](#) section of this calendar, the SAPL website and the Awards Database on the Faculty of Graduate Studies website <https://grad.ucalgary.ca/awards>.

## **Overview**

### **General Program Information**

The School of Architecture, Planning and Landscape does not formally offer a part-time option.

In Canada, the Canadian Architectural Certification Board (CACB) is the sole agency authorized by the Regulatory Organization of Architecture in Canada (ROAC) to accredit Canadian professional degree programs in architecture for the purposes of architectural licensure.

Location: Professional Faculties 2182

Student Information: 403.220.7070

Fax: 403.284.4399

Email address: <mailto:info@sapl.ucalgary.ca>

Web page URL: <https://sapl.ucalgary.ca/>

## **Admissions**

### **Program Admissions Information**

Deadline for submission of complete applications is available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/environmental-design-medes>.

The MEDes is a research degree that typically targets graduates of professional programs in architecture, planning and landscape architecture. In addition to Faculty of Graduate Studies requirements for [Admission](#), the program requires:

#### a) Research Statement

A clear, concise and substantive research statement (1,000 to 1,500 words), which informs the Admissions Committee of:

## UCalgary

the applicant's reasons for pursuing the MEDes degree

how the applicant's specific educational background and professional and personal experience relates to their proposed thesis project

the applicant's thesis research interests and how they align with an existing research group or individual researcher within the School of Architecture, Planning and Landscape

any communication the applicant has had with potential supervisors

It is highly recommended that applicants communicate with potential supervisors prior to making an application to ensure that their proposed project aligns with one of the School's research areas.

### b) Digital Portfolio

A portfolio that provides examples of or illustrates the applicant's design work, professional work, research, creative thinking, community action, planning products, or graphics and visual communication.

### c) Curriculum Vitae

A current copy of curriculum vitae (CV).

### d) Reference Letters

Three reference letters, of which at least two should be academic.

### e) Proof of English Proficiency

For applicants who are required to prove proficiency in English, a minimum TOEFL score of 105 (Internet-based test); or an IELTS score of 7.5; or a CAEL overall score of 70 with a minimum score of 70 in each component. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.

### f) Example of Writing

At least one example of the applicant's previous academic or professional work such as a written essay, published research paper, major academic paper, thesis, or consulting report.

### g) Funding Plan

A funding plan that demonstrates that financial resources are available for the entire program of study.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the Faculty of Graduate Studies [requirements](#), the MEDes must include completion of the following academic requirements:

##### a) Core required courses:

##### Complete ALL of the following Courses:

- APLA670 - Design Research Methods  
**AND** APLA672 - Design Research Writing  
**AND** APLA674 - Design Innovation

b) A minimum of 3 units of elective credit at the graduate level that is relevant to the student's area of research, chosen in consultation with their supervisor.

c) A thesis proposal approved by the supervisor (or supervisory committee for those students who have chosen to have a committee).

d) A written thesis.

e) Thesis examination.

**Additional Comments:**

Attendance at orientation for first year students is expected.

In addition to Faculty of Graduate Studies thesis submission requirements, all MEDes students are required to submit one bound copy of the thesis (bound in standard orange cloth-covered cases, bearing the author's name, title of work, year and the School of Architecture, Planning and Landscape lettered in white), and one portable document format (.PDF) copy.

## Reappraisal of Academic Assessments (Final Grades)

Students enrolled in SAPL graduate credentials must request a [Reappraisal of Academic Assessments \(Final Grades\)](#) within 5 business days of the start of the subsequent term.

[Reappraisal of Academic Assessments \(Final Grades\)](#) in SAPL graduate credentials must be completed at least one day before the drop date of the subsequent semester.

### Additional Program Information

**Type**

Completion Requirement

**Additional Comments:**

### Advanced Credit

A student may apply for advanced credit for previous courses that have not been used to satisfy the requirements of any other degree or diploma program. See [Advanced Credit](#).

### Flexible Grade Option (CG Grade)

Students admitted to the School of Architecture, Planning and Landscape will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the Flexible Grade Option (CG Grade) for courses outside of SAPL that permit the CG Grade and are taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Only undergraduate courses numbered 500-599 may be considered for graduate-level credit and are subject to approval by the Program Director.

### Time Limit

Given the post-professional nature of the MEDes degree, students are expected to complete their degrees within four terms. Note that Faculty of Graduate Studies regulations require that students must complete all degree requirements within four registration years. See [Time Limits](#).

### Supervisory Assignments and Required Examinations

**Type**

Completion Requirement

**Additional Comments:**

## Supervisory Assignments

At the time of admission, each MEDes student will be assigned a supervisor.

MEDes students are only required to have one supervisor. MEDes students may, in consultation with their supervisor, choose to have a committee. If so, then within three months of admission, MEDes students must establish, in consultation with their supervisor, a supervisory committee. The supervisory committee must include at least one other member in addition to the supervisor and co-supervisor, if applicable. This additional member must be from outside of the School of Architecture, Planning and Landscape.

## Required Examinations

### *Thesis Examination*

In addition to the Faculty of Graduate Studies requirements for [Thesis Examinations](#), the program requires:

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

## Thesis Proposal Requirements

The supervisor (or the supervisory committee, if applicable) will approve final thesis proposals. Thesis proposals should clearly describe the project in terms of Title, Objectives, Background, Methodology and Expected Outcomes. Students are encouraged to include an explicit interventionist or problem-solving component.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to highly qualified students but cannot be guaranteed. For information on admission and academic awards, see the [Awards and Financial Assistance](#) section of this calendar, the SAPL website and the Awards Database on the Faculty of Graduate Studies website.

## Overview

### General Program Information

The School of Architecture, Planning and Landscape does not formally offer a part-time option.

Email address: <mailto:info@sapl.ucalgary.ca>

Web page URL: <https://sapl.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadline for submission of complete applications is available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/environmental-design-phd>.

In addition to Faculty of Graduate Studies requirements for Admission, the program requires:

a) Research Proposal

A research proposal that describes the nature of the thesis research the applicant expects to undertake. This will be used by an admissions committee as an indicator of the applicant's ability to conduct doctoral-level research and to determine if adequate supervisory resources are available. Only if such resources are available will the student be admitted. Please note that this research statement (maximum of 1500 words) must include the following sections: Background, research questions, literature review, research methodology, and broader impacts of the proposed research. The research statement should indicate potential supervisors and/or committee members, and whether they have been contacted by the applicant.

b) Digital Portfolio

A portfolio that provides examples of or illustrates the applicant's design work, professional work, research, creative thinking, community action, planning products, or graphics and visual communication.

c) Curriculum Vitae

A current copy of curriculum vitae (CV).

d) Reference Letters

Three reference letters, of which at least two should be academic.

e) Proof of English Proficiency

For applicants who are required to prove proficiency in English, a minimum TOEFL score of 105 (Internet-based test); an IELTS score of 7.5; or a CAEL score of 70 with a minimum of 70 in each component. This requirement can also be met by completing the Academic Communication Certificate with a minimum grade of "A-" in each course.

f) Example of Writing

At least one example of the applicant's previous academic or professional work, such as a written essay, published research paper, major academic paper, thesis, or consulting report.

g) Grade Point Average

An admission grade point average (GPA) above 3.50 on a four-point scale.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to the Faculty of Graduate Studies requirements, the PhD must include completion of the following academic requirements:

a) Core required courses:

**Complete ALL of the following Courses:**

- APLA670 - Design Research Methods  
**AND** APLA672 - Design Research Writing  
**AND** APLA674 - Design Innovation

##### Additional Comments:

b) A minimum of 3 units of elective credit at the graduate level that is relevant to the student's area of research, chosen in consultation with their supervisor.

c) Additional course work when recommended by the Graduate Program Director in consultation with the student's supervisor and supervisory committee.

d) A thesis proposal approved by the supervisory committee during a committee meeting.

- e) A written thesis.
- f) Successful completion of all examinations.

Attendance at orientation for first year students is expected.

In addition to Faculty of Graduate Studies thesis submission requirements, all PhD students are required to submit one bound copy of the thesis (bound in standard black cloth-covered cases, bearing the author's name, title of work, year and the School of Architecture, Planning and Landscape lettered in white), and one portable document format (.PDF) copy.

## Reappraisal of Academic Assessments (Final Grades)

Students enrolled in SAPL graduate credentials must request a [Reappraisal of Academic Assessments \(Final Grades\)](#) within 5 business days of the start of the subsequent term.

[Reappraisal of Academic Assessments \(Final Grades\)](#) in SAPL graduate credentials must be completed at least one day before the drop date of the subsequent semester.

### Additional Program Information

#### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

A student may apply for advanced credit for previous courses that have not been used to satisfy the requirements of any other degree or diploma program. See [Advanced Credit](#).

### Flexible Grade Option (CG Grade)

Students admitted to the School of Architecture, Planning and Landscape will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the Flexible Grade Option (CG Grade) for courses outside of SAPL that permit the CG Grade and are taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Time Limit

Students are expected to enroll on a full-time basis and complete the degree requirements within four registration years. Maximum completion time is six registration years. See [Time Limits](#).

### Supervisory Assignments and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

At the time of admission, each student will be assigned an interim supervisor. The Graduate Program Director must approve a permanent supervisor no later than twelve months after first registration.

Within three months of confirming their supervisor, PhD students must establish, in consultation with their supervisor, a supervisory committee. The supervisory committee must include at least two members in addition to the supervisor and co-supervisor, if applicable. Of these two members, at least one must be from outside of the School of Architecture, Planning and Landscape.

## Required Examinations

In addition to the Faculty of Graduate Studies requirements for [Candidacy](#) and [Thesis Examinations](#), the School of Architecture, Planning and Landscape requires:

### Candidacy

Doctoral students are required to complete all candidacy requirements. For details, see [SAPL Candidacy Requirements](#).

### Thesis Examination

Final thesis oral examinations are open.

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Please refer to the SAPL Funding Policy: <https://sapl.ucalgary.ca/future-students/admissions/entrance-scholarships-awards>.

## Overview

### General Program Information

#### Laddered Pathway from the Graduate Certificate to the Diploma, and from the Graduate Diploma to the Master of Data Science and Analytics

Students who complete the Graduate Certificate in Fundamental Data Science and Analytics may receive laddering credit for the 12 units of coursework completed in the certificate program if they are subsequently accepted to the [GDIP Data](#) program within five years of beginning the certificate.

Students who complete the Graduate Diploma in Data Science and Analytics may receive laddering credit for the 24 units of coursework completed in the diploma program if they are subsequently accepted to the [Master of](#) within five years of beginning the first credential in the laddering process.

Students may also choose to ladder from the Graduate Certificate in Fundamental Data Science and Analytics into the Master of Data Science and Analytics. Upon admission to the Master's degree program, student may receive laddering credit for the 12 units of coursework completed in the Certificate program.

Email: <mailto:prograd.science@ucalgary.ca>

Webpage: <https://science.ucalgary.ca/data-science>

## Admissions

### Program Admissions Information

The deadline for completed applications is available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/data-science-analytics-certificate-course-based>.

In addition to the Faculty of Graduate Studies [admission requirements](#), all applicants must meet the following requirements:

- A four-year baccalaureate degree from a recognized institution;
- A minimum admission grade point average of 3.00 on a four-point scale or equivalent;
- The successful completion of the following undergraduate courses:
  - one course in computer programming (such as Computer Science 217, Computer Science 231, Data Science 211, or equivalent)
  - one course in statistics (such as Statistics 205, Statistics 217, Statistics 321, Statistics 327, or equivalent), and
  - one course in either calculus or linear algebra (such as Mathematics 211, 249, 265, 275, or equivalent).

Note: In exceptional circumstances, individuals who do not meet formal academic requirements but who have significant life achievement may be considered for admission to this program (see [Qualifications](#)). The candidate must provide the Data Science Program Director with evidence demonstrating the potential to successfully undertake this program. Such candidates may also be required to participate in an in-person interview with the Program Director and/or take one or more assessment tests provided by the program to establish their level of proficiency in the subject areas used as program prerequisites.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Science requires students to complete:

The Certificate requires 12 units of coursework consisting of:

**Complete ALL of the following Course Sets:**

- Data Science and Analytics Core Courses

#### Additional Comments:

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

[Advanced Credit](#) will not normally be given for any of the Data Science and Analytics credentials.

### Flexible Grade Option (CG Grade)

The Data Science and Analytics Professional Program will allow students to pursue the [Flexible Grade Option \(CG Grade\)](#).

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Time Limits

The expected completion time for the Graduate Certificate in Fundamental Data Science and Analytics is four months. The maximum completion time for the Certificate is three years from the start of the program.

For students laddering from the Graduate Certificate and/or the Graduate Diploma program into the Master's, the maximum completion time for all laddered credentials is six years from the start of the first credential in the laddering process.

## Supervisory Assignments

An Academic Coordinator is assigned to each cohort in the Certificate program.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section.

## Overview

### General Program Information

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [geog.ucalgary.ca](http://geog.ucalgary.ca)

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/geography-master-arts-thesis-based](http://ucalgary.ca/future-students/graduate/explore-programs/geography-master-arts-thesis-based)

In addition to Faculties of Graduate Studies and Arts [requirements](#), the Department of Geography requires all applicants to submit:

- a) A proposal describing applicant's intended research area.
- b) A current curriculum vitae or résumé.
- c) Two reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

#### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department requires:

- a) Twelve units in a two-year period, including History and Philosophy of Physical or Human Geography, and at least one graduate-level methods course in Geography.
- b) Four semesters of [GEOG601 Grad Research Seminar](#) (Graduate Research Seminars). Students may be exempted from a portion of this requirement as determined by the Graduate Program Director.
- c) An approved thesis proposal completed within the first year of the program.

For detailed information on courses and program requirements please refer to: [geog.ucalgary.ca](http://geog.ucalgary.ca).

Full-time status is expected. In some situations thesis programs may be completed on a part-time basis with approval from the Graduate Program Director.

For thesis-based students, departures from regular departmental program/course requirements may be recommended on an individual basis by the supervisor with approval from the Graduate Program Director.

#### **Additional Program Information**

##### **Type**

Completion Requirement

##### **Additional Comments:**

#### **Advanced Credit**

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

#### **Flexible Grade Option (CG Grade)**

The department of Geography will not permit the Flexible Grade Option (CG Grade) for any course offered by the Department of Geography.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

#### **Credit for Undergraduate Courses**

No more than one half of a regular thesis graduate student's coursework can be at the undergraduate level. Eligible undergraduate courses must be at 500 level. Requests for courses at other levels must receive approval of Graduate Program Director. Programs requiring a larger ratio of undergraduate courses must receive approval of the Dean of Graduate Studies at the time of admission.

#### **Time Limit**

Expected completion time is two years. Maximum completion time is four years.

#### **Supervisory Assignments, Research Proposal and Required Examinations**

##### **Type**

Completion Requirement

##### **Additional Comments:**

#### **Supervisory Assignments**

Each thesis-based graduate student has a supervisor appointed upon entry to the program.

#### **Research Proposal Requirements**

Thesis-based Master's students normally complete a written thesis proposal, approved by the supervisor and two additional examiners, within twelve months of registration in the program.

#### **Thesis Examination**

Thesis examinations are open.

##### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of

the materials related to the thesis, before an examination can be scheduled.

Normally, the review of the research by the Supervisory Committee will be by presentation and discussion of the student's thesis research at a Supervisory Committee Meeting supported by a relevant written sample of the materials related to the thesis. For master's students that do not have a Supervisory Committee, the Supervisor will review the research.

#### *Composition of the Committee*

The Internal Examiner must be external to the home program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Department funding is available to highly ranked thesis students. Financial assistance may be available to qualified thesis students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar or check the Graduate Awards Database: [grad.ucalgary.ca/awards](http://grad.ucalgary.ca/awards).

Unless otherwise stated, awards are available only to full-time students in thesis programs.

## Overview

### General Program Information

The Master of Geographic Information Systems (MGIS), is a course-based program with a research component. The MGIS has a scheduled break in July and August. The program may be completed on a full-or part-time basis. Students can apply for direct entry admission to the MGIS degree or apply to the MGIS via the ladder pathway after completion of the [GCERT Geos](#).

### Laddered Pathway from the Graduate Certificate in Geospatial Information Technology to the Master of Geographic Information Systems

Students who complete the Graduate Certificate in Geospatial Information Technology may receive laddering credit for the 12 units of coursework completed in the certificate program if they are subsequently accepted to the Master of Geographic Information Systems within five years of beginning the certificate.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [geog.ucalgary.ca](http://geog.ucalgary.ca)

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/geography-master-geographic-information-systems-course-based](http://ucalgary.ca/future-students/graduate/explore-programs/geography-master-geographic-information-systems-course-based).

- a) A statement of interest outlining the applicant's goals, motivation for applying to the program, and research area of interest.
- b) A current curriculum vitae or résumé.
- c) Two reference letters.

For the academic background requirements for the MGIS program or the Graduate Certificate in Geospatial Information Technology, the Department will accept a four-year BA or BSc degree in Geography or in any related field that makes use of spatial data. Examples include, but are not limited to: Anthropology, Archaeology, Biological Sciences, Computer Science, Ecology, Environmental Science, Geology/Geophysics, Geomatics Engineering, History, Management, Mathematics, Political

Science, Psychology, Tourism, Transportation Studies or Engineering, and Urban Studies.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

The MGIS requires 30 units of courses\*. At least 24 units of these must be at the 600 level or higher; the remaining 6 units may be at the 500 level. These will include:

a) Three core courses (9 units) in Geographic Information Sciences in the areas of Remote Sensing, Spatial Analysis and Geographic Information Systems:

**Complete ALL of the following Courses:**

- GEOG633 - Research & Applications in Remote Sensing  
**AND** GEOG639 - Adv Spatial Analysis & Modeling  
**AND** GEOG647 - Adv Res & Appl In Geog Info Syst

b) Two research-based courses (6 units) related to the area of Geographic Information Science:

**Complete ALL of the following Courses:**

- GEOG681 - Geographic Information Science Project: Theoretical Issues  
**AND** GEOG683 - Geographic Information Science Project: Application

#### Additional Comments:

c) Five additional courses (15 units) approved by the Graduate Program Director.

\* Students who complete the Graduate Certificate in Geospatial Information Technology may receive laddering credit for the 12 units of coursework completed in the certificate program if they are subsequently accepted to the Master of Geographic Information Systems within five years of beginning the certificate.

Participation in the annual graduate student Department conference is recommended.

For course-based students, departures from regular departmental program/course requirements may be recommended on an individual basis with approval from the Graduate Program Director.

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

The applicant must make **advanced credit** requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

The department of Geography will not permit the **Flexible Grade Option (CG Grade)** for any course offered by the Department

of Geography.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

MGIS students are allowed a maximum of 6 units credit at the 500 level.

## Time Limit

Minimum completion time is 16 months and maximum completion time is six years.

### Required Examination

#### Type

Completion Requirement

#### Additional Comments:

## Comprehensive Examination

MGIS comprehensive examination will be held as part of [GEOG683 GeogInfoScieProj:Application](#) and be based on project and course work. MGIS students will be examined on their comprehensive understanding of course material and their integrated professional knowledge/conception of geographic information science. Details about the timing and structure of the comprehensive examination can be found in the Department of Geography's Course-Based Program Handbook. Please contact the Graduate Program Director to request a copy of the Department of Geography's Course-Based Program Handbook.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Unless otherwise stated, awards are available only to full-time students in thesis programs.

## Overview

### General Program Information

The MSc program may be taken on a part-time basis with consent of the Department.

Within the course-based Master of Science degree, an Interdisciplinary Specialization in Reservoir Characterization is offered. See [Reservoir](#).

Location: Science A Building, Room 229

Email address: <mailto:sci.grad@ucalgary.ca>

Web page URL: <http://geoscience.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/geoscience-master-science-course-based>.

In addition to Faculty of Graduate Studies [admission](#) requirements and Faculty of Science requirements, the Department requires:

- Normally, a four-year Bachelor of Science degree or equivalent. An Honours degree in geology or geophysics, or a field related to geophysics, such as physics or mathematics, is preferred.
- A concise statement outlining the applicant's research interests and reasons for wishing to attend the University of Calgary.
- For those students required to provide proof of proficiency in English, a minimum TOEFL score of 97 (Internet-based test), an IELTS score of 7.0, or a PTE score of 68.
- Two reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculties of Graduate Studies [requirements](#) and the Faculty of Science requirements, the Department requires:

Completion of a minimum of 27 units of coursework, which must include:

a) [GLGY670 Independent Study](#) or [GOPH675 Independent Study](#); and

b) 24 units of elective Geoscience courses (GLGY or GOPH):

- At least 12 of 24 units must be from 600- or 700-level courses.
- Up to 12 units of appropriate courses from another department may be substituted for Geoscience electives, subject to program approval.

Full-time students are normally expected to provide their own financial support and pay tuition and fees as outlined in the graduate student calendar since the department does not normally offer financial support to course-based Master of Science students.

Part-time students may be working in the field of Geology and/or Geophysics. An industrial supervisor can agree to work with the academic supervisor in the Department to supervise and evaluate the student's research project.

## Additional Program Information

### Type

Completion Requirement

### Additional Comments:

## Advanced Credit

Application for advanced credit should be made to the graduate program at the time of admission, so that the previous work can be taken into account when specifying a student's program.

The total of advanced credit and transfer credit in course-based Master's programs will generally not exceed either one-third of the program or 12 units, whichever is less.

Advanced credit is not guaranteed and will be determined by the Graduate Program Director or Department Head with consideration of the recommendation of the Interim Supervisor.

Courses for which advanced credit is being sought must be from a recognized institution and not have been used for any degree or diploma accreditation. They must be graded, graduate-level courses, and the graded level of performance must be equivalent to a "B" grade or higher standing at the University of Calgary. Advanced credit is not normally given for courses taken more than five years before admission to the current graduate degree program or for courses taken for the purposes of qualifying for admission.

## Flexible Grade Option (CG Grade)

Students admitted to the Department of Geoscience will not be allowed to request the Flexible Grade Option (CG Grade) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Time Limit

Expected completion time is two years for full-time students in a course-based master's program. Maximum completion time is six years.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

No financial support will be given to students enrolled in the course-based master's program.

## Overview

### General Program Information

The MSc program may be taken on a part-time basis with consent of the Department.

In addition to Faculties of Graduate Studies and Science requirements, the Department requires:

- a) Normally, a four-year Bachelor of Science degree or equivalent. An Honours degree in geology or geophysics, or a field related to geophysics, such as physics or mathematics, is preferred.
- b) A concise statement outlining the applicant's research interests and reasons for wishing to attend the University of Calgary.
- c) For those students required to provide proof of proficiency in English, a minimum TOEFL score of 97 (Internet-based test), an IELTS score of 7.0, or a PTE score of 68.
- d) Two reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculties of Graduate Studies and Science requirements, the Department requires:

Completion of a minimum of 12 units.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

Application for **advanced credit** should be made to the graduate program at the time of admission, so that the previous work can be taken into account when specifying a student's program.

Advanced credit is not guaranteed and will be determined by the Graduate Program Director or Department Head with consideration of the recommendation of the Interim Supervisor.

Courses for which advanced credit is being sought must be from a recognized institution and not have been used for any degree or diploma accreditation. They must be graded, graduate-level courses, and the graded level of performance must be equivalent to a "B" grade or higher standing at the University of Calgary. Advanced credit is not normally given for courses taken more than five years before admission to the current graduate degree program or for courses taken for the purposes of qualifying for admission.

### Flexible Grade Option (CG Grade)

Students admitted to the Department of Geoscience will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Time Limit

Expected completion time is two years for students in thesis-based master's degree programs. Maximum completion time is four years.

### Supervisory Assignments, Research Proposal and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

## Supervisory Assignments

Upon admission into a thesis-based program, a student is assigned an interim supervisor by the Graduate Program Director, either based on prior communication between the student and a prospective supervisor, or chosen from the research field the student has specified. A permanent supervisor (usually the interim supervisor) is normally appointed within two months.

## Research Proposal Requirements

Master of Science thesis-based students must file a thesis proposal by March 1 of the second session of study for September registrants and July 1 for January registrants. The thesis proposal must not be more than five pages of text long and include an abstract and a list of references cited in the text. The supervisor will assess the proposal in detail.

## Required Examinations

### Thesis Examination

Master of Science thesis-based students have final thesis oral examinations that are open to the public, with a public presentation on the same day.

In addition to the Faculty of Graduate Studies requirements for [Thesis Examinations](#), the Department requires:

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this calendar.

Students applying for scholarships must have complete applications submitted to the Department by January 15.

## Overview

### General Program Information

The PhD program may be taken on a part-time basis with consent of the Department.

Location: Science A Building, Room 229

Email address: <mailto:sci.grad@ucalgary.ca>

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/geoscience-doctor-philosophy-thesis-based>.

In addition to Faculties of Graduate Studies and Science requirements, the Department requires:

- a) Normally, a Master of Science degree or equivalent in geoscience or a field related to geoscience, such as physics or mathematics.
- b) A concise statement outlining the applicant's research interests and reasons for wishing to attend the University of Calgary.
- c) For those students required to provide proof of proficiency in English, a minimum TOEFL score of 97 (Internet-based test), an IELTS score of 7.0, or a PTE score of 68.
- d) Two reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculty of Graduate Studies requirements and Faculty of Science requirements, the Department requires:

- Completion of a minimum of 12 units in the first year of the program.

Subject to supervisor and Graduate Program Director approval, this requirement may be waived fully or partially, or course exemptions may be granted on the basis of comparable courses taken during a master's program.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

Application for advanced credit should be made to the graduate program at the time of admission, so that the previous work can be taken into account when specifying a student's program.

Advanced credit is not guaranteed and will be determined by the Graduate Program Director or Department Head with consideration of the recommendation of the Interim Supervisor.

Courses for which advanced credit is being sought must be from a recognized institution and not have been used for any degree or diploma accreditation. They must be graded, graduate-level courses, and the graded level of performance must be equivalent to a "B" grade or higher standing at the University of Calgary. Advanced credit is not normally given for courses taken more than five years before admission to the current graduate degree program or for courses taken for the purposes of qualifying for admission.

### Flexible Grade Option (CG Grade)

Students admitted to the Department of Geoscience will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Time Limit

Expected completion time is three or four years for doctoral students. Maximum completion time is six years.

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

Upon admission into a thesis-based program, a student is assigned an interim supervisor by the Graduate Program Director, either based on prior communication between the student and a prospective supervisor, or chosen from the research field the student has specified. A permanent supervisor (usually the interim supervisor) is normally appointed within two months. Supervisory committees for doctoral students are selected by consultation between the permanent supervisor and the student.

## Research Proposal Requirements

PhD students will submit a more substantial thesis research proposal within 18 months of registration. The thesis proposal will be judged a pass or fail by the Supervisory Committee. The thesis research proposal must be passed before the FOS oral examination can be scheduled. Details about the thesis research proposal and the Department of Geoscience's Doctoral Candidacy Requirements can be found at <https://science.ucalgary.ca/earth/current-students/graduate/procedures-policies-and-forms>.

## Required Examinations

### Candidacy

Doctoral students have a two-hour Field of Study (FOS) oral candidacy examination that must be completed by the twenty-eighth month of the program. The FOS oral examination cannot be attempted until the written thesis research proposal has been passed by the Supervisory Committee.

Questions on the research proposal may be included in the FOS oral candidacy examination. Details of the Department of Geoscience's Doctoral Candidacy Requirements can be found at <https://science.ucalgary.ca/earth/current-students/graduate/procedures-policies-and-forms>.

### Thesis Examination

Master of Science thesis-based and doctoral students have final thesis oral examinations that are open to the public, with a public presentation on the same day.

In addition to the Faculty of Graduate Studies requirements for Thesis Examinations, the Department requires:

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

## Financial Assistance

## Type

Completion Requirement

## Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this calendar.

Students applying for scholarships must have complete applications submitted to the Department by January 15.

## Overview

### General Program Information

The MA degree may be completed on a full-time or a part-time basis.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [clare.ucalgary.ca](http://clare.ucalgary.ca)

## Admissions

### Program Admissions Information

Deadline for submission of complete application is available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/greek-roman-studies-master-arts-course-based](http://ucalgary.ca/future-students/graduate/explore-programs/greek-roman-studies-master-arts-course-based)

In addition to Faculties of Graduate Studies and Arts [requirements](#), the Department requires:

- a) Normally at least 66 units of relevant undergraduate course work are expected for admission to the MA program, with some concentration in the proposed research area.
- b) All research areas require proficiency in reading Latin and/or Greek.
- c) Competence in reading French, German or Italian must be acquired either before or during the program.
- d) Two letters of reference.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department requires:

- a) **GRST603 Res & Professional Training**, first-year course on research and professional training.
- b) 24 units of other seminar courses; these may include up to 6 units outside the department if relevant to the student's particular interests in the field.
- c) 6 units (four courses) of directed studies in Greek and Latin texts ([GREK607 Directed Studies](#) or [LATI607 Directed Studies](#)), normally taken in Fall and Winter Terms of the first and second year (worth 1.5 units each). Greek 607 or Latin 607 may be replaced with Greek or Latin 602 and/or 604.
- d) Reading knowledge of French or German or Italian.

The department may require up to two additional courses (6 units) in order to ensure sufficient preparation in relevant areas for the MA. Students are advised of any such requirements upon entry into the program.

## Additional Program Information

### Type

Completion Requirement

### Additional Comments:

## Advanced Credit

Contact department for information.

## Flexible Grade Option (CG Grade)

The Greek and Roman Studies program in the department Of Classics and Religion will not permit the **Flexible Grade Option (CG Grade)** for any course offered by the Greek and Roman Studies Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Not more than four courses (12 units) in the course-based program, may be taken at the 500 level.

## Time Limit

Students studying on a full-time basis are expected to complete the Master's program in two years. Students in course-based master's programs must complete their degrees within six years.

## Overview

### General Program Information

The MA degree may be completed on a full-time or a part-time basis.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [clare.ucalgary.ca](http://clare.ucalgary.ca)

## Admissions

### Program Admissions Information

Deadline for submission of complete application is available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/greek-roman-studies-master-arts-thesis-based](http://ucalgary.ca/future-students/graduate/explore-programs/greek-roman-studies-master-arts-thesis-based)

In addition to Faculties of Graduate Studies and Arts **requirements**, the Department requires:

- Normally at least 66 units of relevant undergraduate course work are expected for admission to the MA program, with some concentration in the proposed research area.
- All research areas require proficiency in reading Latin and/or Greek.

- c) Competence in reading French, German or Italian must be acquired either before or during the program.
- d) Two letters of reference.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department requires:

- a) **GRST603 Res & Professional Training**, first-year course on research and professional training.
- b) 12 units of other seminar courses, normally taken in the first year of the program; these may include up to 6 units outside the department if appropriate to the area of specialization.
- c) 6 units (four courses) of directed studies in Greek and Latin texts (**GREK607 Directed Studies** or **LATI607 Directed Studies**), normally taken in Fall and Winter Terms of the first and second year (worth 1.5 units each). Greek 607 or Latin 607 may be replaced with Greek or Latin 602 and/or 604.
- d) Reading knowledge of French or German or Italian into English.
- e) A thesis of approximately 20,000 words, with oral examination.

The department may require up to two additional courses (6 units) in order to ensure sufficient preparation in relevant areas for the MA. Students are advised of any such requirements upon entry into the program.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

Contact department for information.

### Flexible Grade Option (CG Grade)

The Greek and Roman Studies program in the department Of Classics and Religion will not permit the **Flexible Grade Option (CG Grade)** for any course offered by the Greek and Roman Studies Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Not more than two of the courses (6 units) required in the thesis-based MA program may be taken at the 500 level.

### Time Limit

Students studying on a full-time basis are expected to complete the Master's program in two years. Students in thesis-based master's programs must complete their degrees within four years.

## Supervisory Assignments and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

The Graduate Program Director is normally the interim supervisor for a master's student entering the program, and will assist the student to find a supervisor within eight months of entering the program. The appointment of a supervisor is subject to approval by the Department Head.

### Thesis Examination

In addition to the Faculty of Graduate Studies requirements for [Thesis Examinations](#), the Department requires:

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner must be external to the home program.

Thesis examinations are open.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Funding is available to qualified thesis-based students in the form of scholarships, awards and/or teaching assistantships. Students applying for departmental funding for the following academic year must submit their applications to the Department by February 1. All students are strongly encouraged to seek external financial assistance throughout their program. The department can offer advice on identifying sources.

For information on other funding opportunities, see the [Awards and Financial Assistance](#) section of this Calendar and the Faculty of Graduate Studies website: [grad.ucalgary.ca/awards](http://grad.ucalgary.ca/awards).

## Overview

### General Program Information

#### Laddered Pathway from the Graduate Certificate in Geospatial Information Technology to the Master of Geographic Information Systems

Students who complete the Graduate Certificate in Geospatial Information Technology may receive laddering credit for the 12 units of coursework completed in the certificate program if they are subsequently accepted to the [MGIS - Geo](#) within five years of beginning the certificate.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [geog.ucalgary.ca](http://geog.ucalgary.ca)

## Admissions

### Program Admissions Information

## Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: [grad.ucalgary.ca/future-students/explore-programs/geospatial-information-technology-certificate](https://grad.ucalgary.ca/future-students/explore-programs/geospatial-information-technology-certificate).

In addition to Faculties of Graduate Studies and Arts [requirements](#), the Department of Geography requires all applicants to submit:

- A statement of interest outlining the applicant's goals, motivation for applying to the program, and research area of interest.
- A current curriculum vitae or résumé.
- Two reference letters.

For the academic background requirements for the MGIS program or the Graduate Certificate in Geospatial Information Technology, the Department will accept a four-year BA or BSc degree in Geography or in any related field that makes use of spatial data. Examples include, but are not limited to: Anthropology, Archaeology, Biological Sciences, Computer Science, Ecology, Environmental Science, Geology/Geophysics, Geomatics Engineering, History, Management, Mathematics, Political Science, Psychology, Tourism, Transportation Studies or Engineering, and Urban Studies.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department requires:

**Complete ALL of the following Courses:**

- GEOG680 - Principles of Digital Cartography and Geovisualization  
**AND** GEOG682 - Fundamentals of Geographic Information Science  
**AND** GEOG684 - Fundamentals of Remote Sensing  
**AND** GEOG686 - Applied Statistics and Geospatial Analysis

#### Additional Comments:

For course-based students, departures from regular departmental program/course requirements may be recommended on an individual basis with approval from the Graduate Program Director.

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

The applicant must make [advanced credit](#) requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

The department of Geography will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the Department of Geography.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

No credit will be given for undergraduate courses towards the Graduate Certificate in Geospatial Information Technology.

## Time Limit

The expected completion time is four months to a maximum completion time of two years.

## Supervisory Assignments

The program will be appointed a faculty member who will act as an academic advisor.

## Overview

### General Program Information

The one-year, course-based MA program includes significant independent research and is SSHRC-eligible. It is appropriate for students who intend to proceed to doctoral studies.

This is a continuous program with no scheduled break. Students who do not enrol in courses continuously will be withdrawn from the program for failure to register unless they are on an approved leave of absence.

Students in the course-based program are expected to enrol full-time but part-time status may be considered with approval from the Graduate Program Director.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: <https://arts.ucalgary.ca/history>

## Admissions

### Program Admissions Information

Deadlines for the submission of complete applications are available on the Future Students website:

<https://grad.ucalgary.ca/future-students/explore-programs/history-ma-course>

In addition to the **requirements** of the Faculties of Graduate Studies and Arts, the Department requires:

- a) Normally, a four-year undergraduate program with honours or a major in History.
- b) A minimum admission grade point average of 3.40 on a four-point scale over the final 60 units of the undergraduate degree.
- c) A sample of written work (unpublished essays submitted as coursework in previous undergraduate and Master's degree programs or individual chapters of Honours, BA or Master's theses).
- d) A statement of research interest.
- e) Two reference letters.
- f) A curriculum vitae.
- g) The name of the potential supervisor must be listed in the application. The student should communicate with a prospective supervisor to confirm their interest in supervising the student's work. See [HIST Research | Faculty of Arts | University of Calgary \(ucalgary.ca\)](#) for faculty research areas.

See [website](#) for further application details.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department requires:

a) A minimum of 24 units of coursework:

- [HTST651 Research Essay I](#) as preparation for the Major Research Essay (MRE)
- [HTST653 Research Essay II](#), in which the MRE, normally around 9,000 words in length (including notes, charts, tables and appendices, but excluding bibliography), is written. The MRE must be written like a scholarly research article, and it will be marked by the student's advisor and one additional faculty member.
- [HTST690 Historiography&TheoriesOfHist](#)
- 15 units of History graduate courses over two semesters; in instances where there are no graduate courses being offered in the student's field of study, students may, with permission of the supervisor and graduate program director, take one 500-level undergraduate History course on the understanding that extra coursework will be required.

b) Normally, a demonstration of reading proficiency in a language other than English and related to the student's research interests before the MRE can be accepted. Please refer to the subsection below for further details.

#### Language Requirements

Both the master's and the doctoral degrees normally require a demonstration of reading proficiency in a language other than English and related to the major field of study or research area. This requirement can be met in one of the following ways:

1. Passing the Department language exam, which is set twice a year and tests the ability to understand the general meaning of an academic text in a language other than English with the help of dictionaries (English and language which is examined). It can be repeated if failed.
2. Documentation establishing reading proficiency in a language other than English. It is the responsibility of the student to supply evidence of reading proficiency or evidence that course work in a language other than English at another university meets the requirement. Students not meeting the requirement upon entry should consult with the graduate program director before classes begin.

Students may, with permission of the supervisor and the graduate program director, replace reading proficiency with oral proficiency.

#### Copyediting

The graduate program in the Department of History does not permit the use of third-party editors in the preparation of papers and theses.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

The Department of History will allow students to pursue the [Flexible Grade Option \(CG Grade\)](#) for courses offered outside of the program.

Students may choose the CG grade for a course taken extra to load.  
The use of the CG grade will not affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Refer to Program/Course Requirements.

## Time Limit

Expected completion time for full-time students is 12 months, and maximum completion time is four years.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar.

Students applying for scholarships must submit their online applications to the Department by the deadline posted on the department [website](#).

## Overview

### General Program Information

All thesis-based students are considered full-time.

### Specializations:

- History and Philosophy of Science (MA, thesis-based only)\*

\*This specialization is offered in co-operation with the Department of Philosophy.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: <https://arts.ucalgary.ca/history>

## Admissions

### Program Admissions Information

Deadlines for the submission of complete applications are available on the Future Students website:

<https://grad.ucalgary.ca/future-students/explore-programs/history-ma-thesis>

In addition to the [admission requirements](#) of the Faculties of Graduate Studies and Arts, the Department requires:

- a) Normally, a four-year undergraduate program with honours or a major in History.
- b) A minimum admission grade point average of 3.40 on a four-point scale over the final 60 units of the undergraduate degree.
- c) A sample of written work (unpublished essays submitted as coursework in previous undergraduate and Master's degree programs or individual chapters of Honours, BA or Master's theses).
- d) A statement of research interest.
- e) Two reference letters.

f) A curriculum vitae.

g) The name of the potential supervisor must be listed in the application. The student should communicate with a prospective supervisor to confirm their interest in supervising the student's work. See [website](#) for further application details.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department requires:

a) A minimum of 15 units of coursework:

- [HTST690 Historiography&TheoriesOfHist](#) (3 units); plus
- 12 units of History graduate courses over two terms; in instances where there are no graduate courses being offered in the student's field of study, students may, with approval of the supervisor and graduate program director, take one 500-level undergraduate History course on the understanding that extra coursework will be required.

Students may choose 3 units outside of the Department (requiring approval from the supervisor and graduate program director).

Students in the History and Philosophy of Science specialization may, with approval of the supervisor and graduate program director, take Philosophy courses to fulfill course requirements for the degree.

b) Normally, a demonstration of reading proficiency in a language other than English and related to the major field of study prior to the oral thesis defence. Please refer to the subsection below for further details.

c) Completion and successful oral defense of an original thesis, normally around 30,000 words in length (including notes, charts, tables and appendices, but excluding bibliography).

#### Language Requirements

Both the master's and the doctoral degrees normally require a demonstration of reading proficiency in a language other than English and related to the major field of study or research area. This requirement can be met in one of the following ways:

1. Passing the Department language exam, which is set twice a year and tests the ability to understand the general meaning of an academic text in a language other than English with the help of dictionaries (English and language which is examined). It can be repeated if failed.
2. Documentation establishing reading proficiency in a language other than English. It is the responsibility of the student to supply evidence of reading proficiency or evidence that course work in a language other than English at another university meets the requirement. Students not meeting the requirement upon entry should consult with the graduate program director before classes begin.

Students may, with permission of the supervisor and the graduate program director, replace reading proficiency with oral proficiency.

#### Copyediting

The graduate program in the Department of History does not permit the use of third-party editors in the preparation of papers and theses.

#### Additional Program Information

##### Type

Completion Requirement

**Additional Comments:**

## Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

## Flexible Grade Option (CG Grade)

The Department of History will allow students to pursue the Flexible Grade Option (CG Grade) for courses offered outside of the program.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Students enrolled in the Master of Arts thesis program may apply for no more than one 500-level course for graduate credit, subject to the approval of the Supervisor and Graduate Program Director. Graduate students taking a 500-level course for graduate credit will be required to complete additional assignments.

## Time Limit

Expected completion time is two years, and maximum completion time is four years.

### Supervisory Assignments and Required Examinations

#### Type

Completion Requirement

**Additional Comments:**

## Supervisory Assignments

Admission to the Master of Arts (thesis-based) is dependent upon the agreement of a faculty member to supervise in an interim capacity. Upon acceptance into the program, students are assigned an interim supervisor who will normally become the permanent supervisor three months into the student's program. Supervisors must be assigned within 6 months of the first registration.

## Thesis Examination

In addition to the Faculty of Graduate Studies requirements for Thesis Examinations, the Department requires:

Final thesis oral examinations are open.

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

### Financial Assistance

#### Type

Completion Requirement

**Additional Comments:**

Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar.

Students applying for scholarships must submit their online applications to the Department by the deadline posted on the department [website](#).

## Overview

### General Program Information

All thesis-based students are considered full-time.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: <https://arts.ucalgary.ca/history>

## Admissions

### Program Admissions Information

Deadlines for the submission of complete applications are available on the Future Students website:

<https://grad.ucalgary.ca/future-students/explore-programs/history-phd>

In addition to the [admission requirements](#) of the Faculties of Graduate Studies and Arts, the Department requires:

- a) Normally, a completed four-year undergraduate program with honours or a major in History and a completed Master of Arts degree or the equivalent in History or in a related discipline.
- b) A grade point average of 3.70 on a four-point scale in History at the graduate level.
- c) A detailed statement of research interest.
- d) A sample of written work (unpublished essays submitted as coursework in previous undergraduate and Master's degree programs or individual chapters of Honours, BA or Master's theses).
- e) Two reference letters.
- f) A curriculum vitae.
- g) The name of the potential supervisor must be listed in the application. The student should communicate with a prospective supervisor to confirm their interest in supervising the student's work. See [HIST Research | Faculty of Arts | University of Calgary \(ucalgary.ca\)](#) for faculty research areas.

See [website](#) for further application details.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department requires:

a) A minimum of 12 units of coursework at the graduate level, including courses in the primary and secondary areas. These courses include:

- 3 units in the primary area as a [HTST791 Conf Course Special Top \(Adv\)](#) reading course;

- 3 units in the secondary area as a **HTST791 Conf Course Special Top (Adv)** reading course;
- 6 additional units including **HTST690 Historiography&TheoriesOfHist** (3 units), if not completed in a student's MA program. Among these, the student may also choose 3 units outside the Department (requiring the supervisor's and graduate program director's approval).

b) Normally, a demonstration of reading proficiency in a language other than English and relevant to the student's research prior to the candidacy examination. Please refer to the subsection below for further details.

c) Written and oral candidacy examinations in primary and secondary areas.

d) Submission and successful defense of an original thesis, normally 80,000 - 100,000 words in length (including notes, charts, tables and appendices, but excluding bibliography).

#### Language Requirements

Both the master's and the doctoral degrees normally require a demonstration of reading proficiency in a language other than English and related to the major field of study or research area. This requirement can be met in one of the following ways:

1. Passing the Department language exam, which is set twice a year and tests the ability to understand the general meaning of an academic text in a language other than English with the help of dictionaries (English and language which is examined). It can be repeated if failed.
2. Documentation establishing reading proficiency in a language other than English. It is the responsibility of the student to supply evidence of reading proficiency or evidence that course work in a language other than English at another university meets the requirement. Students not meeting the requirement upon entry should consult with the graduate program director before classes begin.

Students may, with permission of the supervisor and the graduate program director, replace reading proficiency with oral proficiency.

#### Copyediting

The graduate program in the Department of History does not permit the use of third-party editors in the preparation of papers and theses.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

#### Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

#### Flexible Grade Option (CG Grade)

The Department of History will allow students to pursue the **Flexible Grade Option (CG Grade)** for courses offered outside of the program.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

#### Time Limit

Expected completion time is four years, and maximum completion time is six years.

#### Supervisory Assignments and Required Examinations

##### Type

Completion Requirement

**Additional Comments:**

## **Supervisory Assignments**

Admission to the PhD is dependent upon the agreement of a faculty member to supervise in an interim capacity. Upon acceptance into the program, students are assigned an interim supervisor who will normally become the permanent supervisor three months into the student's program. Supervisors must be assigned within 6 months of the first registration.

The supervisor establishes a doctoral supervisory committee in consultation with the student. The Supervisory Committee consists of the primary area supervisor and a secondary area specialist with the third member being a faculty member, normally outside the department, whose area of expertise is in the field of study for the student. The supervisory committee must be selected within three months of the permanent supervisor's appointment (no later than March of the first year of a program).

## **Required Examinations**

In addition to the Faculty of Graduate Studies requirements for **Candidacy** and **Thesis Examinations**, the Department requires:

### **Candidacy**

Doctoral students must pass oral and written candidacy examinations in their primary and secondary areas. For complete details of candidacy requirements and the examination format, see <https://arts.ucalgary.ca/history/future-students/graduate/phd-candidacy-requirements>.

### **Thesis Examinations**

Final thesis oral examinations are open.

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

## **Financial Assistance**

### **Type**

Completion Requirement

### **Additional Comments:**

Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar.

Students applying for scholarships must submit their online applications to the Department by the deadline posted on the department [website](#).

## **Overview**

### **General Program Information**

**Graduate Certificates in Social Work** serve as stand-alone credentials for practicing social workers who seek formal professional development opportunities in their field or provide practicing social workers a flexible option to pursue the MSW degree.

Students may complete a given certificate only once. Repeating the same certificate is not permitted. Not all Graduate Certificates and specializations are offered every year. For availability, consult the Faculty of Social Work [website](#).

### **Program Delivery**

## UCalgary

The certificates are completed full-time and courses are offered by distance (online) learning. Most require virtual and/or in-person residencies in Calgary or Edmonton. Failure to attend residencies may result in a student being withdrawn from the course(s) or program.

Note: International students admitted to a Graduate Certificate with a mandatory in-person campus residency must present a valid study permit approval letter and/or study permit to Student Services in the Faculty of Social Work prior to the start of the program.

---

### Specializations (ICD):

- International Social Development
- Community Development

---

### Laddered Pathway from Graduate Certificates to MSW

Students who complete the Graduate Certificate in International and Community Development (ICD) and one of: **GCERT Adva**, **GCERT Clin** or **Social Wor** may apply to the Master of Social Work (course-based) program. See **LADMSWCB**.

---

Email Address: <mailto:fsw.studentservices@ucalgary.ca>

Web page URL: <https://socialwork.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadlines are available on the Future Students webpage: <https://grad.ucalgary.ca/future-students/explore-programs/social-work-cert>.

Students who wish to complete two successive certificates through a laddered pathway into the MSW (course-based) degree must apply to each certificate and the MSW (a total of three applications) and will receive each credential upon its successful completion.

---

In addition to the Faculty of Graduate Studies' **admission** requirements, the Faculty of Social Work requires:

a) A Bachelor of Social Work (BSW) degree from an accredited/recognized\* institution. The degree must be awarded prior to the start of the Graduate Certificate.

*\*The Faculty of Social Work recognizes BSW and BSW degrees accredited by the Canadian Association for Social Work Education (CASWE), the Council of Social Work Education (CSWE), and international credentials deemed equivalent to a Canadian BSW degree by the Canadian Association of Social Workers (CASW).*

b) A minimum GPA of 3.00 (on the University of Calgary four-point system). This is based on the last two years of the undergraduate degree consisting of a minimum of 60 units.

c) The equivalent of two years of full-time paid work or a minimum of 3000 hours of paid and/or volunteer work in the human services field.

d) For applicants required to present proof of proficiency in English: a minimum TOEFL score of 97 (Internet-based test with no section less than 20); IELTS score of 7.0 (Academic version with no section less than 6.0); a CAEL score of 70 (70 in writing and speaking; 60 in reading and listening); or a PTE with a minimum score of 68 (Academic version). This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in academic writing and oral communication courses and "B+" in other courses.

**Note:** Once admitted, students are not permitted to switch specializations within the chosen certificate. Requests to defer an offer of admission are not normally considered.

---

Access to an electronic device, such as a tablet or computer, is necessary.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Social Work requires:

The Graduate Certificate consists of 12 units of coursework. Course requirements are determined by the specialization.

**Complete ANY of the following Course Sets:**

- Social Work, ICD Specialization, International Social Development  
**OR** Social Work, ICD Specialization, Community Development

#### Additional Comments:

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

Advanced credit is not awarded toward a graduate certificate.

### Flexible Grade Option (CG Grade)

The Faculty of Social Work will allow students in the Graduate Certificates in Social Work to pursue the [Flexible Grade Option \(CG Grade\)](#) for graduate courses offered by the Faculty. Students may receive a grade of CG only once, for a total of 3 units, regardless of the number of graduate certificates they complete. In addition, students may receive a grade of CG only once throughout the entire ladder pathway.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Concurrent Program Enrolment

Students in this program may not concurrently pursue a certificate, diploma or the final step of a ladder pathway Master's degree as outlined in section [G.D.1.3 Concurrent Program Enrolment](#).

### Withdrawal

Students who are required to withdraw from the program for academic reasons will not be subsequently admitted to any graduate program offered by the Faculty of Social Work.

### Time Limit

The expected completion time is eight months for any of the graduate certificates. Maximum completion time is two years.

Students taking graduate certificates as part of the ladder pathway to the MSW (course-based) degree program must apply to ladder into the MSW within five years from the start of their first graduate certificate in the laddering sequence.

#### Financial Assistance

##### Type

Completion Requirement

## Additional Comments:

Students enrolled in a Graduate Certificate in Social Work are not eligible for University of Calgary awards administered through the Graduate Awards Competition but may be eligible for program recommended awards. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

The Master of Social Work program is accredited by the Canadian Association of Social Work Education.

The objective of the Master of Social Work (MSW) program is to prepare students for advanced professional practice in social work. The course-based program is appropriate for students who intend to provide direct service in the field. This full-time program is available for both BSW graduates and graduates from other disciplines.

### Specializations:

- International and Community Development (ICD)
- [MSWC Clini](#)
- [Social Wor](#)

## Program Delivery

The MSW course-based program in all three specializations is offered by distance (online) learning with required virtual and in-person campus residencies in Calgary or Edmonton. Failure to attend residencies may result in a student being withdrawn from the course(s) or program.

The course-based MSW is a continuous, full-time program with no scheduled break. Students who do not enrol in courses continuously will be withdrawn from the program for failure to register unless they are an approved leave of absence.

Please consult the [website](#) for specific program delivery information.

Note: International students must present a valid study permit approval letter and/or study permit to Student Services in the Faculty of Social Work prior to the start of the program. They also must have a valid work permit for their practica (Social Work 663 and/or the optional Social Work 660) in Canada. The work permit must be presented to the Field Education Office in the Faculty of Social Work prior to the start of the practicum.

## work-msw-course.

In addition to Faculty of Graduate Studies requirements for [admission](#), the Faculty of Social Work requires:

a) A Bachelor of Social Work (BSW) degree\* or a four-year bachelor's degree from another discipline. The undergraduate degree must be awarded prior to the start of the MSW program and must be from a recognized post-secondary institution.

*\*The Faculty of Social Work recognizes BSW and BISW degrees accredited by the Canadian Association for Social Work Education (CASWE), the Council on Social Work Education (CSWE) and international credentials deemed equivalent to a Canadian BSW degree by the Canadian Association of Social Workers (CASW).*

b) A minimum GPA of 3.00 (on the University of Calgary four-point system). This is based on the last two-years of the undergraduate degree consisting of a minimum of 60 units.

c) The equivalent of two years of full-time paid work or a minimum of 3000 hours of paid and/or volunteer work in the human services field.

d) A program proposal outlining the applicant's social work perspectives and educational goals.

e) For applicants required to present proof of proficiency in English, a minimum TOEFL score of 97 (Internet-based test with no section less than 20); IELTS score of 7.0 (Academic version with no section less than 6.0); a CAEL score of 70 (70 in writing and speaking; 60 in reading and listening); or a PTE with a minimum score of 68 (Academic version). This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in academic writing and oral communication courses and "B+" in other courses.

f) Two references, one academic and one professional. Applicants unable to provide an academic reference are advised to submit a second professional reference and provide rationale in the application.

For those applying to the MSW through the MSW Laddering Pathway (upon completion of two specific Graduate Certificates), the academic reference must come from an instructor who taught the applicant in one of the Graduate Certificates.

MSW applicants are allowed to apply to only one program location and one specialization. Once admitted, students are not permitted to switch specializations and/or topics within their chosen specialization. Requests to defer an offer of admission are not normally considered.

Participation in Student Orientation sessions held prior to the start of the program is mandatory for students.

Access to an electronic device, such as a tablet or computer, is necessary.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Social Work requires:

**For students with a bachelor's degree in a discipline other than social work.**

Nine foundation courses (27 units), as follows:

**Complete ALL of the following Course Sets:**

- MSW Foundation Courses

The foundational practicum course requires students to complete a minimum of 450 placement hours in the Winter semester of their first year. Practicum hours are typically completed in-person, during regular business hours and close to the student's home community, anywhere in Canada.

Foundation courses must be completed before students advance to Specialization specific courses and Advanced Practicum (Social Work 660 and 662).

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Social Work requires:

**For students with a BSW or completed foundation courses:**

A total of 36 units of coursework, as follows:

- a) 12 units of Advanced Social Work Practice courses;
- b) 12 units of Specialization courses (topics may vary from year to year and by location);
  - Within the ICD specialization, there are two topic areas. Each consists of 12 units (four courses) which address a particular subject within the broader field of International and Community Development. Students must complete 12 units in the selected topic area.
- c) 12 units of Field Practicum, Integrative Seminar, Research Applications and Exit Requirement (FIRE).
  - Students must be available to complete 500 hours of practicum. This represents a significant time commitment. Students must ensure that they are aware of field requirements, and available for field placements as scheduled, in order to complete their practicum within the appropriate term.
  - Practicum hours are typically completed in-person, during regular business hours and close to the student's home community anywhere in Canada. International practicums may be an option for interested MSW students only in the International and Community Development specialization in their Advanced Practicum. This will be dependent on the location, scope of practice, timeframe, and supervision availability.
  - A student who fails or withdraws from a practicum course (Social Work 660 or 662) will fail or be required to withdraw from the co-requisite courses (Social Work 660 or 662). In addition, the student may be required to withdraw from the program.

**Complete ALL of the following Course Sets:**

- Advanced Social Work Practice Courses (ASWP)
- Social Work, ICD Specialization, International Social Development  
OR Social Work, ICD Specialization, Community Development
- MSW, Field Practicum, Integrative Seminar, Research Applications and Exit Requirement (FIRE)

The four courses in ASWP and in each specialization topic are offered in a prescribed sequence and deviation from the curriculum plan is not normally allowed.

Please note that not all specialization topics are offered every year. Students should consult the timetables and program curriculum plans located on the web for sequence and availability of Specialization topics: <https://socialwork.ucalgary.ca/>.

**Additional Comments:**

**Transfer to a Thesis-Based MSW**

Note: Students who wish to transfer to the thesis-based MSW must submit their transfer request to Student Services by January 31 prior to the thesis research courses and/or advanced practicum. Students who transfer must comply with the requirements of the respective program. The program transfer must be approved by both the Faculty of Social Work and Faculty of Graduate Studies.

\*Course-based MSW students with a non-BSW degree who receive credit by special assessment (CSA) for the Foundational Field Practicum (Social Work 633) are not eligible to transfer to the thesis-based MSW.

**Additional Program Information**

**Type**

Completion Requirement

**Additional Comments:**

**Advanced Credit**

Advanced Credit is not normally granted for the Master of Social Work degree.

### Flexible Grade Option (CG Grade)

The Faculty of Social Work, Master of Social Work course-based program will allow students to pursue the **Flexible Grade Option (CG Grade)** in one graduate course offered by the faculty, with the exception of **SOWK633 Foundational Field Practicum**, **SOWK660 Advanced Practicum** and **SOWK662 Integrative Seminar**.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Concurrent Program Enrolment

Students in this program may not concurrently pursue a certificate, diploma or the final step of a ladder pathway Master's degree as outlined in section **G.D.1.3 Concurrent Program Enrolment**.

### Withdrawal

Students who are required to withdraw from the program for academic reasons will not be subsequently admitted to any graduate program offered by the Faculty of Social Work.

### Credit for Undergraduate Courses

Credit for undergraduate courses will not be awarded.

### Time Limits

Expected completion time is two years for BSW graduates and three years for students with a non-BSW degree.

As established by the Faculty of Graduate Studies (see Time Limits) maximum completion time is six years for a course-based MSW.

#### Financial Assistance

##### Type

Completion Requirement

##### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see **Awards and Financial Assistance** for Graduate Students, the Graduate Awards **Database**, and consult with the Student Services Office in the Faculty of Social Work.

## Overview

### General Program Information

The Master of Social Work program is accredited by the Canadian Association of Social Work Education.

The objective of the Master of Social Work (MSW) program is to prepare students for advanced professional practice in social work. The thesis-based route may be appropriate for students who intend to proceed to doctoral studies and/or anticipate a career requiring advanced program evaluation or research skills. This full-time program is available for both BSW graduates and graduates from other disciplines.

### Specializations:

- International and Community Development (ICD)
- **MSWT Cline**

- Social Wor

---

## Program Delivery

The MSW thesis-based program in all three specializations is offered by distance (online) learning with required virtual and in-person campus residencies in Calgary or Edmonton. Failure to attend residencies may result in a student being withdrawn from the course(s) or program.

Please consult the [website](#) for specific program delivery information.

Note: International students must present a valid study permit approval letter and/or study permit to Student Services in the Faculty of Social Work prior to the start of the program. They also must have a valid work permit for their practica (Social Work 663 and/or the optional Social Work 660) in Canada. The work permit must be presented to the Field Education Office in the Faculty of Social Work prior to the start of the practicum.

## Admissions

### Program Admissions Information

For application deadlines, see the Future Students webpage: <http://ucalgary.ca/future-students/graduate/explore-programs/social-work-master-social-work-thesis-based>.

---

In addition to Faculty of Graduate Studies requirements for [admission](#), the Faculty of Social Work requires:

a) A Bachelor of Social Work (BSW) degree\* or a four-year bachelor's degree from another discipline. The undergraduate degree must be awarded prior to the start of the MSW program and must be from a recognized/accredited post-secondary institution.

*\*The Faculty of Social Work recognizes BSW and BISW degrees accredited by the Canadian Association for Social Work Education (CASWE), the Council on Social Work Education (CSWE) and international credentials deemed equivalent to a Canadian BSW degree by the Canadian Association of Social Workers (CASW).*

b) A minimum GPA of 3.00 (on the University of Calgary four-point system). This is based on the last two-years of the undergraduate degree consisting of a minimum of 60 units.

c) The equivalent of two years of full-time paid work or a minimum of 3000 hours of paid and/or volunteer work in the human services field.

d) A program proposal outlining the applicant's social work perspectives and educational goals.

e) A thesis proposal providing a rationale for selecting the thesis route and a preliminary research proposal describing the research problem to be investigated and the proposed research methodologies (e.g., quantitative, qualitative, mixed methods, participatory action research, arts-based, etc.), and the study's potential contribution to social work research and practice. Students applying to the thesis route are strongly encouraged to discuss this option with the PhD/MSW Thesis Program Coordinator.

f) For applicants required to present proof of proficiency in English, a minimum TOEFL score of 97 (Internet-based test with no

section less than 20); IELTS score of 7.0 (Academic version with no section less than 6.0); a CAEL score of 70 (70 in writing and speaking; 60 in reading and listening); or a PTE with a minimum score of 68 (Academic version). This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in academic writing and oral communication courses and B+ in other courses.

g) Two references, one academic and one professional. Applicants unable to provide an academic reference are advised to submit a second professional reference and provide a rationale in the application.

**Note:** MSW applicants are allowed to apply to only one program location and one specialization. Once admitted, students are not permitted to switch specializations and/or topics within their chosen specialization. Requests to defer an offer of admission are not normally considered.

Participation in student orientation sessions held prior to the start of the program is mandatory for incoming students.

Access to an electronic device, such as a tablet or computer, is necessary.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to Faculty of Graduate Studies **requirements**, the Faculty of Social Work requires:

**For students with a bachelor's degree in a discipline other than social work:**

Nine foundation courses (27 units), as follows:

**Complete ALL of the following Course Sets:**

- MSW Foundation Courses

The foundational practicum course requires students to complete a minimum of 450 placement hours in the Winter semester of their first year. Practicum hours are typically completed in-person, during regular business hours and close to the student's home community, anywhere in Canada.

\*Foundation students in the thesis-based MSW are not eligible for credit by special assessment.

Foundation courses must be completed before students advance to specialization-specific courses and the two research courses (Social Work 670 and 672).

In addition to Faculty of Graduate Studies **requirements**, the Faculty of Social Work requires:

**For Students with a BSW or completed foundation courses:**

A total of 30 units of coursework. The coursework consists of:

a) 12 units of Advanced Social Work Practice courses;

b) 12 units of specialization courses (topics may vary from year to year and by location);

- Within the ICD specialization, there are two topic areas. Each consists of 12 units (four courses) which address a particular subject within the broader field of International and Community Development. Students must complete all four courses in the selected topic area.

c) 6 units of research courses.

**Complete ALL of the following Course Sets:**

- Advanced Social Work Practice Courses (ASWP)
- Social Work, ICD Specialization, International Social Development  
**OR** Social Work, ICD Specialization, Community Development
- Social Work, MSW, Research Courses

**Note:** The four courses in ASWP and in each specialization topic are offered in a prescribed sequence and deviation from the curriculum plan is not normally allowed. Please note that not all specialization topics are offered every year. Students should consult the timetables and program curriculum plans located on the web for sequence and availability of specialization topics: [socialwork.ucalgary.ca](http://socialwork.ucalgary.ca).

All four ASWP courses and all four specialization courses are prerequisites to Social Work 670 and 672 (research courses).

#### **Additional Comments:**

Students may elect to complete [SOWK660 Advanced Practicum](#) Advanced Practicum, but it is not a mandatory component of the thesis-based degree. Students who wish to complete Social Work 660 must have completed all the ASWP, specialization and research courses and must declare their intention to pursue a Practicum in writing to the Director of Field Education by March 1st of their final year of coursework (6-8 months prior to the expected start of the Practicum). The Integrative Seminar (Social Work 662) is for course-based MSW students only.

#### **Transfer to a Course-based MSW**

Normally students who begin the MSW thesis program and then want to switch to the course-based MSW may be able to do so prior to beginning the thesis research courses and at least 8 months prior to the start of Advanced Practicum.

#### **Additional Program Information**

##### **Type**

Completion Requirement

#### **Additional Comments:**

### **Advanced Credit**

[Advanced Credit](#) is not normally granted for the Master of Social Work degree.

### **Flexible Grade Option (CG Grade)**

The Faculty of Social Work Master of Social Work thesis-based program will allow students to pursue the [Flexible Grade Option \(CG Grade\)](#) in graduate courses offered by the faculty, with the exception of [SOWK633 Foundational Field Practicum](#), [SOWK660 Advanced Practicum](#), [SOWK670 Adv Method Epistemology SOWK](#) and [SOWK672 Thesis Research Development](#).

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### **Concurrent Program Enrolment**

Students in this program may not concurrently pursue a certificate, diploma or the final step of a ladder pathway Master's degree as outlined in section [G.D.1.3 Concurrent Program Enrolment](#).

### **Withdrawal**

Students who are required to withdraw from the program for academic reasons will not be subsequently admitted to any graduate program offered by the Faculty of Social Work.

### **Credit for Undergraduate Courses**

Credit for undergraduate courses will not be awarded.

### **Time Limit**

Expected completion time is three years for BSW graduates and four years for students with a non-BSW degree.

As established by the Faculty of Graduate Studies (see [Time Limits](#)), maximum completion time is four years for a thesis-based MSW (for both BSW degree holders and non-BSW degree holders).

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

For incoming MSW thesis students, the PhD/MSW Thesis Coordinator will act as the interim supervisor. Before the end of April of the first year, each student must designate a faculty member as permanent supervisor. MSW thesis students will work with their supervisors to determine if a co-supervisor and/or supervisory thesis committee is preferred. This decision should be made prior to start of Social Work 670. The arrangement must be approved by the Graduate Program Director.

Within the first two months of working together, MSW thesis students and their interim and/or permanent supervisors are required to complete and submit to Student Services in the Faculty of Social Work the signed Student-Supervisor checklist and the Intellectual Property checklist. These become part of the student's permanent record. If a change occurs in supervision, a new Student-Supervisor checklist must be completed, signed and submitted to Student Services within two months of the change.

## Research Proposal Requirements

Students must have proposal approved by their supervisor and/or committee (if appropriate). A copy of the proposal becomes part of the student's record with the Faculty of Social Work. Once the proposal has been approved, students can proceed with applying for ethics certification.

## Required Examinations

### MSW Thesis Examination

The final examination for the thesis-based MSW involves an oral defence of the thesis. The thesis examination is conducted by the student's examining committee, which must be declared at least one month before the oral examination.

In addition to the Faculty of Graduate Studies regulations for [Thesis Examinations](#), the program requires the following MSW examining committee composition:

- thesis supervisor, and, if applicable, co-supervisor/supervisory thesis committee,
- a faculty member from the Faculty of Social Work, and
- an Internal Examiner (external to the Faculty of Social Work).

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see [Awards and Financial Assistance](#) for Graduate Students, the Graduate Awards [Database](#), and consult with the Student Services Office in the Faculty of Social Work.

## Overview

### General Program Information

Normally, combined degree programs must be completed full-time during the day.

Location: Mathison Hall, Room 424

MBA Program: 403.220.3808

# UCalgary

Fax: 403.282.0095

Email address: <mailto:mbarequest@haskayne.ucalgary.ca>

Web page URL: <https://haskayne.ucalgary.ca/future-students/mba/combined>

## Admissions

### Program Admissions Information

Admission deadlines are available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/management-master-business-administration-course-based>.

An applicant to a combined MBA program must meet the admission requirements of the MBA program, and make a separate application for admission to the other program. The respective Combined Program Committee will review each application.

Please note that receiving admission to both individual programs does not guarantee admission to the combined program.

For MBA admission requirements, see **Master of**.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

A student admitted to the combined JD/MBA program spends the first year doing core studies in one program and the second year doing core studies in the other program. The remaining years in the program combine Law and Business courses in a way that will allow the achievement of both degrees in four rather than five years. Course requirements include:

a) MBA courses (45 units):

**Complete ALL of the following Requirement Sets:**

- MBA Required Courses

plus:

- one elective course (3 units) in the student's area of interest.

b) Law courses (83 units):

**Complete ALL of the following Requirement Sets:**

- JD/MBA Law Courses

plus:

- a minimum of eight 3-unit electives.

#### Additional Comments:

Attendance at an orientation session is mandatory for all incoming students in all MBA program options.

#### Additional Program Information

##### Type

##### Completion Requirement

#### Additional Comments:

## Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process to the MBA program. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

## Flexible Grade Option (CG Grade)

Students admitted to a combined MBA program will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any MBA course that is applicable to their degree; or apply any course awarded a grade of CG towards their MBA graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Time Limit

MBA: six years

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, please see the [Awards and Financial Assistance](#) section of this Calendar.

All admitted full-time MBA students will be automatically considered for Business scholarships.

## Overview

### General Program Information

The JD/MPP program is normally restricted to full-time study. It allows students to obtain both degrees in a significantly shorter time frame than if they are taken separately.

Email address: <mailto:mpp@ucalgary.ca>

Web page URL: <https://spp.ucalgary.ca> and <https://law.ucalgary.ca/future-students/our-jd-programs/joint-jd-programs#jd-mpp>

## Admissions

### Program Admissions Information

Deadline for the submission of completed applications: <http://www.ucalgary.ca/future-students/graduate/explore-programs/public-policy-master-public-policy-course-based>.

Students must meet the [admission](#) requirements for the Faculty of Graduate Studies and those for the JD and MPP programs. Please consult the JD Student Services Coordinator or the MPP Office for more information.

A separate application for the MPP and for the JD is required for the combined JD/MPP program. See [deadlines for each program](#).

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the Faculty of Graduate Studies [requirements](#), the School of Public Policy requires that all students complete the following:

33 units consisting of:

a) Ten core courses:

**Complete ALL of the following Course Sets:**

- Core MPP Courses

b) A total of six units of electives. This can include [PPOL699 Topics in Public Policy](#) or other graduate-level coursework approved by the Graduate Program Director. The two elective courses should be related in such a way that they form a focus in an area of public policy.

#### Additional Comments:

### Combined JD/MPP

One three-unit [JD course](#) will be counted toward the MPP core requirements set out in (a) and one three-unit [JD course](#) will be counted toward the elective requirement set out in (b). All other requirements set out in (a)–(b) apply to students in the joint program.

Students will normally complete all of the first-year compulsory courses in Law in the first year of their program and all MPP courses including [PPOL620 Capstone Preparation](#) and [PPOL623 Capstone Project](#) (capstone) in year two. In their third year, they complete their [JD courses](#). Please consult the MPP or the JD Office for more information.

### Copyediting

The School of Public Policy does not allow copyediting on students' work.

#### Additional Program Information

##### Type

##### Completion Requirement

#### Additional Comments:

### Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process. Credit will not normally be given for course work taken as part of another completed degree/diploma. If graduate-level courses are taken as post-BA courses and not used as credit towards another degree, the School may allow the student to claim up to 6 units at our graduate level towards the MPP requirements should the student be admitted into the MPP program.

### Flexible Grade Option (CG Grade)

Students admitted to the Master of Public Policy program will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade in a course taken extra-to-load.

The use of the CG grade will affect students' ability for internal awards.

## Credit for Undergraduate Courses

No credit will be given for courses taken below the 600-level, except in special cases.

## Time Limit

Maximum completion time for the MPP is four years.

## Supervisory Assignments and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

All MPP students in the program will be guided by faculty holding appointments to the School.

## Required Examinations

No additional examinations outside of the courses are required.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Students admitted to the MPP program will automatically be considered for financial awards from the School. For information on awards, see the [website](#) for the School and the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

#### Specialization:

- Applied Exercise Physiology

The Master of Kinesiology (MKin) is a course-based program specializing in Applied Exercise Physiology. This program is designed for continuous full-time enrolment and does not have a scheduled break.

Location: Kinesiology B, Room 139B

Program number: 403.220.5183

Email address: <mailto:knesgrad@ucalgary.ca>

Web page URL: <https://kinesiology.ucalgary.ca/future-students/graduates>

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students webpage: <http://www.ucalgary.ca/future-students/graduate/explore-programs/kinesiology-master-kinesiology-course-based>.

In addition to Faculty of Graduate Studies [admission](#) requirements, the Faculty of Kinesiology requires:

The following are the minimum requirements for applying to the program. Please note, normally applicants with higher GPAs are selected for admission to the program.

- a) A minimum grade of "B" or 3.00 in each of the following undergraduate prerequisite courses or equivalents: Anatomy, Exercise Physiology, Biomechanics, Exercise/Sport Psychology and Statistics.
- b) A minimum admission GPA of 3.00 or higher on a four-point scale over the last 60 units and/or two years of study in Kinesiology or an appropriate academic background for the area of specialization.
- c) A demonstrated ability to be self-motivated and capable of independent study as shown in undergraduate studies, volunteer work and/or work experience in exercise science areas will be considered.
- d) Two reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Kinesiology requires:

- a) a total of 33 units at the graduate level:

**Complete ALL of the following Course Sets:**

- Master of Kinesiology, Course-based

Students may elect to complete **KNES698 Practicum IV** to extend their practicum experiences.

- b) A final applied project is considered the capstone event. This will be undertaken in conjunction with Kinesiology 618, 620 and 621.

#### Additional Comments:

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

Advanced credit will be limited to 12 units with a grade of "B" or higher for students admitted to the Master of Kinesiology program. The student must request [advanced credit](#) in writing at the time of application for admission to the Faculty of Kinesiology.

### Flexible Grade Option (CG Grade)

The Faculty of Kinesiology will allow students in the Master of Kinesiology program to pursue the Flexible Grade Option (CG Grade) with the exception of Kinesiology 609, 610, and 611.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Graduate credit may be granted for courses offered at the 500 level at the discretion of the Associate Dean (Graduate).

### Time Limit

Expected completion time is 16 months commencing in September. Maximum completion time is six years.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

MKin students may apply for Graduate Assistantship (Teaching) positions.

## Overview

### General Program Information

#### Specializations:

- Biomechanics
- Exercise and Health Physiology
- Health, Exercise and Sport Psychology
- Innovation in Pedagogy and Sport Performance
- Neuro-Motor Psychology and Motor Learning
- Nutrition, Metabolism and Genetics
- Rehabilitation
- Sociocultural Aspects of Sport and Physical Activity
- Sport Medicine
- Wearable T

Location: Kinesiology B, Room 139B

Program number: 403.220.5183

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students webpage: <http://ucalgary.ca/future-students/graduate/explore-programs/kinesiology-master-science-thesis-based>.

In addition to Faculty of Graduate Studies admission requirements, the Faculty of Kinesiology requires the following:

- a) Consent for supervision from an approved Faculty Member in Kinesiology.
- b) An appropriate academic background for the area of specialization.
- c) A minimum GPA of 3.00 or higher on a four-point scale over the last 60 units and/or last two years of study.
- d) Two reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

#### Type

#### Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Kinesiology requires:

- a) One graduate-level course (3 units) in analysis, such as [KNES609 Stat Techniques in KNES](#) or [KNES610 Qualitative Research Analysis](#).
- b) One graduate-level course (3 units) in research design, such as [KNES611 Res Methods in Knesiology](#).

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Flexible Grade Option (CG Grade)

The Faculty of Kinesiology will not permit the [Flexible Grade Option \(CG Grade\)](#) for students enrolled in the Master of Science and Doctor of Philosophy degrees.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Graduate credit may be granted for courses offered at the 500 level at the discretion of the Associate Dean (Graduate).

### Time Limit

Expected completion time is two years. Maximum completion time is four years.

#### Supervisory Assignments, Research Proposal and Required Examinations

##### Type

Completion Requirement

##### Additional Comments:

### Supervisory Assignments

Supervisor(s) must be identified at the time of admission for thesis-based programs. Within six months of admission, the student and supervisor(s) must select a supervisory committee according to the Faculty of Graduate Studies' procedures. The composition of the supervisory committee must be approved by the Associate Dean (Graduate).

### Research Proposal Requirements

Students whose research involves human subjects must receive approval from the University of Calgary Conjoint Health Research Ethics Board before beginning data collection. Research with animals must receive approval from a University Animal Care Committee.

All Master of Science students must present a research proposal to their supervisory committee prior to commencing data collection. The proposal must include the objectives and methodology of the proposed research program as well as the expected contributions to the field. The supervisory committee must approve the thesis proposal before it is submitted to the Faculty of Kinesiology, Associate Dean (Graduate).

### Required Examinations

In addition to the Faculty of Graduate Studies requirements, the Faculty of Kinesiology requires:

### Thesis Examinations

Thesis Oral Examinations are administered according to the Faculty of Graduate Studies' procedures and are open examinations.

#### *Composition of the Committee*

The Internal Examiner must be external to the home program.

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

Prior to a doctoral or a Master's thesis oral examination being scheduled, the following program requirements must be met:

The student must provide a relevant written sample of their research which is comprised of the following:

- a) Table of Contents from the thesis;
- b) Thesis chapter or manuscript (prepared, submitted, accepted) for publication. In cases where a thesis chapter may consist of a literature review, it must be from the thesis and not the research proposal.

The supervisor must schedule a supervisory committee meeting where the student will present their results to the supervisory committee. The meeting may take place in person, via tele- or videoconference, or as a discussion via email. The supervisor and supervisory committee members must unanimously:

- a) agree the student has conducted sufficient work on their research project;
- b) approve the relevant written sample of research;
- c) approve the student to write their thesis and schedule a Thesis Oral Examination.

A final copy of supervisory committee meeting minutes (or relevant emails) must be submitted to the Graduate Program Office confirming that the above requirements have been met. Thesis examinations will not be approved by the Associate Dean (Graduate) until these are received.

## **Financial Assistance**

### **Type**

Completion Requirement

### **Additional Comments:**

Students in thesis-based graduate programs will receive a graduate stipend as outlined in the Kinesiology funding policy and can be found at <https://kinesiology.ucalgary.ca/future-students/graduates/fees-funding>.

Thesis students are expected to apply to external agencies for financial support from scholarships or studentship awards and for University of Calgary Scholarships (see [Awards and Financial Assistance](#) section of this Calendar). Possible sources of financial support are listed on the Faculty of Graduate Studies website: [grad.ucalgary.ca/awards](http://grad.ucalgary.ca/awards). For information on other awards, please contact the Faculty of Kinesiology Graduate Program.

## Overview

### General Program Information

The MSW Laddered Pathway is designed for BSW graduates.

Students entering the course-based MSW through the laddered pathway must apply to and complete the [GCERT Adva](#) (12 units) and apply to and complete one of the certificates: [GCERT Clin](#), [GCERT Inte](#), or [Social Wor](#) (12 units) in any order. Admission to the MSW program is not guaranteed. Upon acceptance to the MSW, students complete the final component (12 units) of this full-time degree.

The course-based MSW is a continuous full-time program with no scheduled break. Students who do not enroll in courses continuously will be withdrawn from the program for failure to register unless they are on an approved leave of absence.

### Program Delivery

The final courses are offered by distance (online) learning with required virtual and/or in-person campus residencies in Calgary. Failure to attend residencies may result in a student being withdrawn from the course(s) or program. Please consult the [website](#) for specific program delivery information.

Note: International students must present a valid study permit approval letter and/or study permit and a valid work permit for their practica in Canada. The valid study permit must be presented to Student Services prior to the program start and the valid work permit must be presented to the Field Education Office in the Faculty of Social Work prior to the start of the practicum.

Email Address: <mailto:fsw.studentservices@ucalgary.ca>

Web page URL: <https://socialwork.ucalgary.ca/>

## Admissions

### Program Admissions Information

For application deadlines, see the Future Students webpage: <https://grad.ucalgary.ca/future-students/explore-programs/social-work-msw-course>.

In addition to the [admission](#) requirements of the Faculty of Graduate Studies, the Faculty of Social Work requires:

a) A Bachelor of Social Work (BSW) degree from an accredited/recognized institution\* with a minimum grade point average of 3.00 on a four-point scale.

*\*The Faculty of Social Work recognizes BSW and BSW degrees accredited by the Canadian Association for Social Work Education (CASWE), the Council on Social Work Education (CSWE) and international credentials deemed equivalent to a Canadian BSW degree by the Canadian Association of Social Workers (CASW).*

b) Completion of two graduate certificates: Certificate in Advanced Social Work Practice and one of the certificates in Clinical Social Work Practice, International and Community Development or Leadership in the Human Services, offered through the Faculty of Social Work.

c) The equivalent of two years of full-time paid work or a minimum of 3000 hours of paid and/or volunteer work in the human services field.

d) A program proposal outlining the applicant's social work perspectives and educational goals.

e) Two references, one academic and one professional. The academic reference must come from an instructor who taught the applicant in one of the Graduate Certificates.

Note: Students must apply to the course-based MSW degree within five years from the beginning of their first graduate certificate in Social Work. Requests to defer an offer of admission are not normally considered.

Access to an electronic device, such as a tablet or computer, is necessary.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Social Work requires:

Students entering the MSW through the ladder pathway are admitted to the Fall term and complete 12 units over the Fall and Winter terms:

##### Complete ALL of the following Course Sets:

- MSW, Field Practicum, Integrative Seminar, Research Applications and Exit Requirement (FIRE)

A student who fails or withdraws from a practicum course (Social Work 660 or 662) will fail or be required to withdraw from the co-requisite courses (Social Work 660 or 662). In addition, the student may be required to withdraw from the program.

For Social Work 660, students are required to complete a 500-hour practicum. Practicum hours are typically completed in-person, during regular business hours and close to the student's home community anywhere in Canada. International practicums may be an option for interested MSW students only in the International and Community Development specialization. This will be dependent on the location, scope of practice, timeframe, and supervision availability. Students may negotiate a part-time (20 hours per week minimum) or a full-time (40 hours per week maximum) practicum with the agency/supervisor and with approval of the Field Education Office.

At the same time, students will be required to complete Social Work 662 and attend all related online learning and in-person campus residencies in Calgary or Edmonton, and submit assignments in both Fall and Winter terms, regardless of their practicum schedule or timeline.

See [GCERT Adva](#), [GCERT Clin](#), [GCERT Inte](#), and [Social Wor](#) for more information.

#### Additional Comments:

#### Additional Program Information

**Type**

Completion Requirement

**Additional Comments:**

### Advanced Credit

Students entering the MSW through the laddered pathway receive credit for 24 units completed in the two certificate programs.

### Flexible Grade Option (CG Grade)

The Faculty of Social Work, Master of Social Work course-based program will allow students to pursue the **Flexible Grade Option (CG Grade)** in up to one graduate course offered by the faculty, with the exception of: **SOWK660 Advanced Practicum** and **SOWK662 Integrative Seminar**.

Students enrolled in the laddered pathway may only have a grade of CG for a total of 3 units throughout the entire laddered pathway.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Concurrent Program Enrolment

Students in this program may not concurrently pursue a certificate, diploma or the final step of a laddered pathway Master's degree as outlined in section **G.D.1.3 Concurrent Program Enrolment**.

### Withdrawal

Students who are required to withdraw from the program for academic reasons will not be subsequently admitted to any graduate program offered by the Faculty of Social Work.

### Credit for Undergraduate Courses

Credit for undergraduate courses will not be awarded.

### Time Limits

Expected completion time in the MSW Laddering Pathway is three years (all three stages). The maximum completion time for all laddered credentials is six years from the start of the first credential in the laddering process.

**Financial Assistance**

**Type**

Completion Requirement

**Additional Comments:**

Financial assistance may be available to qualified students. For information on awards, see **Awards and Financial Assistance** for Graduate Students, the Graduate Awards **Database**, and consult with the Student Services Office in the Faculty of Social Work.

## Overview

### General Program Information

Attaining an LLM degree without a Canadian LLB degree will not qualify graduates to practice law in Canada. Inquiries on this issue must be addressed to the appropriate provincial governing body for the legal profession. In Alberta, contact the Law Society of Alberta or the National Committee on Accreditation of the Federation of Law Societies of Canada.

# UCalgary

Master of Laws (LLM), course-based with major research project

## Specialization:

- Natural Resources, Energy and Environmental Law

LLM Students may elect not to have an area of specialization.

---

The course-based LLM program is available for full-time or part-time enrolment.

---

Location: Murray Fraser Hall

Program number: 403.210.8718

Fax: 403.210.9662

Email address: <mailto:law@ucalgary.ca>

Web page URL: <https://law.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadlines for submission of completed applications are available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/law-master-laws-course-based>.

---

In addition to the **admission requirements** of the Faculty of Graduate Studies, the Faculty of Law requires:

- Ordinarily, a JD, LLB or equivalent degree in Law.
- For applicants required to provide proof of proficiency in English, a minimum TOEFL Internet-based score of 97, with a minimum of 25 on the reading and writing components; or the minimum IELTS overall band score of 7.0, with a reading and writing band minimum of 7.0; or a CAEL score of 70, with a minimum of 70 on reading and writing components; or a PTE score of 68. This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in the Academic Writing and Composition course, a minimum grade of "A-" in the Research Writing and Form course, and a minimum grade of "B+" in other courses.
- LLM program applicants must submit a brief statement of their proposed thesis or major paper, and applicants to the thesis-based program must also indicate their proposed supervisor. Details are available from the Faculty. For applicants interested in the specialization in Natural Resources, Energy, and Environmental Law, the proposal must be in this area.
- LLM program applicants must submit a writing sample.
- Two reference letters.
- An up-to-date curriculum vitae.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies **requirements**, the Faculty of Law requires:

- LAW703 Grad Sem Legal Res & Method**. Students must receive a passing grade in this course to advance in the program.
- 15 units of elective courses as follows:

### LLM with specialization in Natural Resources, Energy or Environmental Law:

15 units of elective courses at the 500 level or higher in the areas of natural resources, energy and environmental law or in graduate-level courses in a related area or discipline, approved by the Graduate Program Director.

- At least 6 units must be law courses at 600 level or higher.
- At least 6 units must be from law courses that include a research paper evaluation worth at least 50 percent of the course grade.
- 3 of these units may be [LAW705 Grad Seminar Legal Theory](#).

### LLM without a specialization:

15 units of elective law courses at the 500 level or higher, or in graduate-level courses in a related area or discipline, approved by the Graduate Program Director.

- No more than 3 units may be taken outside of the Faculty of Law; any course taken outside the Faculty of Law must be approved by the Graduate Program Director.
- At least 6 units must be law courses at 600 level or higher.
- At least 6 units must be from law courses that include a research paper evaluation worth at least 50 percent of the course grade.

c) [LAW707 Major Research Paper I](#) and [LAW708 Major Research Paper II](#): A major research paper, approximately 50 to 60 pages (15,000–18,000 words) in length, evaluated on a Pass/Fail basis by the instructor and a second reader appointed by the Graduate Program Director. Students enrolled in the specialization in Natural Resources, Energy and Environmental Law must complete their major papers in this area.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make [advanced credit](#) requests as part of the admission process. On a case-by-case basis, advanced credit toward an LLM or PhD program may be given for courses completed in a graduate program within the Faculty of Law or another recognized institution. Courses for which advanced credit is being sought must not have been used for any previously completed degree/diploma/certificate credential.

### Flexible Grade Option (CG Grade)

The Faculty of Law will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the Faculty.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Certain JD courses are eligible for credit toward the LLM program.

### Time Limit

All requirements for the course-based LLM degree must be completed within five years of initial registration. It is expected that full-time students will complete the program in 16 months.

#### Financial Assistance

##### Type

Completion Requirement

## Additional Comments:

Financial assistance may be available to qualified students, although funding for course-based LLM and Graduate Certificate students will very rarely be provided. For information on awards, see the [Awards and Financial Assistance](#) section of this calendar or the Faculty of Law Calendar or [website](#).

Students applying for scholarships must submit their scholarship applications to the Faculty of Law by the deadlines for completed admission applications.

## Overview

### General Program Information

Attaining an LLM degree without a Canadian LLB degree will not qualify graduates to practice law in Canada. Inquiries on this issue must be addressed to the appropriate provincial governing body for the legal profession. In Alberta, contact the Law Society of Alberta or the National Committee on Accreditation of the Federation of Law Societies of Canada.

### Specializations:

- Natural Resources, Energy and Environmental Law
- Energy and Environmental Systems (EESS-G-SPC - Missing program)

Location: Murray Fraser Hall

Program number: 403.210.8718

Fax: 403.210.9662

Email address: <mailto:law@ucalgary.ca>

Web page URL: <https://law.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadlines for submission of completed applications are available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/law-master-laws-thesis-based>.

In addition to the [admission](#) requirements of the Faculty of Graduate Studies, the Faculty of Law requires:

- Ordinarily, a JD, LLB or equivalent degree in Law.
- For applicants required to provide proof of proficiency in English, a minimum TOEFL Internet-based score of 97, with a minimum of 25 on the reading and writing components; or the minimum IELTS overall band score of 7.0, with a reading and writing band minimum of 7.0; or a CAEL score of 70, with a minimum of 70 on reading and writing components; or a PTE score of 68. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in the Academic Writing and Composition course, a minimum grade of "A-" in the Research Writing and Form course, and a minimum grade of "B+" in other courses.
- LLM program applicants must submit a brief statement of their proposed thesis or major paper, and applicants to the thesis-based program must also indicate their proposed supervisor. Details are available from the Faculty. For applicants interested in the specialization in Natural Resources, Energy, and Environmental Law, the proposal must be in this area.
- LLM program applicants must submit a writing sample.
- Two reference letters.
- An up-to-date curriculum vitae.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Law requires:

a) [LAW703 Grad Sem Legal Res & Method](#). Students must receive a passing grade in this course to advance in the program.

b) [LAW705 Grad Seminar Legal Theory](#).

c) At least two additional 600-level courses (6 units) approved by the Graduate Program Director. For students in the specialization in Natural Resources, Energy and Environmental Law, the courses should be in the areas of natural resources, energy or environmental law or in a related area or from a related discipline with the approval of the Graduate Program Director.

d) A substantial research thesis, approximately 100 to 125 pages (30,000-38,000 words) in length, exclusive of the bibliography, prepared under the supervision of a faculty member or other suitable person appointed by the Graduate Program Director. For students in the specialization in Natural resources, Energy and Environmental Law, the thesis must be on a topic in that subject area.

e) Two terms in residence, normally consecutive and normally from September to April. Students usually require at least 15 to 18 months from initial registration for thesis completion and defence.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Certain JD courses are eligible for credit toward the LLM program.

### Time Limit

All requirements for the thesis-based LLM degree must be completed within three calendar years of initial registration.

#### Supervisory Assignments and Required Examinations

##### Type

Completion Requirement

##### Additional Comments:

## Supervisory Assignments

Contact the Faculty of Law Graduate Program Director for information.

## Thesis Examination

In addition to the Faculty of Graduate Studies regulations for [thesis examinations](#), the program requires:

Thesis examinations are open.

### *Scheduling of the Examination*

All members of the Supervisory Committee (where applicable), must have reviewed the student's draft thesis document before an examination can be scheduled.

### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students, although funding for course-based LLM students will very rarely be provided. For information on awards, see the [Awards and Financial Assistance](#) section of this calendar or the Faculty of Law Calendar or [website](#).

Students applying for scholarships must submit their scholarship applications to the Faculty of Law by the deadlines for completed admission applications.

## Admissions

### Program Admissions Information

Deadlines for submission of completed applications are available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/law-phd>.

In addition to the [admission](#) requirements of the Faculty of Graduate Studies, the Faculty of Law requires:

- Completion of an undergraduate degree in Law (e.g. JD or LLB), normally with a minimum grade point average of 3.30 on a 4.0-point scale.
- Completion of a Master's degree in Law or other appropriate and relevant Master's, with a minimum grade point average of 3.00. The typical successful applicant will have a GPA of at least 3.7 on a 4.0-point scale.
- For applicants required to provide proof of proficiency in English, a minimum TOEFL Internet-based score of 97, with a minimum of 25 on the reading and writing components; or a minimum IELTS overall band score of 7.0, with a reading and writing

band minimum of 7.0; or a PTE score of 68; or a CAEL overall score of 70, with a minimum score of 70 on writing and reading sections. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in the Academic Writing and Composition course, a minimum grade of "A-" in the Research Writing and Form course, and a minimum grade of "B+" in other courses.

d) Two reference letters, ordinarily academic. At least one reference letter should be written by someone who has worked with the applicant at the Master's level and who is well familiar with the student's past work and research proposal.

e) An indication of possible supervisors.

f) A writing sample.

g) A 10-page statement describing the applicant's research interests and proposing a dissertation project.

h) An up-to-date curriculum vitae.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Law requires students to complete:

a) [LAW703 Grad Sem Legal Res & Method](#).

b) [LAW705 Grad Seminar Legal Theory](#).

c) [LAW709 Special Topics in Law](#).

d) Additional coursework as may be required by the supervisor in consultation with the Graduate Program Director. Students may be required to carry out advanced coursework in the area of their thesis, or in a cognate area of law, or in a discipline other than law which is relevant to their thesis topic.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make [advanced credit](#) requests as part of the admission process. On a case-by-case basis, advanced credit toward an LLM or PhD program may be given for courses completed in a graduate program within the Faculty of Law or another recognized institution. Courses for which advanced credit is being sought must not have been used for any previously completed degree/diploma/certificate credential.

### Flexible Grade Option (CG Grade)

The Faculty of Law will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the Faculty.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Credit will be given for additional coursework required by the supervisor in consultation with the Graduate Program Director. Such coursework may include upper-level undergraduate courses as appropriate.

## Time Limit

Students are expected to complete all requirements for the PhD in four years. Maximum time to completion is six years.

## Supervisory Assignments and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

Prospective students are required to identify possible supervisors as part of the application process. Supervisors will be determined on the basis of consultations among the student, the potential supervisor(s) and the Graduate Program Director. An interim supervisor will be assigned during the admissions process, and the supervisor and supervisory committee will be established within twelve months of the student entering the program.

## Required Examinations

In addition to the Faculty of Graduate Studies regulations for [candidacy](#) and [thesis examinations](#), the program requires:

### Candidacy

Advancing to candidacy requires the successful completion of a) all coursework; b) an original thesis proposal; and c) a field of study examination with written and oral components.

### Thesis Examination

Thesis examinations are open.

#### *Scheduling of the Examination*

Before an examination can be scheduled, all members of the supervisory committee must have reviewed the student's research, including a relevant written sample of the material related to the thesis, or the draft thesis document, and have provided written consent that the examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance will be available to qualified students in accordance with the Faculty of Law Graduate Student Funding Policy. See the [Awards and Financial Assistance](#) section of this calendar, the [Graduate Awards Database](#), and the Faculty of Law [website](#).

## Overview

### General Program Information

#### Laddering from Graduate Certificate to Graduate Diploma

Students who complete the Graduate Certificate in Leadership in Engineering and Advanced Practice may receive credit for the 12 units of coursework completed in the certificate program, if they are subsequently accepted to the Graduate Diploma in Leadership in Engineering and Advanced Practice program.

### MEng Graduate Program Office

# UCalgary

Location: Schulich School of Engineering Block C, Room 205

Phone number: 403.220.2001

Email address: <mailto:meng@ucalgary.ca>

## Admissions

### Program Admissions Information

Deadlines are available on the Future Students webpage at <https://ucalgary.ca/future-students/graduate/explore-programs>.

Students who wish to use the certificate as a pathway to "ladder" into Graduate Diploma in Leadership in Engineering and Advanced Practice must apply at each stage and upon successful completion of each program receive a credential.

In addition to the Faculty of Graduate Studies' admission requirements, all applicants must meet the following requirements:

- a) A BSc in Engineering or equivalent.
- b) A minimum GPA of 3.00 (on the University of Calgary four-point system) calculated on the most recent 60 units of completed course work.
- c) Holders of BSc or equivalent degrees in Science, Medicine or Kinesiology, if accepted, may be required to take additional senior undergraduate engineering courses. These courses will not be counted for credit toward their graduate program. Holders of bachelor's degrees from disciplines other than Engineering, Science, Medicine or Kinesiology are required to complete a minimum of 30 units undergraduate engineering courses with a minimum GPA of 3.00 on a four-point scale before admission.
- d) Two reference letters.
- e) Minimum of three years of work experience in engineering or a closely related field.
- f) Resume or CV.

In exceptional circumstances, students who do not meet the entrance requirements (but have BSc degrees in the same or equivalent Engineering discipline and a GPA of at least 2.70) may be considered for admission after upgrading requirements have been met. Upgrading requirements include a minimum of 18 units of coursework with a minimum grade of 3.00 on a 4.0-point scale in each course. At least 6 units of these courses will be at the graduate level. Upgrading courses will be prescribed by the Associate Dean (Graduate Studies) or designate in those instances where they are required.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

The Graduate Certificate requires 12 units of coursework:

- 6 units of core professional and leadership courses:
  - Engineering Leadership 601
  - Engineering Leadership 603
- Plus 6 units of technical courses from one thematic area.\*

*\*Note: students will not be permitted to combine technical courses across themes; both technical courses for the certificate program and for the diploma program must be within a single theme. Students may not take the same thematic area courses in the Graduate Certificate and the Graduate Diploma. However, if a thematic/technical area has more than one theme (e.g. Power System Engineering, Project Management), then students could complete one theme in the certificate program, and the other theme in the diploma program.*

#### **Thematic areas**

##### **Sustainable Development and Environmental Engineering thematic area**

- Engineering Leadership 619; and
- Engineering Leadership 620

##### **Climate Change and Mitigation thematic area**

- Engineering Leadership 621; and
- Engineering Leadership 622

##### **Power System Engineering thematic areas**

###### *Theme 1*

- Engineering Leadership 623; and
- Engineering Leadership 624

###### *Theme 2*

- Engineering Leadership 625; and
- Engineering Leadership 626

## Supervisory Assignments

A Coordinator is assigned to each cohort in the Graduate Diploma.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance is not generally available to students in the Graduate Diploma in Leadership in Engineering and Advanced Practice.

## Overview

### General Program Information

**Graduate Certificates in Social Work** serve as stand-alone credentials for practicing social workers who seek formal professional development opportunities in their field or provide practicing social workers a flexible option to pursue the MSW degree.

Students may complete a given certificate only once. Repeating the same certificate is not permitted. Not all Graduate Certificates and specializations are offered every year. For availability, consult the Faculty of Social Work [website](#).

---

### Program Delivery

The certificates are completed full-time and courses are offered by distance (online) learning. Most require virtual and/or in-person residencies in Calgary or Edmonton. Failure to attend residencies may result in a student being withdrawn from the course(s) or program.

Note: International students admitted to a Graduate Certificate with a mandatory in-person campus residency must present a valid study permit approval letter and/or study permit to Student Services in the Faculty of Social Work prior to the start of the program.

---

### Specializations (LHS):

- Indigenous Ways of Knowing in Leadership
  - The Practical and Transformational Leader
- 

### Laddered Pathway from Graduate Certificates to MSW

Students who complete the Graduate Certificate in Leadership in the Human Services (LHS) and one of: [GCERT Adva](#), [GCERT Inte](#) or [GCERT Clin](#) may apply to the Master of Social Work (course-based) program. See [LADMSWCB](#).

---

Email Address: <mailto:fsw.studentservices@ucalgary.ca>

Web page URL: <https://socialwork.ucalgary.ca/>

---

## Admissions

### Program Admissions Information

Deadlines are available on the Future Students webpage: <https://grad.ucalgary.ca/future-students/explore-programs/social-work-cert>

Students who wish to complete two successive certificates through a laddered pathway into the MSW (course-based) degree must apply to each certificate and the MSW (a total of three applications) and will receive each credential upon its successful completion.

---

In addition to the Faculty of Graduate Studies' [admission](#) requirements, the Faculty of Social Work requires:

a) A Bachelor of Social Work (BSW) degree from an accredited/recognized\* institution. The degree must be awarded prior to the start of the Graduate Certificate.

*\*The Faculty of Social Work recognizes BSW and BISW degrees accredited by the Canadian Association for Social Work Education (CASWE), the Council of Social Work Education (CSWE), and international credentials deemed equivalent to a Canadian BSW degree by the Canadian Association of Social Workers (CASW).*

b) A minimum GPA of 3.00 (on the University of Calgary four-point system). This is based on the last two years of the undergraduate degree consisting of a minimum of 60 units.

c) The equivalent of two years of full-time paid work or a minimum of 3000 hours of paid and/or volunteer work in the human services field.

d) For applicants required to present proof of proficiency in English: a minimum TOEFL score of 97 (Internet-based test with no

section less than 20); IELTS score of 7.0 (Academic version with no section less than 6.0); a CAEL score of 70 (70 in writing and speaking; 60 in reading and listening); or a PTE with a minimum score of 68 (Academic version). This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in academic writing and oral communication courses and "B+" in other courses.

**Note:** Once admitted, students are not permitted to switch specializations within the chosen certificate. Requests to defer an offer of admission are not normally considered.

Access to an electronic device, such as a tablet or computer, is necessary.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Social Work requires:

The Graduate Certificate consists of 12 units of coursework. Course requirements are determined by the specialization.

**Complete ANY of the following Course Sets:**

- Social Work, LHS Certificate, The Practical and Transformational Leader Specialization
- Social Work, LHS Certificate, Indigenous Ways of Knowing in Leadership Specialization

#### Additional Comments:

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

Advanced credit is not awarded toward a graduate certificate.

### Flexible Grade Option (CG Grade)

The Faculty of Social Work will allow students in the Graduate Certificates in Social Work to pursue the **Flexible Grade Option (CG Grade)** for graduate courses offered by the Faculty. Students may receive a grade of CG only once, for a total of 3 units, regardless of the number of graduate certificates they complete. In addition, students may receive a grade of CG only once throughout the entire ladder pathway.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Concurrent Program Enrolment

Students in this program may not concurrently pursue a certificate, diploma or the final step of a ladder pathway Master's degree as outlined in section [G.D.1.3 Concurrent Program Enrolment](#).

### Withdrawal

Students who are required to withdraw from the program for academic reasons will not be subsequently admitted to any graduate program offered by the Faculty of Social Work.

## Time Limit

The expected completion time is eight months for any of the graduate certificates. Maximum completion time is two years.

Students taking graduate certificates as part of the laddered pathway to the MSW (course-based) degree program must apply to ladder into the MSW within five years from the start of their first graduate certificate in the ladder sequence.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Students enrolled in a Graduate Certificate in Social Work are not eligible for University of Calgary awards administered through the Graduate Awards Competition but may be eligible for program recommended awards. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

The Master of Social Work program is accredited by the Canadian Association of Social Work Education.

The objective of the Master of Social Work (MSW) program is to prepare students for advanced professional practice in social work. The course-based program is appropriate for students who intend to provide direct service in the field. This full-time program is available for both BSW graduates and graduates from other disciplines.

### Specializations:

- Leadership in the Human Services (LHS)
- [MSWC Inter](#)
- [MSWC Clini](#)

## Program Delivery

The MSW course-based program in all three specializations is offered by distance (online) learning with required virtual and in-person campus residencies in Calgary or Edmonton. Failure to attend residencies may result in a student being withdrawn from the course(s) or program.

The course-based MSW is a continuous, full-time program with no scheduled break. Students who do not enrol in courses continuously will be withdrawn from the program for failure to register unless they are an approved leave of absence.

Please consult the [website](#) for specific program delivery information.

Note: International students must present a valid study permit approval letter and/or study permit to Student Services in the Faculty of Social Work prior to the start of the program. They also must have a valid work permit for their practica (Social Work 663 and/or the optional Social Work 660) in Canada. The work permit must be presented to the Field Education Office in the Faculty of Social Work prior to the start of the practicum.

## Admissions

### Program Admissions Information

For application deadlines, see the Future Students webpage: <https://grad.ucalgary.ca/future-students/explore-programs/social-work-msw-course>.

In addition to Faculty of Graduate Studies requirements for [admission](#), the Faculty of Social Work requires:

a) A Bachelor of Social Work (BSW) degree\* or a four-year bachelor's degree from another discipline. The undergraduate degree must be awarded prior to the start of the MSW program and must be from a recognized post-secondary institution.

*\*The Faculty of Social Work recognizes BSW and BISW degrees accredited by the Canadian Association for Social Work Education (CASWE), the Council on Social Work Education (CSWE) and international credentials deemed equivalent to a Canadian BSW degree by the Canadian Association of Social Workers (CASW).*

b) A minimum GPA of 3.00 (on the University of Calgary four-point system). This is based on the last two-years of the undergraduate degree consisting of a minimum of 60 units.

c) The equivalent of two years of full-time paid work or a minimum of 3000 hours of paid and/or volunteer work in the human services field.

d) A program proposal outlining the applicant's social work perspectives and educational goals.

e) For applicants required to present proof of proficiency in English, a minimum TOEFL score of 97 (Internet-based test with no section less than 20); IELTS score of 7.0 (Academic version with no section less than 6.0); a CAEL score of 70 (70 in writing and speaking; 60 in reading and listening); or a PTE with a minimum score of 68 (Academic version). This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in academic writing and oral communication courses and "B+" in other courses.

f) Two references, one academic and one professional. Applicants unable to provide an academic reference are advised to submit a second professional reference and provide rationale in the application.

For those applying to the MSW through the MSW Laddering Pathway (upon completion of two specific Graduate Certificates), the academic reference must come from an instructor who taught the applicant in one of the Graduate Certificates.

MSW applicants are allowed to apply to only one program location and one specialization. Once admitted, students are not permitted to switch specializations and/or topics within their chosen specialization. Requests to defer an offer of admission are not normally considered.

Participation in Student Orientation sessions held prior to the start of the program is mandatory for students.

Access to an electronic device, such as a tablet or computer, is necessary.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to Faculty of Graduate Studies requirements, the Faculty of Social Work requires:

**For students with a bachelor's degree in a discipline other than social work.**

Nine foundation courses (27 units), as follows:

**Complete ALL of the following Course Sets:**

- MSW Foundation Courses

The foundational practicum course requires students to complete a minimum of 450 placement hours in the Winter semester of their first year. Practicum hours are typically completed in-person, during regular business hours and close to the student's home community, anywhere in Canada.

Foundation courses must be completed before students advance to Specialization specific courses and Advanced Practicum (Social Work 660 and 662).

In addition to Faculty of Graduate Studies requirements, the Faculty of Social Work requires:

**For students with a BSW or completed foundation courses:**

A total of 36 units of coursework, as follows:

- a) 12 units of Advanced Social Work Practice courses;
- b) 12 units of Specialization courses (topics may vary from year to year and by location);
  - Students must complete all 12 units of LHS specialization courses.
- c) 12 units of Field Practicum, Integrative Seminar, Research Applications and Exit Requirement (FIRE).
  - Students must be available to complete 500 hours of practicum. This represents a significant time commitment. Students must ensure that they are aware of field requirements, and available for field placements as scheduled, in order to complete their practicum within the appropriate term.
  - Practicum hours are typically completed in-person, during regular business hours and close to the student's home community anywhere in Canada. International practicums may be an option for interested MSW students only in the International and Community Development specialization in their Advanced Practicum. This will be dependent on the location, scope of practice, timeframe, and supervision availability.
  - A student who fails or withdraws from a practicum course (Social Work 660 or 662) will fail or be required to withdraw from the co-requisite courses (Social Work 660 or 662). In addition, the student may be required to withdraw from the program.

**Complete ALL of the following Course Sets:**

- Advanced Social Work Practice Courses (ASWP)
- Social Work, LHS Certificate, The Practical and Transformational Leader Specialization
- MSW, Field Practicum, Integrative Seminar, Research Applications and Exit Requirement (FIRE)

The four courses in ASWP and in each specialization topic are offered in a prescribed sequence and deviation from the curriculum plan is not normally allowed.

Please note that not all specialization topics are offered every year. Students should consult the timetables and program curriculum plans located on the web for sequence and availability of Specialization topics: <https://socialwork.ucalgary.ca/>.

#### **Additional Comments:**

##### **Transfer to a Thesis-Based MSW**

Note: Students who wish to transfer to the thesis-based MSW must submit their transfer request to Student Services by January 31 prior to the thesis research courses and/or advanced practicum. Students who transfer must comply with the requirements of the respective program. The program transfer must be approved by both the Faculty of Social Work and Faculty of Graduate Studies.

\*Course-based MSW students with a non-BSW degree who receive credit by special assessment (CSA) for the Foundational Field Practicum (Social Work 633) are not eligible to transfer to the thesis-based MSW.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

Advanced Credit is not normally granted for the Master of Social Work degree.

### Flexible Grade Option (CG Grade)

The Faculty of Social Work, Master of Social Work course-based program will allow students to pursue the Flexible Grade Option (CG Grade) in one graduate course offered by the faculty, with the exception of SOWK633 Foundational Field Practicum, SOWK660 Advanced Practicum and SOWK662 Integrative Seminar.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Concurrent Program Enrolment

Students in this program may not concurrently pursue a certificate, diploma or the final step of a ladder pathway Master's degree as outlined in section G.D.1.3 Concurrent Program Enrolment.

### Withdrawal

Students who are required to withdraw from the program for academic reasons will not be subsequently admitted to any graduate program offered by the Faculty of Social Work.

### Credit for Undergraduate Courses

Credit for undergraduate courses will not be awarded.

### Time Limits

Expected completion time is two years for BSW graduates and three years for students with a non-BSW degree.

As established by the Faculty of Graduate Studies (see Time Limits) maximum completion time is six years for a course-based MSW.

#### Financial Assistance

##### Type

Completion Requirement

##### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see Awards and Financial Assistance for Graduate Students, the Graduate Awards Database, and consult with the Student Services Office in the Faculty of Social Work.

## Overview

### General Program Information

The Master of Social Work program is accredited by the Canadian Association of Social Work Education.

The objective of the Master of Social Work (MSW) program is to prepare students for advanced professional practice in social work. The thesis-based route may be appropriate for students who intend to proceed to doctoral studies and/or anticipate a career requiring advanced program evaluation or research skills. This full-time program is available for both BSW graduates and

graduates from other disciplines.

---

## Specializations:

- Leadership in the Human Services (LHS)
- [MSWT Inter](#)
- [MSWT Clini](#)

---

## Program Delivery

The MSW thesis-based program in all three specializations is offered by distance (online) learning with required virtual and in-person campus residencies in Calgary or Edmonton. Failure to attend residencies may result in a student being withdrawn from the course(s) or program.

Please consult the [website](#) for specific program delivery information.

Note: International students must present a valid study permit approval letter and/or study permit to Student Services in the Faculty of Social Work prior to the start of the program. They also must have a valid work permit for their practica (Social Work 663 and/or the optional Social Work 660) in Canada. The work permit must be presented to the Field Education Office in the Faculty of Social Work prior to the start of the practicum.

## Admissions

### Program Admissions Information

For application deadlines, see the Future Students webpage: <http://ucalgary.ca/future-students/graduate/explore-programs/social-work-master-social-work-thesis-based>.

---

In addition to Faculty of Graduate Studies requirements for [admission](#), the Faculty of Social Work requires:

a) A Bachelor of Social Work (BSW) degree\* or a four-year bachelor's degree from another discipline. The undergraduate degree must be conferred prior to the start of the MSW program and must be from a recognized/accredited post-secondary institution.

*\*The Faculty of Social Work recognizes BSW and BISW degrees accredited by the Canadian Association for Social Work Education (CASWE), the Council on Social Work Education (CSWE) and international credentials deemed equivalent to a Canadian BSW degree by the Canadian Association of Social Workers (CASW).*

b) A minimum GPA of 3.00 (on the University of Calgary four-point system). This is based on the last two-years of the undergraduate degree consisting of a minimum of 60 units.

c) The equivalent of two years of full-time paid work or a minimum of 3000 hours of paid and/or volunteer work in the human services field.

d) A program proposal outlining the applicant's social work perspectives and educational goals.

e) A thesis proposal providing a rationale for selecting the thesis route and a preliminary research proposal describing the research problem to be investigated and the proposed research methodologies (e.g., quantitative, qualitative, mixed methods, participatory action research, arts-based, etc.), and the study's potential contribution to social work research and practice. Students applying to the thesis route are strongly encouraged to discuss this option with the PhD/MSW Thesis Program Coordinator.

f) For applicants required to present proof of proficiency in English, a minimum TOEFL score of 97 (Internet-based test with no section less than 20); IELTS score of 7.0 (Academic version with no section less than 6.0); a CAEL score of 70 (70 in writing and speaking; 60 in reading and listening); or a PTE with a minimum score of 68 (Academic version). This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in academic writing and oral communication courses and B+ in other courses.

g) Two references, one academic and one professional. Applicants unable to provide an academic reference are advised to submit a second professional reference and provide a rationale in the application.

**Note:** MSW applicants are allowed to apply to only one program location and one specialization. Once admitted, students are not permitted to switch specializations and/or topics within their chosen specialization. Requests to defer an offer of admission are not normally considered.

Participation in student orientation sessions held prior to the start of the program is mandatory for incoming students. Access to an electronic device, such as a tablet or computer, is necessary.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to Faculty of Graduate Studies **requirements**, the Faculty of Social Work requires:

**For students with a bachelor's degree in a discipline other than social work:**

Nine foundation courses (27 units), as follows:

**Complete ALL of the following Course Sets:**

- MSW Foundation Courses

The foundational practicum course requires students to complete a minimum of 450 placement hours in the Winter semester of their first year. Practicum hours are typically completed in-person, during regular business hours and close to the student's home community, anywhere in Canada.

\*Foundation students in the thesis-based MSW are not eligible for credit by special assessment.

Foundation courses must be completed before students advance to specialization-specific courses and the two research courses (Social Work 670 and 672).

In addition to Faculty of Graduate Studies **requirements**, the Faculty of Social Work requires:

**For Students with a BSW or completed foundation courses:**

A total of 30 units of coursework. The coursework consists of:

- a) 12 units of Advanced Social Work Practice courses;
- b) 12 units of specialization courses (topics may vary from year to year and by location);
- c) 6 units of research courses.

**Complete ALL of the following Course Sets:**

- Advanced Social Work Practice Courses (ASWP)

- Social Work, LHS Certificate, The Practical and Transformational Leader Specialization
- Social Work, MSW, Research Courses

**Note:** The four courses in ASWP and in each specialization topic are offered in a prescribed sequence and deviation from the curriculum plan is not normally allowed. Please note that not all specialization topics are offered every year. Students should consult the timetables and program curriculum plans located on the web for sequence and availability of specialization topics: [socialwork.ucalgary.ca](http://socialwork.ucalgary.ca).

All four ASWP courses and all four specialization courses are prerequisites to Social Work 670 and 672 (research courses).

## Additional Comments:

Students may elect to complete **SOWK660 Advanced Practicum** Advanced Practicum, but it is not a mandatory component of the thesis-based degree. Students who wish to complete Social Work 660 must have completed all the ASWP, specialization and research courses and must declare their intention to pursue a Practicum in writing to the Director of Field Education by March 1st of their final year of coursework (6-8 months prior to the expected start of the Practicum). The Integrative Seminar (Social Work 662) is for course-based MSW students only.

## Transfer to a Course-based MSW

Normally students who begin the MSW thesis program and then want to switch to the course-based MSW may be able to do so prior to beginning the thesis research courses and at least 8 months prior to the start of Advanced Practicum.

## Additional Program Information

### Type

Completion Requirement

## Additional Comments:

## Advanced Credit

Advanced Credit is not normally granted for the Master of Social Work degree.

## Flexible Grade Option (CG Grade)

The Faculty of Social Work Master of Social Work thesis-based program will allow students to pursue the Flexible Grade Option (CG Grade) in graduate courses offered by the faculty, with the exception of **SOWK633 Foundational Field Practicum**, **SOWK660 Advanced Practicum**, **SOWK670 Adv Method Epistemology SOWK** and **SOWK672 Thesis Research Development**.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Concurrent Program Enrolment

Students in this program may not concurrently pursue a certificate, diploma or the final step of a ladder pathway Master's degree as outlined in section **G.D.1.3 Concurrent Program Enrolment**.

## Withdrawal

Students who are required to withdraw from the program for academic reasons will not be subsequently admitted to any graduate program offered by the Faculty of Social Work.

## Credit for Undergraduate Courses

Credit for undergraduate courses will not be awarded.

## Time Limit

Expected completion time is three years for BSW graduates and four years for students with a non-BSW degree.

As established by the Faculty of Graduate Studies (see [Time Limits](#)), maximum completion time is four years for a thesis-based MSW (for both BSW degree holders and non-BSW degree holders).

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

For incoming MSW thesis students, the PhD/MSW Thesis Coordinator will act as the interim supervisor. Before the end of April of the first year, each student must designate a faculty member as permanent supervisor. MSW thesis students will work with their supervisors to determine if a co-supervisor and/or supervisory thesis committee is preferred. This decision should be made prior to start of Social Work 670. The arrangement must be approved by the Graduate Program Director.

Within the first two months of working together, MSW thesis students and their interim and/or permanent supervisors are required to complete and submit to Student Services in the Faculty of Social Work the signed Student-Supervisor checklist and the Intellectual Property checklist. These become part of the student's permanent record. If a change occurs in supervision, a new Student-Supervisor checklist must be completed, signed and submitted to Student Services within two months of the change.

## Research Proposal Requirements

Students must have proposal approved by their supervisor and/or committee (if appropriate). A copy of the proposal becomes part of the student's record with the Faculty of Social Work. Once the proposal has been approved, students can proceed with applying for ethics certification.

## Required Examinations

### MSW Thesis Examination

The final examination for the thesis-based MSW involves an oral defence of the thesis. The thesis examination is conducted by the student's examining committee, which must be declared at least one month before the oral examination.

In addition to the Faculty of Graduate Studies regulations for [Thesis Examinations](#), the program requires the following MSW examining committee composition:

- thesis supervisor, and, if applicable, co-supervisor/supervisory thesis committee,
- a faculty member from the Faculty of Social Work, and
- an Internal Examiner (external to the Faculty of Social Work).

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see [Awards and Financial Assistance](#) for Graduate Students, the Graduate Awards [Database](#), and consult with the Student Services Office in the Faculty of Social Work.

## Overview

### General Program Information

The Linguistics Graduate Program is offered through the School of Languages, Linguistics, Literatures and Cultures.

# UCalgary

The norm is full-time study, but part-time study may also be arranged. Full-time study is defined as in the Graduate Calendar (see **Student Status**) and is not compatible with full-time employment. Status of students with part-time employment will be determined on a case-by-case basis.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: <https://arts.ucalgary.ca/languages-linguistics-literatures-cultures/future-students/graduate/degree-programs/linguistics>

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/linguistics-master-arts-thesis-based](https://ucalgary.ca/future-students/graduate/explore-programs/linguistics-master-arts-thesis-based).

In addition to Faculties of Graduate Studies and Arts **requirements**, the Program requires:

- Significant undergraduate training in linguistics, normally including at least one course in syntax and one course in phonology.
- A statement of purpose specifying the applicant's research interests and reasons for wishing to pursue a Master of Arts degree at the University of Calgary.
- A sample of previous work in linguistics or a related field (e.g., an Honours undergraduate thesis, or a course paper).
- Three reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculties of Graduate Studies and Arts requirements, the Linguistics Graduate Program requires:

- Two formal presentations relating to the student's thesis research. The first presentation must take place no later than the end of the second semester, and the second presentation no later than the end of the third semester. Continuation in program is dependent upon these presentations being judged acceptable by the faculty members of the Linguistics program in attendance. A student will have one opportunity to redo each presentation that is judged unacceptable.
- A minimum of 18 units, including **LING611 Advanced Syntactic Analysis**, **LING613 Adv Phonological Analysis**, and **LING697 Thesis Research Development**.
- LING600 Intro Grad Studies Linguistics**.
- Knowledge of a language other than English demonstrated to the satisfaction of the Graduate Studies Committee. The following groups will be judged on acceptance to the program to have met the MA language requirement:
  - Students whose mother tongue is not English and who were required to satisfy the English language proficiency requirements for admission to program.
  - Students whose mother tongue is English and who provide evidence of past schooling in another language (e.g., schooling in an immersion program in French, German or a First Nations language).
  - Students whose mother tongue is English and who provide evidence of having completed a foreign language secondary school credit such as Spanish Language Arts 30, or French Language Arts 31.

- Students whose mother tongue is English and who provide evidence of at least A1 ("Basic User") level of proficiency in another language in the Common European Frame of Reference from a certified testing agency or a recognised academic institution (e.g., university or college) or a recognised language teaching organization.

Students whose mother tongue is English and who cannot provide evidence of prior exposure to another language on admission can meet the MA language requirement during their MA program in the following ways:

- by providing evidence of having received credit for 3 units for a University of Calgary language course, e.g., Chinese 205, French 209, German 202, Japanese 205, Russian 201.
- by providing evidence of having received credit for one of the following courses: Indigenous Languages 205, Indigenous Languages 301, Linguistics 551 or [LING605 Field Methods](#).

It is the responsibility of the student to provide relevant documentation that the MA language requirement has been met. It is strongly recommended that this program requirement be met within the first 16 months of program. It is the responsibility of the supervisor to ensure that the student meets the deadline for completing this requirement.

### Copyediting

Copyediting of the examination version of the thesis is not permitted. Students may make use of a copyeditor or copyediting service for the final version only of the thesis. The name of the copyeditor or copyediting service must appear on the Acknowledgements page.

Acknowledgement is required whether the copyediting was done by a paid professional or by an acquaintance, friend or family member. Fees for copyediting must be assumed by the student.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

The Linguistics program in the School of Languages, Linguistics, Literatures and Cultures will permit the Flexible Grade Option (CG Grade) for any course offered by the Linguistics program, with the exception of Linguistics 611, 613, 631.03, 651 and 697.

Students may also choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

At the master's level, with the approval of the Graduate Program Director and the School Director, a student may take for credit a maximum of 6 units at the undergraduate level. Normally, only 500-level courses are approved as acceptable, and students must provide evidence that such courses represent a necessary contribution to their program.

### Time Limit

Expected completion time is two years for a master's degree. Maximum completion time is four years.

#### Supervisory Assignments and Required Examinations

##### Type

Completion Requirement

**Additional Comments:**

## **Supervisory Assignments**

A student is assigned a supervisor on admission to the program based on the stated research interests of the student, the disciplinary expertise of faculty members and program capacity. This faculty member commits to supervising the student's thesis and to advising and mentoring the student. Since research interests can change while in program, students are free to select a different supervisor after admission to program but will normally finalize supervisory arrangements by the end of the second term of study (usually April) and must finalize supervisory arrangements by the end of the second annual registration. When a student wishes to change supervisor, that choice must be made by mutual agreement between the student and the faculty member concerned, in consultation with the Graduate Program Director.

## **Thesis Examinations**

In addition to the Faculty of Graduate Studies requirements for **Thesis Examinations**, the Program requires:

*Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

*Composition of the Committee*

The Internal Examiner may be internal to the home program.

## **Financial Assistance**

### **Type**

Completion Requirement

**Additional Comments:**

Financial assistance is normally available to qualified students. Funding is provided to full-time students only. For information on awards, see the **Awards and Financial Assistance** section of this calendar.

Information on teaching and research assistantships is available on the School of Languages, Linguistics, Literatures and Cultures graduate programs **website**.

## **Overview**

### **General Program Information**

The Linguistics Graduate Program is offered through the School of Languages, Linguistics, Literatures and Cultures.

The norm is full-time study, but part-time study may also be arranged. Full-time study is defined as in the Graduate Calendar (see **Student Status**) and is not compatible with full-time employment. Status of students with part-time employment will be determined on a case-by-case basis.

## **Admissions**

### **Program Admissions Information**

Application deadlines are available on the Future Students website: **ucalgary.ca/future-students/graduate/explore-programs/linguistics-doctor-philosophy-thesis-based**

In addition to the [admission requirements](#) of the Faculties of Graduate Studies and Arts, the Linguistic program requires:

- a) A Master's degree in linguistics, or a Master's degree in a related field with significant training in linguistics at the graduate level, normally including at least one graduate course in syntax and one graduate course in phonology, with a minimum grade point average of 3.40 on a four-point scale.
- b) A statement of purpose specifying the applicant's research interests and reasons for wishing to pursue a doctoral degree at the University of Calgary.
- c) A sample of previous work in linguistics or a related field (e.g., a seminar paper or Master of Arts thesis).
- d) Three reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Linguistics Graduate Program requires:

a) Completion of 18 units in Linguistics beyond the MA, including [LING611 Advanced Syntactic Analysis](#) and [LING613 Adv Phonological Analysis](#). Course requirements are normally completed during the first two years.

Note: No more than 6 units can be taken with the same instructor.

b) [LING600 Intro Grad Studies Linguistics](#).

c) Knowledge of a language other than English demonstrated to the satisfaction of the Graduate Studies Committee. The following groups will be judged on acceptance to the program to have met the PhD language requirement:

- Students whose mother tongue is not English and who were required to satisfy the English language proficiency requirements for admission to program.
- Students whose mother tongue is English and who provide evidence of past schooling in another language (e.g., schooling in an immersion program in French, German or a First Nations language).
- Students whose mother tongue is English and who provide evidence of having completed a foreign language secondary school credit such as Spanish Language Arts 30, or French Language Arts 31.
- Students whose mother tongue is English and who provide evidence of at least A1 ("Basic User") level of proficiency in another language in the Common European Frame of Reference from a certified testing agency or a recognised academic institution (e.g., university or college) or a recognised language teaching organization.

Students whose mother tongue is English and who cannot provide evidence of prior exposure to another language on admission can meet the doctoral language requirement during their PhD program in the following ways:

- by providing evidence of having received credit for 3 units for a University of Calgary language course, e.g. Chinese 205, French 209, German 202, or Japanese 205, or Russian 201.
- by providing evidence of having received credit for one of the following courses: Indigenous Languages 205, Indigenous Languages 301, Linguistics 551 or [LING605 Field Methods](#).

It is the responsibility of the student to provide relevant documentation that the doctoral language requirement has been met. This program requirement must be met by the time the thesis proposal is submitted. It is the responsibility of the supervisor to ensure that the student meets the deadline for completing this requirement.

## Copyediting

Copyediting of the examination version of the thesis is not permitted. Students may make use of a copyeditor or copyediting service for the final version only of the thesis. The name of the copyeditor or copyediting service must appear on the Acknowledgements page.

Acknowledgement is required whether the copyediting was done by a paid professional or by an acquaintance, friend or family member. Fees for copyediting must be assumed by the student.

## Additional Program Information

### Type

Completion Requirement

### Additional Comments:

## Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

## Flexible Grade Option (CG Grade)

The Linguistics program in the School of Languages, Linguistics, Literatures and Cultures will permit the Flexible Grade Option (CG Grade) for any course offered by the Linguistics program, with the exception of Linguistics 611, 613, 631.03, 651 and 697.

Students may also choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

At the doctoral level, with the approval of the Graduate Program Director and the School Director, a student may take for credit a maximum of 6 units at the undergraduate level. Normally, only 500-level courses are approved as acceptable, and students must provide evidence that such courses represent a necessary contribution to their program.

## Time Limit

Expected completion time is four years for a doctoral degree. Maximum completion time is six years.

## Supervisory Assignments and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

A student is assigned a supervisor on admission to the program based on the stated research interests of the student, the disciplinary expertise of faculty members and program capacity. This faculty member commits to supervising the student's thesis and to advising and mentoring the student. Since research interests can change while in program, students are free to select a different supervisor after admission to program but will normally finalize supervisory arrangements by the end of the second term of study (usually April) and must finalize supervisory arrangements by the end of the second annual registration. When a student wishes to change supervisor, that choice must be made by mutual agreement between the student and the faculty member concerned, in consultation with the Graduate Program Director.

Once doctoral students have finalized the choice of a supervisor, a supervisory committee is struck. It will normally consist of the supervisor and two other faculty members from the program. One of the two members of this committee may be external to the program. It is desirable to have at least one committee member with supervisory experience at the doctoral level.

See [Supervision](#) for more information.

## Required Examinations

### Candidacy

To be admitted to candidacy, doctoral students must successfully complete an oral and written field of study examination and

an oral examination on the thesis proposal. Doctoral students are required to take the field of study Examination after completion of all course work, normally within 26 months of first registration. Students must complete and submit a written thesis proposal to their Supervisory Committee within two months of passing the Field of Study examination.

See [Linguistics Candidacy Requirements](#) for more information.

## Thesis Examination

In addition to the Faculty of Graduate Studies requirements for [Thesis Examinations](#), the Program requires:

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance is normally available to qualified students. Funding is provided to full-time students only. For information on awards, see the [Awards and Financial Assistance](#) section of this calendar.

Information on teaching and research assistantships is available on the School of Languages, Linguistics, Literatures and Cultures graduate programs [website](#).

## Overview

### General Program Information

The MA degree may be taken on a full-time or a part-time basis.

### Specializations:

- French
- Spanish

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [slllc.ucalgary.ca](http://slllc.ucalgary.ca)

## Admissions

### Program Admissions Information

Deadline for the submission of complete applications are available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/languages-literatures-cultures-master-arts-course-based](http://ucalgary.ca/future-students/graduate/explore-programs/languages-literatures-cultures-master-arts-course-based)

In addition to the [admission requirements](#) of the Faculties of Graduate Studies and Arts, the Department requires:

a) A sufficiently high level of oral and written competence in the target language (a recommended minimum of CEFR level B2, ACTFL Intermediate-High, or equivalent. For CEFR standards, see: [coe.int/lang-CEFR](http://coe.int/lang-CEFR). For ACTFL standards, see: [actfl.org/publications/all](http://actfl.org/publications/all).

b) An adequate academic background in one of the fields of Modern Languages, Linguistics, Literary, Film or Cultural Studies or other closely related field.

- c) An academic writing sample (of approximately 8-15 pages): a term paper, research paper or other writing, which the applicant considers representative of their best work.
- d) A Statement of intent: 250-word (minimum) statement of research interest including research topic and the reasons for wishing to pursue graduate work in this program.
- e) Two reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department requires:

a) Thirty units, including [LLAC600 Intro Graduate Studies in LLAC](#), [LLAC601 Additional Language Pedagogy](#), and, depending on research perspective, either [LLAC602 Res Methods in Applied Ling](#) or [LLAC603 Thr'y Mthd's Lit Cltr'l Study](#).

b) A written essay (of approximately 20 pages), to form the basis for the Capstone Examination.

Applicants lacking the requisite background in language or literature may be admitted as qualifying students. In this case, extra course work is normally required. A qualifying oral examination based on set texts may be required before the students attain regular Master of Arts status. Courses taken as a qualifying student do not normally count as part of the student's course requirements.

##### Copyediting

The program prohibits copyediting of the students' theses written in French or Spanish for the MA or PhD degrees.

Note: Normally no more than 3 units of Directed Reading may be taken for credit.

a) All students are encouraged to attend University orientation sessions. Students enrolled in a Fall Block week course are encouraged to attend an orientation session at the earliest opportunity.

b) Our graduate students are expected to complete training that will enhance their profile as a Language Teacher. Beyond Languages, Literatures and Cultures 601, training may include further courses such as:

- [LANG615 2nd Lang Learning & Technology](#)
- [LANG625 2nd Lang Learn Cult Understand](#)
- [LANG699 Res Sem in 2nd Lang Learning](#)
- [EDER613 Change&InnovationInEducation](#)
- [EDER667 2nd Language Reading & Writing](#)
- [EDER669 Aspect of Secd Lang & Culture](#)
- [EDER696 Special Topics in Education](#)
- DELE/DELF/German CEFR examiner accreditation courses

These courses do not count towards degree requirements.

It is also highly recommended that students avail themselves of other training offered by the Taylor Institute for Teaching and Learning.

c) MA students in French and Spanish have a knowledge areas requirement that must be satisfied by the first month of the second year in program, or, as appropriate, one month after the completion of course work, whichever occurs first. MA students in French are expected to complete coursework that fulfills five knowledge areas, and MA students in Spanish are expected to complete coursework on all of the knowledge areas.

**Knowledge areas: French**

Medieval and Early Modern French Literature and Culture, Modern French Literature and Culture, Contemporary Literature and Culture of France, Franco-Canadian and Québécois Literature and Culture, Francophone Studies (outside Canada), History or Theories of Language, Theories of Culture or Literature.

**Knowledge areas: Spanish**

Medieval and early Modern Spanish Literature and Culture, Spanish American Literature and Culture to 1900, Modern and Contemporary Peninsular Literature and Culture, Latin American Literature and Culture since 1900, History or Theories of Language, Theories of Culture or Literature.

When studying an application for admission, the Graduate Program Director, in consultation with the Graduate Committee, will determine, based on undergraduate transcripts, which of the required knowledge areas have not yet been satisfied. Where the appropriateness of a course to fulfill a knowledge area is in doubt, a syllabus and/or a course description will be requested from the applicant. Upon admission, students will be advised of any specific course or other work needed to fulfill this requirement. Unfulfilled knowledge areas may be accomplished by either completing a graduate course in the area, which will form part of the course requirements (or may be in addition to them), or by completing specific readings under the supervision of an area specialist followed by demonstration of good knowledge of the specific area. This will be in the form of a paper written in response to a specific question, followed by an evaluation of the paper and an oral exam with the area specialist and another member of the School.

d) Graduate students must consult with the Graduate Program Director concerning course selection, leave of absence, course or program withdrawal.

**Additional Program Information**

**Type**

Completion Requirement

**Additional Comments:**

**Advanced Credit**

The applicant must make advanced credit requests as part of the admission process, as set out in section [Advanced Credit](#).

**Flexible Grade Option (CG Grade)**

The Languages, Literatures and Culture program in the School of Languages, Linguistics, Literatures and Cultures will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the Languages, Literatures and Culture Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

**Credit for Undergraduate Courses**

Only in exceptional circumstances and where appropriate to a student's program may graduate credit be received for courses numbered 500-599. No more than 6 units can be at the 500 level.

**Time Limit**

Expected completion time for full-time students in a course-based MA program is two years. Maximum completion time is six years.

**Supervisory Assignments and Required Examinations**

**Type**

Completion Requirement

**Additional Comments:**

**Supervisory Assignments**

The Graduate Program Director is normally the interim supervisor for newly admitted students. Students are expected to choose a permanent supervisor by the end of the second regular academic session after first registration (April 30 for September registrants and December 15 for January registrants). Selection of a supervisor should be by mutual agreement between the student and the staff member concerned, approved by the Graduate Program Director, and is based on the stated research interests of the students, the disciplinary expertise of faculty members and program capacity.

### Capstone Examination

The course-based programs require a capstone comprehensive examination with a written and an oral component, taken after the completion of all course work and any other requirement such as the knowledge areas requirement. Students are required, as early as possible and, in any case, at least before registering for a final semester, to file the reading list on their chosen area of specialization with the program's Graduate Committee. The list should be drafted after consultation with the student's supervisor and approved by that faculty member.

#### Financial Assistance

##### Type

Completion Requirement

##### Additional Comments:

For information on other funding opportunities, see the [Awards and Financial Assistance](#) section of this Calendar and the Faculty of Graduate Studies website: [grad.ucalgary.ca/awards](http://grad.ucalgary.ca/awards).

## Overview

### General Program Information

The MA degree may be taken on a full-time or a part-time basis.

#### Specializations:

- Applied Linguistics
- French
- German
- Spanish
- Transcultural Studies

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [slllc.ucalgary.ca](http://slllc.ucalgary.ca)

## Admissions

### Program Admissions Information

Deadline for the submission of complete applications are available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/languages-literatures-cultures-master-arts-thesis-based](http://ucalgary.ca/future-students/graduate/explore-programs/languages-literatures-cultures-master-arts-thesis-based)

In addition to Faculties of Graduate Studies and Arts [requirements](#), the Department requires:

a) A sufficiently high level of oral and written competence in the target language (a recommended minimum of CEFR level B2, ACTFL Intermediate-High, or equivalent. For CEFR standards, see: [coe.int/lang-CEFR](http://coe.int/lang-CEFR). For ACTFL standards, see: [actfl.org/publications/all](http://actfl.org/publications/all).

- b) An adequate academic background in one of the fields of Modern Languages, Linguistics, Literary, Film or Cultural Studies or other closely related field.
- c) An academic writing sample (of approximately 8-15 pages): a term paper, research paper or other writing, which the applicant considers representative of their best work.
- d) A Statement of intent: 250-word (minimum) statement of research interest including research topic and the reasons for wishing to pursue graduate work in this program.
- e) Two reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculties of Graduate Studies and Arts requirements, the program requires:

- a) Eighteen units, including Languages, Literatures and Cultures 600, 601 and, depending on research perspective, either Languages, Literatures and Cultures 602 or 603.
- b) A scholarly and/or critical thesis (approximately 100 pages).

Applicants lacking the requisite background in language or literature may be admitted as qualifying students. In this case, extra course work is normally required. A qualifying oral examination based on set texts may be required before the students attain regular Master of Arts status. Courses taken as a qualifying student do not normally count as part of the student's course requirements.

##### Copyediting

The program prohibits copyediting of the students' theses written in French or Spanish for the MA or PhD degrees.

Note: Normally no more than 3 units of Directed Reading may be taken for credit.

- a) All students are encouraged to attend University orientation sessions. Students enrolled in a Fall Block week course are encouraged to attend an orientation session at the earliest opportunity.
- b) Before the end of their second year of study, MA Thesis students are required to make an internal or external presentation relating to their research.
- c) Students in the thesis-based programs are also expected to demonstrate their participation in university-wide research activities by attending internal or external scholarly presentations every year in their programs. A minimum of one workshop on language training (see section (d) below) and at least two other presentations are required. Students should list all presentations attended in their Annual Progress Report.
- d) Our graduate students are expected to complete training that will enhance their profile as a Language Teacher. Beyond Languages, Literatures and Cultures 601, training may include further courses such as:
  - [LANG615 2nd Lang Learning & Technology](#)
  - [LANG625 2nd Lang Learn Cult Understand](#)
  - [LANG699 Res Sem in 2nd Lang Learning](#)
  - [EDER613 Change&InnovationInEducation](#)
  - [EDER667 2nd Language Reading & Writing](#)
  - [EDER669 Aspect of Secd Lang & Culture](#)
  - [EDER696 Special Topics in Education](#)
  - DELE/Delf/German CEFR examiner accreditation courses

These courses do not count towards degree requirements.

It is also highly recommended that students avail themselves of other training offered by the Taylor Institute for Teaching and Learning.

e) MA students in French and Spanish have a knowledge areas requirement that must be satisfied by the first month of the second year in program, or, as appropriate, one month after the completion of course work, whichever occurs first. MA students in French are expected to complete coursework that fulfills five knowledge areas, and MA students in Spanish are expected to complete coursework on all of the knowledge areas.

### **Knowledge areas: French**

Medieval and Early Modern French Literature and Culture, Modern French Literature and Culture, Contemporary Literature and Culture of France, Franco-Canadian and Québécois Literature and Culture, Francophone Studies (outside Canada), History or Theories of Language, Theories of Culture or Literature.

### **Knowledge areas: Spanish**

Medieval and early Modern Spanish Literature and Culture, Spanish American Literature and Culture to 1900, Modern and Contemporary Peninsular Literature and Culture, Latin American Literature and Culture since 1900, History or Theories of Language, Theories of Culture or Literature.

When studying an application for admission, the Graduate Program Director, in consultation with the Graduate Committee, will determine, based on undergraduate transcripts, which of the required knowledge areas have not yet been satisfied. Where the appropriateness of a course to fulfill a knowledge area is in doubt, a syllabus and/or a course description will be requested from the applicant. Upon admission, students will be advised of any specific course or other work needed to fulfill this requirement. Unfulfilled knowledge areas may be accomplished by either completing a graduate course in the area, which will form part of the course requirements (or may be in addition to them), or by completing specific readings under the supervision of an area specialist followed by demonstration of good knowledge of the specific area. This will be in the form of a paper written in response to a specific question, followed by an evaluation of the paper and an oral exam with the area specialist and another member of the School.

f) Graduate students must consult with the Graduate Program Director concerning course selection, leave of absence, course or program withdrawal.

## **Additional Program Information**

### **Type**

Completion Requirement

### **Additional Comments:**

## **Advanced Credit**

The applicant must make advanced credit requests as part of the admission process, as set out in section [Advanced Credit](#).

## **Flexible Grade Option (CG Grade)**

The Languages, Literatures and Culture program in the School of Languages, Linguistics, Literatures and Cultures will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the Languages, Literatures and Culture Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## **Credit for Undergraduate Courses**

Only in exceptional circumstances and where appropriate to a student's program may graduate credit be received for courses numbered 500-599. No more than 6 units can be at the 500 level.

## **Time Limit**

Expected completion time for full-time students in a master's thesis MA program is two years. Maximum completion time is four years.

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

The Graduate Program Director is normally the interim supervisor for newly admitted students. Students are expected to choose a permanent supervisor by the end of the second regular academic session after first registration (April 30 for September registrants and December 15 for January registrants). Selection of a supervisor should be by mutual agreement between the student and the staff member concerned, approved by the Graduate Program Director, and is based on the stated research interests of the students, the disciplinary expertise of faculty members and program capacity.

## Research Proposal

Thesis students are required to submit a written thesis proposal thirteen months after initial registration (for September registrants: 1st draft to the supervisor is due by September 1 and the thesis proposal to the Graduate Committee is due by September 30; for January registrants: 1st draft to the supervisor is due by January 2 and the thesis proposal to the Graduate Committee is due by February 1). This proposal should be approximately 1200 words in length and be accompanied by an abstract and an appropriately detailed preliminary bibliography. It should be drafted after consultation with the student's supervisor and have their preliminary approval. These documents will be circulated to the program's Graduate Committee for approval. Abstracts of proposals may be reproduced for information purposes.

## Thesis Examinations

In addition to the Faculty of Graduate Studies requirements for [Thesis Examinations](#), the program requires:

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Funding is available to qualified thesis-based students in the form of scholarships, awards and/or teaching assistantships. Students applying for departmental funding for the following academic year must submit their applications to the Department by February 1. All students are strongly encouraged to seek external financial assistance throughout their program. For information on other funding opportunities, see the [Awards and Financial Assistance](#) section of this Calendar and the Faculty of Graduate Studies website: [grad.ucalgary.ca/awards](http://grad.ucalgary.ca/awards).

## Overview

### General Program Information

### Specializations:

- Applied Linguistics

# UCalgary

- French
- German\*
- Spanish
- Transcultural Studies

\*As part of the graduate program in German, students may participate in a one-semester exchange with Justus-Liebig-Universität Gießen.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [sllc.ucalgary.ca](http://sllc.ucalgary.ca)

## Admissions

### Program Admissions Information

Deadline for the submission of complete applications are available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/languages-literatures-cultures-doctor-philosophy-thesis-based](http://ucalgary.ca/future-students/graduate/explore-programs/languages-literatures-cultures-doctor-philosophy-thesis-based)

In addition to the **admission requirements** of the Faculties of Graduate Studies and Arts, the Department requires:

- A Master of Arts degree in one of LLAC's areas of specialization, or equivalent.
- A grade point average of 3.40 (based on a 4-point system) on the work of the last two years of study.
- A sufficiently high level of oral and written competence in the target language (CEFR level C1 or equivalent). For CEFR standards, see: [coe.int/lang-CEFR](http://coe.int/lang-CEFR).
- An adequate academic background in the discipline.
- A research proposal of approximately 2-3 pages.
- A sample of critical writing: MA thesis or research paper or other writing, which the applicant considers representative of their best work. Either the sample research paper or the research proposal must be submitted in the target language of study.
- A statement of intent: 250-word (minimum) statement of research interest including research topic and the reasons for wishing to pursue graduate work in this unit.
- Two reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies **requirements** and Faculty of Arts requirements, the Department requires:

- Course Requirements: Eighteen units beyond the MA. Courses must include **LLAC600 Intro Graduate Studies in LLAC**, **LLAC601 Additional Language Pedagogy**, and, depending on research perspective, either **LLAC602 Res Methods in Applied Ling** or **LLAC603 Thr'y Mthd's Lit Cltr'l Study**, unless these courses were taken in the MA program.
- A Third Language Requirement: All students must demonstrate, at a minimum, reading comprehension of a language other than English and the target language of the PhD program, at a level sufficient for the use and understanding of scholarly material. This language will normally be related to the student's thesis research. The language requirement is deemed to have been satisfied when the student has either:

- (i) successfully completed a fourth semester language course;
  - (ii) successfully completed a language-proficiency examination designed specifically for graduate students by a relevant academic designated specialist. Such an examination tests the student's reading proficiency, by testing their understanding of a scholarly article;
  - or (iii) successfully completed a B1 Common European Framework of Reference (CEFR) examination, when available.
- c) A thesis.

### Copyediting

The program prohibits copyediting of the students' theses written in French or Spanish for the MA or PhD degrees.

**Note:** Normally no more than 3 units of Directed Reading may be taken for credit.

- a) All students are encouraged to attend University orientation sessions. Students enrolled in a Fall Block week course are encouraged to attend an orientation session at the earliest opportunity.
- b) Students in the thesis-based programs are also expected to demonstrate their participation in university-wide research activities by attending internal or external scholarly presentations every year in their programs. A minimum of one workshop on language training (see section (d) below) and at least two other presentations are required. Students should list all presentations attended in their Annual Progress Report.
- c) Our graduate students are expected to complete training that will enhance their profile as a Language Teacher. Beyond Languages, Literatures and Cultures 601, training may include further courses such as:
  - [LANG615 2nd Lang Learning & Technology](#)
  - [LANG625 2nd Lang Learn Cult Understand](#)
  - [LANG699 Res Sem in 2nd Lang Learning](#)
  - [EDER613 Change&InnovationInEducation](#)
  - [EDER667 2nd Language Reading & Writing](#)
  - [EDER669 Aspect of Secd Lang & Culture](#)
  - [EDER696 Special Topics in Education](#)
  - DELE/Delf/German CEFR examiner accreditation courses

These courses do not count towards degree requirements.

It is also highly recommended that students avail themselves of other training offered by the Taylor Institute for Teaching and Learning.

- d) Graduate students must consult with the Graduate Program Director concerning course selection, leave of absence, course or program withdrawal.

### Additional Program Information

#### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

The applicant must make advanced credit requests as part of the admission process, as set out in section [Advanced Credit](#).

### Flexible Grade Option (CG Grade)

The Languages, Literatures and Culture program in the School of Languages, Linguistics, Literatures and Cultures will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the Languages, Literatures and Culture Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Only in exceptional circumstances and where appropriate to a student's program may graduate credit be received for courses numbered 500-599. No more than 6 units can be at the 500 level.

## Time Limit

Expected completion time is four years for the Doctor of Philosophy. Maximum completion time is six years.

### Supervisory Assignments, Research Proposal and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

A student is assigned an interim supervisor on admission to the program based on the stated research interests of the student, the disciplinary expertise of faculty members and Program capacity. Students will normally have a permanent supervisor by the end of the second term of study (usually April) and must finalize supervisory arrangements no later than twelve months after first registration.

Once the student has finalized the choice of a supervisor, a supervisory committee is struck. It will normally consist of the supervisor and two other faculty members from the program. One of the two members of this committee may be external to the program. See [Supervision](#) for more information.

### Research Proposal

Students must prepare a thesis proposal as part of candidacy requirements. Details can be found at [slllc.ucalgary.ca/graduate/graduate-program-llac](http://slllc.ucalgary.ca/graduate/graduate-program-llac).

### Required Examinations

#### Candidacy

Doctoral students are required to pass written and oral field of study examinations and an oral examination on the thesis proposal. Specific details of the examination format and other candidacy requirements can be found at [slllc.ucalgary.ca/graduate/graduate-program-llac](http://slllc.ucalgary.ca/graduate/graduate-program-llac).

#### Thesis Examination

In addition to the Faculty of Graduate Studies requirements for [Thesis Examinations](#), the program requires:

##### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

##### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

### Financial Assistance

#### Type

Completion Requirement

### General Program Information

Web page URL: <https://haskayne.ucalgary.ca/graduate-certificate-in-management-analytics>

## Admissions

### Program Admissions Information

In addition to the Faculty of Graduate Studies [admission](#) requirements, all applicants must meet the following requirement:

- A Master of Business Administration or Master of Management or equivalent Graduate degree from a recognized/accredited post-secondary institution.

### Admission Deposit

Successful applicants will be required to confirm their acceptance of an offer of admission into a Graduate Certificate program with an online non-refundable deposit of \$500.

The deposit will be credited toward tuition fees upon registration.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#), the Haskayne School of Business requires:

The certificate requires 12 units of coursework consisting of two core and two elective courses as listed below.

##### Complete ALL of the following Courses:

- BIMA612 - Data Analytics I  
**AND** BIMA620 - Predictive Analytics in Business

Two from the following elective courses:

##### Complete at least 2 of the following courses:

- BIMA621 - Marketing Analytics  
**OR** BIMA622 - Prescriptive Analytics in Business  
**OR** BIMA623 - Supply Chain Analytics  
**OR** BIMA624 - Analytics of International Business Environment  
**OR** BIMA625 - FinTech

#### Additional Comments:

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

No Advanced Credit will be considered.

### Flexible Grade Option (CG Grade)

Students admitted to a graduate certificate program will not be allowed to request the Flexible Grade Option (CG Grade) option for any course that is applicable to their certificate; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Time Limit

The expected completion time for the graduate certificates is 8 months. The maximum completion time is 3 years.

#### Financial Assistance

##### Type

Completion Requirement

##### Additional Comments:

No financial assistance is available for the graduate certificate programs.

## Overview

### General Program Information

The School of Architecture, Planning and Landscape does not formally offer a part-time option.

In Canada, the Canadian Architectural Certification Board (CACB) is the sole agency authorized by the Regulatory Organization of Architecture in Canada (ROAC) to accredit Canadian professional degree programs in architecture for the purposes of architectural licensure.

Location: City Building Design Lab

616 Macleod Trail SE

Calgary, Alberta T2G 2M2

Student Information: 403.220.7070

Fax: 403.284.4399

Email address: [info@sapl.ucalgary.ca](mailto:info@sapl.ucalgary.ca)

Web page URL: [sapl.ucalgary.ca](http://sapl.ucalgary.ca)

## Admissions

## Program Admissions Information

Application deadline is available on the Future Students website: <https://grad.ualgary.ca/future-students/explore-programs/architecture-march-course>.

Prospective applicants are advised to use opportunities within their four-year recognized university undergraduate degree studies to develop knowledge in at least one and possibly more than one of the following areas: design, humanities, social sciences, arts, engineering, biological or earth sciences – including, wherever possible, studio, laboratory and collaborative learning experiences.

In addition to Faculty of Graduate Studies requirements for [Admissions](#), the program requires:

a) Architectural Image Paragraph

Applicant to provide an image or photograph that holds architectural significance and write a paragraph (maximum 500 words) as to why they chose it. The words should clarify their choice and explain the relevance to the field.

b) Digital Portfolio

Candidates for MArch must provide evidence of original and/or creative work in any field or medium, and provide in writing a brief description of the work. The requirements for digital portfolio submissions are found on the School of Architecture, Planning and Landscape website at: <https://sapl.ualgary.ca/future-students/graduate/master-architecture-march>.

c) Curriculum Vitae

A current copy of curriculum vitae (CV).

d) Reference Letters

Three reference letters, of which at least two should be academic.

e) Proof of English Proficiency

For applicants who are required to prove proficiency in English, a TOEFL score of 105 (Internet-based test); or an IELTS score of 7.5; a CAEL score of 70 (with no section less than 70); a PTE with a minimum score of 59; a Duolingo score of 145 (with no subscore below 125); or a Cambridge C1/C2 Proficiency score of 200. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.

Note: Applicants must demonstrate successful completion of one or more years of undergraduate-level coursework in four areas: Design, Technology, Graphics, and History/Theory (equivalent to the courses taken in the minor in Architectural Studies, or in the MArch Foundation year). In order to complete these prerequisite requirements, applicants may be admitted to the MArch Foundation or qualifying year. An assessment of these prerequisite requirements will be made by an admissions committee and applicants will be informed in offers of admission which, if any, courses at the Foundation level will be required.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

The Master of Architecture program is structured around a core studio sequence. Required courses and electives make up the remainder of the program. In addition to the Faculty of Graduate Studies [requirements](#), successful completion of the MArch must include the following academic requirements:

Foundation Year (Qualifying Year) - 31.5 units

**Complete ALL of the following Courses:**

- ARCH500 - Sustainability in the Built Environment  
**AND** ARCH502 - History of Architecture and Human Settlements I - Premodern Traditions of the World  
**AND** ARCH504 - Graphics Workshop I  
**AND** ARCH506 - Studio I in Architecture

**AND ARCH508 - Building Science and Technology I**

**AND ARCH510 - History of Architecture and Human Settlements II - The Rise of Modernity, 1750 to Present**

**AND ARCH512 - Graphics Workshop II**

**AND ARCH514 - Studio II in Architecture**

- **ARCH672 - Experiential Learning in Architecture**

**OR ARCH674 - Experiential Learning in Architecture**

a) 54 units of core required courses:

**Complete ALL of the following Courses:**

- **ARCH600 - Structures for Architects I**  
**AND ARCH602 - Introduction to Design Theories**  
**AND ARCH604 - Leadership in Architecture**  
**AND ARCH606 - Intermediate Architectural Design Studio**  
**AND ARCH608 - Architectural Lighting Design**  
**AND ARCH610 - Structures for Architects II**  
**AND ARCH612 - Building Science and Technology II**  
**AND ARCH614 - Environmental Control Systems**  
**AND ARCH616 - Comprehensive Architectural Design Studio**  
**AND ARCH618 - Architectural Professional Practice**  
**AND ARCH675 - Urban Systems**  
**AND ARCH688 - City Studio in Architecture**  
**AND ARCH700 - Senior Research Studio in Architecture I**  
**AND ARCH702 - Senior Research Studio in Architecture II**

b) 3 units from:

**Earn at least 3 credits from the following:**

- **ARCH692 - Gillmor Theory Seminar**  
**OR ARCH696 - Somerville Design Charrette**  
**OR ARCH698 - Taylor Workshop**

Note: upon completion of the requirement, any of the courses listed in b) may be taken or repeated for elective credit.

c) 9 units from:

**Earn at least 9 credits from the following:**

- **ARCH680 - Special Topics in Architecture**  
**OR ARCH682 - Special Topics in Architecture**  
**OR ARCH684 - Special Topics in Architecture**  
**OR ARCH686 - Topics Course in Architecture**

d) 3 units from:

**Earn at least 3 credits from the following:**

- **ARCH690 - Studio Research Selective**  
**OR ARCH694 - Studio Research Selective**

e) 3 units from:

**Earn at least 3 credits from the following:**

- **ARCH670 - Experiential Learning in Architecture (Inactive)**  
**OR ARCH672 - Experiential Learning in Architecture**

**OR ARCH674 - Experiential Learning in Architecture**

**OR ARCH676 - Experiential Learning in Architecture**

f) 3 units of elective credits from other courses offered by SAPL or the University of Calgary at the 500-level or higher that relate to individual interests in Architecture.

**Additional Comments:**

### **Reappraisal of Academic Assessments (Final Grades)**

Students enrolled in SAPL graduate credentials must request a **Reappraisal of Academic Assessments (Final Grades)** within 5 business days of the start of the subsequent term.

**Reappraisal of Academic Assessments (Final Grades)** in SAPL graduate credentials must be completed at least one day before the drop date of the subsequent semester.

#### **Additional Program Information**

##### **Type**

Completion Requirement

**Additional Comments:**

### **Advanced Credit**

A student may apply for **Advanced Credit** for previous courses that have not been used to satisfy the requirements of any other degree or diploma program. See Advanced Credit.

Course Exemptions: Students registered in a graduate degree program may receive an exemption from a specific course if they can demonstrate successful completion of an equivalent course. In order to be eligible for an exemption, the student must provide original transcripts, course outlines and samples of course assignments which will be assessed for academic equivalency. Courses for which exemptions are being sought must be from a recognized institution, and they must be graded courses with a minimum grade of "B-". Students granted an exemption from a course may be required to take another, equally-weighted, course to satisfy credit-hour requirements for their program.

### **Flexible Grade Option (CG Grade)**

Students admitted to the School of Architecture, Planning and Landscape will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the Flexible Grade Option (CG Grade) for courses outside of SAPL that permit the CG Grade and are taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### **Additional Requirements**

A laptop computer is required for all course-based degree programs in the School of Architecture, Landscape and Planning. Further information pertaining to specifications will be sent out to newly-admitted students in the summer term prior to the commencement of their studies.

Attendance at orientation for first year students is required.

### **Credit for Undergraduate Courses**

Only undergraduate courses numbered 500-599 may be considered for graduate-level credit and are subject to approval by the Associate Dean (Architecture).

## Time Limits

Students are expected to enrol on a full-time basis and complete the degree requirements within two registration years (excluding the Foundation year). Maximum completion time is six registration years. See [Time Limits](#).

## Supervisory Assignments

Upon admission, each MArch student will be advised by the Graduate Program Administrator regarding Program of Study development.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to highly qualified students but cannot be guaranteed. For information on admission and academic awards, see the [Awards and Financial Assistance](#) section of this calendar, the SAPL website and the Awards Database on the Faculty of Graduate Studies website.

## Overview

### General Program Information

Students can complete the Haskayne MBA through full-time study either through the daytime or the evening.

### MBA Specializations:

- Business Intelligence and Data Analytics
- Entrepreneurship and Innovation
- Finance
- Global Energy Management and Sustainable Development
- Management Analytics
- Marketing
- Project Management
- Real Estate Studies

## Admissions

### Program Admissions Information

Admission deadlines are available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/management-master-business-administration-course-based>.

In addition to the Faculty of Graduate Studies [admission](#) requirements for Admission, the program requires:

- a) A current résumé.
- b) A 250-word response to each of two questions provided as part of the application process.

## UCalgary

c) For applicants required to prove present proficiency in English, a minimum TOEFL (Internet-based) score of 97 with no section less than 20 (Internet-based test), or an IELTS score of 7.0 with no section less than 6.0 or a CAEL overall score of 70. This requirement can also be met by completing the **Academic Communication Certificate** with a minimum overall grade of "A-".

d) The Graduate Management Admission Test (GMAT) is only required for applicants with a degree from an institution outside of Canada or the United States with a recommended minimum score of 550 or an equivalent Graduate Record Examination (GRE) score.

Applicants with a degree from an institution in Canada or the United States with a grade point average (GPA) of at least 3.0 on a four-point scale are exempt from submitting a GMAT score. An applicant who has completed a bachelor's degree from an institution in Canada or the United States with a GPA from 2.50 to 2.99, and chooses to submit a GMAT score, may be admitted to an MBA course-based program as a regular student on the basis of the following equivalent achievement score:  $[(\text{GPA} \times 200) + \text{GMAT}] \geq 1150$ .

*\*Consult the Haskayne School of Business about the Graduate Management Admission Test.*

e) Two reference letters.

f) For the course-based Day and Evening MBA program only, the equivalent of at least 2 years of appropriate work experience.

g) Applicants may be required to participate in an interview.

### Admission Deposit

Successful applicants will be required to confirm their acceptance of an offer of admission into the MBA program with an online non-refundable deposit:

Daytime MBA: \$3,000

Evening MBA: \$3,000

Accelerated MBA: \$3,000

The deposit will be credited toward tuition fees upon registration.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the **requirements** of the Faculty of Graduate Studies, the Haskayne School of Business requires:

The MBA degree normally consists of 60 units. Students may be granted exemption from required courses based upon prior academic preparation and with the approval of the Graduate Director (MBA Program). Students must complete a minimum of 45 units, of which a maximum of 15 units may be transfer credit from another recognized graduate program, for the MBA degree.

**Complete ALL of the following Requirement Sets:**

- MBA Required Courses

#### Specializations

Students must complete 18 units of additional courses beyond the required courses. Within these 18 units, students may select an area of specialization normally consisting of 12 units. Specialization requirements are as follows:

**Earn at least 12 credits from the following:**

- MBA, Business Intelligence and Data Analytics Specialization
- MBA, Entrepreneurship and Innovation
- MBA, Finance

- MBA, Global Energy Management and Sustainable Development
- MBA, Management Analytics
- MBA, Marketing
- MBA, Project Management
- MBA, Real Estate Studies

Students who elect not to choose an area of specialization may choose instead from various graduate courses offered by the Haskayne School of Business. Subject to the approval of the Graduate Director (MBA Program) and the Faculty of Graduate Studies, graduate courses offered at the University of Calgary outside the Haskayne School of Business may also be taken.

#### Additional Comments:

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process to the MBA program. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

Students admitted to the MBA (course-based) program, Executive MBA program or Executive MBA Specializing in Global Energy program will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Time Limit

The day MBA option normally takes 20 months to complete (from first registration), while the evening option normally takes three years. Maximum time limit: six years.

#### Financial Assistance

##### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, please see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

Normally, combined degree programs must be completed full-time during the day.

All admitted full-time MBA students will be automatically considered for Business scholarships.

## Overview

### General Program Information

Master of Nursing/Master of Business Administration (MN/MBA) is a combined program offered with the Haskayne School of Business.

**\*Program is suspended and is not currently accepting applications.**

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website.

For MN deadlines, see <http://www.ucalgary.ca/future-students/graduate/explore-programs/nursing-master-nursing-course-based>.

A separate application to the MBA program is required. For MBA deadlines, see <https://www.ucalgary.ca/future-students/graduate/explore-programs/management-master-business-administration-course-based>.

Applicants to the combined MN/MBA program must be admitted to the MN program, and make a separate application for admission to the MBA program. Students must meet the requirements of the MN and MBA programs. The respective Combined Program Committee will review each application. Normally, only a full-time student in the Master of Nursing program may take a combined program. Please consult with the Faculty of Nursing Graduate Programs Office for more information.

For MBA admission requirements, see **Master of**.

### MN Admission Requirements

In addition to the Faculty of Graduate Studies **admission** requirements, the Faculty of Nursing requires that an applicant must:

- Be a Registered Nurse or a Registered Psychiatric Nurse holding a baccalaureate degree, normally in nursing.
- Registered Nurses must be eligible for active nursing registration in Alberta (registrants in the program must provide proof of active CARNA registration or equivalent each year); Registered Psychiatric Nurses are expected to provide proof of active registration with the College of Registered Psychiatric Nurses of Alberta (CRPNA) or equivalent each year.
- Have completed one undergraduate course (3 units) in statistics with a grade of "C" or better.

- d) Submit two references, one from someone capable of assessing the applicant's academic and research ability, normally an academic, and one from someone who can attest to the applicant's nursing practice and expertise.
- e) For applicants required to provide proof of proficiency in English, submit a minimum TOEFL score of 97 (Internet-based test); IELTS score of 7.0; PTE score of 68; or a CAEL overall score of 70 (no less than 70 on reading and writing sections). This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in writing courses.
- f) Have an interview(s) with a faculty member, if requested by the Faculty.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the Faculty of Graduate Studies' **requirements**, the Faculty of Nursing and Haskayne School of Business require the following:

Students admitted to the MN/MBA will focus on courses for the MN during the first year and on MBA courses in years two and three. Typically, the remaining courses required will be completed in year three. A total of 66.75 units is required.

Course requirements include:

a) MBA courses (51 units):

**Complete ALL of the following Courses:**

- ACCT601 - Introductory Financial Accounting  
**AND** ACCT603 - Management Accounting  
**AND** SGMA603 - Global Environment of Business  
**AND** BTMA601 - Business Technology Management  
**AND** ENTI601 - Entrepreneurial Thinking  
**AND** FNCE601 - Managerial Finance  
**AND** MGST611 - Managerial Economics  
**AND** MGST613 - Managerial Decision Modeling  
**AND** MGST615 - Strategic Business Analysis  
**AND** MKTG601 - Marketing Management  
**AND** OPMA601 - Operations Management  
**AND** OBHR601 - Organizational Behaviour  
**AND** OBHR621 - Advanced Leadership  
**AND** SGMA601 - Strategic Management I
- plus three elective courses (3 units each) in the student's area of interest.

b) MN courses (15 units):

**Complete ALL of the following Courses:**

- NURS611 - Theoretical Knowledge for Advanced Nursing Practice  
**AND** NURS630 - Quantitative Research and Statistics  
**AND** NURS632 - Writing Proposals for the Nursing Profession  
**AND** NURS660 - Cultivating Personal Leadership I  
**AND** NURS683 - Qualitative Designs And Analyses

#### Additional Comments:

Each student is expected to complete the online seminar Academic Scholarly Writing within the first two weeks of the

program.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

#### Credit for Undergraduate Courses

Under special circumstances, with the consent of the Faculty, students may take undergraduate courses, normally at the senior or 500-level, for the Master of Nursing degree.

#### Supervisory Assignments

No supervisor will be assigned.

#### Time Limit

Expected completion time for the Master of Nursing portion is one year. Maximum completion time is two years.

#### Financial Assistance

##### Type

Completion Requirement

##### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar. Scholarship application packages will be available on the Faculty of Nursing Website prior to each competition deadline. The application deadline for internal scholarships is February 1. Please note that the deadlines for external funding applications may not coincide with the February 1 deadline.

## Admissions

### Program Admissions Information

Deadline for the submission of completed applications for the MPP program is available on the Future Students website:

<http://www.ucalgary.ca/future-students/graduate/explore-programs/management-master-business-administration-course-based>.

Deadline for the submission of completed applications for the MBA (course-based) program is available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/management-master-business-administration-course-based>.

Students must meet the [admission](#) requirements for the Faculty of Graduate Studies and those for the [MBA and MPP programs](#). Please consult the MBA Admissions Officer or the MPP Office for more information.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#), the Haskayne School of Business and the School of Public Policy require:

Course requirements include:

a) MBA courses (51 units):

**Complete ALL of the following Course Sets:**

- MBA Courses (MBA/MPP combined)

plus:

- three elective courses (3 units each) in the student's area of interest.

b) MPP courses:

**Complete ALL of the following Course Sets:**

- Core MPP Courses

plus:

- A total of six units of electives. This can include [PPOL699 Topics in Public Policy](#) or other graduate-level coursework approved by the Graduate Program Director. The two elective courses should be related in such a way that they form a focus in an area of public policy.

#### Additional Comments:

For students enrolled in the MBA/MPP, one three-unit MBA course will be counted toward the MPP core requirements set out in (b) and one three-unit MBA course will be counted toward the elective requirement set out in (b). All other requirements set out in (a)-(b) apply to students in the joint program.

Students will normally focus on courses for the MBA during the first year and on MPP courses including [PPOL620 Capstone Preparation](#) and [PPOL623 Capstone Project](#) (capstone) in year two. Typically, the remaining courses will be completed in the first term of year three. Please consult the MBA or the MPP Office for more information.

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

The applicant must make [advanced credit](#) requests as part of the admission process. Credit will not normally be given for course work taken as part of another completed degree/diploma. If graduate-level courses are taken as post-BA courses and not used as credit towards another degree, the School may allow the student to claim up to 6 units at our graduate level towards the MPP requirements should the student be admitted into the MPP program.

### Flexible Grade Option (CG Grade)

Students admitted to the Master of Public Policy program will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade in a course taken extra-to-load.

The use of the CG grade will affect students' ability for internal awards.

### Credit for Undergraduate Courses

No credit will be given for courses taken below the 600-level, except in special cases.

### Time Limit

Maximum completion time for the MPP is four years.

### Supervisory Assignments and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

All MPP students in the program will be guided by faculty holding appointments to the School.

### Required Examinations

No additional examinations outside of the courses are required.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, please see the **Awards and Financial Assistance** section of this Calendar.

All admitted full-time MBA students will be automatically considered for Business scholarships.

## Overview

### General Program Information

#### Specialization:

- Bioinformatics

All students are considered full-time. In exceptional circumstances part-time status may be considered and must be approved by the Graduate Program Director.

Location: Health Sciences Centre, Room G341A

Email address: [bmbgrad@ucalgary.ca](mailto:bmbgrad@ucalgary.ca)

Web page URL: <https://cumming.ucalgary.ca/gse/programs/biochemistry-and-molecular-biology>

## Admissions

### Program Admissions Information

See <http://www.ucalgary.ca/future-students/graduate/explore-programs/biochemistry-molecular-biology-master-science-thesis-based>.

---

In addition to Faculty of Graduate Studies [requirements](#) and Cumming School of Medicine requirements, the program requires:

## Qualifications

- Four-year BSc degree or equivalent.
- A minimum admission grade point average of 3.30 (on the University of Calgary four-point system; equivalent to a "B+") based on the last two years of the undergraduate degree consisting of a minimum of 60 units.
- A minimum 3.30 grade point average is also required in courses relevant to the proposed field of study.

## English Language Proficiency

For applicants required to provide proof of proficiency in the English language:

- a minimum TOEFL internet based score of 105 (with no section less than 20), or
- a minimum IELTS overall band score of 7.5 (with no individual band less than 6.0), or
- a CAEL overall score of 70 (with no section less than 70), or
- a minimum PTE academic version score of 75, or
- Duolingo with score of 145 (with no subscore below 125), or
- Cambridge C1 Advanced or Cambridge C2 Proficiency with score of 200, or

This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.

## Immunizations

All students in graduate programs in the Cumming School of Medicine are required to complete a series of immunizations and diagnostic tests as outlined on the Student Immunization Worksheet.

Throughout their graduate program, students are required to ensure that immunizations are current and provide proof of updates to the Cumming School of Medicine. Failure to do so may result in students being removed from the program until such time as adequate proof has been provided. Please note that requirements may change during the program as determined by Alberta Health Services guidelines. Contact your Graduate Program Administrator for more information.

## Additional Requirements

- Master's applicants are required to arrange for the submission of two reference letters. References must follow the guidelines posted on the program's website for prospective students.
- A current curriculum vitae.
- Students must have confirmed a faculty member willing to supervise their studies.
- Endorsement by the Graduate Program Director that the applicant is acceptable and that adequate supervision in the proposed program is available.

Meeting the minimum admission criteria above does not guarantee acceptance into the program. Applications will be ranked according to academic excellence, prior research experience and commitment to the study of biochemistry and molecular biology.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculty of Graduate Studies [requirements](#) and Cumming School of Medicine requirements:

The minimum academic course requirement is normally 6 units, which is met by:

- the satisfactory completion of [MDGE721 BCEM Molec Biol: Sci Data Comm](#) (1 unit) and two additional 1-unit [MDGE courses](#), excluding Medical Graduate Education 755; and
- the satisfactory completion of additional 3 units in graduate-level courses in an area that is pertinent to the student's thesis project and approved by the supervisor and supervisory committee.
- Bioinformatics specialization students are required to take the Foundations of Bioinformatics course - [MDGE610 Foundations of Bioinformatics](#). [MDGE612 Foundations Machine Learning](#) - Foundations of Machine Learning is highly recommended.

Exceptions require the approval of the Graduate Program Director.

Each student is required to participate regularly in journal club and work-in-progress seminar programs organized by the Department, Institute or Research Group to which the student and supervisor belong. The student will present at least one journal club seminar and one work-in-progress presentation per year.

### Research Integrity Day

Research Integrity Day is a Research Ethics session offered several times each year. All graduate students in the Cumming School of Medicine are required to attend Research Integrity Day in the first year of their program as part of their course requirements. See the Graduate Science Education <https://cumming.ucalgary.ca/gse/current-students/research-integrity-day> for details and to register for the Research Integrity Day session.

### Sex and Gender Training Module

The inclusion of Sex and Gender in Research programs is becoming more prominent. All graduate students in the Cumming School of Medicine are required to complete one of the CIHR sex and gender online training modules found at <http://www.discoversexandgender.ca/> within the first year of their program.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

Applicants must make requests for [Advanced Credit](#) as part of the admission process. Credit will not be given for academic course work taken as part of another completed degree/diploma or for courses taken to bring an applicant's grade point average to a required level for admission. Any credit to be given for courses completed will be included in the letter of offer for admission to the Faculty of Graduate Studies.

### Flexible Grade Option (CG Grade)

Students admitted to the graduate programs in the Cumming School of Medicine will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.  
The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Credit may be given for courses taken below the 600 level. At least one half of a graduate student's course work must be at the 600 level or higher. Students may receive credit for completing a course numbered 500-599 providing that the course is recommended by the supervisory committee and approval is received by the Graduate Program Director.

## Time Limit

Completion times follow the Faculty of Graduate Studies regulations (see [Time Limits](#)):

Maximum completion time for a thesis-based master's program is four years. Expected completion time is two and a half years.

## Supervisory Assignment, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

The selection of a graduate supervisor must be by mutual agreement between the student and the faculty member concerned at the time of the application to the program and approved by the Graduate Program Director. Supervisors must commit to supporting the student for the duration of their graduate studies before admission is recommended.

Supervisory committees, required for both master's and doctoral students, are established based upon the needs of the student and the expertise of the committee members, following discussions between the students and the supervisor and approved by the Graduate Program Director. A supervisory committee, consisting of supervisor and co-supervisor (if applicable), plus two additional members, must be in place no later than 3 months after the appointment of the permanent supervisor.

## Research Proposal Requirements

All MSc students must defend a written research proposal to their supervisory committee. This document must be submitted within 12 months after initial registration in the program.

## Required Examinations

### Thesis Examination

All students in thesis-based programs (MSc and PhD) must successfully pass the Final Thesis Oral Examination (see [Thesis Examinations](#)).

All MSc examinations will consist of a 10-minute presentation by the candidate followed by an open oral examination. An MSc student can also elect to do a public seminar prior to the examination; in this case the 10-minute presentation at the beginning of examination can be eliminated.

Normally, students are required to give a separate public seminar prior to their oral examination. If, under extenuating circumstances, the public seminar cannot precede the oral examination, the student will give a 10-minute presentation summarizing the thesis at the start of the exam.

During these public seminars members of the examining committee will not be permitted to ask questions.

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

#### *Composition of the Examination Committee*

## UCalgary

For MSc thesis examinations, the examination committee will consist of the student's supervisory committee (which includes the supervisor) plus an Internal/External Examiner, who may be internal to the student's home program.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Students in thesis-based graduate programs will receive a graduate stipend as outlined in the Cumming School of Medicine Funding Policy and can be found at <https://cumming.ucalgary.ca/gse/current-students/scholarships>.

Students are expected to apply to external agencies for financial support from scholarships or studentship awards and for University of Calgary Scholarships (see [Awards and Financial Assistance](#) section of this Calendar). Possible sources of financial support are listed on the Faculty of Graduate Studies website: <https://grad.ucalgary.ca/awards>.

## Overview

### General Program Information

#### Specialization:

- Bioinformatics

All students are considered full-time. In exceptional circumstances part-time status may be considered and must be approved by the Graduate Program Director.

### Program Admissions Information

See <http://www.ucalgary.ca/future-students/graduate/explore-programs/biochemistry-molecular-biology-doctor-philosophy-thesis-based>.

In addition to the Faculty of Graduate Studies regulations, the Cumming School of Medicine graduate programs require:

## Qualifications

- MSc degree, or relevant master's degree, recognized by the Faculty of Graduate Studies, or transfer from MSc program, or, in exceptional cases, BSc degree or equivalent.
- A minimum admission grade point average of 3.30 (on the University of Calgary four-point system; equivalent to a "B+") based on the last two years of the undergraduate degree consisting of a minimum of 60 units and any master's course work if applicable.
- A minimum 3.30 grade point average is also required in courses relevant to the proposed field of study.

## English Language Proficiency

For applicants required to provide proof of proficiency in the English language:

- a minimum TOEFL internet based score of 105 (with no section less than 20), or

- a minimum IELTS overall band score of 7.5 (with no individual band less than 6.0), or
- a CAEL overall score of 70 (with no section less than 70), or
- a minimum PTE academic version score of 75, or
- Duolingo with score of 145 (with no subscore below 125), or
- Cambridge C1 Advanced or Cambridge C2 Proficiency with score of 200, or

This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.

## Immunizations

All students in graduate programs in the Cumming School of Medicine are required to complete a series of immunizations and diagnostic tests as outlined on the Student Immunization Worksheet.

Throughout their graduate program, students are required to ensure that immunizations are current and provide proof of updates to the Cumming School of Medicine. Failure to do so may result in students being removed from the program until such time as adequate proof has been provided. Please note that requirements may change during the program as determined by Alberta Health Services guidelines. Contact your Graduate Program Administrator for more information.

## Additional Requirements

- Doctoral applicants are required to arrange for the submission of three reference letters. References must follow the guidelines posted on the program's website for prospective students.
- A current curriculum vitae.
- Students must have confirmed a faculty member willing to supervise their studies.
- Endorsement by the Graduate Program Director that the applicant is acceptable and that adequate supervision in the proposed program is available.

Meeting the minimum admission criteria above does not guarantee acceptance into the program. Applications will be ranked according to academic excellence, prior research experience and commitment to the study of biochemistry and molecular biology.

- the satisfactory completion of additional 6 units in graduate-level courses in an area that is pertinent to the student's thesis project and approved by the supervisor and supervisory committee.
- Only one [MDSC755 Directed Study](#) or [MDGE755 Directed Studies](#) course can be taken for credit.
- Bioinformatics specialization students are required to take the Foundations of Bioinformatics course - [MDGE610 Foundations of Bioinformatics](#). [MDGE612 Foundations Machine Learning](#) - Foundations of Machine Learning is highly recommended.

Exceptions require the approval of the Graduate Program Director.

Each student is required to participate regularly in journal club and work-in-progress seminar programs organized by the Department, Institute or Research Group to which the student and supervisor belong. The student will present at least one journal club seminar and one work-in-progress presentation per year.

## Research Integrity Day

Research Integrity Day is a Research Ethics session offered several times each year. All graduate students in the Cumming School of Medicine are required to attend Research Integrity Day in the first year of their program as part of their course requirements. See the Graduate Science Education <https://cumming.ucalgary.ca/gse/current-students/research-integrity-day> for details and to register for the Research Integrity Day session.

## Sex and Gender Training Module

The inclusion of Sex and Gender in Research programs is becoming more prominent. All graduate students in the Cumming School of Medicine are required to complete one of the CIHR sex and gender online training modules found at <http://www.discoversexandgender.ca/> within the first year of their program.

### Additional Program Information

#### Type

Completion Requirement

#### Additional Comments:

## Advanced Credit

Applicants must make requests for **Advanced Credit** as part of the admission process. Credit will not be given for academic course work taken as part of another completed degree/diploma or for courses taken to bring an applicant's grade point average to a required level for admission. Any credit to be given for courses completed will be included in the letter of offer for admission to the Faculty of Graduate Studies.

## Flexible Grade Option (CG Grade)

Students admitted to the graduate programs in the Cumming School of Medicine will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Credit may be given for courses taken below the 600 level. At least one half of a graduate student's course work must be at the 600 level or higher. Students may receive credit for completing a course numbered 500-599 providing that the course is recommended by the supervisory committee and approval is received by the Graduate Program Director.

## Time Limit

Completion times follow the Faculty of Graduate Studies regulations (see **Time Limits**):

Maximum completion time for a doctoral program is six years. Expected completion time is five years.

### Supervisory Assignment, Research Proposal and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

## Supervisory Assignments

The selection of a graduate supervisor must be by mutual agreement between the student and the faculty member concerned at the time of the application to the program and approved by the Graduate Program Director. Supervisors must commit to supporting the student for the duration of their graduate studies before admission is recommended.

Supervisory committees, required for both master's and doctoral students, are established based upon the needs of the student and the expertise of the committee members, following discussions between the students and the supervisor and approved by the Graduate Program Director. A supervisory committee, consisting of supervisor and co-supervisor (if applicable), plus two additional members, must be in place no later than 3 months after the appointment of the permanent supervisor.

## Research Proposal Requirements

All PhD students must defend a written research proposal to their supervisory committee. For additional information about the PhD research proposal, refer to: <https://wcm.ucalgary.ca/gse/files/gse/csm-candidacy-examination-process-effective-september-1-2015.pdf>.

## Required Examinations

### Candidacy

To enter candidacy, students must: (1) successfully complete all required courses, (2) attend Research Integrity Day (3) successfully complete the CIHR Sex and Gender in Research online training module(s), (4) have the thesis research proposal approved at a thesis proposal evaluation meeting, and (5) successfully complete a Field of Study oral examination. Specific details of the examination format and other candidacy requirements can be found at:

<https://wcm.ucalgary.ca/gse/files/gse/csm-candidacy-examination-process-effective-september-1-2015.pdf>.

### Thesis Examination

All students in thesis-based programs (MSc and PhD) must successfully pass the Final Thesis Oral Examination (see [Thesis Examinations](#)).

PhD students are expected to give a public seminar prior to the examination. During this public seminar, members of the examining committee will not be permitted to ask questions, and this presentation is not considered part of the examination.

PhD examinations will consist of an open oral examination. If the student has not given a public seminar immediately prior to the examination, they may be offered the opportunity to give a 15-minute presentation at the beginning of the examination.

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

#### *Composition of the Examination Committee*

For a doctoral thesis examination, the examination committee will consist of the supervisory committee, an internal/external examiner (who may be internal to the student's home program), PLUS an external examiner who is external to the University of Calgary. The external examiner must be approved by the MDBC program director and the Faculty of Graduate Studies.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Students in thesis-based graduate programs will receive a graduate stipend as outlined in the Cumming School of Medicine Funding Policy and can be found at <https://cumming.ucalgary.ca/gse/current-students/scholarships>.

Students are expected to apply to external agencies for financial support from scholarships or studentship awards and for University of Calgary Scholarships (see [Awards and Financial Assistance](#) section of this Calendar). Possible sources of financial support are listed on the Faculty of Graduate Studies website: <https://grad.ucalgary.ca/awards>.

## Overview

### General Program Information

The Master of Biomedical Technology is a continuous program with no scheduled break. Students who do not enrol in courses continuously will be withdrawn from the program for failure to register unless they are on an approved leave of absence. All students are considered full-time.

---

The Master of Biomedical Technology Graduate Program and the Haskayne School of Business offer a **Combined M.** Contact the Graduate Science Education Office for further information.

---

Location: Health Sciences Centre, Room G341A

For prospective students: <mailto:gseadmissions@ucalgary.ca>

For current students: <mailto:mbtgrad@ucalgary.ca>

Web page URL: <https://cumming.ucalgary.ca/gse/programs/biomedical-technology>

## Admissions

### Program Admissions Information

See the Future Students website at <http://www.ucalgary.ca/future-students/graduate/explore-programs/biomedical-technology-master-biomedical-technology-course-based>.

---

In addition to the Faculty of Graduate Studies and Cumming School of Medicine requirements, the program requires:

## Qualifications

- Normally, a four-year BSc degree in biological sciences or equivalent.
- A minimum admission grade point average of 3.30 (on the University of Calgary four-point system; equivalent to a "B+") based on the last two years of the undergraduate degree consisting of a minimum of 60 units.

## English Language Proficiency

For applicants required to provide proof of proficiency in the English language:

- a minimum TOEFL internet based score of 105 (with no section less than 20), or
- a minimum IELTS overall band score of 7.5 (with no individual band less than 6.0), or
- a CAEL overall score of 70 (with no section less than 70), or
- a minimum PTE academic version score of 75, or
- Duolingo with score of 145 (with no subscore below 125), or
- Cambridge C1 Advanced or Cambridge C2 Proficiency with score of 200, or

This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in each course.

## Immunizations

All students in graduate programs in the Cumming School of Medicine are required to complete a series of immunizations and diagnostic tests as outlined on the Student Immunization Worksheet.

Throughout their graduate program, students are required to ensure that immunizations are current and provide proof of updates to the Cumming School of Medicine. Failure to do so may result in students being removed from the program until such time as adequate proof has been provided. Please note that requirements may change during the program as determined by Alberta Health Services guidelines. Contact your Graduate Program Administrator for more information.

## Additional Requirements

- Applicants are required to arrange for the submission of two reference letters. References must follow the guidelines posted on the program's website for prospective students.
- A current curriculum vitae.
- A Vision Statement (no more than one page in length) outlining career goals, and how the MBT program will help to achieve them.

## Suggested Preparatory Courses

Genetics ([BIOL311 Principles of Genetics](#) or equivalent), Cellular and Molecular Biology ([BIOL331 Introduction to CMMB](#) or equivalent), Biochemistry or macro molecules ([BCEM393 Introduction to Biochemistry](#) or equivalent), and senior-level course work in at least two of the following subject areas: microbiology, immunology, pharmacology and/or physiology.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the Faculty of Graduate Studies [requirements](#) and Cumming School of Medicine requirements, the program requires:

a) 31 units of courses:

##### Enroll in the following Course Sets:

- Master of Biomedical Technology Courses

b) 6-unit practicum [MDBT670 Practicum in Biomedical Techno](#) (runs over Spring and Summer)

It is required that MDBT students will successfully complete all Fall and Winter courses prior to beginning their practicum.

#### Additional Comments:

### Research Integrity Day

Research Integrity Day is a Research Ethics session offered several times each year. All graduate students in the Cumming School of Medicine are required to attend Research Integrity Day in the first year of their program as part of their course requirements. See the Graduate Science Education <https://cumming.ucalgary.ca/gse/current-students/research-integrity-day> for details and to register for the Research Integrity Day session.

### Sex and Gender Training Module

The inclusion of Sex and Gender in Research programs is becoming more prominent. All graduate students in the Cumming School of Medicine are required to complete one of the CIHR sex and gender online training modules found at <http://www.discoversexandgender.ca/> within the first year of their program.

#### Additional Program Information

##### Type

##### Completion Requirement

#### Additional Comments:

### Advanced Credit

In consultation with the Graduate Program Director, [Advanced Credit](#) may be requested in accordance with Faculty of

Graduate Studies regulations. Applicants must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Any credit to be given for courses completed will be included in the letter of offer for admission to the Faculty of Graduate Studies.

## Credit for Undergraduate Courses

Credit will not be given for undergraduate-level courses.

## Time Limit

The program is completed in one year on a full-time basis.

## Supervisory Assignments

The Graduate Program Director will serve as advisor for all newly admitted students. In the MBT program, there is no requirement for students to have a supervisor.

## Overview

### General Program Information

#### Specializations:

- **BioStatist**
- Community Rehabilitation and Disability Studies
- Epidemiology
- Healthcare Epidemiology
- Clinical Epidemiology
- Health Economics
- Health Services Research
- Medical Education
- Population/Public Health

Within the thesis-based programs, the student must select a specialization from the list above.

Descriptions of each specialization and its requirements are found on the website at:

<http://cumming.ucalgary.ca/gse/programs/community-health-sciences>.

### Part-time/Full-time Study

There is a part-time option for students in the thesis-based degree programs providing that they obtain permission from the department and the Graduate Program Director.

Location: Health Sciences Centre, Room G341A

Email address: <mailto:chsgrad@ucalgary.ca>

Web page URL: [GSE Community Health Sciences | Cumming School of Medicine | University of Calgary \(ucalgary.ca\)](http://cumming.ucalgary.ca/gse/programs/community-health-sciences)

## Admissions

### Program Admissions Information

The deadlines for the submission of complete applications are available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/community-health-sciences-master-science-thesis-based>.

Students applying to the MD/MSc or MD/PhD program must apply individually to each program and complete a supplementary application for the Leaders in Medicine Program.

In addition to the Cumming School of Medicine requirements, the program requires:

- Minimum admission grade point average of 3.30 on a four-point scale over the last two years consisting of a minimum of 60 units.
- A statement outlining the applicant's interest and reasons for choosing the program.
- A letter from a faculty member of our Department indicating interest in supervising the applicant.
- Work and/or research experience in the health system, community rehabilitation and/or disability studies is highly recommended.
- Two letters of reference. Note: When choosing your references, it is preferred that you choose individuals, other than your supervisor.

## English Language Proficiency

For applicants required to provide proof of proficiency in the English language:

- a minimum TOEFL internet based score of 105 (with no section less than 20), or
- a minimum IELTS overall band score of 7.5 (with no individual band less than 6.0), or
- a CAEL overall score of 70 (with no section less than 70), or
- a minimum PTE academic version score of 75, or
- Duolingo with score of 145 (with no subscore below 125), or
- Cambridge C1 Advanced or Cambridge C2 Proficiency with score of 200, or

This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.

## Immunizations

All students in graduate programs in the Cumming School of Medicine are required to complete a series of immunizations and diagnostic tests as outlined on the Student Immunization Worksheet.

Throughout their graduate program, students are required to ensure that immunizations are current and provide proof of updates to the Cumming School of Medicine. Failure to do so may result in students being removed from the program until such time as adequate proof has been provided. Please note that requirements may change during the program as determined by Alberta Health Services guidelines. Contact your Graduate Program Administrator for more information.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the Faculty of Graduate Studies [requirements](#) and Cumming School of Medicine requirements:

Complete ONE of the specialization requirement sets below:

**Complete at least 1 of the following requirement sets:**

- MSc, Community Health Sciences, Clinical Epidemiology
- MSc, Community Health Sciences, Community Rehabilitation and Disability Studies
- MSc, Community Health Sciences, Epidemiology
- MSc, Community Health Sciences, Health Economics

- MSc, Community Health Sciences, Health Services Research
- MSc, Community Health Sciences, Healthcare Epidemiology
- MSc, Community Health Sciences, Medical Education
- MSc, Community Health Sciences, Population and Public Health

For MSc, Community Health Sciences, Biostatistics, see [BioStatist](#).

### Additional Comments:

Each student is expected to attend and participate in the regularly scheduled [CHS-OIPH seminars](#).

## Research Integrity Day

Research Integrity Day is a Research Ethics session offered several times each year. All graduate students in the Cumming School of Medicine are required to attend Research Integrity Day in the first year of their program as part of their course requirements. See the Graduate Science Education <https://cumming.ucalgary.ca/gse/current-students/research-integrity-day> for details and to register for the Research Integrity Day session.

## Sex and Gender Training Module

The inclusion of Sex and Gender in Research programs is becoming more prominent. All graduate students in the Cumming School of Medicine are required to complete one of the CIHR sex and gender online training modules found at <http://www.discoversexandgender.ca/> within the first year of their program.

### Additional Program Information

#### Type

Completion Requirement

### Additional Comments:

## Advanced Credit

Open Studies Students may take courses before applying for admission to a graduate program. However, these students are not eligible to enrol in the Block Week course: Introduction to Community Health Sciences ([MDCH600 Intro to Comm Health Sciences](#)) or Health Research Methods ([MDCH681 Health Research Methods](#)). A maximum of 6 units, completed at a satisfactory level (minimum "B+") and within three years of admission to the graduate program, may be credited toward a student's degree requirements. Completing courses does not guarantee admission into the program.

## Flexible Grade Option (CG Grade)

The Graduate programs in the Cumming School Medicine will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the Cumming School of Medicine.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

The program does not normally give credit for undergraduate courses.

## Time Limit

Completion times follow the Faculty of Graduate Studies regulations (see [Time Limits](#)):

Maximum completion time for a thesis-based master's program is four years. Expected completion time is two years.

### Supervisory Assignments, Research Proposal and Required Examinations

**Type**

Completion Requirement

**Additional Comments:**

## Supervisory Assignments

The selection of a graduate supervisor must be by mutual agreement between the student and the faculty member concerned at the time of the application to the program and approved by the Graduate Program Director. Supervisors must commit to supporting the student for the duration of their graduate studies, before admission is recommended.

Supervisory committees, required for both master's and doctoral students, are established based upon the needs of the student and the expertise of the committee members, following discussions between the student and the supervisor and approved by the Graduate Program Director. A supervisory committee, consisting of a supervisor and co-supervisor (if applicable), plus two additional members, must be in place no later than 3 months after the student's first registration in the program.

## Research Proposal Requirements

The supervisory committee must approve the formal Thesis Proposal prior to students commencing their research. MSc research proposals should be submitted and approved within 12 months of the start of program.

After approval by the student's supervisory committee and before commencement of data collection, all proposals are submitted to the Conjoint Health Research Ethics Board for ethical review, and some are submitted to the appropriate committee for impact review.

## Required Examinations

In addition to the Faculty of Graduate Studies requirements, the program requires:

### Thesis Examination

All students in thesis-based programs (MSc and PhD) must successfully pass the Final Thesis Oral Examination (see [Thesis Examinations](#)).

All MSc examinations in MDCH will consist of a 10-minute presentation by the candidate followed by an open oral examination. No public seminar is expected.

#### *Scheduling of the Examination*

All members of the supervisory committee must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Examination Committee*

For MSc thesis examinations, the examination committee will consist of the student's supervisory committee (which includes the supervisor) plus an Internal/External Examiner, who may be internal to the student's home program.

## Financial Assistance

**Type**

- Cambridge C1 Advanced or Cambridge C2 Proficiency with score of 200, or

This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.

## Immunizations

All students in graduate programs in the Cumming School of Medicine are required to complete a series of immunizations and diagnostic tests as outlined on the Student Immunization Worksheet.

Throughout their graduate program, students are required to ensure that immunizations are current and provide proof of updates to the Cumming School of Medicine. Failure to do so may result in students being removed from the program until such time as adequate proof has been provided. Please note that requirements may change during the program as determined by Alberta Health Services guidelines. Contact your Graduate Program Administrator for more information.

## Additional Requirements

- Applicants to the MSc program are required to arrange for the submission of two reference letters. References must follow the guidelines posted on the program's website for prospective students.
- Students must have confirmed a faculty member willing to supervise their studies.
- Endorsement by the Graduate Program Director that the applicant is acceptable and that adequate supervision in the proposed program is available.

Meeting the minimum admission criteria above does not guarantee acceptance into the program. Applications will be ranked according to academic excellence, prior research experience and commitment to the study of cardiovascular and respiratory sciences.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculty of Graduate Studies [requirements](#) and Cumming School of Medicine requirements:

The amount of course work to be undertaken is determined by the student's supervisory committee; however, it also must meet the minimum requirements of the program.

The minimum academic course requirement is normally 6 units. At least one course (3 units) should be from the list of [recommended MDCV graduate courses](#).

Each student is required to participate regularly in journal club and work-in-progress seminar programs organized by the Department, Institute or Research Group to which the student and supervisor belong. The student will present at least one journal club seminar and one work-in-progress presentation per year.

### Research Integrity Day

Research Integrity Day is a Research Ethics session offered several times each year. All graduate students in the Cumming School of Medicine are required to attend Research Integrity Day in the first year of their program as part of their course requirements. See the Graduate Science Education <https://cumming.ualgary.ca/gse/current-students/research-integrity-day> for details and to register for the Research Integrity Day session.

### Sex and Gender Training Module

The inclusion of Sex and Gender in Research programs is becoming more prominent. All graduate students in the Cumming School of Medicine are required to complete one of the CIHR sex and gender online training modules found at <http://www.discoversexandgender.ca/> within the first year of their program.

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

Applicants must make requests for [Advanced Credit](#) as part of the admission process. Credit will not be given for academic course work taken as part of another completed degree/diploma or for courses taken to bring the applicant's grade point average to a required level for admission. Any credit to be given for courses completed will be included in the letter of offer for admission to the Faculty of Graduate Studies.

### Flexible Grade Option (CG Grade)

Students admitted to the graduate programs in the Cumming School of Medicine will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Credit may be given for courses taken below the 600 level. At least one half of a graduate student's course work must be at the 600 level or higher. Students may receive credit for completing a course numbered 500-599, providing that the course is recommended by the supervisory committee and a written approval is received by the program director.

### Time Limit

Completion times follow the Faculty of Graduate Studies regulations (see [Time Limits](#)):

Maximum completion time for a thesis-based master's program is four years. Expected completion time is two and a half years.

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

The selection of a graduate supervisor must be by mutual agreement between the student and the faculty member concerned at the time of application to the program and approved by the Graduate Program Director. The supervisor will be a member of one of the recognized research institutes within the Cumming School of Medicine (e.g. Libin Cardiovascular Institute, Hotchkiss Brain Institute, Snyder Chronic Disease Institute, etc.).

Supervisory committees, required for both master's and doctoral students, are established based upon the needs of the student and the expertise of the committee members, following discussions between the student and the supervisor and approved by the Graduate Program Director. A supervisory committee, consisting of supervisor and co-supervisor (if applicable), plus two additional members, must be in place no later than 3 months after the student's first registration in the program.

## Research Proposal Requirements

All MSc and PhD students must defend a written research proposal to their supervisory committee. For MSc students, this document must be submitted within 12 months after initial registration in the program.

## Required Examinations

### Thesis Examination

All students in thesis-based programs (MSc and PhD) must successfully pass the Final Thesis Oral Examination (see [Thesis Examinations](#)).

All MSc examinations will consist of a 10-minute presentation by the candidate followed by an open oral examination. An MSc student can also elect to do a public seminar prior to the examination; in this case the 10-minute presentation at the beginning of examination can be eliminated.

Normally, students are required to give a separate public seminar prior to their oral examination. If, under extenuating circumstances, the public seminar cannot precede the oral examination, the student will give a 10-minute presentation summarizing the thesis at the start of the exam.

During these public seminars members of the examining committee will not be permitted to ask questions.

#### *Scheduling of the Examination*

All members of the supervisory committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

#### *Composition of the Examination Committee*

For MSc thesis examinations, the examination committee will consist of the student's supervisory committee (which includes the supervisor) plus an Internal/External Examiner, who may be internal to the student's home program. For a doctoral thesis examination, the examination committee will consist of the supervisory committee, an internal/external examiner (who may be internal to the student's home program), PLUS an external examiner who is external to the University of Calgary. The external examiner must be approved by the program director and the Faculty of Graduate Studies.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Students in thesis-based graduate programs will receive a graduate stipend as outlined in the Cumming School of Medicine Funding Policy and can be found at <https://cumming.ucalgary.ca/gse/faculty-and-staff/student-payments>.

Students are expected to apply to external agencies for financial support from scholarships or studentship awards and for University of Calgary Scholarships (see **Awards and Financial Assistance** section of this Calendar). Possible sources of financial support are listed on the Faculty of Graduate Studies website: <https://grad.ucalgary.ca/awards>.

## Overview

### General Program Information

All students are considered full-time. In exceptional circumstances part-time status may be considered and must be approved by the Graduate Program Director.

Location: Health Sciences Centre, Room 341A

Email address: <mailto:cvrgrad@ucalgary.ca>

Web page URL: <http://cumming.ucalgary.ca/gse/programs/cardiovascular-respiratory-sciences>

## Admissions

### Program Admissions Information

Deadlines for submission of required documents are available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/cardiovascular-respiratory-sciences-doctor-philosophy-thesis-based>.

In addition to the Faculty of Graduate Studies and the Cumming School of Medicine **requirements**, the program requires:

## Qualifications

- MSc degree, or relevant master's degree, recognized by the Faculty of Graduate Studies, or transfer from MSc program, or, in exceptional cases, four year BSc degree or equivalent.
- A minimum admission grade point average of 3.30 (on the University of Calgary four-point system; equivalent to a "B+") based on the last two years of the undergraduate degree consisting of a minimum of 60 units and any master's course work if applicable.

## English Language Proficiency

For applicants required to provide proof of proficiency in the English language:

- a minimum TOEFL internet based score of 105 (with no section less than 20), or
- a minimum IELTS overall band score of 7.5 (with no individual band less than 6.0), or
- a CAEL overall score of 70 (with no section less than 70), or
- a minimum PTE academic version score of 75, or
- Duolingo with score of 145 (with no subscore below 125), or
- Cambridge C1 Advanced or Cambridge C2 Proficiency with score of 200, or

This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in each course.

## Immunizations

All students in graduate programs in the Cumming School of Medicine are required to complete a series of immunizations and diagnostic tests as outlined on the Student Immunization Worksheet.

Throughout their graduate program, students are required to ensure that immunizations are current and provide proof of updates to the Cumming School of Medicine. Failure to do so may result in students being removed from the program until such time as adequate proof has been provided. Please note that requirements may change during the program as determined by Alberta

Health Services guidelines. Contact your Graduate Program Administrator for more information.

## Additional Requirements

- Doctoral applicants are required to arrange for the submission of three reference letters. References must follow the guidelines posted on the program's website for prospective students.
- Students must have confirmed a faculty member willing to supervise their studies.
- Endorsement by the Graduate Program Director that the applicant is acceptable and that adequate supervision in the proposed program is available.

Meeting the minimum admission criteria above does not guarantee acceptance into the program. Applications will be ranked according to academic excellence, prior research experience and commitment to the study of cardiovascular and respiratory sciences.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculty of Graduate Studies [requirements](#) and Cumming School of Medicine requirements:

The amount of course work to be undertaken is determined by the student's supervisory committee; however, it also must meet the minimum requirements of the program.

The minimum academic course requirement is normally 9 units. At least one course (3 units) should be from the list of [recommended MDCV graduate courses](#).

Students holding a completed BSc degree entering the PhD program are required to successfully complete a minimum of 9 units.

Students holding a completed MSc degree in the same area of study entering the PhD program are required to complete a minimum of 3 units, provided that a minimum of 6 units were completed during their prior MSc program. This topic should be discussed by the student's supervisory committee, which should then provide a recommendation to the graduate program director regarding the student's graduate course work.

Students transferring from the MSc program to the PhD program are required to complete a minimum of 3 additional units.

Students holding a completed MSc degree in an unrelated field of studies entering the PhD program are required to complete a minimum of 9 units unless otherwise agreed by the student's supervisory committee and approved by the graduate program director.

Each student is required to participate regularly in journal club and work-in-progress seminar programs organized by the Department, Institute or Research Group to which the student and supervisor belong. The student will present at least one journal club seminar and one work-in-progress presentation per year.

## Research Integrity Day

Research Integrity Day is a Research Ethics session offered several times each year. All graduate students in the Cumming School of Medicine are required to attend Research Integrity Day in the first year of their program as part of their course requirements. See the Graduate Science Education <https://cumming.ucalgary.ca/gse/current-students/research-integrity-day> for details and to register for the Research Integrity Day session.

## Sex and Gender Training Module

The inclusion of Sex and Gender in Research programs is becoming more prominent. All graduate students in the Cumming School of Medicine are required to complete one of the CIHR sex and gender online training modules found at <http://www.discoversexandgender.ca/> within the first year of their program.

## Additional Program Information

### Type

Completion Requirement

### Additional Comments:

## Advanced Credit

Applicants must make requests for **Advanced Credit** as part of the admission process. Credit will not be given for academic course work taken as part of another completed degree/diploma or for courses taken to bring an applicant's grade point average to a required level for admission. Any credit to be given for courses completed will be included in the letter of offer for admission to the Faculty of Graduate Studies.

## Flexible Grade Option (CG Grade)

Students admitted to the graduate programs in the Cumming School of Medicine will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Credit may be given for courses taken below the 600 level. At least one half of a graduate student's course work must be at the 600 level or higher. Students may receive credit for completing a course numbered 500-599, providing that the course is recommended by the supervisory committee and a written approval is received by the program director.

## Time Limit

Completion times follow the Faculty of Graduate Studies regulations (see **Time Limits**):

Maximum completion time for a doctoral program is six years. Expected completion time is five years.

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

The selection of a graduate supervisor must be by mutual agreement between the student and the faculty member concerned at the time of application to the program and approved by the Graduate Program Director. The supervisor will be a member of one of the recognized research institutes within the Cumming School of Medicine (e.g. Libin Cardiovascular Institute, Hotchkiss Brain Institute, Snyder Chronic Disease Institute, etc.).

Supervisory committees, required for both master's and doctoral students, are established based upon the needs of the student and the expertise of the committee members, following discussions between the student and the supervisor and approved by the Graduate Program Director. A supervisory committee, consisting of supervisor and co-supervisor (if applicable), plus two additional members, must be in place no later than 3 months after the student's first registration in the program.

## Research Proposal Requirements

All MSc and PhD students must defend a written research proposal to their supervisory committee. For additional information about the PhD research proposal, refer to: <http://wcm.ucalgary.ca/gse/files/gse/csm-candidacy-examination-process-effective-september-1-2015.pdf>.

## Required Examinations

### Doctoral Candidacy

To enter candidacy, doctoral students must: (1) successfully complete all required courses, (2) attend Research Integrity Day (3) successfully complete the CIHR Sex and Gender in Research online training module(s), (4) have the thesis research proposal approved at a thesis proposal evaluation meeting, and (5) successfully complete a Field of Study oral examination. Specific details of the examination format and other candidacy requirements can be found at:

<http://wcm.ucalgary.ca/gse/files/gse/csm-candidacy-examination-process-effective-september-1-2015.pdf>.

### Thesis Examination

All students in thesis-based programs (MSc and PhD) must successfully pass the Final Thesis Oral Examination (see [Thesis Examinations](#)).

PhD students are expected to give a public seminar prior to the examination. During this public seminar, members of the examining committee will not be permitted to ask questions, and this presentation is not considered part of the examination.

PhD examinations will consist of an open oral examination. If the student has not given a public seminar immediately prior to the examination, they may be offered the opportunity to give a 15-minute presentation at the beginning of the examination.

#### *Scheduling of the Examination*

All members of the supervisory committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

#### *Composition of the Examination Committee*

For a doctoral thesis examination, the examination committee will consist of the supervisory committee, an internal/external examiner (who may be internal to the student's home program), PLUS an external examiner who is external to the University of Calgary. The external examiner must be approved by the program director and the Faculty of Graduate Studies.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Students in thesis-based graduate programs will receive a graduate stipend as outlined in the Cumming School of Medicine Funding Policy and can be found at <https://cumming.ucalgary.ca/gse/faculty-and-staff/student-payments>.

Students are expected to apply to external agencies for financial support from scholarships or studentship awards and for University of Calgary Scholarships (see [Awards and Financial Assistance](#) section of this Calendar). Possible sources of financial support are listed on the Faculty of Graduate Studies website: <https://grad.ucalgary.ca/awards>.

- Endorsement by the Graduate Program Director that the applicant is acceptable and that adequate supervision in the proposed program is available.

Meeting the minimum admission criteria does not guarantee acceptance into the program. Applications are ranked according to academic excellence, prior research experience and commitment to the study of gastrointestinal sciences.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculty of Graduate Studies [requirements](#) and Cumming School of Medicine requirements, the Department requires:

- The minimum academic course requirement is normally 6 units, which is met by:
- the satisfactory completion of Gastrointestinal Physiology (Medical Science 637.01) in the first year, and
- the satisfactory completion of another 3-unit graduate-level course in an area that is pertinent to the student's thesis project and approved by the supervisor and supervisory committee.

Exceptions require the approval of the Graduate Program Director.

To qualify for an approved specialization, the supervisor and/or at least one member of the supervisory committee should have expertise in that specialization and the research in the thesis should be largely based in that discipline. In addition, the student should complete graduate course work deemed relevant/required by the supervisor and the supervisory committee for the student to be competent in the specialization.

Each student is required to participate regularly in journal club and work-in-progress seminar programs organized by the Department, Institute or Research Group to which the student and supervisor belong. The student will present at least one journal club seminar and one work-in-progress presentation per year.

## Research Integrity Day

Research Integrity Day is a Research Ethics session offered several times each year. All graduate students in the Cumming School of Medicine are required to attend Research Integrity Day in the first year of their program as part of their course requirements. See the Graduate Science Education <https://cumming.ucalgary.ca/gse/current-students/research-integrity-day> for details and to register for the Research Integrity Day session.

## Sex and Gender Training Module

The inclusion of Sex and Gender in Research programs is becoming more prominent. All graduate students in the Cumming School of Medicine are required to complete one of the CIHR sex and gender online training modules found at <http://www.discoversexandgender.ca/> within the first year of their program.

#### Additional Program Information

- Endorsement by the Graduate Program Director that the applicant is acceptable and that adequate supervision in the proposed program is available.

Meeting the minimum admission criteria does not guarantee acceptance into the program. Applications are ranked according to academic excellence, prior research experience and commitment to the study of gastrointestinal sciences.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculty of Graduate Studies [requirements](#) and Cumming School of Medicine requirements, the Department requires:

The minimum academic course requirement is normally 9 units, which is met by:

- the satisfactory completion of Gastrointestinal Physiology ([MDSC637.01 Organization Function GI Tract](#)) in the first year, and
- the satisfactory completion of two additional 3-unit graduate-level courses in an area that is pertinent to the student's thesis project and approved by the supervisor and supervisory committee.

Exceptions require the approval of the Graduate Program Director.

To qualify for an approved specialization, the supervisor and/or at least one member of the supervisory committee should have expertise in that specialization and the research in the thesis should be largely based in that discipline. In addition, the student should complete graduate course work deemed relevant/required by the supervisor and the supervisory committee for the student to be competent in the specialization.

Each student is required to participate regularly in journal club and work-in-progress seminar programs organized by the Department, Institute or Research Group to which the student and supervisor belong. The student will present at least one journal club seminar and one work-in-progress presentation per year.

#### Research Integrity Day

Research Integrity Day is a Research Ethics session offered several times each year. All graduate students in the Cumming School of Medicine are required to attend Research Integrity Day in the first year of their program as part of their course requirements. See the Graduate Science Education <https://cumming.ucalgary.ca/gse/current-students/research-integrity-day> for details and to register for the Research Integrity Day session.

#### Sex and Gender Training Module

The inclusion of Sex and Gender in Research programs is becoming more prominent. All graduate students in the Cumming School of Medicine are required to complete one of the CIHR sex and gender online training modules found at <http://www.discoversexandgender.ca/> within the first year of their program.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

#### Advanced Credit

Applicants must make requests for [Advanced Credit](#) as part of the admission process. Credit will not be given for academic course work taken as part of another completed degree/diploma or for courses taken to bring the applicant's grade point average to a required level for admission. Any credit to be given for courses completed will be included in the letter of offer for admission to the Faculty of Graduate Studies.

#### Flexible Grade Option (CG Grade)

Students admitted to the graduate programs in the Cumming School of Medicine will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Credit may be given for courses taken below the 600 level. At least one half of a graduate student's course work must be at the 600 level or higher. Students may receive credit for completing a course numbered 500-599 providing that the course is recommended by the supervisory committee and approval is received by the Graduate Program Director.

## Time Limit

Completion times follow the Faculty of Graduate Studies regulations (see **Time Limits**):

Maximum completion time for a doctoral program is six years. Expected completion time is five years.

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

The selection of a graduate supervisor must be by mutual agreement between the student and the faculty member concerned at the time of application to the program and approved by the Graduate Program Director.

Supervisory committees, required for both master's and doctoral students, are established based upon the needs of the student and the expertise of the committee members, following discussions between the student and the supervisor and approved by the Graduate Program Director. A supervisory committee, consisting of supervisor and co-supervisor (if applicable), plus two additional members, must be set up no later than 3 months after the student's first registration in the program.

## Research Proposal Requirements

All MSc and PhD students must defend a written research proposal to their supervisory committee. For additional information about the PhD research proposal, refer to: <http://wcm.ucalgary.ca/gse/files/gse/csm-candidacy-examination-process-effective-september-1-2015.pdf>.

## Required Examinations

### Doctoral Candidacy

To enter candidacy, doctoral students must: (1) successfully complete all required courses, (2) attend Research Integrity Day (3) successfully complete the CIHR Sex and Gender in Research online training module(s), (4) have the thesis research proposal approved at a thesis proposal evaluation meeting, and (5) successfully complete a Field of Study oral examination. Specific details of the examination format and other candidacy requirements can be found at: <https://wcm.ucalgary.ca/gse/files/gse/csm-candidacy-examination-process-effective-september-1-2015.pdf>.

### Thesis Examination

All students in thesis-based programs (MSc and PhD) must successfully pass the Final Thesis Oral Examination (see **Thesis Examinations**).

PhD students are expected to give a public seminar prior to the examination. During this public seminar, members of the examining committee will not be permitted to ask questions, and this presentation is not considered part of the examination.

PhD examinations will consist of an open oral examination. If the student has not given a public seminar immediately prior to the examination, they may be offered the opportunity to give a 15-minute presentation at the beginning of the examination.

## *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

## *Composition of the Examination Committee*

For a doctoral thesis examination, the examination committee will consist of the supervisory committee, an internal/external examiner (who may be internal to the student's home program), PLUS an external examiner who is external to the University of Calgary. The external examiner must be approved by the program director and the Faculty of Graduate Studies.

## **Financial Assistance**

### **Type**

Completion Requirement

### **Additional Comments:**

Students in thesis-based graduate programs will receive a graduate stipend as outlined in the Cumming School of Medicine Funding Policy and can be found at <https://cumming.ucalgary.ca/gse/current-students/scholarships>.

Students are expected to apply to external agencies for financial support from scholarships or studentship awards and for University of Calgary Scholarships (see **Awards and Financial Assistance** section of this Calendar). Possible sources of financial support are listed on the Faculty of Graduate Studies website: <https://grad.ucalgary.ca/awards>.

## **Overview**

### **General Program Information**

#### **Specialization:**

- Host-Pathogen Interactions

Faculty members are affiliated with the Cumming School of Medicine and the Faculties of Science and Veterinary Medicine.

The Immunology Graduate Program is offered in collaboration with the above faculties, and the curriculum has been designed for students with undergraduate or MSc degrees in those faculties. Background experience, qualifications, and areas of interest of applicants will be taken into account at the time of admission.

Students in the MSc and PhD degree programs are normally considered full-time.

## **Admissions**

### **Program Admissions Information**

Application deadlines are available on the Future Students webpages: <http://www.ucalgary.ca/future-students/graduate/explore-programs/immunology-master-science-thesis-based>.

In addition to the Faculty of Graduate Studies and the Cumming School of Medicine requirements, the program requires:

## **Qualifications**

- Four-year BSc degree or equivalent.

- A minimum admission grade point average of 3.30 (on the University of Calgary four-point system; equivalent to a "B+") based on the last two years of the undergraduate degree consisting of a minimum of 60 units.

---

### English Language Proficiency

For applicants required to provide proof of proficiency in the English language:

- a minimum TOEFL internet based score of 105 (with no section less than 20), or
- a minimum IELTS overall band score of 7.5 (with no individual band less than 6.0), or
- a CAEL overall score of 70 (with no section less than 70), or
- a minimum PTE academic version score of 75, or
- Duolingo with score of 145 (with no subscore below 125), or
- Cambridge C1 Advanced or Cambridge C2 Proficiency with score of 200, or

This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in each course.

---

### Immunizations

All students in graduate programs in the Cumming School of Medicine are required to complete a series of immunizations and diagnostic tests as outlined on the Student Immunization Worksheet.

Throughout their graduate program, students are required to ensure that immunizations are current and provide proof of updates to the Cumming School of Medicine. Failure to do so may result in students being removed from the program until such time as adequate proof has been provided. Please note that requirements may change during the program as determined by Alberta Health Services guidelines. Contact your Graduate Program Administrator for more information.

---

### Additional Requirements

- Applicants are required to arrange for the submission of two reference letters. References must follow the guidelines posted on the program's website for prospective students.
- An undergraduate course in immunology (Cellular, Molecular and Microbial Biology 527 or equivalent). It will be possible for a student to take Medical Science 640 during the first year of their program if they do not have an appropriate prerequisite course.
- Students must have confirmed a faculty member willing to supervise their studies.
- Endorsement by the Graduate Program Director that the applicant is acceptable and that adequate supervision in the proposed program is available.

Meeting the minimum admission criteria does not guarantee acceptance into the program. Applications are ranked according to academic excellence, prior research experience and commitment to the study of immunology.

### Program Details

#### Simple Requisites

##### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculty of Graduate Studies **requirements** and Cumming School of Medicine requirements, the Immunology Graduate Program requires:

The minimum academic course requirement is normally 6 units, which is met by:

- the satisfactory completion of Cellular and Molecular Immunology ([MDSC639.02 Cellular & Molecular Immunology](#)) and Inflammation ([MDSC639.04 Inflammation](#)) in the first year, and
- the satisfactory completion of another 3-unit graduate-level course in an area that is pertinent to the student's thesis project and approved by the supervisor and supervisory committee.

Each student is required to participate regularly in the Synder Institute graduate program seminar series and present at least one work in progress seminar per year.

Contributions to journals, relevant journal clubs and/or seminars are an expectation. Visit the program [website](#).

### Research Integrity Day

Research Integrity Day is a Research Ethics session offered several times each year. All graduate students in the Cumming School of Medicine are required to attend Research Integrity Day in the first year of their program as part of their course requirements. See the Graduate Science Education <https://cumming.ualgary.ca/gse/current-students/research-integrity-day> for details and to register for the Research Integrity Day session.

### Sex and Gender Training Module

The inclusion of Sex and Gender in Research programs is becoming more prominent. All graduate students in the Cumming School of Medicine are required to complete one of the CIHR sex and gender online training modules found at <http://www.discoversexandgender.ca/> within the first year of their program.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

Applicants must make request for [Advanced Credit](#) as part of the admission process. Credit will not be given for academic course work taken as part of another completed degree/diploma or for courses taken to bring the applicant's grade point average to a required level for admission. Any credit to be given for courses completed will be included in the letter of offer for admission to the Faculty of Graduate Studies.

### Flexible Grade Option (CG Grade)

Students admitted to the graduate programs in the Cumming School of Medicine will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Credit may be given for courses taken below the 600 level. At least one half of a graduate student's course work must be at the 600 level or higher. Students may receive credit for completing a course numbered 500-599 providing that the course is recommended by the supervisory committee and approval is received by the Graduate Program Director.

### Time Limit

Completion times follow the Faculty of Graduate Studies regulations (see [Time Limits](#)):

Maximum completion time for a thesis-based master's program is four years. Expected completion time is two and a half years.

#### Supervisory Assignments, Research Proposal and Required Examinations

**Type**

Completion Requirement

**Additional Comments:**

## Supervisory Assignments

The selection of a graduate supervisor must be by mutual agreement between the student and the faculty member concerned at the time of the application to the program and approved by the Graduate Program Director. Supervisors must commit to supporting the student for the duration of their graduate studies, before admission is recommended.

Supervisory committees, required for both master's and doctoral students, are established based upon the needs of the student and the expertise of the committee members, following discussions between the student and the supervisor and approved by the Graduate Program Director. A supervisory committee, consisting of supervisor and co-supervisor (if applicable), plus two additional members, must be in place no later than 3 months after the student's first registration in the program.

## Research Proposal Requirements

All MSc and PhD students must defend a written research proposal to their supervisory committee. For MSc students, this document must be submitted within 12 months after initial registration in the program.

## Required Examinations

### Thesis Examination

All students in thesis-based programs (MSc and PhD) must successfully pass the Final Thesis Oral Examination (see [Thesis Examinations](#)).

All MSc examinations will consist of a 10-minute presentation by the candidate followed by an open oral examination. An MSc student can also elect to do a public seminar prior to the examination; in this case the 10-minute presentation at the beginning of examination can be eliminated.

Normally, students are required to give a separate public seminar prior to their oral examination. If, under extenuating circumstances, the public seminar cannot precede the oral examination, the student will give a 10-minute presentation summarizing the thesis at the start of the exam.

During these public seminars members of the examining committee will not be permitted to ask questions.

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

#### *Composition of the Examination Committee*

For MSc thesis examinations, the examination committee will consist of the student's supervisory committee (which includes the supervisor) plus an Internal/External Examiner, who may be internal to the student's home program. For a doctoral thesis examination, the examination committee will consist of the supervisory committee, an internal/external examiner (who may be internal to the student's home program), PLUS an external examiner who is external to the University of Calgary. The external examiner must be approved by the MDCV program director and the Faculty of Graduate Studies.

## Financial Assistance

**Type**

Completion Requirement

**Additional Comments:**

Students in thesis-based graduate programs will receive a graduate stipend as outlined in the Cumming School of Medicine Funding Policy and can be found at <https://cumming.ucalgary.ca/gse/current-students/scholarships>.

Students are expected to apply to external agencies for financial support from scholarships or studentship awards and for University of Calgary Scholarships (see [Awards and Financial Assistance](#) section of this Calendar). Possible sources of financial support are listed on the Faculty of Graduate Studies website: <https://grad.ucalgary.ca/awards>.

Students may receive credit for completing a course numbered 500-599 providing that the course is recommended by the supervisory committee and approval is received by the Graduate Program Director.

### Time Limit

Completion times follow the Faculty of Graduate Studies regulations (see **Time Limits**):

Maximum completion time for a doctoral program is six years. Expected completion time is five years.

#### Supervisory Assignments, Research Proposal and Required Examinations

##### Type

Completion Requirement

##### Additional Comments:

### Supervisory Assignments

The selection of a graduate supervisor must be by mutual agreement between the student and the faculty member concerned at the time of the application to the program and approved by the Graduate Program Director. Supervisors must commit to supporting the student for the duration of their graduate studies, before admission is recommended.

Supervisory committees, required for both master's and doctoral students, are established based upon the needs of the student and the expertise of the committee members, following discussions between the student and the supervisor and approved by the Graduate Program Director. A supervisory committee, consisting of supervisor and co-supervisor (if applicable), plus two additional members, must be in place no later than 3 months after the student's first registration in the program.

### Research Proposal Requirements

All MSc and PhD students must defend a written research proposal to their supervisory committee. For additional information about the PhD research proposal, refer to: <http://wcm.ucalgary.ca/gse/files/gse/csm-candidacy-examination-process-effective-september-1-2015.pdf>.

### Required Examinations

## Candidacy

To enter candidacy, doctoral students must: (1) successfully complete all required courses, (2) attend Research Integrity Day (3) successfully complete the CIHR Sex and Gender in Research online training module(s), (4) have the thesis research proposal approved at a thesis proposal evaluation meeting, and (5) successfully complete a Field of Study oral examination. Specific details of the examination format and other candidacy requirements can be found at:

<http://wcm.ucalgary.ca/gse/files/gse/csm-candidacy-examination-process-effective-september-1-2015.pdf>.

## Thesis Examination

All students in thesis-based programs (MSc and PhD) must successfully pass the Final Thesis Oral Examination (see [Thesis Examinations](#)).

PhD students are expected to give a public seminar prior to the examination. During this public seminar, members of the examining committee will not be permitted to ask questions, and this presentation is not considered part of the examination.

PhD examinations will consist of an open oral examination. If the student has not given a public seminar immediately prior to the examination, they may be offered the opportunity to give a 15-minute presentation at the beginning of the examination.

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

### *Composition of the Examination Committee*

For MSc thesis examinations, the examination committee will consist of the student's supervisory committee (which includes the supervisor) plus an Internal/External Examiner, who may be internal to the student's home program. For a doctoral thesis examination, the examination committee will consist of the supervisory committee, an internal/external examiner (who may be internal to the student's home program), PLUS an external examiner who is external to the University of Calgary. The external examiner must be approved by the program director and the Faculty of Graduate Studies.

All MSc and PhD students must defend a written research proposal to their supervisory committee. For additional information about the PhD research proposal, refer to: <http://wcm.ucalgary.ca/gse/files/gse/csm-candidacy-examination-process-effective-september-1-2015.pdf>.

## Required Examinations

### Doctoral Candidacy

To enter candidacy, doctoral students must: (1) successfully complete all required courses, (2) attend Research Integrity Day (3) successfully complete the CIHR Sex and Gender in Research online training module(s), (4) have the thesis research proposal approved at a thesis proposal evaluation meeting, and (5) successfully complete a Field of Study oral examination. Specific details of the examination format and other candidacy requirements can be found at: <https://wcm.ucalgary.ca/gse/files/gse/csm-candidacy-examination-process-effective-september-1-2015.pdf>.

### Thesis Examination

All students in thesis-based programs (MSc and PhD) must successfully pass the Final Thesis Oral Examination (see [Thesis Examinations](#)).

PhD students are expected to give a public seminar prior to the examination. During this public seminar, members of the examining committee will not be permitted to ask questions, and this presentation is not considered part of the examination.

PhD examinations will consist of an open oral examination. If the student has not given a public seminar immediately prior to the examination, they may be offered the opportunity to give a 15-minute presentation at the beginning of the examination.

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

#### *Composition of the Examination Committee*

For a doctoral thesis examination, the examination committee will consist of the supervisory committee, an internal/external examiner (who may be internal to the student's home program), PLUS an external examiner who is external to the University of Calgary. The external examiner must be approved by the program director and the Faculty of Graduate Studies.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Students in thesis-based graduate programs will receive a graduate stipend as outlined in the Cumming School of Medicine Funding Policy and can be found at <https://cumming.ucalgary.ca/gse/current-students/scholarships>.

Students are expected to apply to external agencies for financial support from scholarships or studentship awards and for University of Calgary Scholarships (see **Awards and Financial Assistance** section of this Calendar). Possible sources of financial support are listed on the Faculty of Graduate Studies website: <https://grad.ucalgary.ca/awards>.

## Overview

### General Program Information

Students in the MSc are normally considered full-time.

### Specializations:

- [Comp Neuro](#)
- [Medical Im](#)

Location: Health Sciences Centre, Room G347C

Email address: <mailto:neurosci@ucalgary.ca>

Web page URL: <https://cumming.ucalgary.ca/gse/about/programs/neuroscience>

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students webpages: <https://grad.ucalgary.ca/future-students/explore-programs/neuroscience-msc-thesis-based>.

In addition to the Faculty of Graduate Studies and the Cumming School of Medicine requirements, the program requires:

## Qualifications

- Four-year BSc degree or equivalent.
- A minimum admission grade point average of 3.30 (on the University of Calgary four-point system; equivalent to a "B+") based on the last two years of the undergraduate degree consisting of a minimum of 60 units.

## English Language Proficiency

For applicants required to provide proof of proficiency in the English language:

- a minimum TOEFL internet based score of 105 (with no section less than 20), or
- a minimum IELTS overall band score of 7.5 (with no individual band less than 6.0), or
- a CAEL overall score of 70 (with no section less than 70), or
- a minimum PTE academic version score of 75, or
- Duolingo with score of 145 (with no subscore below 125), or
- Cambridge C1 Advanced or Cambridge C2 Proficiency with score of 200, or

This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.

### Immunizations

All students in graduate programs in the Cumming School of Medicine are required to complete a series of immunizations and diagnostic tests as outlined on the Student Immunization Worksheet.

Throughout their graduate program, students are required to ensure that immunizations are current and provide proof of updates to the Cumming School of Medicine. Failure to do so may result in students being removed from the program until such time as adequate proof has been provided. Please note that requirements may change during the program as determined by Alberta Health Services guidelines. Contact your Graduate Program Administrator for more information.

### Additional Requirements

- Applicants are required to arrange for the submission of two reference letters. References must follow the guidelines posted on the program's website for prospective students.
- Students must have confirmed a faculty member willing to supervise their studies.
- Endorsement by the Graduate Program Director that the applicant is acceptable and that adequate supervision in the proposed program is available.

Meeting the minimum admission criteria does not guarantee acceptance into the program. Applications are ranked according to academic excellence, prior research experience and commitment to the study of neuroscience.

### Program Details

#### Simple Requisites

##### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculty of Graduate Studies [requirements](#) and Cumming School of Medicine requirements:

The minimum academic course requirement is normally 6 units which is met by the satisfactory completion of Cellular, Molecular and Developmental Neuroscience ([MDSC619.01 Cellular, Molecular Neuroscience](#)), and Systems Neuroscience and Neuropathology ([MDSC619.02 Sys Neuroscience & Neuropath](#)) in the first year.

Each student is required to participate regularly in journal club and work-in-progress seminar programs organized by the Department, Institute or Research Group to which the student and supervisor belong. The student will present at least one journal club seminar and one work-in-progress presentation per year.

### Research Integrity Day

Research Integrity Day is a Research Ethics session offered several times each year. All graduate students in the Cumming School of Medicine are required to attend Research Integrity Day in the first year of their program as part of their course requirements. See the Graduate Science Education <https://cumming.ucalgary.ca/gse/current-students/research-integrity-day> for details and to register for the Research Integrity Day session.

### Sex and Gender Training Module

The inclusion of Sex and Gender in Research programs is becoming more prominent. All graduate students in the Cumming School of Medicine are required to complete one of the CIHR sex and gender online training modules found at <https://www.cihr-irsc-igh-isfh.ca/> within the first year of their program.

## Additional Program Information

### Type

Completion Requirement

### Additional Comments:

## Advanced Credit

Applicants must make requests for **Advanced Credit** as part of the admission process. Credit will not be given for academic course work taken as part of another completed degree/diploma or for courses taken to bring the applicant's grade point average to a required level for admission.

Any credit to be given for courses completed will be included in the letter of offer for admission to the Faculty of Graduate Studies.

## Flexible Grade Option (CG Grade)

Students admitted to the graduate programs in the Cumming School of Medicine will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Credit may be given for courses taken below the 600 level. At least one half of a graduate student's course work must be at the 600 level or higher. Students may receive credit for completing a course numbered 500-599 providing that the course is recommended by the supervisory committee and approval is received by the Graduate Program Director.

## Time Limit

Completion times follow the Faculty of Graduate Studies regulations (see **Time Limits**):

Maximum completion time for a thesis-based master's program is four years. Expected completion time is two and a half years.

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

The selection of a graduate supervisor must be by mutual agreement between the student and the faculty member concerned at the time of the application to the program and approved by the Graduate Program Director. Supervisors must commit to supporting the student for the duration of their graduate studies, before admission is recommended.

Supervisory committees, required for both master's and doctoral students, are established based upon the needs of the student and the expertise of the committee members, following discussions between the student and the supervisor and approved by the Graduate Program Director. A supervisory committee, consisting of supervisor and co-supervisor (if applicable), plus two additional members, must be in place no later than 3 months after the student's first registration in the program.

## Research Proposal Requirements

All MSc and PhD students must defend a written research proposal to their supervisory committee. For MSc students, this

document must be submitted within 12 months after initial registration in the program.

## Required Examinations

### Thesis Examination

All students in thesis-based programs (MSc and PhD) must successfully pass the Final Thesis Oral Examination (see [Thesis Examinations](#)).

All MSc examinations will consist of a 10-minute presentation by the candidate followed by an open oral examination. An MSc student can also elect to do a public seminar prior to the examination; in this case the 10-minute presentation at the beginning of examination can be eliminated.

Normally, students are required to give a separate public seminar prior to their oral examination. If, under extenuating circumstances, the public seminar cannot precede the oral examination, the student will give a 10-minute presentation summarizing the thesis at the start of the exam.

During these public seminars members of the examining committee will not be permitted to ask questions.

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

#### *Composition of the Examination Committee*

For MSc thesis examinations, the examination committee will consist of the student's supervisory committee (which includes the supervisor) plus an Internal/External Examiner, who may be internal to the student's home program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Students in thesis-based graduate programs will receive a graduate stipend as outlined in the Cumming School of Medicine Funding Policy and can be found at <https://cumming.ucalgary.ca/gse/current-students/scholarships>.

Students are expected to apply to external agencies for financial support from scholarships or studentship awards and for University of Calgary Scholarships (see [Awards and Financial Assistance](#) section of this Calendar). Possible sources of financial support are listed on the Faculty of Graduate Studies website: <https://grad.ucalgary.ca/awards>.

Students in thesis-based graduate programs will receive a graduate stipend as outlined in the Cumming School of Medicine Funding Policy and can be found at <https://cumming.ucalgary.ca/gse/current-students/scholarships>.

Students are expected to apply to external agencies for financial support from scholarships or studentship awards and for University of Calgary Scholarships (see **Awards and Financial Assistance** section of this Calendar). Possible sources of financial support are listed on the Faculty of Graduate Studies website: <https://grad.ucalgary.ca/awards>.

## Overview

### General Program Information

This degree is accredited by the National Accrediting Agency for Clinical Laboratory Science (NAACLS) and allows graduates to qualify for the American Society of Clinical Pathology (ASCP) and the Canadian Certification Council of Pathologists' Assistants (CCCPA) examinations.

This is a continuous program with no scheduled break. Students who do not enrol in courses for a period exceeding 4 months will be withdrawn from the program for failure to register unless they are on an approved **Leave of Absence**.

All students are considered full-time. Part-time status may be considered and must be approved by the Graduate Program Director.

Location: Health Sciences Centre, Graduate Science Education, G345A

For prospective students: <mailto:gseadmissions@ucalgary.ca>

For current students: <mailto:mpath@ucalgary.ca>

Web page URL: <http://cumming.ucalgary.ca/gse/programs/pathologists-assistant>

## Admissions

### Program Admissions Information

For application deadline, see the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/pathologists-assistant-master-pathologists-assistant-course-based>.

In addition to the Faculty of Graduate Studies and the Cumming School of Medicine requirements, the program requires:

## Qualifications

- Four-year BSc degree in biological sciences, or its equivalent.
- A minimum admission grade point average of 3.30 (on the University of Calgary four-point system; equivalent to a "B+") based on the last two years of the undergraduate degree consisting of a minimum of 60 units.

## English Language Proficiency

For applicants required to provide proof of proficiency in the English language:

- a minimum TOEFL internet based score of 105 (with no section less than 20), or
- a minimum IELTS overall band score of 7.5 (with no individual band less than 6.0), or

- a CAEL overall score of 70 (with no section less than 70), or
- a minimum PTE academic version score of 75, or
- Duolingo with score of 145 (with no subscore below 125), or
- Cambridge C1 Advanced or Cambridge C2 Proficiency with score of 200, or

This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.

## Immunizations

All students in graduate programs in the Cumming School of Medicine are required to complete a series of immunizations and diagnostic tests as outlined on the Student Immunization Worksheet.

Throughout their graduate program, students are required to ensure that immunizations are current and provide proof of updates to the Cumming School of Medicine. Failure to do so may result in students being removed from the program until such time as adequate proof has been provided. Please note that requirements may change during the program as determined by Alberta Health Services guidelines. Contact your Graduate Program Administrator for more information.

## Additional Requirements

- Applicants are required to submit two reference letters. References must follow the guidelines posted on the program's website for prospective students.
- A current Curriculum Vitae (CV).
- Students in the program will be required to complete a police background and vulnerable sector check before their practicum placements in the second year.

## Suggested Preparatory Courses

Principles of Genetics ([BIOL311 Principles of Genetics](#) or equivalent), Introduction to Cellular and Molecular Biology ([BIOL331 Introduction to CMMB](#) or equivalent), Introduction to Biochemistry ([BCEM393 Introduction to Biochemistry](#) or equivalent), and senior-level course work in at least two of the following subject areas: anatomy, physiology, pathology, microbiology, molecular biology, immunology, clinical laboratory medicine and histology.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to the Faculty of Graduate Studies [requirements](#) and Cumming School of Medicine requirements, the program requires all Pathologists' Assistant students to successfully complete 45 units:

##### Enroll in the following Course Sets:

- **Medical Pathologist's Assistant Required Courses**

It is required that all PA students will successfully complete (minimum "B-") all Fall and Winter courses prior to beginning their practicum.

In addition to the courses listed, students must complete an online medical terminology course.

#### Additional Comments:

### Additional Requirements

Police background check and vulnerable service search are required 90 days before starting the second year practicum.

Ability to perform the Essential Functions of a Pathologists' Assistant, as described in the [Pathologists' Assistant Student Handbook](#).

## Research Integrity Day

Research Integrity Day is a Research Ethics session offered several times each year. All graduate students in the Cumming School of Medicine are required to attend Research Integrity Day in the first year of their program as part of their course requirements. See the Graduate Science Education <https://cumming.ucalgary.ca/gse/current-students/research-integrity-day> for details and to register for the Research Integrity Day session.

## Sex and Gender Training Module

The inclusion of Sex and Gender in Research programs is becoming more prominent. All graduate students in the Cumming School of Medicine are required to complete one of the CIHR sex and gender online training modules found at <http://www.discoversexandgender.ca/> within the first year of their program.

### Additional Program Information

#### Type

Completion Requirement

#### Additional Comments:

## Advanced Credit

In consultation with the Graduate Program Director, [Advanced Credit](#) may be requested in accordance with Faculty of Graduate Studies regulations (see Advanced Credit). Applicants must make advanced credit requests as part of the admission process. The requests will be reviewed by the Graduate Program Director and Medical Director and decisions will be made on a case-by-case basis. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Any credit to be given for courses completed will be included in the letter of offer for admission to the Faculty of Graduate Studies.

## Course Exemption

Course exemptions are reviewed by the Graduate Program Director and Medical Director and decision are made on a case-by-case basis.

## Flexible Grade Option (CG Grade)

Students admitted to the graduate programs in the Cumming School of Medicine will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

With the exception of Medical Science 515, credit will not be given for courses taken below the 600-level.

## Time Limit

It is highly recommended that the program be completed in two years on a full-time basis. It may also be completed on a part-time basis with the Director's approval.

## Supervisory Assignments

The Graduate Program Director will serve as interim advisor for all newly admitted students. In the course-based Pathologists' Assistant program, there is no requirement for students to have a supervisor. We do recommend, however, that students have a mentor within the Department of Pathology and Laboratory Medicine.

### Program Fee

A program fee applies to this program. See [Graduate Program-Specific Tuition and Fees](#).

## Overview

### General Program Information

Each graduate credential in Precision Health is a cohort-based, 12 month program.

### Specializations:

- Precision Medicine
- Quality and Safety Leadership
- Health Professional Education Leadership
- Innovation and Entrepreneurship

The Precision Health program is not designed for students to complete more than one specialization at a time.

### Laddered pathway from the Graduate Certificate to the Graduate Diploma to the Master of Precision Health

Students who complete the Graduate Certificate in Precision Health in any specialization may receive laddering credit for the 12 units of coursework completed in that certificate if they are subsequently accepted into the [GDIP Preci](#) program within 5 years of beginning the Graduate Certificate.

Students who complete the Graduate Diploma in Precision Health may receive laddering credit for the 12 units of coursework completed in the diploma program and the 12 units of coursework completed in the certificate if they are subsequently accepted into the [Master of](#) Program within 5 years of beginning the first credential in the laddering process.

Location: Health Sciences Centre, Room G349C

Fax: 403.210.8109

Email address: <mailto:prehgrad@ucalgary.ca>

Web page URL: <https://cumming.ucalgary.ca/gse/programs/precision-health-program>

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students webpages: <https://grad.ucalgary.ca/future-students/explore-programs/precision-health-certificate>.

In addition to the Faculty of Graduate Studies and the Cumming School of Medicine requirements, the program requires:

### Qualifications

- A four-year baccalaureate degree from a recognized institution in a health-related discipline.
- A minimum admission grade point average of 3.30 on a four-point scale or equivalent calculated on the last 60 units completed.

## English Language Proficiency

For applicants required to provide proof of proficiency in the English language:

- a minimum TOEFL internet based score of 105 (with no section less than 20), or
- a minimum IELTS overall band score of 7.5 (with no individual band less than 6.0), or
- a CAEL overall score of 70 (with no section less than 70), or
- a minimum PTE academic version score of 75, or
- Duolingo with score of 145 (with no subscore below 125), or
- Cambridge C1 Advanced or Cambridge C2 Proficiency with score of 200, or

This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.

## Immunizations

All students in graduate programs in the Cumming School of Medicine are required to complete a series of immunizations and diagnostic tests as outlined on the Student Immunization Worksheet.

Throughout their graduate program, students are required to ensure that immunizations are current and provide proof of updates to the Cumming School of Medicine. Failure to do so may result in students being removed from the program until such time as adequate proof has been provided. Please note that requirements may change during the program as determined by Alberta Health Services guidelines. Contact your Graduate Program Administrator for more information.

## Additional Requirements

- A current curriculum vitae.
- Applicants to the Graduate Certificate and Graduate Diploma program must provide a vision statement (no more than one page in length, single space, maximum 500 words) outlining career goals, and how the Precision Health program will help to achieve them.
- Applicants to the Master's program are also required to arrange for the submission of two reference letters. References must follow the guidelines posted on the program's website for prospective students.

Meeting the minimum admission criteria above does not guarantee acceptance into the program.

*Note: As per Section A.1 of the University of Calgary's Graduate Calendar, in exceptional circumstances, individuals who do not meet formal academic requirements but who have significant life achievements may be considered for admission to this program. The candidate must provide evidence demonstrating the potential to successfully undertake the certificate program. Such candidates may also be required to participate in an in-person interview with the Associate Dean, Graduate Science Education. In all such cases, the decision whether to admit rests with the Dean of the Faculty of Graduate Studies.*

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to the Faculty of Graduate Studies [requirements](#) and Cumming School of Medicine requirements, the Certificate requires 12 units of coursework within one of the specializations:

**Complete ANY of the following Course Sets:**

- Precision Health GC, Precision Medicine

**OR** Precision Health GC, Quality and Safety Leadership  
**OR** Precision Health GC, Health Professional Education Leadership  
**OR** Precision Health GC, Innovations and Entrepreneurship

**Additional Comments:**

## Research Integrity Day

Research Integrity Day is a Research Ethics session offered several times each year. All graduate students in the Cumming School of Medicine are required to attend Research Integrity Day in the first year of their program as part of their course requirements. See the Graduate Science Education <https://cumming.ucalgary.ca/gse/current-students/research-integrity-day> for details and to register for the Research Integrity Day session.

## Sex and Gender Training Module

The inclusion of Sex and Gender in Research programs is becoming more prominent. All graduate students in the Cumming School of Medicine are required to complete one of the CIHR sex and gender online training modules found at <http://www.discoversexandgender.ca/> within the first year of their program.

### Additional Program Information

**Type**

Completion Requirement

**Additional Comments:**

## Advanced Credit

See [Advanced Credit](#).

## Flexible Grade Option (CG Grade)

The Graduate programs in the Cumming School Medicine will not permit the **Flexible Grade Option (CG Grade)** for any course offered by the Cumming School of Medicine.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade may affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Credit will not be given for undergraduate-level courses.

## Time Limit

The expected completion time for each laddering credential (Graduate Certificate, Graduate Diploma, Master's) is 12 months, with a maximum completion time for each credential of two years.

Note: Faculty of Graduate Studies requirements state the maximum time limit for completion of a course-based Master's degree is six years; therefore, students must complete all steps in the laddering process (Graduate Certificate, Graduate Diploma, and Master's) within six years of beginning the first step.

## Supervisory Assignments

The Graduate Program Director will serve as advisor for all newly admitted students. In the MDPR program, there is no requirement for students to have a supervisor.

### Financial Assistance

**Type**

## Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see <https://cumming.ucalgary.ca/gse/current-students/scholarships> and the [Awards and Financial Assistance](#) section of this calendar.

## Overview

### General Program Information

Each graduate credential in Precision Health is a cohort-based, 12 month program.

### Specializations:

- Precision Medicine
- Quality and Safety Leadership
- Health Professional Education Leadership
- Innovation and Entrepreneurship

The Precision Health program is not designed for students to complete more than one specialization at a time.

### Laddered pathway from the Graduate Certificate to the Graduate Diploma to the Master of Precision Health

Students who complete the [GCERT Prec](#) in any specialization may receive laddering credit for the 12 units of coursework completed in that certificate if they are subsequently accepted into the Graduate Diploma in Precision Health program within 5 years of beginning the Graduate Certificate.

Students who complete the Graduate Diploma in Precision Health may receive laddering credit for the 12 units of coursework completed in the diploma program and the 12 units of coursework completed in the certificate if they are subsequently accepted into the [Master of](#) Program within 5 years of beginning the first credential in the laddering process.

Location: Health Sciences Centre, Room G349C

Fax: 403.210.8109

Email address: <mailto:prehgrad@ucalgary.ca>

Web page URL: <https://cumming.ucalgary.ca/gse/programs/precision-health-program>

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students webpages: <https://grad.ucalgary.ca/future-students/explore-programs/precision-health-diploma>.

In addition to the Faculty of Graduate Studies and the Cumming School of Medicine requirements, the program requires:

## Qualifications

- Completion of the Graduate Certificate in Precision Health in student's area of specialization with a GPA of 3.30 or higher.

## English Language Proficiency

For applicants required to provide proof of proficiency in the English language:

## UCalgary

- a minimum TOEFL internet based score of 105 (with no section less than 20), or
- a minimum IELTS overall band score of 7.5 (with no individual band less than 6.0), or
- a CAEL overall score of 70 (with no section less than 70), or
- a minimum PTE academic version score of 75, or
- Duolingo with score of 145 (with no subscore below 125), or
- Cambridge C1 Advanced or Cambridge C2 Proficiency with score of 200, or

This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.

## Immunizations

All students in graduate programs in the Cumming School of Medicine are required to complete a series of immunizations and diagnostic tests as outlined on the Student Immunization Worksheet.

Throughout their graduate program, students are required to ensure that immunizations are current and provide proof of updates to the Cumming School of Medicine. Failure to do so may result in students being removed from the program until such time as adequate proof has been provided. Please note that requirements may change during the program as determined by Alberta Health Services guidelines. Contact your Graduate Program Administrator for more information.

## Additional Requirements

- A current curriculum vitae.
- Applicants to the Graduate Certificate and Graduate Diploma program must provide a vision statement (no more than one page in length, single space, maximum 500 words) outlining career goals, and how the Precision Health program will help to achieve them.
- Applicants to the Master's program are also required to arrange for the submission of two reference letters. References must follow the guidelines posted on the program's website for prospective students.

Meeting the minimum admission criteria above does not guarantee acceptance into the program.

*Note: As per Section A.1 of the University of Calgary's Graduate Calendar, in exceptional circumstances, individuals who do not meet formal academic requirements but who have significant life achievements may be considered for admission to this program. The candidate must provide evidence demonstrating the potential to successfully undertake the certificate program. Such candidates may also be required to participate in an in-person interview with the Associate Dean, Graduate Science Education. In all such cases, the decision whether to admit rests with the Dean of the Faculty of Graduate Studies.*

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to the Faculty of Graduate Studies [requirements](#) and Cumming School of Medicine requirements, the Diploma requires 12 units of coursework consisting of:

##### Complete ALL of the following Course Sets:

- Precision Health GD

\*If MDPR 601 is already completed, choose a course from any [GCERT Prec](#) specialization.

In addition to the above 3 courses, choose one elective course from any [GCERT Prec](#) specialization.

**Additional Comments:**

## Research Integrity Day

Research Integrity Day is a Research Ethics session offered several times each year. All graduate students in the Cumming School of Medicine are required to attend Research Integrity Day in the first year of their program as part of their course requirements. See the Graduate Science Education <https://cumming.ucalgary.ca/gse/current-students/research-integrity-day> for details and to register for the Research Integrity Day session.

## Sex and Gender Training Module

The inclusion of Sex and Gender in Research programs is becoming more prominent. All graduate students in the Cumming School of Medicine are required to complete one of the CIHR sex and gender online training modules found at <http://www.discoversexandgender.ca/> within the first year of their program.

### Additional Program Information

**Type**

Completion Requirement

**Additional Comments:**

## Advanced Credit

See [Advanced Credit](#).

## Flexible Grade Option (CG Grade)

The Graduate programs in the Cumming School Medicine will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the Cumming School of Medicine.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade may affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Credit will not be given for undergraduate-level courses.

## Time Limit

The expected completion time for each laddering credential (Graduate Certificate, Graduate Diploma, Master's) is 12 months, with a maximum completion time for each credential of two years.

Note: Faculty of Graduate Studies requirements state the maximum time limit for completion of a course-based Master's degree is six years; therefore, students must complete all steps in the laddering process (Graduate Certificate, Graduate Diploma, and Master's) within six years of beginning the first step.

## Supervisory Assignments

The Graduate Program Director will serve as advisor for all newly admitted students. In the MDPR program, there is no requirement for students to have a supervisor.

### Financial Assistance

## Overview

### General Program Information

The University of Calgary Master of Physician Assistant Studies (MPAS) program is an intensive 93-unit course-based program delivered full-time over two years.

Location: G204 Health Sciences Centre

Email address: <mailto:mpas@ucalgary.ca>

Web Page: [Master of Physician Assistant Studies | Cumming School of Medicine | University of Calgary \(ucalgary.ca\)](#)

## Admissions

### Program Admissions Information

Deadline for submission of complete applications is available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs>.

Applicants will move through a multi-stage admission process.

Applications and all supporting documents will be submitted at <https://grad.ucalgary.ca/future-students/how-apply>. All application materials will be forwarded to the MPAS program office for administrative review as well as evaluation and ranking by the MPAS Program Admissions Committee, which is made up of internal and external reviewers.

Short-listed applicants will be required to participate in an interview.

Meeting the minimum admission criteria below does not guarantee acceptance into the program. All applicants with complete applications will be ranked according to evidence from reference letters, personal essays, experiences described in the application, Casper score, and GPA.

In addition to the Faculty of Graduate Studies [admission requirements](#) and Cumming School of Medicine requirements, the program requires:

#### a) Qualifications

- Completion of a four-year baccalaureate degree from an institution recognized by the University of Calgary. Students in their final year of study in a baccalaureate degree program may apply.
- A minimum admission grade point average of 3.20 (on the University of Calgary four-point system); this is based on the last two years of the undergraduate degree consisting of a minimum of 60 units.
- Canadian citizenship, permanent residency, or refugee status in Canada.
- Applicants must have prior client-facing health care experience. This may include direct hands-on patient care experience in a clinical setting, clinical placements in healthcare education programs, or volunteer experience. Applicants will be required to list the number of hours, location of experience, and role, as well as provide a verifier name and phone number.

#### b) Preferred Criteria

- Candidates who have shown a commitment to service in their communities. Applicants will be required to list the number of hours, location of experience, and role, as well as provide a verifier name and phone number.
- Alberta residents. Applicants will be considered Alberta residents if they meet one of the following criteria:

- Have been physically present in Alberta (or NWT, Yukon or Nunavut) on a day-to-day basis for 24 consecutive months at some point between their 15th birthday and the first day of classes (of the year for which they are applying).
- Have been on active duty for the 24 months prior to classes starting with the Canadian Armed Forces (not including members of the reserves) or the RCMP.

### c) English Language Proficiency

For applicants required to provide proof of proficiency in the English language:

- a minimum internet-based TOEFL score of 105 (with no section less than 20), or
- a minimum IELTS Academic version overall band score of 7.5 (with no individual band less than 6.0), or
- a CAEL overall score of 70 (with no section less than 70), or
- a minimum PTE academic version score of 75, or
- Duolingo with score of 145 (with no sub-score below 125), or
- Cambridge C1 Advanced or Cambridge C2 Proficiency with score of 200, or
- This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in each course.

### d) Immunizations

- All students in graduate programs in the Cumming School of Medicine are required to complete a series of immunizations and diagnostic tests as outlined on the Student Immunization Worksheet.
- Throughout their graduate program, students are required to ensure that immunizations are current and provide proof of updates to the Cumming School of Medicine. Failure to do so may result in students being removed from the program until such time as adequate proof has been provided. Please note that requirements may change during the program as determined by Alberta Health Services guidelines. Contact the MPAS office for more information.

### e) Additional Requirements

- Two referees: Applicants will submit names and professional email addresses for referees in their online applications. Referees will receive an email invitation to provide references online. Recommendations will address the applicant's suitability for the program, professionalism, integrity, and motivation. Prior employers, professional colleagues, and academic advisors are acceptable references.
- Completion of the following coursework at the post-secondary level with a minimum grade of B (3.00 on a 4.00 scale or equivalent) in each of these courses:
  1. Minimum of 3.0 units of Human Anatomy
  2. Minimum of 3.0 units in Human Physiology
- Completion of the Computer-Based Assessment for Sampling Personal Characteristics (Casper®). Casper is an online evaluation that assesses non-cognitive skills and interpersonal characteristics that are important for success in the MPAS program. For more information about the Casper exam, including how to register, please visit <https://acuityinsights.app/casper/>.
- Indigenous Education Requirements: We recognize the importance of building knowledge and skills for future Physicians Assistants to work with Indigenous peoples in safe ways. Baseline knowledge is critically important and as such, applicants admitted into the program must complete an Indigenous education requirement which can be met in one of the following ways:
  - Completion of the Indigenous Canada MOOC (online). Completion should be evidenced by certificate or user screenshot; or
  - University of Calgary Indigenous Relations Training Program (in-person or online). Completion should be evidenced by certificate; or
  - Successful completion of a minimum 3-unit course in Indigenous studies from a post-secondary institution as evidenced on an official transcript. If the content of the course is not clearly evidenced by a transcript, students may be required to provide a copy of the course outline. (Examples of University of Calgary courses include: **INDG201 Intro to Indigenous Studies**, **INDG303 Indigenous Ways of Knowing**, **INDG343 Indigenous Law in Canada**, **INDG345 INDG Research Ethics Practice**, **INDG350 Introduction to Indigenous Art**, **INDG351 INDG Relational Thr'y Practice**, **INDG395 INDG Gender Sexuality Feminism**, **INDG397 Topic Cdn Indigenous Studies**, **INDG399 Topic Int'l**)

Indigenous Studies, INDG400 Directed Research Int'l INDG, INDG407 Comp Int'l Indg Communities, INDG415 Indigenous Ethics and Protocol, INDG492 (PSYC 492) Indigenous PSYC, INDG493 Animal-Human Relationships, INDG494 Int'l INDG Experiential Lrn'g, INDG495 Treaty Matters, Then and Now, INDG496 Métis Matters, Then and Now); or

- A degree, diploma, or certificate in Indigenous studies. Completion should be evidenced on an official transcript.

Admitted students will be required to provide proof of course completion by the start of the program.

- A personal statement (500 words maximum). Visit the Master of Physician Assistant Studies [website](#) for additional detail.

Short-listed applicants will be invited to participate in an online interview process. Invited applicants will be interviewed by members of faculty at the Cumming School of Medicine, community members, students and allied health members and will be ranked at the end of the interview process.

## Parallel Admission Pathways\*

### Equity Admissions Pathway

The Equity Admissions Pathway is designed to provide a platform for applicants from historically underrepresented communities to share their unique perspectives and experiences. Applicants who are members of equity deserving groups including, but not limited to, visible/racialized minorities, individuals with disabilities, LGBTQ2S+, those from rural and remote communities, and those facing socio-economic challenges are encouraged to apply through this pathway. Applicants choosing this pathway will be required to submit a 500-word essay describing: their identity, connections and affiliations with their identified community, reasons for wishing to become a physician assistant, discuss their vision of health service to their identified community and populations, and personal privileges and structural and historical barriers they have faced related to their identity.

### Indigenous Admissions Pathway

This pathway aligns with the university's Indigenous Strategy ii' taa'poh'to'p and is tailored to applicants who self-identify as First Nations, Métis, or Inuit. Applicants choosing this pathway will be required to submit a 500-word essay describing and discussing: their Indigenous identity, connections and affiliations with their Indigenous community, reasons for wishing to become a physician assistant, discuss their vision of health service to Indigenous populations, personal privileges and barriers related to their Indigenous identity, and how they can or will contribute to the health and flourishing of Indigenous populations.

*\*Applicants pursuing a parallel admission pathway are to submit one essay and are not required to complete the essay required for all other program applicants.*

Students in the Indigenous Admissions Pathway will be supported by the MPAS program office for pathway advising and the Writing Symbols Lodge for academic, personal, and cultural support.

Students in the Indigenous Admissions Pathway and Equity Admissions Pathway will also be referred to the [Support to Entry Program](#) (STEP) offered by the Precision Equity and Social Justice Office at Cumming School of Medicine. STEP is designed to address barriers that equity-deserving groups encounter when preparing to enter medicine and health science studies. STEP participants will receive support for the application (essay, interview) and/or be part of the mentorship program.

## Program Details

### Simple Requisites

#### Program/Course Requirements

#### Type

#### Completion Requirement

In addition to the Faculty of Graduate Studies [requirements](#) and Cumming School of Medicine requirements, the program requires all Master of Physician Assistant students to successfully complete 93 units as follows:

#### Year One

Complete 45 units:

**Complete ALL of the following Course Sets:**

- **MPAS Year One Courses**

In special circumstances as an additional support for students, and with the approval of the Graduate Program Director, a student can take one of the Special Topics courses: [MDPS661 Spcl Tps Phys Asst Prct I](#), [MDPS662 Spcl Tps Phys Asst Prct II](#) or [MDPS663 Spcl Tps Phys Asst Prct III](#).

#### **Additional Requirements in Year One**

##### **Medical Terminology Module**

In the Fall term of year one of the program, students will be required to successfully complete a medical terminology module, which will be reflected as a milestone on students' transcripts. The module must be completed by the end of the Fall term for students to progress to the Winter term of year one.

#### **Year Two**

Complete 48 units:

**Complete ALL of the following Course Sets:**

- **MPAS Year Two Courses**

In special circumstances as an additional support for students, and with the approval of the Graduate Program Director, a student can take one of the Special Topics courses: [MDPS664 Spc Cln Tpcs Phys Asst Prct I](#), [MDPS665 Spc Cln Tpcs Phys Asst Prct II](#) or [MDPS667 SpcCln Tpcs Phys Asst Prct III](#).

**Additional Comments:**

#### **Additional Program Information**

##### **Type**

Completion Requirement

**Additional Comments:**

#### **Progression and Completion**

Assessment in the MPAS program is grounded in principles of competency-based education to ensure that students acquire and demonstrate the necessary competencies for professional practice as Physician Assistants.

All courses in the MPAS program are graded as CR (Completed Requirements) or F (Fail). Students must complete all courses with a CR in order to progress in the program.

All students will receive a progress report by the end of each term to reflect on their progress and identify potential areas for improvement. With the approval of the Graduate Program Director, students can choose to take a special topics course to support their studies. Additional fees will apply to the elective courses.

Students who receive a "Fail" grade in coursework or clinical rotations will be required to retake the same course. Additional fees will apply to the retake course(s). At the discretion of the Graduate Program Director, students who: a) receive a "Fail" grade in coursework or clinical rotations, and b) are not progressing academically, may be recommended to the Faculty of Graduate Studies for withdrawal from the program.

#### **Advanced Credit**

**Advanced Credit** will not be accepted for the Master of Physician Assistant Studies Program.

#### **Flexible Grade Option (CG Grade)**

The **Flexible Grade Option (CG Grade)** is not applicable within the MPAS program as all courses in the MPAS Program are graded as CR (Completed Requirements) or F (Fail).

## Time Limits

Expected completion time is two years (full-time). Maximum completion time is four years.

Requests for exceptions to this will be reviewed on a case-by-case basis. Leaves of Absence will be considered according to the Faculty of Graduate Studies Academic Regulations.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this calendar and the Graduate Awards Database.

## Overview

### General Program Information

Students in the MSc degree program are normally considered full-time.

### Specializations:

- Cancer Biology
- Critical Care Medicine
- Mountain Medicine and High-Altitude Physiology
- Joint Injury and Arthritis Research
- Biomechanics
- Biomedical Ethics
- Molecular & Medical Genetics
- Pathologists' Assistant (currently not accepting applications)
- Physiology
- Surgery (In co-operation with the Department of Surgery)
- Medical Im

Location: Health Sciences Centre, Room G341A

Email address: <mailto:medgrad@ucalgary.ca>

Web page URL: <http://cumming.ucalgary.ca/gse/programs/medical-science>

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students webpage: <http://ucalgary.ca/future-students/graduate/explore-programs/medical-science-master-science-thesis-based>.

In addition to the Faculty of Graduate Studies and Cumming School of Medicine requirements, the Medical Science Graduate Program requires:

## Qualifications

- A four-year BSc degree or equivalent.

- A minimum admission grade point average of 3.30 (on the University of Calgary four-point system; equivalent to a "B+") based on the last two years of the undergraduate degree consisting of a minimum of 60 units.
- A minimum 3.30 grade point average is also required in courses relevant to the proposed field of study.

---

### English Language Proficiency

For applicants required to provide proof of proficiency in the English language:

- a minimum TOEFL internet based score of 105 (with no section less than 20), or
- a minimum IELTS overall band score of 7.5 (with no individual band less than 6.0), or
- a CAEL overall score of 70 (with no section less than 70), or
- a minimum PTE academic version score of 75, or
- Duolingo with score of 145 (with no subscore below 125), or
- Cambridge C1 Advanced or Cambridge C2 Proficiency with score of 200, or

This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.

---

### Immunizations

All students in graduate programs in the Cumming School of Medicine are required to complete a series of immunizations and diagnostic tests as outlined on the Student Immunization Worksheet.

Throughout their graduate program, students are required to ensure that immunizations are current and provide proof of updates to the Cumming School of Medicine. Failure to do so may result in students being removed from the program until such time as adequate proof has been provided. Please note that requirements may change during the program as determined by Alberta Health Services guidelines. Contact your Graduate Program Administrator for more information.

---

### Additional Requirements

- Applicants are required to arrange for the submission of two reference. References must follow the guidelines posted on the program's website for prospective students.
- Students must have confirmed a faculty member willing to supervise their studies.
- For admission to the Master of Science program with a specialization in surgery, prior admission to the surgery residency program is required. Students will normally apply to the Master of Science program in the third year of the surgery residency program. For admission to the Surgeon Scientist Program, prior admission to the Medical Science Graduate Program is required.
- Endorsement by the Graduate Program Director that the applicant is acceptable and that adequate supervision in the proposed program is available.

Meeting the minimum admission criteria described above does not guarantee acceptance into the program. Applications will be ranked according to academic excellence, prior research experience and commitment to the study of medical science.

### Program Details

#### Simple Requisites

##### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculty of Graduate Studies [requirements](#) and Cumming School of Medicine requirements:

The minimum academic course requirement is normally 6 units at the graduate level in an area that is pertinent to the student's thesis project and approved by the supervisor and supervisory committee.

## Journal Club and Work-in-Progress Seminars

Each student is required to participate regularly in journal club and work-in-progress seminar programs organized by the Department, Institute or Research Group to which the student and supervisor belong. The student will present at least one journal club seminar and one work-in-progress presentation per year.

## Research Integrity Day

Research Integrity Day is a Research Ethics session offered several times each year. All graduate students in the Cumming School of Medicine are required to attend Research Integrity Day in the first year of their program as part of their course requirements. See the Graduate Science Education <https://cumming.ucalgary.ca/gse/current-students/research-integrity-day> for details and to register for the Research Integrity Day session.

## Sex and Gender Training Module

The inclusion of Sex and Gender in Research programs is becoming more prominent. All graduate students in the Cumming School of Medicine are required to complete one of the CIHR sex and gender online training modules found at <http://www.discoversexandgender.ca/> within the first year of their program.

### Additional Program Information

#### Type

Completion Requirement

#### Additional Comments:

## Advanced Credit

Applicants must make requests for **Advanced Credit** as part of the admission process. Credit will not be given for academic course work taken as part of another completed degree/diploma or for courses taken to bring the applicant's grade point average to a required level for admission.

Any credit to be given for courses completed will be included in the letter of offer for admission to the Faculty of Graduate Studies.

## Flexible Grade Option (CG Grade)

Students admitted to the graduate programs in the Cumming School of Medicine will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Credit may be given for courses taken below the 600 level. At least one half of a graduate student's course work must be at the 600 level or higher. Students may receive credit for completing a course numbered 500-599 providing that the course is recommended by the supervisory committee and approval is received by the Graduate Program Director.

## Time Limit

Completion times follow the Faculty of Graduate Studies regulations (see **Time Limits**):

Maximum completion time for a thesis-based master's program is four years. Expected completion time is two and a half years.

### Supervisory Assignments, Research Proposal and Required Examinations

#### Type

Completion Requirement

**Additional Comments:**

## Supervisory Assignments

The selection of a graduate supervisor must be by mutual agreement between the student and the faculty member concerned at the time of application to the program and approved by the Graduate Program Director.

Supervisory committees, required for both master's and doctoral students, are established based upon the needs of the student and the expertise of the committee members, following discussions between the student and the supervisor and approved by the Graduate Program Director. A supervisory committee, consisting of the supervisor and co-supervisor (if applicable), plus two additional members must be in place no later than 3 months after the student's first registration in the program. Specializations in the MDSC program may have additional requirements.

## Research Proposal Requirements

All MSc and PhD students must defend a written research proposal to their supervisory committee. For MSc students, this document must be submitted within 12 months after initial registration in the program. For additional information about the PhD research proposal, refer to: <https://www.ucalgary.ca/pubs/calendar/grad/current/wcm.ucalgary.ca/gse/files/gse/csm-candidacy-examination-process-effective-september-1-2015.pdf>.

## Required Examinations

### Thesis Examination

All students in thesis-based programs (MSc and PhD) must successfully pass the Final Thesis Oral Examination (see [Thesis Examinations](#)).

All MSc examinations will consist of a 10-minute presentation by the candidate followed by an open oral examination. An MSc student can also elect to do a public seminar prior to the examination; in this case the 10-minute presentation at the beginning of examination can be eliminated.

Normally, students are required to give a separate public seminar prior to their oral examination. If, under extenuating circumstances, the public seminar cannot precede the oral examination, the student will give a 10-minute presentation summarizing the thesis at the start of the exam.

During these public seminars members of the examining committee will not be permitted to ask questions.

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

#### *Composition of the Examination Committee*

For MSc thesis examinations, the examination committee will consist of the student's supervisory committee (which includes the supervisor and co-supervisor, if applicable) plus an Internal/External Examiner, who may be internal to the student's home program. For a doctoral thesis examination, the examination committee will consist of the supervisory committee, an internal/external examiner (who may be internal to the student's home program), PLUS an external examiner who is external to the University of Calgary. The external examiner must be approved by the program director and the Faculty of Graduate Studies.

## Financial Assistance

### Type

Completion Requirement

**Additional Comments:**

Students in thesis-based graduate programs will receive a graduate stipend as outlined in the Cumming School of Medicine Funding Policy and can be found at <https://cumming.ucalgary.ca/gse/current-students/scholarships>.

Students are expected to apply to external agencies for financial support from scholarships or studentship awards and for University of Calgary Scholarships (see [Awards and Financial Assistance](#) section of this Calendar). Possible sources of financial

support are listed on the Faculty of Graduate Studies website: <https://grad.ucalgary.ca/awards>.

## Overview

### General Program Information

Students in the PhD degree program are normally considered full-time.

### Specializations:

- Cancer Biology
- Critical Care Medicine
- Mountain Medicine and High-Altitude Physiology
- Joint Injury and Arthritis Research
- Biomechanics
- Biomedical Ethics
- Molecular & Medical Genetics
- Pathologists' Assistant (currently not accepting applications)
- Physiology
- Surgery (In co-operation with the Department of Surgery)
- **Medical Im**

Location: Health Sciences Centre, Room G341A

Email address: <mailto:medgrad@ucalgary.ca>

Web page URL: <http://cumming.ucalgary.ca/gse/programs/medical-science>

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students webpage: <http://www.ucalgary.ca/future-students/graduate/explore-programs/medical-science-doctor-philosophy-thesis-based>.

In addition to the Faculty of Graduate Studies and Cumming School of Medicine **requirements**, the Medical Science Graduate Program requires:

### Qualifications

- A MSc degree, or relevant Master's degree, recognized by the Faculty of Graduate Studies, or transfer from MSc program, or, in exceptional cases, four year BSc degree or equivalent.
- A minimum admission grade point average of 3.30 (on the University of Calgary four-point system; equivalent to a "B+") based on the last two years of the undergraduate degree consisting of a minimum of 60 units and any master's course work if applicable.
- A minimum 3.30 grade point average is also required in courses relevant to the proposed field of study.

## English Language Proficiency

For applicants required to provide proof of proficiency in the English language:

- a minimum TOEFL internet based score of 105 (with no section less than 20), or
- a minimum IELTS overall band score of 7.5 (with no individual band less than 6.0), or
- a CAEL overall score of 70 (with no section less than 70), or

- a minimum PTE academic version score of 75, or
- Duolingo with score of 145 (with no subscore below 125), or
- Cambridge C1 Advanced or Cambridge C2 Proficiency with score of 200, or

This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.

## Immunizations

All students in graduate programs in the Cumming School of Medicine are required to complete a series of immunizations and diagnostic tests as outlined on the Student Immunization Worksheet.

Throughout their graduate program, students are required to ensure that immunizations are current and provide proof of updates to the Cumming School of Medicine. Failure to do so may result in students being removed from the program until such time as adequate proof has been provided. Please note that requirements may change during the program as determined by Alberta Health Services guidelines. Contact your Graduate Program Administrator for more information.

## Additional Requirements

- Applicants are required to arrange for the submission of two references. References must follow the guidelines posted on the program's website for prospective students.
- Students must have confirmed a faculty member willing to supervise their studies.
- For admission to the Master of Science program with a specialization in surgery, prior admission to the surgery residency program is required. Students will normally apply to the Master of Science program in the third year of the surgery residency program. For admission to the Surgeon Scientist Program, prior admission to the Medical Science Graduate Program is required.
- Endorsement by the Graduate Program Director that the applicant is acceptable and that adequate supervision in the proposed program is available.

Meeting the minimum admission criteria described above does not guarantee acceptance into the program. Applications will be ranked according to academic excellence, prior research experience and commitment to the study of medical science.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculty of Graduate Studies [requirements](#) and Cumming School of Medicine requirements:

The minimum academic course requirement is normally 9 units at the graduate level in an area that is pertinent to the student's thesis project and approved by the supervisor and supervisory committee.

Only one [MDSC755 Directed Study](#) or [MDGE755 Directed Studies](#) course can be taken for credit.

Exceptions require the approval of the Graduate Program Director.

## Journal Club and Work-in-Progress Seminars

Each student is required to participate regularly in journal club and work-in-progress seminar programs organized by the Department, Institute or Research Group to which the student and supervisor belong. The student will present at least one journal club seminar and one work-in-progress presentation per year.

## Research Integrity Day

Research Integrity Day is a Research Ethics session offered several times each year. All graduate students in the Cumming School of Medicine are required to attend Research Integrity Day in the first year of their program as part of their course requirements. See the Graduate Science Education <https://cumming.ucalgary.ca/gse/current-students/research-integrity-day> for details and to register for the Research Integrity Day session.

## Sex and Gender Training Module

The inclusion of Sex and Gender in Research programs is becoming more prominent. All graduate students in the Cumming School of Medicine are required to complete one of the CIHR sex and gender online training modules found at <http://www.discoversexandgender.ca/> within the first year of their program.

### Additional Program Information

#### Type

Completion Requirement

#### Additional Comments:

## Advanced Credit

Applicants must make requests for **Advanced Credit** as part of the admission process. Credit will not be given for academic course work taken as part of another completed degree/diploma or for courses taken to bring the applicant's grade point average to a required level for admission.

Any credit to be given for courses completed will be included in the letter of offer for admission to the Faculty of Graduate Studies.

## Flexible Grade Option (CG Grade)

Students admitted to the graduate programs in the Cumming School of Medicine will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Credit may be given for courses taken below the 600 level. At least one half of a graduate student's course work must be at the 600 level or higher. Students may receive credit for completing a course numbered 500-599 providing that the course is recommended by the supervisory committee and approval is received by the Graduate Program Director.

## Time Limit

Completion times follow the Faculty of Graduate Studies regulations (see **Time Limits**):

Maximum completion time for a doctoral program is six years. Expected completion time is five years.

### Supervisory Assignments, Research Proposal and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

## Supervisory Assignments

The selection of a graduate supervisor must be by mutual agreement between the student and the faculty member concerned at the time of application to the program and approved by the Graduate Program Director.

Supervisory committees, required for both master's and doctoral students, are established based upon the needs of the student and the expertise of the committee members, following discussions between the student and the supervisor and approved by the Graduate Program Director. A supervisory committee, consisting of the supervisor and co-supervisor (if applicable), plus two additional members must be in place no later than 3 months after the student's first registration in the program. Specializations in the MDSC program may have additional requirements.

### Research Proposal Requirements

All MSc and PhD students must defend a written research proposal to their supervisory committee. For MSc students, this document must be submitted within 12 months after initial registration in the program. For additional information about the PhD research proposal, refer to: <https://www.ucalgary.ca/pubs/calendar/grad/current/wcm.ucalgary.ca/gse/files/gse/csm-candidacy-examination-process-effective-september-1-2015.pdf>.

### Required Examinations

#### Doctoral Candidacy

To enter candidacy, doctoral students must: (1) successfully complete all required courses, (2) attend Research Integrity Day (3) successfully complete the CIHR Sex and Gender in Research online training module(s), (4) have the thesis research proposal approved at a thesis proposal evaluation meeting, and (5) successfully complete a Field of Study oral examination. Specific details of the examination format and other candidacy requirements can be found at: <https://wcm.ucalgary.ca/gse/files/gse/csm-candidacy-examination-process-effective-september-1-2015.pdf>.

#### Thesis Examination

All students in thesis-based programs (MSc and PhD) must successfully pass the Final Thesis Oral Examination (see [Thesis Examinations](#)).

PhD students are expected to give a public seminar prior to the examination. During this public seminar, members of the examining committee will not be permitted to ask questions, and this presentation is not considered part of the examination.

PhD examinations will consist of an open oral examination. If the student has not given a public seminar immediately prior to the examination, they may be offered the opportunity to give a 15-minute presentation at the beginning of the examination.

##### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

##### *Composition of the Examination Committee*

For MSc thesis examinations, the examination committee will consist of the student's supervisory committee (which includes the supervisor and co-supervisor, if applicable) plus an Internal/External Examiner, who may be internal to the student's home program. For a doctoral thesis examination, the examination committee will consist of the supervisory committee, an internal/external examiner (who may be internal to the student's home program), PLUS an external examiner who is external to the University of Calgary. The external examiner must be approved by the program director and the Faculty of Graduate Studies.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Students in thesis-based graduate programs will receive a graduate stipend as outlined in the Cumming School of Medicine Funding Policy and can be found at <https://cumming.ucalgary.ca/gse/current-students/scholarships>.

Students are expected to apply to external agencies for financial support from scholarships or studentship awards and for University of Calgary Scholarships (see [Awards and Financial Assistance](#) section of this Calendar). Possible sources of financial support are listed on the Faculty of Graduate Studies website: <https://grad.ucalgary.ca/awards>.

## Overview

### General Program Information

A Graduate Specialization in Medical Imaging is offered in conjunction with the following graduate programs:

- Biomedical Engineering
- Electrical and Computer Engineering
- Medical Sciences
- Neurosciences
- Physics and Astronomy
- Psychology

The specialization is offered at the MSc and PhD level.

Location: FMC MRG 006

Program number: 403.944.8354

Email address: <mailto:medi@ucalgary.ca>

Web page URL: <https://cumming.ucalgary.ca/programs/medical-imaging-specialization/graduate-specialization>

## Admissions

### Program Admissions Information

Students must first apply to a graduate program offering the specialization.

Admission into a graduate program that offers the Graduate Specialization in Medical Imaging and submission and approval of a written request to join the Specialization. The program is open to both Canadian and international students.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to meeting the requirements of the Faculty of Graduate Studies ([see regulations](#)) and the home program, students in the Medical Imaging specialization must meet the following requirements:

- a) MSc students must take a minimum of 6 units (the core and an elective course). PhD students take at least 9 units (the core and two elective courses). PhD students previously completing the MSc specialization in Medical Imaging will be required to complete an additional 3 units (one elective course).
- b) Medical Imaging-related research thesis.
- c) Attendance and annual presentation in the [Advanced Imaging Seminar Series](#).

These requirements are in addition to the core requirements of a specific participating graduate program. In most programs, the medical imaging graduate courses would count towards graduate program elective courses. In some graduate programs, participation in the specialization may require students to take an additional graduate course or courses.

Core required course:

**Complete ALL of the following Courses:**

- MDSC689.01 - Medical Imaging Techniques

Elective courses:

**Complete ANY of the following Courses:**

- ENEL697 - Digital Image Processing  
**AND** MDSC689.02 - Advanced Magnetic Resonance Imaging  
**AND** MDSC689.03 - Advanced Medical Image Processing  
**AND** MDSC689.11 - Medical Imaging Applications  
**AND** MDSC689.99 - Medical Imaging Project
- ENME619 Special Problems,36
- Neuroscience 5850 at The University of Lethbridge
- Other Medical Imaging-related graduate courses with prior approval of specialization and graduate program

**Additional Comments:**

#### **Additional Program Information**

**Type**

Completion Requirement

**Additional Comments:**

#### **Advanced Credit**

The applicant should make requests for [Advanced Credit](#) at the time of application, as part of the admissions process. See Advanced Credit for further information.

#### **Credit For Undergraduate Courses**

Credit (in the specialization) will not be given for 500-level courses.

#### **Time Limit, Supervisory Assignments and Required Examinations**

See requirements of home program.

#### **Research Proposal Requirements**

Research proposal must be on a Medical Imaging topic and fit into a research area broadly defined by the Specialization (see [website](#) for information).

Image Acquisition and Reconstruction - Development of algorithms suitable for accurate imaging using existing technologies (e.g., MR, CT) and emerging methods (e.g., microwaves).

Signal Processing for Information Synthesis - Development of robust strategies for the assessment of brain and other organ function via advanced signal processing.

Quantitative Imaging and Analysis - Development of software engineering approaches, validation and testing for the creation of resilient methods for quantitative imaging.

A copy of the proposal must be provided to the specialization office within 12 months of starting the program.

In programs that do not require submission of a research proposal, a suitable proposal should be developed by the student within 12 months of starting the specialization, approved by the supervisor and supervisory committee (where appropriate), and submitted to the Specialization office.

#### **Financial Assistance**

**Type**

Completion Requirement

**Additional Comments:**

See home program. Additional funding may be available through the specialization or other University sources for well-qualified students.

## Overview

### General Program Information

### Specializations:

- Accounting
- Business Technology Management
- Entrepreneurship and Innovation
- Environmental Management/Sustainable Development
- Finance
- Marketing
- Organizational Behaviour and Human Resources
- Operations and Supply Chain Management
- Risk Management and Insurance
- Strategy and Global Management

The program requires full-time attendance.

Location: Scurfield Hall, Room 427

Phone: 403.220.6073

Fax: 403.282.0095

Email address: <mailto:phdrequest@haskayne.ucalgary.ca>

Web page URL: <https://haskayne.ucalgary.ca/future-students/doctoral-programs/phd>

## Admissions

### Program Admissions Information

See the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/management-doctor-philosophy-thesis-based>.

In addition to the Faculty of Graduate Studies requirements for **Admission**, the Haskayne School of Business requires:

a) An MBA degree or equivalent from a recognized institution with a recommended minimum admission grade point average of 3.50 on a four-point scale. Students with an undergraduate or master's degree in an area other than business may be required to complete a qualifying period to gain a general business background before beginning the normal doctoral course requirements.

It is possible to enter the PhD program without an MBA or other master's degree. Consult the Director of the PhD Program for further information.

b) Completion of the Graduate Management Admission Test (GMAT\*) with a recommended minimum score of 650, with high scores on both verbal and quantitative subcomponents. (Many successful applicants have earned scores of 700 and above). As an alternative to a GMAT score, results on the Graduate Record Exam (GRE) will be considered. Overall GRE test score in the 85th percentile is the recommended minimum.

c) For those students required to present proficiency in English, a minimum TOEFL (Internet-based) score of 97 with no section less than 20, an IELTS score of 7.0 with no section less than 6.0, or a PTE score of 68.

d) Current CV.

e) Two reference letters.

f) A personal statement outlining objectives, intent and commitment to a research program.

g) Availability of a research-active supervisor and resources for the area in which the student wishes to study.

Work experience in business or public organizations will be considered.

*\*Consult the Haskayne School of Business about the Graduate Management Admission Test.*

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculty of Graduate Studies **requirements**, the program requires:

The program consists of a minimum of 36 units. Two of these are core courses required of all students. In addition, students choose at least five courses in their chosen area(s) of study and five research methods courses.

a) Two core courses – MGST794 Theory Development and MGST795 Research Development. Students should take Management Studies 795 during the Spring/Summer Sessions between their first and second years.

b) Courses in the area(s) of study: Students will take a minimum of 15 units in their area(s) of study. Students can choose a major area and a minor area. The major area must be chosen from those offered within the Haskayne School of Business, which represents the student's specialization:

- Accounting
- Business Technology Management
- Entrepreneurship and Innovation
- Environmental Management/Sustainable Development
- Finance
- Marketing
- Operations and Supply Chain Management
- Organizational Behaviour and Human Resources
- Risk Management and Insurance
- Strategy and Global Management

Students will be required to take a minimum of 9 units from the major area.

c) Minor Area – The minor area of study must complement the major area. It may be chosen from those areas offered within the Haskayne School of Business or from those offered from other faculties. Students will be required to take a minimum of 3 units in their minor area.

d) Research Methods and Statistics: Students are required to choose either Stream A or Stream B and to take at least two courses in their selected Stream from the following lists:

Stream A: ECON615 Econometrics/495; ECON715 Advanced Econometrics II/497; plus one other course option (e.g., OPMA799.03 Operational Research Issues)

Stream B: MGST773 Multivariate Analysis in MGMT; MGST783 AdvResearchMethodology&Method; plus a qualitative research methods course (e.g., SGMA796 Qlt'v Rsrc'h Strg'y Orgnzns)

Nine units of additional courses in research methods and statistics (a total of fifteen units) are required, offered within the Haskayne School of Business or by other faculties.

The typical student will take 36 units over the first 20 months of the program. The number of courses may vary according to the student's particular program and background. Students work closely with their research-active supervisors who help guide them to the appropriate courses within and outside the School. There is also a requirement to complete courses/workshops at

the Teaching and Learning Centre to develop necessary teaching skills.

As part of the program, all doctoral students are required to teach two courses as instructor (after passing Field of Study Exams). Courses will be assigned in consultation with Supervisor and Area Chair.

Attendance at an orientation session is mandatory for all incoming doctoral students. Regular attendance at seminars offered by the PhD program, their disciplinary Areas, and the School is also required of all doctoral students.

#### **Additional Program Information**

##### **Type**

Completion Requirement

##### **Additional Comments:**

#### **Advanced Credit**

Course requirements for doctoral students will be based on the student's background and program needs. Credit for previous courses will be provided as appropriate.

#### **Flexible Grade Option (CG Grade)**

The PhD program will allow students to pursue the **Flexible Grade Option (CG Grade)** with the exception of the following courses:

- Economics 615
- Economics 715
- Management Studies 773
- Management Studies 783
- Management Studies 794 (typically offered in the Fall Term)
- Management Studies 795

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

#### **Time Limit**

Six years.

#### **Supervisory Assignments, Research Proposal and Required Examinations**

##### **Type**

Completion Requirement

##### **Additional Comments:**

#### **Supervisory Assignments**

Doctoral students are required to have secured a permanent supervisor within the first twelve months of their program. A supervisory committee reflective of the student's research interests is required within three months after the permanent supervisor has been approved.

#### **Research Proposal Requirements**

Students must complete a written thesis proposal, which will be evaluated by the supervisory committee in a meeting. See **HSB Candidacy Requirements** for further information about the proposal requirements and approval process.

Students whose research involves human subjects must receive approval from the Haskayne School of Business and from the University of Calgary Conjoint Faculties Research Ethics Board before beginning data collection.

## Required Examinations

### Candidacy

Doctoral students must pass oral and written Field of Study examinations. For complete details of the examination format and other candidacy requirements, see [HSB Candidacy Requirements](#).

### Thesis Examination

Doctoral students will complete an oral thesis examination at the end of their programs. The student presentation portion of the thesis examination is public. In addition to Faculty of Graduate Studies requirements for [Thesis Examinations](#), the program requires:

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, please see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

The Master of Information Security and Privacy is a continuous program with no scheduled break.

#### Laddering from Graduate Certificates to Master of Information Security and Privacy:

Students who complete the [GCERT Data](#), [GCERT Netw](#) or [GCERT Soft](#) may receive laddering credit for the 12 units of coursework completed in the certificate program if they are subsequently accepted into the Master of Information Security and Privacy program within 5 years of completing the certificate.

Location: Science A Building, Room 229

Email: <mailto:prograd.science@ucalgary.ca>

Web page: <https://science.ucalgary.ca/information-security>

## Admissions

### Program Admissions Information

The deadline for completed applications is available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/information-security-and-privacy-misp-course>.

In addition to Faculty of Graduate Studies [admission requirements](#), admission to the Information Security and Privacy programs requires:

- A four-year Bachelor's degree or equivalent from a recognized institution.

- Successful completion of an undergraduate course in each of the following areas:
  - Computer programming with understanding of execution environments (e.g., Computer Science 233 or equivalent)
  - Algorithms and data structures (e.g., Computer Science 331 or equivalent)
  - Either Operating systems (e.g., Computer Science 457 or equivalent); or Computer networks (e.g., Computer Science 441 or equivalent).
- Two letters of reference.
- Resume or CV.
- Optional letter of intent.

*Alternate Routes to Admission:* In exceptional circumstances (see [G.A.1 Qualifications](#)), individuals who do not meet formal academic requirements but who have significant life achievement and/or work experience may be considered for admission to the Graduate Certificate programs or the Masters of Information Security program. The candidate must provide the Information Security Program Director with evidence demonstrating the potential to successfully undertake these programs. Such candidates may also be required to participate in an in-person interview with the Program Director and, if admitted, be required to take additional courses to meet completion requirements.

Students who successfully complete one of the Graduate Certificate programs, and who then apply to the other Graduate Certificate program and/or to the Master of Information Security degree program within 4 years of completing the first certificate, will not be required to submit reference letters or previous transcripts again. If students complete new coursework elsewhere, they will be required to submit new transcripts.

Students who have successfully completed two of the Graduate Certificate programs with a cumulative GPA of 3.00 or higher will meet the minimum admission requirements for the Master of Information Security and Privacy program. In addition, students who choose to ladder from the certificates into the Master's degree will not normally be required to submit transcripts or reference letters (unless they have completed other credit courses from a post-secondary institution in the meantime).

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Science requires students to complete:

Students must complete 30 units:

##### Enroll in the following Course Sets:

- Information Security and Privacy 601
- Minimum of one of: Information Security and Privacy 603, 605, 611
- Minimum of two of: Information Security and Privacy 641, 643, 645
- Minimum of two of: Information Security and Privacy 621, 623, 625, 631
- Information Security and Privacy 691 Internship\*

Elective: Students may choose to complete [ISEC651 Topics in Security and Privacy](#).

\*Normally, students will be required to complete [ISEC691 Info Sec & Privacy Internship](#). However, with the permission of the Program Director, students may complete [ISEC681 Info Sec & Privacy Capstone](#) instead.

#### Additional Comments:

#### Additional Program Information

##### Type

Completion Requirement

**Additional Comments:**

### **Advanced Credit**

Advanced credit will not normally be given for the MISP program.

### **Flexible Grade Option (CG Grade)**

The Information Security Professional Program will allow students to pursue the Flexible Grade Option (CG Grade).

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### **Credit for Undergraduate Courses**

Credit will not normally be granted for undergraduate courses.

### **Supervisory Assignments**

An Academic Coordinator is assigned to each cohort in the Master's program.

### **Time Limits**

Expected completion time for full-time students in the Master of Information Security and Privacy for full-time students is 12 months. The maximum completion time is four years.

Maximum completion time for students to complete all requirements of the Master of Information Security and Privacy via the ladder certificate pathway is four years from the beginning of the first certificate program.

### **Financial Assistance**

#### **Type**

Completion Requirement

#### **Additional Comments:**

The program itself does not provide scholarships, however financial assistance may be available to qualified students through alternative means. For information on awards, see the Awards and Financial Assistance section.

## **Overview**

### **General Program Information**

The School of Architecture, Planning and Landscape does not formally offer a part-time option.

Location: Professional Faculties 2182

Student Information: 403.220.7070

Fax: 403.284.4399

Email address: <mailto:info@sapl.ucalgary.ca>

Web page URL: <https://sapl.ucalgary.ca/>

## **Admissions**

### **Program Admissions Information**

Deadline for submission of complete applications is available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/landscape-architecture-mla-course>.

Prospective applicants are advised to use opportunities within their four-year recognized university undergraduate degree studies to develop knowledge in at least one and possibly more than one of the following areas: design, humanities, social science, arts, engineering, biological or earth sciences – including wherever possible studio, laboratory and collaborative learning experiences.

In addition to the Faculty of Graduate Studies requirements for **Admission**, the program requires:

a) Statement of Interest

A clear, well-written statement of interest which describes the applicant's interest in landscape architecture and how the applicant's specific educational background and professional or personal experience relates to Landscape Architecture as a field of study (maximum two pages).

b) Digital Portfolio

Evidence of original and/or creative work in any field or medium. This could include design work, professional work, research, creative ability, or ideas related to their statement of intent or interests in Landscape Architecture. The requirements for digital portfolio submissions are found on the School of Architecture, Planning and Landscape website at:

<https://sapl.ucalgary.ca/future-students/admissions/mla>.

c) Curriculum Vitae

A current copy of curriculum vitae (CV).

d) Reference Letters

Three reference letters, of which at least two should be academic.

e) Proof of English Proficiency

For applicants who are required to prove proficiency in English, a TOEFL score of 105 (Internet-based test); or an IELTS score of 7.5; a CAEL score of 70 with no section less than 70; a PTE with a minimum score of 59; a Duolingo score of 145 (with no subscore below 125); or a Cambridge C1/C2 Proficiency score of 200. This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in each course.

Note: Applicants with previous related design degrees (e.g. a Bachelor of Landscape Architecture) may have some or all of the foundation year courses waived. Applications will be evaluated on a case-by-case basis, this review will require supporting documentation such as course outlines. An assessment of these prerequisite requirements will be made by an admissions committee and applicants will be informed in offers of admission which, if any, courses at the Foundation level will be required.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

The Master of Landscape Architecture program is structured around a core studio sequence. Required courses and electives make up the remainder of the program. In addition to the Faculty of Graduate Studies **requirements**, successful completion of the MLA must include the following academic requirements:

Foundation Year (Qualifying Year) 30 units

##### Complete ALL of the following Courses:

- LAND600 - Landscape Architecture History and Theory  
**AND** LAND604 - Landscape Architecture Studio I - Foundation  
**AND** ACCT200 - ACCT 200 (Inactive)  
**AND** PLAN600 - Landscape Ecology and Planning

**AND PLAN602** - Computer Modelling for Urban Design  
**AND PLAN606** - Site Planning Studio  
**AND PLAN608** - Geographic Information Systems for Environmental Design  
**AND PLAN626** - Urban Design Theory

a) 54 units of core required courses:

**Complete ALL of the following Courses:**

- **ARCH675** - Urban Systems
  - AND LAND602** - Plants in the Landscape
  - AND LAND608** - Landscape Responses to Climate Change, Energy and Water
  - AND LAND610** - Green Infrastructure/Winter City Design
  - AND LAND612** - Site Technology II: Construction and Materials
  - AND LAND614** - Landscape Architecture Studio II - Intermediate
  - AND LAND616** - Professional Practice and Project Management for Landscape Architecture
  - AND LAND618** - Advanced Graphics in Landscape Architecture
  - AND LAND620** - Synthesis Studio in Landscape Architecture
  - AND LAND700** - Regional Landscape Systems Studio
  - AND LAND702** - Landscape Architecture Studio III - Advanced
  - AND PLAN612** - Urban Infrastructure and Land Use
  - AND PLAN616** - Urban Design Studio

b) 3 units from:

**Complete ANY of the following Courses:**

- **LAND670** - Experiential Learning in Landscape Architecture  
**OR LAND672** - Experiential Learning in Landscape Architecture  
**OR LAND674** - Experiential Learning in Landscape Architecture  
**OR LAND676** - Experiential Learning in Landscape Architecture

c) 6 units of elective credits from other courses offered by SAPL or the University of Calgary at the 500-level or higher that relate to individual interests in Landscape Architecture.

**Additional Comments:**

## Reappraisal of Academic Assessments (Final Grades)

Students enrolled in SAPL graduate credentials must request a [Reappraisal of Academic Assessments \(Final Grades\)](#) within 5 business days of the start of the subsequent term.

[Reappraisal of Academic Assessments \(Final Grades\)](#) in SAPL graduate credentials must be completed at least one day before the drop date of the subsequent semester.

### Additional Program Information

**Type**

Completion Requirement

**Additional Comments:**

## Advanced Credit

A student may apply for advanced credit for previous courses that have not been used to satisfy the requirements of any other degree or diploma program. See Advanced Credit.

Course Exemptions: Students registered in a graduate degree program may receive an exemption from a specific course if they can demonstrate successful completion of an equivalent course. To be eligible for an exemption, the student must provide original transcripts, course outlines and samples of course assignments which will be assessed for academic equivalency.

Courses for which exemptions are being sought must be from a recognized institution, and they must be graded courses with a minimum grade of "B-". Students granted an exemption from a course may be required to take another, equally-weighted, course to satisfy credit-hour requirements for their program.

## Flexible Grade Option (CG Grade)

Students admitted to the School of Architecture, Planning and Landscape will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the Flexible Grade Option (CG Grade) for courses outside of SAPL that permit the CG Grade and are taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Additional Requirements

A laptop computer is required for all course-based degree programs in the School of Architecture, Planning and Landscape. Further information pertaining to specifications will be sent out to newly-admitted students in the summer term prior to the commencement of their studies.

Attendance at orientation for first year students is required.

## Credit for Undergraduate Courses

Only undergraduate courses numbered 500-599 may be considered for graduate-level credit and are subject to approval by the Associate Dean (Planning and Landscape).

## Time Limits

Students are expected to enroll on a full-time basis and complete the degree requirements within two registration years (excluding the Foundation Year). Maximum completion time is six registration years. See [Time Limits](#).

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to highly qualified students but cannot be guaranteed. For information on admission and academic awards, see the [Awards and Financial Assistance](#) section of this calendar, the SAPL website and the Awards Database on the Faculty of Graduate Studies website.

## Overview

### General Program Information

The Haskayne School of Business offers a combined dual degree program with the [Technical University of Munich \(TUM\)](#). This dual degree results in two graduate degrees, the Master of Management from the University of Calgary and the Master of Science from TUM.

Students apply to the dual degree program through the University of Calgary but must meet admission requirements of both institutions.

The MMgmt program is delivered on-campus in an intensive format with no scheduled break. Only full-time registration is available.

# UCalgary

Location: Scurfield Hall, Room 302

Phone: 403.220.8872

Email address: <mailto:mmgmt@haskayne.ucalgary.ca>

Web page URL: <https://haskayne.ucalgary.ca/programs/mmgmt>

## Admissions

### Program Admissions Information

See the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/management-master-management-course-based>.

In addition to meeting Faculty of Graduate Studies requirements for admission, the Master of Management program requires the following:

- a) Completion of a four-year non-business bachelor's degree.
- b) A minimum admission grade point average (GPA) of 3.00 calculated over the last 60 units of university-level courses at the time of application (Graduate Management Admission Test or GMAT not required).
- c) Students with an admission GPA between 2.70 and 3.00 may be considered for admission based on a combination of admission GPA and an acceptable GMAT score. Admission is based on the following equivalent achievement score:  $[(\text{GPA} \times 200) + \text{GMAT}] \geq 1150^*$ .

\*Consult the Haskayne School of Business about the GMAT.

- d) Typically, a maximum of three years professional work experience since the completion of an undergraduate degree.

- e) A current resume.

- f) A 250-word response to each of two questions as part of the application process.

- g) Participation in an interview (upon request).

- h) For applicants required to present proficiency in English, a minimum TOEFL (Internet-based) score of 97 with no section less than 20, an IELTS score of 7.0 with no section less than 6.0 or a CAEL overall score of 70. This requirement can also be met by completing the Academic Communication Certificate with a minimum overall grade of "A-".

It is recommended that applicants complete an undergraduate course in economics, statistics, mathematics or psychology. Admitted students will be provided with online preparatory course work through the Haskayne School of Business prior to starting specific courses in the program.

In addition to the above, students applying to the Master of Science program as part of the dual degree at TUM must have 12 months of full-time work experience. See website for additional details.

### Admission Deposit

Successful applicants will be required to confirm their acceptance of an offer of admission into the Master of Management program with an online non-refundable deposit of \$3,000.

The deposit will be credited toward tuition fees upon registration.

Web page URL: <https://haskayne.ucalgary.ca/future-students/mba-programs>

## Admissions

### Program Admissions Information

Admission deadlines are available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/management-master-business-administration-course-based>.

---

In addition to the Faculty of Graduate Studies requirements for admission, the program requires:

- a) A current résumé.
- b) A 250-word response to each of two questions provided as part of the application process.
- c) For applicants required to prove present proficiency in English, a minimum TOEFL (Internet-based) score of 97 with no section less than 20 (Internet-based test), or an IELTS score of 7.0 with no section less than 6.0 or a CAEL overall score of 70. This requirement can also be met by completing the Academic Communication Certificate with a minimum overall grade of "A-".
- d) The Graduate Management Admission Test (GMAT) is only required for applicants with a degree (from an institution outside of Canada or the United States) with a recommended minimum score of 550 or an equivalent Graduate Record Examination (GRE) score.

Applicants with a degree from an institution in Canada or the United States with a grade point average (GPA) of at least 3.0 on a four-point scale are exempt from submitting a GMAT score. An applicant who has completed a bachelor's degree from an institution in Canada or the United States with a GPA from 2.50 to 2.99, and chooses to submit a GMAT score, may be admitted to an MBA course-based program as a regular student on the basis of the following equivalent achievement score:  $[(\text{GPA} \times 200) + \text{GMAT}] \geq 1150$ .

*\*Consult the Haskayne School of Business about the Graduate Management Admission Test.*

- e) Two reference letters.
  - f) For the course-based Day and Evening MBA program only, the equivalent of at least 2 years of appropriate work experience.
  - g) Applicants may be required to participate in an interview.
- 

### Admission Deposit

Successful applicants will be required to confirm their acceptance of an offer of admission into the MBA program with an online non-refundable deposit:

Daytime MBA: \$3,000

Evening MBA: \$3,000

Accelerated MBA: \$3,000

The deposit will be credited toward tuition fees upon registration.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to the requirements of the Faculty of Graduate Studies, the Haskayne School of Business requires:

The MBA degree normally consists of 60 units. Students may be granted exemption from required courses based upon prior academic preparation and with the approval of the Graduate Director (MBA Program). Students must complete a minimum of 45 units, of which a maximum of 15 units may be transfer credit from another recognized graduate program, for the MBA degree.

Students who have completed a recognized/accredited Master of Management degree within the last 10 years may be granted course exemption from 27 units and required to complete a minimum of 33 units for the MBA degree, of which 3 units may be transfer credit from another recognized graduate program.

For students approved for a Master of Management exemption, requirements normally will be:

**Complete ALL of the following Courses:**

- ACCT601 - Introductory Financial Accounting  
**AND** ACCT603 - Management Accounting  
**AND** MGST611 - Managerial Economics  
**AND** MGST613 - Managerial Decision Modeling  
**AND** OBHR621 - Advanced Leadership  
**AND** SGMA601 - Strategic Management I  
**AND** SGMA603 - Global Environment of Business

plus:

- 12 units of elective courses.

#### Specializations

Students must complete 18 units of additional courses beyond the required courses. Within these 18 units, students may select an area of specialization normally consisting of 12 units. Specialization requirements are as follows:

**Complete ANY of the following Requirement Sets:**

- MBA, Business Intelligence and Data Analytics Specialization
- MBA, Entrepreneurship and Innovation
- MBA, Finance
- MBA, Global Energy Management and Sustainable Development
- MBA, Management Analytics
- MBA, Marketing
- MBA, Project Management
- MBA, Real Estate Studies

Students who elect not to choose an area of specialization may choose instead from various graduate courses offered by the Haskayne School of Business. Subject to the approval of the Graduate Director (MBA Program) and the Faculty of Graduate Studies, graduate courses offered at the University of Calgary outside the Haskayne School of Business may also be taken.

#### Additional Comments:

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make Advanced Credit requests as part of the admission process to the MBA program. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

Students admitted to the MBA (course-based) program, Executive MBA program or Executive MBA Specializing in Global Energy program will not be allowed to request the Flexible Grade Option (CG Grade) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Time Limit

The day MBA option normally takes 20 months to complete (from first registration), while the evening option normally takes three years. Maximum time limit: six years.

#### Financial Assistance

##### Type

Completion Requirement

##### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, please see the Awards and Financial Assistance section of this Calendar.

Web page URL: <https://sapl.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadline for submission of complete applications is available on the Future Students website:

Master of Planning: <https://grad.ucalgary.ca/future-students/explore-programs/planning-mplan-course>.

Admission to the Master of Planning is a competitive process. Applicants must meet minimum Faculty of Graduate Studies requirements for [Admission](#) (including a 3.00 GPA). In addition to Faculty of Graduate Studies requirements, the program requires:

- A clear, well-written statement of interest which describes the applicant's interest in planning and how the applicant's specific educational background and professional or personal experience relates to Planning as a field of study.
- At least one example of the applicant's previous academic or professional writing, such as a written essay, published research paper, major academic paper, design project or consulting report.
- A portfolio that includes examples of the applicant's design work or design thinking, including creative work or ideas, community action, planning or design products, or graphics and visual communication.

The requirements for digital portfolio submissions are found in the School of Architecture, Planning and Landscape website at: <https://sapl.ucalgary.ca/future-students/admissions/mplan>.

- Three reference letters, of which at least two should be academic.
- A current copy of curriculum vitae (CV).
- For applicants who are required to prove proficiency in English, a TOEFL score of 105 (Internet-based test); or an IELTS score of 7.5; a CAEL score of 70 with no section less than 70; a PTE with a minimum score of 59; a Duolingo score of 145 (with no subscore below 125); or a Cambridge C1/C2 Proficiency score of 200. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.

Master of Planning/Master of Business Administration (MPlan/MBA)

An applicant to the combined MPlan/MBA program must be admitted to the MPlan program and make separate application for, and be admitted by, the MBA program. The respective Combined Program Committee will review each application.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

The Master of Planning program is structured around a core studio sequence. Required courses and electives make up the remainder of the program. In addition to the Faculty of Graduate Studies [requirements](#), successful completion of the MPlan must include the following academic requirements:

- 57 units of core required courses:

##### Complete ALL of the following Courses:

- ARCH675 - Urban Systems
- AND PLAN600 - Landscape Ecology and Planning
- AND PLAN602 - Computer Modelling for Urban Design
- AND PLAN604 - Planning History and Theory
- AND PLAN606 - Site Planning Studio
- AND PLAN608 - Geographic Information Systems for Environmental Design
- AND PLAN610 - Community Planning Studio
- AND PLAN612 - Urban Infrastructure and Land Use

**AND PLAN616 - Urban Design Studio**  
**AND PLAN618 - Regional Planning Studio**  
**AND PLAN620 - Planning and Public Engagement**  
**AND PLAN622 - Project Management for Planners**  
**AND PLAN626 - Urban Design Theory**  
**AND PLAN628 - Professional Planning Practice**  
**AND PLAN630 - Advanced Professional Planning Studio**

b) 3 units of elective credits from:

**Complete ANY of the following Courses:**

- **PLAN614 - Real Estate Development and Finance**  
**OR PLAN624 - Housing and Neighbourhood Change**

c) 3 units from:

**Complete ANY of the following Courses:**

- **PLAN670 - Experiential Learning in Planning**  
**OR PLAN672 - Experiential Learning in Planning**  
**OR PLAN674 - Experiential Learning in Planning**  
**OR PLAN676 - Experiential Learning in Planning**

d) 3 units of elective credits from other courses offered by SAPL or the University of Calgary at the 500-level or higher that relate to individual interests in Planning.

## **Master of Planning/Master of Business Administration (MPlan/MBA) Combined Degree**

Students admitted to the MPlan/MBA will focus on courses for the MBA during the first year and on MPlan courses in years two and three. Typically, the Real Estate Studies specialization will be completed in year four. Course requirements include:

a) MBA courses (54 units):

**Complete ALL of the following Courses:**

- **ACCT601 - Introductory Financial Accounting**  
**AND ACCT603 - Management Accounting**  
**AND SGMA603 - Global Environment of Business**  
**AND BTMA601 - Business Technology Management**  
**AND ENTI601 - Entrepreneurial Thinking**  
**AND FNCE601 - Managerial Finance**  
**AND MGST611 - Managerial Economics**  
**AND MGST613 - Managerial Decision Modeling**  
**AND MGST615 - Strategic Business Analysis**  
**AND MKTG601 - Marketing Management**  
**AND OPMA601 - Operations Management**  
**AND OBHR601 - Organizational Behaviour**  
**AND OBHR621 - Advanced Leadership**  
**AND SGMA601 - Strategic Management I**

plus four elective courses (12 units total) in the Real Estate Studies specialization.

b) MPlan courses (57 units of core courses):

**Complete ALL of the following Courses:**

- ARCH675 - Urban Systems
  - AND** PLAN600 - Landscape Ecology and Planning
  - AND** PLAN602 - Computer Modelling for Urban Design
  - AND** PLAN604 - Planning History and Theory
  - AND** PLAN606 - Site Planning Studio
  - AND** PLAN608 - Geographic Information Systems for Environmental Design
  - AND** PLAN610 - Community Planning Studio
  - AND** PLAN612 - Urban Infrastructure and Land Use
  - AND** PLAN616 - Urban Design Studio
  - AND** PLAN618 - Regional Planning Studio
  - AND** PLAN620 - Planning and Public Engagement
  - AND** PLAN622 - Project Management for Planners
  - AND** PLAN626 - Urban Design Theory
  - AND** PLAN628 - Professional Planning Practice
  - AND** PLAN630 - Advanced Professional Planning Studio

plus three elective courses (9 units total) in the Real Estate Studies specialization approved by SAPL, Master of Planning program.

**Additional Comments:**

### Reappraisal of Academic Assessments (Final Grades)

Students enrolled in SAPL graduate credentials must request a Reappraisal of Academic Assessments (Final Grades) within 5 business days of the start of the subsequent term.

Reappraisal of Academic Assessments (Final Grades) in SAPL graduate credentials must be completed at least one day before the drop date of the subsequent semester.

#### Additional Program Information

##### Type

Financial assistance may be available to highly qualified students but cannot be guaranteed. For information on admission and academic awards, see the [Awards and Financial Assistance](#) section of this calendar, the SAPL website and the Awards Database on the Faculty of Graduate Studies website.

## Overview

### General Program Information

The MPP is a full-time, 12-month professional degree program with no scheduled break. Students who do not enrol in courses continuously will be withdrawn from the program for failure to register unless they are on an approved leave of absence.

Combined offerings include:

- [Combined M](#)
- [Combined J](#)

Location: School of Public Policy

Downtown Campus

906 8th Avenue SW, 5th Floor

Calgary, Alberta T2P 1H9

Program number: 403.210.7109

Fax: 403.210.6939

Email address: <mailto:mpp@ucalgary.ca>

Web page URL: <https://spp.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadline for the submission of completed applications for the MPP program is available on the Future Students website:  
<http://www.ucalgary.ca/future-students/graduate/explore-programs/public-policy-master-public-policy-course-based>.

In addition to the Faculty of Graduate Studies [admission requirements](#), the School requires:

- a) A minimum 3.30 grade point average (on the four-point scale) in the last two years of program or over the last 60 units.
- b) A current resume.
- c) A personal statement outlining the applicant's career goals and how the applied-for program would help achieve those goals.
- d) For students required to prove proficiency in English, a minimum TOEFL score of 105 (Internet-based test), or a minimum score of 7.5 on the IELTS, or a minimum score of 70 on the CAEL (with a minimum of 70 on each section). This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to the Faculty of Graduate Studies [requirements](#), the School of Public Policy requires that all students complete the following:

33 units consisting of:

a) Ten core courses:

**Complete ALL of the following Course Sets:**

- Core MPP Courses

b) A total of six units of electives. This can include [PPOL699 Topics in Public Policy](#) or other graduate-level coursework approved by the Graduate Program Director. The two elective courses should be related in such a way that they form a focus in an area of public policy.

#### Additional Comments:

##### Copyediting

The School of Public Policy does not allow copyediting on students' work.

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

The School hosts a variety of Community Outreach events year-round that attract global policy experts and practitioners. As a feature of the MPP program, The School also puts on a Speaker Series specifically for students in the program. These talks feature prominent policy figures in an interactive environment.

The School's event series represents a tremendous opportunity for students to network with policy experts from business and government. For this reason, students are expected to attend as many events as possible throughout the academic year.

## Advanced Credit

The applicant must make [advanced credit](#) requests as part of the admission process. Credit will not normally be given for course work taken as part of another completed degree/diploma. If graduate-level courses are taken as post-BA courses and not used as credit towards another degree, the School may allow the student to claim up to 6 units at our graduate level

towards the MPP requirements should the student be admitted into the MPP program.

### Flexible Grade Option (CG Grade)

Students admitted to the Master of Public Policy program will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade in a course taken extra-to-load.

The use of the CG grade will affect students' ability for internal awards.

### Credit for Undergraduate Courses

No credit will be given for courses taken below the 600-level, except in special cases.

### Time Limit

Maximum completion time for the MPP is four years.

### Supervisory Assignments and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

All MPP students in the program will be guided by faculty holding appointments to the School.

### Required Examinations

No additional examinations outside of the courses are required.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Students admitted to the MPP program will automatically be considered for financial awards from the School. For information on awards, see the [website](#) for the School and the [Awards and Financial Assistance](#) section of this Calendar.

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/math-statistics-master-science-course-based>.

In addition to the Faculties of Graduate Studies and Science [requirements](#), the Department requires:

- Normally, bachelor's degree, or its equivalent, in the subject of the specialization to which the application is made, or a closely related area.
- For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 97 (Internet-based), or a minimum IELTS score of 7.0; or a minimum PTE score of 68.
- Three reference forms with reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the Faculty of Graduate Studies [requirements](#), the Faculty of Science requires students to complete:

All students must complete 25.5 units of coursework at the graduate level. Coursework must include:

- For all specializations: completion of the seminar course (1.5 units) relevant to the specialization in the first year of the program. In addition:

**Earn at least 1.5 credits from the following:**

- MTST Graduate Seminar Courses

- For the **Mathematics** specialization: 6 units from List A.

**Earn at least 6 credits from the following:**

- MTST Graduate List A

- For the **Statistics** specialization: at least 9 units from List C.

**Earn at least 9 credits from the following:**

- MTST Graduate List C

- For the **Actuarial Science** specialization: 6 units from List C and 6 units from List D.

**Earn at least 12 credits from the following:**

- MTST Graduate List C  
**AND** MTST Graduate List D

e) For the **Mathematical Finance** specialization: **6 units from list E, 6 units from List F and 6 units from List G (or 6 units from List E, 9 units from List F, and 3 units from List G).**

Earn at least 18 credits from the following:

- MTST Graduate List E  
**AND** MTST Graduate List F  
**AND** MTST Graduate List G

f) For the **Biostatistics** specialization: **Biostatistics 601, Biostatistics 610**, minimum of **9 units from List C**, and maximum of **9 units of electives in Biostatistics or Statistics** (which may include courses from List C).

Earn at least 9 credits from the following:

- MTST Graduate List C

**Additional Comments:**

#### Additional Program Information

Type

Completion Requirement

**Additional Comments:**

### Advanced Credit

The applicant must make **Advanced Credit** requests as part of the admission process. Credit will not be given for course work taken as a requirement of another completed degree/diploma. The determination for advanced credit will be made prior to entry into the program.

### Flexible Grade Option (CG Grade)

Students admitted to the MTST programs of the Department of Mathematics and Statistics, will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Graduate-level credit may be given for courses taken below the 600-level. At least one half of a graduate student's course work must be at the 600 level or higher and only where appropriate to a student's program may credit be given for courses numbered 500–599.

### Time Limit

The expected completion time for full-time master's students is two years. The maximum completion time allowed for a course-based master's program is six years.

#### Financial Assistance

Type

Completion Requirement

**Additional Comments:**

Financial assistance may be available to qualified students. For information on awards, see the **Awards and Financial Assistance** section of this Calendar. Successful applicants may be offered departmental teaching assistantships and/or research stipends in their offer letter.

In addition to the Faculties of Graduate Studies and Science **requirements**, the Department requires:

- a) A master's degree or equivalent in the subject of the specialization to which the application is made, or a closely related area.
- b) For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 97 (Internet-based test); or a minimum IELTS score of 7.0; or a minimum PTE score of 68.
- c) Three reference forms with reference letters.
- d) Excellent students, admitted to the master's program, may be transferred to the PhD program after having demonstrated exceptional performance at the graduate level, subject to endorsement by the supervisor and approval by the Graduate Committee. Such transfer requests are to be initiated by the supervisor and are to include information about research ability.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to Faculty of Graduate Studies **requirements**, the Faculty of Science requires students to complete:

Course requirements for the Doctor of Philosophy beyond those for a master's degree are determined on an individual basis, but the following rules apply: doctoral students must complete 25.5 units of graduate-level coursework in their total graduate program (MSc and PhD). PhD coursework must include:

- a) For all specializations: completion of the seminar course (1.5 units) relevant to the specialization, in the first or second year of the program.

**Earn at least 1.5 credits from the following:**

- MTST Graduate Seminar Courses

- b) For the **Mathematics** specialization: at least 15 units taken in the doctoral program at the University of Calgary. **6 of these units must come from List A and 3 units from List A or List B.**

**Earn at least 9 credits from the following:**

- MTST Graduate List A  
**AND** MTST Graduate List B

- c) For the **Statistics** specialization: **at least 9 units from List C, 6 units of which must be Statistics 701 and 721.**

**Earn at least 9 credits from the following:**

- MTST Graduate List C

- d) For the **Actuarial Science** specialization: **STAT721 Statistical Inference** (from List C) **and at least 3 more units from List C and 6 more units from List D.**

**Earn at least 9 credits from the following:**

- MTST Graduate List C  
**AND** MTST Graduate List D

e) For the **Mathematical Finance** specialization: **MATH681 Stochastic Calculus Finance**, **MATH683 Computational Finance**, at least 3 additional units from List F, and at least 6 additional units from List F or List G.

Earn at least 9 credits from the following:

- MTST Graduate List F  
**AND** MTST Graduate List G

**Additional Comments:**

## Preliminary Examinations

Doctoral students must pass written Preliminary Examinations during first year but no later than 18 months from the beginning of their doctoral programs and before the oral Field of Study examination.

- Mathematics PhD students must pass Preliminary Examinations based on material for three courses, two of which must come from List A and the third from List A or List B. Preliminary examinations will be offered during the final examination period in those semesters during which the corresponding courses are offered.
- Statistics PhD students must pass two Preliminary Examinations, one in probability based on Statistics 701 and the other in statistics based on Statistics 721. These examinations are usually offered in May and/or in December.
- Actuarial Science PhD students must pass two Preliminary Examinations based on material for two courses from List C or D.
- Biostatistics PhD students must pass two Preliminary Examinations in Statistics based on material for two courses from List C.
- Mathematical Finance PhD students must pass two Preliminary Examinations on material for two 600 or 700-level courses from List E or List F.

All Mathematics PhD students are required to give three invited or contributed presentations during their doctoral degree, not including presentations that are required as part of a graduate course or the 600 seminar course.

### Additional Program Information

Type

Completion Requirement

**Additional Comments:**

## Advanced Credit

The applicant must make **Advanced Credit** requests as part of the admission process. Credit will not be given for course work taken as a requirement of another completed degree/diploma. The determination for advanced credit will be made prior to entry into the program.

## Flexible Grade Option (CG Grade)

Students admitted to the MTST programs of the Department of Mathematics and Statistics, will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

## Admissions

### Program Admissions Information

The deadline for the submission of complete applications is available on the Future Students website: [ucalgary.ca/future-](https://ucalgary.ca/future-)

[students/graduate/explore-programs/music-master-music-thesis-based.](#)

In addition to Faculties of Graduate Studies and Arts [requirements](#), Music requires:

- a) A completed Bachelor of Music degree (or equivalent).
- b) Normally, two years of successful teaching experience or equivalent professional involvement in music education.
- c) An essay on a topic in Music Education prepared during or subsequent to the applicant's undergraduate work.
- d) One-page letter detailing their specific reasons for pursuing graduate study.
- e) Two reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

Students should consult the Graduate Program Director before registering in courses.

In addition to Faculties of Graduate Studies and Arts requirements, Music, excluding qualifying courses, requires:

- [MUSI631 Res Tech & Biblio of Music](#)
- [MUED671 Selected Topic in School Music](#), and
- 12 units of approved graduate courses in any area.

No more than 6 units may be from independent study courses [MUSI661 Independent Study](#) and [MUED655 Independent Study](#).

Diagnostic tests in music history and theory will be given to all entering master's students in order to determine if qualifying work in these areas is required. Qualifying work, if required, is normally completed in the first year of study.

## Language

While there are no formal second-language requirements for the various programs of the Master of Music degree, students may be required to attain proficiency in a language other than English where this is deemed appropriate for the proposed thesis/project.

All master's degree programs require a thesis or recital or project equivalent, prepared under the guidance of a supervisor and approved by the Music Graduate Studies Committee.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

## Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

## Flexible Grade Option (CG Grade)

The Music program in the School of Creative and Performing Arts will not permit the **Flexible Grade Option (CG Grade)** for any course offered by the Music Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Time Limit

Maximum completion time is five years for the Master of Music programs.

### Supervisory Assignments and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

The Graduate Program Director will function as the interim supervisor for all newly admitted students during their first term. This arrangement will allow students to use their first term as an opportunity to meet with faculty and to secure a permanent supervisor.

### Required Examinations

A comprehensive oral examination encompassing all areas of the chosen field is required. This examination will take place following the completion of coursework and must be satisfactorily completed before the submission of the thesis/project.

### Thesis Examinations

In addition to Faculty of Graduate Studies requirements for **Thesis Examinations**, the program requires:

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

Normally, the Internal Examiner is external to the home program.

Thesis examinations of written theses are open.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the **Awards and Financial Assistance** section of this Calendar and the program's website.

##### Additional Comments:

### Advanced Credit

The applicant must make **advanced credit** requests as part of the admission process. Courses for which advanced credit is being sought must not have been used for any previously completed degree/diploma/certificate credential.

### Flexible Grade Option (CG Grade)

The Faculty of Law will not permit the **Flexible Grade Option (CG Grade)** for any course offered by the Faculty.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Time Limit

All requirements for the Graduate Certificate program must be completed within three calendar years of initial registration.

#### Financial Assistance

**Type**

Completion Requirement

**Additional Comments:**

Financial assistance may be available to qualified students, although funding for course-based LLM and Graduate Certificate students will very rarely be provided. For information on awards, see the [Awards and Financial Assistance](#) section of this calendar or the Faculty of Law Calendar or [website](#).

Students applying for scholarships must submit their scholarship applications to the Faculty of Law by the deadlines for completed admission applications.

## Overview

### General Program Information

The Doctor of Nursing program is aimed at developing and preparing nurse leaders and innovators with significant leadership experience for senior roles in healthcare and related organizations.

The Doctor of Nursing program is delivered online allowing students to pursue this degree while continuing to work.

Location: Professional Faculties Building, 2260D

Program number: 403.220.6241

Fax: 403.210.9637

Email address: <mailto:nursgrad@ucalgary.ca>

Web page URL: <http://nursing.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/doctor-nursing>.

In addition to the Faculty of Graduate Studies [admission](#) requirements, the Faculty of Nursing requires:

- a) Applicants to have at least three years of healthcare or related organization experience in a mid-level to senior leadership role.
- b) A Master's Degree in Nursing, Psychiatric Nursing or related fields, or an equivalent from a recognized institution. A grade point average equivalent to 3.00 or better (on the University of Calgary 4.0 system) is required. See [Qualifications](#) for additional information.
- c) For applicants required to provide proof of proficiency in English, submit a minimum TOEFL score of 97 (Internet-based test); IELTS score of 7.0; PTE score of 68; or a CAEL overall score of 70 (no less than 70 on reading and writing sections). This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in writing courses.
- d) A current resume/curriculum vitae with examples of the applicant's written scholarly work such as publications, research reports, course assignments, etc.
- e) Two reference letters, one academic and one professional.
- f) A two-page personal statement outlining objectives, intent and commitment to the DN program.
- g) An interview with the Graduate Admissions and Review Committee.
- h) A letter of commitment from the identified supervisor indicating willingness to provide supervision throughout the program of study.

i) Applicants should have successfully completed graduate-level courses in quantitative and qualitative research methods and statistics.

See website for additional information.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to the Faculty of Graduate Studies' [requirements](#), the Faculty of Nursing requires the following:

21 units of courses:

**Complete ALL of the following Courses:**

- NURS741 - Leading Innovation & Transformation  
**AND** NURS742 - Technology & Healthcare Information  
**AND** NURS743 - The Business of Healthcare  
**AND** NURS744 - Health Policy & Advocacy  
**AND** NURS745 - Innovation, Improvement & Implementation Science  
**AND** NURS746 - Seminar I Project Development  
**AND** NURS747 - Seminar II Knowledge Mobilization

#### Additional Comments:

Each student is expected to complete the online seminar Academic Scholarly Writing within the first two weeks of the program.

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

Applicants must include requests for [advanced credit](#), accompanied by a rationale, when they apply for admission. For courses taken outside the University of Calgary, applicants must provide official transcripts and a copy of the course outline detailing the course description, objectives, assignments, readings, etc.

### Flexible Grade Option (CG Grade)

The Faculty of Nursing will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the Faculty.

Students may choose the CG grade in a course taken extra-to-load.

The use of the CG grade will not affect students' ability for internal awards.

### Credit for Undergraduate Courses

Credit will not be given for undergraduate-level courses.

### Time Limit

The expected completion time is three years; maximum completion time is six years.

## Supervisory Assignments and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

Doctor of Nursing students will be assigned a Faculty of Nursing member to commit to their supervision following admission to the program. In addition, a workplace or related mentor will be identified by the student and/or faculty supervisor/supervisory committee once the student has entered the DN program. This individual will normally hold a senior position within an organization relevant to the student's planned work-integrated research project. This individual, a knowledge expert, will be considered an **Advisory Member** of the student's supervisory committee, as outlined by the Faculty of Graduate Studies. The Advisory Member will attend committee meetings and examinations but will serve in a non-voting capacity.

## Candidacy

The Doctoral candidacy examination has a written and an oral component.

The student will produce a manuscript that may be submitted for publication. The manuscript will be focused on exploring and critically evaluating literature related to the student's research project. Students are expected to defend their work in an oral public presentation and a private oral examination with the supervisory committee.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students in line with the University's Equity, Diversity, and Inclusivity initiatives. For information on awards, see the **Awards and Financial Assistance** section of this Calendar.

## Overview

### General Program Information

The Master of Nursing (MN), course-based is offered online, via a Laddered Certificate Pathway

The course-based Master of Nursing is a continuous program with no scheduled break. Students who do not enrol in courses continuously will be withdrawn from the program for failure to register unless they are on an approved leave of absence.

Location: Professional Faculties Building, 2260D

Program number: 403.220.6241

Fax: 403.210.9637

Email address: <mailto:nursgrad@ucalgary.ca>

Web page URL: <http://nursing.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/nursing-master-nursing-course-based>.

In addition to the Faculty of Graduate Studies [admission](#) requirements, the Faculty of Nursing requires that an applicant must:

- a) Be a Registered Nurse or Registered Psychiatric Nurse holding a baccalaureate degree, normally in nursing.
- b) Have completed [GCERT Adva](#) and [GCERT Adva](#) with a minimum GPA of 3.0.
- c) Registered Nurses must be eligible for active nursing registration in Alberta (registrants in the program must provide proof of active CARNA registration or equivalent each year); Registered Psychiatric Nurses are expected to provide proof of active registration with the College of Registered Psychiatric Nurses of Alberta (CRPNA) or equivalent each year.
- d) Have completed one undergraduate course (3 units) in statistics with a grade of "C" or better.
- e) For applicants required to provide proof of proficiency in English, submit a minimum TOEFL score of 97 (Internet-based test); IELTS score of 7.0; PTE score of 68; or a CAEL overall score of 70 (no less than 70 on reading and writing sections). This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in writing courses.
- f) Have an interview(s) with a faculty member, if requested by the Faculty.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to the Faculty of Graduate Studies' [requirements](#), the Faculty of Nursing requires, at minimum, successful completion of the following core courses:

**Complete ALL of the following Courses:**

- NURS630 - Quantitative Research and Statistics  
**AND** NURS632 - Writing Proposals for the Nursing Profession  
**AND** NURS635 - Implementation Science for Health Professionals  
**AND** NURS683 - Qualitative Designs And Analyses

Note: Nursing 690 should be taken instead of Nursing 635 if Nursing 660 is not completed in Advanced Nursing Practice I or II Graduate Certificates.

#### Additional Comments:

Each student is expected to complete the online seminars Academic Scholarly Writing and Academic Integrity within the first two weeks of the program (if not completed in Advanced Nursing Practice I or II Graduate Certificates).

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

Applicants must include requests for [Advanced Credit](#), accompanied by a rationale, when they apply for admission. For courses taken outside the University of Calgary, applicants must provide official transcripts and a copy of the course outline detailing the course description, objectives, assignments, readings, etc.

### Flexible Grade Option (CG Grade)

The Faculty of Nursing will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the Faculty.

Students may choose the CG grade in a course taken extra-to-load.  
The use of the CG grade will not affect students' ability for internal awards.

## Credit for Undergraduate Courses

Under special circumstances, with the consent of the Faculty, students may take undergraduate courses, normally at the senior or 500-level, for the Master of Nursing degree.

## Time Limit

Expected completion time for full-time students in the Master of Nursing course-based program is one year. Maximum completion time is two years.

## Supervisory Assignments

No supervisor will be assigned.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar. Scholarship application packages will be available on the Faculty of Nursing [Website](#) prior to each competition deadline. The application deadline for internal scholarships is February 1. Please note that the deadlines for external funding applications may not coincide with the February 1 deadline.

## Overview

### General Program Information

The Master of Nursing thesis-based program offers a focused supervised research experience.

## Credit for Undergraduate Courses

Under special circumstances, with the consent of the Faculty, students may take undergraduate courses, normally at the senior or 500-level, for the Master of Nursing degree.

## Time Limit

Expected completion time is three years. Maximum completion time is four years.

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

- a) Students will be assigned a permanent supervisor throughout their program of study.
- b) A supervisory committee must be struck for all MN thesis students no later than three months after the appointment of supervisor.

## Research Proposal Requirements

Students must receive formal approval of their research proposals from the supervisory committee before proceeding to ethical review and implementation of the project. The approved proposal will be housed in the Research Office, Faculty of Nursing.

Students whose research involves human subjects must receive ethics approval from the University of Calgary Conjoint Health Research Ethics Board.

## Thesis Examination

In addition to Faculty of Graduate Studies regulations for [Thesis Examinations](#), the program requires:

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

The final thesis examination is open.

## Financial Assistance

### Type

Completion Requirement

Please note that the deadlines for external funding applications may not coincide with the February 1 deadline.

## Overview

### General Program Information

The Doctor of Philosophy program is designed to educate professionals for excellence in nursing scholarship through original research related to specialized practice with identified client populations.

Location: Professional Faculties Building, 2260D

Program number: 403.220.6241

Fax: 403.210.9637

Email address: <mailto:nursgrad@ucalgary.ca>

Web page URL: <http://nursing.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/nursing-doctor-philosophy-thesis-based>.

In addition to the Faculty of Graduate Studies [admission](#) requirements, the Faculty of Nursing requires that an applicant must:

- a) Normally be a Registered Nurse.
- b) Submit a study plan outlining the areas of proposed concentration, goals in undertaking doctoral work, initial intentions regarding course work, and a statement of the preliminary plans for thesis research.
- c) Provide examples of the applicant's written scholarly work such as publications, research reports, course assignments, etc.
- d) Provide a curriculum vitae.
- e) Provide a letter of commitment from the identified supervisor indicating willingness to provide supervision throughout the program of studies and supporting the applicant's study plan.
- f) For applicants required to provide proof of proficiency in English, submit a minimum TOEFL score of 97 (Internet-based test); IELTS score of 7.0; PTE score of 68; or a CAEL overall score of 70 (no less than 70 on reading and writing sections). This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in writing courses.
- g) Have successfully completed one graduate-level course (3 units) in quantitative methods, one graduate-level course (3 units) in qualitative methods, plus one graduate-level course (3 units) in statistics. Exceptions may be considered, but the onus will be on the applicant to provide sufficient evidence to warrant exception. Deficiencies must be successfully eliminated prior to or in the first year of the doctoral program.
- h) Submit three references, one of which must be from the applicant's supervisor of their master's program.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to the Faculty of Graduate Studies' [requirements](#), the Faculty of Nursing requires completion of 15 units of coursework:

**Complete ALL of the following Courses:**

- NURS721 - Advanced Quantitative Research Methods  
**AND** NURS744 - Health Policy & Advocacy  
**AND** NURS783 - Advanced Qualitative Research Methods

**AND NURS724 - Philosophy, Knowledge and Research in Nursing**

**AND NURS726 - Developing a Scholarly e-Portfolio**

Baccalaureate and non-nursing master's prepared applicants must complete additional coursework beyond the five core courses. Applicants are individually assessed. The number and types of additional courses required will vary according to the applicant's academic, research and practice background as well as the proposed research plan.

#### Additional Comments:

Each student is expected to complete the online seminar Academic Scholarly Writing within the first two weeks of the program.

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

Applicants must include requests for advanced credit, accompanied by a rationale, when they apply for admission. For courses taken outside the University of Calgary, applicants must provide official transcripts and a copy of the course outline detailing the course description, objectives, assignments, readings, etc.

### Flexible Grade Option (CG Grade)

The Faculty of Nursing will not permit the Flexible Grade Option (CG Grade) for any course offered by the Faculty.

Students may choose the CG grade in a course taken extra-to-load.

The use of the CG grade will not affect students' ability for internal awards.

### Time Limit

Expected completion time for doctoral students is four years; maximum completion time is six years.

#### Supervisory Assignments, Research Proposal and Required Examinations

##### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

Doctoral students require a Faculty of Nursing member to commit to their supervision as a condition of admission.

### Research Proposal Requirements

Doctoral students must have their research proposals approved in principle by their supervisory committee prior to candidacy. Students must receive formal approval of their research proposals from the supervisory committee before proceeding to ethical review and implementation of the project. The approved proposal will be housed in the Research Office, Faculty of Nursing.

Students whose research involves human subjects must receive ethics approval from the University of Calgary Conjoint Health Research Ethics Board.

### Required Examinations

#### Candidacy

After completion of the student's coursework and approval of the thesis research proposal, a candidacy examination with a written and an oral component is required.

For complete details of the examination format and other candidacy requirements visit: [nursing.ucalgary.ca/current-students/graduate/managing-my-program/examinations](https://nursing.ucalgary.ca/current-students/graduate/managing-my-program/examinations).

## Thesis Examination

In addition to Faculty of Graduate Studies regulations for [Thesis Examinations](#), the program requires:

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

The final thesis examination is open.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar. Scholarship application packages will be available on the Faculty of Nursing Website prior to each competition deadline. The application deadline for internal scholarships is February 1. Students admitted to the doctoral program are highly encouraged to seek external funding to support their studies and research. Please note that the deadlines for external funding applications may not coincide with the February 1 deadline.

## Overview

### General Program Information

#### Laddering from Graduate Certificates to Master of Information Security and Privacy:

Students who complete the Graduate Certificate in Network Security, [GCERT Data](#) or [GCERT Soft](#) may receive laddering credit for the 12 units of coursework completed in the certificate program if they are subsequently accepted into the [Master of](#) program within 5 years of completing the certificate.

Location: Science A Building, Room 229

Email: <mailto:prograd.science@ucalgary.ca>

Web page: <https://science.ucalgary.ca/information-security>

## Admissions

### Program Admissions Information

The deadline for completed applications is available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/network-security-cert>.

In addition to Faculty of Graduate Studies [admission requirements](#), admission to the Information Security and Privacy programs requires:

- A four-year Bachelor's degree or equivalent from a recognized institution.

- Successful completion of an undergraduate course in each of the following areas:
  - Computer programming with understanding of execution environments (e.g., Computer Science 233 or equivalent)
  - Algorithms and data structures (e.g., Computer Science 331 or equivalent)
  - Either Operating systems (e.g., Computer Science 457 or equivalent); or Computer networks (e.g., Computer Science 441 or equivalent).
- Two letters of reference.
- Resume or CV.
- Optional letter of intent.

*Alternate Routes to Admission:* In exceptional circumstances (see [G.A.1 Qualifications](#)), individuals who do not meet formal academic requirements but who have significant life achievement and/or work experience may be considered for admission to the Graduate Certificate programs or the Masters of Information Security program. The candidate must provide the Information Security Program Director with evidence demonstrating the potential to successfully undertake these programs. Such candidates may also be required to participate in an in-person interview with the Program Director and, if admitted, be required to take additional courses to meet completion requirements.

Students who successfully complete one of the Graduate Certificate programs, and who then apply to the other Graduate Certificate program and/or to the Master of Information Security degree program within 4 years of completing the first certificate, will not be required to submit reference letters or previous transcripts again. If students complete new coursework elsewhere, they will be required to submit new transcripts.

Students who have successfully completed two of the Graduate Certificate programs with a cumulative GPA of 3.00 or higher will meet the minimum admission requirements for the Master of Information Security and Privacy program. In addition, students who choose to ladder from the certificates into the Master's degree will not normally be required to submit transcripts or reference letters (unless they have completed other credit courses from a post-secondary institution in the meantime).

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Science requires students to complete:

12 units of coursework consisting of:

**Complete ALL of the following Requirement Sets:**

- Network Security GC Courses

**Additional Comments:**

#### Additional Program Information

##### Type

Completion Requirement

**Additional Comments:**

### Advanced Credit

Advanced credit will not normally be given for the Network Security Graduate Certificate.

### Flexible Grade Option (CG Grade)

The Information Security Professional Program will allow students to pursue the [Flexible Grade Option \(CG Grade\)](#).

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

For this Graduate Certificate program, credit will not normally be granted for undergraduate courses.

## Supervisory Assignments

An Academic Coordinator is assigned to each cohort-based Graduate Certificate program.

## Time Limits

Expected completion time for this Graduate Certificate is 4, 8, 10 or 12 months, depending on the schedule set for that cohort. The maximum time allowed is three years.

Maximum completion time for students to complete all requirements of the Master of Information Security and Privacy via the ladder certificate pathway is four years from the beginning of the first certificate program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

The program itself does not provide scholarships, however financial assistance may be available to qualified students through alternative means. For information on awards, see the [Awards and Financial Assistance](#) section.

## Overview

### General Program Information

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [arts.ucalgary.ca/schools/creative-performing-arts/music/graduate](https://arts.ucalgary.ca/schools/creative-performing-arts/music/graduate)

## Admissions

### Program Admissions Information

The deadline for the submission of complete applications is available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/music-master-music-thesis-based](https://ucalgary.ca/future-students/graduate/explore-programs/music-master-music-thesis-based).

In addition to Faculties of Graduate Studies and Arts [requirements](#), Music requires:

- A completed Bachelor of Music degree (or equivalent).
- A live audition or video/audio recording. Repertoire for the audition must contain representative works from a variety of historical periods and must demonstrate an advanced level of technical accomplishment. Recordings should be approximately 20-30 minutes in length. Live auditions are scheduled for early February. Specific dates and times can be arranged by contacting the Graduate Program Administrator at 403.220.5422 or email <mailto:artsgradsc@ucalgary.ca>.
- One-page letter detailing their specific reasons for pursuing graduate study.
- Two reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

Students should consult the Graduate Program Director before registering in courses.

In addition to Faculties of Graduate Studies and Arts requirements, Music, excluding qualifying courses, requires:

- **MUSI621 Adv Performance Practicum I, MUSI623 Adv Performance Practicum II and MUSI631 Res Tech & Biblio of Music**
- 6 units of graduate courses in Music Theory and Composition, Sonic Arts or Music History and Literature
- 3-unit graduate Music course, and
- 6 units of approved graduate courses in any area.

No more than 6 units may be from independent study courses **MUSI661 Independent Study** and **MUED655 Independent Study**.

Diagnostic tests in music history and theory will be given to all entering master's students in order to determine if qualifying work in these areas is required. Qualifying work, if required, is normally completed in the first year of study.

## Language

While there are no formal second-language requirements for the various programs of the Master of Music degree, students may be required to attain proficiency in a language other than English where this is deemed appropriate for the proposed thesis/project.

Graduate students in the MMus Performance program are required to participate in one of the large ensembles for the duration of their degree and pianists are required to volunteer as accompanists. In lieu of the large ensemble requirement, pianists have the option to accompany two hours per week in a vocal or instrumental studio. Another option for pianists is to accompany a Junior or a Senior recital. The head of the performance area will make all ensemble or accompanying assignments. Students in graduate programs other than performance are not required to participate in an ensemble, although such participation is encouraged.

All master's degree programs require a thesis or recital or project equivalent (see below), prepared under the guidance of a supervisor and approved by the Music Graduate Studies Committee.

The thesis is interpreted to be two public recitals featuring solo performances and chamber music. At least one Canadian work should be included in one of the recitals. The examining committee will evaluate the candidate's performance in both of the recitals. Recital proposals are to be submitted to the Graduate Program Administrator for approval by the Graduate Committee at least two months before each performance.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

## Advanced Credit

The applicant must make **Advanced Credit** requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

The Music program in the School of Creative and Performing Arts will not permit the Flexible Grade Option (CG Grade) for any course offered by the Music Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Time Limit

Maximum completion time is five years for the Master of Music programs.

### Supervisory Assignments and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

The Graduate Program Director will function as the interim supervisor for all newly admitted students during their first term. This arrangement will allow students to use their first term as an opportunity to meet with faculty and to secure a permanent supervisor.

### Required Examinations

A comprehensive oral examination based upon the literature of the instrument and more extensively upon the repertoire of the approved recital programs is required. This examination must be satisfactorily completed at least six weeks before the date of the second public performance required for the degree.

### Thesis Examinations

In addition to Faculty of Graduate Studies requirements for Thesis Examinations, the program requires:

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

Normally, the Internal Examiner is external to the home program.

Thesis examinations of written theses are open.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar and the program's website.

## Overview

### General Program Information

### Specializations:

# UCalgary

- Astrophysics
- Physics
- Space Physics

The MSc degree may be completed on a part-time basis with approval of the Department.

Email address: <mailto:sci.grad@ucalgary.ca>

Web page URL: <https://science.ucalgary.ca/physics-astronomy>

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/physics-astronomy-master-science-course-based>.

In addition to Faculty of Graduate Studies and Faculty of Science **requirements**, the Department requires:

- A University of Calgary Honours undergraduate degree in Physics, Engineering Physics, Astronomy/Astrophysics, or equivalent.
- Some supervisors may require a satisfactory score on the Advanced Physics Graduate Record Examination. Applicants should discuss this requirement with their potential supervisor or the Graduate Program Director.
- Two reference letters.

Applicants to the Master of Science program whose background does not include the equivalent of an undergraduate honours degree in the proposed area of study may require additional make-up courses. Such applicants should consult with the department regarding their admission status.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the Faculty of Graduate Studies **requirements** and the Faculty of Science requirements, the Department requires:

All students must complete three components of the Scientific Communication Skills course, [PHYS691.11 Effective Scientific Speaking](#), [PHYS691.12 Graduate Seminar](#) and [PHYS691.13 Effective Scientific Writing](#), during their graduate program. Students may be encouraged to repeat components of Physics 691 in order to improve their communication skills.

Students must complete 30 units of coursework, which will include:

##### Complete ALL of the following Courses:

- PHYS605 - Advanced Data Analysis  
**AND** PHYS609 - Advanced Classical Mechanics  
**AND** PHYS611 - Statistical Physics  
**AND** PHYS613 - Electrodynamics

Complete at least 1 of the following courses:

- PHYS615 - Non-Relativistic Quantum Mechanics  
OR PHYS617 - Relativistic Quantum Mechanics

**Additional Comments:**

Complete 15 units within the area of specialization:

*Astrophysics* – **PHYS699 Project In Physics** and 12 units selected from Astrophysics, **PHYS629 Gravitation**, **SPPH671 Physics Of The Magnetosphere**. With permission, up to 6 units of Astrophysics may be at the 500 level. If the topic is appropriate, Physics 698 may be used.

*Physics* – **PHYS699 Project In Physics** plus 6 units of Astrophysics, Physics, or Space Physics courses (these may be at the 500 level) plus 6 units of Physics courses, at the 600 level or above.

*Space Physics* – **PHYS699 Project In Physics**, **PHYS509 Plasma Physics** and 9 units selected from Space Physics or Physics related to space physics (with permission, 3 units may be at the 500 level).

**Additional Program Information**

**Type**

Completion Requirement

**Additional Comments:**

**Advanced Credit**

The applicant must make **Advanced Credit** requests as part of the admission process.

**Flexible Grade Option (CG Grade)**

Students admitted to the PHAS Graduate Program will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

**Credit for Undergraduate Courses**

Credit for a maximum of 6 units may be given for courses taken at the 500 level.

**Time Limit**

Expected completion time is three years in a course-based program. Maximum completion time is six years.

**Supervisory Assignments and Required Examinations**

**Type**

Completion Requirement

**Additional Comments:**

**Supervisory Assignments**

Newly admitted students will normally be supervised by the Graduate Director or an interim supervisor in their field of interest during the first 8 months in program. During this time students will complete all of the course work and have an opportunity to become acquainted with the research of potential supervisors within the department. Students are responsible for securing a permanent supervisor from among the researchers in the department within the first four months in program.

The MSc program has a supervisory committee requirement which follows the same requirements and rules as the PhD.

## Required Examinations

Two weeks before the comprehensive oral examination, students must write a three-hour, closed-book comprehensive examination, prepared by the Departmental Graduate Affairs Committee in collaboration with the supervisor.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, please see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for scholarships must submit their applications to the Department by January 15.

## Overview

### General Program Information

#### Specializations:

- Astrophysics
- Medical Physics
- Physics
- Radiation Oncology Physics
- Space Physics
- [Comp Neuro](#)
- [Medical Im](#)

The PhD MSc degree may be completed on a part-time basis with approval of the Department.

Email address: <mailto:sci.grad@ucalgary.ca>

Web page URL: <https://science.ucalgary.ca/physics-astronomy>

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/physics-astronomy-master-science-thesis-based>.

In addition to Faculty of Graduate Studies and Faculty of Science [requirements](#), the Department requires:

- A University of Calgary Honours undergraduate degree in Physics, Engineering Physics, Astronomy/Astrophysics, or equivalent.
- Some supervisors may require a satisfactory score on the Advanced Physics Graduate Record Examination. Applicants should discuss this requirement with their potential supervisor or the Graduate Program Director.
- Two reference letters.

Applicants to the Master of Science program whose background does not include the equivalent of an undergraduate honours degree in the proposed area of study may require additional make-up courses. Such applicants should consult with the department regarding their admission status.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Science requirements, the Department requires:  
All students must complete three components of the Scientific Communication Skills course, [PHYS691.11 Effective Scientific Speaking](#), [PHYS691.12 Graduate Seminar](#) and [PHYS691.13 Effective Scientific Writing](#), during their graduate program. Students may be encouraged to repeat components of Physics 691 in order to improve their communication skills.

a) All students must complete the core courses:

Earn at least 6 credits from the following:

- PHYS605 - Advanced Data Analysis  
OR PHYS609 - Advanced Classical Mechanics  
OR PHYS611 - Statistical Physics  
OR PHYS613 - Electrodynamics  
OR PHYS615 - Non-Relativistic Quantum Mechanics  
OR PHYS617 - Relativistic Quantum Mechanics

Note: Only one of Physics 615 and 617 can be taken as a core course.

#### Additional Comments:

b) In addition, students must complete course requirements for their specialization as described below.

*Astrophysics, Physics, and Space Physics*

- Elective courses: 6 units at the 500 or 600 level, as approved by the Graduate Program Director.

*Medical Physics*

- Specialization courses: [MDPH623 Radiotherapy Physics I](#) and [MDPH625 Radiation Oncology Physics](#); and
- Elective course: 3 units at the 500 or 600 level, as approved by the Graduate Program Director.

*Radiation Oncology Physics*

- Specialization courses: [MDPH623 Radiotherapy Physics I](#), [MDPH625 Radiation Oncology Physics](#), [MDPH633 Radiation Oncology Physics Lab](#), [MDPH637 Anatomy & Statistics For MdPh](#), [MDPH638 Imaging Rad'n Oncology Phys](#), [MDPH639 Radiobio & Rad Safety for MdPh](#); and
- Clinical rotation: [MDPH632 Clin Rotate Radiation OncoPhys](#)

#### Additional Requirements

##### Type

##### Completion Requirement

#### Additional Comments:

### Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process.

### Credit for Undergraduate Courses

Credit for a maximum of 6 units may be given for courses taken at the 500 level.

### Flexible Grade Option (CG Grade)

Students admitted to the PHAS Graduate Program will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Time Limit

Expected completion time is two years for full-time students in a thesis Master's program.

Maximum completion time is four years.

### Supervisory Assignments and Thesis Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

Newly admitted students will normally be supervised by the Graduate Director or an interim supervisor in their field of interest during the first 8 months in program. During this time students will complete all of the course work and have an opportunity to become acquainted with the research of potential supervisors within the department. Students are responsible for securing a permanent supervisor from among the researchers in the department within the first four months in program.

The MSc program has a supervisory committee requirement which follows the same requirements and rules as the PhD.

### Thesis Examinations

In addition to Faculty of Graduate Studies regulations for **Thesis Examinations**, the Department requires:

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

The thesis examination is open.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, please see the **Awards and Financial Assistance** section of this Calendar.

Students applying for scholarships must submit their applications to the Department by January 15.

## Overview

### General Program Information

Email address: <mailto:sci.grad@ucalgary.ca>

Web page URL: <https://www.ucalgary.ca/rop/>

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students website: <https://www.ucalgary.ca/future-students/graduate/explore-programs/radiation-oncology-physics-certificate-course-based>.

In addition to Faculty of Graduate Studies' admission [requirements](#), and Faculty of Science requirements, the Department requires:

- a) A University of Calgary Honours background in Physics, Engineering Physics, Astronomy/Astrophysics, or equivalent.
- b) For some applicants, a satisfactory score on the Advanced Physics Graduate Record Examination.
- c) Two reference letters.

In addition, applicants must possess a PhD in Physics, Medical Physics, Biophysics, or Biomedical Engineering. Applicants with PhDs in sciences other than those listed above may consult with the department regarding possible admission. A minimum GPA of 3.50 over an applicant's last 60 units of course work is required before an applicant may be considered for admission; however, exceptional students with extenuating circumstances may be considered.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to the Faculty of Graduate Studies ([see regulations](#)) and Faculty of Science requirements, the Department requires:

19.5 units consisting of:

##### Complete ALL of the following Courses:

- MDPH623 - Radiotherapy Physics I  
**AND** MDPH625 - Radiation Oncology Physics  
**AND** MDPH633 - Radiation Oncology Physics Lab  
**AND** MDPH637 - Anatomy and Statistics for Medical Physicists  
**AND** MDPH638 - Imaging for Radiation Oncology Physics  
**AND** MDPH639 - Radiobiology and Radiation Safety for Medical Physicists  
**AND** MDPH632 - Clinical Rotation in Radiation Oncology Physics

The Fall schedule consists of MDPH 623, 638 and 639.

The Winter schedule consists of MDPH 625, 632, 633, 637 and Ethics and Errors (offered not for credit)

No substitutions accepted.

Graduation requires successful completion of all required courses with a minimum grade of "B".

#### Additional Comments:

Regular attendance at Radiation Oncology Rounds, Grand Rounds and non-credit training sessions such as the Ethics and Errors course (winter term).

#### Additional Requirements

##### Type

Completion Requirement

**Additional Comments:**

### **Advanced Credit**

Advanced Credit for a maximum of 3 units may be given.

### **Flexible Grade Option (CG Grade)**

Students admitted to the PHAS Graduate Program will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### **Credit for Undergraduate Courses**

No credit will be given for undergraduate-level courses.

### **Time Limit**

Expected completion time is 8 months (two terms) for the Postdoctoral Certificate program.

#### **Supervisory Assignments**

**Type**

Completion Requirement

**Additional Comments:**

All students will be supervised by the Postdoctoral certificate co-ordinator or delegate co-ordinator for the duration of their program.

#### **Financial Assistance**

**Type**

Completion Requirement

**Additional Comments:**

Financial assistance is not available for this program.

## **Overview**

### **General Program Information**

\*The Postdoctoral Diploma is a continuous program with no scheduled break.

Email address: <mailto:sci.grad@ucalgary.ca>

Web page URL: <https://www.ucalgary.ca/rop/>

## **Admissions**

### **Program Admissions Information**

Application deadlines are available on the Future Students website: <https://www.ucalgary.ca/future-students/graduate/explore-programs/radiation-oncology-physics-diploma-course-based>.

In addition to Faculty of Graduate Studies' admission [requirements](#), and Faculty of Science requirements, the Department requires:

- a) A University of Calgary Honours background in Physics, Engineering Physics, Astronomy/Astrophysics, or equivalent.
- b) For some applicants, a satisfactory score on the Advanced Physics Graduate Record Examination.
- c) Two reference letters.

In addition, applicants must possess a PhD from a CAMPEP accredited graduate program or equivalent and an appointment as an Associate Medical Physicist by the Alberta Health Services.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to the Faculty of Graduate Studies ([see regulations](#)) and Faculty of Science requirements, the Department requires:

18 units consisting of:

**Complete ALL of the following Courses:**

- MDPH711 - Clinical Competency I  
**AND** MDPH712 - Clinical Competency II  
**AND** MDPH721 - Clinical Projects I  
**AND** MDPH722 - Clinical Projects II  
**AND** MDPH731 - Radiation Oncology Physics Tutorials  
**AND** MDPH741 - Treatment Planning

No substitutions accepted.

Graduation requires successful completion of all required courses with a minimum grade of "B".

#### Additional Comments:

#### Additional Program Information

Students applying for scholarships must submit their applications to the Department by January 15.

## Overview

### General Program Information

The course-based Master of Arts degree may be completed on a full-time or a part-time basis.

#### Specializations:\*

- History and Philosophy of Science
- Philosophy of Religion

\*These two specializations are offered in co-operation with the Departments of History and Classics and Religion respectively. Selecting a specialization is not mandatory.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [DEPARTMENT OF PHILOSOPHY | Faculty of Arts | University of Calgary \(ucalgary.ca\)](http://DEPARTMENT OF PHILOSOPHY | Faculty of Arts | University of Calgary (ucalgary.ca))

## Admissions

### Program Admissions Information

The deadline for submitting complete applications is available on the Future Students website: [grad.ucalgary.ca/future-students/explore-programs/philosophy-ma-course](http://grad.ucalgary.ca/future-students/explore-programs/philosophy-ma-course)

In addition to Faculties of Graduate Studies and Arts [requirements](#), the Department requires:

- a) A completed four-year undergraduate degree with honours or a major in philosophy; however, applicants with a degree in a related academic field will be considered.
- b) Three letters of reference, and a sample of written work, such as a recent essay, written in English. Applications will not be considered without a sample of written work. The sample should be 10-15 pages including bibliography.
- c) A minimum grade point average (GPA) of 3.50 or higher on a four-point scale over the last 60 units and/or the last two years of study in their degree.
- d) For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 97 (Internet-based test); an IELTS score of 7.0; a CAEL score of 70 (with no section less than 70); a PTE score of 68; a Duolingo score of 135 (with no subscore below 115); or a Cambridge score of 191. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in Academic Writing and Oral Communication, and a minimum grade of "B+" in all other courses.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department requires:

A minimum of 30 units, including at least 6 units in the History of Philosophy and 6 units in 20th Century or Contemporary Philosophy.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The Department does not normally give [advanced credit](#) for courses taken previously. However, in special circumstances, a request for advanced credit may be considered if it is made as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to raise the grade point average to a level required for admission. Normally, advanced credit may be given for a maximum of 9 units.

### Flexible Grade Option (CG Grade)

The Department of Philosophy will allow students to pursue the [Flexible Grade Option \(CG Grade\)](#).

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Normally, undergraduate courses will not be credited towards completion of course requirements in a graduate program.

## Time Limit

Expected completion time for full-time students in a master's course-based program is two years. Maximum completion time is six years.

### Supervisory Assignments

#### Type

Completion Requirement

#### Additional Comments:

Students are assigned an interim advisor until they have an opportunity to become acquainted with members of the faculty. Each student must have an assigned supervisor by the end of the second regular academic session after first registration (April for September registrants and December for January registrants). The choice of supervisor must be by mutual arrangement between the student and faculty member concerned, and approved by the Department.

A supervisory committee at the master's level is not normally appointed. When such a committee is deemed necessary, the Dean's approval must be obtained.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Course-based MA students normally do not receive department funding.

For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for scholarships must submit their applications to the Department by January 15.

## Overview

### General Program Information

- A minimum grade point average (GPA) of 3.50 or higher on a four-point scale over the last 60 units and/or the last two years of study in their degree.
- For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 97 (Internet-based test); an IELTS score of 7.0; a CAEL score of 70 (with no section less than 70); a PTE score of 68; a Duolingo score of 135 (with no subscore below 115); or a Cambridge score of 191. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in Academic Writing and Oral Communication, and a minimum grade of "B+" in all other courses.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculties of Graduate Studies and Arts requirements, the Department requires:

- Students must complete a minimum of 21 units of coursework, including [PHIL603 Graduate Proseminar](#) (normally taken in the first year in program) and Philosophy 699 (normally taken in the second year). Incoming students determine coursework in consultation with the Graduate Program Director.
- In the specializations History and Philosophy of Science and Philosophy of Religion, courses taken in History or Religious Studies, respectively, may, with departmental approval, count as fulfilling course requirements for the degree.
- Students in the specialization in History and Philosophy of Science must show competence in logic. This requirement may be met by:
  - successfully completing [PHIL677 Metalogic](#) or [PHIL679 Topics in Logic](#) as part of the program course requirements; or
  - serving as a Graduate Assistant (Teaching) for [PHIL279 Logic I](#); or
  - completing [PHIL279 Logic I](#) or [PHIL377 Elementary Formal Logic](#) (with a grade of B or better) in addition to the program course requirements\*.

*\*Students who have completed Philosophy 279 or 377 (or its equivalent at another university) may request an exemption from the logic requirement from the Graduate Program Director.*

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The Department does not normally give [advanced credit](#) for courses taken previously. However, in special circumstances, a request for advanced credit may be considered if it is made as part of the admission process. Credit will not be given for course

work taken as part of another completed degree/diploma or for courses taken to raise the grade point average to a level required for admission. Normally, advanced credit may be given for a maximum of 9 units.

Normally, undergraduate courses will not be credited towards completion of course requirements in a graduate program.

#### **Time Limit**

Expected completion time for full-time students is four years in a doctoral program. Maximum completion time is six years.

#### **Supervisory Assignments and Required Examinations**

##### **Type**

Completion Requirement

##### **Additional Comments:**

#### **Supervisory Assignments**

Students are assigned an interim advisor until they have an opportunity to become acquainted with members of the faculty. Each student must have an assigned supervisor by the end of the second regular academic session after first registration (April for September registrants and December for January registrants). The choice of supervisor must be by mutual arrangement between the student and faculty member concerned, and approved by the Department.

A doctoral student shall be under the general supervision of a supervisory committee. After consultation with the student, the supervisor will submit a list of possible members of the supervisory committee to the Graduate Studies Committee for approval. The supervisory committee should be established as soon as possible and no later than three months after the supervisor's appointment.

#### **Candidacy**

In addition to Faculty of Graduate Studies **candidacy** requirements, the program requires:

Doctoral students must complete two field of study papers, a field of study oral examination, a written thesis proposal and an oral examination on the thesis proposal. For complete details of the candidacy requirements, see the **Philosophy Doctoral Candidacy Requirements**.

## Thesis Examinations

In addition to the Faculty of Graduate studies [thesis requirements](#), the program requires:

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

PhD students are guaranteed funding for the first four years of their program.

For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for scholarships must submit their applications to the Department by January 15.

Satisfactory academic progress in the student's program is required for funding.

## Overview

### General Program Information

The MA, course-based is a continuous program with no scheduled break. The MA programs are offered as full-time programs only.

Both course-based and thesis-based MA programs include significant independent research, are SSHRC-eligible, and are appropriate for students who intend to pursue doctoral studies.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [poli.ucalgary.ca](http://poli.ucalgary.ca)

## Admissions

### Program Admissions Information

Deadline for the submission of completed applications is available on the Future Students website:

<https://grad.ucalgary.ca/future-students/explore-programs/political-science-ma-course>.

In addition to the Faculties of Graduate Studies and Arts [requirements](#), the Department requires:

- a) A minimum grade point average of 3.40 on a four-point scale over the last 60 units taken in the applicant's undergraduate program.
- b) Normally a four-year BA in Political Science or a strong background in Political Science of at least 30 units in Political Science courses. Special consideration may be given to those who have not achieved this background.
- c) All students whose primary language is not English are required to take a language proficiency test: TOEFL (Internet-based) with a minimum score of 105; IELTS with a minimum score of 7.5; a CAEL score of 70 with no section less than 70; or a PTE with a minimum score of 75. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.
- d) Two reference letters.
- e) A statement of research interests.

f) Sample of written work, preferably a paper submitted for a Political Science course.

g) For applicants to the thesis-based Master of Arts, email confirmation from a potential supervisor who is interested in supervising the student's work is required.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department normally requires:

A minimum of 24 units of coursework, which must include the following:

- at least 18 units of graduate courses in Political Science;
- at least 6 units and no more than 9 units must be in the student's Primary Field (one of Canadian Politics, Comparative Politics, Indigenous Politics, International Relations, or Political Thought);
- a maximum of 6 units as reading courses;
- **POLI697 Major Research Paper** (Major research paper of maximum 9,000 words, exclusive of notes and bibliography);
- **POLI691 Quantitative Analysis In Poli** (see Advanced Credit).

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make **Advanced Credit** requests as part of the admission process. Credit will not normally be given for course work taken as part of another completed degree/diploma.

If graduate-level courses are taken as post-BA courses, the Graduate Program Director may allow the student to claim up to 6 units at our graduate level.

### Flexible Grade Option (CG Grade)

The department of Political Science will not permit the **Flexible Grade Option (CG Grade)** for any course offered by the Political Science Graduate Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Applicants with knowledge of research methods equivalent to **POLI399 Quantitative Research Methods** may be given a course exemption in **POLI691 Quantitative Analysis In Poli**. Course exemption exempts students from taking this course, but they are still required to complete the total number of units required for their degree. Applicants must make course exemption requests as part of the admission process.

### Time Limit

Expected completion time is one year for the course-based MA program. Maximum completion time is six years.

## Supervisory Assignments

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

A Supervisor should normally be appointed by January 15th of the first year of registration.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for scholarships must submit their applications to the Department by January 15.

## Overview

### Flexible Grade Option (CG Grade)

The department of Political Science will not permit the **Flexible Grade Option (CG Grade)** for any course offered by the Political Science Graduate Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Course

Applicants with knowledge of research methods equivalent to **POLI399 Quantitative Research Methods** may be given a course exemption in **POLI691 Quantitative Analysis In Poli**. Course exemption exempts students from taking this course, but they are still required to complete the total number of units required for their degree. Applicants must make course exemption requests as part of the admission process.

### Time Limit

Expected completion time is two years for the thesis-based MA program. Maximum completion time is four years.

### Supervisory Assignments and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

An incoming student for the thesis-based program must have a proof of agreement to supervise from one or more faculty members in the student's proposed area of thesis research. Admission will not be granted without proof that adequate supervision is available during the applicant's studies. The selection of an eligible Permanent Supervisor is made by mutual agreement between the student, the faculty member, and the Graduate Program Director. A permanent Supervisor should normally be appointed by the end of April of the first year of registration. At the time of appointment, the Permanent Supervisor should be currently active in research in an area related to the student's interest.

### Thesis Examination

#### *Scheduling of the Examination*

All members of the Supervisory Committee (if applicable) must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for scholarships must submit their applications to the Department by January 15.

## Admissions

### Program Admissions Information

Deadlines for the submission of completed applications are available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/psychology-master-science-thesis-based](https://ucalgary.ca/future-students/graduate/explore-programs/psychology-master-science-thesis-based).

In addition to Faculties of Graduate Studies and Arts [requirements](#), the Department requires:

- A four-year undergraduate degree in Psychology or related discipline. Students not having an undergraduate degree in Psychology must demonstrate adequate background in psychology. Those needing additional work may be required to take particular courses.
- A minimum admission grade point average of 3.40 on a four-point scale over the last 60 units.
- An undergraduate course in statistics/experimental design.
- For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 105 (Internet-based test), an IELTS score of 7.5, a CAEL score of 70 with a minimum of 70 in each component, or a PTE score of 75. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.
- Two academic reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to Faculties of Graduate Studies [requirements](#) and Arts requirements, the Department requires students to complete no fewer than 12 units of coursework, which include:

**Complete ALL of the following Courses:**

- PSYC600 - Professional Development

**Earn at least 6 credits from the following:**

- PSYC607 - Advanced Research Design and Methodology in Psychology  
**OR** PSYC611 - Advanced Qualitative Inquiry in Psychology  
**OR** PSYC613 - Signal and Systems Analysis in Behavioural Research  
**OR** PSYC615 - Analysis of Variance  
**OR** PSYC617 - Multivariate Data Analysis  
**OR** PSYC619 - Special Topics in the Design of Psychological Research

**Earn at least 3 credits from the following:**

- PSYC601 - History of Psychology  
**OR** PSYC620 - Advanced Topics in Brain and Cognitive Sciences  
**OR** PSYC623 - Functional Neuroanatomy  
**OR** PSYC630 - Advanced Topics in Social and Theoretical Psychology  
**OR** PSYC639 - Adv Industrial & Organize Psyc  
**OR** PSYC700 - Integrative Seminar in Psychology  
**OR** PSYC710 - Integrative Seminar in Psychology  
**OR** PSYC720 - Seminar in Brain and Cognitive Sciences  
**OR** PSYC730 - Seminar in Social and Theoretical Psychology  
**OR** PSYC739 - Seminar in Industrial/Organizational Psychology

These courses may be substituted with seminar courses from other departments with approval by the supervisor and the Graduate Program Director.

**Additional Comments:**

## Industrial Organizational Specialization

I/O students in the MSc program are required to take 24 units with 6 units in research methods and statistics, 12 units in I/O Psychology (Psychology 639, 739), and 6 units outside the I/O area.

### Additional Program Information

#### Type

Completion Requirement

**Additional Comments:**

## Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

## Flexible Grade Option (CG Grade)

The Psychology program in the Psychology Department will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the Psychology Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Credit may be given for 500-level undergraduate courses up to a maximum of three courses.

## Time Limit

Expected completion time is two years for the Master of Science program.

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

An interim supervisor is assigned to each student at the time of admission. In no case will a student be admitted if an appropriate supervisor is not expected to be available. The shift from interim to permanent supervisor formally takes place at the end of the first year. The Graduate Program Director must approve the permanent supervisor.

Master's level students must have a supervisory committee consisting of the supervisor plus two other faculty members.

## Research Proposal

Students whose research involves human subjects must receive approval from the appropriate departmental or University Ethics Review Committee before beginning data collection.

All Master of Science students must formally present a thesis proposal not more than 14 months after admission to the program. The proposal must be typed and 10 to 30 double-spaced pages (12 pt font, reference list extra). Students must consult with their supervisors. The supervisory committee must approve the thesis proposal.

## Thesis Examinations

In addition to Faculty of Graduate Studies regulations for [Thesis Examinations](#), the program requires the following:

Thesis oral examinations are open.

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

### *Composition of the Committee*

The Internal Examiner must be external to the home program.

Core faculty members in the Psychology and Clinical Psychology programs are not eligible to serve as Internal Examiner; however, adjunct faculty members are eligible to serve in this capacity.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for scholarships are advised to submit their applications to the Department by January 15.

## Overview

### General Program Information

The Department accepts applicants who plan to remain full-time to the completion of their degree. The program does not offer a part-time option.

### Specializations:

- Industrial Organizational Specialization
- Medical Im
- Wearable T
- Comp Neuro

Email address: <mailto:artsgradsc@ucalgary.ca>

## Overview

### General Program Information

The Graduate Certificate in Quantum Computing can be completed full- or part-time.

Students can choose to apply directly to one of the Quantum Computing credentials or complete the individual credentials via a ladder pathway.

### Laddered Pathway from the Graduate Certificate to the Graduate Diploma, and from the Graduate Diploma to the Master of Quantum Computing

Students who complete the Graduate Certificate in Quantum Computing may receive laddering credit for the 12 units of coursework completed in the certificate program if they are subsequently accepted into the Graduate Diploma in Quantum Computing program within 5 years of beginning the certificate.

Students who complete the Graduate Diploma in Quantum Computing may receive laddering credit for the 24 units of coursework completed in the diploma program if they are subsequently accepted into the Master of Quantum Computing program within 5 years of beginning the first credential in the laddering process.

## Admissions

### Program Admissions Information

The deadline for completed applications is available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/quantum-computing-certificate>.

Admission to all programs in Quantum Computing is competitive and meeting minimum requirements does not guarantee admission to any program.

In addition to Faculty of Graduate Studies [admission requirements](#), admission into each of the credentials requires:

- A four-year Bachelor's degree in science or engineering or equivalent from a recognized institution.
- A minimum admission grade point average of 3.0 on a 4.0 scale or equivalent calculated on the last 60 units completed.
- Successful completion of:
  - 3-unit undergraduate course in linear algebra (MATH 211 or equivalent)
  - 3-unit undergraduate course in computer programming (CPSC 231 or CPSC 217 or equivalent, or demonstrated equivalent professional experience in computer programming)
- Resume or CV.

**Note:** In exceptional circumstances, individuals who do not meet formal academic requirements but who have significant life achievement and/or work experience may be considered for admission to the programs in Quantum Computing (see [G.A.1 Qualifications](#)). The applicant must provide the Quantum Computing Program Director with evidence demonstrating the potential to successfully undertake these programs. An in-person interview may also be required with the Program Director.

### Program Admissions Information

The deadline for completed applications is available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/quantum-computing-diploma>.

Admission to all programs in Quantum Computing is competitive and meeting minimum requirements does not guarantee admission to any program.

In addition to Faculty of Graduate Studies [admission requirements](#), admission into each of the credentials requires:

- A four-year Bachelor's degree in science or engineering or equivalent from a recognized institution.
- A minimum admission grade point average of 3.0 on a 4.0 scale or equivalent calculated on the last 60 units completed.
- Successful completion of:
  - 3-unit undergraduate course in linear algebra (MATH 211 or equivalent)
  - 3-unit undergraduate course in computer programming (CPSC 231 or CPSC 217 or equivalent, or demonstrated equivalent professional experience in computer programming)
- Resume or CV.

**Note:** In exceptional circumstances, individuals who do not meet formal academic requirements but who have significant life achievement and/or work experience may be considered for admission to the programs in Quantum Computing (see [G.A.1 Qualifications](#)). The applicant must provide the Quantum Computing Program Director with evidence demonstrating the potential to successfully undertake these programs. An in-person interview may also be required with the Program Director.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Science requires students to complete:  
The Diploma requires 24 units of coursework:

##### Enroll in the following Course Sets:

- Quantum GC Courses  
**AND** Quantum GD Courses

#### Additional Comments:

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

[Advanced Credit](#) will not normally be given for any of the Quantum Computing credentials.

### Flexible Grade Option (CG Grade)

The Graduate programs in Quantum Computing will permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the program.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade may affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Credit will not be granted for undergraduate courses.

## Time Limits

The expected completion time for the Graduate Diploma in Quantum Computing is eight months (direct entry pathway), and four months for students laddering from the Graduate Certificate program. The maximum completion time for the Graduate Diploma is two years from the start of the Diploma program.

For students laddering from the Graduate Diploma program into the Master's, the maximum completion time for all laddered credentials is 6 years from the start of the first credential (Graduate Certificate) in the laddering process.

## Supervisory Assignments

An academic coordinator is assigned to each cohort in the Graduate Diploma program.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Students enrolled in any of the Quantum Computing Graduate Credentials are not eligible for University of Calgary awards administered through the Graduate Awards Competition but may be eligible for program recommended awards.

For information on awards, see the [Awards and Financial Assistance](#) section.

## Overview

### General Program Information

The Master of Quantum Computing can be completed full- or part-time.

Students can choose to apply directly to one of the Quantum Computing credentials or complete the individual credentials via a laddered pathway.

### Laddered Pathway from the Graduate Certificate to the Graduate Diploma, and from the Graduate Diploma to the Master of Quantum Computing

Students who complete the Graduate Certificate in Quantum Computing may receive laddering credit for the 12 units of coursework completed in the certificate program if they are subsequently accepted into the Graduate Diploma in Quantum Computing program within 5 years of beginning the certificate.

Students who complete the Graduate Diploma in Quantum Computing may receive laddering credit for the 24 units of coursework completed in the diploma program if they are subsequently accepted into the Master of Quantum Computing program within 5 years of beginning the first credential in the laddering process.

## Overview

### General Program Information

#### Specializations:

- Eastern Religions
- Nature of Religion
- Western Religions

Feasibility of areas within these specializations depends on available research resources and faculty expertise.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [clare.ucalgary.ca](http://clare.ucalgary.ca)

## Admissions

### Program Admissions Information

Deadline for the submission of complete applications is available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/religious-studies-master-arts-thesis-based](http://ucalgary.ca/future-students/graduate/explore-programs/religious-studies-master-arts-thesis-based).

In addition to the Faculties of Graduate Studies and Arts [requirements](#), the Department requires:

- a) An admission grade point average of 3.30 or higher on a four-point scale and a minimum of 36 units in Religious Studies (or

their equivalents), usually including at least 6 units from each of the three streams (Eastern, Western, Nature), as determined by the graduate committee.

b) A reading knowledge of a modern language other than English or of a classical language appropriate to the thesis research. The language requirement normally should be met before admission to the master's program. If this is not the case, the language requirement should be met during the students' course of study in the master's program.

c) Two reference letters.

d) Applicants must include in their application package a sample of written work (e.g. a recent research essay).

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to Faculties of Graduate Studies and Arts requirements, the Department normally requires:

a) Five courses (in addition to individualized requirements that may be set by the Departmental Graduate Committee at the time of admission).

##### Complete ALL of the following Courses:

- RELS601 - Studies in Western Religions  
**AND** RELS603 - Studies in Eastern Religions  
**AND** RELS605 - Studies in the Nature of Religion  
**AND** RELS607 - Supervised Master's Thesis Inquiry  
**AND** RELS609 - Selected Topics on Critical Discourses in the Study of Religion

b) A thesis proposal to be presented to the Graduate Studies Committee for evaluation and approval before the second annual registration.

#### Additional Comments:

#### Additional Program Information

##### Type

##### Completion Requirement

#### Additional Comments:

### Advanced Credit

Any requests for advanced credit must be made when applying for admission. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Graduate course work completed before admission and not counted toward satisfying undergraduate degree requirements will be assessed by the Departmental Graduate Committee to determine course requirements.

### Flexible Grade Option (CG Grade)

The Religious Studies program in the department Of Classics and Religion will not permit the Flexible Grade Option (CG Grade) for any course offered by the Religious Studies program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Credit for undergraduate courses will be given only upon approval of the Departmental Graduate Committee.

## Time Limit

Expected completion time for full-time students is two years in the master's program. Maximum completion time is four years.

## Supervisory Assignments and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

The Departmental Graduate Committee assigns an advisor (interim supervisor) when an applicant is recommended for admission to the Faculty of Graduate Studies. A regular supervisor must be assigned by the beginning of the second registration year.

## Thesis Examinations

In addition to the Faculty of Graduate Studies requirements for [Thesis Examinations](#), the Department requires:

Final thesis oral examinations are open.

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

### *Composition of the Committee*

The Internal Examiner must be external to the home program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar or inquire of the Department.

Students applying for scholarships must submit their applications to the Department by February 1.

## Overview

### General Program Information

#### Specializations:

- Eastern Religions
- Nature of Religion
- Western Religions

Feasibility of areas within these specializations depends on available research resources and faculty expertise.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [clare.ucalgary.ca](http://clare.ucalgary.ca)

## Admissions

### Program Admissions Information

Deadline for the submission of complete applications is available on the Future Students website: [ucalgary.ca/future-students/graduate/explore-programs/religious-studies-doctor-philosophy-thesis-based](https://ucalgary.ca/future-students/graduate/explore-programs/religious-studies-doctor-philosophy-thesis-based)

In addition to the Faculties of Graduate Studies and Arts [requirements](#), the Department requires:

- a) A degree comparable to the University of Calgary Religious Studies Master of Arts with a minimum grade point average of 3.50 on a four-point scale.
- b) Two reference letters.
- c) Applicants must include in their application package a sample of written work (e.g. a recent research essay).

Students with an Honours Bachelor of Arts degree in Religious Studies, a grade point average of 3.70 or higher, and evidence of competence in the required languages may be admitted directly into the doctoral program or may be considered for transfer to the doctoral program after the first year of the master's program. Such applicants must include in their application package a detailed statement (10 pages) of the purpose, field, and course of study to be pursued in the program.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department normally requires:

- a) For students with a Master of Arts in Religious Studies, five courses are required (in addition to individualized requirements that may be set by the Departmental Graduate Committee at the time of admission):

##### Complete ALL of the following Courses:

- RELS701 - Studies in Western Religions  
**AND** RELS703 - Studies in Eastern Religions  
**AND** RELS705 - Studies in the Nature of Religion  
**AND** RELS707 - PhD Departmental Colloquium  
**AND** RELS709 - Advanced Topics on Critical Discourses in the Study of Religion

- b) For students with a BA Honours or for students transferring from the master's program, eight courses are required (in addition to individualized requirements that may be set by the Departmental Graduate Committee at the time of admission):

##### Complete ALL of the following Courses:

- RELS601 - Studies in Western Religions  
**AND** RELS603 - Studies in Eastern Religions  
**AND** RELS605 - Studies in the Nature of Religion  
**AND** RELS701 - Studies in Western Religions  
**AND** RELS703 - Studies in Eastern Religions  
**AND** RELS705 - Studies in the Nature of Religion  
**AND** RELS707 - PhD Departmental Colloquium  
**AND** RELS709 - Advanced Topics on Critical Discourses in the Study of Religion

#### Additional Comments:

## PhD Language Requirements

Before the written candidacy examination, doctoral students must demonstrate a reading knowledge of at least two languages other than English. At the discretion of the Department and upon recommendation of the Graduate Director, competency in additional languages may be required. The foreign language requirement may be satisfied in two ways:

- a) Successful completion (final grade of "B" or higher) at some stage of the student's university program of at least 12 units in a first language other than English, and 6 units in a second language; or
- b) Successful completion (grade of "B" or higher) of a language examination administered by the Department of Classics and Religion or by another department on behalf of the Department of Classics and Religion. When the test is administered by another department, it will consist of a passage or passages selected by the supervisor and/or any requirements that the other department may deem necessary; the test will be graded by the examiner(s) of the other department. When members of the Department of Classics and Religion administer the test, the examination questions will be determined, administered, and graded by two members of the Department (one of whom normally will be the supervisor) who have expertise in the language under consideration. In the event that a second person with expertise in the required language is not available, the Department Head may seek an expert from outside the department.

### Additional Program Information

#### Type

Completion Requirement

#### Additional Comments:

## Advanced Credit

Any requests for advanced credit must be made when applying for admission. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Graduate course work completed before admission and not counted toward satisfying undergraduate degree requirements will be assessed by the Departmental Graduate Committee to determine course requirements.

## Flexible Grade Option (CG Grade)

The Religious Studies program in the department Of Classics and Religion will not permit the **Flexible Grade Option (CG Grade)** for any course offered by the Religious Studies program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Credit for undergraduate courses will be given only upon approval of the Departmental Graduate Committee.

## Time Limit

Expected completion time for full-time students is four years in the PhD program. Maximum completion time is six years in the doctoral program.

### Supervisory Assignments and Required Examinations

#### Type

Completion Requirement

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar or inquire of the Department.

Students applying for scholarships must submit their applications to the Department by February 1.

## Overview

### General Program Information

The University offers an interdisciplinary specialization in Reservoir Characterization to students registered in an existing course-based master's program in the Departments of Chemical and Petroleum Engineering or Geoscience. The program integrates reservoir engineering, geology, geophysics, and reservoir characterization. The student will receive the degree offered by the home program:

- Master of Engineering in Chemical and Petroleum Engineering (MEng)
- Master of Science in Geoscience (MSc)

All students will normally be considered to have full-time status. In exceptional circumstances part-time status may be considered and must be approved by the Graduate Director.

Geoscientists should contact the Department of Geoscience and engineers should contact the Department of Chemical and Petroleum Engineering for further information.

### Department of Chemical and Petroleum Engineering

Location: Schulich School of Engineering, Room B202

Program number: 403.220.4802

Fax: 403.284.4852

# UCalgary

Email Address: <mailto:chemandpetenggrad@ucalgary.ca>

Web page URL: <http://schulich.ucalgary.ca/departments/chemical-and-petroleum-engineering>

## Department of Geoscience

Location: Earth Sciences 118

Program number: 403.220.3254

Fax: 403.284.0074

Email Address: <mailto:sci.grad@ucalgary.ca>

Web page URL: <http://geoscience.ucalgary.ca/>

## Admissions

### Program Admissions Information

The deadline for completed applications is available on the Future Students website:

Master of Engineering in Chemical and Petroleum Engineering (MEng): <https://grad.ucalgary.ca/future-students/explore-programs/chemical-and-petroleum-engineering-meng-course>.

Master of Science in Geoscience (MSc): <https://grad.ucalgary.ca/future-students/explore-programs/geoscience-msc-course>.

In addition to Faculty of Graduate Studies **admission** requirements, all applicants must meet the minimum standards of the home program.

Acceptance into the Master of Engineering program would normally require the completion of the equivalent of the Bachelor of Science in Oil and Gas Engineering degree offered by the University of Calgary. However, individuals with more diverse background and industry experience may be considered for admission.

Acceptance into the Master of Science program requires the completion of a Bachelor of Science in Geoscience plus a course in Well Logging and Formation Evaluation such as Petroleum Engineering 507 at the University of Calgary, or equivalent.

Applicants with an undergraduate degree in geology must demonstrate acceptable proficiency in mathematics. It is an asset for geologists to have taken additional mathematics courses as technical electives during their undergraduate degree.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

To address the broad background of students entering the Reservoir Characterization Interdisciplinary Specialization, there are three streams for completion: Engineering, Geology or Geophysics.

In addition to Faculty of Graduate Studies (**see regulations**) and the home program requirements, the Specialization requires: All students must take at least six courses at the 600 and/or 700 level.

**Students in Engineering are required to take:**

**Complete ALL of the following Courses:**

- GOPH559 - Imaging, Inversion, and Interpretation of Geophysical Data  
**AND** ENCH621 - Reservoir Simulation  
**AND** ENCH661 - Geostatistics for Reservoir Characterization  
**AND** OBHR668 - Seminar in the Management of Human Resources
- ENCH698 - Reservoir Characterization for Field Development  
**AND** GLGY698 - (ENCH698)Reservoir Characterization for Field Development

\*Chemical Engineering 698/Geology 698 to be taken in the final semester of study. Chemical Engineering 698/Geology 698 course is a team-based experience with each team required to analyze and integrate various data (e.g., seismic, logs, and production) from a real field. Each member of the team is expected to have proficiency on the software packages for geophysical interpretation, geological mapping, geostatistical modelling and reservoir flow modelling. The reservoir characterization will require the development and assessment of a geostatistical model of the field that will be used for a history match and to propose future development. The project will conclude with a formal presentation to experts from both academia and industry.

and select four from the following list, two of which MUST be Geology or Geophysics:

**Complete ANY of the following Courses:**

- ENPE543 - Geological Characterization of Oil and Gas Reservoirs  
**OR** ENCH619 - Special Problems  
**OR** ENCH649 - Naturally Fractured Reservoirs  
**OR** ENCH657 - Advanced Reservoir Engineering  
**OR** GLGY647 - Geology Well Log Applications  
**OR** GLGY655 - Unconventional Reservoir Characterization and Evaluation for Transitional Energy  
**OR** GLGY699 - Selected Topics in Geology  
**OR** GOPH667 - Introduction to Passive Seismic Monitoring  
**OR** GOPH671 - Inverse Theory & Applications I

\*ENCH 619.63

\*GLGY 699.76

**Students in Geology are required to take:**

**Complete ALL of the following Courses:**

- ENPE523 - Introduction to Reservoir Engineering  
**AND** ENCH621 - Reservoir Simulation  
**AND** OBHR668 - Seminar in the Management of Human Resources
- ENCH698 - Reservoir Characterization for Field Development  
**AND** GLGY698 - (ENCH698)Reservoir Characterization for Field Development
- ENCH661 - Geostatistics for Reservoir Characterization  
**OR** GLGY697 - Advanced Geostatistics

\*Chemical Engineering 698/Geology 698 to be taken in the final semester of study. Chemical Engineering 698/Geology 698 course is a team-based experience with each team required to analyze and integrate various data (e.g., seismic, logs, and production) from a real field. Each member of the team is expected to have proficiency on the software packages for geophysical interpretation, geological mapping, geostatistical modelling and reservoir flow modelling. The reservoir characterization will require the development and assessment of a geostatistical model of the field that will be used for a history match and to propose future development. The project will conclude with a formal presentation to experts from both academia and industry.

and select four from the following list, two of which MUST be Engineering:

**Complete ANY of the following Courses:**

- ENPE525 - Waterflooding and Enhanced Oil Recovery  
**OR** ENPE533 - Petroleum Production Engineering  
**OR** ENPE543 - Geological Characterization of Oil and Gas Reservoirs  
**OR** ENCH619 - Special Problems  
**OR** ENCH629 - Secondary & Tertiary Recovery  
**OR** ENCH649 - Naturally Fractured Reservoirs  
**OR** ENCH657 - Advanced Reservoir Engineering  
**OR** ENCH687 - Petroleum Economics

**OR** GOPH667 - Introduction to Passive Seismic Monitoring  
**OR** GLGY647 - Geology Well Log Applications  
**OR** GLGY655 - Unconventional Reservoir Characterization and Evaluation for Transitional Energy  
**OR** GLGY699 - Selected Topics in Geology  
**OR** GOPH559 - Imaging, Inversion, and Interpretation of Geophysical Data

\*GLGY 699.76

**Additional Comments:**

**Additional Program Information**

**Type**

Completion Requirement

**Additional Comments:**

**Advanced Credit**

The applicant must make **Advanced Credit** requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

### Time Limit

Expected completion time is two years and maximum completion time is six years.

### Supervisory Assignments and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

Supervisors will be approved by the specialization Graduate Program Director.

### Required Examinations

After the conclusion of the Capstone Project, there will be a comprehensive oral examination of each student before an examining committee that includes a faculty member from each of the three disciplines. Each student will be expected to express in-depth knowledge in their area of expertise (Engineering, Geology, Geophysics), and to have a comprehensive knowledge of the significance of the other two areas in successful reservoir characterization.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

For information on awards, see the **Awards and Financial Assistance** section of this calendar.

## Overview

### General Program Information

The University offers an interdisciplinary specialization in Stem Cell and Regenerative Medicine at the Master's and Doctoral levels for students registered in the following faculties and graduate programs:

- Biomedical Engineering
- Veterinary Medical Sciences

The student will receive the MSc (thesis-based) or PhD degree offered by the home program.

### Biomedical Engineering BMEN

Email address: <mailto:bmegrad@ucalgary.ca>

Web page URL: <https://research.ucalgary.ca/bme/graduate>

### Veterinary Medical Sciences VMS

##### Type

Completion Requirement

##### Additional Comments:

See home program for information on time limits, supervisory assignments, required examinations, research proposal requirements and financial assistance.

## Overview

### General Program Information

The MSc degree in Sustainable Energy Development (SEDV) is an interdisciplinary offering by the School of Public Policy in collaboration with the Haskayne School of Business, Schulich School of Engineering, School of Architecture, Planning, and Landscape, and the Faculty of Law. This interdisciplinary, comprehensive, and professional graduate program provides a holistic

# UCalgary

approach to energy and environmental management through a cross section of courses taught by faculty from across the university.

This is a continuous program with no scheduled break. Students who do not enrol in courses continuously will be withdrawn from the program for failure to register unless they are on an approved leave of absence.

Location: Downtown Campus

Program number: 403.220.2013

Email address: <mailto:sedv@ucalgary.ca>

Web page URL: <http://www.ucalgary.ca/sustainableenergy>

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/sustainable-energy-development-master-science-course-based>.

In addition to Faculty of Graduate Studies [admission requirements](#), the SEDV Program requires:

- Letter of intent of no more than 1000 words, addressing four questions provided on the SEDV admissions [website](#). Each question must be answered in no more than 250 words.
- A current curriculum vitae.
- Two years of professional work experience after graduation.
- Two reference letters: one academic and one professional.

Please refer to our [website](#) for detailed instructions and templates.

##### Completion Requirement

In addition to the Faculty of Graduate Studies [requirements](#), SEDV requires successful completion of 42 units consisting of the following:

33 units of core courses:

#### Complete ALL of the following Courses:

- SEDV601 - Energy Systems I  
**AND** SEDV603 - Energy Systems II  
**AND** SEDV605 - Indigenous Peoples and Sustainability in Energy Development  
**AND** SEDV613 - Energy Economics and Finance  
**AND** SEDV615 - Environmental Impact Assessment in the Energy Sector  
**AND** SEDV619 - Environmental Law in the Energy Sector  
**AND** SEDV621 - Environmental Management Tools in the Energy Sector  
**AND** SEDV623 - Strategic Environmental Planning for Energy Organizations  
**AND** SEDV631 - Life Cycle Sustainability Assessment in the Energy Sector  
**AND** SEDV633 - Energy and Climate Policy  
**AND** SEDV635 - Fundamentals of Water, Air, and Land Pollution

6 units chosen from:

**Complete ANY of the following Courses:**

- SEDV698 - Topics in Energy and the Environment I  
**AND** SEDV699 - Topics in Energy and the Environment II

3 unit capstone project:

**Complete ALL of the following Courses:**

- SEDV640 - Capstone Project I: Research Design  
**AND** SEDV641 - Capstone Project II: Proposal Development  
**AND** SEDV642 - Capstone Project III: Research Exploration and Examination

The work completed in this set of courses is considered equivalent to a Major Research Project. These courses must be taken immediately after each other. The project work must be interdisciplinary, reflecting a minimum of 3 areas of study, with energy and environment as the two anchors.

#### Additional Comments:

Students will have the opportunity to participate in professional development seminars, experiential learning workshops, and field trips to local energy related sites. Attendance and participation in such activities is expected.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

#### Advanced Credit

The SEDV Program does not grant advanced credit for courses completed prior to admission.

#### Flexible Grade Option (CG Grade)

The Master of Science in Sustainable Energy Development program will allow students to pursue the Flexible Grade Option (CG Grade).

Students may not choose the CG grade in a course taken extra-to-load.

The use of the CG grade will not affect students' ability for internal awards.

#### Credit for Undergraduate Courses

The SEDV program does not grant advanced credit for undergraduate courses.

#### Time Limit

The SEDV program commences annually in May, which is the only intake. As a cohort-based program, the expectation is for students to complete courses as timetabled for their cohort.

The expected completion time is 16 months for full-time studies; however, the maximum permitted time is 6 years.

#### Financial Assistance

##### Type

Completion Requirement

##### Additional Comments:

For information on graduate funding, please see [Financing - SEDV | Haskayne School of Business | University of Calgary](#).

## Overview

### General Program Information

The work completed in the course-based Master of Arts program is considered equivalent to a major research project and is appropriate for students who intend to proceed to doctoral studies.

The MA, course-based is a continuous program with no scheduled break.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [soci.ucalgary.ca](http://soci.ucalgary.ca)

## Admissions

### Program Admissions Information

Deadlines for submission of completed applications is available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/sociology-ma-course>.

In addition to Faculties of Graduate Studies and Arts [requirements](#), the Department requires:

- a) Thesis-based program: a grade point average of 3.5 on a four-point scale over the last two years of coursework or 60 units.  
Course-based program: a grade point average of 3.3 on a four-point scale over the last two years of coursework or 60 units.
- b) Demonstrated competence, normally through course work, in classical and contemporary sociological theory, social research methods, and social statistics.
- c) A written statement of intent.
- d) A sample of written work. Possible writing samples include a term paper, a research report, a thesis chapter or an article. Writing samples cannot be co-authored and those with sociological content are preferred.
- e) Two reference letters.
- f) Students must hold a four-year degree from a recognized/accredited institution. If degree was received from a university outside of Canada, refer to the country-specific degree requirements: [grad.ucalgary.ca/prospective/admissions/international-admission-requirements](http://grad.ucalgary.ca/prospective/admissions/international-admission-requirements).

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculties of Graduate Studies and Arts requirements, the Department requires:

27 units of courses including:

- a) Competence in sociological statistics, methods of sociological research, and sociological theory demonstrated by completing [SOCI611 Soc Stats:General Linear Model](#), [SOCI613 Sem Quantitative Res Methods](#), [SOCI615 Seminar In Qualitative Res Method](#) or an alternative methods course offered by the Sociology Department; and [SOCI631 Seminar in Sociological Theory](#).
- b) 9 units of electives at the 600 or 700 level; at least 6 units must consist of courses labelled SOCI.
- c) 3 units from [SOCI606 Master's Seminar Prof SOCI I](#) and [SOCI607 Master's Seminar Prof SOCI II](#) (1.5 units each).
- d) 6 units of [SOCI680 Major Research Project](#), a course (major research paper) taken in spring and summer terms.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

#### Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

Credit may be allowed for up to two 600-level Sociology courses (6 units).

#### Flexible Grade Option (CG Grade)

The Department of Sociology will not permit the Flexible Grade Option (CG Grade) for any course applicable to the Sociology graduate degree; or apply any course awarded a grade of CG towards graduation requirements for the Sociology graduate degree.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

#### Credit for Undergraduate Courses

No credit will be given for undergraduate courses.

#### Time Limit

Expected completion time is 12 months for the course-based Master of Arts. Maximum completion time is four years.

#### Research Proposal Requirements

##### Type

Completion Requirement

##### Additional Comments:

Students whose research involves human subjects must receive approval from University of Calgary Conjoint Faculties Research Ethics Board or the Conjoint Health Research Ethics Board (if applicable) before beginning data collection.

#### Financial Assistance

##### Type

Completion Requirement

##### Additional Comments:

Financial assistance may be available to qualified students. Information on departmental funding is available in the online Graduate Student Handbook. For further information on awards, please see the Awards and Financial Assistance section of this Calendar.

Students applying for Graduate Award Competitions through the Faculty of Graduate Studies must submit their applications to the Department by January 15.

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculties of Graduate Studies and Arts requirements, the Department requires:

18 units of courses including:

- a) Competence in sociological statistics, methods of sociological research, and sociological theory demonstrated by completing [SOCL611 Soc Stats:General Linear Model](#); [SOCL613 Sem Quantitative Res Methods](#), [SOCL615 Seminar In Qualitative Res Method](#) or an alternative methods course offered by the Sociology Department; and [SOCL631 Seminar in Sociological Theory](#).
- b) 6 units of electives on substantive topics at the 600 or 700 level; at least 3 units of elective must be a Sociology Department offering.
- c) 3 units from [SOCL606 Master's Seminar Prof SOCI I](#) and [SOCL607 Master's Seminar Prof SOCI II](#) (1.5 units each) and successful preparation and completion of a thesis prospectus.
- d) Completion of the MA Thesis requirement.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

Credit may be allowed for up to three 600- or 700-level courses (9 units).

### Flexible Grade Option (CG Grade)

The Department of Sociology will not permit the **Flexible Grade Option (CG Grade)** for any course applicable to the Sociology graduate degree; or apply any course awarded a grade of CG towards graduation requirements for the Sociology graduate degree.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

No credit will be given for undergraduate courses.

### Time Limit

Expected completion time is 20 months for the thesis-based Master of Arts. Maximum completion time is four years.

#### Supervisory Assignments, Research Proposal and Required Examinations

##### Type

Completion Requirement

##### Additional Comments:

### Supervisory Assignments

An interim supervisor is assigned to all incoming students in the thesis-based MA programs. Thesis-based MA students, after one term in the program, will make supervisory arrangements with a faculty member in the chosen area of research.

### Research Proposal

Students whose research involves human subjects must receive approval from University of Calgary Conjoint Faculties Research Ethics Board or the Conjoint Health Research Ethics Board (if applicable) before beginning data collection.

Thesis-based Master of Arts students are required to prepare a thesis proposal within nine months of the date of entry into the program.

### Thesis Examinations

Thesis examinations are open. In addition to Faculty of Graduate Studies regulations for **thesis examinations**, the program requires:

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

#### Financial Assistance

##### Type

## Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. Information on departmental funding is available in the online [Graduate Student Handbook](#). For further information on awards, please see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for Graduate Award Competitions through the Faculty of Graduate Studies must submit their applications to the Department by January 15.

## Overview

### General Program Information

The PhD programs in Sociology is offered as a full-time program only.

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [soci.ucalgary.ca](http://soci.ucalgary.ca)

## Admissions

### Program Admissions Information

Deadlines for submission of completed applications is available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/sociology-phd>

In addition to the Faculty of Graduate Studies [admission](#) requirements and Faculty of Arts requirements, the program requires:

- a) A grade point average of 3.5 on a four-point scale over a master's program.
- b) Demonstrated competence in sociological theory, social methodology, and social statistics, in addition to a substantive interest.
- c) A written statement of intent.
- d) A sample of written work.
- e) Two reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#) and Faculty of Arts requirements, the Department requires:

a) Course requirements:

- [SOCI611 Soc Stats:General Linear Model](#) (students who have completed this or an equivalent graduate-level statistics course may substitute any other 600- or 700-level course);
- [SOCI706 Doctoral Seminar Prof SOCI I](#), [SOCI707 Doctoral Seminar Prof SOCI II](#) and [SOCI731 Doctoral Seminar Soci Theory](#);
- 6 units of methodology courses at the 700 level;

- 6 units of electives on substantive topics at the 600 or 700 level; at least 3 units of elective must be selected from Sociology Department offerings.

b) Completion of the PhD Thesis requirement.

## Copyediting Policy

Students may hire an editor to copyedit their theses. The student, supervisor and editor must abide by the following regulations:

1. Prior to hiring a copy editor, permission from the supervisor(s) must be obtained. An agreement outlining the permitted scope of editing must be signed by the student and the supervisor(s).
2. A disclosure statement is required in the thesis (e.g., a sentence in the preface or acknowledgment stating that the thesis has been professionally edited).
3. Under no circumstances should the copyediting alter the content, structure or contribution of the thesis.

## Additional Program Information

### Type

Completion Requirement

### Additional Comments:

## Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

Credit may be allowed for up to three 600- or 700-level courses (9 units).

## Flexible Grade Option (CG Grade)

The Department of Sociology will not permit the **Flexible Grade Option (CG Grade)** for any course applicable to the Sociology graduate degree; or apply any course awarded a grade of CG towards graduation requirements for the Sociology graduate degree.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

No credit will be given for undergraduate courses.

## Time Limit

Expected completion time is four years for the Doctor of Philosophy degree. Maximum completion time is six years.

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

An interim supervisor is assigned to all incoming students in the PhD program. PhD students, after two terms in the program, will make supervisory arrangements with a faculty member in the chosen area of research. In the case of PhD students, the supervisor and student will select two other faculty members to serve on the student's supervisory committee.

## Research Proposal

Students whose research involves human subjects must receive approval from University of Calgary Conjoint Faculties Research Ethics Board or the Conjoint Health Research Ethics Board (if applicable) before beginning data collection.

## Required Examinations

### Candidacy

Doctoral students must complete a thesis prospectus, normally within fourteen months of initial registration in the doctoral program. Successful completion of the prospectus means that the Supervisory Committee has approved the thesis project, and a written copy of the prospectus is filed with the Sociology Department Student Administrator.

Doctoral students must pass a Field of Study examination with a written and an oral component, normally completed within twenty months of initial registration in the doctoral program.

For complete details of the candidacy requirements, see [soci.ucalgary.ca/graduate/phd-program](http://soci.ucalgary.ca/graduate/phd-program).

### Thesis Examinations

Thesis examinations are open. In addition to Faculty of Graduate Studies regulations for [thesis examinations](#), the program requires:

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance may be available to qualified students. Information on departmental funding is available in the online [Graduate Student Handbook](#). For further information on awards, please see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for Graduate Award Competitions through the Faculty of Graduate Studies must submit their applications to the Department by January 15.

## Overview

### General Program Information

Email address: <mailto:artsgradsc@ucalgary.ca>

Web page URL: [arts.ucalgary.ca/schools/creative-performing-arts/music/graduate](http://arts.ucalgary.ca/schools/creative-performing-arts/music/graduate)

## Admissions

### Program Admissions Information

The deadline for the submission of complete applications is available on the Future Students website: [ucalgary.ca/future-](http://ucalgary.ca/future-)

[students/graduate/explore-programs/music-master-music-thesis-based.](#)

In addition to Faculties of Graduate Studies and Arts [requirements](#), Music requires:

- a) A completed Bachelor of Music degree (or equivalent).
- b) A live audition or video/audio recording. Repertoire for the audition must contain representative works from a variety of historical periods and must demonstrate an advanced level of technical accomplishment. Recordings should be approximately 20-30 minutes in length. Live auditions are scheduled for early February. Specific dates and times can be arranged by contacting the Graduate Program Administrator at 403.220.5422 or email <mailto:artsgradsc@ucalgary.ca>.
- c) One-page letter detailing their specific reasons for pursuing graduate study.
- d) Two reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

Students should consult the Graduate Program Director before registering in courses.

In addition to Faculties of Graduate Studies and Arts requirements, Music, excluding qualifying courses, requires:

- [MUSI631 Res Tech & Biblio of Music](#), [MUSI651 Sel Top Electroacoustic Music](#) and [MUSI653 Projects in Computer Music](#)
- 3-unit graduate Music course, and
- 6 units of approved graduate courses in any area.

No more than 6 units may be from independent study courses [MUSI661 Independent Study](#) and [MUED655 Independent Study](#).

Diagnostic tests in music history and theory will be given to all entering master's students in order to determine if qualifying work in these areas is required. Qualifying work, if required, is normally completed in the first year of study.

## Language

While there are no formal second-language requirements for the various programs of the Master of Music degree, students may be required to attain proficiency in a language other than English where this is deemed appropriate for the proposed thesis/project.

All master's degree programs require a thesis or recital or project equivalent, prepared under the guidance of a supervisor and approved by the Music Graduate Studies Committee.

The thesis is interpreted to be either a substantial sonic arts creative project with an accompanying research document or a portfolio of sonic arts creative work, realized in the second year of study, and an accompanying descriptive essay related to the portfolio. The project or portfolio of works will be performed or presented in public prior to the thesis defence.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

## Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

## Flexible Grade Option (CG Grade)

The Music program in the School of Creative and Performing Arts will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the Music Program.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

## Time Limit

Maximum completion time is five years for the Master of Music programs.

## Supervisory Assignments and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

The Graduate Program Director will function as the interim supervisor for all newly admitted students during their first term. This arrangement will allow students to use their first term as an opportunity to meet with faculty and to secure a permanent supervisor.

## Required Examinations

A comprehensive oral examination encompassing all areas of the chosen field is required. This examination will take place following the completion of coursework and must be satisfactorily completed before the submission of the thesis/project. In (Sonic Arts) the exam questions will be based on a compiled bibliography (readings and works) relevant to the student's area of research.

## Thesis Examinations

In addition to Faculty of Graduate Studies requirements for [Thesis Examinations](#), the program requires:

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

### *Composition of the Committee*

Normally, the Internal Examiner is external to the home program.

Thesis examinations of written theses are open.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar and the program's website.

## Overview

### General Program Information

The PhD in Social Work is a research-based degree and is intended to graduate highly qualified social work researchers, administrative leaders, policy makers, and educators. The aim of developing such advanced scholarly and research skills is to equip doctoral students for future roles as leaders of the social work profession.

Please check the faculty's [website](#) to determine the program location for the year that you apply.

Program Number: 1.877.220.6945

Email Address: <mailto:fsw.studentservices@ucalgary.ca>

Web page URL: <https://socialwork.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students page: <http://ucalgary.ca/future-students/graduate/explore-programs/social-work-doctor-philosophy-thesis-based>.

In addition to Faculty of Graduate Studies requirements for [Admission](#), the Faculty of Social Work requires the following:

- a) A Master of Social Work or equivalent graduate degree from a recognized institution with a minimum grade point average of 3.50 on a four-point scale.
- b) A program proposal outlining the applicant's social work perspectives, educational and research goals, which include the applicant's reasons for pursuing doctoral education in social work; educational goals and career expectations; prior research course work and research experience; and a research proposal outlining the research issue/problem the applicant hopes to investigate, the preliminary ideas regarding methodology, and the potential contributions to social work research, practice, policy, and education.
- c) A minimum of two years full-time post-master's social services practice experience.
- d) A sample of written work, such as a published or unpublished scholarly paper or a professional report.
- e) Two references, one of which should come from a person who can speak to the applicant's academic performance and ability, and one professional/work reference.
- f) For applicants required to present proof of proficiency in English, a minimum TOEFL score of 97 (Internet-based test with no section less than 20); IELTS score of 7.0 (Academic version with no section less than 6.0); a CAEL score of 70 (70 in writing and speaking; 60 in reading and listening); or a PTE with a minimum score of 68 (Academic version). This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in academic writing and oral communication courses and "B+" in other courses.

Note: Completing a PhD degree does not qualify an individual to register with the Alberta College of Social Workers (ACSW). Please visit [ACSW website](#) for additional information.

Access to an electronic device, such as a tablet or computer, is necessary.

Requests to defer an offer of admission are not normally considered.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Social Work requires:

A minimum of 27 units of course work. Required core courses include:

**Complete ALL of the following Courses:**

- SOWK741 - Research Foundations: Epistemology and Professional Knowledge-Building  
**AND** SOWK743 - Theory, History and Philosophy: Values, Ethics and Professional Beliefs  
**AND** SOWK745 - Research Methods I: Quantitative  
**AND** SOWK747 - Research Methods II: Qualitative  
**AND** SOWK721 - Integrative Research Colloquia

**Note:** Social Work 721 can only be taken once all other required (core and elective) courses have been completed.

Twelve units of elective graduate courses relevant to the student's substantive area of research. Electives may be taken outside of the Faculty of Social Work, depending on the student's needs and course availability. All courses taken external to the Faculty of Social Work must have prior approval from the student's supervisor, the PhD co-ordinator and the Graduate Program Director in the Faculty of Social Work.

Please note that not all courses are offered every semester. Students should consult the timetables and program curriculum plans located on the web for sequence and availability of courses: <https://socialwork.ucalgary.ca/>.

#### Additional Comments:

Participation in student orientation sessions held prior to the start of the program is expected of students.

#### Other Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

Request for [Advanced Credit](#) must be made as part of the application process. Credit will not be given for coursework taken as part of another completed degree/diploma or for courses taken to raise the grade point average for admission consideration. Advanced credit may be granted for not more than the equivalent of 9 units.

### Flexible Grade Option (CG Grade)

The Faculty of Social Work, Doctor of Philosophy (PhD) program will allow students to pursue the [Flexible Grade Option \(CG Grade\)](#) in doctoral courses offered by the faculty, with no exceptions.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Concurrent Program Enrolment

Students in this program may not concurrently pursue a certificate, diploma or the final step of a ladder pathway Master's degree as outlined in section [G.D.1.3 Concurrent Program Enrolment](#).

### Credit for Undergraduate Courses

Credit for undergraduate courses will not be awarded.

## Time Limit

As established by the Faculty of Graduate Studies (see [Time Limits](#)), maximum completion time is six years for a doctoral program. The expected completion time is four years for a PhD.

## Supervisory Assignments and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

For incoming PhD students, the PhD/MSW Thesis Coordinator will act as the interim supervisor in cases where one has not been identified. Before the end of April of the first year, each student must designate a faculty member as permanent supervisor. The supervisor and student must select a supervisory committee no later than three months after the appointment of the permanent supervisor or fifteen months after the initial registration. Doctoral supervisory committees typically consist of the supervisor and two other members, one of whom may be external to the Faculty of Social Work.

Within the first two months of working together, PhD students and their interim and/or permanent supervisors are required to complete and submit to Student Services in the Faculty of Social Work the signed Checklist of Expectations for Graduate Students and Supervisors and the Intellectual Property Awareness checklist. These become part of the student's permanent record. If a change occurs in supervision, a new Student-Supervisor checklist must be completed, signed and submitted to Student Services within two months of the change.

## Required Examinations

### Candidacy

Doctoral students must successfully complete all the required courses, their thesis research proposal and portfolio prior to the Written Field of Study Examination and Oral Field of Study Examination, which must be completed within 28 months of commencement of the program. For complete details of candidacy requirements, see the [Faculty of Social Work's Doctoral Candidacy Requirements](#).

### Thesis Examination

For the Faculty of Graduate Studies regulations, see [Thesis Examinations](#). In addition, the program requires:

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's draft thesis document before an examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner must be external to the Faculty of Social Work.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section, search the [Graduate Awards Database](#), and consult with the Student Services Office in the Faculty of Social Work.

# UCalgary

## General Program Information

### Laddering from Graduate Certificates to Master of Information Security and Privacy:

Students who complete the Graduate Certificate in Software Security, **GCERT Data** or **GCERT Netw** may receive laddering credit for the 12 units of coursework completed in the certificate program if they are subsequently accepted into the Master of Information Security and Privacy program within 5 years of completing the certificate.

Location: Science A Building, Room 229

Email: <mailto:prograd.science@ucalgary.ca>

Web page: <https://science.ucalgary.ca/information-security>

## Admissions

### Program Admissions Information

The deadline for completed applications is available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/software-security-cert>.

In addition to Faculty of Graduate Studies **admission requirements**, admission to the Information Security and Privacy programs requires:

- A four-year Bachelor's degree or equivalent from a recognized institution.
- Successful completion of an undergraduate course in each of the following areas:
  - Computer programming with understanding of execution environments (e.g., Computer Science 233 or equivalent)
  - Algorithms and data structures (e.g., Computer Science 331 or equivalent)
- Either Operating systems (e.g., Computer Science 457 or equivalent); or Computer networks (e.g., Computer Science 441 or equivalent).
- Two letters of reference.
- Resume or CV.
- Optional letter of intent.

*Alternate Routes to Admission:* In exceptional circumstances (see **G.A.1 Qualifications**), individuals who do not meet formal academic requirements but who have significant life achievement and/or work experience may be considered for admission to the Graduate Certificate programs or the Masters of Information Security program. The candidate must provide the Information Security Program Director with evidence demonstrating the potential to successfully undertake these programs. Such candidates may also be required to participate in an in-person interview with the Program Director and, if admitted, be required to take additional courses to meet completion requirements.

Students who successfully complete one of the Graduate Certificate programs, and who then apply to the other Graduate Certificate program and/or to the Master of Information Security degree program within 4 years of completing the first certificate, will not be required to submit reference letters or previous transcripts again. If students complete new coursework elsewhere, they will be required to submit new transcripts.

Students who have successfully completed two of the Graduate Certificate programs with a cumulative GPA of 3.00 or higher will meet the minimum admission requirements for the Master of Information Security and Privacy program. In addition, students who choose to ladder from the certificates into the Master's degree will not normally be required to submit transcripts or reference letters (unless they have completed other credit courses from a post-secondary institution in the meantime).

## Program Details

### Simple Requisites

#### Course Requirements

#### Type

## Completion Requirement

Complete ALL of the following Requirement Sets:

- Software Security GC courses

Additional Comments:

## Additional Program Information

Type

Completion Requirement

Additional Comments:

## Advanced Credit

Advanced credit will not normally be given for the Software Security Graduate Certificate.

## Flexible Grade Option (CG Grade)

The Information Security Professional Program will allow students to pursue the Flexible Grade Option (CG Grade).

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

For the Software Security Graduate Certificate, credit will not normally be granted for undergraduate courses.

## Supervisory Assignments

An Academic Coordinator is assigned to each cohort-based Graduate Certificate program.

## Time Limits

Expected completion time for this Graduate Certificate is 4, 8, 10 or 12 months, depending on the schedule set for that cohort.

The maximum time allowed is three years.

Maximum completion time for students to complete all requirements of the Master of Information Security and Privacy via the ladder certificate pathway is four years from the beginning of the first certificate program.

## Financial Assistance

Type

Completion Requirement

Additional Comments:

The program itself does not provide scholarships, however financial assistance may be available to qualified students through alternative means. For information on awards, see the Awards and Financial Assistance section.

## Overview

### General Program Information

The Graduate Certificate in Transdisciplinary Studies I is a 13.5-unit graduate credential comprised of four 3-unit courses in a specialization, combined with a 1.5-unit course on transdisciplinary scholarship. The Certificate is designed for students to complete it within one year with a maximum of up to two years. This Graduate Certificate enables graduate students with a range

of backgrounds to develop meaningful skills and knowledge that can be extended into multiple domains to solve problems, avoid silos, and collaborate with community to address real world issues.

## **Specializations:**

- Social Research Methods
- Ethics and Sustainability\*
- Social Innovation\*
- Foundations of One Health\*

\*These specializations will not be offered in the 2024/2025 academic year.

---

## **Contact Information**

Faculty of Graduate Studies

Faculty number: 403.220.4938

Fax: 403.289.7635

Website: [grad.ucalgary.ca](http://grad.ucalgary.ca)

## **Admissions**

### **Program Admissions Information**

Application deadline is available on the Future Students [website](#).

---

In addition to Faculty of Graduate Studies requirements for [Admission](#) the program requires:

- A Bachelor's degree or equivalent from a recognized institution.
- A grade point average of 3.0 on a four-point scale on the last two years of the undergraduate degree consisting of a minimum of 60 units.
- For applicants who are required to prove proficiency in English, a minimum TOEFL score of 105 (Internet-based test); or an IELTS score of 7.5 (with no section less than 7.0); a CAEL overall score of 70 (with a minimum score of 70 in each component); a PTE score of 75; a Duolingo score of 145 (no subscore below 125) or a Cambridge C1/C2 Proficiency test score of 200. This requirement can also be met by completing the Academic Communication Certificate with a minimum grade of "A-" in each course.
- Two referees: Applicants will submit names and professional email addresses for referees in their online applications. Referees will receive an email invitation to provide references online.

In addition, the following requirements apply to the specialization:

### **Social Research Methods**

- Competence in social research methods and social statistics, normally demonstrated by completion of at least one 3-unit undergraduate course in each of social statistics and social research methods.
- A resume that demonstrates at least two years of work experience pertinent to careers that would involve social research.
- A 200-word written statement explaining why the applicant would like to complete the certificate.

---

*Note: In exceptional circumstances, individuals who do not meet formal academic requirements but who have significant life achievements may be considered for admission to some graduate programs. The candidate must provide the relevant graduate program with evidence demonstrating a potential to undertake successfully the proposed program of studies. Such candidates are advised to make early contact with the graduate program. In all such cases, the decision whether to admit rests with the Dean of the Faculty of Graduate Studies.*

## **Program Details**

### **Simple Requisites**

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculty of Graduate Studies [requirements](#), the Graduate Certificate in Transdisciplinary Studies I requires 13.5 units of coursework:

- [TDST600 Transdisciplinary Scholarship](#); and
- normally 12 units from one of the specializations:

##### Social Research Methods

- [SOCI611 Soc Stats:General Linear Model](#)
- [SOCI613 Sem Quantitative Res Methods](#)
- [SOCI615 SeminarInQualitativeResMethod](#)
- [SOCI617 Sem in Applied Socl Rsrch Mthd](#)

*Note: with the approval of the Graduate Program Director, in exceptional circumstances, students in the Certificate program may take TDST 605.02 in lieu of one of the four required courses in the specialization.*

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

#### Advanced Credit

Advanced credit towards the Graduate Certificate in Transdisciplinary Studies I will not normally be accepted.

#### Time Limits

The expected completion time for the Graduate Certificate in Transdisciplinary Studies I is four, eight, or 12 months depending on the schedule set for the sub-specializations.

The maximum completion time for the Graduate Certificate in Transdisciplinary Studies I is two years.

#### Financial Assistance

##### Type

Completion Requirement

##### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section.

## Overview

### General Program Information

The Graduate Certificate in Transdisciplinary Studies II will be offered in the 2025/2026 academic year. Please refer to the website for information and updates.

#### Specializations\*

- Wildlife Health and Ecology
- Stem Cell&

\*Students may apply to one of the specializations provided that their main research plan falls within the scope of the specialization. Application should occur once admitted to the VMS graduate program.

In addition, the University of Calgary offers the joint Leaders in Veterinary Medicine Program leading to the combined DVM/MSc or DVM/PhD degrees. Students applying to the DVM/MSc or DVM/PhD program must apply individually to each program and complete a supplementary application for the Leaders in Veterinary Medicine Program. Further information regarding the Leaders in Veterinary Medicine Program is provided under the Combined Degrees section in this Calendar.

---

Master's thesis students are normally admitted as full-time students. The Faculty of Graduate Studies may however, approve requests for registration as part-time or transfer from a full-time to a part-time status.

## Admissions

### Program Admissions Information

For the MSc application deadlines, see <http://www.ucalgary.ca/future-students/graduate/explore-programs/veterinary-medicine-master-science-thesis-based>.

---

In addition to the Faculty of Graduate Studies admission requirements, the Veterinary Medical Sciences program requires:

- a) A minimum of a baccalaureate degree (or its equivalent, or a BVSc, DVM or MD degree) with course work appropriate for VMS graduate training from a recognized institution, with a minimum admission grade point average of 3.00 on a four-point scale or equivalent in the last two years (60 units) of undergraduate study.
- b) For applicants required to present proficiency in English, a minimum TOEFL (Internet-based) score of 97, an IELTS score of 7.0,

or a CAEL overall score of 70. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.

c) The VMS Funding Offer letter from a supervisor outlining the commitment to the training of the student, as well as the commitment to fund full-time students (in accordance with the [VMS Funding Policy](#)).

d) Two reference letters.

e) Curriculum Vitae.

f) Endorsement of the Graduate Program Director, which is granted based on the evaluation of the admissions file by the UCVM Graduate Education Committee.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#), PhD students must complete:

a) [VETM601 Prof Skills Hlth Science Res](#);

b) [MDCH605 \(VETM605\)Intro Biostat Methods](#) or [MDCH610 Biostat I: Esstnl's Biostat\\*](#);

\*A suitable entry-level biostatistics course may be taken as an alternative to Veterinary Medicine 605 or 610, with permission from the Graduate Program Director.

c) MSc students must take at least 3 additional units that are appropriate to their field of study and have been approved by their Supervisory Committee; and

d) MSc students are required to give one public seminar to the Faculty of Veterinary Medicine community prior to scheduling the thesis examination.

All individuals working with humans or animals must have appropriate certification. In accordance with Canadian Council on Animal Care guidelines and the University of Calgary VPR office, all individuals who work with animals must register with the [Institutional Animal User Training Program](#) to complete the relevant U of C IAUTP online training modules and to determine what additional training is required as determined by their research program and any previous animal use training they may have. No animal work will be permitted until all training has been completed. The IAUTP online training modules can be accessed prior to arrival to the U of C once the student's UCID is assigned, however, the associated written quiz and live training sessions must be completed after arrival.

In accordance with Tri-Council guidelines, all students performing research involving humans must have the [CORE tutorial certificate](#) prior to applying for ethics certification and must receive ethics certification prior to working with human subjects.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

[Advanced Credit](#) may be given for course work completed prior to entry into the program. The applicant must make requests for advanced credit as part of the application for admission.

### Flexible Grade Option (CG Grade)

The Veterinary Medical Sciences Graduate Program will not permit the [Flexible Grade Option \(CG Grade\)](#) for any graduate

course offered by the Faculty of Veterinary Medicine. Students admitted to the Veterinary Medical Sciences Graduate program will not be allowed to request the CG Grade for any course that is applicable to their degree; or apply any course awarded a CG grade towards their graduation requirements.

Students may not choose the CG grade for courses taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

The student's Supervisory Committee may recommend credit for undergraduate courses provided they are relevant to the area of study. Final approval is required by the Graduate Program Director.

### Time Limit

In accordance with FGS Academic Regulations, students are expected to complete an MSc in two years, with a maximum time of four years.

#### Supervisory Assignments, Research Proposal and Required Examinations

##### Type

Completion Requirement

##### Additional Comments:

### Supervisory Assignments

Students will normally have identified a permanent supervisor at the time of admission.

In consultation with the student's supervisor(s), a Supervisory Committee will be selected that includes a minimum of two additional faculty members for MSc degrees. The appointment of a supervisory committee shall be completed within three months after starting the program. The Graduate Program Director will approve the composition of the committee.

Co-supervision may be required. See [G.J. Supervision](#) for appointment of Co-Supervisor.

### Research Proposal Requirements

The VMS Graduate Program requires all Master's students to present a research proposal to their supervisory committee. A copy of the final version of the proposal will be kept in the student's file.

The research proposal must be accepted by one year after initial registration in the program. For research proposal requirements, see <https://vet.ucalgary.ca/current-students/graduate-students/policies-forms>.

### Thesis Examination

The thesis examination for MSc degrees will consist of a public seminar immediately followed by an open oral examination. In the thesis examination, the supervisor is a full voting member of the examination committee.

##### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

##### *Composition of the Committee*

The Internal Examiner must be external to the home program.

#### Financial Assistance

##### Type

Completion Requirement

##### Additional Comments:

Full-time graduate students in the VMS Graduate Program will be offered a stipend as per the VMS graduate student funding policy. Funding support for the students may come from a variety of sources, including grants, awards and scholarships.

Further information on funding opportunities can be found at <https://vet.ucalgary.ca/future-students/graduate-students/funding>.

Part-time students are not guaranteed VMS program-set minimum funding.

Part-time students are not guaranteed VMS program-set minimum funding.

## Overview

### General Program Information

The University offers an interdisciplinary specialization in Wearable Technology at the master's and doctoral levels for students registered in the following faculties and graduate programs:

- Faculty of Kinesiology
- Biomedical Engineering Graduate Program
- Geomatics Engineering Graduate Program
- Department of Electrical and Software Engineering
- Department of Computer Science
- Department of Psychology
- Computational Media Design Graduate Program

The student will receive the MSc (thesis-based) or PhD degree offered by the home program.

Program/Course Requirements
-----------------------------

## Type

Completion Requirement

## Additional Comments:

### MSc (thesis-based)

In addition to meeting the requirements of Faculty of Graduate Studies ([see regulations](#)) and the home program, MSc students in the Wearable Technology specialization must meet the following course requirements:

1. [KNES608 Innovate Wearable Technology](#) or [CPSC601 Special Topics in CPSC](#) (Topic: Wearable Applications) or [ENEL619 Special Problems](#) (Topic: AI and Security of Cyber-physical Systems).

2. [ENTI625 Intro to Entrepreneurship](#)

3. Completion of a practicum placement [KNES612.01 Practicum I](#)

Specialization course requirements may count as elective courses in the student's home program (if applicable) with approval from the Graduate Program Director, supervisor, and supervisory committee.

### Doctor of Philosophy

In addition to meeting the requirements of Faculty of Graduate Studies and the home program, PhD trainees in the Wearable Technology specialization must meet the following course requirements:

1. [KNES608 Innovate Wearable Technology](#) or [CPSC601 Special Topics in CPSC](#) (Topic: Wearable Applications) or [ENEL619 Special Problems](#) (Topic: AI and Security of Cyber-physical Systems).

2. [ENTI625 Intro to Entrepreneurship](#)

3. Completion of a practicum placement [KNES612.01 Practicum I](#)\*

4. One (3 unit) elective in Biomechanics, OR Data Science, OR Data Visualization\*\* at the 600 or 700 level.

*\*With the support of the student's home program and Faculty of Graduate Studies, the student may complete Kinesiology 612 either before or after admission to candidacy.*

*\*\*Must be approved by the specialization Director, the student's Supervisor and Supervisory Committee.*

Specialization course requirements may count as elective courses in the student's home program (if applicable) with approval from the Graduate Program Director, Supervisor, and Supervisory Committee.

Students are expected to attend the annual Wearable Technology Workshop held each Fall semester and participate in the Wearable Technology Lecture series.

## Introduction

The origins of Kinesiology at the University of Calgary date back to 1961 when the School of Physical Education was founded. In 1994, the name was changed to the Faculty of Kinesiology. Today, the faculty's curriculum and majors are recognized and accredited by the Canadian Council of University Physical Education and Kinesiology Administrators (CCUPEKA). The Faculty of Kinesiology offers a world-class environment for research and learning as well as superb training facilities for coaches and athletes at the varsity, community and Olympic level. The Faculty continues to work to improve the health and mobility of our society through our renowned research, which provides evidence of the benefits of exercise for all ages and demographics. Kinesiology students receive high-quality and relevant, experiential learning opportunities that inform their future careers and contribute to the research and scholarship in the faculty and the university. The Faculty is also the home of the successful Dinos varsity teams, Olympic Oval, Active Living, Outdoor Centre, Sport Medicine Centre and the Human Performance Lab.

## Undergraduate Programs

In addition to a core curriculum, all undergraduate students pursuing a combined or concurrent degree with another faculty, refer to the [Combined Degrees](#) chart for a list of allowable combinations.

The Biomechanics Major (BSc) focuses on the mechanics of human movement with an emphasis on biomedical and sports applications, through course work in Kinesiology, Mathematics, and Engineering.

## Student Affairs

Academic Advisors in the Advising Office are available for program consultation during regular office hours. Students are encouraged to contact the [Advising Office](#) a minimum of once per academic year to discuss any aspect of academic programs and student experience.

[Kinesiology Student Society \(KSS\)](#) is an undergraduate club responsible for academic and social activities. The main objective is to build spirit and rapport within the Faculty.

## Admissions

### Program Admissions Information

Students should refer to the Standard Admission requirements listed in the [Admissions](#) section of this Calendar.

Prospective students should refer to [A.5 Undergraduate Degree Admission Requirements](#) in the Admissions section of this Calendar for regulations regarding University admission requirements. Applicants must meet all deadlines and requirements.

Refer to [ucalgary.ca/future-students/undergraduate/explore-programs](http://ucalgary.ca/future-students/undergraduate/explore-programs).

The Faculty of Kinesiology admits students to the Fall Term only.

All programs offered by the Faculty of Kinesiology have a fixed number of places for students. For any given program, whenever demand exceeds capacity, enrolment will be limited and students will be admitted on the basis of descending ranked academic performance until that capacity is met.

Today, the faculty's curriculum and majors are recognized and accredited by the Canadian Council of University Physical Education and Kinesiology Administrators (CCUPEKA). The Faculty of Kinesiology offers a world-class environment for research and learning as well as superb training facilities for coaches and athletes at the varsity, community and Olympic level. The Faculty continues to work to improve the health and mobility of our society through our renowned research, which provides evidence of the benefits of exercise for all ages and demographics. Kinesiology students receive high-quality and relevant, experiential learning opportunities that inform their future careers and contribute to the research and scholarship in the faculty and the university. The Faculty is also the home of the successful Dinos varsity teams, Olympic Oval, Active Living, Outdoor Centre, Sport Medicine Centre and the Human Performance Lab.

## Undergraduate Programs

In addition to a core curriculum, all undergraduate students pursuing a combined or concurrent degree with another faculty, refer to the **Combined Degrees** chart for a list of allowable combinations.

The Biomechanics Major (BSc) focuses on the mechanics of human movement with an emphasis on biomedical and sports applications, through course work in Kinesiology, Mathematics, and Engineering.

## Student Affairs

Academic Advisors in the Advising Office are available for program consultation during regular office hours. Students are encouraged to contact the **Advising Office** a minimum of once per academic year to discuss any aspect of academic programs and student experience.

**Kinesiology Student Society (KSS)** is an undergraduate club responsible for academic and social activities. The main objective is to build spirit and rapport within the Faculty.

## Admissions

### Program Admissions Information

Students should refer to the Standard Admission requirements listed in the [Admissions](#) section of this Calendar.

Prospective students should refer to [A.5 Undergraduate Degree Admission Requirements](#) in the Admissions section of this Calendar for regulations regarding University admission requirements. Applicants must meet all deadlines and requirements. Refer to [ucalgary.ca/future-students/undergraduate/explore-programs](http://ucalgary.ca/future-students/undergraduate/explore-programs).

The Faculty of Kinesiology admits students to the Fall Term only.

All programs offered by the Faculty of Kinesiology have a fixed number of places for students. For any given program, whenever demand exceeds capacity, enrolment will be limited and students will be admitted on the basis of descending ranked academic performance until that capacity is met.

## Admission into Honours

Applicants to an Honours program must have completed a minimum of 90 units by the term in which they enter the Honours program. The completed units must include a junior level Statistics course, and a cumulative GPA of at least 3.30 over the completed 90 units (with a minimum GPA of 3.30 in all Kinesiology courses). These grade point averages must be maintained in order to retain Honours standing.

Students are strongly encouraged to consult with the Faculty's Advising Office prior to application.

## Program Details

### Simple Requisites

#### Faculty Requirements

##### Type

Completion Requirement

#### Graduation Requirements

**Complete ALL of the following Requirement Sets:**

- Faculty of Kinesiology - Graduation Requirements
- Faculty of Kinesiology - Honours Graduation Requirements
- Faculty of Kinesiology - Additional Requirements for Bachelor of Science Programs

For other regulations related to the Faculty of Kinesiology, see: [3. Faculty of Kinesiology Regulations](#).

#### Additional Comments:

#### Program Requirements

##### Type

Completion Requirement

#### A. Kinesiology Core (54 units)

**Earn at least 54 credits from the following:**

- Kinesiology 201, 203, 213, 244, 251, 253, 259, 260, 263, 323, 337, 344, 355, 363, 372, 373
- One of Kinesiology 351, 397, or 399
- Statistics 205 or 213\*

*\*Students in the Motor and Psychosocial Aspects of Movement program are required to take Statistics 213.*

## B. Biomechanics Major (Honours) Requirements (36 units)

Earn at least 36 credits from the following:

- Engineering 202, 212, 311, 349
- Mathematics 211, 275, 277
- Kinesiology 396, 463, 590
- Mechanical Engineering 317

## C. Kinesiology options at the 300 level or above (not used above) (12 units)

Earn at least 12 credits from the following:

- Kinesiology options at the 300 level or above

## D. Open Options (18 units)

Earn at least 18 credits from the following:

- Open Options

**Additional Comments:**

Today, the faculty's curriculum and majors are recognized and accredited by the Canadian Council of University Physical Education and Kinesiology Administrators (CCUPEKA). The Faculty of Kinesiology offers a world-class environment for research and learning as well as superb training facilities for coaches and athletes at the varsity, community and Olympic level. The Faculty continues to work to improve the health and mobility of our society through our renowned research, which provides evidence of the benefits of exercise for all ages and demographics. Kinesiology students receive high-quality and relevant, experiential learning opportunities that inform their future careers and contribute to the research and scholarship in the faculty and the university. The Faculty is also the home of the successful Dinos varsity teams, Olympic Oval, Active Living, Outdoor Centre, Sport Medicine Centre and the Human Performance Lab.

## Pattern

In addition to a core curriculum, all undergraduate students pursuing a combined or concurrent degree with another faculty, refer to the **Combined Degrees** chart for a list of allowable combinations.

The Bachelor of Kinesiology and Bachelor of Science in Kinesiology offer a solid foundation with depth and breadth in the Kinesiology discipline. Students may tailor their degree to meet their needs and interests.

## Student Affairs

Academic advisors in the Advising Office are available for program consultation during regular office hours. Students are encouraged to contact the **Advising Office** a minimum of once per academic year to discuss any aspect of academic programs and student experience.

**Kinesiology Student Society (KSS)** is an undergraduate club responsible for academic and social activities. The main objective is to build spirit and rapport within the Faculty.

## Admissions

Program Admissions Information

Students should refer to the Standard Admission requirements listed in the **Admissions** section of this Calendar.

Prospective students should refer to **A.5 Undergraduate Degree Admission Requirements** in the Admissions section of this Calendar for regulations regarding University admission requirements. Applicants must meet all deadlines and requirements. Refer to [ucalgary.ca/future-students/undergraduate/explore-programs](http://ucalgary.ca/future-students/undergraduate/explore-programs).

The Faculty of Kinesiology admits students to the Fall Term only.

All programs offered by the Faculty of Kinesiology have a fixed number of places for students. For any given program, whenever demand exceeds capacity, enrolment will be limited and students will be admitted on the basis of descending ranked academic performance until that capacity is met.

## Admission into Honours

Applicants to an Honours program must have completed a minimum of 90 units by the term in which they enter the Honours program. The completed units must include a junior level Statistics course, and a cumulative GPA of at least 3.30 over the completed 90 units (with a minimum GPA of 3.30 in all Kinesiology courses). These grade point averages must be maintained in order to retain Honours standing.

Students are strongly encouraged to consult with the Faculty's Advising Office prior to application.

## Program Details

### Simple Requisites

#### Faculty Requirements

##### Type

Completion Requirement

#### Graduation Requirements

**Complete ALL of the following Requirement Sets:**

- Faculty of Kinesiology - Graduation Requirements
- Faculty of Kinesiology - Honours Graduation Requirements
- Faculty of Kinesiology - Additional Requirements for Bachelor of Science Programs

For other regulations related to the Faculty of Kinesiology, see: [\*\*3.1 Faculty of Kinesiology Regulations\*\*](#).

#### Additional Comments:

#### Program Requirements

##### Type

Completion Requirement

#### A. Kinesiology Core (54 units)

**Earn at least 54 credits from the following:**

- Kinesiology 201, 203, 213, 237, 244, 251, 253, 259, 260, 263, 323, 344, 355, 363, 372, 373
- One of Kinesiology 351, 397, or 399
- Statistics 205 or 213\*

#### B. Honours Course Requirement (6 units)

**Earn at least 6 credits from the following:**

- Kinesiology 590

#### C. Senior Kinesiology Options (not used above) (18 units)

**Earn at least 18 credits from the following:**

- Senior Kinesiology Options

#### D. Senior non-Kinesiology Options (6 units)

**Earn at least 6 credits from the following:**

- Senior Non-Kinesiology Options

E. Junior or Senior non-Kinesiology Options (9 units)

Earn at least 9 credits from the following:

- Non-Kinesiology Options

F. Open Options (27 units)

Earn at least 27 credits from the following:

- Open Options

**Additional Comments:**

## Degree Options

### Type

### Completion Requirement

Degree Options

To complete **optional** enhancement(s) to this degree program, refer to:

**Complete ANY of the following Requirement Sets:**

- Faculty of Kinesiology - Minors and Embedded Certificates

**Additional Comments:**

## Overview

### General Program Information

#### Specialization:

- Applied Exercise Physiology

The Master of Kinesiology (MKin) is a course-based program specializing in Applied Exercise Physiology. This program is designed for continuous full-time enrolment and does not have a scheduled break.

Location: Kinesiology B, Room 139B

Program number: 403.220.5183

Email address: <mailto:knesgrad@ucalgary.ca>

Web page URL: <https://kinesiology.ucalgary.ca/future-students/graduates>

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students webpage: <http://www.ucalgary.ca/future-students/graduate/explore-programs/kinesiology-master-kinesiology-course-based>.

In addition to Faculty of Graduate Studies [admission](#) requirements, the Faculty of Kinesiology requires:

The following are the minimum requirements for applying to the program. Please note, normally applicants with higher GPAs are selected for admission to the program.

- a) A minimum grade of "B" or 3.00 in each of the following undergraduate prerequisite courses or equivalents: Anatomy, Exercise Physiology, Biomechanics, Exercise/Sport Psychology and Statistics.
- b) A minimum admission GPA of 3.00 or higher on a four-point scale over the last 60 units and/or two years of study in Kinesiology or an appropriate academic background for the area of specialization.
- c) A demonstrated ability to be self-motivated and capable of independent study as shown in undergraduate studies, volunteer work and/or work experience in exercise science areas will be considered.
- d) Two reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Kinesiology requires:

- a) a total of 33 units at the graduate level:

**Complete ALL of the following Course Sets:**

- Master of Kinesiology, Course-based

Students may elect to complete **KNES698 Practicum IV** to extend their practicum experiences.

- b) A final applied project is considered the capstone event. This will be undertaken in conjunction with Kinesiology 618, 620 and 621.

#### Additional Comments:

#### Additional Program Information

##### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

Advanced credit will be limited to 12 units with a grade of "B" or higher for students admitted to the Master of Kinesiology program. The student must request [advanced credit](#) in writing at the time of application for admission to the Faculty of Kinesiology.

### Flexible Grade Option (CG Grade)

The Faculty of Kinesiology will allow students in the Master of Kinesiology program to pursue the Flexible Grade Option (CG Grade) with the exception of Kinesiology 609, 610, and 611.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Graduate credit may be granted for courses offered at the 500 level at the discretion of the Associate Dean (Graduate).

### Time Limit

Expected completion time is 16 months commencing in September. Maximum completion time is six years.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

MKin students may apply for Graduate Assistantship (Teaching) positions.

## Overview

### General Program Information

#### Specializations:

- Biomechanics
- Exercise and Health Physiology
- Health, Exercise and Sport Psychology
- Innovation in Pedagogy and Sport Performance
- Neuro-Motor Psychology and Motor Learning
- Nutrition, Metabolism and Genetics
- Rehabilitation
- Sociocultural Aspects of Sport and Physical Activity
- Sport Medicine
- Wearable T

Location: Kinesiology B, Room 139B

Program number: 403.220.5183

Email address: <mailto:knesgrad@ucalgary.ca>

Web page URL: <https://kinesiology.ucalgary.ca/future-students/graduates>

## Admissions

### Program Admissions Information

Application deadlines are available on the Future Students webpage: <http://ucalgary.ca/future-students/graduate/explore-programs/kinesiology-master-science-thesis-based>.

In addition to Faculty of Graduate Studies admission requirements, the Faculty of Kinesiology requires the following:

- a) Consent for supervision from an approved Faculty Member in Kinesiology.
- b) An appropriate academic background for the area of specialization.
- c) A minimum GPA of 3.00 or higher on a four-point scale over the last 60 units and/or last two years of study.
- d) Two reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

#### Type

#### Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Kinesiology requires:

- a) One graduate-level course (3 units) in analysis, such as [KNES609 Stat Techniques in KNES](#) or [KNES610 Qualitative Research Analysis](#).
- b) One graduate-level course (3 units) in research design, such as [KNES611 Res Methods in Knesiology](#).

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Flexible Grade Option (CG Grade)

The Faculty of Kinesiology will not permit the [Flexible Grade Option \(CG Grade\)](#) for students enrolled in the Master of Science and Doctor of Philosophy degrees.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Graduate credit may be granted for courses offered at the 500 level at the discretion of the Associate Dean (Graduate).

### Time Limit

Expected completion time is two years. Maximum completion time is four years.

#### Supervisory Assignments, Research Proposal and Required Examinations

##### Type

Completion Requirement

##### Additional Comments:

### Supervisory Assignments

Supervisor(s) must be identified at the time of admission for thesis-based programs. Within six months of admission, the student and supervisor(s) must select a supervisory committee according to the Faculty of Graduate Studies' procedures. The composition of the supervisory committee must be approved by the Associate Dean (Graduate).

### Research Proposal Requirements

Students whose research involves human subjects must receive approval from the University of Calgary Conjoint Health Research Ethics Board before beginning data collection. Research with animals must receive approval from a University Animal Care Committee.

All Master of Science students must present a research proposal to their supervisory committee prior to commencing data collection. The proposal must include the objectives and methodology of the proposed research program as well as the expected contributions to the field. The supervisory committee must approve the thesis proposal before it is submitted to the Faculty of Kinesiology, Associate Dean (Graduate).

### Required Examinations

In addition to the Faculty of Graduate Studies requirements, the Faculty of Kinesiology requires:

### Thesis Examinations

Thesis Oral Examinations are administered according to the Faculty of Graduate Studies' procedures and are open examinations.

#### *Composition of the Committee*

The Internal Examiner must be external to the home program.

#### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

Prior to a doctoral or a Master's thesis oral examination being scheduled, the following program requirements must be met:

The student must provide a relevant written sample of their research which is comprised of the following:

- a) Table of Contents from the thesis;
- b) Thesis chapter or manuscript (prepared, submitted, accepted) for publication. In cases where a thesis chapter may consist of a literature review, it must be from the thesis and not the research proposal.

The supervisor must schedule a supervisory committee meeting where the student will present their results to the supervisory committee. The meeting may take place in person, via tele- or videoconference, or as a discussion via email. The supervisor and supervisory committee members must unanimously:

- a) agree the student has conducted sufficient work on their research project;
- b) approve the relevant written sample of research;
- c) approve the student to write their thesis and schedule a Thesis Oral Examination.

A final copy of supervisory committee meeting minutes (or relevant emails) must be submitted to the Graduate Program Office confirming that the above requirements have been met. Thesis examinations will not be approved by the Associate Dean (Graduate) until these are received.

## **Financial Assistance**

### **Type**

Completion Requirement

### **Additional Comments:**

Students in thesis-based graduate programs will receive a graduate stipend as outlined in the Kinesiology funding policy and can be found at <https://kinesiology.ucalgary.ca/future-students/graduates/fees-funding>.

Thesis students are expected to apply to external agencies for financial support from scholarships or studentship awards and for University of Calgary Scholarships (see [Awards and Financial Assistance](#) section of this Calendar). Possible sources of financial support are listed on the Faculty of Graduate Studies website: [grad.ucalgary.ca/awards](http://grad.ucalgary.ca/awards). For information on other awards, please contact the Faculty of Kinesiology Graduate Program.

**Website:** [kinesiology.ucalgary.ca](http://kinesiology.ucalgary.ca)

## Introduction

The origins of Kinesiology at the University of Calgary date back to 1961 when the School of Physical Education was founded. In 1994, the name was changed to the Faculty of Kinesiology. Today, the faculty's curriculum and majors are recognized and accredited by the Canadian Council of University Physical Education and Kinesiology Administrators (CCUPEKA). The Faculty of Kinesiology offers a world-class environment for research and learning as well as superb training facilities for coaches and athletes at the varsity, community and Olympic level. The Faculty continues to work to improve the health and mobility of our society through our renowned research, which provides evidence of the benefits of exercise for all ages and demographics. Kinesiology students receive high-quality and relevant, experiential learning opportunities that inform their future careers and contribute to the research and scholarship in the faculty and the university. The Faculty is also the home of the successful Dinos varsity teams, Olympic Oval, Active Living, Outdoor Centre, Sport Medicine Centre and the Human Performance Lab.

## Undergraduate Programs

In addition to a core curriculum, all undergraduate students pursuing a combined or concurrent degree with another faculty, refer to the [Combined Degrees](#) chart for a list of allowable combinations.

The Motor and Psychosocial Aspects of Movement in Kinesiology Major (BKIn or BSc) provides a comprehensive education in the areas of behavioural neurosciences, cognition and neuro-motor control, and the application of personality and social psychological principles to the fields of exercise and health psychology, and sport psychology.

## Student Affairs

Academic Advisors in the Advising Office are available for program consultation during regular office hours. Students are encouraged to contact the [Advising Office](#) a minimum of once per academic year to discuss any aspect of academic programs and student experience.

[Kinesiology Student Society \(KSS\)](#) is an undergraduate club responsible for academic and social activities. The main objective is to build spirit and rapport within the Faculty.

## Admissions

### Program Admissions Information

Students should refer to the Standard Admission requirements listed in the [Admissions](#) section of this Calendar.

Prospective students should refer to [A.5 Undergraduate Degree Admission Requirements](#) in the Admissions section of this Calendar for regulations regarding University admission requirements. Applicants must meet all deadlines and requirements. Refer to [ucalgary.ca/future-students/undergraduate/explore-programs](http://ucalgary.ca/future-students/undergraduate/explore-programs).

The Faculty of Kinesiology admits students to the Fall Term only.

All programs offered by the Faculty of Kinesiology have a fixed number of places for students. For any given program, whenever demand exceeds capacity, enrolment will be limited and students will be admitted on the basis of descending ranked academic performance until that capacity is met.

### Admission into Honours

Applicants to an Honours program must have completed a minimum of 90 units by the term in which they enter the Honours program. The completed units must include a junior level Statistics course, and a cumulative GPA of at least 3.30 over the completed 90 units (with a minimum GPA of 3.30 in all Kinesiology courses). These grade point averages must be maintained in order to retain Honours standing.

Students are strongly encouraged to consult with the Faculty's Advising Office prior to application.

## Overview

### General Program Information

The University offers an interdisciplinary specialization in Wearable Technology at the master's and doctoral levels for students registered in the following faculties and graduate programs:

- Faculty of Kinesiology
- Biomedical Engineering Graduate Program
- Geomatics Engineering Graduate Program
- Department of Electrical and Software Engineering
- Department of Computer Science
- Department of Psychology
- Computational Media Design Graduate Program

The student will receive the MSc (thesis-based) or PhD degree offered by the home program.

Faculty of Kinesiology

Location: KNB 269

Program number: 403.220.7019

Email address: <mailto:kirsten.penrose@ucalgary.ca>

Web page URL: <https://kinesiology.ucalgary.ca/future-students/graduates/our-programs/wearable>

## Admissions

### Program Admissions Information

The deadlines for applying for admission into the Wearable Technology specialization are available on the Future Students website for the home graduate program.

- [MSCT Kines](#)
- [PHD Kinesi](#)
- [MSCT Biome](#)
- [PHD Biomed](#)
- [MSCT Geoma](#)
- [PHD Geomat](#)
- [Engineerin](#)
- [Engineerin](#)
- [MSCT Compu](#)
- [PHD Comput](#)
- [MSCT Comp](#)

- [PhD Comp M](#)
- [MSCT Psych](#)
- [PHD Psycho](#)

Applicants must meet the [admission](#) requirements of the Faculty of Graduate Studies and the home program that offers the Wearable Technology specialization. The specialization is open to both Canadian and international students.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

##### MSc (thesis-based)

In addition to meeting the requirements of Faculty of Graduate Studies ([see regulations](#)) and the home program, MSc students in the Wearable Technology specialization must meet the following course requirements:

1. [KNES608 Innovate Wearable Technology](#) or [CPSC601 Special Topics in CPSC](#) (Topic: Wearable Applications) or [ENEL619 Special Problems](#) (Topic: AI and Security of Cyber-physical Systems).

2. [ENTI625 Intro to Entrepreneurship](#)

3. Completion of a practicum placement [KNES612.01 Practicum I](#)

Specialization course requirements may count as elective courses in the student's home program (if applicable) with approval from the Graduate Program Director, supervisor, and supervisory committee.

##### Doctor of Philosophy

In addition to meeting the requirements of Faculty of Graduate Studies and the home program, PhD trainees in the Wearable Technology specialization must meet the following course requirements:

1. [KNES608 Innovate Wearable Technology](#) or [CPSC601 Special Topics in CPSC](#) (Topic: Wearable Applications) or [ENEL619 Special Problems](#) (Topic: AI and Security of Cyber-physical Systems).

2. [ENTI625 Intro to Entrepreneurship](#)

3. Completion of a practicum placement [KNES612.01 Practicum I](#)\*

4. One (3 unit) elective in Biomechanics, OR Data Science, OR Data Visualization\*\* at the 600 or 700 level.

*\*With the support of the student's home program and Faculty of Graduate Studies, the student may complete Kinesiology 612 either before or after admission to candidacy.*

*\*\*Must be approved by the specialization Director, the student's Supervisor and Supervisory Committee.*

Specialization course requirements may count as elective courses in the student's home program (if applicable) with approval from the Graduate Program Director, Supervisor, and Supervisory Committee.

Students are expected to attend the annual Wearable Technology Workshop held each Fall semester and participate in the Wearable Technology Lecture series.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant should make requests for [Advanced Credit](#) at the time of application, as part of the admissions process.

### Time Limit

Expected completion time is two years for full-time students in a thesis-based master's program and four years in a doctoral program.

### Supervisory Assignments

See requirements of home program.

### Required Examinations

See requirements of home program and the Faculty of Graduate Studies ([Academic Regulations](#)).

### Financial Assistance

See home program.

## Faculty of Law Department

Summary of Degree Programs

Faculty Information

Faculty Regulations

Admissions

Program Details

Administration

Courses of Instruction by the Faculty of Law

## Programs

### Overview

General Program Information

**Applications for this interdisciplinary specialization are not current being accepted.**

The University offers an interdisciplinary specialization in Energy and Environmental Systems to students registered in an existing graduate program currently offered through one of the following Faculties that are affiliated with the Institute for Sustainable Energy, Environment and Economy (ISEEE):

- School of Architecture, Planning and Landscape
- Faculty of Arts
- Haskayne School of Business
- Faculty of Law
- Faculty of Science
- Schulich School of Engineering

In cases where the student's proposed research area cannot be supported through a single academic program, and which would necessitate the combination of at least two academic areas, they may seek admission and earn the EES specialization through the Interdisciplinary Graduate Program (IGP) of the Faculty of Graduate Studies.

## Admissions

### Program Admissions Information

There are no deadlines for applying for admission into the EES Specialization; however, students will only be admitted into the EES Specialization on January 1, May 1 and September 1. Students who are already enrolled in a graduate program at the University of Calgary are able to apply to the EES Specialization.

In addition to the Faculty of Graduate Studies' [admission](#) requirements, all applicants must meet the minimum admission requirements of the home graduate program and ISEEE. To apply for the specialization, students must complete an online EES specialization application form: <http://science.ucalgary.ca/iseee/student/apply-now>.

When applying to the EES specialization, students must have already applied to a home graduate program, faculty, or department and must already have a supervisor. Successful candidates must be approved for admission by both the home graduate program as well as by EES. Admission to a degree program does not guarantee entrance to the EES specialization. Likewise, admission to the EES specialization does not guarantee entrance to a degree program.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculty of Graduate Studies ([see regulations](#)) and the home graduate program's requirements, students undertaking the EES specialization must successfully complete the following:

#### EES Specialization at the Master's Level

Students in the EES specialization are required to complete four courses, which include:

- Energy and Environmental Systems 601: Introduction to Energy and Environmental Systems
- Energy and Environmental Systems 607: Tools for System Analysis

The remaining two courses must be electives approved by the EES Graduate Studies Committee. These courses are intended to bolster a student's background in energy and environmental systems and/or interdisciplinary research methods, and may be taken in other faculties, schools, or departments at the University of Calgary.

Master's students must also comply with the requirements of their home graduate program. In addition to these course requirements, students must conduct research that takes an interdisciplinary approach to a real-world problem in the area of energy and environmental systems. Students must also actively partake in EES seminars and activities, and contribute meaningfully to the interdisciplinary culture of the specialization.

#### EES Specialization at the Doctoral Level

Students who have previously earned a master's degree with the EES specialization cannot enrol into the EES specialization as a PhD student. Doctoral students are required to take the same EESS core courses that are required at the master's level and two electives in the area of energy and environment. Doctoral students must also comply with requirements of their home graduate program.

#### EES Specialization with MGIS Degree (course-based)

Students enrolled in the Master of Geographic Information Systems degree program who wish to earn the EES specialization will need to take three of the EES courses (Energy and Environmental Systems 601, 603, and one other). Students are not required to take Geography 683, but must take the other core courses in the MGIS program (Geography 647, 633, 639, and 681). Finally, students will still be required to fulfill the 30 units (5.0 full-course equivalents) requirement of the MGIS program, and can select the remaining three courses from Geography optional courses or EES related courses. It is not recommended that students required to complete the MGIS upgrade courses undertake the EES specialization.

#### EES Specialization with the Interdisciplinary Graduate Program (IGP)

The course curriculum for IGP students will be determined at the IGP admission seminar. Course requirements will typically include the EES core courses, but may also include other courses to ensure adequate coverage of the relevant disciplines involved. Changes to the student's curriculum after the admission seminar will require the approval of the Supervisory Committee, IGP Director, and the Faculty of Graduate Studies.

## Additional Program Information

### Type

Completion Requirement

### Additional Comments:

## Advanced Credit

Requests for advanced credit must be made at the time of application. Credit will not be granted for course work taken as part of another completed degree/diploma or for courses taken to bring the admission GPA to the required level.

## Credit for Undergraduate Courses

Students are allowed to take only one 500-level course for graduate credit, subject to the approval of the EES Graduate Studies Committee. Graduate students taking a 500-level course for graduate credit will be required to complete additional assignments.

## Time Limit

Expected completion time for a master's degree is two years and the maximum completion time is four years.

Expected completion time for the PhD degree is four years and the maximum completion time is six years.

## Supervisory Assignment and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

Students must meet supervisory requirements of home department.

## Required Examinations

Final thesis orals follow the requirements of the Faculty of Graduate Studies and the home graduate program. Students in doctoral programs must fulfill the written candidacy examination requirement of the home graduate program. All doctoral students must complete the candidacy oral examination in accordance with Faculty of Graduate Studies' regulations.

## Research Proposal Requirements

If a research proposal is required by the home department, then a copy of the proposal must be submitted to the EES Graduate Studies Committee and will be placed on file.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available on a competitive basis to all qualified full-time graduate students enrolled in the EES specialization. Students are also encouraged to seek funding opportunities through the Faculty of Graduate Studies' Open Scholarship Competition (contact the home program for application deadlines), as well as external funding agencies.

## Introduction

The Faculty of Law's Juris Doctor (JD) program will prepare you for a variety of roles within the legal system. Designed to lay the groundwork for the development of competent, talented, creative and sensitive professionals, our program prepares you for the rapidly changing society in which the imagination and human qualities of the legally-trained person will be challenged to the fullest.

The Faculty of Law offers a course-based Master of Laws (LLM), a thesis-based LLM, and a Graduate Certificate, all with a specialization in natural resources, energy, and environmental law. We also offer a thesis-based LLM without a specialization. For more information about our graduate programs, consult the Faculty of Graduate Studies Calendar.

## JD Program

The first year of the JD program is common to all students, and consists of intensive courses in Foundations of Law and Justice (in September and January) as well as courses in Legislation, Constitutional Law, Crime: Law and Procedure, Property, Torts and Contracts.

In the second and third year of the program students complete required courses in Civil Procedure, Administrative Law, Ethical Lawyering, Evidence, Negotiation and Advocacy. They will also take one course within the areas of international law and theoretical perspectives on the law, and fulfill an upper year writing requirement. Students choose the remainder of their courses from their area or areas of interest.

Students in joint degree programs will complete all of the required elements of the JD program.

Students at the Faculty have the opportunity to participate in extra-curricular activities related to the study and practice of law including the Student Legal Assistance legal clinic and Pro Bono Students Canada. In addition, many courses at the Faculty incorporate performance-based learning or have a clinical component.

Courses at the Faculty cover the breadth of the substance and process of law, but also reflect the Faculty's specialties in natural resources, energy and environmental law, and legal practice.

The Faculty of Law has identified the following minimum standard of competence for our graduates:

### 1. Substantive legal knowledge

All law graduates should have developed an understanding of:

- The principles and jurisprudence comprising foundational doctrinal areas of law (e.g., torts, contracts, constitutional, property, criminal and administrative law)
- The principles underlying common law and equity
- Developed knowledge of the sources of law, including the structure of, and relationship between, the branches of government
- The role of legislation in the common law system

### 2. The context of law

All law graduates should have developed an appreciation of:

- Various perspectives on law, including theoretical, historical and comparative perspectives
- The implications of international, multidisciplinary and technological innovations for law and legal practice

## UCalgary

- The role of policy and its intersection with law
- The problem of access to justice and the role for lawyers in ameliorating it

### 3. Legal research

All law graduates should possess the ability to:

- Develop a coherent research strategy
- Identify and assess sources of legal and non-legal information appropriate to the particular issue(s) or matters

### 4. Legal analysis and reasoning

All law graduates should have developed the skills necessary for:

- Developing legal arguments and providing legal opinions, including the interpretation and application of statutes and case law
- Identifying, investigating and assessing a problem, both factually and legally placing a problem within a broader context as appropriate
- Understanding the relationship between different normative orderings, such as the relationship between international and domestic law methods
- Critiquing their own legal reasoning and that of others from substantive, normative and procedural perspectives

### 5. Legal communication

All law graduates should have developed the skills necessary for:

- Counseling and advising, including ascertaining the client's needs, wishes and risks, providing options to the client, and helping the client to select the appropriate option
- Effective negotiation, advocacy and collaboration
- Clear and accurate communication in a format appropriate to its purpose
- Drafting formal documents
- Evaluating communication to assess its effectiveness and impact
- Interpersonal skills, including teamwork and collaboration

### 6. Dispute resolution skills

All law graduates should have:

- Familiarity with drafting and transactional skills relevant to the prevention of disputes
- Knowledge of the characteristics and procedures of available forms of dispute resolution
- The understanding necessary to recommend appropriate form(s) of dispute resolution, whether consensus or adjudicative, for particular settings and specific conflicts

### 7. Ethics

All law graduates should have developed a critical understanding of:

- The normative foundations of the lawyer's role
- The scope and limits of the lawyer's role
- The law governing lawyers and legal practice
- The capacity to identify and resolve ethical dilemmas

## Opportunities

To practice law in Canada a lawyer must be a member of a provincial law society, (in Alberta, the Law Society of Alberta). The JD program at the University of Calgary is approved as a law degree sufficient for admission to the Canadian common law law

societies. The LLM programs at the University of Calgary are not approved as law degrees sufficient for admission to the Canadian common law law societies and do not allow students to satisfy the requirements for law society admission through the National Committee on Accreditation. The Foreign Trained Lawyers Program post-bachelor's certificate is designed to assist lawyers educated outside of Canada to meet their National Committee on Accreditation requirements, once their credentials have been assessed by the National Committee on Accreditation.

Graduates from the University of Calgary Faculty of Law work in a wide variety of settings. Many graduates work in legal practice assisting individuals, corporations, organizations and government with their legal needs. Faculty of Law graduates also work, however, in diverse professional, business and creative endeavours, including as legislators, judges, executives, entrepreneurs and academics.

The Faculty of Law at the University of Calgary works with all of our graduates to help them secure employment subsequent to graduation. Information on the Faculty's Career and Development Office can be found here: [ucalgary.ca/lawcareers](http://ucalgary.ca/lawcareers).

## Student Affairs

The Society of Law Students is the official student association recognized by the Faculty of Law to represent the interests of all students in the undergraduate law program. The Society is responsible for providing law students with social, sporting, academic, volunteering, and administrative services, as well as being the official liaison between the student body and the Faculty, University and broader legal community.

## Admissions

### Program Admissions Information

Contact the Faculty Admissions Office or visit the Faculty of Law website ([law.ucalgary.ca](http://law.ucalgary.ca)) to obtain the most up-to-date information.

## Program Details

### Simple Requisites

#### JD Program Requirements for Graduation

##### Type

Completion Requirement

##### Course Requirements

Students must complete a total of 98 units in Law courses, including achieving a satisfactory performance (a "C-", or higher, or "CR") in the following courses:

**Earn at least 98 credits from the following:**

- Law 400, 402, 403, 404, 406, 407, 408, 410, 503, 505, 507, 508, 510, 602

##### Additional Comments:

##### Additional Requirements

Students must achieve satisfactory performance ("C-", or higher) in a course that meets the following requirements. See the Faculty of Law website ([law.ucalgary.ca](http://law.ucalgary.ca)) for more information.

- Upper-Year Writing
- International
- Theoretical Perspectives

Note that all upper-year (i.e., second and third year) JD students must register for at least 12 units per term, to a maximum of 18, and for at least 31 units per year, to a maximum of 36.

## Faculty of Law Regulations

### Type

Completion Requirement

### Additional Comments:

## Faculty Regulations

Students in the Faculty of Law are governed by the Faculty Regulations and also by the Academic Regulations section of this Calendar. The Faculty Regulations can be found here: [law.ucalgary.ca/sites/default/files/teams/2/faculty-regulations-june-2015.pdf](http://law.ucalgary.ca/sites/default/files/teams/2/faculty-regulations-june-2015.pdf).

## Flexible Grade Option (CG Grade)

The Faculty of Law will not permit the Flexible Grade Option (CG Grade) on any course.

## Overview

### General Program Information

Normally, combined degree programs must be completed full-time during the day.

Location: Mathison Hall, Room 424

MBA Program: 403.220.3808

Fax: 403.282.0095

Email address: <mailto:mbarequest@haskayne.ucalgary.ca>

Web page URL: <https://haskayne.ucalgary.ca/future-students/mba/combined>

## Admissions

### Program Admissions Information

Admission deadlines are available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/management-master-business-administration-course-based>.

An applicant to a combined MBA program must meet the admission requirements of the MBA program, and make a separate application for admission to the other program. The respective Combined Program Committee will review each application.

Please note that receiving admission to both individual programs does not guarantee admission to the combined program.

For MBA admission requirements, see [Master of](#).

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

A student admitted to the combined JD/MBA program spends the first year doing core studies in one program and the second year doing core studies in the other program. The remaining years in the program combine Law and Business courses in a way that will allow the achievement of both degrees in four rather than five years. Course requirements include:

a) MBA courses (45 units):

**Complete ALL of the following Requirement Sets:**

- MBA Required Courses

plus:

- one elective course (3 units) in the student's area of interest.

b) Law courses (83 units):

**Complete ALL of the following Requirement Sets:**

- JD/MBA Law Courses

plus:

- a minimum of eight 3-unit electives.

#### **Additional Comments:**

Attendance at an orientation session is mandatory for all incoming students in all MBA program options.

#### **Additional Program Information**

##### **Type**

Completion Requirement

##### **Additional Comments:**

#### **Advanced Credit**

The applicant must make **Advanced Credit** requests as part of the admission process to the MBA program. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

#### **Flexible Grade Option (CG Grade)**

Students admitted to a combined MBA program will not be allowed to request the **Flexible Grade Option (CG Grade)** for any MBA course that is applicable to their degree; or apply any course awarded a grade of CG towards their MBA graduation requirements.

Students may not choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

#### **Time Limit**

MBA: six years

#### **Financial Assistance**

##### **Type**

Completion Requirement

##### **Additional Comments:**

Financial assistance may be available to qualified students. For information on awards, please see the **Awards and Financial Assistance** section of this Calendar.

All admitted full-time MBA students will be automatically considered for Business scholarships.

## Overview

### General Program Information

The JD/MPP program is normally restricted to full-time study. It allows students to obtain both degrees in a significantly shorter time frame than if they are taken separately.

Email address: <mailto:mpp@ucalgary.ca>

Web page URL: <https://spp.ucalgary.ca> and <https://law.ucalgary.ca/future-students/our-jd-programs/joint-jd-programs#jd-mpp>

## Admissions

### Program Admissions Information

Deadline for the submission of completed applications: <http://www.ucalgary.ca/future-students/graduate/explore-programs/public-policy-master-public-policy-course-based>.

Students must meet the [admission](#) requirements for the Faculty of Graduate Studies and those for the JD and MPP programs. Please consult the JD Student Services Coordinator or the MPP Office for more information.

A separate application for the MPP and for the JD is required for the combined JD/MPP program. See [deadlines for each program](#).

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the Faculty of Graduate Studies [requirements](#), the School of Public Policy requires that all students complete the following:

33 units consisting of:

a) Ten core courses:

**Complete ALL of the following Course Sets:**

- Core MPP Courses

b) A total of six units of electives. This can include [PPOL699 Topics in Public Policy](#) or other graduate-level coursework approved by the Graduate Program Director. The two elective courses should be related in such a way that they form a focus in an area of public policy.

#### Additional Comments:

### Combined JD/MPP

One three-unit [JD course](#) will be counted toward the MPP core requirements set out in (a) and one three-unit [JD course](#) will be counted toward the elective requirement set out in (b). All other requirements set out in (a)–(b) apply to students in the joint program.

Students will normally complete all of the first-year compulsory courses in Law in the first year of their program and all MPP courses including [PPOL620 Capstone Preparation](#) and [PPOL623 Capstone Project](#) (capstone) in year two. In their third year, they complete their [JD courses](#). Please consult the MPP or the JD Office for more information.

## Copyediting

The School of Public Policy does not allow copyediting on students' work.

### Additional Program Information

#### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

The applicant must make [Advanced Credit](#) requests as part of the admission process. Credit will not normally be given for course work taken as part of another completed degree/diploma. If graduate-level courses are taken as post-BA courses and not used as credit towards another degree, the School may allow the student to claim up to 6 units at our graduate level towards the MPP requirements should the student be admitted into the MPP program.

### Flexible Grade Option (CG Grade)

Students admitted to the Master of Public Policy program will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may not choose the CG grade in a course taken extra-to-load.

The use of the CG grade will affect students' ability for internal awards.

### Credit for Undergraduate Courses

No credit will be given for courses taken below the 600-level, except in special cases.

### Time Limit

Maximum completion time for the MPP is four years.

### Supervisory Assignments and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

All MPP students in the program will be guided by faculty holding appointments to the School.

### Required Examinations

No additional examinations outside of the courses are required.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Students admitted to the MPP program will automatically be considered for financial awards from the School. For information on awards, see the [website](#) for the School and the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

Attaining an LLM degree without a Canadian LLB degree will not qualify graduates to practice law in Canada. Inquiries on this issue must be addressed to the appropriate provincial governing body for the legal profession. In Alberta, contact the Law Society of Alberta or the National Committee on Accreditation of the Federation of Law Societies of Canada.

---

Master of Laws (LLM), course-based with major research project

### Specialization:

- Natural Resources, Energy and Environmental Law

LLM Students may elect not to have an area of specialization.

---

The course-based LLM program is available for full-time or part-time enrolment.

---

Location: Murray Fraser Hall

Program number: 403.210.8718

Fax: 403.210.9662

Email address: <mailto:law@ucalgary.ca>

Web page URL: <https://law.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadlines for submission of completed applications are available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/law-master-laws-course-based>.

---

In addition to the [admission requirements](#) of the Faculty of Graduate Studies, the Faculty of Law requires:

- Ordinarily, a JD, LLB or equivalent degree in Law.
- For applicants required to provide proof of proficiency in English, a minimum TOEFL Internet-based score of 97, with a minimum of 25 on the reading and writing components; or the minimum IELTS overall band score of 7.0, with a reading and writing band minimum of 7.0; or a CAEL score of 70, with a minimum of 70 on reading and writing components; or a PTE score of 68. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in the Academic Writing and Composition course, a minimum grade of "A-" in the Research Writing and Form course, and a minimum grade of "B+" in other courses.
- LLM program applicants must submit a brief statement of their proposed thesis or major paper, and applicants to the thesis-based program must also indicate their proposed supervisor. Details are available from the Faculty. For applicants interested in the specialization in Natural Resources, Energy, and Environmental Law, the proposal must be in this area.
- LLM program applicants must submit a writing sample.
- Two reference letters.
- An up-to-date curriculum vitae.

## Program Details

### Simple Requisites

Program/Course Requirements Type
-------------------------------------

#### Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Law requires:

- a) [LAW703 Grad Sem Legal Res & Method](#). Students must receive a passing grade in this course to advance in the program.
- b) 15 units of elective courses as follows:

#### LLM with specialization in Natural Resources, Energy or Environmental Law:

15 units of elective courses at the 500 level or higher in the areas of natural resources, energy and environmental law or in graduate-level courses in a related area or discipline, approved by the Graduate Program Director.

- At least 6 units must be law courses at 600 level or higher.
- At least 6 units must be from law courses that include a research paper evaluation worth at least 50 percent of the course grade.
- 3 of these units may be [LAW705 Grad Seminar Legal Theory](#).

#### LLM without a specialization:

15 units of elective law courses at the 500 level or higher, or in graduate-level courses in a related area or discipline, approved by the Graduate Program Director.

- No more than 3 units may be taken outside of the Faculty of Law; any course taken outside the Faculty of Law must be approved by the Graduate Program Director.
- At least 6 units must be law courses at 600 level or higher.
- At least 6 units must be from law courses that include a research paper evaluation worth at least 50 percent of the course grade.

c) [LAW707 Major Research Paper I](#) and [LAW708 Major Research Paper II](#): A major research paper, approximately 50 to 60 pages (15,000–18,000 words) in length, evaluated on a Pass/Fail basis by the instructor and a second reader appointed by the Graduate Program Director. Students enrolled in the specialization in Natural Resources, Energy and Environmental Law must complete their major papers in this area.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

#### Advanced Credit

The applicant must make [advanced credit](#) requests as part of the admission process. On a case-by-case basis, advanced credit toward an LLM or PhD program may be given for courses completed in a graduate program within the Faculty of Law or another recognized institution. Courses for which advanced credit is being sought must not have been used for any previously completed degree/diploma/certificate credential.

#### Flexible Grade Option (CG Grade)

The Faculty of Law will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the Faculty.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

#### Credit for Undergraduate Courses

Certain JD courses are eligible for credit toward the LLM program.

#### Time Limit

All requirements for the course-based LLM degree must be completed within five years of initial registration. It is expected that full-time students will complete the program in 16 months.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students, although funding for course-based LLM and Graduate Certificate students will very rarely be provided. For information on awards, see the [Awards and Financial Assistance](#) section of this calendar or the Faculty of Law Calendar or [website](#).

Students applying for scholarships must submit their scholarship applications to the Faculty of Law by the deadlines for completed admission applications.

## Admissions

### Program Admissions Information

Deadlines for submission of completed applications are available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/law-phd>.

In addition to the [admission](#) requirements of the Faculty of Graduate Studies, the Faculty of Law requires:

- a) Completion of an undergraduate degree in Law (e.g. JD or LLB), normally with a minimum grade point average of 3.30 on a 4.0-point scale.
- b) Completion of a Master's degree in Law or other appropriate and relevant Master's, with a minimum grade point average of 3.00. The typical successful applicant will have a GPA of at least 3.7 on a 4.0-point scale.
- c) For applicants required to provide proof of proficiency in English, a minimum TOEFL Internet-based score of 97, with a minimum of 25 on the reading and writing components; or a minimum IELTS overall band score of 7.0, with a reading and writing band minimum of 7.0; or a PTE score of 68; or a CAEL overall score of 70, with a minimum score of 70 on writing and reading sections. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in the Academic Writing and Composition course, a minimum grade of "A-" in the Research Writing and Form course, and a minimum grade of "B+" in other courses.
- d) Two reference letters, ordinarily academic. At least one reference letter should be written by someone who has worked with the applicant at the Master's level and who is well familiar with the student's past work and research proposal.
- e) An indication of possible supervisors.
- f) A writing sample.
- g) A 10-page statement describing the applicant's research interests and proposing a dissertation project.
- h) An up-to-date curriculum vitae.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Law requires students to complete:

a) [LAW703 Grad Sem Legal Res & Method](#).

b) [LAW705 Grad Seminar Legal Theory](#).

c) [LAW709 Special Topics in Law](#).

d) Additional coursework as may be required by the supervisor in consultation with the Graduate Program Director. Students may be required to carry out advanced coursework in the area of their thesis, or in a cognate area of law, or in a discipline other than law which is relevant to their thesis topic.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make [advanced credit](#) requests as part of the admission process. On a case-by-case basis, advanced credit toward an LLM or PhD program may be given for courses completed in a graduate program within the Faculty of Law or another recognized institution. Courses for which advanced credit is being sought must not have been used for any previously completed degree/diploma/certificate credential.

### Flexible Grade Option (CG Grade)

The Faculty of Law will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the Faculty.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

Credit will be given for additional coursework required by the supervisor in consultation with the Graduate Program Director. Such coursework may include upper-level undergraduate courses as appropriate.

## Time Limit

Students are expected to complete all requirements for the PhD in four years. Maximum time to completion is six years.

### Supervisory Assignments and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

## Supervisory Assignments

Prospective students are required to identify possible supervisors as part of the application process. Supervisors will be determined on the basis of consultations among the student, the potential supervisor(s) and the Graduate Program Director. An interim supervisor will be assigned during the admissions process, and the supervisor and supervisory committee will be established within twelve months of the student entering the program.

## Required Examinations

In addition to the Faculty of Graduate Studies regulations for [candidacy](#) and [thesis examinations](#), the program requires:

### Candidacy

Advancing to candidacy requires the successful completion of a) all coursework; b) an original thesis proposal; and c) a field of study examination with written and oral components.

### Thesis Examination

Thesis examinations are open.

#### *Scheduling of the Examination*

Before an examination can be scheduled, all members of the supervisory committee must have reviewed the student's research, including a relevant written sample of the material related to the thesis, or the draft thesis document, and have provided written consent that the examination can be scheduled.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance will be available to qualified students in accordance with the Faculty of Law Graduate Student Funding Policy. See the [Awards and Financial Assistance](#) section of this calendar, the [Graduate Awards Database](#), and the Faculty of Law [website](#).

## Overview

## General Program Information

### Contact Information

**Location:** Murray Fraser Hall Room 2380

**Student Information:** 403.220.4155

**Faculty number:** 403.220.7115

**Email address:** [lawFTLP@ucalgary.ca](mailto:lawFTLP@ucalgary.ca)

**Web page:** [law.ucalgary.ca/future-students/post-jdlb-certificate-programs/foreign-trained-lawyers-program](http://law.ucalgary.ca/future-students/post-jdlb-certificate-programs/foreign-trained-lawyers-program)

The Foreign Trained Lawyers Program (FTLP) is a 12-month Post-bachelor's Certificate offered by the Faculty of Law at the University of Calgary for internationally trained lawyers who wish to become accredited to practice common law in Canada.

### Admissions

#### Program Admissions Information

The FTLP is designed to meet the unique needs of internationally-trained lawyers who wish to practice common law in Canada. Those internationally-trained lawyers fall into two broad categories:

Newcomers to Canada, including international students, who have obtained their legal education in common law, civil law, or both, and may have practiced law in their home jurisdictions, and either have obtained their Canadian Permanent Residence or Citizenship status, or will have the requisite immigration status to work in Canada when they do their articles after program completion.

Canadian citizens and Permanent Residents who have obtained their legal education in common law, civil law, or both, outside Canada and have returned or are intending to return to Canada to practice common law.

For more information, refer to: [law.ucalgary.ca/future-students/post-jdlb-certificate-programs/foreign-trained-lawyers-program#ftlp-application](http://law.ucalgary.ca/future-students/post-jdlb-certificate-programs/foreign-trained-lawyers-program#ftlp-application).

### Program Details

#### Simple Requisites

##### Foreign Trained Lawyers Program Post-Bachelor's Certificate Requirements for Graduation

###### Type

Completion Requirement

##### Foreign Trained Lawyers Program Post-Bachelor's Certificate Requirements for Graduation

Students must complete the following 24 units of course work achieving a satisfactory performance (a "C-", or higher, or "CR"):

**Earn at least 24 credits from the following:**

No selection provided

On approval by the Associate Dean (Academic), students may take one Law course in addition to the FTLP requirements and pay no additional tuition.

If the National Committee on Accreditation's assessment requires additional courses on top of the 24 units required in the FTLP plus the one optional course, students in the FTLP may take up to a maximum of 3 additional LWFT courses upon payment of the applicable per-LWFT course tuition fee (see the program's fees chart in the Undergraduate Tuition and General Fees). Any additional LWFT courses must be approved by the Associate Dean (Academic).

Additional LWFT courses can be found here:

#### Additional Comments:

## Time Limit

Students are expected to complete the FTLP post-bachelor's certificate in 12 months. The maximum time allowed to complete the FTLP requirements and any additional courses is 3 years.

## Faculty of Law Regulations

### Type

Completion Requirement

### Additional Comments:

## Faculty Regulations

Students in the Faculty of Law are governed by the Faculty Regulations and also by the Academic Regulations section of this Calendar. The Faculty Regulations can be found here: [law.ucalgary.ca/sites/default/files/teams/2/faculty-regulations-june-2015.pdf](http://law.ucalgary.ca/sites/default/files/teams/2/faculty-regulations-june-2015.pdf).

## Flexible Grade Option (CG Grade)

The Faculty of Law will not permit the Flexible Grade Option (CG Grade) on any course.

## Overview

### General Program Information

The course-based Graduate Certificate program is available for full-time or part-time enrolment.

## Admissions

### Program Admissions Information

Deadlines for submission of completed applications are available on the Future Students website: <https://ucalgary.ca/future-students/graduate/explore-programs/natural-resources-energy-environmental-law-certificate-course-based>.

In addition to the **admission** requirements of the Faculty of Graduate Studies, the Faculty of Law requires:

- a) Ordinarily, a JD, LLB or equivalent degree in Law.
- b) For applicants required to provide proof of proficiency in English, a minimum TOEFL Internet-based score of 97, with a minimum of 25 on the reading and writing components; or the minimum IELTS overall band score of 7.0, with a reading and writing band minimum of 7.0; or a CAEL score of 70, with a minimum of 70 on reading and writing components; or a PTE score of 68. This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in the Academic Writing and Composition course, a minimum grade of "A-" in the Research Writing and Form course, and a minimum grade of "B+" in other courses.
- c) Two reference letters.
- d) An up-to-date curriculum vitae.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Law requires:

The completion of four courses (12 units) in the area of natural resources, energy or environmental law or a related area, including at least one with a research paper evaluation worth at least 50 per cent of the course grade and including at least two at the 600 level. All courses require the approval of the Graduate Program Director.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

The applicant must make [advanced credit](#) requests as part of the admission process. Courses for which advanced credit is being sought must not have been used for any previously completed degree/diploma/certificate credential.

### Flexible Grade Option (CG Grade)

The Faculty of Law will not permit the [Flexible Grade Option \(CG Grade\)](#) for any course offered by the Faculty.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

### Time Limit

All requirements for the Graduate Certificate program must be completed within three calendar years of initial registration.

#### Financial Assistance

##### Type

Completion Requirement

##### Additional Comments:

Financial assistance may be available to qualified students, although funding for course-based LLM and Graduate Certificate students will very rarely be provided. For information on awards, see the [Awards and Financial Assistance](#) section of this calendar or the Faculty of Law Calendar or [website](#).

Students applying for scholarships must submit their scholarship applications to the Faculty of Law by the deadlines for completed admission applications.

## Overview

### General Program Information

The MSc degree in Sustainable Energy Development (SEDV) is an interdisciplinary offering by the School of Public Policy in collaboration with the Haskayne School of Business, Schulich School of Engineering, School of Architecture, Planning, and Landscape, and the Faculty of Law. This interdisciplinary, comprehensive, and professional graduate program provides a holistic approach to energy and environmental management through a cross section of courses taught by faculty from across the university.

# UCalgary

This is a continuous program with no scheduled break. Students who do not enrol in courses continuously will be withdrawn from the program for failure to register unless they are on an approved leave of absence.

Location: Downtown Campus

Program number: 403.220.2013

Email address: <mailto:sedv@ucalgary.ca>

Web page URL: <http://www.ucalgary.ca/sustainableenergy>

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/sustainable-energy-development-master-science-course-based>.

In addition to Faculty of Graduate Studies [admission requirements](#), the SEDV Program requires:

- Letter of intent of no more than 1000 words, addressing four questions provided on the SEDV admissions [website](#). Each question must be answered in no more than 250 words.
- A current curriculum vitae.
- Two years of professional work experience after graduation.
- Two reference letters: one academic and one professional.

Please refer to our [website](#) for detailed instructions and templates.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the Faculty of Graduate Studies [requirements](#), SEDV requires successful completion of 42 units consisting of the following:

33 units of core courses:

##### Complete ALL of the following Courses:

- SEDV601 - Energy Systems I  
**AND** SEDV603 - Energy Systems II  
**AND** SEDV605 - Indigenous Peoples and Sustainability in Energy Development  
**AND** SEDV613 - Energy Economics and Finance  
**AND** SEDV615 - Environmental Impact Assessment in the Energy Sector  
**AND** SEDV619 - Environmental Law in the Energy Sector  
**AND** SEDV621 - Environmental Management Tools in the Energy Sector  
**AND** SEDV623 - Strategic Environmental Planning for Energy Organizations  
**AND** SEDV631 - Life Cycle Sustainability Assessment in the Energy Sector  
**AND** SEDV633 - Energy and Climate Policy  
**AND** SEDV635 - Fundamentals of Water, Air, and Land Pollution

6 units chosen from:

**Complete ANY of the following Courses:**

- SEDV698 - Topics in Energy and the Environment I  
**AND** SEDV699 - Topics in Energy and the Environment II

3 unit capstone project:

**Complete ALL of the following Courses:**

- SEDV640 - Capstone Project I: Research Design  
**AND** SEDV641 - Capstone Project II: Proposal Development  
**AND** SEDV642 - Capstone Project III: Research Exploration and Examination

The work completed in this set of courses is considered equivalent to a Major Research Project. These courses must be taken immediately after each other. The project work must be interdisciplinary, reflecting a minimum of 3 areas of study, with energy and environment as the two anchors.

**Additional Comments:**

Students will have the opportunity to participate in professional development seminars, experiential learning workshops, and field trips to local energy related sites. Attendance and participation in such activities is expected.

**Additional Program Information**

**Type**

Completion Requirement

**Additional Comments:**

**Advanced Credit**

The SEDV Program does not grant advanced credit for courses completed prior to admission.

**Flexible Grade Option (CG Grade)**

The Master of Science in Sustainable Energy Development program will allow students to pursue the Flexible Grade Option (CG Grade).

Students may not choose the CG grade in a course taken extra-to-load.

The use of the CG grade will not affect students' ability for internal awards.

**Credit for Undergraduate Courses**

The SEDV program does not grant advanced credit for undergraduate courses.

**Time Limit**

The SEDV program commences annually in May, which is the only intake. As a cohort-based program, the expectation is for students to complete courses as timetabled for their cohort.

The expected completion time is 16 months for full-time studies; however, the maximum permitted time is 6 years.

**Financial Assistance**

**Type**

Completion Requirement

**Additional Comments:**

For information on graduate funding, please see Financing - SEDV | Haskayne School of Business | University of Calgary.

## Programs

### Overview

#### General Program Information

The Advanced Nursing Practice Graduate Certificates are continuous programs with no scheduled breaks. Students who do not enrol in courses continuously will be withdrawn from the program for failure to register unless they are on an approved leave of absence.

Also see: [GCERT Adva.](#)

#### Specializations:

- Addiction and Mental Health
- Contemporary Topics in Aging
- Innovations in Teaching and Learning
- Leadership for Health System Transformation
- Healthcare Innovation and Design
- Palliative and End of Life Care
- Oncology Nursing
- Rural and Remote Nursing

Students must choose a different specialization in each of the two certificates.

---

#### Laddered Certificate Pathway to the Master of Nursing

Students who successfully complete one specialization of the Certificate in Advanced Nursing Practice I and a different specialization of the Certificate in Advanced Nursing Practice II will be eligible to apply for admission into the Master of Nursing (course-based) degree and will receive credit for the 24 units of coursework completed. Applications must be received within two years of completion of the Certificate in Advanced Nursing Practice II.

---

Programs are delivered online.

---

Location: Professional Faculties Building, 2260D

Program number: 403.220.6241

Fax: 403.210.9637

Email address: <mailto:nursgrad@ucalgary.ca>

## Admissions

#### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <http://www.ucalgary.ca/future-students/graduate/explore-programs/nursing-certificate-course-based>.

## UCalgary

The deadline to request a change in specialization is normally one week prior to students starting the Graduate Certificate in Advanced Nursing Practice I or Graduate Certificate in Advanced Nursing Practice II.

In addition to the Faculty of Graduate Studies' [admission requirements](#), all applicants must meet the following requirements:

a) A four-year Nursing or Psychiatric Nursing baccalaureate degree preferred.

Other bachelor's degrees from recognized institutions will be considered on an individual basis.

Degrees and grades from foreign institutions are evaluated for their equivalency to those of the University of Calgary.

b) Evidence of active nursing registration in Alberta through the College and Association of Registered Nurses of Alberta (CARNA) or active nursing registration in their province or territory of employment. Registered Psychiatric Nurses are expected to provide proof of active registration with the College of Registered Psychiatric Nurses of Alberta (CRPNA) or equivalent.

c) A minimum GPA of 3.00 (on the University of Calgary four-point system). This is based on the last two years of post-secondary study consisting of a minimum of 60 units.

d) In order of priority, preference will be given to applicants who:

Hold an active nursing registration in the Province of Alberta;

Hold an active nursing registration in a Canadian province or territory of employment;

International students\*.

e) For applicants required to provide proof of proficiency in English, submit a minimum TOEFL score of 97 (Internet-based test); IELTS score of 7.0; PTE score of 68; or a CAEL overall score of 70 (no less than 70 on reading and writing sections). This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in writing courses.

**\*Note:** International students are eligible to apply for admission provided they meet the admission requirements and their local professional licensure requirements. However, they will not be eligible for a study permit as the program is delivered online and considered part-time.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

In addition to the Faculty of Graduate Studies' [requirements](#), the Faculty of Nursing requires, at minimum, successful completion of the following:

Each of the Graduate Certificates in Advanced Nursing Practice consist of 12 units of coursework. Course requirements are determined by the specialization.

#### Complete ANY of the following Course Sets:

- NURS GC Addiction Mental Health
  - OR NURS GC Contemporary Topics in Aging
  - OR NURS Innovations in Teaching and Learning
  - OR NURS GC Leadership for Health System Transformation
  - OR NURS GC Healthcare Innovation and Design
  - OR NURS GC Palliative and End of Life Care
  - OR NURS GC Oncology Nursing
  - OR NURS GC Rural and Remote Nursing

Students must choose different specializations in each of the two certificates (i.e., a student cannot repeat the specialization that they completed in the first certificate when they enrol in the second certificate). Students can complete a maximum of two certificates.

**Additional Comments:**

Each student is expected to complete the online Academic Scholarly Writing and Academic Integrity modules within the first two weeks of the program.

All courses in this program require students to attend instructor-led Connect Days, which are delivered online at scheduled dates and times (as listed in course outline). Students who do not attend Connect Days will normally be withdrawn from the associated course.

## Overview

### General Program Information

## Introduction

The University of Calgary offers an innovative Bachelor of Nursing degree to prepare students for the opportunities and challenges of a nursing career in a changing health-care system. Throughout the program, students are provided with a sound theoretical base and supervised practice experience in a variety of nursing settings. Three BN routes are available: a four-year route for high school students, a two and one-half year route for transfer students and a two-year route for degree holders.

Note: Students enrolled at the Calgary Campus, who wish to transfer to the UC-Qatar Campus **Bach of Nu**, Medicine Hat College **Bach of Nu** or other off-site locations, must apply for admission at the desired site. Admission will be based on the student's grade point average and the availability of seats.

## Other Bachelor of Nursing programs:

### Bachelor of Nursing Program at Medicine Hat College Site

The **Bach of Nu** is a partnership program offered entirely at the Medicine Hat College site, allowing students in the Medicine Hat area increased access to a baccalaureate program without having to relocate.

Note: Students enrolled at the Medicine Hat College Site, who wish to transfer to the Calgary Campus, must apply to the University of Calgary Bachelor of Nursing Direct Entry Route. Only applicants with extenuating circumstances will be considered. Requests will be reviewed by the Associate Dean Undergraduate Programs (or designate) on a competitive basis considering the student's cumulative grade point average and space available at the level/year that the student wishes to transfer into. Additional supporting documentation is required as outlined in Nursing Faculty Regulations **3.1 Attendance in a Prior Nursing Program**.

### Bachelor of Nursing Program at University of Calgary Qatar Campus

For more information see: [ucalgary.ca/faculties/nursingqatar](http://ucalgary.ca/faculties/nursingqatar). For program requirements see: **Bach of Nu**.

**Note: Applications to this program are currently suspended. No new admissions will be permitted.**

Students enrolled at the Qatar Campus, who wish to transfer to the Calgary Campus, must apply to the University of Calgary Bachelor of Nursing Degree Program. Admission will be based on case-by-case appraisal of student circumstance as well as the student's grade point average and the availability of seats. Due to the differences in courses and curriculum, transferability may be limited.

### Bachelor of Nursing Program - Rural Community

The Bachelor of Nursing Program Rural Community is a partnership program offered entirely remotely, allowing students residing in designated rural communities in Alberta increased access to a baccalaureate program without having to relocate.

Note: Students enrolled in the Bachelor of Nursing program in a rural community partnership who wish to transfer to the Calgary Campus, must apply through a change of program to the University of Calgary. Only applicants with extenuating circumstances will be considered. Bachelor of Nursing requests will be reviewed by the Associate Dean Undergraduate Programs (or designate) on a competitive basis considering the student's cumulative grade point average and space available at the level/year that the student wishes to transfer into. Additional supporting documentation is required as outlined in Nursing Faculty Regulations **3.1 Attendance in a Prior Nursing Program**.

### Bachelor of Nursing Program - Indigenous Community Entry Route for the Siksika Nation Pilot

The Bachelor of Nursing Program Indigenous Community Entry Route for the Siksika Nation is offered as a pilot program with

Siksika Nation and Old Sun College. Indigenous students can complete upgrading of the admission requirements at Old Sun College prior to entering year one of the Bachelor of Nursing Program. The program is offered in the community of Siksika Nation and surrounding areas using both online and in-person components, allowing students residing within 120 kms of Siksika Nation increased access to a baccalaureate program without having to relocate.

Note: Students enrolled in the Bachelor of Nursing Program Indigenous Community who wish to transfer to the Calgary Campus must apply through a change of program to the University of Calgary Bachelor of Nursing. Only applicants with extenuating circumstances will be considered. Requests will be reviewed by the Associate Dean Undergraduate Programs (or designate) on a competitive basis considering the student's cumulative grade point average and space available at the level/year that the student wishes to transfer into. Additional supporting documentation is required as outlined in Nursing Faculty Regulations [3.1 Attendance in a Prior Nursing Program](#).

## Post-Diploma Bachelor of Nursing for Registered Nurses (Qatar Campus Only)

For more information see: [ucalgary.ca/faculties/nursingqatar](https://ucalgary.ca/faculties/nursingqatar). For program requirements see: [Bach of NU](#).

## Admissions

### Program Admissions Information

For Faculty of Nursing admission information see [3.1 Admissions](#).

## Program Details

### Simple Requisites

#### Bachelor Of Nursing Program Routes

##### Type

Completion Requirement

##### Additional Comments:

Students are required to register according to the following schedule. Terms 1 and 2 (see Nursing Program of Study below) are for students admitted to the Direct Entry Route (from High School). Students admitted to the Transfer and Degree-Holder Routes are exempt from completing these Terms; therefore, they commence the program in Term 3.

*It is important to note that students will not be permitted to switch routes mid-program.*

#### Nursing Program Routes

	Direct Entry Students	Transfer Students - September Entry	Transfer Students - January Entry	Degree-Holders - January Entry
Fall	Term 1	Term 3		
Winter	Term 2	Term 4	Term 3	Term 3
Spring			Term 4	Term 4
Fall	Term 3	Term 5	Term 5	Term 5
Winter	Term 4	Term 6	Term 6	Term 6
Spring		Term 7		Term 7
Fall	Term 5	Term 8	Term 7	Term 8
Winter	Term 6		Term 8	
Spring				
Fall	Term 7			
Winter	Term 8			

Students in all three routes of the BN Program are required to complete the following program of study.

#### Bachelor of Nursing Program of Study

**Type**

Completion Requirement

**Terms 1 and 2**

Students admitted to the four-year program route must successfully complete all ten Term 1 and Term 2 courses as outlined under "Course Requirements" prior to commencement of Year 2 (Term 3), unless approved by the Associate Dean Undergraduate Programs (or delegate).

Terms 1 and 2 consist of the following required courses:

**Earn at least 30 credits from the following:**

- Kinesiology 259 and Kinesiology 260
- Academic Writing 303
- Junior Arts Option (Suggestions: Psychology 200, 203 or Sociology 201)
- Junior Statistics Option (Statistics 205 recommended)
- Philosophy Option (Philosophy 249, 259, 313 or 347 recommended)
- Junior Open Option (Science option recommended)
- Junior Open Option
- Junior Open Option
- Open Option

**Terms 3 and 4**

**Earn at least 30 credits from the following:**

- Bachelor of Nursing - Term 3
- Bachelor of Nursing - Term 4

**Terms 5 and 6**

**Earn at least 30 credits from the following:**

- Bachelor of Nursing - Term 5
- Bachelor of Nursing - Term 6

**Term 7**

**Earn at least 15 credits from the following:**

- Nursing 585 & Nursing 589
- The Science of Health - Senior Nursing Option
- Supporting Health - Senior Nursing Option

**Term 8**

**Earn at least 15 credits from the following:**

- NURS599 - Integrating Nursing Roles and Practices VI: Transition to Nursing Practice

**Additional Comments:**

**Additional Program Regulations**

**Type**

Completion Requirement

**Additional Comments:**

**Academic Progression Requirements**

Promotion from year to year is by recommendation of the Faculty of Nursing. For the purposes of promotion, Terms 1 and 2 are taken in Year 1; Terms 3 and 4 in Year 2; Terms 5 and 6 in Year 3, and Terms 7 and 8 in Year 4.

The minimum requirement is a grade point average of 2.00 in each of the first two years and 2.50 in each of the last two years. Refer to **3.4 Student Standing: Students Previously in Satisfactory Standing**.

## Duration of Degree Program

Except with special permission of the Associate Dean Undergraduate Programs (or delegate), the BN degree must be completed within seven calendar years from the date of initial registration in the program.

## Nurse Registration Examinations

In order to be considered eligible to write the National Council Licensure Examination (NCLEX), BN students are required to complete the fourth year program requirements with a minimum 2.50 grade point average.

## Faculty of Nursing Regulations

For other regulations related to the Faculty of Nursing, see: **3. Faculty of Nursing Regulations**.

## Overview

### General Program Information

Master of Nursing/Master of Business Administration (MN/MBA) is a combined program offered with the Haskayne School of Business.

**\*Program is suspended and is not currently accepting applications.**

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website.

For MN deadlines, see <http://www.ucalgary.ca/future-students/graduate/explore-programs/nursing-master-nursing-course-based>.

A separate application to the MBA program is required. For MBA deadlines, see <https://www.ucalgary.ca/future-students/graduate/explore-programs/management-master-business-administration-course-based>.

Applicants to the combined MN/MBA program must be admitted to the MN program, and make a separate application for admission to the MBA program. Students must meet the requirements of the MN and MBA programs. The respective Combined Program Committee will review each application. Normally, only a full-time student in the Master of Nursing program may take a combined program. Please consult with the Faculty of Nursing Graduate Programs Office for more information.

For MBA admission requirements, see **Master of**.

### MN Admission Requirements

In addition to the Faculty of Graduate Studies **admission** requirements, the Faculty of Nursing requires that an applicant must:

- Be a Registered Nurse or a Registered Psychiatric Nurse holding a baccalaureate degree, normally in nursing.
- Registered Nurses must be eligible for active nursing registration in Alberta (registrants in the program must provide proof of active CARN registration or equivalent each year); Registered Psychiatric Nurses are expected to provide proof of active registration with the College of Registered Psychiatric Nurses of Alberta (CRPNA) or equivalent each year.
- Have completed one undergraduate course (3 units) in statistics with a grade of "C" or better.
- Submit two references, one from someone capable of assessing the applicant's academic and research ability, normally an academic, and one from someone who can attest to the applicant's nursing practice and expertise.
- For applicants required to provide proof of proficiency in English, submit a minimum TOEFL score of 97 (Internet-based test);

## UCalgary

IELTS score of 7.0; PTE score of 68; or a CAEL overall score of 70 (no less than 70 on reading and writing sections). This requirement can also be met by completing the **Academic Communication Certificate** with a minimum grade of "A-" in writing courses.

f) Have an interview(s) with a faculty member, if requested by the Faculty.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

##### Completion Requirement

In addition to the Faculty of Graduate Studies' **requirements**, the Faculty of Nursing and Haskayne School of Business require the following:

Students admitted to the MN/MBA will focus on courses for the MN during the first year and on MBA courses in years two and three. Typically, the remaining courses required will be completed in year three. A total of 66.75 units is required.

Course requirements include:

a) MBA courses (51 units):

**Complete ALL of the following Courses:**

- ACCT601 - Introductory Financial Accounting  
**AND** ACCT603 - Management Accounting  
**AND** SGMA603 - Global Environment of Business  
**AND** BTMA601 - Business Technology Management  
**AND** ENTI601 - Entrepreneurial Thinking  
**AND** FNCE601 - Managerial Finance  
**AND** MGST611 - Managerial Economics  
**AND** MGST613 - Managerial Decision Modeling  
**AND** MGST615 - Strategic Business Analysis  
**AND** MKTG601 - Marketing Management  
**AND** OPMA601 - Operations Management  
**AND** OBHR601 - Organizational Behaviour  
**AND** OBHR621 - Advanced Leadership  
**AND** SGMA601 - Strategic Management I
- plus three elective courses (3 units each) in the student's area of interest.

b) MN courses (15 units):

**Complete ALL of the following Courses:**

- NURS611 - Theoretical Knowledge for Advanced Nursing Practice  
**AND** NURS630 - Quantitative Research and Statistics  
**AND** NURS632 - Writing Proposals for the Nursing Profession  
**AND** NURS660 - Cultivating Personal Leadership I  
**AND** NURS683 - Qualitative Designs And Analyses

#### Additional Comments:

Each student is expected to complete the online seminar Academic Scholarly Writing within the first two weeks of the program.

#### Additional Program Information

## Type

Completion Requirement

## Additional Comments:

### Credit for Undergraduate Courses

Under special circumstances, with the consent of the Faculty, students may take undergraduate courses, normally at the senior or 500-level, for the Master of Nursing degree.

### Supervisory Assignments

No supervisor will be assigned.

### Time Limit

Expected completion time for the Master of Nursing portion is one year. Maximum completion time is two years.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar. Scholarship application packages will be available on the Faculty of Nursing Website prior to each competition deadline. The application deadline for internal scholarships is February 1. Please note that the deadlines for external funding applications may not coincide with the February 1 deadline.

## Overview

### General Program Information

### Introduction

The Bachelor of Nursing program at Medicine Hat College is a four year partnership program offered entirely at the Medicine Hat College site, allowing students in the Medicine Hat area increased access to a baccalaureate program without having to relocate. This innovative Bachelor of Nursing degree program prepares students for the opportunities and challenges of a nursing career in a changing health-care system. Throughout the program, students are provided with a sound theoretical base and supervised practice experience in a variety of nursing settings.

Note: Students enrolled at the Medicine Hat College Site, who wish to transfer to the Calgary Campus, must apply to the University of Calgary Bachelor of Nursing Direct Entry Route. Only applicants with extenuating circumstances will be considered. Requests will be reviewed by the Associate Dean Undergraduate Programs (or designate) on a competitive basis considering the student's cumulative grade point average and space available at the level/year that the student wishes to transfer into. Additional supporting documentation is required as outlined in Nursing Faculty Regulations [3.1 Attendance in a Prior Nursing Program](#).

## Other Bachelor of Nursing programs:

### Bachelor of Nursing Program University of Calgary Campus

The University of Calgary offers an innovative Bachelor of Nursing degree to prepare students for the opportunities and challenges of a nursing career in a changing health-care system. Throughout the program, students are provided with a sound theoretical base and supervised practice experience in a variety of nursing settings. Three BN routes are available: a four-year route for high school students, a two and one-half year route for transfer students and a two-year route for degree holders.

**Note: Applications to this program are currently suspended. No new admissions will be permitted.**

Students enrolled at the Qatar Campus, who wish to transfer to the Calgary Campus, must apply to the University of Calgary Bachelor of Nursing Degree Program. Admission will be based on case-by-case appraisal of student circumstance as well as the student's grade point average and the availability of seats. Due to the differences in courses and curriculum, transferability may be limited.

## Bachelor of Nursing Program - Rural Community

The Bachelor of Nursing Program Rural Community is a partnership program offered entirely remotely, allowing students residing in designated rural communities in Alberta increased access to a baccalaureate program without having to relocate.

Note: Students enrolled in the Bachelor of Nursing program in a rural community partnership who wish to transfer to the Calgary Campus, must apply through a change of program to the University of Calgary. Only applicants with extenuating circumstances will be considered. Bachelor of Nursing requests will be reviewed by the Associate Dean Undergraduate Programs (or designate) on a competitive basis considering the student's cumulative grade point average and space available at the level/year that the student wishes to transfer into. Additional supporting documentation is required as outlined in Nursing Faculty Regulations [3.1 Attendance in a Prior Nursing Program](#).

## Bachelor of Nursing Program - Indigenous Community Entry Route for the Siksika Nation Pilot

The Bachelor of Nursing Program Indigenous Community Entry Route for the Siksika Nation is offered as a pilot program with Siksika Nation and Old Sun College. Indigenous students can complete upgrading of the admission requirements at Old Sun College prior to entering year one of the Bachelor of Nursing Program. The program is offered in the community of Siksika Nation and surrounding areas using both online and in-person components, allowing students residing within 120 kms of Siksika Nation increased access to a baccalaureate program without having to relocate.

Note: Students enrolled in the Bachelor of Nursing Program Indigenous Community who wish to transfer to the Calgary Campus must apply through a change of program to the University of Calgary Bachelor of Nursing. Only applicants with extenuating circumstances will be considered. Requests will be reviewed by the Associate Dean Undergraduate Programs (or designate) on a competitive basis considering the student's cumulative grade point average and space available at the level/year that the student wishes to transfer into. Additional supporting documentation is required as outlined in Nursing Faculty Regulations [3.1 Attendance in a Prior Nursing Program](#).

## Post-Diploma Bachelor of Nursing for Registered Nurses (Qatar Campus Only)

For more information see: [ucalgary.ca/faculties/nursingqatar](https://ucalgary.ca/faculties/nursingqatar). For program requirements see: [Bach of NU](#).

## Admissions

### Program Admissions Information

For Faculty of Nursing admission information see [3.1 Admissions](#).

Students will apply to enter the program in year one at Medicine Hat College. Upon successful completion of their first two years of the program, students apply to enter the University of Calgary as third year students. Admission is determined based on the student's successful progression through the Medicine Hat College program with a minimum GPA of 2.00. The remaining courses will be completed as University of Calgary students at Medicine Hat College.

##### Type

Completion Requirement

\*First Year - Terms 1 and 2

\*First and Second Years of the program are Medicine Hat College courses

**Complete ALL of the following Courses:**

Biology 275

English 252

Statistics (Statistics 333 recommended)

Biology 277

Junior Arts Option (Suggestions: Psychology 205 or **Sociology 201**)

Philosophy Option (**Philosophy 313** recommended)

Junior Open Option (Cellular, Molecular and Microbial Biology 250 recommended)

Junior Open Option (Interdisciplinary Studies 100 recommended)

Junior Open Option

Junior Open Option

\*Second Year - Terms 3 and 4

\* First and Second Years of the program are Medicine Hat College courses

**Earn at least 30 credits from the following:**

- Bachelor of Nursing - Term 3
- Bachelor of Nursing - Term 4

Terms 5 and 6

**Earn at least 30 credits from the following:**

- Bachelor of Nursing - Term 5
- Bachelor of Nursing - Term 6

Term 7

**Earn at least 15 credits from the following:**

- Nursing 585 & Nursing 589
- Supporting Health - Senior Nursing Option
- The Science of Health - Senior Nursing Option

Term 8

**Earn at least 15 credits from the following:**

- NURS599 - Integrating Nursing Roles and Practices VI: Transition to Nursing Practice

### Academic Progression Requirements

Promotion from third year to fourth year is by recommendation of the University of Calgary Faculty of Nursing. For purposes of promotion, the academic year is considered to be from September 1 of one year to August 31 of the next. Hence, Spring/Summer grades are calculated with the previous Fall/Winter Term grades. The minimum requirement is a grade point

average of 2.50 in each of the third and fourth years.

## Duration of Degree Program

Except with special permission of the Associate Dean Undergraduate Programs (or delegate), the BN degree must be completed within seven calendar years from the date of initial registration in the program.

## Nurse Registration Examinations

In order to be considered eligible to write the nurse registration examinations, BN students at the Medicine Hat College Site are required to complete the fourth year program requirements with a minimum 2.50 grade point average.

### Simple Requisites

#### Nursing Program of Study

##### Type

##### Completion Requirement

##### Year 1 - Required Courses

The BScN program is highly structured and designed for students to complete the program in a compressed format. Students attend classes in fall, winter and spring terms.

##### Earn at least 18 credits from the following:

- Nursing 201, 202, 203, 204; Statistics 205; Academic Writing 303

##### Year 1 - Required Options

**Earn at least 15 credits from the following:**

- Junior Arts option
- Junior Science option
- Junior Philosophy
- 6 units Junior Open Options

Year 2 Term 3 - Required Courses

**Earn at least 15 credits from the following:**

- Nursing 305, 310, 320, 321, 350, 351

Year 2 Term 4 - Required Courses

**Earn at least 15 credits from the following:**

- Nursing 330, 331, 332, 352

Year 2 Term 5 - Required Courses

**Earn at least 12 credits from the following:**

- Nursing 401, 430, 450

Year 3 Term 6 and 7 - Required Courses

**Earn at least 30 credits from the following:**

- Nursing 410, 420, 421, 501, 520, 521, 530, 531, 550, 551, 552, 553

Year 3 Term 8 - Required Courses

**Earn at least 15 credits from the following:**

- Nursing 510, 560

Spring or Fall (half of the student cohort will complete term 8 in spring and half in the fall extending the program to 3.5 years)

**Additional Comments:**

#### **Additional Program Regulations**

Except with special permission of the Associate Dean Undergraduate Programs (or delegate), the BScN degree must be completed within seven calendar years from the date of initial registration in the program.

#### **Nurse Registration Examinations**

In order to be considered eligible to write the National Council Licensure Examination (NCLEX) students must successfully complete the Nursing program and have their confirmation or program completion provided to CRNA or the relevant regulatory body.

## **Overview**

# UCalgary

## General Program Information

The Doctor of Nursing program is aimed at developing and preparing nurse leaders and innovators with significant leadership experience for senior roles in healthcare and related organizations.

The Doctor of Nursing program is delivered online allowing students to pursue this degree while continuing to work.

---

Location: Professional Faculties Building, 2260D

Program number: 403.220.6241

Fax: 403.210.9637

Email address: <mailto:nursgrad@ucalgary.ca>

Web page URL: <http://nursing.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <https://grad.ucalgary.ca/future-students/explore-programs/doctor-nursing>.

---

In addition to the Faculty of Graduate Studies [admission](#) requirements, the Faculty of Nursing requires:

- a) Applicants to have at least three years of healthcare or related organization experience in a mid-level to senior leadership role.
- b) A Master's Degree in Nursing, Psychiatric Nursing or related fields, or an equivalent from a recognized institution. A grade point average equivalent to 3.00 or better (on the University of Calgary 4.0 system) is required. See [Qualifications](#) for additional information.
- c) For applicants required to provide proof of proficiency in English, submit a minimum TOEFL score of 97 (Internet-based test); IELTS score of 7.0; PTE score of 68; or a CAEL overall score of 70 (no less than 70 on reading and writing sections). This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in writing courses.
- d) A current resume/curriculum vitae with examples of the applicant's written scholarly work such as publications, research reports, course assignments, etc.
- e) Two reference letters, one academic and one professional.
- f) A two-page personal statement outlining objectives, intent and commitment to the DN program.
- g) An interview with the Graduate Admissions and Review Committee.
- h) A letter of commitment from the identified supervisor indicating willingness to provide supervision throughout the program of study.
- i) Applicants should have successfully completed graduate-level courses in quantitative and qualitative research methods and statistics.

See website for additional information.

## Program Details

### Simple Requisites

Program/Course Requirements
Type
Completion Requirement
In addition to the Faculty of Graduate Studies' <a href="#">requirements</a> , the Faculty of Nursing requires the following:

21 units of courses:

**Complete ALL of the following Courses:**

- NURS741 - Leading Innovation & Transformation  
**AND** NURS742 - Technology & Healthcare Information  
**AND** NURS743 - The Business of Healthcare  
**AND** NURS744 - Health Policy & Advocacy  
**AND** NURS745 - Innovation, Improvement & Implementation Science  
**AND** NURS746 - Seminar I Project Development  
**AND** NURS747 - Seminar II Knowledge Mobilization

**Additional Comments:**

Each student is expected to complete the online seminar Academic Scholarly Writing within the first two weeks of the program.

**Additional Program Information**

**Type**

Completion Requirement

**Additional Comments:**

**Advanced Credit**

Applicants must include requests for advanced credit, accompanied by a rationale, when they apply for admission. For courses taken outside the University of Calgary, applicants must provide official transcripts and a copy of the course outline detailing the course description, objectives, assignments, readings, etc.

**Flexible Grade Option (CG Grade)**

The Faculty of Nursing will not permit the Flexible Grade Option (CG Grade) for any course offered by the Faculty.

Students may choose the CG grade in a course taken extra-to-load.

The use of the CG grade will not affect students' ability for internal awards.

**Credit for Undergraduate Courses**

Credit will not be given for undergraduate-level courses.

**Time Limit**

The expected completion time is three years; maximum completion time is six years.

**Supervisory Assignments and Required Examinations**

**Type**

Completion Requirement

**Additional Comments:**

**Supervisory Assignments**

Doctor of Nursing students will be assigned a Faculty of Nursing member to commit to their supervision following admission to the program. In addition, a workplace or related mentor will be identified by the student and/or faculty supervisor/supervisory committee once the student has entered the DN program. This individual will normally hold a senior position within an organization relevant to the student's planned work-integrated research project. This individual, a knowledge expert, will be considered an Advisory Member of the student's supervisory committee, as outlined by the Faculty of Graduate Studies. The Advisory Member will attend committee meetings and examinations but will serve in a non-voting capacity.

## Candidacy

The Doctoral candidacy examination has a written and an oral component.

The student will produce a manuscript that may be submitted for publication. The manuscript will be focused on exploring and critically evaluating literature related to the student's research project. Students are expected to defend their work in an oral public presentation and a private oral examination with the supervisory committee.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students in line with the University's Equity, Diversity, and Inclusivity initiatives. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

## Overview

### General Program Information

The Master of Nursing (MN), course-based is offered online, via a Laddered Certificate Pathway

The course-based Master of Nursing is a continuous program with no scheduled break. Students who do not enrol in courses continuously will be withdrawn from the program for failure to register unless they are on an approved leave of absence.

Location: Professional Faculties Building, 2260D

Program number: 403.220.6241

Fax: 403.210.9637

Email address: <mailto:nursgrad@ucalgary.ca>

## Introduction

The University of Calgary in Qatar (UCQ) is a branch campus of the University of Calgary, established in 2006. UCQ exclusively offers programs that prepare nurses and offers BN and MN programs. UCQ's vision is to be the model for excellence in international nursing education, practice, and scholarship and its mission is to enrich the health and wellness in Qatar by educating and developing world-class nurses. The Canadian Association of Schools of Nursing accredits the undergraduate nursing programs at UCQ. UCQ nursing graduates receive the same degree credentials as students at the University of Calgary main campus. The BN programs support nursing graduates to achieve excellence in entry-level competences as defined by the College and Association of Registered Nurses of Alberta's (CARNA) (2019) and to demonstrate professional, legal, and ethical decision-making as outlined in the Canadian Nurses Association (2017) and the International Council of Nurses (2012) Codes of Ethics. Exemplars applied throughout the curricula are tailored and relevant to the Qatar context.

## Professional Conduct

The study of nursing places students in a position of special trust with persons/patients, families, with nurses, and with other health-care professionals. The Qatar Faculty of Nursing recognizes that nursing education occurs both inside and outside the classroom and has the responsibility to ensure that its graduates are competent and ethical. Students are expected to comply with all University of Calgary policies and regulations. Although nursing students in program are not regulated members of QCHP, as part of their formation as professional nurses, they are also expected to be familiar with and to meet professional and ethical competences and standards as outlined by:

CARNA (2019). Entry-to-practice competencies for the practice of registered nurses. [nurses.ab.ca/docs/default-source/document-library/standards/entry-to-practicecompetencies-for-the-registered-nurses-profession.pdf?sfvrsn=15c1005a\\_12](https://nurses.ab.ca/docs/default-source/document-library/standards/entry-to-practicecompetencies-for-the-registered-nurses-profession.pdf?sfvrsn=15c1005a_12)

QHCP (2014). Nursing Regulations in the State of Qatar. <https://lc.ucalgary.edu.qa/c.php?g=825172&p=5896718>

Canadian Nurses Association (2017). Code of Ethics for Registered Nurses. [nurses.ab.ca/docs/default-source/document-library/standards/entry-to-practicecompetencies-for-the-registered-nurses-profession.pdf?sfvrsn=15c1005a\\_12](https://nurses.ab.ca/docs/default-source/document-library/standards/entry-to-practicecompetencies-for-the-registered-nurses-profession.pdf?sfvrsn=15c1005a_12)

## Career Opportunities

To practice as a Registered Generalist Nurse in Qatar, one must be licensed through the Qatar Council for Health Professionals (QCHP). UCQ nursing students are prepared to write a national licensing exam as defined by QCHP. Upon graduation, UCQ nursing graduates are prepared to work as practitioners across diverse settings, and with persons, families, and communities experiencing varying degrees of wellness, health, and illness. UCQ nursing graduates have strong foundations skills for Interprofessional practice, leadership, and research.

## Student Affairs

### Advising Services

Student advisors are available in Student and Enrolment Services. Contact information, including office hours, can be found at: [ucalgary.edu.qa/current-students/student-services](http://ucalgary.edu.qa/current-students/student-services). Students are encouraged to become familiar with the office and its services.

### Nursing Student Society in Qatar (NSSQ)

The NSSQ is a society consisting of elected representatives from the Nursing student body. NSSQ serves students by providing faculty-student liaisons, information on current nursing issues, social functions, and a support network for nursing students.

## Resources

The Faculty houses a Clinical Simulation and Standardized Patient Centre and several laboratories. UCQ has partnered with several health services organizations through the country that provide opportunity for students to apply theory in practice settings. Health service organizations include Hamad Medical Corporation (HMC), Primary Health Care Cooperation (PHCC), Sidra, and various private health-care organizations. Within these organizations, nursing students are supervised and preceptored to work with various populations (e.g., pediatrics, adults, elderly), across the health-illness continuum (e.g., acute care, life-threatening illness, palliative care, chronic disease conditions), and in diverse settings and units (e.g., community primary health-care centres, obstetrical units, medical-surgical units).

UCQ hosts a Learning Commons that provides resources and services that enable the UCQ community to discover, apply, evaluate, and communicate information for learning, teaching, and professional practice. Students have access to varied academic supports, including a learning coach, tutoring, and assistance with math, science, and academic and information literacy skills. There are female and male gyms, an outdoor recreation space, a cafeteria, prayer rooms, and student lounges.

## Admissions

### Program Admissions Information

## Deadlines

Applications are accepted from October 15 to April 1 for September entry and November 1 for Winter entry.

## Admission Requirements

### Bachelor of Nursing (Regular Track)

For direct entry into the Bachelor of Nursing (Regular Track) program, prospective students must present:

- The following Grade 12 level subjects with an overall average of 65 per cent or higher (all subjects must be approved as equivalent to Alberta Grade 12):
  - English
  - Mathematics
  - Biology
  - Chemistry
  - One Option Course
  - English Language Proficiency
- Qatari Citizenship, a Qatar Resident's Permit or the ability to seek Permanent Residency through a family member (UCQ cannot issue Student Visas)

**Note:** Students who meet all admission requirements will be admitted directly to the Bachelor of Nursing program. Students who lack the appropriate high school courses and grades and/or require the English Language Proficiency requirement may be admitted to the Nursing Foundation Program (see admission requirements below).

## English Language Proficiency

The State of Qatar has designated English as the language of health-care delivery. Nursing education and the Nursing profession require a high level of spoken and written communication skill in order to ensure patient safety. Students who, after admission to the Diploma in Nursing or Bachelor of Nursing (Regular or Post-Diploma), show an inadequate command of spoken or written

English must improve their proficiency to the Faculty's satisfaction in collaboration with the Nursing Foundation Program. Students may be asked to withdraw from the program if their ability in English interferes with their ability to provide patient care.

For admission to the Bachelor of Nursing or the Diploma in Nursing program, students must present a minimum score of:

- 80 on Test of English as a Foreign Language (TOEFL) Internet-based test (213 on the computer-based TOEFL or 550 on the paper-based TOEFL),
- or a minimum score of 6.0 on the International English Language Testing System (IELTS) test,
- or minimum score of 60 on the Canadian Academic English Language Assessment (CAEL),
- or a minimum score of 77 on the Michigan English Language Assessment Battery (MELAB) examination.

For admission to the Nursing Foundation Program, students must present a minimum score of:

- 40 on Test of English as a Foreign Language (TOEFL) Internet-based test (120 on the computer-based TOEFL or 433 on the paper-based TOEFL),
- a minimum score of 4.0 on the International English Language Testing System (IELTS) test,
- an acceptable score on the UCQ placement test.

### Immunization Requirements

- All nursing students are required to complete a series of immunization and diagnostic tests as outlined on the Student Immunization Form. Documented proof of completion must be provided to the University of Calgary in Qatar prior to commencement of the program.
- Throughout the BN program, students are required to ensure that immunizations are current and must provide proof of updates to the University of Calgary in Qatar. Failure to do so will result in students being removed from clinical courses until such time as adequate proof has been provided. These requirements may change during the program as determined by UCQ in collaboration with Alberta Health Services and the Qatar Ministry of Public Health. Students will be informed if there are changes.

### Cardio-Pulmonary Resuscitation Certification

- All BN students will be required to submit proof of current Basic Life Support (BLS) for Health Care Providers (Level C) prior to the commencement of clinical practice courses. Evidence of such certification is to be provided to the practice instructor.
- Students will be responsible for obtaining course training and certification.

## Program Details

### Simple Requisites

#### Faculty Requirements

##### Type

Completion Requirement

#### Graduation Requirements

### Academic Progression Requirements

Promotion from year to year is by recommendation of the Qatar Faculty. For purposes of promotion, the academic year is considered to be from September 1 of one year to August 31 of the next. Hence, Spring Intersession grades are calculated with the previous Fall/Winter Term grades. The minimum requirement is a grade point average of 2.00 in each of the first two years and 2.50 in each of the last two years.

### Duration of Degree Program

Except with special permission of the Dean, the BN degree must be completed within seven calendar years from the date of initial registration in the program.

### Transfer Credit

The 120-unit (four-year or 12 terms of study) curriculum outlined below is intended primarily for high school students.

Transfer students who have prior post-secondary credit in non-nursing support courses may be eligible to complete the BN in a shorter timeframe. Details will be made available to students as their credit is evaluated at the time of admission, and will be dependent on practice and faculty resources and student demand.

Students transferring from other institutions or faculties within the University of Calgary in Qatar are considered on an individual basis. However, students will be required to complete the equivalent of not fewer than 30 units, at least 18 units of which must be nursing courses taken as a BN student.

For other regulations related to the Qatar Faculty, see: [3. Qatar Faculty Regulations](#).

## Introduction

The University of Calgary in Qatar (UCQ) is a branch campus of the University of Calgary, established in 2006. UCQ exclusively offers programs that prepare nurses and offers BN and MN programs. UCQ's vision is to be the model for excellence in international nursing education, practice, and scholarship and its mission is to enrich the health and wellness in Qatar by educating and developing world-class nurses. The Canadian Association of Schools of Nursing accredits the undergraduate nursing programs at UCQ. UCQ nursing graduates receive the same degree credentials as students at the University of Calgary main campus. The BN programs support nursing graduates to achieve excellence in entry-level competences as defined by the College and Association of Registered Nurses of Alberta's (CARNA) (2019) and to demonstrate professional, legal, and ethical decision-making as outlined in the Canadian Nurses Association (2017) and the International Council of Nurses (2012) Codes of Ethics. Exemplars applied throughout the curricula are tailored and relevant to the Qatar context.

## Professional Conduct

The study of nursing places students in a position of special trust with persons/patients, families, with nurses, and with other health-care professionals. The Qatar Faculty of Nursing recognizes that nursing education occurs both inside and outside the classroom and has the responsibility to ensure that its graduates are competent and ethical. Students are expected to comply with all University of Calgary policies and regulations. Although nursing students in program are not regulated members of QCHP, as part of their formation as professional nurses, they are also expected to be familiar with and to meet professional and ethical competences and standards as outlined by:

CARNA (2019). Entry-to-practice competencies for the practice of registered nurses. [nurses.ab.ca/docs/default-source/document-library/standards/entry-to-practicecompetencies-for-the-registered-nurses-profession.pdf?sfvrsn=15c1005a\\_12](https://nurses.ab.ca/docs/default-source/document-library/standards/entry-to-practicecompetencies-for-the-registered-nurses-profession.pdf?sfvrsn=15c1005a_12)

QHCP (2014). Nursing Regulations in the State of Qatar. <https://lc.ucalgary.edu.qa/c.php?g=825172&p=5896718>

Canadian Nurses Association (2017). Code of Ethics for Registered Nurses. ## Career Opportunities

To practice as a Registered Generalist Nurse in Qatar, one must be licensed through the Qatar Council for Health Professionals (QCHP). UCQ nursing students are prepared to write a national licensing exam as defined by QCHP. Upon graduation, UCQ nursing graduates are prepared to work as practitioners across diverse settings, and with persons, families, and communities experiencing varying degrees of wellness, health, and illness. UCQ nursing graduates have strong foundations skills for Interprofessional practice, leadership, and research.

## Student Affairs

### Advising Services

Student advisors are available in Student and Enrolment Services. Contact information, including office hours, can be found at: [ucalgary.edu.qa/current-students/student-services](http://ucalgary.edu.qa/current-students/student-services). Students are encouraged to become familiar with the office and its services.

### Nursing Student Society in Qatar (NSSQ)

The NSSQ is a society consisting of elected representatives from the Nursing student body. NSSQ serves students by providing faculty-student liaisons, information on current nursing issues, social functions, and a support network for nursing students.

## Resources

The Faculty houses a Clinical Simulation and Standardized Patient Centre and several laboratories. UCQ has partnered with several health services organizations through the country that provide opportunity for students to apply theory in practice

settings. Health service organizations include Hamad Medical Corporation (HMC), Primary Health Care Cooperation (PHCC), Sidra, and various private health-care organizations. Within these organizations, nursing students are supervised and preceptored to work with various populations (e.g., pediatrics, adults, elderly), across the health-illness continuum (e.g., acute care, life-threatening illness, palliative care, chronic disease conditions), and in diverse settings and units (e.g., community primary health-care centres, obstetrical units, medical-surgical units).

UCQ hosts a Learning Commons that provides resources and services that enable the UCQ community to discover, apply, evaluate, and communicate information for learning, teaching, and professional practice. Students have access to varied academic supports, including a learning coach, tutoring, and assistance with math, science, and academic and information literacy skills. There are female and male gyms, an outdoor recreation space, a cafeteria, prayer rooms, and student lounges.

[nurses.ab.ca/docs/default-source/document-library/standards/entry-to-practicecompetencies-for-the-registered-nurses-profession.pdf?sfvrsn=15c1005a\\_12](https://nurses.ab.ca/docs/default-source/document-library/standards/entry-to-practicecompetencies-for-the-registered-nurses-profession.pdf?sfvrsn=15c1005a_12)

## Career Opportunities

To practice as a Registered Generalist Nurse in Qatar, one must be licensed through the Qatar Council for Health Professionals (QCHP). UCQ nursing students are prepared to write a national licensing exam as defined by QCHP. Upon graduation, UCQ nursing graduates are prepared to work as practitioners across diverse settings, and with persons, families, and communities experiencing varying degrees of wellness, health, and illness. UCQ nursing graduates have strong foundations skills for Interprofessional practice, leadership, and research.

## Student Affairs

# UCalgary

## Advising Services

Student advisors are available in Student and Enrolment Services. Contact information, including office hours, can be found at: [ucalgary.edu.qa/current-students/student-services](http://ucalgary.edu.qa/current-students/student-services). Students are encouraged to become familiar with the office and its services.

## Nursing Student Society in Qatar (NSSQ)

The NSSQ is a society consisting of elected representatives from the Nursing student body. NSSQ serves students by providing faculty-student liaisons, information on current nursing issues, social functions, and a support network for nursing students.

## Resources

The Faculty houses a Clinical Simulation and Standardized Patient Centre and several laboratories. UCQ has partnered with several health services organizations through the country that provide opportunity for students to apply theory in practice settings. Health service organizations include Hamad Medical Corporation (HMC), Primary Health Care Cooperation (PHCC), Sidra, and various private health-care organizations. Within these organizations, nursing students are supervised and preceptored to work with various populations (e.g., pediatrics, adults, elderly), across the health-illness continuum (e.g., acute care, life-threatening illness, palliative care, chronic disease conditions), and in diverse settings and units (e.g., community primary health-care centres, obstetrical units, medical-surgical units).

UCQ hosts a Learning Commons that provides resources and services that enable the UCQ community to discover, apply, evaluate, and communicate information for learning, teaching, and professional practice. Students have access to varied academic supports, including a learning coach, tutoring, and assistance with math, science, and academic and information literacy skills. There are female and male gyms, an outdoor recreation space, a cafeteria, prayer rooms, and student lounges.

## Admissions

### Program Admissions Information

## Deadlines

Applications are accepted from October 15 to April 1 for September entry and November 1 for Winter entry.

## Admission Requirements

### Bachelor of Nursing (Post-Diploma)

For direct entry into the Bachelor of Nursing (Post-Diploma) program prospective students must present the following:

- A Diploma from the High Institute of Nursing, a Nursing Diploma from Canada, or the equivalent
- A grade point average 2.00 or greater (on a four-point scale)
- Completion of the following Grade 12 level subjects (must be approved as equivalent to Alberta Grade 12):
- English
- Mathematics
- Biology
- Chemistry
- One Option Course
- English Language Proficiency
- Qatari Citizenship, a Qatar Resident's Permit or the ability to seek Permanent Residency through a family member (UCQ cannot issue Student Visas)

Students who meet all admission requirements will be admitted directly to the Bachelor of Nursing program. Students who only lack the English Language Proficiency requirements may be admitted to the Nursing Foundation Program (see admission requirements below).

## English Language Proficiency

The State of Qatar has designated English as the language of health-care delivery. Nursing education and the Nursing profession require a high level of spoken and written communication skill in order to ensure patient safety. Students who, after admission to the Diploma in Nursing or Bachelor of Nursing (Regular or Post-Diploma), show an inadequate command of spoken or written

English must improve their proficiency to the Faculty's satisfaction in collaboration with the Nursing Foundation Program. Students may be asked to withdraw from the program if their ability in English interferes with their ability to provide patient care.

For admission to the Bachelor of Nursing or the Diploma in Nursing program, students must present a minimum score of:

- 80 on Test of English as a Foreign Language (TOEFL) Internet-based test (213 on the computer-based TOEFL or 550 on the paper-based TOEFL),
- or a minimum score of 6.0 on the International English Language Testing System (IELTS) test,
- or minimum score of 60 on the Canadian Academic English Language Assessment (CAEL),
- or a minimum score of 77 on the Michigan English Language Assessment Battery (MELAB) examination.

For admission to the Nursing Foundation Program, students must present a minimum score of:

- 40 on Test of English as a Foreign Language (TOEFL) Internet-based test (120 on the computer-based TOEFL or 433 on the paper-based TOEFL),
- a minimum score of 4.0 on the International English Language Testing System (IELTS) test,
- an acceptable score on the UCQ placement test.

### Immunization Requirements

- All nursing students are required to complete a series of immunization and diagnostic tests as outlined on the Student Immunization Form. Documented proof of completion must be provided to the University of Calgary in Qatar prior to commencement of the program.
- Throughout the BN program, students are required to ensure that immunizations are current and must provide proof of updates to the University of Calgary in Qatar. Failure to do so will result in students being removed from clinical courses until such time as adequate proof has been provided. These requirements may change during the program as determined by UCQ in collaboration with Alberta Health Services and the Qatar Ministry of Public Health. Students will be informed if there are changes.

### Cardio-Pulmonary Resuscitation Certification

- All BN students will be required to submit proof of current Basic Life Support (BLS) for Health Care Providers (Level C) prior to the commencement of clinical practice courses. Evidence of such certification is to be provided to the practice instructor.
- Students will be responsible for obtaining course training and certification.

## Overview

### General Program Information

Courses offered by the Department bear the labels Mathematics, Statistics and Actuarial Science.

All students intending to pursue a Major or Honours program in Mathematics or Actuarial Science should consult the Associate Head - Undergraduate. The Associate Head - Undergraduate can provide advice on such important matters as specialized programs available within the field, recommended course sequences, possible combinations of Major and Minor fields and recommended undergraduate study leading to graduate study.

Faculty of Science Graduation Requirements

For Major Degree requirements, or if completing this program as a Second Degree, refer to:

**Complete ANY of the following Requirement Sets:**

- Faculty of Science - Major Degree Requirements
- Faculty of Science - Second Degree Programs

For other regulations related to the Faculty of Science, see: [3. Faculty of Science Regulations](#).

#### Additional Comments:

#### Department Regulations

##### Type

Completion Requirement

##### Additional Comments:

##### Department vs. Faculty Regulations

Programs in the Department of Mathematics and Statistics are governed by a combination of general Faculty of Science regulations and the additional program specific regulations listed below.

It is essential for students to be familiar with both sets of regulations. It is helpful to read [Faculty Regulations](#) first.

Students should consult Academic Requirements in their [Student Centre](#) periodically to ensure that requirements are being met. Also students are strongly urged to consult the Department and the [Undergraduate Science Centre \(USC\)](#) at all stages of their program.

#### Courses Constituting the Field of Actuarial Sciences

##### Type

Completion Requirement

#### Courses Constituting the Field of Actuarial Sciences

Students must successfully complete a minimum of 57 units to a maximum of 66 units in Courses Constituting the Field of Actuarial Science while fulfilling the Program Requirements.

**Earn at least 57 credits from the following:**

- Courses Constituting the Field of Actuarial Science

Courses in Risk Management and Insurance are not included in the field, but are relevant and are recommended electives for Actuarial Science students. Interested students should consult the Department or the Chair in Risk Management and Insurance in the Haskayne School of Business.

Actuarial Science courses, along with Statistics 407, 421, 429 and 505, cover significant portions of the course of study for the early Casualty Actuarial Society Examinations and Society of Actuaries Examinations/Courses. Students are advised to select additional courses in Economics, Finance, Risk Management and Insurance, and Statistics as electives in order to complete the course of study for these professional examinations, and also to prepare for the advanced Casualty Actuarial Society Examinations/Society of Actuaries Examinations/Courses. Students should speak with a Departmental advisor for guidance.

Students who wish to pursue possible credit towards the Society of Actuaries VEE Accounting and Finance requirements are recommended to take Accounting 217 and Finance 317, respectively. Such students must be in good standing and in the third or fourth year of the Actuarial Science program. Certain other prerequisites for these courses may be waived, but Economics 201 and 203 are required for Finance 317. Students should contact an advisor in the Haskayne School of Business for registration approval. (Note, although sufficiently high grades in Accounting 217 and Finance 317 should satisfy the Society of Actuaries' requirements, ultimately the Society of Actuaries will make this determination.

#### Additional Comments:

#### Program Requirements

##### Type

Completion Requirement

#### Required Courses - Major Program

**Earn at least 57 credits from the following:**

- 3 units - Mathematics 211 or 213
- 3 units - Mathematics 249 or 265 or 275
- 3 units - Mathematics 267 or 277
- 3 units - Mathematics 271 or 273
- 6 units - Statistics 321 and 323
- 3 units - Mathematics 367
- 3 units - Computer Science 217 or 231 or Data Science 211
- 12 units - Actuarial Science 325, 327, 427 and 527
- 21 units - Selected from: Courses labelled Actuarial Science or Statistics 407, 429, 505, 533, 543

#### Required Options - Major Program

**Earn at least 63 credits from the following:**

- 3 units from the Field of Actuarial Science at the 300 level or higher
- 18 units - Breadth Requirement: Options from faculties other than the Faculty of Science, excluding courses in Table I. Of these, at least 6 units must be from the Faculty of Arts. Science 311 may be counted among the courses from other faculties.
- 33 units - Non-Major Field Requirement: Options outside of the Field of Actuarial Science
- 9 units - Options

#### Additional Comments:

## Program Sequence

### Type

Completion Requirement

### Additional Comments:

There is a **Recommended Course Sequence** for this program. This sequence describes both the recommended order in which courses should be taken and the recommended course(s) in instances where multiple courses may fulfill a degree requirement. All possible courses that may fulfill degree requirements are found in the Required Courses listed above.

Taking courses in the order of the **Recommended Course Sequence** will ensure students can complete their program in a timely fashion. The time to complete a program may be lengthened if students choose to complete their requirements in an alternate order.

**Additional Comments:**

## Overview

### General Program Information

The University offers an interdisciplinary specialization in Biological Anthropology to students registered in an existing graduate program. The student will receive the degree offered by the home program:

- Doctor of Philosophy (PhD)
- Master of Science (MSc), thesis-based
- Master of Arts (MA), thesis-based

Given the limited resources, the specialization may, in any year, admit fewer applicants than those who are qualified to undertake graduate studies.

Location: Earth Sciences 852

Program number: 403.220.2665

Fax: 403.282.9562

Email address: <mailto:wwilson@ucalgary.ca>

Web page URL: <https://arts.ucalgary.ca/anthropology-archaeology/future-students/graduate/programs/biological-anthropology>

## Admissions

### Program Admissions Information

The deadlines for the submission of complete applications is January 15 for September admission and funding.

In addition to Faculty of Graduate Studies **admission** requirements, all applicants must meet the minimum standards of the home program. Admission to the specialization requires:

- a) A Bachelor of Arts or Bachelor of Science degree (and Master of Arts degree for admission to the PhD program) in Anthropology, Archaeology, Biology, Zoology, Ecology, or Health Sciences with a GPA of at least 3.30 on a four-point scale in the last two years of program or over the last 60 units.
- b) An example of the applicant's written work: a term paper, research paper, Master of Arts, or honours thesis that the applicant considers representative of their best work. Published work authored by the applicant is also acceptable provided the applicant is the sole or senior author.
- c) A concise statement setting forth the applicant's academic interests and reasons for wishing to pursue graduate work in the specialization. The area of thesis research should also be specified.

d) An up-to-date curriculum vitae.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies ([see regulations](#)) and the home program requirements, the Specialization requires:

### Master of Arts / Master of Science

a) Fifteen units, which shall include:

- [ARKY617 Theory & its Appl in Biol Anth](#)
- [ANTH603 Thesis Development](#)
- Any two of the following: [MDSC755 Directed Study](#), [ARKY613 AnalysisOfHumanSkeletalRemain](#), [ANTH635 Primatological Theory](#), [ANTH605 Prof Skills ForAnthropologists](#), or [ANTH613 IssuesMethodology&Primatology](#)

b) One optional course relevant to the proposed research topic.

c) All students are expected to have proficiency in statistics. The supervisor and two other faculty members of the specialization, in concert with the applicant, will determine if additional course work is needed in statistics, depending upon the applicant's background and proposed research area.

d) A season of field work offering appropriate experience for the proposed research (for example, primate field study, archaeological excavation, or field research in human biology), to be approved by the supervisor. However, students specializing in laboratory-based topics (for example, morphological studies or bone chemistry) may substitute an approved program of laboratory work for the field work requirement.

### Doctor of Philosophy

a) Course Requirements:

If students entering the PhD specialization have completed the master's specialization in Biological Anthropology, or if they have completed equivalent courses in another master's program, they will not be required to repeat those courses. Rather, additional courses will be determined at the discretion of the student's supervisory committee. Normally, 18 units, which shall include (unless completed previously):

- [ARKY617 Theory & its Appl in Biol Anth](#)
- [ANTH701 Independent Studies](#)
- Any two of the following: [MDSC755 Directed Study](#), [ARKY613 AnalysisOfHumanSkeletalRemain](#), [ANTH635 Primatological Theory](#), [ANTH605 Prof Skills ForAnthropologists](#), or [ANTH613 IssuesMethodology&Primatology](#)
- Two courses relevant to the proposed research topic

The number of courses required of each student may vary according to their particular needs as determined by the Supervisory Committee. Statistics will be required in the event the student's committee deems it necessary. The courses will be selected based on the student's previous statistics training and the type of data analyses to be conducted in the research.

b) Two seasons of fieldwork offering appropriate experience for the proposed research topic (for example, primate field study, archaeological excavation, or field research in human biology), to be approved by the supervisor. Fieldwork may have been undertaken before entry into the specialization and may be counted toward the fieldwork requirement. Students specializing in laboratory-based topics (for example, morphological studies or bone chemistry) may substitute an approved specialization of laboratory work for the fieldwork requirement.

c) Submission to the supervisory committee of a paper that demonstrates an ability to research and write a paper at a professional level.

d) Proficiency in a second language.

#### Additional Program Information

##### Type

Completion Requirement

##### Additional Comments:

#### Advanced Credit

The applicant must make **Advanced Credit** requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

#### Credit for Undergraduate Courses

Students may apply for no more than one 500-level course for graduate credit, subject to the approval of the Program Director. Graduate students taking a 500-level course for graduate credit will be required to complete additional assignments.

#### Time Limit

Expected completion time for the MA and MSc is two years and maximum completion time is four years.

Expected completion time for the PhD is four years and maximum completion time is six years.

#### Supervisory Assignments, Research Proposal and Required Examinations

##### Type

Completion Requirement

##### Additional Comments:

#### Supervisory Assignments

Students will be assigned a supervisor upon admission.

#### Research Proposal Requirements

Within twenty months of entering the program, the student, with the supervisor's advice, develops a thesis research proposal. This is then transmitted to the student's supervisory committee for agreement and to the Graduate Program Director of the student's home program for approval and placed on file.

#### Required Examinations

Final thesis oral examinations are open.

#### Oral Candidacy Examinations

Following the completion of all course work, the research paper and the language requirement, doctoral students sit the Candidacy Examination. In the Biological Anthropology Graduate Specialization, the Candidacy Examination consists of two parts in sequence, as follows: (1) a written component and (2) an oral component.

The oral candidacy examination is required by University regulations and must be held no later than twenty-eight months following initial registration as a full-time graduate student in a PhD program. Students entering the doctoral program with a bachelor's degree, or transferring into a doctoral program from a master's program before the master's program is completed, must attempt the candidacy examinations no later than 36 months after initial registration in the Faculty of Graduate Studies.

The Candidacy Examination in the Biological Anthropology Graduate Specialization consists of a written plus an oral examination administered by the Candidacy Examination Committee, composed of the Supervisory Committee plus two additional members, one of whom must be external to the Specialization if the External is not already a member of the Supervisory Committee.

The Candidacy Examination is an examination of the student's knowledge and abilities to reason, utilize the relevant literature, and to solve problems within the three fields or areas which have been set out.

In consultation with the student, the Supervisory Committee will determine three areas of knowledge for which the student will be responsible in their Candidacy Examination. These topics will be communicated (in writing) to the student, with copies to other members of the Supervisory Committee.

These topics will also be communicated to the two other members of the Candidacy Examination Committee, who must be selected no later than eight weeks prior to the oral examination.

Members of the Candidacy Examination Committee will each submit one or two questions, so that there are at least two questions within each of the three areas. The supervisor will select six questions from those submitted, and provide them to the student at least five weeks prior to the Oral Candidacy Examination. The student will select one question from each of the three areas for a total of three questions. The student will have two weeks in which to prepare answers to these questions as a take-home, open-book exam. Each answer should be approximately 6000 words. Copies of the completed examination will be distributed to all members of the Examination Committee. The Committee will assess the written exam on a Pass/Fail basis. The oral examination is conducted in accordance with Faculty of Graduate Studies regulations.

In the oral component of the Candidacy Examination, the written examinations will serve as the basis from which the examination shall proceed, but examiners are not limited to the written component in framing the questions asked, and questioning may range into cognate areas, at the discretion of the Neutral Chair.

Students must pass both the written and oral exams in order to pass the candidacy exam.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for scholarships must submit their applications to the home program by January 2.

## Overview

### General Program Information

#### Department Information

Student enquiries: 403.220.8600

Department Office: Biological Sciences 186

Website: [science.ucalgary.ca/biological-sciences](http://science.ucalgary.ca/biological-sciences)

### Ethics in the Biological Sciences

Studies in the Biological Sciences involve the use of living and dead organisms. Students taking laboratory- and field-based courses in these disciplines can expect involvement with and experimentation on such materials. Students perform dissections on dead or preserved organisms in some courses. In particular courses, students experiment on living organisms, their tissues, cells, or molecules. Sometimes field work requires students to collect a variety of living materials by many methods, including humane trapping.

All work on humans and other animals conforms to the Helsinki Declaration and to the regulations of the Canadian Council on Animal Care. The Department strives for the highest ethical standards consistent with stewardship of the environment for organisms whose use is not governed by statutory authority. Individuals contemplating taking courses or majoring in one of the fields of study offered by the Department of Biological Sciences should ensure that they have fully considered these issues before enrolling. Students are advised to discuss any concern they might have with the Associate Head, Undergraduates of the Department.

## Admissions

### Program Admissions Information

For Faculty of Science admission information see [3.2 Admission](#).

#### Admission to the Department of Biological Sciences

Admission to programs in the department is competitive. Admission will be granted for Fall Term only and will be based upon academic merit. (New admissions to the University are always subject to [A.2](#) as stated in the Admissions section of this Calendar.)

Applications to the Department of Biological Sciences programs are accepted:

Directly from High School (see Section [3.2 Admission](#)) into either the Biological Sciences program, or into Honours Biochemistry; Honours Cellular, Molecular and Microbial Biology; Honours Ecology; Honours Plant Biology; or Honours Zoology.

From external transfer students and change of program requests from University of Calgary students into the Biological Sciences program.

Subject to the Honours qualifications set out in Subsection [3.2 Admission - Honours Program](#), and to availability of space, students may request placement into any of the Honours programs offered by the Department.

From external transfer students and change of program requests from University of Calgary students into BSc programs in Biochemistry; Cellular, Molecular and Microbial Biology; Ecology; Plant Biology; and Zoology after completion of a minimum of 30 units.

#### Admission to Concentrations:

Biological Sciences students can apply to a concentration online through their Student Centre from October 1–February 1 for admission the following fall. The concentrations are optional and not required for program completion. Students can apply after their first year and up until their final year. To be admitted to the concentration, students must have completed 18 units, including Biology 241 and 243, before the February 1 deadline. In addition, students will require a competitive GPA, which will be determined annually and calculated using the most recent course work. See [A.5.3.1](#) for GPA computation guidelines.

#### Notes:

Any student in an Honours program is subject to the provisions for continuation in an Honours program, Subsections [3.2](#) and [3.4C](#).

Honours students in the Biological Sciences program who do not qualify for continuation in honours will be moved into the Biological Sciences Major BSc Program. Honours students admitted to a specialized program (Biochemistry; Cellular, Molecular and Microbial Biology; Ecology; Plant Biology; or Zoology) who do not qualify for continuation in honours may be moved into the Major BSc Program of their current specialized program. In order to be moved into the Major BSc Program of their current specialized program students must have completed 30 units prior to their review period and meet the minimum GPA requirement for admission into that specialized program. Students in honours in a specialized program who do not meet the preceding requirements will be moved into the Biological Sciences Major BSc program.

Students with a GPA of less than 2.000 are subject to the provisions of [3.7 Student Standing](#), B. Performance Review, Probationary Status and Dismissal.

#### Transfers between Alberta Universities and Colleges

The Departments of Biological Sciences at the Universities of Alberta and Calgary and the Department of Biology at the University of Lethbridge have a transfer agreement in effect. The full details of the Biological Sciences Transfer Agreement are available in the Alberta Transfer Guide published by the Alberta Commission on Admissions and Transfer (ACAT) - [acat.alberta.ca/](http://acat.alberta.ca/).

## Program Details

### Simple Requisites

Faculty Requirements Type
------------------------------

## Completion Requirement

### Faculty of Science Graduation Requirements

For Major Degree requirements, or if completing this program as a Second Degree, refer to:

#### Complete ALL of the following Requirement Sets:

- Faculty of Science - Major Degree Requirements
- Faculty of Science - Second Degree Programs

For other regulations related to the Faculty of Science, see: [3. Faculty of Science Regulations](#).

## Additional Comments:

### Department Regulations

#### Type

Completion Requirement

#### Additional Comments:

BSc Honours in Biochemistry degree program is accredited by the Canadian Society for Chemistry (CSC) for Canadian Chemistry programs. The CSC manages the accreditation of undergraduate chemistry programs nationally and abroad. This program maintains national standards of education and promotes the portability of the qualifications of graduates from such programs.

### Department Regulations

Programs in the Department of Biological Sciences are governed by a combination of general Faculty of Science regulations and the additional program specific regulations listed below.

It is essential for students to be familiar with both sets of regulations. It is helpful to read [Faculty Regulations](#) first.

Students should consult Academic Requirements in their [Student Centre](#) periodically to ensure that requirements are being met. Also students are strongly urged to consult the Department and the [Undergraduate Science Centre \(USC\)](#) at all stages of their program.

### Enrolment Limitations in Courses

Enrolment in many courses offered by the Department of Biological Sciences is limited by available laboratory or tutorial space.

Consult the Schedule Builder in the [Student Centre](#) for details regarding enrolment in these courses.

### Courses Constituting the Field of Biochemistry

#### Type

Completion Requirement

Students must successfully complete a minimum of 48 units, to a maximum of 66 units, in Courses Constituting the Field of Biochemistry while fulfilling the Program Requirements.

#### Earn at least 48 credits from the following:

- Courses Constituting the Field of Biochemistry

## Additional Comments:

### Program Requirements

#### Type

Completion Requirement

#### Required Courses - Major Program

##### Earn at least 78 credits from the following:

- 15 units - Biology 241, 243, 311, 331, 371
- 6 units - Chemistry 201 or 211; and 203 or 213
- 6 units - One of Mathematics 249 or 265 or 275 and one of Mathematics 211 or 213 or 267 or 277
- 6 units - Physics 211 or 221; and 223
- 3 units - Biochemistry 393
- 12 units - Chemistry 311, 315, 351, 353
- 12 units - Biochemistry 411, 413, 431, 471
- 18 units - Chosen from Biochemistry 443, 541, 543, 547, 551, 553, 555, 561, 575, 577 or Cellular, Molecular and Microbial Biology 411 or 523

#### Breadth Requirement

##### Earn at least 42 credits from the following:

- 12 units - Options selected from courses offered by the Faculty of Science
- 18 units - Breadth Requirement: Options from faculties other than the Faculty of Science, excluding courses in Table I. Of these, at least 6 units must be from the Faculty of Arts. Science 311 may be counted among the courses from other faculties.
- 6 units - Non-Major Requirement: Options outside the Field of Biochemistry
- 6 units - Options

#### Additional Comments:

#### Program Sequence

##### Type

Completion Requirement

##### Additional Comments:

##### First and Second Year Course Selection

The recommended first and second year course sequences for all programs offered by the Department of Biological Sciences are similar, but not identical. Thus, students should consult the Suggested Program Sequence charts linked below for the specific program they intend to pursue. Most students will initially enter the BSc in Biological Sciences but may apply for a change of program to a specialized program (Biochemistry; Cellular, Molecular and Microbial Biology; Ecology; Plant Biology; or Zoology) after they have successfully completed a minimum of 30 units. Students may begin planning their coursework for their specialized program from first year.

##### Recommended Program Sequence for the BSc in Biochemistry

There is a [Recommended Course Sequence](#) for this program. This sequence describes both the recommended order in which courses should be taken and the recommended course(s) in instances where multiple courses may fulfill a degree requirement. All possible courses that may fulfill degree requirements are found in the Required Courses listed above.

Taking courses in the order of the [Recommended Course Sequence](#) will ensure students can complete their program in a timely fashion. The time to complete a program may be lengthened if students choose to complete their requirements in an alternate order.

#### Degree Options

##### Type

Completion Requirement

##### Faculty of Science Degree Options

To complete an optional enhancement to this degree program, refer to:

**Complete ANY of the following Requirement Sets:**

- Faculty of Science - Co-operative Education Programs
- Faculty of Science - Combined and Concurrent Degree Programs with Other Faculties
- Faculty of Science - Combined Degree Programs Within the Faculty of Science
- Faculty of Science - Double Major and Double Honours Degree Programs
- Faculty of Science - Honours Degree Requirements
- Faculty of Science - Minor Programs
- Double Major in the Department of Biological Sciences
- Embedded Certificates

- 6 units - One of Mathematics 249 or 265 or 275; and one of Mathematics 211 or 213 or 267 or 277 or Statistics 327
- 3 units - Biochemistry 393
- 3 units - Chemistry 351

Required Options - Major Program

**Earn at least 84 credits from the following:**

- 6 units - Junior Science Breadth: one set of courses from either Computer Science, Earth, or Physics
- 27 units - From the Field of Biological Sciences
- 18 units - Breadth Requirement: Options from faculties other than the Faculty of Science, excluding courses in Table I. Of these, at least 6 units must be from the Faculty of Arts. Science 311 may be counted among the courses from other faculties.
- 15 units - Non-Major Field Requirement
- 18 units - Options

**Additional Comments:**

## Concentrations

### Type

Completion Requirement

Concentrations

Students may focus their program on one of three areas of interest by including a specified set of courses in their Major or Honours degree. Successful completion will mean that the area of concentration will appear on the transcript. The concentrations and course requirements are:

Concentration in Biodiversity and Conservation

**Earn at least 27 credits from the following:**

- 9 units - Biology 315, 401 and 451
- 6 units - From Biology 435, 453; Cellular, Molecular and Microbial Biology 343; Plant Biology 327; Zoology 401, 403, 435
- 6 units - From Ecology 417, 419, 425, 429, 439
- 6 units - From Biology 507, 509, 520, 528, 591; Biochemistry 507, 528; Cellular, Molecular and Microbial Biology 507, 528, 543, 563; Ecology 413, 501, 507, 527, 528, 529; Marine Science 500, 501, 502, 507, 511, 513, 515, 525, 537, 540, 572, 574; Plant Biology 507, 528, 541; Zoology 507, 528, 567, 571, 576, 577

**Concentration in Biotechnology**

**Earn at least 27 credits from the following:**

- 3 units - Cellular, Molecular and Microbial Biology 343
- 3 units - Entrepreneurship and Innovation 201
- 3 units - From Biology 315 or Medical Science 301
- 3 units - Biochemistry 561
- 9 units - From Biochemistry 431, 443, 541, 543; Biology 501, 503, 505; Cellular, Molecular and Microbial Biology 411, 421, 443, 461, 523; Plant Biology 401, 421
- 6 units - From Biology 507, 528; Biochemistry 507, 528, 547; Cellular, Molecular and Microbial Biology 507, 528, 543, 545, 563; or Chemical Engineering 535

**Concentration in Genetics and Evolution**

**Earn at least 27 credits from the following:**

- 6 units - Biology 315 and 401
- 3 units - Cellular, Molecular and Microbial Biology 411
- 6 units - From Cellular, Molecular and Microbial Biology 343, 421; Plant Biology 327; Zoology 401, 403, 435
- 6 units - From Cellular, Molecular and Microbial Biology 403, 413, 461; Plant Biology 543; Ecology 529
- 6 units - From Biology 505, 507, 528, 591; Biochemistry 507, 528; Cellular, Molecular and Microbial Biology 505, 507, 519, 528, 549, 563; Ecology 507, 528; Plant Biology 507, 528, 541; Zoology 507, 528, 571, 567, 576, 595

**Additional Comments:**

**Program Sequence**

**Type**

Completion Requirement

**Additional Comments:**

**First and Second Year Course Selection**

The recommended first and second year course sequences for all programs offered by the Department of Biological Sciences are similar, but not identical. Thus, students should consult the Suggested Program Sequence charts linked below for the specific program they intend to pursue. Most students will initially enter the BSc in Biological Sciences but may apply for a change of program to a specialized program (Biochemistry; Cellular, Molecular and Microbial Biology; Ecology; Plant Biology; or Zoology) after they have successfully completed a minimum of 30 units. Students may begin planning their coursework for their specialized program from first year.

**Recommended Program Sequence for the BSc in Biological Sciences**

There is a [Recommended Course Sequence](#) for this program. This sequence describes both the recommended order in which courses should be taken and the recommended course(s) in instances where multiple courses may fulfill a degree requirement. All possible courses that may fulfill degree requirements are found in the Required Courses listed above.

Taking courses in the order of the **Recommended Course Sequence** will ensure students can complete their program in a timely fashion. The time to complete a program may be lengthened if students choose to complete their requirements in an alternate order.

## Degree Options

### Type

Completion Requirement

#### Faculty of Science Degree Options

To complete an **optional** enhancement to this degree program, refer to:

#### Complete ANY of the following Requirement Sets:

- Faculty of Science - Co-operative Education Programs
- Faculty of Science - Combined and Concurrent Degree Programs with Other Faculties
- Faculty of Science - Combined Degree Programs Within the Faculty of Science
- Faculty of Science - Double Major and Double Honours Degree Programs
- Faculty of Science - Honours Degree Requirements
- Faculty of Science - Minor Programs
- Double Major in the Department of Biological Sciences
- Embedded Certificates

## Overview

### General Program Information

#### Department Information

Student enquiries: 403.220.8600

Department Office: Biological Sciences 186

Website: [science.ucalgary.ca/biological-sciences](https://science.ucalgary.ca/biological-sciences)

### Ethics in the Biological Sciences

Studies in the Biological Sciences involve the use of living and dead organisms. Students taking laboratory- and field-based courses in these disciplines can expect involvement with and experimentation on such materials. Students perform dissections on dead or preserved organisms in some courses. In particular courses, students experiment on living organisms, their tissues, cells, or molecules. Sometimes field work requires students to collect a variety of living materials by many methods, including humane trapping.

All work on humans and other animals conforms to the Helsinki Declaration and to the regulations of the Canadian Council on Animal Care. The Department strives for the highest ethical standards consistent with stewardship of the environment for organisms whose use is not governed by statutory authority. Individuals contemplating taking courses or majoring in one of the fields of study offered by the Department of Biological Sciences should ensure that they have fully considered these issues before enrolling. Students are advised to discuss any concern they might have with the Associate Head, Undergraduates of the Department.

## Admissions

### Program Admissions Information

For Faculty of Science admission information see **3.2 Admission**.

## Admission to the Department of Biological Sciences

Admission to programs in the department is competitive. Admission will be granted for Fall Term only and will be based upon academic merit. (New admissions to the University are always subject to [A.2](#) as stated in the Admissions section of this Calendar.)

Applications to the Department of Biological Sciences programs are accepted:

- Directly from High School (see Section [3.2 Admission](#)) into either the Biological Sciences program, or into Honours Biochemistry; Honours Cellular, Molecular and Microbial Biology; Honours Ecology; Honours Plant Biology; or Honours Zoology.
- From external transfer students and change of program requests from University of Calgary students into the Biological Sciences program.
- Subject to the Honours qualifications set out in Subsection [3.2 – Honours Programs](#), and to availability of space, students may request placement into any of the Honours programs offered by the Department.
- From external transfer students and change of program requests from University of Calgary students into BSc programs in Biochemistry; Cellular, Molecular and Microbial Biology; Ecology; Plant Biology; and Zoology after completion of a minimum of 30 units.

Admission to Concentrations:

- Biological Sciences students can apply to a concentration online through their Student Centre from October 1–February 1 for admission the following fall. The concentrations are optional and not required for program completion. Students can apply after their first year and up until their final year. To be admitted to the concentration, students must have completed 18 units, including Biology 241 and 243, before the February 1 deadline. In addition, students will require a competitive GPA, which will be determined annually and calculated using the most recent course work. See [A.5.3.1](#) for GPA computation guidelines.

Notes:

- Any student in an Honours program is subject to the provisions for continuation in an Honours program, Subsections [3.2](#) and [3.4C](#).
- Honours students in the Biological Sciences program who do not qualify for continuation in honours will be moved into the Biological Sciences Major BSc Program. Honours students admitted to a specialized program (Biochemistry; Cellular, Molecular and Microbial Biology; Ecology; Plant Biology; or Zoology) who do not qualify for continuation in honours may be moved into the Major BSc Program of their current specialized program. In order to be moved into the Major BSc Program of their current specialized program students must have completed 30 units prior to their review period and meet the minimum GPA requirement for admission into that specialized program. Students in honours in a specialized program who do not meet the preceding requirements will be moved into the Biological Sciences Major BSc program.
- Students with a GPA of less than 2.000 are subject to the provisions of [3.7 Student Standing](#), B. Performance Review, Probationary Status and Dismissal.

---

## Transfers between Alberta Universities and Colleges

The Departments of Biological Sciences at the Universities of Alberta and Calgary and the Department of Biology at the University of Lethbridge have a transfer agreement in effect. The full details of the Biological Sciences Transfer Agreement are available in the Alberta Transfer Guide published by the Alberta Commission on Admissions and Transfer (ACAT) - [acat.alberta.ca/](http://acat.alberta.ca/).

Faculty of Science Graduation Requirements

For Honours Degree requirements, or if completing this program as a Second Degree, refer to:

**Complete ALL of the following Requirement Sets:**

- Faculty of Science - Honours Degree Requirements
- Faculty of Science - Second Degree Programs

For other regulations related to the Faculty of Science, see: [3. Faculty of Science Regulations](#).

**Additional Comments:**

## Department Regulations

### Type

Completion Requirement

**Additional Comments:**

### Department vs. Faculty Regulations

Programs in the Department of Biological Sciences are governed by a combination of general Faculty of Science regulations and the additional program specific regulations listed below.

It is essential for students to be familiar with both sets of regulations. It is helpful to read the [Faculty Regulations](#) first.

Students should consult Academic Requirements in their [Student Centre](#) periodically to ensure that requirements are being met. Also students are strongly urged to consult the Department and the [Undergraduate Science Centre \(USC\)](#) at all stages of their program.

## Enrolment Limitations in Courses

Enrolment in many courses offered by the Department of Biological Sciences is limited by available laboratory or tutorial space.

Consult the Schedule Builder in the [Student Centre](#) for details regarding enrolment in these courses.

## Courses Constituting the Field of Biological Sciences

### Type

Completion Requirement

Students must successfully complete a minimum of 60 units, to a maximum of 78 units, in Courses Constituting the Field of Biological Sciences while fulfilling the Program Requirements.

**Earn at least 60 credits from the following:**

- Courses Constituting the Field of Biological Sciences

**Additional Comments:**

## Program Requirements

### Type

Completion Requirement

Required Courses - Honours Program

**Earn at least 42 credits from the following:**

- 18 units - Biology 241, 243, 311, 313, 331, 371
- 6 units - Chemistry 201 or 211; and 203 or 213
- 6 units - One of Mathematics 249 or 265 or 275; and one of Mathematics 211 or 213 or 267 or 277 or Statistics 327
- 3 units - Biochemistry 393
- 3 units - Chemistry 351

- 6 units - Biology 530

#### Required Options - Honours Program

##### Earn at least 78 credits from the following:

- 6 units - Junior Science Breadth: one set of courses from either Computer Science, Earth, or Physics
- 27 units - Three sets of 9 units from three divisions of Biological Science, with at least 18 units at the 400 level or higher
- 6 units - From the Field of Biological Sciences
- 18 units - Breadth Requirement: Options from faculties other than the Faculty of Science, excluding courses in Table I. Of these, at least 6 units must be from the Faculty of Arts. Science 311 may be counted among the courses from other faculties.
- 3 units - Non-Major Field Requirement: Options that are not in the Field of Biological Sciences
- 18 units - Options

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/biological-sciences-master-science-thesis-based>.

In addition to the Faculty of Graduate Studies admission requirements and the Faculty of Science requirements, the Department requires:

- A minimum grade point average of 3.20 on a four-point scale during the last two full years or equivalent.
- For students required to provide proof of proficiency in English: a minimum TOEFL score of 105 (Internet-based test); an IELTS score of 7.5; a CAEL score of 70 (with a minimum of 70 in each component); a Duolingo score of 145 (with no subscore below 125); or a Cambridge Proficiency score of 105. This requirement can also be met by completing the Academic Communication Certificate (<https://ucalgary.ca/esl/acc>) with a minimum grade of "A-" in each course.
- A concise statement outlining the applicant's research interests and reasons for wishing to attend the University of Calgary.
- Three academic reference letters and the required reference form.

Exceptional students may apply to a PhD program without an MSc recognized by the Faculty of Graduate Studies. In such cases, requirements in addition to those outlined above include: a four-year BSc or equivalent degree from a recognized institution with a minimum GPA of 3.60 (four-point scale) during the last two full years; and a full-year research project with a minimum grade of 3.70.

Transfer from a MSc to a PhD program is allowed for students who have successfully completed all courses required for the MSc degree, and who have demonstrated outstanding research ability and potential to their Supervisory Committee. Normally, evidence of this ability will include, but not be limited to, a grade point average of 3.60 for the courses completed during the MSc program.

## Program Details

### Simple Requisites

<b>Program/Course Requirements</b> Type
--

## Completion Requirement

In addition to the Faculty of Graduate Studies [requirements](#) and the Faculty of Science requirements, the Department requires:

- a) Completion of a minimum of 6 units for both the Master of Science and doctoral programs. Students transferring from the MSc program to the PhD program will be required to take a minimum of 3 units in addition to work already completed. Please note that graduate courses must be chosen in consultation with the supervisor and approved by the Graduate Program Director. Course requirements may include courses offered by other Departments.
- b) Completion of the appropriate number of **Biology 601** Research Seminar courses in addition to (a) above.
- c) Presentation of a Departmental Pre-Defence seminar on the results of the thesis research.

### Transfer from the Master of Science to the doctoral program

A request to transfer from the Master of Science program to the doctoral program may be made no later than twenty-four months after initial registration. Students who transfer will be required to take one additional 3-unit course, regardless of course work completed before the transfer, and are expected to meet the 36-month deadline for completion of candidacy requirements.

## Additional Comments:

## Additional Program Information

### Type

Completion Requirement

## Additional Comments:

## Flexible Grade Option (CG Grade)

Students admitted to the Department of Biological Sciences will not be allowed to request the [Flexible Grade Option \(CG Grade\)](#) for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

At least one-half of a graduate student's coursework must be at the 600 level or higher.

Only when appropriate to a student's program may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses. Courses below the 500 level will not be accepted for graduate credit.

## Time Limit

Expected completion time is two years for the Master of Science degree. Maximum completion time is four years.

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

## Additional Comments:

## Supervisory Assignments

Applicants must contact faculty members directly regarding supervision of their graduate program, prior to submitting an application. The Department does not accept students unless at least one faculty member has indicated a willingness to act as supervisor. For the MSc program, the supervisor, in consultation with the student, selects a Supervisory Committee consisting

of the supervisor and at least two other faculty members whose research experience will be beneficial to the student's graduate program.

## Research Proposal

Master of Science students must present a written research proposal to their supervisory committee no later than six months after initial registration in program.

## Thesis Examinations

Final Thesis Examinations are required at both the Master of Science and doctoral level. In addition to the Faculty of Graduate Studies [regulations](#), the Department has the following requirements:

A public "Exit" Seminar preceding the examination is required.

### *Scheduling of the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before an examination can be scheduled.

### *Composition of the Committee*

The Internal Examiner must be external to the home program.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards, see the [Awards and Financial Assistance](#) section of this Calendar.

Students applying for the Open Scholarship Competition must submit their scholarship applications to the Department of Biological Sciences by the appropriate deadline. Please contact <mailto:sci.grad@ucalgary.ca> for further information.

Completion Requirement

In addition to the Faculty of Graduate Studies ([see regulations](#)) and home program requirements, the Specialization requires:

**MSc and PhD students complete:**

**Complete ALL of the following Courses:**

- MDCH600 - Introduction to Community Health Sciences  
**AND** MDCH640 - Fundamentals of Epidemiology  
**AND** STAT721 - Statistical Inference  
**AND** BIST600 - Research Seminar

PhD students must also complete [STAT641 Statistical Learning](#) or [STAT631 Computational Statistics](#).

**Earn at least 3 credits from the following:**

- Biostatistics Interdisciplinary Specialization, List A Epidemiology and Health

Relevant topics courses and directed study courses (e.g., [MDCH710 Adv Topics in Biostatistics](#)), and courses from other programs, may be approved by the graduate program director in consultation with the supervisor.

**Earn at least 3 credits from the following:**

- Biostatistics Interdisciplinary Specialization, List B Biostatistics/Statistics

Relevant topics courses and directed study courses (e.g. [STAT601 Topics Probability&Statistics](#)), and courses from other programs, may be approved by the graduate program director in consultation with the supervisor.

**Earn at least 3 credits from the following:**

- Biostatistics Interdisciplinary Specialization, List A Epidemiology and Health  
**OR** Biostatistics Interdisciplinary Specialization, List B Biostatistics/Statistics

#### Additional Comments:

In addition, PhD students in the Mathematics and Statistics program must pass two Preliminary Examinations in Statistics based on material for two of the following courses: [STAT701 Theory of Probability I](#), [STAT721 Statistical Inference](#), [STAT631 Computational Statistics](#), [STAT635 Generalized Linear Models](#), [STAT641 Statistical Learning](#).

N.B. PhD required courses (or equivalents) are based on courses taken across graduate studies; i.e., if the student has taken equivalent courses in an MSc program, they are not required to retake these courses.

Students in the Community Health Sciences program must attend all CHS departmental seminars.

## Additional Program Information

### Type

Completion Requirement

### Additional Comments:

## Advanced Credit

The applicant should make requests for advanced credit at the time of application, as part of the admissions process. See [Advanced Credit](#) for further information.

## Credit for Undergraduate Courses

See requirements of home program.

## Flexible Grade Option (CG Grade)

See requirements of home program.

## Time Limit

Expected completion time is two years for full-time students in a thesis-based master's program and four years in a doctoral program.

The maximum completion time allowed for a thesis-based master's program is four years. The maximum completion time allowed for a doctoral program is six years.

## Supervisory Assignments and Required Examinations

See requirements of home program and the Faculty of Graduate Studies academic regulations.

## Faculty Members / Research Interests

Faculty members associated with the Biostatistics specialization have wide-ranging research interests. See the [Biostatistics webpage](#) for more information.

Research topics for thesis-based MSc and PhD applicants should be decided in discussion with supervisors.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

See home program.

## Overview

### General Program Information

**Department Office:** Science B 605

**Telephone:** 403.220.5224

# UCalgary

Fax: 403.284.1372

Website: [science.ucalgary.ca/chemistry](http://science.ucalgary.ca/chemistry)

Email: [chem.info@ucalgary.ca](mailto:chem.info@ucalgary.ca)

## Admissions

### Program Admissions Information

For Faculty of Science admission information see [3.2 Admission](#).

### Enrolment Limitations in Programs

Due to limited enrolment capacity in many senior courses in which there is a laboratory component, the Chemistry programs have a maximum capacity. For details on entry to the programs, see [Faculty Regulations](#).

### Enrolment Limitations in Courses

Enrolment in many courses offered by the Department of Chemistry is limited by laboratory space or other pedagogical considerations.

Consult the Schedule Builder in the [Student Centre](#) for details regarding enrolment in Chemistry courses.

## Program Details

### Simple Requisites

#### Faculty Requirements

##### Type

Completion Requirement

#### Faculty of Science Graduation Requirements

For Major Degree requirements, or if completing this program as a Second Degree, refer to:

#### Complete ALL of the following Requirement Sets:

- Faculty of Science - Major Degree Requirements
- Faculty of Science - Second Degree Programs

For other regulations related to the Faculty of Science, see: [3. Faculty of Science Regulations](#).

#### Additional Comments:

#### Department Regulations

##### Type

Completion Requirement

#### Additional Comments:

#### Departmental vs. Faculty Regulations

Programs in the Department of Chemistry are governed by a combination of general Faculty of Science regulations and the additional program specific regulations listed below.

It is essential for students to be familiar with both sets of regulations. It is helpful to read the [Faculty Regulations](#) first.

Students should consult Academic Requirements in their [Student Centre](#) periodically to ensure that requirements are being met. Also students are strongly urged to consult the Department and the [Undergraduate Science Centre \(USC\)](#) at all stages of their program.

## Courses Constituting the Field of Chemistry

### Type

Completion Requirement

#### Courses Constituting the Field of Chemistry

Students must successfully complete a minimum of 57 units to a maximum of 66 units in Courses Constituting the Field of Chemistry while fulfilling the Program Requirements.

**Earn at least 57 credits from the following:**

- Courses Constituting the Field of Chemistry

**Additional Comments:**

## Program Requirements

### Type

Completion Requirement

#### Required Courses - Major Program

**Earn at least 66 credits from the following:**

- 6 units - Chemistry 201 or 211; and 203 or 213
- 6 units - Physics 211 or 221; and 223
- 3 units - Mathematics 249 or 265 or 275
- 3 units - Mathematics 267 or 277
- 36 units - Chemistry 311, 315, 351, 353, 371, 373, 431, 433, 453, 471; 531 or 533; Biochemistry 341 or 393
- 3 units - Physics 323 or 355
- 3 units - Mathematics 211 or 213
- 3 units - Statistics 327 or 205
- 3 units - Science 311

#### Required Options - Major Program

**Earn at least 54 credits from the following:**

- 6 units - From the Field of Chemistry at the 300 level or above
- 9 units - From the Field of Chemistry at the 500 level or above
- 15 units - Breadth Requirement: Options selected from faculties other than the Faculty of Science, excluding courses in Table I. Of these 15 units, at least 6 units must be from the Faculty of Arts.
- 15 units - Non-Major Field Requirement: Options that are not in the Field of Chemistry
- 9 units - Options

**Additional Comments:**

## Program Sequence

### Type

Completion Requirement

**Additional Comments:**

#### Recommended Program Sequence for the BSc in Chemistry

There is a **Recommended Course Sequence** for this program. This sequence describes both the recommended order in which courses should be taken and the recommended course(s) in instances where multiple courses may fulfill a degree requirement. All possible courses that may fulfill degree requirements are found in the Required Courses listed above.

Taking courses in the order of the [Recommended Course Sequence](#) will ensure students can complete their program in a timely fashion. The time to complete a program may be lengthened if students choose to complete their requirements in an alternate order.

## Degree Options

### Type

Completion Requirement

#### Degree Options

To complete an optional enhancement to this degree program, refer to:

**Complete ANY of the following Requirement Sets:**

- Faculty of Science - Combined and Concurrent Degree Programs with Other Faculties
- Faculty of Science - Combined Degree Programs Within the Faculty of Science
- Faculty of Science - Double Major and Double Honours Degree Programs
- Faculty of Science - Honours Degree Requirements
- Faculty of Science - Co-operative Education Programs
- Faculty of Science - Minor Programs
- Embedded Certificates

## Additional Comments:

## Overview

# UCalgary

## General Program Information

The MSc program is available for full-time study only.

Email address: <mailto:sci.grad@ucalgary.ca>

Web page URL: <http://www.chem.ucalgary.ca/>

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students [website](#).

In addition to Faculties of Graduate Studies and Science [admission requirements](#), the Department requires:

- a) A four-year degree or its equivalent.
- b) An admission grade point average of 3.00 or better on a four-point scale.
- c) Two reference letters.

An appropriate letter of recommendation is one written by an individual who can provide an assessment of the applicant's background and capabilities with respect to our department. An applicant currently registered in a graduate degree program, or who has recently completed a graduate degree program, must request one letter of reference from their program supervisor.

d) For applicants required to prove proficiency in English: a minimum TOEFL score of 97 (Internet-based test), or an IELTS score of 7.0, or a PTE score of 68.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to Faculty of Graduate Studies [requirements](#), the Faculty of Science requires students to complete:

- 7 units at the 500 level or above:
  - a minimum of 3 units will be Chemistry courses;
  - **CHEM654 Teaching and Mentoring in Chem**;
  - 3 units of electives (Chemistry or other Faculty/Department)

#### Additional Requirements

##### Type

Completion Requirement

##### Additional Comments:

### Advanced Credit

**Advanced Credit** for graduate courses taken as an unclassified student, or qualifying student may be given for courses in which the student obtains a grade of "B" or higher.

A reduction in course requirements may be given for students who completed graduate courses at other institutions. This will be determined on program entry and after consultation with the research supervisor and the graduate office.

## Flexible Grade Option (CG Grade)

The Department of Chemistry will allow students to pursue the **Flexible Grade Option (CG Grade)** with the exception of **Chemistry 601** and **603**.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

## Credit for Undergraduate Courses

At least one-half of a graduate student's course work must be at the 600 level or higher and only where appropriate to a student's program will graduate credit be given for courses numbered 500-599, which are considered undergraduate courses. In addition to course prerequisites, consent of the department is required.

## Time Limit

Expected completion time is two years for the Master of Science degree. Maximum completion time is four years.

### Supervisory Assignments and Thesis Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

Students are assigned an interim advisor (currently the Graduate Director) upon first registration in a program and must choose a permanent supervisor before the fifth month in program. Students must also choose two additional faculty members to serve as supervisory committee members.

### Thesis Examination

In addition to the Faculty of Graduate Studies requirements for **Thesis Examinations**, the Department requires:

#### *Scheduling of the Examination*

Before an examination can be scheduled, all members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis.

#### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

Thesis examinations are open.

### Financial Assistance

#### Type

Completion Requirement

#### Additional Comments:

Financial assistance is normally available to all qualified students in the form of Teaching Assistantships and Trust funded Assistantships. Assistantship funding is not normally available beyond twenty-eight months in a master's program.

For further information on awards, see the **Awards and Financial Assistance** section of this calendar.

## Overview

### General Program Information

The PhD program is available for full-time study only.

## Admissions

### Program Admissions Information

Deadlines for submission of complete applications are available on the Future Students website: <http://ucalgary.ca/future-students/graduate/explore-programs/chemistry-doctor-philosophy-thesis-based>.

In addition to Faculties of Graduate Studies and Science [admission requirements](#), the Department requires:

a) Two reference letters.

An appropriate letter of recommendation is one written by an individual who can provide an assessment of the applicant's background and capabilities with respect to our department. An applicant currently registered in a graduate degree program, or who has recently completed a graduate degree program, must request one letter of reference from their program supervisor.

b) For applicants required to prove proficiency in English: a minimum TOEFL score of 97 (Internet-based test), or an IELTS score of 7.0, or a PTE score of 68.

#### For applicants with a Bachelor of Science (BSc) degree:

a) A four-year Honours degree or its equivalent.

b) An admission grade point average of 3.70 or better on a four-point scale.

#### For applicants with a Master of Science (MSc) degree:

a) A Master of Science degree recognized by the Faculty of Graduate Studies.

b) An admission grade point average of 3.30 or better on a four-point scale.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

In addition to the Faculty of Graduate Studies [requirements](#) and Faculty of Science requirements, the Department requires:

For students entering with a four-year Honours BSc degree or equivalent:

- 10 units at the 500 level or above:
  - a minimum of 6 units will be Chemistry courses;
  - **CHEM654 Teaching and Mentoring in Chem**;
  - 3 units of electives (Chemistry or other Faculty/Department).

For students entering with an MSc degree or equivalent.

- A minimum of 3 units and a maximum of 10 units. At the discretion of the Graduate Program Director, the number of courses will be determined by consultation between the student, the supervisor, and the Graduate Director.

Students who transfer to the doctoral program will be given credit for courses taken in the MSc program.

## Copyediting

The department does not allow copyediting in students' theses.

## Additional Requirements

### Type

Completion Requirement

### Additional Comments:

## Advanced Credit

Advanced Credit for graduate courses taken as an unclassified student, or qualifying student may be given for courses in which the student obtains a grade of "B" or higher.

A reduction in course requirements may be given for students who completed graduate courses at other institutions. This will be determined on program entry and after consultation with the research supervisor and the graduate office.

## Flexible Grade Option (CG Grade)

The Department of Chemistry will allow students to pursue the Flexible Grade Option (CG Grade) with the exception of Chemistry 601 and 603.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will not affect students' eligibility for internal awards.

At least one-half of a graduate student's course work must be at the 600 level or higher and only where appropriate to a student's program will graduate credit be given for courses numbered 500-599, which are considered undergraduate courses. In addition to course prerequisites, consent of the department is required.

## Time Limit

Expected completion time is four years for the Doctor of Philosophy degree. Maximum completion time is six years.

## Supervisory Assignments, Research Proposal and Required Examinations

### Type

Completion Requirement

### Additional Comments:

## Supervisory Assignments

Students are assigned an interim advisor (currently the Graduate Director) upon first registration in a program and must choose a permanent supervisor before the fifth month in program. Students must also choose two additional faculty members to serve as supervisory committee members.

## Required Examinations

### Candidacy

All doctoral students must successfully complete a written thesis research proposal that is evaluated and approved by the Candidacy Field of Study Oral Examination committee.

Doctoral students are required to complete written and oral candidacy examinations. Further details may be obtained from the Department's Handbook of Graduate Studies available

at: [http://www.ucalgary.ca/chem/graduate/current\\_students/grad\\_students\\_handbook](http://www.ucalgary.ca/chem/graduate/current_students/grad_students_handbook).

The oral examination component will include questions on the research proposal.

## Thesis Examination

In addition to the Faculty of Graduate Studies requirements for [Thesis Examinations](#), the Department requires:

### *Scheduling of the Examination*

Before an examination can be scheduled, all members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis.

### *Composition of the Committee*

The Internal Examiner may be internal to the home program.

Thesis examinations are open.

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance is normally available to all qualified students in the form of Teaching Assistantships and Trust funded Assistantships. Assistantship funding is not normally available beyond fifty-two months in a doctoral program.

For further information on awards, see the [Awards and Financial Assistance](#) section of this calendar.

## Overview

### General Program Information

### Department Information

Student enquiries: 403.220.8600

Department Office: Biological Sciences 186

Website: [science.ucalgary.ca/biological-sciences](http://science.ucalgary.ca/biological-sciences)

### Ethics in the Biological Sciences

Studies in the Biological Sciences involve the use of living and dead organisms. Students taking laboratory- and field-based courses in these disciplines can expect involvement with and experimentation on such materials. Students perform dissections on dead or preserved organisms in some courses. In particular courses, students experiment on living organisms, their tissues, cells, or molecules. Sometimes field work requires students to collect a variety of living materials by many methods, including humane trapping.

All work on humans and other animals conforms to the Helsinki Declaration and to the regulations of the Canadian Council on Animal Care. The Department strives for the highest ethical standards consistent with stewardship of the environment for organisms whose use is not governed by statutory authority. Individuals contemplating taking courses or majoring in one of the fields of study offered by the Department of Biological Sciences should ensure that they have fully considered these issues before enrolling. Students are advised to discuss any concern they might have with the Associate Head, Undergraduates of the Department.

## Admissions

### Program Admissions Information

For Faculty of Science admission information see [3.2 Admission](#).

### Enrolment Limitations in Programs, Admissions and Student Standing

Admission to programs in the department is competitive. Admission will be granted for Fall Term only and will be based upon

academic merit. (New admissions to the University are always subject to [A.2](#) as stated in the Admissions section of this Calendar.)

Applications to the Department of Biological Sciences programs are accepted:

Directly from High School (see Section [3.2](#)) into either the Biological Sciences program, or into Honours Biochemistry; Honours Cellular, Molecular and Microbial Biology; Honours Ecology; Honours Plant Biology; or Honours Zoology.

From external transfer students and change of program requests from University of Calgary students into the Biological Sciences program.

Subject to the Honours qualifications set out in Subsection [3.2 – Honours Programs](#), and to availability of space, students may request placement into any of the Honours programs offered by the Department.

From external transfer students and change of program requests from University of Calgary students into BSc programs in Biochemistry; Cellular, Molecular and Microbial Biology; Ecology; Plant Biology; and Zoology after completion of a minimum of 30 units.

Admission to Concentrations:

Biological Sciences students can apply to a concentration online through their Student Centre from October 1–February 1 for admission the following fall. The concentrations are optional and not required for program completion. Students can apply after their first year and up until their final year. To be admitted to the concentration, students must have completed 18 units, including Biology 241 and 243, before the February 1 deadline. In addition, students will require a competitive GPA, which will be determined annually and calculated using the most recent course work. See [A.5.3.1](#) for GPA computation guidelines.

Notes:

Any student in an Honours program is subject to the provisions for continuation in an Honours program, Subsections [3.2](#) and [3.4C](#).

Honours students in the Biological Sciences program who do not qualify for continuation in honours will be moved into the Biological Sciences Major BSc Program. Honours students admitted to a specialized program (Biochemistry; Cellular, Molecular and Microbial Biology; Ecology; Plant Biology; or Zoology) who do not qualify for continuation in honours may be moved into the Major BSc Program of their current specialized program. In order to be moved into the Major BSc Program of their current specialized program students must have completed 30 units prior to their review period and meet the minimum GPA requirement for admission into that specialized program. Students in honours in a specialized program who do not meet the preceding requirements will be moved into the Biological Sciences Major BSc program.

Students with a GPA of less than 2.000 are subject to the provisions of [3.7 Student Standing](#), B. Performance Review, Probationary Status and Dismissal.

---

### Transfers between Alberta Universities and Colleges

The Departments of Biological Sciences at the Universities of Alberta and Calgary and the Department of Biology at the University of Lethbridge have a transfer agreement in effect. The full details of the Biological Sciences Transfer Agreement are available in the Alberta Transfer Guide published by the Alberta Commission on Admissions and Transfer (ACAT) - [acat.alberta.ca](http://acat.alberta.ca).

#### Type

Completion Requirement

#### Additional Comments:

#### Department vs. Faculty Regulations

Programs in the Department of Biological Sciences are governed by a combination of general Faculty of Science regulations and the additional program specific regulations listed below.

It is essential for students to be familiar with both sets of regulations. It is helpful to read [3. Faculty of Science Regulations](#) first.

Students should consult Academic Requirements in their [Student Centre](#) periodically to ensure that requirements are being met. Also students are strongly urged to consult the Department and the [Undergraduate Science Centre \(USC\)](#) at all stages of their program.

### Enrolment Limitations in Courses

Enrolment in many courses offered by the Department of Biological Sciences is limited by available laboratory or tutorial space.

Consult the Schedule Builder in the Student Centre for details regarding enrolment in these courses.

### Courses Constituting the Field of Cellular, Molecular and Microbial Biology

#### Type

Completion Requirement

#### Courses Constituting the Field of Cellular, Molecular and Microbial Biology

Students must successfully complete a minimum of 48 units, to a maximum of 66 units, in Courses Constituting the Field of Cellular, Molecular and Microbial Biology while fulfilling the Program Requirements.

#### Earn at least 48 credits from the following:

- Courses Constituting the Field of Cellular, Molecular and Microbial Biology

## Additional Comments:

### Program Requirements

#### Type

Completion Requirement

#### Required Courses - Major Program

#### Earn at least 48 credits from the following:

- 15 units - Biology 241, 243, 311, 331, 371
- 6 units - Chemistry 201 or 211; and 203 or 213
- 6 units - One of Mathematics 249 or 265 or 275; and one of Mathematics 211 or 213 or 267 or 277 or Statistics 327
- 3 units - Biochemistry 393
- 3 units - Cellular, Molecular and Microbial Biology 343
- 6 units - Chemistry 351 and 353
- 3 units - Biochemistry 431 or 443

- 6 units - Cellular, Molecular and Microbial Biology 411, 527

#### Required Options - Major Program

##### Earn at least 72 credits from the following:

- 6 units - Junior Science Breadth: one set of courses from either Computer Science, Earth, or Physics
- 12 units - Cell Biology Emphasis or Microbiology Emphasis
- 6 units - Options from the Field of Cellular, Molecular and Microbial Biology
- 18 units - Breadth Requirement: Options from faculties other than the Faculty of Science, excluding courses in Table I. Of these, at least 6 units must be from the Faculty of Arts. Science 311 may be counted among the courses from other faculties.
- 12 units - Non-Major Field Requirement: Options that are not in the Field of Cellular, Molecular and Microbial Biology
- 18 units - Options

#### Additional Comments:

#### Program Sequence

##### Type

Completion Requirement

##### Additional Comments:

##### First and Second Year Course Selection

The recommended first and second year course sequences for all programs offered by the Department of Biological Sciences are similar, but not identical. Thus, students should consult the Suggested Program Sequence charts below for the specific program they intend to pursue. Most students will initially enter the BSc in Biological Sciences but may apply for a change of program to a specialized program (Biochemistry; Cellular, Molecular and Microbial Biology; Ecology; Plant Biology; or Zoology) after they have successfully completed a minimum of 30 units. Students may begin planning their coursework for their specialized program from first year.

##### Recommended Program Sequence for the BSc in Cellular, Molecular and Microbial Biology

There is a [Recommended Course Sequence](#) for this program. This sequence describes both the recommended order in which courses should be taken and the recommended course(s) in instances where multiple courses may fulfill a degree requirement. All possible courses that may fulfill degree requirements are found in the Required Courses listed above.

Taking courses in the order of the [Recommended Course Sequence](#) will ensure students can complete their program in a timely fashion. The time to complete a program may be lengthened if students choose to complete their requirements in an alternate order.

### Enrolment Limitations in Programs, Admissions and Student Standing

Admission to programs in the department is competitive. Admission will be granted for Fall Term only and will be based upon academic merit. (New admissions to the University are always subject to [A.2](#) as stated in the Admissions section of this Calendar.)

Applications to the Department of Biological Sciences programs are accepted:

Directly from High School (see Section [3.2 Admission](#)) into either the Biological Sciences program, or into Honours Biochemistry; Honours Cellular, Molecular and Microbial Biology; Honours Ecology; Honours Plant Biology; or Honours Zoology.

From external transfer students and change of program requests from University of Calgary students into the Biological Sciences program.

Subject to the Honours qualifications set out in Subsection [3.2– Honours Programs](#), and to availability of space, students may request placement into any of the Honours programs offered by the Department.

From external transfer students and change of program requests from University of Calgary students into BSc programs in Biochemistry; Cellular, Molecular and Microbial Biology; Ecology; Plant Biology; and Zoology after completion of a minimum of 30 units.

Admission to Concentrations:

Biological Sciences students can apply to a concentration online through their Student Centre from October 1–February 1 for admission the following fall. The concentrations are optional and not required for program completion. Students can apply after

## UCalgary

their first year and up until their final year. To be admitted to the concentration, students must have completed 18 units, including Biology 241 and 243, before the February 1 deadline. In addition, students will require a competitive GPA, which will be determined annually and calculated using the most recent course work. See [A.5.3.1](#) for GPA computation guidelines.

Notes:

Any student in an Honours program is subject to the provisions for continuation in an Honours program, Subsections [3.2](#) and [3.4C](#).

Honours students in the Biological Sciences program who do not qualify for continuation in honours will be moved into the Biological Sciences Major BSc Program. Honours students admitted to a specialized program (Biochemistry; Cellular, Molecular and Microbial Biology; Ecology; Plant Biology; or Zoology) who do not qualify for continuation in honours may be moved into the Major BSc Program of their current specialized program. In order to be moved into the Major BSc Program of their current specialized program students must have completed 30 units prior to their review period and meet the minimum GPA requirement for admission into that specialized program. Students in honours in a specialized program who do not meet the preceding requirements will be moved into the Biological Sciences Major BSc program.

Students with a GPA of less than 2.000 are subject to the provisions of [3.7 Student Standing](#), B. Performance Review, Probationary Status and Dismissal.

### Transfers between Alberta Universities and Colleges

The Departments of Biological Sciences at the Universities of Alberta and Calgary and the Department of Biology at the University of Lethbridge have a transfer agreement in effect. The full details of the Biological Sciences Transfer Agreement are available in the Alberta Transfer Guide published by the Alberta Commission on Admissions and Transfer (ACAT) - [acat.alberta.ca](http://acat.alberta.ca).

## Program Details

### Simple Requisites

#### Faculty Requirements

##### Type

Completion Requirement

#### Faculty of Science Graduation Requirements

For Honours Degree requirements, or if completing this program as a Second Degree , refer to:

**Complete ALL of the following Requirement Sets:**

- Faculty of Science - Honours Degree Requirements
- Faculty of Science - Second Degree Programs

For other regulations related to the Faculty of Science, see: [3. Faculty of Science Regulations](#).

#### Additional Comments:

#### Department Regulations

##### Type

Completion Requirement

#### Additional Comments:

##### Department vs. Faculty Regulations

Programs in the Department of Biological Sciences are governed by a combination of general Faculty of Science regulations and the additional program specific regulations listed below.

It is **essential** for students to be familiar with **both** sets of regulations. It is helpful to read the [Faculty Regulations](#) first.

Students should consult Academic Requirements in their **Student Centre** periodically to ensure that requirements are being met. Also students are strongly urged to consult the Department and the **Undergraduate Science Centre (USC)** at all stages of their program.

## Enrolment Limitations in Courses

Enrolment in many courses offered by the Department of Biological Sciences is limited by available laboratory or tutorial space.

Consult the Schedule Builder in the Student Centre for details regarding enrolment in these courses.

## Courses Constituting the Field of Cellular, Molecular and Microbial Biology

### Type

Completion Requirement

#### Courses Constituting the Field of Cellular, Molecular and Microbial Biology

Students must successfully complete a minimum of 54 units, to a maximum of 78 units, in Courses Constituting the Field of Cellular, Molecular and Microbial Biology while fulfilling the Program Requirements.

#### Earn at least 54 credits from the following:

- Courses Constituting the Field of Cellular, Molecular and Microbial Biology

### Additional Comments:

## Program Requirements

### Type

Completion Requirement

#### Required Courses - Honours Program

#### Earn at least 57 credits from the following:

- 15 units - Biology 241, 243, 311, 331, 371
- 6 units - Chemistry 201 or 211; and 203 or 213
- 6 units - One of Mathematics 249 or 265 or 275; and one of Mathematics 211 or 213 or 267 or 277 or Statistics 327
- 3 units - Biochemistry 393
- 3 units - Cellular, Molecular and Microbial Biology 343
- 6 units - Chemistry 351 and 353
- 3 units - Biochemistry 431 or 443
- 6 units - Cellular, Molecular and Microbial Biology 411, 527
- 3 units - Cellular, Molecular and Microbial Biology 451
- 6 units - Cellular, Molecular and Microbial Biology 530

#### Required Options - Honours Program

#### Earn at least 63 credits from the following:

- 6 units - Junior Science Breadth: one set of courses from either Computer Science, Earth, or Physics
- 12 units - Cell Biology Emphasis or Microbiology Emphasis
- 3 units - Options from the Field of Cellular, Molecular and Microbial Biology at the 500 level
- 18 units - Breadth Requirement: Options from faculties other than the Faculty of Science, excluding courses in Table I. Of these, at least 6 units must be from the Faculty of Arts. Science 311 may be counted among the courses from other faculties.
- 24 units - Options

## Additional Comments:

### Program Sequence

#### Type

Completion Requirement

## Additional Comments:

### First and Second Year Course Selection Submit

The recommended first and second year course sequences for all programs offered by the Department of Biological Sciences are similar, but not identical. Thus, students should consult the Suggested Program Sequence charts below for the specific program they intend to pursue. Most students will initially enter the BSc in Biological Sciences but may apply for a change of program to a specialized program (Biochemistry; Cellular, Molecular and Microbial Biology; Ecology; Plant Biology; or Zoology) after they have successfully completed a minimum of 30 units. Students may begin planning their coursework for their specialized program from first year.

### Recommended Program Sequence for the BSc Honours in Cellular, Molecular and Microbial Biology

There is a [Recommended Course Sequence](#) for this program. This sequence describes both the recommended order in which courses should be taken and the recommended course(s) in instances where multiple courses may fulfill a degree requirement. All possible courses that may fulfill degree requirements are found in the Required Courses listed above.

Taking courses in the order of the [Recommended Course Sequence](#) will ensure students can complete their program in a timely fashion. The time to complete a program may be lengthened if students choose to complete their requirements in an alternate order.

### Degree Options

#### Type

Completion Requirement

#### Faculty of Science Degree Options

To complete an optional enhancement to this degree program, refer to:

#### Complete ANY of the following Requirement Sets:

- Faculty of Science - Co-operative Education Programs
- Faculty of Science - Combined and Concurrent Degree Programs with Other Faculties
- Faculty of Science - Combined Degree Programs Within the Faculty of Science
- Faculty of Science - Double Major and Double Honours Degree Programs
- Faculty of Science - Major Degree Requirements
- Faculty of Science - Minor Programs
- Faculty of Science - Second Degree Programs
- Double Major in the Department of Biological Sciences
- Arts and Science Honours Academy
- Embedded Certificates

## Additional Comments:

## Overview

### General Program Information

The MSc is offered jointly through the Department of Computer Science, Faculty of Science; School of Architecture, Planning and Landscape; and Department of Art, Department of English, and School of Creative and Performing Arts, Faculty of Arts. For simplifying the explanations in this document and for the purposes of CMD requirements, Art, Dance, Drama, English and Music, as well as Architecture, Planning and Landscape are jointly referred to as Arts and Design.

Students may register in the MSc program as part-time students only with permission from the CMD Advisory Committee.

## Specializations:

- [Wearable T](#)

Location: Science A Building, Room 229

Email address: <mailto:sci.grad@ucalgary.ca>

Web page URL: <http://www.ucalgary.ca/cmd/>

## Admissions

### Program Admissions Information

Deadlines for the submission of complete applications are available on the Future Students website:

<http://www.ucalgary.ca/future-students/graduate/explore-programs/computational-media-design-master-science-thesis-based>.

In addition to Faculty of Graduate Studies [admission requirements](#), the CMD program requires:

- While applicants from any discipline will be considered, undergraduate degrees in Art, Computer Science, Dance, Design, Drama, English or Music are preferred. An academic or professional background in one area is possible, but ideally applicants would have a background in two areas.
- For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 105 (internet-based test), a minimum IELTS score of 7.5 (minimum of 7.0 in each section), a minimum CAEL score of 70 (minimum of 70 in each component), a PTE score of 59 or higher, or a Cambridge C1 Advanced or Cambridge C2 Proficiency with a minimum score of 200 is required. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.
- A single page statement of interest. This is not a proposal, but a declaration of interest in interdisciplinary research in Art, Dance, Design, Drama, English or Music, and Computer Science.
- Applicants must submit a portfolio that provides up to ten examples of their research and creative work. This may include any combination of academic publications and reports, images, video, audio recordings, musical scores, documentation of installations, and written works. Applicants may provide a URL to portfolio items that cannot be uploaded through the application system.
- A curriculum vitae.
- Two reference letters.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

Graduate courses must be chosen in consultation with the supervisor(s) and approved by the CMD Director. In addition to the Faculty of Graduate Studies [requirements](#), the CMD program requires the following coursework:

15 units of coursework:

- 3-unit research methodology course chosen from Architecture, Planning and Landscape, Art, Computer Science, Dance, Drama, English, or Music;

- 3-unit Computer Science graduate-level course;
- 3-unit graduate-level course chosen from Architecture, Planning and Landscape, Art, Dance, Drama, English, or Music; and
- Two 3-unit graduate-level courses.

Additional courses may be required on a case-by-case basis as determined by the Supervisor and CMD Director.

Students are required to schedule and deliver a CMD seminar presentation on a topic related to their graduate research/creative practice.

A research proposal is required for Master's students. The proposal must be approved by both the supervisor and co-supervisor no later than twelve months after starting the program.

### Additional Program Information

#### Type

Completion Requirement

#### Additional Comments:

### Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma, or for courses taken to bring the grade point average to a required level for admission.

### Flexible Grade Option (CG Grade)

Students admitted to the Computational Media Program will not be allowed to request the **Flexible Grade Option (CG Grade)** for any course that is applicable to their degree; or apply any course awarded a grade of CG towards their graduation requirements.

Students may choose the CG grade for a course taken extra to load.

The use of the CG grade will affect students' eligibility for internal awards.

### Credit for Undergraduate Courses

Three units at the 500 level may be included as part of the coursework requirement but must be recommended by the supervisor(s) and approved by the CMD Director.

### Time Limit

Expected completion time is two years for the MSc, and maximum completion time is four years.

### Supervisory Assignments and Required Examinations

#### Type

Completion Requirement

#### Additional Comments:

### Supervisory Assignments

All students are required to have a supervisor and a co-supervisor, with one from Computer Science and one from Arts and design. Generally, students are admitted to a specific supervisor and co-supervisor. Sometimes students are admitted to a specific lab or research area only and are assigned an interim advisor.

Appointment of the Supervisor(s): CMD students will have a supervisor and a co-supervisor appointed on their acceptance letter. Students may seek a change in research area or supervisor after admission. The student must find a permanent supervisor and a permanent co-supervisor within six months of the start of the program. Such a change must be satisfactory to

the student, supported by the supervisors and approved by the CMD Director.

## Thesis Examination

In addition to the Faculty of Graduate Studies [thesis requirements](#), the program requires:

A thesis that describes the research conducted and/or the body of creative work completed is required to complete the CMD program. The thesis will set the research/work in its literary and new media context and present evidence that the work is worthy of either publication or external recognition. Graduating students will have to have demonstrated skills and expertise in Computer Science and Arts and Design. CMD encourages research and creative work that incorporates aspects of both Computer Science and Arts and Design, thus there is recognition for, and appreciation of, a thesis that represents an interdisciplinary balance between the fields.

### *Scheduling the Examination*

All members of the Supervisory Committee must have reviewed the student's research, including a relevant written sample of the materials related to the thesis, before the supervisor schedules an examination.

### *Composition of the Examination Committee*

The Internal Examiner may be internal to the CMD program. The CMD program membership includes the set of faculty members actively engaged in the program and the supervisor/co-supervisor's academic units (i.e., the Department of Computer Science within the Faculty of Science, Department of Art and School of Creative and Performing Arts within the Faculty of Arts, or School of Architecture, Planning and Landscape).

## Financial Assistance

### Type

Completion Requirement

### Additional Comments:

Financial assistance may be available to qualified students. For information on awards see the [Awards and Financial Assistance](#) section of the calendar. Successful applicants may be offered departmental teaching assistantships and/or research assistantships in their offer letter.

Students applying for scholarships must submit their applications as appropriate according to the requirements of the scholarships. For the most up-to-date information, please see the [CMD website](#).

## Overview

### General Program Information

The PhD is offered jointly through the Department of Computer Science, Faculty of Science; School of Architecture, Planning and Landscape; and Department of Art, Department of English, and School of Creative and Performing Arts, Faculty of Arts. For simplifying the explanations in this document and for the purposes of CMD requirements, Art, Dance, Drama, English and Music, as well as Architecture, Planning and Landscape are jointly referred to as Arts and Design.

Students may register in the PhD program as part-time students only with permission from the CMD Advisory Committee.

### Specializations:

Location: Science A Building, Room 229

Email address: <mailto:sci.grad@ucalgary.ca>

Web page URL: <http://www.ucalgary.ca/cmd/>

## Admissions

### Program Admissions Information

Deadlines for the submission of complete applications are available on the Future Students website:

<http://www.ucalgary.ca/future-students/graduate/explore-programs/computational-media-design-doctor-philosophy-thesis-based>.

In addition to Faculty of Graduate Studies [admission requirements](#), the CMD program requires:

- a) While applicants from any discipline will be considered, undergraduate degrees in Art, Computer Science, Dance, Design, Drama, English or Music are preferred. An academic or professional background in one area is possible, but ideally applicants would have a background in two areas.
- b) A master's degree from an accredited/recognized institution.
- c) For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 105 (internet-based test), a minimum IELTS score of 7.5 (minimum of 7.0 in each section), a minimum CAEL score of 70 (minimum of 70 in each component), a PTE score of 59 or higher, or a Cambridge C1 Advanced or Cambridge C2 Proficiency with a minimum score of 200 is required. This requirement can also be met by completing the [Academic Communication Certificate](#) with a minimum grade of "A-" in each course.
- d) A single page statement of interest. This is not a proposal, but a declaration of interest in interdisciplinary research in Art, Dance, Design, Drama, English or Music, and Computer Science.
- e) Applicants must submit a portfolio that provides up to ten examples of their research and creative work. This may include any combination of academic publications and reports, images, video, audio recordings, musical scores, documentation of installations, and written works. Applicants may provide a URL to portfolio items that cannot be uploaded through the application system.
- f) A curriculum vitae.
- g) Two reference letters.

For exceptional students applying directly to the PhD program with only a bachelor's degree, all the requirements for a Master of Science apply, plus a demonstrated exceptional research and/or creative ability. These direct entry students will be considered on a case-by-case basis.

## Program Details

### Simple Requisites

#### Program/Course Requirements

##### Type

Completion Requirement

##### Additional Comments:

Graduate courses must be chosen in consultation with the supervisor(s) and approved by the CMD Director. In addition to the Faculty of Graduate Studies [requirements](#), the CMD program requires the following coursework:

Doctoral students must complete at least three graduate-level courses (9 units) while enrolled as a PhD student in Computational Media Design at the University of Calgary.

As agreed upon between the student and supervisory committee, breadth\* courses may be required as follows:

- 3-unit research methodology course chosen from Architecture, Planning and Landscape, Art, Computer Science, Dance, Drama, English, or Music;
- 6 units of Computer Science graduate-level courses;
- 6 units of graduate-level courses chosen from Architecture, Planning and Landscape, Art, Dance, Drama, English, or Music.

\*Alternative breadth courses that satisfy the student, the supervisor(s), the supervisory committee, and the CMD Director may be proposed in special cases.

Students are required to schedule and deliver a CMD seminar presentation on a topic related to their graduate research/creative practice.

A research proposal is required for Master's students. The proposal must be approved by both the supervisor and co-supervisor no later than twelve months after starting the program.
